PREFACE

This Code constitutes a recodification of the general and permanent ordinances of the City of Birmingham, Alabama.

Source materials used in the preparation of the Code were the 1980 Code, as updated through April 1, 2014, and ordinances subsequently adopted by the city council. The source of each section is included in the history note appearing in parentheses at the end thereof. The absence of such a note indicates that the section is new and was adopted for the first time with the adoption of the Code. By use of the comparative tables appearing in the back of this Code, the reader can locate any section of the 1980 Code, as updated, and any subsequent ordinance included herein.

The various sections within each title have been catchlined to facilitate usage. Notes which tie related sections of the Code together and which refer to relevant state law have been included. A table listing the state law citations and setting forth their location within the Code is included at the back of this Code.

Title, Chapter and Section Numbering System

The title, chapter and section numbering system used in this Code is the same system used in many state and local government codes. Each section number consists of three parts separated by a hyphen. The figure before the first hyphen refers to the title number, the figure after the first hyphen refers to the chapter number, and the figure after the second hyphen refers to the position of the section within the title and chapter. Thus, the first section of chapter 1 in title 1 is numbered 1-1-1, and the second section of chapter 1 in title 1 is 1-1-2. Under this system, each section is identified with its title and chapter, and at the same time new sections can be inserted in their proper place by using decimals for amendments. For example, if new material consisting of one section that would logically come between sections 1-1-1 and 1-1-2 is desired to be added, such new section would be numbered 1-1-1.1. New articles and new divisions may be included in the same way or, in the case of articles, may be placed at the end of the chapter embracing the subject, and, in the case of divisions, may be placed at the end of the article embracing the subject. The next successive number shall be assigned to the new article or division. New titles may be included by using one of the reserved title numbers.

Page Numbering System

The page numbering system used in this Code is a prefix system. The letters to the left of the colon are an abbreviation which represents a certain portion of the volume. The number to the right of the colon represents the number of the page in that portion. In the case of a title of the Code, the number to the left of the colon indicates the number of the title. In the case of an appendix to the Code, the letter immediately to the left of the colon

indicates the letter of the appendix. The following are typical parts of codes of ordinances, which may or may not appear in this Code at this time, and their corresponding prefixes:

MAYOR-COUNCIL ACT	MCA:1
MAYOR-COUNCIL ACT COMPARATIVE TABLE	MCACT:1
CODE OF ORDINANCES	CD1:1
CODE APPENDIX	CDA:1
CODE COMPARATIVE TABLES	CCT:1
STATE LAW REFERENCE TABLE	SLT:1
MAYOR-COUNCIL ACT INDEX	MCAi:1
CODE INDEX	CDi:1

Indexes

The indexes have been prepared with the greatest of care. Each particular item has been placed under several headings, some of which are couched in lay phraseology, others in legal terminology, and still others in language generally used by local government officials and employees. There are numerous cross references within the indexes themselves which stand as guideposts to direct the user to the particular item in which the user is interested.

Looseleaf Supplements

A special feature of this publication is the looseleaf system of binding and supplemental servicing of the publication. With this system, the publication will be kept up to date. Subsequent amendatory legislation will be properly edited, and the affected page or pages will be reprinted. These new pages will be distributed to holders of copies of the publication, with instructions for the manner of inserting the new pages and deleting the obsolete pages.

MAXINE HERRING PARKER
1944 - 2013

In November 2005, Maxine Herring Parker was elected to serve as the Birmingham City Council representative for District 4. During the election, Councilwoman Parker's platform focused on bettering the quality of life for citizens in her District. In August 2013, she was re-elected to a third term, and by a unanimous vote, her colleagues selected her President of the 2013-2017 City Council. Throughout her tenure on the Council, she promoted economic and community development as well as championed environmental issues, which led to passage of a Vehicular/Pedestrian Bridge on F.L. Shuttlesworth Drive and Environmental Protection Agency investigations into hazards plaguing District 4 residents.

Parker retired as a 41-year employee of Talladega College, Alabama's oldest historically Black College; it was founded in 1867. She served as the Executive Assistant for the President and was delighted to have served for 27 years as Secretary to the Talladega College Board of Trustees. Her 41-year tenure at Talladega afforded her the opportunity to serve under the administration of six Presidents and six Board of Trustee Chairpersons.

She was a lifelong member of Oak Street Baptist Church where she actively engaged in all facets of the church. She served as the Clerk-Secretary, was a member of the Flora Herring Mission and Women's Sunday School Bible Class. Her life's goal was epitomized by the words, "If I can help somebody as I pass along, then my living shall not be in vain."

Councilor Maxine Herring Parker transitioned from this life on Tuesday, November 12, 2013.

MIRIAM DENISE WITHERSPOON
1960 - 2009

In November 2005, Miriam Denise Witherspoon was elected to serve as the Birmingham City Council representative for District 7. During the election, Councilwoman Witherspoon's platform focused on the elderly, physically challenged and children.

Ms. Witherspoon, a Mobile native, made history when she became Birmingham's first wheelchair-bound person to win a seat on the Council. Her leadership was immediately evident as she was voted President Pro Tempore by her colleagues.

Injured near the end of her junior year in law school in a car accident while on a school break, her spinal cord was severed in the accident, leaving her paralyzed but not defeated. Witherspoon was an honors graduate who majored in Political Science and History at Alabama A&M University.

She graduated Magna Cum Laude and second in her class from Miles Law School. She passed the bar after the first test and practiced law beginning in 1990. She was named Miss Wheelchair Alabama 1989-1990.

Council President Pro Tempore Witherspoon transitioned from this life on Tuesday, April 21, 2009.

Checklist of Up-to-Date Pages

(This checklist will be updated with the printing of each Supplement)

From our experience in publishing Looseleaf Supplements on a page-for-page substitution basis, it has become evident that through usage and supplementation many pages can be inserted and removed in error.

The following listing is included in this Code as a ready guide for the user to determine whether the Code volume properly reflects the latest printing of each page.

In the first column all page numbers are listed in sequence. The second column reflects the latest printing of the pages as they should appear in an up-to-date volume. The letters "OC" indicate the pages have not been reprinted in the Supplement Service and appear as published for the original Code. When a page has been reprinted or printed in the Supplement Service, this column reflects the identification number or Supplement Number printed on the bottom of the page.

In addition to assisting existing holders of the Code, this list may be used in compiling an up-to-date copy from the original Code and subsequent Supplements.

(c) When preparing a supplement to this Code, the codifier (meaning the person, agency or organization authorized to prepare the supplement) may make formal, nonsubstantive changes in ordinances and parts of ordinances included in the supplement, insofar as it is necessary to do so to embody them into a unified Code. sections of the Code which embody the substantive sections of the ordinance incorporated into the Code); and

(5) Make other nonsubstantive changes necessary to preserve the original meaning of ordinance sections inserted into the Code; but in no case shall the codifier make any change in the meaning or effect of ordinance material included in the supplement or already embodied in this Code.

Sec. 1-1-18. Provisions considered as continuation of existing ordinances.

The provisions appearing in this and the following titles, chapters and sections, so far as they are the same as those of ordinances or resolutions existing at the time of the adoption of this Code, shall be considered as a continuation thereof and not as new enactments.

(13) Any ordinance or resolution dedicating or accepting any subdivision plat or providing for subdivision regulations;

(14) Any ordinance or resolution describing or altering the boundaries of the city or annexing property to the city;

(15) The administrative ordinances or resolutions of the city not in conflict or inconsistent with the provisions of this Code;

(16) Any ordinance levying or imposing taxes not included in this Code;

(17) Any ordinance or regulation prescribing traffic regulations for specific locations concerning through streets, parking limitations, parking prohibitions, one-way traffic, limitations on loads of vehicles or loading zones, not in conflict or inconsistent with this Code;

(19) Any other ordinance or resolution, or part thereof, which is not of a general and permanent nature; or which is referred to elsewhere in this Code as continuing in effect.

(b) Nor shall the repeal of any such ordinance or resolution be construed to revive any ordinance, resolution or part thereof that has been repealed or superseded by a subsequent ordinance or resolution which is repealed or superseded by this chapter. Whenever there shall be a change in population in any of the nine districts heretofore established, as evidenced by a federal census of population published following the last federal census of population subsequent to the adoption of this article, there shall be a reapportionment of the city council districts in the manner hereinafter provided:

(1) The president of the city council or any member thereof shall, within six months after the publication of the last federal census of population for the city, file with the city clerk a proposed ordinance containing a recommended plan for reapportionment of the city council district boundaries to comply with the following specifications:
   a. Each district shall be formed of contiguous and, to the extent reasonably possible, compact territory, and its boundary lines shall be the center lines of streets or other well-defined boundaries.
   b. Each district shall contain as nearly as is reasonable the same population.

   The proposed ordinance shall include a map and description of the districts recommended.

(2) The city council shall consider the redistricting plan or plans filed with the city clerk as follows:
   a. The order of consideration of any plan shall be in the order of said filing with the city clerk.

b. After a proposed ordinance is filed with the city clerk and prior to its consideration for adoption, the city clerk shall place a resolution on the city council agenda within ten days which shall set a date for public hearing by the city council for consideration of such ordinance, such hearing to be set no less than 28 days nor more than 42 days from the date of passage of such resolution, and, which shall also provide that notice that a redistricting ordinance shall be considered shall be published once a week in a newspaper of general circulation in the city for the three successive weeks prior to the scheduled hearing, setting out a general description of the subject of the hearing, the date and time of the hearing and that a copy of the ordinance will be available for public inspection in the office of the city clerk during normal business hours.

(Code 1980, § 2-2-62; Ord. No. 89-46, § 12, 3-28-1989; Ord. No. 00-194, § 1(2-2-62), 11-28-2000; Ord. No. 01-91, 6-26-2001)

Editor's note—Section 2-2-62 was amended as part of Ordinance No. 00-194. In that amending ordinance section 2-2-62(a)(ii) was erroneously deleted and the wording in subsection (a)(i) was repeated as subsection (a)(ii). Amending Ordinance No. 01-91 corrected this mistake, by deleting the duplicate subsection (a)(ii) and replacing said subsection with the former subsection (a)(ii). Ordinance No. 00-194 was not

Editor's note—available at the time of this codification, and was not included in the historical citation of § 2-2-62.Ord. No. 11-109, adopted 8-23-2011, did not specifically amend the substantive text of section 2-2-62, but rather did have an effect on the reapportionment of council districts as covered by section 2-2-62. Section 1 of the ordinance stated that "the council does hereby adopt and approve the reapportionment plan encompassing the areas within the city establishing the new boundaries for the nine council districts of the city as specifically described and set forth in Appendix One and by the reapportionment map set forth in Appendix Three, and is on file in the office of the city clerk, said descriptions being attached hereto and incorporated herein in full by reference.Ord. No. 12-155, adopted 11-20-2012, did not specifically amend the substantive text of section 2-2-62, but rather amended Ord. No. 11-109 and did have an effect on the reapportionment of council districts as covered by section 2-2-62. The ordinance stated that "Ordinance No. 11-109 is hereby amended to add and incorporate the reapportionment map, technically corrected to conform to a more precise representation of the city's boundaries, by reference hereto as Appendix Four." Notwithstanding the provisions of Ordinance No. 11-109 and Appendices One and Three of that ordinance, the map depicted in Appendix Four shall govern the council district boundary lines. Nothing in this ordinance shall substantively change the council's original intent and designation of the reapportioned districts provided in Ordinance No. 11-109 and Appendix Three of that ordinance. This amending ordinance merely realigns the boundaries depicted in Appendix Three to precise parcel lines and limits of the city, providing for more accurate reference to the properties contained within the city and the respective council districts. The 2011 redistricting maps, as adopted by the city council, are on file with city clerk and available for public examination in digital data form kept by the geographic information systems division of the department of planning, engineering and permits.

If a determination is made that a claim or suit does not meet the requirements specified herein, the city attorney shall so inform such person in writing; and such person may, within five days, appeal such determination to the mayor, who, after interviewing such person, shall determine whether representation and indemnification shall be provided by the city.

(a) The city council may authorize the employment, subject to the merit system and personnel policies of the city, of any employees as it may determine to be necessary for the operation of the Arlington property. (b) The board may designate any officer of the board, agent or employee hired by it or under contract to it, or any person employed by the city, as the person who shall be responsible to the board and to the city for the care and safekeeping of all objects; artifacts, furniture and other property at the Arlington Home property or otherwise in the custody and control of the board, whether the property is owned by the city or is on loan to the board. ARTICLE O. REVOLVING LOAN FUND COMMITTEE

Sec. 2-5-231. Findings of fact.

The city council has found and determined and does hereby declare as follows:

(1) The city has awarded and will continue to award urban development action grants ("UDAGs") to deserving local enterprises. These enterprises must repay the city for these UDAGs. The city is not required to remit UDAG repayments to the federal government, but instead may use the repayments for any projects that are eligible under title I of the Housing and Community Development Act of 1974, as amended. The city desires to use the UDAG repayments for economic development activities that create opportunities for entrepreneurship, increase employment and expand the city's tax base.

(2) In light of these goals, the amount of money the city anticipates receiving from UDAG repayments and the needs of the city's residents, the city desires to use certain of these UDAG repayments to make below-market-rate, working capital and fixed asset loans to small, local businesses, primarily small minority business owners and minority contractors; however, the program will not discriminate against any individual based upon race, creed or color.

(3) The city desires to establish a revolving loan fund ("the fund") into which UDAG repayments will be deposited and out of which monies will be drawn for such below-market-rate, working capital and fixed asset loans to eligible recipients. These loans may be in the form of direct loans from the city or loan guaranties in any form to lending institutions who agree to participate in the program. Payments of principal and interest on these loans by the recipients may be deposited into the fund, and thereafter loaned to other approved loan recipients. Thus the fund will be a self-perpetuating loan pool. The program has the following objectives:

a. Provide below-market-rate, short-term (less than one year) working capital and fixed asset financing for small African-American-owned businesses and African-American contractors with loans of less than $25,000.00; and

b. Provide below-market-rate financing to other economically disadvantaged groups, individuals and businesses who cannot obtain financing through other sources but are able to document the credit worthiness of their projects and are able to document that the project will have a significant economic, social or environmental impact upon the city.

These loans will in no instance exceed $75,000.00 or have a term of more than five years. The primary goal of the program, however, and the major commitment of the program funds will be to address the needs of small African-American-owned businesses and African-American contractors.

(4) The city desires that recipients of the low-interest, working capital loans be selected and the fund be administered by a

committee to be designated the revolving loan fund committee and to be made up of the following members:

a. The director of the community development department of the city, ex officio;

b. The director of the economic development office of the city, ex officio;

c. The executive secretary of the mayor, ex officio;

d. The director of contract requirements of the city, ex officio;

e. A representative of the city council;

f. A member of the minority business advisory committee (MBAC) selected by the MBAC for a term that expires after two years or upon the appointment of another MBAC member by the MBAC, whichever first occurs; and

g. A representative of a local lending institution to be appointed by the mayor and city council.

(5) The revolving loan fund committee shall set forth, in a written memorandum, the standards an applicant must meet to be deemed eligible for a loan and the application procedure and requirements.

(6) In this memorandum, the revolving loan fund committee shall also set forth parameters and guidelines to be followed in setting the terms and conditions of the low-interest, working capital loans. Within these parameters the revolving loan fund committee shall set the terms and conditions of the loans it selected on a case-by-case basis.

The revolving loan fund committee is hereby further authorized to approve loan recipients and loan terms in accordance with its memorandum and to loan monies in the revolving loan fund to recipients on such selected terms. These loans may be in the form of direct loans from the city or loan guaranties in any form to lending institutions who agree to participate in the program. accommodate public and private participation in the plan; to provide rules and regulations governing the BP-CIP, the authority, and the governance of its officials, employees, and personnel under contract to it and of any premises or property which may from time to time be in its custody, provided such rules and regulations are in accordance with and do not conflict with or otherwise violate any provision of state law or other ordinances or resolutions of the city. In the exercise of its powers, the board shall have no power or authority to bind or obligate the city beyond the amount appropriated by the city council for its purposes.

(b) As the administrative unit for the BP-CIP, the authority shall:

(1) Establish policies for the program;

(2) Provide and solicit sufficient funding for its support;

(3) Approve its budgets;

(4) Certify eligible minority business enterprises/disadvantaged business enterprises (hereinafter referred to as "MBE/DBE") firms, as described below;

(5) Establish annual and/or short-term MBE/DBE participation goals in construction projects;

(6) Resolve disputes regarding certification;

(7) Monitor the program's progress;

(8) Provide training programs and technical assistance for MBE/DBE firms; and

(9) Issue reports on the program activities, at least on an annual basis.

(Code 1980, § 2-5-286; Ord. No. 89-296, § 6, 12-12-1989)

Sec. 2-5-287. Acquisition of property.

(a) The management, custody or control of any and all property, objects and items belonging to the city which the city council may, by resolution, place under the control and management of the authority shall be vested in the authority; and the authority shall exercise, subject to the control of the city council, all the powers of the city with respect to such property, objects and items.

(b) The authority shall not have the right to sue or be sued, and all property and property interests acquired by or accruing to it shall be vested in the city and held by it for the city.

(Code 1980, § 2-5-287; Ord. No. 89-296, § 7, 12-12-1989)

Sec. 2-5-288. Contribution of city.

The city shall be one of the lead financial supporters for the BP-CIP and, along with others, shall accept a major responsibility to contribute to the BP-CIP. The city's direct annual contribution shall not exceed 50 percent of the authority's approved budget for the BP-CIP or $100,000.00, whichever is the lesser amount. The AGC shall raise funds for the BP-CIP. The AGC's annual goal for fundraising efforts will be $50,000.00.

(Code 1980, § 2-5-288; Ord. No. 89-296, § 8, 12-12-1989)

Sec. 2-5-289. Construction assistance institute.

(a) The authority shall establish and staff a construction assistance institute (hereinafter referred to as "CAI") patterned after the proposed organization for the construction assistance institute. The CAI shall make recommendations to the authority which assist the authority in fulfilling its functions and shall carry out all other activities designated to it by the authority, including but not limited to the certification of MBE/DBE firms, program evaluation, training programs, technical assistance to certified MBE/DBE firms (e.g., estimating, bid preparation, etc.), fundraising and marketing.

(b) Any firm or business which is certified as meeting MBE/DBE criteria by the U.S. Department of Transportation (DOT) or Urban Mass Transit Authority (UMTA) or has attained SBA-8A status will be considered for waiver of the certification process by the authority upon presentation of its certificate of such status to the CAI executive director. The executive director will make a final and binding decision with respect to waiving the authority's certification process. Other MBE/DBE firms may apply to the executive director for certification as a MBE/DBE firm. The criteria for certification of MBE/DBE shall contain a rebutta-

ble presumption that minority-owned and women-owned businesses are MBE/DBE firms. For the purposes of this plan, the term "MBE/DBE" means a business at least 51 percent of which is owned by African-Americans, women or other disadvantaged minorities, or in the case of a publicly owned business, at least 51 percent of the stock of said business is owned by African-Americans, women or other disadvantaged minorities. This presumption shall apply only to businesses actually owned and managed by African-Americans, women or other disadvantaged minorities for a credible period of time. The authority shall issue administrative rules and regulations which will define, among other matters, the time period necessary to constitute a credible period, within the meaning of this section. Any business entity may be certified as a MBE/DBE firm upon a showing to the authority that it has suffered discrimination or is disadvantaged in the American construction industry. There shall be, in addition to the initial certification of MBE/DBE firms, a periodic recertification, the frequency of which shall be determined by the authority. The plan shall target businesses that continue to suffer a disadvantaged status in the Birmingham area. The intended beneficiaries of this plan shall be MBE/DBE firms indigenous to the city metropolitan area at the time this article is adopted (December 12, 1989) and MBE/DBE firms which establish offices (branches) and maintain a reasonable staff presence in the Birmingham area.

(c) The authority will seek to increase minority participation in the public and private sectors. The authority, with the assistance of the CAI, shall establish goals or targets for MBE/DBE participation on an annual overall basis. In the sense that the goals may differ from year to year and project to project, they will be referred to as floating goals. Overall, however, these goals shall not be less than the historical participation of MBE/DBE in construction projects of the City of Birmingham and its agencies, based on construction activity reports prepared by the CAI staff. Initial consultant figures for 1988-89 construction activity show an approximate 20 percent minority participation. These figures are unaudited and hence unofficial and are used for demonstration purposes and for clarity of intent: for example, a progressive goal for 1990 MBE/DBE participation would be higher than what the CAI official audit showed for 1989, or in the alternative, could be a significant increase of the dollar amount awarded in 1989 for the public and private sectors combined. In any event, the authority shall strongly encourage legitimate joint ventures between general contractor and MBE/DBE firms.

(d) With the assistance of the CAI, the authority shall offer training programs designed to strengthen MBE/DBE firms. Goals and areas for these programs shall be determined by market analysis within the construction industry, MBE/DBE firms availability in the latest published U.S. Census Bureau's standard metropolitan statistical analysis (SMSA) labor market for the city, and other relevant criteria as determined by the authority.

(e) Program guidelines will be as presented in appendix B to the ordinance from which this article is derived.

(f) A fiscal manager for the BP-CIP will be designated by the authority from among an existing fiscal management program, such as that of the AGC, the city, or some similarly established fiscal management program, which will volunteer such a service.

(g) Aside from the sponsors referred to in section 2-5-282, all entities, public and private, which engage at any time in the purchase of construction services within the city metropolitan area, are encouraged by the authority to become signatories to (and participants in) the BP-CIP by signing a participation agreement, and paying an annual fee of $100.00 or by paying at the time it begins a construction project a fee agreed on by it and the authority. A signatory to the BP-CIP should honor its BP-CIP commitment and should include its BP-CIP commitment as a part of or addendum to its bid specification documents for all of its construction projects within the city metropolitan area.

The City Center District Management Corporation (hereinafter referred to as the "corporation") is hereby designated as the district management corporation for the district, subject to right of withdrawal by the council. Upon dissolution of the corporation or a withdrawal of the corporation's designation as the district management corporation for the district, the board of directors of the corporation shall, after paying or making provision for the payment of all of the liabilities of the corporation, transfer and assign all interests in and title to funds held by or for the corporation, and property of the corporation to the successor district management corporation for the district or, if no such successor district management corporation exists, to the city for use in funding such programs as the board of directors of the corporation shall designate. Such notice shall specify the amount of the proposed increase in the special assessment, together with the date, time, and place of a public hearing to be held by the board of directors of the corporation on the adoption of such proposed increase. The board of directors of the corporation may adopt the proposed increase in the special assessment only after completion of the public hearing required by the preceding sentence. In addition, a proposed increase in the rate of the special assessment which is greater than ten percent of the then-current rate of the special assessment shall not go into effect if the owners of real property which either pay one-third or more of all special assessments levied in the district during the last fiscal year for which special assessments were collected, or represent one-third or more (by number) of all parcels of real property located within the geographical area of the district file written objections to the institution of such increase with either the executive director or a member or the board of directors of the corporation prior to the proposed effective date of such increase. ARTICLE C. BIRMINGHAM FUND

Sec. 3-1-31. Investment of monies in fund; appropriation of excess income.

(a) Except to the extent otherwise provided in sections 3-1-32 and 3-1-33, the total principal shall not be appropriated by the city council or expended or disbursed by the city for any purpose other than to acquire securities or obligations in which municipal funds are authorized to be invested pursuant to Code of Ala. 1975, § 11-81-21, as amended, or other applicable statute (herein referred to as "eligible investments") in accordance with the provisions of this article. All eligible investments acquired, in whole or in part, with monies constituting part of the initial principal or the total principal shall, to the extent of such monies, constitute part of the total principal, but one-half of any income derived therefrom (such income being herein referred to as "excess income") shall be subject to appropriation and withdrawal by the city council to the extent hereinafter provided. The city council may, in accordance with the city's appropriation procedures, at any time and from time to time,

whether before or after the actual receipt of such excess income, appropriate all or any part of such excess income for any lawful purpose other than the payment of debt service on the city's bonds, warrants or other obligations, and any excess income so appropriated may be withdrawn from the Birmingham Fund at any time after the receipt thereof; provided, however, that the right of the city council to appropriate any excess income prior to the actual receipt thereof shall not be construed to authorize the recognition and withdrawal of any monies equivalent to such excess income prior to the actual receipt thereof into the Birmingham Fund.

(b) To the extent practicable, the finance director shall keep all monies at any time held in the Birmingham Fund (including both principal and income) invested in such eligible investments as shall, in his or her judgment, be prudent under all circumstances. Each year at the same time the general fund budget is submitted to the city council, the director of finance shall submit to the mayor and the city council a financial report respecting the Birmingham Fund. Such financial report shall include a description of the eligible investments in which monies held in the Birmingham Fund are invested, as well as a general description of plans for future investment of said monies.

(Code 1980, § 2-5-354; Ord. No. 94-80, §§ 1—6, 4-19-1994)

Sec. 3-1-32. Disposition of principal heretofore appropriated.

Pursuant to Ordinance No. 94-58, the city council has heretofore appropriated certain industrial water board proceeds for projects specified in said ordinance. To the extent that any industrial water board proceeds appropriated pursuant to Ordinance No. 94-58 shall constitute initial principal, such amount of initial principal may be expended or disbursed, at any time and from time to time, by the city for the purposes and amounts specified in Ordinance No. 94-58.

(Code 1980, § 2-5-355; Ord. No. 94-80, §§ 1—6, 4-19-1994)

Sec. 3-1-33. Emergency disposition of principal.

In order to provide for emergencies, the city council may appropriate monies constituting total principal if an emergency is declared by the city pursuant to the provisions of this article. Except to the extent otherwise provided in section 3-1-32, under no circumstances shall any amount of the total principal be appropriated by the city council or expended or disbursed by the city unless the following conditions shall be satisfied:

(1) The city council, based on information and a recommendation provided by the mayor, shall have made findings in a resolution justifying a proposed declaration of financial emergency and a proposed appropriation of a specified amount of the total principal for a specified purpose;

(2) At least 14 days before the first of the public hearings referred to in subsection (3) of this section, the city shall have published in one or more newspapers of general circulation available to residents of the city a notice reasonably designed to inform residents of the city that the city council is proposing to declare a financial emergency and therefore is proposing to appropriate a specified amount of the principal of the Birmingham Fund for a specified purpose, and such notice must have stated the time and place of the public hearings referred to in subsection (3) of this section;

(3) After giving the notice required by subsection (2) of this section, public hearings shall have been held by the city council in such place, time and manner as to provide convenient and reasonable opportunities for officials and citizens of the city to oppose such proposed declaration of financial emergency and proposed appropriation from the total principal, such public hearings shall have been held at not less than two different public meetings of the city council separated by an interval of not less than 30 nor more than 90 days;

(4) After the public hearings referred to in subsection (3) of this section, the city council, by the affirmative vote of at least six members, shall have adopted a resolution declaring a financial emergency,

which resolution shall have stated specifically that the city was then experiencing a financial emergency, that the city council was therefore declaring a financial emergency under the provisions of this article, and that the proposed appropriation described in the notice required by subsection (2) of this section was approved by the city council; and

(5) Such resolution required by subsection (4) of this section shall have been approved by the mayor.

(Code 1980, § 2-5-356; Ord. No. 94-80, §§ 1—6, 4-19-1994)

Sec. 3-1-34. Findings.

The city council has found and ascertained and does hereby declare as follows:

(1) Amendment No. 623 to the Constitution of Alabama of 1901 (hereinafter referred to as the "trust fund amendment") authorizes any city in the state with a population of 150,000 or more, such as the City of Birmingham, to establish one or more trust funds for the long-term benefit of such city and its citizens, with each such trust fund to be funded and administered in accordance with the provisions of the trust fund amendment.

(2) In the general election held on November 3, 1998, in which the adoption of the trust fund amendment was approved by the voters of the state, a majority of the voters residing within the city who voted on such proposition voted in favor of the adoption of the trust fund amendment.

(3) The city has heretofore established, pursuant to Ordinance No. 94-80, adopted by the city council on April 19, 1994, and set forth in sections 3-1-31 to 3-1-33, a special fund (hereinafter referred to as the "Original Birmingham Fund"), into which the city has deposited and in which the city now holds:

a. Various investments acquired with certain proceeds received by the city from the sale of certain assets and properties previously owned by the industrial water board of the city; and

b. Certain income derived from the investment of such proceeds.

(4) The city council has determined that it is desirable and in the best interest of the city and its citizens to establish a new trust fund pursuant to the trust fund amendment and to provide for the transfer thereto and the deposit therein of the various monies, securities and other investments now held in the Original Birmingham Fund.

(Ord. No. 99-67, § 1, 5-4-1999)

Sec. 3-1-35. Creation of Birmingham Fund.

For the longterm benefit of the city and its citizens, there is hereby created, pursuant to the authority provided by the Trust Fund Amendment, a trust fund of the city named "The Birmingham Fund" (hereinafter referred to as the "Birmingham Fund") which shall be funded and administered in accordance with the provisions of this article and the provisions of the trust fund amendment. The Birmingham Fund shall be under the management and control of the director of finance of the city. Said officer shall have custody of all monies in said fund and shall invest such monies as provided in section 3-1-38.

(Ord. No. 99-67, § 2, 5-4-1999)

Sec. 3-1-36. Monies and investments to be transferred into Birmingham Fund.

(a) There shall be transferred into the Birmingham Fund, as the initial principal thereof (hereinafter referred to as the "initial trust principal") all monies, securities and other investments that are held in the Original Birmingham Fund on the date of adoption of the ordinance from which this section is derived (which monies, securities and other investments have an aggregate market value, on said date of adoption, of approximately $_____). Promptly following the effective date of the ordinance from which this section is derived, the director of

finance shall take all actions necessary to transfer the initial trust principal to the Birmingham Fund. If at the time of such transfer into the Birmingham Fund all or part of the initial trust principal consists of securities or other investments which cannot be converted into cash prior to the maturity thereof without loss of interest or other penalty or which, in the opinion of the director of finance, should not be converted into cash at such time, then the director of finance shall directly transfer such securities or other investments to the Birmingham Fund as part of the initial trust principal without first converting the same into cash. In the event that any securities or other investments shall be transferred into the Birmingham Fund, the initial trust principal shall include the income or profit from such securities or other investments that has been received by the city on or before such transfer or that constitutes accrued interest, amortized discount or other amounts which, in accordance with generally accepted accounting principles, should be considered as having been earned by the city as of the date of such transfer. To the extent that any income or profit derived from such securities or other investments is referable to any period after the transfer thereof into the Birmingham Fund, such income or profit shall constitute income and shall not constitute part of the initial trust principal except to the extent otherwise provided in this article.

(b) The total principal of the Birmingham Fund (hereinafter referred to as the "trust principal") shall consist of and include:

(1) The initial trust principal;

(2) Such other monies or assets as the city council may hereafter appropriate and transfer to the Birmingham Fund as a permanent part thereof;

(3) Such other monies or assets as may be contributed to the Birmingham Fund from any source; and

(4) Any income or profit derived from the investment or reinvestment of the monies and assets described in subsections (b)(1) through (3) of this section that, under the provisions of this article, becomes a part of the principal of the Birmingham Fund.

(Ord. No. 99-67, § 3, 5-4-1999)

Sec. 3-1-37. Adoption of investment policy.

(a) The council has reviewed the document attached to the ordinance from which this section is derived as exhibit A (which document is hereby incorporated herein by reference and is referred to herein as the "investment policy statement") and has found and determined that the investment policy statement:

(1) Sets forth the mode and manner for investing the assets of the Birmingham Fund;

(2) Establishes the benchmarks and criteria for measuring investment performance and compliance with said policy statement; and

(3) Specifies a requirement for the preparation and publication of periodic reports on investment performance and investment policy compliance.

(b) The council hereby adopts and approves the investment policy statement, as required by the Trust Fund Amendment for the Birmingham Fund as amended and as may be further amended by the council from time to time.

(Ord. No. 99-67, § 4, 5-4-1999; Ord. No. 15-75, § 1, 6-2-2015)

Sec. 3-1-38. Investment of monies in the Birmingham Fund; addition of income to trust principal.

The city council may hereafter from time to time, in response to recommendations or requests from the director of finance, adopt one or more resolutions to provide further directions and guidance respect-

Upon the actual receipt of any investment income or profit, the monies allocable to such income or profit shall be added to and become a part of the trust principal.

(1) The city council, by the affirmative vote of at least five members of the city council, shall have adopted an ordinance authorizing an expenditure from the Birmingham Fund of a specified amount of money for a particular purpose, in which ordinance the city council shall have made findings that the making of the authorized expenditure would clearly be in the best interest of the city and its residents and would address an extraordinary circumstance that was not foreseen or anticipated at the time of the establishment of the Birmingham Fund; and

(2) Such ordinance required by subsection (1) of this section shall have been approved by the mayor.

The members also will comprise a committee (the "monitoring committee") to report to the mayor and council on activity in connection with the loan program, to review and recommend pending applications, to review and evaluate the loan program and to monitor repayment of loans. The members will provide such services without compensation from the city. As provided in the MOU, an origination fee equal to one percent of the loan proceeds will be paid at closing by the borrower from the loan proceeds to the member which originates the loan to offset such member's staffing and administrative costs.

ARTICLE A. GENERAL PROVISIONS

Sec. 3-2-1. Refund of tax money paid through mistake.

All payments made to the city or any officer or board thereof under mistake of law or fact, upon any irregular or illegal tax assessment, or any ordinance or resolution, or any assessment for public improvements or for any such purpose whatever shall only be recoverable if written claim is filed with the city clerk within two years from the time the payment was made. The director of finance shall investigate the legality and correctness of any such claim and determine the amount of refund, if any, to which any claimant may be entitled. After deducting any amounts which the claimant may owe to the city, the claimant may pay the amount of any such refund not in excess of $1,000.00 without approval other than the claimant's own. Nothing in this section, however, shall be construed to prohibit the council from voluntarily paying any claim filed within two years from the time the money was so erroneously collected, if, in the opinion of the council, the city has available funds which are not otherwise necessary to the proper administration of the city.

ARTICLE C. AD VALOREM TAX EXEMPTION AND PAYMENT OF CORRESPONDING ABATEMENT PROPERTY TAX

Sec. 3-2-21. Purpose.

The ordinance from which this article is derived is adopted pursuant to authority granted to the council by Act 927 of the 1975 Regular Session of the Legislature of Alabama, Acts 1975, p. 1852 (Act No. 927), as superseded by Acts 1978, p. 1012 (Act No. 704). The purpose of this article is to encourage private investment in new commercial and industrial facilities to be developed on real property within certain areas of the city. The council recognizes the beneficial result of such development in that it provides additional employment opportunities within the city and at the same time encourages redevelopment of business, commercial and industrial areas which already are served by water, sewer and/or other utilities but which either are idle or being used at less than their full potential.
(Code 1980, § 3-2-21; Ord. No. 81-88, 5-26-1981)

Editor's note—Acts 1975, p. 1852 (Act No. 927) was a population act that applied to cities having a population over 300,000. It was superseded by Acts 1978, p. 1012 (Act No. 704) which virtually reiterated the same municipal ad valorem tax exemption to owner-developers.

Sec. 3-2-22. Definitions.

For the purpose of this article, certain terms and words are hereby defined:

Adjusted basis means the value of the property minus both the land value and the accumulated depreciation as shown on the most recent federal tax return.

Certified value means the value of improvements agreed to by property owner and general contractor as expressed in the application for the building permit.

Commercial or industrial facility means any facility for a use permitted in zoning districts O-1, B-1 through B-5 and M-1 through M-3, as specified in appendix D to this Code, zoning (Ordinance No. 90-130, as amended), but shall not include facilities permitted in agricultural and residential districts as specified in said ordinance.

New commercial or industrial facility means any commercial or industrial facility to be built, or major renovation of, or addition to, an existing such facility, provided that the value of the property so improved will be substantially increased as a result of any such renovation, addition, or new facility.

Substantially increased includes either a 100 percent or more increase in the adjusted basis value of the property so improved, or a 25 percent or more increase in the annual payroll for any

existing such facility or a 20 percent or more increase in the commercial or industrial capacity of any existing such facility.
(Code 1980, § 3-2-21; Ord. No. 81-88, 5-26-1981; Ord. No. 97-75, § I, 6-24-1997)

Sec. 3-2-23. Criteria for consideration.

In order to be considered by the council, an application for the tax abatement submitted after the effective date of the ordinance from which this article is derived must minimally satisfy the following criteria:

(1) The property is in an area theretofore designated and defined by the city as a strategy area, urban renewal area, or neighborhood business revitalization area;

(2) The proposed new commercial or industrial facility will result in the retention or creation of employment opportunities in such area or will add substantially to the economic or aesthetics rehabilitation of the area; and

(3) The applicant shows to the council's satisfaction that the tax abatement is a substantial inducement to such development due to higher land or construction costs or other inner urban disadvantage.

(Code 1980, § 3-2-23; Ord. No. 81-88, 5-26-1981)

Sec. 3-2-24. Applications.

(a) An application for tax abatement may be obtained from the city's office of economic development and shall be filed with the city's director of economic development prior to beginning any construction of the proposed new commercial or industrial facility. Each application shall contain such information as the city may require, including but not limited to the following:

(1) A description of the construction and/or improvements to be made with an estimate of the cost of each item.

(2) A site plan or layout of the proposed construction and/or improvement.

(3) The assessed valuation for ad valorem tax during each of the five preceding years for the real property involved.

(4) The proposed abatement property tax to be paid during the period of exemption and an agreement to pay the tax during that period.

(5) The period for which exemption is sought.

(6) The date construction will begin if the application is approved and the estimated date of completion.

(b) Additional information may be requested by the city council prior to its approval of any application.
(Code 1980, § 3-2-24; Ord. No. 81-88, 5-26-1981; Ord. No. 97-75, § I, 6-24-1997)

Sec. 3-2-25. Procedure.

Within 30 days after each application is filed with the director of economic development as provided in section 3-2-24, said director shall forward duplicates thereof along with his or her reports and recommendations regarding each application to the mayor and the city council. Resolutions in respect to granting or denying any such applications shall be subject to the applicable procedures set forth in section 2-2-15. Said director shall comply with the provisions of any agreement of the city with the county for the granting of tax abatements by the county and the city.
(Code 1980, § 3-2-25; Ord. No. 81-88, 5-26-1981)

Sec. 3-2-26. Granting the tax abatement.

If the council approves an application for tax abatement hereunder, it may grant such abatement by adopting a resolution approving the application and agreement therein and granting as to such property an abatement of the city taxes thereon for a period not exceeding 15 years upon condition that an abatement property tax in an amount as provided in section 3-2-27 be paid annually for the benefit of the city in the manner in which ad valorem taxes levied by the city are paid.
(Code 1980, § 3-2-26; Ord. No. 81-88, 5-26-1981)

Sec. 3-2-27. Computation of abatement tax.

The abatement property tax to be paid during the period of the ad valorem tax abatement shall be computed by subtracting the certified value of

the substantial improvements from the assessed market value as determined by the tax assessor from time to time.
(Code 1980, § 3-2-27; Ord. No. 81-88, 5-26-1981; Ord. No. 97-75, § I, 6-24-1997)

Sec. 3-2-28. Joint city-county abatements.

If, pursuant to an agreement between the city and the county, a tax abatement is granted jointly by the county commission and the city council upon the condition of annual payment of an abatement property tax to be collected by the Jefferson County tax collector, or any official performing his or her duties, such abatement tax shall be shared proportionally between the city and the county on the basis of the respective city and county tax millage abated initially by each; except that such proportion may be adjusted by mutual agreement to reflect changes in the millage abated by each in later years.
(Code 1980, § 3-2-28; Ord. No. 81-88, 5-26-1981)

Sec. 3-2-29. Effectivity of abatements.

Following certification by the chief building inspector of the city, his or her deputy, or other like officer of the city, that the construction and/or improvements substantially as proposed in the application are completed, such certificate, together with a certified copy of the resolution adopted as provided in section 3-2-26, and the owner's acceptance of the terms of such resolution, duly acknowledged in the form provided by law for deeds to real property, shall be filed in the office of the judge of probate of Jefferson County and in the Jefferson County tax assessor's office. Upon such filings, the tax abatement shall then be effective for each following tax period with payment of the abatement property tax to be then due. All such property, however, must continue to be returned to the state for taxation thereon.
(Code 1980, § 3-2-29; Ord. No. 81-88, 5-26-1981)

Sec. 3-2-30. Cessation of abatement.

The abatement provided for herein and payment of the corresponding abatement property tax shall continue through the period granted in the resolution approving the application; except that if the owner fails to pay the abatement property tax on or before the delinquent tax date, the abatement so granted shall immediately cease and be of no further effect. In such event, the property for which the abatement of city taxes has been granted shall be assessed and taxed in the same manner as other property in the city.
(Code 1980, § 3-2-30; Ord. No. 81-88, 5-26-1981)

(2) *Bid or proposal invitations.*

a. The agents shall also advertise each invitation to bid or request for proposal by posting notice thereof on a bulletin board outside his or her office for not less than three days preceding the last day set for the receipt of bids or proposals. The agent shall also send notice of each such invitation to bid or request for proposal by mail to all persons, firms or corporations who have filed a request with the agent in writing that they be listed for solicitation on bids or proposals for those particular items as are set forth in the request. If any person, firm or corporation whose name is listed fails to respond to any solicitation for bids or proposals after the receipt of three such solicitations, the listing shall be canceled. The agent may also invite sealed bids or proposals from other responsible prospective providers.

b. For any contract exceeding $10,000.00, bid or proposal bonds shall be required and prescribed in the public notices inviting bids or proposals. For any contract under

$10,000.00, the agent may require bid or proposal bonds or deposits when he or she deems it necessary. Unsuccessful bidders shall be entitled to return of bond where the agent has required it. A successful bidder shall forfeit any bond required by the agent upon failure on his or her part to enter into a contract within ten days after the award, and in that case the agent may in his or her discretion invite new bids or proposals.

(3) *Bid opening procedure.*

a. Bids shall be presented sealed to the agent and shall be identified as bids on the envelope.

b. Opening. Bids shall be opened in public at the time and place stated in the public notices, except in the use of reverse auction procedures as provided in the state competitive bid law.

c. A tabulation of all bids received shall be available for public inspection, and all original bids, together with all documents pertaining to the award of the contract, shall be retained and made a part of a permanent file or records in the office of the agent and shall be open to public inspection after formal award of the contract.

(4) *Rejection of bids or proposals.* The agent shall have the authority to reject any bid or proposal if the price is deemed excessive or the quality of the product inferior.

(5) *Award of contract.*

a. *Authority in agent.* The agent shall have the authority to award all purchases and contracts within the purview of this chapter; provided that no purchase or contract in excess of such amount as may be established under the provisions of state law as the minimum amount of a contract to be bid under the state competitive bid law shall be awarded by the agent unless the council by resolution approves acceptance of the bid; provided, further, that the approval of the council shall not be required where the purchase or contract involves a contract or purchase for supplies for the city library board or the city museum board.

b. *Lowest responsive and responsible bidder.* Contracts shall be awarded to the lowest responsive and responsible bidder. In determining the lowest responsive and responsible bidder, in addition to price, the agent shall consider:

1. Qualities of the commodities proposed to be supplied;
2. Their conformity with specifications;
3. The purposes for which required;
4. The terms of delivery;
5. Transportation charges; and
6. The dates of delivery.

Prior to advertising for bids for an item of personal property the agent may establish a local preference zone consisting of either the legal boundaries of the city, or the boundaries of the county, or the boundaries of the Standard Metropolitan Statistical Area (SMSA). If no such action is taken by the purchasing agent, the boundaries of the local preference zone shall be deemed to be the same as the legal boundaries of the city. In the event a bid is received for an item of personal property to be purchased or contracted for from a person, firm, or corporation deemed to be a responsive and responsible bidder, having a place of business within the city, and the bid is no more than three percent greater than the bid of the lowest responsive and responsible bidder not having a place of business within the city, the contract may be awarded to the resident responsive and responsible bidder. The

purchasing agent shall not establish a preference zone greater than the boundaries of the city if it appears that a qualified business, firm or corporation having a place of business within the city will or may bid on the contract.

c. *Award to other than lowest bidder.* When the award is not given to the lowest bidder, a full and complete statement of the reasons for placing the order elsewhere shall be prepared by the agent and filed with the other papers relating to the transaction.

d. *Tie bids.*

1. *Local vendors.* If all bids received are for the same total amount or unit price, quality and service being equal, the contract shall be awarded to a bidder with a place of business within the city.

2. *Outside vendors.* Where subsection (5)d.1 of this section is not applicable, the agent shall award the contract to one of the tie bidders.

e. *Performance bond.* The agent shall have the authority to require a performance bond before entering a contract in the amount as he or she shall find reasonably necessary to protect the best interests of the city, when required by invitation for bids or proposals, or otherwise required by law.

(6) *Prohibition against subdivisions.* No contract or purchase shall be subdivided to avoid the requirements of this section.

(7) *Length of time of contracts.* Contracts for the purchase of personal property shall be let for periods not greater than one year, and contracts for the purchase of contractual services shall be let for periods of not greater than three years.

When an emergency affecting the public health, safety or convenience shall be declared in writing to exist by the agent, the agent shall report in writing to the council and the mayor the nature of the danger to the public health, safety or convenience which will result from the emergency because of delay occasioned by taking bids as otherwise required by this chapter. Upon the declaration of emergency by the agent, the agent may, with the consent of the mayor or, in the mayor's absence, the council president, let or extend any contract to meet the emergency without public advertisement; provided that if the contract is for services to be rendered the city, the contract or extension shall not be for a period in excess of seven days, unless the council shall by resolution authorize the agent to extend the same for an additional period. This emergency action undertaken by the agent shall be reported to the council in writing and the report shall be spread upon the minutes of the council at its next regular or called meeting.

(1) *Inspection by using agency.* The agent shall have the authority to authorize using agencies having the staff and facilities for adequate inspection to inspect all deliveries made to the using agencies, under rules and regulations which agent shall prescribe.

(2) *Test.* The agent shall have the authority to require chemical and physical tests of samples submitted with bids and samples of deliveries which are necessary to determine their quality and conformance with the specifications, and in the performance

of the test shall have the authority to make use of any laboratory facilities of the city, or of any outside laboratory.

ARTICLE C. REQUIREMENTS FOR RETIREMENT BENEFITS

Sec. 3-4-21. Normal retirement.

(a) An employee shall be eligible for a normal pension if his or her employment is terminated on or after his or her normal retirement date. Payment of a normal pension shall commence as of the first day of the month coinciding with or next following the date of retirement.

(b) An employee may continue in the employment of the city after his or her normal retirement date if agreeable both to the employee and the city, in which case payment of his or her normal pension will commence as of the first day of the month coinciding with or next following the date of termination of his or her employment.

(c) Benefits.

(1) The normal retirement benefit shall be supplemented by adding thereto an additional 0.25 percent per year of credited service to provide a normal retirement benefit of 2.25 percent of final average salary multiplied by years of credited service.

(2) Final average salary shall be defined as "the average of the three years of highest compensation," exclusive of overtime or other forms of extra compensation but including longevity pay, in the ten years immediately preceding retirement after the effective date of this plan divided by 12 months.

(3) The maximum retirement benefit payable by the system shall be supplemented by adding thereto an additional five percent of final average salary to provide a maximum retirement benefit of 75 percent of the retiree's final average salary.

(4) The increased benefits herein provided shall not apply to participants or retirees of the Jefferson County health department.

(5) In accordance with Acts 1989, p. 788 (Act No. 89-401), participants and retirees receiving benefit increases under this subsection (c) hereby notified that such benefit increases may be discontinued or reduced in the event participant and city contributions are not sufficient to pay all costs of the system. The increases herein provided may be changed if necessary or desirable to meet current or future state or federal laws or regulations. A participant may retire at any time after attaining age 55 and completing 20 or more years of service, of which at least three years must be for service after the effective date. (Code 1964, § 39A-6; Code 1980, § 3-4-22)

Sec. 3-4-23. Disability retirement.

A participant who becomes totally and permanently disabled after completing 15 years or more of service credit shall be entitled to receive a monthly disability retirement benefit which shall be the normal retirement benefit amount based on his or her service credits at the time of the onset of the disability. Should the disability terminate before the participant attains the age of 60, the disability retirement payments shall cease, and the participant shall then begin receiving only those benefits as to which he or she would have been entitled under section 3-4-22, if any. In such event, when the participant reaches the age of 60, he or she shall then begin receiving those benefits as those to which he or she would be entitled under section 3-4-21 or 3-4-26, whichever is greater. The determination of whether a participant is disabled shall be made by the board of managers, following receipt of any evidence the participant in question desires to present to it of whether the participant is suffering from a physical or mental condition which permanently precludes the participant from satisfactorily performing his or her duties for the city or the duties of any other position or job, if any, the city makes available to him or her and for which the participant is qualified by reason of his or her experience, education or training.

is not entitled to the benefits described in section 3-4-26, or if the participant is eligible for the benefits described in section 3-4-26, but elects not to avail himself or herself thereof, then he or she may withdraw an amount equal to the aggregate sum contributed by him or her to the system. For purposes of this section, the amount of a participant's contributions to the system shall be determined without regard to any sums previously withdrawn by him or her due to contributions made during a period of time prior to a break in service.

(b) If a participant desires to withdraw his or her contributions under the provisions hereof, he or she shall make written application therefor to the board of managers and shall be entitled to payment of all such contributions without interest from the city, which shall be reimbursed therefor by the trustee, at the direction of the board of managers.
(Code 1980, § 3-4-24; Ord. No. 77-2; Ord. No. 78-8, 1-3-1978)

For the purpose of sections 3-4-26 and 3-4-27 only, pension benefits shall vest as follows:

(1) After a participant shall have completed ten or more years of service, the amount of the benefits shall be 50 percent of a normal retirement benefit based upon the participant's years of service credits.

(2) After a participant has completed 15 or more years of service, the benefits shall be 75 percent of the normal retirement benefit.

(3) After a participant has completed 20 years of service, the benefits shall be 100 percent of normal retirement benefits.

(Code 1980, § 3-4-25; Ord. No. 77-2; Ord. No. 77-217, § 3, 10-28-1977)

Sec. 3-4-26. Deferred vested retirement.

(a) A participant shall be eligible for, and be paid, a deferred vested pension as herein detailed if his or her employment is terminated for reasons other than death or retirement, after vesting of pension benefits, unless he or she elects to withdraw his or her contributions under section 3-4-24. If a participant eligible for a deferred vested pension under the provisions of this section desires to withdraw his or her contributions, he or she shall notify the board of managers of his or her intent within 90 days of the time his or her employment is terminated.

(b) The deferred vested retirement benefit provided for in this section shall commence on the first day of the month following attainment by the participant of age 60.

(c) If a participant is entitled to a deferred vested pension under the provisions hereof, but dies before attaining the age of 60, and at the time of his or her death leaves as his or her designated beneficiary someone other than a surviving spouse, then the board of managers shall pay his or her contributions to which he or she would have been entitled had he or she withdrawn them to the beneficiary previously designated by the participant to the board of managers to receive the same in that event, and if no one has been so designated and there is no surviving spouse, to the next of kin of the participant as determined by the laws of intestate succession of the state.
(Code 1980, § 3-4-26; Ord. No. 77-2, § 3.5; Ord. No. 77-217, § 4, 10-28-1977)

Sec. 3-4-27. Surviving spouse benefit.

(a) If a participant dies after vesting of benefits, or elects a deferred vested pension under the provisions of section 3-4-26 but dies before his or her normal or early retirement, and at the time of his or her death leaves a surviving spouse as his or her designated beneficiary or leaves a surviving spouse and has never designated any beneficiary, then the surviving spouse shall be paid a surviving spouse benefit hereunder unless the surviving spouse elects in writing to the board of managers within 120 days of participant's date of death to withdraw the contributions of the participant. For the surviving spouse's use in determining whether to withdraw the participant's contributions or receive payment of a surviving spouse benefit, the board of managers shall, within 60 days of participant's date of death, furnish to the surviving spouse the amount of the contributions and the amount of the monthly surviving spouse

benefit. If the surviving spouse elects to withdraw the contributions of the participant, upon receipt of written notice of such desire, the board of managers shall compute the amount of the withdrawal in the same manner as though the election had been made by the participant under the terms of section 3-4-24, and shall pay the same to the surviving spouse within 30 days of the date of receipt of the written notice. The surviving spouse benefit shall commence on the first day of the month following the date on which the participant would have attained the age of 60 but for his or her death, or the first day of the month following the date of his or her death if the participant were eligible for normal retirement; shall be equal to one-half of 90 percent of the benefit to which the participant would have been entitled but for his or her death, and shall be payable monthly to the surviving spouse for life; provided, however, that if the surviving spouse if more than ten years younger than the participant at the time of the participant's death, the benefit to which the participant would have been entitled but for his or her death shall be reduced by an additional one-half percent for each year in excess of ten years the surviving spouse is junior to the participant at the time of death and the surviving spouse's benefit shall be 50 percent of the amount thus computed. If a monthly surviving spouse benefit has been paid prior to the written request to withdraw the participants' contributions, the total of the monthly surviving spouse benefits shall be subtracted from the contributions made by the participant before payment to the surviving spouse.

(b) Minimum benefit; increasing benefit.

(1) The minimum benefit payable to the spouse of a deceased participant, which spouse is otherwise entitled to a benefit, shall be $320.00 per month; provided, however, that no benefit increase shall be paid to a spouse if such spouse shall certify that the increased benefit will cause a net reduction of all benefits received.

(2) In accordance with Acts 1989, p. 788 (Act No. 89-401), participants and retirees receiving benefit increases under this section are hereby notified that such benefit increase may be discontinued or reduced in the event participant and city contributions are not sufficient to pay all costs of the system. The increases herein provided may be changed if necessary or desirable to meet current or future state or federal laws or regulations. These increases may be changed or adjusted in the event the board of managers and the city council approve a revised employee pension benefit program.

(Code 1980, § 3-4-27; Ord. No. 77-2, § 3.5.1; Ord. No. 78-8, § 3, 1-3-1978; Ord. No. 91-128, §§ 1, 2, 6-18-1991)

Sec. 3-4-28. Death of participant.

If a participant dies before vesting pursuant to section 3-4-25 while employed by the city, or after termination of his or her employment following which he or she has not withdrawn his or her contributions to the system, then the board of managers shall pay his or her contributions to which he or she would have been entitled had he or she withdrawn them to the beneficiary previously designated by the participant to the board of managers to receive the same in that event, and if no one has been so designated, to the surviving spouse or, if none, to the next of kin of the participant as determined by the laws of intestate succession of the state. If a participant dies after vesting pursuant to section 3-4-25 leaving no surviving spouse and while employed by the city, then the board of managers shall pay his or her contributions to which he or she would have been entitled had he or she withdrawn them to the beneficiary previously designated by the participant to the board of managers to receive the same in that event, and, if no one has been so designated, then to the next of kin of the participant as determined by the laws of intestate succession of the state. For purposes of this section and sections 3-4-26 and 3-4-27, a beneficiary shall be designated by each participant in a form prescribed by the board of managers. The board of managers, to satisfy the requirements of this section, may pay up to $1,000.00 directly to any minor designated as a beneficiary or determined to be the next of kin of a participant if the payment comprises the total of the participant's contributions to the system.

(a) A participant shall accrue a year of service credit for each year of service commencing after the effective date in which he or she makes 26 or more weekly contributions to the system. A participant shall be credited with a year of service prior to the effective date for each year of service credit prior thereto, during which the participant received pay from the city during at least 26 weekly payroll periods.

A participant retiring under the provisions of section 3-4-21 or 3-4-22 shall have the option of selecting from among the following forms of optional benefits:

(1) *Partial lump sum option.* A participant may elect to reduce his or her monthly benefit by any even dollar amount from $5.00 to $15.00 and receive a lump sum benefit of $120.00 for each $1.00 reduction in the monthly amount.

(2) *Social security option.* A participant may elect to receive a higher amount until age 62 and a lower amount thereafter, on an actuarially equivalent basis, so that his or her total monthly income including social security will be as level as possible.

(3) *Joint and survivor option.* A participant may elect to have his or her monthly benefit reduced by ten percent in return for the guarantee that one-half of the reduced benefit will be payable to his or her surviving spouse for the spouse's lifetime. If the spouse is more than ten years younger than the participant, the ten percent reduction will be increased by 0.5 percent for each year in excess of ten years.

Retirement benefits under section 3-4-23 (disability retirement) shall be payable for so long as the participant is disabled, and if a disabled participant attains the age of 60 having been continuously disabled during the interim between the inception of the disability and attainment of that age, he or she shall thereafter receive benefits monthly until his or

her death. Benefits under section 3-4-26 (deferred vested retirement) shall commence on the first day of the month following attainment by the participant of age 60 and shall continue thereafter until his or her death.

(2) To transfer his or her credits in this system to the retirement and relief system of the city if permitted by the statute establishing that retirement and relief system, and in accordance with the provisions of law applicable to entry or transfer into the same. If this option is elected, the contributions of the participant and an amount equal to a fraction of the contributions of the city to the system during the time the contributions of the participant were made, the fraction to be established using the aggregate contributions of the participant as a numerator and the contributions of the city during that period as the denominator, shall be paid into the general pension fund and credited against the sum the participant owes to the general pension and relief system in order to receive credit for years of unclassified service in the same.

(3) To continue to participate in this system as though he or she was still employed in the unclassified service; provided that this option shall be available only if the participant has credit for not less than six years of service in this system.

ARTICLE F. BREAK IN SERVICE

Sec. 3-4-61. Eligibility for benefits—Generally.

After the effective date hereof, if a participant shall be entitled to pay in fewer than 26 weekly payroll periods during any plan year, this shall constitute a break in service. Upon incurring a break in service, a participant shall have the rights accorded him or her hereunder upon termination of employment for reasons other than death or retirement, but shall cease to be a participant hereunder unless he or she shall be eligible for and elect to avail himself or herself of a deferred vested retirement benefit under the provisions of section 3-4-26.
(Code 1964, § 39A-16; Code 1980, § 3-4-61)

Sec. 3-4-62. Same—Reemployment.

In the event of cessation of participation in the system due to a break in service, after which a former participant is reemployed and again becomes a participant hereunder, he or she may elect to be reaccredited with the years of service to which he or she was entitled prior to his or her break in service, but in order to receive the same, he or she must return any contributions previously withdrawn by him or her over that period of time and subject to the requirements and conditions, including interest, as may be required by the board of managers.
(Code 1964, § 39A-17; Code 1980, § 3-4-62)

Sec. 3-4-63. Same—Interim employment in the classified service.

If a participant leaves the unclassified service of the city and enters the classified service of the same, thereupon electing the option under section 3-4-51, and subsequently leaves the classified service to become reemployed in the unclassified service, he or she shall be reinstated as a participant in this system and shall be credited with the years of service accrued by him or her while in the classified service (determined by the rules of this system and not by the rules of the general retirement and relief system). He or she shall be required to make all payments which he or she would have made to this system had he or she remained a participant under it during the time he or she was employed in the classified service within the time and under the terms and conditions, including interest, as may be required by the board of managers; provided that, if the participant elects to continue as a participant in the general retirement and relief system pursuant to the provisions of the same, he or she may waive his or her right to be credited with years of service under the provisions hereof by filing notice with the board of managers of his or her desire to do so, in writing, in which case he or she shall not be obligated to make payments to this system for the period during which he or she was employed in the classified service.

All contributions to the system shall be made to the trustee and the trustee shall be responsible for investment and accumulation of the same, and shall make disbursements to participants entitled to receive benefits at the direction of the board of managers. The board of managers shall direct the trustee to pay administrative expenses, except the monthly payments to the members of the board of managers, directly from the system's fund with a record of such payments to be included within the accountings provided for in section 3-4-73. The board of managers may discharge any trustee and appoint a successor trustee, which also shall be a banking institution within the city, and in that event shall require an accounting from the discharged trustee within 60 days from the date of discharge.
(Code 1980, § 3-4-72; Ord. No. 77-2, § 7.2; Ord. No. 77-217, § 7, 10-28-1977)

Sec. 3-4-73. Same—Regular accountings.

The trustee of the fund shall make an accounting thereof to the board of managers not less frequently than annually, and this accounting shall be due not later than 60 days from the close of each plan year.
(Code 1964, § 39A-21; Code 1980, § 3-4-73)

Sec. 3-4-74. Authority to administer system.

Effective November 1, 1995, the assets necessary to fund this system on an actuarially sound basis and the liabilities of this system shall be transferred to the board of managers of the city retirement and relief system, if such board of managers shall consent to such transfer. In the event such a transfer occurs, the said board of managers of the city retirement and relief system

shall have all powers of the board of managers and such other powers as it deems necessary to the proper administration of this system. All retirement or benefits in payment status or otherwise vested shall be continued as described herein and all participants shall be entitled to receive the benefits described herein on the same terms and conditions as declared or as may be declared by the city council. The board of managers of this system shall cease to exist and shall have no further power or authority. The city shall continue to make the contributions as described in section 3-4-12.

(Ord. No. 97-183, art. II, § 2.1, 12-23-1997; Ord. No. 98-106, § 1, 6-30-1998; Ord. No. 07-233, art. II, § 2(2.1), 12-18-2007; Ord. No. 08-241, art. II, § 2(2.1), 12-22-2008)

Sec. 3A-1-12. Same—Misrepresentation.

Any willful misrepresentation of a material fact in any application required by this chapter, or to any city law enforcement officer, or to the director of finance in the performance of his or her duties pursuant hereto, is a violation of this chapter, and shall be deemed a misdemeanor, and in addition to the punishment provided herein, such willful misrepresentation shall be grounds for denial of a license or revocation if one has been issued, as provided in sections 3A-1-129 through 3A-1-133.

Sec. 3A-1-13. Issuance of license—Sworn statements; issuance of license conditional.

(a) *Sworn statements required.* In all cases where the amount of license tax is dependent upon the amount of business done, amount of

sales, gross receipts and gross sales, value of furniture and other equipment, stock, capital invested, number of helpers or employees, amount of space occupied, or any factor or factors whatsoever either of the same kind as the foregoing enumerations or of a different kind there from, it shall be the duty of the person subject to such tax to render to the director of finance, on or prior to the date when such tax becomes due, a sworn statement showing the total business done, amount of sales, receipts, stock, value of furniture and other equipment, capital invested, number of helpers or employees, amount of space occupied, or other factor or factors hereinabove mentioned, one or several, as the case may require for the ascertainment of the classification of such person for license taxation purposes and the correct amount of license tax to which he or she is subject.

(b) *Issuance of license conditional.* Upon receipt of any license tax based upon the classifications of such person as shown by such sworn statement as required by subsection (a) of this section, the director of finance shall issue the appropriate license, but the issuance and grant thereof is expressly conditional upon the truth and accuracy of such sworn statement and the same shall be revocable by the city council as inadvertently and mistakenly granted and issued whenever it shall be made to satisfactorily appear to the city council that the said sworn statement is false or incorrect or that the holder of such license has not paid to the city the correct amount of license tax.

(c) *Regulated licenses.* Prior to issuing a business license to a taxpayer, which shall be issued to the licensee based upon the established contractor category, who is subject to the jurisdiction of a particular state licensing board, the taxing jurisdiction shall attempt to confirm from the board that the taxpayer is duly licensed by and in good standing with that board; provided that the failure of the department to receive such confirmation due to a good faith error or other reasonable cause shall absolve the department and its employees or agents from any civil liability or criminal penalty that would otherwise arise or accrue if it is determined that the taxpayer was not in good standing at the time of filing the license form. The receipt by the department of what appears to be a true and accurate copy of the taxpayer's card or certificate, issued by the particular state licensing board within 14 months of the date on which the taxpayer applies for a business license, shall constitute reasonable cause.

(Ord. No. 97-183, art. II, § 2.3, 12-23-1997; Ord. No. 07-233, art. II, § 2(2.3), 12-18-2007; Ord. No. 08-241, art. II, § 2(2.3), 12-22-2008)

Sec. 3A-1-14. Same—Payment of other licenses not excused.

Any person required to pay a license tax for conducting a business under the provisions of this chapter shall not be relieved from the payment of any license tax for the privilege of conducting such business required under any other provision of this chapter or any other ordinance or regulation of the city, and such person shall remain subject to all regulatory provisions.

(Ord. No. 97-183, art. II, § 2.4, 12-23-1997; Ord. No. 07-233, art. II, § 2(2.4), 12-18-2007; Ord. No. 08-241, art. II, § 2(2.4), 12-22-2008)

Sec. 3A-1-15. Same—Unlawful manner of operation prohibited.

The granting of a license for a business shall not be deemed a permit to conduct the same in an unlawful manner or on premises where such business is prohibited by law.

(Ord. No. 97-183, art. II, § 2.5, 12-23-1997; Ord. No. 07-233, art. II, § 2(2.5), 12-18-2007; Ord. No. 08-241, art. II, § 2(2.5), 12-22-2008)

Sec. 3A-1-16. Same—License does not permit business otherwise prohibited.

The business license issued pursuant to the provisions of this chapter constitutes a receipt for the license tax paid and shall have no other legal effect. A business license is a requirement, not a permit, to transact and carry on any business activity within this city. The business license issued is evidence only of the fact that such tax has been paid. Neither the payment of the tax nor the possession of the business license

issued authorizes, permits, or allows the doing of any act which the person holding the same would not otherwise be entitled to do; and any permit, license, variance, or other instrument of approval or evidence that any conditions exist as required

by any other section of this chapter or by any statute or code provision of the city must first be obtained or complied with before the doing of any act or thing for which it is required.
(Ord. No. 97-183, art. II, § 2.6, 12-23-1997; Ord. No. 07-233, art. II, § 2(2.6), 12-18-2007; Ord. No. 08-241, art. II, § 2(2.6), 12-22-2008)

(Ord. No. 97-183, art. II, § 2.7, 12-23-1997; Ord. No. 07-233, art. II, § 2(2.7), 12-18-2007; Ord. No. 08-241, art. II, § 2(2.7), 12-22-2008)

Sec. 3A-1-18. Same—Unpaid taxes.

No business license for any succeeding, current or unexpired tax period shall knowingly be issued to any person who, at the time of application, is indebted to the city for any unpaid tax. The total indebtedness shall include the total tax due plus penalties for failure to pay the tax when due.
(Ord. No. 97-183, art. II, § 2.8, 12-23-1997; Ord. No. 07-233, art. II, § 2(2.8), 12-18-2007; Ord. No. 08-241, art. II, § 2(2.8), 12-22-2008)

Sec. 3A-1-19. False oath to procedure license.

It shall be unlawful for any person to give, submit, exhibit or present to the city, the director of finance, or to his or her designated agent, any false, deceptive or misleading statement, affidavit, certificate, book or record entry, or other document, relating to the amount of capital invested, the value of goods, stocks, or merchandise, the amounts or volume of sales, receipts or commissions, the number of employees, the number of vehicles used, or any other data, record of information required by this chapter to determine the amount of license due.

Sec. 3A-1-20. Use of license by unlicensed person.

No person holding a license required by this chapter shall permit any unlicensed independent contractor, transient dealer, or other person to use the license, the licensed premises or the licensee's name for the purpose of evading payment of any license fee or of evading any other provision of this chapter.
(Ord. No. 97-183, art. II, § 2.10, 12-23-1997; Ord. No. 07-233, art. II, § 2(2.10), 12-18-2007; Ord. No. 08-241, art. II, § 2(2.10), 12-22-2008)

Sec. 3A-1-22. More than one line of business.

(a) Any taxpayer engaged at one location in more than one line of business falling within separate NAICS sector or subsectors, for which a business license is or may be required by the department in accordance with this chapter, shall take out and pay for a license for each separate NAICS sector or subsectors from which the taxpayer derived more than 35 percent of its gross receipts during the preceding license year; provided, however, that for each business license, the gross receipts which shall be taxed with regard to such license shall, except as provided in subsection (a)(2) of this section and other provisions of

this chapter, be only those gross receipts which arise within the line of business which is the subject of the license.

(1) The city may, in its discretion as evidenced by adoption of the ordinance from which this chapter is derived, increase the ten percent gross receipts threshold to no more than 35 percent.

(2) Nothing herein shall be construed to exempt the gross receipts derived from one or more additional lines of business of the taxpayer if those gross receipts do not exceed the required threshold for the purchase of a second or multiple business license. Instead, those gross receipts shall be included in the business license for the taxpayer's primary line of business.

(b) Nothing herein shall be construed to exempt the gross receipts derived from one or more additional lines of business of the taxpayer if those gross receipts do not exceed the required threshold for the purchase of a second or multiple business license. The two-year period of exemption herein provided shall begin from the first licensure, authorization or admission to practice regardless of in what state, territory or district the said first licensure, authorization or admission occurred.

Sec. 3A-1-32. Nonprofit organizations.

Nonprofit organizations which have been granted exemptions from business license taxation by Acts of the Alabama Legislature are exempt from city license taxes. The legislative act, or a copy thereof, must be submitted to the department in order to be eligible for the grant of such exemption. (b) *Persons liable.* Persons engaged in a profession, vocation or occupation who have a proprietary interest, ownership interest, private practice or are sole practitioners of such profession, vocation or occupation, or who are independent contractors receiving an IRS form 1099-M, are required to obtain a business license for engaging in such activity. Failure to comply with the preceding sentence shall not, however, preclude the department from enforcing its business license tax laws against a taxpayer but shall preclude the department from assessing any fines or penalties otherwise due for late payment until ten days after a renewal reminder notice has been mailed to the taxpayer at its last known address as indicated in the records, or personally delivered to the taxpayer, and the taxpayer then fails or refuses to remit the business license tax due for such license year within the ten-day period. If the municipality mails a renewal reminder notice to the last known address of the taxpayer, as indicated in the records, there shall exist a presumption that the municipality has complied with the above provisions. The department shall not be precluded from assessing fines and penalties otherwise due for late payment if the taxpayer does not notify the department of a change in address within 90 days after changing such address. Taxpayers shall notify the department of a change of mailing address within 90 days after changing such address. In like manner, taxpayers shall notify the department of a change in their federal employer identification number or department of revenue taxpayer identification number within a reasonable time after such number is changed.

c. Business license renewal payments received by the department shall be applied to the current renewal only when any and other debts the licensee owes to the city are paid in full. No business license shall be issued if the current renewal payment does not meet said prior obligations and the current renewal. Sec. 3A-1-72. Records to be kept.

In addition to all other requirements otherwise set out in this chapter, taxpayers shall keep and maintain an accurate and complete set of records, books, and other information sufficient to allow the department to determine the correct amount of value or correct amount of any license tax due, or other records or information as may be necessary for the proper administration of any matter under the provisions of this Code in such form as the department may require. Such records, books, and other information shall be open for examination by the department upon request at a reasonable time and location. It shall also be the duty of every person to keep and preserve such records, books, and other pertinent records or other information for a period of not less than five years from the due date of the return on which the underlying license tax is required to be reported, or within five years of the date the return is filed, whichever is later.

(1) *Reasonable time and reasonable location.* For the purposes of this section, the term "reasonable time" means during normal business hours of the department. The term "reasonable location" means the taxpayer's place of business or the offices of the taxpayer's authorized representative, provided such business or representative is located within a 50-mile radius of the city. Taxpayers maintaining records outside of this radius must make records available at city hall or at such other location as agreed upon by the department. The department, when conducting an audit, review, or examination for verification, may, at its election, require any taxpayer conducting business within the city to provide the records, accounts, books, papers and other documents at a reasonable time and reasonable place agreed upon by the department, as provided herein.

(2) *Taxpayer may be assessed reasonable costs.* The department may assess and collect from the taxpayer the reasonable costs, based on the then-current state government employee per diem rates incurred by, or charged to, the city in connection with performing an examination of the taxpayer's books and records if the taxpayer received notice by certified U.S. mail, return receipt requested, at least 30 days prior to the date on which the examination was to commence, and:

1. The taxpayer either failed or refused to respond or did not propose a reasonable alternative date on which the examination was to commence within 15 days of receipt of notice of the pending examination; or if
2. The taxpayer and the department agreed in writing as to an alternative date on which the examination was to commence but the taxpayer then failed or refused to permit reasonable access to its books and records on the alternative date.

(3) *Separate records to be maintained where liquor sold.* It shall be the duty of each licensee selling beer and/or spirituous and vinous liquors, and intermingling the receipts from such sales with receipts of his or her other business to keep a separate intelligible record of each the beer and/or spirituous and vinous liquor sales. Where no such records are maintained, the department may immediately enter a final assessment for the amount of such license tax due plus applicable penalties; provided that the department may at any time enter a final jeopardy assessment, pursuant to Code of Ala. 1975, § 40-29-91.

(Ord. No. 97-183, art. II, § 9, 12-23-1997; Ord. No. 98-106, § 1, 6-30-1998; Ord. No. 00-207, § 1, 12-12-2000; Ord. No. 07-233, art. II, § 9, 12-18-2007)

Sec. 3A-1-73. Investigative powers.

Each taxpayer shall give to the director of finance the means, facilities and opportunity for the making of such audit, examination, and investigation of the records, books, or other relevant information maintained by any taxpayer or other person for the purpose of computing and determining the correct amount of value or the correct amount of license tax to which such person is

subject, and determining the proper classification of such license holder for license taxation purposes, as provided for in section 3A-1-72. The director of finance is hereby authorized to examine any person under oath concerning any gross receipts which were or should have been shown in a return, and to this end, he or she may compel the production of books, papers, records and the attendance of all persons before him or her, whether as parties or as witnesses, whom he or she believes to have knowledge of such gross receipts.

(1) Any taxpayer, or officer of a corporation or association, or partner of a partnership, or fiduciary of a trust, or responsible individual of any entity under a duty to maintain books and records pursuant to this chapter, who fails or refuses to maintain or provide such records and books, or permit inspection, as required herein, shall be subject to the provisions of article I of this chapter, and shall be subject to contempt proceedings in the circuit court.

(2) Where the amount of license required to be paid for engaging in any business is graduated according to the amount of business, or the amount of gross receipts, gross purchases, gross sales, or according to the amount or value of stock on hand, and where a maximum flat sum which shall be paid as a license is provided for engaging in such business, any person engaging in such business shall be liable for the maximum license provided for engaging in such business, unless he or she has in his or her possession the records, books, papers, and reports necessary to determine the classification to which he or she belongs, and unless he or she exhibits the same for inspection as required by this section, and unless the same discloses that the person belongs in a classification lower than the classification required to pay the maximum license. In the absence of such records, it shall be the duty of the director of finance to ascertain the license tax classification of such person from the best information and data obtainable and to assess against such person the correct license tax according to the classification thus ascertained.

(3) Upon demand by the department or its designee, it shall be the duty of all licensees to:

a. Permit the designee of the city to enter the business and to inspect all portions of his or her place or places of business for the purposes of enabling said municipal designee to gain such information as may be necessary or convenient for determining the proper license classification and determining the correct amount of license tax;

b. To furnish information during reasonable business hours, at the licensee's place of business, in the city, all books of account, invoices, papers, reports and memoranda containing entries showing amount of purchases, sales receipts, inventory and other information from which the correct license tax classification of such person may be ascertained and the correct amount of license tax to which he or she is subject may be determined, including exhibition of bank deposit books, bank statements, copies of sales tax returns to the state, copies of state income tax returns and federal income tax returns.

(Ord. No. 97-183, art. II, § 9, 12-23-1997; Ord. No. 98-106, § 1, 6-30-1998; Ord. No. 00-207, § 1, 12-12-2000; Ord. No. 07-233, art. II, § 9, 12-18-2007)

The department is authorized to audit, to subpoena records, and to enter into contracts with private examining or collecting firms as provided herein.

(1) A taxpayer that has purchased a business license required under this chapter shall not be subject to more than one business license examination for each business license by or on behalf of the issuing taxing

jurisdiction for every three-license-year cycle unless reasonable cause is shown and notice is given to the taxpayer, consistent with Code of Ala. 1975, § 40-2A-13, or unless the taxpayer fails or refuses to provide to the taxing jurisdiction a true and correct copy of its federal income tax return for the prior two license years of portions thereof within 14 days after written request has been mailed or personally delivered to it. The following activities shall not constitute a business license examination for purposes of this section:

a. The mere contact of a taxpayer or its authorized representative or agent for the purpose of obtaining information to confirm any information provided by the taxpayer in connection with its application for or renewal of its business license, or

b. An inspection of the taxpayer's books and records consistent with one of the exceptions for sales and use tax examinations listed in Code of Ala. 1975, § 40-2A-13(c).

(2) The director of finance or any agent or employee authorized by him or her is hereby authorized to examine and audit the books, papers, records, or other information of any taxpayer or of any licensee, in order to determine the accuracy of any return made, or if no return was made, to ascertain the amount of license fees due under the terms of this chapter by such audit or examination.

(3) The department may summon any witness to appear and give testimony, and summon by subpoena duces tecum any records, books, or other information of any kind relating to any matter which the department has authority to administer. The witness may be summoned by subpoena issued by any circuit judge, any magistrate, or any district judge, in the name of the department, directed to any sheriff and returnable to the department. The subpoena may be served in like manner as subpoenas issued out of any circuit court, or the subpoena may be served by an authorized employee of the department or by certified mail, return receipt requested. If any witness has been subpoenaed to appear and testify or appear and produce records, books, or other information, and fails or refuses to appear or testify or to produce the books, records, or other information, that witness shall be subject to contempt proceedings in the circuit court.

(4) The department is authorized to enter into contracts with private examining or collecting firms; provided:

a. Said private examining or collecting firm is certified and licensed under the auspices of the Alabama Local Tax Institute of Standards and Training (ALTIST), established under Code of Ala. 1975, § 40-2A-15;

b. No contract between the city and the private examining or collecting firm entered into for the purpose of examining or collecting city taxes shall have a term in excess of three years, including any renewal or extension options;

c. The limitation on the term of a contract between the city and a private examining or collecting firm does not prohibit the negotiation of a new contract between the parties following expiration of a properly executed contract; and

d. Any contract between the city and any private examining or collecting firm shall terminate automatically, whether or not it is stated in the contract, if the private examining or collecting firm loses or forgoes its license under Code of Ala. 1975, § 40-2A-13 or 40-2A-14.

(2) Two years from the date of payment of the tax, whichever is later; or

(3) If no form was timely filed, two years from the date of payment of the business license tax.

(b) The department shall either grant or deny a petition for refund within six months from the date the petition is filed, unless the period is extended by written agreement of the taxpayer and the department. The taxpayer shall be notified of the department's decision concerning the petition for refund by first class United States mail or by certified mail with return receipt requested, sent to the taxpayer's last known address. If the department is unable to grant a refund within the time provided herein due to the taxpayer's failure to provide adequate documentation, the petition for refund shall be deemed to be denied.

(c) If the petition is granted, or the department or a court otherwise determines that a refund is due, the overpayment shall be promptly refunded to the taxpayer by the department, together with interest to the extent provided in Code of Ala. 1975, § 11-51-192. If the department or a court determines that a refund is due, the amount of overpayment plus any interest due thereon may first be credited by the department against any outstanding final tax liabilities due and owing by the taxpayer to the department, and the balance of any overpayment shall be promptly refunded to the taxpayer. If any refund or part thereof is credited to any other tax by the department, the taxpayer shall be provided with a written detailed statement showing the amount of overpayment, the amount credited for payment to other taxes, and the amount refunded.

Sec. 3A-1-83. Assignment of refunds.

The right of any person to a refund under this section is not assignable. A petition for a refund must be made by the person who paid the tax.
(Ord. No. 97-183, art. II, § 10, 12-23-1997; Ord. No. 98-106, § 1, 6-30-1998; Ord. No. 00-207, § 1, 12-12-2000; Ord. No. 02-173, § 1, 12-10-2002; Ord. No. 07-233, art. II, § 10, 12-18-2007)

Sec. 3A-1-84. Action for recovery of refund.

It is unlawful for any petitioner for a tax refund to make a false statement in connection with such application. If any person obtains a refund unlawfully, the director of finance is empowered and directed to bring appropriate action for recovery of such refund. A conviction for the violation of this section shall constitute prima facie evidence that all refunds received by such person pursuant to the petition which contained the false statement were obtained unlawfully. Obtaining a refund unlawfully shall be an act of fraud against the city and shall be subject to applicable penalties outlined in article J of this chapter.

ARTICLE I. ENFORCEMENT

Sec. 3A-1-91. Jeopardy, preliminary, final assessments and time limitations.

(a) *Jeopardy assessments.* All jeopardy assessments issued by the department shall be executed pursuant to Code of Ala. 1975, § 40-29-91(a), (b) and (c).

(1) If the director of finance finds that a taxpayer designs quickly to depart from the city or to remove his or her property therein, or to do any other act tending to prejudice or to render wholly or partly ineffectual proceedings to collect any license tax imposed by this chapter, the director of finance may issue notice of such finding to the taxpayer by personal service or mailing to his or her last known address, together with a demand for immediate payment of the license tax declared to be in jeopardy, including penalties and additions thereto and such license tax, penalty, and additions thereto shall be immediately due and payable. A final assessment of such license tax may be entered immediately and if the assessment is not paid upon such demand of the director of finance, the director of finance may forthwith issue a warrant for levy and distraint of any personal property of the taxpayer which shall be collected in the same manner and with like effect as provided under section 3A-1-158.

(2) In the case of a tax for a current period, the director may declare the taxable period of the taxpayer immediately terminated and may at his or her discretion estimate the tax liability based upon the best information obtainable. Notice of such finding and declaration shall be issued to the taxpayer in the same manner as in subsection (a)(1) of this section.

(3) When a jeopardy assessment has been made as provided in subsection (a)(1) of this section, the collection of all or any part of such assessment may be stayed by filing with the director of finance or his or her delegate an approved bond conditioned upon the payment of the assessment together with applicable penalties and costs of collection. The director shall have sole discretion to approve or disapprove the bond, but such approval shall not be unreasonably withheld.

(b) *Preliminary and final assessments.* All preliminary and final assessments issued by the department shall be executed as provided herein. The terms "preliminary assessment" and "final assessment" shall have the respective meanings ascribed by section 3A-1-1.

(1) *Entry of preliminary assessment.* If the department determines that the amount of any business license tax as reported on a return is incorrect, or if no business license remittance form or return is filed within the time prescribed, or if the information provided on the form is insufficient to allow the department to determine the proper amount of business license tax due or if the department is required to determine value, the department shall calculate the correct license tax or value based on the most accurate and complete information reasonably obtainable by the department. The department shall thereafter enter a preliminary assessment for the correct amount of business license tax or value, including any applicable penalty and interest.

(2) *Service of preliminary assessment upon taxpayer.* The preliminary assessment entered by the department, or a copy thereof, shall be promptly mailed by the department to the taxpayer's last known address by either first class U.S. mail or certified mail with return receipt requested, or, in the sole discretion of the department, the preliminary assessment may be delivered to the taxpayer by personal delivery.

a. *Issuance of a preliminary assessment.* At or before the issuance of a

preliminary assessment, the department shall provide to the taxpayer in simple and non-technical terms:

1. A written description of the basis for the assessment and any penalty asserted with respect to the assessment.
2. A written description of the method by which the taxpayer may request an administrative review of the preliminary assessment.
3. At or before the issuance of a final assessment, the department shall inform the taxpayer by a written statement of the taxpayer's right to appeal to the circuit court.
4. Except in cases involving suspected criminal violations of the tax law or other criminal activity, the department shall conduct an examination of a taxpayer during regular business hours after providing reasonable notice to the taxpayer. A taxpayer who refuses a proposed time for an examination on the grounds that the proposed examination would cause inconvenience or hardship must offer reasonable alternative times and dates for the examination.
5. At all stages of an examination or the administrative review of the examination, a taxpayer is entitled to be assisted or represented, at the taxpayer's own expense, by an authorized representative. The department shall prescribe a form by which the taxpayer may designate such a person to represent the taxpayer in the conduct of any proceedings, including collection proceedings, resulting from actions of the department. In the absence of this form the taxing jurisdiction may accept such other evidence that a person is the authorized representative of a taxpayer as it considers appropriate. This provision shall not be construed as authorizing the practice of law.
6. The taxpayer shall be allowed to make an audio recording of any in person interview with any officer or employee of the department relating to any examination or investigation by the department, provided, however, the taxpayer must give reasonable advance notice to the department of the taxpayer's intent to record and the recording shall be at the taxpayer's own expense and with the taxpayer's own equipment. The department shall also be allowed to record any interview if the taxpayer is recording the interview, or if the department gives the taxpayer reasonable advance notice of its intent to record the interview. The department shall provide the taxpayer with a copy of the recording, but only if the taxpayer provides reimbursement for the cost of the transcript and reproduction of such copy. Such cost shall be reasonable as prescribed by the department.
7. This section shall not apply to criminal investigations or investigations relating to the integrity of any officer or employee of the city.
8. Any designee of the city shall be subject to the same responsibilities and restrictions of its authority, and the ability of its employees and contractors, to act on behalf of the department under this section as are im-

posed on them under the provisions of this section and Code of Ala. 1975, §§ 40-2A-12 to 40-2A-14, inclusive.

b. *Disputed preliminary assessments.* If a taxpayer disagrees with a preliminary assessment as entered by the department, the taxpayer may file a written petition for review with the director of finance within 30 calendar days from the date of entry of the preliminary assessment, setting out the specific objections to the preliminary assessment, and show such cause why any assessment should not be made final. If a petition for review is timely filed, or if the department otherwise deems it necessary, the department shall schedule a conference with the taxpayer for the purpose of allowing the taxpayer or its representatives and the department to present their respective positions, discuss any omissions or errors, and to attempt to agree upon any changes or modifications to their respective positions.

c. *Disposition of petition.* If a written petition for appeal/review:

1. Is not timely filed; or

2. Is properly filed, and upon further review the department determines the preliminary assessment is due to be upheld in whole or in part;

the department may make the assessment final in the amount of the business license tax due as computed by the department, with applicable interest and penalty computed to the date of entry of the final assessment. The department shall, whenever practicable, complete the department's review of the taxpayer's petition for review and applicable law within 90 days following the later of the date of filing of the petition or the conference, if any.

(3) *Service of final assessment upon taxpayer.* The final assessment entered by the department, or a copy thereof, shall be mailed by the department to the taxpayer's known address by either:

a. First class U.S. mail or certified mail with return receipt requested in the case of assessments of tax of $500.00 or less; or

b. Certified mail with return receipt requested in the case of assessments of tax of more than $500.00.

In either case and at the option of the department, the final assessment, or a copy thereof, may be delivered to the taxpayer by personal delivery.

(4) *Undisputed preliminary assessments.* Where the amount of license tax or value reported on a return is undisputed by the department, or if the taxpayer consents in writing, to the department's determination of the amount of any deficiency, determination of value, or preliminary assessment as provided by this chapter, the department shall enter a final assessment for the amount of the license tax or value, plus applicable penalty and interest; provided, the department may at any time enter a final jeopardy assessment, pursuant to Code of Ala. 1975, § 40-29-91.

(c) *Time limitation for entering assessments.*

(1) Any preliminary assessment must be entered within four years from the due date of the return, or four years from the date the return is filed with the department, whichever is later, or if no return is required to be filed, within four years of the due date of the license tax, except as follows:

a. A preliminary assessment may be entered at any time if no return is filed as required, or if a false or fraudulent return is filed with the intent to evade the business license tax.

b. A preliminary assessment may be entered within six years from the

due date of the return or six years from the date the return is filed with the department, whichever is later, if the taxpayer omits from the taxable base an amount properly includable therein which is in excess of 25 percent of the amount of the taxable base stated in the return.

c. A preliminary assessment may be entered within five years from the due date of the license form, or five years from the date the form is filed, whichever is later, if the taxpayer or its authorized agent fails or refuses to execute and return to the department or its agent a written extension of the statute of limitations on issuing preliminary assessments for up to eight months, as requested by the department or its agent, within 30 days after receipt of the request for extension by the taxpayer or its authorized agent.

d. The preliminary assessment entered by the taxing jurisdiction, or a copy thereof, shall promptly upon entry be mailed by the taxing jurisdiction to the taxpayer's last known address by either first class U.S. mail or certified U.S. mail with return receipt requested, but at the option of the department, the preliminary assessment may be delivered to the taxpayer by personal delivery.

(2) Determination of taxable base; additional assessments; time period extensions.

a. For purposes of this subsection (c), the term "taxable base" means the gross proceeds from the sales, gross receipts or other amounts on which the tax paid with the return is computed.

b. In determining the amount omitted from the taxable base, there shall not be taken into account any amount which is omitted from the taxable base stated in the return if the amount is disclosed in the return, or in a statement attached to the return, in a manner adequate to apprise the department of the nature and amount of the item.

c. The department and the taxpayer may, prior to the expiration of the period for entering a preliminary assessment, agree in writing to extend the time provided for entering the assessment. The tax may be assessed at any time prior to the expiration of the period agreed upon. The period agreed upon may be extended by subsequent agreements in writing made before the expiration of the period previously agreed upon.

d. Additional tax may be assessed by the department within any applicable period allowed above, even though a preliminary or final assessment has been previously entered by the department against the same taxpayer for the same or a portion of the same tax period.

(Ord. No. 97-183, art. II, § 11, 12-23-1997; Ord. No. 98-106, § 1, 6-30-1998; Ord. No. 00-207, § 1, 12-12-2000; Ord. No. 07-233, art. II, § 11, 12-18-2007)

Sec. 3A-1-92. Appeals.

(a) *Written notice required.* Appeals from denial of refunds, jeopardy assessments, and final assessments shall be executed as provided in Code of Ala. 1975, § 6-3-11. A written notice of appeal shall be filed with department and shall contain information sufficient to:

(1) Identify the name of the taxpayer or other party filing such notice of appeal;

(2) Identify the specific matter appealed from;

(3) Outline the basis for such appeal; and

(4) Specify the relief sought.

(b) *Appeal from refund denial.*

(1) A taxpayer may appeal from the denial in whole or in part of a petition for refund by filing a written notice of appeal with the circuit court of the county in which the

department denying the petition for refund is located by filing the notice of appeal within two years from the date the petition is denied. The circuit court shall hear the appeal according to its own rules and procedures and shall determine the correct amount of refund due, if any.

(2) If an appeal is not filed with the appropriate circuit court within two years of the date the petition is denied, then the appeal shall be dismissed for lack of jurisdiction.

(c) *Appeal from jeopardy assessment.*

(1) In any court proceeding to contest the jeopardy assessment or to enforce payment of the license taxes made due and payable by virtue of the provisions of article I of this chapter, the finding of the director of finance, made as herein provided, shall be for all purposes presumptive evidence of jeopardy.

(2) A final jeopardy assessment entered hereunder may be appealed to either the director of finance or the circuit court in the same manner as provided in subsection (e) of this section for the appeal of final assessments. On appeal to the circuit court or to the director of finance, the final jeopardy assessment shall be prima facie correct, and the burden of proof shall be on the taxpayer to prove such assessment is incorrect.

(3) If an appeal is not filed with the director of finance or in the circuit court within the time provided herein for appeals of final assessments, the appeal shall be dismissed for lack of jurisdiction.

(d) *Appeal from preliminary assessment.* Refer to section 3A-1-91(b)(1) and (2).

(e) *Appeal from final assessment.*

(1) A taxpayer may appeal from any final assessment entered by the department by filing a written notice of appeal with the director of finance within 30 days from the date of entry of the final assessment, and the appeal, if timely filed, shall proceed as herein provided.

(2) In lieu of the appeal under subsection (e)(1) of this section, at the option of the taxpayer, the taxpayer may appeal from any final assessment to the circuit court by filing written notice of appeal within 30 days, from the date of entry of the final assessment with both the director of finance and the circuit court. If the appeal is to circuit court, the taxpayer shall, also within the 30-day period allowed for appeal, either:

a. Pay the tax and penalty shown on the final assessment; or

b. File a supersedeas bond with the court in double the amount of the tax and any penalty shown on the final assessment. The supersedeas bond shall be executed by a surety company licensed and authorized to do business in the state and shall be conditioned to pay the assessment plus applicable penalty and any court costs relating to the appeal. A taxpayer may appeal a final assessment to circuit court as provided herein, even though the taxpayer has paid the tax shown as due on the assessment prior to filing the appeal.

(3) The filing of the written notice of appeal with the director of finance or in the case of appeals to the circuit court, the filing of the written notice of appeal with both the director of finance and the circuit court, and also the payment of the assessment in full and applicable penalty or the filing of a bond as provided herein, are jurisdictional. If such prerequisites are not satisfied within the time provided for appeal, the appeal shall be dismissed for lack of jurisdiction. On appeal to the circuit court or to the director of finance, the final assessment shall be prima facie correct, and the burden of proof shall be on the taxpayer to prove such assessment is incorrect.

(4) If a final assessment is reduced on appeal, any overpayment shall promptly be refunded to the taxpayer by the taxing jurisdiction together with interest to the extent allowed by Code of Ala. 1975, § 11-51-192.

(5) No court shall have the power to enjoin the collection of any business license tax due on an assessment so appealed or to suspend the payment thereof.

(Ord. No. 97-183, art. II, § 12, 12-23-1997; Ord. No. 98-106, § 1, 6-30-1998; Ord. No. 07-233, art. II, § 12, 12-18-2007)

ARTICLE J. PENALTIES AND INTEREST

Sec. 3A-1-101. Failure to timely pay license taxes.

If a taxpayer fails, neglects, or refuses to pay to the department the amount of license tax shown as due on a return required to be filed on or before the date prescribed for payment of the license tax there shall be assessed; in addition to the license tax due or the amount of tax herein required to be remitted; or for any license tax for which a monthly or quarterly return is required, a penalty 15 percent of the unpaid amount shown as business license tax required to be paid with the license form, due on the return or the amount stated in the notice and demand, assessed from the date at which the license tax herein levied became due and payable. There shall be assessed a penalty of 30 percent of any business license tax required to be paid with the license form if the business license tax and any assessed penalties are not paid within 30 days of the due date prescribed. Such penalties shall not be cumulative. (Also refer to article E of this chapter.)

(Ord. No. 97-183, art. II, § 13, 12-23-1997; Ord. No. 98-106, § 1, 6-30-1998; Ord. No. 00-207, § 1, 12-12-2000; Ord. No. 07-233, art. II, § 13, 12-18-2007)

Sec. 3A-1-102. Underpayment of license taxes.

Any taxpayer failing to pay the license taxes herein levied to the city or any amount of license tax herein required to be paid to the city, within the time required by this chapter, shall pay, in addition to the license tax or the amount of tax herein required to be remitted, a penalty not exceeding 30 percent of the amount of license tax due, assessed from the date at which the license tax herein levied or required to be paid became delinquent, that is, due and payable to the city.

Sec. 3A-1-103. Underpayment due to negligence.

If any part of any underpayment of license tax is due to negligence or disregard of rules or regulations, there shall be added to the license tax a penalty not exceeding 25 percent of that part of the tax attributable to negligence or disregard of rules and regulations. For the purpose of this section, the term "negligence" includes any failure to make a reasonable attempt to comply with this chapter, and the term "disregard" includes any careless, reckless or intentional disregard.

If any part of any underpayment of license tax required to be shown on a return is due to fraud, there shall be added to the tax an amount equal to 50 percent of that portion of the underpayment which is attributable to fraud. For purposes of this section, the term "fraud" shall have the same meaning as ascribed to the term under Code of Ala. 1975, § 40-2A-11(d).

(Ord. No. 97-183, art. II, § 13, 12-23-1997; Ord. No. 98-106, § 1, 6-30-1998; Ord. No. 00-207, § 1, 12-12-2000; Ord. No. 07-233, art. II, § 13, 12-18-2007)

Sec. 3A-1-105. Frivolous appeal penalty.

If any appeal to the director of finance or to circuit court is determined to be frivolous or

primarily for the purpose of delay or to impede collection of the license tax imposed by this chapter, a penalty of $250.00 or 25 percent of the license tax in question, whichever is greater, shall be assessed in addition to any license tax due.
(Ord. No. 97-183, art. II, § 13, 12-23-1997; Ord. No. 98-106, § 1, 6-30-1998; Ord. No. 00-207, § 1, 12-12-2000; Ord. No. 07-233, art. II, § 13, 12-18-2007)

Sec. 3A-1-106. Penalties not exclusive.

The penalties provided in this section for failure to timely file a return, failure to timely pay tax, underpayment of tax, underpayment due to negligence and fraud, or filing a frivolous appeal may be asserted against the same taxpayer for the same tax period.
(Ord. No. 97-183, art. II, § 13, 12-23-1997; Ord. No. 98-106, § 1, 6-30-1998; Ord. No. 00-207, § 1, 12-12-2000; Ord. No. 07-233, art. II, § 13, 12-18-2007)

Sec. 3A-1-107. Waiver of penalties.

Penalties may be waived, in whole or in part, by the director of finance upon a determination of reasonable cause. Reasonable cause shall include, but not be limited to, those instances in which the taxpayer has acted in good faith. The burden of proving reasonable cause shall be on the taxpayer, and a determination by the department that reasonable cause does not exist shall be reversed only if that determination was made arbitrarily and capriciously.
(Ord. No. 97-183, art. II, § 13, 12-23-1997; Ord. No. 98-106, § 1, 6-30-1998; Ord. No. 00-207, § 1, 12-12-2000; Ord. No. 07-233, art. II, § 13, 12-18-2007)

Sec. 3A-1-109. Interest.

(a) Interest shall be computed at a rate of one percent per month or fraction thereof, and shall be added as provided herein to any tax or other amount due the department which is not paid by the due date. Interest on any delinquency or underpayment shall be charged from the due date of the tax.

(b) Except as provided in this subsection, interest at the same rate shall be paid by the department on any refund of business license tax erroneously paid to the department. Interest shall be computed on any overpayment from the date of the overpayment to the department, provided that interest on any refund of business license taxes of the department shall be limited to pay interest on any refund of tax erroneously paid. References in the subsection to the term "erroneously paid taxes" on which interest shall be due to the taxpayer means and refers only to taxes erroneously paid to the department or its agent as a result of any error, omission, or inaccurate advice by or on behalf of the self-administered municipality, including in connection with a prior examination of its books and records by the self-administered municipality or its agent.
(Ord. No. 97-183, art. II, § 13, 12-23-1997; Ord. No. 98-106, § 1, 6-30-1998; Ord. No. 00-207, § 1, 12-12-2000; Ord. No. 07-233, art. II, § 13, 12-18-2007)

Sec. 3A-1-110. Abatement of penalty.

The department shall abate any penalty attributable to erroneous written advice furnished to a taxpayer by an employee of the department. However, this subsection shall apply only if the department employee provided the written advice in good faith while acting in his or her official capacity, the written advice was reasonable relied on by the taxpayer and was in response to a specific written request of the taxpayer, and the penalty did not result from the taxpayer's failure to provide adequate or accurate information.
(Ord. No. 97-183, art. II, § 13, 12-23-1997; Ord. No. 98-106, § 1, 6-30-1998; Ord. No. 00-207, § 1, 12-12-2000; Ord. No. 07-233, art. II, § 13, 12-18-2007)

Sec. 3A-1-111. Penalty for failure to perform duties.

Any person required to collect, truthfully account for, and/or pay over any tax imposed by this chapter who willfully fails to collect such tax, or truthfully account for, and/or pay over such tax, or willfully attempts in any manner to evade or defeat any such tax or the payment thereof, shall, in addition to other penalties provided by law, be liable for a penalty up to the total amount of the tax evaded, or not collected, or not accounted for and paid over.
(Ord. No. 97-183, art. II, § 13, 12-23-1997; Ord. No. 98-106, § 1, 6-30-1998; Ord. No. 00-207, § 1, 12-12-2000; Ord. No. 07-233, art. II, § 13, 12-18-2007)

ARTICLE K. ADMINISTRATIVE

Sec. 3A-1-121. Confidentiality of tax returns.

The confidentiality provisions imposed by this chapter shall be executed as provided herein.

(1) It shall be unlawful for any person to print, publish, or divulge, without the written permission or approval of the taxpayer, the license tax return of any taxpayer or any part thereof or any information secured in arriving at the amount of license tax or value reported for any purpose other than the proper administration of any matter administered by the department, or upon order of any court, or as otherwise allowed in this section. Nothing herein shall prohibit the disclosure of the fact that a taxpayer has or has not purchased a business license or of the name and address of a taxpayer purchasing or renewing a business license from the department. Statistical information pertaining to license taxes may be disclosed at the discretion of the director of finance. The director of finance may make written or verbal disclosure upon request as to the status of compliance of the taxpayer relative to this chapter. Any person willfully violating the provisions of this section shall, for each act of disclosure, have committed a Class A misdemeanor.

(2) A good standing certificate shall be issued to a requesting person with respect to a taxpayer, if the taxpayer has filed all license tax returns due, and paid the license taxes shown as payable in accordance with those returns.

(3) The director of finance shall promulgate reasonable regulations permitting and governing the exchange of license tax returns, information, records, and other documents secured by the department, with tax officers of other agencies of the state, municipal, and county government agencies within the state, federal government agencies, any association of state government tax agencies of this state or other states, and any foreign government tax agencies; however:

   a. Any license tax returns, information, records, or other documents remain subject to the confidentiality provisions set forth in subsection (1) of this section;

   b. The department may charge a reasonable fee for providing information or documents for the benefit of the requesting agencies; and

   c. Any exchange shall be for one or more of the following purposes:

      1. Collecting license taxes due.

      2. Ascertaining the amount of license taxes due from any person.

      3. Determining whether a person is liable for, or whether there is probable cause for believing a person might be liable for the payment of any license tax.

(4) Nothing herein shall prohibit the use of license tax returns or license tax information by the department in the enforcement, collection, and assessment of any license tax levied or imposed by this chapter, or any other matters administered by

the department. The department may also divulge to a purchaser or successor of a business or stock of goods the outstanding license tax liability of the seller for which the purchaser or successor may be liable pursuant to section 3A-1-123. This section shall not preclude the inspection of returns by federal or foreign state agents pursuant to Code of Ala. 1975, § 40-18-53.

(5) Nothing herein shall prohibit the exchange of information between and among county or municipal governments subject to the same restrictions and criminal penalties imposed on the department and its personnel as described in this section.

(6) In no event shall any damages, attorney fees, or court costs be assessed against the city or against its elected officials, officers or employees under this section.

(Ord. No. 97-183, art. II, § 14, 12-23-1997; Ord. No. 98-106, § 1, 6-30-1998; Ord. No. 00-207, § 1, 12-12-2000; Ord. No. 07-233, art. II, § 14, 12-18-2007)

Sec. 3A-1-122. Regulations may be promulgated; payments due taxpayers may be withheld.

(a) *Regulations may be promulgated.*

(1) The director of finance shall from time to time promulgate rules and regulations for making returns and for ascertainment, assessment, and collection of the license tax imposed hereunder as the director may deem necessary to enforce its provisions; and upon request shall furnish any taxpayer with a copy of such rules and regulations.

(2) The director of finance may prescribe, adopt, promulgate and enforce reasonable rules and regulations not in conflict with this chapter relating to any matter or thing pertaining to the administration and enforcement of the provisions of this chapter, including but not limited to provisions for the re-examination and correction of license tax returns as to which overpayment or underpayment is claimed or found to have been made, and the rules and regulations so promulgated shall be binding upon all taxpayers.

(3) The director of finance shall prescribe printed forms for use by persons subject to the provisions of this chapter and shall make such forms available at the director's office for use by such persons.

(b) *Payments due taxpayers may be withheld.* Pursuant to the Mayor-Council Act, article VI, section 6.04(o), Act No. 452-55, Acts of Alabama, the director of finance, in order to protect the interests of the city, is authorized to withhold the payment of any claim or demand for payment of monies due from the city to any vendor, contractor, consultant or other person having unpaid or delinquent tax or license liabilities until such unpaid license tax, including applicable penalties, shall first have been settled and adjusted. The director of finance shall notify the taxpayer by certified mail with return receipt requested, sent to the taxpayer's last known address, of the director's intention to make such levy, the effect of which shall be continuous from the date such levy is first made until the liability out of which such levy arose is satisfied.

(Ord. No. 97-183, art. II, § 15, 12-23-1997; Ord. No. 07-233, art. II, § 15, 12-18-2007)

Sec. 3A-1-123. Purchaser to withhold taxes due from purchase money or be liable.

If any person liable for an amount of license tax herein levied or required to be paid to the city shall sell out his or her business or stock of goods or shall quit the business, he or she shall make a final license return reflecting any taxes due, as provided under article E of this chapter, and shall make payment of any license taxes due within 30 days after the date of selling or quitting business. His or her successor, successors or assigns, if any, shall be required to withhold sufficient of the purchase money to cover the amount of such license taxes herein required to be paid to the city or penalties due and unpaid until such time as the former owner shall produce a receipt from the department showing that they have been paid, or a certificate stating that no amount is due. If the purchaser of a business or stock of goods shall fail

to withhold purchase money as provided herein, and the license taxes remain due and unpaid after said 30-day period, he or she shall be personally liable for the payment of the amount of license taxes herein levied, and required to be paid to the city by the former owner, and penalties accrued and unpaid by any former owner, owners or assignors. If in such cases the department deems it necessary in order to collect the license taxes due the city, it may make a jeopardy assessment as provided in title 40, chapter 29 of the Code of Alabama 1975.
(Ord. No. 97-183, art. II, § 16, 12-23-1997; Ord. No. 07-233, art. II, § 16, 12-18-2007)

Sec. 3A-1-124. Disposition of funds derived from license taxes.

All monies derived from license taxes levied under the provisions of this chapter shall be paid to the city and placed to the credit of the general fund of the city, and shall be used and expended as authorized by law and ordinance.
(Ord. No. 97-183, art. II, § 17, 12-23-1997; Ord. No. 98-106, § 1, 6-30-1998; Ord. No. 07-233, art. II, § 17, 12-18-2007)

Sec. 3A-1-125. Inspection of public warehouse authorized.

(a) *Duty of director of finance.* It shall be the right and duty of the director of finance to inspect from time to time, during reasonable business hours, all records, books and other papers or documents, as well as the merchandise itself that is placed or stored in public warehouses in the city as well as all other places where merchandise is stored for or by some person, firm or corporation other than the owner or operator of the place where said merchandise is stored. The information obtained from such inspection and investigation shall be used as an aid in determining the proper classification of the owner of said merchandise for license taxation and for fixing the amount of such license tax.

(b) *Unlawful to obstruct director of finance in the performance of his or her duty.* It shall be unlawful for any person, firm or corporation to impede, hinder or obstruct the director of finance in the reasonable performance of his or her duty.
(Ord. No. 97-183, art. II, § 20, 12-23-1997; Ord. No. 07-233, art. II, § 20, 12-18-2007)

Sec. 3A-1-126. Annualization of business license; computing license based on number of workers.

(a) *Annualization of business license.* Where the amount of license is based upon the volume of receipts, sales, inventory, fixtures, rolling stock, etc., in the absence of any other specific provision therefor, the sales and receipts referred to are those of such business for the license year next preceding the current license year; provided, however, that if said business did not operate the entire next preceding year, then the license tax shall be based upon that amount which bears the same relationship to the actual amount of sales or receipts during such preceding year as the entire year bears to such time which said business was operated during such preceding year; and provided further, that if the operation of such business did not commence until after the first day of the calendar year, the operator therefor shall pay at the end of 90 days after operation started, or December 31 of the current year, whichever occurs first, an amount computed on a basis similar to that set out above.

(1) If the taxpayer employs a fiscal year for federal and state income tax purposes, the taxpayer's gross receipts may be determined, at the option of the taxpayer, from the federal income tax return of the taxpayer for the fiscal year next preceding the current license year, provided that the gross receipts reported thereon reasonably reflect the financial condition of the taxpayer as of the December 31 next preceding the current license year, and the taxpayer so notifies the city either prior to or simultaneously with the first business license remittance form using fiscal year data. The taxpayer's use of fiscal year data, as provided above, shall constitute an irrevocable election to use fiscal year data with respect to the current and subsequent business license years unless the

governing body of the city or its director of finance or other chief revenue officer or his or her designee consents otherwise.

(2) Said gross receipts shall be sworn or attested to by the taxpayer in an affidavit form to be provided by the department. Discontinuance of the business during any year subject to annualization of the gross receipts does not excuse the payment of any license fees or taxes determined to be due pursuant to the execution of the affidavit; provided, the department may initiate a civil action to recover any license taxes, applicable penalties, and administrative costs incurred in connection therewith, including filing fees, in any court of competent jurisdiction, which remedy shall be in addition to any and all other remedies which may be provided.

(b) *Computing license based on number of workers.* Where the amount of license is based upon the number of employees working in the business during the year next preceding the current license year and the operation of such business did not commence until the first day of such current year or thereafter, then the license tax for such business for such current year shall be due and payable at the end of 90 days after operation started or on December 31 of the current year, whichever date occurs first, in an amount computed upon the number of employees employed during such period as if such number of employees were to be employed throughout such year and at the end of such year the amount of license tax due therefor shall be adjusted in accordance with the number of employees actually employed during such year; provided, however, there shall be excluded from said number of employees employed in such business all part-time student employees who are regularly enrolled in a formal school or general educational institution devoted primarily to the education of its enrollees.
(Ord. No. 97-183, art. II, § 21, 12-23-1997; Ord. No. 00-207, § 1, 12-12-2000; Ord. No. 07-233, art. II, § 21, 12-18-2007)

Sec. 3A-1-127. Simplification provision.

(a) *Gross receipts simplification provision.* If a license due under this chapter is payable in whole or in part on the basis of gross receipts or gross sales, and 35 percent or more of such receipts or sales are derived from a source for which there is a single schedule in this chapter, the licensee may compute its license by applying to all gross receipts or gross sales the rate established in the schedule applicable to the 35 percent or more of said receipts or sales, except that this subsection shall not be applied in connection with the below-named schedules for which a separate license must be purchased.

Each person, firm, company, association or corporation engaging in or carrying on any business, vocation, occupation or profession hereinabove enumerated outside the corporate limits of the city but within the police jurisdiction thereof, shall take out a license and pay therefor an amount equal to one-half the amount of license tax to which he, she or it would be subject were such business, vocation, occupation or profession engaged in or carried on within the corporate limits of the city. Sec. 3A-1-129. License may be changed, altered, increased, or revoked by the city council.

The adoption of this schedule of licenses shall not abridge the right of the council of the city to change, alter, increase, decrease, or revoke for cause, any of the above licenses contained in appendix A to this Code at any time. And when any increase is made, unless the same is paid within 30 days, the license shall be revoked and no further business carried on thereunder; nor shall it abridge the right of the council of the city to require a license for any business, occupation, or profession not included in appendix A to this Code schedule of business licenses.

At the time and place so specified, such person may appear before the city council in person and by counsel, one or both, and show cause, if any, why said business license should not be revoked. Upon any such hearing, and for all other purposes, the decision and determination of the department as to classification and amount of license tax due shall be deemed correct and final, unless and until it shall be satisfactorily shown that such decision and determination is incorrect.

(a) The council may consider the matter of revoking or refusing to renew any license of any business licensee on its own initiative or upon the written complaint of one or more persons alleging the grounds and the factual basis for such revocation or refusal.

(b) The council shall set a time for hearing on the matter of revoking or refusing to renew a license; and a notice of such hearing shall be given to the licensee, or the applicant for renewal, as the case may be, or an agent or officer thereof, by the city clerk at least ten days before the day set for said hearing. Said notice shall require such licensee or applicant to appear before the council at a time and place specified in the notice for the purpose of showing cause, if any, why the license of such licensee should not be revoked or refused for renewal. The notice shall specify the grounds upon which such revocation or refusal is proposed.

(c) At the hearing, the council of the city shall hear all evidence offered by any party and all evidence that may be presented bearing upon the question of revocation or the refusal of renewal, as the case may be. The licensee or applicant shall have the right to introduce witnesses and evidence in his or her behalf. No refund of any license fee shall be made if the license is revoked.

(e) If, after receiving written notice of such hearing, the licensee or a duly authorized representative thereof shall fail to appear before the council at the time and place fixed for the hearing or to which the hearing has been continued, the council shall hear and consider evidence in support of the proposed revocation and shall have the right to take the action authorized in subsection (d) of this section.

(f) Whenever the council shall revoke any license under this chapter, no such license so revoked shall be again issued to such licensee or to anyone for such licensee until after the expiration of six months from the date of such revocation.

(g) Notice of such final action shall be given to the licensee by the city clerk. Posting of such in the United States mail addressed to the address on file in the department of finance shall constitute completed action on the part of the city in regards to delivery of such final action to the licensee.

(h) It shall be unlawful for any person to do business within the city when the license for such has been revoked or suspended as prescribed in this article.
(Ord. No. 97-183, art. II, § 24, 12-23-1997; Ord. No. 07-233, art. II, § 24, 12-18-2007; Ord. No. 08-241, art. II, § 24(24.5), 12-22-2008)

(b) *No proration of license tax resulting from abandonment or discontinuance of business.* The amount of proration of the license due hereunder by anyone upon commencing business, shall not be affected or decreased by the subsequent abandonment or discontinuance of such business.

(c) *No proration of license where herein otherwise provided.* There shall be no proration of any license due except as otherwise provided in this chapter.

(a) *No transfer of license allowed except by consent of director of finance; only one transfer permitted in any event.* When the ownership of a business or privilege for which a license is issued is, under actual sale, transferred in its entirety to a new owner, or owners, a transfer of license may be effected by and through the application process outlined in article B of this chapter, subject to the provisions of this section as well as those of this chapter in the case of alcoholic beverage licenses. No license issued under the schedule of business licenses set forth in appendix A to this Code shall be transferred except by the consent of the director of finance of the city, or the city council including in the case of alcoholic beverage licenses, and no transfer shall be valid until same has been endorsed across the face of the license receipt by the director of finance, and no license shall be transferred to reflect a physical change of address of the taxpayer within the city, in any event, more than once during a license year and never from one taxpayer to another; provided that a mere change in the name or ownership of a taxpayer that is a corporation, partnership, limited liability company or other form of legal entity now or hereafter recognized by the laws of the state shall not constitute a transfer for purposes of this chapter, unless:

(1) The change requires the taxpayer to obtain a new federal employer identification number or department of revenue taxpayer identification number; or

(2) In the discretion of the department, the subject license is one for the sale of alcoholic beverages.

Nothing in this section shall prohibit the department from requiring a new business license application and approval for an alcoholic beverage license.

(b) *Application for transfer of license; location to location.* Any person to whom a business license has been issued to transact or carry on some business, calling, trade or profession at a definite location in the city may make application for the transfer of such person's business license for the same business, calling, trade or profession, as is therein mentioned, at some other definite location in the city by such person, by filing said application with the director of finance for review. No transfer of license from one location in the city to another location in the city will be granted without the consent of the director of finance or the city council, in the case of liquor establishments.

(c) *New location must have zoning approval.* Before authorization can be granted to transfer a business license from one definite location in the city to another definite location in the city, the application must be submitted to and approved by the city department of planning, engineering and permits, pursuant to the requirements of Ordinance No. 90-130, as amended (see appendix D to this Code).

(d) *Transfer of license; person to person, same physical location.* No license granted or issued under any of the provisions of this chapter shall be in any manner assignable, transferable or authorize any person other than the person named therein as the licensee to operate the business, where specifically prohibited by this chapter. A

license shall never be transferred from one taxpayer to another. Provided that a mere change in the name or ownership of a taxpayer that is a corporation, partnership, limited liability company or other form of legal entity now or hereafter recognized by the laws of the state shall not constitute a transfer for purposes of this chapter, unless:

(1) The change requires the taxpayer to obtain a new federal employer identification number or department of revenue taxpayer identification number; or

(2) In the discretion of the municipality, the subject license is one for the sale of alcoholic beverages.

Nothing in this section shall prohibit the department from requiring a new business license application and approvals for an alcoholic beverage license.

(e) *Transfer license; change of ownership; responsibilities for unpaid taxes.* No license granted or issued under any provision of this chapter may be transferred in any manner until any and all license tax returns have been filed and any license taxes due and payable by the former owner have been paid as provided in section 3A-1-123.
(Ord. No. 97-183, art. II, § 27, 12-23-1997; Ord. No. 02-173, § 1, 12-10-2002; Ord. No. 07-233, art. II, § 27, 12-18-2007)

(Ord. No. 97-183, art. II, § 28, 12-23-1997; Ord. No. 07-233, art. II, § 28, 12-18-2007)

(a) *Place of business to be designated; separate license required for each location.* Pursuant to Code of Ala. 1975, § 11-51-94, any person desiring to engage in any trade, business, or occupation, for which a license is required and for which a fixed place of business is required shall designate the place at which said trade or business or occupation is to be carried on, and the license to be issued thereunder, shall designate such place and such license shall authorize the carrying on of such trade, business or occupation only at such place. For each place at which said trade, business or occupation is carried on, a separate license fee and tax shall be paid.

(b) *Business location address must have zoning approval.* Each designated business location must be approved by the city department of planning, engineering and permits, pursuant to the requirements of Ordinance No. 90-130, as amended.

A copy of the properly executed agreement must be presented to the revenue division at the time of making application for licensing.

(1) For purposes of this section, a home occupation/home office is defined as an occupation or activity which is clearly incidental to the use of the premises for dwelling purposes and which is carried on by a member of a family residing on the premises.

(2) This use must be located within a main building or in a properly located accessory building. No equipment that is not normally used in connection with a residence may be used in conjunction with this use

(provided that equipment such as home computers, filing cabinets, desk and desk chair are allowed).

(3) No person, other than a family member residing on the premises, may be employed or perform any duties associated with the home occupation/home office. Customers, clients, or employees, are not permitted to come to the location of the home occupation/home office, and no display or storage of any materials, other than necessary office supplies limited to the use of the home occupation/home office, may be kept, placed, housed, or stored, at any time, at this location.

(4) There shall be no advertising other than an identification sign of not more than one square foot in area which is neither illuminated nor animated. There shall be no exterior identification of the home occupation/home office, nor shall the use of the property for a home occupation/home office cause the property to distract from the residential character of the premises.

(5) A home occupation/home office shall not include beauty parlors, barbershops, or doctors' or dentists' offices for the treatment of patients, or any other business activity otherwise prohibited in a residential zoning area.

(1) Each line of business, vocation, calling or profession; and

(2) Each separate place or location of business.

(b) License shall be location specific.

(1) For each place at which any business is carried on, a separate license shall be paid, and any person desiring to engage in any business for which a license is required shall designate the place at which business is carried on, and the license to be issued shall designate such place, and such license shall authorize the carrying on of such business only at the place designated.

(3) A taxpayer subject to the license authorized by this chapter that is engaged in business in more than one municipality, shall be permitted to account for its gross receipts so that the part of its gross receipts attributable to one or more branch offices will not be subject to the business license tax imposed on the principal business office required to obtain a business license. Branch office gross receipts are those receipts that are the result of business conducted at or from a qualifying branch office. In order to establish the existence of a qualifying branch office, the taxpayer shall meet all the following criteria:

a. The taxpayer must demonstrate the continuing existence of an actual physical facility located outside the city in which its principal business office is located, such as a retail store, outlet, business office, showroom, or warehouse, to which employees and/or independent contractors are assigned or located during regular normal working hours.

b. The taxpayer must maintain books and records, which reasonably indicate a segregation or allocation of the taxpayer's gross receipts to the particular facilities.

c. The taxpayer must provide proof that separate telephone listings, signs, and other indications of its separate activity are in existence.

d. Billing and/or collection activities relating to the business conducted at the branch offices are performed by an employee or other representative, of the taxpayer who has such responsibility for the branch office, whether or not the representative is physically located at the branch office.

e. All business claimed by a branch office must be conducted by and through said office.

f. The taxpayer must supply proof that all applicable business licenses with respect to the branch offices have been issued.

(4) Nothing herein shall be construed as exempting businesses from payment of a license on the basis of a lack of physical location.

Sec. 3A-1-155. Method of procedure for injunction proceeding.

(a) Pursuant to Code of Ala. 1975, §§ 40-29-20 et seq., and/or 11-51-96, the provisions of this section shall apply to privilege or license taxes and/or any penalty payable thereon, levied under this chapter, and such license taxes and penalties shall be a lien in favor of the city as set forth in subsection (b) of this section.

(b) If any person liable to pay any tax, other than ad valorem tax, neglects or refuses to pay the same, the amount (including any interest, additional amount, addition to tax, or assessable penalty together with filing fees and any costs that may accrue in addition thereto) shall be a lien in favor of the city upon all property and rights to property, whether real or personal, tangible or intangible, belonging to such person which is used in any exhibition, trade, business, vocation, occupation, or profession, for which a license is or may be required. The effective period of the lien shall arise at the time of the assessment, return therefor or the payment thereof, whichever is prior, was due to have been filed with or made to the city, and shall continue until the liability for the amount so assessed (or a judgment against the taxpayer arising out of such liability) is satisfied or becomes unenforceable by reason of lapse of time. The lien shall be superior to all other liens, except the lien of the state, county and municipal corporations for taxes, and the lien of the state and county for license. Such lien may be enforced by attachment.

Sec. 3A-1-157. Notice of lien.

The department shall give a 30-day notice of intent to file lien to the taxpayer by any one of the following methods:

If the taxpayer shall file with the department a bond in double the amount of the lien filed, with surety or sureties to be either a surety company authorized to do business in the state or such individual property owners, not less than three in number, as recommended by the judge of probate of the county in which the notice of lien is recorded, conditioned to pay all such tax, interest penalty, additional amount or addition to such tax, together with any costs which may occur in addition thereto as may be assessed against the taxpayer, principal in said bond, the director of finance shall withdraw and release said lien filed under the provisions of this section, and upon a

determination that the said taxpayer owes any of said taxes to the city, the assessment (judgment) therefor shall be entered against said taxpayer and the surety or sureties on said bond; and, if not paid within 30 days from the date of said final assessment (judgment), then execution shall issue therefor against said principal and the surety or sureties on said bond. If the bond hereinabove provided for is not given and approved by the director of finance, and final assessment (judgment) is entered against said taxpayer and he or she duly and legally appeals therefrom within the time and in the manner provided for by this chapter, and if the court approves the bond required for an appeal or the said taxpayer against whom the assessment was entered by the department shall, within 30 days from the date of the assessment, pay the amount thereof to the city, then, in either of said events, the director of finance shall cancel or release from record said lien.

(1) *Length of period.* Where the assessment of any license tax imposed by this chapter has been begun or made within the period of limitation properly applicable thereto, such license tax may be collected by levy or by a proceeding in court, but only if the levy is made or the proceeding begun:

a. Within the period allowed by law after the final assessment of the tax; or

b. Prior to the expiration of any period for collection agreed upon in writing by the director of finance and the taxpayer before the expiration of the period allowed by law (or, if there is a release of levy under Code of Ala. 1975, § 40-29-34, after such period allowed by law, then before such release).

The period so agreed upon may be extended by subsequent agreements in writing made before the expiration of the period previously agreed upon. The period allowed by law as provided in this subsection during which a license tax may be collected by levy shall not be extended or curtailed by reason of a judgment against the taxpayer.

(2) *Date when levy is considered made.* The date on which a levy on property or rights to property is made shall be the date on which the notice of seizure provided in Code of Ala. 1975, § 40-29-26, is given.

(Ord. No. 97-183, art. II, § 39, 12-23-1997; Ord. No. 07-233, art. II, § 39, 12-18-2007)

Pursuant to Code of Ala. 1975, § 11-42-57, all territory brought within the corporate limits of the city and having a situs within such territory shall be exempt from such city taxation as fixed by a resolution. The department shall, in such cases, require sworn statements as to the amount of capital invested or value of goods or stocks or amounts of sales or receipts where the amount of the license is made to depend upon the amount of capital invested or value of goods or stocks or amount of sales or receipts, as provided in Code of Ala. 1975, § 11-51-90(a)(3). It shall be unlawful for any person, firm, or corporation to fail or refuse to furnish sworn statements required by this section or to give false statements in relation thereto. Sec. 3A-1-161. Remedies cumulative.

The conviction and fine or imprisonment of any person, taxpayer or agent of a person or taxpayer for engaging in any business without first obtaining a license to conduct such business shall not relieve such person from paying the business license tax to conduct such business, nor shall the payment of any business license tax prevent a civil action or criminal prosecution for the viola-

tion of any of the provisions of this chapter. All remedies prescribed hereunder shall be cumulative and the use of one or more remedies by the department shall not bar the use of any other remedy for the purpose of enforcing the provisions hereof. (See section 3A-1-164(f).)
(Ord. No. 97-183, art. II, § 41, 12-23-1997; Ord. No. 07-233, art. II, § 41, 12-18-2007)

Sec. 3A-1-162. Effect of this chapter on past actions and obligations.

Unless otherwise specifically or by necessary implication provided herein, neither the adoption of the ordinance from which this chapter is derived nor its superseding of any portion of any other ordinance of the city shall in any manner be construed to affect prosecution for a violation committed on any other ordinance prior to the adoption of the ordinance from which this chapter is derived, nor be construed to affect the validity of any bond or cash deposit required by any ordinance to be posted, filed, or deposited, and all rights and obligations thereunto appertaining shall continue in full force and effect for the term prescribed therein.
(Ord. No. 97-183, art. II, § 42, 12-23-1997; Ord. No. 07-233, art. II, § 42, 12-18-2007)

Sec. 3A-1-163. Violator may be restrained from continuing in business.

Any taxpayer who shall violate any of the provisions of this chapter may be restrained from continuing in business, and proper prosecution shall be instituted in the name of the city until such person shall have complied with the provisions of this chapter.
(Ord. No. 97-183, art. II, § 43, 12-23-1997; Ord. No. 07-233, art. II, § 43, 12-18-2007)

Sec. 3A-1-164. Violations.

(a) *Failure to pay the license tax, make reports, keep or provide records.* Any person subject to the provisions of this chapter, who shall fail to pay the license tax, make the reports or any of them as herein required, or who shall fail to keep or provide records, or supply any information, as herein required, shall, as provided in Code of Ala. 1975, § 40-29-112, be guilty of a misdemeanor and upon conviction shall be fined not less than $50.00, nor more than $500.00 for each offense, and, in addition, may be imprisoned for a period not to exceed six months, or by both such fine and imprisonment. Each occurrence of such failure shall constitute a separate offense.

(b) *Willful refusal to make reports, or permit examination of records.* Any person subject to the provisions of this chapter willfully failing or refusing to make the reports, furnish any supplemental returns or other data herein required, or who shall refuse to permit the examination of his or her records by the department, shall be guilty of a misdemeanor, and upon conviction shall be fined not less than $50.00 nor more than $500.00 for each offense, and in addition may be imprisoned for a period not to exceed to six months or by both such fine and imprisonment. (d) *Enforcement.* The payment of any and all licenses due may be enforced immediately after the due date thereof. A violation of the provisions of this chapter constitutes a misdemeanor punishable as provided in Code of Ala. 1975, § 11-51-93, and section 1-1-6. Payment of a fine imposed in criminal proceedings pursuant to this section does not relieve a person of his or her liability for taxes imposed under this chapter, and the department may seek appropriate equitable relief from a court of competent jurisdiction to prevent or redress violations of this chapter.

(e) *Unlawful for taxpayers to fail or refuse to perform duties required by this license code.*

(1) It shall be unlawful for any license holder, to fail or refuse to perform any duty, herein imposed upon such license holder, or to obstruct or interfere with the director of finance, in obtaining information necessary or convenient for determination of the proper license classification of such license holder.

(2) It shall also be unlawful for any such person, or for any agent, servant or employee of such person, to fail or refuse to perform any duty herein imposed upon such person or obstruct or interfere with the director of finance, in carrying out the purpose of this chapter. Each occurrence of a failure or refusal to perform any duty herein imposed shall constitute a separate offense.

(f) *Penalty for violation; fine and/or imprisonment.*

(1) Any person, firm or corporation or agent of a firm or corporation engaging in any business or vocation for which a license is required, without first having procured a license therefor may upon conviction, be punished by a fine not to exceed $100.00 for each offense or by imprisonment not to exceed six months, or by both such fine and imprisonment, at the discretion of the court trying the same, and each occurrence shall constitute a separate offense (Code of Ala. 1975, § 11-51-93).

(2) Except as provided by subsection (f)(1) of this section, any person, firm or corporation violating any provision of this chapter shall, upon conviction, be punished within the limits of and as provided by section 1-1-6.

(Ord. No. 97-183, art. II, § 44, 12-23-1997; Ord. No. 07-233, art. II, § 44, 12-18-2007)

Sec. 3A-1-165. Statute of limitations.

The statute of limitations for action by the city for the recovery of all amounts due under this chapter is five years, pursuant to Code of Ala. 1975, § 6-2-35, except as provided in section 3A-1-91(c)(1).

(Ord. No. 97-183, art. II, § 45, 12-23-1997; Ord. No. 00-207, § 1, 12-12-2000; Ord. No. 07-233, art. II, § 45, 12-18-2007)

Sec. 3A-1-166. Request for ruling on determination of taxation.

Such requests shall be made in writing to the finance department, and shall contain all pertinent facts relating to the items in question.

(Ord. No. 97-184, § 1(art. I, § 4), 12-23-1997)

Sec. 3A-2-5. Filing of returns: employers; employees; annual filing of reconciliation of returns; payment of the tax; bulk submissions.

(a) *Employers to withhold occupational license fees and file returns; due date of tax.* Each employer shall deduct from each payment of gross receipts and compensation due each employee the amount of the occupational license fees measured by one percent of the compensation due each employee beginning on December 1, 1970. The payments required to be made on account of such deductions by employers shall be made monthly to the city on or before the 20th day of the month next following the end of each such monthly period, and each employer shall at the same time make a return in connection therewith on a form made available to such employer in the department; provided that, if the total amount deducted from payments made to or due all employees of an employer averages less than $50.00 per month during the preceding calendar year, a quarterly return and remittance in lieu of monthly returns may be made, by election of the taxpayer to the department, for the current calendar year, and the remittance of such deductions to the city for the quarterly periods shall be due on or before the 20th day of the month next following the end of each such quarterly period, and each such employer shall at the same time make a return in connection therewith on a form made available to such employer by the department.

(1) *Contents of returns.* Each monthly or quarterly return shall show:

a. The number of employees, both taxable and nontaxable, of the employer;

b. The amount of gross compensation of all employees;

c. Nontaxable compensation;

d. The amount of occupational license fees deducted and paid by such employer for all or any part of the period being reported;

e. The correct reporting period; and

f. In addition to the gross compensation earned by the employees, such return shall show such other pertinent information as may be required by the department.

(2) *Remittance to accompany return.* At the time of making such monthly or quarterly report, such persons shall compute the occupational license fees due and shall pay to the city the amount of occupational license fees shown to be due.

(3) *Taxpayer's responsibility when no form received.* The department is authorized to provide prescribed forms necessary for compliance with the filing requirement outlined in this section. The failure of the taxpayer to receive forms from the department does not relieve the taxpayer of the responsibility of the timely reporting of the information required on the return, nor the timely payment of the tax.

(4) *Failure or omission by employer; employee's responsibility.* Provided, however, that the failure or omission by any employer to deduct such occupational license fees shall not relieve an employee from:

a. The payment of such occupational license fees;

b. Compliance with the requirements for making returns as provided in subsection (b) of this section; or

c. Compliance with any regulations promulgated under this chapter.

(b) *Returns to be filed by employees; due date of tax.* When a monthly or quarterly return, as required by subsection (a) of this section, is not filed by an employer and the occupational license fees are not paid to the city by such employer monthly as herein provided, the employee for whom no return has been filed and no payment has been made shall file a return with the director of finance on or before the 20th day of the month next following the end of each such monthly or quarterly period, showing in said return his or her gross receipts subject to occupational license fees for such month or quarter. If for any reason all occupational license fees of a person subject to the provisions of this chapter were not withheld by his or her employer from his or her gross receipts, such person shall file each return required by this section on a form obtainable from the director of finance. In addition to the gross receipts earned by him or her, such return shall show such other pertinent information as may be required by the director of finance. Each person making a return required by this section shall, at the time of filing thereof, pay to the city the amount of occupational license fees due under this chapter; provided, however, that any portion of the occupational license fees deducted by the employer shall be deducted on the return and only the balance, if any, shall be due and payable at the time of filing said return.

(c) *Annual filing of reconciliation returns.*

(1) Each employer shall file with the department on or before January 31 of each year, a return on a form made available in the department. This return shall show the gross amount of compensation of each employee, the amount of occupational license fees deducted and paid by such employer for all or any part of the period, and including the last known address of each such employee.

(2) Each employee for which no return was filed by the employer, shall file a return with the department on or before January 31 of each year thereafter in which his or her employer has failed to file any monthly or quarterly return required in the preceding calendar year, showing on said return the gross receipts subject to occupational license fees during the preceding calendar year. If for any reason all occupational license fees of a person

subject to the provisions of this chapter were not withheld by his or her employer from his or her gross receipts, such person shall file each return required by this section on a form obtainable in the department of finance.

(3) Each employer shall file with the department on or before January 31 of each year, a copy of all 1099s or a report showing the amount of compensation earned by any person not considered an employee, as defined in this chapter, who has rendered personal services for which the occupational tax was not withheld by the taxpayer receiving the personal services.

(d) *Timely mailing treated as timely filing and paying.* The provisions outlined in this section for the timely filing of any returns, payments, claims, statements, or other documents shall be administered as provided herein.

(1) *Date of delivery.* If any return, claim, statement, or other document required to be filed, or any payment required to be made, within a prescribed period or on or before a prescribed date under the authority of any provision of this chapter is, after such period or such date, delivered by United States mail to the finance department or to the department's designated depository where such return, claim, statement, or other document is required to be filed, or to which such payment is required to be made, the date of the United States postmark stamped on the cover in which such return, claim, statement, or other document, or payment, is mailed shall be deemed to be the date of delivery, or the date of payment, as the case may be; provided, however:

a. *Weekends and holidays.* When the due date falls on a Saturday, Sunday, or city holiday, payment of the tax may be made without penalty on the first working day following the due date.

b. *Mailing requirements.* The return, claim, statement, or other document, or payment was, within the time prescribed in subsection (d)(1) of this section, deposited in the mail in the United States in an envelope or other appropriate wrapper, postage prepaid, properly addressed to the finance department or to the department's designated depository where such return, claim, statement or other document is required to be filed, or to where such payment is required to be made.

(2) *Delivery by method other than United States mail.* Returns, claims, statements, or other documents, or payments which are required under any provision of this chapter which are delivered by any method other than by United States mail shall be considered timely filed when such items are received in the finance department or the department's designated depository on the due date prescribed.

(3) *Untimely filing.* Any return, payment, claim, statement, or other document not received in accordance with the provisions of this section shall be deemed untimely filed and shall be assessed applicable penalties and interest as prescribed by the relevant sections of this chapter.

(e) *Bulk submissions.* The department may accept, for reporting and payment of taxes due the city, bulk submissions of reports, and under regulations promulgated by the department, payments owed to the city made on behalf of the taxpayer by its properly authorized representative where such submissions are made using the appropriate form prescribed by the department. Any such bulk submissions of reports and payments shall include:

(1) The city's assigned taxpayer identification number for each such taxpayer for each tax paid; and

(2) Sufficiently detailed information by which each taxpayer can be identified such that a determination can be made as to the amount and method of assessment of tax against such taxpayer for the city.

The acceptance by the city of such bulk submissions shall not relieve the taxpayer on whose behalf such submissions were made from liability for any occupational tax arising from an error or omission made by the taxpayer's representative. Such bulk submission shall be signed by the taxpayer or its properly authorized representative.
(Ord. No. 97-184, § 5, 12-23-1997; Ord. No. 98-107, § 1(5), 6-30-1998; Ord. No. 00-208, § 1, 12-12-2000; Ord. No. 02-174, § 1, 12-10-2002; Ord. No. 02-185, § 1, 12-17-2002)

Sec. 3A-2-6. Extension of time for making return.

The director of finance, at his or her discretion, for reasonable cause, may extend the time for making any return required under the provisions of this chapter, however, the time for filing any such return shall not be extended for a period greater than 30 days from the date such return is due to be made and shall not prevent penalty and interest from accruing during the period of such extension.
(Ord. No. 97-184, § 1(art. I, § 6), 12-23-1997)

Sec. 3A-2-7. Where work done or services performed both within and without the city.

In cases where compensation is earned as a result of work done or services performed both within and without the city, the occupational license fees required under this chapter shall be computed by determining upon the oath of the employer, or if required by the director of finance upon the oath of the employee, that percentage of the compensation earned from the proportion of the work which was done or performed within the city.
(Ord. No. 97-184, § 1(art. I, § 7), 12-23-1997)

Sec. 3A-2-8. Oaths.

The monthly reports herein required to be made are not required to be made under oath, but wherever in this chapter any report is required to be sworn to, the same shall be sworn to by the taxpayer or his or her agent before some officer authorized to administer oaths, and any false statement to a material fact made with the intent to defraud shall constitute perjury, and upon conviction thereof, the person so convicted shall be punished as provided in section 1-1-6, as amended and as it may be amended.
(Ord. No. 97-184, § 1(art. I, § 8), 12-23-1997; Ord. No. 98-107, § 1(8), 6-30-1998)

Sec. 3A-2-9. Maintenance of records; investigative powers; audit and subpoena authority.

The provisions of this section shall be administered in accordance with the procedures set forth herein.

(1) *Records to be kept.* It shall be the duty of every person engaging, or continuing, in this city in any business for which a privilege tax is imposed by this chapter to keep and preserve suitable records of the gross compensation or gross receipts earned of such employees and such other books or accounts as may be necessary to allow the department to determine the correct amount of tax for which he or she is liable, or other records or information as may be necessary for the proper administration of any matters, under the provisions of this chapter. It shall also be the duty of every person to keep and preserve, for a period of not less than five years from the due date of the return on which the underlying tax is required to be reported, or five years of the date the return is filed, whichever is later, all such payroll journals or registers, canceled checks, expense reports or otherwise, and all such payroll journals or registers, canceled checks, expense reports and other records shall be open for examination by the department, upon request, at a reasonable time and location.

a. *Reasonable time and reasonable location.* Reasonable time shall be considered to be during normal business hours of the department. Reasonable location shall be considered to be the taxpayer's place of business or the offices of the taxpayer's authorized representa-

tive, provided such business or representative is located within a 50-mile radius of the city. Taxpayers maintaining records outside of this radius must make records available at city hall or at such other location as agreed upon by the department. The department, when conducting an audit, review, or examination for verification, may, at its election, require any taxpayer conducting business within the city to provide records, accounts, books, papers and other documents at a reasonable time and reasonable place agreed upon by the department, as provided herein;

b. *Taxpayer may be assessed reasonable costs.* The department may assess and collect from the taxpayer the reasonable costs, based on the then current state government employee per diem rates incurred by, or charged to, the city in connection with performing an examination of the taxpayer's books and records if the taxpayer received notice by certified U.S. mail, return receipt requested, at least 30 days prior to the date on which the examination was to commence; and:

1. The taxpayer either failed or refused to respond or did not propose a reasonable alternative date on which the examination was to commence within 15 days of receipt of notice of the pending examination; or if
2. The taxpayer and the department agreed in writing as to an alternative date on which the examination was to commence but the taxpayer then failed or refused to permit reasonable access to its books and records on the alternative date.

(2) *Investigative powers.* Each taxpayer shall give to the director of finance the means, facilities and opportunity for the making of such audit, examination and investigation of the records, books, or other relevant information maintained by any taxpayer or other person for the purpose of computing and determining the correct amount of value or correct amount of tax as provided for in subsection (1) of this section. The director of finance is hereby authorized to examine any person under oath concerning any gross receipts and compensation which were or should have been shown in a return, and to this end, he or she may compel the production of books, papers, records and the attendance of all persons before him or her, whether as parties or as witnesses, whom he or she believes to have knowledge of such gross receipts and compensation. Any taxpayer, or any officer of a corporation or association, or partner of a partnership, or fiduciary of a trust, or responsible individual of any entity under a duty to maintain books and records pursuant to this chapter, who fails or refuses to maintain, or refuses to provide such records and books, or permit inspection, as required herein, shall be subject to the provisions of section 3A-2-11, and shall be subject to contempt proceedings in the circuit court.

(3) *Audit and subpoena authority; additional requirements.* The department is authorized to audit, to subpoena records, and to enter into contracts with private examining or collecting firms as provided herein.

a. The director of finance or any agent or employee authorized by him or her is hereby authorized to examine and audit the books, papers, records, or other information of any taxpayer or of any licensee, in order to determine the accuracy of any return made, or if no return was made, to ascertain the amount of occupational license fees due under the terms of this article by such audit or examination.

b. The department may summon any witness to appear and give testimony, and summon by subpoena duces tecum any records, books, or other information of any kind relating to any matter which the department has authority to administer. The witness may be summoned by subpoena issued by any circuit judge, any magistrate, or any district judge, in the name of the department, directed to any sheriff of the state and returnable to the department. The subpoena may be served in like manner as subpoenas issued out of any circuit court, or the subpoena may be served by an authorized employee of the department or by certified mail, return receipt requested. If any witness has been subpoenaed to appear and testify or appear and produce records, books, or other information, and fails or refuses to appear or testify or to produce the books, records, or other information, that witness shall be subject to contempt proceedings in the circuit court.

c. The department is authorized to enter into contracts with private examining or collecting firms, provided:

1. Said private examining or collecting firm is certified and licensed under the auspices of the Alabama Local Tax Institute of Standards and Training (ALTIST), established under Code of Ala. 1975, § 40-2A-15;

2. No contract between the city and the private examining or collecting firm entered into for the purpose of examining or collecting city taxes shall have a term in excess of three years, including any renewal or extension options;

3. The limitation on the term of a contract between the city and a private examining or collecting firm does not prohibit the negotiation of a new contract between the parties following expiration of a properly executed contract; and

4. Any contract between the city and any private examining or collecting firm shall terminate automatically, whether or not it is stated in the contract, if the private examining or collecting firm loses or forgoes its license under Code of Ala. 1975, § 40-2A-13 or 40-2A-14.

(Ord. No. 97-184, § 1(art. I, § 9), 12-23-1997; Ord. No. 98-173, 11-10-1998; Ord. No. 98-107, § 1(9), 6-30-1998; Ord. No. 00-208, § 1, 12-12-2000)

Sec. 3A-2-10. Refunds.

(a) *Petitions for refund.*

(1) Any taxpayer may file a petition for refund with the department for any overpayment of tax erroneously paid to the department. If a final assessment for the tax has been entered by the department, a petition for refund of all or a portion of the tax may be filed only if the final assessment plus applicable interest has been paid in full prior to or with the filing of the petition for refund.

(2) The petition for refund must be filed in writing by the employer who collected and remitted the tax to the department. However, a direct petition may be filed in writing by an employee of a federal or a state agency.

(3) Unless otherwise provided by law, all petitions for refund shall include sufficient information to identify the type and amount of tax overpaid, the taxpayer, the period included, and the reasons for the refund. Such petition shall be

accompanied with sufficient supporting documentation as the department may deem necessary and proper.

(b) *Automatic refund.* Where the department determines that an employer is entitled to a refund on the annual reconciliation properly submitted, the department shall automatically refund to that taxpayer the amount of any excess tax so paid to the city; provided, however, that the time limitation provisions of this chapter shall apply.

(c) *Time limitations.*

(1) A petition for refund must be filed in writing with the department within two years from:

a. The date the return was filed; or

b. The date of payment of the tax, whichever is later.

(2) The department shall either grant or deny a petition for refund within six months from the date the petition is filed, unless the period is extended by written agreement of the taxpayer and the department. The taxpayer shall be notified of the department's decision concerning the petition for refund by first class United States mail, or by certified mail, with return receipt requested, sent to the taxpayer's last known address. If the department is unable to grant a refund within the time provided herein due to the taxpayer's failure to provide adequate information, the petition for refund shall be deemed to be denied.

(3) The department and the taxpayer may, prior to the expiration of the period for the filing of a petition for refund, agree in writing to extend the time provided for filing the petition. The petition for refund may be filed at any time prior to the expiration of the period agreed upon. The period agreed upon may be extended by subsequent agreements in writing made before the expiration of the period previously agreed upon.

(Ord. No. 97-184, § 1(art. I, § 10), 12-23-1997; Ord. No. 98-107, § 1(10), 6-30-1998; Ord. No. 00-208, § 1, 12-12-2000; Ord. No. 02-174, § 1, 12-10-2002)

Sec. 3A-2-11. Jeopardy, preliminary, final assessments and time limitations.

(a) *Jeopardy assessment.* All jeopardy assessments issued by the department shall be executed pursuant to Code of Ala. 1975, § 40-29-91(a), (b) and (c).

(1) If the director of finance finds that a taxpayer designs quickly to depart from the city or to remove his or her property therein or to do any other act tending to prejudice or to render wholly or partly ineffectual proceedings to collect any tax imposed by this chapter, the director of finance may issue notice of such finding to the taxpayer by personal service or mailing to the taxpayer's last known address, together with a demand for immediate payment of the tax declared to be in jeopardy, including, penalties and additions thereto and such taxes, penalty, interest, and additions thereto shall be immediately due and payable. A final assessment of such tax may be entered immediately and if the assessment is not paid upon such demand of the director, the director may forthwith issue a warrant for levy and distraint of any personal property of the taxpayer which shall be collected in the same manner and with the like effect as provided under section 3A-2-20.

(2) In the case of a tax for a current period, the director may declare the taxable period of the taxpayer immediately terminated and may at his or her discretion estimate the tax liability based upon the best information obtainable. Notice of such finding and declaration shall be issued to the taxpayer in the same manner as in subsection (a)(1) of this section.

(3) When a jeopardy assessment has been made as provided in this subsection (a), the collection of all or any part of such assessment may be stayed by filing with the director an approved bond conditioned upon the payment of the assessment together with applicable interest and cost of collection. The director shall have sole discretion to approve or disapprove the bond, but such approval shall not be unreasonably withheld.

(b) *Preliminary and final assessments.* All preliminary and final assessments issued by the department shall be executed as provided herein. The terms "preliminary assessment" and "final assessment" shall have the respective meanings as ascribed by section 3A-2-1.

(1) *Entry of preliminary assessment.* If the department determines that the amount of any tax as reported on a return is incorrect, or if no return is filed, or if the department is required to determine value, the department may calculate the correct tax or value based on the most accurate and complete information reasonably obtainable by the department. The department may thereafter enter a preliminary assessment for the correct tax or value, including any applicable penalty and interest.

(2) *Service of preliminary assessment upon taxpayer.* The preliminary assessment entered by the department, or a copy thereof, shall be promptly mailed by the department to the taxpayer's last known address by either first class U.S. mail or certified mail with return receipt requested, but at the option of the department, the preliminary assessment may be delivered to the taxpayer by personal delivery.

a. *Disputed preliminary assessments.* If a taxpayer disagrees with a preliminary assessment as entered by the department, the taxpayer may file a written petition for review with the director of finance within 30 calendar days from the date of entry of the preliminary assessment, setting out the specific objections to the preliminary assessment and showing cause why such assessment should not be made final. If a petition for review is timely filed, or if the department otherwise deems it necessary, the department shall schedule a conference with the taxpayer for the purpose of allowing the taxpayer and the department to present their respective positions, discuss any omissions or errors, and to attempt to agree upon any changes or modifications to their respective positions.

b. *Written petition.* If a written petition for appeal/review:

1. Is not timely filed; or

2. Is properly filed;

and upon further review the department determines the preliminary assessment is due to be upheld in whole or in part, the department may make the assessment final in the amount of tax due as computed by the department, with applicable interest and penalty computed to the date of entry of the final assessment.

(3) *Service of final assessment upon taxpayer.* The final assessment entered by the department, or a copy thereof, shall be mailed by the department to the taxpayer's last known address:

a. By either first class U.S. mail or certified mail with return receipt requested in the case of assessments of tax of $500.00 or less; or

b. By certified mail with return receipt requested in the case of assessments of tax of more than $500.00.

In either case and at the option of the department, the final assessment, or a copy thereof, may be delivered to the taxpayer by personal delivery.

(4) *Undisputed preliminary assessments.* Where the amount of tax or value reported on a return is undisputed by the department, or the taxpayer consents in writing to the department's determination of the amount of any deficiency, determination of value, or preliminary assessment as provided by this chapter, the department may immediately enter a final assessment for the amount of the tax or value, plus applicable penalty and interest; provided, the department may at any time enter a final jeopardy assessment pursuant to Code of Ala. 1975, § 40-29-91.

(c) *Time limitation for entering assessments.*

(1) Any preliminary assessment must be entered within five years from the due date of the return, or five years from the date the return is filed with the department, whichever is later, or if no return is required to be filed, within five years of the due date of the tax, except as follows:

a. A preliminary assessment may be entered at any time if no return is filed as required, or if a false or fraudulent return is filed with the intent to evade tax;

b. A preliminary assessment may be entered within six years from the due date of the return or six years from the date the return is filed with the department, whichever is later, if such return omits more than 25 percent of the amount of the taxable base stated in the return.

For purposes of this paragraph:

1. The term "taxable base" means the gross receipts and compensation or other amounts on which the tax paid with the return is computed; and

2. In determining the amount omitted from the taxable base, there shall not be taken into account any amount which is omitted from the taxable base stated in the return if the amount is disclosed in the return, or in a statement attached to the return, in a manner adequate to apprise the department of the nature and amount of the item.

(2) The department and the taxpayer may, prior to the expiration of the period for entering a preliminary assessment, agree in writing to extend the time provided for entering the assessment. The tax may be assessed at any time prior to the expiration of the period agreed upon. The period agreed upon may be extended by subsequent agreements in writing made before the expiration of the period previously agreed upon.

(3) Additional tax may be assessed by the department within any applicable period allowed above, even though a preliminary or final assessment has been previously entered by the department against the same taxpayer for the same or a portion of the same tax period.

(Ord. No. 97-184, § 1(art. I, § 11), 12-23-1997; Ord. No. 98-173, 11-10-1998; Ord. No. 98-107, § 1(11), 6-30-1998; Ord. No. 00-208, § 1, 12-12-2000)

Sec. 3A-2-12. Appeals.

(a) *Execution; information required.* Appeals from denial of refunds, jeopardy assessments, and final assessments shall be executed as provided in Code of Ala. 1975, § 6-3-11. A written notice of appeal shall be filed with department and shall contain information sufficient to:

(1) Identify the name of the taxpayer or other party filing such notice of appeal;

(2) Identify the specific matter appealed from;

(3) Outline the basis for such appeal; and

(4) Specify the relief sought.

(b) *Appeal from refund denial.*

(1) A taxpayer may appeal from the denial in whole or in part of a petition for refund

by filing a written notice of appeal with the circuit court within two years from the date the petition is denied. The circuit court shall hear the appeal according to its own rules and procedures and shall determine the correct amount of refund due, if any.

(2) If an appeal is not filed with the circuit court within two years of the date the petition is denied, then the appeal shall be dismissed for lack of jurisdiction.

(c) *Appeal from jeopardy assessment.*

(1) In any court proceeding to contest the jeopardy assessment or to enforce payment of the taxes made due and payable by virtue of the provisions of section 3A-2-11, the finding of the director of finance, made as herein provided, shall be for all purposes presumptive evidence of jeopardy.

(2) A final jeopardy assessment entered hereunder may be appealed to either the director of finance or the circuit court. On appeal to the circuit court or to the director of finance, the final jeopardy assessment shall be prima facie correct, and the burden of proof shall be on the taxpayer to prove such assessment is incorrect.

(3) If an appeal is not filed with the director of finance or in the circuit court within the time provided herein for appeals of final assessments, the appeal shall be dismissed for lack of jurisdiction.

(d) *Appeal from preliminary assessment.* Refer to section 3A-2-11(b)(1) and (2).

(e) *Appeal from final assessment.*

(1) A taxpayer may appeal from any final assessment entered by the department by filing a written notice of appeal with the director of finance within 30 days from the date of entry of the final assessment, and the appeal, if timely filed, shall proceed as herein provided.

(2) In lieu of the appeal under subsection (e)(1) of this section, at the option of the taxpayer, the taxpayer may appeal from any final assessment to the circuit court by filing written notice of appeal within 30 days, from the date of entry of the final assessment with both the director of finance and the circuit court. If the appeal is to the circuit court, the taxpayer must, also within the 30-day period, allowed for appeal, either: (i) pay the tax, interest, and any penalty shown on the final assessment; or (ii) file a supersedeas bond with the court in double the amount of the tax, interest, and any penalty shown on the final assessment. The supersedeas bond shall be executed by a surety company licensed and authorized to do business in the state and shall be conditioned to pay the assessment plus applicable penalty and any court costs relating to the appeal. A taxpayer may appeal a final assessment to circuit court as provided herein, even though the taxpayer has paid the tax in issue prior to taking the appeal.

(3) The filing of the written notice of appeal with the director of finance or in the case of appeals to the circuit court, the filing of the written notice of appeal with both the director of finance and the circuit court, and also the payment of the assessment in full and applicable interest and penalty or the filing of a bond as provided herein, are jurisdictional. If such prerequisites are not satisfied within the time provided for appeal, the appeal shall be dismissed for lack of jurisdiction. On appeal to the circuit court, or to the director of finance, the final assessment shall be prima facie correct, and the burden of proof shall be on the taxpayer to prove such assessment is incorrect.

(Ord. No. 97-184, § 1(art. I, § 12), 12-23-1997; Ord. No. 98-173, 11-10-1998; Ord. No. 98-107, § 1(12), 6-30-1998)

Sec. 3A-2-13. Penalties and interest.

(a) *Failure to timely file return.* If a taxpayer fails, neglects, or refuses to file any return required to be filed with the department on or

before the date prescribed therefor, determined with regard to any extension of time for filing granted by the director of finance, there shall be assessed, in addition to the tax due or the amount of tax herein required to be withheld/remitted, a penalty of ten percent of the amount due, or $50.00, whichever is greater, together with interest thereon at the rate of one percent per month or fraction thereof, from the date at which the tax herein levied became due and payable, such penalty and interest to be assessed and collected as part of the tax.

(b) *Failure to timely pay tax.* If a taxpayer fails, neglects, or refuses to pay to the department the amount of tax shown as due on a return required to be filed on or before the date prescribed for payment of the tax, determined with regard to any extension of time for payment granted by the director of finance, there shall be added:

(1) In addition to the tax due or the amount of tax herein required to be remitted;

(2) For any tax for which a monthly or quarterly return is required; or

(3) For which no return is required.

A penalty of ten percent of the unpaid amount shown as tax due on the return or the amount stated in the notice and demand, provided, however, that the minimum penalty imposed against such person or employer shall be $3.00, together with interest thereon at the rate of one percent per month or fraction thereof, from the date at which the tax herein levied became due and payable.

(c) *Underpayment of tax.* Any taxpayer failing to pay the tax herein levied to the city or any amount of tax herein required to be withheld and remitted to the city, within the time required by this chapter shall pay, in addition to the tax or the amount of tax herein required to be withheld and remitted, a penalty of ten percent of the amount due plus interest at the rate of one percent per month, or fraction thereof, from the date at which the tax or the amount of tax herein levied or required to be withheld and remitted became delinquent, that is, due and payable to the city; provided, however, that the minimum penalty imposed against such taxpayer shall be $3.00.

(d) *Underpayment due to negligence.* If any part of any underpayment of tax is due to negligence or disregard of rules or regulations, there shall be added to the tax an amount equal to ten percent of that part of the tax attributable to negligence or disregard of rules or regulations. For the purpose of this section, the term "negligence" includes any failure to make a reasonable attempt to comply with this chapter, and the term "disregard" includes any careless, reckless or intentional disregard. Provided, however, that the minimum penalty imposed against such person or employer shall be $3.00.

(e) *Underpayment due to fraud.* If any part of any underpayment of tax required to be shown on a return is due to fraud, there shall be added to the tax an amount equal to 50 percent of that portion of the underpayment which is attributable to fraud. For purposes of this section, the term "fraud" shall have the same meaning as ascribed to the term under Code of Ala. 1975, § 40-2A-11(d).

(f) *Frivolous appeal penalty.* If any appeal to the director of finance or the circuit court is determined to be frivolous or primarily for the purpose of delay or to impede collection of the tax imposed by this chapter, a penalty of $250.00 or 25 percent of the tax in question, whichever is greater, shall be assessed in addition to any tax due.

(g) *Penalties not exclusive.* The penalties provided in this section for failure to timely file a return, failure to timely pay tax, underpayment of tax, underpayment due to negligence and fraud, or filing a frivolous appeal, may be asserted against the same taxpayer for the same tax period.

(h) *Waiver of penalties.* Penalties may be waived, in whole or in part, by the director of finance upon a determination of reasonable cause. The term "reasonable cause" includes, but is not limited to, those instances in which the taxpayer has acted in good faith. The burden of proving reasonable cause shall be on the taxpayer.

(i) *Penalty and interest assessed as tax.* All penalties and interest levied or assessed against a taxpayer and which are administered by the department shall be assessed and collected in the same manner as taxes.

(j) *Interest.* Interest shall be computed at a rate of one percent per month or fraction thereof, and shall be added as provided herein to any tax or other amount due the department which is not paid by the due date. Interest on any delinquency or underpayment shall be charged from the due date of the tax.

(k) *Abatement of penalty.* The department shall abate any penalty attributable to erroneous written advice furnished to a taxpayer by an employee of the department. However, this subsection shall apply only if the department employee provided the written advice in good faith while acting in his or her official capacity, the written advice was reasonably relied on by the taxpayer and was in response to a specific written request of the taxpayer, and the penalty did not result from the taxpayer's failure to provide adequate or accurate information.

(l) *Penalty for failure to perform duties.* Any person required to collect, withhold, truthfully account for, and/or pay over any tax imposed by this chapter who willfully fails to collect or withhold such tax, or truthfully account for, and/or pay over such tax, or willfully attempts in any manner to evade or defeat any such tax or the payment thereof, shall in addition to the tax due and other penalties provided by law, be liable for a penalty up to the total amount of the tax evaded, or not collected, or not account for and paid over.

(Ord. No. 97-184, § 1(art. I, § 13), 12-23-1997; Ord. No. 98-173, 11-10-1998; Ord. No. 98-107, § 1(13), 6-30-1998; Ord. No. 00-208, § 1, 12-12-2000; Ord. No. 02-174, § 1, 12-10-2002)

Sec. 3A-2-14. Confidentiality of tax returns.

The confidentiality provisions imposed by this chapter shall be executed as provided herein.

(1) It shall be unlawful for any person to print, publish, or divulge, without the written permission or approval of the taxpayer, the tax return of any taxpayer or any part thereof or any information secured in arriving at the amount of tax or value reported for any purpose other than the proper administration of any matter administered by the department, or upon order of any court, or as otherwise allowed in this section. Statistical information pertaining to taxes may be disclosed at the discretion of the director of finance. The director of finance may make written or verbal disclosure upon request as to the status of compliance of the taxpayer relative to this chapter.

(2) A good standing certificate shall be issued to a requesting person with respect to a taxpayer if the taxpayer has filed all tax returns due and paid the taxes shown as payable in accordance with those returns.

(3) The director of finance shall promulgate reasonable regulations permitting and governing the exchange of tax returns, information, records, and other documents secured by the department, with tax officers of other agencies of the state, municipal, and county government agencies within the state, federal government agencies, any association of state government tax agencies of this state or other states, and any foreign government tax agencies; however:

a. Any tax returns, information, records, or other documents remain subject to the confidentiality provisions set forth in subsection (1) of this section;

b. The department may charge a reasonable fee for providing information or documents for the benefit of the requesting agencies; and

c. Any exchange shall be for one or more of the following purposes:

1. Collecting taxes due.

2. Ascertaining the amount of taxes due from any person.

3. Determining whether a person is liable for, or whether there

is probable cause for believing a person might be liable for the payment of any tax.

(4) Nothing herein shall prohibit the use of tax returns or tax information by the department in the enforcement, collection, and assessment of any tax levied or imposed by this chapter, or any other matters administered by the department. The department may also divulge to a purchaser or successor of a business or stock of goods the outstanding tax liability of the seller for which the purchaser or successor may be liable pursuant to section 3A-2-16. This section shall not preclude the inspection of returns by federal or foreign state agents pursuant to Code of Ala. 1975, § 40-18-53.

(5) Nothing herein shall prohibit the exchange of information between and among county or municipal governments subject to the restrictions of this section.

(6) In no event shall any damages, attorney fees, or court costs be assessed against the city or against its elected officials, officers, or employees under this section.

(Ord. No. 97-184, § 1(art. I, § 14), 12-23-1997; Ord. No. 98-173, 11-10-1998; Ord. No. 98-107, § 1(14), 6-30-1998; Ord. No. 00-208, § 1, 12-12-2000)

Sec. 3A-2-15. Regulations may be promulgated; payments due taxpayers may be withheld.

(a) *Regulations may be promulgated.*

(1) The director of finance shall from time to time promulgate rules and regulations for making returns and for ascertainment, assessment and remittance of the tax imposed hereunder as the director may deem necessary to enforce its provisions; and upon request shall furnish any taxpayer with a copy of such rules and regulations.

(2) The director of finance may prescribe, adopt, promulgate and enforce reasonable rules and regulations not in conflict with this chapter relating to any matter or thing pertaining to the administration and enforcement of the provisions of this chapter, including but not limited to provisions for the re-examination and correction of returns as to which overpayment or underpayment is claimed or found to have been made, and the rules and regulations so promulgated shall be binding upon all licensees and employers.

(3) The director of finance shall prescribe printed forms for use by persons subject to the provisions of this chapter and shall make such forms available at the director's office for use by such persons.

(b) *Payments due taxpayers may be withheld.* Pursuant to the Mayor-Council Act, article VI, section 6.04(o), Act No. 452-55, Acts of Alabama, the director of finance, in order to protect the interests of the city, is authorized to withhold the payment of any claim or demand for payment of monies due from the city to any vendor, contractor, consultant or other person having unpaid or delinquent tax or license liabilities until such unpaid tax, including applicable interest and penalties, shall first have been settled and adjusted. The director of finance shall notify the taxpayer by certified mail with return receipt requested, sent to the taxpayer's last known address, of the director's intention to make such levy, the effect of which shall be continuous from the date such levy is first made until the liability out of which such levy arose is satisfied.

(Ord. No. 97-184, § 1(art. I, § 15), 12-23-1997)

Sec. 3A-2-16. Purchaser to withhold taxes due from purchase money or be liable.

Any person liable for an amount of tax herein required to be remitted who shall sell out his or her business or stock of goods, or shall quit business, shall be required to make out a final return, as provided for under section 3A-2-5, and shall make payment of the taxes due within 30 days after the date he or she sold out his or her business, or stock of goods, or quit business, and his or her successor in business shall be required to withhold sufficient of the purchase money to cover the amount of said taxes due and unpaid

until such time as the former owner shall produce a receipt from the department showing that the taxes have been paid, or a certificate stating that no taxes are due. If the purchaser of a business or stock of goods shall fail to withhold purchase money as provided herein, and the taxes remain due and unpaid after said 30-day period, he or she shall be personally liable for the payment of the taxes accrued and unpaid on account of the operation of the business by the former owner. If in such cases the department deems it necessary in order to collect the taxes due, it may make a jeopardy assessment as provided in Code of Ala. 1975, title 40, ch. 29.
(Ord. No. 97-184, § 1(art. I, § 16), 12-23-1997; Ord. No. 98-173, 11-10-1998)

Sec. 3A-2-17. Disposition of funds derived from occupational license fees.

All monies derived from the occupational license fees levied under the provisions of this chapter shall be paid to the city and placed to the credit of the general fund of the city, and shall be used and expended as authorized by law and ordinance.
(Ord. No. 97-184, § 1(art. I, § 17), 12-23-1997; Ord. No. 98-173, 11-10-1998; Ord. No. 98-107, § 1(17), 6-30-1998)

Sec. 3A-2-18. Credit for occupational tax erroneously paid.

(a) *Taxes due the city which were erroneously paid to another municipality.*

(1) *Taxpayer requirement to request refund of erroneous tax payment within 60 days of notice to avoid interest, penalties.* In order to avoid the accrual of interest and any otherwise applicable penalties on the tax due the city, when an occupational tax owed to the city is erroneously paid to a different municipality or county in good faith, based on a reasonable interpretation of the enabling ordinance, resolution, or act levying or authorizing the tax, but not under a requirement of law, the taxpayer making the erroneous payment must comply with the applicable refund procedures of such municipality or county within 60 days of receiving notice from the city, a county, or other municipality or its agent of the erroneous payment.

(2) *Compliance with refund procedure; interest, penalties.* If the taxpayer complies with the refund procedure within the requisite 60-day period, the city shall not assess or attempt to assess the tax, or any related interest or otherwise applicable penalty thereon until the date of receipt of the overpayment from the refunding municipality or county by the taxpayer or the taxpayer's agent, and no interest or penalty thereon shall accrue until such date of receipt. The taxpayer shall remit the disputed tax to the city within 15 days after receipt.

(3) *Failure to comply with refund procedure; interest, penalties.* If the taxpayer fails to comply with the refund procedures within the requisite 60-day period, interest and any applicable penalties shall accrue on the tax to which the city is entitled from the 61st day and until such time as the tax is paid.

(b) *Taxes due to another municipality which were erroneously paid to the city.*

(1) *City's requirement to refund overpayment of erroneous tax payment within 60 days of compliance with refund procedures.* If an occupational tax owed to another municipality or county is erroneously paid to the city in good faith, based on a reasonable interpretation of the enabling ordinance, resolution, or act levying or authorizing the occupational tax, but not under a requirement of law, the city shall refund the overpaid tax, without interest, to the taxpayer within 60 days of the taxpayer's compliance with applicable refund procedures provided in section 3A-2-10.

(2) *Refund of excess tax; requirements.* Provided, however, that if the applicable rate of occupational tax imposed by the city exceeds the rate of occupational tax imposed by the proper locality under a requirement of law, the city shall not be

obligated to refund the difference unless the taxpayer properly files the applicable petition for refund, as in the case of direct petitions for refund as required by section 3A-2-10(a).

(Ord. No. 98-107, § 1(21), 6-30-1998)

Sec. 3A-2-19. Collection after assessment.

The tax herein levied may be collected by levy as provided in Code of Ala. 1975, § 40-29-51.

(1) *Length of period.* Where the assessment of any tax imposed by this chapter has been begun or made within the period of limitation properly applicable thereto, such tax may be collected by levy or by a proceeding in court, but only if the levy is made or the proceeding begun:

a. Within the period allowed by law after the final assessment of the tax; or

b. Prior to the expiration of any period for collection agreed upon in writing by the director of finance and the taxpayer before the expiration of such period allowed by law (or, if there is a release of levy under Code of Ala. 1975, § 40-29-34 after such period allowed by law, then before such release).

The period so agreed upon may be extended by subsequent agreements in writing made before the expiration of the period previously agreed upon. The period allowed by law as provided in this subsection during which a tax may be collected by levy shall not be extended or curtailed by reason of a judgment against the taxpayer.

(2) *Date when levy is considered made.* The date on which a levy on property or rights to property is made shall be the date on which the notice of seizure provided in Code of Ala. 1975, § 40-29-26, is given.

(Ord. No. 97-184, § 1(art. I, § 23), 12-23-1997)

Sec. 3A-2-20. Lien for taxes.

Pursuant to Code of Ala. 1975, §§ 40-29-20, 40-29-21, 40-29-23(e)(2) and 11-51-96, the provisions of this section shall apply to the taxes and/or any penalty or interest payable thereon, levied under this chapter.

(1) *Notice of lien.* If any person liable to pay the privilege or license tax herein levied, neglects or refuses to pay the same within 30 days of the final assessment, the amount (including any interest, additional amount, addition to tax, or assessable penalty together with filing fees and any other costs that may accrue in addition thereto) shall be a lien in favor of the city upon all property and rights to property, whether real or personal, tangible or intangible, used in any exhibition, trade, business, vocation, occupation or profession for which a privilege or license tax is or may be required. The department shall give a 30 day *"Notice of Intent to File Lien"* to the taxpayer by any one of the following methods:

a. Given in person;

b. Left at the dwelling or usual place of business of such person; or

c. Sent by certified mail with return receipt requested to the taxpayer's last known address.

(2) *Term.* Unless another date is specifically fixed by law, the lien imposed by subsection (1) of this section shall arise at the time of the final assessment, return therefor or the payment thereof, whichever is prior, was due to have been filed with or made to the department, and shall continue until the liability for the amount so assessed (or a judgment against the taxpayer arising out of such liability) is satisfied or becomes unenforceable by reason of lapse of time.

(3) *Right to enforce lien by attachment.* The department may enforce such lien in any court of competent jurisdiction, by attachment issued by any officer authorized to issue such writs, upon executing bond as

in other cases of attachment, and upon making affidavit that the attachment is not sued out for the purpose of vexing or harassing the defendant, and describing the property on which the lien is claimed and settling forth all the facts necessary to the creation of the lien and the amount due and unpaid (including any interest, additional amount, addition to tax, or assessable penalty together with filing fees and any other costs that may accrue in addition thereto).

(4) *Release of lien.* With respect to a lien described in this section, the director of finance shall within ten days release the lien when the liability out of which such lien arose is satisfied, and shall promptly notify the person upon whom such lien was made that such lien has been released.

(Ord. No. 97-184, § 1(art. I, § 24), 12-23-1997)

Sec. 3A-2-21. Collection by civil suit.

(Ord. No. 97-184, § 1(art. I, § 25), 12-23-1997)

Sec. 3A-2-22. Violator may be restrained from continuing in business.

Any taxpayer who shall violate any of the provisions of this chapter may be restrained from continuing in business, and proper prosecution shall be instituted in the name of the city until such person shall have complied with the provisions of this chapter.

(Ord. No. 97-184, § 1(art. I, § 26), 12-23-1997)

Each occurrence of failure to make such reports shall constitute a separate offense, and each refusal of a written demand of the department to examine, inspect or audit such records shall constitute a separate offense.

(c) *Violation of chapter.* Any person who shall fail, neglect, or refuse to perform any duty imposed by this chapter or other city ordinances, or any rule, regulation or law thereof, or who shall fail or neglect to do or perform any acts or series of act as required by this chapter or other city ordinances shall, upon conviction, be punished by a fine not exceeding $500.00 for each offense, and in addition may be imprisoned for a period not to exceed six months, or by both such fine and imprisonment, pursuant to section 1-1-6, as amended and as may be amended.

(d) *Fraudulent statement or failure to furnish statement to the department.* In addition to the criminal penalty provided by Code of Ala. 1975, §§ 40-29-113 and 40-29-114 any person required under this chapter to furnish a statement to the department who willfully furnishes a false statement or fraudulent statement, or who willfully fails to furnish a statement in the manner, at the time, and showing the information required shall for each such failure be subject to a penalty under this chapter of not less than $50.00 nor more than $500.00 for each offense, and in

Such requests shall be made in writing to the finance department, and shall contain all pertinent facts relating to the items in question.

(a) *Apportionment of gross receipts and compensation.* When gross receipts and compensation are earned by an employee and work is done or personal services rendered by such employee both within and without the city, the license fee shall be measured by the gross receipts and compensation earned as a result of work done or personal services rendered within the city. Employers shall multiply the total gross receipts and compensation of each said employee's earnings both within and without the city by a fraction whose numerator is the days spent working or rendering personal services in the city and whose denominator is the total days working or rendering personal services by the employee within and without the city and shall treat the result as the gross receipts and compensation subject to the license fee imposed by the city.

Such records shall be kept and maintained by each such employer for not less than five years subsequent to the date such compensation was earned.
(Ord. No. 97-184, § 1(art. II, § 4), 12-23-1997)

The licensed ophthalmologist shall be considered the ultimate consumer of the ophthalmic materials and shall have no responsibility or duty pursuant to this chapter for the collection of the city sales tax. The sale of the ophthalmic materials to a licensed ophthalmologist by a supplier thereof shall be considered a retail sale subject to the city sales tax, and the supplier shall be responsible for collecting sales tax from the licensed ophthalmologist. The term "supplier" includes, but is not limited to, optical laboratories, ophthalmic material wholesalers, or anyone selling ophthalmic materials to ophthalmologists (Code of Ala. 1975, § 40-23-1(d)).

Notwithstanding the above, the withdrawal, use, or consumption of a manufactured product by the manufacturer thereof in "quality control testing" performed by employees or independent contractors of the taxpayer, for purposes of this chapter, shall not be deemed or considered to constitute a transaction subject to sales tax, nor shall a gift by the manufacturer of a manufactured product, withdrawn from the manufacturer's inventory, to an entity listed in 26 USC 170(b) or (c), be considered a transaction subject to sales tax (Code of Ala. 1975, § 40-23-1(e)).

Sec. 3A-3-2. Property taxes; person liable; applicability; tax imposed-agricultural machinery and equipment.

(a) *Property taxed; person liable; applicability.* Pursuant to Code of Ala. 1975, § 40-23-2, there is hereby levied, in addition to all other taxes of every kind now imposed by law, and shall be collected as herein provided, a privilege or license tax against the person on account of the business activities and in the amount to be determined by the application of rates against gross sales, or gross receipts, as the case may be, as follows and which shall be collected as herein provided:

(1) *General rate.* Upon every person, firm or corporation, including the state, and its state alcoholic beverage control board in the sale of alcoholic beverages of all kinds, the University of Alabama, Auburn University and all other institutions of higher learning in the state, whether such institutions be denominational, state, county or municipal institutions, any association or other agency or instrumentality of such institutions engaged or continuing within this city in the business of selling at retail any tangible personal property whatsoever, including merchandise and commodities of every kind and character, (not including, however, bonds or other evidences of debts or stocks, nor sales of material and supplies to any person for use in fulfilling a contract for the painting, repair, or reconditioning of vessels, barges, ships and other watercraft and commercial fishing vessels of over five tons load displacement as registered with the U.S. Coast Guard and licensed by the state department of conservation and natural resources), an amount equal to four percent of the gross proceeds of sales of the business except where a different amount is expressly provided herein. Any person engaging or continuing in business as a retailer and wholesaler or jobber shall pay the tax required on the gross proceeds of retail sales of such business at the rates specified, when his or her books are kept so as to show separately the gross proceeds of sales of each business, and when his or her books are not so kept such person shall pay the tax as a retailer, on the gross sales of the business. Where any used part, including tires, of an automotive vehicle or truck, trailer, semitrailer or house trailer is taken in trade, or in a series of trades, as a credit or part payment on the sale of a new or rebuilt part or tire, the tax levied herein shall be paid on the net difference, that is, the price of the new or used part or tire sold less the credit for the used part or tire taken in trade; provided, however, this provision shall not be construed to include batteries.

(2) *Amusement/entertainment rate.* Upon every person, firm or corporation engaged, or continuing within this city, in the business of conducting, or operating places of amusement or entertainment, billiard and pool rooms, bowling alleys, amusement

devices, musical devices, theaters, opera houses, moving picture shows, vaudevilles, amusement parks, athletic contests, including wrestling matches, prize fights, boxing and wrestling exhibitions, football and baseball games, (including athletic contests conducted by or under the auspices of any educational institution within this state, or any athletic association thereof, or other association whether such institution or association be a denominational, a state, or county, or a municipal institution or association or a state, county, or city school, or other institution, association or school), skating rinks, race tracks, golf courses, or any other place at which any exhibition, display, amusement or entertainment is offered to the public or place or places where an admission fee is charged, including public bathing places, public dance halls of every kind and description within the city, an amount equal to four percent of the gross receipts of any such business; provided, however, notwithstanding any language to the contrary in the prior portion of this chapter, the tax provisions so specified shall not apply to any athletic event conducted by a public primary or secondary school or any football playoff conducted by or under the auspices of the Alabama High School Athletic Association. The tax amount which would have been collected pursuant to this subsection shall continue to be collected by the public primary or secondary school but shall be retained by the school which collected it and shall be used by the school for school purposes.

(3) *Machine rate.* Upon every person, firm or corporation engaged or continuing within this city in the business of selling at retail machines used in mining, quarrying, compounding, processing and manufacturing of tangible personal property, an amount equal to two percent of the gross proceeds of the sale of such machines. The term "machine," as herein used, includes machinery which is used for mining, quarrying, compounding, processing or manufacturing tangible personal property, and the parts of such machines, attachments and replacements therefore, which are made or manufactured for use on or in the operations of such machines and which are necessary to the operation of such machines and are customarily so used.

(4) *Automotive rate.* Upon every person, firm or corporation engaged or continuing within this city in the business of selling at retail any automotive vehicle or truck trailer, semitrailer or house trailer, or mobile home set-up materials and supplies including but not limited to steps, blocks, anchoring, cable pipes, and any other materials pertaining thereto, an amount equal to two percent of the gross proceeds of sale of said automotive vehicle or truck trailer, semitrailer or house trailer, or mobile home setup materials and supplies; provided, however, where a person subject to the tax provided for in this subsection withdraws from such person's stock-in-trade any automotive vehicle or truck trailer, semitrailer or house trailer for use by such person's or by such person's employee or agent in the operation of such business, there shall be paid, in lieu of the tax levied herein, a fee of $5.00 per year or part thereof during which such automotive vehicle, truck trailer, semitrailer or house trailer shall remain the property of the person. Each such year or part thereof shall begin with the day or anniversary date, as the case may be of such withdrawal and shall run for the 12 succeeding months or parts thereof during which such automotive vehicle, truck trailer, semitrailer or house trailer shall remain the property of such person. Where any used automobile vehicle or truck trailer, semitrailer or house trailer is taken in trade or in a series of trades, as a credit or part payment on the sale of a new or used vehicle, the tax levied herein shall be paid on the net difference, that is, the price of the new or used vehicle sold less the credit for the used vehicle taken in trade. Sales of automobiles, motorcycles, trucks, truck trailers, or semitrailers that will be registered or titled outside of the state

that are exported or removed from the state within 72 hours by the purchaser or his or her agent for first use outside of the state are not subject to municipal sales tax. Sales of other vehicles such as mobile homes, motor bikes, all terrain vehicles, and boats do not qualify for the export exemption provision and are taxable unless the dealer can provide factual evidence that the vehicle was delivered outside of the state or to a common carrier for transportation outside of the state. In order for the sale to be exempt from municipal sales tax, the information relative to the exempt sale shall be documented on forms approved by the director of finance.

(5) *Vending machine rate.* Upon every person, firm or corporation engaged or continuing within this city in the business of selling through coin operated dispensing machines, food and food products for human consumption, not including beverages other than coffee, milk, milk products and substitutes therefor, there is hereby levied a tax equal to four percent of the cost of such food, food products and beverages sold through such machines, which cost for the purpose of this subsection shall be the gross proceeds of sales of such business.

(b) *Agricultural machinery and equipment; tax imposed; rate.* There is hereby levied, pursuant to Code of Ala. 1975, § 40-23-37, a sales tax, upon every person, firm or corporation engaged or continuing within this city in the business of selling at retail any machine, machinery, or equipment which is used in planting, cultivating, and harvesting farm products, or used in connection with the production of agricultural produce or products, livestock, or poultry on farms, and the parts of such machines, machinery, or equipment, attachments and replacements therefore which are made or manufactured for use on or in the operation of such machine, machinery, or equipment, and which are necessary to and customarily used in the operation of such machine, machinery, or equipment, an amount equal to two percent of the gross proceeds of the sale thereof; provided, however, the two percent rate herein prescribed with respect to parts, attachments, and replacements shall not apply to any automotive vehicle or trailer designed primarily for public highway use, except farm trailers used primarily in the production and harvesting of agricultural commodities. Where any used machine, machinery, or equipment which is used in planting, cultivating, and harvesting farm products, or used in connection with the production of agricultural produce or products, livestock, and poultry on farms is taken in trade or in a series of trades as a credit or part payment on a sale of a new or used machine, machinery, or equipment, the tax levied herein shall be paid on the net difference, that is, the price of the new or used machine, machinery or equipment sold, less the credit for the used machine, machinery or equipment taken in trade.

ing of the information required on the return, nor the timely payment of the tax.

(3) *Tax return filing elections.*

a. *Election to file quarterly; requirements.*

1. If the total amount of taxable sales for which any person is liable under this chapter does not exceed $5,000.00 per month during the preceding calendar year, or, if the total tax liability due to the state for such sales during such period averages less than $200.00 per month during the preceding calendar year, a quarterly return and remittance in lieu of the monthly returns may be made, by election of the taxpayer to the department, on or before the 20th day of the month next succeeding the end of the quarter for which the tax is due, and under such rules and regulations as may be prescribed in Code of Ala. 1975, § 40-23-7.

2. In order to file quarterly, the election shall be made in writing no later than February 20 of each year and shall be filed with the department. If such election is not timely made and in accordance with the provisions of this subsection, returns shall be due monthly as provided for in this section.

In order to file yearly, the election shall be made in writing and shall be filed with the department. If such election is not timely made and in accordance with the provisions of this subsection, returns shall be due monthly as provided for in this section.

(4) *Timely mailing treated as timely filing and paying.* The provisions outlined in this section for the timely filing of any returns, payments, claims, statements or other documents shall be administered as herein provided.

a. *Date of delivery.* If any return, claim, statement, or other document required to be filed, or any payment required to be made, within a prescribed period or on or before a prescribed date under the authority of any provision of this chapter is, after such period or such date, delivered by United States mail to the finance department or to the department's designated depository where such return, claim, statement, or other document is required to be filed, or to which such payment is required to be made, the date of the United States postmark stamped on the cover in which such return, claim, statement, or other document, or payment, is mailed shall be deemed to be the date of delivery or the date of payment, as the case may be; provided, however:

1. *Weekends and holidays.* When the due date falls on a Saturday, Sunday or city holiday, payment of the tax may be made without penalty on the first working day following the due date.

c. *Untimely filing.* Any return, claim, statement, or other document, or payment not received in accordance with the provisions of this section shall be deemed untimely filed and shall be assessed applicable penalties and interest as prescribed by the relevant sections of this chapter.

(5) *Bulk submissions.* The department may accept, for reporting and payment of taxes due the city, bulk submissions of reports, and under regulations promulgated by the department, payments owed to the city made on behalf of the taxpayer by its properly authorized representative where such submissions are made using the appropriate form prescribed by the department, as provided in Code of Ala. 1975, § 11-51-210(d). Any such bulk submissions of reports and payments shall include:

a. The city's assigned taxpayer identification number for each such taxpayer for each tax paid; and

b. Sufficiently detailed information by which each taxpayer can be identified such that a determination can be made as to the amount and method of assessment of tax against such taxpayer for the city.

The acceptance by the city of such bulk submissions shall not relieve the taxpayer on whose behalf such submissions were made from liability for any sales tax arising from an error or omission made by the taxpayer's representative. Such bulk submission shall be signed by the taxpayer or its properly authorized representative.

(6) *Returns to be filed even though no tax may be due.* Where a return is required to be filed pursuant to a provision of this chapter, such returns shall be filed in accordance with the provisions outlined herein, provided that, a return should be filed for each reporting period, by the due date required, even when no tax is due.

In accordance with Code of Ala. 1975, § 40-23-7, the director of finance, at his or her discretion, for reasonable cause, may extend the time for making any return required under the provisions of this chapter, however, the time for filing any such return shall not be extended for a period greater than 30 days from the date such return is due to be made and shall not prevent penalty and interest from accruing during the period of such extension.

(Ord. No. 97-185, § 6, 12-23-1997)

Sec. 3A-3-7. Credit sales.

Pursuant to Code of Ala. 1975, § 40-23-8, any person taxable under this chapter having cash and credit sales may report such cash sales, and the taxpayer shall thereafter include in each monthly report all credit collections made during the month preceding, and shall pay the taxes due thereon at the time of filing such report, but in no event shall the gross proceeds of credit sales be

(Ord. No. 97-185, § 7, 12-23-1997)

Sec. 3A-3-8. Oaths.

As provided in Code of Ala. 1975, § 40-23-10, the monthly reports herein required to be made are not required to be made under oath, but wherever in this chapter any report is required to be sworn to, the same shall be sworn to by the taxpayer or his agent before some officer authorized to administer oaths, and any false statement to a material fact made with intent to defraud shall constitute perjury, and upon conviction thereof, the person so convicted shall be punished as provided in section 1-1-6, as amended and as it may be amended.
(Ord. No. 97-185, § 8, 12-23-1997)

Sec. 3A-3-9. Maintenance of records; investigative powers; audit and subpoena authority.

The provisions of this section shall be administered in accordance with the procedures set forth in Code of Ala. 1975, §§ 40-23-9 and 40-2A-7(a).

(1) *Records to be kept.* It shall be the duty of every person engaging, or continuing, in this city in any business for which a privilege tax is imposed by this chapter to keep and preserve an accurate and complete set of records of the gross sales, gross proceeds of sales and gross receipts or gross receipts of sales of such business and such other books or accounts as may be necessary to allow the department to determine the correct amount of tax for which he or she is liable, or other records or information as may be necessary for the proper administration of any matters, under the provisions of this chapter. It shall also be the duty of every person to keep and preserve, for a period of not less than five years from the due date of the return on which the underlying tax is required to be reported, or five years of the date the return is filed, whichever is later, all invoices of goods, wares and merchandise purchased, for resale or otherwise, and all such receipts, books, invoices and other records shall be open for examination by the department, upon request, at a reasonable time and location.

a. *Reasonable time and reasonable location.* For the purposes of this section, reasonable time shall be considered to be during normal business hours of the department. Reasonable location shall be considered to be the taxpayer's place of business or the offices of the taxpayer's authorized representative, provided such business or representative is located within a 50-mile radius of the city. Taxpayers maintaining records outside of this radius must make records available at city hall or at such other location as agreed upon by the department. The department, when conducting an audit, review or examination for verification, may, at its election, require any taxpayer conducting business within the city to provide records, accounts, books, papers and other documents at a reasonable time and reasonable place agreed upon by the department, as provided herein.

b. *Taxpayer may be assessed reasonable costs.* As provided in Code of Ala. 1975, § 40-2A-6(d), the department may assess and collect from the taxpayer, the reasonable costs, based on the then current state government employee per diem rates incurred by, or charged to, the city in connection with performing an examination of the taxpayer's books and records if the taxpayer received notice by certified U.S. mail, return receipt requested, at least 30 days prior to the date on which the examination was to commence, and:

1. The taxpayer either failed or refused to respond or did not

propose a reasonable alternative date on which the examination was to commence within 15 days of receipt of notice of the pending examination; or

2. The taxpayer and the department agreed in writing as to an alternative date on which the examination was to commence but the taxpayer then failed or refused to permit reasonable access to its books and records on the alternative date.

c. *Selling at wholesale and retail.* Any person selling both at wholesale and retail shall keep his or her books so as to show separately the gross proceeds of wholesale sales and the gross proceeds of retail sales. All sales shall be subject to tax in the absence of such separate records.

(2) *Investigative powers.* Each taxpayer shall give to the director of finance the means, facilities and opportunity for the making of such audit, examination, and investigation of the records, books, or other relevant information maintained by any taxpayer or other person for the purpose of computing and determining the correct amount of value or the correct amount of tax as provided for in subsection (1) of this section. The director of finance is hereby authorized to examine any person under oath concerning any gross receipts which were or should have been shown in a return, and to this end, he or she may compel the production of books, papers, records and the attendance of all persons before him or her, whether as parties or as witnesses, whom he or she believes to have knowledge of such gross receipts. Any taxpayer, or officer of a corporation or association, or partner of a partnership, or fiduciary of a trust, or responsible individual of any entity under a duty to maintain books and records pursuant to this chapter, who fails or refuses to maintain or provide such records and books, or permit inspection, as required herein, shall be subject to the provisions of section 3A-3-11, and shall be subject to contempt proceedings in the circuit court.

(3) *Audit and subpoena authority; additional requirements.* Code of Ala. 1975, § 40-2A-7(a), outlines further requirements for the maintenance of records, in addition to the recordkeeping requirements set out in subsection (1) of this section. Sec. 3A-3-10. Refunds.

(a) *Petitions for refund.*

(1) Any taxpayer may file a petition for refund with the department for any overpayment of tax erroneously paid to the department as provided in Code of Ala. 1975, § 40-2A-7(c)(1). If a final assessment for the tax has been entered by the department, a petition for refund of all or a portion of the tax may be filed only if the final assessment plus applicable interest has been paid in full prior to or with the filing of the petition for refund.

(2) The petition for refund must be filed in writing jointly by the taxpayer who collected and paid over the tax to the department and the purchaser who paid the tax to the taxpayer. However, a direct petition may be filed in writing by the taxpayer if the taxpayer never collected the tax from the consumer/purchaser, or if the tax has been credited or repaid to the consumer/purchaser by the taxpayer.

(3) Unless otherwise provided by law, all petitions for refund shall include sufficient information to identify the type and amount of tax overpaid, the taxpayer, the period included, and the reasons for the refund. Such petition shall be accompanied with sufficient supporting documentation as the department may deem necessary and proper.

(b) *Refund overpayments applied to other taxes.* Refund overpayments may be applied to other taxes as provided in Code of Ala. 1975, § 40-2A-7(c)(4). If a petition is granted by the department, or a court determines that a refund is due, the overpayment shall be refunded to the taxpayer by the department. If the department determines that a refund is due, the amount of overpayment may first be credited by the department against any outstanding final tax liabilities due and owing by the taxpayer to the department, and the balance of any overpayment shall be refunded to the taxpayer. If any refund or part thereof is credited to any other tax by the department, the department shall provide a written detailed statement to the taxpayer showing the amount of overpayment, the amount credited for payment to other taxes, and the amount refunded.

(c) *Time limitations.*

(1) A petition for refund must be filed in writing with the department within:

a. Three years from the date the return was filed;

b. Two years from the date of payment of the tax, whichever is later; or

c. If no return was timely filed, two years from the date of the payment of the tax.

(2) The department shall either grant or deny a petition for refund within six months from the date the petition is filed, unless the period is extended by written agreement of the taxpayer and the department. The taxpayer shall be notified of the department's decision concerning the petition for refund by first class United States mail, or by certified mail with return receipt requested, sent to the taxpayer's last known address. If the department is unable to grant a refund within the time provided herein due to the taxpayer's failure to provide adequate documentation, the petition for refund shall be deemed to be denied.

(3) The department and the taxpayer may, prior to the expiration of the period for the filing of a petition for refund, agree in writing to extend the time provided for filing the petition. The petition for refund may be filed at any time prior to the expiration of the period agreed upon. The period agreed upon may be extended by subsequent agreements in writing made before the expiration of the period previously agreed upon.

(d) *Interest on refunds.* On any overpayment of any sales tax levied under any provisions of this chapter, the city, in addition to the amount of the overpayment, shall refund interest thereon at the rate of one percent per month, or fraction thereof, from the date of such overpayment on any refund of tax erroneously paid. As provided in Code of Ala. 1975, § 11-51-208(f), references in this subsection to erroneously paid taxes on which interest shall be due to the taxpayer shall only mean and refer to taxes erroneously paid to the city as a result of any error, omission, or inaccurate written advice by or on behalf of the city, including in connection with a prior examination of its books and records by the city.

(e) *Assignment of refunds.* The right of any person to a refund under this section is not assignable. A petition for a refund must be made by the person who withheld and remitted the tax.

(f) *Action for recovery of refund.* It is unlawful for any petitioner for a tax refund to make a false statement in connection with such application. If any person obtains a refund unlawfully, the director of finance is empowered and directed to bring appropriate action for recovery of such refund. A conviction for the violation of this subsection shall constitute prima facie evidence that all refunds received by such person pursuant to the petition which contained the false

statement were obtained unlawfully. Obtaining a refund unlawfully shall be an act of fraud against the city and shall be subject to applicable penalties outlined in section 3A-3-13.
(Ord. No. 97-185, § 10, 12-23-1997; Ord. No. 98-108, § 1(10), 6-30-1998; Ord. No. 02-175, § 1(10), 12-10-2002; Ord. No. 07-234, § 1(10), 12-18-2007)

Sec. 3A-3-11. Jeopardy, preliminary, final assessments and time limitations.

(a) *Jeopardy assessments.* All jeopardy assessments issued by the department shall be executed pursuant to Code of Ala. 1975, § 40-29-91(a), (b) and (c).

(1) If the director of finance finds a person liable for tax under any provisions of this chapter designs quickly to depart from the city or to remove his or her property therein, or to conceal himself or herself or his or her property therein, or to do any other act tending to prejudice or to render wholly or partly ineffectual proceedings to collect any tax imposed by this chapter, the director of finance may issue notice of such finding to the taxpayer by personal service or mailing to the taxpayer's last known address, together with a demand for immediate payment of the tax declared to be in jeopardy, including penalties and additions thereto and such tax, penalty, interest, and additions thereto shall be immediately due and payable. A final assessment of such tax may be entered immediately and if the assessment is not paid upon such demand of the director, the director may forthwith issue a warrant for levy and distraint of any personal property of the taxpayer which shall be collected in the same manner and with like effect as provided under section 3A-2-20.

(2) In the case of a tax for a current period, the director may declare the taxable period of the taxpayer immediately terminated and may at his or her discretion estimate the tax liability based upon the best information obtainable. Notice of such finding and declaration shall be issued to the taxpayer in the same manner as in subsection (a)(1) of this section.

(3) When a jeopardy assessment has been made as provided in this subsection (a), the collection of all or any part of such assessment may be stayed by filing with the director an approved bond conditioned upon the payment of the assessment together with applicable interest and costs of collection. The director shall have sole discretion to approve or disapprove the bond, but such approval shall not be unreasonably withheld.

(b) *Preliminary and final assessments.* All preliminary and final assessments issued by the department shall be executed as provided in Code of Ala. 1975, § 40-2A-7(b)(1)a and b, (b)(3) and (b)(4) and Code of Ala. 1975, § 40-29-91. The terms "preliminary assessment" and "final assessments" shall have the respective meanings ascribed by Code of Ala. 1975, § 40-2A-3.

(1) *Entry of preliminary assessment.* If the department determines that the amount of any tax as reported on a return is incorrect, or if no return is filed, or if the department is required to determine value, the department may calculate the correct tax or value based on the most accurate and complete information reasonable obtainable by the department. The department may thereafter enter a preliminary assessment for the correct tax or value, including any applicable penalty and interest.

(2) *Service of preliminary assessment upon taxpayer; appeal; review.* The preliminary assessment entered by the department, or a copy thereof, shall be promptly mailed by the department to the taxpayer's last known address by either first class U.S. mail or certified mail with return receipt requested, but at the option of the department, the preliminary assessment may be delivered to the taxpayer by personal delivery. In the case of any preliminary assessment or jeopardy assessment entered under the provisions

of this chapter, the department shall notify the taxpayer by certified mail with return receipt requested to the taxpayer's last known address, or written notice delivered by the department's authorized agent, of the amount of such assessment, and shall notify the taxpayer to appear before the city council on a day named not less than 30 days from the date of such notice and show cause why such assessment should not be made final. Such appearance may be made by the taxpayer or his or her duly authorized agent. If no showing is made on or before the date fixed in such notice, or if such showing is not sufficient in the judgment of the city council, such assessment shall be made final in the amount originally fixed or in such other amount as is determined by the city council to be correct. If upon such hearing the city council finds the amount due to be different from that originally assessed, it shall make the assessment final in the correct amount and in all cases shall notify the taxpayer of the assessment as finally fixed, by certified mail with return receipt requested addressed to the taxpayer's last known address. On appeal to the city council, the final assessment shall be prima facie correct, and the burden of proof shall be on the taxpayer to prove such assessment is incorrect.

(3) *Service of final assessment upon taxpayer.* The final assessment entered by the department, or a copy thereof, shall be mailed by the department to the taxpayer's last known address by certified mail return with receipt requested. At the option of the department, the final assessment, or a copy thereof, may be delivered to the taxpayer by personal delivery.

(4) *Undisputed preliminary assessments.* Where the amount of tax or value reported on a return is undisputed by the department, or the taxpayer consents in writing to the department's determination of the amount of any deficiency, determination of value, or preliminary assessment as provided by this chapter, the department may immediately enter a final assessment for the amount of the tax or value, plus applicable penalty and interest; provided, the department may at any time enter a final jeopardy assessment, pursuant to Code of Ala. 1975, § 40-29-91.

(c) *Time limitation for entering assessments.*

(1) Pursuant to Code of Ala. 1975, § 40-2A-7(b)(2), any preliminary assessment must be entered within three years from the due date of the return, or three years from the date the return is filed with the department, whichever is later, or if no return is required to be filed, within three years of the due date of the tax, except as follows:

a. A preliminary assessment may be entered at any time if no return is filed as required, or if a false or fraudulent return is filed with the intent to evade tax;

b. A preliminary assessment may be entered within six years from the due date of the return or six years from the date the return is filed with the department, whichever is later, if the taxpayer omits from the taxable base an amount properly includable therein which is in excess of 25 percent of the amount of the taxable base stated in the return.

For purposes of this paragraph:

1. The term "taxable base" means the gross proceeds from sales, gross receipts, or other amounts on which the tax paid with the return is computed; and

2. In determining the amount omitted from the taxable base, there shall not be taken into account any amount which is omitted from the taxable base stated in the return if the amount is disclosed in the return, or in a statement attached to the return, in a

manner adequate to apprise the department of the nature and amount of the item.

c. A preliminary assessment entered pursuant to Code of Ala. 1975, §§ 40-29-72 and 40-29-73, may be entered within five years from the due date of the return on which the underlying tax is required to be reported or within five years of the date the return is filed, whichever is later.

(2) The department and the taxpayer may, prior to the expiration of the period for entering a preliminary assessment, agree in writing to extend the time provided for entering the assessment. The tax may be assessed at any time prior to the expiration of the period agreed upon. The period agreed upon may be extended by subsequent agreements in writing made before the expiration of the period previously agreed upon.

(3) Additional tax may be assessed by the department within any applicable period allowed above, even though a preliminary or final assessment has been previously entered by the department against the same taxpayer for the same or a portion of the same tax period.

(Ord. No. 97-185, § 11, 12-23-1997; Ord. No. 98-108, § 1(11), 6-30-1998)

Sec. 3A-3-12. Appeals.

(a) *Execution; information required.* Appeals from denial of refunds, jeopardy assessments, and final assessments shall be executed as provided in Code of Ala. 1975, § 6-3-11. A written notice of appeal shall be filed with the department and shall contain information sufficient to:

(1) Identify the name of the taxpayer or other party filing such notice of appeal;

(2) Identify the specific matter appealed from;

(3) Outline the basis for such appeal; and

(4) Specify the relief sought.

(b) *Appeal from refund denial.*

(1) A taxpayer may appeal from the denial in whole or in part of a petition for refund by filing a written notice of appeal with the circuit court within two years from the date the petition is denied. The circuit court shall hear the appeal according to its own rules and procedures and shall determine the correct amount of refund due, if any.

(2) If an appeal is not filed with the circuit court within two years of the date the petition is denied, then the appeal shall be dismissed for lack of jurisdiction.

(c) *Appeal from jeopardy assessment.*

(1) In any court proceeding to contest the jeopardy assessment or to enforce payment of the taxes made due and payable by virtue of the provisions of section 3A-3-11, the finding of the director of finance, made as herein provided, shall be for all purposes presumptive evidence of jeopardy.

(2) A final jeopardy assessment entered hereunder may be appealed to the circuit court. On appeal to the circuit court, the final jeopardy assessment shall be prima facie correct, and the burden of proof shall be on the taxpayer to prove such assessment is incorrect.

(3) If an appeal is not filed with the circuit court within the time provided herein for appeal of final assessments, the appeal shall be dismissed for lack of jurisdiction.

(d) *Appeal from preliminary assessment.* (Refer to section 3A-3-11(b)(2).)

(e) *Appeal from final assessment.*

(1) A taxpayer may appeal from any final assessment entered by the department by filing a written notice of appeal with the director of finance within 30 days from the date of entry of the final assessment, and the appeal, if timely filed, shall proceed as herein provided.

(2) The taxpayer may appeal from any final assessment to the circuit court by filing

written notice of appeal within 30 days, from the date of entry of the final assessment with the circuit court. If the appeal is to the circuit court, the taxpayer must, also within the 30-day period, allowed for appeal, either: (i) pay the tax, interest, and any penalty shown on the final assessment; or (ii) file a supersedeas bond with the court in double the amount of the tax, interest, and any penalty shown on the final assessment. The supersedeas bond shall be executed by a surety company licensed and authorized to do business in the state and shall be conditioned to pay the assessment plus applicable interest, penalty and any court costs relating to the appeal. A taxpayer may appeal a final assessment to Circuit Court as provided herein, even though the taxpayer has paid the tax in issue prior to taking the appeal.

(3) The filing of the notice of appeal to the circuit court and also the payment of the assessment in full and applicable interest and penalty or the filing of a bond as provided herein, are jurisdictional. If such prerequisites are not satisfied within the time provided for appeal, the appeal shall be dismissed for lack of jurisdiction. On appeal to the circuit court the final assessment shall be prima facie correct, and the burden of proof shall be on the taxpayer to prove such assessment is incorrect.

(Ord. No. 97-185, § 12, 12-23-1997; Ord. No. 98-108, § 1(12), 6-30-1998)

Sec. 3A-3-13. Penalties and interest.

The provisions for penalties are pursuant to Code of Ala. 1975, § 40-2A-11; provided, however, the rates and amounts of penalties are as provided herein.

(1) *Failure to timely file return.* If a person fails, neglects, or refuses to file any return required to be filed with the department on or before the date prescribed therefor, determined with regard to any extension of time for filing granted by the director of finance, there shall be assessed, in addition to the tax due or the amount of tax herein required to be collected and/or remitted, a penalty of ten percent of the amount due or $50.00, whichever is greater, together with interest thereon at the rate of one percent per month, or fraction thereof, from the date at which the tax herein levied became due and payable, such penalty and interest to be assessed and collected as part of the tax as provided in Code of Ala. 1975, § 40-2A-11(a).

(2) *Failure to timely pay tax.* If a person fails, neglects, or refuses to pay to the department the amount of tax shown as due on a return required to be filed on or before the date prescribed for payment of the tax, determined with regard to any extension of time granted for payment by the director of finance, there shall be added:

a. In addition to the tax due or the amount of tax herein required to be collected and/or remitted;

b. For any tax which a monthly or quarterly return is required; or

c. For which no return is required;

a penalty of ten percent of the unpaid amount shown as tax due on the return or the amount stated in the notice and demand, together with interest thereon at the rate of one percent per month, or fraction thereof, from the date at which the tax herein levied became due and payable as provided in Code of Ala. 1975, § 40-2A-11(b).

(3) *Underpayment of tax.* Any person failing to pay the tax herein levied to the city or any amount of tax herein required to be collected and paid to the city, within the time required by this chapter, shall pay, in addition to the tax or the amount of tax herein required to be collected and/or remitted, a penalty of ten percent of the amount of tax due, plus interest at the rate of one percent per month, or fraction thereof, from the date at which the tax or the amount of tax herein levied became

due and payable, such penalty and interest to be assessed and collected as part of the tax.

(4) *Underpayment due to negligence.* If any part of any underpayment of tax is due to negligence or disregard of rules or regulations, there shall be added to the tax an amount equal to ten percent of that part of the tax attributable to negligence or disregard of rules and regulations. For the purpose of this section, the term "negligence" includes any failure to make a reasonable attempt to comply with this chapter, and the term "disregard" includes any careless, reckless or intentional disregard as provided in Code of Ala. 1975, § 40-2A-11(c).

(5) *Underpayment due to fraud.* If any part of any underpayment of tax required to be shown on a return is due to fraud, there shall be added to the tax an amount equal to 50 percent of that portion of the underpayment which is attributable to fraud. For purposes of this section, the term "fraud" shall have the same meaning as ascribed to the term under Code of Ala. 1975, § 40-2A-11(d).

(6) *Frivolous appeal penalty.* If any appeal to the director of finance or to circuit court is determined to be frivolous or primarily for the purpose of delay or to impede collection of the tax imposed by this chapter, a penalty of $250.00 or 25 percent of the tax in question, whichever is greater, shall be assessed in addition to any tax due as provided in Code of Ala. 1975, § 40-2A-11(f).

(7) *Penalties not exclusive.* The penalties provided in this section for failure to timely file a return, failure to timely pay tax, underpayment of taxes, underpayment due to negligence, or filing a frivolous appeal may be asserted against the same taxpayer for the same tax period as provided in Code of Ala. 1975, § 40-2A-11(g). If the fraud penalty is asserted, no other penalties shall be asserted.

(8) *Waiver of penalties.* Penalties may be waived, in whole or in part, by the director of finance upon a determination of reasonable cause, pursuant to Code of Ala. 1975, § 40-2A-11(h). Reasonable cause shall include, but not be limited to, those instances in which the taxpayer has acted in good faith. The burden of proving reasonable cause shall be on the taxpayer.

(9) *Penalty and interest assessed as tax.* All penalties and interest, levied or assessed against a taxpayer and which are administered by the department shall be assessed and collected in the same manner as taxes. (See Code of Ala. 1975, §§ 40-2A-11(i) and 40-29-72.)

(10) *Interest.* Interest shall be computed at rate of one percent per month or fraction thereof, and shall be added as provided herein to any tax or other amount due the department which is not paid by the due date. Interest on any delinquency or underpayment shall be charged from the due date of the tax, as provided in Code of Ala. 1975, § 40-1-44.

(11) *Abatement of penalty.* The department shall abate any penalty attributable to erroneous written advice furnished to a taxpayer by an employee of the department. However, this subsection shall apply only if the department employee provided the written advice in good faith while acting in his official capacity, the written advice was reasonably relied on by the taxpayer and was in response to a specific written request of the taxpayer, and the penalty did not result from the taxpayer's failure to provide adequate or accurate information.

(12) *Penalty for failure to perform duties.* Any person required to collect, truthfully account for, and/or pay over any tax imposed by this chapter who willfully fails to collect such tax, or truthfully account for, and/or pay over such tax, or willfully attempts in any manner to evade or defeat any such tax or the payment

thereof, shall, in addition to other penalties provided by law, be liable for a

penalty up to the total amount of the tax evaded, or not collected, or not accounted for and paid over.

(Ord. No. 97-185, § 13, 12-23-1997; Ord. No. 98-108, § 1(13), 6-30-1998; Ord. No. 98-181, § 1(13), 11-17-1998; Ord. No. 00-209, § 1(13), 12-12-2000)

Sec. 3A-3-14. Confidentiality of tax returns.

The confidentiality provisions imposed by this Code shall be executed as provided in Code of Ala. 1975, § 40-2A-10(a), (d), (e), (f) and (g).

(1) It shall be unlawful for any person to print, publish, or divulge, without the written permission or approval of the taxpayer, the tax return of any taxpayer or any part thereof or any information secured in arriving at the amount of tax or value reported for any purpose other than the proper administration of any matter administered by the department, or upon order of any court, or as otherwise allowed in this section. Statistical information pertaining to taxes may be disclosed at the discretion of the director of finance. The director of finance may make written or verbal disclosure upon request as to the status of compliance of the taxpayer relative to this Code.

(2) A good standing certificate shall be issued to a requesting person with respect to a taxpayer, if the taxpayer has filed all tax returns due, and paid the taxes shown as payable in accordance with those returns.

(3) The director of finance shall promulgate reasonable regulations permitting and governing the exchange of tax returns, information, records, and other documents secured by the department, with tax officers of other agencies of the state, municipal, and county government agencies within the state, federal government agencies, any association of state government tax agencies of the state or other states, and any foreign government tax agencies, however:

a. Any tax returns, information, records, or other documents remain subject to the confidentiality provisions set forth in subsection (1) of this section;

b. The department may charge a reasonable fee for providing information or documents for the benefit of the requesting agencies; and

c. Any exchange shall be for one or more of the following purposes:

1. Collecting taxes due.

2. Ascertaining the amount of taxes due from any person.

3. Determining whether a person is liable for, or whether there is probable cause for believing a person might be liable for the payment of any tax.

(4) Nothing herein shall prohibit the use of tax returns or tax information by the department in the enforcement, collection, and assessment of any tax levied or imposed by this Code, or any other matters administered by the department. The department may also divulge to a purchaser or successor of a business or stock of goods the outstanding taxes of which the purchaser or successor may be liable pursuant to Code of Ala. 1975, § 40-23-25. This section shall not preclude the inspection of returns by federal or foreign state agents pursuant to Code of Ala. 1975, § 40-18-53.

(5) Nothing herein shall prohibit the exchange of information between and among county or municipal governments subject to the restrictions of this section.

(6) In no event shall any damages, attorney fees, or court costs be assessed against the city or against its elected officials, officers, or employees under this section.

(Ord. No. 97-185, § 14, 12-23-1997; Ord. No. 98-108, § 1(14), 6-30-1998)

Sec. 3A-3-15. Regulations may be promulgated; payments due taxpayers may be withheld.

Regulations may be promulgated pursuant to Code of Ala. 1975, § 40-23-31.

(1) *Regulations may be promulgated.*

a. The director of finance shall from time to time promulgate rules and regulations for making returns and for ascertainment, assessment and collection of the tax imposed hereunder as the director may deem necessary to enforce its provisions; and upon request shall furnish any taxpayer with a copy of such rules and regulations.

b. The director of finance may adopt, prescribe, promulgate and enforce reasonable rules and regulations not in conflict with this chapter relating to any matter or thing pertaining to the administration and enforcement of the provisions of this chapter, including but not limited to provisions for the re-examination and correction of returns as to which overpayment or underpayment is claimed or found to have been made, and the rules and regulations so promulgated shall be binding upon all taxpayers.

c. The director of finance shall prescribe printed forms for use by persons subject to the provisions of this chapter and shall make such forms available at the director's office for use by such persons.

(2) *Payments due taxpayers may be withheld.* Pursuant to the Mayor-City Council Act, article VI, section 6.04(o), Act No. 452-55 Acts of Alabama, the director of finance, in order to protect the interests of the city, is authorized to withhold the payment of any claim or demand for payment of monies due from the city to any vendor, contractor, consultant or other person having unpaid or delinquent tax or license liabilities until such unpaid tax, including applicable interest and penalties, shall first have been settled and adjusted. The director of finance shall notify the taxpayer by certified mail with return requested, sent to the taxpayer's last known address, of the director's intention to make such levy, the effect of which shall be continuous from the date such levy is first made until the liability out of which such levy arose is satisfied.

(Ord. No. 97-185, § 15, 12-23-1997)

Sec. 3A-3-16. Purchaser to withhold taxes due from purchase money or be liable.

Any person subject to the provisions of Code of Ala. 1975, § 40-23-25 who shall sell out his or her business or stock of goods, or shall quit business, shall be required to make out a final return, as provided for under section 3A-3-5, and shall make payment of the taxes due within 30 days after the date he or she sold out his or her business, or stock of goods, or quit business, and his or her successor in business shall be required to withhold sufficient of the purchase money to cover the amount of said taxes due and unpaid until such time as the former owner shall produce a receipt from the department showing that the taxes have been paid, or a certificate stating that no taxes are due. If the purchaser of a business or stock of goods shall fail to withhold purchase money as provided herein, and the taxes remain due and unpaid after said 30-day period, he or she shall be personally liable for the payment of the taxes accrued and unpaid on account of the operation of the business by the former owner. If in such cases the department deems it necessary in order to collect the taxes due, it may make a jeopardy assessment as provided in Code of Ala. 1975, tit. 40, ch. 29.

(Ord. No. 97-185, § 16, 12-23-1997)

Sec. 3A-3-17. Disposition of funds derived from taxes.

All money derived from sales tax levied under the provisions of this chapter shall be paid to the

city and placed to the credit of the general fund of the city, and shall be used and expended as authorized by law and ordinance.
(Ord. No. 97-185, § 17, 12-23-1997; Ord. No. 98-108, § 1(17), 6-30-1998)

Sec. 3A-3-18. Bond requirements.

For the purpose of securing the payment of any tax, penalties, or interest due or which may become due under the provisions of this chapter, every itinerant vendor engaged in the business of selling tangible personal property at retail in the city shall be required to file a bond to be approved by the director of finance, conditioned upon the payment of any tax, penalty, or interest due or to become due under this chapter and upon faithful observance of the provisions of this chapter, as provided in Code of Ala. 1975, § 40-23-24.

(1) Such bond shall:

a. Be effective for a period of one year from date of issuance;

b. Be in an amount equal to the tax estimated due or to become due under the provisions of this chapter, but in no event shall said bond be less than $1,000.00 nor more than three percent of anticipated sales, whichever is greater, as fixed by the director of finance; and

c. Have a surety or sureties satisfactory to the director of finance; or

(2) Said itinerant vendor may deposit in cash said sum, which shall be estimated by the director of finance to be due or to become due under the provisions of this chapter

If such itinerant vendor fails to make any return due under this chapter or to pay any taxes or penalties due hereunder, or to keep books and records as required by this chapter, or fails to perform any other duty or obligation imposed on him under this chapter, such bond, or cash deposited in lieu thereof, shall thereupon be forfeited, and the department shall institute an action upon such bond in the name of the city for the entire amount of said bond and costs.
(Ord. No. 97-185, § 18, 12-23-1997; Ord. No. 98-181, § 1(18), 11-17-1998)

Sec. 3A-3-19. Discount.

A discount of three-fourths of one percent (0.0075) of the taxes levied by this chapter due and payable to the city shall be allowed to the seller or vendor provided the taxes due by such seller are paid before the same becomes delinquent, as provided in this chapter pursuant to Code of Ala. 1975, § 40-23-36, with a maximum discount allowed of $400.00. If the returns are not filed within the time herein provided and the taxes not paid on the dates herein provided for, no such person shall be entitled to such a discount, but shall pay to the city the amount of tax due, together with applicable penalty and interest at the rate of one percent per month from the date the payment of said tax became delinquent.
(Ord. No. 97-185, § 19, 12-23-1997; Ord. No. 14-123, § 1, 9-10-2014)

Sec. 3A-3-20. Seller to collect and remit taxes.

Tax to be added to purchase price pursuant to Code of Ala. 1975, § 40-23-26.

(1) Every person, firm, corporation, association or copartnership engaged in or continuing within the city in any business for which a license or privilege tax is required by this chapter shall add to the sales price and collect from the purchaser on all sales upon the gross receipts or gross proceeds of which there is levied by this chapter a sales tax at the rate of four percent of the sales price. Upon all sales the gross receipts or gross proceeds of which are taxed by this chapter at a rate of less than four percent, there shall be added to the sales price and collected from the purchaser by such person, firm, corporation, association, or copartnership described in this section an amount equal to the prescribed percentage of such sales price.

(2) It shall be unlawful for any person, firm, corporation, association, or copartnership described in this section to fail or refuse to add to the sales price and collect from the purchaser the amount required by this section to be so added to the sales price and collected from the purchaser; and it shall likewise be unlawful to refund or offer to refund all or any part of the amount collected, or to absorb or advertise directly or indirectly the absorption or refund of the amount required to be added to the sales price and collected from the purchaser, or any portion of such amount. Any person, firm, corporation, association, or copartnership violating any of the provisions of this section shall upon conviction be fined in a sum of not less than $50.00 or more than $500.00, or may be imprisoned for not more than six months or both such fine and imprisonment, and each act in violation of the provisions of this chapter shall constitute a separate offense. The requirement herein that there shall be added to the sales price and collected from the purchaser the amounts provided herein shall in no way relieve the person, firm, corporation, association, or copartnership described in this section of the tax levied by this chapter, nor shall the inability, impracticability, refusal, or failure to add to the sales price and collect from the purchaser the amounts provided herein relieve such person, firm, corporation, association or copartnership from the tax levied by this chapter.

(3) All taxes paid in pursuance to this chapter shall conclusively be presumed to be a direct tax on the retail consumer precollected for the purpose of convenience and facility only.

(4) In the event that any sum is collected from a consumer that purports to be collected because of this section, whether or not the amount is actually provided for hereunder, then any such sum, except such as is collected solely because of rounding the correct amount of tax upward to the nearest cent, shall be paid to the department.

(Ord. No. 97-185, § 20, 12-23-1997; Ord. No. 98-181, § 1(20), 11-17-1998)

Sec. 3A-3-21. Credit for sales tax erroneously paid.

Pursuant to Code of Ala. 1975, § 40-23-2.1, if a sales tax equal to or greater than the amount of city sales tax is paid to another city under a requirement of law, the property which is the subject of such tax, when imported for use or consumption in the city, is not subject to the sales tax, which is required to be paid by section 3A-3-2. The director of finance shall require such proof of payment of tax to another city as he or she deems to be necessary and proper.

(1) *Taxes due the city which were erroneously paid to another municipality.*

a. *Taxpayer requirement to request refund of erroneous tax payment within 60 days of notice to avoid interest, penalties.* In order to avoid the accrual of interest and any otherwise applicable penalties on the tax due the city, when a sales tax owed to the city is erroneously paid to a different municipality or county in good faith, based on a reasonable interpretation of the enabling ordinance, resolution, or act levying or authorizing the tax, but not under a requirement of law, the taxpayer making the erroneous payment must comply with the applicable refund procedures of such municipality or county within 60 days of receiving notice from the city, a county, or another municipality or its agent of the erroneous payment.

b. *Compliance with refund procedure; interest, penalties.* If the taxpayer complies with the refund procedure within the requisite 60-day period, the city shall not assess or attempt to assess the tax, or any related

interest or otherwise applicable penalty thereon until the date of receipt of the overpayment from the refunding municipality or county by the taxpayer or the taxpayer's agent, and no interest or penalty thereon shall accrue until such date of receipt. The taxpayer shall remit the disputed tax to the city within 15 days after receipt.

c. *Failure to comply with refund procedure; interest, penalties.* If the taxpayer fails to comply with the refund procedures within the requisite 60-day period, interest and any applicable penalties shall accrue on the tax to which the city is entitled from the 61st day and until such time as the tax is paid.

a. *City's requirement to refund overpayment of erroneous tax payment within 60 days of compliance with refund procedures.* If a sales tax owed to another municipality or county is erroneously paid to the city in good faith, based on a reasonable interpretation of the enabling ordinance, resolution, or act levying or authorizing the sales tax, but not under a requirement of law, the city shall refund the overpaid tax, without interest, to the taxpayer within 60 days of the taxpayer's compliance with applicable refund procedures provided in section 3A-3-10.

b. *Refund of excess tax; requirements.* Provided, however, that if the applicable rate of sales tax imposed by the city exceeds the rate of sales tax imposed by the proper locality under a requirement of law, the city shall not be obligated to refund the difference unless the taxpayer properly files the applicable petition for refund, as in the case of joint petitions for refund as required by section 3A-3-10(a).

a. Within the period allowed by law after the final assessment of the tax; or

b. Prior to the expiration of any period for collection agreed upon in writing by the director of finance and the taxpayer before the expiration of such period allowed by law, (or, if there is a release of levy under Code of Ala. 1975, § 40-29-34, after such period allowed by law, then before such release).

The period so agreed upon may be extended by subsequent agreements in writing made before the expiration of the period previously agreed upon. The period allowed by law as provided in this subsection during which a tax may be collected

by levy shall not be extended or curtailed by reason of a judgment against the taxpayer.

(4) *Right to enforce lien by attachment.* The department may enforce such lien in any court of competent jurisdiction, by attachment issued by any officer authorized to issue such writs, upon executing bond as in other cases of attachment, and upon making affidavit that the attachment is not sued out for the purpose of vexing or harassing the defendant, and describing the property on which the lien is claimed and setting forth all the facts necessary to the creation of the lien and the amount due and unpaid (including any interest, additional amount, addition to tax, or assessable penalty together with filing fees and any other costs that may accrue in addition thereto).

If the bond hereinabove provided for is not given and approved by

the director of finance, and final assessment (judgment) is entered against said taxpayer and he or she duly and legally appeals therefrom within the time and in the manner provided for by this chapter, and if the court approves the bond required for an appeal or the said taxpayer against whom the assessment was entered by the department shall, within 30 days from the date of the assessment, pay the amount thereof to the city, then, in either of said events, the director of finance shall cancel or release from record said lien.

e. *Returns to be filed even though no tax may be due.* Where a return is required to be filed pursuant to a provision of this chapter, such returns shall be filed in accordance with the provisions outlined herein, provided that, a return should be filed for each reporting period, even when no tax is due.

(3) *Taxpayer's responsibility when no form received.* The department is authorized to provide prescribed printed forms necessary for compliance with the filing requirements outlined in this section. Failure of the taxpayer to receive forms from the department does not relieve the taxpayer of the responsibility of the timely reporting of the information required on the return, nor the timely payment of the tax.

(4) *Timely mailing treated as timely filing and paying.* The provisions outlined in this section for the timely filing of any returns, payments, claims, statements, or other documents shall be administered as herein provided.

a. *Date of delivery.* If any return, claim, statement, or other document required to be filed, or any payment required to be made, within a prescribed period or on or before a prescribed date under the authority of any provision of this chapter is, after such period or such date, delivered by United States mail to the finance department or to the department's designated depository where such return, claim, statement, or other document is required to be filed, or to which such payment is required to be made, the date of the United States postmark stamped on the cover in which such return, claim, statement, or other document, or payment, is mailed shall be deemed to be the date of delivery, or the date of payment, as the case may be; provided, however:

1. *Weekends and holidays.* When the due date falls on a Saturday, Sunday or city holiday, payment of the tax may be made without penalty on the first working day following the due date.

2. *Mailing requirements.* The return, claim, statement, or other document, or payment was, within the time prescribed in this subsection (4)a, deposited in the mail in the United States in an envelope or other appropriate wrapper, postage prepaid, properly addressed to the finance department or to the department's designated depository where such return, claim, statement, or other document is required to be filed, or to where such payment is required to be made.

b. *Delivery by method other than United States mail.* Returns, claims, statements, or other documents, or payments which are required under any provision of this chapter which are delivered by any method other than by United States mail shall be considered timely filed when such items are received in the finance department or the department's designated depository on the due date prescribed.

c. *Untimely filing.* Any return, payment, claim, statement, or other document not received in accordance with the provisions of this section shall be deemed untimely filed and shall be assessed applicable penalties and interest as prescribed by the relevant sections of this chapter.

(5) *Election to file yearly.* Notwithstanding the above, if the total amount of taxable sales/purchases of tangible personal property for which any person is liable under this chapter does not exceed $250.00 during the preceding calendar year, or, if the total use tax liability due to the state for the sale/purchase of such tangible personal property during such period is less than $10.00 during the preceding calendar year, a yearly return and remittance shall be made to the department, on or before January 20 of each year. In order to file yearly, the election shall be made in writing and shall be filed with the department. If such election is not timely made and in accordance with the provisions of this subsection, returns shall be due quarterly as provided for in this section.

(6) *Bulk submissions.* The department may accept, for reporting and payment of taxes due the city, bulk submissions of reports, and under regulations promulgated by the department, payments owed to the city made on behalf of the taxpayer by its properly authorized representative where such submissions are made using the appropriate form prescribed by the department, as provided in Code of Ala. 1975, § 11-51-210(d). Any such bulk submissions of reports and payments shall include:

a. The city's assigned taxpayer identification number for each such taxpayer for each tax paid; and,

b. Sufficiently detailed information by which each taxpayer can be identified such that a determination can be made as to the amount and method of assessment of tax against such taxpayer for the city.

The acceptance by the city of such bulk submissions shall not relieve the taxpayer on whose behalf such submissions were made from liability for any use tax arising from an error or omission made by the taxpayer's representative. Such bulk submission shall be signed by the taxpayer or its properly authorized representative.

In accordance with the provisions of Code of Ala. 1975, § 40-23-74, the director of finance, at his or her discretion, for reasonable cause, may extend the time for making any return required under the provisions of this chapter; however, the time for filing any such return shall not be extended for a period greater than 30 days from the date such return is due to be made and shall not prevent penalty and interest from accruing during the period of such extension.

(Ord. No. 97-186, § 6, 12-23-1997)

Sec. 3A-4-7. Credit sales.

Pursuant to Code of Ala. 1975, § 40-23-68(e), and except as otherwise provided in section 3A-4-5(5), any seller making cash and credit sales for storage, use or other consumption in the city may report such cash sales and shall thereafter include in each quarterly report all credit collections made during the preceding quarter and shall pay the taxes due thereon at the time of filing such report, but in no event shall the gross proceeds of credit sales be included in the measure of the tax to be paid until collections of such credit sales shall have been made.

(Ord. No. 97-186, § 7, 12-23-1997)

Sec. 3A-4-8. Oaths.

The monthly reports herein required to be made are not required to be made under oath, but wherever in this chapter any report is required to be sworn to, the same shall be sworn to by the taxpayer or his or her agent before some officer authorized to administer oaths, and any false statement to a material fact made with the intent to defraud shall constitute perjury, and

upon conviction thereof, the person so convicted shall be punished as provided in section 1-1-6, as amended and as it may be amended.
(Ord. No. 97-186, § 8, 12-23-1997)

Sec. 3A-4-9. Maintenance of records; investigative powers; audit and subpoena authority.

The provisions of this section shall be administered in accordance with the procedures set forth in Code of Ala. 1975, §§ 40-23-83 and 40-2A-7(a), except where inapplicable or where herein otherwise provided.

(1) *Records to be kept.* Every seller and every person storing, using or otherwise consuming in this city tangible personal property purchased from a retailer shall keep and preserve, an accurate and complete set of records, receipts, invoices and other pertinent papers suitable for the determination of the correct amount of use tax due, or other records or information as may be necessary for the proper administration of any matter under the provisions of this chapter in such form as the department may require. The department, or any person authorized in writing by it, is hereby authorized to examine the books, papers, records and equipment of any person selling tangible personal property and any person liable for the tax imposed by this chapter, and to investigate the character of the business of any such person in order to verify the accuracy of any return made, or if no return was made by such person, to ascertain and determine the amount required to be paid hereunder. Such books, papers, records, and equipment shall be open for examination by the department upon request at a reasonable time and location. It shall also be the duty of every person to keep and preserve such records, receipts, invoices, and other pertinent records or other information for a period of not less than five years from the due date of the return on which the underlying tax is required to be reported, or five years of the date the return is filed, whichever is later.

a. *Reasonable time and reasonable location.* For the purposes of this section, reasonable time shall be considered to be during normal business hours of the department. Reasonable location shall be considered to be the taxpayer's place of business or the offices of the taxpayer's authorized representative, provided such business or representative is located within a 50-mile radius of the city. Taxpayers maintaining records outside of this radius must make records available at city hall or at such other location as agreed upon by the department. The department, when conducting an audit, review, or examination for verification, may, at its election, require any taxpayer conducting business within the city to provide the records, accounts, books, papers and other documents at a reasonable time and reasonable place agreed upon by the department, as provided herein.

b. *Taxpayer may be assessed reasonable costs.* As provided in Code of Ala. 1975, § 40-2A-6(d), the department may assess and collect from the taxpayer, the reasonable costs, based on the then current state government employee per diem rates incurred by, or charged to, the city in connection with performing an examination of the taxpayer's books and records if the taxpayer received notice by certified U.S. mail, return receipt requested, at least 30 days prior to the date on which the examination was to commence; and:

1. The taxpayer either failed or refused to respond or did not propose a reasonable alternative date on which the examination was to commence within

15 days of receipt of notice of the pending examination; or if

2. The taxpayer and the department agreed in writing as to an alternative date on which the examination was to commence but the taxpayer then failed or refused to permit reasonable access to its books and records on the alternative date.

(2) *Investigative powers.* Each taxpayer shall give to the director of finance the means, facilities and opportunity for the making of such audit, examination, and investigation of the records, books, or other relevant information maintained by any taxpayer or other person for the purpose of computing and determining the correct amount of value or correct amount of tax as provided for in subsection (1) of this section. The director of finance is hereby authorized to examine any person under oath concerning any gross receipts which were or should have been shown in a return, and to this end, he or she may compel the production of books, papers, records and the attendance of all persons before him or her, whether as parties or as witnesses, whom he or she believes to have knowledge of such gross receipts. Any taxpayer, or officer of a corporation or association, or partner of a partnership, or fiduciary of a trust, or responsible individual of any entity under a duty to maintain books and records pursuant to this chapter, who fails or refuses to maintain or provide such records and books, or permit inspection, as required herein, shall be subject to the provisions of section 3A-4-11, and shall be subject to contempt proceedings in the circuit court.

(3) *Audit and subpoena authority; additional requirements.* Code of Ala. 1975, § 40-2A-7(a), outlines further requirements for the maintenance of records, in addition to the recordkeeping requirements set out in subsection (1) of this section. The department's authority to audit, to subpoena records, and to enter into contracts with private examining or collecting firms is granted pursuant to Act No. 98-191, the Local Tax Procedures Act of 1998, Act No. 98-192, the Local Tax Simplification Act of 1998, as well as Code of Ala. 1975, § 40-2A-7(a), except where inapplicable or where herein otherwise provided.

(Ord. No. 97-186, § 9, 12-23-1997; Ord. No. 98-109, § 1(9), 6-30-1998; Ord. No. 02-176, § 1(9), 12-10-2002; Ord. No. 07-232, § 1(9), 12-18-2007)

Sec. 3A-4-10. Refunds.

(a) *Petitions for refund.* Any taxpayer may file a petition for refund with the department for any overpayment of tax erroneously paid to the department as provided in Code of Ala. 1975, § 40-2A-7(c)(1). If a final assessment for the tax has been entered by the department, a petition for refund of all or a portion of the tax may be filed only if the final assessment plus applicable interest has been paid in full prior to or with the filing of the petition for refund. The petition for refund must be filed in writing jointly by the taxpayer who collected and paid over the tax to the department and the consumer/purchaser who paid the tax to the taxpayer. However, a direct petition may be filed in writing by the taxpayer if the taxpayer never collected the tax from the consumer/purchaser, or if the tax has been credited or repaid to the consumer/purchaser by the taxpayer. Unless otherwise provided by law, all petitions for refund shall include sufficient information to identify the type and amount of tax overpaid, the taxpayer, the period included, and the reasons for the refund. Such petition shall be accompanied with sufficient supporting documentation as the department may deem necessary and proper.

(b) *Refund overpayments applied to other taxes.* Refund overpayments may be applied to other taxes as provided in Code of Ala. 1975, § 40-2A-7(c)(4). If a petition is granted by the department, or a court determines that a refund is due, the overpayment shall be refunded to the taxpayer by the department. If the department determines that a refund is due, the amount of overpayment may first be credited by the department against

any outstanding final tax liabilities due and owing by the taxpayer to the department, and the balance of any overpayment shall be refunded to the taxpayer. If any refund or part thereof is credited to any other tax by the department, the department shall provide a written detailed statement to the taxpayer showing the amount of overpayment, the amount credited for payment to other taxes, and the amount refunded.

(c) *Time limitations.*

(1) A petition for refund must be filed in writing with the department within:

a. Three years from the date the return was filed;

b. Two years from the date of payment of the tax, whichever is later; or

c. If no return was timely filed, two years from the date of the payment of the tax.

(2) The department shall either grant or deny a petition for refund within six months from the date the petition is filed, unless the period is extended by written agreement of the taxpayer and the department. The taxpayer shall be notified of the department's decision concerning the petition for refund by first class United States mail or by certified mail with return receipt requested, sent to the taxpayer's last known address. If the department is unable to grant a refund within the time provided herein due to the taxpayer's failure to provide adequate documentation, the petition for refund shall be deemed to be denied.

(3) The department and the taxpayer may, prior to the expiration of the period for the filing of a petition for refund, agree in writing to extend the time provided for filing the petition. The petition for refund may be filed at any time prior to the expiration of the period agreed upon. The period agreed upon may be extended by subsequent agreements in writing made before the expiration of the period previously agreed upon.

(d) *Interest on refunds.* On any overpayment of any use tax levied under any provisions of this chapter, the city, in addition to the amount of the overpayment, shall refund interest thereon at the rate of one percent per month, or fraction thereof, from the date of such overpayment on any refund of tax erroneously paid. As provided in Code of Ala. 1975, § 11-51-208(f), references in this subsection to erroneously paid taxes on which interest shall be due to the taxpayer shall only mean and refer to taxes erroneously paid to the city as a result of any error, omission, or inaccurate written advice by or on behalf of the city, including in connection with a prior examination of its books and records by the city.

(e) *Assignment of refunds.* The right of any person to a refund under this section is not assignable. A petition for a refund must be made by the person who withheld and remitted the tax.

(f) *Action for recovery of refund.* It is unlawful for any petitioner for a tax refund to make a false statement in connection with such application. If any person obtains a refund unlawfully, the director of finance is empowered and directed to bring appropriate action for recovery of such refund. A conviction for the violation of this subsection shall constitute prima facie evidence that all refunds received by such person pursuant to the petition which contained the false statement were obtained unlawfully. Obtaining a refund unlawfully shall be an act of fraud against the city and shall be subject to applicable penalties outlined in section 3A-4-13.
(Ord. No. 97-186, § 10, 12-23-1997; Ord. No. 98-109, § 1(10), 6-30-1998; Ord. No. 02-176, § 1(10), 12-10-2002; Ord. No. 07-232, § 1(10), 12-18-2007)

Sec. 3A-4-11. Jeopardy, preliminary, final assessments and time limitations.

(a) *Jeopardy assessments.* All jeopardy assessments issued by the department shall be executed pursuant to Code of Ala. 1975, § 40-29-91(a), (b) and (c).

(1) If the director of finance finds that a taxpayer designs quickly to depart from

the city or to remove his or her property therein, or to do any other act tending to prejudice or to render wholly or partly ineffectual proceedings to collect any tax imposed by this chapter, the director of finance may issue notice of such finding to the taxpayer by personal service or mailing to the taxpayer's last known address, together with a demand for immediate payment of the tax declared to be in jeopardy, including penalties and additions thereto and such tax, penalty, interest, and additions thereto shall be immediately due and payable. A final assessment of such tax may be entered immediately and if the assessment is not paid upon such demand of the director, the director may forthwith issue a warrant for levy and distraint of any personal property of the taxpayer which shall be collected in the same manner and with like effect as provided under section 3A-3-11.

(2) In the case of a tax for a current period, the director may declare the taxable period of the taxpayer immediately terminated and may at his or her discretion estimate the tax liability based upon the best information obtainable. Notice of such finding and declaration shall be issued to the taxpayer in the same manner as in subsection (a)(1) of this section.

(3) When a jeopardy assessment has been made as provided in subsection (a)(1) of this section, the collection of all or any part of such assessment may be stayed by filing with the director an approved bond conditioned upon the payment of the assessment together with applicable interest and costs of collection. The director shall have sole discretion to approve or disapprove the bond, but such approval shall not be unreasonably withheld.

(b) *Preliminary and final assessments.* All preliminary and final assessments issued by the department shall be executed as provided in Code of Ala. 1975, §§ 40-2A-7(b)(1)a and b, (b)(3), (b)(4) and 40-29-91. The terms "preliminary assessment" and "final assessment" shall have the respective meanings ascribed by Code of Ala. 1975, § 40-2A-3.

(1) *Entry of preliminary assessment.* If the department determines that the amount of any tax as reported on a return is incorrect, or if no return is filed, or if the department is required to determine value, the department may calculate the correct tax or value based on the most accurate and complete information reasonably obtainable by the department. The department may thereafter enter a preliminary assessment for the correct tax or value, including any applicable penalty and interest.

(2) *Service of preliminary assessment upon taxpayer.* The preliminary assessment entered by the department, or a copy thereof, shall be promptly mailed by the department to the taxpayer's last known address by either first class U.S. mail or certified mail with return receipt requested, but at the option of the department, the preliminary assessment may be delivered to the taxpayer by personal delivery.

a. Disputed preliminary assessments. If a taxpayer disagrees with a preliminary assessment as entered by the department, the taxpayer may file a written petition for review with the director of finance within 30 calendar days from the date of entry of the preliminary assessment, setting out the specific objections to the preliminary assessment, and showing cause why such assessment should not be made final. If a petition for review is timely filed, or if the department otherwise deems it necessary, the department shall schedule a conference with the taxpayer for the purpose of allowing the taxpayer and the department to present their respective positions, discuss any omissions or errors, and

to attempt to agree upon any changes or modifications to their respective positions.

b. If a written petition for appeal/review:

1. Is not timely filed; or

2. Is properly filed, and upon further review the department determines the preliminary assessment is due to be upheld in whole or in part, the department may make the assessment final in the amount of tax due as computed by the department, with applicable interest and penalty computed to the date of entry of the final assessment.

(3) *Service of final assessment upon taxpayer.* The final assessment entered by the department, or a copy thereof, shall be mailed by the department to the taxpayer's known address by certified mail with return receipt requested. At the option of the department, the final assessment, or a copy thereof, may be delivered to the taxpayer by personal delivery.

(4) *Undisputed preliminary assessments.* Where the amount of tax or value reported on a return is undisputed by the department, or the taxpayer consents in writing to the department's determination of the amount of any deficiency, determination of value, or preliminary assessment as provided by this chapter, the department may immediately enter a final assessment for the amount of the tax or value, plus applicable penalty and interest; provided, the department may at any time enter a final jeopardy assessment, pursuant to Code of Ala. 1975, § 40-29-91.

(c) *Time limitation for entering assessments.*

(1) Pursuant to Code of Ala. 1975, § 40-2A-7(b)(2), any preliminary assessment must be entered within three years from the due date of the return, or three years from the date the return is filed with the department, whichever is later, or if no return is required to be filed, within three years of the due date of the tax, except as follows:

a. A preliminary assessment may be entered at any time if no return is filed as required, or if a false or fraudulent return is filed with the intent to evade tax;

b. A preliminary assessment may be entered within six years from the due date of the return or six years from the date the return is filed with the department, whichever is later if the taxpayer omits from the taxable base an amount properly includable therein which is in excess of 25 percent of the amount of the taxable base stated in the return.

For purposes of this paragraph:

1. The term "taxable base" means the gross proceeds from sales, gross receipts, or other amounts on which the tax paid with the return is computed; and

2. In determining the amount omitted from the taxable base, there shall not be taken into account any amount which is omitted from the taxable base stated in the return if the amount is disclosed in the return, or in a statement attached to the return, in a manner adequate to apprise the department of the nature and amount of the item.

c. A preliminary assessment entered pursuant to Code of Ala. 1975, §§ 40-29-72 and 40-29-73 may be entered within five years from the due date of the return on which the underlying tax is required to be reported or within five years of the date the return is filed, whichever is later.

(2) The department and the taxpayer may, prior to the expiration of the period for

entering a preliminary assessment, agree in writing to extend the time provided for entering the assessment. The tax may be assessed at any time prior to the expiration of the period agreed upon. The period agreed upon may be extended by subsequent agreements in writing made before the expiration of the period previously agreed upon.

(3) Additional tax may be assessed by the department within any applicable period allowed above, even though a preliminary or final assessment has been previously entered by the department against the same taxpayer for the same or a portion of the same tax period.

(Ord. No. 97-186, § 11, 12-23-1997; Ord. No. 98-109, § 1(11), 6-30-1998)

Sec. 3A-4-12. Appeals.

(a) Appeals from denial of refunds, jeopardy assessments, and final assessments shall be executed as provided in Code of Ala. 1975, § 6-3-11. A written notice of appeal shall be filed with department and shall contain information sufficient to:

(1) Identify the name of the taxpayer or other party filing such notice of appeal;

(2) Identify the specific matter appealed from;

(3) Outline the basis for such appeal; and

(4) Specify the relief sought.

(b) *Appeal from refund denial.*

(1) A taxpayer may appeal from the denial in whole or in part of a petition for refund by filing a written notice of appeal with the circuit court within two years from the date the petition is denied. The circuit court shall hear the appeal according to its own rules and procedures and shall determine the correct amount of refund due, if any.

(2) If an appeal is not filed with the circuit court within two years of the date the petition is denied, then the appeal shall be dismissed for lack of jurisdiction.

(c) *Appeal from jeopardy assessment.*

(1) In any court proceeding to contest the jeopardy assessment or to enforce payment of the license taxes made due and payable by virtue of the provisions of section 3A-4-11, the finding of the director of finance, made as herein provided, shall be for all purposes presumptive evidence of jeopardy.

(2) A final jeopardy assessment entered hereunder may be appealed to either the director of finance or the circuit court. On appeal to the circuit court or to the director of finance, the final jeopardy assessment shall be prima facie correct, and the burden of proof shall be on the taxpayer to prove such assessment is incorrect.

(3) If an appeal is not filed with the director of finance or in the circuit court within the time provided herein for appeals of final assessments, the appeal shall be dismissed for lack of jurisdiction.

(d) *Appeal from preliminary assessment.* (Refer to section 3A-4-11(b)(2)a and b.)

(e) *Appeal from final assessment.*

(1) A taxpayer may appeal from any final assessment entered by the department by filing a written notice of appeal with the director of finance within 30 days from the date of entry of the final assessment, and the appeal, if timely filed, shall proceed as herein provided.

(2) The taxpayer may appeal from any final assessment to the circuit court by filing written notice of appeal within 30 days from the date of entry of the final assessment with the circuit court. If the appeal is to the circuit court, the taxpayer shall, also within the 30 day period allowed for appeal, either: (i) pay the tax, interest, and any penalty shown on the final assessment; or (ii) file a supersedeas bond with the court in double the amount of the tax, interest, and any penalty shown on the final assessment. The supersedeas bond shall be executed by a surety

company licensed and authorized to do business in the State of Alabama and shall be conditioned to pay the assessment plus applicable interest, penalty, and any court costs relating to the appeal. A taxpayer may appeal a final assessment to circuit court as provided herein, even though the taxpayer has paid the tax in issue prior to taking the appeal.

(3) The filing of the written notice of appeal with the director of finance or in the case of appeals to the circuit court, the filing of the written notice of appeal with both the director of finance and the circuit court, and also the payment of the assessment in full and applicable interest and penalty or the filing of a bond as provided herein, are jurisdictional. If such prerequisites are not satisfied within the time provided for appeal, the appeal shall be dismissed for lack of jurisdiction. On appeal to the circuit court, or to the director of finance, the final assessment shall be prima facie correct, and the burden of proof shall be on the taxpayer to prove such assessment is incorrect.

Sec. 3A-4-13. Penalties and interest.

The provisions for penalties are pursuant to Code of Ala. 1975, § 40-2A-11; provided, however, the rates and amounts of penalties are as provided herein.

(1) *Failure to timely file return.* If a person fails, neglects, or refuses to file any return required to be filed with the department on or before the date prescribed therefor, determined with regard to any extension of time for filing granted by the director of finance, there shall be assessed, in addition to the tax due or the amount of tax herein required to be collected and/or remitted, a penalty of ten percent of the amount due, or $50.00, whichever is greater, together with interest thereon at the rate of one percent per month, or fraction thereof, from the date at which the tax herein levied became due and payable, such penalty and interest to be assessed and collected as part of the tax, as provided in Code of Ala. 1975, § 40-2A-11(a).

(2) *Failure to timely pay tax.* If a person fails, neglects, or refuses to pay to the department the amount of tax shown as due on a return required to be filed on or before the date prescribed for payment of the tax, determined with regard to any extension of time granted for payment by the director of finance, there shall be added:

a. In addition to the tax due or the amount of tax herein required to be collected and/or remitted;

b. For any tax for which a monthly or quarterly return is required; or

c. For which no return is required;

a penalty of ten percent of the unpaid amount shown as tax due on the return or the amount stated in the notice and demand, together with interest thereon at the rate of one percent per month, or fraction thereof, from the date at which the tax herein levied became due and payable, as provided in Code of Ala. 1975, § 40-2A-11(b).

(3) *Underpayment of tax.* Any person failing to pay the tax herein levied to the city or any amount of tax herein required to be collected and paid to the city, within the time required by this chapter, shall pay, in addition to the tax or the amount of tax herein required to be collected and/or remitted, a penalty of ten percent of the amount of tax due, plus interest at the rate of one percent per month, or fraction thereof, from the date at which the tax or the amount of tax herein levied or required to be collected became delinquent, that is, due and payable to the city.

(4) *Underpayment due to negligence.* If any part of any underpayment of tax is due to negligence or disregard of rules or regulations, there shall be added to the tax an amount equal to ten percent of that part

of the tax attributable to negligence or disregard of rules and regulations. For the purpose of this section, the term "negligence" includes any failure to make a reasonable attempt to comply with this chapter, and the term "disregard" includes any careless, reckless or intentional disregard, as provided in Code of Ala. 1975, § 40-2A-11(c).

(5) *Underpayment due to fraud.* If any part of any underpayment of tax required to be shown on a return is due to fraud, there shall be added to the tax an amount equal to 50 percent of that portion of the underpayment which is attributable to fraud. For purposes of this section, the term "fraud" shall have the same meaning as ascribed to the term under Code of Ala. 1975, § 40-2A-11(d).

(6) *Frivolous appeal penalty.* If any appeal to the director of finance or to circuit court is determined to be frivolous or primarily for the purpose of delay or to impede collection of the tax imposed by this chapter, a penalty of $250.00 or 25 percent of the tax in question, whichever is greater, shall be assessed in addition to any tax due, as provided in Code of Ala. 1975, § 40-2A-11(f).

(7) *Penalties not exclusive.* The penalties provided in this section for failure to timely file a return, failure to timely pay tax, underpayment of tax, underpayment due to negligence, or filing a frivolous appeal may be asserted against the same taxpayer for the same tax period, as provided in Code of Ala. 1975, § 40-2A-11(g). If the fraud penalty is asserted, no other penalties shall be asserted.

(8) *Waiver of penalties.* Penalties may be waived, in whole or in part, by the director of finance upon a determination of reasonable cause, pursuant to Code of Ala. 1975, § 40-2A-11(h). The term "reasonable cause" includes, but is not limited to, those instances in which the taxpayer has acted in good faith. The burden of proving reasonable cause shall be on the taxpayer.

(9) *Penalty and interest assessed as tax.* All penalties and interest, levied or assessed against a taxpayer and which is administered by the department shall be assessed and collected in the same manner as taxes.

(10) *Interest.* Interest shall be computed at the rate of one percent per month or fraction thereof, and shall be added as provided herein to any tax or other amount due the department which is not paid by the due date. Interest on any delinquency or underpayment shall be charged from the due date of the tax, as provided in Code of Ala. 1975, § 40-1-44.

(11) *Abatement of penalty.* The department shall abate any penalty attributable to erroneous written advice furnished to a taxpayer by an employee of the department. However, this subsection shall apply only if the department employee provided the written advice in good faith while acting in his official capacity, the written advice was reasonably relied on by the taxpayer and was in response to a specific written request of the taxpayer, and the penalty did not result from the taxpayer's failure to provide adequate or accurate information.

(12) *Penalty for failure to perform duties.* Any person required to collect, truthfully account for, and/or pay over any tax imposed by this chapter who willfully fails to collect such tax, or truthfully account for, and/or pay over such tax, or willfully attempts in any manner to evade or defeat any such tax or the payment thereof, shall, in addition to other penalties provided by law, be liable for a penalty up to the total amount of the tax evaded, or not collected, or not accounted for and paid over.

(Ord. No. 97-186, § 13, 12-23-1997; Ord. No. 98-109, § 1(13), 6-30-1998; Ord. No. 98-174, § 1(13), 11-10-1998; Ord. No. 00-210, § 1(13), 12-12-2000)

Sec. 3A-4-14. Confidentiality of tax returns.

The confidentiality provisions imposed by this Code shall be executed as provided in Code of Ala. 1975, § 40-2A-10(a), (d), (e), (f) and (g).

(1) It shall be unlawful for any person to print, publish, or divulge, without the written permission or approval of the taxpayer, the tax return of any taxpayer or any part thereof or any information secured in arriving at the amount of tax or value reported for any purpose other than the proper administration of any matter administered by the department, or upon order of any court, or as otherwise allowed in this section. Statistical information pertaining to taxes may be disclosed at the discretion of the director of finance. The director of finance may make written or verbal disclosure upon request as to the status of compliance of the taxpayer relative to this Code.

(2) A good standing certificate shall be issued to a requesting person with respect to a taxpayer, if the taxpayer has filed all tax returns due, and paid the taxes shown as payable in accordance with those returns.

(3) The director of finance shall promulgate reasonable regulations permitting and governing the exchange of tax returns, information, records, and other documents secured by the department, with tax officers of other agencies of the state, municipal, and county government agencies within the state, federal government agencies, any association of state government tax agencies of this state or other states, and any foreign government tax agencies; however:

a. Any tax returns, information, records, or other documents remain subject to the confidentiality provisions set forth in subsection (1) of this section;

b. The department may charge a reasonable fee for providing information or documents for the benefit of the requesting agencies; and

c. Any exchange shall be for one or more of the following purposes:

1. Collecting taxes due.

2. Ascertaining the amount of taxes due from any person.

3. Determining whether a person is liable for, or whether there is probable cause for believing a person might be liable for the payment of any tax.

(4) Nothing herein shall prohibit the use of tax returns or tax information by the department in the enforcement, collection, and assessment of any tax levied or imposed by this Code, or any other matters administered by the department. The department may also divulge to a purchaser or successor of a business or stock of goods the outstanding taxes of which the purchaser or successor may be liable pursuant to Code of Ala. 1975, § 40-23-82. This section shall not preclude the inspection of returns by federal or foreign state agents pursuant to Code of Ala. 1975, § 40-18-53.

(5) Nothing herein shall prohibit the exchange of information between and among county or municipal governments subject to the restrictions of this section.

(6) In no event shall any damages, attorney fees or court costs be assessed against the city or against its elected officials, officers or employees under this section.

(Ord. No. 97-186, § 14, 12-23-1997; Ord. No. 98-109, § 1(14), 6-30-1998)

Sec. 3A-4-15. Regulations may be promulgated; payments due taxpayers may be withheld.

(a) *Regulations may be promulgated.* Regulations may be promulgated as provided in Code of Ala. 1975, § 40-23-83 except where inapplicable or where herein otherwise provided.

(1) The director of finance shall from time to time promulgate rules and regulations for making returns and for ascertainment, assessment and collection of the

tax imposed hereunder as the director may deem necessary to enforce its provisions; and upon request shall furnish any taxpayer with a copy of such rules and regulations.

(2) The director of finance may prescribe, adopt, promulgate and enforce reasonable rules and regulations not in conflict with this chapter relating to any matter or thing pertaining to the administration and enforcement of the provisions of this chapter, including but not limited to provisions for the re-examination and correction of returns as to which overpayment or underpayment is claimed or found to have been made, and the rules and regulations so promulgated shall be binding upon all taxpayers.

(3) The director of finance shall prescribe printed forms for use by persons subject to the provisions of this chapter and shall make such forms available at the director's office for use by such persons.

(b) *Payments due taxpayers may be withheld.* Pursuant to the Mayor-City Council Act, article VI, section 6.04(o), Act No. 452-55, Acts of Alabama, the director of finance, in order to protect the interests of the city, is authorized to withhold the payment of any claim or demand for payment of monies due from the city to any vendor, contractor, consultant or other person having unpaid or delinquent tax or license liabilities until such unpaid tax, including applicable interest and penalties, shall first have been settled and adjusted. The director of finance shall notify the taxpayer by certified mail with return receipt requested, sent to the taxpayer's last known address, of the director's intention to make such levy, the effect of which shall be continuous from the date such levy is first made until the liability out of which such levy arose is satisfied.

(Ord. No. 97-186, § 15, 12-23-1997; Ord. No. 02-176, § 1(15), 12-10-2002)

Sec. 3A-4-16. Purchaser to withhold taxes due from purchase money or be liable.

Pursuant to Code of Ala. 1975, § 40-23-82, if any retailer liable for an amount of tax herein required to be collected shall sell out his or her business or stock of goods or shall quit the business, he or she shall make a final return, as provided under section 3A-4-5 and shall make payment of the taxes due within 30 days after the date of selling or quitting business. His or her successor, successors or assigns, if any, shall be required to withhold sufficient of the purchase money to cover the amount of such taxes herein required to be collected and interest or penalties due and unpaid until such time as the former owner shall produce a receipt from the department showing that they have been paid, or a certificate stating that no amount is due. If the purchaser of a business or stock of goods shall fail to withhold purchase money a provided herein, and the taxes remain due and unpaid after said 30-day period, he or she shall be personally liable for the payment of the amount of taxes herein required to be collected by the former owner, interest and penalties accrued and unpaid by any former owner, owners or assignors. If in such cases the department deems it necessary in order to collect the taxes due, it may make a jeopardy assessment as provided in Code of Ala. 1975, tit. 40, ch. 29.

(Ord. No. 97-186, § 16, 12-23-1997)

Sec. 3A-4-17. Disposition of funds derived from taxes.

All monies derived from the use tax levied under the provisions of this chapter shall be paid to the city and placed to the credit of the general fund of the city, and shall be used and expended as authorized by law and ordinance.

(Ord. No. 97-186, § 17, 12-23-1997; Ord. No. 98-109, § 1(17), 6-30-1998)

Sec. 3A-4-18. Discount.

A discount of three-fourths of one percent (.0075) of the taxes levied by this chapter due and payable to the city shall be allowed to the seller or vendor provided the taxes due by such seller are paid before the same becomes delinquent, as provided in this chapter, pursuant to Code of Ala. 1975, § 40-23-36 with a maximum discount allowed of $400.00. If the returns are not filed within the time herein provided and the taxes not paid on the dates herein provided for,

no such person shall be entitled to such a discount, but shall pay to the city the amount of tax due, together with applicable penalty and interest at the rate of one percent (0.01) per month, from the date the payment of said use tax became delinquent.
(Ord. No. 97-186, § 19, 12-23-1997; Ord. No. 14-124, § 1, 9-10-2014)

Sec. 3A-4-19. Seller to collect tax; seller not to assume or absorb tax.

(a) Pursuant to Code of Ala. 1975, § 40-23-67, every such seller making sales of tangible personal property for storage, use or other consumption in this city, not exempted under the provisions of section 3A-4-3, shall at the time of making such sales, or, if the storage, use or other consumption of the tangible personal property is not then taxable hereunder, at the time such storage, use or other consumption becomes taxable hereunder, collect the tax imposed by this chapter from the purchaser, and give to the purchaser a receipt therefor in the manner and form prescribed by the department. The tax required to be collected by the seller from the purchaser shall be displayed separately from the list, advertised in the premises, marked or other price on the sales check or other proof of sales.

(b) It shall be unlawful for any such seller to advertise or hold out or state to the public or any customer, directly or indirectly, that the tax or any part thereof imposed by this chapter will be assumed or absorbed by the seller or that it will not be added to the selling price of the property sold, or if added that it or any part thereof will be refunded.

(c) Any person violating any of the provisions of this section shall be guilty of a misdemeanor and shall, upon conviction, be punished pursuant to section 1-1-6. The tax herein required to be collected by the seller shall constitute a debt owed by the seller to this city.
(Ord. No. 97-186, § 20, 12-23-1997)

Sec. 3A-4-20. Credit for sales or use tax erroneously paid.

(a) *Authorization.* Pursuant to Code of Ala. 1975, § 40-23-65, if a sales or use tax equal to or greater than the amount of the city tax is paid to another city under a requirement of law, the property which is the subject of such tax, when imported for use or consumption in the city, is not subject to the use tax, which is required to be paid by section 3A-4-2. If the amount of tax paid to the other city is less than the Birmingham tax, then the difference between the out-of-city tax and the Birmingham tax must be paid. No credit will be allowed for taxes paid on tangible personal property in any city which does not give credit for taxes paid on similar property in Birmingham. The director of finance shall require such proof of payment of tax to another city as he or she deems to be necessary and proper.

(b) *Taxes due the city which were erroneously paid to another municipality.*

(1) *Taxpayer requirement to request refund of erroneous tax payment within 60 days of notice to avoid interest, penalties.* In order to avoid the accrual of interest and any otherwise applicable penalties on the tax due the city, when a use tax owed to the city is erroneously paid to a different municipality or county in good faith, based on a reasonable interpretation of the enabling ordinance, resolution, or act levying or authorizing the tax, but not under a requirement of law, the taxpayer making the erroneous payment must comply with the applicable refund procedures of such municipality or county within 60 days of receiving notice from the city, a county, or other municipality or its agent of the erroneous payment.

(2) *Compliance with refund procedure; interest, penalties.* If the taxpayer complies with the refund procedure within the requisite 60-day period, the city shall not assess or attempt to assess the tax, or any related interest or otherwise applicable penalty thereon until the date of receipt of the overpayment from the refunding municipality or county by the taxpayer or the taxpayer's agent, and no interest or penalty thereon shall accrue until such date of receipt. The taxpayer shall remit the disputed tax to the city within 15 days after receipt.

(3) *Failure to comply with refund procedure; interest, penalties.* If the taxpayer fails to comply with the refund procedures within the requisite 60-day period, interest and any applicable penalties shall accrue on the tax to which the city is entitled from the 61st day and until such time as the tax is paid.

(c) *Taxes due to another municipality which were erroneously paid to the city.*

(1) *City's requirement to refund overpayment of erroneous tax payment within 60 days of compliance with refund procedures.* If a use tax owed to another municipality or county is erroneously paid to the city in good faith, based on a reasonable interpretation of the enabling ordinance, resolution, or act levying or authorizing the use tax, but not under a requirement of law, the city shall refund the overpaid tax, without interest, to the taxpayer within 60 days of the taxpayer's compliance with applicable refund procedures provided in section 3A-4-10.

(2) *Refund of excess tax; requirements.* Provided, however, that if the applicable rate of use tax imposed by the city exceeds the rate of use tax imposed by the proper locality under a requirement of law, the city shall not be obligated to refund the difference unless the taxpayer properly files the applicable petition for refund, as in the case of joint petitions for refund as required by section 3A-4-10(a).

(Ord. No. 97-186, § 21, 12-23-1997; Ord. No. 98-109, § 1(21), 6-30-1998)

Sec. 3A-4-21. Collection after assessment.

The tax herein levied may be collected by levy as provided in Code of Ala. 1975, § 40-29-51, as follows:

(1) *Length of period.* Where the assessment of any tax imposed by this chapter has been begun or made within the period of limitation properly applicable thereto, such tax may be collected by levy or by a proceeding in court, but only if the levy is made or the proceeding begun:

a. Within the period allowed by law after the final assessment of the tax; or

b. Prior to the expiration of any period for collection agreed upon in writing by the director of finance and the taxpayer before the expiration of such period allowed by law (or, if there is a release of levy under Code of Ala. 1975, § 40-29-34, after such period allowed by law, then before such release).

The period so agreed upon may be extended by subsequent agreements in writing made before the expiration of the period previously agreed upon. The period allowed by law as provided in this subsection during which a tax may be collected by levy shall not be extended or curtailed by reason of a judgment against the taxpayer.

(2) *Date when levy is considered made.* The date on which a levy on property or rights to property is made shall be the date on which the notice of seizure provided in Code of Ala. 1975, § 40-29-26, is given.

(Ord. No. 97-186, § 23, 12-23-1997)

Sec. 3A-4-22. Lien for taxes.

Pursuant to Code of Ala. 1975, §§ 40-29-20 et seq., and/or 11-51-96, the provisions of this section shall apply to the taxes, and/or any penalty or interest payable thereon, levied under this chapter.

(1) *Liens generally.* If any person liable to pay the tax herein levied, neglects or refuses to pay the same within 30 days of the final assessment, the amount (including any interest, additional amount, addition to tax, or assessable penalty together with filing fees and any other costs that may accrue in addition thereto) shall be a lien in favor of the city upon all property

and rights to property, whether real or personal, tangible or intangible, belonging to such person.

(2) *Notice of lien.* The department shall give a 30-day notice of intent of file lien to the taxpayer by any one of the following methods:

a. Given in person;

b. Left at the dwelling or usual place of business of such person; or

c. Sent by certified mail with return receipt requested to the taxpayer's last known address.

(3) *Term.* Unless another date is specifically fixed by law, the lien imposed by subsection (1) of this section shall arise at the time of the final assessment, return therefor or the payment thereof, whichever is prior, was due to have been filed with or made to the department, and shall continue until the liability for the amount so assessed (or a judgment against the taxpayer arising out of such liability) is satisfied or becomes unenforceable by reason of lapse of time.

(4) *Right to enforce lien by attachment.* The department may enforce such lien in any court of competent jurisdiction, by attachment issued by any officer authorized to issue such writs, upon executing bond as in other cases of attachment, and upon making affidavit that the attachment is not sued out for the purpose of vexing or harassing the defendant, and describing the property on which the lien is claimed and setting forth all the facts necessary to the creation of the lien and the amount due and unpaid (including any interest, additional amount, addition to tax, or assessable penalty together with filing fees and any other costs that may accrue in addition thereto).

(5) *Release of lien.* If the taxpayer shall file with the department a bond in double the amount of the lien filed, with surety or sureties to be either a surety company authorized to do business in the state or such individual property owners, not less than three in number, as recommended by the judge of probate of the county in which the notice of lien is recorded, conditioned to pay all such tax, interest, penalty, additional amount or addition to such tax, together with any costs which may occur in addition thereto as may be assessed against the taxpayer, principal in said bond, the director of finance shall withdraw and release said lien filed under the provisions of this subsection, and upon a determination that the said taxpayer owes any of said taxes to the city, the assessment (judgment) therefor shall be entered against said taxpayer and the surety or sureties on said bond; and, if not paid within 30 days from the date of said final assessment (judgment), then execution shall issue therefor against said principal and the surety or sureties on said bond. If the bond hereinabove provided for is not given and approved by the director of finance, and final assessment (judgment) is entered against said taxpayer and he or she duly and legally appeals therefrom within the time and in the manner provided for by this chapter, and if the court approves the bond required for an appeal or the said taxpayer against whom the assessment was entered by the department shall, within 30 days from the date of the assessment, pay the amount thereof to the city, then, in either of said events, the director of finance shall cancel or release from record said lien.

(Ord. No. 97-186, § 24, 12-23-1997; Ord. No. 07-232, § 1(24), 12-18-2007)

Sec. 3A-4-23. Collection by civil suit.

The department may initiate and/or maintain a civil action to recover delinquent taxes herein levied, interest, penalties, and administrative costs incurred in connection therewith, in any court of competent jurisdiction, which remedy shall be in addition to any and all other remedies which may be provided.

(Ord. No. 97-186, § 25, 12-23-1997)

Sec. 3A-4-24. Violator may be restrained from continuing in business.

Any taxpayer who shall violate any of the provisions of this chapter may be restrained from continuing in business, and proper prosecution shall be instituted in the name of the city until such person shall have complied with the provisions of this chapter.
(Ord. No. 97-186, § 26, 12-23-1997)

Sec. 3A-4-25. Violations.

(a) *Failure to pay the tax, make reports, keep or provide records.* Any person subject to the provisions of this chapter, who shall fail to pay the tax, make the reports or any of them, as herein required, or who shall fail to keep or provide records, as herein required, as provided in Code of Ala. 1975, § 40-29-112, shall be guilty of a misdemeanor and upon conviction be fined not less than $50.00, nor more than $500.00 for each offense, and in addition, may be imprisoned for a period not to exceed six months. Each occurrence of such failure shall constitute a separate offense.

(b) *Willful refusal to make reports, or permit examination of records.* Any person subject to the provisions of this chapter willfully refusing to make the reports herein required, or who shall refuse to permit the examination of his or her records by the department, shall be guilty of a misdemeanor, and upon conviction shall be fined not less than $50.00 nor more than $500.00 for each offense, and in addition may be imprisoned for a period not to exceed to six months. Each occurrence of failure to make such reports shall constitute a separate offense, and each refusal of a written demand by the department to examine, inspect or audit such records shall constitute a separate offense.

(c) *Violation of chapter.* Any person who shall fail, neglect, or refuse to perform any duty imposed by this chapter, or other city ordinances, or any rule, regulation, or law thereof, or who shall fail or neglect to do or perform any act or series of acts as required by this chapter or other city ordinances shall, upon conviction, be punished by a fine not exceeding $500.00 for each offense, and in addition may be imprisoned for a period not to exceed six months, or by both such fine and imprisonment, pursuant to section 1-1-6, as amended and as it may be amended.
(Ord. No. 97-186, § 27, 12-23-1997)

Sec. 3A-4-26. Request for ruling on determination of taxation.

Any taxpayer may request a ruling on the determination of whether amounts of gross sales or gross purchases at retail of tangible personal property for storage, use or other consumption in the city by a taxpayer are subject to the tax, or are not to be used as a measure of the taxes due and payable as levied by this chapter. Such requests shall be made in writing to the finance department, and shall contain all pertinent facts, and shall include a copy of any written determinations or revenue rulings issued by the state department of revenue relating to the items in question.

Sec. 3A-5-2. Levy of tax.

Effective May 1, 1980, and pursuant to Code of Ala. 1975, § 40-12-222, there is hereby levied and shall be collected and remitted as herein provided, in addition to all other taxes now imposed by law, a privilege or license tax on each person engaging or continuing within this city in the business of leasing or renting tangible personal property which shall be in the amounts to be determined by the application of the rates against gross proceeds or gross receipts derived by the lessor from the lease or rental of tangible personal property, as follows:

(1) *General rate.* On each person engaging or continuing within this city in the business of leasing or renting tangible personal property, there is hereby levied an amount equal to three percent of the gross proceeds derived by the lessor from the lease or rental of tangible personal property of every kind and description. Provided that the privilege or license tax on each person or firm engaging or continuing within this city in the business of the leasing and rental of linens and garments shall also be at the rate of three percent of the gross proceeds derived by the lessor from the lease or rental of such linens and garments.

(2) *Automotive rate.* Provided, further, that the said privilege or license tax on each person engaging or continuing within this city in the business of leasing or renting any automotive vehicle or truck trailer, semitrailer or house trailer shall be at the rate of 0.75 percent of the gross proceeds derived by the lessor from the lease or rental of such automotive vehicle or truck trailer, semitrailer or house trailer.

(3) *Exclusions.* Provided, however, that the tax levied in this chapter shall not apply to any leasing or rental, as lessor, by the state, or any municipality or county in the state, or any public corporation organized under the laws of the state, including without limiting the generality of the fore-

going, any corporation organized under the provision of Code of Ala. 1975, §§ 11-54-80 through 11-54-101.

(4) *Pass on authority.* Notwithstanding the above, nothing shall prohibit a lessor subject to the lease tax levied by this chapter from passing such amounts on to a lessee by adding such taxes to the leasing price or otherwise, provided, however, that all such amounts passed on to the lessee shall be includable in the gross proceeds derived from the lease of tangible personal property which shall be subject to the privilege or license tax owed by the lessor.

Provided, however, the authority to pass on such amounts of the privilege or license tax granted in this subsection shall not apply to the leasing or renting of tangible personal property to the state, a municipality or county in the state, unless the flat amount collected by the lessor includes both the tax and the leasing fee.
(Ord. No. 97-187, § 2, 12-23-1997; Ord. No. 98-175, § 1(2), 11-10-1998; Ord. No. 01-167, § 1(2), 12-18-2001)

(b) *Special.* Special exemptions from the taxes imposed by this chapter are allowed in all other instances where the lease taxes levied under Code of Ala. 1975, tit. 40, ch. 12, art. 4, are exempted under any other provision of Code of Ala. 1975.
(Ord. No. 97-187, § 3, 12-23-1997; Ord. No. 02-178, § 1(3), 12-10-2002)

Sec. 3A-5-4. License required to engage in business.

Pursuant to Code of Ala. 1975, § 40-12-221. If any person shall engage in or continue in any business for which a privilege tax is imposed by section 3A-5-2 as a condition precedent to engaging or continuing in such business, he or she shall apply for and obtain from the department a license to engage in and to conduct such business for the current tax year upon the condition that he or she shall pay the taxes accruing to the city under the provisions of this chapter; provided that no license shall be issued to any person who has not complied with the provisions of this chapter, and no provision of this chapter shall be construed as relieving any person from the payment of any license or privilege tax now or hereafter imposed by law.
(Ord. No. 97-187, § 4, 12-23-1997)

Sec. 3A-5-5. Filing of returns and payment of tax.

The privilege license tax levied hereunder, except as otherwise provided in subsection (4) of this section, shall be due and payable in monthly installments on or before the 20th day of the month next succeeding the month in which the privilege license tax accrues.

(1) *Due date and contents of returns; payment of the tax.* On or before such 20th day of each month, except as otherwise provided in subsection (4) of this section, every person on whom the amounts levied hereunder are imposed shall report to the department, on a form prescribed by the department, a true and correct statement showing:

a. The gross proceeds or gross receipts, as the case may be, of his or her business for the next preceding month;

b. The amount of the gross proceeds or gross receipts which are not subject to the privilege license tax, or are not to be used as a measurement of the taxes due by such person, and the nature thereof; and

c. Such other information as the city may deem necessary for the proper administration of this chapter.

At the time of making such monthly report such person shall compute the privilege license taxes due and shall pay to the city the amounts shown to be due.

(2) *Taxpayer's responsibility when no form received.* The department is authorized to provide prescribed printed forms necessary for compliance with the filing requirements outlined in this section. Failure of the taxpayer to receive forms from the department does not relieve the taxpayer of the responsibility of the timely reporting of the information required on the return, nor the timely payment of the tax.

(3) *Timely mailing treated as timely filing and paying.* The provisions outlined in this section for the timely filing of any returns, payments, claims, statements or other documents shall be administered as herein provided.

a. *Date of delivery.* If any return, claim, statement, or other document required to be filed, or any payment required to be made, within a prescribed period or on or before a prescribed date under the authority of any provision of this chapter is, after such period or such date, delivered by United States mail to the finance department or to the department's designated depository where such return, claim, statement, or other document is required to be filed, or to which such payment is required to be made, the date of the United States postmark stamped on the cover in which such return, claim, statement, or other document, or payment, is mailed shall be deemed to be the date of delivery, or the date of payment, as the case may be; provided, however:

1. *Weekends and holidays.* When the due date falls on a Saturday, Sunday or city holiday, payment of the tax may be made without penalty on the first working day following the due date.

2. *Mailing requirements.* The return, claim, statement or other document, or payment was, within the time prescribed in subsection (3)a of this section, deposited in the mail in the United States in an envelope or other appropriate wrapper, postage prepaid, properly addressed to the finance department or to the department's designated depository where such return, claim, statement, or other document is required to be filed, or to where such payment is required to be made.

b. *Delivery by method other than United States mail.* Returns, claims, statements, or other documents, or payments which are required under any provision of this chapter which are delivered by any method other than by mailing shall be considered timely filed when such items are received in the finance department or the department's designated depository on the due date prescribed.

c. *Untimely filing.* Any return, payment, claim, statement or other document not received in accordance with the provisions of this section shall be deemed untimely filed and shall be assessed applicable penalties and interest as prescribed by the relevant sections of this chapter.

(4) *Tax return filing elections.*

a. *Election to file quarterly; requirements.*

1. If the total amount of taxable leases/rentals for which any person is liable under this chapter does not exceed $5,000.00 per month during the preceding calendar year, or, if the total tax liability due to the state for such leases/rentals during such period averages less than $200.00 per month during the

preceding calendar year, a quarterly return and remittance in lieu of the monthly returns may be made, by election of the taxpayer to the department, on or before the 20th day of the month next succeeding the end of the quarter for which the tax is due, and under such rules and regulations as may be prescribed in Code of Ala. 1975, tit. 40, ch. 12, art. 4.

2. In order to file quarterly, the election shall be made in writing no later than February 20 of each year and shall be filed with the department. If such election is not timely made and in accordance with the provisions of this subsection, returns shall be due monthly as provided for in this section.

b. *Election to file yearly.* Notwithstanding the above, if the total amount of taxable leases/rentals for which any person is liable under this chapter does not exceed $250.00 during the preceding calendar year, or, if the total tax liability due to the state for such leases/rentals during such period is less than $10.00 during the preceding calendar year, a yearly return and remittance shall be made to the city, on or before January 20 of each year. In order to file yearly, the election shall be made in writing and shall be filed with the department. If such election is not timely made and in accordance with the provisions of this subsection, returns shall be due monthly as provided for in this section.

(5) *Bulk submissions.* The department may accept, for reporting and payment of taxes due the city, bulk submissions of reports, and under regulations promulgated by the department, payments owed to the city made on behalf of the taxpayer by its properly authorized representative where such submissions are made using the appropriate form prescribed by the department, as provided in Code of Ala. 1975, § 11-51-210(d). Any such bulk submissions of reports and payments shall include:

a. The city's assigned taxpayer identification number for each such taxpayer for each tax paid; and,

b. Sufficiently detailed information by which each taxpayer can be identified such that a determination can be made as to the amount and method of assessment of tax against such taxpayer for the city.

The acceptance by the city of such bulk submissions shall not relieve the taxpayer on whose behalf such submissions were made from liability for any lease tax arising from an error or omission made by the taxpayer's representative. Such bulk submission shall be signed by the taxpayer or its properly authorized representative.

(Ord. No. 97-187, § 5, 12-23-1997; Ord. No. 98-110, § 1(5), 6-30-1998; Ord. No. 98-175, § 1(5), 11-10-1998; Ord. No. 00-211, § 1(5), 12-12-2000)

Sec. 3A-5-6. Extension of time for making return.

The director of finance, for reasonable cause, may extend the time for making any return required under the provisions of this chapter, however, the time for filing any such return shall not be extended for a period greater than 30 days from the date such return is due to be made and shall not prevent penalty and interest from accruing during the period of such extension.
(Ord. No. 97-187, § 6, 12-23-1997)

Sec. 3A-5-7. Oaths.

The monthly reports herein required to be made are not required to be made under oath, but wherever in this chapter any report is required to be sworn to, the same shall be sworn to by the taxpayer or his or her agent before some officer authorized to administer oaths, and any false

statement to a material fact made with intent to defraud shall constitute perjury and upon conviction thereof the person so convicted shall be punished as provided in section 1-1-6, as amended and as may be amended.
(Ord. No. 97-187, § 8, 12-23-1997)

Sec. 3A-5-8. Maintenance of records; investigative powers; audit and subpoena authority.

The provisions of this section shall be administered in accordance with the procedures set forth in Code of Ala. 1975, § 40-2A-7(a).

(1) *Records to be kept.* It shall be the duty of every lessor/renter and every person engaging or continuing in any business for which a privilege tax is imposed hereby to keep and preserve an accurate and complete set of records suitable for the determination of the correct amount of gross receipts or gross proceeds of any such business and such other books or accounts as may be necessary to determine the amount of tax for which such lessor/renter or person is liable hereunder. It shall be the duty of every lessor/renter and every person leasing/renting in this city, tangible personal property to keep and preserve for a period of not less than five years from the due date of the return on which the underlying tax is required to be reported, or five years of the date the return is filed, whichever is later, all invoices of gross proceeds, or gross receipts, and other pertinent papers, in such form as the city may require, proceeding or accruing from the leasing or rental herein taxed. All such books, invoices, equipment and other records shall be open for examination, by the department upon request at a reasonable time and location.

a. *Reasonable time and reasonable location.* The term "reasonable time" means during normal business hours of the department. The term "reasonable location" means the taxpayer's place of business or the offices of the taxpayer's authorized representative, provided such business or representative is located within a 50-mile radius of the city. Taxpayers maintaining records outside of this radius must make records available at city hall or at such other location as agreed upon by the department. The department, when conducting an audit, review, or examination for verification, may, at its election, require any taxpayer conducting business within the city to provide records, accounts, books, papers and other documents at a reasonable time and reasonable place agreed upon by the department, as provided herein.

b. *Taxpayer may be assessed reasonable costs.* As provided in Code of Ala. 1975, § 40-2A-6(d), the department may assess and collect from the taxpayer the reasonable costs, based on the then current state government employee per diem rates incurred by, or charged to, the city in connection with performing an examination of the taxpayer's books and records if the taxpayer received notice by certified U.S. mail, return receipt requested, at least 30 days prior to the date on which the examination was to commence; and:

1. The taxpayer either failed or refused to respond or did not propose a reasonable alternative date on which the examination was to commence within 15 days of receipt of notice of the pending examination; or

2. The taxpayer and the department agreed in writing as to an alternative date on which the examination was to commence but the taxpayer then failed or refused to permit reasonable access to its books and records on the alternative date.

c. *Leasing for re-leasing.* Any person leasing, who in addition leases for re-leasing, shall keep his or her books so as to show separately the gross proceeds of leasing and the gross proceeds of leasing for re-leasing.

(2) *Investigative powers.* Each taxpayer shall give to the director of finance the means, facilities and opportunity for the making of such audit, examination and investigation of the records, books, or other relevant information maintained by any taxpayer or other person for the purpose of computing and determining the correct amount of value or correct amount of tax as provided for in subsection (1) of this section. The director of finance is hereby authorized to examine any person under oath concerning any gross receipts or gross proceeds which were or should have been shown in a return, and to this end, he or she may compel the production of books, papers, records and the attendance of all persons before him or her, whether as parties or as witnesses, whom he or she believes to have knowledge of such gross receipts or gross proceeds. Any taxpayer, or officer of a corporation or association, or partner of a partnership, or fiduciary of a trust, or responsible individual of any entity under a duty to maintain books and records pursuant to this chapter, who fails or refuses to maintain or provide such records and books, or permit inspection, as required herein, shall be subject to the provisions of section 3A-5-10, and shall be subject to contempt proceedings in the circuit court.

(3) *Audit and subpoena authority; additional requirements.* Code of Ala. 1975, § 40-2A-7(a), outlines further requirements for the maintenance of records, in addition to the recordkeeping requirements set out in subsection (1) of this section. The department's authority to audit, to subpoena records, and to enter into contracts with private examining or collecting firms is granted pursuant to Act No. 98-191, the Local Tax Procedures Act of 1998, Act No. 98-192, the Local Tax Simplification Act of 1998, as well as Code of Ala. 1975, § 40-2A-7(a), except where inapplicable or where herein otherwise provided.

(Ord. No. 97-187, § 9, 12-23-1997; Ord. No. 98-110, § 1(9), 6-30-1998; Ord. No. 98-175, § 1(9), 11-10-1998)

Sec. 3A-5-9. Refunds.

(a) *Petitions for refund.* Any taxpayer may file a petition for refund with the department for any overpayment of tax erroneously paid to the department as provided in Code of Ala. 1975, § 40-2A-7(c)(1). If a final assessment for the tax has been entered by the department, a petition for refund of all or a portion of the tax may be filed only if the final assessment plus applicable interest has been paid in full prior to or with the filing of the petition for refund. The petition for the refund must be filed in writing by the taxpayer who paid the privilege or license tax to the department. Unless otherwise provided by law, all petitions for refund shall include sufficient information to identify the type and amount of tax overpaid, the taxpayer, the period included, and the reasons for the refund. Such petition shall be accompanied with sufficient supporting documentation as the department may deem necessary and proper.

(b) *Refund overpayment applied to other taxes.* Refund overpayments may be applied to other taxes as provided in Code of Ala. 1975, § 40-2A-7(c)(4). If a petition is granted by the department, or a court determines that a refund is due, the overpayment shall be refunded to the taxpayer by the department. If the department determines that a refund is due, the amount of overpayment may first be credited by the department against any outstanding tax liabilities due and owing by the taxpayer to the department, and the balance of any overpayment shall be refunded to the taxpayer. If any refund or part thereof is credited to any other tax, the department shall provide a written detailed statement to the taxpayer show-

ing the amount of overpayment, the amount credited for payment to other taxes, and the amount refunded.

(c) *Time limitations.*

(1) A petition for refund must be filed in writing with the department within three years from the date the return was filed or two years from the date of payment of the tax, whichever is later, or if no return was timely filed, two years from the date of the payment of the tax.

(2) The department shall either grant or deny a petition for refund within six months from the date the petition is filed, unless the period is extended by written agreement of the taxpayer and the department. The taxpayer shall be notified of the department's decision concerning the petition for refund by first class United States mail, or by certified mail, with return receipt requested, sent to the taxpayer's last known address. If the department is unable to grant a refund within the time provided herein due to the taxpayer's failure to provide adequate documentation, the petition for refund shall be deemed to be denied.

(3) The department and the taxpayer may, prior to the expiration of the period for the filing of a petition for refund, agree in writing to extend the time provided for filing the petition. The petition for refund may be filed at any time prior to the expiration of the period agreed upon. The period agreed upon may be extended by subsequent agreements in writing made before the expiration of the period previously agreed upon.

(d) *Interest on refunds.* On any overpayment of any lease/rental tax levied under any provisions of this chapter, the city, in addition to the amount of the overpayment, shall refund interest thereon at the rate of one percent per month, or fraction thereof, from the date of such overpayment on any refund of tax erroneously paid. References in this subsection to the term "erroneously paid taxes on which interest shall be due to the taxpayer" means and refers only to taxes erroneously paid to the city as a result of any error, omission, or inaccurate written advice by or on behalf of the city, including in connection with a prior examination of its books and records by the city.

(Ord. No. 97-187, § 10, 12-23-1997; Ord. No. 98-110, § 1(10), 6-30-1998; Ord. No. 98-175, § 1(10), 11-10-1998; Ord. No. 02-178, § 1(10), 12-10-2002)

Sec. 3A-5-10. Jeopardy; preliminary, final assessments and time limitations.

(a) *Jeopardy assessments.* All jeopardy assessments issued by the department shall be executed pursuant to Code of Ala. 1975, § 40-29-91(a), (b) and (c).

(1) If the director of finance finds that a taxpayer designs quickly to depart from the city or to remove his or her property therein or to do any other act tending to prejudice or to render wholly or partly ineffectual proceedings to collect any tax imposed by this chapter, the director of finance may issue notice of such finding to the taxpayer by personal service or mailing to the taxpayer's last known address, together with a demand for immediate payment of the tax declared to be in jeopardy, including, penalties and additions thereto and such taxes, penalty, interest, and additions thereto shall be immediately due and payable. A final assessment of such tax may be entered immediately and if the assessment is not paid upon such demand of the director, the director may forthwith issue a warrant for levy and distraint of any personal property of the taxpayer which shall be collected in the same manner and with the like effect as provided under section 3A-3-11.

(2) In the case of a tax for a current period, the director may declare the taxable period of the taxpayer immediately terminated and may at his or her discretion estimate the tax liability based upon the best information obtainable. Notice

of such finding and declaration shall be issued to the taxpayer in the same manner as in subsection (a)(1) of this section.

(3) When a jeopardy assessment has been made pursuant to subsection (a)(1) of this section, the collection of all or any part of such assessment may be stayed by filing with the director an approved bond conditioned upon the payment of the assessment together with applicable interest and cost of collection. The director shall have sole discretion to approve or disapprove the bond, but such approval shall not be unreasonably withheld.

(b) *Preliminary and final assessments.* All preliminary and final assessments issued by the department shall be executed as provided in Code of Ala. 1975, § 40-2A-7(b)(1)a and b, (b)(3), (b)(4) and Code of Ala. 1975, § 40-29-91. The terms "preliminary assessment" and "final assessment" shall have the respective meanings ascribed by section 3A-5-1 and Code of Ala. 1975, § 40-2A-3.

(1) *Entry of preliminary assessment.* If the department determines that the amount of any tax as reported on a return is incorrect, or if no return is filed, or if the department is required to determine value, the department may calculate the correct tax or value based on the most accurate and complete information reasonably obtainable by the department. The department may thereafter enter a preliminary assessment for the correct tax or value, including any applicable penalty and interest.

(2) *Service of preliminary assessment upon taxpayer.* The preliminary assessment entered by the department, or a copy thereof, shall be promptly mailed by the department to the taxpayer's last known address by either first class U.S. mail or certified mail with return receipt requested, but at the option of the department, the preliminary assessment may be delivered to the taxpayer by personal delivery.

a. *Disputed preliminary assessments.* If a taxpayer disagrees with a preliminary assessment as entered by the department, the taxpayer may file a written petition for review with the director of finance within 30 calendar days from the date of entry of the preliminary assessment, setting out the specific objections to the preliminary assessment and showing cause why such assessment should not be made final. If a petition for review is timely filed, or if the department otherwise deems it necessary, the department shall schedule a conference with the taxpayer for the purpose of allowing the taxpayer and the department to present their respective positions, discuss any omissions or errors, and to attempt to agree upon any changes or modifications to their respective positions.

b. *Written petition for appeal.* If a written petition for an appeal/review:

1. Is not timely filed; or

2. Is properly filed, and upon further review the department determines the preliminary assessment is due to be upheld in whole or in part, the department may make the assessment final in the amount of tax due as computed by the department, with applicable interest and penalty computed to the date of entry of the final assessment.

(3) *Service of final assessment upon taxpayer.* The final assessment entered by the department, or a copy thereof, shall be mailed by the department to the taxpayer's last known address by either: (i) first class U.S. mail or certified mail with return receipt requested in the case of assessments of tax of $500.00 or less; or (ii) certified mail with return receipt requested in the case of assessments of tax of more than $500.00. In either case and at the option of the department, the

final assessment, or a copy thereof, may be delivered to the taxpayer by personal delivery.

(4) *Undisputed preliminary assessments.* Where the amount of tax or value reported on a return is undisputed by the department, or the taxpayer consents in writing to the department's determination of the amount of any deficiency, determination of value, or preliminary assessment as provided by this chapter, the department may immediately enter a final assessment for the amount of the tax or value, plus applicable penalty and interest; provided, the department may at any time enter a final jeopardy assessment, pursuant to Code of Ala. 1975, § 40-29-91.

(c) *Time limitation for entering assessment.*

(1) Pursuant to Code of Ala. 1975, § 40-2A-7(b)(2), any preliminary assessment must be entered within three years from the due date of the return, or three years from the date the return was filed with the department, whichever is later, or if no return is required to be filed, within three years of the due date of the tax, except as follows:

a. A preliminary assessment may be entered at any time if no return is filed as required, or if a false or fraudulent return is filed with the intent to evade tax;

b. A preliminary assessment may be entered within six years from the due date of the return or six years from the date the return is filed with the department, whichever is later, if the taxpayer omits from the taxable base an amount properly includable therein which is in excess of 25 percent of the amount of the taxable base stated in the return.

For purposes of this paragraph:

1. The term "taxable base" means the gross proceeds from rentals/leases, gross receipts, or other amounts on which the tax paid with the return is computed; and

2. In determining the amount omitted from the taxable base, there shall not be taken into account any amount which is omitted from the taxable base stated in the return if the amount is disclosed in the return, or in a statement attached to the return, in a manner adequate to apprise the department of the nature and amount of the item.

c. A preliminary assessment entered pursuant to Code of Ala. 1975, §§ 40-29-72 and 40-29-73, may be entered within five years from the due date of the return on which the underlying tax is required to be reported or within five years of the date the return is filed, whichever is later.

(2) The department and the taxpayer may, prior to the expiration of the period for entering a preliminary assessment, agree in writing to extend the time provided for entering the assessment. The tax may be assessed at any time prior to the expiration of the period agreed upon. The period agreed upon may be extended by subsequent agreements in writing made before the expiration of the period previously agreed upon.

(3) Additional tax may be assessed by the department within any applicable period allowed above, even though a preliminary or final assessment has been previously entered by the department against the same taxpayer for the same or a portion of the same tax period.

Sec. 3A-5-11. Appeals.

(a) *Appeals from denial of refunds, jeopardy assessments and final assessments.* Appeals from denial of refunds, jeopardy assessments and

final assessments shall be executed as provided in Code of Ala. 1975, § 6-3-11. A written notice of appeals shall be filed with the department and shall contain information sufficient to:

(1) Identify the name of the taxpayer or other party filing such notice of appeal;

(2) Identify the specific matter appealed from;

(3) Outlined the basis for such appeal; and

(4) Specify the relief sought.

(b) *Appeal from refund denial.*

(1) A taxpayer may appeal from the denial in whole or in part of a petition for refund by filing a written notice of appeal with the circuit court within two years from the date the petition is denied. The circuit court shall hear the appeal according to its own rules and procedures and shall determine the correct amount of refund due, if any.

(2) If an appeal is not filed with the circuit court within two years of the date the petition is denied, then the appeal shall be dismissed for lack of jurisdiction.

(c) *Appeal from jeopardy assessment.*

(1) In any court proceeding to contest the jeopardy assessment or to enforce payment of the taxes made due and payable by virtue of the provisions of section 3A-5-10, the finding of the director of finance made as herein provided, shall be for all purposes presumptive evidence of jeopardy.

(2) A final jeopardy assessment entered hereunder may be appealed to either the director of finance or the circuit court. On appeal to the director of finance or to the circuit court, the final jeopardy assessment shall be prima facie correct, and the burden of proof shall be on the taxpayer to prove such assessment is incorrect.

(3) If an appeal is not filed with the director of finance or in the circuit court within the time provided herein for appeals of final assessments, the appeal shall be dismissed for lack of jurisdiction.

(d) *Appeal from preliminary assessment.* (Refer to section 3A-5-10(b)(2)a and b.)

(e) *Appeal from final assessment.*

(1) A taxpayer may appeal from any final assessment entered by the department by filing a written notice of appeal with the director of finance within 30 days from the date of entry of the final assessment, and the appeal if timely filed, shall proceed as herein provided.

(2) In lieu of the appeal under subsection (e)(1) of this section, at the option of the taxpayer, the taxpayer may appeal from any final assessment to the circuit court by filing written notice of appeal within 30 days from the date of entry of the final assessment with both the director of finance and the circuit court. If the appeal is to circuit court, the taxpayer must, also within the 30-day period, either: (i) pay the tax, interest, and any penalty shown on the final assessment; or (ii) file a supersedeas bond with the court in double the amount of the tax, interest, and any penalty shown on the final assessment. The supersedeas bond shall be executed by a surety company licensed and authorized to do business in the state and shall be conditioned to pay the assessment plus applicable interest, penalty and any court costs relating to the appeal. A taxpayer may appeal a final assessment to circuit court as provided herein, even though the taxpayer has paid the tax in issue prior to taking the appeal.

(3) The filing of the written notice of appeal with the director of finance or in the case of appeals to the circuit court, the filing of such notice of appeal with both the director of finance and the circuit court, and also the payment of the assessment in full and applicable interest and penalty or the filing of a bond as provided herein, are jurisdictional. If such prerequisites

are not satisfied within the time provided for appeal, the appeal shall be dismissed for lack of jurisdiction. On appeal to the circuit court or to the director of finance, the final assessment shall be prima facie correct, and the burden of proof shall be on the taxpayer to prove such assessment is incorrect.

(Ord. No. 97-187, § 12, 12-23-1997; Ord. No. 98-110, § 1(12), 6-30-1998; Ord. No. 98-175, § 1(12), 11-10-1998)

Sec. 3A-5-12. Penalties and interest.

(a) *Generally.* The provisions for penalties are pursuant to Code of Ala. 1975, § 40-2A-11; provided, however, the rates and amounts of penalties are as provided herein.

(b) *Failure to timely file return.* If a person fails, neglects, or refuses to file any return required to be filed with the department on or before the date prescribed therefor, or any extension of time for filing granted by the director of finance, there shall be assessed, in addition to the tax due or the amount of tax herein required to be remitted, a penalty of ten percent of the amount due or $50.00, whichever is greater, together with interest thereon at the rate of one percent per month or fraction thereof, from the date at which the tax herein levied became due and payable, such penalty and interest to be assessed and collected as part of the tax as provided in Code of Ala. 1975, § 40-2A-11(a).

(c) *Failure to timely pay tax.* If a taxable fails, neglects, or refuses to remit to the department the amount of tax shown as due on a return required to be filed on or before the date prescribed for payment of the tax, determined with regard to any extension of time for payment granted by the director of finance, there shall be added:

(1) In addition to the tax due or the amount of tax herein required to be remitted;

(2) For any tax which a monthly return is required; or

(3) For which no return is required;

a penalty of ten percent of the unpaid amount shown as tax due on the return or the amount stated in the notice and demand, together with interest thereon at the rate of one percent per month or fraction thereof, from the date at which the tax herein levied became due and payable as provided in Code of Ala. 1975, § 40-2A-11(b).

(d) *Underpayment of tax.* Any person failing to pay the tax herein levied to the city or any amount of tax herein required to be remitted and paid to the city, within the time required by this chapter shall pay, in addition to the tax or the amount of tax herein required to be remitted, a penalty of ten percent the amount of tax due plus interest at the rate of one percent per month, or fraction thereof, from the date at which the tax or the amount of tax herein required to be remitted became delinquent, that is, due and payable to the city.

(e) *Underpayment due to negligence.* If any part of any underpayment of tax is due to negligence or disregard of rules or regulations, there shall be added to the tax an amount equal to ten percent of that part of the tax attributable to negligence or disregard of rules and regulations. For the purpose of this section, the term "negligence" includes any failure to make a reasonable attempt to comply with this chapter, and the term "disregard" includes any careless, reckless or intentional disregard as provided in Code of Ala. 1975, § 40-2A-11(c).

(f) *Underpayment due to fraud.* If any part of any underpayment of tax required to be shown on a return is due to fraud, there shall be added to the tax an amount equal to 50 percent of that portion of the underpayment which is attributable to fraud. For purposes of this section, the term "fraud" shall have the same meaning as ascribed under Code of Ala. 1975, § 40-2A-11(d).

(g) *Frivolous appeal penalty.* If any appeal to the director of finance is determined to be frivolous or primarily for the purpose of delay or to impede collection of the tax imposed by this chapter, a penalty of $250.00 or 25 percent of the tax in question, whichever is greater, shall be assessed in addition to any tax due, as provided in Code of Ala. 1975, § 40-2A-11(f).

(h) *Penalties not exclusive.* The penalties provided in this section for failure to timely file a return, failure to timely pay tax, underpayment

of tax, underpayment due to negligence, or filing a frivolous appeal may be asserted against the same taxpayer for the same tax period, as provided in Code of Ala. 1975, § 40-2A-11(g). If the fraud penalty is asserted, no other penalties shall be asserted.

(i) *Waiver of penalties.* Penalties may be waived, in whole or in part, by the director of finance upon a determination of reasonable cause, pursuant to Code of Ala. 1975, § 40-2A-11(h). Reasonable cause shall include, but not be limited to, those instances in which the taxpayer has acted in good faith. The burden of proving reasonable cause shall be on the taxpayer.

(j) *Penalty and interest assessed as tax.* All penalties and interest, levied or assessed against a taxpayer and which are administered by the department shall be assessed and collected in the same manner as taxes. (See Code of Ala. 1975, §§ 40-2A-11(i), 40-29-72 and 40-29-73.)

(k) *Interest.* Interest shall be computed at the rate of one percent per month, or fraction thereof and shall be added as provided herein to any tax or other amount due the department which is not paid by the due date. Interest on any delinquency or underpayment shall be charged from the due date of the tax, as provided in Code of Ala. 1975, § 40-1-44.

(l) *Abatement of penalty.* The department shall abate any penalty attributable to erroneous written advice furnished to a taxpayer by an employee of the department. However, this subsection shall apply only if the department employee provided the written advice in good faith while acting in his official capacity, the written advice was reasonably relied on by the taxpayer and was in response to a specific written request of the taxpayer, and the penalty did not result from the taxpayer's failure to provide adequate or accurate information.

(m) *Penalty for failure to perform duties.* Any person required to collect, truthfully account for, and/or pay over any tax imposed by this chapter who willfully fails to collect such tax, or truthfully account for, and/or pay over such tax, or willfully attempts in any manner to evade or defeat any such tax or the payment thereof, shall, in addition to other penalties provided by law, be liable for a penalty up to the total amount of the tax evaded, or not collected, or not accounted for and paid over.

(Ord. No. 97-187, § 13, 12-23-1997; Ord. No. 98-110, § 1(13), 6-30-1998; Ord. No. 00-211, § 1(13), 12-12-2000)

Sec. 3A-5-13. Confidentiality of tax returns.

The confidentiality provisions imposed by this Code shall be executed as provided in Code of Ala. 1975, § 40-2A-10(a), (d), (e), (f) and (g).

(1) It shall be unlawful for any person to print, publish, or divulge, without the written permission or approval of the taxpayer, the tax return of any taxpayer or any part thereof or any information secured in arriving at the amount of tax or value reported for any purpose other than the proper administration of any matter administered by the department, or upon order of any court, or as otherwise allowed in this section. Statistical information pertaining to taxes may be disclosed at the discretion of the director of finance. The director of finance may make written or verbal disclosure upon request as to the status of compliance of the taxpayer relative to this Code.

(2) A good standing certificate shall be issued to a requesting person with respect to a taxpayer, if the taxpayer has filed all tax returns due, and paid the taxes shown as payable in accordance with those returns.

(3) The director of finance shall promulgate reasonable regulations permitting and governing the exchange of tax returns, information, records, and other documents secured by the department, with tax officers of other agencies of the state, municipal, and county government agencies within the state, federal government agencies, any association of state government tax agencies of the state or other states, and any foreign government tax agencies, however:

a. Any tax returns, information, records, or other documents remain

subject to the confidentiality provisions set forth in subsection (1) of this section;

b. The department may charge a reasonable fee for providing information or documents for the benefit of the requesting agencies; and

c. Any exchange shall be for one or more of the following purposes:

1. Collecting taxes due.
2. Ascertaining the amount of taxes due from any person.
3. Determining whether a person is liable for, or whether there is probable cause for believing a person might be liable for the payment of any tax.

(4) Nothing herein shall prohibit the use of tax returns or tax information by the department in the enforcement, collection, and assessment of any tax levied or imposed by this Code, or any other matters administered by the department. The department may also divulge to a purchaser or successor of a business or stock of goods the outstanding taxes of which the purchaser or successor may be liable pursuant to Code of Ala. 1975, § 40-12-224. This section shall not preclude the inspection of returns by federal or foreign state agents pursuant to Code of Ala. 1975, § 40-18-53.

(5) Nothing herein shall prohibit the exchange of information between and among county or municipal governments subject to the restrictions of this section.

(6) In no event shall any damages, attorney fees, or court costs be assessed against the city or against its elected officials, officers or employees under this section.

(Ord. No. 97-187, § 14, 12-23-1997; Ord. No. 98-110, § 1(14), 6-30-1998)

Sec. 3A-5-14. Regulations may be promulgated; payments due taxpayers may be withheld.

(a) *Regulations may be promulgated.*

(1) The director of finance shall from time to time promulgate rules and regulations for making returns and for ascertainment, assessment and remittance of the tax imposed hereunder as the director may deem necessary to enforce its provisions; and upon request shall furnish any taxpayer with a copy of such rules and regulations.

(2) The director of finance may prescribe, adopt, promulgate and enforce reasonable rules and regulations not in conflict with this chapter relating to any matter or thing pertaining to the administration and enforcement of the provisions of this chapter, including but not limited to provisions for the re-examination and correction of returns as to which overpayment or underpayment is claimed or found to have been made, and the rules and regulations so promulgated shall be binding upon all taxpayers.

(3) The director of finance shall prescribe printed forms for use by persons subject to the provisions of this chapter and shall make such forms available at the director's office for use by such persons.

(b) *Payments due taxpayers may be withheld.* Pursuant to the Mayor-Council Act, article VI, section 6.04(o), Act No. 452-55, Acts of Alabama, the director of finance, in order to protect the interests of the city, is authorized to withhold the payment of any claim or demand for payment of monies due from the city to any vendor, contractor, consultant or other person having unpaid or delinquent tax or license liabilities until such unpaid tax, including applicable interest and penalties, shall first have been settled and adjusted. The director of finance shall notify the taxpayer by certified mail with return receipt requested, sent to the taxpayer's last known address, of the director's intention to make such levy, the effect of which shall be continuous from the date such levy is first made until the liability out of which such levy arose is satisfied.

(Ord. No. 97-187, § 15, 12-23-1997)

Sec. 3A-5-15. Purchaser to withhold taxes due from purchase money or be liable.

If any person subject to the provisions hereof shall sell out his business or stock of goods, or

shall quit the business, he shall be required to make a final return, as provided for under section 3A-5-5, and shall make payment of the taxes due within 30 days after the date of selling or quitting business. His successor in business shall be required to withhold sufficient of the purchase money to cover the amount of said taxes herein required to be remitted, and any interest or penalties due and unpaid until such time as the former owner shall produce a receipt from the department showing that the taxes have been paid, or a certificate stating that no taxes are due. If the purchaser of a business or stock of goods shall fail to withhold purchase money as provided herein, and the taxes remain due and unpaid after the 30 day period allowed, he shall be personally liable for the payment of the taxes herein required to be remitted, interest, and penalties accrued and unpaid on account of the operation of the business by the former owner. If in such cases the department deems it necessary in order to collect the taxes due the city, it may make a jeopardy assessment as provided in Code of Ala. 1975, title 40, ch. 29.
(Ord. No. 97-187, § 16, 12-23-1997)

Sec. 3A-5-16. Disposition of funds derived from taxes.

(Ord. No. 97-187, § 17, 12-23-1997; Ord. No. 98-110, § 1(17), 6-30-1998)

Sec. 3A-5-17. Bond requirements.

For the purpose of securing the payment of any lease tax, penalties, or interest due or which may become due under the provisions of this chapter, every itinerant vendor engaged in the business of leasing/renting tangible personal property in the city shall be required to file a bond to be approved by the director of finance, conditioned upon the payment of any tax, penalty, or interest due or to become due under this chapter and upon faithful observance of the provisions of this chapter.

(1) Such bond shall:
   a. Be effective for a period of one year from date of issuance;
   b. Be in an amount equal to the tax estimated due or to become due under the provisions of this chapter, but in no event shall said bond be less than $1,000.00 nor more than three percent of anticipated gross proceeds, whichever is greater, as fixed by the director of finance; and
   c. Have a surety or sureties satisfactory to the director of finance; or

(2) Said itinerant vendor may deposit in cash said sum, which shall be estimated by the director of finance to be due or to become due under the provisions of this chapter.

If such itinerant vendor fails to make any return due under this chapter or to pay any taxes or penalties due hereunder, or to keep books and records as required by this chapter, or fails to perform any other duty or obligation imposed on him under this chapter, such bond, or cash deposited in lieu thereof, shall thereupon be forfeited, and the department shall institute an action upon such bond in the name of the city for the entire amount of said bond and costs.
(Ord. No. 97-187, § 18, 12-23-1997; Ord. No. 98-175, § 1(18), 11-10-1998)

Sec. 3A-5-18. Credit for lease/rental tax erroneously paid.

(a) *Taxes due the city which were erroneously paid to another municipality.*

(1) *Taxpayer's requirement to request refund of erroneous tax payment within 60 days of notice to avoid interest, penalties.* In order to avoid the accrual of interest and any otherwise applicable penalties on the tax due the city, when a lease/rental tax owed to the city is erroneously paid to a different municipality or county in good faith, based on a reasonable interpretation of the enabling ordinance, resolution, or act levying or authorizing the tax, but not under a requirement of law, the taxpayer making the erroneous payment must comply with the applicable refund procedures of such municipality or county within 60 days of receiving

notice from the city, a county, or other municipality or its agent of the erroneous payment.

(2) *Compliance with refund procedure; interest, penalties.* If the taxpayer complies with the refund procedure within the requisite 60-day period, the city shall not assess or attempt to assess the tax, or any related interest or otherwise applicable penalty thereon until the date of receipt of the overpayment from the refunding municipality or county by the taxpayer or the taxpayer's agent, and no interest or penalty thereon shall accrue until such date of receipt. The taxpayer shall remit the disputed tax to the city within 15 days after receipt.

(3) *Failure to comply with refund procedure; interest, penalties.* If the taxpayer fails to comply with the refund procedures within the requisite 60-day period, interest and any applicable penalties shall accrue on the tax to which the city is entitled from the 61st day and until such time as the tax is paid.

(b) *Taxes due to another municipality which were erroneously paid to the city.*

(1) *City's requirement to refund overpayment of erroneous tax payment within 60 days of compliance with refund procedures.* If a lease/rental tax owed to another municipality or county is erroneously paid to the city in good faith, based on a reasonable interpretation of the enabling ordinance, resolution, or act levying or authorizing the lease/rental tax, but not under a requirement of law, the city shall refund the overpaid tax, without interest, to the taxpayer within 60 days of the taxpayer's compliance with applicable refund procedures provided in section 3A-5-9.

(2) *Refund of excess tax; requirements.* Provided, however, that if the applicable rate of lease/rental tax imposed by the city exceeds the rate of lease/rental tax imposed by the proper locality under a requirement of law, the city shall not be obligated to refund the difference.

(Ord. No. 98-110, § 1(21), 6-30-1998)

Sec. 3A-5-19. Collection after assessment.

The tax herein required to be remitted may be collected by levy as provided in Code of Ala. 1975, § 40-29-51, as follows:

(1) *Length of period.* Where the assessment of any tax imposed by this chapter has been begun or made within the period of limitation properly applicable thereto, such tax may be collected by levy or by a proceeding in court, but only if the levy is made or the proceeding begun:

a. Within the period allowed by law after the final assessment of the tax; or

b. Prior to the expiration of any period for collection agreed upon in writing by the director of finance and the taxpayer before the expiration of such period allowed by law, (or, if there is a release of levy under Code of Ala. 1975, § 40-29-34, after such period allowed by law, then before such release).

The period so agreed upon may be extended by subsequent agreements in writing made before the expiration of the period previously agreed upon. The period allowed by law as provided in this subsection during which a tax may be collected by levy shall not be extended or curtailed by reason of a judgment against the taxpayer.

Pursuant to Code of Ala. 1975, §§ 40-29-20, 40-29-21 and 11-51-96, the provisions of this section shall apply to the taxes, and/or any penalty or interest payable thereon, levied under this chapter.

(1) *Notice.* If any person liable to pay the privilege or license tax herein levied, neglects or refuses to pay the same within 30 days of the final assessment, the amount (including any interest, additional amount, addition to tax, or assessable penalty together with filing fees and any other costs that may accrue in addition thereto) shall be a lien in favor of the city upon all property and rights to property, whether real or personal, tangible or intangible, used in any exhibition, trade, business, vocation, occupation or profession for which a privilege or license tax is or may be required. The department shall give a 30-day notice of intent to file lien to the taxpayer by any one of the following methods:

a. Given in person;

b. Left at the dwelling or usual place of business of such person; or

c. Sent by certified mail with return receipt requested to the taxpayer's last known address.

(2) *Term.* Unless another date is specifically fixed by law, the lien imposed by subsection (1) of this section shall arise at the time the final assessment, return therefor or the payment thereof, whichever is prior, was due to have been filed with or made to the department, and shall continue until the liability for the amount so assessed (or a judgment against the taxpayer arising out of such liability) is satisfied or becomes unenforceable by reason of lapse of time.

(3) *Right to enforce by attachment.* The department may enforce such lien in any court of competent jurisdiction, by attachment issued by any officer authorized to issue such writs, upon executing bond as in other cases of attachment, and upon making affidavit that the attachment is not sued out for the purpose of vexing or harassing the defendant, and describing the property on which the lien is claimed and setting forth all the facts necessary to the creation of the lien, and amount due and unpaid, (including any interest, additional amount, addition to tax, or assessable penalty together with filing fees and any other costs that may accrue in addition thereto).

(4) *Release.* With respect to a lien described in this section, the director of finance shall, within ten days, release the lien when the liability out of which such lien arose is satisfied, and shall promptly notify the person upon whom such lien was made that such lien has been released.

(Ord. No. 97-187, § 25, 12-23-1997)

Sec. 3A-5-22. Violator may be restrained from continuing in business.

Any taxpayer who shall violate any of the provisions of this chapter may be restrained from continuing in business, and proper prosecution shall be instituted in the name of the city until such person shall have compiled with the provisions of this chapter.

regularly furnished to transients for a consideration, there is hereby imposed, in addition to all other taxes of every kind now imposed by law, a privilege or license tax, in an amount to be determined by the application of the rate of six and one-half percent of the charge of such room, rooms, lodgings, or accommodations, including the charge for use or rental of personal property and services furnished in such rooms.

(2) *Additional tax.* In addition to the tax levied in subsection (1), above, there is hereby imposed an additional charge of $3.00 per night per room on each person, firm, or corporation engaging or continuing within this city in the business of renting or furnishing any room or rooms, lodgings, or accommodations to transients in any hotel, motel, inn, tourist camp, tourist cabin, or any other place in which rooms, lodgings, or accommodations are regularly furnished to transients for a consideration to be used exclusively for sports and entertainment recruitment and development, tourism and infrastructure improvements.

(b) *Special.* Special exemptions from the taxes imposed by this chapter are allowed in all other instances where the lodgings taxes levied under Code of Ala. 1975. tit. 40, ch. 26, are exempted under any other provision of Code of Ala. 1975.

Sec. 3A-6-4. License required to engage in business.

If any person shall engage in or continue in any business for which a privilege tax is imposed by section 3A-6-2 as a condition precedent to engaging or continuing in such business, he or she shall apply for and obtain from the department a license to engage in and to conduct such business for the current tax year upon the condition that he or she shall pay the taxes accruing to the city under the provisions of this chapter; provided that no license shall be issued under the provisions of this chapter to any person who has not complied with the provisions of this chapter, and no provision of this chapter shall be construed as relieving any person from the payment of any license or privilege tax now or hereafter imposed by law.
(Ord. No. 02-113, 7-30-2002; Ord. No. 02-177, § 4, 12-10-2002)

Sec. 3A-6-5. Filing of returns; payment of the tax; annual return and payment; bulk submissions.

(a) *Due date and contents of returns; payment of the tax.* The taxes levied under the provisions of this chapter shall be due and payable in monthly installments on or before the 20th day of the month next succeeding the month in which the tax accrues. On or before the 20th day of each month, every person on whom the amounts

levied hereunder are imposed shall report to the department, on a form prescribed by the department, a true and correct statement showing:

(1) The gross proceeds or gross receipts, as the case may be, of the business from the renting or furnishing of any rooms, lodgings, or accommodations, including any charges for the use or rental of personal property and services furnished in such rooms, lodgings or accommodations, for the current reporting period;

(2) The amount of gross receipts which are not subject to the privilege or license tax, or are not to be used as a measure of the taxes due by such person, and the nature thereof;

(3) The amount of lodgings tax due based on those gross receipts reported;

(4) The number of rooming nights accrued during the reporting period;

(5) The correct reporting period; and

(6) Such other pertinent information as the department may deem necessary.

At the time of making such monthly report such person shall compute the privilege license taxes due and shall pay to the city the amounts shown to be due.

(b) *Annual return and payment.* In addition to the monthly return required by this section, on or before January 31 of each year, each person, firm, or corporation liable for the payment of a privilege tax as levied by this chapter shall make a return showing the gross proceeds of the business during the preceding year and compute the amount of tax chargeable against him or her or it in accordance with the provisions of this chapter, and deduct the amount of monthly payments as hereinbefore provided, if any have been made, and transmit with this report a remittance in the form required by this chapter covering the residue of the tax chargeable against him or her, to the department, and such report shall be verified by oath.

(c) *Taxpayer's responsibility when no form received.* The department is authorized to provide prescribed printed forms necessary for compliance with the filing requirements outlined in this section. Failure of the taxpayer to receive forms from the department does not relieve the taxpayer of the responsibility of the timely reporting of the information required on the return, nor the timely payment of the tax.

(d) *Timely mailing treated as timely filing and paying.* The provisions outlined in this section for the timely filing of any returns, payments, claims, statements, or other documents shall be administered as herein provided.

(1) *Date of delivery.* If any return, claim, statement, or other document required to be filed, or any payment required to be made, within a prescribed period or on or before a prescribed date under the authority of any provision of this chapter is, after such period or such date, delivered by United States mail to the finance department or to the department's designated depository where such return, claim, statement, or other document is required to be filed, or to which such payment is required to be made, the date of the United States postmark stamped on the cover in which such return, claim, statement, or other document, or payment, is mailed shall be deemed to be the date of delivery, or the date of payment, as the case may be; provided, however:

a. *Weekends and holidays.* When the due date falls on a Saturday, Sunday, or city holiday, payment of the tax may be made without penalty on the first working day following the due date.

b. *Mailing requirements.* The return, claim, statement, or other document, or payment was, within the time prescribed in subsection (d)(1) of this section, deposited in the mail in the United States in an envelope or other appropriate wrapper, postage prepaid, properly addressed to the finance department or to the department's designated depository where such return, claim, statement, or other document is required to be filed, or to where such payment is required to be made.

(2) *Delivery by method other than United States mail.* Returns, claims, statements, or other documents, or payments which are required under any provision of this chapter which are delivered by any method other than by mailing shall be considered timely filed when such items are received in the finance department or the department's designated depository on the due date prescribed.

(3) *Untimely filing.* Any return, payment, claim, statement, or other document not received in accordance with the provisions of this section shall be deemed

untimely filed and shall be assessed applicable penalties and interest as prescribed by the relevant sections of this chapter.

(e) *Bulk submissions.* The department may accept, for reporting and payment of taxes due the city, bulk submissions of reports, and under regulations promulgated by the department, payments owed to the city made on behalf of the taxpayer by its properly authorized representative where such submissions are made using the appropriate form prescribed by the department, as provided in Code of Ala. 1975, § 11-51-210(d). Any such bulk submissions of reports and payments shall include:

(1) The city's assigned taxpayer identification number for each such taxpayer for each tax paid; and

(2) Sufficiently detailed information by which each taxpayer can be identified such that a determination can be made as to the amount and method of assessment of tax against such taxpayer for the city.

The acceptance by the city of such bulk submissions shall not relieve the taxpayer on whose behalf such submissions were made from liability for any lodgings tax arising from an error or omission made by the taxpayer's representative. Such bulk submission shall be signed by the taxpayer or its properly authorized representative.
(Ord. No. 02-113, 7-30-2002; Ord. No. 02-177, § 5, 12-10-2002)

Sec. 3A-6-6. Extension of time for making return.

The director of finance, for reasonable cause, may extend the time for making any return required under the provisions of this chapter, however, the time for filing any such return shall not be extended for a period greater than 30 days from the date such return is due to be made and shall not prevent penalty and interest from accruing during the period of such extension.
(Ord. No. 02-113, 7-30-2002; Ord. No. 02-177, § 6, 12-10-2002)

Sec. 3A-6-7. Oaths.

The monthly reports herein required to be made are not required to be made under oath, but wherever in this chapter any report is required to be sworn to, the same shall be sworn to by the taxpayer or his or her agent before some officer authorized to administer oaths, and any false statement to a material fact made with intent to defraud shall constitute perjury and upon conviction thereof the person so convicted shall be punished as provided in section 1-1-6, as amended and as may be amended.
(Ord. No. 02-113, 7-30-2002; Ord. No. 02-177, § 8, 12-10-2002)

Sec. 3A-6-8. Maintenance of records; investigative powers; audit and subpoena authority.

The provisions of this section shall be administered in accordance with the procedures set forth in Code of Ala. 1975, § 40-2A-7(a).

(1) *Records to be kept.* It shall be the duty of every person, firm or corporation engaging or continuing in this city in any business for which a privilege or license tax is imposed by this chapter, to keep and preserve an accurate and complete set of records suitable for the determination of the correct amount of gross receipts or gross proceeds of any such business and such other books or accounts as may be necessary to determine the amount of tax for which such person is liable under the provisions of this chapter. It shall be the duty of every person, firm or corporation furnishing rooms, lodgings, or accommodations in this city to keep and preserve for a period of not less than five years from the due date of the return on which the underlying tax is required to be reported, or five years of the date the return is filed, whichever is later, all invoices of gross proceeds, or gross receipts, and other pertinent papers, in such form as the city may require, proceeding or accruing from the furnishing of rooms, lodgings, or accommodations herein taxed. All such books, invoices, equipment and other records shall be open for

examination by the department, upon request, at a reasonable time and location.

a. *Reasonable time and reasonable location.* Reasonable time shall be considered to be during normal business hours of the department. Reasonable location shall be considered to be the taxpayer's place of business or the offices of the taxpayer's authorized representative, provided such business or representative is located within a 50-mile radius of the city. Taxpayers maintaining records outside of this radius must make records available at city hall or at such other location as agreed upon by the department. The department, when conducting an audit, review, or examination for verification, may, at its election, require any taxpayer conducting business within the city to provide records, accounts, books, papers and other documents at a reasonable time and reasonable place agreed upon by the department, as provided herein.

b. *Taxpayer may be assessed reasonable costs.* As provided in Code of Ala. 1975, § 40-2A-6(d), the department may assess and collect from the taxpayer, the reasonable costs, based on the then current state government employee per diem rates incurred by, or charged to, the city in connection with performing an examination of the taxpayer's books and records if the taxpayer received notice by certified U.S. mail, return receipt requested, at least 30 days prior to the date on which the examination was to commence and the:

1. Taxpayer either failed or refused to respond or did not propose a reasonable alternative date on which the examination was to commence within 15 days of receipt of notice of the pending examination; or

2. Taxpayer and the department agreed in writing as to an alternative date on which the examination was to commence but the taxpayer then failed or refused to permit reasonable access to its books and records on the alternative date.

(2) *Investigative powers.* Each taxpayer shall give to the director of finance the means, facilities and opportunity for the making of such audit, examination and investigation of the records, books, or other relevant information maintained by any taxpayer or other person for the purpose of computing and determining the correct amount of value or the correct amount of tax as provided for in subsection (1) of this section. The director of finance is hereby authorized to examine any person under oath concerning any gross receipts or gross proceeds which were or should have been shown in a return, and to this end, he or she may compel the production of books, papers, records and the attendance of all persons before him or her, whether as parties or as witnesses, whom he or she believes to have knowledge of such gross receipts or gross proceeds. Any taxpayer, or officer of a corporation or association, or partner of a partnership, or fiduciary of a trust, or responsible individual of any entity under a duty to maintain books and records pursuant to this chapter, who fails or refuses to maintain or provide such records and books, or permit inspection, as required herein, shall be subject to the provisions of section 3A-6-10, and shall be subject to contempt proceedings in the circuit court.

(3) *Audit and subpoena authority; additional requirements.* Code of Ala. 1975, § 40-2A-7(a), outlines further requirements for the maintenance of records, in addition to the recordkeeping requirements set

out in subsection (1) of this section. The department's authority to audit, to subpoena records, and to enter into contracts with private examining or collecting firms is granted pursuant to Act No. 98-191, the Local Tax Procedures Act of 1998, Act No. 98-192, the Local Tax Simplification Act of 1998, as well as Code of Ala. 1975, § 40-2A-7(a), except where inapplicable or where herein otherwise provided.

(Ord. No. 02-113, 7-30-2002; Ord. No. 02-177, § 9, 12-10-2002)

Sec. 3A-6-9. Refunds.

(a) *Petitions for refund.* Any taxpayer may file a petition for refund with the department for any overpayment of tax erroneously paid to the department as provided in Code of Ala. 1975, § 40-2A-7(c)(1). If a final assessment for the tax has been entered by the department, a petition for refund of all or a portion of the tax may be filed only if the final assessment plus applicable interest has been paid in full prior to or with the filing of the petition for refund. The petition for the refund must be filed in writing by the taxpayer who paid the privilege or license tax to the department. Unless otherwise provided by law, all petitions for refund shall include sufficient information to identify the type and amount of tax overpaid, the taxpayer, the period included, and the reasons for the refund, and sufficient documentation as required by the director of finance.

(b) *Refund overpayment applied to other taxes.* Refund overpayments may be applied to other taxes as provided in Code of Ala. 1975, § 40-2A-7(c)(4). If a petition is granted by the department, or a court determines that a refund is due, the overpayment shall be refunded to the taxpayer by the department. If the department determines that a refund is due, the amount of overpayment may first be credited by the department against any outstanding final tax liabilities due and owing by the taxpayer to the department, and the balance of any overpayment shall be refunded to the taxpayer. If any refund or part thereof is credited to any other tax by the department, the department shall provide a written detailed statement to the taxpayer showing the amount of overpayment, the amount credited for payment to other taxes, and the amount refunded.

(c) *Time limitations.*

(1) A petition for refund must be filed in writing with the department within:

a. Three years from the date the return was filed;

b. Two years from the date of payment of the tax, whichever is later; or

c. If no return was timely filed, two years from the date of the payment of the tax.

(2) The department shall either grant or deny a petition for refund within six months from the date the petition is filed, unless the period is extended by written agreement of the taxpayer and the department. The taxpayer shall be notified of the department's decision concerning the petition for refund by first class United States mail, or by certified mail, with return receipt requested, sent to the taxpayer's last known address. If the department is unable to grant a refund within the time provided herein due to the taxpayer's failure to provide adequate documentation, the petition for refund shall be deemed to be denied.

(3) The department and the taxpayer may, prior to the expiration of the period for the filing of a petition for refund, agree in writing to extend the time provided for filing the petition. The petition for refund may be filed at any time prior to the expiration of the period agreed upon. The period agreed upon may be extended by subsequent agreements in writing made before the expiration of the period previously agreed upon.

(d) *Interest on refunds.* On any overpayment of any lodgings tax levied under any provisions of this chapter, the city, in addition to the amount of the overpayment, shall refund interest thereon at the rate of one percent per month, or fraction thereof, from the date of such overpay-

ment on any refund of tax erroneously paid. As provided in Code of Ala. 1975, § 11-51-208(f), references in this subsection to the term "erroneously paid taxes on which interest shall be due to the taxpayer" means and refers only to taxes erroneously paid to the city as a result of any error, omission, or inaccurate written advice by or on behalf of the city, including in connection with a prior examination of its books and records by the city.
(Ord. No. 02-113, 7-30-2002; Ord. No. 02-177, § 10, 12-10-2002)

Sec. 3A-6-10. Jeopardy, preliminary, final assessments and time limitations.

(a) *Jeopardy assessments.* All jeopardy assessments issued by the department shall be executed pursuant to Code of Ala. 1975, § 40-29-91(a), (b) and (c).

(1) If the director of finance finds that a taxpayer designs quickly to depart from the city or to remove his or her property therein or to do any other act tending to prejudice or to render wholly or partly ineffectual proceedings to collect any tax imposed by this chapter, the director of finance may issue notice of such finding to the taxpayer by personal service or mailing to the taxpayer's last known address, together with a demand for immediate payment of the tax declared to be in jeopardy, including, penalties and additions thereto and such taxes, penalty, interest, and additions thereto shall be immediately due and payable. A final assessment of such tax may be entered immediately and if the assessment is not paid upon such demand of the director, the director may forthwith issue a warrant for levy and distraint of any personal property of the taxpayer which shall be collected in the same manner and with the like effect as provided under section 3A-3-11.

(2) In the case of a tax for a current period, the director may declare the taxable period of the taxpayer immediately terminated and may at his or her discretion estimate the tax liability based upon the best information obtainable. Notice of such finding and declaration shall be issued to the taxpayer in the same manner as in subsection (a)(1) of this section.

(3) When a jeopardy assessment has been made pursuant to subsection (a)(1) of this section, the collection of all or any part of such assessment may be stayed by filing with the director an approved bond conditioned upon the payment of the assessment together with applicable interest and cost of collection. The director shall have sole discretion to approve or disapprove the bond, but such approval shall not be unreasonably withheld.

(b) *Preliminary and final assessments.* All preliminary and final assessments issued by the department shall be executed as provided in Code of Ala. 1975, §§ 40-2A-7(b)(1)a and b, (b)(3), (b)(4) and 40-29-91. The terms "preliminary assessment" and "final assessment" shall have the respective meanings ascribed by Code of Ala. 1975, § 40-2A-3.

(1) *Entry of preliminary assessment.* If the department determines that the amount of any tax as reported on a return is incorrect, or if no return is filed, or if the department is required to determine value, the department may calculate the correct tax or value based on the most accurate and complete information reasonably obtainable by the department. The department may thereafter enter a preliminary assessment for the correct tax or value, including any applicable penalty and interest.

(2) *Service of preliminary assessment upon taxpayer.* The preliminary assessment entered by the department, or a copy thereof, shall be promptly mailed by the department to the taxpayer's last known address by either first class U.S. mail or certified mail with return receipt requested, but at the option of the department, the preliminary assessment may be delivered to the taxpayer by personal delivery.

a. *Disputed preliminary assessments.* If a taxpayer disagrees with a

preliminary assessment as entered by the department, the taxpayer may file a written petition for review with the director of finance within 30 calendar days from the date of entry of the preliminary assessment, setting out the specific objections to the preliminary assessment and showing cause why such assessment should not be made final. If a petition for review is timely filed, or if the department otherwise deems it necessary, the department shall schedule a conference with the taxpayer for the purpose of allowing the taxpayer and the department to present their respective positions, discuss any omissions or errors, and to attempt to agree upon any changes or modifications to their respective positions.

b. If a written petition for an appeal/review:

1. Is not timely filed; or

2. Is properly filed, and upon further review the department determines the preliminary assessment is due to be upheld in whole or in part, the department may make the assessment final in the amount of tax due as computed by the department, with applicable interest and penalty computed to the date of entry of the final assessment.

(3) *Service of final assessment upon taxpayer.* The final assessment entered by the department, or a copy thereof, shall be mailed by the department to the taxpayer's last known address:

a. By either first class U.S. mail or certified mail with return receipt requested in the case of assessments of tax of $500.00 or less; or

b. By certified mail with return receipt requested in the case of assessments of tax of more than $500.00.

In either case and at the option of the department, the final assessment, or a copy thereof, may be delivered to the taxpayer by personal delivery.

(c) *Time limitation for entering assessment.*

(1) Pursuant to Code of Ala. 1975, § 40-2A-7(b)(2), any preliminary assessment must be entered within three years from the due date of the return, or three years from the date the return was filed with the department, whichever is later, or if no return is required to be filed, within three years of the due date of the tax, except as follows:

a. A preliminary assessment may be entered at any time if no return is filed as required, or if a false or fraudulent return is filed with the intent to evade tax;

b. A preliminary assessment may be entered within six years from the due date of the return or six years from the date the return is filed with the department, whichever is later, if the taxpayer omits from the taxable base an amount properly includable therein which is in excess of 25 percent of the amount of the taxable base stated in the return. For purposes of this subsection:

1. The term "taxable base" means the gross proceeds from renting, or furnishing any room, lodging or accommodation to transients in any hotel, motel, inn, tourist camp, tourist cabin or any other place in which rooms, lodgings or accommodations are regularly furnished to transients for a consideration, gross receipts or other amounts on which the tax paid with the return is computed; and

2. In determining the amount omitted from the taxable base, there shall not be taken into

account any amount which is omitted from the taxable base stated in the return if the amount is disclosed in the return, or in a statement attached to the return, in a manner adequate to apprise the department of the nature and amount of the item.

c. A preliminary assessment entered pursuant to Code of Ala. 1975, §§ 40-29-72 and 40-29-73, may be entered within five years from the due date of the return on which the underlying tax is required to be reported or within five years of the date the return is filed, whichever is later.

(2) The department and the taxpayer may, prior to the expiration of the period for entering a preliminary assessment, agree in writing to extend the time provided for entering the assessment. The tax may be assessed at any time prior to the expiration of the period agreed upon. The period agreed upon may be extended by subsequent agreements in writing made before the expiration of the period previously agreed upon.

(3) Additional tax may be assessed by the department within any applicable period allowed above, even though a preliminary or final assessment has been previously entered by the department against the same taxpayer for the same or a portion of the same tax period.

(Ord. No. 02-113, 7-30-2002; Ord. No. 02-177, § 11, 12-10-2002)

Sec. 3A-6-11. Appeals.

(a) Appeals from denial of refunds, jeopardy assessments, and final assessments shall be executed as provided in Code of Ala. 1975, § 6-3-11. A written notice of appeal shall be filed with the department and shall contain information sufficient to:

(1) Identify the name of the taxpayer or other party filing such notice of appeal,

(2) Identify the specific matter appealed from,

(3) Outlined the basis for such appeal, and

(4) Specify the relief sought.

(b) *Appeal from refund denial.*

(1) A taxpayer may appeal from the denial in whole or in part of a petition for refund by filing a written notice of appeal with the circuit court within two years from the date the petition is denied. The circuit court shall hear the appeal according to its own rules and procedures and shall determine the correct amount of refund due, if any.

(2) If an appeal is not filed with the circuit court, within two years of the date the petition is denied, then the appeal shall be dismissed for lack of jurisdiction.

(c) *Appeal from jeopardy assessment.*

(1) In any court proceeding to contest the jeopardy assessment or to enforce payment of the taxes made due and payable by virtue of the provisions of section 3A-6-10, the finding of the director of finance made as herein provided, shall be for all purposes presumptive evidence of jeopardy.

(2) A final jeopardy assessment entered hereunder may be appealed to either the director of finance or the circuit court in the same manner as provided in subsection (e) of this section for the appeal of final assessments. On appeal to the director of finance or to the circuit court, the final jeopardy assessment shall be prima facie correct, and the burden of proof shall be on the taxpayer to prove such assessment is incorrect.

(3) If an appeal is not filed with the director of finance or in the circuit court within the time provided herein for appeals of final assessments, the appeal shall be dismissed for lack of jurisdiction.

(d) *Appeal from preliminary assessment.* (Refer to section 3A-6-10(b)(2)a and b.)

(e) *Appeal from final assessment.*

(1) A taxpayer may appeal from any final assessment entered by the department by filing a written notice of appeal with the director of finance within 30 days from the date of entry of the final assessment, and the appeal if timely filed, shall proceed as herein provided.

(2) In lieu of the appeal under subsection (e)(1) of this section, at the option of the taxpayer, the taxpayer may appeal from any final assessment to the circuit court by filing written notice of appeal within 30 days from the date of entry of the final assessment with both the director of finance and the circuit court. If the appeal is to circuit court, the taxpayer shall, also within the 30-day period allowed for appeal either:

a. Pay the tax, interest, and any penalty shown on the final assessment, or

b. File a supersedeas bond with the court in double the amount of the tax, interest, and any penalty shown on the final assessment. The supersedeas bond shall be executed by a surety company licensed and authorized to do business in the state and shall be conditioned to pay the assessment plus applicable interest, penalty, and any court costs relating to the appeal. A taxpayer may appeal a final assessment to circuit court as provided herein, even though the taxpayer has paid the tax in issue prior to taking the appeal.

(3) The filing of the written notice of appeal with the director of finance or, in the case of appeals to the circuit court, the filing of such notice of appeal with both the director of finance and the circuit court, and also the payment of the assessment in full and applicable interest and penalty or the filing of a bond as provided herein, are jurisdictional. If such prerequisites are not satisfied within the time provided for appeal, the appeal shall be dismissed for lack of jurisdiction. On appeal to the circuit court or to the director of finance, the final assessment shall be prima facie correct, and the burden of proof shall be on the taxpayer to prove such assessment is incorrect.

Sec. 3A-6-12. Penalties and interest.

(a) *Generally.* The provisions for penalties are pursuant to Code of Ala. 1975, § 40-2A-11; provided, however, the rates and amounts of penalties are as provided herein.

(b) *Failure to timely file return.* If a taxpayer fails, neglects, or refuses to file any return required to be filed with the department on or before the date prescribed therefor, determined with regard to any extension of time for filing granted by the director of finance, there shall be assessed, in addition to the tax due or the amount of tax herein required to be remitted, a penalty of ten percent of the amount due or $50.00, whichever is greater, together with interest thereon at the rate of one percent per month or fraction thereof, from the date at which the tax herein levied became due and payable, such penalty and interest to be assessed and collected as part of the tax as provided in Code of Ala. 1975, § 40-2A-11(a).

(c) *Failure to timely pay tax.* If a taxpayer fails, neglects, or refuses to remit to the department the amount of tax shown as due on a return required to be filed on or before the date prescribed for payment of the tax, determined with regard to any extension of time for payment granted by the director of finance, there shall be added:

(1) In addition to the tax due or the amount of tax herein required to be remitted;

(2) For any tax for which a monthly return is required; or

(3) For which no return is required;

a penalty of ten percent of the unpaid amount shown as tax due on the return or the amount stated in the notice and demand, together with interest thereon at the rate of one percent per

month or fraction thereof, from the date at which the tax herein levied became due and payable as provided in Code of Ala. 1975, § 40-2A-11(b).

(d) *Underpayment of tax.* Any taxpayer failing to pay the tax herein levied to the city or any amount of tax herein required to be remitted and paid to the city, within the time required by this chapter shall pay, in addition to the tax or the amount of tax herein required to be remitted, a penalty of ten percent of the amount of tax due plus interest at the rate of one percent per month, or fraction thereof, from the date at which the tax or the amount of tax herein required to be remitted became delinquent, that is, due and payable to the city.

(e) *Underpayment due to negligence.* If any part of any underpayment of tax is due to negligence or disregard of rules or regulations, there shall be added to the tax an amount equal to ten percent of that part of the tax attributable to negligence or disregard of rules or regulations. For the purpose of this section, the term "negligence" includes any failure to make a reasonable attempt to comply with this chapter, and the term "disregard" includes any careless, reckless or intentional disregard as provided in Code of Ala. 1975, § 40-2A-11(c).

(f) *Underpayment due to fraud.* If any part of any underpayment of tax required to be shown on a return is due to fraud, there shall be added to the tax an amount equal to 50 percent of that portion of the underpayment which is attributable to fraud. For purposes of this section, the term "fraud" shall have the same meaning as ascribed under Code of Ala. 1975, § 40-2A-11(d).

(g) *Frivolous appeal penalty.* If any appeal to the director of finance or to circuit court is determined to be frivolous or primarily for the purpose of delay or to impede collection of the tax imposed by this chapter, a penalty of $250.00 or 25 percent of the tax in question, whichever is greater, shall be assessed in addition to any tax due, as provided in Code of Ala. 1975, § 40-2A-11(f).

(h) *Penalties not exclusive.* The penalties provided in this section for failure to timely file a return, failure to timely pay tax, underpayment of tax, underpayment due to negligence, or filing a frivolous appeal may be asserted against the same taxpayer for the same tax period, as provided in Code of Ala. 1975, § 40-2A-11(g). If the fraud penalty is asserted, no other penalties shall be asserted.

(i) *Waiver of penalties.* Penalties may be waived, in whole or in part, by the director of finance upon a determination of reasonable cause, pursuant to Code of Ala. 1975, § 40-2A-11(h). Reasonable cause shall include, but not be limited to, those instances in which the taxpayer has acted in good faith. The burden of providing reasonable cause shall be on the taxpayer.

(j) *Penalty and interest assessed as tax.* All penalties and interest, levied or assessed against a taxpayer and which are administered by the department shall be assessed and collected in the same manner as taxes.

(k) *Interest.* Interest shall be computed at a rate of one percent per month, or fraction thereof and shall be added as provided herein to any tax or other amount due the department which is not paid by the due date. Interest on any delinquency or underpayment shall be charged from the due date of the tax, as provided in Code of Ala. 1975, § 40-1-44.

(l) *Abatement of penalty.* The department shall abate any penalty attributable to erroneous written advice furnished to a taxpayer by an employee of the department. However, this subsection shall apply only if the department employee provided the written advice in good faith while acting in his or her official capacity, the written advice was reasonably relied on by the taxpayer and was in response to a specific written request of the taxpayer, and the penalty did not result from the taxpayer's failure to provide adequate or accurate information.

(m) *Penalty for failure to perform duties.* Any person required to collect, truthfully account for, and/or pay over any tax imposed by this chapter who willfully fails to collect such tax, or truthfully account for, and/or pay over such tax, or willfully attempts in any manner to evade or defeat any such tax or the payment thereof, shall, in addition to other penalties provided by

law, be liable for a penalty up to the total amount of the tax evaded, or not collected, or not accounted for and paid over.
(Ord. No. 02-113, 7-30-2002; Ord. No. 02-177, § 13, 12-10-2002)

Sec. 3A-6-13. Confidentiality of tax returns.

The confidentiality provisions imposed by this chapter shall be executed as provided in Code of Ala. 1975, § 40-2A-10(a), (d), (e), (f) and (g).

(1) It shall be unlawful for any person to print, publish, or divulge, without the written permission or approval of the taxpayer, the tax return of any taxpayer or any part thereof or any information secured in arriving at the amount of tax or value reported for any purpose other than the proper administration of any matter administered by the department, or upon order of any court, or as otherwise allowed in this section. Statistical information pertaining to taxes may be disclosed at the discretion of the director of finance. The director of finance may make written or verbal disclosure upon request as to the status of compliance of the taxpayer relative to this chapter.

(2) A good standing certificate shall be issued to a requesting person with respect to a taxpayer, if the taxpayer has filed all tax returns due, and paid the taxes shown as payable in accordance with those returns.

(3) The director of finance shall promulgate reasonable regulations permitting and governing the exchange of tax returns, information, records, and other documents secured by the department, with tax officers of other agencies of the state, municipal, and county government agencies within the state, federal government agencies, any association of state government tax agencies of this state or other states, and any foreign government tax agencies; however:

a. Any tax returns, information, records, or other documents remain subject to the confidentiality provisions set forth in subsection (1) of this section;

b. The department may charge a reasonable fee for providing information or documents for the benefit of the requesting agencies; and

c. Any exchange shall be for one or more of the following purposes:

1. Collecting taxes due.

2. Ascertaining the amount of taxes due from any person.

3. Determining whether a person is liable for, or whether there is probable cause for believing a person might be liable for the payment of any tax.

(4) Nothing herein shall prohibit the use of tax returns or tax information by the department in the enforcement, collection, and assessment of any tax levied or imposed by this chapter, or any other matters administered by the department. The department may also divulge to a purchaser or successor of a business or stock of goods the outstanding tax liability of the seller for which the purchaser or successor may be liable pursuant to section 3A-6-15. This section shall not preclude the inspection of returns by federal or foreign state agents pursuant to Code of Ala. 1975, § 40-18-53.

(5) Nothing herein shall prohibit the exchange of information between and among county or municipal governments subject to the restrictions of this section.

(6) In no event shall any damages, attorney fees, or court costs be assessed against the city or against its elected officials, officers, or employees under this section.

Regulations may be promulgated as provided in Code of Ala. 1975 §§ 40-26-19 and 11-51-204.

(1) *Regulations may be promulgated.*

a. The director of finance shall from time to time promulgate rules and regulations for making returns and for ascertainment, assessment and remittance of the tax imposed hereunder as the director may deem necessary to enforce its provisions; and upon request shall furnish any taxpayer with a copy of such rules and regulations.

b. The director of finance may prescribe, adopt, promulgate and enforce reasonable rules and regulations not in conflict with this chapter relating to any matter or thing pertaining to the administration and enforcement of the provisions of this chapter, including but not limited to provisions for the reexamination and correction of returns as to which overpayment or underpayment is claimed or found to have been made, and the rules and regulations so promulgated shall be binding upon all taxpayers.

c. The director of finance shall prescribe printed forms for use by persons subject to the provisions of this chapter and shall make such forms available at the director's office for use by such persons.

(2) *Payments due taxpayers may be withheld.* Pursuant to the Mayor-Council Act, article VI, section 6.04(o), Act No. 452-55, Acts of Alabama, the director of finance, in order to protect the interests of the city, is authorized to withhold the payment of any claim or demand for payment of monies due from the city to any vendor, contractor, consultant or other person having unpaid or delinquent tax or license liabilities until such unpaid tax, including applicable interest and penalties, shall first have been settled and adjusted. The director of finance shall notify the taxpayer by certified mail with return receipt requested, sent to the taxpayer's last known address, of the director's intention to make such levy, the effect of which shall be continuous from the date such levy is first made until the liability out of which such levy arose is satisfied.

(Ord. No. 02-113, 7-30-2002; Ord. No. 02-177, § 15, 12-10-2002)

Sec. 3A-6-15. Purchaser to withhold taxes from purchase money or be liable.

If any person subject to the provisions hereof shall sell out his or her business or stock of goods, or shall quit the business, he or she shall be required to make a final return, as provided for under section 3A-6-5, and shall make payment of the taxes due within 30 days after the date of selling or quitting business. His or her successor in business shall be required to withhold sufficient of the purchase money to cover the amount of said taxes herein required to be remitted, and any interest or penalties due and unpaid until such time as the former owner shall produce a receipt from the department showing that the taxes have been paid, or a certificate stating that no taxes are due. If the purchaser of a business or stock of goods shall fail to withhold purchase money as provided herein, and the taxes remain due and unpaid after the 30-day period allowed, he or she shall be personally liable for the payment of the taxes herein required to be remitted, interest, and penalties accrued and unpaid on account of the operation of the business by the former owner. If in such cases the department deems it necessary in order to collect the taxes due the city, it may make a jeopardy assessment as provided in Code of Ala. 1975, tit. 40, ch. 29.

(Ord. No. 02-113, 7-30-2002; Ord. No. 02-177, § 16, 12-10-2002)

Any person, firm or corporation taxable under this chapter having a cash and credit business may report such cash business and the taxpayer shall thereafter include in each monthly report all credit collections made during the month preceding and shall pay the taxes due thereon at the time of filing such report, but in no event shall the gross proceeds of such credit business be included in the measure of the tax to be paid until collections of such credit business shall have been made.

Sec. 3A-6-18. Credit for lodgings tax erroneously paid.

(a) *Taxes due the city which were erroneously paid to another municipality.*

(1) *Requirement to request refund of erroneous tax payment within 60 days of notice to avoid interest, penalties (taxpayer).* In order to avoid the accrual of interest and any otherwise applicable penalties on the tax due the city, when a lodgings tax owed to the city is erroneously paid to a different municipality or county in good faith, based on a reasonable interpretation of the enabling ordinance, resolution, or act levying or authorizing the tax, but not under a requirement of law, the taxpayer making the erroneous payment must comply with the applicable refund procedures of such municipality or county within 60 days of receiving notice from the city, a county, or other municipality or its agent of the erroneous payment.

(2) *Compliance with refund procedure; interest, penalties.* If the taxpayer complies with the refund procedure within the requisite 60-day period, the city shall not assess or attempt to assess the tax, or any related interest or otherwise applicable penalty thereon until the date of receipt of the overpayment from the refunding municipality or county by the taxpayer or the taxpayer's agent, and no interest or penalty thereon shall accrue until such date of receipt. The taxpayer shall remit the disputed tax to the city within 15 days after receipt.

(3) *Failure to comply with refund procedure; interest, penalties.* If the taxpayer fails to comply with the refund procedures within the requisite 60-day period, interest and any applicable penalties shall accrue on the tax to which the city is entitled from the 61st day and until such time as the tax is paid.

(b) *Taxes due to another municipality which were erroneously paid to the city.*

(1) *City's requirement to refund overpayment of erroneous tax payment within 60 days of compliance with refund procedures.* If a lodgings tax owed to another municipality or county is erroneously paid to the city in good faith, based on a reasonable interpretation of the enabling ordinance, resolution, or act levying or authorizing the lodgings tax, but not under a requirement of law, the city shall refund the overpaid tax, without interest, to the taxpayer within 60 days of the taxpayer's compliance with applicable refund procedures provided in section 3A-6-9.

(2) *Refund of excess tax; requirements.* Provided, however, that if the applicable rate of lodgings tax imposed by the city exceeds the rate of lodgings tax imposed by the proper locality under a requirement of law, the city shall not be obligated to refund the difference.

(1) *Length of period.* Where the assessment of any tax imposed by this chapter has been begun or made within the period of limitation properly applicable thereto, such tax may be collected by levy or by a proceeding in court, but only if the levy is made or the proceeding begun:

a. Within the period allowed by law after the final assessment of the tax; or

b. Prior to the expiration of any period for collection agreed upon in writing by the director of finance and the taxpayer before the expiration of such period allowed by law, (or, if there is a release of levy under Code of Ala. 1975, § 40-29-34, after such period allowed by law, then before such release).

The period so agreed upon may be extended by subsequent agreements in writing made before the expiration of the period previously agreed upon. The period allowed by law as provided in this subsection during which a tax may be collected by levy shall not be extended or curtailed by reason of a judgment against the taxpayer.

(2) *Date when levy is considered made.* The date on which a levy on property or rights to property is made shall be the date on which the notice of seizure provided in Code of Ala. 1975, § 40-29-26, is given.

(1) *Notice.* If any person liable to pay the privilege or license tax herein levied, neglects or refuses to pay the same within 30 days of the final assessment, the amount (including any interest, additional amount, addition to tax, or assessable penalty together with filing fees and any other costs that may accrue in addition thereto) shall be a lien in favor of the city upon all property and rights to property, whether real or personal, tangible or intangible, used in any exhibition, trade, business, vocation, occupation or profession for which a privilege or license tax is or may be required. The department shall give a 30-day notice of intent to file lien to the taxpayer by any one of the following methods:

a. Given in person;

b. Left at the dwelling or usual place of business of such person; or

c. Sent by certified mail with return receipt requested to the taxpayer's last known address.

(2) *Term.* Unless another date is specifically fixed by law, the lien imposed by subsection (1) of this section shall arise at the time the final assessment, return therefor or the payment thereof, whichever is prior, was due to have been filed with or made to the department, and shall continue until the liability for the amount so assessed (or a judgment against the taxpayer arising out of such liability) is satisfied or becomes unenforceable by reason of lapse of time.

(3) *Right to enforce by attachment.* The department may enforce such lien in any court of competent jurisdiction, by attachment issued by any officer authorized to issue such writs, upon executing bond as in other cases of attachment, and upon making affidavit that the attachment is not sued out for the purpose of vexing or harassing the defendant, and describing

the property on which the lien is claimed and setting forth all the facts necessary to the creation of the lien, and amount due and unpaid, (including any interest, additional amount, addition to tax, or assessable penalty together with filing fees and any other costs that may accrue in addition thereto).

(4) *Release.* With respect to a lien described in this section, the director of finance shall, within ten days, release the lien when the liability out of which such lien arose is satisfied, and shall promptly notify the person upon whom such lien was made that such lien has been released.

Nor shall any person refund or offer to refund all or any part of the amount collected as tax under this chapter or to absorb such tax or to advertise directly or indirectly the absorption or refund of such tax or any portion of the same. (1) Within 30 days from the date on which a final assessment is mailed as provided in Code of Ala., § 40-2A-7(b)(4) or delivered by personal service, whichever occurs earlier; or

(2) Within 30 days after the date on which the city mails notice of any act or proposed act or refusal to act from which the taxpayer is entitled to appeal pursuant to Code of Ala., § 40-2A-8. If a taxpayer that is detrimentally affected by an act or proposed act or refusal to act by the department is not mailed notice of such act, proposed act, or refusal to act under Code of Ala., § 40-2A-8, the taxpayer may appeal to the tax tribunal within 30 days from receiving actual notice of the act, proposed act, or refusal to act; provided, however, the burden is on the taxpayer to show that the appeal was filed within 30 days of actual notice; or

(3) Within 30 days after five years from the date a preliminary assessment was entered by the city and the preliminary assessment has not been withdrawn or made final by the city.

(d) The written notice of appeal shall be filed on either:

(1) The form prescribed by the director of finance or the hearing officer; or

(2) Any other form of notice of appeal that includes the information in subsection (d)(1).

(d) (1) The notice of appeal shall identify or include: (i) the final assessment, denied refund, or other act, proposed act, or refusal to act by the city from which the taxpayer is appealing; (ii) the position of the appealing party; (iii) the relief sought; and (iv) the legal or other basis on which relief should be granted. Failure to include the above information shall not, by itself, be grounds for dismissal of the appeal. The hearing officer may require the taxpayer to file an amended notice of appeal if additional information is deemed necessary.

(d) (2) Within three business days of the receipt of the appeal, the clerk's office shall provide the hearing officer the certified original of the appeal. The appeal may be provided via electronic mail delivery, hand delivery or U.S. Certified Mail Delivery. All forms of delivery shall be made with return receipt requested.

(e) (1) Upon receipt of a timely filed notice of appeal the hearing officer shall assign the appeal a docket number and shall submit a copy of the docketed appeal, with attachments, if any, to the city attorney. This shall be accompanied by a notice directing the city attorney to file an answer in the case within 45 days after receipt of the notice. The tax tribunal shall also notify the taxpayer or the taxpayer's authorized representative that it has received the notice of appeal, and the date that the notice was transmitted to the city attorney. A notice to the city attorney shall be deemed received by the city attorney three business days from the date on which it was transmitted to the city attorney, or the date on which the notice is received by e-mail or otherwise by the city attorney, whichever occurs first. The city attorney may be allowed up to a 45-day extension to file its answer, but only if the city attorney files a written extension request with the hearing officer before the initial 45-day period has expired specifying why an extension is necessary and should be granted. The hearing officer may, in its discretion, grant the requested extension for any period it deems appropriate, up to 45 days. If an extension request is granted for a period less than 45 days, no additional extension will be allowed absent extraordinary circumstances.

(e) (2) If the city attorney fails to file its answer or file a written extension request with the hearing officer within the 45-day period, or, if an extension is requested and granted, within the extended period, the tax tribunal shall grant the relief requested by the taxpayer. As a courtesy, the tax tribunal shall within ten days before the answer due date provide the city attorney or its designee required to file the answer with notice by electronic transmission that the answer is due; provided, however, the tax tribunal's failure to transmit the notice and/or the failure of the city attorney or its designee to receive the notice shall not relieve the city attorney of the duty to timely file the answer.

(f) (1) Upon the timely filing of an answer with the tax tribunal, the tribunal may, at his or her discretion, enter a preliminary or other order: (i) directing one or more parties to take such action as deemed appropriate by the hearing officer under the circumstances; (ii) holding the appeal in abeyance if agreed by the parties or deemed appropriate and necessary by the hearing officer; or (iii) setting the case for hearing. A copy of the answer shall be submitted to the taxpayer or taxpayer's authorized representative after the answer is filed with the tax tribunal.

(f) (2) The taxpayer may, but is not required to, file a reply to the answer with the tax tribunal within 30 days after receipt of the answer. The city attorney or its designee may, but is not required to, file an amended answer, from which the taxpayer may, but is not required to, file a response.

(f) (3) The notice of appeal and any subsequent pleadings submitted by the parties shall be deemed to conform to the evidence submitted by the parties. If an issue is raised or evidence is presented at a hearing that was not previously pled or raised, the opposing party may, at the discretion of the hearing officer, be allowed time to address the issue or evidence, either through brief, or at a subsequent hearing in the case, as fairness dictates.

(Ord. No. 15-72, § 1(103), 5-19-2015)

Sec. 3A-7-5. Hearings.

(a) An appeal before the tax tribunal may be held in abeyance by agreement of the parties or at the discretion of the hearing officer, or an appeal may be submitted without a hearing on a joint stipulation of facts or otherwise as agreed by the parties. The hearing officer may also, with or without a hearing, dismiss any appeal or grant appropriate relief to any party if a party fails to comply with any regulation or statute governing appeals before the tax tribunal, or with any preliminary order or opinion and preliminary order entered by the hearing officer. The hearing officer may also decide a case without a hearing if a party submits information or evidence that is, in the discretion of the hearing officer, sufficient to warrant a final decision in the case.

(b) If a hearing is conducted in a case, the hearing officer shall conduct the hearing substantially as follows:

(1) Open the record and receive appearances.

(2) Receive testimony and exhibits presented by the parties. All testimony shall be under oath.

(3) Interrogate witnesses if deemed necessary for a full and fair adjudication of the case.

(4) Allow direct and cross-examination of any witnesses.

(5) Require the submission of briefs.

(6) Continue or reopen the hearing to take additional evidence as deemed necessary by the hearing officer for a fair, efficient, and complete resolution of all factual and legal issues in dispute.

(c) Hearings before the tax tribunal shall be open to the public; provided, however, the hearing officer has discretion to order a hearing closed as necessary to protect confidential information or for other good cause. The tax tribunal may also issue a protective order on motion by a party if the party shows good cause why certain information should not be publicly disclosed.

(d) The tax tribunal shall conduct hearings at City Hall in Birmingham, Alabama or any other location as ordered by the tax tribunal hearing officer.

(e) Hearings involving taxpayers that appear pro se or that are represented by an authorized representative who is not an attorney shall be informal in nature. To ensure a fair hearing in such cases, the hearing officer may explain to the

pro se taxpayer or the taxpayer's non-attorney authorized representative the general procedures to be followed in the hearing, the legal issue or issues involved in the case, and the facts that are generally relevant in deciding the legal issue or issues. The intent of this subsection is to ensure that all taxpayers will receive a fair hearing, and that taxpayers and their non-attorney authorized representative fully understand the legal issue or issues and the relevant facts involved in the case.

(f) There shall be no ex parte communication in any pending cases/matters before the tax tribunal hearing officer. Ex parte communication means communication with any party, by the hearing officer, without requiring all of the parties to the controversy to be present or notified.
(Ord. No. 15-72, § 1(104), 5-19-2015)

Sec. 3A-7-6. Rules of evidence.

The tax tribunal is not bound by the rules of evidence applicable in civil cases in circuit court. The tax tribunal may, at the discretion of the hearing officer, admit any evidence, including hearsay, that is probative and relevant to a material fact in issue. The hearing officer also has discretion to allow sworn affidavits in lieu of testimony if, in the hearing officer's discretion, the sworn affidavit is sufficiently reliable to prove the fact or facts asserted. Notwithstanding the foregoing, the affidavit of a party to the appeal, a party's agent, employee, family member, or any other individual whose interests appear to be aligned with the party, will be admissible in lieu of testimony only upon a showing that (1) the affiant is unavailable due to death or then existing physical or mental illness or infirmity, or (2) requiring the affiant's presence at a hearing would be unduly burdensome and that the inability to cross examine the affiant will not unduly prejudice another party to the appeal. Any party that intends to submit a sworn affidavit in lieu of testimony must attest that the affiant is unavailable or that the affiant's presence would be unduly burdensome, and also submit a copy of the affidavit to the hearing officer at least 15 days before the date set for the hearing. The hearing officer shall provide the opposing party with a copy of the affidavit, and allow that party to object to the affidavit before the hearing date. If the opposing party timely objects, the hearing officer shall thereafter have discretion to allow or disallow the affidavit, or to take such other action as deemed appropriate under the circumstances. If deemed appropriate by the hearing officer, a sworn affidavit may be allowed without the affidavit being submitted for prior review, but only if, in the discretion of the hearing officer, the opposing party is not unduly or unfairly harmed or prejudiced by allowing the affidavit.
(Ord. No. 15-72, § 1(105), 5-19-2015)

Sec. 3A-7-7. Orders of the tax tribunal.

The hearing officer shall issue written decisions, which shall contain findings of fact and conclusions of law.

(a) A hearing officer may issue a preliminary order for any reason specified in section 3A-7-4(f)(1) of this chapter.

(b) A hearing officer may issue an opinion and preliminary order after a hearing in the case or otherwise, as deemed appropriate by the hearing officer. The opinion and preliminary order may direct the city, as appropriate, to re-compute the taxpayer's liability or the amount of refund due, or for any party to take such action as deemed appropriate by the hearing officer.

(c) The hearing officer shall issue a final order in all cases. The final order may dismiss an appeal for lack of jurisdiction or other cause, or grant such relief and invoke such remedies as deemed necessary by the hearing officer for a fair and complete resolution of all matters in dispute.
(Ord. No. 15-72, § 1(106), 5-19-2015)

Sec. 3A-7-8. Application for rehearing.

(a) Any party may apply for a rehearing from any final order or opinion and preliminary order entered by the hearing officer within 15 days from the date such order was entered. The application must specify the reasons and support-

ing arguments why such order is incorrect and should be reconsidered. The hearing officer shall serve a copy of a timely-filed application for rehearing on the opposing party, and may allow the opposing party time to respond to the application. The hearing officer shall thereafter, with or without a hearing, issue a final or other order on rehearing, as appropriate under the circumstances.

(b) The timely filing of an application for rehearing shall suspend the time for filing an appeal to circuit court. The time for filing a notice of appeal to circuit court shall begin anew on the date the final order on rehearing is entered.
(Ord. No. 15-72, § 1(107), 5-19-2015)

Sec. 3A-7-9. Appeals to circuit court.

Appeals to the circuit court from an order of the hearing officer shall be as provided by law.
(Ord. No. 15-72, § 1(108), 5-19-2015)

Sec. 3A-7-10. Representation before the tax tribunal.

(a) The department shall be represented at any appeal or other proceeding before the tax tribunal by the city attorney.

(b) Taxpayers or other parties in an appeal or other proceeding before the tax tribunal may represent themselves, or be represented by an authorized representative who is an attorney licensed to practice in Alabama or any other state, or an attorney employed by or a member or partner in an accounting or professional services firm, or by a CPA or accountant licensed in Alabama or any other state, or by any duly authorized officer, employee, partner or member of the taxpayer, or by any other duly authorized representative.

(i) A taxpayer is entitled to be represented or assisted, at their own expense, by an authorized representative. In the absence of a form prescribed by the City of Birmingham or the tax tribunal hearing officer, the taxpayer may provide such other evidence that a person is the authorized representative of a taxpayer as it considers appropriate. This provision shall not be construed as authorizing the practice of law by a person who is not a licenses attorney.

(Ord. No. 15-72, § 1(109), 5-19-2015)

Sec. 3A-7-11. Publication of orders and pending cases.

The city shall index and publish the hearing officer's final decision in print or electronic form as it deems best adapted for public convenience. Such publications shall be made permanently available and constitute the official reports of the city tax tribunal.
(Ord. No. 15-72, § 1(110), 5-19-2015)

Sec. 3A-7-12. Constitutional issues.

(a) The tax tribunal hearing officer may decide the constitutionality of the department's application of a statute, regulation, ordinance, or resolution to a particular taxpayer, but shall not have the authority to declare a statute, ordinance, or regulation unconstitutional on its face.

(b) Constitutional appeals of statute, regulations ordinances shall be as provided by law.
(Ord. No. 15-72, § 1(111), 5-19-2015)

Sec. 3A-7-13. Stipulations.

The parties to a proceeding before the tax tribunal shall stipulate all relevant and non-privileged facts to the fullest extent practicable and to which complete or qualified agreement can or fairly should be reached.
(Ord. No. 15-72, § 1(112), 5-19-2015)

Sec. 3A-7-14. Discovery.

(a) Parties to a proceeding before the tax tribunal may use the discovery methods authorized herein to obtain non-privileged information that is relevant to the subject matter involved in the pending appeal; provided, except as specified below, discovery can only be used with the prior approval of the hearing officer. Before requesting formal discovery, however, the parties to an appeal shall make every reasonable effort to voluntarily and informally exchange information and evidence regarding any matter, not privileged, which is relevant to the subject

matter involved in the appeal. Such voluntary exchange of information and evidence may include a request for production of documents and the submission of written questions in the nature of interrogatories to the opposing party without the prior approval of the hearing officer; the intent being that the parties should make every reasonable effort to voluntarily exchange information before petitioning the tax tribunal for formal discovery. If voluntary written questions are proffered by a party, the opposing party shall affirmatively respond within 30 days to all questions that are relevant to the issue or issues involved in the case. The opposing party may also object in writing and refuse, without prejudice, to answer or affirmatively respond to any questions that the party deems to be not relevant to the issue or issues involved in the case or privileged. Questions propounded pursuant to this paragraph shall be limited in number and responses shall be executed under oath and in accordance with the Alabama Rules of Civil Procedure 33.

(b) If a party cannot obtain relevant information or evidence by voluntary and informal exchange, the party may petition the tax tribunal to allow formal discovery. The petition shall (1) explain why the information could not be obtained by voluntary and informal exchange, and (2) identify the type or types of formal discovery requested. The requesting party shall also serve a copy of the petition on the opposing party or the opposing party's authorized representative, who may file a written objection to the requested discovery within 14 days of the date of receipt of the petition requesting discovery. The Tax Tribunal may thereafter allow discovery by the following means: written interrogatories; requests for production and inspection of tax returns, books, papers, documents, and other evidence; depositions of parties, non-party witnesses, and experts; requests for admission; or other forms of discovery authorized by the tax tribunal. It is not grounds for objection that the information sought to be discovered is not relevant to the issue or issues involved in the appeal before the tax tribunal if the information sought appears reasonably calculated to lead to the discovery of relevant evidence.

(c) Formal discovery authorized by subsection (b) of this regulation shall be allowed only in the discretion of the hearing officer, and only upon a showing that informal consultation and other communications, conducted in good faith, have failed to result in the voluntary exchange of information, documents, and other relevant and non-privileged evidence necessary to the resolution of the issue or issues in dispute in the appeal. The hearing officer shall determine the type of discovery to be allowed, if any, after considering whether the discovery would be unduly burdensome or expensive, and in consideration of the amount in controversy, the extent of the parties' resources, and the necessity and relevance of the information requested.

(d) If discovery is allowed by the hearing officer, discovery requests propounded to a pro se party or to an authorized representative not authorized to practice law in this state or another jurisdiction, shall, at a minimum, include the following information: the deadline for responding to the request; a brief description of the form in which a response or responses should be provided; notice that the response must be signed under penalty of perjury; notice of the right to object to a particular request or seek a protective order, as the case may be; and, with regard to requests for admissions, notice that the matter will be deemed admitted unless the pro se party or the authorized representative answers or objects to the requested admissions within 30 days after the request is served on the pro se party or authorized representative.

(e) If discovery is allowed by the hearing officer, the hearing officer shall issue an order granting discovery which, after consulting with the parties, shall specify therein a date on which discovery shall be completed. A party or parties may petition the tax tribunal for additional time within which discovery may be completed. Such petition shall explain the reason why such additional time is required or necessary. The hearing officer may grant such additional time as deemed appropriate by the hearing officer.

(f) Except as ordered by the hearing officer, the methods of discovery allowed by this regulation shall be conducted in accordance with

Alabama Rules of Civil Procedure Rule 26 (general provisions governing discovery), Rule 28 (persons before whom depositions may be taken), Rule 29 (authorizing modification of discovery procedures by written stipulation of the parties), Rule 30 (depositions), Rule 33 (interrogatories), Rule 34 (production of documents), and Rule 36 (requests for admissions).

(g) If a party or other person or entity fails or refuses to cooperate or comply with formal discovery allowed by the tax tribunal, the discovering party may petition the tax tribunal for an order requiring the party, person, or entity to fully cooperate and comply with the discovery request. If the tax tribunal issues an order to compel, and the party, person, or entity fails to fully comply with discovery or the order to compel, the hearing officer may grant the discovering party such relief or take such other action as deemed appropriate, fair, and reasonable by the hearing officer under the circumstances.
(Ord. No. 15-72, § 1(113), 5-19-2015)

Sec. 3A-7-15. Subpoenas.

A hearing officer may, on his or her own motion or at the written request of a party, also issue subpoenas requiring witnesses to attend and testify at a hearing, or subpoenas duces tecum for the production of any tangible evidence. The discretion to issue subpoenas or subpoenas duces tecum shall rest solely with the hearing officer. Any witness subpoenaed to testify or produce records, or whose deposition is taken, shall be paid by the requesting party the same fees and mileage as paid to individuals subpoenaed in a circuit court action in Alabama.
(Ord. No. 15-72, § 1(114), 5-19-2015)

Sec. 3A-7-16. Joinder of persons needed for just adjudication.

The hearing officer, on his or her own motion or at the request of a party, may join a person in the appeal, but only if (1) it appears that in the person's absence, complete relief cannot be accorded among those already parties in the appeal, or (2) it appears that the party has an interest relating to the subject of the appeal and is so situated that the disposition of the action in the person's absence may (i) as a practical matter impair or impede the person's ability to protect that interest, or (ii) leave any of the persons already parties to the appeal subject to a substantial risk of incurring double, multiple, or otherwise inconsistent obligations by reason of the claimed interest. A request for joinder shall be in writing, and shall be served upon all parties to the appeal and the person or persons sought to be joined.
(Ord. No. 15-72, § 1(115), 5-19-2015)

Sec. 3A-7-17. Amicus briefs.

An individual or entity may, with the approval of the hearing officer, submit an amicus curiae brief in a case pending before the tax tribunal.

All wheelchair ramps required hereby shall be built according to the requirements of the Americans with Disabilities Act Accessibility Guidelines, 36 CFR 1191 and appendices, as the same may be amended from time to time, and in accordance with standard specifications and designs therefor kept on file for public inspection in the office of the city engineer.

(c) If, upon demand by the city engineer, the director of buildings and inspection, or the purchasing agent, any such contractor, developer, or other party fails in 15 days thereafter to repair any such damage, the city may perform or have performed the repairs and demand reimbursement for the cost thereof and, further, refuse to thereafter issue permits to the defaulter so long as any such reimbursement to the city remains unpaid.

(d) In the event any such street damage is caused by a contractor or other party in performance of a contract with the city, the city engineer or purchasing agent, as the case may be, shall not approve or cause to have issued to any such contractor or other party any check for monies otherwise due on account of the contract until such contractor or other party shall have repaired such street damage. a. The primary purpose for street names is the orderly arrangement of the city and addresses therein to provide for efficient navigation; locating residences and businesses; and provision of services, including emergency services, utilities and city services;

b. The official renaming of streets requires complex and costly processes to the city, postal service, residents and businesses and service providers to change addresses, stationery, maps, street signs, directional signs, etc. and can create confusion for residents, businesses, service providers and visitors.

c. There is a pattern to the names of streets in the city providing for orderly navigation of the city and assignment of addresses, therefore, official renaming of streets should not be done unless a need critical to delivery of emergency services or the health and safety of citizens is demonstrated.

(2) The council may consider the honorary designation of a portion of street in accordance with this chapter. No more than one designation per district shall occur per council term. One additional designation at any location within the city during a council term may be approved by council pursuant to this section recommendation of the mayor.

(3) No existing streets will be renamed unless a need critical to emergency service delivery, or the health and safety of citizens, is demonstrated. Citizens may submit requests for naming newly constructed streets for persons meeting the qualifications in this policy.

(b) *Procedure.*

(1) A recommendation for an honorary or memorial designation of a portion of a street may be made to a neighborhood association by any citizen or civic organization.

(2) A request for an honorary or memorial designation of a portion of a street shall be submitted to the office of the councilor for the district where the designation is proposed by a neighborhood association. A neighborhood association may submit a request to the mayor.

(3) The person to be honored must have made a significant contribution to the city for at least 25 years.

(4) The request shall include:

a. The name of the section of street proposed for honorary or memorial designation, with the "from" and "to" cross-streets, including a map depicting the proposed portion of the street. The portion to be designated shall not be more than one block in length. Where blocks are not clear or uniform, the length shall not exceed the distance between an intersecting street and the next intersecting street;

b. Proposed honorary street name designation.

c. Basis for requesting the honorary street designation, that is, historic figure/person and background/ biography for the figure/person, including the significant contributions the person has made to the city;

d. Name of the individual or group requesting the honorary street name designation and contact information (address, phone, e-mail).

e. Family contact information for the person to be honored.

(5) The council office receiving a request shall notify the mayor's office, the department of planning, engineering and permits, the department of traffic engineering, the department of community development and the department of public works that an honorary street designation is being proposed. If the mayor recommends a designation, he shall notify the office of the councilor for the district where the designation will be made, as well as the departments required in this subsection.

(6) The department of traffic engineering shall contact the applicant to review the proposed location and determine the appropriate placement of the designation signs.

(7) The department of planning, engineering and permits will provide the applicant and the chair of the council's public improvements and beautification committee a list of the addresses within the area of the proposed designation. The area of the proposed designation shall include the addresses on the block proposed for designation and the addresses on the blocks immediately adjacent to and on either side of the block proposed for designation. Addresses on the opposite side of the street from the block proposed for designation and the adjacent blocks shall be included.

(8) The applicant shall have 90 calendar days to obtain signatures on petitions from the occupants of buildings on the address list provided by the department of planning, engineering and permits. The petitions shall provide the name, business name (if applicable), address, signature, and indicate whether the signer is for or against the proposed honorary street designation. (When a single property with one address has multiple units, the applicant must receive input from at least 50 percent of the units. The opinion of a majority of the units shall be the decision for that address.)

(9) The applicant shall have 90 days to obtain a written response from the neighborhood association for the neighborhood where the designation is proposed.

(10) The applicant must demonstrate that input was received from at least 75 percent of the addresses in the area of the proposed designation and that at least 75 percent of the addresses represented and the neighborhood association are in favor of the honorary designation. (This is a total of 56 percent of the addresses indicating a favorable response.)

(11) Fees. The application shall be accompanied by a receipt from the department of finance showing payment of a $250.00 non-refundable application fee. Upon approval of the application, an additional $250.00 fee shall be due for parts and labor for installation of the signs. No sign shall be installed until all fees are paid in full.

(c) The completed application with the petition showing support from the addresses in the area of the proposed designation shall be forwarded to the chair of the public improvements and beautification committee, who shall place it on the next scheduled regular committee meeting agenda. The public improvements and beautification committee shall consider the nomination application at a regular meeting of the committee. The committee shall forward the nomination to the city council agenda with its recommendation to approve or reject the nomination.

(d) If the nomination is approved by the council, notice shall be sent to the person(s) making the nomination, the family contact specified on the application and the president of the neighborhood where the honorary or memorial sign will be located.

(e) The person(s) recommending the designation shall purchase the necessary sign(s) made in compliance with specifications available from the department of traffic engineering. The signs shall be delivered to the department of traffic engineering no later than 14 days before the date planned for installation. The application fee, purchase of signs and cost of installation shall not be paid from city funds. The nominators must also show the financial ability to maintain the sign in good repair. Lost, stolen or damaged signs will not be replaced by the city. The city may remove signs that become unsightly or become a hazard.

(f) No more than one honorary or memorial designation shall be placed on any one block. The sign shall comply with all applicable statutes, ordinances and regulations.

(g) Designation signs shall remain in place for no more than five years. The city will make reasonable effort to contact and return the sign to the applicant or the family of the person honored. If return of the sign at the end of five years is desired, the applicant and/or family of the person honored may inform the department of traffic engineering of any change in contact information during that period.

(h) This chapter shall not apply to signs installed prior to the effective date of this ordinance but such signs may be removed if they are damaged, unsightly, or have become a hazard. The department of traffic engineering is authorized to take down signs in depopulated areas where most of the structures have been removed and the signs no longer serve their intended purpose. Neighborhood associations may inform the department of traffic of such signs needing removal.

(a) Any change or transfer of ownership of an outdoor cafe for which a permit has been or shall be granted under this chapter shall terminate such permit and shall require a new application and a new permit in conformance with all the requirements of this article.

(b) No outdoor cafe shall be operated under any name other than that set forth in the permit granted under this article unless such permit

shall have been transferred with permission of the city engineer, in which event it shall operate in the name of the transferee of such permit.

(c) A permit issued under this article shall not authorize the grantee to conduct or allow the operation of an outdoor cafe except as described in the city engineer's approval document and shall be valid only for that area and in the manner described in such document. (Code 1980, § 4-5-196; Ord. No. 85-188, § 6, 8-20-1985; Ord. No. 11-9, § 1(4-5-196), 2-1-2011)

Sec. 4-5-197. Indemnity.

No permit required by this article shall be granted to any person to operate an outdoor cafe until such person shall have first filed with the city engineer a statement agreeing to indemnify and hold harmless the city, its agents, representatives or employees, from any and all claims, damages, judgments, costs or expenses, including attorneys' fees, which they may incur or be required to pay because of any personal injury, including death, or property damage suffered by any person as a result of or related in any way to the operation and maintenance of the outdoor cafe for which the permit is issued, even though such personal injury or property damage results from negligence on the part of the city, its agents, representatives or employees, or which otherwise might be imputed to any of them.
(Code 1980, § 4-5-197; Ord. No. 85-188, § 7, 8-20-1985; Ord. No. 11-9, § 1(4-5-197), 2-1-2011)

(a) No permit required by this article shall be granted to any person to operate an outdoor cafe until such person shall have first filed with the city clerk a comprehensive general liability insurance policy issued to such person by a public liability insurance company authorized to do business in the state, affording the coverage set forth below in the amounts specified herein or a certificate of insurance with an endorsement naming the city as an additional insured. Such insurance policy shall afford coverage for the city, its agents, representatives and employees, as additional insureds with respect to the operation and maintenance of the outdoor cafe in the following amounts:

(1) Bodily injury: $100,000.00 each person and $300,000.00 each accident.

(2) Property damage: $100,000.00 each person and $300,000.00 each accident.

(b) The insurance coverage required by this section shall at all times be maintained for the full amount. The policy of insurance required by this section shall be first provided to the city engineer for verification and approval. A certificate of insurance or endorsement approved by the city engineer shall be filed with the city clerk. The insurance or endorsement shall contain a clause obligating the company issuing the same to give not less than 30 days' written notice to the city clerk before cancellation thereof. Notice of cancellation shall not relieve the company issuing such policy of liability for any injury of claim arising before the cancellation becomes effective. The cancellation of any such policy shall have the effect of suspending the permit of such person to operate the outdoor cafe covered thereby until a new policy complying with the provisions of this section is filed with the city clerk.

(c) Every insurance policy required hereunder shall contain a provision for continuing liability to the full amount thereof, notwithstanding any recovery thereon, that the liability of the insurer shall not be affected by the insolvency or the bankruptcy of the insured, and that until the policy is canceled the insurance company will not be relieved from liability on account of nonpayment of premium, or any act or omission by the named insured. Such policy of insurance shall be

further conditioned for the payment of any and all judgments, up to the limits of such policy, recovered against any person other than the owner, the owner's agent or employee who may operate the outdoor cafe with the consent or acquiescence of the owner.

Sec. 4-5-199. Revocation or suspension of permit.

(a) Any permit issued under this article shall be subject to revocation or suspension by the city engineer for failure of a permittee to comply with this article, or for any violation of any applicable provision of this article or of any regulation promulgated hereunder, or when, in the opinion of the city engineer, the public necessity, convenience or good renders such revocation advisable, upon not less than ten days' written notice to the permittee and after a public hearing thereon before the council.

(b) Whenever any permit has been revoked the applicant shall cease operation of the sidewalk cafe and no refund or any unearned portion thereof shall be made. It shall be unlawful for any person to operate an outdoor cafe after the effective date of the suspension or revocation of the applicable permit.
(Code 1980, § 4-5-199; Ord. No. 85-188, § 9, 8-20-1985; Ord. No. 11-9, § 1(4-5-199), 2-1-2011)

Secs. 4-5-200—4-5-210. Reserved.

ARTICLE L. COMPLETE STREETS POLICY

Sec. 4-5-211. Complete streets policy.

It is the policy of the City of Birmingham to develop a safe, reliable, efficient, integrated and connected multimodal transportation network that will provide access, mobility, safety and connectivity for all users, and will ensure that the safety and convenience of all users of the transportation system are accommodated, including motorists, pedestrians, bicyclists, users of public transportation, emergency responders, freight providers, people of all ages and abilities, and adjacent land owners.
(Ord. No. 18-37, § 1, 3-13-2018)

Sec. 4-5-212. Applicability.

(a) The city shall apply this complete streets policy to all city-owned transportation facilities in the public right-of-way including, but not limited to, streets, sidewalks, and bridges, regardless of funding source.

(b) The city shall apply this complete streets policy to all transportation projects such as, but not limited to, new road construction, reconstruction, retrofits, upgrades, resurfacing, and rehabilitation.

(c) The city shall apply this complete streets policy to all construction projects of new public streets, the city's pavement management system, and any large-scale non-emergency utility work.

(d) Routine maintenance activities designed to keep assets in serviceable condition (e.g. mowing, sweeping, pothole repair, utility covers, street tree replacement or other interim measures) may be excluded from the requirements of this article.

(e) This policy will be triggered for all city-owned transportation projects as they are scheduled except for routine maintenance as noted in item (d).

(f) There will be an evaluation of each project in terms of the applicability of this complete streets policy including whether any exceptions provided in section 4-5-215 of this policy may apply.

(g) While this policy does not mandate certain designs or construction standards and does not require specific improvements, the policy does require the city to approach every transportation project and program as an opportunity to create safer, more accessible streets for all users by incorporating complete streets practices in the design, construction, operation, and maintenance of transportation projects, improvements and facilities. This policy is meant to be used as a guide to provide where practicable and economi-

cally feasible, in the design, operation and maintenance of city streets to promote safe and convenient access and travel for all users, including pedestrians, bicyclists, motorists, transit riders, and people of all abilities.

(h) City staff shall also work closely with state and county transportation officials to incorporate complete streets elements whenever feasible on projects that fall within Birmingham's corporate limits but are owned and managed by higher levels of government through increased and ongoing project coordination.

(i) Privately constructed and owned streets, sidewalks, and parking lots will be encouraged, where possible, to adhere to this policy.
(Ord. No. 18-37, § 1, 3-13-2018)

Sec. 4-5-213. Guiding principles and practices.

As feasible, the city shall incorporate complete streets infrastructure into existing public streets to create a comprehensive, integrated, and connected transportation network that balances access, mobility and safety needs of all users of all ages and abilities and the needs of adjacent land users, thus providing a fully connected, integrated network that provides transportation options throughout the city.

Transportation improvements, facilities, and amenities that may contribute to complete streets design features include: sidewalks, crosswalks, curb extensions, street and sidewalk lighting, bike facilities, automobile lanes, street trees and landscaping, accessible curb ramps, refuge islands, pedestrian and traffic signals, signage, bicycle parking facilities, public transportation stops and facilities, dedicated bus lanes, traffic calming measures and infrastructure.

The city will strive to incorporate complete streets design features into public transportation projects in order to provide suitable accommodations for bicyclists, pedestrians, transit users, and persons of all ages and abilities, as appropriate, while promoting safe operation for all users in a manner consistent with, and supportive of, the surrounding community. The goal is a balanced transportation system that recognizes the need for some roads to offer the appropriate degree of complete street accounting for each type of user, while still ensuring basic accommodation is provided for all permitted users.
(Ord. No. 18-37, § 1, 3-13-2018)

Sec. 4-5-214. Design flexibility.

The latest design guidance, standards, and recommendations available will be used in the appropriate implementation of complete streets including but not limited to the most up-to-date versions of the following:

(1) The American Association of State Highway and Transportation Officials (AASHTO) A Policy on Geometric Design of Highways and Streets.

(2) Manual of Uniform Traffic Control Devices (MUTCD).

(3) The National Association of City Transportation Officials (NACTO) Urban Bikeway Design Guide.

(4) The National Association of City Transportation Officials (NACTO) Urban Street Design Guide.

(5) The Institute of Transportation Engineers publication Designing Walkable Urban Thoroughfares: A Context-Sensitive Approach: An ITE Recommended Practice.

(6) The American Association of State Highway and Transportation Officials (AASHTO) Guide for the Planning, Design, and Operation of Pedestrian Facilities.

(7) The United States Access Board's Public Rights-of-Way Accessibility Guidelines, (PROWAG) and any and all current or future applicable Americans with Disabilities Act (ADA) guidelines or standards.

(Ord. No. 18-37, § 1, 3-13-2018)

Sec. 4-5-215. Exceptions.

Complete streets principles shall be included in street construction, reconstruction, repaving, and rehabilitation projects except under one or more of the following conditions:

(1) The project involves a facility on which certain users are prohibited by law;

(2) An equivalent project along the same corridor or within a 1,000 feet of said corridor is better suited to provide the needed infrastructure or facilities due to the lack of necessary right-of-way or conflict with right-of-way not in the city's control;

(3) Routine maintenance of the transportation network that does not change the roadway geometry or operations, such as mowing, sweeping and spot repair;

(4) A documented absence of current and future needs exists which will be reviewed by the technical oversight committee; in coordination with the complete streets advisory committee;

(5) Transit accommodations that are not required where there is no existing or planned transit service;

(6) The costs of complete streets accommodations is excessively disproportionate to the need or probable use, as defined by 20 percent of the cost of the larger transportation project. This 20 percent figure should be used in an advisory rather than an absolute sense, and the determination must be documented by the technical oversite committee and discussed with the complete streets advisory committee; or

(7) In extreme circumstances when unforeseen consequences have been discovered or as the director of planning, engineering and permits deems necessary.

Any exception to this policy shall be both (1) supported by data and written documentation, and (2) not otherwise prohibited by applicable law or regulation. The determination shall identify the applicability of an exception for each user group whose needs will not be accommodated by the transportation project. Where there may be a question related to one of the above exceptions the technical oversight committee will make the final decision if it shall apply to any particular project, and, in the absence of any adopted priority network by the Birmingham Planning Commission. A level of traffic stress map may be used to help identify areas of need in the City for complete streets and if an exception should be allowed.
(Ord. No. 18-37, § 1, 3-13-2018)

Sec. 4-5-216. Priority network.

Recognizing the need in the city that certain streets should be prioritized for complete streets, priority shall be given to any street or segment that has been specifically listed and adopted as a priority street or segment by the city's planning commission. The technical oversight committee and complete streets advisory committee will provide the planning commission a recommendation regarding the proposed priority network. This complete streets policy shall apply in full regard to these priority streets and segments without exceptions.
(Ord. No. 18-37, § 1, 3-13-2018)

Sec. 4-5-217. Implementation.

The city shall make complete streets practices a routine part of everyday operations, shall approach every transportation project and program as an opportunity to improve streets and the transportation for all users, and shall work in coordination with other local and state departments and agencies to achieve complete streets to the extent feasible. To ensure implementation of this complete streets policy, the city shall establish a complete streets advisory committee and a technical oversite committee.

(a) The complete streets advisory committee will help comply with the complete streets policy and provide ongoing feedback related to the implementation of the complete streets policy. The purpose of the complete streets advisory committee shall be to promote and advance both the broader vision and implementation details of this policy, while ensuring that the needs of all users and all modes are addressed throughout the planning and design process. The complete streets advisory committee will meet at least once a quarter or as the committee deems necessary. The committee will also

establish by-laws within the first six months of the creation of the committee.

(1) The duties and responsibilities of the complete streets advisory committee will include the following:

a. Review annual reports and any other reports related to complete streets efforts untaken by the city.

b. Provide an advisory role to the technical oversight committee as it relates to complete streets projects within Birmingham.

c. Discuss data/information and the latest best practices in regards to complete streets policies.

d. Support any education initiatives undertaken by the city to implement complete streets projects.

e. Provide recommendations to the city's planning commission in terms of any priority network for the city.

f. The advisory committee will provide feedback on the development and direction of the complete streets policy, and will review and comment on annual progress reports to be presented to the mayor and city council.

(2) The complete streets advisory committee shall be a multidisciplinary team made up of representatives from the following entities:

- One member appointed by the city council.
- One member designated by the mayor.
- Two officers of the city's neighborhood associations, one appointed by the mayor and one appointed by the city council.
- One member appointed by the mayor from the business community.
- One member appointed by the city council from the real estate industry.

The following organizations shall be represented on the committee by their director/chairman or their proxy:

- One member from the Birmingham Planning Commission.
- One member from the city's comprehensive plan implementation committee's systems and networks committee.
- One member of the AARP Alabama.
- One member from the University of Alabama at Birmingham.
- One member from the American Heart Association.
- One member from United Way of Central Alabama.
- One member from the Lakeshore Foundation.
- One member from REV Birmingham.
- One member from Birmingham Bicycle Club.
- One member from the Birmingham-Jefferson County Transit Authority.
- One member from the Freshwater Land Trust.
- One member from the Birmingham Business Alliance.
- One member from the Birmingham City Schools.
- One member from the Jefferson County Department of Health.
- One member from the Regional Planning Commission of Greater Birmingham.

(b) The technical oversight committee will evaluate all transportation projects and determine if a project requires complete street interventions or if an exception is warranted. If the committee determines that an exception must be used, their findings shall be reported to the complete streets advisory committee. The technical oversight committee will be comprised of the following inter-departmental staff, as determined by the director of planning, engineering and permits;

- Two engineering staff.
- Two traffic engineering staff.
- Two planning staff.
- One staff attorney.

1. The city's technical oversight committee, with input from the complete streets advisory committee, shall review and either revise or develop proposed planning documents, policies, procedures, rules, regulations, guidelines, performance metrics, and paving programs to integrate complete streets principles in all transportation projects.

2. The city technical oversight committee, with input from the complete streets advisory committee, shall develop plans and set goals to ensure the successful implementation of the complete streets policy in low- and moderate-income communities. Within 12 months of ordinance adoption, the city shall prepare an initial report to identify barriers, and propose solutions to successful implementation of the complete streets policy in low- and moderate-income communities.

   (a) For the purpose of this section, "low income community" refers to any census tract that meets one of the following criteria (as reported in the most recently completed decennial census published by the U.S. Bureau of the Census):

      i. The poverty rate for the census tract is at least 20 percent; or

      ii. For a community located within a metropolitan area, the median family income (MFI) for a census tract does not exceed 80 percent of the statewide MFI.

   (b) For the purpose of this section, "moderate income community" refers to any census tract whose MFI is between 81 and 95 percent of the statewide MFI.

(Ord. No. 18-37, § 1, 3-13-2018)

Sec. 4-5-218. Performance measures.

The city shall measure the success of this complete streets policy using performance measures determined by complete streets advisory committee and the technical oversight committee, such as:

(1) Total miles of new or refurbished bike facilities, including off-street trails.

(2) Linear feet of new or refurbished pedestrian facilities.

(3) Percent of intersections ADA compliant.

(4) Number of new curb ramps installed or updated along city streets.

(5) Crosswalk and intersection improvements.

(6) Progress toward STAR community standards.

(7) Number of new countdown signals installed.

(8) Installed improvements made in proximity to transit facilities.

(9) Number of transit shelters added.

Within six months of the adoption of this article, the technical oversight committee, in collaboration with the complete streets advisory

committee, shall initiate a process to select performance measures and develop individual numeric benchmarks for each performance measure as a means of tracking and measuring the annual performance of the program. Such benchmarks shall be established within 18 months of ordinance adoption. Annual reports shall be presented to the mayor and city council and made available to the public.
(Ord. No. 18-37, § 1, 3-13-2018)

(5) If an application or correspondence is submitted by a municipality, county, the state or the federal government or by any municipal, state or federal agency, it must be signed by either the chief executive officer or a principal executive officer of any such government or by either the chief executive officer, a principal executive officer or a senior executive officer having responsibility for the overall operations of a principal geographic unit of any such governmental agency.

(b) Any person signing any application or correspondence required by this article shall make the following certification: "I certify, under penalty of law, that this document and all attachments were prepared under my direction or supervision and that I have personally examined, and I am familiar with, the information in this document and such attachments. Sec. 4-7-24. Issuance of permit; expiration, suspension or revocation.

(a) The purpose of permitting plans and specifications is to assure compliance with this article. The city engineer's review and permitting of plans and specifications is not intended as approval of the overall layout, structural design, grading procedures, situation control, engineer's reports or construction procedures. These responsibilities shall remain with and be those of the owner or his consultants.

(b) The application, plans and specifications, reports, affidavits and other required documents shall be filed with the city engineer as required by this article. Such plans may be reviewed by other departments to check compliance with the laws and ordinances under their jurisdiction. If the city engineer is satisfied that the work described in an application for permit and the plans and specifications filed therewith conform to the requirements of this Code and other pertinent laws and ordinances, that the fees specified in section 203 have been paid and necessary bonds and other surety obtained, he shall issue a permit therefor to the owner.

When the city engineer issues the permit, he shall endorse in writing or stamp "PERMIT ISSUED" on the original set of plans and specifications. The city engineer shall be furnished with two sets of permitted plans. Permitted plans and specifications shall not be changed, modified or altered without authorization from the city engineer; and all work shall be done in accordance with the permitted plans.

(c) One set permitted plans, specifications and other required documents shall be retained by the city engineer for a period of not less than one year from date of completion of the work covered therein. It shall be the responsibility of the owner to maintain one of the sets of permitted plans and specifications on the site at all times during which the work authorized thereby is in progress.

(d) The issuance or granting of a permit shall not permit or be construed as approval for violation of any of the provisions of this article or any other laws or regulations; and such permit shall not be valid, except insofar as the work or use which it authorizes is lawful.

(e) The issuance of a permit shall not prevent the city engineer from thereafter requiring the correction of errors or changes due to unforeseen problems in permitted plans and specifications. The city engineer may require that earthwork operations and project design be modified if significant problems occur which were not considered at the time the permit was issued.

(f) Every permit issued by the city engineer under the provisions of this Code shall expire by limitation and become null and void, if the work authorized by such permit is not commenced within 90 days from the date of issuance of such permit, provided that consecutive renewal of such permit may be granted, at no additional cost, upon written request to the city engineer with good cause shown. The work authorized by such permit shall not be suspended or abandoned

at any time after the work is commenced and shall be carried to completion or the permit shall be void. If work is suspended or abandoned, required bonds may be used to correct or eliminate erosion, drainage problem or hazardous conditions as provided herein.

(g) The city engineer may suspend or revoke a permit or waiver issued under provisions of this Code by giving notice in writing to the owner whenever the permit or waiver is issued in error, on the basis of incorrect information supplied, or in violation of any ordinance, regulation or any of the provisions of this Code.

ARTICLE C. LAND-DISTURBING ACTIVITY RESPONSIBILITIES

Sec. 4-7-41. Land-disturbing activity responsibilities.

(a) The persons proposing to conduct any land-disturbing activity, or an agent, contractor or other representative of such person, must contact the city engineer at least five business days before commencement of the land-disturbing activity to advise the city engineer of the commencement of such land-disturbing activity, unless, for good cause shown, the city engineer permits such person, contractor, agent or other representative to contact him nearer to the date of the commencement of such land-disturbing activity.

(b) Other than land-clearing activities required to install the appropriate BMP in accordance with BMP plans, any downslope erosion and sediment control measures, on-site stream channel protection and upslope diversion of drainage required by the BMP plan shall be in place and functional before any clearing or earthwork begins, and shall be constructed and maintained throughout the construction period. Temporary measures may be removed at the beginning of the workday, but shall be replaced at the end of the workday.

(c) The angle for graded slopes and fills shall be no greater than the angle, which can be retained by vegetative cover or other adequate erosion control devices or structures. Any slope or fill which has been graded shall, within 14 days of the completion of such grading or the completion of any phase of grading, be planted or otherwise provided with ground cover, materials, devices or structures sufficient to restrain erosion. The BMPs shall remain in place in accordance with the BMP plan until the graded slope or fill is stabilized.

(d) Adequate protective measures shall be provided for the containment of hazardous substances and any other materials which may pollute the MS4, including petroleum products, lubricants and paint.

(e) All control measures shall be checked, and repaired as necessary, every two weeks in dry periods and within 24 hours after any rainfall at the site of .75 inch within a 24-hour period. During prolonged rainfalls, daily checking and, if necessary, repairing shall be done. The permittee shall maintain written records of such checks and repairs, which records shall be subject to the inspection of the city engineer at any reasonable time.

(f) A site plan, accompanied by a written description of BMPs which are shown on the site plan, and a schedule of implementation during land-disturbing activities and construction shall be furnished to the city engineer prior to the commencement of any land-disturbing activities.

(g) A description of, and procedures for, proper storage, handling and disposal of construction materials stored on-site which could contribute to the pollutant loading to the MS4, shall be furnished to the city engineer prior to the commencement of any land-disturbing activities.

(h) There shall be no distinctly visible floating scum, oil or other matter contained in the stormwater discharge. The stormwater discharge to an MS4 must not cause an unnatural color (except dyes or other substances discharged to an MS4 for the purpose of environmental studies and which do not have a harmful effect on the bodies of water within the MS4) or odor in the

community waters. The stormwater discharge to the MS4 must result in no materials in concentrations sufficient to be hazardous or otherwise detrimental to humans, livestock, wildlife, plant life or fish and aquatic life in the community waters.

(i) The owner shall be responsible for the ongoing observation, review and field issuance of reports in the actual land-disturbing activity. This responsibility shall include, but need not be limited to, testing, inspection and issuing of field reports as to the establishment of line, grade and drainage of the project area. Civil engineering record documents shall be preserved in accord with state law.

(j) The city engineer may require inspection and testing by an approved testing agency if he determines that such inspection and testing is necessary because unusual, complex or hazardous conditions exist on or adjacent to the site. The cost of such inspection and testing shall be the responsibility of the owner. The testing agency's responsibility shall include, but is not limited to, inspection and issuance of affidavits concerning the inspection of cleared areas and benches to receive fill, and the compaction of fills.
(Ord. No. 99-131, § 1(300), 7-15-1999)

Sec. 4-7-42. Notification of noncompliance.

If the owner, his contractor or his consultants finds that the work is not being done in conformance with this Ordinance or the permitted plans, the discrepancies, if not corrected in a timely manner, shall be reported immediately in writing to the city engineer, plans for corrective measures shall be submitted to the city engineer along with an appropriate schedule for completion of such corrections.
(Ord. No. 99-131, § 1(301), 7-15-1999)

Sec. 4-7-43. Replacement of contractors or consultants.

If the owner's contact person, contractor, civil engineer, soil engineer, engineering geologist or the testing agency of record are changed during the course of the work, the work shall be stopped until the owner has notified the city engineer in writing and properly replaced the contractor or consultants of records to the satisfaction of the city engineer.
(Ord. No. 99-131, § 1(302), 7-15-1999)

ARTICLE D. BONDS, LETTERS OF CREDIT

Sec. 4-7-60. Bonds, letters of credit.

Each control plan must be accompanied by a letter of credit or, a surety bond with the city having the right to approve the security which shall be furnished. A letter of credit, or a surety bond (collectively referred to as "security") shall be furnished to the city in accordance with the following provisions:

(1) The city engineer shall require security in such amount as specified herein to assure that the work, if not completed or if not in accordance with the permitted plans and specifications, will be corrected to eliminate hazardous conditions, erosion and/or drainage problems.

(2) The security shall contain, or have attached to it as an exhibit, a legal description of the site. The security shall remain in effect until it has been released in writing by the city engineer as provided in section 401. A bond with a specific expiration date shall not be acceptable.

(3) The security for clearing operations only shall be in the amount of $1,000.00 per acre for each acre, or fraction of an acre, disturbed or affected by such operations.

(4) The security for earthwork or clearing and earthwork operations shall be in the amount of $3,000.00 per acre for each acre, or fraction of an acre, disturbed or affected by such operations.

(5) Security equal to double the amounts required in subsections (3) and (4) of this section, shall be required where clearing or earthwork is performed in areas designated as floodways, floodplains or areas susceptible to landslides.

(6) Each letter of credit must be issued by a bank which has a principal office in Alabama.

(7) Each letter of credit must be issued by a bank which is satisfactory to the city and each surety bond must be issued by a surety company which is qualified to do business in Alabama and which is otherwise satisfactory to the city.

(Ord. No. 99-131, § 1(400), 7-15-1999)

Sec. 4-7-61. Release of surety bonds.

One year following the completion of vegetation and upon receipt of the as-built plans, the city will release the surety bonds or other form of security to the owner; provided, however, that if vegetation has not been established for an entire growing season, the bonds or other surety shall not be released for one year plus one growing season after the vegetation becomes established with standing growth.

ARTICLE E. INSPECTION, OBSERVATION, COMPLETION

Sec. 4-7-78. Observation of construction.

(a) All land-disturbing activity for which a permit is required shall be subject to observation, inspection and review by the city engineer.

(b) It will be the responsibility of the owner to notify the city engineer in writing of the completion of the following:

(1) Temporary erosion control measures.

(2) Clearing.

(3) Rough grading work.

(4) Final grading work.

(5) All work, including completion of vegetation.

(c) Conditions may reveal the need for additional erosion control measures which shall, if directed by the city engineer, be promptly acquired and installed by the owner.

(Ord. No. 99-131, § 1(500), 7-15-1999)

Sec. 4-7-79. Inspections.

(a) The city engineer, or an authorized agent of the city engineer, bearing proper identification, may enter and inspect all land-disturbing activities for regular periodic inspections, investigations, monitoring, observations, measurements, enforcement, sampling and testing to verify compliance with the provisions of this article and the specific BMP plans and control plans for such land-disturbing activities. The inspections shall be conducted at reasonable times. The city engineer shall inspect the construction site to confirm the implementation and the maintenance of BMP plans. Such site shall also be inspected when the city engineer, or his authorized agent, believes, as a result of complaints or monitoring activity, that land-disturbing activities on the site are causing a substantial pollutant loading which threatens the MS4.

(b) Upon the refusal by any property owner to allow the city engineer to enter, or to continue an inspection on, a site on which land-disturbing activities or construction work is being done, the city engineer may issue a stop work order.

(c) If the city engineer or his authorized agent has reasonable cause to believe that discharges from the land-disturbing activities to the MS4 may cause an imminent threat to human health or the environment, an inspection of the site may take place at any time and without notice to the owner of the property or a representative on site. The city engineer or his authorized agent shall present proper identification upon request of the owner or his representative.

(Ord. No. 99-131, § 1(501), 7-15-1999)

Sec. 4-7-80. Notification of completion.

The owner shall notify the city engineer when the project has been completed, including installation of all drainage facilities and their protective devices and all the provisions of the sediment

and erosion control plan in accordance with the final permitted plans and that all the required reports have been submitted.
(Ord. No. 99-131, § 1(502), 7-15-1999)

ARTICLE F. MONITORING, ENFORCEMENT AND ABATEMENT

Sec. 4-7-97. Monitoring.

The city engineer, or his authorized agent, may periodically monitor the quality of stormwater and the concentration of pollutants, including eroded soil and sediment, in storm water discharges from land-disturbing activities pursuant to this article.
(Ord. No. 99-131, § 1(600), 7-15-1999)

Sec. 4-7-98. Detection of illicit connections, improper disposal and/or discharges.

The city engineer, or his authorized agent, shall take appropriate steps to detect and eliminate illicit connections and eliminate improper disposal and/or discharge to the City's MS4, including the required dry-weather and wet-weather programs to screen illicit connections and improper discharges and identify their source or sources from land-disturbing activities.
(Ord. No. 99-131, § 1(601), 7-15-1999)

Sec. 4-7-99. Unauthorized discharge a public nuisance.

Any discharge of stormwater made in violation of this article or of any condition of a permit issued pursuant to this article is hereby declared a public nuisance and shall be subject to correction and/or abatement in accordance with applicable law, provided however, the following direct or indirect discharges into the MS4 are allowable under the terms of this article unless determined by the city engineer to be a source of contamination to the community water: landscape irrigation; uncontaminated water from foundation and footing drains; discharges from springs; lawn watering; and discharges from firefighting activities.
(Ord. No. 99-131, § 1(602), 7-15-1999)

Sec. 4-7-100. Accidental discharges.

(a) In the event of any discharge of a hazardous substance or a significant spill of a hazardous substance which could constitute a threat to human health or the environment, the owner or operator of the site shall give notice to the city engineer, the city fire and rescue service and the local emergency management authority in the same manner and within the same time as is required by state regulations for notice to ADEM.

(b) The owner or operator of such property shall take all reasonable steps to minimize any adverse impact to the community waters caused by discharges to the MS4, including such improved or additional monitoring as may be necessary to determine the nature and impact of the discharge. Absent a compelling public interest to the contrary, it shall not be a defense for the owner or operator in an enforcement action that it would have been necessary to halt or reduce the business or activity of the site, or any project or facility thereon, to maintain water quality and minimize any adverse impact that the discharge may cause.
(Ord. No. 99-131, § 1(603), 7-15-1999)

Sec. 4-7-101. Immediate threats to public health or welfare.

Notwithstanding any other provision in this article to the contrary, in the event of an immediate threat to the public health or welfare, the city engineer may take all appropriate measures to remove or alleviate such threat.

days of the date of such notice, an explanation of the violation and a plan for the satisfactory correction and future prevention thereof, including specific required actions, shall be submitted to the city engineer. Submission of such plan shall in no way relieve such person in violation of this article of liability for any violations occurring before or after receipt of the notice of violation.

(b) *Compliance order.* When the city engineer finds that any person has violated, or continues to violate, this article, he may issue a compliance order to the violator, directing that, within a specified time period, adequate structures and devices be installed, or procedures implemented, and properly operated, or other action be taken, to remedy such violation. Compliance orders may also contain such other requirements as may be reasonably necessary and appropriate to address such violation, including the construction of appropriate structures, installation of devices and self-monitoring and management practices.

(c) *Cease and desist orders.* When the city engineer finds that any person has violated, or continues to violate, this article or any order issued under this article, the city engineer may issue an order to such person to cease and desist all such violations immediately, and direct such person in violation of this article to:

(1) Comply with this article forthwith; or

(2) Take such appropriate remedial or preventive action as may be required to address properly a continuing or threatened violation of this article, including halting operations and terminating the discharge.

(Ord. No. 99-131, § 1(605), 7-15-1999)

Sec. 4-7-103. Violation, penalties.

It shall be unlawful for any person to:

(1) Violate any provision of this article or fail to comply therewith;

(2) Violate the provisions of any permit issued pursuant to this article;

Sec. 4-7-139. Storm water appeal board of storm water management authority, established.

The authority, a public corporation established by Act No. 95-755, Acts of Alabama, and consisting of Jefferson County and 23 member municipalities, established a board of five members known as the storm water appeal board of storm water management authority ("board"). The composition of the board, the duties of the members of the board, the power of the board to grant variances, the hearing and review procedures of the board and other matters with respect to the board are set forth in a resolution adopted by the authority on May 25, 1999, which resolution is on file in the office the city clerk and in the office of the authority at the Jefferson County Courthouse.

Sec. 4-7-141. Variances.

(a) The board may grant variances from the requirements of this article; provided, that to do so would not be contrary to the public interest, would not violate the spirit of this article, and would not result in the violation of the NPDES permit ALS000001 or any state or federal law or regulation. A variance shall not be granted unless exceptional circumstances, applicable to the site with respect to which the variance is requested, exist so that strict adherence to the provisions of this article would result in unnecessary hardship and the granting of such variance would not result in a condition contrary to the intent of this article.

(b) A party seeking a variance must submit a written petition for a variance, which sets forth the specific variance sought and the reasons therefor, with supporting data as to why the requested variance should be granted. The petition shall include all information necessary to evaluate the requested variance. The petition for a variance shall be filed with the city engineer.

The city engineer shall prepare a written statement of support of, or a written statement of the reason or reasons for his objection to such petition and deliver a copy of such statement to the board and to the person requesting the variance.

(d) Once the city engineer has issued such statement or such ten-day period for review has expired, the petition shall be subject to board action at the next regularly scheduled meeting of the board or at a special meeting of the board, called at the discretion of the chairman of the board.

(Ord. No. 14-198, § 1, 12-16-2014)

Sec. 4-8-2. Purpose/intent.

(a) The primary intent of this chapter is to protect the health, safety, and general welfare of the citizens of the City of Birmingham, Alabama, through the regulation of non-stormwater discharges to the city's municipal separate stormwater system ("MS4") to the maximum extent practicable as required by federal and state law.

(b) This chapter establishes methods for controlling the introduction of pollutants into the City of Birmingham's MS4 in order to comply with requirements of the national pollutant discharge elimination system ("NPDES") permit.

(c) The objectives of the stormwater protection ordinance are:

(1) To regulate the contribution of pollutants to the MS4 from stormwater discharges by any person;

(2) To prohibit illicit connections and non-stormwater discharges to the MS4;

(3) To prevent non-stormwater discharges, generated as a result of spills, inappropriate dumping or disposal, to the city's MS4; and

(4) To establish legal authority to carry out all inspections, surveillance, monitoring and enforcement necessary to ensure compliance with this chapter and the NPDES MS4 Permit.
(Ord. No. 14-198, § 1, 12-16-2014)

Sec. 4-8-3. Authority.

Code of Ala. 1975, tit. 11, Ch. 89C, authorizes the City of Birmingham to specifically regulate and control stormwater discharges and eliminate the discharge of pollutants to the city's MS4.
(Ord. No. 14-198, § 1, 12-16-2014)

Sec. 4-8-4. Applicability.

This chapter applies to all premises (whether developed or undeveloped) that have stormwater discharges associated with any and all land uses within the City of Birmingham.
(Ord. No. 14-198, § 1, 12-16-2014)

Sec. 4-8-5. Administration.

The director of the department of planning, engineering and permits of the city or his designee, shall administer, implement, and enforce the provisions of this chapter and shall act as the "official" for the provisions of this chapter. This chapter shall be construed to assure consistency with the requirements of the Clean Water Act (CWA), the Alabama Water Pollution Control Act (AWPCA) and acts amendatory thereof or supplementary thereto or any other applicable regulations including the city's NPDES MS4 Phase 1 permit.

The standards set forth herein and promulgated pursuant to this chapter are minimum standards; therefore this chapter does not intend nor imply

that compliance by any person will ensure that there will be no contamination, pollution, nor unauthorized discharge of pollutants.

Municipal separate storm sewer system (MS4 or storm drainage system) means a conveyance, or system of conveyances (including roads with drainage systems, municipal streets, catch basins, curbs, gutters, ditches, man-made channels, or storm drains): (i) owned or operated by a state, city, town, borough, county, parish, district, association, or other public body (created by or pursuant to state law) having jurisdiction over disposal of wastes, stormwater, or other wastes, including special districts under state law such as a sewer district, flood control district or drainage district, or similar entity, or an Indian Tribe or an authorized Indian tribal organization, or a designated and approved management agency under Section 208 of the CWA that discharges to waters of the United States.

National Pollutant Discharge Elimination System (NPDES) Stormwater Discharge Permit. A permit issued by EPA (or by a state under authority delegated pursuant to 33 USC § 1342(b)) that authorizes the discharge of pollutants to waters of the United States and waters of the state, whether the permit is applicable on an individual, group, or general area-wide basis.

Operator. The party or parties that (either individually or groups taken together) meet either of the following two criteria: 1) They have operational control over the site specifications (including the ability to make modifications in specifications); or 2) They have the day to day operational control of those activities at the site necessary to ensure compliance with stormwater pollution prevention plan requirements and any permit conditions.

Person. Any individual, association, organization, partnership, firm, corporation or other entity recognized by law and acting as the owner or owner's agent of a premises or as a lessee of a premises. Any and all persons, natural or artificial, including, but not limited to, any individual, partnership, association, society, joint stock company, firm, company, corporation, institution, trust, other legal entity, business organization or any governmental entity and any successor, representative, responsible corporate officer, agent or agency of the foregoing.

Pollutant. Anything which causes or contributes to pollution. Pollutants may include, but are not limited to: dredged spoil, solid waste, incinerator residue, sewage, garbage, sewage sludge, munitions, chemical wastes, biological materials, radioactive materials, heat, wrecked or discarded equipment, rock, sand, cellar dirt and industrial, municipal, and agricultural waste discharged into water. The term also includes any other effluent characteristics specified in the city's NPDES permit.

Pollution. The term "pollution" means the man-made or man-induced alteration of the chemical, physical, biological, and radiological integrity of water.

Premises. Any building, lot, parcel of land, or portion of land whether improved or unimproved including facilities, adjacent sidewalks and parking strips located thereon for all land uses.

Sewage. The term "sewage" means any solid, semisolid, or liquid waste from a sewer or drain; water-carried human, animal or vegetable wastes from residences, buildings, institutions, food service and industrial establishments, and other similar facilities. When used in connection with this chapter, the term "sewage" shall also include the contents or drainage from water closets,

lavatories, showers, bathtubs, clothes washing machines, kitchen sinks, grease traps, dishwashers, or other similar appurtenances.

Source. The term "source" shall mean any specific activity, operation, use or facility which discharges or may discharge any pollutant to the MS4 or which may be required by the Clean Water Act to have a permit to discharge stormwater associated with the source.

State. The State of Alabama.

Stormwater. Any surface flow, runoff, and drainage consisting entirely of water from any form of natural precipitation, and resulting from such precipitation. It is that portion of the rainfall and resulting surface flow that is in excess of that which can be absorbed through the infiltration capacity of the surface of the basin.

Stormwater pollution prevention plan. A document which describes the best management practices and activities to be implemented by a person or business to identify sources of pollution or contamination potential at a site and the actions to eliminate or reduce pollutant discharges to stormwater, stormwater conveyance systems, and/or receiving waters to the maximum extent practicable or technologically feasible.

Structural stormwater control. A structural stormwater management facility or device that controls stormwater runoff and changes the characteristics of that runoff, including, but not limited to quantity, quality, and period of release or the velocity of flow.

Watercourse. A natural or man-made surface drainage channel or body of water (including a lake or pond) through which a water flow occurs, either continuously or intermittently.

Waters of the state. Means all waters of any river, stream, watercourse, pond, lake, coastal, ground or surface water, wholly or partially within the state, natural or artificial. This does not include waters which are entirely confined and retained completely upon the property of a single individual, partnership or corporation unless such waters are used in interstate commerce. (Code of Ala. 1975, § 22-22-1(b)(2). "Waters of the State" include all "navigable waters" as defined in 502(7) of FWPCA, which are within the State of Alabama.

Waters of the United States means:

(a) All waters which are currently used, were used in the past, or may be susceptible to use in interstate or foreign commerce, including all waters which are subject to the ebb and flow of tide;

(b) All interstate waters, including interstate "wetlands";

(c) All other waters such as interstate lakes, rivers, streams (including intermittent streams), mudflats, sandflats, wetlands, sloughs, prairie potholes, wet meadows, playa lakes, or natural ponds the use, degradation, or destruction of which would affect or could affect interstate or foreign commerce including any such waters.

i. Which are or could be used by interstate or foreign travelers for recreational purposes;

ii. From which fish or shellfish are or could be taken and sold in interstate or foreign commerce; or

iii. Which are used or could be used for industrial purposes by industries in interstate commerce:

(d) All impoundments of waters otherwise defined as waters of the United States under this definition;

(e) Tributaries of water identified in paragraphs (a) through (d) of this definition;

(f) The territorial sea; and

(g) Wetlands adjacent to waters (other than waters that are themselves wetlands) identified in paragraphs (a) through (t) of this definition.

Waste treatment systems, including treatment ponds or lagoon designed to meet the requirements of CWA are not waters of the United States. This exclusion applies only to manmade bodies of water which neither were originally created in waters of the United States

(such as disposal areas in wetlands) nor resulted from the impoundment of waters of the United States.

ARTICLE C. PROHIBITIONS

Sec. 4-8-21. Prohibition of illicit discharges.

(a) *Prohibition.* Unless otherwise excepted herein, no person now or in the future, shall spill, dump, throw, drain, make, cause to be made or continue to be made; allow others under such person's control to spill, dump, throw, drain, make, cause to be made or continue to be made; or otherwise discharge and/or dispose of into the city's MS4 any illicit discharge, including but not limited to pollutants or waters containing any pollutants, other than stormwater. The prohibition shall not apply to any non-stormwater discharge permitted under an NPDES permit, waiver, or waste discharge order issued to the discharger and administered under the authority of ADEM, provided that the discharger is in full compliance with all requirements of the permit, waiver or order and other applicable laws and regulations.

(b) *Exceptions.* Discharges from the following activities will not be considered a source of pollutants to the MS4 when properly managed to ensure that no potential pollutants are present, and therefore shall not be considered illicit discharges unless determined to cause a violation of the provisions of the AWPCA, CWA or this article:

(1) Water line flushing (including fire hydrant testing);

(2) Landscape irrigation water and/or lawn watering;

(3) Diverted stream flows carried out in accordance with applicable law;

(4) Rising ground water;

(5) Building pressure wash water without detergents;

(6) Uncontaminated ground water infiltration to storm drains;

(7) Uncontaminated pumped ground water;

(8) Discharges from potable water sources;

(9) Foundation and/or footing drain water (not including active groundwater dewatering systems);

(10) Water from crawl space pumps;

(11) Air conditioning condensation;

(12) Springs;

(13) Street wash water;

(14) Non-commercial or charity car washes;

(15) Individual residential washing of vehicles;

(16) Discharges from natural riparian habitat and/or wetlands;

(17) Swimming pool discharges (only if dechlorinated);

(18) Discharges or flow from firefighting activities and other discharges determined by the fire chief as being necessary to protect public health and safety; and

(19) Discharges associated with biodegradable dye testing.

(c) The City of Birmingham may exempt in writing other non-stormwater discharges which are not a source of pollutants to the MS4.

(d) A person must not improperly store, handle, or apply any pollutant in a manner that will cause its exposure to rainfall or runoff and discharge as point source or nonpoint source pollution into the city's MS4 except in concentrations and quantities authorized by an approved NPDES discharge permit and consistent with a stormwater pollution prevention plan for compliance.

(e) No person shall throw, deposit, leave, maintain, keep, or permit to be thrown, deposited, left, or maintained, in or upon any component of the MS4 or any public or private property, driveway, parking area, street, alley, or sidewalk any refuse, rubbish, garbage, litter, or other discarded or abandoned objects, articles, and accumulations, so that the same may cause or

contribute to pollution of the MS4. Yard wastes deposited in streets in proper waste receptacles or otherwise in compliance with city ordinances, regulations or policies for the purposes of collection are exempted from this prohibition. However, no waste or receptacle shall be placed in a manner to block, obstruct or restrict drain inlets to the MS4.
(Ord. No. 14-198, § 1, 12-16-2014)

Sec. 4-8-22. Prohibition of illicit connections.

(a) *Prohibition.* The construction, use, maintenance or continued existence of undocumented and illicit connections to the storm drainage system is prohibited and a violation of this chapter.

(b) *Past connections prohibited.* This prohibition expressly includes, without limitation, illicit connections made in the past, regardless of whether the connection was permissible under law or practices applicable or prevailing at the time of connection.

(c) *Sewage connections prohibited.* A person is considered to be in violation of this ordinance if the person connects a line conveying sewage to the MS4 or allows such an illicit connection to continue. Improper connections in violation of this ordinance shall be disconnected and redirected, if necessary, to an approved onsite wastewater management system or a sanitary sewer system upon approval of the city and at no cost to the city for same.

(d) *Warning notice provided for:* Upon discovering an illicit discharge to the MS4, the official shall investigate and identify the property or properties from which the discharge is suspected to have originated. The official shall issue written warning notice to the owner or operator of the premises requiring that any drain or conveyance that has not been permitted by the city and documented in plans, maps or the equivalent and which may be connected to the MS4 be located. Such notice will specify a reasonable time within which the location of the drain or conveyance is to be determined, the basis for the reasonable suspicion of an undocumented connection, that the drain or conveyance be identified as storm drainage system, sanitary sewer, or other, and that the outfall location or point of connection to the storm drainage system, sanitary sewer system or other discharge point be identified. The owner or operator of the premises shall cooperate with the official in locating the illicit connection or shall investigate and report the location of the connection to the official. Results of these investigations are to be documented and provided in writing to the official.

(e) *Discontinue illicit discharges:* Upon identifying and locating an illicit connection, the city official may require that discharges from the illicit connection be discontinued and disconnected from the MS4 or may require that the owner or operator provide a plan acceptable to the city for bringing the connection into compliance with this chapter.

ARTICLE D. MS4 PROTECTION

Sec. 4-8-31. General provisions.

(a) No person owning or leasing premises through which a MS4 passes shall throw, deposit, leave, maintain, keep, or permit to be thrown, deposited, left, maintained or kept in any part of a MS4 any trash, debris, other obstacles that would cause pollution, contamination or pollutant loading.

(b) A person shall keep and maintain that part of the MS4 on the premises owned or leased by such person free from any such trash, debris, excessive vegetation and other obstacles that would pollute or contaminate the MS4.

(c) A person shall only be liable under this chapter for trash, debris, excessive vegetation and other obstacles that originate from the premises owned or leased by such person. Nothing in this ordinance shall allow any person to maintain any trash, debris, excessive vegetation or other obstacles on the premises in violation of section 11-8-8 of the General Code of the City of Birmingham that may impact the MS4.

It shall be the duty of the owner, or his duly authorized agent, of the land on which construction or land-disturbing activity is proposed to be conducted to first obtain a soil erosion and sediment control permit from the city, as required by Ordinance No. 99-131, as amended. Failure to do so prior to construction is unlawful and subject to penalty in accordance with Ordinance No. 99-131, as amended.

(b) Consistent with permit conditions. Any officer, employee, or other authorized agent who performs the duties authorized by this chapter in accordance with provisions hereof shall be immune from arrest and prosecution for trespass while performing any legal duty pursuant to this chapter by presenting identification issued by the City of Birmingham. Identification issued by the city shall be presented by the city official at the time of entry.

(b) If security measures are in force on a premise, then the premises owner shall make the necessary arrangements to allow access to representatives of the official for the purposes of this chapter. Proof of an illicit discharge or an illicit connection is not required for entry onto a premise.

(c) Owners and/or operators of a premises shall allow the city official reasonable access to all parts of the premises for the purposes of inspection, sampling, photography, videotaping, testing, and examination; for the copying of records that must be kept under the conditions of an NPDES permit to discharge stormwater; and for the performance of any additional duties as required by state and federal law.

(e) Any temporary or permanent obstruction to safe and easy access to the premises to be inspected and/or sampled shall be promptly removed by the owner of the premises at the written or oral request of the city official. The costs of clearing such access shall be borne by the owner and/or operator of the premises.

(f) Unreasonable delay in allowing the city official access to a premise is a violation of this chapter. It shall be understood that for any person who is the owner and/or operator of a source with a NPDES permit to discharge stormwater and denies the official reasonable access to the permitted premises for the purpose of conducting any activity authorized or required by this chapter shall be considered an offense, punishable by Chapter 9 of this title.
(Ord. No. 14-198, § 1, 12-16-2014)

(1) Immediately comply with all ordinance requirements; and

(2) Take such appropriate preventive action as may be needed to properly address a continuing or threatened violation, including immediately halting operations and/or terminating the discharge.

(a) The five members of the board shall be appointed by the council. The council shall appoint members with the following qualifications: one member who is an environmental engineer or an environmental scientist; one person who is employed by or retired from a utility, industrial or commercial establishment regulated by this chapter; one person who is an officer of a neighborhood association under the city's citizen participation plan; one person from either an environmental or conservation group; and one resident of the City of Birmingham appointed at large. The city's stormwater administrator or his designee shall attend all meetings of the board.

(b) Each member shall be a resident of the city who has a recognized interest in stormwater management; provided, however, that in the event that no city residents apply to fill vacancies for the positions for environmental engineer/scientist, utility/business representative or environmental/conservation group representative, the council may appoint a person who does not reside in the city but who is a business owner or employee of a utility, business or organization that has its principal place of business in the city.

(d) The initial terms of office shall be as follows: the terms of two members shall be for two years and the terms of three members shall be three years. Following the expiration of a member's initial term, each member's appointment thereafter shall be for a term of two years. Should a vacancy occur prior to expiration of a member's term, a successor shall be appointed by the council from a list of interested individuals provided by the city official.

(e) An appointee shall cease to be a member of the SAB upon the appointee's death, being declared inactive or resignation or upon the appointee's ceasing to reside in the city. Appointments to fill any vacancies on the committee shall be made only for the unexpired portion of the term so vacated.

(f) SAB members shall serve without compensation.

(g) The SAB shall meet and organize as soon as possible after appointments. Members shall annually elect from among its members a chairman and vice-chairman. The records of the proceedings of the SAB shall be maintained by the director of planning, engineering, and permits, or his designee. CHAPTER 9. POST CONSTRUCTION STORMWATER ORDINANCE

ARTICLE A. GENERAL PROVISIONS

Sec. 4-9-1. Title.

These regulations shall hereafter be known, cited and referred to as the Post Construction Stormwater Ordinance of the City of Birmingham, Alabama.
(Ord. No. 19-31, § 1, 3-29-2019)

Sec. 4-9-2. Purpose and intent.

(a) The primary intent of this chapter is promoting the health, safety, and general welfare of the citizens of the City of Birmingham, Alabama, and to minimize public and private losses due to flood conditions through the regulation of stormwater discharges from land developments.

(b) This chapter establishes methods for controlling the discharge of pollutants from land developments to the city's municipal separate stormwater system ("MS4") and local waterways in order to comply with requirements of the National Pollutant Discharge Elimination System ("NPDES") permit, required by the federal Clean Water Act, 33 U.S.C. § 1251 et seq. (1972), and supported by the Alabama Water Pollution Control Act, Code of Alabama 1975, § 22-22-1.

(c) This chapter establishes methods for controlling stormwater volume and peak discharges from land developments in order to minimize public and private losses due to poor drainage or flood conditions.

(d) The objectives of the post construction stormwater ordinance are:

(1) To minimize or, if possible, eliminate the contribution of pollutants to the MS4 from, or caused by, stormwater discharges from new land developments or redevelopments;

(2) To regulate the volume and peak discharge of stormwater discharges from new land developments or redevelopments;

(3) To provide for adequate long-term operation and maintenance of the structural practices installed to comply with this chapter and the City of Birmingham's NPDES MS4 Phase 1 Permit.

(4) To establish legal authority to require the plans and permits, and carry out all inspections, surveillance, monitoring, and enforcement, necessary to ensure compliance with this chapter and the City of Birmingham's NPDES MS4 Phase 1 Permit.
(Ord. No. 19-31, § 1, 3-29-2019)

Sec. 4-9-3. Authority.

This chapter is adopted pursuant to Code of Ala. 1975, § 11-45-1, which authorizes the City of Birmingham to adopt ordinances, not inconsistent with the laws of the state, to provide for the safety, preserve the health, promote the prosperity, and improve the morals, order, comfort, and convenience of the inhabitants of the municipality, and to enforce obedience to such ordinances.

This chapter is also adopted pursuant to Code of Ala. 1975, tit. 11, ch. 89C, which authorizes

local government units to specifically regulate and control stormwater discharges and eliminate the discharge of pollutants to the MS4.

This chapter is also adopted pursuant to requirements of the City of Birmingham's NPDES MS4 Phase 1 Permit to control post-construction discharges from new development or re-development to the city's MS4.
(Ord. No. 19-31, § 1, 3-29-2019)

Sec. 4-9-4. Administration.

The director of the department of planning, engineering and permits (the director) or his/her designee, shall administer, implement and enforce the provisions of this chapter and shall act as the "official" for the provisions of this chapter. Any powers granted or duties imposed may be delegated by the director to persons or entities acting in the beneficial interest of, or in the employ of the city and certified in the manner established in the design manual and licensed to practice as a professional in the State of Alabama.
(Ord. No. 19-31, § 1, 3-29-2019)

Sec. 4-9-5. Referenced standards.

(a) The standards referenced in this chapter shall be considered an integral part of the ordinance without separate adoption. If specific portions of a standard are denoted by ordinance text, only those portions of the standard shall be enforced. Where ordinance provisions conflict with a standard the ordinance provisions shall be enforced. Permissive and advisory provisions in a standard shall not be construed as mandatory.

(b) Within the referenced standards, the director may allow administrative variations to the requirements in the design manual or maintenance manual provided such variations do not result in a reduction or elimination of post construction stormwater performance standards or the addition of fees. Otherwise, changes to this chapter or to the referenced standards shall require city council approval in the same manner as any change to city code.
(Ord. No. 19-31, § 1, 3-29-2019)

Sec. 4-9-6. Applicability.

This chapter applies to all proposed land development (whether new development or redevelopment, whether public or private) that:

(a) Will result in a land disturbance of one acre or greater;

(b) Will result in a land disturbance of less than one acre, but is part of a larger common plan of development or sale that will, or already has, disturbed one acre or greater of land;

(c) Will result in a land disturbance of less than one acre but is determined by the director to warrant additional engineering analysis and/or stormwater management controls, based on one or more of the following circumstances; or

(1) The proposed land development is located on a property that is considered a brownfield or is otherwise known or believed to have pollutants in the soil or on the ground that, if discharged from the property in stormwater or groundwater, may cause harm to the general public or the environment.

(2) The proposed land development that will, after development, discharge stormwater to a waterbody that is included on the most recent Alabama § 303(d) List, or for which a Total Maximum Daily Load ("TMDL") has been approved by the United States Environmental Protection Agency ("USEPA").

(3) The proposed land development will, after development, discharge stormwater to a waterbody that is classified by the Alabama Department of Environmental Management ("ADEM") for Public Water Supply, as an Outstanding National Resource Water, as an Outstanding Alabama Water, or as a Treasured Alabama Lake, and the director, in consultation with the chief civil engineer -

watersheds and city engineer, using sound engineering judgement, has reason to believe that unregulated stormwater discharges from the land development may adversely affect the waterbody.

(4) The proposed land development is located on, or will, after development, discharge stormwater to an area that has been designated by the United States Fish and Wildlife Service ("USFWS") as critical habitat for one or more threatened or endangered species, or where the USFWS has identified one or more threatened or endangered species are located.

(5) A history of flooding or drainage problems is known to exist in, or downstream of, the drainage basin where the premises is located, whether documented or undocumented.

(6) An engineering study prepared by a professional engineer licensed in the State of Alabama indicates a need for more stringent regulation of stormwater in the watershed where the proposed land development is located in order to avoid, or alleviate, any flood, drainage, or pollution problems.

(7) The director, in consultation with the chief civil engineer - watersheds and city engineer, has reason to believe, using sound judgment, that the proposed land development may further exacerbate existing flood or drainage problems as a result of development or redevelopment on the property.

(Ord. No. 19-31, § 1, 3-29-2019)

Sec. 4-9-7. Exemptions.

(a) The exemptions listed in this section shall not be construed as an opportunity to circumvent the letter and spirit of this chapter.

(b) The following land developments or land-disturbing activities shall be exempt from this chapter:

(1) Land developments for which a civil construction permit was obtained prior to the date of adoption of this chapter and for which substantial grading or construction has occurred within one year of the date of adoption of this chapter. (Owners of such land developments must comply with the civil engineering plan approved for the land development.);

(2) Agriculture;

(3) Silviculture;

(4) Home gardens, landscaping on individual residential lots (excluding landscaping performed by, or on behalf of, a developer or builder who builds a house on any such lot that is an applicable land development, as defined in this chapter), home repairs, home maintenance work, the maintenance or repair of accessory structures and other related activities which result in minor land disturbances;

(5) Individual connections for utility or sewer services for single or two-family residences, minor grading for driveways, yard areas, and sidewalks, excluding any service connection or any grading done by, or on behalf of, a developer or builder who builds a house on any such lot that is an applicable land development, as defined in this chapter;

(6) Utility installation, maintenance, repair and extension for both above-ground and underground utilities, including sewer lines. (The construction of utility buildings, service stations, junction stations, substations, treatment plants, and other utility related spaces or buildings is not exempt if construction will result in a land disturbance of one acre or greater.);

(7) The construction, repair, or rebuilding of railroads;

(8) Other land disturbing activities which will not result in land development, including, but not limited to, minor subsurface

exploratory excavations under the direction of soils engineer or engineering geologists; the opening of individual burial sites in cemeteries, the digging of water wells or environmental monitoring wells.

(Ord. No. 19-31, § 1, 3-29-2019)

Sec. 4-9-8. Responsibility.

Conformance with this chapter is a minimum requirement and does not prohibit or relieve the owner of a premises or the owner's representative, such as a lessee, tenant, contractor, facility or equipment operator, co-permittee or any other person or entity residing, working, or operating on the premises, from applying sound judgment and taking measures which go beyond the scope of the requirements of this chapter where necessary. Nor does this chapter imply a warranty or the assumption of responsibility on the part of the city for the suitability, fitness or safety of any structure with respect to flooding, water quality, or structural integrity. This chapter is a regulatory instrument only, and is not to be interpreted as an undertaking by the city to design, construct or operate any structure or practice.

Exemption from the requirement in this chapter to obtain a permit or prepare a plan shall not be construed as relieving or prohibiting the owner or the owner's representative of any premises from implementing onsite drainage improvements that may be required in accordance with building and construction codes, nor from providing adequate erosion and sedimentation control measures or stormwater management measures to protect adjoining property owners, the MS4, public rights-of-way and local waterways. Nor does this chapter relieve the owner or the owner's representative from complying with other ordinances or regulations as they relate to the City of Birmingham.

(Ord. No. 19-31, § 1, 3-29-2019)

Sec. 4-9-9. Regulatory consistency.

This chapter shall be construed to assure consistency with the requirements of the Clean Water Act ("CWA"), the Alabama Water Pollution Control Act ("AWPCA") and acts amendatory thereof or supplementary thereto or any other applicable regulations including the city's NPDES MS4 Phase 1 permit.

The standards set forth herein and promulgated pursuant to this chapter are minimum standards; therefore, this chapter does not intend nor imply that compliance by any person will ensure that there will be no contamination, pollution, nor unauthorized discharge of pollutants.

This chapter is not intended to repeal, abrogate or impair any existing easements, covenants, deed restrictions, or existing ordinances and regulations. However, where the provisions of this chapter and other regulations conflict or overlap, that provision which is more restrictive or imposes higher standards or requirements shall prevail. It is required that the director be advised of any such regulatory conflicts upon submittal of any plan required by the ordinance.

(Ord. No. 19-31, § 1, 3-29-2019)

Sec. 4-9-10. General prohibitions.

The term also includes any other effluent characteristics specified in the city's NPDES permit.

Post construction stormwater practice means, generally, any activity or practice or drainage system that is designed and constructed to manage post construction stormwater quality or provide flood control whether alone or in combination with other post construction stormwater practices. Green infrastructure practices are considered post construction stormwater practices.

Pre-concept conference is a meeting between the owner of a proposed (or possibly proposed) land development, the consultants working on his/her behalf to design the land development, and the chief civil engineer - watersheds, to examine the existing (pre-construction condition) hydrology of said land development for the purpose of identifying opportunities or limitations to the use of low impact development practices and green infrastructure practices, and to generally evaluate the practices, permits, and regulations that may be necessary to effectively manage stormwater after development of the land.

Pre-concept sketch is a written set of documents, narratives, and maps that provides a detailed characterization of the existing hydrology at the location of a proposed land development subject to this chapter.

Pre-construction condition is the existing condition of the property at the time the application for a post-construction stormwater permit is submitted, prior to any clearing, grubbing, grading, construction, or demolition done in preparation for the proposed new development or redevelopment. For new land developments, the pre-construction condition will be an undeveloped condition. For redevelopments, the pre-construction condition will be a developed condition. In the event that demolition of pavement or structures has already occurred in preparation for the proposed redevelopment when the application for a post-construction stormwater permit is received, the pre-construction condition shall be the previously developed condition of the property, as obtained from aerial photography, historical mapping, or other reliable source of land cover information.

Premises means any building, lot, parcel of land, or portion of land whether improved or unimproved including facilities, adjacent sidewalks, and parking strips located thereon for all land uses.

Record drawing is a written, detailed set of documents, narratives, maps, affidavits, and reports that accurately indicate the as-constructed condition of the individual and collective stormwater drainage systems and post construction stormwater practices on a land development subject to this chapter. Approval of a record drawing by the director is required to terminate a post construction stormwater permit.

Redevelopment means the expansion, renovation, rebuilding, demolition and construction, or other further improvement of any previously improved tract, lot, or parcel of land, or combination of contiguous tracts, lots, or parcels of land which are in one ownership, or which are owned by two or more parties, are proposed or planned as a unit, subdivision, or project. "Previously improved" includes, but is not limited to, the prior placement, construction, and/or demolition of buildings, roadways, sidewalks, parking areas, and other areas of concrete, asphalt, gravel, packed gravel, or other materials on the subject tract(s), lot(s) or parcel(s).

Sec. 4-9-32. Post construction stormwater permit required.

It shall be unlawful to commence or continue to conduct, or for the owner to allow the commencement or conduct of, any of the following activities without first having obtained a post construction stormwater permit from the director, unless the activity is exempted from obtaining a permit under this chapter.

(1) Land disturbing activities as defined in this chapter;

(2) Construction/building activities; and

(3) Construction or alteration of any natural or manmade stormwater system so as to divert, constrict, increase or change in any manner the natural or existing flow of any stream, or natural or existing stormwater system of any area.

(Ord. No. 19-31, § 1, 3-29-2019)

Sec. 4-9-33. Post construction stormwater permit application review.

(a) It shall be the duty of the owner of the proposed land development, or his/her duly authorized agent, to file with the director a complete post construction stormwater permit application. The application shall include the application document, a complete stormwater management plan, including any applicable forms and certifications, proof of adequate letter of credit or surety bond as required by section 4-9-71 this chapter. Incomplete applications shall not be deemed to have been filed. Once a complete application has been filed, the director shall approve or reject the application based upon its review for conformance with this chapter and all other applicable requirements. The application will be approved if it, and the plans and checklists therein, are in conformance with this chapter. If the application is rejected, the director shall inform the applicant, in writing, of the reasons for its rejection.

(b) The director does not assume to provide complete and comprehensive technical review of the stormwater management plan. Rather, the director provides a general review of information and documentation that has been submitted to generally ensure that the onsite stormwater drainage system is designed in accordance with this chapter, and that stormwater design calculations have been appropriately documented. To this end, the owner of the proposed land development shall be responsible for the intent, adequacy

and compliance of the stormwater designs based on actual field conditions and construction techniques.
(Ord. No. 19-31, § 1, 3-29-2019)

Sec. 4-9-34. Stormwater management plan required.

(a) Each application for a post construction stormwater permit shall be accompanied by three sets of stormwater management plans as set forth in section 4-9-36, and any other required, supporting forms and certifications prepared and signed by the appropriate professional.

(b) Each request for termination of a post construction stormwater permit shall be accompanied by two sets of stormwater record drawings, as set forth in section 4-9-38, and any other required supporting forms and certifications prepared and signed by the appropriate professional.

(c) Additional plans or reports may be required by the director to allow adequate assessment of the proposed stormwater designs, to better understand potential flood, drainage, or pollutant impacts of a proposed or installed stormwater drainage system.
(Ord. No. 19-31, § 1, 3-29-2019)

Sec. 4-9-35. General standards for all plans.

(a) Persons conducting land development shall take all reasonable measures referred to, or provided for, in this chapter and the design manual to protect all public and private property from damage caused by stormwater from such development and to reduce stormwater pollution to the maximum extent practicable.

(b) All plans, specifications, and documents established to comply with this chapter shall be prepared and submitted in accordance with, and as required by, this chapter, the design manual, and all other rules, regulations and specifications of the City of Birmingham. Required plan elements are established in the design manual.

(c) The director may require submittal of additional information in any plan required by this chapter as necessary to allow an adequate review of the existing or proposed land development conditions, proposed designs, or constructed stormwater drainage system. Omission of any required items for a plan shall render the plan incomplete and withdraw it from review by the director.

(d) All plans and specifications required to be submitted to obtain or terminate a permit should be prepared, to the maximum extent practicable, in keeping with the following general standards:

(1) Protect and preserve existing natural drainage channels.

(2) Retain off-site natural drainage patterns.

(3) Stabilize bare soil and prevent erosion in pervious areas.

(4) Assure that waters drained from the land development are free of point and nonpoint sources of pollutants, including eroded soil and sediment, and do not cause flooding or erosion on adjacent or downstream properties to any greater extent that occurs in the absence of development.

(5) Assure that waters are drained from the development in such a manner that will not cause erosion to any greater extent than would occur in the absence of development.

(6) Provide that all roof and foundation drains shall be discharged to natural drainage, engineered detention ponds, curb face outlets, or to a public or approved private storm drain.
(Ord. No. 19-31, § 1, 3-29-2019)

Sec. 4-9-36. Stormwater management plan standards.

(a) The stormwater management plan shall be prepared and stamped by an engineer, landscape architect, or architect competent in civil and land development design and licensed to practice in the State of Alabama. Additional

professional license requirements pertaining to preparation of the stormwater management plan are as follows:

(1) Portions of the plan that require hydraulic and/or hydrologic calculations (excluding the determination of soil infiltration and permeability rates) and design shall be prepared plans signed, sealed and dated by a licensed professional engineer, qualified in civil engineering, in good standing with the Alabama State Board of Licensure for Professional Engineers and Land Surveyors, and licensed to practice in the State of Alabama.

(2) Portions of the plan that require soil infiltration tests, soil permeability assessments, and soil media design shall be prepared by a soil scientist, geologist or geotechnical engineer licensed to practice as professional in the State of Alabama.

(b) Professionals responsible for preparation of the stormwater management plan shall indicate conforming licensure by affixing their seal as a licensed professional and providing signature and date of signature in the manner required by the Alabama Law Regulating Practice of Engineering and Land Surveying, Code of Alabama 1975, tit. 34, ch. 11.

(c) Performance standards, technical methods, required calculations, and post construction stormwater practice design specifications that are applied to prepare the stormwater management plan shall be in accordance with the design manual. Technical methods, calculation approaches, or practices not shown in the design manual shall not be used without prior written permission of the director. This chapter shall supersede where the regulations of this chapter and the policies stated in the design manual conflict.

(d) The stormwater management plan shall be subject to any additional requirements as set forth in city subdivision regulation, zoning ordinance, engineering and construction specifications, public work specifications, and all other city regulations.

(e) It is the responsibility of the owner to be aware of, and to fully address, any regulations or permits that may apply to his/her land development, including state and federal regulations for construction activities that will have an impact on Waters of the State, wetlands, sinkholes, landslide areas, and threatened or endangered species. The director may require proof of land development conformance with, or coverage by, any applicable local, state, or federal regulation or permit in the stormwater management plan. (Ord. No. 19-31, § 1, 3-29-2019)

Sec. 4-9-37. Stormwater record drawings.

(a) The applicant shall prepare and provide a stormwater record drawing within 120 days of completion of the land development project.

(b) The stormwater record drawing shall reflect the "as-constructed" condition of the land development and shall demonstrate substantial conformance with the approved stormwater management plan for the land development. Significant deviations from the approved stormwater management plan shall be considered violations of this chapter and are grounds for any of the following:

(1) A requirement to submit a new request for termination of the post construction stormwater permit, including submittal and obtaining approval on a revised stormwater record drawing;

(2) A requirement to submit and obtain approval on a revised stormwater management plan prior to performing corrective action(s);

(3) The invocation of the injunctions and penalties defined therein;

(4) Withholding the release of a bond or termination of the post construction stormwater permit pending the completion of corrective action(s);

(c) The stormwater record drawing shall include all of the required and applicable elements as specified in the design manual.

(d) The stormwater record drawing shall be prepared and certified in the manner established in the design manual by registered land surveyor or professional engineer licensed to practice in the State of Alabama. Additional professional license requirements pertaining to preparation of the record drawing are as follows:

(1) The record drawing shall be reviewed by a professional engineer or landscape architect for conformance with the approved stormwater management plan. Portions of the land development that are not in conformance with the approved stormwater management plan shall be identified and accompanied by a narrative explanation of the non-conformance. The director may also require engineering analyses and resubmittal of the stormwater management plan (entirely or in part) to prove land development conformance with required performance standards. The record drawing and any associated narrative, engineering analyses, and accompanying plan shall be signed, sealed and dated by the professional engineer, landscape architect, or architect competent in civil and land development design and licensed to practice in the State of Alabama, as appropriate.

(2) Portions of the plan that require soil infiltration tests or soil permeability assessments shall be prepared by a soil scientist, geologist or geotechnical engineer licensed to practice as a professional in the State of Alabama.

(Ord. No. 19-31, § 1, 3-29-2019)

Sec. 4-9-38. Post construction stormwater permit termination.

(a) It is the responsibility of the permit holder to request termination of a post construction stormwater permit. The submittal of the record drawing shall constitute a request for permit termination.

(b) Stormwater drainage systems for which a record drawing has been submitted shall be subject to a permit termination inspection by the director. Systems that meet all of the following criteria shall be considered functional and operating as indicated in the approved stormwater management plan:

(1) The post-construction stormwater practice maintenance map provides an accurate depiction and labelling of the post-construction stormwater practices on the land development;

(2) The post-construction stormwater maintenance agreement is fully executed;

(3) The stormwater drainage system shall be free of blockages, sediment, trash, construction related wastes, and other debris;

(4) The stormwater drainage system shall not be damaged or otherwise in need of repair or replacement;

(5) Accumulated sediment from basins, traps, and other areas where sediment was captured during construction, whether intentionally or unintentionally, shall be entirely removed, unless otherwise provided for in the stormwater management plan;

(6) All pervious areas draining to the stormwater drainage system with permanent vegetation or landscaping as indicated in the approved stormwater management plan;

(7) No prohibited conditions as established in section 4-9-81 of this chapter exist; and

(8) All temporary erosion protection and sediment control measures are removed.

(c) Corrective actions shall be required of the owner(s) where these inspection criteria are not met. The director may re-inspect the system to confirm satisfactory completion of any required corrective actions and may withhold inspection approval until such actions have been completed and all criteria are satisfied.

(d) The post construction stormwater permit for a land development shall not be terminated until the director approves the stormwater record drawing and the permit termination inspection.

(e) Permits obtained for an applicable land development that was ultimately not constructed or was partially constructed shall not be terminated and the bond not released until the land development is fully stabilized against soil erosion with permanent vegetation and it is demonstrated that the project meets the requirements of this chapter for any construction that did occur. In the event that one or both of these conditions are not met, corrective actions shall be imposed on the owner(s) as required to meet these conditions. Corrective actions may include, but are not limited to, the installation and care of permanent vegetation until it is fully established, the preparation, submittal, and approval of a stormwater management plan, and/or the design and construction of post-construction stormwater practices.
(Ord. No. 19-31, § 1, 3-29-2019)

Sec. 4-9-39. Affidavits.

(a) When determined to be necessary, the director may require affidavits on forms furnished by the city and as indicated in the design manual to be executed by the owner and his consultants prior to issuance of a post construction stormwater permit.

(b) Upon filing of a request for termination of a post construction stormwater permit, affidavits will be furnished for execution by the owner and his consultants affirming that the completed construction conforms to the approved stormwater management plan and to the requirements of this chapter.
(Ord. No. 19-31, § 1, 3-29-2019)

Sec. 4-9-40. Maintenance of records.

Records of compliance with any approved plan or record drawing shall be maintained by the person(s) responsible for development of the property for a period of at least three years from the date of termination of the permit. Said records shall be made available for review by the director upon request.
(Ord. No. 19-31, § 1, 3-29-2019)

Sec. 4-9-41. Conformity to the approved plan.

(a) Construction of the land development shall not deviate from the approved stormwater management plan without the prior written approval of a plan revision from the director. The owner shall ensure adherence to this requirement by all persons acting on his/her behalf during construction of the land development and until termination of the post construction stormwater permit.

(b) Permitted stormwater management plans and specifications shall not be changed, modified, or altered without authorization of the director; and all work shall be done in accordance with the permitted plans.
(Ord. No. 19-31, § 1, 3-29-2019)

Sec. 4-9-42. Plan revisions.

(a) The issuance of a permit shall not prevent the director from thereafter requiring the correction of errors or changes due to unforeseen problems in permitted plans and specifications. The director may require revision of the approved plan or specification if it is determined after approval that the approved plan or specification is inadequate to meet the requirements of this chapter, or if significant problems occur which were not considered at the time the permit was issued.

(b) If the conditions of the land development change after approval of the stormwater management plan, the owner shall notify the director immediately. The director may require cessation of all, or a portion of, construction, re-application for a post construction stormwater permit in accordance with section 4-9-44 of this chapter, and/or resubmittal and approval of a revised stormwater management plan, or appropriate portions thereof. Such proposed conditions include, but are not limited to, the layout or size of proposed buildings, streets, and other impervious surfaces or unexpected pollution, geological or hydrologic conditions encountered during construction.
(Ord. No. 19-31, § 1, 3-29-2019)

Sec. 4-9-43. Amended applications; transfer of permits.

(a) A post construction stormwater permit may be amended upon the filing with the director of an amended or restated permit application, containing all changes from the original application; provided, that the older of the permit shows to the reasonable satisfaction of the director that there are no proposed changes which may affect compliance with the provisions of this chapter. If an amended or restated application is filed with the director with respect to post construction stormwater activities for which a post construction stormwater permit has been issued, said existing permit shall continue in effect, and the holder of the permit may continue to operate under it unless and until amended. A new permit is issued in response to the amended or restated application ("amended permit") at which time the original permit shall expire and stormwater construction or special pollution abatement activities must be conducted in accordance with the amended permit.

(b) A post construction stormwater permit may be transferred upon the filing with the director of an application for transfer; provided, that the holder and proposed transferee of the permit: (1) submit any bonds required by this chapter; and, (2) show to the reasonable satisfaction of the director that, upon or following the permit transfer, there will be no proposed changes which may affect the construction of the stormwater system as indicated in the approved stormwater management plan. If there is a request for the transfer of a permit and there are to be one or more changes in post construction stormwater, the new owner or operator of such project must apply to the city for a new permit prior to his/her involvement with the operation of such project.
(Ord. No. 19-31, § 1, 3-29-2019)

Sec. 4-9-44. Signatory requirements.

(a) All applications and correspondence required by this chapter to be submitted to the director shall be signed as follows:

(1) If an application or correspondence is submitted by a corporation, it must be signed by the president of the corporation or by a vice president of the corporation who oversees a principal business function of the corporation, or any other person who has been authorized to sign such applications and/or correspondence by a resolution adopted by the board of directors of the corporation. Proof of the authority of the signatory shall be provided to the director upon his/her request.

(2) If an application or correspondence is submitted by a limited liability company, it must be signed by a manager or other person who serves the same or similar function as the president of a corporation.

(3) If an application or correspondence is submitted by a partnership, it must be signed by a general partner of the partnership.

(4) If an application or correspondence is submitted by a sole proprietorship, it must be signed by the proprietor.

(5) If an application or correspondence is submitted by a municipality, county, the state, or the federal government or by any municipal, state, or federal agency, it must be signed by either the chief executive officer or a principal executive officer of any such government or by either the chief executive officer, a principal executive officer, or a senior executive officer having responsibility for the overall operations of a principal geographic unit of any such governmental agency.

(b) Any person signing any application or correspondence required by this chapter shall make the following certification: "I certify, under penalty of the law, that this document and all attachments were prepared under my direction or supervision and that I have personally examined, and I am familiar with, the information in this document and such attachments. Based on my inquiry of those individuals immediately responsible for obtaining the information, I believe the submitted information is true, accurate, and complete. I am aware that there

are significant penalties for submitting false information, including the possibility of fine and civil penalty."
(Ord. No. 19-31, § 1, 3-29-2019)

Sec. 4-9-45. Issuance of permit; expiration, suspension or revocation.

(a) The purpose of permitting plans and specifications is to assure compliance with this chapter. The director's review and permitting of plans and specifications is not intended as approval of the overall layout, structural design, grading procedures, situation control, engineer's reports, or construction procedures. These responsibilities shall remain with, and be those of, the owner or his consultants.

(b) The permit application, plan, specifications, reports, affidavits, and other required documents shall be filed with the director as required by this chapter. Such documents may be reviewed by other departments to check compliance with the laws and ordinances under their jurisdiction. If the director is satisfied that the work described in the permit application, the plan, and specifications filed therewith conform to the requirements of this chapter and other pertinent laws and ordinances, and necessary bonds and other surety obtained, he/she shall issue a permit therefor to the owner. When the director issues the permit, he/she shall endorse in writing or stamp "PERMIT ISSUED" on the original set of plans and specifications.

(c) One set of permitted plans, specifications, and/or other required documents shall be retained by the director for a period of not less than one year from the date of completion of the work covered therein.

(d) Every permit issued by the director under the provisions of this chapter shall expire by limitation and become null and void, if the work authorized by such permit is not commenced within 90 days from the date of issuance of such permit, provided that consecutive renewal of such permit may be granted, at no additional cost, upon writing request to the director with good cause shown. The work authorized by such permit shall not be suspended or abandoned at any time after the work is commenced and shall be carried to completion or the permit shall be suspended. If work is suspended or abandoned, required bonds may be used to correct or eliminate stormwater quality or drainage problems, or hazardous conditions as provided there.

(e) The director may suspend or revoke a permit or waiver issued under provisions of this chapter by giving notice in writing to the owner whenever the permit or waiver is issued in error, on the basis of incorrect information supplied, or in violation of any ordinance, regulation, or any of the provisions of this chapter.
(Ord. No. 19-31, § 1, 3-29-2019)

Sec. 4-9-46. Recorded instruments.

(a) As an express condition precedent to final approval by the director of any post construction stormwater plan which contains post construction stormwater practices:

(1) Post construction stormwater practices that serve multiple owner properties with a subdivision plat shall be provided an unobstructed access easement of not be less than 20 feet in width, encompassing the said practice, and connected to a public street. Stormwater access easements shall be accurately recorded on the property's plat, with identification of each practice by name, as established in the design manual. The plat shall also include a statement as follows "It is the responsibility of the property owner(s) to inspect, operate, and maintain all post construction stormwater practices in accordance with the Birmingham Post Construction Stormwater Ordinance."

(2) The city and all owners (including contract purchasers), whether persons or entities of the property upon which post construction stormwater practices are located (excluding however, (i) any governmental entity owning any interest in lands within said property dedicated to and accepted by the public such as public streets and rights-of-way and (ii) any person or entity holding any interest in such real property solely as security for the performance or satisfaction of any obligation), shall enter

into a post construction stormwater practice maintenance agreement substantially in the form and substance as set forth in the design manual. The maintenance agreement shall be recorded with the property's plat.

(3) Owners who hold such an interest in such real property solely as security for the performance or satisfaction of any obligation shall execute acknowledged ratification on the face of the property's plat so as to give full force and effect to said post construction stormwater practice maintenance agreement; and

(4) The plat shall contain a plat note suitable in form and content to the city attorney or his/her designee which incorporates by reference said post construction stormwater practice maintenance agreement.

(b) The mayor of the city is hereby authorized, directed, and empowered to execute said post construction stormwater practice maintenance agreement and corresponding plat note on behalf of the city for each such agreement and plat.

(c) The post construction stormwater practice maintenance agreement established in the design manual, which shall constitute a covenant running with the land as to the real property made the subject of such plat, shall be incorporated by reference into each such plat.

(d) Person(s) seeking such modification or release of a recorded covenant established by execution of the maintenance agreement, that encompasses a stormwater practice, shall be required to request such modification or revocation from the director. In the event the director denies the modification or release of the covenant, the person seeking the modification or release of the covenant may appeal the decision of the director to the stormwater appeals board, as provided in section 4-8-95 of the General Code of the City of Birmingham, as it may be amended. In the event that the position of director and/or the stormwater appeals board are amended or eliminated in the future, application for modification or release shall be made to the person or body succeeding to the powers and duties of director and/or stormwater appeals board or as provided in any amended or succeeding post-construction stormwater management ordinance.

(e) Modification or release of a recorded covenant established by execution of the maintenance agreement that encompasses a stormwater practice may be allowed if the stormwater practice(s) encompassed by the covenant:

(1) Will be, or have been, significantly altered or relocated such that the maintenance agreement and its stormwater practices map are incorrect and will, or do, not reflect the actual type or location of practice(s) located on the property;

(2) Will be, or are, no longer needed due to construction of other stormwater practices, either on or off the property, that will, or do, manage the stormwater handled by the practice(s) encompassed under the covenant;

(3) Will be, or have been, removed or relocated due to planned redevelopment of a portion, or all, of the property;

(4) Significant alteration or relocation of a stormwater practice is prohibited without prior approval by the director and may require a new stormwater permit and maintenance agreement.

(Ord. No. 19-31, § 1, 3-29-2019)

Sec. 4-9-47. NPDES permits.

Persons or entities who hold NPDES general, individual, or multi-sector permits shall provide either a copy of such permit or the permit number assigned to them by ADEM no later than 60 calendar days after termination of the post construction stormwater permit.
(Ord. No. 19-31, § 1, 3-29-2019)

Secs. 4-9-48—4-9-60. Reserved.

ARTICLE D. STORMWATER DESIGN

Sec. 4-9-61. Stormwater system requirements.

(a) The performance standards provided in the design manual establish the minimum stormwater management requirements for the design

and construction of individual and collective stormwater drainage systems and post construction stormwater practices on land developments not exempted by this chapter, whether such systems and practices are located on public or private lands.

(b) Individual and collective stormwater drainage systems and post construction stormwater practices on new developments not exempted by this chapter, whether such systems and practices are located on public or private lands, shall meet or exceed the following stormwater performance standards established in the design manual: stormwater quality protection; flood protection; downstream analysis; and, drainage system design.

Adherence to these performance standards for a new development shall be calculated for the entire area of the land development, inclusive of all pervious and impervious surfaces located inside the legal boundaries of the land development.

(c) Individual and collective stormwater drainage systems and post construction stormwater practices on redevelopments not exempted by this chapter, whether such systems and practices are located on public or private lands, that will result in a net increase in impervious surface area from the previously developed condition shall be subject to the following performance standards: stormwater quality protection; downstream analysis; and drainage system design. If the downstream analysis indicates an increase in peak discharges in the post-construction condition as compared to the pre-construction condition, the flood protection performance standards shall also apply.

Adherence to applicable performance standards for a redevelopment shall be calculated for the increase in impervious surface area that will result from the redevelopment.

(d) In the evaluation of, and adherence to, flood protection and downstream analysis performance standards, the pre-construction condition shall be the existing condition of the land at the time of application for a post construction stormwater permit for the land development. In the event that demolition of pavement or structures has already occurred at the time of application for a post construction stormwater permit on a property proposed for redevelopment, the pre-construction condition shall be the previously developed condition of the property, as obtained from aerial photography, historical mapping, or other reliable source of impervious cover information. It shall be the responsibility of the owner to provide proof of the pre-construction condition with the stormwater management plan.

(e) Individual and collective stormwater drainage systems and post construction stormwater practices shall be designed and constructed in strict accordance with the policies, design criteria, calculation and technical specifications, and guidance established in the design manual and in the standard specifications for the construction of public works projects, where applicable, unless otherwise established by this chapter or by the director. Adherence to this requirement shall be established in the stormwater management plan. Other technical methods, calculation approaches, and practices shall not be used without the approval of the director. In the event that an alternative method, approach, or practice is allowed, the director may request the owner to provide additional hydrologic and hydraulic calculations, or other technical information to confirm that the alternative method, approach, or practice will meet the performance standard(s).

(f) The Federal Emergency Management Agency ("FEMA") or the city's floodplain zone overlay (City of Birmingham Zoning Ordinance Chapter 8, Article II) may have more stringent requirements for stormwater drainage systems and post construction stormwater practices for detention/retention that are located within a flood hazard zone. It is the engineer of record's responsibility to determine if a stormwater drainage system will be within a flood hazard zone and to design it in accordance with FEMA requirements, or the city's requirements if more stringent. Such requirements and designs shall be provided in the stormwater management plan.

(g) Land development shall not, under any circumstances, be designed or constructed to allow impervious surfaces to discharge directly

to a natural water body, even if one or more of the stormwater performance standards has been waived. In such cases, stormwater from these surfaces shall discharge from the land development through an appropriately designed drainage pipe, ditch, or swale, or overland through level spreader and into a vegetated buffer that have been designed, constructed, and suitably vegetated to withstand the expected stormwater discharges without damage or erosion. In any case, permanent protection from soil erosion shall be provided, at the inlet and outlets of the discharge, and through the buffer if used. Vegetated stabilization alternatives are preferred when technologically feasible.

(h) Banks of all streams, channels, ditches and other earthen stormwater conveyances shall be left in a stabilized condition upon completion of the project. No actively eroding, bare or unstable banks shall remain. Placement of riprap and other hard armor as the sole bank protection method on blue line streams is only allowed when vegetative bank stabilization alternatives are not technologically feasible.

(i) Post construction stormwater practices for post construction stormwater management on private land development shall be selected with consideration of the practicality of practice maintenance and operation by the type of future land owner(s) intended for the development. Practices that are considered, in the opinion of the director, to be impractical for land owner operation and maintenance will not be approved.

(j) Post construction stormwater practices shall not be located in public rights-of-way or on public property without prior approval by the director.

(k) Green infrastructure practices designed to infiltrate stormwater runoff shall not be located in wellhead protection areas or in other areas where infiltration is prohibited or where groundwater is protected by a local, state, or federal plan, permit, regulation, or agreement. (Ord. No. 19-31, § 1, 3-29-2019)

Sec. 4-9-62. Performance standard waivers.

(a) Land developments conducted by entities under the jurisdiction and supervision of the Alabama Public Service Commission are waived from complying with the stormwater quality performance standard established in the design manual, only insofar as these land developments are exempted from local government water quality regulation by Code of Ala. 1975, tit. 11, ch. 89C.

(b) A waiver of one or more of the stormwater performance standards established in the design manual may be granted by the director under one or more of the circumstances defined below. Waiver of one or more of the performance standards shall not be construed as an exemption of the proposed land development from all other requirements of this chapter.

(1) One or more performance standards may be waived for redevelopments that will result in zero net increase in impervious surface area from the pre-construction condition.

(2) The small storm extended detention performance standard may be waived for new developments and redevelopments: where the post-construction condition peak discharge at the outlet(s) of the development is less than 2.0 cfs at each offsite discharge location; or, that discharge directly into open conveyances such as larger streams, rivers, wetlands, or lakes provided the discharge will not have an impact on stream bank or channel integrity.

(3) Flood protection performance standards may be waived for redevelopments that do not increase peak discharges. Demonstration of this condition shall be provided by the applicant(s) through preparation of a downstream analysis comparing the post-construction discharges without the influence of any additional flood protection storage practices to pre-construction discharges. The analysis shall be prepared by a professional engineer licensed in the State of Alabama.

(4) The director may waive one or more flood protection standards and/or the downstream analysis requirement if engineering data, whether provided by

the owner or the director, demonstrates that implementation of flood protection performance standards is unnecessary or may cause adverse flooding or erosion impacts on the subject property, on adjacent, nearby or downstream properties, whether publicly or privately held, or on receiving water(s).

(5) The director may waive one or more of any of the performance standards as an onsite design requirement if the land development will discharge, after construction, to an existing downstream or shared offsite post construction stormwater practice or system of practices that was previously designed and constructed to receive stormwater discharges from the proposed development, provided the practice or system of practices that will provide the required stormwater quality protection and/or flood protection with inclusion of stormwater discharges from the proposed land development.

a. The owner shall evaluate the adequacy of the offsite or shared stormwater practice(s) to receive a waiver if such information is not already in the director's possession. This evaluation shall be prepared by a professional engineer licensed in the State of Alabama and provided in the stormwater management plan.

b. The owner shall prepare a stormwater management plan and/or record drawing for the offsite or shared stormwater practice(s) if such information is not already in the director's possession.

(6) The director may waive one or more of the performance standards if the land development is determined to be eligible for payment of a fee-in-lieu of construction of onsite post construction stormwater practices or eligible for participation in an offsite stormwater control program when one or both of such programs are made available by the city and provided that the land development adheres to program policies. Each program shall be available when program policies are approved by city council and published by the city.

(Ord. No. 19-31, § 1, 3-29-2019)

Sec. 4-9-63. More stringent performance standards.

Constructed onsite stormwater systems that are designed and based on requirements that are more stringent than or differ from the minimum requirements established in the design manual may be necessary in order to effectively control and manage post construction stormwater. The director may require the land development to meet one or alternate or more stringent performance standards or design criteria than those established in the design manual under the following circumstances:

(a) The proposed land development is located on a property that is considered a brownfield or is otherwise known or believed to have pollutants in the soil or on the ground that, if discharged from the property in stormwater or groundwater, may cause harm to the general public or the environment.

(b) The proposed land development will, after development, discharge stormwater to a waterbody that is included on the most recent Alabama § 303(d) List, or for which a TMDL has been approved by the USEPA.

(c) The proposed land development will, after development, discharge stormwater to a waterbody that is classified by ADEM for Public Water Supply, as an Outstanding National Resource Water, as an Outstanding Alabama Water, or as a Treasured Alabama Lake, and the director, through sound engineering judgement, has reason to believe that unregulated stormwater discharges from the land development may adversely affect the waterbody.

(d) The proposed land development is located on, or will, after development, discharge stormwater to an area that has been designated by the USFWS as critical

habitat for one or more threatened or endangered species, or where the USFWS has identified one or more threatened or endangered species are located. In such cases, the owner may be required to consult with USFWS regarding the land development and to provide with the stormwater management plan any requirements of USFWS for the land development or outcomes of said consultation.

(e) The director has determined, through watershed management plans, stormwater master plans, engineering studies, or engineering judgement based on a history of existing pollutant, erosion, drainage or flooding problems, whether documented or undocumented, whether on the land development or on adjacent or downstream locations, that additional restrictions are needed to limit adverse impacts of the proposed land development that may result from stormwater discharges.

Letter of credit, or surety bond (collectively referred to as "security") shall be furnished to the city in accordance with the following provisions:

(a) The director shall require a security in such amount as specified herein to assure the work, if not completed or if not in accordance with the approved plans and specifications, will be corrected to eliminate hazardous conditions, erosion, potential pollutant discharges, and/or drainage problems.

(b) The security shall contain, or have attached to it as an exhibit, a legal description of the proposed development. The security shall remain in effect until it has been released in writing by the director as provided in [this] section. A bond with a specific expiration date shall not be acceptable.

(c) The security for construction of the stormwater drainage system shall be in the amount of $5,000.00 per acre for each acre, or fraction of an acre, disturbed or affected by the proposed project.

(d) The letter of credit must be issued by a bank which has a principal office in Alabama.

(e) The letter of credit must be issued by a bank which is satisfactory to the city and each surety bond must be issued by a surety company which is qualified to do business in Alabama and which is otherwise satisfactory to the city.

(f) The security for construction operations for the stormwater drainage system shall be released upon termination of the post construction stormwater permit.

ARTICLE F. INSPECTION, OPERATION, AND MAINTENANCE

Sec. 4-9-81. Prohibited conditions.

In addition to the prohibited conditions established in Article A, section 4-9-10, the following uses, activities, encroachments or conditions are prohibited in post construction stormwater practices designed and constructed for stormwater management.

(a) Installation of impervious surfaces, except when included in an approved practice design, stream crossing, or other approved use;

(b) Damage to, or removal of, existing vegetation, unless such activities are necessary for the maintenance of the practice;

(c) Installation of non-native, invasive, or noxious plant species in a vegetated buffer or reforestation practice. Non-native, non-invasive plant species are permitted in all other stormwater management practices.

(Ord. No. 19-31, § 1, 3-29-2019)

Sec. 4-9-82. Maintenance and integrity during construction.

(a) The following requirements apply during clearing, grading, and construction to green infrastructure practices that will operate, after their construction, by infiltration and evapotranspiration:

(1) To avoid soil compaction and pollution, areas where green infrastructure practices will be, or are, located shall be protected from encroachment by heavy equipment, vehicles, and construction materials storage at all times.

i. Said areas shall be cordoned-off with a highly visible barrier, such as orange construction fencing, and shall not be encroached upon or otherwise disturbed unless they are being established, constructed, restored, or enhanced as provided for in an approved stormwater management plan. Protection measures shall be installed prior to, or if more practical, during clearing and grubbing of the land development.

ii. Said areas shall be clearly identified on the stormwater management plan, on the erosion and sediment control plan, and on all construction drawings, and marked with the statement "Green Infrastructure Practice. Do not disturb." Temporary protection measures to be used during construction shall be shown on the stormwater management plan.

(2) The use of green infrastructure practices as sediment traps or for any other erosion prevention and sediment control measure is expressly prohibited. Nor shall sediment from any area of the land development be allowed to discharge into, or through, areas where green infrastructure practices will be located.

(3) Erosion prevention and sediment control measures to be used during construction shall be shown on the stormwater management plan. Said measures shall not be removed until construction in the area that discharges stormwater to the practice is fully completed, and after 100 percent of the pervious surfaces in said area are fully vegetated or otherwise permanently stabilized to prevent soil erosion.

(4) Where encroachment, sedimentation, pollution, or other adverse condition is known or suspected as a result of clearing, grading, or construction, the director may require soil infiltration testing, soil amendment, or other corrective action(s) to confirm or restore infiltration rates to design requirements.

(b) Owner(s) of individual and collective stormwater drainage systems and post construction stormwater practices shall, at the completion of construction, inspect said systems and practices for sediment, trash, debris, or damage. Issues noted shall be corrected prior to submittal of the record drawing. Sediment, trash, and debris discharged during construction to individual and collective stormwater drainage systems shall be entirely removed, such that the system is free of blockage and operating at its fully functional design capacity, as indicated in the approved stormwater management plan.

(c) Post construction stormwater practices, excluding green infrastructure practices, may be used as sediment traps or other soil erosion and sediment control measures, if such use is approved in the soil erosion and sediment control plan. When such use is approved:

(1) Sediment discharged to a post construction stormwater practice during construction shall be removed after construction in the area that discharges stormwater to the practice is fully completed, and after 100 percent of the pervious surfaces

in said area are fully vegetated or otherwise permanently stabilized to prevent soil erosion;

(2) The use shall be clearly noted in the stormwater management plan, and the stormwater management plan shall indicate the sequence and method which will be used to ensure that the post construction stormwater practice functions as indicated by the approved design.

(d) Individual and collective stormwater drainage systems and post construction stormwater practices shall not, at any time, be used for storage of construction or demolition-related chemicals or waste, either temporarily or permanently.

(e) The director may, alone or in addition to other enforcement actions authorized by this chapter, withhold termination of a stormwater management plan pending satisfactory completion of corrective action(s) for failure to comply with any of the provisions of this section.
(Ord. No. 19-31, § 1, 3-29-2019)

Sec. 4-9-83. Post construction maintenance and integrity.

(a) It shall be the responsibility of the owner(s) of land developments to:

(1) At all times operate and maintain the individual and collective stormwater drainage systems and post construction stormwater practices located on their property, whether or not such systems and practices are identified on the property's plat, in proper, functional condition as defined by the approved stormwater management plan and the maintenance manual;

(2) Inspect and maintain all post-construction stormwater practices located on their property in accordance with the maintenance manual;

(3) At all times protect said systems and practices from alteration that adversely impacts their function as indicated by the approved stormwater management plan;

(4) Perform corrective actions when conditions occur that can or do adversely impact the function of the said systems and practices, whether said actions are undertaken voluntarily by the owner or required by the director; and

(5) Keep records of inspection and maintenance activities for a period of at least three years and make them available to the director upon request.

(b) Removal of said systems and practices, or their alteration in any way that adversely impacts their approved function and performance standard, without the prior approval of the director is expressly prohibited.

(c) The responsibilities stated herein shall continue for the owner(s) of land developments until such time that ownership of the property is transferred, upon which these responsibilities are immediately transferred to the subsequent owner.
(Ord. No. 19-31, § 1, 3-29-2019)

Sec. 4-9-84. Annual post construction owner inspection.

Owner(s) of post construction stormwater practices shall, at a minimum, inspect and document said practices annually to ensure the practices are properly functioning and compliant with this chapter. More frequent inspections may be required to ensure proper function, as established by the maintenance manual based on the maintenance needs of specific types of practices or by director as he/she deems necessary to ensure the maintenance needs of a particular practice are being addressed. Inspections shall be conducted by a person familiar with the operation of said practices on the property and be documented and submitted to the director in the manner established in the maintenance manual.
(Ord. No. 19-31, § 1, 3-29-2019)

Sec. 4-9-85. Maintenance of records after construction.

Records of compliance with the requirements set forth in sections 4-9-83 and 4-9-84, and records of compliance with any warning, notice

of violation, or order for corrective action by the director shall be maintained by the owner, and retained for at least six years, and shall be made available for inspection by the director.
(Ord. No. 19-31, § 1, 3-29-2019)

Sec. 4-9-86. Right of entry.

(a) The director may enter upon private property upon reasonable notice to the owner and the person in possession thereof and during normal business hours and upon the presentation of appropriate credentials for the purpose of performing investigations to: verify owner compliance with this chapter; determine whether corrective actions are needed; verify satisfactory compliance with any requested corrective actions; and, investigate any suspected violation(s) of this chapter. Proof of a violation of this chapter is not required for entry onto a premises. Any officer, employee, or other authorized agent who performs the duties of the director authorized by this chapter in accordance with provisions hereof shall be immune from arrest and prosecution for trespass while performing any legal duty pursuant to this chapter by presenting identification issued by the City of Birmingham. Identification issued by the city shall be presented by the city official at the time of entry.

(b) If security measures are in force on a premises, then the premises owner shall make the necessary arrangements to allow access to representatives of the official for the purposes of this chapter.

(c) Owners and/or operators of a premises shall allow the director or his her duly authorized representative reasonable access to all parts of the premises for the purposes of inspection, sampling, photography, videotaping, testing, documenting, and examination; for the copying of records that must be kept under the conditions of this chapter, a post construction stormwater permit, or an NPDES permit to discharge stormwater; and for the performance of any additional duties as required by state and federal law.

(d) The director shall have the right as may be necessary to conduct visual inspections of the individual and collective stormwater drainage systems, post construction stormwater practices, and pervious land cover areas of the premises, and to determine flow connection or blockages using test dyes or other appropriate methods.

(e) The director shall have the right to require the owner and/or operator of a BMP to demonstrate that the BMP is properly installed and functioning to meet the requirements of this chapter by operating the BMP in the presence of the director or by certification by an appropriate third party or other appropriate methods.

(f) Any temporary or permanent obstruction to safe and easy access to the premises to be inspected by the director shall be promptly removed by the owner of the premises at the written or oral request of the director. The costs of clearing such access shall be borne by the owner and/or occupier of the premises.

(g) Unreasonable delay in allowing the director access to a premises is a violation of this chapter. It shall be understood that for any person who is the owner and/or occupier of a land development upon which individual and collective stormwater drainage systems, and post construction stormwater practices are located and denies the director reasonable access to the premises for the purpose of conducting any activity authorized or required by this chapter shall be considered an offense, punishable by article G of this chapter.
(Ord. No. 19-31, § 1, 3-29-2019)

Sec. 4-9-87. Search warrants.

If the director has been refused access to all or any part of a land development upon which individual and collective stormwater drainage systems and post construction stormwater practices are located and is able to demonstrate probable cause that there may be a violation of this chapter, or that there is a need to inspect as part of a routine inspection program designed to verify compliance with this chapter or any order for corrective action issued hereunder, or to protect the overall public health, safety, and welfare of the community, then the director may seek issuance of a search warrant from any court of competent jurisdiction.

(a) Upon conviction, the violator shall subject to a penalty of not greater than $500.00 and/or imprisonment for a period of time not to exceed six months for each violation. Each act of violation and/or each day upon which any violation shall occur or continue to occur shall constitute a separate offense.

(b) Permit holders shall be required to perform corrective actions at their own expense if the director determines that the stormwater drainage system is not constructed in accordance with the approved stormwater construction plan, does not conform to the record drawing, or is not functioning, or will not function, in proper operating condition during a precipitation event.

(c) Failure to terminate a post construction stormwater permit may result in the withholding of a certificate of occupancy.

(d) Construction begun prior to issuance of the post-construction stormwater permit or failure to perform corrective actions required by the directory may result in the withholding of a certificate of occupancy for the applicable land development, or the withholding of any permit approvals or terminations on the applicable development and/or other land developments permitted in the permit holder's name until said permit issuance or corrective action(s) is resolved. Withholding of any approvals under this subsection does not preclude any other enforcement remedies available to the city.

(d) Nothing in this subsection shall limit the authority of the director to take any action, including notice of violation, emergency action, or any other enforcement action, without first issuing a warning notice.

(Ord. No. 19-31, § 1, 3-29-2019)

(7) A statement specifying that, should the violator fail to restore compliance with this chapter within the established time schedule, the work will be done by a designated governmental agency or a contractor and twice the expense thereof shall be charged to the violator as allowed hereunder and collected as allowed by law.

(c) Such notice may require without limitation:

(1) The performance of monitoring, analyses, and reporting;

(2) Application for permits and/or the preparation of design plans;

(3) Vegetative restoration, structure restoration, repair or other remediation of individual and collective stormwater drainage systems and post construction stormwater practices;

(b) Any dog as is described in subsection (a) of this section found at large shall be impounded by the animal control officers in the animal control center and when, in the judgment of a licensed veterinarian and/or the supervisor of the animal control center, that dog should be destroyed for reasons of public safety or humane reasons, it may not be redeemed.

(c) If it is determined by a licensed veterinarian that the dog should be destroyed, the owner shall be notified in writing within 24 hours of such decision or one business day. The owner shall have seven days to file an appeal of the decision with the supervisor of the animal control center and the city clerk. The city clerk shall place the appeal before the city council within ten days for a hearing on the decision to destroy the dog. (Code 1964, § 7-20; Code 1980, § 6-1-21; Ord. No. 07-103, 6-19-2007)

(a) The county health officer shall have authority to quarantine or require confinement of any or all dogs, or other animals in any part or all of the city for the period of time and in the manner as he or she may determine whenever he or she considers a quarantine or confinement necessary for the control of rabies.

(b) Whenever the county health officer, the county quarantine officer or rabies inspector shall receive information that any person has been bitten by a dog, the county health officer, county quarantine officer or rabies inspector shall be required to have the dog confined under the direct care, custody, control and supervision of a licensed veterinarian for a period of ten days. (d) It shall be unlawful for any person to keep, harbor or maintain on or about any place or premises in the city a dog or other animal which is known to have or is reasonably suspected of having rabies, unless the animal is securely confined in such a manner as effectually to prevent contact with or injury to persons or other animals, and any such animal not so confined shall either be destroyed or removed to the rabies control center or other appropriate place by a person designated for that purpose by the city, and there securely confined as aforesaid.

(f) When an animal under quarantine dies while under observation for rabies, the head of that animal shall be sent to the health department laboratory for pathological examination.

(g) When a laboratory report, either preliminary or final, gives a positive diagnosis of rabies, the health officer may declare a citywide quarantine or quarantine any part of the city for a period of 30 days, and upon the invoking of this quarantine, no animal shall be permitted to be at large

(h) No dog which has been impounded by reason of its being a stray and unclaimed by its owner may be adopted from the rabies control center during the period of rabies emergency quarantine, except by special authorization of the health officer.

(i) During the period of rabies quarantine as herein mentioned, every animal bitten by an animal adjudged to be rabid shall be forthwith destroyed or, at the owner's expense and option, shall be treated for rabies infection by a licensed veterinarian and held under six months' quarantine by the owner in the same manner as other animals are quarantined.

(j) In the event there are additional positive cases of rabies occurring during the period of quarantine, the period of quarantine may be extended for an additional six months.

(k) No person shall kill, or cause to be killed, any rabid animal, any animal suspected of having been exposed to rabies or any animal that has bitten a human, except as herein provided, nor remove the same from the city limits without written permission from the health officer.

(l) The carcass of any dead animal exposed to rabies shall, upon demand, be surrendered to the health officer.

(m) The health officer shall direct the disposition of any animal found to be infected with rabies.

CHAPTER 1
ADMINISTRATION

101 TITLE AND SCOPE

101.1 Title

The provisions of the following Articles, Chapters and Sections shall constitute, be known, and be cited as the "Technical Codes of the City of Birmingham, 2015", hereinafter known as "this Code".

101.1.1 Purpose. The purpose of this Chapter is to provide for the administration and enforcement of the International Building, Fuel Gas, Mechanical, Fire, Plumbing, Residential, Existing Building Codes, and the National Electrical Codes.

101.2 Code Remedial.

101.2.1 General. This Code is hereby declared to be remedial, and shall be construed to secure the beneficial interests and purposes thereof, which are public safety, health, and general welfare through structural strength, stability, sanitation, adequate light and ventilation, and safety to life and property from fire, explosions and other hazards attributed to the built environment including alteration, repair, removal, demolition, use and occupancy of buildings, structures, or premises, and by regulating the installation and maintenance of all electrical, gas, elevator, fire protection, mechanical, and plumbing systems, which may be referred to as service systems.

101.2.2 Quality Control. Quality control of materials and workmanship is not within the purview of this Code except as it relates to the purposes stated herein.

101.2.3 Permitting and Inspection. The inspection or permitting of any building, system or plan by any jurisdiction, under the requirements of this Code, shall not be construed in any court as a warranty of the physical condition of such building, system or plan or their adequacy. No jurisdiction nor any employee thereof shall be liable in tort for damages for any defect or hazardous or illegal condition or inadequacy in such building, system or plan, nor for any failure of any component of such, which may occur subsequent to such inspection or permitting.

101.3 Scope.

101.3.1 Federal and State Authority. The provisions of this Code shall not be held to deprive any Federal or State agency, or any applicable governing authority having jurisdiction, of any power or authority which it had on the effective date of the adoption of this Code or of any remedy then existing for the enforcement of its orders, nor shall it deprive any individual or corporation of its legal rights as provided by law.

101.3.2 Appendices. To be enforceable, the appendices included in this Code must be referenced in the Code text or specifically included in Articles II through VI herein.

101.3.3 Referenced Standards. Standards referenced of this Code shall be considered an integral part of the Code without separate adoption. If specific portions of a standard are denoted by Code text, only those portions of the standard shall be enforced. Where Code provisions conflict with a standard the Code provisions shall be enforced. Permissive and advisory provisions in a standard shall not be construed as mandatory.

101.3.4 Maintenance. All buildings, structures, electrical, gas, fire protection, elevator, escalator, mechanical and plumbing systems, both existing and new, and all parts thereof, shall be maintained in a safe and sanitary condition. All devices or safeguards which are required by this Code when constructed, altered, or repaired, shall be maintained in good working order. The owner, or his designated agent, shall be responsible for the maintenance of buildings, structures, fire protection, elevator, escalator, electrical, gas, mechanical and plumbing systems. Inspections of existing buildings, by the Fire Official for maintenance, are conducted according to the NFPA 101 Life Safety Code, 2015 edition, and the 2015 IFC but any issues requiring construction, permitting & plans review will be governed by the ICC.

AMENDED: Section 621.2 IFGC 2015: One or more unvented room heaters shall not be used as the sole source of comfort heating in a dwelling unit.

Nothing in this Code shall prevent any owner of single family home from installing or maintaining plumbing within his own property boundaries, provided such plumbing work is done by himself and is used exclusively by him and his family and, also, provided that such plumbing work does not necessitate repair, alteration or direct connection to soil, waste, or drain lines on the outlet side of a trap. Such privilege does not convey the right to violate any of the provisions of this Code, or the terms of any state statute or any other applicable ordinance of the City of Birmingham, nor is it to be construed as exempting any such property owner from obtaining a permit with the applicable inspections and paying the required fees therefore.

101.3.6 Conflict of codes and standards. The International Codes shall be the construction codes with sections herein listed from the NFPA 101 - Life Safety Code, 2015 ed., being used in conjunction with the ICC family of codes.

Location and construction type limitation requirements for Day-care occupancies, shall meet the appropriate regulations as set forth by the 2015 International Building Code. Those classifications listed in the 2015 International Building Code that are not addressed in the 2015 Life Safety Code will also be added as Sub-classifications.

b) Both the International Codes and NFPA 101 - Life Safety Code requirements of Chapters 14 & 15, shall be enforced for new and existing Educational Occupancies. Where discrepancies occur between the codes, the most restrictive shall apply.

Those sections of NFPA 101 - Life Safety Code, 2015 Edition that are also adopted by this Code shall be used by the Fire Official as maintenance requirements for the Inspection of Existing Buildings only unless it is deemed necessary by both the Fire and Building Officials to use as an applied code for construction.

102.2 Right of Entry.

102.2.1 Whenever necessary to make an inspection to enforce any of the provisions of this Code, or whenever the Building, Code, or Fire Official has reasonable cause to believe that there exists in any building or upon any premises any condition or code violation which makes such building, structure, premises, elevator, escalator, electrical, gas, mechanical, fire protection, life safety or plumbing systems unsafe, dangerous or hazardous, the Building, Code, or Fire Official may enter such building, structure or premises at all reasonable times to inspect the same or to perform any duty imposed upon the Building, Code, or Fire Official by this Code, provided that if such building or premises is occupied, he shall first present proper credentials and request entry. If entry is refused, the Building, Code, or Fire Official shall have recourse to every remedy provided by law to secure entry.

102.2.2 When the Building, Code, or Fire Official shall have first obtained a proper inspection warrant or other remedy provided by law to secure entry, no owner or occupant or any other persons having charge, care or

control of any building, structure, or premises shall fail or neglect, after proper request is made as herein provided, to promptly permit entry therein by the Building or Fire Official for the purpose of inspection and examination pursuant to this Code.

102.4.2 Violation of Code Provisions. The Building, Code, or Fire Official may revoke a permit upon determination by the Building, Code, or Fire Official that the construction, erection, alteration, repair, moving, demolition, installation or replacement of the building, fire protection, elevator, escalator, structure, electrical, gas, mechanical or plumbing systems for which the permit was issued is in violation of, or not in conformity with, the provisions of this Code.

102.5 Unsafe Buildings, Systems and Public Nuisances.

102.5.1 Unsafe Buildings and Systems. All buildings, systems, structures, and premises, which are unsafe, unsanitary, which are not provided with adequate egress, or which in relation to existing use constitute a hazard to safety or health by reason of inadequate maintenance, dilapidation, obsolescence, or abandonment, but are not unsafe to the extent that they constitute a public nuisance, are considered unsafe buildings. All such unsafe buildings, systems, structures and premises are hereby declared illegal and shall be abated by repair and rehabilitation or by demolition in accordance with the following procedure:

102.5.1.1 Whenever the Building, Code, or Fire Official shall find any building or structure or portion thereof to be unsafe, as defined in this section, he shall, in accordance with the established procedure for legal notices, give the assessed owner, agent, person having an interest in or person in control of such building or structure written notice stating the defects thereof. This notice shall require the owner within a stated time either to complete specified repairs or improvements or to demolish and remove the building or structure or portion thereof.

102.5.1.2 If necessary, such notice shall also require the building, structure, or portion thereof to be vacated forthwith and not reoccupied until the specified repair and improvements are completed, inspected, and approved by the Building, Code, and Fire Official. The Building, Code, or Fire Official shall cause to be posted at each entrance to such building a notice: "THIS BUILDING IS UNSAFE AND ITS USE OR OCCUPANCY HAS BEEN PROHIBITED BY THE BUILDING OFFICIAL." Such notice shall remain posted until the required repairs are made or demolition is completed. It shall be unlawful for any person, firm, or corporation, their agents, servants, or employees to remove such notice without written permission of the Building, Code, or Fire Official, or for any person to enter the building except for the purpose of making the required repairs or of demolishing same.

102.5.1.3 If such owner(s), agent, or person in control shall fail, neglect, or refuse to comply with notice to repair, rehabilitate, or to demolish and remove said building

or structure or portion thereof, the Building, Code, or Fire Official shall cause such building or structure or portion hereof, if not heretofore vacated, to be vacated and remain vacated until repaired or demolished; provided, however, if thereafter such building or structure or portion thereof becomes unsafe to the extent that it is a public nuisance, the Building Official shall proceed as provided in section 102.5.2 hereof.

102.5.1.4 The Building and Fire Officials may make, periodically, a thorough re-inspection of the installation of all electrical wiring, electric devices, and electric equipment now installed or that may hereafter be installed within the city; and when the installation of any wiring devices or equipment is found to be in a dangerous or unsafe condition, the person owning, using, or operating the same shall be notified in writing and shall make the necessary repairs or changes required to place such wiring, devices, or equipment in safe condition and have such work completed within the period specified by the Building or Fire Official. The Building Official or Fire Official is hereby empowered to disconnect or order the discontinuance of electrical service to such wiring devices, or equipment so found to be defectively installed until the installation of such wiring, devices, or equipment has been made safe as directed by him.

102.5.1.5 All plumbing, electrical, gas and mechanical installations, regardless of type, that are unsanitary or that constitute a hazard to human life, health, or welfare are hereby declared illegal and shall be abated by repair and rehabilitation or by demolition, and such violations shall be brought to the attention of the owner or agent thereof, with written instructions to have same corrected within 10 days after receipt of such notice in writing and said owner or agent shall be held responsible for such violations. If after any water meter is set, it is determined that there is danger of backflow or back-siphonage into the building water distribution system, water service or water main from any connection, fittings, fixture, device, appurtenance or appliance whereby the water in the water supply or distribution piping could become contaminated or the water could otherwise be rendered a non-potable supply of water, the Building Official may, upon written notice, require the water supplier to disconnect the premises upon which such back-flow or back-siphon condition exists from the water main until such condition is remedied to the satisfaction of the Building Official. The Building Official shall have the authority to prevent the setting of a meter or the connection of a water service to any building water distribution system when upon inspection of the premises, conditions are found to exist which are contrary to the provisions of this Code as it pertains to the water supply and/or water distribution system of a building or premises until such condition or conditions are remedied to the satisfaction of said Building Official.

102.5.1.6 The owner, agent or person in control shall have the right, except in cases of emergency, to appeal from the decision of the Building, Code, or Fire Official, as provided hereinafter, and to appear before the Construction Board of Adjustments and Appeals at a specified time and place to show cause why he should not comply with said notice.

102.5.1.7 The decision of the Building, Code, or Fire Official shall be final, and supersede any other pending action, in cases of emergency which, in his opinion, involve imminent danger of structural collapse endangering adjoining property, the public right-of-way or to human life or health. He shall promptly cause such building, structure, or portion thereof to be made safe, secured, or removed. For this purpose he may at once enter such structure, with such assistance and at

such cost as he may deem necessary. He may vacate adjacent structures and protect the public by appropriate fence or such other means as may be necessary, and for this purpose may close a public or private way.

102.5.1.8 The costs of such emergency action shall be fixed by the City Council and such costs shall be assessed against the person or persons creating or maintaining such dangerous condition. Costs shall be fixed and assessed as provided in Sections 102.5.2.4 through 102.5.2.6 herein, inclusive.

102.5.2 Public Nuisances.

102.5.2.1 Whenever the Building Official shall find that any building, structure, part of building or structure, party wall, foundation or premises situated in the City is unsafe to the extent that it is a public nuisance, he shall give the person or persons, firm, association, or corporation last assessing the property for state taxes and all mortgagees of record, by certified or registered mail to the address on file in the tax collector's office, notice to remedy the unsafe or dangerous condition of such building, structure, or premises, or to demolish the same, within a reasonable time set out in said notice, which time shall be not less than thirty (30) days or suffer such building or structure to be demolished by the City and the cost thereof assessed against the property. The mailing of such certified or registered mail notice, properly addressed and postage prepaid, shall constitute notice as required herein. Notice of such order, or a copy thereof, shall, within three (3) working days of the date of mailing, also be posted at or within three (3) feet of an entrance to the building or structure provided that if there is no entrance, the notice may be posted at any location upon the building or structure.

102.5.2.2 Within the time specified in such notice, but not more than thirty (30) days from the date notice is given, any person, firm or corporation having an interest in such building or structure may file a written request for a hearing before the City Council, together with his objections to the finding by the Building Official that such building or structure is unsafe to the extent of becoming a public nuisance. The filing of such request shall hold in abeyance any action on the finding of the Building Official until determination thereon is made by the Council. Upon holding such hearing, which hearing shall be held not less than five (5) nor more than thirty (30) days after such request, or in the event no hearing is timely requested, the Council, after the expiration of thirty (30) days from the date notice is given, shall determine whether or not such building or structure is unsafe to the extent that it is a public nuisance. In the event that it is determined by the Council that such building or structure is unsafe to the extent that it is a public nuisance, the Council shall order such building or structure to be demolished. Such demolition may be accomplished by the City by the use of its own forces, or it may provide by contract for such demolition. The City shall have authority to sell or otherwise dispose of salvaged materials resulting from such demolition.

Exception: When emergency action is declared after a thirty (30) day notice has been mailed and a written request for a hearing is received, the hearing before the City Council may be held immediately.

102.5.2.3 Any person aggrieved by the decision of the Council at such hearing may, within ten (10) days thereafter, appeal to the Circuit Court upon filing with the clerk of said court notice of appeal and bond for security of costs in the form and amount to be approved by the Circuit Clerk. The City Clerk shall, upon receiving notice of appeal, file with the Clerk of the Court a copy of the findings and determination of the Council proceedings.

102.5.2.4 Upon demolition of such building or structure, the Building Official shall make report to the Council of the cost thereof, and the Council shall adopt a resolution fixing the costs which it finds were reasonably incurred in such demolition and assessing the same against the property; provided, however, the proceeds of any monies received from the sale of salvaged materials from said building or structure shall be used or applied against the cost of said demolition; and provided, further, that any person, firm, or corporation having an interest in said property may be heard at such meetings to any objection he may have to the fixing of such costs or the amounts thereof. The City Clerk shall give notice of the meeting at which the fixing of such costs are to be considered by first-class mail to all entities having an interest in the property whose address and interest is determined from the tax collector's records on the property or is otherwise known to the clerk. The fixing of said costs by the Council shall constitute a special assessment against the lot or lots, parcel or parcels of land upon which the building or structure was located, and, thus made and confirmed, shall constitute a lien on said property for the amount of such assessment. Said lien shall be superior to all other liens on said property except liens for taxes, and shall continue in force until paid. A certified copy of such resolution shall also be filed in the Office of Judge of Probate of Jefferson County, Alabama.

102.5.2.5 The City shall have the power to assess the costs authorized herein against any lot or lots, parcel or parcels of land purchased by the State of Alabama at any sale for the nonpayment of taxes, and where any such assessment is made against such lot or lots, parcel or parcels of land, a subsequent redemption thereof by any person authorized to redeem, or sale thereof by the state, shall not operate to discharge, or in any manner affect the lien or such city for such assessment, but any redemptioner or purchaser at any sale by the state or any lot or lots, parcel or parcels of land upon which an assessment has been levied, whether prior to or subsequent to a sale to the state for the nonpayment of taxes, shall take the same subject to such assessment. Such assessment shall then be added to the tax bill of the property, collected as tax, and remitted to the city.

102.5.2.6 Payment of such assessment shall be made in the manner and as provided for the payment of municipal improvement assessments in Section 11-48-48, Code of Alabama, 1975, as now amended, and upon the property owner's failure to pay such assessment, as provided in the provisions of Sections 11-48-49 through 11-48-60, inclusive, Code of Alabama, 1975.

102.6 Requirements Not Covered By Code.

Any requirements necessary for the strength, stability or proper operation of an existing or proposed building, structure, elevator, escalator, electrical, gas, fire protection, mechanical or plumbing system, or for the public safety, health and general welfare, not specifically covered by this Code, shall be determined by the Building, Code, and Fire Officials.

102.7 Alternate Materials and Methods.

The provisions of this Code are not intended to prevent the use of any material or method of construction not specifically prescribed by them, provided any such alternate has been reviewed by the Building and Fire Officials. The Building, Code, and Fire Officials shall approve any such alternate, provided the Building and Fire Officials find that the alternate is at least the equivalent of that prescribed in this Code in quality, strength, effectiveness, fire resistance, durability and safety for the purpose intended. The Building, Code, or Fire Official shall require that sufficient evidence or proof be submitted to substantiate any claim made regarding the alternate.

102.7.1 Approved Materials, Apparatus, Equipment and Methods. All materials, apparatus, fittings, appliances, devices,

appurtenances or fire rated assemblies, shall be listed by testing agencies that have been accredited by the International Accreditation Service, Inc. (IAS), as stated in the ICC-ES Rules of Procedure of the International Code Council (ICC).

It shall be the duty of every contractor or builder, who shall make contracts for the erection, construction or repair of buildings for which a permit is required in the City, and every contractor or builder making such contracts and subletting the same, or any part thereof, to pay license fees as provided by ordinance.

103.6 Conditions of the Permit.

103.6.1 Permit Intent. A permit issued shall be construed to be a license to proceed with the work and shall not be construed as authority to violate, cancel, alter, or set aside any of

the provisions of this Code, nor shall such issuance of a permit prevent the Building or Fire Official from thereafter requiring a correction of errors in plans or in construction, or of violations of this Code. Any permit issued shall become invalid unless the work authorized by it shall have been commenced within ninety days after its issuance, or if the work authorized by such permit is suspended or abandoned for a period of ninety days after the time work is commenced; provided that for cause, one or more extensions of time, for periods not exceeding ninety days each, may be allowed in writing by the Building Official.

104.2 Work Commencing Before Permit Issuance. Where any work on a building, structure, elevator, escalator, or the fire protection, electrical, plumbing, mechanical or gas systems is commenced before obtaining the necessary permits, the fees herein specified shall be doubled, but the payment of such double fee shall not relieve any person from fully complying with the requirements of this Code in the execution of the work nor of any other penalties prescribed herein. The Building Official may withhold the issuance of further permits to any person, firm, or corporation until all permits for work previously started by them have been obtained. Repeat violations within any 12-month period shall result in the double fee plus fifty dollars ($50.00) for each such additional violation.

105.8.2 Rough-In Inspection. To be made after the roof, framing, fireblocking and bracing is in place and prior to the installation of wall or ceiling membranes. When any part of a wiring installation is to be hidden from view by the permanent placement of parts of the building, the person installing the wiring shall notify the Building Official and such parts of the wiring installation shall not be concealed until they have been inspected and approved by the Building Official; provided, that on large installations where the concealment of parts of the wiring proceeds continuously, the person installing the wiring shall give the Building Official due notice and inspections shall be made periodically during the progress of work.

105.8.3 Low Voltage Wiring. Low voltage wiring, as described in the 2014 NEC will be exempt from having to be installed under and electrical permit by a licensed electrician. Proper business license is required for indicated work. Wiring shall be limited to Class II or less power supply as determined by the authority having jurisdiction. The Electrical inspector is responsible for conducting the inspection

for all the electrical wiring for fire alarm system. The electrical inspector checks wiring to fire alarm panel and from panel to devices/appliances (this does not include testing for supervision). The Fire inspector is responsible for conducting an acceptance test (including supervision) of the fire alarm system.

105.8.4 Final Inspection. To be made after the building is complete, all required electrical fixtures are in place and properly connected or protected, and the structure is ready for occupancy. When the Building Official shall determine that work has been completed under a permit, but no final inspection has been requested or made, it shall be his duty to refuse to issue any permits to the master electrician for any work until said completed work has satisfactorily passed a final inspection. Regardless of any other provision of this Code, electrical work or equipment placed in operation and which are in use by the owner or occupant of the building or premises shall be deemed complete and ready for final inspection. If, upon final inspection, the installation is not found to be in full compliance with this Code, the Building Official shall at once notify the person installing the wiring, stating the defects which have been found to exist.

105.9.4 Responsibility of Master Plumber. It shall be the responsibility of the master plumber to notify the office of the Building Official within forty-eight hours after the completion of the job and before the plumbing system, alterations or additions are placed in service, that the work is ready for final inspection. When the Building Official shall determine that work has been completed under a permit, but no final inspection has been asked for or made, it shall be his duty to refuse to issue any permits to the master plumber for any work until said completed work has satisfactorily passed a final inspection. Regardless of any other provision of this Code, plumbing work or fixtures placed in operation and

which are in use by the owner or an occupant of the building or premises shall be deemed complete and ready for final inspection.

105.9.5 Test of Drainage and Vent Systems. All the piping of the plumbing system shall be tested with water. After the plumbing fixtures have been set and their traps filled with water, the entire drainage system shall be submitted to final tests. The Building Official may require the removal of any clean-out to ascertain if the pressure has reached all parts of the system.

105.9.6 Methods of Testing Drainage and Vent Systems.

(a) Water Test—The Water Test shall be applied to the drainage and vent system, either in its entirety or in sections. If applied to the entire system, all openings in the piping shall be tightly closed, except the highest opening, and the system filled with water to the point of overflow. If the system is tested in sections, each opening shall be tightly plugged except the highest openings of the section under test, and each section shall be filled with water, but no section shall be tested with less than a 10 foot head of water. In testing successive sections at least the upper 10 feet of the next proceeding section shall be tested so that no joint or pipe in the building (except the uppermost 10 feet of the system) shall have been submitted to a test of less than a 10 foot head of water. The water shall be kept in the system, or in the portion under test, for a least 15 minutes before inspection starts; the system shall then be tight at all points. Exception: Sewage ejectors need only meet the requirements of the final test.

(b) Ball Test—All soil or waste pipes other than individual fixture drains 3" or larger shall be subjected to the "Ball Test." This test shall consist of passing through the pipe bore a wooden sewer ball of a diameter not smaller than ½" less than the diameter of the pipe under test. The ball shall pass freely, under the action of gravity, through the pipe under test. Water, no more than 5 gallons, may be used to assist in floating the ball through the piping, however, no other means of assistance shall be used.

(c) Final Test—The final test of the completed drainage and vent system shall be visual and in sufficient detail to insure that the provisions of this Code have been complied with, provided, however, that for cause, the plumber may be required to subject the plumbing to a smoke or mint test as determined by the Building Official. Where the mint test is used, two ounces of oil of mint shall be introduced for each line or stack.

105.9.7 Test of Water-Supply System. Upon completion of a section, or of the entire water-supply system, it shall be tested and proved tight under a water pressure not less than the working pressure under which it is to be used. The water used for tests shall be obtained from a potable source of supply. Provisions allowed under Section 312.5 2015 IPC for testing purposes.

105.9.8 Test of Building Sewer. Shall be tested and accepted by Jefferson County Environmental Services before any final plumbing inspections are to be made. A letter of acceptance shall be received in the Department of Planning, Engineering and Permits addressed to the Chief Plumbing, Gas and Mechanical Inspector.

concealed components are complete, and prior to the installation of wall or ceiling membranes.

105.10.2 Final Inspection. To be made after the building is complete, the mechanical system is in place and properly connected, and the structure is ready for occupancy.

105.11 Gas.

105.11.1 Rough Piping Inspection. To be made after all new piping authorized by the permit has been installed, and before any such piping has been covered or concealed or any fixtures or gas appliances have been connected.

105.11.2 Final Piping Inspection. To be made after all piping authorized by the permit has been installed and after all portions which are to be concealed by plastering or otherwise have been so concealed, and before any fixtures or gas appliances have been connected. This inspection shall include a pressure test.

105.11.3 Intermediate Inspection. It shall be the responsibility of the Master Gas Fitter to notify the office of the Building Official within forty-eight hours after completion of the job and before the gas system, alterations or additions are placed in service, that the work is ready for intermediate inspection. It shall further be the responsibility of the Master Gas Fitter to see that the premises and the work are available and accessible to the Building Official or his representative for inspection.

105.11.4 Final Inspection. To be made on all new gas work authorized by the permit and such portions of existing systems as may be affected by new work or any changes, to insure compliance with all the requirements of this Code and to assure that the installation and construction of the gas system is in accordance with reviewed plans. It shall be the responsibility of a Master Gas Fitter to put all equipment in operation for final inspection after completion and call for final inspection of the job and within ten (10) days after approval of the intermediate inspection except in such cases where the unfinished work of other crafts prohibit proper operation of the equipment. Such cases shall be determined by the Building Official after request of inspection, but in no case will this relieve the Master Gas Fitter, Company, Firm, or Corporation of his or their responsibility to call for final inspection within ten (10) days. If final inspection is not requested within 10 days from approval of the intermediate inspection and final approval given, it shall be the responsibility of the Building Official to refuse to issue any permits to the Master Gas Fitter, Company, Firm, or Corporation for any additional work at any time it has been ascertained that the equipment has been placed in operation and final inspection has not been requested and final approval obtained.

105.11.5 Instrument Tests. Instrument tests, when required, shall insure that the flue gas temperature does not exceed 480 Degrees Fahrenheit above that of the air temperature surrounding the appliance. The concentration of CO-2 does not exceed 9%; or the concentration of CO-02 does not exceed 0.04%, and the concentration and oxygen is not less than 4% and not more than 10%. This test shall be applicable to conversion burner installations, barometric damper installations, power burner installations, and at any time, when, after test by the Building Official, the equipment is found not to comply with the above requirements.

Where it is necessary for ceilings or other obstructions to be installed

prior to the gas vent pipe, then adequate clearance shall be provided around the vent pipe in order that clearances, as required in Article IV may be ascertained and, also, that the type material and listing may be determined by the Building Official. In no case shall the installation of ceilings or other obstructions prior to inspection be the cause of an inspector having to crawl in or through attics when an earlier installation could have been made and inspection be called for.

105.11.9 Final or Operational Inspection. After a gas meter is set and all equipment is put in service, a final inspection may be made. This inspection will be in sufficient detail to assure that all final connections have been made and that all appliances have been properly adjusted and that all controls are in good working order. Upon the satisfactory completion of this inspection, a certificate of approval shall be issued to the permittee by the Building Official to be delivered to the owner.

This inspection shall be in sufficient detail to insure that all the provisions of this Code have been complied with. In existing systems, where a meter is already in service, final connection of the appliance or equipment to the customer's gas piping shall not be made until the visual or intermediate inspection is made and approval given. Except for replacements when no roughing-in is required, then a final inspection may be made in lieu of the intermediate inspection. When equipment is placed in operation, such equipment shall be deemed ready for final inspection whether requested or not. However, nothing contained in this section shall relieve any person, firm or corporation from his or their responsibility to request inspection as required by this Code nor shall such inspection relieve any person from payment of additional inspection fees or other penalties incurred under this Code.

105.12 Elevator.

105.12.1 The installation and maintenance of all new and existing elevator equipment is under the control of the State of Alabama Elevator Board. This includes the recall service (i.e., Phase I or Phase II; proper recall using smoke detectors). Work shall not be done on any part of a building, structure, elevator, escalator, or the fire protection, electrical, gas, mechanical or plumbing system beyond the point indicated in each successive inspection without first obtaining a written release from the Building or Fire Official. Such written release shall be given only after an inspection has been made of each successive step in the construction or installation as indicated by each of the foregoing inspections.

105.14 Reinspection. If the Building or Fire Official finds that the work will not pass the inspection, the contractor shall be required to make necessary corrections and the work shall then be resubmitted for reinspection. Where additional inspections are necessary, there shall be an additional fee as provided for in Article V.

105.15 Delayed Inspection and Penalty. On any job for which a permit has been obtained and a period of more than 90 days elapsed without request for an inspection, an inspection shall be made and should it be ascertained that the work has been completed for which an inspection is required and no inspection has been requested as otherwise required by this Code, a delayed inspection penalty fee shall be paid as provided in this Code. Payment of this fee shall not include preclude payment of any other inspection charges incurred due to defective material, workmanship, equipment, apparatus, or the lack of equipment, apparatus, or personnel required for inspection or tests.

105.16 Contractor's Responsibility. It shall be the responsibility of the contractor to make sure that the work will stand the test prescribed before giving the notice for the inspection. It shall also be the responsibility of the contractor to see that the premises, work and personnel are available and accessible to the Building and Fire Officials or their representative for final inspection. Failure of the contractor to insure that final inspections are requested in accordance with this section may result in denial of future permit issuance.

105.17 Retesting. If the Building or Fire Official finds that the work will not pass the test, the contractor shall be required to make necessary corrections and the work shall then be resubmitted for inspection. Where additional inspections are necessary for such retesting there shall be an additional fee as provided for in Article V.

105.18 Covering the Work. Prior to testing, the system or part thereof shall not be covered until it has been inspected, tested and approved as prescribed in this Code.

Issuance of a certificate of occupancy shall not be construed as an approval of a violation of the provisions of this Code or of other ordinances of the jurisdiction.

106.2 Issuing Certificate Of Occupancy. Upon satisfactory completion of construction of a building or structure and installation of electrical, elevator, escalator, fire protection, gas, mechanical and plumbing systems in accordance with this Code, reviewed plans and specifications, and after the final inspection, the Building Official shall issue a Certificate of Occupancy stating the nature of the occupancy permitted, the number of persons for each floor when limited by law, and the allowable load per square foot for each floor in accordance with the provisions of this Code.

F101.3 Inspection authority. The fire code official is authorized to enter and examine any building, structure, marine vessel, vehicle or premises for the purpose of enforcing this Code.

F101.4 Inspections. The fire code official is authorized to conduct such inspections as are deemed necessary to determine the extent of compliance with the provisions of this Code and to approve reports of inspection by approved agencies or individuals. All reports of such inspections shall be prepared and submitted in writing for review and approval. Inspection reports shall be certified by a responsible officer of such approved agency or by the responsible individual. The fire code official is authorized to engage such expert opinion as deemed necessary to report upon unusual, detailed or complex technical issues subject to the approval of the governing body.
