H. Unless approved by city council, encroachment agreements approved administratively pursuant to subsection D shall be signed by the director of public works or designee.

I. Nothing in this section shall apply to obstructions or improvements installed:

1. By or on behalf of the city; or

2. By another governmental agency acting in accordance with an interlocal or cooperative agreement with the city that has been approved by city council.

J. For purposes of this chapter:

1. "Encroachment agreement" includes any agreement, however named, that by its terms authorizes an encroachment or obstruction.

2. "Obstruction" means a structure, installation, amenity or improvement of any kind within the right-of-way, street, sidewalk or alley. This term includes any tree, plant, or shrub that overhangs a sidewalk less than ten feet above the sidewalk or less than 16 feet and four inches above any street, or any overhanging foliage that presents a danger to the public.

(Ord. No. 4042, § 1, 11-6-2024; Ord. No. 3380, § 2, 1-3-2017)

11.03.020 Removal—Dangerous or unsafe obstruction.

The director of public works, parks and recreation shall cause all obstructions above, across or under the streets of the city, which upon investigation may be considered dangerous or unsafe to the public using such streets, to be removed. Any person failing or refusing to obey the order directing the removal of such obstruction shall forfeit and pay a penalty of $500.00 for each day such obstruction shall be allowed to remain after the notice of removal shall have expired.

(Ord. No. 3380, § 2, 1-3-2017)

11.03.030 Sidewalks and streets to be free of landscaping, building, and other materials—Abutting owner's duties—Civil liability—Indemnity.

A. Owner and/or occupant of property shall not allow off-premises delivery of materials. The owner or occupant of property shall not direct or permit the delivery of landscaping, building, or other material on the public sidewalk, public street, or otherwise off, of the owner or occupant's property.

B. Off-premises delivery of materials prohibited. No person shall deliver landscaping, building, or other material on the public sidewalk, public street or otherwise off, of the premises of the deliveree.

C. Maintenance of sidewalks. Owners and/or occupiers of private property shall maintain in good and safe condition all public sidewalks abutting their land by not placing or allowing to be placed or to remain any object which may reasonably constitute a hazard to a pedestrian. No person may place any object on a public sidewalk which may reasonably constitute a hazard to a pedestrian.

D. Ice removal. No person owning or controlling any premises abutting upon any public sidewalk within the city shall permit any such sidewalk to be covered with ice formed by water which came from the private premises. It shall be the duty of any such person to remove any ice accumulating on such sidewalk.

E. Liability. Any person who violates this Section shall be liable for any injuries proximately resulting therefrom.

F. Indemnity. Whenever any injury proximately results from a violation of any of subsections A through D of this section, the violator shall be liable to the City of Henderson for all damages and costs which the City of Henderson may be required to pay by reason of a judgment or settlement to the person damaged.

G. Penalties. Any person violating any of the provisions of this section shall be deemed guilty of a misdemeanor. Each day such a violation is committed or permitted to continue shall constitute a separate offense and shall be punishable as such hereunder.

H. Applicability. The provisions of this section shall only apply to public sidewalks and streets. As used in this section, no sidewalk or street shall be considered public unless all of the following have occurred:

1. The sidewalk or street has been dedicated to the City of Henderson;

2. The City of Henderson has accepted maintenance of such sidewalk or street; and

3. The City of Henderson has released any bond for public improvements posted with the City of Henderson by the developer constructing the sidewalk or street.

(Ord. No. 3380, § 2, 1-3-2017)

Chapter 11.04 BARRICADES

Sections:

11.04.010 Permit required.

11.04.010 Permit required.

A. Except as previously authorized by the director of public works, parks and recreation, no person, firm, corporation or other entity shall temporarily, whether partially or fully, close or obstruct any city street, highway, freeway, or alley, or any portion thereof, without first obtaining a barricade permit from the director of public works, parks and recreation or an authorized agent thereof, except:

1. Under emergency conditions;

2. Pursuant to a special events permit; or

3. Pursuant to activities authorized by the director of public works, parks and recreation.

B. Unless otherwise instructed by the director of public works, parks and recreation, any person, firm, corporation, or other entity that closes or obstructs a street, highway, freeway, or alley shall place the proper barricades on such roadway in accordance with the Manual on Uniform Traffic Control Devices on file with the city clerk.

C. Reserved.

D. Only persons, contractors, owners or other individuals who are properly licensed and bonded for performance of work within public rights-of-way shall be issued a permit for any work, cause the deposit of materials, or use the rights-of-way for other than normal operation of motor vehicles and pedestrians.

E. Where barricades or other traffic-control devices are left within the travel lanes or sidewalk areas of a right-of-way for longer than the period authorized by a permit, or at time unauthorized by the permit, the city is authorized to charge a correction fee, including fees charged on a per-unit of equipment basis, in accordance with the fee schedule established pursuant to chapter 11.07.

F. As used in this chapter, emergency conditions shall mean any condition or occurrence which poses an imminent or existing threat to the safety or security of persons or property. As soon as reasonably possible, emergency conditions shall be reported to the city and a barricade permit shall be obtained.

G. As used in this chapter, the word obstruct does not include sporadic or intermittent access to the right-of way by a person who:

1. Is authorized by the director of public works, parks and recreation to enter the right-of-way; and

2. Has no discernable impact on the flow of traffic or pedestrians.

(Ord. No. 3380, § 2, 1-3-2017)

Chapter 11.05 SIDEWALKS AND RIGHT-OF-WAY

Sections:

11.05.010 Removal of unauthorized sidewalks.
11.05.020 Force removal of unauthorized sidewalks.
11.05.030 Sweeping onto sidewalk, street or gutter.
11.05.040 Running water—Broken pipes.
11.05.050 Display, parking and sale of motor vehicles or merchandise on or within any unimproved public right-of-way.

11.05.010 Removal of unauthorized sidewalks.

Any person, firm or corporation failing to construct sidewalks in compliance with this chapter and applicable standards, or any person, firm or corporation not having on record with the city clerk a receipt for permit and inspection fees, may be ordered in writing, by the director of public works, parks and recreation, or designee, to remove constructed sidewalks within five days.
(Ord. No. 3380, § 2, 1-3-2017)

11.05.020 Force removal of unauthorized sidewalks.

In the event of the failure of any person, firm or corporation to remove constructed sidewalks as provided in section 11.05.010, the director of public works, parks and recreation, or designee, may order the city maintenance superintendent to remove and replace constructed sidewalks, or such defective or unacceptable sidewalks, as he deems in the best interest of the City of Henderson, and bill the person, firm or corporation for actual man-hours, materials and equipment used in removal and replacement thereof.
(Ord. No. 3380, § 2, 1-3-2017)

11.05.030 Sweeping onto sidewalk, street or gutter.

A. It shall be unlawful for any person to sweep dust, dirt, accumulations, refuse or deposits from any building onto any public sidewalk in the city. Such dust, dirt, accumulations, refuse or deposits shall be gathered up and deposited into some suitable receptacle.

B. It shall be unlawful for any person to sweep the dust, dirt, accumulations, refuse or deposits on any public sidewalks into any street or gutter within the city.
(Ord. No. 3380, § 2, 1-3-2017)

11.05.040 Running water—Broken pipes.

A. It shall be unlawful for any person owning or controlling any hose, water pipe, ditch, canal, flume, lawn sprinkling system or waterway to allow or permit water from the same or any part thereof, or through or from either or through or from any other source, to flow over

or into any sidewalk, street, alley or public place; provided, however, that nothing herein shall be construed as preventing the wetting of any sidewalk, alley, street or public place for the purpose of cleaning the same or allaying the dust thereon, or to the accidental breaking of any such hose, water pipe, ditch, canal or flume, landscape sprinkling system or waterway; provided, however, that such break shall be repaired or the flow of water through the same shall be abated within two hours after notice of such break is given to any person who owns or occupies, or to the manager, superintendent, agent or officer of any company, corporation, association or organization that owns, controls or maintains such water pipe, ditch, canal or flume, lawn sprinkling system or waterway or has any pecuniary interest therein. If such break is not repaired or the water turned off within such time, it shall be the duty of the director of public works, parks or recreation; or designee, the director of utilities, or designee; or any police officer, to cause the water flowing through such hose, water pipe, ditch, canal, flume, lawn sprinkling system or waterway to be shut off, and it shall be unlawful for any person to again turn water through the same until proper repairs have been made.

B. Any person who violates any portion of subsection A is guilty of a misdemeanor and upon the conviction thereof shall be fined:

1. If the property from which the water is flowing is zoned R-1, in an amount that is determined by the municipal court to be appropriate under the attendant circumstances; or

2. If the property from which the water is flowing is subject to a zoning classification that is less restrictive than R-1:

a. Upon the first conviction, a minimum of $10.00;

b. Upon the second conviction within a period of three years, a minimum of $250.00; and

c. Upon the third conviction within a period of three years and upon each subsequent conviction within such period, a minimum of $500.00.

(Ord. No. 3380, § 2, 1-3-2017)

11.05.050 Display, parking and sale of motor vehicles or merchandise on or within any unimproved public right-of-way.

A. It is unlawful for any person to sell or to display for the purpose of sale any motor vehicle or merchandise on or within any unimproved portion of a public right-of-way. For purposes of this section, "merchandise" means goods or wares, including, but not limited

to, produce, nursery stock, ceramics and other similar items. A violation of this subsection A may be enforced either by means of a criminal proceeding or as a civil violation under this title.

B. Members of the Henderson Police Department are authorized to remove or cause to be removed, to a designated garage or storage area, any motor vehicle which is being displayed in violation of this section if the vehicle has not been removed within 72 hours after a written notice to remove is attached to the vehicle. The costs of removal and storage shall be borne by the owner or operator of the vehicle.

C. Nothing in this section shall be deemed to authorize any sale or display on any improved portion of a public right-of-way except that which is otherwise expressly permitted by this Code.

(Ord. No. 3380, § 2, 1-3-2017)

Chapter 11.06 CONSTRUCTION, MAINTENANCE AND REPAIR OF SIDEWALKS, TRANSITION STRIPS, AND MEDIANS

Sections:

11.06.010 Purpose.
11.06.020 Definitions.
11.06.030 Installation of new sidewalk.
11.06.040 Maintenance and repair of existing sidewalks.
11.06.050 Maintenance of transition strip.
11.06.060 Maintenance of the median.
11.06.070 Noncompliance—Notice or approval.
11.06.080 Appeal procedure.
11.06.090 Necessity for remedial action.
11.06.100 Appeal hearing—Determination by council.
11.06.110 Remedial action—Cost—Time limit.
11.06.120 Remedial action—Nonpayment—Statement.
11.06.130 Standards and inspection.
11.06.150 Compliance.

11.06.010 Purpose.

It is the purpose of this chapter to:

A. Require the property owners abutting the public right-of-way to maintain the unimproved portion of the right-of-way referred to as a transition strip whenever necessary to the public health, safety, welfare and benefit;

B. Require the property owner abutting the public right-of-way to construct new sidewalk, or maintain or repair existing sidewalk whenever necessary to the public health, safety, welfare and benefit;

C. Require private persons or entities that are responsible for maintaining the medians within public rights-of-way to provide proper maintenance and upkeep;

D. Assure the uniform and safe development of the public right-of-way within the city by requiring that sidewalks be constructed, maintained and repaired in accordance with those standards adopted by the city.

(Ord. No. 3380, § 2, 1-3-2017)

11.06.020 Definitions.

For purposes of this chapter, the following definitions shall be applicable:

Maintenance means the upkeep, cleaning or preservation of the transition strip or existing sidewalk, including the trimming or removal of vegetation, which is necessary to insure the public health, safety, welfare and benefit.

Median or *median strip* means the strip of land between lanes of opposing traffic on a divided roadway.

Repair means the cutting, removing or replacing of existing sidewalk.

Sidewalk means that portion of the public right-of-way which has been improved for pedestrian traffic.

Transition strip means the unimproved portion of the public right-of-way, including any vegetation growing thereon, lying between the back of the curb, or in the event there is no curb then that portion between the end of the paved street, and the property line of the property abutting the public right-of-way.
(Ord. No. 3380, § 2, 1-3-2017)

11.06.030 Installation of new sidewalk.

It shall be the responsibility of the property owner to install new sidewalk along the transition strip whenever necessary to the health, safety, welfare and benefit of the public or as determined by the director of public works, parks and recreation.
(Ord. No. 3380, § 2, 1-3-2017)

11.06.040 Maintenance and repair of existing sidewalks.

It shall be the responsibility of the property owner to maintain and repair existing sidewalk whenever necessary to the health, safety, welfare and benefit of the public.
(Ord. No. 3380, § 2, 1-3-2017)

11.06.050 Maintenance of transition strip.

It shall be the responsibility of the property owner to maintain the transition strip abutting his property whenever necessary to the health, safety, welfare benefit, and beautification of the public.
(Ord. No. 3380, § 2, 1-3-2017)

11.06.060 Maintenance of the median.

If a median strip is not owned by the city, or if the median strip is maintained by a third party through an agreement with the city, it shall be the responsibility of the median strip property owner or contractee to maintain the median strip whenever necessary to the health, safety, welfare, benefit and beautification of the public.
(Ord. No. 3380, § 2, 1-3-2017)

11.06.070 Noncompliance—Notice or approval.

Whenever the owner has failed to install a new sidewalk, maintain or repair an existing sidewalk, or maintain the transition strip as required by this chapter, the director of public works, parks and recreation, or designee, may notify the abutting property owner in writing that he has 30 days in which to remedy the situation or to file an appeal with the city council. The notice shall also state that in the event the property owner fails to take appropriate action or file an appeal to the city council that a lien may be imposed by the city against the property for the cost of remedying the situation.
(Ord. No. 3380, § 2, 1-3-2017)

11.06.080 Appeal procedure.

In the event that the property owner elects to appeal, then the property owner shall notify the city clerk in writing who shall set a hearing date before the city council. Written notification of the hearing date shall be sent to the property owner at least seven days before the scheduled hearing.
(Ord. No. 3380, § 2, 1-3-2017)

11.06.090 Necessity for remedial action.

If after the expiration of 30 days from the date of receipt of the written notice required by section 11.06.070, the property owner has refused or failed to install new sidewalk as required by section 11.06.030, maintain or repair existing sidewalk as required by section 11.06.040 or to maintain the transition strip or median strip as required by section 11.06.050 or section 11.06.060 respectively, and the property owner has not appealed the written notice from the director of public works, parks and recreation as provided under section 11.06.080, then such refusal or failure and lack of appeal shall be reported to the city council. The city council shall determine if the remedial action, as recommended by the director of public works, parks and recreation is necessary and if so, the city council may instruct and authorize the director of public works, parks and recreation to proceed with remedial action.
(Ord. No. 3380, § 2, 1-3-2017)

11.06.100 Appeal hearing—Determination by council.

In the event of hearing as provided by section 11.07.080, the property owner may present evidence for consideration by the city council. After considering the presentations and evidence of both the property owner and the department of public works, parks and recreation, the city council shall determine if remedial action on the part of the property owner is necessary to the health, safety, welfare or benefit of the public. If such action is

found to be necessary to the public health, safety, welfare or benefit, then the property owner shall be notified of the decision of the city council that remedial action shall be commenced and completed within ten days from the date of notification of the city council's decision and that failure to complete such action shall result in the department of public works, parks and recreation proceeding with such remedial action and a lien being placed against the property of the abutting property owner for the costs incurred by the city.
(Ord. No. 3380, § 2, 1-3-2017)

11.06.110 Remedial action—Cost—Time limit.

Subsequent to the completion of the work, the director of public works, parks and recreation shall forward to the property owner a statement as to cost incurred by the city in connection with the remedial action and informing the property owner that failure to pay the amount stated therein within 30 days from the date of the statement shall result in a lien being assessed against the property of the property owner.
(Ord. No. 3380, § 2, 1-3-2017)

11.06.120 Remedial action—Nonpayment—Statement.

If after the expiration of the 30-day period provided under section 11.06.110 the property owner has failed to reimburse the city for the costs of the remedial action, the city clerk shall forward to the county recorder's office a sworn statement stating the location of the work performed by the city, the date the remedial action was completed, the amount to be assessed as a lien which amount is to equal the cost of the remedial action plus ten percent and identifying the property subject to the assessment.
(Ord. No. 3380, § 2, 1-3-2017)

11.06.130 Standards and inspection.

The construction of new sidewalk, or the maintenance or repair of existing sidewalk, shall be in accordance with the standards and specifications described in section 11.01.010 of this title. Upon completion of the construction, maintenance or repair, the sidewalk shall be inspected and approved by the department of public works, parks and recreation.
(Ord. No. 3380, § 2, 1-3-2017)

11.06.150 Compliance.

It is unlawful for any person including the owner of property abutting the public right-of-way, or the agent, servant, contractor or employee of the owner, to construct new sidewalk or to repair existing sidewalk located within the public right-of-way within the city if the construction or repair does not comply with the standards and specifications provided for in

section 11.01.010 of this title. Any approval of the survey lines or grades submitted by the property owner or his agent, servant, contractor or employee does not relieve the property owner for the accuracy of said survey lines and grades.
(Ord. No. 3380, § 2, 1-3-2017)

Chapter 11.07 FEES—AUTHORIZATION AND PAYMENT

Sections:

11.07.010 Fees—Authorization and payment.

11.07.010 Fees—Authorization and payment.

A. The director of public works, parks and recreation is authorized to charge fees in connection with the issuance of any permit required by this chapter. Such fees may include fees associated with plan checking and inspection, fees for services performed by or on behalf of the city in implementing this chapter, fees relating to noncompliance with the provisions of this chapter, fees for closure of the right-of-way, and fees associated with corrective action required under this chapter.

In connection with the issuance of a permit, the city is authorized to establish and collect an additional fee to cover work that was previously performed by or on behalf of the applicant without the benefit of a valid permit. In addition, the city is authorized to charge fees for noncompliance with permit requirements set forth in this title.

B. Permit fees established pursuant to this chapter shall be paid before the issuance of a permit. Inspection and service fees shall be paid before any work is done. In connection with fees that are required in order to recover the city's costs in performing corrective action, the city is authorized to charge the permittee the cost of the work, and may calculate the cost in the same way that the cost of extra and force account work is determined and charged under the standard specifications. The city may collect the amount so charged by any available means. In cases where the corrective work is the responsibility of the abutting property owner, collection efforts may include making the amount a charge against the abutting property and recording an appropriate lien against the property.

C. Except as otherwise provided in this chapter, the fees chargeable by the city pursuant to this section shall be those that are set forth in a fee schedule that shall be approved and amended from time to time by resolution of the director of public works, parks and recreation, or designee.

(Ord. No. 3380, § 2, 1-3-2017)

Chapter 11.08 FEES FOR CLOSURE OF RIGHT-OF-WAY

Sections:

11.08.010 Right-of-way fees and occupancy charges.
11.08.012 Definitions.

11.08.010 Right-of-way fees and occupancy charges.

A. Schedule of right-of-way fees.

1. Barricade permit fee.

a. The barricade permit fee shall be $200.00.

b. The barricade permit fee shall be paid with the barricade permit application, or, pursuant to an emergency condition described in subsection 11.02.070 A., as soon as reasonably possible.

2. Right-of-way occupancy charge.

a. Calculation of the fees for a right-of-way occupancy charge shall commence on the fourth day following the effective date of the barricade permit fee for the lane closure.

b. The fee shall be $50.00 per day for each lane that is closed at any time of the day.

c. The right-of-way occupancy charge will be billed once the right-of-way work is complete and the lane re-opened; amounts billed shall be due within 30 days after a bill is issued; fines or penalties will begin to accrue on the 31st day after the bill is issued.

d. A right-of-way occupancy charge shall not be assessed for work performed during a continuing emergency condition described in subsection 11.02.070 A. or for work performed within rights-of-way managed by the State of Nevada or the United States Government.

(Ord. No. 3380, § 2, 1-3-2017)

11.08.012 Definitions.

For purposes of this chapter, the following definition shall be applicable:

Lane means the portion of the public roadway utilized for the movement of a single line of vehicles, both motor vehicle and bicycle.

(Ord. No. 3380, § 2, 1-3-2017)

Chapter 11.09 PENALTY FOR VIOLATION OF TITLE

Sections:

11.09.010 Misdemeanors.
11.09.020 Alternative to criminal prosecution.
11.09.030 Notice of violation—Required information.
11.09.040 Notice of violation—Issuance.
11.09.050 Notice of violation—Filing.
11.09.060 Notice of violation—Response—Hearings.
11.09.065 Notice of violation—Response period.
11.09.070 Collection fees.
11.09.080 Public nuisance abatement.

11.09.010 Misdemeanors.

Any person violating any of the provisions of this title shall be guilty of a misdemeanor; and, upon conviction thereof, shall be punished as the law allows for a misdemeanor crime. Whenever in this chapter any act is prohibited, or is made or declared to be unlawful, or an offense or a misdemeanor, or whenever in such chapter the doing of any act is required, or the failure to do any act is made or declared to be unlawful, or an offense or misdemeanor, the doing of any such prohibited act, or the failure to do any such required act, shall constitute a violation of this chapter. Every day of violation of this chapter constitutes a separate offense. Any person being adjudged guilty of a violation of this chapter or any of the provisions or prohibitions thereof may, in the discretion of the council, be denied a license thereafter.
(Ord. No. 3380, § 2, 1-3-2017)

11.09.020 Alternative to criminal prosecution.

As an alternative to criminal prosecution for a violation of any provision of title 11, the city may impose a civil penalty in accordance with the provision of this chapter.
(Ord. No. 3380, § 2, 1-3-2017)

11.09.030 Notice of violation—Required information.

A. A civil penalty under this chapter shall be imposed by the issuance of a notice of violation by the city. The notice of violation must contain, at a minimum, the following information:

1. The name and address (if known) of the person or entity responsible for the violation;

2. A brief description of the violation and a reference to the applicable ordinance or code citation(s);

3. The location, date and time of the violation;

4. The name of the person issuing the notice of violation;

5. The amount of the civil penalty; and

6. Information advising of the manner and time for responding to the notice of violation.

B. No error concerning, or omission of, any of the above-described information is grounds for the dismissal of a proceeding relating to a notice of violation unless the person requesting the dismissal demonstrates substantial prejudice from the error and/or omission.

C. Where the notice of violation data is entered into and stored in a computer or similar device, any printout or other output readable by sight that accurately reflects such data is an original notice of violation for purposes of a proceeding under this chapter. Any such data entry that is moved or copied into another computer or similar device is intended to constitute an additional or replacement of the record of the data by the issuing officer or employee and is also an original notice of violation for purposes of a proceeding under this chapter.

D. Any notice of violation issued pursuant to this chapter shall constitute a declaration which is subject to the penalty of perjury.
(Ord. No. 3380, § 2, 1-3-2017)

11.09.040 Notice of violation—Issuance.

The notice of violation may be issued by any peace officer or by any authorized officer or employee of the department of public works, parks and recreation.
(Ord. No. 3380, § 2, 1-3-2017)

11.09.050 Notice of violation—Filing.

An original notice of violation, or a facsimile thereof, must be filed with and retained by the department of public works, parks and recreation. A notice of violation is prima facie evidence of the facts which are alleged therein. The notice of violation must be served on the person responsible for the violation or, in the case of an entity, an officer, key employee, manager in charge, or registered agent of that entity. A notice of violation may be served on the person responsible for the violation either personally or by registered or certified mail, return receipt requested, at the address on file with the department of public works, parks and recreation.
(Ord. No. 3380, § 2, 1-3-2017)

11.09.060 Notice of violation—Response—Hearings.

A. The person cited must respond to a notice of violation within the time prescribed by section 11.10.070 of this chapter in one of the following ways:

1. Admit responsibility for the commission of the violation and liability by paying the amount of the civil penalty; or

2. Dispute the notice of violation by requesting a hearing before a hearing officer. A hearing may be requested by sending a written request to the director of public works, parks and recreation with the following information:

a. The name of the individual on the notice of violation;

b. The current address of the individual; and

c. The notice(s) of violation(s) which the person wishes to dispute at the hearing.

B. After receipt of a person's written request for a hearing, the director of public works, parks and recreation shall set a hearing date and provide notice of the hearing to the person requesting it at least 14 days before the date of the hearing.

C. Any hearing conducted pursuant to this chapter shall be presided over by a hearing officer appointed pursuant to section 4.06.100. With respect to any such hearing, a properly filed notice of violation shall constitute a claim of liability and a claim for relief and no other such claim shall be required. Prima facie proof of the violation alleged shall be established by the city providing the hearing officer with either a certified copy of the notice of violation or the data stored in a computer or other device as described in subsection 11.09.030(C). No formal appearance by the city attorney's office is required at the hearing. The hearings and dispositions of all such actions shall be informal, with the hearing officer receiving witness statements or testimony and other evidence for the sole purpose of dispensing a fair and speedy resolution between the parties.

D. Any person initiating a hearing pursuant to this chapter shall be referred to as "defendant". If a defendant requesting a hearing before the hearing officer fails to appear at the hearing without having first sought and obtained a continuance of the hearing, the hearing officer may enter a decision against the defendant for the full amount of the civil penalty scheduled to be reviewed. The burden of proving any defense shall be upon the person raising such defense.

E. If the hearing officer finds that a violation did not occur or that the defendant should not be held liable, the hearing officer shall enter a decision for the defendant.

F. The defendant shall pay the total civil penalty forthwith or at such times and on such conditions as the hearing officer shall prescribe if it is found that the person has either failed to appear or otherwise defend against the issuance of the notice of violation as agreed or that the violation was committed and no applicable defense exists. Any decision by the hearing officer pursuant to this chapter shall be a final determination.

G. Upon reaching a decision, the hearing officer shall, as soon as practicable thereafter, file a written decision with the director of public works, parks and recreation substantially conforming to the following form:

City of Henderson, Clark County, Nevada

City of Henderson, Plaintiff v. _____, Defendant. Before, _____, Hearing Officer for the City of Henderson, Nevada, decision is entered in favor of _____, (plaintiff or defendant) for $_____/_____/_____ (enter $0.00 if judgment is for the defendant), on the _____ day of _____/_____/_____, 20_____. Any payments are due in full within ___ days of the date hereof to the City of Henderson Finance Department.

I certify that the foregoing is a correct reflection of the decision entered in the proceeding properly brought for my consideration pursuant to HMC _____ et seq.

_____

Hearing Officer

H. The city attorney may petition the Henderson municipal court for the entry of a civil judgment against the defendant in an amount equal to that stated in the written decision of the hearing officer if the city attorney determines this action to be necessary to enforce the decision. Service of such petition on the defendant must be made by certified mail, return receipt requested, restricted delivery, addressed to the defendant at the defendant's last known address, or in any other manner which is authorized by law. An affidavit or declaration of mailing, a signed, returned receipt, or other evidence of service of the civil judgment shall be filed upon such service of the petition.
(Ord. No. 3380, § 2, 1-3-2017)

11.09.065 Notice of violation—Response period.

A. A response to a notice of violation, as provided in section 11.09.060, must be made within 30 calendar days after the date on which the notice of violation is served. If no response is received during such 30-day period, an additional civil penalty which is equal to the amount of the original civil fine may be assessed.

B. If a person does not respond to a notice of violation within the 30-day response period, the director of public works, parks and recreation, or an authorized designee, shall send a notice of delinquency by mail to the person responsible for the violation or, in the case of an entity, an officer, key employee, manager in charge, or registered agent of that entity at the address on file with the department of public works, parks and recreation.

C. The notice of delinquency shall contain the original date of the violation, the amount of the civil fine and the amount of any late penalty which is associated therewith. The person responsible for the violation or, in the case of an entity, an officer, key employee, manager

in charge, or registered agent of that entity has 15 calendar days after the date of the notice of delinquency in which to respond to the department of public works, parks and recreation. If no response is made to the notice of delinquency within such additional 15-day period, an additional civil penalty may be assessed equal to the original civil penalty imposed and the matter may be referred to the city attorney's office to initiate proceedings to suspend and/or revoke the business license or permit.

D. If a person fails to respond to a notice of violation or a notice of delinquency in accordance with this chapter, the city is entitled to collect the amount of any fines and penalties by means of any remedy available under applicable law, including without limitation referring the matter to a collection agency and initiating proceedings to suspend and/or revoke the person's business license or permit.
(Ord. No. 3380, § 2, 1-3-2017)

11.09.070 Collection fees.

In addition to the civil penalties assessed pursuant to this chapter, the person responsible for any violation shall be liable for an additional collection fee where the collection of the penalties provided for herein is referred for collection. The amount of such fee shall be 25 percent of the outstanding indebtedness or $250.00, whichever is less. The amount of any such collection fee shall accrue and become due and payable at the time the indebtedness is referred for collection to the collection agency, and that amount may be added by the collection agency to the amount sought to be collected. Any judgment or amended judgment entered under this chapter may include the amount of the collection fee authorized herein.
(Ord. No. 3380, § 2, 1-3-2017)

11.09.080 Public nuisance abatement.

Any continuous violation of title 11 is a threat to the public health, safety, and morals and constitutes a public nuisance to the general public. In addition to any civil penalties provided herein, the city may abate the nuisance or apply for other equitable relief pursuant to section 1.05.040.
(Ord. No. 3380, § 2, 1-3-2017)

Chapter 11.10 BONDING

Sections:

11.10.010 Bond required.
11.10.020 Deposit lieu of bond.
11.10.030 Waiver.

11.10.010 Bond required.

Any person obtaining a permit for any of the purposes designated in this title shall, before commencing work upon or in any manner changing the surface of the street, highway, avenue or alley or as a condition of maintaining an obstruction or encroachment in the right-of-way pursuant to chapter 11.03, execute to the city a bond to be approved by the director of public works, parks and recreation, or designee, in such sum as shall be designated by the director of public works, parks and recreation, or designee, as necessary for the proper protection of the city. Such bond shall be conditioned that the obligors of the bond will pay to the city the amount of the bond, should the person obtaining such permit fail, neglect or refuse to complete the excavating, grading, paving, leveling, repairing, sidewalking, crosswalking or filling in the public street, highway, avenue, or alley for which such permit was obtained, within the time stated in the permit; fail, neglect or refuse to restore the street, highway, avenue or alley in proper condition to the satisfaction of the director of public works, parks and recreation, or designee, after the work provided for in the permit has been finished, and to keep the same in such condition for at least six months thereafter, reasonable wear thereof excepted, refilling any such excavation during such time, whenever and wherever it may sink or settle below the surface of the street, alley, sidewalk, highway, avenue or place, and without notice to do so from the director of public works, parks and recreation, or designee; or fail to comply with the terms of the encroachment agreement described in chapter 11.03 of this title. Instead of special bonds to cover particular work, any person intending to make excavations in public streets, alleys, or any public places in the city may make and maintain with the city a general cash bond in the sum of $50,000.00, which general bond shall be conditioned and used for the same purpose as the special bond hereinbefore described in this section, covering all work to be done instead of any particular piece of work; and while such general bond is maintained at the sum of $50,000.00, such person shall not be required to make the special bond hereinbefore in this section provided, but shall be required to comply with all the other provisions of this title.

(Ord. No. 3380, § 2, 1-3-2017)

11.10.020 Deposit lieu of bond.

Instead of executing the special bond required by section 11.10.010, a deposit in money in the same amount may be made with the director of public works, parks and recreation,

or designee, to be held under the same conditions as provided for such bond, except that when such excavation is refilled and the surface of the street, alley, sidewalk, highway, public square or place is restored as provided for herein, one-half of such deposit shall be returned and the other one-half of such deposit shall be retained for a period of six months after the completion of the excavation; and at the expiration of such time shall be returned to the person so depositing the same; provided, further, that the director of public works, parks and recreation may use any part or all of such deposit in restoring and in maintaining, at a reasonable cost, such street, alley, sidewalk, highway, public square or place, as required in section 11.10.010, whenever the person making such excavation fails or neglects to comply with the requirements of such section.
(Ord. No. 3380, § 2, 1-3-2017)

11.10.030 Waiver.

The director or public works, parks and recreation, or designee, may waive any bonding requirement prescribed by this chapter if, in the opinion of the director of public works, parks and recreation, or designee, no such bonding requirement is necessary.
(Ord. No. 3380, § 2, 1-3-2017)

13.04.140 Monitoring of discharges.
13.04.150 Requirements to prevent, control, and reduce storm water pollutants by the use of best management practices.
13.04.160 Watercourse protection.
13.04.170 Notification of spills.
13.04.180 Enforcement.
13.04.190 Appeal of notice of violation.
13.04.200 Enforcement measures after appeal.
13.04.210 Cost of abatement of the violation.
13.04.220 Reserved.
13.04.230 Violations deemed a public nuisance.
13.04.240 Criminal prosecution.
13.04.250 Enforcement actions and penalties not exclusive.
13.04.260 Construction site inspection program fees.

13.04.010 Definitions.

For the purposes of this chapter, the words and terms set forth in this chapter shall be defined as follows:

Authorized enforcement agency means employees or designees of the director of the municipal agency designated to enforce this title.

Best management practices (BMPs) means the schedules of activities, prohibitions of practices, general good house keeping practices, pollution prevention and educational practices, maintenance procedures, and other management practices to prevent or reduce the discharge of pollutants directly or indirectly to stormwater, receiving waters, or stormwater

conveyance systems. BMPs also include treatment practices, operating procedures, and practices to control site runoff, spillage or leaks, sludge or water disposal, or drainage from raw materials storage.

Clean Water Act means the Federal Water Pollution Control Act (33 USC Section 1251 et seq.), and any subsequent amendments thereto.

Construction activity means activities subject to NPDES Construction Permits. NPDES Storm Water Phase II permits will be required for construction projects resulting in land disturbance of one acre or more. Such activities include but are not limited to clearing and grubbing, grading, excavating, and demolition.

Dirt means loose earth, ashes and manure, but exclusive of sand and gravel that is to be used in construction work.

Garbage means putrescible animal and vegetable wastes, other than source-separated recyclables, that result from the handling, storage, sale, preparation, cooking, and serving of food and that have been discarded or abandoned.

Hazardous waste means any waste or combination of wastes, including without limitation solids, semisolids, liquids or contained gases, which:

1. Because of its quantity or concentration or its physical, chemical or infectious characteristics may:

a. Cause or significantly contribute to an increase in mortality or serious irreversible or incapacitating illness; or

b. Pose a substantial hazard or potential hazard to human health, public safety or the environment when it is given improper treatment, storage, transportation, disposal or other management;

2. Is identified as hazardous waste by the Nevada Department of Conservation and Natural Resources as a result of studies undertaken for the purpose of identifying hazardous wastes. The term includes, but is not limited to, toxins, corrosives, flammable materials, irritants, strong sensitizers and materials which generate pressure by decomposition, heat or otherwise.

Hazardous materials means any material, including any substance, waste, or combination thereof, which because of its quantity, concentration, or physical, chemical, or infectious characteristics may cause, or significantly contribute to, a substantial present or potential hazard to human health, safety, property, or the environment when improperly treated, stored, transported, disposed of, or otherwise managed.

Illegal discharge means any direct or indirect non-storm water discharge to the storm drain system, except as exempted in section 13.04.100 of this chapter.

Illicit connections. An illicit connection is defined as either of the following:

1. Any drain or conveyance, whether on the surface or subsurface, which allows an illegal discharge to enter the storm drain system including but not limited to any conveyances which allow any non-storm water discharge including sewage, process wastewater, and wash water to enter the storm drain system and any connections to the storm drain system from indoor drains and sinks, regardless of whether said drain or connection had been previously allowed, permitted, or approved by an authorized enforcement agency; or

2. Any drain or conveyance connected from a commercial or industrial land use to the storm drain system which has not been documented in plans, maps, or equivalent records and approved by an authorized enforcement agency.

Industrial activity means activities subject to NPDES industrial permits as defined in 40 CFR 122.26(b)(14).

Municipal separate storm sewer system (MS4) means a conveyance or system of conveyances including roads with drainage systems, municipal streets, catch basins, curbs, gutters, ditches, man-made channels, or storm drains: (1) owned or operated by a state, city, town, borough, county, parish, district, association, or other public body (created by or pursuant to state law) including special districts under state law such as a sewer district, flood control district or drainage district, or similar entity, or an Indian tribe or an authorized Indian tribal organization, or a designated and approved management agency under Section 208 of the Clean Water Act that discharges into waters of the United States; (2) designed or used for collecting or conveying stormwater; (3) which is not a combined sewer; and (4) which is not part of a publicly owned treatment works (POTW) as defined at 40 CFR 122.2.

National Pollutant Discharge Elimination System (NPDES) storm water discharge permit means a permit issued by the Nevada Division of Environmental Protection (NDEP) under authority delegated pursuant to 33 USC Section 1342(b) that authorizes the discharge of pollutants to waters of the United States, whether the permit is applicable on an individual, group, or general area-wide basis.

Non-storm water discharge means any discharge to the storm drain system that is not composed entirely of storm water.

Overflow or *overflowing solid waste* means solid waste of nonresidential customers that is deposited on the ground outside of a solid waste container, or excess solid waste that has been piled onto a solid waste container that is already full to such an extent that the excess solid waste will spill onto the ground in the emptying process, requiring more than minimal manual cleanup of waste from the ground.

Person means any individual, association, organization, partnership, firm, corporation or other entity recognized by law and acting as either the owner or as the owner's agent.

Pollutant means anything that causes or contributes to pollution. Pollutants may include, but are not limited to: paints, varnishes, and solvents; oil and other automotive fluids; non-hazardous liquid and solid wastes and yard wastes; refuse, rubbish, garbage, litter, or other discarded or abandoned objects, ordnances, and accumulations, so that same may cause or contribute to pollution; floatables; pesticides, herbicides, and fertilizers; hazardous substances and wastes; sewage, fecal coliform and pathogens; dissolved and particulate metals; animal wastes; wastes and residues that result from constructing a building or structure; and noxious or offensive matter of any kind.

Premises means any building, lot, parcel of land, or portion of land, whether improved or unimproved, including adjacent sidewalks and parking strips.

Refuse means those discarded materials that have no useful physical, chemical, or biological properties after serving their original purpose and that cannot be reused or recycled for the same or other purposes.

Rubbish means non-putrescible wastes, other than source-separated recyclables, that have been discarded or abandoned such as paper, cardboard, automobiles, cans, wood, glass, bedding, crockery and similar materials.

Sewage waste means any solid or semi-solid waste, including biosolids, sludge, screenings and grit.

Storm drainage system means publicly-owned facilities by which storm water is collected and/or conveyed, including but not limited to any roads with drainage systems, municipal streets, gutters, curbs, inlets, piped storm drains, pumping facilities, retention and detention basins, natural and human-made or altered drainage channels, reservoirs, and other drainage structures.

Stormwater means any surface flow, runoff, or drainage consisting entirely of water from any form of natural precipitation, and resulting from such precipitation.

Stormwater pollution prevention plan means a document which describes the best management practices and activities to be implemented by a person or business to identify sources of pollution or contamination at a site and the actions to eliminate or reduce pollutant discharges to stormwater, stormwater conveyance systems, and/or receiving waters to the maximum extent practicable.

Wastewater means any water or other liquid, other than uncontaminated storm water, discharged from a facility.
(Ord. No. 3058, § 1, 9-3-2013; Ord. 2783, § 1, 2008)

13.04.020 General provisions.

A. *Purpose.* The purpose of this chapter is to provide for the health, safety, and general welfare of the citizens of the city through the regulation of non-storm water discharges to the multiple separate storm sewer system (MS4) to the maximum extent practicable as required by federal, state and local law in order to comply with requirements of the National Pollutant Discharge Elimination System (NPDES) storm water discharge permit (MS4 permit) issued by the NDEP.

B. *Policy.* The specific objectives of this chapter are to regulate the contribution of pollutants to the MS4 that would cause a violation of the MS4 permit, prohibit illicit connections and discharges to the MS4, and establish the legal authority to carry out all inspection, surveillance and monitoring procedures, and enforcement procedures and activities necessary to ensure compliance with this chapter.

C. *Scope.* The provisions of this chapter shall apply to all residents and property owners of the city, a responsible party operating and maintaining a commercial or industrial business, a responsible party conducting grading and other soil disturbing activities, and/or users of city provided street, storm drainage system, and utility infrastructure.

D. *Applicability.* The provisions of this chapter shall apply to all pollutants, stormwater, or urban use water discharged from any developed and undeveloped lands within the City of Henderson (city), including land owned by local, county, state or federal agencies unless explicitly exempted by the city, Nevada Division of Environmental Protection (NDEP), U.S. Environmental Protection Agency (EPA), or by permit.

E. *Administration.* Except as otherwise provided herein the public works director shall administer, implement, and enforce the provisions of this chapter. Any powers granted or duties imposed upon the director may be delegated by the director to persons acting in the beneficial interest.

F. *Compliance.* No discharge of pollutants, stormwater, or urban use water from any developed and undeveloped lands shall be allowed until all applicable development review and approval processes have been followed, all applicable approvals have been obtained, and all required permits or authorizations to proceed have been issued.
(Ord. No. 3058, § 1, 9-3-2013; Ord. 2783, § 2, 2008)

13.04.030 Authority.

This chapter is enacted pursuant to the powers granted and limitations imposed by the laws of the State of Nevada, including the statutory authority granted in Nevada Revised Statutes (NRS) Chapter 445A.
(Ord. No. 3058, § 1, 9-3-2013; Ord. 2783, § 3, 2008)

13.04.040 Commentary.

Whenever a provision of this chapter requires additional explanation to clarify its intent, a commentary is included. These commentaries are intended solely as a guide for administrative officials and the public to use in interpreting the chapter.
(Ord. No. 3058, § 1, 9-3-2013; Ord. 2783, § 4, 2008)

13.04.050 Word usage and construction of language.

A. *Meanings and intent.* All provisions, terms, phrases, and expressions contained in this chapter shall be construed according to the purpose and intent set out in the general provision section.

B. *Headings, illustrations, and text.* In case of any difference of meaning or implication between the text of this chapter and any heading, drawing, table, figure, commentary block or illustration, the text shall control.

C. *Lists and examples.* Unless otherwise specifically indicated, lists of items or examples that use terms such as "including" and "such as," or similar language, are intended to provide examples and not to be exhaustive lists of all possibilities.

D. *References to other regulations, publications and documents.* Whenever reference is made to a resolution, ordinance, statute, regulation or document, it shall be construed as a reference to the most recent edition of such regulation (as amended), resolution, ordinance, statute, regulation or document, unless otherwise specifically stated.
(Ord. No. 3058, § 1, 9-3-2013; Ord. 2783, § 5, 2008)

13.04.060 Conflicting provisions.

The provisions of this chapter shall not be deemed to nullify any provision of local, state, or federal law. In the event of conflicting provision the following shall apply:

A. *Conflict with state or federal regulations.* If the provisions of this chapter are inconsistent with those of the state or federal government, the more restrictive provision will control, to the extent permitted by law.

B. *Conflict with other city regulations.* If the provisions of this chapter are inconsistent with one another or if they conflict with provisions found in other adopted ordinances, resolutions or regulations of the city, the more restrictive provision will control.

C. *Conflict with private agreements.* It is not the intent of this chapter to interfere with, abrogate or annul any easement, covenant, deed restriction, or other agreement between private parties. However, if the provisions of this chapter impose a greater restriction than imposed by a private agreement, the provisions of this chapter will

control. If the provisions of a private agreement impose a greater restriction than this chapter, the provisions of the private agreement will control. The city shall not be responsible for monitoring or enforcing private agreements.

(Ord. No. 3058, § 1, 9-3-2013; Ord. 2783, § 6, 2008)

13.04.070 Responsibility for enforcement.

The director of public works shall have primary responsibility for enforcing provisions of this chapter. Other officers, persons, or entities acting in the beneficial interest of or in the employ of the city as authorized by the director of public works shall share responsibility for enforcing provisions of this chapter.

(Ord. No. 3058, § 1, 9-3-2013; Ord. 2783, § 7, 2008)

13.04.080 Severability.

The provisions of this chapter are hereby declared to be severable. If any provision, clause, sentence, or paragraph of this chapter or the application thereof to any person, establishment, or circumstances shall be held invalid by a court of law with proper jurisdiction, such invalidity shall not affect the other provisions or application of this chapter.

(Ord. No. 3058, § 1, 9-3-2013; Ord. 2783, § 8, 2008)

13.04.090 Ultimate responsibility.

The standards set forth herein and promulgated pursuant to this chapter are minimum standards; therefore this chapter does not intend nor imply that compliance by any person will ensure that there will be no contamination, pollution, nor unauthorized discharge of pollutants.

(Ord. No. 3058, § 1, 9-3-2013; Ord. 2783, § 9, 2008)

13.04.100 Discharge prohibitions.

A. *Prohibition of illicit discharges.*

1. No discharge of wastewater or stormwater in any form, as defined in the Federal Water Pollution Control Act (33 USC 1251 et seq.), shall be made into the storm water system or waters of the State of Nevada that would cause a violation of the NPDES storm water permit.

2. No discharge of any pollutant, as defined in the Federal Water Pollution Control Act (33 USC 1251 et seq.) shall be made into the stormwater system or waters of the State of Nevada within the City of Henderson without first obtaining the appropriate NPDES permit from the State of Nevada or the U.S. Environmental Protection Agency.

3. The commencement, conduct or continuance of any illegal discharge to the storm drain system is prohibited except as described as follows:

a. Those discharges allowed in the "National Pollutant Discharge Elimination System Permit for Discharges from Municipal Separate Storm Sewer Systems," Permit No. NV0021911 issued by the NDEP on June 19, 2003.

b. Discharges specified in writing by the city as being necessary to protect public health and safety.

c. Dye testing is an allowable discharge, but requires a verbal notification to the city prior to the time of the test.

d. The prohibition shall not apply to any non-storm water discharge permitted under an NPDES permit, waiver, or waste discharge order issued to the discharger and administered under the authority of the city, NDEP or EPA; provided that the discharger is in full compliance with all requirements of the permit, waiver, or order and other applicable laws and regulations; and provided that written approval has been granted for any discharge to the MS4.

B. *Prohibition of illicit connections.*

1. The construction, use, maintenance or continued existence of illicit connections to the storm drain system that includes, without limitation, illicit connections made in the past, regardless of whether the connection was permissible under law or practices applicable or prevailing at the time of connection, that are in violation of title 14 of the Henderson Municipal Code (HMC);

2. A person is considered to be in violation of this ordinance if the person connects a line conveying sewage to the MS4, or allows such a connection to continue.

(Ord. No. 3058, § 1, 9-3-2013; Ord. 2783, § 10, 2008)

13.04.110 Suspension of MS4 access.

A. *Suspension due to illicit discharges.* The city may, without prior notice, suspend access to the MS4 by developed and undeveloped lands, or by property owners or operators, when such suspension is necessary to stop an actual or threatened discharge that presents or may present imminent and substantial danger to the environment, health or welfare of persons, MS4, waters of the State of Nevada, or waters of the United States. If the violator fails to comply with a suspension order issued, the city may take such steps as deemed necessary to prevent or minimize damage to the environment, health or welfare of persons, MS4, waters of the State of Nevada, or waters of the United States.

B. *Suspension due to the detection of illicit discharge.* Any developed and undeveloped lands, or property owners or operators, discharging to the MS4 in violation of this chapter may have their MS4 access terminated if such termination would abate or reduce an illicit

discharge. The authorized enforcement agency will notify a violator of the proposed termination of its MS4 access. The violator may petition the authorized enforcement agency for a reconsideration and hearing.

1. A person shall be in violation of this chapter if the person reinstates MS4 access to premises terminated pursuant to this chapter, without the prior approval of the city.

(Ord. No. 3058, § 1, 9-3-2013; Ord. 2783, § 11, 2008)

13.04.120 Construction activity discharges.

A. *Stormwater General Permit NVR100000 coverage required.* Any persons or facility operators subject to coverage under "Stormwater General Permit NVR100000" for construction activity issued by NDEP shall obtain such coverage. Proof of coverage under said permit shall be required in a form acceptable to the city prior to allowing discharges to the MS4.

B. *Compliance required.* Any persons or facility operators subject to coverage under "Stormwater General Permit NVR100000" for general construction activity issued by NDEP shall comply with all provisions of said permit and the provisions in this chapter. Proof of compliance may be required in a form acceptable to the city prior to the allowing of discharges to the MS4.

(Ord. No. 3058, § 1, 9-3-2013; Ord. 2783, § 12, 2008)

13.04.130 Industrial activity discharges.

A. *Stormwater General Permit NVR050000 coverage required.* Any persons or facility operators subject to maintaining a permit under Chapter 27 of the International Fire Code shall obtain coverage under "Stormwater General Permit NVR050000" for industrial activity issued by NDEP. Proof of coverage under said permit may be required in a form acceptable to the city prior to allowing discharges to the MS4.

B. *Renewable fire permit required.* Any persons or facility operators subject to maintaining a permit under Chapter 27 of the International Fire Code shall comply with all provisions of said chapter and the provisions of this chapter. Proof of compliance with said permit may be required in a form acceptable to the City of Henderson prior to the allowing of discharges to the MS4.

(Ord. No. 3058, § 1, 9-3-2013; Ord. 2783, § 13, 2008)

13.04.140 Monitoring of discharges.

A. *Applicability.* This section applies to all facilities that have storm water discharges associated with construction and industrial activity.

B. *Access to facilities.*

1. The city shall be permitted to enter and inspect facilities subject to regulation under this chapter as often as may be necessary to determine compliance. If a discharger has security measures in force which require proper identification and clearance before entry into its premises, the discharger shall make the necessary arrangements to allow access to representatives of the city.

2. Facility operators shall allow the city ready access to all parts of the premises for the purposes of inspection, sampling, examination and copying of records that must be kept under the conditions of a permit to discharge storm water, and the performance of any additional duties as defined by local, state and federal law.

3. The city shall have the right to set up on any permitted facility such devices as are necessary in the opinion of the city to conduct monitoring and/or sampling of the facility's storm water discharge.

4. The city has the right to require the discharger to install monitoring equipment as necessary. The facility's sampling and monitoring equipment shall be maintained at all times in a safe and proper operating condition by the discharger at its own expense. All devices used to measure stormwater flow and quality shall be calibrated to ensure their accuracy.

5. Any temporary or permanent obstruction to safe and easy access to the facility to be inspected and/or sampled shall be promptly removed by the operator at the written or oral request of the city and shall not be replaced. The costs of clearing such access shall be borne by the operator.

6. Unreasonable delays in allowing the city access to a permitted facility is a violation of a storm water discharge permit and of this chapter. A person who is the operator of a facility with a permit to discharge storm water associated with industrial activity commits an offense if the person denies the authorized enforcement agency reasonable access to the permitted facility for the purpose of conducting any activity authorized or required by this chapter.

7. If the city has been refused access to any part of the premises from which stormwater is discharged, and is able to demonstrate probable cause to believe that there may be a violation of this ordinance, or that there is a need to inspect and/or sample as part of a routine inspection and sampling program designed to verify compliance with this chapter or any order issued hereunder, or to protect the overall public health, safety, and welfare of the community, then the city may seek issuance of a search warrant from any court of competent jurisdiction.

(Ord. No. 3058, § 1, 9-3-2013; Ord. 2783, § 14, 2008)

13.04.150 Requirements to prevent, control, and reduce storm water pollutants by the use of best management practices.

A. *Required BMPs.* The city shall require BMPs for any activity, operation, business, facility, or development that may cause or contribute to pollution or contamination of storm water, the MS4, waters of the State of Nevada, or waters of the U.S. The owner or operator responsible for said activity, operation, business, facility, or development shall provide, at their own expense, reasonable protection from accidental or intentional discharge of prohibited materials or other wastes into the MS4 to the maximum extent practicable through the use of BMPs. The use of BMPs shall not absolve any owner or operator from complying with any requirement set forth in this chapter or state and federal permits.

1. Compliance with all terms and conditions of a valid stormwater permit issued by NDEP or the U.S. EPA authorizing the discharge of stormwater to the system shall be deemed in compliance with the provisions of this section.
2. The BMPs for all new development and substantial redevelopment after adoption of this chapter shall follow established local guidelines whenever possible. If local guidelines are not established for certain practices, then generally accepted regional, state, and federal practices should be followed.
3. The BMPs used shall be identified on the stormwater pollution prevention plan (SWPPP) that follow established federal, state, and local guidelines as necessary for compliance with requirements of the stormwater permit issued by NDEP.
4. The BMPs used for each new development and substantial redevelopment project subject to this chapter are may be inspected by the city for reasonable protection from accidental or intentional discharge of prohibited materials or other wastes to the maximum extent practicable for any activity, operation, facility, or development that may cause or contribute to pollution or contamination of storm water, the MS4, waters of the State of Nevada, or waters of the U.S.
5. The inspection and maintenance of BMPs located on private land shall be at the sole responsibility and expense of the property owner or operator.

B. *Inadequate BMPs.* If at any time the city determines that the BMPs are inadequate to provide reasonable protection from accidental or intentional discharge of prohibited materials or other wastes to the maximum extent practicable for any activity, operation, facility, or development that may cause or contribute to pollution or contamination of storm water, the MS4, waters of the State of Nevada, or waters of the U.S. the owner or operator responsible for said property or premises may be required to implement additional BMPs at their own expense to prevent the potential or further discharge of pollutants.
(Ord. No. 3058, § 1, 9-3-2013; Ord. 2783, § 15, 2008)

13.04.160 Watercourse protection.

Every person owning property through which a watercourse passes, or such person's lessee, shall keep and maintain that part of the watercourse within the property free of trash, debris, excessive vegetation, and other obstacles that would pollute, contaminate, or significantly retard the flow of water through the watercourse. In addition, the owner or lessee shall maintain existing privately owned structures within or adjacent to a watercourse, so that such structures will not become a hazard to the use, function, or physical integrity of the watercourse.
(Ord. No. 3058, § 1, 9-3-2013; Ord. 2783, § 16, 2008)

13.04.170 Notification of spills.

Notwithstanding other requirements of law, as soon as any person responsible for a facility or operation, or responsible for emergency response for a facility or operation has information of any known or suspected release of materials which are resulting or may result in illegal discharges or pollutants discharging into storm water, the MS4, waters of the state, or waters of the U.S., said person shall take all necessary steps to ensure the discovery, containment, and cleanup of such release. In the event of such a release of hazardous materials said person shall immediately notify emergency response agencies of the occurrence via emergency dispatch services. In the event of a release of non-hazardous materials, said person shall notify the department of public works in person or by phone or facsimile no later than the next business day. Notifications in person or by phone shall be confirmed by written notice addressed and mailed to the department of public works within five business days of the phone notice. If the discharge of prohibited materials emanates from a commercial or industrial establishment, the owner or operator of such establishment shall also retain an on-site written record of the discharge and the actions taken to prevent its recurrence. Such records shall be retained for at least three years.
(Ord. No. 3058, § 1, 9-3-2013; Ord. 2783, § 17, 2008)

13.04.180 Enforcement.

A. *Notice of potential discharge violation.* Whenever an authorized agent of the city finds that an owner or operator has inadequate, or failed to install, best management practices (BMPs) on private property or at a permitted construction site as required by this chapter, the city shall order compliance by written notice of violation to the responsible person. Such notice may require without limitation:

1. That violating practices or operations shall cease and desist;

2. The mitigation of inadequate or the implementation of source control or treatment BMPs;

3. A re-inspection of the site to ensure that any inadequate BMPs are mitigated or new BMPs are installed that meet the requirements for compliance of this Code; and

The notification letter shall provide a description of the BMPs found to be in non-compliance and set forth a deadline within which such mitigation or installation of said BMPs must be completed. The notice shall advise that a re-inspection must be scheduled within 14 days of receipt of the notification and the contact information for scheduling such re-inspections. Said notice shall further advise that, should the violator fail to complete the work within the established deadlines, additional notifications and enforcement actions shall be implemented as described in the following matrix:

Action	*City Notification Letter*	*Stop Current Inspections*	*Stop Work Order*	*City Mitigation*	*Citations*	*State Involvement*
Violation						
No control measures	X					
Inadequate control measures	X					
Poor housekeeping	X					
No response to 1st notification letter	X	X				
No response to 2nd notification letter (certified)	X	X				
No response to 3rd notification letter (certified)	X	X	X	X	X	X

The second and subsequent notification letters shall provide a description of the BMPs found to be in non-compliance and set forth a deadline within which such mitigation or installation of said BMPs must be completed. The notice shall advise that a re-inspection must be scheduled within seven days of the receipt and the contact information for scheduling such re-inspections; as well as a description of the enforcement actions that the city is taking due to the lack of response.

B. *Notice of discharge violation.* Whenever an authorized agent of the city finds that an owner or operator has allowed pollutants to be discharged from private property or at a permitted construction site in violation of this chapter, the city shall order compliance immediately, followed by written notice of violation to the responsible person. Such notice may require without limitation:

1. The elimination of illicit discharges;

2. That violating discharges, practices, or operations shall cease and desist;

3. The abatement or remediation of storm water pollution or contamination hazards and the restoration of any affected property; and

4. The mitigation of inadequate or the implementation of source control or treatment BMPs.

The notification letter shall provide a description of the discharge found to be in non-compliance and set forth a deadline within which such mitigation of said discharge must be completed. The notice shall advise that a re-inspection must be scheduled within seven days of the receipt of the notification and the contact information for scheduling such re-inspections. Said notice shall further advise that, should the violator fail to complete the work within the established deadlines, additional notifications and enforcement actions shall be implemented as described in the following matrix:

Action	*City Notification Letter*	*Stop Current Inspections*	*Stop Work Order*	*City Mitigation*	*Citations*	*State Involvement*
Violation						
Pollutant discharge to MS4	X	X				
No response to 1st notification letter	X	X	X			
No response to 2nd notification letter (certified)	X	X	X	X	X	
No response to 3rd notification letter (certified)	X	X	X	X	X	X

The second and subsequent notification letters to the construction site owner/operator will include a description of the violation, the required mitigation measures, and the requirements for scheduling a re-inspection of the site; as well as a description of the enforcement actions that the city is taking due to the lack of response.

C. *Civil judicial compliance.* Any user or person who violates, or aids or abets the violation of any provision of this chapter, requirements and conditions set forth in permits duly issued, or violates any cease and desist order, prohibition, shall be held civilly liable for violations regardless of intention or negligence on their part. Said civil liabilities in the sum of no less than $1,000.00 per day, and not to exceed $10,000.00 per day of which such violation occurs. In addition to civil liabilities herein, the violator shall be liable for any penalties imposed by the city as a result of that violation.

D. *Criminal judicial compliance.* Any user or person who willfully or negligently is in violation of this chapter, their stormwater discharge permit, or a cease and desist order may be guilty of a misdemeanor.
(Ord. No. 3058, § 1, 9-3-2013; Ord. 2783, § 18, 2008)

13.04.190 Appeal of notice of violation.

A. Any party affected by any decision, action or determination, including any enforcement action taken by the city may file an appeal. All appeals for reconsideration shall be upon a written request filed with the director, no later than ten business days from the date of the notice of potential discharge or notice of discharge violation, setting forth in detail the facts supporting the user's request for reconsideration.

B. The decision of the director shall be rendered within ten business days of the date of the hearing of the appeal. Such decision shall be deemed to be the final administrative action on such appeal.

C. If a ruling made by the director is unsatisfactory to the customer requesting reconsideration, the customer may within ten days after notification of city action, file a written appeal to the city council with the city clerk. The written appeal shall be heard by the city council within 30 days from the date of filing. The director's decision, action or determination shall remain in effect during such period of reconsideration or appeal.
(Ord. No. 3058, § 1, 9-3-2013; Ord. 2783, § 19, 2008)

13.04.200 Enforcement measures after appeal.

If a violation has not been corrected pursuant to the requirements set forth in a notice of violation, or, in the event of an appeal, within seven days of the decision of the public works director or his designee upholding the decision of the authorized agent of the city, then representatives of the city shall enter upon the subject private property and are authorized to take any and all measures necessary to abate the violation and/or restore the property. It shall be unlawful for any person, owner, agent or person in possession of any premises to refuse to allow the city or designated contractor to enter upon the premises for the purposes set forth above.
(Ord. No. 3058, § 1, 9-3-2013; Ord. 2783, § 20, 2008)

13.04.210 Cost of abatement of the violation.

Within 14 days after abatement of the violation, the owner of the property will be notified in writing of the cost of abatement, including administrative costs. The property owner may file a written protest objecting to the amount of the assessment within seven days of receipt of the cost assessment. If the amount due is not paid within a timely manner as determined by the decision of the city or by the expiration of the time in which to file an appeal, the charges shall become a special assessment against the property and shall constitute a lien on the property for the amount of the assessment. Any person violating any of the provisions of this article shall become liable to the city by reason of such violation. The liability shall be paid in not more than 12 equal payments. Interest at the rate of percent per annum equal to that set for city Investments at the time of violation shall be assessed on the balance beginning on the first day following abatement of the violation.
(Ord. No. 3058, § 1, 9-3-2013; Ord. 2783, § 21, 2008)

13.04.220 Reserved.

Editor's note—Ord. No. 3058, § 1, adopted September 3, 2013, repealed the former section 13.04.220 in its entirety, which pertained to injunctive relief, and derived from Ord. No. 2783, § 22, adopted in 2008.

13.04.230 Violations deemed a public nuisance.

In addition to the enforcement processes and penalties provided, any condition caused or permitted to exist in violation of any of the provisions of this chapter is a threat to public health, safety, and welfare, and is declared and deemed a nuisance by the city council, and may be summarily abated or restored at the violator's expense, and/or a civil action to abate, enjoin, or otherwise compel the cessation of such public nuisance may be taken.
(Ord. No. 3058, § 1, 9-3-2013; Ord. 2783, § 23, 2008)

13.04.240 Criminal prosecution.

Any person that has violated or continues to violate this chapter shall be subject to criminal prosecution to the fullest extent of the law, and shall be subject to a fine of up to $1,000.00 per violation per day and/or imprisonment in the city detention center for a period of time not to exceed six months or both a fine and imprisonment. The authorized enforcement agency may recover all attorney fees, court costs and other expenses associated with enforcement of this chapter, including remediation, sampling and monitoring expenses.
(Ord. No. 3058, § 1, 9-3-2013; Ord. 2783, § 24, 2008)

13.04.250 Enforcement actions and penalties not exclusive.

The enforcement actions and penalties listed in this chapter are not exclusive of any other actions available under any applicable federal, state or local law and it is within the discretion of the authorized enforcement agency to seek cumulative actions.
(Ord. No. 3058, § 1, 9-3-2013; Ord. 2783, § 6, 2008)

13.04.260 Construction site inspection program fees.

A. The fees for services provided are listed in the SWPPP inspections procedure on file in the development services center (DSC) and shall be directed to the DSC enterprise fund. Sufficient copies to meet public demand for such procedure shall be available for public use at the DSC.

B. The development services center manager or designee, in consultation with the development industry advisory committee, shall evaluate the need for fee adjustments and make annual recommendations to city council regarding the need for such adjustments.
(Ord. No. 3058, § 1, 9-3-2013; Ord. 2783, § 26, 2008)

Chapter 14.01 DEFINITIONS

Sections:

14.01.010 Definitions.

14.01.010 Definitions.

For the purpose of administering this title, the words and terms set forth in this chapter shall be defined as follows:

Acceptance means a formal process by which the City of Henderson assumes responsibility for operation and maintenance of the asset and/or infrastructure.

Active/*programmed recreation* means active recreation or programmed recreation.

Active/*programmed recreation turf* means irrigated lawn grass in an active/programmed recreation area on homeowner association-owned or -managed property, at a public park, or at a water park (excluding park streetscape and community frontage areas) and is:

a. 1,500 contiguous square feet or greater;

b. Co-located with facilities, including but not limited to trash bins, benches, tables, walkways, and/or other recreational amenities; and

c. Located at least ten feet from a street or interior facing parking lot unless: (1) the contiguous turf area is at least 30 feet in all dimensions; or (2) the turf is immediately adjacent to an athletic field.

Active recreation means an activity or event that may or may not be scheduled and may include active or passive recreational activities and events.

Actual cost means all costs to include, but not limited to costs of time, labor, overhead and benefits, rental or city-owned vehicles, materials, and use of outside resources or services necessary to administer, monitor, repair, replace, remove and/or install city facilities as needed.

Adopted standards means procedures, policies, rules, and regulations which may include utility design and construction standards and City of Henderson adopted amendments, city and/or department standard operating procedures, approved material lists, adopted plumbing codes, etc.

Appurtenances means equipment, machinery, appliances, structures, attachments, and other parts of a main structure that are necessary to allow it to operate as intended.

Athletic field turf means irrigated lawn grass used as a programmed sports field or for physical education and intermural use that is 1,500 contiguous square feet or greater, not less than 30 feet in any dimension, and located at a school, daycare, youth recreation

center, senior center, public park, homeowner association-owned or -managed park, water park, or religious institution. Athletic field turf may be located less than ten feet from a street or interior-facing parking lot if the contiguous turf area is at least 30 feet in all dimensions.

Basic service charge means a monthly fee for city accounting services, taxes, billing, account collection, collection and treatment of storm water inflow and groundwater infiltration, salinity control and pretreatment.

Billing period means the period of time for which a customer is billed for services provided by the utility.

Building permit means a permit for the erection, construction, enlargement, alterations, repair, improvements, conversion or demolition of any building or structure regulated by the City of Henderson Municipal Code (HMC).

Connection charge means the sum of the various fees charged for utility service including the system development charge, refunding fees, regional connection charge, main connection charge and lateral connection fee.

Customer means any person, owner, occupant, manager, developer, entity, or user of real property who is or has been a recipient of utility services.

Days means actual calendar days.

Dedication means a formal process by which the City of Henderson has been officially given all ownership rights to said property, facilities and/or premises.

Delinquent means being overdue in payment.

Department means City of Henderson department of utility services.

Department service rules, department's service rules, or service rules means the document that contains, but is not limited to, the department's rates, fees, charges and procedures, and is updated periodically by city staff to incorporate changes authorized by council or the director.

Designated use area turf means irrigated lawn grass designated for special use at cemeteries and mortuaries.

Developer means any person engaged in or proposing development of property, which shall include subdividers.

Direct discharge or discharge means the addition of any pollutant, directly or indirectly, into the publicly owned treatment works or state waterways.

Director or director of utility services means the director of utility services for the City of Henderson or any of their duly authorized representatives.

Disabled person is a person meeting the following criteria: (1) a person who is the head of household; and (2) has been determined by a competent and licensed physician to be totally and permanently disabled.

Discontinuance of service means formal enforcement action taken against a non-compliant user, wherein the non-compliant user's water and/or wastewater service is shutdown or otherwise discontinued.

Easement means an acquired legal right to the use of land owned by others.

Enforcement response plan means a plan which provides guidance to City of Henderson personnel for enforcement actions necessary to remedy non-compliance with a provision in title 14 of the Code.

Equivalent dwelling unit (EDU) means a measure of water demand equivalent to the amount of water used annually by an average single-family residential dwelling unit. One EDU is equivalent to 0.55 acre-feet of water per year.

Equivalent residential unit (ERU) means a measure of wastewater equivalent to the amount of wastewater generated per day by an average single-family residential dwelling unit. One ERU is equivalent to 250 gallons per day.

Exemption means a determination by the city, or its designee, that a project is not subject to the rules and regulations of a particular section of this Code.

Fire service or fire service connection means a water service connection exclusively for fire suppression.

Fixture means a plumbing device or appliance that is connected to the water supply system and is also connected to the wastewater collection system of the city either directly or indirectly. Devices and appliance expressly excluded from this definition include, but are not limited to: air conditioner, boiler, coffee urn, disposal units, drinking fountain, glass filler, ice machine, refrigerator, soft drink machine, water softener and X-ray machine.

Functional turf means an irrigated lawn grass area that provides a recreational benefit to the community and is:

a. Located at least ten feet from a street (except as otherwise specified), installed on slopes less than 25 percent, and not installed within street medians, along streetscapes or at the front of entryways to parks, commercial sites, neighborhoods, or subdivisions; and

b. Active/programmed recreation turf; athletic field turf; designated use area turf; golf course play turf; pet relief turf; playground turf; or resident area turf.

Golf course play turf means irrigated lawn grass at a golf course in driving ranges, chipping and putting greens, tee boxes, greens, fairways, and rough.

Hand-watering means the sporadic use or application of water outside any dwelling, building, or structure for any purpose by a customer or any person through a hose connected to a piping system while such hose is held by an individual.

Industrial means a distinct group of productive enterprises, primarily dealing with manufacturing activity and/or a recipient of city utility services not classified as residential or commercial.

Lawn grass means an area covered in natural turf.

Manifolding or meter banking means more than one meter and service connection within close proximity of each other, configured and connected to a single service line supplying water to the property.

Maximum day demand means the maximum daily water demand as allowed by the director of utility services.

Natural turf means any of various grasses (such as Kentucky bluegrass, hybrid Bermuda, or perennial ryegrass) grown to form grass and its matted roots.

Nonfunctional turf means irrigated lawn grass area not meeting the definition of functional turf.

Out of valley area means real property located outside the boundaries of the Las Vegas Valley Hydrographic Basin (hydrographic basin number 212, region 13) as described by the then-current Hydrographic Areas Map prepared by the Nevada Division of Water Resources.

Pet relief turf means irrigated lawn grass at a property providing commercial and retail services for pets that is designated for pet use (such as veterinarians or boarding facilities). Pet relief turf may not exceed 200 square feet.

Playground turf means irrigated lawn grass in designated play areas with playground amenities, including but not limited to slides, swings and climbing structures on homeowner association-owned or -managed property or at a public park, water park, school, daycare, youth recreation center, senior center, or religious institution. Playground turf may be located less than ten feet from a street, if fenced.

Pollutant means a substance that alters the chemical, physical or biological properties of receiving waters.

Positive shut-off nozzle means a device that automatically shuts off the flow of water through a hose or other item to which it is attached unless pressure is maintained on a trigger or other mechanism forming part of the device (also known as a trigger nozzle).

Premises means a structure or group of adjacent structures belonging to an individual or a group of individuals, receiving utility services.

Programmed recreation means a recreational activity or event that is scheduled by an organizing entity through a systematic process and requires the use of a particular facility, area, course, field, or equipment.

Property means a tract of land, with or without structures, belonging to an individual or a group of individuals, receiving utility services.

Public water system means city-owned infrastructure, facilities, piping, and appurtenances used to treat and deliver water.

Publicly owned treatment works (POTW) means city-owned wastewater infrastructure, facilities, piping, and appurtenances used to collect, treat and discharge wastewater.

Raw water means source water that has not been processed for the removal of pollutants.

Reclaimed water means municipal wastewater processed to meet all applicable federal, state and local standards for use in applications approved by the director of utility services.

Refunding means a program established by the department of utility services which provides a mechanism for the city to enter into an agreement with a customer fronting the cost and building of utility infrastructure. The agreement provides for the repayment of a portion of such costs related to the design and construction of such infrastructure by other customers obtaining benefit from it.

Refunding report means a final report submitted to the city council by the director of utility services identifying the boundary of the special refunding area, the type and route of backbone infrastructure to be included, the service demands when the special refunding area is fully developed, methods of cost sharing, refunding amounts, depreciation times or any other information required to assist council in deciding on a special refunding area.

Resident area turf means up to 150 square feet of irrigated lawn grass per dwelling unit at a multi-family residential property, single-family attached residential property, commercial/multi-family mixed use property, extended stay hotel/motel, or assisted living or live-in rehabilitation center used by residents for recreation or leisure and not to exceed a total of 16,000 square feet on the property. Resident area turf must be in areas reasonably accessible for active use by residents and therefore may not be located in a streetscape frontage, parking lot, roundabout, median, driveway, or any other non-accessible or exclusive-use area such as a commercial courtyard.

Responsible party means the individual, entity, company, contractor and/or developer that has signed the permit (also known as the permittee), and/or that is financially responsible.

Safe Drinking Water Act (SDWA) refers to Public Law 93-523 as amended that protects public health by regulating the nation's public drinking water supply. Under SDWA, the Environmental Protection Agency (EPA) sets standards for drinking water quality and oversees the states, localities, and water suppliers who implement those standards.

Senior citizen is a person meeting all of the following criteria: (1) a person who is the head of household; and (2) attained the age of 62; and (3) qualifies for the Clark County assessor senior citizen's property tax/rent relief program.

Service connection—Dedicated residential or commercial fire service means the point of connection between a public water system and the customer water system, and defined as the downstream end of the valve connection at the public main.

Service connection—Large meter (three inches or greater) means the point of connection between a public water system and the customer's water system, defined as the point where the piping exits the meter vault downstream of the meter on the exterior of the meter vault.

Service connection—Small meter (less than three inches) and combined domestic fire service means the point of connection between a public water system and the customer water system, defined as the downstream end of the meter at the discharge point of the connected fitting or at the discharge point of the second angle meter stop.

Service connection—Wastewater means the point of connection between a public collection system main and the wastewater service line or service lateral.

Service line—Water or service lateral—Water means the pipe from the city's water distribution main up to and including the meter and attached fittings.

Service line—Wastewater or service lateral—Wastewater means the pipe and all appurtenances located between a collection system main and the place where a customer of the public collection system discharges to the main.

Sewer lateral cleanout means a structure or device designed to provide sewer access for the purpose of removing deposited or accumulated materials in the customer's sewer lateral.

Southern Nevada Water Authority (SNWA) means the organization by that name that has been formed by cooperative agreement among local agencies to address southern Nevada's water needs on a regional basis.

Standard refunding agreement means an agreement between the city and a customer that establishes the amount to be collected and refunded to participating parties as their prorated share, advanced for the construction of non-backbone infrastructure.

Special refunding agreement means an agreement between the city and a customer that establishes the final cost of work to be collected and refunded to participating parties as their prorated share, advanced for the cost of backbone infrastructure.

System development charge (SDC) means that portion of the connection charge determined to be the customer's proportionate share of the cost to provide utility service within the distribution and collection system.

Tamper or *tampering* means to introduce a contaminant into a public water system with the intention of harming persons; or to otherwise interfere with the operation of a public water system with the intention of harming persons.

Temporary service means an approved request for service under conditions approved by the city. This service provides no permanent right to water service and has a low priority. Service is approved at the sole discretion of the city.

User means a recipient of city utility services.

Utility, utilities, or utility services means a public water, wastewater, reclaimed and/or raw water services provided by the City of Henderson which includes equipment to provide such service.

Walkway has the same meaning as "Walkway" in section 19.37.1 (Definitions) of the Code.

Wastewater backbone infrastructure means infrastructure such as lift stations and all connecting pipelines, generally 15 inches or larger in diameter, or as otherwise determined by the director, used to collect and transport wastewater from users or other facilities.

Water backbone infrastructure means infrastructure such as pump stations, reservoirs and all connecting pipelines or as otherwise determined by the director, used to transmit and distribute water to users or other facilities.

Water commitment—Conditional and final means a final commitment to provide water service, conditioned upon completion of the requirements outlined in this title and the department service rules; or as otherwise determined by the director. Conditional means a commitment of water shall be deemed conditional, pending issuance of a certificate of occupancy. At no time shall a water commitment be considered a vested right until at a minimum, all fees relative to the provision of water service has been fully satisfied and service established in accordance with this title and the department service rules.

Water facilities means water transmission lines, water treatment facilities, reservoirs, pumping stations, distribution lines and appurtenances.
(Ord. No. 3905, § 1, 9-13-2022; Ord. 2798, § 1, 1-20-2009; Ord. 2676, § 1, 2008; Ord. 2536, § 1, 2006; Ord. No. 2951, § 1, 12-20-2011)

Chapter 14.02 WATER COMMITMENT AND ALLOCATION REGULATIONS

Sections:

14.02.010 General provisions.
14.02.020 Applicability.
14.02.030 Water commitment.
14.02.040 Existing water contracts and allocations.
14.02.050 Violations.

14.02.010 General provisions.

A. *Purpose and policy.* This chapter sets forth responsibility, authority, and provisions to ensure compliance with all federal, state, and local requirements for the protection of public health, safety and welfare.

B. *Scope.* The provisions of this chapter shall apply to all residents of the city, a responsible party operating, maintaining, repairing, relocating, removing, and/or disconnecting the public water system and/or publicly owned treatment works, and/or users of city-provided utilities.

C. *Administration.* Except as otherwise provided herein, the director shall administer, implement, and enforce the provisions of this chapter. Any powers granted or duties imposed upon the director may be delegated by the director to persons acting in the beneficial interest.

D. *Compliance.* All provisions of this chapter are subject to compliance procedures as outlined in this title and the department service rules.
(Ord. 2676, § 2, 2008; Ord. 2536, § 3, 2006)

14.02.020 Applicability.

A. All water commitments shall be governed by and made in accordance with the requirements stipulated in the Henderson Municipal Code and the department service rules.

B. Section 14.02.040 shall be effective for water committed by the City of Henderson through an executed water service contract. Water commitment associated with development that falls under a water service contract shall be addressed in accordance with this title and the applicable sections of the department service rules.

C. Water commitment for all water service contracts that have expired, or have had their allocations relinquished or revoked, shall be governed by section 14.02.030 and made in accordance with the requirements stipulated in the department service rules.

D. Approval of a water commitment shall not be deemed to prevent future exercise of the city's authority to protect health, safety and general welfare.

E. All water committed to projects by the Victory Valley Land Company (VVLC), The Landwell Company, or any other subsidiary company of VVLC as determined by the city, which is under agreement with the City of Henderson, shall be governed by this chapter. (Ord. 2536, § 4, 2006; Ord. No. 2951, § 2, 12-20-2011)

14.02.030 Water commitment.

A. All developments requiring water service from the city shall obtain a water commitment in accordance with this chapter and procedures stipulated in the service rules.

B. Exemptions. Any development not requiring water service from the city shall be exempt from this chapter; or any temporary activity that does not create a permanent water demand, or additional activities that do not create additional water demands from the property initiating such activities shall not be required to obtain a water commitment.

C. A will serve letter is issued as a part of the city's duty to the general public and shall not constitute any obligation of the city, or entitlement of the developer to serve the development project with water, except to the extent that a valid water service contract has been approved and executed for the project, or conditional water commitment secured pursuant to this title.

D. All water committed under this chapter shall be committed in a manner that is consistent with the recommendations set forth in the then-current SNWA Water Resource Plan, as approved by the City of Henderson and SNWA and on file with the State of Nevada, Division of Water Resources.

E. Final issuance of a water commitment shall not be deemed to give rise to the accrual or vested development rights, equitable estoppel claims, or any right or guarantee to receive development approvals, building or grading permits. Nor does it relieve the recipient of such water commitment from complying with established rules or regulations governing the development of land, or the provision of payment for water facilities required under this title and the service rules.

F. Final issuance of a water commitment does not create or imply water rights, or an automatic property interest in water service. Instead, issuance of a water commitment authorizes water service to be provided in accordance with the conditions set forth in this title and department service rules.

G. Approval of a water commitment shall terminate and the conditional commitment shall be considered void if completion of any prerequisite item becomes delinquent or expires.

H. The director reserves the right to deny any request for a water commitment if the city deems the property and/or premises requiring service to be non-compliant with any provisions of this Code.

I. A water commitment must be obtained from the city prior to establishment of a new water service connection. Water service to a new water service connection will not be activated until all requirements for establishing such service have been satisfied.

J. A new water commitment must be obtained from the city prior to expanding or upgrading any existing service connection. Any proposal to expand or upgrade an existing service must be coordinated with the department of utility services. Such proposal shall follow the requirements for the establishment of a new water service connection.

K. Any expansion or addition of buildings or structures on a parcel of land presently served by the city, where such expansion or addition increases the water demands above the total water commitment established for such parcel of land, shall obtain a new water commitment for such additional demand.

L. A water commitment is deemed conditional until all items identified in the service rules pertaining to water commitment have been satisfied. Notwithstanding any provision in the service rules, payment of applicable fees and construction of any water facilities (where applicable), a water commitment shall be deemed final upon the city's verification that all steps in the water commitment process as outlined in the service rules are complete. Nevertheless, the city may deny any request for a water commitment or request for a water service connection if the city determines there is an inadequate supply of water, or there are physical limitations in the system capacity to serve the developer or proposed customer and simultaneously maintain an adequate level of service to other customers, or if granting the request would compromise public health, safety and/or welfare. Developers shall proceed accordingly at their own risk.

M. Water commitment cannot be traded, sold or transferred to another parcel of land. Recordation of a parcel map, final map or other map associated with the division of land shall not be interpreted as the city's authorization for, or commitment of water service. Final issuance of a water commitment shall occur only upon completion of the steps outlined in the service rules.

N. Water commitment shall become void upon abandonment or removal of an existing service connection. Re-establishment of an abandoned or removed service connection shall require application for and issuance of a new water commitment.

O. If a property owner requests water service from the city and such owner owns a permanent, non-revocable water right for diversion of groundwater from one of the hydrographic basins identified in the following sentence, then all or a portion of said non-revocable water right shall be donated and transferred to the city as a condition of

provision of service. A person owning a permanent, non-revocable water right for diversion from the Las Vegas Valley, Black Mountain Area, Colorado River Valley, Eldorado Valley, Paiute Valley, and/or Ivanpah Valley hydrographic basin who donates and transfers the water rights to the city, pays all applicable fees and charges, and meets all other requirements of the city, may obtain a commitment from the city in an amount equal to the pumpage permitted to the city by the state engineer, but not to exceed the amount of water right donated. The water commitment shall become effective 31 days following the date the state engineer approves an application to change.

P. Public water system service area.

1. The city council recognizes that there are persons owning property outside of the city's public water system service area that desire to connect such property to the public water system because no existing facilities are readily available to provide service by that property's governing jurisdiction. In such cases, the city shall not permit a person to request, or a property to receive, a connection to the city's public water system to any extra-territorial property. The city shall continue to serve extra-territorial properties with its public water system if:

a. Such properties were connected to the public water system prior to the effective date of the ordinance from which this subsection derives; and

b. A property is connected to the public water system prior to the effective date of the ordinance from which this subsection derives pursuant to a service contract, and the properties and/or the parties to the service contract are in compliance with the terms of service contract.

2. For purposes of this chapter, the service area for the public water system is designated as any and all real property located within the contiguous corporate boundaries of the City of Henderson as those boundaries may be amended from time-to-time. All other real properties located outside of the contiguous corporate boundaries of the City of Henderson are deemed extra-territorial properties, and explicitly not a part of the city's public water system service area. The city council may, by ordinance, amend the service area to include areas outside the corporate boundaries if the city council determines:

a. That a public benefit will be served by such change; and

b. A concurrent contract is provided by the property's jurisdictional governing body.

3. Nothing in this section shall be deemed to preclude the city from discontinuing or interrupting service for any reason authorized by law or contract, and the city may terminate service for failure to comply with any service contract.

Q. *Revocable groundwater rights and domestic wells.* A building or structure that currently receives water from a revocable groundwater right (and is required to connect to a municipal water purveyor because the right to use groundwater is revoked by the state engineer) or from a domestic well may be permitted to obtain a water commitment from the city for the building or structure, provided the existing well is abandoned in accordance with all local, state, and federal requirements.

R. *Water rights or rights to delivery of Colorado River water to SNWA for use by city.* With approval of the director, a person can obtain a water commitment without donating the water right or assigning the right to delivery of Colorado River water directly to the city if that person assigns to SNWA the water rights or rights to delivery of Colorado River water, a percentage of which is for use by the city. SNWA and the city shall have the sole authority to evaluate the proposed acceptance of water rights and/or right to delivery of Colorado River water, including based upon water quality, quantity, assured availability, location, deliverability, and legal considerations, and shall determine if the offered water rights and/or right to delivery of Colorado River water may be used to obtain a water commitment under this process. If acceptable to SNWA and the city, the city may enter into a contractual arrangement with the person to provide for a present or future water commitment.
(Ord. No. 3905, § 2, 9-13-2022; Ord. No. 3322, § 1, 12-15-2015; Ord. No. 2909, § 5, 3-15-2011; Ord. 2536, § 5, 2006)

14.02.040 Existing water contracts and allocations.

A. This section shall be effective for water allocated by the city through July 16, 1996, and verified by an executed water service contract. All existing water service contracts and future assignments from master plan and/or T-District water allocations shall continue to be governed by this section and the service rules, except that approvals by the city council shall be by the director.

B. Existing water service contracts shall be administered in accordance with the stipulations of Ordinance No. 1259, as well as other ordinances previously codified and incorporated by reference associated with the city's water allocation program and shall be made a part of this section by reference.

C. *Expiration/revocation of water service contracts.*

1. All water service contracts that have expired and thus were relinquished or revoked shall reapply pursuant to section 14.02.030 and department service rules.

2. Expiration and/or revocation of a water service contract shall be in accordance with the established procedures outlined in this title and department service rules.

3. The city council may revoke a water service contract for any of the following reasons:

a. Failure to commence construction on or before the date set forth in construction schedule contained in the water service contract;

b. Failure to complete construction in strict accordance with the construction schedule required in the long form water service contract;

c. Expiration or revocation of a building permit, unless extended by city council;

d. Failure to complete construction by the final construction date set forth in the construction schedule contained in the water service contract; or

e. Failure to comply with any other condition imposed in the water service contract or any other condition imposed as a condition of development.

4. In the event the applicant is unable to comply with the terms and conditions of the water service contract that would result in expiration/revocation, the applicant may request an extension of the contract. Any such extension is at the sole discretion of the city council and shall require satisfaction of additional conditions not inconsistent with the original approval. Applicant shall have the burden of establishing that the reasons for extension are for acts or circumstances that were unforeseeable at the time of the original approval.

5. The director shall initiate revocation proceedings under this section whenever it is determined that one of the following approvals has expired, whether expiration occurs on a particular date or by virtue of the terms and conditions imposed on the approval:

a. Approval/issuance of a water service contract; or

b. Any transitional approval.

6. Upon a determination that an approval specified above has expired, the director shall refer the matter to the city council for a hearing or revocation proceedings. The city council shall notify the holder of an approval specified above, any persons to whom notices were mailed in the original proceedings, and any persons who have been designated interested parties in the initial application for approval, that the approval shall be revoked unless sufficient cause is shown to the city council within ten days from such notification that the approval should not be revoked.

7. If the holder of an approval specified above, or any other person notified pursuant to subsection (c)(5) of this section requests, within ten days from the date of such notice, that a hearing be held concerning revocation, the city council shall schedule a hearing within a reasonable time after receiving such request. The city council may designate persons other than the holder of an approval as interveners in the proceedings. At the hearing the city council shall hear testimony of city staff, the holder of the approval, interveners and, if present, any other person alleging direct injury. The hearing may be continued without additional public notice.

8. The city council shall revoke an approval upon making one or more of the following findings:

a. That the approval was made on the basis of erroneous or misleading information or misrepresentation; or

b. That the terms or condition(s) of the approval have been violated or that other laws or regulations have been violated.

Upon demonstration that extenuating circumstances exist which have prevented the satisfaction of conditions imposed on an approval specified in paragraph 4 above, the city council may allow an extension of an approval on satisfaction of additional conditions not inconsistent with the initial approval.

9. Within a reasonable period of time, the city council shall render a decision and shall mail notice of such decision to the holder of the approval, and to any person who has filed written request for such notice.

10. A decision to revoke an approval shall become final, ten days after the date of the decision.

11. The city's right to revoke such approval specified in subsection (c)(4) of this section, shall be cumulative to any other remedy allowed in law or equity.

(Ord. No. 2909, § 5, 3-15-2011; Ord. 2536, § 6, 2006; Ord. No. 2951, § 2, 12-20-2011)

Editor's note—Ord. No. 2951, § 2, adopted December 20, 2011, changed the title of section 14.02.040 from "Water allocation" to "Existing water contracts and allocations." The historical notation has been preserved for reference purposes.

14.02.050 Violations.

Any person who fails or refuses to comply with any of the provisions of this chapter shall be deemed to be in violation of this title and shall be subject to discontinuance of service, subject to any penalties and charges assessed in accordance with this title and/or department service rules, and subject to all compliance procedures as prescribed within this title.

(Ord. 2536, § 9, 2006; Ord. No. 2951, § 2, 12-20-2011)

Editor's note—Ord. No. 2951, § 2, adopted December 20, 2011, repealed the former sections 14.02.050 and 14.02.060 in their entirety, which pertained to the water reservation fee and administrative fees, respectively, and derived from Ord. No. 2536, §§ 7, 8, adopted in 2006. Subsequently, the former section 14.02.070 was redesignated as section 14.02.050. The historical notation has been preserved for reference purposes.

Chapter 14.03 WATER REGULATIONS

Sections:

14.03.010 General provisions.
14.03.020 Conditions of service.
14.03.030 Service line requirements.
14.03.040 Mains and main extensions.
14.03.050 Backbone infrastructure.
14.03.060 Property access.
14.03.070 System maintenance and repair.
14.03.080 Interruption of service.
14.03.090 Violations.

14.03.010 General provisions.

A. *Purpose and policy.* This chapter sets forth responsibility, authority, and provisions to ensure compliance with all federal, state, and local requirements for the protection of public health, safety and welfare.

B. *Scope.* The provisions of this chapter shall apply to all residents of the city, a responsible party operating, maintaining, repairing, relocating, removing, and/or disconnecting the public water system and/or publicly owned treatment works, and/or users of city-provided utilities.

C. *Administration.* Except as otherwise provided herein, the director shall administer, implement, and enforce the provisions of this chapter. Any powers granted or duties imposed upon the director may be delegated by the director to persons acting in the beneficial interest of the city.

D. *Compliance.* All provisions of this chapter are subject to compliance procedures as outlined in this title and the department service rules.
(Ord. 2676, § 3 (part), 2008; Ord. 2536, § 11, 2006)

14.03.020 Conditions of service.

A. The city may, subject to the approval of the director, authorize the taking and receipt of water in accordance with this title and the department service rules. Where water is required for construction purposes or any other temporary use, the city must first authorize the location for use of such water, the service must be from a temporary connection and established in accordance with this title and the department service rules, and the city may reject a request for temporary service.

B. Applicants requesting service shall pay applicable fees and charges in accordance with this title and department service rules.

C. The city reserves the right to specify or restrict the location, time, and rate of water use to avoid interference with service to other customers.

D. The customer is responsible for all plumbing, piping, and appurtenances from the service connection to the point of use.

E. Service lines shall be installed in accordance with adopted standards. The director reserves the right to determine the service size, service line material, meter size, location, installation configuration, and service connection.

F. The customer shall furnish all necessary equipment to convey the water from the service connection to the customer point of use. In the case of mixed use developments, service connections shall be established and billed in accordance with the adopted standards and department service rules. Those units that are a combined commercial-residential unit shall be billed as commercial.

G. Temporary water service will cease when a permanent demand for potable water has been established, including but not limited to fire service, domestic supply and landscape irrigation.

H. The customer shall not operate the service in a manner which may create an adverse condition such as, but not limited to, low pressure, pressure surges, reduction of flow, or compromised water quality within the city's public water system.

I. The city will endeavor to provide its customers with a continuous and adequate supply of water within reasonable maximum and minimum pressures. However, varying pressures will normally prevail throughout the distribution system due to changes in elevation, use, and other factors.

J. Where prevailing water pressures fall outside of prescribed operating limits, applicants for service shall be responsible for installation of pressure regulators, storage tanks, pumps, or other devices as the director may require.

K. Unless otherwise approved by the director, all privately owned systems shall remain privately owned and maintained.

L. Unless otherwise approved by the director, all properties shall be provided domestic service through a single service connection. Where multiple services to a single property are allowed, said services shall be established in accordance with this title, the department service rules, and adopted standards.

M. The city reserves the right to authorize use of facilities prior to final acceptance. Exercising such right does not infer acceptance or release of responsibility for compliance with any and/or all requirements of this title, adopted standards, and/or the department service rules.

N. It shall be the customer's responsibility to maintain and to not allow the loss, escape, or excess use of water through a break, leak, or other malfunction in the water distribution facilities on the property or premises, such as an irrigation pipe or tubing, the irrigation delivery system, or a water supply line. Any and all repairs necessary to correct a malfunction(s), including all costs associated with such repairs, shall be the sole responsibility of the customer whether performed at the customer's direction or at the city's direction in connection with the city taking corrective action.

O. Out of valley area. If, after December 9, 2020, a customer wishes to receive water service from the city and all or a portion of the property or premises that will be served by the city are located in the out of valley area, wastewater service for the customer shall comply with the requirements stated within subsection 14.04.020.P of this title.
(Ord. No. 3905, § 3, 9-13-2022; Ord. 2676, § 3 (part), 2008; Ord. 2536, § 12, 2006)

14.03.030 Service line requirements.

A. *Meters.*

1. A city-approved meter per adopted standards shall be installed on each service line to measure water usage.

2. Each meter location shall be within the public right-of-way directly adjacent to the parcel being served. If street right-of-way is not available, the director may approve installation within an easement or alley adjacent to or on the parcel to be served. All meters shall be located where access by city personnel for operation and maintenance will not be restricted. The meter shall be located outside of travel lanes and driveways and shall be protected from vehicular traffic, unless otherwise approved by the director.

3. Any single family residential combination fire and domestic water system installed after February 1, 2009, shall have a minimum one inch residential fire meter installed.

B. *Valves.*

1. For services with a three-inch meter or larger where the service has been discontinued or it becomes necessary to shut off a service connection for repair of piping on the customer's property, a valve as required by adopted standards shall be installed prior to restoration of the service with all costs to be borne by the customer. Should the customer fail to make such repairs or corrections to the service conditions and the city has performed its due diligence to notify the customer to make such repairs or corrections, the director may authorize the city to make the

necessary corrections, with the customer being responsible for reimbursement to the city for all costs incurred in addition to any penalties in accordance with this title and the department service rules.

2. Private property shutdowns conducted at the property owner's request shall be billed using the department's actual costs, with such costs being the responsibility of the property owner.

C. *Fire service connections.* Fire service connections shall only be used for fire suppression unless otherwise approved by the director. Should any unauthorized connection be made, the city reserves the right to shut off the service or install a meter at the customer's expense and charge for it at regular domestic rates.

D. *Corrective actions.* When, in the opinion of the director, an existing service line becomes inadequate and/or a customer/owner has not complied with adopted standards, the city may choose to install, upgrade, and/or repair the service line with prior notification and at the customer/owner's expense. This expense shall be billed using the department's actual costs.
(Ord. No. 3905, § 4, 9-13-2022; Ord. 2798, § 2, 1-20-2009; Ord. 2676, § 3 (part), 2008; Ord. 2536, § 13, 2006)

14.03.040 Mains and main extensions.

A. Unless otherwise approved by the director, all service connections shall be made to a main that is located immediately adjacent to the property requiring service. The director reserves the right to determine the main to which connection shall be made.

B. Applicants requesting service to a property where no city main exists contiguous to the property must first arrange for a main extension in accordance with this title and department service rules. Where such main exists but does not extend across the full extent of the property frontage or is within 400 feet of the property as described in subsection 14.03.040.D, subsection 14.03.040.E, or subsection 14.03.040.F, the city may require the applicant to extend the main to such extent prior to obtaining utility service.

C. All public mains shall be placed within a dedicated public street. Where no public street is available and upon approval by the director, a public main may be installed within a dedicated municipal utility easement. Said easement shall not be less than 20 feet in width and shall be contained within a single parcel of land. The easement shall increase by ten feet in width for each utility main added to the easement beyond a single main. All mains shall be centered in the available easement space. Unless otherwise allowed by the city, all utility easements in a subdivision, not within a public or private street, shall be within a common element. The easement width required may increase with a main deeper than standard. In such instance, the easement shall be perpetual in nature and unless otherwise

approved by the director, shall be exclusive to the city. Proper access by city personnel to all areas within the easement must be provided. No building, structures, fences, trees, shrubs, or other improvements that interfere with its use by the city, can be placed within the easement. The city reserves the right to operate, maintain, repair, replace and/or change the size and/or number of mains and appurtenances within such easement. All such easements shall be granted to the city in a form and manner that is acceptable to the city.

D. Unless otherwise approved by the director, a property shall cease obtaining water service through a private well if the property served by the well lies within 400 feet of the city's water system. The 400 feet length shall be measured from the closest point of that property to the point of connection from an existing, active and accessible city main and, generally, route through existing or future streets or, as determined by the department, other areas appropriate for a main.

If deemed in the best interest of the city, the director may require the owner of such property to abandon all private wells in accordance with applicable federal, state, and local requirements, perform a main extension and establish water service from the city in accordance with the city's requirements.

E. Water service must be obtained from the city whenever an undeveloped property initiates development through the city and such property lies within 400 feet of the city's water system. In such instance, a main extension shall be required and must be made in accordance with the city's requirements. The 400 feet length shall be measured from the closest point of that property to the point of connection from an existing, active and accessible city main and, generally, route through existing or future streets or, as determined by the department, other areas appropriate for a main.

F. In such instance where a parcel map is being proposed, a main extension shall be required whenever the city's water system lies within the resulting calculation of 400 feet multiplied by either the total number of lots created by recordation of such map of such parcel of land or the maximum number of lots that could be created based on then-current zoning, whichever number of lots is greater. Where consecutive parcel maps are being proposed, a main extension shall be required whenever the city's water system lies within the resulting calculation of 400 feet multiplied by either (1) the total number of lots created by the recordation of the initial and all consecutive parcel maps combined or (2) the maximum number of lots that could be created based on then-current zoning of the parcels of land in the initial and all consecutive parcel maps combined for those parcels of land, whichever number of lots is greater. However, final determination, including application of these requirements, shall be made by the director.

G. In such instance where a tentative map or planned unit development is being proposed and no city main exists contiguous to the property, a main extension shall be required and must be made in accordance with the city's requirements.

H. Unless otherwise approved by the director, not more than one lot or other parcel of subdivided land shall be served by a single service connection. A single customer shall be responsible for payment of water bills for each such service. Additionally, where the city provides water and sewer service to a single lot or other parcel of subdivided land, the same customer shall be responsible for payment of both the water and sewer bill.

1. Exception: In the case of a commercial subdivision whereby a single service line or service lines provide service to multiple lots or other parcels of subdivided land, a single customer shall exist in the form of a property owner's association. Said property owner's association shall be responsible for payment of all water and sewer bills associated with such service(s). Additionally, the subdivision shall record a declaration of covenants, conditions and restrictions (CC&Rs) in the office of the Clark County recorder, which designates that all of the lot owners in the subdivision own an undivided interest in the private water facilities, and that all of the lot owners must participate in the cost of the operation and maintenance of such private systems.

I. Where multiple services are provided to a single lot or other parcel of subdivided land, a single customer shall be responsible for payment of water and/or sewer bills for all such services.

J. When a main extension is required, the director reserves the right to dictate the size, length and capacity of such main. The applicant may apply for partial cost reimbursement through the establishment of a refunding agreement, as outlined in this title and department service rules.

K. When a connection is made to any main, the main frontage fee is assessed in accordance with this title and the service rules. A minimum charge shall apply to any parcel having less than 60 feet of chargeable frontage.

L. All mains and main extensions must be designed and constructed in accordance with the city's adopted standards.

M. Before a main, service line, or connection is allowed to be placed into service, it shall be tested to the satisfaction of the city.

N. The granting of a certificate of occupancy does not relieve the developer of its obligations relative to the construction of the main extension; nor does it imply that the mains have been properly constructed or accepted by the city.

O. Upon completion of a main extension by a customer or subdivider, the customer or subdivider shall furnish the department a valid bill of sale conveying title to the city for such main and appurtenances, to include service lines, rights-of-way, and/or easements. Upon transfer of such title, the city reserves the right to provide direct or indirect service to any customer through the use of such mains and appurtenances.

P. The developer is responsible to correct any defects or failures that occur relative to the design and construction of the main extension, within a period of one year from the date of acceptance of the work by the city. The developer shall, at the developer's own expense, make good such defects and failures and make all replacements and adjustments required, in accordance with the city's requirements. All repairs shall be subject to the approval of the city. Furthermore, developer is at no time relieved of any obligation or responsibility it may have by law, including but not limited to damages for latent deficiencies, injury to real or personal property or injury to or wrongful death of a person.

Q. The developer shall indemnify, defend and hold harmless the city, its officers, agents, volunteers, and employees, against and from any and all liability, loss, damage, claims, fines, demands, causes of action, costs, expenses, and judgments of whatsoever nature, including but not limited to reasonable costs of investigation, reasonable attorneys' fees and expenses, all reasonable expert witness fees and expenses, and all court or arbitration or other alternative dispute resolution costs which result from injury to or death of any persons whomsoever, and/or against and from damage to or loss or destruction of property whatsoever when such injury, death, loss, destruction or damage is due to or arises in connection with or as a result of any work done by the developer, its contractors, agents and subcontractors in connection with the construction of the main and/or arises out of or in connection with developer's, or its contractors' and subcontractors' performance or failure to comply with the requirements of this title or the department's service rules.
(Ord. No. 3905, § 5, 9-13-2022; Ord. 2676, § 3 (part), 2008; Ord. 2536, § 14, 2006)

14.03.050 Backbone infrastructure.

A. *Extensions of backbone infrastructure.*

1. Unless otherwise approved by the director, construction and/or extensions of backbone infrastructure to support service to proposed developments, including all costs associated with such construction and/or extensions shall be the responsibility of the customer. Additionally, the design of such infrastructure, including the preparation of all applicable design reports shall be the responsibility of the customer, and shall be prepared in accordance with the city's requirements. By proceeding with the proposed development and associated backbone infrastructure required to support service to it, the customer acknowledges that they have gained a complete understanding of the city's requirements, and agree to comply with them accordingly.

2. Where the director determines it is in the city's best interest for the city to assume the responsibility for the construction and/or extensions of backbone infrastructure to support service to developments, or to participate in a cost-sharing with the customer responsible for such construction and/or extensions, the director reserves

the right to establish a special refunding agreement in order to establish a means of receiving proportional cost reimbursement from customers that benefit from the construction of such infrastructure. Said special refunding agreement shall be established in accordance with the requirements outlined in this title and the department's service rules.

3. The granting of a certificate of occupancy does not relieve the customer of its obligations relative to the construction of the backbone infrastructure; nor does it imply that the backbone infrastructure has been properly constructed or accepted by the city.

4. The customer is responsible to correct any defects or failures that occur relative to the design and construction of the backbone infrastructure, within a period of one year from the date of acceptance of the work by the city. The customer shall, at the customer's own expense, make good such defects and failures and make all replacements and adjustments required, in accordance with the city's requirements. All repairs shall be subject to the approval of the city.

5. The customer, at all times, is not relieved of any obligation or responsibility it may have by law, including but not limited to damages for latent deficiencies, injury to real or personal property or injury to or wrongful death of a person.

6. The customer shall indemnify, defend and hold harmless the city, its officers, agents, volunteers, and employees, against and from any and all liability, loss, damage, claims, fines, demands, causes of action, costs, expenses, and judgments of whatsoever nature, including but not limited to reasonable costs of investigation, reasonable attorneys' fees and expenses, all reasonable expert witness fees and expenses, and all court or arbitration or other alternative dispute resolution costs which result from injury to or death of any persons whomsoever, and/or against and from damage to or loss or destruction of property whatsoever when such injury, death, loss, destruction or damage is due to or arises in connection with or as a result of any work done by the customer, its contractors, agents and subcontractors in connection with the construction of the backbone infrastructure, and/or arises out of or in connection with customer's, or its contractors' and subcontractors' performance or failure to comply with the requirements of this title or the department service rules.

B. *Sizing of backbone infrastructure.* The director reserves the right to determine the size and capacity of the backbone infrastructure proposed for construction, taking into account projected service needs of the areas served and whenever it is deemed to be in the best interest of the city in order to provide for the orderly development of the city's public infrastructure system. Where said size or capacity of such backbone infrastructure is deemed to be in excess of the customer's needs to support their project, it shall be the

customer's responsibility to comply with such requirement, with all costs associated with its compliance to be the sole responsibility of the customer. In such situations the customer may apply for a special refunding agreement in order to seek proportional cost reimbursement from other developers and/or landowners that benefit from the construction of such infrastructure. Said special refunding agreement shall be established in accordance with the requirements outlined in this title and the department service rules.
(Ord. 2536, § 15, 2006)

14.03.060 Property access.

City employees or a duly authorized city representative or contractor shall have the right to access and to perform work on a property or premises at reasonable times for any purpose related to the furnishing of service, taking corrective action under a provision of this title, protection of water quality and/or for verification of compliance with the provisions of this title. The city will attempt to provide prior notice where possible.
(Ord. No. 3905, § 6, 9-13-2022; Ord. 2536, § 16, 2006)

14.03.070 System maintenance and repair.

A. Upon dedication and/or acceptance of any part of the city's public water system, the city shall be responsible for its maintenance and repair, subject to any agreement covering the installation of such facilities.

B. Street pavement and sidewalk replacement conducted by the department in association with system repairs are limited to standard asphalt and concrete types. Where a non-standard pavement or sidewalk exists, the city shall not be responsible for the replacement of such non-standard material.
(Ord. 2536, § 17, 2006)

14.03.080 Interruption of service.

A. The city will endeavor to notify customers in advance of any interruption in service due to repair, maintenance, or other causes. In emergency conditions, when notification is not possible or practical, service may be interrupted for indefinite periods. At no time shall the city be liable for loss and/or damages that may occur due to any interruption in service and/or due to system failure.

B. In accordance with department service rules, written notification shall be provided to the director whenever persons are engaged in street work and/or onsite repairs, including but not limited to grading, directional boring, filling and trenching, and/or paving that may cause removal, displacement or modifications to any portion of the city's public water

system, or any interruption of service to the city's customers. With the exception of emergencies, said work cannot proceed until permission is received from the director to conduct such activities.
(Ord. 2536, § 18, 2006)

14.03.090 Violations.

Any person who fails or refuses to comply with any of the following provisions shall be deemed to be in violation of this title and shall be subject to discontinuance of service, subject to any penalties and charges assessed in accordance with this title and/or department service rules, and subject to all compliance procedures as prescribed within this title.

A. Any person who negligently, recklessly or willfully introduces or causes to be introduced into the city's public water system, any pollutant or hazardous substance which such person knew, or with the exercise of reasonable due diligence would have known, could cause personal injury or system damage shall be deemed in violation of this chapter.

B. Any person who tampers with a public water system is in violation of this chapter and United States Code 42 USC 300i-1.

C. Any person who, without prior authorization by the city, operates, maintains, repairs, relocates, cuts, changes, removes, disconnects, repairs or interferes in any manner with the city's public water system, is in violation of this chapter.

D. Any person or party who, with or without authorization by the city, takes actions which result in damage to any portion of the city's public water system, either directly or indirectly, is in violation of this chapter.

E. Any person who takes water without applying for and receiving approval from the department for a service connection is in violation of this chapter.

F. With the exception of construction phase meter set up and testing, it is prohibited to utilize spacers for the purpose of providing water service to the property.

G. Manifolding and/or meter banking multiple meters for the purpose of reducing or avoiding service connection fees is prohibited.

H. Any entry into city property and/or premises by an unauthorized person is prohibited and subject to enforcement procedures as outlined in this title.

(Ord. 2536, § 19, 2006)

Chapter 14.04 WASTEWATER REGULATIONS

Sections:

14.04.010 General provisions.
14.04.020 Conditions of service.
14.04.030 Service line requirements.
14.04.040 Mains and main extensions.
14.04.050 Backbone infrastructure.
14.04.060 Property access.
14.04.070 System maintenance and repair.
14.04.080 Interruption of service.
14.04.090 Violations.

14.04.010 General provisions.

A. *Purpose and policy.* This chapter sets forth responsibility, authority, and provisions to ensure compliance with all federal, state, and local requirements for the protection of public health, safety and welfare.

B. *Scope.* The provisions of this chapter shall apply to all residents of the city, a responsible party operating, maintaining, repairing, relocating, removing, and/or disconnecting the public water system and/or publicly owned treatment works, and/or users of city-provided utilities.

C. *Administration.* Except as otherwise provided herein, the director shall administer, implement, and enforce the provisions of this chapter. Any powers granted or duties imposed upon the director may be delegated by the director to persons acting in the beneficial interest of the city.

D. *Compliance.* All provisions of this chapter are subject to compliance procedures as outlined in this title and the department service rules.
(Ord. 2676, § 4 (part), 2008; Ord. 2536, § 21, 2006)

14.04.020 Conditions of service.

A. The city may, subject to the approval of the director, authorize service from a permanent wastewater connection in accordance with this title and the department service rules. Where wastewater is required for a temporary use, the director may authorize temporary service.

B. The city reserves the right to specify or restrict the location, time, and rate of discharge to avoid interference with service to other customers.

C. Wastewater service lines shall be installed in accordance with adopted standards. The director reserves the right to determine the service size, service line material, location, installation configuration, and service connection.

D. The customer is responsible for all plumbing, piping, and appurtenances from the point of use to the service connection.

E. The customer shall furnish all necessary piping and connections to convey wastewater from the point of use to the service connection.

F. In the case of mixed use developments, service connections shall be established and billed in accordance with the department service rules. Those units that are a combined live-work unit shall be billed as commercial.

G. Temporary wastewater service will cease when a permanent demand for service has been established.

H. Septic tanks shall be disconnected and abandoned upon connection to the city's publicly owned treatment works. Abandonment shall be performed in such a manner as to meet the requirements of any federal, state, local and city requirements and/or standards.

I. The customer shall not discharge waste in a manner which may create an adverse condition such as, but not limited to, reduction of flow, stoppage in the city's publicly owned treatment works, or compromised water quality within the city's publicly owned treatment works and/or public water system.

J. The city will endeavor to provide its customers with uninterrupted wastewater service.

K. Where service cannot be provided without the use of pumps or other equipment, said pumps and equipment shall remain privately owned and maintained. The city reserves the right to assume ownership and maintenance of such equipment if the director determines it is in the best interest of the city. Where assumptions of ownership and maintenance occur, the director may require said pumps and equipment to meet adopted standards.

L. Unless otherwise approved by the director, all privately owned systems shall remain privately owned and maintained.

M. All construction developments shall implement a means of protection against accidental discharges into the city publicly owned treatment works.

N. The city reserves the right to authorize use of facilities prior to final acceptance. Exercising such right does not infer acceptance by the city or release of responsibility by the developer for compliance with all requirements associated with acceptance of said facilities.

O. Wastewater service area.

1. The city council recognizes that there are persons owning property outside of the city's wastewater service area that desire to connect such property to the city's wastewater system because no existing facilities are readily available to provide service by that property's governing jurisdiction. In such cases, the city shall not permit a person to request, or a property to receive, a connection to the city's wastewater system to any extra-territorial property. The city shall continue to serve extra-territorial properties with its wastewater system if:

a. A person submitted all documents necessary to effect a connection for a property to the city's wastewater system prior to July 1, 2015, including, but not limited to, an executed annexation agreement and petition for annexation by the owner(s) of the property to be serviced; or

b. A property is connected to the city's wastewater system prior to the effective date of this ordinance pursuant to a service contract, and the properties and/or the parties to the service contract are in compliance with the terms of service contract.

2. For purposes of this chapter, the wastewater service area for the city's wastewater system is designated as any and all real property located within the contiguous corporate boundaries of the city of Henderson as those boundaries may be amended from time-to-time. All other real property located outside of the contiguous corporate boundaries of the city is deemed extra-territorial property, and explicitly not a part of the city's wastewater service area. The city council may, by ordinance, amend the wastewater service area to include areas outside the corporate boundaries if the city council determines:

a. That a public benefit will be served by such change, and

b. A concurrent agreement is provided by the property's jurisdictional governing body.

3. Nothing in this section shall be deemed to preclude the city from discontinuing or interrupting service for any reason authorized by law or contract, and the city may terminate service for failure to comply with any service contract.

P. Out of valley area.

1. Notwithstanding the prohibition in section 14.03.020.O, if a proposed development is contemplated in the out of valley area, the developer has requested that the city provide water service to all or a portion of the property or premises on which that new development will be located, that development is not within the vicinity of a wastewater system operated by an SNWA member agency that will discharge that wastewater to the Las Vegas Wash (each, a "regional wastewater system"), and the

developer wishes to use a septic system(s) for that development, then the director may approve - but is not required to approve or otherwise allow - the proposed development to receive water service from the city and allow the property(ies) within the proposed development to discharge wastewater to a septic system(s) if all of the following are met:

a. A regional wastewater system that will serve the development is being designed and constructed contemporaneously with the design and construction of the cleanout and sanitary and sewer laterals for each unit within the proposed development.

b. For each unit within the proposed development that will receive a separate water service from the city, a cleanout and sanitary sewer lateral is designed and constructed that complies with adopted standards and enables the unit to disconnect from the septic system or other temporary system approved by the department and connect to a future, regional wastewater system.

c. The cleanout and sanitary sewer lateral described in subsection 14.04.020.P.1.b are shown on civil improvement plans for the development that are accepted by, and on file with, the city.

d. The property owner of each unit signs and records in the office of the county recorder of Clark County, Nevada a declaration of special land use restriction wherein the property owner agrees that, within three months after the operator of the regional wastewater system assumes responsibility for operation and maintenance of that system, the property owner (at their cost) shall connect to the regional wastewater system in compliance with the requirements of the operator of that system and shall remove or abandon their septic system in compliance with applicable federal, state, and local requirements, including Southern Nevada Health District regulations.

That declaration of special land use restriction shall be in a form approved by the director, shall be for the benefit of the city, and must also be signed by the city.

2. The city shall not issue a building permit for a new structure in the out of valley area (with the exception of a grading permit) until after the developer provides documentation to the city that shows the cleanout and sanitary sewer lateral described in subsection 14.04.020.P.1.b are included in the applicable construction plans for the development.

3. The city shall not issue a certificate of occupancy for a new structure in the out of valley area until after the city inspects the property and confirms that the cleanout and sanitary sewer lateral were constructed in conformance with the requirements

in subsection 14.04.020.P.1.b above and construction has commenced on the regional wastewater system to convey the wastewater generated from the property to the regional wastewater system.

(Ord. No. 3905, § 7, 9-13-2022; Ord. No. 3323, § 1, 12-15-2015; Ord. 2536, § 22, 2006)

14.04.030 Service line requirements.

A. *Customer's responsibility.* Unless otherwise approved by the director, it shall be the customer's responsibility to own and maintain the wastewater service line, from the point of connection to the city main, to the customer's property. Any and all repairs necessary to correct deficiencies noted within the customer's service line, including all costs associated with such repairs shall be the sole responsibility of the customer.

B. *Corrective actions.* When, in the opinion of the director, an existing service line becomes inadequate and/or a customer/owner has not complied with adopted standards, the city may choose to install, upgrade, and/or repair the service line with prior notification and at the customer/owner's expense. This expense shall be billed using the department's actual costs.

(Ord. 2676, § 4 (part), 2008; Ord. 2536, § 23, 2006)

14.04.040 Mains and main extensions.

A. Unless otherwise approved by the director, all service connections shall be made to a wastewater main that is located immediately adjacent to the property requiring service. The director reserves the right to determine the wastewater main to which connection shall be made.

B. Applicants requesting service to a property where no city wastewater main exists contiguous to the property must first arrange for a wastewater main extension in accordance with this title and department service rules. Where such wastewater main exists but does not extend across the full extent of the property frontage or is within 400 feet of the property as described in subsections 14.04.040.E, 14.04.040.F, or 14.04.040.G, the city may require the applicant to extend the wastewater main to such extent prior to obtaining utility service.

C. All public wastewater mains shall be placed within a dedicated public street. Where no public street is available and upon approval by the director, a public wastewater main may be installed within a dedicated municipal utility easement. Said easement shall not be less than 20 feet in width and shall be contained within a single parcel of land. The easement shall increase by ten feet in width for each utility main added to the easement beyond a single main. All mains shall be centered in the available easement space. Unless otherwise allowed by the city, all utility easements in a subdivision, not within a public or

private street, shall be within a common element. The easement width required may increase with a main deeper than standard. In such instance, the easement shall be perpetual in nature and unless otherwise approved by the director, shall be exclusive to the city. Proper access by city personnel to all areas within the easement must be provided. No building, structures, fences, trees, shrubs, or other improvements that interfere with its use by the city, can be placed within the easement. The city reserves the right to operate, maintain, repair, replace and/or change the size and/or number of wastewater mains and appurtenances within such easement. All such easements shall be granted to the city in a form and manner that is acceptable to the city.

D. Unless otherwise approved by the director, a property shall not operate or otherwise use a septic system when such property lies within 400 feet of the city's wastewater system. The 400 feet length shall be measured from the closest point of that property to the point of connection from an existing, active and accessible city main and, generally, route through existing or future streets or, as determined by the department, other areas appropriate for a main. For any septic system installed on a property on or after January 1, 2023, a cleanout and sanitary sewer lateral shall be designed and constructed that complies with adopted standards and enables the property to disconnect from the septic system and connect to a city wastewater main and that cleanout and sanitary sewer lateral must be shown on civil improvement plans for the property that are accepted by, and on file with, the city. If deemed in the best interest of the city, the director may require the owner of such property to abandon all septic systems in accordance with applicable federal, state, and local requirements, perform a wastewater main extension and establish wastewater service from the city in accordance with the city's requirements.

E. Unless otherwise approved by the director, wastewater service must be obtained from the city whenever an undeveloped property initiates development through the city and such property lies within 400 feet of the city's wastewater system. In such instance, a wastewater main extension shall be required and must be made in accordance with the city's requirements.

F. In such instance where a parcel map is being proposed and offsite improvements are required as a condition of approval of such map, a wastewater main extension shall be required whenever the city's wastewater system lies within the resulting calculation of 400 feet multiplied by either the total number of lots created by recordation of such map of such parcel of land or the maximum number of lots that could be created based on then-current zoning, whichever number of lots is greater. Where consecutive parcel maps are being proposed, a main extension shall be required whenever the city's wastewater system lies within the resulting calculation of 400 feet multiplied by either (1) the total number of lots created by the recordation of the initial and all consecutive parcel maps combined or (2) the maximum number of lots that could be created based on then-current zoning of the parcels

of land in the initial and all consecutive parcel maps combined for those parcels of land, whichever number of lots is greater. However, final determination, including application of this requirement, shall be made by the director.

G. In such instance where a tentative map or planned unit development is being proposed and no city wastewater main exists contiguous to the property, a wastewater main extension shall be required and must be made in accordance with the city's requirements.

H. Unless otherwise approved by the director, not more than one lot or other parcel of subdivided land shall be served by a single service connection. A single customer shall be responsible for payment of wastewater bills for each such service. Additionally, where the city provides wastewater service to a single lot or other parcel of subdivided land, the same customer shall be responsible for payment of both the water and wastewater bill.

1. Exception: In the case of a commercial subdivision whereby a single service line or service lines provide service to multiple lots or other parcels of subdivided land, a single customer shall exist in the form of a property owner's association. Said property owner's association shall be responsible for payment of all water and wastewater bills associated with such service(s). Additionally, the subdivision shall record a declaration of covenants, conditions and restrictions (CC&Rs) in the office of the Clark County recorder, which designates that all of the lot owners in the subdivision own an undivided interest in the private water and wastewater facilities, and that all of the lot owners must participate in the cost of the operation and maintenance of such private systems.

I. Where multiple services are provided to a single lot or other parcel of subdivided land, a single customer shall be responsible for payment of wastewater bills for all such services.

J. When a wastewater main extension is required, the director reserves the right to dictate the size, length and capacity of such wastewater main. The applicant may apply for partial cost reimbursement through the establishment of a refunding agreement, as outlined in this title and department service rules.

K. When a connection is made to any main, the main frontage fee is assessed in accordance with this title and department service rules. A minimum charge shall apply to any parcel having less than 60 feet of chargeable frontage.

L. All wastewater mains and main extensions must be designed and constructed in accordance with the city's adopted standards.

M. Before a wastewater main, service line, or connection is allowed to be placed into service, it shall be tested to the satisfaction of the city.

N. The granting of a certificate of occupancy does not relieve the developer of its obligations relative to the construction of the wastewater main extension; nor does it imply that the mains have been properly constructed or accepted by the city.

O. Upon completion of a wastewater main extension by a customer or subdivider, the customer or subdivider shall furnish the department a valid bill of sale conveying title to the city for such main and appurtenances, to include service lines, rights-of-way, and/or easements. Upon transfer of such title, the city reserves the right to provide direct or indirect service to any customer through the use of such wastewater mains and appurtenances.

P. The developer is responsible to correct any defects or failures that occur relative to the design and construction of the wastewater main extension, within a period of one year from the date of acceptance of the work by the city. The developer shall, at the developer's own expense, make good such defects and failures and make all replacements and adjustments required, in accordance with adopted standards. All repairs shall be subject to the approval of the city. Furthermore, developer is at no time relieved of any obligation or responsibility it may have by law, including but not limited to damages for latent deficiencies, injury to real or personal property or injury to or wrongful death of a person.

Q. The developer shall indemnify, defend and hold harmless the city, its officers, agents, volunteers, and employees, against and from any and all liability, loss, damage, claims, fines, demands, causes of action, costs, expenses, and judgments of whatsoever nature, including but not limited to reasonable costs of investigation, reasonable attorneys' fees and expenses, all reasonable expert witness fees and expenses, and all court or arbitration or other alternative dispute resolution costs which result from injury to or death of any persons whomsoever, and/or against and from damage to or loss or destruction of property whatsoever when such injury, death, loss, destruction or damage is due to or arises in connection with or as a result of any work done by the developer, its contractors, agents and subcontractors in connection with the construction of the main and/or arises out of or in connection with developer's, or its contractors' and subcontractors' performance or failure to comply with the requirements of this title or the department's service rules.
(Ord. No. 3905, § 8, 9-13-2022; Ord. 2798, § 3, 1-20-2009; Ord. 2676, § 4 (part), 2008; Ord. 2536, § 24, 2006)

14.04.050 Backbone infrastructure.

A. *Extensions of backbone infrastructure.*

1. Unless otherwise approved by the director, construction and/or extensions of backbone infrastructure to support service to proposed developments, including all costs associated with such construction and/or extensions, shall be the responsibility of the customer. Additionally, the design of such infrastructure, including the preparation of all applicable design reports shall be the responsibility of the

customer, and shall be prepared in accordance with the adopted standards. By proceeding with the proposed development and associated backbone infrastructure required to support service to it, the customer acknowledges that they have gained a complete understanding of adopted standards, and agree to comply with them accordingly.

2. Where the director determines it is in the city's best interest for the city to assume the responsibility for the construction and/or extensions of backbone infrastructure to support service to developments, or to participate in a cost-sharing with the customer responsible for such construction and/or extensions, the director reserves the right to establish a special refunding agreement in order to establish a means of receiving proportional cost reimbursement from customers that benefit from the construction of such infrastructure. Said special refunding agreement shall be established in accordance with the requirements outlined in this title and the department's service rules.

3. The granting of a certificate of occupancy does not relieve the customer of its obligations relative to the construction of the backbone infrastructure; nor does it imply that the backbone infrastructure has been properly constructed or accepted by the city.

4. The customer is responsible to correct any defects or failures that occur relative to the design and construction of the backbone infrastructure, within a period of one year from the date of acceptance of the work by the city. The customer shall, at the customer's own expense, make good such defects and failures and make all replacements and adjustments required, in accordance with adopted standards. All repairs shall be subject to the approval of the city.

5. The customer, at all times, is not relieved of any obligation or responsibility it may have by law, including but not limited to damages for latent deficiencies, injury to real or personal property or injury to or wrongful death of a person.

6. The customer shall indemnify, defend and hold harmless the city, its officers, agents, volunteers, and employees, against and from any and all liability, loss, damage, claims, fines, demands, causes of action, costs, expenses, and judgments of whatsoever nature, including but not limited to reasonable costs of investigation, reasonable attorneys' fees and expenses, all reasonable expert witness fees and expenses, and all court or arbitration or other alternative dispute resolution costs which result from injury to or death of any persons whomsoever, and/or against and from damage to or loss or destruction of property whatsoever when such injury, death, loss, destruction or damage is due to or arises in connection with or as a result of any work done by the customer, its contractors, agents and subcontractors in connection with the construction of the backbone infrastructure, and/or arises out of or in connection with customer's, or its contractors' and subcontractors' performance or failure to comply with the requirements of this title or the department's service rules.

B. *Sizing of backbone infrastructure.* The director reserves the right to determine the size and capacity of the backbone infrastructure proposed for construction, taking into account projected service needs of the areas served and whenever it is deemed to be in the best interest of the city in order to provide for the orderly development of the city's public infrastructure system. Where said size or capacity of such backbone infrastructure is deemed to be in excess of the customer's needs to support their project, it shall be the customer's responsibility to comply with such requirement, with all costs associated with its compliance to be the sole responsibility of the customer. In such situations the customer may apply for a special refunding agreement in order to seek proportional cost reimbursement from other developers and/or landowners that benefit from the construction of such infrastructure. Said special refunding agreement shall be established in accordance with the requirements outlined in this title and the department's service rules.
(Ord. 2536, § 25, 2006)

14.04.060 Property access.

City employees or a duly authorized city representative shall have the right to access customer's property or premises at reasonable times for any purpose related to the furnishing of service, protection of water quality and/or for verification of compliance with the provisions of this title. The city will attempt to provide prior notice where possible.
(Ord. 2536, § 26, 2006)

14.04.070 System maintenance and repair.

A. Upon dedication and/or acceptance of any part of the city's publicly owned treatment works, the city shall be responsible for its maintenance and repair, subject to any agreement covering the installation of such facilities.

B. Street pavement and sidewalk replacement conducted by the department in association with system repairs are limited to standard asphalt and concrete types. Where a non-standard pavement or sidewalk exists, the city shall not be responsible for the replacement of such non-standard material.

C. Bypassing of wastewater mains to take the main out of service will not be permitted without prior notification and approval as outlined in this title and the department service rules.
(Ord. 2536, § 27, 2006)

14.04.080 Interruption of service.

A. The city will endeavor to notify customers in advance of any interruption in service due to repair, maintenance, or other causes. In emergency conditions, when notification is not possible or practical, service may be interrupted for indefinite periods. At no time shall the city be liable for loss and/or damages that may occur due to any interruption in service and/or due to system failure.

B. In accordance with department service rules, written notification shall be provided to the director whenever persons are engaged in street work and/or onsite repairs, including but not limited to grading, directional boring, filling and trenching, and/or paving that may cause removal, displacement or modifications to any portion of the city's publicly owned treatment works, or any interruption of service to the city's customers. With the exception of emergencies, said work cannot proceed until permission is received from the director to conduct such activities.
(Ord. 2536, § 28, 2006)

14.04.090 Violations.

Any person who fails or refuses to comply with any of the following provisions shall be deemed to be in violation of this title and shall be subject to discontinuance of service,

subject to any penalties and charges assessed in accordance with this title and/or department service rules, and subject to all compliance procedures as prescribed within this title.

A. It shall be prohibited for a person to negligently, recklessly or willfully introduce or cause to be introduced into the city's publicly owned treatment works any pollutant, waste, or hazardous substance which may:

1. Cause pass through;

2. Interfere with the city's publicly owned treatment works;

3. Cause the city to violate the city's National Pollution Discharge Elimination System (NPDES) permit;

4. Cause the city's publicly owned treatment works to be in non-compliance with any local, state or federal rules and/or requirements applicable to the management of the city's publicly owned treatment works; or

5. Create a hazardous condition to human health and/or the environment.

B. Any person who, without prior authorization by the city, operates, maintains, repairs, relocates, cuts, changes, removes, disconnects, repairs or interferes in any manner with the city's publicly owned treatment works is in violation of this chapter.

C. Any person or party who, with or without authorization by the city, takes actions which result in damage to any portion of the city's publicly owned treatment works, either directly or indirectly, is in violation of this chapter.

D. Any person who utilizes the publicly owned treatment works without applying for and receiving approval from the department for a service connection is in violation of this chapter.

E. It is prohibited for any person within the corporate limits of the city to maintain, use or operate any private cesspool, privy, septic tank or sewage disposal system when the property upon which wastewater services are required is within 400 feet of existing publicly owned treatment works of the city, and it shall be unlawful for the owner, renter or operator of any residence, business establishment or real property to refuse to connect his business, residence, establishment or real property to the city's publicly owned treatment works.

F. Construction related material, rock, dirt, and all other unauthorized materials shall not be disposed or placed into the city's publicly owned treatment works. At its sole discretion, the city may hold persons responsible liable for all costs and expenses incurred by the city for cleanup, correction or any other related costs including, but not limited to, fines, fees or government penalties levied against the city for conditions resulting from such disposal or placement of unauthorized material.

(Ord. 2676, § 4 (part), 2008; Ord. 2536, § 29, 2006)

Chapter 14.05 RECLAIMED WATER REGULATIONS

Sections:

14.05.010 General provisions.
14.05.020 Conditions of service.
14.05.030 Service line requirements.
14.05.040 Mains and main extensions.
14.05.050 Backbone infrastructure.
14.05.060 Property access.
14.05.070 System maintenance and repair.
14.05.080 Interruption of service.
14.05.090 Violations.

14.05.010 General provisions.

A. *Purpose and policy.* This chapter sets forth responsibility, authority, and provisions to ensure compliance with all federal, state, and local requirements for the protection of public health, safety and welfare.

B. *Scope.* The provisions of this chapter shall apply to all residents of the city, a responsible party operating, maintaining, repairing, relocating, removing, and/or disconnecting the public water system and/or publicly owned treatment works, and/or users of city-provided utilities.

C. *Administration.* Except as otherwise provided herein, the director shall administer, implement, and enforce the provisions of this chapter. Any powers granted or duties imposed upon the director may be delegated by the director to persons acting in the beneficial interest of the city.

D. *Compliance.* All provisions of this chapter are subject to compliance procedures as outlined in this title and the department service rules.
(Ord. 2676, § 5 (part), 2008; Ord. 2536, § 31, 2006)

14.05.020 Conditions of service.

A. The city may, subject to the approval of the director, authorize reclaimed water service from a reclaimed water connection in accordance with this title and the department service rules.

B. The city reserves the right to specify or restrict the location, time, and rate of reclaimed water use to avoid interference with service to other customers.

C. Reclaimed water service lines shall be installed, maintained, and repaired in accordance with all federal, state, and local regulations, as well as adopted standards. The director reserves the right to determine service size, service line material, location, installation configuration, and service connection.

D. The customer is responsible for all plumbing, piping, and appurtenances from the service connection to the point of use.

E. The customer shall furnish all necessary equipment to convey the reclaimed water from the service connection to the customer point of use.

F. Temporary reclaimed water service will cease when a permanent demand for reclaimed water has been established.

G. The customer shall not operate the service in a manner which many create an adverse condition such as, but not limited to, low pressure, pressure surges, reduction of flow, or compromised water quality within the city's public water system.

H. The city will endeavor to provide its customers with a continuous and adequate supply of reclaimed water service within reasonable maximum and minimum pressures. However, varying pressures will normally prevail through the reclaimed distribution system due to changes in elevation, use, and other factors.

I. Where prevailing reclaimed water pressures may fall outside of prescribed operating limits, applicants for service shall be responsible for installation of pressure regulators, storage tanks, pumps, or other devices as the director may require.

J. The city reserves the right to authorize use of facilities prior to final acceptance. Exercising such right does not infer acceptance or release of responsibility for compliance with any and/or all requirements of this title, adopted standards, and/or the department service rules.
(Ord. 2536, § 32, 2006)

14.05.030 Service line requirements.

A. *Meters.*

1. A city-approved meter shall be installed to control the flow, measure water usage and protect the reclaimed water supply.

2. The meter location shall be within the public right-of-way directly adjacent to the parcel being served. If street right-of-way is not available, the director may approve installation within an easement or alley adjacent to or on the parcel to be served. All meters shall be located where access by city personnel for operation and mainte-

nance will not be restricted. The meter shall be located outside of travel lanes and driveways and shall be protected from vehicular traffic, unless otherwise approved by the director.

B. *Valves.* For services with a three-inch meter or larger where the service has been discontinued or it becomes necessary to shut off a service connection for repair of piping on the customer's property, a valve as required by adopted standards shall be installed prior to restoration of the service with all costs to be borne by the customer. Should the customer fail to make such repairs or corrections to the service conditions and the city has performed its due diligence to notify the customer to make such repairs or corrections, the director may authorize the city to make the necessary corrections, with the customer being responsible for reimbursement to the city for all costs incurred in addition to any penalties in accordance with this title and the department service rules.

C. *Corrective actions.* When, in the opinion of the director, an existing service line becomes inadequate and/or a customer/owner has not complied with adopted standards, the city may choose to install, upgrade, and/or repair the service line with prior notification and at the customer/owner's expense. This expense shall be billed using the department's actual costs.
(Ord. 2536, § 33, 2006)

14.05.040 Mains and main extensions.

A. Unless otherwise approved by the director, all service connections shall be made to a main that is located immediately adjacent to the property requiring service. The director reserves the right to determine the main to which connection shall be made.

B. Applicants requesting service to a property where no city main exists contiguous to the property must first arrange for a main extension in accordance with this title and department service rules.

C. When a main extension is required, the director reserves the right to dictate the size, length and capacity of such main. The applicant may apply for partial cost reimbursement through the establishment of a refunding agreement, as outlined in this title and department service rules.

D. When a connection is made to any main, the main frontage fee is assessed in accordance with this title and department service rules. A minimum charge shall apply to any parcel having less than 60 feet of chargeable frontage. Connections to serve median strips within a publicly dedicated right of way or land either owned or controlled by the public for landscaped trails and paths shall be charged the minimum charge regardless of the length of the median strip or landscaped area(s).

E. All mains and main extensions must be designed and constructed in accordance with the city's adopted standards.

F. Before a main, service line, or connection is allowed to be placed into service, it shall be tested to the satisfaction of the city.

G. The granting of a certificate of occupancy does not relieve the developer of its obligations relative to the construction of the main extension; nor does it imply that the mains have been properly constructed or accepted by the city.

H. Upon completion of a main extension by a customer or subdivider, the customer or subdivider shall furnish the department a valid bill of sale conveying title to the city for such main and appurtenances, to include service lines, rights-of-way, and/or easements. Upon transfer of such title, the city reserves the right to provide direct or indirect service to any customer through the use of such mains and appurtenances.

I. The developer is responsible to correct any defects or failures that occur relative to the design and construction of the main extension, within a period of one year from the date of acceptance of the work by the city. The developer shall, at the developer's own expense, make good such defects and failures and make all replacements and adjustments required, in accordance with adopted standards. All repairs shall be subject to the approval of the city. Furthermore, developer is at no time relieved of any obligation or responsibility it may have by law, including but not limited to damages for latent deficiencies, injury to real or personal property or injury to or wrongful death of a person.

J. The developer shall indemnify, defend and hold harmless the city, its officers, agents, volunteers, and employees, against and from any and all liability, loss, damage, claims, fines, demands, causes of action, costs, expenses, and judgments of whatsoever nature, including but not limited to reasonable costs of investigation, reasonable attorneys' fees and expenses, all reasonable expert witness fees and expenses, and all court or arbitration or other alternative dispute resolution costs which result from injury to or death of any persons whomsoever, and/or against and from damage to or loss or destruction of property whatsoever when such injury, death, loss, destruction or damage is due to or arises in connection with or as a result of any work done by the developer, its contractors, agents and subcontractors in connection with the construction of the main and/or arises out of or in connection with developer's, or its contractors' and subcontractors' performance or failure to comply with the requirements of this title or the department's service rules.
(Ord. 2676, § 5 (part), 2008; Ord. 2536, § 34, 2006)

14.05.050 Backbone infrastructure.

A. *Extensions of backbone infrastructure.*

1. Unless otherwise approved by the director, construction and/or extensions of backbone infrastructure to support service to proposed developments, including all

costs associated with such construction and/or extensions shall be the responsibility of the customer. Additionally, the design of such infrastructure, including the preparation of all applicable design reports shall be the responsibility of the customer, and shall be prepared in accordance with adopted standards. By proceeding with the proposed development and associated backbone infrastructure required to support service to it, the customer acknowledges that they have gained a complete understanding of adopted standards, and agree to comply with them accordingly.

2. Where the director determines it is in the city's best interest for the city to assume the responsibility for the construction and/or extensions of backbone infrastructure to support service to developments, or to participate in a cost-sharing with the customer responsible for such construction and/or extensions, the director reserves the right to establish a special refunding agreement in order to establish a means of receiving proportional cost reimbursement from customers that benefit from the construction of such infrastructure. Said special refunding agreement shall be established in accordance with the requirements outlined this title and the department's service rules.

3. The granting of a certificate of occupancy does not relieve the customer of its obligations relative to the construction of the backbone infrastructure; nor does it imply that the backbone infrastructure has been properly constructed or accepted by the city.

4. The customer is responsible to correct any defects or failures that infrastructure, within a period of one year from the date of acceptance of the work by the city. The customer shall, at the customer's own expense, make good such defects and failures and make all replacements and adjustments required, in accordance with adopted standards. All repairs shall be subject to the approval of the city.

5. The customer, at all times, is not relieved of any obligation or responsibility it may have by law, including but not limited to damages for latent deficiencies, injury to real or personal property or injury to or wrongful death of a person.

6. The customer shall indemnify, defend and hold harmless the city, its officers, agents, volunteers, and employees, against and from any and all liability, loss, damage, claims, fines, demands, causes of action, costs, expenses, and judgments of whatsoever nature, including but not limited to reasonable costs of investigation, reasonable attorneys' fees and expenses, all reasonable expert witness fees and expenses, and all court or arbitration or other alternative dispute resolution costs which result from injury to or death of any persons whomsoever, and/or against and from damage to or loss or destruction of property whatsoever when such injury, death, loss, destruction or damage is due to or arises in connection with or as a

result of any work done by the customer, its contractors, agents and subcontractors in connection with the construction of the backbone infrastructure, and/or arises out of or in connection with customer's, or its contractors' and subcontractors' performance or failure to comply with the requirements of this title or the department's service rules.

B. *Sizing of backbone infrastructure.* The director reserves the right to determine the size and capacity of the backbone infrastructure proposed for construction, taking into account projected service needs of the areas served and whenever it is deemed to be in the best interest of the city in order to provide for the orderly development of the city's public infrastructure system. Where said size or capacity of such backbone infrastructure is deemed to be in excess of the customer's needs to support their project, it shall be the customer's responsibility to comply with such requirement, with all costs associated with its compliance to be the sole responsibility of the customer. In such situations the customer may apply for a special refunding agreement in order to seek proportional cost reimbursement from other developers and/or landowners that benefit from the construction of such infrastructure. Said special refunding agreement shall be established in accordance with the requirements outlined in this title and the department's service rules.
(Ord. 2536, § 35, 2006)

14.05.060 Property access.

City employees or a duly authorized city representative shall have the right to access customer's property or premises at reasonable times for any purpose related to the furnishing of service, protection of water quality and/or for verification of compliance with the provisions of this title. The city will attempt to provide prior notice where possible.
(Ord. 2536, § 36, 2006)

14.05.070 System maintenance and repair.

A. Upon dedication and/or acceptance of any part of the city's publicly owned treatment works, the city shall be responsible for its maintenance and repair, subject to any agreement covering the installation of such facilities.

B. Street pavement and sidewalk replacement conducted by the department in association with system repairs are limited to standard asphalt and concrete types. Where a non-standard pavement or sidewalk exists, the city shall not be responsible for the replacement of such non-standard material.
(Ord. 2536, § 37, 2006)

14.05.080 Interruption of service.

A. The city will endeavor to notify customers in advance of any interruption in service due to repair, maintenance, or other causes. In emergency conditions, when notification is not possible or practical, service may be interrupted for indefinite periods. At no time shall the city be liable for loss and/or damages that may occur due to any interruption in service and/or due to system failure.

B. Written notification shall be provided to the director in accordance with department service rules whenever persons are engaged in street work and/or onsite repairs, including but not limited to grading, directional boring, filling and trenching, and/or paving that may cause removal, displacement or modifications to any portion of the city's publicly owned treatment works, or any interruption of service to the city's customers. With the exception of emergencies, said work cannot proceed until permission is received from the director to conduct such activities.
(Ord. 2536, § 38, 2006)

14.05.090 Violations.

Any person who fails or refuses to comply with any of the following provisions shall be deemed to be in violation of this title and shall be subject to discontinuance of service, subject to any penalties and charges assessed in accordance with this title and/or department service rules, and subject to all compliance procedures as prescribed within this title.

A. Any person who takes reclaimed water without applying for and receiving approval from the department for a service connection is in violation of this chapter.

B. With the exception of construction phase meter set up and testing, it is prohibited to utilize spacers for the purpose of providing reclaimed water service to the property.
(Ord. 2536, § 39, 2006)

Chapter 14.06 RAW WATER REGULATIONS

Sections:

14.06.010 General provisions.
14.06.020 Conditions of service.
14.06.030 Service line requirements.
14.06.040 Property access.
14.06.050 System maintenance and repair.
14.06.060 Interruption of service.
14.06.070 Violations.

14.06.010 General provisions.

A. *Purpose and policy.* This chapter sets forth responsibility, authority, and provisions to ensure compliance with all federal, state, and local requirements for the protection of public health, safety and welfare.

B. *Scope.* The provisions of this chapter shall apply to all residents of the city, a responsible party operating, maintaining, repairing, relocating, removing, and/or disconnecting the public water system and/or publicly owned treatment works, and/or users of city-provided utilities.

C. *Administration.* Except as otherwise provided herein, the director shall administer, implement, and enforce the provisions of this chapter. Any powers granted or duties imposed upon the director may be delegated to persons acting in the beneficial interest of the city.

D. *Compliance.* All provisions of this chapter are subject to compliance procedures as outlined in this title and the department service rules.
(Ord. 2676, § 6, 2008; Ord. 2536, § 41, 2006)

14.06.020 Conditions of service.

A. The city may, subject to the approval of the director, authorize raw water service from a permanent raw water connection in accordance with this title and the department service rules.

B. The city reserves the right to specify or restrict the location, time, and rate of raw water use to avoid interference with service to other customers.

C. Raw water service lines shall be installed, maintained, and repaired in accordance with all federal, state, and local regulations, as well as adopted standards. The director reserves the right to determine service size, service line material, location, installation configuration, and service connection.

D. The customer is responsible for all plumbing, piping, and appurtenances from the service connection to the point of use.

E. The customer shall furnish all necessary equipment to convey the raw water from the service connection to the customer point of use.

F. Where prevailing raw water pressures may fall outside of prescribed operating limits, applicants for service shall be responsible for installation of pressure regulators, storage tanks, pumps, or other devices as the director may require.

G. The customer shall not operate the service in a manner which may create an adverse condition such as, but not limited to: low pressure, pressure surges, reduction of flow or compromised water quality within the city's raw and/or potable water system.

H. The city will endeavor to provide its customers with a continuous and adequate supply of raw water service within reasonable maximum and minimum pressures. However, varying pressures will normally prevail through the raw water distribution system due to changes in elevation, use, and other factors.

I. Unless otherwise approved by the director, all properties shall be provided raw water service through a single connection. Where multiple services to a single property and/or parcel are allowed, said services shall be established in accordance with this title and department service rules.
(Ord. 2536, § 42, 2006)

14.06.030 Service line requirements.

A. *Mains and main extensions.*

1. Unless otherwise approved by the director, all raw water service connections shall be made from an approved raw water main.

2. Applicants requesting raw water service to a property, where no raw water main exists contiguous to the property, must first arrange for a main extension in accordance with this title and the department service rules.

3. When a main extension is required, the director reserves the right to dictate the size and capacity of such main.

B. *Corrective actions.* When, in the opinion of the director, an existing service line becomes inadequate and/or a customer/owner has not complied with adopted standards, the city may choose to install, upgrade, and/or repair the service line with prior notification and at the customer/owner's expense. This expense shall be billed using the department's actual costs.
(Ord. 2536, § 43, 2006)

14.06.040 Property access.

City employees or a duly authorized city representative shall have the right to access customer's property or premises at reasonable times for any purpose related to the furnishing of service, protection of water quality and/or for verification of compliance with the provisions of this title. The city will attempt to provide prior notice where possible.
(Ord. 2536, § 44, 2006)

14.06.050 System maintenance and repair.

A. Upon dedication and/or acceptance of any part of the city's public water system, the city shall be responsible for its maintenance and repair, subject to any agreement covering the installation of such facilities.

B. Street pavement and sidewalk replacement conducted by the department in association with system repairs are limited to standard asphalt and concrete types. Where a non-standard pavement or sidewalk exists, the city shall not be responsible for the replacement of such non-standard material.
(Ord. 2536, § 45, 2006)

14.06.060 Interruption of service.

A. The city will endeavor to notify customers in advance of any interruption in service due to repair, maintenance, or other causes. In emergency conditions, when notification is not possible or practical, service may be interrupted for indefinite periods. At no time shall the city be liable for loss and/or damages that may occur due to any interruption in service and/or due to system failure.

B. Written notification shall be provided to the director in accordance with department service rules whenever persons are engaged in street work and/or onsite repairs, including but not limited to grading, directional boring, filling and trenching, and/or paving that may cause removal, displacement or modifications to any portion of the city's water system, or any interruption of service to the city's customers. With the exception of emergencies, said work cannot proceed until permission is received from the director to conduct such activities.
(Ord. 2536, § 46, 2006)

14.06.070 Violations.

Any person who fails or refuses to comply with any of the following provisions shall be deemed to be in violation of this title and shall be subject to discontinuance of service,

subject to any penalties and charges assessed in accordance with this title and/or department service rules, and subject to all compliance procedures as prescribed within this title.

A. Any person who takes raw water without applying for and receiving approval from the department for a service connection is in violation of this chapter.

(Ord. 2536, § 47, 2006)

Chapter 14.08 CROSS-CONNECTION CONTROL REGULATIONS*

Sections:

14.08.010 General provisions.
14.08.020 Conditions of service.
14.08.030 Location and installation.
14.08.040 Testing and maintenance.
14.08.050 Department-authorized backflow prevention assembly test companies and testers.
14.08.060 Property access and modification.
14.08.070 Exception.
14.08.080 Corrective actions.
14.08.090 Violations.

14.08.010 General provisions.

A. *Purpose and policy.* The purpose of this chapter is to set forth uniform requirements that protect the public water system from pollution and contamination through a connection to the public water system and to ensure compliance with all federal, state, and local requirements for the protection of public health, safety and welfare. "Contamination" has the meaning ascribed to the term "contamination" in Nevada Administrative Code, as amended, (the "NAC") 445A.65795. "Pollution" has the meaning ascribed to the term "pollution" in NAC 445A.6623.

B. *Scope.* The provisions of this chapter shall apply to any person, governmental entity or property owner with a property or premise that has a commercial meter or commercial connection to the public water system, to any property or premise that has a commercial meter or commercial connection to the public water system, and to any backflow prevention assembly company or tester that provides, or wishes to provide, backflow prevention assembly testing in the city. The provisions of section 14.08.020.C shall apply to any person and governmental entity.

C. *Objectives.* The objectives of this chapter are to:

1. Prevent the introduction of pollution or contamination into the public water system;

2. Regulate connections to the public water system; and

***Editor's note—**Ord. No. 3737, § 1, adopted December 15, 2020, repealed and reenacted chapter 14.08 in its entirety to read as herein set out. Formerly, chapter 14.08 pertained to similar subject matter, and derived from Ord. No. 2536, §§ 49—57, adopted in 2006; Ord. No. 2676, § 7, adopted in 2008; Ord. No. 2798, § 4, adopted January 20, 2009; Ord. No. 2909, § 4, adopted March 15, 2011, and Ord. No. 3038 § 1, adopted July 2, 2013.

3. Be a component of the city's cross-connection control program thereby enabling the city to comply with requirements in NAC 445A.67185 to 445A.67255, inclusive.

D. *Administration.* Except as otherwise provided, the director shall administer, implement, and enforce the provisions of this chapter. Any powers granted or duties granted to or imposed upon the director or the department may be delegated by the director to other persons acting in the beneficial interest of the city.

E. *Compliance.* All provisions of this chapter are subject to compliance procedures as outlined in this title.

F. *Property owner responsibility.* If the customer and the property owner(s) are not identical, any reference to customer in this chapter shall also refer to and include the property owner(s). Accordingly, any right, obligation, requirement or prohibition applicable to a customer in this chapter shall also apply to the property owner(s).
(Ord. No. 3737, § 1, 12-15-2020)

14.08.020 Conditions of service.

A. No person shall connect to the public water system unless the department authorizes the connection in advance, that person complies with all requirements in this title applicable to that connection and the city's cross-connection control program and that person protects the public water system from a cross-connection in accordance with all federal, state and local requirements.

B. After water passes from the public water system through the point of connection, the customer shall ensure that such water does not reverse back into the public water system for any reason, including as a result of backsiphonage or backpresssure. "Backsiphonage" has the meaning ascribed to the term "backsiphonage" in NAC 445A.65615. "Backpressure" has the meaning ascribed to the term "backpresssure" in NAC 445A.6561.

C. No person shall introduce any pollution or contamination into the public water system.

D. If the department determines that a backflow prevention assembly or device is required to eliminate an actual or potential unprotected cross-connection between either a new water service or an existing water service and the public water system, the department shall notify the customer in writing that a department-approved backflow prevention assembly or device is required. The type of assembly or device shall be commensurate with the degree of hazard that exists on the property and premise. The department has the right to designate the required type of backflow prevention (including the minimum size, model, type and number of backflow prevention assembly(ies) or device(s)), designate the installation location for the backflow prevention assembly(ies) or device(s), prescribe milestones and milestone deadlines for installation of the backflow prevention as-

sembly(ies) or device(s), and identify the date by when the assembly(ies) or device(s) must be placed into operation. The customer shall cause the backflow prevention assembly or device to be designed and installed in strict compliance with the requirements in that notice, in this chapter and in the city's cross-connection control program.

E. The customer shall protect the service connection from sewage and reclaimed water with an air gap. "Air gap" has the meaning ascribed to the term "air gap" in NAC 445A.6553.

F. The customer is responsible for designing and constructing the customer's water system (either a new water service or the retrofit of an existing water service) to accommodate pressure losses attributed to the installation of a backflow prevention assembly(ies) and device(s).

G. The customer is responsible for ensuring the design, installation, testing, repair, maintenance, and replacement of the backflow prevention assembly(ies) and device(s) are performed at no expense to the city and in compliance with the following:

1. Chapter 15.20 - Uniform Plumbing Code - of the code;

2. American Water Works Association (AWWA) M14 manual "Recommended Practice for Backflow Prevention and Cross-Connection Control," as adopted by reference in NAC 445A.6663;

3. The most recent edition of the University of Southern California (USC) "Manual of Cross-Connection Control," as adopted by reference in NAC 445A.6663, (the "USC Manual of Cross-Connection Control");

4. Applicable federal, state and local requirements;

5. The requirements in this chapter; and

6. The requirements in the city's cross-connection control program.

H. If at any time a federal, state or local requirement concerning backflow prevention or cross-connection is more stringent than a requirement imposed in this chapter or elsewhere in the city's cross-connection control program, the more restrictive requirement shall govern and the customer must comply, or otherwise be in compliance, with the more restrictive requirement.
(Ord. No. 3737, § 1, 12-15-2020)

14.08.030 Location and installation.

A. When the department has required the installation of a backflow prevention assembly(ies) or device(s), the customer is responsible for the installation of the assembly(ies) or device(s) at each point of connection on the customer's side of the water meter or the point of connection at the customer's property line, but in all cases, prior to the first branch line leading off the service line.

B. Installation of the required backflow prevention assembly(ies) shall conform to and be in compliance with the requirements in section 15.70.010 of the code (also referred to as "UDACS"), adopted standards, and NAC chapter 445A.
(Ord. No. 3737, § 1, 12-15-2020)

14.08.040 Testing and maintenance.

A. The customer shall have all backflow prevention assembly(ies) required under this chapter (1) tested by a person on the list of department-authorized testers and (2) have a test performed at the time of installation, after any maintenance, repair or relocation of the assembly(ies), and annually by the department-assigned anniversary date or more frequently than annually as required by the department pursuant to section 14.08.040.E.

B. Within five business days after the department-authorized tester completes a test of a backflow prevention assembly after the assembly is installed, maintenance is performed on it, the assembly is repaired or the assembly is relocated, the customer shall ensure the department-authorized tester submits the test report(s) to city staff who administer the city's cross-connection control program ("CCC staff").

C. Each backflow prevention assembly shall be assigned an anniversary date by the department for the scheduling of annual testing. The annual testing shall be performed in compliance with adopted standards no later than this date and may be performed up to 45 days prior to the department-assigned anniversary date. Any test performed prior to 45 days before the anniversary date will be considered invalid. Before the anniversary date, the customer shall ensure the department-authorized tester submits the test report(s) to CCC staff.

D. If a backflow prevention assembly(ies) fails testing, then within seven days of failing the testing the customer must cause (1) that assembly to either be repaired with original equipment manufacturer ("OEM") parts or be replaced with a department-approved assembly and (2) the repaired or replaced assembly retested by a department-authorized tester.

E. The department may, in those instances where the department determines there exists a greater risk of pollution or contamination of the public water system or the then-existing backflow prevention assembly(ies) or device(s) used on the property or premises is not commensurate with the then-existing degree of hazard, require testing more frequently than annually of backflow prevention assemblies.

F. The department-authorized tester shall comply with the requirements in NAC 445A.67245 and perform the testing of the backflow prevention assembly in accordance with the provisions in the USC Manual of Cross-Connection Control.

G. The customer shall maintain full and complete records relating to the installation, testing, repair, maintenance, and replacement of all backflow prevention assembly(ies) for a period of five years. The customer shall provide these records to the department or make them available for city inspection upon the city's request.
(Ord. No. 3737, § 1, 12-15-2020)

14.08.050 Department-authorized backflow prevention assembly test companies and testers.

A. In order to operate as a business that provides backflow prevention assembly testing in the city and be placed on department's list of authorized backflow prevention assembly test companies (the "list of department-authorized test companies"), that business must meet all of the following requirements (a "test company"):

1. Have a city or multi-jurisdictional business license;

2. Be bonded and insured as required by applicable law;

3. Have one or more qualified employees;

4. Have that qualified employee attend an orientation meeting with CCC staff and sign and deliver to CCC staff an acknowledgment that (a) they understand the requirements and procedures for testing backflow prevention assemblies and devices and (b) they are subject to and must comply with the most current provisions of chapter 14.08 and related city procedures;

5. Ensure qualified employees and each tester uses a test kit that meets the requirements identified in NAC 445A.67245 and any requirements prescribed in the city's cross-connection control program (a "test kit"); and

6. Provide documentation annually within seven days of certification, and upon request to CCC staff by the deadline specified by CCC staff, that each test kit was checked for accuracy annually (and, as required, recalibrated) by a manufacturer-authorized representative in accordance with applicable requirements in the USC Manual of Cross-Connection Control, NAC 445A.67245 and the city's cross-connection control program.

A "qualified employee" means a natural person who has a current certification from the California/Nevada Section of the AWWA, American Society of Sanitary Engineering ("ASSE") (with USC designation), or the American Backflow Prevention Association ("ABPA") to perform backflow-prevention-assembly testing. "USC designation" means ASSE has affirmed that the person has a certification to ASSE Standard 5110 and, in addition, has successfully completed the requirements for backflow prevention assembly tester using the most recent USC Manual of Cross-Connection Control test procedures.

B. In order to provide backflow prevention assembly testing required under this chapter, a person must be authorized by the department at the time the person performs the testing and be in good standing with respect to all required licenses and certifications. To obtain the department's authorization, that person must:

1. Notify CCC staff that they wish to be a department-authorized tester, attend an orientation meeting with CCC staff and sign and deliver to CCC staff an acknowledgment that (a) they understand the requirements and procedures for testing backflow prevention assemblies and devices and (b) they are subject to and must comply with all current provisions of chapter 14.08 and related department procedures;

2. Have a current certification from the AWWA, the ASSE (with USC designation), or the ABPA to perform backflow-prevention-assembly testing and provide a copy of that current certification to CCC staff;

3. Have a city or multi-jurisdictional business license or be employed by a test company;

4. Be able to perform testing with a test kit; and

5. Have all other required licenses and certifications.

C. If the person meets the requirements in section 14.08.050.B, that person is authorized by the department to test backflow prevention assemblies (a "department-authorized tester"), the department will add the department-authorized tester to the department's list of department-authorized testers (the "list of department-authorized testers") and the department will make that list publicly available.

D. After a person becomes a department-authorized tester, that person must:

1. When performing any backflow prevention assembly test, perform each test in compliance with the requirements in NAC 445A.67245, this chapter and the city's cross-connection control program and in accordance with the provisions in the USC Manual of Cross-Connection Control;

2. Document the results of each test in the form of a test report and, in a timeframe compliant with the requirements of section 14.08.040, submit that test report to the city's cross-connection control program and to the customer;

3. Maintain in good standing all required licenses and certifications and, at CCC staff's request, provide documentation of compliance with the foregoing;

4. Submit to CCC staff proof of current certification from the AWWA, the ASSE (with USC designation), or the ABPA to perform backflow-prevention-assembly testing; and

5. At CCC staff's request and within five business days of the request or by the deadline specified in the request, whichever date is later, provide to CCC staff a copy of any test report prepared by the tester.

E. The department may remove a test company from the list of department-authorized test companies for any of the following violations:

1. Not maintaining in good standing the company's city or multi-jurisdictional business license;

2. Not being bonded and insured as required by applicable law;

3. Not having at least one qualified employee employed by the company;

4. Having any qualified employee or tester who used a test kit that does not comply with the requirements in section 14.08.050.5;

5. Failing to timely provide documentation annually and upon request to CCC staff that each test kit was checked for accuracy annually (and, as required recalibrated,) by a manufacturer-authorized representative in accordance with applicable requirements in the USC Manual of Cross-Connection Control, NAC 445A.67245 and the city's cross-connection control program; or

6. Submitting a false certification or other documentation to the director, department or CCC staff.

F. The department may remove a department-authorized tester from the list of department-authorized testers for any of the following violations:

1. Failing to submit a test report in the timeframe specified above, submitting a test report based on an invalid test or failing to correctly or completely fill out a test report;

2. Failing to test a backflow prevention assembly in accordance with the requirements in NAC 445A.67245 and the USC Manual of Cross-Connection Control;

3. Making a false or misleading statement, representation or certification of any material fact in a test report submitted to the city, department or director;

4. Submitting a test report with false, misleading, incomplete or inaccurate information;

5. Not having or not maintaining in good standing all required licenses and certifications;

6. Failing to repair a backflow prevention assembly with OEM parts;

7. Not demonstrating competent ability to properly field test a backflow prevention assembly; or

8. Removing, bypassing or otherwise rendering ineffective any backflow prevention assembly(ies) or device(s).

G. If a test company commits a violation identified in section 14.08.050.E, the department may remove the test company from the list of department-authorized test companies after complying with the requirements in this section 14.08.050.G. If a tester commits a violation identified in section 14.08.050.F, the department may remove the tester from the list of department-authorized testers after complying with the requirements in this section 14.08.050.G. The test company and tester shall also be subject to any penalties and charges assessed in accordance with this title and/or department service rules and subject to all compliance procedures as prescribed within this title.

1. The department shall provide the test company or tester, as applicable, written notice that, at a minimum, contains the following information (referred to as a "violation notice"):

a. The name and business address of the test company or tester, as applicable;

b. A brief description of the violation with a reference to the applicable code section;

c. Where appropriate, the action to correct the violation(s) and the deadline by when the violation(s) must be corrected; and

d. The date the department intends to remove the test company from the list of department-authorized test companies or the tester from the list of department-authorized testers, as applicable;

e. Information advising of the test company's deadline or tester's deadline, as applicable, to respond to the notice by either timely correcting the violation (if applicable) or filing a written request to the director to reconsider the department's decision to remove the test company from the list of department-authorized test companies or tester from the list of department-authorized testers, as applicable, (the "response deadline").

2. An original violation notice, or a copy thereof, must be filed with and retained by the department. A violation notice is prima facie evidence of the facts that are alleged therein. The department must deliver the violation notice personally or by registered or certified mail, return receipt requested to the test company at the company's business address on file with the department or to the tester at the tester's business address on file with the department, as applicable.

3. On or before the response deadline, the test company or tester, as applicable, must respond to a violation notice in one or more of the following ways:

a. Do nothing;

b. Advise the department that the test company or tester, as applicable, is not disputing the violation notice;

c. Correct the violation, if required in the violation notice; or

d. Dispute the violation notice by filing a request for reconsideration.

4. A request for reconsideration of a violation notice (a) shall be made by the test company or tester, as applicable, submitting a written request for reconsideration to the director that identifies the action taken or decision made by the department that the test company or tester, as applicable, would like reconsidered, identifies any relief requested (such as not having to perform the corrective action or not being removed from the list of department-authorized test companies or the list of department-authorized testers, as applicable), sets forth in detail the facts supporting the request for reconsideration and relief requested, and includes a copy of the violation notice; (b) shall be delivered personally or by registered or certified mail, return receipt requested, to the director; and (c) must be received by the director, if delivered personally, or must be postmarked, if delivered by registered or certified mail, by the response deadline.

5. After the director receives a timely subsection 14.08.050.G.4 request for reconsideration, the director may modify or affirm the action taken or decision made. The director's decision must be in writing, be made within 14 days of the director's receipt of that request for reconsideration, and thereafter delivered to the test company or tester, as applicable, that made the request personally or by registered or certified mail, return receipt requested. The director's decision will be deemed to have been received by the test company or tester, as applicable, on the date of delivery if delivered personally or by mail or the date of the last delivery attempt if delivered by mail and delivery was unsuccessful. The director's decision shall be deemed to be the final administrative action.

6. If the test company or tester, as applicable, does nothing, the test company or tester, as applicable, advises the department that the test company or tester, as applicable, is not disputing the violation notice, the test company or tester, as applicable, does not file a timely request for reconsideration or the director affirms the department's decision to remove the test company from the list of department-authorized test companies or the tester from the list of department-authorized testers, as applicable, the department may remove the test company from the list of department-authorized test companies or the tester from the list of department-authorized testers, as applicable.

(Ord. No. 4132, § 1, 12-2-2025; Ord. No. 3737, § 1, 12-15-2020)

14.08.060 Property access and modification.

The city or authorized city representatives shall have the right to access and to modify the customer's backflow prevention assembly, water system, property or premises at

reasonable times for any purpose related to the furnishing of service, taking corrective action(s) pursuant to section 14.08.080 or section 14.21.040, protection of water quality and/or for verification of compliance with the provisions of this chapter. The city's and authorized city representatives' foregoing rights of access and modification are also conditions of service.
(Ord. No. 3737, § 1, 12-15-2020)

14.08.070 Exception.

A. At the department's discretion, a backflow prevention assembly installed prior to May 8, 1999 that is not on the USC Foundation for Cross-Connection Control and Hydraulic Research list of approved backflow prevention assemblies or the then-current department-approved materials list may remain in service if that assembly meets the following requirements:

1. Was a department-approved model at the time of installation, was of the proper type for the degree of hazard and does not constitute a risk to public health, safety, and/or welfare;

2. Passes annual testing by a department-authorized tester;

3. Is in the originally-installed location; and

4. Only contains OEM parts, as part of the original installation and any repair.

B. If at any time a backflow prevention assembly allowed to remain in service by the department does not meet all of the requirements in subsection 14.08.070.A, is moved from its original location, is replaced, or must be repaired and OEM parts are no longer available for the necessary repairs or if the department determines that the connection constitutes a risk to public health, safety, and/or welfare, the customer shall replace that assembly in accordance with the requirements in this chapter.
(Ord. No. 3737, § 1, 12-15-2020)

14.08.080 Corrective actions.

If the customer does not timely install, test, repair, maintain, or replace a backflow prevention assembly(ies), then the city may (a) install, test, repair, maintain, replace the assembly(ies) or take other corrective action to bring the customer, property or premise into compliance with the provisions in this chapter, invoice the customer for the costs and, in accordance with the process described in section 14.21.040, add the invoiced amount, as modified by the director or the city manager in accordance with section 14.21.120, to the customer's utility bill as a charge for utility service; (b) discontinue water service; and/or (c) impose any other compliance procedure as prescribed in this chapter and in chapter 14.21.
(Ord. No. 3737, § 1, 12-15-2020)

14.08.090 Violations.

Any person who does an act prohibited by a provision in this chapter or fails to perform an act that is required to be performed by a provision in this chapter shall be deemed to be in violation of this chapter and shall be subject to all compliance procedures as prescribed in this chapter and in chapter 14.21. This does not include the failure of a city officer or city employee to perform an official duty unless it is specifically provided that the failure to perform the duty is to be punished as provided in this chapter.
(Ord. No. 3737, § 1, 12-15-2020)

Chapter 14.09 PRETREATMENT REGULATIONS*

Sections:

14.09.010 Definitions and rules of construction; abbreviations.
14.09.020 Applicability, objectives and responsibility of the city.
14.09.030 Wastewater discharge prohibitions and limitations.
14.09.040 National categorical pretreatment standards.
14.09.050 Pretreatment and monitoring facilities.
14.09.060 Industrial wastewater discharge permits.
14.09.070 Industrial wastewater discharge permit conditions.
14.09.080 Industrial wastewater discharge permit modification.
14.09.090 Industrial wastewater discharge permit revocation.
14.09.100 Special agreements and contracts.
14.09.110 Recordkeeping.
14.09.120 Confidentiality of information.
14.09.130 Sample collection and analytical methods.
14.09.140 Right of entry.
14.09.150 Reporting and notification requirements.
14.09.160 Sector control programs.
14.09.170 Compliance and enforcement.
14.09.180 Remedies nonexclusive.
14.09.190 No waiver.
14.09.200 Regulation of industrial users from outside jurisdictions.
14.09.210 Affirmative defenses to discharge violations.

14.09.010 Definitions and rules of construction; abbreviations.

A. *Definitions and rules of construction.* The following words, terms and phrases, when used in this chapter, whether or not initially capitalized and except where the context clearly indicates a different meaning, shall have the meanings ascribed to them as follows:

Act means the Federal Water Pollution Control Act of 1948 (P.L. 80-845, 62 Stat. 155, 33 USC § 1251, et seq.), as amended, also known as the Clean Water Act.

Approval authority means the Regional Administrator of EPA Region 9 or, upon EPA delegating authority of the pretreatment program to the state of Nevada, the Administrator of the Nevada Division of Environmental Protection.

***Editor's note—**Ord. No. 3496, § 1, adopted July 10, 2018, repealed and reenacted chapter 14.09 in its entirety to read as herein set out. Formerly, chapter 14.09, sections 14.09.010—14.09.100 pertained to similar subject matter, and derived from Ord. No. 2536, §§ 59—67, adopted in 2006, and Ord. No. 2676, § 8, adopted in 2008.

Authorized representative or *duly authorized representative of the industrial user* means:

1. If the industrial user is a business structure other than a partnership or sole proprietorship:

a. The president, secretary, treasurer, or a vice-president of the legal entity in charge of a principal business function, or any other person who performs similar policy or decision making functions for the legal entity; or

b. The manager of one or more manufacturing, production, or operating facilities, provided the manager is authorized to make management decisions which govern the operation of the regulated facility, including having the explicit or implicit duty of making major capital investment recommendations, and initiating and directing other comprehensive measures to assure long-term environmental compliance with environmental laws and regulations; can ensure that the necessary systems are established or actions taken to gather complete and accurate information for industrial wastewater discharge permit requirements; and has apparent or actual authority to sign documents in accordance with applicable internal procedures.

2. If the industrial user is a partnership or sole proprietorship business structure: a general partner or proprietor, respectively.

3. If the industrial user is a federal, state, or local government entity: The highest official appointed or designated to oversee the operation and performance of the activities of the governmental entity, or their designee.

4. The individuals described in subsections 1. through 3., above, may designate another authorized representative if the authorization is made in writing, the authorization specifies the individual or a position responsible for the overall operation of the facility from which the discharge originates or having overall responsibility for environmental matters for the industrial user, and the written authorization is submitted to the city.

Baseline monitoring report means the report required in subsection 14.09.150.B.

Best management practice means schedules of activities, prohibitions of practices, maintenance procedures, and other management practices to implement the General and Specific Prohibitions listed in section 14.09.030. BMPs may also include, but are not limited to, treatment requirements, operating procedures, and practices to control plant site runoff, spillage or leaks, sludge or waste disposal, or drainage from raw material storage. BMPs shall be considered local limits and pretreatment standards for the purposes of this chapter and section 307(d) of the Act as specified at 40 CFR section 403.5(c)(4).

Biochemical oxygen demand—Five-day means the quantity of oxygen utilized in the biochemical oxidation of organic matter under standard laboratory procedures in five days at 20 degrees (20°) Celsius, expressed in mg/L.

Bypass means the intentional diversion of wastestreams from any portion of an industrial user's pretreatment facility.

Categorical industrial user means an industrial user who is subject to a categorical pretreatment standard.

Categorical pretreatment standard or *categorical standard* means any regulation containing pollutant discharge limits promulgated by EPA in accordance with 33 USC § 1317, which apply to a specific category of industrial users and that appear in 40 CFR chapter I, subchapter N, parts 405-471.

Chemical oxygen demand means the measure of the oxygen required to oxidize all compounds, both organic and inorganic, in water.

Clean Air Act means the Air Pollution Control Act (1955) (P.L. 84-159, 69 Stat. 322, 42 USC § 7401, et seq.), as amended.

Code of Federal Regulations means the Code of Federal Regulations, as amended.

Composite sample means a representative flow-proportioned sample generally collected within a 24-hour period and combined according to flow. Time-proportional sampling may be approved or used by the city where time-proportional samples are believed representative of the discharge.

Cooling water means:

1. *Contact:* Water used for cooling purposes which comes in contact with any raw material, intermediate product, waste product or finished product.

2. *Noncontact:* Water used for cooling purposes which does not comes in contact with any raw material, intermediate product, waste product or finished product and the only pollutant added is heat.

Daily maximum discharge limit means the maximum allowable concentration of a pollutant(s) that may be discharged during a calendar day or as specified in an industrial wastewater discharge permit. Where daily maximum discharge limits are expressed in units of mass, the discharge is the total mass discharged over the sampling period.

Direct discharge means the discharge of pollutants to waters of the United States.

Director means the director of the department of utility services who is designated by the city to supervise the operation of the POTW and who is charged with certain duties and responsibilities under this chapter, or their duly authorized representative.

Environmental Protection Agency means the United States Environmental Protection Agency, or, where appropriate, the term may also be used as a designation for the administrator or other duly authorized official of such agency.

Existing source means any indirect discharge that is not a new source.

Fats, oil and grease means non-petroleum organic polar compounds derived from animal or plant sources such as fats, non-hydrocarbons, fatty acids, soaps, waxes, and oils that contain multiple carbon chain triglyceride molecules. These substances are detectable and measurable using the approved method for Hexane Extractable Materials in the analytical procedures established in 40 CFR part 136.

Grab sample means a sample which is taken from a wastestream on a one-time basis with no regard to the flow in the wastestream and over a period of time not to exceed 15 minutes.

Gravity grease interceptor is an in-ground tank containing at least one baffle in which solids, greases and oils are separated from wastewater, located outside the industrial user's building and made accessible by at least two manhole covers.

Hydromechanical grease interceptor or *grease trap* means a small device hooked directly to the outgoing drains of sinks located inside a commercial food preparation facility that allows for the separation of fats, oils and grease of a non-petroleum nature from wastewater prior to being discharged into the POTW.

Hazardous waste means any waste designated as hazardous under the provisions of 40 CFR part 261.

Holding tank waste means any wastewater from holding tanks such as vessels, chemical toilets, campers, trailers, septic tanks, sealed vaults, and vacuum-pump tank trucks.

Indirect discharge means the discharge or the introduction of pollutants into the POTW from any nondomestic source, including holding tank waste from a non-domestic user.

Industrial user means a source of indirect discharge.

Industrial waste means the liquid or solid wastes from industrial manufacturing processes, trade or business activities producing non-domestic or non-residential sewage as distinct from domestic wastewater.

Industrial wastewater discharge permit means a permit issued by the city to an industrial user that allows, limits and/or prohibits the discharge of pollutants or flow to the POTW as set forth in this chapter.

Instantaneous discharge limit means the maximum or minimum concentration or measurement for a pollutant or pollutant property allowed to be discharged at any time for any length of time and is determined by use of a grab sample or a direct measurement.

Interference means a discharge which, alone or in conjunction with a discharge or discharges from other sources, both:

1. Inhibits or disrupts the POTW, its treatment processes or operations or its sludge processes, use or disposal, and

2. Therefore is a cause of a violation of the city's NPDES permit (including an increase in the magnitude or duration of a violation) or of the prevention of sewage sludge use or disposal in compliance with any of the following statutory or regulatory provisions or permits issued thereunder, or any more stringent state or local regulations: section 405 of the Act; the SWDA, including Title II commonly referred to as RCRA; any state regulations contained in any state sludge management plan prepared pursuant to subtitle D of the SWDA; the Clean Air Act; the Toxic Substances Control Act; and the Marine Protection, Research, and Sanctuaries Act.

Local limits means any regulation containing pollution discharge limits promulgated by the city in accordance with 40 CFR sections 403.5(c) and (d), which are deemed to be pretreatment standards and contained in section 14.09.030.

Marine Protection, Research, and Sanctuaries Act means the Marine Protection, Research, and Sanctuaries Act of 1972 (P.L. 92-532, 86 Stat. 1052 and 1061, 33 USC § 1401, et seq. and 16 USC § 1431, et seq.), as amended.

Medical waste means isolation wastes, infectious agents, human blood and blood products, pathological wastes, sharps, body parts, contaminated bedding, surgical wastes, potentially contaminated laboratory wastes, pharmaceutical residues, and dialysis wastes.

Municipality means a city, town, borough, county, parish, district, association, or other public body created by or under state law and having jurisdiction over disposal of sewage, industrial wastes, or other wastes, or a designated and approved management agency under section 208 of the Act.

National pollutant discharge elimination system means the Clean Water Act program delegated by EPA to the state of Nevada program for issuing, conditioning, and denying permits for the discharge of pollutants from point sources into waters of the state implemented by the Nevada Division of Environmental Protection pursuant to section 402 of the Act and the state of Nevada Water Pollution Control Law, chapter 445A of the Nevada Revised Statutes (NRS 445A.300-445A.730).

New source means:

1. Any building, structure, facility or installation from which there is or may be a discharge of pollutants, the construction of which commenced after the publication

of proposed pretreatment standards under section 307(c) of the Act which will be applicable to such source if such standards are thereafter promulgated in accordance with that section, provided that:

a. The building, structure, facility or installation is constructed at a site at which no other source is located;

b. The building, structure, facility, or installation totally replaces the process or production equipment that causes the discharge of pollutants at an existing source; or

c. The production or wastewater generating processes of the building, structure, facility or installation are substantially independent of an existing source at the same site. In determining whether these are substantially independent, factors such as the extent to which the new facility is integrated with the existing plant, and the extent to which the new facility is engaged in the same general type of activity as the existing source should be considered.

2. Construction on a site at which an existing source is located results in a modification rather than a new source if the construction does not create a new building, structure, facility or installation meeting the criteria of subsections 1.b. or 1.c. of this definition but otherwise alters, replaces, or adds to existing process or production equipment.

3. Construction of a new source as defined under this subsection has commenced if the owner or operator has:

a. Begun, or caused to begin as part of a continuous onsite construction program:

(1) Any placement, assembly, or installation of facilities or equipment; or

(2) Significant site preparation work including clearing, excavation, or removal of existing buildings, structures, or facilities which is necessary for the placement, assembly, or installation of new source facilities or equipment; or

b. Entered into a binding contractual obligation for the purchase of facilities or equipment which is intended to be used in its operation within a reasonable time. Options to purchase or contracts which can be terminated or modified without substantial loss, and contracts for feasibility, engineering, and design studies do not constitute a contractual obligation under this subsection.

North American industry classification system means the system used by business and government to classify business establishments according to the type of economic activity.

Normal domestic strength wastewater means wastewater, when analyzed in accordance with procedures established in 40 CFR part 136, contains no more than 300 mg/L of TSS and/or 300 mg/L of BOD_5. Discharges to the POTW that exceed these concentrations shall be surcharged.

Pass through means a discharge which exits the POTW into waters of the United States in quantities or concentrations which, alone or in conjunction with a discharge or discharges from other sources, is a cause of a violation of any requirement of the city's NPDES permit (including an increase in the magnitude or duration of a violation).

Person means any natural person, any form of business, social organization, or other nongovernmental legal entity (including, but not limited to, a corporation, partnership, association, trust or unincorporated organization), a government, governmental agency or political subdivision of a government.

pH means the acid or base condition of the solution expressed as the logarithm (base 10) of the reciprocal of the concentration of hydrogen ions expressed in moles per liter of solution and reported as standard units (SU).

Pollutant means any dredged spoil, solid waste, incinerator residue, filter backwash, sewage, garbage, sewage sludge, explosives, munitions, medical waste, chemical wastes, corrosive substance, biological material, biological nutrient, toxic substance, radioactive materials, heat, malodorous substance, wrecked or discharged equipment, rock, sand, slurry, cellar dirt, untreatable waste, or industrial, domestic, or agricultural wastes and certain characteristics of wastewater (e.g., pH, temperature, TSS, turbidity, color, BOD_5, COD, toxicity or odor).

Pretreatment means the reduction of the amount of pollutants, the elimination of pollutants or the alteration of the nature of pollutant properties in wastewater to a less harmful state prior to, or in lieu of, discharging or otherwise introducing such pollutants into the POTW. The reduction or alteration can be obtained by physical process, biological process, or by other process or means, except as prohibited by 40 CFR section 403.6(d). Appropriate pretreatment technology includes control equipment, such as equalization tanks or facilities, for protection against surges or slug loadings that might interfere with or otherwise be incompatible with the POTW. However, where wastewater from a regulated process is mixed in an equalization facility with unregulated wastewater or with wastewater from another regulated process, the effluent from the equalization facility must meet an adjusted pretreatment limit calculated in accordance with 40 CFR section 403.6(e).

Pretreatment requirement means any substantive or procedural requirement related to pretreatment, other than a pretreatment standard, imposed on an industrial user.

Pretreatment standard, national pretreatment standard or standard means any regulation containing pollutant discharge limits promulgated by EPA, in accordance with section

307(b) and (c) of the Act, which applies to industrial users. This term includes prohibitive discharge limits, local limits and best management practices that are established by the city. In cases of differing standards, the more stringent shall apply.

Publicly owned treatment works means a treatment works as defined by 33 USC 1292, which is owned by the city. This definition includes any devices or systems used in the collection, storage, treatment, recycling, and reclamation of municipal sewage or industrial wastes of a liquid nature and any sewers, pipes or other conveyances which convey wastewater to the treatment plant. The term also means the municipality having jurisdiction over the industrial user's discharges to and the discharges from the treatment works.

Resource Conservation and Recovery Act means the Resource Conservation and Recovery Act (1976) (P.L. 94-580, 90 Stat. 2795, 42 USC § 6901, et seq.), as amended.

Sand/oil separator means a plumbing appurtenance or appliance that is installed in a sanitary drainage system to intercept sand (or other aggregate) and oil and grease from a wastewater discharge and are designed considering retention times, volumes in gallons calculated for each facility, and gravity separation; such interceptors include baffle(s) and a minimum of two compartments. See section 14.09.160.

Sector control program means a program designed to control specific pollutants from industrial users with similar operations, waste generation or treatment through the implementation of pretreatment standards and pretreatment requirements, including best management practices. These sector control program requirements may be found at section 14.09.160.

Significant industrial user means:

1. A categorical industrial user; or

2. An industrial user that:

a. Discharges making up five percent or more of the average dry weather hydraulic or organic capacity of the POTW treatment plant;

b. Discharges an average of 25,000 gallons per day or more of process wastewater to the POTW (excluding noncontact cooling, sanitary, and boiler blow down); or

c. Is designated as such by the director on the basis that the industrial user has a reasonable potential for adversely affecting the POTW's operation or for violating any pretreatment standard or pretreatment requirement.

The city, at its sole discretion, may determine that an industrial user subject to categorical pretreatment standards is a non-significant categorical industrial user rather than a significant industrial user on a finding that the industrial user never discharges more than 100 gallons per day of total wastewater subject to categorical

pretreatment standards (excluding sanitary, non-contact cooling and boiler blowdown wastewater, unless specifically included in the pretreatment standard) and the following conditions are met:

a. The industrial user, prior to the city's finding, has consistently complied with all applicable categorical pretreatment standards and pretreatment requirements;

b. The industrial user annually submits the certification statement as found in 40 CFR section 403.12(q), together with any additional information necessary to support the certification statement; and

c. The industrial user never discharges any untreated concentrated wastewater.

Upon finding by the director that an industrial user meeting the criteria in subsection 2. of this definition has no reasonable potential for adversely affecting the POTW's operation or for violating any pretreatment standards or requirement, the director may at any time, on its own initiative or in response to a petition received from an industrial user, determine that such industrial user is not a significant industrial user.

Slug load or *slug discharge* means any discharge at a flow rate or concentration, which could cause a violation of the general or specific prohibitions in section 14.09.030. A slug discharge is any discharge of a non-routine, episodic nature, including but not limited to an accidental spill or a non-customary batch discharge, or a discharge which exceeds the hydraulic or design capacity of an industrial user's treatment system or any part of the treatment unit including a discharge which has a reasonable potential to cause interference or pass through or in any other way violate an applicable pretreatment standard or pretreatment requirement or an industrial wastewater discharge permit issued by the city.

Solid Waste Disposal Act means the Solid Waste Disposal Act (1965) (P.L. 89-272, 79 Stat. 992, 42 USC § 6901, et seq.), as amended, including by the RCRA.

Standard industrial classification code means a classification pursuant to the Standard Industrial Classification Manual issued by the Executive Office of the President, Office of Management and Budget, 1972, as amended.

Stormwater means any surface flow, runoff, and drainage consisting entirely of water from any form of natural precipitation and resulting from such precipitation, including snowmelt.

Surcharge means an additional charge to an industrial user whose discharge waste strength is in excess of the normal domestic strength wastewater.

Total dissolved solids means the "residue-on-evaporation" of the filterable solids in water or wastewater, otherwise known as that portion of solids that passes through a glass fiber filter and dried at 180 degrees Celsius (180°C) using a method approved in 40 CFR part 136.

Total suspended solids means the solids that float on the surface of, or are suspended in the water, sewage, or other liquid, and which are removable by laboratory filtering in accordance with procedures approved in 40 CFR part 136, as amended.

Toxic pollutant means any pollutant or combination of pollutants listed as toxic in regulations promulgated by the EPA under section 307(a) of the Act or as otherwise listed in 40 CFR part 122, appendix D.

Toxic Substances Control Act means the Toxic Substances Control Act (1976) (P.L. 94-469, 90 Stat. 2003, 15 USC § 2601, et seq.), as amended.

Upset means an exceptional incident in which there is unintentional and temporary noncompliance with categorical pretreatment standards because of factors beyond the reasonable control of the industrial user, but does not include noncompliance to the extent caused by operational error, improperly designed pretreatment facilities, inadequate pretreatment facilities, lack of preventive maintenance, or careless or improper operation.

User means a recipient of city wastewater services.

Wastewater means the liquid and water-carried industrial or domestic wastes from residences, commercial buildings, industrial facilities and institutions, together with any infiltrating groundwater, surface water and stormwater that may be present, whether treated or untreated, which are discharged to or permitted to enter the POTW.

United States Code means the United States Code, as amended.

B. *Abbreviations.* The following abbreviations shall have the designated meanings:

BMP	Best Management Practice
BMR	Baseline Monitoring Report
BOD_5	Biochemical Oxygen Demand—Five-day
°C	Degrees Celsius
CFR	Code of Federal Regulations
COD	Chemical Oxygen Demand
EPA	Environmental Protection Agency
°F	Degrees Fahrenheit
FOG	Fats, Oils and Grease
gpd	gallons per day
GGI	Gravity Grease Interceptor
HMGI	Hydromechanical Grease Interceptor
ILA	Inter-Local Agreement
IMR	Industrial Monitoring Report
IU	Industrial User
mg/L	milligrams per Liter
NAICS	North American Industry Classification System

NDEP	Nevada Division of Environmental Protection
NPDES	National Pollutant Discharge Elimination System
O&M	Operation and Maintenance
POTW	Publicly Owned Treatment Works
RCRA	Resource Conservation and Recovery Act
§	Section
SIU	Significant Industrial User
SWDA	Solid Waste Disposal Act
SIC	Standard Industrial Classification
TDS	Total Dissolved Solids
TSS	Total Suspended Solids
USC	United States Code

(Ord. No. 3496, § 1, 7-10-2018)

14.09.020 Applicability, objectives and responsibility of the city.

A. *Applicability.* This chapter sets forth uniform requirements for all industrial users that discharge into the POTW and enables the city to comply with all applicable state laws and federal laws under the Act and the General Pretreatment Regulations for Existing and New Sources of Pollution (40 CFR part 403).

B. *Objectives.* The objectives of this chapter are to:

1. Prevent the introduction of pollutants into the POTW which will interfere with the operation of the system or contaminate the resulting sludge;

2. Prevent the introduction of pollutants into the POTW which will pass through the wastewater facilities, inadequately treated, into the receiving waters or the atmosphere, or otherwise be incompatible with the system;

3. Provide for and promote the general health, safety and welfare of both the general public and the POTW personnel who may be affected by wastewater and sludge in the course of their employment;

4. Improve the opportunity to recycle and reclaim wastewater and sludge from the POTW;

5. Provide for the equitable distribution of the cost of operation and maintenance of the POTW by requiring the industrial user making, causing or allowing the indirect discharge to pay the direct costs of all labor, equipment and materials incurred by the city to handle, treat, inspect, monitor, sample, test, dispose of or remediate that discharge; and

6. Enable the city to comply with its NPDES permit conditions, sludge use and disposal requirements, and any other federal or state laws or regulations to which the POTW is subject.

C. *Industrial users.* No industrial user shall discharge wastewater to the POTW unless done so in compliance with the provisions of this chapter.

D. *Owner/tenant responsibility.* Where an owner of property leases a premises to a person as a tenant under any rental or lease agreement, if either the owner or the tenant is an industrial user at the premises, either or both as an industrial user(s) are responsible for compliance with the provisions of this chapter.

E. *Authority of director.* Except as otherwise provided, the director shall administer, implement and enforce the provisions of this chapter. Any powers granted to or duties imposed upon the director may be delegated by the director to other city personnel.

F. *Notification to industrial users.* The director shall attempt to notify in writing any industrial user whom the city has reason to believe is subject to a national categorical pretreatment standard or pretreatment requirement, or other applicable requirements promulgated by the EPA under the provisions of section 204(b) or 405 of the Act, or under the provisions of sections 3001, 3004, or 4004 of the Solid Waste Disposal Act. Failure of the city to so notify industrial users shall not relieve said industrial users from the responsibility of complying with applicable requirements. It is the responsibility of significant industrial users to apply for and receive a permit prior to discharge, whether or not they have been identified and formally requested to do so.

G. *Discharge by industrial users.* If wastewaters discharged by an industrial user contain any pollutant or unexplained uncharacteristically high flow that have the potential to discharge in the opinion of the director or are proposed to be discharged to the POTW, the director may take any action necessary to:

1. Prohibit the discharge of such wastewater;

2. Require an industrial user to demonstrate that in-plant facility modifications will reduce or eliminate the discharge of such substances in conformity with this chapter;

3. Require treatment, including storage facilities or flow equalization necessary to reduce or eliminate the potential for a discharge to violate this chapter;

4. Require the industrial user making, causing or allowing the discharge to pay any additional cost or expense incurred by the city for handling, treating, disposing or remediation costs as a result of wastes discharged to the wastewater treatment system;

5. Require the industrial user to apply for and obtain a permit, including a zero discharge permit;

6. Require timely and factual reports from the industrial user; or

7. Take such other action as may be necessary to meet the objectives of this chapter. (Ord. No. 3496, § 1, 7-10-2018)

14.09.030 Wastewater discharge prohibitions and limitations.

A. General prohibitions. No industrial user shall contribute or cause to be contributed, directly or indirectly, any pollutant or wastewater which causes pass through or interference. These general prohibitions and the specific prohibitions in subsection B. apply to all industrial users of the POTW whether or not the industrial users are subject to other pretreatment standards or pretreatment requirements.

B. Specific prohibitions. No industrial user shall contribute the following pollutants into the POTW:

1. Any liquids, solids or gases which, by reason of their nature or quantity, are or may be sufficient, either alone or by interaction with other substances, to cause fire or explosion or be injurious in any other way to the wastewater facilities, including, but not limited to, wastestreams with a closed cup flashpoint of less than sixty degrees Celsius (60°C) or one hundred forty degrees Fahrenheit (140°F) using the test methods specified in 40 CFR section 261.21. The director may require industrial users with the potential to discharge flammable, combustible or explosive substances to install and maintain an approved combustible gas detection meter or explosion hazard meter. No two successive readings on an explosion hazard meter at the point of discharge shall be more than five percent, nor any one reading more than ten percent, of the lower explosive limit (LEL) of the meter.

2. Solid or viscous substances which may cause obstruction to the flow in the POTW resulting in interference.

3. Any wastewater having a pH less than 5.0 or higher than 12.0, or wastewater having any other corrosive property capable of causing damage or hazard to structures, equipment or personnel of the POTW.

4. Any pollutant, including oxygen demanding pollutants (BOD_5, etc.) released in a discharge at a flow rate and/or pollutant concentration which will cause interference with the POTW;

5. Heat in amounts which will inhibit biological activity in the POTW resulting in interference, but in no case heat in such quantities that the temperature at the

POTW treatment plant exceeds 40 degrees (40°) Celsius or one hundred four degrees (104°) Fahrenheit unless EPA, upon request of the POTW, approves alternate temperature limits;

6. Any petroleum oil, non-biodegradable cutting oil, or products of mineral origin in amounts that will cause pass through or interference. The city may include sampling and reporting requirements in a permit or require compliance with permit specific limits or best management practices where the concentration has the reasonable potential to exceed 100 mg/L.

7. Pollutants which result in the presence of toxic gases, vapors, or fumes within the POTW in a quantity that may cause acute worker health and safety problems or pollutants which singly or cumulatively or by interaction with other wastes are sufficient to create a public nuisance or hazard to life or are sufficient to prevent or interfere with entry into the POTW for their maintenance and repair.

8. Any trucked or hauled pollutants, except at discharge points designated by the director;

9. Rainwater, stormwater, groundwater, street drainage, subsurface drainage, roof drainage, yard drainage, water from yard fountains or water features, ponds or lawn sprays or other non-potable water as determined by the city to be discharged to the POTW without prior authorization. The director may approve the discharge of such water only when, in the opinion of the city, there is no other reasonable method of disposal available. If authorization is granted for the discharge of such water into the POTW, the industrial user shall pay an applicable user charge, as set forth in the department service rules, and meet all conditions as required. No discharge of wastewater or stormwater in any form, as defined in the Act, shall be made into the stormwater system or waters of the state of Nevada that would cause a violation of the city's NPDES permit.

10. Any substance which may cause the POTW's effluent, or any other product of the POTW, such as residues, sludges or scums, to be unsuitable for reclamation and reuse or to interfere with the reclamation process.

11. Any substance which will cause the city to violate its NPDES permit or applicable water quality standards.

12. Any wastewater with objectionable color not removed in the treatment process, such as, but not limited to, dye wastes and vegetable tanning solutions.

13. A slug discharge.

14. Any wastewater containing any radioactive wastes or isotopes of such half-life or concentration as may exceed limits established by the director or other regulations set forth by the state of Nevada or that violates any applicable state or federal regulations.

15. Bulk, expired, outdated or concentrated prescription or non-prescription drugs.

16. Wastewater or pollutants discharged directly into a manhole or other opening to the POTW unless specifically authorized by the director or as otherwise permitted under this chapter. Prohibited is the opening of a manhole or discharging into any opening in violation of this chapter.

17. Wastewater contaminated as a result of discharge from aboveground and/or underground gasoline, diesel fuels, fuel oil, kerosene, and jet fuel tanks, tank accessories, and/or pipelines without applying for and obtaining a permit prior to discharge.

18. Liquid wastes from chemical toilets, and trailers, campers or other recreational vehicles which have been collected and/or held in tanks or other containers shall not be discharged into the POTW except at locations authorized by the city to collect such wastes.

19. Sludges, screenings, or other residues from the treatment of industrial wastes.

20. Medical wastes that cause or contribute to pass through or interference.

21. Wastewater causing the POTW effluent to fail a Whole Effluent Toxicity (WET) test.

22. Detergents, surfactants and other surface-active agents, or other substances which may cause excessive foaming in the POTW or cause or contribute to pass through or interference.

23. Discharge of nonylphenol from the use of bulk or concentrated Nonylphenol containing detergents as employed by some industrial or commercial laundries, car washes or asphalt manufacturers or other industrial users.

24. Wastewater which contains grease or oil or any other substances that will solidify or become discernibly viscous at temperatures between thirty-two degrees (32°) Fahrenheit (0° Celsius) and one hundred fifty degrees (150°) Fahrenheit (65.5° Celsius).

25. Wastewater containing free or floating oil and grease, or any discharge containing FOG in excess of two hundred fifty milligrams per liter (250 mg/L). Unless otherwise approved by the director a food service establishment shall install and properly operate and maintain a GGI and implement all required BMPs as specified in section 14.09.160.

26. Wastewater generated as a result of wastes pumped from GGIs, HMGIs or grease traps, sand-oil separators or other storage tanks or treatment units back into the POTW, either directly or indirectly, without approval of the director.

27. Discharge of any wastewater containing perchloroethylene (PCE) (also known as tetrachloroethene and tetrachloroethylene) from any industrial user.

28. Wastewater of domestic origin or associated with any industrial activities shall not be discharged to the city stormwater system unless permitted by the state and approved by the city in writing.

29. Any pollutant or wastewater containing pollutants with UV (254 nm) absorbing substances which causes interference with UV disinfection at the treatment plant.

30. Any pesticides, herbicides or fungicides that cause or contribute to pass through, interference or other problems at the treatment works or in the receiving waters. In no case, shall an industrial user discharge wastewater that is generated from the rinsing of any container that contains or contained any concentrated or formulated pesticide, herbicide or fungicide.

C. Specific discharge limitations.

1. No significant industrial user shall discharge or cause to be discharged wastewater that exceeds the following limits:

Pollutant[a]	*Daily Maximum Discharge Limit (mg/L)*
Arsenic	0.71
Cadmium	0.02
Chromium	1.48
Copper	1.93
Lead	0.65
Mercury	0.015
Nickel	3.84
Selenium	0.05
Silver	1.15
Zinc	4.58
5-Day Biochemical Oxygen Demand (BOD_5) [b][c]	13,611 lbs/day
Total Suspended Solids (TSS) [b][c]	20,577 lbs/day
Phosphorus [b]	701 lbs/day
Ammonia [b]	2,084 lbs/day

[a] All pollutants as total and in mg/L unless otherwise specified.

[b] These limits are the total mass in pounds per day (lbs/day) that are available to allocate to all permitted industrial users. Allocations are at the sole discretion of the city.

[c] Discharges containing BOD_5 or TSS concentrations over that of normal domestic strength wastewater shall be surcharged.

2. The city may, at its sole discretion, implement local limits through allocation of the Maximum Allowable Industrial Load (MAIL) to significant industrial users and

correspond to the uniform concentration local limits shown in the table above. The MAILs that correspond to the daily maximum discharge limits are hereby incorporated by reference.

D. A significant industrial user who introduces wastewater into the POTW may be required to submit a salinity control plan if monitoring of the industrial user's discharge shows it exceeds 1,200 mg/L TDS. This plan shall contain a description of the chemicals and materials used that contribute to the TDS concentration and the source control measures that will be implemented to reduce the TDS concentration in the discharge to less than 1,200 mg/L or to a level specified by the director that prevents discharges that cause or contribute to pass through or interference.

E. The city may establish more stringent pollutant limits by ordinance and/or the director may establish additional site-specific pollutant limits in a permit, best management practices, or additional pretreatment requirements when, in the judgment of the director, such limitations are necessary to implement the provisions of this chapter.

F. Dilution is prohibited as a substitute for treatment and shall be a violation of this chapter. Except where expressly authorized to do so by an applicable pretreatment standard or pretreatment requirement, no industrial user shall ever increase the use of process water, or in any other way attempt to dilute a discharge as a partial or complete substitute for adequate treatment to achieve compliance with a pretreatment standard or pretreatment requirement. The city may impose mass limitations on industrial users which are using dilution to meet applicable pretreatment standards or pretreatment requirements or in other cases where the imposition of mass limitations is appropriate.

G. State requirements and limitations on discharges shall apply in any case where they are more stringent than federal pretreatment standards and pretreatment requirements or those in this chapter.

(Ord. No. 3814, § 1, 11-2-2021; Ord. No. 3496, § 1, 7-10-2018)

14.09.040 National categorical pretreatment standards.

Industrial users must comply with the categorical pretreatment standards found at 40 CFR chapter I, subchapter N, parts 405-471.

A. Where a categorical pretreatment standard is expressed only in terms of either the mass or the concentration of a pollutant in wastewater, the director may impose equivalent concentration or mass limits in accordance with subsections 14.09.040.E and 14.09.040.F.

B. When the limits in a categorical pretreatment standard are expressed only in terms of mass of pollutant per unit of production, the director may convert the limits to

equivalent limitations expressed either as mass of pollutant discharged per day or effluent concentration for purposes of calculating effluent limitations applicable to individual industrial users.

C. When wastewater subject to a categorical pretreatment standard is mixed with wastewater not regulated by the same standard, the director shall impose an alternate limit in accordance with 40 CFR section 403.6(e).

D. A categorical industrial user may obtain a net/gross adjustment to a categorical pretreatment standard in accordance with the following subsections.

1. Categorical pretreatment standards may be adjusted to reflect the presence of pollutants in the industrial user's intake water in accordance with this section. Any industrial user wishing to obtain credit for intake pollutants must make application to the city. Upon request of the industrial user, the applicable standard will be calculated on a "net" basis (i.e., adjusted to reflect credit for pollutants in the intake water) if the requirements of subsection D.2 below are met.

2. Criteria.

a. Either (1) the applicable categorical pretreatment standards contained in 40 CFR, chapter I, subchapter N specifically provide that they shall be applied on a net basis; or (2) the industrial user demonstrates that the control system it proposes or uses to meet applicable categorical pretreatment standards would, if properly installed and operated, meet the standards in the absence of pollutants in the intake waters.

b. Credit for generic pollutants such as biochemical oxygen demand, total suspended solids, and oil and grease should not be granted unless the industrial user demonstrates that the constituents of the generic measure in the user's effluent are substantially similar to the constituents of the generic measure in the intake water or unless appropriate additional limits are placed on process water pollutants either at the outfall or elsewhere.

c. Credit shall be granted only to the extent necessary to meet the applicable categorical pretreatment standard(s), up to a maximum value equal to the influent value. Additional monitoring may be necessary to determine eligibility for credits and compliance with standard(s) adjusted under this section.

d. Credit shall be granted only if the user demonstrates that the intake water is drawn from the same body of water as that into which the POTW discharges. The city may waive this requirement if it finds that no environmental degradation will result.

E. When a categorical pretreatment standard is expressed only in terms of pollutant concentrations, an industrial user may request that the city convert the limits to equivalent mass limits. The determination to convert concentration limits to mass limits is within the discretion of the director. The city may establish equivalent mass limits only if the industrial user meets all the conditions set forth in subsections E.1.a. through E.1.e. below.

1. To be eligible for equivalent mass limits, the industrial user must:

a. Employ, or demonstrate that it will employ, water conservation methods and technologies that substantially reduce water use during the term of its individual wastewater discharge permit;

b. Currently use control and treatment technologies adequate to achieve compliance with the applicable categorical pretreatment standard, and not have used dilution as a substitute for treatment;

c. Provide sufficient information to establish the facility's actual average daily flow rate for all wastestreams, based on data from a continuous effluent flow monitoring device, as well as the facility's long-term average production rate. Both the actual average daily flow rate and the long-term average production rate must be representative of current operating conditions;

d. Not have daily flow rates, production levels, or pollutant levels that vary so significantly that equivalent mass limits are not appropriate to control the discharge; and

e. Have consistently complied with all applicable categorical pretreatment standards during the past five years or permitted period, whichever is longer, prior to the industrial user's request for equivalent mass limits.

2. An industrial user subject to equivalent mass limits must:

a. Maintain and effectively operate control and treatment technologies adequate to achieve compliance with the equivalent mass limits;

b. Continue to record the facility's flow rates through the use of a continuous effluent flow monitoring device;

c. Continue to record the facility's production rates and notify the director whenever production rates are expected to vary by more than 20 percent from its baseline production rates determined in subsection F.1.c. Upon notification of a revised production rate, the director will reassess the equivalent mass limit and revise the limit as necessary to reflect changed conditions at the facility; and

d. Continue to employ the same or comparable water conservation methods and technologies as those implemented pursuant to subsection E.1.a. so long as it discharges under an equivalent mass limit.

3. When developing equivalent mass limits, the director:

a. Will calculate the equivalent mass limit by multiplying the actual average daily flow rate of the regulated process(es) of the industrial user by the concentration-based daily maximum and monthly average standard for the applicable categorical pretreatment standard and the appropriate unit conversion factor;

b. Upon notification of a revised production rate, will reassess the equivalent mass limit and recalculate the limit as necessary to reflect changed conditions at the facility; and

c. May retain the same equivalent mass limit in subsequent industrial wastewater discharge permit terms if the industrial user's actual average daily flow rate was reduced solely as a result of the implementation of water conservation methods and technologies, and the actual average daily flow rates used in the original calculation of the equivalent mass limit were not based on the use of dilution as a substitute for treatment pursuant to subsection 14.09.030.F. The industrial user must also be in compliance with 40 CFR section 403.17 regarding the prohibition of bypass.

F. The director may convert the mass limits of the categorical pretreatment standards of 40 CFR parts 414, 419, and 455 to concentration limits for purposes of calculating limitations applicable to individual industrial users. The conversion is at the discretion of the director.

G. Once included in its permit, the industrial user must comply with the equivalent limitations developed in section 14.09.040 in lieu of the promulgated categorical pretreatment standards from which the equivalent limitations were derived.

H. Many categorical pretreatment standards specify one limit for calculating maximum daily discharge limitations and a second limit for calculating maximum monthly average, or four-day average, limitations. Where such standards are being applied, the same production or flow figure shall be used in calculating both the average and the maximum equivalent limitation.

I. Any industrial user operating under a permit incorporating equivalent mass or concentration limits calculated from a production-based standard shall notify the director within two business days after the user has a reasonable basis to know that the production level will significantly change within the next calendar month. Any

user not notifying the director of such anticipated change will be required to meet the mass or concentration limits in its permit that were based on the original estimate of the long term average production rate.

(Ord. No. 3496, § 1, 7-10-2018)

14.09.050 Pretreatment and monitoring facilities.

A. Treatment required. An industrial user shall provide necessary wastewater treatment at the industrial user's expense as required to comply with this chapter and shall achieve compliance with all pretreatment standards and pretreatment requirements within the time limitations specified by the EPA, NDEP, or the city, whichever is more stringent. Detailed plans showing the pretreatment facilities and operating procedures shall be submitted to the director for review and shall be acceptable before construction of the facility. The review of such plans and operating procedures will in no way relieve the industrial user from the responsibility of modifying the facility as necessary to produce an effluent acceptable to the city under the provisions of this chapter.

B. The industrial user shall at all times properly operate and maintain all facilities and systems of treatment and control (and related appurtenances) which are installed or used by the industrial user. This provision requires the operation of back-up or auxiliary facilities or similar systems which are installed by an industrial user when the operation is necessary to achieve or assure compliance with conditions of the permit.

C. Monitoring facilities. The city may require an industrial user to install at the industrial user's expense, suitable monitoring facilities or equipment that allows for the representative sampling and accurate observation of wastewater discharges. Whether constructed on public or private property, the monitoring facilities shall be constructed in accordance with the city's requirements and all applicable construction standards and specifications. Monitoring equipment and structures shall be maintained in proper working order, calibrated as required by manufacturer's recommendations and kept safe and accessible at all times to city personnel. The monitoring equipment shall be located and maintained on the industrial user's premises outside of the building unless otherwise approved by the city. When such a location would be impractical, the city may allow such facility to be constructed in the public street or easement area, with the approval of the agency having jurisdiction over such street or easement, and located so that it will not be obstructed by public utilities, landscaping or parked vehicles. No industrial user shall cover any manhole, sewer cleanout, or other openings in the POTW with earth, paving, or otherwise render it inaccessible.

D. The director may require an industrial user to have treatment facility operators that are certified as industrial waste operators by the Nevada Water Environment Association. The minimum grade of certification required shall be determined by the director.

E. Wastewater discharge control. The city may require an industrial user to restrict discharge during peak flow periods, designate that certain wastewater be discharged only into specified sewers, relocate and/or consolidate points of discharge, separate sewage wastestreams from industrial wastestreams, and such other conditions as may be necessary to protect the POTW and demonstrate the industrial user's compliance with the requirements of this chapter.

F. Flow equalization. The city may require any industrial user discharging into the POTW to install and maintain, on their property and at their expense, a suitable storage and flow-control facility to ensure equalization of flow. An industrial wastewater discharge permit may be issued solely for flow equalization.

G. Multitenant buildings. When more than one industrial user is able to discharge into a common service line, the city may require installation of separate monitoring equipment or structures for each industrial user.

H. Flow, pH, LEL and other meters and equipment. If the city determines an industrial user is required to measure and report (1) wastewater flow, (2) discharge process wastewaters necessitating continuous pH measurement, or (3) discharge wastewater that may contain flammable substances or other pollutants of concern, the city may require the industrial user to install and maintain, at the industrial user's expense, approved meters and equipment. The type of meter and installation design shall be certified by a professional engineer licensed in the state of Nevada.
(Ord. No. 3496, § 1, 7-10-2018)

14.09.060 Industrial wastewater discharge permits.

A. *Permits required.* All SIUs proposing to connect to, or discharge into, any part of the POTW shall apply for and obtain an industrial wastewater discharge permit prior to commencing discharge to the POTW. A separate permit may be required for each SIU building or complex of buildings. Such SIUs shall immediately contact the city and obtain an industrial wastewater discharge permit.

B. *New industrial users: Applying for an industrial wastewater discharge permit.* Any industrial user required to obtain an industrial wastewater discharge permit who proposes to begin or recommence discharging into the POTW must apply for and obtain such permit prior to the beginning or recommencing of such discharge. The industrial user shall file a permit application on forms provided by the city containing the information specified in subsection 14.09.060.F. below. The completed application for the industrial wastewater discharge permit must be filed at least 90 days prior to the date upon which any discharge will begin or recommence. The city may issue a permit at any time after receipt of the completed permit application.

C. *Existing industrial users: Applying for an industrial wastewater discharge permit re-issuance.* An industrial user with an expiring industrial wastewater discharge permit shall apply for a new permit by submitting a complete permit application at least 90 days prior to the expiration of the industrial user's existing discharge permit. The industrial user shall file a permit application on forms provided by the city containing the information specified in subsection 14.09.060.F. below. An industrial user with an existing permit that has filed a complete and timely application may continue to discharge, as approved in writing by the city, through an administrative extension of the existing permit if the delay in permit issuance is not due to any act or failure to act on the industrial user's part.

D. *Other industrial users.* The city may require other industrial users to apply for and obtain wastewater discharge permits or similar control mechanisms necessary to carry out the purposes of this chapter. The city may issue an industrial wastewater discharge permit, a zero discharge permit or other control mechanism as needed to prohibit the discharge of some or all non-domestic process wastewater from an industrial user or to establish other pretreatment standards or requirements.

E. *Enforceability.* Any violation of the terms and conditions of an industrial wastewater discharge permit, failure to apply for a permit as required, or discharging without a required permit shall be deemed a violation of this chapter and subjects the industrial user to enforcement by the city. Obtaining an industrial wastewater discharge permit does not relieve a permittee of its obligation to comply with all state and federal pretreatment standards or pretreatment requirements.

F. *Permit application contents.* In support of the application, the industrial user shall submit, in units and terms appropriate for evaluation, the following information:

1. Name of business, address of the facility, location of the discharge if different from the facility address, and contact information for the owner, operator and the authorized representative of the industrial user.

2. Environmental permits. A list of any environmental control permits held by or for the facility.

3. Description of operations.

a. A brief description of the nature, average and maximum rate of production (including each product produced by type, amount, processes, and rate of production);

b. The standard industrial classification(s) of the operation(s) carried out by such industrial user;

c. A schematic process diagram, which indicates all process tanks, process lines, treatment systems, drains, and points of discharge to the POTW from each regulated process and source of non-domestic wastewater;

d. A listing of all non-domestic process streams and the type(s) of wastes generated from each process;

e. A list of all raw materials and chemicals used or stored at the facility which are, or could accidentally or intentionally be, discharged to the POTW;

f. Number of employees; and

g. Hours of operation, and proposed or actual hours of operation.

4. Time and duration of discharges including the date the industrial user first began discharge or plans to discharge to the POTW.

5. The location for sampling the wastewater discharges from the industrial user.

6. Flow measurement. Information showing the average daily and maximum daily flow, in gallons per day, to the POTW from regulated process streams and other streams, as necessary, to allow use of the combined wastestream formula set out in 40 CFR section 403.6(e). For new sources and new permittees not currently discharging, an estimate of flows may be used for meeting the requirements of the baseline monitoring report required in section 14.09.150.

7. Measurement of pollutants.

a. The pretreatment standards applicable to each regulated process;

b. The results of sampling and analysis identifying the nature and concentration, and/or mass of regulated pollutants in the discharge from each regulated process where required by the standard or by the city;

c. Instantaneous, daily maximum and long-term average concentrations, or mass, where required, shall be reported;

d. The sample shall be representative of daily operations and shall be collected in accordance with procedures set out in section 14.09.130. Where the standard requires compliance with a BMP or pollution prevention alternative, the industrial user shall submit documentation as required by the city or the applicable standard to determine compliance with the standard; and

e. Analyses must be performed in accordance with procedures set out in section 14.09.130.

8. A list of hazardous waste(s) generated and a description of the storage area and procedures for handling and disposal of the wastes.

9. Slug discharge control plan for significant industrial users as described in section 14.09.150 shall be submitted and as required by the director for other industrial users.

10. Compliance schedule. If additional pretreatment and/or operation and maintenance will be required to meet the pretreatment standards, the shortest schedule by which

the industrial user will provide such additional pretreatment and/or O&M. The completion date in this schedule shall not be later than the compliance date established for the applicable pretreatment standard.

The following conditions shall apply to this schedule:

a. The schedule shall contain increments of progress in the form of dates for the commencement and completion of major events leading to the construction and operation of additional pretreatment required for the industrial user to meet the applicable pretreatment standards (e.g. hiring an engineer, completing preliminary plans, completing final plans, executing contract for major components, commencing construction, completing construction, etc.). No such increment shall exceed nine months.

b. Not later than 14 days following each date in the schedule and the final date for compliance, the industrial user shall submit a progress report to the director including, as a minimum, whether or not it complied with the increment of progress to be met on such date and, if not, the date on which it expects to comply with this increment of progress, the reason for delay, and the steps being taken by the industrial user to return the construction to the schedule established. In no event shall more than nine months elapse between such progress reports to the director.

11. Certification. A statement, reviewed by the authorized representative of the industrial user and certified to by a qualified professional, indicating whether pretreatment standards are being met on a consistent basis, and, if not, whether additional O&M and/or additional pretreatment is required for the industrial user to meet the pretreatment standards and pretreatment requirements.

12. Signatory certification. All industrial wastewater discharge permit applications and certification statements must be signed by the authorized representative of the industrial user and contain the applicable certification statement(s) in subsection 14.09.150.H.

13. Any other information as may be deemed by the director to be necessary to evaluate the permit application.

G. *Industrial wastewater discharge permit issuance.*

1. Permits shall be issued for a specified time period, not to exceed five years. A permit may be issued for a period of less than five years at the city's discretion or may be stated to expire on a specific date.

2. Where the city is issuing a permit containing a permit specific pretreatment standard or pretreatment requirement not otherwise contained in this chapter, the pretreat-

ment standard or pretreatment requirement shall be noticed for public comment for 30 days in a newspaper of general circulation that provides meaningful public notice or processed through the city council approval process.

3. The city shall issue an industrial wastewater discharge permit to the applicant if the city finds that all of the following conditions are met:

a. The applicant has provided a timely and complete permit application to the city;

b. The proposed discharge by the applicant is in compliance with the pretreatment standards and pretreatment requirements established in this chapter;

c. The proposed operation and discharge of the applicant would permit the normal and efficient operation of the POTW; and

d. The proposed discharge by the applicant would not result in a violation by the city of the terms and conditions of its NPDES permit or cause pass through or interference.

4. If the city finds that the condition set out in subsection 3.b. above is not met, the city may, in its discretion, issue an industrial wastewater discharge permit to the applicant if the conditions set out in subsections 3.a., 3.c. and 3.d. above have been met and if the applicant submits, and the city approves, a compliance schedule setting out the measures to be taken by the applicant and the dates that such measures will be implemented to insure compliance with applicable pretreatment standards and pretreatment requirements. At no time shall a discharge be allowed to cause a violation of any general or specific prohibition established in section 14.09.030 nor shall the final compliance date for a categorical pretreatment standard be extended.

5. Any industrial user may file a request for reconsideration of the terms of an industrial wastewater discharge permit and thereafter an appeal, in accordance with the procedures set forth in subsection 14.09.170.C.9.

H. *Denial by city to issue an industrial wastewater discharge permit.* Any industrial user denied a permit to discharge by the city may file a request for reconsideration and thereafter an appeal in accordance with the procedures set forth in subsection 14.09.170.C.9.

I. *Transferability.* An industrial wastewater discharge permit is issued to a specific industrial user for a specific operation. An industrial wastewater discharge permit may be transferred to a new owner or new operator only if the permittee gives the city at least 180 days advance notice to the director and the director approves the industrial wastewater discharge permit transfer. The notice to the director must include a written certification by the new owner or new operator that:

1. States that the new owner and/or operator has no immediate intent to change the facility's operations and processes;

2. Identifies the specific date on which the transfer is to occur; and

3. Acknowledges full responsibility for complying with the existing industrial wastewater discharge permit.

Any succeeding owner or operator shall comply with the terms and conditions of the existing permit until a new permit is issued. The permittee shall notify the city at least 30 days prior to any change of ownership and shall provide a copy of the permit to the new owner. Failure to provide advance notice of a transfer renders the industrial wastewater discharge permit void as of the date of facility transfer and discharge of wastewater prohibited.
(Ord. No. 3496, § 1, 7-10-2018)

14.09.070 Industrial wastewater discharge permit conditions.

Industrial wastewater discharge permits shall be expressly subject to all provisions of this chapter and all other applicable regulations, surcharges, user charges and fees. Any such surcharges, user charges and fees shall be established by city council and set forth in the department service rules.

A. Permits shall contain the following:

1. A statement that indicates the permit's issuance date, expiration date and effective date;

2. A statement on permit non-transferability without, at a minimum, prior notification to the POTW and the new owner or operator agreeing in writing to abide by all terms and conditions of the permit;

3. Effluent limits, including best management practices, based upon applicable pretreatment standards;

4. Self-monitoring, sampling, reporting, notification and record-keeping requirements including, but not limited to, identification of the pollutants or BMPs to be monitored, sampling location, sampling frequency and sample type, based on federal, state and local law;

5. Statements of applicable administrative, civil and criminal penalties for the violation of pretreatment standards and pretreatment requirements, the permit, this chapter, and any applicable compliance schedule;

6. Requirements to immediately notify the city of any changes at its facility affecting potential for a slug discharge and for the industrial user to immediately report any slug discharges, spills or accidental discharges, including any discharges that may cause problems at the POTW;

7. Permittee's consent to city entering upon, and accessing permittee's facility, property and premises, making the foregoing available to city upon request at any time, and allowing city to perform other activities at or upon the foregoing to effect the purposes of this chapter; and

8. A requirement that permittee comply with all of the provisions set forth in the permit, HMC Title 14, and all applicable federal, state, and local laws and regulations.

B. Permits may also include, as appropriate:

1. Applicable schedule of user charges and fees for the wastewater to be discharged into the POTW;

2. Limits on average and maximum rate and time of discharge or requirements for flow;

3. Requirements for installation and maintenance of inspection and sampling facilities and equipment;

4. Best management practices to control specific pollutants as necessary to meet the objectives of this chapter;

5. Compliance schedules;

6. Requirements to reapply for a new permit prior to expiration of the existing permit;

7. Requirements for the installation of pretreatment technology, pollution control, or construction of appropriate containment devices, designed to reduce, eliminate, or prevent the introduction of pollutants into the treatment works;

8. Closure requirements for permitted facilities undergoing partial or complete closure activities to ensure closure activities are completed and wastes have been properly disposed and remaining access to the POTW are protected; and

9. Other conditions as deemed appropriate by the director to ensure compliance with all applicable local, state and federal rules and regulations.

(Ord. No. 3496, § 1, 7-10-2018)

14.09.080 Industrial wastewater discharge permit modification.

The notification of an industrial wastewater discharge permit modification does not stay any wastewater discharge permit condition. The city may modify an industrial wastewater discharge permit for good cause, including, but not limited to, the following reasons:

A. To incorporate any new or revised federal, state, or local pretreatment standards or pretreatment requirements or to reflect changes in applicable state or federal standards;

B. To address significant alterations or additions to the industrial user's operation, processes, or wastewater volume or character since the time of the wastewater discharge permit issuance;

C. A change in the POTW that requires either a temporary or permanent reduction or elimination of the authorized discharge;

D. Information indicating that the permitted discharge poses a threat to the POTW, city personnel, or the receiving waters;

E. Violation of any terms or conditions of the industrial wastewater discharge permit;

F. Misrepresentations or failure to fully disclose all relevant facts in the industrial wastewater discharge permit application or in any required reporting;

G. To reflect a transfer of the facility ownership and/or operation to a new owner/operator;

H. To correct typographical or other errors in the industrial wastewater discharge permit; or

I. Upon request of the permittee, provided such request does not result in a violation of any applicable pretreatment standards or pretreatment requirements, or this chapter.

(Ord. No. 3496, § 1, 7-10-2018)

14.09.090 Industrial wastewater discharge permit revocation.

A violation of the conditions of a permit, or of this chapter or of applicable state or federal regulations shall be grounds for revocation of such permit by the city. Upon revocation of the permit, any wastewater discharge from the affected industrial user shall be considered prohibited and discharge of such wastewater in violation of this chapter. Additional grounds for revocation of a permit include, but are not limited to, the following:

A. Failure of an industrial user to accurately disclose or report the wastewater constituents and characteristics of any discharge;

B. Failure of the industrial user to report significant changes in operations or wastewater constituents and characteristics as required;

C. Refusal of access to the industrial user's premises for the purpose of inspection or monitoring;

D. Falsification of records, reports or monitoring results;

E. Tampering with monitoring equipment;

F. Misrepresentation or failure to fully disclose all relevant facts in the industrial wastewater discharge permit application;

G. Failure to pay fines or penalties;

H. Failure to pay user charges, surcharges, or fees;

I. Failure to meet compliance schedules;

J. Failure to pay the direct costs of all labor, equipment and materials incurred by the city to handle, treat, monitor, sample, test, dispose of or remediate the industrial user's indirect discharge;

K. Failure to provide advance notice of the transfer of business ownership of a permitted facility;

L. Failure to provide required reports, including but not limited to, a wastewater survey, baseline monitoring report, 90-day compliance report, permit application, self-monitoring report or other permit required reports or notifications within the timeframe required by the city; or

M. Violation of any pretreatment standard or pretreatment requirement.

(Ord. No. 3496, § 1, 7-10-2018)

14.09.100 Special agreements and contracts.

No statement contained in this chapter shall be construed as prohibiting special written agreements between the city and any industrial user allowing industrial waste or wastewater of unusual strength or character to be discharged to the POTW, provided said industrial user compensates the city for any additional costs of treatment. Such agreement, however, shall not allow or cause:

A. Any adverse effect to the POTW;

B. A violation of the POTW NPDES permit;

C. A violation of a general or specific prohibition;

D. A Maximum Allowable Industrial Load (MAIL) to be exceeded;

E. A violation of state or federal law or regulation; and

F. Provide any waiver to applicable categorical pretreatment standard.

(Ord. No. 3496, § 1, 7-10-2018)

14.09.110 Recordkeeping.

A. All industrial users shall retain, and make available to city for inspection and copying, all records, reports, monitoring or other data, applications, permits and all other information and documentation required by this chapter including documentation associated with best management practices.

B. Industrial users shall retain such records and shall keep such records available for inspection for at least three years. This recordkeeping period shall be extended automatically for the duration of any litigation concerning the industrial user's compliance with any provision of this chapter, or when the industrial user has been specifically and expressly notified of a longer records retention period by the director.

C. Written reports will be deemed to have been submitted on the date postmarked if mailed by registered or certified mail (return receipt requested). For reports which are not so mailed, the date of receipt of the report by the city shall govern.
(Ord. No. 3496, § 1, 7-10-2018)

14.09.120 Confidentiality of information.

A. All records, reports, data or other information supplied by any person or industrial user as a result of any disclosure required by this chapter or information and data from inspections shall be available for public inspection except as otherwise provided in this section, 40 CFR section 403.14, and the Nevada Public Records law (NRS chapter 239).

B. These provisions shall not be applicable to any information designated as a trade secret by the person supplying such information. "Trade secret" has the meaning ascribed to it in NRS 600A.030. Materials designated as a trade secret may include, but shall not be limited to, processes, operations, style of work or apparatus or confidential commercial or statistical data. Any information and data submitted by the industrial user which is desired to be considered a trade secret shall have the words, "Confidential Business Information," stamped in a reasonably noticeable manner on each page containing such information. The industrial user must demonstrate to the satisfaction of the city that the release of such information would divulge information, processes or methods of production entitled to protection as trade secrets of the industrial user.

C. Information designated as a trade secret pursuant to this section shall remain confidential and shall not be subject to public inspection unless otherwise required or allowed by NRS chapter 239 or other applicable law. Such information shall be available only to officers, employees or authorized representatives of the city charged with implementing and enforcing the provisions of this chapter and properly identified representatives of the EPA and the NDEP.

D. Effluent data from any industrial user whether obtained by self-monitoring, monitoring by the city or monitoring by any state or federal agency, shall not be considered a trade secret or otherwise confidential. All such effluent data shall be available for public inspection.
(Ord. No. 3496, § 1, 7-10-2018)

14.09.130 Sample collection and analytical methods.

A. Sample collection. Compliance determinations with respect to prohibitions and limitations in this chapter may be made on the basis of either grab or composite samples of wastewater as specified by the city. Such samples shall be taken at a point or points which the city determines to be suitable for obtaining a representative sample of the discharge. Composite samples may be taken over a 24-hour period, or over a longer or shorter time span, as determined by the city to meet specific circumstances.

B. Sample type. Samples collected to satisfy reporting requirements must be based on data obtained through appropriate sampling and analysis performed during the period covered by the report, and based on data that is representative of conditions occurring during the reporting period.

1. Except as indicated in subsections B.2 and B.3 below, the industrial user must collect representative wastewater samples using 24-hour flow proportional composite sampling techniques, unless time-proportional composite sampling or grab sampling is required by the city. Where time-proportional composite sampling or grab sampling is authorized by the city, the samples must be representative of the permitted discharge.

2. Samples for oil and grease, temperature, pH, cyanide, total phenols, sulfides, and volatile organic compounds must be obtained using grab collection techniques. Using protocols (including appropriate preservation) specified in 40 CFR part 136 and appropriate EPA guidance, multiple grab samples collected during a 24-hour period may be composited prior to the analysis as follows: for cyanide, total phenols, and sulfides the samples may be composited in the laboratory or in the field; for volatile organics and oil and grease, the samples may be composited in the laboratory. Composited samples for other parameters unaffected by the compositing procedures as documented in approved EPA methodologies may be authorized by the city, as appropriate. In addition, grab samples may be required to show compliance with instantaneous local limits, including pH.

3. For sampling required in support of baseline monitoring and 90-day compliance reports required in section 14.09.150, a minimum of four grab samples must be used for pH, cyanide, total phenols, oil and grease, sulfide, and volatile organic compounds for facilities for which historical representative sampling data do not exist. Where historical data are available, the city may authorize a lower minimum. The industrial user is required to collect the number of grab samples necessary to assess and assure compliance with applicable pretreatment standards and pretreatment requirements.

C. Analytical requirements. All pollutant analysis, including sampling techniques, to be submitted as part of an industrial wastewater discharge permit application, report, permit or other analyses required under this chapter shall be performed in accordance with the techniques prescribed in 40 CFR part 136 and amendments thereto, unless otherwise specified in an applicable categorical pretreatment standard. If 40 CFR part 136 does not contain sampling or analytical techniques for the pollutant in question, or where the EPA determines that the part 136 sampling and analytical techniques are inappropriate for the pollutant in question, sampling and analyses shall be performed by using validated analytical methods or any other applicable sampling and analytical procedures, including procedures suggested by the city or other parties approved by the EPA.

D. Records shall include for all samples:

1. The date, exact place, method, and time of sampling and the name of the person(s) taking the samples;

2. The date(s) and time analyses were performed;

3. The name of the person performing the analyses;

4. The analytical techniques/methods used, including method detection limits and QA/QC sample results;

5. All chain-of-custody records; and

6. The results of such analyses.

(Ord. No. 3496, § 1, 7-10-2018)

14.09.140 Right of entry.

A. Whenever it shall be necessary for the purposes of this chapter and at no cost to the city, the city may enter upon any industrial user's facility, property, or premises and shall have ready access to all parts of the premises subject to this chapter for the purposes of:

1. Performing all inspection, surveillance and monitoring procedures necessary to determine, independent of information supplied by industrial users, compliance or noncompliance with applicable pretreatment standards and pretreatment requirements by an industrial user. Compliance monitoring and inspection shall be conducted at a frequency as determined by the city and may be announced or unannounced;

2. Setting up on the industrial user's property, or require installation of, such devices as are necessary to conduct sampling and/or metering of the industrial user's operations;

3. Examining and copying any records required to be kept under the provisions of this chapter or of any other local, state or federal regulation;

4. The city may use equipment to photograph, video or otherwise document any areas of the facility as deemed necessary for carrying out the duties of the pretreatment program including, but not limited to, documentation of the industrial user's compliance status and for reinforcement of required written reports. The industrial user shall be allowed to review copies of photographs or videos for confidentiality claims;

5. Inspecting any monitoring equipment or method, pretreatment system equipment and/or operation;

6. Sampling any discharge of wastewater into POTW; and/or

7. Inspecting any production, manufacturing, fabricating or storage area where pollutants, regulated under this chapter, could originate, be stored, or be discharged to the POTW.

B. The occupant of such property or premises shall render all proper assistance in such activities at no cost to the city. Where an industrial user has security measures in place which require proper identification and clearance before entry into its premises, the industrial user shall make necessary arrangements with its security personnel so that authorized representatives of the city will be permitted to enter without delay to perform their specified functions.

C. Failure to allow entry or unreasonable delays: In the event the city or other duly authorized representative of the city is refused admission or unreasonably delayed, such refusal or delay is a violation of this chapter and may result in enforcement action as allowed for under this chapter including revocation of the industrial wastewater discharge permit.

D. Any temporary or permanent obstruction to safe and easy access to the facility to be inspected and/or sampled shall be promptly removed by the industrial user at the written or verbal request of the director and shall not be replaced. The costs of clearing such access shall be borne by the industrial user.

E. The director shall have the right to utilize any or all remedies and enforcement actions set forth in this chapter, other provisions in the HMC, or otherwise permitted by applicable law or regulation.

F. Search warrants. If the city has been refused access to a facility, property, or premises, or any part thereof, and is able to demonstrate probable cause to believe that there may be a violation of this chapter or that there is a need to inspect and/or sample as part of a routine inspection and sampling program of the city designed to verify compliance with this chapter or any permit or order issued hereunder, or to protect the overall public health, safety and welfare of the community, the director may seek issuance of a search warrant from the Henderson Municipal Court or another court of competent jurisdiction.
(Ord. No. 3496, § 1, 7-10-2018)

14.09.150 Reporting and notification requirements.

A. *Industrial monitoring reports (IMR)—All significant industrial users.*

1. Any significant industrial user or other industrial user required by the city, subject to a federal, state, or city pretreatment standard or pretreatment requirement must submit reports, at a frequency determined by the city but no less than once per six months, indicating the nature, concentration of pollutants in the discharge which are limited by pretreatment standards, including reporting of mass where applicable, and the average and maximum daily flows for the reporting period. In cases where the pretreatment standard requires compliance with best management practices or pollution prevention alternatives, the industrial user must submit documentation required by the city or the pretreatment standard necessary to determine compliance status of the industrial user. All industrial monitoring reports must be signed and certified in accordance with subsection 14.09.150.H.

2. For industrial users subject to equivalent mass or concentration limits established by the city, the IMR shall contain a reasonable measure of the industrial user's long term production rate. For all other industrial users subject to categorical pretreatment standards expressed only in terms of allowable pollutant discharge per unit of production (or other measure of operation), the IMR shall include the industrial user's actual average production rate for the reporting period.

3. All wastewater samples must be representative of the industrial user's discharge. Wastewater monitoring and flow measurement facilities shall be properly operated, kept clean, and maintained in good working order at all times. The failure of an industrial user to keep its monitoring facility in good working order shall not be grounds for the industrial user to claim that the sample results are unrepresentative of its discharge.

4. If an industrial user monitors any regulated pollutant at the appropriate sampling location more frequently than required by the city, using the methods and procedures prescribed in section 14.09.130, the results of this monitoring shall be included in the report.

5. The sampling and analyses required for the reporting outlined above may be performed by the city in lieu of the permittee. Where the city itself makes arrangements with the industrial user to collect all the information required for the report, the industrial user will not be required to submit the report.

B. *Baseline monitoring reports—Categorical industrial users.*

1. Within either 180 days after the effective date of a categorical pretreatment standard, or the final administrative decision on a category determination under 40 CFR section 403.6(a)(4), whichever is later, existing industrial users currently

discharging to or scheduled to discharge to the POTW shall submit to the city a report which contains the information listed in subsection B.2 below. At least 90 days prior to commencement of their discharge, new sources, and sources that become categorical industrial users subsequent to the promulgation of an applicable categorical pretreatment standard, shall submit to the city a report which contains the information listed in subsection B.2 below. A new source shall report the method of pretreatment it intends to use to meet applicable pretreatment standards. A new source also shall give estimates of its anticipated flow and quantity of pollutants to be discharged from regulated process streams and other non-process streams.

2. Industrial users described above shall submit the information set forth below.

a. All information required in subsection 14.09.060.F.

b. Measurement of pollutants.

(1) The industrial user shall take a minimum of one representative sample to compile the data necessary to comply with the requirements of this subsection.

(2) Samples should be taken immediately downstream from pretreatment facilities if such exist or immediately downstream from the regulated process if no pretreatment exists. If other wastewaters are mixed with the regulated wastewater prior to pretreatment, the industrial user should measure the flows and concentrations necessary to allow use of the combined wastestream formula in 40 CFR section 403.6(e) in order to evaluate compliance with the pretreatment standards. Where an alternate concentration or mass limit has been calculated in accordance with 40 CFR section 403.6(e) this adjusted limit along with supporting data shall be submitted to the city.

(3) Sampling and analysis shall be performed in accordance with section 14.09.130.

(4) The city may allow the submission of a BMR which utilizes only historical data so long as the data provides information sufficient to determine the need for industrial pretreatment measures.

(5) The BMR shall indicate the time, date, and place of sampling and methods of analysis, and shall certify that such sampling and analysis is representative of normal work cycles and expected pollutant discharges to the POTW.

(6) Signature and report certification. All baseline monitoring reports must be signed in accordance with subsection 14.09.150.H and signed by an authorized representative as defined in subsection 14.09.010.A.

C. *Ninety-day compliance reports—Categorical industrial users.*

1. New sources: All new sources subject to existing categorical pretreatment standards shall submit a report to the city within 90 days from the date of first discharge to the POTW demonstrating actual and continuing compliance with those standards.

2. Existing sources: All existing sources required to comply with newly promulgated categorical pretreatment standards shall submit a report to the city within 90 days of the date on which compliance is required with those standards demonstrating that actual and continuing compliance with such standards has been achieved.

3. Such 90-day compliance report shall contain at a minimum the information required in subsections 5., 6., 7., 10., 11., 12. and 13. of subsection 14.09.060.F.

D. *Twenty-four-hour notice and 30-day re-sampling.* If sampling performed by an industrial user indicates a violation of this chapter, the industrial user shall notify the city within 24 hours of becoming aware of the violation. The industrial user shall also repeat the sampling and analysis and submit the results of the repeat analysis to the city within 30 days after becoming aware of the violation. The industrial user is not required to resample if the following occurs:

1. The city performs sampling at the industrial user's facility at a frequency of at least once per month.

2. The city performs sampling at the industrial user's facility between the time when the IU performs its initial sampling and the time when the industrial user receives the results of this sampling. Although it is the sole responsibility of the industrial user to verify if the city has performed this sampling, the city will make reasonable efforts to provide industrial user with notice that the city will perform or has performed such sampling.

E. *Slug and spill discharges—Notification and plan development.*

1. Each industrial user shall provide protection from spills and slug discharges of pollutants regulated under this chapter. Facilities to prevent the discharge of spills or slug discharges shall be provided and maintained at the industrial user's expense.

2. Each permitted IU shall report all slug discharges, including any discharge that would violate a prohibition of section 14.09.030.

3. The city shall evaluate whether each significant industrial user needs a slug/spill discharge control plan or other action to control spills and slug discharges. The city may require an industrial user to develop, submit for approval, and implement a slug/spill discharge control plan or take such other action that may be necessary to control spills and slug discharges.

4. A slug/spill discharge control plan shall address, at a minimum, the following:

a. Detailed plans (schematics) showing facility layout and plumbing representative of operating procedures;

b. Description of contents and volumes of any process tanks;

c. Description of discharge practices, including non-routine batch discharges;

d. Listing of stored chemicals, including location and volumes;

e. Procedures for immediately notifying the city of any spill or slug discharge. It is the responsibility of the industrial user to comply with the reporting requirements in subsection 14.09.150.F;

f. Procedures to prevent adverse impact from any accidental or slug discharge. Such procedures include, but are not limited to, inspection and maintenance of storage areas, handling and transfer of materials, loading and unloading operations, control of plant site runoff, worker training, building of containment structures or equipment, measures for containing toxic organic pollutants, including solvents, and/or measures and equipment for emergency response; and

g. Any other information as required by the city.

5. Notice to employees. A notice shall be permanently posted on the industrial user's bulletin board or other prominent place advising employees who to call in the event of an accidental or slug discharge. Employers shall ensure that all employees who work in any area where an accidental or slug discharge may occur or originate are advised of the emergency notification procedures.

F. *Reports of potential problems—Slug discharges.*

1. In the case of any changes at its facility affecting potential for a slug discharge as defined in subsection 14.09.010.A, the industrial user shall immediately (but no later than 24 hours after such a change) email and telephone to notify the city of the incident. This notification shall include:

a. Name of the facility;

b. Location of the facility;

c. Name of the caller;

d. Date and time of discharge;

e. Date and time discharge was halted;

f. Location of the discharge;

g. Estimated volume of discharge;

h. Estimated concentration of pollutants in discharge;

i. Corrective actions taken to halt the discharge; and

j. Method of disposal, if applicable.

2. Within five working days following such discharge, the industrial user shall, unless waived by the city, submit a detailed written report that includes all of the information contained in subsection F.1 above and any other information describing the cause(s) of the discharge and the measures to be taken by the industrial user to remediate the discharge and prevent similar future occurrences. Such notification shall not relieve the industrial user of any expense, loss, damage, or other liability which might be incurred as a result of damage to the POTW, natural resources, or any other damage to person or property; nor shall such notification relieve the industrial user of any fines, penalties, or other liability which may be imposed pursuant to this chapter.

G. *Reports for other industrial users.* If the city deems it necessary to assure compliance with provisions of this chapter, any industrial user of the POTW may be required to submit an industrial wastewater discharge permit application, questionnaire or other reports and notifications in a format and timeframe as specified by the city.

H. *Signatory certification.* All reports and other submittals required to be submitted to the city shall include the following statement and signatory requirements.

1. The authorized representative of the industrial user signing any application, questionnaire, any report or other information required to be submitted to the city must sign and attach the following certification statement with each such report or information submitted to the city.

"I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to ensure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system or the persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of a fine and imprisonment for knowing violations."

2. If the authorized representative is no longer accurate because a different individual or position has responsibility for the overall operation of the facility, or overall responsibility for environmental matters for the company, a new authorization satisfying the requirements of this section and provided by an authorized representative that meets the definition in subsection 14.09.010.A must be submitted to the city prior to or together with any reports to be signed by the current authorized representative.

I. *Compliance schedules.* Should any schedule of compliance be established in accordance with the requirements of this chapter, the compliance schedule shall be as specified in subsection 14.09.060.F.10.

J. *Change in discharge or operations.*

1. Every permitted industrial user shall file a notification with the city a minimum of 14 days prior to any planned significant change in operations or wastewater characteristics. A significant change shall be a change equal to or greater than 20 percent in the mass of a pollutant or volume of flow discharged to the POTW. In addition, this notification shall include changes to:

a. Adding or removing processing, manufacturing or other production operations;

b. New pollutants used which may be discharged; and

c. Changes in the listed or characteristic hazardous waste for which the industrial user has submitted or is required to submit information to the city under this chapter and 40 CFR section 403.12(p).

2. Known or anticipated facility closure. The industrial user is required to notify the city at least 30 days prior to facility shutdown or closure which might alter the character, nature, quality, or volume of its wastewater if that shutdown or closure would cause a violation of an applicable pretreatment regulation.

K. *Notification of the discharge of hazardous waste.*

1. Any industrial user shall notify the city, in writing, of any discharge into the POTW of a substance which, if otherwise disposed of, would be hazardous waste. Such notification to the city shall be made within the appropriate time frames specified in subsections 14.09.150.D, 14.09.150.F, and 14.09.150.J or within 24 hours of becoming aware of the discharge, whichever is shorter.

Such notification must include:

a. The name of the hazardous waste as set forth at 40 CFR part 261;

b. The EPA hazardous waste number;

c. The type of discharge (continuous, batch, or other);

d. An identification of the hazardous constituents contained in the wastes;

e. An estimation of the mass and concentration of such constituents in the wastestream discharged during that calendar month;

f. An estimation of the mass of constituents in the wastestream expected to be discharged during the following 12 months;

g. Certification that the industrial user has a program in place to reduce the volume and toxicity of hazardous wastes generated to the degree it has determined to be economically practical; and

h. Signatory certification as required by subsection 14.09.150.H.

2. Any industrial user shall notify the EPA Regional Waste Management Division Manager, and state hazardous waste authorities, in writing, of the discharge into the POTW of a substance which, if otherwise disposed of, would be hazardous waste and meets the reporting criteria specified at 40 CFR section 403.12(p). Notification to the state and EPA is the responsibility of the industrial user and shall be made as required under 40 CFR section 403.12(p). The industrial user shall copy the city on all notifications made to the state of Nevada and EPA.

3. In the case of any new regulation under RCRA identifying additional characteristics of hazardous waste or listing any additional substance as hazardous waste, the industrial user must notify the city, the EPA Regional Waste Management Division Director, and state hazardous waste authorities of the discharge of such substance within 90 days of the effective date of such regulations.

4. This provision does not create a right to discharge any substance not otherwise allowed to be discharged by this chapter, a permit issued hereunder, or any applicable federal or state law.

L. *Requests for information.*

1. A permittee shall furnish to the city, within the timeframe set by the director, any information which the city may request to determine whether cause exists for modifying, revoking, and reissuing, or terminating an industrial wastewater discharge permit, or to determine compliance with the industrial wastewater discharge permit or this chapter. A permittee shall also, upon request, provide to the city, within the timeframe required by the director, copies of any records that are required by the industrial wastewater discharge permit or this chapter.

2. When requested by the city, any industrial user shall submit information to the director regarding industrial processes, nature and characteristics of wastes and wastewaters generated at the industrial facility, method of disposal of wastes, or other information required by the director to meet the responsibilities under this chapter, state law, and 40 CFR part 403. Failure to provide information within the timeframe specified shall be a violation of this chapter.

(Ord. No. 3496, § 1, 7-10-2018)

14.09.160 Sector control programs.

A. *General requirements.*

1. *Authority.* By ordinance, the city may establish specific sector control programs for industrial users to control specific pollutants as necessary to meet the objectives of this chapter. Pollutants subject to these sector control programs shall generally be controlled using best management practices.

2. *Facility identification and compliance.* The city shall implement procedures to identify industrial users for inclusion into applicable sector control programs. Once identified and included into one or more sector control program, the facility shall be required to comply with the applicable sector control program requirements.

3. *Notification to the city by the industrial user and management review.* The city shall review new construction and existing facilities undergoing any physical change, change in ownership, change in operations, or other change that could change the nature, properties, or volume of wastewater discharge, to ensure that current sector control program requirements are incorporated and implemented.

The industrial user shall inform the city prior to:

a. Sale or transfer of ownership of the business;

b. Change in the trade name under which the business is operated;

c. Change in the nature of the services provided that affect the potential to discharge sector control program pollutants; or

d. Remodeling of the facility that may result in an increase in flow or pollutant loading or that otherwise requires the facility to submit plans or specifications for approval through a building or zoning department, or any other formal approval process of a city, county or other jurisdiction.

4. *Inspections.*

a. The city may conduct inspections of any facility with or without notice for the purpose of determining applicability and/or compliance with sector control program requirements.

b. If any inspection reveals non-compliance with any provision of a sector control program requirement, corrective action shall be required pursuant to the applicable sector control program.

c. Inspection results will be provided in writing to the facility upon request.

5. *Closure.* The city may require closure of plumbing, treatment devices, storage components, containments, or other such physical structures that are currently not

being used to discharge to the POTW. Closure may include the removal of equipment, the filling in and/or cementing, capping, plugging, etc. of such physical structures.

6. *Enforcement and compliance.*

a. These requirements form a part of this chapter. Enforcement of this regulation is governed by the express terms herein and the enforcement provisions of this chapter.

b. Any costs incurred by the city due to interference, damage, pass through, or maintenance necessary in the treatment and/or collection system shall be paid by the industrial user to the city. The city's costs, including costs of time, labor, overhead, benefits, equipment, materials, sampling, monitoring, testing, and treatment expenses, and use of outside resources or services, incurred in rectifying the interference, damage, pass through, or maintenance shall be billed directly to the owner or the industrial user by the city, and such costs shall become part of the total charges due and owing to the city for wastewater service to the industrial user.

B. *Fats, oil and grease best management practices.*

1. Applicability: These best management practices establish requirements for any facility the director determines has the potential to discharge floatable or settleable material. The requirements established in this BMP shall apply to facilities where preparation, manufacturing, processing of food or washing/sanitizing of dishes or equipment occurs. Included food establishments may include, but are not limited to, restaurants, cafes, fast food outlets, pizza outlets, delicatessens, sandwich shops, coffee shops, schools, nursing homes and other facilities that prepare, service or otherwise make foodstuff available for consumption.

2. These facilities shall install and maintain a GGI within 90 days of being notified of such requirement.

3. No food service establishment covered by subsection B.1 above shall discharge or cause to be discharged any wastewater containing free or floating oil and grease, or any discharge containing animal fat or grease by-product in excess of 250 milligrams per liter (250 mg/L). Unless otherwise approved by the director, a food service establishment shall install and properly operate and maintain a GGI, implement all required BMPs and not violate a general or specific prohibition as specified in section 14.09.030.

4. A GGI that was legally and properly installed at an industrial user's facility prior to the effective date of this chapter shall be acceptable as an alternative if such device is effective in removing floatable and settleable material and is designed and installed

is such a manner that it can be inspected and properly maintained. If the director determines at any time that such GGI is incapable of adequately retaining the floatable and settleable material or if it was installed in such a manner that it cannot be inspected and properly maintained, the industrial user shall install a GGI that complies with all city codes within 90 days after being notified of such requirement.

5. Variance.

a. A variance as to the requirements may be granted by the director for good cause. The facility has the burden of proof of demonstrating through data and other information why a variance should be granted. In no case shall a variance result in violation of any pretreatment standard or pretreatment requirement specified in this chapter and applicable to the discharge. The granting of any variance shall be at the sole discretion of the director and may be revoked at their discretion.

b. If a variance is granted, the facility shall institute best management practices and other mitigation measures as specified by the director. These BMPs may include, but not be limited to:

(1) Allow the installation of a HMGI, or continue to allow the use of an HMGI in lieu of installing a GGI, where the HMGI is shown to be effective. If a HMGI is not shown to be effective, the director may require the industrial user to install a GGI.

(2) All sinks and drains which are connected to the POTW shall be equipped with a fixed or removable mesh or screen which shall catch garbage and food debris and prevent it from entering the POTW.

(3) Food grinders are prohibited unless the industrial user installs and properly operates a solids separator prior to discharge to the POTW.

(4) Biological treatment or enzyme treatment shall not be used unless approved by the director. Use of enzymes or other chemical or biological treatment or product that emulsifies or acts to emulsify FOG is prohibited.

(5) An employee training program shall be instituted on a periodic basis and for all new employees on FOG waste management.

(6) Provide quarterly cleaning of its private service line to prevent the buildup of oil, grease and solids or as otherwise specified by the director.

(7) Submit records of the private service line cleaning as specified by the director.

(8) Pay the costs incurred by the city or other jurisdiction for accelerated line cleaning on the sewer line providing service between the facility and the POTW, costs to the city for treating the excess strength waste and any costs for sampling and analysis.

6. General control requirements.

a. A GGI shall be required for the proper handling of liquid wastes which may be harmful to, or cause obstruction in the POTW or cause or contribute to pass through or interference.

b. It shall be the responsibility of the industrial user and/or owner of the property to contact the city for the purpose of obtaining necessary permits for the installation of a grease removal device or any modifications to the facility's plumbing. Written approval from the city must be obtained prior to installation of the interceptor. The time of review and approval of such permits shall in no way relieve the industrial user from the responsibility of producing a discharge acceptable to the city under the provisions of this chapter.

c. The design and sizing of GGIs shall be in accordance with applicable city building codes. The GGI shall be designed, sized, installed, maintained and operated so as to accomplish the intended purpose of intercepting pollutants from the industrial user's wastewater and preventing the discharge of such pollutants to the city's wastewater collection system, including pollutants that result in toxic, noxious or malodorous conditions that create a public nuisance or unsafe working conditions, which endanger life or the environment.

d. Upon change of ownership of any existing facility which would be required to have an interceptor under this chapter, the applicant for sanitary sewer service shall have the burden to demonstrate that a properly sized and functioning GGI is installed.

e. All sinks which are connected to a GGI shall be equipped with a fixed or removable mesh or screen which shall catch garbage and food debris and prevent it from entering the GGI. Food grinders are prohibited unless the industrial user installs and properly operates a solids separator prior to the GGI.

f. The industrial user must ensure interceptors are easily accessible for inspection, cleaning, and removal of FOG.

g. The industrial user must maintain interceptors at their expense and keep them in efficient operating condition at all times by the regular removal of accumulated FOG.

h. Each industrial user that is required to use and maintain a GGI shall keep a record of every time the GGI is pumped, cleaned or repaired. This record shall include the date, the name of the company that pumped or cleaned the GGI and the amount of waste that was removed. Such records shall be maintained on site for at least three years and made available to the director upon request.

The removed contents from any GGI shall be handled by a person licensed to haul such waste and shall be disposed of in accordance with federal, state and local regulations.

7. Required maintenance.

a. GGIs shall be maintained by regularly scheduled cleaning so that they will properly operate as intended to efficiently intercept the fats, oil and grease from the facility's wastewater and prevent the discharge of said materials into the city's POTW. A GGI shall be completely pumped and serviced a minimum of every 90 days, whenever the combined thickness of the floating greases and settled solids is greater than 25 percent of the hydraulic working capacity of the GGI, if an effluent concentration exceeds 250 mg/L, or if toxic, noxious, malodorous conditions create a public nuisance or unsafe working conditions which endanger health.

b. The city may require more frequent cleaning than that prescribed in subsection B.6.a. above. A variance from the requirement in subsection B.6.a. may be obtained if the industrial user can demonstrate through analytical data that less frequent cleaning is sufficient.

c. Maintenance of grease interceptors shall be done in a workmanlike manner only by a business/professional normally engaged in the servicing of such plumbing fixtures.

d. In the event a GGI is not properly maintained by the industrial user, owner, lessee, or other authorized representative of the facility, the city may authorize such maintenance work be performed on behalf of the industrial user. The costs of such maintenance shall be billed directly to the customer on the bill, owner of the premises, or the tenant of the premises at the city's discretion and shall become part of the charges due and owing to the city.

e. Biological treatment or enzyme treatment shall not be a substitute for the servicing of a GGI. Use of enzymes or other chemical or biological treatment or product that emulsifies or acts to emulsify FOG is prohibited.

f. The industrial user must document each pump-out with a waste manifest or trip ticket and kept by the industrial user on site for at least three years.

g. The industrial user must take reasonable steps to assure that all waste is properly disposed of in accordance with federal, state and local regulations (i.e. through a statement certifying proper disposal by the hauler included on the waste manifest or trip ticket for each load).

C. *Sand/oil separator requirements.*

1. These best management practices establish requirements for any facility that has the potential to discharge petroleum oil, mineral oil, cutting oils, non-food grease and solids. All facilities subject to these BMPs must comply with the requirements which include both the requirement for installation and proper operation and maintenance of a separator and other reporting requirements.

2. A sand/oil separator that was legally and properly installed at an industrial user's facility prior to the effective date of this chapter shall be acceptable as an alternative if such device is effective in removing floatable and settleable material and is designed and installed is such a manner that it can be inspected and properly maintained. If the director determines at any time that such sand/oil separator is incapable of adequately retaining the floatable and settleable material or if it was installed in such a manner that it cannot be inspected and properly maintained, the industrial user shall install a sand/oil separator that complies with all city codes within 90 days after being notified of such requirement.

3. Implementation: These sand/oil separator requirements may be implemented by letter, order or permit.

4. General control requirements.

a. A sand/oil separator shall be required for the proper handling of liquid wastes which may be harmful to, or cause obstruction in the POTW or cause or contribute to pass through or interference.

b. It shall be the responsibility of the industrial user and owner of the property, business or industry or an authorized representative of the industrial user to contact the city for the purpose of obtaining a plan review. The plan review shall determine the need, size, location, and other requirements of the interceptor required to control discharges into the POTW. Written approval from the city must be obtained prior to installation of the separator and meet all applicable building codes. The review of such plans and operating procedures shall in no way relieve the industrial user from the responsibility of modifying such facilities as necessary to produce a discharge acceptable to the city under the provisions of this chapter.

c. Upon change of ownership of any existing facility which would be required to have a separator under this chapter, the applicant for sanitary sewer service shall have the burden to demonstrate that a properly sized and functioning sand/oil separator is installed.

d. Toilets, urinals and similar fixtures shall not discharge through a sand/oil separator. Such fixtures shall be plumbed directly into the building sewer and waste system.

e. The industrial user shall ensure the sand/oil separator is easily accessible for inspection, cleaning, and removal of sand, oils and other accumulated wastes.

f. The industrial user shall maintain separators at their expense and keep in efficient operating condition at all times by the regular removal of waste materials.

g. Each industrial user that is required to use and maintain a sand/oil separator shall keep a record of every time the sand/oil separator is pumped, cleaned, serviced or repaired. This record shall include the date, the name of the company that pumped or cleaned the sand/oil separator and the amount of waste that was removed. Such records shall be maintained on site for at least three years and made available to the director upon request. The removed contents from any sand/oil separator shall be handled by a person licensed to haul such waste and shall be disposed of in accordance with federal, state and local regulations.

5. Required maintenance.

a. Sand/oil separators shall be maintained by regularly scheduled cleaning so that they will properly operate as intended to efficiently intercept the sand and oil from the industrial user's wastewater and prevent the discharge of said materials into the city's POTW. A sand/oil separator shall be completely pumped and serviced at minimum once per 12 months or more frequently as necessary. The industrial user should periodically check the separator for the accumulation of pollutants or solids to avoid exceeding the capacity of the separator.

b. The city may require more frequent cleaning. A variance from this requirement may be obtained when the industrial user can demonstrate with analytical data that less frequent cleaning is sufficient.

c. Maintenance of sand/oil separators shall be done in a workman-like manner only by a business/professional normally engaged in the servicing of such plumbing fixtures.

d. In the event a separator is not properly maintained by the industrial user, owner, or lessee, the city may authorize such maintenance work be performed on behalf of the facility. The costs of such maintenance shall be billed directly to the customer and shall become part of the charges due and owed to the city.

e. The industrial user must document each pump-out with a waste manifest or trip ticket and keep on site for at least three years.

f. The industrial user must take reasonable steps to assure that all waste is properly disposed of in accordance with federal, state and local regulations (i.e. through a statement certifying proper disposal by the hauler included on the waste manifest or trip ticket for each load).

g. Each industrial user that is required to use and maintain a sand/oil separator shall keep a record of every time the sand/oil separator is pumped or cleaned or repaired. This record shall include the date, the name of the company that pumped or cleaned the sand/oil separator and the amount of waste that was removed. Such records shall be made available to the director upon request. The removed contents from any sand/oil separator shall be handled by a person licensed to haul such waste and shall be disposed of in accordance with federal, state and local regulations.

(Ord. No. 3496, § 1, 7-10-2018)

14.09.170 Compliance and enforcement.

A. *Enforcement response plan.* The city may adopt policies and procedures as set forth in the city's pretreatment enforcement response plan for carrying out the provisions of this chapter, provided that such policies and procedures are not in conflict with this chapter or any applicable state or federal law or regulation.

B. *Publication of industrial users in significant noncompliance.* The city shall publish annually, in a newspaper of general circulation that provides meaningful public notice, a list of the significant industrial users which, at any time during the previous 12 months, were in significant noncompliance with applicable pretreatment standards or pretreatment requirements. In addition, any industrial user found to be in significant noncompliance with subsections 3., 4. or 8. below shall also be published in the newspaper. One or more of the following criteria shall be used to define significant noncompliance:

1. Chronic violations of wastewater discharge limits, defined here as those in which 66 percent or more of all of the measurements taken for the same pollutant parameter during a six-month period exceed (by any magnitude) a numeric pretreatment standard or pretreatment requirement, including instantaneous limits.

2. Technical review criteria (TRC) violations, defined here as those in which 33 percent or more of all of the measurements taken for the same pollutant parameter taken during a six-month period equal or exceed the product of the numeric pretreatment standard or pretreatment requirement including instantaneous limits multiplied by the applicable TRC (TRC = 1.4 for BOD_5, TSS, FOG, and 1.2 for all other pollutants except pH).

3. Any other violation of a pretreatment standard or pretreatment requirement (daily maximum, long-term average, instantaneous limit, or narrative standard) that the POTW determines has caused, alone or in combination with other discharges, interference or pass through (including endangering the health of POTW personnel or the general public).

4. Any discharge of a pollutant that has caused imminent endangerment to human health, welfare, or the environment or has resulted in the exercise of the city's emergency authority to halt or prevent such a discharge.

5. Failure to meet, within 90 days after the schedule date a compliance schedule milestone contained in a local control mechanism or enforcement order for starting construction, completing construction, or attaining final compliance.

6. Failure to provide, within 30 days after the due date, required reports such as baseline monitoring reports, compliance reports, periodic self-monitoring reports, and reports on compliance with compliance schedules.

7. Failure to accurately report noncompliance.

8. Any other violation or group of violations, which may include a violation of best management practices, which the POTW determines may adversely affect the operation or implementation of the pretreatment program.

C. *Administrative enforcement actions.*

1. *Notice of violation (NOV).* Whenever the director finds that an industrial user has violated or continues to violate, any provision of this chapter, an industrial wastewater discharge permit or order issued hereunder, or any other pretreatment standard or pretreatment requirement, the director may serve upon such industrial user a written notice of violation. Within five working days of the receipt of such notice, an explanation of the violation and a plan for satisfactory correction and prevention of further violations shall be submitted to the director. Submission of such a plan in no way relieves the industrial user of liability for any violations occurring before or after receipt of the notice of violation. Nothing in this section shall limit the authority of the city to take any action, including emergency actions or any other enforcement action, without first issuing a notice of violation.

2. *Administrative order.* When the city finds that an industrial user has violated, or continues to violate, any provision of this chapter, an industrial wastewater discharge permit, or order issued hereunder, or any other pretreatment standard or pretreatment requirement, the city may issue an administrative order to the industrial user responsible for the discharge directing that the industrial user come into compliance within a specific time. If the industrial user does not come into compliance within the time provided, sewer service may be discontinued unless adequate treatment facilities, devices, or other related appurtenances are installed and properly operated. Compliance orders also may contain other requirements to address the noncompliance, including additional self-monitoring and management practices designed to minimize the amount of pollutants discharged to the POTW. An administrative order may not extend the deadline for compliance established for a pretreatment standard or pretreatment requirement, nor does such an order

relieve the industrial user of liability for any violation, including any continuing violation. Issuance of an administrative order shall not be a bar against, or a prerequisite for, taking any other action against the industrial user.

3. *Consent order.* The city may enter into a consent order, assurances of voluntary compliance, or other similar documents establishing an agreement with any industrial user responsible for noncompliance. Such documents shall include specific actions to be taken by the industrial user to correct the noncompliance within a time period specified by the document. A consent order may include penalties, supplemental environmental projects, or other conditions and requirements as agreed to by the city and the industrial user. A consent order shall have the same force and effect as an administrative order and shall be judicially enforceable.

4. *Show cause hearing.*

a. The director may order an industrial user which has violated, or continues to violate, any provision of this chapter, an industrial wastewater discharge permit or order issued hereunder, or any other pretreatment standard or pretreatment requirement, to appear before the director and show cause why the proposed enforcement action should not be taken. Notice shall be served on the user specifying the time and place for the meeting, the proposed enforcement action, the reasons for such action, and a request that the user show cause why the proposed enforcement action should not be taken. The notice of the meeting shall be served personally or by registered or certified mail (return receipt requested) at least ten days prior to the hearing. Such notice may be served on any authorized representative of the industrial user. A show cause hearing shall not be a bar against, or prerequisite for, taking any other action against the industrial user.

b. After the director has reviewed the evidence, the director may issue an order to the industrial user responsible for the discharge directing that, following a specified time period, the sewer service be discontinued unless adequate treatment facilities, devices or other related appurtenances have been installed or existing treatment facilities, devices or other related appurtenances are properly operated. Further orders and directives as are necessary and appropriate to correct the violation may be issued.

5. *Cease and desist order.*

a. When the director finds that an industrial user has violated, or continues to violate, any provision of this chapter, an industrial wastewater discharge permit or order issued hereunder, or any other pretreatment standard or pretreatment requirement, or that the industrial user's past violations are likely

to recur, the director may issue a cease and desist order to the industrial user directing it to cease and desist all such violations and directing the industrial user to:

(1) Immediately comply with all requirements; and

(2) Take such appropriate remedial or preventive action as may be needed to properly address a continuing or threatened violation, including halting operations and/or terminating the discharge.

b. Issuance of a cease and desist order shall not be a bar against, or a prerequisite for, taking any other action against the industrial user.

6. *Administrative fines.*

a. When the director finds that an industrial user has violated, or continues to violate, any provision of this chapter, an industrial wastewater discharge permit or order issued hereunder, or any other pretreatment standard or pretreatment requirement, the director may fine such industrial user in an amount not to exceed $1,200.00. Such fines shall be assessed on a per-violation, per-day basis.

b. Issuance of an administrative fine shall not be a bar against, or a prerequisite for, taking any other action against the industrial user.

7. *Suspension of service.*

a. Endangerment to health or welfare of the community. Whenever it reasonably appears that such discharge presents an imminent endangerment to the health or welfare of the community, the city may (with or without prior notice) immediately and effectively halt or prevent any discharge of pollutants into any natural waterway, surface drainage within the city, any area under jurisdiction of the city, the POTW of the city or any wastewater system tributary thereto, by any means available to them, including physical disconnection from the POTW.

b. Endangerment to environment or treatment works. The city, after written notice to the industrial user may halt or prevent any discharge of pollutants into any natural waterway, surface drainage within the city, any area under jurisdiction of the city, the POTW, wastewater system tributary thereto, by any means available to them, including physical disconnection from the POTW, whenever such discharge presents or may present an endangerment to the environment or threatens to interfere with the operation of the POTW.

c. Any person notified of a suspension of wastewater service and/or the industrial wastewater discharge permit shall immediately stop or eliminate the contribution. In the event of a failure of the person to comply voluntarily with the

suspension order, the city shall take such steps as deemed necessary including immediate severance of the sewer connection, to prevent or minimize damage to the POTW or endangerment to individuals or the environment. The city may reinstate the industrial wastewater discharge permit and/or the wastewater service upon proof of the elimination of the non-complying discharge.

d. A detailed written statement submitted by the industrial user describing the causes of the harmful contribution and the measures taken to prevent any future occurrence shall be provided to the city within five days of the date of occurrence. Suspension of service shall not be a bar against, or a prerequisite for, taking any other action against the industrial user.

8. *Revocation of industrial wastewater discharge permit.* Pursuant to section 14.09.090, a violation of the conditions of an industrial wastewater discharge permit or of this chapter or of applicable state or federal regulations shall be reason for revocation of such permit by the city. Upon revocation of the permit, any wastewater discharge from the affected industrial user shall be considered prohibited and discharge of such wastewater in violation of this chapter.

9. *Continuous violations.* With respect to violations of this chapter that are continuous with respect to time, each day that the violation continues is a separate violation. With respect to violations of this chapter that are not continuous with respect to time, each prohibited act and/or each failure to perform a required act is a separate violation.

10. *Administrative enforcement: request for reconsideration; appeals.*

a. Any industrial users directly aggrieved by an administrative enforcement action taken by the city under chapter 14.09 may file a request for reconsideration. All requests for reconsideration (1) shall be made by the aggrieved party submitting a written request for reconsideration to the director that identifies the action taken or decision made by the city that the aggrieved party wants to be reconsidered, sets forth in detail the facts supporting the request for reconsideration, and identifies any relief requested; (2) shall be served personally or by registered or certified mail, return receipt requested, on the director; and (3) must be received by the director on or before the tenth day after the city takes the action or makes the decision that the aggrieved party wants to be reconsidered.

b. Within ten days after the director receives a request for reconsideration in accordance with subsection 14.09.170.C.9.a, the director may modify the action taken. Any such modification must be in writing, be made within 20 days

of the director's receipt of that request for reconsideration, and served on the aggrieved party that made the request personally or by registered or certified mail, return receipt requested.

c. If a decision made by the director in accordance with subsection 14.09.170.C.9.b is unsatisfactory to the aggrieved party requesting reconsideration, the aggrieved party may, within ten days after receiving the director's decision, file a written appeal to the city manager with the city clerk. The written appeal shall be decided by the city manager within 30 days from the date of filing, and the city manager's decision shall be deemed to be the final administrative action on such appeal. The director's decision shall remain in effect during such period of appeal.

D. *Public nuisance.* Any condition caused by a user or permitted by a user to exist in violation of any provision of this chapter is a threat to public health, safety, and welfare, and is declared and deemed a nuisance per se.

E. *Judicial enforcement remedies.*

1. *Injunctive relief.* When the city finds that an industrial user has violated, or continues to violate, any provision of this chapter, an industrial wastewater discharge permit, or order issued hereunder, or any other pretreatment standard or pretreatment requirement, the city may petition a court of competent jurisdiction for the issuance of a temporary or permanent injunction, as appropriate, which restrains or compels the specific performance of the industrial wastewater discharge permit, order, or other requirement imposed by this chapter on activities of an industrial user. The city may also seek such other action as is appropriate for legal and/or equitable relief, including a requirement for the industrial user to conduct environmental remediation. A petition for injunctive relief shall not be a bar against, or a prerequisite for, taking any other action against an industrial user.

2. *Civil penalties.*

a. An industrial user who has violated, or continues to violate, any provision of this chapter, an industrial wastewater discharge permit, or order issued hereunder, or any other pretreatment standard or pretreatment requirement shall be liable to the city for a civil penalty no less than $1,000.00 and not to exceed $10,000.00 per day per violation. With respect to violations that are continuous with respect to time, each day that the violation continues is a separate offense.

b. Filing a lawsuit for civil penalties shall not be a bar against, or a prerequisite for, taking any other action against an industrial user.

3. *Civil/administrative fine pass through.* In the event that an industrial user discharges such pollutants which cause the city to violate any condition of its NPDES permit and the city is fined by the EPA or the state of Nevada for such violation, then such industrial user shall be fully liable for the total amount of the fine assessed against the city by the EPA and/or the state of Nevada.

4. *Criminal penalties.*

a. An industrial user that willfully, knowingly, or negligently violates a provision of this chapter, a provision of any order issued hereunder, a provision of an industrial wastewater discharge permit issued hereunder, a pretreatment standard, or a pretreatment requirement is guilty of a misdemeanor and, upon conviction thereof, shall punishable by a fine not to exceed $1,000.00 per day for each violation and/or by imprisonment in the Henderson Detention Center for not more than six months. In lieu of all or part of the foregoing punishment which may be imposed, the convicted person may be sentenced to perform a fixed period of community service pursuant to the conditions prescribed in NRS 176.087 and, as applicable, to pay restitution in accordance with NRS 176.033. If a corporation is convicted of a violation, the corporation is punishable by a fine not exceeding $1,000.00 and, as applicable, shall pay restitution in accordance with NRS 176.033, unless otherwise provided by law or the code. With respect to violations that are continuous with respect to time, each day that the violation continues is a separate offense. With respect to violations that are not continuous with respect to time, each prohibited act and/or each failure to perform a required act is a separate offense.

b. The city may refer violations that may warrant criminal prosecution to the U.S. Attorney General's Office, State Attorney General, EPA Criminal Investigation Division or other appropriate agency. This referral shall not preclude the city from taking a parallel administrative or civil enforcement action.

(Ord. No. 3496, § 1, 7-10-2018)

14.09.180 Remedies nonexclusive.

The remedies provided for in this chapter are not exclusive of any other remedies that the city may have under the Code or provisions of state or federal law. The city may take any, all, or any combination of these actions against a non-compliant industrial user. Enforcement of violations under this chapter will generally be in accordance with the city's pretreatment enforcement response plan. However, the city may take any other action against an industrial user when the circumstances warrant and may take more than one enforcement action against any non-compliant industrial user.

(Ord. No. 3496, § 1, 7-10-2018)

14.09.190 No waiver.

The failure of the city to discover violations and/or to take action to enforce any requirement, including but not limited to the assessment and collection of applicable charges, surcharges, fees, fines and penalties, shall not constitute a forfeiture or waiver of the city's right to take appropriate action at any time thereafter. This entitlement shall be retained by the city as a condition of service.
(Ord. No. 3496, § 1, 7-10-2018)

14.09.200 Regulation of industrial users from outside jurisdictions.

A. *Outside jurisdictions and inter-local agreements.*

1. In order for the city to effectively implement and enforce pretreatment standards and pretreatment requirements for all industrial users discharging to the POTW and as required by 40 CFR section 403.8(f), the city shall enter into pretreatment ILA with contributing jurisdictions as necessary and as provided in NRS 277.180. Prior agreements shall be unaffected by these requirements until such time as the city determines that modifications are necessary.

2. Prior to entering into an ILA under this section, the city shall seek to obtain the following information from the contributing jurisdiction(s):

a. A description of the quality and volume of wastewater discharged to the POTW by the contributing jurisdiction;

b. An inventory of all sources of indirect discharge located within the contributing jurisdiction that are discharging to the POTW;

c. A requirement that the contributing jurisdiction submit an updated user inventory on at least an annual basis if such jurisdiction has non-domestic users;

d. A requirement that the contributing jurisdiction provide the city with access to all information that the contributing jurisdiction obtains regarding effluent quantity and quality from non-domestic users; and

e. Other requirements as necessary for the city to effectively administer and enforce the pretreatment program.

B. *Industrial users in outside jurisdictions with no ILA in-place.* Until such time as the city and a jurisdiction enter into an ILA for pretreatment program delegation, the city shall have the option to exercise any of the following options:

1. Prohibit the discharge of non-domestic wastewater from an industrial user located in another jurisdiction.

2. Request the jurisdiction to issue a permit or order to the industrial user that is equivalent to the industrial wastewater discharge permit and all pretreatment standards and pretreatment requirements required by the city.

3. Enter into a contract with the industrial user that requires the industrial user to comply with all pretreatment standards and pretreatment requirements within chapter 14.09 and in an industrial wastewater discharge permit issued by the city to the industrial user.

(Ord. No. 3496, § 1, 7-10-2018)

14.09.210 Affirmative defenses to discharge violations.

A. *Bypass.* Bypass is prohibited, and industrial users are subject to and shall comply with all provisions concerning bypass in 40 CFR section 403.17, which provisions and requirements are incorporated into this chapter by reference, including an industrial user's obligation to provide the city (as the control authority) notices. The director may take an enforcement action against an industrial user, however an industrial user shall have any defense available to it under 40 CFR section 403.17, provided it complies with all procedures and requirements in 40 CFR section 403.17 to establish such a defense.

B. *Upset.* An upset shall constitute an affirmative defense to an enforcement action brought for noncompliance with categorical pretreatment standards, provided an industrial user complies with all procedures and requirements in 40 CFR section 403.16 to establish such a defense. The provisions and requirements in 40 CFR section 403.16 are hereby incorporated into this chapter by reference.

C. *Burden of proof.* In any enforcement proceeding, the industrial user seeking to establish a defense under section 14.09.210 shall have the burden of proof.

(Ord. No. 3496, § 1, 7-10-2018)

Chapter 14.12 ELECTRICITY AND NATURAL GAS UTILITIES

Sections:

14.12.010 General provisions.
14.12.020 Authorization.

14.12.010 General provisions.

A. *Purpose and policy.* This chapter sets forth the responsibility, authority, and provisions to ensure compliance with all the requirements of this title for the protection of the public health, safety and welfare of the city's residents.

B. *Scope.* The provisions of this chapter shall apply to all residents of the city, a responsible party operating, maintaining, repairing, relocating, removing, and/or disconnecting the public water system and/or publicly owned treatment works, and/or users of city-provided utilities.

C. *Administration.* Except as otherwise provided herein, the director shall administer, implement, and enforce the provisions of this chapter. Any powers granted or duties imposed upon the director may be delegated by the director to persons acting in the beneficial interest of the city.

D. *Compliance.* All provisions of this chapter are subject to compliance procedures as outlined in this title and the department service rules.
(Ord. 2676, § 9, 2008; Ord. 2536, § 69, 2006)

14.12.020 Authorization.

The City of Henderson is authorized to acquire, construct, improve, equip, maintain and operate an electrical and/or natural gas utility within the boundaries of the city.
(Ord. 2536, § 70, 2006)

Chapter 14.14 CONSERVATION

Sections:

14.14.010 General provisions.
14.14.015 Condition of service.
14.14.020 Water waste.
14.14.025 Malfunctioning water distribution facilities or other water loss issues.
14.14.030 Landscape watering restrictions; water budget; possible exemption from landscape watering restrictions for active/programmed recreation turf areas and athletic field turf areas.
14.14.040 Golf courses.
14.14.050 Landscape material restrictions.
14.14.060 Mist systems.
14.14.070 Restrictions on surface, building, equipment, and vehicle washing; splash pads.
14.14.080 Water features.
14.14.090 Swimming pool, spa, and hot tub draining.
14.14.100 Recreational water park.
14.14.110 Artificial lakes.
14.14.120 Drought emergency.
14.14.130 Water use restriction in deed or other written instrument recorded against real property.
14.14.140 Violations.

14.14.010 General provisions.

A. *Purpose, policy, and objectives.* This chapter sets forth responsibility, authority, and provisions to ensure compliance with all federal, state, and local requirements for the protection of public health, safety and welfare. The objectives of this chapter are to maximize the water resources of the Colorado River and groundwater basins, to conserve ground and surface waters, to promote water use efficiency, and to prevent, discourage, and stop water waste.

B. *Scope.* The provisions of this chapter shall apply to (1) all residents of the city, (2) owners, occupants, landscape maintenance personnel, and managers of real property to which the city provides water service or of real property in the city's corporate boundaries, (3) real property to which the city provides water service or real property in the city's corporate boundaries, (4) a person with a property interest in or control over real property to which the city provides water service (such as a homeowners association) or a person with a property interest in or control over real property in the city's corporate boundaries, (5) customers, and (6) any person using or taking water within the city's corporate boundaries, whether or not that water is supplied by the city. Unless inconsistent with the context, any reference to "water" in this chapter is to potable water, reclaimed water, raw water, stormwater, well water, and groundwater.

C. *Administration.* Except as otherwise provided herein, the director shall administer, implement, and enforce the provisions of this chapter. The director may delegate any powers granted to or duties imposed upon the director, the city, or the department to a person acting in the beneficial interest of the city.

D. *Compliance.* All provisions of this chapter are subject to compliance procedures as outlined in this title and any enforcement response plan or other procedures established and periodically modified by the department.

E. *Definitions.* In addition to terms defined in chapters 1.03 and 14.01 of the Code, the following terms are defined and used in this chapter: artificial lake (section 14.14.110); building permit for an occupied structure (section 14.14.050); courtyard (section 14.14.050); drought response plan (section 14.14.120); drought-tolerant landscaping (section 14.14.050); front yard (section 14.14.050); lazy river (section 14.14.080); MSS (section 14.14.070); newly-developed property (section 14.14.050); non-residential property (section 14.14.050); rear yard (section 14.14.050); recreational water park (section 14.14.100); residential property (section 14.14.050);responsible person (section 14.14.020); side yard (section 14.14.050); splash pad (section 14.14.070); supervised testing (section 14.14.025); water efficiency plan (section 14.14.100); water feature (section 14.14.080); water waste (section 14.14.020).
(Ord. No. 3905, § 9, 9-13-2022; Ord. 2676, § 10 (part), 2008; Ord. 2536, § 72, 2006)

14.14.015 Condition of service.

As a condition of service, a customer must use water delivered by the city in a manner that promotes water use efficiency, avoids water waste, and is in compliance with the requirements in this chapter. If an existing or new customer wishes to establish or resume water service at a property and that property is not in compliance with the requirements in this chapter, the city may refuse to establish or resume water service to that customer at that property until after that property is brought into compliance with the requirements in this chapter.
(Ord. No. 3905, § 10, 9-13-2022)

14.14.020 Water waste.

A. *Water waste defined.* As used in chapter 14.14, "water waste" means the discharge of water without any practical purpose or use of water in a manner that squanders that water. Water waste is any of the following:

1. Allowing the loss, escape, or excess use of water through a break, leak, or other malfunction in the water distribution facilities on the real property, such as an

irrigation pipe or tubing, the irrigation delivery system, or a water supply line, for any period of time after such escape of water should have been reasonably discovered, as determined by the department.

2. Failing to repair a break, leak, or other malfunction in the water distribution facilities on the real property within 120 hours of being notified by the city of the malfunction or by the deadline set by the city (if any) to repair the malfunction, whichever date is later.

3. Allowing water from a water distribution facility, tank, or water feature on the real property water to flow onto, spray onto, pool on, or run off onto (a) non-irrigated or non-landscaped areas on the real property, (b) adjacent real property, or (c) private or public walkways, roadways, pavement, gutters, alleys, parking lots, or structures.

4. Allowing water from a tank or water feature on the real property to pool on an irrigated or landscaped area on the real property.

5. Watering lawn grass, a garden, a tree, shrubbery, or other vegetation at a time prohibited unless an exemption in section 14.14.030 or section 14.14.040 applies.

6. Watering lawn grass, a garden, a tree, shrubbery, or other vegetation on a day that is not a day in the watering group assignment for the real property or service location unless an exemption in section 14.14.030 or section 14.14.040 applies.

7. Using spray irrigation for any purpose other than to irrigate lawn grass.

8. Failing to comply with a requirement in a water budget.

9. Using landscaping materials other than as allowed in section 14.14.050 and/or imposing landscaping requirements that do not comply with the requirements in section 14.14.050.

10. Using a mist cooling system at a time or on a day other than as allowed in section 14.14.060.

11. Using water to perform surface, building, equipment, or vehicle washing other than as allowed in section 14.14.070.

12. Failing to operate a splash pad installed or modified after January 1, 2023 in compliance with section 14.14.070.

13. Having a water feature unless an exemption in subsection 14.14.080.B applies.

14. Draining or emptying any water from a swimming pool, spa, or hot tub water into the street or any component of the storm drain system other than as allowed in section 14.14.090.

15. Failing, as a recreational water park, to comply with all requirements in section 14.14.100.

16. Having an artificial lake unless an exemption in subsection 14.14.110.B applies.

17. Failing to comply with a requirement in the drought response plan.

18. Failing to comply with a restriction in a deed or other written instrument that limits, restricts, prohibits, or prescribes particular water use or landscaping materials on real property, provided that the deed or other written instrument containing the restriction(s) is recorded against that real property in the Office of the County Recorder of Clark County, Nevada.

For purposes of chapter 14.14, if city provides written notice, including of a malfunction in the water distribution facilities, that notice is deemed received as follows: on the date the door hanger notice or water waste violation flag is placed on the property or premises, if the city uses one or both of these notice methods; on the date the city emails the notice, if the notice is emailed; three days after the notice is deposited with the US Postal Service for mailing, if the notice is mailed by first-class mail; on the date officially recorded as delivered (or delivery refused) according to the record of delivery, if the notice is mailed by certified mail; on the date officially recorded as delivered (or delivery refused) according to the record of delivery, if the notice is delivered by courier; and, on the date the notice is delivered, if the notice is delivered personally.

B. *Water waste prohibited.* To prevent the waste and unreasonable use of water and to promote water conservation and water use efficiency, an owner, occupant, landscape maintenance personnel, or manager of real property in the city's corporate boundaries or of real property to which the city provides water service, a person with a property interest in or control over real property in the city's corporate boundaries, a person with a property interest in or control over real property to which the city provides water service (such as a homeowners association), a customer, and any person using or taking water within the city's corporate boundaries, whether or not that water is supplied by city, (each, a "responsible person") are prohibited from (a) committing water waste and/or (b) allowing water waste to occur on real property that the responsible person controls, has a property interest in, or maintains.

C. *Rebuttable presumption.* Any water waste, together with documentation of that water waste, shall constitute a rebuttable presumption that the water waste occurred and that a responsible person committed or allowed the water waste to occur.

D. *Temporary termination of water service.* The city may temporarily terminate water service to the property or responsible person, as applicable, if (1) a water waste condition exists; (2) the city spoke with, left a message for, or provided written notice (such as with a door hanger notice, water waste violation flag, by email, by letter, or with some other written communication) to a responsible person about that water waste condition; and (3) the water

waste condition was not corrected. Within a reasonable time after the responsible person corrects the condition and pays any required fee to resume water service, the city must resume water service to the property or responsible person, as applicable.

E. *Marker.* The city shall have the right to access real property to identify a water waste condition and to place a water waste violation flag or other marker on or in the real property that identifies that condition.

F. *Corrective action.* If the city has notified the person to make repair or correct the water waste condition and a responsible person fails to repair or correct the water waste condition by the deadline set by the city, then the city (1) may make the necessary repair and take other corrective action to repair or correct the water waste condition, invoice that person for those costs, and, in accordance with the process described in subsection 14.21.040.C, add the invoiced amount to the customer's utility bill as a charge for utility service; (2) terminate water service; and/or (3) impose any other compliance procedure as prescribed in this chapter and/or in chapter 14.21.
(Ord. No. 3905, § 11, 9-13-2022; Ord. 2798, § 5, 1-20-2009)

14.14.025 Malfunctioning water distribution facilities or other water loss issues.

A. A responsible person must not allow the loss, escape, or excess use of water through a break, leak, or other malfunction in the water distribution facilities on the real property for any period of time after such escape of water should have been reasonably discovered, as determined by the department.

B. A responsible person must repair a break, leak, or other malfunction in the water distribution facilities on the real property within 120 hours of knowing, or being notified, of the malfunction or by the deadline set by the city, whichever date is later.

C. A responsible person must not allow water from a water distribution facility, tank, or water feature on the real property water to flow onto, spray onto, pool on, or run off onto (a) non-irrigated or non-landscaped areas on the real property, (b) adjacent real property, or (c) private or public walkways, roadways, pavement, gutters, alleys, parking lots, or structures.

D. A responsible person must not allow water from a tank or water feature on the real property to pool on an irrigated or landscaped area on the real property.

E. A responsible person is exempt from the requirements in subsections 14.14.025.A and 14.14.025.B when performing, or causing to be performed, supervised testing. As used in chapter 14.14, "supervised testing" means supervised operation of an irrigation delivery

system for testing, repair, adjustment, performance assessment, or efficiency assessment by an individual who is physically present on the real property and observing irrigation-delivery-system performance.
(Ord. No. 3905, § 12, 9-13-2022)

14.14.030 Landscape watering restrictions; water budget; possible exemption from landscape watering restrictions for active/programmed recreation turf areas and athletic field turf areas.

A. The landscape watering restrictions and schedules in subsections 14.14.030.B and 14.14.030.C apply to all real property in the city's corporate boundaries and to all real property to which the city provides water service. A customer, or the owner or manager of real property, with functional turf that is either active/programmed recreation turf or athletic field turf that meets certain conditions may seek an exemption to those landscape watering restrictions and schedules by following the process in subsection 14.14.030.G.

B. During the period commencing May 1 and ending August 31, inclusive, of each calendar year, a responsible person must not water lawn grass, a garden, a tree, shrubbery, or other vegetation between the hours of 11:00 a.m. and 7:00 p.m.

C. Water schedule and watering group assignments.

1. A responsible person must water lawn grass, a garden, a tree, shrubbery, or other vegetation in compliance with the schedule in Table 14.14.030a and the watering group assignment for the service location.

Table 14.14.030a
Water Schedule for Irrigation

Period	*Day-of-Week Watering Schedule Restrictions*
Winter (November—February)	One assigned day per week*
Spring (March—April)	Three assigned days per week*
Summer (May—August)	Any day, except Sunday
Fall (September—October)	Three assigned days per week*
*Days specified for the group by the city.	

2. A watering group assignment is based upon the service location, is assigned by the city, and is communicated by the city to each customer.

D. The following are exemptions to the time-of-day and day-of-week watering schedule restrictions:

1. Hand-watering using a hand-held container or positive shut-off nozzle for the purpose of preserving lawn grass, a garden, a tree, shrubbery, or other vegetation; and

2. Irrigating new turf or re-seeding of existing turf, for a period of 30 days from the date of planting or installation, with prior notification to the department customer care center; and

3. Irrigating newly installed lawn grass or irrigating existing lawn grass being overseeded or re-seeded, for a period of 14 days from the date of installation or date of overseeding/re-seeding, as applicable, provided the responsible person provides prior notification to the department customer care center and any overseeding/re-seeding is performed no more than twice each calendar year; and

4. Irrigating commercial nursery stock at a commercial garden or plant nursery, provided that the commercial garden or plant nursery has a valid City of Henderson business license and the licensee or their representative is personally present on the real property at the time the irrigation is taking place to monitor the irrigation operation and maintain compliance with section 14.14.025; and

5. Performing supervised testing.

E. Each responsible person shall ensure compliance with the time-of-day and day-of-week watering restrictions. The department may require that landscape water distribution facilities be modified in a manner to assure compliance with this chapter. This shall include, but not be limited to, the removal of lawn grass or other non-drought tolerant landscaping, or the addition of metered connections to the irrigation system in order to reduce the timeframes for cycling through all irrigation stations. Where additional metered connections are required, such metered connections shall comply with all requirements in title 14 of the code applicable to a new metered service.

F. A responsible person shall not use spray irrigation for any purpose other than to irrigate lawn grass.

G. In addition to or in lieu of any provisions of this section 14.14.030, the department has the right to assign to customers - and a customer, or the owner or manager of the real property receiving water service from the city, may request that the department assign - specific water budgets for any specified period of time and the department may require customers to comply with certain conditions as part of that water budget, including, but not limited to, the amount of water used during a specified period of time, the type of water that can be used, what that water can be used for, compliance with one or more provisions in this section, and automatic or other termination of the water budget. A customer, or the

owner or manager of the real property receiving water service from the city, may request that the department assign a water budget by submitting a signed application to the department on such form and in such format as the department shall require and must comply with all requirements in the department's process, such as providing all information required by the department and demonstrating that the customer made a good faith effort to comply with the requirements in this chapter and was not able to before the department assigns that customer a water budget. The department is not required to approve an application for a water budget. If the department grants an exemption, the customer must submit a signed acknowledgment agreeing to comply with all conditions in the water budget, and the department may terminate the exemption if the customer does not comply with all of those conditions. If a customer exceeds their water budget, that customer must pay for the additional volume of water used at the rate(s) in the department service rules and as outlined in this title. The customer must also pay a surcharge for any water used over the annual water budget amount.

H. Possible exemption from watering restrictions and requirements for an active/programmed recreation turf area or athletic field turf area.

1. A customer, or the owner or manager of real property, (the "applicant") may request that the department grant an exemption to the landscape watering restrictions and schedules in subsections 14.14.030.B and/or 14.14.030.C for the portion of their real property with functional turf that is either active/programmed recreation turf or athletic field turf, provided the applicant meets the following requirements (each, a "requirement"): (a) there is functional turf located on their real property that is either active/programmed recreation turf or athletic field turf; (b) there is no nonfunctional turf on that real property; (c) there are at least two acres of lawn grass within that active/programmed recreation turf area or athletic field turf area; and, (d) the applicant cannot consistently comply with all watering restrictions and sustain public use due to extraordinary public use of that area or to protect the health, safety, and well-being of the public. If the applicant meets all of the requirements, the applicant must submit a signed application to the department on such form and in such format as the department shall require. The applicant must comply with all requirements in the department's process, such as providing all information required to enable the department to evaluate the application. The department is not required to approve an application for an exemption.

2. If the department grants an exemption, the department may require the applicant to comply with certain conditions, the applicant must submit a signed acknowledgment agreeing to comply with all conditions, and - for any reason and with 14

calendar days' written notice to the applicant - the department may terminate the exemption or modify one or more of the conditions in the exemption. Conditions in an exemption may include, but are not limited to:

a. Obtaining and prominently displaying a sign(s) stating that an alternative watering schedule is in use. The city must approve the sign location(s), wording (language, font, and font size), and size.

b. Submitting to the department for approval a spring and fall watering schedule for each active/programmed recreation turf area and athletic field turf area and adhering to the approved schedule. Scheduled spring and fall watering may not exceed seven days out of 14 consecutive days.

c. Submitting to the department for approval a winter watering schedule for each active/programmed recreation turf area and athletic field turf area and adhering to the approved schedule. Scheduled winter watering may not exceed two days per week.

d. Commencing irrigation no earlier than 9:00 p.m. the day prior to the designated day in any department-approved watering schedule for the active/programmed recreation turf area and athletic field turf area.

e. Posting the watering schedule at the facility.

f. Preparing a conservation plan that maximizes outdoor water use efficiency and reduces water use (the "CP") for approval by the department, adhering to the approved plan, submitting periodic reports to the department regarding plan execution, including any gaps and process improvements that could be made, and, at the department's request, modifying that CP.

I. The landscape watering restrictions in section 14.14.030 do not apply to city operations or procedures to the extent variation from such restrictions is necessary to protect the health, safety, and well-being of the public or to preserve city property.
(Ord. No. 3905, § 13, 9-13-2022; Ord. No. 3413, § 1, 6-6-2017; Ord. No. 2909, § 1, 3-15-2011; Ord. 2798, § 5, 1-20-2009)

14.14.040 Golf courses.

A. Golf courses using or taking water within the city's corporate boundaries, whether or not that water is supplied by city, and golf course customers shall comply with all requirements in this chapter. At the department's written request, a golf course property shall provide the department documentation regarding water used for irrigation on that property.

B. Golf course properties shall be on a water budget and allocated a maximum of (1) through December 31, 2023, 6.3 acre feet of water (including potable, raw, reclaimed, and other non-potable water) for each irrigated acre, per calendar year and (2) as of January 1, 2024, 4.0 acre feet of water (including potable, raw, reclaimed, and other non-potable water) for each irrigated acre, per calendar year. To enable the city to determine the total amount of water used for irrigation on the golf course property each year, the department, in consultation with the golf course property's authorized representative, shall identify the means for achieving such determination, where such means shall involve commercially reasonable efforts, with the cost for implementation being the responsibility of the golf course. The department, in consultation with the golf course property's authorized representative, shall determine the irrigated acreage of the golf course. That irrigated acreage will include the golf course play turf, lakes and ponds then-existing within a golf course property, lakes and ponds serving, in total or in part, as a golf-course-property irrigation reservoir, and other outdoor areas on the golf course property that are landscaped, irrigated with an irrigation delivery system, and are not occupied by a structure, walkway, roadway, curb, gutter, pavement, or parking lot. The city may periodically review the area comprising the irrigated acreage at a particular golf course.

C. If a golf course property contests the calculated irrigated acreage determined by the department, the golf course property may provide calculations supported by other methods acceptable to the department. The golf course property may hire an independent consultant, not affiliated with the golf course property, to calculate the irrigated acreage. In any case, however, the department shall make the final determination of the irrigated areas and the irrigated acreage for the golf course property.

D. A golf course property is limited to the total square feet of the golf course play turf area that existed as of September 19, 2022 and shall not increase the golf course play turf area.

E. Exemptions for golf courses.

1. Budgeted water apportionments may be used on the golf course property to syringe golf course greens without time-of-day or day-of-week restrictions, provided (a)(1) one station at a time is run manually or (2) on large irrigation projects, stations are run using hand-held remote irrigation controllers or computerized central controls, and the individual operating the spray irrigation is present to monitor their operation and (b) water does not flow onto, spray onto, pool on, or run off onto a walkway, bike path, pavement, gutter, street, or drain.

2. Budgeted water apportionments may be used on the golf course property to spray irrigate the golf course play turf without time-of-day or day-of-week restrictions, provided (a) the golf course property and/or golf course customer, as applicable, are in compliance with any and all applicable reclaimed water management plans (formerly referred to as effluent management plans) and reclaimed water use

agreements and (b) water does not flow onto, spray onto, pool on, or run off onto a walkway, bike path, pavement, gutter, street, or drain. The foregoing exemption does not apply to other lawn grass or to other landscaped areas within the golf course property.

3. If a golf course property wishes to re-seed or overseed all or a portion of the golf course play turf, the golf course property must stay within its budgeted water apportionment.

F. If a golf course property exceeds their water budget, that customer must pay for the additional volume of water used at the rate(s) in the department service rules and as outlined in this title. The golf course property must also pay a surcharge for any water used over the annual water budget amount.

G. The city will not serve and a responsible person shall not use potable, reclaimed, or raw water provided by the city for a golf course that was not in existence as of September 19, 2022.

(Ord. No. 3946, § 1, 3-7-2023; Ord. No. 3905, § 14, 9-13-2022; Ord. No. 2909, § 1, 3-15-2011; Ord. 2798, § 5, 1-20-2009)

14.14.050 Landscape material restrictions.

A. As of September 19, 2022, lawn grass is prohibited in any newly-developed property in the city's corporate boundaries and any newly-developed property that is provided any utility service unless that lawn grass (1) is for a public park, a homeowner association-owned or -managed park approved as a park through the city's development process, a public school, a private school, or a cemetery and (2) is functional turf. The foregoing restrictions take precedence over any exception that allows lawn grass in subsection 14.14.050.B and subsection 14.14.050.C.

B. Lawn grass is prohibited on all non-residential properties in the city's corporate boundaries and on all non-residential properties that are provided any utility service unless that lawn grass is functional turf. If nonfunctional turf has been installed on such a non-residential property, the owner of the non-residential property has until December 31, 2026 to remove that nonfunctional turf.

C. The following landscape material restrictions apply to residential properties in the city's corporate boundaries and to residential properties that are provided any utility services:

1. As of January 1, 2004, lawn grass is prohibited in the front yard of a residential property with a detached single-family residential dwelling unit unless lawn grass was installed in that front yard on or before December 31, 2003. If lawn grass was installed in the front yard on or before December 31, 2003, and on or after January

1, 2004 some or all of that lawn grass is removed or is dead, lawn grass is prohibited and cannot be replaced (or re-seeded) in the front yard except in the areas where the lawn grass was originally installed and, in compliance with subsection 14.14.050.G, and that lawn grass is replaced within one year of being removed and/or is re-seeded within one year, as applicable.

2. At any residential property with a detached single-family residential dwelling unit for which a building permit for an occupied structure was issued before September 19, 2022, lawn grass is prohibited in the rear yard, in the courtyard(s), and in the side yards unless all of the following conditions are met: (a) the lawn grass area does not exceed 50 percent of the gross area of the rear yard, courtyard, and side yard areas (collectively, the "yard area") or 100 square feet, whichever is greater; (b) no lawn grass area dimension is less than ten feet; (c) the slope of the lawn grass area is less than 25 percent; and (d) the lawn grass area is graded to prevent runoff except in and to the designated drainage area(s). Based on these restrictions, it is possible that lawn grass cannot be installed in a rear yard, courtyard, and/or side yard.

3. At any residential property with a detached single-unit dwelling for which a building permit for an occupied structure was issued before September 19, 2022 and provided that the property meets all applicable requirements in subsection 14.14.050, (a) as to any lawn grass installed on the property before September 19, 2022, the total lawn grass installed on the property shall not exceed 5,000 square feet, (b) if the total lawn grass installed on the property before September 19, 2022 is greater than 2,500 square feet, additional lawn grass shall not be installed on the property, and (c) if the total lawn grass installed on the property before September 19, 2022 is less than 2,500 square feet, additional lawn grass may be installed on the property up to a maximum of 2,500 square feet of lawn grass in total on the property. At any residential property with a detached single-unit dwelling for which a building permit for an occupied structure was issued on or after September 19, 2022, consistent with subsection 14.14.050.A, lawn grass is prohibited on the property.

4. At any multifamily and single-family attached residential property in the city's corporate boundaries and at any multi-family and single-family attached residential property that is provided any utility service, lawn grass is prohibited unless it is resident area turf and is functional turf. If nonfunctional turf has been installed on such a residential property, the owner of the residential property has until December 31, 2026 to remove nonfunctional turf.

D. As of December 9, 2020, if property is located in the out of valley area, then lawn grass may only be installed in a public park, a homeowner association-owned or -managed park approved as a park through the city's development process, a public school, or a private school and that lawn grass must be functional turf. However, the restrictions in the immediately preceding sentence do not apply to a property that, on December 9, 2020, (1)

is in the city's corporate boundary and (2) is either (a) in a residential development or within residential zoning, or (b) subject to an approved developer-initiated master plan that includes residential properties. All lawn grass installations in the out of valley area must be in compliance with all applicable requirements in this chapter 14.14.

E. Use of drought-tolerant landscaping in any landscaped area is encouraged. Other than in the yard area at a residential property with a detached single-family residential dwelling unit for which a building permit for an occupied structure was issued before September 19, 2022, drought-tolerant landscaping shall not be removed from a property for the purpose of installing lawn grass.

F. Any person(s) or association(s) regardless of date of establishment is prohibited from imposing private covenants, conditions, restrictions, deed clauses or other agreements between the parties that require the installation of lawn grass, prevent the removal of lawn grass or prevent the use of drought-tolerant landscaping. In addition, such person(s) and association(s) may not prohibit landscaping materials and designs solely on the basis that they make use of drought-tolerant landscaping.

G. In the instance where lawn grass is originally installed in an area in conformance with the code, all or a portion of the lawn grass in that area is dead, and lawn grass would otherwise be prohibited in that area by a provision in section 14.14.050, the lawn grass that is dead may be replaced with lawn grass or re-seeded only if such replacement or re-seeding occurs within one year of that lawn grass being dead. After that one-year period ends, replacement or re-seeding of that dead lawn grass is prohibited and lawn grass is no longer allowed in that area. For the purposes of determining the one-year period for re-seeding or replacement, such determination shall be at the sole discretion of the department.

H. As used in chapter 14.14:

1. "Building permit for an occupied structure" means a building permit to newly construct a structure that will be occupied after passing a building final inspection.

2. "Courtyard" means an area on a residential property with a detached single-family residential dwelling unit that is open to the sky, is not part of the habitable structure, is unobstructed by a structure from the ground upward, and is not the front yard, side yard, or rear yard. An area is still a courtyard even if covered by a shade structure.

3. "Drought-tolerant landscaping" means a plant that that can be adapted to the desert environment in the Southern Nevada area because it is tolerant of heat, cold and wind, water efficient, low-maintenance, noninvasive, pest and disease resistant, and can survive using (at most) only low-volume, drip irrigation. Examples of drought-tolerant landscaping can be found in the Water Smart Landscapes Program Plant List, as amended, developed by SNWA and Southern Nevada Regional Planning Coalition and are generally identified as "bulletproof" on that list.

4. "Front yard" means the yard area extending along the entire length of the front property line and the depth between the street right-of-way line and the front façade or façades of the primary structure of a detached single-family residential dwelling unit.

5. "Newly-developed property" means non-residential property or residential property that is being developed through the construction of a residential, commercial, or

industrial structure(s) and that property either was not previously developed or is being redeveloped (i.e. a majority of the structure(s) is being removed or was otherwise destroyed and is being replaced with new construction).

6. "Non-residential property" means a parcel of real property that does not meet the definition of residential property.

7. "Rear yard" means the yard area extending along the entire length of the rear property line and the depth between the rear property line and the rear façade or façades of the primary structure of a detached single-family residential dwelling unit.

8. "Residential property" means a parcel of real property on which a multi-family residential unit (such as apartment building), an attached single-family residential dwelling unit (such as a townhouse or condominium), or a detached single-family residential dwelling unit has been constructed.

9. "Side yard" means the yard area extending from the front yard to the rear yard and between the side property line and the primary structure of a detached single-family residential dwelling unit.

I. If all or a portion of lawn grass originally installed on or before December 31, 2026 does not meet the definition of functional turf, the responsible person may apply to SNWA for a waiver of a prohibition in subsection 14.14.050.B. By electronic mail, mail, or other delivery method specified by the department and by the deadline identified by the department, the responsible person shall provide the department: (1) a copy of that waiver application and documentation that shows the application was submitted to SNWA; (2) an update(s) regarding the status of the application; (3) a copy of SNWA's decision on the waiver application and any waiver granted by SNWA; (4) an update(s) regarding the status of any appeal of SNWA's decision on the waiver application; and, (5) a copy of the decision regarding any appeal. The foregoing waiver process does not apply to a residential property with a detached single-family residential dwelling unit. Except for a waiver granted by the SNWA that allows lawn grass where all or a portion of that lawn grass does not meet the definition of functional turf, there shall be no waivers, exemptions, or variances granted to the standards listed in this section 14.14.050 and any such request shall be considered a request to amend the requirements of this section.

(Ord. No. 3905, § 15, 9-13-2022; Ord. 2798, § 5, 1-20-2009; Ord. No. 2951, § 3, 12-20-2011)

14.14.060 Mist systems.

A. A mist cooling system on real property in the city's corporate boundaries or on real property to which the city provides water service may only operate March 1 through October 31. In addition, a mist cooling system at a commercial property on such real property may only operate during hours in which the business is open to the public.

B. Operation of a mist cooling system for animal safety is not restricted.

(Ord. No. 3905, § 16, 9-13-2022; Ord. No. 3413, § 2, 6-6-2017; Ord. 2798, § 5, 1-20-2009)

14.14.070 Restrictions on surface, building, equipment, and vehicle washing; splash pads.

A. *Surface, building, and equipment washing.*

1. Surface, building, and equipment washing (excluding motor vehicles) at a non-residential property in the city's corporate boundaries and on real property to which the city provides water service is prohibited unless (a) the water is contained on site (i.e. does not flow off that property) or is discharged to a municipal sewer system that has the ability to treat and discharge that treated water to Lake Mead (the "MSS") through approved methods as determined by the city and (b) there is no violation of any other applicable code requirement, such as a requirement in title 13 of the Code.

A responsible person shall not perform surface or building washing more often than once each calendar month other than to remediate a condition on the property for the protection of public health, safety, or welfare. If the responsible person is remediating a condition, then that responsible person must provide the city documentation of that condition, at the department's request.

2. If a person performs surface, building, or equipment washing (including motor vehicles) at a residential property in the city's corporate boundaries or on residential property to which the city provides water service, that person must use a positive shut-off nozzle and comply with any other applicable code requirements, such as those in title 13 of the code.

B. *Vehicle washing.*

1. Washing a non-commercial vehicle at a residential property in the city's corporate boundaries or on real property to which the city provides water service is limited to one day per week with the use of a positive shut-off nozzle.

2. A commercial vehicle may only be washed at a commercial facility (including a commercial car wash business) where water is contained on site or discharged to the MSS through approved methods, as determined by the city, and a high-pressure, low volume sprayer (or spray system) is used.

3. A commercial car wash business (including mobile and stationary operations) with a valid City of Henderson business license may wash commercial and non-commercial vehicles and must use a high-pressure, low volume sprayer (or spray system) that uses less than ten gallons of water per vehicle.

4. Charitable car washes performed by a nonprofit group, charity fund raiser, or school group are permissible only when:

a. High-pressure, low volume sprayers (or spray systems) are used; and

b. Less than ten gallons of water per vehicle is used; and

c. Any other applicable code requirements, such as those in title 13, are complied with.

C. *Splash pads.*

1. A splash pad installed or modified after January 1, 2023, may only be operated if it meets the following requirements:

a. The splash pad is designed and operated in a manner that prevents surface water run-on from the area adjacent to and surrounding the splash pad from entering the MSS; and

b. The majority of the water dispersed in connection with operation of the splash pad is discharged into the MSS through an approved method (as determined by the city); and

c. In compliance with any applicable requirement in title 13 and any other applicable code requirement, any other water, including surface water run-on from the area adjacent to and surrounding the splash pad, is diverted to the storm drain system; and

d. The splash pad automatically shuts off after five minutes; and

e. When the splash pad is not in use, the splash pad drainage area is covered to prevent stormwater and other substances from entering the MSS; and

f. The splash pad is located in any of the following: a public park, a recreational water park, a homeowner association-owned or -managed property, a residential property (provided the splash pad is not located in the front yard), a school, a daycare, a recreation center, a senior center, a mixed-use development, a government facility, or a religious institution; and

g. The method used to discharge splash pad water to the MSS is regularly maintained and replaced as necessary to maintain operational efficiency and pollutants (defined in section 14.09.010) are not discharged to the MSS through that connection.

2. As used in chapter 14.14, "splash pad" means an outdoor water play area intended for human contact that has potable water typically dispersed by sprinklers, fountains, nozzles, or other devices that spray, mist, or dump that water and that diverts

the dispersed water through an approved method (as determined by the city) into the MSS so that the play area is continuously drained and, as a result, has little or no standing water.

(Ord. No. 4062, § 1, 3-4-2025; Ord. No. 3905, § 17, 9-13-2022; Ord. No. 3413, § 3, 6-6-2017; Ord. 2798, § 5, 1-20-2009)

Editor's note—Ord. No. 3905, § 17, adopted September 13, 2022, changed the title of section 14.14.070 from "Other outdoor water use standards" to "Restrictions on surface, building, equipment, and vehicle washing; splash pads." The historical notation has been preserved for reference purposes.

14.14.080 Water features.

A. A water feature is prohibited on real property in the city's corporate boundaries and on real property to which the city provides water service, unless an exemption in subsection 14.14.080.B applies.

B. The following water features are exempted from the prohibition in subsection 14.14.080.A:

1. Swimming pools, spas, and hot tubs, provided, as to any residential property with an attached or a detached single-family residential dwelling unit:

a. The swimming pool, spa, and/or hot tub is not located in the front yard; and

b. For any swimming pool, spa, and hot tub issued a permit for construction by the city on or after September 19, 2022, the combined water surface area of the swimming pool, spa, and hot tub does not exceed 600 square feet of surface area of water; and

c. For any swimming pool, spa, and hot tub issued a permit for construction by the city before September 19, 2022, the combined water surface area of the swimming pool, spa and hot tub cannot be increased beyond the surface area of water in the permit originally approved or beyond 600 square feet, whichever is greater; and

d. There is at most one swimming pool and one spa or hot tub on that property.

2. A water feature that is necessary and/or a functional component serving at least one of the following uses:

a. An irrigation reservoir for a golf course; or

b. An engineered component of a heat exchanger for a cooling system.

3. A water feature within a climate-controlled, enclosed structure.

4. Not including a swimming pool, spa, or hot tub, a single water feature of not more than 25 square feet of surface area of water upon a residential property with an attached or a detached single-family residential dwelling unit. Regardless of depth,

a lazy river may be a separate water feature or be part of the swimming pool, spa, or hot tub. As used in chapter 14.14, "lazy river" means a channeled flow of water of near-constant depth in which the water is moved by pumps or other means of propulsion to provide a riverlike flow and is usually found in water parks, hotels, resorts, and recreation centers.

5. Not including a swimming pool, spa, or hot tub, a single water feature of not more than 25 square feet of surface area of water within a common area of a residential property with a multi-family residential unit, provided that the feature is not located at an entryway to the property.

6. A water feature that was installed and operating prior to June 9, 2017 or approved or otherwise authorized by the city in a contract with the city in accordance with title 19 of the Code prior to June 9, 2017.

7. A lazy river in a recreational water park.

8. Interactive water play features in a city-operated pool or in a privately owned and maintained pool that is open for general community use.

9. A splash pad.

C. For purposes of calculating the square feet of surface area of water, the square feet of the surface over which water continuously flows or falls, or is designed to continuously flow or fall, shall be included in the calculation of the surface area.

D. As used in chapter 14.14, "water feature" means any artificially constructed or installed stream, lazy river, fountain, waterfall, reflective pool, pond, lake, body of water, waterfall, swimming pool, spa, hot tub, or other artificially constructed or installed feature using water that is located outdoors that:

1. Contains water that flows, is recirculated, or is sprayed into the air; and

2. Was constructed or is used, in whole or in part, for recreational, cooling-off, decorative, scenic, aesthetic, or landscape purposes.

(Ord. No. 3905, § 18, 9-13-2022)

Editor's note—Ord. No. 3905, § 18, adopted September 13, 2022, amended section 14.14.080—14.14.110 in their entirety to read as herein set out. Formerly, sections 14.14.080—14.14.110 pertained to conservation rates, fees, and penalties, manmade decorative water features, pool and hot tub draining, and violations, respectively, and derived from Ord. No. 2798, § 5, adopted January 20, 2009; Ord. No. 2909, § 1, adopted March 15, 2011; Ord. No. 3020, § 1, adopted June 11, 2013, and Ord. No. 3413, §§ 4—6, adopted June 6, 2017.

14.14.090 Swimming pool, spa, and hot tub draining.

A. When submitting an application for a swimming pool or spa permit, the applicant must show an onsite sewer lateral cleanout on the plans and that cleanout must be constructed. Except as otherwise provided in subsection B of this section 14.14.090, swimming pool, spa, or hot tub water shall only be discharged into the MSS through a private connection such as a sewer lateral cleanout, sink, toilet, or bathtub.

B. Exemptions.

1. Real property that is on a septic system may drain water from a swimming pool, spa, or hot tub into the storm drain system, provided the water is dechlorinated, prior notification has been given to the department's customer care center, and such discharge is permitted by and performed in compliance with title 13 of the Code.

2. Where there is limited hydraulic capacity in the MSS, real property that is provided wastewater service by the city may drain water from a swimming pool, spa, or hot tub into the storm drain system, provided the water is dechlorinated, such discharge is allowed by and performed in compliance with title 13 of the Code, and such discharge is authorized by the department.

(Ord. No. 3905, § 19, 9-13-2022)

Note—See editor's note at section 14.14.080.

14.14.100 Recreational water park.

A. Any recreational water park that is on real property to which the city provides water service or on real property in the city's corporate boundaries and that, after September 19, 2022, changes a use at the recreational water park in relation to water used that requires a city-issued permit, license, or other city authorization must comply with the following:

1. The recreational water park must submit to the department a water efficiency plan for review within three months of receiving City's approval of that use change, and, at least once annually thereafter, review its water efficiency plan and, as soon as practicable after its review is completed but not later than December 31 of each year, submit the results of its review and any additions or modifications to its water efficiency plan to the department, and incorporate any changes identified by the department into the water efficiency plan. The department must approve the original plan and any additions or modifications. The recreational water park must implement the approved water efficiency plan.

2. The recreational water park must mitigate water use and, subject to the department's approval, identify methods to mitigate water use in their water efficiency plan. Methods to mitigate water use may include one or more of the following:

a. Installing and maintaining drought-tolerant landscaping, instead of lawn grass, in the landscaped areas of the recreational water park; and

b. Instituting measures to prevent water loss at water play areas at the recreational water park.

B. As used in chapter 14.14:

1. "Recreational water park" means a commercial amusement park with any combination of water play areas intended for human contact such as pools, water slides, splash pads, lazy rivers, artificial surfing, artificial bodyboarding, and/or water playgrounds, as well as areas for floating, wading, or swimming.

2. "Water efficiency plan" means a comprehensive plan conforming to department guidelines that contains information related to a development's consumptive and non-consumptive water demand projections. The plan may include a summary of indoor and outdoor water uses, a description of water fixtures and appliances, cooling systems, misting systems and other water dependent applications, a summary of efficiency measures proposed on site, and methods to mitigate water use.

(Ord. No. 3905, § 20, 9-13-2022)

Note—See editor's note at section 14.14.080.

14.14.110 Artificial lakes.

A. As of September 19, 2022, an artificial lake is prohibited on real property in the city's corporate boundaries and on real property to which the city provides water service, unless an exemption in subsection 14.14.110.B applies.

B. The following are exempted from the prohibition in subsection 14.14.110.A:

1. An artificial lake that was installed and operating prior to June 9, 2017.

2. An artificial lake that was approved or otherwise authorized by the city in a contract with city in accordance with title 19 of the Code prior to June 9, 2017.

3. An artificial lake located on a golf course that is used for the purpose of storing irrigation water for the irrigated acreage at the golf course in conformance with section 14.14.040.

C. As used in chapter 14.14, "artificial lake" means an outdoor body of water that is artificially constructed or installed, is privately owned, is used in whole or in part for a recreational, scenic, aesthetic, or landscape purpose, and is filled, or refilled, with potable water or non-potable water from any source, including lakes, ponds, lagoons, and reservoirs but excluding tank-type reservoirs that are fully enclosed and contained. The term "artificial lake" does not include a water feature or a recreational water park.

(Ord. No. 3905, § 21, 9-13-2022)

Note—See editor's note at section 14.14.080.

14.14.120 Drought emergency.

A. The department is authorized to draft, modify, implement, and enforce a drought response plan. The department shall make that drought response plan publicly available on the city's website.

B. All responsible persons shall comply with the requirements in that drought response plan.

C. As used in chapter 14.14, "drought response plan" means a plan to mitigate the impacts of drought or low Lake Mead water level conditions by requiring customers to reduce, limit, or curtail their demand for and use of city-supplied water generally or through specific types of action (such as not filling a water feature), by prioritizing uses by different customers, and by prohibiting water use.
(Ord. No. 3905, § 22, 9-13-2022)

14.14.130 Water use restriction in deed or other written instrument recorded against real property.

An owner, and any lessee, renter, or occupant, of real property shall comply with all restrictions in a deed or other written instrument that limits, restricts, prohibits, or prescribes particular water use or landscaping materials at that real property, provided that the deed or other written instrument containing the restriction(s) is recorded against that real property in the office of the county recorder of Clark County, Nevada.
(Ord. No. 3905, § 23, 9-13-2022)

14.14.140 Violations.

Any person who commits an act or refuses to correct a condition that is not in compliance with a requirement in this chapter as set forth in any section above, and any responsible person who violates this chapter as set forth below, is subject to discontinuance of service, subject to any penalties and charges assessed in accordance with this title and/or department service rules, and subject to all compliance procedures as prescribed within this title. It is a violation of this chapter for a responsible person to commit water waste and/or allow water waste to occur on real property that the responsible person controls, has a property interest in or maintains by:

A. Allowing the loss, escape, or excess use of water through a break, leak or other malfunction in the water distribution facilities on the real property for any period of time after such escape of water should have been reasonably discovered as determined by the department.

B. Failing to repair a break, leak, or other malfunction in the water distribution facilities on the real property within 120 hours of knowing, or being notified, of the malfunction or by the deadline set by the city, whichever date is later.

C. Allowing water from a water distribution facility, tank, or water feature on the real property water to flow onto, spray onto, pool on, or run off onto (1) non-irrigated or non-landscaped areas on the real property, (2) adjacent real property, or (3) private or public walkways, roadways, pavement, gutters, alleys, parking lots, or structures.

D. Allowing water from a tank or water feature on the real property to pool on an irrigated or landscaped area on the real property.

E. Watering lawn grass, a garden, a tree, shrubbery, or other vegetation at a time prohibited unless an exemption in section 14.14.030 or section 14.14.040 applies.

F. Watering lawn grass, a garden, a tree, shrubbery, or other vegetation on a day that is not a day in the watering group assignment for the real property or service location unless an exemption in section 14.14.030 or section 14.14.040 applies.

G. Using spray irrigation for any purpose other than to irrigate lawn grass.

H. Failing to comply with a requirement in a water budget.

I. Using landscaping materials other than as allowed in section 14.14.050 and/or imposing landscaping requirements that do not comply with the requirements in section 14.14.050.

J. Using a mist cooling system at a time or on a day other than as allowed in section 14.14.060.

K. Using water to perform surface, building, equipment, or vehicle washing other than as allowed in section 14.14.070.

L. Failing to operate a splash pad installed or modified after January 1, 2023 in compliance with section 14.14.070.

M. Having a water feature unless an exemption in subsection 14.14.080.B applies.

N. Draining or emptying any water from a swimming pool, spa, or hot tub water into any component of the storm drain system other than as allowed in section 14.14.090.

O. Failing, as a recreational water park, to comply with the requirements in section 14.14.100.

P. Having an artificial lake unless an exemption in subsection 14.14.110.B applies.

Q. Failing to comply with a requirement in the drought response plan.

R. Failing to comply with a restriction in a deed or other written instrument that limits, restricts, prohibits, or prescribes particular water use or landscaping materials on

real property, provided that the deed or other written instrument containing the restriction(s) is recorded against that real property in the Office of the County Recorder of Clark County, Nevada.

(Ord. No. 3905, § 24, 9-13-2022)

Chapter 14.16 REFUNDING REGULATIONS

Sections:

14.16.010 General provisions.
14.16.020 Cost for infrastructure.
14.16.030 Construction specifications.
14.16.040 Standard refunding.
14.16.050 Special refunding.
14.16.060 Violations.

14.16.010 General provisions.

A. *Purpose and policy.* This chapter sets forth responsibility, authority, and provisions to provide a mechanism for the orderly development of the utility system through refunding of costs associated with the design and construction of utility infrastructure.

B. *Scope.* The provisions of this chapter shall apply to all residents of the city, a responsible party operating, maintaining, repairing, relocating, removing, and/or disconnecting the public water system and/or publicly owned treatment works, and/or users of city-provided utilities.

C. *Administration.* Except as otherwise provided herein, the director shall administer, implement, and enforce the provisions of this chapter. Any powers granted or duties imposed upon the director may be delegated by the director to persons acting in the beneficial interest of the city.

D. *Compliance.* All provisions of this chapter are subject to compliance procedures as outlined in this title and the department service rules.
(Ord. 2676, § 11 (part), 2008; Ord. 2536, § 84, 2006)

14.16.020 Cost for infrastructure.

The cost to design and construct any water, sewer, and/or reclaimed infrastructure required in connection with the extension of the public utility system to serve the customer shall be advanced by the customer requesting such service.
(Ord. 2536, § 85, 2006)

14.16.030 Construction specifications.

All utility extensions, facilities and/or infrastructure to be constructed by the customer shall conform to adopted standards.
(Ord. 2536, § 86, 2006)

14.16.040 Standard refunding.

A. *Standard refunding agreements.*

1. The city may enter into an agreement which provides for repayment of a portion of the cost of the main extension lying between the original point of supply and the customer's property from main frontage fees collected from other properties frontage to the main extension covered by such agreement during the term provided in the agreement or until the amount advanced by the customer has been satisfied, as determined in accordance with the provisions of this title and/or the department's service rules.

2. The following items may be eligible for standard refunding:

a. Water, sewer, and reclaimed water main extensions to a project;

b. Water, sewer, and reclaimed water main extensions adjacent to a project; and/or

c. Water, sewer, and reclaimed water mains replacing existing mains.

3. The period during which refunds are due shall be 20 years, commencing on the date when the infrastructure covered by the agreement is completed, tested, and accepted by the city.

4. Construction shall be deemed to be complete when the utility infrastructure is constructed according to the approved plans and satisfies all applicable testing and acceptance criteria.

5. The city council shall grant the director the authority to enter into and execute any standard refunding agreement in which the city is not a participant. Should the city be a participant in a standard refunding agreement, such agreement must be approved according to city standard operating procedures and policies.

B. *Standard refunding conditions.*

1. Application for standard refunding agreement shall be submitted to the department in writing accompanied by documentation as required by the city from customer(s) constructing such infrastructure covered by the agreement. This application shall be submitted within 90 days of date of acceptance by the city of the infrastructure to be covered by such agreement.

2. All customers entering into any refunding agreement with the city shall pay all fees as outlined in this title and/or the department service rules. These fees are due and payable at the time of the execution of the agreement.

3. Customers may be eligible for a refund of main frontage fees collected by the city from other properties in accordance with this title.

4. All standard refunding calculations shall be rounded to the nearest foot and shall be assessed based on the frontage of the applicant's property, as indicated by the most current data in the Clark County assessor office records, adjacent to the right-of-way or easement where the existing water, sewer, or reclaimed water main is located in accordance with this title and/or the department's service rules.

5. After execution of a valid standard refunding agreement, all main frontage fees collected in accordance with this title and/or department service rules shall be paid within 60 days from the date of collection.

6. In the event any expense is incurred by the city within a period of one year after acceptance of the infrastructure installed by the customer covered by a standard refunding agreement due to defective materials or workmanship the amount of such expense shall be deducted from any refund(s) that may become due to the customer thereafter.

(Ord. 2536, § 87, 2006)

14.16.050 Special refunding.

A. *Special refunding agreements.*

1. The city may enter into a special refunding agreement which provides for repayment of a portion of the cost of that backbone infrastructure lying between the original point of supply and the customer's property from special refunding fees to be collected by the city from other customers obtaining direct or indirect service from the backbone infrastructure during the term provided in the special refunding agreement, pursuant to this title, or until the proportional cost of design and construction advanced by the customer has been repaid, whichever is earlier.

2. Any special refunding agreement entered into by the city must be based upon a refunding report completed in accordance with the department service rules and adopted by the city council.

3. The term of any special refunding agreement shall be 20 years, which will commence on the date the infrastructure covered by the special refunding agreement is completed, tested and accepted by the city.

4. Application for special refunding agreement shall be submitted to the director in writing accompanied by documentation as required by the city within 90 days of the date of acceptance of the pre-design report by the city for the infrastructure to be covered by such agreement. All final costs are subject to verification by the city.

5. The amount subject to repayment under a special refunding agreement shall be the amount of the actual cost of the work as verified by the city. The final cost of the

work shall be the basis for the determination and calculation of refunds under the special refunding agreement. Final costs that are eligible for inclusion in the special refunding agreement are:

a. Actual construction costs (including administration and safety and traffic control measures);

b. Design engineering costs and inspection costs not to exceed an aggregate 15 percent of item 5 of this section;

c. Permits and fees;

d. Performance and related bond costs to the extent not included in item 5 of this section;

e. Actual financing costs related to subsections (A)(5)(a) through (A)(5)(d) of this section. Said financing costs shall be computed through the date of final acceptance of the backbone infrastructure by the city; and

f. All fees and expenses reasonably incurred concerning the preparation of the special refunding agreement shall be added to the refunding amount.

6. Construction shall be deemed to be complete when the utility infrastructure is constructed according to the approved plans and satisfies all applicable testing and approval criteria.

B. *Special refunding conditions.*

1. Customers entering into any special refunding agreement with the city shall pay all fees as outlined in this title and/or the department service rules. These fees are due and payable upon execution of the agreement.

2. After execution of a valid special refunding agreement, special refunding fees collected in accordance with this title and/or department service rules shall be paid to the customer within 30 days from the last business day of the quarter in which such fees were collected and will be issued in accordance to the procedures outlined in the department service rules.

3. Special refunding fees collected by the city shall be computed as follows:

a. As to the portion of cost attributable to the holder of the special refunding agreement, advances shall be accrued quarterly with interest equal to one-fourth the prime rate plus two percentage points with a maximum of ten percent per year. The prime rate that is published in the Wall Street Journal or a similar publication approved by the city's finance director for utilization in the refunding report and being the prime rate published at the last business day of each calendar quarter for the subsequent quarter.

b. As to the portion of cost attributable to city, advances shall be accrued quarterly with interest equal to one-fourth the Merrill Lynch Bond Index for tax-exempt 30-year A-rated revenue bonds as printed in the Wall Street Journal or a similar publication approved by the city's finance director for utilization in the refunding report with a maximum of ten percent per year. The rate shall be based upon the index rate published the last business day of each calendar quarter for the subsequent quarter.

c. The amount that makes up the actual final cost of work shall be depreciated annually over 40 years using the straight-line method of depreciation or such time line as recommended and approved in the refunding report. The net book value of the infrastructure shall become the base for purposes of calculating amounts to be refunded and of computing the addition of accrued interest.

4. Special refunding fees, as allocated in the refunding report to a customer, will only be made for utility infrastructure that service areas not only of the customers but areas designated in the approved refunding report.

5. Special refunding fees will be made from fees collected from other customers or the city whose properties are served by the backbone infrastructure and paid prior to final issuance of a certificate of occupancy.

6. In the event two or more customers have designed the same backbone infrastructure, those eligible costs, or an applicable portion thereof, paid by the customer who has submitted a performance bond to the city for construction of the relevant system or facility and has completed said construction shall be refunded.

7. In the event any expense is incurred by the city within a period of one year after acceptance of the infrastructure installed by the customer covered by a special refunding agreement due to defective materials or workmanship on, the amount of such expense shall be deducted from any refund(s) that may become due to the customer thereafter.

(Ord. 2676, § 11 (part), 2008; Ord. 2536, § 88, 2006)

14.16.060 Violations.

Any person who fails or refuses to comply with any provision of this chapter or department's service rules or who provides false information to the city shall be deemed to be in violation of this title and shall be subject to discontinuance of service; subject to any penalties and charges assessed in accordance with this title and/or department's service rules; and subject to all compliance procedures as prescribed within this title.

(Ord. 2536, § 89, 2006)

Chapter 14.17 BILLING REGULATIONS

Sections:

14.17.010 General provisions.
14.17.020 Establishment of service.
14.17.030 Discontinuance of service.
14.17.040 Meter readings and registration.
14.17.050 Billing periods.
14.17.060 Delinquent bills.
14.17.070 Billing adjustments.
14.17.080 Violations.

14.17.010 General provisions.

A. *Purpose and policy.* This chapter sets forth responsibility, authority, and provisions to ensure compliance with all federal, state, and local requirements for the protection of public health, safety and welfare.

B. *Scope.* The provisions of this chapter shall apply to all residents of the city, a responsible party operating, maintaining, repairing, relocating, removing, and/or disconnecting the public water system and/or publicly owned treatment works, and/or users of city-provided utilities.

C. *Administration.* Except as otherwise provided herein, the director shall administer, implement, and enforce the provisions of this chapter. Any powers granted or duties imposed upon the director may be delegated by the director to persons acting in the beneficial interest of the city.

D. *Compliance.* All provisions of this chapter are subject to compliance procedures as outlined in this title and the department service rules.
(Ord. 2676, § 12, 2008; Ord. 2536, § 91, 2006)

14.17.020 Establishment of service.

A. *Applications for service.*

1. The property owner or owner's representative shall make application to the department and obtain approval from the city prior to connection to or use of a permanent and/or temporary service. The applicant shall agree to pay for all services used and to abide by all rules and regulations of the city, this title, and the department service rules. Applications for temporary service shall be renewed on an annual basis.

2. The city reserves the right to refuse any request for utility service from any applicant for any of the following reasons:

a. An account in their name at the same or any other location is delinquent;

b. The applicant fails to provide any and all requested information;

c. When the department determines that the purpose of the request is to circumvent discontinuance of service in another name because of non-payment of bill(s), fees, fines, reimbursements or other charges owed to the utility or other violations of the regulations; and/or

d. When the department determines that the applicant has failed to comply with any provisions of this title.

3. A single customer shall be responsible for payment of utility bills for each service connection. When more than one building or parcel of land is served by a single service connection, a single customer must be responsible for payment of the utility bill.

4. The city is not responsible for damage to customer's property and/or piping due to activation of service. Customer shall ensure piping is in good repair and that all interior and exterior fixtures are in the "off" position prior to requesting activation of water service.

(Ord. No. 3023, § 1, 6-11-2013; Ord. 2536, § 92, 2006)

14.17.030 Discontinuance of service.

A. A customer desiring to discontinue service shall provide advance notice to the department and provide a mailing address to which the closing bill shall be mailed. Service and charges will cease as of the discontinuance date provided.

B. Failure to notify the department of discontinuance of service shall not relieve the customer of responsibility for payment of any existing billings, or any charges due prior to notifying the department.

C. The city reserves the right to discontinue service if there is running and/or leaking water on the customer's property during service activation.

(Ord. No. 3023, § 1, 6-11-2013; Ord. 2536, § 93, 2006)

14.17.040 Meter readings and registration.

A. Meters shall be read monthly or as reasonably possible.

B. Customers are responsible for payment of all water that passes through the meter, regardless of whether such water was put to beneficial use.

C. Should a meter be inaccessible at the time of regular reading time, or should it be found to be stuck or damaged so that a reading cannot be obtained, or in cases of emergency as the city deems necessary, the city reserves the right to estimate the water consumption for the billing period and to compute the charges on the basis of the estimated consumption. Should the city determine that a succeeding reading indicates a material error in the estimated reading, an appropriate adjustment shall be made.

D. Meter accuracy shall be maintained to the fullest extent practicable for any meter installed within the city's service area. If there is a dispute, the city may test the meter using the procedures identified in department service rules.

E. At the customer's request, a meter testing fee as outlined in the department service rules will be charged to the customer and the meter will be tested. If the meter is found to register more or less than the actual water flow, the city will, as reasonably practical, make the appropriate billing adjustment. Additionally, if the meter is found to register more than the actual water flow, the meter testing fee will be returned to the customer.
(Ord. 2536, § 94, 2006)

14.17.050 Billing periods.

A. The city shall establish regular billing periods subject to adjustment at the city's discretion.

B. Failure to receive or accept a bill does not relieve a customer of liability for payment of such bill.

C. If any opening or closing bill is for a period other than the regular billing period, the basic monthly service charge shall be prorated based on the actual number of days in the billing period.
(Ord. 2536, § 95, 2006)

14.17.060 Delinquent bills.

A. Bills shall be due and payable upon the applicable due date. When any bill becomes delinquent, the city may discontinue utility service pursuant to notification and termination procedures. Utility service may not be re-established until the delinquent bill and/or all succeeding bills which may have become due, and any applicable charges have been paid.

B. Should any customer fail or refuse to pay for service furnished and charged for in accordance with this title, the city may not provide service to the customer at the same or any other location until all delinquent utility bills, applicable fees and charges have been paid.

C. Until paid, all fees, rates, and charges imposed by title 14 for water service, wastewater service, reclaimed water service, raw water service, or any combination of those services, shall constitute a debt owing to the city by the customer of record and by the owner of such property as shown on the records of the county assessor, if such record owner is someone other than the customer of record. Under subsection 2.280.1(c) of the Charter, such delinquent fees, rates, and charges shall be a lien upon the property to which the service is rendered.

1. The city may collect such delinquent fees, rates, and charges (a) in accordance with NRS 268.043 by having them collected at the same time as, together with and not separately from, Clark County's general taxes by having the city through a designee in its department comply with the requirements in NRS 268.043.1; (b) by perfecting the city's lien upon the property to which service is rendered by filing/recording in the office of the county recorder a notice of lien signed by the city clerk, or the city clerk's designee, that identifies the amount due and unpaid, the name of the record owner(s) of the property, and a description of the real property subject to the lien; (c) through a collection agency, as defined in NRS Chapter 649; (d) directly; (e) through a civil action in any court of competent jurisdiction; and/or (f) through any other means available to the city under applicable law.

2. If the city chooses to collect such delinquent fees, rates, and charges under subsection 1(a) of this section, the city shall have the right to collect all penalties allowable under NRS 268.043 and NRS 361.483.7 from the owner(s) of the real property with respect to which the fees, rates, and charges are delinquent at the time such delinquencies became a lien against that property.

3. If the city chooses to collect such delinquent fees, rates, and charges under subsection 1(b) of this section, no notice of lien shall be recorded against the property by the city unless written notice of the delinquency has been mailed or personally delivered to the record owner of the property at the last mailing address shown by the records of the county assessor and the record owner of the property has been given 15 days to pay the delinquent amount in full. If there is more than one record owner, failure to send a copy of that notice to a particular owner does not invalidate a notice if properly sent to another record owner. An error or mistake in the name of the record owner contained in any notice of lien does not defeat the lien, unless a correction of the notice of lien in a particular instance would prejudice the rights of an innocent bona fide purchaser or encumbrancer for value, but then only with respect to the bona fide purchaser or encumbrancer for value who was prejudiced. The owner(s) of record and/or customer(s) of record must pay the city a service charge, in an amount approved by city council and identified in the department service rules, for a release of the lien filed with the office of the county recorder and any and all recording costs incurred by the city in recording the release

of lien. After the delinquency is fully satisfied or discharged, at the written request of the owner(s) of record or customer(s) of record, and after that owner or customer pays the required fees, the city will cause to be recorded a notice of discharge or release of the notice of lien. After recording the required notice of lien and unless the delinquency is fully satisfied or discharged, the city may foreclose said lien against such property by following the process identified in NRS 108.239, as amended, for the foreclosure of mechanic's liens. Pursuant to section 2.280.1 of the Charter, the lien is coequal with the latest lien thereon to secure the payment of general taxes, the lien is not subject to extinguishment by the sale of any property on account of the nonpayment of general taxes, and the lien is prior and superior to all liens, claims, encumbrances and titles other than the liens of assessments and general taxes. The lien is not extinguished if the city does not commence a foreclosure action.

D. When a customer receiving service at multiple locations allows a bill for one or more locations to become delinquent, and the service for which the bill is delinquent is shut off, then all of the other service locations may be shut off and subject to all applicable fees and charges in accordance with this title and department service rules.

E. When a customer's utility bill is not paid in full on or before the due date, it will be considered delinquent in accordance with the provisions of this title and any and all charges shall be subject to the assessment of late charges as established in the department service rules.

(Ord. No. 3442, § 1, 9-19-2017; Ord. No. 2909, § 2, 3-15-2011; Ord. 2536, § 96, 2006)

14.17.070 Billing adjustments.

Upon notification of a potential billing error, the city will investigate to verify billing accuracy. In no case shall the city make corrections retroactively for a period of more than 12 months. Any adjustments to the customer's account shall be at the discretion of the director.

(Ord. 2536, § 97, 2006)

14.17.080 Violations.

Any person who fails or refuses to comply with any of the provisions in this chapter shall be deemed to be in violation of this title and shall be subject to discontinuance of service, subject to any penalties and charges assessed in accordance with this title and/or department service rules, and subject to all compliance procedures as prescribed within this title.

(Ord. 2536, § 98, 2006)

Chapter 14.18 FEES, RATES AND CHARGES

Sections:

14.18.010 General provisions.
14.18.020 Fees, rates and charges.
14.18.030 Deposits.
14.18.040 System development charges.
14.18.045 West Henderson 2630/2760 PZ water backbone infrastructure rates.
14.18.047 West Henderson-Bermuda wastewater backbone infrastructure rates.
14.18.050 Southern Nevada Water Authority regional connection charge.
14.18.060 Clean Water Coalition regional sewer connection charge and regional sewer user charge.
14.18.070 Southern Nevada Water Authority regional commodity charge.
14.18.075 Approval and application of the Southern Nevada Water Authority drought protection charge.
14.18.080 Approval and application of Southern Nevada Water Authority reliability surcharge.
14.18.085 Approval and application of the Southern Nevada Water Authority infrastructure surcharge.
14.18.090 Main frontage fees.
14.18.100 Chapter 14.14 water budget surcharge.
14.18.110 Charge for taking water without authorization.

14.18.010 General provisions.

A. *Purpose and policy.* This chapter sets forth responsibility, authority, and provisions to ensure compliance with all federal, state, and local requirements for the protection of public health, safety and welfare.

B. *Scope.* The provisions of this chapter shall apply to (1) all residents of the city, (2) a person that operates, maintains, repairs, relocates, removes, and/or disconnects to or from the city's water system and/or publicly owned treatment works, (3) a person who wishes to connect to the city's water system and/or publicly owned treatment works, (4) a user, and (5) a customer.

C. *Administration.* Except as otherwise provided herein, the director shall administer, implement, and enforce the provisions of this chapter. The director may delegate any powers granted to or duties imposed upon the director, the city, or the department to a person acting in the beneficial interest of the city.

D. *Compliance.* All provisions of this chapter are subject to compliance procedures as outlined in this title and the department service rules.
(Ord. No. 3905, § 25, 9-13-2022; Ord. 2676, § 13 (part), 2008; Ord. 2536, § 100, 2006)

14.18.020 Fees, rates and charges.

A. Per article II, section 2.280(c) of the Henderson City Charter, the Henderson city council shall fix charges and rates for water and wastewater services.

B. Fees, rates and charges shall be billed in accordance with this title and shall be applied as outlined in this title and the department service rules.

C. Final determination of a customer's use or billing category shall be made by the director. All applicable fees and charges shall be assessed accordingly.

D. The assessment and collection of all fees and charges shall be made in accordance with the established procedures of the city, relative to the assessment and collection of those fees and charges. Notwithstanding this requirement, the director reserves the right to determine the manner through which all fees and charges are collected.

E. All fees and charges shall be paid to the city prior to issuance of the certificate of occupancy.

F. Basic service and usage charges.

1. Service connections shall be considered in use and appropriate charges shall be assessed commencing with the date of installation unless the customer has provided advance notice that the connection shall not be used until such time as it is needed. If the customer has provided such advance notice, charges shall commence on the date the service is first turned on by the city.

2. Any service turned on without advance authorization from the city shall be assessed charges based on the date of installation in addition to any other charges or fees.

3. Charges for usage shall be based upon the volume of flow based upon either readings from city approved water meters, approved wastewater flow monitoring equipment or other methods that may be approved by the city.

4. All users shall be charged a monthly basic service charge in addition to any monthly usage charges accrued.

5. Exemptions from basic monthly water and sewer service charge.

a. Upon application to the department, a low-income or permanently disabled person may have their own private residential account exempted from all or a portion of the basic monthly water and sewer service charge, as determined by the department, by qualifying in accordance with the Nevada Energy Assistance Program, or similar program criteria as established by the department.

b. All customers who received an exemption based on income must re-qualify annually to continue receiving that exemption and provide information required by the department to support that exemption.

c. Residents who are senior citizens, received the senior exemption on or before November 1, 1996, and have not changed their place of residence from the residence they were in as of the date they began receiving the senior exemption continue to be eligible to receive an exemption from the basic monthly water and sewer service charge until such time as the customer changes their place of residence.

d. The applicant shall furnish such information as the city may require, supporting their application for an exemption.

G. The city reserves the right to inspect any facility to determine the actual equivalent residential units (ERUs) being contributed to the collection system. Additional sewer system development charges and regional fees may be assessed as a result of the findings. Fees will be based on the current rate in place at the time of verification. Regional fees will be charged if applicable at the time of permit issuance.
(Ord. No. 3831, § 1, 1-4-2022; Ord. No. 2951, § 4, 12-20-2011; Ord. 2798, § 6, 1-20-2009; Ord. 2536, § 101, 2006)

14.18.030 Deposits.

A. The city may require a deposit from any applicant or existing customer in any situation where the city has cause to believe that a deposit is required.

B. The deposit paid to the city shall be held until all equipment has been returned and verified by the city to be in satisfactory working and operational condition with no damages and/or all charges for the service and any damages have been paid.

C. Upon service discontinuance, any applicable deposit shall be credited to the closing bill and any amount remaining shall be refunded to the customer in accordance with this title and department service rules.

D. The customer's deposit may be applied as a credit on the customer's account when 12 months of service have passed and none of the bills become delinquent or applied to the closing bill upon discontinuance of service.
(Ord. 2536, § 102, 2006)

14.18.040 System development charges.

All permits, will be charged water system and sewer system development charges based on the fee and charge scheduled in the department service rules.

For large commercial and/or industrial customers with estimated peak wastewater flows over 100,000 gallons per day (GPD), after one year of full operation, a one-time adjustment may be made based on actual maximum month (30 days) wastewater flows multiplied by

12 months. The annual peak wastewater flows shall be divided by 90,000 gallons to determine the actual ERUs. The actual ERUs shall be multiplied by the single-family resident ERU rate to derive the customer's adjusted SDC. The initial SDC shall be compared to the actual.
(Ord. No. 2909, § 3, 3-15-2011; Ord. 2798, § 6, 1-20-2009; Ord. 2536, § 103, 2006)

14.18.045 West Henderson 2630/2760 PZ water backbone infrastructure rates.

A. Planning and design of water backbone infrastructure for the West Henderson 2630 Pressure Zone and the West Henderson 2760 Pressure Zone, construction of that infrastructure, and financing of that construction are required to support water service to existing and future developments in the West Henderson area. The director has the right to determine the size and capacity of the water backbone infrastructure, timing of construction of the water backbone infrastructure, and method of financing the construction, taking into account projected service needs of the West Henderson area served and the need for the orderly and efficient development of the city's public infrastructure system. The West Henderson 2630 Pressure Zone ("2630 PZ") and the West Henderson 2760 Pressure Zone ("2760 PZ") are located in West Henderson. A depiction of the 2630 PZ and the 2760 PZ is available on the city's website.

B. Through December 31, 2022, the rate charged to projects that the city determines will receive a benefit from the water backbone infrastructure planned, designed, constructed, and/or financed for (1) a portion of the 2630 PZ is referred to as the "phase 1A 2630 PZ water infrastructure rate" and (2) a portion of the 2760 PZ is referred to as the "phase 1A 2760 PZ water infrastructure rate." These rates are addressed in this section 14.18.045. The amount charged for the phase 1A 2630 PZ water infrastructure rate and phase 1A 2760 PZ water infrastructure rate (collectively, "phase 1A 2630/2760 PZ rates") shall be in addition to system development, regional connection, and other applicable charges for water service.

C. Effective January 1, 2023, the rate charged to projects that the city determines will receive a benefit from the water backbone infrastructure planned, designed, constructed, and/or financed for (1) a portion of the 2630 PZ is referred to as the "WH 2630 PZ water infrastructure rate" and (2) a portion of the 2760 PZ is referred to as the "WH 2760 PZ water infrastructure rate." These rates are addressed in this section 14.18.045. The amount charged for the WH 2630 PZ water infrastructure rate and WH 2760 PZ water infrastructure rate (collectively, "WH 2630/2760 PZ rates") shall be in addition to system development, regional connection, and other applicable charges for water service.

D. Effective January 1, 2023, all new projects that the city determines will receive a benefit from existing or future water backbone infrastructure planned, designed, constructed, and/or financed for the 2630 PZ or for the 2760 PZ shall be charged and pay the

WH 2630 PZ water infrastructure rate and/or the WH 2760 PZ water infrastructure rate, as the city determines is appropriate. The amount(s) charged shall be based upon the total EDUs proposed for the project, as reflected in the civil improvement plans for the project approved by the city, and the rate(s) used will be the one(s) in effect on the date the city processes the building permit for the project or, if a project is not required to obtain a building permit from the city, at the rate in effect on the date the city approves the civil improvement plans for the project.

E. Any project that was initiated at the city before January 1, 2023, and either was required to pay the rate(s) established (or other amount charged by the city) for existing or future water backbone infrastructure planned, designed, constructed, and/or financed for the 2630 PZ or for the 2760 PZ or whose approval was conditioned on the city being paid such rate(s) shall be charged and pay, as the city determines is appropriate, (1) if the building permit is issued prior to January 1, 2023, the phase 1A 2630 PZ water infrastructure rate and/or the phase 1A 2760 PZ water infrastructure rate or (2) if the building permit is issued on or after January 1, 2023, the WH 2630 PZ water infrastructure rate and/or the WH 2760 PZ water infrastructure rate. The amount(s) charged shall be based upon the total EDUs proposed for the project, as reflected in the civil improvement plans for the project approved by the city, and the rate(s) used will be the one(s) in effect on the date the city processes the building permit for the project or, if a project is not required to obtain a building permit from the city, at the rate in effect on the date the city approves the civil improvement plans for the project.

F. All projects that proceed with additional improvements to a property that result in an increase in water usage above the usage previously proposed - as reflected in the civil improvement plans approved by the city, in the building permit issued by the city, or by other means of receiving official city approval for such additional improvements (each, a "city approval") - and that the department determines will receive a benefit from existing or future water backbone infrastructure planned, designed, constructed, and/or financed for the 2630 PZ or for the 2760 PZ shall be charged and pay, as the department determines is appropriate, (1) if the city approval is issued prior to January 1, 2023, the phase 1A 2630 PZ water infrastructure rate, and/or phase 1A 2760 PZ water infrastructure rate and (2) if the city approval is issued on or after January 1, 2023, the WH 2630 PZ water infrastructure rate and/or the WH 2760 PZ water infrastructure rate. Whether there is an increase in water usage shall be determined by the director in their sole discretion. The rate(s) charged shall be based upon the increase in total additional EDUs associated with the property improvements and at the rate in effect on the date the city processes the building permit for the proposed improvements or, if a project is not required to obtain a building permit from the city, at the rate in effect on the date the city approves the civil improvement plans for the proposed improvements or provides its approval of the additional improvements by other means.

G. As provided for in this title, equivalent dwelling unit (EDU) is defined as "a measure of water demand equivalent to the amount of water used annually by an average single-family residential dwelling unit. One EDU is equivalent to 0.55 acre-feet of water per year." For the purpose of calculating the total EDUs attributable to each project being assessed a rate under this section 14.18.045, the EDU calculation table in subsection 14.18.045.L shall apply. However, where it is determined by the director that the "EDU Calculation Factor" or "EDU %" reflected in that table does not adequately reflect the water demands placed upon the city's water system by a proposed project, then the city shall not use that table and instead shall use an alternate method in order to determine the appropriate amount to charge that project for its equitable share of the water backbone infrastructure planned, designed, constructed, and/or financed for 2630/2760 PZ. Final determination of such alternate method shall be made by the director.

H. The phase 1A 2630 PZ water infrastructure rate shall be $3,067.00 per EDU, and the phase 1A 2760 PZ water infrastructure rate shall be $5,145.00 per EDU. The initial WH 2630 PZ water infrastructure rate shall be $3,527.00 per EDU, and the initial WH 2760 PZ water infrastructure rate shall be $5,660.00 per EDU. These rates are based upon actual and estimated costs for the city to fund the planning, design, construction, and/or financing of the water infrastructure for the 2630 PZ and the 2760 PZ. The city manager may adjust the WH 2630 PZ water infrastructure rate and/or the WH 2760 PZ water infrastructure rate once each calendar year by an amount that (1) for the WH 2630 PZ water infrastructure rate, is no more than 15 percent of the WH 2630 PZ water infrastructure rate in effect in the immediately preceding period; and (2) for the WH 2760 PZ water infrastructure rate, is no more than ten percent of the WH 2760 PZ water infrastructure rate in effect in the immediately preceding period. The city will identify the phase 1A 2630 PZ water infrastructure rate, the phase 1A 2760 PZ water infrastructure rate, the then-current WH 2630 PZ water infrastructure rate, and the then-current WH 2760 PZ water infrastructure rate in the department service rules. Unless otherwise approved in writing by the director in their sole discretion, the rate(s) assessed shall be paid to the city when the city issues a building permit, prior to issuance of a certificate of occupancy, or prior to commencement of temporary or permanent water service, whichever date is earliest.

I. For five years after a certificate of occupancy is issued for a project or an improvement is made to a project, the city has the right to audit that project to confirm that the project's average annual water usage is substantially the same as the total EDUs proposed for the project or project improvement. If the city determines the project is using more EDUs than proposed, the city may require the original developer of the project or project improvement, as applicable, to pay the difference between the total EDUs charged the project and total EDUs actually used at the property at the phase 1A 2630 PZ water infrastructure rate, phase 1A 2760 PZ water infrastructure rate, WH 2630 PZ water infrastructure rate, and/or WH 2760 PZ water infrastructure rate, as appropriate, in effect on the date the city prepares a bill for the additional payment.

J. If the phase 1A 2630 PZ water infrastructure rate, phase 1A 2760 PZ water infrastructure rate, WH 2630 PZ water infrastructure rate, or the WH 2760 PZ water infrastructure rate is adjusted after the city receives a payment, the city is not obligated to true-up the payment received or to refund/collect any difference.

K. If a customer requests to design, construct, and pay for all or a portion of the WH water backbone water infrastructure for the 2630 PZ and/or for the 2760 PZ, the city may enter into a special refunding agreement acceptable to the city and in accordance with applicable provisions in section 14.16.050 that provides for repayment of a portion of those costs from WH rates collected, or to be collected, by the city from customers that will receive a benefit from existing or future water backbone infrastructure planned, designed, constructed, and/or financed for the 2630 PZ or for the 2760 PZ.

L. EDU Calculation Table.

Type of Development	*EDU Calculation Factor*
Low Density Single-Family: RS-4, RS-6, RS-8, and RMH	1.0 EDU/lot
Medium-Density Residential: RM-10 and RM16	0.81 EDU/unit
Medium-Density Residential and High-Density Multifamily Residential: RH-24 and RH-36	0.51 EDU/unit
Commercial and Industrial[(1)]	See Commercial and Industrial Meter Equivalency Chart (Potable Water)[(2)]
[(1)] Commercial and Industrial includes all non-residential, mixed-use, and special-purpose districts, including, but not limited to, schools, churches, public facilities, recreational vehicle parks, convalescent/assisted living facilities, etc. [(2)] The EDU calculation factor shall be based on meter size as reflected in the Commercial and Industrial Meter Equivalency Chart (Potable Water).	

Commercial and Industrial Meter Equivalency Chart
(Potable Water)
Applicable Through 12/31/2022

Meter Size (inch)[(a)]	*EDU*	*phase 1A 2630 PZ (per meter)[(b)]*	*phase 1A 2760 PZ (per meter)[(b)]*
¾"	1.00	$3,067	$5,145
1"	1.67	$5,121	$8,593
1½"	3.33	$10,212	$17,134
2"	5.33	$16,345	$27,425
3"	11.67	$35,787	$60,047
4"	21.00	$64,398	$108,054
6"	46.67	$143,118	$240,138

Meter Size (inch)[a]	*EDU*	*phase 1A 2630 PZ (per meter)[b]*	*phase 1A 2760 PZ (per meter)[b]*
8"	80.00	$245,327	$411,636
10"	126.67	$388,445	$651,774
12"	166.67	$511,108	$857,592

[a] When a combination fire and domestic system is utilized, the charges shall be based on the size of the meter that would be required to accommodate all non-fire flow demands. Said meter sizing shall be based on the American Water Works Association standards for sizing meters or other nationally recognized method as approved by the director.
[b] Based upon the phase 1A 2630 PZ water infrastructure rate of $3,067 per EDU, and phase 1A 2760 PZ water infrastructure rate of $5,145 per EDU.

[a] When a combination fire and domestic system is utilized, the charges shall be based on the size of the meter that would be required to accommodate all non-fire flow demands. Said meter sizing shall be based on the American Water Works Association standards for sizing meters or other nationally recognized method as approved by the director.
[b] Based upon the 2630 PZ water infrastructure rate of $3,527 per EDU and 2760 PZ water infrastructure rate of $5,660 per EDU.

Meter Size (inch)[a]	*EDU*	*2630 PZ 2023 Charge (per meter)[b]*	*2760 PZ 2023 Charge (per meter)[b]*
Notes: (1) Commercial and Industrial includes all non-residential, mixed-use, and special-purpose districts, including, but not limited to, schools, churches, public facilities, recreational vehicle parks, convalescent/assisted living facilities, etc. (2) EDU calculation factor for Commercial and Industrial that installs a meter greater than or equal to a 6" meter shall be based upon the total estimated annual water usage for the project, in gallons per year, based upon the formula of 1 EDU = 0.55 acre-feet per year. See example below Example: Project A Annual water use = 50,000,000 gallons 1 EDU = 0.55 acre-feet per year = 325,851 x 0.55 = 179,218 gallons per year Total EDUs = (50,000,000 gallons) x (1 EDU/179,218 gallons per year) = 279.0 EDUs			

(Ord. No. 3912, § 3, 10-18-2022)

Editor's note—Ord. No. 3912, § 3, adopted October 18, 2022, amended section 14.18.045 in its entirety to read as herein set out. Formerly, section 14.18.045 pertained to West Henderson phase 1 water backbone infrastructure rates, and derived from Ord. No. 3383, § 2, adopted January 17, 2017.

14.18.047 West Henderson-Bermuda wastewater backbone infrastructure rates.

A. Planning and design of wastewater backbone infrastructure for West Henderson, construction of that infrastructure, financing of that construction, and phasing of that construction are required to support wastewater service to existing and future developments in the West Henderson area. The director has the right to determine the size and capacity of that wastewater backbone infrastructure, phasing of construction of that wastewater backbone infrastructure, and method of financing the construction, taking into account projected service needs of the West Henderson area served and the need for the orderly and efficient development of the publicly-owned treatment works.

B. The rates charged to projects that the city determines will receive a benefit from segment 1, segment 2, segment 3 or segment 9 of the wastewater backbone infrastructure planned, designed, constructed, and/or financed for the Bermuda Sewer Basin within West Henderson are referred to as the "segment 1 wastewater infrastructure rate," "segment 2 wastewater infrastructure rate," "segment 3 wastewater infrastructure rate" and "segment 9 wastewater infrastructure rate," respectively, and, collectively, as the "WH-Bermuda backbone wastewater infrastructure rates." The WH-Bermuda wastewater backbone infrastructure rates shall be in addition to system development and other applicable charges for wastewater service.

C. Effective November 25, 2019, all new projects that the city determines will receive a benefit from existing or future wastewater backbone infrastructure planned, designed, constructed, and/or financed for the Bermuda Sewer Basin within West Henderson shall be charged and pay the segment 1 wastewater infrastructure rate, the segment 2 wastewater infrastructure rate, the segment 3 wastewater infrastructure rate and/or the segment 9 wastewater infrastructure rate, as the city determines is appropriate. The amount(s) charged shall be based upon the total ERUs proposed for the project, as reflected in the civil improvement plans for the project approved by the city, and the rate(s) used will be the one(s) in effect on the date the city processes the building permit for the project or, if a project is not required to obtain a building permit from the city, at the rate in effect on the date the city approves the civil improvement plans for the project.

D. Any project that was initiated at the city before November 25, 2019 and whose approval was conditioned on the city being paid the rate(s) established or other amount charged by the city for existing or future wastewater backbone infrastructure planned, designed, constructed, and/or financed for West Henderson shall be charged and pay the segment 1 wastewater infrastructure rate, the segment 2 wastewater infrastructure rate, the segment 3 wastewater infrastructure rate and/or the segment 9 wastewater infrastructure rate, as the city determines is appropriate. The amount(s) charged shall be based upon the total ERUs proposed for the project, as reflected in the civil improvement plans for the project approved by the city, and the rate(s) used will be the one(s) in effect on the date the city processes the building permit for the project or November 25, 2019, whichever is later.

E. Effective November 25, 2019, all projects that proceed with additional improvements to a property that result or might result in an increase in the amount of wastewater discharged to the publicly owned treatment works above that previously proposed - as reflected in the civil improvement plans, in the building permit or by other means of receiving city approval for such additional improvements - and that the city determines will receive a benefit from existing or future wastewater backbone infrastructure planned, designed, constructed, and/or financed for West Henderson shall be charged and pay the segment 1 wastewater infrastructure rate, the segment 2 wastewater infrastructure rate, the segment 3 wastewater infrastructure rate and/or the segment 9 wastewater infrastructure rate, as the city determines is appropriate. Whether the improvements result or might result in an increase in the amount wastewater discharged to the publicly-owned treatment works above that previously proposed shall be determined by the director in his or her sole discretion. The rate(s) charged shall be based upon the increase in total additional ERUs associated with the property improvements and at the rate in effect on the date the city processes the building permit for the proposed improvements or, if a project is not required to obtain a building permit from the city, at the rate in effect on the date the city approves the civil improvement plans for the proposed improvements or provides its approval of the additional improvements by other means.

F. The initial segment 1 wastewater infrastructure rate shall be $31.52 per ERU. The initial segment 2 wastewater infrastructure rate shall be $79.45 per ERU. The initial segment 3 wastewater infrastructure rate shall be $131.39 per ERU. The initial segment 9 wastewater infrastructure rate shall be $270.83 per ERU. Initially, these rates have been based upon actual and estimated costs for the city to fund the planning, design, construction, and/or financing of the West Henderson wastewater backbone infrastructure. After construction of the particular segment is completed, the city manager may adjust the rate for that segment to reflect the actual costs to plan, design, construct, and finance the West Henderson wastewater backbone infrastructure in that segment. The city will identify the then-current segment 1 wastewater infrastructure rate, the segment 2 wastewater infrastructure rate, the segment 3 wastewater infrastructure rate and/or the segment 9 wastewater infrastructure rate in the department service rules. Unless otherwise approved in writing by the director at his or her sole discretion, the rate(s) assessed shall be paid to the city when the city issues a building permit, prior to issuance of a certificate of occupancy or prior to commencement of permanent wastewater service, whichever is earliest.

G. For five years after a certificate of occupancy is issued for a project or an improvement is made to a project, the city has the right to audit that project to confirm that the project's average annual wastewater discharge to the publicly owned treatment works is substantially the same as the total ERUs proposed for the project or project improvement. If the city determines the project is using more capacity of the West Henderson wastewater backbone infrastructure than proposed, the city may require the original developer of the project or project improvement, as applicable, to pay the difference between the total ERUs charged the project and total ERUs actually used at the property at the segment 1 wastewater infrastructure rate, the segment 2 wastewater infrastructure rate, the segment 3 wastewater infrastructure rate and/or the segment 9 wastewater infrastructure rate, as appropriate, in effect on the date the city prepares a bill for the additional payment.

H. If the segment 1 wastewater infrastructure rate, the segment 2 wastewater infrastructure rate, the segment 3 wastewater infrastructure rate or the segment 9 wastewater infrastructure rate is adjusted after the city receives a payment, the city is not obligated to true-up the payment received or to refund/collect any difference.
(Ord. No. 3638, § 2, 11-19-2019)

14.18.050 Southern Nevada Water Authority regional connection charge.

A. Effective March 1, 1996, a regional water connection fee shall be assessed to all projects as per the Southern Nevada Water System Facilities and Operations Agreement among the Southern Nevada Water Authority (SNWA), City of Boulder City, City of Henderson, City of North Las Vegas, and the Las Vegas Valley Water District. The rate

charged shall be based on the rate in effect at the time the application for new utility service or improvement plans (as required by the city) are approved and the actual connection fees are paid. For combination fire and domestic meters, the charge shall be based on the smaller meter.

B. Effective November 1, 2005, regional connection charges assessed, in amounts to be increased on the first of the month in May and November each year thereafter through the year 2008, to all projects served by the city.

C. The city reserves the right to audit any project within the initial three years of operation to confirm the basis or estimate used to determine the regional connection charge and may adjust the amount of the regional connection charge based upon the results of such audit. Subsequent audits may be conducted by the city to determine any increase in the basis of the regional connection charge and may adjust the regional connection charge at the rate in place at the time of the audit.
(Ord. No. 2909, § 3, 3-15-2011; Ord. 2536, § 104, 2006)

14.18.060 Clean Water Coalition regional sewer connection charge and regional sewer user charge.

The Clean Water Coalition (CWC) consists of four member agencies, the City of Henderson, the City of Las Vegas, Clark County Water Reclamation District, and the City of North Las Vegas. The CWC is tasked to implement the systems conveyance and operations program (SCOP) to improve our community's water quality through construction of a 17-mile pipeline that will carry high quality treated wastewater deep into Lake Mead. The SCOP project is funded through a combination of sewer connection and user charges. All member agencies of CWC have implemented these charges.

The regional sewer connection charges for wastewater became effective October 1, 2006. The regional sewer user charges for wastewater became effective July 1, 2007. At its meeting of February 23, 2010, the CWC voted to stop levying assessments to its member agencies based on regional connection and sewer user charges, effective March 1, 2010. With formal termination of the Clean Water Coalition imminent, the city ceased assessment of regional connection fees effective March 1, 2010, and regional sewer user charges effective May 1, 2011.
(Ord. No. 2915, § 1, 5-3-2011; Ord. No. 2857, § 1, 6-1-2010; Ord. 2592, § 1, 2007; Ord. 2536, § 105, 2006; Ord. No. 2951, § 4, 12-20-2011)

14.18.070 Southern Nevada Water Authority regional commodity charge.

Effective on all bills mailed after November 5, 1996, a charge per 1,000 gallons shall be assessed to all metered potable water consumption as per the Southern Nevada Water

System Facilities and Operations Agreement among the Southern Nevada Water Authority, City of Boulder City, City of Henderson, City of North Las Vegas and the Las Vegas Valley Water District.
(Ord. 2536, § 106, 2006)

14.18.075 Approval and application of the Southern Nevada Water Authority drought protection charge.

This charge was approved by the Southern Nevada Water Authority Board on December 10, 2014, and was enacted on purveyor water sales beginning January 1, 2016. The surcharge is applied as a fixed monthly water service charge based on meter size.
(Ord. No. 3279, § 1, 8-4-2015)

14.18.080 Approval and application of Southern Nevada Water Authority reliability surcharge.

This surcharge was approved by the Southern Nevada Water Authority Board and the Las Vegas Valley Water District Board in November 1997 and was enacted on purveyor water sales beginning March 1998. The surcharge is applied as a percentage of the total water bill, which is composed of the monthly water service charge, volume charge, and the SNWA commodity charge.
(Ord. 2536, § 107, 2006)

14.18.085 Approval and application of the Southern Nevada Water Authority infrastructure surcharge.

This surcharge was approved by the Southern Nevada Water Authority Board on February 29, 2012, and was enacted on purveyor water sales beginning May 1, 2012. The surcharge is applied as a fixed monthly water service charge based on meter size.
(Ord. No. 3279, § 1, 8-4-2015)

14.18.090 Main frontage fees.

Main frontage fees shall apply to all connections through which water or wastewater service will be provided from an existing main to particular parcels of property which are adjacent to the right-of-way or easement wherein that existing main is located.
(Ord. No. 3831, § 2, 1-4-2022; Ord. 2676, § 13 (part), 2008; Ord. 2536, § 108, 2006)

14.18.100 Chapter 14.14 water budget surcharge.

The customer at a property that, pursuant to chapter 14.14 of the Code, has a water budget is subject to a surcharge for any water used over the water budget amount. After the

customer exceeds the annual water budget, the city will assess this surcharge and place the surcharge on the customer's utility bill or otherwise invoice the customer for that surcharge. This surcharge is in addition to the customer's obligation to pay for the volume of water used at applicable rate. Table 14.18.100a identifies how the surcharge rate is calculated. Table 14.18.100b identifies how the surcharge amount is calculated, using the applicable surcharge rate.

Table 14.18.100a
Water Budget Surcharge Rate

Percentage of budget	101 to 120 percent	121 to 140 percent	Over 140 percent
Surcharge rate	2.0 times the highest rate	5.0 times the highest rate	9.0 times the highest rate

Table 14.18.100b
Water Budget Surcharge Formula

RECLAIMED WATER	RAW WATER	POTABLE WATER
Total amount over water budget (in thousand gallons)	Total amount over water budget (in thousand gallons)	Total amount over water budget (in thousand gallons)
x % reclaimed water	x % raw water	x % potable water
x highest then-current, applicable rate	x highest then-current, applicable rate	x highest then-current, applicable rate
x surcharge rate (see Table 14.18.100a)	x surcharge rate (see Table 14.18.100a)	x surcharge rate (see Table 14.18.100a)

(Ord. No. 3905, § 26, 9-13-2022)

Editor's note—Ord. No. 3905, § 26, adopted September 13, 2022, amended section 14.18.100 in its entirety to read as herein set out. Formerly, section 14.18.100 pertained to violations, and derived from Ord. No. 2536, § 109, adopted in 2006.

14.18.110 Charge for taking water without authorization.

A. If a person takes water from the city's water system in violation of a provision of chapter 14.03, chapter 14.05, or chapter 14.06 of the Code, that person and/or the owner(s) of the equipment used to transport the water taken shall be charged and shall pay the estimated water usage at 12x the highest rate per 1,000 gallons in the highest rate block for the potable water volume charge or other rate authorized by council and set forth in the department service rules, whichever rate is higher, and the cost of any damage to city facilities. The department may estimate the amount of water taken, including, but not limited

to, based on the use to which that water was apparently put, the equipment used to take or apply that water, the estimated length of time the person was taking the water, and the container or tank used to transport or store that water. The applicable rate shall be based on the rates, fees and charges in this title and/or the department service rules that the department determines is appropriate. Using a container or tank to store that water shall constitute a rebuttable presumption that the container or tank was empty before the person took water from the city's water system and that the container or tank was completely filled after that person took the water.

B. In addition to being responsible for the charges described in subsection 14.18.110.A, the person who took water from the city's water system in violation of a provision of chapter 14.03, chapter 14.05, or chapter 14.06 of the Code and/or the owner(s) of the equipment used to transport that water is subject to all compliance procedures as prescribed within this title and is subject to all penalties imposed by applicable law.
(Ord. No. 3905, § 27, 9-13-2022)

Chapter 14.21 COMPLIANCE*

Sections:

14.21.010 General provisions.
14.21.020 Criminal prosecution.
14.21.030 Injunctive relief.
14.21.040 Administrative enforcement.
14.21.050 Administrative fine tables.
14.21.060 Fine pass through.
14.21.070 Civil litigation.
14.21.080 Referral for state and/or federal enforcement.
14.21.090 No waiver.
14.21.100 Remedies cumulative.
14.21.110 Administrative hearings.
14.21.120 Request for reconsideration; appeals.
14.21.130 Public nuisance.
14.21.140 Inapplicability to chapter 14.09—Pretreatment regulations.

14.21.010 General provisions.

A. *Purpose and policy.* This chapter 14.21 sets forth provisions and authority to ensure compliance with title 14 of the Code and all federal, state, and local requirements enforceable by the city for the protection of public health, safety and welfare.

B. *Scope.* The provisions of this chapter 14.21 shall apply to (1) all residents of the city, (2) a person that operates, maintains, repairs, relocates, removes, and/or disconnects to or from the city's water system and/or publicly owned treatment works, (3) a person that violates a provision of title 14 of the Code, (4) a person with a property interest in or control over real property in the city's corporate boundaries or with a property interest in or control over real property to which the city provides any type of water or wastewater service (such as a homeowners association), (5) a user, and (6) a customer. The operation or administration of this chapter 14.21 shall in no way change or diminish the effect of other provisions in this Code dealing with like or similar matters.

C. *Administration.* Except as otherwise provided herein, the director shall administer, implement, and enforce the provisions of title 14 of the Code. The director may delegate any powers granted to or duties imposed upon the director, the city, or the department to a person acting in the beneficial interest of the city.
(Ord. No. 3905, § 28, 9-13-2022; Ord. No. 3497, § 1, 7-10-2018)

***Editor's note—**Ord. No. 3497, § 1, adopted July 10, 2018, amended chapter 14.21 in its entirety to read as herein set out. Formerly, chapter 14.21, sections 14.21.010—14.21.050, pertained to similar subject matter, and derived from Ord. No. 2536, §§ 111—115, adopted in 2006; Ord. No. 2676, § 14, adopted in 2008; Ord. No. 2798, § 7, adopted January 20, 2009.

14.21.020 Criminal prosecution.

A person who willfully, knowingly, or negligently violates a provision of chapter 14.03, chapter 14.04, chapter 14.05, chapter 14.06, chapter 14.08, and/or chapter 14.14 of the Code is guilty of a misdemeanor and, upon conviction thereof, shall be punishable by imprisonment in the Henderson Detention Center for not more than six months and/or by a fine of not more than $1,000.00 per day for each violation. In lieu of all or part of the foregoing punishment which may be imposed, the convicted person may be sentenced to perform a fixed period of community service pursuant to the conditions prescribed in NRS 176.087 and, as applicable, to pay restitution in accordance with NRS 176.033. If a corporation is convicted of a violation, the corporation is punishable by a fine not exceeding $1,000.00 and, as applicable, shall pay restitution in accordance with NRS 176.033, unless otherwise provided by law or the code. With respect to violations that are continuous with respect to time, each day that the violation continues is a separate offense. With respect to violations that are not continuous with respect to time, each prohibited act and/or each failure to perform a required act is a separate offense.
(Ord. No. 3497, § 1, 7-10-2018)

14.21.030 Injunctive relief.

The city may petition a court of competent jurisdiction for the issuance of a temporary or permanent injunction, as appropriate, to restrain the continuance of a violation or compel the specific performance of a requirement imposed under title 14 of the Code. The city may also seek such other action as is appropriate for legal and/or equitable relief. A petition for injunctive relief shall not be a bar against, or a prerequisite for, the city to take any other action.
(Ord. No. 3497, § 1, 7-10-2018)

14.21.040 Administrative enforcement.

A. *General.*

1. An enforcement official has the authority to determine whether a violation of title 14 of the Code exists and to take appropriate action to gain compliance with the provisions of title 14 of the Code. These powers include the power to impose administrative fines, to issue notices of violation, to have the city take corrective action, to issue notices and orders, to order and conduct a show cause hearing, to inspect public and private property, to order abatement of a violation, and to use any remedy that is available in title 14 of the Code, in another provision of the Code, and in Nevada law. "Enforcement official" shall mean the director and any director designee.

2. The enforcement official is authorized to grant minor variations from the strict application of specific provisions of title 14 of the Code where, in the opinion of the director, the corrective work or compliance measures are in substantial compliance with the intent of the applicable provision.

B. *Administrative fine.*

1. The enforcement official may impose, as an alternative to criminal prosecution, administrative fines identified in section 14.21.050 for a violation of a provision of chapter 14.02, chapter 14.03, chapter 14.04, chapter 14.05, chapter 14.06, chapter 14.08, and/or chapter 14.14 of the Code by issuing a notice of violation and shall impose a fine(s) as outlined in this chapter 14.21 and any department enforcement response plan. Payment of an administrative fine shall not relieve the person(s) responsible from their obligation to correct, abate, or stop the violation nor shall it bar further enforcement action by the city or an enforcement official.

2. Before issuing a notice of violation and imposing a fine for violation of chapter 14.14 of the Code, the enforcement official may (but is not required to) send one or more warning letters to the person(s) alleged or deemed to have violated that chapter or otherwise potentially responsible for the violation. If the enforcement official sends a warning letter, that letter must notify them of the violation and, if applicable, provide a deadline to correct the violation. The enforcement official may have that letter delivered by email, mail, courier service, personal delivery, or any other method of delivery the enforcement official determines is appropriate.

3. If an administrative fine amount is due and owed to the city by a person cited, the person cited is a customer and the violation relates to utility service to the customer, the city may add that fine amount to the person cited's utility bill as a charge for utility service if:

a. The person cited did not timely request a hearing before the DUS hearing officer and did not file a timely request for reconsideration; or

b. The person cited timely requested a hearing before the DUS hearing officer, the DUS hearing officer identified a deadline that fine amount was due, the person cited did not pay that amount by the deadline identified by the DUS hearing officer in the Hearing Officer Decision and (1) the person cited did not file a timely request for reconsideration of the Hearing Officer Decision or (2) the person cited filed a timely request for reconsideration of the Hearing Officer Decision, the director identified a deadline the fine amount was due, the person cited did not pay that amount by the deadline identified by the director and the person cited did not file a timely written appeal of the director's decision to the city manager or (3) the person cited filed a timely request for reconsideration of the Hearing Officer Decision, the director affirmed or modified the

fine amount, the person cited filed a timely written appeal to the city manager, the city manager identified a deadline that amount was due and the person cited did not pay that amount by the deadline identified by the city manager; or

c. The person cited did not timely request a hearing before the DUS hearing officer, the person cited filed a timely request for reconsideration, the director identified a deadline the fine amount was due, the person cited did not pay that amount by the deadline identified by the director and the person cited did not file a timely written appeal of the director's decision to the city manager; or

d. The person cited did not timely request a hearing before the DUS hearing officer, the person cited filed a timely request for reconsideration, the director identified a deadline the fine amount was due, the person cited did not pay that amount by the deadline identified by the director, the person cited filed a timely written appeal of the director's decision to the city manager, the city manager identified a deadline the fine amount was due and the person cited did not pay that amount by the deadline identified by the city manager.

However, if the person cited is a user and not the owner of the property and accordingly the city delivered the notice of violation to the property owner in accordance with subsection 14.21.040.F.4, the city may only add an administrative fine amount due and owed to the city to the customer's utility bill as a charge for utility service if, as to that fine amount, (w) the property owner did not timely request a hearing before the DUS hearing officer and did not file a timely request for reconsideration, or (x) the property owner timely requested a hearing before the DUS hearing officer, received a Hearing Officer Decision and did not file a timely request for reconsideration of that order, or (y) the property owner timely requested a hearing before the DUS hearing officer, received a Hearing Officer Decision, filed a timely request for reconsideration of that Hearing Officer Decision, received a decision from the director and did not file a timely written appeal of the director's decision to the city manager, or (z) the property owner timely requested a hearing before the DUS hearing officer, received a Hearing Officer Decision, filed a timely request for reconsideration of that Hearing Officer Decision, received a decision from the director, filed a timely written appeal of the director's decision to the city manager and received a decision from the city manager.

4. If an administrative fine amount is due and owed to the city and the person who owes the city that amount holds a city-issued license or city-issued permit, has applied for a city-issued license or city-issued permit, has requested a city inspection, is seeking renewal or transfer of a city-issued license or city-issued permit, or is seeking a city approval, the city may take one or more of the following actions until that person pays the city the amount owed:

a. Revoke the city-issued license and/or city-issued permit;

b. Deny, or condition the city's approval of, that person's application for the city-issued license and/or city-issued permit;

c. Refuse to schedule or perform the city inspection;

d. Deny, or condition the city's approval of, a renewal or transfer of the city-issued license or city-issued permit; or

e. Refuse to provide, or impose conditions on, the city approval being sought.

C. *Corrective actions.*

1. When a person, with or without prior authorization from the department, operates, maintains, repairs, relocates, cuts, changes, removes, disconnects, interferes with or damages in any manner the city's public water system, reclaimed water system, raw water system and/or publicly owned treatment works, the department may choose but is not obligated to repair the damages to the city facilities, replace the city facilities, repair some or all damages to any real property or personal property, perform any other remediation work the city determines is necessary and invoice that person for the actual costs of the work. The person invoiced may file a request for reconsideration in accordance with section 14.21.120. The city may add the invoiced amount, as modified by the director or the city manager in accordance with section 14.21.120, to the customer's utility bill as a charge for utility service if the person invoiced is a customer and:

a. The customer did not pay the invoice by the deadline identified on the invoice and did not file a timely request for reconsideration; or

b. The customer did not pay the invoice by the deadline identified on the invoice, the customer filed a timely request for reconsideration and the director affirmed or modified the invoiced amount and identified a deadline that amount was due, the customer did not pay that amount by the deadline identified by the director, and the customer did not file a timely written appeal of the director's decision to the city manager; or

c. The customer did not pay the invoice by the deadline identified on the invoice, the customer filed a timely request for reconsideration, the director affirmed or modified the invoiced amount, the customer files a timely written appeal of the director's decision to the city manager, the city manager affirmed or modified the invoiced amount and identified a deadline that amount was due, and the customer did not pay that amount by the deadline identified by the city manager.

2. If, under another provision in title 14 of the Code, the city takes corrective action and issues an invoice for the services or work performed, the person invoiced may file a request for reconsideration in accordance with section 14.21.120. The city may

add the invoiced amount, as modified by the director or the city manager in accordance with section 14.21.120, to the customer's utility bill as a charge for utility service if the person invoiced is a customer and:

a. The customer did not pay the invoice by the deadline identified on the invoice and did not file a timely request for reconsideration; or

b. The customer did not pay the invoice by the deadline identified on the invoice, the customer filed a timely request for reconsideration, the director affirmed or modified the invoiced amount and identified a deadline that amount was due, the customer did not pay that amount by the deadline identified by the director, and the customer did not file a timely written appeal of the director's decision to the city manager; or

c. The customer did not pay the invoice by the deadline identified on the invoice, the customer filed a timely request for reconsideration, the director affirmed or modified the invoiced amount, the customer filed a timely written appeal of the director's decision to the city manager, the city manager affirmed or modified the invoiced amount and identified a deadline that amount was due, and the customer did not pay that amount by the deadline identified by the city manager.

D. *Termination of service.* With or without prior notice and in accordance with any applicable requirements in this title, in the department service rules, and in the department's written procedures, the city may shut off, stop, prevent turn-on of utility service and any associated equipment, and otherwise terminate water, wastewater, reclaimed and/or raw water service without the customer's permission. The city is not obligated to resume or re-establish service until after all violations are corrected to the director's satisfaction, all delinquent fees, rates and charges are paid to the city, and all administrative fine amounts due and owed to the city are paid.

E. *Denial and revocation of permits, licenses and inspections.* The city may deny, revoke or withhold city-issued permits, city-issued licenses, and/or inspections for any facility or person associated with the premises.

F. *Notice of violation(s).* The city may issue a notice of violation(s).

1. The notice of violation must contain, at a minimum, the following information:

a. The name and address (if known) of the person or customer responsible for the violation (referred to as the "person cited");

b. A brief description of the violation(s) and a reference to the applicable ordinance or code citation(s);

c. The location, date and (when known) time of the violation;

d. Where appropriate, the action required to correct the violation(s) and the deadline by when the violation(s) must be corrected;

e. The name of the person issuing the notice of violation;

f. The amount of the administrative fine(s) imposed for the violation(s); and

g. Information advising of the manner and time for responding to the notice of violation.

2. No error concerning, or omission of, any of the above-described information is grounds for the dismissal of a proceeding relating to a notice of violation unless the person requesting the dismissal demonstrates substantial prejudice from the error and/or omission.

3. The notice of violation may be issued by any peace officer employed by the city or by an enforcement official. Any notice of violation issued pursuant to this subsection 14.21.040.F shall constitute a declaration that is subject to the penalty of perjury.

4. An original notice of violation, or a copy thereof, must be filed with and retained by the department. A notice of violation is prima facie evidence of the facts that are alleged therein. The department must deliver the notice of violation personally, by courier service, or by registered or certified mail, return receipt requested to the person cited, the property owner (if the person cited is a user and not the owner of the property and the violation relates to utility services at the property) and, if the person cited is an entity, to an officer, key employee, manager in charge, or registered agent of that entity. That notice of violation will be deemed to have been received by the person to whom it was addressed on the date of delivery if delivered personally, by courier service, or by mail or the date of the last delivery attempt if delivered personally, by courier service, or by mail and delivery was refused or otherwise unsuccessful.

5. Where the notice of violation data is entered into and stored in a computer or similar device, any printout or other output readable by sight that accurately reflects such data is an original notice of violation for purposes of a proceeding under this chapter 14.21. Any such data entry that is moved or copied into another computer or similar device is intended to constitute an additional or replacement of the record of the data by the issuing officer or employee and is also an original notice of violation for purposes of a proceeding under this chapter 14.21.

6. The person cited must respond to a notice of violation within the time prescribed in that notice in one of the following ways:

a. Admit responsibility for the commission of the violation and liability by paying the amount of any administrative fines; or

b. Dispute the notice of violation by requesting a hearing before the DUS hearing officer or filing a request for reconsideration. A hearing may be requested by sending a written request to the department with the following information:

(1) The name of the individual on the notice of violation;

(2) The current address of the individual; and

(3) The violation(s) and any administrative fines identified in the notice of violation the person wishes to dispute at the hearing.

7. If the person cited is a user and not the owner of the property and the violation relates to utility services at the property and accordingly the department delivered the notice of violation to the property owner in accordance with subsection 14.21.040.F.4, that property owner may (a) admit responsibility in accordance with subsection 14.21.040.F.6.a and correct the violations in accordance with subsection 14.21.040.F.8, or (b) dispute the notice of violation by requesting a hearing in accordance subsection 14.21.040.F.6.b.

8. If the person cited (and any property owner as allowed under subsection 14.21.040.F.7) admits responsibility, that person must correct the violation(s) identified in the notice of violation by the deadline in that notice or, if approved in writing by the director, by a different deadline(s).

9. If the person cited (and any property owner as allowed under subsection 14.21.040.F.7) fails to admit responsibility or dispute the notice of violation within the time prescribed in that notice and in accordance with subsection 14.21.040.F.6, such failure shall constitute an admission of all matters and facts contained in the notice of violation, each such person is deemed to admit responsibility for the commission of the violation(s) and any administrative fine amounts imposed, any administrative fine amounts imposed are immediately due and owed to the city by each such person and each such person must correct the violation(s) identified in the notice of violation by the deadline(s) in that notice. If the violation(s) are not corrected by such deadline(s), the department (after providing written notice to that person and the property owner - if the person cited is a user and not the owner of the property and the violation relates to utility services at the property - and at that customer's and that property owner's expense) may choose but is not obligated to perform the abatement or take other action(s) to correct or address the violation(s).

The city shall invoice the person cited and the property owner (if the person cited is a user and not the owner of the property and the violation relates to utility services at the property) for the actual costs of that work.

10. If the person cited requests a hearing in accordance with subsection 14.21.040.F.6.b (or the property owner requests a hearing pursuant to subsection 14.21.040.F.7 and in accordance with subsection 14.21.040.F.6.b), the department shall schedule a

hearing at which each such person that requested the hearing shall be required to appear to dispute the notice of violation(s). The scheduling of the hearing, its conduct and other procedures of the administrative hearing shall be governed by section 14.21.110.

G. *Show cause hearing.* The enforcement official may order a person who has violated a provision of title 14 of the Code to appear before the enforcement official and show cause why a proposed enforcement action or additional enforcement action should not be taken.

1. The notice of the show cause hearing must specify the time and place for the hearing, the proposed enforcement action(s) or additional enforcement action(s), the reasons for such action(s), and a request that the person who has violated a provision of title 14 of the Code show cause why the proposed or additional enforcement action(s) should not be taken.

2. An original notice of the show cause hearing, or a copy thereof, must be filed with and retained by the department. A notice of the show cause hearing is prima facie evidence of the facts that are alleged therein. The notice must be delivered personally, by courier service, or by registered or certified mail, return receipt requested to the person responsible for the violation, the property owner (if the person ordered to appear for the show cause hearing is a user and not the owner of the property and the violation relates to utility services at the property) and, if the person responsible is an entity, on an officer, key employee, manager in charge, or registered agent of that entity. A show cause hearing shall not be a bar against, or prerequisite for, taking any other enforcement action. That notice of show cause hearing will be deemed to have been received by the person to whom it was addressed on the date of delivery if delivered personally, by courier service, or by mail or the date of the last delivery attempt if delivered personally, by courier service, or by mail and delivery was refused or otherwise unsuccessful.

3. After the director's designee has reviewed the evidence, the enforcement official may issue one or more orders and notices of violation as are necessary and appropriate to correct and address the violation and bring the person who has violated a provision of title 14 of the Code into compliance with title 14 of the Code.

H. *Administrative orders and consent orders.*

1. When an enforcement official finds that a person has violated, or continues to violate, any provision of title 14 of the Code or an order or decision issued under this chapter, the enforcement official may issue an administrative order to that person that directs that person to come into compliance within a specific time and contains other requirements to address the noncompliance and bring that person into compliance with title 14 of the Code. Issuance of an administrative order shall not be a bar against, or a prerequisite for, taking any other action against that person.

2. After a notice of violation has been issued, the city may enter into a consent order, assurances of voluntary compliance, or other similar documents establishing an agreement with any person who has violated, or is responsible for noncompliance with, a provision of title 14 of the Code. Such documents shall include specific actions to be taken by the person to correct the noncompliance within a time period specified by the document. A consent order may address administrative fines, corrective action to be taken, and/or other conditions and requirements as agreed to by the city and that person.

I. *Continuous violations.* With respect to violations that are continuous with respect to time, each day that the violation continues is a separate violation. With respect to violations that are not continuous with respect to time, each prohibited act and/or each failure to perform a required act is a separate violation.
(Ord. No. 3905, § 29, 9-13-2022; Ord. No. 3497, § 1, 7-10-2018)

14.21.050 Administrative fine tables.

A. The person issued a notice of violation for violation of a provision of chapter 14.02, chapter 14.03, chapter 14.04, chapter 14.05, chapter 14.06, and/or chapter 14.08 of the Code may be assessed an administrative fine in accordance with Table 14.21.050a. If the person issued a notice of violation is the owner of commercial property and the violation concerns that commercial property, then the administrative fine in Table 14.21.050a shall be doubled.

Table 14.21.050a
Administrative Fine for Violation of
Chapters 14.02, 14.03, 14.04, 14.05, 14.06, or 14.08

	First Violation	Second Violation	Third and Subsequent Violation
Severity Level: Level 1	$100.00	$200.00	$300.00
Severity Level: Level 2	$200.00	$300.00	$400.00
Severity Level: Level 3	$300.00	$400.00	$500.00
Severity Level: Level 4	$500.00		

B. The person issued a notice of violation for violation of a provision of chapter 14.14 of the Code may be assessed an administrative fine in accordance with Table 14.21.050b1, Table 14.21.050b2 or Table 14.21.050b3, as applicable. As part of the determination of severity level under Table 14.21.050b3, violation history will be taken into account and is based upon the preceding 36 months for improper draining of pools or spas and 18 months for all other violations of chapter 14.14.

(Not Identified in Table 14.21.050b1 or Table 14.21.050b2)

	First Violation	Second Violation	Third Violation and Subsequent Violations
Severity Level: Level 1	$25.00	$50.00	$100.00
Severity Level: Level 2	$100.00	$250.00	$500.00
Severity Level: Level 3	$500.00	$750.00	$1,000.00

(Ord. No. 3905, § 30, 9-13-2022; Ord. No. 3497, § 1, 7-10-2018)

14.21.060 Fine pass through.

Whenever a resident, person, responsible party, or customer violates any of the provisions of title 14 of the Code, such violation causes the city to violate state or federal law or any condition of a permit issued to the city, and the city is fined for such violation, then such resident, person, responsible party, or customer shall be fully liable to city for the total amount of the fine assessed against the city.
(Ord. No. 3497, § 1, 7-10-2018)

14.21.070 Civil litigation.

The city attorney may file an action in a court of competent jurisdiction to seek correction of a violation(s) of a provision of title 14 of the Code, payment of administrative fines, restitution for corrective action(s) taken by the city, pass through of a fine(s) and any other appropriate relief.
(Ord. No. 3497, § 1, 7-10-2018)

14.21.080 Referral for state and/or federal enforcement.

The city may refer a violation of a provision of title 14 of the Code to the U.S. Attorney General's Office, State Attorney General, EPA Criminal Investigation Division or other appropriate agency for enforcement, and this referral shall not preclude the city from taking parallel enforcement or other action.
(Ord. No. 3497, § 1, 7-10-2018)

14.21.090 No waiver.

Failure of the city to discover violations and/or to take action to enforce any requirement, including but not limited to the assessment and collection of applicable charges, fees, administrative fines, and penalties, shall not constitute a forfeiture or waiver of the city's right to take appropriate action at any time thereafter. This entitlement shall be retained by the city as a condition of service.
(Ord. No. 3497, § 1, 7-10-2018)

14.21.100 Remedies cumulative.

The remedies provided for in this chapter 14.21 are not exclusive of any other remedies that the city may have under the Code, state law, or federal law, and the administrative fines and penalties in this chapter 14.21 may be imposed in addition to any other fine, penalty, fee, charge, notice of violation, or any other remedy provided for in this Code, the laws of the state of Nevada, or the laws of the United States of America. The city is entitled to collect the amount of any administrative fines that are due and owed to the city and its actual costs for any work performed by or on its behalf to correct or abate a violation of title 14 by means of any remedy available under applicable law, including without limitation referring the matter to a collection agency. The person that owes such an amount shall be liable to the city for an additional collection fee where the city refers the administrative fine(s) and/or the city's actual costs to a collection agency, as defined in NRS Chapter 649. The amount of such fee shall be 25 percent of the outstanding indebtedness or $250.00, whichever is less.

The amount of any such collection fee shall accrue and become due and payable at the time the indebtedness is referred for collection to the collection agency, and that amount may be added by the collection agency to the amount sought to be collected.
(Ord. No. 3497, § 1, 7-10-2018)

14.21.110 Administrative hearings.

A. This section 14.21.110 establishes the procedures governing administrative hearings requested in accordance with subsection 14.21.040.F.6.b. Any hearing conducted pursuant to this section 14.21.110 shall be presided over by the director's designee and such person is referred to as the "DUS hearing officer."

B. The DUS hearing officer shall issue a notice of hearing that specifies the date, time, and place for the administrative hearing. An original notice of the hearing, or a copy thereof, must be filed with and retained by the department. The department must deliver the notice personally by courier service, or by registered or certified mail, return receipt requested to the person cited, the property owner (if the person cited is a user and not the owner of the property and the violation relates to utility services at the property) and, if the person cited is an entity, on an officer, key employee, manager in charge, or registered agent of that entity. That notice of hearing will be deemed to have been received by the person to whom it was addressed on the date of delivery if delivered personally by courier service, or by mail or the date of the last delivery attempt if delivered personally, by courier service, or by mail and delivery was refused or otherwise unsuccessful. The DUS hearing officer may continue the hearing to a different date and/or time at the written request of a party if the DUS hearing officer determines good cause for the continuance exists and the requestor makes such a request before the date and time then scheduled for the hearing.

C. The person cited, and/or a property owner as allowed under subsection 14.21.040.F.7, that timely requested a hearing in accordance with subsection 14.21.040.F.6.b is referred to as the "defendant." The city and each defendant are each referred to as a "party."

D. A party may not serve any interrogatories or other written discovery, take any depositions or conduct other discovery. Affidavits or declarations made under penalty of perjury may be received in evidence at the hearing. The party wishing to use such affidavit or declaration shall, not less than 11 days prior to the date set for the hearing, deliver to the opposing party, either personally or by mail, a copy of the affidavit or declaration which that party proposes to introduce in evidence.

E. A properly filed notice of violation shall constitute a claim of liability and a claim for relief and no other such claim shall be required. Prima facie evidence of the violation alleged shall be established by the city providing the DUS hearing officer with either a copy

of the notice of violation or the data stored in a computer or other device as described in subsection 14.21.040.F.5. No formal appearance by the city attorney's office is required at the hearing.

F. The DUS hearing officer shall call the hearing to order and otherwise conduct the hearing proceedings. At the request of the hearing officer, city or defendant, a city police officer or marshal shall be present at the hearing to provide security and help maintain order.

G. At the hearing, each party shall have the opportunity to present witnesses, cross-examine witnesses and present other evidence in support of the party's case. Every witness shall declare, by oath or affirmation, that he or she will testify truthfully. The hearings and dispositions of all such hearings shall be informal, with the DUS hearing officer receiving photographs, testimony and other evidence for the sole purpose of dispensing a fair and speedy resolution between the parties. The DUS hearing officer may exclude irrelevant, immaterial or unduly repetitious evidence. The DUS hearing officer is not bound by the technical rules of evidence, and no informality in any proceeding or in the manner of taking testimony or receiving evidence will invalidate any Hearing Officer Decision.

H. The DUS hearing officer may question a witness at any time during the hearing. If a witness is questioned by the DUS hearing officer, the party who called the witness may request permission to ask further questions, limited to the area addressed by the DUS hearing officer. When the party who called the witness has asked those questions, the other party may request permission to ask further questions, limited to the area addressed by the DUS hearing officer. The DUS hearing officer may use the experience, technical competence and specialized knowledge of the city's departments, divisions and personnel to evaluate the evidence.

I. The city has the burden of proof in any such hearing to establish the existence of a violation of title 14 of the Code. The standard of proof to be used by the DUS hearing officer in deciding the issues at such a hearing is by a preponderance of the evidence. The burden of proving any defense shall be upon the party raising that defense.

J. At the hearing, the DUS hearing officer shall only consider evidence that is relevant to the following issues:

1. Whether the conditions listed in the issued notice violate title 14 of the Code;

2. Whether the city afforded the person cited and the property owner (if the person cited is a user and not the owner of the property and the violation relates to utility services at the property) due process by adhering to the notification procedures specified in subsection 14.21.040.F.6.b and subsection 14.21.110.B;

3. Whether administrative fine(s) in the issued notice is(are) appropriate;

4. Whether the action(s) required to correct or abate the violation(s), deadline(s) by when the violation(s) must be corrected or abated, and the consequences of failing to comply are reasonable; and

5. If a defendant asserts that the violation(s) have been corrected or abated, whether the violation(s) have been adequately corrected or abated.

K. The hearing may be reported stenographically and/or recorded by audio record, as determined appropriate by the DUS hearing officer. If any party desires the hearing reported stenographically and transcribed by a certified court reporter, that party must make the necessary arrangements and bear the costs thereof and any other party is entitled to purchase a copy of that transcription.

L. After the DUS hearing officer has reviewed the information presented at the hearing and within 45 days of the hearing (unless the DUS hearing officer extends that 45-day period for good cause), the DUS hearing officer shall issue a written decision, deciding for the defendant(s) and/or the city, entitled "Hearing Officer Decision":

1. Deciding for the defendant if the DUS hearing officer finds that a violation did not occur or that the defendant should not be held liable; or

2. Deciding for the city if the DUS hearing officer finds that a violation occurred and that either the person cited or the property owner (if the person cited is a user and not the owner of the property and the violation relates to utility services at the property) should be held liable and, as part of that Hearing Officer Decision:

a. Affirm or modify the action(s) required to correct or otherwise abate the violation(s);

b. Modify the deadline by when the violation(s) must be corrected or abated;

c. Affirm, increase or reduce the administrative fine(s);

d. Establish specific deadlines by when the administrative fine(s) must be paid; and/or

e. If the defendant fails to comply with the Hearing Officer Decision, confirm that the city may perform the abatement or take other action(s) to correct or address the violation(s) and require the person cited and any property owner (if the person cited is a user and not the owner of the property and the violation relates to utility services at the property) to pay the city's actual costs of that work within 30 days of receiving an invoice from the city; or

3. Deciding for the city if the DUS hearing officer finds that a violation occurred, that the defendant did not attend the hearing, that the defendant was given sufficient legal notice of the hearing and that the defendant should be held liable and, as part of that Hearing Officer Decision:

a. Affirm or modify the action(s) required to correct or otherwise abate the violation(s);

b. Confirm that the city may perform the abatement or take other action(s) to correct or address the violation(s) and require the person cited and any property owner (if the person cited is a user and not the owner of the property and the violation relates to utility services at the property) to pay the city's actual costs of that work within 30 days of receiving an invoice from the city;

c. Affirm, increase or reduce the administrative fine(s); and/or

d. Provide that those administrative fine amounts are deemed to be immediately due and owed to the city.

M. The DUS hearing officer shall include a certification in the Hearing Officer Decision substantially conforming to the following form: "I certify that the foregoing is a correct reflection of the decision entered in the proceeding properly brought for my consideration pursuant to section 14.21.110 of the Henderson Municipal Code." The original Hearing Officer Decision, or a copy thereof, must be filed with and retained by the department. The department must deliver a copy of the Hearing Officer Decision personally, by courier service, or by registered or certified mail, return receipt requested to the person cited, the property owner (if the person cited is a user and not the owner of the property and the violation relates to utility services at the property) and, if the person cited is an entity, on an officer, key employee, manager in charge, or registered agent of that entity. That Hearing Officer Decision will be deemed to have been received by the person to whom it was addressed on the date of delivery if delivered personally, by courier service, or by mail or the date of the last delivery attempt if delivered, personally, by courier service, or by mail and delivery was refused or otherwise unsuccessful.

N. If the administrative fine amounts are not paid by the deadline(s) established in a Hearing Officer Decision, the unpaid amounts are deemed to be immediately due and owed to the city by the person cited and the property owner (if the person cited is a user and not the owner of the property and the violation relates to utility services at the property).

O. The city attorney may petition the Henderson municipal court or such other court of competent jurisdiction for the entry of a civil judgment against each defendant in an amount equal to that stated in the Hearing Officer Decision if the city attorney determines this action to be necessary to enforce the Hearing Officer Decision. Service of such petition on each defendant must be made by certified mail, return receipt requested, restricted delivery, addressed to the defendant at the defendant's last known address, or in any other manner that is authorized by law. An affidavit or declaration of mailing, a signed, returned receipt, or other evidence of service of the civil judgment shall be filed upon such service of the petition.

P. If the person that timely requested a hearing in accordance with subsection 14.21.040.F.6.b does not attend the hearing, that person is deemed to admit responsibility for the commission of the violation(s), be responsible for correction or abatement of the

violation(s), be responsible for any administrative fine(s), be responsible for the city's actual costs to correct or abate the violation(s), and unpaid amounts are deemed to be immediately due and owed to the city by the person cited and the property owner (if the person cited is a user and not the owner of the property and the violation relates to utility services at the property).

Q. The Hearing Officer Decision shall be the final administrative action unless a timely request for reconsideration of that decision is filed under subsection 14.21.120.A.
(Ord. No. 3905, § 31, 9-13-2022; Ord. No. 3497, § 1, 7-10-2018)

14.21.120 Request for reconsideration; appeals.

A. Any resident of the city, a responsible party operating, maintaining, repairing, relocating, removing, or disconnecting the public water system and/or publicly owned treatment works, a person that violates a provision of title 14 of the Code, or a customer directly aggrieved by an enforcement action taken by the city under section 14.21.040 may file a request for reconsideration. Any defendant aggrieved by a Hearing Officer Decision under section 14.21.110, may also file a request for reconsideration. All requests for reconsideration (1) shall be made by that aggrieved person submitting a written request for reconsideration to the director that identifies the action taken or decision made by the department, enforcement official, or city that the aggrieved person would like reconsidered, sets forth in detail the facts supporting the request for reconsideration, and identifies any relief requested; (2) shall be delivered personally, by courier service, or by registered or certified mail, return receipt requested, to the director; and (3) must be received by the director, if delivered personally, by courier service, or must be postmarked, if delivered by registered or certified mail, on or before the 11th day after the city takes the action or makes the decision that the aggrieved person would like reconsidered.

B. After the director receives a request for reconsideration that complies with the requirements in subsection 14.21.120.A, the director may modify or affirm the action taken or decision made and, as part of that decision-making process, may review any information the director determines is relevant and request that the department or the aggrieved person provide additional information. If a request for reconsideration is not timely or fails to provide the information required in subsection 14.21.120.A(1), then the director shall dismiss the request for reconsideration on the grounds that it was untimely and/or insufficient. The director's decision must be in writing, be made within 30 days of the director's receipt of that request for reconsideration and delivered to the aggrieved person that made the request personally, by courier service, or by registered or certified mail, return receipt requested. In the director's discretion, the director may extend the time for the director to issue that decision. The director's decision will be deemed to have been received by the person to whom it was addressed on the date of delivery if delivered personally, by courier service, or by mail or the date of the last delivery attempt if delivered by mail and

delivery was refused or otherwise unsuccessful. The director's decision to modify or affirm the action taken or decision made, or to dismiss the request for reconsideration, shall be deemed to be the city's final administrative action and decision unless timely and sufficiently appealed to the city manager in accordance with subsection 14.21.120.C. Unless otherwise ordered by a court of competent jurisdiction, the director's decision shall remain in effect during the pendency of any judicial appeal or other judicial review of that decision sought pursuant to and in accordance with applicable law.

C. If a decision made by the director in accordance with subsection 14.21.120.B is unsatisfactory to the aggrieved person requesting reconsideration, the aggrieved person may, within 11 days after receiving the director's decision, appeal that decision to the city manager. All appeals (1) shall be made by that aggrieved person submitting a written request to the city manager that identifies the director's decision that the aggrieved person wishes to reverse or modify, sets forth in detail the facts supporting the appeal, and identifies any relief requested; (2) shall be delivered personally, by courier service, or by registered or certified mail, return receipt requested, to the city manager and to the director; and (3) must be received by the city manager and the director, if delivered personally or by courier service, or must be postmarked, if delivered by registered or certified mail, on or before the 11th day after the aggrieved person receives the director's decision. An appeal that complies with the foregoing requirements shall be decided by the city manager within 30 days from the date it is received by the city manager unless the city manager, in the city manager's discretion, extends the time for the city manager to issue that decision. As part of that decision-making process, the city manager may review any information city manager determines is relevant and request that the department or the aggrieved person provide additional information. If an appeal is not timely or does not provide the information required in item (1) in this subsection, the city manager shall dismiss the appeal. The city manager's decision to modify or affirm the action taken or decision made, or to dismiss the appeal, shall be deemed to be the city's final administrative action and decision. The director's decision shall remain in effect during the pendency of any appeal to the city manager. Unless otherwise ordered by a court of competent jurisdiction, the city manager's decision shall remain in effect during the pendency of any judicial appeal or other judicial review of that decision sought pursuant to and in accordance with applicable law.
(Ord. No. 3905, § 32, 9-13-2022; Ord. No. 3497, § 1, 7-10-2018)

14.21.130 Public nuisance.

Any condition caused or permitted to exist in violation of any of the provisions of chapter 14.02, chapter 14.03, chapter 14.04, chapter 14.05, chapter 14.06, chapter 14.08, or chapter 14.14 of the Code is a threat to public health, safety, and welfare and is declared and deemed a nuisance by the city council. The city may summarily, at the violator's expense, abate the condition after following the procedures in subsection 14.21.040.F or

correct the condition pursuant to subsection 14.21.040.C or another provision in title 14 of the Code, and the city attorney may file an action in a court of competent jurisdiction to abate, enjoin, or otherwise compel the cessation of such public nuisance.
(Ord. No. 3497, § 1, 7-10-2018)

14.21.140 Inapplicability to chapter 14.09—Pretreatment regulations.

Sections 14.21.010 through 14.21.130, inclusive, do not apply to a violation of a provision of chapter 14.09 of the Code. Compliance and enforcement of a violation of chapter 14.09 are addressed in that chapter 14.09.
(Ord. No. 3497, § 1, 7-10-2018)

15.01.045 Moved buildings.
15.01.050 Temporary buildings or structures.
15.01.055 Historic buildings.
15.01.060 Alternate materials and methods of construction.
15.01.065 Modifications.
15.01.070 Tests.
15.01.075 Conflicting provisions.
15.01.080 Creation of enforcement agency.
15.01.085 Enforcement.
15.01.090 Liability.
15.01.095 Cooperation of other officials and officers.
15.01.100 Contract services.
15.01.105 Delegation of authority.
15.01.110 Unsafe buildings, structures, building service equipment and ATS structures and equipment.
15.01.115 Board of appeals.
15.01.120 Violations.
15.01.125 Permits required.
15.01.130 Building permit exemptions.
15.01.135 Plumbing permit exemptions.
15.01.140 Electrical permit exemptions.
15.01.145 Mechanical permit exemptions.
15.01.150 Grading permit exemptions.
15.01.155 Sign construction permit exemptions.
15.01.160 Amusement and transportation system permit and certificate of operation exemptions.
15.01.165 Permit denial.
15.01.170 Subcontractor registration.
15.01.175 Business license required.
15.01.180 Amusement and transportation system permit required.
15.01.185 Explosive demolitions.
15.01.190 Permit application.
15.01.195 Application for amusement and transportation system (ATS) permit.

15.01.200 Submittal of construction documents.
15.01.205 Information on plans and specifications.
15.01.210 Deferred submittals.
15.01.215 Design provisions for use with the building code.
15.01.220 Referenced standards.
15.01.225 Contractor licensing.
15.01.230 Homeowner permittees.
15.01.235 Manufactured housing permits.
15.01.240 Manufactured housing submittal requirements, fees and occupancy.
15.01.245 Manufactured housing as a conditional or temporary use.
15.01.250 Modular commercial and residential permits, submittal requirements and fees.
15.01.255 Mobile home and manufactured housing parks.
15.01.260 Building permit issuance.
15.01.265 Phased design and construction.
15.01.270 Combination permit.
15.01.275 Retention of plans.
15.01.280 Validity of permit.
15.01.285 Permit expiration.
15.01.286 Swimming pool, spa, or hot tub permit expiration.
15.01.290 Permit extension.
15.01.295 Timely completion of work.
15.01.300 Suspension or revocation of permits.
15.01.305 Fees.
15.01.310 Fee refunds.
15.01.315 Expiration of plan review.
15.01.320 Work without permits—Investigative fee.
15.01.325 Inspection of existing buildings.
15.01.330 Witness fees.
15.01.335 Inspection and survey.
15.01.340 Required building inspections.
15.01.345 Required building service equipment inspections.
15.01.350 Required pool and spa inspections.
15.01.355 Required electrical inspections.
15.01.360 Required plumbing inspections.
15.01.365 Required mechanical inspections.
15.01.370 Occupancy authorization.
15.01.375 Required amusement and transportation system inspections.
15.01.380 Amusement and transportation system (ATS) certificate of operation.
15.01.385 Reinspection fees.
15.01.390 Dedicated inspection services.
15.01.395 Inspection of atypical or unusual work.
15.01.400 Inspection agencies.
15.01.405 Special inspections.
15.01.410 Quality assurance agency.
15.01.415 Approved fabricators/manufacturers.

15.01.420 Condition, suspension or revocation of approval for special inspectors, quality assurance agencies and fabricators/manufacturers.
15.01.425 Special inspector, quality assurance agency and fabricator/manufacturer complaints, hearing and appeal procedures.

15.01.005 Title.

Chapter 15.01 shall be known as the "Building and Fire Safety Administrative Code of Henderson, Nevada." It may be cited as such or by the short title "administrative code." It is referenced herein as "this chapter."
(Ord. 2736, § 1 (part), 2008)

15.01.010 Purpose.*

The purpose of this chapter is to provide the administrative rules and regulations for the administration and enforcement of the technical codes adopted by the City of Henderson. These technical codes are set out generally in chapters 15.08, 15.09, 15.10, 15.11, 15.16, 15.20, 15.24, 15.30, 15.40, 15.44, 15.45 and 15.56 of the Henderson Municipal Code.

The purpose of this chapter and the technical codes is to provide appropriate design and construction regulations to safeguard the public health, safety and general welfare by regulating and controlling the permitting, design, construction, quality of materials, use and occupancy, location and maintenance of buildings, service equipment and structures in the jurisdiction of the City of Henderson specifically regulated herein.
(Ord. No. 3906, § 1, 9-13-2022; Ord. No. 3503, § 1, 8-7-2018; Ord. 2736, § 1 (part), 2008)

15.01.015 Scope.

The provisions of this chapter shall serve as the administrative, organizational and enforcement rules and regulations for the technical codes, that regulate the site preparation, construction, alteration, moving, enlargement, replacement, demolition, repair, maintenance, use and occupancy of buildings and structures and appurtenances connected or attached to such buildings and structures, signs, amusement and transportation systems and building service equipment.

For the purpose of this chapter, the term "equipment" or "systems" shall apply to any equipment or system regulated by the technical codes. Where, in any specific case, different sections of the technical codes specify different materials, methods of construction or other requirements, the most restrictive shall govern. Whenever the technical codes make a reference to an appendix chapter, the appendix chapter shall not apply unless specifically adopted by the City of Henderson. Where differences occur between provisions of this chapter and the technical codes, the most restrictive shall govern.

***Note—**Effective February 4, 2019.

Exception. This chapter does not apply to the following:

A. Facilities or installations within the City of Henderson which are owned and operated by an entity which invokes preemptive power such as the State of Nevada or the federal government.

B. Buildings, structures or service equipment and installations directly used in utility generation or distribution which are installed on properly recorded easements belonging to water, gas, power, telephone, or other utility companies that are preemptively regulated and governed by the Nevada Public Service Commission, a State of Nevada Charter, or other public franchise. This exception does not apply to non-exempted buildings and structures containing occupiable space such as offices, meeting rooms, service counters, public restrooms, site preparation, block walls and fences.

(Ord. 2736, § 1 (part), 2008)

15.01.020 Substantial compliance standard.

In the enforcement of specific provisions of this chapter and the technical codes, the building official and the fire chief are authorized to grant minor variations from the strict application of specific code provisions where, in the opinion of the building official and the fire chief, the work is in substantial compliance with the intent of the adopted codes and standards, and these minor variations are warranted.

(Ord. 2736, § 1 (part), 2008)

15.01.025 Guarantee or warranty.

The building official reviews and approves construction drawings and conducts periodic inspections of work in progress to verify that the approved plans and work inspected at specific points in time are in substantial compliance with the technical codes. The building

official does not conduct continuous inspections of work in progress. Accordingly, reviews, approvals and inspections performed by the building official pursuant to this chapter do not create any guarantee or warranty that buildings, structures or service equipment have been constructed in accordance with all of the applicable provisions of the technical codes.
(Ord. 2736, § 1 (part), 2008)

15.01.030 Emergency provisions.

In the event of a national, state or local emergency declaration, the building official may waive or augment the provisions of this chapter and the technical codes as needed during the periods of emergency to protect public safety.
(Ord. 2736, § 1 (part), 2008)

15.01.035 Existing buildings, structures, and building service equipment.*

Existing buildings, structures and building service equipment shall comply with the provisions of this section.

A. *Additions, alterations or repairs.* Buildings, structures and building service equipment to which additions, alterations and repairs are made shall comply with all the requirements of the technical codes for new facilities, except as specifically provided in this chapter.

Additions, alterations and repairs may be made to any building, structure and building service equipment without requiring the existing building, structure or building service equipment to comply with all the requirements of the technical codes provided the addition, alteration or repair conforms to that required for a new building, structure or building service equipment.

Additions, alterations or repairs shall not be made to an existing building, structure or building service equipment that will cause the existing building or building structure service equipment to be in violation of any of the provisions of the technical codes, nor shall such additions, alterations or repairs cause the existing building, structure or building service equipment to become unsafe. An unsafe condition shall be deemed to have been created if an addition, alteration or repair:

1. Causes the existing building to become structurally unsafe;

2. Does not provide adequate means of egress in compliance with the provisions of the building code;

3. Creates a fire hazard as determined by the Henderson fire marshal;

***Note—**Effective through February 3, 2019.

4. Reduces required fire resistance;

5. Causes building service equipment to become overloaded or exceed its rated capacity;

6. Creates a health hazard as determined by the Health District of Southern Nevada or otherwise creates conditions dangerous to human life and safety.

Any addition, alteration or repair of a building which involves a change in use or occupancy shall not exceed the height, number of stories or area permitted by the building code for new buildings. Any building plus new additions shall not exceed the height, number of stories or area permitted by the building code for new buildings. All fire systems required by chapter 9 of the Building and Fire Safety Administrative Code because of the area of the addition or the area of the addition plus the existing building area shall be extended throughout the building or structure or separated per the fire code.

New additions and alterations shall comply with the code in effect at the time of construction of the addition or alteration. Additions and alterations may not be made to an existing building or structure where such building or structure is not in full compliance with the provisions of the applicable building code in effect at the time of construction of the building unless the proposed addition or alteration includes work to bring the existing building into compliance with the applicable code.

Alterations and repairs to an existing building or structure which are nonstructural and do not adversely affect a structural member or system, or a part of the building having required fire resistance, may be made with the same materials as the building or structure, subject to the approval of the building official. The installation or replacement of glass shall be as required for new installations.

Additions or alterations shall not be made to an existing building or structure which is in violation of other provisions of the Henderson Municipal Code unless such additions or alterations include work to bring the building into compliance with the applicable provisions of the Henderson Municipal Code. This limitation does not apply to lawful non-conforming buildings or uses as determined by the Henderson community development department.

B. *Existing building service equipment installations.* Building service equipment lawfully in existence at the time of adoption of the technical codes may have its use, maintenance or repair continued if such building service equipment is in accordance with its original design and does not pose a hazard to life, health or property. Minor additions, alterations and repairs to existing building service equipment may be made in accordance with the technical codes in effect at the time of original installation, subject to approval of the building official, and provided such additions, alterations and repairs will not cause the existing building service equipment to become unsafe, unsanitary or overloaded.

C. *Existing occupancy.* Buildings in existence at the time of the adoption of the building code may have their use or occupancy continued if such use or occupancy was legal at the time of the adoption of the building code and provided such continued use is not dangerous to life, health or safety. Any change in the use or occupancy of an existing building shall require that the building be made to conform to all current technical code requirements based upon the new use or occupancy, including upgrade of the building's structural system. In addition, any fire safety system required by the codes because of the occupancy change shall be extended throughout the building or structure or separated per the fire code.

D. *Maintenance.* All existing and new buildings, structures, signs, and building service equipment and all parts thereof shall be maintained in a safe working condition and in accordance with the provisions of the adopted technical codes and City of Henderson Property Maintenance Code as adopted in chapter 15.12 of the Henderson Municipal Code. All devices and safeguards which are required by the technical codes shall be maintained in conformance with the technical code in effect at the time of installation. The owner or his designated agent shall be responsible for the maintenance of buildings, structures, building service equipment and assuring that all required fire and life safety systems are maintained in an operable condition at all times. To determine compliance with the requirement of this section, the building official may cause any building, structure or building service equipment to be re-inspected.

(Ord. 2736, § 1 (part), 2008)

15.01.035 Existing buildings, structures, and building service equipment.*

Existing buildings, structures and building service equipment shall comply with the provisions of this section.

A. *Additions, alterations or repairs.* Buildings, structures and building service equipment to which additions, alterations and repairs are made shall comply with all the requirements of the technical codes for new facilities, except as specifically provided in this chapter and chapter 15.11.

Additions, alterations and repairs may be made to any building, structure and building service equipment without requiring the existing building, structure or building service equipment to comply with all the requirements of the technical codes provided the addition, alteration or repair conforms to that required for a new building, structure or building service equipment.

***Note—**Effective February 4, 2019.

Additions, alterations or repairs shall not be made to an existing building, structure or building service equipment that will cause the existing building or building structure service equipment to be in violation of any of the provisions of the technical codes, nor shall such additions, alterations or repairs cause the existing building, structure or building service equipment to become unsafe. An unsafe condition shall be deemed to have been created if an addition, alteration or repair:

1. Causes the existing building to become structurally unsafe;

2. Does not provide adequate means of egress in compliance with the provisions of the building code;

3. Creates a fire hazard as determined by the Henderson fire code official;

4. Reduces required fire resistance;

5. Causes building service equipment to become overloaded or exceed its rated capacity;

6. Creates a health hazard as determined by the Health District of Southern Nevada or otherwise creates conditions dangerous to human life and safety.

Any addition, alteration or repair of a building which involves a change in use or occupancy shall not exceed the height, number of stories or area permitted by the building code for new buildings. Any building plus new additions shall not exceed the height, number of stories or area permitted by the building code for new buildings. All fire systems required by chapter 9 of the Building and Fire Safety Administrative Code because of the area of the addition or the area of the addition plus the existing building area shall be extended throughout the building or structure or separated per the fire code.

New additions and alterations shall comply with the code in effect at the time of construction of the addition or alteration. Additions and alterations may not be made to an existing building or structure where such building or structure is not in full compliance with the provisions of the applicable building code in effect at the time of construction of the building unless the proposed addition or alteration includes work to bring the existing building into compliance with the applicable code.

Alterations and repairs to an existing building or structure which are nonstructural and do not adversely affect a structural member or system, or a part of the building having required fire resistance, may be made with the same materials as the building or structure, subject to the approval of the building official. The installation or replacement of glass shall be as required for new installations.

Additions or alterations shall not be made to an existing building or structure which is in violation of other provisions of the Henderson Municipal Code unless such additions or alterations include work to bring the building into compliance with the

applicable provisions of the Henderson Municipal Code. This limitation does not apply to lawful non-conforming buildings or uses as determined by the Henderson community development department.

B. *Existing building service equipment installations.* Building service equipment lawfully in existence at the time of adoption of the technical codes may have its use, maintenance or repair continued if such building service equipment is in accordance with its original design and does not pose a hazard to life, health or property. Minor additions, alterations and repairs to existing building service equipment may be made in accordance with the technical codes in effect at the time of original installation, subject to approval of the building official, and provided such additions, alterations and repairs will not cause the existing building service equipment to become unsafe, unsanitary or overloaded.

C. *Existing occupancy.* Buildings in existence at the time of the adoption of the building code may have their use or occupancy continued if such use or occupancy was legal at the time of the adoption of the building code and provided such continued use is not dangerous to life, health or safety. Any change in the use or occupancy of an existing building shall require that the building be made to conform to all current technical code requirements based upon the new use or occupancy, including upgrade of the building's structural system. In addition, any fire safety system required by the codes because of the occupancy change shall be extended throughout the building or structure or separated per the fire code.

D. *Maintenance.* All existing and new buildings, structures, signs, and building service equipment and all parts thereof shall be maintained in a safe working condition and in accordance with the provisions of the adopted technical codes and City of Henderson Property Maintenance Code as adopted in chapter 15.12 of the Henderson Municipal Code. All devices and safeguards which are required by the technical codes shall be maintained in conformance with the technical code in effect at the time of installation. The owner or his designated agent shall be responsible for the maintenance of buildings, structures, building service equipment and assuring that all required fire and life safety systems are maintained in an operable condition at all times. To determine compliance with the requirement of this section, the building official may cause any building, structure or building service equipment to be re-inspected.

(Ord. No. 3503, § 1, 8-7-2018; Ord. 2736, § 1 (part), 2008)

15.01.040 Definitions.

For the purposes of this chapter, certain terms, phrases, words and their derivatives shall be defined as specified in this section or other adopted technical codes. Where words and

terms are not defined, they shall have their ordinary accepted meanings within the context with which they are used. The latest edition of Webster's Third New International Dictionary of the English Language, Unabridged, shall be considered as providing ordinary accepted meanings. Words used in the singular include the plural, and the plural the singular. Words used in the masculine gender include the feminine, and the feminine the masculine.

Alter or *alteration* means any construction or renovation to an existing building, structure or building service equipment other than repair or addition.

Amusement and transportation system (ATS) is any ride, device, building or structure that is used primarily for human entertainment and enjoyment, either moving or stationary. The final determination whether a ride, device or structure shall be classified under this definition shall be made by the building official. For the purposes of this chapter, slot machines, electronic gaming devices, pinball games, electronic arcade games, and non-motorized playground equipment are not amusement and transportation systems.

Amusement system or transportation system permit means permits issued by the building official authorizing construction and installation of an ATS. At the option of the building official, an amusement and transportation system permit may include in its scope any subsidiary permits for supporting or enclosing structures and buildings, associated and accessory structures, utility permits, and other building service equipment.

Approved, as to materials, types of construction, equipment and systems refers to approval by the building official as the result of investigation and tests, or by reason of accepted principles or tests by recognized authorities, technical or scientific organizations.

Approved agency is a quality assurance agency that has been approved and listed by the building official pursuant to this chapter.

Approved construction documents are construction documents that have been reviewed and approved for permit by the building official pursuant to this chapter.

Approved fabricator means a company that constructs or assembles standardized building components into assemblies in an approved manner based on submittal of specified documentation and successful periodic evaluation for conformance to standard operating procedures and tests such that the company is listed on the published approved fabricators list.

Approved products are products that are included on product listings from testing and listing agencies approved by the building official.

Approved special inspector is a special inspector who has been approved and listed by the building official pursuant to this chapter.

Area acceptance report is a report to the building official that states all required activities for special inspection item(s) are complete and acceptable for a portion of the work authorized by a permit.

ATS means "amusement and transportation system" as defined in this chapter.

Building means any structure used or intended for supporting or sheltering any use or occupancy.

Building code means that edition of the International Building Code and amendments thereto adopted by the City of Henderson and referenced in chapter 15.08 of the Henderson Municipal Code.

Building, existing. "Existing building" means a building erected prior to the adoption of the currently adopted technical codes or one for which a legal, unexpired building permit has been issued by the building official.

Building official means the City of Henderson building official and the building official's designee(s).

Building service equipment means the plumbing, mechanical, electrical and elevator equipment including piping, wiring, fixtures and other accessories that provide potable water, sanitation, lighting, heating, ventilation, cooling, refrigeration, fire-fighting and transportation facilities essential for the habitable occupancy of a building or structure for the designated use and occupancy.

Building service equipment, existing. "Existing building service equipment" means building service equipment lawfully installed prior to the adoption of the currently adopted technical codes or for which a legal, unexpired permit has been issued by the building official.

maintenance, the approved operations and maintenance manual(s), and approved plans and any other requirements of this chapter. A current certificate of operation is required in order to lawfully operate an ATS.

Commercial coach means a structure without motive power which is designed and equipped for human occupancy for industrial, professional or commercial purposes. A commercial coach is intended to be shipped to a location and remain at that site for a temporary period of time. A commercial coach does not include a recreational park trailer.

Construction documents are plans, specifications, supporting calculations and other data prepared to describe the design, materials, physical characteristics, location, orientation, and scope of a proposed project necessary to obtain a permit.

Construction offices are those trailers which are intended to serve as temporary, on-site office and meeting space for the owner, architects, engineers and other project representatives during, and related to, the actual construction of a project. Construction offices do not include office space of the contractor's construction personnel.

Construction trailers are those trailers which are intended to serve as temporary, on-site office and meeting space for contractors, subcontractors and other project representatives during, and related to, the actual construction of a project. Construction trailers do not include sales offices or satellite offices of the contractors, architect, engineer, etc., if the staff is working permanently therein.

Dangerous building code means that edition of the Uniform Code for the Abatement of Dangerous Buildings and amendments thereto adopted by the City of Henderson and referenced in chapter 15.10 of the Henderson Municipal Code.

Department means the City of Henderson building and fire safety department.

Design professional is an individual who is registered or licensed by the State of Nevada pursuant to Nevada Revised Statutes chapters 623, 623A, or 625.

Device is a component or system that may contain electrical, mechanical and/or pyrotechnic effects that require specific safety features to protect the general public.

Electrical code means that edition of the National Electrical Code and amendments thereto adopted by the City of Henderson in chapter 15.16 of the Henderson Municipal Code.

Fire code means that edition of the International Fire Code and amendments thereto adopted by the City of Henderson in chapter 15.32 of the Henderson Municipal Code.

Jurisdiction as used in this chapter is the area within the incorporated boundaries of Henderson, Nevada.

Life-safety system means, without limitation, electrical, plumbing, heating, ventilating, air conditioning, emergency lighting, fire alarm systems, fire sprinklers, smoke detectors, fire walls, fire barriers and exits required by the technical codes for the protection of human life and safety.

Listed equipment, materials or services included in a list published by an organization acceptable to the building official and concerned with evaluation of products or services that maintains periodic inspection of production of listed equipment or materials or periodic evaluation of services and whose listing states either that the equipment, material or service meets identified standards or has been tested and found suitable for a specified purpose by an approved testing agency that is qualified and equipped for experimental testing and maintaining an adequate, periodic inspection of current productions, and whose listing states the equipment complies with recognized safety standards.

Listing and *listing report* is a published statement or document that details the products and services evaluated by a nationally recognized body and any conditions or limitations placed on the use of the product or service by that body. Listings and reports are subject to acceptance by the building official.

Major modification of any amusement and transportation system (ATS) is any change in either the structural or operational characteristics of the ATS that will alter its performance from that specified in the manufacturer's design criteria, including ride control software.

Manufactured home means a structure which is built on a permanent chassis, designed to be used with or without a permanent foundation as a dwelling when connected to utilities; a manufactured home does not include a recreational park trailer, travel trailer, modular building, commercial coach or mobile home.

Mechanical bull is an operator-controlled device, operated in such a manner that the intention is to cause the ejection of the rider.

Mechanical code means that edition of the Uniform Mechanical Code and amendments thereto adopted by the City of Henderson in chapter 15.24 of the Henderson Municipal Code.

Mobile home means a vehicular structure which is built on a chassis or frame, is designed to be used with or without a permanent foundation, is capable of being drawn by a motor vehicle and is used as a dwelling when connected to utilities. Mobile home does not include a recreational park trailer, travel trailer, modular building, commercial coach or manufactured home.

Modular building means an office, apartment, school, motel or other building, whether it is a total building or room, which is either wholly manufactured or is in substantial part manufactured at an off-site location to be wholly or partially assembled on-site in accordance with regulations adopted by the State of Nevada. A modular building is intended to

a motor vehicle and is used as a dwelling when connected to utilities. Mobile home does not include a recreational park trailer, travel trailer, modular building, commercial coach or manufactured home.

Modular building means an office, apartment, school, motel or other building, whether it is a total building or room, which is either wholly manufactured or is in substantial part manufactured at an off-site location to be wholly or partially assembled on-site in accordance with regulations adopted by the State of Nevada. A modular building is intended to be shipped to a location and remain at that site for its intended life as an improvement to the real estate. A modular building does not include a mobile home or recreational park trailer.

Nationally recognized body is an organization that evaluates testing laboratories, inspection agencies as well as fabrication and manufacturing facilities that produce products and services in accordance with the technical codes. A listing or report is published that details the products and services evaluated and any conditions or limitations placed on their use. The listing or report is subject to acceptance by the building official.

Occupancy means the purpose of which a building or structure or part thereof is used or intended to be used. The term "occupancy" as used in this chapter shall include the building or structure or part thereof housing the intended use.

Occupant means the person who resides in and/or has primary use of a building or structure or a portion of a building or structure.

Owner means any person, agent, firm or corporation having a legal or equitable interest in the property.

Patron is a person who participates in an amusement and transportation system (ATS) whether paying or non-paying, including employees.

Permit means an official document or certificate issued by the building official authorizing performance of a specified activity.

Permit applicant means the person that has filed an application with the building official for a permit.

Permitee means the person to whom a permit is issued.

Permitted work means the work for which a permit is issued.

Person means an individual, heirs, executors, administrators or assigns, and also includes a firm, partnership or corporation, its or their successors or assigns, or the agent of any of the aforesaid.

Plumbing code means that edition of the Uniform Plumbing Code and amendments thereto adopted by the City of Henderson in chapter 15.20 of the Henderson Municipal Code.

Pool code means the Southern Nevada Pool Code adopted in chapter 15.44 of the Henderson Municipal Code.

Prime agency means an approved agency designated by the owner or design professional acting on behalf of the owner to provide special inspection services and required special inspection documents to the building official.

Principal design professional is an architect registered pursuant to Nevada Revised Statutes chapter 623 or a professional engineer licensed pursuant to Nevada Revised Statutes [chapter] 625 who is responsible for the coordination of each aspect of the construction documents that are submitted to the building official for approval.

Prohibited use notice means a written document issued by the building official indicating non-compliance with the requirements of certification, installation, inspection, operation or any provisions of the amusement and transportation system (ATS) code and further indicating that the ATS may not be operated for other than repairs, inspection or testing.

Public facility model means a comprehensive model or map of the physical location of all or a substantial portion of the facilities of a public utility, public water system or video service provider. A public facility model does not include public utilities or public water systems that are owned or operated by the city.

Public utility has the meaning ascribed to it in NRS 704.020.

Public water system has the meaning ascribed to it in NRS 445A.235.

Quality assurance agency (QAA) means an approved organization that is in the business of providing inspection, testing and reporting services for the types of construction and construction work that are regulated in the technical codes.

Quality assurance agency special inspection agreement means an agreement between an owner that has been issued a permit, or a design professional acting on behalf of that owner, and an approved quality assurance agency listing the types of construction and construction work required to be verified through a special inspection process.

Quality system auditor means a person with the requisite knowledge, skill and experience to evaluate the quality assurance and quality control operations of fabrication and manufacturing facilities.

Recognized agency means a quality assurance agency (QAA) that maintains an accreditation through a nationally recognized body.

Recognized fabricator/*manufacturer* means a facility that is listed or maintains an evaluation report through a nationally recognized body. The evaluation report or listing is used by the building official to determine the acceptability of the quality control and quality assurance operations of the facility.

Recreational park trailer means a vehicle which is primarily designed to provide temporary living quarters for recreational, camping or seasonal use.

Repair means the reconstruction or renewal of any part of an existing building, structure or building service equipment for the purpose of maintenance or continued use, operation or occupancy.

Residential code means that edition of the International Residential Code and amendments thereto adopted by the City of Henderson and referenced in chapter 15.09 of the Henderson Municipal Code.

Ride means an amusement ride or transportation system (ATS) as defined in this chapter.

Sales trailer are those trailers which are intended to serve as temporary, office and sales space for customer sales during the construction of a project.

Shall, as used in this chapter, is mandatory.

Special inspection means a process of inspection, testing and reporting by approved special inspectors and quality assurance agencies to assure the building official that the construction of structural elements, materials, and life safety systems is being performed in accordance with the approved construction documents and applicable technical code.

Special inspection category means that collection of specialized inspection activities specified in chapter 17 of the International Building Code.

Special inspection personnel are individuals employed by an approved quality assurance agency and listed by the building official as a special inspector, technician, a laboratory supervisor, a laboratory director, a field supervisor, a quality manager, or an engineering manager.

Special inspector is an individual who has specialized knowledge, skill, training, experience and professional certifications by a nationally recognized body for one or more of the types of construction subject to special inspection as specified in chapter 17 of the International Building Code.

Structure means that which is built or constructed.

Structure, existing. "Existing structure" means a structure erected prior to the date of adoption of the currently adopted technical codes, or one for which a legal building permit has been issued.

Subcontracted agency means an approved agency providing special inspection services through a prime agency.

Technical codes means those codes adopted in chapters 15.08, 15.09, 15.10, 15.16, 15.20, 15.24, 15.44, 15.45 and 15.56 of title 15 of the Henderson Municipal Code.

Technical guidelines means the rules and regulations promulgated by the building official to carry out the purpose and provisions of this chapter.

Transportation system means any moving apparatus which is primarily intended for transportation but may include entertainment and enjoyment while moving along, around, or over a fixed or restricted course. This definition includes people movers and monorails for private property, linking of properties, or when included in a franchise agreement. The final determination as to whether an apparatus shall be classified under this definition shall be made by the building official. The definition of transportation system does not include automobiles, trucks, buses, surface trains or other transportation means when existing regulation of the State of Nevada for federal authorities would conflict with this chapter.

Valuation or *value,* for the purpose of this chapter, means the total value of work including materials and labor, grading, site development, electrical, gas, mechanical, plumbing, painting, finish work, roofing, fire protection and any other permanent systems or equipment for which a permit is being issued. Final determination of value shall be made by the building official.

Video service provider has the meaning ascribed to it in NRS 711.151.

Work as used in this chapter means, without limitation, the construction, erection, alteration, installation, production, activity, manufacture, labor or operation that goes into the making of the proposed project that is subject to a permit.
(Ord. No. 3324, § 1, 12-15-2015; Ord. No. 3141, § 1, 4-1-2014; Ord. 2736, § 1 (part), 2008)

15.01.045 Moved buildings.

Buildings or structures moved into or within the City of Henderson shall comply with the provisions of this chapter, the technical codes and title 19 of the Henderson Municipal Code for new buildings and structures. All required permits shall be obtained prior to the demolition or removal or relocation of a building or structure to a new site.

A. *Requirements for site demolition.* The owner is responsible to properly disconnect all utility services from the site of a moved building and remove all debris, building materials, foundations, and accessory building components from the site on which the building existed. The sewer lateral serving the premises shall be removed or shall be capped as determined by the Henderson utilities services department. For this work, the owner shall obtain a demolition permit in accordance with this chapter.

B. *Permit requirements for moved or relocated building.* Application to move or relocate a building or structure shall be accompanied by:

1. The legal description of the property on which the building or structure is currently located;

2. The legal description of the property on which the moved or relocated structure is to be placed;

3. A fully dimensioned plot plan showing the size of the parcel on which the moved or relocated building is to be placed, any existing buildings on that parcel, and the distance from the moved or relocated building to existing buildings and all property lines;

6. A performance bond of cash or surety in favor of the city in an amount as determined by the building official sufficient to cause the removal of the moved building and all improvements should the project be abandoned;

7. And a letter of intent for completion, including a completion schedule, signed by the owner.

If the owner fails to complete the project as detailed in the completion letter, which, for the purposes of this section, is deemed to be a maximum of 180 days, the owner may request a single 180-day extension from the building official by showing cause of extreme hardship. Should the owner fail to complete the project after expiration of the time specified in the intent for completion letter and any granted extension, the building official shall initiate action to cause the performance bond of cash or surety to be utilized to demolish or remove the moved or relocated building or structure and all site improvements as may be deemed appropriate by the building official.

C. *Permit requirements for new site.* At the new site for a moved building, all work including construction of the foundation, installation of site utilities, site development and additions, alterations or repairs made to the moved building or structure shall require a permit application, construction document approval and permit issuance pursuant to the requirements of this chapter. Such work shall be inspected and shall obtain all required approvals prior to use or occupancy of the building or structure in accordance with this chapter and the technical codes.

(Ord. 2736, § 1 (part), 2008)

15.01.050 Temporary buildings or structures.

Temporary buildings or structures such as reviewing stands, grandstands, sheds, and other miscellaneous structures located on private property shall require a permit application, construction document approval and building permit issuance.

Exception. Temporary buildings or structures erected or used for 30 days or less.

Such buildings or structures need not comply with the type of construction or fire resistive time periods required by the building code provided they do not exceed 500 square feet in area and are separated from other structures and lot lines as determined by the building official.

No temporary building or structure shall be used or occupied without a current temporary certificate of occupancy (TCO). The initial TCO for temporary buildings or structures may be issued for a period not to exceed 180 days. Upon expiration of the TCO, the temporary

building or structure shall be completely removed within 15 days unless the TCO has been extended. When a TCO for a temporary building or structure is renewed or extended, the owner is required to obtain an inspection of the temporary building or structure.

Exceptions:

A. Temporary membrane structures regulated by the Henderson fire code.

(Note: All requirements of the Henderson Fire Code, including required permits and inspection approvals, remain applicable to such membrane structures.)

B. Temporary ATS and structures such as haunted houses and fireworks stands that do not exceed 30 days in duration from erection to removal.

(Note: All requirements of the Henderson Fire Code, including required permits and inspection approvals, remain applicable to such temporary structures, excluding temporary ATS.)

C. Temporary structures such as canopies or fences used for the protection of the public during permitted construction may, when approved by the building official, continue in existence until such time as related construction is completed or protection is no longer required.

(Ord. 2736, § 1 (part), 2008)

15.01.055 Historic buildings.

Repairs, alterations and additions necessary for the preservation, restoration, rehabilitation or continued use of a building, structure and its buildings service equipment may be made without conformance to all the requirements of the technical codes when approved by the building official provided:

A. The building or structure has been designated by official action of the legally constituted authority of the City of Henderson as having special historical or architectural significance;

B. Any unsafe conditions as described in this chapter, the technical codes and the property maintenance code contained in chapter 15.12 of the Henderson Municipal Code are corrected;

C. The repairs, alterations or additions to the building, structure or its building service equipment shall not cause the existing building, structure or building service equipment to be more hazardous based on life safety, fire safety and sanitation than before the repairs, alterations or additions occurred.

(Ord. 2736, § 1 (part), 2008)

15.01.060 Alternate materials and methods of construction.

The provisions of the technical codes are not intended to prevent the use of any material, design, or method of construction not specifically prescribed by the technical codes, provided such alternative has been approved by the building official. An alternative material, design or method of construction may be approved provided the building official finds the proposed alternate is satisfactory and complies with the intent of the technical codes and the proposed alternate is at least equivalent to that prescribed by the technical codes in suitability, strength, effectiveness, fire resistance, durability, performance, safety and sanitation.

The building official shall require that sufficient evidence of proof be provided to substantiate any claims made regarding the suitability of any proposed alternate. The International Code Council Performance Code for Buildings and Facilities may be referenced as a guide for using alternate methods and materials. The building official may require that evidence or proof be submitted for review and acceptance by the board of appeals prior to the granting of an approval. Record of any action granting approval of an alternate shall be kept by the building and fire safety department as required by prevailing law.

Alternates are project-specific and the granting of approval of an alternate for one project does not constitute approval of that same alternate for another project.
(Ord. 2736, § 1 (part), 2008)

15.01.065 Modifications.

Whenever there are practical difficulties in complying with the provisions of the technical codes, the building official shall have the authority to allow modification to the technical codes on an individual case-by-case basis provided the building official first determines that strict compliance with the technical codes is impractical. No modification shall be granted which lessens the requirements of the health, life safety or structural integrity of the technical codes or the intent of those codes as determined by the building official. Record of action granting any modification shall be kept by the building and fire safety department as required by prevailing law.
(Ord. 2736, § 1 (part), 2008)

15.01.070 Tests.

Whenever there is insufficient evidence of compliance with the provisions of the technical codes or evidence that a material or method of construction does not conform to the requirements of the technical codes, or in order to substantiate claims for proposed alternate materials and methods, the building official shall have the authority to require

tests to provide verification of compliance. The permit applicant shall pay the costs of all tests required by the building official. Test methods shall be as specified in the technical codes or by other recognized test methods acceptable to the building official. Tests shall be performed by an approved or recognized agency. Test reports will be retained by the building and fire safety department as required by prevailing law. In the absence of recognized or accepted test methods, the building official shall approve the testing procedures. The building official may require an opinion of a qualified independent third-party professional regarding a proposed testing procedure. The building official shall approve the qualified independent third-party professional in consultation with the permit applicant and the permit applicant shall pay the cost of all third-party review services.
(Ord. 2736, § 1 (part), 2008)

15.01.075 Conflicting provisions.

Whenever conflicting provisions or requirements occur between this chapter, the technical codes and other laws and regulations, the most restrictive shall govern. Where conflicts occur between the technical codes, those provisions providing the greater safety to life shall govern. Where different sections of the technical codes specify different materials, methods of construction or other requirements, the most restrictive shall govern. Where there is a conflict between a general requirement and a specific requirement, the specific requirement shall govern. In any situation in which a conflict may develop between the development code contained in title 19 of the Henderson Municipal Code and the technical codes or this chapter relating to the location or height of buildings and structures, the most restrictive shall govern.
(Ord. 2736, § 1 (part), 2008)

15.01.080 Creation of enforcement agency.

The building and fire safety department is hereby designated as the enforcing agency for this chapter and the technical codes. The building and fire safety director is hereby designated the building official and authority having jurisdiction and is responsible for enforcement of this chapter and the technical codes. Whenever the term or title "administrative authority," "responsible official," "director," "chief inspector," "code enforcement officer," "authority having jurisdiction" or other similar designation is used herein or in the technical codes, it shall be construed to mean the building official.

The building official is authorized and directed to enforce all the provisions of this chapter and the technical codes and shall have the power to prepare, sign and serve misdemeanor citations pursuant to Nevada Revised Statutes 171.17751. The building official may appoint technical officers, plan reviewers, inspectors and other employees to carry out the functions of the building official. The building official may delegate authority and responsi-

bility for enforcement of specific provisions of this chapter and the technical codes to qualified third-parties upon approval by the city council of a contract or memorandum of understanding delegating said authority and responsibility. The building official shall have the power to render interpretations of this chapter and the technical codes and to adopt policies, procedures, rules and regulations supplemental to this chapter and the technical codes to carry out the provisions of this chapter and the technical codes. Such policies, procedures, rules, regulations and interpretations shall be in conformance with the intent and purpose of this chapter and the technical codes.
(Ord. 2736, § 1 (part), 2008)

15.01.085 Enforcement.

Enforcement of this chapter shall comply with the requirements of this section.

A. *Right of entry.* Whenever necessary to make an inspection to enforce any of the provisions of this chapter and the technical codes or whenever there is reasonable cause to believe that there exists in any unoccupied building, structure, building service equipment, ATS or upon any unoccupied premises any condition or code violation which makes such building, structure, building service equipment, ATS or premises unsafe, dangerous or hazardous, the building official may enter such building, structure, building service equipment, ATS or premises at all reasonable times to inspect the same or to perform any duties imposed by the technical codes and this chapter.

When it is necessary to make an inspection to enforce any of the provisions of this chapter and the technical codes, or whenever there is reasonable cause to believe that there exists in any occupied building, structure, building service equipment ATS or upon any unoccupied premises any condition or code violation which makes such building, structure, ATS, or premises unsafe, dangerous or hazardous, the building official shall first make a reasonable effort to locate the owner or other persons having charge or control of the building or premises and demand entry. If entry to a building, structure, building service equipment, ATS or premises is refused, the building official shall have recourse to every remedy provided by law to secure entry, including obtaining a warrant for entry and inspection.

B. *Stop work orders.* Whenever any work is being done contrary to the provisions of this chapter or the technical codes, to an issued permit, or to other pertinent laws or regulations, the building official may order the work stopped by notice in writing served on any persons engaged in the doing or causing such work to be done, and any such person shall forthwith stop such work until authorized by the building official to resume work. Should individuals issued a written stop work notice continue to perform work in violation of that order, the building official may request

the assistance of the code enforcement division of the building and fire safety department or the Henderson police department in enforcing the requirement to stop work. Any person who shall knowingly proceed to do work in violation of a stop work order shall be guilty of a misdemeanor and shall be issued a misdemeanor citation by an authorized police or peace officer. In addition, police officers have the power to arrest individuals who knowingly proceed to do work in violation of a stop work order after having been issued a misdemeanor citation.

Whenever any work has been stopped for one or more of the above stated reasons, an investigative fee may be assessed by the building official to recover the direct and indirect costs of conducting an investigation including the cost of inspections, report preparation, clerical support and supervisory and managerial oversight of the investigation. Investigative fees shall be paid prior to the building official authorizing work to resume.

C. *Occupancy violations.* Whenever any building, structure, building service equipment or ATS regulated by this chapter and the technical codes is occupied or used contrary to the provisions of this chapter, the technical codes or other pertinent laws, ordinances or regulations, the building official may order such occupancy or use discontinued until the building, structure, building service equipment or ATS is brought into conformance with this chapter, the technical codes or other pertinent laws, ordinances or regulations. Such notice shall be in writing served on any person causing such occupancy or use to continue. Persons causing the occupancy or use of a building, structure, building service equipment or ATS found to be in violation of this chapter, the adopted technical codes or other pertinent laws, ordinances or regulations shall discontinue the occupancy or use within the time prescribed by the building official after receipt of written notice. Any person who knowingly continues to occupy or use any building, structure, building service equipment or ATS in violation of written notice shall be guilty of a misdemeanor and shall be issued a misdemeanor citation by an authorized police or peace officer. In addition, police officers have the power to arrest individuals who knowingly continue to occupy or use a building, structure, building service equipment or ATS after having been issued a misdemeanor citation.

D. *Authority to disconnect building service equipment.* When the building official determines that any building service equipment regulated by the technical codes has become hazardous to life, health, property or unsanitary, the building official shall order in writing that such equipment either be removed or restored to a safe or sanitary condition. The written notice shall fix a time limit for compliance with such order. No person shall use or maintain hazardous building service equipment after receiving such notice. When any building service equipment is maintained in

violation of the technical codes and in violation of any notice issued pursuant to the provision of this section, the building official shall institute any appropriate action to prevent, restrain, correct or abate the violation.

1. *Emergency disconnection.* The building official shall have authority to disconnect any utility service equipment supplied to any building, ATS, structure, mobile home, trailer, recreational vehicle or premises regulated by this chapter or the technical codes in case of emergency when necessary to eliminate an immediate hazard to life or property. The building official shall whenever possible notify the serving utility, the owner and the occupant of any building, ATS, structure, mobile home, trailer, recreational vehicle or premises of the decision to disconnect at least 24 hours prior to taking such action, and shall notify in writing such serving utility, owner and occupant of the building, ATS, structure, mobile home, trailer, recreational vehicle or premises of such disconnection immediately thereafter. Upon demand, the owner or occupant shall be granted an immediate pre-disconnect or post-disconnect hearing by the building official.

2. *Non-emergency disconnection.* The building official shall have the authority to disconnect any utility service or energy supplied to any building, ATS, structure, mobile home, trailer, recreational vehicle, premises or building service equipment regulated by this chapter or the technical codes where notification has been provided and where violation of one or more of the technical codes is deemed to be in existence.

Disconnection of utilities is authorized where an electric or natural gas service has been connected to a building, ATS, structure, mobile home, trailer, recreational vehicle or premises that has not been approved for occupancy or operation at that site, or where a permit for temporary power has expired and the electrical connection is still in use.

a. *Notification.* The building official shall issue the notice to the owner of the building, ATS, structure, mobile home, trailer, recreational vehicle or premises and the occupant thereof by personal service or U.S. certified mail (return receipt requested) and posting the entrance of such building, ATS, structure, mobile home, trailer, recreational vehicle or premises. If the building official is unable to notify the owner or occupant by personal service or certified mail, the posting of the entrance of such building, ATS, structure, mobile home, trailer, recreational vehicle or premises shall be considered proper and sufficient notification. The notice shall contain:

(1) The street address or legal description of the property sufficient for identification of the building, ATS, structure, mobile home, trailer, recreational vehicle or premises.

(2) A statement that the building official has determined one or more violations of the technical codes (to be specified in detail) are in existence and that disconnection of utility service(s) or energy connections is authorized by this chapter.

(3) A statement of the action to be taken as determined by the building official which may range from a voluntary disconnection on the part of the owner within a time certain as specified by the building official, to involuntary disconnection at a specified time certain if specific action is not accomplished on the part of the owner such as, but not limited to, application for a zone variance or the removal of the building, ATS, structure, mobile home, trailer, recreational vehicle or premises.

(4) Statements advising that if the stated action to be taken by the owner is not accomplished within a specified period of time as determined by the building official from the date of service of the notice, the building official may order the utility to disconnect service, with the costs for such action to be borne by the owner. Responsibility for damages, losses and liabilities consequent with the loss of utility service shall be borne by the owner and not the City of Henderson, nor its officers or employees.

(5) Statements advising: (1) that any person having any record title or legal interests in the building, ATS, structure, mobile home, trailer, recreational vehicle or premises may appeal the notice to the building official within 15 days from the date of service of such notice; (2) that it is assumed that those referred to as having title or legal interest include the occupant; and (3) that failure to appeal will constitute a waiver of all rights to an administrative hearing and determination of the matter. If the owner or occupant can conclusively demonstrate the likelihood of a loss of human life or serious health endangerment consequent to a loss of power to the site and can further conclusively demonstrate the inability to provide alternate living arrangements for the endangered person, then the building official may stay a disconnect order until such time as a final determination is made by the building official.

b. *Appeals.* Within 15 days upon receipt of an appeal pursuant to (a)(5) above, the building official shall schedule a hearing before the board of appeals. This hearing shall constitute the sole administrative recourse provided. Failure to appeal within 15 days of the date of a notice issued pursuant to this section shall constitute a waiver of all right to an administrative hearing and determination of the matter.

c. *Enforcement.* After any notice of the building official made pursuant to this section shall become final, no person to whom any such notice is directed shall fail, neglect or refuse to obey any such notice. Any such person who fails to comply with any such notice is guilty of a misdemeanor.

d. *Notice to serving utility.* When utility service or energy to such a building, ATS, structure, mobile home, trailer, recreational vehicle or premises is to be disconnected, a written notice of such disconnection and causes therefore shall be provided at least 24 hours prior to such disconnection to the serving utility, the owner and the occupants of such building, ATS, structure, mobile home, trailer, or recreational vehicle.

3. *Removing, or defacing a posted notice or interfering with the posting of a notice.* It shall be a misdemeanor to remove or deface a posted notice or to interfere with the posting of the notice or the disconnection of any utility under the provisions of this chapter.

4. *Connection after order to disconnect.* No person shall make connections from any energy, fuel or power supply nor supply energy or fuel to any building service equipment that has been disconnected or ordered to be disconnected by the building official or the use of which has been ordered to be disconnected by the building official until such time as the building official has authorized the reconnection and use of such equipment.

(Ord. 2736, § 1 (part), 2008)

15.01.090 Liability.

The building official, members of the board of appeals and employees charged with the enforcement of this chapter, the technical codes and other pertinent laws, ordinances and regulations, while acting for the City of Henderson in good faith and without malice in the discharge of the duties required by this chapter, the technical codes and other pertinent laws, ordinances and regulations, shall not thereby be rendered personally liable and is hereby relieved from personal liability for any damage accruing to persons or property as a result of any act or by reason of an act or omission in the discharge of official duties. Any suit instituted against a member of the board of appeals, an officer or an employee because of a performed act or the failure to perform an act by that board member, officer or employee in the lawful discharge of duties and under the provisions of this chapter, the technical codes and other pertinent laws, ordinances and regulations shall be defended by a legal representative of the City of Henderson until final determination of the proceedings. The building official or any subordinate shall not be liable for cost in any action, suit or proceeding that is instituted in pursuance of the provisions of this chapter, the technical codes and other pertinent laws, ordinances and regulations.

(Ord. 2736, § 1 (part), 2008)

15.01.095 Cooperation of other officials and officers.

The building official may request and shall receive the assistance and cooperation of others in the City of Henderson in the enforcement of this chapter, the technical codes and other pertinent laws, ordinances and regulations.
(Ord. 2736, § 1 (part), 2008)

15.01.100 Contract services.

Pursuant to Nevada Revised Statutes 278.575, the building official may contract for plan review services, engineering review services, and inspection services with qualified public agencies, qualified subdivisions of the State of Nevada and qualified private-sector firms and individuals as determined by the building official and in accordance with the applicable City of Henderson purchasing and contracting procedures. The building official shall base the determination of whether agencies, political subdivisions, private-sector firms and individuals are deemed "qualified" based upon objective criteria and the nature of the work to be performed.
(Ord. 2736, § 1 (part), 2008)

15.01.105 Delegation of authority.

The building official may delegate authority to plan review or inspect buildings and structures to qualified political subdivisions of the State of Nevada or other qualified governmental agencies or entities by way of a memorandum of understanding, contract or interlocal governmental agreement that clearly details the delegated duties, responsibilities and obligations.
(Ord. 2736, § 1 (part), 2008)

15.01.110 Unsafe buildings, structures, building service equipment and ATS structures and equipment.

All buildings, structures, building service equipment and ATS structures and equipment regulated by this chapter and the technical codes that are structurally inadequate or have inadequate egress, or that constitute a fire or life safety hazard are, for the purpose of this chapter and the technical codes, unsafe. Building service equipment regulated by this chapter and the technical codes that constitute a fire, electrical or health hazard, or is otherwise dangerous to human life is, for the purpose of this chapter and the technical codes, unsafe.

Any use of buildings, structures, ATS or building service equipment constituting a hazard to safety, health or public welfare by reason of inadequate maintenance, dilapidation, obsolescence, fire hazard, disaster, damage or abandonment is, for the purpose of this chapter and the technical codes, an unsafe use.

Parapet walls, cornices, eaves, spires, towers, tanks, statuary and other appendages or structural members that are supported by, attached to or part of a building or structure and in a deteriorated condition or otherwise unable to sustain the design loads specified in the building code are, for the purpose of this chapter and the technical codes, unsafe building appendages.

All such unsafe buildings, ATS rides and devices, structures, building service equipment, parapet walls, cornices, eaves, spires, towers, tanks statuary and other building appendages or structural members that are supported by, attached to or part of a building are hereby declared to be a public nuisance and shall be abated by repair, rehabilitation, demolition or removal in accordance with the procedures set forth in this chapter, the Uniform Code for the Abatement of Dangerous Buildings as adopted in chapter 15.10 of the Henderson Municipal Code or the property maintenance code adopted in chapter 15.12. The building official shall determine the appropriate abatement regulations to be utilized based upon the nature and degree of hazard involved.
(Ord. 2736, § 1 (part), 2008)

15.01.115 Board of appeals.

The board of appeals is created to hear and decide appeals of determinations made by the building official or fire chief relative to the application and interpretation of the technical codes. The board of appeals is authorized to hear appeals relating to this chapter and the technical codes and to review proposed alternate materials and methods of construction.

A. *Members.* The members of the board of appeals shall be qualified by training and experience to decide matters pertaining to building construction and building service equipment. The members shall not be employees of the City of Henderson. The members of the board of appeals shall consist of the following:

1. Two general contractors;

2. One electrical contractor or electrical engineer;

3. Two mechanical and/or plumbing contractors;

4. One fire protection engineer;

5. One lay member.

B. *Procedures.* The board of appeals shall adopt rules and procedures for conducting its hearings and investigations. A person (the appellant) who wishes to appeal a determination of the building official or fire chief to the board of appeals shall submit a written request for appeal to the building official or fire chief as applicable. The building official or fire chief, as applicable, shall provide the appellant a copy of

the guidelines for preparing an appeal and a copy of the board rules and procedures. The appellant is responsible to prepare the written appeal in compliance with the guidelines.

In order to provide for timely hearing and resolution of appeals, the building official or fire chief shall schedule a hearing before the board upon a determination of the building official or fire chief that a written appeal is in substantial compliance with the board guidelines for preparing an appeal.

The board shall issue a written decision based on the evidence presented at the hearing. The decision shall be signed by the chairman of the board and shall be filed with the building official or fire chief as applicable. A copy of the board decision shall be delivered to the appellant in person or by U.S. certified mail.

C. *Limitation and scope of authority.* The board of appeals shall not have authority relative to the interpretation of the administrative provisions of this chapter or the adopted administrative provisions of the technical codes, nor shall the board be empowered to waive any requirements of this chapter or the technical codes.

D. *Tests.* The appellant shall cause to be made at the appellant's expense any tests or research necessary to support appellant claims before the board of appeals and any tests or research as may be required by the board in its investigation of claims of the appellant.

E. *Liability.* Neither the board of appeals nor any member thereof shall be personally liable for, any damage that may accrue to persons or property as a result of any good faith act or any good faith act omission in the discharge of the duties specified herein. Any suit brought against the board or any member thereof resulting from such act or omission performed, or not performed, by a member of the board acting in an official capacity in the performance of board duties as specified in this chapter shall be considered an act of the City of Henderson and shall be subject to all applicable immunities and rights conferred by law upon the City of Henderson, as well as subject to applicable City of Henderson liability self-insurance or insurance coverage.

(Ord. 2736, § 1 (part), 2008)

15.01.120 Violations.

It shall be unlawful for any person to erect, construct, enlarge, alter, repair, move, improve, remove, convert, demolish, equip, use, occupy or maintain any building, ATS, structure or building service equipment or cause or allow the same to be done in violation of this chapter or the technical codes. Whenever in this chapter or the technical codes any act is prohibited or is made or declared to be unlawful or an offense or a misdemeanor, the doing of any such act shall constitute a violation of this chapter or the technical codes.

adopted administrative provisions of the technical codes, nor shall the board be empowered to waive any requirements of this chapter, the property maintenance code set forth in chapter 15.12, the abandoned residential real property registry set forth in chapter 15.13, or the technical codes adopted by the city.

D. *Tests.* The appellant shall cause to be made at the appellant's expense any tests or research necessary to support appellant claims before the board of appeals and any tests or research as may be required by the board in its investigation of claims of the appellant.

E. *Liability.* Neither the board of appeals nor any member thereof shall be personally liable for, any damage that may accrue to persons or property as a result of any good faith act or any good faith act omission in the discharge of the duties specified herein. Any suit brought against the board or any member thereof resulting from such act or omission performed, or not performed, by a member of the board acting in an official capacity in the performance of board duties as specified in this chapter shall be considered an act of the City of Henderson and shall be subject to all applicable immunities and rights conferred by law upon the City of Henderson, as well as subject to applicable City of Henderson liability self-insurance or insurance coverage. Those members of the board of appeals or any member thereof acting or failing to act while in their official city capacity shall have qualified immunity.

(Ord. No. 3141, § 1, 4-1-2014; Ord. 2736, § 1 (part), 2008)

15.01.120 Violations.

It shall be unlawful for any person to erect, construct, enlarge, alter, repair, move, improve, remove, convert, demolish, equip, use, occupy or maintain any building, ATS, structure or building service equipment or cause or allow the same to be done in violation of this chapter or the technical codes. Whenever in this chapter or the technical codes any act is prohibited or is made or declared to be unlawful or an offense or a misdemeanor, the doing of any such act shall constitute a violation of this chapter or the technical codes.

Any person violating any of the provisions of this chapter or the technical codes shall be deemed guilty of a misdemeanor, and each person shall be deemed guilty of a separate offense for each and every day or portion thereof during which any violation of the provisions of this chapter or the technical codes is committed, continued or permitted to exist and upon conviction of any such violation, such person shall be punishable by a fine of not more than $1,000.00 or by imprisonment for not more than six months, or by both such fine and imprisonment.

(Ord. 2736, § 1 (part), 2008)

15.01.125 Permits required.

Unless exempted by this chapter, no building, structure, ATS, building service equipment, swimming pool, spa, sign, fence or wall regulated by this chapter or the technical

codes shall be erected, constructed, enlarged, altered, repaired, moved improved, removed, converted or demolished unless the appropriate building, electrical, plumbing, mechanical, swimming pool, spa, demolition or other permit(s) has first been obtained from the building official.
(Ord. 2736, § 1 (part), 2008)

15.01.130 Building permit exemptions.

A building permit shall not be required for the following:

A. Buildings, structures, or service equipment and installations directly used in utility generation or distribution which are installed on properly recorded easements and rights-of-way belonging to water, gas, power, telephone or other utility companies that are preemptively regulated and governed by the Nevada Public Service Commission, State of Nevada Charter, or other governmental entity. This exemption does not include site preparation, block walls, fences or habitable public areas such as offices, meeting rooms, and public service counters.

B. Improvements such as traffic lights, streets, curbs, gutters, sidewalks, drainage facilities, bus stops and similar improvements constructed on public property or in a public easement or right-of-way.

C. One-story detached accessory buildings in conjunction with a single family dwelling used as tool or storage sheds, playhouses and similar uses provided the floor area does not exceed 200 square feet;

D. Movable cases, counters and partitions not over five feet nine inches high;

E. Water tanks supported directly on grade if the capacity does not exceed 5,000 gallons and the ratio of height to diameter or width does not exceed two to one;

F. Walks and driveways not more than 30 inches above grade and not part of an accessible route or means of egress and not over any basement or story below;

G. Exterior stairways on-grade and not part of an accessible route or means of egress;

H. Platforms, decks and similar structures not more than 30 inches in height above grade in conjunction with a single-family dwelling;

I. Painting, papering and similar finish work;

J. Structures, booths, sets, and scenery used for motion picture, conventions, television shows, theaters, shows, special events, and similar temporary uses;

K. Window awning supported by an exterior wall of one- and two-family dwellings and garages accessory thereto when projecting not more than 54 inches;

L. A storable swimming or wading pool as defined in the pool code that is accessory to a single-family dwelling and in which the pool walls are entirely above the adjacent grade;

M. Pre-manufactured fabric sun shade and carport structures, wood gazebos and similar structures used in conjunction with a single-family dwelling and not exceeding 200 square feet in area and not permanently affixed to an existing building nor anchored to a permanent foundation;

N. Fences in rear yards without permanent foundations and not over four feet in height;

O. Fences not over 24 inches in height at any location;

P. Retaining walls that are not more than 24 inches in height measured from the top of the footing to the top of the wall;

Q. Hazardous material storage tanks regulated by the fire code;

R. Storage sheds and portable or mobile offices, including construction trailers not exceeding 400 square feet, on an active construction project site;

S. Livestock shade structures open on three sides and not more than 1,500 square feet in area;

T. Non-motorized playground equipment;

U. Storage racks less than or equal to eight feet in height unless designated as high-pile storage;

V. Portable spas accessory to a single-family dwelling with all heating and circulating equipment integral to the manufactured product;

W. Underground structures and facilities housing mechanical equipment constructed by a political subdivision of the State of Nevada and not intended for human habitation;

X. Replacement of existing exterior and interior windows, doors and similar openings not requiring enlargement of the wall opening;

Y. Replacement of existing roofing material of the same or higher class and the same or lighter material and not involving replacement of sheathing;

Z. Installation of additional layers of roofing material over existing roof covering not exceeding the maximum allowable number of layers;

AA. Minor repair of interior or exterior wall covering, such as stucco and drywall, provided the repair area does not exceed ten square feet and the repair work is not performed in conjunction with any other permit;

BB. Structures containing technical service equipment used for meteorological sampling or air quality sampling and testing by local, state or federal government agencies provided the structure does not exceed 240 square feet in area.

Exemption from the permit requirements of this chapter does not authorize any work to be done in violation of the provisions of this chapter, the technical codes, or any other pertinent ordinances, laws or regulations of the City of Henderson.
(Ord. No. 3906, § 2, 9-13-2022; Ord. No. 3141, § 1, 4-1-2014; Ord. 2736, § 1 (part), 2008)

15.01.135 Plumbing permit exemptions.

A plumbing permit shall not be required for the following:

A. The stopping of leaks in drain, soil, waste or vent pipe;

B. The clearing of stoppages or the repairing of leaks in pipes, valves or fixtures, or for the removal and reinstallation of plumbing fixtures, provided such repairs do not involve or require the replacement or rearrangement of valves, pipes or fixtures;

C. Lift stations, septic tanks and package plants regulated by the appropriate serving sanitation utility;

D. Automatic fire sprinkler systems (NOTE: These systems are regulated by the fire code);

E. Piping for dry chemical extinguishing systems serving Type I commercial hoods (NOTE: These systems are regulated by the fire code);

F. Fuel tanks buried or above ground that are regulated by the fire code or the State of Nevada;

G. Landscape water sprinkler systems;

H. Installation or replacement of water softeners where pre-plumbing for the softener is existing;

I. Replacement of plumbing fixtures in the same location with a similar fixture and materials provided no work is done other than the replacement of the fixture, the tail piece and/or the trap and provided the work does not penetrate the fire resistive rated construction, including a fire resistive rated concrete slab.

Exemption from the permit requirements of this chapter does not authorize any work to be done in violation of the provisions of this chapter, the technical codes, or any other pertinent ordinances, laws or regulations of the City of Henderson.
(Ord. 2736, § 1 (part), 2008)

M. Signal wiring outside of buildings installed by licensed and franchised cable television, telephone or buried cable installers;

N. Power-limited wiring of 50 volts or less in or associated with single-family dwellings;

O. Surface-mounted power-limited wiring;

P. Power limited Class II and III wiring not part of a fire system;

Q. Replacement of lighting fixtures in single family residences, dwelling units, guest rooms and guest suites as defined in the NEC;

R. Installation of low voltage devices and data links.

Exemption from the permit requirements of this chapter does not authorize any work to be done in violation of the provisions of this chapter, the technical codes, or any other pertinent ordinances, laws or regulations of the City of Henderson.
(Ord. 2736, § 1 (part), 2008)

15.01.145 Mechanical permit exemptions.

A mechanical permit shall not be required for the following:

A. Any portable heating appliance;

B. Any portable ventilating equipment;

C. Any portable cooling equipment;

D. Any portable evaporative cooler;

E. Any closed system of steam, hot or chilled water piping within any heating or cooling equipment regulated by the mechanical code;

F. Replacement of any component or assembly of an appliance that does not alter its original approval and complies with other applicable requirements of the technical codes;

G. Any refrigerating equipment that is part of the equipment for which a permit has been issued pursuant to the requirements of the technical codes;

H. Any unit refrigerating system as defined in the mechanical code;

I. Replacement of compressors of the same rating;

J. Any piping that is part of a manufacturing process.

Exemption from the permit requirements of this chapter does not authorize any work to be done in violation of the provisions of this chapter, the technical codes, or any other pertinent ordinances, laws or regulations of the City of Henderson.
(Ord. 2736, § 1 (part), 2008)

15.01.150 Grading permit exemptions.

A grading permit shall not be required for the following:

A. Grading in an isolated, self-contained area, not exceeding 100 cubic yards, provided there is no danger to the public, and that such grading will not adversely affect adjoining properties or on-site structures;

B. Excavation for construction of a structure permitted under this Code;

C. Cemetery graves;

D. Refuse disposal sites controlled by other regulations;

E. Excavations for wells or trenches for utilities;

F. Mining, quarrying, excavation, processing or stockpiling rock, sand, gravel, aggregate or clay controlled by other regulatory agencies provided such operations do not affect the lateral support of, or significantly increase stressed in, soil on adjoining properties;

G. Exploratory excavations performed under the direction of a registered design professional.

Exemption from the permit requirements of this chapter does not authorize any work to be done in violation of the provisions of this chapter, the technical codes, or any other pertinent ordinances, laws or regulations of the City of Henderson.
(Ord. 2736, § 1 (part), 2008)

15.01.155 Sign construction permit exemptions.

A sign construction permit shall not be required for the following:

A. Mobile or portable signs;

B. The changing of advertising copy or message on painted or printed signs, theater marquees and similar signs specifically designed for use of replacement copy;

C. Maintenance activities to include only painting, repainting, exact replacement with approved flashers, lamps, bulbs, ballasts, neon tubing, starters, neon transformers, wire or computer components, cleaning or changing the copy unless a structural change is made;

D. Memorial signs or tablets, names of buildings and date of erection when cut into any masonry surface or when constructed of bronze or other noncombustible materials;

E. Construction signs 32 square feet or less;

F. Holiday decorations;

G. Nameplates of four square feet or less;

H. Public signs or notices, or any sign relating to an emergency.

Exemption from the permit requirements of this chapter does not authorize any work to be done in violation of the provisions of this chapter, the technical codes, or any other pertinent ordinances, laws or regulations of the City of Henderson.
(Ord. 2736, § 1 (part), 2008)

15.01.160 Amusement and transportation system permit and certificate of operation exemptions.

Neither an ATS permit nor ATS certificate of operation shall be required for the below listed apparatus:

A. Non-motorized playground equipment;

B. Shows performed on stages that have been designed for such events;

C. Any ATS that is relocated on a regular basis, with or without disassembly, and operated for a period of less than 30 days on any single property such as, but not limited to, fair or carnival ATS;

D. Any ATS installed at single-family residential private property for the exclusive use of the owner and non-paying guests;

E. Repairs or minor modifications to an existing ATS operating under a valid ATS certificate of operation;

F. Mechanical bulls;

G. Non-motorized climbing walls;

H. Inflatable slides and bounce structures.

Exemption from the ATS permit and certificate of operation requirements of this chapter shall not authorize any ATS work, use or operation to be done in violation of the provisions of this chapter, the technical codes, or any other pertinent ordinances, laws or regulations of the City of Henderson.
(Ord. 2736, § 1 (part), 2008)

15.01.165 Permit denial.

The building official may deny the issuance of any permit regulated by this chapter for work on property upon which there exists any violation of this chapter, the technical codes or the Henderson Municipal Code unless the scope of work authorized by such permit includes corrective action to remove said violation.

In addition, the building official may deny the issuance of permits to individuals or firms who have failed to complete work and obtain final inspection approval for previously issued permits resulting in the expiration of those permits.
(Ord. 2736, § 1 (part), 2008)

15.01.170 Subcontractor registration.

Subcontractors performing plumbing, electrical or mechanical work authorized by a combination building permit shall file a subcontractor registration with the building and fire safety department. The submittal shall be by a qualified individual representing the person holding a valid unexpired, un-revoked or un-suspended contractors license as required by the State of Nevada unless specifically exempted by Nevada Revised Statutes chapter 624.
(Ord. 2736, § 1 (part), 2008)

15.01.175 Business license required.

Any contractor or subcontractor required to sign a permit or voucher, or who provides work, services, or other functions for any purpose whatsoever regulated by this chapter or the technical codes adopted by the City of Henderson shall first secure the applicable business license from the City of Henderson finance department.
(Ord. 2736, § 1 (part), 2008)

15.01.180 Amusement and transportation system permit required.

No person shall construct or install any amusement and transportation system (ATS) unless it has been issued an ATS permit for construction or installation. An ATS may not be lawfully operated unless it has passed all required inspections and an ATS certification of operation has been issued. A new ATS permit shall be obtained prior to commencement of work to relocate or substantially modify an existing ATS. A certificate of operation is required before any ATS may be lawfully operated. Possession of the required permit for construction or installation of an ATS shall not be construed to give the right to operate the ATS without having first obtained the required certificate of operation.
(Ord. 2736, § 1 (part), 2008)

15.01.185 Explosive demolitions.

A contractor using explosive devices or materials shall comply with the demolition technical guidelines and shall obtain an explosive demolition permit prior to commencing

preparation work for an explosive demolition. In accordance with the provisions of the fire code, an operation permit is required for the manufacture, storage, handling or use of any quantity of explosives and/or explosive materials.
(Ord. 2736, § 1 (part), 2008)

15.01.190 Permit application.

To obtain a permit for construction or installation as required by this chapter, the applicant shall first file an application in writing on a form furnished by the building official for that purpose. Every such application shall:

A. Identify and describe the work to be covered by the permit for which application is made;

B. Describe the land on which the proposed work is to be done by legal description, parcel number, street address or similar description that will readily identify and definitely locate the proposed work;

C. Indicate the use or occupancy for which the proposed work is intended;

D. Be accompanied by construction documents as required in this chapter;

E. State the valuation of any new building or structure or any addition, remodeling or alteration to an existing building;

F. Be signed by the permittee or an authorized agent of the permittee;

G. Applications for permits for public swimming and wading pools and spas shall have the prior written approval of the Health District of Southern Nevada, together with construction documents;

H. Reference all applicable technical codes, standards and ordinances that regulate the design and construction of the proposed project;

I. Provide such other data and information as may be required by the building official.
(Ord. 2736, § 1 (part), 2008)

15.01.195 Application for amusement and transportation system (ATS) permit.

To obtain an amusement and transportation system (ATS) permit for an amusement and transportation system, the owner/operator shall file an application in writing on a form furnished by the building official for that purpose. A group of identical ATSs may, at the option of the building official, be part of a group application, but shall be individually permitted. Every application shall be accompanied by all required reports, plans, calculations, specifications, data, manuals, fees and other items required by the building official. A

functional description of any computer software used in the operation of an ATS that includes methods to validate changes to the original installation and effects on the operational characteristics shall be included with the permit application.
(Ord. 2736, § 1 (part), 2008)

15.01.200 Submittal of construction documents.

Construction documents shall be submitted in multiple sets as required by the building official with each application for a permit.

Construction documents shall be prepared by a design professional or by a person who qualifies for an exemption pursuant to Nevada Revised Statutes chapters 623, 623A, 624, or 625. The building official may require persons claiming the design exemption to demonstrate their qualifications for the exemption and may require such persons to obtain written confirmation of qualifying for an exemption from the appropriate state or regulatory body.

Construction documents shall contain the name and signature of the design professional, contractor or owner of residential property who prepared the documents or under whose direct supervision the documents were prepared, and must conform to this chapter, the technical codes and the applicable provisions of the development code contained in title 19 of the Henderson Municipal Code. The signature of the design professional, contractor or owner of residential property who prepared the documents, or under whose direct supervision the documents were prepared, shall represent that the person takes responsibility for the content of the construction documents.

The building official may require construction documents to be prepared, stamped and signed by a licensed design professional. Computer generated calculations shall include a complete description of the mathematical model used in the design, program identification, input data, program application and limitations and final results. The building official may require the submittal of the program description (user's manual).

The building official may require a principal design professional be designated for any project that requires multiple disciplines (i.e., architectural, structural, mechanical, electrical, etc.). The principal design professional shall be responsible for the coordination of each aspect of the construction documents. All special inspection and structural inspection requirements shall be clearly specified in the construction documents by the design professional in responsible charge of the design work.

Exception. The building official may waive the submission of plans, calculations, special and structural inspection requirements, etc. if the proposed work is minor in nature and reviewing of plans is not necessary to obtain compliance with this chapter or the technical codes.
(Ord. 2736, § 1 (part), 2008)

15.01.205 Information on plans and specifications.

A. *General.* Plans and specifications submitted to the building official for review and approval shall comply with the requirements of this section. Plans shall be drawn to scale upon substantial paper and shall be of sufficient clarity to indicate the location, nature and extent of the work proposed and show in detail that the work will conform to the provisions of the technical codes and all relevant laws, ordinances, rules, regulations and shall include all components listed in the applicable City of Henderson development services center submittal checklists. All construction documents shall be of sufficient quality to be readable after they are reproduced from microfilm or electronic scanning. All revisions shall be identified with a delta symbol and clouded on the drawings or resubmitted as a new project. It shall be the responsibility of the principal design professional to notify the building official, the permittee and the prime agency of any and all changes to the construction documents throughout the project and provide revised construction documents prior to the commencement of work.

B. *General commercial work.* Prior to the issuance of applicable construction permits, applicants for permit for buildings or portions of buildings used for all occupancies except single-family dwellings shall provide the following plans to the building official unless exempted by the building Official:

1. *Master exit plan.* This plan shall be to scale and show sufficient detail to allow evaluation of existing facilities required by the building code;

2. *Natural gas plan.* This plan shall show the location of main and secondary natural gas distribution centers and areas served;

3. *Electrical plan.* This plan shall show the location of main and secondary electrical power distribution centers and areas served;

4. *Sprinkler plan.* This plan shall show the location of areas served by automatic sprinkler systems, standpipes (Class I, II, or III) and the location of the primary control valves and their locations in the building; and

5. *Fire protection report.* This report shall be required for all facilities with complex fire protection aspects, including high-rise buildings, covered mall buildings, atriums, hospitals, some amusement buildings, facilities with fire effects, and other facilities as determined by the building official. This report shall describe the active and passive fire protection features of the facility and shall describe how the different fire protection aspects interrelate to provide the level of protection intended by the code. This report shall address any unique and/or interpretive fire protection aspects of the facility.

C. *Commercial electrical and fire alarm.* Each application for a permit to install electrical wiring shall have attached thereto drawings showing in detail the riser diagram, proposed materials and method for installation of the wiring and apparatus, and complete load calculations in accordance with the electrical code. When required by the building official, these drawings shall be prepared under the supervision of, and certified by, an electrical engineer, licensed in the State of Nevada, who is well versed in the rules and regulations contained in the electrical code. Modifications of design shall require re-approval by the building official.

D. *Commercial plumbing.* Each application to install plumbing in all occupancies other than single-family dwellings shall have attached thereto a drawing showing in detail the proposed materials and method to be used for installation of fixtures and piping, including calculations where applicable. When required by the building official, these drawings shall be prepared under the supervision of, and certified by, a mechanical engineer, licensed in the State of Nevada, who is well versed in the rules and regulations contained in the plumbing code. Modifications of design shall require re-approval by the building official. Plumbing applications for single-family dwellings shall have attached thereto plans showing fixture layout, and fuel gas piping.

E. *Commercial mechanical.* Each application to install a mechanical system in all occupancies other than single-family dwellings shall have attached thereto a drawing showing in detail the proposed materials and method to be used for installation of the mechanical system, including calculations where applicable. When required by the building official, these drawings shall be prepared under the supervision of, and certified by, a mechanical engineer, licensed in the State of Nevada, who is well versed in the rules and regulations contained in the mechanical code. Modifications of design shall require re-approval by the building official.

F. *Swimming pools*/*spas*/*hot tubs.* Swimming pools, spas, and hot tubs, provided for residential property with an attached or a detached single family residential dwelling unit, shall comply with HMC 14.14. Plans shall include calculations showing the aggregate surface area of all pools, spas, and hot tubs on the lot. The surface area calculation accuracy shall be certified with a statement as follows: "I certify that the surface area calculation is in compliance with the requirements of HMC 14.14." followed by the signature of the design professional, owner/builder or contractor preparing the calculation. Submittals prepared under the owner/builder or contractor exemption shall be attested to accordingly on the drawings in accordance with NRS 623.035(1)(d) and 623A.070(1)(c). Plot plans for swimming pools or spas shall be drawn to a minimum scale of one-eighth inch to the foot. The scale used shall be indicated on the plot plan. The plot plan shall include, but not be limited to, the following information:

1. A north arrow;

2. The location(s), type of material and height of access barriers;

3. For private pools/spas, the applicable location, material, height, device, and/or listing of the safety feature selected to comply with Section 305 of the International Swimming Pool and Spa Code;

4. Property lines and all known utility or other easements;

5. Drainage information showing pool deck drainage;

6. Location and specifications of pool/spa equipment including heating, circulating, filtering and water-handling equipment;

7. Location and specifications of decking, stairs, steps, ladders and underwater lighting fixtures;

8. Dimensions, materials and methods of construction of the proposed pool or spa;

9. All existing structures on the same property or parcel of land within 20 feet of any portion of the proposed pool and/or spa; and

10. Location and distance from any septic system components, leach field, and lines.

Pool and spa applications shall also include a structural plan prepared by a civil or structural engineer or architect, licensed or registered in the State of Nevada, who shall sign the plan with an original signature and affix his stamp. The structural plan shall include the soil bearing capacity, landfill characteristics, reinforcing steel placement, steel diameter, steel specifications, steel thickness, steel strength, method of attachment, and concrete specifications. An approved standard plan may be used. The building official may require any pool application to be accompanied by a soils report from a Nevada licensed civil engineer. All manufactured pools or spas must be listed by an approved agency or recognized agency and shall be installed in accordance with the manufacturer's installation recommendations.
(Ord. No. 3906, § 3, 9-13-2022; Ord. No. 3141, § 1, 4-1-2014; Ord. 2736, § 1 (part), 2008)

15.01.210 Deferred submittals.

For the purposes of this section, deferred submittals are defined as those portions of the design documents that are not submitted at the time of application and that are to be submitted to the building official within a specified period. Deferral of submittal of any required construction documents shall have the prior approval of the building official. Documents approved for deferred submittal shall first be submitted to the registered design professional in responsible charge who shall review the documents and forward the documents to the building official with a notation indicating that the deferred submittal documents have been reviewed and found to be in general conformance with the approved

design. Construction or erection of deferred submittal components shall not occur until the design and deferred submittal documents have been reviewed and approved by the building official.
(Ord. 2736, § 1 (part), 2008)

15.01.215 Design provisions for use with the building code.

The most recent editions of referenced standards may be allowed for use with the building code.
(Ord. 2736, § 1 (part), 2008)

15.01.220 Referenced standards.

Technical guidelines promulgated by the building official shall serve as reference standards as provided for in this chapter. Standards referenced in the technical codes are hereby adopted into, and considered part of the technical codes.
(Ord. 2736, § 1 (part), 2008)

15.01.225 Contractor licensing.

All permits regulated by this chapter shall be issued only to contractors who hold a valid and active Nevada State Contractors License covering the scope of work authorized by the permit and who hold a valid and active City of Henderson business license as required by title 4 of the Henderson Municipal Code.

Exception. The requirements of this section do not apply to persons who are exempted pursuant to Nevada Revised Statutes 624.031 and section 15.01.230 of this chapter.
(Ord. 2736, § 1 (part), 2008)

15.01.230 Homeowner permittees.

A homeowner may be issued a permit for work regulated by this chapter for a single-family dwelling used exclusively by the homeowner as a residence, provided that:

A. The homeowner has been granted an exemption to the contractor licensing requirements of Nevada Revised Statutes 624.031(4);

B. The homeowner is the bona fide owner of the real property on which the residential structure or accessory building is to be built or improved;

C. The residential structure is, or shall be, occupied by the homeowner;

D. The homeowner applies for and obtains the appropriate permits for the installation of any building service equipment; and

E. The homeowner permittee shall sign the permit application and the "owner/builder" statement pursuant to Nevada Revised Statutes 278.573 acknowledging the homeowner's responsibilities as the permittee to supervise the work and to comply with all applicable laws, ordinances, technical codes and the development code requirements contained in title 19 of the Henderson Municipal Code.

(Ord. 2736, § 1 (part), 2008)

2. Modular buildings shall be constructed to the standards and requirements of the technical codes.

B. *Fees.* Fees for modular permits shall be as specified in chapter 15.02 of the Henderson Municipal Code.

(Ord. 2736, § 1 (part), 2008)

15.01.255 Mobile home and manufactured housing parks.

Mobile home and manufactured housing parks shall be constructed and maintained in conformance with all applicable provisions of the technical codes and chapter 15.12 and title 19 of the Henderson Municipal Code.

(Ord. 2736, § 1 (part), 2008)

15.01.260 Building permit issuance.

The permit application and construction documents filed by an applicant for a permit shall be reviewed by the building official. The construction documents may be reviewed by other departments of the City of Henderson to verify compliance with all applicable laws. The building official shall require the application for permit to include verification of applicable utility services including, but not limited to, electrical, water and sewer service prior to the issuance of permit. As a prerequisite to obtaining a building permit or a combination permit, all fees must be paid prior to or at the same time as permit issuance. If the building official finds that the work described in an application for a permit and the construction documents filed with it conform to the requirements of this chapter, the technical codes and other pertinent laws, regulations and ordinances, the building official shall stamp the plans, specifications and related construction documents as "APPROVED."

Approved construction documents shall not be changed, modified or altered without authorization from the building official and all work required by the technical codes, this chapter and other City of Henderson ordinances and regulations shall be completed in accordance with the approved construction documents. Upon identification and verification of appropriate licensing of a contractor or owner/builder exemption and the payment of all fees pursuant to this chapter, a permit shall be issued to the contractor or owner/builder for the described work.

The building official may issue a permit for the construction of part of a building, structure or building service equipment before the construction documents for the entire building, structure or building service equipment have been submitted or approved, provided adequate information and detailed statements have been submitted with the application to show compliance with the requirements of this chapter, the technical codes and other applicable City of Henderson ordinances and regulations. Issuance of a permit for part of

a building, structure or building service equipment shall be granted and the permittee may proceed at the permittee's own risk. The building official may require changes to work authorized for partial construction of a building, structure or building service equipment, whether or not inspection approval of that work has been granted by the building official, based upon final approval of construction documents for the entire building to bring the partial work into conformance with the applicable technical codes, this chapter and other pertinent City of Henderson regulations and ordinances.
(Ord. 2736, § 1 (part), 2008)

15.01.265 Phased design and construction.

The building official may authorize projects to be constructed using a phased design and construction approach. Such authorization must be obtained prior to the submission of construction documents. Final authorization of projects to be constructed using a phased design and construction approach shall be as determined by the building official.

A. *Application.* The applicant shall furnish all information as may be required by the building official including the following:

1. Description of the project including preliminary drawings, if any;

2. Description of the land by parcel(s) on which the project is to be built and the applicant's actions to date to obtain required land use and design review discretionary approvals;

3. Design and construction schedule outlining time-phases of the project;

4. A description of each time-phase specifying the construction to be completed in that phase;

5. The name of the person who will be responsible for coordinating the phasing, plans submittals, design data, re-submittals, correspondence and meetings with the applicant and the building and fire safety department;

6. The name of the principal design professional for the project;

7. A statement indicating the final phase for which the coordinating person will be responsible under each application. All work subsequent to the permitted phases shall be governed by the provisions of this chapter and the technical codes.

B. Reserved.

C. Reserved.

D. *Procedure.* All time-phase submittals to the building official shall include a transmittal letter listing the documents and describing their contents and detailing the purpose and intended outcome of the time-phase submittal. All documents resub-

mitted that have been revised or changed in whole or in part shall contain a revision date and an indication of the type and location of all revisions or changes made. Significant revisions or changes to the documents shall be made in an identical manner of delineation as the original submitted documents.

(Ord. 2736, § 1 (part), 2008)

15.01.270 Combination permit.

The building official may issue a single permit incorporating any combination of the multiple scopes of work governed by one or more of the various technical codes. To obtain a combination permit, the applicant shall complete and file with the building official a permit application on a form furnished by the building official for that purpose and shall submit with the application all construction documents required by the building official pursuant to the applicable provisions of this chapter. Prior to issuing a combination permit, the building official shall require the identification and verification of appropriate licensing of contractors.

When inspections proceed simultaneously, the building official may issue a single permit incorporating several scopes of work governed by one or more of the technical codes; for example, a single permit may be issued for a pool with an attached spa that includes the building, electrical, plumbing and mechanical work.

(Ord. 2736, § 1 (part), 2008)

15.01.275 Retention of plans.

Upon issuance of a permit, one set of stamped approved construction documents shall be returned to the permit applicant and shall be kept on the site of the permitted work at all times during which the permitted work is in progress. One set of approved construction documents of sufficient quality to be readable after they are reproduced from microfilm or electronic scanning shall be retained by the building official until final approval of the permitted work and for the period required for retention of pubic records as specified by the office of the city clerk.

(Ord. 2736, § 1 (part), 2008)

15.01.280 Validity of permit.

The issuance of a permit or approval of construction documents shall not be construed to be a permit for, or an approval of, any violation of any of the provisions of this chapter or the technical codes, or any other code, regulation or ordinance of the City of Henderson. Permits presuming to give authority to violate or cancel the provisions of this chapter, the technical codes, or any other code, regulation or ordinance of the City of Henderson shall be invalid. The issuance of a permit based upon approved construction documents shall

not prevent the building official from thereafter requiring the correction of errors in the construction documents, or from issuing a notice of violation or stop work order when work is not in compliance with the approved construction documents, this chapter, the technical codes or any other code, regulation or ordinance of the City of Henderson.
(Ord. 2736, § 1 (part), 2008)

15.01.285 Permit expiration.

Unless otherwise approved by the building official, the provisions of this section shall apply to all new and existing permits, regardless of the date of permit issuance.

A. *Expiration.* Every permit issued by the building official shall expire by limitation and become null and void if the building or work authorized by such permit is not commenced within 180 calendar days from the date of issuance of such permit, or if the building or work authorized by such permit is suspended or abandoned at any time after the work is commenced for a period of 180 calendar days, or if the building or work authorized by such permit exceeds three calendar years from the date of issuance of the permit.

B. *Inspections required.* Work shall be presumed to have commenced if a required inspection approval of work authorized by the permit has been obtained from the building official within 180 calendar days of the date of permit issuance. Work shall be presumed to be suspended or abandoned if a required inspection approval of work authorized by the permit has not been obtained by the building official within each 180 calendar days upon initial commencement of work authorized by such permit. Before such work can be recommenced, a new permit or renewal permit as specified below shall first be obtained.

C. *Renewal permit—Work not commenced.* For permits for which work has not been commenced in the first 180 days from the date of permit issuance as defined herein, a renewal permit may be obtained provided that:

1. No changes have been made or will be made in the original plans and specification for such work;

2. The expiration has not exceeded three years from the original date of permit issuance;

3. The same edition of the technical codes are in effect as used in the initial review and approval of the construction documents;

4. A fee equal to one-fourth the amount required for a new permit is paid;

5. The renewal permit shall expire three calendar years from date of issuance of original permit; and

7. A statement indicating the final phase for which the coordinating person will be responsible under each application. All work subsequent to the permitted phases shall be governed by the provisions of this chapter and the technical codes.

B. Reserved.

C. Reserved.

D. *Procedure.* All time-phase submittals to the building official shall include a transmittal letter listing the documents and describing their contents and detailing the purpose and intended outcome of the time-phase submittal. All documents resubmitted that have been revised or changed in whole or in part shall contain a revision date and an indication of the type and location of all revisions or changes made. Significant revisions or changes to the documents shall be made in an identical manner of delineation as the original submitted documents.

(Ord. 2736, § 1 (part), 2008)

15.01.270 Combination permit.

The building official may issue a single permit incorporating any combination of the multiple scopes of work governed by one or more of the various technical codes. To obtain a combination permit, the applicant shall complete and file with the building official a permit application on a form furnished by the building official for that purpose and shall submit with the application all construction documents required by the building official pursuant to the applicable provisions of this chapter. Prior to issuing a combination permit, the building official shall require the identification and verification of appropriate licensing of contractors.

When inspections proceed simultaneously, the building official may issue a single permit incorporating several scopes of work governed by one or more of the technical codes; for example, a single permit may be issued for a pool with an attached spa that includes the building, electrical, plumbing and mechanical work.

(Ord. 2736, § 1 (part), 2008)

15.01.275 Retention of plans.

A. Upon issuance of a permit, one set of stamped approved construction documents shall be returned to the permit applicant and shall be kept on the site of the permitted work at all times during which the permitted work is in progress. One set of approved construction documents of sufficient quality to be readable after they are reproduced from microfilm or electronic scanning shall be retained by the building official until final approval of the permitted work and for the period required for retention of pubic records as specified by the office of the city clerk.

B. Notwithstanding provisions stated elsewhere in this title, the city shall not maintain or display a public facility model. However, nothing in this section shall prevent the city from requiring a public utility, public water system or video service provider to provide information about the physical location of the facilities of the public utility, public water system or video service provider for the purpose of:

1. Facilitating a public work; or

2. Facilitating a public improvement project pursuant to a franchise agreement.
(Ord. No. 3324, § 2, 12-15-2015; Ord. 2736, § 1 (part), 2008)

15.01.280 Validity of permit.

The issuance of a permit or approval of construction documents shall not be construed to be a permit for, or an approval of, any violation of any of the provisions of this chapter or the technical codes, or any other code, regulation or ordinance of the City of Henderson. Permits presuming to give authority to violate or cancel the provisions of this chapter, the technical codes, or any other code, regulation or ordinance of the City of Henderson shall be invalid. The issuance of a permit based upon approved construction documents shall not prevent the building official from thereafter requiring the correction of errors in the construction documents, or from issuing a notice of violation or stop work order when work is not in compliance with the approved construction documents, this chapter, the technical codes or any other code, regulation or ordinance of the City of Henderson.
(Ord. 2736, § 1 (part), 2008)

15.01.285 Permit expiration.

Unless otherwise approved by the building official, the provisions of this section shall apply to all new and existing permits, regardless of the date of permit issuance. However, a permit issued prior to September 19, 2022, for construction of a swimming pool, spa, and/or hot tub, having an aggregate water surface area greater than 600 square feet for any residential property with an attached or a detached single family residential dwelling unit, shall comply with the provisions of subsection 15.01.286.

A. *Expiration.* Every permit issued by the building official shall expire by limitation and become null and void if the building or work authorized by such permit is not commenced within 180 calendar days from the date of issuance of such permit, or if the building or work authorized by such permit is suspended or abandoned at any time after the work is commenced for a period of 180 calendar days, or if the building or work authorized by such permit exceeds three calendar years from the date of issuance of the original permit.

B. *Inspections required.* Work shall be presumed to have commenced if a required inspection approval of work authorized by the permit has been obtained from the building official within 180 calendar days of the date of permit issuance. Work shall be presumed to be suspended or abandoned if a required inspection approval of work authorized by the permit has not been obtained by the building official within each 180 calendar days upon initial commencement of work authorized by such permit. Before such work can be recommenced, the permit shall be renewed as specified in subsections 15.01.285(C) and (D).

C. *Permit renewal—Work not commenced.* For permits for which work has not been commenced in the first 180 days from the date of permit issuance as defined herein, the permit may be renewed provided that:

1. No changes have been made or will be made in the original plans and specification for such work.

2. The expiration has not exceeded three years from the original date of permit issuance.

3. The same edition of the technical codes are in effect as used in the initial review and approval of the construction documents.

4. A fee equal to one-fourth the amount required for a new permit is paid.

5. The renewed permit shall expire three calendar years from date of issuance of original permit.

6. The renewed permit shall expire if work is not commenced within 180 calendar days from renewal date.

Where more recent editions of the technical codes have been adopted than used in the initial review and approval of the construction documents, such application for renewal shall be considered as a new submittal. Accordingly, all construction documents shall be updated to reflect the requirements of the current technical codes in effect, a full new review and approval of the construction documents by the building official is required, and a full new plan review fee shall be paid. In instances where, in the opinion of the building official, the changes in the construction document required to reflect compliance with the technical codes are minor in nature, the building official may reduce the plan review fee to reflect the actual total cost (direct and indirect costs) of reviewing the plans. Upon completion of the plan review, the permit may be renewed upon payment equal to one-fourth the amount required for a new permit.

D. *Permit renewal—Work commenced.* For permits where work has commenced as defined herein and was subsequently suspended or abandoned as defined herein, the permit may be renewed provided that:

1. No changes have been made or will be made in the original plans and specification for such work.

2. The expiration has not exceeded three years from the original issuance date.

3. A fee equal to one-fourth the amount required for a new permit is paid.

4. The renewed permit shall expire three calendar years from date of issuance of original permit.

5. The renewed permit shall expire if work is not commenced within 180 calendar days from renewal date.

E. *New permit—Three years from date of original permit issuance.* For permits that have exceeded three years from the date of original issuance, a new permit may be obtained provided that:

1. Construction authorized by the building permit has commenced and has received required inspection approvals as stated herein.

2. No changes have been made or will be made in the original plans and construction documents for such work.

3. A fee equal to the amount required for a new permit is paid, except that where the building official determines that construction has progressed to the point that a lesser fee is warranted, such lesser fee as determined by the building official shall be paid.

Where more recent editions of the technical codes have been adopted than used in the initial review and approval of the construction documents, such application for a new permit shall be considered as a new submittal. Accordingly, all construction documents may be required to be updated to reflect the requirements of the current technical codes in effect. A full new review and approval of the construction documents by the building official may be required, and a full new plan review fee shall be paid. In instances where, in the opinion of the building official, the changes in the construction document required to reflect compliance with the technical codes are minor in nature, the building official may reduce the plan review fees to reflect the actual total cost (direct and indirect costs) of reviewing the plans. Upon completion of the plan review, a new permit may be issued. All work that has passed inspection may not be required to be updated to new codes.

The maximum life of the new permit in accordance with this subsection shall be three calendar years from the date of permit renewal/issuance.

(Ord. No. 3906, § 4, 9-13-2022; Ord. No. 3141, § 1, 4-1-2014; Ord. 2736, § 1 (part), 2008)

15.01.286 Swimming pool, spa, or hot tub permit expiration.

A permit issued prior to September 19, 2022, for construction of a swimming pool, spa, and/or hot tub having an aggregate water surface area greater than 600 square feet, for any residential property with an attached or a detached single-family residential dwelling unit, shall comply with this subsection.

A. *Expiration.* Every permit issued by the building official shall expire by limitation and become null and void if the building or work authorized by such permit is not commenced within 180 calendar days from the date of issuance of such permit, or if the building or work authorized by such permit is suspended or abandoned at any time after the work is commenced for a period of 180 calendar days, or if the building or work authorized by such permit exceeds three calendar years from the date of issuance of the original permit.

B. *Inspections required.* Work shall be presumed to have commenced if a required inspection approval of work authorized by the permit has been obtained from the building official within 180 calendar days of the date of permit issuance. Work shall be presumed to be suspended or abandoned if a required inspection approval of work authorized by the permit has not been obtained by the building official within each 180 calendar days upon initial commencement of work authorized by such permit. Before such work can be recommenced, the permit shall be renewed as specified in subsection 15.01.286(C).

C. *Permit renewal.* Work not commenced or work commenced. For permits for which work has not been commenced in the first 180 days from the date of permit issuance as defined herein or for permits where work has commenced as defined herein and was subsequently suspended or abandoned as defined herein, the permit may be renewed provided that:

1. The original permit has not been extended as outlined in section 15.01.290.

2. No changes have been made or will be made in the original plans and specification for such work.

3. The expiration has not exceeded three years from the original date of permit issuance.

4. A fee equal to one-fourth the amount required for a new permit is paid.

5. The renewed permit shall expire three calendar years from date of issuance of original permit.

6. The renewed permit shall expire if work is not commenced within 180 calendar days from renewal date.

(Ord. No. 3906, § 4, 9-13-2022)

15.01.290 Permit extension.

For unexpired permits, the permittee may apply for an extension of time within which work under that permit may be continued when for good and satisfactory reasons the permittee is unable to commence or continue work within the time required by the chapter. The building official may extend the time for action by the permittee for a period not exceeding 180 calendar days upon written request by the permittee showing that circumstances beyond the control of the permittee have prevented action from being taken. No permit shall be extended more than once unless otherwise approved by the building official. However, a permit issued prior to September 19, 2022, for construction of a swimming pool, spa, and/or hot tub having an aggregate water surface area greater than 600 square feet, for any residential property with an attached or a detached single-family residential dwelling unit, and the original permit has not been renewed as outlined in section 15.01.286 shall not be extended more than one time for a period not exceeding 180 calendar days or not exceeding three calendar years from the original permit issuance date, whichever is less.
(Ord. No. 3906, § 4, 9-13-2022; Ord. No. 3141, § 1, 4-1-2014; Ord. 2736, § 1 (part), 2008)

15.01.295 Timely completion of work.

All work for which a permit is issued shall be completed in a timely manner. Approval of a required inspection must be obtained for work authorized by a permit at least once every 180 days upon issuance. Failure to obtain approval of a required inspection within any 180-day period will result in the expiration of the permit. If work has commenced and the permit for that work has expired, then renewal of the original permit shall be obtained within 60 days of expiration of the permit as specified in subsection 15.01.285(A). If the project on which permit expiration has occurred is not completed in a timely manner as specified herein, the project shall be subject to enforcement action to ensure completion or removal of work authorized by the permit. The building official may grant a waiver of the enforcement action on a case-by-case basis where, in the opinion of the building official, the incomplete work or structure does not present a hazard or nuisance condition or would not reasonably be expected to present negative visual or fiscal impacts to adjacent properties or the neighborhood.
(Ord. No. 3141, § 1, 4-1-2014; Ord. 2736, § 1 (part), 2008)

15.01.300 Suspension or revocation of permits.

The building official may suspend or revoke a permit issued under the provisions of this chapter whenever the permit is issued in error, or on the basis of incorrect information supplied, or in violation of any of the technical codes, this chapter, or any ordinance or regulation of the City of Henderson. A permit may also be revoked or suspended when work authorized by such permit is determined to be unsafe by the building official.
(Ord. 2736, § 1 (part), 2008)

15.01.305 Fees.

Permit, plan review and inspection fees shall be assessed in accordance with the provisions of specific fees set forth in this chapter or as set forth in the fee schedules contained in chapter 15.02 of the Henderson Municipal Code. The payment of fees pursuant to this chapter and chapter 15.02 of the Henderson Municipal Code does not preclude the assessment of other applicable fees. Employing or contracting with a quality assurance agency does not preclude or waive permit, plan review and other relevant fees as set forth in this chapter and chapter 15.02 of the Henderson Municipal Code.

Any issued permit may be suspended or revoked and all work authorized by that permit may be ordered stopped by the building official should the method of payment of required fees result in the failure of the City of Henderson to receive those fees. In the event a method of payment of fees does not result in the City of Henderson receiving required fees, the building official may specify a method of payment that, in the opinion of the building official, will result in required fees being received by the city.
(Ord. 2736, § 1 (part), 2008)

15.01.310 Fee refunds.

The provisions of this section shall govern the refunding of plan review and inspection fees.

A. *Plan check fee refunds.* The building official may authorize refunding of not more than 80 percent of the plan review fee paid when an application for a permit for which a plan review fee has been paid is withdrawn or canceled before any examination time has been expended.

B. *Inspection fee refunds.* In the event of abandonment or discontinuance of work for which a permit has been issued, a refund by the city of certain portions of the permit inspection fees may be approved subject to all of the following:

1. A written request is made by the person or firm who paid the fee;

2. The written request is delivered to the office of the building official within 180 days of the date of permit issuance where no work has commenced or 180 days of the date of last inspection approval or permit extension; and

3. The work approved to date does not present negative visual or fiscal impacts to adjacent properties or the neighborhood.

The portion of the fee to be refunded shall be based upon the following table:

Time at Which Work is Abandoned or Discontinued	***Percentage of Fee to be Refunded***
Subsequent to issue of permit, but prior to any foundation inspection approval	75%

Time at Which Work is Abandoned or Discontinued	*Percentage of Fee to be Refunded*
Subsequent to any foundation inspection approval, but prior to any rough inspections approval	50%
Subsequent to any rough inspections approval, but prior to any final inspection approval	25%

The building official may approve variations from these fee refund provisions in unusual or extenuating circumstances on a case-by-case basis.
(Ord. 2736, § 1 (part), 2008)

15.01.315 Expiration of plan review.

Applications for which no permit is issued within 180 calendar days following the date of application shall expire by limitation and construction documents submitted for review may be returned to the applicant or destroyed by the building official. The building official may extend the time for action by the applicant for a period not exceeding 180 calendar days upon written request by the applicant showing that circumstances beyond the control of the applicant have prevent action from being taken. An application may not be extended more than once. An application shall not be extended if this chapter, the technical codes or any other pertinent laws, ordinances or regulations of the City of Henderson have been amended subsequent to the date of application. In order to review action on an application after expiration, the applicant shall submit plans and pay a new plan review fee.

Exceptions: For large public works and public utilities projects, the building official may grant plan review extensions in instances where more recent editions of the technical codes have been adopted provided that, in the opinion of the building official, there have been no substantial changes to the structural or life-safety requirements of the technical codes in effect at the time of submittal of the original permit application and construction of the project in accordance with those codes will not pose any structural or life-safety hazards to the project occupants or the public.

The building official may grant minor extensions due to hardship or unusual extenuating circumstances on a case by case basis.
(Ord. 2736, § 1 (part), 2008)

15.01.320 Work without permits—Investigative fee.

A. *Investigation.* Whenever any work for which a permit is required by this chapter has commenced without first obtaining a permit or work authorized by a permit exceeds the scope of the permit, a special investigation shall be made before a permit may be issued for such work.

B. *Fee.* The building official may assess an investigative fee, in addition to all other required fees, whether or not a permit is then subsequently issued. The investigative fee shall be as set forth in chapter 15.02 of the Henderson Municipal Code. The payment of such investigative fee shall not exempt any person from compliance with all other provisions of this chapter, the technical codes, and other relevant ordinances and regulations of the City of Henderson.

C. *Voluntary disclosure.* The building official may waive the fees referenced in subsection (B) of this section for voluntary disclosure of work done without a permit; but all costs associated with the investigation shall be reimbursed.
(Ord. 2736, § 1 (part), 2008)

15.01.325 Inspection of existing buildings.

An existing building or structure that is not covered by an existing valid building permit may be inspected by the building official at the owner's or other interested party's request upon payment of an inspection fee based upon the estimated time to perform the inspection and the hourly inspection rate as contained in chapter 15.02 of the Henderson Municipal Code. This service shall be available at the option of the building official.
(Ord. 2736, § 1 (part), 2008)

15.01.330 Witness fees.

Time spent in preparation for a deposition or testimony in a legal proceeding shall be reimbursed at the full-cost (direct and indirect cost) hourly rates specified in chapter 15.02 of the Henderson Municipal or at the full cost-recovery hour rate as calculated by the City of Henderson finance department for hourly rates not specified in chapter 15.02 of the Henderson Municipal Code.
(Ord. 2736, § 1 (part), 2008)

15.01.335 Inspection and survey.

All work for which a permit is required shall be subject to inspection by the building official. In addition, certain types of work shall have continuous inspection as determined by the building official.

The building official may require a survey of the lot upon which construction authorized by a permit is to be performed to verify that site grading is in conformance with the approved construction documents and structures or portions of structures are located in accordance with the approved construction documents.

A. *Inspection access.* It shall be the duty of the permittee to provide access to and means for proper inspection of work authorized by a permit. The permittee shall

cause the work to be exposed for inspection purposes until approved by the building official. Neither the building official nor the City of Henderson shall be liable for expenses incurred in the removal or replacement of any material or construction to provide access to work to be inspected.

B. *Inspection requests.* It shall be the duty of the permittee to notify the building official that work is ready for inspection. Every request for inspection shall be filed at least one workday before such inspection is desired. Failure to provide one workday notification for an inspection is deemed improper notification and the inspection may be rescheduled for the following workday.

C. *Access to inspection record, permit and approved plans.* Work for which a permit is required shall not be commenced until the permittee has made available on the premises the inspection record, approved permit and approved construction documents in such a location as to allow the building official convenient access and use. The inspection record, approved permit and approved construction documents shall be maintained in such location by the permittee until final inspection approval has been granted by the building official.

D. *Inspection approval required to proceed.* All work for which a permit is required shall not be done beyond the stage indicated in each successive inspection without first obtaining the approval of the building official. The building official, upon proper request, shall make requested inspections and shall either indicate that portion of the work is satisfactory as completed or shall notify the permittee or his authorized agent when the work fails to comply with this chapter, the approved construction documents, the technical codes or any ordinance or regulation of the City of Henderson. Any portion of the work that does not comply with this chapter, the approved construction documents, the technical codes or any ordinance or regulation of the City of Henderson shall be corrected and such work shall not be covered or concealed until re-inspected and approved by the building official.

Inspection approval shall not be construed to be an approval of a violation of the provisions of this chapter, the approved construction documents, the technical codes or any ordinance or regulation of the City of Henderson. Inspections presuming to give authority to violate or cancel the provisions of this chapter, the approved construction documents, the technical codes or any ordinance or regulation of the City of Henderson shall not be valid.
(Ord. 2736, § 1 (part), 2008)

15.01.340 Required building inspections.

Reinforcing steel or structural framework of any part of any building or structure shall not be covered or concealed without first obtaining the approval of the building official. Upon receipt of a proper inspection request, the building official shall perform the following inspections:

A. *Foundation inspection.* A foundation inspection shall be performed after excavations for footings are complete and any required reinforcing steel, structural embeds, grounding electrodes, piping and other equipment required by the construction documents or technical codes are in place and before concrete is placed. When required, a pad certification prepared by a licensed civil engineer shall be submitted to the building official prior to the performance of a foundation inspection.

B. *Framing inspection.* A framing inspection shall be performed after all structural and non-structural components are in place as follows:

1. *Wood and light gauge metal construction.* Framing inspection of wood and light gauge metal construction shall be performed after the roof sheathing, all framing, fire blocking, shear panels and bracing are in place and all pipes, chimneys, vents and rough electrical, plumbing and mechanical system components are in place.

2. *Concrete, steel and masonry construction.* Framing inspection of concrete, steel and masonry construction shall be performed after all structural elements required by the approved construction documents and technical codes are in place, including reinforcing steel, structural steel, concrete, masonry, grout and mortar and all structural connections are complete.

C. *Insulation inspection.* An insulation inspection shall be performed after all insulation is installed and fastened in place pursuant to the manufacturer's installation instructions, all caulking and sealing is installed, and all exterior openings are properly flashed.

D. *Lath and/or wallboard inspection.* Lath and/or wallboard inspection shall be performed after all lathing and wall and ceiling board (interior and exterior) is in place and before any plastering is applied or before wallboard joints and fasteners are taped and finished.

E. *Final inspection.* A final inspection and approval of all work, including final grading, shall be performed when the building or structure is completed and ready for occupancy and use but prior to any occupancy or use unless specific prior approval for occupancy or use has been granted by the building official.

Exception. Freestanding walls and fences six feet or less in height. This exemption applies to existing walls constructed under permits issued prior to the effective date of this chapter. (Ord. 2736, § 1 (part), 2008)

15.01.345 Required building service equipment inspections.

All building service equipment for which a permit is required by this chapter or the technical codes shall be inspected by the building official. No portion of any building service equipment shall be concealed until inspected and approved. When the installation of any building service equipment is complete, a final inspection shall be performed. Building service equipment regulated by the technical codes shall not be connected to the water, fuel or power supply or sewer system until authorized by the building official.

A. *Temporary connections.* The building official may authorize the temporary connection of the building service equipment to the source of energy, fuel or power for the purpose of testing building service equipment or for use under a temporary certificate of occupancy.

B. *Replacement of building service equipment.* Building service equipment installed to replace existing building service equipment serving an occupied portion of a building may be operated if a request for inspection of the replacement equipment has been filed with the building official not more than 48 hours after such replacement work was completed and before any portion of the building service equipment is concealed.

C. *Fire and life-safety systems performance verification.* Prior to final inspection of the building, the permittee is responsible to test all components of the fire and life-safety systems and verify the proper operation of such systems. Upon completion of all testing, the general contractor shall perform an overall life safety system test. The system test program shall be submitted to the building official prior to system testing. The system test shall be witnessed by the building official.

(Ord. 2736, § 1 (part), 2008)

15.01.350 Required pool and spa inspections.

Inspection of pools and spas shall comply with the provisions of this section.

A. *Concrete construction.* Upon receipt of a proper inspection request, the building official shall perform the following inspections of pools and spas constructed of concrete:

1. *Steel and bonding.* A steel and bonding inspection shall be performed after excavation is complete, the reinforcing steel is in place per the approved construction documents and all electrical bonding connections are made.

2. *Pre-gunite inspection.* All underground utilities, gas, water and electrical piping shall be completed at this time with required pressure tests.

3. *Pre-plaster inspection.* A pre-plaster inspection shall be performed when all equipment is installed, bonding and electrical work is complete and permanent barriers are in place. All required interior safety devices shall be in place and inspected at this time.

4. *Final inspection.* A final inspection shall be performed when the structure is complete and filled with water. All systems shall be operational and lights and ground fault circuit interrupter (GFCI) tested. The safety barriers and yard drainage shall be re-inspected. If applicable, a gas pressure test will be inspected and gas tag issued when the final inspection is approved.

B. *Manufactured pools and spas.* Upon receipt of a proper inspection request, the building official shall perform the following inspections of manufactured pools and spas:

1. *Underground utility and bonding inspection.* An inspection shall be performed after all trenching and excavation work is complete. All underground utilities, gas, water and electrical piping shall be completed at this time with required pressure tests. Access barriers shall be installed and all electrical bonding connections shall be made. All required interior safety devices must be in place and inspected at this time.

2. *Pre-deck inspection.* A pre-deck inspection shall be performed prior to placing decks. The equipotential grid shall be in place and all electrical work complete. All equipment shall be connected and anchored in place. All permanent barriers shall be complete.

3. *Final inspection.* A final inspection shall be performed when the structure is complete and filled with water. All systems shall be operational and lights and GFCIs tested. The safety barriers and yard drainage shall be re-inspected. If applicable, a gas pressure test will be inspected and gas tag issued when the final inspection is approved.

(Ord. 2736, § 1 (part), 2008)

15.01.355 Required electrical inspections.

Upon receipt of a proper inspection request, the building official shall perform the following electrical inspections:

A. *Concrete-encased electrode ground inspection.* An inspection of the concrete-encased electrode ground shall be performed before or concurrently with the building foundation inspection and prior to the foundation being poured. The concrete-encased electrode ground shall be installed per the electrical code.

B. *Underground electrical inspection.* An underground electrical inspection shall be performed before the building concrete slab or under-floor inspection and after all in-slab or under-floor building service equipment items are in place, but before any concrete is poured or floor sheathing is installed, including sub-flooring.

C. *Rough electrical inspection.* A rough electrical inspection shall be performed before or concurrently with the building framing inspection and after the initial installation of all electrical equipment and conduit or wiring.

D. *Other electrical inspections.* Depending on the type of electrical installation, inspection of additional electrical system components may be required by the building official.

E. *Final electrical inspection.* A final electrical inspection shall be performed when the electrical work is complete and prior to any use or occupancy.

(Ord. 2736, § 1 (part), 2008)

15.01.360 Required plumbing inspections.

Upon receipt of a proper inspection request, the building official shall perform the following inspections:

A. *On-site sewer inspection.* For the purposes of this section, on-site sewers shall be that portion(s) of the sewer system under the jurisdiction and permitted by the building official. An on-site sewer inspection shall be performed after all underground on-site sewer piping is installed, including manholes and cleanouts. Sewer piping shall be tested in accordance with the plumbing code. Portion of the sewer system covered under this section includes piping extending five feet from the building envelope.

B. *Underground plumbing inspection.* An underground plumbing inspection shall be performed after all underground drain, waste, vent and water piping is installed and under test. Portion of the plumbing system covered under this section includes piping extending up to five feet from building envelope.

C. *Rough plumbing inspection.* A rough plumbing inspection shall be performed before or concurrently with the building framing inspection and after all portions of the above-floor drain, waste, vent and water piping systems are installed and under test.

D. *Final plumbing inspection.* A final plumbing inspection shall be performed after all fixtures are in place and connected to the drain, waste, vent and potable water supply systems and prior to any use or occupancy.

(Ord. 2736, § 1 (part), 2008)

15.01.365 Required mechanical inspections.

Upon receipt of a proper inspection request, the building official shall perform the following mechanical inspections:

A. *Rough mechanical inspection.* A rough mechanical inspection shall be performed before or concurrently with the building framing inspection and after all heating, ventilating, air-conditioning and exhaust duct systems are installed, securely fastened and supported in place. Fire and smoke dampers shall be installed pursuant to the manufacturer's listing requirements and installation instructions.

B. *Mechanical equipment testing.* Mechanical equipment shall be tested pursuant to inspection procedures specified in the mechanical code.

C. *Final mechanical inspection.* A final mechanical inspection shall be performed after all heating, ventilating, air-conditioning equipment and exhaust duct systems, gas lines, and refrigeration lines are installed and prior to any use or occupancy.

(Ord. 2736, § 1 (part), 2008)

15.01.370 Occupancy authorization.

A. *Certificate of occupancy (CO).* No building or structure for which a certificate of occupancy (CO) is required shall be used or occupied, and no change in the existing occupancy classification of a building or structure or portion thereof shall be made until such time as the building official has issued a certificate of occupancy (CO) therefore as provided herein. The certificate of occupancy (CO) creates no warranty or guarantee, either expressed or implied. A final inspection approval shall be considered equivalent to the certificate of occupancy (CO) for any building classified as Group U occupancy.

B. *Change in use.* Changes in the character or use of a building shall not be made except as specified in this chapter and the building code.

C. *Issuance of certificate.* After an approved final inspection, the building official shall issue a certificate of occupancy (CO) within three working days. The building official shall not issue a certificate of occupancy (CO) for any building classified in occupancy group A, B, E, H, I or R under the building code until:

1. Final inspection approval has been granted by all applicable city departments and agencies;

2. Verification of the connection of the building service equipment has been completed;

3. Verification that the building or structure has met all the requirements specified in the approved construction documents and permits has been completed.

D. *Temporary certificate of occupancy.* If the building official finds that no substantial hazard will result from occupancy of any building or portion thereof, the building official may issue a temporary certificate of occupancy (TCO) for the use of a portion or portions of a building or structure prior to the completion of the entire building or structure.

E. *Fee for temporary certificate of use of occupancy.* The fee for issuance of a temporary certificate of occupancy (TCO) shall be as set forth in chapter 15.02 of the Henderson Municipal Code. If additional inspection(s) are required prior to the issuance of the temporary certificate, all costs of such inspection(s) shall be paid by the applicant at the full-cost (direct and indirect cost) recovery hourly service rate specified in chapter 15.02 of the Henderson Municipal Code. If a temporary certificate of occupancy (TCO) is not issued within 90 days from the date of application, the request shall become null and void and a new application shall be required if occupancy approval continues to be pursued and all costs of additional inspections shall be paid by the applicant as specified herein.

F. *Certificate posting.* The certificate of occupancy (CO) for buildings classified in occupancy groups A, B, E, H, I, M, and S shall be posted in a conspicuous place on the premises and shall not be removed except by the building official.

G. *Certificate revocation.* The building official may, in writing, suspend or revoke a certificate of occupancy (CO) or a temporary certificate of occupancy (TCO) issued under the provisions of this chapter whenever the certificate is issued in error, or on the basis of incorrect information supplied, or when it is determined that the building or structure or portion thereof is in violation of any provisions of this chapter, the technical codes or other ordinances and regulations of the City of Henderson.

H. *Certificate content.* The certificate of occupancy (CO) or temporary certificate of occupancy (TCO) shall contain the following information:

1. The building permit number;

2. The address of the building;

3. The name of the owner;

4. A description of that portion of the building for which the certificate is issued;

5. A statement that the described portion of the building is in substantial compliance with the requirements of this chapter and the technical codes for the group and division of occupancy and the use for which the proposed occupancy is classified;

6. The name of the building official;

7. Date of issuance.

An approved final inspection, temporary certificate of occupancy (TCO), certificate of occupancy (CO), or an amusement and transportation system (ATS) certificate of operation from the building and fire safety department indicates the building, structure, ATS, or

part thereof for which the approved final inspection was made or certificate was issued, was found by the building official to be in substantial compliance with the provisions of this chapter and the technical codes based upon periodic inspections during construction and, do not create an express or implied warranty or guarantee.
(Ord. 2736, § 1 (part), 2008)

15.01.375 Required amusement and transportation system inspections.

All amusement and transportation systems (ATS) shall be inspected in accordance with the requirements of the technical codes, the technical guidelines, the approved operations and maintenance manual, the amusement and transportation code and any special requirements of the permit for a specific ATS.

The installing contractor or manufacturer shall be responsible to obtain all required inspection and testing services and furnish an inspection and testing report to the building official for each ATS for its initial installation on a site. Thereafter, the owner/operator of an ATS is responsible to obtain all required inspection and testing services and furnish an inspection and testing report to the building official for each ATS when required by the approved operations and maintenance manual. Reports of inspection and testing, as required, shall be made by an approved quality assurance agency. Reports that indicate non-compliance with the approved construction documents or operation and maintenance manual shall require a reinspection and written report of compliance before a renewal ATS certificate of operation will be issued.

The building official may perform unannounced monitoring inspections for the purpose of determining operational compliance with the approved operation and maintenance manual. Should the inspection identify non-compliance with the technical codes, the operation and maintenance manual or the conditions of the certificate of operation, the owner/operator shall bear the full cost of the unannounced monitoring inspection at the full cost-recovery hourly rate as specified in chapter 15.02 of the Henderson Municipal Code or as calculated by the City of Henderson finance department. Any additional monitoring inspections due to non-compliance reports or deficiencies found will also be charged to the owner/operator who shall be responsible for paying those costs.
(Ord. 2736, § 1 (part), 2008)

15.01.380 Amusement and transportation system (ATS) certificate of operation.

A valid ATS certificate of operation is required for the operation of an ATS after initial installation. Each ATS shall have an individually issued certificate of operation in accordance with the requirements of this section.

A. *Initial amusement and transportation system certificate of operation.* After the ATS permit is finalized and all requirements for operation are completed satisfactorily, the building official shall issue the initial ATS certificate of operation for the ATS. No additional application or fees are required for the initial ATS certificate of operation certificate.

B. *Expiration.* An ATS certificate of operation expires one year from the date of issuance. Prior to expiration, the owner/operator is responsible to make an application to the building official for renewal of the ATS certificate of operation in accordance with the requirements of this chapter and the technical codes. No ATS certificate of operation shall be renewed or extended without meeting all requirements of the amusement and transportation code, the technical guidelines and this chapter. No ATS shall be used or operated with an expired certificate of operation.

C. *Application for renewal.* To obtain a renewal of the ATS certificate of operation, the owner/operator shall file an application no less than 30 days prior to the certificate expiration. When grouped, amusement and transportation systems may, at the option of the building official, be part of a group application, but shall have individual certificates issued for each ATS. Every application for certificate renewal shall be accompanied by all required inspection reports, fees and other items required by the building official. Third-party inspection and/or testing shall be performed in accordance with the requirements of the approved operations and maintenance manual for all ATSs governed by this chapter. Any such inspection and testing reports issued since the last monitoring inspection or initial installation of the ATS, whichever is more recent, shall be provided to the building official at the time of application for a renewal of the ATS certificate of operation. The ATS certificate of operation shall be issued only after a third-party inspection report is submitted and approved, a building and fire safety department monitoring inspection is satisfactorily completed and all fees are paid.

D. *Revocation.* The building official may, in writing, revoke or suspend an ATS certificate of operation when it is issued in error or on the basis of incorrect information supplied, or the ATS is in violation of any ordinance or regulation or any of the provisions of this chapter, the amusement and transportation code, the technical guidelines and the technical codes.

E. *Certificate posting and display.* The ATS certificate of operation shall be posted on the ATS or at an alternate location near the ATS approved by the building official. In instances where the certificate is posted at an approved alternate location, a notice shall be placed on the ATS indicating the actual location of the ATS certificate of operation.

(Ord. 2736, § 1 (part), 2008)

15.01.385 Reinspection fees.

A reinspection fee as specified in chapter 15.02 of the Henderson Municipal Code may be assessed for each initial inspection or reinspection of work if any of the following conditions occur:

A. Work for which inspection is requested is not substantially complete;

B. Corrections identified in a previous inspection are not substantially complete;

C. The permit, approved plans and documents pertinent to the requested inspection such as geotechnical report, structural calculations, electrical load calculations, energy calculations, manufacturer listings, etc. and the inspection record are not readily available on the job site;

D. Access to the work to be inspected is not provided or is so restricted that the requested inspection cannot be performed;

E. Work for which the inspection is requested has been covered or otherwise concealed;

F. Work that requires inspection approval prior to the requested inspection has not been approved.

This section shall not be interpreted as requiring reinspection fees the first time a job is rejected for failure to comply with the requirements of this chapter or the technical codes, but as controlling the practice of requesting inspections before work is ready for inspection or reinspection. In instances where reinspection fees have been assessed, no additional inspection of the work shall be performed until the required reinspection fees have been paid.

(Ord. 2736, § 1 (part), 2008)

15.01.390 Dedicated inspection services.

A building permit permittee may request that the building official assign one or more dedicated inspectors to be available on-site to immediately perform inspections upon request. The building official has the option of granting or denying such requests based upon the nature and extent of work to be inspected and the availability of sufficient staff to

provide such services. The permittee shall, as a condition of granting the request, pay in advance the total cost (direct and indirect cost) of providing such services as determined by the building official in addition to normal inspection fees. The building official shall determine the appropriate inspector classification to be assigned to inspect the work based on the type and scope of work to be inspected. An agreement setting forth conditions of such dedicated inspection services may be required by the building official.
(Ord. 2736, § 1 (part), 2008)

15.01.395 Inspection of atypical or unusual work.

In situations where the scope and nature of work is atypical or unusual and exceeds the technical knowledge and skills of conventional inspection personnel, the building official may determine that specialized inspection services are required. Upon determination that specialized inspection services are required, the building official shall notify the permittee of that determination and the permittee shall pay the total cost (direct and indirect cost) of such specialized inspection services. The building official shall determine the appropriate qualifications of individuals to perform specialized inspections based upon the type and scope of atypical or unusual work to be inspected. An agreement setting forth conditions of specialized inspection services may be required by the building official.
(Ord. 2736, § 1 (part), 2008)

15.01.400 Inspection agencies.

The building official is authorized to accept reports of approved inspection agencies, provided such agencies satisfy the requirements as to qualifications, licensing and approval.
(Ord. 2736, § 1 (part), 2008)

15.01.405 Special inspections.

Special inspections shall comply with the provisions of this section.

A. *General.* In addition to the inspections required elsewhere in this chapter, certain types of work shall have special inspections as specified in the building code . The special inspections shall be conducted by the building official or by an approved quality assurance agency approved by the building official. Special inspections conducted by an approved quality assurance agency shall be performed as provided in this chapter and the technical codes. Methods of complying with special inspection requirements are found in the technical guidelines.

B. *Special inspection by an approved quality assurance agency.* When special inspections by an approved quality assurance agency are required, the owner or the

design professional acting as the owner's agent shall employ a prime agency. The prime agency shall provide special inspections in accordance with the special inspection agreement as required by this chapter and the technical codes. No change of the prime agency shall be made without the approval of the building official.

Projects designated by the building official as requiring special inspection by an approved quality assurance agency shall not be issued a permit until the special inspection agreement is executed by the owner or the owner's agent, the designated prime agency and the building official.

C. *Special inspection by other than a prime agency.* Upon approval of the building official, other persons may provide special inspections in the following cases:

1. Where the required special inspection is to be performed by the design professional responsible for construction documents approved by the building official pursuant to this chapter;

2. Where, in the opinion of the building official, the nature of the work requires inspection by a person having specialized technical knowledge and skill to inspect and test specialized work for which the prime agency may not be qualified or authorized to inspect. In such cases, the building official may approve other persons to perform the required special inspection.

Persons acting pursuant to this section accept all duties and responsibilities of a quality assurance agency including reporting requirements.

D. *Stop work orders.* If the building official determines that an approved special inspector is failing to properly perform special inspection services, or that an unapproved special inspector performed, or is performing, special inspection services, the building official may order the special inspection work stopped. Once stopped by the building official, special inspection work may only resume upon written agreement between the quality control manager of the quality assurance agency and the building official. If the building official determines that the owner has made changes to the prime agency without prior approval after the special inspection work has commenced, the building official may order the special inspection work stopped. Once stopped by the building official, special inspection work may only resume upon submittal of a compliance report or other evidence that the special inspection work completed prior to the agency change complies with the approved construction documents, this chapter and the technical codes.

E. *Subcontracted special inspection.* The prime agency designated in the special inspection agreement may subcontract special inspection services to another approved quality assurance agency. The prime agency is responsible for overall coordination and issuance of the required final report. The prime agency and the

subcontracted agency shall notify the building official in writing of a subcontracting arrangement. The written notification shall identify the prime agency, the subcontracted agency, and the division of scope of work prior to commencement of the work. The engineering manager of the prime agency shall provide a written declaration that they are in responsible charge of all subcontracted special inspections. The prime agency is responsible for notifying the building official in writing of any changes in the designated subcontracted agencies.

F. *Waiver of special inspection.* The building official may waive the requirement for the employment for an approved quality assurance agency where minor quantities or amount of work requiring special inspection are involved or when the work is performed at the facility of an approved fabricator or manufacturer.

G. *Special inspection requests.* Special inspection requests shall be coordinated between the designated prime agency and the contractor. The permittee shall verify that the prime agency has the most current set of approved construction documents. The permittee is responsible to establish and maintain communication with the prime agency and quality assurance agency throughout the construction process. The permittee shall provide sufficient notice to the prime agency to schedule special inspection services. Construction work is subject to a stop work order for failure to establish and maintain the required special inspection process.

H. *Types of work requiring special inspection.* Special inspection shall be as required by the technical codes. In addition, the building official may require special inspection of work identified by the building official as unique and requiring specialized knowledge to verify proper and safe construction or installation.

I. *Approved special inspection personnel.* Special inspection personnel, fabrication shop inspectors, or quality systems auditors must demonstrate competence to the satisfaction of the building official, achieve and maintain national certification(s), as required for the special inspections to be performed, and meet the applicable requirements of the technical guidelines. The approved special inspection personnel shall be employed by an approved quality assurance agency, a design professional approved to perform special inspections, or the building official.

J. *Duties and responsibilities of the quality assurance agency and special inspector.* Approved special inspectors and approved quality assurance agencies shall perform all duties imposed in this chapter, the technical codes, the referenced standards and the technical guidelines.

The approved special inspector shall inspect the types of work identified in the special inspection agreement for conformance with the approved construction documents, the technical codes, the referenced standards and the technical guidelines. The approved special inspector shall report to the job sufficiently in advance

of the commencement of work to become familiarized with the approved construction documents. The approved special inspector shall write a non-compliance report (NCR) when approved construction documents or the permit are not available on the premises at the time of special inspection. The approved special inspector shall immediately notify the contractor and shall immediately submit a copy of the noncompliance report to the building official.

The approved agencies shall notify the building official in writing of commencement of special inspection activities on a project.

1. *Reports.* The approved special inspector is responsible for the following reports:

a. *Daily report by special inspector.* The approved special inspector shall write daily reports and provide such other information as may be required by the building official within the scope of the special inspector's duties. The approved special inspector shall also furnish inspection reports as required by the technical guidelines. The approved special inspector shall immediately notify the contractor and the building official in writing of non-conformance with the approved construction documents or other violations of the technical codes and technical guidelines within the scope of the special inspector's activities and duties. Notification shall be within 24 hours and may be accomplished by fax or, upon approval of the building official, transmitted electronically. All daily reports prepared by a special inspector pursuant to this chapter and the technical codes and technical guidelines are the property of the City of Henderson and shall be made available upon request of the building official.

b. *Final reports.* The approved quality assurance agency shall submit a final report to the building official stating whether all specified special inspections were completed, documented, and found to be in compliance with the approved construction documents, technical codes and technical guidelines. Final reports shall not be submitted to the building official until all non-compliance reports have been cleared by the approved quality assurance agency. Final reports shall include all non-compliance reports with dates of approval of corrective action, the completed job card and the job history record.

Final reports shall be reviewed by a Nevada licensed professional engineer or registered architect and have an original signature and licensure seal prior to submittal to the building official. The stamp and original signature shall be on a cover letter that certifies the required special inspections were completed or exceptions taken and documented as being acceptable to the building official.

Final reports requiring more than two reviews shall be charged fees for additional reviews on a full cost-recovery hourly rate (direct and indirect costs) specified in chapter 15.02 of the Henderson Municipal Code or calculated by the City of Henderson finance department.

c. *Maintenance of records.* Approved agencies shall maintain records of all inspection reports, laboratory test results, and other documents generated during the performance of inspections, material testing, and other related activities on a project. Those records shall be maintained by the approved agencies for a period specified by the applicable referenced standards, but not less than two years from the date the final report was documented as approved.

(Ord. 2736, § 1 (part), 2008)

15.01.410 Quality assurance agency.

Each approved quality assurance agency (QAA) shall meet the following requirements:

A. *Approval by the building official required.* To perform special inspections as set forth in the technical codes, reference standards and technical guidelines, a quality assurance agency must be approved by the building official, who shall maintain a list of approved quality assurance agencies. The building official shall establish rules and regulations for approval and listing and the conduct of approval quality assurance agencies. rules and regulations for the approval and listing requirements shall be contained in the technical guidelines.

B. *Employment of special inspectors.* The approved quality assurance agency is responsible to employ only approved special inspectors for work requiring special inspection pursuant to the technical codes, technical guidelines and referenced standards.

C. *Quality management.* The quality assurance agency shall employ at all times a quality control manager to carry out supervision and technical responsibilities. The quality control manager shall possess appropriate education, certifications and experience. The quality assurance agency is responsible to notify the building official within 14 days of any changes in the designated quality control manager. Failure to do so shall result in the immediate forfeiture of the quality assurance agency's approval status.

The quality assurance agency, through its quality control manager, is responsible to the building official for:

1. Hiring and training of qualified special inspectors and testing technicians;

2. Supervision of special inspectors;

3. Filing of accurate and complete reports based upon actual inspection and testing results;

4. In-house distribution and application of technical guidelines;

5. Supervising and documenting the internal audit and in-house training program.

D. *Engineering management.* The prime agency shall employ a Nevada licensed professional engineer or registered architect as an engineering manager who shall be in responsible charge and accountable to the building official for technical processes used to verify compliance with approved construction documents and the technical codes. Failure to comply with the requirement for engineering management shall result in the immediate forfeiture of the quality assurance agency's approval status.

The prime agency, through its engineering manager, is responsible to the building official for:

1. Directing the operations of testing and special inspection;

2. Certifying the special inspection and testing processes for all projects that require special inspection;

3. Supervision and performing a review to ensure special inspections are performed pursuant to the approved construction documents, technical guidelines and the technical codes and within the scope of the permit;

4. Directing and reviewing the internal audit and in-house training program.

E. *Conflict of interest.* Quality assurance agencies shall conform to the conflict of interest technical guidelines.

(Ord. 2736, § 1 (part), 2008)

15.01.415 Approved fabricators/manufacturers.

To perform work identified in this section, fabricators/manufacturers shall be approved by the building official who shall maintain a list of approved fabricators/manufacturers. Approved fabricator/manufacturer shall perform all duties imposed through this chapter, technical codes, and the technical guidelines.

A. *Approval required.* Approval is required for the following fabricated/manufactured products and systems:

1. Engineered structural wood products;

2. Engineered structural metal products and assemblies;

3. Structural metal storage racks over eight feet in height;

4. Metal stairs, balconies, and assemblies;

5. Engineered metal canopies;

6. Amusement and transportation systems (ATS);

7. Pre-cast and/or pre-stressed concrete products;

8. Ready-mix concrete;

9. Exterior insulation and finish systems;

10. Panelized wall systems;

11. Other products or systems as the building official may designate.

B. *Requirements for approval.* Each fabricator/manufacturer shall apply for approval using forms obtained from the building official and pay the fees as provided in this chapter. General approval requirements are listed below with additional detail provided in the technical guidelines:

1. Verification of the fabricator/manufacturer quality control capabilities, equipment and personnel as outline in the manufacture/fabrication procedural manual;

2. Periodic inspection of the fabricator/manufacturer shall be conducted to monitor the effectiveness of the quality control program;

3. Notify the building official in writing of any changes to the manufacture/fabrication procedural manual.

An approved fabricator/manufacturer shall have an established written quality control program. The quality control program shall verify fabrication compliance with the technical codes and technical guidelines. The quality control program, through inspection and testing processes, shall provide documentation sufficient to meet the intent of the special inspection requirements of this chapter, the technical codes and the technical guidelines.

C. *Conditional approval.* Conditional approval requirements are detailed in the technical guidelines. Conditional approval allows for the initial listing of a fabricator/manufacturer that has met minimum requirements equivalent to those contained in the technical guidelines. A conditional approval may also be provided for approved fabricators/manufacturers that require time to resolve findings identified and reported as part of the auditing process.

D. *Requirements for a one-time permit-specific approval.* A fabricator/manufacturer requesting one-time permit-specific approval shall apply for approval using forms

provided by the building official and pay the fees as provided in this chapter and chapter 15.02 of the Henderson Municipal Code. The fabricator/manufacturer shall be qualified as specified in the technical guidelines.

(Ord. 2736, § 1 (part), 2008)

15.01.420 Condition, suspension or revocation of approval for special inspectors, quality assurance agencies and fabricators/manufacturers.

A. *Procedures.* The building official may establish procedures to identify and resolve problems that interfere with the proper functioning of the special inspection process, including actions by special inspection personnel, quality assurance agencies and fabricators/manufacturers. Such procedures may include informal resolution and voluntary compliance by the special inspection personnel, quality assurance agency and fabricator/manufacturer.

B. *Sanctions.* The building official may condition, suspend or revoke the approval of any special inspection personnel, quality assurance agency or fabricator/manufacturer as prescribed in subsections (B)(1) and (B)(3) of this section. Conditions, suspensions and revocations shall be for a period to be determined by the building official. The building official may require any individual or firm to retest or recertify in their specific category at the end of the sanctions or revocation period. Revocations and sanctions may be appealed as specified [in] section 15.01.425 of this chapter.

1. *Suspension of approval.* Approved status of listed special inspection personnel, quality assurance agency, or fabricator/manufacturer may be suspended for any of the following grounds: incompetence; conflict of interest; willful or negligent failure to inspect the work; failure to establish and maintain job site supervision; failure to report non compliances; violations of approved construction documents; technical codes or technical guidelines; or any other failure to perform the duties designated for approved special inspection personnel, quality assurance agencies, or fabricators/manufacturers, as documented in two or more notices of violation issued pursuant to the chapter and the technical guidelines within 12 months of the agency's annual renewal date. Conditions placed to lift the suspension and restore approved status shall be determined by the building official and indicated in the written notification of suspension of approved status.

2. *Automatic revocation.* Approval of a special inspection personnel, qualify assurance agency and fabricator/manufacturer shall be automatically revoked for the following causes:

Causes for Automatic Revocation		
Approved Quality Assurance Agency	***Approved Fabricator Manufacturer***	***Approved Special Inspector***
Failure to pay renewal fee within 45 days of renewal date	Failure to pay renewal fee within 45 days of renewal date	Failure to pay renewal fee within 45 days of renewal date
Failure to document internal quality control audits	Failure to submit the required quality control document as a condition of renewal	Failure to maintain certifications for specific approvals in accordance with the technical guidelines
Failure to pay administrative and investigative fees within 45 days of assessment	Failure to pay administrative and investigative fees within 45 days of assessment	Failure to pay administrative and investigative fees within 45 days of assessment
Failure to employ a quality control manager		
Failure of prime agency to employ an engineering manager		

Request for reinstatement after revocation shall be treated as a new application.

C. *Conditional approval.* Previously approved personnel which have unresolved performance issues may be granted full approval after verification that similar performance issues do not recur during a three month conditional approval period. Performance issues are those documented in notices of violation during a period of 12 months prior to a request to be approved. Verification activities and approval conditions during the conditional approval period are as specified in the technical guidelines.

D. *Fees.* In addition to other fees that may be imposed pursuant to this chapter, the building official may impose other administrative and investigative fees as specified in this chapter and chapter 15.02 of the Henderson Municipal Code.

(Ord. 2736, § 1 (part), 2008)

15.01.425 Special inspector, quality assurance agency and fabricator/manufacturer complaints, hearing and appeal procedures.

The provisions of the section apply to the administration of complaints, hearings and appeals regarding special inspectors, quality assurance agencies and fabricators/manufacturers.

A. *Complaints.* Complaints alleging facts, that if true, would constitute ground to condition, suspend or revoke an approval or certification of a special inspector,

quality assurance agency or fabricator/manufacturer shall be submitted in writing to the building official. The complaint shall be verified, and supporting documents, with numbered pages, shall be attached to the complaint. Building and fire safety department staff may be a complaining party. Facts asserted in the complaint shall be referenced to the page in the supporting documentation where the matters relied upon are to be found.

The special inspector, quality assurance agency or fabricator/manufacturer against whom the complaint is filed shall be notified of the complaint and shall have an opportunity to submit a written response to the complaint. The written response shall set forth facts that respond to the allegations contained in the complaint. Supporting documents, with numbered pages, shall be attached to the written response. Facts asserted in the response shall be referenced to the page in the supporting documentation where the matters relied upon are to be found.

B. *Designation of hearing officer.* Upon receipt of a complaint, the building official shall designate a hearing officer to conduct an investigation of the facts that are the basis of the complaint. The hearing officer shall set a reasonable time in which to respond, but the time shall be no less than 21 days from the date the notice of the complaint is mailed to the special inspector, quality assurance agency or fabricator/manufacturer. The hearing officer shall review the complaint and response and all supporting documents. The hearing officer may request additional information from the involved parties.

After completing the review, the hearing officer shall make a report of findings of fact to the building official and recommend an appropriate remedy. The special inspector, quality assurance agency or fabricator/manufacturer shall receive a copy of the hearing officer's report and recommendations. The report shall be sent by certified mail, return receipt requested.

C. *Building official review of hearing officer report and recommendations.* The building official shall review the hearing officer's report and recommendations. The building official may accept, modify or reject the report and recommendations. The building official shall prepare a final report of findings of fact and shall impose an appropriate remedy. The special inspector, quality assurance agency or fabricator/manufacturer shall be notified of the decision of the building official no later than ten calendar days upon completion of the review of the hearing officer's report and recommendations. The notice shall be sent certified mail, return receipt requested.

D. *Appeal to the building official.* The complaining party, special inspector, quality assurance agency or fabricator/manufacturer that is the subject of a complaint made pursuant to this section may appeal the hearing officer's report of findings of fact and recommendations to the building official. A written notice of appeal shall be

submitted to the building official no later than ten calendar days after notice of the hearing officer's report and recommendations are mailed to the special inspector, quality assurance agency or fabricator/manufacturer. The written notice of appeal shall address disputed findings and recommendations in the hearing officer's reports. Supporting documents, with numbered pages, may be attached to the written notice. Facts asserted in the notice shall be referenced to the page in the supporting documentation where the matters relied upon are to be found. Failure to file a timely written notice of appeal as specified in this section shall be a waiver of further administrative remedy.

The hearing of the appeal shall be conducted by the building official no later than ten calendar days upon receipt of a written notice of appeal. Procedures for conducting the hearing shall be established by the building official and shall allow the parties to be represented by legal counsel and provide an opportunity for each party to present facts based upon supporting documentation in support of their respective positions. The building official may accept, modify or reject the report of the findings of fact and the recommendations of the hearing officer.

Upon concluding the hearing, the building official shall prepare a final report of findings of fact and shall impose an appropriate remedy. The special inspector, quality assurance agency or fabricator/manufacturer shall be notified in writing of the building official's decision no later than ten calendar days upon conclusion of the hearing by the building official. The notice shall be sent certified mail, return receipt requested.

E. *Appeal to the board of appeals.* The complaining party, special inspector, quality assurance agency or fabricator/manufacturer that is the subject to a complaint made pursuant to this section may appeal the building official's final report of findings of fact and determinations to the board of appeals as specified in section 15.01.115 of this chapter.

(Ord. 2736, § 1 (part), 2008)

Chapter 15.02 DEVELOPMENT SERVICES SCHEDULE OF FEES

Sections:

15.02.010 Adoption of development services schedule of fees.
15.02.020 Annual report.
15.02.030 Evaluation and recommendations.

15.02.010 Adoption of development services schedule of fees.

The fees for services provided in the development services center shall be calculated pursuant to the most recently adopted development services schedule of fees on file in the development services center. Sufficient copies to meet public demand for such schedule shall be available for public use at the development services center.
(Ord. No. 4075, § 1, 5-20-2025; Ord. 2295, §§ 1 (part), 3, 2004)

15.02.020 Annual report.

After the close of each fiscal year, but in no case later than September 30, the development services center manager and the city finance director shall provide a written report to the city council regarding the status of the DSC enterprise fund. The report shall, at a minimum, contain summary information regarding annual revenues, annual costs, the amount of any reserve funds, capital expenditures made during the prior year and anticipated capital expenditures proposed for the next fiscal year. Such report shall be made available to interested members of the public and development industry representatives.
(Ord. 2295, §§ 1 (part), 3, 2004)

15.02.030 Evaluation and recommendations.

The DSC manager, in consultation with the development services center industry advisory committee, shall use the information contained in the financial summary report to evaluate the need for fee adjustments and make annual recommendations to city council regarding the need for such adjustments.
(Ord. No. 4075, § 1, 5-20-2025; Ord. 2295, §§ 1 (part), 3, 2004)

Chapter 15.08 BUILDING CODE*

Sections:

15.08.010 Adoption by reference.
15.08.020 Code amended.
15.08.030 Substantial compliance standard.
15.08.040 Compliance required—Penalty for violations.
15.08.050 Effective date.

15.08.010 Adoption by reference.

The City of Henderson adopts as its building code the 2024 International Building Code as published by the International Code Council in its entirety excepting amendments and changes as stated in this chapter. This code is available online through the International Code Council.

(Ord. No. 4083, § 2, 7-15-2025; Ord. No. 3907, § 1, 9-13-2022; Ord. No. 3504, § 1, 8-7-2018; Ord. No. 3040, § 1, 8-6-2013; Ord. No. 2898, § 2, 1-18-2011)

15.08.020 Code amended.

The City of Henderson adopts as an amendment to the 2024 International Building Code the booklet entitled Southern Nevada Proposed Amendments to the 2024 International Building Code, is adopted in its entirety excepting amendments and changes as stated in this chapter. This booklet is available on the city's website(s).

The booklet is further amended by replacing the definition of ventilation well in Section 202, by replacing section 406.5.2.2 and by replacing Section 504.4 as follows:

VENTILATION WELL. A vertical open area used to provide natural ventilation with an unobstructed opening to sky at the top. The well is bound on three sides by walls with the fourth side having openings to the structure requiring natural ventilation.

406.5.2.2 Opening above grade. When ventilation wells are used to satisfy natural ventilation requirements for open parking garages, the width of the ventilation well opening to sky shall be one and one-half times the height of the adjacent structure to the bottom of the lowest required opening. The minimum required width of the ventilation well shall be maintained for not less than the length of the required openings. The width

***Editor's note—**Ord. No. 2898, §§ 1, 2, adopted January 18, 2011, repealed and reenacted chapter 15.08 in its entirety to read as herein set out. Formerly, chapter 15.08, §§ 15.08.010—15.08.050 pertained to similar subject matter, and derived from Ord. No. 1801, § 2(part), adopted 1998; Ord. No. 2180, § 3(part), adopted 2003; Ord. No. 2494, § 1(part), adopted 2008, and Ord. No. 2539, § 1(part), adopted 2006.

Subsequently, Ord. No. 4083, § 1, adopted July 15, 2025, changed the title of chapter 15.08 from "International Building Code" to "Building Code."

of the ventilation well is not required to exceed 30-feet. The building shall be provided with a horizontal air intake opening at the bottom not less than 160 square feet and leading to the exterior of the building surrounding the open parking garage.

Exception: The ventilation well opening width is not restricted if any of the following are met or provided:

1. Supplemental mechanical ventilation meeting the requirements of Section 406.6.2 is provided for the open parking garage.

2. An engineering analysis proving equivalent natural ventilation requirements are met.

504.4 Number of Stories. The maximum number of stories of a building shall not exceed the limits specified in Table 504.4.

(Ord. No. 4137, § 2, 12-16-2025; Ord. No. 4083, § 3, 7-15-2025; Ord. No. 3907, § 2, 9-13-2022; Ord. No. 3824, § 2, 12-7-2021; Ord. No. 3669, § 2, 3-3-2020; Ord. No. 3504, § 1, 8-7-2018; Ord. No. 3040, § 1, 8-6-2013; Ord. No. 2898, § 2, 1-18-2011)

15.08.030 Substantial compliance standard.

In the enforcement of the specific provisions of the adopted technical codes and standard, the building official is authorized to grant minor variations from the strict application of specific code and standards provisions where, in the opinion of the building official, the work is in substantial compliance with the intent of the adopted codes and standards.

(Ord. No. 3040, § 1, 8-6-2013)

Editor's note—Ord. No. 3040, § 1, adopted August 6, 2013, repealed the former section 15.08.030 in its entirety, which pertained to amendments to the 2009 International Building Code and to the Southern Nevada Amendments to the 2009 International Building Code, and derived from Ord. No. 2898, § 2, adopted January 18, 2011. Subsequently, the former sections 15.08.040—15.08.060 were redesignated as sections 15.08.030—15.08.050. The historical notation has been preserved for reference purposes.

15.08.040 Compliance required—Penalty for violations.

Any person, firm or corporation violating any provision of this chapter is guilty of a misdemeanor and upon conviction thereof shall be punished as provided by law for a misdemeanor offense. Each separate date or any portion thereof during which any violation of this chapter occurs or continues shall be deemed to constitute a separate offense, and upon conviction thereof shall be punishable as herein provided.

(Ord. No. 3040, § 1, 8-6-2013; Ord. No. 2898, § 2, 1-18-2011)

Note—See editor's note at section 15.08.030.

15.08.050 Effective date.

This chapter shall become effective on January 2, 2026.

(Ord. No. 4083, § 4, 7-15-2025; Ord. No. 3907, § 3, 9-13-2022; Ord. No. 3504, § 1, 8-7-2018; Ord. No. 3040, § 1, 8-6-2013; Ord. No. 2898, § 2, 1-18-2011)

Chapter 15.09 RESIDENTIAL BUILDING CODE*

Sections:

15.09.010 Adoption by reference.
15.09.020 Code amended.
15.09.025 Reference standard.
15.09.030 Substantial compliance standard.
15.09.040 Compliance required—Penalty for violations.
15.09.050 Effective date.

15.09.010 Adoption by reference.

The City of Henderson adopts as its residential building code the 2024 International Residential Code as published by the International Code Council in its entirety excepting amendments and changes as stated in this chapter. This code is available online through the International Code Council.

(Ord. No. 4084, § 2, 7-15-2025; Ord. No. 3505, § 1, 8-7-2018; Ord. No. 3041, § 1, 8-6-2013; Ord. 2885, § 1, 12-7-2010; Ord. 2541, § 1 (part), 2006; Ord. 2181, § 1 (part), 2003)

15.09.020 Code amended.

The City of Henderson adopts as an amendment to the 2024 International Residential Code the booklet entitled "Southern Nevada Amendments to the 2024 International Residential Code" amending the 2024 International Residential Code, is adopted in its entirety. This booklet is available on the city's website(s).

(Ord. No. 4084, § 2, 7-15-2025; Ord. No. 3505, § 1, 8-7-2018; Ord. No. 3041, § 1, 8-6-2013; Ord. 2885, § 1, 12-7-2010; Ord. 2541, § 1 (part), 2006; Ord. 2181, § 1 (part), 2003)

15.09.025 Reference standard.

The City of Henderson adopts, as the reference standard building code for use with its residential building code, the 2024 International Building Code as published by the International Code Council in its entirety, as amended by the booklet entitled "Southern Nevada Amendments to the 2024 International Building Code." The reference standard building code is available online through the International Code Council's website. The booklet is available on the city's website.

(Ord. No. 4084, § 2, 7-15-2025; Ord. No. 3908, § 1, 9-13-2022)

15.09.030 Substantial compliance standard.

In the enforcement of the specific provisions of the adopted technical codes and standards, the building official or designee is authorized to grant minor variations from the

Chapter 15.10 UNIFORM CODE FOR DANGEROUS BUILDINGS ABATEMENT

Sections:

15.10.010 Adopted.
15.10.015 City council approval required for demolition.
15.10.020 Violation—Penalty.

15.10.010 Adopted.

The city adopts and conforms to the Uniform Code for the Abatement of Dangerous Buildings, 1997 Edition as revised, copies of which are on file in the office of the Henderson City Clerk.

(Ord. No. 3142, § 1, 4-1-2014; Ord. 1778, § 1, 1997; Ord. 1568, § 1, 1995; Ord. 1350, § 1, 1992; Ord. 1110, § 4, 1989; Ord. 966, § 1, 1985; Ord. 860, § 2, 1982)

15.10.015 City council approval required for demolition.

No building which has been ordered demolished as authorized in the Uniform Code for the Abatement of Dangerous Buildings, 1997 Edition, shall be destroyed or demolished without prior approval of the city council.

(Ord. 1778, § 2, 1997; Ord. 1568, § 2, 1995; Ord. 1350, § 2, 1992; Ord. 966, § 2, 1985)

15.10.020 Violation—Penalty.

Any person violating any terms and provisions of this chapter shall be deemed guilty of a misdemeanor.

(Ord. No. 3142, § 1, 4-1-2014; Ord. 860, § 2, 1982)

Chapter 15.11 EXISTING BUILDING CODE*

Sections:

15.11.010 Adoption by reference.
15.11.020 Code amended.
15.11.030 Amendment to the International Existing Building Code.
15.11.040 Substantial compliance standard.
15.11.050 Compliance required—Penalty for violations.
15.11.060 Effective date.

15.11.010 Adoption by reference.

The City of Henderson adopts as its existing building code the book entitled "2024 International Existing Building Code" as published by the International Code Council in its entirety excepting amendments and changes as stated in this chapter. This code is available online through the International Code Council.
(Ord. No. 4085, § 2, 7-15-2025; Ord. No. 3506, § 1, 8-7-2018)

15.11.020 Code amended.

The City of Henderson adopts as amendments to the "2024 International Existing Building Code" the booklet entitled "Southern Nevada Amendments to the 2024 International Existing Building Code." This booklet is adopted in its entirety excepting amendments and changes as stated in this chapter. This booklet is available on the city's website(s).
(Ord. No. 4085, § 2, 7-15-2025; Ord. No. 3506, § 1, 8-7-2018)

15.11.030 Amendment to the 2024 International Existing Building Code.

The following sections of the 2024 International Existing Building Code are added or revised as follows:

Add the following new definition to Section 202 GENERAL DEFINITIONS:

> HIGH RISE BUILDING. Any building built prior to adoption of the 2018 International Building Code having occupied floors more than 55 feet (16 764 mm) above the lowest level of fire department vehicle access. Any building built after adoption of the 2018 International Building Code having occupied floors more than 75 feet (22 860 mm) above the lowest level of fire department vehicle access.

***Editor's note—**Ord. No. 4085, § 1, adopted July 15, 2025, changed the title of chapter 15.11 from "International Existing Building Code" to "Existing Building Code."

Amend Chapter 16 reference standards ICC A117.1 as follows:

ICC

….

ICC A117.1 — 09 Accessible and Usable Buildings and Facilities.

….

(Ord. No. 4085, § 2, 7-15-2025; Ord. No. 3506, § 1, 8-7-2018)

15.11.040 Substantial compliance standard.

In the enforcement of the specific provisions of the adopted technical codes and standards, the building official or designee is authorized to grant minor variations from the strict application of specific code and standards provisions where, in the opinion of the building official, the work is in substantial compliance with the intent of the adopted codes and standards.

(Ord. No. 3506, § 1, 8-7-2018)

15.11.050 Compliance required—Penalty for violations.

Any person, firm or corporation violating any provision of this chapter is guilty of a misdemeanor and upon conviction thereof shall be punished as provided by law for a misdemeanor offense. Each separate date or any portion thereof during which any violation of this chapter occurs or continues shall be deemed to constitute a separate offense, and upon conviction thereof shall be punishable as herein provided.

(Ord. No. 3506, § 1, 8-7-2018)

15.11.060 Effective date.

This chapter shall become effective on January 2, 2026.

(Ord. No. 4085, § 2, 7-15-2025; Ord. No. 3506, § 1, 8-7-2018)

Chapter 15.12 PROPERTY MAINTENANCE CODE

Sections:

15.12.010 General provisions.
15.12.020 Definitions.
15.12.030 General property maintenance standards.
15.12.040 Nonresidential buildings and structures maintenance standards.
15.12.050 Residential buildings and structures maintenance standards.
15.12.060 Enforcement provisions.
15.12.070 Code enforcement abatement revolving fund.
15.12.080 Purpose.
15.12.090 Fee schedule.

15.12.010 General provisions.

A. *Short title.* This chapter shall be known as the City of Henderson Property Maintenance, Habitability and Public Nuisance Code and shall be referred to herein as "this Code".

B. *Purpose.* The purpose of this Code is to promote the life, health, safety, aesthetic, economic, and general welfare of the citizens of the city and protect neighborhoods against nuisances, blight, and deterioration by establishing minimum requirements for the occupancy and maintenance of all residential and nonresidential buildings, whether vacant or occupied, and the maintenance of all land, whether improved or unimproved.

C. *Application—Conformity required.*

1. *Application.* This Code shall apply to all existing residential and nonresidential buildings, structures, and lands and portions thereof without regard to the use, date of construction, improvement, or alteration.

2. *Existing buildings.* Buildings and portions thereof in existence at the time of the adoption of this Code that are not currently in compliance with this Code may continue their non-compliance if such buildings or portions thereof were legal at the time of their original design and provided continued use is not dangerous to life, health, and safety.

3. *Historic buildings.* This Code does not apply to existing buildings, structures, or premises designated by the state or city as historic when such buildings, structures, or premises are judged by the building official to be safe and do not contain unhealthful or blighted conditions. Any enforcement of this Code against buildings, structures, or premises designated by the State of Nevada as historic shall comply with all state law applicable to historic preservation.

4. *Maintenance.* Equipment, systems, devices, and safeguards required by this Code or a previous regulation or code under which the structure or premises was constructed, altered, or repaired shall be maintained in good working order. No owner, owner's authorized agent, operator, or occupant shall cause any service, facility, equipment, or utility that is required under this section to be removed from, shut off from or discontinued for any occupied dwelling, except for such temporary interruption as necessary while repairs or alterations are in progress. The requirements of this Code are not intended to provide the basis for removal or abrogation of fire protection and safety systems and devices in existing structures. Except as otherwise specified herein, the responsible party as defined in Section 15.12.020 shall be obligated to maintain buildings, structures and premises in compliance with the requirements of this Code.

5. *Relocation.* Existing buildings and structures that are moved or relocated shall be made to conform to the requirements of this Code.

6. *Repairs.* Repairs, additions, or alterations to a structure, or changes in occupancy of a structure, shall be done in accordance with the applicable procedures and provisions of the International Building Code, International Existing Building Code, International Energy Conservation Code, International Fire Code, International Fuel Gas Code, Uniform Mechanical Code, International Residential Code, Uniform Plumbing Code, NFPA 70 (National Electrical Code), and Title 19 of the Henderson Municipal Code ("Development Code").

7. *Dangerous buildings and structures.* Buildings, structures, or portions thereof determined to be dangerous may be abated in accordance with this Code or the most current edition of the Uniform Code for the Abatement of Dangerous Buildings and amendments thereto, as adopted by the City of Henderson and referenced in Chapter 15.10 of the Henderson Municipal Code (the Uniform Code and Chapter 15.10 are collectively referred to as "HMC 15.10"). No building or structure or part thereof determined to be dangerous may be demolished by the city without first following the provisions of HMC 15.10.

8. *Conflict of ordinances.* The operation of this Code shall in no way change or diminish the effect of other ordinances in the Henderson Municipal Code dealing with like or similar matters. In any case where a provision of this Code is found to be in conflict with a provision of any zoning, building, fire safety, or health ordinance, or other section of the Henderson Municipal Code, the provision which establishes the most restrictive standard for the promotion and protection of health and safety shall prevail. It is not intended by this Code to repeal, abrogate, annul, or in any way impair or interfere with existing provisions of other laws or ordinances or with private restrictions placed upon property by covenant, deed, or other private agreement,

except those specifically repealed at the time of adoption of this property maintenance code. In cases where two or more provisions of this Code conflict, the most stringent and restrictive shall prevail.

(Ord. No. 3910, § 1, 10-4-2022; Ord. No. 3733, § 1, 10-20-2020; Ord. No. 3177, § 1, 6-17-2014; Ord. 2483, § 1 (part), 2006)

15.12.020 Definitions.

For the purpose of this chapter, all terms used herein are intended to have standard definitions, meanings and connotations, and are intended to be consistent with the meaning ascribed to them in other chapters of the Henderson Municipal Code and the Nevada Revised Statutes as limited in scope as specified below:

Abandoned nuisance activity, within the scope of this chapter, means:

1. Instances of unlawful breaking and entering or occupancy by unauthorized persons;

2. The presence of graffiti, debris, litter, garbage, abandoned materials, inoperable vehicles, or junk appliances;

3. The presence of unsanitary conditions or hazardous materials;

4. The lack of adequate lighting, fencing or security;

5. Indicia of the presence or activities of gangs;

6. Environmental hazards;

7. Violations of city codes, ordinances, or other adopted policy; or

8. Any other activity, behavior, conduct, or condition defined by this Code or any other provision of the Henderson Municipal Code to constitute a threat to the public health, safety, or welfare of the residents of or visitors to the city.

Abandoned vehicle. See *Vehicle.*

Accumulation of inoperable vehicles. See *Vehicle.*

Alteration means any construction or renovation to an existing structure other than repair.

Animal means an animal as defined by Title 7 of the Henderson Municipal Code.

Architectural pool or pond means a constructed or excavated exterior area designed to contain a regular supply of water other than a swimming pool or spa.

Blight or *blighted* means unsightly conditions, including but not limited to: the accumulation of debris; fences or walls characterized by holes, breaks, rot, crumbling, cracking, peeling, or rusting; landscaping that is dead, characterized by uncontrolled growth or lack of maintenance, or is damaged; or the exterior visible use or display of tarps, plastic sheeting, or similar materials as flexible or inflexible screening, fencing, or wall covering upon a residential lot, regardless of the condition of other properties in the neighborhood.

Building code means the most current edition of the International Building code or the International Residential Code and amendments thereto adopted by the City of Henderson and referenced in chapter 15.08 and 15.09 of the Henderson Municipal Code.

Building official means the person who oversees the Division of Building and Fire Safety at the City of Henderson, or his/her designee.

Chronic nuisance means a nuisance as defined in NRS 268.4124, including but not limited to three or more public nuisances or nuisance activities as defined in this chapter occurring within any 30-day period.

Code enforcement official ("code official") means any City of Henderson personnel authorized by the director to enforce the provisions of this chapter.

Congregate residence means any building or portion thereof which contains facilities for living, sleeping, and sanitation, as required by this Code, and may or may not include facilities for eating, cooking, or for occupancy. A congregate residence may be a shelter, convent, monastery, dormitory, and fraternity or sorority house, but does not include jails, hospitals, nursing homes, hotels, or lodging houses.

Dangerous structure or condition means a structure or condition as defined in NRS 268.4122, including but not limited to any building or structure determined to be dangerous by the building official pursuant to HMC 15.10, and any condition that may cause injury to or endanger the health, life, property, or safety of the general public or the occupants, if any, of the real property on which the condition is located.

Debris means materials which may be present in accumulations including, but not limited to: deteriorated lumber; old newspapers; furniture parts; stoves; sinks; cabinets; household fixtures; refrigerators; car parts; abandoned, broken, or neglected equipment; or the scattered remains of items.

Deterioration means a lowering in quality of the condition or appearance of a building, structure or premises or parts thereof, characterized by holes, breaks, rot, crumbling, cracking, peeling, rusting, or any other evidence of physical decay, damage, neglect, or lack of maintenance.

Development Code means Title 19 of the Henderson Municipal Code.

Director means the Director of the City of Henderson Community Development and Services Department.

Dwelling or *dwelling unit* means a single unit providing complete and independent living facilities for one or more persons including provisions for living, sleeping, eating, cooking, and sanitation.

Enforcement means City efforts to secure compliance with the provisions of this Code, including but not limited to review of plans and permit applications, response to complaints,

notices of violation, orders, administrative citations, fines, fees, and other legal processes. Except as otherwise provided in this part, "enforcement" may include inspections of existing land, buildings, and structures.

Efficiency dwelling unit means a dwelling unit containing only one habitable room and meeting the requirements for an exception to the minimum floor area requirements specified in this chapter.

Excavation means a well, shaft, trench, cellar, basement, cesspool, septic tank, pit, swimming pool, fishpond, or other similar condition resulting in a hole.

Exterior opening means any open or closed window, door, or passage between interior and exterior spaces.

Extermination means the elimination of insects, rodents, or other pests by eliminating their harborage places, removing or making inaccessible materials that serve as their food or water, or other approved pest elimination methods.

Fences, screen walls and/or retaining walls means self-standing structures designed to provide semi-private security or cut/slope retention between grade separations.

Garbage means putrescible animal and vegetable wastes resulting from the handling, storage, sale, preparation, cooking, and serving of food.

Graffiti shall have the meaning set forth in NRS 268.4075.

Habitable space means space in a structure for living, sleeping, eating, or cooking. Bathrooms, toilet rooms, closets, halls, storage or utility spaces, and similar areas are not considered habitable space.

Health hazard means the presence of any item(s) or condition(s) that adversely impact or jeopardize the health of an individual. Such items or conditions include, but are not limited to evidence of occupancy without adequate water and sanitation facilities, human or animal waste, medical or biological waste, syringes, gaseous or combustible materials, dangerous or corrosive chemicals or liquids, flammable or explosive materials, friable asbestos, offal, and decay matter, or any other hazard identified by the health officer as defined herein.

Health officer means the representative of the Southern Nevada Health District who is authorized to enforce health regulations in the City of Henderson.

Hot water means water supplied to a plumbing fixture at a temperature of not less than 110 degrees Fahrenheit (49° degrees Celsius).

Illegal discharge means any direct or indirect non-storm water discharge to the storm drain system that is not exempted in Henderson Municipal Code section 13.04.100.

Imminent hazard means any condition associated with real property that presents a substantial likelihood that death, serious illness, severe personal injury, or a substantial endangerment to health, property, or the environment may occur before such hazard can be eliminated by the standard enforcement procedures set forth in section 15.12.060.E.

Infestation means the presence of insects, rodents, reptiles, or pests in quantities large enough to be potentially harmful or threatening as determined by the health officer or a licensed extermination contractor.

Inoperable vehicle. See *Vehicle*.

Litter means decaying or non-decaying solid and semi-solid wastes, including but not limited to: both combustible and non-combustible wastes such as paper, trash, cardboard, water material, cans, yard clippings, wood, glass, bedding, debris, scrap paving material, discarded appliances, discarded furniture, piles of earth mixed with any of the above or any foreign objects, or any waste as determined by the health officer. Lodging house means any building or portion thereof containing not more than five guest rooms available for rent.

Mechanical code means the most current edition of the Uniform Mechanical Code and amendments thereto adopted by the City of Henderson and referenced in chapter 15.24 of the Henderson Municipal Code. The mechanical code regulates the design, construction, installation, quality of materials, location, operation and maintenance, or use of heating, ventilating, cooling, refrigeration systems, incinerators, and other miscellaneous heat-producing appliances within the city.

Occupant means a person, persons, or legal entity that, through rights of ownership or tenancy, has possession or the use and enjoyment of the subject real property.

Owner means a person, persons, or legal entity listed as current titleholder to real property as recorded in the official records of the Clark County Recorder's office.

Perimeter wall means any wall composed of stone, brick, concrete, concrete blocks, masonry, iron, or similar building material, together with footings, pilasters, outriggers, grillwork, gates and other appurtenances, constructed around the perimeter of a residential subdivision or residential lot.

Person means any individual, firm, association, organization, partnership, business trust, corporation, or company.

Plumbing code means the most current edition of the Uniform Plumbing Code and amendments thereto adopted by the City of Henderson and referenced in chapter 15.20 of the Henderson Municipal Code. The plumbing code regulates the erection, installation, alteration, repair, relocation, replacement, addition to, use or maintenance of plumbing systems and equipment with the city.

Pond means a body of water that is less than 18 inches deep. The definition does not apply to city-approved detention basins or other like facilities.

Private property means any real property within the city that is not owned by the City of Henderson or another governmental entity.

Public area means an area that is owned and maintained by the city and/or any other governmental entity for its use or the use of its citizens.

Public nuisance or *nuisance activity* includes but is not limited to:

1. The presence of debris, litter, garbage, rubble, refuse, abandoned vehicles, inoperable vehicles, discarded appliances or other waste allowed to accumulate on private property;

2. Any violation of the uniform building code, as adopted and amended by title 15 of this Code, that is declared to be a hazard to the public health, safety, and welfare of the residents of the city;

3. Any violation of the uniform fire code, as adopted and amended by title 15 of this Code, that is declared to be a hazard to the public health, safety, and welfare of the residents of the city;

4. Any body of water which by its nature, condition, and/or location constitutes an unhealthy, dangerous or unsafe condition;

5. Any structure or object which by its nature, location, and/or character would tend to attract and endanger the safety of any minor person;

6. Any structure declared by the building official to be dangerous pursuant to the uniform code for the abatement of dangerous buildings as adopted and amended by chapter 15.10 of this Code;

7. Any dangerous or unsafe condition as defined herein;

8. Weeds, noxious plant growth, deteriorated and/or dead or substantially dead vegetation, trees or plants;

9. Criminal activity occurring on private property and caused or committed by the owner or responsible party;

10. Excessive noise;

11. A substandard building;

12. An unsecured vacant structure and/or unlawful habitation of any portion of a vacant structure or property;

13. Any violation of the Development Code, including but not limited to the following:

a. The keeping of any animals on private property not in compliance with the provisions of HMC Title 19 and Title 7, where applicable; and

b. The display of any signs on private or public property that are not in compliance with the provisions of HMC Title 19.

14. The use of any temporary shelter, structure, or building, or litter, debris, or other similar material as a dwelling on public or private property unless otherwise permitted or approved in writing by the city;

15. The use of recreational vehicles (RV) as living quarters on any premises other than a licensed and permitted RV park or resort. An RV shall be deemed used as living quarters if it is connected to sanitary sewer and/or municipal water sources;

16. Any illegal discharge as defined in section 15.12.020;

17. The presence of shopping cart(s) on residential property or any non-residential property other than the commercial property in which the shopping cart(s) were originally intended to be used;

18. Any unlawful burning on public or private property including, but not limited to:

(a) The kindling or maintaining of any indoor or outdoor fire without authorization of the fire department and/or not in conformance with HMC 8.37.060 and 8.37.070, or

(b) The burning of solid waste, hazardous waste, and/or recyclables without a written permit from the fire department;

19. The removal and/or transportation of liquid waste from any property without written approval from the Southern Nevada Health District; and

20. Any construction or building activity between the hours of 6:00 p.m. and 6:00 a.m. without approval of the building official or as further described in HMC 8.84.030.E.

Refuse means those discarded materials that have no useful physical, chemical, or biological properties after serving their original purpose and that cannot be reused or recycled for the same or other purposes.

Responsible party means an owner, owner's authorized agent, operator, occupant, lessor, lessee, manager, licensee, or other person having authority or control over a structure or parcel of land.

Rubbish means non-putrescible solid waste, consisting of both combustible and non-combustible wastes such as paper, plastic, cardboard, tin cans, wood, glass, bedding, crockery, and similar materials.

Rubble means broken, solid surface fragments usually resulting from the decay or deterioration of a building, miscellaneous mass of broken or apparently worthless materials.

Sound condition means any structure, building, or component that is in a condition to withstand designed or anticipated loads. This would include maintenance for weather protection, free of deterioration and damage.

Stagnant or stagnated water means water that is not flowing or moving.

Structure means that which is built or constructed.

Structure unfit for human occupancy. A structure is unfit for human occupancy whenever the code official finds the structure is unsafe, unlawful, or unsanitary because of the degree to which the structure is in disrepair or lacks maintenance, is infested, contains filth and contamination, or lacks ventilation, illumination, sanitary or heating facilities or other essential equipment required by this Code, or because the location of the structure constitutes a hazard to the occupants of the structure or to the public.

Swimming pool means a permanently installed artificial body of water in excess of 18 inches in depth that is used or intended for swimming and includes all equipment necessary for its use as well as a spa and any other water features intended and designed to be used in conjunction with the swimming pool.

Vacant structure means a structure with no occupant as defined herein. Disconnection of electrical power or water service shall constitute prima facie evidence that a structure is vacant. The date of discontinuance of electrical power and/or water service shall constitute the date at which such building became vacant.

Vegetation means plant life of any kind, whether living or dead, characterized as grass, weeds, bushes, cacti, and trees.

Vehicle means a vehicle as defined in NRS 482.135.

The following definitions also apply to the provisions of this Code regulating vehicles:

1. *Abandoned vehicle* means any vehicle that is parked on private property without permission of the property owner for a continuous period of more than 72 hours, or parked on public property for a continuous period of more than 48 hours. Such a vehicle is presumed to have been abandoned or discarded by that vehicle's owner.

2. *Accumulation of inoperable vehicles* means two or more inoperable vehicles upon a residential lot or upon a commercial or industrial lot where the primary business does not involve the service of vehicles or the storage of inoperative vehicles.

3. *Inoperable vehicle* means a vehicle physically incapable of its intended operation or unable to be safely operated, or a vehicle that exhibits one or more of the following

conditions: wrecked; partially or fully dismantled; stripped; substantially damaged; scrapped; having the status of a hulk or shell; discarded; unable to be safely operated; elevated on blocks or similar devices; deflated tires; or having the engine, steering wheel, headlights, taillights, wheels, or tires removed.

4. *Minor vehicle repair work* means minor repair work that includes, but is not limited to: maintenance items such as engine tune-ups, oil changes and transmission fluid replacements, joint lubrication, brake component replacement, tire changes, and shall not exceed 72 hours in duration. Minor repair work does not include such work as engine overhauls or replacement, transmission replacements, and bodywork including repair or replacement of damaged body parts.

5. *Recreational vehicle* means a vehicle as defined in NRS 482.101.

Weed means a useless and troublesome plant generally accepted as having no value and frequently of uncontrolled growth, not including native desert vegetation.
(Ord. No. 3910, § 2, 10-4-2022; Ord. No. 3733, § 1, 10-20-2020; Ord. No. 3177, § 1, 6-17-2014; Ord. 2815, § 1, 5-5-2009; Ord. 2511, § 1, 2006; Ord. 2483, § 1 (part), 2006)

15.12.030 General property maintenance standards.

A. *Application.* The provisions of this section apply to all land in the limits of the City of Henderson, whether improved or unimproved, and all residential and nonresidential buildings and structures.

B. *Exterior property maintenance standards.* All land including exterior premises and vacant land, whether improved or unimproved, and exterior areas under any roof not enclosed by the walls, doors, or windows of any building shall be maintained free from the following:

1. Any accumulation of garbage, debris, rubble, litter, rubbish, refuse, or other waste material, or blight, to include, but not limited to: graffiti on walls, buildings, structures, fences, and mail boxes; bottles; paper; tires; vehicle parts; broken glass; cans; organic or inorganic material; including exterior areas under any roof not enclosed by the walls, doors, or windows of any building that also contains items such as cans, bottles, wood, metal, plastic, rags, tires, auto parts, lumber, covering (carpet, pads, vinyl), scrap iron, tin, similar materials or other metal not neatly stacked, or anything that becomes a hazard to the public health and safety or harbors insect, rodent, or vermin infestation;

2. The exterior visible use or display of tarps, plastic sheeting, or other similar materials as flexible or inflexible screening, fencing, or wall covering, unless part of a manufactured screen or fence assembly;

3. Abandoned or inoperable vehicle(s), or part(s) thereof, that are not concealed from ordinary public view by means of inside storage, permissible fencing, or other permissible means, subject to the following limitations and exceptions:

a. No property may have more than two abandoned or inoperable vehicles concealed from ordinary public view in the manner required herein in paragraph 3, unless such vehicles are contained in a garage or other fully enclosed structure;

b. A single inoperable vehicle on any property that is registered to a resident of the property and undergoing minor repair work as defined herein need not be concealed for the period of minor repair work if the period does not exceed 72 hours;

c. Lawful commercial activities involving vehicles are permitted without being concealed as allowed by the zoning applicable to the property;

4. Any operable vehicle parked in any portion of the front or side yard of a single-family dwelling or accessory building, unless all aspects of the parking of such vehicle meet the requirements of the Henderson Development Code for parking such vehicles in front and side yards, including but not limited to the requirement to park

vehicles on a paved concrete or asphalt surface (or similar paved surface), and the requirement that no more than one additional parking space be installed in such area;

5. Any machinery or equipment, including but not limited to forklifts, backhoes, tractors, or similar types of construction or commercial vehicles originally intended, designed or manufactured for commercial or industrial uses, or similar types of construction or commercial equipment. This paragraph shall not prohibit equipment used for personal residential gardening, personal property maintenance purposes, or active construction sites, or where otherwise permitted by the Development Code;

6. Any abandoned, unattended, discarded, broken or inoperable commercial or industrial equipment, appliances, machinery, freezers, refrigerators or other household items, equipment, furnishings, or any container, appliance or equipment that has an airtight door or lid, snap lock, or other locking device that may not be released from the inside, without first removing such door or lid, snap lock, or other locking device;

7. Any object, including but not limited to a sign, tree, or bush on private property that interferes with, obstructs, partially obstructs, or renders dangerous the free passage, use, or vision in the customary manner of any sidewalk, street, alley, highway, or traffic light or sign in the city;

8. Any landscaping, including but not limited to any tree, plant, shrub, or ground-cover visible from any street, alley, or sidewalk that is substantially dead, damaged, or characterized by uncontrolled growth, or presents a deteriorated appearance; uncultivated plants, weeds, tall grass, tumbleweeds, uncultivated shrubs or growth (whether growing or otherwise) higher than six inches; or any dead trees (including any palm or similar type of tree) and branches, bushes, shrubs, or portions thereof that may become a fire hazard, or result in a condition which threatens the health and safety of adjacent property owners or occupants;

9. Discarded or broken furniture;

10. Discarded or broken bicycles, bicycle parts, and toys;

11. Piles of mixed materials, dry vegetation, or rags; empty barrels, drums, boxes, crates, packing cases, and any similar materials;

12. Mattresses, bedding, and any similar materials;

13. Excelsior, packing straw, packing hay or other packing material;

14. Anything whatsoever that is or may become an imminent hazard or which may otherwise create a fire hazard;

15. Any unguarded and unprotected or abandoned excavation of more than two feet in depth on any unenclosed lot that may constitute a threat or public hazard;

16. Any wall or fence that is missing blocks, boards, or other material, or is otherwise deteriorated so as to constitute a hazard to persons or property;

17. Graffiti that is capable of being viewed by a person using any public area or right-of-way in the city;

18. Any temporary sign, banner, flag, inflatable advertisement, or tethered balloon that has not received required approvals or permits pursuant to the Development Code;

19. Animals kept on any premises not in compliance with the Development Code or HMC Title 7;

20. Recreational vehicles used as living quarters on premises other than a licensed and permitted RV park or resort; and

21. Any public nuisance or nuisance activity as defined in this chapter.

These general exterior property maintenance standards shall not be deemed to prohibit: items kept in covered bins or metal receptacles approved by any other ordinance of the city; automobile wrecking yards or any other junkyard lawfully established pursuant to the city zoning regulations; any neatly stored materials used in the development of property; and any items stored or kept in enclosed trailers or vehicles.

These general exterior property maintenance standards shall not apply to prohibit the neat and orderly storage of non-hazardous materials in the side and rear yards provided such storage does not exceed ten percent of the area of the side or rear yard in which the material is stored and further provided such storage does not exceed the height of any fence or wall enclosing such yards, and is not visible from the exterior of the property.

C. *Exterior insect and rodent control.* All premises shall be kept free from infestation. This provision shall not require action to disturb the natural activity of bees where such activity is not a danger or nuisance to any resident or residents of the area and where other legal requirements applicable to that activity have been met. Where infestation has taken place, the owner shall be responsible for the extermination of any insects, rodents, or other pests when such extermination is not specifically made the responsibility of the occupant by law or by orders issued under this Code.

D. *Drainage.* All premises shall be maintained so as to prevent the accumulation of stagnant water.

E. *Fences, screen walls, perimeter walls and retaining walls.* All fences, screen walls, perimeter walls and retaining walls visible from any street or sidewalk shall be safe, structurally sound, and uniform in color, structure and design, and shall be maintained so that they do not constitute a hazard, blight, or condition of disrepair. Examples of hazards,

blight, or conditions of disrepair include but are not limited to: leaning fences, leaning walls, fences that are missing slats or blocks, graffiti, peeling paint, paint or wall signage not in compliance with the requirements of the Development Code, deterioration of surface finish, walls or fences constructed without required permits, rotting, or damaged components.

Perimeter walls, including those in existence at the time of adoption of this Code, shall be properly maintained. Repair or replacement of an existing perimeter wall or portions thereof shall be made with the same or similar materials as the existing wall unless design review approval of different materials or a different design has been obtained from the community development and services department.

A perimeter wall may not be permanently removed unless approved by the building official and the director or his or her designee.

F. *Waste disposal requirements.* All premises shall comply with the applicable provisions of HMC 5.17 with regard to the disposal of garbage, rubbish, litter, rubble, refuse, debris and/or any other waste material, and the use, maintenance and storage of waste containers.

G. *Maintenance of swimming and architectural pools and ponds.* All swimming and architectural pools and spas (hot tubs) and fountains shall be properly maintained so as not to create a health or safety hazard or harbor infestation. Water shall not be allowed to stagnate. Fencing or other barriers required for swimming pool and spa enclosures shall be properly maintained as specified in the Southern Nevada Pool Code in effect at the time of pool construction. The premises shall be free from safety hazards inclusive of, but not limited to lack of security, water stagnation, or abandoned pools, regardless of whether or not there is water in the pools and ponds.

H. *Dumping.* Vacant lots or lands that have been subject to enforcement action regarding dumping on more than one occasion shall be secured to prevent future occurrences of dumping. Methods of securing vacant lots or lands may include the following: fencing; placing four-foot high posts at four feet intervals; or other equally effective methods. Where methods of securing vacant lots or lands by other than fencing are utilized, signs with the words "no dumping" shall be erected in accordance with applicable laws on vacant lots or lands that have been subject to dumping on more than one occasion.

I. *Open excavations.* Unenclosed, unsecured or dangerous excavations must be fully restored to a safe, serviceable condition, or filled with clean fill or other material approved by the building official. Excavations shall be maintained in a secure manner to prevent a hazard to public health and safety. An excavation is considered secure when:

1. An excavation more than two feet in depth is protected by a permanent and complete five-foot minimum height enclosure that surrounds the excavation or property; or

2. A well, pit, abandoned swimming pool, or similar excavation is covered, securely fenced, or otherwise protected in an equivalent manner.

J. *Vacant buildings, structures, and premises.* The property owner, or other responsible party, shall actively maintain all buildings, structures, and premises, including vacant buildings. Vacant buildings, structures, and premises shall meet the requirements of this section.

1. Active maintenance shall include:

a. Maintenance of landscaping and plant materials in good condition, free of weeds, and otherwise in conformance with the requirements of this Code;

b. Maintenance of the exterior of the building, including but not limited to paint and finishes, as specified in this Code;

c. Regular removal of all exterior refuse, debris, garbage, litter, rubbish or other waste and graffiti;

d. Maintenance of the building in continuing compliance with all applicable codes and regulations, including but not limited to maintenance of a secure exterior with functioning locks on all windows and doors;

e. Prevention of reoccurring criminal activity on the premises; and

f. Regular monitoring of the premises.

2. Vacant buildings, structures, and premises that are not maintained in accordance with the requirements of this section are subject to an order by the code official requiring that they be completely secured in the following manner:

a. All gas and electrical utility services may be required to be disconnected within ten days upon notice and order;

b. Doorways, crawl spaces, windows, and openings are to be completely boarded by use of five-eighths inch or thicker exterior grade plywood, fastened by tamper-proof screws and one-way bolts to the frame or a cross brace, as identified in Appendix A of the International Property Maintenance Code (IPMC);

c. All boarding shall be painted to match the dominant exterior color of the elevation of the building or structure on which the barricade is placed. The dominant exterior color shall be that color that occupies at least 60 percent of the particular elevation; and

d. For commercial buildings, opaque window coverings may be allowed by the director in lieu of boarding provided all windows are maintained and if broken or cracked, are replaced within 48 hours. The code official may revoke

approval of the use of the alternative when the owner or responsible party fails to maintain the windows or replace cracked or broken windows within the specified 48-hour time frame.

Any order issued pursuant to this section shall follow the enforcement procedures of section 15.12.060.B.5.g.

(Ord. No. 3733, § 1, 10-20-2020; Ord. No. 3177, § 1, 6-17-2014; Ord. 2815, § 2, 5-5-2009; Ord. 2511, § 2, 2006; Ord. 2483, § 1 (part), 2006)

15.12.040 Nonresidential buildings and structures maintenance standards.

A. *Application.* In addition to the general property maintenance standards specified in section 15.12.030, the provisions of this section shall apply to nonresidential buildings and structures located within the limits of the City of Henderson.

B. *Foundations, exterior walls, roofs, mechanical equipment, electrical, and plumbing.* Foundations, exterior walls, roofs, and mechanical equipment shall be free from deterioration or blighting conditions and shall conform to the following requirements:

1. *Foundation.* Foundation systems shall be firmly supported by footings, plumb, and free from open cracks and breaks, and properly anchored and capable of supporting all nominal loads and resisting all load effects.

2. *Exterior walls.* The exterior walls shall be free from conditions that contribute to the deterioration of the structure or otherwise present a deteriorated or blighted condition. Exterior walls shall be substantially weather-tight, weatherproof, free from dry rot and mildew, and shall be maintained in sound condition and good repair so as to prevent infestation. Exterior doors and windows shall be fitted securely in their frames and shall be substantially weather-tight with operable locks, if locks are present. Windows of occupied structures shall not be boarded, and glazing in windows and doors shall be properly maintained. Chipping or peeling paint may not exceed 25 percent of a surface area of any building component visible from public property. All exterior surfaces other than decay-resistant materials shall be protected from the elements by painting or other protective covering according to manufacturer's specifications. Chimneys and similar appurtenances shall be structurally safe. Window screening, if present, shall be maintained in good condition.

3. *Roofs.* Roofs shall be maintained in a safe condition and have no defects which might admit rain or cause dampness in the walls or interior portion of the building. Roofs shall be free from conditions that contribute to the deterioration of the structure or otherwise present a deteriorated or blighted appearance. Broken,

rotted, split, curled, or missing roofing material shall not exceed ten square feet of any roof for no more than 30 consecutive days. Canopies and awnings shall be properly anchored and maintained.

4. *Mechanical equipment.* Heating, ventilating, air-conditioning, evaporative cooling equipment, and their mounting apparatus shall be maintained in a condition free from excessive accumulation of scale, rust, corrosion, or mineral deposits. Equipment stands or mounts shall be structurally sound. Unused, deteriorated or unattached heating ventilation and air conditioning (HVAC) equipment and mechanical equipment and associated apparatuses shall be removed from the structure. Equipment shrouds, enclosures, and similar protecting housing components integral to a piece of equipment shall be installed, anchored, and properly maintained.

5. *Electrical equipment.* All electrical equipment, wiring and appliances shall be installed and maintained in a safe operational condition and approved manner.

6. *Plumbing equipment.* Plumbing equipment shall be properly installed and maintained in working order, and shall be kept free from obstructions, leaks and defects and be capable of performing the function for which such plumbing fixtures are designed. Plumbing fixtures shall be maintained in a safe, sanitary, and functional condition.

7. *Public and employee toilet facilities.* Not less than one water closet, one lavatory, and one drinking facility shall be available to employees working on the premises and to the public, unless exempted by the International Building code. Toilet facilities shall be maintained in a safe, sanitary, and working condition in accordance with the International Plumbing Code and the International Building Code. Except for periodic maintenance or cleaning, public access and use shall be provided to the toilet facilities at all times during occupancy of the premises.

8. *Solar reflectance.* Solar reflectance from windows, solar panels or similar reflective surfaces determined by the fire chief, the fire chief's designee, or code enforcement to create an unsafe condition constituting a fire hazard or other condition dangerous to human life or the public health, safety or welfare, shall be mitigated. Mitigation may employ one of the following methods: installation of external film, solar screens, awnings, or screening; window replacement; changing the window installation angle; or other means deemed acceptable by the fire chief, the fire chief's designee, or code enforcement. Common-interest community associations may not prohibit the owner or responsible party from providing such mitigation.

C. *Outdoor stairs, porches, guardrails, handrails, and similar railings.* All outdoor stairs, porches, guard and handrails and all supports shall be adequate for safety and maintained in a structurally sound condition. Every stair and porch, and any appendage thereto shall be capable of supporting a load that normal use may place thereon. Every flight of stairs

having more than four risers shall have a handrail on one side of the stair and every open portion of a stair, landing, balcony, porch, deck, ramp, or other walking surface that is more than 30 inches (762 mm) above the floor or grade below shall have guards. Handrails shall not be less than 30 inches (762 mm) in height or more than 42 inches (1067 mm) in height measured vertically above the nosing of the tread or above the finished floor of the landing or walking surfaces. Guards shall not be less than 30 inches (762 mm) in height above the floor of the landing, balcony, porch, deck, or ramp, or other walking surface.

D. *Interior of structures.*

1. *General.* Every owner of a property shall ensure the interior of structures and mechanical, electrical, and plumbing equipment therein are maintained in good working order and structurally sound. Occupants shall keep that part of the structure that they occupy or control in a clean and sanitary condition. Every owner of a structure containing a rooming house, a hotel, a dormitory, two or more dwelling units, or two or more nonresidential occupancies shall maintain in a clean and sanitary condition the shared or common areas of the structure or any areas accessible to the public.

2. *Structural members.* All structural members shall be maintained structurally sound and be capable of supporting the imposed design loads.

3. *Interior surfaces.* All interior surfaces shall be maintained in good, clean and sanitary condition. Peeling, chipping, flaking, or abraded paint shall be repaired, removed, or covered. Cracked, broken, or damaged, or loose plaster, decayed wood, and other defective surface conditions in excess of one-eighth inch shall be repaired.

4. *Stairs and walking surfaces.* Every stair, ramp, landing, balcony, mezzanine or other walking surface shall be maintained in sound condition and good repair. Every flight of stairs having more than four risers shall have a handrail on one side of the stair, and every open portion of a stair, landing, balcony, porch, deck, ramp, or other walking surface that is more than 30 inches (762 mm) above the floor or grade below shall have guards.

5. *Handrails and guardrails.* Every handrail and guardrail shall be firmly fastened and capable of supporting normally imposed loads and shall be maintained in good condition. Handrails shall be not less than 30 inches (762 mm) in height or more than 42 inches (1067 mm) in height measured vertically above the nosing of the tread or above the finished floor of the landing or walking surfaces. Guards shall be not less than 30 inches (762 mm) in height above the floor of the landing, balcony, porch, deck, or ramp or other walking surface.

6. *Interior windows and doors.* Every interior window and door shall fit within its frame and shall be capable of being opened and closed by being properly and securely attached to jambs, headers, or tracks.

E. *Exits.* All buildings or portions thereof shall be provided with properly maintained exits, exit corridors, exit passageways, and appurtenances as required by the building code. Dwelling units and guest rooms shall have access directly to the outside or to an exit corridor or exit passageway. A safe, continuous, and unobstructed path of travel shall be provided from any point in a building or structure to the public way. Means of egress shall comply with the International Fire Code. Required emergency escape openings shall be maintained in accordance with the applicable building codes in effect at the time of construction, and the following:

1. Required emergency escape and rescue openings shall be operational from the inside of the room without the use of keys or tools; and

2. Bars, grilles, grates, or similar devices are permitted to be placed over emergency escape and rescue openings provided the minimum net clear opening size complies with the code that was in effect at the time of construction and such devices shall be releasable or removable from the inside without the use of a key, tool or force greater than that which is required for normal operation of the escape and rescue opening.

F. *Fire protection.* All buildings or portions thereof shall be provided with the degree of fire-resistive construction as required by the building code for the appropriate occupancy, type of construction, and location on property, and shall be provided with the appropriate fire-extinguishing systems or equipment as required by the building code and fire code. All fire-resistive construction required by the building code shall be maintained.

G. *Substandard commercial buildings.* Any building or portion thereof or the premises on which the same is located in which there exists any of the following conditions shall be deemed and hereby declared to be a substandard building, which shall be a violation of this Code.

1. *Habitability and sanitation.* Buildings or portions thereof shall be deemed substandard when any of the following conditions exist:

a. Improper operation of water closet lavatory, bathtub, or shower, or lack of water closet lavatory, bathtub, or shower when required by law to be installed on the premises;

b. Lack of required interior wall covering;

c. Lack of required hot and cold running water to plumbing fixtures;

d. Lack of or improper operation of required ventilation equipment;

e. Lack of required electrical lighting;

f. Dampness in rooms;

g. Infestation;

h. General dilapidation or improper maintenance;

i. Lack of connection to a required sewage disposal system;

j. Lack of adequate garbage and rubbish storage and removal facilities; and

k. Improper occupancy and/or unlawful habitation of any portion of the building or property without prior approval from the code official.

2. *Structural hazards.* Buildings or portions thereof shall be deemed substandard when they are, or contain, structural hazards. Structural hazards shall include, but not be limited to, the following:

a. Deteriorated or inadequate foundations incapable of supporting the load which normal use may place thereon;

b. Defective or deteriorated flooring or floor supports;

c. Flooring or floor supports of insufficient size to carry imposed loads safely;

d. Members of walls, partitions, or other vertical supports that split, lean, list, or buckle due to defective material or deterioration;

e. Members of walls, partitions, or other vertical supports that are of insufficient size to carry imposed loads safely;

f. Members of ceilings, roofs, ceiling and roof supports, or other horizontal members that sag, split, or buckle due to defective material or deterioration;

g. Members of ceilings, roofs, ceiling and roof supports, or other horizontal members that are of insufficient size to carry imposed loads safely; and

h. Fireplaces or chimneys that list (to lean), bulge, or settle due to defective material or deterioration.

3. *Hazardous electrical wiring.* All wiring that does not conform to all applicable laws in effect at the time of installation, has not been maintained in good condition, or is not currently in good and safe condition and working properly shall be considered substandard.

4. *Hazardous plumbing.* All plumbing that does not conform to all applicable laws in effect at the time of installation, has not been maintained in good condition, is not currently in good and safe condition or not working properly, or is not free of cross connections and siphonage between fixtures shall be considered substandard.

5. *Hazardous mechanical equipment.* All mechanical equipment, including vents, that does not conform to all applicable laws in effect at the time of installation, that has not been maintained in good and safe condition, and is not currently in good and safe condition and working properly shall be considered substandard.

6. *Fire hazard.* Any building or portion thereof, device, apparatus, equipment, combustible waste, or vegetation that is in noncompliance with the fire code to the extent that the fire chief has determined the noncompliance condition is unsafe or that a fire or explosion could occur as the result of said noncompliance shall be considered substandard. In addition, any condition the fire chief has determined provides a ready fuel to augment the spread and intensity of fire or explosion arising from any cause is deemed substandard.

7. *Faulty materials of construction.* All materials of construction except those that are specifically allowed or approved by the building code and that have been adequately maintained in good and safe condition shall be considered substandard.

8. *Hazardous or unsanitary premises.* Those premises on which an accumulation of weeds, vegetation, junk, dead organic matter, debris, garbage, offal, rodent harborages, stagnant water, combustible materials, and similar materials or conditions that constitute a fire hazard, health hazard, safety hazard, or a public nuisance shall be considered substandard.

9. *Inadequate exits.* All buildings or portions thereof not provided with adequate exit facilities, except those buildings or portions thereof whose exit facilities conformed with all applicable laws at the time of their construction and that have been adequately maintained and increased in relation to any increase in occupant load, alteration or addition, or any change in occupancy shall be considered substandard. When an unsafe condition exists due to lack of or improper location of exits, additional exits may be required to be installed.

10. *Inadequate fire-protection or fire-fighting equipment.* All buildings or portions thereof not provided with fire-resistive construction or fire-extinguishing systems or equipment required by the building and fire code, except those buildings or portions thereof that conformed to all applicable laws at the time of their construction and whose fire-resistive integrity and fire-extinguishing systems or equipment have been adequately maintained and improved in relation to any increase in occupant load, alteration or addition, or any change in occupancy shall be considered substandard.

11. *Improper occupancy.* All buildings or portions thereof occupied for purposes not designed or intended to be used for those occupancies shall be considered substandard.

H. *Loading and unloading.* Unless approved in writing by the director, or their designee, loading, unloading, opening, closing or other handling of boxes, crates, containers, building materials, garbage cans, or similar objects between the hours of 11:00 p.m. and 7:00 a.m. that creates unreasonable noise across a residential real property boundary is prohibited. (Ord. No. 3910, § 3, 10-4-2022; Ord. No. 3733, § 1, 10-20-2020; Ord. No. 3564, § 1, 2-5-2019; Ord. No. 3177, § 1, 6-17-2014; Ord. 2511, § 3, 2006; Ord. 2483, § 1 (part), 2006)

15.12.050 Residential buildings and structures maintenance standards.

A. *General.* In addition to the general property maintenance standards specified in section 15.12.030 of this Code, all buildings, common area, or portions thereof used, designed, or intended to be used for human habitation shall comply with the requirements of this section. Buildings and accessory structures to residential buildings shall comply with the provision of subsection B of this section. Any dwelling that is leased, sub-leased, rented, or any other arrangement where the owner or possessor of the property receives a pecuniary gain from another party for the use and or occupancy of the dwelling must have the dwelling and all common areas conform to both the residential and non-residential property maintenance standards. Whenever conflicting provisions or requirements occur between this chapter, the technical codes and other laws and regulations, the most restrictive shall govern.

B. *Foundations, stairs, exterior walls, roofs, mechanical equipment, electrical, and plumbing.* Foundations, exterior walls, roofs, and mechanical equipment shall be free from deterioration or blighting conditions and shall conform to the following requirements:

1. *Foundation.* Foundation systems shall be firmly supported by footings, plumb, and free from open cracks and breaks, properly anchored and capable of supporting all nominal loads and resisting all load effects.

2. *Exterior walls.* The exterior walls shall be free from conditions that contribute to the deterioration of the structure or otherwise present a deteriorated or blighted condition. Exterior walls shall be substantially weather-tight, weatherproof, free from dry rot and mildew, and shall be maintained in sound condition and good repair so as to prevent infestation. Exterior doors and windows shall be fitted securely in their frames and shall be substantially weather-tight with operable locks if locks are present. Windows of occupied structures shall not be boarded and glazing in windows and doors shall be properly maintained. Chipping or peeling paint may not exceed 25 percent of a surface area of any building component visible from any street or sidewalk. All exterior surfaces other than decay-resistant materials shall be protected from the elements by painting or other protective covering according to manufacturer's specifications. Paint must be uniform in color, and paint and wall signage must be in compliance with the requirements of the Development Code. No lead-based paint shall be used on any surface of any structure. Chimneys and similar appurtenances shall be structurally safe. Window screening, if present, shall be maintained in good condition.

3. *Roofs.* Roofs shall be maintained in a safe condition and have no defects which might admit rain or cause dampness in the walls or interior portion of the building.

Roofs shall be free from conditions that contribute to the deterioration of the structure or otherwise present a deteriorated or blighted appearance. Broken, rotted, split, curled, or missing roofing material shall not exceed ten square feet of any roof. Canopies and awnings shall be properly anchored and maintained.

4. *Mechanical equipment.* Heating, ventilating, air-conditioning, evaporative coolers, equipment, and their mounting apparatus shall be maintained in a safe and operational condition free from excessive accumulation of scale, rust, corrosion, or mineral deposits. Cooler stands or mounts shall be structurally sound. Unused, deteriorating, or unattached evaporative coolers shall be removed from the structure. Equipment shrouds, enclosures, and similar protecting housing components integral to a piece of equipment shall be installed, anchored, and properly maintained.

5. *Electrical equipment.* All electrical equipment, wiring and appliances shall be installed and maintained in a safe, functional, and approved manner.

6. *Plumbing equipment.* All plumbing equipment, piping and fixtures shall be installed and maintained in a safe, sanitary, functional and approved manner.

7. *Stairs, porches, guardrails, handrails, and similar railings.* All stairs, porches, guardrails and handrails shall be adequate for safety and maintained in a structurally sound and safe condition. Every stair and porch, and any appendage thereto shall be maintained in a safe condition and capable of supporting a load that normal use may place thereon. Every exterior and interior flight of stairs having more than four risers shall have a handrail on one side of the stair, and every open portion of a stair, landing, balcony, porch, deck, ramp, or other walking surface that is more than 30 inches above the floor or grade below shall have guards. Handrails shall be not less than 34 inches in height or more than 38 inches in height measured vertically above the nosing of the tread or above the finished floor of the landing or walking surfaces. Guards shall be not less than 36 inches in height above the floor of the landing, balcony, porch, deck, or ramp or other walking surface.

C. *Room dimensions.*

1. *Existing buildings.* Buildings and portions thereof in existence at the time of the adoption of this Code are not required to be modified to comply with this section C. and may have their existing use or occupancy continued provided the construction, use, or occupancy was legal at the time of original construction and further provided the continued use or occupancy is not dangerous to life, health, and safety.

2. *Ceiling heights.* Habitable space shall have a ceiling height of not less than seven feet except as otherwise permitted in this section. Kitchens, halls, bathrooms, and toilet compartments may have a ceiling height of not less than seven feet measured to the lowest projection from the ceiling. Where exposed beam ceiling members are

spaced at less than 48 inches on center, ceiling height shall be measured to the bottom of these members. Where exposed beam ceiling members are spaced at 48 inches or more on center, ceiling height shall be measured to the bottom of the deck supported by these members, provided that the bottom of the members is not less than seven feet above the floor.

If any habitable space has a sloping ceiling, the prescribed ceiling height for the room is required in only one-half the area thereof. No portion of the room measuring less than five feet from the finished floor to the finished ceiling shall be included in any computation of the minimum area thereof. If any room has a furred ceiling, the prescribed ceiling height is required in two-thirds the area thereof, but in no case shall the height of the furred ceiling be less than seven feet.

3. *Floor area.* Dwelling units and congregate residences shall have at least one room that shall have not less than 120 square feet of floor area. Other habitable rooms, except kitchens, shall have an area of not less than 70 square feet. Where more than two adults occupy a room used for sleeping purposes, the required floor area shall be increased at the rate of 50 square feet for each adult in excess of two.

Exception: Nothing in this section shall prohibit the use of an efficiency dwelling unit within an apartment house meeting the following requirements:

a. The unit shall have a living room of not less than 220 square feet of floor area. An additional 100 square feet of floor area shall be provided for each occupant of such unit in excess of two;

b. The unit shall be provided with a kitchen sink and cooking appliance. If a refrigerator is provided, it must be maintained in a safe and operational condition. Each having a clear working space of not less than 30 inches in front, except accessible units shall meet the working space requirements of those units. Light and ventilation conforming to this Code shall be provided; and

c. The unit shall be provided with a separate bathroom containing a water closet, lavatory, and bathtub or shower.

4. *Width.* No habitable room other than a kitchen shall be less than seven feet in any dimension. Each water closet shall be located in a clear space not less than 30 inches in width and a clear space in front of the water closet of not less than 24 inches shall be provided.

D. *Light and ventilation.*

1. *General.* For the purpose of determining the light or ventilation required by this section, any room may be considered as a portion of an adjoining room when one-half of the area of the common wall is open and unobstructed and provides an

opening of not less than one-tenth of the floor area of the interior room or 25 square feet, whichever is greater. Exterior openings for natural light or ventilation required by this section shall open directly onto a public way or a yard or court located on the same lot as the building.

Exceptions:

a. Required windows may open into a roofed porch where the porch:

(1) Abuts a public way, yard, or court;

(2) Has a ceiling height of not less than seven feet; and

(3) Has a longer side at least 65 percent open and unobstructed.

b. Skylights.

2. *Light.* Guest room and habitable rooms within a dwelling unit or a congregate residence shall be provided with natural light by means of exterior glazed openings with an area of not less than one-tenth of the floor area of such rooms with a minimum of ten square feet of opening area.

3. *Ventilation.* Guest rooms and habitable rooms within a dwelling unit or congregate residence shall be provided with natural ventilation by means of exterior openings with an area of not less than 1/20 of the floor area of such rooms with a minimum opening of five square feet of area. Such openings shall be capable of being opened so as to provide ventilation.

In lieu of required openings for natural ventilation, a mechanical ventilating system may be provided. Such system shall be capable of providing:

a. Not less than four and one-half or more than seven air changes per hour for an attached residence or any residence for which fire sprinklers are installed; or

b. Not less than four or more than seven air changes per hour for any residence other than a residence described in paragraph (a).

Bathrooms, water closet compartments, laundry rooms, and similar rooms shall be provided with natural ventilation by means of exterior openings with an area of not less than 1/20 of the floor areas of such rooms with a minimum of one and one-half square feet of area. Such openings shall be capable of being opened so as to provide ventilation. In lieu of required exterior openings for natural ventilation in bathrooms containing a bathtub or shower, or combination thereof, laundry rooms, and similar rooms, a mechanical ventilation system connected directly to the outside capable of providing five air changes per hour shall be provided. The location of the discharged exhaust air shall be at least three feet from any opening into the building. Bathrooms which contain only a water closet or lavatory, or

combination thereof, and similar rooms may be ventilated with an approved mechanical re-circulating fan or similar device designed to remove odors from the air.

4. *Hallways.* All public hallways, stairs, and other paths of exit shall be adequately illuminated at all times in accordance with the building code.

E. *Sanitation.*

1. *Bathrooms.* Dwelling units, lodging houses and congregate residences shall be provided with a bathroom equipped with facilities consisting of a water closet, lavatory, and either a bathtub or shower, or combination thereof.

2. *Kitchen.* Each dwelling unit shall be provided with a kitchen. Every kitchen shall be provided with a safe and operational kitchen sink, and cooking appliance. If a refrigerator is provided, it must be maintained in a safe and operational condition.

3. *Fixtures.* All plumbing fixtures shall be connected to a sanitary sewer or to an approved private sewage disposal system. All plumbing fixtures shall be connected to an approved water supply and provided with hot and cold running water necessary for normal operations. All plumbing fixtures shall be listed by an approved listing agency.

4. *Water closet compartments.* Except in dwelling units, walls within two feet of urinals and water closets shall have a smooth, hard, nonabsorbent surface to a height of four feet above the floor.

5. *Installation and maintenance.* All sanitary facilities shall be installed and maintained in a safe and sanitary working condition.

6. *Required utilities.* Dwelling units, lodging houses and congregate residences shall be provided with public utility services sufficient to maintain heating, plumbing, and electrical fixtures and appliances in a working condition.

F. *Structural conditions.* Roofs, floors, walls, foundations, and all other structural components of buildings shall be capable of resisting any and all forces and loads to which they may be subjected as specified in the codes and standards in effect at the time of original construction, and as specified in codes and standards regulating existing buildings.

G. *Weather protection.* Every habitable building shall be weather protected so as to provide shelter for the occupants against the elements as specified in subsection B of this section.

H. *Smoke and carbon monoxide alarms.* All dwelling units shall be equipped with smoke alarms and carbon monoxide alarms as required in the International Residential Code, International Building Code, and/or International Existing Building Code. Retrofit alarms and/or combination alarms are permitted to be used if they comply with all other provisions of the above-referenced codes and this Code.

I. *Mechanical equipment.*

1. *Heating.* Dwelling units, guest rooms, and congregate residences shall be provided with permanently installed heating facilities capable of maintaining a room temperature of 68° degrees Fahrenheit (20° degrees Celsius) at a point three feet (914 mm) above the floor in all habitable rooms. Such facilities shall be installed and maintained in a safe condition. All heating devices or appliances shall be of an approved type and utilized in accordance with their listing. Fuel-burning heaters without vents to the exterior are specifically prohibited.

2. *Combustion air.* Rooms and areas containing fuel-burning appliances shall be provided with combustion air as required by the mechanical code.

3. *Cooling.* Dwelling units, guest rooms, and congregate residences shall be provided with permanently installed cooling facilities capable of maintaining a room temperature of 78° degrees Fahrenheit (25.5° Celsius) at a point three feet (914 mm) above the floor in all habitable rooms. Such facilities shall be installed and maintained in a safe condition. All cooling devices or appliances shall be of an approved type and utilized in accordance with their listing.

J. *Electrical equipment.* All electrical equipment, wiring, and appliances shall be installed and maintained in safe working order and in accordance with the electrical code. All electrical equipment shall be listed and approved for the intended use.

K. *Exits and emergency egress.*

1. *Exits.* All buildings or portions thereof shall be provided with properly maintained exits, exit corridors, exit passageways, and appurtenances as required by the building code. Dwelling units and guest rooms shall have access directly to the outside or to an exit corridor or exit passageway.

2. *Emergency egress.* Sleeping rooms below the fourth story shall have at least one operable window or exterior door approved for emergency escape or rescue. The window or door shall have the ability to be opened from the inside and any security bars or grills protecting such openings shall comply with subsection X of this section.

L. *Fire protection.* All buildings or portions thereof shall be provided with the degree of fire-resistive construction as required by the building code for the appropriate occupancy, type of construction, and location on property, and shall be provided with the appropriate fire-extinguishing systems or equipment as required by the building code and fire code. All fire-resistive construction required by the building code shall be maintained.

M. *Substandard residential buildings (minimum habitability standards).* Any building or portion thereof or the premises on which the same is located in which there exists any of the following conditions shall be deemed and hereby declared to be a substandard building, which shall be a violation of this Code and may be subject to the requirements of subsection 15.12.060.B.5.F.

1. *Habitability and sanitation.* Buildings or portions thereof shall be deemed substandard when any of the following conditions exist:

a. Lack of, or improper operation of, water closet lavatory, bathtub, or shower;

b. Lack of required interior wall covering;

c. Lack of proper kitchen sink, cooking appliances or refrigerator, or improper operation of kitchen sink, cooking appliance or refrigerator;

d. Lack of required hot and cold running water to plumbing fixtures;

e. Lack of adequate heating or cooling facilities;

f. Lack of, or improper operation of, required ventilation equipment;

g. Lack of minimum amounts of natural light and ventilation required by this Code;

h. Room and space dimensions less than required by this Code. However, a condition that would require the displacement of sound walls or ceilings to meet height, length, or width requirements for ceilings, rooms, and dwelling units shall not by itself be considered sufficient existence of dangerous conditions making a building substandard, unless the building was constructed, altered, or converted in violation of those requirements in effect at the time of construction, alteration, or conversion;

i. Lack of required electrical lighting;

j. Dampness in habitable rooms;

k. Infestation of insects, vermin, or rodents;

l. General dilapidation or improper maintenance;

m. Lack of connection to a required sewage disposal system;

n. Lack of adequate garbage and rubbish storage and removal facilities;

o. Lack of connection to public utilities that are essential to maintain heating, plumbing, and electrical fixtures and appliances in a working condition; and

p. Lack of, or improper maintenance of, required systems, devices, and equipment to detect a fire, actuate an alarm, or suppress or control a fire, or any combination thereof, at all times in accordance with the International Fire Code.

2. *Structural hazards.* Buildings or portions thereof shall be deemed substandard when they are, or contain, structural hazards. Structural hazards shall include, but not be limited to, the following:

a. Deteriorated or inadequate foundations incapable of supporting the load which normal use may place thereon;

b. Defective or deteriorated flooring or flooring supports;

c. Flooring or floor supports of insufficient size to carry imposed loads safely;

d. Members of walls, partitions, or other vertical supports that split, list (to lean), or buckle due to defective material or deterioration;

e. Members of walls, partitions, or other vertical supports that are of insufficient size to carry imposed loads safely;

f. Members of ceilings, roofs, ceiling and roof supports, or other horizontal members that sag, split, or buckle due to defective material or deterioration;

g. Members of ceilings, roofs, ceiling and roof supports, or other horizontal members that are of insufficient size to carry imposed loads safely; and

h. Fireplaces or chimneys that list (to lean), bulge, or settle due to defective material or deterioration.

3. *Hazardous electrical wiring.* All wiring that does not conform to all applicable laws in effect at the time of installation, has not been maintained in good condition, or is not currently in good and safe condition and working properly shall be considered substandard.

4. *Hazardous plumbing.* All plumbing that does not conform to all applicable laws in effect at the time of installation, has not been maintained in good condition, is not currently in good and safe condition or not working properly, or is not free of cross connections and siphonage between fixtures shall be considered substandard.

5. *Hazardous mechanical equipment.* All mechanical equipment, including vents that do not conform to all applicable laws in effect at the time of installation, not maintained in good and safe condition and not currently in good and safe condition and working properly shall be considered substandard.

6. *Fire hazard.* Any building or portion thereof, device, apparatus, equipment, combustible waste, or vegetation that is noncompliant with the fire code to the extent that the fire chief, building official or their designee, or a code official has determined the noncompliant condition is unsafe or that a fire or explosion could occur as the result of said noncompliance shall be shall be considered substandard and a violation of this Code. In addition, any condition the fire chief or his or her designee has determined provides a ready fuel to augment the spread and intensity of fire or explosion arising from any cause is deemed substandard.

7. *Faulty materials of construction.* All materials of construction that are not specifically allowed or approved by the building code or have not been adequately maintained in good and safe condition shall be considered substandard.

8. *Hazardous or unsanitary premises.* Those premises on which an accumulation of weeds, vegetation, junk, dead organic matter, debris, garbage, offal, rodent harborages, stagnant water, combustible materials, and similar materials or conditions that constitute a fire hazard, health hazard, or safety hazard shall be considered substandard.

9. *Inadequate exits.* All buildings or portions thereof not provided with adequate exit facilities as required by this Code, except those buildings or portions thereof whose exit facilities conformed with all applicable laws at the time of their construction and that have been adequately maintained and increased in relation to any increase in occupant load, alteration or addition, or any change in occupancy shall be considered substandard. When an unsafe condition exists due to lack of or improper location of exits, additional exits may be required to be installed.

10. *Inadequate fire-protection or fire-fighting equipment.* All buildings or portions thereof that are not provided with fire-resistive construction or fire-extinguishing systems or equipment required by the building and fire code shall be considered substandard, except those buildings or portions thereof that conformed to all applicable laws at the time of their construction and whose fire-resistive integrity and fire-extinguishing systems or equipment have been adequately maintained and improved in relation to any increase in occupant load, alteration or addition, or any change in occupancy.

11. *Improper occupancy.* All buildings or portions thereof occupied for living, sleeping, cooking, or dining purposes that were not designed or intended to be used for those occupancies shall be considered substandard.

12. *Inadequate emergency egress.* Bars, grills, covers, screens, or similar devices are not permitted to be placed over emergency escape and rescue openings, bulkhead enclosures, or window wells that serve sleeping rooms, unless the minimum net opening dimensions required for escape and rescue openings are maintained. Such devices shall be releasable or removable from the inside without the use of a key, tool, or force greater than that which is required for normal operation of the escape and rescue opening.

(Ord. No. 3910, §§ 4—6, 10-4-2022; Ord. No. 3733, § 1, 10-20-2020; Ord. No. 3564, § 2, 2-5-2019; Ord. No. 3177, § 1, 6-17-2014; Ord. 2511, § 4, 2006; Ord. 2483, § 1 (part), 2006)

15.12.060 Enforcement provisions.

A. *General provisions.*

1. *Authority of the director and his or her designees.* The director is authorized and directed to administer and enforce this Code. The director and his or her desig-

nee(s), referred to herein as "code enforcement official(s)" or "code official(s)", have the authority to determine whether a violation of this Code exists and to take appropriate action to gain compliance with this Code. This authority includes the power to issue notices, orders, administrative and misdemeanor citations and fines, the power to inspect public and private property and to abate violations, and the power to use any other remedies available under this Code, other provisions of the Henderson Municipal Code, and Nevada law.

a. *Substantial compliance standard.* The code official is authorized to grant minor variations from the strict application of specific Code provisions where, in the opinion of the director, the corrective work or compliance measures are in substantial compliance with the intent of this Code.

b. *Authority to inspect.* Whenever it is necessary to make an inspection to enforce any of the provisions of, or perform any duty imposed by this Code or other applicable law, or whenever the code official has reasonable cause to believe that there exists on any building, structure, or land any violation of the provisions of this Code or any other applicable law, or any condition that otherwise makes the property hazardous or dangerous, the code official is hereby authorized to:

(1) Make any investigations, examinations, and surveys as may be necessary in the performance of their duties; and

(2) Enter the building, structure, or land at any reasonable time to conduct inspections and perform any duty imposed upon them by this Code. This authority is subject to the following limitations:

(a) If the building, structure, or land is occupied, the code official shall first present proper credentials to the occupant and request entry, explaining the reasons for entry; or

(b) If the building, structure, or land is unoccupied, the code official shall first make a reasonable effort to locate the responsible party and request entry, explaining the reasons for entry.

If entry is refused or if the responsible party cannot be found, the code official shall have recourse to every remedy provided by law to secure lawful entry and inspect the building, structure or land, including but not limited to, securing an inspection warrant. The code official shall provide notice that a warrant has been issued to both the owner and the occupant at least 24 hours before the warrant is executed, unless the judge finds that immediate execution is reasonably necessary.

Notwithstanding the foregoing, if the director has reasonable cause to believe that the building, structure, or land presents an imminent hazard

that requires immediate inspection to safeguard the public health or safety, the director may authorize the code official to immediately enter and inspect the building, structure, or land and use any reasonable

means required to enter and make an inspection, whether the property is occupied or unoccupied and whether or not permission to inspect has been obtained.

(3) The authority granted pursuant to this section includes, but is not limited to, the taking of photographs, samples, and other physical evidence and the use of devices such as a sound level or light measurement device to measure disturbances. Unmanned aerial vehicles may also be employed for the purposes of taking photographs and videos if all applicable laws, regulations, and city policies and procedures are followed prior to implementation of the use of such devices.

c. *Extensions.* If a violation of this Code has not been corrected by the required compliance date provided in any notice, order, or citation, but significant progress has been completed, the code official may grant an extension of time, not to exceed 30 days. The code official may grant additional extensions of time provided substantial compliance progress continues to be made. In cases of extreme hardship, the code official may grant an extension of time without progress towards substantial compliance. The extensions permitted by this section are not automatic. In determining whether to grant any extension, the code official shall consider the nature of the violation and its impact on the safety of the public and building occupants, as well as any history of similar past violations on the same property and the degree of cooperation received from the property owner or other responsible party in complying with past notices and orders.

2. *Responsibilities of owner and responsible party.* Every owner remains liable for violations of this Code even though an obligation is also imposed on the occupants of the property or other responsible parties, and even if the owner has, by agreement, imposed on the occupant the duty of furnishing required equipment or complying with this Code. Every owner or other responsible party, in addition to being responsible for maintaining the property in a sound structural and unblighted condition, shall be responsible for keeping that part of the building or premises they occupy or control in a clean, sanitary, and safe condition, including the shared or public areas of commercial buildings. Every occupant of a dwelling unit shall also be responsible for that part of the dwelling unit or premises he or she occupies and controls and shall dispose of all rubbish, garbage, and other organic waste in a manner required by the ordinances of the city and the health officer. Every occupant shall, where required by this Code or, by the ordinances of the city or by the health officer, furnish and maintain approved devices, equipment, or facilities necessary to keep the property safe and sanitary.

3. *Transfer of ownership.* The owner of any building, structure, lot, or parcel of land that has received any pending notice of violation, order, or citation under this Code and is in the process of selling, transferring, mortgaging, leasing, or otherwise disposing of the building, structure lot, or parcel that is the subject of the notice, order or citation, remains obligated to correct the violation. Alternatively, the owner shall first furnish the grantee, transferee, mortgagee, or lessee a true copy of any citation, order or notice of violation issued by the city and shall furnish the city a signed and notarized statement from the grantee, transferee, mortgagee, or lessee acknowledging such citation, order or notice of violation and fully accepting the responsibility, without condition, for making the corrections or repairs required by such citation, order, or notice of violation.

B. *Administrative enforcement procedures and remedies.*

1. *Notice of violation and order to correct.* Except as otherwise provided herein, when the code official has determined that a violation of this Code exists, the code official may issue a notice of violation and order to correct to the property owner and any other responsible party, in the following manner:

a. *Form of notice and order.* The notice and order shall be in writing and shall include:

(1) A description of the real property sufficient for identification;

(2) A statement of the violation(s) and why the notice is being issued;

(3) A list of the corrections necessary to bring the property into compliance with this Code;

(4) A correction order with a reasonable deadline to bring the property into compliance; and

(5) A statement advising that administrative fees and fines may be assessed in the event the owner or other responsible party fails to correct the stated violations of this Code.

b. *Method of service.* A notice and order shall be deemed properly served if a copy is:

(1) Personally served to the owner or other responsible party, with a signed certificate of service prepared by the code official effectuating service. If personal service is effectuated upon a responsible party other than the owner, a copy of the notice shall be sent by first-class mail to the owner as shown in the records of the Clark County Assessor;

(2) Sent by certified mail, return receipt requested, to the owner of the property as shown in the records of the Clark County Assessor:

(a) If the notice is returned by the U.S. Postal Service showing that it was not delivered, a copy thereof shall be posted in a conspicuous

place in or about the building, structure, lot, or premise of the subject property. It shall be unlawful for any person to remove, alter, deface, tamper with, or alter the visibility of any notice and order posted at the premises pursuant to this Code. Service of the notice and order shall be complete upon certified mailing or, if the notice and order is returned, posting on the premises. The failure of the owner to receive a certified mailing of the notice and order does not affect the validity of any enforcement proceeding taken under this Code;

(b) A certification of notice and order posting shall be completed by the code official stating the name of the code enforcement official posting the notice, the date and time of the posting, the address of the property where the notice and order was posted, and a brief description of the location on the property where the notice and order was posted;

(3) Posted in a conspicuous place in or about the building, structure, lot, or premise and sent by first-class mail to the owner of the property as shown in the records of the Clark County Assessor; or

(4) Sent by electronic mail ("email") to the owner and any other responsible party if the recipient(s) has provided written, signed consent to receive service of notices under this section 15.12.060.B.1 by email and has provided their email address. If a notice and order served via email returns undeliverable, one of the other methods of service in this section shall also be employed.

c. *Re-inspections.* The code official shall re-inspect the property after the compliance date specified in the notice and order. If the violation is still in existence on the re-inspection date, the code official is authorized to impose a re-inspection fee as provided in section 15.12.060.B.3 and in the amount specified in section 15.12.090 of this Code. A re-inspection fee may be charged in advance for the third inspection and any subsequent inspection until compliance is attained.

2. *Notice and order to abate.* When the code official determines that an owner or other responsible party has not complied with a notice of violation and order to correct, the code official may issue a notice and order to abate.

a. *Content of notice and order.* The notice and order to abate shall include all information required in the notice of violation and order to correct (see section 15.12.060.B.1.a), and in addition shall include the following:

(1) A statement advising that the city will proceed to abate the violation if the owner or other responsible party does not comply with the notice and order to abate by the stated deadline;

(2) A statement explaining how the city intends to recover the costs incurred to abate the violation if the owner or other responsible party does not comply with the notice and order to abate by the stated deadline; and

(3) A statement that the owner or other responsible party may appeal the notice and order to abate within ten calendar days of the notice and order and request a hearing in accordance with section 15.12.060.B.6.

b. *Service of notice and order.* A notice and order to abate shall be served as follows:

(1) Sent by certified mail, return receipt requested, to the owner of the property as shown in the records of the Clark County Assessor;

(a) If the notice is returned by the U.S. Postal Service showing that it was not delivered, a copy thereof shall be posted in a conspicuous place in or about the subject building, structure, lot, or premise and shall be mailed by first-class mail to the owner. It shall be unlawful for any person to remove, alter, deface, tamper with, or alter the visibility of any notice and order posted at the premises pursuant to this Code;

(b) A certification of posting shall be completed by the code official who posted the notice and order stating the date and time it was posted on the property, the address of the property where it was posted, and a brief description of the location on the premises where it was posted; or

(2) Served by personal service on the property owner, with a signed certificate of service prepared by the code official effectuating the service;

(3) Service of the notice and order to abate shall be complete upon mailing or, where applicable, posting on the premises. The failure of the owner to receive the certified mailing does not affect the validity of any proceedings taken under this Code.

c. *Abatement by the city.* The code official shall follow the reinspection process and may assess reinspection fees as provided in section 15.12.060.B.1.c. after the compliance date for the notice and order to abate has passed. Once reinspection has occurred, if abatement has not been completed, the code official has followed all other required procedures set forth in this section 15.12.060.B.1 and B.2, and no appeal has been filed, or an appeal has been denied and abatement not completed by the deadline provided in the decision on appeal, the condition(s) or violation(s) may be abated by city personnel or by a private contractor hired by the city for that purpose. City personnel or a

private contractor may enter upon the property at a reasonable time and in a reasonable manner to abate the conditions set forth in the notice and order to abate.

d. *Abatement report.* The city personnel or outside contractor ordered to perform the abatement shall file with the director a written report detailing the work performed, time and labor incurred, and an itemized accounting of the total equipment and abatement costs incurred to abate the violation within 30 days of completion of the work. The report shall contain the names and addresses of the owner and any other responsible parties, and the address, Assessor's parcel number or legal description of the property. The director shall review the abatement report and approve the report, reject the report and order a new report, or order modifications to the report as needed.

e. *Recovery of abatement costs.* Once the director has finalized an approved abatement report and costs included therein, the director is authorized to proceed with recovery of the reported abatement costs against the property through a special assessment or other lawful collection method.

(1) *Special assessment.* The director may authorize the code official to collect the abatement costs against the property by recording a special assessment lien, which may be collected at the same time and in the same manner as ordinary county taxes, subject to the same penalties, procedure and sale in the case of delinquency as provided for ordinary county taxes.

(a) The special assessment shall be perfected when the city has:

i. Recorded with the Clark County Recorder a statement setting forth the amount of the expenses incurred and unpaid and the description of the property subject to the lien; and

ii. Sent by certified mail, return receipt requested, a notice of special assessment lien, separately prepared for each lot affected, and addressed to the owner of the property as set forth in the records of the Clark County Assessor.

(b) The special assessment shall be treated as co-equal with the latest lien on the property to secure the payment of county taxes, not subject to extinguishment by the sale of the property for nonpayment of county taxes, and proper and superior to all other liens, claims, and encumbrances on the property other than the lien for county taxes.

(c) Before recording the lien, the code official shall mail the owner of record a written notice of the city's intent to record a special assessment lien unless payment of all monies due is paid in full on or before the date listed in the notice.

(d) Quarterly special assessment report. Quarterly, the director shall report to the city council all special assessments recorded for abatement actions performed and shall include in such report the street address or assessor's parcel number of the property abated, the name of each owner of property assessed as of the date of the assessment, and the total amount of the assessment, stating the amount assessed for expenses of abatement and any amount assessed for administrative fines.

(2) *Collection action.* The city may take any lawful collection action deemed necessary and appropriate to recover the abatement costs owed, including but not limited to the city attorney filing a petition in a court of competent jurisdiction for the entry of a civil judgment against the property owner in an amount equal to the amounts owed, or referral of the unpaid amounts to a collection agency for recovery. Where the amounts are referred for collection, the city may impose a fee of 25 percent of the outstanding indebtedness or $250.00, whichever is less, against the responsible party. This fee shall accrue and become due and payable at the time the indebtedness is referred for collection to the collection agency, and that amount may be added by the collection agency to the amount sought to be collected. Any judgment or amended judgment entered under this chapter may include the amount of the collection fee authorized herein.

3. *Administrative fees.* Expenses incurred by the city in investigating, inspecting and re-inspecting property that is the subject of a violation, as well as any other processing costs related to enforcement of this Code may be recovered through the issuance of administrative fees pursuant to the administrative fee schedule established by the city council and set forth in section 15.12.090. Administrative fees may be imposed in conjunction with abatement expenses or the issuance of administrative citations. In addition to any other lawful means of collection, administrative fees may be collected in the same manner and at the same time as administrative fines and any costs incurred by the city in performing abatements.

4. *Administrative citations and fines.* Administrative fines may be imposed for violations of any of the provisions of this Code, including failure to comply with any final order issued through the appeal process.

a. *Procedure for issuance of citation and fine.*

(1) Administrative fines shall be assessed by means of an administrative citation issued by the code official and shall be payable directly to the city.

(2) An administrative citation shall contain:

(a) The name and address of the property owner and any other responsible party and the address or legal description of the property where the violation is occurring;

(b) A statement of the provisions of this Code that have been violated and the date of the violation(s);

(c) The action required to correct the violation(s) and a deadline for compliance, if not already provided in a notice of violation separately or concurrently served with the citation;

(d) The amount of administrative fines and fees imposed for the violation(s);

(e) A statement that each day the owner or other responsible party does not correct or abate the violation after the date of the administrative citation may constitute a separate violation subjecting the owner to additional fines;

(f) A statement that the owner or responsible party may appeal the fine and request a hearing within ten calendar days of the date the administrative citation is served; and

(g) An address and telephone number of a code official with whom contact regarding the violation can be made.

(3) An administrative citation shall be served on the property owner via personal service or via certified mail, return receipt requested. A certificate of service shall be completed by the code official who effectuated service of the citation. Service shall be complete upon mailing or personal service of the citation. The failure of the owner to receive the citation shall have no effect on the validity of any fines issued.

b. *Accumulation of fines.* If the owner or other responsible party fails to correct the violation, subsequent administrative citations may be issued for the same violations. Each day that a violation continues shall constitute a separate violation. The amount of fines assessed for each administrative citation issued for the same violations shall be specified in the fee resolution adopted by the city council as set forth in section 15.12.090. Payment of the fine shall not excuse the failure to correct the violations nor shall it bar further enforcement action by the city.

c. *Appeal of an administrative citation, fines, and fees.* Appeal of an administrative citation, fines, and fees shall be made in accordance with the procedures of section 15.12.060.B.6.

d. *Failure to pay administrative fines and fees.*

(1) If not appealed, administrative fines and fees are immediately due and payable. Failure to issue payment shall constitute a violation of this Code. The city may take any lawful collection action deemed necessary and appropriate to recover the administrative fine amounts owed, including but not limited to the city attorney filing a petition in a court of competent jurisdiction for the entry of a civil judgment against the property owner in an amount equal to the unpaid fine and/or fee amounts owed, or referral of the unpaid amounts to a collection agency for recovery.

(2) In addition to the fines assessed pursuant to this chapter, the person responsible for any violation shall be liable for an additional collection fee where the collection of the fines provided for herein is referred for collection. The amount of such fee shall be 25 percent of the outstanding indebtedness or $250.00, whichever is less. The amount of any such collection fee shall accrue and become due and payable at the time the indebtedness is referred for collection to the collection agency, and that amount may be added by the collection agency to the amount sought to be collected. Any judgment or amended judgment entered under this chapter may include the amount of the collection fee authorized herein.

(3) *Special assessment.* The city may also collect unpaid administrative fines and fees through the special assessment process set forth in section 15.12.060.B.2.e(1), if the uncollected fine amounts total more than $5,000.00 and at least 12 months have elapsed after the date specified for correction in the notice and order or citation, or the date of compliance in any order of the city or court on an appeal of the notice and order or citation, whichever is later.

5. *Emergency measures and expedited procedures.*

a. *Emergency abatement order.* Where the director or building official determines a condition or violation of this Code constitutes an imminent hazard, the director or building official may order the owner and any other responsible party to abate the condition or violation so as to remove the hazard within an expedited time period specified in the order. The order shall be served as required in section 15.12.060.B.2.b. No notice of violation is required to first be served, no extensions need be granted, and all appeal periods may be expedited. Within 24 hours after the required time to abate the condition or violation, the director, building official or code official shall conduct a re-inspection of the property to determine compliance with the notice and order.

b. *Emergency abatement.* If an imminently hazardous condition has not been abated in compliance with an order issued pursuant to subsection a, and no

appeal has been filed or an appeal has been denied, the director or building official may secure the necessary labor, materials, and other resources required to perform the abatement action set forth in the order as expeditiously as possible.

c. *Temporary safeguards.* Notwithstanding other provisions of this Code, whenever there is an imminent hazard that necessitates immediate safeguards, the director or building official may order the necessary corrective action taken, including but not limited to, the boarding up or securing of building or structure openings, to render such structure or condition temporarily safe whether or not prior notice to the owner or other responsible party has been provided, and may cause such other safeguards to be implemented as deemed necessary to meet such emergency.

d. *Order to vacate building or structure that is dangerous.* When any of the following circumstances is present, the code official may, without providing prior notice to the owner or other responsible party, cause to be posted at each entrance to such structure a notice and order reading as follows: "THIS STRUCTURE IS DANGEROUS AND ITS OCCUPANCY IS PROHIBITED":

(1) There is imminent danger of failure or collapse of a building or structure;

(2) Any structure or part of a structure has fallen and life is endangered by the occupation of the structure; or

(3) There is imminent danger to the building occupants or those in the proximity of any structure or due to the presence of explosives, explosive fumes or vapors, or the presence of toxic fumes, gases, or materials, or operation of defective or dangerous equipment.

It shall thereafter be unlawful for any person to enter such structure except for the purpose of securing the structure, making the required repairs, removing hazardous or substandard conditions, or demolishing the same. Failure to vacate a building or structure as specified in the notice and order or to reoccupy a building or structure which has been ordered vacated prior to the issuance of written re-occupancy approval by the director or building official or his or her designee shall constitute a violation of this Code.

e. *Cost of temporary safeguards and emergency abatement.* Costs incurred in the performance of temporary safeguards and emergency work performed by the city may be recovered from the owner of the property where the imminent hazard is or was located, in accordance with sections 15.12.060.B.2.d and 15.12.060.B.2.e. Such costs may be recovered by a special assessment against the property, in addition to any other reasonable means authorized by

law, this Code, or a court of competent jurisdiction. Prior to recording a special assessment lien to recover costs for the installation of temporary safeguards pursuant to subsection c, the city shall provide the property owner with a written statement of costs and an opportunity to appeal the assessment of such costs through the appeal procedures of section 15.12.060.B.6.

f. *Order to vacate structure unfit for human occupancy.* A building or structure unfit for human occupancy as defined in this Code is subject to closure by a code official if the code official first follows the procedures set forth in section 15.12.060.B.2, except that no notice of violation and order to correct is required to first be issued. If the owner or other responsible party does not comply with a notice and order to abate a building or structure unfit for human occupancy by the original compliance date and fails to appeal the notice and order to abate, or fails to comply with any compliance date issued in a decision on appeal, the code official may cause to be posted at each entrance to such structure a notice and order reading as follows: "THIS STRUCTURE IS UNFIT FOR HUMAN OCCUPANCY AND ITS OCCUPANCY IS PROHIBITED". It shall thereafter be unlawful for any person to enter such structure except for the purpose of securing the structure, making the required repairs, removing hazardous or substandard conditions, or demolishing the same. Failure to vacate a building or structure as specified in the notice and order or to reoccupy a building or structure that has been ordered vacated prior to the issuance of written re-occupancy approval by the code official shall constitute a violation of this Code. Costs incurred by the city in closing and securing the structure to prevent further occupancy of the structure may be recovered from the owner of the property where the building is located in accordance with sections 15.12.060.B.2. and 15.12.060.B.2.e.

Property owners are responsible for providing relocation and temporary lodging assistance for any tenants or other lawful residents of a substandard building if such building is ordered to be vacated because it is unfit for human occupancy. If the property owner or its representative fails to assist any displaced tenants or other lawful residents in relocating and securing short-term replacement housing after receipt of a notice and order to vacate a structure unfit for human occupancy, reasonable relocation costs incurred by the city to assist residents in need of emergency housing may be recovered from the property owner in accordance with subsections 15.12.060.B.2. and 15.12.060.B.2.e.

g. *Closure of unmaintained vacant buildings.* Vacant buildings that have not been maintained pursuant to the requirements of section 15.12.030.J are subject to an order requiring that they be secured as set forth in section 15.12.030.J.2. In

issuing the order, the code official shall follow the procedures set forth in section 15.12.060.B.2, except that no notice of violation is required to first be issued. If the owner or other responsible party does not comply with the order by the original compliance date and fails to appeal the notice and order, or fails to comply with any compliance date issued in a decision on appeal, the code official may take any action deemed necessary to close and secure the building. It shall thereafter be unlawful for any person to enter such structure except for entry by the owner or owner's authorized agent for the purpose of further securing the building, inspecting the property, performing repairs, or taking other action necessary to prepare the property for occupancy by a lawful

occupant. Entry or occupancy by all other persons shall constitute a violation of this Code. Costs incurred by the city in closing and securing the building to prevent unlawful occupancy, vandalism, or other criminal activity on the premises may be recovered from the owner of the property, in accordance with sections 15.12.060.B.2.d and 15.12.060.B.2.e.

6. *Appeal procedures.* This section establishes the procedures for appealing administrative enforcement actions under this Code, including procedures for administrative appeal hearings. All appeals are limited by the provisions of this section 15.12.060.B.6.

a. *Procedures for requesting and setting an appeal hearing.*

(1) An owner or other responsible party (referred to herein as the "appellant") may request an appeal hearing by submitting a written request to the director that:

(a) Identifies the enforcement action that the person is contesting;

(b) Sets forth the facts supporting the appeal;

(c) Identifies the requested relief; and

(d) Is delivered to and received by the director personally or by mail (as postmarked) no later than the tenth day following the date of the notice, order or citation being appealed.

(2) A timely request for hearing shall stay the enforcement of the appealed action and toll the deadline for compliance, accrual of fines and fees, and payment of fines and fees. An untimely request for appeal shall not be considered and instead shall be dismissed.

(3) The director, or his/her designee, shall set a hearing and shall issue notice of the hearing date no later than ten days prior to the date set for the hearing, unless a shorter time period is agreed to in writing by the appellant. The notice shall state the date, time, and location of the hearing, and shall include a short explanation of the hearing process.

b. *Hearing procedures.*

(1) The director, or his/her designee, shall conduct and preside over the hearing. At the hearing, that person, referred to herein as the "presiding officer", shall direct the order of the proceedings and shall hear all evidence presented relevant to the subject violation(s), fines and/or fees.

(2) The hearing shall be informal in nature. The presiding officer is not bound by evidentiary or procedural rules applicable to public hearings or judicial proceedings. The presiding officer shall have discretion to record the hearing.

(3) The city will have an opportunity to present facts, statements, witness testimony, and other evidence to support its position. Affidavits or declarations of witnesses made under penalty of perjury may be presented by the city at the hearing if provided to the appellant no later than five days prior to the hearing.

(4) The appellant will have an opportunity to present facts, statements, witness testimony, and other evidence to support his or her position. Affidavits or declarations of witnesses made under penalty of perjury may be presented at the hearing if provided to the city no later than five days prior to the hearing.

(5) During the appeal hearing, the presiding officer may gather any relevant information regarding the subject enforcement action to assist in making a final decision. The presiding officer shall have the discretion to question witnesses, to allow rebuttal testimony, and to limit the presentation of immaterial or unduly repetitious evidence.

(6) After the conclusion of the hearing, the presiding officer shall consider all evidence presented relevant to the subject enforcement action and shall issue a decision regarding the disputed enforcement action. In his or her decision, the presiding officer is not authorized to grant exceptions or make modifications to the requirements of this Code. The decision shall be in writing and shall be issued no later than 30 days following the conclusion of the hearing and served on the appellant. The decision shall clearly state one of the following:

- **(a)** That the notice, order, citation, fine and/or fee is upheld, including a short statement of findings explaining the basis for the decision, and providing a deadline for curing the subject violation and payment of any fines and fees, with a notification that fines will resume accruing daily thereafter until the subject violation is corrected, if applicable;
- **(b)** That the notice, order, citation, fine and/or fee is reversed, including a short statement of findings explaining the basis for the decision; or
- **(c)** That the notice, order, citation, fine and/or fee is modified, including a short statement of findings explaining the basis for the decision, and providing a deadline for any modified compliance obligations and payment of fines and/or fees, with a notification that fines will resume accruing daily until the subject violation(s) is corrected, if applicable.

(7) Any appellant who fails to appear at the hearing on the designated date and time is deemed to have waived the right to a hearing and to object to any of the proceedings at the hearing, provided that the hearing was properly noticed and no continuances were granted.

c. *Post-hearing procedures.*

(1) The decision of the presiding officer is the final administrative action on the appeal.

(2) In the event the decision or appeal requires abatement of a nuisance or correction of any violation under this Code, the owner or other responsible party must abate the nuisance or correct the violation within ten days after the date of the decision or within such other period as the decision may direct.

(3) Failure to comply with a decision on appeal, including the failure to pay any administrative fines, fees, or abatement costs upheld on appeal, constitutes a misdemeanor.

(4) The provisions of section 15.12.060.B.4.d shall apply to the city's collection of unpaid administrative fines, fees and abatement costs upheld on appeal.

C. *Criminal proceedings.* Any person who violates this Code shall be deemed guilty of a misdemeanor, and the violation shall be deemed a strict liability offense. Each day such a violation is committed or permitted to continue shall constitute a separate offense and shall be punishable as such hereunder.

1. *Contents of criminal citation.* An issued criminal citation shall contain:

a. The name and address of the owner or other responsible party in violation, as well as the address of the property where the violation has occurred or is occurring;

b. A statement of the provisions of this Code that have been violated;

c. The amount of the criminal citation fees and administrative fines requested to be imposed for the violations; and

d. The date of appearance for the owner, responsible person, firm, or corporation to appear in the Henderson municipal court.

2. *Penalty.* Any person, firm, or corporation that violates any of the provisions of this Code is guilty of a misdemeanor punishable by a fine not exceeding $1,000.00 or by imprisonment not exceeding six months, or by both such fine and imprisonment. Each day that a violation of this chapter continues, whether pursued criminally or civilly, constitutes a separate violation for purposes of criminal prosecution or civil proceedings. In addition to this fine, administrative fees and court administrative fees will be assessed.

3. *Subsequent violations.* Any person who is convicted of a violation of this Code for a third time for the same violation within a two-year period shall be guilty of a misdemeanor punishable by a minimum fine of not less than $500.00 or by

imprisonment not to exceed six months in the city jail or by both such fine and imprisonment. Each day that a violation of this chapter continues, whether pursued criminally or civilly, constitutes a separate violation for purposes of criminal prosecution or civil proceedings.

D. *Injunctive relief.* The city may petition a court of competent jurisdiction for the issuance of a temporary or permanent injunction, as appropriate, to restrain the continuance of a violation or compel the specific performance of a requirement imposed under this Code. The city may also seek such other action as is appropriate for legal and/or equitable relief. A petition for injunctive relief shall not be a bar against, or a prerequisite for, the city to take other action.

E. *Other remedies and proceedings.*

1. *Graffiti.*

a. *Abatement of graffiti on residential property.* City personnel or contractors may cover or remove graffiti on residential property, at the city's cost, if:

(1) The owner of the property consents to the covering or removal of the graffiti; or

(2) If code officials are unable to contact the owner of the property to obtain the owner's consent, the code official first provides the owner with written notice, sent by certified mail, return receipt requested and posted on the property on which the graffiti will be covered or removed at least five days before city personnel or a city contractor covers or removes the graffiti.

b. *Abatement of graffiti on non-residential property.* Actions for abatement of graffiti on non-residential property shall follow the abatement procedures and remedies set forth in section 15.12.060.B.2.

2. *Abandoned nuisance.* No owner or other responsible party shall allow an abandoned nuisance to exist on the owner's property. The city may employ the remedies and enforcement provisions of this section in response to any abandoned nuisance.

a. *Abandoned nuisance notice.* When an abandoned nuisance exists on any property, the code official may send the owner a written notice to abate the abandoned nuisance. The notice shall be entitled "Notice of Abandoned Nuisance" and shall:

(1) Identify property upon which the abandoned nuisance is located;

(2) Include a description of the conditions or activities that constitute the abandoned nuisance as defined by this Code;

(3) Specify the date, at least 30 days from the date of the notice if the nuisance is not an immediate danger to the public health, safety, and welfare and was caused by the criminal activity of a person other than the

owner, by which the condition or activities must be abated in order to prevent the matter from being submitted to the city attorney's office to file an action in a court of competent jurisdiction to seek:

(a) Abatement of the nuisance;

(b) Repair, safeguarding, or demolition of any property or structure where the abandoned nuisance is located or occurring;

(c) Court authorization to carry out the abatement, repair, safeguard, or demolition of the nuisance; or

(d) Civil penalties against the owner; and/or

(e) Any other relief deemed appropriate by the court.

(4) Be sent by certified mail, return receipt requested, to the owner of the property at the address of record with the Clark County Assessor;

(5) Provide notice of the opportunity for a hearing before a court of competent jurisdiction;

(6) Advise the owner that the time to abate the condition or activities is tolled for the period during which the owner has requested a hearing and receives a decision from the court; and

(7) Advise the owner that the city may recover the money expended for labor and materials used to abate the condition or activities, or if applicable, repair, safeguard or demolish a structure or property where the abandoned nuisance is located or occurring, through a special assessment against the property.

b. *Abandoned nuisance remedy.* Upon finding by a court of competent jurisdiction that an abandoned nuisance exists, the court may:

(1) Impose a civil penalty of not more than $500.00 per day for each day that the condition was not abated after the date specified in the notice by which the owner was required to abate the condition, if the property is residential property, and not more than $750.00 per day if the property is nonresidential property;

(2) Order the owner to pay the city for all costs incurred by the city, including its fees imposed, in abating the condition;

(3) If applicable, order the owner to pay reasonable expenses for the relocation of any tenants who occupy the property legally and are affected by the abandoned nuisance; and

(4) Order any other appropriate relief.

c. *Collection of costs, fees and civil penalties.* The city may make the costs and fees incurred in abating the condition a special assessment against the

property in which the abandoned nuisance is or was located or occurring, pursuant to the procedures of section 15.12.060B.2.e. Civil penalties awarded by the court that are not collected from the owner of the property may be collected through a special assessment against the property if:

(1) At least 180 days have elapsed after the date specified in the order of the court by which the owner must abate the abandoned nuisance, or, if the owner appeals that order, the date specified in the order of the appellate court by which the owner must abate the abandoned nuisance, whichever is later;

(2) The total amount of uncollected civil penalties is more than $5,000.00; and

(3) The owner has been billed, served or otherwise notified that the civil penalties are due.

3. *Chronic nuisance.* No owner or other responsible party shall allow the existence of a chronic nuisance upon the owner's property. The city may employ the remedies and enforcement provisions of this section in response to any chronic nuisance.

a. *Chronic nuisance notice.* When a chronic nuisance exists on any property, the code official may send the owner a written notice to abate the chronic nuisance. The notice shall be entitled "Notice of Chronic Nuisance" and shall:

(1) Identify the property upon which the chronic nuisance is located;

(2) Include a description of the conditions or activities that constitute the chronic nuisance as defined by this chapter;

(3) Specify the date, at least 30 days from the date of the notice if the nuisance is not an immediate danger to the public health, safety, and welfare and was caused by the criminal activity of a person other than the owner, by which the condition or activities must be abated in order to prevent the matter from being submitted to the city attorney's office to file an action in a court of competent jurisdiction to seek abatement of the nuisance, penalties and other relief deemed appropriate by the court;

(4) Provide notice of the opportunity for a hearing before a court of competent jurisdiction;

(5) Advise the owner that the time to abate the condition or activities is tolled for the period during which the owner has requested a hearing and receives a decision;

(6) Be sent by certified mail, return receipt requested to the owner of the property at the address as listed with the Clark County Assessor; and

(7) Advise the owner that the city will recover the money expended for labor and materials used to abate the condition or activities, or if applicable, repair, safeguard or demolish a structure or property where the chronic nuisance is located or occurring, through a special assessment against the property.

b. *Chronic nuisance remedy.* Upon finding by a court of competent jurisdiction that a chronic nuisance exists, the court may:

(1) Impose a civil penalty of not more than $500.00 per day for each day that the condition was not abated after the date specified in the notice by which the owner was required to abate the condition if the property is residential;

(2) Impose a civil penalty of not more than $750.00 per day for each day that the condition was not abated after the date specified in the notice by which the owner was required to abate the condition if the property is non-residential;

(3) Order the owner to pay the city for all costs incurred by the city, including its fees imposed, in abating the condition;

(4) If applicable, order the owner to pay reasonable expenses for the relocation of any tenants who are affected by the chronic nuisance; and

(5) Order any other appropriate relief.

c. *Collection of costs, fees and civil penalties.* The city may make the costs and fees incurred in abating the condition a special assessment against the property in which the abandoned nuisance is or was located or occurring, pursuant to the procedures of section 15.12.060B.2.e. Civil penalties awarded by the court that are not collected from the owner of the property may be collected through a special assessment against the property if:

(1) At least 180 days have elapsed after the date specified in the order of the court by which the owner must abate the abandoned nuisance, or, if the owner appeals that order, the date specified in the order of the appellate court by which the owner must abate the abandoned nuisance, whichever is later;

(2) The total amount of uncollected civil penalties is more than $5,000.00; and

(3) The owner has been billed, served or otherwise notified that the civil penalties are due.

4. *Municipal court abatement action.* This procedure shall be followed when the code official and city attorney elect to pursue the chronic or abandoned nuisance remedies set forth in subsections 15.12.060.E.2 or 15.12.060.E.3, pursuant to NRS

268.4124 and 268.4126. This procedure may also be followed when the code official and city attorney determine that municipal court action may be warranted due to the scope of the nuisance and abatement needed, or when another provision of this Code or state law requires court action.

This subsection 15.12.060.E.4 shall not be construed to prevent the city from 1) administratively abating a nuisance as authorized under this chapter or 2) pursuing injunctive relief or other nuisance remedies authorized by law in any other court of competent jurisdiction.

(a) After the code official has properly served the notices required by subsections 15.12.060.B or 15.12.060.E, as applicable, if the owner or responsible party has not cured the violations of this Code as required in the notices, the code official may refer the matter to the city attorney or his or her designee to initiate an action in municipal court ("court") by filing a petition for abatement order with the court.

(1) The petition shall set forth the following:

a. The subject property address and Assessor's Parcel Number (APN);

b. The name of the property owner;

c. A description of the violation(s) occurring on the subject property constituting a nuisance under this Code;

d. The dates and nature of all violation notices issued by the city prior to the filing of the petition;

e. The outcome of any administrative appeals proceedings regarding the violations, if any occurred; and

f. The city's requested relief.

(2) The petition shall be served on the property owner by personal service or by certified mail, return receipt requested, at the address of record for the property owner as listed with the Clark County Assessor, and shall also be posted on the subject property.

(3) Once service has been effectuated, an affidavit of service shall be completed and filed with the court. For a certified mailing to the owner, service of the petition shall be deemed complete upon proof of mailing, regardless of whether the owner accepts the mailing.

(b) Once the court has received a complete filed petition and affidavit of service, it shall set a hearing date no later than 30 days from the date of service of the petition.

(1) The court shall provide notice of the hearing date, time, and location to the city attorney's office, who shall serve the notice on the property owner in the same manner the petition is served.

(2) Any compliance deadlines set forth in the city's pre-hearing notices regarding the nuisance shall be stayed pending the court's decision following the hearing.

(3) The property owner may file with the court a written response to the petition no later than five days prior to the hearing. The owner must serve such response on the city attorney's office by regular mail or personal delivery.

(4) The court may continue the hearing at its discretion.

(c) Pre-hearing discovery.

(1) No party to the abatement action may serve any interrogatories or take any depositions prior to the abatement hearing.

(2) Either party to the abatement action may request that the other party provide a copy of the documents intended to be used during the hearing, including:

a. Written or recorded statements made by the owner or a witness, or copies thereof, within the possession, custody or control of the other party, the existence of which is known, or by the exercise of due diligence may become known, that the other party intends to use at the hearing;

b. Photographs of the subject property and the nuisance;

c. Notices the city issued to the property owner regarding the nuisance; and

d. Any other correspondence books, papers, documents, reports, tangible objects, or copies thereof, which the other party intends to use at the hearing.

(3) The owner is not entitled, pursuant to the provisions of this section, to the discovery or inspection of:

a. An internal report, document or memorandum that is prepared by or on behalf of the city attorney in connection with the investigation or prosecution of the nuisance action.

b. A statement, report, book, paper, document, tangible object or any other type of item or information that is privileged or protected from disclosure or inspection pursuant to the Constitution or laws of this state or the Constitution or laws of the United States.

(4) The city is not entitled, pursuant to the provisions of this section, to the discovery or inspection of:

a. An internal report, document or memorandum that is prepared by or on behalf of the owner or the owner's attorney in connection with the investigation or defense of the nuisance action.

b. A statement, report, book, paper, document, tangible object or any other type of item or information that is privileged or protected from disclosure or inspection pursuant to the Constitution or laws of this state or the Constitution of the United States.

(5) A party shall provide copies of requested documents in its possession, custody or control within three days of the request

(d) Hearing. The abatement hearing shall be conducted by a municipal court judge, with no jury, in the following manner:

(1) The city shall have the burden to prove by a preponderance of the evidence that the condition of the subject property constitutes a nuisance in violation of this Code.

(2) The court may admit all relevant documentary evidence and may hear testimony of the parties and any witnesses.

(3) The property owner or its legal counsel, as authorized in writing, must appear for the hearing. If the owner or its counsel does not appear for the hearing and has not requested a continuance, the court may continue the matter or enter an abatement order in favor of the city.

(4) The court shall render its decision within 14 days after the conclusion of the hearing. The decision shall be in writing and served upon both parties. The court may make any orders and award any relief authorized by this chapter and Nevada law based upon the evidence presented.

(5) No attorney's fees or costs shall be assessed against either party.

(6) The decision by the court shall be a final order.

(Ord. No. 3910, §§ 7, 8, 10-4-2022; Ord. No. 3733, § 1, 10-20-2020; Ord. No. 3177, § 1, 6-17-2014; Ord. 2483, § 1 (part), 2006)

15.12.070 Code enforcement abatement revolving fund.

The code enforcement abatement revolving fund is hereby established to fund the abatement of violations of this Code. All penalties and fines collected in conjunction with the enforcement of this Code shall be deposited in this fund to be used by code enforcement to assist in the abatement of violations of this Code.

(Ord. 2483, § 1 (part), 2006)

15.12.080 Purpose.

The purpose of this fee schedule is to establish monetary enforcement alternatives for the administrative citation and cost recovery components of the property maintenance code.

(Ord. 2688, § 1, 2007)

15.12.090 Fee schedule.

Fee, Fine or Service Name/Description	Fee
Re-inspection fee (each)	$150.00
Administrative citations and fines for residential properties:	
1st citation	$100.00
2nd citation	$300.00
3rd and/or subsequent citation(s)	$500.00
Illegal Discharge 1st citation	$300.00
Illegal Discharge 2nd and/or subsequent citation(s)	$500.00
Illegal Dumping 1st citation	$300.00
Illegal Dumping 2nd and or subsequent citation(s)	$500.00
Administrative citations and fines for commercial properties pursuant to NRS 268.4122:	
1st citation	$250.00
2nd citation	$500.00
3rd and/or subsequent citation(s)	$1,000.00
Illegal Discharge 1st citation	$750.00
Illegal Discharge 2nd and/or subsequent citation(s)	$1,000.00
Other fees:	
Lien recordation and release fee	$150.00
Stagnant water treatment fee	$100.00
Administrative violation processing fee(1)	$150.00
Abatement(2)	Actual Costs
Reasonable emergency tenant relocation costs incurred pursuant to 15.12.060.B.5(f)	Actual Costs

(1) To recover any staff time and expense incurred in processing enforcement actions under this Code not included in the other fees set forth herein. May be issued on a one-time basis per violation if abatement action or administrative citation is required.

(2) Actual labor and materials associated with abatement, whether expended by city staff or contractors hired for such purpose.

(Ord. No. 3910, § 9, 10-4-2022; Ord. No. 3733, § 1, 10-20-2020; Ord. No. 3177, § 1, 6-17-2014)

Chapter 15.13 ABANDONED RESIDENTIAL REAL PROPERTY REGISTRY

Sections:

15.13.010 Purpose and scope.
15.13.020 Definitions.
15.13.030 Creation.
15.13.040 Registration.
15.13.050 Fees.
15.13.060 Inspection.
15.13.070 Continued inspection requirements.

15.13.090 Appeal process.
15.13.100 Limitations.
15.13.110 Reserved.

15.13.010 Purpose and scope.

It is the purpose and intent of this chapter to establish a registration program ("program") to oversee abandoned residential property and those in danger of becoming abandoned. This chapter is intended to reduce and prevent neighborhood blight, to mitigate conditions that threaten the health, safety, and welfare of the public, and to promote neighborhood stability. This program creates a property registration requirement designed to assist in accomplishing the intent and purpose of this chapter. Nothing in this section waives, relieves, or otherwise excuses an owner of residential real property from compliance with applicable building codes and ordinances, and the owner shall remain responsible and liable therefore.
(Ord. No. 4019, § 1, 4-2-2024; Ord. No. 3121, § 1, 2-4-2014)

15.13.020 Definitions.

The following words and phrases used in this chapter will have the meanings ascribed to them:

Abandoned residential property means residential real property:

(a) Consisting of not more than four family dwelling units or a single-family residential unit, including, without limitation, a condominium, townhouse or home within a subdivision, if the unit is sold, leased or otherwise conveyed unit by unit, regardless of whether the unit is part of a larger building or parcel that consists of more than four units; and

(b) That the grantor or the successor in interest of the grantor has surrendered as evidenced by a document signed by the grantor or successor confirming the surrender or by the delivery of the keys to the property to the beneficiary or that satisfies the following conditions:

(1) The residential real property is not currently occupied as a principal residence by the grantor of the deed of trust, the person who holds title of record or any lawful occupant;

(2) The obligation secured by the deed of trust is in default and the deficiency in performance or payment has not been cured;

(3) The gas, electric, or water utility services to the residential real property have been terminated;

(4) An owner of the residential real property is not presently serving in the Armed Forces of the United States, a reserve component thereof or the National Guard; and

(5) Two or more of the following conditions exist:

(I) Construction was initiated on the residential real property and was discontinued before completion, leaving a building unsuitable for occupancy, and no construction has taken place for at least 3 months;

(II) Multiple windows and/or doors on the residential real property are boarded up or closed off or are smashed through, broken off or unhinged, or multiple window panes are broken and unrepaired;

(III) Doors on the residential real property are smashed through, broken off, unhinged or continuously unlocked;

(IV) The residential real property has been stripped of copper or other materials, or interior fixtures to the property have been removed;

(V) Law enforcement officials have received at least one report of trespassing or vandalism or other illegal acts being committed at the residential real property within the immediately preceding 6 months;

(VI) The residential real property has been declared unfit for occupancy and ordered to remain vacant and unoccupied under an order issued by a municipal or county authority or a court of competent jurisdiction;

(VII) The local police, fire or code enforcement authority has requested that the owner or any other interested or authorized party secure the residential real property because the local authority has declared the property to be an imminent danger to the health, safety and welfare of the public; or

(VIII) The residential real property is open and unprotected and in reasonable danger of significant damage resulting from exposure to the elements or vandalism.

The term does not include residential real property in which:

(a) There is construction, renovation or rehabilitation on the residential real property that is proceeding diligently to completion, and any building being constructed, renovated or rehabilitated on the property is in substantial compliance with all applicable ordinances, codes, regulations and laws as evidenced by active building permit(s);

(b) The residential real property is occupied on a seasonal basis, but is otherwise secure;

(c) There are bona fide rental or sale signs on the residential real property, or the property is listed on a Multiple Listing Service, and the property is secure; or

(d) The residential real property is secure but is the subject of a probate action, action to quiet title or any other ownership dispute.

Beneficiary shall have the meaning contained in NRS 107.015.

City means City of Henderson.

Default, with respect to a mortgage, means that the obligor under the mortgage has breached or is in default of a repayment or other obligation in connection with that mortgage.

Designated agency means an agency or a contractor chosen by the city that inspects real property to determine if that real property is abandoned.

Grantee means the person or entity to whom property is conveyed.

Grantor means a person who holds title of record to the residential real property.

Mortgage means a first mortgage or other first-priority security interest in real property that is placed as a security for the repayment of a loan, and includes a first deed of trust.

Mortgagee means any person or firm who holds a first-priority mortgage or other first-priority security interest in real property to secure a loan, whether as the mortgagee of a mortgage or the beneficiary of a deed of trust.

Obligor means a person or entity owing a certain sum of money or other debt to another.

Property in danger of becoming abandoned means any property receiving a notice of default as defined by this chapter and by Nevada statute or any property not occupied by a lawful occupant and showing signs, in any combination, leading to abandonment as set forth in subsection 15.13.020(b)(5).

Property owner is a person or entity that holds legal title to residential real property located in the city.

Registry means the entity established by the city.
(Ord. No. 4019, § 2, 4-2-2024; Ord. No. 3121, § 1, 2-4-2014)

15.13.030 Creation.

The City of Henderson hereby creates a registry for abandoned residential properties and those in danger of becoming abandoned within the city limits.
(Ord. No. 4019, § 3, 4-2-2024; Ord. No. 3121, § 1, 2-4-2014)

15.13.040 Registration.

A. *Requirements.*

(1) A mortgagee who conducts or causes an inspection to occur pursuant to the requirements of section 15.13.060 and determines that a residential property is abandoned or in danger of becoming abandoned is required to register the property with the city.

(2) Registration must occur with 15 days following a completed inspection.

B. *Procedures for registering property.*

(1) The mortgagee or property owner shall register the property with the city's registry on forms approved by the community development services department. Approved forms may be located online and in any other manner as designated by the city.

(2) By means of contract, the city may assign and delegate to another person(s) or entity or entities the authority and responsibility to:

a. Effect, collect, and maintain registrations under this chapter.

b. Collect registration and modification fees under this chapter.

c. Inspect residential real property to determine whether it is abandoned or in danger of becoming abandoned as required under this chapter.

(3) Registration pursuant to this chapter shall contain, at a minimum, the following information:

a. The name and mailing address of the mortgagee or the property owner, and the physical address of the mortgagee or property owner if the mailing address is a post office box;

b. A direct contact name and phone number for purposes of contacting the mortgagee or property owner;

c. The current disposition and occupancy status of the property; and

d. The name, address and phone number of the local property manager, if applicable.

(4) Any property manager designated pursuant to this section must be located within Nevada and must be:

a. A property management company or property preservation company located in and licensed by the State of Nevada;

b. A department or section of a mortgagee located in Nevada that is devoted to property management or preservation; or

c. A service provider located in Nevada specifically employed by a mortgagee to provide property management or preservation within the city.

(Ord. No. 4019, § 4, 4-2-2024; Ord. No. 3121, § 1, 2-4-2014)

15.13.050 Fees.

The City of Henderson is authorized to charge a mortgagee or the property owner a fee of $200.00 for each initial property registration required under this chapter, and a fee of $50.00 for each modification to a registration. On the yearly anniversary of each property registration, the City of Henderson is authorized to charge a mortgagee or the property owner an annual fee of $200.00 for each property required to be registered under this chapter.

(Ord. No. 3121, § 1, 2-4-2014)

15.13.060 Inspection.

The mortgagee or its agent is required to inspect properties for which it has recorded a notice of default as well as any other properties it has reason to believe may be abandoned or in danger of becoming abandoned.

A. A mortgagee or its agent may inspect by entering the residential real property, but not any dwelling or structure unless otherwise authorized, to investigate whether the real property is abandoned residential property or in danger of becoming abandoned residential property

B. Should a mortgagee request the designated agency to inspect pursuant to this chapter, the agency shall inspect by entering the real property, but not any dwelling or structure unless otherwise authorized, to investigate whether the real property is abandoned residential property or in danger of becoming abandoned.

C. Time period.

(1) *Notice of default.* An inspection by a mortgagee, its agent, or designated agency must be done within 30 calendar days after a notice of default has been

recorded with the Clark County Recorder's Office to determine whether such property is abandoned or in danger of becoming abandoned as defined in this chapter.

(2) *Notice of abandonment or property in danger of becoming abandoned.* A mortgagee or its agent must conduct an inspection within 30 calendar days after receiving notice from an occupant or other knowledgeable party that its residential real property may be abandoned or in danger of becoming abandoned as defined in this chapter.

(Ord. No. 4019, § 5, 4-2-2024; Ord. No. 3121, § 1, 2-4-2014)

15.13.070 Continued inspection requirements.

A. Residential real property shall be maintained in accordance with applicable city and state codes and ordinances, including without limitation, ordinances pertaining to dangerous buildings, litter, nuisance abatement, and the property maintenance code. Landscaping visible from the public right-of-way shall be maintained pursuant to the property maintenance code, HMC chapter 15.12, during the registration period.

B. For purposes of this chapter:

(1) Landscaping includes without limitation grass, turf stain, trees, ground covers, bushes, shrubs, hedges or similar plantings, decorative rock or bark or artificial turf/sod designed specifically for residential installation.

(2) Maintenance of landscaping includes without limitation regular watering and irrigation, weeding, staining, re-staining, cutting, pruning, and mowing of required landscaping and removal of all trimmings.

C. Pools and spas located on residential real property shall be kept in working order so the water remains clear and free of pollutants and debris or drained and kept dry. Such maintenance of pools and spas must comply with the applicable requirements of HMC chapter 15.01 (Building and Fire Safety Administrative Code) and HMC chapter 15.12 (Property maintenance code).

D. Residential real property shall be maintained in a secure manner to prevent accessibility to unauthorized persons. Doors of all kinds, windows, gates and other openings that make the property accessible must be closed and locked. Broken windows must be reglazed or boarded in accordance with applicable city standards.

E. Except as otherwise provided, compliance with this section shall be the joint responsibility of the mortgagee and the property manager, as well as the property owner.

(Ord. No. 4019, § 6, 4-2-2024; Ord. No. 3121, § 1, 2-4-2014)

15.13.080 Enforcement.

A. It is unlawful for a person or other responsible party under this chapter to violate any provision of this chapter.

B. The provisions of this chapter may be enforced by an employee and/or officer of the City of Henderson working on behalf of any department as charged with enforcing this chapter. Such city employee and/or officer shall issue, including but not limited to, a notice, violation, and/or citation as necessary.

C. The provisions of this chapter may be enforced by means of:

(1) Administrative fines and fees of $150.00 per day per violation;

(2) Criminal prosecution, as permitted by NRS 266.105, which shall constitute a misdemeanor crime upon conviction;

(3) Any civil action in a court of competent jurisdiction to compel compliance;

(4) Any other civil mechanism established by the city council for use in connection with this chapter; and/or

(5) Any means as permitted by law.

The City of Henderson may use any of these remedies in any combination at any time during the procedures.
(Ord. No. 3121, § 1, 2-4-2014)

15.13.090 Appeal process.

Unless otherwise provided in this chapter, the appeal process procedure shall mirror that contained in the Henderson Municipal Code 15.12, Property Maintenance Code.

A. *Standing.* The person(s) or entities having standing to appeal under this chapter shall be ones legally responsible for maintenance of the property including, but not limited to a mortgagee, its designated property manager, and/or the property owner. Legal responsibility for maintenance of the property cannot be deferred to an occupant.

(Ord. No. 3121, § 1, 2-4-2014)

15.13.100 Limitations.

A. Nothing in the chapter:

(1) Requires a mortgagee or its agent or employee to violate any criminal law or ordinance or any court order, or to violate an automatic stay in a bankruptcy proceeding.

(2) Creates a duty or obligation that is owed to, or runs in favor of, any person other than the City of Henderson and those officers, employees or agents who are acting in the City of Henderson's behalf.

(3) Creates or implies a cause of action in favor of, or available to, any person other than the City of Henderson.

B. This chapter is limited by any legal holdings as ordered by a court of competent jurisdiction.

(1) The City of Henderson, a municipal corporation, may not control, limit, or require the compliance of federal government entities in a manner found to conflict with applicable federal law(s).

C. Liability of city employees arising under this chapter shall be limited pursuant to NRS 41.032, HMC 15.12.060(E), and any applicable laws.
(Ord. No. 3121, § 1, 2-4-2014)

15.13.110 Reserved.

Editor's note—Ord. No. 4019, § 7, adopted April 2, 2024, repealed the former section 15.13.110 in its entirety, which pertained to expiration and derived from Ord. No. 3121, § 1, adopted February 4, 2014.

Chapter 15.16 ELECTRICAL CODE*

Sections:

15.16.010 Adoption by reference.
15.16.020 Code amended.
15.16.030 Supervision of work.
15.16.040 Substantial compliance standard.
15.16.050 Compliance required—Penalty for violations.
15.16.060 Effective date.

15.16.010 Adoption by reference.

The City of Henderson adopts as its electrical code the 2023 National Electrical Code as published by the National Fire Protection Association in its entirety excepting amendments and changes as stated in this chapter. This code is available online through the National Fire Protection Association.
(Ord. No. 4086, § 2, 7-15-2025; Ord. No. 3898, § 2, 8-2-2022; Ord. No. 3507, § 1, 8-7-2018; Ord. No. 3042, § 1, 8-6-2013; Ord. 2886, § 1, 12-7-2010)

15.16.020 Code amended.

The City of Henderson adopts as amendments to the 2023 National Electrical Code the booklet entitled "Southern Nevada Amendments to the 2023 National Electrical Code" amending the 2023 National Electrical Code. The booklet is adopted in its entirety excepting amendments and changes as stated in this chapter. This code is available online through the National Fire Protection Associations website.
(Ord. No. 4086, § 3, 7-15-2025; Ord. No. 3898, § 3, 8-2-2022; Ord. No. 3507, § 1, 8-7-2018; Ord. No. 3042, § 1, 8-6-2013; Ord. 2886, § 1, 12-7-2010)

15.16.030 Supervision of work.

Every contractor shall provide qualified supervision while performing electrical installations. To meet this requirement, the individual leading or directing the installation shall have a current approved card issued by the International Code Council Contractor Examination Services for Clark County, Nevada for the scope of work being performed and shall provide the card to the code official upon request.
(Ord. 2886, § 1, 12-7-2010)

***Editor's note—**Ord. 2886, § 1, adopted December 7, 2010, amended chapter 15.16 in its entirety to read as herein set out. Formerly, chapter 15.16, §§ 15.16.010—15.16.080, pertained to similar subject matter, and derived from Ord. 1758, § 2(part), adopted 1997; Ord. 1758, § 2(part), adopted 2007; Ord. 1995, § 1, adopted 2000; Ord. 2182, §§ 3(part)—5, adopted 2003, and Ord. 2538, § 1(part), adopted 2006.

15.16.040 Substantial compliance standard.

In the enforcement of the specific provisions of the adopted technical codes and standards, the building official or designee is authorized to grant minor variations from the strict application of specific code and standards provisions where, in the opinion of the building official, the work is in substantial compliance with the intent of the adopted codes and standards.
(Ord. No. 3042, § 1, 8-6-2013; Ord. 2886, § 1, 12-7-2010)

15.16.050 Compliance required—Penalty for violations.

Any person, firm or corporation violating any provision of this chapter is guilty of a misdemeanor and upon conviction thereof shall be punished as provided by law for a misdemeanor offense. Each separate date or any portion thereof during which any violation of this chapter occurs or continues shall be deemed to constitute a separate offense, and upon conviction thereof shall be punishable as herein provided.
(Ord. 2886, § 1, 12-7-2010)

15.16.060 Effective date.

This chapter shall become effective on January 2, 2026.
(Ord. No. 4086, § 4, 7-15-2025; Ord. No. 3507, § 1, 8-7-2018; Ord. No. 3042, § 1, 8-6-2013; Ord. 2886, § 1, 12-7-2010)

Chapter 15.18 UNDERGROUNDING UTILITY FACILITIES*

Sections:

15.18.010 Purpose.
15.18.020 Definitions.
15.18.030 Undergrounding utility facilities required; exceptions.
15.18.040 Waivers.
15.18.050 Plans and approval.

15.18.010 Purpose.

The purpose of this chapter is to decrease obstructions in city rights-of-way, standardize, regulate and control the location, size, type, maintenance and quantity of cuts, breaks, alterations and installations of improvements in the city rights-of-way, promote the health, safety, convenience and general welfare of the public, and improve the aesthetic appearance of areas within the city by requiring that new and modified utility facilities be placed underground, except as hereinafter provided.
(Ord. No. 3429, § 2, 8-15-2017)

15.18.020 Definitions.

The following definitions shall apply to this chapter unless the context requires otherwise.

Approved poles means galvanized steel poles with a light gray finish. Poles of other types and finish may be used by agreement between the utility and the city manager or director-PWPR.

CDS department means the city's department of community development and services, as the foregoing name may be modified from time to time.

Commission means the Public Utilities Commission of Nevada.

Development means any construction for residential, commercial, industrial, recreational or civic use or occupancy regardless of the size or number of structures or the size of the land parcel being improved for such use or occupancy.

Director-CDS means the director of the CDS department.

Director-PWPR means the director of the PWPR department.

***Editor's note—**Ord. No. 3429, §§ 1, 2, adopted August 15, 2017, repealed and reenacted chapter 15.18 in its entirety to read as herein set out. Formerly, chapter 15.118, §§ 15.18.010—15.18.230 pertained to underground electric and communications utilities, and derived from Ord. No. 480, § I, adopted in 1973, and Ord. No. 905, § I, adopted in 1983.

Interactive computer service has the same meaning ascribed to the term "interactive computer service" in NRS 711.0726, as amended.

Major street means a street listed and delineated in the text and maps of the master transportation plan of the comprehensive plan of the city as consisting of a width of greater than 80 feet.

PWPR department means the city's department of public works, parks and recreation, as the foregoing name may be modified from time to time.

Relocate means to move, modify, re-erect, reconstruct, rebuild and/or replace.

Subdivision means any land, vacant or improved, which is divided into five or more lots, parcels, sites, units or plots for the purpose of transfer or development, or any proposed transfer or development, or any building or buildings constructed for occupancy by five or more tenants for commercial or industrial purposes on the same parcel of land.

Telecommunication service has the same meaning ascribed to the term "telecommunication service" in NRS 711.135, as amended.

Utility means a person supplying a utility service within the corporate boundaries of the city.

Utility customer means the owner, developer, subdivider, resubdivider, builder, or other person or governmental entity requesting utility service.

Utility facilities means poles, towers, supports, wires, conductors, cables, fiber, guy wires, stubouts, platforms, crossarms, braces, transformers, terminal boxes, meters, meter cabinets, equipment cabinets, pull boxes, pipes, conduits, ducts, service laterals, insulators, cutouts, switches, and other appurtenances used or useful in supplying a utility service.

Utility service means provision of electrical service, interactive computer service, telecommunication service, or video service to another person using utility facilities, whether or not the person providing such service is regulated by the commission.

Video service has the same meaning ascribed to the term "video service" NRS 711.141, as amended.
(Ord. No. 3429, § 2, 8-15-2017)

15.18.030 Undergrounding utility facilities required; exceptions.

A. New or relocated utility facilities in the corporate boundaries of the city shall be located underground except as provided in subsection B.

B. The following exceptions apply to the undergrounding requirements in subsection A.:

1. City equipment installed to the satisfaction of the director-PWPR or the director-PWPR's designee, including but not limited to traffic control devices, streetlight systems, public safety equipment, and SCADA systems.

2. Utility facilities transmitting electricity over 34,500 volts (a) after the utility obtains a conditional use permit in accordance with title 19, which permit, at a minimum, identifies the route, pole locations, and system design; or (b) that are located in a city-approved aboveground utility corridor and the route, pole locations, and system design are approved by the city in accordance with title 19.

3. The addition of new circuits, or oversizing of existing wires or cables, on an existing serviceable pole line to provide electrical service that serves additional customers, provided a replacement pole is no more than five percent or five feet taller and/or no more than ten percent larger in circumference in relation to the pole being replaced to accommodate that addition of new circuits, or oversizing of existing wires or cables, on that existing serviceable pole line.

4. Relocating a one-half mile section, or more, of an existing aboveground system of utility facilities if the utility obtains a permit from the city to perform the foregoing and installs approved poles; provided, however, that where the continuity of alignment is broken by the intersection with a major thoroughfare, freeway or expressway, by a street or railroad overpass or underpass, by a railroad crossing, by a change in alignment of a street or a pole line, or the end of a pole line, or by city-owned property, the PWPR department may require the replacement of a quarter-mile section with approved poles.

5. Radio antennae and wireless equipment for furnishing telecommunication service.

6. House service switch boxes, exposed conduit at buildings and electric meters. Telecommunications enclosed terminal blocks may be pedestal mounted or placed underground and shall be located as close to electric transformers as is practical.

7. Temporary aboveground utility facilities used or to be used in conjunction with (a) a construction project for a period of up to one year from the date the city approves the project plans or (b) a special event or temporary use for a period coterminous with the period identified in the permit issued by the city for such event or use provided that such period does not exceed six months.

8. Temporary aboveground utility facilities that are required for utility service after the director-PWPR approves in writing an application for installation of such temporary utility facilities. An application may be made to the director-PWPR for any of the following reasons: temporary unavailability of materials; emergency repairs to or replacement of the existing utility facilities as a result of malfunction or damage that

will take more than 14 consecutive calendar days; or, accommodation of a city project. The applicant must obtain the director-PWPR's written approval prior to construction. If the director-PWPR does not approve an application and the applicant wishes to appeal that decision, then the applicant may appeal that decision to the city manager. The determination of the city manager to approve or disapprove the application shall be final. Any approval of the installation of temporary utility facilities shall be for a definite period of time and that time period may be extended in writing by the director-PWPR or city manager upon acceptable grounds.

9. Emergency service required because of malfunction or damage to any existing aboveground utility facilities. The utility may make such emergency connections as are required to maintain utility service or make the utility facilities safe and shall, within 72 hours after such construction, report the same to the director-PWPR if the emergency service is still in use. If the emergency service is to be used longer than 14 consecutive calendar days, then the utility shall make application for a temporary service as described in the immediately preceding subsection above.

10. Aboveground utility facilities that must be rebuilt, re-erected, replaced, and/or reconstructed because those utility facilities were damaged by a third party, were damaged by weather, or have deteriorated over time, provided the utility uses approved poles and/or utility facilities substantially similar to those being rebuilt, re-erected, replaced, and/or reconstructed.

11. Equipment appurtenant to underground utility facilities, such as surface-mounted transformers, surface-mounted switches, pedestal-mounted terminal boxes and meter cabinets, and concealed ducts.

12. Aboveground utility facilities that will be installed in areas approved from time to time by action of the city council upon recommendation of the planning commission or of the city manager.

(Ord. No. 3429, § 2, 8-15-2017)

15.18.040 Waivers.

A. The utility may submit an application to the director-PWPR, requesting approval of a waiver of the undergrounding requirements in section 15.18.030 for any of the following reasons:

1. In cases of emergency where public health and safety would be jeopardized;

2. Unavailability of materials necessary for underground installation;

3. Topographical or subsurface conditions making such underground installations economically unreasonable or impractical; or

4. Requiring the underground installation does not promote the purposes stated under section 15.18.010 or is unreasonable due to other circumstances presented by the applicant.

B. The director-PWPR and the director-CDS together, or their respective designees, must approve or deny a waiver under this section.

C. The utility may appeal the denial of a waiver by submitting to the city manager a written request to reconsider the denial no later than ten days after the director-PWPR and the director-CDS issue their denial of the waiver and such request must set forth in detail the facts supporting the request for reconsideration. The decision of the city manager, or the city manager's designee, shall be rendered within 30 days of the date the utility submitted the written request to the city manager. The city manager's, or the city manager's designee's, decision shall be deemed to be the final administrative action on such appeal. (Ord. No. 3429, § 2, 8-15-2017)

15.18.050 Plans and approval.

A. The utility customer shall be responsible for complying with all applicable requirements in this chapter and shall make the necessary arrangements with the utility for utility service. The utility shall comply with all applicable requirements in the code when designing and installing the utility facilities. The installation specifications and design plans shall comply with any applicable National Electrical Safety Code requirements.

B. The utility customer shall identify the desired terminal points of the utility facilities on the tentative map or subdivision map and shall provide the utility with copies of all proposed development plans necessary for proper design of the utility facilities. The utility shall show its approval by authorized signature on the map prior to its submission to the city.

C. The utility shall furnish the applicant and the director-PWPR with approved plans required by the utility for the overall underground system for the provision of utility service to the applicant.

D. At the director-PWPR's written request, the utility shall furnish city an "as-built" plan that shows the underground utility facilities identified in that request as actually installed in city right-of-way.

E. It shall be the responsibility of the utility customer to provide any utility easements that may be required.

F. When crossing any major street or at any street intersection, underground wire, cable, fiber, and conductors for utility service shall be installed in conduit or direct buried with spare conduit available. The size of the conduit shall be determined by the utility providing the utility service, allowing for future requirements. These requirements may be waived in writing by the director-PWPR for just cause.

G. The utility shall furnish the director-PWPR plans for construction of any utility system which is to be installed within any portion of a public right-of-way or easement and the utility will not install any utility facilities in such public right-of-way or easement until after the director-PWPR, in the director-PWPR's discretion, approves those plans.
(Ord. No. 3429, § 2, 8-15-2017)

Chapter 15.20 PLUMBING CODE*

Sections:

15.20.010 Adoption by reference.
15.20.020 Code amended.
15.20.030 Supervision of work.
15.20.040 Substantial compliance standard.
15.20.050 Compliance required—Penalty for violations.
15.20.060 Effective date.

15.20.010 Adoption by reference.

The City of Henderson adopts as its plumbing code the 2024 Uniform Plumbing Code as published the International Association of Plumbing and Mechanical Officials in its entirety excepting amendments and changes as stated in this chapter. This code is available online on the International Association of Plumbing and Mechanical Officials website.
(Ord. No. 4087, § 2, 7-15-2025; Ord. No. 3508, § 1, 8-7-2018; Ord. No. 3043, § 1, 8-6-2013; Ord. 2887, § 1, 12-7-2010)

15.20.020 Code amended.

The City of Henderson adopts as an amendment to the 2024 Uniform Plumbing Code the booklet entitled "Southern Nevada Amendments to the 2024 Uniform Plumbing Code" amending the 2024 Uniform Plumbing Code by the International Association of Plumbing and Mechanical Officials. This booklet is adopted in its entirety excepting amendments and changes as stated in this chapter. This booklet is available on the city's website(s).
(Ord. No. 4087, § 3, 7-15-2025; Ord. No. 3671, § 2, 3-3-2020; Ord. No. 3508, § 1, 8-7-2018; Ord. No. 3043, § 1, 8-6-2013; Ord. 2887, § 1, 12-7-2010)

15.20.030 Supervision of work.

Every contractor shall provide qualified supervision while performing plumbing installations. To meet this requirement, the individual leading or directing the installation shall be a Nevada-licensed journeyman plumber and shall provide the journeyman plumbing license issued by the Nevada Board of Plumbing Examiners to the code official upon request.
(Ord. 2887, § 1, 12-7-2010)

***Editor's note—**Ord. 2887, § 1, adopted December 7, 2010, amended chapter 15.20 in its entirety to read as herein set out. Formerly, chapter 15.20, §§ 15.20.010—15.20.060, pertained to similar subject matter, and derived from Ord. 1804, § 2(part), adopted 1998; Ord. 2183, §§ 2(part)—4, adopted 2003, and Ord. 2544, § 1(part), adopted 2006.

Subsequently, Ord. No. 4087, § 1, adopted July 15, 2025, changed the title of chapter 15.20 from "Uniform Plumbing Code" to "Plumbing Code."

15.20.040 Substantial compliance standard.

In the enforcement of the specific provisions of the adopted technical codes and standards, the building official or designee is authorized to grant minor variations from the strict application of specific code and standards provisions where, in the opinion of the building official, the work is in substantial compliance with the intent of the adopted codes and standards.

(Ord. No. 3508, § 1, 8-7-2018; Ord. No. 3043, § 1, 8-6-2013; Ord. 2887, § 1, 12-7-2010)

15.20.050 Compliance required—Penalty for violations.

Any person, firm or corporation violating any provision of this chapter is guilty of a misdemeanor and upon conviction thereof shall be punished as provided by law for a misdemeanor offense. Each separate date or any portion thereof during which any violation of this chapter occurs or continues shall be deemed to constitute a separate offense, and upon conviction thereof shall be punishable as herein provided.

(Ord. 2887, § 1, 12-7-2010)

15.20.060 Effective date.

This chapter shall become effective on January 2, 2026.

(Ord. No. 4087, § 4, 7-15-2025; Ord. No. 3508, § 1, 8-7-2018; Ord. No. 3043, § 1, 8-6-2013; Ord. 2887, § 1, 12-7-2010)

Chapter 15.24 MECHANICAL CODE*

Sections:

15.24.010 Adoption by reference.
15.24.015 Evaporative cooling.
15.24.020 Code amended.
15.24.030 Supervision of work.
15.24.040 Substantial compliance standard.
15.24.050 Compliance required—Penalty for violations.
15.24.060 Effective date.

15.24.010 Adoption by reference.

The City of Henderson adopts as its mechanical code the "2024 Uniform Mechanical Code" as published the International Association of Plumbing and Mechanical Officials in its entirety excepting amendments and changes as stated in this chapter. This code is available online on the International Association of Plumbing and Mechanical Officials website.

(Ord. No. 4088, § 1, 7-15-2025; Ord. No. 3509, § 1, 8-7-2018; Ord. No. 3044, § 1, 8-6-2013; Ord. 2888, § 1, 12-7-2010)

15.24.015 Evaporative cooling.

"Evaporative cooling" as referred to in this section applies to any type of cooling technology, device, or equipment that utilizes the evaporation of water as part of the cooling process. Evaporative coolers include, but are not limited to, swamp coolers and cooling towers, but do not include misting systems.

15.24.015.01 *Applicability.* This section applies to all buildings and structures regulated by HMC title 15.

15.24.015.02 *Evaporative cooling—Permitting and approvals.* Evaporative cooling is prohibited unless either a permit exemption in HMC section 15.01.145 applies or all of the following provisions are satisfied:

1. A building or mechanical permit application has been submitted before September 1, 2023;

***Editor's note—**Ord. 2888, § 1, adopted December 7, 2010, amended chapter 15.24 in its entirety to read as herein set out. Formerly, chapter 15.24, §§ 15.24.010—15.24.040, pertained to similar subject matter, and derived from Ord. 1802, § 2(part), adopted 1998; Ord. 2184, §§ 2(part)—4, adopted 2003; Ord. 2494, § 2(part), adopted 2006, and Ord. 2543, § 1(part), adopted 2006.

Subsequently, Ord. No. 3939, § 1, adopted February 7, 2023, changed the title of chapter 15.24 from "Uniform Mechanical Code" to "Mechanical Code."

2. A building or mechanical permit has been issued before February 1, 2024; and
3. A temporary certificate of occupancy, certificate of occupancy or an approved final inspection for the system has been received before February 1, 2026.

Tenant improvements within shell buildings permitted in compliance with the provisions listed above may permit and equip their space(s) with Evaporative Cooling.

15.24.015.03 *Consumptive water use—Existing evaporative cooling.* Evaporative cooling systems or appliances permitted in accordance with HMC section 15.24.015.02, or other sections of HMC title 15 in effect at the time that system or appliance was installed, may be expanded or replaced with systems or appliances using the same or more efficient technologies provided the resulting change does not increase the water consumption of the system or appliance.
(Ord. No. 3939, § 2, 2-7-2023)

15.24.020 Code amended.

The City of Henderson adopts as amendments to the "2024 Uniform Mechanical Code" the booklet entitled "Southern Nevada Amendments to the 2024 Uniform Mechanical Code" amending the 2024 Uniform Mechanical Code by the International Association of Plumbing and Mechanical Officials. This booklet is adopted in its entirety excepting amendments and changes as stated in this chapter. This booklet is available on the city's website(s).
(Ord. No. 4088, § 2, 7-15-2025; Ord. No. 3509, § 1, 8-7-2018; Ord. No. 3044, § 1, 8-6-2013; Ord. 2888, § 1, 12-7-2010)

15.24.030 Supervision of work.

Every contractor shall provide qualified supervision while performing electrical installations. To meet this requirement, the individual leading or direction the installation shall have a current approved card issued by the International Code Council Contractor Examination Services for Clark County, Nevada for the scope of work being performed and shall provide the card to the code official upon request.
(Ord. 2888, § 1, 12-7-2010)

15.24.040 Substantial compliance standard.

In the enforcement of the specific provisions of the adopted technical codes and standards, the building official or designee is authorized to grant minor variations from the strict application of specific code and standards provisions where, in the opinion of the building official, the work is in substantial compliance with the intent of the adopted codes and standards.
(Ord. No. 3509, § 1, 8-7-2018; Ord. No. 3044, § 1, 8-6-2013; Ord. 2888, § 1, 12-7-2010)

15.24.050 Compliance required—Penalty for violations.

Any person, firm or corporation violating any provision of this chapter is guilty of a misdemeanor and upon conviction thereof shall be punished as provided by law for a misdemeanor offense. Each separate date or any portion thereof during which any violation of this chapter occurs or continues shall be deemed to constitute a separate offense, and upon conviction thereof shall be punishable as herein provided.
(Ord. 2888, § 1, 12-7-2010)

15.24.060 Effective date.

This chapter shall become effective on January 2, 2026.
(Ord. No. 4088, § 3, 7-15-2025; Ord. No. 3509, § 1, 8-7-2018; Ord. No. 3044, § 1, 8-6-2013; Ord. 2888, § 1, 12-7-2010)

Chapter 15.30 WILDLAND-URBAN INTERFACE CODE

Sections:

15.30.010 Adoption by reference.
15.30.020 Code amended.
15.30.030 Amendments to the 2024 International Wildland-Urban Interface Code.
15.30.040 Substantial compliance standard.
15.30.050 Compliance required—Penalty for violations.
15.30.060 Effective date.

15.30.010 Adoption by reference.

The City of Henderson adopts as its Wildland-Urban Interface Code the book entitled "2024 International Wildland-Urban Interface Code" in its entirety excepting amendments and changes as stated in this chapter. This code is available online through the International Code Council.
(Ord. No. 4089, § 1, 7-15-2025; Ord. No. 3897, § 1, 8-2-2022)

15.30.020 Code amended.

The City of Henderson adopts as amendments to the "2024 International Wildland-Urban Interface Code" the book entitled "City of Las Vegas & City of Henderson Amendments to the 2024 International Wildland-Urban Interface Code." This booklet is adopted in its entirety excepting amendments and changes as stated in this chapter. This booklet is available on the city's website(s).
(Ord. No. 4089, § 1, 7-15-2025; Ord. No. 3897, § 1, 8-2-2022)

15.30.030 Amendments to the 2024 International Wildland-Urban Interface Code.

The following sections of the 2024 International Wildland-Urban Interface Code are added or revised as follows:

Section 101.1 is amended as follows:

[A] 101.1 Title. These regulations shall be known as the Wildland-Urban Interface Code, hereinafter referred to as "this code."

Section 103.1 is amended as follows:

[A] 103.1 Creation of enforcement agency. The Fire Department and the Building and Fire Safety & Development Services Department shall enforce this code and the code officials in charge thereof shall be known as the fire chief and building official, or their designee.

Section 109.3.7 is amended as follows:

[A] 109.3.7 Violation penalties. Persons who violate a provision of this code or fail to comply with any of the requirements thereof or who erect, install, alter, repair or do work in violation of the approved construction documents or directive of the fire chief, building official or designee, or of a permit or certificate used under provisions of this code, shall be guilty of a misdemeanor. Each day that a violation continues after due notice has been served shall be deemed a separate offense.

The penalties referenced in the above paragraph are established in HMC 15.01.120.
(Ord. No. 4089, § 1, 7-15-2025; Ord. No. 3897, § 1, 8-2-2022)

15.30.040 Substantial compliance standard.

In the enforcement of the specific provisions of the adopted technical codes and standards, the fire chief, building official or designee is authorized to grant minor variations for the strict application of specific code and standards provisions where, in the opinion of the fire chief, building official or designee, the work is in substantial compliance with the intent of the adopted codes and standards.
(Ord. No. 3897, § 1, 8-2-2022)

15.30.050 Compliance required—Penalty for violations.

Any person, firm or corporation violating any provision of this chapter is guilty of a misdemeanor and upon conviction thereof shall be punished as provided by law for a misdemeanor offense. Each separate date or any portion thereof during which any violation of this chapter occurs or continues shall be deemed to constitute a separate offense, and upon conviction thereof shall be punishable as herein provided.
(Ord. No. 3897, § 1, 8-2-2022)

15.30.060 Effective date.

This chapter shall become effective on January 2, 2026.
(Ord. No. 4089, § 1, 7-15-2025; Ord. No. 3897, § 1, 8-2-2022)

Chapter 15.32 FIRE CODE*

Sections:

15.32.010 Short title.
15.32.020 Adoption.
15.32.020 Adoption by reference.
15.32.030 Code amended.
15.32.050 City of Henderson amendments.
15.32.060 Enforcement authority.
15.32.070 State fire marshal's regulations.
15.32.080 Citations.
15.32.090 Appeals and relief from regulations.
15.32.100 Penalties.
15.32.110 Permit and service fee schedule.
15.32.120 Effective date.

15.32.010 Short title.

This chapter shall be known as the "City of Henderson Fire Code" and may be cited as such.

Where the designation "International Fire Code" or the abbreviation "IFC" appears in this chapter, it shall be construed as referring to the International Fire Code as adopted by the ordinance from which this chapter derives.
(Ord. No. 3909, § 3, 9-13-2022; Ord. No. 3510, § 2, 8-7-2018)

15.32.020 Adoption by reference.

The City of Henderson adopts as its Fire Code the "International Fire Code, 2024 Edition," as published by the International Code Council, Inc., Publications, 4051 West Flossmoor Road, Country Club Hills, IL.60478-5795, which is hereby designated as the City of Henderson Fire Code and by this designation and reference is hereby adopted and made a part of this chapter, as if it were fully set forth herein. This code is available online through the International Code Council website.

***Editor's note—**Ord. No. 3510, §§ 1, 2, adopted August 7, 2018, repealed and reenacted chapter 15.32 in its entirety to read as herein set out. Formerly, chapter 15.32, sections 15.32.010—15.32.120 pertained to similar subject matter, and derived from Ord. No. 3048, § 2, adopted August 6, 2013.

Subsequently, Ord. No. 4090, § 4, adopted July 15, 2025, changed the title of chapter 15.32 from "International Fire Code" to "Fire Code."

Where the phrase "NAME OF JURISDICTION" appears in the Fire Code, it shall be construed as referring to the City of Henderson. Where the phrase "AHJ" appears in the Fire Code, it shall be construed as referring to the City of Henderson as the Authority Having Jurisdiction (AHJ).
(Ord. No. 4090, § 5, 7-15-2025; Ord. No. 3909, § 4, 9-13-2022; Ord. No. 3510, § 2, 8-7-2018)

15.32.030 Code amended.

The City of Henderson adopts as an amendment to the International Fire Code a booklet entitled, "Southern Nevada Amendments to the 2024 International Fire Code" hereafter referred to as this booklet. This booklet is adopted in its entirety with the following exceptions as described in this section. This booklet is available on the city's website(s).

The booklet is further amended as stated in section 15.32.050 of this chapter.
(Ord. No. 4090, § 6, 7-15-2025; Ord. No. 3909, § 5, 9-13-2022; Ord. No. 3670, § 2, 3-3-2020; Ord. No. 3510, § 2, 8-7-2018)

15.32.050 City of Henderson amendments.

Certain parts, articles, divisions, sections and/or subsections and tables of the International Fire Code and the booklet are hereby amended as follows.

Section 103 CODE COMPLIANCE AGENCY.

Section 103 CODE COMPLIANCE AGENCY is re-titled, amended and replaced as follows:

> Section 103 FIRE SAFETY

Section 103.1 General.

Section 103.1 General is amended as follows:

> Section 103.1 General: Fire safety is established within the City of Henderson. The function of this division shall include assisting the fire chief in the administration and enforcement of the provisions of the fire code. Management oversight of fire safety is provided by the building official. The fire chief has the final decision-making authority on all technical fire code issues.

Section 103.2.1 Fire Code Official.

A new Section 103.2.1 Fire code official is added as follows:

> 103.2.1 Fire code official: The fire chief may designate fire department and/or fire safety staff to assist him with his duties as the fire code official to perform the duties as set forth in the fire code.

Section 103.3.1 Fire Safety Personnel, Fire Department, and Police.

A new Section 103.3.1 Fire safety personnel, fire department and police is added as follows:

Section 103.3.1 Fire safety personnel, fire department, and police. The fire chief, members of the fire department, and members of fire safety shall have the powers of a police officer in performing their duties under this code.

Section 104.2 Determination of Compliance / Substantial Compliance.

Revise Determination of Compliance / Substantial Compliance Section 104.2 as follows:

Section 104.2 Determination of compliance / Substantial compliance. The fire code official shall have the authority to determine compliance with this code, to render interpretations of this code and to adopt policies and procedures in order to clarify the application of its provisions. Such interpretations, policies and procedures:

1. Shall be in compliance with the intent and purpose of this code.

2. Shall not have the effect of waiving requirements specifically provided for in this code.

Substantial compliance standard. In the enforcement of specific provisions of this code or adopted standard, the fire chief is authorized to grant minor variations from the strict application of specific code provisions where, in the opinion of the fire chief, the work is in substantial compliance with the intent of the adopted codes and/or standards.

Section 104.4.2 Authority to Inspect.

A new Section 104.4.2 Authority to inspect is added as follows:

Section 104.4.2 Authority to inspect. Fire safety and/or the fire department shall inspect, as often as necessary, buildings and premises, including such other hazards or appliances designated by the fire chief for the purpose of ascertaining and causing to be corrected any conditions which would reasonably tend to cause fire or contribute to its spread, or any violation of the purpose or provisions of the fire code and of any other law or standard affecting fire safety.

Section 105.1.1.1 Permit and Service Fee Schedule.

A new Section 105.1.1.1 Permit and service fee schedule is added as follows:

105.1.1.1 Permit and service fee schedule. Fees for permits, inspections, plan checks and other services shall be as set forth in the development services schedule of fees, as adopted and amended from time to time by the Henderson City Council (HMC 15.02).

Section 105.5.5 Carnivals and fairs.

Section 105.5.5 Carnivals and fairs is amended as follows:

105.5.5 Carnivals and fairs. An operational permit is required to conduct a carnival or fair.

Section 105.5.34 Mobile food preparation vehicles.

Section 105.5.34 Mobile food preparation vehicles is amended as follows:

105.5.34 Mobile food preparation vehicles. An operational permit is required for mobile food preparation vehicles equipped with appliances that produce smoke or grease-laden vapors, where the main business office is located within the boundaries of this jurisdiction.

Exception: Mobile food preparation vehicles that have a valid/current fire operational permit from another Nevada jurisdiction.

Section 105.5.67 Fire Suppression and Extinguishing Systems.

Section 105.5.67 Fire suppression and extinguishing systems is added as follows:

105.5.67 Fire suppression and extinguishing systems. An operational permit is required for facilities that contain a fire suppression or extinguishing system. See Chapter 9 of the 2024 International Fire Code.

Section 105.5.68 Mobile fueling vehicle.

Section 105.5.68 Mobile fueling vehicle is amended as follows:

105.5.68 Mobile fueling vehicle. An operational permit is required to operate a mobile fueling vehicle where the main business office is located within the boundaries of this jurisdiction. See Chapter 57 of the 2024 International Fire Code.

Exception: Mobile fueling vehicles that have a valid/current fire operational permit from another Nevada jurisdiction.

Section 105.5.69 Operational permit for new and existing buildings.

Section 105.5.69 Operational permit for new and existing buildings is added as follows:

105.5.69 Operational permit for new and existing buildings. An annual, biennial or triennial operational permit is required for new and existing buildings. See section 325.

Exception: One- and two-family dwellings; townhouses; and buildings that are regulated by NRS/NAC 477 or NRS/NAC 499.

Section 106.1 Submittals.

Section 106.1 Submittals is amended as follows:

106.1 Submittals. Construction documents and supporting data shall be submitted in electronic format with each application for a permit and in such form and detail as required by the fire code official. Submittals shall demonstrate compliance with the adopted codes and standards, City of Henderson checklists and guidelines. The construction documents shall be prepared by a registered design professional where required by the statutes of the jurisdiction in which the project is to be constructed.

Exception: The fire code official is authorized to waive the submission of construction documents and supporting data not required to be prepared by a registered design professional if it is found that the nature of the work applied for is such that review of construction documents is not necessary to obtain compliance with this code.

Section 108.7 Fire Apparatus Standby.

Section 108.7 Fire apparatus standby is added as follows:

108.7 Fire apparatus standby fee shall be five hundred ($500) dollars per hour with a minimum of four (4) hours for each standby apparatus or unit. Fees for standby rescue unit(s) shall be two hundred and fifty ($250) dollars per hour with a minimum of four (4) hours for each standby rescue.

Section 110.3.1.1 Reporting Means.

Section 110.3.1.1 Reporting means is added as follows:

110.3.1.1 Reporting means shall be by email to the email inbox designated by the fire code official or through an electronic or web-based system approved by the fire code official.

Section 112.1.1 Board of appeals established.

Section 112.1.1 Board of appeals established is amended as follows:

112.1.1 Board of appeals established. A board of appeals is established in HMC 15.01.115.

Section 113.4 Violation Penalties.

Section 113.4 Violation penalties is amended as follows:

113.4 Violation penalties. Persons who shall violate a provision of this code or shall fail to comply with any of the requirements thereof or who shall erect, install, alter, repair or do work in violation of the approved construction documents or directive of

the fire code official, or of a permit or certificate used under provisions of this code, shall be guilty of a misdemeanor. Each day that a violation continues after due notice has been served shall be deemed a separate offense.

The penalties referenced in the above paragraph are established in HMC 15.01.120.

Section 114.4 Failure to comply.

Section 114.4 Failure to comply is amended as follows:

114.4 Failure to comply. Any person who shall continue any work after having been served with a stop work order, except such work as that person is directed to perform to remove a violation or unsafe condition, shall be deemed guilty of a misdemeanor and shall be liable for a fine of not more than one thousand dollars ($1,000.00) or by imprisonment for not more than six (6) months, or by both such fine and imprisonment.

A new section 408 NFPA 3000 program is added as follows:

408 NFPA 3000 Program.

408.1 When required by the cities fire code official, police chief, director of emergency management or their designees' plans, reports and program details shall be submitted by the building owner to fire safety in accordance with NFPA 3000.

408.1.1 Submitted documents shall be marked "CONFIDENTIAL" by the applicant.

408.2 Plans, reports and program details shall be prepared in compliance with NFPA 3000.

408.3. Plans, reports and program details shall be prepared by facility/business owners and managers, facility managers, safety and security professionals, architects, fire and life safety engineers or other experts as necessary to comply with NFPA 3000.

Section 325 Periodic fire safety inspections.

A new section 325 periodic fire safety inspections is added as follows:

325 Periodic Fire Safety Inspections.

325.1 General. Periodic fire safety inspections shall be in accordance with this section.

Exceptions:

1. Where approved by the fire code official.
2. Buildings designed and constructed in accordance with the International Residential Code that are not regulated by NRS/NAC 477 or NRS/NAC 499.

325.2 Permits. Permits shall be required as set forth in this Section and Section 105.5.

325.3 Fire safety inspection frequency. Periodic fire safety inspections of new and existing buildings shall be performed on an annual, biennial, triennial or other frequency based on hazards, risks and staffing as determined by the City's fire safety division.

Section 503.1.1 Buildings and facilities.

Section 503.1.1 Buildings and facilities is amended as follows:

503.1.1 Buildings and facilities. Approved fire apparatus access roads shall be provided for every facility, building or portion of a building hereafter constructed or moved into or within the jurisdiction. The fire apparatus access road shall comply with the requirements of this section and shall extend to within 150 feet (45 720 mm) of all portions of the facility and all portions of the exterior walls of the first story of the building as measured by an approved route around the exterior of the building or facility.

Exceptions:

1. Where suitable mitigation is provided through an acceptable alternate method or code modification the fire code official is authorized to increase the dimension of 150 feet (45 720 mm).

2. Where approved by the fire code official, fire apparatus access roads shall be permitted to be exempted or modified for solar photovoltaic power generation facilities.

3. Where approved by the fire code official for development within the Hillside Overlay District - HMC Title 19, driveways more than 150 feet (45 720 mm) in length providing fire apparatus access to facilities or buildings constructed in accordance with the International Residential Code, shall be permitted to be modified in accordance with the Fire Safety division design criteria for hillside driveways.

Section 503.1.2 Additional access.

Section 503.1.2 Additional access is amended by adding a second paragraph and an exception as follows:

503.1.2 Additional access. The fire code official is authorized to require more than one fire apparatus access road based on the potential for impairment of a single road by vehicle congestion, condition of terrain, climatic conditions or other factors that could limit access.

Approved secondary access shall be provided for 20 or more dwelling units, road(s) with dead ends or with a single point of access more than 600 feet (182 880 mm), and for all commercial and industrial developments.

Exception: Hillside Overlay District - HMC Title 19.

Section 503.2.1.1 Group R, Division 3 Residential Subdivisions.

A new section 503.2.1.1 Group R, Division 3 Residential Subdivisions is added as follows:

503.2.1.1 Group R, Division 3 Residential Subdivisions. For Group R, Division 3 Residential Subdivisions, the minimum width of a fire apparatus access road is 36 feet (10 973 mm), measured face of curb to face of curb (i.e., 20 feet (6096 mm) driving lane with 8 feet (2438 mm) of parking on each side).

Exceptions:

1. For cluster housing developments, the last 150 feet (45 720 mm) may be reduced to 24 feet (7315 mm) in width (face of curb to face of curb) provided the homes are provided with an approved automatic sprinkler system and on-street parking is prohibited.

2. Hillside Overlay District - HMC Title 19.

Section 503.2.7 Grade.

Section 503.2.7 Grade is amended by adding an exception as follows:

503.2.7 Grade. The grade of the fire apparatus access road shall not exceed 12 percent 0.75 rad. The maximum cross-slope curve shall not exceed two (2) percent 0.13rad.

Exception: Hillside Overlay District - HMC Title 19.

Section 505.1.1 Building Addressing.

A new section 505.1.1 Building addressing is added as follows:

505.1.1 Building Addressing. Building addressing shall comply with HMC Title 19.

Section 506.1 Key Boxes. Where required.

Section 506.1 Key Boxes. Where required is amended as follows:

506.1 Key Boxes. Where required - Restricted access. Where access to or within a structure or area is restricted because of secured openings or where immediate access is necessary for lifesaving or fire-fighting purposes, the fire code official is authorized to require a key box to be installed in an approved location. Buildings with fire sprinkler or fire alarm systems, or buildings not equipped with an exterior

means of electrical disconnect, shall be provided with a key box. The key box shall be of an approved type listed in accordance with UL 1037 and shall contain keys to gain necessary access as required by the fire code official.

Recessed Knox Boxes are required except on individual dwelling units when approved by the Fire Chief or designee.

Key boxes shall be located as follows:

1. Adjacent to the fire command center, if applicable.

2. Adjacent to the exterior entrance door to each fire sprinkler riser room.

3. Adjacent to the main entry for buildings with fire alarm systems or sprinklered buildings without a riser room.

4. Adjacent to the exterior entrance door to the fire pump room.

5. Adjacent to the exterior entrance door to each electrical equipment room provided with a service disconnect.

6. At each elevator bank at the lobby nearest the lowest level of fire department access.

7. Other locations where required by the fire code official.

Key boxes shall be installed within 5 feet (1524 mm) to 6 ½ feet (1981 mm) to the top of the box above finished grade.

In new and existing buildings, keys for all lockable doors, exterior or interior, utilized to access fire alarm panel(s), main fire sprinkler control valve(s) and fire pump(s) shall be placed into the key box. Contents of elevator boxes shall be limited to fire service elevator keys. Whenever locks are changed, the building owner or tenant shall replace old keys inside the key box with new keys.

Section 507.2.1.1 Post Indicator Valves.

A new section 507.2.1.1 Post Indicator Valves is added as follows:

507.2.1.1 Post Indicator Valves. Post indicator valve(s) shall be a minimum of five (5) feet (1524 mm) from the building footing.

Section 507.4 Water supply test.

Section 507.4 Water supply test is amended as follows:

507.4 Water supply test - Permit required. A construction permit is required to use or operate fire hydrants or valves controlling fire hydrants.

Section 507.4.1 Fire flow or Fire Sprinkler Design water supply information.

A new section 507.4.1 Fire flow or Fire Sprinkler Design water supply information is added as follows:

507.4.1 Fire flow or Fire Sprinkler Design water supply information. Water supply information for fire flow or fire sprinkler system design is provided by the City of Henderson. Requests for the available flow at 20 psi shall be submitted on the designated form to the City. When available, hydraulically modeled water supply information provided by the City shall be used as the basis for fire flow or fire sprinkler design.

The City will process the request and provide the applicant with the available flow based upon hydraulic modeling. The information provided by the City shall be valid for a period of six (6) months from the date of issuance.

The available flow provided is predicted using a computer hydraulic model of the City's water distribution system which is based on the City's GIS data and approved civil utility plans. The results are from the model's maximum day demand scenario with no part of the water system upstream of the fire flow demand point having less than 20 psi residual pressure. The available flow information is typically provided at a water main and does not account for any pressure losses downstream from that location (for example: from the service or hydrant lateral, backflow devices, meters or any onsite piping to the fire sprinkler system).

The City makes no guarantee that the flow is presently available, nor does it guarantee that these flows will be available in the future due to continued growth which places additional demands for water on our distribution system. Availability of flow is also subject to periodic shutdowns and variations required by the operation of the City's distribution system.

It is the contractor's responsibility to obtain the approved civil utility plans to verify the appropriate backflow device(s) have been or will be installed on the system and to verify the existing on-site pressure prior to final system acceptance. The Contractor shall notify the City's fire safety staff immediately upon discovery of any major pressure discrepancies.

Section 507.4.2 Water supply field test.

A new section 507.4.2 Water supply field test is added as follows:

507.4.2 Water supply field test. Water supply field testing is strongly discouraged. Prior to applying for a permit, specific acceptance in writing by the fire code official is required. This acceptance shall be provided with the permit application. When approved, a manual water supply test may be permitted. A request for permit shall be made on a form provided by the City. Prior to performing the water supply field

test, the Utilities Services Department must be notified at 702-267-5908. The fire code official shall be notified prior to the water supply test. The water supply field test shall be witnessed by the fire code official. The test shall be documented by the contractor. Water supply information obtained through this test shall be valid for a period of six (6) months.

Section 507.5.4.1 Debris Caps.

A new section 507.5.4.1 Debris caps is added as follows:

507.5.4.1 Debris caps. Debris caps are required to be installed beneath the road caps of all private fire systems and fire hydrant water valves to prevent the buildup of obstructions such as dirt, rocks, and plant matter.

Section 901.4.4.1 Non-Separated and Separated Occupancies.

A new Section 901.4.4.1 Non-Separated and Separated Occupancies is added as follows:

901.4.4.1 Non-Separated and Separated Occupancies. The total occupant load shall be applied using the predominant occupancy group within each fire area to determine the threshold so as not to exceed the limits established for requiring a fire protection system in accordance with this chapter.

Exception: When the total occupant load of an non-predominant occupancy group exceeds the threshold requiring a fire protection system the system shall be required throughout the fire area.

Section 903.3.1.3 NFPA 13D sprinkler systems.

A section 903.3.1.3 NFPA 13D sprinkler systems is amended as follows:

903.3.1.3 NFPA 13D sprinkler systems. Automatic sprinkler systems installed in group R-3; Group R-4, condition 1 shall be permitted to be installed throughout in accordance with NFPA 13D, 2022 edition including local amendments. Automatic sprinkler systems installed in one- and two-family dwellings; and townhouses shall be permitted to be installed throughout in accordance with NFPA 13D, 2022 edition including local amendments.

Section 903.3.8.5 Calculations.

Section 903.3.8.5 Calculations is amended as follows:

903.3.8.5 Calculations. Hydraulically calculated fire sprinkler systems shall be designed to ensure the available supply pressure is a minimum of ten (10) psi above the required system pressure. The fire code official is authorized to approve a lower safety margin for 903.3.1.3 systems. The safety margin shall be shown on the plans.

Sections 903.4.3.1 and 904.3.2.

Sections 903.4.3.1 and 904.3.2 are added as follows:

903.4.3.1 Interior audible notification appliances provided in R occupancies shall produce a 520 Hz low frequency signal.

903.4.3.2 In sprinklered one- and two-story self-storage occupancies audible and visual waterflow alarm notification appliances shall be provided throughout interior corridors in lieu of each tenant space. Additionally, one interior audible and visual notification appliance shall be provided near the main entrance or in a normally occupied location and any sleeping units. Sleeping unit audible notification appliances shall produce a 520 Hz low frequency signal.

Section 905.3 Required installations.

Section 905.3 Required installations is amended as follows:

905.3 Required installations. Standpipe systems shall be installed where required by Sections 905.3.1 through 905.3.9. Standpipe systems are allowed to be combined with automatic sprinkler systems.

Exception: Unless required by Section 905.3.9, standpipe systems are not required in Group R-3 occupancies.

The standpipe design shall be approved by the fire code official. Standpipes in buildings with fire pumps shall be automatic.

Exceptions:

1. When approved by the fire code official, standpipes in buildings not subject to freezing shall be wet and shall be permanently connected to a water supply.
2. When approved by the fire code official, standpipes in buildings subject to freezing shall be dry with supervised air or nitrogen and shall be permanently connected to a water supply.
3. When approved by the fire code official, standpipes in areas subject to freezing shall be permitted to be manual dry when equipped with both KNOX locking caps and/or KNOX plugs for fire department connections (FDC).

Section 905.3.9 Residential Manual Dry Standpipes.

A new section 905.3.9 Residential Manual Dry Standpipes is added as follows:

905.3.9 Residential Manual Dry Standpipes. An approved residential manual dry standpipe system shall be installed for Group R-3 occupancies and structures

constructed in accordance with the International Residential Code with driveways over 150 feet (45 720 mm) long to mitigate the lack of fire access for structures constructed in the hillside overlay (Hillside Overlay District - HMC Title 19).

The quantity and locations of hose valve outlets shall be approved by the fire code official.

The permittee shall be responsible for providing all equipment, including pumper truck, necessary for acceptance testing.

Section 905.12 Signage.

Replace Section 905.12 as follows:

905.12 Signage. In addition to all signage required by NFPA Standard 14, an approved architectural floor plan with room numbers shall be provided adjacent to each standpipe hose valve outlet. The plan shall graphically show the area reachable by 100 feet (30 480 mm) of hose from the specific outlet and the location of adjacent outlets (if any) and the distance away.

Section 907.6.6.1 Expanded Monitoring.

A new section 907.6.6.1 Expanded Monitoring is added as follows:

907.6.6.1 Expanded Monitoring. Signals from two-way communication, emergency responder communication enhancement coverage systems, dedicated function elevator recall systems and other systems shall be transmitted to a supervising station as required by the Authority Having Jurisdiction.

Section 1009.8. Two-Way Communication.

Section 1009.8 Two-way communication is amended as follows:

1009.8 Two-way communication.

A two-way communication system complying with Sections 1009.8.1 and 1009.8.2 shall be provided at the landing serving each elevator or bank of elevators on each accessible floor and occupiable mezzanine that is one or more stories above or below the level of exit discharge.

Exceptions:

1. Two-way communication systems are not required at the landing serving each elevator or bank of elevators where the two-way communication system is provided within areas of refuge in accordance with Section 1009.6.5.
2. Two-way communication systems are not required on floors provided with ramps conforming to the provisions of Section 1012.

3. Two-way communication systems are not required at the landings serving only service elevators that are not designated as part of the accessible means of egress or serve as part of the required accessible route into a facility.
4. Two-way communication systems are not required at the landings serving only freight elevators.
5. Two-way communication systems are not required at the landing serving a private residence elevator.
6. Two-way communication systems are not required in Group I-2 or I-3 facilities. 905.3.9 Residential Manual Dry Standpipes.

Sections 4106.4.3.1.1 and 4106.4.3.2.1.

Sections 4106.4.3.1.1 and 4106.4.3.2.1 are added as follows:

4106.4.3.1.1 LP-gas alarms. A listed LP-gas alarm shall be installed within the vehicle in the vicinity of LP-gas system components, in accordance with the manufacturer's instructions.

4106.4.3.2.1 Methane alarms. A listed methane gas alarm shall be installed within the vehicle in accordance with manufacturer's instructions.

Section 5601.2.2 Sale and retail display.

Section 5601.2.2 Sale and retail display is amended as follows:

5601.2.2 Sale and retail display. All sales and retail displays of fireworks and explosives are prohibited.

Exceptions:

1. Consumer fireworks 1.4G (safe and sane) offered for sale at portable retail fireworks stands that are in accordance with the current Fire Prevention Association of Nevada (FPAN) Guidelines for Fireworks. Stands or booths constructed of non-combustible materials providing an acceptable equivalent level of safety to the prescriptive FPAN guidelines may be approved by the fire code official.
2. Novelties complying with NFPA 1124 section C.3.2 & C.3.3 including: party popper; snapper; toy smoke devices; snakes, glow worms; wire sparklers, dipped sticks; and toy caps.

Section 5607.1.1 Blasting Regulations.

A new section 5607.1.1 Blasting Regulations is added as follows:

5607.1.1 Blasting Regulations. Blasting for new development such as subdivisions and commercial uses is regulated in HMC 15.33 entitled "Blasting Regulations." The fire code official is authorized to exercise discretionary authority in utilizing any of the requirements from HMC 15.33 when evaluating other requests for blasting.

Section 5608.1.1 Additional Requirements for Outside Fireworks Displays.

A new section 5608.1.1 Additional Requirements for Outside Fireworks Displays is added as follows:

5608.1.1 Additional Requirements for Outside Fireworks Displays. The following conditions apply to fireworks displays:

1. Fireworks displays shall not exceed twelve (12) times per calendar year at any one location.

2. Fireworks displays shall only occur on Friday and Saturday nights, with the sole exception of New Year's Eve and July 4th. On New Year's Eve and July 4th, fireworks must conclude by 12:30 a.m. (including misfires). On any other occasion, fireworks must conclude by 10:30 p.m. (including misfires).

3. Notification (a vicinity map depicting the subject site, the proposed date(s), time(s) and contact information) shall be provided by the applicant to the mailing addresses on the list provided by staff via first-class mail postmarked not more than thirty (30) days and not less than ten (10) days in advance of the fireworks display. Notification shall also be provided to City of Henderson fire safety staff and community police staff at least 10 calendar days prior to the fireworks display date. A copy of the notification plan shall be included with the permit application.

4. Fireworks displays will be cancelled or postponed when the wind velocity is more than 15 mph for aerial displays and when the wind velocity is more than 20 mph for ground displays. All advertising for the fireworks display shall contain a disclaimer advising that "The fireworks displays will be cancelled or postponed when the wind velocity is in excess of 15 mph."

5. Other firework displays for special events may be considered on an individual basis.

6. Notification to Henderson Fire Department Dispatch shall be made the day of the fireworks display. Notification by the permit holder shall be provided no later than four (4) hours prior to the fireworks display by calling dispatch at 702-267-4913.

5704.2.9.6.1 Locations where above-ground tanks are prohibited.

Section 5704.2.9.6.1 Locations where above-ground tanks are prohibited is amended as follows:

5704.2.9.6.1. Locations where above-ground tanks are prohibited. Storage of Class I and II liquids in above-ground tanks in control areas exceeding an aggregate capacity of 500 gallons (1893 L) outside of buildings is prohibited for the protection of heavily populated or congested areas.

Exception: When approved by the planning or zoning authority and when approved by the fire code official. Note: The fire code official may require UL2085 listed protected tanks or other appropriate mitigation measures.

Chapter 80

Revise Chapter 80 reference NFPA standards as follows:

NFPA

…

54-24 National Fuel Gas Code.

…

140-24 Motion Picture and Television Production Studio Soundstages, Approved Production Facilities, and Production Locations.

…

3000-24 Standard for an Active Shooter/Hostile Event Response (ASHER) Program.

…

(Note: The list before and after the revisions and insertions are unchanged.)

Section B103.1.1: Utility water storage tank sites.

A new section B103.1.1: Utility water storage tank sites is added as follows:

B103.1.1: Utility water storage tank sites. The fire code official is authorized to reduce or eliminate the fire-flow requirements for utility storage sites where the development of fire-flow requirements is impractical.

Table B105.1(1)

Table B105.1(1) is revised and replaced as follows:

TABLE B105.1(1)
REQUIRED FIRE FLOW FOR ONE- AND TWO-FAMILY DWELLINGS, GROUP R-3 AND R-4 BUILDINGS AND TOWNHOUSES

FIRE FLOW CALCULATION AREA (square feet)	*MINIMUM FIRE FLOW (gallons per minute)*	*FLOW DURATION (hours)*
0-3,600	1,500	1
3,601 and greater	½ Value in Table B105.1(2) but not less than 1,500	Duration in Table B105.1(2) at the required fire-flow rate

For SI: 1 square foot = 0.0929 m^2, 1 gallon per minute = 3.785 L/m

NFPA 13

Section 16.4.1.5.1 is revised as follows:

16.4.1.5.1 Design Temperature and Duration. The minimum criteria for an engineered solution in calculating heat loss for the requirement to maintain 40ºF (4.4ºC) shall be 0º F (-17.8ºC) for 8 hours. The initial starting temperature of the water shall be no greater than 50ºF (10ºC).

To maintain 40º F (4°C), the temperature analysis must use a starting temperature of 50º F (10°C) and use an outside temperature of 0º F (-17.8°C) for a period of 8 hours. To maintain 100º F (37.8°C), the temperature analysis must use a starting temperature of 90º F (32.2°C) and use an outside temperature of 120º F (48.9°C) for a period of 8 hours.

NFPA 13D

A new section 6.5.4 is added as follows:

6.5.4 A supply line from the sprinkler system loop shall feed into the toilet in the master bathroom. In multi-level dwellings, if the lowest protected level is below the elevation of the water supply, a supply line shall also feed into a toilet at that level.

Section 8.4 is amended as follows:

8.4 Protection Matrix for Group R Division 3 Occupancies and Buildings Built Under the IRC.

8.4.1 General. When a sprinkler system is being upgraded or installed to mitigate the minimum Fire Code requirements for fire flow, number of fire hydrants, or fire department access, the design requirements in Table 8.4.1 shall be applied.

Table 8.4.1 Protection Matrix for Group R Division 3 Occupancies and Buildings Built Under the IRC[4]

Fire Lane Distance per IFC 503.1.1	*Building Area SIZE RANGE[5]*	*Mitigation Residential SYSTEM TYPE[1,3]*	*MINIMUM WATER METER SIZE[6]*	*SPRINKLERS REQUIRED IN AREAS SUBJECT TO FREEZING*
≤350 FT	≤10,000 SQ. FT.	Enhanced NFPA 13D[1,2] 2-head calculation[1,2]	3/4"/1"[7]	No

Fire Lane Distance per IFC 503.1.1	*Building Area SIZE RANGE[5]*	*Mitigation Residential SYSTEM TYPE[1,3]*	*MINIMUM WATER METER SIZE[6]*	*SPRINKLERS REQUIRED IN AREAS SUBJECT TO FREEZING*
≤350 FT	>10,000 SQ. FT.	Enhanced NFPA 13D 4-head calculation[1,2,8]	1-1/2"[7]	No
>350 FT	Any Size	Enhanced NFPA 13D 4-head calculation[1,2,8]	1-1/2"[7]	No

1. This mitigation constitutes a building "protected with an approved fire sprinkler system" per the IFC.

2. Domestic demand of 5 gpm is required to be added to the sprinkler demand in the hydraulic calculations.

3. Free-standing detached buildings with habitable space (as defined in the IRC) shall be protected by a minimum Enhanced NFPA 13D system with a 2-head calculation.

4. Excluding Group Care Homes with two or less persons being cared for per NRS 449.1865.

5. Building area is defined as the areas under roof except for porches, patios, balconies, carports, and porte cocheres.

6. Water meters used for residential sprinkler systems shall be residential fire service meters (RFM) or other meters approved by the water purveyor.

7. Existing homes with ¾" water meters may be allowed to install a ¾" RFM meter subject to approval. Minimum 1" water meters shall be installed when a 2-head calculation is permitted. Minimum 1-1/2" water meters shall be installed when a 4-head calculation is required.

8. Enhanced 13D 4-head calculation design requires the hydraulic design area to include all sprinklers within a compartment, up to a maximum of four sprinklers.

8.4.2 Where required. When Table 8.4.1 requires an Enhanced 13D design, sprinklers shall be installed throughout the structure except where omissions are permitted by the following:

1. Unheated attic spaces.

2. Floor/ceiling spaces.

3. Concealed combustible spaces with no access for storage or living purposes.

4. Exterior overhangs, porches, and carports.

5. Showers, saunas, steam rooms or other areas that would necessitate the installation of corrosion proof heads.

6. Unconditioned spaces such as storage rooms or exterior accessible spaces that are subject to freezing.

NFPA 14

A new section 10.2.5.1 is added as follows:

10.2.5.1 The contractor is responsible for pressure testing and verifying the integrity and capacity of the drain line.

A new section 12.6.2.2 is added as follows:

12.6.2.2 The installing contractor is responsible for providing all equipment for the acceptance testing of a manual standpipe acceptable to the authority having jurisdiction.

NFPA 72

The 2022 edition of NFPA 72 is adopted except Chapter 29 as follows:

The 2022 edition of NFPA 72 is adopted except Chapter 29 is deleted. (Note: For requirements like Chapter 29, refer to the requirements found in the International Residential Code HMC 15.09.)

Section 12.4 is revised as follows:

12.4* Pathway Survivability. All pathways shall comply with 12.2.3 and NFPA 70.

Section 17.4.7.3 is revised as follows:

17.4.7.3 Detectors installed in concealed locations where the specific detector alarm or supervisory signal is indicated at the control unit (and on the drawings with its specific location and functions) shall be required to be provided with remote alarm indicators unless approved by the Authority Having Jurisdiction.

Section 24.10.9.1 is added as follows:

24.10.9.1 Elevator lobby call stations shall be within 10-feet of the elevator door or bank of elevators served unless approved by the Authority Having Jurisdiction.

(Ord. No. 4138, § 5, 12-16-2025; Ord. No. 4090, § 7, 7-15-2025; Ord. No. 3909, § 6, 9-13-2022; Ord. No. 3510, § 2, 8-7-2018)

15.32.060 Enforcement authority.

Fire safety is established within the City of Henderson. The City of Henderson Fire Code shall be enforced by fire safety, which shall be operated under the direction of the City of Henderson manager of plans examining services/fire protection engineer, senior fire plans examiner and senior fire inspectors. The primary function of fire safety will be to assist the fire chief in the administration and enforcement of the fire code. Management oversight of fire safety is provided by the building official. The fire chief has the final decision-making authority on all technical fire code issues.
(Ord. No. 3670, § 3, 3-3-2020; Ord. No. 3510, § 2, 8-7-2018)

15.32.070 State fire marshal's regulations.

Pursuant to NAC 477.280, fire safety shall enforce the Nevada State Fire Marshal Regulations as adopted by the state fire marshal, except as modified by HMC chapter 15.
(Ord. No. 3510, § 2, 8-7-2018)

15.32.080 Citations.

The City of Henderson fire chief, deputy fire chiefs, battalion chiefs, fire protection engineer, fire investigators, senior fire inspector(s) and members of code enforcement for the City of Henderson may prepare, sign, and serve written citations on persons accused of violating any provision of this title. Any designated employee issuing a citation pursuant to this section shall comply with the provisions of NRS 171.1773.
(Ord. No. 3670, § 3, 3-3-2020; Ord. No. 3510, § 2, 8-7-2018)

15.32.090 Appeals and relief from regulations.

All decisions made by the City of Henderson manager of plans examining services/fire protection engineer, senior fire plans examiner, senior fire inspector(s), members of fire safety, or members of the fire department are subject to review by the building official and the fire chief.

All decisions made by the City of Henderson building official and the fire chief are subject to review in accordance with HMC chapter 15.01.
(Ord. No. 3670, § 3, 3-3-2020; Ord. No. 3510, § 2, 8-7-2018)

15.32.100 Penalties.

A. Any person, firm, or corporation who violates any of the provisions of the Code shall be deemed guilty of a misdemeanor and each such person shall be deemed guilty of a separate offense for each and every day or portion thereof during which any violation of any

of the provisions of this code is committed, continued, or permitted, and upon conviction of any such violation such person shall be punished as the law allows for a misdemeanor crime.

B. The application of the above penalty shall not be held to prevent the enforced removal of prohibited conditions.
(Ord. No. 3510, § 2, 8-7-2018)

15.32.110 Permit and service fee schedule.

Fees for permits, inspections, plan checks and other services shall be as set forth in the development services schedule of fees, as adopted and amended from time to time by the Henderson City Council (HMC 15.02).
(Ord. No. 3510, § 2, 8-7-2018)

15.32.120 Effective date.

This chapter shall become effective on January 2, 2026.
(Ord. No. 4090, § 8, 7-15-2025; Ord. No. 3909, § 7, 9-13-2022; Ord. No. 3510, § 2, 8-7-2018)

Chapter 15.33 BLASTING REGULATIONS

Sections:

15.33.010 Short title.
15.33.020 Adoption.
15.33.030 Scope.
15.33.040 Substantial compliance standard.
15.33.050 Technical opinions and reports.
15.33.060 Inspections.
15.33.070 Enforcement authority.
15.33.080 Citations.
15.33.090 Administrative review.
15.33.100 Penalties and other enforcement actions.
15.33.110 Definitions.
15.33.120 Permits.
15.33.130 Performance standards.
15.33.140 Non-proximate blasting permit requirements.
15.33.150 Proximate blasting permit requirements.

15.33.010 Short title.

This chapter shall be known as the City of Henderson "Blasting Regulations" and may be cited as such.
(Ord. 2388, § 3 (part), 2005)

15.33.020 Adoption.

The City of Henderson adopts the ordinance codified in this chapter as its blasting regulations and by this designation and reference is hereby adopted and made a part of this chapter, the same as if it were fully set forth herein. One copy of this blasting regulations is on file in the office of the city clerk.
(Ord. 2388, § 3 (part), 2005)

15.33.030 Scope.

The on-site storage, handling, and use of explosives to prepare land for development shall be in accordance with this ordinance, except for the following:

A. The armed forces of the United States, Coast Guard or National Guard;

B. The transportation and use of explosive materials by federal, state and local regulatory law enforcement and fire agencies acting in their official capacities;

C. When preempted by federal law or regulations.

NOTE: The manufacturing, possession, off-site storage, sale, transportation, handling, and use of explosives shall be in accordance with the adopted fire code and all applicable state and federal regulations. The use of explosives within 100 feet of a building or utility is prohibited.

Exceptions:

1. When the use of explosives is required to eliminate imminent hazards;

2. Public construction projects;

3. Where written permission of all building owner(s) within 100 feet of the blast hole(s) has been obtained on a form provided by the city;

4. Where written acknowledgement of all utility owner(s) within 100 feet has been obtained on a form provided by the city.

The use of explosives is permitted at a distance greater than 100 feet and less than 300 feet from a building or utility (herein identified as "proximate" blasting) only upon issuance of a proximate blasting permit, as specified herein.

The use of explosives is permitted greater than 300 feet from a building or utility (herein identified as "non-proximate" blasting).
(Ord. 2388, § 3 (part), 2005)

15.33.040 Substantial compliance standard.

In the enforcement of this ordinance the fire chief and the building and fire safety director are authorized to grant minor variances from the strict application of the ordinance codified in this chapter where, in the opinion of the fire chief and the building and fire safety director, the work or method is in substantial compliance with the intent of the ordinance codified in this chapter.
(Ord. 2388, § 3 (part), 2005)

15.33.050 Technical opinions and reports.

Technical assistance. To determine the acceptability of technologies, processes, products, facilities, materials and uses attending the design, operation or use of explosives, the fire chief and building and fire safety director are authorized to require the owner or agent to provide at no expense to the city, a technical opinion and report. The opinion and report shall be prepared by a qualified engineer, specialist, laboratory or fire safety specialty organization acceptable to the fire chief and building and fire safety director and shall analyze the design, operation and use of explosives in regards to the application submitted

and recommend necessary changes and render an opinion as to whether the proposed blasting can be conducted safely and in accordance with the provisions of the ordinance codified in this chapter or provide peer review of the engineered plans.
(Ord. 2388, § 3 (part), 2005)

15.33.060 Inspections.

The city reserves the right to conduct inspections at any time during the duration of the permit.
(Ord. 2388, § 3 (part), 2005)

15.33.070 Enforcement authority.

A fire safety division is established within the building and fire safety department. The City of Henderson blasting regulations shall be enforced by the fire safety division, which shall be operated under the direction of the City of Henderson fire marshal. The primary function of the fire safety division will be to assist the fire chief in the administration and enforcement of the fire code and the blasting ordinance. Management oversight of the fire safety division is provided by the director of the building and fire safety department. The fire chief has the final decision making authority on all technical fire code issues and blasting issues.
(Ord. 2388, § 3 (part), 2005)

15.33.080 Citations.

The City of Henderson fire marshal, the deputy fire marshal(s), the fire investigators, and members of code enforcement for the Henderson building and fire safety department may prepare, sign and serve written citations upon persons accused of violating any provision of this title. Any designated employee issuing a citation pursuant to this section shall comply with the provisions of NRS 171.1773.
(Ord. 2388, § 3 (part), 2005)

15.33.090 Administrative review.

An administrative review of the application and interpretation of the provisions of these regulations may be requested by any aggrieved party. The administrative review shall be conducted within four business days of the filing of the request with the fire chief or the director of building and fire safety. The party requesting the review will be notified of the date, time and location for the review and provided an opportunity to attend and present pertinent information.

The review shall be heard by an administrative review committee consisting of the fire chief, director of building and fire safety, fire marshal, risk manager, and the emergency management coordinator, or their designee. The committee shall adopt reasonable rules and regulations for conducting reviews, and shall render its decisions and findings in writing, with a copy to the appellant. Decisions of the committee are final.

A request for review under this section does not stay any suspension or revocation order.
(Ord. 2388, § 3 (part), 2005)

15.33.100 Penalties and other enforcement actions.

A. Any person, firm, or corporation who violates any of the provisions of these blasting regulations shall be deemed guilty of a misdemeanor and each such person shall be deemed guilty of a separate offense for each and every day or portion thereof during which any violation of any of the provisions of this code is committed, continued, or permitted, and upon conviction of any such violation such person shall be punished as the law allows for a misdemeanor crime.

B. The application of the penalty in subsection A of this section shall not be held to prevent the enforced removal of prohibited conditions.

C. The fire chief and director of building and fire safety are hereby authorized and may file a complaint with the Nevada State Contractors Board against any violator of this chapter.
(Ord. 2388, § 3 (part), 2005)

15.33.110 Definitions.

Air blast means an airborne pressure wave resulting from the detonation of explosives.

Blast means any detonation(s) of an explosive(s) being initiated simultaneously by a single energy source.

Blast area means the area surrounding a blast site where fly rock could occur and which should be guarded against entry during the shot.

Blast site means the area in which explosives materials are being or have been loaded and which includes all holes loaded or to be loaded for the same blast and for a distance of 50 feet in all directions.

Blaster means a person who holds a valid certificate of registration issued by the state fire marshal and qualified to be in charge of and responsible for the design, loading and firing of a blast.

Blast hole means a hole drilled in the material to be blasted, for the purpose of containing an explosive charge, also called borehole or drill hole.

Building means for purposes of the ordinance codified in this chapter a building is defined as specified in the adopted building code, whether under construction or completed. Exception: unoccupied utility buildings, towers, and similar structures.

Building and fire safety director means the appointed head of the building and fire safety department of the City of Henderson or his designee.

Certificate of registration means a license granted by the state fire marshal to a blaster which allows the license holder to be in charge of and responsible for the loading and firing of a blast.

Explosives means any chemical compound, mixture or device, the primary or common purpose of which is to function by explosion; including, but not limited to, water gel, slurries, emulsion, dynamites, pellet powder, blasting caps, cast primers and boosters, detonating cord, detonating cord delay connectors, and blasting agents.

Fire chief means the appointed head of the fire department of the City of Henderson or his designee.

Fly rock means rock and/or earth propelled from the blast site through the air or along the ground by the force of the detonated explosives.

Misfire means a charge of explosive material that fails to detonate completely after initiation.

Non-proximate blasting means that area containing blast holes greater than 300 feet from any building or utility.

Permit area means the area within the perimeter of the parcel(s) on which a blast site(s) exists.

Pre-blast survey means a visual and written record of the existing condition of a given building near an area where blasting is to be conducted. The purpose of the survey is to record the pre-blasting condition of the building and to document any observable defects or damage.

Proximate blasting means that area containing blast holes 300 feet or less from any building or utility.

Special inspection means inspection required by these regulations for the preparation and conducting of regulated blasting operations.

Utility means any water, sewer, natural gas, electrical service, telecommunication line or distribution component.

Velocity means the measurement of speed.

Velocity, particle means the velocity at which the earth vibrates, measured in inches per second.

Velocity, peak particle means the highest recorded particle velocity in any one of three mutually perpendicular directions.

Velocity, seismic means the velocity at which a vibration or seismic wave travels outward from the source. It is measured in thousands of feet per second.

Vibration, blasting means the energy from a blast that manifests itself in vibrations which are transmitted through the earth away from the immediate blast area.

Vibration, frequency means the number of cycles of vibration per unit of time. The units of frequency are in cycles per second or Hertz (Hz).

Vibration, ground means shaking the ground, by elastic waves emanating from a blast; usually measured in inches per second of particle velocity.
(Ord. 2388, § 3 (part), 2005)

15.33.120 Permits.

A. *General.* A permit constitutes permission to use explosives and conduct blasting operations as may be conditioned or limited under the terms of such permit. Such permission shall not be construed as authority to violate, cancel or set aside any of the provisions of the ordinance codified in this chapter or the adopted fire code or any other applicable local or state law.

Where the provisions of the ordinance codified in this chapter conflicts with any other applicable code or regulation, the most restrictive provision shall apply, unless otherwise preempted under law. Such permit shall not take the place of any license required by law.

The issuance of a blasting permit shall not preclude the fire chief and building and fire safety director from subsequently suspending or revoking the permit, imposing additional requirements on the applicant, or supplementing any existing requirement whenever, in the opinion of the fire chief and building and fire safety director, later information or newly discovered conditions justify such actions.

B. *Blasting permit required.* A permit shall be obtained from the fire safety division of the building and fire safety department prior to any drilling in preparation for blasting and for all subsequent blasting activities.

Blasting permits shall be issued to only those persons or entities currently licensed for blasting by the Nevada State Contractors Board, City of Henderson business license division, and U.S. Department of Justice Bureau of Alcohol, Tobacco, Firearms and Explosives.

Blasting permits shall be either non-proximate or proximate. The applicant shall declare upon submission of the application the type of permit being requested. Permits and accompanying approved documents shall be readily available on the job site during any drilling or blasting operations.

C. *Refusal to issue permit.* The issuance of a blasting permit is a discretionary action on the part of the City of Henderson and as such the city has the right to refuse to issue a permit for blasting. Such refusal shall be in writing and shall contain the reasons for refusal.

D. *Expiration.* A permit shall not be valid for more than 180 days.

E. *Non-transferable.* Permits are not transferable and any change in ownership of the permittee shall require that a new permit be issued.

F. *Revocation or suspension.* The fire chief and the building and fire safety director are authorized to suspend or revoke any permit or portion thereof under the following circumstances:

1. The permit holder does not follow the requirements of these regulations;

2. The permit holder does not follow any condition of the permit; or

3. The blasting causes or may cause an imminent hazard to public health, safety, or welfare.

Upon notification that a permit has been suspended or revoked, all blasting and drilling activities as specified in the order shall immediately cease and all explosive materials shall be removed from the permit area immediately. Such notification shall be by any of the following methods:

4. Posting the notice at the permit area;

5. Personal service on individuals performing blasting operations;

6. By facsimile;

7. Telephone;

8. Electronic mail; or

9. First class U.S. mail.

The fire chief and building and fire safety director are authorized to reinstate a suspended permit at such time as the conditions that caused the suspension have been corrected. If the conditions have not been corrected within 30 days of service

of the notice of suspension, the permit shall be automatically revoked. A permit that has been revoked cannot be reinstated. The holder of a revoked permit may submit a new application, if so desired, to resume blasting operations on a site where a permit has been revoked.

G. *Suspension or revocation hearing.* A permittee may request a hearing within five business days of the suspension or revocation of a permit by filing a written request with either the fire chief or building and fire safety director. A request for hearing does not stay any suspension or revocation order. The hearing shall be conducted by the fire chief and building and fire safety director within five business days of filing of the written request for a hearing, unless by mutual agreement the hearing is scheduled for a later time. A written decision shall be rendered no later than ten business days after the conclusion of the hearing.

H. *Fees.*

1. *Cost recovery.* Fees shall be assessed so that all costs incurred by the city are recovered. Permit fees shall be paid at the time the application is submitted. Permit fees shall be as specified in the development services center fee schedule.

(Ord. 2388, § 3 (part), 2005)

15.33.130 Performance standards.

A. *Blast scheduling.*

1. Blasting contractors are required to request a blast time for each blast. Blasts shall be scheduled by the building and fire safety department. The department shall issue such scheduling rules as the fire chief and building official deem necessary and appropriate. The scheduling rules may be modified by the fire chief and building official, whenever necessary. Notice of modifications shall be sent to the blasting contractors regularly conducting business in Henderson at least seven days prior to the effective date of the modifications.

2. Blasting-related drilling may be conducted between the hours of 6:00 a.m. and 6:00 p.m. during the period beginning on October 1 and ending on March 31 and non-proximate blasting-related drilling may be conducted between the hours of 5:00 a.m. and 6:00 p.m. during the period beginning on April 1 and ending on September 30.

3. All blasting shall be conducted between the hours of 8:00 a.m. to 4:00 p.m., Monday through Friday, excluding state observed holidays (NRS-236). The fire chief and building official may approve alternative time periods for blasting, at their sole discretion, as deemed appropriate.

4. The blasting contractor shall notify fire department dispatch using a non-emergency telephone number a minimum of one hour prior to each blast.

B. *Seismograph monitoring location(s).* Seismographs shall be placed at the nearest building(s) to the blast site in accordance with Table 1. Seismographs shall be provided in sufficient numbers, distances, and directions that will provide ground motion and airblast records representative of the maximum impacts on the surrounding neighborhoods. The fire chief and building and fire safety director may require additional seismographs as deemed necessary to obtain additional attenuation data.

Table 1
Number of Seismographs Required

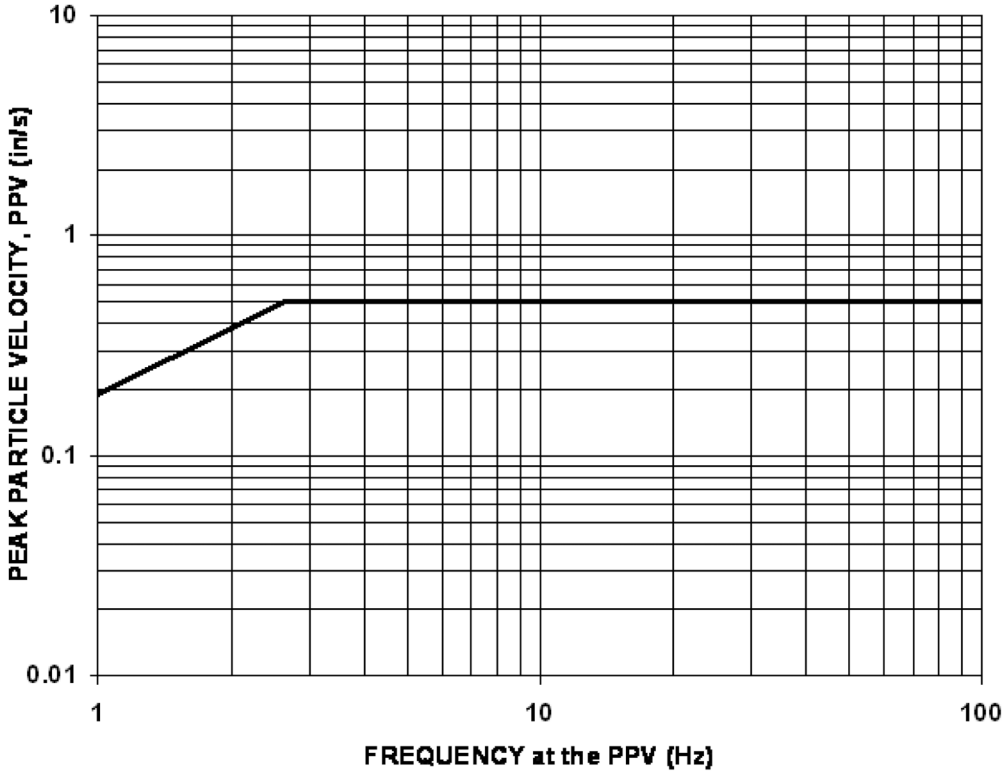
	Pounds of Explosives per Delay	
Distance (feet)	***≤ 100***	***> 100***
≤ 1,000	1	2
> 1,000	2	3

C. *Seismograph monitoring equipment.*

1. The ground vibration and airblast measuring systems shall have a flat response between two and 200 Hz.

2. Ground vibrations and airblast shall be monitored with blasting seismographs that meet the current International Society of Explosives Engineer's guideline entitled "Performance Specifications for Blasting Seismographs" (www.isee.org) and approved by the fire chief and building and fire safety director.

3. Blasting seismographs shall be deployed in the field according to the current International Society of Explosive Engineers guidelines entitled "Field Practice Guidelines for Blasting Seismographs" (www.isee.org).



D. *Ground vibration.*

1. At all blasting operations, the frequency-based maximum ground vibrations shall not exceed the limitations specified in Figure 1 at any building or utility.

2. Compliance shall be verified by employing blasting-type seismographs to record particle velocity time histories (full wave forms) and the frequency content of the time histories for three mutually perpendicular components of ground motions.

3. Ground vibrations shall be reported in terms of the peak particle velocity (PPV) and the frequency at the PPV.

FIGURE 1

E. *Airblast.* Airblast shall not exceed the maximum limit of 120 dBL sound pressure level equivalent of air pressure measured on a linear-weighted scale at the location of any building.

Exception: The maximum limit may be raised to 133 dBL with written permission of all building owner(s) within the distance as shown in Figure 2.

F. *Fly rock.* Fly rock traveling in the air or along the ground shall not be projected beyond the permit area.

G. *Reports.* All reports required by this section shall be submitted with the required reports attached via email to an address designated by the building and fire safety department.

The permittee shall provide written notification to the fire chief and building and fire safety director of any incident, damage claim, or neighbor annoyance report brought to the permittee's attention. Such notification shall be provided within 24 hours after a report of an incident, damage, or annoyance.

1. *Seismograph reports.* A seismograph report shall be provided to the city within 48 hours after every blast. The report shall include:

- **a.** Date and time of recording(s);
- **b.** Name of the person and firm taking the reading;
- **c.** Name of the person and firm analyzing the seismographic record;
- **d.** Type of instrument, serial number and calibration signal or certification of annual calibration;
- **e.** Trigger levels used for the ground motion and airblast (ground motion trigger levels at distances over 300 feet shall be set at 0.03 in/sec);
- **f.** Show location on a scaled map for each seismograph by address, if applicable;
- **g.** GPS location, distance and direction from the blast of each seismograph;
- **h.** Ground motion time histories for three mutually perpendicular components;
- **i.** Airblast time history;
- **j.** Peak particle velocity (PPV) and the frequency at the PPV;
- **k.** Peak airblast in decibels (dB) and pounds per square foot (psi) and the frequency at the peak;
- **l.** Maximum pounds of explosives per eight millisecond (ms) delay.

2. *Blasting report.* The operator shall retain a record of all blasts for a minimum of three years. At the request of the fire chief and building and fire safety director, the blasting operator shall provide to the City of Henderson a copy of the blasters log or report within 24 hours after the blast. The blasting log shall include the following:

- **a.** Name and signature of the operator and blaster conducting the blast;
- **b.** Date, time and location of the blast;
- **c.** GPS coordinates of the blast;
- **d.** Type of material blasted;
- **e.** Total number of drill holes;
- **f.** Diameter and depth of holes (maximum, minimum and average depth);
- **g.** Burden, and spacing used in the blasting pattern;
- **h.** Subdrill depth;

i. Type and length of stemming (minimum, maximum and average);

j. Total pounds of each type of explosive used;

k. Initiation system and delay periods used in design;

l. Schematic showing the drill hole pattern and detonation timing of each blast hole;

m. Weather conditions, including those which may cause possible adverse blasting effects;

n. The maximum weight of explosives detonated in an 8-millisecond period;

o. Type and size of any fly rock protection devices used, if any;

p. Distances to and addresses of all closest buildings to the blast site in all directions;

q. Reasons and conditions for each unscheduled blast.

3. *Noncompliant incident report.* When a blast exceeds established limits as specified herein, the permittee shall file a written noncompliant incident report with the building and fire safety department within 24 hours of the event. The incident report shall state:

a. What specified limit was exceeded;

b. Why the specified limit was exceeded;

c. Corrective measures taken to prevent similar future occurrences.

(Ord. No. 4101, § 4, 9-2-2025; Ord. 2388, § 3 (part), 2005)

15.33.140 Non-proximate blasting permit requirements.

A. *Blasting permit.* A blasting permit application will be considered by the fire chief and director of building and fire safety or their designee to be complete and ready for review once the application includes:

1. A completed application form provided by the City of Henderson;

2. Site maps and drawings;

3. Blasting plan;

4. Seismograph monitoring plan;

5. Traffic and access control plan;

6. Notification plan;

7. Proof of bonding or insurance;

8. Utility acknowledgement (when applicable).

Six copies of the entire application packet are required for all blasting permit applications.

B. *Application form.* An application form approved by the fire chief and building and fire safety director shall be completed and submitted for each blasting permit.

C. *Site maps and drawings.* An aerial site map with measured distances shall be submitted and shall:

1. Show the perimeter of the blast area;

2. Identify the locations of all buildings, utilities, and gas transmission pipelines located within 1,000 feet of the blast site;

3. Measure the distance(s) to the closest building(s) from the nearest blast hole.

The blast sites shall be superimposed upon the approved engineered grading plan and shall include information designated in subsections (c)(1) and (c)(2) of this section.

D. *Blasting plan.* Blast plans shall be provided for all applications within the notification distance as shown in Figure 2. Information deemed proprietary in nature by the applicant shall be clearly and distinctly identified as such. The city will maintain any proprietary information submitted in accordance with the Nevada Revised Statutes. The plan must include:

1. The location where the blast(s) will occur and the nearest building designated on a map or drawing using either of the following two methods:

a. An engineered scaled drawing with the nearest buildings located on this drawing; or

b. Show the blast site on a generic drawing/map by providing measured distances from the perimeter of the blast site to the nearest buildings;

2. The measured distance to the nearest building shall be provided;

3. The approximate total amount of material to be blasted (cubic yards);

4. The incremental volumes, per blast, of material to be blasted;

5. The types and packaging of explosive materials to be used;

6. The drill hole diameters, depths, patterns, sub drilling depths and drill hole orientation to be used;

7. A description of the initiation system, the incremental delay times, and the location of the primers in the explosive column;

8. A description of the stemming depths and stemming material for the various estimated depths of drill holes to be blasted;

9. The blast design shall provide either:

a. The maximum pounds per delay to be detonated within eight milliseconds based on the distance to the nearest building; or

b. The scaled distance factor (SD) that they will stay above for the blasts;

10. A description of the fly rock control procedures and equipment to be used;

11. A description of the blast warning sound system and equipment to be used;

12. The scheduled start date and finish date of blasting operations;

13. Additional information as requested.

E. *Seismograph monitoring plan.* A monitoring plan will be submitted to identify the name and address of an independent vibration monitoring company and describe plans for seismograph use, monitoring and reporting. A seismograph monitoring plan will include:

1. The number and general locations of seismographs to be used during monitoring identified on the site map;

2. The plan will include a sufficient number of seismographs strategically located within the surrounding neighborhoods to measure the influence of distance and direction on ground vibrations and airblast;

3. The name of the company supplying and operating seismographs and responsible for preparing the seismograph report;

4. The manufacturer and model of seismographs employed;

5. Seismograph monitoring shall comply with the International Society of Explosives Engineers (ISEE) Field Practice Guidelines for blasting seismographs.

F. *Traffic and access control plan.* A traffic and access control plan shall include warning signage, flagging, temporary road closures, and detour routes for blasting operations. Permit areas that are secured from entry by the general public are exempt from this equipment.

During the loading and detonation of a blast hole, signs shall be conspicuously placed reading "Blasting Area" along the edge of any blasting area. Access within the blasting area shall be controlled to prevent presence of unauthorized persons during blasting and until an authorized representative of the operator has reasonably determined that no unusual hazards, such as undetonated charges, exist, and access to and travel within the blasting area can be safely resumed.

G. *Notification plan.* The notification plan shall consist of the following: (i) blasting notification mailing, (ii) neighborhood meeting.

1. The director of building and fire safety and the fire chief are authorized in their joint discretion to:

a. Allow one blasting notification mailing and/or neighborhood meeting for a project that involves multiple permits such as, but not limited to, projects requiring permit renewals; geographic proximity of proposed blast areas in relation to other development; and master planned communities;

b. Allow one blasting notification mailing and/or neighborhood meeting for multiple projects that involve multiple permits such as, but not limited to, projects subject to a master development agreement; contiguous projects; and master homeowner associations;

c. Require additional blasting notification mailing(s) and/or neighborhood meeting(s) if the scope of the project substantially changes or otherwise warrants additional information sharing with the public such as, but not limited to, substantial acreage added to permit area; or change to blasting plan;

d. Not require blasting notification mailing and/or a neighborhood meeting for permit applications that fall within the scope and notification distance requirements of existing permits by the same blasting contractor.

2. *Blasting notification mailing.* A blasting notification mailing shall be sent to all property owners, and homeowner associations, with a copy provided to the City of Henderson departments of building and fire safety, and neighborhood services, within the scaled notification distance from the perimeter of the assessor's parcel numbers or applicant's designated blast site(s) upon which the blasting permit is requested no less than seven days and no greater than 21 days prior to the start of blasting operations. When fewer than five different property owners are within the notification distance, the applicant may propose a custom plan for informing these owners pursuant to this section. The fire chief and building and fire safety director may accept or modify this plan.

The notification distance for a blasting notification mailing shall be based on Figure 2. The distance from the perimeter of the assessors parcel number containing the closest blast site for notifying property owners is the point where the weight intersects the line on the chart. The weight is based on the applicant's statement stating the maximum anticipated pounds of explosives in any single delay.

FIGURE 2

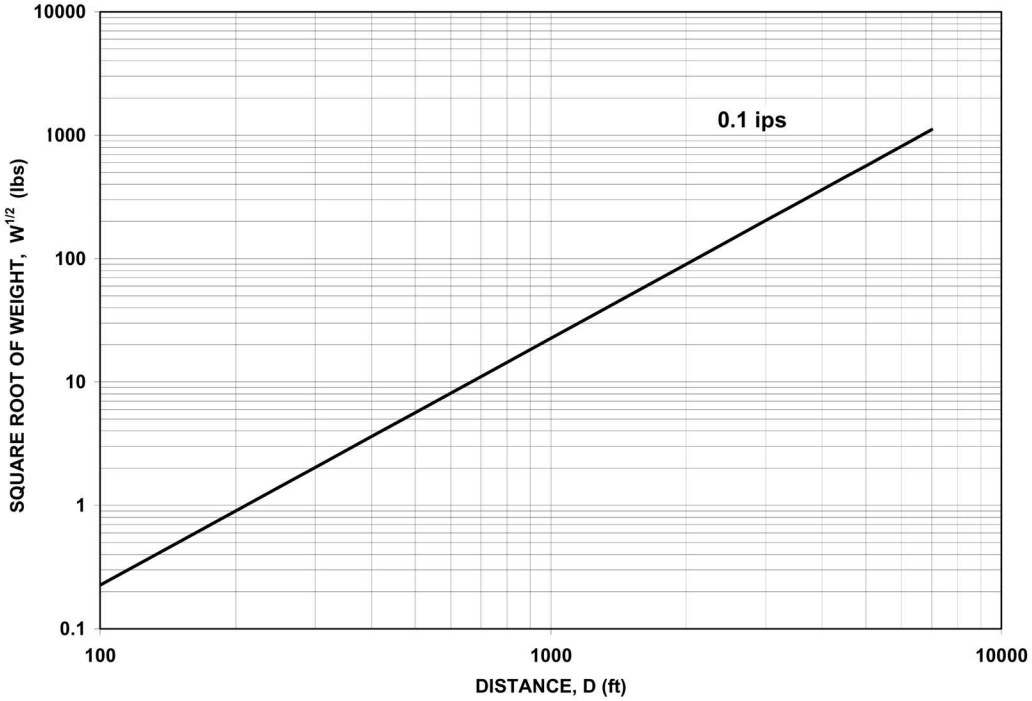


Figure 2 is based on the following equation: D (ft) = 210 * W ½ (lbs) where D is the scaled notification distance and W is the maximum charge weight per eight ms delay.

Upon request, the City of Henderson will provide a mailing list for all residences within the scaled notification distance from the perimeter of the assessor's parcels upon which the blasting permit is requested. A fee shall be charged to recover the cost of providing this service.

The applicant may request to have the city prepare and process the mailing for the neighborhood meeting and shall charge a fee to recover the cost of providing this service.

The blasting notification mailing shall have a return address identifying the applicant. The contents of the notice shall include, but are not limited to, the following:

a. Why the blasting is necessary;

b. Name of blasting company;

c. When the blasting will occur, i.e., date range and approximate times of blasting;

d. Where the blasting will be conducted. A map shall be provided;

e. How to contact the blasting company;

f. Date, time, location of the required neighborhood meeting.

When no blasting occurs for a period of 30 or more days, a new blasting notification mailing shall be sent. The notice shall include subsections (2)(a) through (2)(e) of this section.

3. *Neighborhood meeting.* The location of the neighborhood meetings are subject to the approval of the fire chief and building and fire safety director.

A neighborhood meeting will be conducted prior to the issuance of a non-proximate blasting permit by representatives of the blasting company, the developer, and the vibration consultants implementing the monitoring program.

Information provided to neighborhood residents will include, but is not limited to:

a. A general description of the blasting activities, including an explanation of the drilling and blasting process;

b. The anticipated duration of the blasting;

c. An anticipated schedule of blasts, including estimated dates and times of blasting;

d. The qualifications of the blasters;

e. The warning signals for blasting and the all clear signal;

f. Measures to be taken for the control of ground vibrations, air blast, fly rock, fumes and dust;

g. Contact information for submitting questions or complaints;

h. Insurance carrier contact information for submitting claims;

i. A description of the vibration monitoring process.

H. *Proof of insurance.*

1. *General.* A valid certificate of insurance shall be submitted with each application when applying for a permit to conduct blasting.

2. *Certificate information required.* The certificate shall be issued by an insurance company authorized to transact business in the State of Nevada, or be named on the list of authorized insurers maintained by the Nevada Department of Business and Industry, Division of Insurance. The following information shall be identified:

a. The contractor shall be named as the insured. If the insurance is provided by an individual, company or partnerships other than the contractor, the contractor shall be named as an additional insured;

b. The City of Henderson Municipal Corporation, its officers, agents, employees and volunteers shall be named as additional insured and certificate holder;

c. Commercial general liability limits, including contractual liability, in the minimum amount of $5,000,000.00, per occurrence.

I. *Additional insurance.* Greater liability insurance amounts may be required under circumstances where the blasting activity is deemed by the fire chief and building and fire safety director to present unusual hazards.

J. *Indemnification.* Each permit issued under the authority of this chapter shall contain the following indemnification provision:

The permittee hereby fully indemnifies, holds harmless and agrees to defend the City of Henderson, its agents, officers and employees from any and all claims, expenses, losses, liability, actions, suits or demands, including legal defense costs thereof, of whatever nature, arising out of or connected with this blasting permit.

K. *Utility notification.* Utilities within 300 feet of the blast site shall be notified as follows:

1. Utility service provider shall acknowledge the use of explosives by providing a signature from an authorized person on a form provided by the City of Henderson or written permission on utility company letterhead.

Exception: alternate methods of notification as acceptable to the utility and filed with the building and fire safety department.

2. The blasting contractor shall provide a minimum of 24 hours' notice to the utility in advance of the initial blast.

(Ord. 2416, §§ 1—2, 2005; Ord. 2388, § 3 (part), 2005)

15.33.150 Proximate blasting permit requirements.

A. *[Safety precautions.]* In addition to all other requirements of this chapter, the following safety precautions shall be taken for proximate blasting:

1. Additional seismographs may be required by the City of Henderson or its consultant;

2. The blast plan shall also note the measured distance between the seismograph and the nearest blast hole;

3. Only packaged, measured or metered explosives shall be used;

4. A drill log shall be maintained on all proximate blasting to allow the blasting supervisor to monitor the drilling process closely and to take the appropriate action if an anomaly occurs;

5. Drill hole depth shall be held to a maximum of 20 feet of solid rock when conducting proximate blasting;

6. The diameter of the drill hole shall not exceed three inches when conducting proximate blasting;

7. Stemming material shall be one-half inch angular gravel or crushed stone;

8. All proximate blasts shall be videotaped at a distance and direction that will allow visual capture of any fly rock. A copy of the videotape shall be provided to the fire chief and building and fire safety director within 24 hours upon request;

9. The fire chief and building and fire safety director may require protective cover such as matting used on top of proximate blasts to prevent fly rock. The type of and quantity of cover shall be as determined by the contractor, but not less than simple topsoil or a manmade material like synthetic rubber;

10. The approximate powder factors anticipated.

B. *Notification plan.* The notification plan shall consist of the following: (i) blasting notification mailing, (ii) neighborhood meeting.

1. The director of building and fire safety and the fire chief are authorized in their joint discretion to:

a. Allow one blasting notification mailing and/or neighborhood meeting for a project that involves multiple permits such as, but not limited to, projects requiring permit renewals; geographic proximity of proposed blast areas in relation to other development; and master planned communities;

b. Allow one blasting notification mailing and/or neighborhood meeting for multiple projects that involve multiple permits such as, but not limited to, projects subject to a master development agreement; contiguous projects; and master homeowner associations;

c. Require additional blasting notification mailing(s) and/or neighborhood meeting(s) if the scope of the project substantially changes or otherwise warrants additional information sharing with the public such as, but not limited to, substantial acreage added to permit area; or change to blasting plan;

d. Not require blasting notification mailing and/or a neighborhood meeting for permit applications that fall within the scope and notification distance requirements of existing permits by the same blasting contractor.

2. *Blasting notification mailing.* A blasting notification mailing shall be sent to all property owners, and homeowner associations, with a copy provided to the City of Henderson departments of building and fire safety, and neighborhood services, within the scaled notification distance from the perimeter of the assessor's parcel numbers or applicant's designated blast site(s) upon which the blasting permit is requested no less than seven days and no greater than 21 days prior to the start of blasting operations. When fewer than five different property owners are within the

notification distance, the applicant may propose a custom plan for informing these owners pursuant to this section. The fire chief and building and fire safety director may accept or modify this plan.

The notification distance for a blasting notification mailing shall be based on Figure 3. The distance from the perimeter of the assessors parcel number containing the closest blast site for notifying property owners is the point where the weight intersects the line on the chart. The weight is based on the applicant's statement stating the maximum anticipated pounds of explosives in any single delay.

FIGURE 3

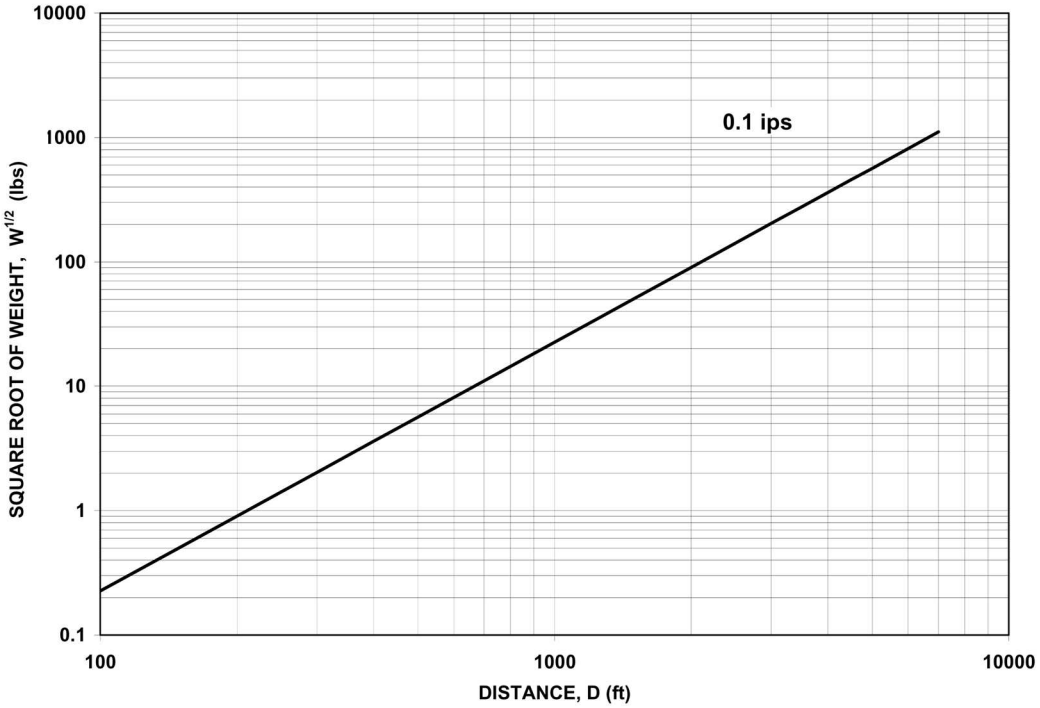

Figure 3 is based on the following equation: D (ft) = 210 * W ½ (lbs) where D is the scaled notification distance and W is the maximum charge weight per eight ms delay.

Upon request, the City of Henderson will provide a mailing list for all residences within the scaled notification distance from the perimeter of the assessor's parcels upon which the blasting permit is requested. A fee shall be charged to recover the cost of providing this service.

The applicant may request to have the city prepare and process the mailing for the neighborhood meeting and shall charge a fee to recover the cost of providing this service.

The blasting notification mailing shall have a return address identifying the applicant. The contents of the notice shall include, but are not limited to, the following:

a. Why the blasting is necessary;

b. Name of blasting company;

c. When the blasting will occur, i.e., date range and approximate times of blasting;

d. Where the blasting will be conducted. A map shall be provided;

e. How to contact the blasting company;

f. Date, time, location of the required neighborhood meeting.

When no blasting occurs for a period of 30 or more days, a new blasting notification mailing shall be sent. The notice shall include subsections (2)(a) through (2)(e) of this section.

3. *Neighborhood meeting.* The location of the neighborhood meetings are subject to the approval of the fire chief and building and fire safety director.

A neighborhood meeting will be conducted prior to the issuance of a proximate blasting permit by representatives of the blasting company, the developer, and the vibration consultants implementing the monitoring program.

Information provided to neighborhood residents will include, but is not limited to:

a. A general description of the blasting activities, including an explanation of the drilling and blasting process;

b. The anticipated duration of the blasting;

c. An anticipated schedule of blasts, including estimated dates and times of blasting;

d. The qualifications of the blasters;

e. The warning signals for blasting and the all clear signal;

f. Measures to be taken for the control of ground vibrations, air blast, fly rock, fumes and dust;

g. Contact information for submitting questions or complaints;

h. Insurance carrier contact information for submitting claims;

i. A description of the vibration monitoring process.

C. *Pre-blast and post-blast surveys.* Before proximate blasting may commence, the blasting company shall complete pre-blast surveys of all buildings 300 feet or less from the nearest blast hole. Pre-blast and post-blast surveys shall comply with the following:

1. *Pre-blast surveys.*

a. At least 21 days before initiation of blasting, the permit applicant shall notify, in writing, all property owners within 300 feet of the permit area, of their eligibility to request a pre-blast survey and the procedure for requesting a survey;

b. The pre-blast survey shall be conducted by an independent engineering consulting firm qualified to inspect buildings;

c. The inspector conducting the survey shall determine the condition of the building and shall document with scaled photographs and supplemental sketches any pre-blasting damage and other physical factors that could reasonably be affected by the blasting;

d. Documentation shall include foundation and building construction details, other improvements and landscape features;

e. Utilities such as pipelines, cables, transmission lines, and cisterns, wells, and other water systems warrant special attention; however, the assessment of these may be limited to surface conditions and other readily available data;

f. The written report of the survey shall be signed by the person who conducted the survey;

g. Copies of pre-blast inspection reports and any owner refusals shall be provided to the city, upon request.

2. *Post-blast survey.*

a. A property owner that received a pre-blast survey may request a post-blast survey;

b. The permittee is responsible for notifying the property owner of this right;

c. The property owner must request this survey in writing to the permittee and a survey must be conducted within three business days following receipt of notification from the property owner;

d. The post-blast survey, signed by the person conducting the survey, shall consist of scaled photographs of any alleged damages and a written report comparing the pre-blast photographs with the post-blast photographs;

e. Copies of inspection reports or owner refusals shall be provided to the city upon request.

D. *Special inspections.* Proximate blasting operations require special inspection. The owner of the property for which the permit is issued shall employ one or more independent special inspectors to provide inspections of all proximate blasting operations. The special inspector shall be from an agency qualified in blasting operations that has demonstrated competence to the satisfaction of the fire chief and the building and fire safety director.

The fire chief and building and fire safety director may condition, suspend, or revoke the approval of any special inspector for any of the following grounds:

1. Failure to comply with the requirement or conditions of permit issuance;

2. Incompetence;

3. Conflict of interest;

4. Willful and negligent failure to inspect;

5. Failure to maintain certifications and licenses;

6. Failure to report non-compliances;

7. Violation of approved permit documents; or

8. Failure to perform any of the duties designated for special inspectors.

Conditions, suspensions or revocations of special inspectors shall be for a period determined by the fire chief and the building and fire safety director.

The special inspector shall develop a plan and inspection schedule to verify compliance with the approved plans. This plan and schedule shall be approved by the fire chief and building and fire safety director. The special inspector shall issue a stop work order when the approved blasting permit and accompanying documentation are not available on the job site at the time of inspection. The special inspector shall immediately notify the blasting contractor and shall maintain a copy of the stop work order on the blasting site.

The special inspector shall immediately notify the contractor in writing of any blasting preparations or operations which is in non-conformance with the approved permit, blasting plan, or any provisions of this ordinance. Work shall not proceed unless the conditions noted in the non-conformance report have been corrected. The special inspector shall maintain a copy of the non-compliance report on the job site.

The special inspector shall write daily report(s) and provide, as directed by the fire chief or the building and fire safety director or by the design professional or owner, such other information as may be required within the scope of the special inspector's duties. All daily reports prepared by a special inspector pursuant to these regulations are the property of the City of Henderson and shall be made available upon request of the fire chief or the building and fire safety director. The daily reports shall address conformance with the following:

9. Site maps and drawings;

10. Blasting plan;

11. Seismograph monitoring plan;

12. Traffic and access control plan;

13. Notification plan;

14. Other criteria as specified in these regulations.

The special inspector shall immediately notify the contractor and the fire chief and building and fire safety director in writing of uncorrected non-conformance to the approved permits, blasting plan, or any provisions of these regulations within the scope of the special inspector. Notification shall be within 24 hours and may be by e-mail, fax, or telephone call.

The special inspector shall submit a final report to the fire chief and building and fire safety director stating whether all required inspections were completed, documented, and found to be in compliance with the approved permit, blasting plan, and applicable provisions of these regulations. Final reports shall include all non-compliance reports with dates of corrective action approval and completed inspection history record.

E. *Exceptions.*

1. The requirements of this section may be waived when the owner of the blast site and any building(s) within 300 feet are the same, and written permission is submitted on a form provided by the city.

2. The requirements of this section may be waived where written acknowledgement of all utility owner(s) within 300 feet has been submitted on a form provided by the city and there are no building(s) within 300 feet.

(Ord. 2416, §§ 3—4, 2005; Ord. 2388, § 3 (part), 2005)

Chapter 15.40 FIREPLACES

Sections:

15.40.010 Fireplaces in new construction and new fireplaces in existing construction.

15.40.010 Fireplaces in new construction and new fireplaces in existing construction.

Effective upon publication of the ordinance codified in this section, no fireplace shall be constructed in any residential dwelling unit in Henderson unless it is one of the following:

A. A fireplace equipped with gas logs with a nationally recognized listing approved by the building official;

B. A dedicated natural gas burning factory-built fireplace with a nationally recognized listing approved by the building official;

C. A dedicated wood-burning factory-built fireplace that conforms to the Phase II Environmental Protection Agency Standards for Wood Heaters, as presented by NSPS, 40 CFR part 60, subpart AAA (emitting less than 7.5 grams per hour of particular matter), as verified by a nationally recognized listing approved by the building official;

D. A masonry fireplace that complies with section 3102.7 of the Uniform Building Code, 1994 edition; or

E. A decorative electrical appliance with a nationally recognized listing approved by the building official.

(Ord. 1697, § 1, 1996)

Chapter 15.44 SWIMMING POOL CODE*

Sections:

15.44.010 Adoption by reference.
15.44.020 Code amended.
15.44.030 Substantial compliance standard.
15.44.040 Compliance required—Penalty for violations.
15.44.050 Effective date.

15.44.010 Adoption by reference.

The City of Henderson adopts as its swimming pool code the 2024 International Swimming Pool and Spa Code as published by the International Code Council in its entirety excepting amendments and changes as stated in this chapter. This code is available online through the International Code Council.
(Ord. No. 4091, § 1, 7-15-2025; Ord. No. 3511, § 1, 8-7-2018; Ord. No. 3045, § 1, 8-6-2013)

15.44.020 Code amended.

The City of Henderson adopts as an amendment to the 2024 International Swimming Pool and Spa Code the booklet entitled "Southern Nevada Amendments to the 2024 International Swimming Pool and Spa Code." This booklet is adopted in its entirely, excepting amendments and changes as stated in this chapter. This booklet is available on the city's website(s).

The booklet is further amended by deleting Section 305.4 and replacing it as follows:

Section 305.4 Structural Wall as a Barrier.

305.4 Structure wall as a barrier. Where a wall of a dwelling or structure serves as part of the barrier and where doors, pet doors that allow a 4-inch diameter sphere to pass through, gates or windows provide direct access to the pool or spa through that wall, one of the following shall be required:

1. Operable windows having a sill height of less than 48 inches (1219 mm) above the indoor finished floor, doors, pet doors, and gates, shall have an alarm that produces an audible warning when the window, door or their screens are opened. The alarm shall be listed and labeled as a water hazard entrance alarm in accordance with UL 2017.

***Editor's note—**Ord. No. 3045, § 1, adopted August 6, 2013, amended chapter 15.44 in its entirety to read as herein set out. Formerly, chapter 15.44, §§ 15.44.010—15.44.030 pertained to similar subject matter, and derived from Ord. No. 2889, § 1, adopted December 7, 2010.

2. In dwellings not required to be Accessible units, Type A units or Type B units, the operable parts of the alarm deactivation switches shall be located at not less than 54 inches (1372 mm) above the finished floor.

3. In dwellings that are required to be Accessible units, Type A units or Type B units, the operable parts of the alarm deactivation switches shall be located not greater than 54 inches (1372 mm) and not less than 48 inches (1219 mm) above the finished floor. Windows shall be equipped with a permanent locking device to prevent an opening such that a sphere of 4 inches (102 mm) in diameter cannot pass through.

4. In structures other than dwellings, the operable parts of the alarm deactivation switches shall be located not greater than 54 inches (1372 mm) and not less than 48 inches (1220 mm) above the finished floor. Windows shall be equipped with a permanent locking device to prevent an opening such that a sphere of 4 inches (102 mm) in diameter cannot pass through.

5. A safety cover that is listed and labeled in accordance with ASTM F1346 is installed for the pools and spas.

6. An approved means of protection, such as self-closing doors with self-latching devices, is provided. Such means of protection shall provide a degree of protection that is not less than the protection afforded by Item 1 or 2.

7. Windows serving as part of a required means of egress that are unable to be equipped with a permanent locking device shall not be included in a public pool or spa barrier.

(Ord. No. 4139, § 2, 12-16-2025; Ord. No. 4091, § 1, 7-15-2025; Ord. No. 3511, § 1, 8-7-2018; Ord. No. 3045, § 1, 8-6-2013)

15.44.030 Substantial compliance standard.

In the enforcement of the specific provisions of the adopted technical codes and standards, the building official or designee is authorized to grant minor variations from the strict application of specific code and standards provisions where, in the opinion of the building official, the work is in substantial compliance with the intent of the adopted codes and standards.

(Ord. No. 3511, § 1, 8-7-2018; Ord. No. 3045, § 1, 8-6-2013)

15.44.040 Compliance required—Penalty for violations.

Any person, firm or corporation violating any provision of this chapter is guilty of a misdemeanor and upon conviction thereof shall be punished as provided by law for a

misdemeanor offense. Each separate date or any portion thereof during which any violation of this chapter occurs or continues shall be deemed to constitute a separate offense, and upon conviction thereof shall be punishable as herein provided.
(Ord. No. 3045, § 1, 8-6-2013)

15.44.050 Effective date.

This chapter shall become effective on January 2, 2026.
(Ord. No. 4091, § 1, 7-15-2025; Ord. No. 3511, § 1, 8-7-2018; Ord. No. 3045, § 1, 8-6-2013)

Chapter 15.45 ENERGY CONSERVATION CODE*

Sections:

15.45.010 Adoption by reference.
15.45.020 Code amended.
15.45.030 Substantial compliance standard.
15.45.040 Compliance required—Penalty for violations.
15.45.050 Effective date.

15.45.010 Adoption by reference.

The City of Henderson adopts as its energy code the 2024 International Energy Conservation Code as published by the International Code Council in its entirety excepting amendments and changes as stated in this chapter. This code is available online through the International Code Council.
(Ord. No. 4092, § 2, 7-15-2025; Ord. No. 3512, § 1, 8-7-2018; Ord. No. 3047, § 1, 8-6-2013)

15.45.020 Code amended.

The City of Henderson adopts as an amendment to the 2024 International Energy Conservation Code the booklet entitled "Southern Nevada Amendments to the 2024 International Energy Conservation Code." The booklet is adopted in its entirety excepting amendments and changes as stated in this chapter. This booklet is available on the city's website(s).
(Ord. No. 4092, § 2, 7-15-2025; Ord. No. 3512, § 1, 8-7-2018; Ord. No. 3047, § 1, 8-6-2013)

15.45.030 Substantial compliance standard.

In the enforcement of specific provisions of the adopted technical codes and standards, the building official or designee is authorized to grant minor variations from the strict application of specific code and standards provisions where, in the opinion of the building official, the work is in substantial compliance with the intent of the adopted codes and standards.
(Ord. No. 3512, § 1, 8-7-2018; Ord. No. 3047, § 1, 8-6-2013)

***Editor's note—**Ord. No. 3047, § 1, adopted August 6, 2013, amended chapter 15.45 in its entirety to read as herein set out. Formerly, chapter 15.45, §§ 15.45.010—15.45.090 pertained to similar subject matter, and derived from Ord. No. 2322, § 1, adopted 2005; Ord. No. 2540, § 1, adopted in 2006; Ord. No. 2838, § 1, adopted December 1, 2009, and Ord. No. 2890, § 1, adopted December 7, 2010.

Subsequently, Ord. No. 4092, § 1, adopted July 15, 2025, changed the title of chapter 15.45 from "International Energy Conservation Code" to "Energy Conservation Code."

15.45.040 Compliance required—Penalty for violations.

Any person, firm or corporation violating any provision of this chapter is guilty of a misdemeanor and upon conviction thereof shall be punished as provided by law for a misdemeanor offense. Each separate date or any portion thereof during which any violation of this chapter occurs or continues shall be deemed to constitute a separate offense, and upon conviction thereof shall be punishable as herein provided.
(Ord. No. 3047, § 1, 8-6-2013)

15.45.050 Effective date.

This chapter shall become effective on January 2, 2026.
(Ord. No. 4092, § 2, 7-15-2025; Ord. No. 3512, § 1, 8-7-2018; Ord. No. 3047, § 1, 8-6-2013)

Chapter 15.50 FLOOD CONTROL AND CONTROL OF DRAINAGE

Sections:

15.50.010 Uniform regulations.
15.50.020 Federal Emergency Management Flood Plain Maps.

15.50.010 Uniform regulations.

The City of Henderson hereby adopts the Clark County Regional Flood Control District "Uniform Regulations for the Control of Drainage" as revised September 8, 2022.
(Ord. No. 3927, § 1, 12-6-2022; Ord. No. 3016, § 1, 6-11-2013; Ord. 2724, § 1, 2008; Ord. 2141, § 1, 2002; Ord. 1337, § 1, 1992; Ord. 1233, 1991; Ord. 1100, § 1, 1988; Ord. 1064, § 3, 1987; Ord. 1050, § 4, 1987)

15.50.020 Federal Emergency Management Flood Plain Maps.

The Federal Emergency Management Flood Plain Maps for Clark County and the municipalities therein are incorporated into this ordinance by reference and are on file in the office of the Henderson city clerk.
(Ord. 1050, § 5, 1987)

Chapter 15.52 UNIFORM STANDARD SPECIFICATIONS FOR PUBLIC WORKS CONSTRUCTION

Sections:

15.52.010 Adoption.
15.52.020 Violation—Penalty.

15.52.010 Adoption.

The Uniform Standard Specifications for Public Works Construction—Off-Site Improvements, Clark County Area, Nevada, a copy of which is on file in the office of the Henderson city clerk, is adopted as the uniform principles and standards to be observed in the construction of off-site improvements in the City of Henderson, Nevada, as revised.
(Ord. No. 3152, § 1, 4-15-2014; Ord. 549, § 1, 1976)

15.52.020 Violation—Penalty.

Any person violating any of the terms and provisions of this chapter shall be deemed guilty of a misdemeanor and upon conviction thereof shall be punished by a fine of not to exceed $500.00 or by imprisonment in the city jail for a term not to exceed six months or by both such fine and imprisonment.
(Ord. 549, § 2, 1976)

Chapter 15.56 NOISE LEVEL REDUCTION STANDARDS

Sections:

15.56.010 Statement of purpose.
15.56.020 Certification of plans.
15.56.030 25 decibel noise level reduction standard.
15.56.040 30 decibel noise level reduction standard.
15.56.050 35 decibel noise level reduction standard.
15.56.060 Reserved.

15.56.010 Statement of purpose.

Henderson Municipal Code (HMC) title 19 specifies that certain areas of the city impacted by aircraft overflight shall be controlled with regard to use and construction by an AE Airport Environs Overlay District. The AE Airport Environs Overlay District requires interior noise level reductions as specified in Table 19.4.3-1. The noise level reduction standards stated in HMC [sections] 15.56.030 through 15.56.050 shall be used to meet those requirements in Table 19.4.3-1.
(Ord. No. 3150, § 1, 4-15-2014; Ord. 1409, § 1 (part), 1993)

15.56.020 Certification of plans.

The building official shall not issue a building permit for any building or structure within the noise subzones of the AE Airport Environs Overlay District unless the plans and specifications accompanying the application for said permit are certified to comply with the minimum exterior to interior noise level reduction requirements of Table 19.4.3-1. Such compliance shall be achieved as follows:

A. Through adherence to the requirements of HMC sections 15.56.030 through 15.56.050; or

B. In cases where materials included in a design do not have listed ratings acceptable to the building official, where strict adherence to the standards in HMC sections 15.56.30 through 15.56.50 would result in a violation of the Henderson Building Code, or where an applicant wishes to employ sound attenuation methods other than those listed in HMC sections 15.56.030 through 15.56.050, the plans submitted with the building permit application shall be certified by a qualified acoustical consultant approved by the building official, such approval being based on the adequate demonstration of competence and credentials in the area of architectural acoustics.

(Ord. No. 3150, § 1, 4-15-2014; Ord. 1409, § 1 (part), 1993)

15.56.030 25 decibel noise level reduction standard.

Compliance with the following standards shall be deemed to meet requirements for a minimum noise level reduction (NLR) of 25 decibels.

A. *General.*

1. Brick veneer, masonry blocks, or stucco exterior walls shall be constructed airtight. All joints shall be grouted or caulked airtight.

2. At the penetration of exterior walls by pipes, ducts or conduits, the air space between the wall and pipes, ducts or conduits shall be caulked or filled with mortar.

3. Window and/or through-the-wall ventilation units shall not be used.

4. Through-the-wall/door mailboxes shall not be used.

B. *Exterior walls.*

1. Exterior walls, other than described in this section, shall have a laboratory sound transmission class rating of at least STC-30.

2. Masonry walls having a surface weight of at least 25 pounds per square foot do not require a furred (stud) interior wall. At least one surface of concrete block walls shall be plastered.

3. Stud walls shall be at least four inches in nominal depth and shall be finished on the outside with siding-on-sheathing, stucco or brick veneer.

a. Interior surface of the exterior walls shall be of gypsum board or plaster at least one-half inch thick, installed on the studs.

b. Continuous composition board, plywood or gypsum board sheathing at least one-half inch thick shall cover the exterior side of the wall studs behind wood or metal siding. Asphaltic or wood shake shingles or plaster (stucco) are acceptable in lieu of siding.

c. Sheathing panels shall be covered on the exterior with overlapping building paper.

d. Insulation material at least R-11 shall be installed continuously throughout the cavity space behind the exterior sheathing and between wall studs. Insulation shall be glass fiber or mineral wool.

C. *Windows.*

1. Windows other than as described in this section shall have a laboratory sound transmission class rating of at least STC-28.

2. Glass shall be at least $^{3}/_{16}$ inch thick.

3. All operable windows shall be weather-stripped and airtight when closed so as to conform to an air infiltration test not to exceed 0.5 cubic foot per minute per foot of crack length in accordance with ASTM E-283-65-T.

4. Glass of fixed-sash shall be sealed in an airtight manner with a nonhardening sealant or a soft elastomer gasket or gasket tape.

5. The perimeter of window frames shall be sealed airtight to the exterior wall construction with a sealant conforming to one of the following federal specifications: TT-S-00227, TT-S-00230 or TT-S-00153.

6. Total area of glass shall not exceed 20 percent of exterior wall area.

D. *Doors.*

1. Doors other than as described in this section shall have a laboratory sound transmission class rating of at least STC-26.

2. All exterior side-hinged doors shall be solid-core wood or insulated hollow metal at least 1 3/4 inches thick and shall be fully weather-stripped.

3. Exterior sliding doors shall be weather-stripped with an efficient airtight gasket system with performance as specified in subsection C3. The glass in the sliding doors shall be at least 3/16 inch thick.

4. Glass in doors shall be sealed in an airtight nonhardening sealant or in a soft elastomer gasket or glazing tape.

5. The perimeter of door frames shall be sealed airtight to the exterior wall construction as described in subsection C5.

E. *Roofs.*

1. Combined roof and ceiling construction other than described in this section and subsection F shall have a laboratory sound transmission class rating of at least STC-39. This requires an acoustical analysis or test acceptable to the building official.

2. With an attic or rafter space at least six inches deep, and with a ceiling below, the roof shall consist of one-half inch composition board, plywood or gypsum board sheathing topped by roofing as required.

3. Open beam roof construction shall follow the energy insulation standards method for batt insulation.

4. Skylights shall conform to a STC rating of 28.

F. *Ceilings.*

1. Gypsum board or plaster ceilings at least one-half inch thick shall be provided where required by subsection E2 above. Ceilings shall be substantially airtight with a minimum number of penetrations.

2. Glass fiber or mineral wool insulation at least R-19 shall be provided above the ceiling between joists.

G. *Floors.*

1. Openings to any crawl spaces below the floor of the lowest occupied room shall not exceed two percent of the floor area of the occupied rooms.

2. Sleeping area floors shall be carpeted.

H. *Ventilation.*

1. A mechanical ventilation system shall be installed that will provide the minimum air circulation and fresh air supply requirements for various uses in occupied rooms without the need to open any windows, doors, or other openings to the exterior. The attic inlet and discharge openings shall be fitted with sheet metal transfer ducts of at least 20 gauge steel, which shall be lined with one-inch thick coated glass fiber, and shall be at least five feet long with one 90-degree bend.

2. Gravity vent openings in attics shall be sized in accordance with the building code.

3. All vent ducts connecting the interior space to the outdoors, excepting kitchen and sewer gas ducts (including domestic range exhaust ducts), shall contain at least one five-foot length of internal sound-absorbing duct lining. Each duct shall be provided with a bend in the duct such that there is no direct line-of-sight through the duct from the venting cross-section to the room-opening cross-section. Duct lining shall be coated fiber duct liner at least one inch thick.

4. Fireplaces shall be fitted with well-fitted dampers.

(Ord. No. 3150, § 1, 4-15-2014; Ord. 1409, § 1 (part), 1993)

15.56.040 30 decibel noise level reduction standard.

Compliance with the following standards shall be deemed to meet requirements for a minimum noise level reduction (NLR) of 30 decibels.

A. *General.*

1. Brick veneer, masonry blocks, or stucco exterior walls shall be constructed airtight. All joints shall be grouted or caulked airtight.

2. At the penetration of exterior walls by pipes, ducts or conduits, the air space between the wall and pipes, ducts or conduits shall be caulked or filled with mortar.

3. Window and/or through-the-wall ventilation units shall not be used.

4. Operational-vented fireplaces shall not be used.

5. Through-the-wall/door mailboxes shall not be used.

B. *Exterior walls.*

1. Exterior walls, other than described in this section, shall have a laboratory sound transmission class rating of at least STC-35.

2. Masonry walls having a surface weight of at least 40 pounds per square foot do not require a furred (stud) interior wall. At least one surface of concrete block walls shall be plastered.

3. Stud walls shall be at least four inches in nominal depth and shall be finished on the outside with siding-on-sheathing, stucco or brick veneer.

a. Interior surface of the exterior walls shall be of gypsum board or plaster at least one-half inch thick, installed on the studs. The gypsum board or plaster may be fastened rigidly to the studs if the exterior is brick veneer or stucco. If the exterior is siding-on-sheathing, the interior gypsum board or plaster must be fastened resiliently to the studs.

b. Continuous composition board, plywood or gypsum board sheathing at least three-fourths inch thick shall cover the exterior side of the wall studs behind wood or metal siding.

c. Sheathing panels shall be covered on the exterior with overlapping building paper.

d. Insulation material at least R-11 shall be installed continuously throughout the cavity space behind the exterior sheathing and between wall studs. Insulation shall be glass fiber or mineral wool.

C. *Windows.*

1. Windows other than as described in this section shall have a laboratory sound transmission class rating of at least STC-33.

2. Glass of double glazed windows shall be at least one-eighth inch thick. Panes of glass shall be separated by a minimum of one-half inch airspace.

3. Double-glazed windows shall employ fixed sash or efficiently weather-stripped, operable sash. The sash shall be rigid and weather-stripped with material that is compressed airtight when the window is closed so as to conform to an infiltration test not to exceed 0.5 cubic foot per minute per foot of crack length in accordance with ASTM E-283-65-T.

4. Glass of fixed-sash windows shall be sealed in an airtight manner with a nonhardening sealant or a soft elastomer gasket or gasket tape.

5. The perimeter of window frames shall be sealed airtight to the exterior wall construction with a sealant conforming to one of the following federal specifications: TT-S-00227, TT-S-00230 or TT-S-00153.

6. Total area of glass shall not exceed 20 percent of exterior wall area.

D. *Doors.*

1. Doors other than as described in this section shall have a laboratory sound transmission class rating of at least STC-33.

2. Double-door construction is required for all door openings to the exterior. Openings fitted with side-hinged doors shall have one solid-core wood or insulated hollow metal at least 1 3/4 inches thick separated by an airspace of at least three inches from another door, which can be a storm door. Both doors shall be tightly fitted and weather-stripped.

3. The glass in the sliding doors shall be separated by a minimum one-half inch airspace. Each sliding frame shall be provided with an efficient airtight weather-stripping material as specified in subsection C3.

4. Glass of all doors shall be at least 3/16 inch thick. Glass in double sliding doors shall not be equal in thickness.

5. The perimeter of door frames shall be sealed airtight to the exterior wall construction as described in subsection C5.

6. Glass of doors shall be set and sealed in an airtight nonhardening sealant or a soft elastomer gasket or glazing tape.

E. *Roofs.*

1. Combined roof and ceiling construction other than described in this section and subsection F shall have a laboratory sound transmission class rating of at least STC-44. This requires an acoustical analysis or test acceptable to the building official.

2. With an attic or rafter space at least six inches deep, and with a ceiling below, the roof shall consist of three-fourths inch composition board, plywood or gypsum board sheathing topped by roofing as required.

3. Open beam roof construction shall follow the energy insulation standards method for batt insulation, except use one inch plywood decking with shakes or other suitable roofing material instead of one-half inch plywood.

4. Window or dome skylights shall have a laboratory sound class rating of at least STC-33.

F. *Ceilings.*

1. Gypsum board or plaster ceilings at least five-eighths inch thick shall be provided where required by subsection E2 above. Ceilings shall be substantially airtight with a minimum number of penetrations.

2. Glass fiber or mineral wool insulation at least R-19 shall be provided above the ceiling between joists.

G. *Floors.*

1. The floor of the lowest occupied rooms shall be slab on fill, below grade, or over a fully enclosed basement or crawl space. All door and window openings in the fully enclosed basement shall be tightly fitted.

2. Sleeping area floors shall be carpeted.

H. *Ventilation.*

1. A mechanical ventilation system shall be installed that will provide the minimum air circulation and fresh air supply requirements for various uses in occupied rooms without the need to open any windows, doors, or other openings to the exterior. The attic inlet and discharge openings shall be fitted with sheet metal transfer ducts of at least 20 gauge steel, which shall be lined with one-inch thick coated glass fiber, and shall be at least five feet long with one 90-degree bend.

2. Domestic range exhaust ducts connecting the interior space to the outdoors shall contain a self-closing baffle plate which allows proper ventilation. The duct shall be provided with a 90-degree bend or other mitigating measures approved by the building official.

3. All vent ducts connecting the interior space to the outdoors, excepting kitchen and sewer gas ducts (including domestic range exhaust ducts), shall contain at least one five-foot length of internal sound-absorbing duct lining. Each duct shall be provided with a bend in the duct such that there is no direct line-of-sight through the duct from the venting cross-section to the room-opening cross-section. Duct lining shall be coated fiber duct liner at least one inch thick.

4. Gravity vent openings in attics shall not exceed code minimum in number and size. The openings shall be fitted with transfer ducts at least three feet in length containing internal one-inch thick coated fiberglass sound-absorbing duct lining. Each duct shall have a lined 90-degree bend in the duct such that there is no direct line-of-site from the exterior through the duct into the attic.

(Ord. No. 3150, § 1, 4-15-2014; Ord. 1409, § 1 (part), 1993)

15.56.050 35 decibel noise level reduction standard.

Compliance with the following standards shall be deemed to meet requirements for a minimum noise level reduction (NLR) of 35 decibels.

A. *General.*

1. Brick veneer, masonry blocks, or stucco exterior walls shall be constructed airtight. All joints shall be grouted or caulked airtight.

2. At the penetration of exterior walls by pipes, ducts or conduits, the air space between the wall and pipes, ducts or conduits shall be caulked or filled with mortar.

3. Window and/or through-the-wall ventilation units shall not be used.

4. Operational-vented fireplaces shall not be used.

5. All sleeping spaces shall be provided with a carpeted floor.

6. Through-the-wall/door mailboxes shall not be used.

7. No glass or plastic skylight shall be used.

B. *Exterior walls.*

1. Exterior walls, other than described in this section, shall have a laboratory sound transmission class rating of at least STC-40.

2. Masonry walls having a surface weight of at least 75 pounds per square foot do not require a furred (stud) interior wall. At least one surface of concrete block walls shall be plastered.

3. Stud walls shall be at least four inches in nominal depth and shall be finished on the outside with siding-on-sheathing, stucco or brick veneer.

a. Interior surface of the exterior walls shall be of gypsum board or plaster at least five-eighths inch thick, installed on the studs. The gypsum board or plaster may be fastened rigidly to the studs if the exterior is brick veneer. If the exterior is stucco or siding-on-sheathing, the interior gypsum board or plaster must be fastened resiliently to the studs.

b. Continuous composition board, plywood, plaster (stucco) or gypsum board sheathing at least one inch thick shall cover the exterior side of the wall studs behind wood or metal siding.

c. Sheathing panels shall be butted tightly and covered on the exterior with overlapping building paper.

d. Insulation material at least R-19 shall be installed continuously throughout the cavity space behind the exterior sheathing and between wall studs. Insulation shall be glass fiber or mineral wool.

C. *Windows.*

1. Windows other than as described in this section shall have a laboratory sound transmission class rating of at least STC-38.

2. Glass of double glazed windows shall be at least 3/16 inch thick. Panes of glass shall be separated by a minimum of one-half inch airspace and shall not be equal in thickness.

3. Double-glazed windows shall employ fixed sash or efficiently weather-stripped, operable sash. The sash shall be rigid and weather-stripped with material that is compressed airtight when the window is closed so as to conform to an infiltration test not to exceed 0.5 cubic foot per minute per foot of crack length in accordance with ASTM E-283-65-T.

4. Glass of windows shall be sealed in an airtight manner with a nonhardening sealant or a soft elastomer gasket or gasket tape.

5. The perimeter of window frames shall be sealed airtight to the exterior wall construction with a sealant conforming to one of the following federal specifications: TT-S-00227, TT-S-00230, or TT-S-00153.

6. Total area of glass shall not exceed 20 percent of exterior wall area.

D. *Doors.*

1. Doors other than as described in this section shall have a laboratory sound transmission class rating of at least STC-38.

2. Double-door construction is required for all door openings to the exterior. The doors shall be side-hinged and shall be solid-core wood or insulated hollow metal, at least 1 3/4 inches thick, separated by a vestibule or enclosed porch at least three feet in length. Both doors shall be tightly fitted and weather-stripped.

3. The perimeter of door frames shall be sealed airtight to the exterior wall construction as specified in subsection C4.

4. Glass of all doors shall be at least 3/16 inch thick. Glass in double sliding doors shall not be equal in thickness.

5. Glass of doors shall be set and sealed in an airtight nonhardening sealant or a soft elastomer gasket or glazing tape.

E. *Roofs.*

1. Combined roof and ceiling construction other than described in this section and subsection F shall have a laboratory sound transmission class rating of at least STC-49.

2. With an attic or rafter space at least six inches deep, and with a ceiling below, the roof shall consist of one inch composition board, plywood or gypsum board sheathing topped by roofing as required.

3. Open beam roof construction shall follow the energy insulation standards method for batt insulation, except use clay or concrete tiles in place of shakes.

F. *Ceilings.*

1. Gypsum board or plaster ceilings at least five-eighths inch thick shall be provided where required by subsection E. Ceilings shall be substantially airtight with a minimum number of penetrations. The ceiling panels shall be mounted on resilient clips or channels.

2. Glass fiber or mineral wool insulation at least R-30 shall be provided above the ceiling between joists.

G. *Floors.*

1. The floor of the lowest occupied rooms shall be slab on fill or below grade.

2. Sleeping area floors shall be carpeted.

H. *Ventilation.*

1. A mechanical ventilation system shall be installed that will provide the minimum air circulation and fresh air supply requirements for various uses in occupied rooms without the need to open any windows, doors, or other openings to the exterior. The attic inlet and discharge openings shall be fitted with sheet metal transfer ducts of at least 20 gauge steel, which shall be lined with one-inch thick coated glass fiber, and shall be at least five feet long with one 90-degree bend.

2. Domestic range exhaust ducts connecting the interior space to the outdoors shall contain a self-closing baffle plate which allows proper ventilation. The duct shall be provided with a 90-degree bend or other mitigating measures approved by the building official.

3. All vent ducts connecting the interior space to the outdoors, excepting kitchen and sewer gas ducts (including domestic range exhaust ducts), shall contain at least one five-foot length of internal sound-absorbing duct lining. Each duct shall be provided with a bend in the duct such that there is no direct line-of-sight through the duct from the venting cross-section to the room-opening cross-section. Duct lining shall be coated fiber duct liner at least one inch thick.

4. Gravity vent openings in attics shall not exceed code minimum in number and size. The openings shall be fitted with transfer ducts at least three feet in length

containing internal one-inch thick coated fiberglass sound-absorbing duct lining. Each duct shall have a lined 90-degree bend in the duct such that there is no direct line-of-site from the exterior through the duct into the attic.

(Ord. No. 3150, § 1, 4-15-2014; Ord. 1409, § 1 (part), 1993)

15.56.060 Reserved.

Editor's note—Ord. No. 3150, § 1, adopted April 15, 2014, repealed the former section 15.56.060 in its entirety, which pertained to penalty for violation, and derived from Ord. No. 1409, § 1, adopted in 1993.

Chapter 15.60 TEMPORARY DWELLING UNITS

Sections:

15.60.010 Manufactured home defined.
15.60.020 Mobile home defined.
15.60.030 Travel trailer defined.
15.60.040 Temporary dwelling unit.
15.60.050 Temporary construction trailer.
15.60.060 Temporary security trailer.
15.60.070 Required inspection and permit.
15.60.080 Penalty.

15.60.010 Manufactured home defined.

1. Manufactured home means a structure which is:

(a) Built on a permanent chassis;

(b) Designed to be used with or without a permanent foundation as a dwelling when connected to utilities;

(c) Transportable in one or more sections; and

(d) Eight feet or more in body width or 40 feet or more in body length when transported, or, when erected on site, contains 320 square feet or more.

2. The term includes:

(a) The plumbing, heating, air-conditioning and electrical systems of the structure;

(b) Any structure:

(1) Which meets the requirements of paragraphs (a) to (c), inclusive, of subsection 1; and

(2) With respect to which the manufacturer voluntarily files a certification required by the Secretary of Housing and Urban Development and complies with the standards established under the National Manufactured Housing Construction and Safety Standards Act of 1974 (42 USC §§ 5401 et seq.).

(Ord. 978, § 1, 1985)

15.60.020 Mobile home defined.

1. Mobile home means a structure which is:

(a) Built on a permanent chassis;

(b) Designed to be used with or without a permanent foundation as a dwelling when connected to utilities; and

(c) Transportable in one or more sections.

2. The term includes:

The design of the body and frame and the plumbing, heating, air-conditioning and electrical systems of the mobile home. Mobile homes does not include a travel trailer, commercial coach, manufactured home or any structure built in compliance with the requirements of chapter 461 of NRS.
(Ord. 978, § 1, 1985)

15.60.030 Travel trailer defined.

1. Travel trailer means a portable structure mounted on wheels, consisting of a vehicular chassis primarily designed as temporary living quarters for recreational, camping or travel use and designed to be drawn by another vehicle, and designated by the manufacturer as a travel trailer.

2. A vehicle is not a travel trailer, if, when equipped for highway use, it is more than eight feet wide.
(Ord. 978, § 1, 1985)

15.60.040 Temporary dwelling unit.

The owner of any lot or tract of land may place thereon, and live therein, a manufactured or mobile home or travel trailer provided sanitary, power and utilities are approved by the director of building and safety, and further that:

A. The owner is constructing a single-family residence home on the lot or tract of land and has obtained all necessary permits and paid all mandatory fees; and

B. The use of the temporary dwelling unit shall not exceed the period of 18 months from the date of permit issuance; and

C. The owner has placed a $500.00 bond in cash or surety with the chief financial officer of the finance department for purposes of ensuring the removal of the temporary dwelling unit at the end of the 18-month time period; and

D. The owner shall submit to the director of building and fire safety, a construction schedule for the new house and accessory buildings which include a statement of intent to construct according to the submitted schedule.

The owner of any lot or tract of land on which a temporary dwelling unit has been placed may request a single six-month extension of time from the director of building and fire safety by a showing of extreme hardship.
(Ord. No. 3149, § 1, 4-15-2014; Ord. 1352, § 3, 1992; Ord. 978, § 1, 1985)

15.60.050 Temporary construction trailer.

The owner of a construction project, other than a single-family residence home covered under provisions of section 15.60.040, which would require security protection during hours of closure, may place thereon, a travel trailer for security protection for the period of construction.

The travel trailer shall be parked on the construction site and shall be removed ten days after final inspection of the permanent structure.

The sanitary plumbing requirements can be waived by the director of building and fire safety provided adequate sanitary plumbing is available elsewhere on the site.
(Ord. No. 3149, § 1, 4-15-2014; Ord. 1352, § 4, 1992; Ord. 978, § 1, 1985)

15.60.060 Temporary security trailer.

The owner of a permitted business who requires security protection during hours of closure may maintain a trailer for that purpose until a permanent facility can be constructed. In no case shall the use of such security trailer be for longer than a six-month period.
(Ord. 978, § 1, 1985)

15.60.070 Required inspection and permit.

All temporary dwelling units described in this chapter shall require a permit issued by the department of building and fire safety and shall comply with all inspections of the department.
(Ord. No. 3149, § 1, 4-15-2014; Ord. 1352, § 5, 1992; Ord. 978, § 1, 1985)

15.60.080 Penalty.

Any person violating any of the terms and/or provisions of this chapter shall be deemed guilty of a misdemeanor each and every day of such offense and upon conviction thereof shall be punished as the law allows for a misdemeanor crime.
(Ord. 986, § 1, 1985)

Chapter 15.70 UNIFORM DESIGN AND CONSTRUCTION STANDARDS (UDACS) FOR WATER DISTRIBUTION SYSTEMS

Sections:

15.70.010 UDACS adopted by reference.

15.70.010 UDACS adopted by reference.

The city adopts as its standards for the design and construction of water distribution systems the Uniform Design and Construction Standards for Potable Water Distribution Systems, 4th Edition, 2025, which standards, as amended, are referred to in the code as "UDACS" or "Uniform Design and Construction Standards for Potable Water Systems" or "Uniform Design and Construction Standards (UDACS) for Water Distribution Systems" or "Uniform Design and Construction Standards for Potable Water Systems (UDACS)" or "Uniform Design and Construction Standards" or "Uniform Design and Construction Standards (UDACS)" or "Uniform Design and Construction Standards for Water Distribution Systems, Clark County." The UDACS is available online and one copy is on file in the office of the city clerk. The city may periodically amend the UDACS through an addendum approved in writing by the city's director of utility services. Each addendum in effect shall be available online and a copy shall be on file in the office of the city clerk.
(Ord. No. 4058, § 1, 2-4-2025; Ord. No. 3159, § 1, 5-6-2014; Ord. 2843, § 1, 1-19-2010)

Chapter 15.75 DESIGN AND CONSTRUCTION STANDARDS FOR WASTEWATER COLLECTION SYSTEMS

Sections:

15.75.010 Adopted.

15.75.010 Adopted.

The city adopts and conforms to the Design and Construction Standards for Wastewater Collection Systems, Southern Nevada, 2019, Fourth Edition, as amended, (referred to in the code as "DCSWCS" or "Design and Construction Standards for Waste Water Collection Systems" or "Design and Construction Standards for Wastewater Collection Systems, Clark County" or "Design and Construction Standards for Wastewater Collection Systems"), copies of which are on file in the office of the Henderson city clerk. Any amendment shall be effective on the date the director of utility services approves the amendment in writing.

(Ord. No. 3571, § 1, 5-7-2019; Ord. No. 3143, § 1, 4-1-2014;Ord. 2843, § 2, 1-19-2010)

Chapter 15.80 BABY CHANGING TABLES IN BUILDINGS ACCESSIBLE TO THE PUBLIC

Sections:

15.80.010 Baby changing tables in buildings accessible to the public.

15.80.010 Baby changing tables in buildings accessible to the public.

All permanent buildings or facilities that are constructed on or after October 1, 2017, that are used by the public and contain a public restroom must contain at least one baby changing table. If a baby changing table in such a building or facility is not accessible to both men and women, the building or facility must be equipped with at least one baby changing table accessible to men and one baby changing table accessible to women. This provision does not apply to any building or facility that does not have a public restroom or has been issued a permit or license that restricts the admission of children to the building or facility on the basis of age. For the purposes of this provision: 1) baby changing table means a safe and sanitary baby diaper-changing station, deck table or other similar amenity whose installation complies with all local, state and federal laws regarding access to persons with disabilities; and 2) permanent building means any building or facility not classified as a temporary building or structure pursuant to HMC 15.01.050.
(Ord. No. 3428, § 1, 8-15-2017)

***Editor's note—**Prior to the reenactment of title 17 by Ord. No. 3581, § 1, adopted June 4, 2019, Ord. No. 3019, § 1, adopted June 11, 2013, repealed the former title 17, chapters 17.01—17.08 in its entirety, which pertained to travel trailer park, and derived from Ord. No. 420, adopted in 1971; Ord. No. 826, § 1, adopted in 1982; Ord. No. 840, § 4, adopted May 3, 1982; Ord. No. 1989, § 2, adopted in 2000, and Ord. No. 2016, §§ 1, 3—8, adopted in 2000.

Subsequently, Ord. No. 3928, § 1, adopted December 6, 2022, changed the title of title 17 from "Right-of-way management—Telecommunications facilities" to "Right-of-way management—Communications facilities."

Chapter 17.01 DEFINITIONS

Sections:

17.01.010 Definitions.

17.01.010 Definitions.

For the purpose of administering this title, the words and terms set forth in this title shall be defined as follows:

Applicant means the person who submits a completed application and required supporting materials as set forth in this title for a license authorization to install and operate communications facilities. For convenience, the term "applicant" will also refer to a person submitting a request for a use agreement.

Application means all written documentation, including written statements, representations and warranties, provided to the city, in accordance with this title, by a prospective licensee, which may be relied upon by the city in making its determination of whether to grant or deny a license authorization to install and operate communications facilities.

Authorization fee means a licensed location authorization fee or a licensed wireline authorization fee.

Business license means the written authorization required by the city for any person who commences, carries on, engages in, or conducts a business, occupation, trade, or employment, as delineated in title 4 of the Code, within the city.

City manager means the city manager of the city and the city manager's designee(s).

Commercial mobile radio services or *CMRS* has the meaning given to the term "commercial mobile radio service" as defined in 47 CFR § 20.3.

Commercial mobile service has the meaning given to the term "commercial mobile service" as defined in 47 U.S.C § 332(d).

Communications facilities or *facilities* means wireless communications facilities and wireline communications facilities.

Communications service or *services* means information service and telecommunications service.

Construction completion or *installation completion* means that time and date when all facilities have been installed and all public right-of-way and properties have been restored to their former appearance and condition in a manner acceptable to the city.

Decorative streetlight pole means any streetlight pole that: (a) is made from a material other than metal; or (b) incorporates artistic design elements not typically found in standard metal streetlight poles. The term "decorative streetlight pole" includes any historically or architecturally significant or designated streetlight poles.

Director means the city departmental director of the department specifically named, or his/her designee.

Encumbrances means any public easement for streets and any and all other deeds, easements, dedications, conditions, covenants, restrictions, encumbrances and claims of title.

The Federal Communications Commission or *FCC* means the independent agency of the United States government created by federal statute to regulate interstate communications by radio, television, wire, satellite, and cable, and its predecessors and successors.

Information service has the meaning in 47 U.S.C § 153(24).

Laws mean any and all federal, state and local statutes, constitutions, ordinances, charters, resolutions, regulations, judicial decisions, rules, tariffs, administrative orders, certificates, or orders of the city or other governmental agency having joint or several jurisdiction over the parties to a master use agreement, or license authorization, including the Code of Federal Regulations (CFR), the Code, Nevada Revised Statutes (NRS) and United States Code (U.S.C.), as such laws may be amended from time to time.

License authorization means a licensed location authorization or a licensed wireline authorization.

Licensed location means a location in the right-of-way or on municipal facilities in which licensee is authorized pursuant to a fully executed use agreement and license authorization to place its communications facilities.

Licensed location authorization or *LLA* means an authorization granted by the city with respect to a licensee's construction, installation, and operation of wireless communications facilities for each specific site in the city's right-of-way or on municipal facilities. All of the terms and conditions of this title and the corresponding use agreement for a licensee shall be incorporated by reference into each LLA.

Licensed wireline authorization or *LWA* means an authorization granted by the city with respect to a licensee's construction, installation, and operation of wireline communications facilities for each specific location in the city's right-of-way or on municipal facilities. All of the terms and conditions of this title and the corresponding use agreement for a licensee shall be incorporated by reference into each LWA.

Licensee means a person who has entered into a fully executed use agreement with the city.

Licensee pole means pole(s) or similar vertical structure(s) approved by city to be installed and used by licensee in the right-of-way in accordance with this title and owned and installed by licensee for the primary purpose of physically supporting communications facilities. A licensee pole does not include a replacement municipal facility.

Master use agreement means an agreement between a person and the city that generally defines the terms and conditions which govern their relationship with respect to a licensee's wireless communications facilities and wireline communications facilities in the city's right-of-way or on municipal facilities.

Marker means a device that physically designates the location of a subsurface facility at intermittent locations along, within, or immediately above the subsurface facility and includes, without limitation, a device containing a passive antenna that can be identified with detection equipment and does not require an internal power source.

Municipal facilities means city-owned streetlight poles, decorative streetlight poles, lighting fixtures, or electroliers, including replacement poles installed by a licensee, owned by the city that are located within or immediately adjacent to the right-of-way and may refer to such facilities in the singular or plural, as appropriate to the context in which used. Municipal facilities do not include traffic signal poles, school zone flashers or any related appurtenances.

Network means all facilities and equipment, and all features, functions and capabilities provided by means of such facilities or equipment, used in the transmission, routing, or other provision of, or in connection with, a communications service in or through the city.

Person means a natural person, any form of business or social organization and any other nongovernmental legal entity, including, but not limited to, the estate of a natural person, a corporation, partnership, association, trust, or unincorporated organization. The term "person" does not include a government, governmental agency, or political subdivision of a government.

Public Utilities Commission of Nevada or *PUCN* means the Public Utilities Commission of the State of Nevada, and its predecessors and successors.

Right-of-way or *ROW* means the surface of, and the space above and below, any and all public highways, streets, roads, alleys, and avenues, as the same now or may hereafter exist within the city, excluding (as now or hereafter established within the city) (a) state highways; (b) public streets, roads, alleys, and avenues predominantly used for public freeway or expressway purposes or a city park; (c) public streets, roads, alleys, and avenues where a licensee's use is not expressly permitted by the granting instrument; and (d) city streets, roads, alleys, and avenues that are not typically open to the general public.

Standards manual or *standards* means any requirements for the design, construction, installation, operation, maintenance, condition, modification, repair, relocation or removal

of communications facilities and supplements to the provisions of this title that are prepared and made public by the department of public works as revised from time to time at the discretion of the director of public works.

Street means the surface, the air space above the surface and the area below the surface of the full width of the right-of-way, including sidewalks.

Streetlight pole shall mean any standard-design metal pole that has a mast arm for the support of a light fixture, is owned by the city, and is used for street lighting purposes. "Standard design" is defined as a pole in conformance with streetlights approved for use in the City of Henderson as shown in the Uniform Standard Drawings, Clark County Area, latest edition, or as authorized by city in a written agreement. Streetlight pole does not include traffic signal poles, school zone flashers, or any related appurtenances, nor any pole supporting a streetlight that is made from any material other than metal or any pole located in the parking lot of any city facility, park or other non-roadway facility.

Telecommunications service has the meaning given to the term "telecommunications service" in 47 U.S.C. § 153(53).

Telecommunications use agreement means an agreement between a person and the city that generally defines the terms and conditions which govern their relationship with respect to a licensee's wireline communications facilities in the city's right-of-way or on municipal facilities.

Third-party structures means poles or other structures in the ROW lawfully owned and operated by a third party(ies) and lawfully located in the ROW.

Tracer wire means a locating wire that is installed inside or immediately adjacent to a subsurface facility and is connected to a transmitter that carries a signal that can be read by a receiver above the surface of the ground for the detection of the location of the subsurface facility.

Traffic signal pole means any standard-design pole that is owned by City and is used for traffic signal or traffic control purposes, including the controller cabinet and all appurtenances related to the operation of the traffic signal system.

Use agreement means a master use agreement, telecommunications use agreement or wireless use agreement.

Wireless communications facilities means optical repeaters, wave division multiplexers, antennas, ancillary coaxial or fiber-optic cables, regular and backup power supplies, wires, radios, modems, and comparable equipment, including any appurtenant or supporting poles, structures or devices, that may be used for transmitting, processing, and receiving

wireless voice and data by means of an antenna array through which a person provides commercial mobile service, commercial mobile radio service and/or other wireless communications service.

Wireline communications facilities means (a) fiber-optic cables, connectors, amplifiers, transmitters, wires, instruments, and associated equipment, each of which is compliant with all applicable FCC regulations and is used to transmit, route, or provide a wireline communications service; (b) markers; (c) tracer wires; and (d) conduit, handholes, manholes, pedestals, cabinets, poles and similar structures commonly associated with the construction of wireline fiber-optic communications networks.

Wireless use agreement means an agreement between a person and the city that generally defines the terms and conditions which govern their relationship with respect to a licensee's wireless communications facilities in the city's right-of-way or on municipal facilities.

(Ord. No. 3928, § 2, 12-6-2022; Ord. No. 3581, § 1, 6-4-2019)

Chapter 17.02 GENERAL PROVISIONS

Sections:

17.02.010 Purpose.
17.02.020 Business license required.
17.02.030 Use agreement required.
17.02.040 Request for a use agreement.
17.02.050 License authorization required.
17.02.060 Application for a license authorization.
17.02.070 Use agreement conditions.
17.02.080 License authorization conditions.
17.02.090 Annual inspection.
17.02.100 Unauthorized communications facilities.
17.02.110 Default and cure period.

17.02.010 Purpose.

The purpose of this title of the Code is to:

A. Establish a local policy concerning right-of-way and municipal facility management for communications facilities.

B. Permit and manage reasonable access, in a nondiscriminatory manner, to right-of-way in the City of Henderson for communications facilities.

C. Manage physical capacity of the right-of-way held in public trust by the city and municipal facilities.

D. Recover public costs of permitting private use of city right-of-way and municipal facilities.

E. Ensure all providers of communications facilities within the city comply with all ordinances, standards, rules and regulations of the city.

(Ord. No. 3581, § 1, 6-4-2019)

17.02.020 Business license required.

No use agreement will be approved until an applicant obtains a business license issued by the city. The business license fee, if any, shall be due and payable in accordance with applicable provisions of title 4 of the Code.

(Ord. No. 3581, § 1, 6-4-2019)

17.02.030 Use agreement required.

No person shall be issued a license authorization to construct, install, operate, or maintain communications facilities in, over, or under any right-of-way or on a municipal facility without entering into a use agreement with the city.
(Ord. No. 3581, § 1, 6-4-2019)

17.02.040 Request for a use agreement.

The following procedures will apply to all requests for new use agreement or renewals thereof:

A. An applicant shall make a written request to the city manager for a use agreement on a form, which may be updated from time to time, that is available at the city department of public works.

B. An applicant shall pay to the city the applicable use agreement fee listed in chapter 17.03. Failure to pay the fee will cause the request to be deemed incomplete.

C. In addition to other information required by the request for a use agreement, an applicant will provide:

1. A copy of all certificates or letters of registration issued by the PUCN pertaining to applicant's activity in the right-of-way.

2. A copy of all city business licenses pertaining to applicant's activity in the city.

3. A statement that applicant will have sole ownership and control of the facilities and, if not, a list of persons other than applicant known at the time of the request that will own or control any portion of the facilities.

D. When a request is certified as complete by the department of public works, and a use agreement has been executed and delivered by applicant, the use agreement will be presented to the city manager for approval or denial. If the request is approved, the department of public works will issue a use agreement. If the request is denied, the department of public works will notify a licensee in writing.

E. The city council authorizes the city manager to approve and deny requests under this title and to execute use agreements, and amendments to the same to the extent required by law, on behalf of the city.
(Ord. No. 3928, § 3, 12-6-2022; Ord. No. 3581, § 1, 6-4-2019)

17.02.050 License authorization required.

No person shall construct, install, operate, or maintain communications facilities in, over, or under any right-of-way or on municipal facilities without obtaining a license authorization

executed by the city. A license authorization is required for each location of communications facilities. License authorizations authorize a licensee's installation of a communications facilities and are non-exclusive.
(Ord. No. 3581, § 1, 6-4-2019)

17.02.060 Application for a license authorization.

The following procedures will apply to all applications for new license authorization or renewals thereof:

A. *Application.* The department of public works shall prepare and make publicly available an application form requesting information necessary for the city to consider an application for installation of a communications facilities on municipal facilities or in right-of-way. The application form may be revised at the discretion of the director of public works.

B. *License authorization application fee.* Licensee shall pay to the city the license authorization application fee listed in chapter 17.03.

C. *License authorization application requirements.* In addition to other information required by the application for a use agreement, an applicant shall:

1. Have obtained or applied for a business license with the city.

2. Have obtained or applied for a use agreement with the city.

3. If the application is for wireless communications facilities, identify in decibels the minimum and maximum intensity of noise generated by the communications facilities.

4. Include the proposed design showing the proposed communications facilities or third-party pole, including the configuration of any proposed installation of communications facilities, the proposed location of the communications facilities or licensee pole, the structure licensee proposes to install the communications facilities on (specifically, a municipal facility, third-party structure, or licensee pole), and any other documents necessary for city to review the application or requested by city, such as a noise study for wireless communication facilities.

5. Clearly depict power, backhaul, and cable routes and connections, any proposed pavement trenching or cuts in all application materials and the method of detecting underground communication facilities.

6. If any licensee pole or communications facilities is or is proposed to be located in, on, above, or under real property not owned by city in fee, licensee (a) shall obtain and maintain all consents, permits, licenses, easements or grants that are necessary for the lawful exercise of the authorization(s) granted by city to

licensee per the Code and an executed use agreement; and (b) by using such real property for the installation, operation, maintenance, management, and removal of communications facilities or a licensee pole, represents to city that licensee has obtained and shall maintain all consents, permits, licenses, easements or grants that are necessary for the lawful exercise of the authorization(s) granted by city to licensee per the Code and an executed use agreement. If licensee believes such other consents, permits, licenses, easements or grants are not necessary, licensee shall represent to city in connection with licensee's application for a licensed location(s) that licensee's use of such real property not owned by city in fee for a licensee pole and/or communications facilities is allowed by, is consistent with, does not violate, and does not overburden city's easement for, prescriptive right for, or other right to use such real property.

7. Except as otherwise provided under this title or the Code, to the fullest extent permitted by law, requests for the installation of licensee poles or the installation of communications facilities on licensee poles will be granted only if the denial of such request would prohibit or have the effect of prohibiting telecommunications service. In the event that no municipal facilities or third-party structure is technically feasible for use, installation on licensee-owned suspension cable is not technically feasible for use, or city does not approve such an installation(s), licensee may request the installation of a licensee pole at its sole cost and expense by following the applicable procedures set forth under the Code, this title, the use agreement and the standards manual. If licensee proposes to install a licensee pole in the right-of-way and/or proposes to install any communications facilities in or on a licensee pole, licensee (a) shall obtain and maintain all consents, permits, licenses, easements or grants that are necessary for the lawful exercise of the authorization(s) granted by city to licensee per the Code, this title, the use agreement and the standards manual; and (b) represents to city in writing and demonstrates to city that the failure to approve the licensee pole in the right-of-way would prohibit or have the effect of prohibiting the provision of commercial mobile service, commercial mobile radio service, and/or communications service. Written approval of the director of public works is required for installation of any licensee poles.

D. *Minimize pavement cuts.* Licensee is hereby notified of city's desire to minimize any pavement cuts that, as determined by city in its sole discretion, significantly reduce the longevity of the public's investment in the roadway network. Any communications facilities, pole design, or installation configuration not contained within the use agreement must receive additional written approval by the city manager before it may be placed within the right-of-way. This process is separate and apart from any application licensee must submit to city in accordance with title 11 or 19 of the Code.

E. *City decision.* If the application is approved, the department of public works shall issue a license authorization. If the application is denied, the department of public works shall notify a licensee in writing.

F. *Execution by the city.* The city council authorizes the director of public works, and the director of community development and services, to sign and execute license authorizations on behalf of the city.

(Ord. No. 3928, § 4, 12-6-2022; Ord. No. 3581, § 1, 6-4-2019)

17.02.070 Use agreement conditions.

A use agreement shall incorporate all provisions of the Code, this title, the standards and the following conditions:

A. Any use agreement granted pursuant to this title shall be nonexclusive.

B. All provisions of the Code, this title, the standards manual, and a use agreement shall be binding upon the licensee, its successors, or permitted assignees.

C. A use agreement shall be construed in favor of the city and no privilege or exemption shall be inferred from the granting of any master use agreement unless it is specifically mentioned in this title or in the use agreement.

D. The granting of any use agreement pursuant to this title shall be a privilege and shall not impart to a licensee any right of property in any right-of-way or municipal facilities. Use agreements shall be construed to have granted the nonexclusive permission and authority to use specific right-of-way and municipal facilities as identified in a license authorization. In no event shall this title or any use agreement or any license authorization be construed to have granted permission or authority to use any facilities outside of the specified right-of-way and municipal facilities.

E. A licensee shall at all times during the term of the use agreement be subject to all lawful exercise of the police power by the city. This includes any and all ordinances, rules or regulations which the city has adopted or may adopt. Any conflict between the provisions of this title and any other present or future lawful exercise of city police powers shall be resolved in favor of the city police powers.

F. Any privilege claimed under this title or any use agreement shall be equal to the privilege claimed under any other wireline license or wireless license under this title or NRS Chapters 709 and 711 and shall be subordinate to any other prior lawful occupancy of the right-of-way and municipal facilities.

G. Any right or power in, or duty assigned to any officer or employee of the city by virtue of this title shall be subject to transfer by the city council to any other officer or employee of the city.

H. A use agreement shall be subject to all requirements of city ordinances, rules, regulations, standards and specifications heretofore or hereafter enacted or established to the maximum extent allowed by law.

I. A licensee shall not construct, install, operate, or maintain any communications facilities in, over, or under any city right-of-way or on municipal facilities without obtaining any and all required federal, state, and city licenses or permits.

J. A Licensee shall maintain records and allow for audits as provided in title 4 of the Code.

K. Licensee shall be solely responsible for obtaining all additional necessary right-of-way and easements, leases, licenses or approvals, either public or private, which may be necessary prior to the beginning of construction of a communications facility.

L. In the city's sole discretion, specific units of the city's municipal facilities and right-of-way may be determined by the city to be necessary for the city's exclusive existing or future use and will be unavailable for use by others.

M. Such other conditions as may be required by the city to the fullest extent permitted by law.

(Ord. No. 3581, § 1, 6-4-2019)

17.02.080 License authorization conditions.

Any license authorization executed pursuant to a valid use agreement shall incorporate all provisions of the Code, this title, all provisions and conditions of the use agreement and the standards, and the following conditions:

A. Any license authorization executed pursuant to a valid use agreement shall be nonexclusive.

B. All provisions of any license authorization executed pursuant to a valid use agreement shall be binding upon the licensee, its successors, or permitted assignees.

C. Any license authorization executed pursuant to a valid se agreement shall be construed in favor of the city and no privilege or exemption shall be inferred from the granting of any license authorization unless it is specifically mentioned in this title or in the license authorization.

D. The granting of any license authorization executed pursuant to a valid use agreement shall be a privilege and shall not impart to a licensee any right of property in any right-of-way or municipal facilities. License authorizations shall be construed to have granted the nonexclusive permission and authority to use specific right-of-way

and municipal facilities as identified in a license authorization. In no event shall any license authorization be construed to have granted permission or authority to use any facilities outside of the specified right-of-way and municipal facilities.

E. A licensee shall at all times during the term of any license authorization executed pursuant to a valid use agreement be subject to all lawful exercise of the police power by the city. This includes any and all ordinances, rules or regulations which the city has adopted or may adopt. Any conflict between the provisions of this title and any other present or future lawful exercise of city police powers shall be resolved in favor of the city police powers.

F. Any privilege claimed under a license authorization executed pursuant to a valid use agreement shall be equal to the privilege claimed under any other license authorization under this title or NRS Chapters 709 and 711 and shall be subordinate to any other prior lawful occupancy of the right-of-way and municipal facilities.

G. Any license authorization executed pursuant to a valid use agreement shall be subject to all requirements of city ordinances, rules, regulations, standards and specifications heretofore or hereafter enacted or established to the maximum extent allowed by law.

H. Any and all rights granted to licensee under the license authorization, a use agreement, the standards manual and the Code are exercisable at licensee's sole cost and expense.

I. Any and all rights expressly or impliedly granted to licensee under a license authorization shall be subject and subordinate to (1) the continuing right of city to use, and to allow any other person or persons to use, any and all parts of the right-of-way or municipal facilities, exclusively or concurrently with any other person or persons, and (2) the encumbrances which may affect the right-of-way or municipal facilities now or at any time, including, without limitation, any encumbrances granted, created or allowed by city at any time.

J. Such other conditions as may be required by the city acting through the department of public works to the fullest extent permitted by law.

(Ord. No. 3581, § 1, 6-4-2019)

17.02.090 Annual inspection.

The city will at intervals of not more often than once every year, unless there is a reasonable basis for additional inspections, perform inspections of any of licensee's communications facilities licensed under a license authorization for the purpose of verifying that licensee's installation that is installed is the installation approved in the license

authorization. If communications facilities are found to be in noncompliance, licensee shall be in material breach and such noncompliance shall constitute an event of default subject to section 17.02.110.
(Ord. No. 3581, § 1, 6-4-2019)

17.02.100 Unauthorized communications facilities.

If, during the term of a licensee's use agreement, the city discovers unauthorized communications facilities or equipment placed on municipal facilities or within right-of-way which are attributable to a person, the fee listed in chapter 17.03 may be assessed on a per unit basis and the procedures listed below will be followed.

A. *Notice.* The city shall provide specific written notice of each violation discovered.

B. *Back license authorization fee and penalties.* Licensee shall pay back license authorization fees for all unauthorized communications facilities for a period of one year, or since the date of the last inventory of a licensee's communications facilities (whichever period is shortest), at the license authorization fees in effect during such periods. If licensee is found to have: (1) repeated instances of unauthorized communications facilities or equipment demonstrating a deliberate or consistent pattern of unauthorized communications facilities; or (2) a significant number of poles or amount of cable or conduit (comprising five percent or more of licensee's total license authorizations in accordance with this title) with unauthorized facilities and equipment, licensee shall be in material breach and such unauthorized facilities and equipment shall constitute an event of default subject to section 17.02.110.

C. *Application required.* Licensee shall submit, as applicable, a use agreement application and a new license authorization application in accordance with this title within 30 days of receipt of notice from the city of any unauthorized communications facilities or equipment, or such longer time as mutually agreed to by the parties after an inventory. If an application is denied, licensee shall have 30 days to remove the unauthorized communications facilities and equipment. In the event licensee fails to submit an application within 30 days, or such longer time as mutually agreed to by the parties after an inspection, or fails to remove the unauthorized facilities and equipment within 30 days, licensee shall be considered to be in material breach and such unauthorized facilities and equipment shall constitute an event of default subject to section 17.02.110.

D. *Existing communications facilities.* No later than six months after the effective date of this title, a licensee with communications facilities or equipment which were placed on municipal facilities or within right-of-way prior to the effectiveness of this title, shall provide the city with a list of all such known facilities. A licensee shall notify the city of any additional existing facilities within a reasonable time as licensee

becomes aware of such facilities during the course of licensee's normal operations, but no less than semiannually. Licensee shall comply with the foregoing application procedures in this section 17.02.100. The amount of any back license authorization fees for existing facilities will be the fees for all such facilities for a period of one year, or since the effective date of this title (whichever period is shortest), at the license authorization fees in effect during such periods.

E. *No ratification of unauthorized use.* No act or failure to act by the city with regard to any unauthorized communications facilities or equipment shall be deemed as ratification of the unauthorized use. Unless the parties agree otherwise, a license for previously unauthorized communications facilities or equipment shall not constitute a waiver by the city of any of its right or privileges under the Code or of an agreement or license authorization or otherwise, and licensee shall remain subject to all obligations and liabilities arising out of or relating to its unauthorized use.

(Ord. No. 3581, § 1, 6-4-2019)

17.02.110 Default and cure period.

A. *Default and notification.* Except for causes beyond the reasonable control of a licensee, if licensee fails to comply with any of the material conditions and obligations imposed hereunder, and if such failure continues for more than 30 days after written demand from the city to commence the correction of such noncompliance, the city shall have the right to revoke and terminate a licensee's use agreement in addition to any other right or remedies set forth in a licensee's use agreement or provided by law.

B. *Cure period.* If the nature of the violation is such that it cannot be fully cured within 30 days due to circumstances not under a licensee's control, the period of time in which a licensee must cure the violation may be extended by the city manager in writing for such additional time reasonably necessary to complete the cure, provided that: (1) a licensee has promptly begun to cure; and (2) a licensee is diligently pursuing its efforts to cure in the city manager's reasonable judgment.

C. *Denial of subsequent permits.* Whenever a licensee is in default in any of its obligations under its use agreement, the standards manual, a license authorization or this title, the city may deny further barricade, encroachment, excavation or similar permits until such time as a licensee cures all of its defaults.

(Ord. No. 3581, § 1, 6-4-2019)

Chapter 17.03 FEES

Sections:

17.03.010 Compensation.
17.03.020 Payment.
17.03.030 Delinquent payment.
17.03.040 Indemnification.
17.03.050 Incentive agreements.

17.03.010 Compensation.

A licensee shall be solely responsible for the payment to the city of all lawful fees in connection with a licensee's performance under its use agreement and license authorizations, including those set forth below, except where prohibited by law. To the fullest extent permitted by law, the city manager may adjust the fees specified under this title from time to time provided that the adjusted amount(s) must be made publicly available and may not exceed the amounts specified hereunder.

A. *Business license fees.* All business licenses shall be maintained and fees paid in accordance with title 4 of the Code at all times during the use of the right-of-way or municipal facilities for communications facilities.

B. *Licensed location authorization fees.* A fee shall be paid for each wireless communications facility contained in a licensed location authorization. The annual amount due for each wireless communications facility shall be (1) the amount established and made publicly available by the city manager, which amount may not exceed $2,400.00 per location; and (2) for each licensed location authorization that authorizes installation of a licensee pole, the amount established and made publicly available by the city manager, which amount may not exceed $2,400.00 for each licensee pole.

C. *Licensed wireline authorization fee.* A fee shall be paid for the communications facilities contained in a licensed wireline authorization. The annual amount due for wireline communications facilities shall be as follows:

1. For each licensed wireline authorization that authorizes use of a municipal facility, the amount established and made publicly available by the city manager, which amount may not exceed $2.50 per linear foot for use of a municipal facility that is city-owned cable.

2. For each licensed wireline authorization that authorizes use of a municipal facility, the amount established and made publicly available by the city manager, which amount may not exceed $1.50 per linear foot for use of a municipal facility that is city-owned conduit.

3. For each licensed wireline authorization that authorizes use of a municipal facility, the amount established and made publicly available by the city manager, which amount may not exceed $1.50 per linear foot for use of a municipal facility that is not city-owned conduit or cable.

4. For each licensed wireline authorization that authorizes installation of a licensee pole, the amount established and made publicly available by the city manager, which amount may not exceed $2,400.00 for each licensee pole.

D. *Commencement of authorization fees.* The authorization fee commencement date shall be the execution date of each license authorization.

E. *Initial fee.* The first annual authorization fee is due the first day of the month following the commencement date as determined in section 17.03.010(D). Subsequent annual fees shall be due the first day of July. If city issues a new license authorization during a payment period, city will prorate the amount for that authorization for the applicable period by taking the total number of days between the effective date of that authorization and the end of the period, multiplying that total number of days by the amount of the fee and dividing by 365 in the case of payments due on an annual basis.

F. *Annual fee adjustment.* Effective on July 1, 2020, and continuing annually thereafter, the authorization fee shall be increased by two and one-half percent of the amount of the authorization fee for the immediately preceding year, rounded to the nearest whole dollar.

G. *Use agreement fee.* The use agreement fee for and due at the time of each application for a use agreement shall be $1,300.00.

H. *License authorization application fee.* The application fee for and due at the time of each application for an LLA or LWA shall be $600.00.

I. *Work performed by city on behalf of a licensee.* All work performed by the city when a licensee fails to perform said work in a timely manner, as required by the Code, the standards, a use agreement or license authorization, may be subject to an additional 25 percent administrative fee of the actual costs of the work performed by the city.

J. *Unauthorized facilities fee.* Up to $500.00 may be assessed per unauthorized unit of communications facilities or equipment that was not authorized by a license authorization. The placement of any such unauthorized unit is a violation of this title. With respect to violations that are continuous with respect to time, each day that the violation continues is a separate violation. With respect to violations that are not continuous with respect to time, each act is a separate violation.

(Ord. No. 3928, § 5, 12-6-2022; Ord. No. 3581, § 1, 6-4-2019)

17.03.020 Payment.

All fees and amounts due under the provisions of this title, a use agreement, or license authorization shall be paid electronically or by check made payable to the City of Henderson and mailed or delivered to the finance department, accounts receivable. Each payment, either electronically or manually tendered, shall include a description of the reason for the payment. Any payment made for a specific site shall include the city's Energov (as modified or replaced from time to time) identification number for that site. The place and time of payment may be changed at any time by city upon 30 days' written notice to a licensee. Mailed payments shall be deemed paid upon the date such payment is officially postmarked by the United States Postal Service. If postmarks are illegible to read, the payment shall be deemed paid upon actual receipt by the city's finance department. A licensee assumes all risk of loss and responsibility for late payment charges if payments are made by mail.
(Ord. No. 3581, § 1, 6-4-2019)

17.03.030 Delinquent payment.

If a licensee fails to pay any amounts due pursuant to the provisions of this title, the standards, a use agreement, or license authorization, within 45 days from the due date, a licensee will pay, in addition to the unpaid fees, a sum of money equal to two percent of the amount due for each month and/or fraction thereof during which the payment is due and unpaid. The remedy provisions set forth in this section are not exclusive, and do not preclude the city manager from pursuing any other or additional remedy if payments become overdue by more than 60 days.
(Ord. No. 3581, § 1, 6-4-2019)

17.03.040 Indemnification.

A licensee shall indemnify, defend and hold harmless the city, its officers, agents, volunteers, and employees, against and from any and all liability, loss, damage, claims, fines, demands, causes of action, costs, expenses, and judgments of whatsoever nature, including but not limited to reasonable costs of investigation, reasonable attorneys' fees and expenses, all reasonable expert witness fees and expenses, and all court or arbitration or other alternative dispute resolution costs which result from injury to or death of any persons whomsoever, and/or against and from damage to or loss or destruction of property whatsoever when such injury, death, loss, destruction or damage is due to or arises in connection with or as a result of any work done by licensee, its contractors, agents and subcontractors in connection with the design, construction installation, operation, maintenance and condition of the network and communications facilities and/or arises out of or in

connection with licensee's, or its contractors' and subcontractors' performance or failure to comply with the requirements of this title, the standards manual, and licensee's use agreement and any license authorization executed pursuant thereto.
(Ord. No. 3581, § 1, 6-4-2019)

17.03.050 Incentive agreements.

The city manager is authorized to negotiate agreements with prospective applicants and licensees to incentivize the development of communications facilities in a manner which is in the city's interest or in locations determined by the city, in the city's sole discretion, to be an area that is underserved or lacking reliable telecommunications or information services for use by public, commercial or residential customers. The agreements negotiated and executed pursuant to this section may alter the compensation and fees contained in this chapter.
(Ord. No. 3581, § 1, 6-4-2019)

Title 18

COMMUNITY DEVELOPMENT FEES

Chapters:

18.01 Community Development Fee Schedules

Chapter 18.01 COMMUNITY DEVELOPMENT FEE SCHEDULES

Sections:

18.01.010 Annual increase in fees.
18.01.020 Supersession of old fees.
18.01.030 Fees for applications and services.

18.01.010 Annual increase in fees.

These fees shall be adjusted annually based upon the Consumer Price Index for the period ending the preceding March 31, with said adjusted fees to be effective the following June 30, the first such annual adjustment to be effective July 1, 2001.
(Ord. 1966, § 1, 1999)

18.01.020 Supersession of old fees.

Whenever any such list or fee schedule is promulgated or updated pursuant to section 18.01.010, such list or schedule shall by implication supersede any previous permit or inspection fee whether set forth in a previous fee list or schedule or specific ordinance in title 18 of this Code.
(Ord. 1966, § 2, 1999)

18.01.030 Fees for applications and services.

A. *Schedule of mapping application fees.* The fees for all mapping applications filed with the community development department pursuant to title 19 shall be computed as indicated below.

1. *Boundary line adjustment.* See chapter 15.02, Development Services Schedule of Fees.

2. *Reversionary map.* See chapter 15.02, Development Services Schedule of Fees.

3. *Parcel map.* See chapter 15.02, Development Services Schedule of Fees.

4. *Tentative map.* The application fee for a tentative map shall be $661.00 plus the notification fee required pursuant to 18.01.030(C)(1).

5. *Final map.* See chapter 15.02, Development Services Schedule of Fees.

B. *Fee schedule for other community development applications.*

1. *Administrative adjustment.* The application fee for an administrative adjustment shall be $150.00.

2. *Conditional use permit.* The permit for a conditional use permit shall be $500.00, plus the notification fee required pursuant to 18.01.030(C)(1).

3. *Conditional use permit, marijuana establishment.* The non-refundable fee for a conditional use permit shall be $10,000.00, plus the notification fee required pursuant to subsection 18.01.030(C)(1).

4. *Conditional use permit, medical marijuana dispensary establishment.* The non-refundable fee for a conditional use permit shall be $10,000.00, plus the notification fee required pursuant to 18.01.030(C)(1).

5. *Conditional use permit, retail marijuana establishment.* The non-refundable fee for a conditional use permit shall be $10,000.00, plus the notification fee required pursuant to subsection 18.01.030(C)(1).

6. *Comprehensive plan amendment.* The application fee for a comprehensive plan amendment shall be $675.00, plus the notification fee required pursuant to 18.01.030(C)(1).

7. *Design review.* The application fee for a design review shall be $250.00.

8. *Extension of time.* The application fee for an extension of time for any community development application shall be $250.00, plus the notification fee required pursuant to 18.01.030(C)(1), if applicable.

9. *Extension of time, marijuana establishment.* The non-refundable fee for an extension of time for a marijuana establishment application shall be $5,000.00, plus the notification fee required pursuant to 18.01.030(C)(1), if applicable.

10. *Home occupation.* The application fee for a home occupation shall be $30.00.

11. *Master sign plan.* The application fee for a master sign plan shall be $250.00.

12. *Master streets and highway amendment.* The application fee for a master streets and highway amendment shall be $550.00, plus the notification fee required pursuant to 18.01.030(C)(1), if applicable.

13. *Temporary use permit.* The application fee for a temporary use permit shall be $100.00.

14. *Vacation.* The application fee for a vacation shall be $529.00.

15. *Variance.* The application fee for a variance shall be $375.00, plus the notification fee required pursuant to 18.01.030(C)(1).

16. *Waiver of standards.* The application fee for a waiver of standards shall be $260.00 plus the notification fee required pursuant to subsection 18.01.030(C)(1).

17. *Zone change.* The application fee for a zone change shall be $675.00, plus the notification fee required pursuant to 18.01.030(C)(1).

18. *Development agreements.* The application fee for a development agreement shall be $2,000.00, plus $57.00 per acre 0—100 acres; $45.00 per acre 101—600 acres; $38.00 per acre 601—1,000 acres; $26.00 per acre 1,001—2,000 acres; $15.00 per acre 2,001+ acres), plus the notification fee required pursuant to 18.01.030(C)(1). In addition to the above referenced fees, the city may, through adoption of the development agreement, require the applicant to pay additional costs incurred by city in the review and preparation of the development agreement. Major modifications to a development agreement shall be the same as the original fee; minor modifications to the development agreement shall be set in the approved development agreement.

C. *Other community development fees.*

1. *Notification fee.* Any application filed with the community development and services department that is required to have public notification shall be assessed a $300.00 notification fee, and any required notification over 1,000 notices shall be assessed an additional $1.00 fee for each notification over 1,000.

The community development and services director may increase the notification fee without city council approval to match any increases of costs in postal service mailing, sign posting fee and/or newspaper publications.

2. *Zoning plan check.* See chapter 15.02, Development Services Schedule of Fees.

3. *Slope analysis.* The fee for each slope analysis performed by community development and services staff shall be $60.00.

4. *Distance separation analysis map.* The fee for each distance separation analysis map shall be $60.00.

5. *Marijuana establishment separation analysis map.* The non-refundable fee for each marijuana establishment separation analysis map shall be $180.00.

6. *Zoning verification letter.* The fee for each zoning verification letter completed by community development and services staff shall be $100.00.

7. *Technology fee.* All permit, plan review, and application fees identified in section 18.01.030 shall be subject to an additional two percent technology fee, minimum fee $2.00.

8. *Records management fee.* All permit, plan review, and application fees identified in section 18.01.030 shall be subject to an additional two percent records management fee, minimum fee $2.00.

9. *Street name change.* See chapter 15.02, Development Services Schedule of Fees.

10. *Address number change.* See chapter 15.02, Development Services Schedule of Fees.

11. *Military recognition banner.* The application fee for the Military Recognition Banner Program shall be $150.00.

12. *Hillside restoration bond fee.* The bond fee for hillside restoration is for those properties with the hillside overlay designation. The fee shall be a maximum of $2.25 per square foot or as approved by the director of community development and services through a cost analysis as part of the hillside restoration plan. The amount is calculated based on the area disturbed within the development. This fee is assessed at the civil improvement plan process.

13. *Landscape bond fee.* The bond fee is for common open space areas within project development boundaries. The fees are $5.00 per square foot for areas with no active amenities; and $6.00 per square foot for areas with active amenities. This fee is assessed at the civil improvement plan process.

14. *Short-term vacation rental registration.* The registration fee for a short-term vacation rental shall be $820.00. This fee shall be paid on an annual basis from the date the registration is approved by the City of Henderson.

(Ord. No. 3590, § 1, 7-16-2019; Ord. No. 3436, § 1, 9-5-2017; Ord. No. 3337, § 1, 4-19-2016; Ord. No. 3227, § 1, 10-21-2014; Ord. No. 3187, § 1, 7-1-2014; Ord. No. 3001, § 1, 4-9-2013; Ord. No. 2917, § 1, 5-3-2011; Ord. No. 2856, § 1, 6-1-2010; Ord. 2731, § 1, 2008; Ord. 2295, § 2, 2004; Ord. 1966, § 3, 1999)

HENDERSON, NEVADA

MUNICIPAL CODE

VOLUME II

A Codification of the General Ordinances of Henderson, Nevada

---

**Beginning with Supp. No. 67,
Supplemented by Municipal Code Corporation**

Republished 2010

PREFACE

The Henderson, Nevada Municipal Code, originally published by Book Publishing Company, has been kept current by regular supplementation by Municipal Code Corporation, its successor in interest.

During original codification, the ordinances were compiled, edited and indexed by the editorial staff of Book Publishing Company under the direction of Monte V. Morris, City Attorney.

This 2010 republication includes all amendatory legislation through Ord. No. 2881, adopted November 2, 2010, and was accomplished under the supervision of Beth Tattershall, Editor.

The code is organized by subject matter under an expandable three-factor decimal numbering system which is designed to facilitate supplementation without disturbing the numbering of existing provisions. Each section number designates, in sequence, the numbers of the title, chapter, and section. Thus, Section 2.12.040 is Section .040, located in Chapter 2.12 of Title 2. In most instances, sections are numbered by tens (.010, .020, .030, etc.), leaving nine vacant positions between original sections to accommodate future provisions. Similarly, chapters and titles are numbered to provide for internal expansion.

In parentheses following each section is a legislative history identifying the specific sources for the provisions of that section. This legislative history is complemented by an ordinance disposition table, following the text of the code, listing by number all ordinances, their subjects, and where they appear in the codification.

A subject-matter index, with complete cross-referencing, locates specific code provisions by individual section numbers.

Municipal Code Corporation
1700 Capital Circle SW
Tallahassee, FL 32310

HOW TO USE YOUR CODE

This code is organized to make the laws of the city as accessible as possible to city officials, city employees and private citizens. Please take a moment to familiarize yourself with some of the important elements of this code.

Numbering System

The numbering system is the backbone of a Code of Ordinances; Municipal Code Corporation uses a unique and versatile numbering structure that allows for easy expansion and amendment of this Code. It is based on three tiers, beginning with title, then chapter, and ending with section. Each part is represented in the code section number. For example, Section 2.04.010 is Section .010, in Chapter 2.04 of Title 2.

Title.

A title is a broad category under which ordinances on a related subject are compiled. This code contains about 15 to 20 titles. For example, the first title is Title 1, General Provisions, which may contain ordinances about the general penalty, code adoption and definitions. The titles in this code are separated by tabbed divider pages for quick reference. Some titles are **Reserved** for later use.

Chapter.

Chapters deal with more specific subjects, and are often derived from one ordinance. All of the chapters on a related subject are grouped in one title. The chapters are numbered so that new chapters which should logically be placed near certain existing chapters can be added at a later time without renumbering existing material. For example, Chapter 2.06, City Manager, can be added between 2.04, City Council, and Chapter 2.08, City Attorney.

Section.

Each section of the code contains substantive ordinance material. The sections are numbered by "tens" to allow for expansion of the code without renumbering.

Tables of Contents

There are many tables of contents in this code to assist in locating specific information. At the beginning of the code is the main table of contents listing each title. In addition, each title and chapter has its own table of contents listing the chapters and sections, respectively.

Ordinance History Note

At the end of each code section, you will find an "ordinance history note," which lists the underlying ordinances for that section. The ordinances are listed by number, section (if applicable) and year. (Example: (Ord. 272, § 1, 1992).)

Statutory References

The statutory references direct the code user to those portions of the state statutes that are applicable to the laws of the municipality. As the statutes are revised, these references will be updated.

Cross-Reference Table

When a code is based on an earlier codification, the cross-reference table will help users find older or "prior" code references in the new code. The cross-reference table is located near the end of the code, under the tabbed divider "Tables." This table lists the prior code section in the column labeled "Prior Code Section" and the new code section in the column labeled "Herein."

Ordinance List and Disposition Table

To find a specific ordinance in the code, turn to the section called "Tables" for the Ordinance List and Disposition Table. This very useful table tells you the status of every ordinance reviewed for inclusion in the code. The table is organized by ordinance number and provides a brief description and the disposition of the ordinance. If the ordinance is codified, the chapter (or chapters) will be indicated. (Example: (2.04, 6.12, 9.04).) If the ordinance is of a temporary nature or deals with subjects not normally codified, such as budgets, taxes, annexations or rezones, the disposition will be "(Special)." If the ordinance is for some reason omitted from the code, usually at the direction of the municipality, the disposition will be "(Not codified)." Other dispositions sometimes used are "(Tabled)," "(Pending)," "(Number Not Used)" or "(Missing)."

Index

If you are not certain where to look for a particular subject in this code, start with the index. This is an alphabetical multi-tier subject index which

uses section numbers as the reference, and cross-references where necessary. Look for the main heading of the subject you need, then the appropriate subheadings:

BUSINESS LICENSE

See also BUSINESS TAX
Fee 5.04.030
Required when 5.04.010

The index will be updated as necessary when the code text is amended.

Insertion Guide

Each supplement to the new code will be accompanied by an Insertion Guide. This guide will tell the code user the date of the most recent supplement and the last ordinance contained in that supplement. It will then list the pages that must be pulled from the code and the new pages that must be inserted. Following these instructions carefully will assure that the code is kept accurate and current. Removed pages should be kept for future reference.

Page Numbers

When originally published, this code was numbered with consecutive page numbers. As it is amended, new material may require the insertion of new pages that are numbered with hyphens. (Example: 31, 32, 32-1.) Backs of pages that are blank (in codes that are printed double-sided) are left unnumbered but the number is "reserved" for later use.

Electronic Submission

In the interests of accuracy and speed, we encourage you to submit your ordinances electronically if at all possible. We can accept most any file format, including Word, WordPerfect or text files. If you have a choice, we prefer Word, any version. You can send files to us as an e-mail attachment, by FTP, on a diskette or CD-ROM. Electronic files enable us not only to get you your code more quickly but also ensure that it is error-free. Our e-mail address is: **ords@municode.com**.

For hard copy, send two copies of all ordinances passed to:

Municipal Code Corporation
P.O. Box 2235
Tallahassee, FL 32316

Title 19

DEVELOPMENT CODE*

Chapters:

19.01 Development Code (Zoning)

***Editor's note—**Ord. No. 2939, §§ 1, 4, adopted November 2, 2011, repealed and reenacted title 19 in its entirety to read as herein set out. Formerly, title 19 pertained to similar subject matter. See the Ordinance List and the Code Comparative Table and Disposition List for a complete derivation.

Chapter 19.01 DEVELOPMENT CODE (ZONING)

The City of Henderson adopts by reference the City of Henderson Development Code as a specialized code. Copies of this code are on file in the office of the city clerk.
(Ord. No. 2939, § 4, 11-2-2011)
