PREFACE

This Code constitutes a complete recodification of the ordinances of the City of Norfolk of a general and permanent nature. As expressed in the Adopting Ordinance, the Code supersedes all such ordinances not included herein or recognized as thereto continuing in force by reference thereto.

Source materials used in the preparation of the Code were the 1958 Norfolk City Code as supplemented through August 15, 1978, (Supplement No. 61), and ordinances subsequently adopted by the council. In addition, certain ordinances relating to licenses and taxation not previously codified have been included in chapter 24 and the zoning ordinance has been added as Appendix A. The source of each section is included in the history note appearing in parentheses at the end thereof. The absence of such a note indicates that the section is new and was adopted for the first time with the adoption of the Code. By use of the Comparative Tables appearing in the back of the volume, the reader can locate any section of the 1958 Code and any subsequent ordinance included herein.

The chapters of the Code are arranged in alphabetical order and the sections within each chapter catchlined to facilitate usage. Footnotes which tie related sections of the Code together and which refer to relevant provisions of the state law have been included. A table listing the state law citations and setting forth their location within the Code is included at the back of this volume.

Numbering System

The numbering system used in this Code is the same system used in the 1958 Norfolk City Code. Each section number consists of two component parts separated by a dash, the figure before the dash representing the chapter number and the figure after the dash indicating the position of the section within the chapter. Thus, the first section of chapter 1 is numbered 1-1 and the ninth section of chapter 2 is 2-9. Under this system, each section is identified with its chapter, and, at the same time, new sections or even whole chapters can be inserted in their proper places, simply by using the decimal system for amendments. By way of illustration: If new material consisting of three sections that would logically come between sections 4-2 and 4-3 is desired to be added, such new sections would be numbered 4-2.1, 4-2.2 and 4-2.3 respectively. New chapters may be included in the same manner. If the new material is to be included between chapters 12 and 13 it will be designated as chapter 12.5. Care should be taken that the alphabetical arrangement of chapters is maintained when including new chapters. New articles and new divisions may be included in the same way or, in the case of articles, may be placed at the end of the chapter embracing the subject, and, in the case of divisions, may be placed at the end of the article embracing the subject, the next successive number being assigned to the article or division.

Index

The index has been prepared with the greatest of care. Each particular item has been placed under several headings, some of the headings being couched in lay phraseology, others in legal terminology and still others in language

generally used by government officials and employees. There are numerous cross references within the index itself which stand as guideposts to direct the user to the particular item in which he is interested.

Looseleaf Supplements

A special feature of this Code is the looseleaf system of binding and supplemental service, by which the Code will be kept up-to-date periodically. Upon the final passage of amendatory ordinances, they will be properly edited and the page or pages affected will be reprinted. These new pages will be distributed to holders of copies of the Code, with instructions for the manner of inserting the new pages and deleting the obsolete pages. Each such amendment, when incorporated into the Code, may be cited as a part thereof, as provided in section 5 of the Adopting Ordinance.

The successful maintenance of this Code up-to-date at all times will depend largely upon the holder of the volume. As revised sheets are received it will then become the responsibility of the holder to have the amendments inserted according to the attached instructions. It is strongly recommended by the publishers that all such amendments be inserted immediately upon receipt to avoid misplacing them and, in addition, that all deleted pages be saved and filed for historical reference purposes.

Acknowledgments

Checklist of Up-to-Date Pages

(This checklist will be updated with the printing of each Supplement)

From our experience in publishing Looseleaf Supplements on a page-for-page substitution basis, it has become evident that through usage and supplementation many pages can be inserted and removed in error.

The following listing is included in this Code as a ready guide for the user to determine whether the Code volume properly reflects the latest printing of each page.

In the first column all page numbers are listed in sequence. The second column reflects the latest printing of the pages as they should appear in an up-to-date volume. The letters "OC" indicate the pages have not been reprinted in the Supplement Service and appear as published for the original Code. When a page has been reprinted or printed in the Supplement Service, this column reflects the identification number or Supplement Number printed on the bottom of the page.

In addition to assisting existing holders of the Code, this list may be used in compiling an up-to-date copy from the original Code and subsequent Supplements.

The table below allows users of this Code to quickly and accurately determine what ordinances have been considered for codification in each supplement. Ordinances that are of a general and permanent nature are codified in the Code and are considered "Include." Ordinances that are not of a general and permanent nature are not codified in the Code and are considered "Omit."

In addition, by adding to this table with each supplement, users of this Code of Ordinances will be able to gain a more complete picture of the Code's historical evolution.

(Acts 2005, Ch. 893, § 1)

Editor's note—The repealed provisions, which derived from Acts 1992, Ch. 261, § 1, pertained to qualification of members; conduct of candidates.

Sec. 6.1. Qualification of members; conduct of candidates.

Beginning with the municipal election in 2006, any person qualified to vote in said city shall be eligible to the office of mayor or for the office of council member for the ward or superward in which such person resides. No person shall serve on council as both mayor and council member from a ward or superward, nor from more than one ward, including superwards. No candidate for the office of council member, including mayor, shall promise any money, office, employment, or other thing of value to secure a nomination or election, or expend in connection with his candidacy any money except as permitted by the general election laws of the state; and any such candidate violating this provision shall be guilty of a misdemeanor, and upon conviction thereof shall be punished by a fine not exceeding $500, or imprisonment for a term not exceeding six months, or both, in the discretion of the jury, and shall forfeit his office, if elected; in which event, the person receiving the next highest number of votes from the voters for said office, who has not violated the said provision, shall be entitled to said office. Should there be no such candidate, the council shall fill the office with a person from the vacated ward or superward and, in the case of the office of mayor from the city at-large, in accordance with § 7, until a special election pursuant to general law is held.
(Acts 2005, Ch. 893, § 1)

Any person elected to fill an unexpired term for ward representative shall be elected only from among the qualified voters in the ward or superward where such vacancy exists. Any vacancy in the office of mayor shall be filled from among the qualified voters of the city at-large. No candidate shall be elected unless he receives at least five votes in his favor. If by reason of resignation, death, or other circumstances, except in the case of vacancies resulting from a recall election, five or more vacancies exist or occur at the same time in said council, then the members of the civil service commission shall at once convene a majority of said commission and, by a majority vote of the members of said commission present, forthwith make such number of appointments from the wards and superwards where such vacancies exist, or from the city at-large in the case of the mayor, as may be necessary to constitute a council of five qualified members, which five members shall at once proceed to fill the remaining vacancies with qualified members. And in any case the council shall fail to fill a vacancy therein for a period of thirty days after the occurrence of the vacancy, such vacancy shall be filled by said commission as provided herein. The city clerk

shall act as the clerk of the commission so constituted, and shall cause his certificate of its action to be entered on the record of the council.

If the term of office so filled, either by the council or by said commission, does not expire for two years after the next regular election of council members following such vacancy, and such vacancy occurs more than one hundred twenty (120) days prior to that election, an additional council member shall then be elected at such election only by the qualified voters of the ward or superward where such vacancy exists, or in the case of the mayor from the city at-large and after the date of his qualification, succeed such appointee, and serve the unexpired term. When any vacancy is so required to be filled by election, the council or commission shall, within fifteen (15) days of the occurrence of the vacancy, petition the circuit court to issue a writ of election to fill the vacancy at the next general election of council members. In the event that more than one vacancy is to be filled by election, the same provision shall apply. The foregoing provisions of this section are subject to the further provision that any vacancy resulting from a recall election shall be filled in the manner provided in such case.
(Acts 2005, Ch. 893, § 1)

Except for the purpose of inquiry, the council and its members shall deal with the administrative service solely through the city manager, and neither the council nor any member thereof shall give orders to any of the subordinates of the city manager either publicly or privately. The council may determine its own rules of procedure, may punish its members for misconduct, and may compel the attendance of members in such manner and under such penalties as may be prescribed by ordinance. It shall keep a record of its proceedings. A majority of all the members of the council, including the mayor, shall constitute a quorum to do business, but a smaller number may adjourn from time to time.

No member of the council shall be eligible, during the term of office for which he was elected or appointed, to hold any office filled by the council by election or appointment, except that a member of the council may be named a member of such other boards, commissions, and bodies as may be permitted by general law.

Such city architect shall be elected by the council for an indefinite period and shall serve at the will of the council, except that he shall not be removed within twelve months from the date he assumes his duties, except for incompetence, malfeasance, misfeasance, or neglect of duty. He shall receive such compensation as may be prescribed by the council, shall be responsible only to the council, shall devote his full time to the duties of his office, shall not be a member of the classified civil service, and shall be a member of the employees' retirement system of the city.
(Acts 1962, Ch. 120)

The time for any such meeting shall be set by ordinance adopted by council not less than thirty nor more than forty-five days prior to the election. Thereafter the council shall meet at such times as may be prescribed by ordinance or resolution. It shall hold at least one regular meeting each month. The ayes and noes shall be taken upon the passage of all ordinances or resolutions and entered upon the record of the proceedings of the council, and every ordinance or resolution shall require, on final passage, the affirmative vote of at least five of the members. No member shall be excused from voting except on matters involving the consideration of his own official conduct, or where his financial interests are involved.

(Acts 2005, Ch. 893, § 1)

Sec. 15. Effective date of ordinances and resolutions.

All ordinances and resolutions passed by the council shall be in effect from and after thirty days from the date of their passage; provided, however, that the council may, by the affirmative vote of five of its members, pass any ordinance or resolution to take effect at the time indicated therein, but every measure providing for the sale or lease of city property, or making a grant, renewal or extension of a franchise or other special privilege, or regulating the rate to be charged for its service by any public utility, shall be in effect from and after thirty days from the date of its adoption.

THE RECALL

Sec. 24. Recall procedure.

Any member of city council may be recalled and removed from office only by the qualified voters of the ward or superward from which such member serves, or in the case of the mayor from the qualified voters of the city at-large, and in accordance with the procedure described in this section. A petition for the recall of the council member designated, signed by at least three hundred qualified voters of the council member's ward or superward, or on or after July 1, 2006, at least one thousand qualified voters city-wide in the case of the mayor, and containing a statement in not more than two hundred words of the grounds of the recall, shall be filed with the city clerk, who shall immediately transmit a copy thereof to the city general registrar who shall examine the same, and ascertain and certify to the city clerk whether at least three hundred persons whose names are signed thereto are qualified voters of the said ward or superward or on or after July 1, 2006, one thousand qualified voters city-wide in the case of the mayor. Upon receipt of said certification, the city clerk shall forthwith notify such council member. statement, if any, attached to be placed in at least two public buildings designated by council and located within the council member's ward or superward, or on or after July 1, 2006, in the case of the mayor, in each superward, and provide facilities for there signing the same, and for the proper custody thereof. The city clerk shall immediately cause notice to be published in some newspaper of general circulation published in the city, of the places where the said copies may be found, and of the time within which the same may be signed.

The said copies of such petition shall remain on file in the several places designated for a period of thirty days, during which time any one of them may be signed by any qualified voter of the designated council member's ward or superward, or any qualified voter in the city in the case of the mayor, including those who signed the original petition.
(Acts 1992, Ch. 261, § 1; Acts. 2005, Ch. 893, § 1)

Sec. 25. Notice.

At the expiration of said thirty days, the city clerk shall assemble all of said copies, and shall file the same as one instrument with the clerk of the circuit court of said city, who shall immediately transmit a copy thereof to the city general registrar who shall examine the same, and ascertain and certify to the clerk of the circuit court whether the persons whose names are signed thereto are qualified voters of the said ward or superward, equal in number to fifteen percent of the number of voters in said ward or superward who cast their votes at the last preceding regular municipal election in which such council member was elected, or on or after July 1, 2006, in the case of the mayor, fifteen percent of the number of voters city-wide who cast their votes at the last preceding regular municipal election in which the mayor was elected. If such signatures do amount to fifteen percent, the clerk of the circuit court of said city shall at once serve notice of that fact upon the council member designated in the petition.
(Acts 1992, Ch. 261, § 1; Acts 2005, Ch. 893, § 1)

Sec. 26. Recall election.

If the council member designated in such petition, files with the city clerk, within five days after the last mentioned notice from the clerk of the circuit court of said city, his written resignation, the said city clerk shall at once notify the clerk of the circuit court of said city of that fact, and such resignation shall be irrevocable, and shall be filed and preserved in the offices of the city clerk, and the council shall proceed to fill the vacancy, subject to the provisions of section 7 of this Charter. In the absence of notice from the city clerk that such resignation has been filed, as aforesaid, the clerk of the circuit court of said city shall, upon the expiration of said period of five days, forthwith present to said court, the said copies with his certificate as to the percentage of qualified voters whose names are signed thereto as verified by the city general registrar, and a certificate as to the date of the service of the notice given by him to the council member designated in the petition, as above provided. And thereupon the said court, shall forthwith enter an order calling and fixing a date for holding a recall election for the removal of the council member named in said petition, who has not resigned as aforesaid. Any such election shall be held not less than thirty nor more than sixty days after the date of the entering of said order. If any other election is to be held within the said period, the said court, or the judge thereof in vacation, shall direct that the said recall election be held at the same time and in accordance with state law.
(Acts 1992, Ch. 261, § 1)

Sec. 27. Ballots and method of voting.

The ballots at such recall election shall conform to the following requirements. With respect to each person whose removal is sought, the question shall be submitted:

"Shall (name of person) be removed from the office of council member by recall?"

Immediately following each such question, there shall be printed on the ballots the following:

"□ Yes

□ No"

In any such election if the majority of the votes cast on the question of the removal of any

council member are affirmative, such council member shall be deemed removed from office upon the ascertainment and certification of the results of such election by the city electoral board, and the vacancy caused by such recall shall be filled by the remainder of the council, according to the provisions of section 7 of this Charter.

Sec. 28. Effect of resignations pending proceedings for the recall of all council members.

Should all members of city council be subject to recall proceedings, the civil service commission, as provided in section 7 shall have the power, and it shall be its duty forthwith to fill such vacancy or vacancies which result from resignation of any or all council members. It shall be the duty of such commission to fill such vacancy or vacancies temporarily until successors are elected. The proceedings for the recall of the council members, and the election of their successors, shall continue and have the same effect as though there had been no resignation. (Acts 1992, Ch. 261, § 1)

Sec. 29. Miscellaneous provisions.

No petition to recall any councilman shall be filed within one year after he assumes the duties of his office.

The method of removal herein provided shall not be deemed or held exclusive, but is in addition to such other methods as are now or may hereafter be provided by general law.

INITIATIVE

Sec. 30. Petition [generally].

Any proposed ordinance or ordinances, including ordinances for the repeal or amendment of an existing ordinance, may be submitted to the council by petition signed by qualified voters equal in number to ten percent of the number of electors who cast their votes at the last preceding regular municipal election for the election of councilmen. Such

petition shall contain the proposed ordinance in full, and shall have appended thereto or written thereon the names and addresses of at least five qualified voters, who shall be officially regarded as filing the petition, and who shall constitute a committee of the petitioners for the purposes hereinafter stated.

Sec. 31. Time of filing [petition].

All papers comprising the petition shall be assembled and filed with the city clerk, as one instrument, within one hundred and twenty days from the date of the first signature thereon, and when so filed the clerk shall submit the same to the council at its next regular meeting, and provision shall be made for public hearings upon the proposed ordinance.

Sec. 32. Petition for election.

The council shall at once proceed to consider such petition and shall take final action thereon within thirty days from the date of the submission thereof. If the council rejects the proposed ordinance, or passes it in a form different from that set forth in the petition, or fails to act finally upon it within the time stated, the committee of the petitioners may require that it be submitted to a vote of the electors in its original form, or that it be submitted to a vote of the electors with any proposed change, addition or amendment, by the following procedure: Said committee shall present to the clerk of the corporation [circuit] court of said city a petition for such election, addressed to said court and signed by qualified voters equal in number to twenty-five per cent of the number of electors who cast their votes at the last preceding regular municipal election for the election of councilmen, but in no case signed by less than four thousand qualified voters of the city. Said petition shall contain the proposed ordinance in full in the form in which it is proposed to submit the same to the electors. The said petition and all copies thereof shall be filed with the clerk of said court as one instrument. Within ten days after the filing thereof the said clerk shall ascertain and certify thereon whether the required number of qualified voters have signed the same. If it be found that the required number of qualified voters have signed the said petition, then the said petition, with the certificate of the said clerk thereon, shall be presented by said committee to the corporation [circuit] court of said city, or to the judge thereof in vacation, and thereupon the said court, or the judge thereof in vacation, shall forthwith enter an order calling and fixing a date for holding an election for the purpose of submitting the proposed ordinance to the electors of the said city. Any such election shall be held not less than thirty nor more than sixty days after the date of the entering of said order. If any other election is to be held within the said period said court or the judge thereof shall direct that such proposed ordinance shall be submitted to a vote of the electors at such election. At least ten days before any such election the clerk of the said court shall cause such proposed ordinance to be published once in one or more newspapers of general circulation published in said city. (Acts 1956, Ch. 339)

Sec. 33. Ballots and method of voting.

The ballots used when voting upon any such proposed ordinance shall state the title of the ordinance to be voted on, and the ballots and method of voting shall conform to the provisions of section 24-141 [24.1-165] of the Code of Virginia.

If a majority of the electors voting on such proposed ordinance shall vote in favor thereof, it shall, upon the ascertainment and certification of the results of such election by the commissioners of election, become an ordinance of the city. (Acts 1956, Ch. 339)

Sec. 34. Ordinances adopted by the electors; how amended or repealed.

No ordinance adopted by the vote of the electors, as herein provided, shall be repealed or amended, except by vote of the electors; but the corporation [circuit] court of said city,

or the judge thereof in vacation, may, on request of the council, by resolution, order an ordinance to repeal or amend any ordinance so adopted, to be submitted to the electors at any regular election, or at any special municipal election called for some other purpose, provided that the clerk of said court shall cause notice of the proposed submission of such ordinance repealing or amending an ordinance, to be published once in one or more newspapers of said city not more than sixty nor less than thirty days prior to said election. If an amendment is so proposed such notice shall contain the proposed amendment in full, and submission shall be in the same manner and the vote shall have the same effect as in the case of an ordinance submitted to election by popular petition.

REFERENDUM

Sec. 35. Petition for referendum.

If at any time within a thirty-day period following the adoption of an ordinance a petition, signed by qualified voters equal in number to twenty-five percent of the number of electors who cast their votes at the last preceding regular municipal election for the election of councilmen, but in no case signed by less than four thousand qualified voters of the city, be filed with the city clerk, requesting that any such ordinance be repealed, or amended, as stated in the petition, such ordinance shall not become operative until the steps indicated herein shall have been taken or the time allowed for taking any such step shall have elapsed without action. Such petition shall state therein the names and addresses of at least five electors, who shall constitute a committee to represent the petitioners, who shall be officially regarded as filing the petition, and shall constitute a committee of the petitioners for the purposes hereinafter stated. Referendum petitions need not contain the text of the ordinance or ordinances, the amendment or repeal of which is sought, but shall contain the proposed amendment, if an amendment is demanded. (Acts 1956, Ch. 339; Acts 1972, Ch. 706, § 1)

Sec. 36. Proceedings thereunder.

The city clerk shall present the said petition to the council at its next regular meeting, and thereupon the council shall proceed to reconsider the ordinance. If, within thirty days after the filing of such petition, the ordinance be not repealed or amended as requested in such petition, the city clerk shall, if so requested by a writing signed by a majority of the said committee and presented to the said city clerk within twenty days after the expiration of said period of thirty days, present to the clerk of the corporation [circuit] court of said city, the said petition and all copies thereof as one instrument together with a copy of the ordinance the repeal of which is sought. Within ten days after the filing of said petition, the clerk of said court shall ascertain and certify whether the required number of qualified voters have signed the same. If it be found that the required number of qualified voters have signed the said petition, then within five days after the expiration of said ten days the said petition, with the certificate of the clerk thereon, shall be presented by the said committee to the corporation [circuit] court of said city, or to the judge thereof in vacation, and thereupon the said court, or the judge thereof in vacation, shall forthwith enter an order calling and fixing a date for holding an election for the purpose of submitting the said ordinance to the electors of said city. Thereupon the said ordinance shall ipso facto be further suspended from going into effect until such election shall have been held and shall then be deemed repealed unless approved by a majority of those voting thereon. Any such election shall be held not less than thirty nor more than sixty days after the date of the entering of such order. If any other election is to be held within the said period, said court or the judge thereof in vacation shall direct that the said ordinance shall be submitted to the vote of the electors at such election. At least ten days before any such election the clerk of said court shall cause the said ordinance to be published once in one or more newspapers of general circulation published in said city.

Sec. 37. Ballots and method of voting.

The ballots used when voting upon such ordinance shall conform in all respects to the ballots required for an initiative election under section 33 hereof, and the method of voting in any such election shall be as prescribed in said section.

If in any such election the ordinance so referred or submitted be approved by a majority of the electors voting thereon, the said ordinance shall, upon the ascertainment and certification of the results of such election by the commissioners of election, go into effect as an ordinance of the city.

Sec. 38. Ordinances submitted by popular petition.

Ordinances submitted to the council by initiative petition and passed by the council without change, or passed in an amended form, and not required to be submitted to the vote of the electors by the committee of the petitioners, shall be subject to the referendum in the same manner as other ordinances.

Sec. 39. Conflict of ordinances.

If two or more ordinances adopted or approved at the same election conflict in respect of any of their provisions, such ordinances shall go into effect in respect of such of their provisions as are not in conflict, and the one receiving the highest affirmative vote shall prevail insofar as their provisions conflict.

Sec. 40. Measures not subject to referendum.

Ordinances passed providing for any work, improvement or repairs certified by the city manager to be immediately necessary to protect public property or health from imminent danger, or to protect the city from imminent loss or liability, shall not be subject to the referendum. The certificate of the city manager in any such case shall be conclusive. All other ordinances passed, unless exempted by law, shall be subject to the referendum in like manner as other ordinances, except that they shall go into effect at the time indicated in such ordinances. If, when submitted to a vote of the electors, an ordinance be not approved by a majority of the voters voting thereon, it shall be considered repealed as regards any further action thereunder; but such measure so repealed shall be deemed sufficient authority for payment in accordance with the ordinance of any expenses incurred previous to the ascertainment and certification by the commissioners of election of the result of the referendum vote thereon. (Acts 1972, Ch. 706, § 1)

Sec. 41. Preliminary action.

In case a petition be filed requesting that a measure passed by the council providing for the expenditure of money, for a bond issue or a public improvement be submitted to a vote of the electors, all steps preliminary to such actual expenditure, actual issue of bonds or actual signing of a contract for such improvements may be taken prior to the election.

GENERAL PROVISIONS RELATING TO ELECTIONS AND TO THE INITIATIVE, REFERENDUM AND RECALL

Sec. 42. Elections.

All elections for the election of councilmen, and all initiative, referendum and recall elections, shall be conducted, and the result canvassed and certified, by the regular election officials provided by the general election laws of the state; and, except as otherwise provided in this Charter, all such elections shall be governed by the said general election laws.

Sec. 42.1. Advisory referendum for election of mayor.

Notwithstanding any other provision of law, general or special, to the contrary, the council shall have the sole and exclusive power to authorize the holding of an advisory referendum on the question of whether the mayor shall be popularly elected. The council shall authorize by ordinance the holding of such advisory referendum at the general election to be held in November 2000, and shall determine the circumstances of said advisory referendum; however, no such

referendum shall conflict with any election or voting laws of the United States or the Commonwealth of Virginia.
(Acts 2000, Ch. 950, § 1)

Sec. 43. Petitions.

All petitions for the nomination of councilmen and all petitions in connection with the initiative, referendum or recall shall be signed in ink or indelible pencil by the elector in person and not by agent or attorney. Each person signing any such petition shall place opposite his name the date of his signature, and his place of residence by street and number. The signatures ta [to] any such petition need not all be appended to one paper, but to each such paper (except in the case of copies of recall petitions, which may not be circulated), there shall be attached an affidavit by the circulator thereof stating that each signature appended thereto is the genuine signature of the person whose name it purports to be and that it was made in the presence of the affiant on the date indicated. All copies of any such petition shall be treated as originals. No such petition shall be deemed invalid by reason of the fact that it is signed by one or more persons who are not qualified voters, but the names of such persons shall not be counted. As used in this Charter the terms "elector," "qualified elector," and "qualified voter" are synonymous.

Sec. 44. Presumptions.

All signatures to any petition mentioned in the preceding section hereof shall be accepted and treated as prima facie genuine. For the purpose of certifying the number of qualified voters whose names are signed to any such petition the clerk of the corporation [circuit] court of said city shall presume that any person whose name appears thereon is a qualified voter under the provisions and within the meaning of section 45 hereof, assuming him to be duly registered.

All such petitions substantially complying with the requirements of this Charter and certified by said clerk to bear the required number of signatures of qualified voters shall be accepted and treated as prima facie sufficient. The burden of proving the insufficiency of any such petition in any respect shall be upon the person alleging the same.
(Acts 2021, Ch. 371, § 1)

Sec. 45. Qualifications of persons signing certain petitions.

The question whether any person is a qualified voter for the purpose of signing any nominating petition or any petition in connection with the initiative, referendum or recall shall be determined as follows: If any such petition be signed on or before the second Tuesday in June in any year, the person signing the same shall be deemed a qualified voter for that purpose within the meaning hereof, if qualified to vote on said second Tuesday in June. If such petition be signed after the second Tuesday in June in any year, the person signing the same shall be deemed a qualified voter for that purpose within the meaning hereof, if qualified to vote on the first Tuesday after the first Monday in November of said year.

Sec. 46. Duty of city attorney.

Before any ordinance or amendment proposed by popular petition shall be submitted to the council, it shall first be approved as to form, by the city attorney, whose duty it shall be to draft such proposed ordinance or amendment in proper legal language, and to render such other service to persons desiring to propose such ordinances or amendments as shall be necessary to make the same proper for consideration by the council.

Sec. 47. Offenses.

No person shall:

(a) Falsely impersonate another in the signing of any nominating petition or petition for the initiative, referendum or recall, or forge any name thereto; or deface, destroy, or remove from any of the places designated in this Charter, any copy of a petition for recall with intent to interfere with or defeat such recall;

Any person violating any of the provisions of paragraph (b) of this section shall be deemed guilty of a misdemeanor and upon conviction thereof shall be fined not less than ten dollars nor more than two hundred dollars.

The foregoing provisions shall not be deemed or held to be exclusive of, but in addition to, all laws of the state prescribing penalties for the same offenses, or for other offenses relating to the same matter.

Sec. 48. Compensation of clerk of the corporation [circuit] court.

For his services in connection with any proceedings under the foregoing sections relating to the initiative, referendum and recall, the clerk of the corporation [circuit] court of said city shall be paid by the city such reasonable fees as are now or may hereafter be provided by law for similar services in other cases.

The city manager shall receive such compensation as shall be provided by the council by ordinance. He shall be appointed in the manner and for the term prescribed in § 11 of this Charter. Sec. 51. Investigations.

The council, the city manager and any officer, board or commission authorized by them, or either of them, shall have power to make investigations as to city affairs, and for that purpose of subpoena witnesses, administer oaths, and compel the production of books and papers. The civil service commission shall have power to make investigations relating to the civil service, with the like power to subpoena witnesses, administer oaths and compel the production of books and papers.

Any person refusing or failing to attend, or to testify, or to produce such books and papers, may by summons issued by such board or officer be summoned before the police justice [general district court] of said city by the board or official making such investigation, and upon failure to give satisfactory explanation of such failure or refusal may be fined by the police justice [general district court] not exceeding one hundred dollars or imprisoned not exceeding thirty days, such person to have the right to appeal to the corporation [circuit] court of the city. The director of each department shall be chosen on the basis of his general executive and administrative ability and experience and of his education, training and experience in the class of work which he is to administer.

The director of each department, except the department of law, shall be appointed by the city manager, and may be removed by him at any time.

The directors of the several departments shall be immediately responsible to the city manager for the administration of their respective departments, and their advice, in writing, may be required by him on all matters affecting their departments. They shall prepare departmental estimates, which shall be open to public inspection, and they shall make all other reports and recommendations concerning their departments at stated intervals, or when required by the city manager, under such rules and regulations as he may prescribe. The city attorney shall apply in the name of the city to a court of competent jurisdiction for such injunction or injunctions as may be necessary to restrain and prevent the misapplication of the funds of the city, or the invasion or abuse of its corporate powers, or the usurpation of authority by any city official, or the execution or performance of any contract made in behalf of the city in contravention of law, or which was procured by fraud or corruption.

When an obligation or contract made on behalf of the city granting a right or easement or creating a public duty is being evaded or violated, the city attorney shall institute and prosecute such suit or suits as may be necessary to enforce the forfeiture thereof, or the specific performance thereof, as the nature of the case may require.

In case any officer, board or commission shall fail to perform any duty required by law, the city attorney shall apply to a court of competent jurisdiction for a writ of mandamus to compel the performance of such duty. Whenever any street, alley or lane shall have been opened to and used as such by the public for the period of five years, the same shall thereby become a street, alley or lane for all purposes, and the city shall have the same authority and jurisdiction over and right and interest therein as it has by law over the streets, alleys and lanes laid out by it. And any street or alley reserved in the division or subdivision into lots of any portion of the territory within the corporate

limits of the city by a plat or plan of record shall be deemed and held to be dedicated to the public use, and the council shall have authority, upon the petition of any person interested therein, to open such street or alley, or any portion of the same. No agreement between or release of interest by the persons owning the lands immediately contiguous to any such alley or street, whether the same has been opened and used by the public or not, shall avail or operate to abolish said alley or street, so as to divest the interest of the public therein, or the authority of the council over the same. No property within the corporate limits of said city shall be laid out by the owner thereof with streets or alleys thereon except upon a plan to be approved by the director of public works. Notwithstanding anything in this section contained, the said city shall not be liable for any accident which may occur upon any street, alley, boulevard or way, whether heretofore or hereafter laid out, until the said street, boulevard, alley or way shall have been accepted by the council.

DEPARTMENT OF PUBLIC WELFARE

The appointment of such officer shall not be limited to the inhabitants of the city or state, unless otherwise required by the Constitution of the state. He shall give his entire time to the duties of his position; and shall have such assistants as the council may by ordinance provide; provided, however, that the provisions of paragraph (a) shall be suspended during any period when the city has established a district health department and has contracted with the State of Virginia, or any department, board or agency thereof, for the operation thereof; and during any such contract period, the city manager may appoint the person operating the district health department for the state as the director of public health, and health officer, of the city and when so appointed, such person is empowered and directed to enforce all local laws and ordinances of the city relating to public health and to carry out all duties and responsibilities imposed upon the director of public health, and health officer, of the city by state statute or local ordinances.

But nothing herein shall be construed to prevent the city from contracting with any private hospital or similar institution for the care of indigent sick or injured persons, or for other services.

The director of public welfare, or such other person within said department as he may designate, shall represent the city on the board of directors, board of managers or other governing body of any charity to which public funds shall have been contributed upon the conditions aforesaid.

Editor's note—The above section is not in accord with the current administrative organization of the city. For instance, the department of public welfare has been replaced by the department of human resources and there is now a separate department of public health. For the current organization, it is suggested that the budget ordinance be consulted.

Editor's note—See note following § 59.

Sec. 63. Supervision in divisions of fire and police.

The chief of police and the fire chief, with the approval of the director of public safety, except as hereinafter provided, shall have the right and power to reprimand, or to suspend, for a given number of days or indefinitely, any of the sworn officers and sworn employees in their respective divisions who may be under their management and control, for incompetence, neglect of duty, immorality, drunkenness, failure to obey orders given by proper authority, or for any other just and reasonable cause. This section does not apply to the deputy chief of police or the deputy fire chief, who, like the chief of police and the fire chief are appointed by and serve at the will the city manager. If any such officer or employee be suspended for more than ten days or be suspended indefinitely, the chief of the division concerned shall forthwith certify in writing the fact, together with the cause for such suspension, to the trial board hereinafter provided for, and a copy of such certificate of suspension, and the cause therefor, shall be promptly served on such officer or employee, which service may be by an officer of his division or in the manner prescribed by law for the service of civil process.

Any such officer or employee so suspended may, within ten days after he shall have been so served with such certificate of suspension and the cause therefor, file with said trial board a written request for a hearing upon the accusations so made against him, whereupon said trial board shall, after not less than five days' written notice to such officer or employee, and to the chief of the division by whom he has been suspended, hold and conduct a hearing, which shall be open to the public, upon such accusations, at a time and place to be specified in such notice, and may render judgment thereon. Such judgment, in the event said accusations or any of them are, in the opinion of said trial board,

sustained, may be a reprimand, extra duty without extra compensation, suspension for a fixed time, reduction in rank, or dismissal, as to said trial board may seem proper, which judgment shall be final.

Whenever the judgment of the said trial board is that the accusations were not sustained, it may order the reinstatement of such officer or employee in the office or position from which he was suspended. Such order of reinstatement may, in the discretion of said trial board, be retroactive and provide that such officer or employee shall be entitled to compensation for all or part of the time he was so suspended.

In the event any such officer or employee who is suspended for more than ten days or suspended indefinitely shall not file with said trial board a written demand for a hearing as hereinabove provided, the suspension of such officer or employee shall become final, and if the suspension be for an indefinite period, such officer or employee may be discharged by the city manager without a hearing.

The trial board above referred to shall be known as the Norfolk Police-Fire Trial Board, and the members thereof shall be appointed by the council. It shall consist of not less than three nor more than five members, in the discretion of the council, who shall be qualified voters residing in the city, none of whom shall be in any way connected with any other city office. The first appointment of the members of the said trial board shall be for a term of one year commencing July 1, 1950, and all subsequent appointments shall be for consecutive terms of one year. Any member may be appointed for a consecutive term or terms, and any vacancy shall be filled by appointment by the council for the remainder of the unexpired term. The judgment of a majority of the members appointed on said trial board shall control. The members shall receive such compensation as may be provided by council. Each member shall, before entering upon the duties of his office, take and subscribe the oaths provided by section 133 of this Charter for city officers.

The council shall designate one member of said trial board as chairman thereof. The chairman shall have the power to subpoena witnesses, administer oaths and compel the production of any books and papers in connection with any hearing held hereunder by said trial board. Any person refusing or failing to appear and testify or to produce such books and papers, or who shall testify falsely under oath at any hearing held by said trial board, may be proceeded against in the same manner and shall be subject to the same penalties as provided by section 51 of this Charter relating to investigations as to city affairs.

The council shall also designate one member of said trial board as vice-chairman thereof to act in the absence, disability or inability to act of the chairman, and when so acting, the said vice-chairman shall have all the powers herein conferred upon the chairman.

Any such officer or employee against whom accusations are so filed shall have the right to be represented by counsel at any hearing before said trial board. All notices required to be given the trial board may be given to the chairman thereof, or in his absence, to the vice-chairman. (Acts 1936, Ch. 283; Acts 1950, Ch. 430; Acts 1970, Ch. 484; Acts 1977, Ch. 42, § 1; Acts 1978, Ch. 80, § 1; Acts 2014, Chs. 235, 683 (Res. No. 1,572); Res. No. 1,929, § 1(Att. The city manager shall have the power to suspend or dismiss the chief of police, the deputy chief of police, the fire chief, and the deputy fire chief at any time, and his action in every such case shall be final; provided that in the event the chief of police, the deputy chief of police, the fire chief, or the deputy fire chief was appointed to such position from the membership of his respective division, he shall, at the time of any such suspension or dismissal, or at any time prior thereto, at his request, be restored to the rank he held in the classified service in such division at the time of his appointment as such chief or

deputy chief, without being required to take any examination, subject, however, to the provisions of section 63 of this Charter.
(Acts 1952, Ch. 21; Acts 2014, Chs. 235, 683 (Res. No. 1,572); Res. No. 1,929, § 1(Att. A), 12-10-24; Acts 2025, Ch. 373, § 1)

appropriations, as may be necessary to meet any abatements from and deficiencies in the actual collection and receipt of the estimated taxes and other revenues of the city. The total amount of appropriations shall not exceed the estimated revenues of the city.

The city manager, or the assistant director of finance or city controller, as appropriate pursuant to this section, may require any claimant to make oath to the validity of a claim; may investigate any claim, and for such purposes may examine any witnesses under oath; and if such claim be found fraudulent, erroneous or otherwise invalid, shall not issue a warrant therefor.

Sec. 72. Certification of funds.

No contract, agreement or other obligation involving the expenditure of money shall be entered into nor shall any ordinance, resolution or order for the expenditure of money be passed by the council or be authorized by any officer of the city, unless the director of finance shall first certify to the council or to the proper officer, as the case may be, that the money required for such contract, agreement, obligation or expenditure is in the city treasury to the credit of the fund from which it is to be drawn, and not appropriated for any other purpose, which certificate shall be filed and preserved. During such time as the city manager shall act as director of finance the aforesaid certification shall be made by the assistant director of finance or the city controller. The sum so certified shall not thereafter be considered unencumbered, until the city is discharged from the contract, agreement or obligation.
(Acts 1972, Ch. 706, § 1; Acts 2000, Ch. 950, § 1)

Sec. 73. Money in fund.

All moneys actually in the treasury to the credit of the fund from which they are to be drawn and all moneys applicable to the payment of the obligation or appropriation involved that are anticipated to come into the treasury before the maturity of such contract, agreement or obligation from taxes, assessments, license fees, or from sales of property or of services, products or by-products of any city undertaking or federal or state grants, and moneys to be derived from lawfully authorized bonds, for the purpose of such certificate shall be deemed in the treasury to the credit of the appropriate fund and subject to such certification.
(Acts 1956, Ch. 115)

Sec. 74. City treasurer generally.

The city treasurer shall be elected at the time, in the manner and for the term provided in section 23 of this Charter. He shall give bond in such sum not less than one hundred thousand dollars, as the council may prescribe, with surety to be approved by the council, conditioned for the faithful discharge of his official duties in relation to the revenue of the city, and of such other official duties as may be imposed upon him by this Charter and the ordinances of the city. Subject to the supervision of the city manager, he shall collect and receive all city taxes, levies, assessments, license taxes, rents, water rents, fees and all other revenues or moneys accruing to the city, and for that purpose shall be vested with any and all powers which are now or may hereafter be vested in such city treasurer as collector of state taxes. He shall be the custodian of all public money of the city, and of all other money coming into his hands as city treasurer. The city treasurer shall keep and preserve such moneys in such banks or trust companies as may be determined by ordinance or by the provisions of any law applicable thereto. When city moneys have been deposited in such banks or trust companies as designated by ordinance, the city treasurer shall not be liable for any loss sustained as to funds of the city so deposited. It shall be the duty of said city treasurer to conduct all of the proceedings and render all services necessary to perfect the sale and transfer of real estate in said city where the same shall be sold or advertised for sale for the nonpayment of any taxes or assessments imposed by the council. He shall perform such other duties, have such powers and be liable to such penalties as are now or may hereafter be prescribed by law or ordinance.
(Acts 1950, Ch. 107; Acts 1974, Ch. 11; Acts 1976, Ch. 599)

Sec. 74(a). Supplementing salary of city treasurer.

The city may supplement the salary of the city treasurer for additional services not required by state law; provided, however, that such supplementary salary shall be paid wholly by the city.
(Acts 1956, Ch. 115)

Sec. 75. Commissioner of the revenue generally.

The commissioner of the revenue shall be elected at the time, in the manner and for the term provided in § 23 of this Charter. He shall give bond in such sum not less than ten thousand dollars, as the council may by ordinance prescribe, with surety to be approved by the council, conditioned for the faithful performance of all of his duties under this Charter, and under any ordinance of the city. He shall, subject to the supervision of the city manager, perform such duties not inconsistent with the laws of the state in relation to the assessment of property and licenses as may be required by the council for the purpose of levying city taxes and licenses. He shall have power to administer such oaths as may be required by the council in the assessment of license taxes or other taxes for the city. He shall make such reports in regard to the assessment of both property and licenses, or either, as may be required by the council or by the city manager. The council may by ordinance require that all tax bills shall be made out by the commissioner of the revenue and delivered in such manner as said ordinance may prescribe. For all such services the said commissioner of the revenue shall receive such compensation as the council may from time to time prescribe by ordinance.
(Acts 1976, Ch. 599)

Sec. 75(a). Supplementing salary of commissioner of the revenue.

The city may supplement the salary of the commissioner of the revenue for additional services not required by state law; provided, however, that such supplementary salary shall be paid wholly by the city.
(Acts 1956, Ch. 115)

Sec. 76. Vacancies in the office of city treasurer or commissioner of the revenue.

In case of a vacancy in the office of the city treasurer or of commissioner of the revenue the council shall elect a qualified person to fill the office in which such vacancy occurs for the unexpired term; provided, that if the term of office so filled does not expire for two years or more after the next regular municipal election for the election of councilmen following such vacancy, and such vacancy occurs in time to permit it, a city treasurer or a commissioner of the revenue, as the case may be, shall then be elected and shall from and after the date of his qualification succeed such appointee and serve the unexpired term.

Sec. 77. City purchasing agent.

The city purchasing agent shall, under the supervision of the director of finance, and until the council shall otherwise provide by ordinance, purchase all goods and services for the city, and sell all personal property of the city that may have been condemned as useless by the director of a department of the city, except the purchase of such goods and services and the sale of such personal property for which the council may make other provisions.

He may require from the director of each department, at such times as contracts for goods and services are to be let, a requisition for the quantity and kind of goods and services to be paid for from the appropriations of the department. Upon certification that funds are available in the proper appropriations, such goods and services shall be purchased and shall be paid for from funds in the proper department for that purpose. He shall not purchase any goods and services for any department unless there be to the credit of such department an available appropriation balance sufficient to pay for such goods and services. However, this procedure shall not prevent him from purchasing goods and services for cash on account of storehouse stock for future use by the various departments under such regulations as the director of finance may prescribe.

Before making any purchase or sale, he shall give opportunity for competition under such rules and regulations as may be established by the director of finance.

He shall perform such other duties in connection with the purchase of goods and services and the sale of personal property of the city as may be from time to time prescribed by the council.
(Acts 1956, Ch. 115; Acts 2000, Ch. 950, § 1)

Sec. 78. Emergency purchases.

ln cases of emergency, purchases may be made without competition, if a sufficient appropriation has theretofore been made against which such purchases may lawfully be charged. In such cases a copy of the order issued shall be filed with the city purchasing agent, together with a certificate by the head of the department, stating the facts constituting the emergency.
(Acts 2000, Ch. 950, § 1)

Sec. 79. Contingent fund.

Provision shall be made in the annual budget and in the annual appropriation ordinance for a reasonable contingent fund under the exclusive control of the city manager to be expended for use in the administration of the city's affairs in emergency situations as certified to by the city manager and under such rules of procedure therefor as the council shall prescribe. The city manager shall at least once in each quarter report to the council in writing all such emergency payments together with a statement of the facts constituting the emergency in each case.
(Acts 1976, Ch. 599)

Sec. 80. Public improvements.

Any public work or improvement costing more than fifteen thousand dollars, except as provided in the next succeeding section, shall be executed by written contract. All contracts for more than fifteen thousand dollars shall be awarded to the lowest responsible bidder after public advertisement and competition, as may be prescribed by ordinance. No contract may be split or divided to avoid the requirement of competition. But the city manager shall have the power to reject any and all bids and all advertisements shall contain a reservation of this right.
(Acts 1958, Ch. 115; Acts 1972, Ch. 706, § 1; Acts 1978, Ch. 80, § 1)

Sec. 81. Improvements by direct labor; emergency work.

After bids shall have been advertised for and received for making any public improvement or doing any public work, or if no bids are received, the council may authorize the making of such improvement or doing of such work by the direct employment of the necessary labor and purchase of the necessary materials and goods and services on the basis of detailed estimates submitted by the department authorized to execute such work or improvement; provided, the probable cost of such work or improvements as shown by such estimate is less than the bid of the lowest responsible bidder for the same work or improvement; and provided further, that the city manager shall certify to the council that in his opinion the cost of making such improvement or doing such work will not exceed the said estimate. Separate accounts shall be kept of all work and improvements so done or made.

In an emergency requiring immediate action the city manager may cause any such improvement to be made or other public work to be done by direct employment of the necessary labor and purchase of the necessary material and goods and services without previously advertising for or receiving bids therefor. Every such case shall be reported by him in writing to the council at its next regular meeting with a statement of the facts constituting such emergency. Separate accounts shall be kept of all such work; provided that nothing in this or the next preceding section shall prevent the said city from doing maintenance and repair work by direct labor and from maintaining a reasonable force of men for that purpose.
(Acts 1974, Ch. 11)

Sec. 82. Alteration or modification of contracts.

When it becomes necessary in the performance of any work under contract to make amendments or modifications to such contract, such amendments or modifications shall be made only upon the order of the city manager, unless otherwise provided by council by ordinance. No such order shall be effective until the price to be paid for the work and material, or both, and the credits, if any,

to be allowed the city, under the altered or amended contract, shall have been agreed upon in writing and signed by the contractor and by the city manager, or by the person designated by the council by ordinance.
(Acts 1970, Ch. 484; Acts 2000, Ch. 950, § 1)

Sec. 83. Contracts for public advertising.

All public advertising or publications necessary under this Charter shall be in a daily newspaper of general circulation, published in the city, and shall be done by contract; or in a journal published by the city as may be determined by ordinance; provided, that the publication of notice of the sale of lands for delinquent taxes and assessments thereon under § 90 of this Charter shall only be in a newspaper of general circulation published in said city. If such contract shall be with the publisher of a newspaper it shall be entered into only after opportunity has been given for competition under such rules and regulations as the council may provide and for a term not exceeding one year.

Sec. 84. [Repealed by Acts 1976, Ch. 559.]

Sec. 85. [Repealed by Acts 1983, Ch. 587, § 2.]

Sec. 86. Bond issues, etc., generally.*

(1) The council may in the name and for the use of the city contract debts and make and issue or cause to made and issued as evidence thereof, bonds, notes or other obligations, upon the credit of the city or solely upon the credit of specific property owned by the city, or personal property including investments and other securities deposited in a separate account and held for, and pledged to, the payment of principal of and interest on such bonds, notes or other obligations, or solely upon the credit of income derived from property used in connection with any public utility owned and operated by the city, such bonds and notes or other obligations to be either coupon or registered bonds, or coupon bonds with the privilege to the holder of having same registered as to principal or as to both principal and interest. Such bonds may be made subject to redemption prior to maturity, with or without premium, and subject to such notice as may be provided in the ordinance

*__Editor's note—__Code of Virginia section 15.1-171.1 required a public hearing before a bond ordinance may be adopted.

authorizing such bonds or in a resolution adopted in connection with the sale of such bonds. But except as provided in clause (4) of this section no debt shall hereafter be contracted for a longer period than that of the probable life of the work or object for which the debt is to be contracted, to be determined by the director of public works and by him certified as hereinafter provided. In determining the probable life or probable average life of works or objects as hereinafter provided, the director of public works shall not deem the life of the following classes of work or objects to exceed the following periods, namely: Roadways of streets having, at the time the debt is contracted, railroad or street railway tracks thereon, fifteen years; roadways of all other streets, twenty years; school houses, thirty years; other public buildings, forty years; iron bridges, thirty years; concrete bridges, forty years; parks or other real estate, fifty years; and all other works or objects not hereinabove specified, thirty years. In the event that a debt shall be authorized for purposes falling within two or more of the above-named classes, it shall be the duty of the director of public works to determine and certify as hereinafter provided the probable average life of the works or objects for which said debt is contracted, taking into consideration the nature of said works or objects and the portion of said debt applicable to said works or objects, respectively. The words "probable life," as herein used, shall be construed to mean the length of time that will probably elapse before any particular improvement (assuming it to be kept in reasonable current repair) will reasonably require replacement.

(2) No bond, note or other obligation of the city shall hereafter be issued except as hereinafter provided in the case of temporary loans, unless and until there is filed with the city clerk a certificate from the director of public works in substantially the following form:

"I hereby certify that the probable life (or 'the probable average life') of the work or object (or 'the works or objects') for which the debt authorized by the ordinance entitled (naming it) is contracted is as great as the longest period fixed for the maturity of any obligation issued or to be issued under the same ordinance";

and the said certificate shall be conclusive.

(3) The maximum periods hereinabove fixed for the contracting of debts for the several purposes hereinabove set forth may be changed at any time by the General Assembly, or under its authority, as to any bonds to be issued after said change is made, and such change shall not be deemed to constitute an impairment of the obligation of the contract of the city as to any bonds theretofore issued.

(4) Notwithstanding any other provisions of this section the city may issue, without the certification of the director of public works above-mentioned, bonds, notes or other obligations for the purpose of refunding any obligations of the city at any time, whether or not prior to the maturity or earliest redemption date of the obligations to be refunded and including interest on the obligations to be refunded; but no such refunding bonds, notes or obligations shall be issued for a period which exceeds twenty-five years.

(5) Bonds issued by the city may be either serial bonds or term bonds. Serial bonds shall be payable in annual installments, the first of which shall be payable at any time within two years of the date of the bonds, and the last of which shall be payable within the period of probable life of the work or object for which the debt evidenced by said bonds was created, ascertained and certified as hereinabove provided. Such installments may be in amounts determined by the council either in the ordinance authorizing such bonds or in a resolution adopted in connection with the sale of such bonds. Unless otherwise provided by ordinance for bonds issued for the purposes of refunding of outstanding bonds of the city, no installment shall be greater than double the amount of the smallest. If term bonds are issued which mature prior to the first principal repayment date of an issue of serial bonds, the first annual installment of such serial bonds may be more than two years after the date of such bonds. Term bonds must be payable within the period of the probable life of the work or object for which the debt evi-

denced by said bonds was created, ascertained and certified as hereinabove provided; and the council, either in the ordinance authorizing such bonds or in a resolution adopted in connection with the sale of the bonds, shall establish a sinking fund into which deposits shall be made for the payment of the principal of such bonds, in such amounts and in such times as may be determined by the council so that such bonds will be fully retired either by redemption or by payment at maturity by the maturity date thereof.

(6) [Repealed.]

(7) All bonds issued after April 1, 1916, shall be paid at their respective maturities, and, except in the case of obligations of said city issued after April 1, 1916, and prior to the enactment of this Charter, which mature not more than three years from the date thereof, no refunding bonds shall be issued for the payment thereof; provided, however, that if for any reason there shall not at the time of the maturity of any such bonds be sufficient funds of said city available for the payment thereof, it shall be lawful for the city to borrow money and issue negotiable notes to the amount required to pay such maturing bonds, which bonds shall be paid out of taxes to be levied and collected within the three years next succeeding the year in which such notes were issued. The payment out of the proceeds of the sale of any bonds of temporary loans made in anticipation of the sale of such bonds shall not be deemed a refunding of such temporary loans within the meaning of this clause. If the council shall fail to make provision for the payment of any sinking fund installment required as to any bonds lawfully issued under this section, or of any installment of serial bonds lawfully issued under this section, and such default shall continue for sixty days, then, and in either of said events, the city treasurer shall, without further direction from the council, and notwithstanding any contrary direction from the council, pay such sinking fund or serial bond installments from moneys then in his hands, if sufficient; and, if not, then from the first moneys that shall come into his hands thereafter.

(8) Pending the issuance or sale of any bonds, notes or other obligations by this section authorized, or in anticipation of the receipt of taxes and revenues of the current fiscal year, or of either of the two fiscal years immediately preceding the current fiscal year, it shall be lawful for the city to borrow money temporarily and issue notes or other evidences of indebtedness therefor, and from time to time to renew such temporary loans to be ultimately repaid from the proceeds of said bonds, notes or other obligations, or from the city taxes and revenues, as the case may be; provided that such temporary loans, including all renewals thereof, if made pending the issuance or sale of bonds, notes or other obligations, issued under clause (5) hereof, shall not be made for a period greater than five (5) years, nor shall they exceed in the aggregate at any one time the amount of such bonds, notes or other obligations remaining unissued and unsold; and temporary loans made in anticipation of the receipt of taxes and revenues of any fiscal year including all renewals thereof, shall not be made for a period greater than the period ending two years after the expiration of such fiscal year and shall not exceed in the aggregate at any one time the uncollected portion of the taxes and revenues in anticipation of which such notes or other evidences of indebtedness are issued. All such temporary loans shall be evidenced by instruments upon the face of which there shall be plainly written "temporary loans." No such loan made pending the issuance or sale of bonds, notes or other obligations under the provisions of clause (5) hereof shall be valid unless the said bonds, notes or other obligations shall have been first legally authorized. The provisions of clauses (1) to (5) inclusive, of this section, shall not apply to said temporary loans.

(9) The credit of the city shall not, directly or indirectly, under any device or pretense whatsoever, be granted to or in aid of any person, association or corporation. The council shall not issue any bonds, notes or other obligations of the city, or increase the indebtedness thereof, to an amount greater than ten percent of the assessed valuation of the real estate in the city subject to taxation as shown by the last preceding assessment for taxation; provided, however, that in determining the limitation of the power of the city to incur indebt-

edness there shall not be included the classes of indebtedness mentioned in numbered subdivisions (1), (2), (3) and (4) of subsection (a) of section 10, article VII of the Constitution of Virginia.

(10) Bonds of the city, the principal and interest on which are payable exclusively from the revenues and receipts of a water system or other specific undertaking or undertakings from which the city may derive a revenue, or secured solely or together with such revenues, by contributions of other units of government, may be issued pursuant to the provisions of this Charter and any general law of the State of Virginia as the council may deem applicable with regard to the funds and revenues pledged, covenants by the city with regard to fees and charges and other matters required for the protection of bondholders, remedies of bondholders and appointment of a trustee as well as the right of such trustee to the appointment of a receiver. The provisions of clause (5) of this section shall not apply to such bonds and the ordinance authorizing such bonds shall not be subject to a vote of the qualified voters. Such bonds shall not be a debt of the city and the city shall not be liable thereon except to the extent set forth in the ordinance pursuant to which the bonds are authorized and in no event shall such bonds be payable out of any funds other than those referred to in such ordinance. The bonds shall not constitute an indebtedness within the meaning of any debt limitation or restriction.

(10a) Bonds pledging the full faith and credit of the city authorized by an ordinance enacted in accordance with article VII of the Constitution of Virginia and approved by the affirmative vote of the qualified voters of the city voting upon the question of their issuance, for a supply of water or other specific undertaking from which the city may derive a revenue, may be issued without being included in determining the limitation on indebtedness set forth in clause (9) of this section and in article VII, section 10 of the Constitution of Virginia, but from and after a period to be determined by the council not exceeding five years from the date of such election, whenever and for so long as such undertaking fails to produce sufficient revenue to pay for the cost of operation and administration (including interest on bonds issued therefor), the cost of insurance against loss by injury to persons or property, and an annual amount to be placed into a sinking fund sufficient to pay the bonds at or before maturity, all outstanding bonds issued on account of such undertaking shall be included in determining the limitation on indebtedness set forth in clause (9) of this section and in article VII, section 10 of the Constitution of Virginia.

(11) Every ordinance authorizing the issuance of bonds shall specify the purpose or purposes for which they are to be issued, the aggregate amount of the bonds, the term for which they shall be issued, and the rate or maximum rate of interest to be paid thereon. Any such ordinance may be amended by ordinance at any time before the bonds to be affected by such amendment have been sold. All other matters relating to such bonds may be determined by resolution, within the limitations prescribed by such ordinance or by this act.

(12) All bonds shall be under the seal of the city and shall be signed by the city treasurer or one of his deputies and by such other officer or officers of the city as may be designated in the ordinance authorizing the bonds. If such ordinance shall so determine, the officer or officers signing the bonds, other than the city treasurer or his deputy, may sign the bonds by their facsimile signatures, in lieu of manual signatures; but the signature of the city treasurer or his deputy on such bonds shall be in his own proper handwriting, provided that the treasurer may cause the bonds to be executed by a facsimile of his signature if a fiscal agent, transfer agent or registered agent is appointed with authority to manually authenticate each bond. Coupons attached to a bond shall be authenticated by the facsimile signature of the city treasurer. (Acts 1932, Ch. 93; Acts 1950, Ch 436; Acts 1964, Ch. 23; Acts 1972, Ch. 706, § 1; Acts 1983, Ch. 587, § 1; Acts 1988, Ch. 519, § 1)

Sec. 86(a). Serial bonds issued prior to 1952.

Notwithstanding anything contained in this Charter or in any other law, any serial bonds issued by said city prior to the first day of January, nineteen hundred and fifty-two, in accordance with subdivision (6) of section 86 of this Charter, may, in the discretion of the council, be made payable in annual installments, the first of which shall be payable in the fiscal year nineteen hundred and fifty-three and the last of which shall be payable within the period of the probable life, ascertained and certified as provided in said section 86, of the work or object for which the debt evidenced by said bonds is created. (Acts 1942, Ch. 99)

Sec. 86(b). Further provisions as to bond issues.

Any ordinance authorizing the issuance of bonds adopted pursuant to section 86 may specify one or more single specific objects or purposes as the purposes for which the bonds are to be issued and the maximum principal amount of bonds to be issued for each such specific object or purpose or may specify one or more classes of objects or purposes, each to be described in brief and general terms sufficient for reasonable identification, and the maximum principal amount of bonds to be issued for each such class of objects or purposes. Bonds authorized for a single specific object or purpose shall not be issued until an ordinance authorizing the carrying out of such object or purpose has been adopted and taken effect. Bonds authorized for a class of objects or purposes may be issued either before or after ordinances authorizing the carrying out of such objects or purposes have been adopted and taken effect, but none of the moneys raised by the issuance of the bonds issued for such class of objects or purposes shall be applied to the financing of an object or purpose included in such class of objects or purposes until an ordinance authorizing the carrying out of such object or purpose has been adopted and taken effect, and the aggregate amount of the moneys so applied shall not exceed the amount appropriated to said object or purpose and directed to be expended from the moneys raised by the issuance of the bonds authorized for such class of objects or purposes, either by said ordinance or by a resolution adopted by the council. (Acts 1956, Ch. 124)

Sec. 86(c). Use of facsimile seal on bonds.

Notwithstanding anything contained in this Charter bonds issued pursuant thereto need not be under the seal of the city, provided they bear a facsimile of such seal. (Acts 1956, Ch. 124)

Sec. 87. Special assessments.

All local or special assessments shall be made and collected by the director of finance under such regulations as the council may by ordinance prescribe.

Provision shall be made by ordinance for the method of levying and apportioning such special assessments, for the publication of plans, for serving notice upon the owners of property affected, and for giving to such owners an opportunity to be heard before final action on the assessment.

Any person affected by such special or local assessment may appeal from the decision of the director of finance as to any such assessment against him to the corporation [circuit] court of said city.

Sec. 87(a). [Repealed by Acts 1976, Ch. 599.]

Sec. 88. Levy for taxes.

All goods and chattels of any person against whom taxes for the city are assessed may be distrained and sold for said taxes when due and unpaid in the same manner and to the same extent that goods and chattels may be distrained and sold for state taxes.

A tenant by whom payment is made or from whom payment is obtained, by distress or otherwise, of taxes or levies due the city by a person under whom he holds, shall have credit for the same against such person out of the rents he may owe him, except when the tenant is bound to pay such taxes and levies by an express contract with such person. And where taxes or levies are paid to the city by any fiduciary on any estate in his hands or for which he may be liable, such taxes and levies shall be refunded out of the said estate.

Sec. 88(a). Assessment and equalization of assessments of real estate.

The council of said city shall have the right and power, in lieu of any other method prescribed by law, to provide for the annual assessment and reassessment of real estate for taxation, and to that end may appoint in the manner and for the term prescribed in § 11 of this Charter a single assessor to assess such real estate for taxation, may prescribe the duties and term of office of said assessor, may require that he shall give his entire time to the duties of his office, may remove him for cause, may fix his compensation, which shall be payable out of the local treasury, and may likewise provide for such technical and clerical assistance as may be necessary or advisable and for the payment of any other expenses that may be properly incident thereto. Such person as appointed shall be the city assessor and shall have such number of assistants as the council by ordinance may provide, such assistants to be nominated by him and confirmed by the council. Said annual assessments or reassessments shall be completed by said assessor by the thirty-first day of March of the year in which they are made.

All such real estate shall be assessed at its fair market value and the taxes for each year on such real estate shall be extended on the basis of the last assessment made prior to such year, subject to such changes as may have been lawfully made.

Notwithstanding any of the provisions of sections 58-895 and 58-899 to 58-901, inclusive, of the Code of Virginia, the circuit court of said city or the judge thereof in vacation shall, annually, appoint for the city a board of review of real estate assessments, to be composed of three members, who shall be freeholders of said city. The terms of such members shall commence on their appointment and shall expire on the thirtieth day of November of the year in which they are appointed unless such terms are extended. Such court or the judge thereof in vacation may extend the terms of the members of the said board of review and shall fill any vacancy therein for the unexpired term. The members of the said board shall receive per diem compensation for the time actually engaged in the duties of the board, to be fixed by the council of said city, and to be paid out of the treasury of said city, provided, however, that the council of said city may limit the per diem compensation to such number of days as, in its judgment, is sufficient for the completion of the work of the board.

Such board of review shall have and may exercise the power to revise, correct and amend any assessments of real estate made by said assessor in the year in which they serve, and to that end shall have all the powers conferred upon boards of equalization by sections 58-903 and [to] 58-912, inclusive, of the Code of Virginia. Notwithstanding any provision of said sections, however, the board of review may adopt any regulations providing for the oral presentation, without formal petitions or other pleadings of requests for review, and looking to the further facilitation and simplification of proceedings before the board.

Any person of said city aggrieved by any assessment made by said assessor or board of review may apply for relief in the manner provided by sections 58-1145 to 58-1151, inclusive, of the Code of Virginia.

This section shall not apply to the assessment of any real estate assessable under the law by the state corporation commission.
(Acts 1950, Ch. 488; Acts 1983, Ch. 587, § 1; Acts 1999, Ch. 479, § 1; Acts 1999, Ch. 525, § 1)

Sec. 88(b). Annual assessment, reassessment and equalization of real estate taxes.

Notwithstanding the August thirty-first date prescribed by section 88(a) of the Charter, in the event the council, pursuant to state law, provides that the assessment of real property whenever

made, except that of public service corporations which is assessed by the State Corporation Commission, shall become effective for city tax purposes on the first day of July of each year then the annual assessment or reassessment of such property shall be completed by the assessor by the last day of February of the fiscal year in which they are made.
(Acts 1968, Ch. 219)

Sec. 89. Lien for taxes, etc.

There shall be a lien on all real estate and on each and every interest therein for the city taxes assessed thereon, from the commencement of the year for which they were assessed and also for all local assessments which may be made thereon according to law. There shall also be a lien on any land or premises for the amount of expense incurred by said city in abating any nuisance thereon or cutting or removing weeds therefrom, after notice to the owner thereof by publication or otherwise as may be provided by ordinance; provided, however, that the lien for the amount of any such local assessment or for the expense of abating any nuisance or cutting or removing weeds from any premises shall not be good against a purchaser of such land or premises for value without notice except and until from the time that the same shall be docketed in a book or books kept for that purpose in the office of the city treasurer and indexed in the name of the person or persons owning such estate or land at the time the said lien accrued. The council may require such real estate in the city delinquent for the nonpayment of taxes, or assessments or expenses incurred as above provided, to be sold for said taxes or assessments or expenses, with interest thereon at the rate of six per centum per annum, and such percentage as may be prescribed for charges.

Secs. 90—97. [Repealed by Acts 1976, Ch. 599.]

Sec. 98. Sales for local assessments, etc.

The council may by ordinance provide the method of making sale of any lands, lots or premises for nonpayment of the amount of any local or special assessments thereon, or for the nonpayment of any expense incurred by the city in abating any nuisance thereon, or cutting or removing weeds therefrom as provided in section 89 hereof.

Sec. 99. Audit of official accounts.

Upon the death, resignation, removal or expiration of the term of any fiscal officer of the city, other than the director of finance, the director of finance shall make an audit and investigation of the accounts of such officer, and shall report the result thereof to the city manager and to the council. As soon as practicable after the close of each fiscal year an annual audit shall be made of all the accounts of all city officers, and upon the death, resignation, removal or expiration of the term of the director of finance, an audit shall be made of his accounts. Each commissioner, before entering upon the duties of his office, shall take the oaths prescribed by the Constitution of this state. Any vacancies in the commission shall be filled by election by the council for the remainder of the unexpired term.

Sec. 111. Classification.

The civil service commission shall classify all the offices and places of employment in the city with reference to the examinations hereinafter provided for, except those offices and places mentioned in section 114 of this Charter. The offices and places so classified by the commission shall constitute the classified civil service of the city, and no appointment to any such offices and places shall be made except according to the rules hereinafter mentioned.

Sec. 112. Rules.

The civil service commission shall prescribe, amend and enforce rules for the classified service, which shall have the force and effect of law, shall keep minutes of its proceedings and records of its examinations, and shall make investigations concerning the enforcement and effect of said rules. It shall make an annual report to the council.

No questions in any examination shall relate to political or religious opinions or affiliations. The commission shall control all examinations and may, whenever an examination is to take place, unless the same is to be conducted by the secretary, designate a suitable number of persons, either in or not in the official service of the city, to be examiners; and it shall be the duty of such examiners, and, if in the official service, it shall be a part of their official duty, without extra compensation, to conduct such examinations as the commission may direct, and to make return or report thereof to said commission, and the commission may at any time substitute any other person, whether or not in such service, in the place of any one so selected; and the members of the commission may themselves at any time act as examiners, and without appointing examiners.

Sec. 116. Suspension of competition.

In case of a vacancy in a position requiring peculiar and exceptional qualifications of a scientific, professional or expert character, upon satisfactory evidence that competition is impracticable and that the position can best be filled by the selection of some designated person of recognized attainments, the civil service commission may, after public hearing and by the affirmative vote of all three commissioners, suspend competition, and recommend to the appointing power the appointment of the person so selected, but no such suspension shall be general in its application to such position, and all such cases of suspension shall be reported, together with the reason therefor, in the annual report of the commission.

Sec. 117. Application to incumbents.

All persons in the city service who, at the time this Charter takes effect, hold positions in the classified service as established pursuant to the provisions hereof, shall be deemed to be on probation for six months from that date in accordance with paragraph (7) of section 112 hereof. The civil service commission shall maintain a list of all persons in the classified service, showing in connection with each name the position held, the date and character of every appointment and of every subsequent change in status. The head of each administrative department shall promptly transmit to the commission all information required for the establishment and maintenance of said list.

Sec. 119. Salaries to be paid only after certification.

Neither the city treasurer nor any other disbursing officer shall pay any salary or compensation for service to any person holding or performing the duties of a position in the classified service unless the persons paid shall have been appointed or employed and are performing service in accordance with the provisions of this Charter relating to civil service and of the rules established thereunder.

It shall be the duty of the civil service commission to furnish the treasurer and all other disbursing officers a list of all persons in the classified service, together with the changes from time to time.

Any taxpayer of the city may maintain an action in the name of the city in any civil court of record to recover in its behalf any sums paid contrary to the provisions of this section from the person or persons making such payment or to enjoin the payment of any sums of money in violation hereof.

Sec. 120. Political or religious discrimination prohibited.

Sec. 125. Annual report to be made to the council.

Within thirty days after the first day of January, nineteen hundred and twenty, and within thirty days after the first day of January of each succeeding year, the civil service commission shall make a report to the council showing its own action, the rules in force, the practical effects thereof, and any suggestions it may have for the improvement of the classified service. The council may require a report from said commission at any other time.

(Acts 1982, Ch. 289, § 1)

The clerk of the corporation [circuit] court of said city shall notify all persons elected by the people or appointed under this Charter of their election or appointment, and the city clerk shall notify all persons elected by the council of their election. If any person elected or appointed to any office in the said city shall for ten days after receiving notice of election fail to take such oaths and give such bonds, with security, as may be required by law or ordinance, he shall be considered as having declined said office and the same shall be deemed vacant and such vacancy shall be filled according to the provisions of this Charter.
(Acts 1982, Ch. 289, § 1; Acts 2021, Ch. 371, § 1)

All officers required by this Charter to give bond, and all officers, clerks and employees of whom bond is required by the council shall, before entering upon their respective duties, give bond with surety to be approved by the council, conditioned for the faithful performance of the duties of their respective offices, which bond, unless otherwise specially provided by this Charter, shall be payable to the said city, and in such penalty as the council may by ordinance prescribe. The council shall accept as surety on

any such official bond only a good, solvent surety or fidelity company authorized to do business in this State. The council may provide that the premium on any such bond shall be paid by the city. Unless otherwise specially provided in this Charter, all such bonds shall be filed with and preserved by the city clerk. The parties to bonds taken in pursuance of this section shall be subject to the same proceedings on said bonds for enforcing the conditions and terms thereof by motion or otherwise before the corporation [circuit] court or circuit court of said city, as are now or may hereafter be provided by law in the case of collectors of the county levy and the sureties on their bonds for enforcing payment of the county levies.

Sec. 135. [Repealed by Acts 1976, Ch. 599.]

Sec. 136. General laws to apply.

All general laws of the State applicable to municipal corporations now in existence or hereafter enacted and which are not in conflict with the provisions of this Charter or with ordinances or resolutions hereafter enacted by the council pursuant to authority conferred by this Charter shall be applicable to said city; provided, however, that nothing contained in this Charter shall be construed as limiting the power of the council to enact any ordinance or resolution not in conflict with the Constitution of the State or with the express provisions of this Charter.

Sec. 136(a). Procedure upon exercise of right of eminent domain.

In addition to the other powers conferred by law the city may, in exercising the right of eminent domain, make use of the procedure prescribed by the general law or may elect to proceed as hereinafter provided. In the latter event the ordinance directing acquisition of any property shall provide therein in a lump sum the total funds necessary to compensate the owners thereof for the property to be acquired or damaged. Upon the adoption of such ordinance the city may file a petition in the clerk's office of a court having jurisdiction, which shall be signed by the city manager and set forth the interest or estate to be taken in the property and the uses and purposes for which the property or the interest or estate therein is wanted; or when property is not to be taken but is likely to be damaged, the necessity for the work or improvement which will cause or is likely to cause such damage. There shall also be filed with the petition a plat of a survey of the property with a profile showing cuts and fills, trestles and bridges, if any, and a description of the property which, or an interest or estate in which, is sought to be taken or likely to be damaged and a memorandum showing names and residences of the owners and tenants of the property, if known, and showing also the quantity of property which, or an interest or estate in which, is sought to be taken or which will be or is likely to be damaged. There shall be filed also with the petition a notice thereof directed to the owners and tenants of the property, if known, copies of which shall be served on such owners as well as on the tenants of such property, if known. If any such person be unknown or a nonresident of the State or cannot with reasonable diligence be found in the State, or if his residence be unknown, he may be proceeded against by order of publication published once a week for two successive weeks in a daily newspaper published in the City of Norfolk, and shall be posted at a main entrance to the courthouse.

Upon the filing of the petition and the funds provided by the council for the purpose having been duly deposited to the credit of court, if the court is of the opinion that the property or interest or estate therein to be acquired is for the uses and purposes of the city as provided by law, it shall order that the interest or estate of the owner of such property shall terminate and the title of such property or the interest or estate to be taken in such property shall be vested absolutely in the city and such owner shall have such interest or estate in the funds so deposited as he had in the property taken or damaged and all liens by deed of trust, judgment or otherwise upon said property or estate shall be transferred to such funds and the city shall have the right to

enter upon and take possession of such property for its uses and purposes and to construct its works or improvements. The clerk of the court in which such proceeding is instituted shall make and certify a

copy of the order and deliver or transmit the same to the clerk of the court in which deeds are admitted to record, who shall record the same in his deed book and index it in the name of the record title owner of such property and in the name of the city, for which he shall receive the fees prescribed for recording a deed, which shall be paid by the city.

If the city and the owner of property so taken or damaged agree upon compensation therefor, upon filing such agreement in writing in the clerk's office of such court the court or judge thereof in vacation shall make such distribution of such funds as to it may seem right, having due regard to the interest of all persons therein whether such interest be vested, contingent or otherwise, and to enable the court or judge to make a proper distribution of such money it may in its discretion direct inquiries to be taken by a special commissioner in order to ascertain what persons are entitled to such funds and in what proportions and may direct what notice shall be given of the making such inquiries by such special commissioner.

If the city and the owner cannot agree upon the compensation for the property taken or damaged, if any, upon the filing of a memorandum in the clerk's office of said court to that effect, signed by either the city or the owner, the court shall appoint commissioners provided for in section 25-46.20 of the Code of Virginia, and shall in the order appointing such commissioners designate the day and hour for them to meet, and all proceedings thereafter shall be had as provided in sections 25-46.20 through 25-46.34 of the Code of Virginia insofar as they are then applicable and not inconsistent with the provisions of this section, and the court shall order the deposit in bank to the credit of the court such additional funds as appear to be necessary to cover the award of the commissioners or shall order the return to the city of such funds deposited that are not necessary to compensate such owners for property taken or damaged. The commissioners so appointed shall not consider improvements placed upon the property by the city subsequent to its taking nor the value thereof nor the enhancement of the value of the property by such improvements in making their award. Provided, however, that the provisions of section 25-233 of the Code of Virginia, as now or hereafter in effect, shall apply to any property belonging to any corporation possessing the power of eminent domain that may be taken hereunder.

Provided, however, that nothing herein contained shall give the said city the Authority to acquire by condemnation property belonging to another city or county. (Acts 1948, Ch. 233; Acts 1964, Ch. 62)

Sec. 137. Existing ordinances.

All ordinances and resolutions in force at the time of the taking effect of this Charter not inconsistent with its provisions shall continue in force until amended or repealed.

Sec. 138. Continuance of present officers.

Upon the taking effect of this Charter on the first day of September, nineteen hundred and eighteen, all members of the present council of said city, members of the board of control, and the mayor, shall go out of office and their respective offices shall be abolished. The judges of the several courts of said city, the clerks of such courts, the attorney for the Commonwealth, the commissioner of the revenue, the city treasurer and the city sergeant then in office shall continue in office to the end of the respective terms for which they were elected and until their respective successors shall have been elected and qualified. All other persons holding office in said city on the first day of September, nineteen hundred and eighteen, shall continue in office and in the performance of their duties until provision shall have been made in accordance with the provisions of this Charter for the performance or discontinuance of the duties of any such office. When such provision shall have been made the term of any such officer shall expire and the office shall be ipso facto abolished. In case of dispute, the council may by resolution declare when the functions and duties of any such office or position have been provided for and the said office or position abolished, and its decision thereon shall be final. The powers which are conferred and the duties which are imposed upon any officer, board, commission or department of the city under the laws of the State shall, if such

office, board, commission or department is abolished by this Charter, be thereafter exercised and discharged by the officer, board, commission or department upon whom are imposed corresponding functions, duties and powers under the provisions of this Charter.

Sec. 139. Continuance of contracts.

All contracts entered into by the city or for its benefit prior to the taking effect of this Charter shall continue in full force and effect. All public works begun prior to the taking effect of this Charter shall be continued and completed hereunder. Public improvements for which legislative steps shall have been taken under laws in force at the time this Charter takes effect may be carried to completion in accordance with the provisions of such laws.

Sec. 140. Hours of labor.

The council shall have power to provide by ordinance that on any public work carried on by the municipality, whether done by contract or otherwise, not to exceed eight hours a day shall constitute a day's work; but such ordinance shall not prevent persons who may be employed for one week or longer from making up lost time by working longer than eight hours in any one day; provided they are not required to work more than forty-eight hours in any one week, nor shall such ordinance apply in cases of emergency.

Sec. 141. Power to appoint boards or commissions of citizens.

The council may at the request of the city manager appoint boards or commissions, to be composed of such number of citizens regardless of sex, as the council may deem expedient, to act in an advisory capacity in conjunction with any one or more of the departments created or authorized hereby. The members of all such boards and commissions shall serve without compensation.

Sec. 142. Removal of members of boards and commissions.

The members of all boards and commissions, whose members are by this Charter elected or appointed by the council, may be removed by the council at any time for malfeasance or misfeasance or for failure or neglect to perform any of the duties of their respective offices or positions.

Sec. 143. Working prisoners.

Subject to the general laws of the State regulating the working of those convicted of offenses against the State, the council shall have the power to provide by ordinance for the employment or the working, either within or without the city limits, or within or without any city prison or jail, of all persons sentenced to confinement in said prison or jail for the violation of the laws of the State of Virginia or the ordinances of the City of Norfolk.

Sec. 143(a). Pension funds—Generally.

In addition to the other powers conferred by law, the council of said city shall have the right and power to establish and maintain, in such manner and to such extent and in such combination thereof as said council may deem desirable, a system or systems of pensions and retirement allowances for, and death benefits for the designated beneficiaries of, the officers and employees of said city, including policemen and firemen and such other officers and employees whose entire compensation is paid directly by said city but not to include officials elected by the people or the General Assembly, except that the council of said city may, in its discretion, include therein members of the city council, the city treasurer and the employees in that office, the commissioner of the revenue and the employees in that office, the city sheriff and the employees in that office, the clerks of the courts of record of the city and the employees in their respective offices, the Commonwealth's attorney of the city and the employees in that office, the employees in the welfare department of the city, and any person who becomes a State employee by virtue of an agreement between the city and the State, or any department, board or agency thereof, affiliating the city's department of public health with the State Health Department, provided such person was a city employee and a member of the employees' retirement system of the city on the effective date of any such agreement and does not elect, in writing, and within sixty days after the effective date of any such

agreement, to become a member of the State's retirement system, or any of them, and to that end, shall have authority to establish a fund or funds for the payment of such pensions, retirement allowances and death benefits by making appropriations out of the treasury of said city, by requiring contributions from time to time from those participating in any such system, or by any other mode not prohibited by law, or by any combination of said methods, to make rules and regulations for the management, investment and administration of such fund or funds, and the payment of such pensions, retirement allowances and death benefits, and to do all such other things that may be deemed necessary or advisable to carry into effect the provisions of any such system or systems.

The pensions accruing and to accrue to any such officer or employee or to the beneficiary thereof, under any such system, and the accumulated contributions, securities, moneys and assets of any such fund, are hereby exempted from State, county and municipal taxation to the extent permitted by other law, and shall not be subject to execution, attachment or garnishment, or any other process whatsoever, and shall be unassignable except as provided by a regulation of such system.

The council shall have the continuing right and power to amend at any time any ordinance adopted pursuant to the provisions hereof, which right and power is expressly reserved to them, but no such amendment shall be adopted which will reduce the then accrued benefits of such officers and employees and beneficiaries covered by any such system or systems below to the extent they may be then covered by accumulative reserves in any such fund or funds, which shall constitute a trust fund or funds for the payment of such benefits.

The inclusion in the system of pensions, retirement allowances and death benefits heretofore established by the city of any of the officers or employees embraced within the provisions of this section as above amended, but not embraced within the provisions thereof prior to the above amendment, by an ordinance effective January 1, 1954, are hereby authorized, ratified and confirmed, and said ordinance shall have the same force and effect as if this section had become effective on January 1, 1954.

In addition to the foregoing powers the council is hereby authorized to make the necessary appropriation for supplemental payments to retired city employees or to other persons retired under a city pension system. Such payments are in addition to their regular retirement benefits. The amount, manner and terms and conditions of payment shall be as the council may prescribe. In so doing, the council may create or designate classes of the foregoing persons and may distinguish with respect to the amount of payment or otherwise between such classes. No person or class of persons receiving such supplemental payment shall have any vested interest in the same beyond the fiscal year in which the appropriation for such payment is made.

If the council so determines, it may transfer all right, title and interest of such additional lands or interest in lands to said Authority or such other authority or body politic on such terms and conditions as said council may prescribe, reserving to the city a reversionary interest in such additional lands or interest in lands if the council so determines. Sec. 144(f). Bonds—Power to issue.

The Authority shall have the power to borrow money on either a short-term or a long-term basis and to issue from time to time its notes, bonds and other evidences of debt payable on such terms, conditions and provisions as in its discretion may be advisable, for any of its corporate purposes, including the payment or retirement of bonds, notes or other evidences of debt previously issued by it. The cost of carrying out its corporate purposes shall include discount on bonds, cost of issuance of bonds, engineering and inspection costs and legal expenses, costs of financial, professional and other estimates, advice, administrative, operating and other expenses of the Authority prior to and during acquisition or construction including the payment of interest on bonds during the period of construction and for not exceeding one year thereafter and also such provision or reserves for working capital, operating, maintenance or replacement expenses or for payment or security of principal of and interest on bonds during and after such acquisition or construction as the Commissioners of the Authority may determine, and also reimbursements to the city of Norfolk or to any other person or corporation on account of any moneys therefore expended for the purpose of the Authority. The Authority may issue such types of bonds as it may determine, including (without limiting the generality of the foregoing) bonds payable, both as to principal and interest:

(1) from its revenues generally;

(2) exclusively from the income and revenues of a particular "facility"; which term shall mean a particular building or structure or particular buildings or structures including all equipment, appurtenances and accessories necessary or appropriate for the operation of such facility; or

(3) exclusively from the income and revenues of certain designated facilities whether or not they are financed in whole or in part from the proceeds of such bonds. Any such bonds may be additionally secured by a pledge of any grant or contributions from the federal government, Commonwealth of Virginia, or City of Norfolk, or a pledge of any income or revenues of the Authority, or a mortgage, deed of trust, or other lien of any particular facility or facilities or other property of the Authority.

Except as to provisions of subsection (6) of section 144(c), the power to issue bonds shall not be exercised prior to July 1, 1950.

Whenever in this or other sections relating to the power of the Authority to issue its bond or bonds, the term "bond" or "bonds" is used, it shall be construed to mean and embrace its bonds, notes or other evidences of debt or any other obligations of said Authority.
(Acts 1948, Ch. 463; Acts 1968, Ch. 196; Acts 1970, Ch. 484; Acts 2007, Ch. 193, § 1)

Sec. 144(g). Same—Liability.

Neither the commissioners of the Authority nor any person executing the bonds shall be liable personally on the bonds by reason of the issuance thereof. The bonds and other obligations of the Authority (and such bonds and obligations shall so state on their face) shall not be a debt of the Commonwealth or any political subdivision thereof and neither the Commonwealth nor any political subdivision thereof nor the city of Norfolk shall be liable thereon, nor in any event shall such bonds or obligations be payable out of any funds or properties other than those of the Authority. The bonds shall not constitute indebtedness within the meaning of any debt limitation or restriction. Bonds of the Authority are declared to be issued for an essential public and governmental purpose and to be public instrumentalities.
(Acts 1948, Ch. 463; Acts 2007, ch. 193, § 1)

Sec. 144(h). Same—Provisions.

(1) Bonds of the Authority shall be authorized by resolutions adopted by the Board of Commissioners and may be issued in one or more series and shall bear such date or dates, mature at such time or times, bear interest at such rate or rates, may be sold at such price, be in such denomination or denominations, be in such form, either coupon or registered, carry such conversion or registration privileges, have such rank or priority, be executed in such manner, be payable in such medium of payment, at such place or places, and

be subject to such terms of redemption (with or without premium) as such resolution or its trust indenture or mortgage may provide. The bonds may be sold at public or private sale.

(2) Issuance by the Authority of one or more series of bonds for one or more purposes shall not preclude issuing other bonds in connection with the same facility or any other facility, as may be authorized by the provisions of the bond resolution, trust indenture or mortgage. Any bonds of the Authority at any time outstanding may from time to time be refunded by the Authority by the issuance of its refunding bonds in such amount as the Board of Commissioners may deem necessary.

(3) If the proceeds derived from a particular bond issue due to error of estimates or otherwise shall be less than the cost of the Authority facilities for which such bonds were issued, additional bonds may in like manner be issued to provide the amount of such deficit, and unless otherwise provided in the proceedings authorizing the issuance of the bonds of such issue or in the trust indenture securing the same, shall be deemed to be of the same issue and shall be entitled to payment from the same fund without preference or priority of the bonds of the first issue. If the proceeds of the bonds of any issue shall exceed such costs, the surplus may be deposited to the credit of the sinking fund for such bonds or may be applied to the payment of the cost of any additions, improvements or enlargements of the Authority facilities for which such bonds shall have been issued.

(4) Prior to the preparation of definitive bonds, the Authority may, under like restriction, issue interim receipts or temporary bonds, with or without coupons, exchangeable for definitive bonds when such bonds shall have been executed and are available for delivery. Bonds may be issued under the provisions of this section without obtaining the consent of any department, division, commission, board, bureau or agency of the Commonwealth, and without any other proceedings or the happening of any other conditions or things other than those proceedings, conditions or things which are specifically required by this section, provided, however, that nothing contained in this section shall be construed as affecting the powers or duties now conferred by law upon the State Corporation Commission.

(5) The bonds issued pursuant to this section shall be and are hereby declared to be legal and authorized investments for banks, savings banks, trust companies, building and loan associations, insurance companies, fiduciaries, trustees, guardians and for all public funds of the Commonwealth of Virginia or other political corporations or subdivisions of the Commonwealth. Such bonds shall be eligible to secure the deposit of any and all public funds of cities, towns, counties, school districts or other political corporations or subdivisions of the Commonwealth of Virginia, and such bonds shall be lawful and sufficient security for said deposits to the extent of their value when accompanied by all unmatured coupons appertaining thereto.
(Acts 1948, Ch. 463; Acts 1970, Ch. 484; Acts 2007, Ch. 193, § 1)

Sec. 144(i). Same—Validity.

In case any of the commissioners or officers of the Authority whose signatures appear on any bonds or coupons shall cease to be such commissioners or officers before the delivery of such bonds, such signatures shall, nevertheless, be valid and sufficient for all purposes, the same as if such commissioners or officers had remained in office until such delivery. Any provision of any law to the contrary notwithstanding, any bonds issued pursuant to this act shall be fully negotiable within the meaning and for all the purposes of Chapter 233 of the Code of Virginia.
(Acts 1948, Ch. 463; Acts 2007, ch. 193, § 1)

Sec. 144(j). Same—Powers of authority with respect to securing payment.

In order to secure the payment of such bonds or other obligations the Authority shall have power by provision or provisions included in any resolution authorizing such bonds or in any indenture made to secure their payment:

(1) To pledge all or any part of its gross or net rents, fees or revenues to which its right then exists or may thereafter come into existence.

(2) To mortgage all or any part of its real or personal property, then owned or thereafter acquired.

(3) To covenant against pledging all or any part of its rents, fees and revenues, or against mortgaging all or any part of its real or personal property, to which its right or title then exists or may thereafter come into existence or against permitting or suffering any lien on such revenues or property; to covenant with respect to limitations on its right to sell, lease or otherwise dispose of any facility or any part thereof; and to covenant as to what other, or additional debts or obligations may be incurred by it.

(4) To covenant as to the bonds to be issued and as to the issuance of such bonds in escrow or otherwise, and to the use and disposition of the proceeds thereof; to provide for the replacement of lost, destroyed or mutilated bonds; to covenant against extending the time for the payment of its bonds or interest therein; and to redeem the bonds, and to covenant for their redemption and to provide the terms and conditions thereof.

(5) To covenant as to the rents and fees to be charged in the operation of a facility or facilities, the amount to be raised each year or other period of time by rents, fees and other revenues, and as to the use and disposition to be made thereof; to create or to authorize the creation of special funds for moneys held for construction or operating costs, debt service, reserves, or other purposes, and to covenant, as to the use and disposition of the moneys held in such funds.

(6) To prescribe the procedure, if any, by which the terms of any contract with bondholders may be amended or abrogated, the amount of bonds the holders of which must consent thereto and the manner in which such consent may be given.

(b) In preparing a supplement to this Code, all portions of the Code which have been replaced shall be excluded from the Code by the omission thereof from reprinted pages.

(c) When preparing a supplement to this Code, the codifier (meaning the person, agency or organization authorized to prepare the supplement) may make formal, nonsubstantive changes in ordinances and parts of ordinances included in the supplement, insofar as it is necessary to do so to embody them into a unified code. For example, the codifier may:

(1) Organize the ordinance material into appropriate subdivisions;

(2) Provide appropriate catchlines, headings and titles for sections and other subdivisions of the Code printed in the supplement, and make changes in such catchlines, headings and titles;

(3) Assign appropriate numbers to sections and other subdivisions to be inserted in the Code and, where necessary to accommodate new material, change existing section or other subdivision numbers;

(4) Change the words "this ordinance" or words of the same meaning to "this chapter," "this article," "this division," etc., as the case may be, or to "sections —to—" (inserting section numbers to indicate the sections of the Code which embody the substantive sections to the ordinance incorporated into the Code); and

(5) Make other nonsubstantive changes necessary to preserve the original meaning of ordinance sections inserted into the Code; but in no case shall the codifier make any change in the meaning or effect of ordinance material included in the supplement or already embodied in the Code.

The city clerk shall provide, without charge, copies of such codes and copies of such ordinances to officials of the city who require the same and to such public agencies as, in the city clerk's opinion, should receive free copies. (a) All members of the classified and unclassified service, except employees in the department of fire-rescue assigned to twenty-one (21) day work cycles and work schedules of a minimum of one hundred fifty-six (156) hours during such cycles, shall be credited with one work day of sick leave with pay for each full month employed by the city, whether such employment occurs before or after the effective date of this section. Credit for such leave shall be computed by multiplying the employee's usual scheduled monthly work hours, based upon an average monthly work period of twenty-two (22) days, by .04545455. Fire-rescue employees assigned to twenty-one (21) day work cycles shall be credited with

twelve (12) hours of sick leave for each full month of service. In the event an employee does not work a full month, he or she shall be entitled to a proportionate period of leave, computed by multiplying the number of hours actually worked by .0532544. Periods of leave without pay shall not be counted for the purposes of accumulation of sick leave with pay. Such sick leave, if not used as hereinafter provided, may be cumulative without limit to any number of work days.

(b) When, any member of the classified or unclassified service is absent due to his own sickness, visits to licensed health care providers for examination or treatment, or the sickness or health care provider visits of immediate family members or immediate household members, he shall be compensated at his regular rate of pay for each work day absent, up to and including the total number of work days of sick leave previously accumulated as provided in (a) above. Sick leave used during work hours for visits to doctors, dentists and other licensed health care providers requires prior permission from an immediate supervisor. "Immediate family members," for purposes of this section, are defined as parents, spouses, children, siblings, and legal wards. Relatives by adoption and step relatives in the described relationships are also immediate family members. "Immediate household members" are defined, for the purposes of this section, to mean relatives, either by blood, adoption, or marriage, who permanently reside in the employee's primary residence. "Parents" are defined, for the purposes of this section, to include the natural or adoptive parents of an employee.

(c) All leave because of sickness shall be substantiated by a certificate from a physician if requested by the head of the department. Periods of leave without pay shall not be counted for the purpose of accumulation of sick leave with pay. All sickness resulting in absence in excess of three (3) consecutive work days shall be reported to the director of human resources.

(d) The sick leave bank authorized by this subsection shall continue for those employees entered before July 25, 2022, but no new members shall be added. The sick leave bank is a voluntary cooperative program by which employees who have accumulated no less than ten (10) sick leave days pursuant to this section, and newly hired employees who have accumulated one (1) day of sick leave credit pursuant to this section, within the first two (2) months after employment, may voluntarily, at their sole option, contribute sick leave credit to a "sick leave bank," and thereby become eligible, under specific circumstances and regulations, to be granted the use of additional sick leave from the aggregate voluntarily contributed by employees. This leave may only be used for the participating employee's illness. The city manager, with regard to the sick leave bank established previously, hereby is authorized and directed to prescribe regulations for the administration of such system, and may discontinue such program at any time. Under no circumstances shall the city incur any expense or make any contribution respecting leave accumulated in a "sick leave bank" or be responsible for the funding of any sick leave other than that earned by individual employees pursuant to this section. The city's undertaking regarding such program shall be strictly limited to the administration of the program.

(e) Pursuant to section 15.2-1605 of the Code of Virginia, 1950, as amended, any Constitutional officer may choose for their employees to forgo the sick leave provisions guaranteed by section 15.2-1605 and execute an agreement to bring them under the personnel leave policies of the City of Norfolk regarding sick leave except that the accumulated sick leave of such employees shall have no financial value and shall be forfeited upon termination of employment. Upon approval of such an agreement by council by ordinance and its subsequent execution by that constitutional officer, their employees shall accrue and accumulate sick leave at the same rate as employees of the City of Norfolk.

Sec. 2-50.1. Paid family leave.

(a) *In general.* All members of the classified and unclassified services of the city shall be eligible for paid family leave (hereinafter "PFL") upon the occurrence of a qualifying event not exceeding a total of six (6) workweeks or two hundred forty (240) hours (or 312 hours for sworn fire-rescue employees who work a 52-hour workweek). No employees shall be eligible for such leave more than one time within the 12-month period beginning with the occurrence of a qualifying event. When granted, PFL shall run concurrently with leave granted pursuant to the Federal Family and Medical Leave Act, statute and regulations, as amended (hereinafter "FMLA") and the city manager's Policy and Administrative Regulations Manual concerning FMLA, including but not limited to Policy 4.11, as amended (hereinafter "Policy 4.11").

All requests for PFL are subject to the conditions set out in this section and final approval by the department of human resources. PFL shall be granted to city employees regardless of race, ethnicity, religion, gender, gender identity, sexual orientation, marital status, or any other status protected by the laws of the United States or the Commonwealth of Virginia law, or the ordinances of the city council. PFL leave shall consist of PFL—Bonding leave and PFL—Family member leave.

(b) *PFL—Bonding leave.* PFL—Bonding leave may be used for parent-child bonding in relation to child birth, adoption or foster care placement events that are approved under the FMLA and Policy 4.11. PFL—Bonding leave shall only be granted for one of the following reasons:

(1) Bonding with a child, starting with the date of birth, where the city employee is the birthing parent, except that PFL cannot be taken during the same time period that the birthing employee is receiving any type of short-term disability or sick leave bank benefits following the birth of a child.

(2) Bonding with a child, starting with the date of birth, where the city employee is not the birthing parent but the birthing parent and child reside with the city employee and the birthing parent is the spouse through marriage or domestic partner of the city employee.

(3) Bonding with a child placed with the city employee as a result of adoption, or foster placement where the child is younger than age eighteen (18), starting with the date of adoption or foster care placement.

(c) *PFL—Family member leave.* PFL—Family member leave may be used to care for a qualifying immediate household member or family member with a serious health condition as defined in the FMLA and Policy 4.11. For the purposes of PFL—Family member leave, qualifying immediate family members and immediate household members are defined as:

(1) "Immediate family members" are city employees' parents (natural, adoptive or foster), spouses or domestic partners, children, siblings, and legal wards. City employees' relatives by adoption, step-relatives and foster families in the described relationships are also "immediate family members."

(2) "Immediate household members" are city employees' relatives, either by blood, adoption, or through a marriage or domestic partner, who are not "immediate family members" but permanently reside with city employees in their primary residence.

(d) *Employee eligibility—Initial conditions.* To be considered for any type of PFL, an eligible city employee must first be approved for FMLA leave and must have:

(1) Worked for the city for at least twelve (12) months; and

(2) Worked for the city at least one thousand two hundred fifty (1,250) hours over the past twelve (12) months.

(e) *Employee eligibility—Additional conditions.* In addition to any other conditions upon eligibility, to be eligible for any type of PFL, city employees must meet the following conditions:

(1) City employees must submit required documentation in accordance with the FMLA and Policy 4.11. When granted PFL it shall run concurrently with FMLA leave.

(2) An eligible city employee who is the birthing, non-birthing, adoptive, or foster parent of a child may use PFL—Bonding leave for the purposes of bonding with that child.

(3) An eligible city employee may use PFL—Family member leave for the purposes of assisting and responding to a qualifying family member with a serious illness or injury.

(4) An eligible city employee may not use any type of PFL benefits for his or her own health condition(s).

(5) When granted, PFL leave of any type must be taken within the 12-month period of the qualifying event. This 12-month period is measured the same as the 12-month period for qualifying absences under the FMLA and Policy 4.11.

(6) Requests for any type of PFL leave must be submitted and approved in the same manner as other types of leave, but in the case of PFL leave thirty (30) days' advance notice is required. The director of human resources may waive this deadline where unique circumstances prevent the employee from meeting it.

(7) A city employee may not be absent from work beyond twelve (12) weeks in total while utilizing any type of PFL leave in combination with any other type of leave.

(8) PFL leave may be used intermittently if requested and approved under the FMLA and Policy 4.11. If taken intermittently, such leave must be taken in full day increments up to a total of six (6) workweeks or two hundred forty (240) hours (three hundred twelve (312) hours for sworn fire-rescue employees who work a 52-hour workweek). If the employee requires additional leave once the 6-week PFL leave is exhausted, they must use their accrued leave.

(9) An eligible city employee may not use flexible or alternative work schedules beyond scheduled working hours to adjust PFL leave.

(10) An eligible city employee may not telework when on PFL leave.

(11) All types of PFL leave are provided with the continuation of group health insurance coverage under the same terms and conditions as if the employee had not taken leave.

(12) No type of PFL leave may accrue after a city employee's separation from employment. All previously granted PFL leave and PFL leave compensation ends upon a city employee's separation from employment. Upon a city employee's separation from employment, unused PFL leave is lost. It shall not be paid out in the form of terminal leave under section 2-54 of the City Code, as amended, nor shall it be counted as creditable service towards retirement under section 37-41 of the City Code, as amended, or any similar sections of the City Code.

(13) If both parents are employed by the city and meet all other eligibility criteria, each employee is separately entitled to up to six (6) weeks of paid PFL leave.

(f) *Notice and certification.*

(1) *Employee notice.*

a. A city employee seeking to use any type of PFL leave must provide thirty (30) days' advance notice of such leave, unless that deadline is waived by the director of human resources pursuant to other subsections of this section.

b. A city employee must provide such initial notice to his or her supervi-

sor and the department human resources, using forms provided by human resources.

c. Required PFL forms must be submitted to the department of human resources along with required FMLA leave forms for each qualifying event.

d. If the city employee is unable to provide thirty (30) days' notice, he or she must provide such notice as soon as is practical along with a request for a waiver, generally, either the same or next business day and must comply with their department's specific call-in procedures.

e. Absent unusual circumstances, a waiver from the director of human resources, city employees requesting any type of PFL leave must comply with all the city's procedural requirements for requesting leave.

(2) *Employer notice.* The city shall simultaneously notify the employee of its approval or disapproval of both the PFL leave request, and the underlying FMLA leave request that is the PFL leave request is conditioned on.

Such emergency leaves of absence shall not be deducted from leave of absence accumulated in accordance with the provisions of section 2-49.

(Code 1958, § 2-20.1)

(c) Civil leave, not to exceed one (1) hour, may also be granted for the purpose of voting in any local, state or federal election, when it is established that normal working hours would otherwise prevent such activity.

(1) *Worker's compensation wage payments.* Worker's compensation wage payments shall be paid to an employee in such amounts and upon such terms and conditions as provided for under the provisions of the Act. Such payments are

based upon two-thirds (2/3) of the employee's average weekly wage, as defined in the Act, and shall neither exceed the statutory maximum nor fall below the statutory minimum amount established within the Act. If the employee qualifies for and elects to receive a normal service, early service, ordinary disability or accidental disability retirement allowance under the provisions of Chapter 37 of this Code, such allowance shall be offset in accordance with section 37-77 thereof.

(2) *Supplemental payments.* Supplements to worker's compensation wage payments shall be limited to those supplements provided for under the provisions of the Act, and to the following supplements for which an employee receiving worker's compensation wage payments shall be eligible so long as the employee does not resign, retire, abandon or be suspended without pay from or discharged from city employment, and so long as the employee's worker's compensation wage payments are not terminated, suspended, abandoned, relinquished or lump-sum settled under the provisions of the Act:

(ii) Following said six-month period, the employee may elect, in writing, to use accrued compensatory time, sick leave, and/or annual leave to fund a continuation of said weekly supplement amount. Accrued compensatory time and leave benefits shall be charged off at the rate of one-third of a day for each full day that the employee continues to receive worker's compensation wage payments, or at such higher rate as is necessary to maintain the difference between the employee's worker's compensation wage payment and the employee's weekly net pay, until such compensatory time and accrued leave benefits are exhausted, at which time all supplement amounts shall cease to be paid to the employee.

(iii) A city employee who has sustained an occupational injury or contracted an occupational disease which is determined to be compensable under the provisions of the Act, but who, under the provisions of Virginia Code section 65.1-62, fails to qualify to receive worker's compensation wage payments for time missed from work as a result of said injury or disease during the first seven (7) calendar days following total incapacity therefrom, shall receive an amount equal to the employee's daily net pay, determined on a pro rata basis, for each day missed from work during said seven-day period. The term "daily net pay" is defined to mean the employee's daily gross pay as determined under the compensation plan in effect on the first date of such incapacity, less federal tax, social security tax and state tax deductions required by applicable law.

(3) *Medical treatment.* Medical treatment shall be provided to an employee to such extent and upon such terms and conditions as provided for under the provisions of the Act.

(b) The city manager, acting himself or through an authorized designee, shall have the authority and he is directed, in compliance with and subject to the provisions of the Act, to determine which employee applications for worker's compensation are compensable, and he is directed to authorize payment pursuant to such employee applications from funds appropriated therefor by the council.

Such payments shall not be contingent upon the continued establishment or maintenance of such a fund.

(d) Payments shall only be made to the extent a claim or judgment is not covered by a volunteer's private insurance, or other applicable insurance providing coverage, it being the specific intent of this section that any payment by the city be conditioned upon the absence of any applicable insurance coverage and that any undertaking by this section be secondary to any such applicable insurance coverage, and only if the claim or claims resulted from actions which:

(1) Were done in good faith; and

(2) Were done in the reasonable belief that such actions were in furtherance of the official practices and policies of the city; and

(l) Determinations (1) whether the defense of a particular civil legal proceeding is required under this section, (2) whether the volunteer is eligible for legal representation, (3) whether payment is required or prohibited under this section and (4) whether the volunteer has satisfied the requirements and conditions imposed upon him by this section will be made by the city attorney in his discretion. ARTICLE X. CLASSIFIED SERVICE—LIMITED COMPETITION FOR INITIAL APPOINTMENT AND PROMOTION—PROCEDURES

DIVISION 1. EMERGENCIES

Sec. 2.1-69. Emergency initial appointments and promotions within the classified service.

(a) *Policy.* The council hereby grants the city manager power only for use when emergencies require the city manager to fill vacant positions by initial appointment or promotion within specific classification specifications making up the classified service of the city as established by Sections 110 through 113 of the City Charter, as amended.

(b) *Authority.* This section authorizes the city manager in such emergencies, subject to the restrictions included within this section, to ignore the requirements of the City Charter and the Rules of the Civil Service Commission governing initial appointment into positions within the classified service, including but not limited to those applicable to the creation of eligible lists and the appointment or promotion of applicants off those lists.

(c) *Limitations on authority.* Such powers are granted pursuant to section 2.1-1 of this Code, as amended, and section 15.2-1131 of the Code of Virginia, 1950, as amended. Such powers shall not extend to the initial appointment of applicants into recruit or sworn classified positions within the departments of police and fire-rescue. However, such powers shall extend to promotions within sworn classified positions in those two departments.

(d) *Justification of emergency action.* The exercise of this power may be justified for various reasons or combinations of reasons resulting in emergency circumstances, including but not limited to a sustained health emergency affecting the ability to fill positions within specific classifications within the classified service, such as the continuing COVID-19 pandemic beginning in the United States in approximately January of 2020.

(e) *Written declaration of emergency circumstances.* The city manager or appropriate designee, such as the director of human resources, shall initiate an emergency action instituted pursuant to this authority with a written statement as to the nature of the emergency dictating the necessity to exercise the power granted by this section. This statement shall include the specific beginning and ending dates for such emergency actions. No such emergency action shall be for more than three months. Each emergency action declared pursuant to this section shall list all classifications within the classified service whose positions will be subject to initial appointment or promotion under the emergency action. The list of classifications subject to initial appointment or promotion under the emergency action may be amended in writing up to the beginning date of the emergency action and during it as necessary. The written declaration required by this subsection shall constitute conclusive evidence that the declared emergency qualifies for the use of the authority granted in this section.

(f) *Procedures to be competitive to the extent practicable.* In exercising the power granted by this section and initiating an emergency action pursuant to this section, the city manager shall to the maximum extent practicable follow competitive principles in choosing amongst applicants for initial appointment or promotion. However, the city manager is authorized to waive competition entirely where circumstances preclude it, such as the promotion of all members within a classification specification to positions in another classification specification. Examinations conducted pursuant to this power shall be practical in their character and related to those matters which will fairly test the relative capacity of the persons examined to discharge the duties of the positions to which they seek to be appointed. The city manager is hereby authorized to promulgate regulations governing procedures for these appointments and promotions consistent with this section.

(g) *Probationary period.* All applicants appointed or promoted into positions within classification specifications of the classified service of the city pursuant to the authority of this section shall serve a probationary period of twelve (12) months.

(h) *Exclusions.* In addition to the exclusion above regarding initial appointments but not promotions to sworn positions, this section shall not apply to initial appointments or promotions to positions excluded from the classified service by section 114 of the City Charter, as amended, or to initial appointments or promotions to positions excluded from both the classified and unclassified service by section 114.1 of the City Charter, as amended.

ARTICLE I. GENERAL PROVISIONS

Sec. 6.1-1. Violations of chapter; penalties.

Unless otherwise provided, a violation of any provision of this chapter shall constitute a class 1 misdemeanor. Each day's continuance of the violation shall constitute a separate offense. In addition to any penalties imposed by the court for any violation of this chapter, the court may require that restitution be paid to the city for any costs expended for investigation, handling, care, housing or medical care for the animals. (Ord. No. 39,717, § 2, 8-31-99)

Sec. 6.1-2. Definitions.

The following words as used in this chapter shall have the following meanings:

Abandon means to desert, forsake, or absolutely give up an animal without having secured another owner or custodian for the animal or by failing to provide the elements of basic care as set forth in Virginia Code, Section 3.2-6503, as amended, for a period of four (4) consecutive days.

Adequate care or *care* means the responsible practice of good animal husbandry, handling, production, management, confinement, feeding, watering, protection, shelter, transportation, treatment, and, when necessary, euthanasia, appropriate for the age, species, condition, size and type of the animal and the provision of veterinary care when needed to prevent suffering or impairment of health.

Adequate exercise or *exercise* means the opportunity for the animal to move sufficiently to maintain normal muscle tone and mass for the age, species, size, and condition of the animal.

Adequate feed means access to and the provision of food which is of sufficient quantity and nutritive value to maintain each animal in good health; is accessible to each animal; is prepared so as to permit ease of consumption for the age, species, condition, size and type of each animal; is provided in a clean and sanitary manner; is placed so as to minimize contamination by excrement and pests; and is provided at suitable intervals for the species, age, and condition of the animal, but at least once daily, except as prescribed by a veterinarian or as dictated by naturally occurring states of hibernation or fasting normal for the species.

Adequate shelter means provision of and access to shelter that is suitable for the species, age, condition, size, and type of each animal; provides adequate space for each animal; is safe and protects each animal from injury, rain, sleet, snow, hail, direct sunlight, the adverse effects of heat or cold, physical suffering, and impairment of health; is properly lighted; is properly cleaned; enables each animal to be clean and dry, except when detrimental to the species; and, for dogs and cats, provides a solid surface, resting platform, pad, floormat, or similar device that is large enough for the animal to lie on in a normal manner and can be maintained in a sanitary manner. Under this chapter, shelters whose wire, grid, or slat floors (i) permit the animals' feet to pass through the openings, (ii) sag under the animals' weight, or (iii) otherwise do not protect the animals' feet or toes from injury are not adequate shelter.

Adequate shelter for animals kept outdoors must comply with the following standards:

(1) The shelter must be a well-constructed structure with a roof, enclosed sides, one of which must contain an entry way and a solid, level floor raised at least two (2) inches from the ground. The entry way openings shall not comprise an entire side of the structure.

(2) The shelter must have no cracks or openings other than the entrance.

(3) The shelter must be small enough to allow an animal to warm the interior of the structure and maintain body heat, but large enough to allow the animal to stand, turn and lie down.

(4) Between November 1 and March 31 and whenever the real or effective temperature is forty-five (45) degrees Fahrenheit or lower, the entryway must be protected by a self-closing door, an offset outer door, or a flexible flap, and a sufficient amount of dry bedding material must be provided to insulate against cold and damp.

(5) The shelter must be placed where it will be adequately shaded in hot weather and protected from the wind in cold weather.

Adequate space means sufficient space to allow each animal to (i) easily stand, sit, lie, turnabout, and make all other normal body movements in a comfortable, normal position for the animal and (ii) interact safely with other animals in the enclosure. When an animal is tethered, "adequate space" means a tether that permits the above actions and is appropriate to the age, size, and health of the animal; is attached to the animal by a properly applied collar, halter, or harness configured so as to protect the animal from injury, with enough room between the collar and the dog's throat through which two (2) fingers may fit, and prevent the animal or tether from becoming entangled with other objects or animals, or from gaining access to public thoroughfares, or from extending over an object or edge that could result in the strangulation or injury of the animal; weighs not more than one-eighth (⅛) of the body weight of the animal tethered; and is at least ten (10) feet in length or three (3) times the length of the animal whichever is longer, as measured from the tip of its nose to the base of its tail, except when the animal is being walked on a leash or is attached by a tether to a lead line. When freedom of movement would endanger the animal, temporarily and appropriately restricting movement of the animal according to professionally accepted standards for the species is considered provision of adequate space.

Adequate water means provision of and access to clean, fresh, potable water of a drinkable temperature which is provided in a suitable manner, in sufficient volume, and at suitable intervals, appropriate for the weather and temperature, to maintain normal hydration for the age, species, condition, size and type of each animal, except as prescribed by a veterinarian or as dictated by naturally occurring states of hibernation or fasting normal for the species; and is provided in clean, durable receptacles which are accessible to each animal and are placed so as to minimize contamination of the water by excrement and pests or an alternative source of hydration consistent with generally accepted husbandry practices.

Sec. 6.1-81.1. Procedural requirements to obtain summons for dangerous and vicious animals.

Any animal control officer or any deputy animal control officer who has reason to believe that a canine or canine crossbreed within the city is a dangerous or vicious animal as defined in this chapter shall apply to a magistrate of the city for the issuance of a summons requiring the owner or custodian, if known, to appear before the general district court at a specified time. The summons shall advise the owner or custodian of the nature of the proceeding and the matters at issue. The animal control officer shall confine the animal until such time as evidence shall be heard and a verdict rendered. If the animal control officer determines that the owner or custodian can confine the animal in a manner that protects public safety, he may permit the owner or custodian to confine the animal until such time as the evidence is heard and verdict rendered. The court hearing the case, through its contempt powers, may compel the owner,

custodian or harborer of the animal to produce the animal. If after hearing the evidence, the court finds that the animal is a dangerous animal, the court shall order the animal's owner or custodian to comply with the provisions of section 6.1-80. If after hearing the evidence, the court finds that the animal is a vicious animal, the court shall order the animal euthanized pursuant to the requirements of section 6.1-81(c).

ARTICLE V. AUTHORITY FOR SEIZURE, IMPOUNDMENT, RECLAMATION AND DISPOSITION OF ANIMALS

Sec. 6.1-82. Authority to impound animals found within city limits.

(a) The animal control officer is hereby authorized to seize and impound any animal suspected of:

(1) Suffering a direct or immediate threat to its life, safety or health which the owner or custodian has failed or refused to remedy;

(2) Being abandoned or at large;

(3) Being cruelly treated;

(4) Being unlicensed;

(5) Being used for gaming or other illegal activity;

(6) Being a dangerous animal in violation of section 6.1-80;

(7) Being a vicious animal in violation of section 6.1-81;

(8) A violation of section 6.1-8;

(9) A violation of section 6.1-10;

(10) A violation of any other state or federal law or regulation concerning animals; or

(11) A violation of section 6.1-76.

(b) Any animal seized pursuant to this section will be impounded at the animal care and adoption center or at another city-designated facility. Animals requiring specialized veterinary or other care may be impounded at another city-designated facility. Any expense incurred in seizure or impoundment including, but not limited to, boarding, veterinary care, or license fee is the responsibility of the owner or custodian of the animal and becomes a lien on the animal impounded and must be discharged before the animal is released from the facility. The city is not required to hold the seized animal for a period longer than thirty (30) days from the date of the seizure unless a bond as provided for in section 6.1-94 has been posted. In the event no bond has been posted, at the expiration of the thirty-day period, the animal may be disposed of, unless the city is holding the animal pursuant to section 6.1-83(d)(2)(e). In those cases, the city shall hold the seized animal until the conclusion of the litigation under the jurisdiction of state or federal laws related to the animal being prohibited or endangered, unless otherwise ordered by the court or circumstances of section 6.1-83(e) apply. The expenses incurred during impoundment without bond shall still be the responsibility of the owner or custodian of the animal, and become a lien of the animal impounded that must be discharged before release.

(c) The impoundment of any animal pursuant to this section is in addition to any other remedy, action, or process available for any violation of this chapter.
(Ord. No. 39,717, § 2, 8-31-99; Ord. No. 42,466, § 11, 11-21-06; Ord. No. 45,824, § 7, 12-16-14; Ord. No. 47,832, § 1, 11-26-19; Ord. No. 49,155, § 11, 4-25-23)

Sec. 6.1-83. Notice and hearing for temporary impoundment and notice for seizure.

(a) Written notice of the impoundment of any animal seized pursuant to section 6.1-82 will be given to the identifiable owner or custodian of the animal at the time of seizure. If the owner or custodian is not on the premises from which the animal is seized, notice shall be posted upon the door or other structure in plain view. If such owner or custodian can not be located or identified, written notice shall be given to any family member or person sixteen (16) years old or older residing at the owner's or custodian's last known

address; by posting of the notice at the owner's or custodian's last known address or at the site of the seizure; or by delivery or facsimile to the owner's or custodian's last known place of employment.

(b) The written notice of the seizure shall contain the following information:

(1) The time, date and place of the hearing;

(2) Basic identification of the animal seized;

(3) A written statement of the factual circumstances for seizing and impounding the animal;

(4) Notice of the owner's or custodian's financial obligation for the board, necessary medical care, and costs incident to seizure of the animal and that a lien may be placed against the owner or custodian for such costs; and

(5) Notice of the owner's right to surrender all property rights to the seized animal and thereby avoid incurring further costs after such surrender.

(c) A seizure hearing shall be conducted by the animal control officer as soon as practicable after the seizure but in no event earlier than forty-eight (48) hours after the seizure notice has been issued. The purpose of the seizure hearing is to determine whether such animals should continue to be impounded or whether such animal can be safely returned to the owner, custodian or other interested party before final disposition of any suspected violation of state, federal or local law pursuant to which such animal was impounded. The owner or the custodian shall be permitted to attend the hearing to present information concerning the violation.

(d) The animal control officer may make either of the following determinations within five (5) working days of the seizure hearing regarding the continued necessity of impounding the seized animal:

(1) The seized animal(s) can be returned to the owner, custodian or other individual under the conditions set by the animal control officer for one of the following reasons:

a. The owner or custodian has provided evidence to the animal control officer that such owner or custodian can provide adequate care, for the seized animal or any number of seized animals pending the court hearing on any violation related to the animal(s) in a manner in which will ensure public safety. Animals will be returned to their owner or custodian upon payment of the boarding, medical care, and license fees incurred during seizure and impoundment by the city and upon bail set for the safe keeping of the animal(s) pending the trial of the criminal matters. Any animal returned pursuant to this subsection will be required to be kept in the city limits and available for inspection by the animal control officer until any criminal matter has concluded; or

b. Another interested party has provided adequate evidence of ownership of the animal(s) and can provide adequate care, for the animal(s) in a manner which will ensure public safety; or

c. A private veterinarian or kennel facility will continuously board the animal(s) at the owner's or custodian's expense pending the conclusion of any criminal matters. Such veterinarian must be appropriately licensed to board animals and must provide written agreement to board such animal(s) under the conditions set by the court. Seized animals will be released to such a private veterinarian or kennel facility upon payment by the owner or custodian of all boarding, medical care, license and related seizure expenses incurred by the city and arrangement by the owner or

custodian to have such animal transported to the boarder. Failure to pay the private veterinarian or kennel facility shall constitute a violation of the conditions of the pre-trial release of the animal(s) by the court. All expenses due to the boarder shall be a private matter between the owner or custodian and the boarder. The city shall not be held responsible for any such costs.

(2) The seized animal(s) cannot be returned to the owner or custodian and should be retained by the city or other authority for boarding or other disposition for one of the following reasons:

a. The owner or custodian has not provided adequate evidence that the animal(s) seized can be safely returned to the owner or custodian pending the final disposition of any criminal violations related to such animal(s); or

b. The owner or custodian will be incarcerated and unable to provide for the animal(s); or

c. The owner or custodian has not appeared at the seizure hearing after notice was given or posted upon the premises; or

d. The animal(s) seized will require veterinary treatment, care or rehabilitation beyond the abilities of the city's animal management center or other facility to provide pending the court hearing on any violation related to the animal(s) and the owner or custodian has not provided evidence of the ability to provide adequate care for such animal(s) and to ensure public safety; or

e. Such animal(s) comes under the jurisdiction of state or federal laws related to endangered or prohibited animal(s); or

f. The animal(s) is prohibited within the jurisdictional limits of the city.

(e) Nothing in this section shall prohibit the immediate humane destruction or euthanasia of any seized animal which is unweaned, critically ill or injured, suspected of being rabid, or which attacks another person or animal while being seized or impounded.
(Ord. No. 39,717, § 2, 8-31-99)

Sec. 6.1-84. Disposition of vicious and feral animals found at large.

Any vicious or feral animal found at large in the city which, because of its disposition or diseased condition, is too hazardous to apprehend may be destroyed when so ordered by the animal control officer. Any vicious or feral animals found to be at large on Virginia Zoological park property may be destroyed by authorized Virginia Zoological personnel.
(Ord. No. 39,717, § 2, 8-31-99; Ord. No. 49,155, § 12, 4-25-23)

Sec. 6.1-85. Confinement and disposition of stray animals.

(a) All stray animals seized by the animal control officer shall be impounded at the city animal care and adoption center or other designated facility. The owner or custodian of the animal shall be responsible for all costs of seizure, impoundment, board and veterinary care for the seized animal. Such costs shall become a lien against the owner or custodian and must be discharged prior to release of the animal. Costs and fees of impoundment may be reduced or waived at the discretion of the city animal care and adoption center or other designated facility.

(b) It shall be unlawful for any person to harbor or keep a stray or an ownerless animal for more than forty-eight (48) hours without notifying the animal protection unit. This does not apply to a free-roaming cat caregiver.

(c) An animal confined pursuant to subsection (a) shall be kept for a period of not less than five (5) days, such period to commence on the day immediately following the day the animal is initially confined in the facility, unless sooner claimed by the rightful owner thereof. The animal control officer shall make a reasonable effort to ascertain whether the animal has a collar, tag,

license, tattoo, or other form of identification. If such identification is found on the animal, the animal shall be held for an additional five (5) days, unless sooner claimed by the rightful owner. If the rightful owner of the animal can readily be identified, the animal control officer shall make a reasonable effort to notify the owner of the animal's confinement within the next forty-eight (48) hours following the confinement.

(d) If the rightful owner claims the animal prior to the expiration of the holding period, such owner shall be charged the actual expenses incurred in impoundment and keeping of the animal. Any person claiming to be the owner of an impounded animal shall provide adequate proof of ownership prior to redeeming the animal. It shall be unlawful for any person to present false evidence of ownership in order to redeem or gain possession of an impounded animal. Violations of this subsection shall constitute a class 1 misdemeanor.

(e) The fee for redeeming an animal shall be fifteen dollars ($15.00) for the first twenty-four (24) hours or any part thereof and ten dollars ($10.00) per day thereafter to cover the cost of maintaining and safekeeping the animal. Fee for large livestock or animals requiring special handling shall be fifteen dollars ($15.00) per twenty-four (24) hours plus any transportation, boarding and other fees incurred by the city in keeping such animals. Owners or custodians of an impounded animal shall be responsible for any medical cost related to such animal. Said fees may be waived at the discretion of the animal control officer.

(f) If any animal confined pursuant to this section is not claimed by its rightful owner upon expiration of the holding period, such animal shall be deemed abandoned and will become the property of the city. If such abandoned animal did not bear any form of identification when delivered to the animal management center, such animal may be humanely destroyed or disposed of by:

(1) Sale or gift to a federal agency, state-supported institution, agency of the commonwealth, or agency of another state, provided that such agency, or institution is not engaged in animal research and agrees to confine the animal for an additional period of not less than five (5) days;

(2) Delivery to any humane society or animal shelter within the commonwealth;

(3) Adoption by any person provided the animal is spayed or neutered prior to adoption;

(4) Adoption by a resident of a neighboring political subdivision of the commonwealth; or

(5) Delivery, for the purposes of adoption, another live outcome or euthanasia to a humane society or an animal shelter located in and lawfully operating under the laws of another state, provided that such humane society or animal shelter: a) maintains records which would comply with Virginia Code, section 3-796.105; b) requires that adopted dogs and cats be sterilized; and c) has been approved by the State Veterinarian or his designee as a facility which maintains such records, requires adopted dogs and cats to be sterilized, and provides adequate care and euthanasia.

If such abandoned animal did bear a form of identification when delivered to the animal management center, such animal may be humanely destroyed or disposed of only by the methods set forth in paragraphs (2) through (5) above.

(g) No provision herein shall prohibit the immediate destruction of a critically injured or critically ill animal for humane purposes. Any animal destroyed pursuant to the provisions of this section shall be euthanized by one of the methods prescribed or approved by the State Veterinarian. Neither shall any provision in this section prohibit the immediate destruction, for humane purposes, of any animal not weaned, whether or not the animal is critically injured or critically ill.

(h) Nothing in this section shall prohibit the immediate destruction or disposal by the methods listed in subsection (g) of an animal that has

been delivered voluntarily or released to the city animal management center by the animal's rightful owner after the rightful owner has, in writing, surrendered all property rights in such animal and has read and signed a statement which: 1) certifies that no other person has a right of property in the animal; 2) certifies that the animal has not exposed any person in the last twenty (20) days; and 3) acknowledges that the animal may be immediately euthanized or disposed of by the methods listed in subsection (g).

(i) Free-roaming cats shall not be impounded as a stray animal pursuant to this section unless ill, injured, or under sixteen (16) weeks of age. If a free-roaming cat is inadvertently impounded as a stray animal, it may be immediately returned to the location it was found or to the free-roaming cat caregiver of that cat.

ARTICLE VI. MANDATORY STERILIZATION OF DOGS AND CATS ADOPTED FROM CITY ANIMAL MANAGEMENT CENTER

Sec. 6.1-86. Sterilization of adopted dogs and cats.

A dog or cat shall not be released for adoption from the SPCA, the animal care and adoption center, any humane society or animal shelter unless the animal has already been sterilized, except that an individual may adopt an animal before it has been sterilized if its health may be jeopardized by sterilization.

(a) Should the animal not be sterilized for the exception allowed in this section, the individual adopting the animal shall, at the time of adoption:

1. Sign an agreement to have the animal sterilized through the releasing agency or by a licensed veterinarian within thirty (30) days after the date of the agreement;

2. Deposit with the SPCA, the animal care and adoption center, or any animal shelter from which the dog or cat is adopted, a fee set by the releasing agency, in the amount that it would charge to sterilize the animal. The deposit will be remitted to the adopting individual, if the adopted animal is sterilized by a licensed veterinarian, upon receipt of a written confirmation signed by the veterinarian who performed the sterilization.

(b) Violations of subsection (a) of this section shall constitute a class 4 misdemeanor.

(c) Upon the petition of the animal control officer to the general district court, the court may order the individual adopting the animal to take any steps necessary to comply with the requirements of this article. This remedy shall be exclusive of and in addition to any civil or criminal penalty which may be imposed under this chapter.

(d) Any person giving false information in the adoption of an animal pursuant to this section, including misrepresentation of spaying or neutering, shall be guilty of a class 1 misdemeanor.

(e) The animal control officer shall have the authority necessary to administer this section efficiently, including, but not limited to, the implementation of subsection (a).

(f) All fees forfeited for failure to sterilize any animal adopted from the animal management center shall be deposited into a special fund for care and treatment of animals held at the animal management center.

a. The date of the agreement;

b. The names, addresses, and signatures of the releasing agency and the new owner;

c. A description of the dog or cat to be adopted;

d. The date by which the dog or cat is required to be sterilized; and

e. A statement printed in conspicuous, bold print, that sterilization of the dog or cat is required under this article; that a person who violates this article is subject to a criminal penalty; and that the new owner may be compelled to comply with the provisions of this article.

(Ord. No. 39,717, § 2, 8-31-99)

Sec. 6.1-88. Sterilization confirmation.

Each new owner who signs a sterilization agreement shall, within seven (7) days of the sterilization, cause to be delivered or mailed to the animal control officer written confirmation signed by the veterinarian who performed the sterilization. The confirmation shall describe the dog or cat; include the new owner's name and address; certify that the sterilization was performed; and specify the date of the procedure. Violations of this section shall constitute a class 4 misdemeanor.

If an adopted dog or cat is lost or stolen or dies before the animal is sterilized and before the date by which the dog or cat is required to be sterilized, the new owner shall, within seven (7) days of the animal's disappearance or death, notify the animal control officer of the animal's disappearance or death. Violations of this section shall constitute a class 4 misdemeanor.

(Ord. No. 39,717, § 2, 8-31-99)

Sec. 6.1-90. Exemptions to mandatory sterilization

The provisions for mandatory sterilization shall not apply to:

a. An owner reclaiming his dog or cat from the city animal management center;

Editor's note—Ord. No. 40,801, § 1, repealed § 6.1-91, which pertained to the releasing agency; fees and deposits and derived from Ord. No. 39,717, § 2, adopted Aug. 31, 1999.

ARTICLE VII. ANIMAL WELFARE BOARD OF REVIEW

Sec. 6.1-92. Creation of animal welfare board.

(a) For the purposes of hearing appeals as provided by this chapter of the Norfolk City Code, there is hereby established in the city a board to be called the animal welfare board of review. Such board shall consist of five (5) members: the chief of police or his designee; the director of public health or his designee; and the Superintendent of the Virginia Zoological Park or his designee; and two (2) citizens appointed by council. Members of the animal protection unit or the department of public health's rabies team may not serve on the board.

(b) The chief of police or his designee shall serve as the chairperson of the animal welfare board of review.

(c) Three (3) concurring votes shall be necessary for a decision by the animal welfare board of review at any hearing or meeting. The board may establish rules and regulations for its own procedures.

(Ord. No. 39,717, § 2, 8-31-99)

Sec. 6.1-93. Appeals to the board.

(a) Appeal to the animal welfare board of review may be taken of any decision by the animal control officer denying a permit required by this chapter, revoking a permit issued pursuant to this chapter, or the impoundment of any animal pursuant to this chapter. Notice of appeal shall be in writing and filed with the animal

control officer within five (5) days of said decision. The animal control officer shall forward such appeal, along with a copy of his decision and all papers pertaining thereto, to the animal welfare board of review within two (2) working days of receipt.

(b) The animal welfare board of review, after hearing, may affirm, modify or reverse the decision of the animal control officer. The board shall act within ten (10) working days of receipt of the notice of appeal. Every decision shall be final, subject to such remedy as any aggrieved party might have at law or at equity. Such decision shall be in writing and shall indicate the vote on the decision. Every decision shall be filed in the office of the chief of police, shall be open for inspection and a copy thereof delivered to the appellant.

(c) The animal(s) which constitute the subject of the appeal will remain impounded by the animal control officer pending the decision of the board and any appeal to a court of competent jurisdiction. The owner shall bear the cost of board and care of any animal impounded.
(Ord. No. 39,717, § 2, 8-31-99)

Sec. 6.1-94. Posting of bond for boarding of animals.

(a) Any owner or custodian of an animal seized and impounded by the animal control officer for violations of this chapter shall post a bond, cash or surety for the cost of impoundment, boarding and medical costs of any animal which is held for longer than ten (10) days after impoundment. The bond shall be for a period of thirty (30) days.

(b) Such bond or security shall not prevent the animal control officer from disposing of such animal at the end of the thirty-day period covered by the bond or security unless (i) the person claiming an interest posts an additional bond, cash or corporate surety, with the city treasurer to secure payment of reasonable expenses for additional thirty-day periods and does so prior to the expiration of the previous thirty-day period; (ii) the city is holding the animal pursuant to section 6.1-83(d)(2)(e). In those cases, the city shall hold the seized animal until the conclusion of the litigation under the jurisdiction of state or federal laws related to the animal being prohibited or endangered, unless otherwise ordered by the court or circumstances of section 6.1-83(e) apply. The expenses incurred during impoundment without bond shall still be the responsibility of the owner or custodian of the animal, and become a lien of the animal impounded that must be discharged before release.

(c) The amount of the bond shall be determined by the animal control officer based on the current rate for board and medical condition of the animal as determined by the animal control officer.

(d) At the conclusion of the case, the bond shall be forfeited to the city unless there is a finding that the owner is able to adequately provide for such animal and is a fit person to own the animal. If the animal is returned to the owner or another individual despite a violation of this chapter, the person posting the bond will be entitled to receive the bond less the incurred costs of boarding, medical care and impoundment of the animal.

(e) If a cash bond is paid to the city treasurer and a judicial determination is made that the owner or custodian was not in violation of this chapter and also that the owner or custodian can adequately provide for such animal and is a fit person to own the animal, the person posting the cash bond shall be entitled to a refund of the cash bond from the treasurer. If the court finds that the animal may be released to the owner or another individual despite any violation of this chapter, the person posting the bond will be entitled to a return of the cash bond less the incurred costs of boarding, medical and impoundment.

(a) *Generally.* For the purposes of this article, certain words and phrases shall have the meanings ascribed to them in this section:

Air gap means the unobstructed vertical distance through a free atmosphere between the lowest perimeter of a water outlet and the flood level rim of any receptacle. This distance will be a minimum of one inch or two (2) times the diameter of the outlet. In case of near-walls, this distance will be three (3) times the diameter of the outlet.

Auxiliary supply means any water source or system other than the public water supply that may be available in the building or premises.

Backflow means the reversal of flow from its intended direction as a result of backsiphonage or backpressure.

Backsiphonage means the reversal of the normal direction of flow in a system caused by negative pressure (vacuum or partial vacuum) in the supply line.

Backpresssure means the condition existing when the pressure within a system exceeds the supply pressure and tends to create backflow.

Code official means the executive official in charge of inspections and administering the Virginia Uniform Statewide Building Code (USBC) as defined in Section 1041 of the USBC, or his designated agent.

Contamination means any introduction into potable water of toxins, micro-organisms, wastes, wastewater, undesirable chemicals, gases or other substances as may be deemed harmful by the director of utilities or the code official.

Existing ground level means the level above which surface water will not accumulate under normal conditions.

Flood-level rim means the top edge of the receptacle over which water could overflow.

Hazard means any condition, device or practice in the water usage system and its operation which creates or reasonably tends to create a danger to the health and wellbeing of the water customer.

Readily accessible means that which enables a fixture, appliance or equipment to be directly reached without requiring the removal or movement of any panel, door or similar obstruction.

Reduced pressure zone (RPZ) backflow preventer means an assembly of differential valves and check valves, including an automatically opened spillage port to the atmosphere, designed to prevent backflow.

Service connection means the terminal end of a service line from the waterworks. If a meter is installed at the end of the service, then the service connection means the downstream end of the meter.

Service line means that portion of the waterline from the consumer's side of the water meter to the first water outlet.

Sec. 11.1-112. Inspections generally; notice to correct defects.

The code official shall inspect the plumbing in every building or premises in the city as frequently as may be necessary at reasonable times to ensure that such plumbing has been installed and is maintained in such a manner as to prevent the possibility of pollution or contamination of the public water supply. The code official shall notify or cause to be notified, the owner, occupant or authorized agent of the owner of any such building or premises to correct, within a time set by the code official, any plumbing installed or existing contrary to or in violation of this article and which may create the risk of pollution of the city water supply or otherwise adversely effect the public health, which shall be corrected within the time set by the code official.
(Ord. No. 40,553, § 1, 12-11-01)

Sec. 11.1-113. Termination of service to uninspected premises.

Should any owner refuse to allow the code official access to the premises for the purpose of conducting an inspection, or should the code official not be able to contact the owner for purposes of obtaining permission to inspect and the code official has cause to believe that a cross-connection hazard exists in the subject premises and such hazard jeopardizes the integrity or the purity of the city water supply, the code official shall request the director of utilities to terminate the water service to the subject premises.
(Ord. No. 40,553, § 1, 12-11-01)

Sec. 11.1-114. General design installation and maintenance standards for potable water supply system.

A potable water supply system shall be designed, installed and maintained in such a manner as to prevent contamination from nonpotable liquids, solids or gases, either harmful or benign, from being introduced into the potable water supply through cross-connections or any other piping connections to the system. This shall be accomplished by protecting every water outlet from the potable water system which poses a possible cross-connection. Wherever such outlets cannot be protected in accordance with the minimum air gap, a mechanical device shall be utilized to prevent backflow from backsiphonage or backpressure. The appropriate device shall be determined by code official, in cases where water usage is sufficiently complex or the severity of the hazard warrants, the director or his representative may require an air gap or backflow prevention device immediately downstream from tile service connection or at a point approved by the code official. The code official shall have authority to promulgate rules, standards and regulations regarding the design installation and the maintenance of any system or connection.
(Ord. No. 40,553, § 1, 12-11-01)

Sec. 11.1-115. Service line protection.

Whenever it is determined by the code official that the potential hazard within any premises requires isolation from the system, an approved

backflow preventer shall be installed on the service line. Whenever continuous service is imperative, a pair of backflow preventers shall be installed in parallel.
(Ord. No. 40,553, § 1, 12-11-01)

Sec. 11.1-116. Protective devices for fire service systems.

(b) In systems such as those referred to in subsection (a) which have booster pumps installed in the connection from the waterworks, provision shall be made to avoid lowering the pressure at the connection below ten (10) psi.

(c) Systems with direct connections to the waterworks, which are comparable to the systems described in subsections (a) and (b), must provide an air gap or a reduced pressure zone backflow preventer.

(d) Systems having direct connections to the waterworks and interconnections to auxiliary supplies, such as pumps taking suction from raw water sources, exposed storage tanks, industrial water supplies, connections to unapproved ground waters, or to which antifreeze or other chemicals are added, or other applications as determined by the code official or director of utilities must be protected by an air gap or a reduced pressure zone backflow preventer.

(e) Systems having direct connections to the waterworks from buildings having combined industrial and fire systems, either with or without storage tanks or pump connections, must provide an air gap or a reduced pressure zone backflow preventer.
(Ord. No. 40,553, § 1, 12-11-01; Ord. No. 43,836, § 1, 5-18-10)

Sec. 11.1-117. Low-pressure cutoff for booster pumps installed in the potable water system.

A low-pressure cutoff switch shall be installed on all booster pumps on potable water pressure booster systems in such a manner as to maintain a minimum pressure of ten (10) psi on the suction side of the pump.

(a) The director of the department of public works. or his designee, shall review and approve erosion and sediment control plans and issue land-disturbing permits in cases of land-disturbing activity in public rights-of-way and drainage easements, and in cases of installation of stormwater best management practices and other construction projects managed by the director of the department of public works which result in land-disturbing activity.

(b) Except as otherwise provided in paragraph (a) above, the director of city planning or his designee, shall review and approve erosion and sediment control plans and issue land-disturbing permits. Additionally, where site plan review is required as provided for in the zoning ordinance of the City of Norfolk, as amended, an erosion and sediment control plan shall be submitted to the bureau of zoning services in the department of city planning when the site plan is submitted. The erosion and sediment control plan shall be

forwarded for review and approval to the manager of the bureau of environmental services, or authorized agent, as part of the site plan review process. The manager of the bureau of environmental services, or authorized agent, may review and approve the erosion and sediment control plan and issue a land-disturbing activity permit prior to site plan approval.

(c) The manager of the bureau of environmental services may develop, in consultation with the code official, standardized agreements in lieu of a plan for land-disturbing activities. The code official, or authorized agent, shall have authority to utilize agreements in lieu of a plan without additional approval by the manager of the bureau of environmental services. When approved, the agreement in lieu of a plan shall be deemed to be the land-disturbing activity permit.

In addition, as a prerequisite to engaging in the land disturbing activity shown on the approved plan, the person responsible for carrying out the plan shall provide the name of a responsible land disturber, who will be in charge of and responsible for carrying out the land-disturbing activity, in accordance with the approved plan.

(e) The plan shall be acted upon within thirty (30) days from receipt thereof by either approving said plan in writing or by disapproving said plan in writing and giving specific reasons for its disapproval. When the plan is determined to be inadequate, the appropriate city official, as set forth in paragraphs (b) through (d) above, shall specify such modifications, terms, and conditions that will permit approval of the plan. If no action is taken within thirty (30) days, the plan shall be deemed approved and the person authorized to proceed with the proposed activity.

(f) An approved plan may be changed or modified when:

(1) The inspection reveals that the plan is inadequate to satisfy applicable regulations; or

(2) The person responsible for carrying out the approved plan finds that because of changed circumstances or for other reasons the approved plan cannot be effectively carried out, the proposed amendments to the plan, consistent with the requirements of this article, are agreed to by the appropriate city official, or his designee, and the person responsible for carrying out the plan.

(g) In order to prevent further erosion, the manager of the bureau of environmental services, or authorized designee, may require an erosion and sediment control plan for any land identified as an erosion impact area.

(h) Upon approval, the erosion and sediment control plan shall become a permit document and shall be a condition precedent to issuing a building permit. The applicant's signing of the permit shall be prima facie evidence of his acceptance of such conditions.

(i) Where land-disturbing activities involve lands under the jurisdiction of more than one local control program, an erosion and sediment control plan may, at the option of the applicant, be submitted to the soil and water conservation board for review and approval rather than to each jurisdiction concerned.

(j) When the land-disturbing activity will be required of a contractor performing construction work pursuant to a construction contract, the preparation, submission and approval of an erosion and sediment control plan shall be the responsibility of the owner.

(k) Electric, natural gas and telephone utility companies, interstate and intrastate natural gas pipeline companies and railroad companies shall file general erosion and sediment control specifica-

tions annually with the board for review and written comments. The specifications shall apply to:

(1) Construction, installation or maintenance of electric, natural gas and telephone utility lines, and pipelines: and;

(2) Construction of the tracks, rights-of-way, bridges, communication facilities and other related structures and facilities of the railroad company.

Individual approval of separate projects within subdivisions (1) and (2) of this subsection is not necessary when board approved specifications are followed, however, projects included in subdivisions (1) and (2) must comply with board approved specifications. Projects not included in subdivisions (1) and (2) of this subsection shall comply with the requirements of the City of Norfolk erosion and sediment control program.

(b) The appropriate city official, as set forth in section 15-8, prior to issuing a permit, may require any applicant to submit a reasonable performance bond with surety, cash bond, letter of credit, any combination thereof, or such other legal arrangement acceptable to the appropriate city official to ensure that measures could be taken by the City of Norfolk at the applicant's expense should he fail, after proper notice, within the time specified, to initiate or maintain appropriate conservation action. Upon such failure by the permittee, the City of Norfolk may collect from the permittee the difference should the amount of the reasonable cost of such action exceed the amount of the security held. Within sixty (60) days of the achievement of adequate stabilization of the land-disturbing activity, such bond, cash bond, letter of credit, or other legal arrangement, or the unexpended or unobligated portion thereof, shall be refunded to the applicant or terminated. These requirements are in addition to all other provisions relating to the issuance of such permits and are not intended to otherwise affect the requirements for such permits.

(c) On and after July 1, 2024, no land disturbing activity permit or building permit shall be issued until the applicant provides proof of project registration and permit coverage under the General Virginia Pollutant Discharge Elimination System (VPDES) Permit for Discharges of Stormwater from Construction Activities or other permit required by law for regulated land disturbing activities requiring permit coverage.

The right of inspection shall be inherent in the issuance of a permit and shall be deemed a condition of the permit.

(Ord. No. 38,347, § 1, 5-14-96; Ord. No. 39,340, § 1, 10-20-98)

The stop work order shall be served in person or by registered or certified mail on the owner, permittee or person engaging in land-disturbing activity. The stop work order shall remain in effect until corrective action is completed. Once corrective action is completed to the satisfaction of the appropriate city official, as specified in section 15-10, or their authorized agent, the stop work order shall be lifted. Violation of a stop work order, or failure to comply with the terms of a stop work order, shall be deemed a separate violation. ARTICLE IV. FIRE PREVENTION CODE

Sec. 17.1-43. Adoption.

The Virginia Statewide Fire Prevention Code (as periodically amended) and the referenced standards contained therein, as hereinafter amended, amplified, supplemented and modified in this article, is hereby adopted as the fire prevention and life safety code for the city and will be referred to and may be cited as the "fire prevention code." A copy of the fire prevention code shall be kept on file at all times in the offices of the city clerk and the fire marshal.
(Ord. No. 39,972, § 2, 5-23-00; Ord. No. 43,181, § 4, 7-22-08)

Sec. 17.1-44. Amendments and supplements.

The fire prevention code, as hereinbefore adopted, is hereby amended, supplemented, amplified and modified by the following provisions, with the intended purpose of being more restrictive or more extensive in scope than the Virginia Statewide Fire Prevention Code. The following provisions shall amplify and supplement the fire prevention code:

(1) *Violations; penalty:* It shall be unlawful and shall constitute a Class 1 misdemeanor for any person, firm, company or corporation to violate any of the provisions of the fire prevention code, including all amendments thereto, or to fail to comply therewith, or to violate or fail to comply with any order made thereunder. Each day that a violation or noncompliance continues shall constitute a separate offense. In addition to any penalties imposed for each violation, a judge hearing the case may order the person, firm, company or corporation responsible for such violation and each day's default in such correction or remediation after being so ordered shall constitute a violation of a separate offense under this chapter.

(2) *Appeals:* Any person, firm, company or corporation, after receiving a written notice of violation, shall have the right to appeal to the fire chief. The appeal must be made in writing within seven (7) calendar days of the issuance date of the written notice of violation. The chief may grant modifications to any provisions of this code, provided that the spirit and intent of the fire prevention code is observed and public health, welfare and safety are assured. Such decisions shall be recorded in department records, with a signed copy furnished to the appellant. Failure to submit an appeal in the time specified shall constitute acceptance of the fire chief's decision.

(3) *Severability:* The provisions of the fire prevention code, as adopted in this article, are hereby declared to be severable. If any part, section, provision, sentence, clause or phrase where the application thereof to any person or circumstance is for any reason adjudged to be unconstitutional or invalid, the remainder thereof shall remain in full force and effect, and its validity shall not be impaired, it being the legislative intent hereby declared that said fire prevention code, with amendments, would have been adopted, even if such unconstitutional or invalid matter had not been included or if such unconstitutional or invalid application had not been made.

(4) *Fire official:* The fire chief, fire marshal, or any other person designated by the fire chief to perform the duties of the fire marshal. When used herein the term fire official shall also mean code official.

(5) *Rules and regulations:* The fire official shall have authority as necessary in the interest of public health, safety and general welfare to adopt and promulgate rules and regulations to interpret and implement the provisions of this code to secure the intent thereof, and to designate requirements applicable because of local and climatic conditions. Such rules shall not have the effect of waiving any fire safety requirements specifically provided

for in this code or of violating accepted engineering practice involving public safety.

(6) *Deletion of construction standards:* The standards for construction specified in the National Fire Protection Life Safety Code (NFPA 101, 1994 edition) are hereby deleted from this code.

(7) *Applicability of other laws:* Nothing in this code shall be construed, interpreted or applied to abrogate, nullify or abolish any law, ordinance or code adopted by the state or the city. When any provision of this code is found to be in conflict with any zoning, safety, health or other applicable law, ordinance or code, the provision which establishes the higher standard for the promotion and protection of the safety, and welfare of the public shall prevail.

(8) *Certification of fire official:* The fire official and all assistants enforcing the fire prevention code shall be certified pursuant to section 27-34.2, Code of Virginia.

(9) *Maintenance inspections:* The fire official may inspect all buildings, structures and premises to ensure compliance with this code or other ordinances affecting fire and life safety. If the inspection involves a dwelling unit, the fire official must seek permission of the owner or an occupant before conducting an inspection. If the owner or occupant refuses to grant permission, the fire official may obtain an inspection warrant pursuant to section 27-98.2, Code of Virginia.

(10) *Fire lane parking tickets.* Traffic parking tickets may be issued by the department of fire-rescue or other persons designated by the city manager on all vehicles parked in public and private fire lanes designated by the fire marshal. The fine for parking in a designated fire lane shall be one hundred dollars ($100.00).

(11) *Hazardous material identification:* The fire marshal may require identification of any and all buildings, structures or sites which store or handle hazardous material or chemicals. Such identification shall be the marking system of the National Fire Protection Association (NFPA 704, Standard System for the Identification of the Fire Hazards of Material).

(12) *Parking:* No motor vehicles shall be parked any place closer than ten (10) feet to any door, window or other opening of any theater, hotel, hospital, school, auditorium or any other property where such parking creates or tends to create a hazard to life or property in the event of fire or other emergency.

(13) *Proper street address numbers:* It shall be a violation of this code to fail to display a proper address number as specified in City Code sections 42-202 and 42-203.

(14) *Burning of rubbish and yard waste:* The burning of rubbish, yard waste, leaves and wire insulation is prohibited, except for operations conducted under permit by the State Department of Environmental Quality (DEQ).

(15) *Interior storage:* Storage in buildings and structures shall be orderly and shall not be closer than eighteen (18) inches to any sprinkler head nor closer than twenty-four (24) inches to the lowest portion of a ceiling assembly. Interior storage shall not obstruct egress from any building or structure.

(16) *Outside storage:* The outside storage of combustible or flammable materials shall not be more than twenty (20) feet in height and shall be compact and orderly. Such storage shall be located as not to constitute a hazard and not less than fifteen (15) feet from any building or from a lot line.

(17) *Accumulation of waste:* Accumulation of waste material including but not limited to paper, wood, hay, straw, weeds, litter, pallets, tires or other combustible or flammable material shall not be dumped or allowed to remain on any premises, roof, court, vessel, yard, vacant lot, alley, parking lot, open space or any right-of-way. All weeds, grass, vines or other vegetation

which in the opinion of the fire official may endanger persons or property, shall be cut down and removed by the owner or occupant of the property. Combustible rubbish, oily rags or other waste material kept in a building or structure shall be kept in containers approved by the fire official.

(18) *Home use appliances:* All home use electrical or fuel powered appliances shall be listed by an approved testing agency. These appliances shall only be installed and used in accordance with their listing and in a manner so as not to create a hazard.

(19) *Highrise building standpipe flow test:* Standpipe systems in buildings over seventy-five (75) feet in height shall be flow tested at least every two (2) years.

(20) *Sprinkler flow test:* All sprinkler systems' inspector test connection, main drain and control valves shall be operated annually to ensure adequate pressure, adequate water flow, and the absence of obstructions.

(21) *Monthly fire pump flow test:* All fire pumps, that automatically supply water to fire suppression systems and standpipe systems, shall be operated periodically until water is discharged freely from the relief valve and at least every thirty (30) days. A record of such tests shall be kept on the premises for review by the fire inspector within thirty (30) days of such test or inspection.

(22) *Fire protection systems test results:* A copy of all test results and inspections for all required fire protection equipment shall be forwarded to the fire official for review within thirty (30) days of such test or inspection. It shall be unlawful for any person to submit any fraudulent, falsified or inaccurate test results.

(23) *Wrecking yards:* A vehicle wrecking yard, salvage yard for automobiles or parts, junkyard or waste material handling plant shall not be located so as to expose adjoining or adjacent properties to the risk of fire and shall be fenced in a manner so as to prevent both view and access by the general public during a fire operation, if a fire occurs on the premises.

(24) *Storage of explosives:* The storage of explosives and blasting agents is prohibited within the city, except for temporary storage for use in connection with approved blasting operations; provided, however, that this prohibition shall not apply to wholesale and retail stocks of small arms ammunition, explosive bolts, explosive rivets or cartridges for explosive actuated power tools in quantities involving less than five hundred (500) pounds (227 kg.) of explosive material.

(25) *Fireworks prohibited:* The manufacture of fireworks is prohibited within the jurisdiction. The possession or use of fireworks is prohibited within the city, except for fireworks approved by permit according to the rules and regulations of the fire official.

(26) *Additional fireworks:* In addition to the items defined as fireworks in other parts of this code (SFPC), the term fireworks shall include pinwheels, fountains and pharaoh serpents. The manufacture, sale, possession or use of any fireworks, without the permission of the fire official, is unlawful.

(27) *Hazardous materials or waste materials discharge, release, disposal or spill:* The unauthorized discharge, release, disposal or spill of any hazardous material as defined in the Virginia Statewide Fire Prevention Code whether it be liquid, solid or gas, shall be a violation of this code.

(28) *Hazardous material or waste materials spill notification:* Any spill, release, or discharge of any material specified in paragraph (27) of this section shall be reported to the fire official immediately. Failure to report or delay in reporting shall be a violation of this code.

(29) *Hazardous material or waste materials clean up:* Any spill, release, or discharge of any material specified in paragraph (27) of this section shall be cleaned up in a manner approved by the fire official. If the person, firm, company or corporation causing the spill or discharge can not be ascertained, then the owner of the property shall be responsible for the clean up. At the conclusion of the clean up, a written report shall be presented to the fire official specifying the type of material spilled, released, or discharged, quantity of material recovered, person, firm, corporation completing clean up and final disposal location. Noncompliance with any provisions contained herein is a violation of this code.

(30) *Fire suppression systems in certain buildings:* A fire suppression system shall be installed and maintained in full operating condition in any building fifty (50) feet or more in height. For the purposes of this section, a fire suppression system shall mean a mechanical system designed and equipped to detect a fire, activate an alarm and suppress a fire.

For purposes of this section, the height of a building shall mean the vertical distance from grade to the top of the highest roof beams of a flat roof, or the mean level of the highest gable or slope of a high roof. If the building faces on more than one street, the height shall be measured from the average of the grade at the center of each street front.

The provisions of this section shall be in addition to, and not in lieu of, other laws, ordinances, regulations and standards pertaining to the installation or maintenance of fire suppression systems.

Fire suppression systems shall be installed in accordance with the Uniform Statewide Building Code and NFPA #13 (Standard for the installation of Sprinkler Systems).

This section shall apply only to buildings for which building permits are issued on or after the date of the ordinance from which this article derives.

This section shall not apply to open parking garages which comply with the applicable provisions of Section 406 of the Virginia Uniform Statewide Building Code except that retail or office use located within said garage shall be sprinkled in accordance with applicable provisions in the Virginia Uniform Statewide Building Code.

(31) The fire official and any of his assistants shall have the right to enter upon any property from which a release of any hazardous material, hazardous waste or regulated substance has occurred or is reasonably suspected to have occurred and which has or may enter into the groundwater, surface water, air, or soils of the city, in order to investigate the extent of and cause of such release. If the fire official or any of his assistants is refused entry, he may apply for an investigation warrant pursuant to Code of Virginia, section 27-37.1.

(32) *Underground storage tanks:* All abandoned storage tanks or underground storage tanks not in use for more than ninety (90) days shall be filled or removed pursuant to the protocols established by the fire official.

The commissioner of the revenue shall keep a record of every such extension, and shall provide notice thereof to the treasurer at the time such extension is granted. If any taxpayer or lessee of such personal property who has been granted an extension of time for filing his return fails to file his return within the extended time, his case shall be treated the same as if no extension had been granted.

(e) Any person required by this section to file a return for tax purposes who willfully fails or refuses to file such return at the time required, or who makes a false statement with intent to defraud in such return (i) shall be guilty of a class 3 misdemeanor if the amount of the tax lawfully assessed in connection with the return is one thousand dollars ($1,000.00) or less, or (ii) shall be guilty of a class 1 misdemeanor if the

(b) The council shall set the rate of tax relief annually at such a level that it is anticipated fully to exhaust relief funds provided to the city by the commonwealth under the Personal Property Tax Relief Act. Notwithstanding the foregoing, the city treasurer is authorized to approve and issue any refund up to ten thousand dollars ($10,000.00) as a result of an erroneous assessment.

(b) If the assessment is less than the proper amount, the commissioner of the revenue or the real estate assessor shall assess such taxpayer with the proper amount. If any assessment is erroneous because of a mere clerical error or calculation, the same may be corrected as herein provided and with or without petition from the taxpayer.

(c) A copy of any correction made under this section shall be certified by the commissioner of the revenue or the real estate assessor to the city treasurer.

Sec. 24-25.3. License requirement.

(a) Every person engaging in the city in any business, trade, profession, occupation or calling (collectively hereinafter "a business"), as defined in this article, unless otherwise exempted by law, shall apply for a license for each such business if (i) such person maintains a definite place of business in the city, (ii) such person does not maintain a definite office but does maintain an abode in the city, which abode for the purposes of this article shall be deemed a definite place of business, or (iii) there is no definite place of business but such person operates amusement machines, is engaged as a peddler or itinerant merchant, carnival or circus as specified in sections 58.1-3717, 58.1-3713 or 58.1-3728, respectively, of the Code of Virginia, 1950, or is a contractor subject to section 58.1-3715 of the Code of Virginia, or is a public service corporation subject to section 58.1-3731 of the Code of Virginia. A separate license shall be required for each definite place of business. A person engaged in two (2) or more businesses or professions carried on at the same place of business may elect to obtain an license for all such businesses and professions if all of the following criteria are satisfied:

(1) Each business or profession is licensable at the location and has satisfied any requirements imposed by state law or other provisions of the ordinances of this jurisdiction;

(2) All of the businesses or professions are subject to the same tax rate, or, if subject

to different tax rates, the licensee agrees to be taxed on all businesses and professions at the highest rate; and

(3) The taxpayer agrees to supply such information as the assessor may require concerning the nature of the several businesses and their gross receipts.

(b) Each person subject to a license tax shall apply for a license prior to beginning business if he was not in this jurisdiction on or before January 1 of the license year, or no later than March 1 of the current license year if he had been issued a license for the preceding license year. The application shall be on forms prescribed by the assessing official.

(c) The tax shall be paid with the application in the case of any license not based on gross receipts.

If, the tax is measured by the gross receipts of the business, the tax shall be paid on or before March 1.

(1) Whenever in this article it is provided that any person shall pay a license tax based on gross receipts or gross purchases, such license tax shall be based on the gross receipts or gross purchases during the base year to the extent the base year represents a full calendar year of operations of such person subject to a license tax. Whenever a person subject to a license tax based on gross receipts or gross purchases had not engaged in business for the full preceding calendar year, the tax shall be based upon an estimate of gross receipts or purchases during the current license year. For a person that during the current license year begins a business that is subject to a license tax based on gross receipts or gross purchases, the tax shall be based upon an estimate of gross receipts or gross purchases from the date business begins through December thirty-first of the current license year.

(2) Whenever a license tax is assessed on the basis of estimated gross receipts or estimated gross purchases, every underestimate thereof shall be subject to correction by the commissioner of the revenue, and it shall be her duty to assess such person with such additional license tax as may be found to be due after the close of the license year on the basis of the true amount of such gross receipts or gross purchases during the period covered by the license.

(d) The assessing official may grant an extension of time, not to exceed ninety (90) days, in which to file an application for a license, for reasonable cause. The extension shall be conditioned upon the timely payment of a reasonable estimate of the appropriate tax, subject to adjustment to the correct tax at the end of the extension together with interest from the due date until the date paid and, if the estimate submitted with the extension is found to be unreasonable under the circumstances, a penalty of ten (10) percent of the portion paid after the due date.

(e) A penalty of ten (10) percent of the tax, or ten dollars ($10.00), whichever is greater, may be imposed upon the failure to file an application or the failure to pay the tax by the appropriate due date. Only the late filing penalty shall be imposed by the assessing official if both the application and payment are late; however, both penalties may be assessed if the assessing official determines that the taxpayer has a history of noncompliance. In the case of an assessment of additional tax made by the assessing official, if the application and, if applicable, the return were made in good faith and the understatement of the tax was not due to any fraud, reckless or intentional disregard of the law by the taxpayer, there shall be no late payment penalty assessed with the additional tax. If any assessment of tax by the assessing official is not paid within thirty (30) days the collecting official may impose a ten (10) percent late payment penalty. The penalties shall not be imposed or, if imposed, shall be abated by the official who assessed them if the failure to file or pay was not the fault of the taxpayer. In order to demonstrate lack of fault, the taxpayer must show that he acted responsible and that the failure was due to events beyond his control.

"Acted responsibly" means that:

(1) The taxpayer exercised the leave of reasonable care that a prudent person would exercise under the circumstances in determining the filing obligations for the business; and

(2) The taxpayer undertook significant steps to avoid or mitigate the failure, such as requesting appropriate extensions (where applicable), attempting to prevent a foreseeable impediment, acting to remove an impediment once it occurred, and promptly rectifying a failure once the impediment was removed or the failure discovered.

"Events beyond the taxpayer's control" include, but are not limited to, the unavailability of records due to fire or other casualty; the unavoidable absence (e.g., due to death or serious illness) of the person with the sole responsibility for tax compliance; or the taxpayer's reasonable reliance in good faith upon erroneous written information from the assessing official, who was aware of the relevant facts relating to the taxpayer's business when he provided the erroneous information.

(f) Interest at six (6) percent per annum shall be charged on the late payment of the tax from the due date until the date paid without regard to fault or other reason for the late payment. Whenever an assessment of additional or omitted tax by the assessing official is found to be erroneous, all interest and penalty charged and collected on the amount of the assessment found to be erroneous shall be refunded together with interest on the refund from the date of payment or the due date, whichever is later. Interest shall be paid on the refund of any tax paid under this article from the date of payment or due date, whichever is later, whether attributable to an amended return or other reason. Interest on any refund shall be paid at the same rate charged under section 58.1-3916 [Code of Virginia, 1950].

No interest shall accrue on an adjustment of estimated tax liability to actual liability at the conclusion of the adjusted license year. No interest shall be paid on a refund or charged on a late payment, in event of such adjustment, provided the refund or the late payment is made not more than thirty (30) days from (i) the date of the payment that created the refund, or (ii) the due date of the tax, whichever is later.

(g) The commissioner of the revenue shall not issue a license for conducting any business or practicing any profession or calling in the event that:

(1) The location where the conduct of such business is prohibited by the zoning ordinance of the city;

(2) The applicant for such license has not provided permits, certifications and approvals for conducting such business as may be required by the department of public health, the circuit court and/or any other regulatory agency of the City of Norfolk or the Commonwealth of Virginia.

(h) Licenses issued under this article shall be transferable, except where otherwise provided, but in no case shall any transfer of a license be legal or valid, unless written notice of such transfer is given to the commissioner of the revenue and unless the commissioner of the revenue has approved the transfer, in writing, on the license. The notice shall state the time of the transfer, the place of the transfer and the name of the person to whom transferred. The commissioner of the revenue shall not approve such transfer, if the new location does not conform to the zoning ordinance as described in subparagraph (g)(1) above. The commissioner of the revenue shall keep a record of such transfers.

(i) Every person in charge of premises where a business, occupation, profession or other activity required to be licensed under this article is conductive or practical shall permit any member of the police department, when detailed or authorized to make such inspections, and the license inspector, to make a physical inspection of the entire premises for the purpose of ascertaining license tax liability, at any time during regular hours of the business operation.

(j) The commissioner of the revenue shall not issue or reissue a business license under this chapter to any contractor who:

(1) Has not obtained or is not maintaining workers' compensation coverage for his employees; and

(2) At the time of application for such issuance or reissuance, is required to obtain or maintain such coverage pursuant to chapter 8 (section 65.2-800 et seq.) of title 65.2 of the Code of Virginia, 1950, as amended. The commissioner of the revenue shall at the time of any application for issuance or reissuance of a business license require every contractor to provide written certification that such contractor is in compliance with the provisions of section 65.2-800 et seq., of the Code of Virginia, 1950, as amended, and will remain in compliance with such provisions at all times during the effective period of any such business license. Such signed certification shall be forwarded by the commissioner of the revenue to the Virginia Workers' Compensation Commission. Any person who knowingly presents or causes to be presented to the commissioner of the revenue a false certificate shall be guilty of a class 3 misdemeanor.

(Ord. No. 38,573, § 3, 11-19-96; Ord. No. 39,722, §§ 2, 3, 9-14-99; Ord. No. 40,032, § 1, 7-11-00)

Sec. 24-25.4. Situs of gross receipts.

(a) *General rule.* Whenever the tax imposed by this article is measured by gross receipts, the gross receipts included in the taxable measure shall be only those gross receipts attributed to the exercise of a licensable privilege at a definite place of business within this jurisdiction. In the case of activities conducted outside of a definite place of business, such as during a visit to a customer location, the gross receipts shall be attributed to the definite place of business from which such activities are initiated, directed, or controlled. The situs of gross receipts for different classifications of business shall be attributed to one or more definite places of business or offices as follows:

(1) The gross receipts of a contractor shall be attributed to the definite place of business at which his services are performed, or if his services are not performed at any definite place of business, then the definite place of business from which his services are directed or controlled, unless the contractor is subject to the provisions of section 58.1-3715, of the Code of Virginia, 1950.

(2) The gross receipts of a retailer or wholesaler shall be attributed to the definite place of business at which sales solicitation activities occur, or if sales solicitation activities do not occur at any definite place of business, then the definite place of business from which sales solicitation activities are directed or controlled; however, a wholesaler or distribution house subject to a license tax measured by purchases shall determine the situs of its purchases by the definite place of business at which or from which deliveries of the purchased goods, wares and merchandise are made to customers. Any wholesaler who is subject to license tax in two (2) or more localities and who is subject to multiple taxation because the localities use different measures, may apply to the department of taxation for a determination as to the proper measures of purchases and gross receipts subject to license tax in each locality.

(3) The gross receipts of a business renting tangible personal property shall be attributed to the definite place of business from which the tangible personal property is rented or, if the property is not rented from any definite place of business, then the definite place of business at which the rental of such property is managed.

(4) The gross receipts from the performance of services shall be attributed to the definite place of business at which the

services are performed or, if not performed at any definite place of business, then the definite place of business from which the services are directed or controlled.

(b) *Apportionment.* If the licensee has more than one definite place of business and it is impractical or impossible to determine to which definite place of business gross receipts should be attributed under the general rule (and the affected jurisdictions are unable to reach an apportionment agreement), except as to circumstances set forth in section 58.1-3709 of the Code of Virginia, 1950, the gross receipts of the business shall be apportioned between the definite places of businesses on the basis of payroll. Gross receipts shall not be apportioned to a definite place of business unless some activities under the applicable general rule occurred at, or were controlled from, such definite place of business. Gross receipts attributable to a definite place of business in another jurisdiction shall not be attributed to this jurisdiction solely because the other jurisdiction does not impose a tax on the gross receipts attributable to the definite place of business in such other jurisdiction.

(c) *Agreements.* The assessor may enter into agreements with any other political subdivision of Virginia concerning the manner in which gross receipts shall be apportioned among definite places of business. However, the sum of the gross receipts apportioned by the agreement shall not exceed the total gross receipts attributable to all of the definite places of business affected by the agreement. Upon being notified by a taxpayer that its method of attributing gross receipts is fundamentally inconsistent with the method of one or more political subdivisions in which the taxpayer is licensed to engage in business and that the difference has, or is likely to, result in taxes on more than one hundred (100) percent of its gross receipts from all locations in the affected jurisdictions, the assessor shall make a good faith effort to reach an apportionment agreement with the other political subdivisions involved.
(Ord. No. 38,573, § 3, 11-19-96)

Sec. 24-25.5. Limitations and extensions.

(a) Where, before the expiration of the time prescribed for the assessment of any license tax imposed pursuant to this article, both the assessing official and the taxpayer have consented in writing to its assessment after such time, the tax may be assessed at any time prior to the expiration of the period agreed upon. The period so agreed upon may be extended by subsequent agreements in writing made before the expiration of the period previously agreed upon.

(b) Notwithstanding section 58.1-3903 of the Code of Virginia, 1950, the assessing official shall assess the local license tax omitted because of fraud or failure to apply for a license for the current license year and the six (6) preceding years.

(c) The period for collecting any local license tax shall not expire prior to the period specified in section 58.1-3940 of the Code of Virginia, 1950, two (2) years after the date of assessment if the period for assessment has been extended pursuant to this subdivision, two (2) years after the final determination of an appeal for which collection has been stayed pursuant to the following subsections 24-25.6(b) or (d) of this article, or two (2) years after the final decision in a court application pursuant to section 58.1-3984 of the Code of Virginia, 1950, or similar law for which collection has been stayed, whichever is later.
(Ord. No. 38,573, § 3, 11-19-96)

Sec. 24-25.6. Appeals and rulings.

(a) Any person assessed with a licensing tax under this article as the result of an audit may apply to the assessing official for a correction of the assessment. The appeal must be filed within one (1) year from the later of either the last day of the tax year for which such assessment is made or the date of the appealable event, as that term is defined below. The application must be filed in good faith and sufficiently identify the taxpayer, audit period, remedy sought, each alleged error in the assessment, the grounds upon which the taxpayer relies, and any other facts relevant to the taxpayer's contention. The assessor may hold a conference with the taxpayer if requested by the taxpayer, or require submis-

sion of additional information and documents, further audit, or other evidence deemed necessary for a proper and equitable determination of the applications. The assessment shall be deemed prima facie correct. The assessor shall undertake a full review of the taxpayer's claims and issue a determination to the taxpayer setting forth its position. Every assessment pursuant to an audit shall be accompanied by a written explanation of the taxpayer's right to seek correction and the specific procedure to be followed in the city.

(b) Provided an application is made before the deadline set forth in subsection (a), above, collection activity shall be suspended until a final determination is issued by the assessor, unless the assessor determines that collection would be jeopardized by delay or that the taxpayer has not responded to a request for relevant information after a reasonable time. Interest shall accrue in accordance with the provisions of subsection 24-25.3(f) of this article, but no further penalty shall be imposed while collection action is suspended. The term "jeopardized by delay" includes a finding that the application is frivolous, or that a taxpayer desires:

(1) To depart quickly from the locality;

(2) To remove his property therefrom;

(3) To conceal himself or his property therein; or

(4) To do any other act tending to prejudice, or to render wholly or partially ineffectual, proceedings to collect the tax for the period in question

(c) Any person assessed with a license tax under this article as a result of a determination made following an application for correction under subsection (a), above, that is adverse to the position taken by that taxpayer in its application may, within ninety (90) days of the determination by the assessing official, apply to the tax commissioner for a correction of such assessment. The tax commissioner shall issue a determination to the taxpayer within ninety (90) days of receipt of the taxpayer's application, unless the taxpayer and the assessing official are notified that a longer period will be required. The application shall be treated as an application pursuant to section 58.1-1821 of the Code of Virginia, 1950, and the tax commissioner may issue an order correcting such assessment pursuant to section 58.1-1821 of the Code of Virginia, 1950, and the tax commissioner may issue an order correcting such assessment pursuant to section 58.1-1822 of the Code of Virginia, 1950. Following such an order, either the taxpayer or the assessing official may apply to the appropriate circuit court pursuant to section 58.1-3984 of the Code of Virginia, 1950. However, the burden shall be on the party making the application to show that the ruling of the tax commissioner is erroneous. Neither the tax commissioner nor the department of taxation shall be made a party to an application to correct an assessment merely because the tax commissioner has ruled on it.

(d) On receipt of a notice of intent to file an appeal to the tax commissioner under subsection (c) above, the assessing official shall further suspend collection activity until a final determination is issued by the tax commissioner, unless the assessor determines that collection would be jeopardized by delay or that the taxpayer has not responded to a request for relevant information after a reasonable time. Interest shall accrue in accordance with the provisions of subsection 24-25.3(f), but no further penalty shall be imposed while collection action is suspended. The term "jeopardized by delay" shall have the same meaning as set forth in subsection (b) above.

(e) Any taxpayer may request a written ruling regarding the application of the tax to a specific situation from the assessor. Any person requesting such a ruling must provide all the relevant facts for the situation and may present a rationale for the basis of an interpretation of the law most favorable to the taxpayer. Any misrepresentation or change in the applicable law or the factual situation as presented in the ruling request shall invalidate any such ruling issued. A written ruling may be revoked or amended prospectively if:

(1) There is a change in the law, a court decision; or

(2) The assessor notifies the taxpayer of a change in the policy or interpretation upon which the ruling was based.

However, any person who acts on a written ruling which later becomes invalid shall be deemed to have acted in good faith during the period in which such ruling was in effect.

(f) For purpose of this section, "appealable event" means an increase in the assessment of a local license tax payable by a taxpayer, the denial of a refund, or the assessment of a local license tax where none previously was assessed, arising out of the local assessing official's (i) examination of records, financial statements, books of account, or other information for the purpose of determining the correctness of an assessment; (ii) determination regarding the rate or classification applicable to the licensable business; (iii) assessment of a local license tax when no return has been filed by the taxpayer; or (iv) denial of an application for correction of erroneous assessment attendant to the filing of an amended application for license. An appealable event shall include a taxpayer's appeal of the classification applicable to a business, including whether the business properly falls within a business license subclassification established by the locality, regardless of whether the taxpayer's appeal is in conjunction with an assessment, examination, audit, or any other action taken by the locality.
(Ord. No. 38,573, § 3, 11-19-96; Ord. No. 47,908, § 1, 2-25-20)

Sec. 24-25.7. Record keeping and audits.

Every person who is assessable with a license tax shall keep sufficient records to enable the assessor to verify the correctness of the tax paid for the license years assessable and to enable the assessor to ascertain what is the correct amount of tax that was assessable for each of those years. All such records, books of accounts and other information shall be open to inspection and examination by the assessor in order to allow the assessor to establish whether a particular receipt is directly attributable to the taxable privilege exercised within this jurisdiction. The assessor shall provide the taxpayer with the option to conduct the audit in the taxpayer's local business office, if the records are maintained there. In the event the records are maintained outside this jurisdiction, copies of the appropriate books and records shall be sent to the assessor's office upon demand.
(Ord. No. 38,573, § 3, 11-19-96)

Sec. 24-25.8. Exclusions and deductions from "gross receipts."

(a) *General rule.* Gross receipts for license tax purposes shall not include any amount not derived from the exercise of the licensed privilege to engage in a business or profession in the ordinary course of business or profession.

(b) *Items excluded from gross receipts.* The following items shall be excluded from gross receipts:

(1) Amounts received and paid to the United States, the commonwealth or any county, city or town for the Virginia retail sales or use tax, or for any local sales tax or any local excise tax on cigarettes, or amounts received for any federal or state excise taxes on motor fuels.

(2) Any amount representing the liquidation of a debt or conversion of another asset to the extent that the amount is attributable to a transaction previously taxed (e.g., the factoring of accounts receivable created by sales which have been included in taxable receipts even though the creation of such debt and factoring are a regular part of its business).

(3) Any amount representing returns and allowances granted by the business to its customer.

(4) Receipts which are the proceeds of a loan transaction in which the licensee is the obligor.

(5) Receipts representing the return of principal of a loan transaction in which the licensee is the creditor, or the return of principal or basis upon the sale of a capital asset.

(6) Rebates and discounts taken or received on account of purchases by the licensee. A rebate or other incentive offered to induce the recipient to purchase certain

goods or services from a person other than the offeror, and which the recipient assigns to the licensee in consideration of the sale of goods and services shall not be considered a rebate or discount to the licensee, but shall be included in the licensee's gross receipts together with any handling or other fees related to the incentive.

(7) Withdrawals from inventory for purposes other than sale or distribution and for which no consideration is received and the occasional sale or exchange of assets other than inventory, whether or not a gain or loss is recognized for federal income tax purposes.

(8) Investment income not directly related to the privilege exercised by a licensable business not classified as rendering financial services. This exclusion shall apply to interest on bank accounts of the business, and to interest, dividends and other income derived from the investment of its own funds in securities and other types of investments unrelated to the licensed privilege. This exclusion shall not apply to interest, late fees and similar income attributable to an installment sale or other transaction that occurred in the regular course of business.

(c) *Items deducted from gross receipts or gross purchases.* The following shall be deducted from gross receipts or gross purchases that would otherwise be taxable:

(1) Any amount paid for computer hardware and software that are sold to a United States federal or state government entity provided that such property was purchased within two (2) years of the sale to said entity by the original purchaser who shall have been contractually obligated at the time of purchase to resell such property to a state or federal government entity. This deduction shall not occur until the time of resale and shall apply to only the original cost of the property and not to its resale price, and the deduction shall not apply to any of the tangible personal property which was the subject of the original resale contract if it is not resold to a state or federal government entity in accordance with the original contract obligation.

(2) Any receipts attributable to business conducted in another state or foreign country in which the taxpayer is liable for an income or other tax based upon income.

(Ord. No. 38,573, § 3, 11-19-96; Ord. No. 42,666, § 1, 5-15-07)

Sec. 24-25.9. License fee and tax.

(a) *[Exemptions.]*

(1) *Small business exemption.* In accordance with section 58.1-3706 of the Code of Virginia, 1950, businesses with taxable gross receipts, as defined in this article, which are one hundred thousand dollars ($100,000.00) or less annually shall be exempt from the license tax provisions that would otherwise apply pursuant to this section. This exemption shall not exempt any business from obtaining a license. If actual taxable gross receipts in any year exceed the one hundred thousand dollar ($100,000.00) threshold, the licensee shall report said fact to the commissioner of the revenue for adjustment. The tax shall then be computed on actual taxable gross receipts, giving credit for any license fee payment previously made. The tax shall then be promptly remitted to the commissioner.

(2) *Qualifying business with taxable gross receipts of $1,000,000.00 or less exemption.* It is the intent of this provision to encourage new small businesses to locate in the city. In accordance with section 58.1-3703 of the Code of Virginia, 1950, qualifying businesses, as defined in City Code section 24-25.2, with total taxable gross receipts from all classifications of business in the amount of one million dollars ($1,000,000.00) or less annually shall be exempt from the license tax that would otherwise be payable pursuant to this article. For qualifying businesses with total taxable gross receipts from all classifications of business exceeding one million dollars ($1,000,000.00) annually, the license tax provisions of this article shall apply. A designation as a qualifying business and any exemption pursuant to this paragraph (a)(2) shall automatically lapse at the end of the first full business license year following the license year during which a new business first locates in the city. Following such lapse, the business shall be subject to all business license requirements unless otherwise exempt pursuant to subsection (a)(1).

A business that is determined to be a qualifying business, whether or not exempt hereunder, must obtain a business license and pay the fee pursuant to paragraph (b) for each classification of business in accordance with the provisions of this section.

Any new business seeking to qualify for this exemption shall complete an application for qualification, provide documentation sufficient to establish qualification as a qualifying business, and provide reasonable projected taxable gross receipts. The application shall be in the form required by the commissioner of the revenue. The applicant shall have the burden of proving qualification for this exemption on an

annual basis. The applicant shall provide truthful information. Any determination of qualification or non-qualification shall be given in writing by the commissioner of the revenue. The appeal of a determination of non-qualification shall be in the same manner as the appeal process of any other business license tax decision.

A new business entity that (i) meets the definition of "affiliated group," as defined in Code of Virginia § 58.1-3700.1, and (ii) conducts business activities that are similar to one (1) or more of the affiliated businesses shall be deemed a change in business form as such phrase is used in the definition of qualifying business and shall not qualify as a qualifying business. However, a new business entity that meets the "affiliated group" definition but undertakes a business that conducts substantially different business activities shall not be deemed a change in business form. A new business with taxable gross receipts of one million dollars ($1,000,000.00) or less but that files consolidated financial statements with a parent or other affiliated entity with combined taxable gross receipts in excess of one million dollars ($1,000,000.00) shall not be entitled to an exemption under this section 24-25.9. A business shall not be deemed to locate in the city for the first time if there is an existing business in the city trading under the same or substantially similar business name, the businesses conduct similar business activities, and the businesses are related either by a shared ownership structure or a contractual relationship such as a franchisor/franchisee relationship. A qualifying business shall not include peddlers and itinerant merchants. A qualifying business shall not include a contractor required to obtain a business license by Code of Virginia § 58.1-3715(B).

All qualifying businesses shall file a business license return with the commissioner of the revenue reporting taxable gross receipts earned in accordance with the provisions of this section and section 24-25.3 in the previous calendar year. In the case of an underpayment by a qualifying business that estimated taxable gross receipts to be one million dollars ($1,000,000.00) or less in any year while designated as a qualifying business and whose actual taxable gross receipts earned in that year exceeded the one million dollar ($1,000,000.00) threshold, the commissioner of the revenue shall assess such qualifying business with any additional license tax found to be due. The tax shall then be computed on actual taxable gross receipts, giving credit for any license fee payment previously made. The tax shall then be promptly remitted to the commissioner. In the case of an overpayment by a qualifying business that estimated taxable gross receipts to be in excess of one million dollars ($1,000,000.00) in any year while designated as a qualifying business and whose actual taxable gross receipts earned in that year did not exceed the one million dollar ($1,000,000.00) threshold, the qualifying business shall receive a credit of the excess tax paid in the previous year.

A qualifying business shall forfeit any entitlement to the license tax exemption provided in this section 24-25.9 if (i) such business is delinquent on any local tax and fees, including, without limitation, personal property tax, real property tax, admissions tax, food and beverage tax, mixed beverage annual review with alcoholic beverage control, sales and use tax, and transient occupancy tax or (ii) such business fails to file returns for self-reported taxes at such times and in such manner as required by law. A qualifying business shall report its personal property and taxable gross receipts to the commissioner of the revenue at such times and in such manner as required by law and the failure to timely report shall result in the forfeiture of any entitlement to the license tax exemption provided by this section 24-25.9.

(b) *Annual license fee.* In accordance with section 58.1-3703 of the Code of Virginia, 1950, there shall be a fee for issuance of the annual business license for those businesses exempt from the license tax pursuant to paragraph (a) of this section. The following fee schedule shall apply to said business:

Tax Year Beginning	*Fee*
January 1, 1999 or any previous year	$60.00
January 1, 2000 or any subsequent year	$50.00

The fee is due and payable on or before March 1 of each license year or at the time a new business is opened, and is further subject to the penalty and interest provisions of section 24-25.3.

(c) *Tax rates imposed:*

(1) For contractors and persons constructing for their own accounts for sale, sixteen cents ($0.16) per one hundred dollars ($100.00) of gross receipts;

(2) For retailers, twenty cents ($0.20) per one hundred dollars ($100.00) of gross receipts;

(3) For financial, real estate and professional services, fifty-eight cents ($0.58) per one hundred dollars ($100.00) of gross receipts;

(4) For repair, personal and business services and all other businesses and occupations not specifically listed or exempted in this article or otherwise by law, thirty-six cents ($0.36) per one hundred dollars ($100.00) of gross receipts;

(5) For wholesalers, fifty dollars ($50.00) and 15/100 of one percent of purchases;

(6) For carnivals, circuses and speedways, two hundred dollars ($200.00) per day for each performance held in this jurisdiction;

(7) For itinerant merchants or nonfood peddlers, five hundred dollars ($500.00) per year;

(8) For nonlocal photographers, as defined in section 58.1-3727 of the Code of Virginia, 1950, thirty dollars ($30.00) per year;

(9) For permanent coliseums, arenas or auditoriums having a maximum capacity in excess of ten thousand (10,000) persons, open to the public, one thousand dollars ($1,000.00) per year;

(10) For savings and loan associations and state-chartered credit unions, thirty dollars ($30.00) per year;

(11) For direct sellers as defined in section 58.1-3719.1 of the Code of Virginia, 1950, with total annual sales in excess of four thousand dollars ($4,000.00), twenty cents ($0.20) per one hundred dollars ($100.00) of total annual retail sales or five cents ($0.05) per one hundred dollars ($100.00) of total annual wholesale sales, whichever is applicable;

(12) For public service corporations as defined in section 58.1-3731 of the Code of Virginia, 1950, fifty cents ($0.50) per one hundred dollars ($100.00) of gross receipts; and

(13) For any person, firm, or corporation designated as the principal or prime contractor receiving identifiable federal appropriations from research and development services as defined in section 31.205-18(a) of the Federal Acquisition Regulation in the areas of (i) computer and electronic systems, (ii) computer software, (iii) applied sciences, (iv) economic and social sciences, and (v) electronic and physical sciences shall be subject to a license tax rate of three cents ($0.03) per one hundred dollars ($100.00) of such federal funds received in payment of such contracts upon documentation provided by such person, firm or corporation to the commissioner of revenue confirming the applicability of this subsection.

(14) Event organizers of trade shows, exhibits or similar events conducted within the Norfolk SCOPE facility where show vendors are anticipated to sell goods, wares,

merchandise and services may obtain an umbrella license from the commissioner of the revenue that will satisfy the business license requirement for business transacted by all registered merchants and vendors at the event. For any other business conducted in the city by any such merchant or vendor, the appropriate license required by this chapter must be obtained. A sponsor obtaining an umbrella license shall pay a license fee of ten dollars ($10.00) per merchant or vendor; provided, however, that regardless of the number of merchants and vendors in such trade show or similar event, the cost of such license shall not be less than fifty dollars ($50.00) nor more than five hundred dollars ($500.00). For purposes of this section, a person shall be considered a merchant or vendor at the event only if he or she (i) has registered with the event organizer, and (ii) only conducts business within the boundaries of the area in which the event is held.

Any person or organization issued an umbrella license shall comply with all other City Code reporting requirements to the commissioner of the revenue. The provisions of this subsection are applicable only to the activities of temporary or transient merchants and vendors, and shall not be applicable to other licensable activities.

(d) *Short-term rental tax.*

(1) *Classification.* In accordance with [Code of Virginia,] § 58.1-3706(c), any person engaged in the short-term rental business shall be classified in the category of retail sales for license tax rate purposes.

(2) *Levied amount.* Pursuant to Code of Virginia, § 58.1-3510.6 of the Code of Virginia, there is hereby assessed and imposed on:

(a) Every person engaged in the short-term rental business as defined in subsection (d)(4)a. a tax of one percent on the gross proceeds of such business; and

(b) Every person engaged in the short-term rental business as defined in subsection (d)(4)b. a tax of one and one-half percent on the gross proceeds of such business. Such tax shall be in addition to the tax levied pursuant to Code of Virginia, § 58.1-605.

For purposes of this section, "gross proceeds" means the total amount charged to each person for the rental of daily rental property, excluding any state and local sales tax paid pursuant to the Virginia Retail Sales and Use Tax Act.

(3) *Daily rental property defined.* For purposes of this section, "daily rental property" means all tangible personal property held for rental and owned by a person engaged in the short-term rental business, except trailers, as defined in Code of Virginia, § 46.1-1(33) and other tangible personal property required to be licensed or registered with the department of motor vehicles, department of game and inland fisheries, or the department of aviation.

(4) *Short-term rental business defined.* A person is engaged in the short-term rental business if:

a. Not less than eighty (80) percent of the gross rental receipts of such business in any year are from transactions involving rental periods of ninety-two (92) consecutive days or less, including all extensions and renewals to the same person or a person affiliated with the lessor; or

b. Not less than sixty (60) percent of the gross rental receipts of such business during the preceding year arose from transactions involving the rental of heavy equipment property for periods of two hundred seventy (270) consecutive days or less, including all extensions and renewals to the same person or a person affiliated with the lessee.

For the purposes of this subdivision, "heavy equipment property" means rental property of

an industry that is described under code 532412 or 532490 of the 2002 North American Industry Classification System as published by the United States Census Bureau, excluding office furniture, office equipment, and programmable computer equipment and peripherals as defined in Code of Virginia, § 58.1-3503A16. For purposes of determining whether a person is engaged in the short-term rental business as defined in subsection B,

(i) A person is "affiliated" with the lessee of rental property if such person is an officer, director, partner, member, shareholder, parent or subsidiary of the lessee, or if such person and the lessee have any common ownership interest in excess of five percent,

(ii) Any rental to a person affiliated with the lessee shall be treated as rental receipts but shall not qualify for purposes of the eighty (80) percent requirement of subdivision 1 of subsection B of Code of Virginia, § 58.1-3510.4 or the sixty (60) percent requirement of subdivision 2 of subsection B of Code of Virginia, § 58.1-3510.4, and

(iii) Any rental of personal property which also involves the provision of personal services for the operation of the personal property rented shall not be treated as gross receipts from rental, provided however that the delivery and installation of tangible personal property shall not mean operation for the purposes of this subdivision.

(5) *Taxation of rental property that is not daily rental property.* Except for daily rental passenger cars, rental property that is not daily rental property shall be classified for taxation pursuant to Code of Virginia, § 58.1-3510.6(e).

(6) *Collection return and remittance of tax.* Any person engaged in the short-term rental business, as defined in Code of Virginia, § 58.1-3510.4, pursuant to this section shall collect such tax from each lessee of rental property at the time of rental and shall transmit a quarterly return, not later than the fifteenth day following the end of each calendar quarter, to the commissioner of the revenue, reporting the gross rental proceeds derived and taxes collected from the short-term rental business. The short-term rental business shall pay the tax to the treasurer not later than the last day of the month following the end of the calendar quarter. Any failure to file a quarterly return required by this section or to pay short-term rental property tax when due shall be subject to the provisions of Code of Virginia § 58.1-3510.7.

(7) *Procedure upon failure to collect, report or remit taxes.* If any person whose duty it is so to do shall fail or refuse to collect the tax imposed under this article and to make, within the time provided in this article, the returns and remittances required in this article, the commissioner of [the] revenue shall proceed in such manner as he may deem best to obtain facts and information on which to base his estimate of the tax due. As soon as the commissioner of [the] revenue shall procure such facts and information as he is able to obtain upon which to base the assessment of any tax payable by any person who has failed or refused to collect such tax and to make such return and remittance he shall proceed to determine and assess against such person the tax, penalty and interest provided for by this article and shall notify such person, by registered mail, sent to his last known place of address, of the total amount of such tax, penalty and interest and the total amount thereof shall be payable within ten (10) days from the date of such notice. In the event such tax is not paid within ten (10) days from the date of the notice, the treasurer shall proceed to collect same in accordance with Code of Virginia, title 58.1, chapter 9.

(8) *Penalty and interest.*

a. When any dealer fails to make any return and pay the full amount of the tax required by this chapter, there shall be imposed, in addition to other penalties provided herein, a specific penalty to be added to the tax in the amount of six (6) percent if the failure is for not more than one month, with an additional six (6) percent for each additional month, or fraction thereof, during which the failure continues, not to exceed thirty (30) percent in the aggregate. In no case, however, shall the penalty be less than ten dollars ($10.00) and such minimum penalty shall apply whether or not any tax is due for the period for which such return was required. If such failure is due to providential or other good cause shown to the satisfaction of the commissioner of the revenue, such return with or without remittance may be accepted exclusive of penalties. In the case of a false or fraudulent return where willful intent exists to defraud the city of any tax due under this chapter, or in the case of a willful failure to file a return with the intent to defraud the city of any such tax, a specific penalty of fifty (50) percent of the amount of the proper tax shall be assessed. All penalties and interest imposed by this chapter shall be payable by the dealer and collectible by the treasurer in the same manner as if they were a part of the tax imposed.

b. It shall be prima facie evidence of intent to defraud the city of any tax due under this chapter when any dealer reports his gross sales, gross proceeds or cost price, as the case may be, at fifty (50) percent or less of the actual amount.

c. Interest at a rate determined in accordance with Code of Virginia, § 58.1-15, shall accrue on the tax until the same is paid, or until an assessment is made, pursuant to Code of Virginia, § 58.1-15, after which interest shall accrue as provided therein.

(9) *Exclusions and exemptions.* No tax shall be collected or assessed on:

a. Rentals by the commonwealth, any political subdivision of the commonwealth or the United States or

b. Any rental of durable medical equipment as defined in Code of Virginia, § 58.1-3510.7. Additionally, all exemptions applicable in Code of Virginia, title 58, chapter 6 (§ 58.1-600 et seq.) shall apply mutatis mutandis to the daily rental property tax.

(10) *Renter's certificate of registration.* A person who has not previously been engaged in the short-term rental business who applies for a certificate of registration pursuant to Code of Virginia, § 58.1-3510.5 shall be eligible for registration upon his certification that he anticipates meeting the requirements of a specific subdivision of Code of Virginia, § 58.1-3510.5, subsection B, designated by the applicant at the time of application, during the year for which registration is sought.

Every person engaging in the short-term rental business, as defined in Code of Virginia, § 58.1-3510.4, shall file annually with the commissioner of the revenue an application for a certificate of registration. The application shall be in a form prescribed by the commissioner of the revenue and shall set forth the name under which the applicant operates or intends to operate the rental business, the location of the business, the subdivision of Code of Virginia, § 58.1-3510.4B under which the business asserts that it is qualified for certification as a short-term rental business, and such other information as the commissioner may require.

Each applicant shall sign the application as owner of the rental business. If the

rental business is owned by an association, partnership, limited liability company, or corporation, the application shall be signed by a member, partner, executive officer, or other person specifically authorized by the association, partnership, limited liability company, or corporation to sign.

Upon approval of the application by the commissioner, a certificate of registration shall be issued. The certificate shall be conspicuously displayed at all times at the place of business for which it is issued.

The certificate is not assignable and shall be valid only for the person in whose name it is issued and the place of business designated.

In the event that the commissioner of the revenue makes a written determination that a rental business previously certified as short-term rental business pursuant to Code of Virginia, § 58.1-3510.5 has failed to meet either of the tests set forth in Code of Virginia, § 58.1-3510.5, subsection B of during a preceding tax year, such business shall lose its certification as a short-term rental business and shall be subject to the business personal property tax with respect to all rental property for the tax year in which such certification is lost and any subsequent tax years until such time as the rental business obtains recertification pursuant to Code of Virginia, § 58.1-3510.5. In the event that a rental business loses its certification as a short-term rental business pursuant to this subsection, such business shall not be required to refund to customers daily rental property taxes previously collected in good faith and shall not be subject to assessment for business personal property taxes with respect to rental property for tax years preceding the year in which the certification is lost unless the commissioner makes a written determination that the business obtained its certification by knowingly making materially false statements in its application, in which case the commissioner may assess the taxpayer the amount of the difference between short-term rental property taxes remitted by such business during the period in which the taxpayer wrongfully held certification and the business personal property taxes that would have been due during such period but for the certification obtained by the making of the materially false statements. Any such assessment, and any determination not to certify or to decertify a rental business as a short-term rental business as defined in this subsection, may be appealed pursuant to the procedures and requirements set forth in Code of Virginia, § 58.1-3983.1 for appeals of local business taxes, which shall apply mutatis mutandis to such assessments and certification decisions.

A rental business that has been decertified pursuant to the provisions of subsection E of Code of Virginia, § 58.1-3510.4 shall be eligible for recertification for a subsequent tax year upon a showing that it has met one of the tests provided in subsection B of Code of Virginia, § 58.1-3510.4 for at least ten (10) months of operations during the present tax year.

Such unpaid taxes shall be deemed delinquent and interest shall commence on the first day following the day such taxes are due.

The failure to file a return or to pay a tax due to the death of taxpayer or a medically determinable physical or mental impairment on the date the return or tax is due shall be presumptive proof of lack of fault on the taxpayer's part, provided the return is filed or the taxes paid within thirty (30) days of the due date; however if there is a committee, legal guardian, or conservator or other fiduciary handling the fiduciary affairs, such return shall be filed or such taxes paid within one hundred twenty (120) days after the fiduciary qualifies or begins to act on behalf of the taxpayer. (Code 1958, § 19-50.1)

Sec. 24-203. Tax abatement program for renovation of residential properties.

(a) Tax abatement under this section shall be permitted only on the substantial renovation of properties for residential use that are fifteen (15) years of age or more. Tax abatement under this section shall be permitted for multifamily residential properties that are forty (40) years of age or more; except that tax abatement under this section shall be permitted for properties

that are fifteen (15) years of age or more where the renovation is made to multifamily apartments to convert such properties to residential condominiums. The age of the building will be calculated from the Certificate of Occupancy or other final inspection. This program shall be in effect throughout the city. Only residential properties and multifamily residential properties being renovated and preserving fifty-one percent (51%) of the square footage of the original building being renovated will be eligible for abatement. Renovation shall include improvements expanding the qualifying properties only when vertically expanding the qualifying structure or the horizontal expansion is a fully integrated part of the structure containing the pre-existing units and are part of the overall renovation project. In order for fully integrated horizontal expansion to qualify for this abatement, the horizontal expansion, like vertical expansion, must for the width of the horizontal expansion connect to the building being renovated and share with the renovated building systems like HVAC and electrical. The real estate assessor's determination of whether horizontal expansion qualifies as fully integrated shall be final and nonappealable. For purposes of this section, "residential properties" shall mean properties of four (4) or fewer units; "multifamily residential properties" shall mean properties of five (5) or more units; and "residential condominiums" shall mean multiple-unit buildings which consist of separately owned, individual residential units with all unit owners having a right to use the common elements of the property and in which no owner shall own more than twenty (20) percent of all of the units after three (3) years from commencement of the tax abatement. The ownership percentage and time limitation shall be applied retroactively to properties previously approved and will commence as of the original date of such tax abatement.

(b) An application for inclusion within the tax abatement renovation program shall be filed with the city real estate assessor, together with the fee of fifty dollars ($50.00), on forms to be promulgated by the assessor. Except as specifically provided herein, no renovation activities shall be considered for inclusion within the program unless such application form (listing fully all work to be performed) is filed and approved by the assessor prior to the commencement of renovation work. The application for tax abatement certification shall be signed by the owner under oath. Only one application per property for inclusion in this program shall be approved in any one fourteen-year period. In order to be eligible, the renovation must be completed within three (3) years after the assessor approves the application. The work shall not be deemed completed within this time frame unless the assessor so certifies to the treasurer as contemplated under subsection (d). Extension may be granted for good cause shown, subject to approval by the city real estate assessor. The time limitation for completion of the work shall be applied retroactively to properties previously approved.

(c) In order for a residential property or property to be converted to residential condominiums to be eligible for abatement, the renovation must contribute a minimum of twenty (20) percent increase in the assessed value of the property. In order for a multifamily residential property to be eligible for abatement, the renovation must contribute a minimum of forty (40) percent increase in the assessed value of the property. This minimum increase must be determined and certified by the city real estate assessor prior to the commencement of renovation activities. The real estate assessor may utilize input of other city officers where necessary or appropriate to assist in the determination of anticipated increases in assessed value; however, the method of assessment shall be governed by generally accepted methods of appraisal assessment. Abatement shall be contingent upon approval of building exteriors by the director of planning, based upon compatibility, quality, value enhancement, bulk, massing and height. Properties located in historic districts will be reviewed for certificates of appropriateness.

(d) Upon completion of the renovation activities, and subject to the confirmation of such action as is deemed necessary by the assessor, the tax abatement eligibility and abatement amount shall be certified in writing by the assessor to the city treasurer who shall then

implement the tax abatement. The city assessor's determination shall be final and not subject to appeal. The tax abatement shall commence as of the first day of the quarter following completion of the renovation. The resulting increase in assessed value ("abatement amount") shall not be recognized for real estate tax purposes for a period of ten (10) years, beginning the first day of the quarter immediately after the renovation activities have been completed. Notwithstanding any provision to the contrary, (i) the abatement amount shall not be increased after the city assessor establishes it; accordingly, any subsequent increases in value or rates will result in increased tax payments, and (ii) in no event shall the abatement result in any decrease in the base assessed value of the property determined by the city assessor at the time of the certification of eligibility. Upon the completion of ten (10) years of exemption for the abatement amount, the abatement amount shall be decreased to the extent of twenty (20) percent in each succeeding year; whereupon after the completion of the fourteenth year, the property shall be taxed at one hundred (100) percent of its fair market value.

(e) The tax abatement established by this section runs with the land, provided, however, that the property must at all times be in full compliance with all Norfolk City Codes including, without limitation, the building code, the housing code, the zoning ordinance of the City of Norfolk, and all other rules and regulations which affect or control the occupancy, use and management of the property. Should the director of planning determine that the property has become substantially out of compliance with applicable city ordinances, the director of planning shall thereupon give notice to the owner of such certification. The owner, having received written notice of ordinance violations, shall be granted thirty (30) days in which to correct said violations or to establish, to the satisfaction of the director of planning, that the certification of violations previously received is in error. Should the director of planning be satisfied at the end of said thirty-day period that the ordinance violations have occurred and have not been corrected by the owner as required by this subsection, he shall immediately notify the real estate assessor in writing who shall immediately and finally revoke tax abatement status of the property. Such abatement revocation shall be prospective in operation only and shall be immediately communicated to the owner in writing.

(f) Nothing in this section shall give rise to any tax abatement other than the amount determined by the city assessor as provided in subsection (d) above.

(g) No application submitted under this section shall be approved if the property owner is not current in payment of all taxes and assessments due the city. If a tax abatement is approved and a property owner (including any subsequent owner) thereafter fails to remain current in the payment of all city taxes and assessments, the property shall be immediately and finally removed from the tax abatement program.

(h) For properties on which renovation activities were completed on or after September 2012, upon completion of the renovation activities, and subject to the confirmation of such action as is deemed necessary by the assessor, the assessor shall determine the initial and adjusted tax abatement amounts where (i) the initial abatement amount is equal to the increase in assessed value of the property at the time of completion of renovation activities as determined by the assessor and (ii) the adjusted tax abatement amount is equal to the projected increase in assessed value of the property at the time the property achieves stabilized occupancy as determined by the assessor (in the event that the renovation activities are completed for a qualifying property prior to the effective date of this ordinance, the adjusted tax abatement amount shall be determined by the assessor prior to the initial term).

The tax abatement eligibility and abatement amount shall be certified in writing by the assessor to the city treasurer who shall then implement the tax abatement. The city assessor's determination shall be final and not subject to appeal. The initial tax abatement established by this section shall commence as of the first day of the quarter following completion of the renovation. The resulting increase in assessed value

("initial abatement amount") shall not be recognized for real estate tax purposes for a period of two (2) years beginning the first day of the quarter immediately after the renovation activities have been completed.

The adjusted tax abatement established by this section shall commence as of the first day of the quarter two (2) years following completion of the renovation. The resulting increase in assessed value ("adjusted abatement amount") shall not be recognized for real estate tax purposes for a period of twelve (12) years for a property located in an area designated as an enterprise zone, beginning the first day of the quarter two years after the renovation activities have been completed. For all other properties on which renovation activities were completed on or after September 2012, the resulting increase in assessed value "adjusted abatement amount" shall not be recognized for real estate tax purposes for a period of eight (8) years, beginning the quarter two years after completion of the renovation activities have been completed. Upon the completion of eight (8) years of exemption for the adjusted abatement amount for a property not located in an area designated as an enterprise zone, the abatement amount shall be decreased to the extent of twenty (20) percent in each succeeding year; whereupon after the completion of the fourteenth year during which the owner has received an initial or adjusted abatement, the property shall be taxed at one hundred (100) percent of its fair market value.

Notwithstanding any provision to the contrary, (i) the initial and adjusted abatement amounts shall not be increased after the city assessor establishes them; accordingly, any subsequent increases in value or rates will result in increased tax payments, and (ii) in no event shall the initial or adjusted abatements result in any decrease in the base assessed value of the property determined by the city assessor at the time of the certification of eligibility.

Sec. 24-203.1. Tax abatement program for renovation of commercial or industrial structures.

(a) Tax abatement under this section shall be permitted only on the substantial rehabilitation or renovation of properties for commercial or industrial use that are forty (40) years of age or more, or twenty (20) years of age if the property is located in an area designated as an enterprise zone by the commonwealth when at least fifty-one percent (51%) of the square footage of the original building is being preserved. This program shall be in effect throughout the city. The age of the building will be calculated from the Certificate of Occupancy or other final inspection.

(b) An application for inclusion within the tax abatement renovation program shall be filed with the city real estate assessor, together with the fee of two hundred fifty dollars ($250.00), on forms to be promulgated by the assessor. No renovation activities shall be considered for inclusion within the program unless such form (listing fully all work to be performed) is filed and approved by the assessor prior to the commencement of renovation work. The application for tax abatement certification shall be signed by the owner under oath. Only one application per commercial or industrial property for inclusion in this program shall be approved in any one fourteen-year period. In order to be eligible, the renovation must be completed within three (3) years after the city real estate assessor approves the application. The work shall not be deemed completed within this time frame unless the assessor so certifies to the treasurer as contemplated under subsection (d). Extension may be granted for good cause shown, subject to approval by the city real estate assessor. The time limitation for completion of the work shall be applied retroactively to properties previously approved.

(c) In order to be eligible for abatement, the renovation must contribute a minimum of forty (40) percent increase in the assessed value of the

property. This minimum increase must be determined and certified by the city real estate assessor prior to the commencement of renovation activities. Renovation eligible for abatement shall include expansion of the improvements only when the structure containing the expansion is vertical or the horizontal expansion is a fully integrated part of the previously existing structure and is part of the overall renovation project. In order for fully integrated horizontal expansion to qualify for this abatement, the horizontal expansion, like vertical expansion, must for the width of the horizontal expansion connect to the building being renovated and share with the renovated building systems like HVAC and electrical. The real estate assessor's determination of whether horizontal expansion qualifies as fully integrated shall be final and nonappealable. The real estate assessor may utilize input of other city officers where necessary or appropriate to assist in the determination of anticipated increases in assessed value; however, the method of assessment shall be governed by generally accepted methods of appraisal assessment. Abatement shall be contingent upon approval of building exteriors by the director of planning, based upon compatibility, quality, value enhancement, bulk, massing and height. Properties located in historic districts will be reviewed for certificates of appropriateness.

(d) For properties on which renovation activities were completed on or after September 2012, upon completion of the renovation activities, and subject to the confirmation of such action as is deemed necessary by the assessor, the assessor shall determine the initial and adjusted tax abatement amounts where (i) the initial abatement amount is equal to the increase in assessed value of the property at the time of completion of renovation activities as determined by the assessor and (ii) the adjusted tax abatement amount is equal to the projected increase in assessed value of the property at the time the property achieves stabilized occupancy as determined by the assessor (in the event that the renovation activities are completed for a qualifying property prior to the effective date of this ordinance, the adjusted tax abatement amount shall be determined by the assessor prior to the initial term).

The tax abatement eligibility and abatement amount shall be certified in writing by the assessor to the city treasurer who shall then implement the tax abatement. The city assessor's determination shall be final and not subject to appeal. The initial tax abatement established by this section shall commence as of the first day of the quarter following completion of the renovation. The resulting increase in assessed value ("initial abatement amount") shall not be recognized for real estate tax purposes for a period of two (2) years beginning the first day of the quarter immediately after the renovation activities have been completed.

The adjusted tax abatement established by this section shall commence as of the first day of the quarter two (2) years following completion of the renovation. The resulting increase in assessed value ("adjusted abatement amount") shall not be recognized for real estate tax purposes for a period of twelve (12) years for a property located in an area designated as an enterprise zone, beginning the first day of the quarter two (2) years after the renovation activities have been completed. For all other properties on which renovation activities were completed on or after September 2012, the resulting increase in assessed value "adjusted abatement amount" shall not be recognized for real estate tax purposes for a period of eight (8) years, beginning the quarter two (2) years after completion of the renovation activities have been completed. Upon the completion of eight (8) years of exemption for the adjusted abatement amount for a property not located in an area designated as an enterprise zone, the abatement amount shall be decreased to the extent of twenty (20) percent in each succeeding year; whereupon after the completion of the fourteenth year during which the owner has received an initial or adjusted abatement, the property shall be taxed at one hundred (100) percent of its fair market value.

Notwithstanding any provision to the contrary, (i) the initial and adjusted abatement amounts shall not be increased after the city assessor

establishes them; accordingly, any subsequent increases in value or rates will result in increased tax payments, and (ii) in no event shall the initial or adjusted abatements result in any decrease in the base assessed value of the property determined by the city assessor at the time of the certification of eligibility.

(e) The tax abatement established by this section is limited to the original applicant and one transferee, provided, however, that the property must at all times be in full compliance with all Norfolk City Codes including, without limitation, the Building Code, the Housing Code, the Zoning Ordinance of the City of Norfolk, and all other rules and regulations which affect or control the occupancy, use and management of the property. Should the director of planning determine that the property has become substantially out of compliance with applicable city ordinances, the director of planning shall thereupon give notice to the owner of such certification. The owner, having received written notice of ordinance violations, shall be granted thirty (30) days in which to correct said violations or to establish, to the satisfaction of the director of planning, that the certification of violations previously received is in error. Should the director of planning be satisfied at the end of said thirty-day period that the ordinance violations have occurred and have not been corrected by the owner as required by this subsection, he shall immediately notify the real estate assessor in writing who shall immediately and finally revoke tax abatement status of the property. Such abatement revocation shall be prospective in operation only and shall be immediately communicated to the owner in writing.

(f) Nothing in this section shall give rise to any tax abatement other than the amount determined by the city assessor as provided in subsection (d) above.

(g) No application submitted under this section shall be approved if the property owner is not current in payment of all taxes and assessments due the city. If a tax abatement is approved and a property owner (including any subsequent owner) thereafter fails to remain current in the payment of all city taxes and assessments, the property shall be immediately and finally removed from the tax abatement program.

(a) If the proposed renovation is a mixed-use of i) residential as defined in section 24-203 and of ii) commercial or industrial as defined in section 24-203.1, then the property's inclusion in a tax abatement program will be governed under either the tax abatement program in section 24-203 or the tax abatement program in section 24-203.1. The program that governs the property will be the Code section for the use that comprises at least sixty (60) percent of the proposed renovation at the time of application to the program.

Sec. 24-205. Definitions.

For the purpose of this division, permanently and totally disabled shall be as defined in § 58.1-3217 and determined as set forth in § 58.1-3213(D) of the Code of Virginia, 1950, as amended.

"Average residential tax" is the average residential assessment in the July 1 real estate land book of the fiscal year immediately preceding the fiscal year for which relief is sought multiplied by the applicable real estate tax rate for the fiscal year for which relief is sought.

"Nonqualified transfer" means a transfer in ownership of the real estate by gift or otherwise not for bona fide consideration, other than (i) a transfer by the qualified owner to a spouse, including without limitation a transfer creating a tenancy for life or joint lives; (ii) a transfer by the qualified owner or the qualified owner and his spouse to a revocable inter vivos trust over which the qualified owner, or the qualified owner and his spouse, hold the power of revocation; or (iii) a transfer to an irrevocable trust under which a qualified owner alone or in conjunction with his spouse possesses a life estate or an estate for joint lives, or enjoys a continuing right of use or support.

"Qualified owner" means the owner of the real property who qualifies for a tax deferral by county, city, or town ordinance.

"Real estate tax relief amount" is the annual amount established by city council budgeted for the purpose of providing real estate tax deferrals under section 24-209.1 of the Norfolk City Code, after providing the real estate tax exemptions for disabled veterans pursuant to Code of Virginia § 58.1-3219.5 and the amount of exemptions and deferrals provided under section 24-209 of the Norfolk City Code.

Sec. 24-206. Administration.

Exemptions and deferrals under this division shall be administered by the city manager or his/her authorized designee, herein referred to as the "administrator," according to the general provisions contained in this division. The administrator is hereby authorized and empowered to prescribe, adopt and enforce rules and regulations, including the requirement of answers under oath, as may be reasonably necessary to determine qualifications for exemption or deferral. The administrator may require the production of certified tax returns, appraisal reports, and other certifications to establish income, financial worth or disability.

In any fiscal year, the total amount of deferrals provided under this division shall not exceed the real estate tax relief amount as defined in section 24-205 of the Norfolk City Code.

In any fiscal year in which the real estate tax relief amount is not sufficient to afford the total amount of all allowable deferrals qualified for under section 24-209.1 of the Norfolk City Code, the amount of deferral provided to each person qualifying shall be computed as a fraction of that allowable under the provisions of this division. The numerator of the fraction shall be the real estate tax relief amount and the denominator of the fraction shall be the total amount of all allowable deferrals qualified for under the provisions of section 24-209.1 of the Norfolk City Code.
(Ord. No. 30,612, § 2, 5-27-80; Ord. No. 41,839, § 9, 5-17-05; Ord. No. 45,007, § 3, 2-12-13; Ord. No. 45,563, § 16, 5-20-14, eff. 7-1-14)

Sec. 24-207. Conditions for grant of exemption or deferral.

(1) The title to the property for which exemption or deferral is claimed is held, or partially held, on June 30 immediately preceding the taxable year by the person or persons claiming exemption or deferral.

(3) The gross combined income of the owner during the year immediately preceding the taxable year shall be determined by the administrator to be an amount not to exceed the limits established by section 24-209 and 24-209.1 of the Norfolk City Code. Gross combined income shall include all income from all sources of the owner and of the owner's relatives living in the dwelling for which exemption or deferral is claimed, provided that the first ten thousand dollars ($10,000.00) of income of each relative, who is not the spouse of an owner, shall not be included in such total or up to ten thousand dollars

($10,000.00) of income for an owner who is permanently disabled. "Owner" as used herein shall also be construed as "owners."

(4) The net combined financial worth of the owner as of June 30 of the year immediately preceding the taxable year shall be determined by the administrator to be an amount not to exceed three hundred fifty thousand dollars ($350,000.00). Annually, not prior to the first day of February nor later than the first day of June of the taxable year, the person or persons claiming an exemption or deferral must file a real estate tax relief application and affidavit with the administrator. Such application and affidavit shall set forth, in a manner prescribed by the administrator, the location, assessed value of the property and the names of the related persons occupying the dwelling for which exemption or deferral is claimed, their gross combined income, and their net financial worth.

The administrator is authorized to accept filing of applications and affidavits submitted by participants in the program in the previous tax year after the first day of June of the tax year for which exemption or deferral is sought due to demonstrated hardship.

Where the person or persons claiming deferral conforms to the standards and does not exceed the limitations contained in this division, the tax deferral shall be as shown on the following schedule, except that the amount of tax deferred shall not exceed the average residential tax multiplied by the qualifying percentage of deferral and, in accordance with section 24-206 above, shall be reduced, subject to the real estate tax relief amount:

Combined Income	*% of Tax Deferred*
28,611.01—36,958.00	80%
36,958.01—45,306.00	60%

the vendor, transferor, executor, or administrator: (i) upon the sale of the real estate; (ii) upon a nonqualified transfer of the real estate; or (iii) from the estate of the decedent within one year after the death of the last qualified owner thereof. Such deferred real estate taxes shall be paid without penalty, except that the city may collect interest of eight percent (8%) per year on any amount so deferred, and such taxes and interest, if applicable, shall constitute a lien upon the real estate as if it had been assessed without regard to the deferral permitted by this section. Any such lien shall, to the extent that it exceeds in the aggregate ten percent (10%) of the price for which such real estate may be sold, be inferior to all other liens of record.

Sec. 24-210. Changes in income, net worth, etc.

Changes in respect to income, financial worth, ownership of property or other factors occurring during the taxable year for which the affidavit mentioned in section 24-208 above is filed and having the effect of exceeding or violating the limitations and/or conditions provided in this section [division] shall nullify any relief of real estate tax liability for the then current taxable year and the taxable year immediately following.
(Ord. No. 30,612, § 6, 5-27-80)

Sec. 24-211. Penalty for false statements.

Any person or persons who shall falsely claim an exemption or deferral or shall falsely give information on which an exemption or deferral is based shall be guilty of a misdemeanor and upon conviction thereof shall be punished by a fine not exceeding one thousand dollars ($1,000.00) or confinement in jail not exceeding twelve (12) months, or both such fine and imprisonment.

DIVISION 2.2. EXEMPTION FOR SURVIVING SPOUSES OF CERTAIN PERSONS KILLED IN THE LINE OF DUTY*

Sec. 24-211.1. Definitions.

As used in this section, "covered person" means any person set forth in the definition of "deceased person" in the Line of Duty Act, §§ 9.1-400 et seq. of the 1950 Code of Virginia, as amended (the "Act"), whose beneficiary, as defined in Virginia Code § 9.1-400, is entitled to receive benefits under Virginia Code § 9.1-402, as determined by the Commonwealth of Virginia's Comptroller prior to July 1, 2017, or as determined by the Virginia Retirement System on and after July 1, 2017.
(Ord. No. 49,066, § 1, 1-24-23)

Sec. 24-211.2. Requirements and administration.

(a) Upon application, total or partial exemption from real estate taxation shall be granted for residential real estate, consisting of a single-family dwelling unit, accessory structures, and no more than three (3) acres of land owned by and occupied as the principal place of residence of a surviving spouse of any covered person, provided that each of the following criteria are met:

(1) The surviving spouse holds title or partial title to the real property at the time the application is made;

(2) The surviving spouse occupies the real property as his or her principal place of residence; and

(3) The surviving spouse does not remarry.

(b) If the assessed value of the dwelling in the most recently ended tax year, exclusive of the value of the land on which it is situated, is not in excess of the average assessed value for such year of a dwelling situated on property zoned for

*__Editor's note—__Prior to reenactment by Ord. No. 49,066, § 1, adopted Jan. 24, 2023, Ord. No. 42,280, § 1, adopted May 16, 2006, added provisions designated as Div. 2.2, §§ 24-211.1—24-211.7. Said ordinance included a sunset provision set to expire June 30, 2007. At the direction of the city, the division, which pertained to general deferral of a portion of real estate tax increases, has been repealed.

single-family residential use, a total exemption from real estate taxation shall be granted for the dwelling.

(c) If the assessed value of the dwelling in the most recently ended tax year, exclusive of the value of the land on which it is situated, is in excess of the average assessed value for such year of a dwelling situated on property zoned for single-family residential use, then only that portion of the assessed value shall be subject to real property taxation, and the portion of the assessed value that is not in excess of the average assessed value shall be exempt from real property taxes;

(d) The first three (3) acres of land of any property on which a dwelling that is totally or partially exempt from real estate taxation pursuant to this section is situated shall be exempt from real estate taxation.

(e) For tax years beginning on or after January 1, 2017, a real property improvement other than a dwelling, including the land on which such improvement is situated, made to such three (3) acres shall also be exempt from taxation so long as the principal use of the improvement is:

(1) To house or cover motor vehicles or household goods and personal effects, and

(2) For other than a business purpose.

(f) For purposes of the exemption provided above, real property of any surviving spouse of a covered person includes any single- family home, condominium, townhome, manufactured home, whether or not the wheels and other equipment previously used for mobility have been removed, or other type of dwelling unit designed for occupancy by a single family, whether or not the land on which the single-family home, condominium, townhome, manufactured home, or other type of dwelling is located is owned by someone other than the surviving spouse, that is (i) held by a surviving spouse of a tenant for life, (ii) held in a revocable inter vivos trust over which the surviving spouse holds the power of revocation, or (iii) held in an irrevocable trust under which the surviving spouse possesses a life estate or enjoys a continuing right of use or support. The term does not include any interest held under a leasehold or term of years. If the land on which the single-family home, condominium, townhome, manufactured home, or other type of dwelling is located is not owned by the surviving spouse, then the land is not exempt.

(g) For purposes of the exemption provided above, in the event that a surviving spouse is entitled to an exemption by virtue of holding the real property in any of the three ways set forth in subsection (f) by which one or more persons have an ownership interest in the real property that permits them to occupy the property, then the tax exemption for the property that otherwise would have been provided shall be prorated by multiplying the amount of the exemption by a fraction that has "1" as a numerator and has as a denominator the total number of all people having an ownership interest that permits them to occupy the property.

(h) For purposes of the exemption provided above, in the event that the principal residence is jointly owned by two (2) or more individuals, including the surviving spouse, and no person is entitled to the exemption under this section by virtue of holding the property in any of the three (3) ways set forth in subsection (f), then the exemption shall be prorated by multiplying the amount of the exemption by a fraction that has as a numerator the percentage of ownership interest in the dwelling held by the surviving spouse, and as a denominator, one hundred (100) percent.

(i) The city manager or his designee is authorized and empowered to prescribe, adopt and enforce rules and regulations, including the requirement of answers under oath, as may be reasonably necessary to determine qualifications for exemption. The city manager may require the production of such documentation as may be required as necessary to establish eligibility for an exemption under this section.
