Industries in the Support Activities for Agriculture and Forestry subsector provide support services that are an essential part of agricultural and forestry production. These support activities may be performed by the agriculture or forestry producing establishment or conducted independently as an alternative source of inputs required for the production process for a given crop, animal, or forestry industry. Establishments that primarily perform these activities independent of the agriculture or forestry producing establishment are in this subsector.

SCHEDULE 302. SUPPORT ACTIVITIES FOR AGRICULTURE AND FORESTRY.

Each person, firm or corporation who is engaged in support activities for growing crops and providing support activities for agricultural and forestry production shall pay a license of two-tenths of one percent of the gross receipts from said business from the previous year with a minimum of: $300.00.

NAICS 211. NAICS TITLE—OIL AND GAS EXTRACTION.

Industries in the Oil and Gas Extraction subsector operate and/or develop oil and gas field properties. Such activities may include exploration for crude petroleum and natural gas; drilling, completing, and equipping wells; operating separators, emulsion breakers, desilting equipment, and field gathering lines for crude petroleum and natural gas; and all other activities in the preparation of oil and gas up to the point of shipment from the producing property. This subsector includes the production of crude petroleum, the mining and extraction of oil from oil shale and oil sands, and the production of natural gas, sulfur recovery from natural gas, and recovery of hydrocarbon liquids.

SCHEDULE 303. OIL AND GAS EXTRACTION.

Each person, firm or corporation engaged in the business of operating and developing oil and gas field properties and establishments primarily engages in recovering liquid hydrocarbons from oil and gas field gases shall pay a license equal to 6/20 of one percent of the gross receipts from said business from the previous year with a minimum of: $1,000.00.

NAICS 212. NAICS TITLE—MINING (EXCEPT OIL AND GAS).

Industries in the Mining (except Oil and Gas) subsector primarily engage in mining, mine site development, and beneficiating (i.e., preparing) metallic minerals and nonmetallic minerals, including coal. The term "mining" is used in the broad sense to include ore extraction, quarrying, and beneficiating (e.g., crushing, screening, washing, sizing, concentrating, and flotation), customarily done at the mine site.

Beneficiation is the process whereby the extracted material is reduced to particles which can be separated into mineral and waste, the former suitable for further processing or direct use. The operations that take place in beneficiation are primarily mechanical, such as grinding, washing, magnetic separation, centrifugal separation, and so on. In contrast, manufacturing operations primarily use chemical and electrochemical processes, such as electrolysis, distillation, and so on. However some treatments, such as heat treatments, take place in both stages: the beneficiation and the manufacturing (i.e., smelting/refining) stages. The range of preparation activities varies by mineral and the purity of any given ore deposit. While some minerals, such as petroleum and natural gas, require little or no preparation, others are washed and screened, while yet others, such as gold and silver, can be transformed into bullion before leaving the mine site.

SCHEDULE 304. MINING.

Each person, firm or corporation engaged in the business of mining, mine site development and beneficiating shall pay a license based on less than $30,000.00: $300.00.

Plus an amount equal to 8/10 of one percent of gross receipts in excess of $30,000.00.

NAICS 213. NAICS TITLE—SUPPORT ACTIVITIES FOR MINING.

Industries in the Support Activities for Mining subsector group establishments primarily providing support services, on a contract or fee basis, required for the mining and quarrying of minerals and for the extraction of oil and gas. Establishments performing exploration (except geophysical surveying and mapping) for minerals, on a contract or fee basis, are included in this subsector. Exploration includes traditional prospecting methods, such as taking core samples and making geological observations at prospective sites.

SCHEDULE 305. SUPPORT ACTIVITIES FOR MINING.

Each person, firm or corporation engaged in the business of mining support services for minerals which includes taking core samples, making geological observations, excavating, drilling redrilling, cementing wells, shooting wells, perforating well casing, acidizing, chemically treating wells, and swabbing wells shall pay a license based on two-tenths of one percent of the gross receipts from said business from the previous year with a minimum of: $300.00.

Mining Engineers are classified under Schedule 098.

NAICS 221. NAICS TITLE—UTILITIES.

Industries in the Utilities subsector provide electric power, natural gas, steam supply, water supply, and sewage removal through a permanent infrastructure of lines, mains, and pipes. Establishments are grouped together based on the utility service provided and the particular system or facilities required to perform the service.

SCHEDULE 095. ELECTRIC LIGHT AND POWER COMPANY.

Each person, firm or corporation engaged in the business of selling electrical current, an amount equal to three percent of the gross receipts derived during the preceding calendar year from the sale of electrical current to consumers, users and/or distributors thereof residing or having a place or places of business in the City of Birmingham when such current, after the sale thereof at any place, is consumed or used in the City of Birmingham by such consumers or users, or is distributed from any point or points in the City of Birmingham by such distributors.

Each person, firm, company, association or corporation engaging in or carrying on any business, vocation, occupation or profession hereinabove enumerated outside the corporate limits of the City of Birmingham, but within the police jurisdiction thereof, shall take out a license and pay therefor an amount equal to one-half percent the amount of license tax to which he, she or it would be subject where such business vocation, occupation or profession engaged in or carried on within the corporate limits of the City of Birmingham.

SCHEDULE 117. GAS COMPANIES.

Each person, firm or corporation engaged in the business of distributing gas at retail within the city, shall pay a license in an amount equal to three percent of the gross receipts of such business for the year next preceding.

SCHEDULE 227. STEAM HEAT.

Each person, firm or corporation engaged in the business of supplying steam, hot or chilled water for the purpose of heating or cooling buildings or any other use shall pay a license in the amount of three percent of the gross receipts from said business for the year next preceding.

SCHEDULE 252. WATER WORKS COMPANIES.

Each person, firm or corporation engaged in the business of supplying water, for public domestic purposes, three percent of the gross receipts of such business for the preceding year.

NAICS 236. NAICS TITLE—CONSTRUCTION OF BUILDINGS.

The Construction of Buildings subsector comprises establishments primarily responsible for the construction of buildings. The work performed may include new work, additions, alterations, or maintenance and repairs. The on-site assembly of precut, panelized, and prefabricated buildings and construction of temporary buildings are included in this subsector. Part or all of the production work for which the establishments in this sector have responsibility may be subcontracted to other construction establishments usually specialty trade contractors.

Establishments in this subsector are classified based on the types of buildings they construct. This classification reflects variations in the requirements of the underlying production processes.

SCHEDULE 068. CONTRACTORS (GENERAL).

Each person engaged in the business of constructing houses or buildings on contract, or who constructs two or more houses a year, whether on contract or otherwise, or who maintains an office in Birmingham used in connection with such construction services outside of Birmingham, where gross receipts for services performed inside the City of Birmingham from the previous year are:

Less than $50,000	$250.00
$50,000 and less than $70,000	$350.00
$70,000 and less than $110,000	$500.00
$110,000 and less than $160,000	$750.00
$160,000 and less than $210,000	$850.00
$210,000 and less than $260,000	$975.00
$260,000 and less than $300,000	$1,100.00

$300,000 and less than $500,000	$1,150.00
$500,000 and less than $750,000	$1,200.00
$750,000 and less than $1,000,000	$1,300.00
$1,000,000 and less than $1,500,000	$1,400.00
$1,500,000 and less than $2,000,000	$1,500.00 Plus an amount equal to 1/10 of 1% of annual gross receipts in excess of $2,000,000.00 not to exceed a license tax amount of $25,000.00.

Contractor's gross receipts will be determined based upon work done in the City limits of the City of Birmingham. This includes any work performed in the City of Birmingham for projects outside of the City. It does not include gross receipts for work performed outside of the City. For purposes of this schedule, the gross receipts shall be reduced by the amounts of gross receipts taxable by taxing authorities outside of the City of Birmingham City limits. Contractors gross receipts shall also exclude (i.e. deduct) the amount of payments made to sub-contractors for services performed by said sub-contractors, regardless of the sub-contractor's office location.

*Example: Contractor has a construction project in Huntsville for a total contract amount of $1,000,000.00 (1 million dollars). $950,000.00 of the construction work is performed by the Contractor solely in Huntsville and $50,000.00 of the construction work (drafting, home office p.m., etc.) is performed by the Contractor solely in the Birmingham office. The amount of revenue to be include in "gross receipts" for the purpose of the Contractor's Birmingham license tax would be $50,000.00.**

**In this example, the contractor is not claiming any exemptions (i.e. any payments to any sub-contractors).*

Businesses located within the City limits: The herein referenced business license tax schedule is applicable to businesses (taxpayers) qualifying under this business license schedule whose businesses and/or business office(s) are physically located within the City limits of Birmingham, Alabama, and perform the herein described contractor services within the City of Birmingham. The initial business license tax required under this schedule is subject to the Annualization of Business License (Ordinance No. 97-183, Article II, Section 21.1, as amended).

Businesses located outside the City limits, including the police jurisdiction: For businesses (taxpayers) not physically located within the City limits of Birmingham or its police jurisdiction, but that qualify for this business license schedule and perform the herein described contractor services within the City limits of the City of Birmingham, shall be required to purchase a business license and the business license shall be purchased in advance. The business license shall be based on the

actual contract amount (i.e. gross receipts) for the total work to be performed within the city, and the business license amount shall be determined by the rates specified herein. If the construction project, for which the license specified herein was obtained, continues into subsequent business license tax year(s), a business license in only the minimum amount shall be required to be purchased in each such subsequent year(s). Amendments or revisions to the original contract amount upon which this license is based shall result in additional business license taxes becoming due. Any amendments to contract amounts resulting in a decreased business license amount shall require the business (taxpayer) petition the City of Birmingham for a refund of all overpayments pursuant to the business license code (Ordinance No. 97-183, as amended, Article II, Section 10).

Additional business license requirements: Any licensed contractor shall furnish the Director of Finance (or the Director's designee), within fifteen (15) days of the request thereof, a written summary of the following for each sub-contractor performing, any work or service for the said contractor: (1) sub-contractor's name (including the d/b/a); (2) sub-contractor's business/mailing addresses; (3) sub-contractor's contact telephone number(s); (4) sub-contractor's contract amount(s); (5) sub-contractor's specialty classification(s) (i.e. masonry, concrete finishing, plumbing, etc.); and (6) sub-contractor's City taxpayer identification numbers (if known by the contractor). If a sub-contractor does not provide the contractor a City of Birmingham taxpayer identification number, the Contractor shall notify the City in the required summary. This summary information shall be provided for each sub-contractor performing work on a project in the City. These requirements are pursuant to the City of Birmingham Business License Ordinance No. 97-183, Article II, Section 35, as amended.

NAICS 237. NAICS TITLE—HEAVY AND CIVIL ENGINEERING CONSTRUCTION.

The Heavy and Civil Engineering Construction subsector comprises establishments whose primary activity is the construction of entire engineering projects (e.g., highways and dams), and specialty trade contractors, whose primary activity is the production of a specific component for such projects. Specialty trade contractors in Heavy and Civil Engineering Construction generally are performing activities that are specific to heavy and civil engineering construction projects and are not normally performed on buildings. The work performed may include new work, additions, alterations, or maintenance and repairs.

Specialty trade activities are classified in this subsector if the skills and equipment present are specific to heavy or civil engineering construction projects. For example, specialized equipment is needed to paint lines on highways. This equipment is not normally used in building applications so the activity is classified

in this subsector. Traffic signal installation, while specific to highways, uses much of the same skills and equipment that are needed for electrical work in building projects and is therefore classified in Subsector 238, Specialty Trade Contractors.

Construction projects involving water resources (e.g., dredging and land drainage) and projects involving open space improvement (e.g., parks and trails) are included in this subsector. Establishments whose primary activity is the subdivision of land into individual building lots usually perform various additional site-improvement activities (e.g., road building and utility line installation) and are included in this subsector.

Establishments in this subsector are classified based on the types of structures that they construct. This classification reflects variations in the requirements of the underlying production processes.

SCHEDULE 067. CONTRACTORS, EXCAVATORS, PAVERS, VIADUCT, UNDERPASS, and SEWER BUILDERS OR CONCRETE WORK.

(a) Each person engaged in carrying on excavating, paving, viaduct installation, sewer building or concrete work or services within the City of Birmingham, where the annual gross receipts for the next preceding year is:

Less than $50,000	$250.00
$50,000 and less than $70,000	$350.00
$70,000 and less than $110,000	$500.00
$110,000 and less than $160,000	$750.00
$160,000 and less than $210,000	$850.00
$210,000 and less than $260,000	$975.00
$260,000 and less than $300,000	$1,100.00
$300,000 and less than $500,000	$1,150.00
$500,000 and less than $750,000	$1,200.00
$750,000 and less than $1,000,000	$1,300.00
$1,000,000 and less than $1,500,000	$1,400.00
$1,500,000 and less than $2,000,000	$1,500.00
Plus an amount equal to 1/10 of 1% of annual gross receipts in excess of $2,000,000.00 not to exceed a license tax amount of $25,000.00.	

(b) Where only an office is maintained in the City of Birmingham . . . $350.00

Contractor's gross receipts will be determined based upon work done in the City limits of the City of Birmingham. This includes any work performed in the City of Birmingham for projects outside of the City. It does not include gross receipts for work performed outside of the City. For purposes of this schedule, the gross receipts shall be reduced by the amounts of gross receipts taxable by taxing authorities outside of the City of Birmingham City limits. Contractors gross receipts shall also

exclude (i.e. deduct) the amount of payments made to sub-contractors for services performed by said sub-contractors, regardless of the sub-contractor's office location.

*Example: Contractor has a construction project in Huntsville for a total contract amount of $1,000,000.00 (1 million dollars). $950,000.00 of the construction work is performed by the Contractor solely in Huntsville and $50,000.00 of the construction work (drafting, home office p.m., etc.) is performed by the Contractor solely in the Birmingham office. The amount of revenue to be include in "gross receipts" for the purpose of the Contractor's Birmingham license tax would be $50,000.00.**

**In this example, the contractor is not claiming any exemptions (i.e. any payments to any sub-contractors).*

Businesses located within the City limits: The herein referenced business license tax schedule is applicable to businesses (taxpayers) qualifying under this business license schedule whose businesses and/or business office(s) are physically located within the city limits of Birmingham, Alabama, and perform the herein described contractor services within the City of Birmingham. The initial business license tax required under this schedule is subject to the Annualization of Business License (Ordinance No. 97-183, Article II, Section 21.1, as amended).

Businesses located outside the City limits, including the police jurisdiction: For businesses (taxpayers) not physically located within the city limits of Birmingham or its police jurisdiction, but that qualify for this business license schedule and perform the herein described contractor services within the City limits of the City of Birmingham, shall be required to purchase a business license and the business license shall be purchased in advance. The business license shall be based on the actual contract amount (i.e. gross receipts) for the total work to be performed within the city, and the business license amount shall be determined by the rates specified herein. If the construction project, for which the license specified herein was obtained, continues into subsequent business license tax year(s), a business license in only the minimum amount shall be required to be purchased in each such subsequent year(s). Amendments or revisions to the original contract amount upon which this license is based shall result in additional business license taxes becoming due. Any amendments to contract amounts resulting in a decreased business license amount shall require the business (taxpayer) petition the City of Birmingham for a refund of all overpayments pursuant to the business license code (Ordinance No. 97-183, as amended, Article II, Section 10).

Additional business license requirements: Any licensed contractor shall furnish the Director of Finance (or the Director's designee), within fifteen (15) days of the request thereof, a written summary of the following for each sub-contractor performing, any work or service for the said contractor: (1) sub-contractor's name (including the d/b/a); (2) sub-contractor's business/mailing addresses; (3) sub-contractor's contact telephone number(s); (4) sub-contractor's contract amount(s);

(5) sub-contractor's specialty classification(s) (i.e. masonry, concrete finishing, plumbing, etc.); and (6) sub-contractor's City taxpayer identification numbers (if known by the contractor). If a sub-contractor does not provide the contractor a City of Birmingham taxpayer identification number, the Contractor shall notify the City in the required summary. This summary information shall be provided for each sub-contractor performing work on a project in the City. These requirements are pursuant to the City of Birmingham Business License Ordinance No. 97-183, Article II, Section 35, as amended.

NAICS 238. NAICS TITLE—SPECIALTY TRADE CONTRACTORS.

The Specialty Trade Contractors subsector comprises establishments whose primary activity is performing specific activities (e.g., pouring concrete, site preparation, plumbing, painting, and electrical work) involved in building construction or other activities that are similar for all types of construction but that are not responsible for the entire project. The work performed may include new work, additions, alterations, maintenance, and repairs. The production work performed by establishments in this subsector is usually subcontracted from establishments of the general contractor type or operative builders but, especially in remodeling and repair construction, work also may be done directly for the owner of the property. Specialty trade contractors usually perform most of their work at the construction site, although they may have shops where they perform prefabrication and other work. Establishments primarily engaged in preparing sites for new construction are also included in this subsector.

There are substantial differences in types of equipment, work force skills, and other inputs required by specialty trade contractors. Establishments in this subsector are classified based on the underlying production function for the specialty trade in which they specialize. Throughout the Specialty Trade Contractors subsector, establishments commonly provide both the parts and labor required to complete work. For example, electrical contractors supply the current-carrying and noncurrent-carrying wiring devices that are required to install a circuit. Plumbing, Heating and Air-Conditioning contractors also supply the parts required to complete a contract.

Establishments that specialize in activities primarily related to heavy and civil engineering construction that are not normally performed on buildings, such as the painting of lines on highways are classified in Subsector 237, Heavy and Civil Engineering Construction.

Establishments that are primarily engaged in selling construction materials are classified in Sector 42, Wholesale Trade, or Sector 44-45, Retail Trade, based on the characteristics of the selling unit.

SCHEDULE 069. CONTRACTORS (HVAC).

Each person contracting for or engaged in the business of installing or repairing air conditioning, furnaces, making furnace repairs, doing sheet and tin metal work, steam heating, hot water heating, and steam fitting, any one or all, where gross receipts for services performed within the City of Birmingham from the previous year are:

Less than $50,000	$250.00
$50,000 and less than $70,000	$350.00
$70,000 and less than $110,000	$500.00
$110,000 and less than $160,000	$750.00
$160,000 and less than $210,000	$850.00
$210,000 and less than $260,000	$975.00
$260,000 and less than $300,000	$1,100.00
$300,000 and less than $500,000	$1,150.00
$500,000 and less than $750,000	$1,200.00
$750,000 and less than $1,000,000	$1,300.00
$1,000,000 and less than $1,500,000	$1,400.00
$1,500,000 and less than $2,000,000	$1,500.00
Plus an amount equal to 1/10 of 1% of annual gross receipts in excess of $2,000,000.00 not to exceed a license tax amount of $25,000.00.	

NO LICENSE WILL BE ISSUED to any heating and air conditioning contractor until applicant has obtained, and presented to the Revenue Division at the time of application or renewal, a current, valid State of Alabama Permit issued by the Certification Board of Heating and Air Conditioning Contractors.

Contractor's gross receipts will be determined based upon work done in the City limits of the City of Birmingham. This includes any work performed in the City of Birmingham for projects outside of the City. It does not include gross receipts for work performed outside of the City. For purposes of this schedule, the gross receipts shall be reduced by the amounts of gross receipts taxable by taxing authorities outside of the City of Birmingham City limits. Contractors gross receipts shall also exclude (i.e. deduct) the amount of payments made to sub-contractors for services performed by said sub-contractors, regardless of the sub-contractor's office location.

*Example: Contractor has a construction project in Huntsville for a total contract amount of $1,000,000.00 (1 million dollars). $950,000.00 of the construction work is performed by the Contractor solely in Huntsville and $50,000.00 of the construction work (drafting, home office p.m., etc.) is performed by the Contractor solely in the Birmingham office. The amount of revenue to be include in "gross receipts" for the purpose of the Contractor's Birmingham license tax would be $50,000.00.**

**In this example, the contractor is not claiming any exemptions (i.e. any payments to any sub-contractors).*

Businesses located within the City limits: The herein referenced business license tax schedule is applicable to businesses (taxpayers) qualifying under this business license schedule whose businesses and/or business office(s) are physically located within the City limits of Birmingham, Alabama, and perform the herein described contractor services within the City of Birmingham. The initial business license tax required under this schedule is subject to the Annualization of Business License (Ordinance No. 97-183, Article II, Section 21.1, as amended).

Businesses located outside the City limits, including the police jurisdiction: For businesses (taxpayers) not physically located within the City limits of Birmingham or its police jurisdiction, but that qualify for this business license schedule and perform the herein described contractor services within the City limits of the City of Birmingham, shall be required to purchase a business license and the business license shall be purchased in advance. The business license shall be based on the actual contract amount (i.e. gross receipts) for the total work to be performed within the city, and the business license amount shall be determined by the rates specified herein. If the construction project, for which the license specified herein was obtained, continues into subsequent business license tax year(s), a business license in only the minimum amount shall be required to be purchased in each such subsequent year(s). Amendments or revisions to the original contract amount upon which this license is based shall result in additional business license taxes becoming due. Any amendments to contract amounts resulting in a decreased business license amount shall require the business (taxpayer) petition the City of Birmingham for a refund of all overpayments pursuant to the business license code (Ordinance No. 97-183, as amended, Article II, Section 10).

Additional business license requirements: Any licensed contractor shall furnish the Director of Finance (or the Director's designee), within fifteen (15) days of the request thereof, a written summary of the following for each sub-contractor performing, any work or service for the said contractor: (1) sub-contractor's name (including the d/b/a); (2) sub-contractor's business/mailing addresses; (3) sub-contractor's contact telephone number(s); (4) sub-contractor's contract amount(s); (5) sub-contractor's specialty classification(s) (i.e. masonry, concrete finishing, plumbing, etc.); and (6) sub-contractor's City taxpayer identification numbers (if known by the contractor). If a sub-contractor does not provide the contractor a City of Birmingham taxpayer identification number, the Contractor shall notify the City in the required summary. This summary information shall be provided for each sub-contractor performing work on a project in the City. These requirements are pursuant to the City of Birmingham Business License Ordinance No. 97-183, Article II, Section 35, as amended.

SCHEDULE 070. CONTRACTORS, HOUSE MOVERS AND/OR HOUSE WRECKERS.

Each person, firm or corporation contracting for or engaged in the business of moving houses or other similar structures and/or engages in demolition of houses, buildings, or other structures, whether actually doing the work or making contracts for the work to be done either by himself or by others where gross receipts for services performed within the City of Birmingham from the previous year are:

Less than $50,000	$250.00
$50,000 and less than $70,000	$350.00
$70,000 and less than $110,000	$500.00
$110,000 and less than $160,000	$750.00
$160,000 and less than $210,000	$850.00
$210,000 and less than $260,000	$975.00
$260,000 and less than $300,000	$1,100.00
$300,000 and less than $500,000	$1,150.00
$500,000 and less than $750,000	$1,200.00
$750,000 and less than $1,000,000	$1,300.00
$1,000,000 and less than $1,500,000	$1,400.00
$1,500,000 and less than $2,000,000	$1,500.00
Plus an amount equal to 1/10 of 1% of annual gross receipts in excess of $2,000,000.00 not to exceed a license tax amount of $25,000.00.	

(b) Where only an office is maintained in the City of Birmingham . . . $350.00

Contractor's gross receipts will be determined based upon work done in the City limits of the City of Birmingham. This includes any work performed in the City of Birmingham for projects outside of the City. It does not include gross receipts for work performed outside of the City. For purposes of this schedule, the gross receipts shall be reduced by the amounts of gross receipts taxable by taxing authorities outside of the City of Birmingham City limits. Contractors gross receipts shall also exclude (i.e. deduct) the amount of payments made to sub-contractors for services performed by said sub-contractors, regardless of the sub-contractor's office location.

*Example: Contractor has a construction project in Huntsville for a total contract amount of $1,000,000.00 (1 million dollars). $950,000.00 of the construction work is performed by the Contractor solely in Huntsville and $50,000.00 of the construction work (drafting, home office p.m., etc.) is performed by the Contractor solely in the Birmingham office. The amount of revenue to be include in "gross receipts" for the purpose of the Contractor's Birmingham license tax would be $50,000.00.**

**In this example, the contractor is not claiming any exemptions (i.e. any payments to any sub-contractors).*

Businesses located within the City limits: The herein referenced business license tax schedule is applicable to businesses (taxpayers) qualifying under this business license schedule whose businesses and/or business office(s) are physically located

within the City limits of Birmingham, Alabama, and perform the herein described contractor services within the City of Birmingham. The initial business license tax required under this schedule is subject to the Annualization of Business License (Ordinance No. 97-183, Article II, Section 21.1, as amended).

Businesses located outside the City limits, including the police jurisdiction: For businesses (taxpayers) not physically located within the City limits of Birmingham or its police jurisdiction, but that qualify for this business license schedule and perform the herein described contractor services within the City limits of the City of Birmingham, shall be required to purchase a business license and the business license shall be purchased in advance. The business license shall be based on the actual contract amount (i.e. gross receipts) for the total work to be performed within the City, and the business license amount shall be determined by the rates specified herein. If the construction project, for which the license specified herein was obtained, continues into subsequent business license tax year(s), a business license in only the minimum amount shall be required to be purchased in each such subsequent year(s). Amendments or revisions to the original contract amount upon which this license is based shall result in additional business license taxes becoming due. Any amendments to contract amounts resulting in a decreased business license amount shall require the business (taxpayer) petition the City of Birmingham for a refund of all overpayments pursuant to the business license code (Ordinance No. 97-183, as amended, Article II, Section 10).

Additional business license requirements: Any licensed contractor shall furnish the Director of Finance (or the Director's designee), within fifteen (15) days of the request thereof, a written summary of the following for each sub-contractor performing, any work or service for the said contractor: (1) sub-contractor's name (including the d/b/a); (2) sub-contractor's business/mailing addresses; (3) sub-contractor's contact telephone number(s); (4) sub-contractor's contract amount(s); (5) sub-contractor's specialty classification(s) (i.e. masonry, concrete finishing, plumbing, etc.); and (6) sub-contractor's City taxpayer identification numbers (if known by the contractor). If a sub-contractor does not provide the contractor a City of Birmingham taxpayer identification number, the Contractor shall notify the City in the required summary. This summary information shall be provided for each sub-contractor performing work on a project in the City. These requirements are pursuant to the City of Birmingham Business License Ordinance No. 97-183, Article II, Section 35, as amended.

SCHEDULE 071. CONTRACTORS, HOUSE PAINTERS, ROOFERS, SIGN PAINTERS, CARDWRITING, DECORATIONS, PLASTERERS, PAPER HANGERS, LATHERS, CABINET OR CARPENTER SHOP, AUTOMOBILE PAINTING, BUILDING SIDING AND/OR BUILDING INSULATION.

Each person Each person, firm or corporation engaged in any of the foregoing businesses whether actually doing the work or making contracts for the work to be done either by himself or by others, shall pay a license as follows:

Where only one worker	$75.00
Where two and less than six workers	$250.00

Persons, firms or corporations exceeding five workers on any contract shall be required to purchase a General Contractors license in accordance with all taxes and requirements as referenced in the City of Birmingham Business License Code, 97-183, as amended.

Any claimed exemptions (i.e. gross receipts from work performed outside the City) and all other claimed exemption(s) from the gross receipts calculations must be presented to the City of Birmingham Department of Finance in compliance with the provisions of Article II, Section 2.3 of this Business License Code.

Businesses located within the City limits: The herein referenced business license tax schedule is applicable to businesses (taxpayers) qualifying under this business license schedule and have their business and/or business office(s) located within the City limits of Birmingham, Alabama.*

Businesses located outside the City limits, including the police jurisdiction: For businesses (taxpayers) that do not have their business and/or offices located within the City limits of Birmingham, Alabama or its police jurisdiction, however qualify for this business license schedule and perform the herein described contractor services within the City of Birmingham City limits shall purchase a business license in advance. The advance business license purchase amount will be based on the actual number of workers for the contract (i.e. gross receipts) of work performed within the city limits. Additional business license taxes shall become due with increase(s) to the number of workers on a certain contract.

Additional business license requirements: Any licensed contractor shall furnish the Director of Finance (or the Director's designee,) within 15 days of the request thereof, all of the following: A written summary of the names, business/mailing addresses, telephone numbers, contract amounts, City taxpayer identification numbers, and specialty classifications (i.e. masonry, concrete finishing, plumbing, etc.) of each subcontractor performing any work or service for said contractor in the City, pursuant to Section 35 of this Business License Code. If a business does not have a City taxpayer identification number, the Contractor shall notify the City in the required summary.

SCHEDULE 096. ELECTRICIANS.

Each person, firm or corporation doing business within the City of Birmingham, or soliciting electric work:

Where one master or journeymen electrician is employed	$75.00
Where two and less than three.....	$180.00
Where three and less than six	$250.00

Persons, firms or corporations exceeding five (5) workers on any contract shall be required to purchase a General Contractors license in accordance with all taxes and requirements as referenced in the City of Birmingham Business License Code, 97-183, as amended.

The average number of master or journeymen electricians employed in the preceding year shall afford the basis for computing the tax due hereunder which average number shall be determined as outlined in Schedule 201 of this Business License Code.

NO LICENSE WILL BE ISSUED until the following has been obtained and presented to the Revenue Division at the time of application and/or renewal:

(1) A current, valid City of Birmingham Master Electrician's Certification Card.

(2) A bond in the amount of $10,000.00 executed on a bond form provided by the City of Birmingham Finance Department.

Businesses located within the City limits: The herein referenced business license tax schedule is applicable to businesses (taxpayers) qualifying under this business license schedule whose businesses and/or business office(s) are physically located within the City limits of Birmingham, Alabama, and perform the herein described services within the City of Birmingham. The initial business license tax required under this schedule is subject to the Annualization of Business License (Ordinance No. 97-183, Article II, Section 21.1, as amended).

Businesses located outside the City limits, including the police jurisdiction: For businesses (taxpayers) not physically located within the City limits of Birmingham or its police jurisdiction, but that qualify for this business license schedule and perform the herein described services within the City limits of the City of Birmingham, shall be required to purchase a business license and the business license shall be purchased in advance. The business license shall be based on the actual contract amount (i.e. gross receipts) for the total work to be performed within the City, and the business license amount shall be determined by the rates specified herein. If the construction project, for which the license specified herein was obtained, continues into subsequent business license tax year(s), a business license in only the minimum amount shall be required to be purchased in each such subsequent year(s). Amendments or revisions to the original contract amount upon which this license is based shall result in additional business license taxes becoming due. Any amendments to contract amounts resulting in a decreased business license amount, the business (taxpayer) shall petition the City of Birmingham for a refund of all overpayments pursuant to the business license code (Ordinance No. 97-183, as amended, Article II, Section 10).

SCHEDULE 097. ELEVATORS.

Each person, firm or corporation selling or installing hydraulic, steam, electric or hand power elevators or repairing or maintaining same, either as principal or agent, shall pay a license of two-tenths of one percent of the gross receipts from said business from the previous year with a minimum license of: $200.00.

SCHEDULE 104. FLOOR DRESSERS.

Each person, firm or corporation, operating one or more floor dressing machines and engaged in dressing, selling or installing flooring shall pay a license of two-tenths of one percent of the gross receipts from said business from the previous year with a minimum license of: $150.00.

SCHEDULE 201. PLUMBING, GAS FITTERS.

Each person, firm or corporation engaged in the business of plumbing, gas fitting, and/or steam/hot water heating, any one or all, where the number of master or journeyman workers retained or used is:

Where less than 3	$180.00
Where 3 and less than 5	$240.00
Where 5 and less than 10	$360.00
Where 10 and less than 15	$480.00
Where 15 and over	$600.00

No license will be issued until applicant has obtained and presented the following to the Revenue Division at the time of application:

(1) A current, valid Master Plumbers/Gas Fitters card issued by the State of Alabama Licensing Board for Plumbers and Gas Fitters.

(2) Surety Bond in the amount of $10,000.00, payable to the City of Birmingham, and executed on bond form provided by the City.

Where plumbing equipment or supplies or other merchandise is sold and not installed by the plumber, a merchandise license shall be paid as provided for in Schedule 165 of this Business License Code.

For the purpose of computing the amount of license tax due under this schedule, the average number of master or journeyman workers retained or used in the year immediately preceding the year for which the license tax is paid shall afford the basis of computation. The average number of master or journeyman workers shall be the quotient derived through dividing by four the sum of the largest number of master or journeyman workers retained or used during the months of January, April, July and October of the year immediately preceding; provided, however, if the licensee were not engaged in business during the entire preceding year the average number of master or journeymen workers shall be determined on the basis of the highest number of master or journeyman workers retained or used during any one or more of the months of January, April, July and October, during which such licensee was engaged in business.

SCHEDULE 010B. BURGLAR/FIRE ALARM COMPANIES (INSTALLATION AND MAINTENANCE ONLY).

Each person, firm, partnership or corporation engaged in the business of installation, maintenance, service or repair, alteration, or moving of alarm systems, in or on any building or structure shall pay a license as follows: Where gross annual business from said business from the previous year is:

Less than $5,000.00	$60.00
$5,000.00 and less than $10,000.00	$100.00
$10,000.00 and less than $15,000.00	$150.00
$15,000.00 and less than $20,000.00	$200.00
Plus an amount equal to 2/10 of one percent of gross annual business in excess of $20,000.00.	

It shall be unlawful for any person or entity engaged in the business of installing alarms to install an alarm designed to provoke police or emergency response unless such person possesses a current valid city business license and is knowledgeable and competent to make such installation (Ord. No. 86-266).

Effective January 1, 1998, no license will be issued to installers until applicant has obtained a State license issued by the Alabama Electronic Security Board of Licensure (Title 34, Chapter 1A, Code of Alabama 1975).

SCHEDULE 017A. AUTOMATIC SPRINKLERS, INSIDE.

Each person, firm, or corporation engaged in the business of selling, or installing automatic sprinkler systems inside buildings, shall pay a license of two-tenths of one percent of the gross receipts from said business from previous year with a minimum license of: $120.00.

NAICS 311. NAICS TITLE—FOOD MANUFACTURING.

Industries in the Food Manufacturing subsector transform livestock and agricultural products into products for intermediate or final consumption. The industry groups are distinguished by the raw materials (generally of animal or vegetable origin) processed into food products.

The food products manufactured in these establishments are typically sold to wholesalers or retailers for distribution to consumers, but establishments primarily engaged in retailing bakery and candy products made on the premises not for immediate consumption are included.

Establishments primarily engaged in manufacturing beverages are classified in Subsector 312, Beverage and Tobacco Product Manufacturing.

SCHEDULE 029. BAKERY.

Each person conducting a bakery and in connection operates a vehicle on street shall pay a license of two-tenths of one percent of the gross receipts from said business from the previous year with a minimum license of: $200.00.

Where no vehicle owned by the business is operated on the streets in connection with said business and gross receipts are:

Less than $50,000.00	$120.00
$50,000.00 and not more than $100,000.00	$200.00
Plus an amount equal to 2/10 of one percent of gross receipts in excess of $100,000.00.	

The aforesaid schedule of license shall also apply to the making of donuts where the same are sold at wholesale only.

No license will be issued until applicant has obtained and presented to the Revenue Division at the time of application a current, valid Health Department Permit.

SCHEDULE 030. BAKERY GOODS, INCLUDING DONUTS.

Each retail dealer in bakery goods and/or donuts where principal business, shall pay a license of two-tenths of one percent of the gross receipts from said business from the previous year with a minimum license of: $120.00.

No license will be issued until applicant has obtained and presented to the Revenue Division at the time of application a current, valid Health Department Permit.

SCHEDULE 046. CANDY, PROCESSING OR MANUFACTURING, CANNING, PRESERVING, AND/OR PEANUT BUTTER PROCESSING OR MANUFACTURING.

Each person, firm or corporation engaged in the business of making, processing or manufacturing candy, canning, processing, or preserving farm produce and/or making, processing or manufacturing peanut butter and similar products shall pay a license of two-tenths of one percent of the gross receipts from said business from the previous year with a minimum license of: $120.00.

No license will be issued until applicant has obtained and presented to the Revenue Division at the time of application a current, valid Health Department Permit.

SCHEDULE 080. CREAMERY, BUTTER FACTORY, MILK PASTEURIZATION PLANT, OLEO MARGARINE PLANT, INCLUDING THE SALE OF CHOCOLATE MILK, OR OTHER SIMILAR PRODUCTS.

Each person, firm or corporation so engaged shall pay a license of two-tenths of one percent of the gross receipts from said business from the previous year with a minimum license of: $200.00.

Where there is no pasteurization plant, and buttermilk is manufactured from powder a license of two-tenths of one percent of the gross receipts, less returned goods, from said business from the previous year with a minimum license of: $60.00.

No license will be issued until applicant has obtained and presented to the Revenue Division at the time of application a current, valid Health Department Permit.

SCHEDULE 122. GRAIN OR FLOUR DEALER, AGENT OR BROKER, GRAIN PROCESSOR, GRIST MILLS, WHOLESALE DEALER IN POWDERED MILK.

Each person engaged in any of the aforesaid types of businesses, shall pay a license on the first $100,000.00 of the gross receipts from said business from the previous year of: $200.00.

Plus an amount equal to 2/20 of one percent of gross receipts in excess of $100,000.00.

No license will be issued until applicant has obtained and presented to the Revenue Division at the time of application a current, valid Health Department Permit.

SCHEDULE 220. SAUSAGE FACTORY.

Each person, firm or corporation conducting, where principal business, shall pay a license of two-tenths of one percent of the gross receipts from said business from the previous year with a minimum license of: $200.00.

No license will be issued until applicant has obtained and presented to the Revenue Division at the time of application a current, valid Health Department Permit.

SCHEDULE 229. SYRUP, MANUFACTURER, AGENT, DEALER OR BROKER.

Each wholesale manufacturer, agent or dealer, or broker for Coca Cola, Celery Cola, Chero-Cola, Root Beer, or any similar compound syrup used in compounding drinks where principal business, in addition to bottlers license, shall pay a license of two-tenths of one percent of the gross receipts from said business from the previous year with a minimum license of: $200.00.

No license will be issued until applicant has obtained and presented to the Revenue Division at the time of application a current, valid Health Department Permit as needed.

NAICS 312. NAICS TITLE—BEVERAGE AND TOBACCO PRODUCT MANUFACTURING.

Industries in the Beverage and Tobacco Product manufacturing subsector manufacture beverages and tobacco products. The industry group, Beverage manufacturing, includes three types of establishments: (1) those that manufacture nonalcoholic beverages; (2) those that manufacture alcoholic beverages through the fermentation process; and (3) those that produce distilled alcoholic beverages. Ice manufacturing, while not a beverage, is included with nonalcoholic beverage manufacturing because it uses the same production process as water purification.

In the case of activities related to the manufacture of beverages, the structure follows the defined productive processes. Brandy, a distilled beverage, was not placed under distillery product manufacturing, but rather under the NAICS class for winery

product manufacturing since the productive process used in the manufacturing of alcoholic grape-based beverages produces both wines (fermented beverage) and brandies (distilled beverage).

The industry group, Tobacco manufacturing, includes two types of establishments: (1) those engaged in redrying and stemming tobacco and, (2) those that manufacture tobacco products, such as cigarettes and cigars.

SCHEDULE 039. BOTTLERS, MANUFACTURING.

Each person, firm or corporation engaged in the manufacturing, producing, or bottling, in bottles or other containers, soda water, carbonated drinks, fruit juices or imitations thereof, and any preparations known as soft drinks of any description, shall pay a license of two-tenths of one percent of the gross receipts from said business from the previous year with a minimum license of: $200.00.

SCHEDULE 040. BOTTLED WATERS AND/OR FRUIT DRINKS.

(a) Each retail dealer in aerated waters, carbonated waters, fruit drinks, or soft drinks of any description, where not principal business: $24.00.

(b) Where principal business, each retail dealer shall pay a license of $24.00 on the first $5,000.00 of gross receipts, plus $24.00 on each additional $5,000.00 or fractional part thereof of gross receipts from said business from the previous year.

(c) No person, firm, or corporation conducting restaurant, cafe or lunch stand as the principal business, shall pay the license provided by this schedule, but shall include gross receipts from such bottled waters and fruit drinks as part of gross receipts of such restaurant, cafe or lunch stand and pay under Schedule 216 of this Code.

SCHEDULE 132. ICE FACTORY.

Each person, firm or corporation manufacturing, selling or delivering ice within the City's jurisdiction, shall pay a license at the rate of $9.60 per ton based on the daily machine capacity of each factory producing ice that is sold within the City, provided each operator manufacturing or delivering ice within the City's jurisdiction, shall pay a rate of not less than $400.00, multiplied by the number of factories used in producing ice for sale within the City's jurisdiction.

No license will be issued until applicant has obtained and presented to the Revenue Division at the time of application a current, valid Health Department Permit.

SCHEDULE 150. ALCOHOLIC BEVERAGES, LIQUOR, BEER, WINE.

The following is hereby declared to be the schedule of licenses for Alcoholic Beverages. Liquor, Beer, Wine for the calendar year commencing January 1, 2008, and for each subsequent year thereafter, for businesses who shall engage in the alcoholic beverage, liquor, beer or wine business in or carried on in the City of Birmingham in

said calendar year, and each and every firm, company or corporation engaged in any such business enumerated herein, in said calendar year shall pay and take out such licenses in such sums as are herein provided:

Definitions. In the construction of this subsection, the following words or phrases shall, unless the context clearly indicates otherwise, have the meanings ascribed to them as follows:

(a) "Board." The Alcoholic Beverage Control Board of the State of Alabama.

(b) "City." The City of Birmingham, Alabama.

(c) "Code." The Code of Alabama, 1975.

(d) "Corporate Limits." The corporate limits of the City of Birmingham, Alabama.

(e) "Engaged in Business." A person shall be deemed engaged in business within the corporate limits if that person has a fixed place of business within said corporate limits, or if, pursuant to agreement of sale, express or implied, that person delivers any alcoholic beverage or liquor, beer, or wine within said corporate limits, or if that person within said corporate limits, shall do any act authorized to be done only by the holder of any license issued by the board.

(f) "Fixed Place of Business." Any place where any alcoholic beverage, liquor, wine, or beer is kept or stored for sale or delivery.

(g) "Person." Any legal entity, including, but not limited to, natural persons, associations and corporations, but excluding the State of Alabama and the Board.

(h) The terms "Alcoholic Beverage," "Beer," "Brewpub," "Club," "Importer," "Liquor," "Manufacturer," "Restaurant," "Retailer," "Sale or Sell," "Wholesaler," "Wine," "Fortified Wine," and "Table Wine" shall have the same meaning as ascribed to them by the Alabama Alcoholic Beverage Licensing Code, Title 28, Code of Alabama 1975, and as interpreted by the regulations of the Board.

SCHEDULE 150A. MANUFACTURER.

Each person licensed by the Board as a manufacturer under Section 28-3A-6 of the Code, who manufactures, or otherwise distills, produces, ferments, brews, bottles, rectifies, or compounds alcoholic beverages shall pay an annual license fee of: $500.00.

SCHEDULE 150B. IMPORTER.

Each person licensed by the Board as an importer under Section 28-3A-7 of the Code shall pay an annual license fee of: $500.00.

Provided that, if such importer can only import table wine the license fee shall be: $250.00.

SCHEDULE 150C. LIQUOR WHOLESALER.

Each person licensed by the Board as a liquor wholesaler under Section 28-3A-8 of the Code, shall pay an annual license fee of: $500.00.

SCHEDULE 150D. BEER WHOLESALER.

Each person licensed as a beer wholesaler under Section 28-3A-9 of the Code shall pay an annual license fee of: $275.00.

SCHEDULE 150E. WINE WHOLESALER.

Each person licensed as a wine wholesaler under Section 28-3A-9 of the Code shall pay an annual license fee of: $150.00.

SCHEDULE 150F. BEER AND WINE WHOLESALER.

Each person licensed as a beer and wine wholesaler under Section 28-3A-9 of the Code shall pay an annual license fee of: $375.00.

SCHEDULE 150G. WAREHOUSE.

Each person licensed by the Board to operate an alcoholic beverage warehouse under Section 28-3A-10 of the Code, shall pay an annual license fee of: $200.00.

SCHEDULE 150H. LOUNGE RETAIL LIQUOR. CLASS I (ON-PREMISES CONSUMPTION).

Each person licensed by the Board to operate a retail liquor lounge under Section 28-3A-11 of the Code, shall pay an annual license fee of: $500.00.

SCHEDULE 150I. RESTAURANT RETAIL LIQUOR.

Each person licensed by the Board to sell alcoholic beverages in connection with the operation of a hotel, restaurant, civic center authority or dinner theater under Section 28-3A-13 of the Code, shall pay an annual license fee of: $500.00.

SCHEDULE 150J. CLUB LIQUOR. CLASS I.

Each person licensed by the Board to operate a club under Section 28-3A-12 of the Code, shall pay an annual license fee of: $500.00.

SCHEDULE 150K. RETAIL TABLE WINE (OFF-PREMISES CONSUMPTION).

Each person licensed by the Board to sell table wine at retail for off-premises consumption under Section 28-3A-15 of the Code, shall pay an annual license fee of: $40.00.

SCHEDULE 150L. RETAIL TABLE WINE (ON-PREMISES AND OFF-PREMISES CONSUMPTION).

Each person licensed by the Board to sell table wine at retail for on-premises and off-premises consumption under Section 28-3A-14 of the Code, shall pay an annual license fee of: $100.00.

SCHEDULE 150M. RETAIL BEER (ON-PREMISES AND OFF-PREMISES CONSUMPTION).

Each person licensed by the Board to sell beer for on-premises and off-premises consumption under Section 28-3A-16 of the Code, shall pay an annual license fee of: $40.00.

SCHEDULE 150N. RETAIL BEER (OFF-PREMISES CONSUMPTION).

Each person licensed by the Board to sell beer for off-premises consumption under Section 28-3A-17 of the Code, shall pay an annual license fee of: $40.00.

SCHEDULE 150O. SPECIAL RETAIL; MORE THAN 30 DAYS.

Each person who shall be granted a special retail license by the Board under Section 28-3A-19 Code of Alabama 1975, which is valid for more than 30 days, and renewable annually shall pay a license fee of: $250.00.

SCHEDULE 150P. SPECIAL EVENTS RETAIL. LESS THAN SEVEN DAYS.

Each person licensed by the Board to sell alcoholic beverages under Section 28-3A-20 of the Code, which is valid for a period not to exceed seven consecutive calendar days shall pay to the City a license fee of $50.00. Such license issued by the City is nonrenewable.

SCHEDULE 150Q. SPECIAL RETAIL; LESS THAN 30 DAYS.

Each person who shall be granted a special retail license by the Board under Section 28-3A-19, which is valid for a period of more than seven days but not to exceed 30 days shall pay to the City a license of $150.00. Such license issued by the City is nonrenewable.

SCHEDULE 150R. BREWPUB.

Each person licensed by the Board as a Brewpub under Chapter 4A, Title 28 Code of Alabama 1975, the "Alabama Brewpub Act," shall pay an annual license fee of $500.00. In addition each person licensed as a Brewpub, shall also be required to be licensed under the provisions of Schedule 150-I (Restaurant Retail Liquor).

SCHEDULE 150S. LOUNGE RETAIL LIQUOR—CLASS II. OFF-PREMISES (PACKAGE STORES).

Each person licensed by the Board to operate an off-premises retail liquor lounge (package store) under Section 28-3A-11 of the Code, shall pay an annual license fee of: $500.00.

SCHEDULE 150T. CLUB LIQUOR—CLASS II.

Each person licensed by the Board to operate a club under Section 28-3A-12 of the Code, shall pay an annual license fee of: $500.00.

SCHEDULE 150Y. MONTHLY THREE PERCENT LIQUOR TAX.

On or before the 15th of the calendar month next succeeding the period of the license issued each such person shall pay to the City for the privilege of so engaging in such business an additional license tax of three percent of the gross receipts of such business derived from the sale of alcoholic beverages other than table wine and malt or brewed beverages during such license period.

SCHEDULE 150Z. MONTHLY ONE TENTH OF ONE PERCENT LIQUOR TAX.

On or before the 15th day of the calendar month next succeeding each separate calendar month, each such person shall also pay to the City, for the privilege of so engaging in such business in such immediately next preceding month, an additional license tax of one-tenth of one percent of the gross receipts of such business received during such immediately next preceding month which said gross receipts were derived only from the sale of alcoholic beverages other than table wine and malt or brewed beverages.

SCHEDULE 400. WINE WHOLESALER.

Monthly Wine Tax ($.07/liter)—Schedule 400. On or before the 15th day of the calendar month next succeeding each separate calendar month, each such person shall also pay to the City, for the privilege of so engaging in such business in such immediately preceding month, an additional license tax of $.07 per liter of table wine sold within the City during the preceding month. (Section 28-7-16, Code of Alabama 1975).

Sec. 1.1. Issuance of alcoholic beverage licenses. No alcoholic beverage licenses shall be issued for use within the City of Birmingham (a Class 1 municipality) without prior approval by the Birmingham City Council. All other provisions of law, rules or regulations to the contrary notwithstanding, the Alabama Alcoholic Beverage Control Board shall have absolutely no authority to issue any form of license in the City of Birmingham (a Class 1 municipality) including, but not limited to, off-premise consumption licenses, restaurant licenses, or club licenses, for the retail sale of any form of intoxicating beverages, including, but not limited to, malt liquor, beer, wine, liquor, or other alcoholic beverage regulated by the board, unless one of the following requirements are satisfied:

1. The application has first been approved by the Birmingham City Council.
2. The denial of a liquor license application by the Birmingham City Council has been set aside by order of the circuit court of the county in which the site is situated on the ground that the municipal approval was arbitrarily or capriciously denied without a showing of one of the following:
    i. The creation of a nuisance.
    ii. Circumstances clearly detrimental to or which would adversely affect the public health, safety, and welfare of the adjacent residential neighborhoods.

iii. A violation of applicable zoning restrictions or regulations.

Sec. 1.2. Schedule of city liquor licenses. Each person licensed by the Board, who shall engage in the alcoholic beverage, liquor, beer or wine business within the corporate limits, shall, prior to engaging in such business, pay to the City for the privilege of so engaging in business, an annual license fee and further license fees as established below.

Sec. 1.3. City liquor license conditions and special provisions.

(A) *Deduction for Beer and Wine Tax.* For the purpose of this Schedule 150, gross receipts from the sale of table wine, which are taxed under Chapter 7, Title 28 Code of Alabama 1975, the "Alabama Table Wine Act," and gross receipts from the sale of beer on which the uniform State Tax is paid, shall be deducted from the amount considered gross receipts hereunder.

(B) *City License Amount One-Half of State License Fee For Specific License Schedules.* Notwithstanding any other provision of this Schedule 150, no license or privilege tax, or other charge for the privilege of doing business as a beer wholesaler, importer, or retailer, shall be collected by the City which shall exceed one-half of the amount of the state license fee collected by the Board for like privilege.

(C) *No Proration of Liquor License Fee.* There shall be no proration of any license fee because of having operated only a part of a calendar year, except as provided in State law.

(D) *Due Date of Annual Liquor License Fee; Due Date of Monthly Liquor Taxes; Penalty for Late Payment.* The stated annual license fee levied by this Schedule 150 shall be due January 1 of each year and shall be delinquent after January 15 of the year for which such license is due, and a penalty of 15 percent shall be collected on or after January 16th of such year. All additional license fees levied by this Schedule 150, shall be due on the 15th day of the calendar month specified in each levy and shall be delinquent if not paid by such day and a penalty of 15 percent shall be collected after such day of each month.

(E) *Unlawful to Sell or Dispense Alcoholic Beverages Without a License.* It shall be unlawful for any person, firm, or corporation to engage in the sale of any alcoholic beverage in the City of Birmingham without having first procured a license for such sale. It shall also be unlawful for any current licensee to continue to sell any alcoholic beverages after the expiration of a license previously issued, without obtaining a new license. Each day during which such business is so engaged shall constitute a separate offense punishable as outlined in Section 44 of this ordinance, which punishment may include fine and/or arrest and imprisonment.

(F) *Recordkeeping Requirements for Liquor Licensees.*

(1) It shall be the duty of every person, firm, corporation, club, association of persons, receiving, storing, selling or handling alcoholic beverages enumerated

in this schedule in any manner whatsoever to keep and preserve all invoices, books, papers, canceled checks or other memoranda touching the purchase, sale, exchange or receipt of any and all such alcoholic beverages for a period of five years.

(2) All such invoices, books, papers canceled checks or other memoranda shall be subject to audit and inspection by the department at any and all times upon written notice by the department.

(3) Any person, firm, corporation, club or association of persons who fails or refuses to keep and preserve the records as required by this section or who, upon written request by the department, fails or refuses to allow an audit or inspection of records as provided in this ordinance shall be guilty of a misdemeanor and shall, upon conviction, be punished by a fine of not less than $50.00 nor more than $500.00, or by imprisonment for a period not to exceed six months for each offense. Each occurrence of such failure or refusal shall constitute a separate offense and shall also constitute grounds for revocation of any license issued under this Schedule 150.

(4) Additional requirements are outlined in Article II, Section 9, of this Business License Code.

(G) *Liquor License / Tax Returns to be Filed; Return to be filed though No Tax May Be Due.* The person liable for any license tax imposed by this Schedule shall file with the Director of Finance on or before the final date on which the license tax may be paid without a penalty, such report or reports and in such form as the Director may prescribe evidencing the amount of business done and the amount of license due thereon. A return should be filed for each reporting period, as provided in this Section 1, even though no tax may be due.

(H) *Appeal from the Denial of Liquor License Application.* Any person aggrieved by any decision of the Director in the enforcement of this subdivision, may appeal there from to the Council of the City of Birmingham by filing with the City Clerk, within five days of such decision, a letter addressed to the Council, protesting such decision, and contemporaneously delivering a copy of such protest to the Director of Finance and thereafter appearing and prosecuting such protest at the regular meeting of the Council next following the filing of such protest. Failure to thus appeal shall constitute acceptance of such decision and assent to the correctness thereof.

Where a matter has been properly appealed to the Birmingham City Council and resulted in the denial of approval of a license application, the applicant may appeal to the circuit court. Proceedings in the circuit court to review the denial of approval of a license application shall be commenced within 14 days of the action by the Birmingham City Council. The circuit court shall hear the appeal according to its own rules and procedures within 30 days thereafter.

(I) *City Liquor License Must Be Obtained for Each ABC Board License Held; License Must Be Displayed.* A City license shall be obtained for each ABC Board license held. Every license issued under this ordinance shall be constantly and conspicuously displayed on the licensed premises.

(J) *Approval of Liquor License Applicant and Business Location Required.* No license will be issued until requirements mandated by the City of Birmingham Department of Planning, Engineering and Permits (Zoning), the City of Birmingham Fire and Rescue Service Department, and the Jefferson County Health Department have been met, and the applicant and the location have been approved by the City Council.

(K) *Liquor Licenses May Not Be Assigned or Transferred Without Approval.* As provided in Section 28-3A-23(j) Code of Alabama 1975, licenses issued under this Schedule 150 may not be assigned. The City is hereby authorized to transfer any license from one person to another or from one place to another within its governing jurisdiction or both upon submission of such application for transfer to the Finance Department and approval of same by the Council of the City of Birmingham. Under no circumstances may a license issued pursuant to this section be transferred more than once in a calendar year. No transfer shall be made to a person who would not have been eligible to receive the license originally nor for the transaction of business at a place for which the license could not originally have been issued lawfully.

(L) *Written Application for Transfer of Liquor License Required.* Every applicant desiring a transfer of a license shall file a written application with the Director of Finance prior to the date ownership of the business is legally transferred or conferred to another legal entity. No license shall be transferred except with the consent of the council or other governing body of the municipality or of the director of finance or other chief revenue officer or his or her designee, and no license shall be transferred to reflect a physical change of address of the taxpayer within the municipality more than once during a license year and never from one taxpayer to another. Provided that a mere change in the name or ownership of a taxpayer that is a corporation, partnership, limited liability company or other form of legal entity now or hereafter recognized by the laws of Alabama shall not constitute a transfer for purposes of this ordinance, unless:

(1) The change requires the taxpayer to obtain a new federal employer identification number or City of Birmingham identification number; or

(2) In the discretion of the city, the subject license is one for the sale of alcoholic beverages. Nothing is this section shall prohibit the city from requiring a new business license application and approvals for an alcoholic beverage license.

(M) *License Immediately Terminated in the Event of Bankruptcy or Insolvency.* Pursuant to Section 28-3A-23(m) Code of Alabama 1975, in the event that any person to whom a license shall have been issued under the terms of this ordinance shall

become insolvent, make an assignment for the benefit of creditors, be adjudicated a bankrupt by either voluntary or involuntary action, the license of such person shall immediately terminate and be canceled without any action on the part of the City Council, and there shall be no refund made, or credit given, for the unused portion of the license fee for the remainder of the license year for which said license was granted. Thereafter, no license shall be issued by the Finance Department for the premises, wherein said license was conducted, to any assignee, committee, trustee, receiver, or successor of such licensee until a new application for license has been approved by the City Council. In all such cases, the City Council shall have sole and final discretion as to the propriety of the issuance of a license for such premises, and the time it shall issue, and the period for which it shall be issued, and shall have the further power to impose conditions under which said licensed premises shall be conducted.

(N) *License Immediately Terminated Upon Termination of State License, Including Termination For Failure to Timely Renew State License.* In the event that any person to whom a license shall have been issued under the terms of this ordinance has a State alcoholic beverage license terminate, including as a result of their failure to timely renew the State alcoholic beverage license, the equivalent City of Birmingham alcoholic beverage license shall terminate and be canceled without any action on the part of the City Council, and there shall be no refund made, or credit given for the unused portion of the license fee for the remainder of the license year for which said license was granted. Thereafter, a new City of Birmingham alcoholic beverage license shall be required in order to continue the sale of any alcoholic beverage within the City, and a new application must be filed and a new license issued in the manner prescribed by this ordinance and by State law before continuation of the business activity. In all such cases, the Council of the City of Birmingham shall have sole and final discretion as to the propriety of the issuance of a new license for such premises, and shall have the further power to impose conditions under which said licensed premises shall be conducted.

NAICS 313. NAICS TITLE—TEXTILE MILLS.

Industries in the Textile Mills subsector group establishments that transform a basic fiber (natural or synthetic) into a product, such as yarn or fabric, that is further manufactured into usable items, such as apparel, sheets, towels, and textile bags for individual or industrial consumption. The further manufacturing may be performed in the same establishment and classified in this subsector, or it may be performed at a separate establishment and be classified elsewhere in manufacturing.

The main processes in this subsector include preparation and spinning of fiber, knitting or weaving of fabric, and the finishing of the textile. The NAICS structure follows and captures this process flow. Major industries in this flow, such as preparation of fibers, weaving of fabric, knitting of fabric, and fiber and fabric

finishing, are uniquely identified. Texturizing, throwing, twisting, and winding of yarn contains aspects of both fiber preparation and fiber finishing and is classified with preparation of fibers rather than with finishing of fiber.

SCHEDULE 306. TEXTILE MILLS.

Each person, firm or corporation engaged in the business of the main processes of preparation and spinning of fiber, knitting or weaving of fabric, and the finishing of the textile shall pay a license of two-tenths of one percent of the gross receipts from said business from the previous year with a minimum license of: $300.00.

NAICS 314. NAICS TITLE—TEXTILE PRODUCT MILLS.

Industries in the Textile Product Mills subsector group establishments that make textile products (except apparel). With a few exceptions, processes used in these industries are generally cut and sew (i.e., purchasing fabric and cutting and sewing to make nonapparel textile products, such as sheets and towels).

SCHEDULE 341. MANUFACTURING TEXTILE PRODUCTS.

Each person, firm or corporation engaged in the business of manufacturing textile products, woven, tufted, including carpets, rugs, curtains and draperies shall pay a license of two-tenths of one percent of the gross receipts from the previous year with a minimum license of: $300.00.

NAICS 315. NAICS TITLE—APPAREL MANUFACTURING.

Industries in the Apparel Manufacturing subsector group establishments with two distinct manufacturing processes: (1) cut and sew (i.e., purchasing fabric and cutting and sewing to make a garment), and (2) the manufacture of garments in establishments that first knit fabric and then cut and sew the fabric into a garment. The Apparel Manufacturing subsector includes a diverse range of establishments manufacturing full lines of ready-to-wear apparel and custom appeal: apparel contractors, performing cutting or sewing operations on materials owned by others; jobbers performing entrepreneurial functions involved in apparel manufacture; and tailors, manufacturing custom garments for individual clients are all included. Knitting, when done alone, is classified in the Textile Mills subsector, but when knitting is combined with the production of complete garments, the activity is classified in Apparel Manufacturing.

SCHEDULE 090. APPAREL MANUFACTURING.

Each person, firm or corporation engaged in the business weaving, or knitting fabric, making garments from purchased fabric shall pay a license of two-tenths of one percent of the gross receipts with a minimum license of: $100.00.

No license will be issued unless business location is approved by the City of Birmingham Department of Planning, Engineering and Permits as having met zoning requirements.

NAICS 316. NAICS TITLE—LEATHER AND ALLIED PRODUCT MANUFACTURING.

Establishments in the Leather and Allied Product Manufacturing subsector transform hides into leather by tanning or curing and fabricating the leather into products for final consumption. It also includes the manufacture of similar products from other materials, including products (except apparel) made from "leather substitutes," such as rubber, plastics, or textiles. Rubber footwear, textile luggage, and plastics purses or wallets are examples of "leather substitute" products included in this group. The products made from leather substitutes are included in this subsector because they are made in similar ways leather products are made (e.g., luggage). They are made in the same establishments, so it is not practical to separate them.

The inclusion of leather making in this subsector is partly because leather tanning is a relatively small industry that has few close neighbors as a production process, partly because leather is an input to some of the other products classified in this subsector and partly for historical reasons.

SCHEDULE 126. HIDES.

Each person, firm or corporation dealing with hides, tallow, ginseng, beeswax, or purchasing and receiving or collecting waste grease and animal by-products for rendering or recycling (Act 99-526) shall pay a license of two-tenths of one percent of the gross receipts from said business from the previous year with a minimum license of: $200.00.

NAICS 321. NAICS TITLE—WOOD PRODUCT MANUFACTURING.

Industries in the Wood Product Manufacturing subsector manufacture wood products, such as lumber, plywood, veneers, wood containers, wood flooring, wood trusses, manufactured homes (i.e., mobile home), and prefabricated wood buildings. The production processes of the Wood Product Manufacturing subsector include sawing, planing, shaping, laminating, and assembling of wood products starting from logs that are cut into bolts, or lumber that then may be further cut, or shaped by lathes or other shaping tools. The lumber or other transformed wood shapes may also be subsequently planed or smoothed, and assembled into finished products, such as wood containers. The Wood Product Manufacturing subsector includes establishments that make wood products from logs and bolts that are sawed and shaped, and establishments that purchase sawed lumber and make wood products. With the exception of sawmills and wood preservation establishments, the establishments are grouped into industries mainly based on the specific products manufactured.

SCHEDULE 152A. LUMBER AND/OR BUILDING MATERIAL MANUFACTURER AND/OR DEALER.

Each person, firm or corporation shall pay a license of two-tenths of one percent of the gross receipts less returned goods, for said business for the previous year with a minimum license of: $200.00.

NAICS 322. NAICS TITLE—PAPER MANUFACTURING.

Industries in the Paper Manufacturing subsector make pulp, paper, or converted paper products. The manufacturing of these products is grouped together because they constitute a series of vertically connected processes. More than one is often carried out in a single establishment. There are essentially three activities. The manufacturing of pulp involves separating the cellulose fibers from other impurities in wood or used paper. The manufacturing of paper involves matting these fibers into a sheet. Converted paper products are made from paper and other materials by various cutting and shaping techniques and includes coating and laminating activities.

SCHEDULE 307. PAPER MANUFACTURING.

Each person, firm or corporation engaged in the business of manufacturing pulp, paper, or converted paper products shall pay a license of two-tenths of one percent of the gross receipts from said business for the previous year with a minimum license of: $300.00.

NAICS 323. NAICS TITLE—PRINTING AND RELATED SUPPORT ACTIVITIES.

Industries in the Printing and Related Support Activities subsector print products, such as newspapers, books, labels, business cards, stationery, business forms, and other materials, and perform support activities, such as data imaging, plate making services, and bookbinding. The support activities included here are an integral part of the printing industry, and a product (a printing plate, a bound book, or a computer disk or file) that is an integral part of the printing industry is almost always provided by these operations.

Processes used in printing include a variety of methods used to transfer an image from a plate, screen, film, or computer file to some medium, such as paper, plastics, metal, textile articles, or wood. The most prominent of these methods is to transfer the image from a plate or screen to the medium (lithographic, gravure, screen, and flexographic printing). A rapidly growing new technology uses a computer file to directly "drive" the printing mechanism to create the image and new electrostatic and other types of equipment (digital or no impact printing).

In contrast to many other classification systems that locate publishing of printed materials in manufacturing, NAICS classifies the publishing of printed products in

Subsector 511, Publishing Industries (except Internet). Though printing and publishing are often carried out by the same enterprise (a newspaper, for example), it is less and less the case that these distinct activities are carried out in the same establishment. When publishing and printing are done in the same establishment, the establishment is classified in Sector 51, Information, in the appropriate NAICS industry even if the receipts for printing exceed those for publishing.

This subsector includes printing on clothing because the production process for that activity is printing, not clothing manufacturing. For instance, the printing of T-shirts is included in this subsector. In contrast, printing on fabric (or grey goods) is not included.

SCHEDULE 208. PRINTING, ENGRAVING, PHOTOENGRAVING, MULTIGRAPH, MIMEOGRAPH, LINOTYPE, BOOKBINDING OR RULING.

Each person, firm or corporation operating a job printing office or linotype machine with or without printing press or bookbinding shall pay a license of two-tenths of one percent of the gross receipts from said business from the previous year with a minimum license of: $96.00.

This license to be paid in addition to the other licenses provided for in this Code where merchandise, stationery, and office supplies, etc., are sold.

NAICS 324. NAICS TITLE—PETROLEUM AND COAL PRODUCTS MANUFACTURING.

The Petroleum and Coal Products Manufacturing subsector is based on the transformation of crude petroleum and coal into usable products. The dominant process is petroleum refining that involves the separation of crude petroleum into component products through such techniques as cracking and distillation.

In addition, this subsector includes establishments that primarily further process refined petroleum and coal products and produce products, such as asphalt coatings and petroleum lubricating oils. However, establishments that manufacture petrochemicals from refined petroleum are classified in Industry 32511, Petrochemical Manufacturing.

SCHEDULE 115. GAS COMPANIES—TRANSPORTATION OF NATURAL GAS.

Each person, firm or corporation engaged in the transportation and wholesale distribution of natural gas, which maintains its principal executive or administrative office within the city, shall pay a license computed as follows:

When it employs in such office not more than 250 persons	$6,000.00
When it employs between 251 and 500	$10,000.00
When it employs 501 to 750	$15,000.00
When it employs more than 750	$20,000.00

This schedule shall not apply to any gas company whose principal business in the city is the retail distribution of gas.

SCHEDULE 119. GASOLINE STORAGE.

(a) Each person, firm or corporation engaged in the business of receiving and/or storing gasoline for others shall pay a license in an amount equal to $0.02 per gallon on all gasoline so received and/or stored during the full calendar year immediately preceding; plus $200.00, provided, however, that if said person, firm or corporation engaged in such storage business did not conduct said business for the full period of said preceding year $2,000.00 shall be paid as a deposit against this license until the end of the current calendar year at which time an adjustment shall be made on the basis of $0.01 per gallon for all gasoline so received and/or stored during the said current calendar year.

This license of $0.01 per gallon shall not apply where satisfactory proof is made to the Director of Finance that the City's current license tax, as provided for in Ordinances 598-F and 599-F has been paid on the gasoline that is being stored.

(b) Each person, firm or corporation engaged in the business of renting tanks or other storage space to others for the purpose of storing gasoline, shall pay a license of: $4,000.00.

This license shall not apply where satisfactory proof is made to the Director of Finance that the City's gallonage license tax as provided for in Ordinances 598-F and 599-F, has been paid on the gasoline stored in such space.

SCHEDULE 182. OILS.

Each wholesale dealer, broker, or commission merchant, where not principal business and sold in connection with other wholesale business, shall pay a license in an amount equal to 6/20 of one percent of gross receipts from sales of such business during the year next preceding, with a minimum license, in addition to all other licenses, of: $120.00.

SCHEDULE 183. OILS.

Each person, firm or corporation selling as agent, lubricating, illuminating, fuel, gasoline, benzol, benzol products or other oil products, shall pay for the privilege of engaging in such business within the corporate limits a privilege tax at the rate of $100.00 per annum for each truck used in said business, whether said truck be owned by such agent or not.

SCHEDULE 230. MANUFACTURERS OR DISTRIBUTORS OF CHEMICALS, CHEMICAL GAS, POWDER OR OTHER EXPLOSIVES, TAR OR ASPHALT PRODUCTS.

Each person, firm or corporation engaged in the business of manufacturing, distributing, or who maintains a sales office in the City shall pay a license of two-tenths of one percent of the gross receipts from said business from the previous year with a minimum license of: $200.00.

SCHEDULE 260. OIL, GASOLINE AND DIESEL FUEL DELIVERY.

Each person as principal or agent engaged in distributing or making deliveries, by its own employees or by contract carrier, public or private, or otherwise, of oil, gasoline, kerosene, diesel fuel (other than aviation fuels) or lubricating products, and/or automobile tires and accessories, to one or more service stations, retailers, businesses or other consumers which are located in the city, whether or not such delivery or distribution is made from a place of business within or outside of the city's corporate limits, shall pay an amount of license equal to 6/20 of one percent of the gross receipts from such deliveries or distribution during the next preceding license year, provided, that the tax hereby levied shall not apply to gross receipts of any delivery upon which a license tax levied pursuant to Ordinances 598F or 599F, or Schedules 180 or 182 of this Code has been paid.

The term gross receipts as used in this schedule shall mean the entire receipts from all such deliveries and distribution, not including federal, state and local government taxes on the products so delivered or distributed, and if there are no actual receipts, shall be deemed to be not less than the wholesale value of the products so delivered or distributed.

SCHEDULE 598F. OFF ROAD DIESEL FUEL—SALES OR DISTRIBUTION.

Every distributor or seller of off road diesel fuel or diesel oil shall pay a monthly license tax in an amount equal to $0.02 on each and every gallon of diesel fuel or diesel oil sold or delivered within the corporate limits of the City for use other than in the operation of any motor vehicle upon the public roads and public streets.

For the purposes of this schedule, "diesel fuel" or "diesel oil" shall not be held to apply to those products known commercially as "fuel oil" or "crude oil" when said products are used for lighting or space heating purposes. The term "distributor or seller" shall include every person, as defined in Article II, Section 1 of this business license code, who shall engage in selling or delivering diesel fuel or diesel oil within the corporate limits of the City of Birmingham for use other than in the operation of any motor vehicle upon public highways, public roads and public streets.

Due Date and Penalty. Each and every distributor and seller, shall, on or before the 25th day of each month, file with the Director of Finance a sworn, written statement, which shall be a full, true, accurate and correct statement of the amount and quantity of all diesel fuel or diesel oil sold or delivered by such distributor or seller within the corporate limits of said City during the preceding month. Any person failing or refusing to pay said license within the time specified shall be guilty of any offense against said City, and such offense shall be a continuing offense, and each day during

which said business or occupation is engaged in during such default shall constitute a separate offense; and, in addition, such license tax shall be increased by the addition of a penalty of 20 percent thereon.

SCHEDULE 599F. OFF ROAD DIESEL FUEL—STORAGE OR WITHDRAWALS.

Every storer of off road diesel fuel or diesel oil shall pay a monthly license tax in an amount equal to $0.02 on each and every gallon of diesel fuel or diesel oil stored and/or withdrawn from storage within the corporate limits of the City for use other than in the operation of any motor vehicle upon the public roads and public streets.

For the purposes of this schedule, "diesel fuel" or "diesel oil" shall not be held to apply to those products known commercially as "fuel oil" or "crude oil" when said products are used for lighting or space heating purposes. The term "storer" shall include any person, as defined in Article II, Section 1 of this ordinance, who ships or causes to be shipped or receives diesel fuel or diesel oil into the City of Birmingham and stores the same in any manner and/or withdraws or uses the same for any purpose other than the operation of any motor vehicle upon public highways, public roads and public streets or for resale or reshipment.

Due Date and Penalty. Each and every storer, shall, on or before the 25th day of each month, file with the Director of Finance a sworn, written statement, which shall be a full, true, accurate and correct statement of the amount and quantity of all diesel fuel or diesel oil withdrawn from storage by such storer within the corporate limits of said City during the month. Any person failing or refusing to pay said license within the time specified shall be guilty of any offense against said City, and such offense shall be a continuing offense, and each day during which said business or occupation is engaged in during such default shall constitute a separate offense; and, in addition, such license tax shall be increased by the addition of a penalty of 20 percent thereon.

NAICS 325. NAICS TITLE—CHEMICAL MANUFACTURING.

The Chemical Manufacturing subsector is based on the transformation of organic and inorganic raw materials by a chemical process and the formulation of products. This subsector distinguishes the production of basic chemicals that comprise the first industry group from the production of intermediate and end products produced by further processing of basic chemicals that make up the remaining industry groups.

This subsector does not include all industries transforming raw materials by a chemical process. It is common for some chemical processing to occur during mining operations. These beneficiating operations, such as copper concentrating, are classified in Sector 21, Mining. Furthermore, the refining of crude petroleum is included in Subsector 324, Petroleum and Coal Products Manufacturing. In addition, the manufacturing of aluminum oxide is included in Subsector 331, Primary Metal Manufacturing; and beverage distilleries are classified in Subsector 312, Beverage and Tobacco

Product Manufacturing. As in the case of these two activities, the grouping of industries into subsectors may take into account the association of the activities performed with other activities in the subsector.

SCHEDULE 114. GAS-BUTANE OR PROPANE.

Each person or agent for same, engaged in manufacturing or distributing butane or propane gas, shall pay a license of two percent of gross receipts from said business from the previous year with a minimum license of: $200.00.

No license will be issued until applicant posts a $2,500.00 bond with the Director of Finance.

NAICS 326. NAICS TITLE—PLASTICS AND RUBBER PRODUCTS MANUFACTURING.

Industries in the Plastics and Rubber Products Manufacturing subsector make goods by processing plastics materials and raw rubber. The core technology employed by establishments in this subsector is that of plastics or rubber product production. Plastics and rubber are combined in the same subsector because plastics are increasingly being used as a substitute for rubber; however the subsector is generally restricted to the production of products made of just one material, either solely plastics or rubber.

Many manufacturing activities use plastics or rubber, for example the manufacture of footwear, or furniture. Typically, the production process of these products involves more than one material. In these cases, technologies that allow disparate materials to be formed and combined are of central importance in describing the manufacturing activity. In NAICS, such activities (the footwear and furniture manufacturing) are not classified in the Plastics and Rubber Products Manufacturing subsector because the core technologies for these activities are diverse and involve multiple materials.

Within the Plastics and Rubber Products Manufacturing subsector, a distinction is made between plastics and rubber products at the industry group level, although it is not a rigid distinction, as can be seen from the definition of Industry 32622, Rubber and Plastics Hoses and Belting Manufacturing. As materials technology progresses, plastics are increasingly being used as a substitute for rubber; and eventually, the distinction may disappear as a basis for establishment classification.

SCHEDULE 308. PLASTIC AND RUBBER MANUFACTURING.

Each person, firm or corporation engaged in the business of manufacturing plastic or rubber products such as lamination of plastics film as well as the production of bags from plastics shall pay a license of two-tenths of one percent of the gross receipts from said business from the previous year with a minimum license of: $300.00.

NAICS 327. NAICS TITLE—NONMETALLIC MINERAL PRODUCT MANUFACTURING.

The Nonmetallic Mineral Product Manufacturing subsector transforms mined or quarried nonmetallic minerals, such as sand, gravel, stone, clay, and refractory materials, into products for intermediate or final consumption. Processes used include grinding, mixing, cutting, shaping, and honing. Heat often is used in the process and chemicals are frequently mixed to change the composition, purity, and chemical properties for the intended product. For example, glass is produced by heating silica sand to the melting point (sometimes combined with cullet or recycled glass) and then drawn, floated, or blow molded to the desired shape or thickness. Refractory materials are heated and then formed into bricks or other shapes for use in industrial applications. The Nonmetallic Mineral Product Manufacturing subsector includes establishment that manufacture products, such as bricks, refractories, ceramic products, and glass and glass products, such as plate glass and containers. Also included are cement and concrete products, lime, gypsum and other nonmetallic mineral products including abrasive products, ceramic plumbing fixtures, statuary, cut stone products, and mineral wool. The products are used in a wide range of activities from construction and heavy and light manufacturing to articles for personal use.

Mining, beneficiating, and manufacturing activities often occur in a single location. Separate receipts will be collected for these activities whenever possible. When receipts cannot be broken out between mining and manufacturing, establishments that mine or quarry nonmetallic minerals, beneficiate the nonmetallic minerals and further process the nonmetallic minerals into a more finished manufactured product are classified based on the primary activity of the establishment. A mine that manufactures a small amount of finished products will be classified in Sector 21, Mining. An establishment that mines whose primary output is a more-finished manufactured product will be classified in the Manufacturing Sector.

Excluded from the Nonmetallic Mineral Product Manufacturing subsector are establishments that primarily beneficiate mined nonmetallic minerals. Beneficiation is the process whereby the extracted material is reduced to particles that can be separated into mineral and waste, the former suitable for further processing or direct use. Beneficiation establishments are included in Sector 21, Mining.

SCHEDULE 042. BRICK MANUFACTURERS.

Each person, firm or corporation engaged in the business of brick yards, dealers in brick, slag or cement block manufacturers and/or dealers, cement or metal vault manufacturers and/or dealers, and/or cement ornament manufacturers shall pay a license of two-tenths of one percent of the gross receipts from said business from the previous year with a minimum license in any case of: $200.00.

SCHEDULE 058. COAL, COKE & CHARCOAL YARDS.

A "coal yard" as used herein shall mean a place of business where there is stored or kept an average stock of coal and/or coke or charcoal of not less than 250 tons on the first day of each calendar month of next preceding calendar year.

Each person, firm or corporation engaging in selling or delivering, either at wholesale or retail, coal and/or coke or charcoal who regularly maintains a coal yard, which includes the privilege of weighing at such yard, in the City of Birmingham as herein defined, shall pay an amount equal to two-tenths of one percent of the gross receipts, less adjustments, on deliveries made during the next preceding calendar year, with a minimum license of: $144.00.

SCHEDULE 059. COAL, COKE & CHARCOAL—"NO YARD."

Each person, firm or corporation engaging in selling or delivering, distributing, hauling or soliciting orders either at wholesale or retail, coal and/or coke or charcoal, where no "coal yard" as defined in Schedule 058 is maintained in the City, but where deliveries are made by railroad cars, shall pay an amount equal to two-tenths of one percent of the gross receipts, less adjustments, on deliveries made within the City of Birmingham during the next preceding calendar year with a minimum license in any case of: $200.00.

Each such person, firm or corporation so engaged and who maintains an office in the City of Birmingham, shall pay a license under this schedule, based on the gross receipts from all sales made and delivered within the City of Birmingham.

SCHEDULE 060. COAL AND COKE. DELIVERY.

Each person, firm or corporation engaged in selling or delivering coal or coke within the City of Birmingham, not maintaining a "coal yard" as defined in Schedule 058, and selling or delivering coal or coke other than from railroad cars within the City of Birmingham, shall pay an amount equal to $90.00 upon each motor vehicle used in making such deliveries whether such motor vehicles are owned and operated by such person, firm or corporation or not.

SCHEDULE 237. TILE MANUFACTURING. CONTRACTOR OR DEALER.

Each person, firm or corporation engaged in manufacturing or dealing in tile products, including the laying of tile, shall pay a license in an amount equal to two-tenths of one percent of the gross receipts from said business for the year next preceding, with a minimum license in any case of: $120.00.

NAICS 331. NAICS TITLE—PRIMARY METAL MANUFACTURING.

Industries in the Primary Metal Manufacturing subsector smelt and/or refine ferrous and nonferrous metals from one, pig or scrap, using electrometallurgical and other process metallurgical techniques. Establishments in this subsector also manufacture metal alloys and super alloys by introducing other chemical elements to pure

metals. The output of smelting and refining, usually in ingot form, is used in rolling, drawing, and extruding operations to make sheet, strip, bar, rod, or wire, and in molten form to make castings and other basic metal products.

Primary manufacturing of ferrous and nonferrous metals begins with ore or concentrate as the primary input. Establishments manufacturing primary metals from ore and/or concentrate remain classified in the primary smelting, primary refining, or iron and steel mill industries regardless of the form of their output. Establishments primarily engaged in secondary smelting and/or secondary refining recover ferrous and nonferrous metals from scrap and/or dross. The output of the secondary smelting and/or secondary refining industries is limited to shapes, such as ingot or billet, which will be further processed. Recovery of metals from scrap often occurs in establishments that are primarily engaged in activities, such as rolling, drawing, extruding, or similar processes.

Excluded from the Primary Metal Manufacturing subsector are establishments primarily engaged in manufacturing ferrous and nonferrous forgings (except ferrous forgings made in steel mills) and stampings. Although forging, stamping, and casting are all methods used to make metal shapes, forging and stamping do not use molten metals and are included in Subsector 332, Fabricated Metal Product Manufacturing. Establishments primarily engaged in operating coke ovens are classified in Industry 32419, Other Petroleum and Coal Products Manufacturing.

SCHEDULE 106. FOUNDRY, BRIDGE BUILDING PLANT, BOILER WORKS, MACHINE SHOP, METAL FINISHING, PLATING OR TREATING PLANT, NUT OR BOLT FACTORY, PIPE SHOP, RADIATOR PLANT, BUILDING BRIDGES OR ERECTING STEEL OR OTHER METAL FRAME FOR BUILDINGS, OR REPAIRING AND CONSTRUCTING COKE OVENS.

Each person engaged in carrying on in the City of Birmingham any foundry, bridge building plant, boiler works not connected with a railroad, machine shop, metal finishing, plating or treating plant, nut or bolt factory, pipe or valve shop, or radiator plant, or engaged in building bridges or in erecting steel or other metal framework for buildings or other structures, or repairing and constructing coke ovens, shall pay a license in an amount equal to two-tenths of one percent of the gross receipts from said business from the previous year with a minimum license of: $200.00.

SCHEDULE 120. GOLD AND SILVER.

Each person, firm or corporation engaging in the business of buying gold or silver or gold or silver objects shall pay a license of two-tenths of one percent of gross receipts from said business from the previous year with a minimum license of: $200.00. No license will be issued unless and until applicant has obtained the permit required pursuant to chapter 3.7 of title 12, as amended and as it may be amended.

SCHEDULE 142. JUNK BROKERS AND/OR SCRAP METAL BROKERS.

Each person, firm or corporation engaged in the business of buying or selling or buying and selling, for account of another, junk or scrap metal or junk and scrap metal or otherwise engaged in the business of a broker in junk or scrap metal or junk and scrap metal shall pay a license equal to one percent of the gross brokerage fees and commissions of such business for the next preceding year with a minimum license in any case of: $400.00.

A broker for the purpose of this schedule is one who for a commission or fee buys or sells or buys and sells junk or scrap metal or junk and scrap metal without having possession of such junk or scrap metal or who negotiates such transactions between buyer and seller without having possession of such junk or scrap metal.

No license will be issued until applicant has been approved by the City Council and the City of Birmingham Department of Planning, Engineering and Permits as having met zoning requirements.

SCHEDULE 144. ITINERANT JUNK DEALERS.

Each person, firm or corporation acting as an itinerant junk dealer engaged in the business of buying or selling junk or scrap metal shall, for each automobile or truck used in said business, pay a license of: $480.00.

No license will be issued until and unless applicant has met the requirements outlined in Article B, Sections 12-11-11 through 12-11-50, General Code of the City of Birmingham, and has been approved by the City Council and has also received written verification from the City of Birmingham Department of Planning, Engineering and Permits indicating that all zoning requirements have been met.

License stickers issued by the department shall be prominently displayed on any automobile or truck used in connection with said business operating within the City of Birmingham. It shall be unlawful to operate any automobile or truck that is subject to the provisions of this section within the City of Birmingham without having met all of the requirements outlined in this section.

SCHEDULE 145. JUNK YARDS, JUNK DEALERS AND/OR SCRAP METAL DEALERS.

Each person, firm or corporation engaged in the business of operating a junk yard and/or of buying or selling junk or scrap metal shall pay a license of: $480.00.

Plus an amount equal to two-tenths of one percent of gross receipts from the previous year in excess of $100,000.00 with a minimum license of $480.00 in any case.

No license will be issued until and unless applicant has met the requirements outlined in Article B, Section[s] 12-11-11 through 12-11-50, General Code of the City of Birmingham, 1980, and has been approved by the City Council and has also received written verification from the City of Birmingham Department of Planning, Engineering and Permits indicating that all zoning requirements have been met.

SCHEDULE 217. ROLLING MILLS.

Each person, firm or corporation, or who maintains their principal office in the City of Birmingham, who are engaged in the manufacturing and rolling steel rails, plates, and/or other iron and steel products, including the manufacture and sale of pig iron, shall pay a license of two-tenths of one percent of the gross receipts from said business from the previous year with a minimum license of: $1,200.00.

NAICS 332. NAICS TITLE—FABRICATED METAL PRODUCT MANUFACTURING.

Industries in the Fabricated Metal Product Manufacturing subsector transform metal into intermediate or end products, other than machinery, computers and electronics, and metal furniture or treating metals and metal formed products fabricated elsewhere. Important fabricated metal processes are forging, stamping, bending, forming, and machining, used to shape individual pieces of metal; and other processes, such as welding and assembling, used to join separate parts together. Establishments in this subsector may use one of these processes or a combination of these processes.

The NAICS structure for this subsector distinguishes the foregoing and stamping processes in a single industry. The remaining industries, in the subsector, group establishments based on similar combinations of processes used to make products.

The manufacturing performed in the Fabricated Metal Product Manufacturing subsector begins with manufactured metal shapes. The establishments in this sector further fabricate the purchased metal shapes into a product. For instance, the Spring and Wire Product Manufacturing industry starts with wire and fabricates such items.

SCHEDULE 309. FABRICATED METAL PRODUCT MANUFACTURING.

Each person, firm or corporation engaged in manufacturing fabricated metal transformed into intermediate or end products by forging, stamping, bending, forming and machining shall pay a license in an amount equal to two-tenths of one percent of the gross receipts from said business for the year next preceding, with a minimum license in any case of: $300.00.

NAICS 333. NAICS TITLE—MACHINERY MANUFACTURING.

Industries in the Machinery Manufacturing subsector create end products that apply mechanical force, for example, the application of gears and levers, to perform work. Some important processes for the manufacture of machinery are forging, stamping, bending, forming, and machining that is used to shape individual pieces of metal. Processes, such as welding and assembling are used to join separate parts together. Although these processes are similar to those used in metal fabricating establishments, machinery manufacturing is different because it typically employs

multiple metal forming processes in manufacturing the various parts of the machine. Moreover, complex assembly operations are an inherent part of the production process.

In general, design considerations are very important in machinery production. Establishments specialize in making machinery designed for particular applications. Thus, design is considered to be part of the production process for the purpose of implementing NAICS. The NAICS structure reflects this by defining industries and industry groups that make machinery for different applications. A broad distinction exists between machinery that is generally used in a variety of industrial applications (i.e., general purpose machinery) and machinery that is designed to be used in a particular industry (i.e., special purpose machinery). Three industry groups consist of special purpose machinery—Agricultural, Construction, and Mining Machinery Manufacturing; Industrial Machinery Manufacturing; and Commercial and Service Industry Machinery Manufacturing. The other industry groups make general-purpose machinery: Ventilation, Heating, Air Conditioning, and Commercial Refrigeration Equipment Manufacturing; Metalworking Machinery Manufacturing; Engine, Turbine, and Power Transmission Equipment Manufacturing; and Other General Purpose Machinery Manufacturing.

SCHEDULE 154. MACHINERY DEALER.

Each dealer in new or second-hand machinery shall pay a license computed as follows:

Where gross sales from said business from the previous year were:	
Less than $30,000.00	$60.00
$30,000.00 and less than $60,000.00	120.00
$60,000.00 and less than $90,000.00	180.00
$90,000.00 and less than $100,000.00	200.00
Plus an amount equal to 2/10 of one percent of gross sales in excess of $100,000.00.	

NAICS 334. NAICS TITLE—COMPUTER AND ELECTRONIC PRODUCT MANUFACTURING.

Industries in the Computer and Electronic Product Manufacturing subsector group establishments that manufacture computers, computer peripherals, communications equipment, and similar electronic products, and establishments that manufacture components for such products. The Computer and Electronic Product Manufacturing industries have been combined in the hierarchy of NAICS because of the economic significance they have attained. The design and use of integrated circuits and the application of highly specialized miniaturization technologies are common elements in the production technologies of the computer and electronic subsector. Convergence of technology motivates this NAICS subsector. Digitalization of sound recording, for example, causes both the medium (the compact disc) and the equipment to resemble

the technologies for recording, storing, transmitting, and manipulating data. Communications technology and equipment have been converging with computer technology. When technologically-related components are in the same sector, it makes it easier to adjust the classification for future changes, without needing to redefine its basic structure. The creation of the Computer and Electronic Product Manufacturing subsector will assist in delineating new and emerging industries because the activities that will serve as the probable sources of new industries, such as computer manufacturing and communications equipment manufacturing, or computers and audio equipment, are brought together.

SCHEDULE 310. COMPUTER AND ELECTRONIC PRODUCT MANUFACTURING.

Each person, firm or corporation engaged in the manufacture of computer and electronic products shall pay a license of two-tenths of one percent of the gross receipts from said business from the previous year with a minimum license of: $300.00.

NAICS 335. NAICS TITLE—ELECTRICAL EQUIPMENT, APPLIANCE, AND COMPONENT MANUFACTURING.

Industries in the Electrical Equipment, Appliance, and Component Manufacturing subsector manufacture products that generate, distribute and use electrical power. Electric Lighting Equipment Manufacturing establishments produce electric lamp bulbs, lighting fixtures, and parts. Household Appliance Manufacturing establishments make both small and major electrical appliances and parts. Electrical Equipment Manufacturing establishments make goods, such as electric motors, generators, transformers, and switchgear apparatus. Other Electrical Equipment and Component Manufacturing establishments make devices for storing electrical power (e.g., batteries), for transmitting electricity (e.g., insulated wire), and wiring devices (e.g., electrical outlets, fuse boxes, and light switches).

SCHEDULE 342. ELECTRICAL EQUIPMENT, APPLIANCE AND COMPONENT MANUFACTURING.

Each person, firm or corporation engaged in the manufacture of electrical equipment, appliance or component manufacturing of products that generate, distribute and use electrical power shall pay a license of two-tenths of one percent of the gross receipts from said business from the previous year with a minimum license of: $300.00.

NAICS 336. NAICS TITLE—TRANSPORTATION EQUIPMENT MANUFACTURING.

Industries in the Transportation Equipment Manufacturing subsector produce equipment for transporting people and goods. Transportation equipment is a type of machinery. An entire subsector is devoted to this activity because of the significance of its economic size in all three North American countries.

Establishments in this subsector utilize production processes similar to those of other machinery manufacturing establishments: bending, forming, welding, machining, and assembling metal or plastic parts into components and finished products. However, the assembly of components and subassemblies and their further assembly into finished vehicles tend to be a more common production process in this subsector than in the Machinery Manufacturing subsector.

NAICS has industry groups for the manufacture of equipment for each mode of transport: road, rail, air and water. Parts for motor vehicles warrant a separate industry group because of their importance and because parts manufacture requires less assembly, and the establishments that manufacture only parts are not as vertically integrated as those that make complete vehicles.

Land use motor vehicle equipment not designed for highway operation (e.g., agricultural equipment, construction equipment, and materials handling equipment) is classified in the appropriate NAICS subsector based on the type and use of the equipment.

SCHEDULE 009. AIRCRAFT.

Each person, firm or corporation engaged in the manufacture and/or sale of aircraft and/or the alteration or repairing of same, shall pay a license of two-tenths of one percent of the gross receipts from said business from the previous year with a minimum license of: $200.00.

SCHEDULE 047. CAR BUILDERS, MANUFACTURERS, OR FABRICATORS (RAILROAD).

Each person, firm or corporation engaged in the business of building, manufacturing, fabricating, altering or repairing railroad cars, shall pay a license of two-tenths of one percent of the gross receipts from said business from the previous year with a minimum of: $200.00.

SCHEDULE 248. WAGON, CARRIAGE OR AUTOMOBILE BODY BUILDERS.

Each person, firm or corporation engaged in the business of building, manufacturing, fabricating, wagons, carriages or automobiles, shall pay a license of two tenths of one percent of the gross receipts from said business from the previous year with a minimum of: $360.00.

NAICS 337. NAICS TITLE—FURNITURE AND RELATED PRODUCT MANUFACTURING.

Industries in the Furniture and Related Product Manufacturing subsector make furniture and related articles, such as mattresses, window blinds, cabinets, and fixtures. The processes used in the manufacture of furniture include the cutting, bending, molding, laminating, and assembly of such materials as wood, metal, glass, plastics, and rattan. However, the production process for furniture is not solely

bending metal, cutting and shaping wood, or extruding and molding plastics. Design and fashion trends play an important part in the production of furniture. The integrated design of the article for both esthetic and functional qualities is also a major part of the process of manufacturing furniture. Design services may be performed by the furniture establishment's work force or may be purchased from industrial designers.

Furniture may be made of any material, but the most common ones used in North America are metal and wood. Furniture manufacturing establishments may specialize in making articles primarily from one material. Some of the equipment required to make a wooden table, for example, is different from that used to make a metal one. However, furniture is usually made from several materials. A wooden table might have metal brackets, and a wooden chair a fabric or plastics seat. Therefore, in NAICS, furniture initially is classified based on the type of furniture (application for which it is designed) rather than the material used. For example, an upholstered sofa is treated as household furniture, although it may also be used in hotels or offices.

When classifying furniture according to the component material from which it is made, furniture made from more than one material is classified based on the material used in the frame, or if there is no frame, the predominant component material. Upholstered household furniture (excluding kitchen and dining room chairs with upholstered seats) is classified without regard to the frame material. Kitchen or dining room chairs with upholstered seats are classified according to the frame material.

SCHEDULE 343. FURNITURE AND RELATED PRODUCT MANUFACTURING.

Each person, firm or corporation engaged in the business of manufacturing furniture including furniture parts and frames and related articles such as mattresses, window blinds, cabinets, and fixtures shall pay a license of two-tenths of one percent of gross receipts from said business from the previous year with a minimum license of: $300.00.

NAICS 339. NAICS TITLE—MISCELLANEOUS MANUFACTURING.

Industries in the Miscellaneous Manufacturing subsector make a wide range of products that cannot readily be classified in specific NAICS subsectors in manufacturing. Processes used by these establishments vary significantly, both among and within industries. For example, a variety of manufacturing processes are used in manufacturing sporting and athletic goods that include products, such as tennis racquets and golf balls. The processes for these products differ from each other, and the processes differ significantly from the fabrication processes used in making dollars or toys, the melting and shaping of precious metals to make jewelry, and the bending, forming, and assembly used in making medical products.

The industries in this subsector are defined by what is made rather than how it is made. Although individual establishments might be appropriately classified elsewhere in the NAICS structure, for historical continuity, these product-based industries were maintained. In most cases, no one process or material predominates for an industry.

Establishments in this subsector manufacture products as diverse as medical equipment and supplies, jewelry, sporting goods, toys, and office supplies.

SCHEDULE 008. MANUFACTURER OF ARTIFICIAL LIMBS OR PROSTHESES, AWNINGS OR TENT, BAG, BASKET, BOX, AND/OR CRATE FACTORY, COFFINS, FURNITURE OR FIXTURES, DRESSES, UNDERWEAR, SHIRTS, OTHER CLOTHING, DOLLS, MATTRESSES INCLUDING MATTRESS RENOVATION, AND CLEANING.

Each person, firm or corporation shall pay a license of two-tenths of one percent of the gross receipts from said business from the previous year with a minimum license of: $200.00.

SCHEDULE 044. BROOM AND/OR MOP FACTORIES.

Each person, firm or corporation shall pay a license of two-tenths of one percent of the gross receipts from said business from the previous year with a minimum license of: $150.00.

SCHEDULE 086. DENTAL DEPOT OR LABORATORY.

Each person, firm or corporation operating a dental depot or dental laboratory shall pay a license of 6/20 of one percent of the gross receipts from said business from the previous year with a minimum license of: $120.00.

SCHEDULE 156. MANUFACTORY, FABRICATING, PROCESSING PLANT.

Each person, firm or corporation or association engaged in the business of manufacturing, fabricating, and/or processing by hand, machinery or otherwise, wares or material of any kind, shall pay a license equal to 1/10 of 1% of the gross receipts from sales or stock transfers thereof, less adjustments and returned goods, from said business from the previous year with a minimum license of: $240.00.

SCHEDULE 219. RUBBER STAMPS OR STENCILS.

Each person, firm or corporation manufacturing or making, where gross receipts from said business for the year immediately next preceding were:

Less than $5,000.00	$60.00
$5,000.00 and less than $10,000.00	$80.00
$10,000.00 and less than $20,000.00	$120.00
$20,000.00 and less than $30,000.00	$160.00

$30,000.00 and over	$200.00

NAICS 421. NAICS TITLE—WHOLESALE TRADE, DURABLE GOODS.

Industries in the Merchant Wholesalers, Durable Goods subsector sell capital or durable goods to other businesses. Merchant wholesalers generally take title to the goods that they sell; in other words, they buy and sell goods on their own account. Durable goods are new or used items generally with a normal life expectancy of three years or more. Durable goods merchant wholesale trade establishments are engaged in wholesaling products, such as motor vehicles, furniture, construction materials, machinery and equipment (including household-type appliances), metals and minerals (except petroleum), sporting goods, toys and hobby goods, recyclable materials, and parts.

SCHEDULE 185. OPTICIAN, WHOLESALE.

Each person engaged in the wholesale business of manufacturing optical lenses or grinding lenses and dealings in optical goods or supplies, where principal business, shall pay a license of two-tenths of one percent of the gross receipts from said business from the previous year with a minimum license in any case of: $200.00.

NAICS 422. NAICS TITLE—MERCHANT WHOLESALERS, NONDURABLE GOODS.

Industries in the Merchant Wholesalers, Nondurable Goods subsector sell nondurable goods to other businesses. Nondurable goods are items generally with a normal life expectancy of less than three years. Nondurable goods merchant wholesale trade establishments are engaged in wholesaling products, such as paper and paper products, chemicals and chemical products, drugs, textiles and textile products, apparel, footwear, groceries, farm products, petroleum and petroleum products, alcoholic beverages, books, magazines, newspapers, flowers and nursery stock, and tobacco products.

The detailed industries within the subsector are organized in the classification structure based on the products sold.

Business to business electronic markets, agents, and brokers primarily engaged in wholesaling nondurable goods, generally on a commission or fee basis, are classified in Subsector 425, Wholesale Electronic Markets and Agents and Brokers.

SCHEDULE 180. OILS, WHOLESALE.

Each dealer in lubricating, illuminating, fuel, linseed or turpentine oils, gasoline (other than any gasoline or any substitute therefor which is consumed as aviation fuel), benzol and benzol products, and/or automobile tires and accessories, one or more, shall pay an amount equal to 6/20 of one percent of the gross receipts from any such business less returned goods, for the year next preceding the current license year with a minimum license in any case of: $240.00.

Receipts above mentioned are to include along with the regular and ordinary receipts, all deliveries made from a wholesale stock to a retail stock department, regardless of the fact that the same party owns and operates, either in whole or part, both the wholesale and retail business. Receipts for such deliveries shall be deemed to be not less than the wholesale value of such oil or product in the event there is no actual receipt.

Nothing contained in this Code shall be construed to alter or repeal any provision of Ordinances 598F and 599F, but, upon the contrary, said ordinances shall remain in full force and effect.

The term "gross receipts" as used in this schedule shall mean the entire receipts of said business and said term "gross receipts" shall not include federal, state and local government taxes collected by said dealer from purchases in connection with said business, whether said dealer be acting as agent or otherwise, in the collection of said taxes.

SCHEDULE 188. PACKING HOUSE COMPANIES, WHOLESALE MEAT DEALERS, RETAIL MEAT MARKETS, AND/OR PACKING HOUSE PRODUCTS.

Each person, firm or corporation operating a retail meat market and/or a packing house, or selling or delivering into the City of Birmingham packing house products to include meat, meat products, poultry, poultry products, cured meats or canned meats shall pay a license of one-tenth of one percent of the gross receipts from said business from the previous year with a minimum license of: $200.00.

No license will be issued until applicant has obtained and presented to the Revenue Division at the time of application a current, valid Health Department Permit.

NAICS 441. NAICS TITLE—MOTOR VEHICLE AND PARTS DEALERS.

Industries in the Motor Vehicle and Parts Dealers subsector retail motor vehicles and parts from fixed point-of-sale locations. Establishments in this subsector typically operate from a showroom and/or an open lot where the vehicles are on display. The display of vehicles and the related parts require little by way of display equipment. The personnel generally include both the sales and sales support staff familiar with the requirements for registering and financing a vehicle as well as a staff of parts experts and mechanics trained to provide repair and maintenance services for the vehicles. Specific industries have been included in this subsector to identify the type of vehicle being retailed.

Sales of capital or durable nonconsumer goods, such as medium and heavy-duty trucks, are always included in wholesale trade. These goods are virtually never sold through retail methods.

SCHEDULE 018. AUTOMOBILE MERCHANT, MOTOR VEHICLE MERCHANT OR DEALER.

Each person, firm or corporation engaged in the sale or purchase for resale of new or used automobiles, trucks, or other self-propelled vehicles not specifically licensed under any other license schedule shall pay a license of two-tenths of one percent of the gross receipts, less credit for vehicles taken as trade-in, from said business from the previous year with a minimum license of: $200.00.

[The term] "gross receipts," as used in this schedule, shall include receipts from the sale of parts, tires, accessories, and labor and/or service charges derived from the operation of a shop for the care and service of automobiles, trucks, or other self-propelled vehicles in connection with said merchant's or dealer's operation or dealership.

No license shall be issued to an automobile or motor vehicle dealer unless and until applicant has obtained and presented to the Revenue Division at the time of application, a valid State of Alabama Motor Vehicle Dealer's Regulatory License pursuant to Title 40, Chapter 12, Article 8, Code of Alabama 1975.

SCHEDULE 019. AUTOMOBILE TIRES AND ACCESSORIES (OTHER THAN FILLING STATIONS).

Each dealer, either retail or wholesale, in automobile tires, accessories, including batteries, one or all, shall pay a license as follows: Where principal business, and where gross receipts from said business from the previous year were:

Less than $25,000.00	$100.00
$25,000.00 and not more than $50,000.00	$150.00
$50,000.00 and not more than $100,000.00	$200.00
Plus an amount equal to 2/10 of one percent of gross receipts in excess of $100,000.00.	

SCHEDULE 021. AUTOMOBILE OR OTHER TRAILERS.

Each person, firm or corporation engaged in the business of buying or selling automobile, semi-travel, utility, or other trailers, or manufactured homes, either new or secondhand, tires or accessories, and/or operating a shop for the care and service of such trailers or manufactured homes, shall pay a license of two-tenths of one percent of the gross receipts from said business from the previous year with a minimum license of: $200.00.

SCHEDULE 169. MOTORCYCLE DEALERS.

Each person, firm or corporation engaged in the selling or servicing of motorcycles, shall pay a license of two-tenths of one percent of the gross receipts from said business from the previous year with a minimum license of: $200.00.

SCHEDULE 170A. MOTOR VEHICLES-CARRYING GOODS, FREIGHT OR OTHER MATERIAL FOR HIRE OR REWARD.

(a) Where coal, coke or charcoal is hauled from a point outside the City of Birmingham to a point within the City, a license shall be paid as provided in Schedule 060 of this Code.

(b) Where lumber or building material is hauled from a point outside the City of Birmingham to a point within the City, a license shall be paid as provided in Schedule 152C of this Code.

(c) Each and every person, firm or corporation operating or causing to be operated within the City of Birmingham any motor truck or other vehicle for the carriage of goods, freight, or other material of any kind or description from one location in said City to another location in said City [other than that provided for in Subdivision (a) or (b) hereof] for hire or reward shall pay, for the operation of each such motor vehicle of not more than 12,000 pounds gross vehicle weight: $24.00.

12,001 to 42,000 pounds gross vehicle weight	$48.00
Over 42,000 pounds of gross vehicle weight	$60.00

For the purpose of this subsection, gross vehicle weight shall mean the empty weight of the truck or truck tractor plus the heaviest load to be carried.

Where a trailer is used, an additional license shall be paid equal to one-half of the amount due to be paid on the vehicle to which the trailer is attached.

SCHEDULE 158. MARBLE OR STRUCTURAL STONE DEALERS.

Each person, firm or corporation where gross receipts, less returned goods, for the year next preceding were:

Less than $20,000.00	$120.00
$20,000.00 and less than $50,000.00	$180.00
$50,000.00 and less than $75,000.00	$240.00
$75,000.00 and less than $100,000.00	$300.00
$100,000.00 and over	$360.00

Where the applicant for the license does not maintain within the City of Birmingham a marble or structural stoneyard, a minimum license of $300.00 shall be paid.

SCHEDULE 187. ORE, STONE, (OTHER THAN MARBLE OR STRUCTURAL STONE FOR WHICH A LICENSE IS REQUIRED BY SCHEDULE 158), SLAG, CONCRETE, SEWER, PIPE, GRAVEL AND SOIL OR IRON PIPE. INCLUDING ALL BY PRODUCTS.

Each person, firm or corporation or association engaged in the business of selling either at wholesale or retail or both, any or all of the aforementioned commodities shall pay an amount equal to two-tenths of one percent of the gross receipts, less adjustments, and returned goods, for the year next preceding the current license tax year, from all commodities delivered within the City of Birmingham from plants or places without the City of Birmingham and from all commodities delivered within or

without the City of Birmingham from plants or places within the City of Birmingham. For the purposes of this schedule, the plural includes the singular, and a "Plant" or "Place" shall be deemed within the City of Birmingham if a part thereof lie within and a part without the corporate limits of said City. If the amount of tax thus computed does not amount to as much as $120.00, or if an office be maintained within said City for the transaction of such business any where, a minimum license of $120.00 shall be paid.

SCHEDULE 050. CEMENT, LIME, SAND AND/OR SEWER PIPE.

Each person, firm or corporation engaged in selling, or delivering pursuant to an agreement of sale, cement, lime, sand and/or sewer pipe, maintaining an office in the City of Birmingham but not having a plant located therein: $600.00.

SCHEDULE 152B. LUMBER WHOLESALER AND/OR BROKER.

Each person, firm or corporation engaged in the business of selling and/or soliciting wholesale orders for lumber, and/or building materials, whose sole business is selling to and/or soliciting wholesale orders from duly licensed retail lumber and/or retail building material dealers, and/or industrial and manufacturing consumers, which industrial and manufacturing consumers use said purchases only in the process of their business or for manufacturing the same into finished products, shall pay a license two-tenths of one percent of the gross receipts less returned goods, for said business for the previous year with a minimum license of: $200.00.

No person, firm or corporation shall be deemed to be an industrial and manufacturing consumer, as defined herein, who purchases and uses such lumber or building material for the purpose of fulfilling contracts made by such person, firm or corporation to build and/or repair houses, buildings or structures of any kind or character for the improvement of real property.

SCHEDULE 152C. LUMBER DEALER WITH NO LUMBER YARD OR MANUFACTORY INSIDE THE CITY.

Each person, firm or corporation engaged in the business of manufacturing or selling lumber or building materials, who maintains no lumber yard or manufactory within the City, but who makes or engages in the business of making sales, solicitations of sales, and/or deliveries in the City, and also every itinerant dealer, or seller of lumber or building materials, selling, trading in, and/or soliciting orders for the sale of lumber or building materials to other than licensed lumber dealers in the City; and each agent, broker, solicitor, or employee of such person, firm, corporation, seller, trader, trader or seller, who sells, solicits orders and/or makes deliveries of lumber or building materials to other than licensed lumber dealer's place of business shall pay a license of two-tenths of one percent of the gross sales or deliveries from said business from the previous year with a minimum of: $200.00.

NAICS 442. NAICS TITLE—FURNITURE AND HOME FURNISHINGS STORES.

Industries in the Furniture and Home Furnishings Stores subsector retail new furniture and home furnishings from fixed point-of-sale locations. Establishments in this subsector usually operate from showrooms and have substantial areas for the presentation of their products. Many offer interior decorating services in addition to the sale of products.

SCHEDULE 311. FURNITURE AND HOME FURNISHINGS STORES.

Each person engaged in the business of offering for sale, taking or soliciting orders for sale, or selling merchandise from a showroom, including any such products stored in a warehouse for sale, distribution or delivery, whether as owner, dealer, agent or consignee, shall pay a license as follows: Where gross receipts, less returned goods, for the year next preceding, were:

(a) $30,000.00 or less: $120.00.

(b) Where gross receipts as above defined exceed $30,000.00, the annual license fee shall be two-tenths of one percent of all gross receipts, with a minimum license of $120.00 in any case.

NAICS 443. NAICS TITLE—ELECTRONICS AND APPLIANCE STORES.

Industries in the Electronics and Appliance Stores subsector retail new electronics and appliances from point-of-sale locations. Establishments in this subsector often operate from locations that have special provisions for floor displays requiring special electrical capacity to accommodate the proper demonstration of the products. The staff includes sales personnel knowledgeable in the characteristics and warranties of the line of goods retailed and may also include trained repair persons to handle the maintenance and repair of the electronic equipment and appliances. The classifications within this subsector are made principally on the type of product and knowledge required to operate each type of store.

SCHEDULE 312. ELECTRONICS AND APPLIANCE STORES.

Each person engaged in the business of offering for sale, taking or soliciting orders for sale, or selling electronics and appliance merchandise from a showroom, including any such products stored in a warehouse for sale, distribution or delivery, whether as owner, dealer, agent or consignee, shall pay a license as follows: Where gross receipts, less returned goods, for the year next preceding, were:

(a) $30,000.00 or less: $120.00.

(b) Where gross receipts as above defined exceed $30,000.00, the annual license fee shall be two-tenths of one percent of all gross receipts, with a minimum license of $120.00 in any case.

NAICS 444. NAICS TITLE—BUILDING MATERIAL AND GARDEN EQUIPMENT AND SUPPLIES DEALERS.

Industries in the Building Material and Garden Equipment and Supplies Dealers subsector retail new building material and garden equipment and supplies from fixed point-of-sale locations. Establishments in this subsector have display equipment designed to handle lumber and related products and garden equipment and supplies that may be kept either indoors or outdoors under covered areas. The staff is usually knowledgeable in the use of the specific products being retailed in the construction, repair, and maintenance of the home and associated grounds.

SCHEDULE 313. BUILDING MATERIAL AND GARDEN EQUIPMENT AND SUPPLIES DEALERS.

Each person, firm or corporation engaged in the business of building material and garden equipment and supplies dealers that handle lumber and related material shall pay a license of two-tenths of one percent of gross receipts from said business from the previous year with a minimum license of: $300.00.

NAICS 445. NAICS TITLE—FOOD AND BEVERAGE STORES.

Industries in the Food and Beverage Stores subsector usually retail food and beverages merchandise from fixed point-of-sale locations. Establishments in this subsector have special equipment (e.g., freezers, refrigerated display cases, refrigerators) for displaying food and beverage goods. They have staff trained in the processing of food products to guarantee the proper storage and sanitary conditions required by regulatory authority.

SCHEDULE 123. RETAIL FOOD STORE.

Each person, firm or corporation engaged in the business of selling at retail those products ordinarily sold in retail food stores, including, but not limited to, canned goods, vegetables, fruits, condiments, sugar, coffee, tea, dairy products, bakery goods, meats, soft drinks, tobaccos, and prepared foods for off-premises consumption, shall pay a license on the first $20,000.00 or less of gross receipts from said business for the year next preceding of: $150.00.

Plus an amount equal to two-tenths of one percent of all gross receipts in excess of $20,000.00.

No license will be issued until applicant has obtained and presented to the Revenue Division at the time of application:

(1) A current, valid Health Department Permit.

(2) A current, valid permit issued by the Alabama Alcoholic Beverage Control Board (ABC Board), pursuant to Title 28, Chapter 11, Code of Alabama 1975. Permits are required for all establishments selling tobacco products.

SCHEDULE 130. ICE CREAM, FROZEN YOGURT, OR ICE SNOWBALLS.

Each dealer whose principal business is the retailing of ice cream, frozen yogurt or ice snowballs, except restaurants serving meals and/or where sold in a drug store, shall pay a license as follows:

Where gross receipts are less than $20,000.00	$60.00
$20,000.00 and not more than $30,000.00	$100.00
$30,000.00 and not more than $40,000.00	$150.00
$40,000.00 and over	$200.00
Where not principal business	$24.00

No license will be issued until applicant has obtained and presented to the Revenue Division at the time of application a current, valid Health Department Permit.

SCHEDULE 190. PEANUTS AND POPCORN.

Where peanuts and popcorn are prepared and sold at retail direct to the trade, where gross receipts are:

Less than $2,000.00	$36.00
$2,000.00 and less than $5,000.00	$60.00
$5,000.00 and less than $8,000.00	$84.00
$8,000.00 and over	$120.00
A minimum license of $36.00 shall be paid in any case.	

This license is to be paid in addition to all other licenses that the operator thereof, may otherwise be paying.

No license will be issued until applicant has obtained and presented to the Revenue Division at the time of application a current, valid Health Department Permit.

NAICS 446. NAICS TITLE—HEALTH AND PERSONAL CARE STORES.

Industries in the Health and Personal Care Stores subsector retail health and personal care merchandise from fixed point-of-sale locations. Establishments in this subsector are characterized principally by the products they retail, and some health and personal care stores may have specialized staff trained in dealing with the products. Staff may include pharmacists, opticians, and other professionals engaged in retailing, advising customers, and/or fitting the product sold to the customer's needs.

SCHEDULE 033. BARBER AND/OR BEAUTY SUPPLY HOUSE.

Each person, firm or corporation shall pay a license of two-tenths of one percent of the gross receipts, less sale price of returned goods and amount of adjustment on sales, from said business from the previous year with a minimum license in any case of: $200.00.

SCHEDULE 093. DRUG STORE.

Each person, firm or corporation engaged in the operation of a business where drugs are carried for the purpose of retail sales and where a registered pharmacist is employed in connection therewith, and which is more commonly known as a drug store, shall pay a license as follows: Where the gross receipts from said business from the previous year are: less than $30,000.00: $200.00, plus an amount equal to two-tenths of one percent of gross receipts in excess of $30,000.00.

SCHEDULE 184. OPTICIAN. RETAIL.

Each person, firm or corporation acting as Optician or engaged in the business of retailing spectacles and related products shall pay a license on the first $30,000.00 of gross receipts from said business for the year next preceding of: $200.00, plus an amount equal to two-tenths of one percent of all gross receipts in excess of $30,000.00.

For each place at which said business or occupation is carried on, a separate license fee and tax shall be paid.

NAICS 447. NAICS TITLE—GASOLINE STATIONS.

Industries in the Gasoline Stations subsector group establishments retailing automotive fuels (e.g., gasoline, diesel fuel, gasohol) and automotive oils and retailing these products in combination with convenience store items. These establishments have specialized equipment for the storage and dispensing of automotive fuels.

SCHEDULE 118. FILLING STATIONS. GASOLINE OR COMPRESSED NATURAL GAS.

(a) Each person, firm or corporation whose business is the selling of gasoline or compressed natural gas at retail, including fleet sales, for motor vehicle use, and including lubricating oil, shall pay a license as follows: Where the gross receipts from said business for the year next preceding were less than $20,000.00: $120.00, plus an amount equal to 6/20 of one percent of gross receipts in excess of $20,000.00.

(b) Gross receipts from the sale of automobile tires and accessories and related services such as lubricating, automatic car washing, and repairing of automobiles are to be included as a measure of tax.

(c) Where automobiles or trucks are sold in connection with such business an additional license, as provided by Schedule 018 of this license code, must be procured.

(d) The term "gross receipts," as used in this schedule, shall mean the entire receipts of said business and shall not include federal, state and local government taxes collected by said person, firm or corporation from purchasers in connection with said business, whether said person, firm or corporation be acting as agent or otherwise in the collection of said taxes, pursuant to Section 40-23-130, Code of Alabama 1975.

(e) Nothing contained in the Code shall be construed to alter or repeal any provision of Ordinances 598-F and 599-F.

NAICS 448. NAICS TITLE—CLOTHING AND CLOTHING ACCESSORIES STORES.

Industries in the Clothing and Clothing Accessories Stores subsector retailing new clothing and clothing accessories merchandise from fixed point-of-sale locations. Establishments in this subsector have similar display equipment and staff that is knowledgeable regarding fashion trends and the proper match of styles, colors, and combinations of clothing and accessories to the characteristics and tastes of the customer.

SCHEDULE 091. DRESS SHOPS; MENSWEAR SHOPS; BOUTIQUES.

Each person, firm or corporation engaged in the business of selling at retail ready-to-wear clothing, millinery, men's clothing, hats, hosiery, specialty items, and shoes, any or all of said items, where gross receipts from said business from the previous year were:

Less than $50,000.00	$120.00
$50,000.00 and not exceeding $100,000.00	$200.00
Plus an amount equal to 2/10 of one percent of gross receipts in excess of $100,000.00.	

NAICS 451. NAICS TITLE—SPORTING GOODS, HOBBY, BOOK, AND MUSIC STORES.

Industries in the Sporting Goods, Hobby, Book, and Music Stores subsector are engaged in retailing and providing expertise on use of sporting equipment or other specific leisure activities, such as needlework and musical instruments. Book stores are also included in this subsector.

SCHEDULE 314. SPORTING GOODS, HOBBY, BOOK, AND MUSIC STORES.

Each person, firm or corporation engaged in the business of selling sporting goods, hobby or leisure activities, books, music or musical instruments whether as owner, dealer, agent or consigner shall pay a license as follows: Where gross receipts, less returned goods, for the year next preceding, were:

(a) $30,000.00 or less: $120.00.

(b) Where gross receipts as above defined exceed $30,000.00, the annual license fee shall be two-tenths of one percent of all gross receipts, with a minimum license of $120.00 in any case.

NAICS 452. NAICS TITLE—GENERAL MERCHANDISE STORES.

Industries in the General Merchandise Stores subsector retail new general merchandise from fixed point-of-sale locations. Establishments in this subsector are unique in that they have the equipment and staff capable of retailing a large variety of goods from a single location. This includes a variety of display equipment and staff trained to provide information on many lines of products.

SCHEDULE 103. FIVE, TEN, TWENTY-FIVE CENT AND ONE DOLLAR STORES.

Each person, firm or corporation operating a five, ten, twenty-five cent and/or one dollar store, shall pay a license of two-tenths of one percent of the gross receipts from said business from the previous year with a minimum license of: $120.00.

SCHEDULE 165. MERCHANDISE RETAIL, WHOLESALE OR OTHERWISE—GENERAL.

(Not to include any business for which license is specifically required by another Schedule of this Code). Each person engaged in the business of offering for sale, taking or soliciting orders for sale, or selling merchandise of any description, including any such products stored in a warehouse for sale, distribution or delivery, whether as owner, dealer, agent or consignee, shall pay a license as follows:

Where gross receipts, less returned goods, for the year next preceding, were:

(a) $30,000.00 or less: $60.00.

(b) Where gross receipts as above defined exceed $30,000.00, the annual license fee shall be two-tenths of one percent of all gross receipts, with a minimum license of $60.00 in any case.

NAICS 453. NAICS TITLE—MISCELLANEOUS STORE RETAILERS.

Industries in the Miscellaneous Store Retailers subsector retail merchandise from fixed point-of-sale locations (except new or used motor vehicles and parts; new furniture and house furnishings; new applicants and electronic products; new building materials; and garden equipment and supplies; food and beverages; health and personal care goods; gasoline; new clothing and accessories; and new sporting goods, hobby goods, books, and music). Establishments in this subsector include stores with unique characteristics like florists, used merchandise stores, and pet and pet supply stores as well as other store retailers.

SCHEDULE 055. CIGARETTES—RETAIL.

Each person, firm, partnership, corporation, association, or other organized group engaged in selling cigarettes at retail, after having met all of the requirements outlined in this section, shall pay a annual license, in any case, of: $300.00.

[The term] "cigarette" means a roll of finely cut tobacco or any substitutes therefor enclosed in paper prepared for smoking by individuals.

No license will be issued until applicant has obtained and presented the following to the Revenue Division at the time of application:

(1) A current, valid permit issued by the Alabama Alcoholic Beverage Control Board (ABC Board), pursuant to Title 28, Chapter 11, Code of Alabama 1975. Permits are required for all establishments selling tobacco products.

SCHEDULE 105. FLORIST.

Each person engaged in the floral trade, where gross receipts from said business from the previous year were:

Less than $5,000.00	$60.00
$5,000.00 and less than $10,000.00	$100.00
$10,000.00 and less than $15,000.00	$150.00
$15,000.00 and less than $20,000.00	$200.00
Plus an amount equal to 2/10 of one percent of gross receipts in excess of $20,000.00.	

The license required by this schedule shall be paid in addition to any other license imposed on licensee for engaging in some business other than the sale of flowers.

SCHEDULE 196. PET SHOPS.

Including the sale of cats, dogs, birds, etc., each person, firm or corporation operating: $60.00.

SCHEDULE 238. TOBACCO PRODUCTS. RETAIL.

Each retail dealer engaged in the sale of tobacco products, whether or not principal stock in trade, and not including cigarettes, shall pay a license in an amount equal to two-tenths of one percent of gross receipts from said business from the previous year with a minimum license in any case of: $300.00.

[The term] "tobacco products" means all products containing any quantity of tobacco in any form, including but not limited to cigars, cheroots, stogies, smoking tobacco, smokeless tobacco, snuff, chewing tobacco, or any substitute therefor.

No license will be issued until applicant has obtained and presented to the Revenue Division at the time of application:

(1) A current, valid permit issued by the Alabama Alcoholic Beverage Control Board (ABC Board), pursuant to Title 28, Chapter 11, Code of Alabama 1975. Permits are required for all establishments selling tobacco products.

SCHEDULE 239. TOBACCO PRODUCTS, WHOLESALE.

Each person, firm or corporation engaged in wholesaling cigarettes and other products containing tobacco in any of its various forms shall pay a license from said business from the previous year.

On the first $20,000,000.00: two tenths of one percent of gross receipts.

Plus, On next $10,000,000.00: one tenth of one percent of gross receipts.

Plus, On next $10,000,000.00: $^{2}/_{40}$th of one percent of gross receipts.

Plus, $40,000,000.00 and over: $^{1.5}/_{100}$th of one percent of gross receipts.

With a minimum license in any case of: $2,000.00.

Provided, however, that deliveries made from a wholesale stock to a retail stock or department owned or controlled in whole or in part by the same person, firm or corporation, are to be included as taxable receipts.

[The term] "tobacco products" means all products containing any quantity of tobacco in any form, including but limited to cigars, cheroots, stogies, smoking tobacco, smokeless tobacco, snuff, chewing tobacco, or any substitute therefor.

No license will be issued until applicant has obtained and presented to the revenue division at the time of application:

(1) A current, valid permit issued by the state alcoholic beverage control board (ABC board), pursuant to Title 28, Chapter 11, Code of Alabama 1975. Permits are required for all establishments selling tobacco products.

SCHEDULE 054. CIGARETTE VENDING MACHINES.

Each person, firm, partnership, corporation, association, or other organized group engaged in selling cigarettes through vending machines operated by more than $1.01, or operating, maintaining, or providing space for same shall pay a license per machine of: $200.00.

No license will be issued until applicant has obtained and presented the following to the Revenue Division at the time of application:

(1) A current, valid permit issued by the Alabama Alcoholic Beverage Control Board (ABC Board), pursuant to Title 28, Chapter 11, Code of Alabama 1975. Permits are required for all establishments selling tobacco products.

SCHEDULE 082A. CURB MARKET, COVERED.

Any person, firm, corporation or association who (or which) is in charge or control of any building, shed, tent or other structure or any group of buildings, sheds, tents or other structures situated upon a contiguous area of land the ground story or stories of which is or are designated or used for the contemporaneous conduct of four or more separate businesses of the class herein described, and who (or which) is engaged in the business of granting to others, for compensation, rights to use ground floor space in or under any such shelter or structure for the purpose of there keeping or displaying

poultry, game, eggs, butter, cheese, fruits, vegetables and/or other farm or garden products, for sale, shall pay for the privilege of so engaging in the business of granting such rights, an amount equal to 2 16/10 cents per square foot of ground area sheltered by such structure or structures, but in no case less than: $120.00.

No license will be issued until applicant obtains and presents to the Revenue Division at the time of application, a current, valid Health Department Permit.

SCHEDULE 082B. CURB MARKET, OPEN.

Any person in charge or control of any open air contiguous area of land, who shall engage in the business of granting to others, for compensation, rights to occupy open air space in or upon such area for the purpose of there keeping or displaying either upon vehicles, stands, or otherwise, poultry, game, eggs, butter, cheese, fruits, vegetables, and/or farm or garden products, for sale, shall pay, for the privilege of so engaging in the business of granting such rights an amount equal to 8/10 of one cent per square foot of ground within the limits set aside for, or devoted to, such occupancy, but in no case less than: $120.00.

No license will be issued until applicant obtains and presents to the Revenue Division at the time of application a current, valid Health Department Permit.

SCHEDULE 100. FIRE, SMOKE OR WATER DAMAGE SALE, DISTRESSED MERCHANDISE SALE, BANKRUPT SALE, OR GOING-OUT-OF-BUSINESS SALE.

Including all sales provided for by [Title 12,] Chapter 15, Article A of the General Code of the City of Birmingham, as amended, and as it may be amended.

(a) Where any person, firm or corporation has paid the current year's regular city license covering the sale of merchandise, and was the bona fide owner of the merchandise prior to it becoming fire, smoke or water damaged, distressed or bankrupt stock, or where said person, firm or corporation elects to go out of business, said, person, firm or corporation may conduct a special Fire, Smoke or Water Damage Sale, Distressed Merchandise Sale, Bankrupt Sale, or Going-Out-Of-Business Sale, by complying with [Title 12,] Chapter 15, Article A of the General Code of the City of Birmingham, as amended, and as it may be amended, and upon payment of an additional license of $50.00 for the first 60 days or less of said sale. Said sale may be extended for one additional period of not in excess of 60 days upon filing a renewal application and payment of an additional license of: $500.00.

The above described sales shall include only such merchandise as was originally purchased by said owner for the sole purpose of reselling it in the ordinary regular manner of merchandising, and shall not include merchandise that was at the time of purchase fire, smoke or water damaged, distressed or bankrupt stock, or stock from a going-out-of-business sale.

(b) Where any person, firm or corporation has purchased merchandise that is fire, smoke or water damaged, distressed or bankrupt stock, and said person, firm or corporation is advertising or offering said merchandise for sale, said person, firm or corporation shall obtain a license for each offering for sale for 60 days or fractional part thereof (in addition to all other licenses that may be due) in the amount of $50.00 for each offering. If the merchandise offered is fire, smoke or water damaged, distressed or bankrupt stock that fact shall be affirmatively stated in all advertisements or offers for sale. Provided further, no inventory shall be required for sales licensed under this subsection (b) as required by Section 12-15-5 of the General Code of the City of Birmingham.

(c) The special sale as heretofore described in paragraph (b) above may be extended for one additional period of not in excess of 60 days upon payment of twice the amount heretofore provided by paragraph (b).

No license will be issued until applicant complies with the requirements of Sections 12-15-1 to 12-15-20 of the General Code of the City of Birmingham, as amended and as it may be amended.

NAICS 454. NAICS TITLE—NONSTORE RETAILERS.*

Industries in the Nonstore Retailers subsector retail merchandise using methods, such as the broadcasting of infomercials, the broadcasting and publishing of direct-response advertising, the publishing of paper and electronic catalogs, door-to-door solicitation, in-home demonstration, selling from portable stalls and distribution through vending machines. Establishments in this subsector include mail-order houses, vending machine operators, home delivery sales, door-to-door sales, party plan sales, electronic shopping, and sales through portable stalls (e.g., street vendors, except food). Establishments engaged in the direct sale (i.e., nonstore) of products, such as home heating oil dealers and newspaper delivery are included in this subsector.

SCHEDULE 083. DELIVERY.

A taxpayer that otherwise meets the criteria for the purchase of a delivery license is not required to purchase a delivery license or a regular business license if the following criteria apply:

1. The taxpayer's gross receipts that are derived from within the City of Birmingham or its police jurisdiction does not exceed $10,000.00 during the year; and
2. The taxpayer has no other physical presence within the city or its police jurisdiction during the year.

***Editor's note—**Ord. No. 13-143, § 1, adopted by the council on Nov. 5, 2013, and approved by the mayor on Nov. 12, 2013, repealed Schedule 131, Ice Cream Peddler, which derived from Ord. No. 97-183, art. I, §§ 1—3, adopted Dec. 23, 1997.

The purchase of a delivery license or exemption from the license pursuant to the above criteria shall not, in and of itself, establish nexus between said person and the City of Birmingham for purposes of the taxes levied by or under the authority of Title 40 of the Code of Alabama or other provisions of law, nor does the purchase of a delivery license conclusively determine that nexus does not exist between said person and the City of Birmingham.

No delivery license shall be required of a common carrier or similar motor carrier licensed under the Alabama Motor Carrier Act.

(a) Each and every person having no physical presence within the City of Birmingham, for the limited privilege of delivering and requisite setup and installation, by the person's employees or agents, of merchandise within the city by means of delivery vehicles owned, leased or contracted by the person, where the gross receipts derived from such sale, and any requisite setup and/or installation are in excess of $10,000.00 and does not exceed $75,000.00 during the calendar year, shall pay a fixed license amount of: $100.00

(b) If at any time during the current calendar year, the person derives gross receipts in excess of $75,000.00 in connection with the activities described in (a) above or otherwise ceases to meet the criteria described in (a) above, then within 45 days thereafter, such person shall purchase all applicable and appropriate business licenses for the entire license year without regard to the provisions of this schedule and may be subject to a penalty not to exceed $10.00.

(c) Gross receipts derived from any sale and delivery accomplished by means of a common carrier shall be counted against the $75,000.00 limitation prescribed in subsection (b) if the taxpayer also during the same license year sells and delivers into the taxing jurisdiction using a delivery vehicle other than a common carrier. Provided that the dollar limitation prescribed shall be increased, but not decreased, every five years under the standards prescribed by section 11-51-90 with respect to the uniform license issuance fee and may be increased up to $150,000.00 by adoption of an ordinance.

(d) A common carrier, contract carrier, or similar delivery service making deliveries on behalf of others shall not be entitled to purchase a delivery license hereunder.
(Ord. No. 13-175, § 1, 12-26-2013; Ord. No. 18-13, § 1, 1-29-2018)

SCHEDULE 128. ICE DEALER.

Each ice dealer, other than where the regular ice factory license is paid, for each separate place so operated, whether operated by an ice manufacturer or other party shall pay a license for each place so operated: $12.00.

No license will be issued until applicant has obtained and presented to the Revenue Division at the time of application a current, valid Health Department Permit.

SCHEDULE 129. ICE PEDDLER.

Each truck: $40.00.

No license will be issued until applicant has obtained and presented to the Revenue Division at the time of application a current, valid Health Department Permit.

SCHEDULE 179. NOVELTIES.

Each vendor of novelties shall pay a license, for each site or location, of: $200.00.

For purposes of this schedule, "site or location" shall be defined as a place, booth, slot, kiosk, station, locality, or similar physical location, position, or portion thereof. In

circumstances where tables are used as a means of designating a site or location, no more than two tables shall constitute a single "site or location," as herein defined. A separate license shall be required for each "site or location."

A sales tax deposit may be required.

The license required under this Section shall be exhibited and immediately available for inspection by the department's designated agent, pursuant to Article II, Section 32, of this Business License Code.

No vending is allowed on sidewalks, streets, highways, or roadways located within the "Study Area" designated under the Master Plan for Downtown Birmingham, namely that area bounded on the north by 12th Avenue North, on the east by Red Mountain Expressway and 26th Street North, on the south by Highland Avenue South and 12th Avenue South and on the west by I-65, and the streets and sidewalks within neighborhood retail business districts within the City without authorization. Such authorization must be obtained in addition to a business license.

(Note: Anyone wishing to peddle in the "Study Area" should contact Operation New Birmingham (ONB).)

The issuance of a business license under this schedule does not permit or authorize any activity which is prohibited by Title 12, Chapter 14, Article A of the General Code of the City of Birmingham, as amended and as it may be amended.

SCHEDULE 192. PEDDLERS.

Each peddler, including any flea market vendor, whether on foot, or in vehicle, who sells or takes orders for evening dresses, gowns, underwear, hosiery, silk lingerie, battenburg face work, Mexican drawn work, furs, clothes, cloaks, or other kind of clothing, rugs, jewelry, furniture, clocks, etc., whether sale is made outright or whether title is retained by seller or only conditional sales made, each peddler or flea market vendor: $180.00.

A sales tax deposit of $300.00 may be required.

A current, valid photo identification, issued by a state, is required of each applicant.

The license required under this Section shall be exhibited and immediately available for inspection by the department's designated agent, pursuant to Article II, Section 32, of this Business License Code.

No vending is allowed on sidewalks, streets, highways, or roadways located within the "Study Area" designated under the Master Plan for Downtown Birmingham, namely that area bounded on the north by 12th Avenue North, on the east by Red Mountain Expressway and 26th Street North, on the south by Highland Avenue South and 12th Avenue South and on the west by I-65, and the streets and sidewalks within neighborhood retail business districts within the City without authorization. Such authorization must be obtained in addition to a business license.

(Note: Anyone wishing to peddler in the "Study Area" should contact Operation New Birmingham (ONB).)

The issuance of a business license under this schedule does not permit or authorize any activity which is prohibited by Title 12, Chapter 14, Article A of the General Code of the City of Birmingham, as amended and as it may be amended.

SCHEDULE 193. PEDDLERS.

Each canvasser employed by installment merchant: $36.00.

Said license to be issued in the name of the salesman, as agent or salesman for the person by whom such salesman is employed.

The license required under this Section shall be exhibited and immediately available for inspection by the department's designated agent, pursuant to Article II, Section 32, of this Business License Code.

SCHEDULE 194. PEDDLERS ON FOOT.

Each person on foot who sells bottled drinks, ice cream, fruit, lunches or tobacco in any of its forms, any or all of said articles, shall pay a license on each article sold as specifically otherwise provided for in this Code; provided, however, that the minimum license in any case shall be: $30.00.

The license required under this Section shall be exhibited and immediately available for inspection by the department's designated agent, pursuant to Article II, Section 32, of this Business License Code.

SCHEDULE 195. PEDDLERS.

Each fruit, produce or vegetable peddler, or any other peddler not covered by some specific schedule of this Code, whether with one- or two-horse wagons or vehicles of any kind, to include deliveries in the City on telephone orders received outside of the City, each wagon or vehicle: $100.00.

Where bakery goods are included and are not principal business: $120.00.

The license required under this Section shall be exhibited and immediately available for inspection by the department's designated agent, pursuant to Article II, Section 32, of this Business License Code.

SCHEDULE 245. VENDING MACHINES AND/OR COIN-OPERATED MACHINES. NOT TO INCLUDE TABLES ON WHICH THE GAME OF POOL OR BILLIARDS MAY BE PLAYED OR COIN OPERATED FILM MACHINES.

Each person operating or maintaining service or merchandise vending machines or providing space for same, which is being operated through the use of a coin or coins, or other legal tender inserted in a slot device, shall pay a license on each machine so operated as follows:

(a) If the machine is operated through the use of not more than two pennies, or where the machine vends peanuts, peanut butter sandwiches and peanut products ONLY, regardless of coin value, or where the machine is used in operating public pay toilets, luggage storage lockers, and radios in hotel rooms, the license shall be: $2.00.

(b) If the machine is operated through the use of coin or coins of greater value than $0.02 and not more than $0.10, except as otherwise provided; or where the machine is for the operation of television, the license shall be: $10.00.

(c) If the machine is operated through the use of coin or coins of greater value than $0.10, or where the machine plays music, the license fee shall be: $24.00.

(d) If the person operating or maintaining for operation by others any automatic vending machine as here in above described, qualifies for an occupational license (ordinarily termed Industrial Location), as provided for in Section 11-51-98 Code of Alabama 1975, a license shall be paid in an amount equal to two-tenths of one percent of the first $100,000.00 or less of gross receipts received from the operation of each such machine in the year next preceding.

In respect to machines vending aerated or carbonated waters or soft drinks, a license is hereby fixed at a percentage rate of the gross receipts, (the rate to be determined by the Director of Finance) in such an amount that will provide a license of not less than $10.00 for each machine so used.

(e) There shall be no proration of any coin operated machine license. This schedule shall not apply to any coin operated gas meter or telephone, or to any machine vending postage stamps or other necessary articles on a non-profit basis for emergency use only by employees of any person. It shall be unlawful for any person to permit the use or operation, or the maintenance for use or operation, in their place of business, unless the license required by this schedule shall have been paid. Failure to have permanently and securely affixed on said machine a sticker or decal furnished by the Director of Finance's office, or other tangible evidence supporting the payment of said license, shall be prima facie evidence that a license on said machine has not been paid.

(f) Where sticker or decal is furnished by the License Department, the entire sticker or decal must be visible and posted in a conspicuous place. Stickers shall be permanently and securely affixed as provided in Article II, Section 32.2 of this ordinance.

(g) Where dry cleaning service is provided through what is commonly known as "Self-Service Dry Cleaning" with the machines providing that service having constant ownership supervision, each machine so operated: $30.00.

Where two or more compartments are combined in one machine or unit, each compartment: $30.00.

SCHEDULE 010A. BURGLAR/FIRE ALARM COMPANIES (SALES, INSTALLATION, AND MONITORING).

Each person, firm, partnership or corporation engaged in the business of selling and installing, replacing, monitoring, servicing, repairing, altering, maintaining, and/or leasing, any alarm system, or causing any alarm system to be sold and installed, replaced, monitored, serviced, repaired, altered, maintained, and/or leased, in or on any building or structure shall pay a license as follows: Where gross annual business from said business from the previous year is:

Less than $5,000.00	$60.00
$5,000.00 and less than $10,000.00	$100.00
$10,000.00 and less than $15,000.00	$150.00
$15,000.00 and less than $20,000.00	$200.00
Plus an amount equal to 2/10 of one percent of gross annual business in excess of $20,000.00.	

It shall be unlawful for any person or entity engaged in the business of installing alarms to install an alarm designed to provoke police or emergency response unless such person possesses a current, valid city business license and is knowledgeable and competent to make such installation. (Ord. No. 86-266)

Effective January 1, 1998, no license will be issued to installers until applicant has obtained a State license issued by the Alabama Electronic Security Board of Licensure (Title 34, Chapter 1A, Code of Alabama 1975).

SCHEDULE 015. AUCTION SALES.

Each person, firm, partnership, association or corporation conducting or holding an auction sale of inanimate tangible personal property, whether as owner of such property or as agent or owner thereof, shall pay a license in the amount of $100.00 for each calendar three month period or fractional part thereof in which such auction sales are conducted. This schedule (015) shall not apply to auction sales conducted by or under the direction of any public authority or pursuant to any judicial order or decree specifically exempting licensure. This license is not required of any auctioneer who has been licensed and bonded under Title 34 Chapter 4.

Such auction sales must be conducted by a State-licensed auctioneer pursuant to Section 34-4-21, Code of Alabama 1975.

SCHEDULE 4545. SPECIAL SMALL VENDORS.

Each Special Small Vendor shall include curb market vendors and street vendors (except food) and each Special Small Vendor shall pay an annual license of..... $25.00*

In addition to this license, the Special Small Vendor shall remit and provide the following:

a. A letter of permission from the property owner of each location where the business activity will be conducted.

The Special Small Vendor license will be valid from the date of issuance until the end of the current calendar year (December 31), whichever comes first.

*In addition to the annual license required under this schedule, Special Small Vendors shall remit a $300.00 sales/occupational tax deposit for each event conducted during a calendar year. If the Special Small Vendor conducts business activity at multiple locations, a $300.00 sales/occupational tax deposit shall be required in addition to a business license, for each event at each location where the Special Small Vendor's business activity is conducted during a calendar year.

Sales/Occupational Tax Deposit:

From the $300.00 sales/occupational tax deposit, the City will withhold the following:

1. A sales tax of four percent (4%) of the reported sales; and

2. An occupational license tax of one percent (1%) of the gross wages paid to any employees working for the special small vendor while conducting business in the City of Birmingham (if applicable).

Special Small Vendor Report of Calendar Year Business Activity:

A Special Small Vendor may request a refund of any excess sales tax deposit by completing the top portion of the "Special Small Vendor Report of Calendar Year Business Activity" ("Special Small Vendor Report" or "Report"), which will be provided to the Special Small Vendor upon the issuance of the business license required under this schedule. To obtain the refund, this report must be fully completed and returned to the Director of Finance by the last business day of February in the calendar year following the expiration of the Special Small Vendor business license. If at the time of filing the Special Small Vendor Report, additional taxes are due to the City, the additional taxes may be remitted at the time of filing the report. Any additional taxes due that are not remitted to the City with a timely filed report will be billed and may become subject to additional penalties and interest. Any additional taxes due and remitted to the City with a report filed after the aforementioned deadline will be billed and shall become subject to additional penalties and interest.

If the Special Small Vendor Report is not submitted to the Director of Finance by the aforementioned date, the sales/occupational tax deposit shall be forfeited and no refund shall be issued.

NAICS 481. NAICS TITLE—AIR TRANSPORTATION.

Industries in the Air Transportation subsector provide air transportation of passengers and/or cargo using aircraft, such as airplanes and helicopters. The subsector distinguishes scheduled from nonscheduled air transportation. Scheduled air carriers fly regular routes on regular schedules and operate even if flights are only partially loaded. Nonscheduled carriers often operate during nonpeak time slots at busy airports. These establishments have more flexibility with respect to choice of airport, hours of operation, load factors, and similar operational characteristics. Nonscheduled carriers provide chartered air transportation of passengers, cargo, or specialty flying services. Specialty flying services establishments use general-purpose aircraft to provide a variety of specialized flying services.

SCHEDULE 315. AIR TRANSPORTATION.

Each person, firm or corporation engaged in the City of Birmingham in the business of operating air transportation of freight and passengers, one or both, to and from other points in the State of Alabama keeping an office or place of business in the City of Birmingham: $2,000.00.

Where only freight is transported: $1,000.00.

NAICS 482. NAICS TITLE—RAIL TRANSPORTATION.

Industries in the Rail Transportation subsector provide rail transportation of passengers and/or cargo using railroad rolling stock. The railroads in this subsector primarily either operate on networks, with physical facilities, labor force, and equipment spread over an extensive geographic area, or operate over a short distance on a local rail line.

Scenic and sightseeing rail transportation and street railroads, commuter rail, and rapid transit are not included in this subsector but are included in Subsector 487, Scenic and Sightseeing Transportation, and Subsector 485, Transit and Ground Passenger Transportation, respectively. Although these activities use railroad rolling stock, they are different from the activities included in rail transportation. Sightseeing and scenic railroads do not usually involve place-to-place transportation; the passenger's trip typically starts and ends at the same location. Commuter railroads operate in a manner more consistent with local and urban transit and are often part of integrated transit systems.

SCHEDULE 210. RAILROADS.

Each person, firm or corporation engaged in the City of Birmingham in the business of operating a railroad or railway trains for transportation of freight and passengers, one or both, to and from other points in the State of Alabama keeping an office or place of business in the City of Birmingham: $2,000.00.

Where only freight is transported: $1,000.00.

NAICS 483. NAICS TITLE—WATER TRANSPORTATION.

Industries in the Water Transportation subsector provide water transportation of passengers and cargo using water craft, such as ships, barges, and boats.

The subsector is composed of two industry groups: (1) one for deep sea, coastal, and Great Lakes; and (2) one for inland water transportation. This split typically reflects the difference in equipment used.

Scenic and sightseeing water transportation services are not included in this subsector but are included in subsector 487, Scenic and Sightseeing Transportation. Although these activities use water craft, they are different from the activities included in water transportation. Water sightseeing does not usually involve place-to-place transportation; the passenger's trip starts and ends at the same location.

SCHEDULE 316. WATER TRANSPORTATION.

Each person, firm, or corporation engage in water transportation shall obtain a license as follows: Where gross annual business from said business from the previous year is:

Less than $5,000.00	$60.00
$5,000.00 and less than $10,000.00	$100.00
$10,000.00 and less than $15,000.00	$150.00
$15,000.00 and less than $20,000.00	$200.00
Plus an amount equal to 2/10 of one percent of gross annual business in excess of $20,000.00.	

NAICS 484. NAICS TITLE—TRUCK TRANSPORTATION.

Industries in the Truck Transportation subsector provide over-the-road transportation of cargo using motor vehicles, such as trucks and tractor trailers. The subsector is subdivided into general freight trucking and specialized freight trucking. This distinction reflects differences in equipment used, type of load carried, scheduling, terminal, and other networking services. General freight transportation establishments handle a wide variety of general commodities, generally palletized, and transported in a container or van trailer. Specialized freight transportation is the transportation of cargo that, because of size, weight, shape, or other inherent characteristics require specialized equipment for transportation.

Each of these industry groups is further subdivided based on distance traveled. Local trucking establishments primarily carry goods within a single metropolitan area and its adjacent nonurban areas. Long distance trucking establishments carry goods between metropolitan areas.

The Specialized Freight Trucking industry group includes a separate industry for Used Household and Office Goods Moving. The household and office goods movers are separated because of the substantial network of establishments that has developed to deal with local and long-distance moving and the associated storage. In this area, the same establishment provides both local and long-distance services, while other specialized freight establishments generally limit their services to either local or long-distance hauling.

SCHEDULE 317. FREIGHT LINES/TRUCK TRANSPORTATION.

(a) Each person engaged in the business of receiving freight for transportation by motor vehicles for hire either from the City of Birmingham to another point in Alabama, or from other points in Alabama to the City of Birmingham. On each car or truck so used in said service: $60.00. On each trailer used in said service: Additional: $30.00.

The maximum license tax which may be charged under authority of this subsection (a) shall not exceed the sum of $300.00 (Section 37-3-33, Code of Alabama 1975).

When the car or truck is used in the transportation of merchandise other than baggage in passenger transportation, the applicant for license shall furnish the Director of Finance with a sworn affidavit as to whom is the owner, in whole or in part, of the car or truck for which application for license is made.

NAICS 485. NAICS TITLE—TRANSIT AND GROUND PASSENGER TRANSPORTATION.

Industries in the Transit and Ground Passenger Transportation subsector include a variety of passenger transportation activities, such as urban transit systems; chartered bus, school bus, and interurban bus transportation; and taxis. These activities are distinguished based primarily on such production process factors as vehicle types, routes, and schedules.

In this subsector, the principal splits identify scheduled transportation as separate from nonscheduled transportation. The scheduled transportation industry groups are Urban Transit Systems, Interurban and Rural Bus Transportation, and School and Employee Bus Transportation. The nonscheduled industry groups are the Charter Bus Industry and Taxi and Limousine Service. The Other Transit and Ground Passenger Transportation Industry group includes both scheduled and nonscheduled transportation.

Scenic and sightseeing ground transportation services are not included in this subsector but are included in Subsector 487, Scenic and Sightseeing Transportation. Sightseeing does not usually involve place-to-place transportation; the passenger's trip starts and ends at the same location.

SCHEDULE 045. BUS LINES, BUS COMPANIES AND FREIGHT LINES.

(a) Each person engaged in the business of receiving passengers or fright for transportation by motor vehicles for hire either from the City of Birmingham to another point in Alabama, or from other points in Alabama to the City of Birmingham, and not engaged in the business of operating passenger buses for the carrying of passengers between locations within said City of Birmingham, On each car or truck so used in said service: $60.00. On each trailer used in said service: Additional: $30.00. The maximum license tax which may be charged under authority of this subsection (a) shall not exceed the sum of $300.00 (Section 37-3-33, Code of Alabama 1975).

When the car or truck is used in the transportation of merchandise other than baggage in passenger transportation, the applicant for license shall furnish the Director of Finance with a sworn affidavit as to whom is the owner, in whole or in part, of the car or truck for which application for license is made.

(b) No person operating passenger buses for the carriage of passengers between locations within the City of Birmingham along fixed public transportation routes under franchise granted by said City shall be required to pay a license therefor under this license code for any such operating subsequent to June 30, 1970.

(c) Each person engaged in the business of operating buses for the carriage of school children to and from school and other school related functions within the City of Birmingham on each bus so used in said service: $60.00.

The maximum license tax which may be charged under authority of this subsection (c) shall not exceed the sum of $300.00 (Section 37-3-33, Code of Alabama 1975).

SCHEDULE 141. JITNEYS.

Each jitney with a seating capacity of five or less: $60.00.

Each jitney with a seating capacity of more than five: $240.00.

Plus an additional $64.00 for each seat in excess of five.

Each suburban jitney: $60.00.

No license will be issued unless and until applicant has obtained a Certificate of Public Necessity and Convenience (CPNC) pursuant to the requirements of Sections 12-16-31 and 12-16-41, General Code of the City of Birmingham, as amended and as it may be amended.

License stickers issued by the department shall be prominently displayed on any jitney operating within the City of Birmingham. It shall be unlawful to operate any jitney within the City of Birmingham without having met the requirements outlined in this section.

SCHEDULE 233. TAXICABS.

Each person, firm or corporation operating automobiles or motor vehicles commonly called and known as taxicabs (but not including jitneys and regularly established interurban bus lines), for each car so operated: $60.00.

No license will be issued until applicant has obtained a Certificate of Public Necessity and Convenience (CPNC) pursuant to the requirements of Sections 12-16-31 and 12-16-41, General Code of the City of Birmingham, as amended and as it may be amended.

License stickers issued by the department shall be prominently displayed on any taxicab or limousine operating within the City of Birmingham. It shall be unlawful to operate any taxicab or limousine within the City of Birmingham without having met the requirements outlined in this section.

SCHEDULE 247. VEHICLE IMMOBILIZATION SERVICES (BOOTING).

(a) Each and every person, firm or corporation engaged in the business of providing vehicle immobilization services shall pay a license of two-tenths of one percent of gross receipts of the preceding year with a minimum license of: $200.00.

(b) Pursuant to Ordinance No. 04-96, as it may be amended, a "vehicle immobilization service" is defined as, "A person, including a sole proprietor, independent contractor, corporation, partnership or similar business entity, offering services anywhere in the territorial limits of the City whereby vehicles are immobilized by the installation of a vehicle immobilization device."

(c) Additional requirements for vehicle immobilization services are outlined in Ordinance No. 04-96, as it may be amended, including but not limited to, requirements for insurance, registration of vehicles to be used in any vehicle immobilization service, as well as permit requirements for operators.

(d) In the event of a conflict between the provisions of this license schedule 247 and those of Ordinance No. 04-96 with respect to (i) the license fee provided for in (a) above, (ii) the due date of the license fee, provided for in Article II, Section 5.2(e) of this Business License Code, and/or (iii) the penalty amount, provided for in Article II, Section 5.3(e) of this Business License Code, the provisions of this Ordinance No. 97-183, as amended, "The Business License Code of the City of Birmingham," shall, in each case, prevail.

(e) It shall be unlawful for any operator or vehicle immobilization service to operate within the city without complying with all of the provisions of this schedule. Any operator or vehicle immobilization service dealing or engaging in two or more of

the businesses, vocations, callings or professions enumerated in Section 1, Article I of this Business License Code, and for which a license is required of each, such person shall pay for and take out a license for (i) each line of business, vocation, calling or profession, and for (ii) each separate place or location of business, as provided in Article II, Section 30 of this Business License Code.

No license shall be issued for vehicle immobilization services until and unless the applicant has been approved by the City Council and has met the requirements outlined in Ordinance No. 04-96, as it may be amended.

SCHEDULE 4853. TAXI, LIMOUSINE AND OTHER TRANSIT AND GROUND PASSENGER TRANSPORTATION DRIVER.

Each individual who primarily engages in providing passenger transportation services, as a driver of an automobile or van, or provides an array of specialty and luxury passenger transportation services via limousine or luxury sedans as a driver, generally on a reserved basis and not operated over regular routes and on regular schedules shall pay a license in the amount of..... $30.00*

Drivers obtaining this license schedule shall obtain all required permits.

The initial and annual license renewals are subject to provisions as provided in the City of Birmingham Business License Ordinance No. 97-183, as amended, Article II.

Additional License Requirements:

TNC Drivers shall be required to be in actual physical possession of the TNC Driver's current business license while providing TNC services and shall allow any passenger or law enforcement officer to examine said business license upon request.

NAICS 487. NAICS TITLE—SCENIC AND SIGHTSEEING TRANSPORTATION.

Industries in the Scenic and Sightseeing Transportation subsector utilize transportation equipment to provide recreation and entertainment. These activities have a production process distinct from passenger transportation carried out for the purpose of other types of for-hire transportation. This process does not emphasize efficient transportation; in fact, such activities often use obsolete vehicles, such as steam trains, to provide some extra ambience. The activity is local in nature, usually involving a same-day return to the point of departure.

The Scenic and Sightseeing Transportation subsector is separated into three industries based on the mode: land, water, and other.

Activities that are recreational in nature and involve participation by the customer, such as whitewater rafting, are generally excluded from this subsector,

unless they impose an impact on part of the transportation system. Charter boat fishing, for example, is included in the Scenic and Sightseeing Transportation, Water industry.

SCHEDULE 318. SCENIC AND SIGHTSEEING TRANSPORTATION.

(a) Each person engaged in the business of receiving passengers for transportation by motor vehicles for recreational activities for hire from the City of Birmingham to another point in Alabama, or activity that is local in nature. On each form transportation equipment used whether bus, car or truck so used in said service: $60.00.

No license will be issued unless and until applicant has obtained a Certificate of Public Necessity and Convenience (CPNC) pursuant to the requirements of Sections 12-16-31 and 12-16-41, General Code of the City of Birmingham, as amended and as it may be amended.

License stickers issued by the department shall be prominently displayed on any jitney operating within the City of Birmingham. It shall be unlawful to operate any jitney within the City of Birmingham without having met the requirements outlined in this section.

NAICS 492. NAICS TITLE—COURIERS AND MESSENGERS.

Industries in the Couriers and Messengers subsector provide intercity and/or local delivery of parcels. These articles can be described as those that may be handled by one person without using special equipment. This allows the collection, pick-up, and delivery operations to be done with limited labor costs and minimal equipment. Sorting and transportation activities, where necessary, are generally mechanized. The restriction to small parcels partly distinguishes these establishments from those in the transportation industries. The complete network of courier services establishments also distinguishes these transportation services from local messenger and delivery establishments in this subsector. This includes the establishments that perform intercity transportation as well as establishments that, under contract to them, perform local pick-up and delivery. Messengers, which usually deliver within a metropolitan or single urban area, may use bicycle, foot, small truck, or van.

SCHEDULE 166. MESSENGER SERVICE.

Operating as messenger service in delivering messages only: $48.00.

Where engaged in package delivery, the licensee shall pay under Schedule 170.

NAICS 493. NAICS TITLE—WAREHOUSING AND STORAGE.

Industries in the Warehousing and Storage subsector are primarily engaged in operating warehousing and storage facilities for general merchandise, refrigerated

goods, and other warehouse products. These establishments provide facilities to store goods. They do not sell the goods they handle. These establishments take responsibility for storing the goods and keeping them secure. They may also provide a range of services, often referred to as logistics services, and related to the distribution of goods. Logistics services can include labeling, breaking bulk, inventory control and management, light assembly, order entry and fulfillment, packaging, pick and pack, price marking and ticketing, and transportation arrangement. However, establishments in this industry group always provide warehousing or storage services in addition to any logistic services. Furthermore, the warehousing or storage of goods must be more than incidental to the performance of services, such as price marking. Bonded warehousing and storage services and warehouses located in free trade zones are included in the industries of this subsector.

SCHEDULE 092. DISTRIBUTION WAREHOUSE—WHOLESALE.

Each person, firm, or corporation engaged in the business of offering for sale, taking or soliciting orders for sale, or selling of merchandise of any description at wholesale, including any such products stored in its own warehouse for sale, distribution or delivery, whether as owner, dealer, agent, or consignee, such business operating from a single site distribution facility located within the City of Birmingham, shall pay a license on the gross receipts from said business from the previous year as follows:

On the first $50,000,000.00: two-tenths of one percent of gross receipts;

Plus, on next $50,000,000.00. $100,000,000.00: 2/20 of one percent of gross receipts;

Plus, on next $100,000,000.00. $250,000,000.00: 2/50 of one percent of gross receipts;

Plus, on the next $250,000,000.00 and over: 2/100 of one percent of gross receipts.

With a minimum license in any case of: $6,000.00.

Where said business engages in retail sales of merchandise of any description, a separate license must be purchased under Schedule 165 of this Business License Code.

This license schedule shall not apply to cooperative grocers associations which maintain warehouses for the purpose of distributing groceries to member retail grocery stores.

SCHEDULE 249. WAREHOUSE, INCLUDING COTTON AND FURNITURE.

(a) Each person engaged in warehousing other than cold storage warehousing, shall pay a license as follows: Where total floor space in said warehouse is 20,000 square feet or less: $180.00.

(b) Where square footage exceeds 20,000 square feet, the license shall be $180.00, plus an amount equal to 6/10 of one cent per square foot for any footage in excess of 20,000 square feet.

(c) This Schedule 249 and Schedule 250 below shall be the sole applicable and governing provisions of the License Code of the City of Birmingham under which licenses are required and license fees are imposed for a cooperative grocers association which maintains a warehouse whether cold storage or otherwise, for the purpose of distributing groceries to member retail grocery stores.

SCHEDULE 250. WAREHOUSE, COLD STORAGE.

(a) Each person engaged in cold storage warehousing shall pay a license fee as follows: Where total space in said warehouse is less than 100,000 cubic feet: $120.00.

(b) Plus, for each additional 100,000 cubic feet, or fraction part thereof, an additional license of $120.00 shall be paid.

(c) This Schedule 250 and Schedule 249 above shall be the sole applicable and governing provisions of the License Code of the City of Birmingham under which licenses are required and license fees are imposed for a cooperative grocers association which maintains a warehouse whether cold storage or otherwise, for the purpose of distributing groceries to member retail grocery stores.

SCHEDULE 4931. FUEL PIPELINE FACILITY

A facility primarily engaged in operating a pipeline facility and providing logistic services for refined petroleum products that are not owned by or titled to the refined petroleum pipeline facility shall pay an annual license of..... $5,000.00

NAICS 511. NAICS TITLE—PUBLISHING INDUSTRIES (EXCEPT INTERNET).

Industries in the Publishing Industries (except Internet) subsector group establishments engaged in the publishing of newspapers, magazines, other periodicals, and books, as well as directory and mailing list and software publishing. In general, these establishments, which are known as publishers, issue copies of works for which they usually possess copyright. Works may be in one or more formats including traditional print form, CD-ROM, or proprietary electronic networks. Publishers may publish works originally created by others for which they have obtained the rights and/or works that they have created in-house. Software publishing is included here because the activity, creation of a copyrighted product and bringing it to market, is equivalent to the creation process for other types of intellectual products.

In NAICS, publishing the reporting, writing, editing, and other processes that are required to create an edition of a newspaper is treated as a major economic activity in its own right, rather than as a subsidiary activity to a manufacturing activity, printing. Thus, publishing is classified in the Information sector; whereas, printing remains in the NAICS Manufacturing sector. In part, the NAICS classification reflects the fact that publishing increasingly takes place in establishments that are physically separate from the associated printing establishments. More crucially, the NAICS classification of book and newspaper publishing is intended to portray their roles in a modern economy, in which they do not resemble manufacturing activities.

Music publishers are not included in the Publishing Industries (except Internet) subsector, but are included in the Motion Picture and Sound Recording Industries subsector. Reproduction of prepackaged software is treated in NAICS as a manufacturing activity; on-line distribution of software products is in the Information sector, and custom design of software to client specifications is included in the Professional, Scientific, and Technical Services sector. These distinctions arise because of the different ways that software is created, reproduced, and distributed.

The Publishing Industries (except Internet) subsector does not include establishments that publish exclusively on the Internet. The Publishing Industries (except Internet) subsector also excludes products, such as manifold business forms. Information is not the essential component of these items. Establishments producing these items are included in Subsector 323, Printing and Related Support Activities.

SCHEDULE 088. DIRECTORY.

Each person or firm making, compiling, selling or offering for sale: $240.00.

SCHEDULE 174. NEWS DEALER.

Each person, firm or corporation whose principal business is the selling of magazines, periodicals, or other publications including books, whether at wholesale or retail, shall pay a license of two-tenths of one percent of the gross receipts from said business from the previous year with a minimum license of: $200.00.

Where not principal business: $24.00.

SCHEDULE 175. NEWSPAPERS—DAILY.

(Where not less than five issues made in any one week). Each person, firm or corporation issuing a daily newspaper, shall pay a license of two-tenths of one percent of the gross receipts from said business from the previous year with a minimum license of: $200.00.

Provided, however, that a separate license is to be paid on a morning and afternoon paper, although owned and controlled by the same person, firm or corporation.

In addition to the license required by this schedule, there shall be paid an additional license of $200.00 where newspapers are sold on the public streets, sidewalks or other public property where such sales are made by individuals.

SCHEDULE 176. NEWSPAPERS AND MAGAZINES.

(Other than the kind described in the subsection immediately preceding). Each person, firm or corporation issuing any kind of a general newspaper or magazine shall pay a license on the following basis: Where gross receipts from said business the previous year were:

Less than $25,000.00	$60.00
$25,000.00 and less than $60,000.00	$120.00
$60,000.00 and less than $100,000.00	$200.00
Plus an amount equal to 2/10 of one percent of all gross receipts, including advertising receipts, in excess of $100,000.00.	

In addition to the license required by this schedule, there shall be paid an additional license of $200.00 where newspapers are sold on the public streets, sidewalks or other public property where such sales are made by individuals.

SCHEDULE 177. NEWSPAPER DISTRIBUTORS.

Each person, firm or corporation engaged in the business of selling newspapers in the City of Birmingham, either at retail or wholesale, except the publisher of the newspapers sold and except newsboys or others whose sales consist only of house delivery sales, shall pay a license as follows:

Where gross annual receipts during the next preceding year were:	
Less than $10,000.00	$50.00
$10,000.00 and less than $15,000.00	$100.00
$15,000.00 and over	$150.00

There shall be no liability for the license imposed under this Schedule 177 where a license has been paid under Schedule 175 or 176 of this Code. The license levied under this Schedule 117 shall not apply to those persons whose only business is the delivering of newspapers to homes.

SCHEDULE 178. NEWSBOYS.

Each person selling newspapers on the public streets for which no privilege license is paid by the person, firm or corporation conducting such newspaper: $60.00.

NAICS 512. NAICS TITLE—MOTION PICTURE AND SOUND RECORDING INDUSTRIES.

Industries in the Motion Picture and Sound Recording Industries subsector group establishments involved in the production and distribution of motion pictures and sound recordings. While producers and distributors of motion pictures and sound

recordings issue works for sale as traditional publishers do, the processes are sufficiently different to warrant placing establishments engaged in these activities in a separate subsector. Production is typically a complex process that involves several distinct types of establishments that are engaged in activities, such as contracting with performers, creating the film or sound content, and providing technical postproduction services. Film distribution is often to exhibitors, such as theaters and broadcasters, rather than through the wholesale and retail distribution chain. When the product is in a mass-produced form, NAICS treats production and distribution as the major economic activity as it does in the Publishing Industries subsector, rather than as a subsidiary activity to the manufacture of such products.

This subsector does not include establishments primarily engaged in the wholesale distribution of videocassettes and sound recordings, such as compact discs and audio tapes; these establishments are included in the Wholesale Trade sector. Reproduction of videocassettes and sound recordings that is carried out separately from establishments engaged in production and distribution is treated in NAICS as a manufacturing activity.

SCHEDULE 171. MOVING PICTURES, THEATERS OR OPERA HOUSE.

(a) Each person engaged in conducting either one or more of the aforesaid types of business shall pay a license of one percent of the first $100,000.00 or less of gross receipts from said business in the year immediately next preceding plus ¾% of one percent on all receipts in excess of $100,000.00 from said business for the year immediately next preceding, with a minimum license of $240.00 per year in any case.

(b) Where moving pictures are shown by the use of a coin or coins in a slot, for each machine: $240.00.

NAICS 515. NAICS TITLE—BROADCASTING (EXCEPT INTERNET).

Industries in the Broadcasting (except Internet) subsector include establishments that create content or acquire the right to distribute content and subsequently broadcast the content. The industry groups (Radio and Television Broadcasting and Cable and Other Subscription Programming) are based on differences in the methods of communication and the nature of services provided. The Radio and Television Broadcasting industry group includes establishments that operate broadcasting studios and facilities for over the air or satellite delivery of radio and television programs of entertainment, news, talk, and the like. These establishments are often engaged in the production and purchase of programs and generating revenues from the sale of air time to advertisers and from donations, subsidies, and/or the sale of programs. The Cable and Other Subscription Programming industry group includes establishments operating studios and facilities for the broadcasting of programs that are typically narrowcast in nature (limited format, such as news, sports, education, and youth-oriented programming) on a subscription or fee basis.

The distribution of cable and other subscription programming is included in Subsector 517, Telecommunications. Establishments that broadcast exclusively on the Internet are included in Subsector 516, Internet Publishing and Broadcasting.

SCHEDULE 258. CABLE TELEVISION.

Each person, firm or corporation engaged in the business of providing audio, video, digital or other forms of electronic or electrical signals which are transmitted to subscribing members of the public shall pay a license in an amount equal to: $100.00.

NAICS 516. NAICS TITLE—INTERNET PUBLISHING AND BROADCASTING.

Industries in the Internet Publishing and Broadcasting subsector group establishments that publish and/or broadcast content exclusively for the Internet. The unique combination of text, audio, video, and interactive features present in informational or cultural products on the Internet justifies the separation of Internet publishers and broadcasters from more traditional publishers included in subsector 511, Publishing Industries (except Internet) and subsector 515, Broadcasting (except Internet).

SCHEDULE 257. INTERNET PUBLISHING AND BROADCASTING.

Each person, firm or corporation engaged in the business of publishing and/or broadcasting content on the internet exclusively shall pay a license in an amount of two-tenths of one percent of the gross receipts from said business from the previous year with a minimum license of: $200.00.

NAICS 517. NAICS TITLE—TELECOMMUNICATIONS.

Industries in the Telecommunications subsector include establishments providing telecommunications and the services related to that activity. The Telecommunications subsector is primarily engaged in operating, maintaining, and/or providing access to facilities for the transmission of voice, data, text, sound, and video. A transmission facility may be based on a single technology or a combination of technologies. Establishments primarily engaged as independent contractors in the maintenance and installation of broadcasting and telecommunications systems are classified in Sector 23, Construction.

SCHEDULE 234. TELEPHONE COMPANIES. EXCHANGE.

Each person, firm or corporation operating or conducting a telephone exchange or exchanges: $12,000.00.

SCHEDULE 235. TELEPHONE COMPANIES. LONG DISTANCE.

Each person, firm or corporation operating a long distance telephone or telephones, doing an intrastate business: $3,000.00.

SCHEDULE 236. TELEGRAPH COMPANIES.

Each person, firm or corporation commercially engaged in business in this City and sending messages from the City to any part of the State or from any part of the State to the City (it is not the purpose hereof to tax interstate or foreign messages or any United States business): $750.00.

NAICS 519. NAICS TITLE—OTHER INFORMATION SERVICES.

Industries in the Other Information Services subsector group establishments supplying information, storing information, providing access to information, and searching and retrieving information. The main components of the subsector are news syndicates, libraries, and archives.

SCHEDULE 085. DATA PROCESSING SERVICE.

Each person, firm, or corporation engaged in the business of a data processing service or bureau, whether principal business or not, shall pay a license in an amount equal to two-tenths of one percent of the gross receipts from said business from the previous year with a minimum license of: $100.00.

NAICS 522. NAICS TITLE—CREDIT INTERMEDIATION AND RELATED ACTIVITIES.

Industries in the Credit Intermediation and Related Activities subsector group establishments that (1) lend funds raised from depositors; (2) lend funds raised from credit market borrowing; or (3) facilitate the lending of funds or issuance of credit by engaging in such activities as mortgage and loan brokerage, clearinghouse and reserve services, and check cashing services.

SCHEDULE 162. MERCANTILE OR COMMERCIAL AGENCIES.

Each person, firm or corporation or association whose principal business is inquiring into and reporting upon the credit or standing of persons, firms or corporations: $360.00.

SCHEDULE 167. MONEY BROKER.

Each person, firm or corporation conducting or engaging in the money broker business shall pay an annual license equal to 6/8 of one percent of the gross interest or gross brokerage fees collected from said business during the year immediately preceding, with a minimum license in any case of: $600.00.

This schedule shall not apply to pawn brokers, banks or trust companies, or real estate mortgage loans.

A money broker is hereby defined to be any person, firm, corporation or association who either as principal or agent or broker does any of the following:

(1) Engages in the business of lending money other than on real estate mortgages; or

(2) Buys personal property under agreement whereby the seller is granted the right or option to repurchase, or who;

(3) Trades in or who takes or buys assignments of wages already earned by any other person or persons employed or to be employed by any other person, firm or corporation, or who;

(4) Engages in the business of lending money on wages, salaries, personal property, (other than stocks and bonds) or on endorsements or personal security where such loan is to be repaid on the installment plan, with payments to be made periodically over a period of months or years, or who;

(5) Engages in the business of buying conditional sale contracts, or purchase money notes on automobiles, or rent notes, or who;

(6) Engages in the discounting of contractors notes, any one or all of the aforementioned acts.

SCHEDULE 168. MORTGAGE LOANS.

Each person, firm or corporation either as principal or agent, engaged in the business of lending money on notes, secured by mortgage on real estate situated within the State of Alabama, an amount equal to 6/8 of one percent on the gross brokerage, commission, and fees (but not including interest participation or compensation for servicing mortgages) received during the next preceding year with a minimum license in any case of: $120.00.

SCHEDULE 189. PAWN BROKERS OR PAWN BROKER'S AGENT.

Each person, firm or corporation doing business as pawn brokers or pawn broker's agents shall pay a license of two-tenths of one percent of gross receipts with a minimum license in any case of: $900.00.

SCHEDULE 259. COMMERCIAL AND INDUSTRIAL FINANCE.

Each person, firm or corporation conducting or engaging in secured transactions only in commercial and industrial finance shall pay an annual license equal to 6/8 of one percent of the gross interest or gross brokerage collected from said business during the year immediately preceding, with a minimum license in any case of: $600.00 and a maximum license of $5,000.00.

This schedule shall not apply to pawnbrokers, banks or trust companies, or real estate mortgage loans.

A commercial and industrial finance company is hereby defined to be any person, firm, corporation or association who either as principal or agent or broker does any of the following:

Engages in the business of:

(1) Financing of the purchase of income-producing equipment and inventory exclusive of motor vehicles; or

(2) Lending money whereby a security interest is given in accounts receivable and/or specifically described personal property, other than consumer goods or motor vehicles, which security interest is perfected by filing with the appropriate authorities of the county or state, the payments of such loans to be made periodically over a period of months or years.

NAICS 523. NAICS TITLE—SECURITIES, COMMODITY CONTRACTS, AND OTHER FINANCIAL INVESTMENTS AND RELATED ACTIVITIES.

Industries in the Securities, Commodity Contracts, and Other Financial Investments and Related Activities subsector group establishments that are primarily engaged in one of the following: (1) underwriting securities issues and/or making markets for securities and commodities; (2) acting as agents (i.e., brokers) between buyers and sellers of securities and commodities; (3) providing securities and commodity exchange services; and (4) providing other services, such as managing portfolios of assets; providing investment advice; and trust, fiduciary, and custody services.

SCHEDULE 043. BROKERS OR DEALERS IN STOCKS, BONDS, SECURITIES OR COMMODITIES.

Each person, firm, partnership, corporation or other organized group engaged in the business of acting as broker or dealer in stocks, bonds or other securities, or in commodities (other than cotton), or in the business of lending money on stocks, bonds, or other securities, or on commodities (other than cotton) shall pay a license of: $480.00.

SCHEDULE 074. COTTON BUYER.

Each cotton buyer, broker, agent or branch office maintaining office and executing future contracts on any cotton exchange for the general public, which shall include the right to buy and sell spot cotton: $600.00.

Where no private or leased telegraph wires and/or tickers are maintained: $180.00.

SCHEDULE 164. MERCHANDISE BROKER OR AGENT.

(a) Each merchandise broker, or agent for the sale thereof compensated wholly on a fee or commission basis, shall pay a license computed as follows: Where gross commissions or fees for previous year were $10,000.00 or less, the minimum license fee shall be: $100.00; plus an amount equal to 6/20 of one percent on gross commissions or fees in excess of $10,000.00.

(b) A merchandise broker is one who for a commission buys or sells goods, or who negotiates such transactions between buyer and seller, without having custody of, or title, to the property.

SCHEDULE 241. TRADING STAMPS, COUPONS, ETC.

(a) Each person engaged in the business of selling, issuing, or otherwise distributing any trading stamps, coupons, certificates or other similar devices redeemable, or purporting to be redeemable, in partial or full payment for goods, wares, merchandise, services or other thing of value shall pay a license of 6/10 of one percent of the gross receipts from said business from the previous year with a minimum license of: $1,200.00.

(b) In addition to the above license there shall be paid a license on each location at which trading stamps, coupons, certificates or similar devices are redeemed for goods or services in the amount of two-tenths of one percent of the gross receipts from said business from the previous year with a minimum license of: $200.00.

The term "gross receipts" in this schedule shall mean the retail market value of goods or services so redeemed.

SCHEDULE 031A. BANK AND/OR SAVINGS AND LOAN ASSOCIATION.

Where capital, surplus, reserve and undivided profits are:

Less than $50,000	$10.00
$50,000 and less than $100,000	$20.00
$100,000 and less than $150,000	$30.00
$150,000 and less than $200,000	$40.00
$200,000 and less than $250,000	$50.00
$250,000 and less than $300,000	$60.00
$300,000 and less than $350,000	$70.00
$350,000 and less than $400,000	$80.00
$400,000 and less than $450,000	$90.00
$450,000 and less than $500,000	$100.00
$500,000 and less than $600,000	$110.00
$600,000 and over	$125.00

In addition, a license must be obtained for each branch of such association or bank of $10.00, as set forth in Code of Ala. 1975, § 11-51-130.

The term "undivided profits", as used in this section, shall be construed to mean the undivided profits as shown by the books of the operator.

The correction of the fixed license tax shall be retroactive to January 1, 2009 and apply to any registered businesses under Schedule 031A. If a business is currently registered under Schedule 031A and is delinquent due to failure to pay the appropriate business license tax, that registered business is required to pay all applicable penalties and interest on the corrected license tax with the City of Birmingham and as required by City of Birmingham Business License Code, as adopted by Ordinance 97-183, as amended. If a business paid a business license tax at the previous rates.

NAICS 524. NAICS TITLE—INSURANCE CARRIERS AND RELATED ACTIVITIES.

Industries in the Insurance Carriers and Related Activities subsector group establishments that are primarily engaged in one of the following: (1) underwriting (assuming the risk, assigning premiums, and so forth) annuities and insurance policies or (2) facilitating such underwriting by selling insurance policies, and by providing other insurance and employee-benefit related services.

SCHEDULE 001. ABSTRACT OF TITLE AND TITLE INSURANCE.

Each person, firm, or corporation making abstracts of title and providing title insurance, shall pay a license of two-tenths of one percent of the gross receipts from said business from the previous year with a minimum license of: $500.00.

Where no abstracts of title are furnished and only title insurance is provided the license shall be two-tenths of one percent of the gross receipts from said business from the previous year with a minimum license of: $200.00.

SCHEDULE 136. INSURANCE COMPANIES.

Each insurance company other than fire, marine and fraternal, shall pay a license of $50.00, plus $1.00 on each $100.00 and major fraction thereof, of gross premiums, less returned premiums on policies issued during the preceding year to citizens of the City of Birmingham, provided that in case such company shall not have conducted business for the full period of said preceding year, it shall pay, $50.00 plus one percent of that amount which bears the same relationship to the gross amount of premiums, less returned premiums on policies issued during said preceding year as 365 bears to number of days during which business was conducted in such preceding year. Companies commencing business after the first of the current license tax year shall pay $50.00, plus $1.00 on each $100.00 and major fraction thereof, of gross premiums, less returned premiums on policies issued during the said current year to citizens of the City of Birmingham. Such new companies shall pay a flat minimum license of $100.00 at the time of commencement of business upon which there shall be an adjustment at the end of the year upon the basis herein provided for new companies.

Licenses issued under this schedule and the next succeeding schedule, shall be deemed delinquent the fourth day of March, following January first of each year.

Upon demand from the Director of Finance each principal agent representing an insurance company, which company has an established office in the City of Birmingham, shall furnish the Director of Finance from time to time with a complete schedule of all subagents, together with their address, soliciting or selling insurance for said company within the City of Birmingham.

SCHEDULE 137. INSURANCE COMPANIES, FIRE OR MARINE.

(a) Each Fire or Marine Insurance Company shall pay a license of $2.50 on each $100.00 of gross premiums received during the preceding year on policies issued during said year on property located in the City of Birmingham, including renewals, provided that in case such company shall not have conducted business in the City of Birmingham during the entire period of the preceding year, it shall pay 2½ percent of that amount which bears the same relationship to the gross amount of premiums, less returned premiums, received on policies issued during the said preceding year on property located in said City as 365 bears to the number of days during such preceding year during which such company conducted business in said City. Companies commencing business after the first of the current license tax year shall pay $2.50 on each $100.00 of gross premiums, less returned premiums, received on policies issued during the said current year on property located in the City of Birmingham. Such new companies shall pay a flat minimum license of $100.00 at the time of the commencement of business upon which there shall be an adjustment at the end of the year upon the basis herein provided for such new companies.

Upon demand from the Director of Finance each principal agent representing an insurance company, which company has an established office of the City of Birmingham, shall furnish the Director of Finance from time to time with a complete schedule of all subagents, together with their address, soliciting or selling insurance for said company within the City of Birmingham.

(b) Each Fire and Marine Insurance Company, in addition to the license required by subsection (a) hereof, shall also pay an additional license tax of $1.50 on each $100.00 of gross premiums received during the preceding year on policies issued during said year on property located in the City of Birmingham, including renewals, provided that in case such company shall not have conducted business in the City of Birmingham during the entire period of the preceding year, it shall pay under the provisions of this subsection (b) 1½ percent of that amount which bears the same relationship to the gross amount of premiums, less returned premiums, received on policies issued during the said preceding year on property located in said City as 365 bears to the number of days during such preceding year during which such company conducted business in said City. Companies commencing business after the first of the current license tax year shall pay under the provisions of this subsection (b) $1.50 on each $100.00 of gross premiums, less returned premiums, received on policies issued during the said current year on property located in the City of Birmingham. Any provision of this subsection (b) to the contrary notwithstanding each Fire or Marine Insurance Company shall be entitled to a reduction in the amount of additional license tax due under this subsection (b) equal to the amount due and paid during the same year by such company to the Firemen's Pension and Relief Fund of the City of Birmingham under the provisions of Section 1477 Appendix, Volume 14, Code of Alabama, Recompiled 1958 (Section III of Act Number 307 of the 1943 Regular Session of the Legislature of Alabama).

SCHEDULE 138A. INSURANCE AGENTS.

Each person, firm or corporation engaged in the business of acting as agent for fire and marine insurance companies shall pay a license of two-tenths of one percent of the gross receipts from said business from the previous year with a minimum license in any case of: $30.00.

SCHEDULE 138B. INSURANCE ADJUSTERS.

Each person, corporation or where a firm, each member of the firm where gross receipts from services rendered within the City of Birmingham during the year next preceding are:

Less than $5,000	$60.00
$5,000 and less than $10,000	$100.00
$10,000 and less than $15,000	$150.00
$15,000 and less than $20,000	$200.00
$20,000 and less than $25,000	$250.00
$25,000 and less than $30,000	$300.00
Plus an amount equal to 4/10 of 1% of subject gross receipts in excess of $30,000.	

**Any claimed exemptions (i.e. gross receipts from work performed or services rendered outside the City) and all other claimed exemption(s) from the gross receipts calculations must be presented to the City of Birmingham Department of Finance in compliance with the provisions of Article II, Section 2.3 of this Business License Code.*

Services rendered in this schedule shall include all services that are physically performed within the City irrespective of the client's residence/location. Nothing in this section shall limit the definition of gross receipts as previously defined in City of Birmingham Ordinance 97-183, Article II, Section 1(n).

SCHEDULE 138C. INSURANCE AGENTS (AUTOMOBILE RENTAL ONLY).

Each person, firm, or corporation engaged in the business of offering or selling insurance in connection with and incidental to the rental of vehicles, as provided in Schedule 024 of this Business License Code, whether at the rental office or by preselection of coverage in a master, corporate, individual, or group rental agreement, in any of the categories listed below, shall pay a license of two-tenths of one percent of the gross receipts from said business from the previous year with a minimum license in any case of: $60.00.

(1) Personal accident insurance covering the risks of travel, including, but not limited to, accident and health insurance that provides coverage, as applicable, to renters and other rental vehicle occupants for accidental death or dismemberment and reimbursement for medical expenses resulting from an accident that occurs during the rental period.

(2) Liability insurance, including uninsured and underinsured motorist coverage whether offered separately or in combination with other liability

insurance, that provides coverage, as applicable, to renters and other authorized drivers of rental vehicles for liability arising from the operation of the rental vehicle.

(3) Personal effects insurance that provides coverage, as applicable, to renters and other vehicle occupants for the loss of, or damage to, personal effects that occurs during the rental period.

(4) Roadside assistance and emergency sickness protection programs.

(5) Any other travel or auto-related coverage that a rental company offers in connection with and incidental to the rental of vehicles.

As provided in Section 27-7-5.1 Code of Alabama 1975, no insurance may be issued by a limited licensee except subject to the conditions outlined in said section, including but not limited to, the provision that the rental period of the rental agreement shall not exceed 90 consecutive days.

NAICS 525. NAICS TITLE—FUNDS, TRUSTS, AND OTHER FINANCIAL VEHICLES.

Industries in the Funds, Trusts, and Other Financial Vehicles subsector are comprised of legal entities (i.e., funds, plans, and/or programs) organized to pool securities or other assets on behalf of shareholders or beneficiaries of employee benefit or other trust funds. The portfolios are customized to achieve specific investment characteristics, such as diversification, risk, rate of return, and price volatility. These entities earn interest, dividends, and other property income, but have little or no employment and no revenue from the sale of services. Establishments with employees devoted to the management of funds are classified in Industry Group 5239, Other Financial Investment Activities.

Establishments primarily engaged in holding the securities of (or other equity interests in) other firms are classified in Sector 55, Management of Companies and Enterprises.

SCHEDULE 319. FUNDS, TRUSTS, AND OTHER FINANCIAL VEHICLES.

Each person, firm, partnership, corporation or other organized group engaged in the business of pooling securities or other assets on behalf of shareholders or beneficiaries where interest, dividends, and other property income is earned shall pay a license of: $480.00. Plus an amount equal to two-tenths of one percent of gross revenue in excess of $100,000.00.

NAICS 531. NAICS TITLE—REAL ESTATE.

Industries in the Real Estate subsector group establishments that are primarily engaged in renting or leasing real estate to others; managing real estate for others; selling, buying, or renting real estate for others; and providing other real estate

related services, such as appraisal services. Index includes reception hall, dance hall, banquet hall rental or leasing, concert hall, conference center, meeting hall, convention center with no promotion of events, mall property operations, shopping center rental, office building, flea market space, nonresidential building (except mini-warehouse) rental and leasing. Establishments primarily engaged in subdividing and developing unimproved real estate and constructing buildings for sale are classified in Subsector 236, Construction of Buildings.

Establishments primarily engaged in subdividing and improving raw land for subsequent sale to builders are classified in Subsector 237, Heavy and Civil Engineering Construction.

Real Estate Investment Trusts (REITS) are classified in Subsector 525, Funds, Trusts, and Other Financial Vehicles, because they are considered investment vehicles.

SCHEDULE 213A. REAL ESTATE AGENTS AND/OR BROKERS.

(a) Each person, firm or corporation engaged in the business of a real estate broker shall pay an annual license amount of $50.00, plus $50.00 annually for each salesperson, finder, broker or agent employed or engaged in such licensed business other than the one licensed real estate broker in whose name such business may be conducted, whether or not such person is called a "qualifying or designated" broker. The names of all such persons engaged in any such business for which a license is required under this Schedule 213, including the licensed broker under whose name such business is conducted shall be given to the City's Finance Director and shall be shown on the license receipt before it is issued. Each owner, partner or stockholder, who engages in or assists in the conduct of such business shall be counted for the purpose of determining the amount of annual license due hereunder, except the aforesaid one licensed real estate broker, but bookkeepers, secretaries, clerical personnel, maintenance workers and other employees whose services are only incidental to conducting or transacting such business shall not be so counted.

Each person, firm or corporation engaged in the business of a real estate broker in respect to real property located within the City shall pay a license as herein set out even though the office or principal place of business may be outside the City.

For the purpose of this Schedule 213 the term "business of a real estate broker" shall mean and include any person, firm or corporation doing or engaged in a business for which a real estate broker's license is required under Chapter 27, Title 34, Code of Alabama 1975. Qualification by any person as a real estate broker under the Alabama Real Estate License Law of 1951, or as same may be amended, shall be prima facie evidence of such person's liability under this Schedule 213.

The $50.00 license hereinabove levied shall not be due for those salespersons, finders, brokers or agents for whom the tax levied under the provision of Ordinance No. 97-184 is withheld by the licensee.

(b) The license provided in Schedule 213 shall not include the doing of business as a real estate appraiser for others where fees or compensation is received for such services. Such services shall be licensed as provided by Schedule 214 of this License Code.

(c) A license issued under this Schedule shall not permit the holder of such license to rent or lease any area of less than 500 square feet for the purpose of storage or parking of motor vehicles. A license for such purpose shall be obtained under Schedule 020 of the Code.

(d) The license issued under this Schedule shall not include the renting or leasing of real property owned by the broker or for which contracted with the owner or another person, firm, or corporation, of said property including, but not limited to apartments and buildings. Such services shall be licensed as provided by Schedule 213B of this License Code "Real Estate Lease or Rental."

(e) The license issued under this Schedule shall not include the managing of real property owned by another person as prescribed and licensed under Schedule 213C "Real Estate Management."

SCHEDULE 213B. REAL ESTATE LEASE OR RENTAL; SELFSTORAGE.

(a) Each person, firm or corporation engaging in the business of renting or leasing real property, said property including but not limited to, apartment building or space, building for industry, dwelling, cottages, houses, mobile home, single-family house, town house, banquet hall, conference center, concert hall, mall property operation, motel building, office building, shopping center, theater, mini-warehouse rental, self storage units, flea market space, lot rental or other similar activity which is located within the City of shall pay a license as follows:

Where the gross rental receipts from such real property during the preceding calendar year was:	
Less than $5,000.00	$100.00
$5,000.00 and less than $10,000.00	$150.00
$10,000.00 and less than $15,000.00	$200.00
$15,000.00 and less than $20,000.00	$250.00
Plus an amount equal to 2/10 of one percent of gross annual business in excess of $20,000.00.	

SCHEDULE 213C—REAL ESTATE MANAGEMENT.

Each person, firm or corporation engaged in the business of managing real property owned by another person, said property including, but not limited to, apartments and buildings for industry, storage, business or office space; and, providing services including, but not limited to, collecting lease or rent payments, coordinating maintenance needs, and/or screening tenants, shall pay a license as follows:

Where the gross receipts from managing such real property during the preceding calendar year were:	
Less than $5,000.00	$100.00
$5,000.00 and less than $10,000.00	$150.00
$15,000.00 and less than $20,000.00	$250.00
Plus an amount equal to 2/10 of one percent of gross receipts in excess of $20,000.00.	

SCHEDULE 214. REAL ESTATE APPRAISERS.

Each person, firm or corporation engaged in the business of appraising the value of lands and buildings, or either, and receiving compensation therefore, where gross receipts* from services rendered within the City of Birmingham during the year next preceding are:

Less than $5,000	$60.00
$5,000 and less than $10,000	$100.00
$10,000 and less than $15,000	$150.00
$15,000 and less than $20,000	$200.00
$20,000 and less than $25,000	$250.00
$25,000 and less than $30,000	$300.00
Plus an amount equal to 4/10 of 1% of subject gross receipts in excess of $30,000.	

**Any claimed exemptions (i.e. gross receipts from work performed or services rendered outside the City) and all other claimed exemption(s) from the gross receipts calculations must be presented to the City of Birmingham Department of Finance in compliance with the provisions of Article II, Section 2.3 of this Business License Code.*

Services rendered in this schedule shall include all services that are physically performed within the City irrespective of the appraised land, building or property. Nothing in this section shall limit the definition of gross receipts as previously defined in City of Birmingham Ordinance 97-183, Article II, Section 1(n).

NAICS 532. NAICS TITLE—RENTAL AND LEASING SERVICES.

Industries in the Rental and Leasing Services subsector include establishments that provide a wide array of tangible goods, such as automobiles, computers, consumer goods, and industrial machinery and equipment, to customers in return for a periodic rental or lease payment.

The subsector includes two main types of establishments: (1) those that are engaged in renting consumer goods and equipment and (2) those that are engaged in leasing machinery and equipment often used for business operations. The first type typically operates from a retail-like or store-front facility and maintains inventories of goods that are rented for short periods of time. The latter type typically does not operate from retail-like locations or maintain inventories, and offers longer term

leases. These establishments work directly with clients to enable them to acquire the use of equipment on a lease basis, or they work with equipment vendors or dealers to support the marketing of equipment to their customers under lease arrangements. Equipment lessors generally structure lease contracts to meet the specialized needs of their clients and use their remarketing expertise to find other users for previously leased equipment. Establishments that provide operating and capital (i.e., finance) leases are included in this subsector.

Establishments primarily engaged in leasing in combination with providing loans are classified in Sector 52, Finance and Insurance. Establishments primarily engaged in leasing real property are classified in Subsection 531, Real Estate. Those establishments primarily engaged in renting or leasing equipment with operators are classified in various subsectors of NAICS depending on the nature of the services provided (e.g., Transportation, Construction, and Agriculture). These activities are excluded from this subsector since the client is paying for the expertise and knowledge of the equipment operator, in addition to the rental of the equipment. In many cases, such as the rental of heavy construction equipment, the operator is essential to operate the equipment. Likewise, since the provision of crop harvesting services includes both the equipment and operator, it is included in the agriculture subsector. The rental or leasing of copyrighted works is classified in Sector 51.

SCHEDULE 024. AUTOMOBILE RENTAL. DRIVE-IT-YOURSELF CARS, TRUCKS AND TRAILERS.

(a) Each person, firm or corporation engaged in the business of what is commonly known as a "Drive-it-Yourself Business," operating automobiles, trucks, and trailers, as livery or rental cars, or on any plan by which persons pay for their service or use. (Not to include jitneys, taxi-cabs, or sightseeing buses.) For long-term leasing, see Schedule 212.

1 unit and not more than 5 units	$200.00
6 units and not more than ten units	$400.00
11 units and not more than 25 units	$800.00
26 units and not more than 50 units	$1,200.00
51 units and not more than 100 units	$1,600.00
101 units and not more than 250 units	$2,000.00
251 units and over	$2,400.00

(b) Where the offering and selling of certain insurance coverages is engaged in as an adjunct to operating a business under the provisions of this schedule, a separate license shall be obtained under Schedule 138C, of this Business License Code.

SCHEDULE 212. RENTING AND/OR LEASING.

Each person, firm or corporation engaged in the business of renting and/or leasing personal property to others, including, but not limited to office equipment, office

furniture, machines, machinery, equipment, and aircraft, shall pay a license of two-tenths of one percent of the gross receipts from said business from the previous year with a minimum license in any case of: $60.00.

Any person, firm or corporation, when engaged in a business covered under another schedule of this Code where gross receipts from rental and/or leasing are included as a measure of tax and both are operated from the same location, shall not be considered as engaging in the business of renting and/or leasing.

SCHEDULE 240. TOILET OR LINEN SUPPLY COMPANY.

Each person, firm or corporation who is engaged in furnishing a toilet or linen supply service and who operates within the City of Birmingham shall pay a license for the operation of said business as follows:

Where the gross receipts from said business from the previous year were:	
Less than $50,000.00	$120.00
$50,000.00 and not more than $100,000.00	$200.00
Plus an amount equal to 6/8 of one percent of gross receipts in excess of $100,000.00.	

(Ord. No. 13-176, § 1, 12-26-2013)

NAICS 541. NAICS TITLE—PROFESSIONAL, SCIENTIFIC, AND TECHNICAL SERVICES.

Industries in the Professional, Scientific, and Technical Services subsector group establishments engaged in processes where human capital is the major input. These establishments make available the knowledge and skills of their employees, often on an assignment basis, where an individual or team is responsible for the delivery of services to the client. The individual industries of this subsector are defined on the basis of the particular expertise and training of the services provider.

The distinguishing feature of the Professional, Scientific, and Technical Services subsector is the fact that most of the industries grouped in it have production processes that are almost wholly dependent on worker skills. In most of these industries, equipment and materials are not of major importance, unlike health care, for example, where "high tech" machines and materials are important collaborating inputs to labor skills in the production of health care. Thus, the establishments classified in this subsector sell expertise. Much of the expertise requires degrees, though not in every case.

SCHEDULE 002. ADVERTISING CONTRACTORS.

Each person, firm or corporation contracting either for advertising in street cars, motor vehicles or through the use of film displays in theaters, or in moving picture

houses, or who does bill posting, sign tacking, distributing advertising matter and/or is engaged in the business of window dressing for hire, other than on regular salary, where gross annual business is:

Less than $5,000.00	$120.00
$5,000.00 and less than $10,000.00	$240.00
$10,000.00 and less than $15,000.00	$360.00
$15,000.00 and less than $20,000.00	$480.00
$20,000.00 and less than $25,000.00	$600.00
$25,000.00 and less than $30,000.00	$720.00
$30,000.00 and less than $35,000.00	$840.00
$35,000.00 and less than $40,000.00	$960.00
$40,000.00 and over	$1,080.00

SCHEDULE 003. ADVERTISING SOLICITATION.

Each person, firm or corporation who solicits within the City of Birmingham intrastate advertising to be done for persons, firms or corporations having places of business in the City of Birmingham by means of radio broadcasting or televising through radio or television stations situated in Jefferson County, Alabama, shall pay a license of: $600.00.

It is intended that no license shall be levied by this schedule upon interstate radio broadcasting, televising and/or advertising solicitation.

SCHEDULE 004. ADVERTISING VEHICLES.

Each person, firm or corporation operating a vehicle on or over any public street or sidewalk of the City of Birmingham primarily as an instrument for advertising in the aid of a business enterprise, shall first secure from the Director of Finance a permit covering the operation of such vehicle, to be paid for at the following rate:

Per vehicle, per annum	$240.00
Per vehicle, per week	$30.00
Per vehicle, per day	$6.00

The foregoing permit fees are to be paid in addition to any and every occupational license fee that may be due on the business that is being advertised.

SCHEDULE 006. ADVERTISING AGENTS.

Each person, firm or corporation engaged in contracting for advertising or conducting an advertising bureau or agency, where gross annual business is:

Less than $5,000.00	$60.00
$5,000.00 and less than $10,000.00	$120.00
$10,000.00 and less than $15,000.00	$180.00
$15,000.00 and less than $20,000.00	$240.00

$20,000.00 and over	$300.00

SCHEDULE 012. ARCHITECTS.

Each person, firm, partnership, or corporation, including any such business in which more than one person is so engaged, each person shall pay a license as follows: Where gross annual business is:

Less than $5,000.00	$60.00

$50,000.00 and less than $75,000.00	$500.00
$75,000.00 and less than $100,000.00	$600.00
$100,000.00 and less than $125,000.00	$700.00
$125,000.00 and less than $150,000.00	$800.00
$150,000.00 and less than $175,000.00	$900.00
$175,000.00 and less than $200,000.00	$1,000.00
$200,000.00 and less than $250,000.00	$1,100.00
$250,000.00 and less than $300,000.00	$1,200.00
$300,000.00 and less than $400,000.00	$1,400.00
$400,000.00 and less than $500,000.00	$1,600.00
$500,000.00 and less than $600,000.00	$1,800.00
$600,000.00 and less than $800,000.00	$2,000.00
$800,000.00 and less than $1,000,000.00	$2,400.00
$1,000,000.00 and less than $1,400,000.00	$2,800.00
$1,400,000.00 and less than $2,000,000.00	$3,600.00
$2,000,000.00 and less than $2,600,000.00	$4,400.00
$2,600,000.00 and less than $3,200,000.00	$4,800.00
$3,200,000.00 and over	$5,000.00

SCHEDULE 014. ATTORNEYS.

(a) Each person, or where a partnership (but not including associations as defined in subsection (b) herein), each member of partnership, where gross receipts* for services rendered within the City of Birmingham during the year next preceding are:

Less than $5,000	$60.00
$5,000 and less than $10,000	$100.00
$10,000 and less than $15,000	$150.00
$15,000 and less than $20,000	$200.00

$20,000 and less than $25,000	$250.00
$25,000 and less than $30,000	$300.00
Plus an amount equal to 4/10 of 1% of subject gross receipts in excess of $30,000.	

**Any claimed exemptions (i.e. gross receipts from work performed outside the City) and all other claimed exemption(s) from the gross receipts calculations must be presented to the City of Birmingham Department of Finance in compliance with the provisions of Article II, Section 2.3 of this Business License Code.*

Services rendered shall include all services that are physically performed within the City irrespective of a client's residence or the jurisdiction that litigation may be filed. Nothing in this section shall limit the definition of gross receipts as previously defined in City of Birmingham Ordinance 97-183, Article II, Section 1(n).

(b) Each professional member or associate of an unincorporated association (as defined by Title 10, Chapter 10, Code of Alabama 1975), where the gross receipts for services rendered within the City of Birmingham during the year next preceding, or a professional corporation (as defined by Title 10, Chapter 4, Article 19, Code of Alabama 1975), where the gross receipts of services rendered within the City of Birmingham during the year next preceding was:

Less than $5,000	$60.00
$5,000 and less than $10,000	$100.00
$10,000 and less than $15,000	$150.00
$15,000 and less than $20,000	$200.00
$20,000 and less than $25,000	$250.00
$25,000 and less than $30,000	$300.00
Plus an amount equal to 4/10 of 1% of gross receipts in excess of $30,000.	

The gross remuneration of such professional member or associate, for the purpose of this section, shall be computed by dividing the gross receipts* from services rendered within the City of Birmingham of such unincorporated association by the total number of professional members or associates of such unincorporated association.

**Any claimed exemptions (i.e. gross receipts from work performed outside the City) and all other claimed exemption(s) from the gross receipts calculations must be presented to the City of Birmingham Department of Finance in compliance with the provisions of Article II, Section 2.3 of this Business License Code.*

Services rendered shall include all services that are physically performed within the City irrespective of a client's residence or the jurisdiction that litigation may be filed. Nothing in this section shall limit the definition of gross receipts as previously defined in City of Birmingham Ordinance 97-183, Article II, Section 1(n).

SCHEDULE 016. AUDITORS, ACCOUNTANTS AND BOOKKEEPERS.

(a) Each person, or where a partnership (but not including associations as defined in subsection (b) herein), each member of partnership, where gross receipts* from services rendered within, the City of Birmingham during the year next preceding are:

Less than $5,000	$60.00
$5,000 and less than $10,000	$100.00
$10,000 and less than $15,000	$150.00
$15,000 and less than $20,000	$200.00
$20,000 and less than $25,000	$250.00
$25,000 and less than $30,000	$300.00
Plus an amount equal to 4/10 of 1% of subject gross receipts in excess of $30,000.	

**Any claimed exemptions (i.e. gross receipts from work performed outside the City) and all other claimed exemption(s) from the gross receipts calculations must be presented to the City of Birmingham Department of Finance in compliance with the provisions of Article II, Section 2.3 of this Business License Code.*

Services rendered shall include all services that are physically performed within the City irrespective of a client's residence. Nothing in this section shall limit the definition of gross receipts as previously defined in City of Birmingham Ordinance 97-183, Article II, Section 1(n).

(b) Each professional member or associate of an unincorporated association (as defined by Title 10, Chapter 10, Code of Alabama 1975), or a professional corporation (as defined by Title 10, Chapter 4, Article 19, Code of Alabama 1975), where the total remuneration for services rendered within the City of Birmingham during the year next preceding are:

Less than $5,000	$60.00
$5,000 and less than $10,000	$100.00
$10,000 and less than $15,000	$150.00
$15,000 and less than $20,000	$200.00
$20,000 and less than $25,000	$250.00
$25,000 and less than $30,000	$300.00
Plus an amount equal to 4/10 of 1% of gross receipts in excess of $30,000.	

The gross remuneration of such professional member or associate, for the purpose of this section, shall be computed by dividing the gross receipts* from services rendered within the City of Birmingham of such unincorporated association by the total number of professional members or associates of such unincorporated association.

**Any claimed exemptions (i.e. gross receipts from work performed outside the City) and all other claimed exemption(s) from the gross receipts calculations must be presented to the City of Birmingham Department of Finance in compliance with the provisions of Article II, Section 2.3 of this Business License Code.*

Services rendered shall include all services that are physically performed within the City irrespective of a client's residence. Nothing in this section shall limit the definition of gross receipts as previously defined in City of Birmingham Ordinance 97-183, Article II, Section 1(n).

SCHEDULE 036. BLUEPRINTS.

Each person, firm or corporation dealing in or making blueprints or developing the same from tracings or drawings, where gross annual business is:

Less than $7,500.00	$120.00
$7,500.00 and less than $10,000.00	$180.00
$10,000.00 and less than $15,000.00	$240.00
$15,000.00 and over	$300.00

SCHEDULE 053. CHEMIST AND/OR METALLURGIST.

Each person, corporation, or where a partnership, each member of the partnership, where gross receipts from services rendered within the City of Birmingham during the year next preceding are:

Less than $5,000.00	$60.00

$10,000.00 and less than $15,000.00	$150.00
$15,000.00 and less than $20,000.00	$200.00
$20,000.00 and less than $25,000.00	$250.00
$25,000.00 and less than $30,000.00	$300.00
Plus an amount equal to 6/10 of one percent of subject gross receipts in excess of $30,000.00.	

SCHEDULE 098. ENGINEERS, CIVIL, MINING, CONSTRUCTION, ELECTRICAL, ESTIMATING, CONSULTING, INDUSTRIAL RADAR, OR MECHANICAL ENGINEER OR SURVEYOR.

(a) Each person, or where a partnership [but not including associations as defined in sub-section (b) herein], each member of partnership, where gross receipts from services rendered within the City of Birmingham during the year next preceding are:

Less than $5,000	$60.00
$5,000 and less than $10,000	$100.00
$10,000 and less than $15,000	$150.00
$15,000 and less than $20,000	$200.00
$20,000 and less than $25,000	$250.00
$25,000 and less than $30,000	$300.00
Plus an amount equal to 4/10 of 1% of gross receipts in excess of $30,000.	

(b) Each professional member or associate of an unincorporated association (as defined by Title 10, Chapter 10, Code of Alabama 1975), or a professional corporation (as defined by Title 10, Chapter 4, Article 19, Code of Alabama 1975), where the total remuneration for services rendered within the City of Birmingham during the year next preceding are:

Less than $5,000	$60.00
$5,000 and less than $10,000	$100.00
$10,000 and less than $15,000	$150.00
$15,000 and less than $20,000	$200.00
$20,000 and less than $25,000	$250.00
$25,000 and less than $30,000	$300.00
Plus an amount equal to 4/10 of 1% of those subject gross receipts in excess of $30,000.	

The gross remuneration of such professional member of associate, for the purpose of this section, shall be computed by dividing the gross receipts from services rendered within the City of Birmingham of such unincorporated association by the total number of professional members or associates of such unincorporated association.

**Any claimed exemptions (i.e. gross receipts from work performed or services rendered outside the City) and all other claimed exemption(s) from the gross receipts calculations must be presented to the City of Birmingham Department of Finance in compliance with the provisions of Article II, Section 2.3 of this Business License Code.*

Services rendered in this schedule shall include all services that are physically performed within the City irrespective of the client's residence/location. Nothing in this section shall limit the definition of gross receipts as previously defined in City of Birmingham Ordinance 97-183, Article II, Section 1(n).

SCHEDULE 133. INDUSTRIAL TRAFFIC MANAGER AND RATE INFORMATION BUREAU.

Each person, firm or corporation conducting such: $200.00.

SCHEDULE 135. INSPECTOR. ENGINEER.

Each person, firm or corporation engaged in the business of inspecting steel, steel products, concrete and concrete products:

Where only 1 inspector	$60.00
2 inspectors and less than 4	$120.00
4 inspectors and less than 6	$180.00
6 inspectors and less than 10	$240.00
10 inspectors and less than 15	$300.00
15 inspectors and less than 20	$360.00

20 inspectors and less than 25	$420.00
25 inspectors and over	$480.00

SCHEDULE 197. PHOTOGRAPHERS.

Each person, firm or corporation shall pay a license of two-tenths of one percent of the gross receipts from said business from the previous year with a minimum license in any case of: $84.00. Said license to include the developing of films, and the making of pictures on post cards.

This schedule does not cover the taking of photos, other than those taken within the studio.

TRANSIENT PHOTOGRAPHERS.

Each person, firm or corporation taking pictures from house to house or on the streets and sidewalks, shall pay at the rate of $20.00 per week for each machine used, with no license to be issued for a less period of time than five consecutive weeks.

No transient photographer's license is to be issued for the purpose of operating on the streets or sidewalks, within any of the restricted fire zones of the City.

SCHEDULE 246. VETERINARY SURGEON.

(a) Each person, or where a partnership but not including associations as defined in Sub-section (b) herein, each member of partnership where gross receipts from services rendered within the City of Birmingham during the year next preceding are:

Less than $5,000	$60.00
$5,000 and less than $10,000	$100.00
$10,000 and less than $15,000	$150.00
$15,000 and less than $20,000	$200.00
$20,000 and less than $25,000	$250.00
$25,000 and less than $30,000	$300.00
Plus an amount equal to 4/10 of 1% of subject gross receipts in excess of $30,000.	

(b) Each professional member or associate of an unincorporated association (as defined by Title 10, Chapter 10, Code of Alabama 1975) or a professional corporation (as defined by Title 10, Chapter 4, Article 19, Code of Alabama 1975), where the total remuneration of services rendered within the City of Birmingham during the year next preceding are:

Less than $5,000	$60.00
$5,000 and less than $10,000	$100.00
$10,000 and less than $15,000	$150.00
$15,000 and less than $20,000	$200.00

$20,000 and less than $25,000	$250.00
$25,000 and less than $30,000	$300.00
Plus an amount equal to 4/10 of 1% of those subject gross receipts in excess of $30,000.	

The gross remuneration of such professional member or associate, for the purpose of this section, shall be computed by dividing the gross receipts from services rendered within the City of Birmingham of such unincorporated association by the total number of professional members or associates of such unincorporated association.

**Any claimed exemptions (i.e. gross receipts from work performed or services rendered outside the City) and all other claimed exemption(s) from the gross receipts calculations must be presented to the City of Birmingham Department of Finance in compliance with the provisions of Article II, Section 2.3 of this Business License Code.*

Services rendered in this schedule shall include all services that are physically performed within the City irrespective of the client's (patient's) residence. Nothing in this section shall limit the definition of gross receipts as previously defined in City of Birmingham Ordinance 97-183, Article II, Section 1(n).

SCHEDULE 017B. OUTSIDE IRRIGATION SYSTEMS.

Each person, firm, or corporation engaged in the business of selling, or installing outside irrigation systems shall pay a license of two-tenths of one percent of the gross receipts from said business from the previous year with a minimum license of: $120.00.

SCHEDULE 037. BONDS. APPEARANCE AND APPEAL.

(a) Each person engaged in the business of becoming or procuring surety for any appearance in any court (including municipal, county, state and federal courts) of persons charged with any offense, where the gross annual business is:

Less than $3,000.00	$60.00
$3,000.00 and not more than $5,000.00	$96.00
$5,000.00 and not more than $7,500.00	$144.00
$7,500.00 and over	$200.00

Any person engaged in the business of becoming or procuring surety or sureties for appearances in any court, shall pay an additional license of $40.00 on each employee other than those employed fulltime as either bookkeepers or stenographers.

(b) It shall be unlawful for any person to become surety or to offer to become surety or to procure surety or offer to procure surety for appearance in any court, as aforesaid, when such license tax is delinquent or when that statement herein required to be furnished has not been furnished. The license of any person who files

a bond in any court while such person is delinquent with respect to the tax hereby levied, or with respect to furnishing the sworn statement herein required shall be subject to revocation.

(c) Where a person becomes surety or procures surety for appearance in any court, as above described, on more than five occasions during the calendar year shall be deemed to be engaged in the bonding business.

SCHEDULE 087A. DETECTIVE AGENCY.

Each person, firm or corporation operating a detective agency, or investigation bureau: $200.00.

No license will be issued unless and until applicant can show compliance with the permit requirements outlined in Title 12, Chapter 6, General Code of the City of Birmingham, as amended and as it may be amended.

SCHEDULE 087B. PATROL, SECURITY OR GUARD SERVICE.

Each person, firm or corporation operating a private police patrol, security or guard service:

Where only 1 worker	$60.00
Where 2 and less than 4 workers	$120.00
Where 4 and less than 7 workers	$180.00
Where 7 and less than 11 workers	$250.00
Where 11 workers	$300.00
Plus $20.00 for each worker in excess of 11.	

NAICS 551. NAICS TITLE—MANAGEMENT OF COMPANIES AND ENTERPRISES.

Industries in the Management of Companies and Enterprises subsector include three main types of establishments: (1) those that hold the securities of (or other equity interests in) companies and enterprises; (2) those (except government establishments) that administer, oversee, and manage other establishments of the company or enterprise but do not hold the securities of these establishments; and (3) those that both administer, oversee, and manage other establishments of the company or enterprise and hold the securities of (or other equity interests in) these establishments. Those establishments that administer, oversee, and manage normally undertake the strategic or organizational planning and decision making role of the company or enterprise.

SCHEDULE 007B. AGENTS, DEALERS, HOLDING COMPANIES. MAINTAINING AN OFFICE.

Any person, firm, or corporation, who shall maintain, keep in repair or otherwise man any office, store, warehouse, place of business, telephone wires, telegraph wires, right-of-way, easement, land or other facility or facilities situated in the City

of Birmingham in connection with any business, vocation, occupation or profession which is not subject to a license under any other schedule of this Code, or under Schedule 007A of this license code shall pay for the protection afforded by the laws, ordinances, rules and regulations of the City of Birmingham and its agencies to such person, firm or corporation in connection with the maintaining, keeping in repair or otherwise manning any such office, store, warehouse, place of business, telephone wires, telegraph wires, right-of-way, easement, land or other facility or facilities an annual license fee or tax as follows:

Where there was employed in connection with the maintaining, keeping in repair or otherwise manning any such office, store, warehouse, place of business, telephone wires, telegraph wires, right-of-way, easement, land or other facility or facilities during the next preceding calendar year in the City of Birmingham an average daily number of:

Less than 2 persons	$60.00
2 but less than 4 persons	$120.00
4 but less than 6 persons	$180.00
6 but less than 10 persons	$240.00
10 but less than 15 persons	$300.00
15 persons	$360.00
Plus $20.00 for each person in excess of 15.	

SCHEDULE 031B. BANK HOLDING COMPANIES.

Each person, firm or corporation engaged in the business of a bank holding company where management or administrative services are performed shall pay a license of: $1,000.00.

NAICS 561. NAICS TITLE—ADMINISTRATIVE AND SUPPORT SERVICES.

Industries in the Administrative and Support Services subsector group establishments engaged in activities that support the day-to-day operations of other organizations. The processes employed in this sector (e.g., general management, personnel administration, clerical activities, cleaning activities) are often integral parts of the activities of establishments found in all sectors of the economy. The establishments classified in this subsector have specialized in one or more of these activities and can, therefore, provide services to clients in a variety of industries and, in some cases, to households. The individual industries of this subsector are defined on the basis of the particular process that they are engaged in and the particular services they provide.

Many of the activities performed in this subsector are ongoing routine support functions that all businesses and organizations must do and that they have

traditionally done for themselves. Recent trends, however, are to contract or purchase such services from businesses that specialize in such activities and can, therefore, provide the services more efficiently.

The industries in this subsector cannot be viewed as strictly "support." The Travel Arrangement and Reservation Services industry group, includes travel agents, tour operators, and providers of other travel arrangement services, such as hotel and restaurant reservations and arranging the purchase of tickets, serves many types of clients, including individual consumers. This group was placed in this subsector because the services are often of the "support" nature (e.g., travel arrangement) and businesses and other organizations are increasingly the ones purchasing such services.

The administrative and management activities performed by establishments in this sector are typically on a contract or fee basis. These activities may also be performed by establishments that are part of the company or enterprise. However, establishments involved in administering, overseeing, and managing other establishments of the company or enterprise, are classified in Sector 55, Management of Companies and Enterprises. These establishments normally undertake the strategic and organizational planning and decision making role of the company or enterprise. Government establishments engaged in administering, overseeing and managing governmental programs are classified in Sector 92, Public Administration.

SCHEDULE 079. COURT REPORTING.

Each person, firm or corporation engaged in the business of court reporting, where gross receipts from services rendered within the City of Birmingham during the year next preceding are:

Less than $5,000	$60.00
$5,000 and less than $10,000	$100.00
$10,000 and less than $15,000	$150.00
$15,000 and less than $20,000	$200.00
$20,000 and less than $25,000	$250.00
$25,000 and less than $30,000	$300.00
Plus an amount equal to 4/10 of 1% of subject gross receipts in excess of $30,000.	

**Any claimed exemptions (i.e. gross receipts from work performed or services rendered outside the City) and all other claimed exemption(s) from the gross receipts calculations must be presented to the City of Birmingham Department of Finance in compliance with the provisions of Article II, Section 2.3 of this Business License Code.*

Services rendered in this schedule shall include all services that are physically performed within the City irrespective of the client's residence/location. Nothing in this section shall limit the definition of gross receipts as previously defined in City of Birmingham Ordinance 97-183, Article II, Section 1(n).

SCHEDULE 089. DISINFECTANTS, INSECTICIDES AND/OR EXTERMINATOR.

Each person, firm or corporation shall pay a license of two-tenths of one percent of the gross receipts, less returned goods, from said business from the previous year with a minimum license of: $120.00.

No license will be issued until applicant obtains and presents at the time of application and renewal a current, valid State of Alabama Permit issued by the Alabama Department of Agriculture and Industries.

SCHEDULE 146. LABOR AGENT OR EMPLOYMENT AGENCY; TEMPORARY EMPLOYMENT SERVICES OR AGENCIES.

Each person, firm or corporation operating as a labor agent or as employment agency shall pay a license computed as follows:

Where gross fees or service charges for the year next preceding were:	
Less than $10,000.00	$400.00
Plus an amount equal to 2/10 of one percent of gross annual business in excess of $20,000.00.	

SCHEDULE 148. LANDSCAPE GARDENERS.

Each person, or where a partnership, each member of firm where gross annual business is:

Less than $3,000.00	$60.00
$3,000.00 and less than $5,000.00	$96.00
$5,000.00 and less than $7,500.00	$144.00
$7,500.00 and over	$200.00

No license will be issued until applicant obtains and presents to the Revenue Division at the time of application and renewal a current, valid State of Alabama Permit issued by the Alabama Department of Agriculture and Industries.

SCHEDULE 242. TREE PRUNING AND TREE SURGERY.

Each person, firm and corporation engaged in doing tree pruning or tree surgery:

Where only 1 worker	$60.00
Where 2 or less than 4 workers	$120.00
Where 4 or less than 6 workers	$180.00
6 workers and over	$240.00

SCHEDULE 255. JANITORIAL SERVICE.

Each person, firm or corporation engaged publicly in the business of clearing plate glass windows, janitorial service and/or house cleaning, where:

Only 1 worker	$60.00
2 workers and less than 4 workers	$120.00

4 workers and less than 6 workers	$180.00
6 workers and less than 10 workers	$240.00
10 workers and less than 15 workers	$300.00
15 workers and over	$360.00

NAICS 562. NAICS TITLE—WASTE MANAGEMENT AND REMEDIATION SERVICES.

Industries in the Waste Management and Remediation Services subsector group establishments engaged in the collection, treatment, and disposal of waste materials. This includes establishments engaged in local hauling of waste materials; operating materials recovery facilities (i.e., those that sort recyclable materials from the trash stream); providing remediation services (i.e., those that provide for the cleanup of contaminated buildings, mine sites, soil, or groundwater); and providing septic pumping and other miscellaneous waste management services. There are three industry groups within the subsector that separate these activities into waste collection, waste treatment and disposal, and remediation and other waste management.

Excluded from this subsector are establishments primarily engaged in collecting, treating, and disposing waste through sewer systems or sewage treatment facilities that are classified in Industry 22132. Also, there are some activities that appear to be related to waste management, but that are not included in this subsector. For example, establishments primarily engaged in providing waste management consulting services are classified in Industry 54162, Environmental Consulting Services.

SCHEDULE 211. SOLID WASTE FACILITIES, TRANSFER OR RECYCLING FACILITY.

Each person, firm or corporation approved by permit to operate and/or construct a commercial nonhazardous solid waste management facility or commercial hazardous waste management facility for the purpose of receiving, for treatment, utilization, recycling, processing, transporting, or disposal of solid waste shall pay a license where gross annual business from the previous year is:

Less than $5,000.00	$60.00
$5,000.00 and less than $10,000.00	$100.00
$10,000.00 and less than $15,000.00	$150.00
$15,000.00 and less than $20,000.00	$200.00
Plus an amount equal to 2/10 of one percent of annual business in excess of $20,000.00.	

It shall be unlawful for any person to operate any commercial solid waste facility or transfer station, to change or expand the location or use of any existing facility without first having obtained approval therefor from the City Council in accordance with the provisions of Ordinance No. 93-221.

No license issued under this article shall be transferred or assigned or used by any other person than the one to whom it was issued and no solid waste facility license shall be used at any location other than the one described in the application upon which it was issued.

NAICS 611. NAICS TITLE—EDUCATIONAL SERVICES.

Industries in the Educational Services subsector provide instruction and training in a wide variety of subjects. The instruction and training is provided by specialized establishments, such as schools, colleges, universities, and training centers.

The subsector is structured according to level and type of educational services. Elementary and secondary schools, junior colleges and colleges, universities, and professional schools correspond to a recognized series of formal levels of education designated by diplomas, associate degrees (including equivalent certificates), and degrees. The remaining industry groups are based more on the type of instruction or training offered and the levels are not always as formally defined. The establishments are often highly specialized, many offering instruction in a very limited subject matter, for example ski lessons or one specific computer software package. Within the sector, the level and types of training that are required of the instructors and teachers vary depending on the industry.

Establishments that manage schools and other educational establishments on a contractual basis are classified in this subsector if they both manage the operation and provide the operating staff. Such establishments are classified in the educational services subsector based on the type of facility managed and operated.

SCHEDULE 026. AVIATION SCHOOLS.

Each person conducting a school wherein instruction and training is given for navigating and/or flying airplanes shall pay a license of two percent of the gross receipts from said business from the previous year with a minimum of: $200.00.

SCHEDULE 221. SCHOOL, BEAUTY.

Each person, firm or corporation engaged in the business of operating a beauty school, where gross annual receipts from said business from the previous year were:

Less than $7,500.00	$60.00
$7,500.00 and less than $12,500.00	$100.00
$12,500.00 and less than $20,000.00	$150.00
Plus an amount equal to 6/8 of one percent of all gross annual receipts in excess of $20,000.00.	

Where merchandise and/or beauty supplies or products are sold in connection with said business, an additional license shall be required pursuant to Schedule 165 of this Business License Code.

SCHEDULE 222. SCHOOL.

Each person, firm or corporation conducting a school as a business other than aviation school and beauty school provided for by Schedule 026 and Schedule 221, respectively of this Code, shall pay a license as follows:

Where the gross receipts from said business from the previous year were:	
Less than $10,000.00	$50.00
$10,000.00 and less than $25,000.00	$80.00
$25,000.00 and less than $60,000.00	$120.00
$60,000.00 and less than $80,000.00	$160.00
$80,000.00 and less than $100,000.00	$200.00
Plus an amount equal to 2/10 of one percent of gross receipts in excess of $100,000.00.	

NAICS 621. NAICS TITLE—AMBULATORY HEALTH CARE SERVICES.

Industries in the Ambulatory Health Care Services subsector provide health care services directly or indirectly to ambulatory patients and do not usually provide inpatient services. Health practitioners in this subsector provide outpatient services, with the facilities and equipment not usually being the most significant part of the production process.

SCHEDULE 186. OPTOMETRIST.

Each person, firm, corporation, association, or where a partnership, each member of partnership, where gross receipts* from services rendered within the City of Birmingham during the year next preceding:

Less than $5,000	$60.00
$5,000 and less than $10,000	$100.00
$10,000 and less than $15,000	$150.00
$15,000 and less than $20,000	$200.00
$20,000 and less than $25,000	$250.00
$25,000 and less than $30,000	$300.00
Plus an amount equal to 4/10 of 1% of subject gross receipts in excess of $30,000.	

This license is not to include the business of manufacturing and/or grinding lenses or the selling of merchandise other than manufacturing, grinding of lenses or the selling or furnishing of merchandise by an optometrist in the exercise of his practice as an optometrist.

**Any claimed exemptions (i.e. gross receipts from work performed outside the City) and all other claimed exemption(s) from the gross receipts calculations must be presented to the City of Birmingham Department of Finance in compliance with the provisions of Article II, Section 2.3 of this Business License Code.*

Services rendered shall include all services that are physically performed within the City irrespective of a client's residence. Nothing in this section shall limit the definition of gross receipts as previously defined in City of Birmingham Ordinance 97-183, Article II, Section 1(n).

SCHEDULE 198. PHYSICIANS, SURGEONS, DENTISTS, PSYCHOLOGISTS, PSYCHIATRISTS, OSTEOPATHS, CHIROPRACTORS OR CHIROPODISTS.

(a) Each person, firm or corporation, or where a partnership, [but not including associations as defined in subdivision (b) herein], each member thereof, where gross receipts from professional services rendered or provided within the City of Birmingham during the year next preceding are:

Less than $5,000	$60.00
$5,000 and less than $10,000	$100.00
$10,000 and less than $15,000	$150.00
$15,000 and less than $20,000	$200.00
$20,000 and less than $25,000	$250.00
$25,000 and less than $30,000	$300.00
Plus an amount equal to 4/10 of 1% of those subject gross receipts in excess of $30,000.00.	

(b) Each professional member or associate of an unincorporated association (as defined by Title 10, Chapter 10, Code of Alabama 1975), or a professional corporation (as defined by Title 10, Chapter 4, Article 19, Code of Alabama 1975), where the gross receipts for services rendered within the City of Birmingham during the year next preceding are:

Less than $5,000	$60.00
$5,000 and less than $10,000	$100.00
$10,000 and less than $15,000	$150.00
$15,000 and less than $20,000	$200.00
$20,000 and less than $25,000	$250.00
$25,000 and less than $30,000	$300.00
Plus an amount equal to 4/10 of 1% of those subject gross receipts in excess of $30,000.00.*	

The gross receipts of such professional member or associate, for the purpose of this section shall be computed by dividing the gross receipts from services rendered within the City of Birmingham of such unincorporated association by the total number of professional members or associates of such unincorporated association.

**Any claimed exemptions (i.e. gross receipts from work performed outside the City) and all other claimed exemption(s) from the gross receipts calculations must be presented to the City of Birmingham Department of Finance in compliance with the provisions of Article II, Section 2.3 of this Business License Code.*

Services rendered in this schedule shall include all services that are physically performed within the City irrespective of a client's residence. Nothing in this section shall limit the definition of gross receipts as previously defined in City of Birmingham Ordinance No. 97-183, Article II, Section 1(n).

SCHEDULE 320. SPEECH THERAPISTS, AUDIOLOGISTS, MENTAL HEALTH PRACTITIONERS, FAMILY PLANNING CENTERS, OUTPATIENT MENTAL HEALTH, HMO MEDICAL CENTERS, SUBSTANCE ABUSE CENTERS, KIDNEY DIALYSIS CENTERS, MEDICAL AND DIAGNOSTIC LABS, DIAGNOSTIC IMAGING CENTERS OR HOME HEALTH CARE SERVICES.

Each person, firm or corporation primarily engaged in diagnosis and treatment, operating private or group practices, administering medically prescribed treatment where gross receipts from services rendered within the City of Birmingham during the year next preceding are:

Less than $5,000	$60.00
$5,000 and less than $10,000	$100.00
$10,000 and less than $15,000	$150.00
$15,000 and less than $20,000	$200.00
$20,000 and less than $25,000	$250.00
$25,000 and less than $30,000	$300.00
Plus an amount equal to 4/10 of 1% of subject gross receipts in excess of $30,000.00.	

**Any claimed exemptions (i.e. gross receipts from work performed or services rendered outside the City) and all other claimed exemption(s) from the gross receipts calculations must be presented to the City of Birmingham Department of Finance in compliance with the provisions of Article II, Section 2.3 of this Business License Code.*

Services rendered in this schedule shall include all services that are physically performed within the City irrespective of the client's (patient's) residence. Nothing in this section shall limit the definition of gross receipts as previously defined in City of Birmingham Ordinance 97-183, Article II, Section 1(n).

SCHEDULE 493. FREESTANDING AMBULATORY SURGICAL AND EMERGENCY CENTERS.

Each person, firm or corporation with physicians and other medical staff primarily engaged in (1) providing surgical services (e.g., orthoscopic and cataract surgery) on an outpatient basis or (2) providing emergency care services (e.g., setting broken bones, treating lacerations, or tending to patients suffering injuries as a result of accidents, trauma, or medical conditions necessitating immediate medical care) on an outpatient basis. Outpatient surgical establishments have specialized facilities, such as operating and recovery rooms, and specialized equipment, such as anesthetic or X-ray equipment. Gross receipts from the above services rendered within the City of Birmingham during the preceding year are:

Less than $5,000.00	$60.00
$5,000.00 and less than $10,000.00	$100.00

$10,000.00 and less than $15,000.00	$150.00
$15,000.00 and less than $20,000.00	$200.00
$20,000.00 and less than $25,000.00	$250.00
$25,000.00 and less than $30,000.00	$300.00
Plus an amount equal to 8/10 of one percent of subject gross receipts in excess of $30,000.00.	

SCHEDULE 498. ALL OTHER OUTPATIENT CARE CENTERS.

(a) Each person, firm or corporation with medical staff primarily engaged in providing general or specialized outpatient care (except family planning centers, outpatient mental health and substance abuse centers, HMO medical centers, kidney dialysis centers, and freestanding ambulatory surgical and emergency centers) and centers or clinics of health practitioners with different degrees from more than one industry practicing within the same establishment (i.e., Doctor of Medicine and Doctor of Dental Medicine) where gross receipts from services rendered within the City of Birmingham during the year next preceding are:

Less than $5,000.00	$60.00
$5,000.00 and less than $10,000.00	$100.00
$10,000.00 and less than $15,000.00	$150.00
$15,000.00 and less than $20,000.00	$200.00
$20,000.00 and less than $25,000.00	$250.00
$25,000.00 and less than $30,000.00	$300.00
Plus an amount equal to 3/10 of one percent of subject gross receipts in excess of $30,000.00.	

NAICS 622. NAICS TITLE—HOSPITALS.

Industries in the Hospitals subsector provide medical, diagnostic, and treatment services that include physician, nursing, and other health services to inpatients and the specialized accommodation services required by inpatients. Hospitals may also provide outpatient services as a secondary activity. Establishments in the Hospitals

subsector provide inpatient health services, many of which can only be provided using the specialized facilities and equipment that form a significant and integral part of the production process.

SCHEDULE 134. HOSPITALS.

Where:

Less than 20 rooms	$120.00
20 rooms and less than 35 rooms	$180.00
35 rooms and less than 50 rooms	$240.00
50 rooms and less than 75 rooms	$360.00
75 rooms and less than 100 rooms	$480.00
100 rooms and over	$600.00

All rooms, whether as wards for patients or bedrooms for others, to be liable for said license.

NAICS 623. NAICS TITLE—NURSING AND RESIDENTIAL CARE FACILITIES.

Industries in the Nursing and Residential Care Facilities subsector provide residential care combined with either nursing, supervisory, or other types of care as required by the residents. In this subsector, the facilities are a significant part of the production process and the care provided is a mix of health and social services with the health services being largely some level of nursing services.

SCHEDULE 321. INFIRMARIES, SANITARIUMS AND/OR SANATORIUMS.

Where:

Less than 20 rooms	$120.00
20 rooms and less than 35 rooms	$180.00
35 rooms and less than 50 rooms	$240.00
50 rooms and less than 75 rooms	$360.00
75 rooms and less than 100 rooms	$480.00
100 rooms and over	$600.00

All rooms, whether as wards for patients or bedrooms for others, to be liable for said license.

NAICS 624. NAICS TITLE—SOCIAL ASSISTANCE.

Industries in the Social Assistance subsector provide a wide variety of social assistance services directly to their clients. These services do not include residential or accommodation services, except on a short stay basis.

SCHEDULE 322. SOCIAL ASSISTANCE.

Each person, firm, or corporation who as principal, agent or in any other capacity shall engage in or transact any trade, business, commerce, occupation, vocation or profession relating to social assistance that have not specifically exempted by and Act of the Legislature from paying any municipal gross receipts taxes and municipal business license taxes shall pay a license as follows:

Where gross annual business from said business from the previous year is:	
Less than $5,000.00	$60.00
$5,000.00 and less than $10,000.00	$100.00
$10,000.00 and less than $15,000.00	$150.00
$15,000.00 and less than $20,000.00	$200.00
Plus an amount equal to 2/10 of one percent of gross annual business in excess of $20,000.00.	

NAICS 711. NAICS TITLE—PERFORMING ARTS, SPECTATOR SPORTS, AND RELATED INDUSTRIES.

Industries in the Performing Arts, Spectator Sports, and Related Industries subsector group establishments that produce or organize and promote live presentations involving the performances of actors and actresses, singers, dancers, musical groups and artists, athletes, and other entertainers, including independent (i.e., freelance) entertainers and the establishments that manage their careers. The classification recognizes four basic processes: (1) producing (i.e., presenting) events; (2) organizing, managing, and/or promoting events; (3) managing and representing entertainers; and (4) providing the artistic, creative and technical skills necessary to the production of these live events. Also, this subsector contains four industries for performing arts companies. Each is defined on the basis of the particular skills of the entertainers involved in the presentations.

The industry structure for this subsector makes a clear distinction between performing arts companies and performing artists (i.e., independent or freelance). Although not unique to arts and entertainment, freelancing is a particularly important phenomenon in this Performing Arts, Spectator Sports, and Related Industries subsector. Distinguishing this activity from the production activity is a meaningful process differentiation. This approach, however, is difficult to implement in the case of musical groups (i.e., companies) and artists, especially pop groups. These establishments tend to be more loosely organized and it can be difficult to distinguish companies from freelancers. For this reason, NAICS includes one industry that covers both musical groups and musical artists.

This subsector contains two industries for Industry Group 7113, Promoters of Performing Arts, Sports, and Similar Events, one for those that operate facilities and another for those that do not. This is because there are significant differences in cost structures between those promoters that manage and provide the staff to operate facilities and those that do not. In addition to promoters without facilities, other

industries in this subsector include establishments that may operate without permanent facilities. These types of establishments include: performing arts companies, musical groups and artists, spectator sports, and independent (i.e., freelance) artists, writers, and performers. Excluded from this subsector are nightclubs. Some nightclubs promote live entertainment on a regular basis and it can be argued that they could be classified in Industry Group 7113, Promoters of Performing Arts, Sports, and Similar Events. However, since most of these establishments function as any other drinking place when they do not promote entertainment and because most of their revenue is derived from sale of food and beverages, they are classified in Subsector 722, Food Services and Drinking Places.

SCHEDULE 056. CIRCUS.

Each person operating a circus shall pay a license fee of: $1,200.00.

This license tax includes the tax for a menagerie accompanying the circus.

No license will be issued until applicant has obtained a Mayor's Permit.

SCHEDULE 066. CONCERTS, SHOWS, DEBATES, AMUSEMENT AND ENTERTAINMENTS

Each person, firm or corporation engaged in the business of promoting, producing or presenting concerts, debates, musical shows, public lecture, amusement or entertainment other than provided in Schedule 034 of this Code, to which the public is invited and for which an admission fee is charged or a collection taken shall pay for each performance, production or presentation an amount of $200.00.

A sales tax deposit may be required.

There shall be no liability for the license hereby imposed, if the concert, debate, musical show, amusement or entertainment is promoted, produced or presented at or in place of business for which the license levied by Schedule 171(a) of the License Code has been secured and is in effect.

This license tax shall not be charged for any lecture course given as part of the course of instruction in any educational institution, or for exhibits held under the auspices of religious or charitable associations.

SCHEDULE 741. TRANSIENT DEALERS.

The following is hereby declared to be the schedule of licenses for Transient Dealers for the calendar year commencing January 1, 2008, and for each subsequent year thereafter, for businesses who shall engage in the Transient Dealer business in or carried on in the City of Birmingham in said calendar year, and each and every firm,

company or corporation engaged in any such business enumerated herein, in said calendar year shall pay and take out such licenses in such sums as are herein provided:

All transient dealers as hereinafter defined by paragraph (a) shall pay a license based on the following schedule:

If anticipated sales are:	
$10,000.00 or less	$200.00
More than $10,000.00 but less than $25,000.00	$400.00
More than $25,000.00 but less than $50,000.00	$600.00
More than $50,000.00 but less than $100,000.00	$800.00
Over $100,000.00	$1,000.00
Plus 2/10 of one percent of gross receipts, less returns, over $100,000.00.	

No proration of the amount thereof will be granted because said party does not continue in business the specified time stated in the application.

It shall be unlawful for any transient dealer, itinerant merchant or promoter to engage in any business activities (as hereinafter defined) within the City unless licensed to do so as herein provided. Any transient dealer who fails or refuses to obtain the license required by this section prior to engaging in business activities within the City shall be subject to the assessment of the penalties outlined in subsection (g)(6) of this section, in addition to the applicable remedies outlined in Article II of this ordinance.

(a) *Definitions.*

(1) The term "transient dealers," for the purpose of this section, shall mean and include all persons, partnerships, associations, corporations, or any other type of business, both principals and agents, whether a resident of the City of Birmingham or not, who engage or conduct in this City either in one locality or in traveling from place to place, temporary shows (including but not limited to, trade shows, festivals, fairs, arts and crafts shows, home shows, boat shows), temporary/seasonal business (a temporary business that does not intend to establish a permanent location such as temporary kiosks in malls, Christmas, summertime vendors, etc.), temporary or transient business of selling, or soliciting orders for the sale of, goods, wares, or merchandise with the intention of continuing in said business in said City for a period of not more than 180 days, and who rent, lease, use, occupy, either in whole or in part, for the purpose of carrying on such business use, any room (including public rooms or space in hotels or motels), building, area within the Birmingham-Jefferson Civic Center or other public or privately-owned building, any lot or parcel of land, any motor vehicle including trucks and semi-trailers, tent, booth, stand or other approved structures within the City, for the exhibition and sale of such goods, wares and merchandise.

(2) [The term] "temporary vending" from a shopping mall location, or from a public building, such as a motel or civic center, constitutes transient vendor activity and, therefore, requires full compliance with the provisions of this ordinance. Any business transient in nature desiring a permanent license in said City for a period of more than 180 days must be continually operating for the full term of 180 days before a permanent license will be issued in locations described under the transient ordinance requirements. Such transient license will be converted to a permanent or regular license based on actual revenue produced during the 180 day transient license period.

(3) The [term] "promoter," "sponsor" or other person, group of persons, association, partnership, firm or corporation organizing a convention, show, or sale which convention, show or sale includes ten or more transient and local vendors or exhibitors, who offers to any vendor, directly or indirectly, sales areas within a multiple-vendor area location for the purpose of using such area during the term of the multiple-vendors license for the purpose of selling, bartering, exchanging, trading, or displaying goods or services, shall pay a license based on the above schedule. Sales for the purpose of this subsection shall include all sales of all vendors included in the convention, show or sale, but may exclude sales made by participants who have a current, applicable City of Birmingham business license. At the time of applying for a license pursuant to this ordinance, the promoter shall submit a list of vendors participating at the event for which the license is sought; such list shall include the vendor's name, address, and business phone number, together with a general description of the goods and/or services offered by each vendor.

(b) *Tax collection and reporting responsibility.* It is the responsibility of the promoter/sponsor to insure [ensure] that all taxes are collected from all vendors. Upon collection, the taxpayer must remit the tax to the City at which time the sales tax deposit will be returned. The Director of Finance shall have authority to set reasonable regulations and to set reasonable application and reporting requirements to aid in the collection of all license fees and other taxes.

(c) *Exemption provisions.*

(1) The provisions of this schedule shall not apply to sales of food or agricultural produce, peddlers, or sales of novelties otherwise licensed under this Code and where stock or anticipated sales are valued or anticipated at $2,000.00 or less or to sales made to dealers by commercial travelers or selling agents in the usual course of business, nor to bona fide sales of goods, wares, or merchandise for future delivery in interstate commerce, where either no measurements or design specifications are made or prepared in the City, or where no payment or deposit is collected in the City as a condition for the placement of orders, or where no license may be collected in the City as a

condition for the placement of orders, or where no license may be collected under the provisions of the Constitution or laws of the United States, nor to any sales or goods, wares or merchandise on the grounds of any agricultural society during the continuance of any annual fair held by such society, nor any sales by societies acting for charities, religious or public purpose.

(2) Conventions or religious, civic, charitable or benevolent groups, non-profit trade associations, and cultural events shall be exempt from this schedule (and vendors participating therein) if such convention, show, or cultural events has anticipated sales of $25,000.00 or less, and the total number of participating vendors is less than ten. Transient vendors participating in a convention, show or sale shall not be required to have separate licenses if the promoter or sponsor of the convention, show, or sale has obtained a license therefor, pursuant to the requirements of this section. The Director of Finance shall have authority to set reasonable regulations and to set reasonable application and reporting requirements to aid in the collection of all license fees and other taxes.

(d) *Application.* At least seven days prior to holding of such sale or solicitation, every such transient dealer shall furnish to the Finance Director a verified license application setting forth the following:

(1) Name and address of the applicant and also the name of the true owner if the applicant is not such true owner of the goods, wares or merchandise to be sold;

(2) Name, location and time of the proposed sale or solicitation;

(3) General description of the type of goods, wares or merchandise, on hand and on order, which the applicant intends to offer for sale;

(4) A statement of the amount of gross receipts realized from each sale conducted in the City of Birmingham by applicant, and the date(s) thereof, if such sale was within the preceding five years;

(5) A valid driver's license or other photo identification, issued by a state, from the owner, major sponsor or promoter of the sales event;

(6) Corporations must provide the address of any permanent place of business in the State of Alabama, or, if there is no permanent place of business in the State of Alabama, a copy of a Certificate of Existence issued by the Secretary of the State of Alabama evidencing the fact that the dealer has qualified to do business in Alabama and the name and address of its agent for the service of process in the state;

(7) Such other information as the Director of Finance may prescribe.

(e) *Deposits and bond.*

(1) *First time transient vendors only:* First time transient vendors shall provide the City with a Deposit OR Bond as provided herein.

Applicants providing a bond for a first time transient dealer's license shall be required to provide a bond in an amount equal to four percent (4%) of anticipated sales, or a minimum of $5,000.00, whichever is greater. A bond shall be with a surety company authorized to do business in the State of Alabama, and shall be payable to the City of Birmingham to the extent that any taxes or fines as determined by the Director of Finance of the City to be due are not paid. Upon judicial determination, to those authorized to file suit thereunder, shall be conditioned upon faithful observance of all the conditions of this section, and the payment of city license, sales, use, income or occupational license taxes due or to be withheld and paid by the licensee hereunder, and shall indemnify any purchaser at such sale who suffers any loss by reason of defective merchandise or any misrepresentation in said sale. Said bond shall also provide that the City of Birmingham may file suit in their own name against the licensee and/or the surety on said bond for any taxes, fees or fines due from the licensee which are not paid within 30 days of the termination of the sale and that any purchaser at such sale may maintain an action against the licensee and/or said surety for claims arising from such sale. This bond shall also provide that it shall continue in effect for one year after the termination of the sale for which it is made and until all actions are concluded and the judgment or judgments, if any, have been paid and fully satisfied, or the amount of bond exhausted by such payments. This bond shall be in addition to all deposits required under other ordinances of the City, including but not limited to the sales and use tax ordinances.

Sales Tax Deposit: First time transient dealer applicants providing a sales tax deposit in lieu of a bond for a first time transient dealer's license shall provide a Sales tax deposit by cash, check or certified funds in an amount equal to $400.00 or four percent (4%) of anticipated sales, whichever is greater. The funds shall be deposited upon receipt. Upon the receipt of a fully completed "Transient Dealer Settlement Report", any refunds, determined by the City to be due to the transient dealer, will be processed and made by the Director of Finance within ten (10) days.

Occupational Tax Deposit: An occupational tax deposit of $50.00 or 1% of anticipated wages, salaries, or compensation paid to employees, temporary workers, etc. may be required.

(2) *Returning transient vendors only:* Returning transient vendors shall provide the City with a Deposit OR Bond as provided herein.

Bond: Applicants returning as a transient dealer shall purchase a transient dealer license and shall be required to provide a bond in an amount equal to

four percent (4%) of previous event sales, or a minimum of $5,000.00, whichever is greater. A bond shall be with a surety company authorized to do business in the State of Alabama, and shall be payable to the City of Birmingham to the extent that any taxes or fines as determined by the Director of Finance of the City to be due are not paid. Upon judicial determination, to those authorized to file suit thereunder, shall be conditioned upon faithful observance of all the conditions of this section, and the payment of city license, sales, use, income or occupational license taxes due or to be withheld and paid by the licensee hereunder, and shall indemnify any purchaser at such sale who suffers any loss by reason of defective merchandise or any misrepresentation in said sale. Said bond shall also provide that the City of Birmingham may file suit in their own name against the licensee and/or the surety on said bond for any taxes, fees or fines due from the licensee which are not paid within 30 days of the termination of the sale and that any purchaser at such sale may maintain an action against the licensee and/or said surety for claims arising from such sale. This bond shall also provide that it shall continue in effect for one year after the termination of the sale for which it is made and until all actions are concluded and the judgment or judgments, if any, have been paid and fully satisfied, or the amount of bond exhausted by such payments. This bond shall be in addition to all deposits required under other ordinances of the City, including but not limited to the sales and use tax ordinances.

Sales Tax Deposit: Returning Transient dealer applicants providing a sales tax deposit in lieu of a bond for a transient dealer's license shall provide a Sales tax deposit by cash, check or certified funds in an amount equal to $400.00 or four percent (4%) of any previous event sales, whichever is greater. The funds shall be deposited upon receipt. Upon the receipt of a fully completed "Transient Dealer Settlement Report", any refunds, determined by the City to be due to the transient dealer, will be processed and made by the Director of Finance within ten (10) days.

Occupational Tax Deposit: An occupational tax deposit of $50.00 or 1% of anticipated wages, salaries, or compensation paid to employees, temporary workers, etc. may be required.

(f) *Reports of sales.* All transient dealers shall make a verified report of sales, as required by City Ordinance [No.] 97-185. Such return shall be due within seven days of the close of business. Any transient dealer under an obligation to file the return herein provided who fails or refuses to file the return and/or to pay the tax, or to obtain the license required by this subsection within the time specified herein shall be assessed interest and/or penalties as provided in subsection (g) of this section.

(g) *Interest and penalties.* In addition the provisions for interest and penalties contained in this section, additional requirements are outlined in Section 13 of the applicable tax ordinances.

(1) *Failure To Timely File The Returns Required By This Section.* If a taxpayer fails, neglects, or refuses to file any return required to be filed with the department on or before the date prescribed therefor, determined with regard to any extension of time for filing granted by the Director of Finance, there shall be assessed, in addition to the tax due or the amount of tax herein required to be collected, a penalty of ten percent of the amount due or $50.00, whichever is greater, together with interest thereon at the rate of one percent per month, or fraction thereof, from the date at which the tax herein levied became due and payable, such penalty and interest to be assessed and collected as part of the tax.

(2) *Failure To Timely Pay Tax Required by This Section.* If a taxpayer fails, neglects, or refuses to pay to the department the amount of tax shown as due on a return required to be filed on or before the date prescribed for payment of the tax, determined with regard to any extension of time for payment granted by the Director of Finance, there shall be added, in addition to the tax due or the amount of tax herein required to be remitted; or for any tax for which a return is required, a penalty of ten percent of the unpaid amount shown as tax due on the return or the amount stated in the notice and demand, together with interest thereon at the rate of one percent per month or fraction thereof, from the date at which the tax became due and payable.

(3) *Penalty And Interest Assessed As Tax.* All penalties and interest, levied or assessed against a taxpayer and which are administered by the department shall be assessed and collected in the same manner as taxes.

(4) *Interest.* Interest shall be computed at rate of one percent per month or fraction thereof, and shall be added as provided herein to any tax or other amount due the department which is not paid by the due date. Interest on any delinquency or underpayment shall be charged from the due date of the tax.

(5) *Penalties Not Exclusive.* The penalties provided in this section for failure to timely file a return and failure to timely pay tax, as well as the penalties outlined in Section 13 of the applicable tax ordinances, may be asserted against the same taxpayer for the same tax period.

(6) *Penalty for Failure to Obtain the License Required by This Section.* If a taxpayer fails, neglects, or refuses to obtain the license required by this section, within the time specified in this section, there shall be assessed, in addition to the license tax due, a penalty of 30 percent.

(h) *Advertising.*

(1) A transient dealer shall not advertise, represent or hold forth a sale of goods, wares, or merchandise as an insurance, bankrupt, insolvent, assignee, trustee, estate, executor, administrator, receiver, manufacturer's wholesale, canceled order, misfit sale, close-out, or a sale of any goods damaged by smoke, fire, or water otherwise, unless before so doing the applicant shall state in writing under oath to the Director of Finance of the City of Birmingham at the time of application for a license all the facts relating to the reason and character of

such special sales, so advertised, held forth, or represented. A statement should be included of persons from whom said goods, wares, or merchandise were purchased, and the date of delivery of same to the person applying for license, the place where said goods, wares, or merchandise were taken last, and such details necessary to exactly locate and fully identify all goods, wares, or merchandise to be sold, and make such further disclosure to and give such information as may be required by Director of Finance of the City of Birmingham. And such transient dealer shall also include in said statement names and residences of the owners in whose interest the business is conducted and whether conducted as an individual, firm, association, or corporation.

(2) It shall be unlawful for any transient dealer to sell or exhibit for sale either at public or private sale any goods, wares, or merchandise without first complying with the provisions of this schedule, or to make any false statements in reference to the matter required in Subsection (b) above, or to fail or refuse to comply with the requirements of any of the provisions of this schedule. However, nothing contained in this section shall be construed as abridging or denying the right and power of the Council of the City of Birmingham to refuse or withhold the granting of any license or to revoke the same, if granted, to a transient dealer upon any hearing thereof when in the discretion of said Council on the basis of the disclosures as aforesaid, or from other information deemed by them sufficient, such action may be deemed necessary or proper to protect or safeguard the public from imposition, mischief or fraud.

(i) *Zoning.* Such activity for which application is made and any license issued shall only be lawful in a commercial zoning district in the City as determined by the official Zoning Ordinance of the City and the official Zoning Map. Failure to so locate same is a basis for denying or revoking a business or privilege license to conduct such activity.

(j) *General provisions.*

(1) The Director of Finance is hereby charged with the enforcement of the provision of this ordinance and he is hereby authorized and empowered to prescribe, adopt and enforce rules and regulations relating to the administration and enforcement of the provisions of this ordinance.

(2) Nothing herein contained shall be construed to relieve any person or other legal entity from any license fee liability, tax liability, interest, penalty or forfeiture incurred as of the effective date.

SCHEDULE 034. BASEBALL, BASKETBALL, FOOTBALL, HOCKEY, WRESTLING OR OTHER SPORTING EVENTS.

(a) *Annual License Fee. Professional.* Each person engaged in the business of professional baseball, basketball, football, hockey, wrestling or other sporting events where an admission is charged shall pay a license of ¾ of one percent of the gross receipts from said business from the previous year with a minimum license of: $400.00.

(b) *Transient Event License Fee.* Where any of the above enumerated events are transient in nature and such events will be for a period of less than five days in any calendar year, a license shall be paid in the amount of: $200.00.

A sales tax deposit may be required.

SCHEDULE 084D. DIVISION IV DANCING—DANCER, ENTERTAINER, MODEL, PERFORMER OR EXHIBITIONIST.

Each dancer, entertainer, model, performer, or exhibitionist shall pay a license of: $200.00.

No license shall be issued for dancing, modeling, entertaining, or otherwise performing in a Division II Adult Establishment until the applicant has been approved by the Birmingham Police Department, pursuant to Ordinance 96-211.

NAICS 712. NAICS TITLE—MUSEUMS, HISTORICAL SITES, AND SIMILAR INSTITUTIONS.

Industries in the Museums, Historical Sites, and Similar Institutions subsector engage in the preservation and exhibition of objects, sites, and natural wonders of historical, cultural, and/or educational value.

SCHEDULE 323. MUSEUMS, HISTORICAL AND CULTURAL SITES.

Each person, firm, or corporation engage in preservation and exhibition of objects, sites and natural historical, cultural and of an educational value shall pay a license as follows:

Where gross annual business from said business from the previous year is:	
Less than $5,000.00	$60.00
$5,000.00 and less than $10,000.00	$100.00
$10,000.00 and less than $15,000.00	$150.00
$15,000.00 and less than $20,000.00	$200.00
Plus an amount equal to 2/10 of one percent of gross annual business in excess of $20,000.00.	

NAICS 713. NAICS TITLE—AMUSEMENT, GAMBLING, AND RECREATION INDUSTRIES.

Industries in the Amusement, Gambling, and Recreation Industries subsector (1) operate facilities where patrons can primarily engage in sports, recreation, amusement, or gambling activities and/or (2) provide other amusement and recreation services, such as supplying and servicing amusement devices in places of business operated by others; operating sports teams, clubs, or leagues engaged in playing games for recreational purposes; and guiding tours without using transportation equipment.

This subsector does not cover all establishments providing recreational services. Other sectors of NAICS also provide recreational services. Providers of recreational services are often engaged in processes classified in other sectors of NAICS. For example, operators of resorts and hunting and fishing camps provide both accommodation and recreational facilities and services. These establishments are classified in Subsector 721, Accommodation, partly to reflect the significant costs associated with the provision of accommodation services and partly to ensure consistency with international standards. Likewise, establishments using transportation equipment to provide recreational and entertainment services, such as those operating sightseeing buses, dinner cruises, or helicopter rides, are classified in Subsector 48-49, Transportation and Warehousing.

The industry groups in this subsector highlight particular types of activities: amusement parks and arcades, gambling industries, and other amusement and recreation industries. The groups, however, are not all inclusive of the activity. The Gambling Industries industry group does not provide for full coverage of gambling activities. For example, casino hotels are classified in Subsector 721, Accommodation; and horse and dog racing tracks are classified in Industry Group 7112, Spectator Sports.

SCHEDULE 011. AMUSEMENT DEVICES—MUNICIPALLY OWNED PARKS.

Each person, firm or corporation operating in municipally-owned parks shall pay a license of two percent of the gross receipts from said business from the previous year with a minimum license of: $200.00.

SCHEDULE 041. BOWLING ALLEYS AND/OR SHUFFLEBOARDS.

Each alley or shuffleboard: $30.00.

SCHEDULE 048. CARNIVAL AND TENT SHOWS OTHER THAN REGULAR CIRCUSES.

(a) For each concession set up, whether operated or not, $10.00 but in no case shall the total license be less than $100.00 per week.

(b) Where such carnival and tent shows are operated at the same time in connection with the exhibition of agricultural, mineral and manufacturing exhibits, one or all, a license of $20.00 per week shall be paid, for each concession set up, whether operated or not.

(c) Where Carnival and Tent Shows other than regular Circuses are operated in connection with, and at the same time and on the same general grounds with the Annual Alabama State Fair, a license shall be required under the provisions of Schedule 741 of this Business License Code.

Permit to be obtained from Mayor's Office before issuance of license.

SCHEDULE 084A. DIVISION I DANCING.

Dancing by Patrons, Customers, or Guests, in establishments approved and licensed for the sale of alcoholic beverages: $200.00.

No license will be issued until applicant has been approved by City Council.

SCHEDULE 084B. DIVISION II DANCING.

Dance, performance, exhibition, or entertainment by a dancer other than Patrons or Customers of the General Public in an establishment with a current Beer and/or Liquor License as required under the current Business License Code: $200.00.

The grant of a permit is hereby made a prerequisite for the issuance of a Dance Division II license and such permit shall not be deemed to authorize the conducting of entertainment or performances or any other form of business without the payment of the fee for a Dance Division II License.

No license will be issued until applicant has been approved by City Council. (For clarification of Division II Permit requirements see Ordinance 96-212.)

SCHEDULE 084C. DIVISION III DANCING.

Masked Balls: $50.00.

No license will be issued until applicant has been approved by City Council.

SCHEDULE 202. POOL OR BILLIARD TABLES.

Each pool or billiard table either wholly or partially set up, whether operated or not: $120.00.

Each pool or billiard table where playing area is less than 4232 square inches and said table is activated by the insertion of a coin in a slot or mechanical device: $60.00.

NO LICENSE WILL BE ISSUED unless and until applicant has obtained a permit issued by the Chief of Police pursuant to Section 12-3-53, General Code of the City of Birmingham, as amended and as it may be amended, and approval of said permit by the Mayor's Office.

SCHEDULE 224. SHOOTING GALLERY.

Each: $120.00.

Shooting gallery, transients, per week: $24.00.

SCHEDULE 225. SKATING RINK.

Each: $240.00.

SCHEDULE 228. SWIMMING POOLS.

For each place so operated not in connection with a regular amusement park: $360.00.

SCHEDULE 245. VENDING MACHINES AND/OR COIN-OPERATED MACHINES. NOT TO INCLUDE TABLES ON WHICH THE GAME OF POOL OR BILLIARDS MAY BE PLAYED OR COIN OPERATED FILM MACHINES.

(g) If the machine is a video machine, air hockey game, skee ball game, basketball toss game, pinball machine, crane machine, or other like amusement machine or device, and is operated through the use of coin or coins, token or tokens, slide card or other similar method the license fee for each such game or machine shall be: $24.00.

Where the principal activity of the business involves operating a facility where video games, air hockey games, skee ball games, basketball toss games, pinball machines, or like machines, as defined in this schedule, are operated by or made available for use or operation by the general public, an additional license shall be required under Schedule 007A of this ordinance.

Important notice and disclaimer: Issuance of a City of Birmingham business license under Schedule 245(g) Video Games, does not validate or permit the use of any illegal devices, and any violation of State laws relating to gambling may result in arrest of any person and/or the confiscation of any devices that are deemed to be gambling devices that are in the possession or under the control of any person.

The granting of a license under any provision of this ordinance requires compliance with all applicable City of Birmingham Tax Code provisions, and State laws, as well as with all conditions set forth in any and all applicable City of Birmingham Laws, Ordinances, Rules and Regulations, and any failure or refusal to comply with said laws, ordinances, rules and regulations may result in the revocation of the license issued pursuant to this Schedule 245(g).

Pursuant to Section 29, Ordinance No. 97-183, as amended, all business locations are required to be approved by the Department of Planning, Engineering and Permits. Pursuant to Sections 2.5 and 2.6, Ordinance No. 97-183, as amended, the issuance of a business license does not authorize the licensee to operate the licensed business in an unlawful manner or on premises where such business activity is prohibited by law, ordinance, rule or regulation, including, but not limited to, zoning regulations.

NAICS 721. NAICS TITLE—ACCOMMODATION.

Industries in the Accommodation subsector provide lodging or short-term accommodations for travelers, vacationers, and others. There is a wide range of establishments in these industries. Some provide lodging only; while others provide meals, laundry services, and recreational facilities, as well as lodging. Lodging establishments are classified in this subsector even if the provision of complementary services generates more revenue. The types of complementary services provided vary from establishment to establishment.

The subsector is organized into three industry groups: (1) traveler accommodation, (2) recreational accommodation, and (3) rooming and boarding houses. The Traveler

Accommodation industry group includes establishments that primarily provide traditional types of lodging services. This group includes hotels, motels, and bed and breakfast inns. In addition to lodging, these establishments may provide a range of other services to their guests. The RV (Recreational Vehicle) Parks and Recreational Camps industry group includes establishments that operate lodging facilities primarily designed to accommodate outdoor enthusiasts. Included are travel trailer campsites, recreational vehicle parks, and outdoor adventure retreats. The Rooming and Boarding Houses industry group includes establishments providing temporary or longer-term accommodations, which for the period of occupancy, may serve as a principal residence. Board (i.e., meals) may be provided but is not essential.

Establishments that manage short-stay accommodation establishments (e.g., hotels and motels) on a contractual basis are classified in this subsector if they both manage the operation and provide the operating staff. Such establishments are classified based on the type of facility managed and operated.

SCHEDULE 127. HOTELS AND INNKEEPERS.

Each person, firm, or corporation keeping a public inn, hotel, or commercial lodging facility of five or more bedrooms where transient guests are lodged for pay is deemed to be engaged in the business of keeping a hotel. For each room used or designated as a bedroom for guests: $8.00.

This license does not include license for restaurants and other secondary businesses operated in connection with the renting of rooms. If meals, food, or refreshments are served to the general public and charged for, the additional license required of restaurants, cafes, lunch counters and public eating houses must also be paid. In addition, sales of merchandise shall be licensed in the category in which it falls. When cottages or annexes are operated in connection with or rented by the hotel, this license shall apply to the total of the rooms in the hotel, the cottages and annex (Section 40-12-115 Code of Alabama 1975).

SCHEDULE 151. LODGINGHOUSES.

For each room rented to transients: $8.00.

No license will be issued unless and until applicant has obtained (1) a Health Department Permit and (2) a Fire Inspection Report indicating compliance with all applicable fire safety laws and ordinances.

NAICS 722. NAICS TITLE—FOOD SERVICES AND DRINKING PLACES.

Industries in the Food Services and Drinking Places subsector prepare meals, snacks, and beverages to customer order for immediate on-premises and off-premises consumption. There is a wide range of establishments in these industries. Some provide food and drink only; while others provide various combinations of seating space, waiter/waitress services and incidental amenities, such as limited entertainment. The industries in the subsector are grouped based on the type and level of

services provided. The industry groups are full-service restaurants; limited-service eating places; special food services, such as food service contractors, caterers, and mobile food services; and drinking places.

Food services and drink activities at hotels and motels; amusement parks, theaters, casinos, country clubs, and similar recreational facilities; and civic and social organizations are included in this subsector only if these services are provided by a separate establishment primarily engaged in providing food and beverage services.

Excluded from this subsector are establishments operating dinner cruises. These establishments are classified in Subsector 487, Scenic and Sightseeing Transportation because those establishments utilize transportation equipment to provide scenic recreational entertainment.

SCHEDULE 216. RESTAURANTS, CAFES, LUNCH AND SANDWICH STANDS, INCLUDING LUNCHES AT SODA FOUNTAINS AND FOOD SERVICE CONTRACTORS.

(a) Each person, firm or corporation conducting a restaurant, cafe, lunch or sandwich stand, shall pay a license on each place so conducted as follows: Where the gross annual receipts during the next preceding year were less than $5,000 ..... $60.00

$5,000 and less than $10,000	$120.00
$10,000 and less than $15,000	$180.00
$15,000 and less than $20,000	$240.00
$20,000 and less than $30,000	$300.00
$30,000 and less than $40,000	$360.00
$40,000 and less than $50,000	$420.00
$50,000 and less than $60,000	$480.00
$60,000 and less than $70,000	$540.00
$70,000 and less than $80,000	$600.00
$80,000 and less than $90,000	$660.00
$90,000 and less than $100,000	$720.00

Where said gross receipts exceed $100,000.00 a license shall be paid in the amount of $720.00 plus 2/10 of 1% on all gross receipts in excess of $100,000.00.

Where a person does not conduct such a restaurant, cafe, lunch or sandwich stand as its principal business, but on the premises where it conducts another business, such person shall pay the license tax herein levied for the privilege of conducting such a restaurant, cafe, lunch or sandwich stand; and the receipts from such a restaurant, cafe, lunch or sandwich stand shall not be included in computing the amount of tax due for engaging in any other business or businesses at such location. Provided, however, that where a person conducts a lunch or sandwich stand in connection with

the operation of a soda fountain in a drug store, such person shall not be subject to the license tax herein levied where the total amount of gross receipts for the year next preceding received from such soda fountain and lunch or sandwich stand do not exceed $20,000.00, but such person shall include such receipts from such soda fountain and lunch or sandwich stand in computing the amount of license tax due by it for operating such drug store. Provided further, that where the amount of gross receipts from such soda fountain and lunch or sandwich stand for the year next preceding exceed $20,000.00, such person shall include $20,000.00 of such gross receipts in computing the amount of license tax for which it shall be liable for conducting such drug store, and shall pay a license tax for conducting such soda fountain and lunch stand, the amount of which shall be determined by applying the rates herein prescribed to all receipts from said soda fountain and lunch or sandwich stand in excess of $20,000.00.

The phrase "restaurant, cafe or lunch stand", as used in this schedule, shall include a restaurant, cafe or lunch stand conducted by, or upon the premises of a person, firm or corporation contemporaneously conducting a college or commercial or industrial enterprise, and whether such restaurant, cafe, lunch or sandwich stands be conducted for profit or not, and whether the service of such restaurant, cafe, lunch or sandwich stand be limited to students or employees of the person conducting such college or commercial or industrial enterprise or be not so limited.

NO LICENSE WILL BE ISSUED until the applicant has obtained and presented to the Tax and License Administrative Division at the time of application a current, valid Health Department Permit.

(b) Each person, firm or corporation primarily engaged in providing food services at institutional, governmental, commercial or industrial locations of others based on contractual agreements* with these type of organizations for a specified period of time that shall not exceed a maximum period of one year. The establishments of this industry will provide food services for the convenience of the contracting organization's customers. The contractual arrangement of these establishments may vary from type of facility operated (e.g. cafeteria, restaurant, fast-food eating places). These establishments may participate in revenue sharing, cost structure and providing personnel. These establishments shall pay a license as follows: Where gross receipts from services rendered within the City of Birmingham during the year next preceding are:

Less than $5,000	$ 60.00
$5,000 and less than $10,000	$120.00
$10,000 and less than $15,000	$180.00
$15,000 and less than $20,000	$240.00
$20,000 and less than $30,000	$300.00
$30,000 and less than $40,000	$360.00

$40,000 and less than $50,000	$420.00
$50,000 and less than $60,000	$480.00
$60,000 and less than $70,000	$540.00
$70,000 and less than $80,000	$600.00
$80,000 and less than $90,000	$660.00
$90,000 and less than $100,000	$720.00

Where said gross receipts exceed $100,000.00, a license shall be paid in the amount of $720.00 plus 2/10 of 1% on all gross receipts in excess of $100,000.00.

The 216(b) license will be active from the date of issuance however shall not exceed one year or the end of the current calendar year (December 31), whichever comes first. Any person, firm or corporation primarily engaged in providing food services under schedule 216(b) on December 31 and this date is prior to their contractual agreement end date, shall pay a renewal fee of $60.00. This fee shall cover the person, firm or corporation's business 216(b) license until the end of their contractual agreement provided the contractual agreement does not exceed one year.

*The agreements referenced in 216(b) shall not exceed one year. Consecutive or repetitive contractual agreements shall not be permitted under the 216(b) license schedule.

NO LICENSE WILL BE ISSUED until the applicant has obtained and presented to the Tax and License Administrative Division at the time of application a current, valid Health Department Permit.

In addition to this license, the food service contractor shall remit and provide the following:

- A copy of the lease with the lessor of each location where the business activity will be conducted.

SCHEDULE 7223. MOBILE FOOD SERVICES.

This industry comprises establishments primarily engaged in preparing and serving meals and snacks for immediate consumption from motorized vehicles or non-motorized carts. The establishment is the central location from which the caterer route is serviced, not each vehicle or cart. Included in this industry are establishments primarily engaged in providing food services from vehicles, such as hot dog carts and ice cream trucks.

(1) Mobile food service vendors: Each person, firm or corporation operating a mobile food vehicle, pushcart, ice cream truck, lunch wagon, mobile canteen, mobile refreshment stand, mobile snack stand and mobile food concession stand shall pay a license on each mobile food vehicle or pushcart operated as follows:

Where the gross annual receipts during the next preceding year were:	
Less than $5,000.00	$60.00
$5,000.00 and less than $10,000.00	$120.00
$10,000.00 and less than $15,000.00	$180.00
$15,000.00 and less than $20,000.00	$240.00
$20,000.00 and less than $30,000.00	$300.00
$30,000.00 and less than $40,000.00	$360.00
$40,000.00 and less than $50,000.00	$420.00
$50,000.00 and less than $60,000.00	$480.00
$60,000.00 and less than $70,000.00	$540.00
$70,000.00 and less than $80,000.00	$600.00
$80,000.00 and less than $90,000.00	$660.00
$90,000.00 and less than $100,000.00	$720.00
Where said gross receipts exceed $100,000.00, a license shall be paid in the amount of $720.00, plus 2/10 of one percent on all gross receipts in excess of $100,000.00.	

(2) Mobile food services temporary vendors:

a. A mobile food services temporary vendor may, in lieu of purchasing an annual mobile food services business license, purchase a mobile food services temporary vendor license for temporary vents. Each event requires a separate license, and the mobile food service temporary vendor shall be limited to no more than four mobile food services temporary vendor licenses for each temporary event, per calendar year.

b. Each temporary vendor may, in lieu of purchasing an annual mobile food services license, purchase a temporary vendor license for mobile food services for each event at which said business will be conducted. Each event requires a separate license, and the temporary vendor shall be limited to no more than four temporary vendor licenses per calendar year. The temporary vendor flat rate license shall be as follows:

Event one to four days	$150.00
Event four to eight days	$250.00
Event nine to 30 days	$350.00

c. All temporary vendor operators shall comply with all local ordinances and state laws applicable to the operation of its business and present proof of the permission from any property owner upon whose property said temporary vendor is to operate and a permit to operate or letter of "No permit required" issued by the Jefferson County Health Department prior to the issuance of the requested business license.

(3) No license will be issued until applicant has obtained and presented to the Revenue Division at the time of application a current, valid health department permit and has passed any city required inspections.

(4) The issuance of a business license under this schedule does not permit or authorize any activity which is prohibited by Title 12, Chapter 14, Article A of the General Code of the City of Birmingham 1980, as amended and as it may be amended.

NAICS 811. NAICS TITLE—REPAIR AND MAINTENANCE.

Industries in the Repair and Maintenance subsector restore machinery, equipment, and other products to working order. These establishments also typically provide general or routine maintenance (i.e., servicing) on such products to ensure they work efficiently and to prevent breakdown and unnecessary repairs.

The NAICS structure for this subsector brings together most types of repair and maintenance establishments and categorizes them based on production processes (i.e., on the type of repair and maintenance activity performed, and the necessary skills, expertise, and processes that are found in different repair and maintenance establishments). This NAICS classification does not delineate between repair services provided to businesses versus those that serve households. Although some industries primarily serve either businesses or households, separation by class of customer is limited by the fact that many establishments serve both. Establishments repairing computers and consumer electronics products are two examples of such overlap.

The Repair and Maintenance subsector does not include all establishments that do repair and maintenance. For example, a substantial amount of repair is done by establishments that also manufacture machinery, equipment, and other goods. These establishments are included in the Manufacturing sector in NAICS. In addition, repair of transportation equipment is often provided by or based at transportation facilities, such as airports, seaports, and these activities are included in the Transportation and Warehousing sector. A particularly unique situation exists with repair of buildings. Plumbing, electrical installation and repair, painting and decorating, and other construction-related establishments are often involved in performing installation or other work on new construction as well as providing repair services on existing structures. While some specialize in repair, it is difficult to distinguish between the two types and all have been included in the Construction sector.

SCHEDULE 023. AUTOMOBILE DETAILING AND/OR WASHING.

Where principal business: $150.00.

Where incidental business: $36.00.

No license will be issued without written verification from the Department of Planning, Engineering and Permits indicating compliance with all Building and Zoning Codes, Ordinances, and Regulations.

SCHEDULE 049. CARPET AND/OR RUG CLEANING.

Each person, firm or corporation operating a carpet or rug cleaning business, shall pay a license as follows:

Where gross receipts for the year next preceding were:	
Less than $6,000.00	$60.00
$6,000.00 and less than $12,500.00	$100.00
$12,500.00 and less than $20,000.00	$150.00
$20,000.00 and less than $30,000.00	$200.00
$30,000.00 and less than $40,000.00	$250.00
$40,000.00 and over	$300.00

SCHEDULE 181. OIL, AUTOMOBILE, RETAIL.

Each person, firm or corporation selling automobile oils at retail other than where sold at a gasoline filling station, shall pay a license in an amount equal to 6/20 of one percent of gross receipts from the sales of such business during the year next preceding, with a minimum license for each place where such oil is sold of: $120.00.

SCHEDULE 199. PIANO TUNER.

Each: $20.00.

Where pipe organs are tuned and repaired: Additional: $60.00.

SCHEDULE 215A. REPAIR SHOP (OTHER THAN AUTOMOTIVE).

Each person operating a repair shop (other than automotive), or engaged in the doing of repair work (other than automotive repair) shall, after having met all of the requirements of this section, pay a license as follows:

Where only 1 worker	$60.00
Where 2 but less than 4 workers	$120.00
Where 4 but less than 6 workers	$180.00
Where 6 but less than 10 workers	$240.00
Where 10 but less than 15 workers	$300.00
Where 15 and over	$360.00

No license will be issued without written approval or verification from the City of Birmingham Department of Planning, Engineering and Permits indicating that the business location meets all current Zoning Codes, Ordinances, and Regulations.

Where parts, accessories, tools, machines, equipment, jewelry, and the like are sold in connection with said business, an additional license shall be obtained under the provisions of Schedule 165 of this Business License Code.

SCHEDULE 215B. REPAIR SHOP (AUTOMOTIVE, PASSENGER AND NON-PASSENGER TRUCK, COMMERCIAL TRUCK, BUS, OR HEAVY DUTY EQUIPMENT, INSIDE OF BUILDING).

Each person engaged in the business of repairing automobiles, passenger and nonpassenger commercial trucks, buses, and heavy duty equipment, provided that the vehicle or equipment being repaired is placed completely within an enclosed building, with all work being performed within said building, shall pay a license as follows:

Where only 1 worker	$60.00
Where 2 but less than 4 workers	$120.00
Where 4 but less than 6 workers	$180.00
Where 6 but less than 10 workers	$240.00
Where 10 but less than 15 workers	$300.00
Where 15 and over	$360.00

Said license to include the equipping, servicing, repairing (including major engine overhaul) and inside storage of automobiles, passenger and non-passenger commercial trucks, buses, and heavy duty equipment; provided, however, said license shall not permit the storage of disabled vehicles on the property for more than 30 calendar days in the case of vehicles awaiting repair, nor more than 30 calendar days in the case of vehicles which have been repaired, and provided that in no case shall any vehicle be kept on the property in excess of 60 calendar days.

Provided, however, where automobile parts and accessories are sold in connection with automobile repairs, an additional license shall be obtained under the provisions of Schedule 019 of this Business License Code.

Where said person operates an automobile storing and/or parking area not in connection with the repair of any vehicle, an additional license shall be obtained under the provisions of Schedule 020 of this Business License Code.

For the purposes of this section, the term "enclosed building" means any structure having walls, a roof, and a closeable door or doors, that encloses a space used for sheltering any residential or commercial occupancy.

No license will be issued without written approval or verification from the City of Birmingham Department of Planning, Engineering and Permits indicating that the business location meets all current Zoning Codes, Ordinances, and Regulations.

SCHEDULE 215C. REPAIR SHOP (AUTOMOTIVE, PASSENGER AND NON-PASSENGER TRUCK, COMMERCIAL TRUCK, BUS, OR HEAVY DUTY EQUIPMENT. INSIDE AND/OR OUTSIDE OF BUILDING).

Each person engaged in the business of repairing automobiles, passenger and non-passenger commercial trucks, buses, and heavy duty equipment outside of an enclosed building, with all work being performed inside and/or outside of an enclosed building, shall pay a license as follows:

Where only 1 worker	$60.00
Where 2 but less than 4 workers	$120.00

Where 4 but less than 6 workers	$180.00
Where 6 but less than 10 workers	$240.00
Where 10 but less than 15 workers	$300.00
Where 15 and over	$360.00

Said license to include the equipping, servicing, repairing (including major engine overhaul) of automobiles, passenger and non-passenger commercial trucks, buses, and heavy duty equipment; provided, however, said license shall not permit the storage of disabled vehicles on the property for more than 30 calendar days in any case.

Provided, however, where automobile parts and accessories are sold in connection with automobile repairs, an additional license shall be obtained under the provisions of Schedule 019 of this Business License Code.

Where said person operates an automobile storing and/or parking area not in connection with the repair of any vehicle, an additional license shall be obtained under the provisions of Schedule 020 of this Business License Code.

For the purposes of this section, the term "enclosed building" means any structure having walls, a roof, and a closeable door or doors, that encloses a space used for sheltering any residential or commercial occupancy.

No license will be issued without written approval or verification from the City of Birmingham Department of Planning, Engineering and Permits indicating that the business location meets all current Zoning Codes, Ordinances, and Regulations.

SCHEDULE 251. WATCHMAKER AND REPAIR.

Each worker: $60.00.

Where watches, parts, accessories, tools, jewelry, and the like are sold in connection with said business, an additional license shall be obtained under the provisions of Schedule 165 of this Business License Code.

SCHEDULE 170B. WRECKERS.

(a) Each and every person, firm or corporation operating or causing to be operated within the City of Birmingham any wrecker for the towing of automotive vehicles within the City of Birmingham, or coming into the City of Birmingham to take a vehicle out, for hire or reward shall pay, for each wrecker of:

Not more than 12,000 pounds gross vehicle weight	$24.00
12,001 to 42,000 pounds of gross vehicle weight	$48.00
Over 42,000 pounds of gross vehicle weight	$60.00

For the purpose of this schedule, gross vehicle weight shall mean the empty weight of the wrecker plus the heaviest load to be carried.

(b) Where parking and/or storing of inoperable vehicles is engaged in as an adjunct to operating a business under the provisions of this schedule, a separate license shall be obtained under Schedule 020, Subsections (a) and (b) Schedule 145 (Junk Yards, Junk Dealers and/or Scrap Metal Dealers) of this Business License Code, subject to the provisions of the City of Birmingham's Zoning Ordinance, as well as approval of the City Council. No license will be issued unless and until applicant has met the following requirements:

(1) Approval by the Birmingham Police Department upon proof of compliance with all applicable laws and ordinances;

(2) Proof of proper insurance on file in the City Clerk's Office pursuant to Section 12-17-26, General Code of the City of Birmingham, as amended and as it may be amended;

(3) Vehicle Inspection by the Birmingham Police Department and approval thereof, upon compliance with applicable laws and ordinances; and

(4) Proper zoning of business location.

License stickers issued by the department shall be prominently displayed on any wrecker operating within the City of Birmingham. It shall be unlawful to operate any wrecker within the City of Birmingham without having met the requirements outlined in this section.

NAICS 812. NAICS TITLE—PERSONAL AND LAUNDRY SERVICES.

Industries in the Personal and Laundry Services subsector group establishments that provide personal and laundry services to individuals, households, and businesses. Services performed include: personal care services; death care services; laundry and dry-cleaning services; and a wide range of other personal services, such as pet care (except veterinary) services, photofinishing services, temporary parking services, and dating services.

The Personal and Laundry Services subsector is by no means all-inclusive of the services that could be termed personal services (i.e., those provided to individuals rather than businesses). There are many other subsectors, as well as sectors, that provide services to persons. Establishments providing legal, accounting, tax preparation, architectural, portrait photography, and similar professional services are classified in Sector 54, Professional, Scientific, and Technical Services; those providing job placement, travel arrangement, home security, interior and exterior house cleaning, exterminating, lawn and garden care, and similar support services are classified in Sector 56, Administrative and Support, Waste Management and Remediation Services; those providing health and social services are classified in Sector 62, Health Care and Social Assistance; those providing amusement and recreation services are classified in Sector 71, Arts, Entertainment and Recreation; those providing educational instruction are classified in Sector 61, Educational Services; those providing

repair services are classified in Subsector 811, Repair and Maintenance; and those providing spiritual, civic, and advocacy services are classified in Subsector 813, Religious, Grantmaking, Civic, Professional, and Similar Organizations.

SCHEDULE 020. AUTOMOBILE STORING OR PARKING.

Each person engaged in the business of storing and/or parking automobiles or other vehicles, whether operable or inoperable, whether attended or not, for a fee or other charge, and/or holding out space as available for such storing and/or parking, whether used or not, shall pay a license as follows:

(a) Where the space available for such parking and/or storing is 7,500 square feet or less: $200.00.

(b) Where space available exceeds 7,500 square feet, the license amount is $200.00 plus an amount calculated as follows: For each 3,000 square feet or fractional part thereof of space in excess of 7,500 square feet: $110.00.

(c) Where the area available for automobile parking is more than four times the ground area and where more than one-half of the parking spaces are available for transient parking (commonly known as a parking deck): $200.00.

(d) Where only trailers are parked (commonly known as house trailers), the license is to be one-fourth of the amount calculated using items (a) and (b) above, with a minimum license in any case for trailer parking of: $110.00.

The term "available space," as used in this schedule, means all floor or ground space, including driveways used in connection with said business, except ramps and/or elevators used in the movement of vehicles from one level to another, and which is held out as available for storing and/or parking automobiles or other vehicles, whether used or not.

No license will be issued unless the business location is approved by the City of Birmingham Department of Planning, Engineering and Permits as having met zoning requirements.

SCHEDULE 022. AUTOMOBILE PARKING—SPECIAL EVENTS/SPORTING EVENTS.

Each person engaged in the business of using a plot of land, lot, parcel, yard, enclosure, structure, or any portion thereof, to park, house or keep vehicles, and for which a charge is made, and which is customarily available during special events and/or sporting events of short duration which will occur, either wholly or partially, on City properties and/or rights-of-way, where the space available for such parking is greater than ten vehicles, the license fee is: $200.00.

Provided, however, that any person operating an automobile parking area where the space available for parking, housing or keeping vehicles is less than or equal to ten vehicles, shall be exempt from the payment of any license under this schedule.

SCHEDULE 032. BARBERSHOP.

For each shop operated, a license shall be paid upon the following basis or measurement:

For each chair set up in such shop whether being operated or not	$30.00
For each manicurist working in such shop	$30.00

SCHEDULE 038. BOOTBLACKING.

Each person, firm or corporation engaged in bootblacking shall pay an amount in dollars equal to nine multiplied by the number of patrons who can be accommodated at one time by the seating facilities provided for bootblacking purposes, but in no event less than: $18.00.

SCHEDULE 051. CEMETERY COMPANIES.

Each person, firm or corporation where gross annual business from said business from the previous year was:

Less than $10,000.00	$100.00
$10,000.00 and less than $20,000.00	$200.00
$20,000.00 and less than $40,000.00	$400.00
$40,000.00 and less than $60,000.00	$600.00
$60,000.00 and less than $80,000.00	$800.00
$80,000.00 and less than $100,000.00	$1,000.00
Plus an amount equal to 2/10 of one percent of gross annual business in excess of $100,000.00.	

SCHEDULE 094. DRY CLEANING.

Each person, firm or corporation engaged in the business of dry cleaning (other than rug cleaning) shall pay a basic license of $50.00, plus an additional amount to be determined as follows:

For each pick-up station operated in connection with said business	$40.00
Plus, for each vehicle, whether owned or not, and operated in connection with said business	$40.00

Each vehicle used in delivering or picking up dry cleaning whether such vehicle is owned or not by the licensee, but for whom business is being done, shall carry either a placard or other designation in some conspicuous place on the outside thereof easily readable at a distance of 50 feet, showing the name of the dry cleaning plant for which they are picking up or delivering dry cleaning.

SCHEDULE 124. HAIRDRESSERS OR BEAUTY PARLORS.

Each person, firm, or corporation engaged in the business of operating a beauty parlor or other place where hairdressing, hairstyling, facial treatment, or manicuring

is done shall pay a license based upon or determined by the number of persons working as operators therein as follows: Where only one person works therein as operator, whether such person be the proprietor or not: $30.00.

Where two or more persons work therein as operators, the owner or proprietor of such beauty parlor shall pay a license of $30.00 plus $30.00 for each additional operator in excess of one.

SCHEDULE 125. HAT CLEANING.

Each person, firm or corporation engaged in the business of hat cleaning:

Where only 1 worker	$60.00
Where 2 and less than 4 workers	$120.00
Where 4 and less than 6 workers	$180.00
Where 6 and less than 10 workers	$240.00
Where 10 and less than 15 workers	$300.00
Where 15 workers and over	$360.00

The term "worker" as herein used, means only those who are actually engaged either in part or whole time, in the actual process of cleaning hats.

SCHEDULE 149. LAUNDRIES.

Each person, firm or corporation operating a laundry shall pay a basic license of $200.00 plus an additional amount to be determined as follows:

For each pick-up station operated in connection with said business: $40.00.

Plus, for each vehicle, whether owned or not, and operated in connection with said business: $40.00.

Each vehicle used in delivering or picking up laundry, or dry cleaning, whether such vehicle is owned or not by the licensee, shall carry either a placard or other designation in some conspicuous place on the outside thereof easily readable at a distance of 50 feet, showing the name of the laundry, or dry cleaning plant for which they are picking up or delivering laundry and/or dry cleaning. This license not to include rug cleaning.

SCHEDULE 207. PRESSING CLUB.

Each person, firm or corporation operating by hand or machine a pressing shop, where:

Not more than 1 machine is installed	$60.00
2 or more machines	$84.00
3 or more machines	$120.00

The pressing club license will permit dry cleaning and pressing incidental thereto, when such dry cleaning business does not constitute more than 25 percent of the total gross business of the pressing club provided, however, that the owner or operator of

said pressing club posts in the office or the place of business in a conspicuous place where it can readily be seen by the public entering therein, a placard not less than eight inches by 15 inches in size, showing thereon the name of the cleaner for whom said pressing club is agent for the dry cleaning work done or stating on said placard that said dry cleaning is performed by the owner or operator in his own place of business. In the absence of such placard being posted as above provided, a dry cleaning license as otherwise provided in this Code shall be collected from such pressing club, doing any dry cleaning.

SCHEDULE 223. SHOE REPAIRING.

(a) Where machinery is used, to pay under Repair Shop Schedule 215. Where no machinery used, each worker: $18.00.

(b) Each pick-up station accepting shoes for repair at another location shall pay a license of $40.00 in addition to all other licenses.

SCHEDULE 231. TAILORING.

Each person, firm or corporation engaged in the business of tailoring wearing apparel or acting as agent for same or soliciting orders for same, whether the tailoring is done either within or without the City of Birmingham, shall pay a license as follows: Where gross receipts from the previous year were:

Less than $5,000.00	$60.00
$5,000.00 and less than $10,000.00	$100.00
$10,000.00 and less than $15,000.00	$150.00
$15,000.00 and less than $20,000.00	$200.00
Plus an amount equal to 2/10 of one percent of gross receipts in excess of $20,000.00.	

The above license is to include the rental of wearing apparel.

SCHEDULE 243. UNDERTAKERS.

(a) Each person where the gross annual business is $100,000.00 or less: $400.00.

(b) And for each $50,000.00 or fractional part thereof in excess of $100,000.00: $120.00.

SCHEDULE 245. VENDING MACHINES AND/OR COIN-OPERATED MACHINES. NOT TO INCLUDE TABLES ON WHICH THE GAME OF POOL OR BILLIARDS MAY BE PLAYED OR COIN OPERATED FILM MACHINES.

(h) If the machine is a washer, dryer, or like machine, and is operated through the use of coin or coins, token or tokens, the license fee shall be: $10.00.

NAICS 920. NAICS TITLE—PUBLIC ADMINISTRATION.

The Public Administration sector consists of establishments of federal, state, and local government agencies that administer, oversee, and manage public programs and have executive, legislative, or judicial authority over other institutions within a given area. These agencies also set policy, create laws, adjudicate civil and criminal legal cases, provide for public safety and for national defense. In general, government establishments in the Public Administration sector oversee governmental programs and activities that are not performed by private establishments. Establishments in this sector typically are engaged in the organization and financing of the production of public goods and services, most of which are provided for free or at prices that are not economically significant.

Government establishments also engage in a wide range of productive activities covering not only public goods and services but also individual goods and services similar to those produced in sectors typically identified with private-sector establishments. In general, ownership is not a criterion for classification in NAICS. Therefore, government establishments engaged in the production of private-sector-like goods and services should be classified in the same industry as private-sector establishments engaged in similar activities.

As a practical matter, it is difficult to identify separate establishment detail for many government agencies. To the extent that separate establishment records are available, the administration of governmental programs is classified in Sector 92, Public Administration, while the operation of that same governmental program is classified elsewhere in NAICS based on the activities performed. For example, the governmental administrative authority for an airport is classified in Industry 92612, Regulation and Administration of Transportation Programs, while operating the airport is classified in Industry 48811, Airport Operations. When separate records are not available to distinguish between the administration of a governmental program and the operation of it, the establishment is classified in Sector 92, Public Administration.

SCHEDULE 325. PUBLIC ADMINISTRATION.

No license is required for governmental agencies. If it is determined that the activity under this subsector requires a license, the license amount shall be as follows:

Less than 2 persons	$60.00
2 but less than 4 persons	$120.00
4 but less than 6 persons	$180.00
6 but less than 10 persons	$240.00
10 but less than 15 persons	$300.00
15 persons	$360.00
Plus $20.00 for each person in excess of 15.	

NAICS 923. NAICS TITLE—ADMINISTRATION OF HUMAN RESOURCE PROGRAMS.

The Administration of Human Resource Programs subsector groups government establishments primarily engaged in the administration of human resource programs.

SCHEDULE 331. ADMINISTRATION OF HUMAN RESOURCE GOVERNMENT PROGRAMS.

No license is required for governmental agencies. If it is determined that the activity under this subsector requires a license, the license amount shall be:

Less than 2 persons	$60.00
2 but less than 4 persons	$120.00
4 but less than 6 persons	$180.00
6 but less than 10 persons	$240.00
10 but less than 15 persons	$300.00
15 persons	$360.00
Plus $20.00 for each person in excess of 15.	

NAICS 924. NAICS TITLE—ADMINISTRATION OF ENVIRONMENTAL QUALITY PROGRAMS.

The Administration of Environmental Quality Programs subsector groups government establishments primarily engaged in the administration of environmental quality.

This industry comprises government establishments primarily engaged in one or more of the following: (1) the administration, regulation, and enforcement of air and water resource programs; (2) the administration and regulation of solid waste management programs; (3) the administration and regulation of water and air pollution control and prevention programs; (4) the administration and regulation of flood control programs; (5) the administration and regulation of drainage development and water resource consumption programs; (6) the administration and regulation of toxic waste removal and cleanup programs; and (7) coordination of these activities at intergovernmental levels.

SCHEDULE 333. ADMINISTRATION OF ENVIRONMENTAL QUALITY PROGRAMS.

No license is required for governmental agencies. If it is determined that the activity under this subsector requires a license, the license amount shall be:

Less than 2 persons	$60.00
2 but less than 4 persons	$120.00
4 but less than 6 persons	$180.00
6 but less than 10 persons	$240.00
10 but less than 15 persons	$300.00

15 persons	$360.00
Plus $20.00 for each person in excess of 15.	

NAICS 925. NAICS TITLE—ADMINISTRATION OF HOUSING PROGRAMS, URBAN PLANNING, AND COMMUNITY DEVELOPMENT.

The Administration of Housing Programs, Urban Planning, and Community Development subsector groups government establishments primarily engaged in the administration of housing, urban planning, and community development.

SCHEDULE 327. ADMINISTRATION OF HOUSING, URBAN PLANNING AND COMMUNITY DEVELOPMENT PROGRAMS.

Each person, firm or corporation operating as an administration housing program or urban planning or community development shall pay a license computed as follows:

Less than 2 persons	$60.00
2 but less than 4 persons	$120.00
4 but less than 6 persons	$180.00
6 but less than 10 persons	$240.00
10 but less than 15 persons	$300.00
15 persons	$360.00
Plus $20.00 for each person in excess of 15.	

NAICS 926. NAICS TITLE—ADMINISTRATION, INSPECTION AND REGULATION OF ECONOMIC, TRANSPORTATION, COMMUNICATIONS PROGRAMS, AND MISCELLANEOUS COMMERCIAL SECTORS.

This subsector comprises government establishments primarily engaged in the administration of economic programs.

SCHEDULE 328. ADMINISTRATION OF COMMERCIAL SECTORS.

Any person, firm, or corporation, who shall engage in the administration, promotion and development of economic resources, general statistical data and analyses, regulation, planning, inspection and investigation of transportation services and facilities, licensing and inspection of utilities, and coordination of agricultural programs for regulating and controlling the grading and inspection of food, plants and other agricultural products or facilities situated in the City of Birmingham in connection with any business, vocation, occupation or profession which is not subject to a license under any other schedule of this Code, or under Schedule 007A of this license code shall pay for the protection afforded by the laws, ordinances, rules and regulations of the City of Birmingham and its agencies to such person, firm or corporation in connection with the maintaining, keeping in repair or otherwise

manning any such office, store, warehouse, place of business, telephone wires, telegraph wires, right-of-way, easement, land or other facility or facilities an annual license fee or tax as follows:

Where there was employed in connection with the maintaining, keeping in repair or otherwise manning any such office, store, warehouse, place of business, telephone wires, telegraph wires, right-of-way, easement, land or other facility or facilities during the next preceding calendar year in the City of Birmingham an average daily number of:

Less than 2 persons	$60.00
2 but less than 4 persons	$120.00
4 but less than 6 persons	$180.00
6 but less than 10 persons	$240.00
10 but less than 15 persons	$300.00
15 persons	$360.00
Plus $20.00 for each person in excess of 15.	

NAICS 927. NAICS TITLE—SPACE RESEARCH AND TECHNOLOGY.

This subsector group comprises government establishments that conduct space research.

SCHEDULE 329. SPACE RESEARCH AND TECHNOLOGY.

Each person, firm or corporation operating as a space research and technology establishment shall pay a license computed as follows:

Where gross annual business from said business from the previous year is:	
Less than $5,000.00	$60.00
$5,000.00 and less than $10,000.00	$100.00
$10,000.00 and less than $15,000.00	$150.00
$15,000.00 and less than $20,000.00	$200.00
Plus an amount equal to 2/10 of one percent of gross annual business in excess of $20,000.00.	

NAICS 928. NAICS TITLE—NATIONAL SECURITY AND INTERNATIONAL AFFAIRS.

This subsector comprises government establishments primarily engaged in national security and international affairs such as military, national guard, immigration services peace corps, state departments and economic cooperation and development.

SCHEDULE 330. NATIONAL SECURITY AND INTERNATIONAL AFFAIRS.

No license is required for governmental agencies. If it is determined that the activity requires a license, the license amount shall be:

Less than 2 persons	$60.00

2 but less than 4 persons	$120.00
4 but less than 6 persons	$180.00
6 but less than 10 persons	$240.00
10 but less than 15 persons	$300.00
15 persons	$360.00
Plus $20.00 for each person in excess of 15.	

NAICS 999. NAICS TITLE—UNCLASSIFIED ESTABLISHMENTS (GENERAL CATEGORY).

Unclassified miscellaneous business and personal services not elsewhere classified.

SCHEDULE 007A. AGENTS, DEALERS OR OTHER BUSINESS.

Each person, firm, or corporation who as principal, agent or in any other capacity shall engage in or transact any trade, business, commerce, occupation, vocation or profession and for whom no other license is specifically required by the Code, shall pay a license as follows:

Where gross annual business from said business from the previous year is:	
Less than $5,000.00	$60.00
$5,000.00 and less than $10,000.00	$100.00
$10,000.00 and less than $15,000.00	$150.00
$15,000.00 and less than $20,000.00	$200.00
Plus an amount equal to 2/10 of one percent of gross annual business in excess of $20,000.00.	

SCHEDULE 813. RELIGIOUS, GRANTMAKING, CIVIC, PROFESSIONAL, AND SIMILAR ORGANIZATIONS.

Each person, firm or corporation primarily engaged in the Religious, Grantmaking, Civic, Professional, and Similar Organizations subsector group establishments that organize and promote religious activities; support various causes through grantmaking; advocate various social and political causes; and promote and defend the interests of their members shall pay a license in an amount equal to $200.00.

The industry groups within the subsector are defined in terms of their activities, such as establishments that provide funding for specific causes or for a variety of charitable causes; establishments that advocate and actively promote causes and beliefs for the public good; and establishments that have an active membership structure to promote causes and represent the interests of their members.

Establishments in this subsector may publish newsletters, books, and periodicals, for distribution to their membership.
(Ord. No. 97-183, art. I, §§ 1—3, 12-23-1997; Ord. No. 98-106, § 1, 6-30-1998; Ord. No. 00-207, § 1, 12-12-2000; Ord. No. 02-173, § 1, 12-10-2002; Ord. No. 03-133, § 1, 8-26-2003; Ord. No. 07-17, § 1, 1-30-2007; Ord. No. 07-233, art. I, 12-18-2007; Ord. No.

No. 15-55, § 1, 4-28-2015; Ord. No. 15-56, § 1, 4-28-2015; Ord. No. 15-57, § 1, 4-28-2015; Ord. No. 15-58, § 1, 4-28-2015; Ord. No. 15-59, § 1, 4-28-2015; Ord. No. 15-60, § 1, 4-28-2015; Ord. No. 15-61, § 1, 4-28-2015; Ord. No. 15-62, § 1, 4-28-2015; Ord. No. 15-122, § 1, 8-25-2015; Ord. No. 15-145, § 1, 10-13-2015; Ord. No. 15-181, § 1, 12-23-2015; Ord. No. 15-182, § 1, 12-23-2015; Ord. No. 16-2, § 1, 1-20-2016; Ord. No. 16-3, § 1, 1-20-2016; Ord. No. 16-4, § 1, 1-20-2016; Ord. No. 16-36, § 1, 3-15-2016; Ord. No. 16-199, § 1, 11-2-2016; Ord. No. 17-24, § 1, 3-7-2017)

Appendix B

STORMWATER FEES*

*__Editor's note—__This provisions of this appendix are derived from Ord. No. 97-91, adopted by the city council on July 29, 1997, and approved by the mayor on July 30, 1997. The ordinance has been set out as enacted and amended, including the numbering system, with only minor changes made for the purpose of stylistic consistency. Obvious misspellings have been corrected without notation. Editorial changes made for the purpose of clarity are included as bracketed text [ ]. As amendatory legislation is adopted, it will be incorporated into this appendix with a history note identifying the source of the amendment.

ORDINANCE NO. 97-91

AN ORDINANCE TO LEVY STORMWATER FEES ON PARCELS OF PROPERTY LOCATED WITHIN THE CORPORATE LIMITS OF THE CITY OF BIRMINGHAM

BE IT ORDAINED by the City Council of the City of Birmingham, Alabama, as follows:

1. Under the authority of Act 95-775, the City of Birmingham hereby levies upon each parcel of real property or portion thereof located in the corporate limits of the City of Birmingham a fee to be determined as follows for the purposes of funding the stormwater program and to comply with the requirements NPDES Permit ALS000001 held by the city jointly with Jefferson County and other municipalities in Jefferson County;

2. Alternatively pursuant to the police power of the City of Birmingham, the City of Birmingham hereby levies upon each parcel of real property or portion thereof located in the corporate limits of the City a fee to be determined as follows for the purposes of funding the stormwater program and to comply with the requirements of NPDES Permit ALS000001 held by the city jointly with Jefferson County and other municipalities in Jefferson County:

A. The fee is levied on properties designated by the Jefferson County Tax Assessor pursuant to Amendment No. 325 to the Constitution of Alabama, 1901, and Sec. 40-8-1, Code of Alabama, 1975, as Class I and Class II land use classifications in the amount of $15 per parcel or portion thereof located in the corporate limits of the City of Birmingham.

B. The fee is levied on the properties designated by the Jefferson County Tax Assessor pursuant to Amendment 325 to the Constitution of Alabama, 1901, and Sec. 40-8-1, Code of Alabama, 1975, as Class III land use classification in the amount of $5 per parcel or portion thereof located in the corporate limits of the City of Birmingham.

C. There will be no exemptions for this fee on any parcels located within the City of Birmingham, regardless of whether ad-valorem taxes are exempted for such parcels, except for those parcels designated by the Jefferson County Tax Assessor as schools, churches or owner-occupied residences for which homestead exemption has been allowed by the Tax Assessor and for which the over age 65 exemption has been allowed by the Tax Assessor.

BE IT FURTHER ORDAINED that the Tax Assessor and Tax Collector of Jefferson County are hereby requested to implement procedures necessary and appropriate to assess and collect this fee.

BE IT FURTHER ORDAINED that the Mayor be and is hereby authorized to take whatever actions are necessary to implement the assessment and collection of this fee as authorized by law.

It is further the intention of this Council that each section of this ordinance be separate and severable and that, should any court of competent jurisdiction finally determine that any such section(s) is/are void or voidable that the remaining sections shall continue in full force and effect.

ORDINANCE NO. 15-95

AN ORDINANCE TO AMEND ORDINANCE NO. 97-91 TO LEVY STORMWATER FEES ON PARCELS OF PROPERTY LOCATED WITHIN THE CORPORATE LIMITS OF THE CITY OF BIRMINGHAM IN ACCORDANCE WITH ALABAMA ACT NO. 2014-439

WHEREAS, Alabama Act No. 95-775, as amended by Act No. 2014-439, authorizes municipalities to promote effective and efficient compliance with federal and state laws and regulations relating to stormwater discharges; and,

WHEREAS, the City of Birmingham operates a municipal separate stormwater system (MS4) subject to regulation and permitting under the federal. Clean Water Act and the Alabama Water Pollution Control Act; and,

WHEREAS, the Council of the City of Birmingham finds that it is in the public interest to amend its stormwater fees in accordance with Act No. 2014-439 to further improve the operation of the MS4 in compliance with federal and state laws and in the interest of the health, safety and welfare of the citizens of Birmingham.

SECTION 1. BE IT ORDAINED by the City Council of the City of Birmingham, Alabama, that Ordinance No. 97-91 is hereby amended as follows:

"1. Under the authority of Alabama Act No. 95-775, as amended by Act No. 2014-439, (Chapter 89C of Title 11, Code of Alabama, 1975) the City of Birmingham hereby levies upon each parcel of real property or portion thereof located in the corporate limits of the City of Birmingham a fee to be determined as follows for the purposes of funding the stormwater program and to comply with the requirements of the National Pollutant Discharge Elimination System (NPDES) Permit ALS000001 or any subsequent permit(s) held by the City separately or in conjunction with other municipalities or Jefferson County or any other county:

"2. Alternatively, pursuant to the police power of the City of Birmingham, the City of Birmingham hereby levies upon each parcel of real property or portion thereof located in the corporate limits of the City a fee to be determined as follows for the purposes of funding the stormwater program and to comply with the requirements of NPDES Permit ALS000001 or any subsequent permit(s) held by the City separately or in conjunction with other municipalities or Jefferson County or any other county:

"A. The fee is levied on properties classified or assessed by the Jefferson County Tax Assessor (Birmingham and Bessemer Divisions) and the Shelby County Property Tax Commissioner pursuant to Sec. 217 of Article XI of the Constitution of Alabama, 1901, as amended, and Sec. 40-8-1, Code of Alabama, 1975, as Class I and Class II land use classifications in the amount of one-half of one cent ($0.005) per square foot of commercial space on or within each parcel or portion thereof located in the corporate limits of the City of Birmingham, as long as the

levied fee calculated for the commercial space is equal to or less than three thousand dollars ($3,000.00) annually per parcel and unless expressly exempted by this ordinance or Act No. 2014-439. For the purpose of this ordinance, "commercial space" is defined as the total area of all impervious surfaces (i.e., surfaces which prevent or impede the natural infiltration of rainfall) associated with and located on commercial property including but not necessarily limited to base building area plus the paved area within a parcel. The total area of commercial space may be determined through any data collection methods reasonably calculated to provide current and precise measurements of the area of impervious surface on a parcel.

"B. The fee is levied on any single family owner-occupied residential properties, historic buildings, or other sites classified or assessed by the Jefferson County Tax Assessor (Birmingham and Bessemer Divisions) and the Shelby County Property Tax Commissioner pursuant to Sec. 217 of Article XI of the Constitution of Alabama, 1901, as amended, and Sec. 40-8-1, Code of Alabama, 1975, as Class III land use classification in the amount of $10.00 per parcel or portion thereof located in the corporate limits of the City of Birmingham, unless expressly exempted by this ordinance or Act No. 2014-439.

"C. There will be no exemptions for this fee on any parcels located within the City of Birmingham, regardless of whether ad-valorem taxes are exempted for such parcels, except for:

> "i. those parcels designated by the Jefferson County Tax Assessor (Birmingham and Bessemer Divisions) and Shelby County Property Tax Commissioner as schools, churches, cemeteries or owner-occupied residences of owners who are over age 65, blind, or permanently and totally disabled;
>
> "ii. any real property classified or assessed as agricultural or forest land as reflected by the Tax Assessor's or Tax Commissioner's record;
>
> "iii. any real property not previously developed and classified or assessed as undeveloped property as reflected by the Tax Assessor's or Tax Commissioner's record;
>
> "iv. any lands and/or facilities owned and/or operated by commission non-jurisdictional electric suppliers, as defined by Sec. 37-4-140, Code of Alabama 1975, by one or more entities under the jurisdiction and supervision of the Alabama Public Service Commission, or such entities' affiliates, provided the owner of said property submits proof that such land and/or facilities are under the jurisdiction of the Alabama Public Service Commission."

SECTION 2. BE IT FURTHER ORDAINED that the Jefferson County Tax Assessor and Tax Collector (Birmingham and Bessemer Divisions) and the Shelby County Property Tax Commissioner are hereby requested to implement procedures

necessary and appropriate to assess and collect these fees. Each county collecting such fee, charge, or assessment shall receive a one percent commission on all amounts collected which shall be deposited to the county general fund.

SECTION 3. BE IT FURTHER ORDAINED that the Mayor be and is hereby authorized to take whatever actions are necessary to implement the assessment and collection of these fees as authorized by law.

SECTION 4. SEVERABILITY. The provisions of this ordinance are severable. If any part of this ordinance is determined by a court of competent jurisdiction to be invalid, unenforceable or unconstitutional, such determination shall not affect any other part of this ordinance.

SECTION 5. EFFECTIVE DATE. This ordinance shall be effective January 1, 2016 and when published as required by law.

Appendix D

ARTICLE 1. GENERAL PROVISIONS

Sec. 1.1. Title.

These regulations shall hereafter be known, cited and referred to as the Subdivision Regulations of the City of Birmingham, Alabama.

Sec. 1.2. Purpose.

These regulations are adopted for the following purposes:

A. To protect and provide for the public health, safety, prosperity and general welfare of the municipality.

B. To guide the future growth and orderly development of the municipality in an efficient and economic manner, in accordance with the comprehensive plan for physical development, including, but not limited to, the future land use plan, community facilities plan, capital improvements plan, major streets plan, bicycle and pedestrian plan and related plans and programs of the city.

C. To provide for adequate light, air, and privacy; to secure safety from fire, accidents, flood, and other threats to life and property; and to prevent overcrowding of the land and undue congestion of population.

D. To protect and conserve the value of land, buildings and improvements, neighborhood amenities and the natural environment in all parts of the municipality; and to minimize conflicts among varied uses of land, buildings and the transportation network.

E. To provide the most beneficial and harmonious relationship between the uses of land and buildings and circulation of traffic throughout the municipality, in particular avoiding congestion on the streets, and providing safe bikeways and pedestrian routes appropriate to the surrounding building densities and land use patterns.

F. To promote the most suitable layout and use of land, according to its capacity for development, and susceptibility to erosion, subsidence or environmental risks; to protect life and property from injury or damage caused by flooding, unstable slopes, and other natural and man-made hazards; to preserve beneficial open space and greenways, and the natural character of the land.

G. To establish reasonable standards of design and procedures for subdivisions; to ensure that suitable roadways, pathways and utilities are constructed in an efficient manner, so as to minimize costs of public servicing and maintenance; and to ensure proper legal descriptions and monumenting of subdivided land.

H. To ensure that public services, such as police, fire protection, and facilities, including schools and parks, as well as water, sewers, varied utilities and related infrastructure are available within a timely period, and will have sufficient capacity to serve the proposed subdivision.

I. To provide for safe and effective traffic circulation, with interconnected streets, as well as appropriate accessibility for the surrounding neighborhoods.

J. To prevent the pollution of air, streams, and ponds; to ensure the adequacy of drainage facilities; to safeguard groundwater and water tables; and to encourage the wise use and management of natural resources throughout the municipality in order to preserve the integrity, stability, and special character of each community.

K. To preserve the natural beauty and distinctive topography of the municipality and to ensure the most appropriate and compatible development with regard to these features.

L. To provide for open spaces through the most efficient design and layout of the land, including the use of average density in providing for minimum width and area of lots, while preserving the density of development as established in the zoning ordinance.

M. To remedy problems associated with partial, incomplete or inappropriately subdivided lands, including isolated, inaccessible or substandard lots, rights-of-way, or lacking site or public improvements, particularly affecting property originally sold or subdivided prior to the effective date of these regulations.

Sec. 1.3. Authority.

Under the provisions of title 11, chapter 52 of the Code of Alabama 1975, as amended, which provisions are hereby made a part hereof, these regulations governing the subdivisions of land are hereby amended by the Birmingham Planning Commission, on October 5, 2011, which shall be published as an ordinance, and shall be certified to the probate judge of Jefferson County, and the probate judge of Shelby County, Alabama, and to the clerk of the City of Birmingham.

Sec. 1.4. Authority of the subdivision committee.

In all matters properly and legally before it relating to subdivision regulations, the subdivision committee shall have all the powers, duties and restrictions imposed or conferred by law and these regulations on the planning commission and the words "subdivision committee" shall be understood wherever the words "planning commission" shall appear in these regulations, except where issues may be appealed or referred for initial decision to the full planning commission.

Sec. 1.5. Jurisdiction and applicability.

A. Upon adoption and publication as required by law, these updated regulations shall govern every subdivision of land made within the corporate limits of the City of Birmingham, Alabama, as now or hereafter established. This amends and supplements the original Subdivision Regulations, City of Birmingham, Alabama, enacted on January 1, 1956, and amended in June 1962, and as further amended, which are hereby repealed and replaced on the effective date of adoption of these regulations.

B. Any owner of land within the limits of said subdivision jurisdiction wishing to subdivide land shall submit to the subdivision committee a plat of the subdivision which shall conform at least to the minimum requirements set forth in these regulations. No plat of a subdivision lying within such territory, or part thereof, shall be filed or recorded in the office of the probate judge of Jefferson County or of Shelby County, depending on location of the property, and no subdivider shall proceed with improvements of lots in a subdivision, until such plat has been approved by the subdivision committee.

C. In accordance with title 35, chapter 2, section 52 of the Code of Alabama 1975, as amended, it shall be the duty of the probate judge in every county to decline to receive for record in his office any map or plat of lands, in any city having more than 10,000 inhabitants, which include mapped streets, alleys or public ways unless said plat shall have noted thereon the approval of the governing body and the city engineer.

Sec. 1.6. Interpretation, conflict and severability.

A. The provisions of these regulations shall be held to be the minimum requirements for the promotion of public health, safety and general welfare, and shall be construed broadly in support of the purposes for which they are adopted. More stringent provisions may be applied where it is demonstrated that different circumstances require higher standards to achieve such protections.

B. Where there may be any conflict among the provisions herein, or where any provision of these regulations may impose different restrictions from those of any other applicable provision of law, the more restrictive provision, imposing higher standards, shall govern.

C. Should any section or provision of these regulations be for any reason held void or invalid, it shall not affect the validity of any other section or provision hereof which is not itself void or invalid.

Sec. 1.7. Amendments.

The planning commission may from time to time adopt amendments that will tend to increase the effectiveness of these regulations or expedite the approval of subdivi-

sion plats. These regulations and amendments thereto may be changed or amended by the planning commission after a public hearing by giving due notice as required by law.

Sec. 1.8. Enforcement, violations and penalties.

A. It shall be the duty of the city engineer to oversee the design and construction of all public facilities, utilities and site improvements, and the director to administer all platting requirements; each to enforce all requirements under their jurisdiction, and to refer any violations of these regulations to the city attorney for further legal disposition, if necessary.

B. In accordance with title 11, chapter 52, section 33 [of the] Code of Alabama [1975], as amended, the City of Birmingham may take legal action against any owner or agent of the owner of any land within this jurisdiction that agrees to transfer or sell any part of the parcel, whether by reference to a proposed subdivision or a metes and bounds description, before and until a final plat of the subdivision has been approved by the subdivision committee and recorded in the probate court of the county in which the property is located.

C. No permit shall be issued for the construction of any building, structure, public improvement or site preparation located on a lot or plat subdivided or sold in violation of these regulations, nor shall the municipality have any obligation to issue certificates of occupancy or to extend utility services for such illegal properties.

D. Any owner or agent thereof found in violation of these regulations may be punished by a fine of up to $500.00 or by imprisonment in the city jail for up to 180 days, or both, for each lot transferred, in accord with the City of Birmingham General City Code 1-1-6. Each day of violation constitutes a separate offense.

E. In addition, civil enforcement proceedings may be taken in law or in equity to prevent any violation or unlawful construction, to recover damages, to restrain, correct or abate a violation, and to prevent illegal occupancy or use of a building, structure or premises involved.

ARTICLE 2. DEFINITIONS

Sec. 2.1. Usage.

A. For the purpose of these regulations, certain words, terms and phrases shall be used, interpreted and defined as set forth in these regulations. Definitions not expressly prescribed herein are to be construed in accordance with customary usage in municipal planning, zoning and engineering practice.

B. Unless the context clearly indicates to the contrary, words used in the present tense include the future tense; words used in the plural number include the singular; "shall" and "will" are always mandatory and "may" is permissive.

Sec. 2.2. Words and terms defined.

AASHTO. American Association of State Highway and Transportation Officials.

ADA. Americans with Disabilities Act.

Adjacent property owner. Owner, as listed in the county tax assessor's office, of property which touches the subject property at any point, or if their boundaries would meet in the absence of intervening right-of-way.

Alley. A public right-of-way providing secondary access to the back or side of a premises, that has primary frontage on a street.

Applicant. The owner of land proposed to be subdivided, or the owners' authorized agent or representative. Written consent is required from all owners of the premises.

Architect. A registered professional architect in good standing with the Alabama Board for Registration of Architects, and licensed to do business in the City of Birmingham.

Bicycle plan. Approved routes, on-road and off-road, designated for bicycle facilities such as bicycle lanes, shared vehicular lanes, and separate paths, which are linked into a safe and convenient, interconnected bicycle mode of transportation. Such facilities may include but are not limited to signs, pavement markings and bicycle actuated traffic signals.

Block. A tract of land bounded by public streets, private roads, railroads, utility rights-of-way or other legal or physical barriers.

Building. Any structure having a roof supported by columns, enclosed by walls, designed for the support, shelter or protection of, or occupancy by, persons, animals, chattels, movable property or equipment, or for varied uses or activities.

Building setback. The line within a property which defines a minimum (and maximum when applicable) horizontal distance to be provided between a building and the adjacent property line.

City. The City of Birmingham, Alabama, a municipal corporation.

City agency. Any office under the mayor, city council, administrative departments, authorities, boards, commissions or courts of the City of Birmingham, Alabama.

City clerk. The duly designated clerk of the City of Birmingham, Alabama.

City council. The chief legislative body of the City of Birmingham, Alabama.

City engineer. The duly appointed city engineer for the City of Birmingham, Alabama, or in the absence of the city engineer, a designee, appointed by the director of planning, engineering and permits or the mayor. The city engineer, or appointed

designee, shall be a city employee and a licensed professional engineer, qualified in civil engineering, and in good standing with the Alabama State Board of Licensure for Professional Engineers and Land Surveyors.

Cluster design. Development allowing concentrated construction in more suitable locations in order to preserve usable open space and recreational amenities on a property, through reductions in street lengths and lot sizes, but entailing no increase in average density overall.

Commercial and industrial service streets. Any street that has a primary purpose of providing access to either commercial or industrial development.

Common areas. All portions of real estate that are designated for joint use or undivided ownership in perpetuity, which are subject to covenants and restrictions under the control of a private trust, a non-profit group, board, or owners association, of separate lands, lots or units within a subdivision.

Common elements. A part or parts of the condominium property as set forth in the declaration in which all of the unit owners have an undivided interest.

Common ownership subdivision. A subdivision of land containing property held in common ownership by a property owners association, that may include privately maintained access.

Complete streets. A set of design principles that accommodates all users (motorists, pedestrians, bicyclists and transit riders) when designing streets.

Comprehensive plan. The official comprehensive plan for the physical development of the City of Birmingham, adopted by the Birmingham Planning Commission, as authorized by title 11, chapter 52 of the Code of Alabama 1975, as amended. Based on a comprehensive survey of present conditions and future needs for harmonious and economical growth, it includes various geographic and functional elements, and implementation programs, such as the zoning ordinance, subdivision regulations, major street plan, public facilities plan and land use plan, as well as housing plans, urban renewal plans, economic development plans and the capital improvements program.

Condominium. The form of ownership of real or personal property or a combination thereof under a declaration providing for ownership of units of the property by one or more owners. Such units may consist of private elements together with an undivided interest in common and limited common elements.

Conservation easement. A legal interest in real property imposing limitations or affirmative obligations on owners, their heirs, assigns and successors, protecting natural, scenic or environmental values, and assuring availability for agricultural, silvicultural, recreational or open space uses, protecting or enhancing resources, habitat, air and water quality, or preserving historical, architectural, archeological or cultural aspects of the land.

Cul-de-sac. A short local street with only one outlet open for traffic, and having a circular or other appropriate terminal area on the closed end for the convenient reversal of vehicular traffic. The length is measured from the center of its turnaround to the point where its centerline crosses the centerline of the nearest intersecting multiple outlet or non-dead-ended street.

Developer. The owner of land proposed to be subdivided or developed or his/her authorized representative. Persons acting on behalf of land owners shall provide written authorization from all land owners to act on his/her behalf.

Detention facility. A structure designed to capture and store excess stormwater temporarily, and which will drain completely at a predetermined rate.

Director. The director of the Planning, Engineering and Permits Department of the City of Birmingham, or his designee, who acts as the secretary for the Birmingham Planning Commission, and maintains all official records for the commission and its committees.

Easement. A right given by the property owner for another person or entity to use a designated portion of property, described by metes and bounds or a plat, only for specific purposes, to run with the land, as recorded in probate court.

Engineer. A licensed professional engineer, qualified in civil engineering, in good standing with the Alabama State Board of Licensure for Professional Engineers and Land Surveyors, and licensed to do business in the City of Birmingham.

Exceptional circumstances. Federal Highway Administration requirements for "due consideration" of bicycle and pedestrian facilities cannot be exempted unless there are exceptional circumstances:

1) Roadway use prohibits bicyclists and pedestrians;

2) Cost of bicycle or pedestrian facilities would be excessively disproportionate to the need or probable use; or

3) Sparse population or other factors indicate an absence of existing or future needs.

Exceptions. Proposals of alternative means of meeting the intent of specific subsections pertaining to design standards in article 5 and related engineering requirements of these regulations, which may be considered by the subdivision committee in accord with article 7 herein.

Excessively disproportionate. Bicycle or pedestrian mode cost exceeding 20 percent of the cost of the large transportation project.

FEMA. The Federal Emergency Management Agency.

Final plat. A subdivision plat proposing to create new lots from a tract of land, parcels, or other lots, meeting the requirements of these regulations, to be considered for approval by the subdivision committee, and in form for recording in the office of the probate judge of the county where the property is located.

Grade. The slope of a road, street or other public way expressed in percentage terms, measured as the vertical change divided by the horizontal distance. The average level of the finished ground surface adjacent to the exterior wall of a building (for zoning purposes).

Grading. Any act by which earth, sand, rock or similar material is cleared, stripped, stockpiled, excavated, scarified, quarried, removed or used as fill, or any combination thereof.

Impervious man-made surface. A hard surface which causes water to run off more rapidly or in greater quantities than under natural conditions, before development occurred.

Intersection boundary line. The line used to measure distance between an intersection and either commercial or residential driveways is a clearly marked stop or yield line. If none exist, then the near side of the crosswalk is the intersection boundary line. If neither of those do not exist, then the edge of pavement is the intersection boundary line.

Landslide. The downward movement of earth, rock or artificial material on a slope, whether by slow soil creep or sudden avalanche.

Lot. A plot, unit, or other portion of land in a subdivision or plat of land, having its principal frontage on a street, separated from other such portions by description on a record of survey map, for the purpose of ownership, sale, occupancy, use, construction or development, separate from other lands.

Lot of record. A lot in a subdivision that has been recorded in the office of the probate judge in the county where it is located prior to the adoption of subdivision regulations. If a portion of a lot or parcel has been conveyed prior to adoption of subdivision regulations, the remaining portion of such lot shall also be considered a lot of record.

Maintenance bond. Financial security filed by the applicant with the city to assure the structural integrity of all required improvements and their proper functioning for an initial period of time.

Major street plan. The official major street plan of the City of Birmingham adopted, amended and recorded in accordance with the provisions of title 11, chapter 52 of the Code of Alabama 1975, as amended.

Major subdivision. Any subdivision determined to be of a complex nature by the city engineer or director that would require preliminary plan approval.

Master plan. The official comprehensive plan for the City of Birmingham, Alabama.

Minor subdivision. A small subdivision that is of such small size or contains so few lots as to present no engineering or planning problems, involving no road, sewer, utility or similar public improvements, but maintaining a density and lot sizes compatible with the surrounding vicinity.

Nonconforming lot. A lot or parcel which does not conform to current zoning or subdivision regulations.

Not-for-profit organization. A group organized for nonprofit purposes, where no part of income or profit is distributable to its members, directors and officers, in conformity with all provisions of the Alabama Nonprofit Corporation Act, title 10, chapter 3A, of the Code of Alabama 1975, as amended, or the Alabama Unincorporated Nonprofit Association Act, title 10, chapter 3B, of the Code of Alabama 1975, as amended.

Open space. Land not covered by man-made impermeable surfaces, parking or buildings, other than recreational structures, pools, or stormwater facilities, which may be landscaped or preserved in a natural state for private use of owners or guests, or for public access as may be required by the provisions of these regulations or the zoning ordinance.

Parcel of land. An ownership of real property identified by a county tax assessor for the purpose of collecting ad valorem taxes.

Permeable surface. A land area of porous natural or prepared material which allows a high percentage of stormwater absorption.

Planning commission. The Birmingham Planning Commission, a legal agency of the city, authorized to approve the city comprehensive plan, major street plan, recommend comprehensive zoning plan and amendments, to adopt subdivision regulations and approve subdivisions proposals, in accord with state enabling legislation.

Preliminary plan. A tentative plan of a proposed subdivision, indicating the layout of lots, access and any public improvements, designed for presentation to the subdivision committee for its consideration.

Probate judge. The judge of probate for a county court in Alabama, where property maps and legal transactions are recorded.

Public access development. A cluster subdivision which makes usable open space available for public use in exchange for proportionate increases in development density in a zoning district approved by the governing body.

Reservation. A lot, tract of land, or an easement held for future acquisition by a public agency, or by a nonprofit organization acting in the public interest, normally for a stated period of time.

Retention facility. A structure designed to capture and store excess stormwater runoff for an indefinite amount of time.

Right-of-way. A strip of land, air space, or subsurface area, separate from any private lots or separate ownership, occupied or intended to be used as a street, transit line, pedestrian walkway or bikeway, railroad, accessway, alley, watercourse, drainageway or other public use or utilities, accepted and maintained by the governing body, agency, authority or other entity having jurisdiction or owning such rights.

Roadway. That paved portion of a street right-of-way or roadway easement situated between the regularly established curb lines, or that part of the street or alley devoted to vehicular traffic.

Roundabout. A design to channel approximately equal volumes of cross traffic at an intersection into a counter clockwise direction around a central island, so that each vehicle must yield before entering, and only exits by turning to the right.

Sidewalk area. That portion of a street or other right-of-way not included in the roadway, and devoted in whole or in part to pedestrian traffic.

Street. A public right-of-way for movement of motor vehicles, pedestrians or non-motorized traffic, whether identified as a street, highway, thoroughfare, parkway, throughway, road, avenue, boulevard, lane, place, or however designated.

Street classifications:

Limited access highway. A freeway or expressway providing a trafficway for the highest volume, high-speed through traffic, to which owners or occupants of abutting property or lands, and the general public, or other persons, have no legal right of access into or from, except at such points and in such manner as may be allowed by the public authority having jurisdiction over such trafficway.

Major arterial. A street or highway of great continuity designed to accommodate high traffic volumes and longer trip desires. Serving abutting land uses is subordinate to provisions for heavy traffic movements. Major arterials carry substantial portions of vehicular trips entering, leaving, or bypassing the urban area.

Minor arterial. A street or highway of considerable continuity interconnecting with and augmenting the principle arterial system, providing service to medium length trips at a moderate level of mobility. These systems place more emphasis on land access, and distribute traffic to smaller geographic levels than higher capacity streets.

Collector. A street with moderate continuity that channels traffic between arterials, and from other collector streets to the arterial system. Such a street may support commercial establishments and community centers along its route and may carry relatively high traffic volumes, connecting neighborhoods and communities into the larger urban street network.

Local. A street not classified in a higher thoroughfare system, primarily providing right-of-way for public use, including vehicular and pedestrian access, and utilities serving abutting land, within a neighborhood. Such street offers the lowest level of mobility; with service to cut-through traffic and excessive speeds deliberately discouraged.

Stub-out. A short street extension in a subdivision that provides access to undeveloped adjacent land. It shall be aligned to connect with the surrounding layout and, where adjacent tracts are vacant, with the most advantageous location for future development.

Subdivider. Any individual, firm, association, syndicate, co-partnership, corporation, trust or any other legal entity commencing proceedings under these regulations to effect a subdivision of land, acting as owner thereof, or as authorized agent of all such owners.

Subdivision. The division of a lot, tract of land or parcel into lots, plats, units, sites or other divisions of land for the purpose, whether immediate or future, of sale, building development or other separate use.

Subdivision bond. Financial security filed by the applicant with the city to assure the acceptable completion of all required improvements by a specified time.

Subdivision committee. A committee composed of five members of the planning commission authorized to hear and decide upon applications for subdivision of land, and to advise the chief legislative body of the city on vacation of public land and new right-of-way dedications, all such actions to be taken on behalf of the planning commission.

Surety. A legally binding agreement with the city, by which a developer assures the construction of all improvements as required by these regulations.

Surveyor. A licensed professional land surveyor, qualified in land surveying, in good standing with the Alabama State Board of Licensure for Professional Engineers and Land Surveyors, and licensed to do business in the City of Birmingham.

Swale. A constructed watercourse graded in earth materials with vegetation or pervious pavers.

Tract. Acreage which has never been subdivided before.

Traffic engineer. The duly appointed traffic engineer for the City of Birmingham, Alabama, or in the absence of the traffic engineer, a designee, who is appointed by the mayor. The traffic engineer or appointed designee shall be a city employee and a licensed professional engineer, qualified in civil engineering, and in good standing with the Alabama State Board of Licensure for Professional Engineers and Land Surveyors.

Unit. The private elements of the condominium property together with the undivided interest in the common elements and limited common elements which are assigned thereto in the declaration or any amendment thereof.

Waivers. A waiver allows an applicant to forego compliance with a provision of these regulations, as outlined in article 7 herein.

Zoning ordinance. The zoning ordinance of the City of Birmingham, Alabama. (Amd. of 3-6-2013)

ARTICLE 3. SUBDIVISION APPROVAL PROCEDURE

Sec. 3.1. Pre-application requirements.

Prior to preparing the layout for a subdivision, the property owner or authorized agent should discuss with the staff of the director, or designated representative, the procedure and requirements for adoption of a subdivision plat, any potential vacation or dedication of rights-of-way, needed improvements, and the general layout of streets, blocks, lots or common areas, reservation of land, easements or covenants, drainage, sewerage, fire protection, and any special topographic or physical characteristics, flood areas and other related issues, as well as availability of existing public facilities and services, including distance to schools and parks. A general concept plan should be prepared for administrative review and evaluation.

This will enable staff of the director to expedite plat classification and routing by producing the following outcomes: 1) identify any potential deficiencies in the plat, 2) determine if the subdivision constitutes a major subdivision that would require preliminary plan approval, 3) determine if the subdivision should be presented to the Superintendent of Birmingham Schools and the director of the park and recreation board for the City of Birmingham, and 4) prepare staff to discuss alternative designs and optional procedures which could be available under certain situations, and advise the applicant to discuss the proposed subdivision with other officials and agencies which must eventually approve those aspects coming within their purview, such as building and fire codes, zoning, traffic, access, grading, drainage, utilities and other public facilities, services and site requirements.

Sec. 3.2. Application for review.

To obtain a hearing on a proposed subdivision, the subdivider shall submit all the following items to the staff of the director at least 14 days prior to a regular scheduled meeting of the subdivision committee:

A. Five copies of the preliminary plan or final plat, conforming to all provisions of articles 4 and 5 below;

B. Five copies of a vicinity sketch, indicating nearby properties and the surrounding street pattern;

C. List of owners of property adjoining the proposed subdivision, with names and addresses as shown in the county tax assessor's office;

D. Site plan for any proposed new development, and as-built surveyor's certificate for any existing structures to remain;

E. Signed and completed application, and, if necessary, copy of a contract signed by the owner authorizing applicant to act on his behalf;

F. Written petition, in accord with article 7, if any waiver, or exception from these regulations is to be requested;

G. Application fee; and

H. Any other supporting information or relevant documents deemed necessary by the staff of the director.

After preliminary review of the materials submitted and consultation with the city engineer, if the director finds that the proposed subdivision requires coordination with the location and construction of new public facilities such as schools and parks, or may conflict with or raise questions about the need for updating or revising any portions of the major street plan, future land use plan, community facilities plan or other elements of the city's comprehensive plan for future development, the initial hearing on the preliminary plan may be referred to the full planning commission.

The director shall refuse to place any requested item on the agenda of the subdivision committee or the planning commission until and unless all information and material has been presented by the established deadline to verify compliance with all provisions of these regulations (or requests for specific waivers or exceptions) and the Birmingham Zoning Ordinance.

Sec. 3.3. Preliminary fees and notice.

To defray the cost of filing said subdivision, notifying interested parties, investigation of, and holding a hearing upon the proposal, the City of Birmingham will require the following fees to be paid by the subdivider at the time of filing the application for approval of the preliminary plan:

A. $5.00 per lot;

B. $10.00 per acre or portion thereof;

C. Cost of certified mail notice to adjacent property owners; and

D. $100.00 per subdivision plat.

Notice by certified mail to the subdivider and adjacent property owners, advising of the time and place of said hearing shall be mailed not less than seven days before the scheduled public hearing.

Sec. 3.4. Preliminary plan approval.

The subdivision committee may view the premises, and shall hear all information and comments by the applicant, public officials and the general public at the regularly scheduled hearing of the subdivision committee. Unless the subdivider agrees to, and requests in writing, an extension of time for a specified period, the subdivision committee shall take action to approve, approve conditionally, or disapprove such preliminary plan within 30 days of the plan being submitted to the subdivision committee (the date of submission being the date that the application is first presented to the subdivision committee). If approved conditionally, the conditions and reasons therefor shall be stated, and if necessary the subdivision committee may require the subdivider to submit a revised preliminary plan. If any waivers or exceptions to these regulations are granted, the reasons for such shall be specified.

If the subdivision committee disapproves the preliminary plan, the reasons for such action shall be stated and, if possible, recommendations made on the basis of which the proposed subdivision might be approved. Requests with insufficient information to verify compliance with any provision of these regulations constitutes grounds for disapproval. Where the applicant requests any waiver or exception, or if there is any question of compliance, particularly concerning the purposes outlined in section 1, and the criteria for approval in section 3.11, a development plan may be required to resolve the issues. One copy of the preliminary plan as acted upon by the subdivision committee shall be retained in its office, one copy forwarded to the city engineer, and one copy returned to the subdivider.

Sec. 3.5. Effect of preliminary plan approval.

Receipt of the subdivision committee's resolution of approval, and an approved copy of the preliminary plan by the subdivider is authorization, subject to the issuance of proper permits, to proceed with the construction of any improvements under the direction and supervision of the city engineer or his designee, and with the staking of streets and lots in preparation for the final plat.

However, such approval shall not constitute acceptance of the "plat" of the proposed subdivision, but establishes the approved preliminary plan as the guide for preparation of the final plat, which can only be submitted subsequently for final approval after satisfaction of all conditions of the preliminary plan approval.

Sec. 3.6. Engineering requirements.

A. The subdivider shall furnish the city engineer all plans and information necessary for engineering consideration and approval for the construction of the proposed improvements. Such plans and information shall be furnished separately and apart from the preliminary plan and vicinity sketch, and shall be certified by a licensed professional engineer.

B. Before starting construction, necessary arrangements must be made between the subdivider and the city engineer for adequate testing, construction inspection and required fees, to ensure that the improvements shall comply with the standard specifications of the City of Birmingham.

Sec. 3.7. Final plat filing and fees.

In no event shall the preliminary plan be considered as a submission of a plat for approval or disapproval as specified in title 11, chapter 52, section 32 of the Code of Alabama 1975, as amended; only the date of initial subdivision committee or planning commission hearing on the final plat, or a later continued hearing date requested by the applicant, shall constitute the official date of submittal.

A. The subdivider shall file the final plat and five copies thereof, which copies shall be distributed as in section 3.2 of this article by the staff of the director of the department of planning, engineering and permits at least 14 days prior to the date of the next regular scheduled meeting of the subdivision committee.

B. All proposed final plats shall have been signed and executed by all owners and necessary attesters before being recorded.

C. In completion of the application for final plat approval, the subdivider shall pay additional fees to defray the expense of investigation and hearing, as follows:

1. $5.00 per lot;
2. $10.00 per acre or portion thereof;
3. Cost of certified mail notice to adjacent property owners;
4. $100.00 per subdivision plat;
5. $100.00 per request for right-of-way vacation;
6. Actual cost of recording; and
7. $100.00 for each condominium project or common ownership subdivision.

D. Notice of hearing shall be carried out in the same manner as required in section 3.3.

Sec. 3.8. Approval of final plat and recording.

A. Approval or disapproval of the final plat shall take place in accord with the procedures of section 3.4, within 30 days after the date of submittal to the subdivision committee, unless the subdivider agrees in writing to an extension of that time. If the final plat is disapproved, the grounds for refusal shall be stated in the records of the subdivision committee. The action of the subdivision committee or planning commission shall be shown on the final plat with the date of action shown over the signature of the director or his designee.

B. Only upon satisfaction of all requirements and any conditions of approval, shall the city, acting as agent for the owner, file the final plat for record in the office of the probate judge of the county where the subdivision lies.

C. Five copies shall be made showing the map book and page numbers where the final plat is recorded; two copies shall be sent to and filed by the engineering division of the department of planning engineering and permits, one copy to the department of public works, if necessary, and one copy shall be retained in the office of the staff of the director, where copies will be available for other agencies concerned. Said final plat shall then be returned to the subdivider.

Sec. 3.9. Minor subdivisions and amended plats.

A. Where the director and city engineer find that a proposed subdivision is of such small size or contains so few lots as to present no engineering problems or planning issues, filing of a preliminary plan may be waived by the director and city engineer, and an acceptable final plat can be submitted for hearing in accord with section 3.7 above. This procedure only applies to minor subdivisions which:

1. Require no construction of any road, storm sewer, utility or similar public facilities or site improvements; and
2. Maintains compatible lot sizes or density in relation to similarly situated properties in the surrounding vicinity.

B. Where an amendment of a recorded plat is proposed solely to correct omissions or errors in descriptions, dimensions or notations, and all owners of lots in the affected subdivision submit a written request or authorization for such application, the director and the city engineer, after finding that the amendment will not affect any public improvements, covenants or restrictions, nor have a material adverse effect on property rights of other owners of adjoining properties, may approve an amended final plat for immediate recording. The amending plat shall be clearly marked and annotated as follows:

Amending plat of *(Name of Plat)*. This plat amends the plat previously recorded in the plat and deed records of *(Name)* County, Map Book *(Page)*.

This plat includes amendments approved on *(Date)* by the Secretary of the Birmingham Planning Commission: *(Signature)*.

No notice or hearing is required for such amendment.

Sec. 3.10. Common ownership subdivision.

Some subdivisions may create special common areas for the benefit of all owners, either to satisfy governmental requirements for health and safety, to protect fragile lands from erosion, contamination or landslides, preserve forests and critical habitat, or to allow voluntary sharing of civic and cooperative purposes, including but not

limited to activities such as: private parks, gardens and recreational facilities, environmental protection, valuable amenities, flood prevention (including detention or retention ponds), access to lakes or other water features, sewage treatment plants or lagoons, garages, parking lots or decks, storage or warehouses, identification and beautification, plazas, fountains, historic or aesthetic monuments privacy buffers or screening, local traffic control, safety or security concerns, pedestrian walks, bikeways, equestrian paths or trails, nature conservation, landmarks or historic preservation, buildings with a party wall on the property line between separate lots, and other residential or nonresidential uses, structures and improvements.

A. Application for final plat hearings on a common ownership subdivision shall be filed with the staff of the director according to procedures in article 3 of these regulations. Plats and any public improvements shall comply with articles 4 through 6, and identify any common areas on the plat to be owned by all property owners of the subdivision, as well as all other areas or improvements to be shared by all property owners. Further documentation shall include:

1. Property owners association. Common ownership subdivisions require relevant deed restrictions and protective covenants to assure the continuing usefulness, maintenance, operation and financing of the commonly held property by an incorporated, unincorporated or nonprofit property owners association composed of all owners of lots in the subdivision.

2. The property owners association for each common ownership subdivision shall administer the terms of the covenants, and manage all aspects of the common property, including the following powers and duties:

   a). Election of a board of directors with contractual authority;

   b). As owner of common property, responsible for construction, maintenance and operation of improvements and facilities on common lots, including any private roads, ways, parks, accessory uses, utilities and easements;

   c). Designation of uses allowed and prohibited activities;

   d). Annual budget planning, with an adequate maintenance reserve fund, and legal authority for enforcement; and

   e). Voting procedures to amend articles, bylaws, and alter, add or dispose of common property, change its purposes and site improvements, or to terminate the common ownership community or the property owners association, as may be approved by the subdivision committee, consistent with these regulations.

3. In addition to all other requirements of these subdivision regulations, the uses and all improvements on common lots shall be subject to subdivision committee approval of a site development plan. Applicant must submit three copies of a detailed site development plan to scale, fully dimensioned that includes the following: all structures, all lots, all common areas, all

easements, principal uses, roads, all traffic control devices, sidewalks, lighting, parking spaces, service areas, trash receptacles, curbs, drainage, and signs; indicating relations among buildings, structures, utilities, site improvements and open spaces.

4. The final plat, and all deed conveyances, shall reference the recorded covenants affecting any common areas. The articles of incorporation and bylaws of the particular property owners association shall be reviewed in conjunction with approval of the final plat, and those court recorded citations shall be referenced on the plat of such subdivision prior to its recording.

B. Application, fees, notice and hearing. No application shall be accepted that does not conform to all zoning requirements. The subdivider shall pay an additional fee of $100.00 for the filing of each common ownership subdivision final plat application, as noted along with the normal subdivision fees listed in section 3.7; such charges to be paid upon submission of an acceptable application. The subdivision committee shall hold a public hearing on the subdivision proposal, following the same notice and procedures as established in article 3 of these regulations.

C. Private road subdivisions. A waiver of dedication of public street rights-of-way may be requested for proposed lots in a new subdivision or resubdivision of land. The subdivision committee may consider approval of lots having frontage on private roads only as a common ownership subdivision according to this article, through conveyance of the common area of all new private road areas to the property owners association. Approval will be subject to compliance with all standards of design and construction of the required improvements as set forth in articles 5, and 6, and any exceptions recommended in accord with article 7, plus any pertinent conditions necessary for compatibility with the surrounding area, taking into account provisions for health and safety, efficient and economical arrangement of streets and development, including the following circumstances:

1. Where the subdivision may be isolated by unusual terrain and physical barriers, but can be connected safely and conveniently into the existing public street system;

2. Where no future major highway, collector or local street will be needed for access by the general public, or for public street, sewer and utility connections into adjoining properties; and

3. Where it will not obstruct convenient and timely connections for traffic circulation, and access to the public street system, or impede access to schools, other public facilities and services in the surrounding vicinity, particularly for emergency responders.

The property owners association shall have the right to erect and operate guardhouses and gates as security check points on the common area at the entrances to public streets, if an adequate turnaround is provided through a general access easement within the subdivision. Any gate control shall provide an override system in case of power failure, with master key or gate code for the use of all emergency services, utilities, school district and law enforcement personnel.

D. Private road responsibilities. Private roads, alleys, other access ways, utilities and drainage improvements shall be constructed by the developer on the common area or private easements in the subdivision. An acceptable private road and sewer maintenance agreement shall be recorded, binding all current owners, their successors and assigns to full legal responsibility for all maintenance, repair and upkeep of any improvements in any common areas, private roads, utilities, drainage and other easements in the subdivision. The current owners of the affected property shall also record a covenant binding all subsequent owners in the subdivision to release, indemnify, defend and hold harmless the city, its officers, agents and employees, and also any other governmental entity, public or private utility, for any damages or injuries which may be occasioned by reasonable use or from conditions of the private road.

1. A general easement covering the area of all private roads and ways shall be granted to the city and utility providers for the unrestricted ingress/egress, use and maintenance of utilities and drainage systems. Water and sewer facilities may require specific rights-of-way. The easement shall also provide the city and other public agencies the right of access for any purposes related to exercise of a governmental service or function, or emergency response, including but not limited to fire and police protection, inspections and code enforcement and may include trash pickup.

2. The final plat and all property deeds shall clearly state that the "MAINTENANCE OF STREETS AND DRAINAGE IS A PRIVATE RESPONSIBILITY, AND PUBLIC MAINTENANCE IS PROHIBITED;" and that the city shall not accept said improvements for maintenance at a later date unless the property owners association provides documentation to the city engineer and traffic engineer that said improvements comply with the design standards of the subdivision regulations, and are in good physical condition, with no need for repairs, and provided further that said improvements shall be accepted by the city only upon a favorable recommendation by the city engineer and traffic engineer.

3. The developer, owners and association will also be responsible for installation and maintenance of traffic signals, directional markers, street signs

and lighting, as required by the city engineer and traffic engineer; however, no governmental, emergency, public service or utility vehicle, or personnel, shall be denied access at any time.

E. Construction of private roads and other improvements. In supplement to the regular procedures set forth in articles 3, 5 and 6, and any potential waiver or exception requests in conformity with article 7 herein, no private road subdivision can be recorded until all conditions of the subdivision committee's final plat approval have been met, including documentation filed with the city engineer, by a licensed civil engineer, verifying on-site inspection and certification that all required road, utility and drainage improvements have been installed and completed in accord with the design standards of these subdivision regulations.

Sec. 3.11. Procedure to approve or disapprove subdivision plans or plats; appeals to planning commission.

A. The subdivision committee will hold its meetings and conduct hearings as provided for in its Rules of Procedure (Appendix B), as amended, taking actions as required by these regulations, and maintaining all its records available to the public in the office of the director.

B. A quorum of the committee shall consist of three citizen appointed members; and an affirmative vote by a majority of the members present is necessary to take any action.

C. The subdivision committee will have the authority to grant requested waivers or exceptions in compliance with article 7, if favorably recommended in writing by either the director or the city engineer, but if either official recommends against such request, it can only be approved by unanimous consent of the committee members present.

D. Any applicant whose proposal to subdivide land is denied by the subdivision committee, shall have the right to appeal to the planning commission in accordance with the following procedures and requirements:

1. The applicant must file a written notice of appeal to the planning commission, specifying the decision from which the appeal is taken, and the grounds for any reversal or revision.

2. The applicant must file the appeal within 15 days from the date the application is denied by the subdivision committee, post a $100.00 fee and pay the cost of certified mail notice to adjacent property owners.

3. When an appeal is filed with the planning commission, the subdivision committee will submit all materials of record involved in the particular case and the subdivision committee will have no further jurisdiction in the case.

E. Any aggrieved party may also appeal as outlined in subsection D. above, and also transmit a copy of the appeal to the applicant by certified mail.

F. The city engineer, or the director, whenever aggrieved by any decision of the subdivision committee, may also, within 15 days thereafter, appeal to the planning commission by filing a written notice of appeal specifying the decision from which the appeal is taken, and sending by certified mail to the applicant a copy of said written notice of appeal.

G. The same notice of hearing as outlined in section 3.3 above shall also be given to all parties in interest, for the appeal hearing before the planning commission.

H. The planning commission shall conduct its hearings in accord with articles V and VII of its bylaws (Appendix A), as amended, consistent with these regulations on all subdivision cases; however in appeal cases, its review shall be limited to evaluation of the evidence submitted on the record, unless it determines by an affirmative vote of 12 members that additional facts may have relevance to the decision, whereupon the case shall be tried ab initio, allowing presentation of new evidence.

I. The planning commission has final jurisdiction on appeals, and shall have 45 days from receipt of the appeal in which to decide whether to uphold or reverse the original decision; and it may change any conditions of approval, or add new conditions; or disapprove the proposed subdivision, specifying the reasons therefor on the record.

J. In the process of such adjudication, the planning commission is empowered to rule on appeals of any administrative interpretation, and may grant requested waivers or exceptions in accord with article 7 herein.

Sec. 3.12. Criteria for approval or disapproval of a subdivision.

All decisions of the subdivision committee concerning proposed subdivisions must be based on factual evidence presented by the subdivider confirming the suitability of particular lands for proposed buildings, construction, access, type and intensity of development or other uses. No new lots shall be created which pose hazards to health, safety or the general welfare, or are not designed in character with existing surrounding subdivisions, or which are not developable or usable for some public purpose or private activities in accord with all applicable zoning provisions.

In accord with state enabling authority, and in pursuit of the goals set forth in the purposes of these regulations, the benefits and liabilities of all new subdivisions must be evaluated for consistency with Birmingham's Comprehensive Plan for physical development, including land use, transportation, capital improvements, community facilities, emergency and other public services, parks, schools, water, sewer, stormwater and utilities plans.

Each new subdivision shall comply with all design standards for public improvements, and site preparation, as specified in Article 5 of these regulations, and must be found to satisfy the following standards of acceptability:

A. Soils, topography, geological and hydrological hazards have been adequately investigated to ensure that all lots are developable for their designated purposes, particularly where there is evidence of potential risks from:

   1. Floodways and lands within the 100-year floodplain, water courses, wetlands, surface water or groundwater resources;

   2. Dumps, strip mines, buried brush and debris or sanitary landfills;

   3. Highly erodable soils, tailings or severe susceptibility to subsidence, sinkholes or landslides;

   4. Rock outcrops, or steep terrain with over 25 percent slopes; and

   5. Soils or water contaminated with industrial, chemical or toxic wastes.

B. Where construction limitations on less hazardous floodplains, isolated drainage basins, problem soils and subsurface conditions can be resolved through best management practices, mitigation measures must effectively reduce the risks for future owners in the subdivision and in the surrounding vicinity.

C. To prevent the increased severity and extent of flash floods and ponding, with resultant erosion, stream pollution and loss of groundwater, new construction should: minimize the amount of cut and fill; recycle top soil; retain maximum soil infiltration and maintain vegetation on permeable surfaces; avoiding rapid runoff of stormwater in order to diminish peak levels and duration of flooding.

D. Supporting information verifies that every new lot can be used safely for building purposes without danger to health or peril from fire, flood or other menace, having access to adequate transportation, emergency services and public facilities, including schools, parks, water, sewers and utilities.

E. The proposed development will not have detrimental impacts on the safety or viability of permitted uses and development of adjacent properties, but will maximize compatibility among varied activities, through separation of conflicting traffic modes, and utilization of effective landscape buffers and screening features.

F. When designing the layout of public streets, ways, lands, blocks, lots or common areas, priority should be given to preservation of natural amenities, significant landforms and environmentally sensitive areas. At a minimum, existing trees should be maintained or new shade and evergreen trees should be added to maximum extent possible.

G. The configuration of streets and easements facilitates pedestrian access and/or bikeway paths connecting into existing or planned schools, parks, open space, greenways, commercial or entertainment centers, employment destinations and transit corridors.

H. To prevent the possible resulting damage to new development or existing buildings in the landslide susceptibility zone, prior to development in these areas the developer will provide a completed Soil Erosion and Sedimentation Control Geotechnical Certification. The certification can be obtained from the land development engineer located on the 2nd floor of the Comer Building at 808 18th Street North, Birmingham, AL 35203.

Sec. 3.13. Suspension or invalidation of final plat.

Whenever it is found that any subdivider, heir, assigns or subsequent owners, failed to meet all conditions and requirements of final plat approval within the prescribed period, the director or his designee shall notify the subdivider/owner of their specific violation of these regulations. If no compliance actions are commenced within 30 days thereafter, the subdivision committee may recommend that the city attorney take appropriate enforcement action, and also prepare a document to be recorded with the probate judge of the county in which the subdivision is located, declaring that final approval for such subdivision is suspended, and that the further sale, lease, or development of property within that subdivision is prohibited until it is brought into compliance with all terms of said approval. However, this prohibition shall not apply to persons or parties who have acquired property from the subdivider, unless that person or party shares a legal interest in common with the subdivider.

If a court of competent jurisdiction invalidates the final plat approved for any subdivision or part thereof under its jurisdiction, the director shall record such document with the probate judge of the county in which the subdivision is located, declaring that the final plat for the subdivision is no longer valid, and that further activity under that subdivision is prohibited.

Sec. 3.14. Vacation of recorded plat.

The owner of a recorded subdivision may request that its plat be vacated before the sale of any lot therein and prior to improvement of any rights-of-way, utilities or easements, only through the same procedures required for vacations as described in article 8.

ARTICLE 4. PLAT REQUIREMENTS

Sec. 4.1. General.

All surveys and plats shall be prepared in accordance with the current edition of Standards and Practice for Land Surveying in Alabama, as adopted by the Alabama Society of Professional Land Surveyors.

Sec. 4.2. Preliminary plan.

A. The preliminary plan shall show the following:

1. Date.
2. North point (arrow).
3. Title of subdivision.
4. A vicinity sketch or key map of the surrounding area shall accompany the preliminary plan. This sketch or map shall show all existing subdivisions, streets, and tract lines of acreage parcels, and right-of-way width of all streets abutting the proposed subdivision. It shall also show how streets and alleys in the proposed subdivision may connect with existing and proposed streets and alleys in neighboring subdivisions or undeveloped property to produce the most advantageous development of the entire neighboring area.
5. A graphic scale not more than 60 feet to the inch unless the average lot contains one acre or more, but in no event more than 100 feet to the inch.
6. Topography:
    a). Based on City of Birmingham, Alabama; Geodetic, or U.S. Coast and Geodetic Sea Level Datum.
    b). Elevation contours shall be at one-foot intervals unless the grade has five percent to ten percent slopes, in which case contours shall be at no greater than two-foot intervals. Where grades exceed ten percent, the contours shall be no greater apart than five-foot intervals, while grades steeper than 25 percent shall have contours at no greater than ten-foot intervals.
7. Streets:
    a). Names (with a letter from the United States Postal Service stating that there is no duplication of proposed names within the metropolitan area of the city).
    b). Right-of-way, sidewalks and roadway widths.
    c). Approximate grades.
    d). Purposes.
8. Other rights-of-way or easements: locations, widths and purposes.
9. Utilities: location of those on or adjacent to the tract to be subdivided, including size and elevation.
10. Lot lines, lot and block numbers and approximate dimensions.
11. Names and addresses of all owners of the property, including the existing mortgagees, the subdivider, and the surveyor platting the tract.

12. Number of section, township and range with ties to all recognized existing quarter section corners within or close to the proposed subdivision.
13. Proposed location, size and type of streetlights and signs.
14. Proposed parks, school sites, or other public open spaces, or common areas on site.
15. Exact boundary lines of the tract indicated by a heavy line giving distances to the nearest hundredth of a foot and bearings to the nearest second of arc.
16. Floodway and floodway fringe boundaries within the subdivision. If within the 100-year floodplain the lowest allowable finished floor elevation for each lot, based on officially adopted floodplain regulations of the City of Birmingham in effect at the time the plat is recorded.
17. If any portion of the proposed subdivision is subject to other isolated causes of inundation by storm sewers or overflow or ponding of local stormwater, such fact and portion shall be clearly shown and identified.
18. Natural resources inventory: based on a topographic map to be imposed on the preliminary plan, the inventory shall include but not be limited to:
    a). Existing vegetation areas including forests and woodlands.
    b). Subwatershed boundaries and receiving waters.
    c). Slopes, Red Mountain slide zones, soils and groundwater characteristics.
    d). Existing lakes, streams, ponds and drainage swales.
    e). Delineated or designated wetlands and blue line streams.
19. Any other information that may be necessary for the full and proper consideration of the proposed subdivision.

B. Effective period of preliminary plan approval. The approval of a preliminary plan shall be effective for a period of two years, at the end of which time a final plat approval on the subdivision must have been obtained from the subdivision committee or planning commission, and recorded in the county in which the subdivision is located. Any preliminary plan not receiving a final plat approval covering at least 20 percent of its total lots or acreage within said time period shall be null and void, and the developer shall be required to resubmit a new plan for preliminary approval subject to all new zoning restrictions and subdivision regulations. However, the timely phasing of any such partial final plats shall extend the validity of the original preliminary plan approval for an additional one year.

Sec. 4.3. The final plat.

A. The final plat shall be an original drawing in ink, on reproducible media with dimensions no greater than 24" by 36", and shall be tied to an accepted corner based on the U.S. Government Survey of this area which shows the relationship to the

Huntsville Base Line and the Huntsville Meridian. A resurvey of a part of a subdivision may be tied to the original subdivision. The final plat shall also show the following:

1. Exact boundary lines of the tract indicated by a heavy line giving distances to the nearest hundredth of a foot and bearings to the nearest second of arc.
2. Right-of-way lines of streets, easements, and other rights-of-way.
3. Property lines of lots, with accurate dimensions, bearings, of deflection angles, radii, and central angles of all curves.
4. Name and right-of-way width of each street, width of sidewalk and/or designation of other right-of-way.
5. Location, dimensions, and purposes of any easements.
6. Number to identify each lot or site.
7. Purpose for which sites, other than residential lots, are dedicated or reserved, it being understood that any reservations of areas for other than residential purposes shall be subject to the proper zoning thereof.
8. Location and description of monuments.
9. Reference to recorded subdivision plats of adjoining platted land by map book volume and page number.
10. Title of subdivision, graphic scale, written scale, north arrow.
11. Name and license number of surveyor.
12. Date.
13. Quarter section or quarter sections in which the subdivision is located based on the government survey of that area.
14. Space for the approval of the city engineer and the Birmingham Planning Commission.
15. Floodway and floodway fringe boundaries within the subdivision. If within the 100-year floodplain the lowest allowable finished floor elevation for each lot, based on officially adopted floodplain regulations of the City of Birmingham in effect at the time the plat is recorded.

B. On all plats when there is no mortgagee, whether there is a dedication of property for street purposes or not, a certificate substantially in form as follows:

THE STATE OF ALABAMA

(insert name) COUNTY

The undersigned, (*insert surveyor's name*), surveyor and (*insert owner's name*), owner(s), hereby certify that this plat or map was made pursuant to a survey made by said surveyor and that said survey and this plat or map were made at the instance of

said owner(s); that this plat or map is a true and correct plat or map of lands shown therein and known or to be known as (*name of subdivision or resurvey*) showing the subdivisions into which it is proposed to divide said lands, giving the length and bearings of the boundaries of each lot and its number, showing the streets, alleys and public grounds, giving the bearings length, width and name of each Street, as well as the number of each lot and block and showing the relation of the lands to the government survey (or, if the plot is a resurvey of an existing recorded subdivision, "showing the relation of the lands to the survey of (*insert subdivision name*) as recorded in the Probate Office of *(insert NAME)* County in Map Book (insert number), Page (insert number)"); and that iron pins have been installed at all lot corners and curve points as shown and designated by small open circles on said plat or map. Said owner(s) also certifies (certify) that he (she, they, it) is (are) the sole owner(s) of said lands and that the same are not subject to any mortgage. Said owner(s) hereby irrevocably dedicates (dedicate) all new streets, alleys and public grounds, as well as easements for all utilities, as shown by said plat or map. Said owner(s) agrees (agree) that the City of Birmingham may at any time change the natural or existing grade of any Street, alley or public grounds, or any part thereof, from the natural or existing grade to the permanent grade without the payment of compensation or damages to the abutting owner; and this agreement shall be a covenant running with the lands. The undersigned appoints the City of Birmingham as agent for the purpose of filing said plat or map, together with this instrument, for record, and certify that we have full authority to execute this instrument and map.

Dated _____ 20____.

(Execution and Acknowledgment by Surveyor, Owner(s))

C. On any plats when there is a mortgagee, whether there is a dedication of property for street purposes or not, a certificate substantially in form as follows:

THE STATE OF ALABAMA

(insert name) COUNTY

The undersigned, (*insert surveyor's name*), Surveyor, and, (*insert owner's name*) owner(s), hereby certify that this plat or map was made pursuant to a survey made by said surveyor and that said survey and this plat or map were made at he instance of said owner(s); that this plat or map is a true and correct plat map of lands shown therein and known or to be known as *(name of subdivision or resurvey)* showing the subdivisions into which it is proposed to divide said lands, giving the length and bearings of the boundaries of each lot and its number showing the subdivision streets, alleys and public grounds, giving the bearings, length, width and name of each Street, as well as the number of each lot and block and showing the relation of the lands to the government survey (or, if the plot is a resurvey of an existing recorded subdivision "showing the relation of the lands to the survey of (*insert subdivision name*) as recorded in the Probate Office of *(insert name)* County in Map Book *(insert number),*

Page *(insert number)*"); and that iron pins be installed at all lot corners and curve points as shown and designated by small open circles on said plat or map. Said owner(s) also certifies (certify) that he (she, they, it) is (are) the sole owner(s) of said lands and that the same are not subject to any mortgage, except a mortgage or mortgages held by the following mortgagee(s): (*insert mortgagee name(s).* Said owner(s) and said mortgagee(s) hereby irrevocably dedicate all new streets, alleys and public grounds, as well as easements for all utilities, as shown by said plat or map. Said owner(s) and said mortgagee(s) agree that the City of Birmingham may at any time change the natural or existing grade of any Street, alley or Public grounds, or any part thereof, from the natural or existing grade to the permanent grade without the payment of compensation or damages to the abutting owner; and this agreement shall be a covenant running with the lands. The undersigned appoints the City of Birmingham as agent for the purpose of filing said plat or map, together with this instrument, for record, and certify that we have full authority to execute this instrument and map.

Dated _____ 20____.

(Execution and Acknowledgement by Surveyor, Owner(s) and Mortgagee(s))

D. Notary's acknowledgement of the certificate referred to in [subsection] (B) or (C) above, substantially in the form as follows:

STATE OF ALABAMA

(insert name) COUNTY

I, (*insert notary's name*), as Notary Public in and for said County and State, do hereby certify that (*insert surveyor's name*), whose name is signed to the foregoing certificate as Surveyor, and (*insert owner's name*), whose name is signed to same as Owner and (*insert mortgagee's name*), whose name is signed to same as Mortgagee), all of whom are known to me, acknowledged before me, on this date, that after having been duly informed of the contents of said certificate, they executed same voluntarily as such individuals (or in any other capacities) with full authority therefore.

Given under my hand and seal this ____ day of , 20____.

_____

Notary Public

E. On all plats where there is a dedication of land for street purposes, whether in the form of new streets, additional right-of-way for existing streets, or merely curve radii where there were angle corners formerly existing, a resolution substantially in form as follows:

1. Where the subdivision is subject to a performance bond in lieu of actual completion of all required improvements:

   BE IT RESOLVED By the Council of the City of Birmingham that this body hereby acknowledges reception of the owner(s) irrevocable offer of dedication of

the streets, alleys and Public grounds as shown on the plat or map of *(insert plat name*) which said plat or map is certified to have been made by (insert surveyor's name) a surveyor at the instance of *(insert owner's name)* as owner, and acknowledged by *(insert mortgagee(s) name, if any)* as mortgagee, and it has been exhibited to this Council; said plat or map being filed for future consideration by this Council, and signed by *(insert City Clerk's name*) City Clerk, of even date herewith. But this shall not be construed as an assumption of dominion over any new street, alley or public grounds shown on said plat or map or impose liability upon the City for the upkeep of same, until and unless all subdivision improvements and conditions have been completed to the satisfaction of the city engineer, as a prerequisite to adoption of an ordinance of acceptance by this Council.

2. Where all required improvements and conditions of approval for the subdivision have been completed, and subjected to any maintenance bond, to the satisfaction of the city engineer:

   BE IT ORDAINED By the Council of the City of Birmingham that after inspection of the plat or map entitled *(insert subdivision name),* which is proposed to be recorded in the office of the Judge of Probate of *(insert name)* County, and which is certified to be made by *(insert surveyor's name)* surveyor, at the instance of *(insert owner's name)* as owner, and acknowledged by *(name of mortgagee)*, as mortgagee, and giving due consideration to the offer of irrevocable dedication by said owner, and after notification that all required improvements and conditions of approval have now been completed to the satisfaction of the city engineer*, (insert name)*, this Council accepts the aforesaid offer, and hereby dedicates all new streets, alleys and Public grounds as shown on the aforesaid plat or map, being further identified by a recital of the approval of this Council signed by *(insert name of City Clerk),* City Clerk, of even date herewith.

3. Where a subdivision has been recorded as in paragraph 1 above, upon completion of all required improvements, the city engineer shall present to the city council for adoption, an ordinance substantially comparable to that in paragraph 2 above, citing the map book and page number where the plat has been recorded.

F. On all plats for subdivisions where there are sanitary sewer easements located in Jefferson County, a certificate shall be shown substantially in form as follows:

Jefferson County Environmental Services Department hereby approves this record map for sanitary sewer purposes only. Such approval indicates that easements have been dedicated for future Jefferson County sanitary sewers, however this does not mean sanitary sewers have been built or will be built in the future. Any change in the Right-of-Way or Easement Boundaries after this date may void this approval.

_____ Date: _____

Director of Environmental Services
APPROVED IN FORMAT ONLY

Where a different entity has jurisdiction over the site, a similar certificate shall be included concerning sanitary sewer easements by that agency or authority.

G. On all plats for property in Jefferson County, where the sanitary sewer will be located within a private roadway, a certificate shall be shown substantially in form as follows:

RESERVATION OF SANITARY SEWER EASEMENT

Jefferson County, a political subdivision of the State of Alabama, reserves a sanitary sewer easement within the entirety of the private roadways shown herein to enter upon, keep clear, cross over and under for the purposes of installing, maintaining and repairing a sanitary sewer pipeline, manholes and all appurtenances thereto within said easement. In the event that the private roadways shown herein shall become public roads in the future, the easement reserved herein shall not be altered, destroyed or revert to the fee owners, but shall remain in full force and effect. This reservation shall not affect any other sanitary sewer easement more specifically described herein nor is it intended to create a public roadway easement in the private roads shown herein or a duty to maintain said private roads by the county or city of Birmingham. The sole purpose of this reservation is to reserve a sanitary sewer easement in the private roadways shown herein.

Environmental Services Department approval indicates that easements have been dedicated for future Jefferson County sanitary sewers however this does not mean sanitary sewers have been built or will be built in the future. Any change in the right-of-way or easement boundaries after this date may void this approval.

_____ Date: _____

Director of Environmental Services
APPROVED IN FORMAT ONLY

If a different entity has jurisdiction over the site, a similar certificate shall be shown as required by such entity.

H. If a waiver from the requirement for sanitary sewer main extension to any lot is granted, a note shall be shown on the plat as listed in subsection 5.8D, prohibiting any building permit, except where an onsite sewage disposal system permit has been obtained from the authorized jurisdiction.

I. Where a street or alley has been vacated, a note on the plat indicating such and referring to the recorded instruments of vacation by deed book and page number.

J. If there are existing structures on land proposed to be subdivided or resubdivided or on immediately adjoining land in which the subdivider has or has had or will have an interest, three copies of a survey plot plan showing the exact locations of such structures with their relation to the proposed subdivision or resubdivision shall accompany the final plat, two of which shall be forwarded to the city engineer.

K. The final plat shall be accompanied by three copies of any protective covenants running with the land in form of recording.

L. Effective period of final plat approval. If the final plat, as approved by the subdivision committee or planning commission, is not recorded within one year of the date of final approval, the approval of such plat shall be deemed to have expired and the developer shall be required to resubmit a new plat for final approval.

ARTICLE 5. DESIGN STANDARDS

Sec. 5.1. Street plan.

A. All streets shall be platted along contour elevations, which will result in minimum steepness of street and lot grades and greatest visibility wherever practicable, with consideration given to the anticipated use of the land, taking all measures to avoid unnecessary street length, through careful layout of lots and by strategically planning for interconnectivity.

B. The proposed street layout shall be made according to good land planning practice for the type development proposed and shall be coordinated with the street systems of the surrounding areas. All streets must provide for the continuation or appropriate projection and dedication of principal streets into surrounding areas to provide reasonable means of ingress and egress for surrounding acreage tracts. Street patterns in all subdivisions shall be in conformity with the major street plan and bicycle plans of the City of Birmingham. Arterials and collector streets and planned bicycle routes should be consistent with the most current Birmingham Metropolitan Planning Organization's Regional Transportation Plan (RTP).

C. In subdivisions which border on or include within the proposed areas to be subdivided any expressway or major or minor arterial street, access to lots abutting such major traffic arteries shall be provided in a manner such that the individual lots shall not have direct access to such expressway or arterial streets. The subdivision committee may require parallel streets on each side as marginal access service roads. Where proposed residential lots need buffering from abutting traffic impacts, double frontage lots shall be aligned to back up to the major street, retaining a planting screen no less than 20 feet wide, with their access limited solely to parallel local roads or side crossing streets. Where the foregoing designs are not feasible, access to arterial or high-volume collector routes should be minimized by utilizing a shared driveway that is regulated by a covenant.

D. Except where buffers or screening may be needed for compatibility or aesthetics, reserve strips or "spite" strips, unduly restricting access needed for nearby properties are prohibited.

E. The geometric design of bicycle facilities on all roadways shall conform to the Guide for the Development of Bicycle Facilities, latest edition, published by AASHTO. Signs and pavement marking for bicycle facilities shall conform to The Manual on Uniform Traffic Control Devices, latest edition, published by the Federal Highway Administration or as modified by the traffic engineer.

F. Where practical, for traffic calming or to better manage high capacity street intersections, roundabout design shall be considered as an alternative to traffic light control signals or signage alone, to determine relative safety, efficiency and economy. All design of any proposed roundabout will be subject to the approval of the traffic engineer and city engineer.

G. Subdivisions will be designed with more than one means of ingress and egress.

H. All curb extensions and designated on-street parking design shall be reviewed and approved by the traffic engineer and the city engineer.

I. Subdivisions along existing or dedicated or platted streets where rights-of-way are inadequate shall provide additional rights-of-way to meet minimum standards for the topographic situation and category of traffic of such streets. Where a subdivision would include within its boundaries any link listed on the Birmingham Major Street Plan or Bicycle Plan for a new or widened street or other route, sufficient right-of-way shall be dedicated to serve its designed capacity, however the subdivider shall not be responsible for construction of such road beyond local street standards.

J. All driveways shall be installed in accordance with the provisions of article F [of chapter 5 of title 4] of the General Code of the City of Birmingham, Alabama, as amended.

K. All collector and local streets shall conform to the following intersection design standards:

Standard	*Topographic Gradients*		
	0—8%	*8.1—15%*	*Over 15%*
Clear horizontal sight distance (Length along each approach leg)	90 feet	90 feet	70 feet
Vertical alignment within 100 feet of the centerline of intersections	5%	5%	5%
The minimum centerline offset of adjacent street intersections shall be as follows:			
Local-Local	150 feet		
Local-Collector	150 feet		
Collector-Collector	200 feet		

L. Street alignment shall be designed to eliminate sharp curves and street jogs. Streets shall intersect at right angles if possible and in no case at an angle of less than 75 degrees.

M. Curb radii of collector and local streets shall be 25 feet.

N. Streets shall be aligned to connect with the surrounding layout and, where adjacent tracts are vacant, with the most advantageous location for future development. Stubbed streets 100 feet long or greater, ending at the edge of a subdivision, shall provide a temporary maneuver area for the reversal of vehicle direction within the right-of-way. A sign shall be erected at the entrance intersection to the no-outlet street, warning motorists of the lack of connection to other streets, in accord with the Manual on Uniform Traffic Control Devices, cited above.

O. Streets shall be graded to a minimum line of seven feet back of the curb line with a slope no greater than two percent measured from the top of curb.

P. Prior to applying the final seal coat in paving the streets, fire hydrants shall be installed in all locations necessary to protect every lot or proposed structure in accord with the requirements of the Birmingham Fire and Rescue Service.

Q. The provisions of article [section] 5.1 of these regulations shall be complied with, except that the subdivision committee will have the authority to grant requested waivers or exceptions in accord with article 7, if favorably recommended in writing by either the director or the city engineer; but if either official recommends against such request, it can only be approved by a unanimous vote of the subdivision committee members. Before granting any such waiver or exception of the provisions of article [section] 5.1, the subdivision committee must have considered a report, if any, from the traffic engineer regarding any proposed changes, as have been submitted to the staff of the director.

R. Street stub-outs shall be included every 400—1,300 feet in subdivisions to provide future connectivity to adjacent land. All street stub-outs must be named and terminate at the property line of the subdivision, and if adjacent land has a stub-out street, developer must connect new subdivision to it.

S. All streets shall conform at least to the following minimum standards, except as may be provided in this article under section 5.1.Q, and in article 7 of these regulations:

1. The geometric design of all roadways for streets classified as freeways, expressways, major arterial and minor arterial shall conform generally with A Policy on Geometric Design of Highways and Streets, latest edition, with consideration given to the principles outlined in A Guide for Achieving Flexibility in Highway Design, both published by AASHTO, including any

published supplements to those policies, and the principles within the United States Department of Transportation Policy Statement on Bicycle and Pedestrian Accommodation Regulations and Recommendations (see Appendix D).

Minimum Design Standards			
Roadway Type	*Minimum Right-of-Way*	*Minimum Pavement Width**	*Minimum Sidewalk Width*
Freeway and/or expressways	200 feet	——	——
Major arterial street	100 feet	67 feet	4 feet
Minor arterial street	80 feet	53 feet	4 feet
*measured at back-of-curb to back-of-curb			

a). Acceleration/deceleration lanes, left turn lanes and medians or other traffic control improvements may be required on arterial streets, by the traffic engineer and city engineer, where necessary to mitigate hazardous traffic movements at public intersections or entrances to private developments.

b). All driveways shall be designed to allow a vehicle to turn around on private property, so no vehicles need to back into the public street.

c). No driveway for a non-residential use shall be closer than 70 feet to the intersection boundary line and will be approved by the traffic engineer, and no driveway for a residential use shall be closer than 40 feet to the intersection boundary line.

d). Sidewalks shall be constructed along both sides of all major and minor arterials, paved at the same time as the streets, curbs and gutters are installed and shall have ADA compliant curb ramps at all intersections. Sidewalks shall not have a cross-slope greater than two percent.

2. Collector streets shall conform to the following standards:

Minimum Collector Street Design Standards			
Standard	*Topographic Gradients*		
	0—8%	*8.1—15%*	*Over 15%*
Right-of-way width (feet)	60	60	60
Pavement width (feet)*	37	37	37
Minimum sight distance (feet)	250	200	150
Maximum grade	12%	12%	12%
Minimum centerline radii (feet)	350	230	200
Sidewalks, residential (minimum width in feet)	4	4	4

Minimum Collector Street Design Standards			
Standard	*Topographic Gradients*		
	0—8%	*8.1—15%*	*Over 15%*
Sidewalks, commercial (minimum width in feet)	6	6	6
*measured at back-of-curb to back-of-curb			

a). The minimum distance between the back of the curb and the required sidewalk shall be three feet. The maximum distance shall be eight feet.

b). All curbs and gutters installed in conformity with these regulations shall be minimum six-inch vertical face with one foot of gutter or an overall width of combined curb and gutter of 18 inches.

c). No driveway for a non-residential use shall be closer than 70 feet to the intersection boundary line, and no driveway for a residential use shall be closer than 40 feet to the intersection boundary line.

d). The minimum spacing of collector street intersections along any major arterial or minor arterial street shall be 1,300 feet from centerline to centerline.

e). All commercial or industrial service streets shall be constructed to no less than the minimum collector street standards.

f). Acceleration/deceleration lanes, left turn lanes and medians or other traffic control improvements may be required by the traffic engineer and city engineer, where necessary to mitigate hazardous traffic movements at public intersections or entrances to private developments.

g). Where deemed necessary, the developer shall design and configure collector streets in a manner to discourage speeding traffic, and/or shall install traffic calming devices in accord with the general principles of the Manual on Uniform Traffic Control Devices, latest edition, published by the Federal Highway Administration. The location and design of particular systems shall be determined by the city engineer and traffic engineer.

h). Sidewalks shall be constructed along both sides of all collector streets, paved at the same time as the streets, curbs and gutters are installed, and shall have ADA compliant curb ramps at all intersections. Sidewalks shall not have a cross-slope greater than two percent.

3. Local streets shall conform to the following standards:

Minimum Local Street Design Standards			
Standard	*Topographic Gradients*		
	0—8%	*8.1—15%*	*Over 15%*
Right-of-way width (feet)	50	50	50
Pavement width (feet)*	28	28	28

Minimum Local Street Design Standards			
Standard	*Topographic Gradients*		
	0—8%	*8.1—15%*	*Over 15%*
Minimum sight distance (feet)	200	150	110
Maximum grade	15%	15%	15%
Maximum cul-de-sac length single-family lots (feet)	600	600	600
Maximum cul-de-sac length multifamily use (feet)	500	500	500
Minimum centerline radii (feet)	250	175	150
Sidewalks (minimum width in feet)	4	4	4
*measured at back-of-curb to back-of-curb			

a). The minimum distance between the back of the curb and the required sidewalk shall be three feet. The maximum distance shall be eight feet.

b). All cul-de-sacs shall terminate in a circle with a right-of-way radius of not less than 60 feet. The pavement radius of at least 50.5 feet shall be measured to the back of the curb, or outside edge of a valley gutter.

c). All curbs and gutters installed in conformity with these regulations shall be minimum six-inch vertical face with one foot of gutter, or an overall width of combined curb and gutter of 18 inches.

d). The city engineer may permit 30-inch (minimum width) valley gutters instead of standard curb and gutters only where residential lots have a width of 40 feet or less, measured at the street right-of-way line.

e). With subdivision committee approval, the city engineer may permit pervious swales (instead of standard or valley gutters) within E-1, A-1, A-2 and M-2 zoned districts when the roadway is designed with a concrete edge. Construction details of the concrete edging and swales shall be subject to the city engineer's approval.

f). Where deemed necessary by the city engineer and traffic engineer, the developer shall design and configure local streets in a manner to discourage excessive or speeding traffic, and/or shall install traffic calming devices in accord with the general principles of the Manual on Uniform Traffic Control Devices, latest edition, published by the Federal Highway Administration. The location and design of particular systems shall be approved by the city engineer and traffic engineer.

g). In general, sidewalks shall be constructed along both sides of all local streets at the same time as the streets, curbs and gutters are installed and shall have ADA compliant curb ramps at all intersections. Sidewalks shall not have a cross-slope greater than two percent. Except in E-1, all M and A zoning districts. Developers may make arrangements, prior to begin-

ning any construction, with the city engineer to allow homebuilders to install sidewalks on behalf of the developer. Certificates of occupancy will not be issued for new houses until the required sidewalks have been approved by the city engineer. It shall be the developer's responsibility to make homebuilders aware of this requirement. Sidewalks across lots that remain undeveloped or sidewalks that do not comply with the requirements of the City of Birmingham shall be completed or replaced by the developer at the direction and to the satisfaction of the city engineer before any of the required improvements will be accepted by the City of Birmingham for maintenance. Developers are responsible for the construction of all required improvements including sidewalks.

h). On corner lots driveway curb cuts must be a minimum of 40 feet from the side streets intersection boundary line.

T. To the maximum extent possible, complete street design principles shall be used to guide future street design for both new and retrofit projects, and any exception to this approach shall be appropriately justified. Appendix C contains names of publications that can be used as guidance.

Sec. 5.2. Streets and subdivision names.

A. Street names shall be coordinated with the U.S. Postal Service, and not be duplicative of other unrelated streets, and shall be subject to approval of the city engineer.

B. Subdivision names for plats shall be subject to the approval of the subdivision committee, and shall not duplicate the name of any other unrelated plat already recorded in a different part of Jefferson County or in Shelby County.

Sec. 5.3. Alleys, easements and half streets.

A. Alleys are encouraged in residential districts to provide access to parking and overhead utilities, and may be required in commercial or industrial districts if it is determined by the subdivision committee that conditions necessitate alleys in any such district. In no case shall alleys be less than 20 feet in right-of-way width with curb radii at street intersections of at least 15 feet.

B. Easements, except for sanitary sewers, shall not be less than ten feet in width except in cases of double tiered lots where a width of 7½ feet from each tier will be permitted. Developers are encouraged to place utilities at back of sidewalk. The width of sanitary sewer easements shall be determined by the Jefferson County Environmental Services Department, or the responsible entity for sites lying within a different jurisdiction.

C. Where there exists a stormwater ditch, drainageway, creek, perennial or intermittent stream, or any other watercourse, the easement shall be of sufficient width that such watercourse may be installed and maintained efficiently. The location of any such stormwater ditch, creek or watercourse shall not be changed without the approval of the subdivision committee upon a favorable recommendation from the director and the city engineer, in conjunction with any approvals required by the Federal Emergency Management Agency and the U.S. [Army] Corps of Engineers.

D. Half streets will not be permitted except in situations where necessary to complete an existing contiguous half street.

Sec. 5.4. Off-road bicycle and multi-use paths.

Off-road paths, when part of the approved bicycle plan routes, shall conform to the standards of the Guide for the Development of Bicycle Facilities, latest edition, published by AASHTO.

Sec. 5.5. Water drainage and flooded areas.

A. All subdivisions shall be provided with adequate storm sewers. The potential use of swales and natural detention and infiltration methods of reducing or slowing the flow, including porous surfaces should receive initial investigation. In cases where the size of such storm sewer would make the cost prohibitive in relation to the value of the land and the city council does not have sufficient funds allocated for such improvements to participate in such costs, these areas shall be planned and shown in dotted lines for future development but shall be excluded from the proposed subdivision.

B. The drainage plan should provide that the post-development runoff rate not exceed the pre-development runoff rate from a given site. Whenever possible, low impact development techniques (LID) should be utilized such that the post-development hydrology mimics the pre-development hydrology for the storm events defined in the Engineering Design Guidelines for Subdivision and Commercial Developments, latest edition.

C. Lakes, ponds, creeks and similar areas will be accepted for maintenance only if sufficient land is dedicated as a public recreation area or park, or if such area constitutes a necessary part of the drainage control system. Dedication of such areas is contingent on approval by the Birmingham Park and Recreation Board and acceptance by the city council.

D. Areas subject to periodic flooding caused by poor drainage facilities will not be accepted by the subdivision committee unless the subdivider makes necessary provisions to eliminate such flooding.

E. Storm sewer systems shall be developed in accordance with the City of Birmingham's Engineering Design Guidelines for Subdivisions and Commercial Developments, latest edition. Copies of this document are available from the office of the city engineer.

Sec. 5.6. Stormwater detention/retention facilities.

Stormwater detention/retention facilities shall be developed in accordance with the City of Birmingham's Engineering Design Guidelines for Subdivisions and Commercial Developments, latest edition. Copies of this document are available from the office of the city engineer. Prior to initiating each stage in the construction process, the subdivider shall be responsible for notifying the city engineer, so that an on-site inspection may be conducted by the city staff at each stage of construction, for appropriate soil and sedimentation controls.

Sec. 5.7. Soil and sedimentation control.

Prior to any land disturbance activity, the subdivider shall prepare and submit to the city engineer an erosion control plan consistent with the Soil Erosion and Sedimentation Control Ordinance of the City of Birmingham. Said plan must also include an acceptable structural controls maintenance plan. Development of the subdivision shall not proceed without approval from the city engineer. The plan shall be approved if it complies with all requirements of the zoning, subdivision, soil erosion and sediment control, and stormwater ordinances and regulations. Prior to initiating each stage in the construction process, the subdivider shall be responsible for notifying the city engineer so that an on-site inspection may be conducted at each stage of construction for appropriate soil and sedimentation controls.

Sec. 5.8. Sanitary sewers.

A. Sanitary sewer shall be provided to all lots in a subdivision except as noted in section 5.8D.

B. All proposed sanitary sewer systems shall be reviewed and approved by the entity having jurisdiction over the sanitary sewer system.

C. One set of approved sanitary sewer plans shall be provided to the city engineer before the final plat will be recorded.

D. Sanitary sewer alternatives. Sanitary sewer systems may not be readily available in isolated locations where it is found impractical or infeasible to extend existing sewer mains or create new central public or private collection and treatment facilities. An existing legally established onsite disposal system may be approved by the city engineer to serve a new lot only if the applicant provides satisfactory evidence that such system has adequate capacity for the size and physical character of all lots.

In lieu of providing a sanitary sewer main, the applicant may request an exception from this requirement in accordance with article 7 of these regulations. In considering any alternate proposal, the subdivision committee shall require the applicant to:

1. Provide adequate information as to the distance and estimated costs of extending existing sanitary sewer main lines to serve the lots; and

2. Provide evidence that no central public or private sanitary sewer system is planned to be operational within a one-half mile radius of the subdivision within the next ten years; and

3. Provide evidence that the Jefferson (or other county of location) Department of Health will approve an on-site sewage disposal system for each lot.

For each lot where a waiver from the requirement to extend a sanitary sewer main is granted by the subdivision committee, wording substantially in the form that follows shall be shown on the plat:

> No building permit for a structure containing plumbing will be issued for Lot _____, Block _____ without first obtaining an on-site sewage disposal system permit from the *(insert either* Jefferson County Department of Health *or* the Shelby County Health Department *or* other agency with jurisdiction, depending on location), or else extending a sanitary sewer main to serve the lot.

Sec. 5.9. Layout patterns.

A. *Blocks.*

1. The size and shape of blocks shall be laid out with special attention given to the natural terrain, drainage, and the type of use, development density and traffic access contemplated.

2. Length of blocks shall not exceed 1,300 feet along collector streets. Lengths along local streets in residential areas shall not be less than 400 feet, nor longer than 1,300 feet.

3. Blocks shall have sufficient width to provide for two tiers of lots of appropriate depths. However one tier of deep lots may be permitted in blocks adjacent to arterials and collectors, railroads or waterways.

4. A right-of-way or easement may be required for bike paths or pedestrian access, providing a minimum eight-foot-wide connection through the middle section of a block over 800 feet long, or extending from a cul-de-sac, through lots where needed for circulation or public access to schools, parks, shopping and similar destinations such as a transit facility or other public facility.

5. Blocks with lots having double frontage on streets shall be avoided.

B. *Lots.*

1. Each lot shall have a defined front yard on a public street and vehicular access to a public street, alley or an approved private road.

2. Lot sizes, shapes and locations shall be made with due regard to topographic conditions, physical constraints, drainage, access and type of traffic, proposed use, and the existing use and zoning in the surrounding area. A resubdivision, or a subdivision adjoining an area already subdivided, shall complement the established pattern, improving, rather than detracting from, the character of the surrounding neighborhood.

3. Where easements for public utilities, storm or sanitary sewers are contemplated, the lot lines shall be located in such a manner as to facilitate the construction of such improvements and the maintenance thereof.

4. Lot areas, widths and orientation shall meet or exceed minimum zoning and health standards; and the subdivision committee may impose greater requirements: in order to assure sufficient buildable or usable area, and all-weather accessibility for each lot; or if it is found that a particular configuration would interfere with the quiet enjoyment or potential development of surrounding or adjacent properties, depreciating values; or if a proposed design would impose an undue burden on the city in furnishing municipal services to the area.

5. Corner lots shall be made wider and larger than interior lots and shall provide at least the same minimum setback on the side street as required on the front by the zoning ordinance.

6. Lot lines shall be substantially at right angles to the streets except on curves where they shall be radial. Where the distance between rear lot corners on double tiered lots would be less than ten feet the radial lines shall be deviated so that the corners will be the same.

Sec. 5.10. Public areas.

A. In all new residential subdivisions containing 15 or more acres, suitable amounts of land may be evaluated for reservation as possible sites for park and recreation areas for possible acquisition by the Birmingham Park and Recreation Board. Any land required for park use must be identified by the Birmingham Park and Recreation Board prior to the approval of the preliminary plan.

B. In all new residential subdivisions containing 15 or more acres, suitable amounts of land may be evaluated for reservation as possible sites for educational purposes for the Birmingham Board of Education. Any land required for schools use must be identified by the Birmingham Board of Education prior to the approval of the preliminary plan.

C. In all areas where a developer is planning a residential subdivision of 15 or more acres, they shall present a waiver, to the staff of the director, signed by the park and recreation director and the Superintendent of Birmingham Schools stating that there is not a need for land to be reserved for parks or schools within the proposed development.

ARTICLE 6. COMPLETION OF REQUIRED IMPROVEMENTS; BOND

Sec. 6.1. Required improvements.

A. Prior to the approval of the final plat, the subdivider shall have installed, caused to be installed, or constructed (or posted bond as provided for in section 6.2 of this article) all required improvements, including the following:

1. All streets shall have been graded in conformity with all dimensional and design requirements set out in article 5, above.
2. On both sides of each street there shall have been constructed a standard curb and gutter or valley gutter in accord with standard details on file in the office of the city engineer.
3. On all streets, including side streets and alleys, a suitable hard surfaced permanent type of pavement shall be installed, meeting the requirements of the City of Birmingham standard specifications. The developer's engineer shall design a pavement buildup based on a 20-year design life, on existing soil conditions and anticipated traffic.
4. Any off-road bike paths and/or pedestrian ways shall have been paved with a suitable hard surfaced material meeting the requirements of the City of Birmingham Standard Specifications, latest edition.
5. All required utilities and service connections shall have been constructed prior to installation of paving with all mains being extended and all lots having sufficient utility service stub-outs to ensure no subsequent cutting of pavement. All required utilities, except storm and sanitary sewer systems, shall be constructed beyond the back of sidewalk. Where septic tanks are necessary, if required by the responsible county agency or other sewer authority, sanitary sewers shall also be installed and capped until such time as connection may be had with a sanitary sewer system.
6. All required sidewalks shall have been constructed.
7. Adequate storm sewers shall have been constructed, subject to the provisions of article 5.
8. Subdividers shall have installed or paid for street signs and streetlights, and traffic control signals or similar signage as approved by and at points designated by the traffic engineer.

9. All right-of-way grading and required public improvements, including necessary seeding, and removal of debris from all public areas, shall have been completed.

B. The owner(s) shall also submit an instrument, approved by the city attorney, in form for recording, which offers an irrevocable dedication of all lands and improvements into governmental ownership as needed and designated on the final plat for public use, including any streets, ways, easements, utilities, grounds and parks, in perpetuity.

Sec. 6.2. Bond and surety: amount and release.

A. In the event it is decided by the subdivision committee that the requirements set out in section 6.1A of this article need not be immediately met by the subdivider, the requirements may be deferred by temporary waiver, upon the execution of a subdivision improvement agreement with the subdivider, as approved by the city attorney, to run with the land, binding any future owners. That instrument shall require that all such improvements be installed and constructed within the length of time specified in section 6.3 of these regulations, and the subdivider shall maintain said improvements and shall guarantee the work to be free from defect of materials or workmanship for a period of one year following the acceptance of dedication by the city council. A performance bond shall be required by the city engineer to insure the fulfillment of such agreement, and shall be in cash, by certified or cashier's check, acceptable certificates of deposit, irrevocable letters of credit, or made by a surety company authorized to do business in the State of Alabama. Upon submission of satisfactory bond or surety to the city engineer, said surety and the subdivision improvement agreement, and the final plat can be recorded in probate court.

B. Such bond shall be in an amount equal to 115 percent of the estimated cost of the improvements. Bond amounts shall be reviewed annually and may be adjusted to ensure adequate funds are available for the completion of the remaining required improvements.

C. The surety shall not be released from said bond except by a release in writing from the city engineer.

D. In the event the developer does not cause to be installed the infrastructure improvements required by these regulations within two-years, of the approval of the final plat and a time extension is not granted by resolution of the subdivision committee, the city shall cause the improvements to be installed and shall pay for said improvements by redeeming the bond submitted by the developer as required by these regulations for the purpose of ensuring the installation of the required infrastructure improvements.

Sec. 6.3. Time limit on the construction of infrastructure improvements.

Any infrastructure improvements required by these regulations shall be completed within two-years of approval of the final plat, unless a time extension is granted by resolution of the subdivision committee.

Sec. 6.4. Maintenance bond.

A. When required improvements are completed, or else are assured of completion as provided in section 6.2 above, if the city engineer has reasonable doubts concerning the stability or proper construction of such improvements, he may require a maintenance bond in the amount of 100 percent of the estimated cost of said improvements. This shall extend for up to five years from the date of actual completion, or beyond the term secured by the performance bond, in order to cover any additional costs of street construction, repair and maintenance, and for one year beyond such completion dates for maintenance of sewer lines and other facilities. This bond shall be in cash, by certified or cashier's check, acceptable certificates of deposit, irrevocable letters of credit, or be made by a surety company authorized to do business in the State of Alabama, as may be approved by the city engineer.

B. The city engineer shall secure from all developers a letter or statement in which said developer shall agree to maintain the backfill and any improvements located thereon or therein of any ditch which has been dug in connection with the installation of such improvements and such letter or statement shall be binding on the developer for a period of one year after the acceptance of such improvements by the City of Birmingham.

C. Maintenance bond amounts shall be reviewed annually and may be adjusted to ensure adequate funds are available for the repair or replacement of any potential failure of required improvements.

Sec. 6.5. Acceptance of dedicated streets, ways and grounds.

After final completion of all required improvements, and receipt of the subdivider's one-year maintenance warranty, and submission of enforceable surety for any additional maintenance to the satisfaction of the city engineer, the city council may adopt an ordinance, prepared by the city attorney, accepting the dedication of all public streets, ways and public grounds as designated on the final plat for public right-of-way or other property to be owned by the City of Birmingham. Said ordinance shall be published as required by law, and recorded along with the owner's dedicatory instrument in the office of the probate judge of the county in which the subdivision is located.

ARTICLE 7. WAIVERS, EXCEPTIONS AND APPEALS

Sec. 7.1. Application of regulations in special situations.

A. The intent of these regulations is to promote a balanced and sustainable pattern of physical and economic development for the long term health, safety and general welfare of future lot owners in new subdivisions, as well as for the community at large.

In furtherance of the overall purposes noted in section 1.2, and the criteria for approval and disapproval of subdivisions listed in section 3.11, similarly situated lands shall be treated consistently within their appropriate context.

B. The uniform application of some provisions of these regulations to particular properties having peculiar shapes or physical features, or affected by special circumstances may occasionally incur undue hardships, practical difficulties, or actually fail to accomplish the differing aims of certain regulations. Relevant conditions may always be attached to the planning commission's or subdivision committee's approval of preliminary plans and final plats in the interest of fairness, efficacy and safety; and these are also the primary bases justifying the grant of any waivers or exceptions to the terms of these regulations.

Sec. 7.2. Requests for waivers and exceptions; conditions of approval.

A. A written petition for any desired waiver or exception to these regulations shall be included with the application for preliminary plan or final plat review, as noted in section 3.2. It shall be submitted on forms supplied by the staff of the director, who shall forward one copy of said petition to the city engineer, and one copy to the traffic engineer, immediately upon acceptance of a completed application, and prior to its inclusion on the agenda for the next regular scheduled meeting of the subdivision committee. The petition shall cite the applicable section from which relief is sought, and state fully the grounds in support of the requested waiver or exception, with all supporting facts relied upon by the petitioner. A request for a waiver must show why a required provision is not applicable or fully necessary in the particular situation. A request for an exception must show how the alternate proposal will accomplish the objectives as well as or better than the required provision.

B. In accord with Federal Highway Administration's guidance for "due consideration" of bicycle and pedestrian facilities, exceptional circumstances must be shown to justify an exemption from such requirements. The applicant must submit a written petition for waiver or exception to explain the exceptional circumstance. Exceptional circumstances are defined as:

1. Bicyclists and pedestrians are prohibited by law from using the roadway.

2. The cost of establishing bicycle or pedestrian facilities would be excessively disproportionate to the need or probable use (excessively disproportionate exceeds 20 percent of the larger transportation project).

3. Sparse population or other factors indicate an absence of existing or future needs. The planning commission should consider the context of the project setting, such as proximity to residential, retail areas, high employment areas, parks and greenways, schools, transit, and similar situations that would benefit by bicycle and pedestrian access and the approved bicycle route plan.

C. In granting any waiver or exception, the subdivision committee shall only approve the minimum necessary for the feasible and appropriate utilization or development of the property, and may attach such reasonable conditions as it deems necessary for the protection of the surrounding property, substantially maintaining the objectives of these regulations, in achieving the greater public interest.

D. Any condition shown on the plat or engineering plans or other information specified in article 3 or article 5 which would necessitate a waiver or exception, shall constitute grounds for disapproval of the plan or plat, if such relief is not applied for, justified and subsequently granted.

Sec. 7.3. Granting of waivers and exceptions.

A. If it is determined from all the evidence submitted, and a review of any recommendations by the traffic engineer, city engineer or director, that extraordinary and unnecessary hardships or practical difficulties would result from strict compliance with specific provisions as applied to particular locations or unusual situations, or that the aims and purposes of these regulations may be better served by an alternate proposal, then the subdivision committee or planning commission, upon a favorable recommendation by the city engineer, traffic engineer and the director may approve certain waivers or exceptions, attaching such conditions as may be found necessary. The granting of such relief shall comply with all of the following standards:

1. Not be detrimental to public safety, health or welfare; and
2. Not be injurious to other property in the vicinity; and
3. Not have the effect of nullifying or conflicting with the purposes and criteria cited in sections 1.2 and 3.11 of these regulations; and
4. Not be in conflict with the aims and goals of the zoning ordinance, the major street or bicycle plan, or any elements of the official comprehensive plan; and that
5. The factors of the public interest supported by the proposed waiver or exception outweighs the public interests served by the particular requirement involved; and also
6. The grant conforms to and supports the spirit and intents of these regulations.

B. However, if a requested waiver or exception has not received a favorable recommendation from the city engineer, traffic engineer and the director, then the subdivision committee or the full planning commission may nevertheless grant such waiver or exception, specifying the justifications therefor, only by a unanimous vote of members present at the subdivision committee and a three-quarters majority vote of members present at a full planning commission meeting. Definite provisions governing the grant of certain waivers and exceptions, under prescribed circumstances, are

detailed in several articles of these regulations. In all cases, requests for waivers or exceptions shall be interpreted as described below, with additional guidelines for approval as follows:

1. Waivers may set aside any provision, in whole or in part, affecting procedures or improvements, or postponing enforcement under particular contingencies, only if and when such a requirement is demonstrated to be unnecessary, inapplicable or of no public benefit, because of unique physical conditions, natural topographic conditions, surrounding development patterns, or other special circumstances affecting a particular subdivision proposal.

2. Exceptions may allow unusual or innovative development designs, methods, materials or types of improvements as an option, only if they meet or exceed normally required performance standards; and they should be encouraged where they support environmental quality, conservation, energy efficiency, historic preservation or other public benefits, particularly in conjunction with flexible zoning districts formulated to achieve compact, diverse and sustainable neighborhoods.

C. Evaluation of any requests requires that no waiver or exception shall be granted to:

1. Design standards in article 5, 6, 10 or related engineering requirements cited in section 3.6, unless the applicant demonstrates to the satisfaction of the city engineer, through technical documentation or studies based on generally accepted engineering principles, that the alternate proposal meets health, safety and reliability standards equal to or greater than the pertinent requirements herein; and

2. Any provisions of article 3 or the layout patterns in article 5, unless the applicant demonstrates to the satisfaction of the director, through technical documentation or investigative studies that the alternate development proposal does not pose a threat to health or safety, that it mitigates any deleterious effects, and it provides public benefits equal to or greater than the pertinent requirements herein.

Sec. 7.4. Appeals to the planning commission.

In accord with the notice and hearing procedures set forth in section 3.11, the planning commission shall hear and decide on all appeals by any party aggrieved or adversely affected, including governmental officials, or agencies of the City of Birmingham, where it is alleged that:

A. There is an error in any written order, requirement, decision, interpretation, or determination made by an official responsible for enforcing these regulations; or

B. Any particular provision of these regulations conflicts with another specified federal, state or local law; or

C. Any action by the subdivision committee to approve in whole or in part, to approve with conditions, or to disapprove any subdivision or any request for a waiver or exception, would injure the rights of the applicant, or owners of nearby property, or conflict with the duties of officials charged with protection of the public interest, including health, safety, transportation, utilities, environmental or natural resources, or other facilities or services.

ARTICLE 8. VACATION OF PUBLIC RIGHTS-OF-WAY

Sec. 8.1. Applications.

Where owners of property abutting any portion of a street, alley, or other public way within the City of Birmingham, may desire the vacation of such abutting right-of-way, to combine it with or add it into private property, they may request its annulment and vacation from public use and ownership by filing an application for hearing before the subdivision committee.

A. Applicants proposing to vacate any portion of the right-of-way of public streets, alleys, or public ways, shall apply in the office of the staff of the director, paying the $100.00 vacation application fee, and submitting five copies of a vicinity sketch showing the right-of-way proposed to be vacated. A completed declaration of vacation must be submitted, signed by all owners of property abutting the portion of right-of-way requested for vacation. A notification list must be furnished identifying the names and addresses, as shown in the county tax assessor's office, of all owners of property abutting the portion of right-of-way proposed for vacation, and all owners of property adjoining any right-of-way to remain in the same block or adjoining block face, where access rights may be affected.

B. Applicants for a vacation may, at the same time, apply for a resubdivision of the affected properties, submitting a final plat and five copies thereof, showing the old property lines being removed and new property lines as proposed to be established. Whether applying for final plat approval simultaneously or subsequently, all required fees, procedures and notices to owners of property adjoining the subdivision shall be followed in accord with the provisions of section [article] 3.

C. The staff of the director shall transmit the sketch, with a request for evaluation of impacts of the proposal on current and potential public needs, to the city engineer, traffic engineer, fire and rescue service and other public agencies and utilities which may have jurisdiction over the surrounding area, such as power and telecommunications companies, water works and sewer authorities, gas

companies, county engineers, traffic engineers, and any other organizations which may have existing improvements or subsidiary rights, easements, or responsibilities for exclusive or public access in the vicinity.

D. Neither the City of Birmingham, nor any officers, agent, or employee of the city acting in his official capacity, nor any agency of the city shall be required to pay a fee under this article.

E. Notice of the date, time and location for the hearing by the subdivision committee (or planning commission, if the proposal affects the major street plan or other elements of the city's comprehensive plan) shall be sent by certified mail to the applying owners, and any other owners of property abutting the subject street or way, as cited in subsection 8.1A. above, not less than seven days before the scheduled public hearing on the vacation request.

Sec. 8.2. Investigation and recommendation.

A. The staff of the director shall distribute copies of vicinity sketches and plats as provided in the case of regular subdivision applications. In addition to reviewing responses from owners of nearby properties, and various public and private agencies and utilities which might be affected, the staff shall investigate existing improvements or uses on the land proposed for vacation, and the surrounding environs, evaluating potential access needs or impacts on future plans in the vicinity. This background information shall be evaluated in preparing a draft report for consideration by the director and city engineer, whose written recommendations shall be submitted to the subdivision committee.

B. Any citizen aggrieved by the proposal may submit a written objection, and may request to be heard at the hearing. The vacation shall not deprive other property owners of any right they may have to convenient and reasonable means of ingress and egress to and from their property; and if that right is not afforded by the remaining streets and alleys, another street or alley segment must be dedicated to maintain such access.

C. Upon hearing the application, any public comments, and the recommendations from the director and city engineer, the subdivision committee shall make its recommendations to the city council as to whether said proposed vacation is in the best interest of the city.

Sec. 8.3. Procedure for city council hearing.

In accord with Ordinance No. 05-208, within ten days after receiving written notice of the subdivision committee's recommendation, the applicant shall submit both a $2,500.00 advertising fee and a vacation of right-of-way fee to the staff of the director, in order to proceed to a hearing before the city council.

A. The amount of the vacation of right-of-way fee shall be one-third of the combined value of the area to be vacated, as determined by multiplying the

assessed value per square foot of all subdivision lots or tracts abutting that portion of the street or public way proposed for vacation times the square foot area of the land to be added to the real property of each abutting landowner as a result of the vacation.

1. The council may reduce or waive this amount for businesses based on economic benefits to the city as described in section 4-5-84(c), of the General Code of the City of Birmingham; and
2. The vacation of right-of-way fee shall be waived for governmental agencies and not-for-profit organizations receiving exemption from state ad valorem taxes by the county tax assessor.

B. On receipt of all required fees, the staff of the director will send the subdivision committee's recommendations, the declaration of vacation, and a draft of the resolution of assent, to the city council, for its consideration at a public hearing to be held within the next 90 days.

1. Notice of the hearing shall be published in a newspaper of general circulation once a week for four consecutive weeks prior to the date of the hearing.
2. Written notice of the hearing shall also be mailed, at least 30 days prior to the hearing, to all utilities and owners of property abutting any portion of the street or way proposed for vacation, including any remaining portions, whether or not that part of the street is included in the vacation request.
3. A copy of the notice shall be posted on a bulletin board at the county courthouse.

C. If the council refuses assent to the vacation, the vacation of right-of-way fee shall be returned to the applicant.

D. If approved, assent to the vacation by the council shall be evidenced by a resolution, certified by the city clerk, and attached to the declaration of vacation for recording in probate court.

1. If the council sets a lower vacation of right-of-way fee than originally computed, the difference shall be refunded to the applicant.
2. Within 30 days after the council acts on the vacation, if actual costs for advertisement and notices are less than the set $2,500.00 fee, the city shall reimburse the overpayment to the applicant; if the actual costs are higher than said fee, the applicant shall reimburse the city for the shortage before the record plat can be recorded.
3. Notice of the council's action of the request shall be published once in a newspaper in the county no later than 14 days after its adoption.

4. The declaration of vacation and resolution of assent shall not be recorded in probate court until a final plat has been approved, incorporating the vacated land into the abutting lots.

Sec. 8.4. Final plat of resubdivision.

A. Since the effect of vacating public ways necessitates establishment of new property lines for abutting properties which incorporate portions of such vacated ways, the applicant shall, within three months after the passage of the resolution assenting to the vacation thereof by the council, submit a final plat, in accord with section [article] 3, removing old property lines and establishing new ones, for approval by the subdivision committee.

B. Entities with utility lines, equipment or facilities in place at the time of vacation, shall retain an easement thereon, to be noted on the plat, keeping the right to continue to maintain, extend, and enlarge their lines, equipment, or facilities to the same extent as if the vacation had not occurred.

C. Said final plat shall show the vacated land in dotted lines, with reference to the deed book and page where the instruments of vacation are recorded. And the final plat shall comply with all other applicable requirements of these regulations.

ARTICLE 9. CONDOMINIUM DEVELOPMENT

Sec. 9.1. Approval required.

No building or grading permit shall be issued for a new or expanded condominium, or conversion of an existing building for subdivision into separable residential or nonresidential ownership units, except in compliance with all provisions of this article.

Sec. 9.2. Applicability.

This article governs the subdivision of real or personal property into two or more units of property by one or more owners, in which owners of all individual units will share an undivided interest in the building, premises and all remaining common elements of the subdivided land.

Sec. 9.3. Application procedures.

Application for final plat hearings on a condominium subdivision and condominium plan shall be filed with the staff of the director according to procedures in article 3 of these regulations. Plats and any public improvements shall comply with articles 4 through 6, and identify each unit designated for individual ownership and exclusive

occupancy, as well as all undivided interests in common elements, limited common elements and other areas or improvements to be shared by all unit owners. Further documentation shall include:

A. Site development plan and condominium plan. Three copies of detailed plans, to scale, fully dimensioned showing all structures, principal uses, roads, all traffic control devices, recreational area, sidewalks, lighting, parking spaces, service areas, trash receptacles, curbs, drainage, signs and landscaping; indicating relations among buildings, structures, utilities, site improvements and open spaces.

B. Three sets of condominium architectural plans, to scale, fully dimensioned, keyed to legal descriptions, including elevations, cross sections; all units, their size and locations, typical separation of units; all common areas, with corridors, stairs, elevators, and main utilities; the proposed uses, such as office, meeting rooms, storage or maintenance for all portions of proposed buildings and structures. One set shall be referred to the inspection services division of the department of planning, engineering and permits for pre-review and recommendations by the assigned plans examiner.

C. If phased as part of a larger project, three copies of conceptual plans for the ultimate development of the entire property.

D. Three copies of the articles of incorporation, and the declaration of condominium, with bylaws, all protective covenants and restrictions, and subdivision plats, that comply with the guidelines of title 35, chapter 8A, the Alabama Uniform Condominium Act of 1991, as amended.

Sec. 9.4. Acceptance of application and filing fees.

No application shall be accepted which does not conform to all zoning requirements. The subdivider shall pay an additional fee of $100.00 for the filing of each condominium project application, as noted along with the normal final plat fees listed in section 3.7; such charges to be paid upon submission of an acceptable application.

Sec. 9.5. Hearing and notice.

On receipt of a completed application, the subdivision committee shall hold a public hearing on the subdivision and condominium plan, following the same notice and procedures as established in article 3 of these regulations.

Sec. 9.6. Evaluation and action on subdivision.

The staff of the director shall investigate and summarize the issues bearing on the proposal, attaching recommendations from the city engineer, traffic engineer, fire marshal, and chief of inspection services to the subdivision committee. After hearing, and review of all information by the applicant and public comments, the commission

shall approve, approve conditionally, or disapprove condominium plans and the final plat, noting the grounds therefore, in accord with articles 1 and 3 of these regulations.

Sec. 9.7. Effect of plan approvals, and recording.

A. Subdivision committee approval of the final plat shall be conditioned, at a minimum, on subsequent submission of surveyed final building and site plan. Approval of the condominium plans and final plat authorizes the issuance of building, grading and other permits in compliance therewith, and the construction of all improvements on the property.

B. After installation of any public improvements to the satisfaction of the city engineer; the completion of all construction, and filing of surveyed final building plans; and certification by the director as to compliance with all conditions; then the surveyed final building plans, site development plans and final plat shall be filed with the declaration of condominium, articles of incorporation of the property owners association, and bylaws, for recording in the office of the probate judge in the county where the property is located. This authorizes conveyance of the individual units.

Sec. 9.8. Expiration of approval.

Each approval or conditional approval authorized under the provisions of this article which is not acted upon, and actual construction has not commenced on the buildings, or structures involved, within 24 months from the date of its conditional final plat approval, shall become null and void. In the event substantial construction work has occurred, a 12-month extension may be granted by the director, and must be diligently continued to completion.

Sec. 9.9. Amendments.

Whenever the subdivision map and plans as required herein have been recorded, and where there are intended changes in size, shape or location of buildings, type of structures or uses, creation of additional units, expansion of the project, merger, consolidation, or termination of the condominium form of ownership, then an amendment to the recorded map shall be requested as a resubdivision or new subdivision in compliance with the same procedure as set forth in the filing and recording of the original application.

No new hearing will be required for small revisions in compliance with zoning, not requiring expansion of the building. Upon favorable recommendation by the chief of inspection services, the director may approve and record minor plat changes in boundaries between existing units involving no more than three additional units, when requested by the affected owners, and approved by the condominium unit owners association, amending their declaration of condominium.

APPENDIX A. BYLAWS OF THE BIRMINGHAM PLANNING COMMISSION

ADOPTED MAY 7, 2003

Art. I. General provisions.

a. *Title.* The organization to be governed by these bylaws shall be known as the Birmingham Planning Commission, hereinafter referred to as "commission."

b. *Authority.* The commission is established and operates under authority granted by the Alabama State Legislature as set forth in title 11, chapter 52, Code of Alabama 1975, as amended.

c. *Office of commission.* The office of the commission shall be located in Birmingham City Hall. Copies of all official documents, records, maps, tapes and other relevant information shall be filed and maintained in the city's department of planning, engineering and permits.

Art. II. Membership.

a. *Composition.*

The commission shall consist of 16 members. Twelve of the members shall be composed of citizens appointed by the Birmingham City Council. The four remaining members shall be ex officio members including: the mayor, an administrative officer selected by the mayor, and two members of the Birmingham City Council selected by said council.

In addition to regular members, the mayor and each of the city council members serving on the commission may appoint, from their administrative staffs exclusively, a supernumerary member who shall be authorized to act with all of the power and authority of a regular member whenever such municipal official is not in attendance.

b. *Qualifications.* Each appointed member shall be a resident of the City of Birmingham. The commission's appointed citizen members shall not be city employees or publicly elected officials.

c. *Terms of members.*

The term of each appointed member of the commission shall be six years or until a successor takes office. If a member resigns or is excused from the commission before the end of a term, the city council may appoint a substitute member to fill the vacancy for the duration of the vacated term. A member whose term expires may continue to serve until a successor is appointed. Members may be appointed for more than one term.

The term of the ex officio administrative member selected by the mayor shall end with the mayor's term of office or when the mayor designates a replacement. The

terms of the ex officio members selected by the city council shall end with their term as a member of the city council or when the city council designates different council representatives. The term of the mayor shall end with his/her term of office or upon a resignation from the office.

d. *Removal from office.* Appointed members may, following a public hearing, be removed by the city council for inefficiency, neglect of duty, or malfeasance in office. Vacancies occurring other than through the expiration of a term shall be filled for the unexpired term by the city council, with the exception of the mayor and the administrative member selected by the mayor.

e. *Compensation.* In accord with the provisions of Act No. 672 of the Alabama State Legislature, dated April 25, 1994, and City of Birmingham Ordinance No. 94-251, dated November 29, 1994, all appointed members of the commission shall be compensated $25.00 for each regular meeting of the commission or special committees attended, with each member being eligible to receive a maximum amount of no more than $50.00 per month.

f. *Attendance.*

Each citizen appointed commissioner shall attend at least 75 percent of all regularly scheduled meetings of the Birmingham Planning Commission, and also 75 percent of all regularly scheduled meetings of said commissioner's assigned standing committee (zoning advisory or subdivision committee). However, when any such commissioner attends a meeting of an unassigned standing committee where requested in order to establish a quorum, this attendance shall nullify an absence from an assigned standing committee meeting.

If any such commissioner shall miss two meetings of the planning commission or three meetings of an assigned standing committee within any six month period or less, the chairman, acting on behalf of the planning commission, shall advise said member of his or her attendance record in writing, counseling against excessive absences in the future. If within any 12-month period, any member shall miss four planning commission meetings or seven assigned standing committee meetings, the chairman, acting on behalf of the planning commission, shall submit a written recommendation to the city council, via the chairman of the council's planning and zoning committee, that the city council take appropriate action in accord with state law to remove said member.

Art. III. Officers and other appointed positions and their duties.

a. *Chairman.* A chairman shall be elected from the citizen appointed members by a majority of the members of the commission. The term of the chairman shall be for two years beginning with the date of election, with eligibility for re-election. The chairman shall preside at all meetings and hearings by the commission, decide all

points of order and procedures, call special meetings of the commission, assign commission or other members to special non-standing committees, and perform any duties required by law, these rules, or the commission.

b. *Vice-chairman.* The commission shall elect a vice-chairman from among its appointed citizen members in the same manner and for the same term as the chairman. The vice-chairman shall perform all of the duties of the chairman during the absence or disability of the chairman, and shall be eligible for re-election.

c. *Chairman pro tempore.*

The commission shall elect a chairman pro tempore from among its appointed citizen members in the same manner and for the same term as the chairman. The chairman pro tempore shall perform all of the duties of the chairman during the absence or disability of both the chairman and the vice chairman, and shall be eligible for re-election.

In the absence of all three commission officers, a member designated by a majority vote of the members present shall serve as interim chairman for that meeting.

d. *Other officers.* Other officers as may be appointed shall have such authority and perform such duties as, from time to time, may be assigned by the chairman.

e. *Vacancies.* If an elected office becomes vacant by reason of death, resignation, or any other reason, the commission shall elect, by a majority vote of the members present at the next regular meeting, a successor to hold office for the unexpired term.

f. *Secretary.* The director of the planning, engineering and permits department or his/her designee shall serve as secretary to the commission. The secretary shall perform the administrative and clerical functions of the commission and shall keep a record of each meeting as well as records of all resolutions, transactions, findings and determinations. The secretary shall also be responsible for handling all correspondence and notices for the commission and other administrative duties and responsibilities necessary for the commission to conduct its affairs.

Art. IV. Nomination and election of officers.

a. *Nominations.* Nominations of officers shall be made by a three-member nominating committee appointed biennially by the chairman at the commission's November meeting. The committee shall make its report and recommendations to the full commission at an organizational meeting to be held on the following December. In addition to the recommendations of the nominating committee, nominations may be made by any member at the organizational meeting. Candidates shall be limited to citizen appointed members of the commission.

b. *Election.* The election of the commission's officers shall immediately follow the nomination process. A candidate receiving a majority vote of the members present shall be declared elected and shall serve for a term of two years or until a successor takes office.

c. *Vacancies.* Vacancies in offices shall be filled by the election procedures described in the commission's bylaws.

d. *Resignations.* Resignations from the commission shall be in written form and transmitted to the chairman who will then forward the same to the chairman of the city council's planning and zoning committee.

Art. V. Committees.

Committees may be created from the commission's membership with such authority as shall be designated by the commission.

a. *Standing committees.* To assist the commission in the performance of its duties and responsibilities, specific standing committees shall be created to administer the affairs of the commission and to evaluate and render decisions on behalf of the full commission.

1. *Executive committee.* The executive committee shall be composed of the chairman, vice-chairman, chairman pro tempore, an at-large commission member appointed by the chairman, the chairman of the city council's planning and zoning committee or his/her designee, and the commission's secretary, who shall serve as a non-voting advisor to the committee. The committee shall act on all matters concerning administrative procedures, financial affairs, and personnel issues involving commission members.

2. *Zoning advisory committee.*

   The zoning advisory committee shall be composed of seven appointed members from the commission membership. The members shall be elected at a biennial organizational meeting to be held in December based on the election procedures outlined under article IV of these bylaws. Service on the committee shall be for two years with members being eligible for re-election. The committee shall elect its own officers and shall be governed by separate rules of procedure authorized under City Ordinance No. 1800-F, as amended by Ordinance No. 1817-F. The committee shall hold its meetings on the first and third Tuesday of each month in Birmingham City Hall unless rescheduled by a majority of the members present due to holiday conflicts or other circumstances. A quorum of the committee shall consist of four members. In the event that a quorum of the members cannot be present for a meeting, the chairman of the commission may designate a member from the subdivision committee to serve on the committee in order to establish a quorum for that meeting.

This committee is organized to advise the city council directly on all applications for changes in the zoning ordinance and the zoning district map as well as the review and approval of development plans. The committee is authorized to act on behalf of the commission, with no provisions for an appeal of its decisions to the full commission. All recommendations regarding the initial zoning of properties annexed into the City of Birmingham from unincorporated areas shall be the responsibility of the full commission.

3. *Subdivision committee.*

The subdivision committee shall be composed of five members from the commission's citizen appointed membership. The members shall be elected at a biennial organizational meeting to be held in December based on the election procedures outlined under article IV of these bylaws. The committee shall elect its own officers and shall be governed by separate rules of procedure authorized under the provisions of sections 30 through 36 of title 11, chapter 52 [of the Code of] Alabama 1975. Service on the committee shall be for one year with members being eligible for re-election.

The committee shall hold its meetings on the second and fourth Wednesday of each month in Birmingham City Hall, with the exception of the months of November and December when the committee shall meet on the third Wednesday of each month or unless rescheduled by a majority vote of the members present. A quorum of the committee shall consist of three members. In the event that a quorum of the members cannot be present for a meeting, the chairman of the commission may designate a member from the zoning advisory committee to serve on the committee in order to establish a quorum for that meeting.

This committee is organized to review proposals for subdividing land, combining lots, or vacating/dedicating public rights-of-way. While the committee has the authority to approve subdivisions, the vacation or dedication of public rights-of-way can only be approved by the city council. A case can be referred to the full commission by either the committee or through an appeal process by an applicant or an aggrieved party.

b. *Other committees.* Special committees may be appointed by the chairman for purposes and terms which the commission approves. At least three members of the commission shall constitute an appointed committee. The chairman may appoint non-commission members with specific knowledge and expertise in a subject area to serve with commission members on such committees. The committees may function for extended periods of time or may be terminated by the chairman once they have performed their functions.

1. *Project review committee.*

The project review committee shall be composed of the five commission members comprising the subdivision committee, as well as at least four

voting ex officio members appointed by the chairman which may include: the city engineer, the traffic engineer, the city architect, and the chairman of the city council's planning and zoning committee or his/her designee. A quorum of the committee shall consist of five members. The committee shall meet as needed on the second and fourth Wednesday of each month in Birmingham City Hall.

This committee is organized and authorized to review public facility proposals for recommendations to the full commission, and to review and approve on behalf of the commission minor additions, alterations or modifications to existing public facilities or utilities. Major public facility projects must be reviewed and approved by the commission. The decisions of the committee can be appealed to the full commission.

2. *Comprehensive planning committee.* The comprehensive planning committee shall be composed of the seven commission members comprising the zoning advisory committee. A quorum of the committee shall consist of four members. The committee shall meet as needed. This committee is organized to review in-depth elements of the city's comprehensive plan, neighborhood improvement plans, urban renewal and urban redevelopment plans, and other long-range plans, programs, or studies affecting the physical development of the city and to report its findings and recommendations to the full commission. The decisions of the committee are for advisory purposes only.

Art. VI. Meetings.

a. *Quorum.* A majority of the members of the planning commission (nine members) shall constitute a quorum for the beginning of a meeting and for the purpose of conducting business.

b. *Regular meetings.* Regular meetings of the commission shall be held on the first Wednesday of each month at 8:30 a.m. in the city council chamber in Birmingham City Hall. In the event of a conflict with holidays or other events, a majority vote of the members may change the time, date or place of the meeting, if so decided at the previous meeting.

c. *Pre-hearing meetings.* The commission may hold a meeting immediately preceding the regular meeting to discuss with staff the details of items scheduled to be considered. The public may attend such meetings based on the state's open meeting law, but may not participate in discussions.

d. *Special meetings.* Special or non-regularly scheduled meetings of the commission may be called at any time by the chairman or by a majority of the voting members of the commission present at a meeting. All members shall be notified in writing of the

purpose, time, date, and place of the meeting at least 72 hours in advance. At such special meetings no business shall be considered other than that designated in the notification.

e. *Work sessions.* The commission may hold work sessions with staff and others to discuss items of common concern, receive training, and review staff project assignments by the commission. The public may attend all work sessions but participation in discussion shall be by consent of the chairman. All members shall receive at least 72 hours advance notice of the purpose, time, date and place of the work session.

f. *Cancellation of meetings.* In instances where there are no applications, public hearings, cases or other business requiring consideration or action by the commission, the chairman, in consultation with commission staff, may dispense with a regular meeting by giving written or oral notice to all members.

g. *Conduct of meetings.* All meetings shall be open to the public. Robert's Rules of Order shall govern the commission and its committees.

h. *Order of business.* Unless otherwise determined by the chairman, the general order of business at regular meetings shall be:

1. Call to order.
2. Roll call (determination of quorum).
3. Approval of agenda.
4. Approval of minutes.
5. Committee/official reports.
6. Public hearings.
7. Other business.
8. Adjournment.

i. *Agenda.*

1. An agenda for each regular meeting of the planning commission shall be prepared by the secretary.
2. The agenda, along with information pertinent to each scheduled public hearing case and other business matters, shall be mailed to each planning commissioner at least five business days before the meeting, allowing sufficient opportunity for the commission to visit each site and review case files. All files and records of the commission shall be open and made available to the public.
3. A sufficient number of agendas shall be available to the public at the regular meeting.

4. Only those items on the regular meeting agenda shall be discussed during the meeting. However, any additional item may be placed on the agenda with the approval of the chairman. This provision does not apply to items where a public hearing and public notice is required by law.

j. *Voting.* A majority vote of the members present at a meeting and constituting a quorum shall be necessary to decide any item of business requiring action by the commission, with the exception of the adoption of the city's master plan or amendments to said plan which shall be approved by the affirmative vote of at least 12 members as required by state law (Code of Alabama 1975, § 11-52-10). The commission may be polled, at the discretion of the chairman, or upon the request of a commission member, on any controversial action. All decisions of the commission shall be shown in the record of the meeting as entered in the minutes of the commission. All ex officio members of the commission shall have full membership rights including: discussion, motions, and voting.

k. *Disqualification.* No member of the commission shall participate in a hearing as a commission member or vote as a commission member upon any matter in which he, or his immediate family, has a personal or financial interest, either direct or indirect in nature as defined by the Alabama Ethics Law (Act No. 95-194). In the event of such a conflict, a member should recuse himself from consideration of the item of business.

l. *Minutes and records.* Each action of the commission shall be recorded in the minutes and supporting documents maintained in the office of the City of Birmingham's Department of Planning, Engineering and Permits. Each meeting shall be tape recorded and the record retained a minimum of five years. All such records shall be available to the public.

Art. VII. Public hearings.

a. *General procedures.*

The commission shall hold public hearings prescribed by law in accordance with requirements set forth for such hearings in the Code of Alabama. In addition to required hearings, the commission may hold additional public hearings when it determines that such hearings will be in the interest of the public.

Any party may appear in person or be represented by an agent at the hearing. Witnesses may be called and factual evidence submitted. The commission may establish reasonable time limits for speakers, considering the time constraints of the meeting and the complexity of the issues. Equal time shall be granted to each side during rebuttal arguments.

b. *Order of public hearings.* Unless otherwise determined by the chairman, the general order for conducting public hearings shall be:

1. The chairman introduces each case by reading from the notice of public hearing;

2. Commission staff presents background information regarding the case, including a recommendation;
3. The applicant presents the case supporting the proposal;
4. Persons in favor of the proposal allowed to speak;
5. Persons in opposition to the proposal allowed to speak;
6. The applicant allowed to speak in summary or rebuttal;
7. The commission may question the applicant, staff or other speakers at any time;
8. The commission discusses the case and makes a decision;
9. The public hearing will be declared closed.

c. *Continued case.* A case may be continued at the request of the applicant or by a majority decision of the commission members present to a later meeting of the commission. If a public hearing case is continued beyond 90 days from the filing of the application, the case may not be heard nor a decision reached without due public notice being again provided in the same manner as for a first hearing.

d. *Rehearing.* An application for a rehearing may be made in the same manner as provided for in an original hearing. The application for rehearing shall be denied by a majority vote of the commission members present if from the record it shall appear that there has been no substantial change in facts, evidence, or conditions.

Art. VIII. Amendments.

a. *Adoption.* These bylaws/procedures shall become effective when adopted by the commission.

b. *Amendments.* These bylaws/procedures may, within the limits allowed by law, be amended at any meeting of the commission by a two-thirds vote of the voting membership of the commission, but only after the proposed change has been read and discussed at a previous regular meeting.

APPENDIX B. RULES OF PROCEDURE OF THE SUBDIVISION COMMITTEE OF THE BIRMINGHAM PLANNING COMMISSION

Sec. I. Authority.

The subdivision committee of the Birmingham Planning Commission is established under Section 799, Title 37, 1940 Alabama Code.

Robert's Rules of Order shall govern the order of business and conduct of meetings of the subdivision committee.

Sec. II. Membership.

Composition: The membership of the subdivision committee shall be composed of five members elected by the Birmingham Planning Commission from its appointed membership.

Terms of membership: Members duly elected to membership on the subdivision committee shall continue to serve on the committee as long as they are legally serving as members of the Birmingham Planning Commission or until replaced by election of the planning commission.

Replacement: Replacement for any member of the committee whose term of office on the Birmingham Planning Commission is terminated shall be by election from the appointed membership of the planning commission.

Sec. III. Officers.

Chairman: A chairman shall be elected by the members of the subdivision committee. His term shall be for one year beginning with the date of election, and he shall be eligible for reelection. The chairman shall decide upon all points of order and procedure, subject to these rules of procedure, unless directed otherwise by a majority of the committee in session at the time. The chairman may appoint any subcommittee deemed necessary to investigate any matter before the committee.

Vice-chairman: A vice-chairman shall be elected by the members of the subdivision committee in the same manner and for the same term as the chairman. He shall serve as acting chairman in the absence of the chairman, and at such times he shall have the same powers and duties as the chairman.

Secretary: The director of planning, engineering and permits or his designee shall perform the administrative and clerical functions of the subdivision committee. He shall keep all records and handle all correspondence and notices for the committee.

Sec. IV. Applications.

Subdivision applications shall be filed in accordance with the provisions of the City of Birmingham Subdivision Regulations.

Sec. V. Meetings.

Meeting place and time: Regular meetings of the subdivision committee shall be held in the council chambers of city hall, provided that if the committee chairman so directs, meetings may be held at any other location within city hall. The committee shall hold its meetings on the second and fourth Wednesday of each month, provided that in the event of legal holidays falling on these dates, the committee will select an alternative meeting date prior to the holiday.

Special meetings: Special meetings of the subdivision committee may be called at any time by the chairman. At least 48 hours written or oral notice of the time and place of a special meeting shall be given to each member of the committee.

Cancellation [of] meetings: Whenever there are no applications, public hearings, or other business of the subdivision committee, the chairman may dispense with a regular meeting by giving written or oral notice to all members no less than 48 hours prior to the time set for the meeting.

Conduct of meetings: All meetings shall be open to the public. The order of business at regular meetings shall be as follows:

a. Roll call.

b. Approval of minutes of previous meeting.

c. Hearing of cases.

d. Unfinished business.

e. New business.

Presentation or hearing of proposals: The following shall be the order of procedure for public hearings before the subdivision committee:

a. The chairman, or such person as he shall direct, shall give a preliminary introduction of the case.

b. The applicant shall present the proposal before the committee.

c. Any persons opposed to the application shall present the argument against the proposal.

d. Both sides will be permitted to present rebuttals to opposing testimony (at the discretion of the chairman).

Witnesses may be called and factual evidence may be submitted, but the committee shall not be limited to consideration of such evidence as would be admissible in a court of law. The committee may view the premises before arriving at a decision.

Disqualification from voting: No subdivision committee member shall take part in the hearing or decision of any case in which he shall be personally or financially interested. No committee member shall vote on any matter concerning a public hearing unless he shall have attended the public hearing.

Sec. VI. Quorum.

A quorum shall consist of three members of the subdivision committee. When less than three members are present for any hearing, then an appointed planning commission member who serves on a committee other than the subdivision committee

may serve as a subdivision committee member in order to obtain a quorum. If a quorum is not met, then those members present shall agree to and announce the time and place for a continued hearing.

Sec. VII. Minutes.

The minutes of every meeting of the subdivision committee shall be kept in a permanent file in the offices of the department of planning, engineering and permits and shall be a public record. These shall show the record of every action taken by the committee and the reason therefor. The names of members absent or abstaining from voting shall also be kept as part of the public record.

APPENDIX C. BIRMINGHAM PLANNING COMMISSION

CITY OF BIRMINGHAM

CERTIFIED COPY OF RESOLUTION

SUBJECT: A request for approval of a "Complete Streets" policy.

PREMISES: The City of Birmingham

COMMISSION ACTION

WHEREAS, "Complete Streets" are defined as streets that are designed to accommodate all users - motorists, pedestrians, bicyclists, and transit riders;

WHEREAS, "Complete Streets" can include a range of elements to accommodate all users, including, but not limited to, sidewalks, signage, paved shoulders, bicycle lanes, traffic lanes shared with motorists including sharrows and other bicycle pavement markings, crosswalks and other pavement markings for pedestrians, pedestrian control signalization, bicycle actuated traffic signals, bus pull outs, curb cuts, raised crosswalks, roundabouts, traffic islands and other traffic calming measures;

WHEREAS, "Complete Streets" principles should guide future street and transportation plans for both new and retrofit projects in the City of Birmingham, and any exception to this approach should be appropriately justified;

WHEREAS, "Complete Street's" application will vary depending on the surrounding land uses and densities and its general context; however street and transportation plans should always be guided by the principle that streets should promote multiple transportation options for all people;

WHEREAS, "Complete Streets" can spark economic development and community development by helping to create walkable, vibrant communities where businesses can thrive and be strong, livable neighborhoods for City of Birmingham residents;

WHEREAS, "Complete Streets" can play a role by reducing pedestrian and bicyclist injuries and deaths, reducing traffic congestion, improving air quality both by promoting alternative forms of transportation and by helping to improve traffic flow;

WHEREAS, the people of the City of Birmingham have expressed a strong desire for increased transportation options, including walking, cycling, and transit;

WHEREAS, the May 2011 edition of the *Transportation of America* pedestrian safety report entitled Dangerous Design, ranked Birmingham as the 16th most dangerous metro area for pedestrians; the *AARP Bulletin* released November 9, 2009 ranked Birmingham the ninth most dangerous metro area for walkers; and *Bicycling* magazine's May 2010 edition ranked Birmingham as one of the three "Worst Cities" in America for bicycling.

NOW, THEREFORE BE IT RESOLVED that the Birmingham Planning Commission strongly endorses a Complete Streets approach for the City of Birmingham to enhance transportation options and to improve quality of life for the residents of Birmingham as follows:

1. The City of Birmingham shall, to the maximum extent practical, scope, plan, design, construct, operate, and maintain all city streets to provide a comprehensive and integrated network of facilities for people of all ages and abilities traveling by foot, bicycle, automobile, public transportation, and commercial vehicle.

2. Such improvements shall be consistent with and supportive of the local community, and that early consideration shall be given to any project's land use and transportation context.

3. Facilities for all users shall be considered in the construction, reconstruction, retrofit, repaving, and rehabilitation of city streets, except under one or more of the following conditions:

    a. The project involves a roadway on which a specific use is prohibited by law.

    b. There is a documented absence by the City of Birmingham of existing bicycle or pedestrian activity and absence of future need recognized in approved Birmingham Transportation Plan elements.

    c. The subdivision regulations do not require sidewalks along the proposed street; however, some accommodations for bicycles may be needed depending on approved plans.

    d. The costs of providing accommodation are "excessively disproportionate" to the need or probable use, as recognized by the City of Birmingham. Excessively disproportionate is defined as exceeding 20 percent of the cost of the larger transportation project. This 20 percent figure should be used

in an advisory rather than an absolute sense. Claims of "excessively disproportionate" cost shall be submitted for review by the City of Birmingham.

4. The city shall, to the maximum extent practical, follow the latest adopted design standards when implementing this policy, including, but not limited to:
   a. Guidance issued by the:
      - American Association of State Highway Officials publications including *A Guide for Achieving Flexibility in Highway Design*
      - Institute of Transportation Engineers' Recommended Practice, "*Designing Walkable Urban Thoroughfares: A Context-Sensitive Approach*"
      - *Pedestrian Right-of-Way Accessible Guidelines* (PROWAG) from the Architectural & Transportation Barriers Compliance Board
      - National Association of City Transportation Officials' "*Urban Bikeway Design Guide*"
   b. Application of design standards shall be flexible, recognizing that all streets are not alike and that user needs should be balanced, and innovative or non-traditional design options shall be considered.
5. The city engineer and traffic engineer shall develop implementation strategies that include revising and updating processes, procedures, design and construction manuals, recommended traffic control devices, standard construction specifications and other guidance to assist in this resolution's implementation.

BE IT FURTHER RESOLVED that the planning commission urges the City of Birmingham to work with Jefferson County, the Birmingham Metropolitan Planning Organization, the Alabama Department of Transportation, related advisory committees, and community organizations to achieve the goals set forth in this complete streets policy.

BE IT FURTHER RESOLVED that the planning commission urges the Birmingham City Council, the mayor's office, and relevant governmental agencies to revise, adopt, and implement policies and practices to support the complete streets approach.

BE IT FURTHER RESOLVED that the planning commission urges the City of Birmingham to release annual reports on its progress in implementing this policy.

APPENDIX D

U.S. Department of Transportation

Federal Highway Administration

Alabama Division

500 Eastern Blvd., Suite 200

Montgomery, AL 36117-2018

June 12, 2009

Mr. D. J. McInnes

Director

Alabama Department of Transportation

Montgomery, Alabama

In Reply Refer To:

HDA-AL

Dear Mr. McInnes:

Subject: Consideration of Bicycle and Pedestrian Needs in Metropolitan Planning Organization (MPO) Long Range Transportation Plans (LRTPs)

As Alabama's MPOs are in the process of updating their current LRTPs, some points to consider in accommodating bicycle and pedestrians needs are identified below:

- 23 United States Code 217 states that "Bicyclists and pedestrians shall be given due consideration in the comprehensive transportation plans developed by each metropolitan planning organization and State."
- FHWA guidance on this issue states that "Due consideration" of bicycle and pedestrian needs should include, at a minimum, a presumption that bicyclists and pedestrians will be accommodated in the design of new and improved transportation facilities. In the planning, design and operation of transportation facilities, bicyclists and pedestrians should be included as a matter of routine, and the decision not to accommodate them should be the exception rather than the rule. There must be exceptional circumstances for denying bicycle and pedestrian access either by prohibition or by designing highways that are incompatible with safe, convenient walking and bicycling."

Exceptional circumstances are defined as:

- Bicyclists and pedestrians are prohibited by law from using the roadway, In this instance, an effort may be necessary to accommodate bicyclists and pedestrians elsewhere within the right-of-way or within the same transportation corridor.
- The cost of establishing bikeways or walkways would be excessively disproportionate to the need or probable use. Excessively disproportionate is defined as exceeding 20 percent of the cost of the larger transportation project. This 20 percent figure should be used in an advisory rather than an absolute sense.

- Where sparsity of population or other factors indicate an absence of existing and future need. For example, the Portland Pedestrian Guide requires "all construction of new public streets" to include sidewalk improvements on both sides, unless the street is a cul-de-sac with four or fewer dwellings, or the street has severe topographic or natural resource constraints.

In order to comply with these requirements, the updated MPO LRTPs must, at a minimum:

- Consider the context of the project setting. In other words, MPOs should consider whether the general project area includes features like neighborhoods, shopping, schools, transit, or other facilities likely associated with the needs of bicyclists or pedestrians;
- Consider any evidence of existing, informal bicycle-pedestrian activities. An example could be a worn, dirt path along an existing road;
- Consider any reference to bicycle or pedestrian needs in the planning process for the project area;
- Consider public, agency or other comments requesting such facilities;
- Include maps and other appropriate documentation; e.g., project listing tables, identifying specific bicycle-pedestrian projects proposed in the LRTP. The maps and documentation should be consistent with the treatment of traditional "highway" projects in the LRTP; and
- Include a policy statement that bicycling and walking facilities will be incorporated into all transportation projects unless exceptional circumstances exist. If you have any questions, please contact Dave Harris at 334.223.7830.

Sincerely yours,

/s/Dave Harris

ZONING*

[Title 1. General Provisions]

[Article I.] Purpose

Sec. 1. Purpose.

[Article II.] Zoning Districts and Boundaries

Sec. 1. Establishment of districts.
Sec. 2. Zone map.

***Editor's note—**Printed herein is the city's zoning ordinance, Ord. No. 1809-F, as adopted and later amended by the city council. A uniform system of capitalization has been employed, catchlines have been added to individual sections where necessary and a frontal analysis has been added for the convenience of the user. Amendments are indicated by an historical citation following each amended section. Page numbers referenced herein are to page numbers of the original ordinance from which the provision was derived.

Pursuant to Ordinance No. 63-3, the term "City Commission" has been changed to "City Council" and the term "City Comptroller" has been changed to "Director of Finance." Also, for purposes of clarification, the word "chapter" has been changed to "ordinance."

[APPENDIX] Zoning Board of Adjustment Enabling Legislation

[TITLE 1. GENERAL PROVISIONS]

[ARTICLE I.] PURPOSE

Section 1. Purpose.

The zoning regulations and districts as herein established have been made in accordance with a comprehensive plan and designed to lessen congestion in the streets, to secure safety from fire, panic and other dangers; to promote health and the general welfare; to provide adequate light and air; to prevent the overcrowding of land; to avoid undue concentrations of population; to facilitate the adequate provision of transportation, water, sewerage, schools, parks, and other public requirements. The regulations have also been made with reasonable consideration, among other things, to the character of the district and its peculiar suitability for particular uses, and with a view to conserving the value of building and encouraging the most appropriate use of land throughout the city.

[ARTICLE II.] ZONING DISTRICTS AND BOUNDARIES

Section 1. Establishment of districts.

In order to carry out the intent and purpose of this ordinance, the City of Birmingham is hereby divided into the following districts; the location, boundaries, and area of which are and shall be as shown and depicted upon the zone map.

E-1	Estate District
R-1	Single-Family District
R-2	Single-Family District
R-3	Single-Family District
R-4	Two-Family and Semi-Attached Dwelling District
R-4A	Medium Density Residential District
R-5	Multiple Dwelling District
R-6	Multiple Dwelling District
R-7	Multiple Dwelling District
R-8	Planned Residential District
B-1	Neighborhood Business District
B-2	General Business District
B-3	Community Business District
B-4	Central Business District
B-5	Mixed Business District
B-6	Health and Institutional District
O&I	Office and Institutional District
PRD	Planned Recreational District

M-1	Light Industrial District
M-1A	General Industrial District
M-2	Heavy Industrial District
M-3	Planned Industrial District
M-4	Special Mining and Lumbering District
A-1	Agricultural District
A-2	Agricultural District
MXD	Mixed Used District

Section 2. Zone map.

The map hereto attached which is identified by the title "Zoning District Map, Birmingham, Alabama," and which, together with the legends, words, figures, symbols and explanatory matter thereon, is hereby declared to be a part of this ordinance, and shall be known as the "zone map" throughout this ordinance.
(Ord. No. 90-130, 5-15-1990; Ord. No. 1888-G, 5-11-2010)

Editor's note—The zone map as described in the above section is not set out herein, but is on file, together with all amendments thereto, in the office of the city clerk and the zoning office of the department of planning, engineering and permits.

Section 3. District boundaries.

The district boundary lines on said map are intended to follow either streets or alleys or lot lines, and where the districts designated on said map are bounded approximately by such streets, alleys or lot lines, the center line of the street or alley or the lot lines shall be the boundary of the district unless such boundary is otherwise indicated on the map. In all other cases, the district boundary lines shall be determined by use of the scale appearing on the zone map.

[ARTICLE III.] GENERAL REGULATIONS

Section 1. Use of land.

No land shall be used except for a use permitted in the district in which it is located, except as provided in articles VI and VIII and on page xiii (nonconforming uses).

Section 2. Use of structures.

No structure shall be erected, converted, enlarged, reconstructed, moved or structurally altered, nor shall any building or structure be used, except for a use permitted in the district in which such building is located, except as provided in articles VI and VIII and on page xiii (nonconforming uses).

Section 3. Height of structures.

No structure shall be erected, converted, enlarged, reconstructed, moved or structurally altered to exceed the height limit herein established for the district in which such structure is located, except as provided in article VI but not to exceed the height limit established by article VI, section 13.

Section 4. Dimensional regulations.

No structure shall be erected, converted, enlarged, reconstructed, moved or structurally altered except in conformity with the dimensional regulations of the district in which such structure is located, except as provided in article VI.

Section 5. Encroachment on or reduction of open spaces, etc.

The minimum yards, parking spaces, and open spaces, required by this ordinance for each structure existing at the time of passage of this ordinance, or for any structure hereafter erected or structurally altered, shall not be encroached upon or considered as part of the yard or parking space or open space required for any other structure, nor shall any lot area be reduced below the lot area per family requirements of this ordinance for the district in which such lot is located, except as provided in articles VI and VIII.

Section 6. Off-street parking and loading.

No building shall be erected, converted, enlarged, reconstructed or moved except in conformity with the off-street parking and loading regulations of articles V and VIII.

Section 7. Building to be on lots.

Every building hereafter erected, converted, enlarged, reconstructed, moved or structurally altered shall be located on a lot as herein defined, except as provided in articles VI and VII.

Section 8. Accessory buildings—Construction prior to construction of main building.

No accessory structure shall be constructed or moved upon a lot until the construction of the main building has actually been commenced.

Section 9. Accessory buildings—Use for dwelling purposes.

No accessory building shall be used for dwelling purposes other than by domestic servants entirely employed on the premises.

Section 10. More than one main building on one lot.

Except as provided in article VI, there shall not be more than one main building hereafter erected on one lot.

Section 11. Joint occupancy.

No structure shall be erected, structurally altered, or used as a single-family or two-family dwelling simultaneously with any other use, except to allow a residence unit for a watchman, custodian or caretaker employed on the premises in commercial or industrial districts and as permitted in the B-1 Neighborhood Business, B-2 General Business, B-3 Community Business, B-4 Central Business, and B-6 Health and Institutional District.

Section 12. Permits for construction.

No clearing, earthwork or other land disturbing activity shall be undertaken prior to all appropriate permits having been issued by the department of planning, engineering and permits in accordance with the Soil Erosion and Sediment Control Ordinance (Ord. No. 88-148). No excavation for foundations, nor any erection, or structural alteration of any structure shall be undertaken prior to appropriate permits having been issued by the department of planning, engineering and permits.

Section 13. Building material storage.

Building materials or temporary structures for construction purposes shall not be placed or stored on any lot or parcel of land located in a residential or business zone district before appropriate building permits have been issued by the department of planning, engineering and permits.

Section 14. Grading and clearing.

No lot shall be graded or cleared, nor shall the earth contained in the lot be altered before appropriate permits concerning grading and sedimentation control have been issued by the department of planning, engineering and permits.

[ARTICLE IV.] DEFINITIONS

Section 1. Generally.

For the purpose of this ordinance, certain terms and words are hereby defined. Words used in the present tense shall include the future; the singular number shall include the plural and plural the singular; the word "building" shall include the word "structure" and the word "shall" is mandatory and not directory.

1. *Accessory structure or use.* A subordinate structure or a portion of the main structure, the use of which is incidental to the main use of the premises. An accessory use is one which is incidental to the main use of the premises.

2. *Alley.* A public thoroughfare which affords only a secondary means of access to abutting property.

3. *Amortization.* The process by which nonconforming uses and structures must be discontinued or made to conform to requirements of the zoning ordinance at the end of a specified period of time.

3.5. *Amusement (indoor).* The provision of entertainment or games of skill to the general public and that is wholly enclosed in a building, such as bowling alleys, roller-skating or ice-skating, billiards and pool halls, motion picture theaters, and similar types of amusement operations.

3.6. *Amusement (outdoor).* The provision of entertainment or games of skill to the general public where any portion of the activity takes place outside of a building, such as a golf driving range, archery range, miniature golf course, or similar types of amusement operations. This use does not include a stadium, automotive or other types of race track, vehicular-related activities or similar or related activities, or any uses listed within the Planned Recreational District (PRD) zoning classification.

4. *Apartment building.* See *Dwelling, multiple.*

5. *Basement.* A story having a part but not more than one half of its height below grade. A basement is counted as a story for the purpose of height regulations.

6. *Billboard.* Any sign used as an outdoor display for the purpose of making anything known, the matter advertised or displayed being remote from its origin or point of sale.

7. *Building.* Any structure having a roof supported by columns or walls designed or built for the support, enclosure, shelter, or protection of persons, animals, chattels, or property of any kind.

8. *Building, height of.* The vertical distance from the grade to the highest point of the coping of a flat roof or to the deck line of a mansard roof, or to the average height between eaves and ridge for gable, hip and gambrel roofs.

9. *Buffer.* An area established to protect one type of land use from incompatible characteristics of another.

10. *Cellar.* That portion of a building between floor and ceiling which is wholly or partly below grade, and having more than one-half of its height below grade. A cellar is not counted as a story for the purpose of height regulations.

11. *Clinic.* A building or a portion of a building where patients are not lodged overnight, but are admitted for examination and treatment by a group of physicians or dentists practicing together.

12. *Club, private.* A building or portion thereof or premises owned or operated by a corporation, association, person or persons for a social, educational, or recreational purpose, but not primarily for profit nor to render a service which is customarily carried on as a business.

12.5. *Cold frame.* An unheated outdoor structure with a glass or clear plastic top, that protects seedlings and plants from the cold.

13. *Communal living facility.* The following buildings or structures in which four or more unrelated persons reside, in any dwelling unit. These types of facilities must not be closer than 1,000 feet from another communal living facility. Communal living facilities are not meant to include child foster care facilities nor facilities housing the mentally handicapped or mentally ill, where there are no more than ten such people plus two unrelated persons to either the occupants of the facility or to each other. (Code of Ala. 1975, § 11-52-75.1 and Zoning Board of Adjustment Case No. 84-95.)

    a. *Adult foster care homes.* Foster care homes are for four or more unrelated adults who are in need of residential care in a family setting but are not to include people in need of institutional care. These adults are unable to live in their own homes because of physical, mental or emotional limitations and cannot live with their families because of distance, ill health or estrangement, or family's inability to provide adequate care.

    b. *Boardinghouse.* A dwelling other than a hotel, where for compensation and by prearrangement for definite periods, meals, or lodging and meals, are provided for four or more persons.

    c. *Domiciliary care facility.* Homes for the aged, intermediate institutions, and related institutions, whose primary purpose is to furnish room, board, laundry, personal care, and other nonmedical services, regardless of what it may be named or called, for not less than 24 hours in any week, to four or more individuals not related by blood or marriage to the owner and/or administrator. This kind of care implies sheltered protection and a supervised environment for persons, who because of age or disabilities, are incapable of living independently in their own homes or a commercial room and board situation, yet who do not require the medical and nursing services provided in a nursing home. In these facilities, there might be available temporarily and incidentally the same type of limited medical attention as an individual would receive if he were living in his own home.

    d. *Fraternity.* A home for four or more unrelated male students who are members of a social organization except those located on college campuses.

    e. *Maternity facility.* An institution operated solely for the care and treatment of women during pregnancy, delivery, and/or within ten days subsequent to delivery. The term shall include any individual or institu-

tion providing such services within a period of one year to one or more women not related by blood or marriage to persons living in or operating such building or institution.

f. *Nursing home.* A home for the aged or infirm in which four or more persons not of the immediate family are received, kept or provided with food and shelter or care for compensation; but not including hospitals, clinics or similar establishments devoted primarily to the diagnosis and treatment of the sick or injured.

g. *Roominghouse.* A building other than a hotel where lodging for four or more persons not of the immediate family is provided for definite periods and for compensation and by prearrangement for definite periods.

h. *Sorority.* A home for four or more unrelated female students who are members of a social organization except those located on college campuses.

i. *Transitional home.* Any dwelling or similar facility operated for the provision of room and board in the rehabilitation, resocialization and/or adjustment of four or more individuals, patients or clients, excluding jails, prisons, and other correctional institutions.

j. *Other similar buildings, facilities, homes or structures.* Any home or facility similar in function to those listed above shall be deemed a communal living facility.

13.5. *Community garden.* A property that an individual, group of individuals or organization is utilizing for teaching/education or cultivation and harvesting, for useful and productive purposes, food crops and/or ornamental crops for personal use, donation or sale.

14. *Condominium.* A single real property parcel with all the unit owners having a right in common to use the common elements with separate ownership confined to the individual units.

15. *District.* A section or sections of the City of Birmingham for which the zoning regulations governing the use of buildings and premises, the height of buildings, the size of yards, and the intensity of use are uniform.

16. *Dwelling.* Any building or portion thereof which is used for residential purposes.

17. *Dwelling, single-family.* A building designed for or occupied exclusively by one family.

18. *Dwelling, single-family detached.* A building that is not connected to another primary structure and designed for or occupied exclusively by one family.

19. *Dwelling, single-family attached.* A building on its own recorded lot connected to another primary structure and designed for, or occupied exclusively by one family, that is attached by a common wall to more than one like building.

20. *Dwelling, single-family semi-attached.* A building on its own recorded lot connected to another primary structure and designed for, or occupied exclusively by one family that is attached by a common wall on only one side to a like building.

21. *Dwelling, two-family.* A building designed for or occupied exclusively by two families.

22. *Dwelling, multiple.* A building designed for or occupied exclusively by three or more families.

23. *Dwelling unit.* One or more rooms located within a building and forming a single habitable unit with facilities which are used or intended to be used for living, sleeping, cooking and eating purposes.

24. *Family.* One or more persons occupying a dwelling and living as a single housekeeping unit, all of whom or all but two of whom are related to each other by birth, adoption or marriage as distinguished from a group occupying a communal living facility.

25. *Floor area.* The gross horizontal areas of all floors, including penthouses (but not excluding such areas within a building which are used for parking) measured from the exterior faces of the exterior walls of a building. Basements and cellars shall not be included in the gross floor area.

26. *Frontage, street.* All the property on one side of a street between two streets which intersects such street (crossing or termination), measured along the line of the street, or if the street is dead ended, then all the property abutting on one side between a street which intersects such street and the dead end of the street.

27. *Garage, private.* An accessory building designed or used for the storage of motor-driven vehicles owned and used by the occupants of the building to which it is accessory.

28. *Garage, public.* A building or portion thereof, other than private, storage or parking garage, designed or used for equipping, servicing, repairing, hiring, selling or storing of motor-driven vehicles, but not including the storage of wrecked or junked vehicles.

29. *Garage, storage, or parking.* A building or portion thereof designed or used exclusively for storage of motor-driven vehicles, and within which motor fuels and oils may be sold, but no vehicles are equipped, repaired, hired or sold.

29.5. *Garden manager.* Individual that is responsible for the operation of community garden use. If the community garden is a group or organization, a responsible person (individual who has the authority to sign binding agreements for a group or organization) for that group or organization must be identified.

30. *Grade.* The average level of the finished ground surface adjacent to the exterior walls of the building.

30.5. *Greenhouse / hoophouse.* A temporary or permanent structure typically made of, but not limited to, wood, glass, piping, clear or translucent plastic or fiberglass where plants are cultivated.

31. *Home occupation.* Any occupation or activity which is clearly incidental to the use of the premises for dwelling purposes and which is carried on wholly within a main building or accessory building by a member of a family residing on the premises, in connection with which there is no advertising other than an identification sign of not more than one square foot in area which is neither illuminated or animated, and no other display or storage of materials or exterior identification of the home occupation or variation from the residential character of the premises; and in connection with which no person outside the family is employed and no equipment used other than that normally used in connection with a residence. A home occupation shall not include beauty parlors, barbershops or doctors' or dentists' offices for the treatment of patients.

32. *Hotel.* A building in which lodging, or boarding and lodging, are provided and offered to the public for compensation and in which ingress and egress to and from all rooms are made through an inside lobby or office supervised by a person in charge at all hours. A hotel is open to the transient public contradistinction to a boardinghouse, or a roominghouse which are herein separately defined.

32.5. *Indoor urban farm.* A commercial farm that produces and distributes food crops, ornamental crops and other agriculture products either for sale on site or off site utilizing hydroponics or aquaculture, and is completed enclosed within a building. Outside storage is prohibited.

33. *Institution.* The structure or land occupied by a group, cooperative, board, agency or organization created for the purpose of carrying on nonprofit functions of a public or semi-public nature, including but not limited to hospitals, schools, churches, fraternal orders and also including residential accessory uses, limited to rectories, parsonages, dormitories and dwellings for resident administrators, watchmen, custodians or caretakers.

34. *Junkyard, general.* A parcel and/or lot used for the outside storage or placement of used and/or damaged materials and items.

35. *Junkyard, vehicular.* A parcel and/or lot used for the outside placement, storage, parking, dismantling, or disassembling of any disabled or inoperable vehicles, or parts thereof, including, but not limited to motors, tires, wheels, axles, transmissions and other accessories.

36. *Kennel.* Any building(s) or land designated or arranged for the care of five or more dogs or cats belonging to the owner of the principal use kept for purposes of show, hunting, or as pets. A commercial kennel shall be defined as an establishment for the housing, grooming, breeding, boarding, training, or selling of animals, primarily, but not limited to domesticated dogs and cats. this definition shall not be applicable to veterinarians operating under license from the State of Alabama who board dogs or other pets in an enclosed structure.

37. *Loading space.* A space having a minimum dimension of 12 by 35 feet and a vertical clearance of at least 14 feet within the main building or on the same lot, providing for the standing, loading, or unloading of trucks.

38. *Lot.* Land occupied or intended for occupancy by a use including the yards and parking spaces required herein, and having its principal frontage upon a street.

39. *Lot, corner.* A lot abutting upon two or more streets at their intersection.

40. *Lot, through.* A lot other than a corner lot abutting two streets.

41. *Lot of record.* A lot which is part of a subdivision, the plat of which has been recorded in the office of the probate judge of Jefferson County, Alabama, or a parcel of land described by metes and bounds, the plat or description of which has been recorded in said office. If a portion of a lot or parcel has been conveyed at the time of the adoption of this ordinance, the remaining portion of said lot or parcel shall be considered a lot of record.

42. *Lot width.* The width of the lot at the front building setback line.

42.5. *Market manager.* Individual that is responsible for the operation of a farmer's and/or public market use. If the market is a group or organization, a responsible person (individual who has the authority to sign binding agreements for a group or organization) for that group or organization must be identified.

42.6. *Market stand.* A seasonal, temporary structure where crops grown at a community garden may be packaged and sold on site to consumers.

43. *Mini-warehouse.* A building or structure which is designed or used for the storage of goods, wares or merchandise, provided no display, sale or manufacture of such items are allowed on the premises and further provided such storage does not include perishable items or other items that may cause a health hazard or highly combustible, flammable or explosive products or

materials; said building or structure shall be limited to a maximum size of 20,000 square feet and be designed with cubicles or separate storage areas having a maximum size of 1,000 square feet and a maximum width of 25 feet.

44. *Motel.* A building or group of buildings used for the temporary occupancy of transients and containing no facilities for cooking in the individual units.

45. *Nonconforming use, legal.* The use of any building or land which was lawful at the time of passage of the ordinance from which this division is derived, or amendment thereto, but which use does not conform, after the passage of the ordinance from which this division is derived, or amendment thereto, with the use regulations of the district in which it is situated.

46. *Office.* The building, room, or space where clerical or administrative activities are performed.

47. *Opioid.* An opioid is a class of addictive narcotic drugs that are often prescribed for severe pain relief but also are frequently used (and abused) illegally to create euphoric states of consciousness. Common types of opioids are heroin, codeine, and morphine.

48. *Opioid replacement therapy treatment facility.* Any operation that has received a certificate of need from the State Health Planning and Development Agency of Alabama to operate a facility to prescribe and/or dispense opioid replacement drugs and offer therapy to individuals and groups as a part of a treatment program. These opioid replacement drugs generally include, but [are] not limited to, methadone, naloxone, naltrexone, and similar types of opioid receptor agonists. No opioid replacement therapy treatment facility may be located:

    a. Within 1,000 linear feet of the lot line of a E or R zoned property;

    b. Within 1,000 linear feet of the lot line of a church or other place of worship;

    c. Within 1,000 linear feet of the lot line of a public park;

    d. Within 1,000 linear feet of the lot line of a kindergarten, elementary, high school, college, university, or other similar type of school, whether public or private;

    e. Within 3,000 linear feet of the lot line of another opioid replacement therapy treatment facility;

    f. Within areas that are registered and listed on the National Register of Historic Places as historic districts, or areas within 1,000 linear feet of the lot line of those districts. The boundaries of said historic districts are on file in the department of planning, engineering and permits;

g. Within areas designated as commercial revitalization districts as established by the council of the City of Birmingham. The boundaries of such districts are on file in the department of planning, engineering and permits.

48.5. *Outdoor markets.*

a. *Farmers market.* Outdoor sales sanctioned by the State of Alabama Farmer's Market Authority, consisting of whole uncut produce, ornamental crops and value-added agricultural products such as baked goods, jams and jellies, pickles and relish, dried fruits, syrups and honey, eggs, meat, nuts (at least 75 percent of vendors) and handmade art and crafts (no more than 25 percent of vendors).

b. *Public market.* Outdoor sales consisting of whole uncut produce, ornamental crops, value-added agricultural products such as baked goods, jams and jellies, pickles and relish, dried fruits, syrups and honey, eggs, meat, nuts, handmade art and crafts and unique local goods. Twenty-five percent of all vendors at public markets must sell either produce or value-added agricultural products. Used clothing, mass-produced items and appliances are prohibited.

c. *Flea market.* Outdoor sales consisting of individual stalls used for selling various types of merchandise such as used household items, and cut-rate goods.

48.6. *Outdoor urban farm.* A commercial farm that produces and distributes food crops, ornamental crops and other agriculture products, such as honey and compost, either for sale on site or off site utilizing traditional farming methods, hydroponics or aquaculture.

49. *Parking area.* Land reserved for the parking of vehicles, including necessary maneuvering area.

50. *Parking lot.* An open area used exclusively for the temporary storage of motor vehicles and within which motor fuels and oils may be sold and fees charged, but no vehicles are to be equipped, repaired, rented or sold.

51. *Parking space, off-street.* An accessible space permanently reserved for the temporary storage of one vehicle, connected with a street by a driveway or an alley, having a minimum area of not less than 162 square feet, a minimum width of nine feet, and a minimum length of 18 feet, exclusive of driveways and maneuvering area.

52. *Premises.* A lot, together with all buildings and structures existing thereon.

53. *Self-storage structure.* A building or structure which is designed or used for the storage of surplus personal property accumulated in the maintenance or operation of a home, apartment, or dwelling, provided no display or sale of such

items are allowed on the premises and further provided such storage does not include highly combustible, flammable or explosive products or materials; said building or structure shall be limited to a maximum size of 10,000 square feet and shall be designed with cubicles or separate storage areas having a maximum size of 250 square feet and a maximum width of ten feet.

54. *Service station.* Any building, structure, or land used primarily for the dispensing, sale or offering for sale at retail of any automobile fuels, oils or accessories but not including major repair work such as motor overhaul, body and fender repair or spray painting.

55. *Sign.* A name, identification, description, display or illustration which is affixed to, painted, or represented, directly or indirectly upon a building, structure, parcel or lot and which directs attention to an object, product, place, activity, person, institution, organization or business located on the premises. The term sign shall not be deemed to include official court or government notices nor the flag, emblem or insignia of a nation, political unit, school or religion.

56. *Special exception.* A variation in the terms of the zoning ordinance where permission is given to establish a use normally associated with the applicable district but which requires special permission from the zoning board of adjustment for its creation.

57. *Story.* That portion of a building other than a cellar, included between the surface of any floor and the surface of the floor next above it, or, if there be no floor above it, then the space between the floor and the ceiling next above it.

58. *Story, half.* A space under a sloping roof which has the line of intersection of roof decking and wall face not more than three feet above the top floor level and in which space not more than two-thirds of the floor area is finished off for use. A half-story containing independent apartment or living quarters shall be counted as a full story.

59. *Street.* A public thoroughfare which afford the principal means of access to abutting property.

60. *Street line.* A dividing line between a lot, tract or parcel of land and a contiguous street.

61. *Structure.* Anything constructed or erected, the use of which requires a location on the ground, or attached to something having a location on the ground, including but not limited to buildings, signs, billboards, back stops for tennis courts, fences or radio towers.

62. *Structural alterations.* Any change in the supporting members of a building or structure, such as bearing walls, columns, beams or girders; provided, however, that the application of any exterior modernizing shall not be considered a structural alteration.

63. *Tourist home.* A dwelling in which accommodations are provided or offered for one or more transient guests for compensation.

64. *Townhouse.* See *Dwelling, single-family attached.*

65. *Trailer.* Any enclosure used for living, sleeping, business or storage purposes, having no foundation other than wheels, blocks, skids, jacks, horses, or skirtings and which has been, or reasonably may be equipped with wheels or other devices for transporting the enclosure from place to place, whether by motive power or other means. The term "trailer" shall include camp car, house car or mobile home.

66. *Trailer court.* An area containing one or more trailers used as living facilities, or an area containing one or more spaces designed or intended for parking of trailers to be used as living facilities.

67. *Wrecker service yard.* A parcel and/or lot used for the outside placement and/or storage of vehicles awaiting final disposition. Disabled vehicles may not be placed or stored on this lot unless the property is properly zoned and all pertinent licenses maintained. This definition shall not be applicable to junkyards as defined herein.

68. *Yard.* An open space between a building or use and the adjoining lot lines, unoccupied and unobstructed by any structure or use from the ground upward, except as otherwise provided in article VI. In measuring a yard for the purpose of determining the width of a side yard, the depth of a front yard, or the depth of a rear yard, the minimum distance between the lot line and the main building shall be used. A required yard shall mean a yard the depth of which is specified in the area and dimensional regulations pertaining to the district in which such yard is required to be provided.

69. *Yard, front.* A yard extending across the front of a lot between the side lot lines. On corner lots the front yard shall be considered as parallel to the street upon which the lot has its least dimension.

70. *Yard, rear.* A yard extending across the rear of a lot between the side lot lines. On all lots the rear yard shall be in the rear of the front yard.

71. *Yard, side.* A yard between the main building and the side lot line and extending from the required front yard to the required rear yard.

72. *Zone map.* The map referred to on page ii (zoning districts and boundaries) and article VI, section 11.

73. *Zoning district map.* The zone map.

(Ord. No. 11-137, § 1, 11-8-2011; Ord. No. 13-71, 5-7-2013; Ord. No. 13-141, § 1, 11-5-2013; Ord. No. 13-165, § 1, 12-17-2013)

[ARTICLE V.] LEGAL NONCONFORMING USES

Section 1. When continuance of use or location and/or height of structure is permitted.

Subsection 1. *Legal nonconforming use.* If the zoning classification of a property is changed so that the existing permitted use of that property is not in compliance with the new zoning classification, the existing use may continue as a legal nonconforming use, provided that the restriction and limitations listed within this article are met.

Subsection 2. *Legal nonconforming structure.* If the zoning classification of a property is changed so that the existing location or height of a structure is not in compliance with the new zoning classification, the existing location or height of the structure is allowed as a legal nonconforming structure, provided that the restriction and limitations listed within this article are met.
(Ord. No. 13-165, § 2, 12-17-2013)

Section 2. Restrictions and limitations of legal nonconforming uses and structures.

The following will affect the legal nonconforming status of a building, property or use:

A. *Loss of legal nonconforming use status because of change of use.* If the legal nonconforming use within a building or on a property is changed to a use that conforms to the current zoning classification of the property, the legal nonconforming use status of the property will be lost. If this occurs, a change of zoning of this property must be granted by the City Council before the previous use can be re-established on this property.

B. *Loss of legal nonconforming use status because of vacancy or inactivity.* If the legal nonconforming use within a building or on a property ceases for a period of time of two years or more, the legal nonconforming use status of the property will be lost. If this occurs, two possible options may be taken to resume the legal nonconforming use:

   i. A request to change the zoning classification to one that would allow the previous use; or

   ii. A request to resume the legal nonconforming use may be made to the Zoning Board of Adjustment in compliance with the requirements of Article 6, Section 5.6.

C. *Loss of a legal nonconforming use or structure status because of enlargement or extension.* A legal nonconforming use, structure, or premises may not be structurally altered, reconstructed, enlarged or extended without a variance granted by the Zoning Board of Adjustment. If that variance is not granted, a zoning change is required in order to bring the property into compliance.

D. *Loss of legal nonconforming status of a business use.* If a legal nonconforming business operation has a spacing or distance requirement, no new business license (for a new owner) may be issued for that specific location until and unless relief from said spacing or distance requirement is granted a variance by the Zoning Board of Adjustment.

(Ord. No. 13-165, § 2, 12-17-2013)

Section 3. Restoration of damaged buildings.

Subsection 1. Any residential building or structure damaged by explosion, fire, act of God, or public enemy, to the extent that the repair of that building or structure is valued at fifty (50%) percent or more of its current replacement value, shall not be restored except in conformity with the regulations of this Ordinance unless a variance is granted for this repair by the Zoning Board of Adjustment.

Subsection 2. Any commercial or industrial building or structure damaged by explosion, fire, act of God, or public enemy, to the extent that the repair of that building or structure is valued at fifty (50%) percent or more of its current assessed or appraised value, shall not be restored except in conformity with the regulations of this Ordinance unless a variance is granted for this repair by the Zoning Board of Adjustment.

(Ord. No. 13-165, § 2, 12-17-2013)

[ARTICLE VI.] ANNEXED PROPERTY

Any territory hereafter annexed to the City of Birmingham shall continue to be subject to the county, town or city zoning district classifications and regulations as such territory was subject to at the time of annexation. Said zoning classifications and regulations shall be enforced by the City of Birmingham, as if such classifications and regulations were its own, until initial zoning is placed on the territory by the city or until the territory is successfully rezoned by a person(s) or organization having standing to do so. If the territory is not zoned by any county, town or city classifications or regulations at the time of annexation into the City of Birmingham, the department of planning, engineering and permits shall move to initially zone the territory to a City of Birmingham classification within a reasonable time, not to exceed 90 days.

[TITLE 2. ZONE DISTRICTS]

[ARTICLE I. RESIDENTIAL CLASSIFICATIONS]

Section 1. E-1 Estate District.

Subsection 1. *Generally.* The regulations set forth in this section or set forth elsewhere in this ordinance, when referred to in this section, are the regulations in the E-1 Estate District.

Subsection 2. *Use regulations.* A building or premises shall be used only for the following purposes:

1. Single-family dwelling.
2. Nurseries or truck gardens; except, that no retail sales shall be made on the premises.
3. Noncommercial greenhouse; provided that no greenhouse heating plant shall be operated within 25 feet of any lot line.
4. Publicly owned or operated park, playground or community building, museum, library or art gallery; provided that any building shall be located not less than 25 feet from any side lot line.
5. Church or other place of worship; provided that any building shall be located not less than 25 feet from any side lot line.
6. Public school, elementary or high, or a parochial or private school having a curriculum including the same courses ordinarily given in a public school, but not providing residential accommodations for students; provided that any such building shall be located not less than 25 feet from any side lot line.
7. Golf club or golf course, except a par three golf course, miniature course or practice golf driving range operated for commercial purposes.
8. Home occupations.
9. Accessory structures and uses, not including accessory use child care centers.
10. A church or public building may have one bulletin board or one sign, located on the same lot as the main structure, said bulletin board or sign not to exceed 27 square feet in area nor to be animated or illuminated with intermittent light.
11. Temporary signs not exceeding a total of eight square feet in area located on the same lot pertaining to the lease, hire or sale of a building or premises.

12. A temporary sign not exceeding a total of eight square feet in area relating to the development, sale or lease of lots or houses in a subdivision containing not less than five lots, which sign shall not remain more than two years or after the sale of the last lot, whichever occurs first.

13. Family day/night care home.

14. Wireless communications facility, in accordance with article VI, section 18.

15. Community garden* provided that no residential structure is on the same property as the community garden, garden use excluding all accessory structures is allowed in any yard, market stands are allowed by special exception, on-site sales of produce grown at community garden are prohibited except when granted by special exception for a market stand, accessory structures limited to storage sheds, water cisterns, cold frames, hoophouses and greenhouses built of standard uniform materials that are either new or in sound condition not showing signs of decay, all compost and organic matter stored on site shall not cover more than ten percent of the total lot area and shall be screened from view of adjacent property and public right-of-way with fencing built of standard uniform materials that are either new or in sound condition not showing signs of decay or evergreen landscape buffer, shall be managed to prevent rodents and pests, shall be maintained to prevent odors and drainage from compost onto adjacent sites, all gardening equipment shall be limited to household gardening/lawn equipment, and a community garden permit is obtained from PEP that provides the following information:

    a. Name of all persons or entities that govern the garden.

    b. Name, signature and contact information of garden manager.

    c. Description of garden use and purpose.

    d. Detailed explanation of location of garden including address.

    e. Site plan that depicts all structures, compost piles, proposed screening and garden installations of the proposed garden.

    f. Results of soil testing for soil condition and contamination.

    If a garden is fallow or no longer useful or productive and is not maintained free from injurious, noxious or unsightly weeds, the lot will be deemed to be a nuisance and will be subject to code enforcement. If any accessory structure is not maintained in sound condition free from evidence of decay and can be seen from public right-of-way or an adjacent property, they will be considered a nuisance and will be subject to code enforcement.

    It is a requirement that soil testing be conducted prior to gardening activities. Test for both soil condition and possible soil contamination, to determine at

minimum constraints to food production, shall be conducted. Information on acquiring soil testing kits and analysis can be found in the appendix to the [this] City of Birmingham Zoning Ordinance.

16. Farmers market provided that [it] occurs only on lots where the primary use is a school, place of worship, a public park (provided that the City of Birmingham School Board or Park and Recreation Board has given written permission allowing the market to occur on their property) or on an abutting lot that is owned by one of the aforementioned primary uses, sales only occur on a temporary basis no more than 78 days per year and between the hours of 7:00 a.m. and 7:00 p.m., market can not operate for more than two consecutive days, market manager demonstrates that adequate parking is available on the lot being used by the market or a parking arrangement has been made for a nonresidential lot that is within 500 feet and is not in use during market hours, items made from kits, used or mass-produced items are prohibited, every vendor in any market shall, within one hour after the closing of the market, cause his or her provisions and vehicle to be removed from the vendor stall, and his or her stall thoroughly cleansed, and all rubbish to be removed from the vendor stall, an affidavit verifying landowners permission and identifying market manager is submitted to PEP, acknowledgement of applicable Jefferson County Health Department regulations, a farmers market permit, valid for one year, is obtained from PEP and a permit fee is paid to PEP that provides the following information:
    a. Name of all persons or entities that govern the market.
    b. Name, signature and contact information of market manager.
    c. List of all vendors and a list of items to be sold by vendor.
    d. Copy of State of Alabama Farmers Market Authority Certificate.
    e. List of market cleanup procedures.
    f. Detailed explanation of location of market and days/hours of operation.
    g. Address of the market location.
    h. Parking plan.
17. Apiary provided that it is accessory to a residential structure or community garden, located in a rear yard, hives are set back from property lines by 20 feet, a continuous water source is available, a flyway barrier (fence or dense evergreen shrub) is provided that is six feet high and extends three feet either side of the hive opening, hive opening faces the flyway barrier, two hives are allowed on lots less than 10,000 square feet and one additional hive per 4,000 square feet is allowed on lots larger than 10,000 square feet with a maximum of ten hives per lot.

(Ord. No. 94-66, § I, 4-5-1994; Ord. No. 97-77, § 1(art. 1, § 1(2)), 6-24-1997; Ord. No. 02-159, 11-5-2002; Ord. No. 13-71, 5-7-2013)

Subsection 3. *Area and dimensional regulations.* Except as provided in articles VI and VIII, the area and dimensional regulations set forth in the following table shall be observed:

Maximum Height of Structure [in] Feet	*Minimum Yards*			*Minimum Lot Area Per Family*	*Minimum Lot Width*
	Front	*Rear*	*Each Side (two required)*		
35 feet	40 feet	40 feet	15 feet	½ acre (21,780 sq. ft.)	100 feet

Subsection 4. *Parking regulations.* Off-street parking spaces shall be provided in accordance with the requirements for specific uses set forth in article V.

Section 2. R-1 Single-Family District.

Subsection 1. *Generally.* The regulations set forth in this section or set forth elsewhere in this ordinance, when referred to in this section, are the regulations in the R-1 Single-Family District.

Subsection 2. *Use regulations.* A building or premises shall be used only for the following purposes:

1. Any use permitted in the E-1 Estate District.

Subsection 3. *Area and dimensional regulations.* Except as provided in articles VI and VIII, the area and dimensional regulations set forth in the following table shall be observed:

Maximum Height of Structure [in] Feet	*Minimum Yards*		*Minimum Side Yards*		*Minimum Lot Area Per Family*	*Minimum Lot Width*
	Front	*Rear*	*One Side*	*Total (both sides)*		
35 feet	40 feet	40 feet	8 feet	18 feet	15,000 square feet	90 feet

Subsection 4. *Parking regulations.* Off-street parking spaces shall be provided in accordance with the requirements for specific uses set forth in Article V.

Section 3. R-2 Single-Family District.

Subsection 1. *Generally.* The regulations set forth in this section or set forth elsewhere in this ordinance, when referred to in this section, are the regulations in the R-2 Single-Family District.

Subsection 2. *Use regulations.* A building or premises shall be used only for the following purposes:

1. Any use permitted in the E-1 Estate District.

Subsection 3. *Area and dimensional regulations.* Except as provided in articles VI and VIII, the area and dimensional regulations set forth in the following table shall be observed:

Maximum Height of Structure [in] Feet	*Minimum Yards*		*Minimum Side Yards*		*Minimum Lot Area Per Family*	*Minimum Lot Width*
	Front	*Rear*	*One Side*	*Total (both sides)*		
35 feet	30 feet	35 feet	7 feet	16 feet	10,000 square feet	75 feet

Subsection 4. *Parking regulations.* Off-street parking spaces shall be provided in accordance with the requirements for specific uses set forth in article V.

Section 4. R-3 Single-Family District.

Subsection 1. *Generally.* The regulations set forth in this section or set forth elsewhere in this ordinance, when referred to in this section, are the regulations in the R-3 Single-Family District.

Subsection 2. *Use regulations.* A building or premises shall be used only for the following purposes:

1. Any use permitted in the E-1 Estate District.

Subsection 3. *Area and dimensional regulations.* Except as provided in articles VI and VIII, the area and dimensional regulations set forth in the following table shall be observed:

Maximum Height of Structure [in] Feet	*Minimum Yards*		*Minimum Side Yards*		*Minimum Lot Area Per Family*	*Minimum Lot Width*
	Front	*Rear*	*One Side*	*Total (both sides)*		
35 feet	25 feet	25 feet	5 feet	14 feet	6,000 square feet	50 feet

Subsection 4. *Parking regulations.* Off-street parking spaces shall be provided in accordance with the requirements for specific uses set forth in article V.

Section 5. R-4 Two-Family and Semi-Attached Dwelling District.

Subsection 1. *Generally.* The regulations set forth in this section or set forth elsewhere in this ordinance, when referred to in this section, are the regulations in the R-4 Two-Family and Semi-Attached Dwelling District.

Subsection 2. *Use regulations.* A building or premises shall be used only for the following purposes:

1. Any use permitted in the E-1 Estate District.
2. Two-family dwellings.
3. Semi-attached dwellings.

Subsection 3. *Area and dimensional regulations.* Except as provided in articles VI and VIII, the area and dimensional regulations set forth in the following table shall be observed:

<table>
<tr><th rowspan="2">Maximum Height of Structure [in] Feet</th><th colspan="2">Minimum Yards</th><th colspan="2">Minimum Side Yards</th><th rowspan="2">Minimum Lot Area Per Family</th><th rowspan="2">Minimum Lot Width</th></tr>
<tr><th>Front</th><th>Rear</th><th>One side</th><th>Total (both sides)</th></tr>
<tr><td rowspan="4">35 feet</td><td rowspan="4">25 feet</td><td rowspan="4">25 feet</td><td>5 feet</td><td>14 feet</td><td>5,000 square feet for single-family dwellings.</td><td rowspan="4">50 feet except that in semi-attached dwellings the minimum is 20 feet.</td></tr>
<tr><td colspan="2" rowspan="3">In semi-attached projects: none required for interior walls. Exterior side yards same as listed above.</td><td>3,000 square feet for two-family dwellings.</td></tr>
<tr><td>2,500 square feet per lot area for semi-attached dwellings.</td></tr>
</table>

Subsection 4. *Site plan.*

1. The site plan, when required, must show:
   a. The direction of north, appropriate scale and topography in not greater than two-foot contour intervals.
   b. The proposed location and heights of all structures.
   c. The use of all structures and premises.
   d. The areas and proportionate amount of parking to be developed.

e. The location of streets, driveways and walks.

f. All service and loading spaces.

g. Location and areas of illumination of all exterior lighting.

h. The location, size, number and character of all exterior signs.

i. The location, character and extent of landscaping, retaining and screen walls and other treatment for the protection of the adjoining property.

j. The facilities for surface drainage of the premises.

k. The proposed resubdivision of the subject property.

2. The deed restrictions and covenants must show the treatment of all land held in undivided common interest.

Subsection 5. *Parking regulations.* Off-street parking spaces shall be provided in accordance with the requirements for specific uses set forth in article V.

Subsection 6. *Other regulations.* Semi-attached dwellings must comply with the requirements set forth in article VI, section 15.

Section 6. R-4A Medium Density Residential District.

Subsection 1. *Generally.* The regulations set forth in this section or set forth elsewhere in this ordinance, when referred to in this section, are the regulations in the R-4A Medium Density Residential District.

Subsection 2. *Use regulations.* A building or premises shall be used only for the following purposes:

1. Any use permitted in the E-1 Estate District.

2. Two-family dwellings.

3. Semi-attached dwellings.

4. Attached single-family dwellings.

5. Multiple-family dwellings (limited to a maximum of four dwelling units per structure).

Subsection 3. *Area and dimensional regulations.* Except as provided in articles VI and VIII, the area and dimensional regulations set forth in the following table shall be observed:

<table>
<tr><th rowspan="2">Maximum Height of Structure [in] Feet</th><th colspan="2">Minimum Yards</th><th colspan="2">Minimum Side Yards</th><th rowspan="2">Minimum Lot Area Per Family</th><th rowspan="2">Minimum Lot Width</th></tr>
<tr><th>Front</th><th>Rear</th><th>One side</th><th>Total (both sides)</th></tr>
<tr><td rowspan="4">35 feet</td><td rowspan="4">25 feet</td><td rowspan="4">25 feet</td><td>5 feet</td><td>14 feet</td><td>5,000 square feet for single-family dwellings.</td><td rowspan="4">50 feet except that in attached and semi-attached dwellings the minimum is 18 feet, with an average of 20 feet in an attached row.</td></tr>
<tr><td colspan="2" rowspan="3">In attached and semi-attached dwellings, none required for interior walls; exterior side yards same as listed above.</td><td>3,000 square feet for two-family dwellings.</td></tr>
<tr><td>2,500 square feet for multi-family, limited to four dwelling units per structure.</td></tr>
<tr><td>2,000 square feet per lot area for attached and semi-attached dwellings.</td></tr>
</table>

Subsection 4. *Site plan.*

1. The site plan must show:
   a. The direction of north, appropriate scale and topography in not greater than two-foot contour intervals.
   b. The proposed location and heights of all structures.
   c. The use of all structures and premises.
   d. The areas and proportionate amount of parking to be developed.
   e. The location of streets, driveways and walks.
   f. All service and loading spaces.
   g. Location and areas of illumination of all exterior lighting.
   h. The location, size, number and character of all exterior signs.
   i. The location, character and extent of landscaping, retaining and screen walls and other treatment for the protection of adjoining property.
   j. The facilities for surface drainage of the premises.

k. The proposed resubdivision of the subject property.

2. The deed restrictions and covenants must show the treatment of all land held in undivided common interest.

Subsection 5. *Parking regulations.* Off-street parking spaces shall be provided in accordance with the requirements for specific uses set forth in article V.

Subsection 6. *Other regulations.* Attached and semi-attached dwellings must comply with the requirements set forth in article VI, section 15.

Note—When any lot having a width of less than 100 feet is used for a multiple-family dwelling, such multiple-family dwelling shall be constructed in a manner that the front of the structure and all front doors shall face and open toward a dedicated street and all rear doors shall face and open toward the rear yard, as defined in Article II, Section 56, Chapter 57, General Code, 1944, as amended.

Section 7. R-5 Multiple Dwelling District.

Subsection 1. *Generally.* The regulations set forth in this section or set forth elsewhere in this ordinance, when referred to in this section are the regulations in the R-5 Multiple Dwelling District.

Subsection 2. *Use regulations.* A building or premises shall be used only for the following purposes:

1. Any use permitted in the E-1 Estate District.
2. Two-family dwelling.
3. Multiple dwelling.
4. Attached and semi-attached single-family dwellings.
5. Condominiums (residential).
6. Religious, educational, charitable or public institution or building, except a penal or mental institution or a communal living facility. Permitted uses are schools, churches, and residential accessory uses limited to rectories, parsonages and dwellings for resident administrators, watchmen, custodians or caretakers. Other similar institutional uses not within 1,000 feet of such uses are permitted on appeal, subject to approval of the zoning board of adjustment.
7. Private club or lodge, excepting one, the chief activity of which is a service customarily carried on as a business.
8. Family group day/night care facility.
9. Accessory structures and uses, not including accessory use child care centers.
10. One name plate, to be lighted with only indirect nonintermittent light, not exceeding six square feet in area attached to the wall at an entrance.

(Ord. No. 94-66, § I, 4-5-1994)

Subsection 3. *Area and dimensional regulations.* Except as provided in articles VI and VIII, the area and dimensional regulations set forth in the following table shall be observed:

<table>
<tr><th rowspan="2">*Maximum Height of Structure [in] Feet*</th><th colspan="2">*Minimum Yards*</th><th colspan="2">*Minimum Side Yards*</th><th rowspan="2">*Minimum Lot Area Per Family*</th><th rowspan="2">*Minimum Lot Width*</th></tr>
<tr><th>*Front*</th><th>*Rear*</th><th>*One Side*</th><th>*Total Both Sides*</th></tr>
<tr><td rowspan="4">35 feet</td><td rowspan="4">25 feet</td><td rowspan="4">25 feet</td><td>5 feet</td><td>14 feet</td><td>5,000 square feet for single-family dwellings.</td><td rowspan="4">50 feet except that in attached and semi-attached dwellings the minimum lot width shall not be less than 16 feet with an average of 18 feet in an attached row.</td></tr>
<tr><td colspan="2" rowspan="3">In attached and semi-attached dwellings, none required for interior walls; exterior side yards same as listed above.</td><td>2,500 square feet for two-family dwellings.</td></tr>
<tr><td>2,000 square feet per lot area for semi-attached dwellings.</td></tr>
<tr><td>2,000 square feet per lot area for multiple dwellings.</td></tr>
</table>

Subsection 4. *Site plan.*

1. The site plan, when required, must show:
   a. The direction of north, appropriate scale and topography in not greater than two-foot contour intervals.
   b. The proposed location and heights of all structures.
   c. The use of all structures and premises.
   d. The areas and proportionate amount of parking to be developed.
   e. The location of streets, driveways and walks.
   f. All service and loading spaces.
   g. Location and areas of illumination of all exterior lighting.
   h. The location, size, number and character of all exterior signs.

i. The location, character and extent of landscaping, retaining and screen walls and other treatment for the protection of adjoining property.

j. The facilities for surface drainage of the premises.

k. The proposed resubdivision of the subject property.

2. The deed restrictions and covenants must show the treatment of all land held in undivided common interest.

Subsection 5. *Parking regulations.* Off-street parking spaces shall be provided in accordance with the requirements for specific uses set forth in article V.

Subsection 6. *Other regulations.* Attached and semi-attached dwellings must comply with the requirements set forth in article VI, section 15.

Note—When any lot having a width of less than 100 feet is used for a multiple-family dwelling, such multiple-family dwelling shall be constructed in a manner that the front of the structure and all front doors shall face and open toward a dedicated street and all rear doors shall face and open toward the rear yard, as defined in Article II, Section 56, Chapter 57, General City Code 1944, as amended.

Section 8. R-6 Multiple Dwelling District.

Subsection 1. *Generally.* The regulations set forth in this section or set forth elsewhere in this ordinance, when referred to in this section, are the regulations in the R-6 Multiple Dwelling District.

Subsection 2. *Use regulations.* A building or premises shall be used only for the following purposes:

1. Any use permitted in the R-5 Multiple Dwelling District.

Subsection 3. *Area and dimensional regulations.* Except as provided in articles VI and VIII, the area and dimensional regulations set forth in the following table shall be observed:

<table>
<tr><th rowspan="2">Maximum Height of Structure [in] Feet</th><th colspan="2">Minimum Yards</th><th colspan="2">Minimum Side Yards</th><th rowspan="2">Minimum Lot Area Per Family</th><th rowspan="2">Minimum Lot Width</th></tr>

<tr><td>1,500 square feet for multiple-family dwellings.</td></tr>
<tr><td>1,000 square feet for multiple dwellings four stories or more.</td></tr>
</table>

Subsection 4. *Site plan.*

1. The site plan, when required, must show:
   a. The direction of north, appropriate scale and topography in not greater than two-foot contour intervals.
   b. The proposed location and heights of all structures.
   c. The use of all structures and premises.
   d. The areas and proportionate amount of parking to be developed.
   e. The location of streets, driveways and walks.
   f. All service and loading spaces.
   g. Location and areas of illumination of all exterior lighting.
   h. The location, size, number and character of all exterior signs.

i. The location, character and extent of landscaping, retaining and screen walls and other treatment for the protection of adjoining property.

j. The facilities for surface drainage of the premises.

k. The proposed resubdivision of the subject property.

2. The deed restrictions and covenants must show the treatment of all land held in undivided common interest.

Subsection 5. *Parking regulations.* Off-street parking spaces shall be provided in accordance with the requirements for specific uses set forth in article V.

Subsection 6. *Other regulations.* Attached and semi-attached dwellings must comply with the requirements set forth in article VI, section 15.

Note—When any lot having a width of less than 100 feet is used for a multiple-family dwelling, such multiple-family dwelling shall be constructed in a manner that the front of the structure and all front doors shall face and open toward a dedicated street and all rear doors shall face and open toward the rear yard, as defined in Article II, Section 56, Chapter 57, General Code, 1944, as amended.

Section 9. R-7 Multiple Dwelling District.

Subsection 1. *Generally.* The regulations set forth in this section or set forth elsewhere in this ordinance, when referred to in this section, are the regulations in the R-7 Multiple Dwelling District.

Subsection 2. *Use regulations.* A building or premises shall be used only for the following purposes:

1. Any use permitted in the R-5 Multiple Dwelling District.

Subsection 3. *Area and dimensional regulations.* Except as provided in articles VI and VIII, the area and dimensional regulations set forth in the following table shall be observed:

<table>
<tr><th rowspan="2">Maximum Height of Structure [in] Feet</th><th colspan="2">Minimum Yards</th><th colspan="2">Minimum Side Yards</th><th rowspan="2">Minimum Lot Area Per Family</th><th rowspan="2">Minimum Lot Width</th></tr>

<tr><td>1,000 square feet for multiple-family dwellings.</td></tr>
<tr><td>500 square feet for multiple dwellings four stories or more.</td></tr>
</table>

Subsection 4. *Site plan.*

1. The site plan, when required, must show:
   a. The direction or north, appropriate scale and topography in not greater than two-foot contour intervals.
   b. The proposed location and heights of all structures.
   c. The use of all structures and premises.
   d. The areas and proportionate amount of parking to be developed.
   e. The location of streets, driveways and walks.
   f. All service and loading spaces.
   g. Location and areas of illumination of all exterior lighting.
   h. The location, size, number and character of all exterior signs.

i. The location, character and extent of landscaping, retaining and screen walls and other treatment for the protection of adjoining property.

j. The facilities for surface drainage of the premises.

k. The proposed resubdivision of the subject property.

2. The deed restrictions and covenants must show the treatment of all land held in undivided common interest.

Subsection 5. *Parking regulations.* Off-street parking spaces shall be provided in accordance with the requirements for specific uses set forth in article V.

Subsection 6. *Other regulations.* Attached and semi-attached dwellings must comply with the requirements set forth in article VI, section 15.

Note—When a lot having a width of less than 100 feet is used for a multiple-family dwelling, such multiple-family dwelling shall be constructed in a manner that the front of the structure and all front doors shall face and open toward a dedicated street and all rear doors shall face and open toward the rear yard, as defined in Article II, Section 56, Chapter 57, General Code, 1944, as amended.

Section 10. R-8 Planned Residential District.

Subsection 1. *Generally.* The regulations set forth in this section or set forth elsewhere in this ordinance, when referred to in this section, are the regulations in the R-8 Planned Residential Dwelling District. The R-8 Planned Residential District allows the flexible and orderly arrangement of large planned residential areas designed as a single unit in a manner consistent with the provisions of this section. The owner or owners or a tract of land may submit a petition for the establishment of such a district provided the tract of land is five or more acres in area or less than five acres and is located within an urban renewal project area. The petitioner shall submit a plan for the development of the tract to the zoning advisory committee for review and approval in accordance with the provisions of this section.

Subsection 2. *Use regulations.* The use of each building and/or premises shall be in accordance with the development plan referred to in subsection 1, and shall be limited to the following:

1. Any use allowed in the E-1 Estate District.

2. Two-family dwelling.

3. Multiple dwelling; provided, however, that no building or accessory structure shall be located closer than 25 feet to any R-8 district boundary.

4. Attached and semi-attached single-family dwellings.

5. Condominiums (residential).

Subsection 3. *Area and dimensional regulations.* The area and dimensional regulations set forth in this section shall be observed:

1. *Maximum height of structures.* Except as provided in article VI, the maximum height of structures shall be 45 feet.
2. *Structure setback.* No building shall be closer to any abutting street than 25 feet.
3. *Open space between buildings.* Open space between buildings, measured at the closest point, shall not be less than 20 feet for one-story buildings, 30 feet when one or both are two-story buildings, or 40 feet when one or both are three-story buildings.
4. *Area per family.* The required average land area per family shall not be less than 3,750 square feet; except, that in attached and semi-attached single-family dwellings, the average land area per family shall not be less than 2,500 square feet.

Subsection 4. *Parking regulations.* Off-street parking shall be provided in accordance with the requirements for specific uses set forth in article V.

Subsection 5. *Development plan requirements.* In order to prevent adverse environmental impacts and to achieve a compatible relation among uses covered in subsection 2 above and with the land use suitability of surrounding properties and nearby zone districts, as well as the surrounding transportation network, and owners of lands included in this district shall concur in an overall site development plan to be reviewed and considered for approval by the planning commission or zoning advisory committee prior to any grading, clearing, site improvements or issuance of related permits. All owners of property petitioning for establishment of a new R-8 district shall submit an acceptable development plan for zoning advisory committee approval prior to adoption by the city council. Any district may be phased over a reasonable period of time. Final site development plans may be postponed for portions of the parcel scheduled for completion after the first five acres. However when phased, the whole district must be covered by a more generalized conceptual design for ultimate development which may be tentative, but must include a viable timetable for completion of each sector, with sufficient information to judge internal and external impacts. The site development plan shall include:

1. Maps indicating:
    a. The direction of north, appropriate scale and topography in not greater than two-foot contour intervals.
    b. The proposed location and height of all structures and site improvements.
    c. The use of all structures and premises.
    d. The areas and proportionate amount of parking to be developed.

e. The location of streets, driveways and walks, including all points of ingress and egress and access streets.

f. All service areas and loading spaces.

g. Location and areas of illumination of all exterior lighting.

h. The location, size, number and character of all exterior signs.

i. The location, character and extent of all recreation, open spaces, beautification features and landscaping, fences, retaining and screen walls and other treatment for the protection of adjoining property.

j. The facilities planned for sanitary sewers or treatment and surface drainage of the premises.

k. A grading plan showing original and finished slopes, means of stabilization and relation to floodplains, drainage ways, wetlands, subsurface conditions and soil suitability.

2. A traffic analysis indicating that the proposed development will be so related to streets and arteries that the traffic generated can be accommodated without causing excessive congestion or hazards or objectionable volumes of traffic on residential streets.

3. A comprehensive independent market analysis, if requested by the planning commission or zoning advisory committee, on the needs to be served and the general economic justification.

4. A copy of any proposed subdivision plats, new streets, other easements, and deed restrictions including any third party covenants to be recorded, and the legal treatment and responsibility for maintenance of any public or common grounds or spaces.

Subsection 6. *Review and approval of plans.* The zoning advisory committee shall review, approve in part or whole, or disapprove, setting forth its reasons therefor, all conceptual designs and any site development plans for R-8 districts initiated or recommended for adoption by the planning commission without an original plan, in the case of initial zoning of annexed territory. The zoning advisory committee shall also review, and approve or disapprove all other site development plans involved in rezoning requests or subsequent plan amendments. After due notice and hearing of all interested parties, and consideration of analyses or recommendations by its staff, the zoning advisory committee shall judge the acceptability of varied elements of the plan in close conformity with the following criteria to:

1. Minimize traffic congestion, conflicting movements, hazards, clutter or glare interfering with drivers' visibility of streets, drives and protecting pedestrian ways and avoiding the attraction of customer or truck traffic through local residential frontage streets;

2. Ensure long-term adequacy of grading, storm drainage, sanitary sewers, other utilities and improvements, particularly preventing landslides, erosion, sedimentation, flooding and similar problems on subject property and nearby parcels of land in accordance with the City of Birmingham Soil Erosion and Sediment Control Code;
3. Minimize activity conflicts, and environmental degradation, while maximizing a compatible interrelation of uses and economical development through shared access, parking utility easements, service areas, clustering, etc.;
4. Preserve historic or significant places, scenic features, steep slopes, or drainage ways, and create effective natural, planted and manmade buffers of sufficient height, density and width to screen objectionable on-site noise, vibration, smoke, dust, fumes, odor, heat, glare or visibility from adjacent less intensive uses and particularly residential development and zones.

Once a site development plan has been approved, no work shall be done and no permits shall be issued except in accordance with said plan. No certificate of occupancy shall be issued until all site improvements as required by an approved site development plan are completed.

Subsection 7. *Delay in construction.* In the event that construction in accordance with the originally approved development plan has not begun within two years from the date of its approval, the development plan shall expire and become null and void. If less than 25 percent of the site improvements have been installed within 18 months after issuance of a permit to begin construction, the site development plan shall expire and become null and void.

[ARTICLE II. COMMERCIAL CLASSIFICATIONS]

Section 1. B-1 Neighborhood Business District.

Subsection 1. *Generally.* The regulations set forth in this section or set forth elsewhere in this ordinance, when referred to in this section, are the regulations in the B-1 Neighborhood Business District.
(Ord. No. 07-33, § 1(1), 2-13-2007)

Subsection 2. *Use regulations.* A building or premises shall be used only for the following purposes:

1. Any use permitted in the R-5 Multiple Dwelling District.
2. Greenhouse having a retail outlet on the premises.
3. Bakery with sales of all bakery products at retail on the premises only; except, that catering services direct to consumer shall be permitted.
4. Barbershop, beauty shop, massage or similar personal service shops.

5. Catering shop, business, music, dancing, or similar school.
6. Dressmaking and tailoring; provided that all work is done for individuals, at retail only, and on the premises.
7. Drugstore limited to size to that which is of service to the immediately surrounding neighborhood only.
8. Dwelling, jointly with other uses or as a principal use.
9. Laundromat or shop for the delivery or picking up of laundry or dry cleaning.
10. Medical or dental office or clinic and other professional or business office.
11. Parking lot or parking garage.
12. Restaurant or coffee shop; provided that the serving of food or beverages to patrons waiting in parked automobiles shall not be permitted.
13. Retail store, limited in character and size to that which is of service to the immediately surrounding neighborhood only, except for any such use listed for the first time in the B-2 or B-3 districts.
14. Service station, except, no up shall be located within 50 feet of a dwelling district, nor any portion of a structure within 15 feet of a dwelling district.
15. Shoe repairing, repairing of household appliances and bicycles on an individual service call basis, and other uses of a similar character limited in size and nature to those which serve the immediately surrounding neighborhood.
16. Telephone exchange or outdoor public telephone booth.
17. Tourist home.
18. Utility installations.
19. Adult care facility or child care center.
20. Accessory structures and uses, including signs subject to the following conditions:
    a. Signs shall pertain to goods, products or services sold or offered on the premises.
    b. Signs shall be attached to a vertical surface of the building or extend not more than 18 inches therefrom.
    c. Such signs shall not exceed in the aggregate 40 square feet of gross surface area for any lot having 40 feet or less of street frontage. On lots having a frontage greater than 40 feet, such sign or signs shall not exceed in the aggregate one square foot in area for each linear foot of principal street frontage, but in no case shall the aggregate area of such sign or signs exceed 60 square feet, provided, however, in developments consist-

ing of two or more establishments each use shall be allowed signs not to exceed the frontage occupied by such establishment, but in no case to exceed 60 square feet.

21. Farmers market provided that sales only occur on a temporary basis no more than 78 days per year and between the hours of 7:00 a.m. and 7:00 p.m., market can not operate for more than two consecutive days, market manager demonstrates that adequate parking is available on the lot being used by the market or a parking arrangement has been made for a nonresidential lot that is within 500 feet and is not in use during market hours, items made from kits, used or mass-produced items are prohibited, every vendor in any market shall, within one hour after the closing of the market, cause his or her provisions and vehicle to be removed from the vendor stall, and his or her stall thoroughly cleansed, and all rubbish to be removed from the vendor stall, an affidavit verifying landowners permission and identifying market manager is submitted to PEP, acknowledgement of applicable Jefferson County Health Department regulations, a farmers market permit, valid for one year, is obtained from PEP and a permit fee is paid to PEP that provides the following information:

    a. Name of all persons or entities that govern the market.

    b. Name, signature and contact information of market manager.

    c. List of all vendors and a list of items to be sold by vendor.

    d. Copy of State of Alabama Farmers Market Authority Certificate.

    e. List of market cleanup procedures.

    f. Detailed explanation of location of market and days/hours of operation.

    g. Address of the market location.

    h. Parking plan.

22. Public market provided that 25 percent of vendors sell produce or value-added agricultural products, sales only occur on a temporary basis no more than 78 days per year and between the hours of 7:00 a.m. and 7:00 p.m., market can not operate for more than two consecutive days, market manager demonstrates that adequate parking is available on the lot being used by the market or a parking arrangement has been made for a non-residential lot that is within 500 feet and is not in use during market hours, used clothing, mass produced items and appliances are prohibited, every vendor in any market shall, within one hour after the closing of the market, cause his or her provisions and vehicle to be removed from the vendor stall, and his or her stall thoroughly cleansed, all rubbish to be removed from the vendor stall, an affidavit verifying landowners permission and identifying market manager is submitted to PEP,

acknowledgement of applicable Jefferson County Health Department regulations, and a public market permit, valid for one year, is obtained from PEP and a permit fee is paid to PEP that provides the following information:

a. Name of all persons or entities that govern the market.

b. Name, signature and contact information of market manager.

c. List of all vendors, the products they will sell and their grower's permits or City of Birmingham business licenses number.

d. List of market cleanup procedures.

e. Detailed explanation of location of market and days/hours of operation.

f. Parking plan.

23. Pay day (deferred presentment) and title loan operations.

(Ord. No. 94-66, § I, 4-5-1994; Ord. No. 07-33, § 1(2), 2-13-2007; Ord. No. 13-71, 5-7-2013; Ord. No. 13-178, § 1, 12-26-2013)

Subsection 3. *Area and dimensional regulations.* Except as provided in articles VI and VIII, the area and dimensional regulations set forth in the following table shall be observed:

<table>
<tr><th rowspan="2">Maximum Height of Structure in Feet</th><th colspan="3">Minimum Yards</th><th rowspan="2">Minimum Lot Area Per Family</th><th rowspan="2">Minimum Lot Width</th></tr>
<tr><th>Front</th><th>Rear</th><th>Side</th></tr>
<tr><td rowspan="4">35 feet, or the height of an abutting residential district whichever is least restrictive.</td><td rowspan="4">None, except where the frontage between two intersecting streets is partly in an E or R district, in which case the front yard requirements of the E or R district shall apply.</td><td rowspan="4">None, except on the rear of a lot abutting a dwelling district, in which case there shall be a rear yard of not less than 20 feet.</td><td rowspan="4">None, except on the side of a lot abutting a dwelling district, in which case there shall be a side yard of not less than 5 feet.</td><td>5,000 square feet for single-family dwellings.</td><td rowspan="4">50 feet when lot is used solely for dwelling purposes, except that in attached and semi-attached dwellings the minimum lot width shall be not less than 16 feet.</td></tr>
<tr><td>2,500 square feet for two-family dwellings.</td></tr>
<tr><td>1,800 square feet for attached and semi-attached dwellings.</td></tr>
<tr><td>1,000 square feet for multiple dwellings.</td></tr>
</table>

(Ord. No. 07-33, § 1(3), 2-13-2007)

Subsection 4. *Site development plan.*

1. Except for single-family and two-family dwellings, a site development plan is required in conjunction with all building permits for new construction and when a building or part thereof is enlarged or extended to at least 50 percent of its current floor area. At a minimum, the site development plan must show:
   a. The direction of north, appropriate scale and existing and finished topography in not greater than two-foot contour intervals.
   b. The proposed location including any easements that may exist on site and elevation drawings of all sides of each building prototype.
   c. The use of all structures and premises.
   d. The location of proposed driveways and marked off-street parking spaces.
   e. The edge of pavement for existing and proposed streets, driveways and walkways.
   f. All service and loading spaces as well as the location of solid waste containers. Also, provide enclosure details for large solid waste containers, including their access in compliance with article VI, section 5.
   g. Location and areas of illumination of all exterior lighting.
   h. The location, size, number and character of all exterior signs.
   i. The location, character and extent of landscaping, retaining and screen walls and other treatment for the protection of adjoining property or fences, and other measures for screening or buffering views from incompatible land uses. This includes detailed landscaping plans for structures and parking areas. The landscaping plan shall include plant location, corresponding plant schedule and planting instructions. In addition to landscape requirements for off-street parking as specified in article V, landscaping of the remainder of the lot, exclusive of areas occupied by structures and parking, shall not be less than five percent. Said landscaping shall include a combination of shrubs, trees and ground cover.
   j. Plans and facilities for stormwater drainage of the premises.
   k. Any proposed re-subdivision of the subject property; when applicable.
2. Any proposed condominium must also conform to article VIII of the Birmingham Subdivision Regulations. The deed restrictions and covenants must show the treatment of all land held in common interest.

(Ord. No. 07-33, § 1(4), 2-13-2007)

Subsection 5. *Parking and loading regulations.* Off-street parking and loading spaces shall be provided in accordance with the requirements for specific uses set forth in article V.

(Ord. No. 07-33, § 1(5), 2-13-2007)

Subsection 6. *Other regulations.* Attached and semi-attached dwellings must comply with the requirements set forth in article VI, section 15.
(Ord. No. 07-33, § 1(6), 2-13-2007)

Editor's note—The subdivision regulations referenced in subsection 4 of this section can be found in Appendix C to this Code.

Section 2. B-2 General Business District.

Subsection 1. *Generally.* The regulations set forth in this section or set forth elsewhere in this ordinance, when referred to in this section, are the regulations in the B-2 General Business District.
(Ord. No. 07-33, § 2(1), 2-13-2007)

Subsection 2. *Use regulations.* A building or premises shall be used only for the following purposes:

1. Any use permitted in the B-1 Neighborhood Business District; except that the limitations upon extent of service area shall not apply.
2. Signs or billboards.
3. Automobile or trailer display and sales room.
4. Public garage.
5. Amusement or recreation service except drive-in theater or practice golf driving range.
6. Business, dancing or music school.
7. Display room for merchandise to be sold at wholesale.
8. Dwellings, jointly with other uses or as a principal use.
9. Frozen food lockers.
10. Farm implement display and sales room.
11. Hotel, motel or motor court.
12. Hospital or clinic for animals, but not including open kennels.
13. Radio or television broadcasting station, studio or office.
14. Retail store or shop.
15. Self-storage structure.
16. Tavern or drive-in restaurant.
17. Undertaking establishment or mortuary.
18. Used car lot.
19. Bank or lending institution.

20. Utility service buildings.

21. Medical or dental laboratory.

22. The following uses provided all materials stored and all work done on the premises is done within a building:

    a. Dyeing and cleaning establishment or laundry; provided pickup or delivery of clothing is not made to other pickup points.

    b. Painting decorators.

    c. Radio or television repair shop.

    d. Dressmaking, millinery, or tailoring establishment.

    e. Upholstering shop, not involving furniture manufacturing.

    f. Plumbing and electrical shops.

    g. Any other general service or repair establishment of similar character.

23. A shopping center or facility composed of any one or more of the foregoing uses or any combination thereof.

24. Accessory structures and uses.

25. Indoor urban farm.

26. Amusement (indoor and outdoor). Except when the property abuts residential zoned property located within the city, amusement (outdoor) is only allowed by special exception granted by the zoning board of adjustment.

(Ord. No. 07-33, § 2(2), 2-13-2007; Ord. No. 13-71, 5-7-2013; Ord. No. 13-141, § 2, 11-5-2013)

Subsection 3. *Area and dimensional regulations.* Except as provided in articles VI and VIII, the area and dimensional regulations set forth in the following table shall be observed:

Maximum Height of Structure [in] Feet	*Minimum Yards*			*Minimum Lot Area Per Family*	*Minimum Lot Width*
	Front	*Rear*	*Side*		
75 feet	None, except where the frontage between two intersecting streets is partly in an E or R district, the front yard requirements of the E or R district shall apply to the B district.	None, except on the rear of a lot abutting a dwelling district, in which case there shall be a rear yard of not less than 20 feet.	None, except on the side of a lot abutting a dwelling district, in which case there shall be a side yard of not less than 5 feet.	5,000 square feet for single-family dwellings. 232.2576 square meters for two-family dwellings. 1,600 square feet for attached and semi-attached dwellings. 1,000 square feet for multiple dwellings.	50 feet, when lot is used solely for dwelling purposes, except that in attached and semi-attached dwellings the minimum lot width shall not be less than 16 feet.

(Ord. No. 07-33, § 2(3), 2-13-2007)

Subsection 4. *Site development plan.*

1. Except for single-family and two-family dwellings, a site development plan is required in conjunction with all building permits for new construction and when a building or part thereof is enlarged or extended to at least 50 percent of its current floor area. At a minimum, the site development plan must show:

   a. The direction of north, appropriate scale and existing and finished topography in not greater than two-foot contour intervals.

   b. The proposed location including any easements that may exist on site and elevation drawings of all sides of each building prototype.

   c. The use of all structures and premises.

   d. The location of proposed driveways and marked off-street parking spaces.

   e. The edge of pavement for existing and proposed streets, driveways and walkways.

f. All service and loading spaces as well as the location of solid waste containers. Also, provide enclosure details for large solid waste containers, including their access in compliance with article VI, section 5.

g. Location and areas of illumination of all exterior lighting.

h. The location, size, number and character of all exterior signs.

i. The location, character and extent of landscaping, retaining and screen walls and other treatment for the protection of adjoining property or fences, and other measures for screening or buffering views from incompatible land uses. This includes detailed landscaping plans for structures and parking areas. The landscaping plan shall include plant location, corresponding plant schedule and planting instructions. In addition to landscape requirements for off-street parking as specified in article V, landscaping of the remainder of the lot, exclusive of areas occupied by structures and parking, shall not be less than five percent. Said landscaping shall include a combination of shrubs, trees and ground cover.

j. Plans and facilities for stormwater drainage of the premises.

k. Any proposed re-subdivision of the subject property; when applicable.

2. Any proposed condominium must also conform to article VIII of the Birmingham Subdivision Regulations. The deed restrictions and covenants must show the treatment of all land held in common interest.

(Ord. No. 07-33, § 2(4), 2-13-2007)

Subsection 4 [5]. *Parking and loading regulations.* Off-street parking and loading spaces shall be provided in accordance with the requirements for specific uses set forth in article V.

(Ord. No. 07-33, § 2(4), 2-13-2007)

Subsection 5 [6]. *Other regulations.* Attached and semi-attached dwellings must comply with the requirements set forth in article VI, section 15.

(Ord. No. 07-33, § 2(5), 2-13-2007)

Section 3. B-3 Community Business District.

Subsection 1. *Generally.* The regulations set forth in this section or set forth elsewhere in the ordinance, when referred to in this section, are the regulations in the B-3 Community Business District.

Subsection 2. *Use regulations.* A building or premises shall be used only for the following purposes:

1. Retail store.

2. Restaurant (including drive-in restaurant) or tavern.

3. Automotive, farm implement or trailer display or sales.

4. Service station; except [that] no pump shall be located within 50 feet of a dwelling district or any portion of a structure within 15 feet of a dwelling district.
5. Hardware or building material sales.
6. Hotel or motel.
7. Amusement or recreation service, such as theater, dance hall or bowling alley.
8. Laundry, dry cleaning or dyeing plant.
9. Personal service shop, such as barbershop or beauty shop, photographic studio or massage establishment.
10. Business service shop, such as blueprinting, accounting, duplicating or employment agency.
11. Business, music or dancing school.
12. Office.
13. Repair service for such items as radios, televisions, shoes, watches or jewelry.
14. Bank or lending institution.
15. Parking lot or garage.
16. Automotive, farm implement or trailer repair or servicing.
17. Radio or television broadcasting station, studio or office.
18. Undertaking establishment or mortuary.
19. Wholesale establishment, including storage and display.
20. Carpentry, painting, plumbing, tinsmithing, and electrical shops; provided that all work on the premises is done within a building, and all materials are stored in a building.
21. Testing or research laboratory.
22. Millinery, dressmaking or tailoring.
23. On-premises signs.
24. Printing or engraving.
25. Light manufacturing limited to the following:
    a. Furniture.
    b. Jewelry.
    c. Cosmetics.
    d. Candy.
    e. Fur goods, except tanning or dyeing.
    f. Medical, dental, or drafting instruments.

g. Optical equipment, clocks, watches and similar precision instruments.

26. Other manufacturing, processing, fabricating or assembling operations which do not create any objectionable noise, vibrations, smoke, dust, odor, heat or glare, but only when the manufacturing, processing, fabricating or assembling is incidental to a retail business conducted on the premises.
27. Mini-warehouse.
28. Dwelling, jointly with other uses or as a principal use, including family day/night care or family group day/night care facilities.
29. Church, hospitals or other institutions, but not including mental hospitals or penal institutions.
30. Private club or lodge.
31. Public buildings.
32. Parks.
33. Telephone exchange or service buildings.
34. Utility installation or service building.
35. Adult care facility or child care center.
36. Wireless communications facility, in accordance with article VI, section 18.
37. Accessory structures and uses, including accessory use child care centers.
38. Community garden* provided that no residential structure is on the same property as the community garden, garden use excluding all accessory structures is allowed in any yard, market stands are allowed, on-site sales of produce grown at community garden are not prohibited, accessory structures limited to storage sheds, water cisterns, cold frames, hoophouses and greenhouses built of standard uniform materials that are either new or in sound condition not showing signs of decay, all compost and organic matter stored on site shall not cover more than ten percent of the total lot area and shall be screened from view of adjacent property and public right-of-way with fencing built of standard uniform materials that are either new or in sound condition not showing signs of decay or evergreen landscape buffer, shall be managed to prevent rodents and pests, shall be maintained to prevent odors and drainage from compost onto adjacent sites, all gardening equipment shall be limited to household gardening/lawn equipment, and a community garden permit is obtained from PEP that provides the following information:
    a. Name of all persons or entities that govern the garden.
    b. Name, signature and contact information of garden manager.
    c. Description of garden use and purpose.
    d. Detailed explanation of location of garden including address.

e. Site plan that depicts all structures, compost piles, proposed screening and garden installations of the proposed garden.

f. Results of soil testing for soil condition and contamination.

If a garden is fallow or no longer useful or productive and is not maintained free from injurious, noxious or unsightly weeds, the lot will be deemed to be a nuisance and will be subject to code enforcement. If any accessory structure is not maintained in sound condition free from evidence of decay and can be seen from public right-of-way or an adjacent property, they will be considered a nuisance and will be subject to code enforcement.

It is a requirement that soil testing be conducted prior to gardening activities. Test for both soil condition and possible soil contamination, to determine at minimum constraints to food production, shall be conducted. Information on acquiring soil testing kits and analysis can be found in the appendix to the [this] City of Birmingham Zoning Ordinance.

39. Farmers market provided that sales only occur on a temporary basis no more than 78 days per year and between the hours of 7:00 a.m. and 7:00 p.m., market can not operate for more than two consecutive days, market manager demonstrates that adequate parking is available on the lot being used by the market or a parking arrangement has been made for a nonresidential lot that is within 500 feet and is not in use during market hours, items made from kits, used or mass-produced items are prohibited, every vendor in any market shall, within one hour after the closing of the market, cause his or her provisions and vehicle to be removed from the vendor stall, and his or her stall thoroughly cleansed, and all rubbish to be removed from the vendor stall, an affidavit verifying landowners permission and identifying market manager is submitted to PEP, acknowledgement of applicable Jefferson County Health Department regulations, a farmers market permit, valid for one year, is obtained from PEP and a permit fee is paid to PEP that provides the following information:

a. Name of all persons or entities that govern the market.

b. Name, signature and contact information of market manager.

c. List of all vendors and a list of items to be sold by vendor.

d. Copy of State of Alabama Farmers Market Authority Certificate.

e. List of market cleanup procedures.

f. Detailed explanation of location of market and days/hours of operation.

g. Address of the market location.

h. Parking plan.

40. Public market provided that 25 percent of vendors sell produce or value-added agricultural products, sales only occur on a temporary basis no more than 78 days per year and between the hours of 7:00 a.m. and 7:00 p.m., market can not

operate for more than two consecutive days, market manager demonstrates that adequate parking is available on the lot being used by the market or a parking arrangement has been made for a nonresidential lot that is within 500 feet and is not in use during market hours, used clothing, mass-produced items and appliances are prohibited, every vendor in any market shall, within one hour after the closing of the market, cause his or her provisions and vehicle to be removed from the vendor stall, and his or her stall thoroughly cleansed, all rubbish to be removed from the vendor stall, an affidavit verifying landowners permission and identifying market manager is submitted to PEP, acknowledgement of applicable Jefferson County Health Department regulations, and a public market permit, valid for one year, is obtained from PEP and a permit fee is paid to PEP that provides the following information:

a. Name of all persons or entities that govern the market.

b. Name, signature and contact information of market manager.

c. List of all vendors, the products they will sell and their grower's permits or City of Birmingham business licenses number.

d. List of market cleanup procedures.

e. Detailed explanation of location of market and days/hours of operation.

f. Parking plan.

41. Indoor urban farm.

42. Apiary provided that it is accessory to a residential structure or community garden, located in a rear yard, hives are set back from property lines by 20 feet, a continuous water source is available, a flyway barrier (fence or dense evergreen shrub) is provided that is six feet high and extends three feet either side of the hive opening, hive opening faces the flyway barrier, two hives are allowed on lots less than 10,000 square feet and one additional hive per 4,000 square feet is allowed on lots larger than 10,000 square feet with a maximum of ten hives per lot.

43. Pay day (deferred presentment) and title loan operations.

44. Amusement (indoor and outdoor). Except when the property abuts residential zoned property located within the city, amusement (outdoor) is only allowed by special exception granted by the zoning board of adjustment.

(Ord. No. 94-66, § I, 4-5-1994; Ord. No. 97-77, § 1(title 2, art. II, § 3, subsec. 2), 6-24-1997; Ord. No. 07-33, § 3(2), 2-13-2007; Ord. No. 13-71, 5-7-2013; Ord. No. 13-141, § 3, 11-5-2013; Ord. No. 13-178, § 2, 12-26-2013)

Subsection 3. *Area and dimensional regulations.* Except as provided in articles VI and VIII, the area and dimensional regulations set forth in the following table shall be observed:

Maximum Height of Structure in Feet	*Minimum Yards*			*Minimum Lot Area Per Family*	*Minimum Lot Width*
	Front	*Rear*	*Side*		
None, except where Federal Aviation Administration (FAA) Restrictions apply, in which case a waiver must be granted by the FAA to exceed FAA limitations.	None	None	None	None	None

(Ord. No. 07-33, § 3(3), 2-13-2007)

Subsection 4. *Site development plan.*

1. Except for single-family and two-family dwellings, a site development plan is required in conjunction with all building permits for new construction and when a building or part thereof is enlarged or extended to at least 50 percent of its current floor area. At a minimum, the site development plan must show:
   a. The direction of north, appropriate scale and existing and finished topography in not greater than two-foot contour intervals.
   b. The proposed location including any easements that may exist on site and elevation drawings of all sides of each building prototype.
   c. The use of all structures and premises.
   d. The location of proposed driveways and marked off-street parking spaces.
   e. The edge of pavement for existing and proposed streets, driveways and walkways.
   f. All service and loading spaces as well as the location of solid waste containers. Also, provide enclosure details for large solid waste containers, including their access in compliance with article VI, section 5.
   g. Location and areas of illumination of all exterior lighting.
   h. The location, size, number and character of all exterior signs.
   i. The location, character and extent of landscaping, retaining and screen walls and other treatment for the protection of adjoining property or fences, and other measures for screening or buffering views from incompatible land uses. This includes detailed landscaping plans for structures and parking areas. The landscaping plan shall include plant location, corresponding plant schedule and planting instructions. In addition to

landscape requirements for off-street parking as specified in article V, landscaping of the remainder of the lot, exclusive of areas occupied by structures and parking, shall not be less than five percent. Said landscaping shall include a combination of shrubs, trees and ground cover.

j. Plans and facilities for stormwater drainage of the premises.

k. Any proposed re-subdivision of the subject property; when applicable.

2. Any proposed condominium must also conform to article VIII of the Birmingham Subdivision Regulations. The deed restrictions and covenants must show the treatment of all land held in common interest.

(Ord. No. 07-33, § 3(4), 2-13-2007)

Subsection 4 [5]. *Parking and loading regulations.* Off-street parking and loading spaces shall be provided in an amount equal to one-half the requirements of article V. Off-street loading shall be in accordance with the requirements of article V.
(Ord. No. 07-33, § 3(4), 2-13-2007)

Section 4. B-4 Central Business District.

Subsection 1. *Generally.* The regulations set forth in this section or set forth elsewhere in this ordinance, when referred to in this section, are the regulations in the B-4 Central Business District.
(Ord. No. 07-33, § 4(1), 2-13-2007)

Subsection 2. *Use regulations.* The use regulations are the same as those in the B-3 Community Business District.
(Ord. No. 07-33, § 4(2), 2-13-2007)

Subsection 3. *Area and dimensional regulations.* Except as provided in articles VI and VIII, the area and dimensional regulations set forth in the following table shall be observed:

Maximum Height of Structure in Feet	*Minimum Yards*			*Minimum Lot Area Per Family*	*Minimum Lot Width*
	Front	*Rear*	*Side*		
None, except where Federal Aviation Administration (FAA) Restrictions apply, in which case a waiver must be granted by the FAA to exceed FAA limitations.	None	None	None	None	None

(Ord. No. 07-33, § 4(3), 2-13-2007)

Subsection 4. *Parking and loading regulations.* Off-street parking is not required in the B-4 Central Business District. Off-street loading shall be provided in accordance with the requirements of article V.
(Ord. No. 07-33, § 4(4), 2-13-2007)

Section 5. B-5 Mixed Business District.

Subsection 1. *Generally.* The regulations set forth in this section or set forth elsewhere in this ordinance, when referred to in this section, are the regulations in the B-5 Mixed Business District. The B-5 Mixed Business District is provided in order to encourage orderly and convenient concentrations of office, retail, business and higher density residential complexes in highly accessible locations appropriate to the character of surrounding property and its future development. This district shall not be created on less than two acres or at least a half block containing all lot frontage on the same side of a street situated between two intersecting streets.

Subsection 2. *Use regulations.* A building or premises shall be used only for the following purposes:

1. Business office, professional office or medical clinic or laboratory.
2. Religious, educational, charitable, or public institution or civic club, including kindergartens but excluding a penal or mental institution, or communal living facility.
3. Family day/night care or family group day/night care facility, adult care facility, or child care center.
4. Wireless communications facility, in accordance with article VI, section 18.
5. Accessory structures and uses, including accessory use child care centers.
6. In addition, the following uses may also be permitted only in accordance with a site development plan approved as specified in subsections 5 and 6 of this section:
    a. Retail sales.
    b. Business or personal services.
    c. Restaurants, cafeterias.
    d. Service station, and automotive repair, but excluding truck stops, vehicle sales, outside repairs or storage of inoperable vehicles or other equipment.
    e. Hospital or nursing home.
    f. General shops and businesses similar to those above or ordinarily conducted in a shopping center or mall.
    g. Hotels, motels.
    h. Recreation, amusement or entertainment, but excluding adult establishments.

i. Multiple dwellings, attached and semi-attached dwellings and condominiums.

j. Other uses which are similar to those above or whose effects on surrounding areas are consistent with them.

k. Recreation, amusement (indoor and outdoor). Except when the property abuts residential zoned property located within the city, amusement (outdoor) is only allowed by special exception granted by the zoning board of adjustment or entertainment, but excluding adult establishments.

(Ord. No. 94-66, § I, 4-5-1994; Ord. No. 97-77, § 1(title 2, art. II, § 5, subsec. 2), 6-24-1997; Ord. No. 13-141, § 4, 11-5-2013)

Subsection 3. *Area and dimensional regulations.*

1. Except as provided in articles VI and VIII, the following area and dimensional regulations shall govern the location of all structures in this district.

Maximum Height of Structure [in] Feet	*Minimum Yards**			*Minimum Lot Width*
	Front	*Rear*	*Side*	
35 feet Any structure may be erected up to 100 feet, if it is setback from all required yards or other setbacks an additional distance of 1 foot for each 2 feet of structural height above 35 feet.	30 feet	25 feet	10 feet each, except no building shall be located closer than 25 feet to the perimeter boundary of this district.	100 feet

2. No building shall be constructed closer than 50 feet to the boundary of an A, E, or R district or any residential district zoning.

3. No building shall be located closer than 20 feet to another building; and no nonresidential building shall be located closer than 75 feet to a residential building, whether on the same or an adjoining lot.

4. Average density of all residential development shall not be less than 2,500 square feet per dwelling unit.

5. All structures and any impervious manmade surfaces shall cover no more than 75 percent of nonresidential development, nor more than 60 percent of a residential site; and the remaining areas shall be maintained in natural vegetation or landscaping.

Subsection 4. *Parking and loading regulations.* Off-street parking and loading spaces shall be provided in accordance with the requirements for specific uses as set forth in article V.

Subsection 5. *Development plan requirements.* In order to prevent adverse environmental impacts and to achieve a compatible relation among uses covered in subsection 2.6 above and with the land use suitability of surrounding properties and nearby zone districts, as well as the surrounding transportation network, any owners of lands included in this district shall concur in an overall site development plan to be reviewed and considered for approval by the planning commission or zoning advisory committee prior to any grading, clearing, site improvements or issuance of related permits. All owners of property petitioning for establishment of a new B-5 district shall submit an acceptable development plan for zoning advisory committee approval prior to adoption by the city council. Any district may be phased over a reasonable period of time. Final site development plans may be postponed for portions of the parcel scheduled for completion after the first two acres. However, when phased, the whole district must be covered by a more generalized conceptual design timetable for development which may be tentative, but must include a viable timetable for completion of each sector, with sufficient information to judge internal and external impacts. The site development plan shall include:

1. Maps indicating:
    a. The direction of north, appropriate scale and topography in not greater than two-foot contour intervals.
    b. The proposed location and height of all structures and site improvements.
    c. The use of all structures and premises.
    d. The areas and proportionate amount of parking to be developed.
    e. The location of streets, driveways and walks including all points of ingress and egress and access streets.
    f. All service areas and loading spaces.
    g. Location and areas of illumination of all exterior lighting.
    h. The location, size, number and character of all exterior signs.
    i. The location, character and extent of all recreation, open space, beautification features, and landscaping, fences, retaining and screen walls and other treatment for the protection of adjoining property.
    j. The facilities planned for sanitary sewers or treatment, and surface drainage of the premises.

k. A grading plan showing original and finished slopes, means of stabilization and relation to floodplains, drainage ways, wetlands, subsurface condition and soil suitability.

2. A traffic analysis indicating that the proposed development will be so related to streets and arteries that the traffic generated can be accommodated without causing excessive congestion or hazards or objectionable volumes of traffic on residential streets.

3. A comprehensive independent market analysis, if requested by the planning commission or zoning advisory committee, on the needs to be served and the general economic justification.

4. A copy of any proposed subdivision plats, new streets, other easements, and deed restrictions including any third party covenants to be recorded, and the legal treatment and responsibility for maintenance or any public or common grounds or spaces.

Subsection 6. *Review and approval of plans.* The zoning advisory committee shall review, approve in part or whole, or disapprove, setting forth its reasons therefore, all conceptual designs any site development plans for B-5 districts initiated or recommended for adoption by the planning commission without an original plan, in the case of initial zoning of annexed territory. The zoning advisory committee shall also review, and approve or disapprove all other site development plans involved in rezoning requests or subsequent plan amendments. After due notice and hearing of all interested parties, and consideration of analyses or recommendations by its staff, the zoning advisory committee shall judge the acceptability of varied elements of the plan in close conformity with the following criteria to:

1. Minimize traffic congestion, conflicting movements, hazards, clutter or glare interfering with drivers' visibility of streets, drives and sight lines around corners, also accommodating emergency vehicles, and protecting pedestrian ways and avoiding the attraction of customer or truck traffic through local residential frontage streets;

2. Assure long-term adequacy of grading, storm drainage, sanitary sewers, other utilities and improvements, particularly preventing landslides, erosion, sedimentation, flooding and similar problems on subject property and nearby parcels of land in accordance with the City of Birmingham Soil Erosion and Sediment Control Code;

3. Minimize activity conflicts, and environmental degradation, while maximizing a compatible interrelation of uses and economical development through shared access, parking, utility easements, service areas, clustering, etc.;

4. Preserve historic or significant places, scenic features, steep slopes, or drainage ways, and create effective natural, planted and manmade buffers of sufficient height, density and width to screen objectionable on-site noise, vibration, smoke, dust, fumes, odor, heat, glare of visibility from adjacent less intensive uses and particularly residential development and zones.

Once a site development plan has been approved, no work shall be done and no permits shall be issued except in accord with said plan. No certificate of occupancy shall be issued until all site improvements as required by an approved site development plan are completed.

Subsection 7. *Delay in construction.* In the event that construction in accordance with the originally approved development plan has not begun within two years from the date of its approval, the development plan shall expire and become null and void. If less than 25 percent of the site improvements have been installed within 18 months after issuance of a permit to begin construction, the site development plan shall expire and become null and void.

Section 6. B-6 Health and Institutional District.

Subsection 1. *Purpose.* The regulations set forth in this section, or elsewhere in this ordinance, when referred to in this section, are the regulations in the B-6 Health and Institutional District. The B-6 Health and Institutional District is provided for the orderly arrangement of buildings and uses on the campus of professional health care providers, hospitals, institutions of higher learning, including residential dwellings that are associated with such uses and are located on the same campus of the associated institution, as well as other uses that may from time to time be associated with, or accessory to, the aforementioned uses.

Subsection 2. *Use regulations.* A building or premises shall be used only for the following purposes:

1. All uses permitted under the O&I Office and Institutional District, except as provided herein.
2. Dwellings (as defined), dormitories, student residence halls, family day/night care, or family group day/night care facilities, provided that such dwellings and residential facilities are associated with or accessory to the primary institution, and wholly contained within the boundaries of the master plan of the designated campus.
3. All uses permitted under the B-1 Neighborhood Business District, provided such uses are associated with and/or located on the campus of the primary institution and these uses are designated on the approved master plan. When no approved master plan exists or if the B-1 uses are not so designated on an approved master plan, then the B-1 uses shall be located no closer than 500 feet to any residential zone district.
4. Fraternities, sororities, and other group dwellings that are recognized by, and/or associated with a college or university campus and so designated on an approved master plan. Provided, however, that no such fraternities, sororities, or other group dwellings may be located within 1,000 feet of a single-family residential zone district.

5. Other service uses, such as shipping and receiving, maintenance operations, and similar support functions, which are accessory to and in exclusive support of the operations of the primary institution and wholly contained within the boundaries of the institution's campus. These uses must be designated and identified on the approved master plan of the campus. These uses however, shall not be located in areas of the designated campus where they may create land use conflicts with off-campus uses.

Subsection 3. *Area and dimensional regulations.* Except as provided in articles VI and VIII, the area and dimensional regulations set forth in this subsection will be observed; or the area and dimensional requirements set forth pursuant to an approved master plan will be observed. Without an approved master plan, no building or structure shall have a height that exceeds 120 feet. Additionally no building or structure shall have a height that exceeds 45 feet when it is within 500 feet of a residential district (as measured from the building line). Without an approved master plan, the area and dimensional requirements are listed in the following table:

Maximum Height of Structure in Feet	*Minimum Yards*			*Minimum Lot Width*
	Front	*Rear*	*Side*	
120 feet, when 500 or more feet from a residential district, and 45 feet when within 500 feet of a residential district.	25 feet	20 feet	10 feet, except no building shall be located closer than 25 feet to a residential zone district.	50 feet

Subsection 4. *Parking and loading regulations.* Off-street parking and loading spaces shall be provided in accordance with the requirements for specific uses set forth in article V of the Zoning Ordinance of the City of Birmingham, or pursuant to an approved master plan. A parking plan must be an element of the approved master plan. When a master plan is submitted for review and approval, all parking spaces required herein may be provided on an aggregate basis. All required parking spaces must be located within the approved boundaries of the campus of the permitted institution and such parking must be approved as a part of the adopted master plan for the permitted institution. Required parking spaces shall be located on the same lot of the building/use or adjacent to the building/use that it serves except as provided below:

(a) 100 percent of the parking spaces must be located within 800 feet of the building line of the proposed building/use that the parking serves if it is not served by an approved bus/shuttle or other transport system.

(b) If serviced by an approved bus/shuttle or other transport system, at least 70 percent of the required parking shall be located within 1,200 feet of the building line of the proposed building/use that the parking serves. The

remaining 30 percent or less of the required parking may be located in remote parking lots, according to the approved parking plan, at a distance greater than 1,200 feet from the building line of the proposed building/use that the parking serves. When parking spaces are so provided, the approved master plan for the permitted institution must document that an adequate bus/shuttle or other transport system exists or will be established to support the parking during all work shifts and scheduled class times.

(c) Up to 50 percent of the parking spaces required for (a) arenas, sports venues, or auditoriums, that are primarily used during off peak hours, may be provided and jointly used by (b) uses. The (b) uses include: outpatient hospitals or clinics, banks, offices, retail stores, repair shops, service establishments, and other institutional or higher education facilities and similar uses that, in the opinion of the director are not normally open, used, or operated during the same hours as those uses listed in (a). In no event shall the parking spaces that are being jointly used be located further than 800 feet from the building line of the uses that they serve. To be eligible for jointly used parking, however, a written agreement assuring the parking spaces retention shall be properly drawn and executed by the parties concerned. This agreement must be approved as to form by the city attorney, recorded at the applicant's expense in the office of the judge of probate, and shall be in full force and effect until released by resolution of the zoning board of adjustment. Upon completion of the aforementioned, the agreement shall be filed with the application for a building permit.

Subsection 5. *Master plan information required.* A master plan will be required by the planning commission or zoning advisory committee as an aid in determining the merits of a re-zoning petition to establish a B-6 zone district. If a B-6 zone district is established as a result of initial zoning or a city-initiated comprehensive plan, the master plan will be required if the affected institution wishes to: avoid the required area, dimensional, height and setback regulations; take advantage of relaxed retail use restrictions; and provide required parking on an aggregate basis. A master plan shall include the following, subject to refinement on site development plans:

a. The direction of north and scale.

b. The proposed general location, approximate setbacks, and approximate height of all structures. These location and massing issues may be specified in the master plan by designated "geographic density zones" where similar development restrictions will uniformly apply.

c. The proposed uses of all buildings or premises shall be designated or, similar proposed uses of structures and premises may be grouped together in "geographic use zones."

d. The locations and proportionate amount of parking and loading spaces to be developed on site, and if applicable an aggregate campus parking plan, by "geographic use zones" or campus wide.

e. The location of lot lines, public street ROW, pavement edge.

f. An overall campus parking and traffic circulation plan. This must include a bus/shuttle or other transport system plan and pedestrian plan when parking spaces are proposed in locations more than 800 feet distant from the building, structures, or uses that they support.

g. Preliminary points of ingress and egress for vehicles to access parking for buildings or site.

h. Reasonable additional requirements may be recommended by the planning commission or zoning advisory committee as they relate to the protection of adjoining property.

Subsection 6. *Master plan approval and amendments.* A master plan together with any supplementary information, will be referred to the planning commission or zoning advisory committee for:

[a.] Study and recommendation to the city council on a petition for the establishment of a B-6 zone district, according to the procedure specified in article VII; or

[b.] Study and approval or disapproval when a B-6 zone district is established as a result of initial zoning or a city-initiated comprehensive plan.

Amendments to the approved master plan will be reviewed by the planning commission or the zoning advisory committee in accordance with the procedures outlined in this subsection and subsection 5.

Subsection 7. *Site development plan requirements.* Unless otherwise required by state law or other city ordinance, a site development plan will be required for review and approval by the staff of the department of planning, engineering, and permits, prior to the issuance of any permits for grading, clearing, site improvements or any other construction or building permits. Site plans not approved by staff may be appealed to the zoning board of adjustment in accordance with the regulations set forth in this zoning ordinance. In the review and approval of the development plans, consideration will be given to plans that have a goal of preventing adverse environmental impacts, to ameliorating land use conflicts, and to achieving a compatible relationship between surrounding land uses and zoning districts, and to improving parking, pedestrian, and transportation access.

A. With an approved master plan. A site development plan will be required for review as an aid in determining the consistency of the site development with the campus master plan, completeness of the application, and adherence to the

site development plan goals. Site development plans not in conformance with the master plan will not be considered by the planning commission or zoning advisory committee without an amendment to the approved master plan.

B. Without an approved master plan. A site development plan will be required for review as an aid in determining the consistency of the site development with the area and dimensional regulations, height and setback regulations, land use allowances, completeness of the application, and adherence to the site development plan goals.

C. Site development plans shall consist of the following:

a. All service, loading, and parking spaces.

b. Location and areas of illumination of all exterior lighting.

c. The location, size, number and character of all exterior signs.

d. The location, character and extent of, fences, retaining and screen walls, lighting and other treatment.

e. The facilities for surface drainage of the premises.

f. Location and screening of garbage disposal areas; and exterior mechanical and utility equipment.

g. The direction north, scale, and topography in no greater than two-foot contour intervals.

h. The proposed location, setback and height of all structures and site improvements.

i. The uses of all structures and premises.

j. The locations and proportionate amount of parking to be developed on site or adjacent to the site, or an explanation of how aggregate parking will serve the project.

k. The location of lot lines, street rights-of-way, street and sidewalk edge of pavement, proposed driveways and walks including all points of ingress and egress for vehicles and pedestrians.

l. Site landscaping plan including plant material schedule listing plant names, size, spacing and quantity, also including specific plant installation illustrations and instructions.

Section 7. O&I Office and Institutional District.

Subsection 1. *Purpose.* The regulations set forth in this section or elsewhere in this ordinance, when referred to in this section, are the regulations in the O&I Office and Institutional District. The O&I Office and Institutional District is provided for the orderly arrangement of institutional, clerical and administrative space.

Subsection 2. *Use regulations.* A building or premises shall be used only for the following purposes:

1. A public, semi-public, or private office:
   a. Sales office; provided that merchandise shall not be stored on the premises.
   b. Research or testing laboratories.
   c. Radio or television broadcasting studio or station.
   d. Cemetery, mortuary or funeral home.
2. A public or semi-public, religious, educational or charitable institution. Such use may include:
   a. A club, lodge, fraternity or sorority; provided that such establishments are not conducted primarily for financial gain.
   b. A clinic, sanitarium, convalescent home or hospital, except one principally used for the treatment of animals.
   c. Public and semi-public recreation, including but not limited to parks, golf, swimming, tennis, country and community clubs or associations; provided that such establishments are not conducted primarily for financial gain.
   d. Church, school or orphanage.
   e. Adult care facility or child care center.
3. Other uses not specifically listed above, but which are similar to those listed above or uses whose effects on surrounding areas are consistent with those listed above, are permitted on appeal, subject to the approval of the zoning board of adjustment. Such areas shall not include repair garages or storage yards for materials, vehicles or equipment, warehouses, buildings and other facilities having commercial or industrial characteristics and buildings used or intended to be used as communal living facilities, detention, correctional, or penal institutions.
4. Wireless communications facilities, in accordance with article VI, section 18.
5. Accessory structures and uses including accessory use child care center and commercial uses which are clearly incidental to the permitted use of the premises and which are carried on wholly within a main building or accessory building. Such uses may include:
   a. Drugstore limited in size to that which is of service to the principal use of the premises.
   b. Restaurant or coffee shop; provided that the serving of food or beverages to patrons waiting in parked automobiles shall not be permitted.
   c. Retail sales and service shops limited in character and size to that which is of service to the principal use of the premises.

d. On-premises signs shall be in accordance with the regulations set forth in the B-1 Neighborhood Business District.

(Ord. No. 94-66, § I, 4-5-1994; Ord. No. 97-77, § 1(title 2, art. II, § 6), 6-24-1997)

Subsection 3. *Area and dimensional regulations.*

1. Except as provided in articles VI and VIII, the area and dimensional regulations set forth in this subsection shall be observed:

Maximum Height of Structure [in] Feet	*Minimum Yards**			*Minimum Lot Width*
	Front	*Rear*	*Side*	
The height regulations for this district are the same as for the R-7 Multiple Dwelling District.	25 feet	20 feet	10 feet, except no building shall be located closer than 25 feet to a residential district.	50 feet

2. Open space between buildings. Open spaces between buildings, measured at the closest point between buildings, shall not be less than 20 feet for buildings 35 feet or less in height and 45 feet when one or both buildings are 35 feet or higher in height.

Subsection 4. *Parking and loading regulations.* Off-street parking and loading spaces shall be provided in accordance with the requirements for specific uses set forth in article V.

Subsection 5. *Plan and other information may be required.* A development plan may be required by the planning commission at its discretion as an aid in determining the merits of a petition to establish an O&I zone district. If such a zone district is established partially on the basis of an approved development plan, building permits will be issued only for structures which are in general conformity with said plan. Said plan shall include the following:

a. The direction of north, scale and topography in not greater than two-foot contour intervals.

b. The proposed location and height of all structures and site improvements.

c. The use of structures and premises.

d. The areas and proportionate amount of parking to be developed.

e. The location of streets, driveways and walks, including all points of ingress and egress.

f. All service and loading spaces.

g. Location and areas of illumination of all exterior lighting.

h. The location, size, number and character of all exterior signs.

i. The location, character and extent of landscaping, fences, retaining and screen walls, and other treatment for the protection of adjoining property.

j. The facilities for surface drainage of the premises.

k. Location of garbage disposal areas.

Subsection 6. *Review and approval of plan.* A development plan, together with any supplementary information, shall be referred to the planning commission for study and recommendation before any action is taken on petition for establishment of an O&I zone district. Reasonable additional requirements may be recommended by the planning commission for the protection of adjoining property. The planning commission shall report its recommendations and reasons therefor to the city council for action according to the procedure specified in article VII. Any subsequent amendments in the required plan shall be reviewed by the planning commission in accordance with the procedure outlined in subsections 5 and 6 of this section.

Subsection 7. *Delay in construction.* If construction, in accordance with a required development plan, has not begun within two years from the date of approval of zone district amendment by the city council, the development plan shall expire and become null and void.

Section 8. PRD Planned Recreational District.

Subsection 1. *Generally.* The regulations set forth in this section or elsewhere in this ordinance, when referred to in this section, are the regulations in the PRD Planned Recreational District. The PRD Planned Recreational District is provided for the orderly arrangement of recreational facilities and associated commercial uses.

Subsection 2. *Application—Review and approval.* A petition for the establishment of a PRD Planned Recreational District on a tract of land containing a minimum of 20 acres may be submitted by:

1. The owner(s) of the subject land; or

2. The zoning advisory committee of the Birmingham Planning Commission, the Birmingham Planning Commission or the council of the City of Birmingham to assure the compatibility of uses within a PRD Planned Recreational District.

The petitioner shall submit a plan for the development of the property for review and approval in accordance with the provisions of subsection 7 of this section before any action is taken upon the petition. The zoning advisory committee or the Birmingham Planning Commission shall determine that each approved use is compatible with other uses within, adjacent to, and in the vicinity of the PRD Planned Recreational District. The development plan and application shall be submitted to the zoning advisory committee of the Birmingham Planning Commission for rezoning considerations or to the Birmingham Planning Commission for initial zoning considerations.

Subsection 3. *Compliance with article.* The PRD Planned Recreational district shall be laid out, developed and used only in accord with a plan prepared and approved in compliance with the provisions of this section.

Subsection 4. *Use regulations.* The use of each building and/or premises shall be in accordance with the plan referred to in subsection 7 of this section. The zoning advisory committee and the Birmingham Planning Commission shall determine that each approved use is compatible with other uses within, adjacent to and in the vicinity of the PRD Planned Recreational District. The uses listed below are permitted in this district only when approved, which uses shall be limited to:

1. Archeries.
2. Amusement parks.
3. Athletic fields and stadiums (baseball, football, tennis, etc.).
4. Carnivals.
5. Circuses.
6. Drive-in or enclosed theaters (excluding adult entertainment).
7. Fairgrounds.
8. Golf courses (full size, miniature and putting greens).
9. Merry-go-rounds.
10. Miniature railroads.
11. Picnic or camp grounds including mobile home parks. All sanitary facilities must be in conformity with the provision of chapter 12.5 [of title 12], General Code of the City of Birmingham, as amended, with the density and location subject to the approval of the zoning board of adjustment.
12. Pony riding tracks.
13. Practice golf driving range.
14. Race tracks (automobile, stock cars, motorcycles, horses and dogs).
15. Riding stables and trails.
16. Roller and ice-skating rinks.
17. Skeet, rifle or trap shooting ranges, provided that such use is not located nearer than 1,000 feet to any residence other than owner or lessor of the site or such facility is totally enclosed with materials to contain any munitions discharged therein.
18. Sport arenas.
19. Swimming pools, boating or water parks.
20. Theme parks.

21. Zoos.
22. Other similar recreational or tourist facilities.
23. Wireless communications facilities, in accordance with article VI, section 18.
24. Accessory structures and uses, including but not limited to apartments and/or dormitories, but not including family day/night care or family group day/night care facility.
25. Associated commercial activities excluding adult establishments, and including but not limited to, the following:
    a. Ambulance or helistops for emergency service only.
    b. Banks.
    c. Hotels-motels.
    d. Office buildings.
    e. Restaurants with or without tavern combinations.
    f. Service stations.
    g. Veterinary establishments.
    h. Adult care facilities, child care center and accessory use child care centers.

(Ord. No. 94-66, § I, 4-5-1994; Ord. No. 97-77, § 1(title 2, art. II, § 8, subsec. 4), 6-24-1997)

Subsection 5. *Area and dimensional regulations.* The area and dimensional regulations set forth in this subsection shall be observed:

1. *Maximum height of structures.* Except as provided in articles VI and VIII, the maximum height of buildings shall be 100 feet, and no structure shall exceed 200 feet in height.
2. *Minimum structure setbacks.*
    a. *Front yard.* No building or structure shall be closer than 50 feet to any abutting street.
    b. *Side yards.* No building or structure shall be closer than 25 feet to any adjoining side property line, except as provided in item "d" below.
    c. *Rear yard.* No building or structure shall be closer than 50 feet to any rear property line, except as provided in item "d" below.
    d. *District setback.* No building or structure shall be closer than 100 feet to a PRD Planned Recreational District boundary line.
3. *Open space between buildings.* Open space between buildings, measured at the closest point, shall not be less than 25 feet for one-story buildings, 35 feet when one or both are two-story buildings, and 50 feet when one or both are three-story or taller buildings.

4. *Residential structures.* The area and dimensional requirements for residential uses shall comply with article I, section 7, R-5 Multiple Dwelling District, but shall be permitted as accessory to the principal use of the site. This shall not prohibit a dwelling for a resident watchman, custodian or caretaker employed full-time on the premises.

5. *Buffers.* Additional setbacks, buffers or restraints may be required where determined necessary.

Subsection 6. *Off-street parking and loading regulations.* Off-street parking and loading shall be provided as required in article V.

Subsection 7. *Development plan and other information—Contents.* The development plan and application shall be submitted to the zoning advisory committee of the Birmingham Planning Commission for rezoning considerations or to the Birmingham Planning Commission for initial zoning considerations, for review and approval in accordance with the provisions of this section before any action is taken upon the petition. Building permits will be issued only for structures which are in strict conformity with the development plan. Said plan shall comply with all requirements of this section and shall be accompanied by evidence concerning the feasibility of the project, the relationship of the proposed development on surrounding property and other physical conditions. When required by the planning commission, said plan and supporting evidence may include each of the following:

1. A site plan defining the areas wherein buildings may be constructed; the locations and extent of parking and the proportionate amount thereof; the location of all roads, driveways and walks and the points of ingress and egress, including access streets where required; the location, height and character of walls, fencing or other forms of screening; the location, size, character and number of signs excluding trailer or portable signs of any type; the location and character of exterior lighting; and the character and extent of landscaping, planting and other treatment for protection of adjoining properties.

2. A drainage and grading plan including an environmental analysis of the site and its environs.

3. A copy of any acceptable deed restrictions intended to be recorded.

4. A professional economic analysis on the needs and extent of the market to be served, and general economic justification and impact.

5. A professional traffic analysis indicating the effect of the proposed development on existing adjacent streets specifying the direction and amount of traffic flow to and from the development. Said analysis of any project shall include:

    a. Traffic congestion or causes;

    b. Projected volumes of traffic in adjacent residential areas; and

c. Adequate improvements to accommodate the projected volumes, determined necessary by the Birmingham Planning Commission or the zoning advisory committee as a part of the development plan required herein.

6. A professional land use study of the existing and proposed land uses in the area surrounding the subject property and projection of the relationship of proposed development to existing and future uses.

7. Schematic drawings of buildings and other improvements that illustrate the character of development shall be submitted for review and approval. The commission or committee may request that said plans be reviewed by and receive recommendation from the design review committee or any such body empowered by statute to consider or advise the city on architectural design.

In addition to the above, the design and land development controls should be addressed by the plan in areas surrounding the proposed facility and particularly its major access ways to assure a high level of quality not just for the proposed facility but for the journey to and from the facility and for spin-off or associated development that the major facility spawns.

Subsection 8. *Recommendation to city council.* The Birmingham Planning Commission or zoning advisory committee may approve the development plan and recommend to the city council the rezoning based on conditions requiring the applicant to submit sufficient information addressing problems relative to requirement of subsection 7, subject to final approval by the Birmingham Planning Commission or zoning advisory committee following the establishment of the district.

Subsection 9. *Delay in construction.* In the event that construction has not begun within two years from the date of approval by the city council, said development plan shall become null and void; in accordance with the required development plan; provided, however, that such expiration shall not be applicable to land acquired by the City of Birmingham for the purpose of public development.

Subsection 10. *Amendments to plan.* After the adoption of a PRD Planned Recreational District, amendments or changes to the development plan shall be submitted to the zoning advisory committee of the Birmingham Planning Commission for approval or disapproval. Such submission shall include the same plans or studies required for the initial application. Any change in the development plan that includes changes in the approved uses of the district shall also be approved to assure the compatibility of the changed use with other uses within, adjacent to and in the vicinity of the PRD Planned Recreational District.

[ARTICLE III. INDUSTRIAL CLASSIFICATIONS]

Section 1. M-1 Light Industrial District.

Subsection 1. *Generally.* The regulations set forth in this section or set forth elsewhere in this ordinance, when referred to in this section, are the regulations in the M-1 Light Industrial District.
(Ord. No. 07-33, § 1(1), 2-13-2007)

Subsection 2. *Use regulations.* A building or premises shall be used only for the following purposes:

1. Any use permitted in the R-7 Multiple Dwelling District or the B-3 Community Business District.
2. Contractor's or construction equipment dealer's yard.
3. Grain and feed storage.
4. Heating fuel or building material storage or wholesaling; provided that the materials shall not be extracted or processed on the premises.
5. Lumber yard.
6. Truck terminal.
7. Railroad installation.
8. Warehouse.
9. Dairy, veterinary clinics, kennels, dog training and boarding facilities.
10. Assembly of parts for production of finished equipment.
11. Manufacturing, fabricating, processing, or assembling uses which do not create any objectionable noise, vibration, smoke, dust, odor, heat or glare, such as the following:
    a. Boats (less than five tons.)
    b. Bolts, nuts, screws, washers, rivets, nails, brads, tacks, spikes, staples and similar items.
    c. Clothing.
    d. Food.
    e. Pharmaceuticals.
    f. Furniture and wood products.
    g. Glass products, but not including glass manufacture.
    h. Hand tool and hardware products.
    i. Ice.
    j. Musical instruments, games or toys.

k. Office machines.

l. Plastic products, not including processing of raw materials.

m. Plating of silverware or utensils.

n. Signs.

o. Sporting goods.

p. Other similar uses.

12. Accessory structures and uses:

a. Except that no outside storage of materials shall be permitted, when adjacent to a residential or agricultural zone district, except through grant of a special exception by the zoning board of adjustment. Said board may limit the type, area and height, and require enclosure by walls, fences, berms, shrubs, or trees, pre-existing or newly planted, sufficient to substantially screen its effects or visibility from nearby streets and any residential or agricultural zone districts;

b. Including outside kennels or dog runs subject to submission of an overall site development plan to be reviewed and approved by the zoning advisory committee prior to any grading, clearing, site improvements or issuance of related permits; provided, however, that no outside kennels or dog runs shall be permitted when within 1,000 feet of a residential zone district. The zoning advisory committee will require enclosure by walls, fences, berms, shrubs or trees, pre-existing or newly planted, and may limit the type, area and height to sufficiently screen its effects or visibility from nearby streets and any adjacent uses.

13. Outdoor urban farm* provided all compost and organic matter stored on site is screened from adjacent lots and is more than 1,000 feet from any adjacent residential dwelling, which shall not cover more than ten percent of the total area, shall be managed to prevent rodents and pests, prevent odors and drainage from compost onto adjacent sites, all farming equipment shall be screened from view with fencing or landscaping of adjacent lots, accessory structures are limited to storage sheds, greenhouses, hoophouses, cold frames and cisterns built of standard uniform materials that are either new or in sound condition not showing signs of decay, apiaries are set back from property lines by 25 feet and 50 feet from any adjacent residential lots, a continuous water source is available, one hive allowed per 2,500 square feet with maximum of 40 hives.

If any accessory structure is not maintained in sound condition free from evidence of decay and can be seen from the public right-of-way or an adjacent property, they will be considered a nuisance and will be subject to code enforcement.

It is a requirement that soil testing be conducted prior to gardening activities. Test for both soil condition and possible soil contamination, to determine at minimum constraints to food production, shall be conducted. Information on acquiring soil testing kits and analysis can be found in the appendix to the [this] City of Birmingham Zoning Ordinance.

14. Flea market.

(Ord. No. 07-33, § 1(2), 2-13-2007; Ord. No. 13-71, 5-7-2013)

Subsection 3. *Area and dimensional regulations.* Except as provided in articles VI and VIII, the area and dimensional regulations set forth in the following table shall be observed.

Maximum Height of Structure [in] Feet	*Minimum Yards*			*Minimum Lot Area Per Family*	*Minimum Lot Width*
	Front	*Rear*	*Side*		
100 feet Where a structure is located upon a lot abutting any dwelling district, then any structure exceeding 35 feet shall be set back from the required yards abutting the dwelling district an additional distance of one foot for each foot of structure height above 35 feet.	None, except where the frontage between two intersecting streets is located partly in an E or R district and partly in an M district, the front yard requirements of the E or R district shall apply to the M district.	None, except on the rear of a lot abutting a dwelling district, in which case there shall be a rear yard not less than 25 feet.	None, except on the side of a lot abutting a dwelling district, in which case there shall be a side yard not less than 10 feet.	None	None

(Ord. No. 07-33, § 1(3), 2-13-2007)

Subsection 4. *Site development plan.*

1. Except for single-family and two-family dwellings, a site development plan is required in conjunction with all building permits for new construction and when a building or part thereof is enlarged or extended to at least 50 percent of its current floor area. At a minimum, the site development plan must show:
   a. The direction of north, appropriate scale and existing and finished topography in not greater than two-foot contour intervals.
   b. The proposed location including any easements that may exist on site and elevation drawings of all sides of each building prototype.
   c. The use of all structures and premises.
   d. The location of proposed driveways and marked off-street parking spaces.
   e. The edge of pavement for existing and proposed streets, driveways and walkways.
   f. All service and loading spaces as well as the location of solid waste containers. Also, provide enclosure details for large solid waste containers, including their access in compliance with article VI, section 5.
   g. Location and areas of illumination of all exterior lighting.
   h. The location, size, number and character of all exterior signs.
   i. The location, character and extent of landscaping, retaining and screen walls and other treatment for the protection of adjoining property or fences, and other measures for screening or buffering views from incompatible land uses. This includes detailed landscaping plans for structures and parking areas. The landscaping plan shall include plant location, corresponding plant schedule and planting instructions. In addition to landscape requirements for off-street parking as specified in article V, landscaping of the remainder of the lot, exclusive of areas occupied by structures and parking, shall not be less than five percent. Said landscaping shall include a combination of shrubs, trees and ground cover.
   j. Plans and facilities for stormwater drainage of the premises.
   k. Any proposed re-subdivision of the subject property; when applicable.
2. Any proposed condominium must also conform to article VIII of the Birmingham Subdivision Regulations. The deed restrictions and covenants must show the treatment of all land held in common interest.

(Ord. No. 07-33, § 1(4), 2-13-2007)

Subsection 5. *Parking and loading regulations.* Off-street parking and loading spaces shall be provided in accordance with the requirements for specific uses set forth in article V.

(Ord. No. 07-33, § 1(5), 2-13-2007)

Subsection 6. *Attached and semi-attached dwellings.* Attached and semi-attached dwellings must comply with the requirements set forth in article VI, section 15. (Ord. No. 07-33, § 1(6), 2-13-2007)

Section 2. M-1A General Industrial District.

Subsection 1. *Generally.* The regulations set forth in this section or set forth in this ordinance, when refereed to in this section, are the regulations of the M-1A General Industrial District. This district aims to accommodate wholesaling and manufacturing uses.

Subsection 2. *Use regulations.* A building or premises shall be used only for the following purposes:

1. Business and professional offices.
2. Religious, educational or charitable institutions.
3. Retail sales or business services.
4. Recreation, amusement or entertainment.
5. Automotive, farm implements, trailer, or heavy equipment sales, services and repair, including truck stops and terminals.
6. Repair or modification services for major appliances and electrical machinery.
7. Wholesale, distribution or warehousing operation.
8. Testing or research laboratory.
9. Contractor's or construction equipment dealer's yard or utilities' yards.
10. Lumber yard, temporary storage of nontoxic natural resources or nonhazardous materials.
11. Bottling plant, canning and preserving of fruits or vegetables.
12. Furniture, wood and paper products.
13. Printing, book binding.
14. Veterinary clinics, kennels, dog training and boarding facilities.
15. Assembly of parts for production of finished goods.
16. Other manufacturing, fabricating, processing or assembling uses and activities which do not create any danger to health or safety, air or water pollution either on or off site, nor any objectionable noise, vibration, smoke, dust, fumes, odor, heat or glare in any abutting zone (excepting an M-2 or similar heavy industrial district), such as the following:
    a. Textile mills, fabrics, clothing, leather or fur goods.
    b. Grain mill products, bakery, pharmaceuticals.
    c. Electrical appliances, equipment, instruments.

d. Motor vehicles, aircraft and boats less than five tons.

e. Professional, scientific instruments, office machines.

f. Jewelry, glass, optical goods, plastic ware.

g. Musical instruments, toys, sporting goods, hardware, utensils.

h. General industrial equipment.

i. Stone, clay and cement products.

17. Adult care facility or child care center.

18. Wireless communications facilities, in accordance with article VI, section 18.

19. Accessory structures and uses:

a. Except that no outside storage of materials shall be permitted, when adjacent to a residential or agricultural zone district, except through grant of a special exception by the zoning board of adjustment. Said board may require enclosure by walls, fences, berms, shrubs, or trees, pre-existing or newly planted, and limit the type, area and height, to substantially screen its effects or visibility from nearby streets and any residential or agricultural zone districts;

b. Including outside kennels or dog runs subject to submission of an overall site development plan to be reviewed and approved by the zoning advisory committee prior to any grading, clearing, site improvements or issuance of related permits; provided, however, that no outside kennels or dog runs shall be permitted when within 1,000 feet of a residential zone district. The zoning advisory committee will require enclosure by walls, fences, berms, shrubs or trees, pre-existing or newly planted, and may limit the type, area and height to sufficiently screen its effects or visibility from nearby streets and any adjacent uses.

20. None of the above activities shall involve resource production, foundries, processing or refining of raw materials such as ore, metals, rubber, plastic, fuel, petroleum, nor storage or disposal of hazardous chemicals or wastes.

21. Outdoor urban farm* provided all compost and organic matter stored on site is screened from adjacent lots and is more than 1,000 feet from any adjacent residential dwelling, which shall not cover more than ten percent of the total area, shall be managed to prevent rodents and pests, prevent odors and drainage from compost onto adjacent sites, all farming equipment shall be screened from view with fencing or landscaping of adjacent lots, accessory structures are limited to storage sheds, greenhouses, hoophouses, cold frames and cisterns built of standard uniform materials that are either new or in sound condition not showing signs of decay, apiaries are set back from property

lines by 25 feet and 50 feet from any adjacent residential lots, a continuous water source is available, one hive allowed per 2,500 square feet with maximum of 40 hives.

If any accessory structure is not maintained in sound condition free from evidence of decay and can be seen from public right-of-way or an adjacent property, they will be considered a nuisance and will be subject to code enforcement.

It is a requirement that soil testing be conducted prior to gardening activities. Test for both soil condition and possible soil contamination, to determine at minimum constraints to food production, shall be conducted. Information on acquiring soil testing kits and analysis can be found in the appendix to the [this] City of Birmingham Zoning Ordinance.

22. Flea market.

23. Farmers market provided that; sales only occur on a temporary basis no more than 78 days per year and between the hours of 7:00 a.m. and 7:00 p.m., market can not operate for more than two consecutive days, market manager demonstrates that adequate parking is available on the lot being used by the market or a parking arrangement has been made for a nonresidential lot that is within 500 feet and is not in use during market hours, items made from kits, used or mass-produced items are prohibited, every vendor in any market shall, within one hour after the closing of the market, cause his or her provisions and vehicle to be removed from the vendor stall, and his or her stall thoroughly cleansed, and all rubbish to be removed from the vendor stall, an affidavit verifying landowners permission and identifying market manager is submitted to PEP, acknowledgement of applicable Jefferson County Health Department regulations, a farmers market permit, valid for one year, is obtained from PEP and a permit fee is paid to PEP that provides the following information:

    a. Name of all persons or entities that govern the market.

    b. Name, signature and contact information of market manager.

    c. List of all vendors and a list of items to be sold by vendor.

    d. Copy of State of Alabama Farmers Market Authority Certificate.

    e. List of market cleanup procedures.

    f. Detailed explanation of location of market and days/hours of operation.

    g. Address of the market location.

    h. Parking plan.

24. Public market provided that; 25 percent of vendors sell produce or value-added agricultural products, sales only occur on a temporary basis no more than 78 days per year and between the hours of 7:00 a.m. and 7:00 p.m., market can not operate for more than two consecutive days, market manager demonstrates

that adequate parking is available on the lot being used by the market or a parking arrangement has been made for a nonresidential lot that is within 500 feet and is not in use during market hours, used clothing, mass-produced items and appliances are prohibited, every vendor in any market shall, within one hour after the closing of the market, cause his or her provisions and vehicle to be removed from the vendor stall, and his or her stall thoroughly cleansed, all rubbish to be removed from the vendor stall, an affidavit verifying landowners permission and identifying market manager is submitted to PEP, acknowledgement of applicable Jefferson County Health Department regulations, and a public market permit, valid for one year, is obtained from PEP and a permit fee is paid to PEP that provides the following information:

a. Name of all persons or entities that govern the market.
b. Name, signature and contact information of market manager.
c. List of all vendors, the products they will sell and their grower's permits or City of Birmingham business licenses number.
d. List of market cleanup procedures.
e. Detailed explanation of location of market and days/hours of operation.
f. Parking plan.

25. Pay day (deferred presentment) and title loan operations.
26. Amusement (indoor and outdoor). Except when the property abuts residential zoned property located within the city, amusement (outdoor) is only allowed by special exception granted by the zoning board of adjustment.

(Ord. No. 94-66, § I, 4-5-1994; Ord. No. 97-77, § 1(title 2, art. III, § 2, subsec. 2), 6-24-1997; Ord. No. 13-71, 5-7-2013; Ord. No. 13-141, § 5, 11-5-2013; Ord. No. 13-178, § 3, 12-26-2013)

Subsection 3. *Area and dimensional regulations.*

1. Except as provided in articles VI and VIII, the area and dimensional regulations set forth in the following table shall be observed:

Maximum Height of Structure in Feet	*Minimum Yards*			*Minimum Lot Width*
	Front	*Rear*	*Side*	
None, except on a lot abutting an A, E or R district or any residential zone, then any structure exceeding 35 feet shall be setback from said district an additional one foot for each additional one foot of height above 35 feet.	40 feet	25 feet	15 feet each	80 feet

2. In addition no building shall be located closer than 75 feet to any agricultural or residential zoning district.
3. All structures and any impervious manmade surfaces shall cover no more than 80 percent of the land on any lot, and the remaining area shall be maintained in natural vegetation or landscaping.

Subsection 4. *Parking and loading regulations.* Off-street parking and loading spaces shall be provided in accordance with the requirements for specific uses set forth in article V.

Section 3. M-2 Heavy Industrial District.

Subsection 1. *Generally.* The regulations set forth in this section or set forth in this ordinance, when referred to in this section, are the regulations of the M-2 Heavy Industrial District.

Subsection 2. *Use regulations.* A building or premises shall be used only for the following purposes:

1. Any use permitted in the M-1 Light Industrial District; except that no dwelling other than that for a resident watchman, custodian or caretaker employed on the premises shall be permitted, nor may any dwelling be used for any family day/night care or family group day/night care facility.
2. A junkyard, or junkyard use, is permitted provided that this use is granted the appropriate license for operation by the city council and a nontransparent fence, as described herein, is erected along the entire perimeter of the site. The wall or fence (including gates) shall be of sound construction and approved by the director (or designee) of the department of planning, engineering, and permits. Walls shall be solidly constructed of block, brick, stone, concrete, or similar materials as approved by the director. Fences shall be constructed of manufactured metal sheeting material, reasonably smooth and uniform wood materials, or similar materials upon approval of the director. All materials used for wall or fence construction (including gates) shall be of sound and good condition, shall be protected against decay by the use of paint or other preservatives, and shall be uniform in height throughout. The wall or fence (including gates) may be required to be erected higher than eight feet if the adjacent property is zoned residential or if the topography of the surrounding and nearby properties enable the junk and/or scrap materials to be readily viewed. The fence requirement may be further modified by the director if the property's location, or location of the use on the property, is such that the site will not be viewable by the public or structures and/or dense vegetation is adequate to prevent viewing of the site by the public. All properly permitted and licensed junkyards existing at the enactment of this section shall conform to the requirements of this section within two years of the adoption of this section by the city council.

3. Any other use not in conflict with any other ordinances of the City of Birmingham regulating nuisances and approved by the director of planning,

engineering, and permits; provided, further, that the uses listed below may not be operated, placed, or established on a property until and unless the use shall be approved by the city council after report from the planning division of the department of planning, engineering, and permits:

a. Abattoir.

b. Acid manufacture.

c. Atomic power plant or reactor.

d. Explosives manufacture or inside storage.

e. Fat, grease, lard or tallow rendering or refining.

f. Glue or size manufacture.

g. Garbage, offal or dead animal reduction or dumping.

h. Petroleum refining.

i. Stockyard or slaughter of animals.

j. Hazardous waste or toxic disposal.

k. Medical and infectious materials disposal.

(Ord. No. 94-66, § I, 4-5-1994)

Subsection 3. *Area and dimensional regulations.* Except as provided in articles VI and VIII, the area and dimensional regulations set forth in the following table shall be observed:

Maximum Height of Structure in Feet	*Minimum Yards*		
	Front	*Rear*	*Side*
None, except where a structure is located on a lot abutting any dwelling district, then any structure exceeding 35 feet shall be set back from the required yards abutting the dwelling district an additional distance of one foot for each foot of structure height above 35 feet.	None, except where the frontage between two intersecting streets is located partly in an E or R district and partly in an M district, the front yard requirements of the E or R districts shall apply to the M district.	None, except where the rear of a lot is abutting a dwelling district, in which case there shall be a rear yard of not less than 25 feet.	None, except on the side of a lot abutting a dwelling district in which case there shall be a side yard of not less than 10 feet.

Subsection 4. *Parking and loading regulations.* Off-street parking and loading spaces shall be provided in accordance with the requirements for specific uses set forth in article V.

Section 4. M-3 Planned Industrial District.

Subsection 1. *Generally.* The regulations set forth in this section or set forth elsewhere in this ordinance, when referred to in this section, are the regulations in the M-3 Planned Industrial District. The M-3 Planned Industrial District is provided to encourage the orderly arrangement of high quality industrial development designed for maximum compatibility internally and with surrounding environs. This district shall not be established on less than six acres; however, this may be reduced to one acre, or a half block consisting of all lot frontage between two intervening streets, if such property is situated within or adjacent to a B or M zoning district or else abuts on a street having at least four moving lanes.

Subsection 2. *Use regulations.*

1. Any use permitted in the O&I Office and Institutional District.
2. No other grading, construction, site improvement or use, temporary or otherwise, shall be permitted except in accord with an approved site development plan as specified in subsections 5 and 6. Where such plan has been approved it may also designate the following additional uses as being permitted:
    a. Business offices or services.
    b. Wholesale or distribution operations.
    c. Printing or engraving plant.
    d. Radio or television broadcasting station or studio, including towers.
    e. Office-warehouse combinations and related facilities, but no separate truck stops or terminals.
    f. Manufacturing, fabricating, assembling, or processing of the following:
        (1) Electrical or electronic equipment.
        (2) Jewelry, cosmetics.
        (3) Bakery.
        (4) Pharmaceuticals.
        (5) Medical, dental or drafting instruments.
        (6) Musical instruments, games or toys.
        (7) Optical equipment, clocks, watches or similar precision instruments, office machines, photographic equipment.
        (8) Clay, leather, fabric, metal, wood, or glass product of a handcraft nature.
        (9) Clothing and other fabrics.

(10) Fur goods, except tanning or dyeing.

(11) Sporting goods, hand tools, hardware, home appliances and utensils.

(12) Furniture, wood and paper products.

(13) Plastic products, not including processing of raw materials.

g. Other uses which are similar in type to those listed above or the environmental impacts of which in surrounding areas are consistent with those listed above and which would not create any danger to health and safety, and which do not create any objectionable noise, vibration, smoke, dust, odor, heat, or glare in a surrounding area and that are specified on an approved development plan and are consistent with the "conceptual design" for the particular district.

h. Accessory structures and uses, except that all outside storage shall consist of finished or packaged goods and must be enclosed by walls, fences, berms, shrubs or trees, pre-existing or newly planted, sufficient to substantially screen it from nearby streets and residential zone districts.

i. None of the above uses or activities shall involve resource production, foundries, processing or refining of raw materials, such as ore, metals, rubber, plastic, fuel, petroleum, nor storage or disposal of hazardous chemicals or wastes.

Subsection 3. *Area and dimensional regulations.*

1. Except as provided in articles VI and VIII, the following area and dimensional regulations shall govern the location of all structures in this district.

Maximum Height of Structure	*Minimum Yards*			*Minimum Lot Width*
	Front	*Side*	*Rear*	
45 feet Any structure may be erected up to 100 feet high if it is setback from required yards or other setbacks an additional one foot for each additional one foot of structural height above 45 feet.	30 feet	25 feet	15 feet each, except no building shall be located closer than 35 feet to the perimeter boundary of this district.	150 feet

2. No building shall be constructed closer than 75 feet to the boundary of an A, E or R district or any residential zoning district. No building shall be located closer than 20 feet to another building.
3. All structures and any impervious manmade surfaces shall cover no more than 70 percent of the land on any lot, and the remaining area shall be maintained in natural vegetation or landscaping.

Subsection 4. *Parking and loading regulations.* Off-street parking and loading spaces shall be provided in accordance with the requirements for specific uses as set forth in article V.

Subsection 5. *Development plan requirements.* In order to prevent adverse environmental impacts and to achieve a compatible relation among uses covered in subsection 2.2 above and with the land use suitability of surrounding properties and nearby zone districts, as well as the surrounding transportation network, any owners of lands included in this district shall concur in an overall site development plan to be reviewed and considered for approval by the planning commission or zoning advisory committee prior to any grading, clearing, site improvements or issuance of related permits. All owners of property petitioning for establishment of a new M-3 district shall submit an acceptable development plan for zoning advisory committee approval prior to adoption by the city council. Any district may be phased over a reasonable period of time. Final site development plans may be postponed for portions of the parcel scheduled for completion after the first six acres. However, when phased, the whole district must be covered by a more generalized conceptual design for ultimate development which may be tentative, but must include a viable timetable for completion of each sector, with sufficient information to judge internal and external impacts. The site development plan shall include:

1. Maps indicating:
    a. The direction of north, appropriate scale and topography in not greater than two-foot contour intervals.
    b. The proposed location and height of all structures and site improvements.
    c. The use of all structures and premises.
    d. The areas and proportionate amount of parking to be developed.
    e. The location of streets, driveways and walks including all points of ingress and egress and access streets.
    f. All service areas and loading spaces.
    g. Location and areas of illumination of all exterior lighting.
    h. The location, size, number and character of all exterior signs.
    i. The location, character and extent of all recreation, open space, beautification features, and landscaping, fences, retaining and screen walls, and other treatment for the protection of adjoining property.

j. The facilities planned for sanitary sewers or treatment, and surface drainage of the premises.

k. A grading plan showing original and finished slopes, means of stabilization and relation to floodplains, drainage ways, wetlands, subsurface conditions and soil suitability.

2. A traffic analysis indicating that the proposed development will be so related to streets and arteries that the traffic generated can be accommodated without causing excessive congestion or hazards, or objectionable volumes of traffic on residential streets.

3. A comprehensive independent market analysis, if requested by the planning commission or zoning advisory committee, on the needs to be served and the general economic justification.

4. A copy of any proposed subdivision plats, new streets, other easements, and deed restrictions including any third party covenants to be recorded, and the legal treatment and responsibility for maintenance of any public or common grounds or spaces.

Subsection 6. *Review and approval of plans.* The zoning advisory committee shall review, approve in part or whole, or disapprove, setting forth its reasons therefore, all conceptual designs and any site development plans for M-3 districts initiated or recommended for adoption by the planning commission without an original plan in the case of initial zoning of annexed territory or zoning in accordance with a comprehensive plan. The zoning advisory committee shall also review, and approve or deny all other site development plans involved in rezoning requests or subsequent plan amendments. After due notice and hearing of all interested parties, and consideration of analyses or recommendations by its staff, the zoning advisory committee shall judge the acceptability of varied elements of the plan in close conformity with the following criteria to:

1. Minimize traffic congestion, conflicting movements, hazards, clutter or glare interfering with drivers' visibility of streets, drives and sight lines around corners, also accommodating emergency vehicles, and protecting pedestrian ways and avoiding the attraction of customer or truck traffic through local residential frontage streets.

2. Ensure long-term adequacy of grading, storm drainage, sanitary sewers, other utilities and improvements, particularly preventing landslides, erosion, sedimentation, flooding and similar problems on subject property and nearby parcels of land in accordance with the City of Birmingham Soil Erosion and Sediment Control Code.

3. Minimize activity conflicts, and environmental degradation, while maximizing a compatible interrelation of uses and economical development through shared access, parking, utility easements, service areas, clustering, etc.

4. Preserve historical or significant places, scenic features, steep slopes or drainage ways, and create effective natural, planted and manmade buffers of sufficient height, density and width to screen objectionable on-site noise, vibration, smoke, dust, fumes, odor, glare or visibility from adjacent less intensive uses and particularly residential development and zones.

Once a site development plan has been approved, no work shall be done and no permits shall be issued except in accord with said plan. No certificate of occupancy shall be issued until all site improvement as required by an approved site development plan are completed.

Subsection 7. *Delay in construction.* In the event that construction in accordance with the originally approved development plan has not begun within the two years from the date of its approval, the development plan shall expire and become null and void. If less than 25 percent of the site improvements have been installed within 18 months after issuance of a permit to begin construction, the site development plan shall expire and become null and void.

Section 5. M-4 Special Mining and Lumbering District.

Subsection 1. *Generally.* The regulations set forth in this section or set forth elsewhere in this ordinance, when referred to in this section, are the regulations in the M-4 Special Mining and Lumbering District.

Subsection 2. *Use regulations.* A building or premises shall be used only for the following purposes:

1. Any use permitted in the A-1 Agricultural District.
2. Mining, quarrying, extracting, or other removal by open pit, strip, shaft, slope, drift or any other method of removal of all mineral or other earth products of every kind, as hereinbelow restricted.
3. Timbering, logging, saw milling, extraction of timber products; and processing, distilling, manufacturing and treating of all such products. Reforestation shall require no permit.
4. The right to erect, maintain, alter, enlarge, use and operate structures, building, machinery, housing, roads, railroads, transmission lines, right-of-way, and all other facilities of every kind accessory or appropriate to the conduct of such above permitted uses.
5. The right to dump soil, tailings and other waste and to use so much of said district as may be required for such purposes, and such other rights as may be incidental or accessory to such permitted uses, provided such spoil, tailings and other waste is disposed of in a manner that pollution of streams or lakes are controlled in conformance of the Environmental Protection Agency and the Alabama Department of Environmental Management.

Subsection 3. *Area and dimensional regulations.* Except as provided in articles VI and VIII, the area and dimensional regulations set forth in the following table shall be observed:

Maximum Height of Structure in Feet	*Minimum Yards*		
	Front	*Rear*	*Side*
None, except where a structure is located upon a lot abutting any dwelling district, then any structure exceeding two stories or 35 feet shall be set back from the required yards abutting the dwelling district an additional distance of one foot for each foot of structure height above 35 feet.	None, except where the frontage between two intersecting streets is located partly in an E or R district, the front yard requirements of the E or R districts shall apply to the M district.	None, except on the rear of a lot abutting a dwelling district, in which case there shall be a rear yard of not less than 25 feet.	None, except on the side of a lot abutting a dwelling district, in which case there shall be a side yard of not less than 10 feet.

Areas and dimensional regulations for residential uses shall conform to the area and dimensional regulations of the A-1 Agricultural District.

Subsection 4. *Parking and loading regulations.* Off-street parking and loading spaces shall be provided in accordance with the requirements for specific uses set forth in article V.

Subsection 5. *Permit, operation and reclamation regulations.*

1. Before any permits may be used or work begins for strip or surface mining, the owner or operator must have applied for and received a clearing and earthwork permit and/or a permit from the city engineer of the City of Birmingham as herein provided. Any person lawfully engaged in strip or surface mining shall immediately secure such permit or cease operation of such strip mine. Applicants for a permit shall file an application with the city engineer which shall contain the following information and comply with the Soil Erosion and Sediment Control Code of the City of Birmingham:

    a. The name of applicant and whether individual, partnership, corporation or other legal entity.

    b. Legal address of the applicant for process of legal service or notice and the address of each mining operation.

c. The name and address of the agent, subsidiaries or independent contractors who may be engaged in strip surface mining on behalf of the applicant on the land or premises to be affected. Any agent, subsidiary or independent contractor engaged by the applicant subsequent to issuance of a permit shall be identified by written notice to the city engineer within 30 days of such engagement; however such engagement shall not relieve the permittee of responsibility hereunder.

d. A statement of whether the applicant, any subsidiary, affiliate or persons controlled by or under common control with the applicant, has ever had a strip or surface mining permit suspended or revoked by the City of Birmingham, Jefferson County, the State of Alabama, or any other state, or has ever had a surface mining bond, or security deposited in lieu of bond, forfeited.

e. All names under which the applicant previously operated or is now engaging in surface mining within the City of Birmingham.

f. A legal description of the land or premises upon which the applicant proposes to engage in strip or surface mining including a map at a suitable scale noting the date prepared and showing:

(1) The areas of proposed operation under the said permit, if issued.

(2) The names of owners of surface and mineral rights.

(3) The location of all existing and proposed structures.

(4) A 200-foot setback line or buffer from all adjacent property, public road rights-of-way, rivers, streams, or public lakes. The 200-foot setback from an adjacent property may be excepted provided the adjacent property has a legally existing strip or surface mine in operation thereon or provided the owner(s) of the surface rights to such adjacent property has provided the applicant with written consent for such mining.

(5) The total acreage of land or premises proposed for strip or surface mining.

(6) The existing and proposed surface drainage plans for the area of land or premises proposed for strip or surface mining noting approvals or requirements by the Alabama Department of Environmental Management, the Environmental Protection Agency or other governmental agencies. If said plans have been approved by said agencies, they shall be sufficient.

(7) A land surveyor registered in the State of Alabama certification which shall read as follows: ("I (land surveyor's name and State of Alabama registration number), hereby certify that this is a true and accurate map and shows to the best of my knowledge and according

to my survey all information required by Appendix D, General Code of the City of Birmingham, Alabama (Zoning Ordinance)." The certification shall be signed and notarized. The failure to include the required certificate shall void said application for permit.

(8) A statement by the applicant that he has obtained, or before commencing mining will obtain, from the surface and mineral owners, the legal right to mine by strip or surface mining methods, the land to be affected by each permittee and if not already obtained, a statement of intent, from the legal surface and mineral owner, to deliver said rights upon issuance of said permit.

(9) Evidence of permits under the current Alabama Surface Mining Act.

(10) Evidence of liability insurance in the amount required herein.

(11) Evidence of reclamation bond in the amount required herein.

(12) Evidence that the affected lands or premises are zoned M-4 Special Mining and Lumbering District in the form of a zoning certificate issued by the appropriate agency of the City of Birmingham.

g. The fee for a permit shall be in accordance with the Erosion Control Code and shall be submitted with the application. All sums received through payment of application fees shall be paid through the city engineer.

h. If a permittee succeeds another at any uncompleted operation by sale, assignment, lease, or otherwise, the city engineer may release the first permittee from all liability requirements of this regulation after the successor has filed a completed application, and the successor permittee assumes full liability for mining, conservation, and reclamation procedures established therein. Any agent, subsidiary or independent contractor engaged by the applicant or permittee subsequent to issuance of a permit shall be identified to the city engineer within 30 days of its engagement. The utilization of an agent, subsidiary or subcontractor shall not relieve the permittee of its responsibility hereunder except as hereinabove provided.

i. Each permit shall remain in effect for 12 months unless previously revoked or otherwise terminated as provided herein. Request for additional permits or extensions of permits shall be submitted in the same manner as the first application.

2. Operational regulations. The regulations set forth in this subsection or set forth elsewhere in this section, when referred to in this section, are the operational regulations of subsection 2, Sections 2 and 5 of this article.

a. No pit, spoil, tailings, waste or material incidental or accessory to surface mining shall be located closer to adjacent property lines, public road rights-of-way, lakes or rivers than 200 feet, and not closer than 500 feet to

a private residence or public building. This setback may be excepted provided the adjacent property has a legally existing strip or surface mine in operation thereon and further provided the owner(s) or the surface mineral rights has provided the operator or permittee with a consent for same in writing.

b. The operator or permittee shall divert water from the active pit areas in a manner designed to reduce siltation, erosion or other damage to streams and natural watercourses. As mining begins, all drainage ways which flow from the active pit areas must be protected.

c. All roads must be maintained in a manner approved by the city engineer to reduce dust.

d. The general operation of the dumping of pit, soil, tailings, waste or other materials, shall be in a manner that pollution of streams or lakes are controlled in conformance with regulations of the Environmental Protection Agency and the Alabama Department of Environmental Management.

e. The use of explosives for the purpose of blasting in connection with surface mining shall be done in accordance with the rules, regulations, and standards as set forth by the U.S. Bureau of Mines, the coal mining laws of the State of Alabama and the open pit and quarry safety rules of the State of Alabama. No blasting shall be performed after sunset or before sunrise, except as required, to comply with the above regulations.

f. The city engineer or any member of his staff, or a person designated by the City of Birmingham, may enter upon the affected lands at any reasonable time for the purpose of inspection to determine whether the provisions of this section are being complied with.

3. Insurance and bonds.

a. The application for permit shall be accompanied by a certificate of insurance certifying that the applicant has in force a public liability insurance policy issued by an insurance company authorized or licensed to do business in the State of Alabama covering all strip or surface mining operation of the applicant on lands or premises affected by such application and affording personal injury and property damage protection. The insurance shall cover the operator, all of its agents and employees, and shall not be less than $1,000,000.00 for personal injury and $1,000,000.00 for property damage. The city engineer may waive the provisions of this subsection upon the operator posting securities, in the amount of $1,000,000.00, of the same type and in the same manner as specified in this section.

b. Each application for a permit shall be accompanied by a bond in accordance with the Soil Erosion and Sediment Control Code per acre of affected land. State bonding requirements shall be credited toward the bond per acre required herein. No bond however, shall be for less than $5,000.00. Any bond herein required to be filed with the city engineer by the applicant shall be payable to the City of Birmingham for the surface mining and reclamation fund and conditioned that the operator shall faithfully perform all applicable requirements of the permit. Such bonds shall be signed by the operator, as principal, and by a good and sufficient corporate surety authorized or licensed to do business in the State of Alabama, as surety.

c. In lieu of the hereinabove required bond, the operator may elect to submit to the city engineer cash or negotiable bonds of the United States government, or the State of Alabama, or any municipality within the state. The amount of cash or market value of such securities shall be equal at least to the amount of the bond. The city engineer shall, upon receipt of any such cash or securities, immediately deposit the same with the finance director of the City of Birmingham, whose duty it shall be to receive and hold the same in the name of the City of Birmingham, in trust, for the purposes for which such a deposit is made. The finance director shall at all times be responsible for the custody and safekeeping of such deposits. The operator making the deposit of securities shall be entitled from time to time to demand and receive from the finance director, on the written order of release of the city engineer, the whole or any portion of any securities so deposited, upon depositing with the city engineer in lieu thereof cash or other negotiable securities of the classes herein specified having a market value at least equal to the sum of said securities; provided, however, that where securities, deposited as aforesaid, mature or are called, the finance director, at the request of the operator, shall convert such securities into such other negotiable securities of the classes herein specified as may be designated by the operator. The total coverage of the bond or amount of cash and securities shall be increased or reduced from time to time as land is added or withdrawn from the area covered by the permit as provided in this section.

d. Whenever an operator shall have completed all applicable requirements under the permit for part or all of the affected land, he shall notify the city engineer thereof. The bond may be released as specified in the Soil Erosion and Sediment Control Code.

e. A bond filed as above prescribed shall be conditioned so that it cannot be canceled by the surety with less than 90 days' written notice to the city engineer. If a bond is canceled after such notice, the operator shall on or before the effective date of such cancellation, substitute another bond or cash or securities as provided herein.

f. If the authorization or license to do business with the State of Alabama of any surety upon a bond filed with the city engineer pursuant to this ordinance shall be suspended or revoked, the operator, shall substitute for such surety a good and sufficient corporate surety licensed to do business in the State of Alabama, or another bond, or cash or securities in lieu thereof as provided hereinabove.

g. The failure of the operator to make substitution of surety bond, cash or securities, as provided above, shall result in the suspension of the permit of the operator to conduct any operation on the affected land in such permit in accordance with this section. If such permit is revoked, the operator shall not conduct further mining of the affected land or premises until substitution as provided hereinabove has been made.

h. All sums received through the forfeiture of bonds, the recovery of civil penalties, or otherwise for the reclamation of disturbed lands shall be placed in the general fund of the City of Birmingham and credited to an account designated as the surface mining and reclamation fund. This fund, which is hereby established, shall be available to the council of the City of Birmingham for expenditures only for the purpose of reclamation and revegetation of the land affected, subsequent to the enactment of this section. Defaulted bond funds shall be first applied to reclaiming the lands covered by the surface mining and reclamation fund of the City of Birmingham.

4. Reclamation. The permittee shall notify the city engineer within 30 days after termination of the operation, or prior to the termination at any time, and shall reclaim the affected lands in accordance with the following provisions:

a. The operator or permittee shall backfill the final pit by sloping the last spoil pile toward the high wall to a minimum depth of seven feet above the bottom mineral seam.

b. If any of the affected lands are toxic, deficient in plant nutrients, composed of sand, gravel, shale or stone to such extent as to prohibit plant growth, the applicant shall be required to cover such area with overburden material or fertilizers to promote revegetation. To establish the condition of soil or affected lands, the city engineer may require the permittee or operator to submit test results or documentation.

c. A permittee with legal title or right may construct dams of earth or other materials in cuts of all operations when lakes may be formed, and cause lakes to be formed, provided that the formation of said lakes will not interfere with underground or other mining operations or cause damage to adjoining property, or establish a stagnant lake or pond. If permittee elects to form lakes or ponds as part of his reclamation efforts, he shall

cover any toxic seam on the bottom of the open pit to a depth of two feet. The permittee is encouraged to make such lake or pond accessible to wildlife.

d. The permittee may elect to reclaim the affected land for range, agricultural or horticultural, homesite, recreational, industrial or commercial uses but no such election shall result in grading to a lesser extent than set forth in this subsection or establish a vested interest to a rezoning for such uses.

e. The permittee shall complete the contouring of all spoil piles within 12 months from the date of expiration of the surface mining operations.

f. The permittee shall perform planting and revegetation during the first planting season after regrading is complete; however, the outer slope shall be revegetated as soon as possible to provide quick growth cover and reduce erosion.

g. The operator or permittee shall cover the face of any toxic material left exposed in the bottom of the pit by surface mining with overburden material to a depth of two feet.

h. The operator or permittee shall eliminate all high walls except the final high wall of each pit and construct two access ways to the area above the high wall for each horizontal mile of said final high wall.

i. When final reclamation is assumed, if affected lands are being developed for forestry, the operator will, in addition to trees, establish a protective covering of some other type plant, such as grass, to assist in preventing excessive erosion pending the development of forest tree seedlings into trees.

5. Revocation of permits.

a. The city engineer may revoke any permit upon:

(1) Revocation of state permit.

(2) Expiration or cancellation of liability insurance.

(3) Expiration or cancellation of reclamation bond.

(4) Violation of any regulation herein provided; however, no permit shall be revoked until the city engineer shall, in writing, advise the permittee of the reason for such revocation, and allow such permittee or operator a reasonable period of time not exceeding 60 days to correct such violation or other defect. If after this period, the permittee or operator so notified remains in violation, the city engineer may cause to have issued and served upon the permittee or operator alleged to be committing such violation, a written notice which shall require the permittee or operator so complained against to answer the charges of such formal complaint at a hearing before

the city engineer at a time not less than ten days nor more than 30 days after the service of such notice. The charged permittee or operator may appear in person or by representative or counsel at such hearing. After such hearing the city engineer shall enter such order as deemed appropriate on the basis of the facts presented and forthwith mail a copy thereof to the charged permittee or operator or its attorney of record and to the council of the City of Birmingham. If such order of the city engineer is not complied with and is then not the subject of an appeal to the council of the City of Birmingham or appropriate court as herein provided, the city engineer may cause to have instituted a civil action in any court of a competent jurisdiction to forfeit the bond of the permittee or operator as to land affected by the permittee or operator's violation of this regulation, or for injunctive or other appropriate relief to prevent any further or continued violation of such final order.

b. Any permittee or operator may appeal any order of the city engineer to the council of the City of Birmingham and hence, to the Circuit Court of Jefferson County as prescribed by law. During the period of appeal by such permittee or operator, the city engineer shall not commence separate legal proceedings as herein authorized nor shall any permit be revoked until final adjudication of the appeal.

c. Nothing in this regulation shall prevent the city engineer from making efforts to obtain voluntary compliance through warning, conference or any other appropriate means. This regulation specifically directs and encourages the city engineer to exhaust conciliatory efforts before taking formal action against permittee or operator as provided herein.

Subsection 6. *Exceptions.* The provisions of this section shall not apply to any surface mining activities of the State of Alabama incidental to their activities in construction, repairing, and maintaining the public road system in the City of Birmingham. The provisions of this section shall also extend to any person, firm, or corporation contracting with the State of Alabama, to construct, repair and maintain public roads, provided such contracts contain standards for the reclamation of all affected surface mining areas in accordance with the surface mining laws of the State of Alabama.

[ARTICLE IV. OTHER CLASSIFICATIONS]

Section 1. A-1 Agricultural District.

Subsection 1. *Generally.* The regulations set forth in this section or set forth elsewhere in this ordinance, when referred to in this section, are the regulations in the A-1 Agricultural District.

Subsection. 2. *Use regulations.* A building or premises shall be used only for the following purposes:

1. Any use permitted in the E-1 Estate District.
2. Poultry farm.
3. Rabbit and other animal farms except as prohibited by [section 6-1-4 of this Code].
4. Apiary (bee hives)
5. Greenhouse and nursery.
6. Dog kennel.
7. General farming.
8. Truck farming.
9. Dairy.
10. Ranching.
11. Removal of chert (temporary use only) maximum six months.
12. Recreational camp, river camps, etc.
13. Family group day/night care facility, adult care facility, or child care center.
14. All surface support facilities shall be permitted for subsurface or underground mining; provided that these support facilities are located no closer than 200 feet to property lines, which constitute the boundaries of this use, right-of-way, roads or public easements. The underground mining operation must conform in every respect with the state and federal law governing such operation.
15. Accessory structures and uses including but not limited to the following:
    a. Chicken (fowl) houses or pens; provided that the minimum setback from adjoining property lines shall be 100 feet and from street right-of-way lines shall be 300 feet. No chicken (fowl) house shall be built closer than 300 feet to the nearest adjacent residence.
    b. Livestock barns; provided that the minimum setback from adjoining property lines shall be 100 feet and from street right-of-way lines shall be 300 feet. No livestock barns shall be built closer than 300 feet to the nearest adjacent residence.
    c. Accessory use child care center.
16. Any of the above uses may be combined with a single-family dwelling if separate structures and/or facilities are provided for each use.

(Ord. No. 94-66, § I, 4-5-1994)

Subsection 3. *Area and dimensional regulations.* Except as provided in articles VI and VIII, the area and dimensional regulations set forth in the following table shall be observed:

Maximum Height of Structure in Feet	*Minimum Yards*			*Minimum Lot Area Per Family*	*Minimum Lot Width*
	Front	*Rear*	*Each Side (two required)*		
35 feet	40 feet	40 feet	15 feet	1 acre (43,560 sq. ft.)	100 feet

Subsection 4. *Parking regulations.* Off-street parking spaces shall be provided in accordance with the requirements for specific uses set forth in article V.

Section 2. A-2 Agricultural District.

Subsection 1. *Generally.* The regulations set forth in this section or set forth elsewhere in this ordinance, when referred to in this section, are the regulations in the A-2 Agricultural District.

Subsection 2. *Use regulations.*

A. A building or premises shall be used only for the following purposes:

1. Any use permitted in the E-1 Estate District.
2. Accessory structures and uses including but not limited to the following:
   a. One horse shall be permitted on any parcel, tract or lot containing a minimum area of 43,560 square feet (one acre). For each additional one acre of land contained in such parcel, tract or lot, one additional horse shall be allowed. No horse shall be allowed on any parcel, tract or lot except in accordance with the following provisions:
      (1) All barns, stables, etc. shall be located at least 70 feet from side lot lines and 35 feet from rear property line.
      (2) All animals are to be housed, fed, watered and pastured at least 150 feet from any adjacent residential structure.
      (3) All animals shall be housed and fed in the rear of the owner's residence.
   b. Rabbits and other small animals (maximum of 20) shall be housed not less than 150 feet from any adjacent residential structure with a minimum of 35 feet from any property line.
   c. Poultry or fowl raising where poultry is used only for personal family consumption; the total flock shall not exceed 25 grown chickens, with not more than two roosters permitted. Poultry, or fowl houses shall not be closer than 15 feet to a property line or 100 feet to the nearest adjacent residential structure.

d. Accessory use child care center.

B. No building or premises shall be used for the storage or housing of the following:

1. Commercial poultry or fowl raising.

2. Cows.

3. Goats.

4. Swine.

C. Family group day/night care facility, adult care facility or child care center.
(Ord. No. 94-66, § I, 4-5-1994)

Subsection 3. *Area and dimensional regulations.* Except as provided in articles VI and VIII, the area and dimensional regulations set forth in the following table shall be observed:

Maximum Height of Structure in Feet	*Minimum Yards*			*Minimum Lot Area Per Family*	*Minimum Lot Width*
	Front	*Rear*	*Each Side (two required)*		
35 feet	35 feet	35 feet	15 feet	15,000 sq. ft.	75 feet

Subsection 4. *Parking regulations.* Off-street parking spaces shall be provided in accordance with the requirements for specific uses set forth in article V.

Section 3. MXD Mixed Use District.

Subsection 1. *Generally.* The regulations set forth in this section are the regulations for the MXD Mixed Use District. This district is established to provide for a compatible and complementary mixture of residential, office, commercial, cultural, institutional, governmental, and industrial uses. The purpose of this section is:

(1) To encourage flexible, creative and imaginative approaches to a range of urban development opportunities;

(2) To provide flexible and creative solutions to transportation and parking problems, public or private, motorized and pedestrian;

(3) To promote citizen interaction and a sense of community;

(4) To provide opportunities for affordable housing;

(5) To provide economic, convenient and efficient provision of sufficient public services;

(6) To ensure the provision of public spaces and activities;

(7) To preserve significant natural features of the land; and

(8) To develop in a manner complementary with other land in the vicinity.

Subsection 2. *Mixed use district definitions.* For the purposes of this section the following words, terms and phrases shall have the meaning ascribed to them as specified herein.

A. *Civic use areas.* Land areas intended to contain public/quasi-public buildings and uses (such as churches, schools, libraries, fire stations, and other similar uses) for the use, enjoyment and benefit of the public.

B. *Common open space.* The land area which is accessible and available to all occupants of specific dwellings or subdivisions for whose use the space is intended and reserved. This space is owned and managed by a property owners' association.

C. *Conceptual plan.* A plan consisting of several maps and narratives laying out existing conditions and proposing MXD subareas and a general land use group plan for an MXD or phase thereof.

D. *Development guidelines.* Regulations for development within an MXD which are established by the developer and approved by the director of the department of planning, engineering and permits that govern location, character, and extent of proposed site plans and design features.

E. *Development plans.* Detailed maps and narratives, based on approved conceptual plans and development guidelines, delineating a proposed development or phase of development and providing the basis for a preliminary subdivision.

F. *Golf courses, private.* Golf courses privately owned and not open to the general public.

G. *Golf courses, public.* Golf courses owned by a government agency or privately owned but open to the general public on a daily fee basis.

H. *Gross land area.* Total land area of a site or district inclusive of dedicated street rights-of-way, civic use area and open space area.

I. *Land use groups.* Uses permitted in varying proportions under the MXD subarea plans.

J. *Mixed Use District (MXD).* A mixed use district is a zone district wherein a compatible mixture of office, commercial, residential, industrial and civic uses and open space may be combined.

K. *MXD subareas.* Areas enumerated below which may be developed under an MXD zoning classification. The boundaries of these areas are required to be delineated on conceptual plans.

1. *Mixed Use District/Residential (MXD/R).* A mixed use development subarea comprehensively planned for residential community development.

2. *Mixed Use District/Employment (MXD/E).* A mixed use development subarea comprehensively planned for employment based development.

3. *Mixed Use District/Village Center (MXD/VC).* A mixed use development subarea comprehensively planned to concentrate civic, cultural, commercial, residential and employment activities into a cohesive center.

L. *Net acres.* The total land area of a site less proposed public rights-of-way, easements, required civic use area and required open space.

M. *Performance bonus.* A method for allowing additional land use options and/or densities when the development plan's net acres establish additional open space beyond that required.

N. *Property owners' association.* A private corporation or other legal entity established by the developer to provide for the ownership, maintenance, and management of the common open space areas, and other community area improvements of a development, as well as enforcement of its covenants.

O. *Public open space.* Land dedicated for leisure and/or recreation, including but not limited to: pedestrian paths, parks, athletic fields and courts assigned to a public agency which is responsible for its operation and maintenance.

P. *Required open space.* Percentage of a proposed development that must be restricted to common and/or public open space as specified in the area, dimensional, and design requirements.

Q. *Steering committee.* A committee which may include private sector and governmental representatives which may be formed to provide oversight to a development.

R. *Required civic use space.* Percentage of a proposed development that must be dedicated to publicly owned civic use activities as specified in the area, dimensional and design requirements.

Subsection 3. *Submittal requirements for MXD zoning and conceptual plan approval.*

A. *Process for rezoning to MXD (owner/developer initiated).*

1. The minimum gross land area required for an application for rezoning to MXD is 40 acres. Smaller areas may be considered for rezoning to MXD when contiguous to a larger tract of land that is already zoned MXD and is under the same ownership as the larger tract and using the same development guidelines.

2. The applicant shall submit six copies of a "draft" conceptual plan, with payment of the rezoning fee. The department of planning, engineering and permits shall schedule a pre-application conference within 15 days to review the draft proposal. This informal conference may include the

applicant, department of planning, engineering and permits, traffic engineering department, and other private and public entities which may have interests in the vicinity of the project.

3. The applicant should incorporate staff recommended changes to the "draft" conceptual plan. Upon the applicant submitting six copies of a completed conceptual plan, the department of planning, engineering and permits shall process a rezoning case and request the zoning advisory committee to hold a public hearing at their next meeting.

4. After the zoning advisory committee public hearing, the department of planning, engineering and permits will set a public hearing for rezoning with the city council.

B. *Process for conceptual plan approval in an existing MXD zone (where zoning has been established by the city in accordance with a comprehensive plan).*

1. Six copies of a "draft" conceptual plan shall be submitted to the urban planning department which will convene a pre-application conference within 15 days. This conference will be lead by the chairman of the steering committee, should one exist, for the area in which the MXD zone is being implemented, or by the director of the department of planning, engineering and permits where such a steering committee is not in place.

2. After the pre-application conference, the applicant should incorporate staff recommended changes to the "draft" conceptual plan. Upon applicant submitting six copies of a completed conceptual plan, the department of planning, engineering and permits shall process public hearings before the zoning advisory committee and city council.

C. *Requirements for a conceptual plan submittal.* The conceptual plan submittal shall consist of maps and written material as detailed below. Maps should include title block and include date, north arrow, legend, and scale. Scale should be compatible between comparable maps and large enough to fully understand the proposed development concept.

1. *Existing environmental features map.*

a. Geologic features.

b. Soils map.

c. Topographic features (with contour intervals not greater than five feet).

d. Flood maps (showing Federal Emergency Management Act floodways and 100-year floodplains).

e. Wetlands identification where U.S. Army Corps of Engineers approvals are required.

f. Large tree stands, water features, significant scenic areas or identified endangered species habitat.

2. *Existing manmade features map.*

a. Location of existing land uses on site and within 500 feet of the site boundaries.

b. Location of existing roads and rights-of-way and the volume/capacity ratios of existing contiguous freeways, arterial, and major collector roadways.

c. Location and size of existing accessible water lines and sanitary sewer lines, their rights-of-way or easements and their capacities and current demand.

d. Location of other utilities and their rights-of-way or easements such as natural gas, electrical, telephone, and cable television.

e. Historical sites listed or eligible for National Register listing.

3. *Existing legal features map.*

a. Existing zoning on site and within 500 feet of site boundaries.

b. Property lines and dimensions of site.

c. Municipal and county jurisdictional boundaries, where applicable.

4. *Conceptual plan map.*

a. Boundaries of the proposed MXD zone and proposed boundaries of MXD subareas (for example, residential, employment, village center).

b. Proposed on-site arterial and collector street system showing approximate locations and access to off-site roadways.

c. General location and size of projected water lines and sanitary sewer lines, their rights-of-way or easements and their capacities and point of connection.

d. Generalized location of proposed land use groups including required open space and required civic use areas.

5. *Conceptual plan written submittal.*

a. A narrative discussing how the proposed project addresses the eight purposes of an MXD zone outlined in subsection 1 of this section (pages 4—5).

b. Projected built-out resident population and employment population.

c. Quantitative geographic data in acres:

(1) Gross land area;

(2) Net land area;

(3) Approximate acreage of areas dedicated to various land use groups within each proposed MXD subarea including approximate percentages of each;

(4) Approximate acreage of open space area, (including acres for public or private golf courses, public open space, common open space), including approximate percentages of each;

(5) Approximate acreage of civic use areas, including approximate percentages.

d. Estimates of demands and provisions for supplying adequate drinking water and sanitary sewage disposal to meet the needs of a projected built-out population per phase.

e. A traffic impact analysis indicating that the traffic generated when each phase of the proposed project is built out can be accommodated without causing excessive congestion or safety hazards on existing or proposed roads.

D. *Minor amendments to conceptual plans.* Any minor or nonsubstantive change in the approved conceptual plan may be made after approval of such change by the director of the department of planning, engineering and permits. Any proposed change in an approved conceptual plan shall be clearly portrayed on all copies of the approved plan and submitted to the director of the department of planning, engineering and permits for review and determination. At his or her discretion, the proposed change may be referred to a steering committee for review or to the zoning advisory committee and city council for a public hearing and action. No amendment shall be made without public hearings which would cause any of the following to occur:

1. Proposed changes in MXD subarea boundaries which increase the acreage of more intense subareas by more than five percent of the council approved conceptual plan.

2. Proposed land use group changes which could increase the overall densities or intensity of uses by more than ten percent of the council approved conceptual plan.

3. Proposed land use group changes which could alter the MXD's relationships to adjacent developed property or relationships to planned uses.

4. Any reduction in the total acreage of required open space or required civic use space or any reduction of ten percent or more of the total acreage of open space or civic use areas in the city council approved conceptual plan.

5. Major realignment of arterial or collector streets.

Subsection 4. *Development requirements.*

A. *Development guidelines.* The applicant shall submit six draft copies of development guidelines to the department of planning, engineering and permits for

review. Within 30 days after receiving said documents, the director of the department of planning, engineering and permits shall call a meeting with the applicant and a steering committee, where applicable, to discuss staff comments. If agreement cannot be reached on the sufficiency of this submittal, appeals may be filed with the zoning board of adjustment. Proposed development guidelines shall include minimum standards for site and project development and amendment procedures, subject to the approval of the director of the department of planning, engineering and permits and a steering committee, where applicable. These guidelines shall include but are not limited to, the following:

1. Area, dimensional, and design requirements of this ordinance as baseline standards.
2. Building materials and colors and architectural features.
3. Buffers and screening requirements between different land use groups and between different land use groups and existing residentially zoned districts.
4. Landscaping for off-street parking lots, solid waste and recycling containers, utility equipment, and for the development as a whole.
5. Pedestrian amenities and pedestrian circulation plans and requirements, such as for bikelanes, equestrian trails, sidewalks or pedestrian paths as appropriate.
6. Building and parking lot setback lines.
7. Methods to limit the number of parking lot access points to public streets and to link parking areas with adjacent properties.
8. Fences and walls including size, material and placement.
9. Public right-of-way amenity plans, including street trees, street furniture, lighting and landscaping.
10. Overhead utility location and height.
11. Site clearing and preservation procedures for trees and other natural vegetation.
12. Signs.
13. Exterior lighting.
14. Zero lot line housing layout and design features.
15. Design guidelines for MXD/VC subareas, in addition to the above, shall address the following design features:
    a. Vehicular and pedestrian circulation systems that promote a comfortable and pleasant walkway environment, including materials, landscaping, lighting, street furniture, and permitted parking lot layouts and location;

b. Village center open space plan, showing how required village square and other open space amenities relate to other activities to promote a village atmosphere;

c. Building placement, facade design, entrance and window location and placement, provisions for any visible utilities or accessory structures, heights, materials, colors, signage and lighting.

16. Right-of-way improvement standards where not in compliance with city subdivision regulations and where modification of these regulations are expected to be requested of the subdivision committee.

B. *Development plans.* Development plans in an approved MXD subarea must be: (1) submitted to the department of planning, engineering and permits and (2) conform to the approved conceptual plan and development guidelines and (3) consist of mapped or plotted information and written information. The department of planning, engineering and permits and other city staff as well as a project steering committee, where applicable, shall review these plans and respond to the applicant within 15 days with comments. The applicant, after consideration of staff comments, will make appropriate revisions, if necessary, and submit the development plans for the approval of the director of the department of planning, engineering and permits. Appeals of any provisions on the development plan approval may be filed with the zoning board of adjustment.

1. *Development plan maps.* Detailed development plans shall be prepared at a scale sufficient for detailed review and delineate: (1) MXD subareas for the development; (2) land use groups for all parcels; (3) required open space and civic use area; (4) additional open space which is proposed, if applicable; (5) phasing of development. In addition, data should be submitted delineating conformance with the development guidelines as well as the following:

a. Topographic contours not greater than two-foot intervals.

b. Approximate height of all buildings.

c. Use(s) of all buildings.

d. Approximate location of all utilities.

e. Approximate total site acreage.

f. Approximate total site impervious (manmade) surfaces.

g. Lot lines within 100 feet of development site boundaries.

h. Location of all structures within 100 feet of site, their use and heights.

i. Location of all private roads, drives, and parking lots within 100 feet.

j. Buffer and screening provisions.

k. Parking lot design specifying layout and landscaping in detail.

l. All walls and fences.

m. Lighting plan.

2. *Development plan written submittal.*

a. Legal description of project property.

b. Quantitative geographic data in acres:

(1) Gross land area;

(2) Net land area;

(3) Areas dedicated to various land use groups within each proposed MXD subarea including percentages of each;

(4) Open space area, (including acres for public or private golf courses, public open space, common open space, and required open space including percentages of each);

(5) Civic use areas, including percentages.

c. Documentation from developer committing provision of adequate drinking water and sanitary sewage disposal to meet the need of the projected built-out population.

d. A traffic impact analysis indicating how each phase of the proposed development will relate to streets and roadways and that the traffic generated when built out can be accommodated without causing excessive congestion, hazards, or objectionable volumes of traffic on existing or proposed roads.

C. *Preliminary subdivisions and draft covenants.* Preliminary subdivisions in an approved MXD subarea must be submitted to the department of planning, engineering and permits, conform to the approved conceptual plan, development guidelines and development plans and consist of mapped or plotted information and written information, including draft covenants, where applicable, governing relationships between the developer and property owners. The department of planning, engineering and permits and other city staff as well as a project steering committee, where applicable, shall review these plans and respond to the applicant within 15 days with comments. The applicant, after consideration of staff comments, will make appropriate revisions, if necessary, and submit the following:

1. *Preliminary subdivision plats.* Preliminary subdivision plats shall be submitted as provided for in the city's subdivision regulations for subdivision committee review and action. (See subdivision regulations, available from the department of planning, engineering and permits.)

2. *Covenants.* Covenants shall be between applicant and deed holders of all property in the area covered by this application. Covenants shall include articles which include, but are not limited to the following:
    a. Articles of incorporation and bylaws for a property owners' association.
    b. Provision for the establishing of a procedure for turning over management of open space and other amenities from applicant to the property owners' association.
    c. Provision for an account to fund maintenance and operational expenses of common or open public space.

D. *Covenants and final subdivision plat.* After receiving approval of the development guidelines, the development plan and preliminary subdivision plat, the applicant shall submit final covenants and file an application with subdivision committee for approval of a final plat. Upon approval of the final covenants by the director of the department of planning, engineering and permits, the final plat will be submitted as provided for in the city's subdivision regulations for subdivision committee review and action. After the final plat has been recorded, building permits may be applied for at the department of buildings and inspection. A condition of building permit issuance is review and approval by the director of the department of planning, engineering and permits for compliance with the approved plans. Appeals of the decision on compliance by the director of the department of planning, engineering and permits are to the zoning board of adjustment.

Subsection 5. *Permitted uses, use groups, and use percentages.*

A. *Permitted uses.* Any use not specifically listed in these land use groups, including accessory structures and uses, but excluding, except as herein provided, accessory use child care centers, may be allowed in groups with similar uses as determined by the director of the department of planning, engineering and permits. Uses specifically listed for the first time in a less restrictive land use group cannot be interpreted to be allowed in a more restrictive land use group.

B. *Use groups.*
    1. *Open space uses.* Except as noted these uses are allowed in all subareas:
        a. Parks.
        b. Athletic fields and courts.
        c. Pedestrian paths (See subsection 6.A.3).
        d. Golf courses, boat clubs, marinas, and swimming pools.
        e. Natural undisturbed areas.
        f. Public recreation centers.

g. Village greens and town squares.

h. Natatorium, gymnasium, velodrome.

i. Stadiums and athletic coliseums (permitted in MXD/E subareas only).

j. Other like uses.

2. *Civic uses.* Except as noted these uses are allowed in all subareas:

a. Library.

b. School, grades K—9.

c. Municipal services and buildings.

d. Police and fire stations.

e. Post offices.

f. Child care centers or adult care facilities.

g. Nonprofit civic or cultural societies (no office buildings).

h. Churches, synagogues, and other places of worship.

i. High schools, grades 9—12, colleges, and universities (not allowed in MXD/R).

j. Museums and art galleries (not allowed in MXD/R).

k. Music center, symphony halls, and amphitheater (not allowed in MXD/R).

l. Performing arts theater (not allowed in MXD/R).

m. Hospitals (not allowed in MXD/R).

n. Public conference center (not allowed in MXD/R).

o. Other like uses.

3. *Residential use groups.*

Residential Use Group 1	Single-family detached dwelling units not to exceed seven dwelling units per net acre
Residential Use Group 2	All uses allowed in Residential Use Group 1 and single-family attached and semi-attached dwelling units, single-family detached zero lot line dwellings and multi-family units not to exceed 12 dwelling units per net acre.
Residential Use Group 3	All uses allowed in Residential Use Group 2 and multifamily dwelling units not to exceed 29 dwelling units per net acre and Communal Living Facilities with Zoning Board of Adjustment approval.

4. *Commercial use groups.*

Commercial Use Group 1. Neighborhood business uses.

a. All uses allowed in Residential Use Group 2.
b. Residential uses in mixed use building.
c. Artist studio.
d. Greenhouse.
e. Restaurants without drive through or drive-in capabilities.
f. Offices not exceeding 5,000 square feet per building.
g. Neighborhood retail, sales and services not exceeding 5,000 square feet per building.
h. Auto service station limited to one facility per intersection.
i. Private club or lodge.
j. Commercial health club, spa or recreation facility.
k. Tourist home.
l. Other like uses.

Commercial Use Group 2. General commercial uses.

a. All uses allowed in Residential Use Group 3.
b. All uses allowed in Neighborhood Business, Commercial Use Group 1.
c. General office.
d. Retail sales and services.
e. Restaurants.
f. Hotels or motels.
g. Conference centers.
h. Nonindustrial research and development.
i. Parking garages.
j. Cinemas.
k. Taverns.
l. Funeral homes.
m. Other like uses.

Commercial Use Group 3. Commercial/limited industrial use.

a. All uses allowed in Commercial Use Group 2, except residential uses.
b. Building contractors.
c. Light industrial use; provided uses do not create any danger to health or safety in surrounding areas and which do not create

any objectionable noise, vibration, smoke, dust, odor, heat or glare, or release any pollutant which would require a permit from a state or federal agency.

d. Wholesale sales.

e. Shipping/receiving, warehousing and self storage.

f. Auto repair.

g. Auto sales, new or used.

h. Animal hospitals and veterinarians.

i. Broadcasting stations.

j. Other like uses.

5. *Special exception uses (with zoning board of adjustment approval).*

a. Public utilities (with adequate screening provision).

b. Outdoor storage (in MXD/E only, finished or packaged goods only and with adequate screening provisions).

c. Horse stables, barns and corrals (only when contiguous to equestrian trails, on ten-acre sites or larger and adequately buffered from neighboring uses).

d. Cemeteries.

e. Family day/night care facility, or accessory use child center.

f. Appeals for more intensive uses than are allowed under proposed land use groups.

6. *Wireless communications facilities.* In accordance with article VI, section 18.

C. *Use percentages.* The following sets forth the proportions of permitted uses for arranging acreages of MXD subareas. Unless otherwise noted, all MXD zones have provisions for required open space and civic use areas. (See area, dimensional and design regulations).

1. MXD/R residential uses with complementing commercial uses.

a. Sites less than 20 net acres.

i. Allowed uses and proportions:

Residential Use Group 1 - maximum 100 percent.

Residential Use Group 2 - maximum 10 percent.

ii. Performance bonus. Allowed uses and proportions:

Residential Use Group 1 - maximum 100 percent.

Residential Use Group 2 - an additional 1.5 percent for every one percent of additional open space up to a maximum of 25 percent.

b. Sites between 20 to 40 net acres.

i. Allowed uses and proportions:

Residential Use Group 1 - maximum 90 percent.

Residential Use Group 2 - maximum 15 percent.

Commercial Group 1 - maximum 5 percent.

ii. Performance bonus: Allowed uses and proportions:

Residential Use Group 1 - maximum 90 percent.

Residential Use Group 2 - an additional 1.5 percent for every one percent of additional open space up to a maximum of 30 percent.

Commercial Use Group 1 - maximum 5 percent.

c. Sites over 40 net acres.

i. Allowed uses and proportions:

Residential Use Group 1 - maximum 80 percent.

Residential Use Group 2 - maximum 25 percent.

Residential Use Group 3 - maximum five percent.

Commercial Use Group 1 - maximum five percent.

Commercial Use Group 2 - maximum two percent.

ii. Performance bonus. Allowed uses and proportions:

Residential Use Group 1 - maximum 80 percent.

Residential Use Group 2 - an additional one percent for every one percent of additional open space up to a maximum of 35 percent.

Residential Use Group 3 - an additional one-half percent for every one percent up to a maximum of ten percent.

Commercial Use Group 1 - maximum five percent.

Commercial Use Group 2 - maximum three percent.

2. MXD/E with complementary commercial and residential uses. Applications may be made for sites of over ten net acres.

a. Allowed uses and proportions:

Commercial Use Group 2 - maximum 90 percent.

Commercial Use Group 3 - maximum 40 percent.

b. Performance bonus. Allowed uses and proportions:

Commercial Use Group 2 - maximum 90 percent.

Commercial Use Group 3 - two percent for every one percent of additional open space up to a maximum of 60 percent.

3. MXD/VC village center uses with complementing residential and commercial uses arranged and located in a manner to provide a defined and

pedestrian oriented business and service center for a larger MXD area. Application may be made for the MXD/VC subarea designation, where part of a larger MXD zoned property, for sites between ten and 80 net acres. Allowed uses and proportions:

Residential Use Group 1 - maximum 30 percent.

Residential Use Group 2 - maximum 30 percent.

Residential Use Group 3 - maximum 25 percent.

Commercial Use Group 1 - combined maximum 50 percent.

Commercial Use Group 2 - combined maximum 50 percent.

(Ord. No. 94-66, § I, 4-5-1994; Ord. No. 97-77, § 1(title 2, art. IV, § 3, subsec. 5), 6-24-1997)

Subsection 6. *Area, dimensional and design requirements.*

A. MXD overall minimum standards.

1. *Required open space.* The minimum requirement for open space in the conceptual plan shall be 15 percent of the gross land area. Each development plan submittal shall include a minimum of five percent of the gross area as open space or the amount of open space approved in the corresponding conceptual plan, whichever is greater. Not more than 75 percent of the required open space may be satisfied by the provision of public golf courses and not more than 50 percent of the required open space may be satisfied by the provision of private golf courses. All other listed public or common open space uses may count 100 percent toward satisfying this requirement.

2. *Required civic uses.* A minimum percentage depending on subarea designation of the proposed development uses shall be dedicated to listed publicly owned civic uses. This minimum requirement shall be three percent for MXD/R and MXD/E and five percent for MXD/VC.

3. *Pedestrian paths.* A pedestrian pathway system generally continuous throughout the district, is required and shall consist of dedicated public rights-of-way or easements, which may include bike lanes or equestrian trails. The path system specifications must be included as a part of the development guidelines submittal.

B. Within MXD/R and MXD/E subareas the following requirements shall apply:

1. *Height.*

a. Residential Use Groups 1 and 2 shall have a maximum height of 35 feet.

b. Residential Use Group 3 shall have a maximum height of 75 feet.

c. Commercial Use Group 1 shall have a maximum height of 35 feet in MXD/R and 75 feet in MXD/E.

d. Commercial Use Group 2 shall have a maximum height of 35 feet in MXD/R and 75 feet in MXD/E.

e. Commercial Use Group 3 shall have a maximum height of 75 feet.

2. *Separation of residential buildings.* Unless provided for in approved development guidelines, the minimum separation for residential buildings (except accessory structures) shall be:

40 feet front of one building to back of another building.

25 feet front of one building to side of another building.

35 feet front of one building to front of another building.

30 feet back of one building to back of another building.

20 feet side of one building to back of another building.

15 feet side of one building to side of another building.

For all buildings exceeding 35 feet in height, the minimum separation between buildings shall increase one additional foot for each additional foot the building exceeds 35 feet in height.

3. *Impervious surfaces.* The maximum manmade impervious surfaces (roof top, paved parking, and like surfaces) for parcels of property shall depend on its use as specified below. Interpretation of a use as it applies to impervious surface ratios shall be made by the director of the department of planning, engineering and permits with appeals of this decision to zoning board of adjustment.

Retail sales or services and light industrial or warehousing, maximum 80 percent.

Office or research, maximum 65 percent.

All other uses, maximum 50 percent. (For attached single-family dwellings this ratio shall apply to the composite site, not each individual parcel.)

C. Within MXD/VC subarea the following requirements apply:

1. Height - the maximum height for all structures is 45 feet.

2. Open space - a minimum of one village green or town square between one and five acres shall be provided.

3. All utilities shall be underground.

4. Off-street parking shall be prohibited at street intersections.

5. Off-street parking shall be in the rear or side of buildings unless special Development Guidelines are established.

Subsection 7. *Parking requirements.*

A. *Off-street parking requirements.* Off-street parking spaces shall be provided in accordance with the requirements for specific uses set forth in article V.

B. *On-street parking.* Generally continuous parallel or angle parking shall be provided along streets where commercial uses are predominant. Except where narrower streets are provided through Subdivision Variance, parallel parking is permitted along all other neighborhood streets.

[ARTICLE V. OFF-STREET PARKING AND LOADING REQUIREMENTS]

Section 1. Parking requirements—Specified uses.

The following are the off-street parking standards for the City of Birmingham, except as modified in the B-3 Community Business District and the B-4 Central Business District.

1. *Appliance store, hardware store, clothing or shoe repair or service shop.* Two parking spaces plus one additional parking space for each 300 square feet of floor area over 1,000.
2. *Bowling alley.* Four parking spaces for each alley.
3. *Business, professional or public office building, studio, bank, medical or dental clinic.* Three parking spaces plus one additional parking space for each 400 square feet of floor area over 1,000.
4. *Church or place of worship.* One parking space for each eight seats in the main auditorium.
5. *College or high schools.* One parking space for each eight seats in the main auditorium or five spaces for each classroom, whichever is greater.
6. *Commercial outdoor, recreational and amusement facilities.* The number of parking spaces shall be determined by the zoning board of adjustment, but no fee is to be required or provided as in article VIII.
7. *Community center, library, museum or art gallery.* Ten parking spaces plus one additional space for each 400 square feet of floor area in excess of 2,000 square feet.
8. *Dance hall, assembly or exhibition hall without fixed seats.* One parking space for each 100 square feet of floor area used therefor.
9. *Dwelling.*
    a. *Single-family detached.* One parking space per dwelling unit.
    b. *Two-family dwelling.* One parking space per dwelling unit.

c. *Multifamily dwellings.* 1½ parking spaces for each unit with one bedroom, two spaces for each unit with two bedrooms or more.

d. *Townhouse dwellings.* When all parking is within each unit's recorded lot, one space per dwelling; and, when parking is within a common parking lot, 1½ parking spaces per dwelling unit.

10. *Fraternity or sorority associated with a college.* One parking space for each resident member.

11. *Furniture, machinery or equipment sales or services.* Two spaces plus one parking space for every 1,000 square feet of floor area.

12. *Golf club.* One parking space for each five members.

13. *Hospital.* One parking space for each four beds.

14. *Hotel.* One parking space for each three sleeping rooms, suites or dwelling units, plus one space for each 4,000 square feet of commercial or office floor area contained therein.

15. *Manufacturing or industrial establishment, public utility service building, research or testing laboratory, creamery, bottling plant, wholesale warehouse, urban farm, indoor urban farm or similar establishment.* One parking space for every three employees on the maximum working shift, plus space to accommodate all trucks and other vehicles used in connection therewith.

16. *Mortuary or funeral home.* One parking space for each 50 square feet of floor space in slumber rooms, parlors or individual funeral service rooms.

17. *Printing or plumbing shop or similar service establishment.* One parking space for each three persons employed therein; plus space to accommodate all trucks and other vehicles used in connection therewith.

18. *Private club or lodge.* One parking space for each 100 square feet of nonstorage and nonservice floor area.

19. *Restaurant, nightclub, cafe or similar recreation or amusement establishment.* One parking space for each 100 square feet of floor area.

20. *Retail store or personal service establishment, except as otherwise specified herein.* One parking space for each 250 square feet of floor area.

21. *Roominghouse or boardinghouse.* One parking space for each two sleeping rooms.

22. *Sanitarium, convalescent home, home for the aged or similar institution.* One parking space for each six beds.

23. *School, middle or elementary.* One parking space for each ten seats in the auditorium or main assembly room, or one space for each classroom, whichever is greater.

24. *Sports arena, stadium or gymnasium, except school.* One parking space for each five sets or seating spaces.
25. *Theater or auditorium, except school.* One parking space for each five seats or seating spaces.
26. *Tourist home, motel or motor court.* One parking space for each sleeping room or suite.
27. *Adult care center.* One parking space for each employee and one space for every six adult patrons.
28. *Child care center.* One parking space for each employee and one space for every six children of Department of Human Resources, Jefferson County licensed capacity.
29. *Family group day/night care.* Three parking spaces, inclusive of required spaces for the dwelling.

(Ord. No. 94-66, § I, 4-5-1994; Ord. No. 13-71, 5-7-2013)

Section 2. Rules in applying standards.

In applying the standards of section 1 of this article, the following rules shall apply:

1. [The term] "floor area" shall mean the gross floor area of the specified use.
2. Where fractional spaces result, the parking spaces required shall be construed to be the next highest whole number.
3. The parking space requirement for a use not specifically mentioned herein shall be the same as required for a use of similar nature.
4. In the case of mixed or joint uses, the parking spaces required shall equal the sum of the requirements of the various uses computed separately.
5. These standards shall apply fully to uses and buildings established after the effective date of this ordinance.
6. These standards shall apply fully to all additions, expansions, enlargements or reconstructions on the basis of the addition, expansion, enlargement or reconstruction only.
7. Whenever any use or building established prior to the effective date of this ordinance is enlarged or expanded to the extent of twice the size of said use or building existing at the time of enactment of this ordinance, then these standards shall apply fully.

Section 3. Location of required spaces.

All parking spaces required herein shall be located on the same lot with the building or use served. However, when an increase in the number of spaces is required by a change of use or enlargement of the building, or where such spaces are provided

collectively or used jointly by two or more buildings or establishments, the required spaces may be located and maintained not to exceed 300 feet from an institutional building served, and not to exceed 500 feet from any other nonresidential building served.

1. Up to 50 percent of the parking spaces required for (a) theaters, public auditoriums, bowling alleys, dance halls, nightclubs or cafes, and up to 100 percent of the parking space required for a church auditorium may be provided and jointly used by (b) banks, offices, retail stores, repair shops, service establishments and similar uses not normally open, used or operated during the same hours as those listed in (a); provided, however, that written agreement hereto is properly executed and filed as specified below.
2. In any case where the required parking spaces are not located on the same lot with the building or use served, or where such spaces are collectively or jointly provided and used, a written agreement thereby assuring their retention for such purposes shall be properly drawn and executed by the parties concerned, approved as to form by the city attorney and shall be filed with the application for a building permit, recorded at the applicant's expense in the office of the judge of probate, and shall be in full force and effect until released by resolution of the zoning board of adjustment.
3. No off-street parking shall be permitted in the required front yard of any E or R districts except upon a driveway providing access to a garage, carport, or parking area for a dwelling.
4. All parking spaces required herein, except for urban farms and farmers markets, including adequate driveways and maneuvering areas shall be improved with a suitable hard surface permanent type of pavement.
5. All parking spaces required herein for urban farms including adequate driveways and maneuvering areas shall be improved with a suitable permanent porous surface or suitable hard surface.

(Ord. No. 13-71, 5-7-2013)

Section 4. Loading requirements—Specified uses.

The following are the off-street loading regulations of the City of Birmingham:

1. A building whose dominant use in handling and selling goods at retail shall provide spaces in relation to the total floor area used for retail purposes as follows:

Area	*Spaces Required*
5,000—10,000 square feet	1
10,000—20,000 square feet	2
20,000—30,000 square feet	3

Area	*Spaces Required*
Over 30,000 square feet	4

2. Manufacturing, repair, wholesale or warehouse uses shall provide spaces in relation to the GFA as follows:

Area	*Spaces Required*
5,000—40,000 square feet	1
40,000—100,000 square feet	2
Each 75,000 square feet over 100,000 square feet	1 additional

3. Other buildings not listed above shall provide spaces in relation to the GFA as follows:

Area	*Spaces Required*
5,000—50,000 square feet	1
50,000—100,000 square feet	2
100,000-200,000 square feet	3
Over 200,000 square feet	4

4. Urban farm uses shall provide loading spaces in relation to the production area as follows:

Area	*Spaces Required*
50,000—200,000 square feet	1
Over 200,000 square feet	2

(Ord. No. 13-71, 5-7-2013)

Section 5. Rules in applying standards.

In applying the requirements of section 4 of this article, the following rules shall apply:

1. These requirements shall apply fully to all buildings erected after the effective date of this ordinance and all enlargements, expansions, or reconstructions thereof.

2. No building or part thereof in the O&I, B-1 and B-2 districts, heretofore erected, shall hereafter be enlarged or extended to the extent of 50 percent or more in floor area or ground area used unless off-street loading space is provided in accordance with the provisions of this article.

3. No building or part thereof in the B-3, B-4, B-6, PRD, M-1, M-1A, M-2, M-3 and M-4 districts heretofore erected shall hereafter be enlarged or extended to provide an additional floor area of 25,000 square feet or more, or to provide a total gross floor area of 40,000 square feet or more, unless off-street loading space is provided in accordance with the provisions of this article.

Section 6. Commercial parking lots and off-street parking areas.

Before any parking lot or area can be constructed, established or set aside, a permit must be obtained from the department of planning, engineering and permits, which permit shall only be issued provided the following requirements shall have been complied with by the applicant:

1. Off-street parking spaces, lots and areas where vehicles will be parked, displayed, sold, serviced, stored, loaded or unloaded, containing more than 4,000 square feet in area shall have not less than five percent of the gross land area, exclusive of area occupied by structures, developed as landscaped areas.
2. A detailed plan, sketch, or layout or layout of any area mentioned in subsection 1 containing more than 4,000 square feet must first be submitted to and approved by the department of planning, engineering and permits. Such plan, sketch, or layout shall show the location and dimensions of all entrances and exits and shall also show the manner in which the landscaped area is to be developed, including the approximate number, size and type of trees, shrubs or other plants to be planted and maintained in such areas. Off-street parking areas and lots shall also show the manner in which vehicles shall be parked.
3. Areas of less than 4,000 square feet that are enlarged at a later time to more than 4,000 square feet shall comply with the requirements of this section for both the old and new areas.
4. Areas that exceed 10,000 square feet shall contain landscaped islands within the interior of the area, which shall not be less than one-half the required landscaped area.
5. The required planting shall be completed prior to final inspection by the department of buildings and inspections.
6. No driveway or building permit shall be issued until after compliance with subsection 2 of this section.

[ARTICLE VI. SUPPLEMENTARY REGULATIONS AND MODIFICATIONS]

Section 1. Purpose.

The regulations set forth in the article supplement or modify the district regulations appearing elsewhere in this ordinance. These regulations shall not be construed to modify the regulations set forth in article VI, section 13.

Section 2. Use modifications.

[Subsection] 1. Temporary structures for use incidental to construction work may be permitted in any district during the period that construction work is in progress, but such temporary buildings shall be removed upon completion or abandonment of the construction work.

[Subsection] 2. Utility structures, including, but not limited to poles, wires, cross arms, transformers attached to poles, guy wires, insulators, conduits and other facilities necessary for the transmission or distribution of electric power or to provide telephone or telegraph service and pipe lines, vents, valves, hydrants, regulator, meters and other facilities necessary for the transmission or distribution of gas, oil, water or other fluids, may be constructed, erected, repaired, maintained or replaced within any district within the City of Birmingham. This is not to be construed to include the erection or construction of buildings or electric substations.

[Subsection] 3. Railroad facilities, including main line tracts, switching spurs, control signals, poles, and wires or similar facilities (but not yards or service facilities) needed for operating railroad trains, may be constructed, repaired, maintained or replaced in any E, R or B-1 district, and these as well as terminal facilities, including passenger or freight stations, team tracts and storage yards are permitted in the B-2, B-3 and B-4 districts.

[Subsection] 4. Use of lots and structures in all residential districts for garage sales or rummage sales as herein defined, subject to the limitations and conditions set out herein:

a. A garage sale is the sale of surplus or unwanted personal property accumulated in the maintenance or operation of a home or dwelling;

b. A rummage sale is the sale of personal property belonging to a religious, charitable, civic or service organization;

c. No such sale shall be conducted without a permit first being issued by the director of the department of planning, engineering and permits, an application for which shall be made in writing to said director accompanied by a fee of $5.00 and by a list of all owners of property participating in the sale;

d. No person or organization shall conduct such a sale more than once during any six consecutive months;

e. No garage or rummage sale shall continue for more than three consecutive days;

f. All such sales shall be conducted by the permittee who shall be one of the owners of property offered for sale;

g. All garage sales shall be conducted at the residence of the permittee; all rummage sales shall be conducted at the site of a religious, charitable, civic or service organization, or such other place as shall be designated in the permit;

h. No advertisement of any garage or rummage sale shall be permitted on public property;

i. No yard sign having an area of more than six square feet shall be permitted, nor shall any illuminated or animated sign be displayed. No sign shall be displayed prior to the date of sale, and all such signs shall be removed no later than the day following the last day of such sale.

(Ord. No. 10-31, § 1(2), 3-2-2010)

Section 3. Height modifications.

[Subsection] 1. Chimneys, cooling towers, elevator bulkheads, head houses, fire towers, gas tanks, lighthouses, steeples, penthouses, stacks, stage towers or scenery lofts, tanks, water towers, ornamental towers and spires, where permitted, may be erected to any height not in conflict with existing or hereafter adopted ordinances of the City of Birmingham; except that were permitted in connection with residential uses, such structures shall be limited to a height of 25 feet above the maximum height of structures permitted in that district. Said exception relative to residential uses shall become effective immediately for new structures, and within one year after its adoption in relation to structures existing at the time of the adoption of this ordinance. The provisions of section 18 of this article shall govern the heights of wireless communications facilities.

[Subsection] 2. The limitation on number of stories shall not apply to buildings used exclusively for storage purposes, provided such buildings do not exceed the height in feet permitted in the district in which located.

[Subsection] 3. Public, semipublic or public service buildings, including but not limited to hospitals, schools and churches, when permitted in a district with height limitations of less than 60 feet, may be erected to a maximum height of 60 feet, provided side yards are increased by one foot for each foot of additional building height above the height limitation for the district in which the building is located.

(Ord. No. 97-77, § 1(title 2, art. VI, § 3), 6-24-1997)

Section 4. Area modification for lots of record.

Where a lot of record at the time of the effective date of this ordinance had less area or less width than herein required for the district in which it is located, said lot may nonetheless be used for a single-family dwelling.

Section 5. General yard modifications.

[Subsection] 1. Every part of a required yard shall be open to the sky unobstructed by any structure or part hereof, and unoccupied for storage, servicing or similar use except as provided herein.

[Subsection] 2. Sills, belt courses or ornamental features may project into any yard not to exceed six inches.

[Subsection] 3. Cornices or eaves may project into any required yard not to exceed 18 inches.

[Subsection] 4. Terraces, uncovered porches, underground fallout shelters or ornamental features which do not extend more than five feet above grade may project into a required yard, provided such projections shall not be closer than two feet to any lot line.

[Subsection] 5. More than one multiple dwelling, institutional, commercial or industrial building may be located upon a lot or tract, but such buildings shall not encroach upon the front, side and rear yards required by the district regulations. For multiple dwellings the open space between buildings measured at the closest point shall not be less than 20 feet for one-story buildings, 30 feet when one or both are two-story buildings, and 40 feet when one or both are three or more story buildings.

[Subsection] 6. Where an open space is more than 50 percent surrounded by residential or institutional buildings, the minimum width of the open space shall be at least 20 feet for one-story buildings, 30 feet when one or both are two-story buildings, and 40 feet when one or both are three or more story buildings.

[Subsection] 7. In residential districts, no required yard except the rear yard shall be used for the location of a private swimming pool, and if constructed, said pool shall be enclosed by a fence of not less than four feet in height. No mechanical appurtenance or pool shall be within ten feet of any lot line.

[Subsection] 8. The minimum dimension of a yard upon which any entrance or exit of a multiple dwelling faces shall be 20 feet.

[Subsection] 9. Wherever yards are provided between commercial or industrial structures, they shall have a minimum width of not less than six feet.

[Subsection] 10. As an additional limitation of an accessory use, the following shall apply:

a. For the purposes of this subsection 10, the term "disabled motor vehicle" shall refer to any motor vehicle regardless of size which is incapable or being self-propelled upon the public streets of the City of Birmingham, or when such motor vehicle cannot safely be moved on any public street under its own power, or which does not meet the requirement for operation upon the public streets.

b. Disabled motor vehicles shall not be permitted in a front or side yard in a residential district; provided, however, that on a driveway crossing the front or side yard of a lot in a residential zone district, one disabled motor vehicle may be parked for a reasonable time to allow for the servicing or removal of said disabled vehicle, but in no case shall a disabled vehicle be allowed to remain on a driveway crossing a front or side yard for a period exceeding five days from the time the vehicle became disabled.

c. One disabled motor vehicle may be permitted in a rear yard in a residential district as an accessory use to the main use of the lot; provided that such vehicle is not located in any open space required by this article. Service and repair work may be performed on such vehicle, and parts, tools, and equipment incidental to such service and repair thereto may be stored and used; provided, however, that a disabled vehicle shall not be permitted to remain outside of a building for a period in excess of 30 days on any lot regardless of how zoned, except a lot upon which is operating a junk dealer or scrap metal processor in compliance with the requirements of the General City Code, or on that portion of any lot within 20 feet of an abutting lot used or zoned for residential purposes.

d. Storage, service and repair in a residential district of a disabled motor vehicle which is conducted entirely within the confines of a completely enclosed garage (not to include open carports) shall be permitted, provided that such vehicle is the property of the owner or occupier of the lot and that such use is not a commercial use of the property.

e. It shall be the responsibility of the owner of a disabled vehicle, the person in possession of property or the property owner on whose property a disabled vehicle is located to meet the requirements of this subsection 10.

[Subsection] 11. New and expanded structures shall provide an area for solid waste containers adequate to house garbage and any other type of waste on site; not in the public right-of-way. The container must be located on the same lot as the principle building and no closer than 25 feet to dwellings off-site. Except for uses within M-2 and M-4 zoned districts and uses having small containers serviced by the City of Birmingham's Public Works Department, solid waste containers also must be:

(1) In rear or side yards or within the principal building; and

(2) Exterior sites must be below grade or have a solid opaque screening walls or gate on all sides made of concrete, masonry material and/or wood at a height taller than the container (when residential the enclosure must have a veneer similar to the dwelling's veneer); and

(3) When a proposed use includes a food service establishment enclosure must be compliant with county health department regulations.

(Ord. No. 07-33, § 1(art. VI, § 5), 2-13-2007)

Section 6. Front yard modifications.

The required front yards heretofore established shall be modified in the following cases:

1. Where 40 percent or more of the frontage on the same side of a street between two intersecting streets is presently developed or may hereafter be developed with buildings that have (with a variation of five feet or less) a front yard

greater or lesser in depth than herein required, new buildings shall not be erected closer to the street than the average front yard so established by the existing buildings.

2. Where 40 percent or more of the frontage on one side of a street between two intersecting streets is presently developed or may hereafter be developed with buildings that do not have a front yard as described above, then:
   a. Where a building is to be erected on a parcel of land that is within 100 feet of existing buildings on both sides, the minimum front yard shall be a line drawn between the two closest front corners of the adjacent building; or
   b. Where a building is to be erected on a parcel of land that is within 100 feet of an existing building on one side only, such building may be erected as close to the street as the existing adjacent building.
3. Through lots shall provide the required front yard on both streets.
4. Corner lots shall provide a front yard on each street side. However, the buildable width of a lot of record need not be reduced to less than 28 feet; provided that the side yards shall in no case be reduced to less than that otherwise required for the zone district. No accessory building shall project into the front yard on either side.
5. Permitted signs attached to buildings may extend into a front yard of the required yard abutting a side street not to exceed 18 inches.
6. Service station pumps and pump islands may be located with a required front yard, but in no case shall they be closer than 15 feet to any street line.

Section 7. Rear and side yard modifications.

The rear or side yards heretofore established shall be modified in the following cases:

1. Where a lot abuts upon an alley, one-half of the alley width may be considered as part of the required rear or side yard for building purposes; however, the minimum yard abutting an alley shall be three feet.
2. An unenclosed balcony, porch steps or fire escape may project into a rear yard for a distance not exceeding ten feet.
3. Accessory buildings and structures may be built in a rear yard, but such accessory buildings and structures shall not occupy more than 30 percent of the required rear yard and shall not be nearer than three feet to any side or rear lot line, except that when a garage is entered from an alley it shall not be located closer than five feet to the alley line.
4. Satellite antennas shall be permitted in the rear yard only. The zoning board of adjustment may grant variances to this provision only for rear yards whose

topography or dimensions will not permit the physical placement of these structures. Such limitations shall not include placement of satellite dishes because of problems associated with reception of satellite signals.

Section 8. Walls and fences.

Subsection 1 *Definitions.* The definitions listed within this section are intended for this section only and do not apply to any other section of the zoning ordinance.

1. *Abuts.* Lying contiguous with another property line. For the purpose of this section, property is considered to be abutting only when property lines are contiguous.

2. *Feature.* In regard to a fence or wall, a feature is any item, such as an accessory or ornamental item, which is added or incorporated into the top portion of the fence or wall. Fencing materials, such as lattice or similar items, or any material that could normally be used as a fence, is not considered to be a feature. A feature item would be included in the overall height of a fence or wall.

3. *Fence* or *wall.* A structure, solid or otherwise, erected, placed, or constructed on a property, which is intended to be a barrier, boundary, enclosure, privacy feature, or decorative item. It is characteristic of such an item that it is normally a separate "stand-alone" structure, erected along the perimeter (or close to the perimeter) of a property.

4. *Height.* A measurement made from the ground directly adjacent to the fence or wall (or supports, gates, and other features) perpendicular upward to the utmost part of the fence, wall, supports, gates, and other features of a fence or wall.

5. *Height of fence erected atop a retaining wall.* The average least dimension of a retainer wall, measured from the top of the retainer wall to the nearest ground level, will be included in the height limits of a fence or wall, provided that the least dimension does not vary more than six inches for its entire length. If a retaining wall's least dimension varies more than six inches, the permitted height of a fence erected atop a retainer wall will be determined by the staff of the department of planning, engineering, and permits based on a review and/or interpretation by the director of the department of planning, engineering, and permits.

6. *Retaining wall.* A structure, normally constructed of block, brick or stone that is erected to retain soil upon a specific property, or to prevent soil from encroaching upon a specific property.

7. *Supports.* Posts or similar items that are erected vertically and perpendicular to the ground for the purpose of supporting the main sections or portions of a fence structure. The portion of a support that extends above the height of the fence material must be of a decorative and/or finished type material.

8. *Yards.* For irregular and/or unusually shaped lots, the exact location of a particular yard will be determined by the staff of the department of planning, engineering, and permits based on a review and/or interpretation by the director of the department of planning, engineering, and permits. For a standard type of lot, the following will be used.

    a. *Complete front yard.* The area extending from the exterior wall of a structure to the front property line, and located between the side lot lines. On a corner lot, the front yard also includes the area extending from the side exterior wall of a structure to the property line that adjoins a dedicated street, then continuing to a rear or side lot line. This area is to be included as a front yard whether the adjoining street is open or not. [On a vacant lot, the front yard area shall be as defined in the definitions section of this ordinance and in article VI, section 6. The dimensions of this yard (setbacks) shall be determined by the zoning classification.]

    b. *Side yard.* The area extending from the exterior sidewall of a structure to a side property line. [On a vacant lot, the side yard shall be as defined in the definitions section of this ordinance and in article VI, section 7. The dimensions of this yard (setbacks) shall be determined by the zoning classification.]

    c. *Rear yard.* The area extending from the exterior rear wall of a structure to the rear property line, including the area between the side lot lines. On a corner lot, the rear yard shall be as described except that the boundary on the side adjacent to the street shall be a straight line parallel to the street extending from the exterior rear corner of the structure (nearest to the street) to the rear property line. [On a vacant lot, the rear yard shall be as defined in the definitions section of this ordinance and in article VI, section 7. The dimensions of this yard (setbacks) shall be determined by the zoning classification.]

Subsection 2. *Permits.* A zoning permit is required before any fence or wall can be erected or placed upon any property within the City of Birmingham.

Subsection 3. *Residential[ly] zoned property.* Upon any E or R zoned property, a wall or fence may be erected or placed in accordance with the following:

1. *Complete front yard.* No wall or fence within a front yard area shall exceed a height of four feet and supports and other features shall not exceed a height of five feet, except as required for wireless communication installations as listed in section 18 of this article.

2. *Side and rear yard.*

   a. Within a side or rear yard, a wall or fence may be erected or placed to a height of eight feet, and the supports and other features may be erected or placed at a height of nine feet, provided that any structure that allows residential occupancy on an adjacent property is setback a minimum of five feet from the side and/or rear lot line.

   b. If an existing dwelling unit on an adjacent property is setback less that five feet from a side or rear lot line, a portion (or all) of the wall or fence erected adjacent to that structure may be required to be of a "see through" type of material, such as chainlink, so that adequate light and ventilation may be provided. This determination will be made by staff as a result of an on site field inspection. The overall height of the fence or wall will be as detailed in the previous item (A).

Subsection 4. *Nonresidentially zoned property.*

A. On nonresidentially zoned property, the fence and/or wall height restrictions listed within this section will apply, except as required for wireless communication installations as listed in section 18 of this article, provided that property:

   (1) Lies within the same block face, between two intersecting streets, with residentially zoned property; or

   (2) Abuts residentially zoned property as defined in this section. In that case, the height restrictions listed in the previous section will be the same.

B. On other nonresidentially zoned property, the height of a fence or wall will be determined by administrative review of staff of the department of planning, engineering, and permits.

Subsection 5. *Visibility.* No fence, wall, or planting, shall be erected, placed, or constructed so that it obstructs visibility of traffic and thereby creates a "line of sight" problem as determined by a review by the traffic engineering department. The reconfiguration and/or repositioning of such a fence or wall shall be completed in compliance with the recommendation of the traffic engineering department.
(Ord. No. 97-77, § 1(title 2, art. VI, § 8), 6-24-1997)

Section 9. Sign regulations.

Subsection 1. *Purpose and scope.* The purpose of this section is to establish regulations for the erection and maintenance of signs. It is determined that, while signs are a proper commercial use of private property in certain areas of the city and under certain zoning classifications and are entitled to the protection of the law, such signs should be reasonably regulated in the interest of the public safety and welfare and to safeguard and promote the aesthetic quality of the city by the establishment of standards for the number, size, height, spacing and illumination of such signs. The

regulations herein contained shall govern all signs presently existing or hereafter erected or displayed, but shall neither waive nor repeal additional requirements of other applicable ordinances not inconsistent herewith. However, these requirements shall not apply to signs necessary to the discharge of governmental functions, such as traffic control signals and devices, street signs, public notices and various court or postal requirements.

Subsection 2. *Definitions.* For the purpose of this section the following words, terms and phases shall have the meaning ascribed to them as specified herein. When not inconsistent with the context, words used in the present tense shall include the future tense, words in the plural number shall include the singular number, and words in the singular number shall include the plural number.

1. *Areas of special aesthetic concern.* Any area of the city established by resolution of the city council as a community renewal project area, a commercial revitalization project area, a neighborhood revitalization and improvement project area, an urban renewal and urban redevelopment project area and the downtown master plan project area; and, also, historic districts, scenic corridors, and B-3 Community Business Districts, wherein city policy is seeking to upgrade both the quality and amount of private investment through public support and wherein the improvement of aesthetic quality is a principle factor for the general welfare.

2. *Back-to-back signs.* Signs erected with faces oriented in opposite directions and separated by no more than four feet.

3. *Illuminated sign.* A sign illuminated by the following types of lighting:

    a. *Indirect.* A sign reflecting light from a separate outside source aimed toward it.

    b. *Direct.* A sign emitting light from a source within or affixed to the sign face, and beaming outward from it.

    c. *Intermittent.* A sign containing any flashing light, including arrangements that spell messages, simulate motion or form various symbols or images.

4. *Maintenance.* Any cleaning, painting, copy changes, poster panel replacement, or bulb replacement, which does not alter the basic design, structure, size or electrical service to the sign.

5. *Monument sign.* A permanent sign mounted on the ground in such a manner that the sign face is attached to the ground either directly or in a landscaped setting wherein the bottom edge of the sign face shall be less than four feet above the ground level.

6. *Off-premises sign.* Any permanent sign which directs the attention of the general public to a business, service, product or activity not conducted, offered or sold as a major portion of business upon the premises where such sign is located. None of the following shall be deemed an off-premises sign:
   a. Directional and other official signs authorized by law.
   b. Signs advertising the sale or lease of property upon which they are located.
   c. On-premises signs.
7. *On-premises sign.* A permanent sign erected upon, and maintained in conjunction with the use of a specific parcel of property identifying the name of the place, persons or organizations occupying the premises or designating the principal use or activity or the principal product or service available on the premises.
8. *Pole sign.* A permanent sign mounted on a pole or poles wherein the bottom edge of the sign shall be at least four feet above the ground level.
9. *Portable sign.* Any sign, whether on its own trailer, wheels or otherwise, which is designed to be transported from one place to another. It is characteristic of a portable sign that the space provided for advertising messages may be changed at will by the replacement of lettering or symbols.
10. *Product advertising sign.* A permanent sign erected and maintained in conjunction with the use of a specific parcel of property identifying the name of the place, persons or organization occupying the premises and designating a product or service available on the premises, which is not a principal use, activity, or product sold on the premises.
11. *Projecting sign.* A sign located off the ground, affixed to an exterior building wall, and extending beyond it more than one foot.
12. *Roof sign.* A sign attached or affixed in any manner to the top of any building roof.
13. *Scenic corridor.* A travelway corridor which is determined by the city to be important for the general welfare by promoting investment and reinvestment in businesses and tourism through creating a favorable impression on the traveling public by reducing visual clutter and enhancing the visual clarity and aesthetic quality along such travelways; which corridor shall consist of the paved roadway and right-of-way and an area 300 feet from either side of and parallel to the street right-of-way.
14. *Sign.* Any solid or flexible material, structure, or combination thereof, including supporting apparatus, containing lettered, symbolic or graphic matter, or similar eye-attracting devices or light systems, attached to, resting on or

painted upon a building or structure or erected or placed on premises, and designed to be visible from off the premises, provided, however, that this shall not include hand-painted window signs of less than 70 square feet.

15. *Sign area.* Display spaces on a unified structure excluding supporting members and decorative base or border provided that:
    a. Where two sign faces are placed side by side on a structure, the sign area shall be the total of the areas of the faces.
    b. Where sign faces are erected back to back or in a "V" type, the sign area shall be one-half of the total of the areas of the faces.
16. *Sign face.* The surface area of a sign devoted to a message or advertising display.
17. *Signs, height of.* The vertical distance from the average grade at the base of the sign to the highest point on the top of the sign.
18. *Signs, spacing of.* The distance between signs shall be measured along the centerline of the street or highway adjacent to the signs between the lines intersecting with the centerline which are drawn as perpendicular lines from the center points of the sign faces to the centerline of the street.
19. *Temporary sign.* A sign or advertising display constructed of cloth, canvas, fabric, paper, plywood, or other light material and intended to be displayed for a short period of time. Included in this category are retailers' signs temporarily displayed for the purpose of informing the public of a sale or special offer, and banner signs, beacons, balloons, and mascot signs.
20. *Three-sided signs.* Signs erected with three or more faces oriented in different directions.
21. *"V-type" signs.* Signs erected with faces oriented in different directions which shall be separated by no more than four feet at their nearest point, and with a horizontal angle no greater than 30 degrees.
22. *Wall sign.* A sign located off the ground, directly upon, but no higher than, the building wall, projecting beyond said wall not more than one foot. Wall signs shall include messages carved, inscribed or designed into a face of the building and any sign painted or drawn on a face of the building.

Subsection 3. *Permit required; exemptions; prohibited signs.*

1. *Permits required.*
    a. Unless exempted or prohibited as provided hereinbelow, all signs shall require permits as provided in this section.
    b. Application for a permit shall be made to the department of planning, engineering and permits and shall be accompanied by such drawings, plans, specifications, and engineering designs as may be necessary to fully

advise and acquaint the department personnel with the proposed sign and sign location and be accompanied with the deed, lease or other agreement by which the applicant has the right to erect, use or maintain the proposed sign at that location.

c. Except as may be further restricted hereinafter, no permit for an off-premises sign shall be issued without the applicant first having presented documentation of the removal of an existing sign of equal or greater size due to voluntary sign removal by the permit holder, an accident or act of God. All replacement signs shall be equal to or of a lesser size than the previously existing sign.

d. For the purposes of voluntary sign removal by the permit holder under this subsection:

(1) Signs in areas of special aesthetic concern shall be removed before signs in any other location;

(2) If no signs of applicant are located in areas of special aesthetic concern, signs shall be removed from scenic corridors prior to signs in any other location;

(3) Nonconforming signs shall be removed prior to conforming signs; provided, however, that a permit for a sign shall be issued upon request if a permitted sign is caused to be removed due to an accident, voluntary removal, or act of God. The relocated sign shall be:

(1) No more nonconforming than the site of the sign being replaced;

(2) In close proximity to the same sign location, not to exceed 200 feet from the original sign location; and

(3) The relocation site must be properly zoned for such use.

e. All such documentation will be subject to stringent enforcement. If any misrepresentation is made pertaining to any such documentation, the applicant will be subject to revocation of any permit issued in reliance on such misrepresentation and shall be required to remove any structure built under such permit.

2. *Exempt signs.* Except as otherwise provided in this ordinance, the following signs are exempt from the provisions of this section, subject however, to meeting all other applicable codes and regulations:

a. Bulletin boards and identification signs for public, charitable, educational or religious institutions located on the premises of said institutions and not exceeding 24 square feet in total area.

b. One construction sign per street frontage located on property where building is actually in progress under a valid building permit, which may

include the names of persons and firms performing services, labor, or supplying materials to the premises and not exceeding 24 square feet. Such sign must be removed before a certificate of occupancy is issued.

c. Flags or insignias of a governmental, religious, charitable, or fraternal organization, except when displayed in connection with a commercial promotion.

d. Decorative flags and bunting for celebrations, conventions, and commemorations for a prescribed period of time when authorized by the city council.

e. One occupational sign or one professional name plate for each premises, denoting only the name, street, number and business of an occupant in a commercial building or public institutional building. Each occupational sign or professional name plate shall not exceed six square feet in area.

f. Political signs.

g. Window signs which identify or advertise activities, services, goods, or products available within the building, and which collectively cover 20 percent or less of the window glass surface area.

h. Fuel price informational signs advertising the price of motor vehicle fuel provided that only one fuel price informational sign shall be permitted per fuel pump which sign shall be limited in size to an area of 216 square inches, shall be affixed directly and firmly to the fuel pump and shall be stationary. Nothing herein shall be construed to prohibit the advertisement of fuel prices on any other sign meeting the requirements of this section.

3. *Prohibited signs.* The following signs are prohibited:

a. Lights and signs that resemble any traffic control device, official traffic control signs, or emergency vehicle markings.

b. Signs that produce noise or sounds capable of being heard including nondistinguishable sounds.

c. Signs which emit odor, visible smoke, vapor, or particles.

d. Signs attached to or painted onto a vehicle for a primary purpose of advertising.

e. Abandoned signs.

f. Signs attached to trees, utility poles, streetlight, or placed on any public property except as authorized by ordinance of the city council.

g. Stacked signs that are separate sign displays mounted one above the other whether on unified or separate structures.

h. Signs painted or drawn upon rocks, trees, or other natural features.

4. *Decal.* A permanent decal, bearing the permit number, will be issued by the department of planning, engineering and permits with the permit. It shall be the responsibility of the applicant to ensure that the decal is affixed to the permitted sign and in a manner that the decal is clearly and easily visible and readable.

(Ord. No. 97-21, § 1, 2-18-1997)

Subsection 4. *Sign fees.* Prior to the issuance of a permit, fees for on-premises and off-premises signs shall be payable as specified below. These fees are in addition to, and not in lieu of any other fees or licenses required.

Note—All sign fees are now listed in the City of Birmingham Technical Code (except annual fee for off-premises signs). See excerpt of sign fees from Technical Code at end of Index for current fee amounts.

	Annual Fee
Off-premises sign	$50.00 per structure

Annual fees must be paid by January 31 of each year beginning January 31, 1990. No additional permits will be issued until such annual fee has been paid, including permits that are pending.

Subsection 5. *General requirements for all signs.*

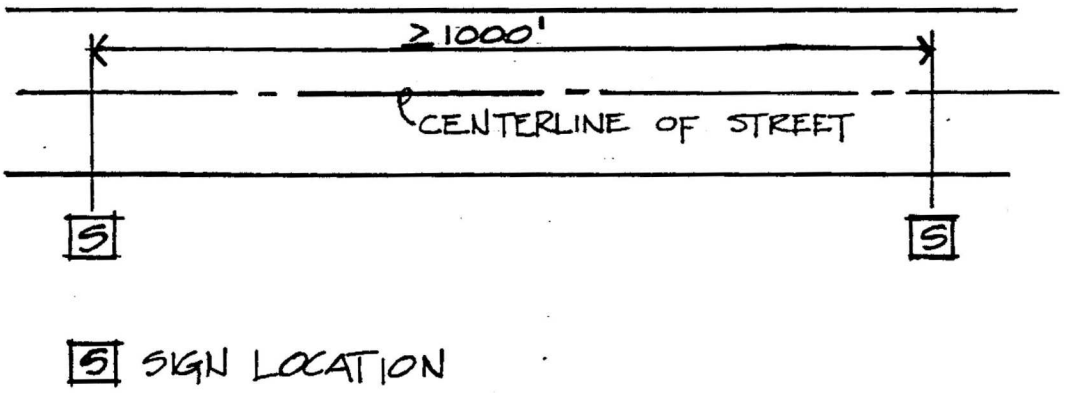
1. Signs shall not be erected or maintained which imitate, resemble, obscure or otherwise physically interfere with any official traffic sign, signal or device, nor obstruct or physically interfere with the driver's view of approaching, merging or intersecting traffic.
2. Signs shall not be erected or maintained which are structurally unsafe or in substantial disrepair.
3. It shall be unlawful to use a vehicle or trailer as a sign in circumvention of this section.
4. Maintenance. Any sign not meeting the following provisions shall be repaired or removed within 60 days after receipt of notification by the department of planning, engineering and permits unless the director of the department of planning, engineering and permits determines that the sign owner is delayed for legitimate reasons and is making a good faith effort to correct any deficiency.
    a. The area around any freestanding sign shall be kept clear of trash and litter and shall present a neat and healthy appearance.
    b. All signs shall be maintained at the level of appearance originally held at the time of sign erection.
    c. Exposed backs of signs must be painted a single, neural color, presenting an attractive and finished appearance.

d. It shall be the responsibility of the off-premises sign owner and the on-premises sign business owner to maintain and ensure conformance to the provisions of this section.

5. No illuminated or highly reflective signs, including their structures, shall be erected or maintained which are not effectively shielded so as to prevent beams or rays of light from being directed at any portion of the street or roadways, or from shining on or into residential buildings or otherwise adversely affecting surrounding or facing premises; or which adversely affect the safe operation of motor vehicles by reason of light intensity or brilliance which cause glare or otherwise impair the vision of the driver of the motor vehicle.

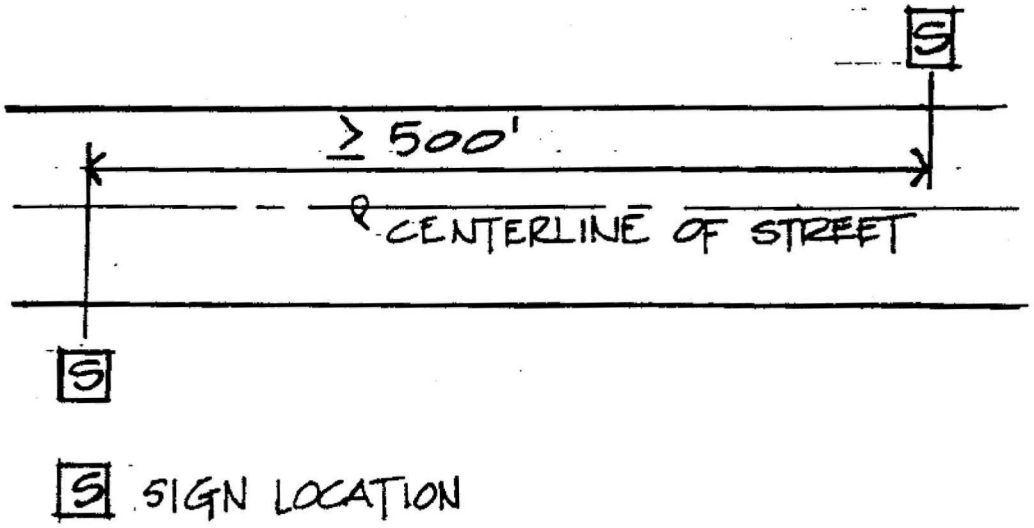
Subsection 6. *Off-premises sign regulations.* In addition to the other requirements of this section and other ordinances of the City of Birmingham, off-premises signs must comply with the following regulations:

1. *Maximum size.*



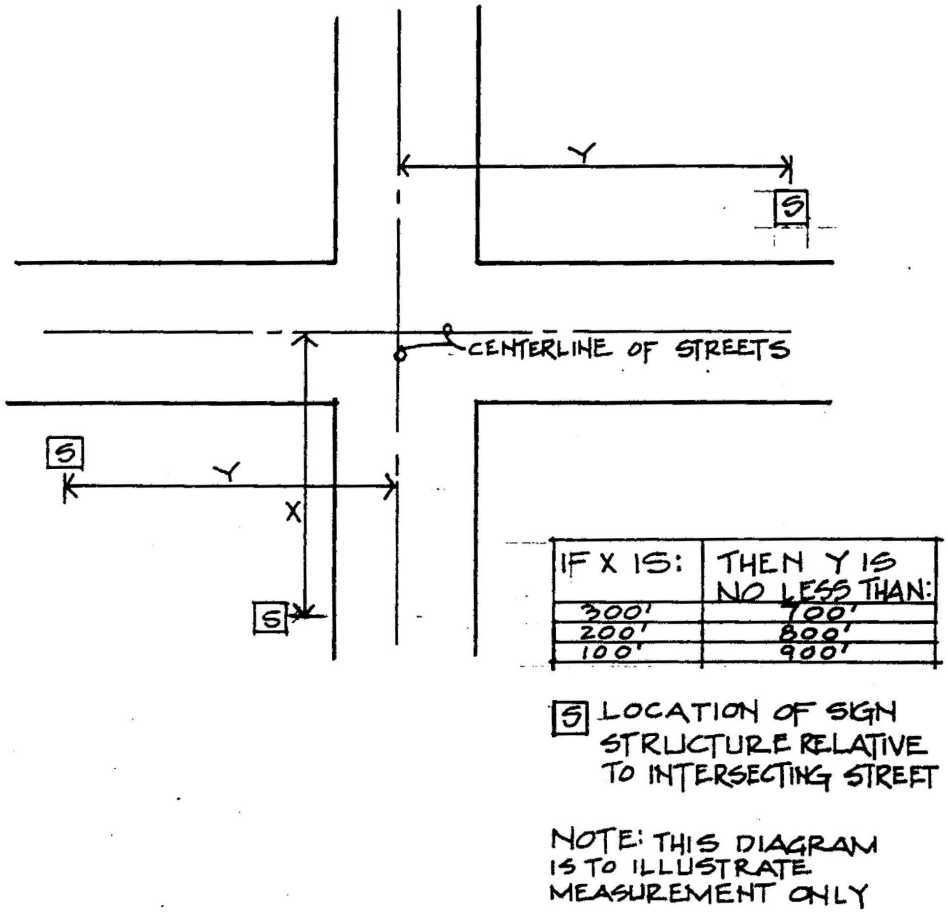
a. The maximum sign area shall be 800 square feet, with a maximum height of 20 feet and a maximum length of 50 feet inclusive of any embellishments, border or trim, but excluding the base or apron, supports and other structural members.

b. An off-premises sign structure may contain two sign faces oriented in the same direction; signs may be placed back-to-back or V-type, provided that the total area of the sign faces oriented in any one direction shall not exceed maximum size provisions.



2. *Lighting.* Off-premises signs shall not be erected or maintained which contain, include or are illuminated by intermittent lighting except those giving public service information such as, but not limited to time, date, temperature, weather or news.

3. *Minimum spacing and setback requirements.* Off-premises signs shall not be erected closer to other off-premises signs than the following prescribed distances except as hereinafter restricted:



a. The minimum spacing for all off-premises signs, on the same side of the street, shall be 1,000 linear feet measured on the centerline of the street. (See Diagram A.)

b. The minimum spacing for all off-premises signs which are on opposite sides of the street shall be 500 linear feet measured on the centerline of such street. (See Diagram B.)

c. When an existing off-premises sign is located within 300 feet of the right-of-way of any street or highway intersection, including the intersection of streets or highways not at grade, no additional sign shall be spaced less than 1,000 feet apart as measured along the center lines of the streets regardless of the street from which the signs are intended to be viewed. (See Diagram C.)

d. Off-premises erected with 800 feet of and directed toward any Interstate Highway, The Elton B. Stephens Expressway or U.S. Highway 280 shall be located no closer than 300 feet to the paved portion of main-traveled ways and interchange ramps.

e. An off-premises sign erected within ten feet of the right-of-way of intersecting or merging streets, alleys, private drives, bridges, or railroad crossings shall be a minimum of eight feet above the level of the pavement of said streets.

f. Off-premises signs larger than 300 square feet shall be set back at least 400 feet; signs between 85 and 300 square feet shall be set back at least 250 feet; and signs 85 square feet or less shall be set back at least 125 feet from any residentially zoned property, public park or school measured from the nearest edge of the sign.

4. *Maximum height.* The maximum height for any off-premises sign shall be 40 feet above ground level at its base. Where the ground level is lower

than the main-traveled way of the street or highway along which the sign is too constructed, the maximum height as measured to the top of the sign face shall be extended to a point 25 feet above the plane of said main-traveled way.

5. *General off-premises sign requirements.*
   a. No off-premises sign structures shall be located on, or project over, any public property or right-of-way except as provided by ordinance of the city council.
   b. No off-premises sign shall be permitted on top of any building or rooftop.
   c. No three-sided signs shall be permitted.
   d. It shall be unlawful to construct an off-premises sign where such constructions require the removal of any tree 12 inches in diameter or greater.
6. *Scenic corridors.* The scenic corridors herein established consist of the following:
   a. Elton B. Stephens Expressway.
   b. Interstate 65.
   c. Interstate 59.
   d. Interstate 20.
   e. Interstate 459.
   f. U.S. Highway 280.
   g. Montgomery Highway from the city line as it splits into 20th Street South and 21st Street South along the line both of these streets to 12th Avenue North.
   h. Messer-Airport Highway from the air terminal to Interstate 59/20.
   i. Clairmont Avenue/University Boulevard from 38th Street to Elton B. Stephens Expressway.
   j. 7th Avenue South from 32nd Street to the Elton B. Stephens Expressway.
   k. 1st Avenue North/Parkway East from the Elton B. Stephens Expressway to city limits.
   l. 8th Avenue North from Interstate 65 to Avenue Y Ensley.
   m. John Rogers Drive from U.S. 11 to U.S. 78.
   n. State Highway 119.
   o. Grants Mill Road.
   p. Lakeshore Parkway.
   q. Finley Boulevard from Highway 78 to 26th Street North.

r. Lomb Avenue/Martin Luther King Drive from Bessemer Road to West Oxmoor Road.

s. Spaulding-Ishkooda Road from Ishkooda Road to Martin Luther King Drive.

t. Arkadelphia Road from Lomb Avenue to I-59.

7. *Areas of special aesthetic concern.*

a. No additional off-premises signs shall be permitted in ares of special aesthetic concern as herein defined.

b. All off-premises signs shall be removed from all of the named areas of special aesthetic concern as set out herein below within 90 days after written notice to the permittee of such signs:

(1) Community renewal project area;

(2) Commercial revitalization project area;

(3) Neighborhood revitalization and improvement project area;

(4) The downtown master plan project area;

(5) An urban renewal and urban redevelopment project area;

(6) Historic districts; and

(7) B-3 Community Business Districts.

(Ord. No. 97-21, 2-18-1997)

Subsection 7. *On-premises sign regulations.* Unless otherwise provided in this ordinance, on-premises signs must comply with the following regulations:

1. *Maximum size.*

a. Except as provided below, each business establishment shall be limited to a square footage of 672 square feet for on-premises signage.

b. The total square footage of on-premises signs for retail car dealerships may be increased to an amount no greater than 35 percent of the maximum size specified herein which shall be calculated by measuring the actual square footage of the sign face as defined herein.

2. *Maximum number.* No maximum number of on-premises signs is specified in the ordinance. For each business establishment, the maximum number of permitted signs shall be determined based on the maximum square footage allowance as specified herein.

3. *Maximum height.* Except for on-premises signs where the roof is higher than 50 feet, the maximum height of on-premises signs shall be 50 feet above ground level as its base; provided, however, that in areas within 750 feet of the right-of-way or interstate highways, the maximum height shall

be extended to a point of 25 feet above the plane of the main traveled way of the interstate when the ground level of the sign base is lower than said main traveled way.

4. *Placement requirements.*
   a. No on-premises sign shall be placed in such a manner as to block effective visibility of adjacent signs, whether on or off-premises signs in any district.
   b. No on-premises sign shall be placed within 15 feet of any residential zone boundary.
   c. No projecting sign shall project into any public right-of-way by more than five feet.
   d. Wall signs shall not extend more than ten feet across the roof line or across any corner of the wall on which the sign is mounted.
   e. No sign face shall be placed in such a manner that a motorist's visibility is obscured wither at driveways or entrance points to any business or at intersecting streets or alleys.
5. *Illumination.* It shall be unlawful to erect any attraction or sign which contains a beacon of any type and/or contains a spotlight providing direct illumination to the public.
6. *Portable signs.* Only one portable sign shall be permitted for each business establishment; however, such sign shall not be considered a part of the total allowable square footage for signage as provided herein.
7. *Product advertising signs.* Product advertising signs shall not exceed 12 square feet in area for any one premises which area shall be included in the total permitted sign area for that premises.

Subsection 8. *Penalties.* Both the owners or other persons in charge or control of signs, and owners or other persons in charge or control of property on which signs are located shall be responsible for assuring compliance with this section. Any failure or refusal to comply with this section shall be a violation and punished as provided in article VII, section 4 of this ordinance.

Section 10. Floodplain zone districts.

All of the zone districts heretofore established shall be modified and supplemented in the following instances and according to the following rationale:

1. *Rationale; purpose.* Certain lands and flood hazard areas of the City of Birmingham are subject to periodic inundation which results in loss of life, property, health and safety hazards, disruption of commerce and governmental services, extraordinary public expenditures for flood protection and relief, and impairment of the tax base, all of which adversely affect the public health, safety and general welfare. These flood losses are caused by the cumulative

effect of obstructions in the floodplains causing increases in flood heights and velocities, and by the occupancy in flood hazard areas by uses vulnerable to floods or hazards to other lands which are inadequately elevated, floodproofed, or otherwise protected from flood damages. It is the purpose of this section to promote the public health, safety and general welfare and to minimize public and private losses due to flood conditions in specific areas by the following provisions designed to:

a. Restrict or prohibit uses which are dangerous to health, safety and property due to water or erosion hazards, or which result in damaging increases in erosion or in flood heights or velocities;

b. Require that uses vulnerable to floods, including facilities which serve such uses, be protected against flood damage at the time of initial construction;

c. Control the alteration of natural floodplains, stream channels, and natural protective barriers which are involved in the accommodation of floodwaters;

d. Control filling, grading, dredging and other development which may increase erosion or flood damage; and

e. Prevent or regulate the construction of flood barriers which will unnaturally divert floodwaters or which may increase flood hazards to other lands.

The basic underlying objectives that guided the preparation of this section are: the protection of human life and health; the minimizing of public expenditures for costly flood control projects, and rescue and relief efforts associated with flooding, as well as interruption and damage to individual residents, businesses, industry and public facilities and utilities such as water and gas mains, electric, telephone and sewer lines, streets and bridges; and in general the development and maintenance of a stable tax base by providing for the sound use and development of floodprone areas in such a manner to minimize future flood blight and insure that all purchasers of private property subject to flooding are notified that such property is in a flood area.

2. *Definitions.* Any other provision in this section to the contrary notwithstanding for the purposes of this subsection 2, the following words, terms and phrases shall have the meanings ascribed to them in this subsection 2. Unless specifically defined herein, words or phrases used in this section shall be interpreted so as to give them the meaning they have in common usage and give this section its most reasonable application. When not inconsistent with the context, words used in the present tense shall include the future tense, words in the plural number shall include the singular number, and words in the singular number shall include the plural number.

a. *Addition (to an existing building)* means any walled and roofed expansion to the perimeter of a building in which the addition is connected by a

common load-bearing wall other than a fire wall. Any walled and roofed addition which is connected by a fire wall or is separated by independent perimeter load-bearing walls is new construction.

b. *Administrative officer* means the person(s) appointed to administer, interpret and implement the provisions of this section in accordance with the provisions of subsection 4.a and b.

c. *Appeal* means a request for a review of the administrative officers' interpretation of any provision of this section or a request for a variance.

d. *Area of shallow flooding* means a designated AO Zone on a community's flood insurance rate map (FIRM) with a one percent or greater annual chance of flooding to an average depth of one to three feet where a clearly defined channel does not exist, where the path of flooding is unpredictable and where velocity flow may be evident. Such flooding is characterized by ponding or sheet flow.

e. *Area of special flood hazard* means the land in the floodplain within a community subject to a one percent or greater chance of flooding in any given year.

f. *Base flood* means the flood having a one percent chance of being equaled or exceeded in any given year.

g. *Basement* means any area of a building having its floor subgrade (below ground level) on all sides.

h. *Breakaway wall* means a wall that is not part of the structural support of the building and is intended through its design and construction to collapse under specific lateral loading forces without causing damage to the elevated portion of the building or the supporting foundation system.

i. *Building.* See *Structure.*

j. *Development* means any manmade change to improved or unimproved real estate, including, but not limited to, buildings or other structures, mining, dredging, filling, grading, paving, excavating or drilling operations, or storage of materials or equipment.

k. *Elevated building* means a nonbasement building (1) built to have the top of the elevated floor elevated above the ground level by means of pilings, columns (posts and piers), or shear walls parallel to the flow of the water and (2) adequately anchored so as not to impair the structural integrity of the building during a flood of up to the magnitude of the base flood. [The term] "elevated building" also includes a building elevated by means of fill or solid foundation perimeter walls with openings sufficient to facilitate the unimpeded movement of floodwaters.

l. *Existing construction* means structures for which the "start of construction" commenced before May 5, 1981, the effective date of the initial floodplain management ordinance adopted by the city. [The term] "existing construction" may also be referred to as "existing structures."

m *Existing manufactured home park or subdivision* means a manufactured home park or subdivision for which the construction of facilities for servicing the lots on which the manufactured homes are to be affixed (including, at a minimum, the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads) is completed before May 5, 1981, the effective date of the initial floodplain management ordinance adopted by the city.

n. *Expansion to an existing manufactured home park or subdivision* means the preparation of additional sites by the construction of facilities for servicing the lots on which the manufactured homes are to be affixed (including the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads).

o. *Flood* or *flooding* means a general and temporary condition of partial or complete inundation of normally dry land areas from the overflow of inland or tidal waters or the unusual and rapid accumulation of runoff of surface waters from any source.

p. *Flood insurance rate map (FIRM)* means an official map of a community, on which the Federal Emergency Management Agency has delineated both the areas of special flood hazard and the risk premium zones applicable to the community.

q. *Flood insurance study* means the official report provided by Federal Emergency Management Agency. The report contains profiles along distances of each studied stream with stream bed elevations and corresponding flood elevations, as well as flood maps and the water surface elevation of the base flood.

r. *Floodplain* means the area of special flood hazard covered by a flood having a one percent chance of being equaled or exceeded in any given year and delineated as a Zone A, AO, A1-30, AE, A99 or AH on the community's flood insurance rate map (FIRM).

s. *Floodproofing* means any combination of structural and nonstructural additions, changes, or adjustments to structures which reduce or eliminate flood damage to real estate or improved real property, water and sanitary facilities, structures and their contents.

t. *Floodway* means the channel of a river or other watercourse and the adjacent land areas that must be reserved in order to discharge the base flood without cumulatively increasing the water surface elevation more than one foot.

u. *Functionally dependent facility* means a facility which cannot be used for its intended purpose unless it is located or carried out in close proximity to water, such as a docking or port facility necessary for the loading and unloading of cargo or passengers, shipbuilding, ship repair, or seafood processing facilities. The term does not include long-term storage, manufacture, sales or service facilities.

v. *Highest adjacent grade* means the highest natural elevation of the ground surface, prior to construction, next to the proposed walls of a structure.

w. *Historic structure* means any structure that meets one or more of the following criteria:

(1) Listed individually in the National Register of Historic Places (a listing maintained by the Department of the Interior) or preliminarily determined by the Secretary of the Interior as meeting the requirements for individual listing on the National Register;

(2) Certified or preliminarily determined by the Secretary of the Interior as contributing to the historical significance of a registered historic district or a district preliminarily determined by the Secretary to qualify as a registered historic district;

(3) Individually listed on a state inventory of historic places in states with historic preservation programs which have been approved by the Secretary of the Interior; or

(4) Individually listed on a local inventory of historic places in communities with historic preservation programs that have been certified either:

(i) By an approved state program as determined by the Secretary of the Interior; or

(ii) Directly by the Secretary of the Interior in states without approved programs.

x. *Improvement cost,* for determining "substantial improvement," means the value of all costs for improvements and/or repairs to a structure. Cost shall include all structural costs for labor and materials, as well as all finish materials, built-in appliances, hardware, profit and overhead but excluding plans, surveys, permit fees, debris removal and clean-up, items not considered real property, and accessory structures. The improvement cost shall be determined by the latest edition of "Building Valuation Data" of current average construction value per square foot published by the Southern Building Code Congress International or a written estimate of labor and materials prepared and certified by the contractor.

y. *Lowest floor* means the lowest floor of the lowest enclosed area (including basement). An unfinished or flood-resistant enclosure, usable solely for parking of vehicles, building access or storage in an area other than a

basement area is not considered a building's lowest floor; provided that such enclosure is not built so as to render the structure in violation of the applicable nonelevation design requirement of subsection 5.

z. *Manufactured home* means a structure, transportable in one or more sections, which is built on a permanent chassis and designed to be used with or without a permanent foundation when connected to the required utilities. The term also includes park trailers, travel trailers and similar transportable structures placed on a site for 180 consecutive days or longer and intended to be improved property.

aa. *Manufactured home park or subdivision* means a parcel (or contiguous parcels) of land divided into two or more manufactured home lots for rent or sale.

bb. *Market value of the building,* for determining "substantial improvement," means the market value of the building only, excluding land. Market value shall be determined by the most recent appraisal by the county tax assessor or by a certified appraisal report using the comparable sales method, whichever is the greater value.

cc. *Mean sea level* means the average height of the sea for all stages of the tide. It is used as a reference for establishing various elevations within the floodplain. For purposes of this section, the term is synonymous with National Geodetic Vertical Datum (NGVD).

dd. *National Geodetic Vertical Datum (NGVD),* as corrected in 1929, is a vertical control used as a reference for establishing various elevations within the floodplain.

ee. *New construction* means structures for which the start of construction commenced on or after May 5, 1981, the effective date of the initial floodplain management ordinance adopted by the city. The term also includes any subsequent improvements to such structures.

ff. *New manufactured home park or subdivision* means a manufactured home park or subdivision for which the construction of facilities for servicing the lots on which the manufactured homes are to be affixed (including at a minimum, the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads) is completed on or after May 5, 1981, the effective date of the initial floodplain management ordinance adopted by the city.

gg. *Recreational vehicle* means a vehicle which is:

(1) Built on a single chassis;

(2) 400 square feet or less when measured at the largest horizontal projection;

(3) Designed to be self-propelled or permanently towable by a light-duty truck; and

(4) Designed primarily not for use as a permanent dwelling but as temporary living quarters for recreational, camping, travel, or seasonal use.

hh. *Start of construction,* for other than new construction of substantial improvements under the Coastal Barrier Resources Act (P.L. 97-348), includes substantial improvement, and means the date the building permit was issued, provided the actual start of construction, repair, reconstruction, rehabilitation, addition placement, or improvement was within 180 days of the permit date. The actual "start" means either the first placement of permanent construction of a structure (including a manufactured home) on a site, such as the pouring of slabs or footings, installation of piles, construction of columns, or any work beyond the stage of excavation or the placement of a manufactured home on a foundation. Permanent construction does not include land preparation, such as clearing, grading and filling; nor does it include the installation of streets and/or walkways; nor does it include excavation for a basement, footings, piers or foundations or the erection of temporary forms; nor does it include the installation on the property of accessory buildings, such as garages or sheds not occupied as dwelling units or not part of the main structure. For a substantial improvement, the actual start of construction means the first alteration of any wall, ceiling, floor, or other structural part of a structure, whether or not that alteration affects the external dimensions of the structure.

ii. *Structure* means a walled and roofed building that is principally above ground, a manufactured home, a gas or liquid storage tank, and other manmade facilities or infrastructures.

jj. *Substantial damage* means damage of any origin sustained by a structure whereby the cost of restoring the structure to its before-damaged condition would equal or exceed 50 percent of the market value of the structure before the damage occurred.

kk. *Substantial improvement* means any combination of repairs, reconstruction, alteration, addition or improvement to a building, taking place during the life of a building, in which the cumulative "improvement cost" (as defined by this section) equals or exceeds 50 percent of the "market value of the building" (as defined by this section). The market value of the building should be (1) the present appraised value of the building prior to the start of the repair or improvement, or (2) in the case of damage, the value of the building prior to the damage occurring. This term includes structures which have incurred substantial damage, regardless of the

actual repair work performed. For the purposes of this definition substantial improvement is considered to occur when the first alteration of any wall, ceiling, floor, or other structural part of the building commences, whether or not that alteration affects the external dimensions of the structure. The term does not, however, include any project for improvement of a structure to comply with existing state or local health, sanitary, or safety code specifications which have been identified by the code enforcement official and which are solely necessary to ensure safe living conditions.

Example. A substantial improvement occurs when the cumulative improvement costs to a building over a period of time exceed 50 percent of the current market value of the building, as shown in the following example:

In 1988, a $30,000.00 improvement is made to a $100,000.00 building:

$30,000.00 improvement cost divided by $100,000.00 market value of building = 30 percent.

$143,000.00 = 1994 building value before proposed $45,000.00 improvement.

$30,000.00 improvement in 1988 + $45,000.00 proposed 1994 improvement = $75,000.00 cumulative improvement costs.

$75,000.00 cumulative improvement costs divided by $143,000.00 current market value = 52 percent.

50 percent improvement, which is a substantial improvement.

ll. *Substantially improved existing manufactured home parks or subdivisions* means where the repair, reconstruction, rehabilitation or improvement of the streets, utilities and pads equals or exceeds 50 percent of the value of the streets, utilities and pads before the repair, reconstruction or improvement commenced.

mm. *Variance* means a grant of relief by the zoning board of adjustment to a person from the requirements of this section which permits construction in a manner otherwise prohibited by this section where specific enforcement would result in practical difficulty.

nn. *Zone A, AO, A1-30, AE, A99 or AH* means an area of special flood hazard delineated on the community's flood insurance rate map (FIRM).

3. *General provisions.*

a. *Lands to which this section applies.* In addition to the other requirements of this section and other ordinances of the City of Birmingham, this section shall apply to all areas of special flood hazard within the corporate limits of the City of Birmingham.

b. *Basis for establishing the areas of special flood hazard.* The areas of special flood hazard identified by the Federal Emergency Management Agency, Federal Insurance Administration through the scientific engineering report entitled "Flood Insurance Study, City of Birmingham, Alabama, Jefferson County," dated September 16, 1980, with accompanying flood insurance rate maps and flood boundary and floodway maps and any revision thereto are adopted by reference and declared to be a part of this section.

c. *Establishment of development permit.* A permit to develop in a flood hazard area, a floodplain development permit, shall be required in conformance with the provision of this section prior to the commencement of any development activities.

d. *Compliance.* No structure or land shall hereafter be located, extended, converted or structurally altered without full compliance with the terms of this section and other applicable regulations.

e. *Abrogation and greater restrictions.* This section is not intended to repeal, abrogate, or impair any existing easements, covenants, or deed restrictions. However, where this section and another conflict or overlap, whichever imposes the more stringent restrictions shall prevail.

f. *Interpretation.* In the interpretation and application of this section, all provisions shall be:

(1) Considered as minimum requirements;

(2) Liberally construed in favor of the governing body; and

(3) Deemed neither to limit nor repeal any other powers granted under state statutes.

g. *Warning and disclaimer of liability.* The degree of flood protection required by this section is considered reasonable for regulatory purposes and is based on scientific and engineering considerations. Larger floods can and will occur on rare occasions. Flood heights may be increased by manmade or natural causes. This section does not imply that land outside the areas of special flood hazard or uses permitted within such areas will be free from flooding or flood damages. This section shall not create liability on the part of the City of Birmingham or by any officer or employee thereof for any flood damages that results from reliance on this section or any administrative decision lawfully made thereunder.

h. *Penalties for violation.* Violation of the provisions of this section or failure to comply with any of its requirements, including violation of conditions and safeguards established in connection with grants of variance or special exceptions, shall constitute a misdemeanor. Any person who violates this section or fails to comply with any of its requirements shall,

upon conviction thereof, be fined not more than $500.00 or imprisoned for not more than 180 days, or both, and in addition shall pay all costs and expenses involved in the case. Each day such violation continues shall be considered a separate offense. Nothing herein contained shall prevent the City of Birmingham from taking such other lawful action as is necessary to prevent or remedy any violation.

4. *Administration.*

a. Designation of administrative officers. The director of the planning, engineering and permits department is hereby appointed to administer, interpret and implement the provisions of this section jointly with the director of the planning, engineering and permits department (for general application to the zoning ordinance, see article VII, sections 1 and 2).

b. Duties and responsibilities of the administrative officers shall include, but not be limited to the following:

(1) The administrative officers shall review all development permits to assure that the permit requirements of this section have been satisfied.

(2) The director of the department of planning, engineering and permits shall advise permittee that additional federal and state permits may be required, and if specific federal or state permits are known, require that copies of such permits be provided and maintained on file with the development permit.

(3) The director of the department of planning, engineering and permits shall notify adjacent communities and the appropriate authority of the State of Alabama prior to any alteration or relocation of a watercourse, and submit evidence of such notification to the Federal Emergency Management Agency.

(4) The director of the department of planning, engineering and permits shall assure that maintenance is provided within the altered or relocated portion of said watercourse so that the measured capacity of the stream channel to carry floodwaters is not diminished.

(5) The director of the department of planning, engineering and permits shall verify and record the actual elevation (in relation to mean sea level) of the lowest floor (including basement) of all new or substantially improved structures, in accordance with subsection 4, part c(2)(a).

(6) The director of the department of planning, engineering and permits shall verify and record the actual elevation (in relation to mean sea level) to which the new or substantially improved structures have been floodproofed, in accordance with subsection 4, part c(2)(a).

(7) When floodproofing is utilized for a particular structure, the director of the department of planning, engineering and permits shall obtain certification from a registered professional engineer or architect.

(8) Where interpretation is needed as to the exact location of the boundaries of the areas of special flood hazard (for example, where there appears to be a conflict between a mapped boundary and actual field conditions) the director of the department of planning, engineering and permits shall make the necessary interpretation. The person contesting the location of the boundary shall be given a reasonable opportunity to appeal the interpretation as provided in this section.

(9) When base flood elevation data has not been provided in accordance with subsection 3, part b, then the director of the department of planning, engineering and permits shall obtain, review, and reasonably utilize any base flood elevation data available from a federal, state or other source, in order to administer the provisions of subsection 5.

(10) All records pertaining to the provisions of this section shall be maintained in the offices of the administrative officer and shall be open for public inspection.

c. *Permit and certification procedures.*

(1) *Application stage.* Application for a floodplain development permit shall supplement an application for a building permit, subdivision plat or other development approval and shall be made to the director of the department of planning, engineering and permits on forms furnished by him, prior to any development activities, and may include, but not be limited to plans in duplicate drawn to scale showing the nature, location, dimensions, and elevations of the area in question; existing and/or proposed structures, fill, storage of materials; drainage facilities, and the location of the foregoing. Specifically, the following information is required:

(a) Elevation in relation to mean sea level of the proposed lowest floor (including basement) of all buildings;

(b) Elevation in relation to mean sea level to which any nonresidential structure will be floodproofed;

(c) Provide a certificate from a registered professional engineer or architect that the nonresidential floodproofed building meets the floodproofing criteria in subsection 5, part b(2);

(d) Description of the extent to which any watercourse will be altered or relocated as a result of proposed development.

(2) *Construction stage.*

(a) Provide a floor elevation or floodproofing certification after the lowest floor is completed, after placement of the horizontal

structural members of the lowest floor. Upon placement of the horizontal structural members of the lowest floor or floodproofing by whatever means, whichever is applicable, it shall be the duty of the permit holder to submit to the director of the department of planning, engineering and permits a certification for the elevation of the lowest floor, floodproofed elevation, or the elevation of the lowest portion of the horizontal structural members of the lowest floor, whichever is applicable, as built, in relation to mean sea level. Said certification shall be prepared by or under the direct supervision of a registered land surveyor or professional engineer and certified by same. When floodproofing is utilized for a particular building, said certification shall be prepared by or under the direct supervision of a professional engineer or architect and certified by same.

(b) Any work done prior to submission of the certification shall be at the permit holder's risk. The director of the department of planning, engineering and permits shall review the flood elevation survey data submitted. Deficiencies detected by such review shall be corrected by the permit holder immediately and prior to further progressive work being permitted to proceed. Failure to submit the survey or failure to make said corrections required hereby, shall be cause to issue a stop work order for the project.

d. *Variance or modifications.*

(1) The zoning board of adjustment of the City of Birmingham as established in article VIII of this ordinance shall hear and decide on appeals and request for variances from the requirements of this section.

(2) The zoning board of adjustment shall hear and decide appeals when it is alleged there is an error in any requirement, decision or determination made by the administrative officer in the enforcement or administration of this section.

(3) Any person aggrieved by the decision of the zoning board of adjustment may appeal such decision in accordance with article VIII, section 6 of this ordinance.

(4) Variances may be issued for the repair or rehabilitation of historic structures (see definition) upon a determination that the proposed repair or rehabilitation will not preclude the structure's continued designation as a historic structure and the variance is the minimum to preserve the historic character and design of the structure.

(5) In passing upon such applications, the zoning board of adjustment shall consider all technical evaluations, all relevant factors, all standards specified in other parts of this section and the:

(i) Danger that materials may be swept into other lands to the injury of others;

(ii) Danger to life and property due to flooding or erosion damage;

(iii) Susceptibility of the proposed facility and its contents to flood damage and the effect of such damage on the individual owner;

(iv) Importance of the services provided by the proposed facility to the community;

(v) Necessity to the facility of a waterfront location, where applicable;

(vi) Availability of alternative locations, not subject to flooding or erosion damage for the proposed use;

(vii) Compatibility of the proposed use with existing and anticipated development;

(viii) Relationship of the proposed use to the comprehensive plan and floodplain management program for that area;

(ix) Safety of access to the property in times of flood for ordinary and emergency vehicles;

(x) Expected heights, velocity, duration, rate of rise and sediment transport of the floodwaters and the effects of wave action, if applicable, expected at the site; and

(xi) Costs of providing governmental services during and after flood conditions including maintenance and repair of public utilities and facilities such as sewer, gas, electrical, and water systems, and streets and bridges.

(6) Upon consideration of the factors listed above and the purposes of this section, the zoning board of adjustment may attach such conditions to the granting of variances as it deems necessary to further the purposes of this section.

(7) Variances shall not be issued within any designated floodway if any increase in flood level during the base flood discharge would result.

(8) Variances shall only be issued upon a determination that the variance is the minimum necessary considering the flood hazard to afford relief and in the instance of a historical building, a determination that the variance is the minimum necessary so as not to destroy the historic character and design of the building.

(9) Variances shall only be issued upon:

(i) A showing of good and sufficient cause;

(ii) A determination that failure to grant the variance would result in exceptional hardship; and

(iii) A determination that the granting of the variance will not result in increased flood heights, additional threats to public safety, extraordinary public expense, create nuisance, cause fraud on or victimization of the public or conflict with existing laws or ordinances of the city.

(10) Any applicant to whom a variance or modification is granted shall be given written notice specifying the difference between the base flood elevation and the elevation to which the structure is to be built and stating the cost of flood insurance will be commensurable with the increased risk resulting from the reduced lowest floor elevation.

(11) The director of the department of planning, engineering and permits shall maintain the records of all appeal actions and report any variances to the Federal Emergency Management Agency upon request.

5. *Provisions for flood hazard reduction.*

a. *General standards.* In all areas of special flood hazard the following provisions are required:

(1) All new construction and substantial improvements shall be anchored to prevent flotation, collapse, or lateral movement of the structure.

(2) All manufactured homes shall be anchored to prevent flotation, collapse, or lateral movement attributable to water loads associated with the base flood. Methods of anchoring may include, but are not limited to, use of over-the-top or frame ties to ground anchors. This standard shall be in addition to and consistent with applicable state requirements for resisting wind forces.

(3) All new construction and substantial improvements shall be constructed with materials and utility equipment resistant to damage attributable to water loads associated with the base flood.

(4) All new construction or substantial improvements shall be constructed by methods and practices that minimize flood damage.

(5) All electrical, heating, ventilation, plumbing, air conditioning equipment, and other service facilities shall be designed and/or located so as to prevent water from entering or accumulating within the components during conditions of flooding.

(6) All new and replacement water supply systems shall be designed to minimize or eliminate infiltration of floodwaters into the system.

(7) New and replacement sanitary sewage systems shall be designed to minimize or eliminate infiltration of floodwaters into the systems and discharges from the systems into floodwaters.

(8) On-site waste disposal systems shall be located to avoid impairment to them or contamination from them during flooding.

(9) Any alteration, repair, reconstruction, or improvements to a structure which is in compliance with the provisions of this section, shall meet the requirements of "new construction" as contained in this section.

(10) Any alteration, repair, reconstruction or improvement to a building which is not in compliance with the provisions of this section, shall be undertaken only if said nonconformity is not furthered, extended or replaced.

(11) No development in a floodplain shall include locating or storing toxic chemicals, explosives, buoyant materials, pollutants, or other hazardous or toxic materials that could be injurious to human, animal or plant life, unless elevated one foot above the base flood elevation. Underground storage of fuel, toxic or flammable substances is expressly prohibited in the floodplain.

b. *Specific standards.* In all areas of special flood hazard where base flood elevation data has been provided, as set forth in subsection 3, part b. or subsection 4, part b(9), the following provisions are required:

(1) *Residential construction.* New construction or substantial improvement of any residential structure (or manufactured home) shall have the lowest floor, including basement, elevated no lower than one foot above the base flood elevation. Should solid foundation perimeter walls be used to elevate a structure, openings sufficient to facilitate the unimpeded movement of floodwaters shall be provided in accordance with standards of subsection 5, part b(2).

(2) *Nonresidential construction.* New construction or substantial improvement of any commercial, industrial or other nonresidential structure shall either have the lowest floor, including basement, elevated no lower than one foot above the base flood elevation or, together with attendant utility and sanitary facilities, be floodproofed so that below the required elevation the structure is watertight with walls substantially impermeable to the passage of water and use structural components having the capability of resisting hydrostatic and hydrodynamic loads and effects of buoyancy. A registered professional engineer or architect shall certify that the standards of this subsection are satisfied. Such certification shall be provided to the official as set forth in subsection 4, part c(2).

(3) *Elevated buildings.* New construction or substantial improvements of elevated buildings that include fully enclosed areas formed by foundation and other exterior walls below the base flood elevation shall be designed to preclude finished living space and designed to allow for the entry and exit of floodwaters to automatically equalize hydrostatic flood forces on exterior walls.

(a) Designs for complying with this requirement must either be certified by a professional engineer or architect and meet the following minimum criteria:

(i) Provide a minimum of two openings having a total net area of not less than one square inch for every square foot of enclosed area subject to flooding;

(ii) The bottom of all openings shall be no higher than one foot above grade; and

(iii) Openings may be equipped with screens, louvers, valves or other coverings or devices provided they permit the automatic flow of floodwaters in both directions.

(b) Electrical, plumbing, and other utility connections are prohibited below the base flood elevation;

(c) Access to the enclosed area shall be the minimum necessary to allow for parking of vehicles (garage door) or limited storage of maintenance equipment used in connection with the premises (standard exterior door) or entry to the living area (stairways or elevator); and

(d) The interior portion of such enclosed area shall not be partitioned or finished into separate rooms.

(4) *Standards for manufactured homes and recreational vehicles.*

(a) All manufactured homes placed, or substantially improved, on individual lots or parcels, in expansions to existing manufactured home parks or subdivisions, or in substantially improved manufactured home parks or subdivisions, must meet all the requirements for new construction, including elevation and anchoring.

(b) All manufactured homes placed or substantially improved in an existing manufactured home park or subdivision must be elevated so that:

(i) The lowest floor of the manufactured home is elevated no lower than one foot above the base flood elevation;

(ii) The manufactured home chassis is supported by reinforced piers or other foundation elements of at least an equivalent strength, of no less than 36 inches in height above grade;

(iii) The manufactured home must be securely anchored to the adequately anchored foundation system to resist flotation, collapse and lateral movement; or

(iv) In an existing manufactured home park or subdivision on which a manufactured home has incurred "substantial damage" as the result of a flood, any manufactured home placed or substantially improved must meet the standards of subsection 5, parts b(1) and (3) above.

(c) All recreational vehicles placed on sites must either:

(i) Be on the site for fewer than 180 consecutive days and be fully licensed and ready for highway use; or

(ii) The recreational vehicle must meet all the requirements for new construction, including anchoring and elevation requirements of subsection 5, part a(2) and part b(1) above. A recreational vehicle is ready for highway use if it is on its wheels or jacking system, is attached to the site only by quick disconnect type utilities and security devices and has no permanently attached structures.

c. *Standards for floodways.* Located within areas of special flood hazard established in subsection 3, part b, are areas designated as floodways. Since the floodway is an extremely hazardous area due to the velocity of floodwaters which carry debris, potential projectiles and has erosion potential, the following provisions shall apply:

(1) Prohibit encroachments, including fill, new construction, substantial improvements and other developments unless certification by a registered professional engineer is provided demonstrating that encroachments shall not result in any increase in flood levels during occurrence of the base flood discharge.

(2) If subsection 5, part c(1) is satisfied, all new construction and substantial improvements shall comply with all applicable flood hazard reduction provisions of subsection 5.

(3) Prohibit the placement of manufactured homes except in an existing manufactured home park or subdivision. A replacement manufactured home may be placed on a lot in an existing manufactured home park or subdivision provided the anchoring standards of subsection 5, part a(2), and the elevation standards of subsection 5, part b(1) and the encroachment standards of subsection 5, part c(1), are met.

d. *Standards for streams without established base flood elevation and / or floodways.* Located within the areas of special flood hazard established in subsection 3,

part b, where streams exist but where no base flood data has been provided or where base flood data has been provided without floodways, the following provisions apply:

(1) No encroachments, including fill material or structures shall be located within areas of special flood hazard, unless certification by a registered professional engineer is provided demonstrating that the cumulative effect of the proposed development, when combined with all other existing and anticipated development will not increase the water surface elevation of the base flood more than one foot at any point within the community. The engineering certification should be supported by technical data that conforms to standard hydraulic engineering principles.

(2) New construction or substantial improvements of buildings shall be elevated or floodproofed to elevations established in accordance with subsection 4, part b(9).

e. *Standards for subdivision proposals and other new developments.*

(1) All subdivision proposals and other proposed new developments, including manufactured home parks or subdivisions, shall be reviewed by the administrative officer to determine whether such proposals will be reasonably safe from flooding. If a subdivision proposal or other proposed new development is in a floodprone area, any such proposals shall be prepared by a professional engineer and be reviewed for conformance with the following standards:

(a) All such proposals shall be consistent with the need to minimize flood damage within the floodprone area;

(b) All public utilities and facilities, such as sewer, gas, electrical and water systems shall be located and constructed to minimize flood damage;

(c) Adequate drainage shall be provided to reduce exposure to flood hazards; and

(2) All subdivision plat proposals and other proposed site plans for new development in a floodprone area, including manufactured home parks or subdivisions, shall have floodplain zones delineated and base flood elevation data provided by a registered land surveyor or professional engineer.

(Ord. No. 95-56, 3-21-1995)

Section 11. Adult establishments.

1. *General applicability.* The regulations set forth in this section supplement or modify the district regulations appearing elsewhere in this ordinance and shall apply to all property within business districts as established by the council of the City of Birmingham.

2. *Purpose.* The purpose of this section is to amend the zoning ordinance of the City of Birmingham, Alabama, in a manner which:

a. Protects the constitutional rights of those persons and corporations who desire to deal in, purchase or rent "adult" or sex-oriented materials; and

b. Minimizes the public safety problems which the experience with past and current adult establishments in the city has demonstrated are substantial; and

c. Provides for zoning protection of existing residential and commercial real estate values from substantial impairment; and

d. In general to provide for the protection of the health, safety, comfort and general welfare of the citizens of the City of Birmingham.

3. *Findings of fact.* Based upon the evidence and information submitted to the council, the governing body of the City of Birmingham, Alabama, upon statements of citizens submitted to the council, upon receipts submitted by the police department of the city to this council, upon expert opinions submitted to and considered by this council, and upon the knowledge and experience gained by council members, both while serving as members of this council and prior thereof, this council hereby makes the following findings of fact:

a. Adult entertainment or sex-oriented businesses which have existed within the City of Birmingham and which currently exist, have experienced substantial numbers of arrests for sex-related offenses.

b. The number of such arrests are proportionally greater at adult entertainment or sex-oriented businesses than at other businesses in the city.

c. Adult entertainment or sex-oriented businesses have established a "community reputation" of attracting persons who do engage in various sexual practices on the premises of the business.

d. This "community reputation" tends to diminish nearby real estate values.

e. This "community reputation" reduces the perceived quality of life for neighboring residents.

4. *Definitions.* As used in this subsection, the following words and phrases will have the following meanings:

a. *Adult book store.* An establishment having, as a substantial or significant portion of its stock in trade available for purchase or rental, books, magazines, and other periodicals, cassette tapes, videotapes or films which are distinguished or characterized by their emphasis on matter depicting, describing or relating to specified sexual activities or specified anatomical areas, as defined in this subsection, or an establishment with a segment or section devoted to the sale, rental or display of such material.

b. *Adult cabaret or dancing establishment.* A cabaret or dancing establishment which features topless or bottomless dancers, go-go dancers, exotic dancers, strippers, male or female impersonators, or similar entertainers.

c. *Adult establishment.* Any adult book store, adult mini-motion picture theater, adult motion picture theater, adult cabaret or dancing establishment or any combination thereof.

d. *Adult mini-motion picture theater.* An enclosed building with a capacity of less than 50 persons used for presenting material distinguished or characterized by an emphasis on matter depicting, describing or relating to specified sexual activities or specified anatomical areas, as defined in this section, for observation by patrons therein.

e. *Adult motion picture theater.* An enclosed building with a capacity of 50 or more persons used for presenting material distinguished or characterized by an emphasis on matter depicting, describing or relating to specified sexual activities or specified anatomical areas, as defined in this section, for observation by patrons therein.

f. *Specified anatomical areas:*

(1) Less than completely and opaquely covered human genitals, pubic region, buttock, and female breast below a point immediately above the top of the areola; and

(2) Human male genitals in a discernible turgid state, even if completely and opaquely covered.

g. *Specified sexual activities:*

(1) Human genitals in a state of sexual stimulation or arousal;

(2) Acts of human masturbation, sexual intercourse or sodomy; and

(3) Fondling or other erotic touching of human genitals, pubic region, buttocks or female breast.

5. *Permit required.* No adult establishment, as defined by this subsection, shall be constructed, established, or operated by any person without first obtaining a permit from the director of the department of planning, engineering and permits, which permit shall certify that such adult establishment complies with the requirements of subsection (6) of this section.

6. *Locational requirements.* All distance limitations shown below are measured from the closest lot line between items listed. No adult establishment shall be constructed, established, or operated within:

a. 750 feet of any E, R, A or MXD zoning district, or any property, regardless of its zoning classification, that contains a single-family or two-family detached dwelling, or multiple-family dwelling;

b. 750 feet of a child care facility, kindergarten, elementary, middle, or high school, college, university, or similar type of school, whether public or private;

c. 750 feet of a public park;

d. 750 feet of a church or place of worship;

e. 1,500 feet of another adult establishment;

f. Those areas that are considered registered and listed on the National Register of Historic Places as historic districts, or areas within 750 feet of those districts. The boundaries of said historic districts are on file in the department of planning, engineering and permits;

g. A commercial revitalization district, urban renewal and redevelopment project area, or within 750 feet of those districts, as established by the council of the City of Birmingham. The boundaries of such districts are on file in the department of planning, engineering and permits.

7. *Signs.* Signs for adult establishments shall conform to the following:

a. Signs shall pertain to goods, products or services sold or offered on the premises.

b. Signs shall be attached to a vertical surface of the building or extend not more than 18 inches therefrom.

c. Signs shall not exceed in the aggregate 40 square feet of gross surface area for any lot having 40 feet or less of street frontage. On lots having a frontage greater than 40 feet, such sign or signs shall not exceed in the aggregate one square foot in area for each linear foot of principal street frontage, but in no case shall the aggregate area of such sign or signs exceed 100 square feet.

d. Signs or exterior displays of any kind shall be limited to words, phrases and numbers and shall not include live, animated or pictorial displays or any material depicting, describing or relating to specified sexual activities or specified anatomical areas that may permit the observation of such display of materials from any public way. This provision shall apply to any display, decoration, sign, show window or other openings.

(Ord. No. 10-111, 8-24-2010)

Section 12. "Q" Qualified Zone District.

Subsection 1. *Purpose.* The purpose of the "Q" (Qualified District) is to provide for the regulation of commercial, manufacturing or residential uses of land and structures in order that uses and development of said land, buildings and structures will be harmonious and compatible with and not have an undesirable or detrimental impact on surrounding development. The purpose of this section is also to protect the public welfare and the property value of surrounding property by securing an appropriate development that is in harmony with the objectives of the City of

Birmingham Master Plan as adopted by the Birmingham Planning Commission. In order to achieve the above stated purposes provision is hereby made that in consideration of a change of zone the subject property shall be limited in such manner that it may not be utilized for all the uses ordinarily permitted in a particular zone classification and/or that development of said subject property shall conform to specific standards. In such cases, the ordinance changing the zoning classification of the property in question shall place it in a "Q" (Qualified) zoning classification. The "Q" (Qualified) District shall be indicated in the rezoning ordinance passed by the city council and on the official zoning map by the symbol "Q" immediately before the combination of symbols designation, e.g., "Q" B-2 in addition to the case number assigned to the individual rezoning case.

Subsection 2. *Zone districts that may be combined with a "Q" (Qualified) District.* Rezonings for a "Q" (Qualified) District must be combined with another zone district as set forth below. A "Q" (Qualified) District may not be requested which is not so combined with these applicable districts. A "Q" (Qualified) District zoning classification shall only be used in combination with zones R-1, R-2, R-3, R-4, R4A, R-5, R-6, R-7, O&I, B-1, B-2, B-3, B-6, M-1, M-1A, M-2 and M-4 as defined elsewhere in the zoning ordinance of the City of Birmingham.

Subsection 3. *Uses permitted in a "Q" (Qualified) District.* The uses permitted in a "Q" (Qualified) District shall be limited to those set out in the rezoning ordinance passed by the city council.

Subsection 4. *Standards that may be required in a "Q" (Qualified) District.* In addition to permitted uses as set forth in subsection 3 above, the "Q" (Qualified) rezoning ordinance passed by council may impose standards on the subject property with respect to buffers, ingress and egress, development plans, drainage, and environmental plans as well as other considerations that may be necessary to make the proposed development compatible with surrounding development. All applicable limitations and/or standards within the "Q" (Qualified) District shall be considered to apply permanently to the specific uses permitted in said zone.

Subsection 5. *Expiration of development plan (time limit on development).* In the event that construction, in accordance with a development plan (when required) is not begun within two years from the date of approval by the city council of the "Q" (Qualified) District, said development plan shall become null and void.

Subsection 6. *Amendments to "Q" (Qualified) District.*

1. In the event that more permitted uses than those set forth in the "Q" (Qualified) District rezoning ordinance passed by council are desired for the subject property, the city council will, after proper notification, hold a public hearing on the matter to determine its validity.

2. Applicants for amendments pertaining only to standards, which may be required as set forth in subdivision 4 above, need only be presented to and approved by the zoning advisory committee of the Birmingham Planning Commission.

Section 13. Additional height regulations in vicinity of municipal airport.

Subsection 1. *Applicability of sections; approval of certain structures.* The regulations set forth in this section qualify or modify the district regulations appearing elsewhere in this ordinance and shall apply to all property included within the airport height control zones shown on the zoning district maps. No structure or building shall be erected which will be higher than 150 feet above the site ground level or which will be higher than 1,143 feet (500 feet above the established airport elevation) above sea level unless the location of such structure or building shall have been approved by the Federal Aviation Administration or other appropriate federal agency.

Subsection 2. *Height limitations.* No structure or portion thereof shall be erected within the airport approach zones, transitional zones, horizontal zone or conical surface in excess of the elevations described below:

1. *Approach zones.*

   a. *Southwest approach zone.* Runway 5-23, an elevation above the elevation at the end of the runway a distance equal to 1/50 of the horizontal distance beginning 200 feet from the end of the runway measured along the centerline of the runway extended.

   b. *Northeast approach zone.* Runway 5-23, north approach zone; Runway 18-36 and South Approach Zone Runway 18-36, an elevation above the elevation at the end of the runway, a distance equal to 1/40 of the horizontal distance beginning 200 feet from the end of the runway measured along the centerline of the runway extended.

2. *Transitional zones.* An elevation 1/70 of the horizontal distance measured outward at right angles to the centerline of the runway or the centerline of the centerline if extended, beginning at the interior edges of the transitional zone.

3. *Horizontal zones.* An elevation 150 feet above the established airport elevation.

4. *Conical surface.* The maximum height permitted in the horizontal zone plus an elevation 1/40 of the horizontal distance measured outward at right angles to the periphery of the horizontal zone.

Subsection 3. *Overlap of control zones.* Where airport height control zones overlap, the most restrictive height limitation shall prevail. In no case shall the requirement of this section prevent the construction of a structure not exceeding 20 feet in height.

Section 14. Holding Zone District (HZD).

Subsection 1. *Generally.* The regulations set forth in this section or set forth elsewhere in this ordinance, when referred to in this section are the regulations in the Holding Zone District (HZD). The purpose of the Holding Zone District (HZD) is to provide for the regulation of all uses and structures within areas which have been recently annexed and are yet to be developed in order to encourage the orderly timing and phasing of growth in these areas. The Holding Zone District may be applied to any areas which have been recently annexed for which the city finds should be held in a primarily undeveloped state for an interim period of time pending development and/or completion of a comprehensive land use plan for the subject area.

Subsection 2. *Use regulations.* A building or premises shall be used only for the following purposes:

1. Any use existing at the time of rezoning the subject property Holding Zone District.
2. Raising and grazing of animals, except no commercial feed lots.
3. Nurseries, green houses or the growing of crops, except that no wholesale or retail sales shall be conducted on the premises.
4. Forestry.
5. Single-family structures on one acre or more (permitted only by conditional approval of the planning commission).
6. Wireless communications facility, in accordance with article VI, section 18.
7. Accessory structures and uses which are incidental to the main use of the premises (permitted only by conditional approval of the planning commission).

(Ord. No. 97-77, § 1(title 2, art. VI, § 14, subsec. 2), 6-24-1997)

Subsection 3. *Area and dimensional regulations.* Except as provided in articles VI and VIII, the area and dimensional regulations set forth in the following table shall be observed:

Maximum Height of Structure [in] Feet	*Minimum Yards*			*Minimum Lot Area Per Family*	*Minimum Lot Width*
	Front	*Rear*	*Each Side*		
45 feet	Variable with planning commission approval				

Maximum height does not apply to barns or silos provided that additional setbacks are provided in accordance with the requirements set forth in article VI, section 13; no structures for keeping of animals shall be located closer than 150 feet from any lot line.

Subsection 4. *Parking regulations.* Off-street parking spaces shall be provided in accordance with the requirements for specific uses set forth in article V.

Section 15. Additional regulations for attached and semi-attached dwellings.

Subsection 1. *Purpose.* The purpose of these additional regulations is to provide for design flexibility in the construction of attached and semi-attached dwellings; encourage open space; promote infill housing; and encourage ownership. In the event that multiple family units are converted to attached and semi-attached single ownership, the regulations set forth in this section shall apply.

Subsection 2. *Administration.* For the purposes of this section, all new construction shall be constructed on a lot of record, showing separate ownership for each lot.

Subsection 3. *Additional permitted uses.* Recreational facilities and parking facilities shall be permitted when constructed as an accessory use to the entire development.

Subsection 4. *Open space.* Undeveloped open space, and/or outdoor recreation shall account for 35 percent of the total development in R-5, R-6 and R-7 Multiple Dwelling Districts, and 50 percent of the total development in R-4 Two-Family and Semi-Attached Dwelling Districts and R-4A Medium Density Residential Districts. In any case, not less than 25 percent of these total area percentages shall remain as undeveloped and/or landscaped open space.

Subsection 5. *Design regulations.*

[1.] *Front building lines.* Front building lines shall vary a minimum of three feet or more for every two dwelling units.

[2.] *Access and entrances.* The front doors of all dwelling units must be a minimum of ten feet from any paved surface, except walkways. Private walkways, having a destination of a public walkway or street or private drive, or parking lot shall be provided.

[3.] *Utility services.* All dwellings shall be serviced by utilities and other wiring from the rear or side of the dwelling unless underground.

[4.] *Limitations on dwelling units.* No structure shall contain any more than eight attached dwelling units.

Section 16. "C" Contingency Zone District.

Subsection 1. *Purpose.* The purpose of the "C" (Contingency) District is to provide for an orderly arrangement of uses, and to provide residential property that is adjacent to potential commercial or industrial development; and single-family residential property that is adjacent to potential multifamily development, with enough land use protection so as not to adversely affect the health, safety, morals or convenience of the general public. In order to achieve the above stated purpose, provision is hereby made that in consideration of a change in zone district boundaries that is the result of initial zoning, or zoning in accordance with a comprehensive plan,

the department of planning, engineering and permits staff, shall limit the use of the subject property to development plan approval. The "C" (Contingency) District shall be indicated in the rezoning ordinance passed by the city council and on the official zoning map by the symbol "C" immediately before the combination of symbols designation, e.g. "C" R-6.

Subsection 2. *Other zone districts that may be combined with a "C" (Contingency) District.* Rezonings for a "C" (Contingency) District must be combined with another zoned district as set forth below. A "C" (Contingency) District may not be created which is not so combined with these applicable districts. Further a "C" (Contingency) District can only be imposed by the city council or the Birmingham Planning Commission during initial zoning, or zoning in accordance with a comprehensive plan; additionally a "C" (Contingency) District cannot be requested by the property owner. A "C" (Contingency) District classification shall only be used in combination with zones R-4A, R-5, R-6, R-7, O&I, B-1, B-2, B-3, B-6, M-1, M-1A, M-2 and M-4 as defined elsewhere in this zoning ordinance of the City of Birmingham.

Subsection 3. *Uses permitted in a "C" (Contingency) District.* The uses permitted under any zone classification coupled with a "C" (Contingency) District are not affected by such "C" designation. Only the potential development of the subject property is affected.

Subsection 4. *Standards that may be required in a "C" (Contingency) District.* The "C" (Contingency) rezoning ordinance passed by council shall permit the department of planning, engineering and permits staff to impose standards on the subject property in accordance with a development plan. Said development plan shall be submitted by the developer and reviewed in a timely manner, and if necessary, revised by staff. Staff review and possible revisions of the submitted development plan shall include, but shall not be limited to the following criteria:

1. Proposed location and height of all structures and site improvements.
2. Use of all structures and premises.
3. Parking lot location, volume, ingress and egress, and landscaping.
4. Location of streets, driveways and walkways, including points of ingress and egress and access streets.
5. Service and loading spaces.
6. Solid waste container locations, access and screening.
7. Location of all overhead utilities.
8. The amount of manmade impervious surfaces in relation to the total square footage of the parcel.
9. Finished site topographic contours (at not greater than two-foot intervals).
10. Stormwater drainage plan.

11. Buffering and screening of adjacent incompatible or less intensive land uses.
12. Location, size, and number of all exterior signs.
13. Location of all exterior areas to be illuminated; all exterior lighting.
14. Location of all exterior doors.
15. Other factors which may ameliorate incompatible land uses.
16. Compliance with City's Soil Erosion and Sediment Control Code.

All applicable limitations and/or standards within the "C" (Contingency) District shall be considered to apply permanently to the specific uses permitted in said zone.

Subsection 5. *Appeal procedure.* In the event that the developer is aggrieved by the decision of the department of planning, engineering and permits, with regard to the development plan submitted, a timely appeal shall be taken by the developer to the zoning board of adjustment in accordance with the regulations set forth in this zoning ordinance, viz., article VIII, section 3.

Section 17. Child and adult care facilities.

Subsection 1. *Purpose and intent.* The regulations set forth in this section provide for the provision of child and adult care situated in normal residential and nonresidential surroundings so as to provide for an environment that is healthy and safe. It is found that affordable, good-quality, and licensed child and adult care within the city is critical to the well being of the children and adults in the community. At the same time, these standards are intended to preserve the character of the zoning districts in which they may locate.
(Ord. No. 94-66, § I, 4-5-1994)

Subsection 2. *Definitions.* For the purposes of this ordinance the following words, terms, and phrases shall have the meaning ascribed to them as specified herein. When not inconsistent with the context, words used in the present tense shall include the future tense, words in the plural number shall include the singular number and words in the singular number shall include the plural number.

1. *Adult.* A person 19 years of age or older.
2. *Adult care.* The provision of supplemental care and supervision for nonresident adults who, by reason of aging or disability, require services furnished by a facility that provides shelter and protective oversight on a regular basis for less than 24 hours a day. As used in this section, the term is not intended to include sitting services of a casual nonrecurring nature or in the adult's own home, communal living facilities, clinics or rehabilitation facilities, sanitariums or convalescent homes.

3. *Adult care facility.* A building or structure wherein an agency, association, organization, person or group of persons, whether established for financial gain or otherwise, regularly provides adult care for three or more adults.

4. *Child.* A person under 19 years of age.

5. *Child care.* The provision of supplemental parental care and supervision for a related or nonrelated child or children, on a regular basis for less than 24 hours a day. As used in this section, this term is not intended to include baby sitting services of a casual, nonrecurring nature or in a child's own home.

6. *Child care center.* A facility or licensed agency that provides for the care of 13 or more children for periods of less than 24 hours a day.

7. *Child care facility.* A building or structure wherein an agency, association, organization, person, or group of persons, whether established for financial gain or otherwise, regularly provides care for one or more nonresident children, whether related or unrelated to the operator of the facility, for periods of less than 24 hours a day. Child care facilities include family day/night care homes, group family day/night care homes, and child care centers, including centers operating as an accessory use to hospitals, churches or other institutional uses.

8. *Department of human resources (Department of Human Resources, Jefferson County).* State of Alabama or Jefferson County Department of Human Resources.

9. *Family day/night care home.* A child care facility which is the family home in which the operator resides and which receives not more than six children, which number shall be determined by counting all but two of the operator's own children six years of age or younger, for care at any one time during the day or night and is licensed as a family day/night care home by Department of Human Resources, Jefferson County. All family day/night care homes currently licensed by Department of Human Resources, Jefferson County must come into compliance with this provision (definition) no later than the anniversary date of their department of human resources license or December 31, 1994, whichever is later.

10. *Family group day/night care home.* A child care facility which is the family home in which the operator resides and which receives not more than 12 children, which number shall be determined by counting all but two of the operator's own children six years of age or younger, for care at any one time during the day or night and is licensed as a family group day/night care home by Department of Human Resources, Jefferson County. All family group day/night care homes currently licensed by Department of Human Resources,

Jefferson County must come into compliance with this provision (definition) no later than the anniversary date of their department of human resources license or December 31, 1994, whichever is later.

11. *Substitute/alternate.* A person employed by an adult or child care provider on a part-time temporary basis who is available to act as a care giver in the absence of the operator.

12 *Zoning certificate of operation.* A certificate of operation, issued by the City of Birmingham, Department of Planning, Engineering and Permits, authorizing the operation of a child or adult care facility within the corporate limits of the City of Birmingham.

(Ord. No. 94-66, § I, 4-5-1994; Ord. of 4-26-1994)

Subsection 3. *Zoning certificate required.*

1. Each child or adult care operator shall apply for a zoning certificate of operation on a form provided by the department of planning, engineering and permits. A copy of such application shall be forwarded to the appropriate neighborhood association for their information at least four weeks prior to the final determination as to approval of a certificate of operation. Applicant shall comply with all current provisions of this ordinance and receive said zoning certificate of operation from the department of planning, engineering and permits prior to beginning operation. Any child or adult care facility which is currently registered or licensed by Department of Human Resources, Jefferson County as of the effective date of this ordinance, shall apply for said zoning certificate of operation within 45 days as of the effective date of this ordinance.

2. The zoning certificate of operation shall be conspicuously posted inside the entrance or reception area of the facility.

3. The zoning certificate of operation of any child or adult care facility operator whose Department of Human Resources, Jefferson County license becomes inactive or which facility becomes inactive and ceases to operate, will be revoked immediately, and must apply as a new applicant and facility to resume operation. In this case all then current regulations must be met.

4. No changes in operation beyond the scope outlined in the zoning certificate of operation of any child or adult care facility may be made prior to application for a new zoning certificate of operation. Any child or adult care facility found to be operating beyond the terms of their zoning certificate of operation must come into compliance immediately or their zoning certificate of operation will be revoked.

5. All child and adult care facilities must submit to inspection by the department of planning, engineering and permits zoning enforcement personnel during normal hours of operation.

(Ord. No. 94-66, § I, 4-5-1994)

Subsection 4. *General requirements for all child and adult care facilities.*

1. Lot size, setbacks, and all other aspects of the premises must conform to those applicable to the zoning district in which the facility is located.
2. All state, county and city licensing requirements shall be met including business licenses and those pertaining to building, fire safety and health codes.
3. When located in a residential district, no child or adult care facility shall be permitted to be located within 1,000 feet of another child care or adult care facility also located in a residential district. Any child or adult care facility which is currently registered or licensed by Department of Human Resources, Jefferson County as of the effective date of this ordinance is exempt from this spacing requirement.

(Ord. No. 94-66, § I, 4-5-1994)

Subsection 5. *Family day/night care homes and family group day/night care homes.*

1. Family day/night care homes shall be located in a dwelling. Family group day/night care homes shall be located in a single-family detached dwelling. Its use as a family care home or family group care home shall be clearly incidental to the use of the premises for dwelling purposes by the care giver and shall be carried on wholly within the main building, except for the outside play area.
2. Family day/night care home and family group day/night care home operators shall provide the department of planning, engineering and permits with the names, dates of birth and sex of their own children for the purpose of determining the number of children which may be received for care. The zoning certificate of operation obtained from the department of planning, engineering and permits shall specify the number of children which may be cared for.
3. When located in a residential district, employment shall be limited to:
    a. Family day/night care homes: The child care provider who resides at the dwelling, and the substitute/alternate, who is on record at the department of human resources.
    b. Family group day/night care homes: The child care provider who resides at the residence, and no more than one full-time and one part-time employee, and the substitute/alternate, who is on record at the department of human resources.
4. When located in a residential district, no structural or decorative alterations shall be made or permitted that will alter the single-family character of an existing residential structure.
5. When located in a residential district, no identification signs shall be permitted.

6. Off-street drop-off/pick-up area may be determined necessary by the department of traffic engineering. If determined necessary, a site plan must be submitted for approval by the department of traffic engineering and the department of planning, engineering and permits. No pick-up/drop-off or parking shall be permitted in the required front yard except upon a paved surface providing access to a carport or garage.
7. When located in a residential district, hours of operation shall be restricted to 13 hours daily. The zoning certificate of operation obtained from the department of planning, engineering and permits shall specify the approved hours of operation.
8. Playground equipment is restricted to the rear yard only. No equipment may be located closer than ten feet to any lot line when located in a residential district. Outside activities shall be restricted to daylight hours.
9. For all family group day/night care homes off-street parking as required by article V of this ordinance must be met, unless otherwise specified in this ordinance. Spaces must not be located in the required front yard and must be improved with a suitable hard surface permanent type of pavement. A site plan indicating the required parking shall be submitted for approval by the department of planning, engineering and permits.

(Ord. No. 94-66, § I, 4-5-1994)

Subsection 6. *Child care centers.*

1. Off-street parking as required by article V of this ordinance must be met, unless otherwise specified in this ordinance. A site plan indicating the required parking shall be submitted for approval by the department of planning, engineering and permits.
2. When located in a residential district signage shall not exceed 18 square feet in area and no ground sign shall exceed four feet in height. All signage shall be lighted with only indirect, nonintermittent light. All signage shall be subject to approval by the department of planning, engineering and permits.
3. Required off-street pick-up/drop off site plan must be submitted for approval by the department of traffic engineering and the department of planning, engineering and permits.
4. When located in a residential district, playground equipment shall:
   (a) Be restricted to the rear yard;
   (b) Occupy no more than 30 percent of the required rear yard; and
   (c) Not be nearer than ten feet to any lot line.
5. When located in a nonresidential district, playground equipment shall:
   (a) Be in a rear or side yard;

(b) Occupy no more than 30 percent of the required yard; and

(c) Be no closer than three feet to any side or rear lot line, except when adjacent to a residential zone district, in which case playground equipment shall be no closer than ten feet to any lot line.

6. No child care center shall be permitted to be located in a multiple-family dwelling unit.

7. When located in or abutting residential districts or where considered by zoning board of adjustment, hours of operation may be limited by zoning board of adjustment.

(Ord. No. 94-66, § I, 4-5-1994)

Subsection 7. *Child care centers as an accessory use.*

1. No additional off-street parking is required, however primary use parking requirements must be met.

2. No additional signs shall be permitted for the accessory use.

3. Required off-street pick-up/drop-off site plan must be approved by department of traffic engineering and department of planning, engineering and permits.

4. When located in a residential district, the accessory use child care center must be contained within the primary structure or within another structure on the same lot as the primary structure, except as provided herein.

5. An accessory use child care center shall not be permitted in a residential structure.

6. No accessory use child care center shall be used as a residential dwelling.

7. When located in a residential district, playground equipment shall:

(a) Be restricted to the rear yard;

(b) Occupy no more than 30 percent of the required rear yard; and

(c) Not be nearer than ten feet to any lot line.

8. When located in a nonresidential district, playground equipment shall:

(a) Be in a rear or side yard;

(b) Occupy no more than 30 percent of the required yard; and

(c) Be no closer than three feet to any side or rear lot line, except, when adjacent to a residential zone district, in which case playground equipment shall be no closer than ten feet to any lot line.

9. When located in or abutting residential districts or where considered by zoning board of adjustment, hours of operation may be limited by zoning board of adjustment.

(Ord. No. 94-66, § I, 4-5-1994)

Subsection 8. *Adult care center.*

1. Off-street parking as required by article V of this ordinance must be met, unless otherwise specified in this ordinance. A site plan indicating the required parking shall be submitted for approval by the department of planning, engineering and permits.
2. When located in a residential district, no identification signs shall be permitted.
3. Required off-street pick-up/drop-off site plan must be approved by department of traffic engineering and department of planning, engineering and permits.
4. When located in or abutting residential districts or where considered by zoning board of adjustment, hours of operation may be limited by zoning board of adjustment.
5. Each adult care facility shall have 50 square feet of usable space for each adult being kept and cared for in the facility. Areas in the facility not considered in the calculation of usable space are kitchens, bathrooms, isolation rooms, halls or passageways, stairs and stairways, offices, and storage areas.
6. There shall be not less than one caregiver for each six adults under care in each adult care facility.
7. No adult care facility shall be permitted to be located in a multiple-family dwelling unit.

(Ord. No. 94-66, § I, 4-5-1994)

Subsection 9. *Penalties.* Any agency, association, organization, person, or group of persons, whether established for financial gain or otherwise regularly providing care for children or adults within the City of Birmingham shall be responsible for compliance with this section. Any failure or refusal to comply with this section shall be a violation and punished as provided in article VII, section 4 of this ordinance.
(Ord. No. 94-66, § I, 4-5-1994)

Section 18. Wireless communications facilities.

Subsection 1. *Purpose.* The purpose of the regulations contained within this section is to protect the public health, safety, and welfare by establishing minimum locational requirements, siting criteria and development standards for wireless communications facilities, in accordance with section 704(a) of the Federal Telecommunications Act of 1996, as amended. The impact of these regulations is consistent with the objectives of the Federal Telecommunications Act of 1996 (the Act) to accommodate quality telecommunications services for consumers at competitive pricing, encourage the rapid deployment of new technologies, and promote competition within a framework of minimum necessary regulation. As authorized by the Act, the city finds it necessary to enact and enforce these minimum standards. These standards are designed to: assure safety; ensure compatibility with adjacent land uses; preserve the character of

community design; protect revitalization and redevelopment areas, historic districts, and other like areas of considerable city investment; avoid adverse visual impacts to the city landscape; and discourage unnecessary proliferation of wireless facilities. It is the express intent of this section that the construction of new communication towers be an option of last resort. To the extent feasible, collocation of antennas on existing towers and their attachment to building rooftops and other suitable structures should first be sought. However, where new tower construction is found absolutely necessary, compatible design measures, such as monopole towers at reduced heights, camouflaging techniques, and screening should be instituted to minimize detrimental effects to the community aesthetic standards.
(Ord. No. 97-77, § 1(art. VI, § 18, subsec. 1), 6-24-1997)

Subsection 2. *Definitions.* Certain terms used in this ordinance shall have the meanings defined by this subsection. In the event a term is not listed in this subsection or is not defined elsewhere in this zoning ordinance, the conventional meaning of the term shall apply. The director is authorized to make a final determination of the meaning of any term used in this section, and, in case of any dispute, an appeal of the director's determination may be filed with the zoning board of adjustment in accordance with article VIII.

1. *Act.* The Federal Telecommunications Act of 1996, as amended.

2. *Collocation.* The placement of more than one communications antenna by more than one wireless communications service provider on a single communications tower.

3. *Communications antenna.* A device used to transmit and/or receive wireless communications services as authorized by the Federal Communications Commission (FCC), including all mounts and supporting structures other than supporting communications towers. For the purpose of this section, a communications antennae shall be classified by the director into one of the following types:

    a. *Microwave dish antenna.* Parabolic antennas that emit microwave signals.

    b. *Panel antenna.* Vertical and horizontal plane antennas that aim radio signals in specific directions. Also referred to as a sector antenna.

    c. *Whip antenna.* Cylindrical antennas which emit radio signals in a 360-degree horizontal plane and a compressed vertical plane. Also referred to as a stick, omni directional, or pipe antenna.

4. *Communications engineer.* Such registered professional engineer(s) qualified in the design and installation of wireless communications facilities and appointed from time-to-time by the mayor to advise and assist in the technical engineering aspects of the administration and enforcement of this section.

5. *Communications tower.* Any ground-mounted structure that is designed and constructed primarily for the purpose of supporting one or more antennas. For the purpose of this section, a communications tower shall be classified by the director into one of the following structural types:
   a. *Guyed tower.* A communications tower anchored with guy wires.
   b. *Lattice tower.* A self-supporting communications tower with three or more sides of open-framed supports.
   c. *Monopole tower.* A cylindrical self-supporting communications tower constructed as a single spire.
   d. *Camouflaged tower.* A self-supporting communications tower concealed to resemble an object that blends with its surroundings, such as, by way of example but not limitation, a communications tower concealed to resemble a pine tree within a wooded setting, a street lamp, a lookout tower, a clock tower, or a light post on an athletic field.
6. *Communications tower, temporary.* A transportable communications tower operating temporarily to accommodate special circumstances or in conjunction with a special event. Also referred to as a COW, cellular on wheels or communications on wheels.
7. *Compound.* A land parcel or that area of a land parcel set aside by lease agreement or easement and developed for a communications tower or commercial satellite facility and accessory buildings, structures, and equipment. Typically, the compound is demarcated by a fence and may include a landscape screen or wooded preserve surrounding the enclosure, all within the compound.
8. *Design review committee.* A committee established by [section 7-1-385 of this Code], as amended, and charged, among other duties, with the review of the urban design elements of all proposed wireless communications facilities within designated commercial revitalization and redevelopment districts, local historic districts, and other areas and sites where design review committee approval is required by this section.
9. *Director.* The director of the department of planning, engineering and permits or that person(s) charged by the director to administer and enforce the provisions of this section.
10. *Dispatch communications.* Internal private communication services between a fixed base radio station and mobile units not intended for transmission to the general public and not conducted for a profit.
11. *Engineer.* A registered professional engineer qualified in the design and installation of wireless communications facilities.
12. *FAA.* The Federal Aviation Administration.

13. *FCC.* The Federal Communications Commission.
14. *Height.* When referring to a communications tower or ground-mounted commercial satellite facility, the distance measured from the structure's lowest elevation at grade to the highest point of the structure and any projections from the structure; except a lightning rod of six or less feet shall not be included in determining the height of the structure. When referring to a communications antenna or commercial satellite facility mounted to the roof of a building, the distance measured from the top roof line to the top of the antenna.
15. *Multifamily complex.* For the purpose of this section, a tract of five or more acres planned and developed as an integral unit under single ownership or control, consisting of three or more buildings of multiple-family dwellings for individual lease or sale.
16. *Protected residential lot.* A subdivided lot used, planned, or clearly intended for residential use other than a multifamily complex, as defined by this section, regardless of zoning classification, or a vacant lot zoned residential.
17. *Public utilities.* Essential services to the public at-large, including water, sewer, telephone (except wireless), electricity, natural gas, and other services regulated by the Alabama Public Service Commission as a public utility, but excluding cable TV, radio, television, and any public utility operation of a wireless communications facility for a profit.
18. *Roof line, bottom.* A line which joins the vertical plane of a building face with the lowest horizontal member of the roof of a building.
19. *Roof line, top.* A horizontal line above which no roof surface on a building projects, excluding equipment, service penthouses and other structures mounted to a roof.
20. *Stealth concealment.* The creative application of construction techniques designed to minimize the visual impact of communications towers, antennas, commercial satellite facilities, and accessory buildings and structures. Stealth concealment may include, but not be limited to such measures as, architecturally compatible screening shields around a roof top antenna facility, specially finished antenna panels affixed to a building wall, the design of an equipment shelter to resemble a garage or household storage building, or a church steeple, spire, or clock tower enclosing antennas mounted to a building.
21. *Wireless communications facilities.* For the purpose of this section, wireless communications facilities shall be classified by the director into one of the following functional use classifications:
    a. *Broadcast facilities.* Transmission towers, relay towers, and accessory facilities used to transmit AM and FM radio signals, VHF and UHF television (TVBS) signals, wireless cable (MMDS) signals, and similar broadcast services.

b. *Cellular communications facilities.* Low-powered transmitters used to transmit signals in a cell for cellular radiotelephone services (cellular phones), personal communications services (PCS), enhanced specialized mobile radio (ESMR), trunk mobile cellular radio, paging services, and similar cellular-based communications services to the general public.

c. *Commercial satellite facilities.* Satellite earth stations which are greater than two meters in diameter and used to send and/or receive satellite signals and similar communications services.

d. *Microwave relay facilities.* Facilities used to transmit radio signals between two or more fixed points by microwave antennas and similar transmission services.

e. *Two-way radio facilities.* Fixed base stations used to communicate with mobile units or multiple points and similar radio transmission services.

(Ord. No. 97-77, § 1(art. VI, § 18, subsec. 2), 6-24-1997)

Subsection 3. *Exemptions.*

1. *Federally mandated exemptions.* The following wireless communications facilities shall be exempt from the requirements of this section, in accordance with the Federal Telecommunications Act of 1996; provided, however, such facilities may be subject to other provisions of this zoning ordinance, building and technical codes, and related parts of the city Code:

   a. Amateur radio service antennas (HAMS), provided such antennas where accessory to a residential use shall not exceed 25 feet above the established height of the zoning district.

   b. Satellite earth station antennas that are one meter or less in diameter and designed to receive direct broadcast satellite services (DBS), including direct-to-home satellite services.

   c. Antennas which receive signals from television broadcast stations (TVBS) or antennas that are one meter or less in diameter or diagonal measurement and are designed to receive wireless cable services via multi-channel multipoint distribution service providers (MMDS), provided such antennas shall not exceed 25 feet above the established height of the zoning district.

   d. Satellite earth station antennas which are two meters or less in diameter and located in any area zoned to generally permit commercial or industrial uses.

2. *Additional exemptions.* The following wireless communications facilities shall be exempt from the requirements of this section, except as noted. Such facilities shall not be exempt from the requirements of subsection 4, Prohibitions; the height limitations in subsection 6, District Use and Height Regulations; subsection 8, Required Permits and Approvals; and other applicable

provisions of this zoning ordinance, the building and technical codes, and related parts of the city Code. These facilities shall only be permitted by administrative review and approval as an accessory structure that is subordinate and incidental to an approved nonresidential use on the same parcel. An application to develop a wireless communications facility, as provided for in this section, may be required.

a. Accessory facilities used exclusively for dispatch communications by public emergency agencies.

b. Accessory facilities used exclusively for dispatch communications by government agencies.

c. Accessory facilities used exclusively for dispatch communications by private providers, provided such facilities do not exceed 15 feet in height where mounted to a building roof top or 20 feet in height where ground mounted. Further, such facilities shall not bear advertising or be lighted.

d. Facilities, such as supervisory control and data acquisition (SCADA) or distribution automation (DA) facilities, exclusively used by public utilities (as defined by this section) for monitoring and controlling the operation of public utility systems, where accessory to a permitted public utility installation, provided such facilities do not exceed 20 feet in height where mounted to a building roof top or other structure or 60 feet in height where ground mounted.

(Ord. No. 97-77, § 1(art. VI, § 18, subsec. 3), 6-24-1997)

Subsection 4. *Prohibitions.* Except as provided for in subsection 3-1, federally mandated exemptions, all wireless communications facilities shall be subject to the following prohibitions:

1. *Lattice tower prohibition.* Ground-mounted lattice towers exceeding 40 feet in height shall be prohibited throughout the city.

2. *Protected residential lot prohibition.* No communications tower, commercial satellite facility, broadcasting facility, or two-way radio facility shall be permitted on a protected residential lot, as defined by this section.

3. *Dwelling prohibition.* No communications antenna shall be attached to a one- or two-family dwelling or any other dwelling of less than 50 feet in height.

4. *Antenna height prohibition.* No communications antenna exceeding 20 feet in height shall be mounted to the roof of a building.

(Ord. No. 97-77, § 1(art. VI, § 18, subsec. 4), 6-24-1997)

Subsection 5. *Requirements applicable to all wireless communications facilities.*

1. *FCC and FAA approvals.* No permit shall be approved for a wireless communications facility without first obtaining written approvals from the FCC and FAA, if required by federal law. Copies of notices to and responses from the

FCC and FAA shall be submitted with the permit application. Should the FCC or FAA not require approval, the permit applicant shall submit an engineer's certification that no such approval is required.

2. *Birmingham Airport Authority approval.* All wireless communications facilities located within an airport height control zone or all facilities higher than 200 feet above grade (regardless of location within or outside an airport height control zone) shall obtain written approval from the Birmingham Airport Authority stating that the proposed facility is in compliance with article VI, section 13, additional height regulations in vicinity of municipal airport of this zoning ordinance, and does not interfere with the orderly implementation of the long-range airport master plan. All other facilities of less than 200 [feet] above grade shall require an engineer's certification that the proposed facility lies outside of the airport height control zones.

3. *Radio frequency (RF) emissions.* Wireless communications facilities subject to FCC standards governing radio frequency emissions shall require an engineer's certification of compliance with current FCC emission standards, before a permit may be approved.

4. *Environmental effects.* The development of any wireless communications facility shall fully comply with the most current provisions of the National Environmental Policy Act of 1969 (NEPA), as currently implemented by the FCC. The applicant for a permit to develop a facility shall evaluate a proposed site to determine possible significant impact on environmentally-sensitive areas. Should a development have an environmental impact, an environmental assessment (EA) shall be prepared and filed with the FCC for approval. A copy of the EA shall also be submitted to the director for comment to the FCC. No permit to construct a facility shall be approved unless the applicant submits an FCC-approved EA with the permit application. Should an EA not be required, the permit application shall include an engineer's certification that a thorough investigation has determined no possible significant environmental impact.

5. *Historic preservation.* No communications tower or ground-mounted commercial satellite facility shall be located within 200 feet of a locally or nationally-designated historic district or any individual property listed on the National Register of Historic Districts and Places. Permitted communications antennas and commercial satellite facilities mounted to an individually-listed historic building or any building (contributing and noncontributing) within a locally or nationally-designated historic district shall be subject to approval of the proposed design by the design review committee (DRC), in addition to other approvals required by the district use regulations. The DRC may approve, deny, or modify the proposed design to best achieve the historic preservation objectives for the particular location. Stealth concealment of antennas may be required by the design review committee. This provision extends the authority

of the design review committee to apply design review to wireless communications facilities proposed for historic districts and individual property listings on the National Register of Historic Districts and Places.

6. *Construction and safety standards.* All towers and antennas shall comply with wind loading and other structural standards contained in applicable building and technical codes, industry codes, and manufacturer standards so as not to endanger the health and safety of residents, employees or travelers in the event of structural failure due to extreme weather conditions or other acts of God.

7. *Required yards and setbacks.* All ground-mounted facilities shall meet the following yard and setback requirements:

   a. *District yard requirements.* No compound, guy anchor, tower, or commercial satellite facility shall be permitted, except in accordance with the yards required by the zoning district. The following rules shall be followed for measuring setbacks to comply with district yard requirements:

      (1) Setbacks for communications towers shall be measured from the compound fence line to the property line or, in the absence of a compound, from the perimeter of the area dedicated to the tower and equipment to the property line.

      (2) Setbacks for guy anchors shall be measured from the guy anchor to the property line.

      (3) Setbacks for commercial satellite facilities shall be measured from the edge of the satellite dish facility or the compound fence, whichever is greater, to the property line.

   b. *Additional setback requirements.* In addition to the district yard requirements, all ground-mounted facilities shall meet the following additional setback requirements, whichever result in a greater setback:

      (1) Communications towers shall be set back from all property lines to a distance equal to at least one foot of setback for each four feet of tower height, as measured from the center of the tower base to the property line.

      (2) Communications towers shall be set back at least 200 feet from a protected residential lot, as measured from the center of the tower base to the property line.

      (3) No compound, communications tower, or commercial satellite facility shall be permitted between a front building line and a street line.

   c. *Leased lot provisions.* If a facility is proposed to be placed on a leased portion of a larger lot owned by someone other than the facility owner,

setbacks shall be measured from the boundaries of the larger lot. A leased lot shall not be subdivided except in accordance with the yard and setback requirements of this section.

8. *Finish.* Painted communications towers shall be limited to gray-toned colors. For unpainted towers, the finish shall be a hot-dipped, noncorrosive, galvanized steel finish or a gray-toned, weather-resistant, treated concrete finish, except where other markings are required by the FAA for safety purposes. Likewise, communications antennas shall be gray-toned, unless otherwise required. Written evidence of required markings shall be submitted with the permit application. Satellite dishes may be painted white, black, gray, beige, or similar neutral color that most effectively blends the facility within its environs.

9. *Lighting.* Communications towers, antennas, and commercial satellite facilities shall not be artificially lighted unless required by the FAA for safety purposes. Where required, dual lighting (red at night/strobe during day) shall be installed unless restricted by the FAA. Written evidence of required lighting shall be submitted with the permit application.

10. *Security.* Each facility compound shall be fully secured. A minimum six feet high, galvanized steel or vinyl-covered, chain link fence shall be installed to secure the compound. The fence may be topped with barbed or razor wire, provided the overall height does not exceed eight feet total. Other security measures may include locks, alarms, postings, and low-intensity security lighting (maximum equivalent to a 150 watt bulb).

11. *Access.* A driveway of ten feet minimum width shall provide vehicular access to a facility compound for maintenance or emergency services. One parking space shall be provided. Where available, parking and access may be from an adjoining alley, public street, or off-street parking lot. Driveway and parking surfaces shall be stabilized and dust-free but need not be hard-surfaced.

12. *Signs.* No advertising signs shall be permitted on any facility; however, warning signs, emergency contact information signs, and signs announcing space available for collocation may be posted on all compounds. Such permitted signs shall not be illuminated and not exceed six square feet in area per sign and eight feet in height above grade.

13. *Equipment and service structures.*

    a. *Ground-mounted facilities.*

        (1) All ground-mounted utility buildings and structures shall, to the extent possible, maximize use of building materials, colors, and textures that effectively blend within the surrounding natural setting and built environment, as determined by the director.

(2) All equipment and service buildings within the compound shall be unmanned. Location of occupied buildings outside of a compound shall be regulated by the zoning district location. Broadcasting facilities shall be allowed to have studios.

(3) In the case of a camouflaged tower compound, stealth concealment shall be maximized to achieve visual compatibility.

b. *Roof-mounted facilities.*

(1) Where deemed necessary by the director to protect public views, equipment and service structures mounted to a building roof top shall be screened from ground-level views or enclosed within the building.

(2) Where feasible, alternative stealth concealment that achieves architectural compatibility and protects public views may be approved by the director.

14. *Screening.*

a. *Communications antennas.* All communications antennas and commercial satellite facilities attached to a building or structure (other than a communications tower) shall be situated so as to minimize visibility and, to the extent feasible, architecturally blend with the building design, through the use of screening, colors, material finishes, and, as the case may require, stealth concealment, as determined by the director.

b. *Facility compound.* In general, the design of a compound shall, to the extent possible, maximize use of building materials, colors, textures, screening, and landscaping that effectively blend the facility within the surrounding natural setting and built environment. To achieve visual compatibility, all compounds shall be fully screened at ground-level views from adjacent properties and public street rights-of-way, as determined by the director according to the following standards:

(1) *Standard screening method.* Screening shall be installed and maintained within a minimum six feet wide landscaped buffer strip along the perimeter of the compound, except access areas. Security fencing shall be screened to its full height, eight feet or less, by a decay-resistant, solid wood fence; earth berms and brick or masonry walls may be substitute screens. The buffer strip shall be planted with an attractive combination of trees, shrubs, vines, and/or ground covers that enhance the outward appearance of the screening fence. At minimum, the landscaped buffer shall be planted with a row of evergreen:

(a) Trees, eight feet or greater height at planting, spaced 20 feet on center or less;

(b) Shrubs, 24 inches or greater height at planting, spaced three feet on center or less.

Remaining areas of the buffer shall be planted with any combination of ground covers, vines, and mulched beds.

(2) *Preservation of natural screening.* Existing mature tree growth and natural land forms on the site shall be preserved to the maximum extent possible. Towers sited on large, wooded lots, shall preserve substantial natural growth around the property perimeter to form a sufficient screen from surrounding off-site views.

(3) *Reduced or modified screening method.*

(a) In isolated areas of intensive development of heavy commercial and industrial uses, reduced or modified screening methods shall include the use of earth-toned colored, vinyl-coated steel security fencing in combination with evergreen shrubs, trees, vines, and/or other plantings necessary to achieve visual protection from surrounding off-site views, as determined by the director.

(b) In certain remote locations where the facility cannot be seen beyond the property lines, such as remote, agricultural or rural locations, standard screening may be waived by the director, provided a natural screen is preserved, as described above in (2), preservation of natural screening.

(c) Screening may be waived or modified by the director to allow the creative application of stealth concealment that most effectively blends the facility within the surrounding natural setting and built environment and best achieves visual compatibility.

(4) *Installation, maintenance and bonding.*

(a) A required screening fence shall be installed before communications operations begin. Required plantings shall be installed within 30 days of the beginning of the next seasonal planting opportunity or within six months of permit approval, whichever comes first. All required plants shall be xeriscape tolerant. Screening shall be continuously maintained. Any dead, missing, or unhealthy plants shall be replanted at the next seasonal planting opportunity, and broken or decaying fencing shall be replaced.

(b) The director shall require surety bonds in an amount equal to 115 percent of the estimated cost of completion of the required plantings as assurance for installation and maintenance. It shall be the responsibility of the owner to obtain and maintain the bond continuously until released by the director. The bond

shall remain in effect for a period of two years from the date of permit approval and shall then be released by the director to the owner, provided all plantings have been installed and maintained as required. In the case of single ownership of multiple facilities, the owner may obtain a blanket bond to guarantee the installation and maintenance of all facilities under the same ownership and subject to bonding. The bond shall be provided by a bonding company licensed and registered in the State of Alabama. In lieu of a surety bond, the owner may file a cash bond or instrument of credit with the director in an amount equal to that which would be required in the surety bond.

(Ord. No. 97-77, § 1(art. VI, § 18, subsec. 5), 6-24-1997)

Subsection 6. *District use and height regulations.* Unless otherwise provided by other applicable provisions of this section, the regulations of this subsection shall govern the location and height of wireless communications facilities within the various zoning districts.

1. *Cellular communications, microwave relay and two-way radio facilities.*

   A. *Districts use regulations.*

      (1) *Permitted communications towers.*

         (a) Permitted by administrative review and approval in the following districts: B-2, B-3, B-5, PRD, M-1, M-1A, M-2, M-3, M-4, MXD/E, and A-1 districts.

         (b) Permitted by special exception granted by the zoning board of adjustment in the following districts: E-1, R-1, R-2, R-3, R-4, R-4A, R-5, R-6, R-7, R-8, O&I, B-1, B-6, A-2, HZD, and MXD/R districts.

         (c) Cellular communications facilities shall be restricted to monopole and camouflaged towers where communications towers are approved for the district location.

         (d) Microwave relay towers under 120 feet in height shall be restricted to monopole and camouflaged towers where communications towers are approved for the district location. Such towers greater than 120 feet in height may include guyed towers upon an engineer's certification of the structural necessity of a guyed tower (cost shall not be a consideration).

         (e) Two-way radio facilities 40 feet or greater in height shall be restricted to guyed, monopole and camouflaged towers where communications towers are approved for the district location. Towers under 40 feet in height may be lattice towers.

         (f) Communications towers located in the area designated "service commercial" by the city center master plan shall be permitted by

administrative review and approval and shall be prohibited in all other downtown master plan designations, regardless of zoning designation.

(g) The director may, in consultation with the director of communications, approve under special circumstances a permit for a temporary communications tower or COW (cellular on wheels) for a cellular communications facility where permitted in a zoning district by administrative review and approval. When operating during a publicly-recognized special event approved by the director, such tower may be installed up to 72 hours before the event begins and shall be removed within 72 hours after the event ends. If the COW installation is not associated with a special event, the maximum period that may be approved for a location shall be not more than 30 days in any given calendar year. The COW shall be fully transportable, not permanently affixed to the ground or a structure. The temporary tower shall, at minimum, comply with the district use and height regulations and setback and lighting requirements of this section, in addition to applicable building and technical codes and FCC, FAA, and Birmingham Airport Authority approvals.

(2) *Permitted communications antennas.*

(a) Permitted by administrative review and approval in all districts, under the following conditions:

i. Attached to an existing communications tower.

ii. Attached to a building.

iii. Attached to a water tower.

iv. Attached to a permitted billboard.

(b) Permitted by special exception granted by the zoning board of adjustment where attached to a structure other than an existing communications tower, building, water tower, or permitted billboard.

B. *Height limitations.*

(1) *Communications towers.* Communications towers shall be limited in height according to zoning district location, as follows:

(a) 60 feet in height when located in the E-1, R-1, R-2, R-3, R-4, R-4A, R-5, R-6, R-7, R-8, O&I, B-1, B-6, A-2, HZD and MXD/R districts, except camouflaged towers may be granted up to a 20 feet height bonus (80 feet maximum height) upon approval of visual compatibility by the director;

(b) 120 feet in height when located in the B-2, B-3, B-5, PRD, M-1, M-3 and MXD/E districts;

(c) 200 feet in height when located in the M-1A, M-2, M-4 and A-1 districts;

(d) Communications towers located in the area designated "service commercial" by the city center master plan shall be restricted to a 120 feet maximum height, regardless of zoning designation.

(2) *Communications antennas.* The maximum height of all communications antennas shall be determined by the building or structure on which the antennas are attached, as follows:

(a) 20 feet above the top roof line where mounted to the roof top of a building;

(b) The bottom roof line where a panel antenna is attached to a building face;

(c) Ten feet above the top of a sign face where attached to a billboard;

(d) Except as provided in (a), (b) and (c) above, the highest point of any other structure to which an antenna is attached.

2. *Commercial satellite facilities.*

A. *Districts use regulations.*

(1) Permitted by administrative review and approval in the following districts: B-2, B-3, B-4, B-5, B-6, O&I, PRD, M-1, M-1A, M-2, M-3, M-4, MXD/E and A-1 districts.

(2) Permitted by special exception granted by the zoning board of adjustment in the following districts: E-1, R-1, R-2, R-3, R-4, R-4A, R-5, R-6, R-7, R-8, B-1, A-2, HZD and MXD/R districts.

B. *Height limitations.* The maximum height of all commercial satellite facilities within all zoning districts shall be 15 feet if mounted to the roof top of a building and 20 feet if ground mounted.

3. *Requirements for broadcast facilities.*

A. *Districts use regulations.*

(1) *Permitted communications towers.*

(a) Permitted by special exception granted by the zoning board of adjustment in the following districts: B-5, PRD, M-1, M-1A, M-2, M-3, M-4, MXD/E and A-1 districts.

(b) To the furthest possible extent, broadcast facilities shall be restricted to remote, isolated locations not visible at ground view from surrounding properties and rights-of-way, as determined by the zoning board of adjustment.

(c) Communications towers for broadcast facilities shall be restricted to monopole and guyed towers.

(2) *Permitted communications antennas.* Permitted by right granted by administrative review and approval in all districts where attached to an existing communications tower.

(3) *Broadcasting studios permitted.* Broadcasting facilities shall also be permitted to have studios where a broadcasting facility has been approved by the zoning board of adjustment.

B. *Height limitations.* The maximum height of communications towers for broadcast facilities shall be determined on a case-by-case basis by an engineer's certification of necessary height required to achieve the proposed broadcast coverage.

(Ord. No. 97-77, § 1(art. VI, § 18, subsec. 6), 6-24-1997)

Subsection 7. *Collocation requirements.* All communications towers of 60 or more feet in height shall comply with the requirements of this subsection which are intended to encourage collocation.

1. *Shared use design.* Communication towers shall be designed to maximize shared use to the extent possible, given the structural and technical limitations of the type of tower proposed. Each tower of 60 or more feet in height shall, at a minimum, be designed for double its initially-intended use for all transmitting and receiving antennas other than microwave dish antennas. Towers 120 feet or greater in height shall be designed for triple use. Towers must be designed to allow for future rearrangement of antennas upon the tower and to accept antennas mounted at varying heights. The tower compound shall be planned for future expansion to accommodate the maximum number of shared users. An engineer shall certify compliance with these shared use design standards.

2. *Justification for new tower installation.*

   a. No new communications tower shall be installed if space is structurally and technically available for the proposed communication antennas and equipment on an existing tower or alternative site of a building or other structure, and the alternative location would cover the required area without undue signal interference.

   b. A proposal for a new tower shall be accompanied by a study prepared by an engineer that includes, at a minimum, a coverage analysis depicted on a map along with an inventory and evaluation of existing towers and alternative sites considered. The coverage analysis and inventory shall extend to a radius which varies according to the proposed tower height, as shown below:

Tower height less than 80 feet	½-mile radius

Tower height 90 to 120 feet	1-mile radius
Tower height 121 to 160 feet	1½-mile radius
Tower height greater than 160 feet	2-mile radius

c. An engineer shall certify that study results (required by b above) conclude that the system design and engineering requirements of the proposed antennas and equipment cannot be accommodated on any existing tower or alternative site (building or structure) inventoried within the study radius due to one or more of the following justifications:

(1) No existing tower or alternative site would be of sufficient height to meet the proposed coverage requirements, and the placement of multiple antennas at lower heights could not achieve the same level of service.

(2) No existing tower or alternative site is of sufficient structural strength to support the proposed antennas and equipment, and reinforcing or replacing an existing facility is not feasible.

(3) Alternative locations would cause undue radio frequency or other signal interference problems.

(4) An affidavit by the applicant assures that the owner of the alternative tower or site has been contacted but is unwilling to make space available for the proposed antennas and equipment, or such owner has offered available space but the terms of availability are not reasonable due to either of the following reasons, as confirmed by the director:

(i) The available space is not offered at a reasonable market lease rate, as substantiated by analysis of current market data; or

(ii) The terms of availability to build and operate the proposed facility are not commercially reasonable.

3. *Affidavit of collocation availability.* The permit application for a new communications tower installation shall include an affidavit of the provider's good faith intent to allow the collocation of communications antennas and equipment at a reasonable market lease rate and under commercially reasonable terms, provided the costs of modifying the facility for collocation are borne by the collocating provider, and the collocation would not cause undue signal interference with the initial installation.

(Ord. No. 97-77, § 1(art. VI, § 18, subsec. 7), 6-24-1997)

Subsection 8. *Required permits and approvals.*

1. *Special exception approval.*

a. *Approval authority and conditions.* Approval of a special exception by the zoning board of adjustment shall be made in accordance with article VIII.

The board may attach such conditions for approval as it may deem necessary in the particular case to protect the public interest and the purpose of this section.

b. *Board review criteria.* In acting upon an application for special exception approval, the board shall duly consider the purpose of this section and the following applicable review criteria, considering the unique construction and transmission requirements of each facility:

(1) *View protection.* The proposed facility design would not create materially adverse visual impacts to surrounding properties, the public right-of-way and distant vistas.

(2) *Land use compatibility.* The proposed facility would not interfere with the use and enjoyment of surrounding lands, both existing and future, and would fit the character of land use and development at the proposed location.

(3) *Design harmony.* The proposed facility design would not disturb the harmony of natural settings and surrounding development patterns.

(4) *Technical justification.* Sufficient technical evidence justifies the proposed facility location and design as a preferred alternative to achieve the necessary service coverage. If the facility is proposed for a residential zoning location, technical necessity prevents location in a nonresidential zone.

c. *Application requirements.* The following submittals, as the board deems applicable to its review of the proposal, shall supplement a zoning board of adjustment application for special exception approval:

(1) *Statement of consistency.* A statement explaining consistency of the proposal with the purpose of this section and the board review criteria.

(2) *Conceptual site plan.* A conceptual site plan showing the facility layout and location on the proposed site, including location and dimensions of all improvements, setbacks, access, security installations, screening, and such other information necessary to assess general compliance with the development standards required by this section and consistency with the board review criteria.

(3) *Topographic vicinity map.* A current USGS quadrangle sheet (1:24,000), or equivalent, showing the proposed site location and a two-mile radius with areas that the facility is visible and residential areas within the visibility areas highlighted.

(4) *Elevation.* An elevation of the facility, showing type, height, finish, lighting, site improvements, and such other details necessary to convey an image of the facility at the proposed location.

(5) *Visual impact analysis.* Photo simulations or drawings showing the visual impact from distant viewpoints.

(6) *Justification for new tower installation.* Coverage analysis and study by an engineer, as described in this section, certifying that the system design and engineering requirements of the facility cannot be accommodated on any existing tower or alternative site within the required study radius.

(7) *Engineer's certification.* An engineer shall certify that the proposed facility will be designed in full compliance with the structural, environmental, safety, dimensional, design, and all other applicable technical standards required by this section and other applicable local, state, and federal laws. A communications tower for a broadcast facility shall require an engineer's certification of height requirements.

d. *Board action and record.* The zoning board of adjustment may act to approve, modify, or deny an application within a reasonable time period, in accordance with the adopted rules of procedure of the zoning board of adjustment, as amended. In the case of modification or denial, the board shall prepare a written record of its denial or modifications, including reasons for the action. A copy of such record shall be sent by the director to the applicant within a reasonable time period following the board action to modify or deny the application.

e. *Reimbursement of technical review costs incurred by city.* Any reasonable costs incurred not to exceed $1,500.00 for the communications engineer's review and recommendation on an application shall be reimbursed by the applicant to the city. Any special exception application for a new communications tower of 60 or more feet in height may, at the director's discretion, be referred to the communications engineer for review and report of recommendations. All such applications shall include an escrow fee in the amount of $500.00. Within 30 days after the board acts on a special exception, the city shall reimburse the applicant for any excess escrow amount or, where the escrow does not cover the full costs of the communications engineer's review and report, the applicant shall reimburse the city for the shortage before the board conducts a hearing. In no event shall an applicant be obligated to reimburse the city more than $1,500.00 per application despite multiple approvals (i.e., special exception, variance and administrative approvals) that may be required by a single application for the same proposal.

2. *Administrative review and approval.* All building permit applications for new facilities and modifications to existing facilities shall be subject to administra-

tive review and approval in compliance with the requirements of this section. The following submittals, as the director deems applicable to administrative review, shall be required:

a. *Application to develop a wireless communications facility.* The applicant shall complete an application form prepared and made available by the director and submit two copies of such application and required attachments as a supplement to an application for a building permit.

b. *Required attachments.* The applicant shall submit the following attachments to the permit application, as the director deems applicable:

(1) Site plan, prepared by an engineer, fully dimensioned and drawn to scale, showing complete facility installation details, including but not limited to, property lines, lease lot lines, adjoining rights-of-way, easements, layout and location of all existing and proposed improvements, buildings, structures, mechanical and electrical equipment, setbacks, access, parking, security installations, signs, screening, landscape details, and such other detailed information necessary to assess full compliance with the development standards required by this section.

(2) Construction plans, specifications, and details, prepared by an engineer, as required by the building permit, including such additional information necessary to assess full compliance with the design and construction standards of this section, such as but not limited to, details on facility height, finish, and lighting.

(3) Engineer certifications, as required by this section:

(a) FCC and FAA approvals (include copy of notices and responses) or, should FCC or FAA not require approval, certification that no approval is required (see subsection 5-1).

(b) Birmingham Airport Authority approval for facilities located within an airport height control zone or exceeding 200 feet above grade (include copy of approval letter) or, for facilities under 200 feet above grade, an engineer's certification that the facility is not located within an airport height zone (see subsection 5-2).

(c) Compliance with current FCC radio frequency emission standards (see subsection 5-3).

(d) Compliance with FCC environmental assessment requirements (include copy of FCC-approved EA), or if not required, certification that a thorough investigation has determined no possible significant environmental impact (see subsection 5-4).

(e) Compliance with wind loading and other construction and safety standards contained in applicable building codes, technical codes, industry codes, and manufacturer standards (see subsection 5-6).

(f) Compliance with required lighting or markings by the FAA (see subsections 5-9 and 5-10).

(g) Structural necessity of a guyed tower for a microwave relay facility (see subsection 6-1-a(1)(d)).

(h) Shared use design (see subsection 7-1).

(i) Coverage analysis study and certification that the proposed facility cannot be accommodated on any existing tower or alternative site evaluated in the study radius (see subsection 7-2).

(4) Affidavits and other submittals, as required by this section:

(a) Applicant's affidavit that the owner of a feasible tower or site is unwilling to make space available for collocation or attachment (see subsection 7-2c(4)).

(b) Provider's affidavit of good faith intent to allow collocation (see subsection 7-3).

(c) Evidence of liability insurance required by city Code.

c. *Administrative action and record.* The director shall act to approve or deny a permit application within a reasonable time period following submission of a completed application. In the case of denial, the director shall prepare a written record of denial, including reasons for the action. A copy of such record shall be sent by the director to the applicant within a reasonable time period following the administrative action to deny the application.

d. *Reimbursement of technical review costs incurred by city.* Any reasonable costs not to exceed $1,500.00 incurred for the communications engineer's review and recommendation on an application shall be reimbursed by the applicant to the city. Any permit application for a new communications tower of 60 or more feet in height may, at the director's discretion, be referred to the communications engineer for review and report of recommendations. All such applications shall include an escrow fee in the amount of $500.00. Within 30 days after a permit is issued, the city shall reimburse the applicant for any excess escrow amount or, where the escrow does not cover the full costs of the communications engineer's review and report, the applicant shall reimburse the city for the shortage before the director acts on a permit application. In no event shall an applicant be obligated to reimburse the city more than $1,500.00 per application despite multiple approvals (i.e., special exception, variance, and administrative approvals) that may be required by a single application for the same proposal.

3. *Variance justification and procedures.*

a. *Approval authority and conditions.* Approval of a variance by the zoning board of adjustment shall be made in accordance with article VIII and the

additional requirements of this section. The board may attach such conditions for approval as it may deem necessary in the particular case to protect the public interest and the purpose of this section.

b. *Variance justification.* No variance shall be approved that conflicts with the purpose of this section, considering the unique requirements of each facility, and shall only be justified in extraordinary cases where the applicant has demonstrated that owing to exceptional topographic or other unique physical conditions of a particular property, the strict application of the requirement for which a variance is sought would result in exceptional hardship or practical difficulty in the construction of the proposed facility or the transmission of communications services.

c. *Application requirements.* The following submittals, as the board deems necessary to its review of the proposal, shall supplement a zoning board of adjustment application for a variance:

(1) *Variance justification.* The applicant shall fully explain the justification for the variance in accordance with b above. The variance justification statement shall also include the following certifications by an engineer:

(a) Certification of exceptional topographic or other unique physical conditions of a particular property or coverage area.

(b) Certification of exceptional hardship or practical difficulty in the construction of the proposed facility or the transmission of communications services.

(2) *Required attachments.* The applicant shall submit the same attachments required for a special exception application by subsections 8-1.c and 8-2.b, as the board deems applicable to a thorough evaluation of the variance justification, and such other information as the zoning board of adjustment may find necessary to reach a determination on the justification for the variance.

d. *Board action and record.* The zoning board of adjustment may act to approve, modify, or deny an application within a reasonable time period, in accordance with the adopted rules of procedure of the zoning board of adjustment, as amended. In the case of modification or denial, the board shall prepare a written record of its denial or modifications, including reasons for the action. A copy of such record shall be sent by the director to the applicant within a reasonable time period following the board action to modify or deny the application.

e. *Reimbursement of technical review costs incurred by city.* Any reasonable costs not to exceed $1,500.00 incurred for the communications engineer's review and recommendation on an application shall be reimbursed by the applicant to the city. Any variance application for a new communications

tower of 60 or more feet in height may, at the director's discretion, be referred to the communications engineer for review and report of recommendations. All such applications shall include an escrow fee in the amount of $500.00. Within 30 days after the board acts on a variance, the city shall reimburse the applicant for any excess escrow amount or, where the escrow does not cover the full costs of the communications engineer's review and report, the applicant shall reimburse the city for the shortage before the board conducts a hearing. In no event shall an applicant be obligated to reimburse the city more than $1,500.00 per application despite multiple approvals (i.e., special exception, variance, and administrative approvals) that may be required by a single application for the same proposal.

4. *Required approvals; coordination of review procedures.*

   a. *Required approvals.* In addition to the approvals required that may be required by subsections 8-1 through 8-3 above, the following additional approvals may be required:

      (1) *Design review committee.* All proposed facilities located in a design review district or subject to the historic preservation standards of this section shall be subject to review and approval of design by the design review committee.

      (2) *MXD steering committee.* All proposed facilities located in an MXD-Mixed Use District shall be subject to review and approval of a development plan in accordance with article IV.

      (3) *Zoning advisory committee development plan exemption.* All facilities subject to approval of a development plan, as required in the R-8, B-5, B-6, O&I, PRD and M-3 zoning districts shall be exempt from approval of a required development plan by the zoning advisory committee. Development plan approval shall be conducted by administrative review and approval in accordance with this section.

      (4) *Special conditions for review and approval.* Facilities may be subject to special conditions for review and approval set forth by conditional approval actions of the zoning board of adjustment, zoning advisory committee, subdivision committee, or city council.

   b. *Coordination of review procedures.* No permit application for administrative review and approval shall be considered unless all other approvals required by this section have been obtained. Zoning board of adjustment action shall first be obtained prior to consideration by the design review committee or MXD steering committee.

5. *Permit to operate on city-owned property.* A request to operate a wireless communications facility on city-owned property, including city-owned rights-of-way, shall be submitted to the director on an application form approved by

the city attorney. Following review and reporting of recommendations by the director, the head of the agency or department responsible for such property, and the director of communications, the city attorney shall prepare a revocable lease or contract. Such lease or contract shall specify the standards and conditions for constructing and operating the facility using the requirements of this section as a guide. If the lease or contract is approved and executed by the city, thereafter, an application to develop a wireless communications facility may be submitted with a building permit application. The wireless facility shall be exempt from the requirements of this section, other than the prohibitions listed in subsection 4 which shall still apply. Instead, the wireless facility shall be subject to standards and conditions contained in the approved lease or contract. It shall be a violation of this section for the owner or operator of any such facility to refuse or fail to comply with the terms of the approved lease or contract. Any such failure shall subject the permit holder to revocation of any such permit issued, and the owner may be required to remove any structure built under such permit.

6. *Misrepresentation of documentation.* Any affidavit, certification, studies, plans or any other documentation submitted as part of an application for approval of a wireless communications facility shall be subject to strict enforcement. If any misrepresentation is made pertaining to any such documentation, the applicant will be subject to revocation of any permit issued in reliance on such misrepresentation and may be required to remove any structure built under such permit.

(Ord. No. 97-77, § 1(art. VI, § 18, subsec. 8), 6-24-1997)

Subsection 9. *Abandoned and nonconforming facilities.*

1. *Abandoned facilities.* Any wireless communications facility that is no longer in use for its original communications purpose shall be removed at the owner's expense. The owner shall provide the director with a copy of the notice to the FCC of intent to cease operations and shall be given 90 days from the date of ceasing operations to remove the obsolete tower and accessory structures and restore the site to its natural condition. In the case of multiple operators sharing use of a single tower, this provision shall not become effective until all users cease operations. In the event FCC notification of intent to cease operations is not required, notice shall still be given to the director within the 90-day period after ceasing operations.

2. *Nonconforming facilities.* The lawful use, on the effective date of the ordinance enacting this section, of a wireless communications facility that does not conform to the provisions of this section may be lawfully continued as provided for in title 1, nonconforming uses, of this zoning ordinance.

(Ord. No. 97-77, § 1(art. VI, § 18, subsec. 9), 6-24-1997)

Section 19. U.S. Highway 280 Overlay District regulations.

Subsection 1. *Administration.*

1. *Intent and purpose.* Recognizing the special nature of the Highway 280 Corridor and the impact of the appearance of this corridor and its importance to the local economy, the intent of this section is to establish minimum standards and regulations for all building development, including access management, building design and orientation, site development, signage and landscaping, that will help insure that development is aesthetically pleasing and economically viable. To this end, the regulations set forth in this section, or set forth elsewhere in this ordinance, when referred to in this section, are regulations of the U.S. Highway 280 Overlay District. These regulations shall apply to all lands within the U.S. Highway 280 Corridor as identified on the herein attached map entitled "U.S. Highway 280 Overlay District Boundary Map," which is also incorporated into and depicted on the Zone Map of the City of Birmingham. The purposes of these regulations are to ensure creativity and compatibility of the planning and design among land uses in the corridor as well as to encourage a responsible land ethic. Additionally, these regulations have been developed with consideration of the character of the corridor in an attempt to ensure quality development and redevelopment as it occurs, to conserve the valve of property as well as to enhance the investment of all those locating within the corridor. The U.S. Highway 280 Overlay District is designed to work in conjunction with the underlying zoning district(s), present and future, in order to exercise reasonable control over the land and to accomplish the stated purposes. In addition to the development regulations set forth herein, the city has determined that access management is integral to development within the corridor. To this end, all development projects will be encouraged to be designed to minimize congestion on Highway 280, by incorporating one or more of the following principles into the site design as applicable:

   a. Limit the number of conflict points by limiting left turning movements and cross highway through movements.

   b. Separate conflict areas by adequate spacing between driveway and street intersections.

   c. Reduce interference with through traffic by providing turning lanes, designing driveways with large turning radii and restricting turning movements in and out of driveways.

   d. Provide sufficient spacing for at-grade signalized intersections.

   e. Provide adequate on-site and intra-site circulation and parking areas in order to minimize the number of driveways to the highway.

This section is not intended to repeal, abrogate, or impair any existing easements, covenants, or deed restrictions. However, where this section and another section of this ordinance conflict or overlap, whichever imposes the more stringent restrictions shall prevail.

2. *Compliance.* In consideration of an application for a building permit for property located in the Highway 280 Overlay District, the property owner or his or her agent shall submit a site plan and accompanying information to the department of planning, engineering and permits for review and approval. The site plan shall be drawn to a scale no smaller than one inch equals 50 feet and shall show the following information:

   a. All dimensions and distances, property lines, easements, landscaping, buffers and public and private rights-of-way.

   b. Existing and proposed buildings and structures, including signs, trash containers, fences, walls, light poles, power poles, outdoor utility equipment and structures, and roof and ground mounted mechanical appurtenance units.

   c. Location, height, size, materials, color and lighting of all signs.

   d. Bodies of water, water detention areas, drainage structures and sanitary sewer lines and facilities and water distribution lines.

   e. Driveways, accommodations for bicycles and pedestrians, parking areas, existing and proposed parking spaces, access aisles and other vehicle maneuvering areas; along with all required landscaping.

   f. All existing and proposed built improvements, natural features such as rock outcroppings, streams, and other landscape elements; plant materials keyed to a planting schedule with botanical names, common names, cultivar (if any), quantity of materials, size of materials at time of planting and plantscaping.

   g. Sufficient information and detail to clearly demonstrate that all applicable requirements and standards of this section are fully satisfied.

   h. The site plan shall be accompanied by:

      i. A grading plan which shows all areas of cut and fill and the grade of all finished floor elevations in relation to the elevation of the Highway 280 pavement which adjoins the property.

      ii. An access management plan which shows compliance with subsection 2.0. Proposed median access cuts must be approved by the Alabama DOT prior to submission of the site plan and access management plan.

      iii. Certification that building orientation, materials and design comply with the requirements of subsection 3.0.

iv. An exterior lighting plan which shows compliance with subsection 5.0, including the proposed foot candles of artificial light on and off premises.

v. A sign plan which shows compliance with subsection 7.

vi. A landscape plan and an irrigation plan which shows compliance with subsection 8.

vii. An erosion and sedimentation plan which meets or exceeds the requirements of the City of Birmingham Soil and Erosion Control Ordinance.

viii. Other plans or specifications necessary to show compliance with this section.

No structure or land shall hereafter be located, extended, converted, or structurally altered without full compliance with the terms of this section and other applicable regulations.

3. *Uses permitted in the U.S. Highway 280 Overlay District.* The uses permitted under any zone district classification coupled with the U.S. Highway 280 Overlay District are not affected by such overlay district designation. Only the potential development of the subject property is affected.

4. *Interpretation.* In the interpretation and application of this section, all provisions shall be:

(1) Considered as minimum requirements; and

(2) Liberally construed in favor of the governing body.

Subsection 2. *Highway 280 access.* All parcels which front onto Highway 280 and which adjoin private property are encouraged to either share access with adjoining properties or have access to a frontage road.

a. The number and location of access points to Highway 280 shall be determined as part of the site plan review process.

b. The development of each parcel in areas where a frontage road is either available or planned shall incorporate the frontage road into the site design.

c. In areas where a frontage road is not available or planned, each parcel shall be encouraged to share paved highway access drives with adjoining properties.

d. Access to Highway 280 may be prohibited from any tract having access to a street intersecting Highway 280 or any tract with frontage on Highway 280 which has access through an existing joint-use access easement or driveway. Otherwise, access to Highway 280 shall be limited to one driveway unless otherwise permitted.

e. Maximum practical spacing between driveways shall be required. Unless otherwise approved, no driveway accessing Highway 280 shall be located:

1. Closer than 300 feet from the nearest adjacent driveway, unless no other access is available to a parcel of land;

2. Where the number of feet of sight distance is less than ten times the posted speed limit;

3. On the inside radius of a curve; or

4. Where the roadway grade of Highway 280 exceeds 7.5 percent.

f. Minimum spacing between local streets intersecting Highway 280 shall be 600 feet and between collector streets shall be 1,320 feet; and improvements to intersections will be based upon a review of a professional traffic analysis.

g. The number of median breaks on Highway 280 should be minimized. All future connecting streets should align with median breaks to the greatest extent practicable.

Subsection 3. *Building design and orientation.* The following standards shall apply to all development in the corridor, except single-family detached dwellings:

a. Minimum building setback from the Highway 280 right-of-way shall be 50 feet. Minimum front building setback from other public street rights-of-way shall be 40 feet. Minimum side and rear building setbacks from other public street rights-of-way shall be 25 feet.

b. Service and loading areas, outdoor storage areas, trash receptacles, utility equipment, mechanical units, satellite dishes and similar appurtenances shall be located so as to minimize visibility from public property and shall be visually screened from view from off the premises. Trash receptacles shall be located within a four-sided structure which completely conceals the trash receptacle. The color and architecture of the structure shall be compatible with that of the building which it serves.

c. The outdoor display of sales merchandise and outdoor storage when permitted, shall not be visible from public property, except automobiles, live plants, and vending machines.

d. Mechanical units shall be ground mounted whenever possible. However, in all cases, roof-mounted units and ground-mounted units shall be screened from view from public property.

e. Building orientation shall be such that loading and service areas do not face Highway 280, except in the case of double frontage lots, where such areas must be located in a rear or side yard which faces the highway. All loading and service areas shall be screened from view from off the premises.

f. In order to prolong the life of buildings, reduce the need for periodic maintenance and maintain a character which is commensurate with the public interest, the following materials shall be used as primary exterior building wall finishes on portions of the building which are visible from the Highway 280 right-of-way: brick, stone, glass, wood, stucco, imitation stucco, precast concrete, poured concrete, and/or split-face concrete block.

g. Nonstructural awnings, covered with cloth, plastic or other fabric, shall not project more than seven feet from the building wall shall not be lower than eight feet nor higher than 14 feet above grade and shall not be internally illuminated.

Subsection 4. *Fences and walls.*

a. Screening walls and fences shall be compatible in color and materials of the building on the premises.

b. Fences designed to create privacy or separation shall be made of masonry, ornamental metal, durable wood, vinyl that is designed and fabricated to appear as wood, or a combination of these materials. Chain link, plastic or wire fencing is not permitted for fences visible from public property.

c. When visible from public property, solid fences shall have an evergreen-landscaped strip on the Highway 280 side of the fence.

d. Fences and walls shall not restrict traffic intersection sight lines.

Subsection 5. *Exterior lighting.*

a. Lighting shall have underground electric service, except where the lights, service poles and wires are not visible from public property.

b. The intensity, location and design of lighting shall be such that not more than one footcandle of light is cast upon adjacent property or the public right-of-way. Light fixtures shall be designed to cast light downward. Where necessary, cut off devices shall be used to minimize glare off premises.

c. Exterior lights shall not exceed 20 feet in height.

d. Wooden light poles are prohibited on private property.

e. Light poles and fixtures shall be compatible with the architecture of the buildings on the premises.

f. Flashing, blinking or intermittent lights or bare neon tubing, are prohibited.

Subsection 6. *Grading and drainage.*

a. Except for retaining walls, smooth topographic transition shall be provided throughout the site and between properties. Slopes steeper than 1:3 rise to run are prohibited.

b. The exterior surface of retaining walls shall be compatible with the architecture and site design of the property.

c. Retaining walls which exceed eight feet in height and are visible from public property, shall be visually screened with vegetation.

d. In areas which are visible from public property, subsurface drainage structures and grass swales shall be used to manage stormwater. Open ditches are prohibited.

e. The use of crushed granite or limestone for slope stabilization and storm drainage is prohibited in the public right-of-way and areas which are visible from the through and auxiliary lanes of Highway 280.

f. Prior to the issuance of a certificate of occupancy for the premises, all slopes shall be stabilized with grass or other evergreen groundcover or other vegetation.

Subsection 7. *Signs.*

1. *Permits required.* A sign permit shall be obtained from the department of planning, engineering and permits prior to the erection or placement of a sign which is regulated by this section.

2. *Exempt signs.* The following signs are exempt from the requirements of this section, provided they do not create a safety hazard as determined by the appropriate governmental authority.

    a. Directional signs which do not exceed four square feet of copy area nor three feet in height, located in parking or vehicle maneuvering areas, which are intended to direct traffic through the area and do not contain any advertising.

    b. Regulatory, statutory and traffic control signs necessary to promote the public health, safety and welfare; as required by the municipal, county, state or federal government.

    c. Legal notices, memorial and historical markers and other official government signs.

    d. Holiday lights and decorations.

    e. Signs incorporated into vending machines by a manufacturer or distributor, which identify or advertise only the product or service dispensed by the machine, including gasoline pumps, and telephone booths.

    f. Merchandise displayed behind storefront windows so long as no part of the display moves or contains flashing lights.

    g. Advertising and identifying signs located on taxicabs, buses, trailers, trucks or vehicle bumpers.

h. Public warning signs to indicate the dangers of trespassing, swimming, animals or similar hazards.

i. Reserved.

j. Reserved.

k. Works of art that do not constitute advertising.

l. Signs carried by a person.

m. One temporary, construction sign not to exceed 16 square feet in area, nor six feet in height.

n. Projecting (or blade) signs subject to administrative review provided that said sign(s) shall not extend more than four feet from the vertical surface of the building to which it is mounted, shall be a minimum of eight feet above the exterior grade, and the total sign face area (excluding bracket or mounting device) shall not exceed 16 square feet for one sign (total for both faces), 24 square feet for two signs (total four faces), or 30 square feet for three signs (total six faces). The maximum number of projecting signs per building or tenant space shall be based on actual linear feet of frontage. Only one sign is exempted for frontage of less than 50 feet, two signs for frontage of greater than 50 feet but less than 100 feet, and three signs for frontage of greater than 100 feet with a maximum of three signs per building or tenant space.

3. *Prohibited signs.* The following signs are prohibited, unless otherwise exempted or permitted by this article:

a. Signs which do not comply with the adopted building, electrical or fire codes.

b. Any sign which constitutes a safety hazard, as determined by the appropriate governmental authority, including signs which obstruct visibility at intersections.

c. Signs which are not permanently attached to the ground or a building, including, portable signs, inflatable signs, banners and similar devices.

d. Off-premises signs.

e. Signs located in the public right-of-way and signs attached to trees or poles, including signs attached to private property located in the public right-of-way.

f. Animated signs, including signs which move, revolve, rotate, or appear to be animated by mechanical, electronic or other means.

g. Signs with flashing, blinking, moving or intermittent light or with light which varies in intensity or color, except time and temperature signs.

h. Strings of light bulbs, inflatable signs, and signs which emit noise, odor or visible matter such as smoke or steam.

i. Wind driven signs including banners, flags, pennants, ribbons, spinners, streamers, captive balloons and similar devices.

j. Roof signs.

k. Signs that incorporate projected images, emit any sound that is intended to attract attention or involve the use of live animals.

l. Signs or sign structures that interfere, in any way, with the free use of any fire escape, emergency exit or standpipe, or that obstructs any window to such an extent that light or ventilation is reduced to a point below that required by any provision of these regulations.

m. Signs that resemble any official sign or marker erected by any governmental agency, or that by reason of position, shape or color, would conflict with the proper functioning of any traffic sign or signal, or be of a size, location, movement, content, color or illumination that may be reasonably confused with or construed as, or conceal, a traffic-control device; or, nongovernmental signs that use the words "STOP," "LOOK," "DANGER," or any similar word, phrase or symbol.

n. Signs that contain any writing or control mechanism that causes unreasonable interference with radio, television or other communication signals.

4. *General regulations for all signs throughout the corridor.* The following regulations are applicable for signs on private property throughout the corridor:

a. Not more than one flag of governmental, religious, charitable, or fraternal organizations may be displayed on any one parcel of land. The flag shall not exceed 15 square feet in area and shall be flown from a pole, the top of which shall be less than 35 feet in height.

b. No sign shall have more than two faces.

5. *Temporary signs.*

a. Each business, institution or public building may have one temporary banner affixed to the building wall, which advertises a sale or special event. However, each business, institution or public building shall be limited to not more than a total of 30 days each calendar year, during which such a temporary sign may be displayed, except that no such sign may be erected for a period of ten days or more. A temporary sign permit shall be obtained prior to erection of the sign.

b. Each new business may have one illuminated, temporary sign, which may be a banner, which shall not to exceed 32 square feet in sign face area and

shall be attached to the building wall of the premises for a period not to exceed 30 days, or until a permanent sign is installed, whichever time period is shorter. A temporary sign permit shall be obtained prior to erection of the sign.

c. Commercial property may have one, nonilluminated, freestanding, temporary identification sign per facing street, while the property is being developed, which shall not exceed 48 square feet of sign face area nor ten feet in height. For a single tenant project, the sign shall be removed when the project is complete, or the permanent sign has been erected, whichever occurs first. For multi-tenant projects, the sign shall be removed when 75 percent of the tenant spaces have been leased, or the permanent sign has been erected, whichever occurs first.

d. Residential subdivisions with five or more lots may have one freestanding, on-premises, temporary identification sign while the subdivision is being developed, which shall not exceed 32 square feet of sign face area nor ten feet in height. The sign shall not be illuminated and shall be removed within 120 days after construction begins on the first dwelling in the subdivision, or the permanent subdivision identification sign has been erected, whichever occurs first.

e. Each premises may have one on-premises sign, which advertises the sale or lease of the property, which does not exceed six square feet of sign face area when located in a single-family residential zoning district, and 24 square feet in all other zoning districts. The signs shall be removed upon the sale or lease of the premises.

6. *Signs permitted for retail and service establishments which are not located in a shopping center.* Each building may have one freestanding sign and one building wall sign or one canopy sign per facing street. However, in no case can a building have more than two building wall signs. Reader boards with moveable copy may be incorporated into the sign face area of a freestanding sign. Sign face area of a reader board shall be included as part of the maximum freestanding sign face area permitted by this subsection.

a. *Freestanding sign, more than eight feet in height.*

i. Maximum height of the sign shall be 20 feet above the average elevation of the ground at the base of the sign, or ten feet above the center line elevation of the public street or highway which is closest to the sign. Said elevation shall be measured at the point on the centerline which is closest to the sign. Berms shall not be used to increase the height of a freestanding sign.

ii. The maximum sign face area of an internally illuminated sign shall be 55 square feet.

iii. The maximum sign face area of a nonilluminated or indirectly illuminated sign shall be 66 square feet.

iv. Signs shall be set back at least ten feet from any property line.

b. *Freestanding sign, eight feet or less in height.*

i. Maximum height of the sign shall be eight feet above the average elevation of the ground at the base of the sign. Berms shall not be used to increase the height of a freestanding sign.

ii. The maximum sign face area of an internally illuminated sign shall be 66 square feet. Sign face area of the sign may be increased 0.5 square feet for each additional foot of building setback from the property line in excess of 50 feet, up to a maximum sign face area of 100 square feet.

iii. The maximum sign face area of a nonilluminated or indirectly illuminated sign shall be 80 square feet. Sign face area of the sign may be increased 0.5 square feet for each additional foot of building setback from the property line in excess of 50 feet, up to a maximum sign face area of 100 square feet.

iv. Signs shall be set back at least ten feet from any property line.

c. *Building wall and canopy signs.* The maximum sign face area shall be 15 percent of the building wall area to which the sign or canopy is attached, up to a maximum sign face area of 150 square feet. The maximum sign face area may be increased one square foot for every five feet of building setback in excess of 50 feet, up to a maximum of 210 square feet.

7. *Signs permitted for retail and service establishments located in a shopping center.* Each tenant space may have one building wall sign or one canopy sign. A tenant space with more than 50,000 square feet of gross floor area may have one building wall sign or one canopy sign per facing street, if the tenant space is located at the end of the shopping center building which faces a public street intersection.

a. The building wall sign or canopy sign for each business shall be attached to a front or side building wall which encloses that business premises.

b. The maximum sign face area shall be 15 percent of the building wall area to which the sign or canopy is attached, up to a maximum sign face area of 150 square feet. The maximum sign face area may be increased one square foot for every five feet of building setback in excess of 50 feet, up to a maximum sign face area of 210 square feet.

8. *Shopping center identification signs.* Each shopping center may have one freestanding sign which identifies the name of the shopping center. Tenant

signs are permitted, provided that the combined total sign face area for both tenant signs and the shopping center identification sign does not exceed the maximum allowable sign face area shown in subsection 7.08.a.ii and iii.

a. *Freestanding sign.*

i. Maximum height of the sign shall be 20 feet above the average elevation of the ground at the base of the sign, if the average grade is at or lower in elevation than the centerline of the nearest public street; or ten feet above the average elevation of the ground at the base of the sign, if the average grade is higher in elevation than the center line elevation of the nearest public street. Said elevation shall be measured at the point on the centerline which is closest to the sign. Berms shall not be used to increase the height of a freestanding sign. For shopping centers with more than 300 continuous feet of public road frontage, maximum height of the sign shall be 30 feet above the average elevation of the ground at the base of the sign, if the average grade is at or lower in elevation than the centerline of the nearest public street; or 18 feet above the average elevation of the ground at the base of the sign, if the average grade is higher in elevation than the center line of the nearest public street. Said elevation shall be measured at the point on the centerline which is closest to the sign. Berms shall not be used to increase the height of a freestanding sign.

ii. The maximum sign face area of an internally illuminated sign shall be 55 square feet. Sign face area may be increased one square foot for every eight feet of continuous public street frontage in excess of 300 feet, up to a maximum sign face area of 96 square feet.

iii. The maximum sign face area of a nonilluminated or indirectly illuminated sign shall be 66 square feet. Sign face area may be increased one square foot for every five feet of continuous public street frontage in excess of 300 feet, up to a maximum sign face area of 120 square feet.

iv. Signs shall be set back at least ten feet from any property line.

9. *Signs permitted for office, industrial and institutional buildings.* Each office, industrial or institutional building may have one freestanding sign; and one building wall sign per facing street, but in no case more than two wall signs.

a. *Freestanding signs.*

i. Maximum height shall be eight feet above the average elevation of the ground at the base of the sign. Berms shall not be used to increase the height of a freestanding sign.

ii. The maximum sign face area of an internally illuminated sign shall be 32 square feet; 80 square feet for office buildings with gross floor area greater than 100,000 square feet which are not located in an office park.

iii. The maximum sign face area of a nonilluminated or indirectly illuminated sign shall be 48 square feet; 120 square feet for office buildings with gross floor area greater than 100,000 square feet which are not located in an office park.

iv. Signs shall be set back at least ten feet from any property line.

b. *Building wall signs.* The maximum sign face area shall be 15 percent of the building wall area to which the sign is attached, up to a maximum sign face area of 60 square feet. In addition, each retail establishment located in an office or institution building may have one building wall sign which shall not exceed 30 square feet of sign face area and shall be attached to the building wall of the retail tenant space.

10. *Office parks, industrial parks, institutional campuses and mixed use developments.* Each office park, industrial park, institutional campus and mixed use development which contains more than two buildings, other than accessory buildings, may have one freestanding sign per public street entrance, which identifies the name of the park or campus.

a. Maximum height of the sign shall be eight feet above the average elevation of the ground at the base of the sign. Berms shall not be used to increase the height of a freestanding sign.

b. The maximum sign face area of an internally illuminated sign shall be 48 square feet; 100 square feet for developments with buildings which contain a total of more than 500,000 square feet of gross floor area.

c. The maximum sign face area of a nonilluminated or indirectly illuminated sign shall be 60 square feet; 120 square feet for developments with buildings which contain a total of more than 500,000 square feet of gross floor area.

d. Signs shall be set back at least ten feet from any property line. Signs with sign face area of 100 square feet or more shall be set back at least 50 feet from any property line.

11. *Signs permitted for multiple dwellings.* Each complex or community of multiple dwellings is permitted one freestanding sign per public street entrance.

a. Maximum height of the sign shall be six feet above the average elevation of the ground at the base of the sign. Berms shall not be used to increase the height of a freestanding sign.

b. All signs shall be nonilluminated or indirectly illuminated and the maximum sign face area shall not exceed 32 square feet. Signs may not be located in the public right-of-way.

c. Signs shall be set back at least ten feet from any property line.

d. All such signs shall be maintained perpetually by the developer, the owner of the sign, a pertinent homeowner's association or some other person who is legally accountable. Such accountability is required before a permit shall be issued. If, following the issuance of a permit and subsequent erection of such signs, no accountable person accepts legal responsibility to maintain the signs and no other provision has been made for maintenance, the signs shall be removed by the developer or owner.

12. *Signs permitted for single-family dwellings.*

a. Each approved home occupation may have one nonilluminated building wall sign which does not exceed one square foot of sign face area and which identifies the name of the business.

b. Each residential subdivision is permitted a maximum of one nonilluminated or indirectly illuminated freestanding sign per public street entrance to the subdivision. The sign shall only identify the name of the subdivision and shall be incorporated into landscaping which compliments the design of the signs and creates an entrance feature for the subdivision. The sign shall not be located in the public street right-of-way. Maximum height of the sign shall be six feet above the average elevation of the ground at the base of the sign. Berms shall not be used to increase the height of a freestanding sign. The maximum sign face area of the nonilluminated or indirectly illuminated ground sign shall be 32 square feet. Signs shall be set back at least five feet from any property line.

13. *Sign definitions.*

Awning or canopy sign. A sign that is mounted, painted on or attached to an awning or canopy.

Banner. A sign, not otherwise classified as a temporary sign, made of cloth, canvas, plastic sheeting or any other flexible material, not rigidly attached to a building or the ground through a permanent support structure.

Building. A structure having a roof supported by columns or walls.

Building wall sign. A sign attached parallel to, supported by and not more than 14 inches from, the exterior wall of a building. The sign may be painted on the surface of the wall or erected and confined within the limits of said wall.

Construction sign. A sign pertaining only to the construction, alteration, rehabilitation or remodeling of buildings, identifying only those parties involved in construction on the premises and future activity for which the construction is intended.

Freestanding sign. A permanent sign which is not attached to a building.

Indirectly illuminated sign. A sign which is illuminated by a light source which is external to the sign cabinet or structure.

Internally illuminated sign. A sign which is illuminated by a light source which is behind the sign face.

Institution. A nonprofit or quasi-public use such as a church, library, public or private school, hospital or publicly owned or operated building, structure or property used for a public purpose.

Mixed use development. A development which contains any combination of retail, office, institution or multifamily residential uses.

Off-premises sign. A sign which directs attention to a business, commodity, service or entertainment conducted, sold or offered at a location other than the premises on which the sign is located.

Portable sign. Any sign not permanently attached to the ground or another permanent structure; including but not limited to: signs designed to be transported by means of wheels, "A" frame signs, menu and sandwich board signs, balloons used as signs, umbrellas used for advertising and signs attached to or painted on vehicles, parked and visible from the public right-of-way, unless said vehicles are used in the normal day to day operations of the business.

Premises. A lot, parcel or tract of land together with the buildings and structures thereon, having a separate street address.

Projecting (or blade) sign. A sign that is attached to the exterior wall of a building and extends perpendicular more than 14 inches from the wall of the building.

Public property. Property owned by a municipality, a county, the State of Alabama or the United States government, except property used for public utility purposes. All public street rights-of-way are public property.

Real estate sign. A sign indicating that the property on which the sign is located is for sale, lease or development, to announce an open-house event in connection with the sale or lease of a building, or to identity a model home.

Roof sign. A sign which is attached to and supported by a building and extends above the exterior wall of the building to which it is attached.

Shopping center. A building which contains two or more retail establishments.

Sign. A name, identification, image, description, display or illustration which is affixed to, printed or represented directly or indirectly upon a

building, structure or piece of land, and which directs attention to an object, product, place, activity, facility, service, event, attraction, person, institution, organization or business.

Sign face area. The sign face area of any sign with only one sign face shall be computed by means of the smallest geometric figure that encompasses the extreme limits of the writing, representation, emblem, or other display, together with any material or color forming an integral part of the background of the display or used to differentiate the sign from the backdrop or structure against which it is placed. The sign face area for a sign with more than one face shall be computed by adding together the area of all sign faces visible from any one point. When two sign faces are placed back to back, so that both faces cannot be viewed from any point at the same time, and when such sign faces are not more than 42 inches apart, with a horizontal angle no greater than 30 degrees, the sign area shall be computed by the measurement of one of the sign faces.

Sign height. The vertical distance measured from the lowest finished grade elevation directly beneath the center of the sign to the highest elevation of the sign.

Temporary sign. A sign not permanently and rigidly affixed to the ground or a building.

Subsection 8. *Buffers and landscaping.*

1. *Purpose.* The buffers and landscaping standards are provided to enhance the physical appearance of buildings, their designated parking areas, and the positive impact of parking areas on adjacent land uses.

2. *Impervious surfaces.* Except for single-family dwellings, impervious surfaces such as rooftops and pavement areas for each development shall not cover more than 80 percent of a lot or parcel.

3. *Buffers.*

   a. *Applicability.* The following table shows required buffers in the corridor. When the use in Row A is developed adjacent to the use in Column B, the use in Row A shall provide the required buffer. Required buffers shall be located along all property lines that separate property which is currently used for the uses stipulated in the following table.

   b. *Buffers.* Required buffers may be natural areas, planted areas or a combination of both. All required buffers shall meet or exceed the standards of this subsection.

Table I. Buffers					
Width of Required Buffer Expressed in Feet					
Row A

c. *Maintenance.* The property owner shall be responsible for maintenance, repair and replacement of all landscaping materials and irrigation systems required by this section. All plant material shall be tended and maintained in a healthy growing condition, replaced when dead and kept free of weeds, refuse and debris.

d. *Irrigation.* All required buffers shall be irrigated with a fully automated irrigation system; except for those buffers which are approved as natural buffers. Automatic controllers shall be screened from view, locked and not easily accessible to pedestrian traffic. Required backflow prevention devices connected to the water system shall be screened from view and shall not be set in lawn areas. Shrub and lawn sprinkler heads adjacent to pedestrian walks, parking spaces, driveways and structures shall be high pop-ups installed one-half inch from the edge of curbs and walks and six feet from architectural structures. The owner shall keep the irrigation system in proper working condition as a part of a regular maintenance program.

4. *Landscaping for parking areas.*

a. *General requirements.* The following requirements shall be met concerning improvements to parking lots:

i. Landscape plans for developments that require 100 or more off-street parking spaces shall be prepared by a registered landscape architect or a licensed landscape designer. All submitted plans shall bear the architect's/designer's seal, signature and State of Alabama registration number.

ii. All cuts and fills and/or terraces shall have sufficient vegetative cover installed so as to prevent erosion.

b. *Landscape plan requirements.* The following plan requirements shall be fulfilled:

   i. All landscaping plans shall be drawn at an appropriate scale so as to convey the design intent, to the appropriate planning and zoning authority.

   ii. All submitted plans shall include: the title of development, name and address of owner/developer/agent; name and address of person/firm preparing the plans; date of preparation, scale, north arrow and dates of all revisions; a location map of site to nearest public street intersection; boundaries of property in concern; location and description of all adjacent properties, streets and easements; parcel identification and zoning classification; number of parking spaces; total square footage of impervious areas and landscaping; and the location and dimensions of entrance/exit points.

c. *Applicability.* These regulations apply to all areas, (hereinafter referred to as parking areas), which are open to the general public or visible from public property, and used for off-street parking and loading, vehicle maneuvering and the retail sale of motor fuels. These regulations shall apply to new parking areas and to any enlargement of parking areas by 25 percent or more. The enlargement of any existing parking area by 25 percent or more shall require that the existing and new parking areas conform the requirements of this section. Multilevel parking structures are exempt from the interior planting requirements.

d. *Design standards.* Only large trees may be planted to comply with the requirements of this subsection, except when site visibility at intersections or when overhead utilities prevent the use of large trees, in which case medium or small trees may be used. Interior landscaped islands and perimeter planting areas shall be planted with trees equal to or greater than one tree for each 900 square feet of impervious parking area. Only trees listed in the tree selection list and noted with (*) may be planted within or on the perimeter of a parking area. Large parking areas shall be designed as a series of smaller lots that provide space for not more than 100 cars. The smaller lots shall be separated by internal planting areas that form a perimeter which is at least nine feet wide, planted with large trees and shrubs. These planted areas shall be counted as part of the ten percent internal planting requirement for parking areas.

e. *Perimeter planting.* The width of required perimeter planting areas, which are located within required buffer areas, may be included as part of the minimum buffer width, provided that the plant materials meet the minimum standards for a buffer. Parking areas shall be separated from the Highway 280 right-of-way by a 15-foot-wide perimeter planting area. The perimeter planting area shall contain a double staggered row of

evergreen shrubs which are at least 18 inches in height at the time of planting and which shall be maintained at a height of 36 inches at maturity. Shrubs should be spaced to allow growth of species type. Deciduous trees shall be equal in number to one tree per 25 feet of Highway 280 frontage. Large trees shall be planted on 35 foot centers and small and medium size trees shall be planted on 25 foot centers. Parking areas shall be separated from other public road rights-of-way by a ten-foot-wide perimeter planting area. The perimeter planting area shall contain a double staggered row of evergreen shrubs which are at least 18 inches in height at the time of planting and which shall be maintained at a height of 36 inches at maturity. Shrubs should be spaced to allow growth of species type. Deciduous trees shall be equal in number to one tree per 25 feet of public street frontage. Large trees shall be planted on 35-foot centers and small and medium size trees shall be planted on 25-foot centers. Parking areas shall be separated from other private property by an eight-foot-wide perimeter planting area. The perimeter planting area shall contain a double staggered row of evergreen shrubs which are at least 18 inches in height at the time of planting and which shall be maintained at a height of 36 inches at maturity. Shrubs should be spaced to allow growth of species type. Deciduous trees shall be equal in number to one tree per 50 feet of abutting property line. Large trees shall be planted 35 feet on center and small and medium size trees shall be planted 25 feet on center.

f. *Interior planting.* Notwithstanding the requirements of any other provisions in this section, whenever the impervious surface of a parking area exceeds 8,000 square feet, an area equal to ten percent of the impervious surface area shall be provided for landscaping islands in the interior of the parking area. Plant material located within six feet of a building shall not be included as part of the minimum interior planting requirement. The interior parking area planting requirement is in addition to the required perimeter planting. Gasoline service stations and automobile sales lots are exempt from the interior planting requirements. The interior islands shall be at least nine feet by 20 feet, planted with a combination of large trees and evergreen shrubs. One landscaped island shall be required for each row of 12 contiguous parking spaces. Each landscaped island shall contain at least one large tree which meets the minimum requirements of this section.

g. *Maintenance.* The property owner shall be responsible for the maintenance, repair and replacement of all landscaping materials, barriers and irrigation systems required by this section. All plant material shall be maintained in perpetuity in a healthy growing condition, replaced when dead and kept free of weeds, refuse and debris.

h. *Irrigation.* All required landscaping shall be irrigated by an automatic irrigation system; except required interior landscaping within an existing parking area which is being landscaped to comply with the requirements of this ordinance. Pop-up heads or drip emitters shall be installed for shrub and lawn irrigation of areas next to buildings/structures, driveways, parking spaces and pedestrian walks.

i. *[Conformance.]* All installation, spacing and maintenance of plant materials shall conform to the American Standard for Nursery Stock, latest edition, published by The American Association of Nurserymen and Standardized Plant Names latest edition, by The American Joint Committee on Horticultural Nomenclature.

j. *Trees.* Only trees in the tree selection list may be planted in required landscaping and buffer areas.

   i. Shade trees shall be a minimum of 2½-inch caliper in size at planting.

   ii. Flowering trees shall be at least six feet in height at planting.

   iii. Pines shall be at least five gallon, or five feet in height at planting. Spacing of pine trees in containers shall be a maximum of eight feet on centers.

k. *Tree selection list.* Trees permitted in landscaped buffers are noted with the (#) sign. Trees permitted in parking areas are noted with the (*) sign. All tree heights listed are heights at maturity.

Small Deciduous Trees (trees from 10' - 40' in height)

Acer barbatum	Florida Maple #
Betula nigra	River Birch # *
Cercidiphyllum japonicum	Katsura Tree # *
Cercis canadensis	Redbud # *
Koelreuteria paniculata	Goldenrain Tree # *
Lagerstroemia indica	Crape Myrtle # *
Prunus c. pissardi	Purple Leaf Plum
Prunus serrulata 'Kwanzan'	Kwanzan Cherry *
Prunus x incam 'Okame'	Okame Cherry *
Prunus yedoemsis	Yoshino Cherry *
Pyrus calleryana 'Bradford'	Bradford Pear *

Large Deciduous Trees (trees at least 40' in height)

Acer rubrum	Red Maple # *
Fraxinus americana	White Ash *
Ginkgo biloba	Ginkgo # *
Platanus occidentalis	Sycamore #

Quercus acutissima	Sawtooth Oak *
Quercus alba	White Oak *
Quercus coccinea	Scarlet Oak*
Quercus falcata	Southern Red Oak *
Quercus nigra	Water Oak *
Quercus palustris	Pin Oak *
Quercus phellos	Willow Oak # *
Quercus shumardii	Shumard Oak # *
Ulmus parvifolia	Chinese Elm *
Zelkova serrata	Zelkova # *
Small Evergreen Trees (trees less than 25' in height)	
llex x attenuata 'Fosteri'	Foster's Holly # *
llex opaca	American Holly # *
	East Palatka # *
	Hume No. 2 # *
	Lusterleaf # *
	Nellie R. Stevens # *
	Savannah # *
Ilex vomitoria	Tree Form Yaupon Holly *
Juniperus virginiana	Eastern Red Cedar # *
Myrica cerifera	Wax Myrtle # *
Medium Evergreen Trees (trees from 25' to 50' in height)	
Cupressocyparis leylandii	Leyland Cypress # *
Juniperus virginiana	Eastern Red Cedar # *
Pinus echinata	Shortleaf Pine *
Pinus thunbergiana	Japanese Black Pine#
Large Evergreen Trees (trees at least 50' in height)	
Magnolia grandiflora	Southern Magnolia # *
Pinus caibaea	Slash Pine *
Pinus strobus	Eastern White Pine *
Pinus taeda	Loblolly Pine # *
Pinus Virginiana	Virginia Pine # *

5[l.] *Shrubs.* Shrubs used for screening shall be evergreen and shall obscure the view of the screened item upon installation. Only the following shrubs may be planted in required landscaping and buffer areas, in compliance with the following size/spacing relationships:

Ilex c. compacta	Compacta Holly
Ilex c. burfordi	Burford Holly # *
Ilex. c. burford nana	Dwarf Burford Holly
Ilex c. rotunda	Dwarf Chinese Holly

Ilex c. needlepoint	Needlepoint Holly
Juniperus p. nana	Dwarf Pfitzer Juniper
Ilex vomitoria nana	Dwarf Yaupon Holly
Illicium anisatum	Japanese Anise Shrub
Ligustrum japiconica	Lusterleaf Ligustrum # *
Photinia x fraseri	Photinia Fraseri
Photinia x. fraseri	Red Tip Photinia # *
Ilex c. repandens	Repandens Holly
Prunus l. schipkaensis	Schip Laurel
Eleagnus pungens	Thorny Eleagnus
Myrica cerifera	Wax Myrtle
Prunus l. zabeliana	Zabel Laurel

Table II. Shrub Size and Spacing	
Size in Gallons	*Spacing*
1 (8" pot minimum)	2 feet on center
2	2½ feet on center
3	3 feet on center
5	4 feet on center

m. *Ground covers.* Ground covers shall be of a single species and planted in large masses. Only the following ground covers may be planted in required landscaping areas in compliance with the following size/spacing relationships:

Juniperus h. plumosa	Andorra Juniper
Liriope muscari	Big Blue Liriope
Ophiopogon japonicus	Mondo Grass
Juniperus davuricai parsoni	Parsons's Juniper
Juniperus conferta	Shore Juniper

Table III. Ground Cover Size and Spacing

One quart	9 inches on center
One gallon (8" inch pot minimum)	18 inches on center

Section 20. Highland Park Neighborhood Form-Based Overlay District regulations.

Subsection 1. *Intent and purpose.*

A. *Intent.* The intent of this section is to establish minimum standards and regulations for building development, building and frontage category and orientation, site development, signage and landscaping for the Highland Park Neighborhood. Such standards and regulations will help ensure that develop-

ment is aesthetically pleasing and compatible with surrounding streetscape and land uses. This overlay district is designed to encourage new development that will complement the existing historic character of the neighborhood as well as help to create and sustain a pedestrian friendly environment. It is intended that this overlay district will only apply to properties that are bordered by a sidewalk. As its principle focus is on new development, it will not be applied retroactively to existing projects. A unique feature that distinguishes this overlay district from the existing zoning ordinance is that setback requirements are correlated to the buildings frontage category. The frontage category determines the minimum and maximum setback.

B. *Purpose.* This overlay district is a regulatory tool that can be used to guide the future growth and character of Highland Park by means of a specific regulating plan. The regulating plan's purpose is to implement a community's vision as a traditional neighborhood that emphasizes the street and pedestrian travel and access. The result of the plan is the placement of the overlay district "over" the underlying zoning, thereby modifying the underlying zoning's area dimensional and parking regulations. The standards of the overlay district address the buildings in relation to their placement on a lot, the size and height of buildings, and, perhaps most importantly, how they relate to the street and adjacent buildings. The form-based overlay also addresses parking, pedestrian and vehicular access, landscaping and signage. The Highland Park Neighborhood Form-Based Overlay includes the following key components:

[1.] *Regulating plan.* The maps and text delineating the regulated area where the overlay standards apply.

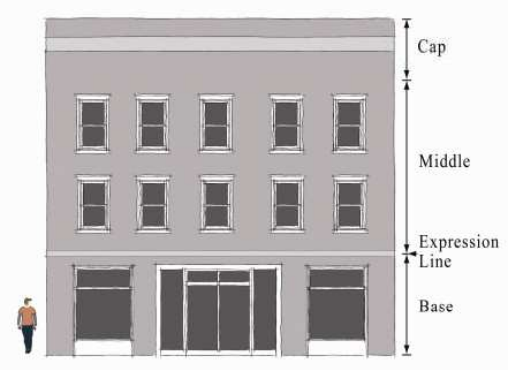
[2.] *Building category standards.* Regulations that specify the placement, size and massing of buildings and frontages.

[3.] *Landscape standards.* Regulations governing landscape design and planting on private property, most commonly parking areas, and the way in which they affect the public realm.

[4.] *Sign standards.* Regulations describing allowable sign sizes, materials, placement, and type of illumination.

Subsection 2. *Definitions.* The following terms shall have the meaning provided herein. Terms not defined herein shall have the meaning provided in the City of Birmingham Zoning Ordinance and/or city subdivision regulations.

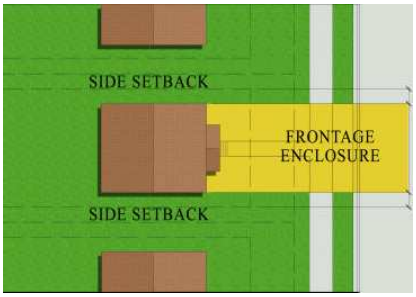
Base. The lowest of the three divisions of a building's facade. In multistory buildings the base is generally the ground floor, articulated by entries, porches or stoops.



Building form. The placement, shape, size and massing (height, width and depth) of frontage categories.

Building height. The [building height] is the measurement of the vertical distance in feet from the grade to the highest point of the coping of a flat roof or to the deck line of a mansard roof, or to the average height between eaves and ridge for gable, hip and gambrel roofs.

Cap. The uppermost division of a building's facade. For nonresidential buildings, a cornice is often the cap, or is suggested by some other articulation at the top of the wall.



Expression line. A horizontal architectural or decorative feature of the facade that differentiates the building's base from middle and cap elements above.

Facade. The face or exterior wall of a building that is also the primary frontage, almost always containing one or more entrances and characterized by an elaboration of stylistic details. Facades have three divisions that include the base, middle, and cap.

Frontage categories. The collection of building typologies listed in the Highland Park Neighborhood Form-Based Overlay District. These categories include the configurations of building elements within the primary frontage. There are eight frontage categories listed for the Neighborhood Form-Based Overlay District: Civic, Common Yard, Forecourt, Gallery, Porch with Short Lawn, Shopfront, Stoop, Terrace or Lightwell.

Frontage enclosure. The percentage of the lot width that has buildings and/or street walls within the required (minimum and maximum) setback area. If a property has an established front yard setback (as detailed in subsection 4.B) the frontage enclosure area begins at the established front yard setback.

Glazing. Clear or translucent material through which light is transmitted into a building, usually glass, but also including acrylic and other materials.

Landing. The horizontal platform at the end of a stair flight or between two flights of stairs or at an entrance to a building. An entry landing may be covered.

Middle. The division of the facade that is between the base and the cap. This division is generally the largest.

Mixed use developments. Sites developed within the Highland Park Neighborhood Form-Based Overlay District having multiple land uses all on the same legal lot.

Overlay district. A set of regulations that imposes additional area, dimensional and other development standards onto an underlying zoning district.

Porch. An entrance area to a building, covered by a roof and having structural supports that goes to the ground.

Primary frontage. The street or public frontage providing the primary or most important approach to the main entrance of the building.

Public realm. Publicly owned and accessible property such as public rights-of- way, parks and plazas.

Regulating plan. Maps and supporting documentation that delineate the area where the Highland Park Neighborhood Form-Based Overlay development standards apply.

Secondary frontage. The street frontage of a lot other than the primary frontage. Secondary frontages may or may not include an entrance to a building.

Street frontage. All of the property on one side of a street between two intersecting streets; or, if the street is dead-ended, the property abutting on one side between the street's intersection and its dead-end.

Street wall. A masonry wall that extends from the building's side or rear; possibly part of the frontage enclosure requirement. Street walls are often used as a visual screen and help establish an edge that defines the streets. Street walls may not extend forward from the face of the building.

Subsection 3. *Administration.*

A. *Uses permitted in the Highland Park Neighborhood Form-Based Overlay District.* The overlay district does not determine or govern the use of the property. Use is governed by the underlying base zoning.

B. *Procedures for amending the Highland Park Neighborhood Form-Based Overlay District.* A proposed change or amendment to the regulating plan of the overlay district may be initiated by the city council, the full Birmingham Planning Commission or the commission's zoning advisory committee, or by petition of one or more property owners or authorized agents of such owners of property within the overlay district. The petition for change of the overlay district by a property owner shall only apply to that individual owner's property. Any petition for change shall be in accordance with the procedures set up in article VII, section 3, of this ordinance. Procedure for preparation of documentation to amend the overlay district:

1. Review and provide maps and text describing the existing land use plan, zoning and development regulations that apply to the affected properties.
2. Review and provide maps reflecting existing lot lines and building footprints.
3. Provide text describing the change in conditions since the overlay district was established that justifies a change or amendment to the district.
4. Provide maps of the base zoning and zoning overlays.

C. *Compliance.* All building and grading permits will be reviewed to ensure consistency with these regulations. The City of Birmingham's Department of Planning, Engineering and Permits (PEP) will review all proposed projects in the overlay district that require building, grading, sign and other permits that make modifications to existing landscaping and parking.

D. *Construction permit review.* The applicant has the discretion to submit construction documents directly for permits without first getting PEP planning division review comments. The permit's documentation must include the information listed below in subsection F; development plans submittal requirements. An incomplete permit application will be returned for the additional required information. An application not compliant with these regulations will be denied. It is recommended that applicants first contact the City of Birmingham's Department of Planning, Engineering and Permits (PEP). The planning division staff of PEP will provide the published regulations for projects within the various sub-districts (see subsection 4 of this section) of the overlay district. It is recommended that the applicant become familiar with the pertinent regulations prior to planning the project and before the development of any working drawings. In consideration of an application for a permit for property located in the overlay district, the property owner or his or her agent

may submit documents addressing the submittal information listed in the development plan submittal requirements below (in subsection F) to the planning division of PEP for review. These documents will be reviewed for compliance with this section and all sections of the zoning ordinance. After the review, comments pertaining to zoning compliance will be shared with the applicant.

E. *Development plans submittal requirements.* This requirement of the Highland Park Neighborhood Form-Based Overlay District only applies to construction of new buildings, the expansion of an existing building that is within the minimum and maximum front yard setback area, new parking lots or alterations of parking lots over 4,000 square feet. Additionally, the overlay district requirements will only apply to properties that are bordered by a sidewalk. The following requirements replace the existing site or development plan requirements of the underlying (base) zoning. Submitted plans shall be drawn to a scale no smaller than 1" = 30' and shall include (1) the title of the development, (2) name and address of the owner or developer or agent of either, (3) name and address of the person or firm preparing each of the plans, (4) a North arrow, (5) date of preparation, and (6), if applicable, dates of any submitted revisions. Plans shall also include the following applicable information:

1. All dimensions and distances, property lines, easements, and public and private rights-of-way;
2. Existing and proposed building or structure footprints, including location of any trash containers and the method of screening them;
3. Building or structure elevation drawings;
4. Fences, walls, light poles, overhead utility lines, outdoor utility equipment and structures. This includes the location of all roof- and ground-mounted HVAC units or other mechanical appurtenances;
5. Bodies of water, water detention areas and drainage structures;
6. Location and dimensions of driveways and the number, location, and dimensions of parking spaces; dimensions of access aisles, curbs, vehicle maneuvering areas and pedestrian walkways. Bicycle racks or storage facilities must be provided other than for houses, duplexes and townhouses;
7. With the exception of houses and duplexes, a landscape plan showing compliance with the landscape standards (subsection 8) of this section;
8. When signage is proposed, a plan showing compliance with the signage standards (subsection 7) of this section;
9. Any other plans or specifications necessary to show compliance with this section.

F. *If the property is within a hazard area.*

1. *FEMA flood hazard.* All development must comply with requirements of the floodplain zone districts.

2. *Slide zone.* Development is regulated by the engineering division of PEP; projects require affidavits from geotechnical engineers to ensure stability.

G. *Interpretation.* The interpretation and application of this section shall be consistent with article VII, section 2, subsection 1.

Subsection 4. *Highland Park Neighborhood Form-Based Districts.* The regulating plan may consist of five sub-districts (FSD), which are as follows:

[A.] *(FSD-1) Reserved Urban Residential.* This is the most restrictive of the sub-districts a sub-district with common yard and civic frontage categories.

[B.] *(FSD-2) Limited Urban Residential.* A sub-district with common yard, porch with short lawn, terrace or lightwell, stoop forecourt and civic frontage categories.

[C.] *(FSD-3) General Urban Residential.* A sub-district with common yard, porch with short lawn, terrace or lightwell, stoop, forecourt shopfront and civic frontage categories.

[D.] *(FSD-4) Limited Urban.* A sub-district with common yard, porch with short lawn, terrace or lightwell, stoop, forecourt, shopfront and civic frontage categories.

[E.] *(FSD-5) General Urban.* A sub-district with common yard, porch with short lawn, terrace or lightwell, stoop, forecourt, shopfront, gallery and civic frontage categories.

Subsection 5. *Frontage categories.* All proposed projects are routed into one of the eight categories based on criteria set forth in each frontage category. A frontage category is not intended to regulate style but does dictate where on the site a structure may be placed. The frontage categories are:

[A.] *Civic.* This frontage category is developed typically for government, public or semi-public agencies. The frontage's design follows the building's function. Public parks are exempt from this overlay.

[B.] *Common yard.* This frontage category will have a planted deep front yard with the building facade set back substantially from the front lot line. The front yard is visually continuous with adjacent yards. This frontage category will normally be for a single- or two-family dwelling and have a landing attached to the front of the house at the entrance.

[C.] *Forecourt.* A frontage category, usually a larger building, with the central portion or block of the building set back between two flanking sections that are closer to the front property line, creating an open recessed court. This space can be either landscaped or used for vehicle drop-offs.

[D.] *Gallery.* A frontage category wherein the facade is aligned close to the front property line with an attached cantilevered shed or colonnade overlapping the sidewalk. This category conventionally has ground retail and mixed uses above.

[E.] *Porch with short lawn.* This frontage category has a facade that is set back a short distance from the front property line and has a large attached porch across a majority of the front elevation and small planted front yard. This frontage category will normally be used for single and two-family dwellings.

[F.] *Shopfront.* A frontage category wherein the facade is aligned close to the front property line with the building entrance at sidewalk grade. The frontage has substantial glazing on the sidewalk level; typically with an awning extend over the sidewalk. This frontage will normally be associated with a commercial use, such as a restaurant or retail store. Upper floors are frequently in office or residential uses.

[G.] *Stoop.* This frontage category will normally be used for dwellings with a short setback from the front property line. A stoop is a small uncovered landing located at or near surrounding grade.

[H.] *Terrace or lightwell.* This frontage category will normally be used for multi-family dwellings, with frontage close to the street and with a small landing; either terrace elevated above the street level or a lightwell sunk below the street level, or a combination of both.

Subsection 6. *Building form standards.*

A. *Site development standards.* The intent of the sub-district building form standards are to establish development parameters that reinforce the neighborhood's character. Most significant are the standards addressing minimum and maximum setbacks, frontage enclosures, building heights, parking access and parking location. Together, these standards reflect both the neighborhood's traditional urban form and its expressions for future improvements (see Table 1).

B. *Setback modifications.* The required front yards heretofore established shall be modified in the following cases:

1. Where an underlying zoning district on a block face has a minimum required setback and where 40 percent or more of the street frontage on the same side of a street between two intersecting streets is presently developed with buildings that have (with a variation of five feet or less) a

front yard greater or lesser in depth than herein required, new buildings shall not be erected closer to the street than the average front yard so established by the existing buildings.

2. Where an underlying zoning district on a block face has a minimum required setback and where 40 percent or more of the street frontage on one side of a street between two intersecting streets is presently developed with buildings that do not have a front yard as described above, then:
   a. Where a building is to be erected on a parcel of land that is within 100 feet of existing buildings on both sides, the minimum front yard shall be a line drawn between the two closest to the street corners of the adjacent building; or
   b. Where a building is to be erected on a parcel of land that is within 100 feet of an existing building on one side only, such building may be erected as close to the street as the existing adjacent building.
3. When none of the aforementioned modifications are applicable the form based setback standards apply.
4. For lots with established front yard setbacks the minimum front setback will begin at the established front yard and the maximum front yard setback will be the difference between the minimum and maximum setback as listed on Table 1 as measured from the established front yard.

Footnotes:

1. *Minimum front setback.* Includes porches and other design features.
2. *Minimum front setback.* For corner lots in all sub-districts, the minimum front setback on secondary frontage is five feet and the maximum front setback is 20 feet.
3. *See Subsection 6B.* For required front setback modifications.
4. *Minimum frontage enclosure.* For corner lots, minimum frontage enclosure requirements only apply to primary frontage.
5. *Maximum building height.* For buildings greater than 45 feet, an additional ten feet stepback from the building's front wall is required.
6. *Parking access.* Street access is permitted for mid-block properties that do not have alley access.
7. *Parking location.* See article V, section 3 in the City's Zoning Ordinance regarding joint parking arrangements.

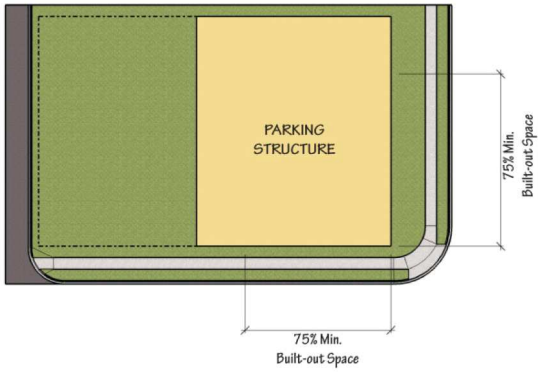
Subsection 7. *Building form requirements.* The following building standards apply to all sub-districts and frontage categories in Highland Park Neighborhood Form-Based Overlay Districts. Requirements in the overlay district only apply to the construction of new buildings, the expansion of an existing building that is within the minimum and maximum front yard setback area, new parking lots or alteration of parking lots over 4,000 square feet. Additionally, the overlay district requirements will only apply to properties that are bordered by a sidewalk. No building existing on the date which these regulations come into effect shall be modified so that it is less in conformance with this ordinance.

A. *Entries.* A principal building shall have its main entrance oriented to a public street and accessible from a public sidewalk or plaza. Secondary entrances are exempt from this requirement. The main entrance shall not be closed while a secondary entrance remains opened. In some frontage categories, building entrances (excluding emergency egress) facing a public street shall be determined by the following thresholds:

1. Galleries must have covered walkways at least ten feet in depth;
2. Terrace must have an elevated entry over three feet above grade and lightwells must have a sunken entry over three feet below grade;
3. Stoops must have landings no more than three feet from grade;
4. The porch with short lawn frontage category has porch size thresholds of a minimum of eight feet in depth across a majority of the front elevation and maintaining at least 40 percent openness of the exterior elevation (as measured in square feet);
5. Forecourt has a qualifying threshold that measures its openness. This threshold includes the width of the courtyard when calculating the enclosure area. The width of the courtyard shall be no less than the width of the largest building wing.

B. *Facades.*

1. Window and door openings should have a vertical orientation and vertical alignment between floors.
2. All forecourt, gallery and shopfront frontage categories may be designed with a discernible base, middle and cap defined by horizontal elements. An expression line should accentuate the base from elements above. Variations in materials and colors can help achieve this standard.
3. For mixed use and nonresidential buildings, ground floor front facades shall be not less than 40 percent or more than 90 percent clear glazing; measured between three and eight feet from finished grade. Additional floors beyond the ground floor shall be not less than 25 percent or more than 75 percent clear glazing.



C. *Off-street parking.*

1. Off-street parking shall not be closer to the public street than the principal buildings on the same lot.

2. Dwelling parking garage doors that face public streets shall be set back three feet from the front of the building facade.

D. *Parking structures.*

1. When adjacent to public streets the ground floor of any above ground parking structure should have built-out space suitable for retail, residential, office space. Design shall include said space or provide a facade mimicking said space for a minimum of 75 percent of the public street frontage.

2. Parking structure walls must utilize materials, colors and a pattern of openings consistent with surrounding buildings.

3. Parking structure walls facing public streets or residential areas shall minimize openings to avoid noise and light impacts. This shall be accomplished with a minimum 42-inch high solid wall (measured from the finished floor elevation) on the exterior sides of each level.

4. Pole mounted light fixtures on upper decks of parking structures shall use full cut-off fixtures, have a maximum height of 16 feet, include shields for keeping light onsite and prevent the source of the light from being seen off site. Poles shall be located between internal parking rows rather than at the structure's perimeter.

5. When adjacent to public streets pedestrian circulation elements (stair towers, elevators) shall be located toward and accessible from streets.

6. When on corner lots parking access shall be from secondary streets.

7. Underground parking may be built out to the property lot lines.

E. *Street walls.* Unless otherwise restricted in this ordinance. Street walls from six to eight feet in height and up to 18 feet in length may be built as part of the frontage enclosure requirement and assist in screening. Street walls must have the same external veneer as the principal building's street frontage(s).

F. *Right-of-way.* Any structure or portion thereof which encroaches into the public right-of-way or its airspace will require an approved right-of-way agreement from the city council.

Subsection 8. *Shared parking.* Different uses have different peak parking demand times. These parking peaks may vary for daytime and evening; as well as weekday and weekends. To accommodate those varying peak parking demands, mixed use developments on one lot may use the shared parking table that follows. Parking spaces reserved for any use cannot be used in the shared parking table.

Subsection 9. *Sign standards.* The purpose of the sign standards and guidelines is to encourage uniform and aesthetically pleasing neighborhood signage and provide signage that is complementary and well-integrated for pedestrians while also legible to vehicular traffic. All signs will adhere, at minimum, to the standards laid out in the underlying zoning district and/or article VI, section 9, sign regulations, of the City of Birmingham Zoning Ordinance, but are also subject to the following additional guidelines and restrictions.

A. *Prohibited signs.*

1. Animated, flashing, chasing, pulsating, rotating, video display, running or sequential signs are not permitted accept for signs depicting time, temperature and gasoline prices.
2. All portable signs, as defined in the City of Birmingham Zoning Ordinance, are not permitted.
3. Banners and streamers; except decorative flags, banners and bunting for celebrations, conventions and commemorations authorized by the city ordinances, are not permitted.

B. *Construction and materials.*

1. Signs shall be professionally engineered and constructed using high-quality materials.
2. A dull or matte finish is encouraged to reduce glare and enhance legibility.
3. Signs should not obscure key design features, doors or windows.
4. Wall signs for multiple businesses in the same building shall be of similar material and design.

C. *When lit.*

1. Signs may be spotlighted or externally lit with a diffused light source and should be shielded in accordance with article VI, section 9, subsection 5 of the zoning ordinance.
2. Signs may have backlighting to illuminate the background of letters, characters or graphics on the sign.
3. Neon signs are allowed.
4. Signs may be internally lit box signs when they have routed or push-through copy and designed so that only the copy is illuminated at night.

Subsection 10. *Landscape standards.* The purpose of the landscape standards is to enhance the physical appearance of buildings, and their designated parking areas, and the positive impact of parking areas on adjacent land uses. Projects involving single-family detached homes and duplexes are exempt from these requirements. Other projects with less than 4,000 square feet of parking area are not subject to item C, landscaping requirements for surface parking, of this subsection. Requirements in

this subsection only apply to the construction of new buildings, the expansion of an existing building that is within the minimum and maximum front yard setback area, new parking lots or alteration of parking lots over 4,000 square feet. Additionally, the overlay district requirements will only apply to properties that are bordered by a sidewalk.

A. *Landscape plan requirements.*

1. Landscape plans shall include:

   The site's square footage;

   Building footprint's square footage;

   The parking area's square footage;

   The title of development; name and address of owner/developer/agent; name and address of person/firm preparing the plan;

   Date of preparation; scale; north arrow; revision dates;

   Streets and easements; number of parking spaces;

   The location and dimensions of entrance, exits, doors, drives, walkways, paved areas, curbs, fences, drainage; and

   Other improvements affecting the landscaping.

2. The plan shall also illustrate where each plant is to be installed, details for installing plant material and a composite plant material schedule which totals quantities and lists all plants by common name, botanical name, size or specification and spacing.

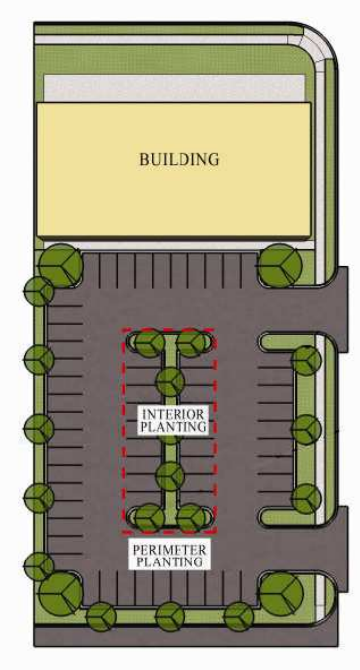
3. Landscape plans shall be prepared by a registered landscape architect or architect. All submitted plans shall bear the architect's seal, signature and State of Alabama registration number.

B. *Design standards.* The zoning ordinance has landscape requirements for surface parking areas as well as requirements for the overall site. In addition to citywide requirements, the following requirements also apply. In case of conflicts with the citywide regulations and those of the Highland Park Neighborhood Form-Based Overlay District, the more restrictive shall apply. All landscape plans shall be drawn at no greater than 1"=30' in scale so as to convey the design intent.

1. Only trees with a mature height of greater than 40 feet may be planted to comply with the requirements of this subsection, except when site visibility at intersections or when overhead utilities prevent the use of large trees, in which case medium or small trees may be used. Large trees shall be no less than 2½-inch caliper at time of installation. Small trees shall have a minimum eight feet in height at time of installation.

2. One tree per every 2,000 square feet of required landscape area shall be installed.

3. A combination of trees, shrubs, grass and groundcovers shall be used.



4. Plant material shall conform to the American Standard for Nursery Stock, latest edition, published by The American Association of Nurserymen.

5. All cuts and fills and/or terraces shall have sufficient vegetative cover installed so as to prevent erosion.

C. *Landscape requirements for surface parking.* These requirements apply to all areas used for off-street parking, loading, vehicle maneuvering and are 4,000 square feet or larger. A minimum of five percent of the parking area must be landscaped. The following planting layout must be followed which may exceed the five percent minimum.

1. *Perimeter surface parking planting.*

a. A perimeter planting strip shall be adjacent to any public street. These planting strips shall be a minimum of five feet wide.

b. A perimeter planting strips shall be planted with a combination of trees, shrubs and groundcovers. Shrubs shall be used to screen the right-of-way from views of parked cars and shall be maintained at no less than 36 inches in height.

c. The planting strip shall be covered with groundcover or organic or mineral mulch so as no soil is left exposed. The use of concrete, asphalt or other impervious surfaces is prohibited.

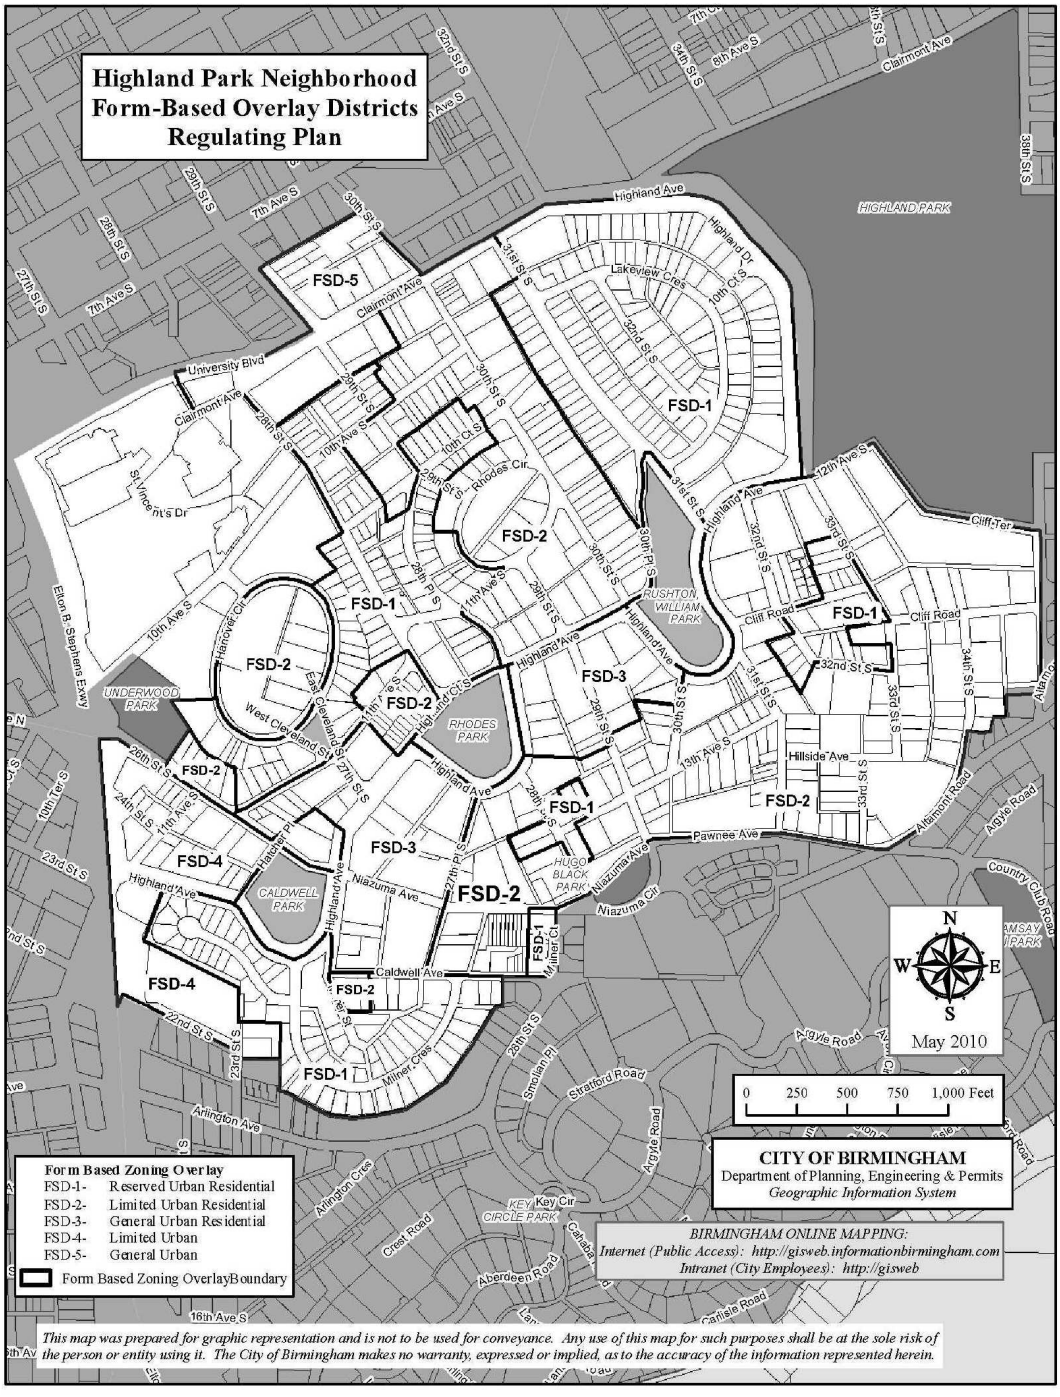
2. *Interior surface parking plantings.* These plantings are required for parking areas over 10,000 square feet: Properties used for the retail sale of automobiles are exempt from this requirement.

    a. In addition to the perimeter surface parking planting requirements, 2.5 percent, one-half of the minimum required five percent of the total square footage of the surface parking area shall be planted with trees, shrubs, grass and ground covers.

    b. Interior parking plantings must be located so that vehicles may maneuver on all sides or project into the parking area at least 18 feet with parking or maneuvering areas on three sides. Interior landscape islands or swales shall have a minimum dimension of five feet at the site where trees are located. The minimum square footage of interior parking islands or swales is 60 square feet.

    c. One landscaped island or swale shall be required for each row of 12 contiguous parking spaces. This island shall be planted with at least one tree each that meets the minimum requirements of this subsection.

D. *Overall site landscape requirements.*



1. Five percent of the site (minus parking area and structures) shall be landscaped.

2. Plantings shall conform to item B, design standards, of this subsection.

E. *Special screening requirements.* Dumpsters and other trash receptacles for all uses other than single-family or two-family residences shall be screened from public streets or properties which are zoned for residential use. Receptacles shall be below grade or shall be placed on a concrete pad and enclosed on three sides by wall at a height taller than the container. Enclosures' fourth side shall have an opaque gate unless the service opening is oriented away from public streets or adjacent residential properties. The enclosure shall be built of permanent materials with a veneer similar to the principal structure's veneer.

F. *Maintenance.* The property owner shall be responsible for the maintenance, repair and replacement of all landscape materials, barriers and irrigation systems required by this subsection. All plant material shall be maintained in perpetuity in a healthy growing condition, replaced when dead and kept free of weeds, refuse and debris.

G. *Irrigation.* Plant material irrigation is encouraged. It is preferable that nonpotable water be used for irrigation.

(Ord. No. 10-68, § 1, 5-11-2010)

Section 21. Payday (deferred presentment) and title loans.

1. *General applicability.* The regulations set forth in this section supplement or modify the district regulations appearing elsewhere in this [appendix]. The regulations shall apply to any business that has been designated by the Council of the City of Birmingham and by the required license schedule as a payday loan (deferred presentment) and title loan operation.

2. *Purpose.* The purpose of this section is to amend the Zoning Ordinance of the City of Birmingham, Alabama, in order to:

a. Reduce traffic congestion that is reported to be associated with these types of businesses;

b. Reduce the concentration of these types of businesses in certain areas in an effort to encourage and enhance economic development within that area by promoting business diversity in the offering of other goods and/or services in the area;

c. Provide for zoning protection of existing residential and commercial real estate values from possible economic impairment by these types of businesses; and

d. In general to provide for the protection of the health, safety, comfort and general welfare of the citizens of the City of Birmingham.

3. *Finding of fact.* Based upon the evidence and information submitted to the Council, the governing body of the city of Birmingham, Alabama, including statements of citizens submitted to the Council, expert opinions submitted to and considered by this Council, and the knowledge and experience gained by Council members both prior to and while serving as members of this Council, this Council hereby makes the following findings of fact:

a. There [is] a disproportionate number of these types of businesses within the corporate limits of the City of Birmingham based upon the number per resident compared to the other cities within Jefferson County and within unincorporated Jefferson County.

b. According to public statements made by real estate developers, real estate agents, community leaders, clergy, and members of the general public, a "negative community reputation" has been created by these businesses because of the extraordinarily high interest rates for these loans. Consumers of the services offered by these businesses have also made statements that terms and conditions associated with these types of loans are confusing and very difficult to understand.

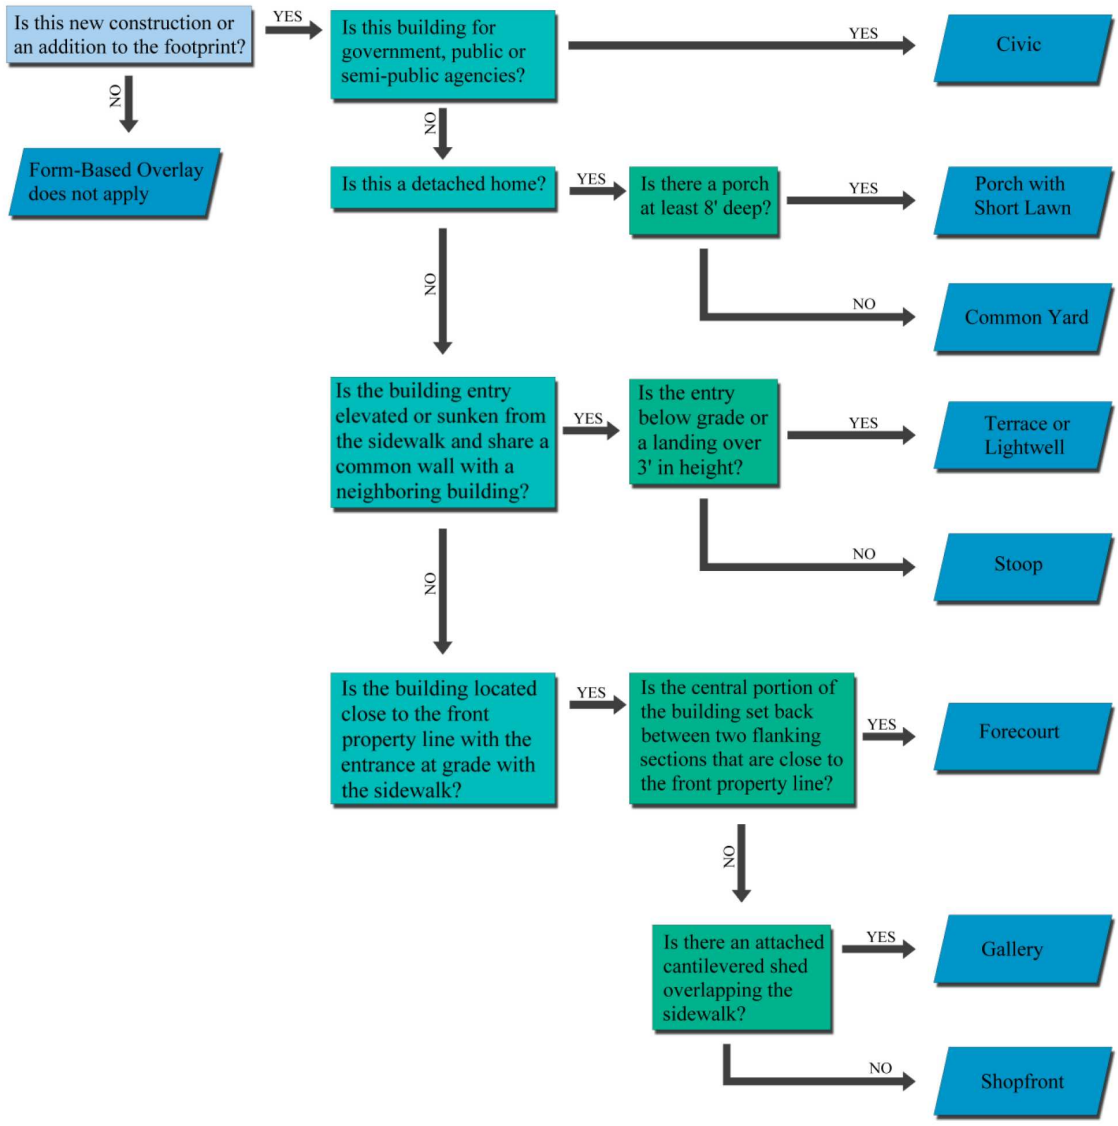
c. Real estate developers and agents have stated that this "negative community reputation" has a detrimental effect on the location of other commercial developments within the area and that these businesses tend to diminish nearby real estate values.

4. *Definitions.* As used in this section, the following words and phrases will have the following meanings:

a. *Payday loan (deferred presentment) business.* A business that, in accordance to [with] the requirements and restrictions listed in Chapter 18A of Title 5 of the Code of Alabama (Alabama Deferred Presentment Services Act), involves a transaction pursuant to a written agreement involving the following combination of activities in exchange for a fee: (1) accepting a check or authorization to debit a checking account and, in connection with that acceptance, advancing funds to the checking account holder; and (2) holding the check or authorization to debit the checking account for a specified period of time.

b. *Title loan business.* Any business that offers a short-term loan that is collateralized by the title of a vehicle in accordance with the requirements and restrictions described and detailed in Chapter 19A of Title 5 of the Code of Alabama (Alabama Pawn Shop Act).

5. *Locational requirements.* In order to provide for more economic opportunities within certain areas of the City of Birmingham, the following spacing requirements are required:



a. No payday loans (deferred presentment) and/or title loan business (as described and detailed within this section) established after the enactment of this ordinance [section] shall be located within 2,000 linear feet of another such business. The method of measurement that shall be used is a straight line measured from the closest portion of a lot or property that is occupied by these businesses.

b. Any properly licensed payday loan (deferred presentment) and/or title loan business (as described and detailed within this section) existing at the time of the enactment of this section that is within 2,000 feet of another such business (as measured as described above) shall be considered to be a legal nonconforming use.

(Ord. No. 13-178, § 4, 12-26-2013)

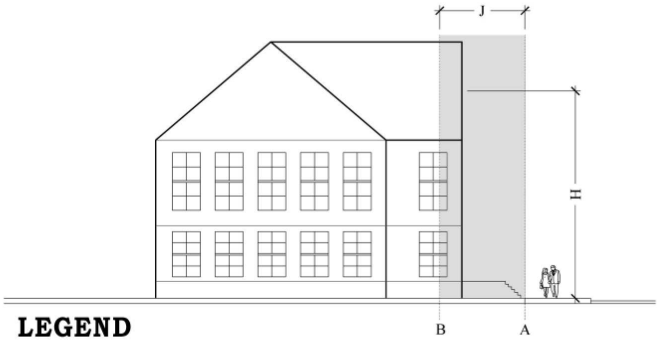
Appendix A

Form-Based Flow Chart

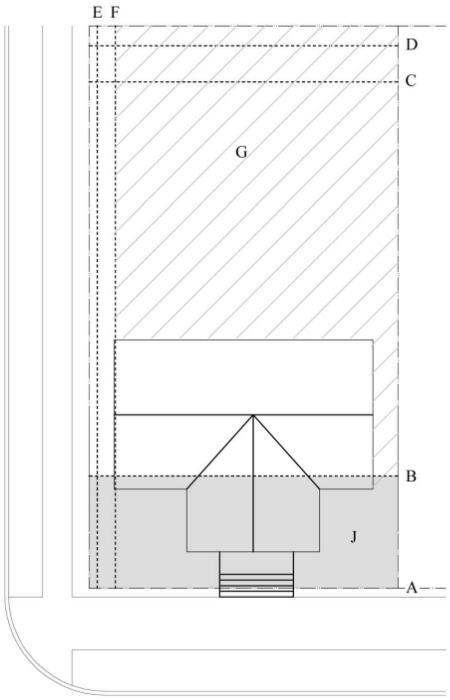
(Ord. No. 10-68, app. A, 5-11-2010)

Appendix B

FRONTAGE CATEGORY: Civic



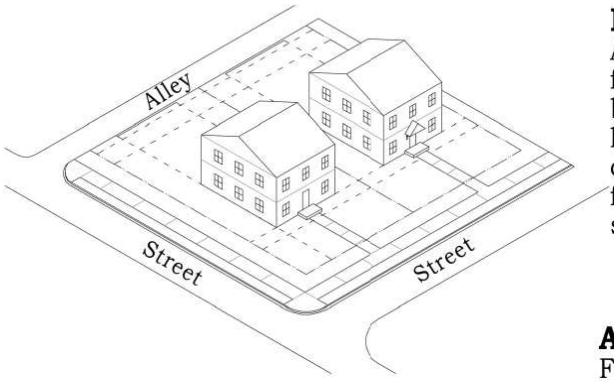
CLASSIFICATION



Definition:
This frontage type is developed typically for government, public or semi-public agencies. The frontage's design follows the building's function. Public parks are exempt from this overlay.

Allowed Sub-Districts:
FSD-1, FSD-2, FSD-3, FSD-4, FSD-5

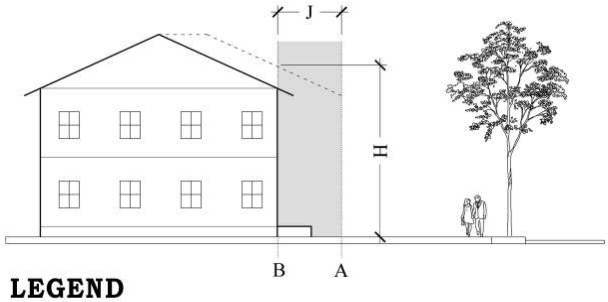
FRONTAGE STANDARDS



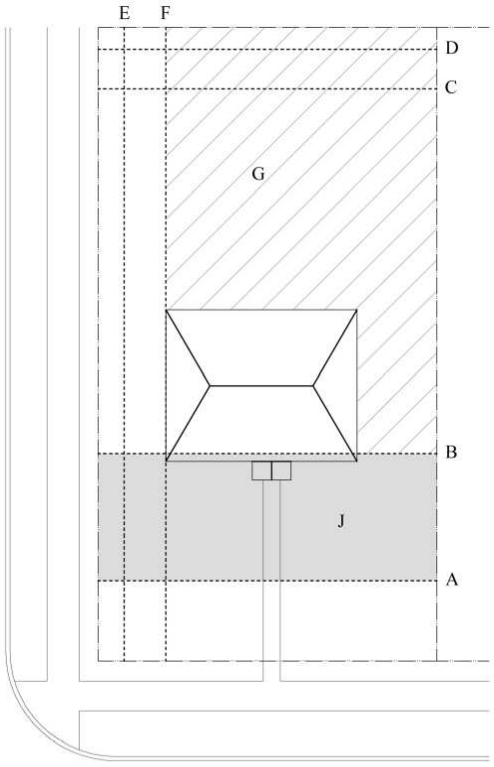
LEGEND
A. Minimum front setback
B. Maximum front setback
C. Minimum rear setback - principal building
D. Minimum rear setback - accessory building
E. Minimum secondary frontage setback - corner lot
F. Maximum secondary frontage setback - corner lot
G. Allowed parking location
H. Maximum building height
J. Enclosure area

BUILDING HEIGHT	MIN. FRONTAGE ENCLOSURE
FSD-1: 35’	FSD-1: 60%
FSD-2: 45’	FSD-2: 60%
FSD-3: 60’	FSD-3: 70%
FSD-4: 60’	FSD-4: 70%
FSD-5: 60’	FSD-5: 70%

FRONTAGE CATEGORY: Common Yard



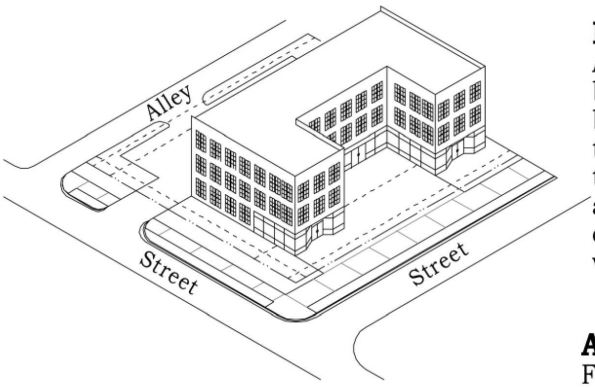
CLASSIFICATION



Definition:
A frontage category with a planted deep front yard with the building facade set back substantially from the front lot line. The front yard created is visually continuous with adjacent yards. This frontage type will normally be for a single or two family dwelling.

Allowed Sub-Districts:
FSD-1, FSD-2, FSD-3, FSD-4, FSD-5

FRONTAGE STANDARDS



LEGEND
A. Minimum front setback
B. Maximum front setback
C. Minimum rear setback - principal building
D. Minimum rear setback - accessory building
E. Minimum secondary frontage setback - corner lot
F. Maximum secondary frontage setback - corner lot
G. Allowed parking location
H. Maximum building height
J. Enclosure area

BUILDING HEIGHT	MIN. FRONTAGE ENCLOSURE
FSD-1: 35’	FSD-1: 50%

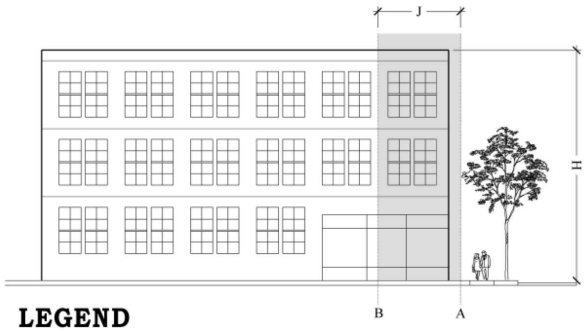
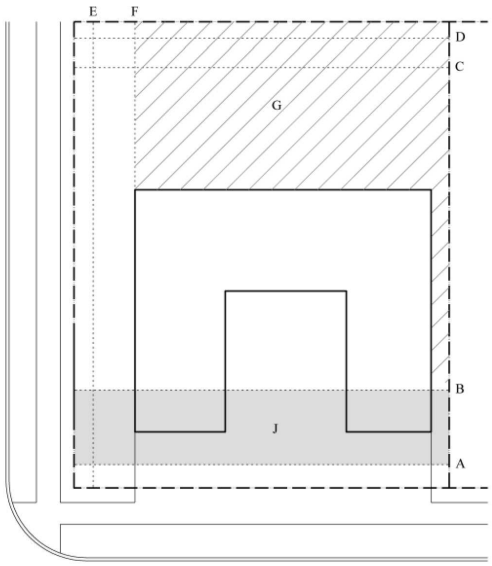
FSD-4: 35’	FSD-4: 60%
FSD-5: 35’	FSD-5: 70%

FRONTAGE CATEGORY: Forecourt



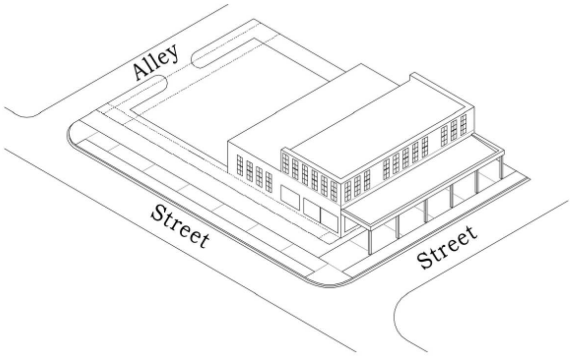
CLASSIFICATION



Definition:
A frontage category, usually a larger building, with the central portion or block of the building set back between two flanking sections that are closer to the front property line, creating an open recessed court. This space can be either landscaped or used for vehicle drop-offs.

Allowed Sub-Districts:
FSD-2, FSD-3, FSD-4, FSD-5

FRONTAGE STANDARDS



LEGEND
A. Minimum front setback
B. Maximum front setback
C. Minimum rear setback - principal building
D. Minimum rear setback - accessory building
E. Minimum secondary frontage setback - corner lot
F. Maximum secondary frontage setback - corner lot

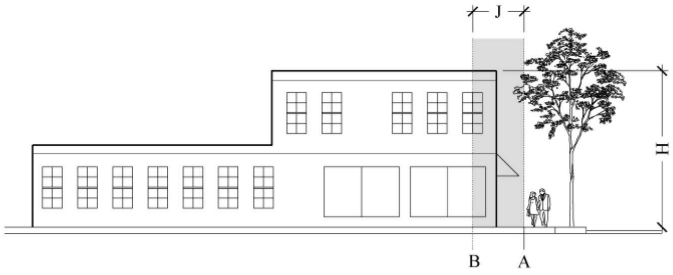
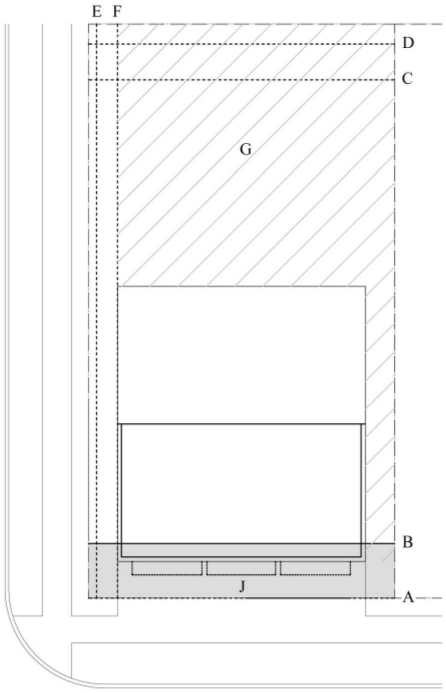
FSD-1: 60%
FSD-2: 60%
FSD-3: 70%
FSD-4: 70%
FSD-5: 80%

FRONTAGE CATEGORY: Shopfront



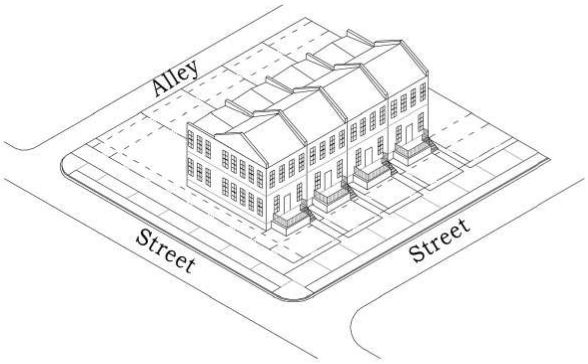
CLASSIFICATION



Definition:
A frontage category wherein the facade is aligned close to the front property line with the building entrance at sidewalk grade. The frontage has substantial glazing on the sidewalk level; typically with an awning extend over the sidewalk. This frontage will normally be associated with a commercial use, such as a restaurant or retail store. Upper floors are frequently in office or residential uses.

Allowed Sub-Districts:
FSD-3, FSD-4, FSD-5

FRONTAGE STANDARDS



LEGEND
A. Minimum front setback
B. Maximum front setback
C. Minimum rear setback - principal building
D. Minimum rear setback - accessory building
E. Minimum secondary frontage setback - corner lot
F. Maximum secondary frontage setback - corner lot

(Ord. No. 10-68, app. B, 5-11-2010)

Appendix C. Calculating Birmingham's Minimum Landscaping Requirements

The zoning ordinance requires landscaping for parking areas as well as site landscaping for lots located in certain zoned districts. Except for special design areas such as Oxmoor, Highway 280, Form Based Zoning Districts and Commercial Revitalization Districts, the following are the minimum landscaping requirements. Develop plans must show all building doors, drives, walkways, paved areas, curbs, fences, drainage and other improvements affecting landscaping. Grass and other ground cover alone will not satisfy these landscaping requirements; the plan must include trees and/or shrubs. The plan should designate where each plant is to be installed, include details for installing plant materials and a composite schedule which totals quantities and list all plants by common name, botanical name, size or specification, and spacing.

For parking lot landscaping.

1. To determine if this requirement is applicable for parking areas, first calculate the square feet of the paved parking and maneuvering areas. If this area is 4,000 square feet or larger the parking lot landscape requirements apply. If it is under that size, go to number seven.

2. If the parking area is 4,000 square feet or larger, calculate the gross square footage of the lot; or for large acreage parcels, calculate all of the disturbed, cleared and graded areas. For purposes of a formula calculation, the lot or site's gross area may be called A.

3. Next calculate the total square footage of the footprints of all structures. For purposes of a formula calculation, the sum total structural footprint may be called B.

4. For parking areas a minimum of five percent of the gross area (minus structures) must be landscaped. The formula for the minimum landscaped requirement is A minus B time five percent (A-B times 0.05). The purpose of this landscaping requirement is to screen the parking lot from passers-by on adjacent streets or from incompatible or less intensive adjacent land uses. Therefore the location of the landscaping on the site must accomplish that objective.

5. If a parking area is 10,000 square feet or larger, then half the minimum requirement 2.5 percent must be in interior landscaped islands within the parking lot. Gasoline service stations and automobile sales lots are exempt from the interior planting requirements.

6. Qualifying interior islands must be islands within or peninsulas protrude at least 18 feet into the parking or maneuvering areas and must not in any way infringe on the minimum parking space size of 9 x 18 feet.

For site landscaping. There is also an overall general site landscaping requirement of five percent of the site, in addition to the parking lot landscape requirement. To accomplish this requirement's objective the selected plant locations should be around the building or as landscaped buffers between the site and incompatible, less intensive adjacent land uses.

7. In addition to parking lot landscaping there are also overall general landscaping requirements of five percent for sites. To calculate the required site landscaping, determine the lot square footage or for large acreage parcels all disturbed, cleared and graded areas. For purposes of a formula calculation, the lot or site's gross area may be called X.
8. Calculate the total square footage of the footprints of all structures. For purposes of a formula calculation, the sum total structural footprint may be called Y.
9. Calculate the square feet of the paved parking and maneuvering areas and if applicable the minimum parking lot landscaping required in number 4 above. For purposes of a formula calculation, the sum total parking lot areas may be called Z.
10. The general five percent site landscaping requirement shall be determined by using the following formula: X minus the sum of Y plus Z times five percent [X-(Y+Z)] times 0.05.

(Ord. No. 10-68, app C, 5-11-2010)

[ARTICLE VII. ADMINISTRATION, INTERPRETATION, AMENDMENTS AND ANNUAL REVIEW]

Section 1. Administration.

Subsection 1. *Enforcement.* The duty of administering and enforcing the provisions of this ordinance is hereby conferred upon the director of the department of planning, engineering and permits. It shall also be the duty of all officers and employees of the city and especially of all members of the police and fire departments to assist the director of the department of planning, engineering and permits by reporting to him new construction, reconstruction or new land uses and apparent violations of this ordinance.

Subsection 2. *Building permits.* All applications for building permits for the construction of any building or for the alteration of any building where such alterations will cause an increase in the land coverage of such building, shall be accompanied by an acceptable drawing or plat in duplicate drawn to scale showing the lot plan, the location of the building on the lot as constructed or altered, accurate dimensions of the building and lot, and such other information as may be necessary to enable the director of planning, engineering and permits to determine that the

proposed structure and use of land will conform to the provisions of this ordinance. All dimensions shown on these drawings or plats relating to the location and size of the lot to be built upon shall be based on an actual survey and it shall be in a form acceptable to the director of planning, engineering and permits. The original copy of such applications and plats shall be kept in the office of the director of planning, engineering and permits and the duplicate copy shall be kept with the building permit at the building at all times during construction.

Subsection 3. *Certificates of occupancy.* Certificates of occupancy shall be required for any of the following and shall be obtained from the director of planning, engineering and permits:

1. Occupancy and use of a building hereafter erected, except for a single-family dwelling.

2. Change in use of land or an existing building, including an increase in the number of dwelling units.

3. Any change in the use of a nonconforming use.

4. No fee shall be charged for an original and two copies of a certificate of occupancy as required herein, but for each additional copy there shall be a charge of $1.00, which shall be remitted to the director of finance of the City of Birmingham.

Section 2. Interpretation of ordinance.

Subsection 1. *Minimum requirements.* In interpreting and applying the provisions of this ordinance, they shall be held to be the minimum requirements for the promotion of public health, safety, convenience, comfort, morals and the general welfare. Where this ordinance imposes greater restrictions upon the use of a building or land or upon the height, bulk or size of a building or structure, or requires larger open spaces, yard area or lot area, than are imposed or required by other ordinances, rules, regulations or permits, or by easements, covenants or agreements, the provisions of this ordinance shall govern. Where any other ordinances, rules, regulations, or permits or restrictive conditions of the city or city agencies charged with zoning responsibilities impose greater restrictions upon the use of a building or upon the height, bulk or size of a building or structure, or require larger open spaces, yard area or lot area than are required under the regulations of this ordinance, such provisions shall govern.

Subsection 2. *City not subject to ordinance.* Any provision of this ordinance to the contrary notwithstanding, the city, in exercising any governmental function, power or authority, shall not be subject to the provisions of this ordinance or in anyway limited thereby in the exercise of such governmental function, power or authority.

Section 3. Amendments and changes.

Subsection 1. *Requirements for change.* Whenever the public necessity, convenience, general welfare or good zoning practice warrants such action, the city council, by the favorable vote of a majority of the members, may amend, supplement, modify or repeal the regulations of zoning district boundaries herein established.

Subsection 2. *Petition for or initiation of change.* A proposed change of the zone district boundaries or of the regulations may be initiated by the city council, the planning commission, the zoning advisory committee of the Birmingham Planning Commission, or by petition of one or more owners or authorized agents of such owners of property within the area proposed to be changed.

Subsection 3. *Action on petition.* Any proposed amendment, supplement, modification, or repeal shall first be submitted to the zoning advisory committee of the Birmingham Planning Commission for its recommendations and report. After the city council shall have received the recommendation of the zoning advisory committee of the Birmingham Planning Commission on the proposed change, or if no recommendation is received from the zoning advisory committee of the Birmingham Planning Commission within 60 days of the date of application, the city council may proceed to hold a public hearing in relation thereto, giving not less than 15 days notice of the time, place and object thereof by publication in a newspaper of general circulation in the City of Birmingham. The proposed change may be deemed by the applicant to have been denied if the city council takes no final action upon the same within 150 days after the filing of the application, or within 90 days after receipt of the recommendation by the zoning advisory committee of the Birmingham Planning Commission, provided that this sentence shall not be construed to divest the city council of jurisdiction to take final action on such proposed change at any time prior to any litigation instituted thereon against this council or the city by the applicant.

Subsection 4. *Fees.* Before any action shall be taken as provided in this section, the applicant petitioning for a change shall deposit with the City of Birmingham the sum of $500.00 to cover the approximate cost of this procedure, which also includes the placement of two separate notifications in a newspaper of general publication within Jefferson and/or Shelby County. Under no condition shall any part thereof be refunded for failure of such amendment to be enacted into law.
(Ord. No. 10-31, 3-5-2010)

Subsection 5. *Reinitiating or rehearing petitions.* Whenever the city council, following upon a duly scheduled public hearing as hereinabove provided in subsection 3, votes on the merits of an applicant's petition for a zoning change or amendment, and as a result of such vote the council fails to approve such zoning change or amendment, no action shall be initiated for a zoning change or amendment affecting that same parcel of land before the passage of one year following the date of the council vote; provided, however, the city council itself may, by resolution duly adopted, vote to either (a) reinitiate the proposed zoning amendment before the zoning

advisory committee or (b) schedule a rehearing of the petition for the proposed zoning amendment before the council. Any such resolution to rehear a petition as provided for in (b) above must be on a council agenda for the council's consideration at a time no later than 30 days following the meeting of council at which the proposed zoning amendment failed to obtain such council approval. In the event the resolution is one to rehear the petition for a proposed zoning change or amendment before the council, the resolution shall state the date of the council meeting whereat such rehearing will be held, which date shall be sufficiently advanced so as to permit not less than 15 days' notice of the meeting as hereinabove provided in subsection 3 of this section.
(Ord. 09-157, 3-2-2010; Ord. No. 10-31, § 1(3), 3-2-2010)

Section 4. Violation and penalty.

Subsection 1. *Penalty.* In addition to all other means provided by law for the enforcement of the provisions of this ordinance, any person violating any of the provisions hereof shall, upon conviction, be punished within the limits of and as provided by section 1-1-6 of the General Code of the City of Birmingham. (Not more than $500.00 fine or imprisonment not more than six months or by both). Each day that a violation exists shall constitute a separate offense.

Section 5. Validity.

Subsection 1. *Severability of ordinance.* If any section or provision of this ordinance be declared by a court of competent jurisdiction to be invalid, such decision shall not affect the validity of the ordinance as a whole or any part thereof other than the part so declared to be invalid.

Section 6. Annual review.

[Subsection] 1. At the beginning of each calendar year, the zoning administrator shall compile a listing of each rezoning case from the previous year. These cases, along with a written report, shall be submitted to the Birmingham Planning Commission for approval.

[Subsection] 2. The written report shall contain, at a minimum, the following:

a. Case information and comments.

   (1) Prior year case list including case number, location, and basic request information.

   (2) "Q" conditions with criteria for each case.

   (3) Possible adverse or unusual effects of previous cases on surrounding property.

   (4) Recommendations to cure adverse effects or to pursue desirable effects.

b. Text changes.

(1) Prior year text change list including case number and nature of change.

(2) Suggestions and purposes for further text changes.

[Subsection] 3. The written report shall also be submitted to the city council along with any verbal presentation that the appropriate council committee deems necessary.

[Subsection] 4. In the event that any text changes are recommended, the zoning administrator shall forward each, jointly or severally, to the zoning advisory committee for a recommendation, and then to the city council for approval. All notification requirements must be adhered to.

[Subsection] 5. The written report shall be entitled "An Annual Review of Rezonings and Suggested Text Changes," and shall be submitted to the planning commission at its February meeting.

[ARTICLE VIII. ZONING BOARD OF ADJUSTMENT]

Section 1. Creation and membership.

The zoning board of adjustment is hereby established. The word "board," when used in this ordinance, shall be construed to mean the zoning board of adjustment. The board created in accordance with and as authorized by Act No. 326 of the 1969 regular session of the Legislature of Alabama shall consist of seven members, appointed by the city council for overlapping terms of seven years, one of which shall be a person licensed by the State of Alabama to engage in the real estate profession either as a broker or sales person; one of which shall be a person licensed by the State of Alabama as a registered architect; one of which shall be a person licensed by the State of Alabama to engage in building construction; the remaining four members shall represent other diverse segments of the population not principally affiliated with the above professions.

No member of the zoning board of adjustment of the City of Birmingham shall cast any vote or debate on any matter pending before the board which would benefit directly or indirectly any such member or persons in said member's immediate family, or any business with which said member is associated.

All members of the zoning board of adjustment of the City of Birmingham shall be citizens and residents of the City of Birmingham. Any member who ceases to be a citizen and resident of the City of Birmingham shall vacate said position on the zoning board of adjustment immediately.

Section 2. Meetings, procedure and records.

Meetings of the board shall be held at such times as the board may determine, or upon call of the chairman. Such chairman or, in his absence, the vice-chairman, may administer oaths and compel the attendance of witnesses. All meetings of the board shall be open to the public.

The board shall adopt and publish its own rules of procedure and keep minutes of its proceedings, showing the vote of each member upon each question, or if absent or failing to vote, indicating such fact, and shall keep records of its examinations and other official actions, all of which shall be immediately filed in the office of the board and shall be a public record.

Section 3. Appeals to the board.

An appeal from the decision of the director of the department of planning, engineering and permits may be taken to the board by any person aggrieved, or by any officer, department, board or agency of the City of Birmingham affected by such decision.

Such appeal shall be taken within a reasonable time, as provided by the rules of the board, by filing with the director of the department of planning, engineering and permits and with the board a notice of appeal specifying the grounds thereof.

The director of the department of planning, engineering and permits shall forthwith transmit to the board all the papers constituting the record upon which the action appealed was taken. An appeal stays all proceedings in furtherance of the action appealed from, unless the director of the department of planning, engineering and permits certifies to the board, after the notice of appeal shall have been filed with him, that by reason of facts stated in the certificate a stay would, in his opinion, cause imminent peril to life or property. In such case, proceedings shall not be stayed otherwise than by a restraining order which may be granted by the board or by a court of record on application or notice to the director of the department of planning, engineering and permits and on due cause shown.

Section 4. Hearing of appeals.

The board shall fix a reasonable time for the hearing of an appeal taken within the time specified by its rules, given public notice thereof, as well as due notice to all adjacent property owners, and decide the same within a reasonable time. Upon the hearing of such appeal, any party may appear in person, or by agent or attorney.

Section 5. Powers and duties.

The board in appropriate cases and subject to appropriate conditions and safeguards, shall have the following powers:

1. To hear and decide appeals where it is alleged there is error in any order, requirement, decision or determination made by the director of the department of planning, engineering and permits in the enforcement or application of this ordinance.

2. To authorize in specific cases a variance from the terms of this ordinance such as will not be contrary to the public interest, where owing to special conditions a literal enforcement of the provisions of this ordinance will result in unnecessary hardship, but where the spirit of the ordinance shall be observed and substantial justice done. Such special conditions shall be limited to exceptional narrowness, shallowness or shape of a specific piece of property existing at the time of the enactment of this ordinance, or exceptional topographic conditions or other extraordinary and exceptional situations or conditions of such piece of property as would result in peculiar, extraordinary and practical difficulties. However, the granting of the variance shall not allow a structure or use in a district restricted against such structure or use, except as specifically provided for in this article. No variance shall be authorized unless the board finds all of the following conditions exist:

    a. That the special circumstances or conditions applying to the building or land in question are peculiar to such premises and do not apply generally to other land or buildings in the vicinity.

    b. That the granting of the application is necessary for the preservation and enjoyment of a property right and not merely to serve as a convenience to the applicant.

    c. That the condition from which relief for a variance is sought did not result from action by the applicant.

    d. That the authorizing of the variance will not impair an adequate supply of light and air to adjacent property or unreasonably increase the congestion in public streets, or increase the danger of fire, or imperil the public safety, or unreasonably diminish or impair established property values within the surrounding areas, or in any other respect impair the health, safety, comfort, morals, or general welfare of the inhabitants of the City of Birmingham.

3. The board may modify the strict application of the provisions of this ordinance and cause a permit to be issued upon such reasonable condition as it may prescribe in the following cases:

    a. The extension of a district for a distance of not more than 50 feet where the boundary line of a district divides a lot or tract held in single ownership at the time of the passage of this ordinance.

    b. The determination of the proper district applicable to particular land in cases of ambiguity or doubt arising from a difference between the street layout actually on the ground and the street layout as shown on the zone map.

    c. The reconstruction of a building, the use of which is nonconforming, which has been destroyed, or partially destroyed by explosion, fire, act of God or

the public enemy, except for the reconstruction of a nonconforming building located in a floodplain zone district, where 50 percent or more of the building has been damaged by any means, in which case the provisions of article VI, section 10 shall apply.

d. The erection, extension and use of a structure, or the use of premises not otherwise authorized or permitted by this ordinance in any location for a public service corporation for public utility purposes which is deemed reasonably necessary for the public convenience or welfare.

e. Reduction in the parking and loading requirements of this ordinance whenever the character or use of a building or premises is such as to make unnecessary the full provision of parking or loading facilities, or where such regulations would impose an unnecessary hardship, such as extreme financial difficulty, structural difficulty or similar condition upon the use of the property.

f. The erection of a temporary building for commerce or industry in the E or R districts which is incidental to the residential development, such permit to be issued for a period of not more than one year.

g. The location, construction, extension, structural alteration of a permitted use in a floodplain district, provided such variance or modification shall not be issued within any designated floodway if any increase in flood level during the base flood discharge would result and the board determines that:

(1) The variances for modification is the minimum necessary, considering the flood hazard to afford relief;

(2) The applicant has shown good and sufficient cause for the granting of such request;

(3) The failure to grant the requested variance or modification would result in exceptional hardship; and

(4) The granting of the variance or modification will not result in increased flood height, additional threats to public safety, extraordinary public expense, create nuisance, cause fraud on or victimization of the public or conflict with existing laws or ordinances of the city;

and shall through its action show that consideration has been given to all technical evaluations, all relevant factors and all standards specified in article VI, section 10 of this ordinance and the following:

(i) The danger that materials may be swept into other lands to the injury of others;

(ii) The danger to life and property due to flooding or erosion damage;

(iii) The susceptibility of the proposed facility and its contents to flood damage and the effect of such damage on the individual owner;

(iv) The importance of the services provided by the proposed facility to the community;

(v) The necessity to the facility of a waterfront location, where applicable;

(vi) The availability of alternative locations, not subject to flooding or erosion damage, or the proposed use;

(vii) The compatibility of the proposed use with existing and anticipated development;

(viii) The relationship of the proposed use to the comprehensive plan and flood and floodplain management program for that area;

(ix) The safety of access to the property in times of flood for ordinary and emergency vehicles;

(x) The expected heights, velocity, duration, rate of rise and sediment transport of the floodwaters and the effects of wave action, if applicable, expected at the site; and,

(xi) The costs of providing governmental services during and after flood conditioning including maintenance and repair of public utilities and facilities such as sewer, gas, electrical and water systems, and streets and bridges.

4. When any modification or special exception hereinafter in this section authorized will not tend to impair the health, safety, convenience or comfort of the public, including that portion of the public occupying the property immediately contiguous to the parcel of land which the modification concerns, to be determined by the board upon the adduction of competent evidence, including a view of the premises and its surroundings at the discretion of the board, the board may modify the strict application of the provisions of this ordinance and cause a permit to be issued upon such reasonable conditions as it may prescribe for the location, construction, extension, structural alteration and operation of any of the following uses, in any district from which these uses are prohibited or limited by this ordinance:

   a. Airport or landing field.

   b. Cemetery or mausoleum, including a mortuary or funeral home when located within the boundaries of an established cemetery.

   c. Hospital or institution provided that any hospital or institution authorized in any "E" or "R" district shall be located on a site of not less than five acres, and shall be set back from all required yard lines at least two feet for each foot of building height.

d. Commercial, recreational or amusement development for temporary or seasonal periods.

e. Drive-in theater.

f. Practice golf driving range, par three golf course or miniature golf course.

g. Trailer camp, provided such trailer camp shall comply with the provisions of applicable ordinances of the city.

h. Private club.

i. Wireless communications facilities where a special exception is specified in article VI, section 18.

j. Extraction of natural resources.

k. Sanitary landfill operation.

l. Public building owned or operated by governmental agency.

m. Privately operated community buildings, recreation field or amphitheater.

n. Off-street parking area provided the parking area adjoins a commercial or industrial district.

o. Community, common, joint or private fallout shelters.

p. Family day/night care facility in any MXD or HZD Zone District; family group day/night care facility in any R-4A, R-8 or HZD Zone District; child care center in any R-5, R-6, R-7 or R-8 Zone District or any child care center in any district abutting a residential zone district; child care center as an accessory use to a public or private institutional uses permitted in any E-1, R-1, R-2, R-3, R-4, R-4A, R-5, R-6, R-7, R-8, MXD or HZD Zone District or any child care center as an accessory use in any district abutting a residential zone district; adult care facility in any R-5, R-6, R-7, or R-8 Zone District or any adult care facility in any district abutting a residential zone district, provided that the applicant:

(1) Complies with the requirements of article VI, section 17 of this ordinance; and

(2) Provides a certification from the owner and operator that approval under this section shall not be transferable without prior approval by the zoning board of adjustment of the City of Birmingham.

q. Communal living facility in any R-4, R-5, R-6, R-7, B-1, B-2, B-3, B-4 or M-1 Zoning District provided the applicant submits:

(1) A statement from the state department of health or the state department of mental health and/or the Jefferson County Department of Health that the proposed facility meets all requirements for the appropriate license, if applicable.

(2) A statement from the City of Birmingham Housing Code Enforcement Division that the proposed facility meets all provisions of the City of Birmingham Housing Code.

(3) A certification from the owner and operator that approval under this section shall not be transferable without prior approval by the zoning board of adjustment of the City of Birmingham.

r. Wrecker service or insurance company holding yard in a M-1 Light Industrial District.

s. Personal services such as a beauty shop or barbershop when located in an approved communal living facility primarily designated for elderly residents having more than 100 residents, or in a multifamily building or condominium building having more than 100 units, provided that:

(1) No exterior signage is permitted, and

(2) The use of the facility shall be limited to only those persons who reside at the facility.

t. Medical clinic, when located in a public housing community operated by the housing authority, as defined in Title 24-1-22 of the Code of Alabama 1975, provided:

(1) The use of the clinic is limited to residents of the housing community in which the clinic is located; no other persons may receive services at such clinic.

(2) No exterior signage is permitted.

u. Opioid replacement therapy treatment facility only in a B-2, B-3, B-4, O&I, or M-1, M1-A, M-2 zoning district. In order to operate, the following information must be provided:

(1) A letter from the state department of health, state health planning and development agency, or the state department of mental health and/or the Jefferson County Department of Health that the proposed facility meets all requirements for operation and that all applicable and/or appropriate license (or licenses) or certifications have been obtained. If no license (or licenses) or certifications are needed or required for operation from the above listed agencies, a letter stating that fact from these agencies must be provided.

(2) The applicant submits a certification from the owner and operator that approval under this section shall not be transferable without prior approval by the zoning board of adjustment of the City of Birmingham.

v. Amusement (outdoor), when the property abuts a residential zoned property located with the city in a B-2, B-3, B-4, B-5, M-1, and M-5 district.

w. Uses on appeal when specified elsewhere in this article.

x. Chicken coop in only an M-l, M-1A, M-2 or M-3 zoning district provided that roosters are prohibited, it is accessory to an urban farm, no more than 100 hens per property, an enclosed predator-proof coop/run shall be provided that is no more than 2,000 square feet, the minimum setback from adjoining property lines shall be 100 feet and from street right-of-way lines shall be 300 feet. No chicken coop shall be built closer than 500 feet to the nearest adjacent residential zoned lot.

y. Outdoor urban farm in only a B-2 zoning district* provided all compost and organic matter stored on site is screened from adjacent lots and is more than 1,000 feet from any adjacent residential dwelling, which shall not cover more than ten percent of the total area, shall be managed to prevent rodents and pests, prevent odors and drainage from compost onto adjacent sites, all farming equipment shall be screened from view with fencing or landscaping of adjacent lots, accessory structures are limited to storage sheds, greenhouses, hoophouses, cold frames and cisterns built of standard uniform materials that are either new or in sound condition not showing signs of decay, apiaries are set back from property lines by 25 feet and 50 feet from any adjacent residential lots, a continuous water source is available, one hive allowed per 2,500 square feet with maximum of 40 hives.

   If any accessory structure is not maintained in sound condition free from evidence of decay and can be seen from public right-of-way or an adjacent property, they will be considered a nuisance and will be subject to code enforcement.

   It is a requirement that soil testing be conducted prior to gardening activities. Test for both soil condition and possible soil contamination, to determine at minimum constraints to food production, shall be conducted. Information on acquiring soil testing kits and analysis can be found in either the appendix to the [this] City of Birmingham Zoning Ordinance or the Technical Code for the City of Birmingham.

z. Market stand in only E-l, R-l, R-2, R-3, R-4, R-4A, R-5, R-6 or R-7 zoning districts, provided that accessory to a community garden, sales only occur on a temporary basis no more than 78 days per year and between the hours of 7:00 a.m. and 7:00 p.m., market can not operate for more than two consecutive days, market manager demonstrates that adequate parking is available on the lot being used by the market or a parking arrangement has been made for a nonresidential lot that is within 500 feet and is not in use during market hours, items made from kits, used or mass-produced items are prohibited, only agriculture products grown on the community garden property can be sold, within one hour after the closing of the market stand the market stand must be moved to its

permanent storage area in a rear yard and the market area be cleaned of any debris or trash, an affidavit verifying landowners permission and identifying community garden manager is submitted to PEP.

When the zoning board of adjustments considers a special exception to allow a market stand, they must consider the distance of a market stand from allowed market areas. If the proposed market stand is outside of walking distance (one-half mile) of an allowed market area (place of worship, school or park) or the applicant can demonstrate in writing that the owner of an allowed market area will not allow a market to occur on their property, then the board may, after considering other factors such as parking, approve the special exception.

5. The board may modify the strict application of the area and dimensional provisions of this ordinance as they apply to lots 50 feet in width in the R-5 Multiple Dwelling District, R-6 Multiple Dwelling District and R-7 Multiple Dwelling District, if in the discretion of the board, the design of the apartments as shown upon the site plan before the said board will add to the safety, convenience, comfort and general welfare of the public, by allowing the construction of one more dwelling unit than is allowable under the minimum lot area per family regulations in the said R-5, R-6, and R-7 multiple dwelling districts.

6. In the event that a structure or premises occupied by a legal nonconforming use becomes abandoned, discontinued or remains vacant, for a continuous period of two or more years, the board may grant a special exception to reestablish the legal nonconforming use provided that documentation is submitted to the staff of the planning, engineering, and permits department that the previous use was a legal nonconforming use; and there was no intent to abandon the legal nonconforming use since the use was discontinued or stopped, thereby losing its legal nonconforming status. Documentation must also be provided confirming that the use of the subject property has not converted or conformed to its current zoning classification requirements. Said documentation may be in the form of a letter, or similar instrument, from the owner or applicant which is substantiated and/or supplemented by information provided by the City of Birmingham. The applicant must also provide, in writing, documentation stating reasons why the legal nonconforming use will not tend to impair the health, safety, convenience or comfort of the public, including that portion of the public occupying the property immediately contiguous to the parcel of land which the resumption of the legal nonconforming status concerns.

7. In exercising the above mentioned powers the board may, in conformity with the provisions of this ordinance, reverse or affirm, wholly or partly, or may modify the order, requirement, decision or determination appealed from and may make such order, requirement, decision or determination as ought to be

made and to that end shall have all powers of the director of the department of planning, engineering and permits. The concurring vote of two-thirds of the members present shall be necessary to reverse or modify any order, requirement, decision or determination of the director of the department of planning, engineering and permits, or to decide in favor of the appellant or applicant on any matter upon which is required to pass, or to effect any variation from the strict application of the provisions of this ordinance.

8. To defray a portion of the costs occasioned thereby, no appeal from the decision of the director of the department of planning, engineering and permits, and no application for an exception, variance or other matter, shall be entered on the docket of, or heard by, or ruled on by the board until there has been paid to the offices of the board by the appellant or applicant the following fees:

a. Variances, modifications, and special exceptions involving all residential zoning districts	$125.00
b. Variances, modifications, and special exceptions involving all commercial, industrial, agricultural or other zoning districts	$300.00
c. Appeals from the decision of the director of the department of planning, engineering and permits	$300.00

Said fees shall be remitted to the director of finance of the City of Birmingham. If, on appeal from the decision of the director of the department of planning, engineering and permits pertaining to an interpretation of the provisions of this ordinance, the applicant is successful in reversing the decision of the director of the department of planning, engineering and permits, the fee shall be returned to the applicant. No fee shall be required for an interpretation of this ordinance where there is a variance between the street layout on the ground and the street layout as shown on the district zoning map. Neither the City of Birmingham, nor any officer, agent, or employee of the city acting in his official capacity, nor any agency of the city, shall be required to pay a fee under this article.

(Ord. No. 08-237, 12-1-2008; Ord. No. 10-31, § 1(5), 3-2-2010; Ord. No. 11-137, § 2, 11-8-2011; Ord. No. 13-71, 5-7-2013; Ord. No. 13-141, § 6, 11-5-2013)

Section 6. Appeals from action of the board.

Any party aggrieved by any final judgment or decision of the board may, within 15 days thereafter, appeal therefrom to the circuit court or court of like jurisdiction by filing with the board a written notice of appeal, specifying the judgment or decision from which appeal is taken. In case of such appeal, the board shall cause a transcript of the proceedings in the case to be certified to the court to which the appeal is taken and the case shall in such court be tried de novo.

[APPENDIX] ZONING BOARD OF ADJUSTMENT ENABLING LEGISLATION

Act No. 326 H.599- Dill, Kilgore, Holman, Jackson (T), Gloor, Cherner, Gafford, Yeilding, Sessions, Ellis, Watkins, Money, Bowers, Cook (Jefferson), Weeks, Meeks

AN ACT

TO AMEND SECTION 1 OF ACT NO. 528 OF THE 1959 REGULAR SESSION OF THE LEGISLATURE OF ALABAMA (GENERAL ACTS OF ALABAMA OF 1959, P. 1302-1304), PROVIDING FOR THE APPOINTMENT OF A ZONING BOARD OF ADJUSTMENT IN ANY CITY HAVING A POPULATION OF THREE HUNDRED THOUSAND INHABITANTS OR MORE ACCORDING TO THE LAST OR ANY SUBSEQUENT FEDERAL CENSUS.

Be It Enacted by the Legislature of Alabama:

Section 1.

That Section 1 of Act No. 528 of the 1959 Regular Session of the Legislature of Alabama (General Acts of Alabama of 1959, p. 1302-1304) be and the same is hereby amended as follows:

Section 1. The governing body of any city which may now or hereafter have a population of 300,000 inhabitants or more, according to the last or any subsequent federal census and which may now or hereafter have in force and effect a comprehensive zoning ordinance shall provide for the appointment of a Zoning Board of Adjustment and in the zoning regulations and restrictions adopted by such city pursuant of the authority of the laws of this state, provided that such Board of Adjustment shall, in appropriate cases and subject to appropriate conditions and safeguards, make special exceptions to the terms of the zoning ordinance of such city in harmony with its general purpose and intent, and in accordance with general or specific rules therein contained. Such Board of Adjustment shall consist of seven members, and each shall hold office for a term of seven years or until such time as his successor shall be appointed and qualify, except that the respective terms of the seven members first appointed shall be one, two, three, four, five, six and seven years; provided, members may after a public hearing be removed for cause by the governing body of the city. Such Board of Adjustment shall adopt rules in accordance with the provisions of the zoning ordinance adopted by such city. Meetings of the board shall be held at the call of the chairman and at such other times as the board may determine. Such chairman, or in his absence the acting-chairman, may administer oaths and compel the attendance of witnesses. All meetings of the board shall be open to the public. Such board shall keep minutes of its proceedings showing the vote of each member upon each question, or if absent or failing to vote, indicating such fact, and

shall keep records of its examinations and other official actions, all of which shall be immediately filed in the office of the board and shall be a public record. Appeals to the Zoning Board of Adjustment may be taken by any person aggrieved, or by any officer, department, board or bureau of the municipality affected by any decision of the administrative officer or such other officer as is charged with the enforcement of the zoning ordinance of the city. Such appeal shall be taken within a reasonable time as provided by the rules of the board by filing with the officer from whom the appeal is taken and with the Zoning Board of Adjustment of notice of appeal specifying the ground thereof. The officer from whom the appeal is taken shall forthwith transmit to the board all the papers constituting the record upon which the action appealed was taken. An appeal stays all proceedings in furtherance of the action appealed from unless the officer from whom the appeal is taken certifies to the Zoning Board of Adjustment after the notice of appeal shall have been filed with him that by reason of facts stated in the certificate a stay would in his opinion cause imminent peril to life or property. In such cases proceedings shall not be stayed otherwise than by restraining order which may be granted by the Zoning Board of Adjustment or by a court of record on application or notice to the officer from whom the appeal is taken and on due cause shown. The Zoning Board of Adjustment shall fix a reasonable time for the hearing of the appeal, give public notice thereof, as well as due notice to the parties in interest, and decide the same within a reasonable time. Upon the hearing any party may appear in person or by agent or by attorney. The Zoning Board of Adjustment shall have the following powers: to hear and decide appeals where it is alleged there is error in any order, requirement, decision or determination made by an administrative official in the enforcement of the zoning ordinance of the city upon which such board is required to pass under such ordinance. To authorize upon appeal in specific cases such variance from the terms of the zoning ordinance of the city as will not be contrary to the public interest, where owing to special conditions a literal enforcement of the provisions of the ordinance will result in unnecessary hardship, and so that the spirit of the ordinance shall be observed and substantial justice is done, provided, however, that no variance shall be granted under the provisions of this act to allow a structure of use in a district restricted against such structure or use, except as specifically provided for by the zoning ordinance. In exercising the above mentioned powers, such board may, in conformity with the provisions of this act, reverse or affirm wholly or partly or may modify the order, requirement, decision or determination appealed from and make such order, requirement, decision or determination as ought to be made, and to that end shall have all the powers of the office from whom the appeal is taken. The concurring vote of two-thirds of the Board members present shall be necessary to reverse any order, requirement, decision or determination of any such administrative official, or such other officer as is charged with the enforcement of the zoning ordinance of the city, or to decide in favor of the applicant or any matter upon which it is required to pass under any ordinance of the city or to effect any variation in any such ordinance. A quorum at any meeting shall consist of four members. The Zoning Board of Adjustment shall not be required to

return the original papers acted upon it, but it shall be sufficient to return certified or sworn copies thereof or of such portion thereof as may be called for by such writ. The return shall concisely set forth such other facts as may be pertinent and material to show the grounds of the decision appealed from and shall be verified."

Section 2. This act shall become effective immediately upon its passage and approval by the governor or upon its otherwise becoming a law.

Approved August 12, 1969

Time: 5:09 p.m.

I. *Authority.* The Zoning Board of Adjustment is established in accordance with and as authorized by Act No. 326 of the 1969 regular session of the Legislature of Alabama. The Board shall be governed by the Rules of Procedure and the Zoning Ordinance of the City of Birmingham.

II. *Membership.*

Composition. The membership of the Board shall consist of seven members appointed by the City Council. Membership of the Board shall consist of one State of Alabama licensed real estate salesperson or broker, one State of Alabama licensed and registered architect; one State of Alabama licensed building contractor and four nonaffiliated citizens who represent diverse segments of the population, and all seven of which must be residents and citizens of the City of Birmingham.

Terms of Membership. Members appointed by the Council shall serve overlapping terms of seven years.

How Replaced. Members may, after a public hearing, be removed for cause by the City Council. Replacement for any member of the board whose term of office is terminated, either by resignation or removal, shall be by appointment of the City Council.

III. *Officers.*

Chairman. A Chairman shall be elected by the members of the Board. The Chairman shall call all meetings to order and shall declare all adjournments. He shall rule on all points of order and procedure unless he shall be overruled by a majority of the Board present. His term as Chairman shall be for one year, or until such time thereafter, as a successor shall be duly elected. Any chairman may be reelected to succeed himself in the office of the Chairman.

Vice-Chairman. A Vice-Chairman shall be elected in the same manner as the Chairman for a term of one year, or until such time thereafter as his successor shall be elected, and he shall serve in the absence of the Chairman with the same powers and duties herein delegated the Chairman.

IV. *Function.* The Zoning Board of Adjustment shall hear and consider only those applications filed in the Department of Planning, Engineering and Permits which have been approved by the Director or his designated subordinate, which applications shall request the Board to render a decision in one or more of the following instances:

1. To hear an appeal from the decision of the Director of the Department of Planning, Engineering and Permits (Article VIII, Section 5.1).

2. To grant variances in specific cases from the strict application of the terms of the Ordinance under certain conditions (Article VIII, Section 5.2).

3. To modify the application of the terms of the Ordinance in certain cases (Article VIII, Section 5.3).

4. To grant exceptions under reasonable conditions to the terms of the ordinance for the establishment of certain specific uses where they are ordinarily prohibited (Section VIII, Section 5.4).

V. *Procedure for filing.* All applications for hearings before the Board must be filled in the office of the Department of Planning, Engineering and Permits of the City of Birmingham upon forms furnished by the Department for that purpose. Before any action will be taken on any application by the Board, the applicant shall have deposited with the City of Birmingham an amount determined by the following fee schedule:

a. Variances, modifications, and special exceptions involving all residential zoning districts	$125.00
b. Variances, modifications and special exceptions involving all commercial, industrial, agricultural or other zoning districts	$300.00
c. Appeals from the decision of the Director of Urban Planning	$300.00

Such fee is required to cover the approximate cost of processing the application. The Board will not hear any application unless all information called for by the application form shall have been furnished.

The Board will not hear any application unless same had been properly filed at least two weeks prior to the meeting date of the Board on which the application is proposed to [be] heard.

Notices. Notices shall be sent to all immediate adjacent property owners including properties directly across streets or alleys from the subject property at least six days prior to the date of the hearing. Such notices shall state the description of the parcel of land in question, what request has been made concerning it, and the time and place of the hearing.

VI. *Appeals from decisions of enforcing officer.* Persons appealing decisions of the officer charged with enforcement of the Zoning Ordinance shall have 15 days from the date of such decision to submit a letter or other writing to the Department of Planning, Engineering and Permits advising of and indicating the reasons for appealing such decision. During this fifteen day period, the appellant shall file an application with the Planning and Development Regulation Division of the Department of Planning, Engineering and Permits in order to officially enter the appeal case on the docket of the next regularly scheduled Board meeting. The enforcing officer shall make his decision in writing in which he shall indicate the time in which an appeal to the Board shall be filed. A copy of this written decision shall be sent to the person in charge of the Planning and Development Regulation Division of the Department of Planning, Engineering and Permits. A copy of such written decision

shall also be sent to any party or group representative who has made known to the enforcing officer of this or her opposition to the decision. Appeals to the Zoning Board of Adjustment may be taken by any person aggrieved, or by an officer, department, board or bureau of the City of Birmingham affected by a decision of the officer charged with enforcement of the Zoning Ordinance. Appeals from a person who is not an adjoining property owner of the property affected by the decision of the enforcing officer, or who is not a representative of an office, department, board, or bureau of the City of Birmingham shall indicate how he is "aggrieved." In such cases, the Board shall first vote to determine if the person is aggrieved. If the board's vote is in the affirmative, it shall proceed with the hearing of the appeal.

VII. *Hearings.* Any interested party may appear before any hearing of the Board, either in person or by his agent or attorney. Each application will be heard in substantially the following manner:

a. The Chairman, or such member of the Board as he may direct, shall present a preliminary statement of the matters to be considered in the application.

b. The applicant and the parties opposed to the application shall be permitted to present arguments to the Board, and may offer supporting testimony to their position, subject to whatever reasonable limitations the Chairman may wish to impose thereon.

c. The Board will endeavor to consider only such argument and testimony as is pertinent to the application but is not limited to consideration of only such evidence as would be admissible in a court of law.

d. If the Board has not already viewed the premises described in the application, it may continue its hearing on the application until it has viewed the premises.

e. The Board shall render its decision on any application heard by the Board not later than 30 days from the date of the hearing.

f. The Board may grant a continuance of any hearing for a period not in excess of 60 days.

g. The Board may grant more than one continuance of any hearing but shall not continue any hearing for an aggregate of more than 120 days.

f.[h.] The concurring vote of two-thirds of the Board members present shall be necessary to reverse any order, requirement, decision or determination of the Director of the Department of Planning, Engineering and Permits; or to decide in favor of the applicant on any matter concerning a variance, special exception or modification.

VIII. *Application for rehearing.* All applications for a rehearing shall be made in the same manner as are applications for original hearings. Any application for rehearing will be denied by the Board if it appears that there has been no substantial change in facts or physical conditions since the original hearing.

IX. *Meetings.* Regular meetings of the Board will be held at 2:00 p.m. on the second and fourth Thursdays of each calendar month, which meetings will be held in the City Council Chambers of City Hall; provided, however, the Chairman may adjourn the meeting to another room in the City Hall when he deems it expedient and in the best interests of the parties concerned.

Conduct of Meetings. All meetings of the Board will be open to the public. The order of business at each meeting will be substantially as follows:

a. Roll call.

b. Approval of minutes of the previous meeting.

c. New business, including the hearing of pending applications.

d. Unfinished business.

e. Adjournment of meeting.

Any Board member who is financially interested in a decision of the Board on any application before the Board including but not limited to ownership of property in project, partnership in project or representation as client of project will rescue himself during the hearing on said application and will neither question witnesses nor case a vote.

Quorum. A quorum at any meeting of the Board shall consist of four Board members. When Less than a quorum of the Board is present for any meeting, those members present shall, by majority vote, set a new date for the meeting not later than the next regular meeting date of the board, or, by majority vote, may continue all applications before the Board to the next regular meeting of the Board.

X. *Minutes.* The Board shall cause minutes of each of its meetings to be kept in the Planning And Development Regulation Division of the Department of Planning, Engineering and Permits, which minutes shall be available and open to inspection by the public. The minutes shall show the action taken by the Board on each application heard by it, together with the votes of each member of the Board upon each application. The minutes shall further show the names of any absent members of the Board, and the name of any member rescuing himself in any matter before the Board.

XI. *Amendments.* These rules may be amended from time to time by the Zoning Board Adjustment, by resolution duly adopted at any of its regular meetings, when so authorized by the vote of at least four of its members.

The Zoning Ordinance was adopted as part of a program for developing the Birmingham Comprehensive Plan; zoning is one of the tools to carry out this plan. The Zoning Advisory Committee is organized to advise the City Council directly on all applications for changes in the Zoning Ordinance, and its activity shall be confined to considering such changes. The Committee speaks for the Birmingham Planning Commission with full authority - there shall be no appeals from its decision to the full Planning Commission. All map change applications will be compared to all parts of the Birmingham Comprehensive Plan in effect at that time and any other plan, study, or program of improvement in effect or having official status or endorsement. Each application will be investigated by the staff of the Department of Planning, Engineering and Permits and a report submitted thereon including, but not limited to, conclusions as to relation to the Comprehensive Plan and a recommendation.

I. *Authority.* The Zoning Advisory Committee of the Birmingham Planning Commission is established under authority granted by the commission of the City of Birmingham under Ordinance No. 1800-F, as amended by Ordinance No. 1817-F. The Committee shall be governed by these Rules of Procedure and the Zoning Ordinance of the City of Birmingham.

II. *Membership.*

Composition. The membership of the Committee shall be composed of seven members elected by the Birmingham Planning Commission from its appointed membership.

Terms of Membership. Members duly elected to membership on the Zoning Advisory Committee shall continue to serve on the Committee as long as they are legally serving as members of the Birmingham Planning Commission or until replaced by election of the Planning Commission.

How Replaced. Replacement for any member of the Committee whose term of office on the Birmingham Planning Commission is terminated shall be by election from the appointed membership of the Planning Commission.

III. *Officers.*

Chairman. A Chairman shall be elected by the members of the Committee. His term shall be for one year beginning with the date of election, and he shall be eligible for reelection. The Chairman shall decide upon all points of order and procedure, subject to these Rules of Procedure unless directed otherwise by a majority of the Committee in session at the time. The Chairman may appoint any subcommittee deemed necessary to investigate any matter before the Committee.

Vice-Chairman. A Vice-Chairman shall be elected by the Committee from among its regular members in the same manner and for the same term as the Chairman. He shall serve as acting Chairman in the absence of the Chairman, and at such times he shall have the same powers and duties as the Chairman.

Secretary. The Director of Planning, Engineering and Permits or his designated subordinate shall perform the administrative and clerical functions of the Committee. He shall keep all records, and handle all correspondence and notices for the Committee.

IV. *Applications.*

Procedures for Filing. The Committee shall hear all requests for change in the Zoning Ordinance of the City of Birmingham and shall transmit their recommendations to the City Council. The applicant must file his application for a hearing in the offices of the Urban Planning Department of the City of Birmingham. All applications shall be made upon the form furnished for that purpose and all information shall be complete and fees paid before the application shall be considered as having been filed. Before any action shall be taken as provided in these Rules of Procedure, the applicant petitioning for amendment shall deposit with the City of Birmingham the sum of $500.00 to cover the approximate cost of handling his application. Applications must be filed by 4:30 p.m., two weeks prior to the date of hearing. Hearings will be held at 7:00 p.m. on the first and third Tuesday of each month. An application for a rehearing may be made in the same manner as provided for in an original hearing. The application for rehearing shall be denied by the Committee if from the record it shall appear that there has been no substantial change in facts, evidence, or conditions.

Notices. Notices shall be sent to all property owners within a radius of 500 feet from the subject property at least six days prior to the date of the hearing. Such notices shall state the description of the parcel of land in question, what request has been made concerning it, and the time and place of the hearing.

Decisions. Upon agreement of a majority of the membership, decisions of the Committee may be made in executive session not more than 15 days from the time of the hearing or 30 days from the date of receipt of the application. The final decision of the Committee shall be shown in the record of the case as entered in the minutes of the Committee and signed by the Director of Planning, Engineering and Permits or his designated subordinate. Such record shall show the reasons for the determination. The affirmative or concurring vote of the majority of members present shall be necessary to recommended in favor of the applicant or to decide in favor of any matter before the Committee.

V. *Meetings.*

Meeting Place. Regular meetings of the Committee shall be held in the Council Chambers of the City Hall, provided that if the Committee Chairman so directs, meetings may be held at any other place in the City.

Special Meetings. Special meetings of the Committee may be called at any time by the Chairman. At least 48 hour's written or oral notice of the time and place of a special meeting shall be given to each member of the Committee.

Cancellation Meetings. Whenever there are no applications, public hearings, or other business of the Committee, the Chairman may dispense with a regular meeting by giving written or oral notice to all members no less than 48 hours prior to the time set for the meeting.

Conduct of Meetings. All meetings shall be open to the public. The order of business at regular meetings shall be as follows:

a. Roll call.

b. Approval of minutes of previous meeting.

c. Hearing of cases.

d. Unfinished business.

e. New business.

Presentation or Hearings of Proposals. The following shall be the order of procedure for public hearings concerning zoning matters:

a. The Chairman, or such person as he shall direct, shall give a preliminary statement of the case.

b. The applicant shall present the argument in support of his application.

c. Persons opposed to the application shall present the argument against the application.

d. Both sides will be permitted to present rebuttals to opposing testimony.

e. The Chairman shall summarize the evidence which has been presented, giving the parties opportunity to make objections and corrections.

Witnesses may be called and factual evidence may be submitted, but the Committee shall not be limited to consideration of such evidence as would be admissible in a court of law. The Committee may view the premises before arriving at a decision. Disqualification from Voting: No Committee member shall take part in the hearing or decision of any case in which he shall be personally or financially interested. No Committee member shall vote on any matter concerning a public hearing unless he shall have attended the public hearing.

VI. *Quorum.* A quorum shall consist of four members of the Committee. When less than four members are present for any hearing, then those that are present shall agree to and announce the time and place for a continued hearing.

VII. *Minutes.* The minutes of every meeting of the Committee shall be kept in a permanent file in the offices of the Department of Planning, Engineering and Permits and shall be a public record. These shall show the record of every action taken by the Committee and the reason therefore, every resolution or

upon any resolution or upon the final determination of any question, indicating the names of members absent or abstaining from voting and for what reasons.

FILING PROCEDURE AND FEES

I. *Zoning Advisory Committee.*

1. *Documents.*
   A. Rezoning application.
   B. Site Development plan (4 copies).
      1. Location and height of structures.
      2. Use of structures.
      3. Yard dimensions.
      4. Parking layout.
      5. Streets and drives.
      6. Site beautification.
      7. Signage.
2. *Time.* Time required for a rezoning case is approximately eight weeks, including hearings and actions both by the Zoning Advisory Committee and the City Council.
3. *Third parties.* The applicant should meet with the appropriate Neighborhood Association prior to the hearing of the case by the City Council.
4. *Notification.* The City is required to notify owners of property within 500 feet of any rezoning application. Such notice is mailed out for each meeting. The City is also required to advertise rezoning cases in a newspaper of general circulation. In addition, all applicable neighborhood association officers are notified.
5. *Public Hearings.* The Zoning Advisory Committee meets every first and third Tuesday. All rezoning application documents must be filed two weeks before each meeting. After the Zoning Advisory Committee hears a rezoning case and makes a recommendation, the City Council will schedule a public hearing to consider final action on the rezoning. The city Council hearing is normally four to five weeks following Zoning Advisory Committee Action.
6. *Fees.* $500.00 filing fee

II. *Zoning Board of Adjustment.*

1. *Documents.*
   A. Application.
   B. Survey map of the property.

C. Site development plan (if construction is involved).

1. Buildings and structures.
2. Yard dimensions.
3. Parking areas.
4. Driveways and walks.
5. Landscaping.
6. Freestanding signs.
7. Other signage.

2. *Time.* Time required for a Zoning Board of Adjustment case is approximately two weeks.

3. *Third Parties.* All applicants who have projects that may have neighborhood wide impact are urged to meet with the appropriate Neighborhood Association prior to the initial Board hearing.

4. *Notification.* The City is required to notify all adjacent property owners of all ZBA cases. In addition, all applicable neighborhood association officers are notified.

5. *Public Hearings.* The Zoning Board of Adjustment meets every second and fourth Thursday. All documents must be filed two weeks before the meeting.

6. *Fees.*

Variances, modifications, and special exceptions involving all residential zoning districts	$125.00
Variances, modifications, and special exceptions involving all commercial, industrial, agricultural or other zoning districts	$300.00
Appeals from the decision of the Director of Urban Planning	$300.00

III. *Subdivision Committee.*

1. *Documents.*

A. Subdivision application.

B. Maps.

1. Original plat and five copies.
2. Vicinity map (five copies).

2. *Time.* Time required for a Subdivision case is about two weeks.

3. *Third Parties.* The applicant is required to supply, upon filing, a listing of all adjacent property owners; together with the names and addresses of each. Where the case may have significant neighborhood-wide impact, the applicant is encouraged to meet with the affected Neighborhood Association.

4. *Notification.* The City is required to notify owners of adjacent property by certified mail. Such notice is mailed out for each meeting.

5. *Public Hearing.* The Subdivision Committee meets every second and fourth Wednesday. All documents must be filed two weeks before the meeting.

6. *Fees.*

Per subdivision plat	$100.00
Per residential lot	$5.00
Per acre or portion thereof not zoned for residential use or devoted to public purposes	$10.00
Cost of certified mail	[Cost]

IV. *Vacation Procedure.*

1. *Application is filed with the Subdivision Committee of the Birmingham Planning Commission, 5th Floor, City Hall.* Applicant is required to submit a Declaration of Vacation which must be signed by all persons who own land that abuts or borders the alley or street to be vacated. A sample Declaration of Vacation from is available for applicant to follow.

2. *Subdivision Committee Public Hearing.* Application will be heard by the Subdivision Committee which will recommend or not recommend the request to the City Council. It is also important that the applicant contact the Traffic Engineering Department regarding the removal of existing street lights and wooden poles along the right-of-way. If removal is necessary, the applicant is required to pay the cost, which is separate from the cost of the vacation itself.

3. *City Council Public Hearing.* After the Subdivision Committee has heard the case, the Planning, Engineering and Permits Staff will arrange to set it for a Public Hearing before the full City Council. Notice of Vacation must be advertised by the city in the newspaper five days prior to the Council Meeting. The Council will vote to approve or not approve the vacation request at the conclusion of the public hearing. If the vacation is approved, the applicant will be required to pay a right of way fee for the value of the land being vacated, unless said fee is waived by the City Council. (See City Ordinance No. 93-239 for fee Schedule.)

4. *Resurvey of the Vacation of Right-of-Way into Abutting Property.* Once the Council has approved the Vacation, the applicant must then resurvey the vacated area into the abutting property. This requires the applicant to file a case with the Subdivision Committee again. Six copies of a final plat drawn by a Registered Civil Engineer as well as a vicinity map are required in filing the resurvey case. In order to save time, the applicant may wish to complete this step when the vacation is filed (see Step #1). The Subdivision Committee can conditionally approve the resurvey at this time, subject to the Council's approving the vacation.

5. *Recording of Final Plat and Vacation Documents.* Once the resurvey has been approved and the applicant has met all conditions set forth by the Subdivision Committee for the resurvey, including payment of the right-of-way fee, the Final Plat and vacation documents will be recorded by the city in the Office of the Judge of Probate. After recording, the applicant will be able to obtain a building permit to use the vacated right-of-way.

Sign Fees *(From City of Birmingham Technical Code)*	
All signs (except roof and off-premises signs)	$75.00 (application fee)
Roof sign	$100.00 (application fee)
Off-premises sign (billboard)	$200.00 (application fee)
Sign face (all signs)	$0.50 per sq. ft. of sign face (sign face fee)
Reader board, message board, animated or video display*	
Off-premises billboard	$100.00 per sign face (sign face fee)
All other signs	$50.00 per sign face (sign face fee)
Portable signs	$50.00 (annual fee)
*Must receive electrical permit prior to issuance of sign permit.

CODE COMPARATIVE TABLE

1980 CODE

This table gives the location within this Code of those sections of the 1980 Code, as updated through October 1, 2013, which are included herein. Sections of the 1980 Code, as updated, not listed herein have been omitted as repealed, superseded, obsolete or not of a general and permanent nature. For the location of ordinances adopted subsequent thereto, see the table immediately following this table.

CODE COMPARATIVE TABLE

ORDINANCES

This table gives the location within this Code of those ordinances adopted since the 1980 Code, as updated through April 1, 2014, which are included herein. Ordinances adopted prior to such date were incorporated into the 1980 Code, as updated. This table contains some ordinances which precede April 1, 2014, but which were never included in the 1980 Code, as updated, for various reasons. Ordinances adopted since April 1, 2014, and not listed herein, have been omitted as repealed, superseded or not a general and permanent nature.
