PREFACE

The City of Jersey City has, over the years, passed through a process of legislative change common to many American communities. While only a few simple laws were necessary at the time of the establishment of the city, subsequent growth of the community, together with the complexity of modern life, has created the need for new and more detailed legislation for the proper function and government of the city. The recording of local law is an aspect of municipal history, and as the community develops and changes, review and revision of old laws and consideration of new laws, in the light of current trends, must keep pace. The orderly collection of these records is an important step in this ever-continuing process. Legislation must be more than mere chronological enactments reposing in the pages of old records. It must be available and logically arranged for convenient use and must be kept up-to-date. It was with thoughts such as these in mind that the Council ordered the following codification of the city's legislation, to replace the 1971 Code of the City of Jersey City, adopted 5-4-1971, as readopted 9-19-1978 by Ord. No. S-128 and June 14, 1995 by Ord. No. 95-050. The following paragraphs will further explain the organization and contents of the Code of Jersey City.

Contents of Code

The various chapters of the Code contain all currently effective legislation of a general and permanent nature enacted by the Council of the City of Jersey City, including revisions or amendments to existing legislation deemed necessary by the Council in the course of the codification.

Division of Code

The Code is divided into parts. Part I, Administrative Legislation, contains all city legislation of an administrative nature, namely, that dealing with the administration of government, that establishing or regulating municipal departments and that affecting officers and employees of the municipal government and its departments. Part II, General Legislation, contains all other city legislation of a regulatory nature. Items of legislation in this part generally impose penalties for violation of their provisions, whereas those in Part I do not.

Grouping of Legislation and Arrangement of Chapters

The various items of legislation are organized into chapters, their order being an alphabetical progression from one subject to another. Wherever there are two or more items of legislation dealing with the same subject, they are combined into a single chapter. Thus, for example, all legislation pertaining to the regulation of streets and sidewalks may be found in Part II, in the chapter entitled ""Streets and Sidewalks." In such chapters, use of Article or Part designations has preserved the identity of the individual items of legislation.

Table of Contents

The Table of Contents details the alphabetical arrangement of material by chapter as a means of identifying specific areas of legislation. Wherever two or more items of legislation have been combined by the editor into a single chapter, titles of the several Articles or Parts are listed beneath the chapter title in order to facilitate location of the material.

Reserved Chapters

Space has been provided in the Code for the convenient insertion, alphabetically, of later enactments. In the Table of Contents such space appears as chapters entitled "(Reserved)." In the body of the Code, reserved space is provided by breaks in the page-numbering sequence between chapters.

Pagination

A unique page-numbering system has been used, in which each chapter forms an autonomous unit. One hundred pages have been allotted to each chapter, and the first page of each is the number of that chapter followed by the numerals "01." Thus, Chapter 6 begins on page 601, Chapter 53 on page 5301, etc. By use of this system, it is possible to add or to change pages in any chapter without affecting the sequence of subsequent pages in other chapters, and to insert new chapters without affecting the existing organization.

Numbering of Sections

A chapter-related section-numbering system is employed, in which each section of every item of legislation is assigned a number which indicates both the number of the chapter in which the legislation is located and the location of the section within that chapter. Thus, the first section of Chapter 6 is § 6-1, while the fourth section of Chapter 53 is § 53-4. New sections can then be added between existing sections using a decimal system. Thus, for example, if two sections were to be added between §§ 53-4 and 53-5, they would be numbered as §§ 53-4.1 and 53-4.2.

Scheme

The Scheme is the list of section titles which precedes the text of each chapter. These titles are carefully written so that, taken together, they may be considered as a summary of the content of the chapter. Taken separately, each describes the content of a particular section. For ease and precision of reference, the Scheme titles are repeated as section headings in the text.

Histories

At the end of the Scheme in each chapter is located the legislative history for that chapter. This History indicates the specific legislative source from which the chapter was derived, including the enactment number (e.g., ordinance number, local law number, bylaw number, resolution number, etc.), if pertinent, and the date of adoption. In the case of chapters containing Parts or Articles derived from more than one item of legislation, the source of each Part or Article is indicated in the History. Amendments to individual sections or subsections are indicated by histories where appropriate in the text.

PREFACE

The Code of the City of Jersey City has been kept current by regular supplementation of LexisNexis Municipal Codes.

Beginning with Supp. No. 16,
Supplemented by Municipal Code Corporation.

In brackets at the beginning of each chapter or within some sections is a legislative history identifying the specific sources for the provisions of that chapter or section. This legislative history is complemented by an ordinance disposition table, following the text of the Code, listing by number all ordinances, their subjects, and where they appear in the codification.

A subject-matter index, with complete cross-referencing, locates specific Code provisions by individual section numbers.

This supplement brings the Code up to date through Ordinance No. 26-016, passed February 11, 2026.

ARTICLE I
Adoption of Code

§ 1-1. Adoption of 1995 Code.

Pursuant to N.J.S.A. 40:49-4, the ordinances of the City of Jersey City of a general and permanent nature adopted by the Council of the City of Jersey City, as revised, codified and consolidated into chapters and sections by General Code Publishers Corp., and consisting of Chapters 1 through 346, together with an Appendix, are hereby approved, adopted, ordained and enacted as the "Code of the City of Jersey City," hereinafter known and referred to as the "Code."

§ 1-2. Territorial applicability.

The Code shall refer only to the omission or commission of acts within the territorial limits of the city and to that territory outside the city over which the city has jurisdiction or control by virtue of any constitutional or Charter provisions or any law.

§ 1-3. Code supersedes prior ordinances.

This ordinance and the Code shall supersede all general and permanent ordinances enacted prior to the enactment of this Code, except such ordinances as are hereinafter expressly saved from repeal or continued in force.

§ 1-4. When effective.

This ordinance shall take effect immediately upon passage and publication according to law.

§ 1-5. Copy of Code on file.

A copy of the Code in loose-leaf form has been filed in the office of the City Clerk and shall remain there for use and examination by the public until final action is taken on this ordinance; and, if this ordinance shall be adopted, such copy shall be certified to by the Clerk of the City of Jersey City by impressing thereon the Seal of the city, as provided by law, and such certified copy shall remain on file in the office of the Clerk of the city, to be made available to persons desiring to examine the same during all times while said Code is in effect.

§ 1-6. Amendments to Code.

Any and all additions, amendments or supplements to the Code, when passed and adopted in such form as to indicate the intent of the governing body to make them a part thereof, shall be deemed to be incorporated into such Code so that reference to the "Code of the City of Jersey City" shall be understood and intended to include such additions and amendments. Whenever such additions, amendments or supplements to the Code shall be adopted, they shall thereafter be printed and, as provided hereunder, inserted in the loose-leaf book containing said Code, as amendments and supplements thereto.

§ 1-7. Publication; filing.

The Clerk of the City of Jersey City, pursuant to law, shall cause to be published, in the manner required, a copy of this Adopting Ordinance in a newspaper of general circulation in the city. Sufficient copies of the Code shall be maintained in the office of the Clerk for inspection by the public at all times during regular office hours. The enactment and publication of this Adopting Ordinance, coupled with availability of copies of the Code for inspection by the public, shall be deemed, held and considered to be due and legal publication of all provisions of the Code for all purposes.

§ 1-8. Code book to be kept up-to-date.

It shall be the duty of the Clerk or someone authorized and directed by the Clerk to keep up-to-date the certified copy of the book containing the Code required to be filed in his or her office for the use of the public. All changes in said Code and all ordinances adopted subsequent to the effective date of this codification which shall be adopted specifically as part of the Code shall, when finally adopted, be included therein by reference until such changes or new ordinances are printed as supplements to said Code book, at which time such supplements shall be inserted therein.

§ 1-9. Sale of Code book.

Copies of the Code book containing the Code may be purchased from the Clerk upon the payment of a fee to be set by resolution of the Council, which may also arrange, by resolution, for procedures for the periodic supplementation thereof.

§ 1-10. Altering or tampering with Code; penalties for violation.

It shall be unlawful for anyone to improperly change or amend, by additions or deletions, any part or portion of the Code or to alter or tamper with such Code in any manner whatsoever which will cause the law of the City of Jersey City to be misrepresented thereby. § 1-14. Effect on past acts and obligations.

Neither the adoption of this Code or the repeal hereby of any ordinance of this city shall in any manner affect the prosecution for violation of ordinances, which violations were committed prior to the effective date hereof, nor be construed as a waiver of any license or penalty at said effective date due and unpaid under such ordinance, nor be construed as affecting any of the provisions of such ordinance relating to the collection of any such license or penalty or the penal provisions applicable to the violation thereof, nor to affect the validity of any bond or cash deposit in lieu thereof, required to be posted, filed or deposited pursuant to any ordinance, and all rights and obligations thereof appertaining shall continue in full force and effect.

ARTICLE III
Enforcement; Penalties

§ 1-22. Acts by deputy.

All notices, reports, statements, applications and records required or authorized by this Code shall be made in writing in the English language, unless specifically provided otherwise.

A. Unless otherwise specifically indicated, whenever a notice is required to be given pursuant to any section of this Code, that notice shall be given either by personal delivery to the person to be notified or by deposit in the United States Mail in a sealed envelope, postage prepaid, addressed to the person to be notified at his last known residence or business address, or by any other method of proof approved by law.

B. Proof of giving notice shall be made either by affidavit of the person over eighteen (18) years of age who actually accomplished personal service or by a return receipt signed by the recipient notified by the United States mail or by any other method approved by law.

§ 1-25. General penalty. [Amended 3-27-2002 by Ord. No. 02-035; 10-23-2013 by Ord. No. 13-113; 1-25-2017 by Ord. No. 17-005; 10-8-2025 by Ord. No. 25-105]

A. Notwithstanding any other section of this Code or any other ordinance, all penalties for violating any provisions of this Code are subject to the maximums authorized by law (including N.J.S.A. 40:49-5) of a fine of up to $2,000.00 and/or imprisonment for a period of up to 90 days and/or a period of community service not exceeding 90 days; provided, however, that for the violation of an ordinance pertaining to solid waste disposal the maximum penalty shall be $10,000.00, and the minimum penalty shall be $2,500.00; provided further, however, that for violations of chapter 287 by owners of multiple-family residential property, the minimum penalty shall be:

   1. $250.00 for properties that are one to four units; and

   2. $500.00 for properties that are five or more units.

B. Continuing violations.

   1. Continuing offense: A period that begins with a first violation and continues until compliance is established. Each day that a violation of this Code or any ordinance continues shall constitute a separate offense.

2. Single summons sufficient: The City may charge a continuing offense in a single summons, and upon conviction by plea or trial, the court may impose a separate penalty for each day the violation continued without the need to issue a separate summons for each day. For purposes of calculating daily penalties, the period of violation shall run from the date of offense alleged on the summons and shall continue until the violation is abated or until conviction by plea or trial, whichever is first.

3. Stacking: Penalties shall be assessed per violation, per day.

4. Mandatory minimums: Nothing in this section alters any mandatory minimum penalty established elsewhere in this Code or ordinance.

C. In addition to the penalties hereinabove provided, any condition caused or permitted to exist in violation of any of the provisions of this Code or any ordinance shall be deemed to be a public nuisance and may be abated by the city as provided by law, and each day that such condition continues shall be regarded as a new and separate offense.

D. Pursuant to N.J.S.A. 40:69A-29, any person who is convicted of violating an ordinance by a plea or trial within one year of the date of conviction by plea or trial of a previous violation of the same ordinance and who was fined for the previous violation, shall be sentenced by a court to an additional fine as a repeat offender. The additional fine imposed by the court upon a person for a repeated offense shall not be less than the minimum or exceed the maximum fine fixed for a violation of the ordinance, but shall be calculated separately from the fine imposed for the violation of the ordinance.

§ 1-26. Prohibited acts; causing, aiding or concealing.

Whenever in this Code any act or omission is made unlawful, it shall include causing, allowing, permitting, aiding, abetting, suffering or concealing such act or omission.

§ 1-27. Same offense punishable by different sections of Code. [Amended 10-07-2020 by Ord. No. 20-088]

In cases where the same offense is made punishable or is created by different clauses or sections of this Code, the Municipal Prosecutor may elect under which to proceed, but not more than one recovery shall be had against the same person for the same offense.

ARTICLE IV
Codification Revisions

§ 1-28. Nonsubstantive changes.

In compiling and preparing the ordinances for adoption and revision as part of the Code pursuant to N.J.S.A. 40:49-4, certain grammatical changes and other minor changes were made in one or more of said ordinances. It is the intention of the Council that all such changes be adopted as part of the Code as if the ordinances so changed had been previously formally amended to read as such.

§ 1-29. Changes in previously adopted ordinances.*

The following changes, amendments or revisions to existing ordinances are made herewith, to become effective upon the effective date of this ordinance. (Chapter and section number references are to the ordinances as they have been renumbered and appear in the Code.)

*Editor's note—In accordance with § 1-29, the chapters, parts and sections which were added, amended, adopted or deleted by this ordinance are indicated throughout the Code by a footnote referring to Chapter 1, General Provisions, Article I. During routine supplementation, footnotes indicating amendments or additions will be replaced with the following wording: "Amended (added) 6-14-1995 by Ord. No. 95-050." A complete description of all changes is on file in the borough offices.

(4) The Subcommittee will not consider an application to designate a street for an individual or organization already honored in a similar fashion, i.e. a person or organization having a park, monument or public building already named after him or her in Jersey City.

(5) A person, organization, foundation, or similar entity that has made significant contributions to the State of New Jersey or to the United States may be considered, but there should be, if possible, some relevant connection to Jersey City.

(6) The Subcommittee may deny approval of an application at its sole discretion. If an application is denied by the Subcommittee, the original applicant may not reapply on behalf of the prospective honoree for five (5) years from the date of the denial.

(7) Commemorative names should be unique, and unlikely to cause confusion or misunderstanding due to duplication of, or similarity with, an existing name, location, or other street name within Jersey City. Near duplications in spelling or street names that are phonetically similar to existing street names shall not be approved.

(8) Street names shall not contain more than three (3) words or exceed seventeen (17) characters in length, including spaces between words and excluding the street type, i.e. "avenue" or "street."

(9) No street can have more than two (2) commemorative street designations.

(10) If a portion of a street is proposed to be commemoratively designated, the designated portion shall begin and end at the intersections of major cross streets.

(11) The cost of producing and installing appropriate signs designating the commemorative name shall be paid by the original requestors.

The Subcommittee will meet as necessary to review street name applications, then make a recommendation on the application before the Municipal Council who shall accept, reject or amend making the final naming choice.

3. If approved, signs identifying the name designation shall be placed on the street by the owner.

4. The street signs and their installation shall be consistent with the City's State approved standards.

F. Standards for naming new streets.

1. The authority for the naming new streets or municipally owned buildings or structures constructed in Jersey City shall remain solely with the Municipal Council.

3. A final list of pre-approved street names will be presented to the Municipal Council within thirty (30) days of being reviewed by the Departments of Planning and Public Safety.

4. The pre-approved list of suitable street names will be available in the Division of City Planning. The pre-approved list will contain names that honor people who have made significant contributions to the City of Jersey City, or names which reflect the history, geographic location or unique characteristics of Jersey City. Developers building new streets are to pick from the names on this pre-approved list.

5. Individuals seeking to designate a street may, at their discretion, ask instead that the Subcommittee add the commemorative name to the list of pre-approved street names.

6. If a developer constructing a new street does not wish to pick from the list of pre-approved street names, the developer may ask the Subcommittee for a waiver to submit his or her own suggested street name(s), but the authority to name City streets shall remain with the Municipal Council and the developer's suggested name(s) must conform with the requirements of Subsection C of this section. The Subcommittee and the Municipal Council reserve the right to reject any proposed new street name.

7. Each new street must be named by separate ordinance and as each name is chosen from the list of pre-approved street names, that name shall be removed from the list by the City Clerk. Once a name is chosen from the pre-approved street name list, that name shall not be reused for any other street

8. In the event that the City vacates a street and the vacated street is intended to remain, either in whole or in part, as a vehicular thoroughfare, it shall be a condition of approval that the street name be selected from the pre-approved street name list.

Such contracts shall contain a stipulation that those workers shall be and/or have been paid not less than the standard compensation in accordance with the provisions of this chapter. This provision shall be included in any lease of the covered developer or its tenants and subtenants to ensure that the provisions of this ordinance shall apply regardless of whether the building service workers are directly or indirectly employed by the business organization receiving the economic development financial assistance. The contract shall provide for annual adjustments of the standard compensation during the term of the contract.

(4) Retaliation prohibited. No covered developer or their agent shall discharge, threaten, penalize, or in any other manner discriminate or retaliate against any building service worker because such building service worker has: (a) made a complaint to a covered developer or their agent, an employer, a co-worker, or a labor union that the covered developer and/or an employer has engaged in conduct that the worker, reasonably and in good faith, believes violates any provision

A building service worker complaint or other communication need not make explicit reference to any section or provision of this chapter to trigger the protection of this section.

The termination or other disciplinary action taken by a covered developer and/or employer against a building service worker within 90 days of the worker's exercise of rights under this section shall raise a rebuttable presumption of having done so in retaliation for the exercise of those rights.

(5) Notice posting. Each covered developer shall, not later than the first day upon which work is required to be performed under the contract, and for the duration of the contract, post in a prominent and accessible place, a poster stating (1) the standard compensation owed to employees under this section, including the standard wage rate, the standard benefit rate, and the standard paid leave rate; (2) employee rights and remedies for a violation of this section; and (3) the contact information for Office of Economic Development and/or any other City office or official designated to receive complaints for violations of this chapter. The Director shall post his or her determinations of the standard wage, benefits and vacation and holiday rates on the City's website.

(6) Reporting. Such certification shall include a record of the days and hours worked, the wages and benefits paid to, paid leave provided and job title of each building service worker employed at the City development project or tax abated project, and the business name, contact name, address, phone number and email address for the employer or employers of building service workers at the project. Such certification shall be certified by the chief executive or chief financial officer of the covered developer, or the designee of any such person. A violation of any provision of the certification, or failure to provide such certification, shall constitute a violation of this section.

(7) Record keeping. Each covered developer shall keep, maintain, and preserve original payroll records for each building service worker reflecting the days and hours worked, the wages and benefits provided for such hours worked, and the worker's job title and shall retain such records

for at least six years after the building service work is performed. The covered developer may satisfy this requirement by obtaining copies of records from the employer or employers of such employees. All payroll records should include the name(s) and contact information of the building service worker's employer(s). Failure to maintain such records as required shall create a rebuttable presumption that the building service workers were not paid the wages and benefits required under this section. Each covered developer shall provide, annually, and within ten days upon written request from the City, a certified original payroll record. The certified payroll shall be considered a public record and every person shall have the right to inspect and copy such record in accordance with the provisions of the Open Public Records Act, N.J.S.A. 47:1A-1, et seq.

(8) Site access. Representatives of the City shall be permitted to have appropriate access to all covered development projects and the authority to inspect payroll and other records in order to monitor compliance.

Where a written agreement between the City and a business organization providing for financial assistance is targeted to particular real property, such list shall include the address of each such property. Such list shall be published on the City's internet website and updated as often as is necessary to keep it current. The Director of Economic Development's failure to include a business organization on the list shall not excuse the business organization from its obligations under this section.

(11) Penalties. In the event of a failure to comply with the provisions of this section, the covered developer shall be provided with a written notice of failure to comply allowing the covered developer ten days to 'cure' the failure to comply. If the covered developer fails to timely cure, then in addition to any other remedies available at law or in equity including termination of the contract the City shall be permitted to seek the following remedies for the failure to comply with this ordinance:

(a) A material breach of any term a) an increase in the amount of the annual service charge of one percent of the estimated annual payment until the breach is cured; or b) a payment to the City of an amount equal to the greater of two percent of the annual value of the economic development subsidy or two-tenths of a percent of the total value of the economic development subsidy:

(b) A material breach of this section that continues for a period of six months or more, shall allow the City to terminate the tax abatement or economic development subsidy.

(12) Right of action for building service workers. Violation of this provisions shall constitute a breach of the standard compensation provisions of the contract by the business organization receiving the economic development subsidy and such provisions shall be considered to be a contract for the

benefit of the building service workers upon which such workers shall have the right to maintain action, as a third party beneficiary, for the difference between the standard wage, standard benefits, and standard paid leave promised or required and actually received by them, and including liquidated damages in the amount of 100 percent of the wages, benefits, and/or leave owed, in addition to base amounts owed, and attorney's fees. The standard compensation shall be considered a building service worker's agreed to wages for the purposes of the Wage Payment Law, N.J.S.A. 34:11-4.1, et seq.

(13) Severability. If any section or provision or the application of the section or provision of this chapter to any person or circumstances shall be held invalid, the validity of the remainder of the sections and the applicability of the sections or provisions to other persons or circumstances shall not be affected.

(h) Supervise and administer all joint purchasing agreements between the City and other governmental agencies.

(i) Supervise the sale of surplus equipment and materials.

(j) Within 12 months subsequent to the effective date of this subsection, the Purchasing Agent of the City of Jersey City must conduct a review of existing product and service specifications to determine whether existing specifications either require or exclude the use of recycled products, reusable products or products designed to be recycled, for use by all departments, agencies, offices, boards and commissions.

(k) Within the same 12-month period, all City departments and agencies must recommend changes to the Purchasing Agent to ensure that performance standards for particular products can be met and that specifications are not overly stringent and to recommend changes to ensure that specifications will incorporate a requirement for the use of recycled materials, reusable products and products designed to be recycled to the maximum extent

practicable, subject to an alternative showing that either the performance of the product will be jeopardized or that the product will negatively impact health, safety or operational efficiency.

(l) Outside contractors bidding to provide products or services to the City, including printing service, must demonstrate that they will comply with the specifications described in Subsection F(2)(j).

(m) City staff will work to encourage the copier industry to develop copiers that will accept recycled paper. In addition, recycled paper shall be purchased and used in all copy machines that will accept it.

(n) The Purchasing Agent shall purchase only new copiers which are capable of utilizing recycled paper.

(o) When recycled products are used, reasonable efforts shall be undertaken to label the products to indicate that they contain recycled materials. City departments and agencies shall use for their masthead stationery and envelopes recycled paper that includes postconsumer recycled content and may indicate on the paper that they contain recycled material. Other recycled products used by the City may also indicate that they contain recycled material.

(p) Contracts shall be awarded for recycled products, reusable products offered as alternative to disposable products and products designed to be recycled where they are offered as alternatives to nonrecyclable products. The contract award shall be based on the lowest responsible bid or price quoted by the supplier or suppliers offering recycled products.

(q) The City will cooperate to the greatest extent feasible with neighboring City and County governments in an effort to develop a comprehensive, consistent and effective procurement effort intended to stimulate the market for recycled products, reusable products and products designed to be recycled.

(r) All related City departments and agencies shall work cooperatively to further the purposes of this chapter. The City's economic development process shall incorporate the goal of stimulating the market for recycled material.

(s) The Purchasing Agent shall annually specify in an annual report, to be filed with the City Clerk, the quantity of RCRA Guideline products with recycled content in terms of their weight and percentage of acquisition in comparison to products without recycled content.

(t) This section establishes a recycled product procurement policy required pursuant to federal law (42 U.S.C. § 6962 of the Resource Conservation and Recovery Act).

(3) Green Product Procurement Policy. Under the direction of the Director of the Department of Finance, the Purchasing Agent shall purchase green products pursuant to the following policy:

(a) Purpose. This subsection shall be known as the "Green Products Procurement Policy." Its purpose is to promote the purchase of products which minimize damage to human health and the City's natural environment, to reduce carbon emissions in the City and to stimulate the market for recycled, reused, and biodegradable products.

(b) Definitions. For the purposes of Subsection F(3) the following definitions apply:

"Biodegradable" means the ability of a substance, material, or product ingredient to readily decompose by the action of microbes.

"Cleaning Product" means a dishwashing detergent or compound, household cleaner, commercial cleaner, industrial cleaner, metal cleaner; degreasing compound or other substance used or intended to be used for cleaning purposes.

"Conventional products" are hereby defined as those products which the Purchasing Agent has evaluated for their effects on human health and the environment and has determined inappropriate for classification as green products, or those products that the Purchasing Agent has not yet so evaluated.

"Electronic device" means:

[1] any cathode ray tube, any product containing a cathode ray tube, any liquid crystal display (LCD), plasma screen or other flat panel television or computer monitor or similar video display product, any battery containing lead, cadmium, lithium or silver, any computer central processing unit that contains one or more circuit boards and includes any desktop computer or any laptop computer or computer peripherals including but not limited to, any keyboard, mouse and other pointing device, printer, scanner, facsimile machine and card reader, and any copier, but not including any automobile, or large piece of commercial or industrial equipment containing a cathode ray tube, a cathode ray tube product, a flat panel display or similar video display device that is contained within, and not separate from, the larger piece of equipment, or any device used by emergency response personnel; or

[2] any other device powered by electricity designated by the Purchasing Agent.

"ENERGY STAR™ Products" are hereby defined as those products which meet the energy efficiency standards set forth by the United States Environmental Protection Agency (EPA) and the U.S. Department of Energy for compliance with its ENERGY STAR® program.

"ENERGY STAR™ electronic device" is hereby defined as any ENERGY STAR™ product that meets the definition of an electronic device.

"Excessive costs" are hereby defined as costs of purchasing green products where either the immediate cost of purchasing the green product exceeds by 75 percent the immediate cost of the comparable conventional product in the current fiscal year, or where the average yearly cost of the green product exceeds by 75 percent the average yearly cost of comparable conventional product when amortized over the entire lifetime of both products. When evaluating the costs of green products and comparable conventional products, the Purchasing Agent shall compare total costs of each including, but not limited to: the costs of maintenance, insurance, disposal, replacement, safety and health, training, material management and potential liability costs.

"Green products" are hereby defined as those products which the Purchasing Agent has determined would have a lesser or reduced negative effect on human health and the environment when compared with comparable conventional products and services, where such comparison includes consideration of all phases of the product's life cycle, including raw materials acquisition, production, manufacturing, packaging, transportation, distribution, operation, maintenance, and disposal, including potential for reuse or ability to be recycled.

"Green purchasing" is hereby defined as the practice of purchasing green products.

"Green Seal" is the non-profit organization, located at 1001 Connecticut Avenue, NW, Suite 827, Washington, DC 20036-5525 which evaluates and certifies products based on each product's environmental impact throughout its life cycle.

"Green Seal™ certified products" are those products which green seal has evaluated and tested for environmental impact and has awarded the Green Seal™ certification, and which maintain such standards so as to allow such certification.

"Pre-consumer waste material" means materials or by-products generated after manufacturing of a product is completed, but before the product reaches the end-use consumer. Pre-consumer waste material does not include home scrap, which is those scrap metals or by-products generated by a company that can be used by the generating company or parent company.

"Post-consumer waste material" means only those materials generated by a consumer which have served their intended end use and which have been separated or diverted from solid waste. Wastes generated during production or an end product are excluded. All materials collected from residential sources in a municipal recycling program may be considered post-consumer.

"Recycled content" means the total amount of pre-consumer waste material and post-consumer recovered material introduced as a feed stock in a material production process, usually expressed as a percentage.

"Recyclable product" means a product which, after its intended end use, 25 percent of the product has been diverted from the solid waste stream for use as a raw material in the manufacture of another consumer or procurable product. For the purposes of this definition, burning or composting of products may not be considered diversion.

"Recycled material" means material and byproducts that have been recovered or diverted from solid waste and that can be utilized in place of raw or virgin material in manufacturing a product. It is derived from post-consumer recycled material, manufacturing waste, industrial scrap, agricultural waste, and other waste material, but does not include material or byproducts generated from, and commonly reused within, an original manufacturing process.

"Toxic or hazardous substance" means any substance that, because of its quantity or concentration, or physical or chemical characteristics, poses a significant present or potential harm to human health and safety or the environment if released into the workplace or environment."

"Purchasing Agent" is hereby defined as the Purchasing Agent for the City of Jersey City or his or her designees.

(c) Mandatory product evaluation. The Purchasing Agent shall, in consultation with the City department(s) ordering or leasing the product(s), evaluate all products in the categories listed in Subsections (l)—(n) below for their environmental impact. The Purchasing Agent shall then classify as green products those products which, considering the totality of their life cycle, have a reduced effect on human health and the environment, when compared with comparable products that serve a similar function.

(d) Permitted product evaluation. The Purchasing Agent may, in consultation with the City department(s) ordering or leasing the product(s), evaluate for environmental impact such other products as he or she deems appropriate and may classify as green products those products which, considering the totality of their life cycle, have a reduced effect on human health and the environment when compared with comparable products that serve a similar function.

(e) Guidance for green product classification. The Purchasing Agent, when evaluating and classifying products as "green products," shall consult:

[1] the Comprehensive Procurement Guideline for Products Containing Recovered Materials, as set forth in part 247 of Title 40 of the United States Code of Federal Regulations;

[2] the EPA's Affirmative Procurement Plan entitled "EPA's Final Guidance on Environmentally Preferable Purchasing;" and

[3] the U.S. Department of Health and Human Service's booklet entitled "Purchasing Green products and Services at the U.S. Department of Health and Human Services" issued by the office of the Assistant Secretary for Administration and Management, Office of Acquisition Management and Policy in July, 2006 (and as amended and supplemented).

[4] Any similar instructional materials recently or later made available by the EPA, the U.S. Department of Health and Human Services, or the N.J. Department of Environmental Protection which may be reasonably instructive in determining whether a product should qualify as a green product.

(f) Classification of third-party certified, recycled, and biodegradable products. When determining whether to classify a product as a green product, the Purchasing Agent shall give substantial consideration to whether products which have achieved GreenSeal™ certification or equivalent third-party certification, whether products are Biodegradable, whether

products are recyclable products and whether products are composed of ten percent or greater recycled content. GreenSeal™ certified products and products which have achieved equivalent third-party certification shall be classified as green products unless they contain dangerous levels of toxic or hazardous substances, as defined in Subsection (i), or unless there is a compelling reason not to so classify them. Compelling reasons against classification of such products as green products may include, but are not limited to:

[1] excessive distance a product must be shipped throughout its life-cycle

[2] environmentally harmful packaging

[3] product's lack of fuel efficiency or energy efficiency

[4] product's emission of chlorofluorocarbons (CFCs); and

[5] product's significant lack of durability.

(g) Requirement for purchasing green products. Subject to paragraph (h) below, the Purchasing Agent shall purchase green products over comparable conventional products whenever the cost of the green product does not exceed by 25 percent the cost of comparable conventional product, and may purchase green products over comparable conventional products when the cost of green product does not exceed by 75 percent the cost of the comparable conventional product. When evaluating the cost of a green product and a comparable product, the Purchasing Agent shall compare total costs over the life of the item, including, but not limited to: the costs of maintenance, insurance, disposal, replacement, safety and health, training, material management and potential liability costs.

(h) Waiver of green product preference. Wherever there exists one or more significant concerns regarding the purchase or lease of a green product, including excessive costs, health, safety, performance, compatibility, lack of availability within a reasonable period of time, or statutory prohibitions the Purchasing Agent may waive the preference for purchasing a green product and may purchase, lease, or allow the purchase or lease of comparable conventional products to the extent such concerns require, subject to Subsection (i)[3]. Reasons for such a waiver shall be detailed in writing by the Purchasing Agent and maintained in the Office of the Purchasing Agent.

(i) Toxic or hazardous substances. The presence of toxic or hazardous substances is to be considered in product classification and purchasing as follows:

[1] The Purchasing Agent shall not classify as green products any products which he or she determines contain dangerous levels of toxic or hazardous substances including, but not limited to lead, mercury, cadmium, hexavalent chromium, polybrominated biphenyls or polybrominated diphenyl ethers.

[2] The Purchasing Agent shall consider a product's achievement of Green Seal Certification or equivalent third-party certification as compelling evidence that the level of toxic or hazardous substances in the product is not dangerous.

[3] The Purchasing Agent shall not select products with dangerous levels of toxic or hazardous substances for purchase or lease except where:

[a] Purchasing Agent has waived the green product requirement pursuant to material concerns specified in Subsection (h) above; and

[b] There is no comparable conventional product available that addresses the material concerns necessitating the waiver but does not contain dangerous levels of toxic or hazardous substances.

(j) Maintenance of information about green products. The Purchasing Agent shall develop and maintain lists, descriptions and other relevant documentary information about green products and recycled products and make such information available to all City departments whenever possible.

(k) Purchasing or lease contract specifications. The Purchasing Agent shall review and modify current and future procurement requirements so that contract specifications, clauses and solicitation language address the standards of Subsection F(3).

(l) Electronic devices. In accordance with Subsections [1]—[5] below, the Purchasing Agent shall evaluate all electronic devices purchased or leased by the City for environmental impact, and determine whether all such electronic devices shall be to classified as green products.

[1] Except as indicated in paragraph (i) above, electronic devices issued the ENERGY STAR™ title shall be considered green products for the purposes of this ordinance.

[2] The Purchasing Agent may also classify electronic devices which are not ENERGY STAR™ products as green products. In determining such classification, the Purchasing Agent shall consult those guidelines and standards issued, or to be issued, by the New Jersey State agency which is, or will be, charged with establishing energy-efficient guidelines, in addition to the guidelines denoted in paragraph (e) and (f) above.

[3] Subject to Subsections [4] and [5] below, when purchasing or leasing new electronic devices or replacing existing electronic devices the City shall select those which are both ENERGY STAR™ products and green products, where available, over those which are green products but not ENERGY STAR™ Products.

[4] In accordance with Subsection (i) above, wherever an ENERGY STAR™ electronic device contains dangerous levels of toxic or hazardous substances, it shall not be considered a green product and shall not be selected over other electronic devices which are green products.

[5] Whenever valid concerns regarding the purchase or lease of a ENERGY STAR™ electronic device exist, including health, safety, performance, availability, statutory prohibitions and/or excessive costs, the Purchasing Agent may waive the requirement for purchasing the ENERGY STAR™ electronic device, and may purchase, lease, or

allow the purchase or lease of comparable non-ENERGY STAR™ products to the extent such concerns require. Reasons for such a waiver shall be detailed in writing by the Purchasing Agent and maintained in the contract file.

(m) Carpets. In accordance with [1] and [2] below, the Purchasing Agent or his or her designee shall evaluate all carpets, carpet cushions, and carpet adhesives purchased or leased by the City for environmental impact, and determine whether all such products shall be classified as green products:

[1] The Purchasing Agent may consider any widely accepted industry recommendations for reduced volatile organic compounds when classifying carpeting products in addition to the guidelines denoted in paragraphs (e) and (f) above.

[2] No carpet, carpet cushion, or carpet adhesive purchased by any City department shall contain the following volatile organic compounds in any significant concentration:

[a] for carpet 4-phenylcyclohexene, formaldehyde or styrene;

[b] for carpet cushions, butylated hydroxytoluene, formaldehyde or 4 phenylcyclohexene; and

[c] for carpet adhesives, formaldehyde or 2-ethyl-hexanol.

(n) Miscellaneous products. The following are hereby designated for green product evaluation. The Purchasing Agent, in consultation with the City department ordering the product, shall evaluate all products within each category as to each product's environmental impact to determine if each product shall be classified as a green product:

[1] Cleaning products;

[2] antifreeze;

[3] insulation products;

[4] recycled plastic products;

[5] re-manufactured laser printer toner cartridges;

[6] paint;

[7] re-manufactured tires and products made from recycled tire rubber, including rubber mats and play field surfaces;

[8] lights and light bulbs.

(o) Reclassification. The Purchasing Agent shall have the authority to change classification status of any product by either adding or removing such product from the list of green

products provided he or she has good cause to reclassify and does so according to the principles set forth in subsections (e), (f) and (i). Good cause to reclassify shall include but not be limited to:

[1] Changes in the physical makeup or manufacture of the product or packaging which result in a material change in the product's net impact on human health, safety, or the environment.

[2] Changes in the distribution or transportation of the product which result in a material change in the product's net impact on human health, safety, or the environment.

[3] Purchasing Agent's discovery of information previously unknown to him or her regarding the presence or absence of dangerous levels of toxic or hazardous substances in the product, the threat any such substances impose, or newly discovered hazards of substances previously not considered hazardous.

[4] Purchasing Agent's discovery of information previously unknown to him or her regarding product's net impact on human health, safety, or the environment.

[5] Changes in the product's status as a GreenSeal™ product, an ENERGY STAR™ product or other comparable changes in third-party certification status.

(p) The City of Jersey City will not purchase products containing in whole or in part wood from tropical forests or temperate rainforests excepting those woods which are proven to have been harvested in an environmentally sound manner in accordance with the guidelines set forth in Appendix A.

The City will not allow the use or purchase of products containing in whole or in part wood from tropical forests or temperate rainforests by any entity either using monies provided by the City of Jersey City for fulfillment of contracts or purchasing agreements, or on leased properties belonging to the City.

APPENDIX A

Terms of this resolution will be met if it can be proven through an independent certification program approved by the Forest Stewardship Council that the tropical forest or temperate rainforest wood product has come from a forest operation that meets the following conditions*:

Local Involvement

Local communities are involved in all stages of planning and management of a diverse array of forest products for sustainable yields, including non-timber forest products.

Land Rights

Projects must not interfere with aboriginal or traditional land rights of indigenous peoples, or other current land tenants.

Ecology

Timber harvesting cannot adversely affect beneficial physical processes such as climatic regulations, the surface or ground water quality or the overall watershed function.

Timber harvesting must maintain soil productivity and not increase erosion rates.

Timber harvesting must not use synthetic or other harmful pesticides or herbicides.

Timber harvesting must not diminish biological diversity of flora and fauna including tree species.†

The potential for continuous harvest of all timber and non-timber forest products must be maintained.

* At this time there are certain independent programs that certify timber production in the tropics and in temperate regions as meeting these and other conditions. These include but are not limited to the Smart Wood™ Program of the Rainforest Alliance, and Scientific Certification Systems. Wood products labeled as Smart Wood™ or SCS Certified would meet the above conditions and would be considered acceptable as meeting the conditions of this ordinance.

† Forest Stewardship Council (FSC)-accredited certifications in old growth tropical rainforests are not currently meeting this criterion and are therefore excluded from this exemption. The Forest Stewardship Council is an international body accepted as an overseer of independent certifiers. The Forest Stewardship Council guidelines have met with approval by organizations around the world.

(4) Green vehicle procurement policy. Under the direction of the Director of the Department of Finance, the Purchasing Agent in consultation with the Department of Public Works shall purchase green vehicles pursuant to the following policy:

(a) Purpose. This subsection shall be known as the "Green Fleet Vehicle Initiative." Its purpose is to promote the purchase of products which minimize damage to human health and the City's natural environment, to reduce carbon and greenhouse gas emissions in the City, to reduce the City's dependence on fossil fuels, and reduce the City's costs by increasing the fuel efficiency of its fleet of non-emergency vehicles.

(1) All employees employed either full time or part time by an entity that has entered into a qualified contract with the City or a contract to furnish janitorial, unarmed security, clerical or food services for any property or premises owned or leased by the City, shall be provided with standard paid leave.

A contracting entity's failure to follow the requirements of this subparagraph may result in termination of the contract.

(4) Remedy. Violation of these provisions shall constitute a breach of contract by the contractor or subcontractor, and such provisions shall be considered to be a contract for the benefit of the building service workers upon which such workers shall have the right to maintain action for the difference between the hourly rate of pay, benefits and paid leave and the hourly rate of pay, benefits and paid leave actually received by them.

(5) For purposes of this section, the word "full time" shall mean those employees who work a minimum of 25 hours per week exclusively under a qualified contract with the City, excluding meal periods; the word "part time" shall mean those employees who work less than 25 hours per week.

If there is no such collective bargaining agreement the following provision shall apply. Those employees employed full time by an entity that has entered into a qualified contract with the City or a contract to furnish janitorial or security services for any property or premises owned or leased by the City, who qualify under this subsection, shall accrue at least five days of paid vacation for the first six months of continuous employment and an additional five days for the second six months of continuous employment under the same contract.

(11) For the purposes of this section, the "standard hourly rate of pay" shall be 150 percent of the federal minimum wage, or the hourly rate of pay for work performed within the City under the collective bargaining agreement covering the largest number of hourly non-supervisory employees employed within Hudson County in the relevant classification, provided the collective bargaining agreement covers no less than 200 employees in the classification, or the hourly rate paid to workers in the relevant classification under a preceding qualified contract, whichever is higher.

The required hourly supplemental rate shall be equal to the monetary value of the benefits provided by the collective bargaining agreement covering the largest number of hourly non-supervisory employees employed within Hudson County in the relevant classification, provided the collective bargaining agreement covers no less than 200 employees in the classification. If there is no such collective bargaining agreement "standard benefits" shall be an additional hourly rate of $3.10 provided as a supplement to cover health benefits.

(13) For the purposes of this section, "relevant classification" shall mean food service worker for food service workers, clerical workers, janitors and security guards.

(14) For the purpose of this section, "health benefits" shall not include workers compensation insurance, nor shall it include the value of any benefit for which an employee is eligible but for which no payment is actually made by a contractor to the employee or to any other party on the employee's behalf because the employee either does not actually utilize or does not elect to receive the benefit for any reason.

(15) For the purposes of this section, the annual adjustments of the hourly rate of pay and benefits shall be made in the following way: The annually adjusted hourly rate of pay shall be the

previous hourly rate of pay increased by the annual percentage difference between the current New York Metropolitan Area Consumer Price Index (CPI) for all items for All Urban Consumers and the same CPI for same month of the previous year, or the hourly rate of pay for work performed within the City under the current collective bargaining agreement covering the largest number of hourly non-supervisory employees employed within Hudson County in the relevant classification, provided the collective bargaining agreement covers no less than 200 employees in the classification, whichever is higher. The benefit rate shall be annually adjusted accordingly.

(16)The provisions of this shall apply to all contracts awarded, renewed, modified or extended after the date of enactment of this section. However, to provide an orderly transition for implementation of this section, the City may, after the date of enactment of this section, enter into short-term extensions of extant contracts, so that the extended contract extends no more than 90 days beyond the date of enactment of this section. § 4-3. Application. [Added 9-25-2013 by Ord. No. 13-097; amended 10-28-2015 by Ord. No. 15-145]

This chapter requires all those employed within the City of Jersey City to accrue either paid or unpaid sick time from their employer as mandated by this chapter utilizing the formula applied herein.

Individuals who work for employers who employ ten (10) or more employees shall accrue compensated sick time up to a maximum of forty (40) hours per year.

Individuals who work for employers who employ less than ten (10) employees shall accrue compensated sick time up to a maximum of twenty-four (24) hours per year. In addition, once such individuals have accrued twenty-four (24) hours of compensated sick time, they shall accrue unpaid sick time up to a maximum of sixteen (16) hours per year.

Taking of sick time, whether compensated or not shall not be the basis of an adverse employment action.

A. Accrual of Paid Sick Time.

(1) Employees shall accrue a minimum of one (1) hour of paid or unpaid sick time for every thirty (30) hours worked subject to the limits set forth below in A(2) and A(3).

(2) Employers who employ ten (10) or more employees for compensation are not required to provide more than forty (40) hours of paid sick time in a calendar year. In determining the number of employees performing work for an employer, all employees performing work for compensation on a full-time, part-time, or temporary basis shall be counted, provided that where the number of employees who work for an employer for compensation fluctuates, the number of employees may be determined for the current calendar year based upon the average number of employees who worked for compensation during the preceding calendar year.

Employers who employ less than ten (10) employees for compensation are not required to provide more than twenty-four (24) hours of paid sick time in a calendar year except for employees who are child care workers, home health care workers and food service workers. For child care workers, health care workers and food service workers, employers are required to provide up to forty (40) hours of paid sick time, so long as the hours are accrued in a calendar year as set forth elsewhere in this Section.

In determining the number of employees performing work for an employer, all employees performing work for compensation, whether on a full-time, part-time, or temporary basis shall be counted, provided that where the number of employees who work for an employer for compensation fluctuates, the number of employees may be determined for the current calendar year based upon the average number of employees who worked for compensation during the preceding calendar year.

(3) Employees who are exempt from overtime requirements under 29 U.S.C. § 201 et seq. of the Federal Fair Labor Standards Act are assumed to work forty (40) hours in each work week for purposes of paid sick time accrual unless their normal work week is less than forty (40) hours, in which case paid sick time accrues based upon that normal work week.

(4) Paid sick time as provided in this section begins to accrue at the commencement of employment.

(5) Employees begin to accrue paid sick time on the first day of employment. Employees are entitled to use accrued paid sick time beginning on the ninetieth calendar day of their employment. After the ninetieth calendar day of employment, employees may use paid sick time as it is accrued.

(6) Paid sick time is carried over to the following calendar year except that no employer is required to carry over more than forty (40) hours of paid sick time from one (1) calendar year to the next and nothing in this section entitles an employee to use more than forty (40) hours of paid sick time in a calendar year.

(7) Any employer with a paid leave policy, such as a paid time off policy, that provides an amount of paid leave sufficient to meet the total annual accrual requirements of this section that may be used for the same purposes and under the same conditions as paid sick time under this chapter is not required to provide additional paid sick time.

(8) Nothing in this section shall be construed as requiring financial or other reimbursement to an employee from an employer upon the employee's termination, resignation, retirement, or other separation from employment for accrued paid sick time that has not been used.

(9) If an employee is transferred to a separate division, entity, or location, but remains employed by the same employer, the employee is entitled to all paid sick time accrued at the prior division, entity, or location and is entitled to use all paid sick time as provided in this section. If there is a separation from employment and the employee is rehired within six (6) months of separation, previously accrued paid sick time that had not been used shall be reinstated. Further, the employee is entitled to use accrued paid sick time and accrue additional paid sick time at the re-commencement of employment.

(10) When a different employer succeeds or takes the place of an existing employer, all employees of the original employer who remain employed by the successor employer are entitled to all paid sick time accrued when employed by the original employer and are entitled to use all paid sick leave previously accrued.

(11) At its discretion, an employer may loan sick time to an employee in advance of accrual by such employee.

(12) The requirements of this Chapter shall not apply to employees covered by a collective bargaining agreement (CBA) to the extent that such requirements are expressly waived in the collective bargaining agreement in clear and unambiguous terms. With respect to employees covered by a collective bargaining agreement in effect at the time of the effective date of this Chapter, no provision of this Chapter shall apply until the expiration of the collective bargaining agreement; however, if the terms of an expired collective bargaining agreement provide paid sick leave that is more generous than provided by this Chapter, those terms of the expired collective bargaining agreement shall govern.

B. Use of Sick Time.

(1) Sick time shall be provided to an employee by an employer for:

a. An employee's mental or physical illness, injury, or health condition; an employee's need for medical diagnosis, care, or treatment of a mental or physical illness, injury, or health condition; an employee's need for preventive medical care;

b. Care of a family member with a mental or physical illness, injury, or health condition; care of a family member who needs medical diagnosis, care, or treatment of a mental or physical illness, injury, or health condition; care of a family member who needs preventive medical care; and

c. Closure of the employee's place of business by order of a public official due to a public health emergency or an employee's need to care for a child whose school or place of care has been closed by order of a public official due to a public health emergency, or care for a family member when it has been determined by the health authorities having jurisdiction or by a health care provider that the family member's presence in the community would jeopardize the health of others because of the family member's exposure to a communicable disease, whether or not the family member has actually contracted the communicable disease.

(2) Sick time shall be provided upon the oral request of an employee.

(3) An employee shall give an employer notice of the need to use sick time as soon as practicable.

(4) An employer may not require, as a condition of an employee's taking sick time, that the employee search for or find a replacement worker to cover the hours during which the employee is absent.

(5) Accrued sick time may be used in the smaller of hourly increments or the smallest increment that the employer's payroll system uses to account for absences or use of other time.

(6) For sick time of more than three (3) consecutive days, an employer may require reasonable documentation that the paid sick time has been used for a purpose covered by Section 4-2 of

this chapter. Reasonable documentation includes: documentation signed by a heath care professional indicating that paid sick time is necessary. An employer may not require that the documentation explain the nature of the illness.

(7) Individuals who work for employers who employ less than ten (10) employees and who have accrued both compensated and unpaid sick time shall not be required by his or her employer to exhaust unpaid sick time before using compensated sick time.

§ 4-4. Exercise of rights protected; retaliation prohibited. [Added 9-25-2013 by Ord. No. 13-097]

A. No person shall interfere with, restrain, or deny the exercise of, or the attempt to exercise, any right protected under this chapter.

C. The rights protected under this chapter include but are not limited to the right to request and use paid sick time pursuant to this chapter; the right to file a complaint or inform any person about any employer's alleged violation of this chapter; the right to cooperate with the Agency in its investigations of alleged violations of this chapter; the right to participate in any administrative or judicial action regarding an alleged violation of this chapter; and the right to inform any person of his or her potential rights under this chapter.

D. It is unlawful for an employer's absence control policy to count paid sick time taken under this chapter as an absence that may lead to or result in discipline, discharge, demotion, suspension, or any other adverse action.

E. Protections of this section apply to any person who mistakenly but in good faith alleges violations of this chapter.

F. There is a rebuttable presumption of unlawful retaliation under this section whenever an employer takes adverse action against a person within ninety (90) days of when that person:

(1) Files a complaint with the Agency or a court alleging a violation of any provision of this chapter;

(2) Informs any person about an employer's alleged violation of this chapter;

(3) Cooperates with the Agency or other persons in the investigation or prosecution of any alleged violation of this chapter;

(4) Opposes any policy, practice, or ordinance that is unlawful under this chapter; or

(5) Informs any person of his or her potential rights under this chapter.

§ 4-5. Notice and posting. [Added 9-25-2013 by Ord. No. 13-097]

A. All employers shall give individual written notice to each of their employees at the commencement of the employee's employment (or as soon as practicable if the employee is already employed on the

effective date of this law) regarding employee's rights under this chapter. Such notice shall describe the right to paid sick time, the accrual rate and the amount of paid sick time, and the terms of its use guaranteed under this chapter; the right to be free from retaliation for requesting use of paid sick time; and the right to file a complaint or bring a civil action if paid sick time is denied by the employer or the employee is retaliated against for requesting or taking paid sick time. Such notice shall be in English and the primary language spoken by that employee provided that the Department has made available a translation of such notice into such language.

B. Employers shall also display a poster in a conspicuous and accessible place in each establishment where employees are employed containing notice of this chapter. The poster shall be in English and in any language that is the first language of at least ten percent (10%) of the employer's workforce provided that the Department has made available a translation of such notice into such language.

C. The Department shall create and make available to employers individual notices and posters. Notices and posters shall be provided in English, Spanish, Italian, Chinese, Polish, Portuguese, Tagalog, and any other languages selected by the Agency.

§ 4-6. Employer records. [Added 9-25-2013 by Ord. No. 13-097]

Employers shall retain for three (3) years records documenting hours worked by employees and paid sick time taken by employees and shall allow the Department reasonable access to such records, to monitor compliance with the requirements of this chapter. An employer's failure to maintain or retain adequate records documenting hours worked by an employee and paid sick time taken by an employee create a rebuttable presumption that the employer has violated this chapter, absent clear and convincing evidence otherwise.

A. The Department shall coordinate implementation and enforcement of this chapter and shall promulgate appropriate guidelines or regulations for such purposes.

Investigators from the Department shall be empowered to interview employees and former employees in private outside the presence of the employer, and the power to determine whether or not employers have complied with this chapter. The Department shall also have the power to inform residents of the City of their rights under this chapter.

C. The Department shall maintain confidential the identity of any complaining person unless disclosure of the identity is necessary for resolution of the investigation. The Department shall, to the extent practicable, notify a complaining person that the Department will be disclosing his or her identity prior to such a disclosure.

D. The Department shall establish a system for reviewing and adjudicating complaints by employees. Employers deemed by the Department to be in violation of this chapter shall be subject to the penalty prescribed in § 1-25 of the Municipal Code: the maximum penalty for violating this chapter shall be, in the discretion of the Court, a fine of up to two thousand dollars ($2,000.00) and/or a period of community service not exceeding ninety (90) days. This penalty shall apply to each individual infraction of this chapter. This section shall not affect any mandatory minimum penalty established by any section of the Code or ordinance. **[Amended 10-28-2015 by Ord. No. 15-145]**

E. Any person claiming to be aggrieved by the violation of this chapter may bring a cause of action in any court of competent jurisdiction. Submitting a complaint to the Department is neither a prerequisite nor a bar to bringing private action.

§ 4-8. Confidentiality and non-disclosure. [Added 9-25-2013 by Ord. No. 13-097]

An employer may not require disclosure of details relating to an employee's or an employee's family member's medical condition as a condition of providing paid sick time under this chapter. If an employer possesses health information about an employee or employee's family member, such information shall be treated as confidential and not disclosed except to the affected employee or with the permission of the affected employee.

Chapter 27

DEFENSE AND INDEMNIFICATION*

§ 27-1. Purpose; prior practices superseded.
§ 27-2. Definitions.
§ 27-3. Corporation Counsel's duty to defend city employees.
§ 27-4. Grounds for refusal to provide defense.
§ 27-5. Methods of providing defense.
§ 27-6. Corporation Counsel to assume control of defense.
§ 27-7. Indemnification of employee; punitive damages.

§ 27-1. Purpose; prior practices superseded.

It has been the practice of the City of Jersey City to defend lawsuits against employees which arise out of the good faith performance of official duties and to pay any judgment against an employee which he or she incurs in the good faith performance of official duties. The purpose of this chapter is to define clearly the circumstances under which the Corporation Counsel will defend lawsuits against employees and the terms on which the city will indemnify employees against any judgments arising out of official duties. The duty to defend and indemnify employees, as defined in this chapter, supersedes all prior customs and practices regarding the defense and indemnification of employees.

§ 27-2. Definitions.

As used in this chapter, the following terms shall have the meanings indicated:

EMPLOYEE - Any officer or employee of the City of Jersey City, whether elected or appointed, except employees of the Department of Public Safety entitled to a legal defense under N.J.S.A. 40A:14-28 and 40A:14-155.

LEGAL ACTION or ACTION - Includes any civil action against an employee before any court or administrative body of competent jurisdiction, either state or federal, whether brought by way of complaint, cross-claim or counterclaim. The term "legal action" does not include criminal or quasi-criminal actions, whether brought by complaint or indictment.

§ 27-3. Corporation Counsel's duty to defend city employees.

Except as provided in § 27-4, the Corporation Counsel shall provide for the defense of any legal action against an employee arising out of an act or omission within the scope of employment, provided that the employee:

A. Requests a legal defense in writing.

*__History__—Adopted by the Council of the City of Jersey City at time of adoption of Code; see Ch. 1, General Provisions, Art. I. Amendments noted where applicable.

__Cross references__—Administration of government, Ch. 3; ethics, Ch. 33; personnel policies, Ch. 53.

B. Cooperates with the Corporation Counsel in his or her defense.

Cross reference—Powers and duties of Corporation Counsel, § 3-115.

§ 27-4. Grounds for refusal to provide defense. [Amended 6-26-2019 by Ord. No. 19-066]

A. The Corporation Counsel may refuse to provide for the defense of a legal action against an employee if he or she determines that:

(1) The act or omission was not within the scope of employment;

(2) The act or omission was one of fraud, actual malice, willful misconduct or one that would constitute a crime or offense under N.J.S.A. 2C, federal criminal law or an act committed in another state that would constitute a crime or offense under N.J.S.A. 2C.

(3) Legal defense by the Corporation Counsel would create a conflict of interest between the city and the employee;

(4) The employee has failed to cooperate fully with the Corporation Counsel in his or her defense;

(5) The employee failed to request a legal defense; or

(6) The action was brought by the city against the employee.

B. Under circumstances where the factual predicate for a legal action against an employee cannot be ascertained with certainty, the Corporation Counsel may, in the exercise of his or her discretion, provide for the defense of a legal action against an employee under a reservation of rights. If the Corporation Counsel later determines that the employee is not entitled to a legal defense at the city's expense, he or she shall so notify the employee in writing and the city's obligation to provide a defense for the employee shall cease.

§ 27-5. Methods of providing defense.

A. The Corporation Counsel may at his or her option provide for legal defense of an employee by:

(1) Assigning the defense to an attorney on his or her staff;

(2) Engaging an independent attorney selected by the Corporation Counsel; or

(3) Asserting the city's right to a defense under any appropriate insurance policy which requires the insurer to provide the defense.

B. No employee shall be reimbursed for the expenses of a legal defense unless the Corporation Counsel has agreed in writing to the amount of reimbursement before the employee incurs any expenses in his or her defense.

§ 27-6. Corporation Counsel to assume control of defense.

Whenever the Corporation Counsel provides for the defense of an employee, he or she may assume exclusive control over the employee's defense, and the employee shall cooperate fully with the Corporation Counsel's defense.

§ 27-7. Indemnification of employee; punitive damages. [Amended 6-26-2019 by Ord. No. 19-066]

A. Whenever the Corporation Counsel is required to provide for the defense of any action against an employee, the city shall pay or reimburse the employee for:

(1) Any bona fide settlement of the action approved by the Corporation Counsel and the City Council.

(2) Any judgment against the employee.

B. Subject to Subsections C and D, in any legal action in which the defense of an employee is provided under a policy of liability insurance, the city shall indemnify the employee against any judgment or settlement to the extent not provided by such insurance.

C. Notwithstanding any other provision of this Chapter, the city will not indemnify, pay or reimburse an employee for any judgment entered against them in a legal action if it is determined that the basis for such judgment was an unlawful exercise of the employee's official duties, including, but not limited to conduct that constitutes discrimination, harassment, retaliation or any intentional tort. This prohibition on indemnification also includes conspiracy to and/or aiding and abetting of an unlawful exercise of another employee's official duties as described above. The city may, however, indemnify, pay or reimburse an employee for a judgment entered against them in such a legal action if, in the opinion of the Corporation Counsel, the act or omission upon which the judgment was entered was not an unlawful exercise of the employee's official duties as described above.

D. Nothing in this section shall authorize the city to pay punitive or exemplary damages assessed against an employee or any damages resulting from the commission of a crime, actual malice, actual fraud or willful misconduct.

Editor's note—Former Section 2-223.4, which followed this section in the original legislation upon which this chapter is based (Ord. No. MC-303), and which authorized reimbursement of Council fees for civilian employees, was declared invalid by a ruling of the Superior Court of New Jersey.

G. The Board shall render a decision as to whether the conduct of the officer, candidate or employee is in conflict with the Code of Ethics or any financial disclosure requirements. This decision shall be by no less than two-thirds (2/3) of all members of the Board.

When a person who is in the career service is found to have violated the provisions of this Article or any Code of Ethics in effect pursuant to this Article, the procedure leading to removal, suspension, demotion or other disciplinary action shall be governed by any applicable procedures of Title 11A of the New Jersey Statutes and the rules promulgated pursuant thereto.

§ 48-1. Purpose and intent. [Added 4-10-2024 by Ord. No. 24-015]

The purpose of these regulations is to establish minimum standards for the design, installation, and maintenance use of native vegetation by the City, to promote the preservation of native plant communities.

It is the intent of this chapter to maximize the use of appropriate native plants on municipal properties to help mitigate the effects of habitat loss and fragmentation from development, and in order to combat the climate crisis, stormwater overflow, species extinction, global warming to promote the public health, safety, and welfare by:

A. Acknowledging that pollination is an essential ecological survival function that depends on native plants and the pollinators that rely on them;

B. Promoting microhabitats for the conservation of wildlife by establishing new wildlife habitat while maintaining and connecting existing habitat;

C. Doing our part to reverse the massive decline in native pollinator populations from loss of habitat due to development, widespread use of pesticides, and from our insistence on using non-native plants in landscaping;

D. Creating larger and, more connected plant populations to help ensure the future of native plant species by increasing their ability to migrate in response to changes in climate;

E. Promoting public health through the long term, widespread adoption of diverse native plantings; and,

F. Educating residents on the importance of native plant species and native pollinators to the ecosystem. **[Added 4-10-2024 by Ord. No. 24-015]**

§ 48-2. Definitions. [Added 4-10-2024 by Ord. No. 24-015]

A. COMMUNITY GARDEN — a public or community use area intended for the purposes of gardening.

B. ENDANGERED PLANT — any plant species which is in danger of extinction throughout all or a significant part of its native range.

C. ESTABLISHED PLANT — any introduced plant that can survive and produce self-sustaining populations without human assistance.

D. GARDEN — a cultivated area dedicated to growing vegetables, fruits, annual and perennial plants, ornamental grasses, and ground cover in a well-defined location.

E. HABITAT GARDEN — an intentionally cultivated space designed to benefit wildfire containing native plants, shrubs, and grasses intended to provide food and shelter for native insects, birds, and small mammals through the seasons wile conserving biodiversity.

F. INTRODUCED PLANT — a plant species that humans either intentionally or unintentionally moved to a new location.

G. INVASIVE PLANT (DOMINATING/ PROBLEMATIC) — a plant species reproducing outside its native range and outside cultivation that causes harm or disrupts naturally occurring native plant communities by altering structure, composition, natural processes, or habitat quality.

H. LANDSCAPED AREA — parks, public space, streetscapes, open spaces.

I. LANDSCAPING — any combination of living plants and non-living landscape material such as rocks, pebbles, sand, mulch, walls, fences, or decorative paving materials.

J. MANAGED NATURAL LANDSCAPE — a planned, intentional, and maintained planting of native or non-native grasses, wildflowers, forbs, ferns, shrubs, or trees, including but not limited to rain gardens, meadow vegetation, and ornamental plantings. Meadow vegetation means grasses and flowering broad-leaf plants that are native to, or adapted to, and that are commonly found in meadow and prairie plant communities, not including noxious weeds.

K. MONOCULTURE — the practice of planting one (1) species in a field or garden.

L. NATIVE PLANT — those species of plants naturally occurring within the northeast and mid-Atlantic regions of the United States before Euro-American settlement, according to best scientific and historical documentation.

M. NEONICOTINOIDS — a class of synthetic, neurotoxic insecticides that are used on agricultural crops, lawns, gardens, golf courses, and in flea and tick pet treatments. Developed in the mid-1990s, neonics affect both targeted and non-targeted insects and are toxic to many pollinating insects.

N. NON-NATIVE PLANT — a plant introduced with human help (intentionally or accidentally) to a new, different eco-region habitat where it was not previously found.

O. CULTIVAR — a subspecies classification describing plants varieties which are produced through artificial selection and are not straight species.

P. POLLINATORS — animals (primarily insect, but sometimes avian or mammalian) that fertilize plants, resulting in the formation of seeds and the fruit surrounding seeds, that humans and other animals rely on to produce nuts and fruits that are essential components of a healthy diet, and that the majority of flowering plant species found world-wide rely on to make the seeds that will become the next generation of plants.

Q. POLLINATOR GARDEN — a garden designed with the intent of growing specific nectar and pollen-producing plants, in a way that attracts pollinating insects known as pollinators.

R. POLLINATOR PATHWAY — public and private pesticide-free corridors of native plants that provide nutrition and habitat for pollinating insects and birds. Even the smallest green spaces, like flower boxes and curb strips, can be part of a pathway.

S. RAIN GARDEN — a native plant garden that is designed not only to aesthetically improve properties, but also to reduce the amount of storm water and accompanying pollutants from entering streams, rivers, and lakes. Including bioswales.

T. REMOVE — to transport a native plant from the premises on which it has been growing.

U. STRAIGHT SPECIES — a native plant that is not a cultivar or has not been bred to emphasize or minimize certain traits of the parent plant. Naturally occurring hybrids of native plants shall be considered as Straight Species for the purpose of this chapter.

§ 48-3. Limits on weed control laws. [Added 4-10-2024 by Ord. No. 24-015]

No regulation shall be enacted by the City or any person or entity which prohibits or discourages the planting, maintenance, or protection of native plants or requires or incentivizes the removal or reduction of native vegetation, except when deemed necessary for public safety.

This chapter shall be a minimum standard and shall apply to all public buildings, public land and parks within the incorporated and unincorporated areas of the City.

1. Protect and promote appropriate native vegetation; and

2. Promote microhabitats in urban areas for the conservation of pollinators and birds; and

3. Create larger, more connected plant populations, to help ensure the future of native plant species by increasing their ability to migrate in response to change in climate.

4. Take leadership in addressing the bio-diversity crisis by creating pollinator pathways.

B. To avoid creating a monoculture, different types of plants species shall be planted as follows:

1. When planting five (5) to ten (10) plantings, two (2) or more species will be required.

2. When planting eleven (11) to twenty (20) plantings, four (4) or more species will be required.

3. When planting twenty-one (21) or more plantings, five (5) or more species will be required.

C. The City may plant non-native, non-invasive plants in the following areas or for the following purposes; provided, however, that the City shall still make an effort to include native plants where appropriate:

The purpose of this article is to provide standards to help assure that the practice of massage, bodywork and somatic therapy does not cause injury or disease to clients and does not degenerate into prostitution.

1. Applications for permits to demolish (in whole or in part) a building or structure or to reconstruct the façade of any building or structure shall require the prior approval of the Zoning Officer for compliance with the provisions of Chapter 345 regarding historic preservation and other applicable sections of Chapter 345, as well as the criteria for evaluation set forth in 36 C.F.R. 60.4, as applicable, which are adopted and incorporated by reference herein.* In cases in which the Construction Official determines the building or structure is an imminent hazard pursuant to N.J.A.C. 5:23-2.32, the applicant need only file permits with the Office of the Construction Official.

A complete application shall include payment of the applicable fee required by Chapter 160 and all information and materials the Director may require.

3. The Historic Preservation Officer shall make a finding or recommendation on applications within 45 days of the application being deemed complete. Applications approved by the Zoning Officer, on recommendation by the Historic Preservation Officer, may thereafter be submitted to the Construction Official as a "prior approval" together with the application for a demolition permit in accordance with N.J.A.C. 5:23-2.14. Applications denied based on any of the criteria in Chapter 345 regarding historic preservation shall be referred to the Historic Preservation Commission together with a report from the Historic Preservation Officer within the Division of Planning explaining the reasons for the denial regarding relevant sections of Chapter 345. The Commission shall review the application, the recommendation of the Historic Preservation Officer, and any documents submitted by the applicant in support of the application for prior approval. If within 45 days the Historic Preservation Commission recommends denying prior approval or recommends conditions to prior approval, the Zoning Officer shall deny prior approval or include conditions with prior approval, as the case may be. Failure to report within 45 days shall constitute a prior approval permit without conditions, and the Zoning Officer may release the application to the Construction Official.

4. Prior approval shall be valid for one year from the date of issuance.

5. As provided by N.J.S.A. 40:55D-70(a), the Zoning Board of Adjustment shall have the power to hear and decide appeals from a decision of the Zoning Officer denying prior approval of an application for a demolition permit.

Declared candidates for any elective office and persons advocating any cause, viewpoint or proposed policy of a partisan nature will not be eligible to appear on the channel ninety (90) days prior to an election, unless they appear in a forum in which all candidates or sides of an issue are given equal time. For purposes of policy, a person is considered to be a candidate from the time of announcing publicly for any public office until the election has been held. This policy does not apply to persons who receive incidental air time as part of a public meeting being televised, nor to officials acting as part of the regular duties when such actions do not involve partisan policies;

C. Neutrality: in any program concerning subjects that may be interpreted to be materially controversial, JCITV will maintain a position of neutrality, providing unbiased information. Requests for presentation of an opposing viewpoint during a legislative meeting will be directed to the appropriate agency for action on their agenda;

The child and the parent will also be advised that a second violation of the Curfew Ordinance will make the parent and child also liable for a minimum fine of $100, a maximum fine as provided in Chapter 1, General Provisions, § 1-25. Before releasing the child, the Department of Public Safety may request the parent or guardian to submit an appropriate form of identification and sign an appropriate authorization.

B. If the Curfew Center is full or otherwise unavailable, any police officer upon finding a child in violation of § 137-2 may ascertain the name and address of such child and warn the child that he or she is in violation of the curfew and shall direct the child to proceed at once to his or her home or usual place of abode. The police officer shall report such action to the Juvenile Division of the Department of Public Safety which shall in the case of the first violation by a child send by certified mail to the

parents or guardians of the child written notice of the violation with a warning that a second violation will result in the parent and child being liable for community service and that, for a subsequent violation, the parent and child will also be liable for a minimum fine of $100, a maximum fine as provided in Chapter 1, General Provisions, § 1-25, as well as community service.

C. The provisions of this section shall not limit the power of the Department of Public Safety to charge parents, guardians or the operators of business establishments with violations of this chapter pursuant to § 137-3.

§ 137-5. Violations and penalties.

A. Any parent or guardian found guilty of violating this chapter after receiving a warning in accordance with § 137-4 shall be liable for community service. Any subsequent violation of the provisions of this chapter shall also make the parent and child liable for a minimum fine of $100 and a maximum fine as provided in Chapter 1, General Provisions, § 1-25. If both a child and a child's parent or guardian violate this chapter, they shall be required to perform community service together.

(2) Community service; or

(3) Both a fine and community service.

C. Names of parents, guardians or business operators who defiantly violate the provisions of this chapter may be published in a newspaper of general circulation within the City of Jersey City. A parent, guardian or business operator shall be considered a defiant violator if he or she is found guilty of three or more violations of this chapter.

§ 137-6. Exceptions.

The provisions of this chapter shall not apply in the following situations:

B. If the child is accompanied by an adult authorized by a parent to accompany the minor for a designated period of time and specific purpose within a specific area.

D. (Reserved)

E. (Reserved)

F. (Reserved)

G. The minor carries a certified card of employment or is on the way to or from a place of employment.

H. The minor is in a motor vehicle with parental consent from normal travel, either intra- or interstate, through the City of Jersey City.

1. The minor carries on his or her person a special permit from the Chief of Police authorized as follows: when necessary nighttime activities of a minor may be inadequately provided for by other provisions of this chapter recourse may be had to the Chief of Police, either for a regulation as provided in Subsection J or for a special permit as the circumstances warrant: upon the findings of necessity for the use of the streets to the extent warranted by a written application signed by a minor and by a parent of the minor, if feasible, stating the name, age and address of the minor; the name, address and telephone number of a parent thereof; the height, weight, sex, color of eyes and hair and other physical characteristics of the minor; the necessity which requires the minor to be present on the public streets; and the beginning and ending of the period of time involved by date and hour. The Chief of Police may grant a permit in writing for the use by the minor of streets at such hours as in the opinion of the Chief of Police may reasonably be necessary. In an emergency this may be accomplished by telephone or other effective communication, with a corresponding record being made contemporaneously by the Chief of Police or to the person designated by the Chief of Police to act on his or her behalf in an emergency, at the police station.

J. There exists a regulation issued by the Chief of Police in other similar cases of reasonable necessity, similarly handled but adapted to necessary nighttime activities of more minors than can readily be dealt with on an individual special permit basis. Such regulation by the Chief of Police permitting use of the streets should be issued sufficiently in advance to permit appropriate publicity through news media and through other agencies such as the schools. It shall define the activity, the scope of the use of the streets permitted, the period of time involved, not to extend more than thirty (30) minutes beyond the time for termination of the activity, and the reason for finding that the regulation is reasonably necessary and is consistent with the purposes of this chapter.

§ 137-7. Severability. [Amended 9-11-2013 by Ord. No. 13-081]

Severability is intended throughout and within the provisions of the Curfew Ordinance. If any provision, including any exemption, part, phrase or term or the application thereof to any person or circumstance, is held invalid, the application to other persons or circumstances shall not be affected thereby and the validity of the Curfew Ordinance in any and all other respects shall not be affected thereby. Additional exemptions to be included under § 137-6 will be considered by City Council as warranted by future experience illuminated by the views of student government associations, school personnel, citizens, associations, parents, officers and persons in authority concerned positively with minors as well as with juvenile delinquency. The Department of Public Safety shall be responsible to make periodic reviews of the practical aspects of enforcement and interpretation of this chapter, including the need for clarification or relaxation of any term or provision contained herein as well as the need for continued or discontinued curfew regulations. Whenever, in the opinion of the City Attorney or of any court, the application of this chapter to a particular act or activity of a minor is unclear or ambiguous, the less restrictive interpretation shall be deemed to be the intent of the chapter.

§ 148-4.1. Pay transparency. [Added 3-23-2022 by Ord. No. 22-026; amended 6-15-2022 by Ord. No. 22-045]

A. An employer, employment agency, or agent of an employer, within the City of Jersey City and which advertises by any means to provide notice of employment opportunities, transfers, or promotions for the Jersey City employer, whether such employment, promotion or transfer is temporary or permanent, shall be required to include a minimum and maximum annual salary or hourly wage, to said posting or advertisement. In stating the minimum and maximum annual salary or hourly wage for a position, the range may extend from the lowest to the highest salary the employer in good faith believes at the time of the posting it would pay for the advertised job, promotion or transfer opportunity.

1. For purposes of paragraph A, an employer means an employer that has five or more persons in their employ within Jersey City on the date of the notice or advertisement. For purposes of this definition, persons working as independent contractors in furtherance of the employer's business shall be counted as employees.

B. As per N.J.S.A. § 34:6B-20, it shall be unlawful and punishable through State law for a New Jersey employer to screen a job applicant based on the applicant's salary history or to require that the applicant's salary history satisfy any minimum or maximum criteria.

C. Any violations regarding this section, with the exception of subsection C, may be reported to the City's Office of Code Compliance (OCC) or to the Women's Advisory Board for referral to the OCC for possible prosecution under Chapter 1 of this Code, General Provisions § 1-25.

§ 148-5. Enforcement.

The Jersey City Human Rights Commission is hereby vested with the authority to administer and enforce this chapter and in conjunction therewith may promulgate and issue regulations.

§ 148-6. Complaints; investigations; hearings. [Amended 12-11-1986 by Ord. No. C-298]

A. Any person claiming to be aggrieved by an alleged unlawful housing practice or an alleged unlawful public accommodation practice forbidden by this chapter may by himself or herself or by his attorney at law make, sign and file with the Office of the Human Rights Commission a verified complaint in writing which shall state the name and address of the person or persons alleged to have committed the unlawful practice complained of and which shall set forth the particulars thereof and contain such other information as may be reasonably required by the Office of the Human Rights Commission. The Commission, upon its own initiative, may in like manner sign and file a complaint. The

Commission, however, shall not accept a complaint from any person who has filed a complaint with the New Jersey State Division of Civil Rights with respect to the same grievance. The complainant shall have the power to reasonably and fairly amend any complaint, and the respondents shall have the power to amend their answer.

B. After the filing of a complaint, the office and staff of the Human Rights Commission shall cause a prompt investigation to be made of the alleged unlawful practice; filing a complaint with the Commission shall not preclude the complainant from filing a complaint with the New Jersey Division of Civil Rights or with any other agency or commission.

C. If, after such an investigation, the Executive Director of the Human Rights Commission determines that no probable cause exists for crediting the allegations of the complaint, he or she shall within ten (10) days from such determination cause to be issued and served upon the complainant written notice of such determination. The notice shall also state that the complaint will be dismissed unless within ten (10) days after such service the complainant or his attorney file, with the office of the Human Rights Commission, a request for a review hearing. The Office of the Human Rights Commission shall upon request for such a hearing provide the complainant or his attorney, if any, an opportunity to appear before the Executive Director of the Human Rights Commission or a member of the Human Rights Commission or a staff representative of the Commission, at the election of the Commission, to present such additional information as may be available to support the allegations of the complaint. If after such a hearing the hearing agent determines that there is no basis for the allegation, the complaint shall be dismissed. There shall be no appeal from a decision of dismissal. A dismissal shall not be a bar to the filing of a complaint with the New Jersey Division of Civil Rights.

D. If, after such investigation, the Executive Director of the Human Rights Commission shall determine that probable cause exists for the allegations of the complaint, he or she may elect to: **[Amended 10-07-2020 by Ord. No. 20-088]**

(1) Eliminate the unlawful practice complained of by conference and conciliation. Such conference shall be opened to the public unless otherwise requested by one or both of the parties to the conference;

(2) Sign a complaint against the alleged offending person for trial before the Municipal Court; or

(3) Refer the entire file to the Municipal Prosecutor for such action as he or she may deem proper or necessary in the circumstances.

E. A person claiming to be aggrieved as set forth in this chapter may elect to file a complaint directly to the Municipal Court and prosecute the same on his or her own behalf or to pursue any other proper procedure that he or she may elect.

F. No complaint shall be considered unless it is filed with the Office of the Human Rights Commission within 180 days after the alleged act of the discrimination.

§ 148-7. Failure to comply.

In the event that the respondent refuses or fails to comply with any order of the Commission or violates any provisions of this chapter, the Commission shall cause to have a complaint filed in the Municipal Court for violation of the provisions of this chapter against the respondent.

§ 148-8. Violations and penalties. [Amended 12-11-1986 by Ord. No. C-298]

Any person who violates any provision of this chapter shall, after conviction, be punishable as provided in Chapter 1, General Provisions, Art. I, § 1-25.

E. Nothing in the within section shall be construed to preclude the prosecution from introducing or relying upon any other evidence or testimony to establish any element of this offense, nor shall the within section be construed to preclude the use or admissibility of any map or any diagram other than one which has been approved by the Governing Body of the City of Jersey City provided that the map or diagram is otherwise admissible pursuant to rules of evidence.

(3) That such school property is and continues to be used for school purposes.

(4) The location and boundaries of areas which are on or within one thousand (1,000) feet of such school property.

(5) Except as is otherwise expressly noted on the face of the adopted map, all of the property depicted as school property was owned by a school or school board and was being used for school purposes as of July 9, 1987, that being the effective date of L. 1987, c. 101 (N.J.S.A. 2C:35-7).

The failure of the map approved herein to depict the location and boundaries of any property which is, in fact, used for school purposes and which is owned by or leased to any elementary

or secondary school or school board, whether the absence of such depiction is the result of inadvertent omission or the result of any changes in the location and boundaries of such property which have not yet been incorporated into a revised approved map, shall not be deemed to be an official finding and record that such property is not owned by or leased to a school or school board or that such property is not used for school purposes.

§ 157-11. Mary McLeod Bethune Life Center.

[HISTORY: Adopted by the Council of the City of Jersey City 6-24-1998 by Ord. No. 98-081; amended 6-23-2004 by Ord. No. 04-062; 6-27-2007 by Ord. No. 07-122; 1-25-2012 by Ord. No. 12-001]

§ 157-1. Purpose and official comments.

A. Purpose; official comments.

(1) The City of Jersey City has repeatedly experienced serious civil disturbances and other occurrences detrimental to the public's safety, health and welfare associated with entertainment and dance venues (these problems include but are not limited to riots, disorderly groups, public consumption of alcohol, and public urination). Consequently, this chapter is enacted to license and regulate these activities except those directly sponsored and self-regulated by the city itself.

(2) Social clubs are expressly regulated by this chapter because recent experience has shown that attempts have been made to circumvent the general regulatory process. (For example, for-profit nightclubs have reorganized as private membership clubs to circumvent the Alcoholic Beverage Law.)*

*** Editor's Note: See N.J.S.A. 33:1-1 et seq.**

(3) This chapter also prohibits obscene entertainment and obscene dancing and contains a definition of obscenity and pornography that reflects contemporary community standards as enforceable by relevant judicial decisions. It also explicitly incorporates by reference the prohibitions on pornography and obscenity found in Chapter 251 of the Municipal Code. In enacting this prohibition, the City Council relied on extensive evidence of long-standing community's standards. Testimony was taken from ordinary citizens as well as members of the clergy, teachers, business people and professionals. The Council issued legislative findings that the people of Jersey City are offended by obscenity and pornography:

(a) Jersey City seeks to maintain an atmosphere as conducive as possible to families in a densely populated urban setting.

(b) Obscenity and pornography have had no place in the public life of Jersey City. Historically, no so-called adult bookstores or adult theaters have operated here. In addition, no erotic dancing venues have ever been allowed to operate here in the city, notwithstanding their presence in adjacent communities. Therefore, these legislative findings support the existence of community standards that allow for the constitutional circumscription of such activity, and the city will continue to enforce these social norms through legal sanctions.

(4) The Director of the Division of Commerce is given primary jurisdiction over this chapter. However, given the public safety concerns, the Director of Public Safety also shares in its administration: § 157-9 authorizes the Director of Public Safety, upon a notice and hearing, to suspend licenses on an emergent basis. **[Amended 1-25-2012 by Ord. No. 12-001; 9-11-2013 by Ord. No. 13-081]**

B. This chapter is to be liberally construed in order to effectuate its purpose.

[NOTE: Miller v. California, 413 U.S. 15. 93 S. Ct. 2607, 37 L. Ed. 2d 419 (1973), rehearing denied, 414 U.S. 881, 94 S. Ct. 26, 38 L. In determining whether or not to grant outdoor entertainment, the Director shall consider, but not be limited to, the following criteria: the nature of the establishment; the location of the establishment including its proximity to residential properties; the input of residents of the surrounding area; and the history (if any) of the establishment. Furthermore, the Director shall not permit outdoor entertainment beyond the hours described in § 157-4C(4).

§ 160-2. Development fees to fund affordable housing. [Added 6-14-2023 by Ord. No. 23-048; amended 8-16-2023 by Ord. No. 23-073]

1. Purpose.

   a. In Holmdel Builder's Association V. Holmdel Township, 121 N.J. 550 (1990), the New Jersey Supreme Court determined that mandatory development fees are authorized by the Fair Housing Act of 1985 (the Act), N.J.S.A. 52:27d-301 et seq., and the State Constitution, subject to the Council on Affordable Housing's (COAH's) adoption of rules.

   b. Pursuant to P.L. 2008, c. 46 section 8 (C. 52:27D-329.2) and the Statewide Non-Residential Development Fee Act (C. 40:55D-8.1 through 8.7), COAH is authorized to adopt and promulgate regulations necessary for the establishment, implementation, review, monitoring and enforcement of municipal affordable housing trust funds and corresponding spending plans. Municipalities that are under the jurisdiction of COAH or court of competent jurisdiction and have a COAH-approved or court-approved spending plan may retain fees collected from non-residential development.

   c. This chapter establishes standards for the collection, maintenance, and expenditure of development fees pursuant to COAH's regulations and in accordance with P.L. 2008, c. 46, Sections 8 and 32-38. Fees collected pursuant to this chapter shall be used for the sole purpose of providing low- and moderate-income housing. This chapter shall be interpreted within the framework of COAH's rules on development fees, codified at N.J.A.C. 5:97-8.

2. Basic requirements.

   a. This chapter shall not be effective until approved by the Superior Court of New Jersey pursuant to N.J.A.C. 5:93- 8.

   b. Jersey City shall not spend development fees until COAH or a court of competent jurisdiction has approved a plan for spending such fees in conformance with N.J.A.C. 5:97-8.10 and N.J.A.C. 5:96-5.3.

3. Definitions.

A document recording the exemption shall be filed with the Hudson County Register's Office. If

an Owner claiming this exemption sells or voluntarily vacates the property before the expiry of the five-year residency requirement, the Owner shall be required to repay all development fees that would have been applicable under this Chapter.

5. Non-residential Development fees.

a. Imposed fees.

The development fee of 2.5% shall be calculated on the difference between the equalized assessed value of the pre-existing land and improvement and the equalized assessed value of the newly improved structure, i.e. land and improvement, at the time the final certificate of occupancy is issued. If the calculation required under this section results in a negative number, the non-residential development fee shall be zero.

b. Eligible exactions, ineligible exactions and exemptions for non-residential development.

i. The non-residential portion of a mixed-use inclusionary or market rate development shall be subject to the 2.5% development fee, unless otherwise exempted below.

ii. The 2.5% fee shall not apply to an increase in equalized assessed value resulting from alterations, change in use within existing footprint, reconstruction, renovations and repairs.

Non-residential developments shall be exempt from the payment of non-residential development fees in accordance with the exemptions required pursuant to P.L. 2008, c. 46, as specified in the Form N-RDF "State of New Jersey Non-Residential Development Certification/ Exemption" Form. Any exemption claimed by a developer shall be substantiated by that developer.

v. If a property which was exempted from the collection of a non-residential development fee thereafter ceases to be exempt from property taxation, the owner of the property shall remit

Should Jersey City fail to determine or notify the developer of the amount of the development fee within ten business days of the request for final inspection, the developer may estimate the amount due and pay that estimated amount consistent with the dispute process set forth in subsection b. of section 37 of P.L. 2008, c. 46 (C. 40:55D-8.6).

g. Fifty percent of the development fee shall be collected at the time of issuance of the building permit. The remaining portion shall be collected at the issuance of the certificate of occupancy. Administrative funds may be used for income qualification of households, monitoring the turnover of sale and rental units, and compliance with COAH's or the Court's monitoring requirements. In addition to the aforementioned allowable administrative expenses, a tenant right to counsel program shall be a necessary administrative expenditure as part of the implementation of this chapter. No funds generated from this Chapter shall be used to provide legal services as part of a tenant right to counsel program for tenants whose income, after taxes, is greater than 80 percent of the current area median income established annually by the United States Department of Housing and Urban Development. Toy Guns and Box Cutters

[Adopted 6-11-1987 as Ord. No. C-468; amended in its entirety 4-24-1996 by Ord. No. 96-034]

§ 163-3. Sale, distribution and use restricted.

§ 163-4. Council findings. [Amended 9-11-2013 by Ord. No. 13-081]

It has come to the attention of the Council that persons under the age of eighteen (18) have been purchasing devices sold as "box cutters" to carry on their person for purposes unrelated to their intended use. According to reports from the Department of Public Safety, Board of Education and the media, the purchase of box cutters by juveniles is increasing, and box cutters have been found in the possession of both students and others within Jersey City schools. Since these devices have blades which can be withdrawn into a handle or sheath, they can be concealed on one's person and used as weapons in fights and while committing crimes. It has been reported to the Council by school officials and through the media that persons under the age of eighteen (18) have used these devices to inflict serious injuries upon other youths and adults. From available reports, the sale and distribution of box cutters appears to have contributed to, and even aggravated, violent crimes by juveniles. The Council is of the opinion that it should use its municipal police powers to limit the sale and distribution of a device, the misuse of which aggravates criminal acts and causes severe injury to the victims of juvenile violence. Although the Council recognizes that these devices can be acquired outside the City of Jersey City, it believes nevertheless that it should not be made easy to acquire them within the city and that persons selling these devices should be required to assume the responsibility for their distribution to persons under the age of eighteen (18) who may use them for illegal acts.

§ 163-5. Sale of box cutters to minors prohibited; definitions of terms.

"Box cutter" means any knife or similar device designed to cut cardboard, fiberboard and similar materials, having a razor-like blade which can be released from a handle or sheath by the application of hand pressure upon a button, slide or other device attached to the handle, sheath or blade.

§ 163-6. Sale and distribution to minors.

It shall be unlawful for any person to sell any box cutter or similar device to a person under eighteen (18) years of age; except that the establishment by a preponderance of the evidence of all of the following facts by a person making the sale shall constitute an affirmative defense to any prosecution for violating this Article:

A. The purchaser falsely represented his or her age by producing a driver's license bearing a photograph of the licensee, or by producing a photographic identification card issued pursuant to § 1 of L. 1968, c. 313* or by producing a similar card purporting to be a valid identification card indicating that he or she was eighteen (18) years of age or older;

*** Editor's Note: See N.J.S.A. 33:1-81.2.**

(1) Every person engaged in the business of selling box cutters shall maintain the box cutters in a secure area, either behind a counter or in a locked display case or other location where such box cutters are not accessible to the public. No box cutters shall be displayed on any open counter or any aisle or other area which is accessible to the general public entering a place of business.

B. The appearance of the purchaser was such that an ordinary prudent person would believe him or her to be eighteen (18) years of age or older; and

C. The sale was made in good faith relying upon the indicators of age listed in Subsections A and B above.

§ 163-7. Violations and penalties.

Any person, firm or corporation who shall violate any of the provisions of this Article shall, upon conviction, be punishable as provided in Chapter 1, General Provisions, § 1-25; except that the minimum penalty for any violation shall be a fine of one hundred dollars ($100.).

§ 163-11. City's obligation.

In undertaking enforcement of this Chapter, the City is assuming an undertaking only to promote the general welfare and safety. It is not assuming, nor it is imposing on its officers and employees, an obligation for breach of which it is liable in money damages to any person who claims that such breach proximately caused injury.

§ 163-12. Severability.

§ 172-1.0. Statutory authorization, findings of fact, purpose and objectives. [Amended 7-19-06 by Ord. No. 06-083]

§ 172-1.1. Statutory authorization. [Amended 7-19-06 by Ord. No. 06-083]

The Legislature of the State of New Jersey has in N.J.S.A. 40:48-1, et seq., delegated the responsibility to local governmental units to adopt regulations designed to promote public health, safety, and general welfare of its citizenry. Therefore, the Municipal Council of the City of Jersey City, of New Jersey does ordain as follows:

§ 172-1.2. Findings of fact. [Amended 7-19-06 by Ord. No. 06-083]

(1) The flood hazard areas of [municipality] are subject to periodic inundation which results in loss of life and property, health and safety hazards, disruption or commerce and governmental services, extraordinary public expenditures for flood protection and relief, and impairment of the tax base, all of which adversely affect the public health, safety, and general welfare.

(2) These flood losses are caused by the cumulative effect of obstructions in areas of special flood hazard which increase flood heights and velocities, and when inadequately anchored, causes damage in other areas. Uses that are inadequately flood proofed, elevated otherwise protected from flood damage also contribute to the flood loss.

§ 172-1.3. Statement of purpose. [Amended 7-19-06 by Ord. No. 06-083]

It is the purpose of this ordinance to promote the public health, safety, and general welfare, and to minimize public and private losses due to flood conditions in specific areas by provisions designed:

(1) To protect human life and health;

(2) To minimize expenditure of public money for costly flood control projects;

(3) To minimize the need for rescue and relief efforts associated with flooding and generally undertaken at the expense of the general public;

(4) To minimize prolonged business interruptions;

(5) To minimize damage to public facilities and utilities such as water and gas mains, electric, telephone and sewer line, streets, bridges located in areas of special flood hazard;

(6) To help maintain a stable tax base by providing for the second use and development of areas of special flood hazard so as to minimize future flood blight areas;

(7) To insure that potential buyers are notified that property is in an area of special flood hazard; and

(8) To ensure that those who occupy the areas of special flood hazard assume responsibility for their action.

§ 172-1.4. Methods of reducing flood losses. [Amended 7-19-06 by Ord. No. 06-083]

In order to accomplish its purposes, this ordinance includes methods and provisions for:

(1) Restricting or prohibiting uses which are dangerous to health, safety, and property due to water or erosion hazards, or which result in damaging increases in erosion or in flood heights or velocities;

(2) Requiring that uses vulnerable to floods including facilities which serve such uses be protected against flood damage at the time of initial construction;

(3) Controlling the alteration of natural flood plains, stream channels, and natural protective barriers, which help accommodate or channel flood waters;

(4) Controlling filling, grading, dredging, and other development which may increase flood damage; and

(5) Preventing or regulating the construction of flood barriers which will unnaturally divert flood waters or which may increase flood hazards in other areas.

DEVELOPMENT— Any man-made change to improved or unimproved real estate, including but not limited to buildings or other structures, mining, dredging, filling, grading, paving, excavation or drilling operations, or storage of equipment or materials located within an area of special flood hazard.

ELEVATED BUILDING— A non-basement building built, in the case of a building in an Area of Special Flood Hazard, to have the top of the elevated floor elevated above the ground level by means of piling, columns (posts and piers) or shear walls parallel to the flow of the water and adequately anchored so as not to impair the structural integrity of the building during a flood of up to the magnitude of the base flood. In an area of special flood hazard, "elevated building" also includes a building elevated by means of fill or solid foundation perimeter walls with openings sufficient to facilitate the unimpeded movement of floodwaters.

FLOOD or FLOODING — A general and temporary condition of partial or complete inundation of normally dry land areas from:

(1) The overflow of inland or tidal waters; and/or

(2) The unusual and rapid accumulation of runoff of surface waters from any source;

FLOOD INSURANCE RATE MAP (FIRM) — The official map on which the Federal Insurance Administration has delineated both the areas of special flood hazards and the risk premium zones applicable to the community.

FLOOD INSURANCE STUDY (FIS) — The official report provided in which the Federal Insurance Administration has provided flood profiles, as well as the Flood Insurance Rate Maps and the wafer surface elevation of the base flood.

FLOOD PLAIN MANAGEMENT REGULATIONS — Zoning ordinances, subdivison regulations, building codes, health regulations, special purpose ordinances (such as a flood plain ordinance, grading ordinance, erosion control ordinance) and other applications of police power. The term describes such State or local regulations, in any combination thereof, which provide standards for the purpose of flood damage prevention and reduction.

HIGHEST ADJACENT GRADE — The highest natural elevation of the ground surface prior to construction next to the proposed walls of a structure.

HISTORIC STRUCTURE — Any structure that is:

(1) Listed individually in the National Register of Historic Places (a listing maintained by the Department of Interior), or preliminarily determined by the Secretary of the Interior as meeting the requirements for individual listing on the National Register;

(2) Certified or preliminarily determined by the Secretary of the Interior as contributing to the historical significance of a registered historic district, or one preliminarily determined by the Secretary to qualify as a registered historic district;

(3) Individually listed on a State inventory of historic places in States with historic preservation programs which have been approved by the Secretary of the Interior; or

(4) Individually listed on the local inventory of historic places in communities with historic preservation programs that have been certified either:

(a) By an approved State program as determined by the Secretary of the Interior; or

(b) Directly by the Secretary of the Interior in States without approved programs.

LOWEST FLOOR — The lowest floor of the lowest enclosed area (including basement). An unfinished or flood-resistant enclosure usable solely for the parking of vehicles, building access or storage in an area other than a basement is not considered a building's "lowest floor," provided that such enclosure is not built so as to render the structure in violation of other applicable non-elevation design requirements.

MANUFACTURED HOME — A structure, transportable in one or more sections, which is built on a permanent chassis and is designed for use with or without a permanent foundation when connected to the required utilities. The term "manufactured home" does not include a "recreation vehicle."

MANUFACTURED HOME PARK or MANUFACTURED HOME SUBDIVISION — A parcel (or contiguous parcels) of land divided into two or more manufactured home lots for rent or sale.

NEW CONSTRUCTION — Structures for which the start of construction commenced on or after the effective date of this chapter adopted by the community and includes any subsequent improvements to such structures.

NEW MANUFACTURED HOME PARK OR SUBDIVISION — A manufactured home park or subdivision for which the construction of facilities for servicing the lots on which the manufactured homes are to be affixed (including at a minimum, the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads) is completed on or after the effective date of the flood plain management regulations adopted by the municipality.

RECREATIONAL VEHICLE — A vehicle which is:

(i) Built on a single chassis;

(ii) Four hundred (400) square feet or less when measured at the longest horizontal projections;

(iii) Designed to be self-propelled or permanently towable by a light duty truck; and

(iv) Designed primarily not for use as a permanent dwelling but as temporary living quarters for recreational, camping, travel, or seasonal use.

START OF CONSTRUCTION — For other than new construction or substantial improvement under the Coastal Barrier Resources Act (P.L. 97-348), includes substantial improvement and means the date the building permit was issued, provided that the actual start of construction, repair, reconstruction, placement or other improvement was within one hundred eighty (180) days of the permit date. The "actual start" means either the first placement of permanent construction of a structure on a site such as the pouring of a slab or footings, the installation of piles, the construction of columns or any work beyond the stage of excavation, or the placement of a manufactured home on a foundation. Permanent construction does not include land preparation, such as clearing, grading and filling; nor does it include the installation of streets and/or walkways; nor does it include excavation for a basement, footings, piers or foundations or the erection of temporary forms; nor does it include the installation on the property of accessory buildings, such as garages or sheds not occupied as dwelling units or not part of the main structure. For a substantial improvement, the actual start of construction means the first alteration of any wall, ceiling, floor, or other structural part of a building, whether or not that alteration affects the external dimensions of the building.

STRUCTURE — A walled and roofed building, a manufactured home or a gas or liquid storage tank that is principally above ground.

SUBSTANTIAL DAMAGE — Damage of any origin sustained by a structure whereby the cost of restoring the structure to its before damaged condition would equal or exceed fifty (50) percent of the market value of the structure before the damage occurred.

SUBSTANTIAL IMPROVEMENT:

(1) Any reconstruction, rehabilitation, addition or other improvement of a structure, as per the definitions set forth in NJAC5:23-6 Rehabilitation Sub-Code. This term includes structures which have incurred "substantial damage," regardless of the actual repair work performed.

(2) For the purposes of this definition, "substantial improvement" is considered to occur when the first alteration of any wall, ceiling, floor or other structural part of the building commences, whether or not that alteration affects the external dimensions of the structure.

(3) The term does not, however, include either:

   (a) Any project for improvement of a structure to comply with existing State or local health, sanitary or safety code specifications which are the minimum necessary to assure safe living conditions; or

   (b) Any attention of a "historic structure," provided that the alteration will not preclude the structure's continued designation as a "historic structure."

VARIANCE — A grant of relief from the requirements of this chapter which permits construction in a manner that would otherwise be prohibited by this chapter.

§ 172-3.2. Basis for establishing areas of special flood hazard. [Amended 7-19-06 by Ord. No. 06-083]

The areas of special flood hazard for the City of Jersey City, community No. 340223, are identified and defined on the following documents prepared by the Federal Emergency Management Agency:

A. A scientific and engineering report "Flood Insurance Study, Hudson County, New Jersey (All Jurisdictions)" dated August 16, 2006.

B. Flood Insurance Rate Map for Hudson County. New Jersey (All Jurisdictions) as shown on Index and panel numbers 0039, 0043, 0101, 0102, 0103, 0104, 0106, 0107, 0108, 0109, 0111, 0112, 0116; whose effective date is August 16, 2006.

§ 172-3.3. Violations and penalties.* [Amended 7-19-06 by Ord. No. 06-083]

No structure or land shall hereafter be constructed, located, extended, converted or altered without full compliance with the terms of this chapter and other applicable regulations. Any person who violates this chapter or fails to comply with any of its requirements (including violations of conditions and safeguards established in connection with conditions) shall, upon conviction thereof, be punishable as provided in Chapter 1, General Provisions, § 1-25. Nothing herein contained shall prevent Jersey City from taking such other lawful action as is necessary to prevent or remedy any violation.

* **Editor's Note: Amended at time of adoption of Code; see Ch. 1, General Provisions, Art. 1.**

§ 172-3.4. Abrogation; greater restrictions to apply. [Amended 7-19-06 by Ord. No. 06-083]

This chapter is not intended to repeal, abrogate or impair any existing easements, covenants or deed restrictions. However, where this chapter and another ordinance, easement, covenant or deed restriction conflict or overlap, whichever imposes the more stringent restrictions shall prevail.

§ 172-3.5. Construal of provisions. [Amended 7-19-06 by Ord. No. 06-083]

In the interpretation and application of this chapter, all provisions shall be:

A. Considered as minimum requirements;

B. Liberally construed in favor of the governing body, and

C. Deemed neither to limit nor repeal any other powers granted under State Statutes.

§ 172-3.6. Warning; disclaimer of liability. [Amended 7-19-06 by Ord. No. 06-083]

The degree of flood protection required by this chapter is considered reasonable for regulatory purposes and is based on scientific and engineering considerations. Larger floods can and will occur on rare occasions. Flood heights may be increased by man-made or natural causes. This chapter does not imply that land outside the areas of special flood hazards or uses permitted within such areas will be free from flooding or flood damages. This chapter shall not create liability on the part of Jersey City, any officer or employee or any of the City's agencies or agents thereof, or the Federal Insurance Administration for any flood damages that result from reliance on this chapter or any administrative decision lawfully made thereunder.

§ 172-4. Administration. [Amended 7-19-06 by Ord. No. 06-083]

§ 172-4.1. Establishment of development permit. [Amended 7-19-06 by Ord. No. 06-083]

A. A development permit shall be obtained before construction or development begins within any area of special flood hazard. Application for a development permit shall be made on forms furnished by the City's Chief Engineer and provided to the applicant by the Construction Official and may include, but not be limited to: plans in triplicate drawn to scale showing the nature, location, dimensions and elevations of the area in question; existing or proposed structures, fill, storage of materials; drainage facilities; and the location of the foregoing.

B. Specifically, the following information is required:

(1) The elevation in relation to mean sea level of the lowest floor (including basement) of all structures.

(2) The elevation in relation to mean sea level to which any structure has been flood proofed.

(3) Certification by a registered professional engineer or architect that the flood proofing methods for any nonresidential structure meet the flood proofing criteria in Section 172-5.2B.

(4) A description of the extent to which any watercourse will be altered or relocated as a result of proposed development.

§ 172-4.2. Local administrator designated. [Amended 7-19-06 by Ord. No. 06-083]

The Construction Official is hereby appointed to administer and implement this chapter by granting or denying development permit applications in accordance with its provisions.

§ 172-4.3. Duties of Construction Official. [Amended 7-19-06 by Ord. No. 06-083]

Duties of the Construction Official shall include, but not be limited to:

A. Permit review. The Construction Official shall:

(1) Review all development permits to determine that the permit requirements of this chapter have been satisfied.

(2) Review all development permits to determine that all necessary permits have been obtained from those federal, state or local governmental agencies from which prior approval is required.

(3) Review all development permits to determine if the proposed development is located in the floodway.

(4) Refer any application for development of property determined to be within the floodway to the City's Chief Engineer for further compliance review, if deemed necessary, prior to issuance of a development permit.

B. Use of other base flood and floodway data. When base flood elevation and floodway data has not been provided in accordance with § 172-3.2, Basis for establishing areas of special flood hazard, the Construction Official shall obtain, review and reasonably utilize any base flood elevation and floodway data available from a federal, state or other source in order to administer § 172-5.2A, Specific standards, residential construction, and § 172-5.2B, Specific standards, nonresidential construction.

C. Record maintenance. The Construction Official shall:

(1) Obtain and record the actual elevation (in relation to mean sea level) of the lowest floor (including basement) of all new or substantially improved structures and whether or not the structure contains a basement.

(2) For all new substantially improved flood proofed structures:

(a) Verify and record the actual elevation (in relation to mean sea level); and

(b) Maintain the flood proofing certifications required in Section 172-4.1.

(3) Maintain for public inspection all records pertaining to the provisions of this chapter.

D. Alteration of watercourses. The Construction Official shall:

(1) Upon consultation with the Chief Engineer, shall ensure that the applicant shall notify adjacent communities and the New Jersey Department of Environmental Protection - Land Use Regulation Program and Dam Safety and Flood Control, prior to any alteration or relocation of a watercourse, and submit evidence of such notification to the Federal Insurance Administration.

(2) Require that maintenance is provided within the altered or relocated portion of said watercourse so that the flood-carrying capacity is not diminished.

E. Interpretation of FIRM boundaries. The Construction Official shall, in consultation with the Chief Engineer, make interpretations where needed, as to the exact location of the boundaries of the areas of special flood hazards (for example, where there appears to be a conflict between a mapped boundary and actual field conditions). The person contesting the location of the boundary shall be given a reasonable opportunity to appeal the interpretation as provided below.

§ 172-4.4. Establishment of fees. [Amended 7-19-06 by Ord. No. 06-083]

Reasonable fees may be established under Chapter 160 of the Municipal Code to cover the cost of administering this chapter; to cover the cost of review of applications for development pursuant to this Chapter by the Construction Official or by the City's Chief Engineer and his staff; and to cover the administrative cost of appeals and variance applications.

§ 172-4.4-1. Appeal and variance procedure. [Amended 7-19-06 by Ord. No. 06-083]

§ 172-4.4-2. Construction Board of Appeals; variances. [Amended 7-19-06 by Ord. No. 06-083]

A. The Construction Board of Appeals as established by Jersey City shall hear and decide appeals and requests for variances from the requirements of this chapter.

B. The Construction Board of Appeals shall hear and decide appeals when it is alleged there is an error in any requirement, decision or determination made by the Construction Official in the enforcement or administration of this chapter.

C. Those aggrieved by the decision of the Construction Board of Appeals, or any taxpayer, may appeal such decision to a court of competent jurisdiction.

D. In passing upon such applications, the Construction Board of Appeals shall consider all technical evaluations, all relevant factors, standards specified in other sections of this chapter; and

(1) The danger that materials may be swept onto other lands to the inquiry of others.

(2) The danger to life and property due to flooding or erosion damage.

(3) The susceptibility of the proposed facility and its contents to flood damage and the effect of such damage on the individual owner.

(4) The importance of the services provided by the proposed facility to the community.

(5) The necessity to the facility of a waterfront location, where applicable.

(6) The availability of alternative locations for the proposed use which are not subject to flooding or erosion damage.

(7) The compatibility of the proposed use with existing and anticipated development.

(8) The relationship of the proposed use to the comprehensive plan and floodplain management program of that area.

(9) The safety of access to the property in times of flood for ordinary and emergency vehicles.

(10) The expected heights, velocity, duration, rate of rise and sediment transport of the floodwaters and the effects of wave action, if applicable, expected at the site.

(11) The costs of providing governmental services during and after flood conditions, including maintenance and repair of public utilities and facilities such as sewer, gas, electrical, and water systems and streets and bridges.

E. Upon consideration of the above-listed factors, the Construction Board of Appeals may attach such conditions to the granting of variances as it deems necessary to further the purposes of this chapter.

F. The Construction Official shall maintain the records of all appeal actions, including technical information, and report any variances to the Federal Insurance Administration upon request

§ 172-4.4-3. Conditions for variances. [Amended 7-19-06 by Ord. No. 06-083]

A. Generally, variances may be issued for new construction and substantial improvements to be erected on a lot of one-half acre or less in size contiguous to and surrounded by lots with existing structures constructed below the base flood level, providing items 1—11 in Section 172-4.4-2 have been fully considered. As the lot size increases beyond the one-half acre, the technical justification required for issuing the variance increases.

B. Variances may be issued for the reconstruction, rehabilitation or restoration of historic structures (as defined by the chapter) without regard to the procedures set forth in the remainder of this section upon a determination that the proposed reconstruction, rehabilitation or restoration will not preclude the structure's continued designation as a historic structure and variance is the minimum necessary to preserve the historic character and design of the structure.

C. Variances shall not be issued within any designated floodway if any increase in flood levels during the base flood discharge would result.

D. Variances shall only be issued upon a determination that the variance is the minimum necessary, considering the flood hazard, to afford relief.

E. Variances shall only be issued upon:

(1) A showing of good and sufficient cause;

(2) A determination that failure to grant the variance would result in exceptional hardship to the applicant; and

(3) A determination that the granting of a variance will not result in increased flood heights, additional threats to public safety or extraordinary public expense, create nuisances, cause fraud on or victimization of the public identified in Section 172-4.4-1 D, or conflict with existing local laws or ordinances.

F. Any applicant to whom a variance is granted shall be given written notice that the structure will be permitted to be built with a lowest floor elevation below the base flood elevation and that the cost of flood insurance will be commensurate with the increased risk resulting from the reduced lowest floor elevation.

§ 172-5. Provisions for flood hazard reduction. [Amended 7-19-06 by Ord. No. 06-083]

§ 172-5.1. General standards. [Amended 7-19-06 by Ord. No. 06-083]

In all areas of special flood hazards the following standards are required:

A. Anchoring.

(1) All new construction and substantial improvements shall be anchored to prevent flotation, collapse or lateral movement of the structure.

(2) All manufactured homes shall be anchored to resist flotation, collapse or lateral movement. Methods of anchoring may include, but are not to be limited to, use of over-the-top or frame ties to ground anchors. This requirement is in addition to applicable state and local anchoring requirements for resisting wind forces.

B. Construction materials and methods.

(1) All new construction and substantial improvements shall be constructed with materials and utility equipment resistant to flood damage.

(2) All new construction and substantial improvements shall be constructed using methods and practices that minimize flood damage.

C. Utilities.

(1) All new and replacement water supply systems shall be designed to minimize or eliminate infiltration of floodwaters into the system

(2) New and replacement sanitary sewage systems shall be designed to minimize or eliminate infiltration of floodwaters into the systems and discharge from the systems into floodwater.

(3) On-site waste disposal systems shall be located to avoid impairment to them or contamination from them during flooding.

(4) Electrical, heating, ventilation, plumbing and air-conditioning equipment and other service facilities shall be designed and/or located so as to prevent water from entering or accumulating within the components during conditions of flooding.

D. Subdivision proposal.

(1) All subdivision proposals shall be consistent with the need to minimize flood damage.

(2) All subdivision proposals shall have public utilities and facilities such as sewer, gas, electrical and water systems located and constructed to minimize flood damage.

(3) All subdivision proposals shall have adequate drainage provided to reduce exposure to flood damage.

(4) Base flood elevation data shall be provided for subdivision proposals and other proposed development which contain at least fifty (50) lots or five acres (whichever is less) which is to be developed at one time or over a period of time as part of an overall project.

E Enclosure openings. All new construction and substantial improvements having fully enclosed areas below the lowest floor that are usable solely for the parking of vehicles, building access, or storage in an area other than a basement and which are subject to flooding shall be designed to automatically equalize hydrostatic flood forces on exterior walls by allowing for the entry and exit of floodwaters. Designs for meeting this requirement must either be certified by a registered professional engineer or architect or must meet or exceed the following minimum criteria:

(1) A minimum of two openings having a total net area of not less than one square inch for every square foot of enclosed area subject to flooding shall be provided.

(2) The bottom of all openings shall be no higher than one foot above grade.

(3) Openings may be equipped with screens, louvers or other coverings or devices, provided that they permit the automatic entry and exit of floodwaters.

§ 172-5.2. Specific standards. [Amended 3-12-1987 by Ord. No. C-427; 7-19-06 by Ord. No. 06-083]

In all areas of special flood hazards where base flood elevation data have been provided as set forth in § 172-3.2 Basis for establishing areas of special flood hazard or in § 172-4.3B Use of other base flood and floodway data, the following standards are required:

A. Residential construction.

(1) New construction and substantial improvement of any residential structure shall have the lowest floor, including basement, elevated to or above base flood elevation.

(2) Within any AO zone on the municipality's FIRM, it is required that all new construction and substantial improvement of any residential structure shall have the lowest floor, including basement, elevated above the highest adjacent grade at least as high as the depth number specified in feet (at least two feet if no depth number is specified). In addition, adequate drainage paths around structures on slopes to guide floodwaters around and away from proposed structures are also required.

B. Nonresidential construction. New construction and substantial improvement of any commercial, industrial or other nonresidential structure shall either have the lowest floor, including basement, elevated to the level of the base flood elevation, or together with attendant utility and sanitary facilities, shall:

(1) If located within any AO zone on the municipality's FIRM, shall have the lowest floor, including basement, elevated above the highest adjacent grade at least as high as the depth number specified in feet (at least two feet if no depth number is specified). In addition, adequate drainage paths around structures on slopes to guide floodwaters around and away from proposed structures are also required.

(2) Be flood proofed so that below the base flood level the structure is watertight with walls substantially impermeable to the passage of water;

(3) Have structural components capable of resisting hydrostatic and hydrodynamic loads and effects of buoyancy; and

(4) Be certified by a registered professional engineer or architect that the design and methods of construction are in accordance with accepted standards of practice for meeting the applicable provisions of this subsection. Such certification shall be provided to the official as set forth herein, Section 172-4.3C.

C. Manufactured homes.

(1) Manufactured homes shall be anchored in accordance with § 172-5.1A.

(2) All manufactured homes to be placed or substantially improved within an area of special flood hazard shall be elevated on a permanent foundation such that the top of the lowest floor is at or above the base flood elevation.

§ 175-3. Written agreement required; limitations on fees and service charges. [Added 5-22-2024 by Ord. No. 24-037]

1. A Third-Party Food Delivery Service shall not take and arrange for the delivery of an online order from a Food Service Establishment without first entering into a written agreement that expressly authorizes such delivery service to take and arrange for the delivery of online orders prepared by such an establishment. An agreement executed in accordance with this section shall not include a provision, clause, or covenant that requires a Food Service Establishment or its employees to indemnify a Third-Party Food Delivery Service, any independent contractor acting on behalf of the Third-Party Food Delivery Service, or any registered agent of the Third-Party Food Delivery Service, for any damages or harm caused by an act or omission by the third party delivery service or its agents occurring after the Food Service Establishment's product leaves the place of business of the Food Service Establishment. To the extent an agreement executed in accordance with this section contains such a provision, such provision shall be deemed void and unenforceable.

2. A third-party food delivery service shall provide Food Service Establishments with a service option that allows the Establishment to be listed on its platform, receive orders for delivery, and fulfill deliveries directly without use of the delivery capabilities of the Third-Party Food Delivery Service. Such option shall be clearly presented to the Food Service Establishment on the application or website of the third-party food delivery service. An agreement between a Third-Party Food Delivery Service and Food Service Establishment that selects this option shall state: (a) the fee or commission charged to a Food Service Establishment for this option; (b) the allocation of any delivery fees charged to the customer between the Third-Party Food Delivery Service and the Food Service Establishment; and (c) how delivery responsibilities shall be allocated between the Third-Party Food Delivery Service and Food Service Establishment. It shall be unlawful for this service option to charge a Food Service Establishment more than 5% of the purchase price of each online order. The 5% limit shall not apply

to any other service that may be provided by a Third-Party Food Delivery Service to a Food Service Establishment, including but not limited to advertising services, search engine optimization, business consulting, or credit card processing. The 5% limit shall not apply to any order where the Third-Party Food Delivery Service facilitates or performs the delivery.

3. Where a Third-Party Food Delivery Service offers subscription "tiers" or options for delivery service by the Third-Party Food Delivery Service or its agents, the following limitations shall apply:

   a. The Third-Party Food Delivery Service shall provide at least one "tier" of service that provides core delivery service at or below 15% of the purchase price of each online order.

   b. "Core delivery service" shall include:

      (1) listing a Food Service Establishment, and making the Food Service Establishment discoverable, on all modalities or platforms offered by a Third-Party Food Delivery Service, including but not limited to any website, mobile application, or other internet service where a Third-Party Food Delivery Service lists Food Service Establishments, and

      (2) facilitating and/or performing the delivery (through employees or independent contractors of the Third-Party Food Delivery Service and/or such establishments) of food and/or beverages from Food Service Establishments to customers.

   c. Core delivery service does not include any other service that may be provided by a Third-Party Food Delivery Service to a covered establishment, including but not limited to advertising services, search engine optimization, business consulting, or credit card processing.

   d. A Third-Party Food Delivery Platform may not omit, or otherwise hide a Food Service Establishment from relevant search results based solely on their selection of core delivery service.

   e. No "tier" of service may offer differing dispatch times or priority dispatching based on the "tier" of subscription.

   f. All "tiers" of service must provide a delivery radius from the Food Service Establishment of not less than one mile from the Food Service Establishment so long as that is within the city limits.

   g. The requirements for core delivery service or service tiers provided by this subsection 3 shall not prohibit a Third-Party Food Delivery Service from adjusting service: at the request of a Food Service Establishment; to protect the health or safety of food, customers, or people performing deliveries; to accommodate geographical or physical obstacles to delivery; to address technical issues; or to comply with other laws or regulations.

4. It shall be unlawful for a Third-Party Food Delivery Service to charge a customer any purchase price for an item that is higher than the price set by the Food Service Establishment on the Third-Party Food Delivery Service absent express consent from the Food Service Establishment. Absent express consent of the food service establishment, no price may be charged to the customer that is higher than the price listed on the Food Service Establishment's own menu.

§ 175-4. Gratuities and tips; bathroom access for delivery workers, payment requirements. [Added 5-22-2024 by Ord. No. 24-037]

1. It shall be unlawful for a Third-Party Food Delivery Service to solicit a Gratuity or Tip for a food delivery worker, whether the food delivery worker is hired, retained or engaged by such Third-Party Food Delivery Service, from a customer in connection with an online order unless that Gratuity or Tip is provided entirely to the food delivery worker.

2. For each transaction, a food delivery worker hired, retained or engaged by a Third-Party Food Delivery Service shall be notified of how much the customer paid as gratuity and if such customer paid additional gratuity, and if such customer decided to remove the gratuity. Upon any change or payment of gratuity, a third-party delivery service shall notify such food delivery worker and credit such gratuity to such worker's account.

3. A Third-Party Food Delivery Service shall disclose to a food delivery worker hired, retained or engaged by a Third-Party Food Delivery Service, the aggregate amount of compensation and aggregate amount of gratuities earned by such food delivery worker on the day after such compensation and gratuities were earned.

4. Food Service Establishments must make a public Bathroom Facility available for the use of food delivery workers lawfully on a Food Service Establishment's premises for the purposes of picking up that establishment's food or beverage for consumer delivery.

5. A food delivery worker, other than one directly employed or contracted by a Food Service Establishment, shall be presented with the proposed estimated time required, distance traveled, and proposed route followed to provide delivery services to a consumer through a Third-Party Food Delivery Service, including travel to the Food Service Establishment from the delivery worker's current location, as well as the option to decline the delivery after the proposed time and route are presented but before acceptance by the delivery worker. No worker shall lose access to his or her account due to declining deliveries pursuant to this section.

6. A Third-Party Food Delivery Service shall provide food delivery workers, other than those employed or contracted by a Food Service Establishment directly, with a payment option that is at least weekly and without charging any fee to the worker for such a payment option.

7. It shall be unlawful to reduce the compensation rates or gratuities paid to a delivery service driver because of the limits on fees imposed by this ordinance.

8. Violators of this ordinance shall be subject to the punishment provided in Section 1-25 of the Code of the City of Jersey City. Each order for which a fee charged exceeds the fee permitted by this ordinance shall be considered a separate offense. The issuance of violations, or any other enforcement action of any nature, shall be in accordance with Section 175-5. No Third-Party Food Delivery Service shall be subject to punishment for any food delivery worker's non-compliance with this Chapter.

The business administrator, or his/her designee, shall designate, at the time the permit is issued, the approved location(s) and months that the mobile food vendor is entitled to exclusive use of an assigned spot. Exclusive use of an individual mobile food vendor parking spot may rotate between different mobile food vendors on a quarterly basis, to be determined by the business administrator or his/her designee, taking into consideration input from any relevant special improvement districts.

2. Denial. Applications may be denied where an applicant fails to demonstrate he/she meets the conditions and requirements of this article, or where an applicant fails to comply with applicable local, state or federal law. When deciding where to relocate each mobile food vendor, the City will consider preferences and feedback from the surrounding neighborhoods and special improvement districts,

§ 187-3. Applicability and exemptions. [Added 12-15-2021 by Ord. No. 21-077]

A. The following developments shall comply with the affordable housing set-aside and other requirements of this chapter:

1. All developments with a residential component, including mixed-use developments for which a developer requests and/or obtains five or more residential units or 5,000 or more square feet of residential floor area (inclusive of residential hallways and egress areas) (i) as a result of variance(s) pursuant to N.J.S.A. 40:55D-70(c) and (d); (ii) as a result of rezoning; or iii) as the result of the adoption of a new or amended redevelopment/rehabilitation plan pursuant to the Local Redevelopment and Housing Law.

(i) No subdivision shall be permitted or approved for the purpose of avoiding compliance with this chapter. A developer may not, for example, subdivide a project into two lots and then plan each of them to produce a number of units below the threshold. The approving authority may impose any reasonable conditions to ensure such compliance.

2. All developments with a residential component, including mixed-use developments that obtain low income housing tax credits and/or tax-exempt bond financing from the New Jersey Housing Mortgage Finance Agency, funding from the Economic Development Authority Aspire program or similar program, and/or any other State support pursuant to N.J.S.A. 52:27d-329.9(b).

B. The following developments shall be exempt from the requirements of this chapter:

1. Developments less than 15 total residential units.

2. Developments undertaken by the Jersey City Housing Authority or a non-profit corporation for the purpose of developing, through new construction or substantial rehabilitation, residential property in which at least 50 percent of the total residential units in the development are for very-low-, low-, and/or moderate-income households.

C. Nothing herein precludes the City of Jersey City or Approving Authority from requiring an affordable housing set-aside in a development not required to have a set-aside pursuant to this chapter or requiring a higher affordable housing set-aside in any development so long as it is consistent with N.J.S.A. 52:27D-311(h) and other applicable law. This provision does not grant the City or Approving Authority any additional authority beyond what they already possess, and is intended to reserve the right to exercise existing authority in accordance with applicable law. For example, the City reserves the right when it conveys municipally-owned land or permits development to occur on municipally-owned land to require a higher set-aside of affordable housing in exchange.

D. The following developments, which include or permit a hotel component (aka a Converted Hotel Unit component), shall comply with the affordable housing set-aside and other requirements of this chapter: **[Added 11-12-2025 by Ord. No. 25-108]**

1. All developments in a Redevelopment Plan with a residential component, existing or proposed, for which a developer requests and/or obtains residential units in excess of the maximum dwelling units per acre (or in excess of a maximum dwelling unit provision) in that district may convert permitted hotel units to residential units at a ratio of one to one.

2. All developments in a Redevelopment Plan utilizing a Commercial Use Bonus (aka Office Space Bonus or similar), for which a developer requests and/or obtains residential units on said bonus floors may convert permitted hotel units to residential units at a ratio of one to one. In addition, any need for a separate lobby or elevator pursuant to said bonus is no longer a necessary component for compliance.

3. All developments proposed and/or completed pursuant to this section shall not require a (d)(1) or (d)(5) variance for said hotel component and shall have jurisdiction before the Planning Board unless a different variance is requested and/or required pursuant to N.J.S.A. 40:55D-70(d).

§ 187-4. Affordable housing set-aside. [Added 12-15-2021 by Ord. No. 21-077]

A. Each development subject to this chapter shall contain an affordable housing set-aside subject to the following: **[Amended 11-12-2025 by Ord. No. 25-108]**

1. Tier 1 - Developments in low, moderate, or middle income census tracts. The minimum on-site affordable housing set-aside for developments in this tier shall be 10% of the total number of dwelling units in the development or, in the case of a converted hotel unit, 10% of the total number of converted hotel units. Low income census tracts are defined as tracts below 50 percent of area median income. Moderate income census tracts are defined as tracts between 50% and below 80% of area median income. Middle income census tracts are defined as tracts between 80% and below 120% of area median income. Developments that obtain a tax abatement/payment in lieu of taxes from the City shall provide a 15% minimum on-site affordable housing set-aside of the total number of dwelling units.

2. Tier 2 - Developments in upper income census tracts. The minimum on-site affordable housing set-aside for developments in this tier shall be 15% of the total number of dwelling units in the development or, in the case of a converted hotel unit, 15% of the total number of converted hotel units. Upper income census tracts are defined as tracts at or above 120% of area median income.

3. Irrespective of census tract or tier, all developments that obtain low income housing tax credits and/or tax-exempt bond financing from the New Jersey Housing Mortgage Finance Agency, funding from the Economic Development Authority Aspire program or similar program, and/or any other state support pursuant to N.J.S.A. 52:27D-329.9(b) shall contain a minimum on-site affordable housing set-aside of at least 20% of the total number of dwelling units in the development. Any development that uses any of these funding sources shall disclose this information as a part of their affordable housing agreement (AHA) as required in Chapter 188 of the Jersey City Municipal Code.

B. When the calculation of the affordable housing set-aside results in a fractional affordable unit, the fraction shall be rounded up if the fraction is one-half or higher. This shall mean that the affordable housing unit shall be provided. When the faction is less than one-half, the developer shall provide a payment in lieu of the fractional unit. The payment shall be calculated based on a pro rata basis of $180,000.00 per unit.

C. Any payment in lieu of a fractional affordable unit shall be fulfilled by the developer in two installments. The first installment shall be at least 50% of the full payment and is payable upon a non-appealable board approval and the second installment or remainder is payable prior to the first certificate of occupancy in the development. All payments shall be deposited into the City of Jersey City Affordable Housing Trust Fund.

§ 187-5. Additional standards for affordable housing. [Added 12-15-2021 by Ord. No. 21-077]

A. A developer subject to the affordable housing set-aside may request, and the approving authority may, at its discretion, grant additional incentives for affordable housing, including but not limited to an increase in density, height, bulk, and/or floor area ratio.

B. A developer subject to the affordable housing set-aside shall be afforded an exemption from any applicable minimum parking requirement for the purpose of aiding in the construction of affordable housing units.

§ 187-6. Tier map. [Added 12-15-2021 by Ord. No. 21-077]

A. The boundaries of the tiers referenced in this chapter are as specified in the map entitled "INCLUSIONARY ZONING — Tier Map," which is attached hereto.

B. The Division of City Planning is directed to examine the tier map at least every five years and, if changes are proposed based on current housing characteristics, such as changes in median income and availability of affordable housing in different areas of the City, to submit a proposed revised map to the Municipal Council by January 1 of each fifth year. The Municipal Council may then choose whether to approve the revised map by resolution.

C. The tier map shall remain in effect until a new map is approved by the City Council. The map shall be on file and available for public inspection with the Division of Affordable Housing. The tier map shall be binding while effective and no exception to the map will be granted.

§ 187-7. Compliance. [Added 12-15-2021 by Ord. No. 21-077]

A. Prior to the approval of any site plan applications, each developer subject to the chapter must prove compliance with this chapter to the approving authority. Prior to the issuance of any building permit, each developer must have an approved affordable housing plan in the form of a Division of Affordable Housing Checklist and enter into an affordable housing agreement prior to the issuance of any CO with the City in accordance with Chapter 188.

B. The bedroom distribution and income distribution of the affordable housing units shall comply with all applicable requirements of Chapter 188 and UHAC, but for the following exceptions:

   1. Thirteen percent of the affordable housing units within each bedroom distribution must be restricted as very-low-income units.

   2. In developments that produce ten or fewer on-site affordable units, the bedroom distribution of the affordable units may mirror the bedroom distribution of the market-rate units so long as at least 50 percent of the units are low-income units and at least one affordable unit is a three-bedroom unit.

C. Affordable units shall be integrated with the market-rate units, and the affordable units shall not be concentrated in separate building(s) or in separate area(s) or floor(s) from the market-rate units. In buildings with multiple dwelling units, this shall mean that the affordable units shall be generally distributed within each building with market-rate units. The affordable units shall also be of the same type as the market-rate units (e.g., if the market-rate units are non-age-restricted family units, the affordable units shall be non-age-restricted family units as well). The residents of the affordable units shall have full and equal access to all of the amenities, common areas, and recreation areas and facilities as the residents of the market-rate units.

D. Construction of the affordable units and market-rate units shall be phased in compliance with N.J.A.C. 5:93-5.6(d).

E. Developers shall comply with eligibility determination procedures by providing adequate documentation as set forth within Chapter 188 to the satisfaction of the Division of Affordable Housing.

F. The Division of Affordable Housing shall be responsible for monitoring compliance and recordkeeping for all Affordable Housing Agreements produced as a result of this article.

§ 187-8. Administrative fee. [Added 12-15-2021 by Ord. No. 21-077]

Each development subject to this chapter shall pay a $2,000.00 fee to the City of Jersey City to cover the administrative costs associated with formalizing the Affordable Housing Agreement with the Division of Affordable Housing.

§ 187-9. Violations. [Added 12-15-2021 by Ord. No. 21-077]

Upon a violation of any of the provisions of this chapter or the Affordable Housing Agreement, the Director of Affordable Housing or other designated City official shall give written notice to the developer specifying the nature of the violation and require corrective action within 60 days of the notice.

If the developer does not correct the violation within the time specified, the developer shall, for each and every violation, be fined up to a maximum of $2,000.00 a day that such violation continues after such notice until the violation is corrected.

§ 187-10. Severability. [Added 12-15-2021 by Ord. No. 21-077]

If any article, section, subsection, sentence, clause or phrase of this chapter is, for any reason, held by a court of competent jurisdiction to be unconstitutional or invalid, such decision shall not affect the remaining portions of this chapter and they shall remain in full force and effect and shall be deemed valid and effective.

§ 187-11. Inconsistencies. [Added 12-15-2021 by Ord. No. 21-077]

In the event of any inconsistencies between the provisions of this chapter and any prior ordinance of the municipality, the provisions hereof shall be determined to govern and those inconsistent provisions shall be repealed to the extent of such inconsistency.

§ 187-12. Effective date and scope. [Added 12-15-2021 by Ord. No. 21-077]

This chapter shall take effect upon its adoption by the Municipal Council. The provisions of this chapter shall be applicable within the entire municipality upon final adoption and shall become a part of the Jersey City Code once adopted and incorporated in the official copies of the City Code. All references to the prior version of Chapter 187 in existing redevelopment/rehabilitation plans and in the City Code shall be replaced with this amended version after it takes effect.

For the purposes of determining affordability average and bedroom distributions, unless stated otherwise, non-integer values calculated pursuant to this subsection are to be rounded up to the nearest whole number. However, non-integer values calculated to pursuant to § 188-16(B) may be rounded down or up to the nearest whole number in either direction. For example, 33.901 will typically be rounded up to 34, but may be rounded down to 33 or up to 34 if calculated pursuant to § 188-16(B).

2. In each affordable development, affordable units that are not age-restricted or supportive housing must be structured in conjunction with realistic market demands such that:

   a. At a minimum, the number of bedrooms within the affordable units equals twice the number of affordable units;

   b. Two-bedroom and/or three-bedroom units compose at least 50% of all affordable units.

   c. No more than 20% of all affordable units, rounded up or down to the nearest whole number in either direction, are efficiency or one-bedroom units;

   d. At least 30% of all affordable units, rounded up or down to the nearest whole number in either direction, are two-bedroom units;

   e. At least 20% of all affordable units, rounded up or down to the nearest whole number in either direction, are three-bedroom units and;

   f. The remainder of the affordable units, if any, shall be allocated at the discretion of the developer subject to the approval of the Director, provided that such allocations shall be in accordance with the municipality's housing element and fair share plan to the extent applicable.

3. In each affordable development, affordable units that are age-restricted or supportive housing must be structured such that, at a minimum, the number of bedrooms within the affordable units equals the number of affordable units. For example, the standard may be met by creating a two-bedroom unit for each efficiency unit. In affordable developments with 20 or more affordable units that are age-restricted or supportive housing, two-bedroom and three-bedroom units must compose at least five percent of those affordable units.

   a. It is understood that age-restricted or supportive housing obligations set forth herein are monitored and enforced by the Agency. Accordingly, to the extent that the State retains this responsibility, the Division's role with respect to such obligations shall be limited to facilitating contact between the developer, owner and/or administrative agent and the Agency.

   b. The foregoing provision shall not be read to abrogate any enforcement or monitoring powers that the Division may have with respect to any unit, activity, or obligation not otherwise monitored or enforced by the Agency as an age-restricted or supportive housing.

4. In each affordable development, the following income distribution requirements must be satisfied by all of the affordable units in the development as well as by, considered in isolation, the affordable units that are age- restricted, the affordable units that are supportive housing, and the affordable units that are neither age-restricted nor supportive housing:

   a. At least 50% of all affordable efficiency or one-bedroom units, rounded up or down to the nearest whole number in either direction, are low-income units or very-low-income units;

b. At least 50% of all affordable two-bedroom units, rounded up or down to the nearest whole number in either direction, are low-income units or very-low-income units;

c. At least 50% of all affordable three-bedroom units are low-income units or very-low-income units;

d. At least 50% of all affordable units with four or more bedrooms, rounded up or down to the nearest whole number in either direction, are low-income units or very- low-income units; and

e. Any very low-income units are distributed between each bedroom count as proportionally as possible, to the nearest whole unit, to the total number of affordable units within each bedroom count. For example, if half of the affordable units are two- bedroom units, then half of the very-low-income units should be two-bedroom units.

5. In developments that produce ten or fewer on-site affordable units, the bedroom distribution of the affordable units may mirror the bedroom distribution of the market-rate units so long as at least 50% of the units are low-income units and at least one affordable unit is a three-bedroom unit.

6. The foregoing provisions of § 188-15(D) shall be calculated solely using the number of affordable units and the formulas and distributions shall apply among affordable units only. The existence of any workforce units or other income-restricted units that do not otherwise qualify as "affordable" shall have no impact on the calculations set forth therein.

7. With respect to workforce housing, bedroom distributions and unit type distributions shall be governed according to the Manual or such guidance as the Director shall provide in writing.

E. Accessibility Requirements:

1. All units shall be constructed in accordance with N.J.A.C. 5:23 (Uniform Construction Code), N.J.S.A. 52:27D-119 et seq. (State Uniform Construction Code Act,), N.J.S.A. 52:27D-301 et seq. (Fair Housing Act), including all adaptability requirements as codified in N.J.S.A. 52:27D-311a, 52:27D-311b and 52:27D-123.15, and all other Federal, State and local laws.

§ 188-16. Rents and sales prices controls for income restricted units.

A. Application of Income Restricted Unit Controls. The requirements of § 188-16, and § 188-17 shall apply to all developments that contain affordable housing units and other income restricted units, including any currently unanticipated future developments that will provide low- and moderate-income housing and other income-restricted units.

B. Establishing Maximum Rents and Sales Prices.

1. In establishing rents and sales prices of affordable housing units, the administrative agent shall follow the procedures set forth in UHAC and by the Agency, or such other state agencies or

The maximum rent for all affordable rental units within each affordable development shall be affordable to households earning no more than 60% of the regional median income, and the average rent for restricted low- and moderate- income units shall be affordable to households earning no more than 52% of median income. However;

4. Maximum rent affordable to households earning no more than 70% of the regional median income for moderate-income units within affordable developments where very low-income units compose at least 13% of the restricted units may be permitted. In such developments, the number of units with rent affordable to households earning 70% of regional median income may not exceed one plus the number of very low-income units in excess of 13% of the affordable units; and

5. The developers and/or municipal sponsors of affordable rental units shall establish at least one rent for each bedroom count for both very low-income, low-income and moderate-income units, provided that:

    a. At least 13% of all affordable rental units shall be affordable to very low-income households.

6. The maximum sale price of affordable ownership units within each affordable development shall be affordable to households earning no more than 70% of the regional median income. and Each affordable development must achieve an affordability average of no more than 55% for restricted ownership units. In achieving this affordability average, moderate-income ownership units must be available for at least three different prices for each bedroom count, and low-income ownership units must be available for at least two different prices for each bedroom count.

7. In determining the initial rents and initial sale prices for compliance with the affordability average requirements for income restricted units other than age-restricted units and assisted living facilities, the following standards shall apply:

    a. An efficiency unit shall be affordable to a one-person household;

    b. A one-bedroom unit shall be affordable to a one and one-half-person household;

    c. A two-bedroom unit shall be affordable to a three-person household;

10. The initial rent for an income-restricted rental unit shall be calculated so as not to exceed 30% of the eligible monthly income of the appropriate household size as determined under N.J.A.C. 5:80-26.5, as may be amended and supplemented; provided, however, that the rent for affordable units shall be subject to the affordability average requirement of N.J.A.C. 5:80-26.4, as may be amended and supplemented. Approved initial rents shall be fixed as of the start of the property's initial lease-up.

11. The price of owner-occupied low-income units, moderate-income units and workforce units may increase annually based on the percentage increase in the regional median income limit for each housing region. In no event shall the maximum resale price established by the administrative agent be lower than the last recorded purchase price.

13. The rent levels of very low-, low- and moderate income and any other income-restricted units may be increased no more than once annually or by more than one municipal housing liaison approved increment at one time. The increase shall be based on the percentage increase in the Housing

Consumer Price Index for the Northeast Urban Area (Northeast CPI), upon its publication for the prior calendar year. Such annual increase shall coincide with the expiration of a lease or at the termination of a lease of a periodic tenant. Notice of the rent increase must be filed with the Administrative Agent. Any such annual rent increase shall be equal to or less than the amount commensurate with the annual percentage increase in the Northeast CPI, and, in any event, no rent increase shall exceed 5% in any one year for any income restricted unit(s). 14. Tenant-paid utilities that are included in the utility allowance shall be so stated in the lease and shall be consistent with the utility allowance approved by DCA for its Section 8 program.

15. It is understood that subsections 188-16.B.1—8 and 188-16.B.10 shall apply to affordable housing units as defined herein. In establishing rents and sales prices for workforce housing or other alternative types of income- restricted units not covered by the foregoing, the administrative agent shall follow the guidance set forth in the manual as well as instructions communicated to it by the Director. In the absence of definitive guidance or instruction with respect to workforce or other alternative income-restricted units, the administrative agent shall apply the principles and procedures set forth by UHAC and by the Superior Court, or by such other state agencies or instrumentalities as may later jurisdiction to govern procedures for such affordable housing calculations, utilizing the regional income limits established and the definitions of workforce units set forth herein.

C. Condominium and Homeowners Association Fees.

A. Affirmative Marketing.

2. The affirmative marketing plan shall contain a residency preference for all vacant units which are created solely to satisfy Jersey City affordability requirements and are not tied to any state or federal funds or requirements. This residency preference, however, must not result in an affirmative marketing plan which violates any federal or state statute by resulting in a discriminatory or disparate impact to minority groups. The City is required to re-evaluate this section at least every ten years simultaneous with the re-examination of the municipal Master Plan by the City Planning Board pursuant to N.J.S.A. 40:55D-89. These standards shall allow for an abbreviated marketing process in which qualified tenants may be identified through the Jersey City Housing Authority, at no cost to the owner, sponsor or developer, to the greatest extent permissible under state and federal law. The responsibilities of the owner, developer, and administrative agent, and the qualifications of the tenants, as set forth in this Chapter, shall nevertheless remain in full force and effect, and all marketing shall otherwise adhere to the requirements set forth in this Chapter.

    a. Occupancy Standards.

                (1) Additional provisions related to occupancy standards (if any) shall be provided in the municipal Operating Manual, which shall be interpreted consistently with N.J.A.C 5:80-26.1 et seq. to the greatest extent possible.

    (b) Selection of Occupants of Affordable Housing Units.

        i. The administrative agent shall use a random selection process to select occupants of low- and moderate- income housing.

d. The owners of restricted ownership units may apply to the Administrative Agent to increase the maximum sales price or for the unit on the basis of capital improvements. Eligible capital. improvements shall be those that render the unit suitable for a larger household or the addition of a bathroom in accordance with N.J.A.C. 5:80-26.10 or any successor provisions of UHAC that may replace that provision; provided, however, that the maximum sales price shall also be limited in accordance with the same.

F. Control Periods for Restricted Rental Units.

1. Control periods for income restricted rental units shall be set in accordance with N.J.A.C. 5:80-26.12, or such successor provisions of the New Jersey Administrative Code as may deal with the same subject matter. § 188-20. Enforcement of affordable housing regulations and income restrictions. [Added 11-12-2025 by Ord. No. 25-114]

A. Upon the occurrence of a breach of any of the regulations governing the affordable or income-restricted unit by an Owner, Developer or Tenant, the municipality shall have all remedies provided at law or equity, including but not limited to foreclosure, tenant eviction, municipal fines, a requirement for household recertification, acceleration of all sums due under a mortgage, recoupment of any funds from a sale in the violation of the regulations, injunctive relief to prevent further violation of the regulations, entry on the premises, and specific performance.

B. After providing written notice of a violation to an Owner, Developer or Tenant of a low, moderate or workforce income unit and advising the Owner, Developer or Tenant of the penalties for such violations, the municipality may take the actions set forth in the following § 188-18.C against the Owner, Developer or Tenant for any violation that is either incapable of being cured, or remains uncured for: (1) a period established by the Division based on the nature and time-sensitivity of the violation or, if applicable, (2) such notice and cure period as may be required by any applicable state or federal law.

C. The municipality may file a court action pursuant to N.J.S.A. 2A:58-11 alleging a violation, or violations, of the regulations governing the affordable housing unit or other income restricted unit. If the Owner, Developer or Tenant is found by the court to have violated any provision of the regulations governing affordable housing or other income restricted units the Owner, Developer or Tenant shall be subject to one or more of the following penalties, at the discretion of the court:

(1) A fine of not more than $1,200.00 or imprisonment for a period not to exceed 90 days, or both. Each and every day that the violation continues or exists shall be considered a separate and specific violation of these provisions and not as a continuing offense;

(2) In the case of an Owner who has rented his or her low- or moderate- income unit in violation of the regulations governing affordable housing units, payment into the City of Jersey City Affordable Housing Trust Fund of the gross amount of rent and/or any other fees or remuneration illegally charged, collected and/or received;

(3) In the case of an Owner who has rented his or her low- or moderate- income unit in violation of the regulations governing affordable housing units, payment of reasonable relocation costs, as determined by the court, to any innocent tenants that must relocate as a result of the Owner's violation.

(4) The municipality may file a court action in the Superior Court seeking a judgment, which would result in the termination of the Owner's equity or other interest in the unit, in the nature of a mortgage foreclosure. Any judgment shall be enforceable as if the same were a judgment of default of the First Purchase Money Mortgage and shall constitute a lien against the low- and moderate-income unit.

(5) Such judgment shall also be enforceable, at the option of the municipality, by means of an execution sale by the Sheriff, at which time the low- and moderate-income unit of the violating Owner shall be sold at a sale price which is not less than the amount necessary to fully satisfy and pay off any First Purchase Money Mortgage and prior liens and the costs of the enforcement proceedings incurred by the municipality, including attorney's fees. The violating Owner shall have the right to possession terminated as well as the title conveyed pursuant to the Sheriff's sale.

(6) The proceeds of any such Sheriff's sale shall first be applied to satisfy the First Purchase Money Mortgage lien and any prior liens upon the low- and moderate-income unit. The excess, if any, shall be applied to reimburse the municipality for any and all costs and expenses incurred in connection with either the court action resulting in the judgment of violation or the Sheriff's sale. In the event that the proceeds from the Sheriff's sale are insufficient to reimburse the municipality in full as aforesaid, the violating Owner shall be personally responsible for and to the extent of

such deficiency, in addition to any and all costs incurred by the municipality in connection with collecting such deficiency. In the event that a surplus remains after satisfying all of the above, such surplus, if any, shall be placed in escrow by the municipality for the Owner and shall be held in such escrow for a maximum period of two years or until such earlier time as the Owner shall make a claim with the municipality for such. Failure of the Owner to claim such balance within the two-year period shall automatically result in a forfeiture of such balance to the municipality. Any interest accrued or earned on such balance while being held in escrow shall belong to and shall be paid to the municipality, whether such balance shall be paid to the Owner or forfeited to the municipality.

(7) Foreclosure by the municipality due to violation of the regulations governing affordable housing units shall not extinguish the restrictions of the regulations governing affordable housing units as the same apply to the low- and moderate-income unit. Title shall be conveyed to the purchaser at the Sheriff's sale, subject to the restrictions and provisions of the regulations governing the affordable housing unit. The Owner determined to be in violation of the provisions of this plan and from whom title and possession were taken by means of the Sheriff's sale shall not be entitled to any right of redemption.

(8) If there are no bidders at the Sheriff's sale, or if insufficient amounts are bid to satisfy the First Purchase Money Mortgage and any prior liens, the municipality may acquire title to the low- and moderate-income unit by satisfying the First Purchase Money Mortgage and any prior liens and crediting the violating owner with an amount equal to the difference between the First Purchase Money Mortgage and any prior liens and costs of the enforcement proceedings, including legal fees and the maximum resale price for which the low- and moderate- income unit could have been sold under the terms of the regulations governing affordable housing units. This excess shall be treated in the same manner as the excess which would have been realized from an actual sale as previously described.

(9) Failure of the low- and moderate-income unit to be either sold at the Sheriff's sale or acquired by the municipality shall obligate the Owner to accept an offer to purchase from any qualified purchaser which may be referred to the Owner by the municipality, with such offer to purchase being equal to the maximum resale price of the low- and moderate-income unit as permitted by the regulations governing affordable housing units.

(10) The Owner shall remain fully obligated, responsible and liable for complying with the terms and restrictions of governing affordable housing units until such time as title is conveyed from the Owner.

ARTICLE I

Fire Insurance Proceeds

[Adopted 2-20-1979 as Ord. No. S-189]

§ 196-1. Payment of proceeds to insured; restriction. [Amended 1-26-1984 by Ord. No. MC-557; 11-24-1992 by Ord. No. 92-168]

A. No insurance company authorized to issue fire insurance policies in the State of New Jersey shall pay any claims in excess of two thousand five hundred dollars ($2,500.) on any real property located in this city unless:

(1) The city issues to the insured:

(a) An official certificate of search for municipal liens pursuant to N.J. S.A. 54:5-12, certifying that all taxes, assessments and other municipal liens and charges levied and assessed and due and payable against the property covered by such insurance policy have been paid; and

(b) An official certification on a form prescribed and certified by the city that demolition is not required or that the cost of demolition has been paid.

(2) The city submits to the insurance company the certification required under Subsection A(l)(b) and a certified copy of a resolution duly adopted by the city approving an agreement between the city and the owner of the insured property, in which said owner agrees to pay in full all delinquent taxes, assessments and other municipal liens by installments pursuant to N.J.S.A. 54:5-19 or pursuant to N.J.S.A. 54:5-65. No such resolution approving such agreement shall be adopted unless said owner shall agree, in writing, to use the proceeds from the policy to restore or improve the fire-damaged property.

B. Upon receiving copies of the certifications required under Subsection A(l)(a) and (b) or a certified copy of the aforesaid resolution, the insurance company is authorized to make full payment of the claim to the insured person.

C. The official certificates of search required by Subsection A(1) above may, from time to time, be altered by the authorized official of the city in order to correct any errors or omissions or to add any municipal liens or related charges due and payable subsequent to the preparation of the original official certificate.

D. Any request pursuant to this section for an official certificate of search for municipal liens shall specify that the search concerns fire-damaged property.

§ 196-2. Payment of proceeds to city. [Amended 11-24-1992 by Ord. No. 92-168]

A. If the insurance company does not receive an official certificate of search showing that all taxes, assessments, demolition charges and other municipal liens and charges have been fully paid; and an official certification on a form prescribed and certified by the city that demolition is not required; or a certified copy of the resolution described in § 196-1 of this chapter and the certification that demolition is not required; then the insurance company is hereby authorized and required, prior to the payment of any claims for fire damages which are in excess of two thousand five hundred dollars ($2,500.) to the owner of property in this city, to pay to the city the anticipated demolition costs and the amount of the liens appearing on said official certificate and such other recorded liens and related charges as may be certified to the insurance company.

B. In the event that an appeal is taken on the amount of any lien or charge, other than an appeal on the assessed valuation of the realty involved pursuant to N.J.S.A. 54:3-21, the insurance company shall withhold seventy-five percent (75%) of the full amount of the lien or charge being contested pending termination of all proceedings, at which time such moneys and all interest accruing thereon at the rate paid on interest-bearing accounts in banking institutions or savings and loan associations in this state shall be disbursed in accordance with the final order or judgment of the court.

§ 196-3. Claim on proceeds; priority. [Amended 1-26-1984 by Ord. No. MC-557]

A. A claim of the city upon the proceeds of a fire insurance policy made by the city pursuant to N.J.S.A. 17:36-8 et seq. and this chapter shall be paramount to any other claims on the proceeds except the claims:

(1) The holder of a purchase money mortgage held as a first mortgage; and

(2) An institutional lender which is a holder of a mortgage on the fire-damaged property, where the policy lists the mortgagee as the holder of an insurable interest as provided for by N.J.S.A. 17:36-12 and any amendments thereto.

B. Claims enTitled to priority under Subsection A(1) and (2) shall be paramount to the city's lien only to the extent of the amount due and owing on the mortgage.

§ 196-4. Limitation of liability.

A. Nothing in this chapter shall be construed to obligate the insurance company for any amount in excess of the value of the policy; nor shall said company be liable for payment of any liens not appearing on the official certificate of search or on any changes made thereon which had been submitted to the company.

B. Nothing in this chapter shall be construed so as to affect the authority of the city to enforce the payment of a municipal lien under any other law of this state but shall be in addition to such other remedies.

§ 196-5. Applicability.

All fire insurance policies covering real property in this city shall be subject to the provisions of this chapter as though fully set forth in each such policy of fire insurance.

§ 196-6. Required reports; duties of Tax Collector. [Amended 9-11-2013 by Ord. No. 13-081]

A. The Director of the Department of Public Safety shall cause a written report to be issued and filed with the Tax Collector as to each fire occurring in this city containing the following information:

(1) The address of the property whereon the fire occurred.

(2) The name of the fire insurance company insuring the property if it can be ascertained.

(3) The approximate estimate of the cost of the damage to the realty, if it can be ascertained.

B. Said report shall be filed with the Tax Collector immediately after each fire no matter how much the amount of the damaged caused by the fire.

C. Upon receipt of the report of the Department of Public Safety, the Tax Collector shall cause to be made an official search of all taxes, assessments and other municipal liens and charges and shall issue an official certificate of all such liens or charges which are due and payable. Said Collector shall then submit said certificate to the insurance company involved. In the event that the Department of Public Safety shall not be able to ascertain the name and address of the fire insurance company, it shall be the duty of the Tax Collector to ascertain such information.

D. The Tax Collector shall install a clerical system for the issuance of supplemental certificates and the submission of the same to the insurance company setting forth on such supplemental certificates any additional taxes or other municipal charges which have become due and payable subsequent to the issuance of the original certificate. Supplemental certificates shall be issued immediately as each new charge becomes due and payable.

E. Upon receipt of the notice of a fire, the Tax Collector shall notify each department and division of the city charged with the duty of certifying municipal charges which are unpaid to the Tax Collector who shall include the same on the official certificate of search. Such other departments and divisions are charged with the duty of installing clerical systems so that any charges which become due and payable on a fire-damaged property subsequent to the original certification shall be submitted to the Tax Collector forthwith as such new charges become due.*

ARTICLE III

Harassment and Eviction [Adopted 12-11-1986 as Ord. No. C-291]

§ 218-7. Findings. [Amended 6-14-2023 by Ord. No. 23-047]

A. The City Council finds that some owners and developers of residential buildings have engaged in the practice of harassing tenants in an effort to vacate the buildings so as to obtain substantially higher rentals for the dwelling units. Such practices often include the using or threatening to use force, disrupting or discontinuing essential services, failing to abate serious and often life-threatening code violations and removing a tenant's possessions.

B. Although state law protects tenants from unlawful evictions, a tenant's remedy for a landlord's unlawful acts is not always quick and efficient; and most tenants are unfamiliar with state judicial procedures.

C. The City Council believes that through appropriate regulations and restrictions, such unlawful practices can be curbed or prevented and the safety and welfare of tenants protected.

D. The City Council finds that an emergency exists, within Jersey City, where many of its residents are homeless or are at risk of homelessness and/or reside in uninhabitable living conditions due to a shortage of affordable housing and a lack of knowledge and awareness of tenants' rights; and

E. This emergency was created, in part, by the filing of frivolous and/or retaliatory eviction actions by landlords renting residential property in Jersey City; and

F. A landlord will be less likely to file a frivolous lawsuit if they are aware that their tenant will be assisted by legal counsel in preparing and asserting available legal defenses to the tenant's eviction action; this will mitigate the aforementioned emergency and reduce the serious threats to the public health, safety and general welfare of the citizens of the Jersey City created by said emergency; and

G. A lack of knowledge and awareness of their legal rights, the fear of being evicted without good cause, and being forced to seek housing in a limited housing market, discourages many Jersey City tenants from fighting eviction actions or complaining about substandard housing conditions; it is this fear that contributes to homelessness as well as to the harmful, uninhabitable conditions in which many Jersey City tenants live; this warrants legislative action by the Governing Body; and

H. The Municipal Council of the City of Jersey City does hereby declare that these conditions pose a serious threat to the public health, safety and general welfare of the residents of Jersey City, particularly the approximately 70.4% of Jersey City residents who, according to 2020 U.S. Census Bureau data, are renters. N.J.S.A. 40:48-2, allows any municipality to make ordinances, rules, regulations, and by-laws, as the municipality deems necessary and proper for the good government, order and protection of its residents and for the protection of the health, welfare and safety of the municipality and its residents; and

I. Pursuant to these aforementioned police powers, in order to protect the health, safety and welfare of the residents of Jersey City, it is necessary to provide access to legal services to tenants who are subject to eviction proceedings.

dBC means the sound level as measured using the "C" weighting network with a sound level meter meeting the standards of ANSI S1.4-1983 or its successors. The unit of reporting is dB(C). The "C" weighting network is more sensitive to low frequencies than the "A" weighting network.

At all other times the limits set forth in Tables I, II or III do not apply. All motorized equipment used in these activities shall be operated with a muffler and/or sound reduction device. Emergency work, as defined in this section, is excluded from the above restrictions.

C. Excluding emergency work, construction and demolition activity shall not be performed between the hours of 6:00 p.m. and 7:00 a.m. on weekdays, or between the hours 6:00 p.m. and 9:00 a.m. on weekends and federal holidays, unless such activities can meet the limits in Tables I, II or III. At all times the limits set forth in Tables I, II or III do not apply.

G. Self-contained, portable, non-vehicular music or sound production devices shall not be operated on a public space or public right-of-way in such a manner as to be plainly audible at a distance of 50 feet in any direction from the operator between the hours of 8:00 a.m. and 10:00 p.m. Between the hours of 10:00 p.m. and 8:00 a.m., sound, operated on a public space or public right-of-way, from such equipment shall not be plainly audible at a distance of 25 feet in any direction from the operator.

Prima facie evidence of a violation of this section shall include but not be limited to:

(1) Vocalizing (howling, yelping, barking, squawking etc.) for five (5) minutes without interruption, defined as an average of four (4) or more vocalizations per minute in that period; or,

(2) Vocalizing for twenty (20) minutes intermittently, defined as an average of two (2) vocalizations or more per minute in that period.

It is an affirmative defense under this subsection that the dog or other animal was intentionally provoked to bark or make any other noise.

Note—See editor's note, § 222-5.1.

§ 222-5.5. Motor vehicles. [Added 1-25-2017 by Ord. No. 17-007]

Violations of paragraphs A through D of this section shall be considered purposeful and therefore not a minor violation.

A. No person shall remove or render inoperative, or cause to be removed or rendered inoperative or less effective than originally equipped, other than for the purposes of maintenance, repair, or replacement, of any device or element of design incorporated in any motor vehicle for the purpose of noise control. No person shall operate a motor vehicle or motorcycle which has been so modified. A vehicle not meeting these requirements shall be deemed in violation of this provision if it is operated stationary or in motion in any public space or public right-of-way.

B. No motorcycle shall be operated stationary or in motion unless it has a muffler that complies with and is labeled in accordance with the Federal Noise Regulations under 40 CFR Part 205.

C. Personal or commercial vehicular music amplification or reproduction equipment shall not be operated in such a manner that it is plainly audible at distance of 25 feet in any direction from the operator between the hours of 10:00 p.m. and 8:00 a.m.

Jingles may only be played when the vehicle is in motion.

§ 222-5.6. Enforcement. [Added 1-25-2017 by Ord. No. 17-007]

A. Violation of any provision of this ordinance shall be cause for a notice of violation (NOV) or a notice of penalty assessment (NOPA) document to be issued to the violator by the noise control officer or noise control investigator.

B. Any person who violates any provision of this ordinance shall be subject to a civil penalty for each offense of not more than the maximum penalty pursuant to N.J.S.A. 40:49-5, which is $2,000.00. If the violation is of a continuing nature, each day during which it occurs shall constitute an additional, separate, and distinct offense.

C. Upon identification of a violation of this article the noise control officer or noise control investigator shall issue an enforcement document to the violator. The enforcement document shall identify the condition or activity that constitutes the violation and the specific provision of this article that has been violated. It shall also indicate whether the violator has a period of time to correct the violation before a penalty is sought.

D. If the violation is deemed by the noise control officer or noise control investigator to be a minor violation (as defined in section 222-2 of this article), an NOV shall be issued to the violator.

(1) The document shall indicate that the purpose of the NOV is intended to serve as a notice to warn the responsible party/violator of the violation conditions in order to provide them with an opportunity to voluntarily investigate the matter and voluntarily take corrective action to address the identified violation.

(2) The NOV shall identify the time period (up to ninety (90) days), pursuant to the Grace Period Law, N.J.S.A. 13:1D-125 et seq. where the responsible party's/violator's voluntary action can prevent a formal enforcement action with penalties issued by the City, or the Hudson Regional Health Commission. It shall be noted that the NOV does not constitute a formal enforcement action, a final agency action or a final legal determination that a violation has occurred. Therefore, the NOV may not be appealed or contested.

E. If the violation is deemed by the noise control officer or noise control investigator to be a non-minor violation the violator shall he notified that if the violation is not immediately corrected a NOPA with

a civil penalty of no more than the maximum penalty allowed pursuant to N.J.S.A. 40:49-5, which is two thousand dollars ($2,000.00) will be issued. If a non-minor violation is immediately corrected a NOV without a civil penalty shall still be issued to document the violation. If the violation occurs again (within three hundred sixty-five (365) days of the initial violation) a NOPA shall be issued regardless of whether the violation is immediately corrected or not.

F. The violator may request from the noise control officer or noise control investigator, an extension of the compliance deadline in the enforcement action. The noise control officer or noise control investigator shall have the option to approve any reasonable request for an extension (not to exceed 180 days) if the violator can demonstrate that a good faith effort has been made to achieve compliance. If an extension is not granted and the violation continues to exist after the grace period ends, a NOPA shall be issued.

G. The recipient of a NOPA shall be entitled to a hearing in a municipal court having jurisdiction to contest such action.

H. The noise control officer or noise control investigator may seek injunctive relief if the responsible party does not remediate the violation within the period of time specified in the NOPA issued.

1. Any claim for a civil penalty may he compromised and settled based on the following factors:

(1) Mitigating or any other extenuating circumstances;

(2) The timely implementation by the violator of measures which lead to compliance;

(3) The conduct of the violator; and

(4) The compliance history of the violator.

J. No provision of this ordinance shall be construed to impair any common law or statutory cause of action, or legal remedy there from, of any person for injury or damage arising from any violation of this ordinance or from other law.

Note—See editor's note, § 222-5.1.

§ 222-5.7. Consistency, severability and repealer. [Added 1-25-2017 by Ord. No. 17-007]

If any provision or portion of a provision of this ordinance is held to unconstitutional, preempted by Federal or State law, or otherwise invalid by any court of competent jurisdiction, the remaining provisions of the ordinance shall not be invalidated.

Note—See editor's note, § 222-5.1.
