Cases:

The people retain the right to legislate through the initiative procedure. *Pitman v. Drabelle,* 267 Mo. 78, 183 S.W. 1055 (1916); *State v. Miller,* 315 Mo. 41, 285 S.W. 504 (1926).

The people's power to amend the charter does not preclude amendments by the board of aldermen. *State v. City of St. Louis,* 319 Mo. 497, 5 S.W. 2d 1080 (1928).

The restriction that the board of public service must recommend a public improvement applies to proposals under the initiative as well as ordinances proposed by the board of aldermen. *Baum v. City of St. Louis,* 343 Mo. 738, 123 S.W. 2d 48 (1938).

When initiative proposal for charter amendment had signatures representing 10% but less than 15% of the registered voters at the last mayoralty election, the board of aldermen were required to place it on the ballot at the next general election even though no general election was scheduled between 30 and 90 days after certification of rejection by the board of aldermen. *State ex rel. Blackwell v. Travers,* 600 S.W. 2d 110 (1980).

The initiative process under a city charter cannot be utilized to appropriate funds, due to the limitations of Mo.Const. art. III, §51. *City of Kansas City v. Chastain*, 420 S.W.3d 550 (Mo.banc 2014).

Section 1 Use authorized.

The people shall have power, at their option, to propose ordinances, including ordinances proposing amendments to this charter, and to adopt the same at the polls, with the same effect as if adopted by the board of aldermen and approved by the mayor, such power being known as the initiative. It shall be exercised as hereinafter provided, subject to the provisions of this charter.

City Counselor Ops.: 7865, 10027

Cases:

The people retain the right to initiate and adopt ordinances. *State v. Miller,* 285 S.W. 504, 315 Mo. 41 (1926).

The people's power to amend the charter does not preclude amendments by the board of aldermen. *State v. City of St. Louis,* 319 Mo. 497, 5 S.W. 2d 1080 (1928).

Initiative and referendum are essentially different. Initiative is the proposal of legislation by the public. It has no need for time limits and warrants a lesser initial support to justify submission to the voters. Referendum is the overturning of legislation enacted by the representatives of the people. It requires strict time limits so is not to unduly delay the effectiveness of duly enacted legislation and warrants a greater showing of initial support. The two are not, by their very nature, interchangeable. *State ex rel. St. Louis Regional Health Care Corp. v. Wamser,* 735 S.W. 2d 741 (1987).

Initiatives that are facially unconstitutional are subject to pre-election challenge, and an initiative which on its face prohibits what relevant statutes permit is unconstitutional. *Noel v. Bd. of Election Commissioners*, 465 S.W.3d 88 (Mo.App.E.D. 2015)(proposed initiative forbidding city tax credits for "unsustainable energy producers" was in conflict with state economic development tax incentive statutes and could not be submitted to voters).

Section 2 Petition required.

Such an ordinance shall be proposed by petition signed by registered voters equal in number to five percent or, in case the proposed ordinance is for the submission of an amendment to the charter, ten percent of all the registered voters of the city at the time of the last preceding regular mayoralty election. Each of the papers comprising the petition shall contain the proposed ordinance in full and designate by names and addresses five persons as the committee of the petitioners.

City Counselor Ops.: 10027, 10507

Cases:

This provision does not require a summary statement to be included in an initiative petition; the Charter standard prevails on statutes on this point. *Noel v. Bd. of Election Commissioners*, 465 S.W.3d 88 (Mo.App.E.D. 2015).

Section 3 Procedure employed in recall to be followed.

Each such petition and the papers comprising same shall be governed by, and proceedings shall be had thereon in accordance with, the provisions of section 3 and 5 of article III concerning the recall, but construing said sections with reference to the petition and the sufficiency thereof required by this article.

City Counselor Ops.: 10027

Section 4 Certification of petition; submission of proposed ordinance to voters.

If the board of election commissioners find that the petition, with supplements, if any, is sufficient, it shall forthwith certify that fact, together with a copy of the petition, omitting signatures, to the board of aldermen. Unless the proposed ordinance is, without amendment, adopted and approved by the mayor, or adopted, without amendment, over his veto, within sixty days after the regular meeting of the board of aldermen next after said certification, or unless four members of the committee of the petitioners shall, within fifteen days after the expiration of said sixty days, state in writing to the clerk of the board of aldermen that there is no necessity for submitting the proposed ordinance to the voters, said clerk shall forthwith certify the failure to adopt same to the board of election commissioners. Said board of election commissioners shall thereupon provide for submitting said proposed ordinance, in its original form, to the voters at the first election at which such submission may lawfully be had, not less than thirty days after such certification to it by said clerk, and if there is no such election within ninety days after such certification, and the petition shall be signed by registered voters equal in number to seven per cent, or in case the proposed ordinance is for the submission of an amendment to the charter, fifteen per cent, of all the registered voters of the city at the time of the last preceding regular mayoralty election, then such submission shall be at a special election to be held within such ninety days if legally possible, otherwise at the earliest day on which such submission may be had at either a general or special election.

Cases:

This provision permits action earlier than the deadlines. *State v. Miller,* 315 Mo. 41, 285 S.W. 504 (1926).

Section 5 Form of ballot; adoption of ordinance; publication.

The ballots shall state the nature of the proposed ordinance, and to the right thereof in bold type the words "Yes" and "No" one above the other. To vote for such ordinance the voter shall strike out the word "No" and to vote against it, the word "Yes." If a majority voting on the proposed ordinance vote in favor thereof, it shall be an ordinance of the city, in effect ten days thereafter, and the board of election commissioners shall certify a copy thereof and the fact of its adoption to the register who shall number said ordinance and file

and preserve said copy and certificate in his office. Such ordinance shall be published and printed copies thereof made for distribution as provided for other ordinances.

Section 6 Amendment or repeal of initiated ordinance.

No ordinance adopted at the polls under the initiative shall be amended or repealed by the board of aldermen except by vote of two-thirds of all the members, nor within one year after its adoption.

Section 7 Charter Commission.

1. In accordance with the provisions of the Missouri Constitution, and in addition to the people's power of initiative, as described in Section 1 of Article V, the lawmaking body of the City of St. Louis may submit proposals for the amendment or revision of the City Charter to the qualified voters through a Charter Commission process in the manner hereinafter provided.

2. After April 4, 2023, and before August 1, 2023, and every ten (10) years thereafter, or upon the certification of a petition as provided for in Paragraph F of this subsection, a Charter Commission shall be appointed to consider whether to revise and amend the charter according to the following process.

A. Application: Within five (5) days of certification of April 4, 2023 election results, and on March 1 every ten (10) years thereafter, or within ten (10) days of certification as provided in Paragraph F, the Mayor of the City of St. Louis shall publish and make available to the public an application to serve on the Charter Commission. Such application shall remain open for fifty (50) days, shall verify applicant's eligibility under the provisions of subparagraph a of this paragraph, and require applicants to disclose conflicts of interest and inform applicants that their responses will be made public.

a. Eligibility Criteria:

i. Be registered voters in the City of St. Louis for at least two (2) consecutive years immediately preceding the date of appointment to the Commission.

ii. Be free of conflicts of interest. For the purposes of this bill, a conflict of interest arises if, in the two years immediately preceding the date of appointment to the Commission, an applicant, or a first-degree relative of the applicant has:

1. Been a lobbyist representing clients with interests in front of city government; or

2. Have financial or service contracts with any City department or office.

B. Recommendation: Within five (5) days of applications closing, the Mayor's Office shall provide copies of each application, categorized by the ward in which the applicant resides, to the Board of Aldermen for review. Within ten (10) days of receipt of applications, each member of the Board of Aldermen shall review the applications and select three (3) applicants to forward to the Mayor's office for nomination. If any member of the Board of Aldermen fails to select three (3) applicants by the timeline herein, the member forfeits their unselected applicants.

C. Nomination: Within fourteen (14) days of receipt of aldermen's recommendations, the Mayor shall deliver, from the pool of recommended applicants, nine (9) nominations to serve on the Charter Commission to the Board of Aldermen for confirmation. Said nominations to the Charter Commission shall be made so as to provide for a total geographical representation of the residents of this City.

1. Geographical representation shall mean:

a. Three nominations from the Mayor shall come from the geographical area south of Arsenal Street and extending to the city boundaries to the east, west, and south; and

b. Three nominations from the Mayor shall come from the geographical area north of Page Boulevard at the western city limit east to Martin Luther King Drive, continuing north of Martin Luther King Drive to the eastern city limit, and extending to the northern city boundaries; and

c. Three nominations from the Mayor shall come from the geographical area between Arsenal Street to the south and Page Boulevard and Martin Luther King Drive to the north as described in section (b), extending to the east and west city boundaries.

D. Confirmation: Within twenty-one (21) days of the Mayor's nomination, the Board of Aldermen committee that is ordinarily charged with hearing bills and issues related to intergovernmental affairs shall hold public hearings with public testimony concerning the nominees and the full Board of Aldermen shall vote on whether to confirm the nominees. If a majority of the members of the Board of Aldermen vote to confirm a nominee, the nominee shall be appointed as a Charter Commission member. In the event an individual is not confirmed by a majority of the Board of Aldermen, the Mayor shall deliver to the Board of Aldermen a new

nominee from the pool of applicants recommended by members of the Board of Aldermen for the Charter Commission within four (4) days of the Board of Aldermen voting not to confirm the prior nominee.

E. Alternative Selection Mechanism: If, by August 7, 2023 and every 10 years thereafter there are any remaining open positions on the Charter Commission, any open positions on the Charter Commission shall be filled by random selection according to the following process. At a public meeting of the Board of Aldermen committee that is ordinarily charged with hearing bills and issues related to intergovernmental affairs the names of all remaining candidates recommended to the Mayor by members of the Board of Aldermen, and neither appointed nor rejected by the Board of Aldermen, shall be placed into a container, and names shall be drawn by the Chair of the committee to fill open positions until all open positions are filled. This public meeting shall take place immediately so as to have a fully appointed Charter Commission by the required start date of August 15, 2023 and every 10 years thereafter. If there is a vacancy on the Charter Commission resulting from the death, resignation or inability of any member to serve for more than thirty days, the process outlined in this Subsection E shall be followed within thirty (30) days of the Charter Commission notifying the Board of Aldermen of said vacancy.

F. Initiative Petition Process: Upon the filing with the Board of Election Commissioners in the city of St. Louis of a petition proposing the exercise of the Charter Commission powers hereby granted, signed by registered voters of the city in such number as shall equal five percent of the total vote cast in the city at the last general election for Mayor, and the certification thereof by the Board of Election Commissioners to the mayor, then, within ten days after the certification, the mayor shall publish and make available to the public an application to serve on the Charter Commission and follow the process set out in Paragraphs A, B, C, D and E of this subsection.

3. Charter Commission Operating Framework

A. The appointment of the ten year Charter Commission shall take effect on August 15, and the Charter Commission shall hold its first public meeting no later than 4 September 10. The Charter Commission shall hold public meetings on at least a monthly basis, and shall recommend any Charter amendments to the Board of Election Commissioners within one year of its first public meeting. The Charter Commission shall stand discharged and cease to exist within one year of its first public meeting.

B. In addition to the voting members of the Charter Commission, described in Sub-section 2, the Charter Commission shall include the following six non-voting ex-officio members, who shall not count for the purposes of a quorum, and who shall present information and expertise to the Charter Commission upon request: the Mayor or their designee, the Comptroller or their designee, the President of the Board of Aldermen or their designee, the Director of Personnel or their designee, the City Counselor or their designee, one member from the Labor community to give input on workers' interests and knowledge of public sector employment, and the Chairperson of the Board of Aldermen committee that is ordinarily charged with hearing bills and issues related to intergovernmental affairs. It shall be the responsibility of the City Counselor's Office to ensure that the Charter Commission is adequately staffed and funded.

C. The Charter Commission's mandate shall be to frame charter amendments for submission to the qualified voters. In order to fulfill this duty, the Charter Commission shall solicit input from the public and from experts, publish a draft set of proposed charter amendments not more than 10 months into its term, and hold at least one public hearing before and after the publication of the draft proposed charter amendments. The draft of proposed charter amendments shall be made publicly available no less than two weeks prior to the required public hearing.

D. Each voting member of the Charter Commission shall receive a stipend, if requested, for each meeting they attend to provide for child care, transit, and/or parking vouchers. These stipends shall be vetted by the City Counselor's Office to insure allocations are proportionate to need, and paid out of the City Counselor budget.

E. The Charter Commission shall select officers and make other decisions as necessary subject to a majority vote of the voting members of the commission. In order to submit any new charter, charter provision, or amendment to a charter provision to the Board of Elections Commissioners, it must receive the affirmative vote of two-thirds of all voting members of the Charter Commission.

F. All meetings of the Charter Commission shall be open, public meetings when a quorum is present,

and shall follow the Transparency in Government Law (City of St. Louis Ordinance 69707, April 15, 2014) requirements for Public Meetings.

4. Any charter or amendments framed by the Commission shall take effect on the day fixed therein if approved by vote of three-fifths of the City's qualified voters voting thereon at a general election held on a day fixed by the Commission not less than sixty (60) days nor more than one (1) year after the completion of the charter or amendments.

5. The provisions of the Missouri constitution for framing and adopting a city charter shall apply.

Article VI

REFERENDUM

City Counselor Ops.: 10290

Section 1 When to be exercised.

The people shall have power, at their option, to approve or reject at the polls any ordinance (except it be an emergency measure as defined in section 20 of article IV), such power being known as the referendum and to be invoked and exercised as herein provided.

Cases:

An ordinance for public improvements outside city limits is legislative and subject to the referendum. *State v. Edwards,* 305 Mo. 431, 266 S.W. 127 (1924).

A proposition seeking the repeal of an ordinance and proposing a new ordinance in lieu thereof was held to be a referendum required to meet the requirements of Charter, Art. VI. *State ex rel. St. Louis Regional Health Care Corp. v. Wamser,* 735 S.W. 2d 741 (1987).

Initiative and referendum are essentially different. Initiative is the proposal of legislation by the public. It has no need for tune limits and warrants a lesser initial support to justify submission to the voters. Referendum is the overturning of legislation enacted by the representatives of the people. It requires strict time limits so as not to unduly delay the effectiveness of duly enacted legislation and warrants a greater showing of initial support. The two are not, by their very nature, interchangeable. *State ex rel. St. Louis Regional Health Care Corp. v. Wamser,* 735 S.W. 2d 741 (1987).

Charter provisions governing and limiting the power of referendum do not contravene the referendum provisions of Mo.Const. art. III, §52(a). *State ex rel. Petti v. Goodwin-Raftery*, 190 S.W.3d 501 (Mo.App.E.D. 2006)(construing Florissant charter).

McQuillin:

16.48—16.70 Initiative and Referendum

Section 2 Petition required; reconsideration of ordinance; submission to voters.

If within thirty days after the approval by the mayor of any ordinance (not an emergency measure) or its adoption over his veto, there is filed with the board of election commissioners a petition purporting to be signed by registered voters equal in number to two percent of all registered voters of the city at the time of the last preceding regular mayoralty election, requesting that said ordinance be reconsidered and rejected or referred, then said board shall certify that fact to the register and said ordinance shall not take effect except as hereinafter provided. Within ten days after such filing the said board shall find and certify the number of registered voters signing said petition and what percentage said number equals of the entire number of said registered voters at the time of said election. If the percentage so found is less than the two percent aforesaid, said board shall certify that fact to the register, the said petition shall not be supplemented, and said ordinance shall take effect. If the percentage so found is not less than two percent but is less than seven percent of all said registered voters at the time of said election, then within thirty days after the certification of such finding there may be filed with said board a supplemental petition, shown, by the affidavits appended thereto, to be signed by registered voters to a number which, with the number of registered voters who signed the original petition, equals in number said seven per cent. If such supplemental petition is filed, said board shall within ten days thereafter find and certify the number of registered voters signing same and whether such signers, added to registered voters who signed the original petition, equal in number said seven per cent. If it finds that the aggregate number of such signers does not equal said seven per cent, or if the committee of the petitioners make the statement in writing as hereinafter mentioned, said board shall certify the fact to the register, no further supplementing shall be permitted, and said ordinance shall take effect. If said board finds the original petition, or the original and supplemental petitions together, to be signed by registered voters equal in number to said seven per cent, it shall, forthwith after either such finding, certify that fact, together with a

copy of the petition (omitting the signatures), to the register and to the board of aldermen, and the latter board shall reconsider said ordinance. If on such reconsideration the board of aldermen by a majority vote rejects said ordinance, it shall not take effect. If the board of aldermen fails to finally and wholly reject said ordinance within thirty days after such certification to it, then, unless four members of the committee of the petitioners, within fifteen days after said thirty days expire, state in writing to the clerk of the board of aldermen that there is no necessity for submitting said ordinance to the voters, such clerk shall forthwith certify said failure to the board of election commissioners, which shall thereupon make provision for submitting such ordinance, in such form as it then shall be, to the voters; provided, that the final percentage of signers required to compel submission to the voters of an ordinance amending or repealing an ordinance adopted at the polls under the initiative shall be three percent instead of seven per cent, as required in case of

other ordinances. Such submission shall be at the first election at which it may lawfully be had, not less than thirty days after the last mentioned certification, and if there is no such election within ninety days after such certification, and the original petition or the original and supplemental petitions together shall be signed by registered voters equal in number to twelve percent of all the registered voters of the city at the time of the aforesaid mayoralty election, or if the board of aldermen shall by resolution so request, such submission shall be at a special election to be held within such ninety days if legally possible, otherwise at the earliest day on which such submission may be had at either a general or special election. If the majority of the votes cast thereon at the election shall be for such ordinance, it shall take effect within ten days after such election.

Section 3 Procedure employed in recall to be followed.

The provisions of section 5 of article V, concerning the ballots and manner of voting, the duties of the board of election commissioners and the register, and the publishing of ordinances and printing of copies thereof, shall govern like matters under this article.

Section 4 How petition executed.

The signatures need not all be appended to one paper, but all papers comprising any original or supplemental petition under this article shall be uniform in character and shall each set forth the ordinance in full and contain the request mentioned in section 2, and designate by names and addresses five persons as the committee of the petitioners, and each such paper shall be verified by an affidavit stating the number of signatures thereto and that each signature was made in affiant's presence by, as affiant verily believes, the person whose name it purports to be; and all papers comprising an original or supplemental petition shall be assembled by the petitioners and filed with the board of election commissioners as one instrument. Each signer shall state opposite his signature his residence address. Any person shall be deemed a registered voter within the meaning of this article whose name is unerased on the registration books.

Section 5 What ordinance to prevail where conflict occurs.

If the provisions of two or more initiated or referred ordinances adopted or approved at the same election conflict, the one receiving the highest affirmative vote shall prevail in so far as such provisions conflict.

City Counselor Ops.: 8517, 8592

Section 6 Filing and publication of statements relating to initiative or recall propositions.

Any person may present to the city counselor at least twenty days prior to any election a written statement, not exceeding one thousand words, concerning any ordinance or recall proposition to be voted on at such election. The city counselor shall at least ten days before such election prepare and cause to be published in the paper or papers doing the city publishing a fair summary of all such statements.

Article VII

MAYOR

Section 1 Powers and duties; compensation.

The mayor shall be the chief executive officer of the city and, except as by law or in this charter otherwise provided, have and exercise all the executive power of the city. He shall exercise a general supervision over all the executive affairs of the city and see that each officer and employee performs his duty and that all laws, ordinances, and charter provisions are enforced within the city. His salary shall be twenty-five thousand dollars ($25,000) per annum. All process against the city shall be served upon him. He shall appoint and may remove all nonelective officers and all employees, except as otherwise in this charter provided, but shall not remove any office, department or division head appointed by him, except for cause. He shall execute all deeds and conditional bonds made in the name of the city and see that all contracts with the city are performed and that all legal proceedings necessary to enforce or protect the rights or interest of the city are brought and diligently prosecuted. He shall have a seat and a voice and may introduce ordinances, but not vote, in the board of aldermen, and shall make recommendations and give information to said board as to city affairs. He may remit, with or without condition, fines, costs, forfeitures and penalties imposed for violation of any ordinance or charter provision, and shall annually make a report thereof to the board of aldermen. He may examine the affairs and conduct of any department, board or office and require all officers to

exhibit their accounts and papers and make reports to him. He shall annually appoint a certified public accountant to thoroughly audit all books, accounts and records relating to the fiscal affairs of the city and report the result to him. A copy of said report shall be filed with the register.

The mayor shall devote his entire time to the duties of his office.

The mayor could not be required by statute to assume the additional duty of appointing a firemen's arbitration board. *State v. Cervantes,* 423 S.W. 2d 791 (1968).

The Commission on Retirement, Removal and Discipline has the power to investigate and punish city court judges for misconduct. In re Fullwood, 518 S.W. 2d 22 (1975).

Discharge of police chief by city manager without notice or hearing did not deprive police chief of due process of law. *Owen v. City of Independence,* 421 F.Supp. 1110 (1976).

City Charter did not require plenary pretermination hearing prior to dismissal of municipal judge by mayor. *Edwards v. Schoemehl,* 825 S.W. 2d 683 (Mo. App. 1992).

The discretion conferred upon division-level appointing authorities under civil service rules does not supersede the mayor's chief executive authority under article VII § 1 of the City charter, and the authority of the director of public safety as the fire chief's immediate supervisor under article XIII of the charter, to direct the fire chief to perform his duty to fill vacancies in the fire department. The fire chief was properly demoted for refusing the order. *George v. Civil Service Comm.*, 318 S.W.3d 266 (Mo.App.E.D. 2010).

Section 2 Residence requirement.

In addition to other qualifications required by this charter, except as provided hereinbelow, all officers and employees (in non-temporary, full-time positions) must reside in the City of St. Louis on or before 120 days have elapsed after appointment or, if the officer or employee serves in a working test period as provided by Civil Service Rule, then 120 days after the end of an initial working test period, not to exceed one year, and all employees and officers must maintain residence within the City of St. Louis during the entire tenure of their employment or of their appointment as an officer after said 120-day period and failing or ceasing so to reside, shall forfeit their office or employment. A waiver to the above residence requirements may be granted to an individual officer or employee, other than a Director or person who acts as a Director of a City Department, on an annual basis by the Civil Service Commission when said officer or employee occupies a position requiring a very high degree of specialized education or skill and when qualified candidates who are willing to fill said position and reside within the City of St. Louis are not reasonably available. The assessor shall extend in said assessment books the state, school and city taxes and include in said books such matter as the law shall provide or the comptroller require. The assessor shall then cause tax bills to be made out for such taxes in such forms as the law shall provide or the comptroller prescribe, and deliver them with a duplicate schedule thereof to the comptroller, who shall compare said bills with said books and schedule and test the footings, and then officially stamp said bills and deliver them with one schedule to the collector and take his separate receipts; one for the aggregate of said bills, and another for the state taxes, which last receipt the comptroller shall transmit to the state auditor.

Section 16 Erroneous assessments; duties of comptroller as to taxes.

The comptroller shall hear and determine all complaints of manifest error in the assessment of property for taxes, and in all cases when it shall appear that any property, real or personal, has been erroneously assessed, cause the same to be corrected on the assessment books, and certify to the state auditor all such corrections for credit to the collector. The comptroller shall perform all duties and acts within the city, in regard to the "land delinquent list," the "sale of land for taxes," and the assessment books and tax bills that are imposed on county courts by general law; and make out the "back tax books" and the "back tax bills" required by law.

Section 3 Annual budget and tax rate.

The Board of Estimate and Apportionment shall submit to the Board of Aldermen on or before sixty (60) days prior to the start of each Fiscal Year for the City of St. Louis a statement showing the estimated receipts and an operating budget for the General Fund and all other operating funds. The budgets shall include a Table of Organization, as well as personnel, supplies, maintenance, repairs, services, and contractual requirements of each department, board, and office for the Fiscal Year beginning on the first day of that Fiscal Year and a comparative statement of the receipts and expenses for the previous year as well as the estimates for the current Fiscal Year, first, however, affording taxpayers an opportunity to be heard thereon as may be provided by ordinance.

The Board of Estimate and Apportionment shall also annually and on or before sixty (60) days prior to the start of each Fiscal Year submit and recommend to the Board of Aldermen a proposed ordinance appropriating the amounts deemed necessary for the Table of Organization, as well as the personnel, supplies, maintenance, repairs, services, and contractual requirements for the use of each department, board, and office for that Fiscal Year and a proposed ordinance establishing the City tax rates for said Fiscal Year, provided that the appropriations for payment of salaries and compensation of officers and employees may, in the discretion of the Board of Estimate and Apportionment, be embodied in a separate proposed ordinance. The Board of Aldermen shall immediately proceed to the consideration of said proposed ordinance or ordinances. The Board of Aldermen or one of its Committees shall meet daily Monday through Friday, until the ordinance or ordinances are finally acted upon, and said Board of Aldermen shall finally act upon said proposed ordinance(s) before the start of the Fiscal Year. The Board of Aldermen may reduce the amount of any item in the appropriating proposed ordinance, except amounts fixed by statute or for the payment of principal or interest of the City debt or for meeting any ordinance obligations, but it may not increase such amount nor insert new items unless specifically approved by the Board of Estimate and Apportionment, or unless the Board of Estimate and Apportionment has failed to recommend the appropriating, City tax rate, and salary compensation proposed ordinance or ordinances on or before sixty (60) days prior to the start of that Fiscal Year.

In the event the Board of Estimate and Apportionment has not recommended said proposed ordinance or ordinances to the Board of Aldermen by or before sixty (60) days prior to the start of the Fiscal Year, the Budget Director for the City of St. Louis shall submit without approval by the Board of Estimate and Apportionment directly to the Board of Aldermen by or before sixty (60) days prior to the beginning of the Fiscal Year an estimate of revenues for the following year and a statement of a Table of Organization and all other expected requirements of each department, board, and office from which the Board of Aldermen shall approve an operating budget through the enactment of an ordinance or ordinances before the start of that Fiscal Year.

Notwithstanding the provisions of Article IV Section 16 of the Charter of the City of St. Louis in the event the Board of Aldermen has not finally acted upon said proposed ordinance or ordinances by the start of the Fiscal Year, the proposed ordinance or ordinances recommended by the Board of Estimate

and Apportionment or in its absence the submission by the Budget Director shall be considered to have been approved by the Board of Aldermen.

Section 1 Purposes for which bonds may be issued.

Some of the purposes, hereby specifically authorized, for which the bonds of the city may be issued and given, sold, pledged or disposed of on the credit of the city or solely upon the credit of specific property owned by the city or solely upon the credit of income derived from any property used in connection with any public utility owned or operated by the city or upon any two or more such credits, are the following: For the acquiring of land; for the purchase, construction, reconstruction or extension of water works, public sewers, buildings for the fire department, bridges and viaducts, subways, tunnels, railroads, street railroads, terminals, ferries, docks, wharves, warehouses, gas or electric light works, power plants, telephone and telegraph systems, or any other public utility; for hospitals, insane asylums, orphan asylums, poorhouses, industrial schools, jails, workhouses, and other charitable, corrective and penal institutions; for court houses, and other public buildings, public parks, parkways, boulevards, grounds, squares, river[s] and other public improvements which the city may be authorized or permitted to make; for paying, refunding or renewing any bonded indebtedness of the city, and for the establishment of a local improvement fund to be used for the purpose of paying in cash for local improvements, such fund to be replenished from time to time by the payment into it of the proceeds of special assessments made on account of such local improvements. The foregoing enumeration shall not be construed to limit any general provision of this charter authorizing the city to borrow money or issue and dispose of bonds, and such general provisions shall be construed according to the full force and effect of their language as if no specific purposes had been mentioned; and the authority to issue bonds for any of the purposes aforesaid is cumulative and shall not be construed to impair any authority to make any public improvements under any provisions of this charter or of any law.

The director shall be the head of the department of personnel, responsible for the conduct of all of its affairs except as to such powers and duties as are vested in the commission by this article. He shall have power and it shall be his duty, in person or through the department of personnel:

City Counselor Ops.: 8494, 9771

Nothing in civil service or personnel department rules and

regulations compels the appointment any person by an appointing authority. The discretion to fill or not to fill any particular position remains vested in the appointing authority. By providing that the eligibles list becomes null and void if no selection is made within the authorized period, the rules clearly contemplated that there will be situations in which the appointing authority will choose, for budgetary, management or other reasons, not to fill a given position. Cases:

City charter provision limiting salaries of city employees and officials to $25,000 did not violate the equal protection clause of the Fourteenth Amendment. *Bruce v. Scearce,* 390 F.Supp. 297 (1975).

(l) *Administrative regulations.* To make such administrative regulations as he may deem necessary, not inconsistent with the charter, ordinances applicable, and these rules, relative to matters involved in the administration of the personnel provisions of such charter, ordinances, and rules;

Cases:

The discretion conferred upon division-level appointing authorities under civil service rules does not supersede the mayor's chief executive authority under article VII § 1 of the City charter, and the authority of the director of public safety as the fire chief's immediate supervisor under article XIII of the charter, to direct the fire chief to perform his duty to fill vacancies in the fire department. The fire chief was properly demoted for refusing the order. *George v. Civil Service Comm.,* 318 S.W.3d 266 (Mo.App.E.D. 2010).

Police division rule regarding procedure to decertify a union as collective bargaining representative, adopted prior to City control of police division, was not contrary to the City Charter. Director of Personnel regulations, which were silent on the decertification issue, did not conflict with the pre-existing police division rule, which was enforceable. *St. Louis Police Leadership Org. v. City of St. Louis,* 484 S.W.3d 882 (Mo.Ct.App.E.D. 2016).

(m) *Reports.* To make annual reports to the commission for its approval and transmission to the mayor and aldermen on the work of the department and the administration and effect of this article, with such recommendations for action as he may deem desirable, and such special reports as may be requested by the commission or the mayor. Such reports shall be public records;

(n) *Nonessential positions.* To aid the mayor and aldermen, and the several appointing officers, in determining the numbers and kinds of positions needed to carry on the city's business and in discovering and labeling unnecessary positions in order that they may be designated as supernumerary, so that they may be eliminated as opportunity affords for transfer of the employees to other positions, under the provisions of this article, and so that, as they become vacant, steps may be taken to keep them from being filled;

(o) *Assistance to appointing authorities.* To aid the mayor and aldermen, and appointing authorities in all practicable ways in handling other personnel matters relating to positions under their jurisdictions; and

(p) *Additional powers and duties.* To do all other and further things necessary or proper for making effective the provisions of this article and all rules and ordinances adopted in pursuance thereof, and not inconsistent therewith, whether of the same kinds as those specified in this section, or of different kinds. The power of the director to make effective the provisions of this article and of ordinances shall not be deemed to

be contingent on the adoption of rules but, in the absence of rules that are applicable, he shall have power to take such action, not inconsistent with this article or with ordinances pursuant thereto, as may be reasonably necessary and proper to effectuate the purposes thereof.

(q) The personnel director may be removed from office only upon charges of nonfeasance, malfeasance, or misfeasance in office and after a public hearing to be held not less than ten days after notice to the director accompanied by a statement in writing of the specific acts charged. The personnel director may be represented by an attorney and shall be entitled to present witnesses in his defense. The public hearing shall be conducted by the civil service commission. At the conclusion of the hearing, the commission shall recommend to the mayor whether or not the personnel director shall be removed from office. The mayor shall have the power to accept or reject the recommendation of the civil service commission and his decision shall be final.

The director of personnel may select suitable persons in the service of the city, with the consent of the appointing authorities, under whom such persons serve, to act as examiners under his direction or otherwise to assist in the administration of this article and the rules and ordinances adopted thereunder. It shall be deemed part of the official duties of all employees so selected, to render such services without extra compensation therefor and in addition to other qualifications required by this charter, all officers and employes, except day laborers, and except in such cases requiring scientific, mechanical, professional, or educational qualifications as may be determined by the civil service commission, must have resided in the city for at least one year and failing or ceasing so to reside, shall forfeit their office or employment.

Section 11 Offices and facilities to be provided; unauthorized compensation.

It shall be the duty of all employees of the city to allow the reasonable use of public buildings, and to heat and light them as conditions may require, for holding examinations, and in all other proper ways to facilitate the holding of such examinations. All employees of the city shall grant the director of personnel and any agent authorized by him free access to the premises, and the records relating to employes, under their control, during the usual business hours, and shall furnish them such facilities, assistance, and information as may be required in carrying into effect the provisions of this article and the rules and ordinances adopted thereunder. After notice to the comptroller by the director that any person is employed or is proposed to be paid as an employee in the classified service in any amount not provided for under the provisions of this article and any rules and ordinances in effect not inconsistent therewith, the comptroller shall be charged with notice thereof and shall not approve any further payment to such person except in accordance with such provisions.

Section 12 Status of persons employed by city when article takes effect.

Every person who, when this article takes effect, is legally occupying, by regular appointment thereto, a position placed by this article in the classified service, shall be entitled to continue to occupy such position, without further examination for such employment, and shall become subject to the provisions of this article, including the provisions relating to service rating, with the same effect as though he had been appointed to the position occupied, under the provisions of this article. The provisions of this section also shall apply to all persons who, on the date of acquisition of any public utility hereafter acquired by the city, are regularly employed by such utility.

Cases:

An employee who was transferred to a higher position temporarily was legally employed and therefore a permanent employee. *Feuchter v. City of St. Louis,* 357 Mo. 616, 210 S.W. 2d 21 (1948).

Persons appointed after this article took effect were not exempt from further examination. *Bokern v. Sceare,* 237 Mo. App. 526, 174 S.W. 2d 355 (1943).

Section 13 Liability of officers and sureties for payment of unauthorized compensation.

No claim of any person appointed or employed contrary to the provisions of this article or the rules

and ordinances thereunder, whose payroll or account is refused approval or payment, shall be paid by the city, but the officer or officers appointing or employing, or attempting to appoint or employ any such person, and the sureties on his or their official bonds, shall be liable jointly and severally for the amount due to such person by reason of such employment or purported employment. No officer, during the time of his official service or thereafter, or his surety, or other person on behalf of either, shall be reimbursed by the city for any sum so paid or recovered. The city counselor, or special counsel designated therefor by the board of aldermen, shall prosecute such actions as may be necessary to recover any sums paid contrary to the provisions of this article from any officer or officers making the appointment or continuing the employment on which such payment was based, in contravention of the provisions of this article or of the rules and ordinances made in pursuance thereof, or any officer signing or countersigning or authorizing the signing or countersigning of any order or warrant for payment, or making any payment, therefor, or from the sureties of any such officer or officers on their official bonds.

Section 14 Examinations for licenses.

The department of personnel, by agreement with any other department or other agency of the city government, may conduct examinations to determine the qualifications of applicants for licenses issued by such department or other agency, and certify the results thereof, subject to reimbursement of the reasonable costs of such service by transfer from the appropriations of the agency served to those of the department of personnel.

Section 15 Unlawful conduct relating to examinations.

No person shall willfully, by himself or in cooperation with any other, defeat, deceive or obstruct any person in respect to his rights in relation to any tests of fitness or appointment to any position under the provisions of this article, and any rules or ordinances made thereunder, or shall willfully and falsely mark, grade, estimate or report upon the tests of fitness or proper standing of any person tested or certified pursuant to the provisions of this article or the service ratings of any employe, or aid in so doing, or shall willfully make any false representation concerning the same, or concerning any person tested, or shall willfully furnish to any person any special or secret information for the purpose of either improving or injuring the prospect or chances of any person in connection with any test or appointment, or shall impersonate any other person or permit or aid in any manner any other person to impersonate him, in connection with any test or appointment, or application or request to be examined.

Section 16 Racial, political and religious discrimination forbidden.

No recommendation or question under the authority of this article shall relate to the race, political or religious opinions, affiliations or service, of any person. No person shall be appointed to a position in the classified service hereunder, nor be demoted, re-employed, promoted, removed, increased or reduced in compensation, nor in any other way be favored or discriminated against in any matter within the purview of this article, because of his race, political or religious opinions, affiliations or service.

Voter Adoption Date: August 6, 1946.

Section 17 Political assessments and contributions.

No person in the classified service shall be under any obligation to contribute to any political fund or to render any political service, and no such person shall do so or be removed or otherwise prejudiced for refusing

to do so. No person in the city service shall discharge or promote or reduce, or in any manner change the official rank or compensation of any other person in such service, or promise or threaten so to do, for withholding or refusing to make any contribution of money or service or any other valuable thing for any political purpose, or in any other manner, directly or indirectly, use his official authority or influence to compel or induce any other person to pay or render any political assessment, subscription, contribution, or service. Every such person who may have charge or control of any building, office or room occupied for any purpose of the government of the city, is hereby authorized to prohibit the entry of any person, and he shall not knowingly permit the entry of any person, for the purpose of therein making, collecting, receiving, or giving notice of, any political assessment, subscription or contribution; and no person shall enter or remain in any such office, building, or room, or send or direct any letter or other writing thereto, for the purpose of giving notice of, demanding, or collecting a political assessment, subscription, or contribution, nor shall any person therein give notice of, demand, collect, or receive any such assessment, subscription, or contribution; no person shall prepare or make out, or take any part in preparing or making out, any political assessment, subscription, or contribution with the intent that it shall be sent or presented to or collected from any employee in the classified service, and no person shall knowingly send or present any political assessment, subscription, or contribution to, or request its payment of, any such employe.

Cases:

The application of the restrictions in this section to classified employees only does not violate the equal protection clause since it serves the legitimate goal of increasing efficiency in public service. *State v. Kirby,* 349 Mo. 988, 163 S.W. 2d 990 (1942).

Section 18 Promises of official influence to affect political action.

No person, while holding any city office, or while in nomination or seeking nomination to appointment to any such office, shall corruptly use or promise to use, directly or indirectly, any official authority or influence, possessed or anticipated, to confer upon any person, or to secure or aid any person in securing, any office or public employment, or any nomination, confirmation, promotion, or increase of salary, upon the consideration or condition that the vote or political influence or action of any person shall be given or used in behalf of any candidate, officer, or party, or upon any other corrupt condition or consideration. No person, being an officer of the city, or having or claiming any such authority or influence, in relation to the nomination, employment, confirmation, promotion, removal or increase or decrease of salary, of any employe, shall corruptly use, or promise or threaten to use, any such authority or influence, directly or indirectly, to coerce or persuade the vote or political action of any person, or the removal, discharge, or promotion of any employee of the city.

Section 19 Political activity of classified employes.

No person holding a position in the classified service shall use his official authority or influence to coerce the political action of any person or body, or to interfere with any election, or shall take an active part in a political campaign, or shall seek or accept nomination, election, or appointment as an officer of a political club or organization, or serve as a member of a committee of any such club or organization, or circulate or seek signatures to any petition provided for by any primary or election law, or act as a worker at the polls, or distribute badges, color, or indicia favoring or opposing a candidate for election or nomination to a public office, whether federal, state, county, or municipal. But nothing in this section shall be construed to prohibit or prevent any such person from becoming or continuing to be a member of a political club or organization or from attendance upon political meetings, from enjoying entire freedom from all interference in casting his vote, from expressing privately his opinions on all political questions, or from seeking or accepting election or appointment to public office, provided, however, that no active campaign for election shall be conducted by any employee unless he shall first resign from his position.

Cases:

The application of the restrictions in this section to classified employees only does not violate the equal protection clause since it serves the legitimate goal of increasing efficiency in public service. *State v. Kirby,* 349 Mo. 988, 163 S.W. 2d 990 (1942).

A finding that the city's fire department Battalion Chief violated Section 19 of Amended Article XVIII of the city Charter was unsupported in the absence of any evidence

that the Battalion Chief used his authority or influence as Battalion chief to coerce someone to political activity. *Blackwell v. City of St. Louis,* 726 S.W. 2d 760 (1987).

It is beyond debate that federal, state and local governments may place some restrictions of the political conduct of public employees. The goal is to balance the interest of the employee as a citizen, in exercising first amendment rights, and the interest of the government, as an employer, in promoting the efficiency and impartiality of public services. *Blackwell v. City of St. Louis,* 726 S.W. 2d 760 (1987).

The charter's limitations on political activity by classified service employees is constitutional, and an employee was properly discharged for forwarding to other employees an e-mail attachment advocating for a candidate for mayor. *Wilson v. City of St. Louis,* 418 S.W.3d 501 (Mo.App.E.D. 2013).

Section 20 Leave to be granted for purpose of voting.

On any election day which is not a state or national holiday, the offices of the city shall remain open for business. All employees shall be entitled to vote and whenever necessary may be granted not more than four hours' leave with pay for the purpose of voting.

Cases:

For this section to conform with state statutes the words "not more than" have no effect. *State v. Kirby,* 349 Mo. 988, 163 S.W. 2d 990 (1942).

Section 21 False statements under oath.

No person knowingly and willfully shall make under oath any false statement in any application or other statement filed with, or in any proceeding before, the director of personnel, or the civil service commission, or in any investigation conducted by the director or the commission.

Section 22 Penalties for violation.

Any person who shall willfully or through culpable negligence violate or conspire to violate any provision of this article or of any ordinance made pursuant theretofore which no other punishment is provided herein, shall be guilty of a misdemeanor, and, upon conviction thereof in any court of competent jurisdiction, shall be punished by a fine of not less than one hundred dollars and not more than five hundred dollars or by imprisonment for not to exceed six months, or both, in the discretion of the court. The conviction of any employee of any such offense shall operate automatically to terminate his service and to vacate his position. Any employee so removed from the service shall not be reinstated, reemployed or reappointed, or in any other manner re-enter the service of the City of St. Louis for a period of five years from the date of such conviction, and the comptroller and any other fiscal officers responsible for payment of any compensation to such person are hereby charged with notice thereof. Nothing in this section shall be construed to supplant or in any way affect any prosecution that may be elected to be initiated under any other provision of law relating to the nonfeasance, malfeasance, or misfeasance of public officers.

Cases:

An employee need not be convicted under this section to be validly dismissed. *Fleming v. Holland,* 260 S.W. 2d 840 (1943).

Section 23 Compliance with article and civil service rules.

It shall be the duty of all employees to conform to and comply with, and to aid in all proper ways in carrying into effect, the provisions of this article, and the rules and ordinances prescribed thereunder. Whenever the director of personnel shall make any order under the provisions of this article or in accordance with any rules or ordinance thereunder, the employee to whom such order is directed shall forthwith comply with the terms and provisions thereof, and any failure or neglect on the part of such employee properly to satisfy or meet the requirements of such order without sufficient justification therefor, shall be construed as grounds for his removal, subject to all rights of appeal and review provided by this article or by ordinance or law.

City Counselor Ops.: 8617

Section 24 Legal remedies for payment of unauthorized compensation.

The city counselor, or special counselor designated therefor by the board of aldermen, on complaint of any officer or employee of the city or of any taxpayer, shall prosecute, and of his own motion may prosecute, such action as may be appropriate to restrain the payment of salary or other compensation to any person appointed to or holding any position in violation of any of the provisions of this article or the rules and ordinances thereunder, or to recover any payment so made, and such right shall not be limited or denied by reason of the fact that such position shall have been classified as, or determined to be, not subject to competitive tests.

All money recovered in any action brought under the provisions of this section shall, when collected, be paid into the treasury of the city.

Section 25 Investigatory powers of director; payment of witnesses.

In the course of any hearing, investigation, or tests of fitness conducted under the provisions of this article, the director of personnel and any other person authorized by him as his representative for such purposes, shall have power to administer oaths, to subpoena and require the attendance of witnesses within the city and the production by them of books and papers pertinent to any matter of inquiry and to examine such witnesses under oath, in relation to any matter properly involved in such proceeding. For such purposes, the director or his authorized representative may invoke the power of any court of record in the city, or judge thereof, in term time or vacation, to compel the attendance and testifying of witnesses and the production of books and papers in compliance with such subpoenas. All witnesses so subpoenaed, who are not employees of the city, shall be entitled to the same fees as are allowed in civil cases in courts of record, which shall be paid upon vouchers approved by the director of personnel from the appropriations of the department of personnel on the audit and warrant of the comptroller.

Section 26 Effect of established titles and rates of pay.

The titles and rates of pay of any positions in the classified service, as set forth in any ordinance or appropriation now or hereafter in effect, shall be deemed to be permissive only, authorizing positions that might properly be designated by such titles and compensated at such rates if so constituted that such titles and rates would apply under the provisions of this article, but not as mandatory in requiring that such titles shall be used to designate such positions to the exclusion of all others or that payments shall be made at such rates, irrespective of the true nature of the positions existing by virtue of such authority and of whether such titles and rates are appropriate to the positions as actually constituted.

Section 27 Partial invalidity of provisions.

If any part of this amendment is held by competent authority to be invalid, every other part thereof not so held, shall continue in full force and effect as though such invalid part had not been included therein.

Section 28 Repeal of inconsistent provisions.

All provisions of the city charter and ordinances and rules thereunder, or parts thereof, inconsistent with this amendment, are hereby repealed.

Cases:

When there has been no repeal in specific terms, a former provision will not be repealed unless the two are irreconcilable. *Simmons v. City of St. Louis,* 264 S.W. 2d 928 (1954).

Section 29 Powers and duties of efficiency board vested in personnel board.

All powers and duties delegated to the efficiency board by this charter which are not specifically repealed by this amendment are preserved in full force and effect to the personnel department.

Section 30 Effective date.

This amendment shall take effect immediately, except that payrolls may be certified and payments be made thereon, under the provisions of previously existing charter provisions, and ordinances and rules, applicable thereto, during such temporary period not to exceed one year as is necessary, in the opinion of the civil service commission, to provide for the director of personnel, the rules, the classification and compensation plans, the ordinances, the allocation of the existing positions to their appropriate classes and the fixing of the rates of compensation thereunder, and the forms and procedures, necessary for full compliance with the provisions of this article.

Cases:

A charter amendment can provide that it shall be effective when adopted. *State v. Kirby,* 349 Mo. 988, 163 S.W. 2d 990 (1942).

As far as the right to appeal to the commission is concerned, the amendment became effective when adopted. *State v. Hertenstein,* 349 Mo. 1010, 163 S.W. 2d 963 (1942).

FRANCHISES

Cases:

An agreement between the city and a corporation granting the corporation the exclusive use of a municipal dock for a maximum of twenty years was properly termed a lease agreement as distinguished from a franchise and constituted a valid and binding contract. *St. Louis Terminals v. City of St. Louis,* 535 S.W. 2d 593 (1976).

Section 1 Limitations on grant; powers reserved to city; ordinances required; incidental regulations.

All grants or renewals of franchises shall be subject to the right to amend, alter or repeal the same in whole or in part, and to forfeit the same at any time for misuse or nonuse; and subject always to the city's power of taxation and its authority to regulate rates, quality of use, service, and products and methods of conduct and operation; subject also to the right of the city at the end of ten years after the beginning of operation and at the end of every five-year period thereafter, at its option to be exercised by ordinance, to acquire the plant and property used in the operation of the franchise, upon terms and conditions to be ascertained in the manner provided in the granting or renewing ordinance, but in no event is the franchise itself to enter as an element into such compensation. Upon such acquisition the franchise shall cease. Every such grant shall cease unless construction thereunder is begun within the time specified in the ordinance and completed with reasonable speed, and no grant shall be exclusive or for a longer term than fifty years.

Any ordinance granting or renewing a franchise may also provide for regulating, from time to time, the amount of capitalization, indebtedness and expenditure of the grantee or assignee in operating thereunder. Such ordinance may also provide that the franchise shall be sold at public sale, and nothing in any such ordinance shall prevent the city from acquiring the property of any such utility by condemnation proceedings or in any other lawful way subject to the limitation of time herein provided.

Every grantee of a franchise for any public utility shall keep such reports of its finances and operation as may be prescribed by ordinance, and the city may at any time examine its records and accounts.

No ordinance granting or renewing a franchise shall be adopted until a report thereon in the form in which it is put upon its adoption has been made to the board of aldermen by the board of public service with its recommendations as to the action that should be had thereon, nor until the bill and the report of the board of public service, or a fair summary thereof, shall have been published as provided by ordinance.

No franchise shall be assignable except with the city's approval expressed by ordinance.

The permanent condemnation commission and the offices thereof are hereby abolished, provided, however, that any present duly appointed and acting commissioners shall continue to serve as though appointed as provided hereunder for the purposes of carrying out the responsibilities and duties of such commissioners in any proceeding instituted under article XXI of this charter prior to the effective date of this amendment.

The court, or a judge thereof in vacation, when notice has been given as herein above provided, shall appoint three disinterested commissioners, freeholders resident in the City of St. Louis for five years next before their appointment to assess the damages and benefits in said condemnation proceeding.

The commissioners shall familiarize themselves with the property involved in the said condemnation proceeding pending in the circuit court. They shall confer among themselves regarding the damages and benefits respectively involved in the said proceeding to the end that the greatest possible uniformity in the awarding of damages and the assessment of benefits may be achieved. The court, or the judge thereof in vacation shall make such rules and regulations for the government of said commission and the proceedings thereof as it may deem proper which said rules and regulations may from time to time be altered, amended, modified or rescinded. The commissioners shall keep such records as they may determine advisable and shall hold their hearings publicly in some suitable place or places designated by the court. It shall be the duty of the proper authorities to prepare and furnish said place or places and to provide for the proper lighting, heating and care of same and to furnish such facilities for the proper preservation of their files and records and do such other things as shall be proper to enable said commissioners to properly discharge their duties. The court or judge, in designating such commissioners, shall exclude from their consideration the assessment of all damages for the trial of which a jury has been duly demanded.

Such commissioners shall enter upon their duties without delay, and shall make report within the time fixed by the court, which time shall in no event exceed ninety days, unless the court is satisfied upon written application of the commissioners, and a hearing thereof to be held by the court within five days after the filing of such application, that additional time be granted for good cause shown.

Any party entitled to and desiring trial by jury of its rights to compensation shall file in the cause, before the assignment of the commissioners in each case, written demand therefor, including therein a description of

its property to be taken or damaged, and failure so to do shall be a waiver of the right of trial by jury. Upon such demand being filed, the court shall award a jury trial and proceed therewith as in trial of civil actions; but before final judgment shall be rendered on the verdict of the jury and before the commissioners shaft [shall] make their report, the court shall certify the verdict of the jury to the commissioners, and they shall include in their report, with their separate findings, assessments and awards, the damages as assessed by the jury, reciting the fact. The claims for damages of all parties demanding jury trial in any action under this article shall be heard at the same time before one jury. The commissioners shall assess damages for property appropriated or damaged for the trial of which a jury is not demanded, as aforesaid.

By the terms of RSMo 523.040, the condemnation commissioners appointed by the court in the City of St. Louis must include one licensed real estate broker or appraiser.

Cases:

The use of eminent domain to eliminate "blight" is subject to special statutory standards, including judicial review of any "blighting" determination by the legislative body. *Centene Plaza Redevelopment Corp. v. Mint Properties*, 225 S.W.3d 431 (Mo. 2007).

Benefits can be assessed against abutting property owners only for the costs of constructing a boulevard. *City of St. Louis v. Bell Place Realty Co.,* 259 Mo. 126, 168 S.W. 721 (1914).

The commissioners' report, when confirmed by the circuit court, becomes a final judgment. *Schwab v. City of St. Louis,* 310 Mo. 116, 274 S.W. 1058 (1925).

The legislative power of levying assessments for condemnation benefits may be delegated to the commission and the courts. *Schwab v. City of St. Louis,* 310 Mo. 116, 274 S.W. 1058 (1925).

Assessment of damages is made according to the separate distinct properties taken and not on the basis of different interests in the property. *State v. Hall,* 235 Mo. 165, 28 S.W. 2d 80 (1930). In the absence of a trial by jury, the report of the commissioners is, in effect, a jury verdict. *City of St. Louis v. Franklin Bank,* 340 Mo. 383, 100 S.W. 2d 924 (1936); *City of St. Louis v. This section is constitutional since a jury trial can be waived if a timely request is not made. *City of St. Louis v. International Harvester Company,* 350 S.W. 2d 782 (1961).

A charter-created condemnation commission has been held to supplant the ordinary court-appointed condemnation commission in condemnation proceedings under a charter. State ex rel. St. Louis County v. Campbell, 498 S.W.2d 833 (Mo.App.E.D. 1973). In practice in the City of St. Louis, the condemnation commission under this section has not been utilized.

The court upon approving the commissioners' report shall render final judgment thereon reciting the report and adjudging that the city have and hold the property petitioned for, describing the same, for the purposes specified, upon payment of the damages less the benefits assessed in each instance; that so much of the report as is a judgment for benefits against specific property be a lien on such property for ten years from entry of the judgment, and prior to all other liens thereon; and that the city recover the respective benefits in excess of damages assessed in each instance against private property with interest from date of judgment, or at the termination of such period of grace, not to exceed one year, as may be granted by the board of aldermen in the ordinance authorizing the public work or improvement, and have execution therefor.

The clerk shall forthwith make and deliver a certified copy of such judgment to the comptroller, who shall record the same in a book kept and conveniently indexed for that purpose. The comptroller may, forthwith, and if no appeal be taken from such final judgment, he shall, at the expiration of the time for such appeal, forward a copy of the judgment to the board of aldermen; and within sixty days after the receipt of such copy, unless an appeal is pending, and, in no event later than sixty days after disposition of all appeals, the board of aldermen shall make an appropriation for the payment out of the city treasury of the damages assessed in favor of each party entitled thereto less his benefits as determined by such final judgment, and the city treasurer, on warrant of the comptroller, shall cause payment to be made to the several parties entitled or into court for their use, as the case may require.

Should the board of aldermen fail to make such an appropriation the judgment for damages shall be collected by the owners concerned as other judgments against the city are collected and if any part of such assessment of benefits be not paid when due, special execution shall issue on request of the comptroller against the property charged with the lien and proceedings thereunder shall conform, as near as may be, to the proceedings under special executions on ordinary judgments foreclosing liens on lands.

Should any such final judgment be reversed on appeal and a new assessment be ordered, the city or any defendant shall have judgment for any excess due by reason of payment having been made by such party under a prior final judgment in the cause.

Section 17 Payment of benefits in installments; issuance of anticipation bonds.

The board of aldermen, in the ordinance establishing the public work or improvement or by a subsequent ordinance recommended by the board of public service, may provide for payment of the special assessments levied against land especially benefited by such public work or improvement, in equal annual installments not to exceed ten in number, in which event the judgments shall so recite; provided that any such judgment may be paid in full at any time, except that, when bonds shall be issued as hereinafter provided, such payment may be made only within thirty days after the entry of judgment, or within any period of grace granted as provided in Section Eight. The deferred installments of said judgment shall bear interest at the rate of six percent per annum, commencing thirty days after the date of entry thereof, unless otherwise provided by ordinance in accordance with Section Eight, until due, and if not paid when due, at the rate of eight percent per annum thereafter.

For the purpose of anticipating the collection of such judgments, the city may issue and sell improvement bonds to an amount not exceeding eighty-five percent of the aggregate of such judgments, such aggregate not including any assessments paid in full as herein provided or not then finally determined judicially. The city shall not be liable for the payment of said bonds, but the same shall be payable solely out of the collection of the particular judgments. Said bonds may be made payable serially. The ordinance authorizing the particular issue shall prescribe the form and denomination thereof; the date of maturity or maturities thereof, not to exceed ten years in any instance; the rate of interest thereon and date and place of its payment; by what officers and in what manner they shall be executed and attested; and the place and method of payment, save only the fund out of which payment shall be made, together with other provisions and regulations concerning such bonds and not inconsistent herewith. The board of aldermen by ordinance, recommended by the board of public service, may appropriate out of the general revenue, sufficient money to pay or to provide a fund in advance to pay such part of any improvement bonds issued as the proceeds of special assessments securing the same may prove insufficient to pay as they become due, not exceeding ten percent of the amount of the bond issue, and provide for reimbursement, out of the proceeds of said special assessments after all such bonds and interest have been fully paid.

All such judgments shall be collected by the city and the proceeds thereof shall be preserved and applied solely to the payment of the interest and principal of

said bonds as the same shall become due and shall be used for no other purpose until the whole of said interest and principal shall have been paid.

The board of aldermen may by ordinance provide for the issuance of a single bond issue to anticipate the collection of special benefit judgments rendered in two or more proceedings in the manner herein provided, such bond issue being secured by all of such special benefit judgments.

Section 3 Establishment of benefit, taxing and sewer districts, etc.

Before the board of public service shall recommend any ordinance for any public work or improvement, including the construction or other improvement of any public highway, street, boulevard, parkway, alley, sidewalk or sewer, or any part thereof, to be paid for, in whole or in part, by special assessment, it shall lay out, or shall have laid out, a proposed benefit or taxing district, and as to a sewer, it shall lay out, or shall have laid out, a proposed sewer district or joint sewer district, and shall include therein all property against which it is proposed to assess benefits for the payment, in whole or in part, of the cost and expense of such work or improvement; and the board of public service shall thereafter designate a day upon which it will consider the proposed district and the boundaries thereof and the projected work or improvement at a public hearing, and shall give two weeks' public notice in the paper or papers doing the city publishing, of the time and place of such hearing, which notice shall set forth that a proposed district to pay the cost of the work or improvement has been laid out by said board, and that the boundaries thereof may be ascertained at the time and place specified for such hearing. Such notice shall indicate, in a general way, the location of such district by reference to adjoining streets, and shall designate the matters to be considered and the estimated cost of the work or improvement, which estimate may cover several classes of materials. At such hearing all persons interested may appear and be heard with regard to what property shall be included in said district, and as to all matters connected with the work proposed. Within three days after such hearing is concluded, the board shall file in its office its decision, stating its determination as to the exact boundaries of the district, the work or improvement determined upon, if any, and the class or classes of material to be used. If within eighteen days after such decision the owners of the greater area of the land in such district as determined shall file in the office of the board of public service their written remonstrance against the district as determined, or the proposed work or improvement, the board, at its next meeting, shall reconsider and either reverse its action or transmit to the board of aldermen, together with such remonstrance, an ordinance establishing the benefit or taxing district or sewer district or joint sewer district as determined, and authorizing the proposed work to be done or improvement to be made. At least one-fourth of the cost of reconstruction of any public highway, street, boulevard, parkway, sidewalk or alley done within ten years after the same has been fully paved shall be paid by the city.

Section 14 Classification of sewers.

There shall be four classes of sewers, viz: public, district, joint-district, and private sewers, as hereinafter defined, but otherwise without regard to the area drained, the size, character, or purpose of the sewer.

Public sewers are those which have been or may be constructed or acquired and paid for wholly out of general revenue.

District sewers are those which have been or may be constructed or acquired, under authority of ordinance, within the limits of an established sewer district, and paid for by special assessments upon the property in the district.

Joint-district sewers are those which have been or may be constructed or acquired under the authority of ordinances uniting one or more districts and unorganized territory, or uniting districts or unorganized territory, into a joint sewer district, for the purpose of providing main, outlet or intercepting sewers, for the benefit of such joint sewer district, and paid for by special assessment upon the property in such joint sewer district.

Private sewers are those paid for by private parties constructing the same.

Cases:

Sewer may be built large enough to contain water outside sewer district that endangers property within sewer district. *Jennings Heights Land and Imp. Co. v. City of St. Louis,* 257 Mo. 291, 165 S.W. 741 (1914).

Section 15 Location and connection of sewers.

All public, district and joint-district sewers shall be constructed along streets, alleys and other public ways whenever practicable; and no such sewer shall be built or acquired by the city except it be on a public way or a right-of-way owned by the city. Such sewers may be connected with any other sewer of any class or with a natural course of drainage.

Section 16 Levy and assessment of special tax for sewers.

All ordinances for constructing, reconstructing or acquiring district and joint-district sewers shall provide for payment thereof by special assessment as follows: The entire cost and expense shall be levied and assessed as a special tax ratably by area on all the lots or parcels of ground within the district or joint-district, excluding public highways only.

Ordinances creating a joint-sewer district [joint-district sewer] may provide for the construction of the sewer or sewers therein in one or more sections and for the levy and assessment of the cost of any section upon the completion thereof as a special tax in the manner herein provided.

If any district or joint-district sewer shall drain territory lying outside the city limits and not included in the district or joint-district, the city shall pay so much of the cost of such sewer as would have been assessed ratably against such territory if it were included in the district or joint-district.

Section 17 Acquisition of private sewers by city.

The city may by ordinance recommended by the board of public service acquire any private sewer by gift, condemnation or purchase, and provide for reimbursement by special assessment in the manner hereinbefore provided to be levied against the property in the district or joint-district for which such private sewer is acquired; and an ordinance making a private sewer or any part thereof a part of a proposed district or joint-district sewer may provide that the contractor shall pay for such private sewer at the priced [price] fixed in such ordinance and the cost thereof shall be included in the total cost of constructing such district or joint-district sewer.

Section 18 Special tax bills to be issued on completion of work.

When any public work or improvement, to be paid for in whole or in part by special assessment, is completed, the board of public service shall cause the entire cost and expense thereof to be computed, and shall levy and assess such cost and expense or the part to be paid by special assessment, as a special tax, in accordance with the requirements of this article, and shall cause to be issued a special tax bill against each lot or parcel of ground liable in the manner provided by article XXIII, or by ordinance not inconsistent therewith.

The term "lot" is of indefinite meaning and may refer to any piece, division or parcel of land. *State v. Reynolds,* 281 Mo. 1, 218 S.W. 337 (1920).

Section 19 Reconstruction or alteration of district and joint-district sewers.

Should it be necessary for any reason to reconstruct any district or joint-district sewer, the board of aldermen, by ordinance recommended by the board of public service, may establish the same or a different district for such reconstruction. It may also alter any district or joint-district at any time before the construction of the sewers therein is completed.

Section 20 Construction, repair and maintenance of private sewers.

Private sewers shall be constructed, repaired and maintained and connected with other sewers at private expense under such restrictions and regulations as the board of public service may prescribe, the city reserving the right to connect with, utilize and acquire such sewers.

Section 21 Public improvements by individuals—Permit required.

The board of public service may grant permits for the improvement of public highways, streets, boulevards, parkways, alleys and sidewalks by property owners, and such improvement shall conform to the established or proposed grades and to specifications approved by the board. Such permit shall specify that the grantee thereof shall not be entitled to any credit or rebate from tax bills which may be issued for further improvement of the public highway, street, boulevard, parkway, alley and sidewalk, when carried out under the provisions of this charter, on account of any improvements that he may make in pursuance of such permit.

Any part of the work or material put into the improvement of a public highway, street, boulevard, parkway, alley or sidewalk, which is usable and conforms to the city's plans for the further improvement of the public highway, street, boulevard, parkway, alley or sidewalk may be used by the city in its further improvement thereof. If such work or material shall have been put into such improvement in pursuance of a permit, as provided in Section Twenty-one hereof, the grantee of such permit, his assigns or successors in title shall not become entitled to any credit or rebate for the use of such work or material in the issuance of special tax bills for the cost of such further improvement.

Section 23 Insufficient and excessive assessments.

The ordinance for any public work or improvement may require the board of public service to levy the special assessment therefor immediately upon such ordinance becoming effective, such assessment to be based on the estimated cost and expenses of such work or improvement; and should any assessment so levied be insufficient to pay the entire cost and expenses of the work or improvement required to be paid for by special assessment, the board of public service shall, on the completion of the work or improvement, levy a supplemental special assessment to pay the deficiency, in the same manner as nearly as may be as in the first special assessment; and should the whole of the original special assessment not be required to pay the cost and expenses of the work or improvement, the excess shall be credited ratably on the special tax bills or refunded to the parties who paid them.

38.155—38.159 Bonds, Certificates, Warrants or Special Tax Bills

Section 1 Preparation, certification and delivery.

For all special assessments for public work or improvements under this charter and ordinances adopted in pursuance thereof, special tax bills shall be prepared and signed by a person designated by the board of public service by resolution entered on its records and shall be made payable to the parties entitled, either at the collector's office or at some bank or trust company in the city, at the option of the party so entitled. They shall be promptly registered and certified both in the office of said board and of the comptroller by persons designated by said board and by the comptroller respectively to make such registration and certificate, and then delivered by the comptroller to the parties entitled and their receipts taken therefor; and the city shall not be liable in any manner for any work or improvement to be paid for in special tax bills.

City Counselor Ops.: 8713

Cases:

Failure to state the statutory place of payment is a mere technicality and does not invalidate the bill. *Granite Bituminous Paving Co. v. McManus,* 244 Mo. 184, 148 S.W. 621 (1912).

The signatures of the comptroller and the president of the board of public service do not validate a special tax bill. The necessary signatures are defined explicitly in this section. *Bates v. Comstock Realty Co.,* 306 Mo. 312, 267 S.W. 641 (1924).

Section 2 Installments authorized; maturity.

Any special tax bills may be divided, if the ordinance authorizing the particular work or improvement so provides, into any number of equal annual installments, not to exceed ten, whereof the first shall be due upon service of the notice hereinafter provided for or upon a "not found" return by the marshal as hereinafter

mentioned, and the other installments successively on the corresponding day of each subsequent year, with interest payable annually on each installment at the rate of six per centum per annum from such notice or "not found" return until maturity or prior payment and at the rate of eight per centum per annum after maturity.

All such special tax bills not payable in installments shall mature upon notice or "not found" return as aforesaid and draw interest at the rate of eight per centum per annum after maturity; provided, that the entire bill or any number of installments may be paid within thirty days after such notice or "not found" return without any interest.

City Counselor Ops.: 8919

Cases:

The interest is computed from the date of maturity of the various installments. *Everymann v. Stevens,* 185 Mo. App. 168, 170 S.W. 330 (1914).

Notice is required to fix the dates of maturity of the several installments. *Bates v. Schwenker,* 3 S.W. 2d 277 (1928).

Section 3 Service of notice of issuance; return.

The owner of any special tax bill shall serve a written notice of the issuance thereof on the parties named therein, or the city marshal at such owner's request shall serve such notice and make return of such service in the manner provided as to writs of summons in civil causes; and he shall receive therefor the fees then allowed for serving such writs. Such marshal's return shall be conclusive of the facts therein stated, and any person injured by a false return on any such notice shall have his right of action for damages resulting therefrom against the marshal on his official bond.

Cases:

Place of payment need not be stated in the notice. *Granite Bituminous Paving Co. v. McManus,* 244 Mo. 184, 148 S.W. 621 (1912).

The notice does not have to contain a legal description of the property. *Schneider Granite Co. v. Gast Realty and Investment Co.,* 259 Mo. 153, 168 S.W. 687 (1914).

Unverified statement service is not competent proof. *Parker-Washington Co. v. Dodd,* 305 Mo. 171, 264 S.W. 651 (1924).

Under this section the court made no error in excluding testimony offered to contradict the return of the marshal. *Bambrick Bros. Const. Co. v. McCormick,* 157 Mo. App. 198, 137 S.W. 43 (1911).

Section 4 Effect as evidence of liability.

All special tax bills shall be prima facie evidence of what they contain and of their own validity, and no mere informality or clerical mistake in any of the proceedings leading to the issuance of or in any special tax bill shall be a defense thereto; provided that if the work was not done in a good workmanlike manner according to the class of work mentioned in the contract the property charged with the payment of said bill shall be liable only for the value of such work done, and the recovery on the special tax bill shall be reduced accordingly.

City Counselor Ops.: 10118, 10219

Cases:

The matters of which the tax bill is prima facie evidence must be proved aliunde against an owner not named therein. *McCormick v. Clopton,* 150 Mo. App. 129, 130 S.W. 122 (1910).

Under this section tax bill will be judged valid against claim that assessment was improperly made. *Granite Bituminous Paving Co. v. Parkview Realty and Improvement Co.,* 168 Mo. App. 498, 151 S.W. 487 (1912).

A special tax lien is not prima facie evidence of a lien against the property to a mortgagee not named therein. *Granite Bituminous Paving Co. v. Parkview Realty and Improvement Co.,* 199 Mo. App. 226, 201 S.W. 933 (1918).

A petition stating a cause of action on a special tax bill and proof in conformity thereto constitutes a prima facie case. *Central Paving and Const. Co. v. Eighth and Morgan G. and F. S.,* 159 S.W. 2d 604 (1941).

Section 5 Lien; priority; legal remedies for collection.

All special tax bills shall be a first lien on the property charged therewith from the day of issuance thereof; provided, there shall be no priority between special tax bills issued under this charter, regardless of the date of such bills.

The entire bill or any installment thereof, together with interest, may be collected by action in any court of competent jurisdiction; and such action may be brought by attachment when the owner of the land affected is a nonresident of the state or after a "not found" return is made by the city marshal on any such notice, in either which event the suit shall be equivalent to notice and demand of payment.

City Counselor Ops.: 9929

Cases:

The lien of the special tax bill like the lien for general taxes is superior to other encumbrances on the land. *Morey Engineering and Const. Co. v. St. Louis A. Ice Rink Co.,* 242 Mo. 241, 146 S.W. 1142 (1912).

As between two tax bills, the earlier in time has priority over the latter unless otherwise indicated. *Parker-Washing-*

ton Co. v. Corcoran, 150 Mo. App. 188, 129 S.W. 1031 (1910).

The lien of a benefit judgment is a tax lien and governed by the rule of reverse priorities. *Stiers v. Vrooman,* 234 Mo. App. 161, 115 S.W. 2d 84 (1938); *City of St. Louis v. Wall,* 235 Mo. App. 9, 124 S.W. 2d 616 (1939).

Section 6 Right of acceleration; interest on judgment.

If any installment of any special tax bill or any interest thereon be not paid when due, then all remaining installments, together with interest thereon as aforesaid, shall, at the option of the holder if exercised by suit thereon, immediately become due; and a judgment on such bill shall bear interest at the rate of eight per centum per annum.

Section 7 Assignment and change of place of payment.

Special tax bills and the lien thereof may be assigned and the place of payment thereof changed to the office of the collector or to any bank or trust company in the city. But any such assignment or change of place of payment to be valid must be in writing, countersigned by the comptroller or by one of his deputies, acknowledged before an officer authorized to take acknowledgments, and registered in the office of the comptroller.

Section 8 Receipt of payments by collector; bills to be marked satisfied; expiration of lien.

It shall be the duty of the collector to receive payment of all special tax bills made payable at his office and thereupon deliver the same receipted; and he shall, upon warrants of the comptroller, pay over all such collections to the parties entitled. The persons paying any such bill shall be entitled to have the same satisfied on the register in the comptroller's office, in whole or in part, as the case may be, immediately on presentation to the comptroller of either the receipted tax bill or a receipt from the collector or the proper bank or trust company showing such payment thereof; and the lien of any bill shall cease and be of no effect against the land charged therewith at the end of two years after the maturity of the bill or the last installment thereof, unless proceedings at law shall then be pending to collect the same, and written notice of the institution thereof setting forth when and in what court such proceedings were brought shall have been filed in the office of the comptroller within ten days after the institution of such suit.

Cases:

This section applies to special tax bills issued for improvements and does not apply to special tax bills issued for benefit assessments. *Pleadwell v. Missouri Glass Co.,* 151 Mo. App. 51, 131 S.W. 941 (1910).

The two-year period not merely bars action but limits the existence of the lien. *Granite Bituminous Pav. Co. v. Parkview Realty and I. Co.,* 199 Mo. App. 226, 201 S.W. 933 (1918).

Section 9 Ordinance ratifying irregularities.

If any ordinance authorizing a public work or improvement or fixing a benefit or taxing district, shall be irregular, defective or invalid by reason of any omission, error or irregularity therein or in the proceedings leading to its adoption, or if for any reason it shall be necessary to the validity of any special assessment, the board of aldermen may, on recommendation of the board of public service, adopt an ordinance ratifying all things done under or in pursuance of the original ordinance, and supplying, correcting and curing all such omissions, errors, defects and irregularities, and making such special assessment valid.

Section 10 New assessment to be made and tax bills issued where original assessment invalid.

Where public work or improvement has been done under an ordinance providing that it should be paid for by special assessment and the whole or part of such special assessment has been adjudged invalid for any reason other than the failure of the contractor to perform his contract, the board of public service shall levy a new assessment and evidence the same by tax bills in the same manner and with like effect as if validly done hereunder in the first instance.

Section 11 Amendment of assessment and tax bills.

Special assessments or tax bills evidencing the same may be amended by the officer or officers authorized at the time to prepare special tax bills or by the courts in proceedings to enforce the same, to correct or supply descriptions, names and other errors, omissions and irregularities on the part of the city, and may be divided by said officer or officers at the request of any of the parties concerned according to divisions of the property made subsequent to the bills being prepared, and without affecting the interest on such amended or divided bill.

Section 12 Additional provisions authorized.

The city by ordinance recommended by the board of public service may, from time to time, make further provision by ordinance, not inconsistent with this charter, for special assessments, the issuance of special tax bills therefor, the collection thereof, and all matters incidental thereto.

Article XXIV

IMPROVEMENT BONDS AND FUNDS

Section 1 Issuance; source of payment; provisions to be supplied by ordinance.

The board of aldermen, by ordinance recommended by the board of public service, in anticipation of the collection of a special assessment for any public work or improvement, may provide for the issuance of improvement bonds to be delivered to the contractor in payment for so much of the work or improvement as is payable by such special assessment or to be sold by the city and the proceeds paid to the contractor in full for such work and improvement; provided, the city shall not be liable either to pay such bonds or to pay for such part of the work or improvement, but the bonds shall be paid only out of the particular special assessment in anticipation of which they were issued, and no such issue shall be in excess of the cost and expenses or estimated cost and expenses of the work and improvement and the interest on the bonds, which may be treated as a part of such cost, and all proceeds of said bonds shall be applied in payment of the cost and expenses of such work and improvement.

If the special assessment in anticipation of which such bonds are issued shall be payable in equal annual installments the particular bonds shall be payable serially, each series maturing with approximate regard to the several maturities of such installments; and all such special assessments shall be collected promptly by the city at its expense and applied, whenever sufficient thereto after paying accrued interest on all such issue of bonds, to the redemption of any one or more of such bonds in numerical order at maturity.

The form and denomination of such bonds; the date of maturity or maturities thereof, not to exceed eleven years in any instance; the rate of interest thereon and the date and place of its payment; the price at which they shall be sold, if to be sold; by what officers and in what manner they shall be executed and attested; and the place and method of payment, save only the fund out of which payment shall be made, together with other provisions and regulations concerning such bonds and not inconsistent herewith, shall be prescribed by the ordinance authorizing the particular issue.

McQuillin:

Section 2 Appropriations for payment from general revenue.

The board of aldermen, by ordinance recommended by the board of public service, may appropriate out of the general revenue sufficient money to pay, or to provide a fund in advance to pay, such part of any improvement bond issue as the proceeds of special assessments securing same may prove insufficient to pay as they become due, not exceeding ten per centum of the amount of such bond issue, and provide for reimbursement, if possible, out of the proceeds of such special assessments after all such bonds and interest have been fully paid.

City Counselor Ops.: 8106

Section 3 Local improvement fund authorized.

The board of aldermen may, by ordinance recommended by the board of public service, provide for the creation of a local improvement fund out of which the city shall pay in cash, to contractors or otherwise, the cost and expense of local improvements, and for the levy, assessment and collection of special assessments to cover cost and expenses, the proceeds of which assessments shall be paid into such fund or funds.

Cases:

A municipal auditorium is not a local improvement. *City of St. Louis v. Pope,* 344 Mo. 479, 126 S.W. 2d 1201 (1938).

Section 4 Appropriation of fund for payment as work progresses.

For the purpose of anticipating the levy and collection of any special assessment for any public work or improvement, the board of aldermen may, by ordinance recommended by the board of public service, appropriate a fund to pay for the work or improvement as it progresses, and reimburse the city either by the issue and sale of local improvement bonds, as in this article provided, or by the collection of such special assessments.

Cases:

Under this section the city may issue special tax bills

payable to itself and property owners still retain the right to defend against the tax bills. *City of St. Louis v. Nicolai,* 321 Mo. 830, 13 S.W. 2d 36 (1928).

Section 5 Special tax bills issued under provisions of this article.

All special assessments contemplated by this article shall be evidenced by special tax bills in accordance with the provisions of article XXIII, so far as applicable, such bills to be made payable to the city, which shall be deemed the owner thereof, at the office of the collector, to whom the comptroller shall deliver the same and take his receipts therefor. The marshal shall serve the notice of the issuance of such bills and make return of such service without receiving any fees therefor.

Section 3 Assessments for planting shade trees and removal of snow, ice, rubbish and weeds.

City Counselor Ops.: 9861

Section 4 Approval of official bonds; faithful performance required.

Unless otherwise provided in this charter all bonds shall be approved as to their sufficiency by the comptroller. The bond of the comptroller as to its sufficiency shall be approved by the mayor. All official bonds shall, among other things, be conditioned for the faithful performance of the duties of the office. For any breach of the condition of any bond, suit may be instituted thereon by the city, or any person or persons in the name of the city, for the use of such person or persons.

City Counselor Ops.: 1019

Section 5 When additional official bond required.

If at any time it appears to the mayor or comptroller that the surety or sureties of any official bond are insufficient, he shall require the officer or employee to give additional bond, and, if such officer or employee fails to give such additional bond within ten days after he shall have been notified, his office shall be vacant.

A contingent fund shall be provided by ordinance for the mayor, to be used by him at his discretion, and at the end of his term he shall make a report in general terms to the board of aldermen of the disposition thereof.

Cases:

A contract, not for an emergency, and not complying with the provisions of this section, did not bind the city. *West Virginia Coal Co. v. City of St. Louis,* 324 Mo. 968, 25 S.W. 2d 466 (1930).

The fact that the comptroller must countersign contracts does not give him the right to make contracts. *Kirby v. Nolte,* 349 Mo. 1015, 164 S.W. 2d 1 (1942).

Right to compensation of superintendent of hospital rested upon ordinance, not contract. *McCellan v. City of St. Louis,* 170 S.W. 2d 131 (1943).

City employees lacked standing as taxpayers to challenge the city's actions in contracting out acute care and long term health services where they failed to show that the city's actions would necessarily result in the loss of revenue to the city or in an increased tax burden and where, in fact, the city's actions would save a substantial amount of money in the foreseeable future. *Brock v. City of St. Louis,* 724 S.W. 2d 721 (1987), overruled by *Eastern Missouri Laborers Dist. Council v. St. Louis County*, 781 W.W.2d 43 (Mo. 1989).

Physicians who, having been offered positions as physicians-in-training and who were assured by city officials that if their work was satisfactory they would advance and complete the program, and who were a special class of civil service employees in the classified civil service, did not have a constitutionally protected property interest to continued employment which entitled them to damages against the city when the city closed the medical program due to budget restrictions, financial exigency and other reasons. *Kennedy v. Section 15 Construction of word "office."

Where the word "office" is used in this charter to indicate a branch of the city government, it shall be construed to refer to any branch not in or under any

department, and shall include the office of the mayor, register, marshal, city court judges and clerk of the city courts.

Section 16 Construction of words "person" or "persons."

Unless the context indicates a different intent and except when referring to a person holding an office of employment under the city, the words "person" or "persons" in this charter will be construed to include person, firm, corporation, company or association, and the plurals thereof.

Section 17 Ordinances in aid of state law.

Section 7 Disposition of records, etc., of former boards and commissions.

A defendant who was convicted in municipal court for violation of city ordinances could not be tried by the state for grand larceny based on the same acts as were involved in violation of the ordinances as it would constitute double jeopardy. *Waller v. Florida.* 397 U.S. 387, 90 S. Ct. 1184 (1970). City of St Louis has the power to imprison a person for an ordinance violation. *St. Louis v. Von Hoffman,* 280 S.W. 421 (1926).

St. Louis must provide indigent defendants an opportunity to pay fines in equal installments. *Hendrix v. Lark,* 482 S.W. 2d 427 (1972). Defendant could not be imprisoned for inability to pay fine in installments after she made good faith effort to do so. *Hendrix v. Lark,* 482 S.W. 2d 427 (1972).

For cases stating that prosecutions by municipalities for the violation of an ordinance are civil actions to recover a debt or penalty due the City for the infraction of the ordinance, see *Groves v. Quick,* 319 S.W. 2d 543 and *City of Rayton v. Roach,* 360 S.W. 2d 741.

1.20.010 Description.

The design submitted by Professor Emeritus Theodore Sizer, Pursuivant of Arms at Yale University, and now on file in the office of the City Register is approved, adopted and designated as the official flag of the City. The flag with a solid red background has two broad heraldic wavy bars, colored blue and white, extending from the left top and bottom corners toward left center where they join and continue as one to the center right edge. This symbolizes the confluence of the Missouri and Mississippi rivers. Over the point of confluence a round golden disk upon which is the fleur-de-lis of France (blue) calling attention to the French background of the early City and more particularly to St. Louis of France for whom the City is named. The golden disk represents the City and/or the Louisiana Purchase. (Heraldically, the disk is a "bezant" or Byzantine coin signifying, money or simply purchase.)

The flag's colors recall those of Spain (red and yellow or gold), Bourbon France (white and gold), Napoleonic and Republican France (blue, white and red), and the United States of America (red, white, and blue). (1948 C., Ch. 1, § 5; 1960 C., § 6.020; 1994 C., § 1.20.010; Ord. No. 52322, § 2, 1964.)

5. Any individual who fails to comply with the requirements of this chapter shall be prohibited from filing as a candidate for an elected public office of the City of St. Louis until they have met said requirements, and subject to City of St. Louis ordinances governing the timing for candidates to file for an elected public office of the City of St. Louis.

6. The Board of Election Commissioners shall ensure that individuals who do not meet the requirements of this chapter are not allowed to file as candidates for an elected public office of the City of St. Louis until said requirements have been met, and subject to City of St. Louis ordinances governing the timing for candidates to file for an elected public office of the City of St. Louis.

7. On the day immediately following the last day on which individuals may file as candidates for an elective public office of the City of St. Louis the Collector of Revenue shall notify the Board of Election Commissioners in writing if any candidates are delinquent in the filing or payment of any personal property taxes, real property taxes on any real property located within the City of St. Louis and owned in whole or in part by the candidate, earnings taxes, or the payment of City of St. Louis water and refuse bills. In the event that a candidate is delinquent in the payment of any of the foregoing taxes or bills such candidate's name shall not be placed on the ballot, and such candidate shall be barred from participating in the current election and, if the current election is a primary election, barred from refiling as a candidate for the same office or any other elected office of the City of St. Louis in the subsequent general election and shall not have recourse to the remedial actions provided under subsection 8 of this Section 2.08.430.

8. At any time, upon receipt of a written complaint alleging a delinquency of a candidate in the filing or payment of any personal property taxes, real property taxes on any real property located within the City and owned in whole or in part by the candidate, earnings taxes, or in the payment of City of St. Louis water and refuse bills the Board of Election Commissioners shall investigate such candidate to verify the claims contained in the complaint. If the Board of Election Commissioners finds such claims to be true, they shall notify the candidate in writing of the outstanding taxes or bills for City of St. Louis water and refuse services

due and give the candidate seven (7) days following the candidate's receipt of notice to remit payment in full of any such outstanding taxes or bills owed which were not theretofore the documented subject of dispute between the respective department and the candidate, and provide the Board of Election Commissioners with proof thereof in the form of official receipts or statements of no taxes due from the Collector of Revenue evidencing payment of such taxes or bills. The notice shall be sent via U.S. Postal Service certified mail return receipt requested to the address provided by the candidate on the candidate's declaration of candidacy and shall be deemed received seventy-two (72) hours after mailing. If the candidate fails to remit payment in full of such amounts within the seven (7) day period, the candidate shall be disqualified from participating in the current election and, if the current election is a primary election, barred from refiling as a candidate for the same office or any other elected office of the City of St. Louis in the subsequent general election even if the candidate pays all outstanding taxes or bills owed that were the subject of the complaint. Any such complaint must be filed no later than two (2) weeks prior to the election, provided that any complaint filed later than seven (7) weeks before the election that is later found to be true will result in disqualification of the candidate but may not necessarily result in the candidate's name being physically removed from the ballot.

9. Nothing herein shall either preclude or require an independent investigation by the Board of Election Commissioners of all candidates in any given election to determine if any such candidates are delinquent in the filing or payment of any personal property taxes, real property taxes on any real property located within the City and owned in whole or in part by any candidate, earnings taxes, or in the payment of City of St. Louis water and refuse bills. If the Board of Election Commissioners commences such an investigation and discovers that any candidate is delinquent in the filing or payment of any personal property taxes, real property taxes on any real property located within the City and owned in whole or in part by the candidate, earnings taxes, or in the payment of City of St. Louis water and refuse bills the Board of Election Commissioners shall notify the candidate in writing of the outstanding taxes or bills due and give the candidate seven (7) days following the candidate's receipt of said notice to remit payment in full of any outstanding taxes or water or refuse bills due which were not theretofore the documented subject of dispute between the respective department and the candidate, and provide the Board of Election Commissioners with proof thereof in the form of official receipts or statements of no taxes due from the Collector of Revenue evidencing payment of such taxes or bills. The notice shall be sent via U.S. Postal Service certified mail return receipt requested to the address provided by the candidate on the candidate's declaration of candidacy and shall be deemed received seventy-two (72) hours after mailing. If the candidate fails to remit payment in full for such amounts within said seven (7) day period the candidate shall be disqualified from participating in the current election and, if the current election is a primary election, barred from refiling as a candidate for the same office or any other elected office of the City of St. Louis in the subsequent general election even if the individual pays all outstanding taxes or bills that were the subject of the complaint. He shall establish and maintain such files, dockets and other records as required. He shall make out and issue all processes, commitments and executions and when authorized shall sign the same as Clerk. He shall have authority to administer oaths and affirmations. He shall tax all costs, subject to appeal to the judges, and shall make out all fee bills therefor. He shall keep financial records pertaining to fines and costs and the collection thereof as the Comptroller from time to time may prescribe and make periodic reports of the same to the appropriate authorities of the City. He shall prepare and certify to the correctness of any transcripts of files, dockets or other records or such parts thereof as may be requested of him. His duties when not otherwise prescribed by law shall be governed, as near as may be, by the practice in the office of the clerk of criminal causes for the City.

B. *Files.* He shall establish a file for each information or complaint filed in the Court and shall number each file so established in a distinctive fashion so that no two or more informations or complaints bear the same number; said number shall be termed the "cause number." All pleadings, processes, commitments, executions and other documents pertaining to a cause shall be marked with the appropriate cause number and inserted in the appropriate file. He shall make such entries in the several files from time to time as the judges may direct in order to fully record action taken in relation thereto. He shall store all files of causes which are currently pending in the Court in a convenient location and separate from those files in which there has been a final disposition. It is unlawful for anyone other than a judge of the division of the Court for which such docket was prepared to change or alter the docket in any manner or form and any change or alteration made by a judge shall be initialed by him at the time of the change or alteration. The clerk, in addition to judge's dockets, shall, from time to time, prepare other dockets as the judges may request, termed "judge's special docket." He shall enter upon the special dockets causes as may be designated by the judge for whom prepared. The special dockets shall in all other respects, however, be governed by the provisions set forth for the daily dockets designated as judge's dockets.

D. *Indexes.* He shall establish and maintain, in some appropriate form, an index to be termed "general index," which shall consist of the cause numbers arranged in consecutive numerical sequence. Following each cause number he shall enter the following information in regard to each numbered cause as the information becomes available: the name or names of the persons charged; the date of the filing of the charge; the City Court where originally set for hearing; the date of the first setting; the exact nature of the final disposition; the date of final disposition; and further information as he may deem advisable or as may be designated by the judges on written notice to the Clerk. In addition to the general index, the Clerk shall establish and maintain, in some appropriate form, an "alphabetical index," which shall consist of the names of all persons against whom a cause has been filed arranged in alphabetical sequence. He shall also establish and maintain, in some appropriate form, an "appeal index," which shall consist of a chronological list of all causes in which an appeal shall have been taken from a judgment or an order of the Court. Every cause entered upon the appeal index shall be identified by its cause number; the name or names of the persons charged therein; the nature of the offense; the date and nature of the judgment or order of the City Court appealed from; the particular City Court from which the appeal is being taken; the party or parties appealing; and the date the appeal is perfected. The clerk shall, on an appeal being perfected, make out and certify to the Court to which the appeal is taken a full transcript of the proceedings had in the cause in the City Court, for which (unless the City is the appellant) he shall collect from the appellant a transcript fee of one and one-half dollar, which the Clerk shall pay into the Treasury within three days after receipt and acknowledge the payment and its date on the appeal index. The clerk shall, from time to time, establish such other indexes and records as he may deem advisable or as may be requested by the judges or other authorized officers upon receipt of a written request for the same from the judges or other authorized officers. 3.44.080 Prohibited discriminatory practices.

A. *Generally.* Discriminatory practices, as defined and established by this section, are prohibited. Any person engaging in a prohibited discriminatory practice shall be guilty of an ordinance violation, which shall be punishable in the manner set out in Section 3.44.150.

B. *Discrimination in Employment.* It shall be a prohibited discriminatory employment practice:

1. For an employer to fail or refuse to hire, to discharge or otherwise to discriminate against any individual with respect to compensation or the terms, conditions or privileges of employment, because of race, color, age, religion, sex, familial status, disability, sexual orientation, gender identity or expression, national origin or ancestry.

2. For a labor organization to exclude or expel from membership, or otherwise to discriminate against any applicant or member, because of race, color, age, religion, sex, familial status, disability, sexual orientation, gender identity or expression, national origin or ancestry of any applicant or member.

3. For an employment agency to fail or refuse to refer for employment, or otherwise to discriminate against any individual because of race, color, age, religion, sex, familial status, disability, sexual orientation, gender identity or expression, national origin or ancestry of said individual.

4. For an employer, labor organization or employment agency to print or circulate or cause to be printed or circulated, any statement, advertisement or publication, or to make any inquiry in connection with prospective employment, which expresses directly or indirectly any preference, limitation, specification or discrimination because of race, color, age, religion, sex, familial status, sexual orientation, gender identity or expression, disability, national origin or ancestry, unless based upon a bona fide occupational qualification.

5. Notwithstanding Subsections B.1, 2, 3 and 4 of this section, the age prohibition shall be limited to individuals who are at least forty (40) years of age, but less than seventy years of age.

6. For an academic, professional or vocational school to exclude or expel from enrollment, or otherwise to discriminate against any applicant or student, because of the race, color, religion, familial status, disability, sexual orientation, gender identity or expression, national origin or ancestry of said applicant or student.

7. For an academic, professional or vocational school to or circulate or cause to be printed or circulated, a statement, advertisement or publication, or to use any form of application for admission to said school, or to make any inquiry in connection with prospective enrollment in said school, which expresses directly or indirectly any preference, limitation, specification, or discrimination because of race, color, religion, sexual orientation, gender identity or expression, familial status, disability, national origin or ancestry.

8. It shall not be an unlawful employment practice for a school, college, university or other educational institution which is, in whole or in substantial part, owned, supported, controlled or managed by a particular religion, or by a particular religious corporation, association, or society, if the curriculum of such school, college, university or other educational institution is substantially directed toward the propagation or teaching of a particular religion, for such school, college, university or educational institution to consider the religion of an applicant in making a hiring decision for a teaching or counseling position, a professorship, or a position involving supervision of teachers, counselors or professors.

9. Nothing contained in this chapter shall be interpreted to require any employer, employment agency, labor organization, or joint labor management committee subject to this chapter to grant or accord preferential treatment to any individual or group because of the race, color, national origin or ancestry of such individual or group because or on account of an imbalance which may exist with respect to the total number or percentage of persons of any race, color, religion, sex, sexual orientation, gender identity or expression, familial status, disability, national origin or ancestry employed by any employer, referred or classified for employment by any employment agency or labor organization, admitted to membership or classified by any labor organization, or admitted to, or employed in, any apprenticeship or other training program, in comparison with the total number or percentage of persons of such race, color, religion, sexual orientation, gender identity or expression, familial status, disability, national origin or ancestry in this community, or in the available work force in this community.

10. Employer, employment agency, labor organization or their employees, agents or members thereof, to directly or indirectly advertise or in any other manner indicate or publicize that individuals of any particular age, race, creed, color, sexual orientation, gender identity, national origin, religion or disability are unwelcome, objectionable, not acceptable or not solicited for employment or membership unless based on the nature of the occupation.

C. *Discrimination in Provision of Housing or Realty.*

1. *Prohibited Discriminatory Housing or Realty Practices.* It shall be a prohibited housing or realty practice and shall constitute a discriminatory housing practice:

a. For any person, including, without limitation, any real estate broker, salesman or agent, or any employee thereof, to discriminate against any individual because of race, color, religion, sex, sexual orientation, gender identity or expression, familial status, legal source of income, disability, national origin or ancestry, with respect to the use, enjoyment or transfer, or prospective use, enjoyment or transfer, of any interest whatsoever in realty, or with respect to the terms, conditions, privileges or services granted or rendered in connection therewith, or with respect to the making or purchasing of loans for the purchase or maintenance of residential real estate or loans in the secondary market, or the provision of other financial assistance, or with respect to the terms, conditions, privileges or services granted or rendered in connection with any interest whatsoever in realty, or with respect to the making of loans secured by residential real estate;

b. For any person, including, without limitation, any banking, money lending, credit securing or other financial institution, or any officer, agent or employee thereof, to discriminate against any individual because of race, marital status, familial status, color, religion, sex, sexual orientation, gender identity or expression, disability, national origin or ancestry, with respect to the granting or withholding of credit or financial assistance, or the extending or renewing of credit or financial assistance, or modifying of rates, terms, conditions, privileges or other provisions of credit or financial assistance, or services retained or rendered, in connection with the transfer or prospective transfer of any interest whatsoever in realty, or in connection with the construction, repair, improvement or rehabilitation of realty;

c. For any real estate broker, salesman or agent, or any employee thereof, or any other person seeking financial gain thereby, directly or indirectly to induce or solicit, or attempt to induce or solicit, the transfer of any interest whatsoever in realty, by making or distributing, or causing to be made or distributed, any statement or representation concerning the entry or prospective entry into the neighborhood of a person or persons of a particular race, color, religion, sex, sexual orientation, gender identity or expression, disability, familial status, national origin or ancestry or with a particular source of lawful income;

d. For any person to refuse to sell or rent after the making of a bona fide offer, or to refuse to negotiate the sale or rental of, or otherwise make unavailable or deny a dwelling to any person because of race, color, religion, sex, familial status, legal source of income, disability, sexual orientation, gender identity or expression, national origin or ancestry;

e. For any person to discriminate against any other person in the terms, conditions, or privileges of sale or rental of a dwelling, or in the provision of services or facilities in connection therewith, because of race, color, religion, sex, familial status, legal source of income sexual orientation, gender identity or expression, disability, national origin, or ancestry;

f. For any person to make, print, or publish, or cause to be made, printed, or published any notice, statement, or advertisement, with respect to the sale or rental of a dwelling that indicates any preference, limitation, or discrimination based on race, color, religion sex, familial status, lawful source of income, sexual orientation, gender identity or expression, disability, national origin, or ancestry, or an intention to make any such preference, limitation, or discrimination;

g. For any person to represent to another person because of race, color, religion sex, familial status, lawful source of income, sexual orientation, gender identity or expression, disability, national origin, or ancestry that any dwelling is not available for inspection, sale, or rental when such dwelling is, in fact, so available;

h. For any person to deny any other person access to or membership or participation in any multiple-listing service, real estate brokers' organization or other service, organization or facility relating to the business of selling or renting dwellings, or to discriminate against him in the terms or conditions of such access, membership, or participation on account of race, color, religion sex, familial status, sexual orientation, gender identity or expression, disability, national origin, or ancestry.

i. Notwithstanding the foregoing, a person engaged in the business of furnishing appraisals of real property may take into consideration factors other than race, color, religion, national origin, sex, sexual orientation, gender identity or expression, handicap or familial status.

2. *Discrimination Against Persons With Disabilities.* For purposes of this subsection, the term "discriminatory practice" includes:

a. Discrimination against any person in the terms, conditions, or privileges of sale or rental of a dwelling, or in the provision of services or facilities in connection with such dwelling, or in the sale or rental or otherwise making unavailable or denying a dwelling to any buyer or renter because of a handicap of:

i. That person; or

ii. A person residing in or intending to reside in that dwelling after it is so sold, rented, or made available; or

iii. Any person associated with that person; provided, however, that a refusal to make available a unit for rent shall not be a discriminatory practice if such potential renter, the person with one or more disabilities, or a person on behalf of a person with disabilities seeks modifications to the rental property but the potential renter is unable or unwilling to pay the expense of such modifications or provide the agreement to restore the premises, where it is reasonable to do so, in accordance with the provisions of Subsection C.2.b below.

b. A refusal to permit, at the expense of a person with disabilities, or another person on behalf of a person with disabilities, reasonable modifications of existing premises occupied or to be occupied by such person with disabilities, if such modifications may be necessary or desirable to afford the person with disabilities full enjoyment of the premises, except that, in the case of a rental unit, the landlord may, where it is reasonable to do so, condition permission for a modification on the renter agreeing to restore the interior of the premises to the condition that existed before the modification, reasonable wear and tear excepted;

c. A refusal to make reasonable accommodations in rules, policies, practices, or services, when such accommodation may be necessary to afford such person an equal opportunity to use and enjoy a dwelling; and

d. In connection with the design and construction of a covered multifamily dwelling for first occupancy after March 13, 1991, a failure to design and construct such dwelling, in a manner that complies with the Fair Housing Act and its implementing regulations.

Notwithstanding the above, compliance with the appropriate requirements of the American National Standard for buildings and facilities providing accessibility for persons with physical disabilities (commonly cited as "ANSI A117.1") suffices to satisfy certain requirements of the Fair Housing Act and its implementing regulations, and nothing in this section shall require a dwelling to be made available to a person whose occupancy would cause a direct threat to the health or safety of other individuals or would result in substantial physical damage to the property of others.

3. *Exemptions.*

a. None of the provisions of Subsection C of this section, except Subsection C.1.f thereof, shall apply to:

i. Any single-family house sold or rented by an owner, provided that: such private individual owner does not own more than three single-family dwellings at any one time; that in the case of the sale of any single-family dwelling by a private owner who was not the most recent resident of such house prior to such sale, the exemption granted herein shall apply only with respect to one such sale within any twenty-four-month period, if such bona fide private individual owner does not own any interest in, nor is there owned or reserved any interest on his behalf, under any express or voluntary agreement, title to or rental of, or any right to all or a portion of the proceeds from the sale or rental of, more than three single-family dwellings at one time; the sale or rental of any single-family dwelling shall be excepted from the application of this subsection only if such house is sold or rented (A) without the use in any manner of the sales or rental facilities or the sales or rental services of any real estate broker, agent, or salesman, or of such facilities or services of any person in the business of selling or renting dwellings, or of any employee or agent of any such broker, agent, salesman, or of such facilities or services of any person in the business of selling or renting dwellings, or of any employee or agent of any such broker, and (B) without the publication, posting or mailing, after notice, of any advertisement or written notice in violation of Subsection C.1.f of this section; except that nothing herein shall prohibit the use of attorneys, escrow agents, abstractors, title companies, and other such professional assistance as necessary to perfect or transfer title; or

ii. Rooms or units in dwellings containing living quarters occupied or intended to be occupied by no more than four families living independently of each other, if the owner actually maintains and occupies one of such living quarters as his residence.

b. Nothing in Subsection C of this section shall prohibit a religious organization, association, or society, or any nonprofit institution or organization oper-

ated, supervised or controlled by or in conjunction with a religious organization, association, or society, from limiting the sale, rental or occupancy of dwellings which it owns or operates for other than a commercial purpose to persons of the same religion, or from giving preference to such person, unless membership in such religion is restricted on account of race, color, national origin or disability. Nor shall anything in this section prohibit a private club not in fact open to the public, which as an incident to its primary purpose or purposes provides lodgings which it owns or operates for other than a commercial purpose, from limiting the rental or occupancy of such lodgings to its members or from giving preference to its members.

c. The provisions of Subsection C of this section regarding familial status shall not apply with respect to housing for older persons.

4. *Prohibited Acts by Landlords, Property Owners and Managers.* It shall be unlawful for any landlord, property owner or manager to do any of the following, except as otherwise provided in this section:

a. Decline a rental application of a potential tenant, or evict a current tenant, occupant or affdiated individual, for any grounds related to said person being a victim of domestic violence, dating violence, sexual violence or stalking.

b. Construe any incident or incidents of actual or threatened domestic violence, dating violence, sexual violence or stalking to be a serious or repeated violation of the lease, or as otherwise "good cause" for terminating the tenancy or occupancy rights of the victim of abuse, provided that the victim has complied with the requirements for gaining the protections afforded by RSMo 455.010, 455.030, 455.030.3, 455.050.

c. Terminate the tenancy or occupancy rights of a victim due to criminal activity directly related to the domestic violence, dating violence, sexual violence or stalking of which such person is the victim, even if the criminal activity is engaged in by a member of a tenant's household or any guest or other person under the tenant's control, provided that the victim has complied with the requirements for gaining the protections afforded by RSMo. 455.010. 455.030, 455.030.3, 455.050.

d. To directly or indirectly advertise or in any other manner indicate or publicize that the patronage of individual of a particular age, race, creed, color, sex, sexual orientation, gender identity, national origin, religion or disability is unwelcome, objectionable, not acceptable or not solicited.

e. If the domestic violence, sexual violence or stalking is being committed by a cotenant of the victim a landlord is authorized to bifurcate the lease to remove the offender while still allowing the victim to remain a tenant or occupant in the residence.

D. *Discrimination in Public Accommodations.* It shall be a prohibited discriminatory public accommodation practice for any person, including, without limitation, any owner, lessee, manager, proprietor, custodian, agent or employee of a place of public accommodation, to discriminate against any individual because of race, color, religion, sexual orientation, gender identity or expression, familial status, legal source of income, disability, national origin or ancestry, with respect to the terms, conditions and privileges of access to or with respect to the uses, services and enjoyment of a place of public accommodation.

E. *Discrimination in City Activities or Programs.* No person shall, on the ground of race, marital status, color, age, religion, sexual orientation, gender identity or expression, familial status, disability, national origin or ancestry, be excluded form participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving funding or other financial assistance or relief directly or indirectly from the City of St. Louis.

F. *Unlawful Intimidation or Retaliation.* It shall be a prohibited discriminatory practice for any person, directly or indirectly, to discriminate, coerce, intimidate, threaten, interfere with, or retaliate against any person because he has: opposed any practice made unlawful by this chapter; has exercised his rights, or encouraged another to exercise his rights under this chapter; or because he has filed a complaint, cooperated with an investigation of an alleged prohibited discriminatory practice, testified at a hearing held by the Commission, or otherwise assisted in any proceeding under this chapter.

G. *Unlawful Interference.* It shall be unlawful to interfere with any person in the exercise or enjoyment of, or on account of his having exercised or enjoyed, rights granted and protected by this chapter.

H. *Exemptions.*

1. Nothing in this chapter shall limit the applicability of any reasonable local, state or federal restrictions regarding the maximum number of occupants permitted to occupy a dwelling, nor shall any provision of this chapter regarding familial status apply with respect to housing for older persons.

2. Nothing in this chapter shall prohibit conduct against a person because such person has been convicted by any court of competent jurisdiction of the illegal manufacture or distribution of a controlled substance as defined by state and federal law.

3. A person shall not be held personally liable for monetary damages for a violation of this chapter if such person reasonably relied, in good faith, on the application of the exemption under this section relating to housing for older persons. For the purpose of this Subsection 3, a person may only show good faith reliance on the application of this exemption by showing that:

a. Such person has no actual knowledge that the facility or community is not or will not be eligible for such exemption; and

b. The facility or community has stated formally, in writing, that the facility or community complies with the requirements for such exemption. (1994 C., § 3.44.080; Ord. No. 71344, §§ 2, 3, 1-8-2021; Ord. No. 68715, § 5, 7-13-2010; Ord. No. 67119, § 9, 2006; Ord. No. 66088, § 9, 2003.)

3.44.090 Agency action—Preliminary matters.

A. *Complaints and Answers.*

1. An aggrieved person may, not later than one hundred eighty (180) days after an alleged prohibited discriminatory practice has occurred or terminated, file a complaint with the Director. Such complaint shall be in writing, and shall contain such information and be in such form as required by the Director. An agent or attorney of complainant may sign such complaints. Notice shall be served on complainants and respondents consistent with the "notice provisions" of this section. Where a complaint alleges that a respondent has engaged in a prohibited discriminatory practice which would also be a violation of the provisions of RSMo Ch. 213, the complaint shall be handled and investigated as a complaint alleging violation of state law.

2. The Director, on his own initiative, may also file a complaint. Complaints shall be in writing and shall contain such information and be in such form as those complaints filed by aggrieved persons. Where a Director's complaint alleges that a respondent has engaged in a prohibited discriminatory practice that violates the ordinance codified in this chapter and the provisions of RSMo Ch. 213, the complaint shall be handled and investigated as a complaint alleging violation of state law. The Director shall have authority to determine whether a complaint should be filed.

3. Whenever a complaint alleges a prohibited discriminatory practice that, if proven true, would violate this chapter, but does not violate any of the provisions of RSMo Ch. 213, the Director shall cause such complaint to be investigated, and if the Director determines that there is probable cause to believe that a prohibited discriminatory practice has occurred, the Director shall refer the matter to the City Counselor for prosecution.

4. Any complaint which is filed with the federal Equal Employment Opportunity Commission, the Missouri Commission on Human Rights, or other federal or state agency with which the Commission or Director has entered into a work sharing or deferral agreement shall be deemed filed with the Director on the date that such complaint is received by such federal or state agency. A copy of all complaints with respect to which the Missouri Commission on Human Rights would have jurisdiction shall be forwarded to the Missouri Commission on Human Rights within seven days after the complaint is filed with the Director.

5. As soon as practicable upon receipt of a complaint, the Director shall make a determination as to whether the Agency will defer or waive further action thereon pursuant to agreement with federal or Missouri governmental entities having jurisdiction over a substantially identical complaint filed by the same complainant under similar federal or Missouri law, in which case the Director shall notify the complainant and the respondent of such deferral or waiver.

6. When a complaint has been filed, the Director shall:

a. Serve notice upon the complainant acknowledging filing of the complaint and advising the complainant of the time limits and choice of forums available pursuant to federal and state law and this chapter;

b. Not later than ten (10) days after such filing, or the identification of an additional person whom the complainant or the Director determines should be added as a respondent, serve on the respondent a notice identifying the alleged prohibited discriminatory practice and advising the respondent of the procedural rights and obligations of respondents under this chapter, together with a copy of the original complaint.

7. A respondent may file, not later than ten (10) days after receipt of a notice from the Director pursuant to Subsection A.2 of this section, an answer to the

complaint; provided, however, that such answer, for the purpose of meeting the ten-day time limitation specified in this subsection, may consist of an acknowledgment of receipt of complaint together with a request for an extension of an additional twenty (20) days or less for the filing of a complete answer.

8. Complaints and answers shall be under oath or affirmation and may be reasonably and fairly amended at any time.

9. A person who is not initially named as a respondent in a complaint, but whom complainant believes should be added as a respondent, or who is identified as a potential violator of the provisions of this chapter and/or RSMo Ch. 213 during investigation of the complaint, may be joined as an additional or substitute respondent upon written notice from the Director. Such notice shall specify the reasons such person is being added as respondent.

10. Where the Director has deferred or waived action pursuant to the provisions of Subsection A.3 of this section, he shall take no further action thereon under the provisions of this chapter.

B. *Conciliation.*

1. During the period beginning with the filing of a complaint and ending with either a probable cause determination or dismissal, the Agency shall, to the extent feasible, engage in conciliation with respect to such complaint.

2. A conciliation agreement arising out of such conciliation shall be an agreement between the respondent and the complainant, and shall be subject to approval by the Director.

3. A conciliation agreement may provide for binding arbitration of the dispute from which the complaint arises. Any such arbitration conducted pursuant to a conciliation agreement may award appropriate relief, including monetary relief.

4. Every conciliation agreement resolving a complaint filed pursuant to this section alleging violation of Section 3.44.080(C) of this chapter shall be made public, unless the complainant and respondent agree otherwise and the Director determines that disclosure of the agreement is not required to further the purposes of

this chapter. Every conciliation agreement resolving a complaint filed pursuant to this section alleging violation of either Section 3.44.080(B) or (D) shall only be disclosed or made public if complainant and respondent agree to have such agreement made public.

5. Nothing said or done in the course of attempts to conciliate a complaint may be made public or used as evidence in a subsequent proceeding under this chapter without the written consent of the person(s) concerned.

6. Breach of a conciliation agreement resolving a complaint filed hereunder shall constitute a violation of this chapter. Where the Director has reason to believe that such a breach has occurred he may attempt further conciliation and/or refer the matter to the City Counselor for prosecution in municipal court.

7. Where a complaint alleges an action or occurrence which would constitute a violation of the provisions of RSMo Ch. 213 and the complainant and the respondent have thereafter entered into a conciliation agreement which has subsequently been violated by the respondent, the Director shall recommend to the City Counselor or to the Attorney General of the State of Missouri that an action be filed for enforcement of the conciliation agreement.

C. *Investigation.*

1. The Agency shall make an investigation of a complaint of prohibited discriminatory practice, commencing before the end of the 30th day after receipt of the complaint.

2. The investigation of a complaint alleging a violation of the Fair Housing Act, 42 U.S.C. § 3601 et seq. or a violation of Section 3.44.080 C. of this chapter shall be completed within 100 days. If the Agency is unable to complete the investigation within 100 days of the receipt of the complaint, the Agency shall continue the investigation and shall notify the complainant and respondent in writing of the reasons for the delay. The Agency shall make a final administrative disposition of said complaint within one year of the date of receipt of a complaint, unless it is impracticable to do so. If the Agency is unable to do so, it shall notify the complainant and respondent in writing of the reasons for not doing so and shall continue with the investigation, administrative proceeding or conciliation of the complaint.

3. If the parties enter into conciliation agreement pursuant to the provisions of this Section 3.44.090, any investigation shall be terminated upon approval of the conciliation agreement by the Director.

4. The Agency may, in the course of its investigation, direct interrogatories to any or all complainants and/or respondents. Parties shall respond to said interrogatories within twenty (20) days of issuance thereof.

5. At the conclusion of the investigation of a complaint pursuant to the provisions of this section, the Agency shall prepare a final investigative report which shall contain the names and dates of contacts with witnesses and a summary of statements made by such witnesses; a summary and dates of correspondence and contact with the complainant(s) and respondent(s); a summary of other pertinent documents examined by the Agency; and answers to interrogatories propounded by the Agency. This report may be amended if additional relevant evidence is uncovered subsequent to the filing of the report. The investigative report shall be made available to both the complainant and the respondent. Until completion of such a report, a party shall only be given access to documents or other materials in the possession of the Commission or Agency which that party provided to the Agency.

D. *Prompt Judicial Action to Preserve Rights.* If the Director concludes at any time subsequent to the filing of a complaint that prompt judicial action is necessary to protect or prevent frustration of rights protected by RSMo Ch. 213, he shall authorize a civil action for appropriate temporary or preliminary relief pending final disposition of a complaint filed pursuant to the provisions of this section. Upon receipt of such authorization, the City Counselor may commence and maintain such an action. The commencement of a civil action under this subsection does not affect the initiation or continuation of administrative proceedings pursuant to this chapter.

E. *Probable Cause Determination and Effect.*

1. Within ten (10) days of conclusion of an investigation of a complaint, the Director shall make a determination as to whether probable cause exists, based on the investigation, to believe that the respondent has committed or engaged in a prohibited discriminatory practice or is about to commit or engage in a prohibited discriminatory practice.

2. If the Director determines that probable cause exists to believe that a prohibited discriminatory practice has occurred or is about to occur which would also constitute a violation of any of the provisions of RSMo Ch. 213, he shall immediately issue a charge on behalf of the complainant which shall be referred to a hearing officer for further proceedings pursuant to Section

3.44.100 of this chapter. Such charge shall consist of a short and plain statement of the facts upon which the Director has found reasonable cause to believe that a prohibited discriminatory practice has occurred or is about to occur. It need not be limited to the facts or grounds alleged in the complaint.

3. If the Director determines that probable cause exists to believe that a prohibited discriminatory practice has occurred which does not constitute a violation of the provisions of RSMo Ch. 213, he shall immediately refer such matter to the City Counselor for prosecution in municipal court. In such case, the Director may continue efforts at conciliation.

4. If the Director determines that no probable cause exists to believe that a prohibited discriminatory practice has occurred or is about to occur, he shall immediately dismiss the complaint. The Director shall make public all dismissals of a complaint.

5. No charge shall be issued under this section after the commencement of the trial of a civil action, initiated by a complainant under either state or federal law, which seeks relief with respect to the prohibited discriminatory practice alleged in the complaint.

6. Immediately upon issuing a charge, the Director shall cause a copy thereof, together with information as to how an election may be made pursuant to RSMo 213.076 and the effect of such an election, to be served on each complainant and respondent, together with notice of the time and place that a hearing on the charge will be held, unless an election is made pursuant to RSMo 213.076. (1994 C., § 3.44.090; Ord. No. 69692, § 2, 3-5-2014; Ord. No. 67119, § 10, 2006; Ord. No. 66088, § 10, 2003.)

3.44.100 Administrative proceedings subsequent to issuance of charges.

A. The Director may issue subpoenas to compel the attendance of witnesses at hearings held before a hearing officer on a charge either on his own motion or at the request of either the complainant or the respondent. Any person who willfully fails or neglects to attend and testify at a hearing pursuant to subpoena issued pursuant hereto shall be in violation of this chapter. The Director shall also have authority to seek judicial enforcement of subpoenas issued by him.

B. Any party to a complaint on which a charge has been issued may take and use depositions, written interrogatories, requests for production of documents and other materials, and requests for admissions, and all other forms of discovery authorized by the Rules of Civil Procedure in the same manner, upon, and under the same conditions, and upon the same notice, as is or may hereafter be provided for with respect to the taking and using of depositions, written interrogatories, requests for production of documents and other materials, and requests for admissions, and all other forms of discovery authorized by the Rules of Civil Procedure in civil action in state circuit court. The hearing officer appointed to conduct a hearing on a charge may establish a schedule for conduct of discovery in such matter and shall have authority to seek judicial sanctions against any party willfully failing to comply with a request for discovery.

C. Where no election has been made under RSMo 213.076 with respect to a charge issued by the Director, a hearing shall be held thereon by a hearing officer appointed by the Director, unless the respondent admits to having committed the violations as set forth in the charge. This hearing shall be held at the place and time designated in the original notice of the charge, unless the hearing be continued by written order of the hearing officer. In any event, hearings on a charge shall commence within 120 days following issuance of the charge, unless it is impracticable to do so. If hearings are not to be commenced within 120 days of issuance of the charge, the hearing officer shall notify the Director, the complainant(s) and the respondent(s) of the reason for not doing so. At said hearing, each party may appear in person, be represented by counsel, present evidence, and cross examine witnesses. Any aggrieved person may intervene as a party in the proceeding. The admission of evidence at the hearing shall be controlled by the provisions of RSMo 536.070. F. Within sixty (60) days of the conclusion of the hearing on a charge, the hearing officer shall file recommended findings of fact, conclusions of law, and a proposed order with the Commission. A tape recording of the proceedings at the hearing, together with copies of all exhibits introduced into evidence at the hearing, shall also be filed with the Commission.

G. Upon receipt of the above, the Commission shall appoint a panel of at least three members of the Commission, or shall act as a whole, to review the tape and the proposed findings of fact, conclusions of law and recommended order prepared by the hearing officer. I. No order issued by the Commission shall affect any contract, sale, encumbrance, or lease consummated before the issuance of such order and involving a bona fide purchaser, encumbrancer or tenant without actual notice of the charge filed pursuant to this section.

J. Upon issuing its order, the Commission shall, within thirty (30) days thereof, submit said order to the Missouri Commission on Human Rights for review. Within forty-five (45) days of issuance of its order, it shall transmit a written copy of the transcript of the hearing and a complete copy of the written record to the Missouri Commission on Human Rights. No decision of the Commission shall be final for purposes of enforcement or appeal, until either the order is affirmed by a hearing examiner of the Missouri Commission or more than ninety days pass from the date upon which the complete transcript and record was received by the Missouri Commission without any opinion being issued thereon by the State Commission's Hearing Examiner.

K. In the case of an order finding that a respondent engaged in a prohibited discriminatory practice that occurred in the course of a business which requires licensing or permitting by a governmental agency (other than a business license or occupancy permit), the Director shall, within thirty days of an order of the Commission becoming final, send copies of the Commission's findings of fact, conclusions of law and order to that agency, together with a recommendation of appropriate disciplinary action.

L. The City Counselor shall thereafter file a petition in Circuit Court seeking to enforce the Commission's decision. The relief which may be granted on such petition, and the procedure thereon, shall be that provided by RSMo 213.085.3.

If the Director has made a finding of probable cause and an election is made pursuant to RSMo 213.076.1, the Director shall request that the City Counselor file suit on behalf of the City and, if one or more complainants or aggrieved persons choose not to retain private counsel, on behalf of any complainant or aggrieved person not represented by private counsel. Within thirty (30) days of such request being made, the City Counselor, or private counsel retained under contract by the City Counselor, shall commence and maintain a civil action in Circuit Court in the name of the City and any complainant not represented by private counsel seeking relief as authorized by RSMo Ch. 213. Should the City Counselor prevail in such suit, he is hereby authorized and directed to seek attorney's fees. Any attorney's fees recovered by the City shall be paid into the General Revenue Fund of the City. The City Counselor may retain private counsel to commence and maintain the lawsuit, but shall not through such retention delegate decisionmaking authority with respect to such suit to such private counsel. In the event the Board of Adjustment decides to authorize a building permit, it shall have the power to specify the exact location, ground area, height and other details and conditions of extent and character, and also the duration, of the building, structure or part thereof to be permitted. An applicant for a permit may appeal to the Board of Adjustment, a hearing upon the appeal and notice of which shall be held and given as provided in Section 3.48.160. The Board of Adjustment is empowered to authorize a permit, subject to conditions as the Board of Adjustment may impose, when it appears from the evidence that the circumstances of the case do not require the proposed building to be related to existing streets or to mapped streets as shown on the official map and where the permit would not tend to distort or increase the difficulty of carrying out the official map or Comprehensive PLAN of the City. The Board of Public Service is empowered, upon application by an owner of land fronting on an outer roadway of a highway, without access to a street, to designate the outer roadway as a street and the designation by the Board of Public Service shall be deemed in compliance with this section for the purpose of issuance of building permit. Each of the dwelling houses shall be situated in an area designated a neighborhood rehabilitation area by the Community Development Commission and there shall be no more than one of the dwelling houses in each of the areas. Each dwelling house shall be used for the following purposes:

The City shall use the moneys collected from such special assessments to reimburse the City for all amounts paid or to be paid by it as principal of and interest on its general obligation bonds issued for such improvements. (1994 C., § 3.87.040; Ord. No. 62346, § 4, 1991.)

Editor's Note:

The act referenced above is RSMo 67.453 et seq. (2016). Section 4 of Ordinance 62346 was incomplete as submitted to codifier.

3.87.050 Preliminary project statement.

A. Any Alderman desiring to introduce an ordinance submitting the question of creating a neighborhood improvement district to qualified voters pursuant to Section 3.87.060 A of this chapter shall, and any person desiring to prepare and file with the City Register a petition to create such a district pursuant to Section 3.87.060 B of this chapter may, prior to taking any steps to initiate the creation of a district, prepare and submit to the Clerk of the Board of Aldermen a preliminary project statement regarding the proposed district. Said preliminary statement shall contain the following information:

1. The project name for the proposed district;

2. The general nature of the proposed district, including, to the extent possible, an identification and description of all improvements proposed to benefit the proposed district;

3. The boundaries of the proposed district to be assessed;

4. The estimated cost of all proposed improvements;

6. The proposed method or methods of assessing the benefits inuring to property located within the proposed district;

8. A compatibility statement prepared by the City's Community Development Agency describing the relationship of the proposed district and proposed improvements to any existing or contemplated neighborhood, area or City redevelopment plan or planning process, the primary purpose of which shall be to ensure that the proposed district does not conflict with other development efforts, whether short- or long-term. The Community Development Agency shall respond to any written request for a compatibility statement within fifteen (15) days of the date of such request.

B. Any Alderman attempting to prepare a preliminary project statement may request assistance from the City's Board of Public Service. Any other person attempting to prepare a preliminary project statement may request assistance from his or her Alderman, who may then request assistance from the Board of Public Service. The Board of Public Service, within sixty (60) days of such a request, shall, with the cooperation of the requesting Alderman and any necessary City department, agency or employee, prepare a preliminary statement and shall mail one copy to the Alderman and file one copy with the Clerk of the Board of Aldermen. Any person attempting to create a neighborhood improvement district by petition, therefore, is advised to prepare and submit a preliminary project statement under this section of the chapter prior to taking any further steps to initiate the creation of such a district. The preparation of a preliminary project statement under this section will allow a preliminary review of the proposed district prior to incurring the expense of, and exerting the effort necessary for, the petition process. The Board of Aldermen may by ordinance submit the question of creating a neighborhood improvement district to all qualified voters residing within such district at a general or special election called for that purpose. Such ordinance shall set forth the project name for the proposed district, the general nature of the improvement or improvements proposed, the estimated cost of any such improvements, the boundaries of the proposed neighborhood improvement district to be assessed, the proposed method or methods of assessment and a legal notice of the neighborhood improvement district election. The notice of election shall contain the date and time of the election, a statement that the Board of Aldermen has called the election, the project name for the proposed neighborhood improvement district, the general nature of the improvement or improvements proposed, the estimated cost of any such improvements, the boundaries of the proposed neighborhood improvement district to be assessed, the proposed method or methods of assessment, a statement that the final cost of any such improvements assessed against property within the district and the amount of general obligation bonds issued therefor shall not exceed the estimated cost of such improvements, as stated in such notice, by more than twenty-five percent, and a sample ballot containing the question of creating a neighborhood improvement district. The notice of election shall be in substantially the form established by Exhibit A to the ordinance codified in this chapter.

2. Upon the passage of such an ordinance and the signing by the Mayor and the enactment of said ordi-

nance the Clerk of the Board of Aldermen, not later than 5:00 p.m. on the eighth Tuesday prior to the anticipated election day, shall: (a) notify the St. Louis Board of Election Commissioners in writing that the Board of Aldermen has called for a neighborhood improvement district election; and (b) include in such notice a certified copy of the election ordinance.

3. The ballot upon which the question of creating a neighborhood improvement district is submitted to the qualified voters residing within the proposed district shall contain a question in substantially the following form:

Shall the City of St. Louis be authorized to create a neighborhood improvement district proposed for the [project name for the proposed district] and incur indebtedness and issue general obligation bonds to pay for all or part of the cost of public improvements within such district, the cost of all indebtedness so incurred to be assessed by the Board of Aldermen of the City of St. Louis on the property benefited by such improvements?

4. The Board of Aldermen may create a neighborhood improvement district when the question of creating such district has been approved by the vote of the percentage of electors within such district voting thereon that is equal to the percentage of voter approval required for the issuance of general obligation bonds of the City under Article VI, Section 26 of the Missouri Constitution. (See Appendix A, attached to the ordinance codified in this chapter and on file in the office of the City Clerk.)

B. As an alternative to the procedure described in Subsection A of this section, the Board of Aldermen may create a neighborhood improvement district when a proper petition has been signed by the owners of record of at least two-thirds by area of all real property proposed to be assessed within such proposed district. The petition, in order to become effective, shall be filed with the City Register who shall immediately forward a legible copy thereof to the Assessor of the City of St. Louis and the Clerk of the Board of Aldermen. A proper petition for the creation of a neighborhood improvement district shall set forth the project name for the proposed district, the general nature of the improvement or improvements proposed, the estimated cost of any such improvement, the boundaries of the proposed neighborhood improvement district to be assessed, the proposed method or methods of assessment, a notice that the names of the signers may not be withdrawn later than seven days after the petition is filed with the City Register, and a notice that the final cost of any such improvements assessed against property within the district and the amount of general obligation bonds issued therefor shall not exceed the estimated cost of such improvements, as stated in such petition, by more than twenty-five percent. The petition shall be prepared in substantially the form established by Exhibit B to the ordinance codified in this chapter, as amended.

1. The petition shall be verified by the Assessor of the City of St. Louis by: (a) compiling a list of the owners of record of all real property proposed to be assessed within the proposed district at the time of filing the petition with the City Register; (b) calculating the total area of such real property in acres or square feet; (c) calculating the total area of the real property represented by signatures in acres or square feet; and (d) comparing the total area of the real property represented by signatures with the total area of all real property proposed to be assessed within the proposed district. The signatures of all owners of record for any single parcel of real property located within a proposed neighborhood improvement district must appear on the petition in order to be considered by the Assessor in the calculation of real property area for purposes of verifying the petition. No signature appearing on a neighborhood improvement district petition shall be considered valid unless the following information is printed on the face of the petition next to the signature: (a) the petitioner's name; (b) the address of the petitioner's real property located within the proposed district; and (c) the address of the petitioner, if different from the address of his or her real property located within the proposed district. Owners of real property located within the proposed district other than individuals may be included in the petition by the signature of any officer, director or other agent authorized to sign the petition on their behalf; provided, however, that if any of the owners of real property who have signed the petition are corporations, the corporate signature shall not be valid unless the following authorization documentation is provided: (a) if the signature is that of the president of the corporation, a copy of the annual registration report from the Secretary of State for the year that the petition is signed shall be attached to the petition; (b) if the signature is that of another officer, or of a director or an agent of the corporation, then a

copy of the corporate resolution or incumbency certificate authorizing that officer, director, or agency to sign the petition shall be attached to the petition.

2. Owners of condominiums pursuant to Missouri's Uniform Condominium Act, RSMo Ch. 448 (1986), which are located within a proposed neighborhood improvement district are owners of record of real property for purposes of the petition process. In calculating the area of a condominium owner's real property interest the Assessor shall refer to the records of the Assessor and the condominium declaration on file in the office of the City's Recorder of Deeds. The Assessor shall multiply that percentage of interest assigned to the owner as found in the applicable condominium declaration against the total area of the tract of land on which the condominium is located to determine the owner's record interest for purposes of the petition process.

3. In the event that the total area of real property represented by signatures equals or exceeds two-thirds of the total area of all real property subject to assessment within the proposed district, the Assessor shall then verify that the signatures appearing on the petition are the signatures of owners of record of real property located within the proposed district. The Assessor shall verify the signatures through the records of the City's Recorder of Deeds or by any other reasonable, accurate means.

4. Upon verification, the Assessor shall prepare a certificate showing the following information: (a) the total number of acres (or square feet) in the proposed district; (b) the total number of acres (or square feet) owned by the owners of real property who have signed the petition; and (c) a recitation that these numbers have been verified against property ownership records of the City of St. Louis. The Assessor shall then forward the aforesaid certificate and a certified copy of the verified petition to the Clerk of the Board of Aldermen. The Board of Aldermen shall not consider the advisability of the proposed district or the proposed improvements until such time as the Assessor's certificate and a certified copy of the verified petition has have been received. (1994 C., § 3.87.060; Ord. No. 63516, § 1, 1995; Ord. No. 62346, § 6, 1991.)

3.87.070 Consideration and establishment of district—Proposed assessments—Hearing.

In the creation of a neighborhood improvement district the Board of Aldermen shall consider the advisability of the district, propose assessments to be made against the real property located within the district, hold a hearing on the establishment of the district and the proposed assessments and establish the district in accordance with the following procedures:

A. Upon receiving the requisite voter approval at an election or upon the filing of a proper petition with the City Register, the Clerk of the Board of Aldermen shall refer the proposal to create the neighborhood improvement district, whether by the election or petition process, to the City's Board of Public Service for the preparation of a project statement. In the event of an election the Clerk shall refer the original ordinance. In the event of the filing of a petition the Clerk shall refer a copy of the verified petition. The Board of Public Service, within sixty (60) days of any such referral, shall, with the cooperation of any necessary City department, agency or employee, prepare the aforementioned project statement and file said statement with the Clerk of the Board of Aldermen. A copy of the project statement shall be mailed to the person or persons who introduced the election ordinance to the Board of Aldermen or to the person or persons who filed the neighborhood improvement district petition with the City Register. A copy of the project statement shall also be filed with the City Register and shall be open for public inspection. The project statement shall contain the following information:

1. The project name for the proposed district;

2. The general nature of the proposed district, including, to the extent possible, an identification and description of any improvements proposed to benefit the proposed district;

3. The boundaries of the proposed district to be assessed;

4. The estimated cost of all proposed improvements;

5. The estimated amount of any bond issue necessary to finance the costs of the proposed improvements, and a debt service retirement schedule;

6. The proposed method or methods of assessing the benefits inuring to property located within the proposed district;

7. An estimate of costs to be assessed against property located within the proposed district, using a per front foot or per square foot basis or any other reasonable assessment basis which results in imposing substantially equal burdens or shares of the cost upon property similarly benefitted;

8. A compatibility statement prepared by the City's Community Development Agency describing the relationship of the proposed and proposed improvements to any existing or contemplated neighborhood, area or City redevelopment plan or planning process, the primary purpose of which shall be to ensure that the proposed district does not conflict with other development efforts, whether short- or long-term. The Community Development Agency shall respond to any request from the Board of Public Service for a compatibility statement within fifteen (15) days of the date of such request.

The Board of Public Service shall include in the project statement its recommendation on the advisability of the proposed district and may include such additional recommendations or information as it deems relevant or necessary. The Board of Aldermen shall not determine the advisability of any proposed district or improvements or order the establishment of any neighborhood improvement district or take any action whatsoever until such time as the Board of Public Service files an applicable project statement as required by this section. However, in the event the Board of Public Service fails to file the statement within the time required, the Board of Aldermen may proceed to take whatever action allowed by the Act and this chapter. In the event that the Board of Public Service has already prepared and filed a preliminary project statement in accordance with Section 3.87.050, the Board of Public Service may adopt said statement as the project statement required by this section or may otherwise prepare a separate project statement as it deems necessary.

B. The Board of Aldermen shall consider the project statement as required by Subsection A of this section and may by ordinance determine the advisability of the proposed district and improvements and order that the district be established and that preliminary plans and specifications for the improvements be made. Such ordinance shall state and make findings as to the project name for the proposed district, the general nature of the improvement or improvements proposed, the estimated cost of any such improvements, the boundaries of the neighborhood improvement district to be assessed, the proposed method or methods of assessment, and shall also state that the final cost of any such improvements assessed against the property within the neighborhood improvement district and the amount of general obligation bonds issued therefor shall not, without a new election or petition, exceed the estimated cost of such improvements by more than twenty-five percent (25%).

C. The boundaries of the proposed district shall be described by metes and bounds, streets or other sufficiently specific description. The area of the neighborhood improvement district finally determined by the Board of Aldermen to be assessed may be less than, but shall not exceed, the total area comprising such district.

D. The portion of the cost of any improvement to be assessed against the property in a neighborhood improvement district shall be apportioned against such property in accordance with the benefits accruing thereto by reasons of such improvement. The cost may be assessed equally per front foot or per square foot against property within the district or by any other reasonable assessment plan determined by the Board of Aldermen which results in imposing substantially equal burdens or shares of the cost upon property similarly benefitted. The Board of Aldermen may from time to time determine and establish by ordinance reasonable general classifications and formulae for the methods of assessing the benefits.

E. After the Board of Aldermen has made the findings specified in Section 3 of the Act and this section of this chapter and plans and specifications for the proposed improvements have been prepared, the Board of Aldermen shall by ordinance order assessments to be made against each property deemed to be benefitted by any improvement based on the revised estimated cost of the improvement or, if available, the final cost thereof, and shall order a proposed assessment roll to be prepared.

F. The plans and specifications for all improvements and the proposed assessment roll shall be filed with the City Register and shall be open for public inspection. The City Register shall thereupon, at the direction of the Board of Aldermen, publish notice that an appropriate committee of the Board of Aldermen will conduct a hearing to consider the proposed district improvements and assessments. Such notice shall be published in a newspaper of general circulation at least once not more than twenty (20) days and not less than ten (10) days before the hearing and shall state the project name for the proposed district, the date, time and place of such hearing, the general nature of the improvement or improvements proposed, the revised estimated cost or, if available, the final cost of any

such improvements, the boundaries of the neighborhood improvement district to be assessed, and that written or oral objections will be considered at the hearing. The notice of hearing shall be in substantially the form established by Exhibit C to the ordinance codified in this chapter and on file in the office of the City Clerk. At the same time, the City Register shall mail to the owners of record of the property made liable to pay the assessments, at their last known post office address, a notice of the hearing and a statement of the cost proposed to be assessed against the property so owned and assessed. The failure of any owner to receive such notice shall not invalidate the proceedings.

G. The hearing to conduct the proposed improvements and assessments shall be conducted by an appropriate committee of the Board of Aldermen, and said committee shall hear any objections to the proposed improvements and assessments and shall report said objections to the Board for its consideration. The Board of Aldermen shall pass upon all objections to the proposed improvements and proposed assessments, if any, and may amend the proposed improvements, and the plans and specifications therefor, or assessments as to any property, and thereupon by ordinance the Board of Aldermen shall order that the improvement be made and direct that financing for the cost thereof be obtained as provided in the Act and this chapter. (1994 C., § 3.87.070; Ord. No. 62346, § 7, 1991.)

3.87.080 Special assessments.

A. After construction of the improvement has been completed in accordance with the plans and specifications therefor, the Board of Aldermen shall compute the final costs of the improvement and apportion the costs among the property benefitted by such improvement in such equitable manner as the Board of Aldermen shall determine, charging each parcel of property with its proportionate share of the costs, and by ordinance assess the final cost of the improvement or the amount of general obligation bonds issued or to be issued therefor as special assessments against the property described in the assessment roll.

B. After the passage or adoption of the ordinance assessing the special assessments, the City Register shall mail a notice to each property owner within the district which sets forth a description of each parcel of real property to be assessed which is owned by such owner, the special assessment assigned to such property, and a statement that the property owner may pay such assessment in full, together with interest accrued thereon from the effective date of such ordinance, on or before a specified date determined by the effective date of the ordinance, or may pay such assessment in annual installments as provided in Section 6.4 of the Act and Subsection C of this section.

C. The special assessments shall be assessed upon the property included therein concurrent with general property taxes, and shall be payable in not more than twenty (20) substantially equal annual installments, taking into account such assessments and interest thereon, as the Board of Aldermen determines. The first installment shall be payable after the first collection of general property taxes following the adoption of the assessment ordinance unless such ordinance was adopted and certified too late to permit its collection at such time. All assessments shall bear interest at such rate as the Board of Aldermen determines, not to exceed the rate permitted for bonds by RSMo 108.170. Interest on the assessment between the effective date of the ordinance assessing the assessment and the date the first installment is payable shall be added to the first installment. The interest for one (1) year on all unpaid installments shall be added to each subsequent installment until paid. All of the installments, together with the interest accrued or to accrue thereon, may be certified by the City Register in one instrument at the same time. Such certification shall be good for all of the installments, and the interest thereon payable as special assessments.

D. Special assessments shall be collected by the City's Collector of Revenue and paid over to the City Treasurer in the same manner as property taxes of the City are collected and paid.

E. No suit to set aside the special assessments made under the Act and this chapter or to otherwise question the validity of the proceedings relating thereto shall be brought after the expiration of ninety (90) days from the date of mailing of notice to property owners of the assessments required by Section 6 of the Act and Section 3.87.070 of this chapter.

F. To correct omissions, errors or mistakes in the original assessment which relate to the total cost of any improvements, the Board of Aldermen may, without a notice or hearing, make supplemental or additional assessments on property within a neighborhood improvement district, except that such supplemental or additional assessments shall not, without a new election or new petition as provided in Section 3 of the Act

and Section 3.87.060 of this chapter, exceed twenty-five percent (25%) of the estimated cost of the improvements determined pursuant to the Act and this chapter.

G. When an assessment is, for any reason whatever, set aside by a court of competent jurisdiction as to any property, or in the event the Board of Aldermen finds that the assessment or any part thereof is excessive or determines on the written advice of the City Counselor that it is or may be invalid for any reason, the Board of Aldermen may, upon notice and hearing as provided for the original assessment, make a reassessment or a new assessment as to such property.

H. A special assessment authorized under the provisions of the Act and this chapter shall be a lien, from the date of the assessment, on the property against which it is assessed on behalf of the City to the same extent as a tax upon real property.

I. After any improvement has been authorized pursuant to Section 3 of the Act and Section 3.87.070 of this chapter, the Board of Aldermen may issue temporary notes of the City to pay the costs of such improvement in an amount not to exceed the estimated cost of such improvement, and such temporary notes shall be general obligations of the City. General obligation bonds of the City shall be issued and sold as provided in Section 2 of the Act and Section 3.87.040 of this chapter to refund, retire and pay off such temporary notes and any accrued interest thereon to the date of payment.

J. A separate fund or account shall be created in the City Treasury for each neighborhood improvement district and each such fund or account shall be identified by a suitable title. The proceeds from the sale of bonds and temporary notes and other moneys appropriated thereto by the Board of Aldermen shall be credited to such funds or accounts. Such funds or accounts shall be used solely to pay the costs incurred in making each respective improvement benefitting the neighborhood improvement district. Upon completion of all improvements benefitting a district, the balance remaining in the fund or account established for such district, if any, shall be credited against the amount of the original assessment of each parcel of property, on a pro rata basis based on the amount of the original assessment, and with respect to property owners that have prepaid their assessments in accordance with Section 6 of the Act and this section of this chapter, the amount of each such credit shall be refunded to the appropriate property owner, and with respect to all other property owners, the amount of each such credit shall be transferred and credited to the City Bond and Interest Fund to be used solely to pay the principal of and interest on the bonds or temporary notes and the assessments shall be reduced accordingly by the amount of such credit.

K. The total amount of City general obligation bond indebtedness incurred for improvements under the Act and this chapter, including temporary notes issued pursuant to the Act and this chapter, shall not exceed ten percent (10%) of the assessed valuation of all taxable tangible property, as shown by the last completed property assessment for state or local purposes, within the City. (1994 C., § 3.87.080; Ord. No. 62346, § 8, 1991.)

3.87.090 Nondiscrimination and disadvantaged business enterprises participation.

A. Any contract or subcontract for the construction of any improvement benefitting a neighborhood improvement district awarded by the City shall include a warranty that the successful contractor will not exclude or discriminate against any person solely because of race, color or creed, or for any reason not sanctioned by law and not applicable alike to persons generally.

B. All specifications and contracts approved and awarded by the City or any of its departments or agencies shall provide for compliance with the Mayor's Executive Order on Equal Opportunity (see Appendix B attached to the ordinance codified in this chapter and on file in the office of the City Clerk) and judicial decisions relating to the subject of participation of disadvantaged business enterprises, including, but not limited to, St. Louis Minority Contractors Association v. City of St. Louis, No. 88-1587 (4) (E.D. Mo., 1990) (see Appendix C attached to the ordinance codified in this chapter and on file in the office of the City Clerk), except when otherwise superseded or prohibited by federal or state regulations or the Charter of the City. (1994 C., § 3.87.090; Ord. No. 62346, § 9, 1991.)

For example, "City" includes the Treasurer, the Comptroller, the Community Development Agency, the Planned Industrial Expansion Authority, and the Convention and Tourism Bureau.

3.91.020 Procedures.

Before the City can act, by ordinance or otherwise, to provide financial assistance to the development of a professional sports facility, the following procedures must be fully implemented:

3.92.060 Employees not to be discriminated against.

applicable federal, state and City law. (1994 C., § 3.92.060; Ord. No. 62234, § 6, 1991.)

3.92.070 Bargaining procedure.

A. In the process of meeting, conferring, and discussing in good faith salaries and other conditions of employment of City employees, the Director of Personnel and the exclusive bargaining representative shall engage in discussions for the purpose of reducing the results of the bargaining process to a written memorandum of understanding.

B. All of the terms agreed upon between the City and the exclusive bargaining representative shall meet the requirements of federal, state and City law and shall be included in written memorandums of understanding to be submitted to the Board of Aldermen for ratification and adoption in form or ordinances. A memorandum of understanding shall include a nondiscrimination clause in accordance with Sections 3.92.050 and 3.92.060. If arbitration is permitted by state law, a provision for arbitration may be included in a memorandum of understanding.

C. In the case of negotiations for a new memorandum of understanding, either party may seek negotiations of the agreement one hundred eighty (180) days prior to the expiration date of the current memorandum of understanding. The Director of Personnel of the City and the exclusive bargaining representative shall make themselves available at reasonable times and places for good faith conferences.

(1994 C., § 3.92.070; Ord. No. 62234, § 7, 1991.)

3.92.080 Information to be made available.

B. The fees agreed upon in a fair share agreement shall be those which are necessary or reasonably incurred for the purpose of performing the duties of exclusive bargaining representative. The amounts shall not include any fees for contributions related to the election or support of any candidate for political office.

C. Employees shall be advised, before a fair share agreement is implemented, of the manner in which the fair share fee has been calculated. No fair share fee shall be withheld from an employee's salary if the employee files an objection to the withholding until the objection is resolved. The Civil Service Commission shall hold a prompt hearing to resolve any disputes over objections by employees.

D. No fair share agreement between the City and an exclusive bargaining representative will be agreed upon for any bargaining unit, where the City has previously recognized the role of an organization having a primary purpose the prevention or elimination of racial discrimination in a bargaining unit, until the exclusive bargaining representative and the other organization have had the opportunity to meet and agree on the proper proportionate share of costs to be included in the fair share agreement. (1994 C., § 3.92.090; Ord. No. 62234, § 9, 1991.)

3.92.100 Grievance adjustment.

An employee covered by a memorandum of understanding has the right to present a grievance arising under the terms of a memorandum of understanding and notwithstanding the provisions of Section 3.92.050, to have the grievance adjusted without the intervention of the exclusive bargaining representative. The City has the duty to hear the grievance and participate in its adjustment. The adjustment may not be inconsistent with the terms of the memorandum of understanding agreement. The exclusive bargaining representative shall be given prompt notice of the grievance and shall have the privilege of attending any hearings, and shall be notified of the adjustment thereon. The City and the exclusive bargaining representative shall not interfere with, intimidate, restrain, coerce or discriminate against an employee because of the exercise of such rights. Nothing in the chapter will be construed to limit the right of the City to discuss civil rights issues with any

individual or group of individuals. (1994 C., § 3.92.100; Ord. No. 62234, § 10, 1991.)

3.92.110 Work slowdown or strike prohibited.

3.94.020 Proposed assignment to be approved by same approving authority as original agreement.

3.94.030 Approval to be based on best interests of City.

3.94.040 Violation—Declaration of agreement as null and void.

3.94.050 Applicability.

3.94.010 Prior consent from approving authority required.

No contract, lease or other agreement, or interest therein, to which the City is a party shall be assigned or otherwise transferred by any other party to such contract, lease or agreement without the prior consent from the appropriate approving authority of the City of St. Louis in the manner described in Section 3.94.020 of this chapter. (1994 C., § 3.94.010; Ord. No. 63687, § 1, 1996.)

3.94.020 Proposed assignment to be approved by same approving authority as original agreement.

Failure of the City to exercise its discretion to declare a contract, lease or other agreement null and void after it is assigned or transferred in violation of this chapter shall not constitute a waiver by the City of its right to subsequently declare said contract, lease or other agreement null and void. (1994 C., § 3.94.040; Ord. No. 63687, § 4, 1996.)

3.94.050 Applicability.

However, nothing in this chapter shall modify the express terms of any contract, lease or other agreement already existing at the time said ordinance is enacted which provide a specific procedure for assignment or transfer. For purposes of this chapter, general references to successors or assigns in an existing contract, lease or other agreement shall not be construed to create a right to assign or transfer unless any such contract, lease or other agreement also contains specific procedures and terms governing how such assignments or transfers may occur. (1994 C., § 3.94.050; Ord. No. 63687, § 5, 1996.)

E. Encourage institutions and park facilities to develop their long-range plans and to present them to the Board on a regular basis.

F. Keep the public informed and advised of matters relating to the Master Plan.

G. Perform such other functions and take such other actions as are consistent with its responsibilities and authority as stated in Subsections A to F of this section, inclusive.

3.99.010 Definitions and applicability.

A. This chapter applies to any individual, proprietorship, partnership, corporation, trust, association or other entity that is a Contractor or City Financial Assistance Recipient (CFAR), as defined:

1. A contractor is a party to a contract with the City of St. Louis and/or a City Agency that is entered into after the effective date of the provisions of this chapter and that is primarily for the furnishing of services, provided that contracts for the purchase or lease of goods, public works contracts for construction, contracts for the provision of goods and services by utilities subject to federal and/or state regulatory oversight and their affiliates, the provision of health, workers compensation and other benefits to employees of the City of St. Louis and contracts for the provision of medical services to inmates of City correctional facilities and incarcerated persons under the control of City public safety agencies shall not constitute the furnishing of services for purposes of this chapter, and where the total value of such contract(s) is $50,000.00 or more in a twelve-month period. Utilities shall include, but not be limited to, electric, gas, sewer, telecommunications, water and similar services. Where during any twelve-month period an entity receives more than one contract from the City for the provision of the same or similar services, the value of the contracts shall be aggregated to determine whether this threshold is met. Any subcontractor that assists a contractor in furnishing the services that are the subject of such a contract shall be deemed a contractor for the purposes of this definition. An entity that receives or enters into one or more contracts triggering coverage under this definition shall be deemed a contractor for the duration of the contracts.

2. This definition of contractor shall include any party to a written agreement (including, without limitation, any lease, concession, franchise or easement agreement) with the St. Louis Airport Commission, the City of St. Louis and/or a City Agency that is entered into after the effective date of the provisions of this chapter, that is for the use of real property that is under the jurisdiction of the St. Louis Airport Commission, and where the total value of such agreement (including all lease or concession payments and other payments made) over a twelve-month period is $50,000.00 or more, regardless whether such value accrues to the benefit of the party or to the City of St. Louis as in the case of a lease or concession agreement. This definition of contractor shall also include (a) any party to a sublease or other agreement with a contractor allowing the party the use of real property that is under the jurisdiction of the St. Louis Airport Commission, or (b) any party to a subcontract or contract with a contractor to perform services on property that is under the jurisdiction of the St. Louis Airport Commission. The provisions of this section shall not apply to any lease between the City or the Airport Commission and any regional, national or international airline.

3. A City Financial Assistance Recipient (CFAR) is a recipient of any financial assistance from the City of St. Louis and/or a City Agency awarded after the effective date of the provisions of this chapter that has a present value of at least $20,000,000.00 over the term of the assistance, and where the primary purpose of the assistance is economic development or job growth. Financial assistance includes any financial assistance administered by the City or a City Agency including any federal grant program, tax increment financing, revenue bond financing, tax abatements, tax credits, grants, loans or any other form of financial assistance. Where an entity receives more than one award of City financial assistance within a twelve-month period, the value of the financial assistance awards shall be aggregated to determine whether this threshold is met. Any

contractor, subcontractor, tenant or concessionaire of a CFAR that employs persons at a CFAR's subsidized site and that benefits significantly from the City-awarded financial assistance shall be deemed a CFAR for the purposes of this definition. Where an entity receives City financial assistance to retain or create jobs or to provide a service, and then contracts with another entity to retain or create those jobs or to provide that service, the contracting firm will be presumed to benefit significantly from City financial assistance. Where City financial assistance is awarded to support a facility intended to be occupied chiefly by a single major tenant, that tenant will be presumed to benefit significantly from the City financial assistance. Where City financial assistance is awarded to finance the construction of a stadium and/or related entertainment or retail facilities contained within the stadium, any contractor, subcontractor, tenant or concessionaire operating at the subsidized stadium or related facilities will be presumed to benefit significantly from City financial assistance in light of the unique business location and customer base that the City-financed project makes available to them. Beyond these enumerated circumstances, a contractor, subcontractor, tenant or concessionaire of a CFAR will be deemed to benefit significantly from the City-awarded financial assistance and will therefore be subject to the requirements of this chapter only where the City determines that such would be the case at the time the financial assistance is awarded and apprises the recipient CFAR of that determination. An entity that receives City financial assistance triggering coverage under this definition shall be deemed a CFAR for the period of time during which the financial assistance that triggers coverage is received or, if the financial assistance has no specified duration, for five years.

4. Notwithstanding the foregoing, a not-for-profit organization that provides social or human services for disadvantaged residents of St. Louis pursuant to a contract or with financial assistance from the City and the contractors and subcontractors of such an organization shall not be deemed a contractor or CFAR for the purposes of this chapter. "Not-for-profit organization" means a corporation having tax-exempt status under Section 501(c)(3) of the United States Internal Revenue Code and recognized under Missouri state not-for-profit law. An organization is deemed to be providing social or human services for disadvantaged residents if the primary purpose of its work is to provide in-home or agency-based services such as food, housing, health care or training to vulnerable residents such as youth, low-income, elderly, ill or disabled individuals.

B. The wage and benefits requirements of this chapter shall apply (i) to any employee of a contractor for all hours that the employee is employed performing work related to the covered contract or concession agreement (but shall include hours employed performing general overhead or administrative services related to the City contract only where such hours total at least ten (10) hours for the employee in a given week and can be clearly identified and allocated to the City contract); and (ii) to any employee of a CFAR for all hours that the employee is employed performing work in connection with any job site covered or subsidized in whole or in part by a covered award of financial assistance from the City. An employee is any person who performs work on a full-time, part-time, temporary, or seasonal basis, and includes employees, independent contractors, and contingent or contracted workers, including persons made available to work through the services of a staffing, temporary, or employment agency. The wage and benefits requirements of this chapter shall apply to those employees specified under parts (i) and (ii) of this section for the entirety of their employment, including during any necessary training period. This provision shall not apply to interns. An intern shall only be construed to mean someone who is part of a planned, structured learning experience that provides significant educational benefits and takes place in a workplace for a limited period of time; and whose duties and responsibilities significantly complement, rather than displace, the work of regular employees.

C. For purposes of this chapter, a "City Agency" shall include any agency, office, position, administration, department, division, bureau, board, commission, or other unit, affiliate, or subdivision of the City, and any other entity over which majority control is exercised by officers or employees of the City or by their appointees, or which awards contracts or financial assistance that is funded by the City. This definition shall include any Department of the City, the City of St. Louis Airport Authority, the Planned Industrial Expansion Authority, the Land Clearance for Redevelopment Authority, the Industrial Development Authority, the Community Development Agency, the Local Development Company and the St. Louis Develop-

ment Corporation. (1994 C., § 3.99.010; Ord. No. 71948, § 1, 1-29-2025; Ord. No. 65597, § 2, 2002.)

City's minimum wage ordinance was not preempted by statute enacted in violation of Missouri constitutional provision relating to dual subject legislation. *Coop. Home Care, Inc. v. City of St. Louis,* 514 S.W.3d 571 (Mo.banc 2017).

3.99.020 Living wage and other requirements.

A. Each contractor and CFAR shall pay its employees wages that are no less than a living wage as defined in this chapter or wages that are at least equal to the wages required under Chapter 6.20 of the Revised Code of the City of St. Louis, whichever is greater.

B. A living wage means an hourly wage rate which on an annual basis (based on forty hours per week, fifty-two weeks per year) is equivalent to 130% of the federal Poverty Guidelines for a family of three, as updated annually in the Federal Register by the U.S. Department of Health and Human Services, if the employee also receives health benefits from the employer. Health benefits, for the purposes of this chapter, means receipt of health care benefits for the covered employee and/or his or her dependents where the employer's contribution to the benefits package, for each hour worked, is valued at no less than the hourly prevailing fringe benefits rate defined under the City's prevailing wage law, Chapter 6.20 of the Revised Code of the City of St. Louis, as adjusted periodically. If health benefits are offered as provided by this chapter, an employee shall not have the option of choosing to higher wages in lieu of the health benefits. In determining the living wage an employer is required to pay a tipped employee, the amount paid such employee shall be an amount equal to:

1. The hourly cash wage paid such employee which for purposes of such determination shall be not less than 50% of the value of the living wage required for non-tipped employees as defined herein and adjusted annually;

2. An additional amount on account of the tips received by such employee which amount is at least equal to 50% of the value of the living wage required for non-tipped employees. The additional amount on account of tips may not exceed the value of the tips actually received by an employee. The preceding two (2) sentences shall not apply with respect to any tipped employee unless such employee has been informed by the employer of the provisions of this subsection, and all tips received by such employee have been retained by the employee, except that this subsection shall not be construed to prohibit the pooling of tips among employees who customarily and regularly receive tips.

C. If health benefits are not provided, each contractor and CFAR shall pay its covered employees a wage no less than an hourly wage equal to the sum of the living wage for employees with health benefits as defined in Subsection B of this section, plus the prevailing fringe benefits rate defined under the City's prevailing wage law, Chapter 6.20 of the Revised Code of the City of St. Louis, as adjusted periodically.

D. The City Compliance Official (CCO) shall adjust the living wage rate annually no later than April 1 to incorporate changes in the federal poverty guidelines. The CCO shall publish a bulletin announcing any change in the amount of the living wage and in the prevailing fringe benefits rate defined under the City's prevailing wage law, and shall inform each contractor and CFAR of such changes in writing prior to such adjustment becoming effective. In the event that the City ever ceases determining the prevailing fringe benefits rate currently defined under the City's prevailing wage law, the prevailing fringe benefits rate for the purposes of this chapter shall be the hourly prevailing fringe benefits rate for employees in the St. Louis metropolitan area as determined pursuant to the federal Service Contract Act, 41 U.S.C. Section 351 et seq., as amended.

E. It shall be unlawful for any employer, an employer's agent or representative, or any other party to take any action against an individual in retaliation for the exercise of rights protected under this chapter. Rights protected under this chapter shall include the freedom to inform others of their potential rights under this chapter, and to assist them in asserting those rights. This protection shall also apply to any individual who mistakenly, but in good faith, alleges noncompliance with this chapter. Taking adverse action against an individual within sixty (60) days of the individual's exercise of rights protected under this chapter shall raise a rebuttable presumption of having done so in retaliation for the exercise of those rights. Contractors and CFARs shall also be in compliance with other applicable federal, state and local labor and workplace laws.

F. No contractor or CFAR shall, directly or indirectly, use any City financial assistance or payments for the purpose of persuading employees to support or oppose unionization. In particular, financial assistance or payments received from City of St. Louis shall not be used to schedule or hold meetings related to union representation during employees' working hours. However, this restriction shall not apply to any expenditure made in the course of good faith collective bargaining, or to any expenditure pursuant to obligations incurred under a bona fide collective bargaining agreement. Where a contractor or CFAR operates on property owned or controlled by the City then, in order to ensure that publicly owned or controlled space is used in a viewpoint-neutral fashion, a labor union shall be allowed the same opportunity to communicate with employees as is enjoyed by the contractor or CFAR, including the right to have access to the premises, post notices, distribute literature, and use the premises to hold meetings with employees.

G. All of the provisions of this chapter, or any part hereof, may be waived in a bona fide collective bargaining agreement, but only if the waiver is explicitly set forth in such agreement in clear and unambiguous terms. (1994 C., § 3.99.020; Ord. No. 65597, § 3, 2002.)

3.99.030 Implementation and enforcement.

A. The provisions of this chapter shall augment the City's normal and customary procedure for administering its contracts and economic development assistance programs. The Mayor shall designate a City Compliance Official (CCO) as the City agency and/or individual with primary responsibility for administering, implementing and enforcing this chapter, including coordinating and ensuring effective compliance by all City-affiliated agencies, provided that the CCO shall not be the St. Louis Development Corporation. The CCO shall promulgate implementing rules, regulations, forms, bid and contract provisions, and other materials, as appropriate, consistent with this chapter, which shall be binding on City agencies, contractors, CFARs, employees, and all other parties affected by this chapter. Subject to the requirements of this chapter, the rules and regulations shall establish procedures for monitoring the operations of contractors and CFARs, and their covered subcontractors and tenants, to ensure compliance with this chapter, and shall establish procedures for regular review of payroll records and investigation and resolution of specific concerns or complaints about the employment practices of contractors and CFARs, and their covered subcontractors and tenants. The rules and regulations shall require contractors, CFARs and their covered subcontractors and tenants to submit reports to the City at least annually identifying: their covered employees and the wages and benefits that they are paid; and the number of employees based at the site that is performing the service contract or receiving the financial assistance that are paid less than the living wage and a brief explanation of why they are believed not to be covered by this chapter. Where the CCO deems appropriate or necessary, the implementing rules and regulations may include interpretive or legislative rules and regulations that explain and clarify the substantive requirements of this chapter. Implementing rules, regulations, forms, bid and contract provisions, and other materials promulgated by the CCO shall be subject to public hearing, and to review and comment by the Board of Aldermen, before they take effect. Upon receipt of said materials, the Board of Aldermen shall have sixty (60) days to make such review and comment. Where the CCO deems appropriate, and to the extent permitted by law, the CCO may assign its authority over any particular implementation function to another body, agency, or individual. Such rules or regulations shall have the force and effect of law and may be relied on by contractors and CFARs and other parties in order to determine their obligations under this chapter. By April 1 of each year, the CCO shall make available to the public and submit to the Board of Aldermen annual reports on the implementation and enforcement of this chapter during the preceding calendar year.

B. A not-for-profit organization as defined in Subsection A.4 above may appeal a determination that it is covered under this chapter to the CCO.

C. This chapter is intended to establish civil obligations on covered parties, and the remedies authorized for violations shall be civil, not penal or criminal. Employers covered under this chapter shall be obligated to maintain payroll records documenting wages and benefits received by employees. In the absence of adequate evidence of wages and benefits paid, it shall be presumed that the employer paid no more than the applicable federal or state minimum wage, and did not provide health benefits.

D. The CCO shall monitor and enforce compliance with the requirements of this chapter. Where the

CCO has reason to believe that a contractor, CFAR or other person may have violated any of the requirements of this chapter, or of the implementing rules and regulations, the CCO shall initiate an investigation. Where the CCO determines that a violation has occurred, it may attempt to negotiate an end to the violation and appropriate relief from the violating party including back-pay for the affected workers or persons. Such appropriate relief may include any of the remedies enumerated in Subsection E of this section.

E. Where the CCO determines that a violation of this chapter has occurred and determines that a negotiated resolution is not possible or not appropriate, the CCO may initiate a formal administrative complaint against the contractor, CFAR or other person involved. In addition, any person denied wages or benefits mandated under this chapter or aggrieved by an action or non-action of another person or entity in violation of this chapter or its implementing rules and regulations, or an organization representing the interests of a person so aggrieved, may also file a formal administrative complaint with the CCO on a Complaint Form provided by the CCO. Complaints must be initiated within one year of the denial of wages or benefits or other violation of the chapter. The CCO shall, not later than ten (10) days after initiating or receiving the complaint, mail to the person alleged to have violated the chapter a copy of the complaint, and such person alleged to have violated the chapter shall have twenty (20) days to file a written response. The CCO shall within ten (10) days after the deadline for filing a response schedule a hearing, which shall be held as soon as possible and within thirty (30) days after the response is due, except for good cause shown. The hearing shall be conducted pursuant to the provisions set forth in RSMo Ch. 536. Upon a determination that there has been a violation of this chapter, the CCO may order any of the following relief:

1. Suspension and/or termination of the contract, subcontract, lease, concession agreement or financial assistance agreement;

2. Forfeiture and repayment of any or all of the financial assistance awarded by the City of St. Louis;

3. Disbarring the contractor or CFAR from eligibility for future City contracts and/or financial assistance until all ordered relief has been made or paid in full;

4. Liquidated damages payable to the City of St. Louis in the amount of $500.00 for each week, or part thereof, that an employee has not been provided wages and benefits in accordance with this chapter. Each such weekly violation shall constitute a separate violation of this chapter and must be demonstrated separately.

Within twenty (20) days after the conclusion of the hearing, the CCO shall render a decision. Any aggrieved party may appeal said decision pursuant to RSMo Ch. 536. (1994 C., § 3.99.030; Ord. No. 65597, § 4, 2002.)

3.99.040 Posting.

Every contractor and CFAR shall post in a conspicuous place on any job site subject to this chapter a copy of the living wage rates required under this chapter. The City shall notify contractors and CFARs of the current living wage rate, and any adjustments thereto, within a reasonable period before they become effective. (1994 C., § 3.99.040; Ord. No. 65597, § 5, 2002.)

To determine whether a contractor is performing a commercially-useful function, the amount of work that contractor performs shall be evaluated with respect to normal industry practices, including whether the amount the contractor is to be paid under the contract is commensurate with the work it is to perform. The contractor does not perform a commercially-useful function if its role is limited to an extra participant in a contract through which funds are passed in order to convey only the appearance of meaningful and useful contractor participation.

a. Have origins in any of the Black racial groups of Africa ("Black Americans");

b. Have origins in any of the peoples of Mexico, Puerto Rico, Cuba, Central or South America, regardless of race ("Hispanic Americans");

Notice of intent to perform a subcontract shall mean the form the bidder is required to submit at the time of bid opening signed by each contractor listed in the M/WBE utilization plan. Out of ratio shall mean that the number of apprentices exceeds the number of journeypersons of the same craft classification, using a one-to-one ratio of apprentices to journeypersons, unless Missouri's Prevailing Wage Law is amended to set a different ratio in which case the different ratio shall apply.

The rate to be used for this section is the prevailing wage rate determined at the time each relevant phase of construction begins and not when a public project is awarded.

Prime contractor shall mean the person responsible for the work on the public project for the entire public project, directly or indirectly, through its own actions and employees or, in whole or in part, through contractors, and that has the full responsibility for completing the terms of the agreement.

Public project shall mean, and be, a catch-all term for a public works contract, city-funded project, city bonded project, tax increment financed (TIF) project, and/or abated project with an estimated base value of the project of seventy-five thousand dollars ($75,000.00) or more, including any extension, renewal, modification, or change thereof.

Public works contract shall mean, for the purposes of this chapter, a contract for construction work for a public project entered into by BPS and signed by the President of BPS in the name of the City or a contract for construction on land owned or controlled by the City of St. Louis or any agency or instrumentality of the City which is leased to another party, with an estimated base value of the project of seventy-five thousand dollars ($75,000.00) or more.

Subcontractor shall mean a person that has a contract on a public project to perform a service or provide materials, equipment, or supplies as a part of the scope of work set forth in a prime contract with a prime contractor, but that is not a prime contractor or a general contractor. A subcontractor need not have a direct contract with a prime contractor to be a subcontractor or contractor under this chapter.

Supervisor shall mean individuals such as superintendent, non-working-foreman, project manager, safety director, or non-working lead tradesman on a public project who has the authority, in the interest of a contractor, to hire, transfer, suspend, lay off, recall, promote, discharge, assign reward, or discipline other employees, or responsible to direct them, or to adjust their grievances, or effectively to recommend such action, if in connection with the foregoing the exercise of such authority is not of a merely routine or clerical nature, but requires the use of independent judgment.

SLDC shall mean the St. Louis Development Corporation.

C. *Complete Streets Principles.*

1. Complete streets practices shall be adopted into the regular operations of all relevant departments of the City of St. Louis. These departments shall approach all relevant projects and programs as opportunities to improve streets and the transportation network for all categories of users. Relevant departments

shall work in coordination across City departments, agencies, and jurisdictions to maximize opportunities for complete streets, connectivity, and cooperation.

2. The City shall use context sensitive improvements to implement complete streets, including but not limited to sidewalks, shared use paths, bicycle lanes, bicycle routes, bicycle boulevards, paved shoulders, street trees, landscaping, planting strips, accessible curb ramps, crosswalks, pedestrian refuge islands, pedestrian signals, road and lane diets, signs, street furniture, traffic calming, bicycle parking facilities, public transit stops and facilities, transit priority signalization, bicycle priority signalization, and prioritization of vulnerable users. Planning should align with all adopted transportation plans for the City, including the transportation and mobility plan.

3. In order to ensure coordination and compliance across all departments and divisions, the President of the Board of Public Service shall designate individuals within the Board of Public Service to develop internal practices that guide staff actions and decisions and shall use such resources from organizations and guides such as the National Association of City Transportation Officials (NACTO), Manual on Uniform Traffic Control Devices (MUTCD), Federal Highway Association (FHWA), American Association of State Highway and Transportation Officials (AASHTO), Missouri Department of Transportation (MoDOT), BPS Standard Details for Public Works Construction, BPS Traffic Calming Guide, ADA construction standards, the City of St. Louis transportation & mobility plan (TMP), and any other standards for right of way to be developed which advance complete streets implementation. The City shall make the most recently adopted design manual publicly available through the City website. These practices shall be regularly updated by the Board of Public Service.

4. The Board of Public Service, Street Department, Planning & Urban Design Agency, Parks Division, and the Office on the Disabled shall identify one (1) or more complete streets policy coordinator(s) within each department or division to oversee implementation of and future updates to this policy.

5. In order to facilitate and efficient, effective, and transparent assessment process by the Complete Streets Advisory Committee, the relevant lead department or departments on a given project should provide supporting information for each project to the Complete Streets Advisory Committee that includes justifications/rationale in cases where accommodations for all modes were not included/considered. Rationale for not accommodating all user modes may include, but is not limited, to the following, in addition to any related recommendations included in the transportation and mobility plan on this topic:

(a) Complete streets principles are prohibited by law, such as bicycle and pedestrian facilities within access-restricted highway corridors; and

(b) Routine maintenance that does not change the roadway geometry or operations; and

(c) Emergency repairs to streets and sidewalks due to broken utility lines or natural disasters; and

(d) The cost of complying with the policy on a project would substantially exceed the public value to be realized, taking into consideration the need and probable use of the project; and

(e) Compliance with policy would substantially impair unique characteristics of great public value, such as historical importance or sensitive environmental or cultural characteristics.

D. *Implementation.*

1. A Complete Streets Advisory Committee is hereby established and composed of at minimum the following representatives: two (2) members of City's Board of Public Service (President's Office) and two (2) members from the Planning and Urban Design Agency, including the Sustainability Director; two (2) members from the Streets Department, the Office on the Disabled, Department of Public Safety, Health Department, and one (1) member of the public by Mayoral appointment who is a resident of the City of St. Louis and has demonstrated a vested interest in safety and expansion of a multimodal transportation network; the Complete Streets Program Manager, or the designee of the Executive Director of the Planning and Urban Design Agency, shall serve as the chair of the Committee.

The Committee shall:

(a) Meet at least quarterly to provide oversight and guidance on implementation of complete streets within the City. Meetings of the Committee shall be advertised, open to the public, held in accessible locations, and include the opportunity for public comment.

(b) Invite organizations to present to the committee at meetings at which major projects they are involved in will be discussed by the committee to provide major project updates as needed. Organizations shall

include but are not limited to Bi-State Development Agency, Missouri Department of Transportation (MoDOT), and Great Rivers Greenway (GRG).

(c) Review and assess alignment with the complete streets policy and adopted transportation mobility plan of any major transportation project undertaken, constructed, managed, or permitted in the public right-of-way with an estimated capital cost of five hundred thousand dollars ($500,000.00) or greater. This assessment shall be included in the annual report and discussed during committee meetings.

(d) Oversee the implementation of the City's transportation & mobility plan, including through the monitoring of relevant transportation and safety metrics. The Committee shall also oversee the data maintenance of the City's high injury network and provide input on the prioritization of projects in the City's safety action plan.

(e) Develop key benchmarks and performance measures for the implementation of complete streets. Reporting on these benchmarks shall be available on the City's website. Data shall be updated at least annually. Inclusion of the "vulnerable populations" shall be one (1) of these benchmarks. The vulnerable populations index shall use U.S. Census Bureau data to measure the percentages of the following populations groups in each census tract: poverty, non-Hispanic and non-White, Hispanic, limited English proficiency (LEP), disabled, elderly, and carless. The weight and measure of this data to determine which census tracts are to be considered vulnerable shall be an internal policy developed by the Committee.

(f) Provide feedback and recommendations related to complete streets implementation to relevant departments, agencies, and the Board of Aldermen. Such recommendations may include suggested policy and process changes to better incorporate complete streets practices into operations.

(g) Establish guidelines for inclusive public engagement practices to be required for major transportation improvement projects sponsored or managed by the City, including but not limited to public meetings, public notice, and information sharing. The guidelines shall ensure ongoing, equitable and inclusive community engagement in all phases from planning through implementation, with a particular emphasis on engagement of communities that have traditionally been underrepresented in planning and decision-making processes. The guidelines shall include specific strategies such as overcoming barriers to engagement associated with race/ethnicity, income, age, disability, English language proficiency, vehicle access and should be publicly available on the appropriate City website.

(h) Make recommendations to the City's Capital Committee on transportation and mobility-related projects for inclusion and/or prioritization in the City's capital improvement plan. In its recommendations, the Committee shall work to ensure that planned improvements prioritize:

(1) Vulnerable users, including pedestrians, children, elderly, and low-income residents; those with vision, hearing, or other mobility disabilities; and people of color.

(2) The need for improvements to fulfill mobility goals and implement the City's transportation & mobility plan; and

(3) The rate of fatalities and injuries as shown in the City's high injury network.

(i) In addition to the above requirements, provide an annual report to the Mayor, the Board of Aldermen, and the Chair of the Board of Aldermen Public Infrastructure and Utilities Committee, or its successor committee, that is due on the first workday of May of each year. Such report shall be made publicly available on the City's website. Such report should detail:

(1) Updates to the City of St. Louis safety action plan/high injury street network, including how the high injury network corresponds to equity indicators within the City;

(2) A Transportation & Mobility Plan annual implementation summary report, including major project assessments; and assessments on projects as identified pursuant to D.1(h) of this section.

(3) Project recommendation memo as delivered to the Capital Committee and presented during the Complete Streets Advisory Committee meeting in advance of the first Capital Committee meeting of each year; and

(4) Key benchmarks including:

a. Lane miles dedicated to active transportation;

b. Linear feet of new of reconstructed pedestrian accommodations, and cycling facilities categorized by protected or unprotected;

c. Number of new curb ramps installed along City streets;

d. Crosswalk and intersection improvements;

e. Rate of fatality or injury by age group;

f. Rate of fatality or injury by vehicle type;

g. Rate of fatality or injury by accident type and mode of transport, i.e. driver, passenger, pedestrian, cyclist;

h. Percentage of transportation projects taking place in census tracts identified by the vulnerable populations index;

E. *Training.* Training opportunities shall be provided to City Staff as appropriate to ensure the following components are utilized during the planning, funding, design, and implementation of projects: City of St. Louis Complete Streets Policy, City internal practices to implement the policy, and an overview of complete streets design principles including application of pedestrian and bicycle design guidelines. Training requirements are at the discretion of departmental or division supervisor or director and coordinated by the complete streets policy coordinator(s). (1994 C., § 3.120.010; Ord. No. 71882, §§ 1—6, 7-25-2024; Ord. No. 69955, §§ 2—5, 2-25-2015)

Editor's Note:

Ord. No. 69955, approved February 25, 2015, repealed Ord. No. 68663, §§ 1—4, approved June 22, 2010, codified as § 3.110.120; and enacted a new section as set out herein. Former § 3.110.120 pertained to similar subject matter.

3.110.130 Prevailing wage requirements.

b. The rate to be used for this section is the prevailing wage rate determined and adjusted annually in the annual wage order at the time each relevant phase of demolition, preconstruction, construction, reconstruction, improvement, enlargement, alteration, painting and decorating or repair begins and not when an abatement, TIF, or City bond is granted.

c. Each contractor shall be ultimately responsible for the compliance of all its subcontractors.

d. Consistent with RSMo 290.235, such workers who are individually registered in a bona fide registered apprenticeship program approved by the U.S. Department of Labor, Office of Apprenticeship, may be paid less than the journeyperson rate of pay specified in the applicable wage order.

e. In compliance with RSMo 290.235, entry level workers may be registered apprentices.

f. The authorized apprenticeship utilization ratio shall be no greater than one-to-one, apprentice to journeyperson of the same classification unless Missouri's Prevailing Wage Law is amended to set a different ratio.

g. Any worker on a project covered by this section who is not registered as an apprentice or is out of ratio shall be paid as a journeyperson.

2. *Submission of Prevailing Wage Reports.*

a. Each contractor shall utilize compliance software and hardware to comply with the provision of this chapter, Ordinance 69427 as amended, or Ordinance 71094 as amended, as may be directed by SLDC.

b. Each contractor shall keep, and require each of its subcontractors to keep and make available to the contractor, a certified payroll report form per pay period, the format to be of the contractor's own choosing unless the project owner determines otherwise, indicating each worker's name, address, social security number, occupational title, hours worked, and wages paid of every worker employed on the contract or public project.

c. Each payroll report must be accompanied by a certification form indicating the accuracy and authenticity of such records, and signed by the contractor's or subcontractor's representative.

d. Information contained in such certification must incorporate the certification language required on the federal WH-347 payroll form, or its successor form as issued by the United States Department of Labor, but may be required by SLDC to be in electronic format.

e. Notwithstanding, the report shall also state the amount in any fringes in addition to wages received by each worker expressed as a per hour amount and the contractor shall provide information on the amount per hour of each benefit.

f. Each contractor shall submit such reports for public projects, including for any subcontractor, to SLDC on a monthly basis. Further, a contractor shall provide such reports to the BPS or SLDC upon request.

g. Such payrolls, records, and certifications shall be considered public records. In the event such payrolls or other records are requested under RSMo Ch. 610, the Missouri Sunshine Law, or other open records laws, all information pertaining to any and all workers listed on such payroll or records that may be closed, redacted, or otherwise removed pursuant to such laws shall be closed, redacted, or otherwise removed as provided under such laws. Examples include, but are not limited to, personal identification numbers, such as Social Security numbers. Such payrolls shall not be not considered individually identifiable personnel records as described in RSMo 610.021(13).

3. *Wages to be Posted.*

a. Each contractor shall post and keep posted, in a prominent and easily accessible place on site, a clearly legible statement of all prevailing hourly wage rates to be paid to workers employed by contractor and each of its subcontractors and how to report alleged violations of the same including the relevant contact information for SLDC.

4. *Affidavit of Compliance.*

a. Upon completion of the contract and prior to final payment, the contractor shall file with the City an affidavit of compliance from the contractor and each of its subcontractors stating that each has fully complied with the provisions and requirements of the Missouri Prevailing Wage Law and this chapter, Ordinance 69427 as amended, or Ordinance 71094 as amended.

b. The City shall not make final payment or implement or continue to authorize any tax abatement, frozen tax rate, or other benefit or incentive to encourage the applicable development project until the affidavits, in proper form and order, are filed by the contractor.

5. *Exception for Federal Requirements.* This section shall not be enforced in such manner as to conflict with any federal statutes or rules or regulation, including but not limited to 23 U.S. Code § 113, 29 CFR Part 5, 2 CFR § 200.319, and 23 CFR § 635.110.

6. *No Retaliation.*

a. An employer shall not take retaliatory personnel action or discriminate against an employee or former employee because the individual has reported to the City or to SLDC a violation of this chapter, Ordinance 70194, or Ordinance 69427; filed a related complaint with the City or with SLDC; participated in a related City or SLDC investigation; sought or received from the City restitution for wages owed to them as provided under this chapter; or assisted others in such conduct.

c. The City Counselor's Office shall have the authority for the enforcement and collection of such penalty.

d. To the extent allowed by law, penalties owed to and paid to the City under this subsection shall be used to enforce the prevailing wage requirements of this chapter and to provide workforce training and development services for minorities, women, apprentices, and City residents.

(e) *Elected Official Pay Schedule:*

(1) The following bi-weekly pay schedule for each Executive pay grade, denoted by the suffix "E," is currently in effect and extends through the term of office for each elected official:

Grade	Bi-Weekly Rate
1E	$3596
2E	$4315
3E	$5070

(2) The following bi-weekly pay schedule for each executive pay grade, denoted by the suffix "E," shall become effective beginning with any term of office starting after the effective date of this chapter:

Grade	Bi-Weekly Rate
1E	$3815
2E	$4714
3E	$5540

(f) *Shift Differential:* Shift differential shall be paid for certain work assignments. The Director of Personnel shall determine the work assignments for which shift differential will be paid. The assignment or removal of an employee from a work assignment having a shift differential shall be determined by the appointing authority and will not constitute a promotion, demotion, advancement or reduction in pay. The shift differential shall be added to the employee's regular bi-weekly rate.

(1) In order for an employee in Sections 4.10.020(a) or 4.10.020(b) to be eligible for shift differential compensation, the employee must work a shift that requires the completion of four (4) hours of work between the hours of 4:00 p.m. and 8:00 a.m. the following morning. Employees whose pay grade is denoted with the suffix "M" are only eligible to receive shift differential if they are regularly scheduled to work at least four (4) hours between 4:00 p.m. and 8:00 a.m. the following morning. Employees shall be entitled to receive shift differential compensation for no more than one (1) shift worked between the hours of 4:00 p.m. and 8:00 a.m. Employees who are assigned to work schedules that require them to rotate among three (3) shifts (day, evening, night) on a bi-monthly or more frequent basis shall be eligible for shift differential compensation for all three (3) shifts worked.

For employees whose pay range is established in Section 4.10.020(a) or 4.10.020(b) the shift differential premium shall be one (1) percent of the employee's base bi-weekly rate for each eligible shift worked in a bi-weekly pay period. An employee whose pay range is established in Section 4.10.020(a) or 4.10.020(b) shall receive shift differential for working a portion of an eligible shift, provided the portion of the shift not worked is charged to paid leave. Shift differential shall only be paid for whole hours worked; a fraction of an hour shall not be counted toward the payment of the differential.

(2) For those employees whose pay range is established in Section 4.10.020(c), the shift differential premium shall be two dollars ($2.00) per hour for each hour worked between 11:00 p.m. and 7:00 a.m. during an eligible shift. Employees must work at least twelve (12) hours of a regularly assigned 24-hour shift to be eligible for any shift differential for the shift. Such employees shall not receive shift differential for overtime worked, which is not part of their regular schedule. This provision will not go into effect until shift differential is agreed upon by the Director of Personnel and the Union (Local 73) in writing.

Except shift differential premium shall be two dollars ($2.00) per hour for each hour worked between 11:00 p.m. and 7:00 a.m. during an eligible shift to be paid to Overtime Code 3 Fire Equipment Dispatcher classifications whose pay range is established in Section 4.10.020(c).

(3) For Police Officer Trainees and employees whose pay grade is denoted with the suffix D, the night shift differential shall be ten (10) percent of the hourly rate for all full hours worked between the hours of 11:00 p.m. and 7:00 a.m. and all eight-hour shifts beginning between 10:30 p.m. and 11:30 p.m.

(4) Except as otherwise provided in this chapter, shift differential shall not be paid to employees compensated on an hourly or per performance basis, or bi-weekly paid employees who work part-time. Neither shall shift differential be paid to full-time regular employees docked for any portion of an eligible shift.

(g) *Weekend Differential:* When employees whose pay range is established in Section 4.10.020(a) or 4.10.020(b) work on a Saturday and/or a Sunday they shall be eligible for weekend differential. Employees whose pay grade is denoted with the suffix "M" are only eligible to receive weekend differential when it is part of their regularly scheduled work hours. This differential shall be one (1) percent of an employee's base bi-weekly rate. An employee shall receive weekend differential for

working any portion of an eligible day. This differential shall only be paid for full hours worked. Weekend differential shall not be paid to employees compensated on an hourly or per performance basis or bi-weekly paid employees who work part-time. Neither will the weekend differential be paid to full-time regular employees docked for any portion of a day on which the differential would otherwise be paid.

(h) *Commuting Allowance:* Employees residing within the corporate limits of the City of St. Louis who are regularly assigned to a position located in a City institution, agency, or facility located outside the corporate limits of the City of St. Louis, and who are regularly assigned to a five-day, forty-hour weekly work schedule, shall be entitled to a commuting allowance in the amount of one hundred eighty dollars ($180.00) bi-weekly on the effective date of this chapter. Eligible full-time employees who are assigned to an alternate form of work schedule which reduces the frequency of commuting to work shall be entitled to a commuting allowance which is reduced in proportion to the reduced frequency of commuting. City employees who are temporarily assigned duty to a facility located outside the corporate limits of the City of St. Louis shall be entitled to a per diem rate for the duration of the assignment. No employee living outside of the corporate limits of the City of St. Louis shall receive a commuting allowance.

A period of absence of ten (10) working days or more shall result in suspension of eligibility for the commuting allowance. Suspension of the commuting allowance shall begin during the pay period in which the tenth day of absence occurs and shall continue for any subsequent full or partial pay periods during the period of absence. Upon return to duty from such absence, an employee shall immediately be eligible to resume receiving commuting allowance, reduced in proportion to the time the employee did not work due to absence.

Employees for whom any form of free transportation (car, truck, bus, etc.) is provided by the City from a place within the corporate limits of the City of St. Louis to the work site and back shall not be entitled to the commuting allowance.

A person occupying a position as a member of a Board, Commission or Committee shall be paid at the per day, per meeting or per month rate established above.

(j) The Director of Personnel may establish per performance rates of pay, hourly rates of pay, or rates of pay for units of work and the conditions for making of any such payments. Such per performance, hourly, or unit-of-work rates may be computed from the bi-weekly scales established in this chapter. Per performance, hourly, or unit-of-work rates shall be established considering the nature of employment, community practices in compensating similar employment, and the purpose of the program for which the rate is established. Employees paid per performance, hourly, or unit-of-work rates of pay shall not be entitled to vacation, medical leave or holiday leave with pay or other benefits accorded employees paid a bi-weekly rate except that an appointing authority, with the prior approval of the Director of Personnel, and when sufficient funds have been appropriated for the fiscal year, may establish a modified level or type of benefit program when the provision of such benefit is needed in order to attract and retain sufficiently qualified employees to work in specific per performance, hourly, or unit-of-work assignments.

Appointing authorities are not permitted to utilize per performance and hourly employees as a method of replacing bi-weekly rate employees who would be entitled to employee benefits.

(k) The Director of Personnel may establish trainee rates of pay. Such trainee rates may be established on an hourly, per performance or bi-weekly basis and shall be less than the rate paid to a regular employee.

(l) The Director of Personnel, with the assistance of appointing authorities concerned, may establish rates and conditions under which compensation may be granted for periods of time during which an employee is away from the job site but restricted in his/her activities because of an assignment by the appointing authority to be available for a call to return to the work site to perform emergency duties. Pay rates and conditions established under the provisions of this Section 4.10.020(l) may include reasonable minimum pay guarantees for employees required to return to the work site to perform emergency duties. The provisions of this Section 4.10.020(l) shall not be construed to restrict the right of an appointing authority to establish call back procedures for employees as an established condition of employment.

(m) The Director of Personnel may authorize payment of special recruitment incentives, travel, moving and related expenses to recruit employees for positions when funds for this purpose are appropriated.

(n) The Director of Personnel may approve the payment of hiring incentives to current employees to recruit qualified personnel for positions that are difficult to fill. Hiring incentives shall be in any amount up to twenty-five (25) percent of the annual salary of the position for which the recruitment is made.

(o) (1) An appointing authority, with the prior approval of the Director of Personnel, may establish cash awards or other incentives for an employee or group of employees to recognize and reward increased productivity or effectiveness. The incentives offered may include cash, paid time off and such other reasonable incentives as the Director of Personnel may determine. Cash awards shall be made from the personal services

appropriation of the unit, the account from which the employee's salary is paid or from a general appropriation for this purpose.

(2) The Director of Personnel, upon the request of the appropriate appointing authority, may establish a program of cash awards or other incentives, not to exceed ten (10) percent of annual salary, paid as an addition to pay, for the purpose of providing additional compensation for employees who are fluent in a foreign language and who use this skill in the necessary and regular recurring performance of the duties of their position. Cash awards shall be made from the personal services appropriation of the unit, the account from which the employee's salary is paid or from a general appropriation for this purpose. Cash awards and incentives under this program shall be made in accordance with guidelines established by the Director of Personnel.

(3) Notwithstanding any other provision in this chapter, the Director of Personnel is authorized to extend the maximum of the pay ranges by up to forty (40) percent for the purpose of compensating positions which are extremely hard to fill.

(4) The Director of Personnel may provide an employee suggestion program which grants cash and other awards to recognize employee suggestions which improve City services, operations or facilities. Cash awards to employees for suggestions resulting in tangible savings to the City shall not exceed ten (10) percent of the annual tangible net savings. Cash awards and payments for other awards shall be made from an appropriation for a suggestion program or other appropriate account. Additionally, cash awards for suggestions shall be granted as an addition to pay, which does not change an employee's bi-weekly rate. The employee suggestion program shall be administered in accordance with regulations established by the Director of Personnel. The Director of Personnel may establish an authority to evaluate suggestions and determine awards; the decisions of this authority shall be final.

(p) An employee who is appointed to a position requiring advanced technical skills or professional qualifications may be paid at a higher rate than prescribed for the class in Section 4.10.020 of this chapter on recommendation of the appointing authority with the prior approval of the Director of Personnel. Such advancement shall be made solely on the basis that the employee possesses exceptional academic qualifications, registrations or certifications related to the duties of the position and when such academic qualifications, registrations, or certifications are not deemed necessary qualifications for the class of position.

The Director of Personnel may also establish other incentive or reimbursement programs to encourage current employees to attain registration, licensure, certification, or proof of professional mastery when it is deemed to be in the best interest of the Classified Service, or when such credentials are clearly recognized as adding to the capability of individuals in that area. Incentives or reimbursements awarded under such programs do not result in an employee being ruled ineligible for incentives or salary increases permitted under other sections of this chapter.

(q) In skilled trades classes, defined as those that have bona fide apprenticeship programs registered with the Department of Labor or documented attainment of equivalent apprenticeship programs, employees who have completed such apprenticeship programs and attained journeyman status shall be granted the special skills recruitment rate for the class if a special skills recruitment rate exists for the class. Employees in classes in the Trades Pay Schedule who have completed alternative training programs established and approved by the Director of Personnel, and attained journeyman status shall also be eligible for a salary at the special skills recruitment rate if such a rate exists for the class.

(r) An appointing authority may, with the prior approval of the Director of Personnel, establish a program to reimburse, in whole or in part, expenses incurred by employees for the purchase of uniform apparel required in the performance of the duties of their positions, when funds have been budgeted, therefore.

An appointing authority may exercise the option to furnish such uniform as may be required in the employee's performance of his/her duties.

The Director of Personnel may establish regulations relating to employees' eligibility for reimbursement for uniforms.

Further, when funds have been budgeted therefore, an appointing authority may authorize reimbursement to uniformed security or correctional employees of up to fifty dollars ($50.00) per incident for damage to personal property sustained while the employee was directly engaged in quelling a disturbance while performing assigned and/or authorized duties during a shift. Employees whose pay is established under Section

4.10.020(d) of the ordinance may be reimbursed for damages to personal property sustained while in the course and scope of employment in accordance with Police Division policies.

(s) An appointing authority that requires employees to provide and maintain their own tools shall provide a tool replacement program and/or annual maintenance allowance, with the prior approval of the Director of Personnel.

(t) (1) Contingency assignment differential may be paid for certain assignments when immediate position coverage is needed for any unexpected reason (e.g. death, forced leave, emergency illness, etc.) in a higher pay grade, and shall be granted at the onset of the assignment, not to extend more than one (1) pay period. The Director of Personnel will determine the assignments for which contingency assignment differential will be paid. The assignment of an employee to said assignment having a contingency assignment differential will be determined by the appointing authority from an existing eligible list and will not constitute a promotion or advancement in pay. In addition, the removal of an employee from said assignment shall not constitute a demotion or reduction in pay. If an eligible list is not available, an appointing authority may submit to the Director of Personnel the name of the employee being considered for the assignment to determine if they meet the necessary minimum qualifications for the position being considered.

For an employee whose pay range is established in Section 4.10.020(a), 4.10.020(b), 4.10.020(c) or 4.10.020(d), with the prior approval of the Director of Personnel, the contingency assignment differential will be ten (10) percent of the employee's regular base bi-weekly rate added as an addition to pay for each bi-weekly period worked or one (1) percent of the employee's regular base bi-weekly rate for each shift assignment covered, not to exceed one (1) pay period.

(2) Temporary assignment differential will be paid for certain assignments when a vacancy exists for any reason (e.g. separations, terminal vacation, leave of absence, military leave, etc.) in a position with a higher pay grade, and shall be granted for at least one (1) pay period but not more than thirteen (13) pay periods, and offset by any days that the employee by reason of absence is not fulfilling the assignment. The Director of Personnel will determine the assignments for which the temporary assignment differential will be paid. The assignment or removal of an employee from said assignment having a temporary assignment differential will be determined by the appointing authority and will not constitute a promotion, demotion, advancement, or reduction in pay. The intended employee must meet the minimum qualifications for the position to be assigned. The temporary assignment differential shall be computed as an addition to pay and not affect the employee's regular bi-weekly rate.

For an employee whose pay range is established in Section 4.10.020(a), 4.10.020(b), 4.10.020(c) or 4.10.020(d), with the prior approval of the Director of Personnel, the temporary assignment differential will be ten (10) percent of the employee's regular base bi-weekly rate added as an addition to pay for each bi-weekly period worked, not to exceed thirteen (13) pay periods. The Director of Personnel may require the establishment of a department policy on temporary assignment differential pay and must sign off on the policy prior to authorizing temporary assignment differential.

(u) City employees who are required by their appointing authority to routinely use their personal vehicle in the performance of their duties shall be compensated by receiving a vehicle maintenance and use allowance of two hundred ninety-seven dollars ($297.00) per month. Eligible employees who use their personal vehicle with reduced frequency shall be entitled to a vehicle maintenance and use allowance which is reduced in proportion to the reduced frequency of use, subject to the approval of the Director of Personnel.

(v) An appointing authority may, with the prior approval of the Director of Personnel, establish a program to reimburse, in whole or in part, parking expenses incurred by employees, when funds have been budgeted, therefore.

(Ord. No. 71963, § 2, 2-11-2025; Ord. No. 71766, §§ 1, 2, 12-18-2023; Ord. No. 71686, § 2, 6-28-2023; Ord. No. 71512, § 2, 6-16-2022; Ord. No. 71099, § 2, 2-27-2020.)

4.10.030 Education reimbursement.

An appointing authority may, with the prior approval of the Director of Personnel, authorize salary payments, payments of tuition expenses, fees, books and related material in whole or in part to employees to permit them to attend school, visit other governmental agencies or in any approved manner to devote themselves to improvement of knowledge or skills required in the performance of the duties of their position.

The Department of Personnel may reimburse, in whole or in part, expenses incurred by employees in the pursuit of improvement of the knowledge and skills required in the performance of their positions or in higher positions, when funds have been allocated in the Department's budget.

An appointing authority, with the approval of the Director of Personnel, may establish a program to reimburse, in whole or in part, expenses incurred by employees in the pursuit of improvement of the knowledge and skills required in the performance of the duties of their positions or to improve their professional, technical or managerial knowledge or skill.
(Ord. No. 71963, § 3, 2-11-2025; Ord. No. 71686, § 3, 6-28-2023; Ord. No. 71512, § 3, 6-16-2022; Ord. No. 71099, § 3, 2-27-2020.)

4.10.040 Salary range limitations.

No employee in the Classified Service shall be paid at a rate lower than the minimum or higher than the maximum of the salary range established for the class to which his/her position has been allocated, except as otherwise provided in this chapter.
(Ord. No. 71963, § 4, 2-11-2025; Ord. No. 71686, § 4, 6-28-2023; Ord. No. 71512, § 4, 6-16-2022; Ord. No. 71099, § 4, 2-27-2020.)

4.10.050 Starting salary.

(a) The rate of pay for an excepted position to be paid upon original appointment to the class shall be determined by the appointing authority for the excepted position.

(b) Except as otherwise provided in this chapter, the minimum rate of pay for a position shall be paid upon original appointment to the class unless the Director of Personnel finds that it is difficult to secure the services of persons with minimum qualifications or experienced qualified persons at the minimum rate.
The Director may establish a recruitment rate for a single position or all positions in a class and authorize employment at an amount above the minimum but within the regular range of salary established for the class. When a recruitment rate is established for an entire class, employees already in such class may have their salaries adjusted to appropriate rates in the new range resulting from the establishment of the recruitment rate.

(c) Employees with permanent status who are eligible for reemployment as determined by the rules of the Department of Personnel shall be reemployed at an appropriate rate within the salary range which takes into consideration the employee's prior service in the position, as determined by the Director of Personnel.
(Ord. No. 71963, § 5, 2-11-2025; Ord. No. 71686, § 5, 6-28-2023; Ord. No. 71512, § 5, 6-16-2022; Ord. No. 71099, § 5, 2-27-2020.)

4.10.060 Promotion, demotion, reallocation, transfer and temporary promotion.

An employee who is transferred, promoted, demoted, or whose position is reallocated after the effective date of this chapter, shall have his/her rate of pay for the new position determined as follows:

(a) *Promotion:* This shall be defined as a change of an employee in the Classified Service from a position of one class to a position of another class with a higher pay grade or a higher starting minimum salary.

(1) When an employee is promoted to a position in the general, management or trades pay schedule, the employee's current bi-weekly rate of pay shall be set at a rate which is five (5) percent higher than the rate received immediately prior to the promotion or adjusted to the nearest step in the new pay matrix which is not less than but is closest to a rate which is five (5) percent higher than the rate received immediately prior to promotion. An appointing authority, with the prior approval of the Director of Personnel, may increase the pay of an employee up to twenty (20) percent, adjusted to the nearest step, when such action is needed to attract experienced, qualified candidates for a position. Such salary determinations shall take into consideration the nature and magnitude of the accretion of duties and responsibilities resulting from the promotion. However, no employee shall be paid less than the minimum rate nor more than the maximum rate for the new class of position, except as otherwise provided in this chapter.

(2) Temporary promotion: When an employee, whose salary range is established in Section 4.10.020(a) or 4.10.020(b), is certified and temporarily promoted to a vacant position, for a limited duration, the employee's current salary shall be adjusted as provided in paragraph (a)(1) of this section. Upon expiration of the temporary promotion, the employee shall be returned to his/her former rate of pay, adjusted by any increases the employee would have received in the absence of the temporary promotion. In no case shall the employee's salary be above the maximum of the salary range, unless otherwise provided for in this chapter.
Employees whose salary ranges are established in Section 4.10.020(c) or 4.10.020(d) of this chapter, upon

receipt of a temporary promotion, shall be granted the new rank with a salary adjustment based on appropriate years of service in accordance with procedures established for a regular promotion. At the end of the temporary promotion, the employee shall be returned to the rank held immediately prior to the temporary promotion. The employee's rate of pay shall be based on the appropriate years of service.

(b) *Demotion:* This shall be defined as a change of an employee in the Classified Service from a position of one class to a position of another class which has a lower pay grade and a lower starting minimum salary.

(1) If an employee is demoted for disciplinary reasons in accordance with the rules of the Department of Personnel and Civil Service Commission and established disciplinary procedures, his/her rate of pay shall be established at a rate within the range for the new position which is at least five (5) percent lower than the rate received immediately prior to the demotion or reduced to the nearest step which is at least five (5) percent lower than the rate received immediately prior to the demotion, except no employee shall be reduced below the minimum of the range unless otherwise provided for in this chapter. The amount of the reduction shall be determined by the appointing authority, with the approval of the Director of Personnel.

(2) If an employee accepts a voluntary demotion, his/her current rate of pay shall be reduced within the range for the new position which is five (5) percent lower, to the closest downward step, than the rate received immediately prior to demotion, except that employees who are in a working test period and demote to their previous class of position or pay grade, will return to the rate or step received immediately prior to the promotion, plus any adjustments as otherwise provided in this chapter. No employee shall be paid less than the minimum nor more than the maximum rate for the new class of position, except as otherwise provided in this chapter.

(3) When an employee is demoted for reasons in the best interest of the City Service as determined by the Director of Personnel, his/her salary may be reduced by reason of the new salary range and grade with the prior approval of the Director of Personnel. If the salary of such employee is above the maximum for the new position, the employee's salary shall not be increased so long as he/she remains in the position, except as otherwise provided by this chapter.

(c) *Reallocation:*

(1) If the employee's position is reallocated to a class in a lower pay grade, his/her salary shall remain unchanged or adjusted to the closest step provided the employee's rate of pay shall not be reduced.

(2) The salary of an employee whose position is allocated to a class in a higher pay grade shall be determined in accordance with the provisions of Section 4.10.060(a)(1) relating to salary advancement on promotion.

(d) *Transfer:* The salary rate of an employee who transfers to a different position in the same class, or from a position in one class to a position in another class in the same pay grade, shall remain unchanged, provided that no employee shall be paid less than the minimum rate nor more than the maximum rate for the new class of position, except as otherwise provided in this chapter.

(e) *Over Maximum:* The salary of an employee, which is in excess of the maximum of the range prescribed by this chapter for the class and grade to which his/her position has been allocated or may be reallocated, shall not be reduced by reason of the new salary range and grade. The salary of such employee shall not be increased so long as he/she remains in the class of position, except as otherwise provided by this chapter. (Ord. No. 71963, § 6, 2-11-2025; Ord. No. 71686, § 6, 6-28-2023; Ord. No. 71512, § 6, 6-16-2022; Ord. No. 71099, § 6, 2-27-2020.)

4.10.070 Salary adjustment.

Salary adjustments for all employees in competitive positions shall be based on considerations of merit, equity, or success in fulfilling predetermined goals and objectives as herein provided.

(a) Competitive positions for which salary is established in Section 4.10.020(a), General and Management Schedule; or Section 4.10.020(b), Trades Schedule:

(1) Any employee whose salary is established in Section 4.10.020(a) or Section 4.10.020(b), General, Management, and Trades Pay Schedules, shall receive a service rating in accordance with the Service Rating Manual. The rating together with the standards of performance established in the rating manual shall determine eligibility for a one step within-range (merit) increase at intervals as outlined in the Service Rating Manual or other pay regulation(s) as determined by the Director of Personnel. Notwithstanding any other sec-

tion of the compensation ordinance, all employees in the general, management, and trades pay schedules who would be eligible to receive an annual step increase as a result of a "successful" or "highly successful" overall rating on their regular service rating date will receive a one and five-tenths (1.5) percent increase regardless of their current rate or place in the pay schedule.

(2) A non-exempt (Overtime Code 3 or 4) employee whose pay is established in Section 4.10.020(a) or Section 4.10.020(b) of this chapter who receives an overall rating of "unsuccessful" as defined by the Service Rating Manual, may have his/her salary reduced as determined by the standards established in the Service Rating Manual, but not less than the minimum of the pay grade range.

(b) As used in this chapter, "anniversary date" means the date following fifty-two (52) weeks of continuous service from the date of original appointment or from the date of the last salary adjustment, if other than a temporary reduction in pay for disciplinary reasons, a demotion (not for disciplinary reasons) or an across-the-board ordinance increase, an increase resulting from an authorized incentive program, reallocation or an upgrade of the classification concurrent with adoption of the ordinance. Absence from service as a result of any authorized paid leave, suspensions, military leave, or family/medical leave will not interrupt continuous service. Absence from service for any other cause shall result in breaking continuity of service and establishment of a new anniversary date, except as otherwise provided in this chapter. The Director of Personnel may authorize different anniversary dates for an employee or groups of employees.

(c) An appointing authority may evaluate the performance of an employee whose salary is established in Section 4.10.020(a) or Section 4.10.020(b) of this chapter for the purpose of a salary adjustment only at intervals as described above except in the case of:

(1) Exceptional performance of duties: With the prior approval of the Director of Personnel, the appointing authority in accordance with the Service Rating Manual, may advance the salary of an employee who demonstrates exceptional performance of duties after serving twenty-six (26) weeks of employment at the same rate in the salary range by not more than ten (10) percent or to the closest step in the pay range which provides not more than a ten (10) percent increase; this may be in addition to any merit increase received.

(2) Substandard performance of duties: An appointing authority may reduce the salary of an employee whose level of performance is significantly diminished and no longer warrants payment at the current rate within the range as provided in the Service Rating Manual; providing the employee's salary is above the minimum of the range, established in Section 4.10.020(a) or Section 4.10.020(b) and allocated to Overtime Code 3 or Overtime Code 4.

The granting of any such increase or decrease in salary shall be made at the beginning of a payroll period, as determined by the Director of Personnel, following approval of such salary action.

(d) Competitive positions for which salary is established in Section 4.10.020(c), fire division schedule: All employees in the fire division pay schedule shall have a service rating completed in accordance with the Service Rating Manual.

Probationary fire privates shall be advanced to the rate for fire privates at the beginning of the first bi-weekly pay period following one (1) year of service. Probationary fire equipment dispatchers shall follow the same schedule.

(e) Competitive positions for which salary is established in Section 4.10.020(d), police division schedule: All employees in the police division pay schedule shall have a service rating completed in accordance with the Service Rating Manual.

Police probationary officers who successfully complete their working test period shall be advanced to the rate for police officer at the beginning of the first bi-weekly pay period during which such officer's one (1) year anniversary as a police probationary officer occurs, excluding his/her initial time in training at the Police academy.

(f) Excepted positions: The pay of an employee in an excepted position shall be adjusted to any rate within the pay range at the discretion of the appointing authority for the excepted position.

(g) The Director of Personnel may approve, at the request of an appointing authority, adjustments to correct or mitigate serious and demonstrable internal pay inequities. Salary adjustments under this provision shall preclude adjustments to compensate or reward employees for long-term or meritorious service.

(h) The pay of any employee may be decreased as a disciplinary action by an appointing authority to a

lower rate. Any such decrease shall be made in accordance with the established disciplinary procedures. The decrease shall not be greater than fifteen (15) percent of the current salary rate. The decrease may be below the minimum of the pay range for the class. The appointing authority may determine the pay decrease shall be effective for a specific number of bi-weekly pay periods provided, however, that such decrease shall not be effective for more than thirteen (13) bi-weekly pay periods.

(i) An employee who is temporarily promoted shall be eligible for within range salary adjustments under provisions of this Section 4.10.070.

(j) The Director of Personnel may approve a within range salary adjustment or other incentives to retain employees in positions that are difficult to fill, or because of their unique requirements. Said adjustment may only be granted once during a twenty-six-week period.

(Ord. No. 71963, § 7, 2-11-2025; Ord. No. 71686, § 7, 6-28-2023; Ord. No. 71512, § 7, 6-16-2022; Ord. No. 71099, § 7, 2-27-2020.)

4.10.080 Income sources.

Any salary paid to an employee in the Classified Service shall represent the total remuneration for the employee, excepting reimbursements for official travel and other payments specifically authorized by ordinance or pay regulation promulgated by the Director of Personnel. No employee shall receive remuneration from the City in addition to the salary authorized in this chapter for services rendered by the employee in the discharge of the employee's ordinary duties, of additional duties which may be imposed upon the employee, or of duties which the employee may undertake or volunteer to perform.

Whenever an employee not on an approved paid leave works for a period less than the regularly established number of hours a day, days a week or days bi-weekly, the amount paid shall be proportionate to the hours in the employee's normal work week and the bi-weekly rate for the employee's position. The payment of a separate salary for actual hours worked from two (2) or more departments, divisions or other units of the City for duties performed for each of such agencies is permissible if the total salary received from these agencies is not in excess of the maximum rate of pay for the class.

(Ord. No. 71963, § 8, 2-11-2025; Ord. No. 71686, § 8, 6-28-2023; Ord. No. 71512, § 8, 6-16-2022; Ord. No. 71099, § 8, 2-27-2020.)

If an employee's salary is between steps, the employee's salary shall be placed at the higher step.

(b) Pay schedules in Section 4.10.020(c) or Section 4.10.020(d) in Ordinance Number 71686 shall continue in effect until the beginning of the first bi-weekly pay period starting after the effective date of this chapter.

(c) No employee shall be reduced in salary by reason of the adoption of the new pay schedules in this chapter.

(d) The salary of an employee serving in a trainee position, which remains above the new trainee rate for his/her position, shall remain unchanged.

Whenever the Department of Personnel finds it necessary to change the overtime code of an existing class within the classification plan, the Director of Personnel shall change the overtime code, recommend such change to the Civil Service Commission, and notify the Board of Aldermen of this action.

Whenever the Department of Personnel considers it necessary to change the pay grade of an established class of position, such adjustment can only be made concurrent with the adoption of a new compensation ordinance. The Director of Personnel shall prescribe forms on which appointing authorities shall certify to the fact that a vacancy exists in a lawfully created position and to the lawful appointment of a person to fill the position. The Director of Personnel shall indicate on these forms the proper allocation of the position and the rate at which payment is to be made. When approved by the Director of Personnel and submitted to the Comptroller, these forms shall constitute authorization for the initial placing of a person's name on the payroll. The Comptroller shall not authorize any change in the rate of pay of an individual on the payroll unless approved by the Department of Personnel. The Comptroller shall provide the Department of Personnel with a copy of each payroll audited and found correct within twenty-one (21) days after audit and approval of the payroll by the Comptroller's Office.

Each appointing authority shall establish procedures to assure that the employees under his/her supervision are actively engaged in the performance of the duties of their positions in accordance with the provisions of this section.

Each appointing authority shall submit to the Department of Personnel the work schedule established for each position in the work unit. Work schedule reports shall be submitted upon request of the Director of Personnel or whenever the appointing authority proposes to change the permanent work schedule of a position. The work schedule submitted by the appointing authority shall constitute the normal work schedule for the position when approved by the Director of Personnel.

All employees in the Classified Service shall be in attendance at their work in accordance with schedules established under the provisions of this Section 14, subject to other provisions of this chapter with respect to hours, holidays, vacation leave, medical leave, furloughs, sick leave, military leave, and leaves of absence with or without pay.

(a) Employees whose salaries are established in Section 4.10.020(a) or Section 4.10.020(b): Forty (40) hours shall constitute the average minimum required weekly hours of service in an employment cycle under regular full-time employment for all City employees paid on a bi-weekly basis occupying competitive positions in the Classified Service. The minimum daily and annual service required of such employees shall be in proportion to the average minimum weekly hours established.

Appointing authorities shall so arrange the time for reporting for work, for luncheon intermission, and for quitting work of the various employees under their jurisdiction so that the employees will actually be engaged in active performance of their duties for not less than the average minimum number of hours required.

(b) Management Employees: Appointing authorities for employees occupying full-time positions whose salaries are established in Section 4.10.020(a) of this chapter shall initiate procedures to see that such employees are engaged in the performance of their duties on a full-time basis. Full-time employment for any employee whose classification is denoted in the Management Schedule shall be defined as an average of forty (40) hours per week of time devoted to the duties of the position on an annual basis.

(c) Uniformed Fire Personnel: Fifty-two (52) hours shall constitute the average required weekly hours of service in an employment cycle under regular full-time employment for all employees in the Division of Fire and Fire Prevention, except that the appointing authority, with the approval of the Director of Personnel, may determine that the minimum work hours provision of Section 4.10.140(a) shall apply to employees in certain positions due to the nature of the assignment and/or scheduling requirements. The appointing authority shall so arrange the time for reporting for work and for quitting work of the various employees under the appointing authority's jurisdiction so that the employees will actually be engaged in the active performance of their duties for not less than the average number of hours required.

(d) The work period for employees whose pay is established in Section 4.10.020(d) of this chapter is twenty-eight (28) days. The daily work period for an employee in the position of police probationary officer and police officer is eight (8) hours which includes a thirty-minute meal period. The meal period is counted as working time; however, an officer unable to take a meal break will not receive additional compensation. The daily work period for an employee in the position of police officer trainee is eight (8) hours. Additionally, police officer trainees shall receive a thirty-minute unpaid meal period that shall not be counted as part of their daily work period or work day.

4.10.150 Overtime.

(a) The Department of Personnel shall determine those positions in the Classified Service of the City of St. Louis which are exempt from overtime compensation and those positions which are not exempt from overtime compensation. The overtime codes established for each class in Section 4.10.010(a) of this chapter shall be interpreted as follows:

OVERTIME CODE (OVTM):

1. These classes are primarily managerial in nature, but may also include some professional or administrative classes that are ineligible for overtime pay under all but emergency conditions as described in Section 15(d) of this chapter.
2. These are supervisory, professional, and admin-

istrative classes that are exempt from overtime compensation, but which the City compensates for overtime at the straight (1.0×) time rate.

3. These are non-exempt classes that receive overtime compensation at the one and one-half (1.5×) time rate.
4. These non-exempt classes work an average bi-weekly work schedule of eighty-four (84) hours and, therefore, receive overtime compensation at the one and one-half (1.5×) time rate.

Appointing authorities are prohibited from changing employee work schedules to avoid the payment of overtime.

For purposes of determining overtime pay rates for non-exempt employees, the regular hourly rate of pay shall be used.

Any employee in a class which has been allocated to Overtime Code 4 (non-exempt) in Section 4.10.010(a) of this chapter shall be compensated for overtime by granting the employee pay or compensatory time off at the one and one-half (1.5×) time rate. Each appointing authority shall designate and submit to the Director of Personnel the official work week or work cycle for all non-exempt (Code 4) positions in the work unit. Whenever a non-exempt (Code 4) employee works in excess of forty (40) hours in a work week, the employee will be paid at the one and one-half time (1.5×) rate. The average number of scheduled hours in a bi-weekly pay period shall not be less than eighty-four (84) for full-time employment. The regular hourly rate of pay for a non-exempt (Code 4) bi-weekly paid employee shall be determined by dividing the employee's regular bi-weekly rate of pay by the average number of regularly scheduled hours of work in a bi-weekly pay period. In addition to the actual hours worked, only paid vacation, compensatory time, jury leave, and holidays shall count as hours worked for the purpose of determining eligibility for overtime compensation.

Any employee in a class which has been allocated to Overtime Code 3 (non-exempt) in this chapter shall be compensated for overtime work in accordance with the provisions of this section. Each appointing authority shall designate and submit to the Director of Personnel the official work week and schedule or work cycle for all non-exempt positions in the work unit. The average number of scheduled hours in a bi-weekly pay period shall not be less than eighty (80) for full-time employment.

Whenever an Overtime Code 3 employee whose pay matrix is in Section 4.10.020(a) or Section 4.10.020(b), works hours in excess of the maximum established for an official work week or work cycle, usually forty (40) hours in a work week such hours shall be paid at the one and-one-half time (1.5×) rate. In addition to the actual hours worked, only paid vacation, compensatory time, jury leave, and holidays shall count as hours worked for the purpose of determining eligibility for overtime compensation.

Overtime Code 3 employees whose pay matrix is in Section 4.10.020(c) of this chapter who are working a nineteen-day work cycle are eligible to receive overtime after one hundred forty-four (144) hours are worked in a work cycle, except that the Fire Division shall pay overtime for emergency work at the end of a shift or emergency work required on a separate, non-scheduled day, even if the total number of hours worked in the work cycle is not in excess of one hundred forty-four (144) hours. These employees shall not receive additional compensation for regularly scheduled hours in excess of one hundred forty-four (144) hours if they do not actually work more than one hundred forty-four (144) hours in the work cycle; provided however, that in addition to the actual hours worked, jury leave, vacation leave, compensatory time and "O" days shall count as hours worked for the purpose of determining eligibility for overtime compensation. Days scheduled off to reduce average work week to fifty-two (52) hours, compensatory time, vacation, "O" days, and holiday time shall be scheduled consistent with a reasonable vacation and holiday leave policy to avoid the necessity of actually working more than one hundred forty-four (144) hours during any work cycle.

Police officer trainees, police probationary officers and police officers shall be paid overtime, defined as one and one-half time (1.5×) the employee's regular standard rate of pay, for all hours worked in excess of their eight-hour work day or any hours worked on a scheduled day off. Only hours actually worked shall count toward overtime pay.

Police Sergeants, whose salary is established in Section 4.10.020(d) of this chapter, shall be paid overtime, as defined as one and one-half time (1.5×) the employee's regular standard rate of pay, for all hours actually worked in excess of one hundred sixty (160) hours in a twenty-eight-day work period. In addition to hours physically worked, paid vacation, compensatory time, holidays, discretionary holidays, and sick-injured time

shall count toward the one hundred sixty-hour threshold during the twenty-eight-day period that must be met to earn overtime. These employees shall receive additional compensation for authorized overtime, court time, and court standby time whenever the total accumulated time exceeds forty (40) hours.

(b) Any employee in a class which has been allocated to Overtime Code 2 in Section 4.10.010(a) of this chapter shall be compensated for overtime by granting the employee pay or compensatory time off at the straight (1.0×) time rate. Each appointing authority shall designate and submit to the Director of Personnel the official work week or work cycle, which is usually forty (40) hours, for all exempt (Code 2) positions in the work unit. Whenever a full-time employee in an exempt (Code 2) position is directed by management, with the approval of the appointing authority, to work hours in excess of the maximum established for an official work week or work cycle it shall be considered overtime. In addition to the actual hours worked, only paid vacation time, compensatory time, jury leave, and holidays shall count as hours worked for the purpose of determining eligibility for overtime compensation.

Straight time (1.0×) overtime shall be compensated at the employee's regular hourly rate of pay, or by granting the eligible employee compensatory time off at the rate of one (1) hour for each hour of overtime worked. The average number of scheduled hours in a bi-weekly pay period shall not be less than eighty (80) for full-time employment. The regular hourly rate of pay for an exempt (Code 2) bi-weekly paid employee shall be determined by dividing the employee's regular bi-weekly rate of pay by the average number of regularly scheduled hours of work in a bi-weekly pay period.

(c) Part-time bi-weekly paid employees and employees paid on an hourly or per performance basis shall be compensated for overtime work in accordance with the overtime provisions of this section and with consideration for community practices in compensating similar employment.

(d) An appointing authority may compensate Overtime Code 1 employees at the straight-time (1.0×) rate, when both of the following conditions exist: 1) the Mayor of the City of St. Louis declares an emergency due to serious and protracted conditions which threaten continuous City Service, preservation of public peace, health, or safety, and 2) the appointing authority directs an employee or group of employees to work in excess of forty (40) hours per week. The appointing authority shall maintain attendance records of the assignment(s) and submit such records at the request of the Director of Personnel.

(e) Employees who wish to use compensatory time earned in lieu of pay must make their request in writing at least twenty-four (24) hours in advance of the day or days requested. The appointing authority shall keep in mind the staffing needs of the department when granting time off, but in any case time off will not be unreasonably denied.

Pay shall be the regular method of compensation for recorded overtime hours of work for employees in classes with Overtime Code 3 and Overtime Code 4. However, an appointing authority shall compensate a non-exempt bi-weekly paid employee for overtime work by granting the employee compensatory time off in lieu of pay only if the employee requests compensatory time, in writing.

Employees engaged in public safety, emergency response or seasonal activity as defined by the Director of Personnel may have a maximum balance of two hundred forty (240) hours of compensatory time; except that Police Officer Trainees, Police Probationary Officers, Police Officers, and Police Sergeants shall only be allowed to accumulate up to forty (40) hours of compensatory time. All other employees are allowed a maximum balance of one hundred twenty (120) hours of compensatory time excluding compensatory time earned for working on a holiday. These maximum balances of compensatory time shall apply to employees working an average work week of forty (40) hours; the maximum balance of compensatory time for employees whose average work week is more or less than forty (40) hours shall be proportionate. No provision of this section establishing a maximum balance of compensatory time shall serve to cancel any compensatory time due to an employee or to deny an employee payment for recorded compensatory time earned in accordance with the provisions of the compensation ordinance in effect at the time the compensatory time was earned.

Each appointing authority shall establish procedures to assure that non-exempt employees are promptly granted time off when such employees request to use their earned compensatory time. Appointing authorities may not deny non-exempt employees' requests for earned compensatory time off except when such approval would create an extreme business hardship. For employees occupying the position of police officer trainee, police probationary officer, and police officer compensatory

time may be used at such times and in such blocks as are mutually agreed upon between the supervisor and the employee and it shall not be unreasonably denied by the supervisor if operating requirements will not be adversely affected. When an appointing authority determines that the work schedule of the organization will not permit the granting of such time off, the appointing authority shall pay the employee in that same pay period for all or a portion equivalent to the time requested of the employee's accrued compensatory time. This provision requiring the prompt granting of requested time off applies only to compensatory time that is earned as a result of the employee working overtime; it does not apply to compensatory time earned as a result of an incentive program or award program. Compensatory time earned by exempt employees shall be granted at the discretion of the appointing authority and upon request of the employee.

(f) Before an employee is transferred, promoted or demoted from a position under one appointing authority to a position under another appointing authority or to another unit with a different appropriation, all compensatory time shall be granted or paid. Upon termination all compensatory time shall be paid. Upon the death of an employee, the person or persons entitled by law to receive any compensation due to the employee shall be paid any amount due to the employee on the date of death.

(g) All departments shall keep daily attendance records of classified employees and shall submit periodic reports of: 1) unexcused absences and leaves; 2) overtime earned, granted, and paid; or 3) the nonoccurrence of same to the Director of Personnel in the form and on the dates specified.

(Ord. No. 71963, § 15, 2-11-2025; Ord. No. 71686, § 15, 6-28-2023; Ord. No. 71512, § 15, 6-16-2022; Ord. No. 71099, § 15, 2-27-2020.)

When full-time employees, whose pay is established in Section 4.10.020(a) or Section 4.10.020(b) of this chapter, excluding employees of the Police Division, are required to work on a holiday they shall be entitled to compensation for the holiday and the hours actually worked.

Compensation for the holiday shall be in an amount proportionate to the number of hours an employee is regularly scheduled to work in a day or shift. When full-time bi-weekly rate employees of the Police Division whose pay is established in Section 4.10.020(a), 4.10.020(b) or Section 4.10.020(d) are required to work on a holiday, they shall be entitled to leave with pay on another date designated by the appointing authority in an amount proportionate to the number of hours an employee is regularly scheduled to work in a day or shift.

For those employees hired on or after the effective date of this chapter whose pay is established in Section 4.10.020(d) and who work an average work week of forty (40) hours, the maximum vacation balance shall be two hundred and forty (240) hours. Vacation accrual maximums for those working more or less than forty (40) hours per week, but at least fifty (50) percent time shall be proportionate to the number of hours worked in a bi-weekly pay period.

(2) When an employee's full-time average work week is changed, the maximum vacation balance shall be changed proportionately. In addition, the employee shall have his/her current vacation balance adjusted so that the vacation shall maintain the same position relative to the new maximum balance as existed with the employee's previous maximum balance.

(3) Accrual of vacation shall cease when an employee accumulates the maximum vacation balance established for the assigned work schedule and shall not resume until the vacation balance is less than the maximum amount.

(i) Accrual of vacation shall begin and be credited upon the first bi-weekly pay period and each pay period thereafter, but employees must complete the entire pay period to accrue the vacation leave at the end of said pay period:

(1) Of appointment;

(2) Of return to duty from leave of absence;

Such notice shall be at least seven (7) days prior to the first work day the employee intends to take off. If the appointing authority fails to establish a different vacation schedule, the employee may take the paid leave, which was proposed in writing.

(5) With the approval of the appointing authority, an employee may request and receive payment from the appointing authority for forty (40) hours of vacation accrual in lieu of scheduling paid leave provided that the full vacation allowance for that year is not exceeded. This may be done a maximum of once in each calendar year. Management employees may request payment from the appointing authority for up to an additional forty (40) hours of their vacation accrual balances in lieu of scheduling paid leave if their schedules do not permit them to be absent from work. Employees whose pay is established in Section 4.10.020(c) of this chapter may request payment for up to ninety-six (96) hours of vacation. These requests are subject to the prior approval of the Director of Personnel.

(k) During the first twelve (12) months of employment, unless stated otherwise in this chapter, accrued vacation may be granted to an employee provided that the employee has completed ninety (90) days of continuous service. (m) Employees who move to the Classified Service from the Unclassified Service shall be given credit for the years of service in the Unclassified Service in

determining the vacation accrual rate in accordance with Section 17(a) or 17(b) of this chapter and based on the date of the employee's original appointment.

(n) Employees who return to work from a "reemployment from layoff" eligible list shall be eligible to use vacation as soon as it is accrued, unless stated otherwise in this chapter, provided the employee has completed six (6) months of continuous service prior to the layoff and with approval of the appointing authority. An employee who has completed less than six (6) months of continuous service will be required to complete the remaining portion of the six (6) months period before being eligible to use vacation.

Any such reemployed worker shall be given credit for prior continuous service in determining the employee's vacation accrual rate in accordance with the schedule established in Section 4.10.170(a), 4.10.170(b), 4.10.170(d), 4.10.170(e) or 4.10.170(f) of this chapter and based on the employee's original appointment. A commissioned officer who retires and is rehired as a civilian employee will be considered a new employee for vacation purposes.

(o) Appointing authorities shall be responsible for the management of their vacation schedules so as to most effectively administer their organizations and fulfill the desire of employees in the establishment of leave schedules.

(p) Accrued vacation shall be carried with an employee when transferred, promoted, or demoted from a position under one appointing authority to a position under another appointing authority without a break in service or change in method of pay. (q) With the approval of the appointing authority, a retiring employee may be paid on the payroll for accrued vacation in the month prior to retirement without inclusion in the employee's final average compensation. An appointing authority may pay previously accrued vacation off in a lump sum to an employee whose service with the City has terminated. Such payment shall be made on the employee's last regular paycheck.

(r) Employees occupying excepted positions in the Classified Service shall be granted vacation at the discretion of their appointing authority. An employee whose term in an excepted position ends and who is then appointed to a permanent competitive position working fifty (50) percent time or more shall become eligible to accrue vacation leave with pay upon appointment to the competitive position. Length of cumulative service for the purpose of determining rate of vacation leave accrual shall be based on the employee's original date of appointment to the excepted position, providing there was no break in service between expiration of the excepted position and appointment to the permanent competitive position. The date of appointment to the permanent competitive position shall be used to determine the appropriate rate of vacation accrual for the corresponding length of cumulative service in accordance with the schedule established in Section 4.10.170(b).

(s) Appointing authorities shall report leave with pay for vacation and such other authorized absences as the Director of Personnel shall designate to the Department of Personnel in such form and at such time as the Director of Personnel may require.

If necessary to the efficient conduct of the business of the City, an employee on leave other than military leave or qualifying family/medical leave may be notified by the appointing authority, with the approval of the Director of Personnel, to return prior to the expiration of such leave. Failure of the employee to return within ten (10) calendar days after receipt of such notice shall terminate his/her leave of absence and be just cause for dismissal, subject to any applicable federal, state or local regulations.

In the event that the Mayor requires that the leave of absence be without pay, an employee with vacation or accrued compensatory time may elect to take the accrued time off with pay in lieu of all or a part of such

non-paid leave of absence. Such non-paid leave of absence shall not interrupt continuity of service for vacation accrual. An emergency leave of absence declared by the Mayor shall not exceed ninety (90) days.

(e) Employees who are granted general leaves of absence and other non-paid leaves of absence, except military leave, must take all accrued vacation at the start of the leave of absence except as otherwise provided in this chapter. Employees who are granted or placed on a non-paid leave of absence will not accrue vacation, sick leave, and medical leave during the period of non-paid leave. Upon the expiration of such leaves of absence, the employee shall follow the procedures as established in this Section 4.10.210 and any other applicable regulations and procedures as established by the Director of Personnel.

Such benefit must be distributed (in accordance with federal regulations) over the life of the surviving spouse with the distribution beginning on the date the member would have attained his or her early service retirement date.

C. *Pre-retirement Death Benefit Coverage for Spouse and Beneficiary of Terminating Member.* Within six (6) months of termination of employment, a terminated member, who has completed at least five (5) years of creditable service, may elect a joint and survivor annuity death benefit for his or her surviving spouse or ten (10) year certain and life annuity death coverage as described in Subsection D of this section. Such election shall remain in full force and effect until the date of the terminated member's death, reemployment by an employer, or revocation of such election. The retirement and survivor benefits of a terminated member who elects survivor coverage under this subsection shall be reduced by a survivor reduction percentage per year or portion thereof in which the surviving spouse or ten (10) year certain beneficiary death benefit coverage was in effect prior to the terminated member's date of death. If a terminated member fails to elect survivor coverage pursuant to this subsection, no survivor benefits shall be paid. For purposes of this subsection, "surviving spouse" shall be the spouse who was legally married to the terminated member on such terminated member's date of death and who survived such terminated member's death. Survivor benefits under this subsection shall be paid as follows:

Such benefit will begin (in accordance with federal regulations) by December 31 of the calendar year following the calendar year of the member's death.

2. If the death of a terminated member occurs prior to his or her early service retirement date, but the terminated member has a current election for survivor coverage under this subsection designating his or her surviving spouse, the surviving spouse shall receive a pension commencing (in accordance with federal regulations) on the date the deceased member would have reached his or her early service retirement date. Such pension shall be determined as if the member had reached his or her early service retirement date and elected benefits under the option in Subsection D of this section, subject to the survivor reduction provided in this subsection.

3. If the death of a terminated member occurs prior to his or her early service retirement date, but the terminated member has a current election for survivor coverage under this subsection designating a ten (10) year certain beneficiary other than his or her surviving spouse, his or her designated beneficiary shall receive a reduced pension commencing (in accordance with federal regulations) no later than December 31 of the calendar year following the calendar year of the member's death. Such pension shall be determined as if the member had reached his or her early service retirement date and elected benefits under the option in Subsection D of this section, subject to the survivor reduction provided in this subsection. Such pension shall be subject to additional reductions necessary for actuarial equivalency, determined using an interest rate of seven and seventy-five hundredths percent (7.75%).

D. *Post Retirement Death Benefit.* Upon application for service or disability retirement, a member or former member may elect, prior to his or her service retirement date or disability retirement date, to receive a reduced pension payable in one of the benefit payment forms as specified herein. 1. "Joint and survivor annuity" shall mean an actuarially reduced pension payable for the life of the

member and continuing on and after the member's death to his or her spouse, for such spouse's life. The amount of the monthly pension payable to the surviving spouse shall be an amount equal to one hundred percent (100%) of the monthly pension payable to the member; or

2. "Ten (10) year certain and life annuity" shall mean a monthly pension for the life of the member, but in no case less than one hundred and twenty (120) monthly payments. If the member dies before one hundred and twenty (120) monthly payments have been paid to him or her, payment of such monthly payments will continue to be paid to the member's ten (10) year certain beneficiary until a total of one hundred and twenty (120) payments have been made to the member and his or her ten (10) year certain beneficiary.

If a member elects one of the above optional benefit payment forms (in accordance with federal regulations), the amount of the retirement pension under such other form shall be the actuarial equivalent determined on the date such pension is to commence. If the member fails to make an election, no optional form of benefits will be paid. If a member dies after the required distribution of benefits has begun, the remaining portion of the member's interest must be distributed at least as rapidly as under the method of distribution before the member's death. (1994 C., § 4.16.050; Ord. No. 67963, § 6, 2008; Ord. No. 66511, § 8, 2004.)

2. For purposes of this section the following terms mean:

a. Eligible Rollover Distribution. An "eligible rollover distribution" is any distribution of all or any portion of the balance to the credit of the "distributee" (as defined below), except that an eligible rollover distribution does not include: any distribution that is one of a series of substantially equal periodic payments (not less frequently than annually) made for the life (or the life expectancy) of the distributee or the joint lives (or joint life expectancies) of the distributee and the distributee's designated beneficiary, or for a specified period of ten (10) years or more; any distribution to the extent such distribution is required under IRC Section 401(a)(9); the portion of any distribution that is not includible in gross income; and any other distribution that is reasonably expected to total less than $200.00 during the year. Effective January 1, 2002, a portion of a distribution will not fail to be an eligible rollover distribution merely because the portion consists of after-tax employee contributions that are not includible in gross income. However, such portion may be transferred only to an individual retirement account or annuity described in IRC Section 408(a) or (b) or to a qualified defined contribution plan described in IRC Section 401(a), or to a qualified plan described in IRC Section 401(a) or to a qualified plan described in IRC Section 403(a), or on or after January 1, 2007, to a qualified defined benefit plan described in IRC Section 401(a) or to an annuity contract described in IRC Section 403(b), that agrees to separately account for amounts so transferred (and earnings thereon), including separately accounting for the portion of the distribution that is includible in gross income and the portion of the distribution that is not so includible.

b. Eligible Retirement Plan. An "eligible retirement plan" is:

i. Effective January 1, 2002, a plan eligible under IRC Section 457(b) that is maintained by a state, political subdivision of a state, or any agency or instrumentality of a state or political subdivision of a state that agrees to separately account for amounts transferred into the plan from the retirement system;

ii. An individual retirement account described in IRC Section 408(a);

iii. An individual retirement annuity described in IRC Section 408(b);

iv. An annuity plan described in IRC Section 403(a);

v. Effective January 1, 2002, an annuity contract described in IRC Section 403(b);

vi. A qualified trust described in IRC Section 401(a), that accepts the distributee's eligible rollover distribution; or

vii. Effective January 1, 2008, a Roth IRA described in IRC Section 408A.

c. Effective January 1, 2002, the definition of eligible rollover distribution also includes a distribution to a surviving spouse.

d. Distributee. A "distributee" includes an employee or former employee. It also includes the employee's or former employee's surviving spouse. Effective January 1, 2007, it further includes a nonspouse beneficiary who is a designated beneficiary as defined by IRC Section 401(a)(9)(E). However, a nonspouse beneficiary may rollover the distribution only to an individual retirement account or individual retirement annuity established for the purpose of receiving the distribution and the account or annuity will be treated as an "inherited" individual retirement account or annuity.

e. Direct Rollover. A "direct rollover" is a payment by the retirement system to the eligible retirement plan specified by the distributees.

3. The Board of Trustees shall, at least thirty (30) days, but not more than ninety (90) days, before making an eligible rollover distribution, provide a written explanation to the distributee in accordance with the requirements of IRC Section 402(f).

4. Such eligible rollover distribution may be made less than thirty (30) days after distributee has received the notice described in Subsection A.3 of this section, provided that:

a. The Board of Trustees clearly informs the distributee of the distributee's right to consider whether to elect a direct rollover, and if applicable, a particular distribution option, for at least thirty days after the distributee receives the notice; and

b. The distributee, after receiving the notice, affirmatively elects a distribution.

This subsection is applicable to eligible rollover distributions occurring after December 31, 1992.

B. *Cost of Living Factor.* The pension of a retiree or of his or her beneficiary, if any, including benefits payable to a member's spouse pursuant to this chapter, will be adjusted as of January 1 of each year beginning with the second January 1 following the date benefits were first payable, using the cost of living factor adopted by the Board of Trustees. The Consumers Price Index (U.S. city average index) as compiled by the U.S. Department of Labor for the twelve-month period ending September 30 of each year shall be used. The cost of living factor shall be the change in the specified Consumers Price Index since the previous adjustment in benefits, to the nearest one-tenth of one percent; provided, that if the change is an increase less than one percent the factor shall be zero, and if the change is an increase greater than five percent the factor shall be five percent. If the change is a decrease, the factor shall be zero unless the change is five percent or more. The cumulative cost of living percentage increases applied to the benefit earned by a member cannot exceed twenty-five percent. The cost of living factor may not be used if it would result in a benefit lower than the initial benefit payable to a retiree or beneficiary. The cost of living factor as of September 30 of each year shall be applied to the monthly benefit for December of such year to obtain the monthly benefit payable in the following year to Retirees and Beneficiaries who are eligible.

C. *Laws Governing Benefits.* The law as in effect the date a member ceased to be an employee shall govern as to any benefits paid thereafter to him or her or to his or her beneficiaries.

D. *Suspension of Pension.* A member who has retired under the early or normal service retirement provisions or the rule of eighty-five or under the retirement windows as provided for in Ordinance No. 60877 or Ordinance No. 61976 and again becomes an employee of an employer shall have his or her pension suspended until his or her termination of employment, except as provided in Section 4.16.130.D.

E. *Rule of 80 Retirement Window.*

1. Persons who elected to retire under the retirement window as provided for in Ordinance No. 60877 and who later return to work for an employer under said system as an employee-regular, temporary, per performance, for limited term or under contract with the employer whether designated as a consultant or otherwise, shall have their subsequent retirement benefits under this chapter reduced by the actuarial value of the lump sum payment provided for in Ordinance No. 60877. In such event subsequent retirement benefits of such person will also be reduced in accordance with Section 4.16.040.C, if applicable.

2. Persons who elected to retire under the retirement window as provided for in Ordinance No. 61976 and who later return to work for an employer under said system as an employee in a permanent position working thirty or more hours per week on a regular basis shall have their subsequent retirement benefits under the retirement system reduced by the actuarial value of the cash supplement provided for in Ordinance No. 61976. In such event, subsequent retirement benefits of any such person will also be reduced in accordance with Section 4.16.040.C, if applicable.

3. The Board of Trustees of the retirement system is hereby vested with authority to adopt such rules and procedures for the administration of the provisions of this subsection.

F. *Commencement of Benefits and Minimum Required Distributions.* Effective on and after January 1, 2003, the employees retirement system of the City of St. Louis (the "retirement system") will pay all benefits in accordance with the requirement of the Internal Revenue Code of 1986, as amended (the "IRC") Section 401(a)(9), including the incidental death benefit requirement in IRC Section 401(a)(9)(G), the regulations under that section, and the good faith compliance standard for governmental plans under the Pension Protection Act of 2006 with regard to IRC Section 401(a)(9). For this purpose, and notwithstanding any other provisions of Ordinance Number 66511, or Ordinance Number 67963, or Ordinance Number 70154, as the same may have been amended, the member's "required beginning date" is the later of (i) April 1 of the calendar year following the calendar year in which the member reaches seventy and one-half (70½) years of age, provided the member was born before July 1, 1949, or (ii) April 1 of the calendar year following the calendar year in which the member terminates employment. Notwithstanding the foregoing sentence, for those members who attain age seventy-two (72) before January 1, 2023 the member's "required beginning date" is the later of (i) April 1 of the calendar year following the calendar year in which the member reaches seventy-two (72) years of age, or (ii) April 1 of the calendar year following the calendar year in which the member terminates employment. For those members who attain age seventy-two (72) after December 31, 2022, the member's "required beginning date" is the later of (i) April 1 of the calendar year following the calendar year in which the member attains the applicable age under IRC Section 401(a)(9)(C)(v), or (ii) April 1 of the calendar year following the calendar year in which the member terminates employment. In the event a member fails to apply for retirement benefits by the applicable "required beginning date," the retirement system will use reasonable efforts to notify the member of the required minimum distribution.

G. *Annual Benefit not to Exceed Certain Amount.*

1. In no event shall a member's annual benefit paid under the retirement system exceed the amount specified in IRC Section 415(b) as adjusted for any applicable increases in the cost-of-living, as in effect on the last day of the plan year, and prior to January 1, 2003, including any increases after the member's termination of employment.

2. In no event shall the annual additions to the retirement system on behalf of the member, including the member's own contributions, exceed the lesser of:

a. One hundred percent of the member's compensation, as defined for purposes of IRC Section 415(c); or

b. Forty thousand dollars, as adjusted for increases in the cost of living.

3. For purposes of this section, IRC Section 415 is incorporated in this chapter by reference, and this subsection is effective January 1, 1984.

4. Effective on and after January 1, 2003, for purposes of applying the limits under IRC Section 415(b) (the "limit"), the following will apply:

a. A member's applicable limit will be applied to the member's annual benefit in the member's first limitation year without regard to any automatic cost of living adjustments under Subsection B of this section.

b. Thereafter, in any subsequent limitation year, a member's annual benefit, including any automatic cost of living increases under Subsection B of this section, shall be tested under the then applicable benefit limit including any adjustment to the IRC Section 415(b)(1)(A) dollar limit under IRC Section 415(d), and the regulations thereunder; but

c. In no event shall a member's benefit payable under the retirement system in any limitation year be greater than the limit applicable at the annuity starting date, as increased in subsequent years pursuant to IRC Section 415(d) and the regulations thereunder. If the form of benefit without regard to the automatic benefit increase feature is not a straight life annuity, then the preceding provisions are applied by reducing the IRC Section 415(b) limit applicable at the annuity starting date to an actuarially equivalent amount [determined using the assumptions specified in Treasury Regulation Section 1.415(b)-1(c)(2)(ii)] that takes into account the additional benefits under the form of benefit.

H. *Automatic Rollovers.* If on or after March 28, 2005, the retirement system provides for mandatory distribution of Eligible Rollover Distributions, as defined in Subsection A.2.a of this section, with a present value greater than $1,000.00, and if a member does not elect to have such distribution paid directly to an eligible retirement plan specified by member in a direct rollover or to receive the distribution directly, then the

retirement system will pay the distribution in a direct rollover to an individual retirement plan designated by the Board of Trustees of the Retirement System (the "Board of Trustees") in accordance with IRC Section 401(a)(31)(B) and IRS Notice 2005-5. (1994 C., § 4.16.060; Ord. No. 71714, § 1, 7-31-2023; Ord. No. 71161, § 1, 6-5-2020; Ord. No. 70154, § 2, 11-25-2015; Ord. No. 67963, §§ 3, 4, 8—10, 2008; Ord. No. 66511, § 9, 2004.)

4.16.070 Member contributions.

A. *Member Contribution Rates.* Each employer shall cause to be deducted from the compensation of each employee who is currently making contributions a contribution equal to three percent (3%) multiplied by the compensation received by each member on each

payroll period until the total compensation received while an employee during the calendar year equals the maximum annual taxable earnings under the federal Social Security Act as in effect on January 1 of the calendar year. Thereafter, such member shall contribute six percent (6%) multiplied by the compensation received by him or her during the remainder of the calendar year. A member may continue contribution at the rates set forth in this section in order to increase his or her pension as provided in Subsection F of this section. Members not making continuous contributions from January 15, 1978 will not be allowed to make contributions.

B. *Deductions.* The deductions provided for in this section shall be made notwithstanding that the minimum compensation provided by law for any member shall be reduced thereby. Every member shall be deemed to consent to the deduction made and provided for herein. Each employer shall certify to the Board of Trustees on each and every payroll or in such other manner that the Board of Trustees shall prescribe, the total amount deducted and such amount shall be paid into the fund and shall be credited to the member from whose salary or wages such deduction was made.

C. *Interest Credited to Accumulated Contributions.* The Board of Trustees shall annually determine the rate of interest and shall credit each member's accumulated contributions based on the largest balance on deposit for the entire calendar year.

D. *Payment to Former Members.* Should the membership of an employee be terminated by reason other than his or her death or retirement, he or she shall be paid the amount of his or her accumulated contributions upon application therefor. In the event of the death of a former member entitled to payment of his or her accumulated contributions, and prior to receiving his or her accumulated contributions, his or her accumulated contributions shall be paid to his or her designated beneficiary, or if no such beneficiary is living or designated, to the estate of the former member. No credit for interest will be allowed after the date of termination of membership.

E. *Refund of Accumulated Contributions on Retirement—Before Retirement.*

1. When an employee retires, or when a member, who hereafter elects a deferred annuity retires, the Board of Trustees shall refund to him or her, if any, his or her regular accumulated contributions and interest credited to the day of his or her retirement. This amount is in addition to any retirement benefits to which he or she is entitled.

2. An employee may elect prior to retirement to have his or her regular accumulated contributions refunded by filing a written application with the Board of Trustees. Such refund to any member shall be paid to such member in a lump sum.

3. Should the membership of an employee be terminated by reason of death, his or her accumulated contributions shall be paid to his or her designated beneficiary, or if no beneficiary is living or designated, to the estate of the deceased employee.

F. *Purchase of Additional Pension Income in Lieu of Benefits.* A member or surviving spouse having regular accumulated contributions and interest thereon due at time of retirement may elect to use this sum to purchase additional pension income based on the interest rate, mortality, and other actuarial tables adopted by the Board of Trustees, which are considered to be a part of the retirement system plan document. The life expectancy of a member or the member's spouse (as defined in Section 4.16.010 of this chapter) or beneficiary will not be recalculated after the benefits commence for purposes of determining benefits.

G. *Payment of Accumulated Contributions After Death.* If there are no further benefits otherwise payable under this chapter and the total amount of benefits received by a member, retiree or beneficiary up to the date of the death of the last survivor is less than an amount equal to the member's accumulated contributions at his or her death or at his or her actual retirement date, whichever occurs first, the difference shall be paid to the beneficiary named to receive such amount, or if no such beneficiary is living, to the estate of the person last receiving benefits, or, if no benefits have been received, to the estate of the member. (1994 C., § 4.16.070; Ord. No. 67963, § 7, 2008, Ord. No. 66511, § 10, 2004.)

4.16.080 Employer contributions.

A. *Established.* Each employer shall, on account of its employees who are members of the retirement system, pay annually into the fund an amount equal to a certain percentage of the compensation of the employees to be known as the "normal contribution" for the employer and an additional amount equal to a

percentage of the compensation of the employees to be known as the "unfunded accrued liability contribution."

B. *Normal Contribution Rate.* The Normal Contribution rate percentage shall be determined annually by the actuary from the liabilities of the Retirement System (as defined in Section 4.16.010) as shown by actuarial valuations which are based on the interest rate and such mortality and other tables as shall be adopted by the Board of Trustees (as defined in Section 4.16.010). Effective October 1, 2015 and thereafter, the normal cost percentage shall equal the normal cost amount determined under the entry age normal actuarial cost method divided by the Compensation (as defined in Section 4.16.010) of Employees (as defined in Section 4.16.010) who are Members (as defined in Subsection 16 of Section Four of Ordinance 66511), plus a percentage of Compensation to cover the administrative expenses of the Retirement System.

C. *Unfunded Accrued Liability Contributions—Determination.* The unfunded accrued liability represents the liability for normal and Member contributions not paid in the year prior to the effective date, for the increased contributions not paid in the years prior to a benefit increase and for accumulated increases/decreases in liabilities/assets caused by variation of actual plan experience from assumptions underlying past contributions. The Unfunded Accrued Liability Contribution shall be determined by the actuary annually, as a part of the actuarial valuation. Said annual Unfunded Accrued Liability Contribution shall represent the amount, expressed as a level percentage of compensation which should be contributed, by amortizing the initial unfunded accrued liability as of October 1, 2015 over twenty (20) years, with each future change in unfunded accrued liability due to actuarial gains and losses and changes in actuarial assumptions being amortized over separate twenty (20) year periods.

D. *Unfunded Accrued Liability Contribution—Percentage Rate.* The unfunded accrued liability contribution rate percentage at the discretion of the Board of Trustees may be calculated separately for each employer, and the Board of Trustees may require different contributions based on such calculations. (1994 C., § 4.16.080; Ord. No. 70154, § 1, 11-25-2015; Ord. No. 66511, § 11, 2004.)

4.16.090 Deferred retirement option program.

A. *Eligibility.* A member who is eligible for the rule of eighty-five, early or normal service retirement may elect to participate in the deferred retirement option program ("DROP") beginning on the first day of any month upon his or her application to the Board of Trustees not less than thirty (30) days nor more than ninety (90) days prior to such date.

B. *Period of Participation.* The maximum period of participation in the DROP is five (5) years.

C. *Election to Terminate Participation.* No member may elect to participate in the DROP more than once. A member who has elected to participate in the DROP may terminate such participation by giving written notice to the Board of Trustees at least thirty (30) days in advance of such termination.

D. *Creditable Service.* A member shall not earn creditable service for periods he or she participates in the DROP. Service rendered to the employer before and after such participation shall be creditable service.

E. *Continuation of Employment.* A member electing to participate in the DROP shall continue in active employment of an employer and shall not directly be paid his or her pension during such period. Notwithstanding the foregoing, a member participating in DROP shall be eligible to receive a benefit during participation in DROP, provided said member is otherwise eligible to receive a benefit as the result of the member being the surviving spouse or designated beneficiary of another member.

F. *DROP Account.* During the member's participation in the DROP, the amount of the pension which he or she would have received had he or she retired upon commencing participation in the DROP, determined in accordance with Section 4.16.040, shall be credited to the member's DROP account, which shall be established by the Board of Trustees in the member's name. A member's DROP account shall not be adjusted for any cost of living increases during the member's participation in the DROP. For a member who entered DROP prior to February 1, 2003, such member's DROP account shall be credited with interest at the actuarial valuation rate of return as determined by the Board of Trustees. For a member who entered DROP on or after February 1, 2003, interest, at the rate of return equal to the yield on the ten-year treasury bond as of the most recent plan year end, shall be credited to the member's DROP account. The interest shall be credited annually to the member's account beginning with the start of the second plan year following participation based on the account balance at the beginning of the previous plan year. If a total withdrawal occurs during a plan year,

interest will be determined pro rata for the final partial plan year of the DROP account's existence based on the beginning balance for the plan year.

G. *Termination of DROP Participation.* When a member terminates participation in the DROP:

1. The amount of the monthly pension stops being credited to the DROP account; and

2. The member resumes earning creditable service.

H. *Payment of DROP Account on Retirement.* Upon retirement, the member shall receive, in addition to his or her pension, the amount credited to his or her DROP account which shall be paid to the member in accordance with Subsection J of this section.

I. *Payment of DROP Account on Death.* If a member dies prior to termination of employment with the employer or prior to receiving payment of all amounts in the DROP account, the balance of the funds in the DROP account shall be paid in a single lump sum to the member's beneficiary or, if the beneficiary predeceases the member or there is no beneficiary, to the member's estate.

J. *Form of Payment of DROP Account.* Payment, at the election of the member, shall be made in one of the following forms:

1. A lump sum distribution of the balance of the DROP account; or

2. Substantially equal monthly installments for ten (10) years. Interest, at the rate prescribed in Subsection F of this section, shall continue to be credited to the DROP account during the installment distribution period.

In the event the balance of a member's DROP account is less than $5,000.00 at the time it is first payable or in the event a member fails to make a distribution election under this subsection, the DROP account shall be paid in a single lump sum.

K. *Status of DROP Payments.* Payment of a member's DROP account shall be in addition to payment of the member's other benefits under this chapter.

L. *Administration of DROP.* The Board of Trustees may establish rules and regulations for the administration and operation of the DROP. (1994 C., § 4.16.090; Ord. No. 66511, § 12, 2004.)

4.16.100 Fund.

A. *Established.* For the purpose of funding the benefits provided for herein, the retirement system has established the employees retirement system of the City of St. Louis savings fund (hereinafter "fund"). All employer contributions and member accumulated contributions, if applicable, shall be credited to this fund. There shall be no diversion of any portion of the assets of the fund other than for the exclusive benefit of members and their beneficiaries for the satisfaction of all liabilities with respect to members and their beneficiaries under the retirement system. The total amount payable in each year by each employer to the fund shall not be less than the normal contribution plus the unfunded accrued liability contribution. If any employer shall fail to make the required contributions when due, the Board of Trustees may reduce the benefits payable to employees and former employees of such employer until all required contributions are paid. All money provided to pay the administration expenses of the retirement system shall be credited to the fund and all necessary expenses in connection with the administration and operation of the retirement system shall be paid from the fund.

All investment income shall be put in this fund.

B. *Amounts Due and Payable.* On or before the first of April each year, the Board of Trustees shall certify to the employers the amounts which will become due and payable during the year next following to the fund. The amounts so certified shall be included by the employers in their annual budget estimate. Such amount shall be appropriated by the employers and transferred to the retirement system for the ensuing year.

C. *Employer Obligations.* The creation and maintenance of reserves in the fund as provided for, and the payment of all benefits granted under the provisions of this chapter, and expenses in connection with the administration and operation of the retirement system are hereby made obligations of the employer.

D. *Payment Vouchers.* All payments from the fund shall be made only upon vouchers signed by two persons designated by the Board of Trustees. No vouchers shall be drawn unless it shall have previously been allowed by the Board of Trustees.

E. *Investment.* The Board of Trustees of the Retirement System shall be the trustees of the fund and shall have full power to invest and reinvest the funds of the retirement system in property of any kind, real or personal, tangible or intangible, subject to the provisions of RSMo 105.687 through 105.690 (2000), as amended, and as may be amended from time to time. Subject to like terms, conditions, limitations and restrictions, the Board of Trustees shall have full power to

hold, purchase, sell assign, transfer or dispose of any of the securities and investments in the fund that shall have been or be invested, as well as of the proceeds of the investments and any money belonging to the fund. Any securities obtained by the Board of Trustees may be held in the name of a nominee in order to facilitate investments.

F. *Personal Gains by Trustee or Employee.* Except as provided, no trustee and no employee of the retirement system shall have any direct interest in the gains or profits of any investment made by the Board of Trustees, nor as such receive any pay or emolument for his services. No trustee or employee of the retirement system shall directly or indirectly for himself or as an agent in any manner use the assets of the retirement system except to make current and necessary payments as authorized by the Board of Trustees, nor shall any trustee or employee of the retirement system of the City become an endorser or surety or become in any manner an obligor for moneys loaned by or borrowed from the Board of Trustees.

G. *Allocation of Interest.* The interest and other earnings on the moneys and other assets of the retirement system shall belong to and be credited to the fund. (1994 C., § 4.16.100; Ord. No. 68379, § 1, 6-10-2009; Ord. No. 66511, § 13, 2004.)

Subject to the limitations of this chapter, the Board of Trustees shall from time to time establish rules and regulations for the administration of the fund created by this law, for the transaction of its business and for the limitation of the time within which claims may be filed.

G. *Officers—Employees.* The Board of Trustees shall elect a Chairman from its membership by majority vote and the Director of Personnel shall be Secretary of the Board of Trustees, but he may appoint an

employee of the retirement system to perform necessary duties of the position. The Board of Trustees may engage actuarial, investment, administrative and other services as required or deemed advisable to transact the business of the retirement system. The Director of Personnel shall appoint in accordance with Article XVIII of the Charter of the City all employees of the retirement system and direct their work in accordance with the policy and rules established by the Board of Trustees. The compensation of all persons so appointed shall be paid in accordance with the comprehensive compensation plan of the City. All necessary expenses of the board and the staff of the retirement system shall be paid at such rates and in such amounts as the Board of Trustees shall approve.

J. *IRS Filing.* The Board of Trustees is hereby authorized and directed to seek favorable determination letters from the Internal Revenue Service (the "IRS") that the Retirement System continues to be a Qualified Plan, in the time and manner the Board of Trustees deems appropriate based on IRS procedures with respect to such letters. The Board of Trustees is authorized to adopt rules or regulations and to take actions to meet any requirements imposed by the IRS as a part of this process.

K. *Medical Board.* The Board of Trustees shall designate a Medical Board to be composed of three physicians who shall arrange for and pass upon all medical examinations required under the provisions of this chapter, shall investigate all essential statements and certificates made by or on behalf of a member in connection with an application for disability retirement, and shall report in writing to the Board of Trustees its conclusions and recommendations upon all the matters referred to it.

L. *Changes in Benefit Compensation Base Table.* Whenever the maximum annual taxable earnings under the Federal Social Security Act are changed, the Board of Trustees, based upon the advice of the actuary shall change the benefit compensation base table for the purpose of maintaining the combined normal service retirement benefits under the retirement system and Social Security at the same approximate level for equal years of service and equal final average compensation.

M. *Limitations.* Except as provided in this chapter, the Board of Trustees shall have no administrative powers or duties. (1994 C., § 4.16.110; Ord. No. 70154, §§ 3, 4, 11-25-2015; Ord. No. 67963, §§ 11, 12, 2008; Ord. No. 66511, § 14, 2004.)

4.16.120 Actuary.

C. *Valuation of Assets and Liabilities.* On the basis of tables as the Board of Trustees shall adopt, the actuary shall make an annual valuation of the assets and liabilities of the fund of the retirement system.

D. *Employer Contribution Rates.* On the basis of the valuation the Board of Trustees shall certify the rates of contributions payable by the employers. (1994 C., § 4.16.120; Ord. No. 66511, § 15, 2004.)

4.16.130 Miscellaneous.

A. Any member may retire upon the member's written application to the Board of Trustees setting forth at what time, not less than thirty days nor more than ninety days subsequent to the execution and filing therefor, the member desires to be retired, if the member at the time so specified for such member's retirement has twenty-five years or more of service; except that a member who ceases to be a fireman after twenty years or more of service may retire prior to the twenty-five years of service with a retirement allowance based on such member's years of service.

B. Any member in service upon attaining the age of sixty, if qualifying for a service retirement allowance equal to seventy-five percent of the average final compensation, may be retired forthwith; except that with respect to any member, the Board shall not retire such member when the member attains sixty years of age or more merely because the member has attained that age unless the member so requests or the member has completed thirty or more years of service, even if a portion of such service is not creditable service pursuant to participation in the deferred retirement option plan prescribed by Ordinance 62994.

A. Upon retirement for service, a member shall receive a service retirement allowance which shall be equal to fifty percent of the average final compensation, plus an amount equal to five percent of the average final compensation for each additional year of service after twenty-five years, but no service retirement allowance shall exceed an amount equal to seventy-five percent of the average final compensation.

B. In addition to any other annuity or retirement allowance payable under this section and RSMo 87.195 and 87.205, any member upon retirement application approval shall be repaid the total amount of the member's contribution to the retirement system, without interest. Any beneficiary, upon the receipt of evidence and proof of the death of an active member, shall be repaid the total amount of the member's contribution to the Firemen's Retirement System, without interest. The Board shall pay the beneficiary such total amount of the member's contribution to the Retirement System within sixty days after the date of the death of the member.

Any annuity or retirement allowance repaid to a member under Subsection B of this section shall be withdrawn from the member's contribution fund of the Firemen's Retirement System and no moneys shall be withdrawn from the general revenue fund of the City. (1994 C., § 4.18.130; Ord. No. 63591, § 3, 1995; Ord. No. 63286, § 3, 1994; Ord. No. 59018, § 3, 1983; Ord. No. 58651, §§ 1—3, 1982.)

4.18.131 DROP program.

A. The Board may develop and establish a deferred retirement plan program (DROP) which may include a self-directed program, in which members eligible for retirement may participate. The DROP program shall be designed to allow members with at least twenty years of creditable service who have achieved eligibility for retirement and receipt of a service retirement allowance to continue active employment and defer receipt of the retirement allowance for a period not to exceed five years. Any member who has at least twenty years of creditable service may elect in writing before retirement to participate in the DROP program. A member electing to participate in the DROP program shall continue in active employment and shall not receive any direct retirement allowance payments during the time of participation. Upon the start of participation in the DROP program, the member shall make the contributions as provided in RSMo 87.295. No contribution shall be required by the City. During the period of participation in the DROP program, the amount that the member would have received as a service retirement allowance shall be deposited monthly in the member's DROP account which shall be established in his or her name by the board. Service earned during the period of participation in the DROP program shall not be creditable service and shall not be counted in determination of any service retirement allowance.

B. If a member who has elected to participate in the DROP program chooses to stop participation in the DROP program, he or she shall notify the board in writing. Upon receipt of notice of a member's desire to end participation in the DROP program, the board shall return the member to non-DROP participation status and both the member and the City shall make the contributions required by RSMo 87.120 to 87.370. Service rendered after restoration of the member to non-DROP participation status shall be counted as creditable service. No member ending participation in the DROP program and returning to non-DROP participation status shall make any withdrawal from his or her DROP account until after termination of employment. If after return to non-DROP participation status, a member retires, the member's retirement allowance shall be computed on the combination of the member's pre-DROP service retirement allowance plus an additional allowance earned by a member after returning to non-DROP participation status. Post-DROP participation years of service will be the only years used in computing the additional allowance; however, total years of creditable service will be used to determine the appropriate level of additional allowance, two percent or five percent, for each year of post-DROP participation service. Upon retirement the member shall receive additional benefits as provided under the provisions of RSMo 87.120 to 87.371 plus the amount which has accumulated in his or her DROP account. The amount in the member's DROP account shall be payable, at the member's option, either as a lump sum payment or as a periodic payment calculated according to a deferred payment plan established by the board.

C. A member who terminates employment after participation in the DROP program may withdraw any amount in his or her DROP account in a lump sum or according to a deferred payment plan established by the Board at his option. If the member is eligible to receive a service retirement allowance, benefit payment shall begin at the time specified in RSMo 87.120 to 87.370.

D. If a member dies prior to termination of employment while participating in the DROP program, the funds in his or her DROP account shall be payable to the member's designated beneficiary under either of the following options:

1. A lump sum payment equal to the amount in the member's DROP account shall be paid to the beneficiary or the member's estate. The benefits for a beneficiary provided under the provisions of RSMo 87.120 to 87.370 shall be based on the member's compensation and creditable service prior to the member's election to participate in the DROP program; or

2. The beneficiary shall waive any right, claim or interest in the member's DROP account and any benefits payable to the beneficiary under the provisions of RSMo 87.120 to 87.370 shall be calculated as if the member had continued as an employee and had not elected to participate in the DROP program. Any funds in a DROP account which has been waived as provided in this subsection shall become funds of the system.

E. If a member who has elected to participate in the DROP program subsequently applies for and receives benefits for an accidental disability retirement allowance under the provisions of RSMo 87.205, the member shall forfeit all rights, claims or interest in his or her DROP account and the member's benefits shall be calculated as if the member had continued in employment and had not elected to participate in the DROP program. Any funds in a DROP account which has been forfeited as provided in this subsection shall become funds of the system.

F. Except in the case of any self-directed program, a member's DROP account shall earn interest equal to the percentage rate of return of the system's investment portfolio as certified annually by the system's actuary in the yearly evaluation report. Except in the case of any self-directed program, the interest shall be credited annually to the member's account beginning with the start of the second fiscal year of participation.

G. No member may elect to participate in the DROP program more than once. (1994 C., § 4.18.131; Ord. No. 65993, § 1, 2003; Ord. No. 63591, § 3, 1995; Ord. No. 62994, § 3, 1993.)

4.18.132 Benefit increases—Funding.

The funding for increases in benefit provisions of RSMo 87.170, 87.175, 87.182 and 87.371 shall be funded from the future benefits fund. (1994 C., § 4.18.132; Ord. No. 63591, § 4, 1995.)

4.18.135 Resigned members leaving contributions in system.

A member who ceases to be a fireman after twenty years or more of service and leaves his contributions with the system may receive either:

A. A retirement allowance upon attaining normal retirement age calculated in the same manner as if he were that age when he ceased to be a fireman; or

B. A retirement allowance beginning any time prior to normal retirement age which is the actuarial equivalent of the retirement allowance he would be entitled to at normal retirement age. (1960 C., § 335.240; 1994 C., § 4.18.135; Ord. No. 55177, § 1, 1968; Ord. No. 49623, § 13, 1959.)

4.18.140 Credit for service in armed forces during war.

If, at any time since first becoming a member of the Retirement System, a member has served in the armed forces of the United States, in any war or period of armed hostilities between the armed forces of the United States and those of a foreign power, and has subsequently been reinstated as a fireman within ninety days after his discharge, he shall be granted credit for such service as if his service in the Fire Department of the City had not been interrupted by his induction into the armed forces of the United States, and as if he had made the required contributions during such service. If earnable compensation is needed for such period in computation of benefits it shall be calculated on the basis of the compensation payable to the officers of his rank during the period of his absence. (1960 C., § 335.250; 1994 C., § 4.18.140; Ord. No. 49623, § 14, 1959.)

4.18.145 Ordinary disability allowance—Application.

Upon the application of a member in service or of the Chief of the Fire Department, any member who has had five years or more of creditable service shall be retired by the Board of Trustees not less than thirty and not more than ninety days next following the date of filing the application on an ordinary disability retirement allowance, if the Medical Board after a medical examination of the member shall certify that the member is mentally or physically incapacitated for the further performance of duty, that the incapacity is likely to be permanent, and that the member should be retired. (1960 C., § 335.260; 1994 C., § 4.18.145; Ord. No. 50707, § 1, 1961; Ord. No. 49623, § 15, 1959.)

The retirement allowance due any member under the provisions of RSMo 87.120 to 87.370 (1978), as amended, which said member retires from service prior to February 15, 1973 with an ordinary disability allowance, may be increased at the rate of three percent (3%) per year whenever it has been determined by the Board of Trustees that the consumer price index as published by the United States Department of Labor shows an increase of at least three percent (3%) for three (3) consecutive months in the twelve (12) month period preceding; at the discretion of the Board of Trustees a cash payment may be made in lieu of such percentage increase in an amount to be determined by the Board but not to exceed fifty ($50.00) dollars, and not to exceed a total increase of twenty-five (25%) percent. Such increase in the retirement allowance shall commence in the payment for the first month following the determination by the Board of Trustees. At least once each quarter the Board of Trustees shall, at a regular meeting or at a special meeting called for that purpose, consider the question of whether there has been an increase in such consumer price index. If the accident occurred prior to the beginning of the member's twentieth year of service, application for benefits must be made before this time, except that the interval between the date of accident and the applica-

A. Upon retirement for accidental disability, a member shall receive seventy-five percent of the pay then provided by law for the highest step in the range of salary for the title or rank held by such member at the time of such retirement unless the member is permanently and totally incapacitated from performing any work, occupation or vacation of any kind whatsoever and is continuously confined to the member's home except for visits to obtain medical treatment, in which event the member may receive, in the discretion of the Board of Trustees, a retirement allowance in an amount not exceeding the member's rate of compensation as a firemen in effect as of the date the allowance begins.

B. Anyone who has retired pursuant to the provisions of RSMo 87.170, as amended, and has been reinstated pursuant to Subsection 2 of RSMo 87.130, as amended, who subsequently becomes disabled as provided in RSMo 87.200, as amended, shall receive a total benefit which is the higher of either the disability pension or the service pension. (1994 C., § 4.18.157; Ord. No. 63988, § 3, 1997.)

4.18.160 Accidental disability allowance—Computation.

The retirement allowance due any member under the provisions of RSMo 87.120 to 87.370 (1978), as amended which said member retires from service prior to February 15, 1973, accident disability allowance may be increased at the rate of three percent (3%) per year whenever it has been determined by the Board of Trustees that the consumer price index as published by the United States Department of Labor shows an increase of at least three percent (3%) for three (3) consecutive months in the twelve (12) month period preceding; at the discretion of the Board of Trustees a cash payment may be made in lieu of such percentage increase in an amount to be determined by the Board but not to exceed fifty dollars ($50.00), and not to exceed a total increase of twenty-five (25%) percent. 4.18.165 Increases in allowances.

A. The following allowances due under the provisions of RSMo 87.120 to 87.370 of any member who retired from service shall be increased annually, as approved by the Board of Trustees beginning with the first increase in the October following his retirement and subsequent increases in each October thereafter, at the rates designated:

1. With a retirement service allowance or ordinary disability allowance:

a. One and one-half percent per year, compounded each year, up to age sixty for those retiring with twenty to twenty-four years of service.

b. Two and one-fourth percent per year, compounded each year, up to age sixty for those retiring with twenty-five to twenty-nine years of service.

c. Three percent per year, compounded each year, up to age sixty for those retiring with thirty or more years of service.

d. After age sixty, five percent per year for five years or until a total maximum increase of twenty-five percent is reached.

2. With an accidental disability allowance, three percent per year, compounded each year, up to age sixty then five percent per year for five years or until a total maximum increase of twenty-five percent is reached.

B. Each increase, however, is subject to a determination by the Board of Trustees that the consumer price index (United States Average Index) as published by the United States Department of Labor shows an increase of not less than the approved rate during the latest twelve-month period for which the index is available at date of determination. If the increase is in excess of the approved rate for any year, the excess shall be accumulated as to any retired member and increases may be granted in subsequent years subject to the

maximum allowed for each full year from October following his retirement but not to exceed a total increase of twenty-five percent. If the Board of Trustees determines that the index has decreased for any year, the benefits of any retired member that have been increased shall be decreased but not below his initial benefit. No annual increase shall be made of less than one percent and no decrease of less than three percent except that any decrease shall be limited by the initial benefit. (1960 C., § 335.295; 1994 C., § 4.18.165; Ord. No. 59018, § 6, 1983; Ord. No. 58179, § 1(part), 1980; Ord. No. 56444, § 1, 1973.)

4.18.170 Medical exams for continuance of disability allowances.

Once each year during the first five years following the retirement of a member on a disability retirement allowance, and once in every three-year period thereafter, the Board of Trustees may, and upon his application shall, require any disability beneficiary to undergo a medical examination, the examination to be made at a place designated by the Medical Board, and to be made by the Medical Board or by a physician or physicians designated by the Medical Board. Should any disability beneficiary refuse to submit to a medical examination, his allowance may be discontinued until his withdrawal of the refusal, and if his refusal continues for one year all rights in and to his allowance may be revoked by the Board of Trustees. (1960 C., § 335.300; 1994 C., § 4.18.170; Ord. No. 49623, § 19, 1959.)

4.18.175 Adjustment of disability allowances.

If the Medical Board reports and certifies to the Board of Trustees that the disability beneficiary is engaged or is able to engage in a gainful occupation other than fireman paying more than the difference between his retirement allowance and one and one-half times the then-current rate of pay for the rank held by the member at the time of retirement, and if the Board of Trustees concurs in the report, then the amount of his retirement allowance shall be reduced to an amount which, together with the amount earnable by him in such other occupation, shall equal the amount of such current rate of pay. If his earning capacity is later changed, the amount of his retirement may be further modified. If any disability beneficiary is found by the Medical Board to be able to engage in the occupation of fireman, his retirement allowance shall not cease until he is restored to active service at the position and title held by the disability beneficiary at the time the disability occurred. (1960 C., § 335.310; 1994 C., § 4.18.175; Ord. No. 54779, § 1, 1967; Ord. No. 53605, § 1, 1965; Ord. No. 49623, § 20, 1959.)

If the Medical Board reports and certifies to the Board of Trustees that the disability beneficiary is engaged or is able to engage in a gainful occupation other than fireman paying more than the difference between his retirement allowance and one and one-half times the then-current rate of pay for the rank held by the member at the time of retirement, and if the Board of Trustees concurs in the report, then the amount of his retirement allowance shall be reduced to an amount which together equal the amount of such current rate of pay. If his earning capacity is later changed, the amount of his retirement may be further modified. If any such disability beneficiary is found by such Medical Board to be able to engage in the occupation of fireman, his retirement allowance shall not cease until he is restored to active service at the position and title held by such disability beneficiary at the time such disability occurred.

B. If a disability beneficiary is restored to active service, his retirement allowance shall cease and he shall again become a member. His creditable service at the time of his retirement shall be restored to full force and effect and in addition, upon his subsequent retirement, he shall be credited with all his additional service as a member, and if his then average final compensation is less than the average final compensation used in determining his disability benefits, the latter amount shall be used in determining benefits. In addition, an accident-disabled member restored to active service shall be credited with all the time he served as a beneficiary. (1960 C., § 335.320; 1994 C., § 4.18.180; Ord. D. It can choose to invest the funds of the Firemen's Retirement System and the funds of the Firefighters' Retirement Plan in the same investments, so long as the amounts invested and the gains, profits, or losses on such investment are accounted for separately. No benefits due to firefighters or their covered dependents from the Firefighters' Retirement Plan shall be paid from the Firemen's Retirement System funds.

Except as herein provided, no trustee and no employee of the Board shall have any direct interest in the gains or profits of any investment made by the Board of Trustees, nor as such receive any pay or emolument for his services. No trustee or employee of the Board of Trustees shall directly or indirectly for himself or as an agent in any manner use the assets of the retirement system except to make such current and necessary payments as are authorized by the Board of Trustees, nor shall any trustee or employee of the Board become an endorser or surety or become in any manner an obligor for moneys loaned by or borrowed from the Board of Trustees. (1960 C., § 335.450; 1994 C., § 4.18.245; Ord. No. 49623, § 34, 1969.)

All the assets of the retirement system shall be credited according to the purpose for which they are held to one of four funds, namely, the members' savings funds, the benefit reserve fund, the general reserve fund, and the expense fund. The Board of Trustees is authorized to transfer and close out the fund accounts as provided prior to January 1, 1960 into the appropriate fund accounts provided by this chapter. (1960 C., § 335.460; 1994 C., § 4.18.250; Ord. No. 49623, § 35, 1959.)

(1960 C., § 335.480; 1994 C., § 4.18.260; Ord. No. 62994, § 4, 1993; Ord. No. 57603(part), 1978; Ord. No. 49623, § 37, 1959.)

4.18.265 Member contribution—Consent—Crediting individual account.

The deductions provided for herein shall be made notwithstanding that the minimum compensation provided by law for any member shall be reduced thereby. Every member shall be deemed to consent to the deductions made and provided for herein, and shall receipt for his full salary or compensation, and payment of salary or compensation less the deduction shall be a full and complete discharge and acquittance of all claims and demands whatsoever for services rendered during the period covered by the payment except as to benefits provided by this chapter. The Chief of the Fire Department shall certify to the Board of Trustees on each and every payroll or in other manner as the Board of Trustees shall prescribe the amount deducted, and such amounts shall be paid into the members' savings fund and shall be credited to the individual account of the member from whose compensation the deduction was made. (1960 C., § 335.490; 1994 C., § 4.18.265; Ord. No. 49623, § 38, 1959.)

4.18.270 Member contribution—Refunds, additional benefits.

4.18.275 Member contribution—Cash payment or note.

A member as of January 1, 1960, who did not make contributions to the system between the operative date of the system and January 1, 1960, may make a cash payment or sign a note of indebtedness to the system. The amount of the payment or note in lieu thereof shall be equal to the then accumulated contributions for his age and years of service less any credit to his account and less any dues paid during the period for rights and privileges in the firemen's pension fund, and such amount shall be credited to his account. The unpaid balance of the note shall bear interest at the same rate per annum as is allowed on the member's savings accounts in the same periods. The note shall be repaid under rules and regulations of the Board of Trustees within five years of its date but not beyond the compulsory retirement date of the maker. 4.18.280 Benefit reserve fund.

The benefit reserve fund shall be the fund from which shall be paid all benefits except such benefits as involve only the refund of the members contributions at time of withdrawal in which case the refund shall be made direct from the members saving fund. There shall be transferred to this fund at time of approval of payment of benefits to any member or beneficiary, the accumulated contributions of such member from the members' saving fund and such additional amount from the general reserve fund as is calculated by the actuary to be necessary with the member's contributions to provide the payment of all benefits arising from the service of the member. Upon the completion of the first valuation after the creation of this fund, there shall be transferred to it from the annuity reserve fund, the pension reserve fund and the pension accumulation fund such amounts as are certified by the actuary on the basis of the tables then in use for all beneficiaries receiving benefits. (1960 C., § 335.520; 1994 C., § 4.18.280; Ord. No. 49623, § 41, 1959.)

4.18.285 General reserve fund—City contributions.

The general reserve fund shall be the fund in which shall be accumulated all reserves for benefits not provided by member contributions, and which are provided by contributions made by the City. (1960 C., § 335.530; 1994 C., § 4.18.285; Ord. No. 49623, § 42, 1959.)

4.18.290 General reserve fund—Contributions and payments.

Contributions to and payments from the general reserve fund shall be as follows: On account of each member there shall be paid annually into the fund by the City an amount equal to a certain percentage of the earnable compensation of the member to be known as "the normal contribution" and an additional amount equal to a percentage of his earnable compensation to be known as "the accrued liability contribution." The rates percent of the contributions shall be fixed on the basis of the liability of the Retirement System as shown by actuarial valuations. (1960 C., § 335.540; 1994 C., § 4.18.290; Ord. No. 49623, § 43, 1959.)

4.18.295 General reserve fund—Normal contribution rate.

On the basis of the interest rate and of such mortality and other tables as shall be adopted by the Board of Trustees, the actuary shall determine the uniform and constant percentage of the earnable compensation of the average new entrant, which, if contributed throughout his entire period of active service, would be sufficient to provide for the payment of any death benefit or pension payable on his account. The rate percent so determined shall be known as "the normal contribution rate." After the accrued liability contribution has ceased to be payable the normal contribution rate shall be the rate percent of the earnable compensation of all members obtained by deducting from the total liabilities of the fund the amount of the funds in hand to the credit of the fund and dividing the remainder by one percent of the present value of the prospective future compensation of all members as computed

on the basis of the interest rate and the mortality and service tables adopted by the Board of Trustees. The normal rate of contribution shall be determined by the actuary after each valuation. (1960 C., § 335.550; 1994 C., § 4.18.295; Ord. No. 49623, § 44, 1959.)

4.18.300 General reserve fund—Accrued liability contribution rate.

At the first valuation after the effective date of these amendments the actuary engaged by the Board of Trustees shall compute the rate percent of the total earnable compensation of all members which is equivalent to three and one-half percent of the amount of the total unfunded benefit liability on account of all members and beneficiaries which is not dischargeable by the normal contribution made on account of such members during the remainder of their active service. The rate percent originally so determined shall be known as "the accrued liability contribution rate." (1960 C., § 335.560; 1994 C., § 4.18.300; Ord. No. 49623, § 45, 1959.)

4.18.305 General reserve fund—Amounts payable.

The total amount payable in each year to the general reserve fund shall be not less than the sum of the rates percent known as the normal contribution rate and the accrued liability contribution rate of the total compensation earnable by all members during the year, and the aggregate payment by the City shall be sufficient when combined with the amount in the fund to provide the retirement allowances and other benefits payable out of the fund during the then-current year. The City may contribute at any time from bond issue or other available funds an amount equal to the unfunded accrued liability as certified by the actuary in which event no further accrued liability contribution will be required or may contribute any lesser amount which will be used to proportionately reduce future accrued liability contributions. (1960 C., § 335.570; 1994 C., § 4.18.305; Ord. No. 49623, § 46, 1959.)

4.18.310 General reserve fund—Discontinuing liability contributions.

The accrued liability contribution should be discontinued as soon as the accumulated reserve in the general reserve fund shall equal the present value as actuarially computed and approved by the Board of Trustees, of the total liability of the fund, less the present value computed on the basis of the normal contribution rate then in force of the prospective normal contributions to be received on account of persons who are at that time members. The accrued liability contribution rate may be decreased by the Board of Trustees provided the reduced level rate does not require an amortization period extending beyond the year twenty hundred and ten (2010) for any accrued liability as of August 31, 1980. Subsequent to that date, any changes in the accrued liability by reason of changes in the benefits payable under the Retirement System, changes in the actuarial assumptions, or changes in the actuarial funding method are to be amortized over a period not exceeding thirty years from the date in which the additional accrued liabilities are recognized in the annual actuarial valuation of the System. (1960 C., § 335.580; 1994 C., § 4.18.310; Ord. No. 59018, § 10, 1983; Ord. No. 49623, § 47, 1959.)

4.18.315 Expense fund.

The expense fund shall be the fund to which shall be credited all money provided to pay the administration expenses of the Retirement System and from which shall be paid all the expenses necessary in connection with the administration and operation of the system. Annually the Board of Trustees shall estimate the amount of money necessary to be paid into the expense fund during the ensuing year to provide for the expense of operation of the Retirement System. Such estimate shall be provided by the Board of Trustees from interest and other earnings on assets of the Retirement System. In no event shall any expenses, including administrative expenses, incurred in the administration of the Firefighters' Retirement Plan or in the investment of any funds of the Firefighters' Retirement Plan be paid out of the Firemen's Retirement System. Such expenses shall be paid entirely from the Firefighters' Retirement Plan.

(1960 C., § 335.590; 1994 C., § 4.18.315; ; Ord. No. 71818, § 4, 3-7-2024; Ord. No. 53997, § 1, 1966; Ord. No. 49623, § 48, 1959.)

4.18.320 Certification of amounts due the general reserve fund.

On or before the first of March of each year the Board of Trustees shall certify to the proper City authorities the amount which will become due and payable during the year next following to the general reserve fund. The amount so certified shall be included by the City authorities in their annual budget estimate. The amount so certified shall be appropriated by the

City and transferred to the Retirement System for the ensuing year. (1960 C., § 335.600; 1994 C., § 4.18.320; Ord. No. 53997, § 1, 1966; Ord. No. 49623, § 49, 1959.)

4.18.325 Fund reserves.

The creation and maintenance of reserves in the general reserve fund and the maintenance of benefit reserves as provided for and the payment of all benefits granted under the provisions of this chapter are hereby made obligations of the City. (1960 C., § 335.610; 1994 C., § 4.18.325; Ord. No. 53997, § 1, 1966; Ord. No. 49623, § 50, 1959.)

4.18.330 Benefits exempt from taxes and attachments.

The right of any person to a benefit, any other right accrued or accruing to any person under the provisions of this chapter and the moneys in the various funds created under this chapter are hereby exempt from any tax of the state and shall not be subject to execution, garnishment, attachment any other process whatsoever and shall be unassignable except as in this

chapter specifically provided. (1960 C., § 335.620; 1994 C., § 4.18.330; Ord. No. 49623, § 51, 1959.)

4.18.335 Transfer of existing funds.

4.19.010 Establishment of the plan.

A. *Establishment of Plan.* Pursuant to its authority under the home rule charter provisions of the Constitution of the State of Missouri and the laws of the State of Missouri, the City of St. Louis hereby establishes the pension plan prescribed in this chapter, known as the Firefighters' Retirement Plan (the "plan"), to provide retirement, disability and death benefits for the firefighters of the City and their covered dependents.

B. *Structure of Plan.* The provisions of Section 4.19.050.A through G govern pension benefits accrued by participants hired on and after the effective date. The amount of the accrued benefit of participants under the Firemen's Retirement System of St. Louis pursuant to Chapter 4.18 of the Revised Code (the "prior plan") was frozen as of February 1, 2013 by Ordinance 69149, as amended by the ordinance codified in this chapter. The amount of the benefit accrued under the prior plan for a participant whose benefit accrued under the prior plan was frozen as of February 1, 2013 does not increase because of years of service after the Effective Date. Except as expressly provided herein, the provisions of Section 4.19.060.A through F,

governing pension benefits of grandfathered participants, are independent of the provisions of Section 4.19.050.A through G relating to participants hired on and after the effective date. The benefit accrued under this plan is earned only because of years of service after the effective date (although vesting, eligibility for retirement and the rate of accrual for benefits attributable to years of service after the effective date is based on total years of service as a firefighter with the City of St. Louis).

Notwithstanding anything to the contrary, no participant of the FRP shall receive a pension or retirement allowance from any other pension or retirement system supported wholly or in part by the City or the State of Missouri because of years of service for which they are entitled to benefits under the FRS nor shall they be required to make contributions under any other pension or retirement system of the City or the State of Missouri.

C. *Type of Plan.* This plan and the trust established pursuant to this plan are intended to qualify under Sections 401(a) and 501(a) of the Internal Revenue Code of 1986, as amended from time to time.

D. *Effective Date.* This chapter is effective February 1, 2013. (1994 C., § 4.19.010; Ord. No. 70248, §§ 3, 4, 3-22-2016; Ord. No. 69353, §§ 3—5, 12-28-2012; Ord. No. 69245, § 2, 7-29-2012.)

Such contributions shall be credited to the accumulated contributions account of the participant. Contributions by each participant with fewer than twenty full years of service as of the effective date shall be treated as employer before-tax ("pick-up") contributions paid by the employer in lieu of contributions by the employee under Section 414(h)(2) of the Code solely for purposes of the Internal Revenue Code of 1986, as amended. Contributions by participants with at least twenty full years of service as of the effective date shall be treated as after-tax employee contributions.

The deductions provided for herein shall be made notwithstanding that the minimum compensation provided by law for any participant shall be reduced thereby. (1994 C., § 4.19.030; Ord. No. 70248, § 9, 3-22-2016; Ord. No. 69353, §§ 9, 10, 12-28-2012; Ord. No. 69245, § 2, 7-29-2012.)

4.19.040 Service.

A. *Year of Service.* The term "year of service," means each full 365-consecutive-day period of time that elapses from the effective date, or the date the employee first performs duties in covered employment for which such employee is paid or entitled to payment by the City, whichever is later, and ending on the date of termination of employment, during which the employee is employed in covered employment. Less than whole periods of such time shall be credited as a partial year based on the applicable portion of a 365-day period; and nonconsecutive periods of such time shall be aggregated, where applicable, in determining the number of years of service of a participant. The period of service of an employee on an approved paid leave of absence shall continue until the end of such leave of absence. An employee shall be credited for no more than one month for an unpaid leave of absence.

B. *Prior Plan Service.* Complete and partial years of service credited for a grandfathered participant pursuant to the terms of the prior plan for periods before the effective date shall count as years of service under this plan (but benefits attributable to such prior plan service under this plan shall be offset by the benefits payable under the Firemen's Retirement System of St. Louis, as provided in Section 4.19.060.G, so that the benefit accrued under this plan is earned only because of years of service after the effective date, although vesting, eligibility for retirement and the rate of accrual for benefits attributable to years of service after the effective date is based on total years of service).

Notwithstanding the above, service credited pursuant to the terms of the prior plan for periods before the effective date shall not count as years of service under this plan to the extent a participant did not receive a periodic retirement income benefit from the prior plan based on such service (e.g., a participant with fewer

than twenty years of service received a refund of contributions withheld from compensation attributable to such service in lieu of a pension).

C. *Absence in Military Service.* If, at any time since first becoming a participant in the Plan, a participant has performed qualified military service as defined by 26 U.S.C. § 414(u)(5) and has subsequently been reinstated as a firefighter within the period of time required by 38 U.S.C. § 4312(e), he shall be granted credit for such service as if his service in the Fire Department of the City had not been interrupted by his induction into the armed forces of the United States, and as if he had made the required contributions during such service.

In the case of a participant who dies while performing qualified military service as defined in 26 U.S.C. § 414(u)(5), the survivors of the participant are entitled to any additional benefits (other than benefit accruals relating to the period of qualified military service) that would have been provided under the Plan had the participant resumed employment and then terminated employment on account of death. In any event, a deceased member's period of qualified military service must be counted for vesting purposes.

Only to the extent required by Code Section 414(u)(12) and only in the event that the City elects to pay differential wage payments, an individual who receives differential wage payments (as defined under Code Section 3401(h)(2)) shall be treated as employed by the Fire Department of the City, and the differential wage payment shall be treated as compensation for purposes of applying the limits on annual additions under Code Section 415(c). This provision shall be applied to all similarly situated individuals in a reasonably equivalent manner.

D. *Accumulated Contributions.* An employee shall not be credited for any service with respect to which the employee had no contributions withheld; and shall not be credited for any service with respect to which the employee withdrew or received a refund of accumulated contributions.

E. *Allocation and delegation procedures.* The Board of Trustees may appoint one or more of its members to carry out any particular duty or duties or to execute any and all documents on its behalf. Any documents so executed shall have the same effect as though executed by all the members. Such appointments shall be made by an instrument in writing that specifies what duties and powers are so allocated and to whom each such duty or power is so allocated. The Board of Trustees may delegate to any agents (including the Trustee) such duties and powers, both ministerial and discretionary, as it deems appropriate, by an instrument in writing which specifies which such duties are so delegated and to whom each such duty is so delegated.

F. *Purchase of Creditable Service.* A participant may contribute or have transferred to the fund an amount to be utilized to purchase an additional period of creditable service determined using the accepted actuarial methods of the Plan in accordance with the provisions of RSMo 105.691, as amended, or as the same may from time to time be amended, and pursuant to policies adopted by the Board of Trustees, which are incorporated herein by reference. In addition, participants may purchase credible service for an amount determined using the actuarial methods of the plan pursuant to policies adopted by the Board of Trustees, which are incorporated by reference and may be amended from time to time.

(1994 C., § 4.19.040; Ord. No. 70248, §§ 10—12, 3-22-2016; Ord. No. 69353, § 11, 12-28-2012; Ord. No. 69245, § 2, 7-29-2012.)

4.19.050 Retirement benefits.

A. *Normal retirement benefit.* Subject to the conditions and limitations of the plan, a participant who incurs a termination of employment on or after his normal retirement age and after completing at least twenty (20) years of service will be entitled to a monthly retirement income payable to the participant for his lifetime commencing at his normal retirement date in an amount equal to two (2) percent of the participant's average final compensation for each year of service up to twenty-five (25) years, and two and one-half (2.5) percent of the participant's average final compensation for each year of service over twenty-five (25) years, up to a maximum of seventy-five (75) percent of average final compensation. The monthly amount of the retirement income of such a participant shall not be increased actuarially to reflect an annuity starting date deferred beyond the normal retirement age of the participant.

B. *Early retirement.* Each participant who incurs a termination of employment after completing at least twenty (20) years of service, but before completing thirty (30) years of service and before attaining his normal retirement age of fifty-five (55), shall be entitled to a monthly retirement benefit income payable to

the participant for his lifetime commencing on the first day of the month after he attains fifty-five (55) years of age, calculated as for normal retirement in accordance with Section 4.19.050.A, based on his average final earnings and his years of service as of his early retirement date.

In lieu of a deferred retirement income commencing at age fifty-five (55), a Participant who remains an employee until his early retirement age may elect to receive his retirement income beginning on his early retirement date; or on the first day of any month thereafter prior to age fifty-five (55), provided that the monthly amount payable at age fifty-five (55) shall be actuarially reduced from age fifty-five (55) to the pension commencement date in accordance with Section 4.19.020.B.

A participant entitled to an early retirement pension in accordance with the preceding paragraphs of this Subsection B may elect to receive a refund of his accumulated contributions with interest in lieu of any early retirement pension benefit.

C. *Vested terminated pension.* Each participant who remains an employee until he has completed at least ten (10) but fewer than twenty (20) years of service shall be entitled to a monthly retirement income calculated as for normal retirement in accordance with Section 4.19.050.A, based on his average final earnings and his years of service as of his termination of employment, payable to the participant for his lifetime commencing when the participant attains sixty-two (62) years of age, or upon his termination of employment, if later.

A participant entitled to a deferred vested pension in accordance with the preceding paragraph of this Subsection C may elect to receive a refund of his accumulated contributions with interest in lieu of any deferred vested pension benefit.

D. *Unvested participant.* A participant who incurs a termination of employment before completing ten (10) years of service shall receive a refund of his accumulated contributions with interest in lieu of any pension benefit.

E. *Cost of living increases.* Following a participant's annuity starting date, benefits paid to such participant pursuant to Subsections A and B of this section (but not any other provisions) shall be increased as of each October 1, with the first increase in the October following his retirement and subsequent increases in each October thereafter, by an amount equal to the lesser of three (3) percent or the increase in the Consumer Price Index during the preceding twelve-month period as designated by the Board of Trustees for the purpose of promoting consistency with the Consumer Price Index used by the Firemen's Retirement System of St. Louis; up to a maximum aggregate increase of twenty-five (25) percent.

F. *Limitation on compensation.* Notwithstanding any other provision of this plan, in no event shall the compensation of a participant taken into account under this plan for any plan year exceed the maximum amount permitted in Section 401(a)(17) of the Code for that plan year, as adjusted from time to time, as applicable to governmental plans. If the period for determining compensation in a plan year is less than the full plan year, the maximum amount for that plan year shall be reduced proportionately.

G. *Overpayment recoupment.* In the event a participant is paid more than the amount to which the participant is properly entitled under the terms of the plan the amount of future payments from the plan to the participant may be reduced until such overpayment has been corrected.

H. *Felony bar.* Participants found guilty of certain felony offenses shall be barred from obtaining benefits to the extent provided by the provisions of RSMo 105.669, as amended.

(1994 C., § 4.19.050; Ord. No. 71807, § 1, 3-13-2024; Ord. No. 70248, §§ 13, 14, 3-22-2016; Ord. No. 69245, § 2, 7-29-2012.)

4.19.060 Grandfathered pension benefits.

A. *Grandfathered benefits—General.* The provisions of this section apply only to grandfathered participants. The amount of retirement income benefits accrued under this section is based on all service and compensation, including years of service rendered and compensation paid before the effective date, but is offset by benefits payable under the Firemen's Retirement System of St. Louis, as provided in Subsection G of this section, so that the benefit accrued under this plan is earned only because of years of service after the effective date, although vesting, eligibility for retirement and the rate of accrual for benefits attributable to years of service after the effective date is based on total years of service.

B. *Reserved.*

C. *Grandfathered normal retirement benefit.* Subject to the conditions and limitations of the Plan, a grandfathered participant who incurs a termination of employment on or after his normal retirement age of

fifty-five (55) years and after completing at least twenty (20) years of service will be entitled to a monthly retirement income payable to the participant for his lifetime commencing at his normal retirement date in an amount equal to two (2) percent of the participant's average final compensation for each year of service up to twenty-five (25) years, and five (5) percent of the participant's average final compensation for each year of service over twenty-five (25) years, up to a maximum of seventy-five (75) percent of average final compensation. The monthly amount of the retirement income of such a participant shall not be increased actuarially to reflect an annuity starting date deferred beyond the normal retirement age of the participant.

Solely for purposes of computing such grandfathered benefit, sick leave accumulated under the FRS shall be credited as years of service and added to no more than a total of thirty (30) years of service for purposes of vesting and to allow such a participant to receive a monthly retirement income benefit in excess of seventy-five (75) percent of average final compensation. Notwithstanding anything to the contrary herein, sick leave of a participant who is participating in DROP shall be subject to the provisions of Subsection E of this section.

A grandfathered participant who receives such a retirement income benefit shall receive a refund of his contributions to this plan, without interest; provided that contributions to the plan made on and after the effective date by a participant who had fewer than twenty (20) full years of service as of the effective date are not refundable. All refundable contributions are payable at the time of his pension commencement date.

D. *Early retirement benefit.* A grandfathered participant who incurs a termination of employment after completing twenty (20) years of service, but before completing thirty (30) years of service and before attaining his normal retirement age of fifty-five (55) years, shall be entitled to a monthly retirement income payable to the participant for his lifetime commencing on the first day of the month after he attains fifty-five (55) years of age, calculated as for normal retirement in accordance with the preceding subsection, based on his average final compensation and his years of service as of his termination of employment. In lieu of a deferred retirement income commencing at age fifty-five (55), such a participant may elect to receive his retirement income beginning on his termination of employment; or on the first day of any month thereafter prior to age fifty-five (55). The monthly amount otherwise payable at age fifty-five (55) that is attributable to years of service after the effective date shall be actuarially reduced from age fifty-five (55) to the pension commencement date in accordance with Section 4.19.020.B for a participant with fewer than twenty (20) full years of service as of the effective date. The monthly amount otherwise payable at age fifty-five (55) to a participant with more than twenty (20) full years of service as of the effective date shall be unreduced.

Solely for purposes of computing such grandfathered benefit, sick leave accumulated under the FRS shall be credited as years of service and added to no more than a total of thirty (30) years of service for purposes of vesting and to allow such a participant to receive a monthly retirement income benefit in excess of seventy-five (75) percent of average final compensation. Notwithstanding anything to the contrary herein, sick leave of a participant who is participating in DROP shall be subject to the provisions of Subsection E of this section.

A grandfathered participant who receives such a retirement income benefit shall receive a refund of his contributions to this Plan, without interest; provided that contributions to the Plan made on and after the effective date by a participant with fewer than twenty (20) years of service as of the effective date are not refundable. All refundable contributions are payable at the time of his pension commencement date.

For example, a participant with ten (10) years of service on the effective date, who retires ten (10) years after the effective date, at age fifty (50) with a total of twenty (20) years of service, with annualized average final compensation of $80,000.00 for the last two (2) years before retirement, would be entitled to a deferred pension benefit of thirty-two thousand dollars ($32,000.00) (forty (40) percent of eighty thousand dollars ($80,000.00)) per year beginning at age fifty-five (55), or an immediate pension beginning at age fifty (50) of twenty-six thousand two hundred seventy-two dollars ($26,272.00). (The sixteen thousand dollars ($16,000.00) attributable to the ten (10) years of service before the effective date is unreduced; the sixteen thousand dollars ($16,000.00) attributable to the ten (10) years of service after the effective date is actuarially reduced from sixteen thousand dollars ($16,000.00) to ten thousand two hundred seventy-two dollars ($10,272.00).) Such amount is subject to the offset for the prior plan benefit as provided in Subsection G of this section.

A grandfathered participant who incurs a termination of employment before completing twenty (20) years of service shall receive a refund of his accumulated contributions with interest in lieu of any pension benefit.

E. *DROP.* Grandfathered participants who have completed at least twenty (20) years of service may elect to continue active employment and defer receipt of the retirement benefit for a period not to exceed five (5) years. Any grandfathered participant who has at least twenty (20) years of service may elect in writing before retirement to participate in the deferred retirement option program ("DROP"). A grandfathered participant electing to participate in the DROP program shall continue in active employment and shall not receive any direct retirement benefit payments during the time of participation. Upon the start of participation in the DROP program, the grandfathered participant shall make contributions at the rate of one (1) percent of compensation, instead of the contribution rate required by Section 4.19.030.B. During the period of participation in the DROP program, the amount that the grandfathered participant would have received as a monthly retirement income benefit (normal retirement benefit under Subsection C or reduced early retirement benefit under Subsection D, whichever is applicable) shall accumulate for the grandfathered participant until the grandfathered participant retires, unless the grandfathered participant has completed thirty (30) years of service, in which case he will receive a normal retirement benefit under Subsection C regardless of age. Years of service earned during the period of participation in the DROP program shall not be credited and shall not be counted in determination of any service-based retirement benefit.

A grandfathered participant who elects to stop participation in the DROP program shall make contributions at the rate of eight (8) percent of the compensation of each participant with at least twenty (20) full years of service as of the effective date, and nine (9) percent of the compensation of each participant with fewer than twenty (20) full years of service as of the effective date. Service rendered after restoration of the grandfathered participant to non-DROP participation status shall be counted as years of service. No grandfathered participant ending participation in the DROP program and returning to non-DROP participation status shall make any withdrawal from his or her DROP accumulation until after termination of employment. If after return to non-DROP participation status, a grandfathered participant retires, the grandfathered participant's retirement benefit shall be computed on the combination of the grandfathered participant's pre-DROP retirement benefit (based on average final compensation at the beginning of the DROP period and any applicable reduction for commencement before age fifty-five (55)) plus an additional benefit earned by the grandfathered participant after returning to non-DROP participation status. Post-DROP years of service shall be the only years used in computing the additional benefit; however, total years of service shall be used to determine the appropriate accrual level of additional benefit, two percent or five percent, for each year of post-DROP service. Upon retirement the grandfathered participant shall receive retirement income benefits plus the amount of his or her DROP accumulation. The grandfathered participant's DROP accumulation shall be payable, at the grandfathered participant's option, either as a lump sum payment or as a series of quarterly payments of reasonably equal amounts using the declining balance method over a period of fewer than ten years as selected by the grandfathered participant, subject to the minimum distribution rules of Section 4.19.100.B.

If a grandfathered participant dies before termination of employment while participating in the DROP program, his or her DROP accumulation shall be payable to the grandfathered participant's designated beneficiary under either of the following options:

1. A lump sum payment equal to the grandfathered participant's DROP accumulation shall be paid to the grandfathered participant's beneficiary or the grandfathered participant's estate. The death benefits for the beneficiary under the provisions of Section 4.19.080 shall be based on the grandfathered participant's compensation and years of service before the grandfathered participant's participation in the DROP program; or

2. The beneficiary may waive any claim to the grandfathered participant's DROP accumulation, in which case any death benefits payable to the beneficiary under the provisions of Section 4.19.080 shall be calculated as if the grandfathered participant had continued as an employee and had not participated in the DROP program. Any DROP accumulation which has been waived as provided in this paragraph shall become funds of the plan.

If a grandfathered participant who has elected to participate in the DROP program subsequently applies for and receives benefits for a disability benefit under the

provisions of Section 4.19.070, the grandfathered participant shall forfeit all rights, claims or interest in his DROP accumulation and the grandfathered participant's benefits shall be calculated as if the grandfathered participant had continued in employment and had not elected to participate in the DROP program. Any DROP accumulation which has been forfeited as provided in this plan shall become funds of the plan.

The balance of a grandfathered participant's DROP accumulation shall be credited with interest for each plan year under one (1) of the following two options, as elected by the grandfathered participant upon entering DROP: (1) the rate of return of the trust fund's investment portfolio, as certified annually by the actuary in the yearly evaluation report, for the preceding plan year, as approved by the trustees, subject to a minimum rate of return of zero (0) percent; or (2) the rate of return equal to the yield on the ten-year treasury bond as of the end of the preceding plan year, subject to a minimum rate of return of zero (0) percent.

Interest shall be credited annually to the grandfathered participant's DROP accumulation beginning with the start of the second plan year of participation, based on the balance at the beginning of the plan year. If a withdrawal occurs during a plan year, interest will be determined pro rata for each partial plan year before and after the withdrawal.

No participant may elect to participate in the DROP program more than once.

Notwithstanding anything to the contrary in this Chapter, a grandfathered participant who is participating in the DROP program may elect upon termination of employment to have added to his or her DROP accumulation a dollar amount equal to the number of his sick leave hours accumulated under the FRS multiplied by his or her hourly rate of pay at the time of termination of employment, net of the amount, if any, required to be withheld as taxes by the applicable governmental authorities; or to add one-half of such dollar amount in the grandfathered participant's DROP accumulation, to add one-quarter of such dollar amount to the aggregate total of the grandfathered participant's monthly compensation for the period used in calculating the grandfathered participant's average final compensation, and to have the remaining one-fourth of such sick leave remain as time and added to the grandfathered participant's years of service before the effective date. A grandfathered participant may make such an election to have sick leave hours converted to a combination of DROP accumulation, years of service and average final compensation only if the participant made a comparable election under The Firemen's Retirement System of St. Louis; and a grandfathered participant who made such an election under The Firemen's Retirement System of St. Louis shall be deemed to have made such an election under this Plan; so that the DROP benefit payable from this Plan shall be paid in the same form as the benefit payable under The Firemen's Retirement System of St. Louis.
