F. *Cost of living increases.* The grandfathered benefit payable in accordance with Subsections C, D and E of this section shall be increased annually, as approved by the Board of Trustees beginning with the first increase in the October following retirement of the participant and subsequent increases in each October thereafter, at the rates designated as follows:

1. One and one-half (1.5) percent per year, compounded each year, up to age sixty (60) for those retiring with at least twenty (20) years of service but less than twenty-five (25) years of service,

2. Two and one-fourth (2.25) percent per year, compounded each year, up to age sixty (60) for those retiring with at least twenty-five (25) years of service but less than thirty (30) years of service,

3. Three (3) percent per year, compounded each year, up to age sixty (60) for those retiring with thirty (30) or more years of service,

4. After age sixty (60), five (5) percent per year for five (5) years or until a total maximum increase of twenty-five (25) percent is reached.

Each increase, however, is subject to a determination by the Board of Trustees that the consumer price index shows an increase of not less than the approved rate during the preceding twelve-month period as designated by the Board of Trustees for the purpose of promoting consistency with the Consumer Price Index used by the Firemen's Retirement System of St. Louis. If the increase is in excess of the approved rate for any year, the excess shall be accumulated as to any retired participant and increases granted in subsequent years subject to the maximum allowed for each full year from October following his retirement but not to exceed a total increase of twenty-five (25) percent. If the Board of Trustees determines that the index has decreased for any year, the benefits of any retired participant that have been increased shall be decreased but not below his initial benefit. No annual increase shall be made of

less than one (1) percent and no decrease of less than three (3) percent except that any decrease shall be limited by the initial benefit.

In addition to the above, grandfathered participants may share in ad hoc COLAs, if any, to which they would be entitled in accordance with the terms and conditions of the prior plan as if such terms and conditions were included in this plan.

G. *Prior plan benefit offset—No duplication rule.* Subsections 4.19.050.F and G shall apply to all benefits, including grandfathered benefits. Notwithstanding anything in this plan to the contrary, the retirement income benefit payable under this plan shall be offset by the amount of retirement income payable under the Firemen's Retirement System of St. Louis (and any other defined benefit plan maintained by the City of St. Louis that is qualified under Section 401 of the Code) to the extent that the benefit under such other plan or plans is based on years of service used as the multiplier (times a percent of compensation) for purposes of determining the retirement income benefit under this plan, so that the benefit accrued under this plan is earned only because of years of service after the effective date, although vesting, eligibility for retirement and the rate of accrual for benefits attributable to years of service after the effective date is based on total years of service. The retirement income benefit offset shall be computed as if the participant had received his retirement income under the offset plan in the form of a single life annuity commencing on the day benefits commence to be paid under this plan.

The benefit of a participant who enters DROP on or after February 1, 2013 shall be determined under this plan, based on all service, including prior plan service, but the benefit of such a participant shall be offset by the benefit payable under The Firemen's Retirement System of St. Louis, so that the benefit accrued under this plan is earned only because of years of service after the effective date. No member has accrued any sick leave benefits under this plan. The benefit under this plan of a grandfathered participant who elects to have sick leave hours converted shall be adjusted so that the aggregated total of each of such benefits payable by both this plan and the offset plan mirrors but does not exceed the amount of such benefits to which the participant would have received under this plan if all such service and compensation had been taken into account only by this plan.

Notwithstanding anything in this plan to the contrary, there shall be no duplication of any benefit under this plan of a benefit payable from The Firemen's Retirement System of St. Louis that is attributable to years of service for which a participant is entitled to an accrued benefit under the Firemen's Retirement System of St. Louis, no duplication of any death or disability benefit paid under the Firemen's Retirement System of St. Louis, and no duplication of any benefit under this plan attributable to accumulated sick pay, DROP, or any other factor credited under the Firemen's Retirement System of St. Louis.

4.19.070 Disability income.

A. *Disability benefits—General.* The disability income provisions of Subsections B through H of this section apply to employees who permanently cease performance of duties as a firefighter on account of disability on or after the effective date. For purposes of such subsections, the term "participant" shall mean any Employee performing services as a firefighter on or after February 1, 2013, while so classified by the Fire Department.

B. *Disability—Line of duty.*

1. A participant who incurs a termination of employment because of a total and permanent disability resulting from bodily injury incurred while engaged in the actual performance of duty as a firefighter in response to an emergency call that renders the participant totally and permanently unable to engage in any gainful employment in any occupation, shall be entitled to receive a monthly disability income equal to seventy-five (75) percent of his average final compensation, while so disabled. A disability shall be presumed to have been incurred while engaged in the actual performance of duty as a firefighter in response to an emergency call to the extent the disability is caused by a disease specified by state pension law applicable to this Plan as establishing such a presumption, including, but not limited to, RSMo 87.006, as may be amended. Such presumption may be rebutted by evidence to the contrary, such as habitual smoking.

2. A participant who incurs a termination of employment because of a total and permanent disability resulting from bodily injury incurred while engaged in the actual performance of duty as a firefighter in re-

sponse to an emergency call that renders the participant totally and permanently unable to continue his employment as a firefighter, but not other gainful employment as described in Subsection B.1 of this section, shall receive a disability income while so disabled equal to twenty-five (25) percent of his average final compensation; plus an additional two and seventy-five one-hundredths (2.75) percent of average final compensation for each year of service in excess of ten (10) years, up to twenty-five (25) years of service; plus an additional eleven and five-tenths (11.5) percent of average final compensation for the twenty-fifth year of service at the time of such a termination of employment; with a maximum benefit of seventy-five (75) percent of average final compensation. A disability shall be presumed to have been incurred while engaged in the actual performance of duty as a firefighter in response to an emergency call to the extent the disability is caused by a disease specified by state pension law applicable to this plan as establishing such a presumption, including, but not limited to, RSMo 87.006, as may be amended. Such presumption may be rebutted by evidence to the contrary, such as habitual smoking.

Only grandfathered participants with at least twenty (20) years of service as of the effective date who receive such a disability benefit shall receive a refund of his contributions to this Plan, without interest; contributions to this Plan made by participants with fewer than twenty (20) years of service as of the effective date who receive such a disability benefit are not refundable. All refundable contributions are payable at the time of his disability commencement date.

C. *Disability—Other.* A participant who incurs a termination of employment after completing at least five (5) years of service because of a total and permanent disability that is not described in Subsection B (outside the line of duty) that renders the participant totally and permanently unable to engage in any gainful employment in any occupation shall be entitled to receive a monthly disability income equal to the greater of twenty-five (25) percent of his average final compensation or ninety (90) percent of the benefit accrued under the formula in Section 4.19.050.A as of the time of such a termination of employment, while so disabled.

Only grandfathered participants with at least twenty (20) years of service as of the effective date who receive such a disability benefit shall receive a refund of his contributions to this Plan, without interest; contributions to this Plan made by participants with fewer than twenty years of service as of the effective date who receive such a disability benefit are not refundable. All refundable contributions are payable at the time of his disability commencement date.

D. *Cost of living increases.*

1. Following commencement of disability income payments to a participant, benefits paid to such participant pursuant to Subsection B or C of this section shall be increased as of each October 1, with the first increase in the October following commencement of disability income payments and each October thereafter, by an amount equal to the lesser of three (3) percent or the increase in the Consumer Price Index during the preceding twelve-month period as designated by the Board of Trustees for the purpose of promoting consistency with the Consumer Price Index used by the Firemen's Retirement System of St. Louis; up to a maximum aggregate increase of twenty-five (25) percent.

2. Notwithstanding the provisions of Subsection D.1 of this section, in the case of a participant who incurs a termination of employment because of a total and permanent disability resulting from bodily injury incurred while the participant was engaged in the actual performance of duty as a firefighter in response to an emergency call that renders the participant totally and permanently unable to engage in any gainful employment in any occupation, following commencement of disability income payments to the participant, benefits paid to such participant pursuant to Subsection B of this section shall be increased as of each October 1, with the first increase in the October following commencement of disability income payments and each October thereafter, by three (3) percent per year, compounded each year up to age sixty (60); and after age sixty (60) by five (5) percent per year for five (5) years or until a total maximum increase of twenty-five (25) percent is reached; provided that each such increase is subject to a determination by the Board of Trustees that the consumer price index shows an increase of not less than the approved rate during the preceding twelve-month period as designated by the Board of Trustees for the purpose of promoting consistency with the Consumer Price Index used by the Firemen's Retirement System of St. Louis. If the increase is in excess of the approved rate for any year, the excess shall be accumulated as to any retired member and increases

may be granted in subsequent years subject to the maximum allowed for each full year from October following his retirement but not to exceed a total increase of twenty-five (25) percent. If the Board of Trustees determines that the index has decreased for any year, the benefits of any retired member that have been increased shall be decreased but not below his initial benefit. No annual increase shall be made of less than one percent and no decrease of less than three percent except that any decrease shall be limited by the initial benefit.

Notwithstanding anything to the contrary in the plan, grandfathered participants may share in ad hoc COLAs, if any, to which they would be entitled in accordance with the terms and conditions of the prior plan.

E. *Total and permanent disability.* An employee shall be deemed to be totally and permanently disabled when, on the basis of qualified medical evidence, he is found by the Disability Board to be totally and permanently prevented from performing the duties described in the applicable paragraph of Subsection B or C of this section.

F. *Discontinuance of Disability Benefits.* If, based on qualified medical advice, it is reasonably possible for a disabled beneficiary to recover for the condition that caused him to be totally and permanently disabled, once each year during the first five (5) years following the commencement of disability income, and once in every three-year period thereafter, the Disability Board shall require the disability beneficiary to undergo a medical examination to be made at a place designated by the Disability Board, and to be made by a physician or physicians designated by the Disability Board. Should any disability beneficiary refuse to submit to a medical examination, his disability income shall be discontinued until his withdrawal of the refusal, and if his refusal continues for one (1) year all rights in and to his disability income shall be revoked by the Disability Board.

Payment of disability benefits under this section shall be discontinued upon the earliest of the following:

1. The refusal of the participant to undergo a medical examination;

2. The time as of which the Disability Board finds the participant is no longer totally and permanently disabled; or

3. The death of the participant.

After the Disability Board finds the participant is no longer totally and permanently disabled and during such time as the participant is not receiving a disability benefit pursuant to this section, the participant shall be entitled to a pension benefit in the amount and at the time or times determined in accordance with Sections 4.19.050 and 4.19.060, as applicable, based on average final compensation and years of service at termination of employment.

G. *Adjustment of disability income.* If the disability beneficiary is engaged, or is able to engage, in a gainful occupation other than firefighter paying more than the difference between his disability income and the then-current rate of pay for the rank held by the participant at the time of retirement (indexed as described below), the amount of his disability income shall be reduced to an amount which together with the amount earnable by him in such other occupation shall equal the amount of such current rate of pay. If his earning capacity is later changed, the amount of his disability income may be further modified. The then-current rate of pay for the rank held by the participant at the time of retirement shall be increased as of each October 1, with the first increase in the October following commencement of disability income payments and each October thereafter, by an amount equal to the lesser of three (3) percent or the increase in the CPI (as defined in Subsection D of this section) for the previous calendar year; up to a maximum aggregate increase of twenty-five (25) percent.

A disabled beneficiary shall submit a copy his annual federal income tax return to the Disability Board for each calendar year for which the beneficiary is eligible of a disability benefit under this section. Payment of disability benefits of a beneficiary shall be discontinued if the beneficiary fails to submit a copy of his federal income tax return to the Disability Board by the fifteenth day of October immediately following the end of calendar year. Disability Board shall audit the validity of at least two (2) percent of such tax returns.

H. *Tuition Reimbursement.*

1. Except for a disability described in Subsection B.1 or C of this section, a participant receiving disability benefits under this section may receive reimbursement for educational tuition expenses for attending a college, university, community college, or vocational or technical school as a full-time student upon proof of payment to such institution in an amount not to exceed the tuition for a state resident at the University of Missouri—St. Louis. A participant receiving disability benefits shall apply for such tuition reimbursement no later than three years after the participant first becomes

entitled to a disability benefit under this Plan. Such right to reimbursement shall cease when the disabled participant ceases to be a full-time student, fails to provide verified proof of achievement of a grade point average of two on a four-point scale or the equivalent on another scale for each academic term, or if the disabled participant is restored to active service as a firefighter, but in no event shall such education reimbursement be available after the end of the five-year period beginning when the participant first becomes entitled to a disability benefit under this Plan.

2. Notwithstanding anything to the contrary in Subsection H.1 above, the Board of Trustees shall be authorized and are directed to amend the Plan by deleting and removing Subsection H.1 of this section in its entirety if the Internal Revenue Service determines that the terms contained in Subsection H.1 of this section prevent the plan from attaining qualified status. (1994 C., § 4.19.070; Ord. No. 71818, §§ 11, 12, 3-7-2024; Ord. No. 70248, §§ 20—24, 3-22-2016; Ord. No. 69353, §§ 17, 18, 12-28-2012; Ord. No. 69245, § 2, 7-29-2012.)

4.19.080 Death benefits.

A. *Active Participants.* Upon the receipt of proper proof of the death of a participant while an employee, or the death of a participant who incurred a termination of employment while in service and was receiving a retirement income benefit or a disability benefit at the time of his death, provided no other benefits are payable, there shall be paid a retirement allowance to the widow(er) of the participant during her or his widowhood of twenty-five percent of the deceased participant's average final compensation, or two hundred dollars per month, whichever is greater, plus ten percent of such compensation to or for the benefit of each unmarried dependent child of the deceased participant who is either under age eighteen or who is totally and permanently mentally or physically incapacitated regardless of age, but not in excess of three children, and paid as the Board of Trustees in its discretion directs. Any widow(er) who is receiving retirement benefits upon application to the Board of Trustees shall be made, constituted, appointed and employed by the Board as a special consultant on the problems of retirement, aging, and other state matters, during her or his widowhood, and upon request of the Board, give opinions, and be available to give opinions in writing, or orally, in response to such request, as may be required, and for such services shall be compensated monthly, in an amount, which when added to any monthly retirement benefits being received, shall not exceed fifty percent of the deceased participant's average final compensation or two hundred dollars ($200.00) whichever is greater. This compensation shall be consolidated with any other retirement benefits payable to such widow and shall be paid in the manner and from the same fund as her other retirement benefits under this chapter, and shall be treated in all aspects under the laws of this state as retirement benefits paid pursuant to this chapter.

If no widow(er) benefits are payable pursuant to this section, such total benefit as would have been paid had there been a widow(er) (twenty-five percent of compensation) shall be divided among the unmarried dependent children under age eighteen and such unmarried children, regardless of age, who are totally and permanently mentally or physically incapacitated, and paid to, or for the benefit of, each such child, as the Board of Trustees in its discretion directs, until the respective child attains the age of eighteen or is no longer incapacitated, whichever is applicable.

Any benefit payable to, or for the benefit of, a child or children under the age of eighteen years pursuant to this section shall be paid beyond the age of eighteen years through the age of twenty-five years in such cases where the child is a full-time student at a regularly accredited college, business school, nursing school, school for technical or vocational training or university, but such benefit shall cease whenever the child ceases to be a full-time student. A college or university shall be deemed to be regularly accredited which maintains membership in good standing in a national or regional accrediting agency recognized by any state college or university.

B. *Accidental Death in Line of Duty.* Upon the receipt of evidence and proof that a participant died as the result of an accident or exposure at any time, or place, provided that at such time or place the participant was in the actual performance of his duty as a firefighter and, in the case of an exposure, while in response to an emergency call, or was acting pursuant to orders, there shall be paid in lieu of all other benefits the following benefits:

1. A retirement income to the widow(er) during the person's widowhood of fifty percent of the deceased participant's average final compensation, plus ten percent of such compensation to or for the benefit of each unmarried dependent child of the deceased participant, who is either under the age of eighteen, or

who is totally and permanently mentally or physically incapacitated, regardless of age, but not in excess of a total of three children, including both classes, and paid as the Board of Trustees in its discretion directs.

2. If no widow(er) benefits are payable pursuant to Subsection B.1 of this section, the total income that would have been paid had there been a widow(er) shall be divided among the unmarried dependent children under the age of eighteen and such unmarried children, regardless of age, who are totally and permanently mentally or physically incapacitated, and paid to, or for the benefit of, each such child, as the Board of Trustees in its discretion directs, until the respective child attains the age of eighteen or is no longer incapacitated, whichever is applicable.

3. Any benefit payable to, or for the benefit of, a child or children under the age of eighteen years pursuant to Subsection B.1 and 2 of this section shall be paid beyond the age of eighteen years through the age of twenty-five years in such cases where the child is a full-time student at a regularly accredited college, business school, nursing school, school for technical or vocational training or university, but such benefit shall cease whenever the child ceases to be a student. A college or university shall be deemed to be regularly accredited which maintains membership in good standing in a national or regional accrediting agency recognized by any state college or university.

4. Wherever any dependent child designated by the Board of Trustees to receive benefits pursuant to this section is in the care of the widow(er) of the deceased participant, the child's benefits may be paid to the widow(er) for the child.

5. The widow(er) of a participant with at least twenty full years of service as of the effective date who receives such a death benefit shall receive a refund of the contributions of the participant to the plan, without interest.

The benefit of a widow(er) entitled to a death benefit in accordance with Subsection B.1 of this section whose participant spouse died on the scene of a fire as a direct and proximate cause of an accident that occurred while the participant was engaged in the actual performance of his duty as a firefighter shall be increased from fifty percent to sixty-two and one-half percent.

C. *Funeral Expenses.* In addition to any other death benefit to which a participant may be entitled, whenever an active or retired participant shall die, the Board of Trustees shall pay from the Trust a sum of two thousand dollars to the widow(er) or beneficiary of the participant for funeral expenses.

D. *Accumulated Contributions.* A beneficiary shall be repaid the total amount of the contributions to the plan, without interest, made by a deceased participant with at least twenty full years of service as of the effective date who died while employed in covered employment, upon receipt of proof of the death of the participant. (1994 C., § 4.19.080; Ord. No. 70248, §§ 25—27, 3-22-2016; Ord. No. 69353, §§ 19—22, 12-28-2012; Ord. No. 69245, § 2, 7-29-2012.)

4.19.090 Limitations of benefits.

Notwithstanding any other provisions of the Plan to the contrary, the member contributions paid to and retirement benefits paid from the plan shall be limited to such extent as may be necessary to conform to the requirements of Section 415 of the Code for a qualified pension plan pursuant to policies adopted by the Board of Trustees, which are incorporated herein by reference. (1994 C., § 4.19.090; Ord. No. 70248, § 28, 3-22-2016; Ord. No. 69245, § 2, 7-29-2012.)

4.19.100 Payment of benefits.

A. *Claim for Benefits.* No pension or other benefit shall be payable under this plan to any participant or beneficiary except as expressly provided for in this section. The Board of Trustees shall authorize payments under this plan.

No pension or other benefit shall be payable until the participant or beneficiary shall have filed a claim for benefits with the Board of Trustees or its designated representative. Such claim must be submitted in writing on a form provided by, or suitable to, the Board of Trustees at least thirty days but not more than ninety days prior to the date on which payments begin. Notwithstanding the foregoing sentence, the Administrator may permit a retroactive annuity starting date for commencement of monthly benefits payable to a participant or beneficiary. The Board of Trustees may require any applicant to furnish it with such information or identification as may be reasonably necessary, including a copy of the participant's death certificate, if applicable.

B. *Latest Time of Payment.* This section does not contain the general rules of the plan governing the time and form of distribution. In particular, this section in and of itself does not give any right to a participant or beneficiary to defer distributions beyond the time of

distribution provided in the preceding sections. The provisions of this section shall apply only to the extent they specifically override the other provisions of this plan governing the payment of pensions.

Notwithstanding anything to the contrary in the plan and regardless of any election of the participant, distribution of the participant's retirement benefit shall commence no later than the participant's required beginning date. The required beginning date of a participant is April 1 of the calendar year following the later of (i) the calendar year in which the participant attains age seventy and one-half; and (ii) the calendar year in which the participant incurs a termination of employment.

The participant's entire interest under the plan shall be distributed in the form of nonincreasing periodic annuity payments beginning on the participant's required beginning date and extending over the life of the participant or the joint lives of the participant and a designated beneficiary (as determined in accordance with Treas. Reg. § 1.401(a)(9)-4), or over a period not extending beyond the life expectancy of the participant or the joint life expectancy of the participant and a designated beneficiary.

If a participant dies after payments have begun in accordance with the immediately preceding paragraph but before the participant's entire interest has been distributed, the remaining portion of such interest shall be distributed at least as rapidly as under the method of distribution in effect as of the date of the participant's death. If a participant dies before payments have begun in accordance with the immediately preceding paragraph, the entire interest of the participant shall be distributed:

1. If payable to (or for the benefit of) a designated beneficiary in a form other than a single sum distribution, over the life of the designated beneficiary (or over a period not extending beyond the life expectancy of such beneficiary), beginning not later than one year after the date of the participant's death, or if the sole designated beneficiary is the participant's surviving spouse, by December 31 of the calendar year in which the participant would have attained age seventy and one-half, if later; and

2. If payable to (or for the benefit of) a designated beneficiary in the form of a single sum distribution, the entire interest of the participant shall be distributed within five years after the participant's death.

If the surviving spouse described in Subsection 1 above dies before the distributions to such spouse begin, this subdivision shall be applied as if the surviving spouse were the participant.

All distributions required under this section shall be determined and made in accordance with Section 401(a)(9) of the Code and Treas. Reg. §§ 1.401(a)(9)-2 through 1.401(a)(9)-9, including the incidental death benefit requirements of Section 401(a)(9)(G) of the Code and Treas. Reg. thereunder. The requirements of this section will take precedence over any inconsistent provisions of the plan. The provisions of Section 401(a)(9) of the Code, including the incidental death benefit requirements of Section 401(a)(9)(G), and the regulations thereunder, are hereby incorporated by reference.

C. *Payments to Legal Incompetents.* If the Board of Trustees shall receive satisfactory evidence that a participant or beneficiary entitled to receive any benefit under this plan is, at the time when such benefit becomes payable, physically unable or mentally incompetent to receive such benefit and to give a valid release therefor and that another person or an institution is then maintaining or has custody of such participant or beneficiary, and that no guardian or other representative of the estate of such participant or beneficiary shall have been duly appointed, then the Board of Trustees may authorize payment of such benefit otherwise payable to such participant or beneficiary to such other person or institution, and the release of such other person or institution shall be valid and complete discharge for the payment of such benefit.

D. *Misstatement in Application for Pension.* If any participant or any beneficiary in his application for a pension or in response to a request of the Board of Trustees for information gives any material fact which is erroneous or omits any material fact or fails before receiving his first payment to correct any material fact that he previously incorrectly furnished, the amount of his annuity shall be corrected and/or adjusted on the basis of the correct information and the amount of any overpayment or underpayment theretofore made to such participant shall be deducted from or added to his next succeeding payments as the Board of Trustees shall direct. (1994 C., § 4.19.100; Ord. No. 70248, §§ 29, 30, 3-22-2016; Ord. No. 69245, § 2, 7-29-2012.)

4.19.110 Special payment rules.

A. *Offset of Benefits.* Notwithstanding anything to the contrary in this chapter, any amounts paid by the

City under the provisions of the Workers' Compensation Law of the State of Missouri to a participant, or to the dependents of a participant on account of any disability or death, shall be offset against and payable in lieu of any benefits payable out of the trust fund.

B. *Benefits for Re-Hired Retirees.* If a participant is re-employed after his or her annuity starting date, pension payments shall be suspended while the participant is re-employed as an active employee. Such a participant shall continue to accrue benefits based on years of service, if any, credited after such re-employment. The participant's benefit shall be recomputed upon a subsequent termination of employment in accordance with the terms of the plan in effect at such time.

C. *Qualified Domestic Relations Orders.* In the event the former spouse of a participant is entitled to a benefit under this plan pursuant to a qualified domestic relations order, as described in Section 414(p) of the Code, such former spouse may receive such benefit in the form of a single life annuity for the lifetime of such spouse commencing on or after such participant attains his early retirement date. The monthly amount of such a single life annuity shall be determined so that such benefit is the actuarial equivalent, determined as of the benefit commencement date in accordance with Section 4.19.020.B, of the portion of the accrued benefit of the participant payable to the former spouse pursuant to the qualified domestic relations order. Notwithstanding anything to the contrary in the plan, the accrued benefit of a participant shall be reduced by an amount equal to the actuarial equivalent of any benefit paid to his former spouse pursuant to a qualified domestic relations order.

To the extent a former spouse is treated as the spouse of the participant by reason of a qualified domestic relations order, any current spouse of the participant shall not be treated as the spouse. Where, because of a qualified domestic relations order, more than one individual is to be treated as the spouse of a participant, the total amount paid from the plan shall not exceed the amount that would be paid if there were only one spouse.

No benefit shall be payable to a former spouse pursuant to a qualified domestic relations order, as described in Section 414(p) of the Code, until the former spouse shall have filed a claim for benefits with the Board of Trustees or its designated representative. Such a claim must be submitted in writing on a form provided by or suitable to the Board of Trustees at least fifteen days prior to the date on which payments begin. Payments to a former spouse in the form prescribed in this section may be made prior to the time payments are made to the participant.

D. *Direct Rollover of Eligible Rollover Distributions.* For purposes of compliance with Section 401(a)(31) of the Code, notwithstanding any provision of the Plan to the contrary that would otherwise limit a distributee's election under this section, a distributee may elect, at the time and in the manner prescribed by the Board of Trustees, to have any portion of an eligible rollover distribution, if any, paid directly to an eligible retirement plan specified by the distributee in a direct rollover.

Definitions.

1. *Eligible rollover distribution:* An eligible rollover distribution is any distribution of all or any portion of the balance to the credit of the distributee, except that an eligible rollover distribution does not include:

a. Any distribution that is one of a series of substantially equal periodic payments (not less frequently than annually) made for the life (or the life expectancy) of the distributee or the joint lives (or joint life expectancies) of the distributee and the distributee's designated beneficiary, or for a specified period of ten years or more;

b. Any distribution to the extent such distribution is required under Section 401(a)(9) of the Internal Revenue Code;

c. The portion of any distribution that is not includible in gross income; provided, however, a portion of a distribution shall not fail to be an eligible rollover distribution merely because the portion consists of after-tax employee contributions that are not includible in gross income, but such portion may be transferred only:

i. To an individual retirement account or annuity described in Section 408(a) or (b) of the Code or to a qualified defined contribution plan described in Section 401(a) of the Code that agrees to separately account for amounts so transferred (and earnings thereon), including separately accounting for the portion of the distribution that is includible in gross income and the portion of the distribution that is not so includible;

ii. To a qualified defined benefit plan described in Section 401(a) of the Code or to an annuity contract described in Section 403(b) of the Code, that agrees to

separately account for amounts so transferred (and earnings thereon), including separately accounting for the portion of the distribution that is includible in gross income and the portion of the distribution that is not so includible; or

iii. To a Roth IRA described in Section 408A of the Code; and

d. Any other distribution which the Internal Revenue Service does not consider eligible for rollover treatment, such as certain corrective distributions necessary to comply with the provisions of Section 415 of the Internal Revenue Code or any distribution that is reasonably expected to total less than $200.00 during the year. The definition of eligible rollover distribution also includes a distribution to a surviving spouse.

2. *Eligible retirement plan:* An eligible retirement plan is any of the following that accepts the distributee's eligible rollover distribution:

a. An individual retirement account described in Section 408(a) of the Code,

b. An individual retirement annuity described in Section 408(b) of the Code,

c. An annuity plan described in Section 403(a) of the Code,

d. A qualified trust described in Section 401(a) of the Code,

e. An annuity contract described in Section 403(b) of the Code,

f. A plan eligible under Section 457(b) of the Code that is maintained by a state, political subdivision of a state, or any agency or instrumentality of a state or a political subdivision of a state that agrees to separately account for amounts transferred into that plan from the retirement system, or

g. A Roth IRA described in Section 408A of the Code.

3. *Distributee:* A distributee includes an employee or former employee. In addition, the employee's or former employee's surviving spouse and the employee's or former employee's spouse or former spouse who is the alternate payee under a qualified domestic relations order, as defined in Section 414(p) of the Code, are distributees with regard to the interest of the spouse or former spouse. A distributee further includes a nonspouse beneficiary who is a designated beneficiary as defined by Section 401(a)(9)(E) of the Code. However, a nonspouse beneficiary may only make a direct rollover to an individual retirement account or individual retirement annuity established for the purpose of receiving the distribution, and the account or annuity shall be treated as an "inherited" individual retirement account or annuity.

(4) *Direct rollover:* A direct rollover is a payment by the Plan to the eligible retirement plan specified by the distributee.

E. *Anti-Assignation.* Benefits provided under the plan may not be assigned or alienated except otherwise provided by law. (1994 C., § 4.19.110; Ord. No. 70248, §§ 31, 32, 3-22-2016; Ord. No. 69245, § 2, 7-29-2012.)

4.19.120 Funding.

A. *Pension Fund.* The City shall establish a trust fund into which it shall make contributions at such times and in such amounts as the actuary shall determine to keep the trust fund actuarially sound with respect to the obligation to pay the benefits under the plan. The assets in the trust fund shall be held by the Trustee for the exclusive benefit of the participants and beneficiaries and at no time prior to the satisfaction of all of the liabilities under the plan to pay benefits to participants and beneficiaries shall any part of the trust fund be used for or diverted to any purpose other than for their exclusive benefit or to pay administrative expenses of the plan, except as specifically provided in this plan. The Trust Fund must not revert, and no contributions shall be permitted to be returned, to the City, except due to a mistake of fact as permitted by Revenue Ruling 91-4.

B. *Annual actuarial examination.* At least once each year, the Board of Trustees shall cause the liabilities of the plan with respect to retirement benefits to be evaluated by an actuary who shall report on the soundness and solvency of the trust fund in relation to such liabilities and on the amount of the contribution for the year which is appropriate to keep the trust fund actuarially sound with respect to the obligation to pay the benefits under the plan. Except as described below, each such report shall be delivered to the City's Budget Director no later than March 1 of each year.

The actuary shall use the entry age normal method, amortizing the unfunded accrued liability as a level percent of payroll over a closed thirty-year period. If the Board of Trustees fails to provide the actuarial valuation on or before the deadline for a plan year, the amount of the contribution for such year shall be determined by an actuary retained by the City.

The Board of Trustees shall retain actuaries in accordance with the policies established by the Board of

Trustees as may be revised or amended by the Board of Trustees from time to time. The actuaries retained by the Board of Trustees may be the same actuaries retained by the Board of Trustees of the Firemen's Retirement System.

At least every five years, the Board of Trustees shall engage the actuary to review the mortality, service and compensation experience of the participants and beneficiaries of the plan and update mortality and other assumptions as appropriate.

C. *Rights of participants.* No person shall have any financial interest in, or right to, any benefits or assets in the trust fund, except as expressly provided for in this plan. The payment of all benefits accrued under this plan is hereby made an obligation of the City.

D. *Return of employer contributions.* In the event a contribution by the City is made by reason of a mistake of fact, the excess of the amount contributed over the amount that would have been contributed had there not occurred a mistake of fact (without earnings attributable to such excess, but after reduction of losses attributable thereto) must be returned to the City within one year of such a mistaken payment.

(1994 C., § 4.19.120; Ord. No. 71818, § 5, 3-7-2024; Ord. No. 70248, §§ 33—35, 3-22-2016; Ord. No. 69353, §§ 23, 24, 12-28-2012; Ord. No. 69245, § 2, 7-29-2012.)

4.19.130 Trust fund investments.

A. *Trust Fund.* The funds accumulated under the plan shall be held in trust for the exclusive benefit of the participants of the plan and their beneficiaries by the Board of Trustees in accordance with this section.

B. *Investment of Trust Assets.* The Board of Trustees shall have the authority and discretion to invest the assets of the plan in accordance with this section, except to the extent that the authority to manage, acquire or dispose of assets of the plan is delegated to one or more investment managers. The Board of Trustees may, but shall not be required to, appoint an investment manager or managers to manage all or any portion of the assets of the trust fund. An investment manager shall have the authority and discretion to manage and control the assets of the plan assigned to it by the Board of Trustees, in accordance with the agreement between the investment manager and the Board of Trustees. The Board of Trustees shall not be obligated to invest or otherwise manage any assets of the plan so assigned to an investment manager, nor shall the Board of Trustees be liable for the acts or omissions of such an investment manager.

The selection of investment managers shall be based solely on sound investment principles in the best interest of the Trust Fund for the best interests of the Plan participants and beneficiaries. No member of the Board of Trustees shall have any personal interest in the selection of an investment manager, except benefits from an interest in investments common to all participants in the Plan. The Board of Trustees shall keep a record of the process for the selection of investment managers, which shall be open to public inspection except as provided by law.

Upon transfer of the assets of the prior plan to the trust fund, each investment manager of assets of the prior plan shall continue to manage the assets assigned to it at the time of the transfer, until the Board of Trustees removes such investment manager or reduces the amount of assets assigned to it.

C. *Standard of Care.* The Board of Trustees shall invest and manage the assets of the trust fund as a prudent investor would, taking into account the purposes, terms, distribution requirements, and other circumstances of the plan. In satisfying this standard, the Board of Trustees shall exercise reasonable care, skill and prudence. No member of the Board of Trustees shall have any interest in the gains or profits made on any investment, except benefits from an interest in investments common to all participants in the plan.

D. The general administration and the responsibility for the proper operation of the plan shall be vested in a Board of Trustees comprised of eight (8) persons. The Board shall be constituted as follows:

1. Chief of the St. Louis Fire Department, as an ex officio member;

2. Comptroller or Deputy Comptroller if designated by the Comptroller to serve in the Comptroller's stead, as an ex officio member;

3. Two (2) members appointed by the Mayor each of who shall serve for a term of two (2) years;

4. Three (3) members who shall be participants of the plan to be elected by the participants of the plan each of who shall serve for a term of three (3) years but only so long as they remain a participant of the plan;

5. One (1) Board member who shall be a retired City of St. Louis firefighter to be elected by the retired firefighters who shall hold a term of office of three (3) years.

Upon a vacancy on the Board of Trustees the vacant seat shall be filled in the same manner provided in this chapter for the unexpired term of the preceding member.

Members of the Board of Trustees shall serve without compensation, but shall be reimbursed for all necessary expenses which they may incur in fulfilling their duties and responsibilities as members of the Board of Trustees.

Each Trustee shall within ten (10) days after their appointment or election to the Board of Trustees shall take an oath of office administered by the Clerk of the Circuit Court of the City of St. Louis, that so far as it devolves upon them they will diligently and honestly carryout their responsibilities and duties as members of the Board of Trustees and administer the affairs of the Board of Trustees, and that they will not knowingly violate or knowingly permit to be violated any of the applicable provisions of the laws and regulations which govern the plan. Said oath shall be subscribed to by the Trustee, certified by the Clerk of the Circuit Court and maintained in the files of the Clerk of the Circuit Court.

Each member of the Board of Trustees shall have one (1) vote on the Board, and at least five (5) votes shall be required in order to pass a motion for any decision of the Board of Trustees.

The above notwithstanding, the individuals constituting the Board of Trustees of the Firemen's Retirement System of St. Louis shall also constitute the Board of Trustees of the plan unless and until the Firemen's Retirement System Board of Trustees determines by a majority vote that the individuals constituting the Firemen's Retirement System Board of Trustees shall no longer constitute the Board of Trustees of this plan. Upon such a determination by the Board of Trustees of the Firemen's Retirement System said Board shall provide six (6) months' written notice to this plan and to the Mayor of the City of St. Louis so that new members of the Board of Trustees of the plan may be appointed or elected, and take the office no later than six (6) months after receipt of said written notice.

E. *Powers of the Board of Trustees.* Without limiting the powers of the Trustees, the Trustees are authorized and empowered:

1. To invest the trust fund in such bonds, notes, debentures, mortgages, insurance contracts, trust certificates, preferred or common stocks or in any other property, real or personal, as the trustees may deem advisable; and to hold in cash such portion of the trust fund as shall be reasonable under the circumstances, pending investment or payment of expenses or distribution of benefits;

2. To sell, exchange, convey, transfer or dispose of and also to grant options with respect to any property, whether real or personal, at any time held by it; any sale may be made by private contract or by public auction; and no person dealing with the trustees shall be bound to see to the application of the purchase money or to inquire into the validity, expediency or propriety of any such sale or other disposition;

3. To retain, manage, operate, repair and improve and to mortgage or lease for any period any real estate held by the Board of Trustees;

4. To compromise, compound and settle any debt or obligation due to or from it as trustee hereunder and to reduce the rate of interest on, to extend or otherwise modify, to foreclose upon default, or to otherwise enforce any such obligation;

5. To vote in person or by proxy on any stocks, bonds or other securities held by it; to exercise any options appurtenant to any stocks, bonds or other securities for the conversion thereof into other stocks, bonds or other securities or to exercise any rights to subscribe for additional stocks, bonds or other securities and to make any and all necessary payments; to join in, or to dissent from, and to oppose the reorganization, recapitalization, consolidation, sale or merger of corporations or properties in which it may be interested as trustees, upon such terms and conditions as they may deem wise, and to accept any securities which may be issued upon any such reorganization, recapitalization, consolidation, sale or merger;

6. To make, execute, acknowledge and deliver any and all deeds, leases, assignments and any and all other instruments that may be necessary or appropriate to carry out the powers herein granted;

7. Subject to the limitations set forth in this chapter, to enforce any right, obligation or claim and, in general, to protect in any way the interests of the trust fund, either before or after default, and, where it shall consider such action in the best interest of the trust fund to abstain from the enforcement of any right, obligation or claim and to abandon any property, whether real or personal, which at any time may be held by it;

8. To cause any investment from time to time held by it to be registered in, or transferred to, their name as

trustees or in the name of their nominee, or to retain in book entry or unregistered form or in a form permitting transferability by delivery; provided, that the books and records of the Board of Trustees shall at all times show that all such investments are part of the trust fund;

9. To do all acts which it may deem necessary or proper, and to exercise any and all of the powers of the trustees under this plan upon such terms and conditions as it may deem to be in the best interest of the trust fund, as established in this chapter;

10. To invest and reinvest all or any part of the trust fund through the medium of any common, collective or commingled trust fund maintained by state and federally chartered financial institutions (which institution may be the trustee or affiliated with the trustee) as the same may have heretofore been or may hereafter be established or amended, which is qualified under the provisions of Section 401(a) of the Code and exempt under Section 501(a) of the Code, and during such period of time as an investment through any such medium shall exist, the declaration of trust of such fund shall constitute a part of the plan;

11. To invest assets of the trust fund in deposits of a bank or similar financial institution that bear a reasonable rate of interest;

12. To establish an investment policy, which sets out investment objectives, goals and guidelines for the investment of the assets over which the Board of Trustees or an Investment Manager has discretionary control; and

13. To enforce collection of receivables, including an obligation of the City to make a contribution to the plan.

F. *Removal of Trustee.* The Mayor of the City of St. Louis may remove a member of the Board of Trustees appointed by the Mayor.

G. *Audit.* At the direction of the Director of Personnel, the Board of Trustees shall obtain an audit by an unrelated accounting or pension consulting firm to verify that the directions of the Trustees, and the payments from the plan, are made in accordance with the terms of the plan. The unrelated accounting firm retained by the Board of Trustees to conduct the audit may be the accounting firm retained by the Firemen's Retirement System Board of Trustees to conduct its audit.

H. *Bond.* Each member of the Board of Trustees shall be bonded for at least $500,000.00, or any other amount set by the Director of Personnel. The bond shall provide protection to the plan against loss to the plan by reason of acts of fraud or dishonesty, or intentional disregard of the terms of the plan.

(1994 C., § 4.19.130; Ord. No. 71818, §§ 6, 7, 3-7-2024; Ord. No. 70248, §§ 36—38, 3-22-2016; Ord. No. 69353, § 25, 12-28-2012; Ord. No. 69245, § 2, 7-29-2012.)

4.19.140 Administration—Powers and duties of Trustees.

A. *Plan Administrator.* The authority and responsibility for the interpretation, operation and general administration of the plan shall be vested in the Board of Trustees.

B. *Duties of Plan Administrator.* The Board of Trustees shall have the discretionary authority and responsibility to interpret and manage the plan and exercise all fiduciary responsibilities with respect to the plan. The duties and powers of the Board of Trustees as Plan Administrator shall include, but not be limited to, the following:

1. To interpret the plan provisions and to decide all questions concerning the plan and the eligibility of any employee to participate in the plan and to receive benefits from the plan;

2. To authorize the payment of benefits at such times and in such manner as they determine are consistent with the terms of the plan;

3. To keep accurate and detailed records of the administration of the plan, including the amount of accumulated contributions credited to the account of each participant, which records shall be open to inspection by the City at all reasonable times;

4. To establish and enforce such rules, regulations and procedures as it shall deem necessary or proper for the efficient administration of the plan;

5. To delegate to any agents such duties and powers, both ministerial and discretionary, as it deems appropriate, by an instrument in writing which specifies which such duties are so delegated and to whom each such duty is so delegated; and

6. To keep a record of all its proceedings, which shall be open to public inspection, and to publish annually a report showing the fiscal transactions of the plan for the preceding plan year and the financial statement showing the assets of the plan.

7. Correction of Errors. The Board of Trustees may correct and/or adjust the benefits of any person who shall make any false statement, or shall falsify or

permit to be falsified any record or records. Should any change or error in records result in any participant or beneficiary receiving from the retirement system more or less than he or she should have been entitled to receive had the records been correct, the Board of Trustees shall correct the error, and as far as practicable, shall adjust the payments in such a manner that the actuarial equivalent of the benefit to which the participant or beneficiary was correctly entitled, shall be paid.

Notwithstanding any other provision of this chapter, the Board of Trustees shall have no duty or authority with respect to the establishment, design, amendment or termination of the plan, which is reserved to the City. Such functions are settlor functions, which are reserved to the City, not fiduciary functions, in accordance with trust law.

C. *Written Instructions and Information.* All claims, elections, instructions and requests by a participant must be made in writing to the Board of Trustees. Each participant shall furnish the Board of Trustees any requested information as needed to administer the plan. The City shall furnish the Board of Trustees with the information needed to administer the plan.

D. *Compensation of actuaries and money managers.* All actuaries and investment managers may receive reasonable compensation from the trust fund for services rendered to plan or trust, provided that no person providing such services to the plan who already receives full-time pay from the City for performing such services shall receive compensation from the trust fund except for reimbursement of expenses properly and actually incurred. The investment managers may be the same investment managers retained by the Firemen's Retirement System.

E. *Allocation and delegation procedures.* The Board of Trustees may appoint one or more of its members to carry out any particular duty or duties or to execute any and all documents on its behalf. Any documents so executed shall have the same effect as though executed by all the members. Such appointments shall be made by an instrument in writing that specifies what duties and powers are so allocated and to whom each such duty or power is so allocated. The Board of Trustees may delegate to any agents (including the Trustee) such duties and powers, both ministerial and discretionary, as it deems appropriate, by an instrument in writing which specifies which such duties are so delegated and to whom each such duty is so delegated. In addition to the written appointments permitted above, the Board of Trustees shall appoint a five-person Disability Board from the members of the Board of Trustees, which Disability Board shall consist of the Comptroller or Deputy Comptroller of the City, ex officio, the two (2) Board of Trustee members appointed by the Mayor of the City and two (2) additional Board of Trustee members designated from time to time by the Chairman of the Board of Trustees.

F. *Indemnification of board of trustees.* The plan shall indemnify any person serving on the Board of Trustees against all liabilities and claims (including reasonable attorneys' fees and expenses in defending against such liabilities and claims) other than liability arising out of a breach of fiduciary responsibility caused by the action of such person, liability for acting outside the scope of the person's authority, including, but not limited to, the authority and limitations stated in this Section 4.19.140, and liability for directing payment of benefits that are not made pursuant to a reasonable, good faith interpretation of the explicit terms of the plan.

G. *Officers and employees.* The plan's Board of Trustees shall elect a chairman from its members by a majority vote and may designate an individual to take notes at the meeting and to draft minutes of the meeting to submit to the Board of Trustees for approval. The individual designated to take notes may, but shall not be required to be a member of the Board of Trustees. The Board of Trustees shall appoint all employees of the plan and shall direct the work of said plan employees in accordance with the rules, policies and procedures established by the Board of Trustees. Relatives of members of the Board of Trustees shall not be employed to perform any services for its plan or Board of Trustees or receive any compensation from the Trust Fund. The Board of Trustees may retain employees of the plan appointed by the City Director of Personnel until such time as the Board of Trustees determines that the employees of the Firemen's Retirement System are prepared to perform the work for the plan. During such time as the employees appointed by the Director of Personnel are working for the plan the Board of Trustees and not the Director of Personnel shall direct the work of such employees. As long as individuals constituting the Board of Trustees of the Firemen's Retirement System also constitute the Board of Trustees of the plan, then once the employees of the Firemen's Retirement System are performing work for the

plan, the plan will not pay said employees directly from the plan trust fund but shall instead reimburse the Firemen's Retirement System for its share of the cost of the work performed by said employees of the Firemen's Retirement System for the plan. Employees of the Firemen's Retirement System shall not perform work for the plan if the individuals constituting the Board of Trustees of this plan and the Board of Trustees of the Firemen's Retirement System are not the same individuals.

(1994 C., § 4.19.140; Ord. No. 71818, §§ 8, 9, 13, 3-7-2024; Ord. No. 70248, §§ 39—41, 3-22-2016; Ord. No. 69353, §§ 26, 27, 12-28-2012; Ord. No. 69245, § 2, 7-29-2012.)

4.19.150 Claims and review procedure.

A. *Claims for Benefits.* A participant or beneficiary who believes that he is being denied or will be denied benefits to which he is entitled under the plan may file a written request for such benefits with the Board of Trustees setting forth his claim.

B. *Written Denials of Claims.* Within ninety days after receipt of the request, the Board of Trustees shall provide to every claimant who is denied a claim for benefits, written notice setting forth in a manner calculated to be understood by the claimant:

1. The specific reason or reasons for the denial;

2. Specific reference to pertinent plan provisions on which the denial is based;

3. A description of any additional material or information necessary for the claimant to perfect the claim and an explanation of why such material or information is necessary; and

4. An explanation of the claim review procedure and the time limits applicable to such procedures.

If special circumstances require an extension of time beyond the initial ninety-day period, prior to the end of such initial ninety-day period the Board of Trustees shall provide to the claimant written notice of the extension, the special circumstances requiring the extension, and the date by which the Board of Trustees expects to render the final decision.

C. Appeal of Denial. Within sixty days after a claim is denied, the claimant or his duly authorized representative may appeal such denial to the Board of Trustees by filing a written notice of appeal of the claim denial with the Board of Trustees, provided that if the claimant or his duly authorized representative fails to file such appeal within sixty days after the claim is denied, the claimant shall be deemed to have waived any right to appeal the denial of the claim. The notice of appeal shall reasonably apprise the Board of Trustees of the reasons and grounds for such appeal and shall specify the scope of review desired by requesting any or all of the procedures as follows:

1. Review, upon request and free of charge, all documents, records and other information in the possession of the Board of Trustees that are relevant to the claim; and

2. Submit written comments, documents, records and other information relating to the claim.

If review of a decision is requested, such review shall include a review of all comments, documents, records and other information submitted by the claimant relating to the claim without regard to whether such information was submitted or considered in the initial determination. Any denial shall inform the claimant of the specific reason or reasons for the denial, refer to the specific Plan provisions on which the denial is based, state that the claimant is entitled to receive, upon request and free of charge, reasonable access to, and copies of all documents, records and other information relevant to the claim. The decision on review shall be final and legally binding on all parties. (1994 C., § 4.19.150; Ord. No. 69245, § 2, 7-29-2012.)

4.19.160 Amendment.

The City reserves the right at any time, and from time to time, to modify or amend the Plan in whole or in part by duly adopting an ordinance, provided that the obligation of the City to make contributions to the Plan, as provided in Section 4.19.120.A, and the provisions relating to the enforcement of that obligation, may not be diminished.

No employee shall have a contractual right to any benefits relating to, or based upon, service rendered or compensation paid after the effective date of an amendment that reduces future benefits.

In the event of a full or partial termination of, or a complete discontinuance of employer contributions to, the Plan, the accrued benefits of the affected participants under the Plan shall be one hundred percent vested and nonforfeitable to the extent funded and to the extent required by federal law. (1994 C., § 4.19.160; Ord. No. 70248, § 42, 3-22-2016; Ord. No. 69353, § 28, 12-28-2012; Ord. No. 69245, § 2, 7-29-2012.)

4.19.170 Miscellaneous.

A. *Rights of employee.* Neither the action of the City in establishing this plan, nor any action taken by an employer or the Trustee, nor any provision of the plan shall be construed as giving to any employee the right to be retained in the employ of the City or the right to any payments other than those expressly in the plan to be paid from the trust fund. The City expressly reserves the right to modify the plan terms and benefits at any time. The City also expressly reserves the right to dismiss any Employee without any liability for any claim against such employer or against the trust fund other than with respect to the benefits provided for by the plan. Nothing in the plan shall allow for an amendment to Chapter 4.18, Firemen's Retirement System, to be effective without a prior amendment to RSMo Ch. 87 containing the same language.

B. *Prohibited transactions.* The Board of Trustees may not engage in a transaction prohibited by Section 503(b) of the Code.

C. *Notice of address.* Each person entitled to benefits under this plan must file with the Board of Trustees, in writing, his Social Security number, his post office address and each change of post office address. Any communication, statement, or notice addressed to such person at his latest post office address as filed with the Board of Trustees will be binding upon such person for all purposes of the plan, and neither the Trustee nor the Board of Trustees shall be obliged to search for or to ascertain the whereabouts of any such person.

D. *Rules of construction.* The terms and provisions of this plan shall be construed in accordance with the meaning under, and which will bring the plan into conformity with Section 401(a) of the Code, and in accordance with the laws of the State of Missouri. The plan shall be deemed to contain the provisions necessary to comply with such laws. If any provision of this plan shall be held illegal or invalid, the remaining provisions of this plan shall be construed as if such provision had never been included and such remaining provisions shall remain valid and operative; provided that the benefits accrued under the prior plan on account of earnings and service before the effective date shall be assumed by and paid under this plan if and only if the assets of the prior plan are merged into the trust fund under this plan in accordance with Section 4.19.010.E. Wherever applicable, the masculine pronoun as used herein shall include the feminine, and the singular shall be the plural.

E. *Legal action.* No action may be brought in law or equity to recover under this plan until the claims and review procedures of Section 4.19.150 have been exhausted with respect to a claim; and no action may be brought after one year of the final denial of an appeal pursuant to Section 4.19.150.C.

In the event of a failure or refusal by the Trustees to administer the plan according to the terms of the ordinances governing FRP, or if the Trustees act in manner contrary to their scope of authority, including, but not limited to, the authority and limitations stated in Section 4.19.140, the City may seek and pursue any or all legal remedies to enforce adherence to the terms and conditions stated in the ordinances governing FRP, including, but not limited to, a suit for injunction, writ of mandamus or prohibition or court appointment of a successor Trustee.

If an advanced starting salary is necessary, the Appointing Authority may establish a recruitment rate for a single position or all positions in a class and authorize employment at a figure above the minimum but within the regular range of salary established for the class.

An employee who is promoted, demoted, transferred, or whose position is reallocated or reassigned after the effective date of this chapter, shall have his or her rate of pay for the new position determined as follows:

(b) *Demotion:* This shall be defined as a change of an employee from a position of one class to a position of another class which has a lower pay grade.

(1) If an employee is demoted for disciplinary reasons his or her rate of pay shall be established at a rate within the range for the new position to be determined by the Appointing Authority.

(c) *Transfer:* The salary rate of an employee who transfers to a different position in the same class, or from a position in one class to a position in another class in the same pay grade, shall remain unchanged, provided that no employee shall be paid less than the minimum rate nor more than the maximum rate for the new class of position, except as otherwise provided in this chapter.

(d) *Reallocation:*

(1) The salary of an employee which is in excess of the maximum of the range prescribed by this chapter for the class and grade to which his or her position has been allocated or may be reallocated shall not be reduced by reason of the new salary range and grade. The salary of such employee shall not be increased so long as he or she remains in the class of position, except as otherwise provided by this chapter.

(2) If the employee's position is reallocated to a class in a lower pay grade and the rate of pay for the previous position is within the salary range of the new position, his or her salary shall remain unchanged.

(3) The salary of an employee whose position is allocated to a class in a higher pay grade shall be determined in accordance with the provisions of this Section 4.26.022(a)(1) relating to salary advancement on promotion.

4.36.030 Shift differential compensation—Maximum salary—Increases.

A. A shift differential compensation for certain work assignments may be paid. The appointing authority shall determine the work assignments or activities performed for which shift differential compensation shall be paid.

Before shift differential compensation may be made an employee must have completed five (5) hours of regular employment before 7:00 a.m. or five (5) hours after 3:00 p.m. in the twenty-four-hour period which begins at the employees' normal reporting time. An employee shall be paid one and zero one-hundredths (1.00) percent of the employee's regular base bi-weekly rate for each eligible shift worked in a bi-weekly pay period. An employee shall work a complete eligible shift to receive shift differential compensation.

Shift differential shall not be paid to employees who work part-time, or full-time regular employees docked for any portion of a shift. An employee shall receive shift differential for working a portion of an eligible shift. Shift differential shall only be paid for whole hours worked, providing the portion of the shift not worked is charged to paid leave. A fraction of an hour shall not be counted toward the payment of the differential. An employee shall not receive shift differential compensation for any overtime worked that is not part of their regular schedule.

Employees who work on a Saturday and/or Sunday shall be paid a weekend differential. This differential shall be one and zero one-hundredths (1.00) percent of an employee's base bi-weekly rate and shall not be paid for any overtime worked that is not part of an employee's regular schedule. An employee shall receive weekend differential for working a portion of an eligible day. This differential shall only paid for whole hours worked, providing the portion of the day not worked is charged to paid leave. A fraction of an hour shall not be counted toward the payment of the differential. Weekend differential shall not be paid to employees compensated on an hourly or per-performance basis or to bi-weekly paid employees who work part-time or full-time regular employees docked for any portion of a day. The appointing authority may approve the payment of hiring incentives to recruit qualified personnel for positions that are difficult to fill. Hiring incentives shall be in any amount up to twenty-five (25) percent of the annual salary of the position for which the incentive is to be paid.

An employee who is appointed to a position requiring advanced technical skills or professional qualifications may be paid at a rate up to ten (10) percent higher than prescribed for the class. Such advancement shall be made solely on the basis that the employee possesses exceptional academic qualifications related to the duties of the position. The appointing authority may also establish other bonus, incentive, or reimbursement programs to encourage current employees to attain registration, licensure, certification, or proof of professional mastery when it is deemed to be in the best interest of the service, or when such credentials are clearly recognized as adding to the capability of individuals in that area. Incentives, bonuses, or reimbursements conveyed under such programs would not result in an employee being ruled ineligible for bonuses or salary increases permitted under other sections of this chapter.

The appointing authority may establish a location allowance for positions which are difficult to fill at specific duty stations. This allowance shall be in an amount up to ten percent of the median of the pay range of the position for which the allowance is to be paid. The location allowance shall be considered an addition to pay and shall not change the employee's base rate.

B. No employee shall be paid at the rate lower than the minimum or higher than the maximum of the salary range established for the class to which his/her position has been allocated, except as otherwise provided in this chapter.

C. When a new employee is approved under Section 57.530 RSMo, 1978, the annual rate of compensation shall be twenty-six (26) times the first or lowest step within each rank or position.

D. Deputies and assistants in the Sheriff's Office may receive such hourly, daily or other rate for special services for special services assigned by the Sheriff, when such special services are for additional work over and above the regularly assigned working hours and

payment of such special service is being taxed as costs in the particular case or circumstance and deposit of such cost is made in advance of such special services.
(1994 C., § 4.36.030; Ord. No. 71968, § 4, 2-11-2025; Ord. No. 71691, § 4, 7-10-2023; Ord. No. 71509, § 5, 6-16-2022; Ord. No. 70053, § 4, 7-16-2015; Ord. No. 69190, § 4, 7-13-2012.)

4.36.040 Starting salary.

The minimum rate of pay for a position shall be paid upon original appointment to the class, unless the appointing authority finds that it is impossible to recruit employees with adequate qualifications at the minimum rate.

If an advanced starting salary is necessary, the appointing authority may establish a recruitment rate for a single position or all positions in a class and authorize employment at a figure above the minimum but within the regular range of salary established for the class.
(1994 C., § 4.36.040; Ord. No. 71968, § 5, 2-11-2025; Ord. No. 71691, § 5, 7-10-2023; Ord. No. 71509, § 6, 6-16-2022; Ord. No. 70053, § 5, 7-16-2015; Ord. No. 69190, § 5, 7-13-2012.)

4.36.050 Promotion, demotion, reallocation and transfer.

An employee who is transferred, promoted, demoted, or whose position is reallocated after the effective date of this chapter, shall have his or her rate of pay for the new position determined as follows:

A. *Promotion.* This shall be defined as a change of an employee from a position of one class to a position of another class with higher pay grade.

1. When an employee is promoted to a position in the General Schedule, the employee's salary shall be set at a rate which is five (5) percent higher than the rate received immediately prior to promotion. The Appointing Authority may approve up to a twenty (20) percent salary adjustment when such action is needed to attract experienced, qualified candidates for a position. Such salary determination shall take into consideration the nature and magnitude of the accretion of duties and responsibilities resulting from the promotion. However, no employee shall be paid less than the minimum rate nor more than the maximum rate for the new class of position, except as otherwise provided in this chapter.

2. Temporary Promotions. Promotions of employees regardless of status, made for a limited duration, shall result in a salary adjustment as in paragraph A.1 of this section. Upon expiration of the temporary promotion, the employee shall be returned to his/her former rate of pay, adjusted by any increases the employee may have received in the absence of the temporary promotion. In no case shall the employee's salary be above the maximum of the salary range.

B. *Demotion.* This shall be defined as a change of an employee to a position of one class to a position of another class which has a lower pay grade.

1. If an employee accepts a voluntary demotion, his or her rate of pay shall be reduce d to a rate within the range for the new position. The appointing authority may approve up to a ten (10) percent salary decrease upon demotion. However, no employee shall be paid less than the minimum nor more than the maximum rate for the new class of position.

C. *Reallocation.*

1. The salary of an employee which is in excess of the maximum of the range prescribed by this chapter for the class and grade to which his or her position has been allocated or may be reallocated shall not be reduced by reason of the new salary range and grade. The salary of such employee shall not be increased so long as he or she remains in the class of position, except as otherwise provided by this chapter.

2. If the employee's position is reallocated to class in a lower pay grade and the rate of pay for the previous position is within the salary range of the new position, his or her salary shall remain unchanged.

3. The salary of an employee whose position is allocated to a class in a higher pay grade shall be determined in accordance with the provisions of this subsection A.1 of this section relating to salary advancement on promotion.

D. *Transfer.* The salary rate of an employee who transfers to a different position in the same class, or from a position in one class to a position in another class in the same pay grade, regardless of pay schedule, shall remain unchanged, provided that no employee shall be paid less than the minimum rate nor more than the maximum rate for the new class of position.
(1994 C., § 4.36.050; Ord. No. 71968, § 6, 2-11-2025; Ord. No. 71691, § 6, 7-10-2023; Ord. No. 71509, § 7, 6-16-2022; Ord. No. 70053, § 6, 7-16-2015; Ord. No. 69190, § 6, 7-13-2012.)

4.36.060 Salary adjustment.

A. A decrease in the salary range for poor performance of the duties of the position or for job perfor-

mance which does not warrant continued pay at an advanced rate in the salary range shall be made in accordance with standards established by the appointing authority.

1. *Exceptional Performance of Duties.* The appointing authority of an employee who demonstrates exceptional performance of duties or outstanding qualifications may advance the employee, by not more than ten (10) percent after twenty-six (26) weeks of employment at a rate in the salary range which may be in addition to any merit increase received.

2. *Substandard Performance of Duties.* The appointing authority of an employee whose level of performance is significantly diminished and no longer warrants payment at the current rate within the range may be decreased to a lower rate in the salary range.

B. The pay of any employee may be decreased as a disciplinary action by an appointing authority to a lower rate or step within a salary range. The decrease shall not be greater than fifteen (15) percent of the employee's current salary rate. In no case shall the decrease be below the minimum of the pay range for the class. The appointing authority may determine that the pay decrease shall be effective for a specific number of bi-weekly pay periods, providing, however, that such decrease shall not be effective for more than twenty six (26) weeks.

C. The appointing authority may establish procedures for the review and approval of within-range salary adjustments to correct or mitigate serious and demonstrable internal pay inequities. Salary adjustment under this provision shall preclude adjustments to compensate or reward employees for long-term or meritorious service.

D. The appointing authority may approve a within range salary adjustment or other incentives to retain employees in positions that are difficult to fill, or because of their unique requirements. Said adjustment may only be granted once during a twenty-six (26) week period.

E. For the purpose of computing earnings and length of service for salary advancement, the time shall start with the Sunday preceding all appointments effective on Monday. Absence from service as a result of vacation, sick leave, jury/witness leave, suspension, nonpaid absence, leave of absence for service in the armed forces, and leaves of absence for study to improve performance of a City job will not interrupt continuous service. Absence from service for any other cause except as set forth above will result in breaking continuity of service.

(1994 C., § 4.36.060; Ord. No. 71968, § 7, 2-11-2025; Ord. No. 71691, § 7, 7-10-2023; Ord. No. 71509, § 8, 6-16-2022; Ord. No. 70053, § 7, 7-16-2015; Ord. No. 69929, § 1, 2-3-2015; Ord. No. 69190, § 7, 7-13-2012.)

No employee shall receive remuneration from the City in addition to the salary authorized in this chapter for services rendered by the employee in the discharge of the employee's ordinary duties, of additional duties which may be imposed upon the employee, or of duties which the employee may undertake or volunteer to perform.

Whenever an employee not on an approved paid leave works for a period less than the regularly established number of hours a day, days a week, or days bi-weekly, the amount paid shall be proportionate to the hours in the employee's normal work week and the bi-weekly rate for the employee's position. The payment of a separate salary for actual hours worked from two (2) or more departments, divisions, or other units of the City for duties performed for each of such agencies is permissible if the total salary received from these agencies is not in excess of the maximum rate of pay for the class.

(1994 C., § 4.36.070; Ord. No. 71968, § 8, 2-11-2025; Ord. No. 71691, § 8, 7-10-2023; Ord. No. 71509, § 9, 6-16-2022; Ord. No. 70053, § 8, 7-16-2015; Ord. No. 69190, § 8, 7-13-2012.)

4.36.080 Conversion.

Any such pay increases shall be adjusted by the employee's anniversary date.

The compensation of the Sheriff in a city not within a county may be annually increased by an amount equal to the annual salary adjustment for employees of such a city as approved by the board of alderman of such city and in accordance with RSMo 57.550.

(1994 C., § 4.36.080; Ord. No. 71968, § 9, 2-11-2025; Ord. No. 71691, § 9, 7-10-2023; Ord. No. 71509, § 10, 6-16-2022; Ord. No. 70053, § 9, 7-16-2015; Ord. No. 69190, § 9, 7-13-2012.)

(1994 C., § 4.36.090; Ord. No. 71968, § 10, 2-11-2025; Ord. No. 71691, § 10, 7-10-2023; Ord. No. 71509, § 11, 6-16-2022; Ord. No. 70053, § 10, 7-16-2015; Ord. No. 69190, § 10, 7-13-2012.)

The City of St. Louis will follow all applicable state and federal laws on the granting of military leave and reemployment rights. Before military leave without pay is authorized, the employee shall present to the employee's appointing authority evidence of such military service. Upon the expiration of military leave of absence, the employee shall be reinstated to the class of position he/she occupied at the time the leave was granted without breaking continuity of service. Failure of an employee to report for duty within the time pursuant to state or federal law shall be just cause for dismissal. The employee's accumulated leave balance(s) shall be restored to the employee upon his/her return.

(1994 C., § 4.36.100; Ord. No. 71968, § 11, 2-11-2025; Ord. No. 71691, § 11, 7-10-2023; Ord. No. 71509, § 12, 6-16-2022; Ord. No. 70053, § 11, 7-16-2015; Ord. No. 69190, § 11, 7-13-2012.)

4.36.110 Leave of absence and family/medical leave.

Employees may request a leave of absence for any reason under the leave policy, or may be eligible for a "family/medical leave of absence" for certain qualifying reasons under provisions of the federal "Family and Medical Leave Act of 1993" as provided in this chapter.

1. An appointing authority, may grant an employee in a competitive position a general leave of absence with pay for a period not to exceed six (6) months, and an additional general leave of absence without pay for a period not to exceed six (6) additional months thereafter, whenever such leave is considered to be in the best interest of the City service. Such non-paid leaves are granted at the discretion of the appointing authority and may be for any reason including an employee's personal illness when the circumstances do not qualify for family/medical leave, or when eligibility for family/medical leave has been exhausted.

Upon the expiration of such leave of absence, the employee shall be reinstated to the competitive position he or she occupied at the time the leave was granted provided he or she is able to perform the duties of the position. The employee shall be reinstated to the position at the same relative rate in the salary range the employee occupied at the time the leave was initiated. Failure of an employee to report for duty promptly at the expiration of the leave shall be just cause for dismissal. If necessary to the efficient conduct of the business of the City, an employee on leave other than military leave or qualifying family/medical leave may be notified by the appointing authority to return prior to the expiration of such leave. Failure of the employee to return within ten (10) days after receipt of such

notice would terminate his/her leave of absence and be just cause for dismissal, subject to any applicable federal, state or local regulations.

2. The federal "Family and Medical Leave Act of 1993" entitles eligible employees to up to twelve (12) weeks of unpaid leave in any twelve-month period for the birth, adoption or placement of a child, to care for a spouse or an immediate family member with a serious health condition, or when the employee is unable to work because of a serious health condition.

While an employee is on a qualifying family/medical leave of absence, the City of St. Louis will continue to pay the employee's health care premiums, if any, during the leave period. Once the leave is concluded, the employee shall be reinstated to the same or an equivalent job. The appointing authority shall establish additional rules, guidelines and procedures for the effective administration of the "Family/Medical Leave Policy." The policy shall comply with all provisions of the "Family/Medical Leave Act of 1993" and any amendments thereafter.

3. Employees who are granted general leaves of absence and other non-paid leaves of absence, except family/medical leaves of absence, must take all accrued vacation and authorized sick leave at the start of the leave of absence. Employees who are granted a non-paid leave of absence will not accrue vacation or sick leave during the period of non-paid leave. Upon the expiration of such leaves of absence, the employee shall follow the procedures as established in this section and any other applicable regulations and procedures as established by the appointing authority.

4. An appointing authority, may place an employee on investigative leave of absence without pay pending the outcome of criminal charges pending against the employee.

(1994 C., § 4.36.110; Ord. No. 71968, § 13, 2-11-2025; Ord. No. 71691, § 12, 7-10-2023; Ord. No. 71509, § 13, 6-16-2022; Ord. No. 70053, § 12, 7-16-2015; Ord. No. 69190, § 12, 7-13-2012.)

4.36.120 Holidays.

Date	Holiday

For example, employees working an average of forty (40) hours a week, five (5) days a week, eight (8) hours a day shall receive eight (8) hours of compensation for the holiday; employees working an average of forty (40) hours a week, four (4) days a week, ten (10) hours a day shall receive ten (10) hours of compensation for the holiday.

When the day of observance of a holiday is changed by state or federal law, it will be so observed by the City of St. Louis. When the day of observance of a holiday is changed by state or federal executive action, the Mayor shall determine the day of observance by the City of St. Louis. When one of the above enumerated holidays occurs on Sunday, the following Monday shall be observed as the holiday. When one of the above holidays occurs on Saturday, the preceding Friday shall be observed as the holiday.

The Sheriff shall determine the manner of granting holidays. When full-time employees are required to work on a holiday they shall be entitled to compensation for the holiday and the hours actually worked. Compensation for the holiday shall be in an amount proportionate to the number of hours an employee is regularly scheduled to work in a day or shift.

Except as otherwise provided in this section, when a City holiday falls on an employee's regularly scheduled day off, the employee shall be entitled to have

compensatory time added to his/her balance in an amount proportionate to the number of hours regularly scheduled in a day or shift.

The holiday compensation procedures established by this section shall apply to full-time employees paid a bi-weekly rate. Part-time bi-weekly paid employees shall be compensated for holidays in proportion to the percentage of time they are regularly scheduled to work. Employees paid on an hourly or per performance basis shall not be entitled to holiday compensation.

In the event that the holiday schedule established in this section is revised, employees who are granted compensatory time in lieu of all holidays shall have their leave benefits adjusted accordingly.

1. Jury leave with pay shall be granted to bi-weekly paid employees working one-half (fifty (50) percent) time or more for such time when such employees are serving as jurors pursuant to order of the St. Louis Circuit Court or Federal District Court in St. Louis. Any bi-weekly paid employee, when so summoned for jury service, shall report such fact within seventy-two (72) hours to his/her appointing authority and display to the appointing authority the summons which the employee has received and shall give the appointing authority in writing the date and the time of such jury service. No bi-weekly paid employee shall receive any compensation from the Jury Commissioner or the Federal District Court system for jury service for days the employee receives compensation from the City. A bi-weekly paid employee may keep the jury stipend for days when the employee receives no compensation from the City (off days, docks, leaves, etc.) Upon being excused from serving as a juror by the Court or the Jury Commissioner, the employee shall report forthwith to his/her appointing authority and shall submit to his/her appointing authority a written statement from the Jury Commissioner certifying that the employee has served as a juror and the time and date so served. The appointing authority shall, upon receipt of the statement of jury service, credit the employee with paid jury leave for such service.

2. Leave with pay shall be granted to bi-weekly paid employees for such time when the employee's presence is required by the prosecutor as a part of a grand jury procedure, a trial in prosecuting accused criminals (or for jury service in Federal Court). Any bi-weekly paid employee, when so subpoenaed as a prosecution witness or whose presence is required as a part of a grand jury inquiry, shall report such fact within seventy-two (72) hours to his/her appointing authority and shall give the appointing authority in writing the date and time his/her presence is required for such criminal prosecution. Each appointing authority shall establish controls to assure that any paid leave is actually required by the prosecuting authority. An appointing authority may require an employee to furnish satisfactory evidence of being required to be off the job and that all time off was in connection with the prosecution of the case. This procedure shall apply for employee participation in criminal prosecution in State or Federal Courts.

4.46.060 Appointments.

The appointing authority is authorized to appoint and employ auditors, field service representatives, administrative officers, custodians and accountants in addition to those enumerated in RSMo 82.390; however, the salaries shall not exceed the amount as set forth in this chapter. (1994 C., § 4.46.060; Ord. No. 62005, § 3, 1990.)

4.46.070 Starting salary.

A. The minimum rate of pay for a position shall be paid upon original appointment to the class, unless the appointing authority finds that it is impossible to recruit employees with adequate qualifications at the minimum rate.

B. If an advanced starting salary is necessary, the appointing authority may establish a recruitment rate for a single position or all positions in a class and authorized employment at a figure above the minimum but within the regular range of salary established for the class. (1994 C., § 4.46.070; Ord. No. 62005, § 4, 1990.)

4.46.080 Promotion, demotion, reallocation and transfer.

An employee who is transferred, promoted, demoted, or whose position is reallocated after the effective date of the ordinance codified in this chapter, shall have his or her rate of pay for the new position determined as follows:

A. *Promotion.* This shall be defined as a change of an employee from a position of one class to a position of class with a higher pay grade.

1. When an employee is promoted to a position in the General or Management Schedule which is only one grade higher, the employee's salary shall be set at a rate which is five percent (5%) higher than the rate received immediately prior to promotion. If the position to which the employee is promoted is two (2) or more grades higher than the original position, the employee's salary shall be set at a rate which is ten percent (10%) higher than the rate received immediately prior to position. The appointing authority may approve up to a fifteen percent (15%) salary adjustment upon promotion when such action is needed to attract experienced, qualified candidates for a position.

2. Such salary determination shall take into consideration the nature and magnitude of the accretion of duties and responsibilities resulting from the promotion. However, no employee shall be paid less than the minimum rate nor more than the maximum rate for the new class of position.

B. *Demotion.* This shall be defined as a change of an employee to a position of one class to a position of another class which has a lower pay grade.

1. If an employee accepts a voluntary demotion, his or her rate of pay shall be reduced to a rate within the range for the new position which is five percent (5%) lower than the rate received immediately prior to demotion. The appointing authority may approve up to a ten percent (10%) salary decrease upon demotion. However, no employee shall be paid less than the minimum nor more than the maximum rate for the new class of position.

C. *Reallocation.*

1. The salary of an employee which is in excess of the maximum of the range prescribed by this chapter for the class and grade to which his or her position has been allocated or may be reallocated shall not be reduced by reason of the new salary range and grade. The salary of such employee shall not be increased so long as he or she remains in the class of position, except as otherwise provided by this chapter.

2. If the employee's position is reallocated to a class in a lower pay grade and the rate of pay for the previous position is within the salary range of the new position, his or her salary shall remain unchanged.

3. The salary of an employee whose position is allocated to a class in a higher pay grade shall be determined in accordance with the provisions of Section 4.46.090 relating to salary advancement on promotion.

D. *Transfer.* The salary rate of an employee who transfers to a different position in the same class, or from a position in one class to a position in another class in the same pay grade, regardless of pay schedule, shall remain unchanged provided that no employee shall be paid less than the minimum nor more than the maximum rate for the new class of position. (1994 C., § 4.46.080; Ord. No. 62005, § 5, 1990.)

Editor's Note:

Ordinance 62005 was passed July 15, 1990.

4.46.090 Salary adjustment.

Salary adjustments for all employees shall be based on considerations of merit in the performance of duties and success in fulfilling predetermined goals and objectives as herein provided:

A. Positions for which salary is established in the General Schedule.

1. Eligibility for within-range merit increases to be effective at the beginning of the first bi-weekly pay period which is paid in each new City fiscal year, shall be determined by the appointing authority. The appointing authority shall grant within-range salary adjustments in any whole dollar increment up to ten percent (10%) of the employee's bi-weekly base salary.

B. The appointing authority may establish additional guidelines for all within-range salary adjustments for classes in the General Schedule to ensure the effective utilization of salary ranges to reward meritorious service.

C. Positions for which salary is established in the Management Schedule.

1. Advancement in the salary range shall be made solely on the basis of demonstrated successful performance of the duties of the position. The increase shall be based on the degree to which the employee's actual job performance materially contributes to the effective management of and increases the total work product of, the organization in a clearly demonstrated manner, either from a quantitative or qualitative standpoint.

2. A decrease in the salary range for poor performance of the duties of the position or for job performance which does not warrant continued pay at an advanced rate in the salary range shall be made in accordance with standards established by the appointing authority.

D. Merit increases shall be fairly distributed in approximate proportion to the personal service budget accorded the various schedules of employees in the agency.

E. The appointing authority may evaluate the performance of an employee whose salary is established in this chapter for the purpose of a salary adjustment only at intervals as described above except in the case of:

1. Exceptional Performance of Duties. The appointing authority of an employee who demonstrates exceptional performance of duties or outstanding qualifications may advance the employee by not more than ten percent (10%) after twenty-six (26) weeks of employment at a rate in the salary range.

2. Substandard Performance of Duties. The appointing authority of an employee whose level of performance is significantly diminished and no longer warrants payment at the current rate within the range may be decreased to a lower rate in the salary range.

F. The pay of any employee may be decreased as a disciplinary action by an appointing authority to a lower rate or step within a salary. The decrease shall not be greater than fifteen percent (15%) of the employee's current salary rate. In no case shall the decrease be below the minimum of the pay range for the class. The appointing authority may determine that the pay decrease shall be effective for a specific number of bi-weekly pay periods; providing, however, that such decrease shall not be effective for more than twenty-six (26) weeks.

G. For the purpose of computing earnings and length of service for salary advancement, the time shall start with the Sunday preceding all appointments effective on Monday. Absence from service as a result of vacation, sick leave, jury/witness leave, suspensions, non-paid absence, leave of absence for service in the armed forces, and leaves of absence for study to improve performance of City job will not interrupt continuous service. Absence from service for any other cause except as set forth above will result in breaking continuity of service. (1994 C., § 4.46.090; Ord. No. 62005, § 6, 1990.)

4.46.100 Income sources.

Any salary paid to an employee shall represent the total remuneration for the employee, excepting reimbursements for official travel and other payments specifically authorized by ordinance. No employee shall receive remuneration from the City in addition to the salary authorized in this chapter for services rendered by the employee in the discharge of the employee's ordinary duties, of additional duties which may be imposed upon the employee, or of duties which employee may undertake or volunteer to perform.

Whenever an employee not on an approved paid leave works for a period less than the regularly established number of hours a day, days a week or days bi-weekly, the amount paid shall be proportionate to the hours in the employee's normal work week and the bi-weekly rate for the employee's position. The payment of a separate salary for actual hours worked from two or more departments, divisions, or other units of the City for duties performed for each of such agencies is permissible if the total salary received from these agencies is not in excess of the maximum rate of pay for the class. (1994 C., § 4.46.100; Ord. No. 62005, § 7, 1990.)

4.46.110 Conversion.

A. All pay schedules in Ordinance 61282 shall continue in effect until the beginning of the bi-weekly pay period starting June 17, 1990, at which time the rates to be paid to employees in positions of any class for which a rate is established or changed in Sections 4.46.020 and 4.46.030 or 4.46.040 and 4.46.050 shall become effective and be adjusted as follows:

The salary of each employee whose pay range is established in Sections 4.46.020 and 4.46.040 shall be increased by two percent (2%) or to the minimum of the new range whichever is greater.

B. The pay schedules in Sections 4.46.020 and 4.46.040 shall continue in effect until the bi-weekly pay period starting December 15, 1990, at which time the rates to be paid to employees in positions of any class

for which a rate is established or changed in Section 4.46.030 and 4.46.050 shall become effective and be adjusted as follows:

The salary of each employee whose pay range is established in Sections 4.46.030 and 4.46.050 shall be increased by a factor of two percent (2%) to the nearest whole dollar, as determined by the appointing authority.

C. This provision shall not apply to employees whose rate is deemed to be above the maximum of the new range as a result of demotion or reallocation. No employee shall be compensated at a rate above the maximum of the new salary range except as provided in Subsection E of this section.

D. No employee shall be reduced in salary by reason of the adoption of the new pay schedules in this chapter.

E. The appointing authority may establish a special conversion procedure for a class of position in the event that the appointing authority determines that a serious inequity would be created by the application of the conversion procedures established in this section. (1994 C., § 4.46.110; Ord. No. 62005, § 8, 1990.)

The Circuit Attorney, in making appointments to the positions authorized by RSMo 56.540, shall make said appointments within the classes and grades set out in Section 4.48.010 of this chapter, and to an amount of pay within a grade; provided further that the Circuit Attorney may, in their sole discretion, change the classification, grade and amount paid to a person appointed as she determines to be required. The Circuit Attorney may establish probationary rates of pay for classes of positions established in this chapter. Such probationary rates may be less than the rate paid to a regular employee. Notwithstanding any other provision in this chapter, the Circuit Attorney is authorized to extend the maximum pay ranges by up to ten (10) percent for purposes of compensating positions which the Circuit Attorney is able to demonstrate are extremely hard to fill.

The rate of such overtime pay shall be subject to the requirements of the Fair Labor Standards Act of 1938, as applicable, and shall be allowed on the basis of hours worked and the bi-weekly rate of pay. Compensatory time may be allowed in lieu of overtime pay as provided by law. 4.54.020 Official pay schedule for medical examiner grades.

The Chief Medical Examiner recommends pay schedules for all pay grades denoted in Section 4.54.010(a) of the classification plan prepared and adopted by management. The official pay schedules and their corresponding salary ranges as hereby adopted in this Section 4.54.020 are as follows:

(a) *General and Management Pay Schedule.*

(1) The following bi-weekly pay schedule for all pay grades denoted with the suffix "G" or "M" shall become effective beginning with the bi-weekly pay period following the effective date of this chapter.

22	4391	6798
23	4739	7340

(b) *Shift Differential.* Shift differential shall be paid for certain work assignments. The Chief Medical Examiner shall determine the work assignments for which shift differential will be paid. The assignment or removal of an employee from a work assignment having a shift differential shall be determined by the appointing authority and will not constitute a promotion, demotion, advancement or reduction in pay. The shift differential shall be added to the employee's regular bi-weekly rate.

(1) In order for an employee in Section 4.54.020(a) to be eligible for shift differential compensation, the employee must work a shift that requires the completion of four (4) hours of work between the hours of 4:00 p.m. and 8:00 a.m. the following morning. Employees who are assigned to work schedules that require them to rotate among three (3) shifts (day, evening, night) on a bi-monthly or more frequent basis shall be eligible for shift differential compensation for all three (3) shifts worked. For employees whose pay range is established in Section 4.54.020(a) the shift differential premium shall be one (1) percent of the employee's regular base bi-weekly rate for each eligible shift worked in a bi-weekly pay period.

An employee whose pay range is established in Section 4.54.020(a) shall receive shift differential for working a portion of an eligible shift, providing the portion of the shift not worked is charged to paid leave. Shift differential shall only be paid for whole hours worked; a fraction of an hour shall not be counted toward the payment of the differential.

(2) Except as otherwise provided in this chapter, shift differential shall not be paid to employees compensated on an hourly or per performance basis, or bi-weekly paid employees who work part-time. Neither shall shift differential be paid to full-time regular employees docked for any portion of an eligible shift.

(c) *Weekend Differential.* When employees whose pay range is established in Section 4.54.020(a) work on a Saturday and/or a Sunday they shall be eligible for weekend differential. This differential shall be one (1) percent of an employee's base bi-weekly rate. An employee shall receive weekend differential for working any portion of an eligible day. This differential shall only be paid for whole hours worked, providing the portion of the day not worked is charged to paid leave. Weekend differential shall not be paid to employees compensated on an hourly or per performance basis or bi-weekly paid employees who work part-time. Neither will the weekend differential be paid to full-time regular employees docked for any portion of a day on which the differential would otherwise be paid.

(d) The Chief Medical Examiner may establish per performance rates of pay, hourly rates of pay, or rates of pay for units of work and the conditions for making of any such payments. Such per performance, hourly, or unit-of-work rates may be computed from the bi-weekly scales established in this chapter. Per performance, hourly, or unit-of-work rates shall be established considering the nature of employment, com-

munity practices in compensating similar employment, and the purpose of the program for which the rate is established. Employees paid per performance, hourly, or unit-of-work rates of pay shall not be entitled to vacation, medical leave or holiday leave with pay or other benefits accorded employees paid a bi-weekly rate except that an appointing authority, with the prior approval of the Chief Medical Examiner, and when sufficient funds have been appropriated for the fiscal year, may establish a modified level or type of benefit program when the provision of such benefit is needed in order to attract and retain sufficiently qualified employees to work in specific per performance, hourly, or unit-of-work assignments.

The Chief Medical Examiner is not permitted to utilize per performance and hourly employees as a method of replacing bi-weekly rate employees who would be entitled to employee benefits. Therefore, per performance and hourly employees will be limited to work an equivalent of ten (10) months of full-time employment (one thousand seven hundred thirty-three (1,733) hours) per year.

(e) The Chief Medical Examiner may establish trainee rates of pay. Such trainee rates may be established on an hourly, per performance or bi-weekly basis and shall be less than the rate paid to a regular employee.

(f) The Chief Medical Examiner, may establish rates and conditions under which compensation may be granted for periods of time during which an employee is away from the job site but restricted in his/her activities because of an assignment by the Chief Medical Examiner to be available for a call to return to the work site to perform emergency duties. Pay rates and conditions established under the provisions of this Section 4.54.020(l) may include reasonable minimum pay guarantees for employees required to return to the work site to perform emergency duties. The provisions of this Section 4.54.020(l) shall not be construed to restrict the right of the Medical Examiner to establish call back procedures for employees as an established condition of employment.

(g) The Chief Medical Examiner may authorize payment of special recruitment bonuses, travel, moving and related expenses to recruit employees for positions when funds for this purpose are appropriated to the Office of the Medical Examiner.

(h) The Chief Medical Examiner may approve the payment of hiring incentives to current employees to recruit qualified personnel for positions that are difficult to fill. Hiring incentives shall be in any amount up to twenty-five (25) percent of the annual salary of the position for which the recruitment is made.

(i) (1) The Chief Medical Examiner may establish cash awards or other incentives for an employee or group of employees to recognize and reward increased productivity or effectiveness. The incentives offered may include cash, paid time off, and such other reasonable incentives as the Chief Medical Examiner may determine. Cash awards shall be made from the personal services appropriation of the unit, the account from which the employee's salary is paid or from a general appropriation for this purpose.

(2) The Chief Medical Examiner may establish a program of cash awards or other incentives, not to exceed ten (10) percent of annual salary, paid as an addition to pay, for the purpose of providing additional compensation for employees who are fluent in a foreign language and who use this skill in the necessary and regular recurring performance of the duties of their position. Cash awards shall be made from the personal services appropriation of the unit, the account from which the employee's salary is paid or from a general appropriation for this purpose. Cash awards and incentives under this program shall be made in accordance with guidelines established by the Chief Medical Examiner.

(3) Notwithstanding any other provision in this chapter, the Chief Medical Examiner is authorized to extend the maximum of the pay ranges by up to twenty-five (25) percent for the purpose of compensating positions which are extremely hard to fill.

(4) The Chief Medical Examiner may provide an Employee Suggestion Program, which grants cash and other awards to recognize employee suggestions, which improve City services, operations or facilities. Cash awards to employees for suggestions resulting in tangible savings to the City shall not exceed ten (10) percent of the annual tangible net savings. Cash awards and payments for other awards shall be made from an appropriation for a suggestion program or other appropriate account. Additionally, cash awards for suggestions shall be granted as an addition to pay, which does not change an employee's bi-weekly rate. The Employee Suggestion Program shall be administered in accordance with regulations established by the Chief Medical Examiner. The Chief Medical Examiner may

establish an authority to evaluate suggestions and determine awards; the decisions of this authority shall be final.

(j) An employee who is appointed to a position requiring advanced technical skills or professional qualifications may be paid at a higher rate than prescribed for the class in Section 4.54.020 of this chapter on recommendation of the manager/supervisor with the prior approval of the Chief Medical Examiner. Such advancement shall be made solely on the basis that the employee possesses exceptional academic qualifications related to the duties of the position or that the employee is registered or certified by an organization or board recognized by the Chief Medical Examiner to be especially suited, considering the duties of the position, and when such academic qualification, registration, or certification is not deemed a necessary qualification for the class of position.

The Chief Medical Examiner may also establish other bonus, incentive, or reimbursement programs to encourage current employees to attain registration, licensure, certification, or proof of professional mastery when it is deemed to be in the best interest of the Medical Examiner's Office, or when such credentials are clearly recognized as adding to the capability of individuals in that area. Incentives, bonuses, or reimbursements awarded under such programs do not result in an employee being ruled ineligible for bonuses or salary increases permitted under other sections of this chapter.

(k) The Chief Medical Examiner may establish a program to reimburse, in whole or in part, expenses incurred by employees for the purchase of uniform apparel required in the performance of the duties of their positions, when funds have been budgeted therefore.

The Chief Medical Examiner may exercise the option to furnish such uniform as may be required in the employee's performance of his/her duties.

The Chief Medical Examiner may establish regulations relating to employees' eligibility for reimbursement for uniforms.

Further, when funds have been budgeted therefore, the Chief Medical Examiner may authorize reimbursement to uniformed investigative or autopsy room employees of up to fifty dollars ($50.00) per incident for damage to personal property sustained while the employee was directly engaged in performing assigned and/or authorized duties during a shift.

(l) (1) Contingency assignment differential will be paid for certain assignments when immediate position coverage is needed for any unexpected reason (e.g. death, forced leave, emergency illness, etc.) in a higher pay grade, and shall be granted at the onset of the assignment, not to extend more than one pay period. The Chief Medical Examiner will determine the assignments for which Contingency Assignment Differential will be paid. The assignment of an employee to said assignment having a contingency assignment differential will be determined by the Chief Medical Examiner and will not constitute a promotion or advancement in pay. In addition, the removal of an employee from said assignment shall not constitute a demotion or reduction in pay. The Chief Medical Examiner will review the qualifications of the employee being considered for the assignment to determine if they meet the necessary minimum qualifications for the position being considered.

For an employee whose pay range is established in Section 4.54.020(a) with the prior approval of the Chief Medical Examiner, the contingency assignment differential will be ten (10) percent of the employee's regular base bi-weekly rate added as an addition to pay for each bi-weekly period worked or one (1) percent of the employee's regular base bi-weekly rate for each shift assignment covered, not to exceed one (1) pay period.

(2) Temporary assignment differential will be paid for certain assignments when a vacancy exists for any reason (e.g., separations, terminal vacation, leave of absence, military leave, etc.) in a position with a higher pay grade, and shall be granted for at least one (1) pay period but not more than thirteen (13) pay periods, and offset by any days that the employee by reason of absence is not fulfilling the assignment. The Chief Medical Examiner will determine the assignments for which the temporary assignment differential will be paid. The assignment or removal of an employee from said assignment having a temporary assignment differential will be determined by the Chief Medical Examiner and will not constitute a promotion, demotion, advancement, or reduction in pay. The intended employee must meet the minimum qualifications for the position to be assigned. The temporary assignment differential shall be computed as an addition to pay and not affect the employee's regular bi-weekly rate.

For an employee whose pay range is established in Section 4.54.020(a) with the prior approval of the Chief

Medical Examiner, the temporary assignment differential will be ten (10) percent of the employee's regular base bi-weekly rate added as an addition to pay for each bi-weekly period worked, not to exceed thirteen (13) pay periods. The Chief Medical Examiner may require the establishment of a department policy on temporary assignment differential pay and must sign off on the policy prior to authorizing temporary assignment differential.

(m) City employees who are required by the Chief Medical Examiner to routinely use their personal vehicle in the performance of their duties shall be compensated by receiving a vehicle maintenance and use allowance of two-hundred seventy dollars ($270.00) per month.

(Ord. No. 71970, § 2, 2-11-2025; Ord. No. 71746, § 2, 11-20-2023.)

4.54.030 Subsistence and maintenance charges.

Except as otherwise provided in this chapter, a deduction shall be made on the payroll or a cash charge shall be collected for subsistence and maintenance provided to employees at a rate to be determined by the employee's department or agency head and the Comptroller of the City of St. Louis. The department or agency head shall establish reasonable charges or deductions which have been calculated and assessed with due consideration for all identifiable costs, including labor and overhead, but shall not exceed the actual cost of the items to the City. When the Chief Medical Examiner determines that the duties and responsibilities of a position require an employee to occupy a room or apartment, there shall be no charge for such accommodations.

(Ord. No. 71970, § 3, 2-11-2025; Ord. No. 71746, § 3, 11-20-2023.)

4.54.040 Salary range limitations.

No employee in the Medical Examiner's Office shall be paid at a rate lower than the minimum or higher than the maximum of the salary range established for the class to which his/her position has been allocated, except as otherwise provided in this chapter.

(Ord. No. 71970, § 4, 2-11-2025; Ord. No. 71746, § 4, 11-20-2023.)

4.54.050 Starting salary.

(a) The rate of pay for an excepted position to be paid upon original appointment to the class shall be determined by the Chief Medical Examiner for the excepted position.

(b) Except as otherwise provided in this chapter, the minimum rate of pay for a position shall be paid upon original appointment to the class unless the Chief Medical Examiner finds that it is difficult to secure the services of persons with minimum qualifications or experienced qualified persons at the minimum rate.

The Chief Medical Examiner may establish a recruitment rate for a single position or all positions in a class and authorize employment at an amount above the minimum but within the regular range of salary established for the class. When a recruitment rate is established for an entire class, employees already in such class may have their salaries adjusted to appropriate rates in the new range resulting from the establishment of the recruitment rate.

In the event that the Chief Medical Examiner finds that it is difficult to secure the services of sufficient numbers of employees for a class or occupational series after a diligent recruitment effort, the Chief Medical Examiner may establish a new maximum rate for the class(es) which is not more than twenty-five (25) percent above the maximum established in this chapter.

(c) Employees with permanent status who are eligible for reemployment as determined by the Rules of the Department of Personnel shall be reemployed at an appropriate rate within the new salary range which takes into consideration the employee's prior service in the position, as determined by the Chief Medical Examiner.

(Ord. No. 71970, § 5, 2-11-2025; Ord. No. 71746, § 5, 11-20-2023.)

4.54.060 Promotion, demotion, reallocation, transfer, temporary promotion.

An employee who is transferred, promoted, demoted, or whose position is reallocated after the effective date of this chapter, shall have his/her rate of pay for the new position determined as follows:

(a) *Promotion:* This shall be defined as a change of an employee in the Medical Examiner's Office from a position of one class to a position of another class with a higher pay grade or a higher starting minimum salary.

(1) When an employee is promoted to a position in the General or Management Pay Schedule, the employee's current bi-weekly rate of pay shall be set at a rate which is five (5) percent higher than the rate received immediately prior to the promotion. The Chief Medical Examiner, may increase the pay of an em-

ployee up to twenty (20) percent when such action is needed to attract experienced, qualified candidates for a position. Such salary determinations shall take into consideration the nature and magnitude of the accretion of duties and responsibilities resulting from the promotion. However, no employee shall be paid less than the minimum rate nor more than the maximum rate for the new class of position, except as otherwise provided in this chapter.

(2) Temporary promotion: When an employee, whose salary range is established in Section 4.54.020(a) is certified and temporarily promoted to a vacant position, for a limited duration, the employee's current salary shall be adjusted as provided in Paragraph (a)(1) of this section. Upon expiration of the temporary promotion, the employee shall be returned to his/her former rate of pay, adjusted by any increases the employee would have received in the absence of the temporary promotion. In no case shall the employee's salary be above the maximum of the salary range, unless otherwise provided for in this chapter.

(b) *Demotion:* This shall be defined as a change of an employee in the Medical Examiner's Office from a position of one class to a position of another class which has a lower pay grade and a lower starting minimum salary.

(1) If an employee is demoted for disciplinary reasons in accordance with the Rules of the Medical Examiner's Office and established disciplinary procedures, his/her rate of pay shall be established at a rate within the range for the new position which is at least five (5) percent lower than the rate received immediately prior to the demotion, except no employee shall be reduced below the minimum of the range unless otherwise provided for in this chapter. The amount of the reduction shall be determined by the Chief Medical Examiner.

(2) If an employee accepts a voluntary demotion, his/her current rate of pay shall be reduced within the range for the new position which is five (5) percent lower than the rate received immediately prior to demotion, except that employees who are in a working test period and demote to their previous class of position or pay grade, will return to the rate received immediately prior to the promotion, plus any adjustments as otherwise provided in this chapter. No employee shall be paid less than the minimum nor more than the maximum rate for the new class of position, except as otherwise provided in this chapter.

(3) When an employee is demoted for reasons in the best interest of the Medical Examiner Office as determined by the Chief Medical Examiner, his/her salary may be reduced by reason of the new salary range and grade with the prior approval of the Chief Medical Examiner. If the salary of such employee is above the maximum for the new position the employee's salary shall not be increased so long as he/she remains in the position, except as otherwise provided by this chapter.

(c) *Reallocation:*

(1) If the employee's position is reallocated to a class in a lower pay grade and the employee's rate of pay for the previous position is within the salary range of the new position, his/her salary shall remain unchanged.

(2) The salary of an employee whose position is allocated to a class in a higher pay grade shall be determined in accordance with the provisions of this Section 4.54.060(a)(1) relating to salary advancement on promotion.

(d) *Transfer:* The salary rate of an employee who transfers to a different position in the same class, or from a position in one class to a position in another class in the same pay grade, shall remain unchanged, provided that no employee shall be paid less than the minimum rate nor more than the maximum rate for the new class of position, except as otherwise provided in this chapter.

(e) *Over Maximum:* The salary of an employee, which is in excess of the maximum of the range prescribed by this chapter for the class and grade to which his/her position has been allocated or may be reallocated, shall not be reduced by reason of the new salary range and grade. The salary of such employee shall not be increased so long as he/she remains in the class of position, except as otherwise provided by this chapter. (Ord. No. 71970, § 6, 2-11-2025; Ord. No. 71746, § 6, 11-20-2023.)

4.54.070 Salary adjustment.

Salary adjustments for all employees in competitive positions shall be based on considerations of merit, equity, or success in fulfilling predetermined goals and objectives as herein provided.

(a) Competitive positions for which salary is established in Section 4.54.020(a), general and management schedule;

(1) Any employee whose salary is established in Section 4.54.020(a), general and management pay sched-

ules, may receive a service rating in accordance with the City's Service Rating Manual. The rating together with the standards of performance established in the rating manual shall determine eligibility for a one and five-tenths (1.5) percent within-range (merit) increase at intervals as outlined in the City's Service Rating Manual or other pay regulation(s) or ratings as determined by the Chief Medical Examiner. Notwithstanding any other section of this chapter, all employees in the general and management pay schedules who would be eligible to receive an annual increase on their regular service rating date will receive a one and five-tenths (1.5) percent increase regardless of their current rate or place in the pay schedule.

(2) A non-exempt (Overtime Code 3) employee whose pay is established in Section 4.54.020(a) of this chapter who receives an Overall Rating of "Unsuccessful" as defined by the City's Service Rating Manual, shall have his/her salary reduced as determined by the standards established in the City's Service Rating Manual, but not less than the minimum of the pay grade range.

(b) As used in this chapter, "anniversary date" means the date following fifty-two (52) weeks of continuous service from the date of original appointment or from the date of the last salary adjustment, if other than a temporary reduction in pay for disciplinary reasons, a demotion or an across-the-board chapter increase, an increase resulting from an authorized incentive program, or an upgrade of the classification concurrent with adoption of the chapter. Absence from service as a result of any authorized paid leave, suspensions, military leave, or family/medical leave will not interrupt continuous service. Absence from service for any other cause shall result in breaking continuity of service and establishment of a new anniversary date, except as otherwise provided in this chapter. The Chief Medical Examiner may authorize different anniversary dates for an employee or groups of employees.

(c) The Chief Medical Examiner may evaluate the performance of an employee whose salary is established in Section 4.54.020(a) of this chapter for the purpose of a salary adjustment only at intervals as described above except in the case of:

(1) *Exceptional Performance of Duties:* With the prior approval of the Chief Medical Examiner may advance the salary of an employee who demonstrates exceptional performance of duties after serving twenty-six (26) weeks of employment at the same rate in the salary range by not more than ten (10) percent; this may be in addition to any merit increase received.

(2) *Substandard Performance of Duties:* The Chief Medical Examiner may reduce the salary of an employee whose level of performance is significantly diminished and no longer warrants payment at the current rate within the range as provided in the City's Service Rating Manual; providing the employee's salary is above the minimum of the range, established in Section 4.54.020(a) and allocated to Overtime Code 3. The granting of any such increase or decrease in salary shall be made at the beginning of a payroll period, as determined by the Chief Medical Examiner, following approval of such salary action.

(d) The Chief Medical Examiner may approve adjustments to correct or mitigate serious and demonstrable internal pay inequities. Salary adjustments under this provision shall preclude adjustments to compensate or reward employees for long-term or meritorious service.

(e) The pay of any employee may be decreased as a disciplinary action by the Chief Medical Examiner to a lower rate. Any such decrease shall be made in accordance with the established disciplinary procedures. The decrease shall not be greater than fifteen (15) percent of the current salary rate. The decrease may be below the minimum of the pay range for the class. The appointing authority may determine the pay decrease shall be effective for a specific number of bi-weekly pay periods provided, however, that such decrease shall not be effective for more than thirteen (13) bi-weekly pay periods.

(f) An employee who is temporarily promoted shall be eligible for within range salary adjustments under provisions of this Section 4.54.070.

(g) The Chief Medical Examiner may approve a within range salary adjustment or other incentives to retain employees in positions that are difficult to fill, or because of their unique requirements. Said adjustment may only be granted once during a twenty-six-week period.

(Ord. No. 71970, § 7, 2-11-2025; Ord. No. 71746, § 7, 11-20-2023.)

4.54.080 Income sources.

Any salary paid to an employee in the Medical Examiner's Office shall represent the total remuneration for the employee, excepting reimbursements for

official travel and other payments specifically authorized by chapter. No employee shall receive remuneration from the City in addition to the salary authorized in this chapter for services rendered by the employee in the discharge of the employee's ordinary duties, of additional duties which may be imposed upon the employee, or of duties which the employee may undertake or volunteer to perform.

Whenever an employee not on an approved paid leave works for a period less than the regularly established number of hours a day, days a week or days bi-weekly, the amount paid shall be proportionate to the hours in the employee's normal work week and the bi-weekly rate for the employee's position. The payment of a separate salary for actual hours worked from two (2) or more departments, divisions or other units of the City for duties performed for each of such agencies is permissible if the total salary received from these agencies is not in excess of the maximum rate of pay for the class.

(Ord. No. 71970, § 8, 2-11-2025; Ord. No. 71746, § 8, 11-20-2023.)

4.54.090 Conversion.

(a) Pay schedules in Section 2(a) in Ordinance 71746 shall continue in effect until the beginning of the first bi-weekly pay period starting after the effective date of this chapter, and the rates to be paid to employees in positions of any classes for which a rate is established or changed in Section 4.54.020(a) of this chapter shall become effective and be adjusted (if necessary) as follows:

The salary of each employee whose pay range is established in Section 4.54.020(a) of this chapter whose class has been allocated to a higher pay grade in the appropriate pay schedule as determined by the Chief Medical Examiner shall have their current salary increased to a rate, rounded to the nearest whole dollar, which is not less than but is closest to a rate which is five (5) percent higher than the rate received immediately prior to promotion, but not less than the minimum of the pay range, whichever is the greater.

(b) No employee shall be reduced in salary by reason of the adoption of the new pay schedules in this chapter.

(c) The salary of an employee serving in a trainee position, which remains above the new trainee rate for his/her position, shall remain unchanged.

(d) The Chief Medical Examiner may establish a special conversion procedure for a class or position in the event that the Director determines that a serious inequity would be created by the application of the conversion procedures established in this Section 4.54.090.

(e) All full-time employees whose salary is established in Section 4.54.020(a), General and Management pay schedules whose bi-weekly rate is within the range of pay or above the maximum of the range of pay shall have their bi-weekly rate increased by three (3) percent effective beginning with the start of the bi-weekly pay period following the effective date of this chapter.

(f) The Chief Medical Examiner shall establish such procedures as needed to place this chapter in effect and interpret its provisions.

(Ord. No. 71970, § 9, 2-11-2025; Ord. No. 71746, § 9, 11-20-2023.)

4.54.100 Payment of salaries.

All compensation for positions in the Medical Examiner's Office shall be paid bi-weekly. The Chief Medical Examiner and Comptroller shall establish the procedure for listing employees on the various payrolls. The payment due each employee for service, except as otherwise provided, shall be made not later than sixteen (16) days after the end of the bi-weekly pay period. In the event that an employee is dismissed or has been employed for occasional or emergency work, the Comptroller may immediately pay the employee upon termination of service without waiting for the regular bi-weekly pay date of the Department, Division, Section, Office, Agency, Board or Commission where the employee worked.

(Ord. No. 71970, § 10, 2-11-2025; Ord. No. 71746, § 10, 11-20-2023.)

4.54.110 Changes to classification plan.

Whenever the Chief Medical Examiner finds it necessary to add a new class to the classification plan, the Chief Medical Examiner shall allocate the class to an appropriate grade and schedule in this chapter and notify the Board of Aldermen of this action.

Whenever the Chief Medical Examiner finds it necessary to change the overtime code of an existing class within the classification plan, the Chief Medical Examiner shall change the overtime code and notify the Board of Aldermen of this action.

Whenever the Chief Medical Examiner finds it necessary to change the pay schedule of an existing class within the classification plan, the Chief Medical Examiner shall allocate the class to the appropriate schedule in this chapter and notify the Board of Aldermen of this action.

The pay grade allocated to a class of position within the classification plan shall remain unchanged for the duration of the existing compensation chapter. Whenever the Chief Medical Examiner considers it necessary to change the pay grade of an established class of position, such adjustment can only be made concurrent with the adoption of a new compensation chapter. Recommendation for the allocation of a new pay grade shall be made by the Chief Medical Examiner for final approval by the Board of Aldermen.
(Ord. No. 71970, § 11, 2-11-2025; Ord. No. 71746, § 11, 11-20-2023.)

4.54.120 Payroll form.

The Chief Medical Examiner shall prescribe forms on which subordinate managers shall certify to the fact that a vacancy exists in a lawfully created position and to the lawful appointment of a person to fill the position. The Chief Medical Examiner shall indicate on these forms the proper allocation of the position and the rate at which payment is to be made. When approved by the Chief Medical Examiner and submitted to the Comptroller, these forms shall constitute authorization for the initial placing of a person's name on the payroll. The Comptroller shall not authorize any change in the rate of pay of an individual on the payroll unless approved by the Chief Medical Examiner. The Comptroller shall provide the Chief Medical Examiner with a copy of each payroll audited and found correct within twenty-one (21) days after audit and approval of the payroll by the Comptroller's Office.
(Ord. No. 71970, § 12, 2-11-2025; Ord. No. 71746, § 12, 11-20-2023.)

4.54.130 Certification of payroll.

The Chief Medical Examiner shall certify on each payroll or a subsidiary document that each person whose name appears on the payroll has been lawfully appointed at a salary provided by this chapter and that the employee has actually worked the time for which he/she will be paid, subject to the provisions of this chapter governing hours of work and leaves of absence in the Medical Examiner's Office.
(Ord. No. 71970, § 13, 2-11-2025; Ord. No. 71746, § 13, 11-20-2023.)

4.54.140 Minimum work hours.

The Chief Medical Examiner shall establish procedures to assure that the employees under his/her supervision are actively engaged in the performance of the duties of their positions in accordance with the provisions of this section.

Each manager/supervisor shall submit to the Chief Medical Examiner the work schedule established for each position in the work unit. Work schedule reports shall be submitted upon request of the Chief Medical Examiner or whenever the manager/supervisor proposes to change the permanent work schedule of a position. The work schedule submitted by the manager/supervisor shall constitute the normal work schedule for the position when approved by the Chief Medical Examiner.

All employees in the Medical Examiner's Office shall be in attendance at their work in accordance with schedules established under the provisions of this Section 4.54.140, subject to other provisions of this chapter with respect to hours, holidays, vacation, medical leave, furloughs, sick leave, military leave, and leaves of absence with or without pay.

(a) Employees whose salaries are established in Section 4.54.020(a): Forty (40) hours shall constitute the average minimum required weekly hours of service in an employment cycle under regular full-time employment for all City employees paid on a bi-weekly basis and occupying positions in the Medical Examiner's Office. The minimum daily and annual service required of such employees shall be in proportion to the average minimum weekly hours established.

Each manager/supervisor shall so arrange the time for reporting for work, for luncheon intermission, and for quitting work of the various employees under their jurisdiction.

(b) Management Employees: Managers for employees occupying full-time positions whose salaries are established in Section 4.54.020(a) of this chapter shall initiate procedures to see that such employees are engaged in the performance of their duties on a full-time basis. Full-time employment for any employee whose classification is denoted in the Management Schedule shall be defined as an average of forty (40) hours per week of time devoted to the duties of the position on an annual basis.
(Ord. No. 71970, § 14, 2-11-2025; Ord. No. 71746, § 14, 11-20-2023.)

4.54.150 Overtime.

(a) The Chief Medical Examiner shall determine those positions in the Medical Examiner's Office of the City of St. Louis which are exempt from overtime compensation and those positions which are not exempt from overtime compensation. The overtime codes established for each class in Section 4.54.010(a) of this chapter shall be interpreted as follows:

OVERTIME CODE (OVTM):

1 These classes are primarily managerial in nature, but may also include some professional or administrative classes that are ineligible for overtime pay under all but emergency conditions as described in Section 4.54.150(d) of this chapter.

2 These are supervisory, professional, and administrative classes that are exempt from overtime compensation, but which the City compensates for overtime at the straight (1.0×) time rate.

3 These are non-exempt classes that receive overtime compensation at the one and one-half (1.5×) time rate.

Managers/Supervisors are prohibited from changing employee work schedules to avoid the payment of overtime.

For purposes of determining overtime pay rates for non-exempt employees, the regular hourly rate of pay shall be used.

Any employee in a class which has been allocated to Overtime Code 3 (non-exempt) in this chapter shall be compensated for overtime work in accordance with the provisions of this section. Each manager/supervisor shall designate and submit to the Chief Medical Examiner the official work week and schedule or work cycle for all non-exempt positions in the work unit. The average number of scheduled hours in a bi-weekly pay period shall not be less than eighty (80) for full-time employment.

Whenever an Overtime Code 3 employee whose pay matrix is in Section 4.54.020(a) works hours in excess of the maximum established for an official work week or work cycle, usually forty (40) hours in a work week such hours shall be paid at the one-and-one-half time (1.5x) rate. In addition to the actual hours worked, vacation, and compensatory time only shall count as hours worked for the purpose of determining eligibility for overtime compensation.

(a) Any employee in a class which has been allocated to Overtime Code 2 in Section 4.54.010(a) of this chapter shall be compensated for overtime by granting the employee pay or compensatory time off at the straight (1.0×) time rate. Each appointing authority shall designate and submit to the Chief Medical Examiner the official work week or work cycle, which is usually forty (40) hours, for all exempt (Code 2) positions in the work unit. Whenever a full-time employee in an exempt (Code 2) position is directed by management, with the approval of the appointing authority, to work hours in excess of the maximum established for an official work week or work cycle it shall be considered overtime. In addition to the actual hours worked, vacation, and compensatory time only shall count as hours worked for the purpose of determining eligibility for overtime compensation. Straight time (1.0×) overtime shall be compensated at the employee's regular hourly rate of pay, or by granting the eligible employee compensatory time off at the rate of one (1) hour for each hour of overtime worked. The average number of scheduled hours in a bi-weekly pay period shall not be less than eighty (80) for full-time employment. The regular hourly rate of pay for an exempt (Code 2) bi-weekly paid employee shall be determined by dividing the employee's regular bi-weekly rate of pay by the average number of regularly scheduled hours of work in a bi-weekly pay period.

(b) Part-time bi-weekly paid employees and employees paid on an hourly or per performance basis shall be compensated for overtime work in accordance with the overtime provisions of this section and with consideration for community practices in compensating similar employment.

(c) The Chief Medical Examiner may compensate Overtime Code 1 employees at the straight-time (1.0×) rate, when both of the following conditions exist: 1) the Mayor of the City of St. Louis declares an emergency due to serious and protracted conditions which threaten continuous City Service, preservation of public peace, health, or safety, and 2) the Chief Medical Examiner directs an employee or group of employees to work in excess of forty (40) hours per week. The manager/supervisor shall maintain attendance records of the assignment(s) and submit such records at the request of the Chief Medical Examiner.

(d) Employees who wish to use compensatory time earned in lieu of pay must make their request in writing at least twenty-four (24) hours in advance of the day or days requested. The manager/supervisor shall keep in

mind the staffing needs of the department when granting time off, but in any case, time off will not be unreasonably denied.

Pay shall be the regular method of compensation for recorded overtime hours of work for employees in classes with Overtime Code 3. However, a manager/supervisor shall compensate a non-exempt bi-weekly paid employee for overtime work by granting the employee compensatory time off in lieu of pay only if the employee requests compensatory time, in writing.

Employees engaged in public safety, emergency response or seasonal activity as defined by the Chief Medical Examiner may have a maximum balance of two hundred forty (240) hours of compensatory time; except that Management Personnel shall only be allowed to accumulate up to forty (40) hours of compensatory time. All other employees are allowed a maximum balance of one hundred twenty (120) hours of compensatory time. These maximum balances of compensatory time shall apply to employees working an average work week of forty (40) hours; the maximum balance of compensatory time for employees whose average work week is more or less than forty (40) hours shall be proportionate. No provision of this section establishing a maximum balance of compensatory time shall serve to cancel any compensatory time due to an employee or to deny an employee payment for recorded compensatory time earned in accordance with the provisions of the compensation chapter in effect at the time the compensatory time was earned.

Each manager/supervisor shall establish procedures to assure that non-exempt employees are promptly granted time off when such employees request to use their earned compensatory time. A manager/supervisor may not deny non-exempt employees' requests for earned compensatory time off except when such approval would create an extreme business hardship. When a manager/supervisor determines that the work schedule of the organization will not permit the granting of such time off, the manager/supervisor shall pay the employee in that same pay period for all or a portion equivalent to the time requested of the employee's accrued compensatory time. This provision requiring the prompt granting of requested time off applies only to compensatory time that is earned as a result of the employee working overtime; it does not apply to compensatory time earned as a result of an incentive program or bonus award program.

Compensatory time earned by exempt employees shall be granted to an employee at the discretion of the manager/supervisor in one (1) of the following ways: 1) on request of the employee; 2) on termination of services with the City.

(e) Before an employee is transferred, promoted or demoted from a position under one manager/supervisor to a position under another manager/supervisor or to another unit with a different appropriation, all compensatory time shall be granted or paid. Upon the death of an employee, the person or persons entitled by law to receive any compensation due to the employee shall be paid any amount due to the employee on the date of death.

(f) All sections shall keep daily attendance records of Medical Examiner Employees and shall submit periodic reports of: 1) unexcused absences and leaves; 2) reports of overtime earned, granted, and paid; or 3) the nonoccurrence of same to the Chief Medical Examiner in the form and on the dates specified as required or requested.

(Ord. No. 71970, § 15, 2-11-2025; Ord. No. 71746, § 15, 11-20-2023.)

4.54.160 Holidays.

(a) Medical Examiner employees working full-time who are paid a bi-weekly rate shall be entitled to leave with pay, pay, or compensatory time off in lieu of pay or paid leave for regularly scheduled work on the following designated holidays:

Date	Holiday
January 1	New Year's Day
Third Monday in January	Rev. Martin Luther King Jr. Day
Third Monday in February	Presidents' Day
Last Monday in May	Memorial Day
June 19	Juneteenth
July 4	Independence Day
First Monday in September	Labor Day
November 11	Veterans' Day
Fourth Thursday in November	Thanksgiving Day
Day after Thanksgiving	Day after Thanksgiving
December 25	Christmas Day

In addition to the above enumerated designated holidays, full-time Medical Examiner employees shall be entitled to leave with pay, pay, or compensatory time off

in lieu of pay as established by this Section 4.54.160 on any day or partial day the Mayor declares by proclamation the closing of City offices.

Employees working full-time and paid a bi-weekly rate whose pay is established in Section 4.54.020(a) of this chapter shall receive leave with pay, pay or compensatory time off in lieu of pay as holiday compensation in an amount that is proportionate to the number of hours the employee is regularly scheduled to work in a day or shift. For example: Employees working an average of forty (40) hours a week, five (5) days a week, eight (8) hours a day shall receive eight (8) hours of compensation for the holiday; employees working an average of forty (40) hours a week, four (4) days a week, ten (10) hours a day shall receive ten (10) hours of compensation for the holiday.

When the day of observance of a holiday is changed by State or Federal law, it will be so observed by the City of St. Louis. When the day of observance of a holiday is changed by State or Federal executive action, the Mayor shall determine the day of observance by the City of St. Louis. When one (1) of the above enumerated holidays occurs on Sunday, the following Monday shall be observed as the holiday. When one (1) of the above holidays occurs on Saturday, the preceding Friday shall be observed as the holiday.

(b) Each manager/supervisor shall determine the manner of granting holidays and shall report his/her determination to the Chief Medical Examiner, if required by the Chief Medical Examiner. When full-time employees, whose pay is established in Section 4.54.020(a) of this compensation chapter, are required to work on a holiday they shall be entitled to compensation for the holiday and the hours actually worked. Compensation for the holiday shall be in an amount proportionate to the number of hours an employee is regularly scheduled to work in a day or shift. Except as otherwise provided in this section, when a City holiday falls on an employee's regularly scheduled day off, the employee shall be entitled to have compensatory time added to his/her balance in an amount proportionate to the number of hours regularly scheduled in a day or shift. If an employee is docked from the payroll for one hour or more on the full scheduled workday preceding a holiday, the full scheduled work day following a holiday, or on a scheduled holiday, the employee shall not be compensated for the holiday.

The holiday compensation procedures established by this Section 4.54.160 shall apply to full-time Medical Examiner employees paid a bi-weekly rate. Part-time bi-weekly rate employees shall be compensated for holidays in proportion to the percentage of time they are regularly scheduled to work. Employees paid on an hourly or per performance basis shall not be entitled to holiday compensation, except as otherwise provided in this chapter.

In the event that the holiday schedule established in this Section 4.54.160 is revised, employees who are granted compensatory time in lieu of all holidays shall have their leave benefits adjusted accordingly. The Chief Medical Examiner may establish additional or alternate holiday leave policies for employees occupying public safety positions which qualify for the special overtime pay provisions under Federal law or for employees with official work schedules authorized by the Chief Medical Examiner which exceed the normal forty-hour weekly work schedule.

Procedures developed in compliance with this Section 4.54.160 shall be designed to treat employees in the same manner who work substantially equivalent work schedules.

(Ord. No. 71970, § 16, 2-11-2025; Ord. No. 71746, § 16, 11-20-2023.)

4.54.170 Vacation.

Vacation leave with pay shall be granted to employees paid a bi-weekly rate in permanent competitive positions working fifty (50) percent time or more. The Chief Medical Examiner may establish additional guidelines and policies to govern the administration of vacation leave benefits in the Medical Examiner's Office.

(a) Vacation hours shall be granted to employees whose pay is established in Section 4.54.020(a), with appointment date before April 23, 1989.

lative service, or twenty (20) years of cumulative service shall have forty (40) hours of vacation added to their existing balance,

(b) Vacation hours shall be granted to employees whose pay is established in Section 4.54.020(a) with appointment date on or after April 23, 1989.

Pay Established in Section 4.54.020(a)

Length of Cumulative Service	Bi-Weekly Accrual Rates	Annual Equivalent
1 but less than 5 years	3	78
5 but less than 10 years	5	130

(c) Employees employed on or after July 18, 2010 will not have the forty (40) hours added to their vacation balance upon completion of five (5) years of cumulative service, ten (10) years of cumulative service, fifteen (15) years of cumulative service, or twenty (20) years of cumulative service.

(d) All references in this chapter, except as otherwise noted, to accrual rates, additions to, and accrual maximums for vacation are for employees working a scheduled work week of forty (40) hours. Vacation rates, additions and maximums shall be computed on a proportionate basis for employees whose average work week is more or less than forty (40) hours. When an eligible employee's scheduled work week is changed, the employee's rate of accrual shall be changed proportionately. All references in this chapter to cumulative service for vacation shall mean cumulative service without a break in service of more than one (1) year, except as provided otherwise in this chapter. No employee who works less than fifty (50) percent time or who is serving in a limited-term position shall be eligible to accrue vacation.

(e) (1) The maximum vacation balance for those working an average work week of forty (40) hours shall be six hundred (600) hours. Vacation accrual maximums, for those working more or less than forty (40) hours per week, but at least fifty (50) percent time, shall be established in accordance with Section 4.54.170 of this chapter.

(2) When an employee's full-time average work week is changed, the maximum vacation balance shall be changed proportionately. In addition, the employee shall have his/her current vacation balance adjusted so that the vacation shall maintain the same position relative to the new maximum balance as existed with the employee's previous maximum balance. Accrual of vacation shall cease when an employee accumulates the maximum vacation balance established for the assigned work schedule and shall not resume until the vacation balance is less than the maximum amount.

(f) Accrual of vacation shall begin and be credited upon the first bi-weekly pay period and each pay period thereafter but employees must complete the entire pay period to accrue the vacation leave at the end of said pay period:

(1) Of appointment;

(2) Of return to duty from leave of absence;

(3) Of restoration to employment of one-half (fifty (50) percent) time or more.

Vacation leave shall be granted in whole hour units. On termination of service, any fractional hour shall be made whole. The accrual of vacation leave shall cease at the employee's last day at work or beginning of terminal leave.

(g) Managers/supervisors shall be responsible for establishing all vacation leave schedules, but may not discipline employees by imposing unusual vacation schedules. Vacation shall be granted to the employee at the discretion of the manager/supervisor as provided by this chapter in one (1) of the following ways:

(1) When the employee requests vacation leave in accordance with departmental policies.

(2) When directed to take paid time off by the manager/supervisor.

(4) When an employee whose salary is established in Sections 4.54.020(a) reaches the established maximum accrual and would cease accruing vacation, the employee may notify the manager/supervisor in writing of his/her intention to schedule vacation. Such notice shall be at least seven (7) days prior to the first work day the employee intends to take off. If the manager/

supervisor fails to establish a different vacation schedule, the employee may, at will and without assuming liability for disciplinary action, take the paid leave, which was proposed in writing.

(5) All employees may request payment from the appointing authority for forty (40) hours of vacation accrual in lieu of scheduling paid leave provided that the full vacation allowance for that year is not exceeded. This may be done a maximum of once in each calendar year. Management employees may request payment from the appointing authority for up to an additional forty (40) hours of their vacation accrual balances in lieu of scheduling paid leave if their schedules do not permit them to be absent from work. These requests are subject to the prior approval of the Chief Medical Examiner.

(h) During the first twelve (12) months of employment, unless stated otherwise in this chapter, accrued vacation may be granted to an employee provided that the employee has completed six (6) months of continuous service. When the service of an employee is terminated after twelve (12) months of continuous service, any accumulated vacation that is due the employee shall be paid. When employment is terminated before completing twelve (12) months of continuous service, any previously advanced vacation leave shall be deducted from the employee's final pay.

(i) Employees who separate from the Medical Examiner's Office and who return to the Medical Examiner's Office within twenty-four (24) months of the separation, will be given credit for prior continuous service in determining the vacation accrual rate in accordance with Section 4.54.170(a) or 4.54.170(b) of this chapter and based on the date of the employee's original appointment.

(j) Employees who move to the Medical Examiner's Office from a non-Medical Examiner's Office shall be given credit for the years of service in the non-Medical Examiner's Office in determining the vacation accrual rate in accordance with Section 4.54.170(a) or 4.54.170(b) of this chapter and based on the date of the employee's original appointment.

(k) Employees who return to work from a "reemployment from layoff" eligible list shall be eligible to use vacation as soon as it is accrued unless stated otherwise in this chapter provided the employee has completed six (6) months of continuous service prior to the layoff and with approval of the manager/supervisor. An employee who has completed less than six (6) months of continuous service will be required to complete the remaining portion of the six (6) months period before being eligible to use vacation.

Any such reemployed worker shall be given credit for prior continuous service in determining the employee's vacation accrual rate in accordance with the schedule established in Section 4.54.170(a) or 4.54.170(b) of this chapter and based on the employee's original appointment.

(l) Managers/supervisors shall be responsible for the management of their vacation schedules so as to most effectively administer their organizations and fulfill the desire of employees in the establishment of leave schedules.

(m) Accrued vacation shall be carried with an employee when transferred, promoted, or demoted from a position under one appointing authority to a position under another appointing authority without a break in service or change in method of pay. Such payment shall be made on the employee's last regular paycheck. The lump sum payment shall include compensation for any holidays occurring during the employee's terminal vacation leave period as if employee's vacation had been run out on payroll.

(o) Employees occupying excepted positions in the Medical Examiner's Office shall be granted vacation at the discretion of the Chief Medical Examiner. An employee whose term in an excepted position ends and who is then appointed to a permanent competitive position working fifty (50) percent time or more shall become eligible to accrue vacation leave with pay upon appointment to the competitive position. Length of cumulative service for the purpose of determining rate of vacation leave accrual shall be based on the employee's original date of appointment to the excepted position, providing there was no break in service between

expiration of the excepted position and appointment to the permanent competitive position. The date of appointment to the permanent competitive position shall be used to determine the appropriate rate of vacation accrual for the corresponding length of cumulative service in accordance with the schedule established in Section 4.54.170(b).

(p) Managers/supervisors shall report leave with pay for vacation and such other authorized absences as the Chief Medical Examiner shall designate in such form and at such time as the Chief Medical Examiner may require.

(b) An active employee who is a member of the Employees Retirement System of the City of St. Louis, and who applies for retirement and immediately retires from active service, shall receive payment for his/her sick leave balance less any sick leave credited or paid to a member or used in the calculation of retirement benefits under this or any other chapter(s). If the Employees Retirement System provides for sick leave to be credited or paid to a member or used in the calculation of retirement benefits, this payment shall be limited to a maximum of fifty (50) percent of the value of the employee's sick leave balance. If the Employees Retirement System of the City of St. Louis provides for sick leave to be credited or paid to a member or used in the calculation of retirement benefits, this payment shall be fifty (50) percent of the value of the employee's sick leave balance at time of retirement.

(c) If a member of the Employees Retirement System of the City of St. Louis who had been otherwise eligible for Normal or Early Service Retirement dies his/her estate may receive payment based on the calculation above on the employee's sick leave balance, if any. Payment shall be made in accordance with the procedures established by the Chief Medical Examiner.

(d) An employee who is reemployed from an authorized layoff shall have his/her prior sick leave balance if any restored, provided this balance has not be used in the determination of pension benefits paid to the retiree.

(1) All employees, unless otherwise stated in this chapter, shall accrue three (3) hours of medical leave for each bi-weekly pay period of employment but must complete the entire pay period to accrue the medical leave at the end of said pay period. This accrual rate is established for employees working an average work week of forty (40) hours. Medical leave shall be computed on a proportionate basis for employees whose average work week is more or less than forty (40) hours. An eligible employee may be granted paid medical leave by his/her appointing authority after completing twenty-six (26) weeks of continuous service.

(b) The Chief Medical Examiner may establish a system of cash awards, paid time off or other incentives to reward employees for perfect and near perfect attendance.

When an employee is docked from the payroll under the provisions of this section, the amount deducted from his/her regular bi-weekly rate of pay shall be one times (1.0×) the regular hourly rate as defined in this chapter for each hour of unexcused absence. If an employee is docked from the payroll for one (1) hour or more in a bi-weekly pay period, he/she will cease to accrue medical leave for the pay period.

(d) If management decides to send their employees or a group of employees' home due to inclement weather, they will not lose their medical leave accrual for that pay period.

(e) All leave with or without pay for illness, injury, or physical inability to perform assigned duties shall be recorded on the payroll or a subsidiary document in the manner established by the Chief Medical Examiner. Compensation for periods of absence from work when an employee sustains an injury by accident on the job shall be governed by the provisions of Section 4.54.250 (workers' compensation and disability leave) of this chapter.

(f) An employee who is reemployed from an authorized layoff shall have his/her prior medical leave

An employee who is reemployed from an authorized layoff and who has a medical and/or sick leave balance and who completed twenty-six (26) weeks of continuous employment prior to the layoff may take approved medical and/or sick leave upon reemployment.

(g) Each manager/supervisor shall institute procedures, in accordance with regulations established by the Chief Medical Examiner that will discourage the improper use of medical leave with pay. When an employee is removed from the payroll for absence not approved by the appointing authority, the employee shall be notified promptly in writing.

(h) Employees shall not receive payment for any medical leave balance and it shall not be used in the calculation of retirement benefits or payments under this chapter or any other ordinance.

(Ord. No. 71970, § 19, 2-11-2025; Ord. No. 71746, § 19, 11-20-2023.)

Upon the expiration of military leave of absence, the employee shall be reinstated to the class of position he/she occupied at the time the leave was granted without breaking continuity of service. Failure of an employee to report for duty within the time pursuant to state or federal law shall be just cause for dismissal. The employee's accumulated leave balance(s) shall be restored to the employee upon his/her return.

The Department of Personnel may reimburse, in whole or in part, expenses incurred by employees in the pursuit of improvement of the knowledge and skills required in the performance of their positions or in higher positions, when funds have been budgeted therefore.

A manager/supervisor, with the approval of the Chief Medical Examiner, may establish a program to reimburse, in whole or in part, expenses incurred by employees in the pursuit of improvement of the knowledge and skills required in the performance of the duties of their positions or to improve their professional, technical or managerial knowledge or skill.

(Ord. No. 71970, § 21, 2-11-2025; Ord. No. 71746, § 21, 11-20-2023.)

4.54.220 Leaves of absence and family and medical leave.

An employee may request a leave of absence, or a manager/supervisor may request a leave of absence for an employee, for any reason under the City's general leave policy, or a "family/medical leave of absence" for certain qualifying reasons under provisions of "The Family and Medical Leave Act of 1993" as provided in this chapter and under additional provisions and regulations as determined by the Chief Medical Examiner.

(a) A manager/supervisor, with the approval of the Chief Medical Examiner, may grant an employee in the Medical Examiner's Office a general leave of absence without pay for a period of one (1) year, which may be extended, with the prior approval of the Chief Medical Examiner. Upon the expiration of such leave of absence, the employee shall be reinstated to the competitive position he/she occupied at the time the leave was granted provided the position is still in existence and he/she is able to perform the duties of the position. The employee shall be reinstated to the competitive position at the same relative rate in the salary range the employee occupied at the time the leave was initiated. Failure of an employee to report for duty promptly at the expiration of the leave shall be just cause for dismissal. If necessary to the efficient conduct of the business of the City, an employee on leave other than military leave or qualifying family/medical leave may be notified by the appointing authority, with the

approval of the Chief Medical Examiner, to return prior to the expiration of such leave. Failure of the employee to return within ten (10) calendar days after receipt of such notice shall terminate his/her leave of absence and be just cause for dismissal, subject to any applicable federal, state or local regulations.

(b) The City of St. Louis will follow all applicable state and federal laws on the granting of family/medical leave. The City of St. Louis will provide up to six (6) weeks of paid family/medical leave, in accordance with the City's "Family/Medical Leave Policy."

The Chief Medical Examiner shall establish additional rules, guidelines and procedures for the effective administration of the City's "Family/Medical Leave Policy." The policy shall comply with all provisions of the "Family/Medical Leave Act of 1993" and any amendments thereafter.

Employees must take all of their accrued time (sick leave, medical leave, vacation leave) prior to being placed on leave without pay status for approved Family and Medical Leave, except employees can keep one (1) week of vacation hours (if they have accrued one (1) week of vacation and are eligible to take them). Employees will be allowed to use all their compensatory time, if requested by employee.

(c) Any employee in the Medical Examiner's Office who is appointed to a position in the Medical Examiner's Office shall be granted an in-service leave without pay from the position during the term to which he/she is appointed to the position. Such leave shall be for the term of the appointment to the position and until his/her successor qualifies. Upon the expiration of the appointment to the position, the employee shall be reinstated to the position he/she occupied immediately prior to the in-service leave. The employee shall be reinstated to the position as under a temporary promotion pursuant to Section 4.54.060(a)(2) of this chapter. Employees who are returned to a position shall retain any vacation, compensatory time, sick leave, or medical leave balance in effect at the time of granting of the leave of absence for appointment to the position. Employees shall be given credit for time spent in an appointment in computing eligibility for additional vacation leave accrual.

(d) In the event that emergency conditions occur which require the closing of City-operated facilities or the temporary cessation of functions carried out by classified employees, the Mayor of the City of St. Louis may declare an emergency and require an employee or group of employees to take leaves of absence with or without pay while such emergency conditions exist. In the event that the Mayor requires that the leave of absence be without pay, an employee with vacation or accrued compensatory time may elect to take the accrued time off with pay in lieu of all or a part of such non-paid leave of absence. Such non-paid leave of absence shall not interrupt continuity of service for vacation accrual. An emergency leave of absence declared by the Mayor shall not exceed ninety (90) days.

(e) Employees who are granted general leaves of absence and other non-paid leaves of absence, except military leave, must take all accrued vacation at the start of the leave of absence.

Employees who are granted or placed on a non-paid leave of absence will not accrue vacation and medical leave during the period of non-paid leave. Upon the expiration of such leaves of absence, the employee shall follow the procedures as established in this Section 4.54.220 and any other applicable regulations and procedures as established by the Chief Medical Examiner.

(f) A manager/supervisor, with the prior approval of the Chief Medical Examiner, may put an employee on a forced leave of absence with or without pay pending the outcome of an investigation or of a pending disciplinary action against the employee. Successor contractor shall also include any subcontractor that performs janitorial and security services for such successor contractor.
(Ord. No. 71769, § 1, 12-26-2023.)

4.70.020 Protection for janitorial and security services employees.

(a) Not less than twenty-five (25) calendar days before the termination or ending of a service contract for janitorial and security services, the former contractor shall provide the successor contractor a full and accurate list containing the name, address, date of hire, hourly rate of pay, employment classification, and if applicable the union seniority date, of each janitorial and security services employee currently employed by the former contractor and any former subcontractor at the affected site(s) for performance of such service contract. At the same time, the former contractor shall provide to each janitorial and security services employee, currently employed by the former contractor or any former subcontractor, a written notice of their rights under this chapter and post such notice in the same location and manner that other statutorily required notices to employees are posted in the affected building(s). The former contractor shall also provide at the same time such list and notice to the employee's collective bargaining representative, if any. The former contractor shall also provide at the same time such list and notice to the City and/or City agency. In the event a successor contractor has not been awarded a service contract yet, the City and/or City agency shall forward the list to all bidders as soon as practicable.

(b) Upon termination or ending of a service contract for janitorial and security services, any successor contractor shall retain for a ninety-day transition employment period those janitorial and security services employees employed by the former contractor and any former subcontractor at the affected site(s) to perform the terminated or ended service contract. The City and/or City agency will give notice of this requirement to the successor contractor as soon as practicable, but the failure to provide such notice does not relieve the successor contractor of its obligations under this chapter.

(c) If at any time the successor contractor determines that fewer janitorial and security services employees are required to perform such services at the affected sites than had been performing such services by the former contractor and any former subcontractor, the successor employer shall retain the janitorial and security services employees by seniority within job classification; provided that during the ninety-day transition period, the successor contractor shall maintain a preferential hiring list of those janitorial and security services employees not retained at the building(s) who shall be given a right of first refusal to any jobs within their classification that becomes available during that period. The successor contractor shall also give notice of the layoff under this paragraph, including the name of any affected employee and date of layoff, to the employee's former collective bargaining representative, if any, the employee's current collective bargaining representative, if any, and to the City and/or City agency.

(d) Except as provided in paragraph (c), during the ninety-day transition period, the successor contractor shall not discharge without cause a janitorial and security services employee retained pursuant to this chapter. In the event an employee is discharged, the successor contractor shall give notice of that discharge,

including the name of the employee, the date of discharge, and reason for discharge, to the employee's former collective bargaining representative, if any, to the employee's current collective bargaining representative, if any, and to the City and/or City agency.

(e) At the end of the ninety-day transition period, the successor contractor shall perform a written performance evaluation for each janitorial and security services employee retained pursuant this chapter. If such performance evaluation is satisfactory, the successor contractor shall offer such continued employment under the terms and conditions established by the successor contractor or as required by law.

(f) Nothing in this chapter shall restrict a former or successor contractor or subcontractor from obtaining a background check on an employee as may be required by a federal or state law or by local ordinance or from requiring that an employee undergo appropriate testing and investigation consistent with the employer's personnel policies.

(g) In the event that a successor contractor or subcontractor violates the provisions of Subsections (c), (d) or (e) of this section, it shall be deemed a separate violation of this chapter for each employee covered by the chapter that is deprived of the benefit of the subsection by reason of the violation.

(b) If there is no collective bargaining agreement as described in paragraph (a), to any successor contractor that, on or before the effective date of the termination or ending of the service contract for janitorial and security services, agrees to enter into a new collective bargaining agreement covering the janitorial and security services employees and agrees to retain the janitorial and security services employees, provided that the collective bargaining agreement provides terms and conditions for the discharge and laying off of employees;

(Ord. No. 71769, § 4, 12-26-2023.)

4.70.050 Outsourcing of services by the City, and/or City agency.

In the event the City and/or City agency outsources janitorial and security services being performed by employees of the City and/or City agency, then in addition to other requirements of bidders for such a service contract, it shall be a requirement for the contractor awarded the service contract to follow and abide by the provisions of Section 4.70.020(b) through (f) on retention of employees as applicable to those employees. The City and/or City agency shall make this requirement a provision of the contract with the contractor. 5.06.120 Records showing basis of valuation.

There shall be prepared and maintained by the Assessor, as a permanent public record accessible to the public during office hours, suitable record cards upon which shall be recorded the various elements or the basis of valuation, which, among other factors, were taken into consideration in ascertaining and determining the true value, in money, each City lot or parcel of land and of each improvement thereon.

These cards shall have entered thereon the following substantiating information in regard to building and land, to indicate all facts requisite to the determination of the value of each lot or parcel and buildings thereon.

There shall be noted block number, lot number, street on which property fronts, and in case of a corner lot, mention must be made of the side street for consideration of corner factors, also the front and depth of lot, together with unit value and provision for entering depth and corner factor for the determination of final value. A provision on the card should be made for acreage and for entering percentage of enhancing or detracting influence that would enter into valuation of land. To further substantiate any enhancing or detracting influence it shall be required to provide for recording the following information:

Lot—Level, high or low.

Street—Asphalt, brick, concrete, dirt, macadam, etc.

Alley—Asphalt, brick, concrete, dirt, macadam, etc.

Improvements—Sidewalk, curb, water, sewer, gas, etc.

It is further directed that to enable the recording of building values, provision shall be made to permit the listing of a detailed description of each building, and for recording at least the following information:

The permanent record card shall in addition to detailed description of building provide for recording following details in regard to garage:

Number of cars capacity, type, floor, roof, size, area, unit value and reproduction cost.

There shall also be provided, on permanent record card in space properly designated, the building dimensions, size, style, height, cube, or area and provision is to be made for recording of the condition of same, whether good, fair or bad, also lack of utility or obsolescence.

The permanent record card shall further provide on its face, space for the purpose of recording the number of rooms, and in case of apartments, the number of same and number of rooms in each, finished

attic rooms, finished basement rooms, date completed, age and when and how remodeled. There shall be provided on permanent record card a space headed "building appraisal," into which shall be inscribed a square with cross rulings representing ten feet on a side. There shall be sketched size and location of the building on the lot, and the size and position of porches and bays and recorded height from basement floor to top of wall.

The permanent record card shall provide space for the name of the owner of record as the same appears on the assessment book of each year, with space for recording transfers and date of same, and under the year of assessment shall be entered data from space of card listing land valuation, building and total valuation for taxation purposes.

There shall also be provided space on the reverse side of card for the name of the Deputy Assessor, reasons for decreased assessment and reasons for increased assessment, space for sketching of irregularly shaped lots and any additional information that the Assessor may deem necessary to substantiate valuation. (1948 C., Ch. 23, § 72; 1960 C., § 126.120; 1994 C., § 5.06.120.)

5.06.130 Uniform standard unit value.

The Assessor is directed to establish a uniform standard unit value for determining the true value in money of all City lots and parcels of land, which shall be designated as the standard unit foot and which shall be a strip of land one foot wide and one hundred twenty-five feet deep or other standard depth as shall be finally agreed upon and adopted.

This shall be done by determining the true value in money of the strip of land in the middle of each block extending one foot along the street frontage and at right angles to the street to a depth of one hundred twenty-five feet (or standard depth as varying conditions warrant) and the values so determined shall be the standard unit foot value to be considered, together with other factors, in determining the value of each lot or parcel of land in the block fronting on the street. (1948 C., Ch. 23, § 73; 1960 C., § 126.130; 1994 C., § 5.06.130.)

5.06.140 Depth table for lots varying from standard unit foot.

The Assessor shall establish a depth table for the purpose of uniformly assessing lots varying in depth from that of the established unit foot. The depth table shall set forth the percentage relationship which the standard unit foot value of lots of greater or less depths than the standard unit foot shall bear to the value of the standard unit foot and shall be based on Somers original curve of value. (1948 C., Ch. 23, § 74; 1960 C., § 126.140; 1994 C., § 5.06.140.)

5.06.150 Corner influence table.

The Assessor shall also establish a corner influence table which shall express uniform rules for the determination of enhancing or detracting value of side street influence, also uniform rules for the determination of the influence of an alley, railway or other enhancing or detracting elements. (1948 C., Ch. 23, § 75; 1960 C., § 126.150; 1994 C., § 5.06.150.)

5.06.160 Unit value maps.

The Assessor shall prepare unit value maps representing areas of convenient size upon which have been entered the prescribed unit value of land for each block in the district together with the corner influence and depth table applicable to the districts for use if desired at community meetings for discussion of the unit foot value entered thereon. (1948 C., Ch. 23, § 76; 1960 C., § 126.160; 1994 C., § 5.06.160.)

5.06.170 City block maps or plats.

The Assessor shall annually prepare City block maps or plats containing the assessment for land, buildings and improvements. These block maps or plats shall be posted in each block, or some place designated by the Assessor, on or before the second Monday in March annually. Provision on these plats shall be made for designating a suitable place, for public meetings, to be called for the purpose of public discussion and community expression of opinion relative to the uniform methods used in arriving at the assessed valuations of the land and buildings. (1948 C., Ch. 23, § 77; 1960 C., § 126.170; 1994 C., § 5.06.170.)

5.06.180 Manual—Building classification—Lot sizes.

There shall be prepared by the Assessor a schedule or manual classifying various types of buildings or structures by their use and construction with pictures or cuts of each representative type showing the uniform method of applying reproduction costs factors, previously determined by the square or cubic foot content of each type. The base reproduction price per square foot or cubic foot should appear beneath each picture. There

shall be noted on the bottom of each sheet additions and deductions because of variation from the standard type.

This manual shall further show with proper sketches set rules for the computation of values of lots of various sizes and shapes and describe the rules applicable thereto as follows:

Rule I Rectangular lots

To compute, multiply the unit value by the depth factor to obtain front foot value, multiply front foot value by lot frontage to obtain value of lot.

Rule II Back or no front lots

Use as depth factor the difference between the depth factors for the greatest and least distance from street.

Rule III "L" shaped lots

To compute, calculate as rectangular lot plus no front lot as outlined in Rule I and Rule II of this section.

Rule IV Lots with parallel sides irregular depth

Compute as for rectangular lot and use average depth for factor.

Rule V Triangular lots

With apex fronting on street compute one-third of base by depth factor represented by perpendicular depth.

Rule VI Triangular lots

With base fronting on street compute—use two-thirds of frontage on street by depth factor represented by perpendicular depth.

Rule VII Lots—Front and rear parallel (Street front greatest)

To compute, calculate difference between front and rear widths.

Reduce frontage by one-third of this difference. Then use perpendicular depth and compute same as rectangle.

Rule VIII Lots—Front and rear parallel (Street front less than rear)

To compute, add to frontage one-third of the difference between rear and front width. Then use perpendicular depth and compute as rectangle.

Rule IX Lots—Sides parallel, front, rear and sides irregular

To compute. Lots with irregular widths and depths.

Use average lengths of two sides as depth, calculate frontage same as Rule VII, reduce frontage by one-third of the difference between front and rear.

Rule X Irregular lots

Reduce to lots with parallel sides, or to triangles and proceed as outlined under rules governing previously stated.

Rule XI Lots fronting on curves

Reduce to equivalent rectangular, triangular or irregularly shaped lot and compute under methods outlined in previous rules.

Rule XII Lots with depth greater than standard depth fronting two streets of different unit values

Compute as standard depth lot on high unit value street, add remainder as lot fronting on low value street with depth as indicated.

Rule XIII Lots with depth greater than standard depth fronting two converging streets of different unit value

To compute, follow the method outlined above applying the principle of parallel sides with unequal depths.

Rule XIV To compute valuation on lots with depths greater than two hundred feet extending through from high unit value street to low unit value street.

Calculate lot of standard depth on low unit value street and add valuation on high unit value street for remainder of depth.

Rule XV To compute irregular lots extending through from street to street

Reduce to triangular lots and lots with parallel sides and compute as explained for through lots. (1948 C., Ch. 23, § 78; 1960 C., § 126.180; 1994 C., § 5.06.180.)

5.06.190 Manual—Corner influence rules.

The Assessor's manual shall, for the purpose of uniformity in assessing, show definite rules for application of corner influence tables previously adopted.

The Assessor shall not apply the corner influence table to residence corner lots where these lots have no value over inside lots in the judgment of the Assessor.

The Assessor shall, in case of doubt as to proper classification of a street corner, permit the present building operation to control.

The Assessor shall, for the purpose of uniformity in applying corner influence tables, set forth clearly in the manual the corner influence factors applied to lots of various shapes and dimensions as follows:

Rectangular lot fronting high value street. Compute as inside lot on high value street, using depth factor. Compute lot on low value street, using corner factor, sum of these equals valuation.

Rectangular lot, narrow frontage on high value street and greater than standard depth. Compute: Calculate corner lot of standard depth on high value street, compute lot on low value street using corner factor and compute rear portion of lot which is portion greater than standard depth, as inside lot on low value street, sum equals valuation.

The Assessor shall set forth in the manual the method to be used in the application of the corner influence factor for computing lots with irregular shape and unusual peculiarities and shall require that these rules be substantially adhered to in the computations necessary to arrive at value.

The Assessor shall designate the method of procedure in the same clear manner as is outlined in the examples in this section. (1948 C., Ch. 23, § 79; 1960 C., § 126.190; 1994 C., § 5.06.190.)

5.06.200 Manual—Value explanations.

The manual shall set forth depreciation data and define its use. Such data shall provide for the allowance of depreciation for such factors as age, neglect and improper maintenance and lack of utility or obsolescence. Lack of utility shall be construed to include nonconvertibility, improper layout, adaptation and faulty design.

The Assessor's manual shall explain enhancement of value due to remodeling or other causes. (1948 C., Ch. 23, § 80; 1960 C., § 126.200; 1994 C., § 5.06.200.)

5.06.210 Field men to have manuals.

The Assessor shall supply field men with copies of the manual and instruct them in its use and application. (1948 C., Ch. 23, § 81; 1960 C., § 126.210; 1994 C., § 5.06.210.)

5.06.220 Field record cards—Use.

The Assessor shall have printed conveniently sized record cards containing in abbreviated form space for recording data requisite for permanent record cards, together with the legal description of property to be used by Deputy Assessors in gathering required information. (1948 C., Ch. 23, § 82; 1960 C., § 126.220; 1994 C., § 5.06.220.)

5.06.230 Field record cards—Contents.

The Assessor shall charge his deputies with obtaining the required information in the field, sketch in building dimensions, measurements, descriptions and classifications as per manual and state use and construction of same, and note all enhancing and detracting factors that would effect final value. (1948 C., Ch. 23, § 83; 1960 C., § 126.230; 1994 C., § 5.06.230.)

5.06.240 Field record cards—Transfer of information.

The Assessor shall instruct that these field cards be returned to main office after buildings have been measured and appraised, where area or cubic contents shall be calculated and extended on cards. (1948 C., Ch. 23, § 84; 1960 C., § 126.240; 1994 C., § 5.06.240.)

5.06.250 Determination of true building value.

The reproduction cost shall be calculated and the age, condition or other factors extended on the cards under the supervision of a qualified building engineer to determine final true value in money of the building which is entered on permanent record cards. (1948 C., Ch. 23, § 85; 1960 C., § 126.250; 1994 C., § 5.06.250.)

5.06.260 Uniform assessment system.

The Assessor shall continue the present method of assessment of property until all steps have been taken to install completely the uniform assessment system set forth in this chapter, in order that there shall be no delay in the assessment of property annually, at the time prescribed by law. (1948 C., Ch. 23, § 86; 1960 C., § 126.260; 1994 C., § 5.06.260.)

5.06.270 Comptroller's duties.

The Comptroller, as head of the Department of Finance, shall prescribe forms and designate rules and regulations and require the observance thereof, for the purpose of maintaining proper accounting control over the books, bills and abstracts of the Assessor's Office. He shall make, or cause to be made, a continuous study looking to a further improvement and development of the method or system of assessments and shall in consequence of such study recommend to the Board of Aldermen proper amendments to this chapter. The budget submitted by the Board of Estimate and Apportionment to the Board of Aldermen shall provide a complete financial plan for the budget year for all funds of the City and shall include:

A. Estimated revenues to be actually received from all sources for the budget year, with a comparative statement of actual revenues for the two years next preceding, itemized by year, fund and source;

D. General Budget Summary. In no event shall the total amount of proposed expenditures for the budget year from any fund exceed the estimated revenues to be actually received plus any unencumbered balance or less any deficit estimated for the beginning of the budget year. (1960 C., §§ 122.040, 122.050; 1994 C., § 5.14.040; Ord. No. 49318, § 2(c), 1959.)

5.14.050 Budget message—Public improvement projects.

The budget message shall contain a complete explanation of the budget, with reasons for any major changes from the preceding year. As part of the message, the Board of Estimate and Apportionment shall state the estimated cost of all public improvement projects pending or in the process of completion and those which are recommended to be undertaken during the budget year and, also, a program of proposed public improvement projects for the ensuing five fiscal years. (1960 C., § 122.060; 1994 C., § 5.14.050; Ord. No. 49318, § 3, 1959.)

5.14.060 Public record.

The budget, budget message and all related schedules, exhibits and other explanatory matter shall be a public record open to public inspection in the office of the Budget Director. The Budget Director shall have sufficient copies of the budget and budget message prepared for distribution to interested persons. (1960 C., § 122.070; 1994 C., § 5.14.060; Ord. No. 49318, § 4, 1959.)

5.14.070 Aldermanic action on budget.

The Board of Aldermen may reduce any item in the proposed appropriation ordinance except those for the payment of principal or interest on the City debt or for meeting any Charter, ordinance or statutory obligations, but it may not increase any item or insert new items. The appropriation and tax rate bills referred to in Section 5.14.030 for each budget year shall be enacted not later than the fourth Monday in May of the budget year. If the tax rates are not established by ordinance on or before the fourth Monday in May of any year, the rates last previously established shall be the rates for the current year. Until the time the appropriation ordinance is enacted the several amounts last appropriated for each department or agency, so far as they relate to salaries or emergency supplies, materials and equipment, shall be reappropriated for the budget year. (1960 C., § 122.080; 1994 C., § 5.14.070; Ord. No. 49318, § 5, 1959.)

5.14.080 Allotment system for control of expenditures.

The Mayor, with the assistance of the Comptroller and the Budget Director, may control the rate at which all appropriations are expended during the budget year through a system of allotments. The allotments shall be based on work programs prepared by each department or agency. Whenever the allotments are established and approved by the Mayor, the Comptroller shall authorize expenditures to be made only on the basis thereof. (1960 C., § 122.090; 1994 C., § 5.14.080; Ord. No. 49318, § 6, 1959.)

5.14.090 Allotment reductions.

Whenever the total appropriations against any fund are greater than the total estimated revenues to be actually received into the fund during the budget year plus any unencumbered balance or less any deficit at the beginning of the year, the Mayor may reconsider all the expenditure allotments against such fund. Whenever the Mayor reconsiders the expenditure allotments, he shall, within a reasonable time, prepare and submit to the Board of Aldermen a proposed schedule of allotment reductions which will prevent expenditures in excess of the revenues and cash balance. If the Board is not in session, or is in recess, the Mayor shall convene it in a special session in time to receive the proposed schedule of allotment reductions.

The Board of Aldermen shall consider the schedule and may, by resolution, approve or amend it; but the Board shall not amend the schedule to make the total amount of all allotment reductions for any fund less than the total amount proposed for the fund by the Mayor. The schedule of allotment reductions, as may be approved by a majority vote of all members of the Board, shall become effective immediately upon approval. Failure of the Board to approve a schedule of allotment reductions within fifteen days after receipt of the schedule proposed by the Mayor shall constitute approval of the Mayor's schedule.

Whenever expenditure allotments are reduced in the manner provided in this section, the allotments for

the Department of Personnel shall in no case be reduced to less than one-half of one percent of the amount of all expenditures for personnel services in the City service in the fiscal year next preceding. (1960 C., § 122.100; 1994 C., § 5.14.090; Ord. No. 49318, § 7, 1959.)

5.14.100 Transfer of appropriation balances.

Whenever approved by the Board of Estimate and Apportionment, the Comptroller may transfer any unencumbered appropriation balance or portion thereof from one classification of expenditure to another within any department or agency, except that appropriations for capital outlays or extraordinary nonrecurring expenditures shall not be subject to transfer. On the recommendation of the Board of Estimate and Apportionment and within the last six months of the fiscal year, the Board of Aldermen may, by resolution, transfer an unencumbered appropriation balance or part thereof from any division, department, office or agency to any other division, department, office or agency. The Board of Estimate and Apportionment shall not approve or recommend any transfer until after receiving from the Budget Director a report and recommendation thereon. (1960 C., § 122.110; 1994 C., § 5.14.100; Ord. No. 49318, § 8, 1959.)

5.14.110 Supplementary appropriations.

At any time during the budget year, upon the recommendation of the Board of Estimate and Apportionment, the Board of Aldermen may make supplementary appropriations if:

A. The Comptroller, together with the Budget Director, estimates that such appropriations will not cause a deficit at the end of the budget year; or

B. The Board of Estimate and Apportionment shall recommend and the Board of Aldermen shall enact an ordinance or ordinances providing additional revenues and the Comptroller, together with the Budget Director, estimates that the amount of such additional revenues to be actually received during the budget year will equal or exceed the amount of the proposed supplementary appropriations. (1960 C., § 122.120; 1994 C., § 5.14.110; Ord. No. 49318, § 9, 1959.)

(1960 C., § 122.130; 1994 C., § 5.14.120; Ord. No. 49318, § 10, 1959.)

Except as otherwise expressly provided, no money shall be drawn from the City Treasury and no money obligation shall be incurred except pursuant to an appropriation made by ordinance, and at the end of each fiscal year the unexpended and unencumbered parts of all appropriations shall revert to the funds from which appropriated. Any official approving for payment any claim for which there is not a sufficient unencumbered balance in the appropriation, or which is contrary to Charter provisions shall be liable therefor in person and on his bond and shall be subject to removal from office. (1960 C., § 122.140; 1994 C., § 5.14.130; Ord. No. 49318, § 11, 1959.)

A tax for general revenue purposes of one percent is imposed on:

A. Salaries, wages, commissions and other compensation earned after July 31, 1959, by resident individuals of the City, including the entire distributive share of any member of a partnership or association, less the amount thereof, if any, which may be shown to have been taxed under the provisions hereof to said association or partnership;

Where the fiscal year of any person, association, business or corporation differs from the calendar year, the tax shall first be applied to that portion of the net profits for the fiscal year as shall be earned after July 31, 1959, and thereafter on the fiscal year basis.

Editor's Note:

The provisions of this § 5.22.023 passed at a general election dated April 5, 2016.

Cases:

A statute requiring reauthorization of city earnings tax every five years by vote of the people did not constitute an appropriation of funds or a state mandated increased level of activity or service, and did not amend a city charter contrary to Mo. Const. art. VI, § 20. *Dujakovich v. Carnahan*, 370 S.W.3d 574 (Mo.banc 2012)(construing RSMo 92.210-92.300, applicable to City of St. Louis as well as Kansas City).

5.22.025 Earnings tax credit.

Each individual, association, business, corporation, fiduciary or other entity, whose net profits are subject to the tax imposed by ordinances presently codified as this Chapter 5.22, shall, on any return required to be filed by Section 5.22.050 of this chapter, be allowed to claim as a credit against the earnings tax which would otherwise be due on such taxpayer's account an amount equal to twenty percent (20%) of any amount paid by such taxpayer in the period covered by such return as payroll expense tax pursuant to Chapter 5.23; provided, however, that in no event shall the credit exceed twenty-five percent (25%) of the tax on net profits due. (1994 C., § 5.22.025; Ord. No. 60879, § 1, 1988.)

5.22.030 Nonresident businesses.

The net profits subject to tax on any corporation, or of any association or business conducted in whole or in part by nonresidents of the City, in any case in which the work done, services performed or rendered, and business or other activities conducted are done, performed, rendered or conducted both within and without the City, shall be ascertained as follows:

A. If the taxpayer keeps its books and records in a manner as to show the portion of its net profits which is reasonably attributable to work done, services performed or rendered and business or other activity conducted in the City, then that portion of the net profits shall be subject to the tax.

B. If the books and records of the taxpayer are not kept in a manner so as to show the portion of its net profits which is reasonably attributable to work done, services performed or rendered, and business or other activity conducted in the City, then the portion of the entire net profits of the taxpayer subject to tax shall be ascertained by multiplying the entire net profits by an allocation percentage which shall be determined as follows:

1. The percentage which the average value of the taxpayer's real and tangible personal property within the City during the period covered by its return bears to the average value of all its real and tangible personal property wherever situated during the period shall first be ascertained.

2. The percentage which the gross receipts of the taxpayer derived from business within the City during the period covered by its return bear to the total of the gross receipts wherever derived, shall then be ascertained. Gross receipts derived from business within the City shall be the amount of gross receipts from: (a) Sales (including also sales of services), except those negotiated or affected in behalf of the taxpayer by agents or agencies, chiefly situated at, connected with, or sent out from premises for the transaction of business owned or rented by the taxpayer outside the City; and (b) Rentals or royalties from property situated, or from the use of patents, within the City.

3. The percentage which the total wages, salaries and other personal service compensation during the period covered by its return, of its employees within the City, except general executive officers, bears to the total wages, salaries and other personal service compensation during the period of all of the taxpayer's employees within and without the City, except general executive officers, shall then be ascertained.

4. The percentages determined in accordance with Subsections 1, 2 and 3, as applicable to the particular taxpayer's business, shall be added together and the total obtained shall be divided by the number of percentages used in arriving at the total. The result obtained shall be the allocation percentage.

C. If any taxpayer believes that the methods of allocation or apportionment prescribed in this section have operated or will operate to subject it to taxation on a greater portion of its net profits than is reasonably attributable to work done, services performed or rendered, and business or other activities conducted in the City, it shall be entitled to file with the Collector a statement of its objections and of the alternative method of allocation or apportionment it believes to be proper under the circumstances and in the manner and with the detail and proof and within a time the Collector may reasonably prescribe. If the Collector concludes that the methods of allocation or apportionment pro-

vided in this section are in fact inapplicable or inequitable, he shall redetermine the net profits subject to tax by such other method of allocation or apportionment as seems best calculated to assign to the City for taxation the portion of the net profits reasonably attributable to work done, services performed or rendered, and business or other activities conducted in the City, not exceeding, however, the amount which would be arrived at by the application of the methods of allocation or apportionment provided in this section. (1948 C., Ch. 23, § 143; 1960 C., § 145.030; 1994 C., § 5.22.030; Ord. No. 47063, § 3, 1954; Ord. No. 46222, § 3, 1952.)

5.22.040 Nonresident individual.

The earnings subject to tax of any nonresident individual, in any case in which the work done, services performed or rendered, and business or other activities conducted are done, performed, rendered or conducted both within and without the City, shall be ascertained as follows:

A. If the amount of the earnings depends on the volume of business transacted by the individual, then the portion of the earnings subject to tax shall be the portion of the earnings which the volume of business transacted by the individual in the City bears to the volume of business transacted by him within and without the City.

B. In all other cases, the portion of the earnings subject to tax shall be the portion of the earnings which the total number of working days employed within the City bears to the total number of working days within and without the City.

C. If it is impracticable to apportion the earnings as in Subsections A and B either because of the peculiar nature of the services of the individual, or on account of the unusual basis of compensation, or for any other reason, then the amount of the earnings reasonably attributable to work done, or services performed or rendered, in the City, shall be determined in accordance with rules and regulations adopted or promulgated by the Collector for the purpose. (1948 C., Ch. 23, § 144; 1960 C., § 145.040; 1994 C., § 5.22.040; Ord. No. 47063, § 4, 1954; Ord. No. 46222, § 4, 1952.)

5.22.050 Return—Payment.

Except as provided in this section, each individual, association, business, corporation, fiduciary, or other entity, whose earnings or profits are subject to the tax imposed by this chapter shall, on or before April 15 of each year, unless an extension is granted by the Collector, make and file with the Collector a return, on a form obtainable from the Collector, setting forth the aggregate amount of salaries, wages, commissions, compensation or net profits earned by the taxpayer during the preceding calendar year and subject to the tax, together with other pertinent information the Collector may require.

Where the return is made for a fiscal year different from a calendar year, the return shall be made within the following period of time; namely, by the fifteenth day of the fourth month following the end of the fiscal year, unless an extension is granted by the Collector. The return shall also show the amount of the tax imposed by this chapter on earnings and profits. The taxpayer making the return shall, at the time of filing thereof, pay to the Collector the amount of tax shown as due thereon.

Where any portion of the tax so due shall have been deducted at the source and shall have been paid to the Collector by the employer making the deduction, credit for the amount so paid shall be deducted from the amount shown to be due, and only the balance, if any, shall be due and payable at the time of the filing of the return. No return shall be required of any taxpayer who has received only wages, salaries, commissions or other compensation and from which the tax has been withheld at the source, as provided in this chapter. The failure of any employer or any taxpayer to receive or procure a return form shall not excuse the employer or taxpayer from making a return or paying the tax due. (1948 C., Ch. 23, § 145; 1960 C., § 145.050; 1994 C., § 5.22.050; Ord. No. 56913, § 1, 1975; Ord. No. 49928, § 1, 1960; Ord. No. 47063, § 5, 1954; Ord. No. 46222, § 5, 1952.)

5.22.060 Withholding.

A. Every employer within or doing business within the City who employs one or more persons on salary, wage, commission, or other compensation basis, shall deduct at the time when earned irrespective of when paid, the tax of 1% of salaries, wages, commissions, or other compensation due by the employer to the employee and subject to tax, and shall quarterly make his return and pay to the Collector, on or before the last day of July, October, January and April of each year, the amount of taxes so deducted for the three calendar

months next preceding the month in which the return is required to be filed. Said return shall be on a form or forms obtainable from the Collector and shall be subject to the rules and regulations prescribed therefor by the Collector. Every such employer shall furnish each employee with a statement of the amount of the tax withheld. The failure of any employer to deduct or withhold at the source the amount of tax due from the employees shall not relieve the employee from the duty of making a return and paying the tax.

B. Any employer, as defined herein, is required to make the deduction and withholding provided for in Subsection A of this section from all employees who are subject to the earnings tax by reason of their residence notwithstanding the fact that any such employee is employed exclusively outside the limits of the City and irrespective of the fact that the employer's payroll records may be located outside the City.

C. For purposes of this section the term "employer within the City" shall mean any employer who shall: (1) have a permanent situs in the City or (2) shall for a continuous period of time conduct its business activity at a fixed location within the City or (3) use on a regular but periodic basis physical facilities located in the City for the conducting of its business.

D. Employers who do not maintain a permanent office or place of business in the City, but who are subject to tax on net profits attributable to the City, under the method of allocation provided for in this section, are considered to be employers within the City and subject to the requirements of withholding.

E. From and after April 1, 1983, any employer who is required to deduct and withhold the City earnings taxes from employees' salaries, wages, commissions, or other compensation, shall remit to the Collector of Revenue all earnings taxes withheld since the last day of the period for which such employer filed or was required to file a quarterly return, within fifteen days after the last day of any calendar month in which earnings taxes withheld, less the amount allowed by law as compensation for collecting and remitting the tax, equal or exceed one thousand five hundred dollars ($1,500.00), if such calendar month is the first or the second month of a three-month period for which a quarterly return is required to be filed.

Example 1: Net taxes withheld in October are $1,200.00. Net taxes withheld in November are $1,600.00. No remittance is required by this subsection for October. The employer must remit $2,800.00 by November 15th.

Example 2. Net taxes withheld in October are $1,200.00. Net taxes withheld in November are $1,200.00. No remittance is required by this subsection for either month.

Example 3. Net taxes withheld in December are $1,600.00. No remittance is required by this subsection. The employer must remit all net taxes withheld in October, November and December, with his quarterly return, by the last day of January. As used in this chapter, the following terms have the following meanings:

A. "Business" means any activity, enterprise, profession, trade or undertaking of any nature conducted or engaged in, or ordinarily conducted or engaged in, with the object of gain, benefit or advantages, whether direct or indirect, to the taxpayer or to another or others. The term shall include subsidiary or independent entities which conduct operations for the benefit of others and at no profit to themselves, nonprofit businesses, and trade associations.

A person shall be deemed to be engaged in business, who in return for rental income, rents, leases or hires real or personal property to others. A person shall not be deemed to be engaged in business solely by reason of dividend or interest income from passive investments.

B. "City" means the City of St. Louis, Missouri.

C. "Collector" means the Collector of Revenue of the City.

D. "Employee" means and includes any individual in the service of an employer, under an appointment or contract of hire or apprenticeship, express or implied, oral or written, whether lawfully or unlawfully employed. For purposes of this tax, and irrespective of the common law tests for determining the existence of an independent contractor relationship, an individual performing work or service for compensation, shall be deemed to be an employee of the person for whom the work or service is performed unless:

1. Such individual has been and will continue to be free from control or direction over the performance of such work or service, both under his appointment or contract of hire or apprenticeship and in fact; and

2. Such work or service is either outside the usual course of the business of the person for which such service is performed or such service is performed outside of all the places of business of the person for whom such service is performed; and

3. Such individual is customarily engaged in an independently established trade, occupation, profession or business.

For purposes of this tax, any member of or person having an ownership interest in a partnership shall be deemed an "employee" of such partnership.

E. "Individual" means a natural person, a human being, as distinguished from an artificial person such as a corporation or political subdivision.

F. "Partnership" means a partnership, limited partnership, or any other form of unincorporated business or enterprise, owned by two or more persons.

G. "Payroll expense" means the compensation earned irrespective of when paid, including salaries, wages, commissions, bonuses, and other compensation, to an individual who, during any tax year, performs work or renders service, in whole or in part in the City; and if more than one individual during any tax year performs work or renders service in whole or in part in the City, the term "payroll expense" shall mean the total compensation earned irrespective of when paid, including salaries, wages, commission, bonuses and other compensation, to all such individuals. The term "payroll expense" for partnerships shall also mean, in addition to the foregoing, the entire amount of distributions made to any member or person having an ownership interest in such partnership.

H. "Person" means any natural person, receiver, administrator, executor, assignee, trustee in bankruptcy, trust, estate, firm, co-partnership, partnership, joint venture, club, company, joint stock company, business trust, domestic or foreign corporation, association, syndicate, society, or any group of individuals acting as a unit, whether mutual, cooperative, fraternal, nonprofit or otherwise, and any natural person, who as an individual or with a spouse, owns 51 percent or more of the capital stock of a corporation obligated to file a return and pay tax pursuant to this chapter; and in addition, is a person with the power to control the fiscal decision-making process by which the corporation allocates funds to creditors in preference to its tax obligations under the provisions of this chapter. A person as defined herein, who is also an officer or director of a corporation obligated to file returns and pay tax pursuant to this chapter, shall be presumed to be a person with the power to control the fiscal decision-making process. Whenever the term "person" is used in any clause prescribing and imposing a penalty, the term as applied to partnerships shall mean the owners or part owners thereof, and as applied to a corporation, the officers thereof.

I. "Taxpayer" means a person required hereunder to file a return or to pay a tax. (1994 C., § 5.23.010; Ord. No. 60737, § 1, 1988.)

5.23.020 Tax imposed.

A. There is hereby imposed, subject to the approval of the qualified voters as hereinafter provided, a tax for general revenue purposes upon every person not exempt under Section 5.23.050, hereof, who, in connection with his business, engages, hires, employs or contracts with one or more individuals as employee, to perform work or render services in whole or in part within the City. The incidence of such tax shall be solely upon the person subject to the tax hereunder and shall not be transferred directly or indirectly to the employee in any circumstances.

B. The amount of such tax shall be one-half of one percent (0.5%) of the payroll expense of such person attributable to the City as provided in Section 5.23.030 hereof.

C. This chapter is not intended to nor shall it be construed or administered as requiring any license or permit whatsoever, nor as a means to regulate the conduct of any business whatsoever, nor shall payment of the payroll expense tax be a condition precedent to engaging in any business whatsoever within the City or for or on the privilege of following or carrying on or conducting any profession or calling whatsoever, any ordinance provision to the contrary notwithstanding. The tax imposed hereunder, subject to the approval of the qualified voters, is imposed for general revenue purposes and in order to require commerce and the business community to bear a fair share of the cost of local government. (1994 C., § 5.23.020; Ord. No. 60737, § 2, 1988.)

Cases:

Payroll tax ordinance held constitutional in light of Mo.Const. art. VI, § 19(a), concerning powers of home rule charter cities. *Neuner v. City of St. Louis*, 536 S.W.3d 750 (Mo.App.E.D. 2017).

5.23.030 Determination of tax attributable to City.

Where payroll expense is incurred by reasons of work performed or services rendered by an individual, as employee, partly within and partly without the City, the portion of such payroll expense attributable to the City (and subject to tax hereunder) shall be determined as follows:

A. If the amount of such payroll expense depends on the volume of business transacted by such individual then the portion of such payroll expense attributable to the City shall be the portion of such payroll expense which the volume of business transacted by such individual in the City bears to the volume of business transacted by him within and without the City.

B. In all other cases, the portion of such payroll expense attributable to the City shall be the portion of such payroll expense which the total number of working hours employed within the City bears to the total number of working hours within and without the City.

C. In all other cases, the portion of such payroll expense attributable to the City shall be the portion of such payroll expense which the total number of working hours employed within the City bears to the total number of working hours within and without the City.

D. If it is impracticable to apportion such payroll expenses as aforesaid either because of the peculiar nature of the service of such individual, or on account of the unusual basis of compensation, or for any other reason, then the amount of such payroll expenses reasonably attributable to work performed or service rendered, in the City, shall be determined in accordance with rules or regulations adopted or promulgated by the Collector for the purpose.

If the Collector determines that the percentage of payroll expenses attributable to the City, for any one or more taxpayers, is a relatively stable percentage, the Collector is authorized to (but need not in any case) establish that percentage as a prima facie percentage of payroll expense attributable to the City; provided, however, that the Collector shall condition the establishment of such fixed percentage upon the obligation of the taxpayer to report immediately to the Collector any significant change in his mode of business which might have some effect upon the portion of his payroll expense which is attributable to the City; and provided further, that any such fixed percentage established by the Collector is revocable by the Collector at any time. (1994 C., § 5.23.030; Ord. No. 60737, § 7, 1988.)

5.23.040 Applicability of tax.

This tax shall not apply to any person unless such person is doing business within the City. A person is doing business within the City, within the meaning of this chapter, if he engages, hires, employs or contracts with one or more individuals, as employee, to perform work or render services in whole or in part with the City and, in addition, either:

A. Such person maintains a fixed place of business within the City; or

B. An employee maintains a fixed place of business within the City for the benefit or partial benefit of such persons; or

C. Such person or employee owns or leases real property within the City for such person's business purposes; or

G. Such person or his employees perform work or render services in the City for not less than seven working days per year for all such employees; or

H. Such person or his employee utilizes the streets within the City in connection with the operation of motor vehicles for business purposes. (1994 C., § 5.23.040; Ord. No. 60737, § 8, 1988.)

5.23.050 Exemptions.

Religious and charitable organizations and institutions, not-for-profit civic, social service or fraternal organizations, not-for-profit hospitals, not-for-profit educational institutions, the State of Missouri and agencies or departments thereof, and the United States of America and agencies or departments thereof, shall be exempt from taxation under this chapter. (1994 C., § 5.23.050; Ord. No. 60737, § 9, 1988.)

5.23.060 When due and payable—Filing of return.

The tax imposed herein shall become due and payable on or before the last day of July, October, January and April of each year, in an amount of the tax due for the three calendar months next preceding the month in which the return is to be filed. Such return shall be on a form or forms obtainable from the Collector and shall be subject to the rules and regulations prescribed therefor by the Collector. (1994 C., § 5.23.060; Ord. No. 60737, § 10, 1988.)

5.23.070 Request for financial information.

A. The Collector may, at his discretion, send any person a written request for financial information necessary for the purpose of verifying such persons' tax liability or tax-exempt status as claimed by the person on a return filed pursuant to Section 5.23.060 hereof. The request shall be mailed to the person's last known address as indicated in the Collector's records.

B. Each person to whom a written request for financial information has been sent pursuant to Sub-

section A of this section shall complete and return the form, with the information requested, to the Collector within 30 days of the date of the mailing of the written request. Said person shall provide such financial information that the Collector, in writing, has indicated is necessary to verify said person's tax liability or tax-exempt status. (1994 C., § 5.23.070; Ord. No. 60737, § 11, 1988.)

5.23.080 Duties of Collector—Recordkeeping—Enforcement and administration.

A. It shall be the duty of the Collector to collect and receive the tax imposed by this chapter. In addition to keeping the records now required by the law and paying over the proceeds from the collection of taxes to the Treasurer of the City, as now provided by law, the Collector shall keep an accurate and separate account of all payroll expense tax payments received by him, showing the name and address of the taxpayer and the date of the payments. The Collector is charged with the enforcement of the provisions of this chapter and is empowered to issue, adopt, promulgate and enforce forms, rules and regulations relating to any matter or thing pertaining to the administration and enforcement of the provisions of this chapter, including, but not limited to, provisions for the reexamination and correction of returns and payments alleged or found to be incorrect or as to which an overpayment or underpayment is chimed or found to have occurred, and the making of refunds of taxes found to have been overpaid. The Collector or any agent or employee authorized in writing by him as authorized to examine the books, paper and records of any employer or supposed employer, or of any taxpayer or supposed taxpayer, in order to verify the accuracy of any return made, or if no return was made, to ascertain the tax imposed by this chapter, and such actual or supposed employer or taxpayer is hereby directed and required to permit such examination.

B. Every person subject or supposedly subject to tax hereunder, or taxpayer or supposed taxpayer, is directed and required to give to the Collector or his duly authorized agent or employee the means, facilities and opportunity for examinations and investigations as are authorized. The Collector is authorized to examine any such person or taxpayer concerning any amounts which were or should have been returned for taxation and to this end may order the production of books, papers and records and the attendance of all persons before him, whether as parties or witness, whom he believes to have knowledge of such amounts. The refusal of examination by any such person or taxpayer shall be a violation of this chapter. Any information obtained as a result of any return, investigation, hearing or verification required or authorized by this chapter, shall be confidential except for official purposes and except in accordance with judicial order. Any person otherwise divulging such information shall, upon conviction thereof, be guilty of a violation of this chapter and shall be subject to a fine of not more than five hundred dollars or imprisonment for not more than six months or both fine and imprisonment for each offense.

C. To the extent permitted by law, the Collector is authorized to enter into agreements with the Missouri Department of Revenue and/or the United States Internal Revenue Service, to facilitate enforcement or administration of the tax hereunder.

D. The compensation payable to the Collector for collecting the tax imposed by this chapter shall be that commission allowed by RSMo 82.650 (1986), for the collection of City Earnings Tax. (1994 C., § 5.23.080; Ord. No. 60737, § 12, 1988.)

5.23.090 Unpaid tax—Liability—Penalty.

Any tax imposed by this chapter and remaining unpaid after it has become due shall bear interest at the rate of one percent per month, or fraction thereof and the delinquent taxpayer shall be liable for the tax and interest. In addition thereto any taxpayer failing to pay any tax required by this chapter shall be liable for a penalty of five percent of the amount of the unpaid tax for each month or fraction of a month during which failure to pay continues, with the penalty not to exceed twenty-five percent of the total tax shown to be due. (1994 C., § 5.23.090; Ord. No. 60737, § 13, 1988.)

5.23.100 Recoverability of tax.

Any tax imposed by this chapter together with all interest and penalties, shall be recoverable by the City as other debts of like amounts as recoverable. (1994 C., § 5.23.100; Ord. No. 60737, § 14, 1988.)

5.23.110 Failure, refusal or neglect to make return—Penalty for violation.

Any person or taxpayer who shall fail, neglect or refuse to make any return required by this chapter or any person who shall fail, neglect or refuse to withhold or pay over to the City any amount of tax due under

this chapter, or any person or taxpayer who shall refuse to permit the Collector, or his duly authorized deputy or agent, to examine his books, records or papers, or who shall knowingly make an incomplete, false or fraudulent return, or who shall attempt to do anything whatsoever to avoid the full disclosure of the amount of payroll expense or partnership distributions subject to tax hereunder, shall be guilty of a violation of this chapter and shall be subject to a fine of not more than five hundred dollars or to imprisonment for not more than six months, or to both fine and imprisonment. (1994 C., § 5.23.110; Ord. No. 60737, § 15, 1988.)

5.23.120 Failure to pay—Attempt to defeat or evade tax—Penalty for violation.

A. Any taxpayer may protest all or any part of any tax assessed against him pursuant to this chapter. Any such taxpayer desiring to pay any such tax under protest must, at the time of paying such tax, file with the Collector a written statement setting forth the grounds on which his protest is based. Failure to file such a statement constitutes a waiver of any right that the taxpayer may possess to challenge the assessment and collection of the tax.

B. 5.26.100 Purpose.

The purpose of this part is to implement procedures to allow the office of the Assessor of the City to comply with RSMo 137.112 to 137.114 relating to postponed assessments of deferred maintenance improvements. (1994 C., § 5.26.100; Ord. No. 61526, § 2, 1989; Ord. No. 57973, § 1, 1980.) For procedures on redevelopment of blighted areas, see Ch. 11.06. For procedures on obsolete areas, see Ch. 1107.

5.26.110 Definitions.

"Deferred maintenance" means maintenance, repair, or replacements, as described in this section, to an existing dwelling consisting of any number of residential units, regardless of the classification of the real property for assessment purposes. The term "deferred maintenance" does not mean the addition of new construction to an existing building which increases the number of square feet of living space, nor does it mean maintenance, repairs, replacements, or new construction to a portion of an existing dwelling if such portion is used for commercial purposes.

B. Deferred maintenance includes the maintenance, repair or replacement of the following:

1. Broken floor joists, missing sections or collapsed interior floors;

2. Improperly installed or collapsing partitions, loose or missing plaster;

3. Broken or missing sash, frames or window panes;

4. Inadequate light or ventilation;

6. Missing or broken doors;

7. Collapsed or broken stairs, stairways or stair railings;

8. Missing or inoperative sanitary facilities;

C. Deferred maintenance includes substantial rehabilitation. Substantial rehabilitation is hereby defined to mean any rehabilitation or reconstruction activity, inclusive of items mentioned in Subsection B hereinabove, which amounts to a direct expenditure of more than one-quarter (¼) of the fair market value of the property being improved. Fair market value shall be determined by dividing the current assessed value of improvements only by nineteen percent (19%), for real property in subclass (1) and the current assessed value of residential improvement only by thirty-two percent (32%) for real property in subclass (3). The assessed value of land or commercial improvements shall not be included in this computation.

D. "Real property in subclass (1)" means as defined in RSMo 137.016.

E. "Real property in subclass (3)" means as defined in RSMo 137.016. (1994 C., § 5.26.110; Ord. No. 61526, § 4, 1989; Ord. No. 59455, § 1, 1985; Ord. No. 57973, § 2, 1980.)

5.26.120 Scope.

The provisions of this part shall apply only to the deferred maintenance of dwellings consisting of any number of residential units which is begun during the period January 1, 1978, to December 31, 1988, or which is begun during the period August 28, 1989, to December 31, 1998, regardless of the classification of the real property for assessment purposes. (1994 C., § 5.26.120; Ord. No. 61526, § 4, 1989; Ord. No. 57973, § 3, 1980.)

5.26.130 Applicability.

The provisions of this part shall apply only to dwellings located on real property within either:

A. An obsolete district created pursuant to Chapter 11.07 of the Revised Code of the City of St. Louis 1980, Annotated; or

B. A blighted area created pursuant to Chapter 11.06 of said Revised Code; provided, however, that any deferred maintenance activity undertaken on dwellings located within any such blighted area shall conform to the applicable construction and rehabilitation standards of any development plan adopted for such blighted area, if any. (1994 C., § 5.26.130; Ord. No. 61526, § 5, 1989; Ord. No. 59455, § 5, 1985; Ord. No. 59028, § 5, 1984; Ord. No. 57973, § 5, 1980.)

5.26.140 Application for postponement of assessment.

Any person owning residential property in an eligible area who desires to have assessment postponed on deferred maintenance activities shall, prior to commencement of improvements, file an application with the office of the Assessor of the City on forms prepared by that office. Said application shall include:

5.26.150 Postponement of assessment of deferred maintenance improvements.

A. Upon receipt of such application, the Assessor shall:

1. Determine that the property in question is on the tax rolls of the City;

2. Determine that no delinquent taxes on such property are due;

3. Determine that the property is a dwelling consisting of any number of residential units, regardless of the classification of the real property for assessment purposes;

8.08.050 Religious, educational or charitable purposes.

The taxes imposed by this chapter shall not be levied upon any religious, educational or charitable organization or undertaking otherwise included as taxable, under Sections 8.08.010, 8.08.110 or 8.08.140, where a substantial part of the net proceeds derived are solely used for religious, educational or charitable purposes. In determining whether a religious, educational or charitable purpose exists, the Collector may require the production of all relevant documents, take testimony under oath to be administered by him and inspect premises and arrangements to be used. The decision of the Collector shall be approved by the Comptroller. Upon granting any such exemption as herein provided, the Collector shall issue a license to the religious, educational or charitable applicant, as is hereinafter provided, plainly evidencing the exemption. Further, where a religious, education or charitable organization or undertaking is granted an exemption from taxation under this section, no person or entity rendering an entertainment, artistic or athletic service or performance for such undertaking shall be subject to the tax imposed by Section 8.08.010. Provided further, where a tax exemption is granted and the Collector at any time thereafter discovers that a true religious, educational or charitable purpose was substantially nonexistent, he shall upon the Comptroller's approval revoke the exemption and levy the tax owing with interest at the legal rate. In such cases, the tax shall be paid forthwith; and in making such determination the Collector shall have the same powers as is provided for determining questions of exemptions initially. (1948 C., Ch. 13, § 67; 1960 C., § 151.100; 1994 C., § 8.10.100; Ord. No. 46432, § 2(67), 1953.)

The License Collector may, within a reason-

able time thereafter, by a public notice at least five days before the day of sale, sell the forfeited cigarettes, forfeited vending machines and receptacles at a place designated by him and from the proceeds of the sale shall collect the tax due thereon together with a penalty of fifty percent thereof and the costs incurred in such proceedings. The Comptroller shall pay the balance, if any, to the person in whose possession the forfeited cigarettes, forfeited vending machines and receptacles were found; provided, however, that such seizure and sale shall not be deemed to relieve any person from fine or imprisonment provided herein for violation of any provision of this chapter. (1948 C., Ch. 13, § 71; 1960 C., § 151.140; 1994 C., § 8.10.140; Ord. No. 46432, § 2(71), 1953.)

The petition shall be in writing and shall be accompanied by fifteen dollars to cover the cost of the hearing. The petition shall set forth in detail the manner or grounds upon which the applicant or licensee alleged that he is aggrieved by any decision, order, requirement or determination of the License Collector or any other tax official of the City. The Board shall have the jurisdiction to hear and decide appeals where it is alleged there is an error in any order, requirement, decision, or determination made by the License Collector in the enforcement of this order, and to this end the Board shall be empowered with all of the powers of the License Collector in the interpretation and enforcement of this chapter.

The minimum license fee for any six-month period shall be the sum of twelve dollars and fifty cents for each such period.

Should any contractor be subject to a gross receipts tax of the City for any six-month period by any licensing or tax ordinance of the City, this chapter shall be construed as to not place a tax on the same gross receipts received by a contractor as defined in Section 8.12.010. Each subcontractor in such event shall be required to file a separate six-month return and shall be liable for the tax due thereon, and shall be required to secure a license and file a return thereon. In addition, the written estimate must include information identifying each opening, item or area of the building, structure or facility to be protected and describe the device or devices to be installed.

K. *Alarm Alteration Disclosure.* It shall be unlawful for any person engaging in the alarm business, or any alarm agent, including a person employed by a subcontractor, to adjust, alter, fix or change any alarm system or part thereof without written disclosure of estimated costs and scope of work to the alarm subscriber.

Written operating procedures and the phone number of the central monitoring station shall be maintained at each alarm site by the alarm subscriber. At the time of alarm installation, each alarm business, including a subcontractor, shall have the alarm subscriber complete a form approved by the Director of

Public Safety and the Chief of Police in which the subscriber certifies (1) that he/she understands the requirement to register the alarm with the Department of Public Safety prior to activation of the alarm; (2) that he/she has received instructions from the alarm company in the proper operation of the alarm system and understands those instructions; and (3) other requirements or information as determined by the Director of Public Safety and the Chief of Police. In addition, the alarm agent shall provide to the alarm subscriber a brochure approved by the Director of Public Safety and the Chief of Police describing the rights and responsibilities of alarm subscribers. Each alarm business will perform corrective action designed to decrease the number of false alarms, which may include preventive maintenance and/or the upgrading or replacement of alarm systems. (1994 C., § 8.13.030; Ord. No. 66264, § 4, 2004.)

8.13.040 Registration of alarm systems with Department of Public Safety.

A. An alarm subscriber shall not enter into an agreement for the installation of any alarm system with any alarm business or alarm monitoring company, including subcontractors, unless said business is currently licensed by the City of St. Louis and registered with the Department of Public Safety and the Chief of Police.

B. Prior to reporting any alarm sounding to the Police Department, the alarm subscriber shall obtain an alarm identification number, through written notice from the Department of Public Safety, for each separate alarm system on his/her premises, including robbery and panic alarms that are not part of an integrated alarm system. The Department of Public Safety shall also notify, by written notice, the alarm business providing service to the alarm subscriber of said alarm identification number. No police dispatch shall be made in response to the alarm subscriber's alarm until written notice of the alarm identification number is made to both the alarm subscriber and alarm business. Failure to register an alarm system is a violation of this chapter.

C. Application for an alarm identification number shall be made to the Department of Public Safety in a manner and form prescribed by the Director of Public Safety.

D. A registration fee will be charged by the alarm company to the alarm subscriber at the time of initial registration of the alarm system and remitted to the City of St. Louis. Such fee will be assessed annually and remitted to the City of St. Louis in a manner prescribed by the Director of Public Safety. Such registration fee shall be twenty-five ($25.00) dollars for each residential alarm system and fifty ($50.00) dollars for each commercial alarm system. In addition, a copy of the paid application for electrical inspection must be provided by the alarm subscriber at the time of registration. Failure of any alarm subscriber to pay a required fee within thirty (30) days of notice by the Department of Public Safety shall result in suspension of the alarm registration.

The alarm identification number assigned to an alarm system at a specific location shall remain unchanged, even though there is a new alarm subscriber at the residence or business. The alarm company providing service to the alarm system shall notify the Director of Public Safety within ten (10) working days from the date the new alarm subscriber begins occupancy at a location where the alarm system is located, and provide all necessary information concerning such new alarm subscriber, along with the effective date of change in alarm subscribers. It shall be a violation of this chapter for any person to use an alarm identification number assigned to another person; failure to abide by this provision will result in a suspension of alarm registration.

E. The Director of Public Safety may require the appropriate alarm company to perform a re-inspection of any alarm system, to include an electrical inspection, when there is evidence that such alarm system may be generating unnecessary false alarms, or upon request of the Chief of Police. The cost of the re-inspection will be borne by the alarm subscriber. Suspension of alarm registration may be ordered by the Department of Public Safety if such inspection uncovers deficiencies which are not corrected by the alarm subscriber within a time period established by the Director of Public Safety.

F. All alarm systems installed and operating prior to the effective date of the ordinance codified in this chapter shall comply with the provisions of this section within one hundred eighty (180) days of such effective date. Alarm systems installed and operating prior to the effective date of the ordinance codified in this chapter shall not be required to pay an additional electrical permit fee if the alarm company certifies that

the existing system is properly installed and operating. (1994 C., § 8.13.040; Ord. No. 66264, § 5, 2004.)

8.13.050 Alarm systems.

All burglary alarm systems installed after the effective date of the ordinance codified in this chapter must be equipped with audible alert that can be heard by the subscriber throughout the protected premises. All alarm systems must be equipped with stand-by batteries to operate for not less than four (4) hours if power is interrupted. Back-up batteries should also prevent false alarms during power outages. Failure of an alarm subscriber to comply with any provision of this section can result in revocation of the alarm registration. (1994 C., § 8.13.050; Ord. No. 66264, § 6, 2004.)

8.13.060 Alarm reporting.

A. No alarm company or monitoring service shall send, directly or indirectly, an alarm sounding notification to the Police Department following installation of an alarm system, until written notice of the alarm registration number has been received from the Director of Public Safety by both the alarm subscriber and alarm business providing service to such alarm subscriber.

B. All alarm soundings reported to the Police Department, either directly or indirectly, shall be done in a manner prescribed by the Chief of Police and shall include the requirement that the reporting party, alarm company or monitoring service give the valid alarm identification number, type of alarm, exact numerical address of the alarm site, alarm subscriber name and name of current alarm company.

C. Each alarm company shall establish alarm verification procedures with their customers. An up-to-date record shall be maintained by the alarm company containing the name and phone number(s) of both a primary and secondary local emergency contact who may be called to verify the validity of an activated alarm by personally appearing at the alarm site and securing the premises.

D. Prior to requesting police dispatch to the site of an alarm sounding, the appropriate alarm company or monitoring service will make at least two verification attempts to determine if the alarm was activated in error before contacting the police. Additional efforts at verification may be made after police dispatch. A call cancelled by the alarm or monitoring company before police arrival at the scene will not be counted as a false alarm. (1994 C., § 8.13.060; Ord. No. 66264, § 7, 2004.)

8.13.070 Responsibility of alarm subscriber or user.

It shall be the responsibility of the alarm subscriber or user to: maintain premises containing an alarm system in a manner that ensures proper operation of the alarm system; maintain the alarm system in a manner that will prevent or minimize false alarms; refrain from manually activating an alarm for any reason other than for the occurrence of an event for which the alarm system is intended to report; and instruct all personnel who are authorized to activate the alarm system of the proper method of operation, to prevent false alarms. (1994 C., § 8.13.070; Ord. No. 66264, § 8, 2004.)

8.13.080 False alarms.

A. All alarm notifications requiring a police response are characterized as being either a legitimate alarm or a false alarm after inspection of the alarm site by the responding police officer(s).

1. The following situations are considered to be legitimate alarms and are not chargeable to the alarm user:

a. Alarm activated due to criminal activity or attempted criminal activity;

b. Alarm activated as a result of weather (lightning, high winds, etc.);

c. Alarm activated due to a power outage or surge or damage to phone lines;

d. Alarm properly cancelled prior to the officer's arrival;

e. Alarm activated as a result of police radio interference;

f. Other situations where it is determined by the responding police officer(s) that the alarm user could not have reasonably prevented the alarm activation.

2. The following situations are considered to be false alarms and are chargeable to the alarm user if the Police Department responds to the alarm site:

a. Business alarms that are accidentally activated by an employee, owner, cleaning crew or other persons legally at the alarm site, and residential alarms that are accidentally activated by the homeowner, occupant, or person who is legally at the residence;

b. Alarm activated as a result of a domestic animal;

c. Alarm activated due to heating or air conditioning blowers turning on or due to the operation of other mechanical or electrical devices left operating;

d. Alarm activated due to falling stock or movement of hanging signs or other objects;

e. Alarm activated as a result of a malfunction in the alarm system;

f. Alarm caused by any other condition that could have been reasonably prevented by the alarm user.

B. False Alarm Service Fee Schedule. These provisions shall apply to each alarm system one hundred eighty (180) days after the date the ordinance codified in this chapter is signed by the Mayor: Upon receipt of the first (1st) false alarm after the initial activation of an alarm system, the alarm subscriber shall be notified by the Director of Public Safety that a false alarm occurrence has been recorded at the registered alarm address, and notifying the subscriber that any subsequent false alarm occurrences will be subject to penalties as provided by ordinance; upon receipt of the second (2nd) false alarm within a twelve-month period, the alarm subscriber shall be assessed a service fee of twenty-five ($25.00) dollars. Upon receipt of the third (3rd) false alarm within a twelve-month period, the alarm subscriber shall be assessed a service fee of fifty dollars ($50.00). Upon receipt of the fourth (4th) false alarm within a twelve-month period, the alarm subscriber shall be assessed a service fee of fifty dollars ($50.00).

In addition, a written notice shall be issued by the Department of Public Safety to the alarm subscriber, and to the alarm business providing service to such alarm subscriber, advising that police response to the alarm system shall be suspended for a period of thirty (30) days effective fourteen (14) days after the date of the notice. No alarm subscriber or alarm business shall send an alarm sounding notification to the Police Department from an alarm system that has been suspended, except as provided herein.

Police dispatch to a location with an alarm revocation will be limited to those situations where a private guard responder has first responded to the alarm site and confirmed that an attempted, suspected or actual crime has occurred at such alarm site; however, the private responder shall be required to remain at the scene until arrival of police. This provision will also apply to local alarms, but will not apply to the activation of duress, panic or holdup alarms. All service fees for false alarms under this section shall be payable to the City of St. Louis. (1994 C., § 8.13.080; Ord. No. 66264, § 9, 2004.)

8.13.090 Suspension.

An alarm subscriber who has been suspended under the provisions of this chapter shall be reinstated after the completion of the thirty-day suspension provided that the alarm business which installed the alarm system certifies that the alarm subscriber has been retrained in the proper use of the alarm system and certifies that the subscriber's alarm system is in proper working condition. Any alarm subscriber who has been suspended due to false alarms and has been reinstated shall be subject to a service fee of one hundred ($100.00) dollars for each subsequent false alarm reported on their alarm system up to a maximum of three (3) additional false alarms within the original twelve (12) month registration period. If the subscriber exceeds seven (7) false alarms within any registration year a written notice shall be issued by the Department of Public Safety to the alarm subscriber, and to the alarm business providing service to such alarm subscriber, advising that police response to the alarm system shall be suspended for a period of twelve (12) months, effective fourteen (14) days after the date of the notice. No alarm subscriber or alarm business shall send an alarm sounding notification to the Police Department from an alarm system that has been suspended, except as provided herein.

Police dispatch to a location with an alarm revocation will be limited to those situations where a private guard responder has first responded to the alarm site and confirmed that an attempted, suspected or actual crime has occurred at such alarm site; however, the private responder shall be required to remain at the scene until arrival of police. This provision will also apply to local alarms, but will not apply to the activation of duress, panic or holdup alarms. All service fees for false alarms under this section shall be payable to the City of St. Louis.

All other subscribers shall annually revert to the beginning fine structure at the start of each annual registration period. (1994 C., § 8.13.090; Ord. No. 66264, § 10, 2004.)

8.13.130 Vision-obscuring device prohibited.

It is unlawful for any person to install or use an alarm system or device that emits or produces real or simulated smoke, fog, vapor or any like substances that obscures vision. Use of this device shall result in no police response. (1994 C., § 8.13.130; Ord. No. 66264, § 14, 2004.)

8.13.140 Local alarms not to sound for more than fifteen minutes.

B. The Director shall issue a license to a driver, attendant or attendant-driver, valid for a period of three years, unless earlier suspended, revoked or terminated, when he finds that the applicant:

The private parts of patrons must be covered by towels, cloths, or undergarments when in the presence of an employee, masseur, or masseuse. Any contact with a patron's genital area is strictly prohibited.

It shall be unlawful for any masseur or masseuse to massage any individual customer in a manner which is reasonably calculated to sexually stimulate or arouse the person being massaged. Intentional touching of the genitals of a person being massaged by a masseur or masseuse constitutes prima facie evidence of an attempt to sexually arouse or stimulate the person.

All massage or public bath establishments shall be provided with clean, laundered sheets and towels in sufficient quantity and shall be laundered after each use thereof and stored in an approved, sanitary manner.

Wet and dry heat rooms, shower compartments, and toilet rooms shall be thoroughly cleaned each day the business is in operation. Bathtubs shall be thoroughly cleaned after each use.

No male or female procurers, vagrants, thieves or persons of known bad character shall be attendants or employees of massage or public bath establishments.

No massage or public bath establishment granted a permit under provisions of this chapter shall place, publish, or distribute or cause to be placed, published, or distributed any advertising matter that depicts any portion of the human body that would reasonably suggest to prospective patrons that any service is available other than those services as described in Section 8.24.010. 8.24.140 Inspection.

The Police Department and the Health Department shall from time to time and at least twice a year, make an inspection of each massage or public bath establishment in the City for the purposes of determining that the provisions of this chapter are complied with. The inspections shall be made at reasonable times and in a reasonable manner. It shall be unlawful for any

licensee to fail to allow the inspection officer access to the premises or to hinder the officer in any manner. (1960 C., § 649.140; 1994 C., § 8.24.140; Ord. No. 70813, § 2(8.24.140), 7-16-2018; Ord. No. 56859, § 2(649.140), 1974.)

8.24.150 Transfer of licenses.

No license shall be transferable except with the written consent of the Board of Public Service; provided, however, that upon the death or incapacity of the licensee the massage or public bath establishment may continue in business for a reasonable period of time to allow for an orderly transfer of license. (1960 C., § 649.150; 1994 C., § 8.24.150; Ord. No. 70813, § 2(8.24.150), 7-16-2018; Ord. No. 56859, § 2(649.150), 1974.)

If there are less than twenty (20) property owners within the petition circle of a licensed premises or proposed licensed premises, a protest may be initiated against the license for such premises by a protest letter signed by a majority of property owners residing within the petition circle. If there are less than twenty (20) persons who are registered voters residing or conducting business within the petition circle of a licensed premises or proposed licensed premises, a protest may be initiated against the license for such premises by a protest letter signed by a majority of the persons who are registered voters residing or conducting business within the petition circle. Such letter shall contain the name and address of the licensed premises or proposed licensed premises which is the subject of the protest, the type of license being protested, and the name of the person who shall serve as the protest representative. Upon verifying that there are sufficient signatures on the protest letter to initiate a protest, the Secretary of the Board of Public Service shall issue protest petitions to the protest representative. He shall also notify the

licensee or applicant whose license or application is the subject of the protest, the Alderman for the ward in which the licensed premises is or would be located and the Police Department that a protest has been initiated against the license or application. Such notice shall contain an explanation of the protest procedures as established by this chapter and title, and by the rules and regulations of the Board of Public Service. If the protest is against renewal or continuation of a license notice shall be served at the licensed premises upon either the licensee or any employee, agent or servant of the licensee found upon the licensed premises. If the protest is against an application for a license, service of the notice shall be made by sending the notice by registered United States mail, return receipt requested, to the address given by the applicant on the license application submitted to the Board of Public Service.

B. A protest shall not be initiated against renewal more than 45 days, nor less than 14 days, prior to the date on which the existing license for the premises which is the subject of the protest is scheduled to expire. A protest may be initiated against continuation of a license at any time during the term of the license, however, any protest letter submitted to the Board of Public Service less than 45 days prior to the date on which the existing license for the premises which is the subject of the protest is scheduled to expire shall be treated as a protest against renewal of the license. A protest may be initiated against an application for issuance of a license at any time up to the time set for the hearing on such application. The application hearing shall not be postponed because of the filling of a protest against such application; however, the Board of Public Service shall make no decision concerning whether to issue the license applied for until after the conclusion of the protest bearing provided for by the provisions of this chapter. No protest may be initiated against the continuation of a license for a period of six months after the Board has denied, after a hearing, a previous protest against such license. (1994 C., § 8.25.060; Ord. No. 70813, § 3(8.25.060), 7-16-2018; Ord. No. 62566, § 6, 1992.)

8.25.070 Protest petitions—Contents—Time for collection of signatures.

There shall be a heading on each page of the petition which shall: (1) identify by trade name and address the licensed premises or proposed licensed premises which is the subject of the protest; (2) give the name of the licensee or applicant; (3) state that persons signing the petition are supporting the protest filed against the license or application of the licensee or applicant for the premises named on the petition; and (4) contain such additional information as may be required under the rules and regulations of the Board. No signature appearing on a protest petition shall be considered valid unless the name and address of the person who signed the petition is printed on the face of the petition next to his signature.

B. The Board of Public Service shall not, except for good cause shown, accept any protest petition submitted more than thirty days from the date on which the protest petitions were issued to the protest representatives; except that where the thirtieth day after the date on which the protest petitions were issued falls on a Saturday, Sunday or holiday, the Board shall accept protest petitions filed on the next working day thereafter. (1994 C., § 8.25.070; Ord. No. 70813, § 3(8.25.070), 7-16-2018; Ord. No. 62566, § 7, 1992.)

8.25.080 Hearing on protest—Notice—Procedure.

A. After the last date on which protest petitions may be submitted, the Board shall fix a date for a hearing on the protest. Such hearing shall be held not less than twenty, nor more than thirty, days following the last date on which protest petitions may be submitted. The Board shall have power to continue the hearing for good cause. The Board shall not schedule a hearing for a protest against continuation of a license, and shall summarily dismiss such protest, where no protest petitions are submitted to him prior to the closure date for submission of protest petitions.

B. The Board shall, at least ten days prior to the date on which the protest hearing is scheduled, cause notice of the time, place and date of the hearing to be served on the licensee or applicant whose license or application is the subject of the protest. If the protest is against renewal or continuation of a license, notice of the protest hearing shall be served at the licensed premises upon either the licensee or any employee, agent or servant of the licensee found upon the licensed premises. If the protest is against an application for a license, service of the notice shall be made by sending the notice by registered United States mail, return receipt requested, to the address given by the applicant on the license application submitted to the Board of Public

Service. The Board shall also, at least ten days prior to the date on which a protest hearing is scheduled, cause notice of the time, place and date of such hearing to be served upon the protest representative, the Alderman of the ward in which the licensed premises is or would be located, and the Police Department. Service of the notice upon the protest representative shall be made by sending the notice by registered United States mail, return receipt requested, to the address given by the protest representative on the written letter of protest. In addition, the Board shall cause a placard containing the words "HEARING ON PROTEST AGAINST BED AND BREAKFAST ESTABLISHMENT LICENSE IN THIS BLOCK," printed in bold black letters at least 1½ inches in height, to be placed at each end of the block on the side of the street where the licensed premises or the proposed licensed premises which are the subject of the protest hearing is or would be located, unless such placement is not possible. If it is not possible to place said placards in the manner specified in the previous sentence, the person posting the placards shall place the placards in such manner as to give the greatest notice to passersby of the protest hearing. Said placards shall specify in clear and legible lettering the time, place and date of the hearing, the trade name and address of the licensed premises or premises proposed to be licensed, the name of the licensee or applicant whose license or application is the subject of the protest, and the type of license which is the subject of the protest. Neither the protest representative nor anyone else signing a protest letter or petition shall be liable for the costs of said placarding.

C. At the protest hearing, both the protest representative and the licensee or applicant whose license or application is the subject of the protest shall be entitled to produce testimony under oath and to be represented by counsel, and the Board shall have the power, on his own motion, to subpoena witnesses and to testimony under oath pertaining to all matters connected with the protest. The Alderman for the Ward in which the premises which is the subject of the protest is located, together with the Police Department, shall have the right to be heard at the hearing.

D. The protest hearing shall be a bifurcated proceeding. During the first phase of the hearing, the Board shall consider evidence concerning whether the protest petitions submitted to him contain the signatures of a valid majority of either: (1) persons who are registered voters who reside or conduct business within the petition circle of the licensed premises or proposed licensed premises which is the subject of the protest; or (2) persons owning property within said petition circle. The Board shall also consider during the first phase of the hearing any testimony offered concerning the sufficiency of the written protest letter which initiated the protest, including, but not limited to, evidence concerning whether the letter contained sufficient signatures to initiate the protest. After conclusion of the first phase of the hearing the Board shall make a decision as to whether the protest petitions submitted to him contain a valid majority of either persons who are registered voters who reside or conduct business, or persons owning property, within the petition circle. He need not, prior to initiation of the second phase of the hearing, make any determination as to the sufficiency of the written protest letter. During the second phase of the hearing, he shall consider evidence concerning whether issuance, renewal or continuation of the license which is the subject of the protest would be detrimental to the neighborhood in which the licensed premises is or would be located. (1994 C., § 8.25.080; Ord. No. 70813, § 3(8.25.080), 7-16-2018; Ord. No. 62566, § 8, 1992.)

8.25.090 Protests—Necessity of majority of signatures on petition protesting continuation of license—Effect.

A. A protest against continuation of a license may only be sustained by the Board if the protest petitions submitted to it to protest such continuation contain the signatures of either a majority of the persons who are registered voters residing or conducting business within the petition circle of the licensed premises which is the subject of the protest or a majority of the persons owning property within such petition circle. If, after the first phase of the hearing is completed, the Board determines that the protest petitions submitted to it in protest of the continuation of a license contain the signatures of neither a majority of the persons who are registered voters residing or conducting business within the petition circle of the licensed premises which is the subject of the protest nor a majority of the persons owning property within such petition circle then it shall deny the protest and shall not consider evidence of whether continuation of the license would be detrimental to the neighborhood in which the licensed premises is located.

B. If the Board determines, after the first phase of the hearing is completed, that protest petitions submit-

ted to it to protest an application for a license contain the signatures of either a majority of the persons residing or conducting business within the petition circle of the proposed licensed premises which is the subject of the protest or a majority of the persons owning property within such petition circle, then the Board shall sustain the protest and refuse to grant the license applied for, regardless of any evidence concerning detriment to the neighborhood. (1994 C., § 8.25.090; Ord. No. 70813, § 3(8.25.090), 7-16-2018; Ord. No. 62566, § 9, 1992.)

8.25.100 Protests—Allocation of burden of proof—Grounds for sustaining protests—Effect of sustaining protest.

A. If the Board determines after the first phase of the protest hearing that the protest petitions submitted to it contain the signatures of either: (1) a majority of the persons who are registered voters residing or conducting business within the petition circle of the licensed premises which is the subject of the protest; or (2) a majority of the persons owning property within such petition circle, it shall sustain the protest unless the licensee shows by a preponderance of the evidence submitted at the hearing that renewal or continuation of the license would not be detrimental to the neighborhood in which the licensed premises is located. If the Board determines after the first phase of the protest hearing that the protest petitions submitted to it do not contain the signatures of either a majority of the persons who are registered voters residing or conducting business within the petition circle of the licensed premises which is the subject of the protest or a majority of the persons owning property within such petition circle, the Board shall deny the protest, unless the protesters show by a preponderance of the relevant evidence submitted at the hearing that issuance or renewal of the license would be detrimental to the neighborhood in which the licensed premises is or would be located.

B. If the Board sustains a protest against issuance of a license it shall refuse to grant such license to the person applying therefor. If it sustains a protest against renewal of a license such license shall not be revoked, but the Board shall refuse to renew such license after it expires. If the Board sustains a protest against continuation of a license it shall cancel such license effective one month after any decision is filed upholding such protest. If the license expires by operation of law before it can be canceled it shall not be renewed. (1994 C., § 8.25.100; Ord. No. 70813, § 3(8.25.100), 7-16-2018; Ord. No. 62566, § 10, 1992.)

8.25.110 Extension of protested license.

Where a protest has been filed against continuation or renewal of a license and the license expires prior to a decision by the Board on the protest, the Board shall grant an extension of the license. If the Board sustains a protest, the extension shall expire on the date on which the decision on the protest is issued. (1994 C., § 8.25.110; Ord. No. 70813, § 3(8.25.110), 7-16-2018; Ord. No. 62566, § 11, 1992.)

8.25.120 Withdrawal of signatures from consent or protest petitions.

Any person who has signed a neighborhood protest petition may withdraw his signature from the petition by submitting a letter to the Board requesting withdrawal prior to the date set for the hearing on the protest or by requesting withdrawal in person at the hearing. The Board may also allow a person to withdraw his signature from a protest petition if it finds, based upon a preponderance of evidence, that the circulator of the petition threatened or coerced such person or that the circulator made a material misrepresentation of fact concerning the licensed premises or proposed licensed premises to such person. (1994 C., § 8.25.120; Ord. No. 70813, § 3(8.25.120), 7-16-2018; Ord. No. 62566, § 12, 1992.)

7. The word "shall" as used herein is always mandatory and not directory, and the word "may" as used herein is permissive.

8. "Applicable law" shall include, but is not limited to, applicable City ordinances, subject to the provisions of Section 8.29.110.F.

8.29.020 Franchise required.

A. It shall be unlawful to commence or engage in the construction, operation or maintenance of a cable system within the territorial boundaries of the City without first obtaining a franchise issued under the provisions of this chapter and entering into a franchise agreement with the City. The City may, by ordinance, award a franchise to construct, operate, and maintain a cable system within all or any portion of the City to any person, whether operating under an existing franchise or not, who makes application for authority to furnish a cable system which complies with the terms and conditions of this chapter. Provided, that this section shall not be deemed to require the grant of a franchise to any particular person or to prohibit the City from restricting the number of grantees (for example, due to limited capacity in the public rights-of-way) should it determine such a restriction would be lawful and in the public interest.

B. Any person that provides cable service within the City via facilities or equipment in the public rights-of-way, but is not required under applicable law to obtain a cable franchise from the City, must obtain a separate authorization from the City granting such person the right to do so, pursuant to all applicable City law. This includes, but is not limited to, a person that provides cable service via facilities or equipment in the public rights-of-way that are not owned by such person, whether or not the owner is an affiliate. (1994 C., § 8.29.020; Ord. No. 65431, § 3, 2002.)

8.29.030 Application procedures.

A. Any person interested in obtaining an initial franchise to operate a cable system in the City of St. Louis shall submit an original and nine copies of a written application to the franchise agency together with a non-refundable application fee of twenty-five thousand dollars. The application shall contain the following information:

1. The name, address and business structure of the applicant. If the applicant is a corporation, it shall also state the names, addresses and occupations of its officers, directors and major stockholders, and the names and addresses of any parent or subsidiary companies. If the applicant is a corporation controlled by another corporation, the names, addresses and occupations of the officers, directors and major stockholders of the controlling corporation shall also be stated. If the applicant is a partnership or other incorporated association, the name and address of each member, whether active or inactive shall be set forth, and if one or more partners are corporations, the names, addresses and occupations of such corporation's officers, directors and major stockholders shall also be stated;

2. A list of all other cable systems, if any, in which the applicant (or any partner or major stockholder of applicant) has a direct or indirect interest, stating the location, approximate number of homes served, and the name and address of the local franchising body;

3. A list of all other cable systems, if any, for which the applicant or its corporate parents have obtained franchises but have not yet completed construction. If such other systems exist, the applicant should explain any implications of its financial commitments elsewhere for the financing of its prospective franchise in the City;

4. A thorough description of the proposed cable system to be installed and operated; a construction time-table covering start through completion of all facilities of the system; a time-table for capability to deliver subscriber service to each portion of the franchise area and for the entire City; and a description of the extent and manner in which existing or future poles or other facilities of public utility companies will be used in the proposed system;

5. A copy of any contract which may exist between the applicant and any public utility providing for the use of such utility's property, such as poles, lines or conduits, in the City;

6. A statement setting forth all agreements and understandings whether written, oral, or implied, between the applicant and any other person with respect to the proposed franchise or proposed cable system operation. If a franchise should be granted to a person posing as a straw party for or representative of another undisclosed person, such franchise shall be deemed void ab initio and of no force and effect whatsoever;

7. An estimate of the cost of constructing the applicant's proposed system and a financial statement prepared in form satisfactory to the City showing applicant's financial status and its financial ability to meet these proposed costs. If construction will take more than one year the estimate shall be broken down to costs for each year;

8. A schedule of proposed rates and charges to all classes of subscribers for both installation and monthly cable service, consistent with the financial statement required in Subsection A.7 of this section;

9. A sworn statement acknowledging the applicant's familiarity with and eligibility under the provisions of this chapter, the City's customer service ordinance and the rules of the FCC, and its intention to abide by the same;

10. An applicant shall provide any such supplementary information as the City shall at any time demand in order to reasonably determine whether the requested franchise should be granted. The acceptance or use by the City of any of the written information submitted by the applicant pursuant to this chapter shall not constitute any waiver or abrogation of the standards or requirements of this chapter with regard to any breach of or noncompliance with this chapter which may be reflected in the applicant's written submissions.

B. The franchise agency may, at its discretion and upon request of an applicant, waive in writing the provision of any of the information required by Subsection A of this section. A copy of such waiver must be sent to members of the Public Utilities Committee of the Board of Aldermen, or to such committee, as determined by the Rules of the Board of Aldermen, having jurisdiction over cable television franchises, along with an explanation of such waiver immediately upon its issuance. Issuance of a waiver does not waive the rights of the Franchise Agency to request such waived information after the initial application is filed.

C. For the purposes of determining whether it shall grant an initial franchise, the City or its agents may inquire into all qualifications of the prospective grantee and such other matters as the City may deem necessary to determine whether and under what conditions an initial franchise should be granted. An applicant shall assist the City in any such inquiry, and if it fails to do so, the application may be denied.

D. After receiving an initial franchise application, the franchise agency shall specify a public place where interested parties may inspect all such bona fide applications and schedule a public hearing before the franchise agency. After the public hearing the franchise agency shall send its findings and recommendations to the members of the Public Utilities Committee of the Board of Aldermen, or to such committee, as determined by the Rules of the Board of Aldermen, having jurisdiction over cable television franchises, within 30 days. (1994 C., § 8.29.030; Ord. No. 66084, § 1, 2003; Ord. No. 65431, § 4, 2002.)

8.29.040 Renewal procedure.

A. The renewal of any franchise shall be conducted in a manner consistent with applicable federal law.

B. Any ordinance renewing a franchise shall be adopted in accordance with any applicable requirements of the City Charter. (1994 C., § 8.29.040; Ord. No. 65431, § 5, 2002.)

8.29.050 Procedures for ordinances granting or renewing franchises.

A. The provisions of Section 1 of Article XIX of the Charter of the City apply to all granting or renewal of franchises as contemplated in this chapter.

B. Upon introduction into the Board of Aldermen of any board bill the effect of which is to grant or renew any franchise, the clerk shall immediately notify the Secretary of the Board of Public Service of said fact and transmit to the Board of Public Service a copy of the proposed Board bill that would authorize the granting or renewal of said franchise.

C. Subject to applicable law, the City reserves any rights it may have to impose application fees for franchise transfer or renewal. (1994 C., § 8.29.050; Ord. No. 65431, § 6, 2002.)

8.29.060 Transfer.

A. A franchise shall be a privilege which is personal to the original grantee. It shall not be sold, transferred, leased, assigned, or disposed of, directly or indirectly, in whole or in part, either by forced or voluntary

sale, merger, consolidation, receivership, appointment of a trustee or foreclosure, or otherwise, without prior consent of the City expressed by ordinance, and then only under such lawful terms and conditions as may therein be prescribed by the City. Upon such approval a grantee may proceed to make the transfer under such terms and conditions. Any such transfer or assignment shall be made only by an instrument in writing, which shall include an acceptance of all terms and conditions of the franchise by transferee, a duly executed copy of which shall be filed with the agency within thirty days after any such transfer or assignment is complete.

B. Application.

1. A grantee shall promptly notify the franchise agency of any proposed transfer. If any transfer should take place without prior notice to the franchise agency (contrary to the requirements of this section), the grantee will promptly notify the franchise agency that such a transfer has occurred. The franchise authority shall immediately notify the members of the Public Utilities Committee of the Board of Aldermen, or to such committee, as determined by the rules of the Board of Aldermen, having jurisdiction over cable television franchises, of its notification or knowledge of grantee's transfer or proposed transfer which took place or is proposed to take place without prior notice to the franchise authority.

2. At least one hundred twenty (120) calendar days prior to the contemplated effective date of a transfer, a grantee shall submit to the franchise agency an original and nine copies of a written application for approval of the transfer. Such an application shall provide complete information as described in this subsection on the proposed transaction. The franchise authority shall notify the Public Utilities Committee of the Board of Aldermen, or such committee, as determined by the rules of the Board of Aldermen, having jurisdiction over cable television franchises, immediately upon receiving notice of the proposed transfer of the grantee. At a minimum, the application must include (subject to the provisions of Subsection B.3 of this section regarding confidential, trade secret, or proprietary information):

a. All information and forms required under federal law;

b. A complete and unredacted copy of the agreement(s) to carry out the proposed transaction(s) and of all schedules, exhibits, and other documents attached thereto, together with any documents referred to therein that were prepared for purposes of the proposed transaction, and any other documents necessary to understand the proposed transaction or its effect on the City; provided, however, that the grantee may, subject to the provisions of Subsection B.3 of this section, redact (i) confidential, trade secret, or proprietary information, and (ii) documents relating only to other communities and having no material effect on the proposed transaction as applied to the City;

c. A diagram or description of the ownership and control of the proposed transferee, showing the relationship of the proposed transferee to its immediate, intermediate, and ultimate owners;

d. To the extent already prepared, audited or, if audited statements are not available, otherwise publicly available financial statements for the transferee or, if such statements for the transferee are not available, such statements for the closest corporate parent in the line of control of the transferee, for the last three years, including balance sheets, income statements, profit and loss statements, and documents detailing capital investments and operating costs;

e. A description of the sources and amounts of the funds or other consideration to be used in the proposed transaction, and, if the proposed transaction requires that the system be used as collateral for debt, the anticipated debt/equity ratio applicable to the system;

f. Other information necessary to provide a complete and accurate understanding of the financial qualifications of the proposed transferee to meet the grantee's obligations under the franchise;

g. A statement certifying that the transfer will not adversely affect subscriber rates (which may reserve the proposed transferee's right generally to make any lawful changes in rates after the transfer), or, in the alternative, explaining any such adverse impact that the proposed transferee reasonably foresees; a statement certifying that the transfer will not adversely affect the quality of service, or, in the alternative, explaining any such adverse impact that the proposed transferee reasonably foresees;

h. A description of the transferee's prior experience in cable system ownership, construction, and operation;

i. A brief summary of any plans the proposed transferee may have at the time of the application regarding line extension, plant and equipment up-

grades, channel capacity, expansion or elimination of services, and any other changes affecting or enhancing the performance of the system;

j. A complete list of any final actions taken in the past five years by a franchising authority with respect to the proposed transferee (or any corporate parent) denying transfer or renewal;

k. A complete list of any legal actions known to the transferee (or any corporate parent) relating to cable franchises (other than tax and condemnation actions) filed in any federal or state court or at the Federal Communications Commission in the past three years by a franchising authority against the transferee (or any corporate parent), or by the transferee (or any corporate parent) against a franchising authority, listing for each such action the information normally shown in the case caption and the current status of the case (for example, "settled" or "pending").

3. Confidential, Trade Secret, or Proprietary Information.

a. If a grantee claims that any specific documents or portions thereof required by Subsection B.2 of this section are confidential, trade secret, or proprietary, then rather than submitting such documents or portions thereof with the application, the grantee may redact such specific documents or portions thereof and include with the application a schedule of all such documents or portions thereof identifying any redacted materials and the basis on which the grantee believes them to be confidential, trade secret, or proprietary.

b. If the City wishes to inspect the confidential, trade secret, or proprietary materials referred to in Subsection B.3.a of this section in unredacted form, then, pursuant to a lawful and reasonable confidentiality agreement as appropriate, the grantee shall make such materials available for inspection within ten days after the City's written request at a location within the City or as otherwise agreed to by the City and the grantee, using its best efforts to accommodate the City's reasonable preferences as to the time and place of inspection.

c. If the City considers the application incomplete without the redacted information, it shall so notify the grantee within the first thirty days after submission of the application. If the City does not so notify the grantee, the City shall be deemed to have accepted the redactions as not rendering the application incomplete for purposes of any applicable federal time period for review; provided, however, that this provision shall not be construed to limit any right of the City to request or require such information after the initial thirty-day period (without affecting any review period specified by federal law). If grantee makes such information available for inspection as provided in Subsection B.3.b of this section within ten days after written request by the City, such redactions shall not be a basis for a determination that the application is not complete.

4. Documents Relating to Other Communities. If a grantee redacts documents relating only to other communities and having no material effect on the proposed transaction as applied to the City pursuant to Subsection B.3.b of this section, the grantee may redact such documents, and the City may inspect such documents to determine whether they have been properly redacted pursuant to Subsection B.3.b of this section, in the same way as for confidential, trade secret, or proprietary information pursuant to Subsection B.3 of this section.

5. To the extent consistent with applicable law, the franchise agency may waive in writing any requirement that information specified in Subsection B.2 of this section be submitted as part of the initial application, without thereby waiving any rights the franchise agency may have to request such information after the initial application is filed.

C. A grantee shall have a continuing obligation to update the information specified in Subsection B.2 of this section to reflect any material changes after the submission of such information. Such updates shall not alter any deadlines specified by federal law for the City's review of the transfer.

D. Consent of the City shall not be granted until it has complied with all City Charter requirements applicable to a transfer.

E. Determination by City.

1. In making a determination as to whether to grant, deny, or grant subject to conditions an application for a transfer, the City may consider, without limitation and including any matter not prohibited by applicable law, the legal, financial, and technical qualifications of the transferee to operate the system; any potential impact of the transfer on subscriber rates or services; whether the proposed transferee will meet all franchise obligations (including, without limitation, any outstanding obligation to remedy any past noncompliance); and whether the transferee owns or controls any other cable system in the City.

2. Any transfer without the City's prior written approval shall be ineffective, and shall make the franchise voidable by ordinance, and subject to any other remedies available under this agreement or other applicable law.

3. A grantee shall be fully liable under its franchise for any transfer that is in violation of the terms of that franchise and caused in whole or in part by any other person or persons, including, but not limited to, any affiliates, as if such transfer had been caused by the grantee itself.

4. Transferee's Agreement. No application for a transfer in which a different entity holds the franchise after the transfer than beforehand shall be granted unless the transferee agrees in writing that it will abide by and accept all terms of the previous grantee's franchise agreement, this chapter, other applicable law, and any other agreements between the City and the previous grantee, and provides all additional items required thereby (for example, insurance certificates and bonds). (1994 C., § 8.29.060; Ord. No. 66084, § 2, 2003; Ord. No. 65431, § 7, 2002.)

8.29.070 Payments to the City.

A. A grantee shall pay the City as compensation for the rights and privileges enjoyed under the grantee's franchise a sum equal to five percent of the gross revenues derived from operation of the grantee's cable system within the City to provide cable services.

B. A grantee shall file with the Comptroller and the franchise agency a quarterly statement showing the gross revenues derived from the operation of its cable system within the City during the three-month periods ending respectively on the last day of March, June, September and December of each calendar year. Said statements shall be filed not later than forty-five days after the close of the quarterly period to which they apply. Statements shall include a detailed fee calculation report delineating categories of revenues, calculation methodology, and other pertinent documentation with form and content acceptable to the agency and the City Comptroller and subject to revision to reflect new services or business conditions.

C. A quarterly installment of the payment required in Subsection A of this section shall be paid at the time of filing each statement required by Subsection B of this section and shall be submitted with said statements. Each such quarterly payment shall be in an amount equal to the portion of the annual payment which accrued during the quarter which is recorded in the statement.

D. The City shall have the right to inspect a grantee's records showing the gross revenues from which its franchise payments are computed, and shall also have the right of audit and recomputation of any and all amounts paid under this chapter.

E. In the event that any payment required from a grantee under this section is not paid when due, there shall accrue to such debt, from and after the due date and running until such payment is received by the City (either from the grantee directly or by recovery from a bond, letter of credit, escrow amount, or similar instrument), interest at ten percent per annum.

F. For purposes of calculating franchise fee payments under applicable franchise provisions, in any aggregated bill which includes cable services and noncable services or other products, any charges and discounts shall be allocated in a reasonable manner and in accordance with generally accepted accounting principles (GAAP). Franchise fee payments covering periods in which any such aggregated bill is used shall be accompanied by a full explanation of such allocation and the amounts so allocated. Any such allocation may be addressed in any audit conducted pursuant to this chapter or any franchise agreement.

G. No acceptance of payment shall be construed as a release or as an accord and satisfaction of any claim the City may have for further or additional sums payable under this chapter or for the performance of any other obligation hereunder; however, an accounting rendered to the City and to which no exception is made within five years after receipt by the City shall be deemed to be accurate and shall not thereafter be subject to question or made the basis of any claim by City against grantee.

H. Payment of the franchise fee shall not be considered in the nature of a tax or in lieu of other taxes or fees imposed by the City. The franchise fee is in addition to all other taxes, fees, assessments, and payments that a grantee may be required to pay under its franchise agreement or any federal, state, or local law or ordinance, and to any other tax, fee, assessment or payment imposed on utilities and cable operators or their subscribers for use of their services, facilities, or equipment, including any applicable amusement taxes,

except to the extent that such fees, taxes, or assessments are a franchise fee under Section 622 of the Cable Act, 47 U.S.C. § 542.

I. A franchise ordinance may require a grantee to contract, for all or part of a franchise term, for lock box service with a bank with an office in the City. Such a contract shall be subject to approval by the franchise agency and shall provide that a lock box address shall be the grantee's designated address for mailed payments by subscribers, and may provide for periodic disbursements of lock box receipts to the City for application to the grantee's franchise fee obligations to the City. (1994 C., § 8.29.070; Ord. No. 65431, § 8, 2002.)

8.29.080 Acceptance and term of franchise.

A. Any cable franchise granted by the City shall be for a term of no more than fifteen years; which time shall commence to run upon the effective date of the franchise. This section shall not preclude the extension or renewal of a franchise pursuant to applicable law, but any renewal period shall also be limited to fifteen years.

B. A grantee shall accept its franchise by executing its franchise agreement and filing it with the City Register within thirty City business days after the effective date of the ordinance awarding that franchise. An acceptance is not valid unless and until the agency and the City Counselor certify in writing to the City Register that the acceptance is complete and consistent in all respects with the requirements of this chapter and the grantee's franchise agreement. An acceptance shall consist of a written and unconditional acceptance of and agreement to all the provisions of a grantee's franchise agreement and this chapter, and shall also consist of all of the following:

1. Any certificates of insurance required by its franchise agreement or this chapter;

2. Any bond, letter of credit, escrow amount, or similar instrument required by its franchise agreement or this chapter;

3. Proof of establishment of any construction escrow account required by its franchise agreement or this chapter;

4. Any other executed contracts or other documents as required by its franchise agreement or this chapter.

C. A grantee's franchise agreement shall constitute a contract between the City and the grantee upon the grantee's acceptance of its franchise pursuant to Section 8.29.030 of this chapter.

D. Unless and until a grantee completes an acceptance pursuant to this Section 8.29.030, the franchise awarded subject to the completion of such acceptance shall have no effect, and the grantee shall obtain no new right therefrom, and any right of grantee to construct, operate or maintain a cable system in the City shall be subject to the City's permitting, in its sole discretion, where applicable, such construction, operation, or maintenance under such terms and conditions as may then be in effect for a period of time sufficient, in the City's judgment, to ensure continuity of cable service to subscribers, to allow further negotiations, renewal, or application processes, or to terminate a franchise pursuant to applicable law and allow a grantee to dispose of its system in a manner approved by the City, all subject to applicable law. (1994 C., § 8.29.080; Ord. No. 65431, § 9, 2002.)

8.29.090 Termination of franchise.

A. In addition to all other rights and powers reserved by the City in granting any franchise, the City reserves the right to terminate and cancel any franchise and all rights and privileges of the grantee thereunder pursuant to the terms of its franchise agreement and this chapter, or as such termination or cancellation may be expressly provided for in a related agreement with the City, in the event that the grantee:

1. Materially violates any provision of the grantee's franchise, or any rule, regulation, order or determination of the City made pursuant to the franchise, except where such violation is without fault or through excusable neglect, provided that a grantee is not without fault if a violation is caused or committed by an affiliate or a corporation or business entity in which such grantee holds a controlling interest directly or indirectly;

2. Attempts to dispose of any of the facilities or property of its cable business to the detriment of its franchise;

3. Attempts a material evasion of any of the provisions of its franchise;

4. Practices any fraud or deceit upon the City;

5. Violates the material construction requirements of Section 8.29.180 of this chapter;

6. Violates any related agreement with the City which expressly provides for franchise termination in the event of such violation.

B. The procedure for termination of a franchise under Section 8.29.090A shall be as follows:

1. If the franchise agency determines that a grantee is not, in its opinion, in material compliance with this chapter or the terms or conditions of any franchise issued thereunder, or any rule, regulation, order or determination of the City made pursuant to the franchise, it may initiate such termination proceedings by notifying the grantee with a copy to the Board of Aldermen, and the grantee shall within thirty days bring the franchised system into compliance with the terms of the notice issued by the City, reporting the corrective action taken by the grantee to the franchise agency.

2. If a majority of the members of the Board of Aldermen state by Resolution that they are not satisfied that compliance has been achieved, or that good faith progress is being made toward compliance, a public hearing before the Public Utilities Committee or its successor shall be scheduled to determine whether the franchise should be revoked. The grantee and the public shall be given at least fifteen days' notice of such hearing. All interested parties shall be heard in an open and public hearing. Subsequent to the public hearing, the Board of Aldermen shall determine whether the franchise shall be terminated and shall set forth, in writing, the facts and reasons upon which its decision is based.

C. Termination on account of certain assignments or appointments.

1. To the extent not prohibited by the United States Bankruptcy Code, a franchise shall terminate automatically by force of law one hundred eighty (180) calendar days after an assignment for the benefit of creditors or the appointment of a receiver or trustee (including a debtor-in-possession in a reorganization) to take over the business of a grantee, whether in bankruptcy or under a state law proceeding; provided, however, that such franchise shall not so terminate if, within that one-hundred-eighty-day period:

a. Such assignment, receivership or trusteeship has been vacated; or

b. Such assignee, receiver, or trustee has cured or agreed to cure any defaults under the franchise and has executed an agreement, duly approved and executed on behalf of the City, submitted to any court whose approval is required within one hundred twenty (120) days after such assignment or appointment, and approved by any such court within an additional sixty (60) days thereafter, under which it assumes and agrees to be bound by the terms and conditions of the franchise.

2. To the extent not prohibited by the United States Bankruptcy Code, in the event of foreclosure or judicial sale of substantially all of the facilities, equipment, or property of a grantee, the franchise and franchise agreement shall automatically terminate one hundred eighty (180) calendar days after such foreclosure or sale, unless:

a. The City has approved a transfer of the franchise to the successful bidder in accordance with the provisions of this Section 8.29.060; and

b. The successful bidder has covenanted and agreed with the City to assume and be bound by the terms and conditions of the franchise. (1994 C., § 8.29.090; Ord. No. 65431, § 10, 2002.)

8.29.100 Amendment of franchises.

Any amendment of a franchise agreement shall be subject to acceptance by the grantee, except that nothing herein or in any franchise agreement shall be construed to limit the lawful exercise of the City's police power, authority lawfully to levy any nondiscriminatory taxes on any activity conducted by a grantee, or other lawful authority, whether exercised by ordinance or otherwise. Nothing herein, however, shall affect the City's or a grantee's rights with respect to renewal of the grantee's franchise. (1994 C., § 8.29.100; Ord. No. 65431, § 11, 2002.)

8.29.110 Conditions and limitations of franchise.

A. This chapter itself grants no authority to operate a cable system. Such grants shall be made by the adoption of a separate ordinance pursuant to the provisions of the City Charter and this chapter concerning approval of ordinances granting or renewing a specific franchise to an applicant who has complied with the provisions of this chapter.

B. No ordinance granting a franchise shall be adopted until all requirements of the Charter relating to such an ordinance have been complied with.

C. A franchise authorizes use of public rights-of-way for installing, operating and maintaining, as herein and in the franchise agreement provided, cables, wires, lines, optical fiber, underground conduit, and other devices necessary and appurtenant to the operation of a cable system to provide cable service within a fran-

chise area, but does not authorize a grantee to place facilities on private property without owner consent; provided, however, that other applicable law may operate to authorize such placement.

D. A franchise shall constitute both a right and an obligation to use a cable system to provide cable service in the City pursuant to the requirements of the grantee's franchise agreement and this chapter.

E. Any franchise granted under this chapter shall be non-exclusive and revocable pursuant to its terms, and nothing herein shall be construed to prevent the City from granting cable franchises or other public right-of-way authorizations to more than one person, within all or any portion of the City. The City shall not grant a franchise or similar authorization for cable services that would impose an unfair competitive disadvantage on a grantee by granting terms or conditions under another person's franchise agreement or similar authorizing document that are materially more favorable or less burdensome than those of such grantee under its franchise agreement or similar authorizing document.

F. A grantee shall at all times during the life of its franchise, be subject to the lawful exercise of the City's police power, authority lawfully to levy any nondiscriminatory taxes on any activity conducted by grantee, or other lawful authority, whether exercised by ordinance or otherwise. Nothing contained in this chapter shall be deemed to prohibit in any way the right of the City lawfully to levy any nondiscriminatory taxes on any activity conducted by grantee.

G. All privileges prescribed by a franchise shall be subordinate to any prior lawful occupancy of the public rights-of-way, and the City reserves the right to reasonably designate by permit or otherwise where a grantee's facilities are to be placed within the public rights-of-way.

H. Nothing in this chapter in any way impairs or waives any right or power of the City to acquire the property of a grantee by purchase at a price reflective of its fair market value as an ongoing concern (provided that in no event is the franchise itself to enter as an element into such compensation) or such other price as may be required pursuant to applicable law, or through the exercise of the power of eminent domain pursuant to Missouri law.

I. This chapter, and franchises granted under this chapter, shall be subject to the applicable provisions of the U.S. Constitution and the Constitution of the State of Missouri. (1994 C., § 8.29.110; Ord. No. 65431, § 12, 2002.)

8.29.120 Channel capacity and system requirements.

A. *Channel Capacity.* A grantee shall construct a cable system that shall have a minimum capacity of 750 MHz.

B. *Emergency Alert System.* A grantee shall design and construct the system to provide for an emergency alert system as specified in its franchise agreement. (1994 C., § 8.29.120; Ord. No. 65431, § 13, 2002.)

8.29.130 Two-way capacity and addressability.

Any system shall be, at the time of its installation and at all times thereafter, maintained as a two-way interactive addressable system. (1994 C., § 8.29.130; Ord. No. 65431, § 14, 2002.)

8.29.140 PEG access requirements.

A. A grantee's franchise agreement shall require the grantee to provide and maintain:

1. *Municipal and School Services.* At least one service outlet to each municipal facility and public or private school within its franchise area at no cost to the City or school systems involved, and charging only its time and material costs for any additional service outlet installations to such facilities;

2. *A Public Access Channel.* At least one specially designated, noncommercial public access channel available on a first-come, nondiscriminatory basis and managed by a nonprofit organization acceptable to the City;

3. *A Community Access Channel.* At least one specially designated, noncommercial community access channel available on a first-come, nondiscriminatory basis and managed by a nonprofit organization acceptable to the City;

4. *A Local Government Access Channel.* At least one specially designated channel available for City use;

5. *An Elementary and Secondary Educational Access Channel.* At least one specifically designated channel for use by local educational authorities at the elementary and secondary levels;

6. *A University and College Educational Access Channel.* At least one specially designated channel for use by the local (St. Louis or St. Louis County) universities and colleges, whether public or private institutions.

B. Access channel assignments shall be the same throughout the cable system in the City.

1. Access channel assignments shall not be changed unless there is good cause.

2. If a grantee seeks to change the channel assignment of an access channel more than twice during a franchise term, the grantee must obtain the consent of the access channel user to the additional change, which consent shall not be unreasonably withheld.

3. Any reassignment of an access channel must be to a channel of technical quality at least equivalent to that of other channels on the system.

4. In the event of such a reassignment, the grantee shall pay the costs of all equipment, advertising, and promotional materials required due to the reassignment.

C. A grantee by accepting a franchise agrees that the City may, from time to time, by ordinance regulate use of public access channels; and that it will permit the public to use the public access channel or channels at minimal or no cost.

D. A grantee will provide any PEG access channels on the basic tier throughout the life of the franchise, or if there is no basic tier, shall provide the PEG access channels at no charge to subscribers, and otherwise in accordance with federal and state law If channels are selected through a menu system, the PEG access channels shall be displayed; provided, however, that the City or its designee shall be responsible for providing any necessary information for the PEG access channels for the menu system as reasonably required by the grantee or the entity providing grantee's menu system. (1994 C., § 8.29.140; Ord. No. 65431, § 15, 2002.)

8.29.150 Technical requirements and channel capacity.

A. The cable system to be constructed by grantee shall be installed, maintained, and operated at all times in full compliance with all applicable technical and channel capacity standards of the Federal Communications Commission.

B. The results of annual performance tests in accordance with FCC rules and regulations shall be retained by a grantee for at least five (5) years and shall be available for inspection by the franchise agency during business hours at grantee offices in the City upon twenty-four hours' notice. Copies of such test results shall be promptly provided upon the agency's request.

C. A franchise agreement shall address technical performance and testing procedures.

D. A grantee shall conduct monthly tests of the emergency alert system, in conjunction with the City department designated for such testing.

E. The City shall have the authority to inspect any portion or component of the system, including, but not limited to, subscriber connections, in order to enforce compliance with the provisions, standards, and requirements of FCC regulations. (1994 C., § 8.29.150; Ord. No. 65431, § 16, 2002.)

8.29.160 Safety requirements.

A. A grantee shall at all times:

1. Install and maintain its wires, cables, fixtures, and other equipment in accordance with good engineering practices and the requirements of the National Electrical Safety Code promulgated by the National Bureau of Standards, the National Electrical Code of the National Board of Fire Underwriters, and any other applicable codes and standards;

2. Install and maintain all structures, lines, equipment, and connections in, over, under and upon the public rights-of way of the City and other public or private property in such safe condition so as not to endanger human life or health or property;

3. Maintain and implement procedures for responding to reports of dangerous situations and correcting any dangerous situations in a timely manner twenty-four hours a day, seven days a week.

B. The authorized inspection officials of the City shall have the authority to inspect and enforce compliance with the provisions of this section, including inspection of the system's technical equipment and facilities. (1994 C., § 8.29.160; Ord. No. 65431, § 17, 2002.)

8.29.170 Conditions on street occupancy.

A. Work on a grantee's aerial or underground plant, including, but not limited to, any pavements, sidewalks, curbing or other area uprooted or any excavations made by a grantee, shall be done under the supervision and direction of the franchise agency or its designee under permits issued for work by the proper officials of the City, and in accordance with the conditions listed in such permits. A grantee must obtain such permits, without limitation, when relocating plant from

aerial to underground, installing new or additional aerial strand or underground conduits, manholes, handholes or vaults.

1. Such work shall be done in such manner as to protect all existing property belonging to the City and so as to cause the least inconvenience to the inhabitants of the City.

2. A grantee shall comply with City Street Department regulations regarding resurfacing or restoration of pavements, sidewalks, curbing or other areas, or payment for such resurfacing or restoration.

B. A grantee shall make and keep full and complete plats, maps and records showing the actual locations of its facilities located within the public rights-of-way of the City. These maps shall be provided to the franchise agency in both hardcopy and compatible electronic formats, updated at least annually and at such other times as may be specified by the franchise agency. In addition, the grantee shall make "as-built" maps (as that term is used in the cable industry) available to the City for inspection.

C. A grantee shall, at its expense, protect, support, temporarily disconnect, relocate, or remove, any of its property in the public rights-of-way when required by the City by reason of traffic conditions, public safety, street construction, change of street grade, installation of sewers, drains, water pipes, power lines, signal lines, tracks, or any other type of municipal improvements. The City shall give reasonable notice under the circumstances.

D. A grantee shall, on the request of any person holding a building moving permit issued by the City, temporarily raise or lower its wires to permit the moving of buildings. The expense of such temporary removal or raising or lowering of wires shall be paid by the person requesting same, and the grantee shall have the authority to require such payment in advance. The grantee shall be given not less than forty-eight hours advance notice to arrange for such temporary wire changes.

E. All cable, wires, or other similar facilities, shall be underground in those areas of the City where similar facilities of all telephone and electric utilities are underground at the time of installation of the grantee's cable system. In areas where both telephone and electric utilities' facilities are aboveground at the time of installation of the grantee's cable system, the grantee may install its system aboveground, upon the condition that at such time as such facilities are placed underground by all telephone and electric utility companies, the grantee shall likewise place such facilities underground at its sole cost and expense.

F. Each grantee's facilities are subject to the City's vacation authority. In the event that public rights-of-way are vacated by the City and deeded to a private entity, the receiving entity shall be responsible for any costs associated with removal of a grantee's facilities. If agreement cannot be reached between the receiving entity and the grantee as to such costs, the City may require the grantee to remove its facilities for such consideration and upon such terms as the City shall determine to be just and reasonable.

G. No poles or other wire-holding structures shall be erected by a grantee without prior approval of the franchise agency, with regard to location, height, type and any other pertinent aspect. However, no location of any pole or wire-holding structure of the grantee shall be a vested interest and such poles or structures shall be removed or modified by the grantee at its own expense whenever the City determines that the public convenience would be enhanced thereby and provides the grantee reasonable notice under the circumstances.

H. Where poles or other wire-holding structures already existing for use in serving the City are available for use by a grantee, but it does not make arrangements for such use, the City may require the grantee to use such poles and structures if it determines that the public convenience would be enhanced thereby and the terms of the use available to the grantee are just and reasonable.

I. Where the City or a public utility serving the City desires to make use of the poles or other wire-holding structures of a grantee but agreement therefor with the grantee cannot be reached, the City may require the grantee to permit such use for such consideration and upon such terms as the City shall determine to be just and reasonable, if the City determines that the use by the City in its governmental capacity for noncommercial purposes would enhance the public convenience and would not unduly interfere with the grantee's operations. (1994 C., § 8.29.170; Ord. No. 65431, § 18, 2002.)

8.29.180 Construction.

A. Each franchise agreement shall specify the time by which initial or required upgrade construction there-

under, if any, must begin, and shall specify that construction will be completed with reasonable speed, pursuant to Article XIX of the Charter.

B. A grantee shall file a map and progress report with the franchise agency at the close of each calendar year, showing the exact areas of the City being served by the cable system and the location and identification of major component parts of the system.

C. A grantee that is constructing its cable system for the first time shall submit monthly construction reports to the franchise agency, beginning the month after the franchise is awarded and continuing until the initial construction required in its franchise agreement is complete. Such a grantee must submit updated as-built system design maps to the franchise agency, or make them available for inspection with notice of their availability, within 30 days of the completion of system construction in any geographic area. These maps shall be developed on the basis of post-construction inspection by the grantee and construction personnel to assess compliance with system design. Any departures from design must be indicated on the as-built maps, to assist the franchise agency in assessing operator compliance with its obligations.

D. A grantee shall promptly notify the franchise agency of any delays known or anticipated in the construction of its system or in providing access to said system. Notices of construction delays shall be promptly made to the Public Utilities Committee of the Board of Aldermen, or to such committee, as determined by the rules of the Board of Aldermen, having jurisdiction over cable television franchises, by the franchise agency.

E. Failure on the part of a grantee to commence and diligently pursue each of the material requirements in its franchise agreement to complete construction pursuant to this section shall be grounds for termination of its franchise pursuant to Section 8.29.090; provided, however, that the City may in its discretion extend the time for the commencement and completion of construction and installation and service to subscribers for additional periods in the event a grantee, acting in good faith, experiences delays by reasons of circumstances beyond its control.

F. At such time as a grantee shall become aware that circumstances beyond its control may prevent its compliance with the provisions of this section, said grantee shall immediately notify the franchise agency, in writing, as to the exact conditions responsible for such delay, and shall show the specific remedy and methods it has undertaken to correct said condition causing the unanticipated delay. Failure to file said written notification by the grantee shall constitute an act of bad faith.

G. In the event the operation of any part of a franchised cable system is discontinued for a continuous period of four months, or in the event such system has been installed in any public rights-of-way without complying with the requirements of the grantee's franchise, or in the event of expiration, termination or revocation of the franchise and, where applicable, an affirmative determination by the City not to renew such franchise, the City may direct a grantee promptly to remove at grantee's cost from the public rights-of-way all such property and poles of such system or part of a system. Any property which the grantee allows to remain in place twelve months after having been notified by the City that it must be removed (or, if specific right-of-way space occupied by grantee's plant is immediately needed for purposes of providing cable service, sixty days after such notice) shall be considered permanently abandoned and shall become the property of the City subject to the provisions of any utility joint use attachment agreement. (1994 C., § 8.29.180; Ord. No. 66084, § 3, 2003; Ord. No. 65431, § 19, 2002.)

8.29.190 Rates charged to subscribers.

A. The City reserves the right to regulate all rates and charges except to the extent it is prohibited from doing so by law.

B. A grantee shall comply with all applicable law and regulations regarding rates and charges. In particular, and without limitation, a grantee shall comply with all rate orders issued by the City unless such orders are stayed by a court or agency of competent jurisdiction.

C. Procedures and local rules for rate regulation shall be established by the franchise agency and confirmed by resolution of the Board of Aldermen in accordance with applicable law. (1994 C., § 8.29.190; Ord. No. 65431, § 20, 2002.)

8.29.200 Minority and women participation, training.

In light of the economic benefits a grantee derives from its use of the public rights-of-way and the racial, ethnic and socio-economic diversity of the population of the City:

A. Any franchise agreement shall address minority and women's business participation through con-

tracts for professional and technical services, construction contracts or subcontracts, and supply contracts; and the hiring of members of minority groups and women by the grantee. Franchise agreements shall also address monitoring, verification, reporting and enforcement methodologies relating to such provisions.

B. Any franchise agreement shall address training of potential employees by grantees in a manner beneficial to residents of the City, and/or funding or other support of programs for such training. Franchise agreements shall also address monitoring, verification, reporting and enforcement methodologies relating to such provisions. (1994 C., § 8.29.200; Ord. No. 65431, § 21, 2002.)

8.29.210 Job skills and training.

A franchise agreement shall address provision by a grantee of non-employee training opportunities and internships. (1994 C., § 8.29.210; Ord. No. 65431, § 22, 2002.)

8.29.220 Other business activities.

A franchise hereunder authorizes only the operation of a cable system as provided for herein, and does not take the place of any other franchise, license, or permit which might be required by law of a grantee. (1994 C., § 8.29.220; Ord. No. 65431, § 23, 2002.)

8.29.230 Continued use of individual antennas protected.

It is not the City's intention to prohibit the erection or continued use of individual television antennas, and no one is or will be required to receive cable service or connect with a cable system. (1994 C., § 8.29.230; Ord. No. 65431, § 24, 2002.)

8.29.240 Grantee may promulgate rules.

A grantee shall have the authority to promulgate such rules, regulations, terms and conditions of its business, consistent with its franchise agreement and applicable law, as shall be reasonably necessary to enable it to exercise its rights and perform its services under this chapter and the rules of the FCC, and to assure uninterrupted service to each and all of its subscribers. Such rules and regulations shall not be deemed to have the force of law, and the grantee shall not, as to rates, charges, service, services, facilities, rules, regulations, or in any other respect, make or grant any undue preference or advantage to any person, nor subject any person to any prejudice or disadvantage. (1994 C., § 8.29.240; Ord. No. 65431, § 25, 2002.)

8.29.250 Discriminatory practices prohibited

A. A grantee shall not deny service, deny access, or otherwise discriminate against subscribers, programmers, or residents of the City on the basis of race, color, religion, national origin, sex, or age. A grantee shall comply at all times with all applicable federal, state, and City laws, and all executive and administrative orders relating to non-discrimination.

B. A grantee shall not discriminate among persons or take any retaliatory action against a person because of that person's exercise of any right it may have under federal, state, or local law, nor may the grantee require a person to waive such rights as a condition of taking service.

C. A grantee shall not deny access or levy different rates and charges on any group of potential residential cable subscribers because of the income of the residents of the neighborhood or local area within the City in which such group resides.

D. Subject to applicable law and except to the extent the City may waive such a requirement, a grantee is prohibited from discriminating in its rates or charges or from granting undue preferences to any subscriber, potential subscriber, or group of subscribers or potential subscribers; provided, however, that a grantee may offer temporary, bona fide promotional discounts in order to attract or maintain subscribers, so long as such discounts are offered on a non-discriminatory basis to similar classes of subscribers throughout the City; and a grantee may offer discounts for the elderly, the handicapped, not-for-profit persons or organizations, or the economically disadvantaged, and such other discounts as it is expressly entitled to provide under federal law, if such discounts are applied in a uniform and consistent manner. (1994 C., § 8.29.250; Ord. No. 65431, § 26, 2002.)

8.29.260 Liability and indemnification.

A. A grantee shall pay, and by its acceptance of a franchise specifically agrees to pay and indemnify the City for, any and all damages or penalties which the City may sustain or be legally required to pay as a result of grantee's installation, operation or maintenance of a cable system under this chapter or in any way resulting from acts or omissions of a grantee hereunder, including its agents, employees and subcontractors, whether or not the acts or omissions complained of are authorized, allowed or prohibited by the City, and whether or

not covered by insurance. The obligations under this Section 8.29.260 shall not limit any right of a grantee to assert any claim against any third party.

B. A grantee shall also pay all expenses incurred by the City in defending itself with regard to any and all damages and penalties mentioned in Section 8.29.260.A. These expenses shall include all out of pocket expenses, including reasonable attorneys' fees and the reasonable value of services rendered by any employee of the City, or expert witness or consultants hired by the City in connection with such defense.

C. A grantee shall maintain, throughout the term of the franchise, liability insurance insuring the City and the grantee with regard to all damages mentioned in Subsection A, above, caused by grantee or its agents.

D. Additionally a grantee shall maintain in full force and effect policies of insurance in forms and minimum amounts hereafter described, to-wit:

1. Workmen's Compensation insurance as provided by the laws of the state;

2. $500,000.00 for bodily injury or death to any one person; $1,000,000.00 for bodily injury or death resulting from any one occurrence;

3. $1,000,000.00 for property damage resulting from any one occurrence;

4. $1,000,000.00 for all other types of liability.

E. The insurance requirements herein shall not be construed to limit the liability of a grantee to the City to the amounts of such insurance.

F. The insurance policies obtained by a grantee in compliance with this section shall be issued by a company with a rating of A+ or better by A.M. Best Company and licensed to do business in the State of Missouri, and a current certificate or certificates of insurance shall be filed and maintained with the franchise agency during the term of the franchise. Said policies shall name the City as an additional insured and shall contain a provision that a written notice of cancellation or reduction in coverage of said policy shall be delivered to the City thirty days in advance of the effective date thereof.

G. All subcontractors used by a grantee in the City shall be licensed to do business in the City pursuant to applicable law.

H. The amounts of any policy required by this Section 8.29.260.D may be increased at the initiative of the City's Comptroller, but not more than twice during the term of a franchise and not more frequently than every five years, as follows: If the Comptroller believes that the amount of insurance provided by any policy required hereunder has become inadequate, the Comptroller shall notify the grantee of such fact, and of the higher amount the Comptroller believes necessary. If within thirty days after such notice the grantee and Comptroller have not agreed on an appropriate amount of insurance, each of them shall within seven days designate a professional insurance broker from the St. Louis metropolitan area, and such designated brokers shall within seven days designate a third such broker. Within thirty days after their designation, the panel of brokers shall notify the Comptroller and the grantee of the insurance which, in their judgment, is appropriate in the circumstances, and grantee shall procure any increased coverage required. In no event shall the amounts of insurance required by Section 8.29.260.D be reduced pursuant to this Section 8.29.260.H. (1994 C., § 8.29.260; Ord. No. 65431, § 27, 2002.)

8.29.270 Performance bond.

A. With its acceptance of a franchise, a grantee shall file with the City Register an executed bond in a form and with a surety acceptable to the City as specified in its franchise agreement to indemnify the City against any loss or damage it may suffer in the event the grantee fails to comply with one or more of the provisions of its franchise. Upon written application by a grantee, the franchise agency may, at its sole option, in writing, permit the amount of the bond to be reduced to reflect the percentage of completion of the grantee's planned construction. Said bond shall be obtained at the sole expense of the grantee and remain in effect for the full term of the franchise or any extension (as distinct from renewal) thereof plus an additional six months thereafter (unless a replacement bond covering that period is agreed to by the City). The grantee and its surety shall be jointly and severally liable under the terms of the bond for any damages or loss suffered by the City as a result of the grantee's failure to comply with one or more of the provisions of its franchise, including a reasonable allowance for the City's lawful attorneys' fees and costs, up to the full amount of the bond.

B. Neither the filing of a performance bond with the agency, nor any insurance coverage, nor the receipt of any damages recovered by the City thereunder, shall be construed to excuse faithful performance by a grantee or limit the liability of a grantee under the terms of its franchise for damages, either to the full amount of the bond or otherwise.

C. A grantee shall with its acceptance of a franchise tender such other security as may be specified by its franchise agreement. (1994 C., § 8.29.270; Ord. No. 65431, § 28, 2002.)

8.29.280 Right of City to intervene.

The City or its designee hereby reserves to itself the right to intervene in any suit, action, or proceeding involving any provision of this chapter. (1994 C., § 8.29.280; Ord. No. 65431, § 29, 2002.)

8.29.290 Fines.

A. Performance of acts prohibited by, or failure to perform acts required by Section 8.29.020, Section 8.29.060.A, Section 8.29.110.C, Section 8.29.110.D, Section 8.29.120, Section 8.29.130, Section 8.29.150, Section 8.29.160, Section 8.29.170, Section 8.29.180, Section 8.29.250, Section 8.29.270 through Section 8.29.330, and Section 8.29.340 of this chapter constitute violations of this chapter. Violations of Section 8.29.060.E.2 and Section 8.29.140 of this chapter shall be punishable by a fine of up to five hundred dollars. Any other violation of this chapter shall be punishable by a fine of up to two hundred fifty dollars. Each day that any violation of this chapter shall continue is a separate violation punishable by the applicable fine.

B. A franchise agreement shall provide:

1. Contractual remedies for the City in the event of violations of the franchise agreement by the grantee;

2. That a violation of the franchise agreement which continues after appropriate notice and opportunity to cure, if any, is a violation of this chapter as well as a violation of the franchise agreement.

C. Any violation of a grantee's franchise agreement which continues after appropriate notice and opportunity to cure, if any, as provided in such franchise agreement, is a violation of this chapter and subject to a fine of up to $500.00.

D. If a grantee is fined for a violation of this chapter pursuant to this Section 8.29.290, such grantee shall not be subject to liquidated damages pursuant to its franchise agreement for the same violation. If a grantee is subject to liquidated damages pursuant to its franchise agreement for a violation, it shall not be fined for a violation of this chapter pursuant to this Section 8.29.290 for the same violation.

E. To initiate the enforcement process under this Section 8.29.290, the franchise agency shall notify the City Counselor that it believes that a violation of this chapter, or of a grantee's franchise agreement, has occurred. In such event, if the City Counselor in his discretion determines that there is a reasonable basis for belief that a violation has occurred, he may prosecute such violation pursuant to Missouri law.

F. In his discretion, the City Counselor may authorize alternative enforcement proceedings by the agency. Such authorization shall be in writing, with notice to any affected grantees. The procedure for such alternative enforcement procedures shall be as follows:

1. *Hearing Procedures.*

a. The regulatory section of the franchise agency shall issue a notice of complaint/violation to a grantee in writing, specifying the nature and time of the violation and proposing a penalty consistent with this section.

b. In response to a notice issued under Section 8.29.290.F.1.a, a grantee may agree to pay the proposed penalty, or may contest such notice. A grantee may contest such notice by notifying the Communications Commissioner in writing within ten (10) business days after the grantee's receipt of the notice issued by the regulatory section. Such a grantee's reply shall include the basis for the grantee's objection and any supporting documents the grantee wishes to have considered in reviewing the notice of violation.

c. Within ten (10) business days after receipt of a grantee's reply, the Communications Commissioner shall notify such grantee and the regulatory section of a date, time and place of a hearing on the matter, which date shall be not less than fifteen (15) and not more than forty-five (45) days from the date of such notification by the Commissioner.

d. The hearing shall be conducted as required by the Missouri Administrative Procedure Act, RSMo Ch. 536, as amended (the APA), for a contested case.

e. Not less than thirty (30) days following the conclusion of the hearing, the Communications Commissioner shall issue a written decision consistent with the APA, finding that the complaint/violation as stated in the notice is proven and imposing an appropriate administrative penalty, or modifying or dismissing the regulatory section's notice of violation. If the Communications Commissioner does not issue such a decision within such thirty-day period, the regulatory section's notice of violation shall be deemed dismissed, provided that the Communications Commissioner may extend such period up to a total of 45 days.

f. Decisions of the Communications Commissioner pursuant to Section 8.29.290.F.1.e are appealable pursuant to the APA.

2. *Hearing Officers.* In lieu of conducting a hearing himself, the Communications Commissioner may appoint a hearing officer to conduct any hearing pursuant to this Section 8.29.290 and submit recommended findings of fact and conclusions of law to the Commissioner. If so, the Commissioner's notice of hearing shall so advise the grantee and the regulatory section within ten (10) business days of receipt of grantee's reply, and shall advise the parties of the name and address of the hearing officer. Hearing officers may, but need not, be attorneys, and may be appointed from any list of duly selected hearing officers maintained by any City department or agency.

3. *Regulations.* The franchise agency may issue regulations concerning enforcement procedures which are consistent with this chapter and applicable law. All grantees shall be provided written notice of and opportunity to comment on any such regulations prior to their applicability as to that grantee. (1994 C., § 8.29.290; Ord. No. 65431, § 30, 2002.)

8.29.300 Rights and remedies are cumulative.

The rights and remedies reserved to the parties by this chapter are cumulative and shall not add or subtract from any other rights or remedies which they may have with respect to the subject matter of this chapter, and a waiver thereof at any time shall not affect any other time. (1994 C., § 8.29.300; Ord. No. 65431, § 31, 2002.)

8.29.310 Delegation of powers.

This chapter shall be administered on behalf of the City by the franchise agency. Any lawfully delegable right, power, or duty of the Board of Aldermen hereunder is delegated to the franchise agency. The franchise agency shall appear before the Public Utilities Committee of the Board of Aldermen every six months to report on the administration of the cable franchise ordinances and on the grantees' compliance with such ordinances. The franchise agency shall appear before the Public Utilities Committee at all other times as determined by the chairman or a majority of the members of such committee to address the administration of the franchise ordinance and any other matter within the jurisdiction of the franchise agency or the Board of Aldermen as related directly or indirectly to cable services in the City of St. Louis. (1994 C., § 8.29.310; Ord. No. 65431, § 32, 2002.)

8.29.320 Resolution of complaints.

A. Responsibility for the administration of any franchise granted hereunder and for the resolution of all complaints against a grantee regarding the quality of service, equipment malfunctions, and similar matters, is hereby delegated to the franchise agency, which is empowered, among other things, to adjust, settle, or compromise any controversy arising from operations of the grantee, either on behalf of the City, the grantee, or any subscriber, in accordance with the best interest of the public; provided that any person aggrieved by a decision of the agency may within fifteen days of the decision appeal the matter in writing to the Board of Aldermen for hearing and determination.

B. In the event of such an appeal, the Board of Aldermen shall assign the matter to the Public Utilities Committee or to such committee having jurisdiction over cable television franchises. Such committee shall hold a hearing on such appeal upon fifteen days' written notice to the appellant, shall receive evidence at such hearing and shall recommend a resolution of the matter to the Board of Aldermen. The Board of Aldermen may, by resolution, accept, reject, or modify the decision of the agency, and may adjust, settle, or compromise any controversy arising from the operations of a grantee under any franchise granted pursuant to this chapter.

C. No adjustment, settlement, or compromise, whether instituted by the franchise agency or by the City, shall be contrary to the provisions of this chapter or of the franchise agreement. (1994 C., § 8.29.320; Ord. No. 65431, § 33, 2002.)

8.29.330 Tampering and theft of service.

A. It shall be a violation of this chapter for any person to knowingly commit any of the following acts:

1. Obtain or attempt to obtain services of a cable operator, by means of artifice, trick, deception, device or other means, without paying all lawful compensation therefor;

2. Assist another person in obtaining or attempting to obtain services of a cable operator without paying all lawful compensation therefor;

3. Connect to, tamper with or otherwise interfere with any cables, wires or other devices used for the

distribution of services of a cable operator if the effect of such action is to obtain services of a cable operator without paying all lawful compensation therefor; or

4. Sell, use, manufacture, rent or offer for sale, use or rental any device, plan or kit designed and intended to obtain services of a cable operator without paying all lawful compensation therefor.

B. The existence on the property of and in the actual possession of any person of any connection wire, or conductor, which is connected in such a manner as to permit the use of services of a cable operator without the same being reported for payment to and specifically authorized by the cable operator shall be sufficient to support an inference that the person intended to deprive such cable operator of any and all lawful compensation for rendering each type of service obtained.

C. It shall be a violation of this chapter for any person to knowingly destroy or damage any property of any kind belonging to a cable operator. (1994 C., § 8.29.330; Ord. No. 65431, § 34, 2002.)

8.29.340 Open video systems.

A. *Applicability.*

1. This chapter shall apply to open video systems to the extent permitted by applicable law, except that Section 8.29.340.B shall apply in place of the following sections: Section 8.29.030.A (franchise applications), Section 8.29.190 (rate regulation).

2. In applying this chapter to an open video system, "grantee" shall be taken to refer to the open video system operator, "cable system" to the open video system, "franchise" to any authorization granted by the City to the open video system operator, and similar terms shall apply similarly.

B. *Application for Open Video System Authorization.*

1. A person proposing to use public rights-of-way to install devices for the operation of an open video system shall first obtain authorization from the City for such use. Such a person may apply for such authorization by submitting an application containing:

a. The name and address of the applicant and an identification of the ownership and control of the applicant, including: the names and addresses of the ten largest holders of an ownership interest in the applicant and affiliates of the applicant, and all persons with three percent or more ownership interest in the applicant and its affiliates; the persons who control the applicant and its affiliates; all officers and directors of the applicant and its affiliates; and any other business affiliation and cable system ownership interest of each named person.

b. A detailed description of the physical facilities the applicant proposes to place in public ways.

c. Any information that may be reasonably necessary to demonstrate compliance with the requirements of federal law and with this Section 8.29.340.

d. An affidavit or declaration of the applicant or authorized officer certifying the truth and accuracy of the information in the application and certifying that the application meets all federal and state law requirements.

2. The City may, at its discretion and upon request of an applicant, waive in writing the provision of any of the information required by this Section 8.29.340.B.

3. Upon application to the City for open video system authorization, the applicant shall pay to the City twenty-five thousand dollars. This payment shall be non-refundable and shall be used to offset in whole or in part any costs incurred by the City in granting the authorization.

C. *Fee In Lieu of Franchise Fee.* An open video system operator shall pay to the City a fee in lieu of and at the same rate as the franchise fee required in Section 8.29.070.A of this chapter, pursuant to the procedures and conditions specified in Section 8.29.070 and generally herein.

D. *Public, Educational, and Governmental Access Obligations.* An open video system operator shall be subject to obligations pertaining to public, educational, and governmental access pursuant to applicable law and to the requirements herein.

E. *Right-of-Way Usage.* An open video system operator shall be subject to all requirements of state and local law regarding authorization to use or occupy the public rights-of-way, except to the extent specifically prohibited by federal law. FCC approval of an open video system operator's certification pursuant to 47 U.S.C. § 573 shall not be taken to confer upon such operator any authority to use or occupy the public rights-of-way that such operator would not otherwise possess. (1994 C., § 8.29.340; Ord. No. 65431, § 35, 2002.)

8.29A.010 Findings.

The Board of Aldermen of the City of St. Louis finds and declares as follows:

A. Cable television systems occupy public property, to the economic benefit of operators of such systems.

B. Residents of the City include many elderly and persons of moderate to low incomes, for whom cable television is an important source of information and entertainment.

C. The quality of cable operators' customer service is an important element of the overall cable television service provided by such operators.

D. Regulation of customer service standards, as hereinafter provided, is in the best interests of the residents of the City and the City itself. (1994 C., § 8.29A.010; Ord. No. 65430, § 1, 2001.)

8.29A.020 Definitions.

As used in this chapter, the following terms, phrases, words and abbreviations shall have the meanings given herein, unless otherwise expressly stated. Words in the present tense include the future tense; words in the plural number include the singular number and vice-versa; masculine and feminine gender references include each other. The words "shall" and "will" are mandatory and the word "may" is permissive. Unless otherwise expressly stated, or clearly contrary to the context, terms, phrases, words and abbreviations not defined herein shall generally be given the meaning set forth in Title 47 of the U.S. Code or in 47 C.F.R. § 76.309 and, if not defined therein, shall generally be given their common and ordinary meaning. The definitions provided herein shall not apply to any reading or interpretation of 47 C.F.R. § 76.309 even though the same terms may be used therein. Terms used but not defined herein which are defined in other City ordinances pertaining to cable television shall have, for the purposes of this chapter, the meanings given them in such other ordinances. Inadvertent failure to capitalize a word shall not affect its meaning.

"After hours" means outside normal business hours.

"City" means the City of St. Louis, a municipal corporation of the State of Missouri, organized and existing under its Charter and the constitution and laws of the State of Missouri.

"Complaint" means a notice of dissatisfaction by a subscriber, whether made orally or in writing to the franchise agency or the City. Informational inquiries shall not be counted as complaints, unless the subscriber was unable to reach the operator to get the information, nor shall requests for specific channels or programming be counted as a complaint.

"FCC" means the Federal Communications Commission and its bureaus.

"Franchise agency" or "agency" means the Communications Division of the Department of Public Utilities of the City or its successor.

"Franchise authority" means the Board of Aldermen of the City.

"Installation" means the connection of the operator's transmission system to a subscriber's television or subscriber-owned or operator-provided terminal equipment, including initial connections, reconnections, activations, upgrades and downgrades of multi-channel services, whether analog or digital, on-site or computerized.

"Normal business hours" means not less than ten (10) hours each day on weekdays (including some evening hours during the week), and not less than five (5) hours on Saturdays.

"Normal operating conditions" means any and all conditions and situations that are within the control of an operator, including, but not limited to, special promotions, staffing levels, regular, peak or seasonal demand periods, maintenance, repair and upgrades of transmission systems, electronic telephone and video equipment of any sort, management decisions, system mapping, employee actions, timing of plant changes or interruptions, corporate decisions, and actions or negligence by the operator which lead to a high volume of calls, including, but not limited to, incorrect bills, rate increases, late bills or fees, changes in service and missed appointments. Normal operating conditions do not include situations not within the control of the operator, including, but not limited to, natural disasters, civil disturbances, public works projects for which no advance notice is given, severe or unusual weather conditions, any local effects of regional or national conditions not within the control of the operator, and power outages which black out geographic areas and are not confined to video transmission system power supplies.

"Operator" means any person to which this chapter is applicable pursuant to Section 8.29.030.A.2.

"Outage" means the loss of all video or audio signals to five (5) or more subscribers along the same trunk or feeder line. Major outage means the loss of all video or audio signals to twenty-five percent (25%) or more of all subscribers in a cable system. Identified outage means (i) a report of no picture/no sound on all channels from five or more subscribers in close geographic proximity, or along the same trunk or feeder line, within twenty minutes, or (ii) determination by an operator without such reports that five or more subscribers are subject to such conditions.

"Person" means any individual, business, partnership, association, joint stock company, organization, corporation, proprietorship, governmental agency or political subdivision, or any natural person.

"Record" means any books or records relating to the operator's system in the City, including, without limitation, any books, receipts, subscriber contracts, service complaint logs, signal leakage logs, performance test results, records of requests for service, work orders, telephone call recordings, subscriber files, computer records, codes, programs, and disks or other storage media, and other like materials.

"Service interruption" means the loss of video or audio signal on one (1) or more cable channels on a cable system to one (1) or more subscribers or severe degradation of picture and/or sound that renders the subscriber unable to use the signals, for any reason.

"Subscriber" means:

1. Any person who lawfully receives cable service from an operator, including commercial as well as residential accounts;

2. The City and its agencies in its capacity as a lawful recipient of such services;

3. Any person previously authorized to receive cable service from an operator;

4. Any person who has applied to an operator to receive cable service from such operator but who has not yet begun receiving such service.

"Trained customer service representative (CSR)" means an employee of an operator who has the authority and ability to perform the following tasks, without limitation, while speaking with a subscriber: Answer billing questions, issue credits and adjust bills, schedule appointments for service and installation, troubleshoot minor service problems over the telephone, arrange changes in service and disconnections, and respond knowledgeably to other subscriber complaints, requests or questions.

"Trained supervisor" means an employee of an operator with authority to modify the actions of a CSR. (1994 C., § 8.29A.020; Ord. No. 65430, § 2, 2001.)

8.29A.030 Applicability.

A. This chapter shall apply to any person that provides cable service within the City.

B. In addition, the City reserves all of its rights with respect to persons other than those that provide cable service within the City. (1994 C., § 8.29A.030; Ord. No. 65430, § 3, 2001.)

8.29A.040 General customer service practices.

A. This chapter sets forth customer service standards that an operator must satisfy. In addition to the requirements set forth herein, an operator at all times shall satisfy any additional or stricter requirements established by FCC regulations, or other applicable federal or state law or regulation, as amended from time to time.

B. An operator shall maintain such equipment and keep such records as are required to enable the franchise authority or franchise agency to determine whether the operator is complying with all standards required by these regulations and other applicable law, as amended from time to time. Failure to keep and maintain such records shall not excuse an operator's failure to comply or to show compliance with this chapter.

C. Failure of an operator to hire sufficient staff or properly train its staff shall not justify an operator's failure to comply with this chapter. The responsibility of any person providing cable service to comply with this chapter shall not be diminished or affected by that person's use of contractors or other agents.

D. The intent of this chapter is to ensure that an operator provides prompt customer service response, support personnel and services sufficient to provide a reasonable level of customer service in the City.

1. At a minimum, an operator must:

a. Have qualified members of the technical staff either present or on-call twenty-four hours a day, seven days a week, to respond to and investigate outages and other major problems;

b. Have all employees give the employee's name (and upon request, an employee ID code) to subscribers or other persons when answering an incoming call or inquiry and when keeping an appointment with a subscriber.

2. A pattern of offensive language by operator personnel may be considered in determining the ability of the operator to meet community needs.

3. An operator shall respond to all subscriber or user inquiries and complaints no more than five (5) business days after the inquiry or complaint, except to the extent a different standard is set forth for specific types of inquiries or requests herein. "Respond" to the inquiry or complaint as used in this paragraph shall mean to contact the subscriber and discuss the actions that have been taken or are being taken to address the subscriber's concerns. (1994 C., § 8.29A.040; Ord. No. 65430, § 4, 2001.)

8.29A.050 Telephones, business offices and support services.

A. *Offices.* An operator must maintain a minimum of two (2) customer service locations located within the City, which can fully accommodate bill payments; equipment disbursement, return or exchange; and in-person discussion with trained customer service representatives. At least one such location must be open for these purposes at least during normal business hours. At least one other such location must be open for these purposes at least for a time period which is one hour per day less than normal business hours.

1. Trained supervisors shall be available in at least one such location at all times when it is open to meet in person with a subscriber or other person requesting such a meeting. All other such locations shall have trained supervisors available to subscribers by telephone at all times when they are open.

2. Operator shall prepare and distribute to the franchise agency an annual calendar of holidays and business days on which the operator's customer service locations required by this Subsection A will be closed. The operator shall provide notice to subscribers regarding hours or dates when such locations will not be open through at least two (2) of the following means: advertisement, answering service/machine voice-mail messages, bill messages, direct mail, or through its cable system (or any other means deemed reasonable by the agency). Notice of any closures other than regularly scheduled dates will be provided at least five (5) days prior to the date of the closure to the extent this is feasible, and if not, then as far in advance as feasible. An operator shall provide voice messaging and door signage notices during any period when the customer service locations required by this Subsection A are closed due to holidays or unusual circumstances during hours when they are ordinarily open.

3. Nothing in this section shall preclude the operator from establishing additional payment sites of its own or via third party vendors.

B. *Telephones.* The operator must maintain at least one local toll-free or collect telephone access number which is available to subscribers twenty-four hours a day, seven days a week. An operator may establish separate telephone numbers for normal business hours telephone access and for after hours repair telephone

access. An operator must have publicly listed telephone numbers for normal business hours and after hours lines, the listings to include descriptions that allow subscribers readily to determine which number is appropriate to call for a given time and subscriber location.

1. Telephones must be answered by a trained customer service representative (not an answering service or machine alone) twenty-four hours a day, seven days a week, so that subscribers may register service complaints, report service problems or outages, and request installations and repairs. Nothing herein shall be construed to prohibit an automated response unit as a first step in answering a customer call so long as the performance standards in Subsection C herein are met. Customer service representatives answering the phones must be able to contact qualified technical staff at all times for response and action in the event of an outage or other major problem.

2. A repair line must be available at all times, including holidays. While such line may be part of an operator's regional call center (rather than specific to the City system), it must be staffed by trained customer service representatives capable of receiving and responding to service complaints and inquiries, and setting up appointments for installations and service calls, generated by City subscribers. If a company representative cannot fully respond to a subscriber call or request after normal business hours, a trained customer service representative or trained supervisor must contact the subscriber and respond to inquiries or problems by the end of the next business day.

3. Trained supervisors shall use their best efforts to respond to subscriber telephone requests to speak with a "manager" or "supervisor" within two hours of the request, but in any case shall respond to such requests no later than the next business day. Periods of natural disasters and outages are exempt from this response time standard, but during such periods such calls must be returned within a reasonable period of time, generally not to exceed twenty-four hours. An operator shall keep a report log of such subscriber requests available for review by the franchise agency.

4. Automated message systems must provide a clearly indicated opportunity to speak with a trained customer service representative.

5. Automated message systems may not disconnect callers without allowing the caller an opportunity to return to the message system and make another menu selection or to speak with a trained customer service representative.

C. *Telephone Performance Standards, Requirements and Reports.* An operator must meet the telephone response standards herein established. An operator must keep separate records for each customer service phone number, reported and filed monthly (showing daily and weekly figures) with the franchise agency pursuant to Section 8.29A.160.A.

1. Under normal operating conditions and during normal business hours, the following standards shall be met no less than ninety percent (90%) of the time, measured quarterly for purposes of compliance:

a. Hold time. Time for telephone answer shall not exceed (i) 60 seconds from the time the call is connected to the operator's telephone system by its local exchange carrier to the time at which any automated response unit menu presents to the caller the option to speak to a trained customer service representative and completes the description of the keys the caller must press to exercise that option, or (ii) 30 seconds from the time at which a caller exercises the option to speak to a trained customer service representative in an automated response unit menu to the time at which the call is answered by a trained customer service representative.

If a call needs to be transferred, transfer time shall not exceed thirty (30) seconds.

b. Busy signal. Callers will receive a busy signal no more than three percent (3%) of the time.

c. Abandonment rate for incoming phone calls may not exceed 5%.

2. An operator must provide reports and supporting documentation demonstrating its compliance with the requirements of this Subsection C, pursuant to Section 8.29A.160. (1994 C., § 8.29A.050; Ord. No. 65430, § 5, 2001.)

8.29A.060 Appointments for service or installation.

A. An operator shall comply with all requirements of this Section 8.29A.060. However, an operator shall be liable for a violation of Subsections A through D of this section only if, under normal operating conditions, it fails to meet such standard for 95% of the total number of appointments, measured quarterly, where each appointment scheduled by the operator for a time during the month counts as one appointment and each appointment scheduled for a time during the

month that constitutes a missed appointment pursuant to Subsection A.2 of this section, for any reason, counts as one missed appointment.

1. In addition to any penalties or liquidated damages attached to such violations, an operator shall compensate subscribers for any missed appointments pursuant to Subsection G of this section, and any failure to so compensate a subscriber shall constitute a separate violation of this chapter.

2. A "missed appointment" is one in which the subscriber is at the appointment address and the operator's field personnel do not arrive within the appointment window the subscriber was given when the appointment was made. Failure of an operator to correctly enter the appointment into the operator's work order logs, or operator's subsequent changes in deployment of field staff, or deletion of the appointment from operator records, shall not be grounds for the operator to claim it did not miss an appointment.

B. Unless otherwise requested by a subscriber, an operator shall perform all subscriber-requested service calls, installations, and changes in service, including upgrades, downgrades, equipment changes, and disconnections, during normal business hours. In addition to the requirements of this Subsection B, an operator may schedule appointments outside normal business hours for the express convenience of a subscriber, if so requested.

C. The appointment window for installations, service calls and upgrades/downgrades will either be:

1. A specific time; or

2. The subscriber's choice of any "appointment window" blocks established by the operator. Such appointment window blocks shall not exceed four (4) hours.

D. Appointment Confirmations, Cancellations and Rescheduling.

1. An operator may not cancel an appointment with a subscriber after the close of business on the business day prior to the scheduled appointment.

2. An appointment may not be cancelled or rescheduled on the day of the appointment by service representatives or technicians who phone or arrive at a time outside the designated appointment window and find the subscriber is not at home. An operator may not satisfy its obligation to keep an appointment by appearing outside the appointment window given to the subscriber.

3. An operator may not cancel or reschedule an appointment on the grounds that a subscriber is not available during the appointment window until the operator has made every reasonable effort to verify both over the phone and in person at the appointment location that the subscriber or other authorized adult is not available at the appointment location within the appointment window or at the specific appointment time. Thus, an operator may not cancel or reschedule an appointment until it has, within the appointment window:

a. Attempted to reach the subscriber by telephone at the number specified by the subscriber to verify that the appointment is still needed and the subscriber or his representative is or will be at the appointment address to meet the technician. Such attempts must include letting the telephone ring at least six times. If the subscriber's telephone is answered by a machine or service, the operator must leave a message giving the time of the call and a separate or direct dispatch phone number or extension that the subscriber may use to call back the dispatchers to confirm the appointment, or request that it be rescheduled; and

b. Attempted to reach the subscriber at the appointment address. When an operator's field personnel arrives for an appointment, such representative shall make every reasonable effort to verify that the subscriber or an authorized adult is at the address, including:

i. Knock and use the doorbell to alert the subscriber;

ii. Contact the building manager or custodian, if such a person is on-site;

iii. Look in the front and back yards so long as this can be accomplished without trespassing on subscriber or other private property, or subjecting field personnel to physical danger (e.g., dog attack).

c. Upon verification in the field that the subscriber is not at the address during the scheduled appointment time or window, field personnel shall leave a door tag or similar notice, with the identity of the person leaving the notice, the time that person determined the subscriber was not at home, and a direct telephone number or extension the subscriber may call to confirm or reschedule the appointment.

4. If an operator's representative is running late for an appointment with a subscriber and will not be able to keep the appointment as scheduled, the subscriber must be contacted within the appointment win-

dow, and if the appointment must be rescheduled, it shall be at the earliest time that is convenient for the subscriber, including later the same day.

E. At the time an appointment is scheduled, it shall be an operator's standard practice to inform a subscriber of its service procedures, required payments, any foreseeable delays, and phone or field verification procedures which are related to the appointment, including those circumstances in which the operator may cancel the appointment. When an operator offers a time or appointment window to a subscriber, the operator is responsible for ensuring that the time or window is actually available and for ensuring that the operator's records and work order accurately reflect the information given to the subscriber.

F. Emergency service calls and service capability enabling the prompt location and correction of outages or substantial system malfunctions shall be available twenty-four (24) hours a day, seven (7) days a week.

G. A subscriber who experiences a missed appointment shall receive remedies pursuant to Exhibit A of this chapter (Section 8.29A.240), unless the operator and the subscriber agree on a different remedy. However, these remedies shall not apply in cases where unusual physical conditions make it impracticable to keep the appointment, if the operator notifies the subscriber promptly (in advance if possible, and otherwise as soon as practicable thereafter) and offers to reschedule the appointment.

H. An operator is required to document all subscriber appointment dates and times, including those scheduled and completed, as well as those missed, cancelled, or rescheduled for any reason. If someone other than the subscriber calls an operator to cancel or reschedule an appointment, the operator shall record such person's name and asserted relationship to the subscriber.

I. The franchise agency shall have the power to adjust, settle and compromise disputes and to resolve complaints against a grantee if a subscriber demonstrates that he/she was available at the appointment location when the operator failed to keep the appointment. The franchise agency may require an operator to produce records so that the agency can ascertain compliance with this section. Such records may include daily reports for all appointments kept, made, cancelled or rescheduled by the operator, individual work order and appointment information, or other operator records reasonable to ascertain the facts relating to a particular situation or time period. (1994 C., § 8.29A.060; Ord. No. 65430, § 6, 2001.)

8.29A.070 Installations and reconnections.

A. Under normal operating conditions, installations must be completed within seven (7) business days after an order is placed, unless the subscriber asks for a later date. The operator may require advance payment of the installation fee and the first month's service charges. Installations which require more than one hundred twenty-five (125) feet of drop cable from the tap, or which would occur in buildings not wired for cable service, may take longer than seven (7) business days. In such cases, the operator shall provide the subscriber and/or the agency with a written explanation and a proposed schedule for installation, but it shall be completed within sixty (60) days in any case.

B. Subsection A of this section shall not apply if the service or product requested by the subscriber is not generally available from the operator in the subscriber's area (for example, if an upgrade necessary to provide the service has not yet been completed in that area).

C. Reconnections due to erroneous disconnections based on the operator's billing or technical errors must be completed at no charge the same day as the subscriber notifies the operator of the disconnection to the extent reasonably possible, but in any event within twenty-four (24) hours. The subscriber must be provided a credit for time out of service.

D. Reconnections after a disconnection attributed to non-payment of bills must be completed within seven (7) business days after payment has been received by the operator. In such instances only, operator may require that payment by check has cleared subscriber's bank before the payment is deemed received by the operator.

E. Installations shall not be considered completed, nor may a subscriber be billed for services, until all services and equipment the subscriber is told would be installed as part of that installation are in full working order.

F. A building owner's preference as to the point of entry into a building shall be observed whenever feasible. Runs in building interiors shall be as unobtrusive as possible and outlets located for the convenience of the subscriber. The operator shall use due care in the process of installation and shall repair or restore any damage to the subscriber's property caused by said installation work. Such repair or restoration shall be undertaken

as soon as possible after the damage is incurred, shall be subject to reasonable subscriber approval of the corrective action and shall be completed within no more than thirty (30) days after the damage is incurred, unless this is not reasonably possible, in which case it shall be completed as soon as possible. Should such repair or restoration not be completed within the thirty-day period, the operator shall notify the franchise agency and the franchise agency shall have authority to review disputes between an operator and subscribers as to such damage and to require reasonable corrective action by an operator.

G. The provisions of Section 8.29A.060 regarding appointments shall apply, without limitation, to appointments for installations. (1994 C., § 8.29A.070; Ord. No. 65430, § 7, 2001.)

8.29A.080 Service and repair calls.

A. When a subscriber requests a service appointment or repairs for a problem with cable service, or the need for repairs otherwise becomes known to an operator:

1. Any service interruption (including loss of video and audio signal, or "no picture/no sound") on one or more channels must be responded to promptly and fully repaired within 24 hours, including provision of any necessary working equipment and arrival of another service technician qualified to repair the problem if the first technician cannot.

2. Work on all other requests for service or repair must begin by the first business day after the subscriber reports the problem to the operator, and must be completed within 72 hours of the subscriber's initial request.

B. Repairs or maintenance work not completed, or referred to another technician, by the original technician responding to a request for repair or service call shall be resumed by the operator within 24 hours of the original service call.

C. Repairs or corrective action not requiring the operator to enter the interior of subscriber premises shall not require a subscriber to make an appointment, shall not require the subscriber to be available on-site, and shall not be delayed on account of the operator's inability to contact the subscriber. Such repairs shall also be completed within the deadlines specified above.

D. With respect to deadlines specified in this Section 8.29A.080:

1. An operator shall complete the work in the shortest possible time where the work could not be completed in the time periods specified herein even with the exercise of due diligence.

2. The requirements of Subsection A of this section shall not apply during periods outside of normal operating conditions. Such periods must be documented by the operator to the reasonable satisfaction of the franchise agency.

3. Failure of an operator to accurately and timely locate or move underground plant upon request by any authorized person shall not be cause for a waiver of the 24- and 72-hour requirements for repairs.

E. Except as applicable law requires, no charge shall be made to a subscriber for a service appointment or repairs necessary to correct a problem with cable service, unless it can be documented that the problem was caused by the subscriber.

F. Credits for service interruptions.

1. An operator shall automatically provide a credit or refund whenever the operator is aware that a subscriber has not received service for which the subscriber has paid for four hours or more.

2. The amount of the credit shall be based on the severity or duration of the problem and the channels affected, but shall not be less than one-half day's cable rate.

3. A credit under this Subsection F shall not be required where (i) the service interruption is part of a planned and approved outage for a limited period that is necessary for plant upgrades, maintenance, repair, or required testing; or (ii) the operator shows that the subscriber caused the service interruption.

4. However, a subscriber is entitled to a full refund for a pay-per-view event that the subscriber ordered from the operator that is interrupted by a service interruption.

5. A credit under this Subsection F shall be applied upon a subscriber's reasonably prompt request. Such credit shall also be applied without a subscriber's request in any case where the operator can identify the affected subscribers. Credits are not required, however, when the operator can demonstrate that the subscriber seeks a refund for outage or impairment which the subscriber has caused.

G. The franchise agency is authorized to adjust, settle and compromise disputes and to resolve complaints against a grantee with respect to service and repair calls.

H. The provisions of Section 8.29A.060 regarding appointments shall apply, without limitation, to appointments for service and repairs. (1994 C., § 8.29A.080; Ord. No. 65430, § 8, 2001.)

8.29A.090 Disconnections and downgrades—Involuntary.

A. *Disconnection for Non-Payment.*

1. No subscriber may be disconnected for non-payment other than at a time when trained customer service representatives with authority to cancel the disconnection are available for the subscriber to contact by telephone.

2. No subscriber may be disconnected for non-payment if the subscriber has informed the operator or the franchise agency of a billing dispute or lost payment, until a reasonable period has elapsed for the operator or the franchise agency respectively to resolve such billing dispute or lost payment and, if necessary, for the subscriber to submit a replacement payment.

3. No subscriber may be disconnected for non-payment due to an operator's failure to timely or correctly post payments.

4. No subscriber may be disconnected for failure to pay a portion of a bill attributable to services delivered after the "stop bill date" as that term is used in Section 8.29A.100.A.

5. No subscriber may be disconnected for non-payment if payment of outstanding balances is made at operator's office or received by the operator at its office before the date scheduled for disconnection, including the last business day before the scheduled disconnection. It is the operator's responsibility to monitor such payments and cancel work orders for disconnections.

6. No subscriber may be disconnected by an operator for non-payment less than twenty-five (25) days after the original due date of a delinquent balance, or less than eight (8) days after the operator sends (by first-class mail) written or telephone notice of the intent to disconnect, whichever is later.

B. *Procedure for Involuntary Disconnection.*

1. Before a subscriber may be disconnected, the operator must give prior notice by at least two (2) of the following methods, each at least five business days prior to disconnection:

a. Messages in bold or large type on current bill;

b. Postcards, other mailings, or prominent bill stuffers;

c. Phone call to the subscriber, or message left on a telephone answering machine.

2. If an operator initiates a disconnection at the subscriber's location, the technician performing the disconnection must first attempt to reach the subscriber on-site by knocking or ringing at the front door or looking in the backyard to inform the subscriber about the pending disconnection. If the subscriber is not present, but the premises are in the care and control of another person, the operator's representative shall allow such person to attempt to contact the subscriber prior to the disconnection. If such person contacts the subscriber, the operator's representative shall speak to the subscriber by phone and attempt to arrange for payment of the overdue amount or a resolution of the matter prior to starting the disconnection.

3. If the subscriber pays the outstanding balance for current period services at the time the operator attempts a disconnection at the subscriber's premises, the operator shall not disconnect the subscriber.

4. Disconnections for non-payment which are made at the subscriber's location when the subscriber is not home must be accompanied by a written notice, such as a door tag, informing the subscriber that a technician has made changes to the service and providing an operator telephone number and customer service location address so that the subscriber may contact the operator for further information. Disconnections made by computer require the operator promptly to mail information to the subscriber containing the same information and describing the amount of payment in arrears as of the disconnection date and applicable reconnection charges and procedures.

C. *Forms of Payment.* An operator may reasonably specify forms of payment that are acceptable to avoid disconnection (such as cash, checks, money orders or credit card payments) based on the subscriber's payment history, security issues in the field, or other criteria.

D. *Disconnection Due to Signal Leakage.*

1. An operator may disconnect a subscriber that causes signal leakage in excess of federal limits.

2. An operator may effect such disconnection without advance notice, provided that the operator shall first attempt to contact the subscriber on-site about the problem.

3. If an operator disconnects a subscriber due to signal leakage, the operator's representative must leave a door tag with an explanation of the problem and a telephone number to call.

4. Once the problem is corrected, the operator shall reconnect the subscriber at no charge. The subscriber shall be eligible for appropriate credits pursuant to Section 8.29A.080.F.5.

5. For purposes of this Subsection D, use of FCC-approved navigation devices does not in and of itself constitute signal leakage.

6. An operator must maintain dated, address-based incident logs of all disconnections attributed to signal leakage, including detailed description of exact location at which the leakage reading is strongest.

E. *Other Conditions.* Nothing in this chapter is intended to prevent an operator from disconnecting, delaying, limiting or denying cable service to any person who:

1. Causes damage to the operator's cable system or equipment;

2. Threatens the safety of an operator's field technicians in the course of their duties;

3. Illegally receives cable services for which that person has not paid;

4. Attempts to order premium or pay-per-view service after that subscriber has chronically failed to pay for such services in the past;

5. Repeatedly attempts to render payments from checking accounts with insufficient funds.

If an operator disconnects, delays, limits or denies cable service to a subscriber pursuant to this Subsection E, the operator will give written notice to the subscriber of the reason and of the subscriber's right to contact the franchise agency. An operator must maintain copies of such written notice to the subscriber in its files.

F. *Reconnection.*

1. After a permissible disconnection for non-payment, the operator shall reinstate service within seven (7) business days after payment by the subscriber of all outstanding charges in full, subject to a subscriber's rights with respect to billing disputes or lost payments under Subsection A.2 of this section.

2. The operator is not required to reconnect a subscriber with an undisputed outstanding balance unless extenuating circumstances are applicable in the judgement of the operator and the franchise agency, after joint consultation.

3. After a disconnection, delay, limitation or denial for cause as described in Subsection E of this section, an operator is required to restore service only after the subscriber has provided adequate assurance that he/she has ceased, and will not resume, the practices which led to the disconnection, and paid all proper fees and charges, including any reconnection fees or amounts owed to the operator for damage to its cable system or equipment. (1994 C., § 8.29A.090; Ord. No. 65430, § 9, 2001.)

8.29A.100 Disconnections and downgrades—Voluntary.

A. A subscriber may order a disconnection or downgrade of service or equipment at any time and may select any business day occurring 24 hours or more after ordering such disconnection or downgrade, as the date on which the services will end (the "stop bill date").

B. As long as the subscriber reasonably cooperates with the operator's removal of any canceled converters or similar equipment from the subscriber's premises:

1. The operator shall promptly disconnect or downgrade any subscriber as of the "stop bill date;"

2. The operator shall not impose a charge for canceled services which are delivered after the "stop bill date;"

3. The operator shall not charge fees for equipment after the "stop bill date;"

4. Unless the subscriber requests otherwise, removal of charges, refunds or credit amounts will be applied to the account as of the "stop bill date," regardless of when the disconnection or downgrade occurred in the field.

C. While subscribers may be asked to deliver such equipment to the operator's office, they shall not be required or forced to do so as a condition of refunds, credits or return of deposits. A subscriber may only be held liable for unreturned equipment if, within two weeks of disconnection, or by the last date the subscriber occupies the premises (whichever is earlier):

1. The subscriber refused an appointment for equipment pickup during a specified appointment window;

2. The subscriber failed to keep such appointment or failed to return such equipment when visited by the operator; or

3. The subscriber could not be contacted by the operator for a period of five business days.

D. Subscribers may not continue to be charged for services or equipment due to operator delays in completing disconnections or downgrades or equipment removal after the "stop bill date."

E. Any charges for services or equipment with a "stop bill date" which is seven or more business days prior to the subscriber's next billing date may not appear on the subscriber's next bill.

F. Subscribers may not be charged late fees, involuntarily disconnected, or otherwise penalized for excluding from their payments amounts billed for canceled services after the "stop bill date."

G. Following the "stop bill date" for a full disconnection, the operator must promptly issue a full or pro-rated refund check for any pre-paid monthly charges.

H. No charge may be imposed on a subscriber for any full disconnection, and downgrade fees for partial cancellation of service must comply with the requirements of federal law and local rate orders.

I. Full refunds of service and installation charges shall be given for downgrades or disconnections requested in accordance with any "money back guarantee" conditions established in promotional campaigns for any tier or other cable service. Downgrade fees may not be charged if such services are canceled within such promotional windows. If an operator is fined by another entity for a failure to provide such a refund or for charging such a fee, the operator shall not be subject to a penalty or liquidated damages for that event pursuant to this subsection.

J. Subject to applicable federal law, subscribers may downgrade or disconnect at no charge within 30 days after they receive a bill with a rate increase for that service or equipment. For purposes of this subsection, "rate increase" shall include (but not be limited to) unilateral price increases to all subscribers, discontinuation of special price promotional packages held by a particular subscriber, and changes in premium service prices at the end of a promotional period. This section shall not apply to a rate increase where a subscriber has agreed to pay for a service or equipment at a normal price after a period charged at a lower promotional rate, and the rate increases to the normal price in accordance with that agreement.

K. Operators must notify subscribers who have fully disconnected service of the terms and conditions under applicable law regarding both parties' rights with respect to subscriber premises cable service wiring. Except as otherwise provided under applicable law or agreement binding on a building owner, any such building owner may require an operator to promptly remove the operator's wiring from the owner's building at no charge to the building owner. (1994 C., § 8.29A.100; Ord. No. 65430, § 10, 2001.)

8.29A.110 Outages.

A. An operator shall take timely measures to post appropriate messages, including areas or zip codes affected, on its telephone system automatic response unit to notify subscribers of any identified outages. Such messages should also provide instructions for subscribers whose converters or navigation devices may not be functioning as a result of the identified outage. Periods of natural disasters are not included in this requirement.

B. Within one (1) hour after an identified outage, service technicians will respond and use all available means to correct the outage in the shortest possible time.

C. Operator will maintain reports on the cause, area and duration and repair of all outages.

D. The requirements of this section (8.29A.110) are in effect 24 hours per day, 7 days a week.

E. An operator may intentionally interrupt service only for good cause and the shortest possible time, including interruption for system upgrade, repair and maintenance, for emergencies or to the extent necessary to fix an affected subscriber's problem. Routine maintenance shall occur at times that affect the fewest subscribers, generally between 2 a.m. and 6 a.m. An operator shall notify the franchise agency no less than twelve (12) hours prior to a planned service interruption. In addition, an operator shall post override notices on all its system's channels to advise subscribers prior to planned service interruptions. (1994 C., § 8.29A.110; Ord. No. 65430, § 11, 2001.)

8.29A.120 Changes in services and rates.

A. Before an operator unilaterally alters equipment, the basic service tier, a cable programming tier, another tier, or any other cable service, or the rate for any such equipment or service, it must provide the franchise authority and franchise agency sixty (60) days' advance written notice. The operator shall also provide subscribers with thirty (30) days' advance written notice by any reasonable means and explain the substance and effect of such alteration. Such notice is required for all regulated and unregulated rates for any and all services, to any and all classes of subscribers, including, without limitation, governmental and educational subscribers; commercial account subscribers; and subscribers of optional tier or other cable services.

B. Changes not within the control of the operator are subject to notice as soon as reasonably possible. Operator must also notify subscribers at the time the alteration is made of their right within thirty (30) days after the alteration to elect to continue receiving, or to

cancel at no charge, any service so altered, or combination of services which includes an altered service. Such notice must be clear and obvious.

C. Negative option billing is prohibited except to the extent that federal law specifically provides that operators are permitted to make alterations by negative option. For purposes of this subsection, "negative option billing" shall be defined as charging a subscriber for any service or equipment that the subscriber has not affirmatively requested by name. The franchise agency shall have the power to adjust, settle and compromise disputes and to resolve complaints. The operator shall have the burden of proof with respect to any issues regarding negative options. Subscribers may not be charged an upgrade or downgrade fee in order to receive, block or cancel services changed by an operator. Notwithstanding the foregoing, acts by an operator that federal law has deemed permitted under federal law shall not be considered negative options for purposes of this subsection.

D. If an operator plans to provide a free premium channel, the operator shall, no later than ten (10) days before such premium channel is offered without charge, notify all subscribers of its plans, including the time periods involved, a general description of the nature of the content of the offered premium channel, and the subscriber's right under this chapter to have the channel blocked at no charge. For purposes of this subsection only, "premium channel" shall mean any pay service offered on a per-channel or per-program basis.

E. Rates for services, and equipment are subject to all applicable federal, state, and local laws and rules. If an operator implements rates that exceed rates established by City rate orders, it must notify subscribers that such rates are in dispute and (where appropriate) are under appeal.

F. An operator must notify the franchise agency regarding any changes in rates or billings or services affecting governmental and educational subscribers in writing no less than ten (10) business days in advance of the actual change or notice to governmental or educational subscribers of such change, whichever comes first. The franchise agency shall have authority to determine if such charges comply with this chapter and the terms and conditions of any other applicable law or contracts. (1994 C., § 8.29A.120; Ord. No. 65430, § 12, 2001.)

8.29A.130 Notices—Written and oral.

A. An operator shall comply with all notice provisions established by applicable law or in its franchise agreement.

B. An operator shall provide the following written information to each subscriber on each of the following topics at the time of installation and at least annually thereafter, and at any time upon request. Copies of all such materials provided to subscribers shall also be provided to the franchise agency.

1. Description of products and services offered, including prices and options for cable services, associated equipment and installation charges, and conditions of subscription to programming and other services and facilities;

2. Description of the operator's installation and service maintenance policies, delinquent subscriber disconnection and reconnection procedures, and any other of its policies applicable to its subscribers;

3. Instructions on how to use the services and equipment, including the capabilities and limitations of such equipment;

4. Instructions for how to place a service call;

5. Description of the operator's billing and complaint procedures, and the address and telephone number of the franchise agency office responsible for receiving subscriber complaints;

6. Copy of the service contract between the operator and subscriber, if any;

7. Notice regarding subscribers' privacy rights pursuant to applicable law;

8. Notice of the commercial availability of universal remotes and other compatible equipment clearly indicating that a list of specific brands and models shall be provided to any subscriber upon request;

9. The operator's customer service telephone numbers; the addresses and hours of any of the operator's customer service locations in the City; and the address and telephone number of the franchise agency.

C. All written notices to subscribers regarding changes in operator procedures and practices affecting subscribers in the City shall be provided to the franchise agency prior to printing and distribution. An operator shall make a good-faith effort to provide copies of such notices early enough that the agency, if it chooses, can review and comment on them. An operator's distribution of notices containing information that

is contrary to applicable law, is fraudulent, or would reasonably be expected to mislead subscribers as to their rights, is a violation of this chapter.

D. Every operator's promotional materials, announcements, advertising of service, and oral or written sales presentations to subscribers shall conform to applicable laws governing such advertising and, to the extent to which price terms are presented in such materials or presentations, shall clearly and accurately disclose such price terms.

E. In addition to (but not in duplication of) any notice required under Section 8.29A.120.A, subscribers shall be notified in writing of any changes in rates, programming services or channel positions, or any significant changes in any other information required to be provided by this section. An operator may also provide additional notice by any other means, such as announcement on its cable system. These notices shall be made:

1. As soon as possible when the change is out of the operator's control; and

2. In accordance with applicable federal, state and local law, including this chapter, when the change is within the operator's control.

F. Each operator shall maintain a public file containing all notices provided to subscribers under this chapter as well as promotional offers made to subscribers. Copies of all such notices, rate cards, promotional or special offers sent to subscribers, and any copies of blank agreements used with subscribers, shall be promptly filed with the franchise agency.

G. Notices to subscribers, including, but not limited to, notices of rate and service changes, that are published solely in the legal section of local newspapers do not constitute "reasonable means" as that term is used in this chapter or in 47 U.S.C. § 552(c) as applied in the City. (1994 C., § 8.29A.130; Ord. No. 65430, § 13, 2001.)

8.29A.140 Billings, charges and credits.

A. Bills shall be clear, concise and understandable.

1. Appropriate office addresses and phone numbers for billing inquiries or disputes shall be clearly marked on each bill.

2. Bills shall be fully itemized and clearly delineate all activity during the billing period, with an itemization of at least the following: basic tier charges, any other tier charges, premium charges, pay-per-view charges, optional charges, payments, credits, rebates, late fees, and pro-rated amounts for service upgrades, downgrades and disconnections. An operator's first billing statement after new installation, reconnection or service change shall be pro-rated to reflect the service period. Any unusual billing debits, credits, or changes in service must be clear and understandable. The franchise agency will work with an operator at the operator's request to accommodate the operator's reasonable space limitations to ensure that the results are clear and understandable.

3. An operator's billing statement must show a specific payment due date. Bills shall clearly and conspicuously indicate the past due date and, if applicable, the action a subscriber must take to avoid disconnection.

B. All operators must take reasonable steps to ensure that subscribers understand the terms and obligations of their subscriptions in advance.

1. Promotional materials must prominently specify the periods for which any special prices or discounts remain in effect and the prices to which they return at the end of such periods (unless they return to a price the subscriber is currently paying).

2. Prior to upgrades or changes in a subscriber's service package, an operator's written materials and/or oral presentation shall fully disclose to the subscriber whether the subscriber is able to cancel the upgraded services and voluntarily downgrade to the same package of service at the same price as before the upgrade or change.

3. Prior to upgrades or changes in a subscriber's service package, an operator's written materials and/or oral presentation shall fully disclose to the subscriber any charges or penalties for downgrading or removing services at a later date.

4. Subject to applicable law, at the end of any special price offer or promotional period, subscribers shall have the right to cancel any cable services with no downgrade charge.

In the case of pay-per-view or pay-per-event programming, promotional materials must clearly and accurately disclose all price terms. In the case of telephone orders, an operator shall take appropriate steps to ensure that price terms and restrictions are clearly and accurately disclosed to potential subscribers before the order is accepted. Operator shall provide the franchise agency with verification on a quarterly basis that the requirements of this paragraph are being met.

C. Subscribers must have adequate time to pay bills before imposition of late fees or penalties for non-payment. Any balance not received within the time period after the due date specified in Subsection C.2 below may be assessed a processing charge (late fee) to the extent not in conflict with applicable federal or state law.

1. Subscribers must have a minimum of eighteen (18) days between the date the operator mails the bill by first-class mail and the due date on the bill. Due dates generally may not be earlier than the tenth day of the billed period.

2. An operator shall provide subscribers a grace period of an additional five (5) business days after the due date before the operator may impose a late fee for non-payment. Late fees may not actually be applied to any account until the billing cycle cutoff date on which all posted payments and charges for the following month's bill are applied.

D. Subscribers will not be responsible for late fees resulting from delays in operator's billing system, payment collection or posting practices or for any failure by an operator to timely or correctly bill the subscriber or to properly credit the subscriber for timely payment made.

E. Credits for erroneous late fees will be applied to all affected accounts automatically by the operator prior to generating the next subscriber bill.

F. Late fees may not exceed the lesser of (1) any state statutory limits or (2) any court-ordered limits.

G. No subscriber's billing cycle shall be changed arbitrarily. An operator shall use its reasonable best efforts to accommodate one-time requests for specific billing cycles by subscribers on fixed incomes.

H. Disputes about billings will be settled by the franchise agency in accordance with this chapter. No subscriber may be disconnected for non-payment except as provided in Section 8.29A.090.A.2 if the operator has written notice of a billing dispute or lost payment. The agency will evaluate repeated complaints by individual subscribers for legitimacy, to avoid the complaint process being used inappropriately.

I. Credits must be issued for outages pursuant to Section 8.29A.080.F.

J. An operator may require payment by credit or bank cards for pay-per-view orders, once the outstanding monthly balance has exceeded an amount deemed appropriate by the operator.

K. Operator must address complaints about billings within five business days after the complaint is received. Credits for service shall be issued no later than the subscriber's next billing cycle after determination that the credit is warranted. (1994 C., § 8.29A.140; Ord. No. 65430, § 14, 2001.)

8.29A.150 Deposits, advance payments, refunds and credits.

A. An operator may require payment of undisputed past due amounts prior to installation or reconnection. An operator may require at time of installation an advance payment equal to one month of services ordered plus the cost of the installation. An advance payment for installations or other services not received by a person must be refunded within 35 days. Any subscriber deposit required by an operator shall bear interest at seven percent per annum. Upon disconnection, all equipment deposits, with interest, shall be returned to the subscriber within 35 days after all operator equipment is returned and all other outstanding financial obligations of the subscriber to the operator have been met.

B. Credits for service shall be issued no later than the subscriber's next billing cycle after determination that a credit is warranted.

C. Refunds or reimbursements rather than credits, including any monetary credit resulting from a missed appointment, shall be issued to subscribers who:

1. Are no longer receiving cable service for which they have already paid;

2. Pre-paid for installations or upgrades which were not completed for any reason if the subscriber is no longer receiving cable service from the operator;

3. Experience damages or theft as a result of operator or subcontractor actions in connection with installation or service.

D. Operator checks for refunds and reimbursements shall be issued and mailed to the remitter of payment within thirty-five (35) business days:

1. After a request for refund or reimbursement is made by the subscriber/remitter subsequent to the event giving rise to the need for refund or reimbursement; or

2. If there is a dispute, after determination that refund or reimbursement is warranted or ordered by the franchise agency. (1994 C., § 8.29A.150; Ord. No. 65430, § 15, 2001.)

8.29A.160 Reports and documentation.

A. An operator shall submit to the franchise agency fifteen (15) days after the end of each month, in a form reasonably acceptable to the agency, the following reports. These reports shall distinguish on a preliminary basis between normal operating conditions and any periods not under normal operating conditions.

1. Telephone response statistics that provide documentation of operator's performance pursuant to Section 8.29A.050.C of this chapter, including, but not limited to, operator's own statistics and measurements and any independent third party studies made available to the operator by its telephone service provider during the applicable time period. Separate statistics shall be provided for normal business hours and for periods outside normal business hours.

2. A summary of installations, indicating the number for each day completed, cancelled and rescheduled, and the reasons for same.

3. A summary of service calls, including the number and nature of the calls received and an explanation of the causes and dispositions of such calls.

4. A report reflecting the credits issued for missed appointments.

5. The total number of subscribers.

6. A summary of identified outages, including each outage's date, location, cause, and approximate duration and area affected.

B. The franchise agency may, upon reasonable prior notice, require an operator to submit the following additional operator reports, records or documentation reasonably necessary to verify compliance with this chapter:

1. Complete list of all recorded subscriber complaints to the grantee and measures taken to resolve them;

2. Subscriber location service call and installation records/work orders, including, but not limited to, the date and time of any visits to a subscriber location scheduled or rescheduled by the operator;

3. Signal leakage logs and incident reports;

4. Technical records regarding performance related to service under this chapter;

5. Operator's subscriber payment and posting documentation, which may include information maintained by its billing service.

C. Upon the franchise agency's request, an operator shall also make all other supporting records for reports, and for compliance with this chapter, available to the franchise agency at a location within the St. Louis metropolitan area.

D. Any report or record required to be submitted to the franchise agency pursuant to this chapter shall be forwarded or made available to the franchise agency or, if so directed by the franchise agency, to the franchise authority.

E. An operator's failure to collect the necessary information shall not be a defense for any inaccuracy or incompleteness in the operator's reports required in this Section 8.29A.160. (1994 C., § 8.29A.160; Ord. No. 65430, § 16, 2001.)

8.29A.170 Privacy.

The following provisions with respect to subscriber privacy are deemed to be consistent with applicable federal and state law as of the date of enactment of this chapter. This provision shall not be deemed to waive any operator's right to contest this provision based on any change in federal or state law after that date of enactment.

A. If the franchise agency requests aggregate subscriber information, without personally identifiable information, pursuant to this chapter, an operator shall not refuse to provide such information on grounds of subscriber privacy.

B. If a subscriber provides personally identifiable information to the franchise agency in order to request the franchise agency's assistance, an operator shall not refuse on grounds of subscriber privacy to discuss such information, or the subscriber's concerns related to that information, with the agency.

C. To the extent a subscriber's prior written or electronic consent may be required by applicable law, if the subscriber provides such consent either directly or via the franchise agency, the operator shall not refuse on grounds of subscriber privacy to provide that subscriber's personally identifiable information to the franchise agency, to the extent consented to by the subscriber.

D. Prior consent delivered to the operator by facsimile (by way of illustration and not limitation) shall be deemed sufficient to constitute prior written or electronic consent for purposes of this Section 8.29A.170 and 47 U.S.C. § 551.

E. An operator shall not object to disclosing subscriber information to the City if it has provided the subscriber the opportunity to prohibit or limit such

disclosure in accordance with 47 U.S.C. §551(c)(2)(C)(i), unless to do so would expressly violate other applicable law. (1994 C., § 8.29A.170; Ord. No. 65430, § 17, 2001.)

8.29A.180 Mobility-limited subscribers.

A. Upon request of mobility-limited subscribers, an operator shall arrange for delivery, pick-up or exchange or replacement of converters or other operator equipment at the subscriber's address, or by a satisfactory equivalent such as provision of a pre-paid postage mailer.

B. An operator shall make special arrangements to accommodate subscribers who may be unable to answer a door or telephone in response to a request for an appointment. Work orders shall indicate any special instructions or directions necessary to accommodate a mobility-limited subscriber. (1994 C., § 8.29A.180; Ord. No. 65430, § 18, 2001.)

8.29A.190 Parental control.

A. An operator shall make available to any subscriber upon request the options of blocking both video and audio portions of any channel(s) of video programming entering the subscriber's home. This control shall be provided at no charge, except to the extent that federal law specifically provides that the operator must be permitted to charge a subscriber, as well as a reasonable security deposit for the use of any device provided by the operator.

B. All subscribers must be notified of the availability of blocking devices on an annual basis. (1994 C., § 8.29A.190; Ord. No. 65430, § 19, 2001.)

8.29A.200 Exclusive contracts.

No operator shall require the exclusive right to serve a subscriber, person or location as a condition of offering cable service or extending a cable system. (1994 C., § 8.29A.200; Ord. No. 65430, § 20, 2001.)

8.29A.210 Administration, enforcement and penalties.

A. Administration.

1. This chapter shall be administered on behalf of the City by the franchise agency.

2. An operator shall be responsible for all of its agents, subcontractors, and employees, with respect to the operator's compliance with this chapter.

3. All notices of deficiencies, noncompliance, and changes in requirements issued by the franchise agency shall be in writing.

B. Penalties.

1. Penalties imposed pursuant to this section shall not exceed $500.00 per violation.

2. Each day that a violation continues shall constitute a separate violation of this chapter for purposes of calculation of penalties.

3. The following procedure shall apply in assessing penalties for violations of customer service standards that are measured on a quarterly basis:

a. If the operator does not meet the prescribed standard (for example, the 90% standard for telephone answering) in a given calendar quarter (a "noncompliant quarter"), it shall pay a penalty in the amount of twenty dollars ($20.00) for every day in the noncompliant quarter. In addition, the operator will thereafter be on notice and subject to penalties if it fails to meet the standard involved for subsequent monthly periods until it meets the standard for a quarter (a "compliant quarter").

b. At the end of the month following a noncompliant quarter (for example, April following a noncompliant first quarter), the operator shall report to the City the statistics pertaining to the standard for that month. If the operator fails to meet the standard for that month, the operator shall pay penalties in the amount specified in Subsection B.3.c of this section. The same report shall be made, and monthly measurement continued, for subsequent months until a compliant quarter occurs.

c. i. If the operator does not meet the prescribed standard in the month immediately following the initial noncompliant quarter (the "test month"), then its monthly penalty shall be $100.00 for every day in the test month; $200.00 for every day in the second noncompliant month; and $500.00 for every day in any subsequent noncompliant months.

ii. If the operator meets the prescribed standard in the test month, then its monthly penalty shall be $100.00 for every day in the first subsequent noncompliant month, and $300.00 for any subsequent noncompliant months to a compliant quarter.

d. After a compliant quarter the operator shall return to quarterly measurement and penalty determination, until another noncompliant quarter occurs, in which event the procedures and penalties described in Subsections B.3.b and c of this section shall apply.

e. Penalties of twenty dollars per day for a noncompliant quarter pursuant to Subsection B.3.a of this section shall not be assessed if the operator (i) meets the

prescribed standard during the subsequent test month and (ii) meets the prescribed standard in the quarter (as a whole) following the noncompliant quarter.

f. Thus, for example, if the first quarter is noncompliant, and the operator fails the relevant standard for April, the operator pays $1,800.00 for the first quarter (assuming it is not a leap year); pays $3,000.00 (30 days × $100.00) for April; and continues to report the relevant monthly statistics for May and June. If May is also noncompliant, the operator pays $6,000.00 (30 days × $200.00). Assume that June is compliant, and that the second quarter as a whole is also compliant. In that case, the operator would be evaluated on quarterly statistics for the third quarter. Assume that the third quarter was again noncompliant, but the operator succeeded in returning to compliance in October. The operator would not be required to pay a penalty for the third quarter (because it met the prescribed standard in October), but would continue to be evaluated monthly for November and December. In these months, again due to the operator's success in meeting the standard in October, the lower set of penalties specified in Subsection B.3.c,i of this section would apply: thus, noncompliance in November would result in a penalty of $3,000.00 (30 days × the lower rate of $100.00).

C. If a grantee is fined for a violation of this chapter, such grantee shall not be subject to liquidated damages pursuant to its franchise agreement for the same violation or act.

D. In order to enforce the remedies specified in this section, the franchise agency shall notify the City Counselor that an alleged violation of this chapter has occurred. Either upon such notice by the franchise agency, or on his or her own motion if the City Counselor in his or her discretion determines that there is a reasonable basis for the belief that a violation has occurred, the City Counselor may prosecute such violation pursuant to Missouri law.

E. Provided that fines imposed shall not exceed $500.00 per violation, the City Counselor may authorize alternative enforcement proceedings by the agency in lieu of the procedures set forth above. Such authorization shall be in writing, with notice to the grantee involved. Such alternative enforcement procedures shall be as follows:

1. Hearing procedures.

a. The regulatory section of the franchise agency shall issue a written notice of complaint/violation to an operator, specifying the nature and time of the alleged violation and proposing a penalty consistent with this section.

2. In response to a notice issued under Subsection E.1 of this section, an operator may agree to pay the proposed penalty, or may contest such notice. An operator may contest such notice by notifying the Communications Commissioner in writing within ten (10) business days after the operator's receipt of the notice issued by the regulatory section. Such an operator's reply shall include the basis for the operator's objection and any supporting documents the operator wishes to have considered in reviewing the notice of violation.

3. Within ten (10) business days after receipt of an operator's reply, the Communications Commissioner shall notify such operator and the regulatory section of a date, time and place of a hearing on the matter, which date shall be not less than fifteen (15) and not more than forty-five (45) days from the date of such notification by the Communications Commissioner.

4. The hearing shall be conducted as required by the Missouri Administrative Procedure Act, RSMo Ch. 536, as amended (the "APA"), for a contested case.

5. Not less than thirty (30) days following the conclusion of the hearing, the Communications Commissioner shall issue a written decision consistent with the APA, finding that the complaint/violation as stated in the notice is proven and imposing an appropriate administrative penalty, or modifying or dismissing the regulatory section's notice of violation. If the Communications Commissioner does not issue such a decision within such thirty-day period, the regulatory section's notice of violation shall be deemed dismissed, provided that the Communications Commissioner may extend such period up to a total of 45 days.

6. Decisions of the Communications Commissioner pursuant to Subsection E.5 of this section are appealable pursuant to the APA.

F. Hearing Officers.

1. In lieu of conducting a hearing himself, the Communications Commissioner may appoint a hearing officer to conduct any hearing pursuant to this section and submit recommended findings of fact and conclusions of law to the Commissioner. If so, the Commissioner's notice of hearing shall so advise the operator and the regulatory section within ten (10) business days of receipt of operator's reply, and shall advise the parties of the name and address of the hearing officer. Hearing officers may, but need not, be

attorneys, and may be appointed from any list of duly selected hearing officers maintained by any City department or agency.

2. Regulations. The franchise agency may issue regulations concerning enforcement procedures which are consistent with this chapter and applicable law. An operator shall be provided written notice of and opportunity to comment on any such regulations prior to their applicability as to that operator. (1994 C., § 8.29A.210; Ord. No. 65430, § 21, 2001.)

8.29A.220 Severability.

The provisions of this chapter are severable. In the event any provision hereof is determined to be invalid, the remaining provisions shall remain in full force and effect. (1994 C., § 8.29A.220; Ord. No. 65430, § 22, 2001.)

8.29A.230 Waiver of requirements.

The franchise agency may, with the prior approval of the City Counselor's Office, waive any material requirement under this chapter for good cause shown as determined by the City Counselor's Office and the agency. Any such waiver must be in writing and explain in detail the reason for the waiver, and the agency shall promptly report to the Board of Aldermen regarding any such waiver. (1994 C., § 8.29A.230; Ord. No. 65430, § 23, 2001.)

8.29A.240 Exhibit A.

Subscriber Remedies for Missed Appointments

1. For a missed service appointment:	
Each occurrence	$20.00 credit to a subscriber's account
2. For a missed installation, upgrade or downgrade appointment:	
First occurrence	Installation fee waived (or $20.00 credit if the installation was to have been free)
Subsequent occurrence	$20.00 credit for each subscriber's account
3. For new installations, if subscriber subsequently requests cancellation of the order due to failure to complete:	Prompt cash refunds to the payer for the full amount of pre-paid charges, plus a transferable coupon good in the grantee's system in the City for one free installation and $20.00 in free service, without expiration

8.29B.010 Definitions and rules of construction.

A. *Definitions.* For the purposes of the agreement codified in this chapter, unless otherwise specified, the following terms, phrases, words, and their derivations have the meaning given herein, unless the context clearly indicates that another meaning is intended:

1. "Cable ordinance" or "ordinance" means Ordinance 65431 (Board Bill 77), as it may be amended from time to time.

2. "Cable system" or "system" means any cable system (as that term is used in the cable ordinance)

which grantee is authorized to construct, operate and maintain pursuant to the agreement codified in this chapter.

3. "City" means the City of St. Louis, a municipal corporation of the State of Missouri, organized and existing under its Charter and the constitution and laws of the State of Missouri.

4. "Downtown area" means the portion of the Franchise Area specified in the description attached to the ordinance codified in this chapter as Exhibit 1.

5. "Franchise" means the franchise (as that term is used in the cable ordinance) granted to the grantee subject to the terms and conditions of the agreement codified in this chapter and applicable law.

6. "Franchise area" means the entire area within the jurisdictional boundaries of the City of St. Louis.

7. "Franchise agreement" or "agreement" means the agreement codified in this chapter and any amendments, exhibits or appendices hereto.

8. "Franchise effective date" means the date on which the agreement is lawfully executed by both parties as provided under Section 8.29B.020 of the agreement codified in this chapter and in the manner required by Section 8.29.080 of the cable ordinance.

9. "Grantee" means St. Louis Tele-Communications, Inc., a Missouri corporation, currently providing services as AT&T Broadband.

10. "Gross revenue" means all revenues derived directly or indirectly by the grantee, its affiliates, subsidiaries, parents, and any entity in which the grantee has a financial interest, from or in connection with the operation of its cable system to provide cable services. This definition shall be construed so as to include all gross revenues to the maximum extent permitted by federal law, except to the extent specifically excluded in Subsection A.10.b of this section.

a. Gross revenues include, by way of illustration and not limitation, monthly fees charged subscribers for any basic, optional, premium, per-channel, per-program service, or cable programming service; revenues from internet access over the cable system (to the extent such services are lawfully considered cable services under applicable law); installation, disconnection, reconnection, and change-in-service fees; leased channel fees; late fees and administrative fees; fees, payments, or other consideration received from programmers for carriage of programming on the cable system; revenues from rentals or sales of converters or other equipment; studio rental, production equipment, and personnel fees; advertising revenues; barter; revenues from program guides; and revenues from home shopping and bank-at-home channels.

b. Gross revenues shall not include (a) any taxes on services furnished by the grantee herein imposed directly upon any subscriber or user by the City, the State of Missouri or the governmental unit and collected by such grantee on behalf of said governmental unit. A franchise fee is not such a tax; (b) any bad debt; provided, however, that all or any part of any such actual bad debt that is written off but subsequently collected shall be included in gross revenues in the period collected.

c. Any amounts includable as gross revenues that are received by an affiliate, subsidiary, parent, or any entity in which the grantee has a financial interest shall not be counted as gross revenues to the extent that such amounts are also received directly by the grantee, to ensure that no such revenue is counted twice.

11. "Node" means a facility on a cable system where transmission by light over fiber optic cable is converted to transmission by electricity over coaxial cable, or vice-versa.

12. "Prior franchises" means the franchises granted pursuant to Ordinance No. 59197, which were both held by the grantee immediately prior to the franchise effective date.

13. "System upgrade" means the improvement and enhancement in the technology and service capabilities made by the grantee to its cable system described in Section 8.29B.070.B herein.

14. "Transfer" shall mean any transaction in which: (a) any direct ownership or other right, title, or interest of more than ten percent (10%) in the grantee or its cable system is transferred, sold, assigned, leased, or sublet; or (b) there is any change in control of the grantee; or (c) the rights and/or obligations held by the grantee under the franchise are transferred, directly or indirectly, to another person; or (d) any change or substitution occurs in the managing general partners of the grantee, where applicable.

a. "Control" for purposes of this section means the legal or practical ability to exert actual working control over the affairs of the grantee either directly or indirectly, whether by contractual agreement, majority ownership interest, any lesser ownership interest, a change in the entity with management responsibility over the cable system, or in any other manner.

b. A rebuttable presumption that a transfer of control has occurred shall arise upon the acquisition or accumulation of twenty percent (20%) or more of the ownership of the grantee indirectly, through a change in ownership of its owners, by any person or group of persons acting in concert, none of whom already own or control fifty percent (50%) or more of the ownership of the grantee, singularly or collectively. For purposes of this section, however, an acquisition of publicly traded stock in a publicly traded corporation shall not result in such a rebuttable presumption even if it reaches or exceeds the twenty percent (20%) level of ownership of the grantee.

c. The grantee is responsible for ensuring that the intent of Section 8.29.060 of the cable ordinance is carried out. If for any reason an event occurs that would require the City's approval under that section, whether or not such event is directly or indirectly within the grantee's control, such event shall constitute a "transfer" for purposes of the agreement codified in this chapter and any applicable law.

d. Notwithstanding the foregoing, "transfer" does not include:

i. Disposition or replacement of worn out or obsolete equipment, property or facilities in the normal course of operating the cable system, including the renewal or extension of equipment or property leases and contracts; or

ii. Acquisition, transfer, sale or other disposition of leases, licenses, easements, and other interests in real property in the normal course of operating the cable system and not involving the relinquishment of any right or power affecting the grantee's ability to provide services in whole or in part; or

iii. Restructuring of ownership interests among entities ultimately wholly owned by the ultimate owners of the grantee, provided that the grantee provides signed written notice of such restructuring at least thirty (30) days in advance which (i) demonstrates that the conditions of this exception have been satisfied and (ii) warrants and represents that such restructuring will not have a material adverse effect on system rates, services, financial resources, management, or operations.

B. *Rules of Construction.* Unless the context clearly indicates to the contrary, the following rules apply to the construction of the agreement codified in this chapter:

1. Except as otherwise provided herein, the definitions and word usage set forth in the cable ordinance and the customer service ordinance adopted concurrently with the agreement codified in this chapter are incorporated herein and shall apply in the agreement codified in this chapter. Unless otherwise expressly stated, words not defined herein or in the ordinance shall be given the meaning set forth in Title 47 of the United States Code, as amended, or if not defined therein, Chapter 47 of the Code of Federal Regulations, or, if not defined therein, their common and ordinary meaning.

2. Words importing the singular number include the plural number and vice-versa.

3. Words in the present tense include the future tense and vice-versa.

4. The masculine gender includes the feminine gender and vice-versa.

5. All references to particular sections are references to sections of the agreement codified in this chapter.

6. The headings herein are solely for convenience of reference and do not constitute a part of the agreement codified in this chapter nor do they affect its meaning, construction or effect.

7. The word "shall" as used herein is always mandatory and not directory, and the word "may" as used herein is permissive.

8. "Applicable law" shall include, but is not limited to, applicable City ordinances, subject to the provisions of Section 8.29B.040.E and Section 8.29B.150.

9. The first letters of terms may be capitalized for convenience, but failure to capitalize a letter shall not affect the meaning. (1994 C., § 8.29B.010; Ord. No. 65433, § 1, 2001.)

8.29B.020 Grant of franchise; effective date.

Subject to the terms and conditions of this franchise agreement, the cable ordinance, and other applicable law, a franchise is granted to grantee for the construction, operation and maintenance of a cable system in the public rights-of-way within the franchise area, for the purpose of providing cable service. The franchise does not take the place of any other franchise, license, or permit which the City may lawfully require of grantee. Neither the franchise nor the franchise agreement grant any authority for the grantee to use the public rights-of-way for any purposes other than provision of cable service, except to the extent the agreement codified in this chapter may expressly and specifically provide that the grantee may provide other

services. Nothing herein shall prevent the grantee from using its cable system to provide non-cable services, provided that any and all authorizations lawfully necessary to use the City's public rights-of-way to provide such services under applicable law have been obtained. No privilege or power of eminent domain is bestowed by the franchise or the agreement codified in this chapter. This franchise will not take effect unless and until:

A. The grantee executes and files its acceptance of the franchise in the time and the manner prescribed in Section 8.29B.160 of the agreement codified in this chapter; and

B. The grantee meets each and every condition prescribed by Section 8.29B.160, in the time prescribed by that section. (1994 C., § 8.29B.020; Ord. No. 65433, § 2, 2001.)

8.29B.030 Term of franchise.

The franchise is for a term of 15 years, beginning on the franchise effective date and subject to renewal pursuant to applicable law. (1994 C., § 8.29B.030; Ord. No. 65433, § 3, 2001.)

8.29B.040 Franchise conditions and limitations.

A. The franchise is subject to forfeiture or revocation as provided herein and in the cable ordinance.

B. The grantee is subject to other remedies and sanctions as provided herein.

C. The franchise is non-exclusive, as required by Article XIX § 1 of the City's Charter and other applicable law. The City shall comply with the provisions of Section 8.29.110.E of the cable ordinance regarding competitive franchises.

D. The grantee shall comply with Ordinance 65430 (BB 76) and Ordinance 65431 (BB 77), each as adopted on June 22, 2001 and February 8, 2002, respectively, and all other applicable law, subject to Section 8.29B.040.E and Section 8.29B.150 hereof.

E. Grantee, by its acceptance of the franchise, agrees and acknowledges that pursuant to the agreement codified in this chapter and the cable ordinance, it will at all times during the life of its franchise be subject to the lawful exercise of the City's police power, authority lawfully to levy any nondiscriminatory taxes on any activity conducted by grantee, or other lawful authority, whether exercised by ordinance or otherwise. Nothing contained in this franchise shall be deemed to prohibit in any way the right of the City lawfully to levy any nondiscriminatory taxes on any activity conducted by grantee.

F. Grantee agrees that all privileges prescribed by the franchise are subordinate to any prior lawful occupancy of the public streets. The City reserves the right reasonably to designate where grantee's facilities are to be placed within the public ways.

G. Nothing in the agreement codified in this chapter in any way impairs or waives any right or power of the City to acquire the property of the grantee by purchase at a price reflective of its fair market value as an ongoing concern (provided that in no event is the franchise itself to enter as an element into such compensation) or such other price as may be required pursuant to applicable law or ordinances, or through the exercise of the power of eminent domain pursuant to Missouri law.

H. As long as internet access provided over the cable system is deemed to be "cable service" under applicable law, the grantee shall comply with all applicable requirements of the Cable Communications Policy Act of 1984, as amended, 47 U.S.C. § 521 ff., regarding such service. (1994 C., § 8.29B.040; Ord. No. 65433, § 4, 2001.)

8.29B.050 Construction schedule and conditions.

As a condition to the right to exercise its franchise and its rights thereunder, the grantee covenants as follows:

A. The grantee shall extend the system upgrade throughout the franchise area as rapidly as practicable, but, in any event, shall meet the following upgrade schedule.

1. Within 34 months after the franchise effective date, the grantee shall complete the system upgrade for all parts of the City except for the downtown area, and shall complete all the construction required by Section 8.29B.070.D. The grantee shall begin construction of the system upgrade within nine months after the franchise effective date.

2. Within 46 months after the franchise effective date, the grantee shall extend cable service to the downtown area, except that service shall be activated to certain specified areas earlier as specified in Subsection A.3 of this section.

3. Notwithstanding the time period specified in Subsection A.2 of this section, the grantee shall activate cable service to the Washington Avenue and Cupples Station areas of the City at the locations specified in Exhibit 2, which is codified in this chapter, hereto within twelve months after the franchise effective date.

4. Within twelve months after the franchise effective date, the grantee will activate a two-way fiber connection from City Hall, 1200 Market Street, to 4971 Oakland, so that the City can cablecast live meetings of the Board of Aldermen on a government access channel.

B. The grantee shall submit a construction plan which consists of maps of the entire franchise area and clearly delineates the sequence and schedule of the system upgrade to the agency six (6) months after the franchise effective date. The grantee shall file thereafter a map and progress report with the agency at the close of each calendar quarter until the system upgrade is complete, and subsequently at the close of each calendar year, showing the exact areas of the City being served by the cable system and the location and identification of major component parts of the cable system.

C. The grantee shall promptly notify the franchise agency of any delays known or anticipated in the system upgrade. Such notice shall be in writing and shall explain in detail the exact conditions responsible for the delay, the circumstances beyond grantee's control that prevent compliance, and the specific remedies and methods the grantee has undertaken to correct the conditions causing the delay. Failure on the part of the grantee to meet the deadlines set forth in Subsection A of this section, shall be grounds for termination of its franchise pursuant to the terms of the cable ordinance and the agreement codified in this chapter; provided, however, that the Board of Aldermen may extend the time for the commencement and completion of construction and installation and service to subscribers for additional periods in the event the grantee, acting in good faith, experiences delays by reasons of circumstances beyond its control.

D. Following the commencement of the system upgrade, every three months until the construction is completed, the grantee shall meet with the franchise agency to provide an update on the progress of the system upgrade and to integrate the grantee's work as far as practicable with the City's development process and street work, unless the franchise agency waives such meeting. Upon request, the grantee shall provide detailed written reports to the franchise agency on the grantee's progress in construction.

E. To ensure that subscriber service improves prior to the system upgrade, the grantee shall implement the preventive maintenance and remediation plan described in Exhibit 3, which is codified in this chapter. (1994 C., § 8.29B.050; Ord. No. 65433, § 5, 2001.)

8.29B.060 System performance.

As a condition to its right to exercise its franchise and its rights thereunder, the grantee covenants as follows:

A. The grantee will design, install and operate its cable television system so that the cable system is at all times:

1. Capable of continuous twenty-four (24) hour daily operation;

2. Capable of operating over an outdoor temperature range of -20 degrees F to 120 degrees F without catastrophic failure or irreversible performance changes over variation in supply voltage from 105 to 130 volts AC;

3. Capable of meeting all specifications as set forth herein over an outdoor temperature range of 0 degrees F to 100 degrees F over variations in supply voltages from 105 to 130 volts AC;

4. Operated in such a manner as to avoid causing unlawful interference with reception of off-the-air signals by non-subscribers;

5. In full compliance with the technical standards of the Federal Communications Commission.

B. Performance Monitoring.

1. Test procedures used in verification of the performance criteria set forth herein shall comply with all applicable Federal Communications Commission ("FCC") rules and regulations.

2. The results of such tests shall be filed with the franchise agency within thirty days after completion of each test. Each such filing shall specify the procedures used and shall explain in detail any instances of noncompliance, their actual or likely scope or causes, and grantee's recommendation of the best measures to correct the noncompliance.

3. If complaints received or other evidence indicate an unresolved controversy or significant noncompliance with any applicable technical standards, the agency may require additional tests, full or partial repeat tests, or tests involving a specific subscriber's ter-

minal. Such tests will be limited to the particular matter in controversy. The agency will endeavor to arrange its requests for special tests so as to minimize hardship or inconvenience to grantee or to its subscribers.

4. The grantee shall notify the agency in advance of tests for compliance with FCC standards. The agency may have representatives present to observe such tests.

5. The results of annual performance tests in accordance with FCC rules and regulations shall be retained by the grantee for at least five (5) years and shall be available for inspection by the franchise agency during business hours at grantee offices in the City upon twenty-four hours' notice. Copies of such test results shall be promptly provided upon the agency's request.

6. Grantee shall conduct monthly tests of the emergency alert system, in conjunction with the City department designated for such testing.

7. Grantee and the City shall conduct system performance tests pursuant to Exhibit 4, which is codified in this chapter. (1994 C., § 8.29B.060; Ord. No. 65433, § 6, 2001.)

8.29B.070 Facilities and equipment—Access requirements.

As a condition to its right to exercise its franchise and its rights thereunder, the grantee covenants as follows:

A. The grantee is authorized and required to operate its existing cable system, and to provide service substantially equivalent to its existing service, within the City as of the franchise effective date, until such time as the system upgrade is carried out, as provided herein. Such existing cable system that shall have a minimum capacity of fifty-four (54) channels.

B. System Upgrade.

1. The grantee shall upgrade its cable system pursuant to the system upgrade requirements in this Subsection B of this section.

2. The upgraded cable system shall have a minimum bandwidth of 750 MHz on all active and passive components, and be capable of carrying at least 138 video programming services.

3. The upgraded cable system shall utilize hybrid fiber-coaxial ("HFC") architecture that meets the following criteria upon completion of the system upgrade. Further deployment of system technology over the life of the franchise shall be at the grantee's discretion, provided that the resulting capacity, signal quality, and reliability of the cable system shall equal or exceed those of the cable system as described here.

a. At no place in the cable system shall more than 1,500 residences, businesses and other structures be served by any single fiber node. The average node size in the City shall not exceed 1,200.

b. Each node shall be designed and constructed to provide for segmentation of homes passed without requiring substantial additional construction.

c. There will be no more than eight amplifiers within any amplifier cascade in the cable system. The average number of amplifiers in any amplifier cascade in the City shall not exceed six.

4. Within six months after completion of the system upgrade, the grantee shall provide a continuous automated performance test and measurement system to ensure on an ongoing basis the technical and operational integrity of the cable system.

5. The grantee shall use reasonable efforts to design and build the upgraded cable system so that channel capacity may be readily expanded and additional programming delivered to subscribers without compromising signal or service quality.

6. The grantee shall use reasonable efforts to design and build the upgraded cable system so that further upgrades can be accomplished without substantially disturbing the public rights-of-way, through replacement of electronics.

7. The grantee shall take reasonable steps to avoid implementing a system design that would preclude accommodation of multiple internet service providers on any cable modem platform established by the grantee.

8. Grantee shall, throughout the franchise area and for the duration of the franchise, make available on the system continuous information regarding visual and audio programming. Receiving such information shall not require subscription to any service other than basic and cable programming service tiers.

C. Line Extension.

1. Within the City, the grantee must extend its cable system upon request to provide service to any person upon request, without charging such person more than the standard installation rates, unless the grantee demonstrates to the franchise agency's satisfaction that the cost for such extension would require the grantee to incur excessive costs, in which case the franchise agency may at its discretion grant a written waiver

permitting the grantee to recover from the persons who will receive service those amounts that exceed a reasonable cost.

2. For purposes of Subsection C.1 of this section, the length of a cable drop to a multiple dwelling unit shall be calculated to the point in the building where the risers begin and shall not include any part of the riser that must be traversed to reach an individual dwelling unit. It will be rebuttably presumed that any such drops are less than 125 feet in length.

3. Where new dwelling units are developed in the City, including, but not limited to, in-fill housing and high-rise dwelling units in loft districts, the grantee shall extend service to persons in those units within 60 days after service is requested, provided that the owner of the building has granted access.

4. The grantee shall make the same cable service available to businesses or "commercial" subscribers for their private use as to residential subscribers, on the same terms and conditions as apply to such residential subscribers.

D. Public, Educational, and Governmental Access.

1. Municipal and School Services. At no cost to the City or the school involved, the grantee shall provide activated cable services and install one service outlet to each building within the franchise area used for public libraries, City operations, or K-12 schools.

a. In order for such facilities to access PEG channel and other pertinent governmental or educational programming, grantee shall provide free of charge to all outlets in those facilities:

i. Basic and expanded basic service (or the subsequent equivalent thereto); and

ii. Any equipment necessary to receive such services, including converters to de-scramble the government municipal services (training) channel at City offices and facilities.

b. The grantee shall install the initial outlet at no charge in the building location specified. The grantee shall install additional outlets to such facilities upon request, and shall charge only its time and materials costs for installation of such additional outlets. Any outlets and wiring installed by the facility itself rather than the grantee must also meet FCC technical standards. Any outlets and wires also used for internal facility transmission of non-cable services may not cause disruption to the cable system and must be used only for lawful purposes. The grantee may decline service to outlets not meeting these standards.

c. With respect to any newly deployed eligible municipal and educational facilities not receiving service as of the franchise effective date, the agency will notify the grantee with pertinent installation information and addresses for facilities in which new installations need to be made. Whenever possible, the agency will also supply routing drawings, outlet locations, preferred installation schedules, and contact names. However, the agency's failure to provide such information does not abrogate the grantee's responsibility to meet the deadlines set herein, nor must an agency inspector be on site for an installation to occur.

i. Such new installations within an area currently served by the cable system shall be made within thirty (30) days of written notification by the agency, or later if the facility so designates.

ii. If the eligible facility is in an area not currently served by the cable system, internal wiring for requested outlet(s) shall generally be made concurrent with plant deployment so that service can be initiated promptly upon activation of plant. In no event shall activation of service be delayed beyond six months from the initial request or within thirty days of plant construction and activation, whichever is later.

The grantee may seek an agency temporary waiver of the deadline requirements of this Subsection D.1.c of this section due to technical or budgetary limitations on the part of the grantee or facility.

d. The grantee shall deliver all cable signals to each outlet at a signal strength sufficient to meet FCC technical standards, and provide or reinstall wiring adequate to deliver such signal strength at locations which have more than one outlet, and adequate drop or feeder cable to allow for installation and service at additional outlets. The grantee shall work with the agency during pre-construction periods to determine which sites need upgraded drops and develop a timeframe for deployment of the upgraded drops. Requisite signal strength for multiple outlet facilities shall generally be 15dBmV or better, measured at the demarcation point of the facility.

e. The grantee is not required by this section to provide free outlets, equipment or services to City-owned facilities leased to third parties for commercial

purposes in which the grantee would normally enter into commercial service contract with the facility occupant.

f. The grantee has established a voluntary initiative to provide cable internet service to all public libraries, K-12 public and state-accredited parochial and private schools which are passed by the cable system at no cost to the City or institutions. The grantee intends to provide each of these schools and libraries with one outlet of unlimited internet access, including the necessary modem, once the cable system is upgraded to support such services. Provision of such services shall not be deemed a requirement of this franchise for rate regulation purposes.

g. For purposes of Section 8.29B.090.D.1 a building used for City operations is a City-owned or leased building or facility which is regularly occupied by City employees in the performance of their duties, but in any event shall also include all public safety dispatch centers, police stations and fire stations regardless of the extent to which they are so occupied.

2. Access Channels. The grantee shall make available to all subscribers on the cable system access channels as follows:

a. *Public Access Channels.* At least one specially designated, noncommercial public access channel and one specially designated, noncommercial community access channel.

b. *Local Government Access Channels.* At least two specially designated channels available for local government use under the direction of the franchise agency. In addition, the three channels dedicated to two-way digital communication pursuant to the prior franchises shall be maintained in service pursuant to the requirements of the prior franchises until all applications using those channels have been moved to an institutional network.

c. *Elementary and Secondary Education Access Channel.* At least one specifically designated channel for use by local educational authorities at the elementary and secondary levels.

d. *University and College Access Channel.* At least one specially designated channel for use by the local (St. Louis or St. Louis County) universities and colleges, whether public or private institutions, or by an educational management entity or consortium generally representing these institutions.

e. *Digital Capacity.* If the grantee implements technology that allows any of the above access channels to be delivered using less than 6 MHz of bandwidth, then the grantee shall make available additional capacity for the same purposes as are applicable to such access channels pursuant to the agreement codified in this chapter, up to a maximum total of 6 MHz of bandwidth for each such access channel, in the event that the capacity otherwise available is fully utilized for PEG access purposes.

i. For purposes of this Subsection D.2.e of this section, a video channel (or portion of such channel used to transmit video programming) shall be deemed "fully utilized" if cablecasts of non-duplicated, locally-produced programming exceed seventy-five percent (75%) (for public access) or fifty percent (50%) (for educational and governmental access) of the total time between the hours of 9:00 a.m. and 12:00 midnight for at least thirty days in a period of forty-five consecutive days.

ii. Such additional capacity shall be provided by the grantee within ninety (90) days after a written request from the manager of such access channel specifying the intended uses of such capacity.

3. PEG Access and Remote Origination Sites. Signal input points and equipment shall be available at sites specified in Exhibit 5, which is attached to the ordinance codified in this chapter for live programming origination on access channels.

4. Digital Conversion. If the grantee makes changes to the cable system that require improvements to access facilities and equipment (such as conversion to an all-digital format), the grantee shall cover any necessary modification or replacement costs so that PEG facilities and equipment may be used as intended with respect to the PEG channels specified herein.

5. Public Access Channel Manager.

a. Public and community access channels shall initially be managed by Double Helix Corporation (the "access channel manager").

b. Public and community access facilities shall be open and scheduled by the access channel manager in a manner that ensures availability of equipment and facilities during day, evening, and weekend hours.

c. Training, workshops and internships in video production shall be offered to all City residents on a first-come, first-served basis, at minimal or no cost.

d. Fees and deposits for use of such facilities or equipment shall be reasonable.

e. If the City finds unsatisfactory the performance of an access channel manager, then the City

may, in its sole discretion, designate one or more non-profit, tax-exempt access channel manager(s) meeting the requirements of Subsection D.5.f of this section and reassign any facilities or equipment provided by the grantee to the new access channel manager(s).

f. An access channel manager shall have demonstrated experience in facilitating community programming.

6. Regulation of Public Access Channels. The City may, from time to time, by ordinance, regulate use of public access channels.

E. Emergency Alert System.

1. Grantee shall design and construct the system to provide for an interrupt of all video channels, and an audio override of all audio channels whereby a designee of the City may introduce an audio message on all of the system's channels simultaneously, during emergencies or disasters. An emergency power source to preserve this function shall also be provided by the grantee at the headend of its system. The emergency alert system shall comply with all applicable federal requirements.

2. The emergency alert system shall provide for activation from the office of the Mayor, police headquarters, fire headquarters, or the City Emergency Management Agency, via secure coded access. Methods and access codes for activating the emergency alert system shall be filed and kept current with the City Emergency Management Agency director, the Mayor, the Chief of Police, and the Chief of the Fire Department, and also for informational purposes with the franchise agency.

F. The City shall have the right, throughout the term of the franchise, to install and maintain free of charge upon the poles and conduits of the grantee any fixtures necessary for communications use by the City, on the conditions that (a) such fixtures do not interfere with the cable system operations of the grantee; and (b) the City will not use the grantee's equipment for commercial purposes or to compete with the cable system, or allow others to use such equipment for commercial purposes or to compete with the cable system without acceptable reasonable compensation to the grantee; and (c) to the extent permitted by law, the City shall indemnify the grantee from damages resulting from any such use. (1994 C., § 8.29B.070; Ord. No. 65433, § 7, 2001.)

8.29B.080 Interconnection.

A. The grantee will interconnect channels with the grantee's other systems in St. Louis County for the purpose of allowing the two-way sharing of PEG access programming upon the directive of the franchise agency. Interconnection of systems may be done by direct cable connection, microwave link, satellite, or other appropriate method that allows PEG access programming to be shared and transferred between City and county systems.

B. The grantee may be granted a reasonable extension of time to make the interconnection provided for in the preceding subsection, or the franchise agency may rescind any order to interconnect upon request by the grantee.

C. The grantee shall ensure the adequate signal quality of any interconnection. (1994 C., § 8.29B.080; Ord. No. 65433, § 8, 2001.)

8.29B.090 Support of minorities and women.

Recognizing the economic benefits it is deriving from its use of the public rights-of-way and the racial, ethnic and socio-economic diversity of the population of the City:

A. The grantee agrees that it shall, on an annual basis:

1. Award technical, professional services and construction contracts with a dollar value equal to at least 40% of the total dollar value of all such contracts to minority business enterprises (MBE) as hereinafter defined and 10% to women business enterprises (WBE) as hereinafter defined.

2. Purchase materials, supplies, and other goods or services of a dollar value equal to at least 30% of the total value of all such purchases from MBEs and 5% of all such purchases from WBEs.

For purposes of this section, enterprises shall be eligible for MBE or WBE status if (i) they appear on eligibility lists maintained by a City department, division, or office with responsibility for establishing such eligibility, or (ii) the enterprise demonstrates to grantee's and agency's satisfaction that the enterprise is an MBE or WBE for purposes of Mayor's Executive Order number 28 with respect to MBE and WBE participation in City contracts. The grantee agrees that expenditure categories under this section shall generally be determined as provided in Exhibit 6, which is attached to the agreement codified in this chapter, and may be modified by mutual agreement of grantee and the franchise agency during the term of the agreement codified in this chapter to address new expenditure categories or business situations of the grantee.

B. The grantee agrees that, on an annual basis, hiring practices for and composition of its employed work force shall be at least:

1. Technical and professional service employees: 40% minority groups, 10% women.

2. Construction employees: 45% minority groups, 5% women.

3. Management-level employees: 40% minority groups, 30% women.

C. Grantee agrees that any advertised job openings shall be posted with the Missouri Division of Employment Security, and advertised in publications aimed at minority and women audiences.

D. The City and grantee agree that to respond to industry and technology advances grantee's internal training will need to evolve and develop over the life of the franchise. The grantee's workforce shall receive significant annual training in entry-level and on-going job skills development leading to promotional opportunities for qualified members of its workforce, including minorities and women, as follows:

1. *Customer Service Representative Programs.* Shall take place no less than two times per year for all employees in the category, and encompass specific training in customer satisfaction standards, telephone relations, technical trouble-shooting over the phone, complaint resolution, sales techniques which meet consumer protection and privacy obligations, and proper marketing procedures.

2. *Management/Supervisor Programs.* Shall take place no less than two times per year and be structured as on-the-job training and cross-training which provides opportunities for job skill development. Such training courses shall include, but not be limited to: legal seminars, accounting and audit procedures, employee relations and supervisory practices, implementation of Equal Employment Opportunity (EEO) policies, customer relations, and safety practices.

3. *Technical Programs.* Will be conducted for both installation and repair personnel, and should include or be based on the course work developed by the National Cable Television Institute, including testing and certification of technical personnel. On-the-job training in the field will include quality control and standards for installation to meet local electrical codes.

The grantee's internal employee training specified in Subsections D.1 and 2 of this section shall generally be conducted in grantee's facilities in the City of St. Louis, currently 5240 Oakland Avenue.

The grantee agrees that its local origination video programming and other operations will provide opportunities for internships open to qualified students and others as appropriate.

E. To ensure compliance with this section, grantee shall contract with a non-governmental entity (hereinafter referred to as the "monitor") for assistance in establishing and implementing a plan for compliance with this section. Such contract shall provide for consultation between grantee and monitor regarding recruiting and hiring of employees, awarding of contracts, and independent verification of all quarterly reports submitted to the franchise agency by the grantee.

F. Within 60 days of the end of each quarter, the monitor, on behalf of the grantee, shall file quarterly reports documenting compliance with this section. The format, content and methodology of such reports shall be subject to agency approval. The quarterly reports shall be annotated to explain unusual conditions or circumstances reflected in the figures, and be accompanied by a verification statement of the monitor. Such reports shall address:

1. Information by category regarding contracts and purchases with MBEs and WBEs.

2. Upon request of the City, subject to appropriate measures as to confidentiality, total dollars expended in each category and total dollars expended with MBEs and WBEs.

3. Percentage of employees within the specified categories of Subsection B.1 through 3 of this section, indicating percentages by both gender and racial composition.

4. Training information, including:

a. Descriptive summary of the title and content of internal customer service representative and supervisor employee training programs during the previous quarter, also specifying the classifications of employees receiving such training, reasons why any employee in those classifications did not receive such training, and aggregate information as to gender and racial composition of training participants.

b. Descriptive summary of the title and content of internal or third-party courses of training for employees in the technical category during the previous quarter, also specifying the classifications of employees receiving such training, reasons why any employee in those classifications did not receive such training, and aggregate information as to gender and racial composition of training participants.

c. Descriptive summary of title and content of all training offered to management personnel and potential applicants for management promotions, also specifying criteria for selection of training participants, and including job titles and general classification of supervisory or management employees receiving such training, reasons why any management employee or applicant did not receive such training, and aggregate information as to gender and racial composition of such training participants.

5. Description of, and information on participation by gender and racial composition, for non-employee internships offered or funded by the grantee during the previous quarter, as applicable.

G. The grantee agrees that based upon such reports, the franchise agency shall make determinations of compliance for contract awards, employment and training efforts throughout the life of the franchise, and that grantee is obligated to address any written agency notice of under-compliance or noncompliance by filing a specific remedial plan to achieve full compliance within the next quarter in regards to contract awards, employment of minorities and women, and within the next two quarters in regards to training. Such remedial plans shall include written policies regarding hiring and training and submission of interim reports during the remedial period as appropriate to the situation, and shall comply with any agency requirements for report methodologies to verify compliance.

H. Copies of all reports and filings filed with the FCC in regard to FCC regulations relating to employment practices shall be submitted to the franchise agency on an annual basis. (1994 C., § 8.29B.090; Ord. No. 65433, § 10, 2001.)

8.29B.100 Payments to the City.

The grantee shall pay franchise fees to the City pursuant to Section 8.29.070 of the cable ordinance. (1994 C., § 8.29B.100; Ord. No. 65433, § 10, 2001.)

8.29B.110 Performance bond, letter of credit, and insurance.

A. With its acceptance of the franchise, the grantee shall file with the franchise agency an executed bond in a form and with a surety acceptable to the City as specified in the agreement codified in this chapter to indemnify the City against any loss or damage it may suffer in the event the grantee fails to comply with one or more of the provisions of its franchise, in the following amount: $1 million. Upon written application by the grantee, the franchise agency shall permit the amount of the bond to be reduced in an amount determined by the agency in writing in the agency's sole discretion to reflect the percentage of completion of the grantee's system upgrade. In no event shall the amount of the bond be reduced below $500,000.00. Said bond shall be obtained at the sole expense of the grantee and remain in effect for the full term of the franchise or any extension (as distinct from renewal) thereof plus an additional six months thereafter (unless a replacement bond covering that period is agreed to by the City). The grantee and its surety shall be jointly and severally liable under the terms of the bond for any damages or loss suffered by the City as a result of the grantee's failure to comply with one or more of the provisions of its franchise, including a reasonable allowance for the City's lawful attorneys' fees and costs, up to the full amount of the bond.

B. Neither the filing of a performance bond with the agency, nor any insurance coverage, nor the receipt of any damages recovered by the City thereunder, shall be construed to excuse faithful performance by the grantee or limit the liability of the grantee under the terms of its franchise for damages, either to the full amount of the bond or otherwise.

C. The grantee shall file and maintain with the franchise agency at all times during the term of the franchise an irrevocable direct pay letter of credit from a financial institution licensed to do business in Missouri in the amount of $50,000.00 to ensure the grantee's faithful performance of its obligations under the franchise. The form and content of the letter of credit shall be approved by the franchise agency and the Comptroller.

1. The letter of credit shall be released only upon expiration of the franchise or upon the replacement of the letter of credit prior to its expiration.

D. The following procedures shall apply to drawing on the performance bond and the letter of credit required under this section, either of which is referred to below as the "security fund."

1. If the grantee fails to make timely payment of any amount due under the agreement codified in this chapter or applicable law or ordinances, after reasonable notice by the City and a reasonable opportunity for the grantee to make the required payment and to be heard regarding any issues concerning such payment, the franchise agency may withdraw the amount thereof,

with interest and any penalties, from the security fund pursuant to the procedures specified in this subsection.

2. Within three (3) days of a withdrawal from the security fund, the franchise agency shall mail, by certified mail, return receipt requested, written notification of the amount, date, and purpose of such withdrawal to the grantee.

3. If at the time of a withdrawal from the security fund by the franchise agency, the amounts available are insufficient to provide the total payment towards which the withdrawal is directed, the balance of such payment shall continue as the obligation of the grantee to the City until it is paid.

4. No later than twenty (20) days after mailing of notification to the grantee by certified mail, return receipt requested, of a withdrawal under the security fund, the grantee shall restore the security fund to the total amount specified herein.

5. Upon termination of the franchise, the balance then remaining in the security fund shall be returned to the grantee within six months of such termination, provided that there is then no outstanding default on the part of the grantee.

6. At no time shall the City seek a withdrawal from both the performance bond and the letter of credit for recovery of the same obligation, unless withdrawal from both becomes necessary to meet the amount of such obligation.

E. The grantee will comply with all indemnity and insurance requirements in the cable ordinance. (1994 C., § 8.29B.110; Ord. No. 65433, § 11, 2001.)

8.29B.120 Revocation and default provisions and remedies.

A. In addition to all other rights and powers reserved by the City, the City reserves the right to terminate and cancel a grantee's franchise and all rights and privileges of the grantee thereunder pursuant to the termination provisions of the cable ordinance.

B. Upon violation of the agreement codified in this chapter or applicable law or ordinances by the grantee, the City may proceed to protect and enforce its rights by mandamus or other suit, action or proceeding at law or in equity, including an action for specific performance of any provision of the agreement codified in this chapter and suit for the appointment of a receiver. Such remedies shall be cumulative, except that the City may not obtain both actual and liquidated damages for the same violation.

C. The following events are hereby defined as and declared to be and shall constitute violations of the agreement codified in this chapter so as to trigger the City's enforcement processes and the grantee's due process rights ("violations"):

1. Failure by the grantee to make timely payment of any franchise fee payment as provided herein which is not remedied by making such payment, together with interest and penalties as provided herein, within ten days after a written notice from the City to the grantee identifying such failure;

2. Failure by the grantee to provide, file or maintain, as and when required by the agreement codified in this chapter, any bond, policy of insurance, certificate of insurance or letter of credit, which is not remedied within five business days after a written notice from the City to the grantee identifying such failure;

3. Failure by the grantee to comply with any other agreement, obligation, duty, covenant or provision of the agreement codified in this chapter; provided that, if such failure is curable, the City shall notify the grantee of the failure in a written notice, and if such failure shall continue beyond a reasonable cure period as stated in such notice, the failure shall be a violation; provided that, if such curable failure is such that it cannot be cured within such period, it shall not constitute a violation provided (i) that the grantee has commenced such cure within such period, and (ii) the grantee diligently prosecutes such cure to completion;

4. Failure by the grantee to comply with any agreement, obligation, duty, covenant or provision of the agreement codified in this chapter, which failure is part of a pattern of repeated failure by the grantee after written notice to comply with such agreement, obligation, duty, covenant or provision.

D. Grantee acknowledges that a violation of the agreement codified in this chapter is also a violation of the cable ordinance.

E. Because the grantee's failure to comply with provisions of the franchise and this franchise agreement will result in injury to the City, and because it will be difficult with respect to certain provisions to estimate the extent of such injury, the City and the grantee agree to the following liquidated damages for the following violations of the franchise and of the agreement codified in this chapter, which represent both parties' best estimate of the damages resulting from the specified violation. The parties agree that the liquidated

damage amounts are in calendar 2001 dollars and shall be increased each year by the increase in the U.S. City Average of the Consumer Price Index.

1. For failure to comply with the requirements hereunder with respect to the approval of franchise transfers: $1,000.00/day for each violation for each day the violation continues;

2. For failure to comply with requirements for the provision of public, educational, and governmental capacity on the cable system: $500.00/day for each violation for each day the violation continues;

3. For failure to complete the system upgrade by the deadlines set forth in the franchise agreement: $1,000.00/day for each violation for each day the violation continues.

F. To initiate the enforcement process for liquidated damages, the City shall pursue the same process described in the cable ordinance for imposition of fines, except that if it pursues relief in court, the City may pursue appropriate proceedings in any court of competent jurisdiction rather than in City Court.

G. If a grantee is fined for a violation of the cable ordinance, such grantee shall not be subject to liquidated damages pursuant to the agreement codified in this chapter for the same violation or act. If a grantee is subject to liquidated damages pursuant to the agreement codified in this chapter for a violation, it shall not be fined for a violation of the cable ordinance for the same violation or act.

H. No delay or omission by the City to exercise any right or power occurring upon any default or violation shall impair any such right or power or shall be construed to be a waiver of any such default or violation or acquiescence therein, and every such right and power may be exercised from time to time and as often as may be deemed expedient.

I. No waiver of any default or event of default hereunder by the City shall extend to or affect any subsequent default or event of default or impair any rights or remedies consequent thereon. (1994 C., § 8.29B.120; Ord. No. 65433, § 12, 2001.)

8.29B.130 Reports and records.

A. The franchise agency shall have the right to inspect and, subject to Subsection B of this section, copy at any time during normal business hours at the City Cable System office or at such location as the franchise agency may reasonably designate, all records that the franchise agency deems reasonably appropriate in order to monitor compliance with the terms of the cable ordinance, the agreement codified in this chapter, or applicable law. This includes not only the records of the grantee, but any records the franchise agency reasonably deems relevant but which may be held by an affiliate, a cable operator of the cable system, or any contractor, subcontractor or any person holding any form of management contract for the cable system. The grantee is responsible for collecting the information and producing it at the location specified above, and by accepting its franchise it affirms that it can and will do so.

B. Access to inspect the grantee's records pursuant to Subsection A of this section shall not be denied by the grantee on the basis that said records contain confidential personnel or trade secret information. However, copying such records shall be permitted only to the extent the City can and agrees to lawfully protect such information from further disclosure, or to the extent the City is otherwise specifically authorized by applicable law to obtain copies of such records or information. All confidential personnel or trade secret information received by the franchise agency shall remain confidential and protected, but only to the extent permitted by RSMo Ch. 610, as amended, and other applicable state and federal law.

C. The grantee shall maintain its financial records so as to allow analysis and review of its system operations in the franchise area.

D. Copies of all petitions, applications, communications and reports submitted by the grantee to the Federal Communications Commission, Securities and Exchange Commission, or any other federal or state regulatory commission or agency having jurisdiction, in respect to any matters regarding cable system operations under the franchise, shall be provided to the agency no later than the filing date for such petitions, applications, communications and reports. Copies of all communications of any kind received by the grantee from such commissions or agencies regarding cable system operations under the franchise shall be filed with the agency as soon as reasonably possible upon receipt. Confidential personnel, trade secret, or otherwise nonpublic information in such communications may be redacted and treated consistent with the procedures set forth in Section 8.29.060.B.3.a and b of the cable ordinance.

E. Annual Report. Unless this requirement is waived in whole or in part by the franchise agency, no

later than 90 days after the end of its fiscal year, the grantee shall submit a written report to the franchise agency, in a form directed by the franchise agency, which shall include:

1. A summary of complaints, identifying both the number and nature of the complaints received and an explanation of their dispositions, as such records are kept by the grantee, together with copies of any written complaints received. Where complaints involve recurrent cable system problems, the nature of each problem and the corrective measures taken shall be identified;

2. A report showing the number of service calls received by type during each quarter, and the percentage of each type of service call as a percentage of the subscriber base;

3. A report showing the number of outages (as that term is defined in the customer service ordinance) for each quarter, and identifying separately each planned outage, the time it occurred, its duration, and the estimated area and number of subscribers affected; each unplanned outage, the time it occurred, its estimated duration and the estimated area and the number of subscribers affected; and the total hours of outages as a percentage of total hours of cable system operation;

4. A report showing the number of service interruptions (as that term is defined in the customer service ordinance) for each quarter, and identifying separately each service interruption, the time it occurred, its estimated duration and the estimated area and the number of subscribers affected; and the total hours of service interruptions as a percentage of total hours of cable system operation;

5. An annual financial report for the previous fiscal year, certified by the grantee's chief financial officer or an independent certified public accountant, including an income statement showing all subscriber revenue from each category of service, and all revenue from every source of non-subscriber revenue, derived from the operation of the cable system;

6. An organizational chart showing all corporations or partnerships with more than a five (5) percent ownership interest in the grantee, and the nature of that ownership interest (limited partner, general partner, preferred shareholder, etc.); and showing the same information for each corporation or partnership that holds such an interest in the corporations or partnerships so identified and so on until the ultimate corporate and partnership interests are identified;

7. A summary of the results of, and/or, at the grantee's option, copies of the system's technical tests and measurements performed during the past year;

8. A detailed copy of updated maps depicting the location of all cable plant, showing areas served and locations of all trunk lines and feeder lines in the City, and including changes in all such items for the period covered by the report;

9. A full schedule of all subscriber and other user rates, fees and charges;

10. The grantee's policies regarding subscriber privacy;

11. Such other information the franchise agency deems reasonably appropriate in order to monitor compliance with the terms of the cable ordinance, the agreement codified in this chapter, or applicable law as the franchise agency may direct.

F. Special Reports. Unless this requirement is waived in whole or in part by the franchise agency, the grantee shall deliver the following special reports to the franchise agency:

1. The grantee must submit a copy and full explanation of any notice of deficiency, forfeiture, or other document issued by any state or federal agency instituting any investigation or civil or criminal proceeding regarding the cable system, the grantee, or any affiliate of the grantee, to the extent the same may affect or bear on operations in the City. By way of illustration and not limitation, a notice that an affiliate that has a management contract for the cable system was charged with improper accounting practices regarding its management contracts would be deemed to affect or bear on operations in the City. This material shall be submitted in accordance with the deadlines specified in Subsection D of this section.

2. The grantee must submit a copy and brief explanation of any request for protection under bankruptcy laws, or any judgment related to a declaration of bankruptcy by the grantee or by any partnership or corporation that owns or controls the grantee directly or indirectly.

G. Additional Reports. Upon reasonable notice, the grantee shall prepare and furnish to the franchise agency such additional reports as the franchise agency deems reasonably appropriate in order to determine compliance with the terms of the cable ordinance, the agreement codified in this chapter, or applicable law.

H. In reports or records submitted to the City pursuant to this section, confidential personnel or trade

secret information may be redacted pursuant to Subsection B of this section to the extent permitted by applicable law.

I. Records Required.

1. The grantee shall at all times maintain:

a. Records of (i) all written complaints received for the life of the franchise, and (ii) all oral complaints received to the extent and in the form that such complaints are recorded by the grantee in the ordinary course of business, for five years. The term "complaints" as used herein refers to complaints about any aspect of the cable system or the grantee's operations, including, without limitation, complaints about employee courtesy. Complaints recorded may not be limited to complaints requiring an employee service call.

b. A full and complete set of plans, records, and "as built" (as that term is normally used in the cable industry) maps showing the location of cable system equipment installed or in use in the City, exclusive of subscriber service drops.

c. A comprehensive record of all utilization of contractors, subcontractors, vendors, and suppliers necessary to demonstrate compliance with grantee's obligations under Section 8.29B.090 of the agreement codified in this chapter.

d. A public file showing its timetable for completion of the system upgrade.

J. Voluminous Materials. If any books, records, maps or plans, or other requested documents are too voluminous, or for security reasons cannot be copied and moved, then the grantee may request that the inspection take place at some other location, provided that (1) the grantee must make necessary arrangements for copying documents selected by the franchise agency after review; and (2) the grantee must pay all travel and additional copying expenses incurred by the franchise agency in inspecting those documents or having those documents inspected by its designee.

K. Retention of Records—Relation to Privacy Rights. The grantee shall take all reasonable steps that may be required to ensure that it is able to provide the franchise agency all information which must be provided or may be requested under the cable ordinance, the agreement codified in this chapter, or other applicable law, including, without limitation, reasonable steps enabling subscribers to exercise their options regarding release of their information. Nothing in this section (8.29B.130) shall be read to require the grantee to violate 47 U.S.C. § 551 or other applicable privacy laws. Records shall be kept for at least five (5) years.

L. Waiver of Reporting Requirements. The franchise agency may, at its discretion, waive in writing any particular report or record-keeping requirement of this section. (1994 C., § 8.29B.130; Ord. No. 65433, § 13, 2001.)

8.29B.140 City's right of intervention.

The grantee agrees not to oppose intervention by the City in any suit or proceeding to which such grantee is a party relating to the franchise or to the City. (1994 C., § 8.29B.140; Ord. No. 65433, § 14, 2001.)

8.29B.150 Amendment of franchise.

Nothing herein, however, shall affect the City's or the grantee's rights with respect to renewal of the grantee's franchise. 8.29C.010 Definitions.

For the purposes of this chapter, the following terms, phrases, and words shall have the meaning given herein, unless the context clearly indicates that another meaning is intended. When not inconsistent with the context, words used in the present tense include the future, words in the plural number include the singular number, and words in the singular number include the plural number. The word "shall" is always mandatory and not merely directory.

A. "Broadband" means having the capability of supporting, in both directions, a speed in excess of 200 kilobits per second in the last mile.

B. "Broadband internet user" means any residential customer who lawfully obtains broadband internet access through facilities in the City's public rights-of-way, or any nonresidential customer who lawfully obtains a type of broadband internet access that is generally offered by the internet access operator to residential customers.

C. "Content" means any information, including, without limitation, HTML information, audio, video, and other data.

D. "Internet access operator" means any entity owning facilities in the City's public rights-of-way whose facilities are used by any person to provide broadband internet access to persons in the City.

E. "Person" means any individual, firm, corporation, association, or other legally recognized entity. (1994 C., § 8.29C.010; Ord. No. 65434, § 1, 2001.)

8.29C.020 Access to content generally.

No internet access operator shall impair, limit, or condition any broadband internet user's ability to lawfully access any and all lawful content generally available to the public on the internet. (1994 C., § 8.29C.020; Ord. No. 65434, § 2, 2001.)

8.29C.030 Access to specific types of content.

A. No internet access operator shall impair, limit, or condition any broadband internet user's ability to lawfully access streaming video or audio.

B. Internet access operators shall permit broadband internet users to access the public internet without being required to view proprietary content provided by the internet access operator, or any affiliate.

C. No internet access operator shall require a broadband internet user to use any particular first screen or category of first screen upon accessing the internet. Rather, an internet access operator shall allow a broadband internet user to select any first screen of the user's choice, including a first screen of any internet service provider.

D. Internet access operators shall comply with all applicable law and regulation regarding accessibility to users with disabilities. Except as otherwise provided under applicable law or regulation, internet access operators shall not adopt a policy of prohibiting the use of specialized end-user interfaces (such as interfaces designed for use by the disabled) by broadband internet users, and shall take reasonable steps to ensure that their systems as designed and installed do not impede any use of such interfaces that are readily available as of the time of such design and installation.

E. Notwithstanding the foregoing subsections of this section, the following shall not constitute violations of this section:

1. Reasonable technical restrictions on the bandwidth or data transmission rate available to any broadband internet user needed to preserve service quality and speed of broadband internet access.

2. Offering of different internet access products to any and all broadband internet users at different prices in different packages or with different capabilities.

3. Requirement that broadband internet users pay their bills to the internet access operator as a condition of continued service.

4. Otherwise lawful arrangements between the internet access operator and internet service providers. (1994 C., § 8.29C.030; Ord. No. 65434, § 3, 2001.)

8.29C.040 Support for internet protocols.

An internet access operator shall maintain currency with generally accepted standards for interoperability with internet protocol applications. (1994 C., § 8.29C.040; Ord. No. 65434, § 4, 2001.)

8.29C.050 Nondiscriminatory offering of internet services.

Once residential broadband internet services are offered by an internet access operator in the City, such services shall be made available to residences generally on a nondiscriminatory basis throughout the City, without regard to race, gender, religion or economic status; provided, however, that an internet access operator may initially offer such service over a limited area as part of a gradual or phased construction or upgrade, so long as such initial offering is implemented on a nondiscriminatory basis without regard to race, gender, religion or economic status. (1994 C., § 8.29C.050; Ord. No. 65434, § 5, 2001.)

8.29C.060 Compliance with applicable law.

In addition to the obligations otherwise set forth in this chapter, an internet access operator shall comply with all lawful federal and state requirements with respect to access to the internet access operator's facilities for internet service providers. (1994 C., § 8.29C.060; Ord. No. 65434, § 6, 2001.)

8.29C.070 Rules of construction.

A. No provision of this chapter shall be construed or applied so as to prohibit, condition or restrict the use by any cable operator of any type of subscriber equipment or any transmission technology as those terms are used in 47 U.S.C. § 544(e).

B. No provision of this chapter shall be construed or applied so as to regulate the content provided to any broadband internet user.

C. No provision of this chapter shall be construed or applied so as to require any internet access operator to dedicate any specific bandwidth to internet access for the purpose of complying with this chapter.

D. No provision of this chapter shall be construed or applied so as to authorize rate-of-return regulation or the regulation of an internet access operator as a utility or common carrier to the extent such regulation would otherwise be prohibited by applicable law.

E. No provision of this chapter shall be construed or applied so as to regulate the rates an internet access operator may charge its broadband internet users for any service.

F. No provision of this chapter shall be construed or applied so as to prohibit otherwise lawful arrangements between the internet access operator and internet service providers.

G. No provision of this chapter shall be construed or applied to prevent an internet access operator from requiring a broadband internet user to use a particular screen or specific software or software tools, which may incorporate proprietary names or logos, in order to facilitate selection among multiple internet service providers. (1994 C., § 8.29C.070; Ord. No. 65434, § 7, 2001.)

8.29C.080 Modification by state or federal law.

A. If any provision of this chapter is held by a court of competent jurisdiction to be invalid or in conflict with any applicable City, state, or federal law, then this chapter shall be modified or suspended in such a manner as to implement the intent of this chapter to the fullest extent possible consistent with the requirements of any such law, rule or regulation. If this chapter cannot be modified or suspended in such a manner as to implement such intent, then this chapter shall be deemed null and void.

B. Notwithstanding the foregoing, the City recognizes that the subject matter of this chapter is currently the subject of proceedings before the Federal Communications Commission (FCC), and also recognizes that any lawful determinations by the FCC regarding the subject matter of this chapter that have preemptive effect pursuant to applicable law shall control. (1994 C., § 8.29C.080; Ord. No. 65434, § 8, 2001.)

Gross receipts from sales were subject to Kansas City business license tax even though purchaser was outside city boundaries and the goods never came into the city, where business had an office in the city and where incidents relating to the sales occurred in the city. *Kansas City v. 8.70.035 Surface parking lots.

A. *Surface parking lot requirements.* Documentation must be submitted with the permit application or permit renewal describing the physical improvements, operating plans, and security measures that will be implemented on the premises to protect patrons from harm, to protect vehicles and property inside vehicles on the parking station from theft, vandalism or other damage, and to protect the public from incidents that threaten public health, safety and welfare the Building Commissioner may waive one (1) or more of the surface parking lot requirements described in this section if he concludes that the parking lot owner can show that the requirements impose a hardship due to an inability to make reasonable use of the property for parking, or impose a hardship on adjacent properties, or that they eliminate access to a public right-of-way. Hardship should be unique to the affected parking lot, not just due to ordinary inconvenience, difficulty, or maximizing the number of parking spaces, and should not generally apply to other properties.
All permit applications for surface parking lots must include a site plan or other documentation to demonstrate compliance with the following requirements:

1. A perimeter fence extending along abutting public streets/alleys between every vehicle entry/exit and

pedestrian ingress/egress opening. Vehicle entry/exit must be no wider than twenty (20) feet each. Pedestrian ingress/egress must be no wider than six (6) feet. Perimeter fences must have a height of at least four (4) feet, open at least eighty (80) percent (i.e., no more than twenty (20) percent opaque), and constructed of aluminum, steel or other decorative metal. Other permitted options shall include a continuous masonry barrier, or bollards spaced no more than twelve (12) inches apart, or landscaped mounds. Permitted options must be at least three (3) feet in height and capable of deterring trespassing vehicles and pedestrians.

For any new surface parking lot constructed after the effective date of this chapter, or any existing surface parking lot that currently has no perimeter fence in compliance with this chapter, no chain link fencing is permitted along any public street or alley except for temporary lots adjacent to an active construction project. No additional barrier higher than six inches is allowed along or adjacent to a perimeter fence.

2. No surface parking lot may operate outside of hours of operation approved by the Building Commissioner.

3. Landscaping shall be free of weeds, trash and debris and be well maintained at all times.

4. Paving and striping must be in good condition.

5. Security lighting must be present and functioning during all non-daylight hours. A perimeter fence extending along abutting public streets/alleys between every vehicle entry/exit and pedestrian ingress/egress opening.

6. Surfaces shall be free of potholes, large cracks, and standing water.

7. Signage must have the address of the surface parking lot, the hours of operation for the surface parking lot, the phone number of its management company and/or owner, and the amount to be charged for parking. A local contact must be provided, in addition to the address and phone number of any out-of-town owner/operator.

8. The property owner/lessee must have an occupancy permit and a business license. The occupancy permit will list the approved hours of operation.

9. All lots must be cleaned of trash, glass, and other debris before opening the following day. An owner, operator, or lessee applying for a temporary construction surface parking lot permit is not required, for the purposes of a temporary permit, to meet requirements 2, 3, 4, 5, 6, 7, 8, 9, and 10.

10. The property owner/lessee must provide a certificate of insurance showing at least one million dollars ($1,000,000.00) of commercial general liability insurance (updated copy sent to the Building Division annually).

11. Security video surveillance system capable of producing retrievable images and videos, and positioned to view the surface parking lot's points of vehicular entrance, exit, and able to view all parked vehicles.

12. Entry and exit by vehicles shall only be possible: a) when an attendant on duty allows entry or exit, or b) by means of a security gate that is part of an automated payment system, or c) mobile phone payment system.

B. *Permit required for surface parking lot.*

1. As of the effective date of the ordinance from which this chapter derives, it shall be unlawful for any individual, firm, association, corporation, partnership, or organization:

(a) To operate or maintain a surface parking lot unless the owner, operator, or lessee thereof has applied for and obtained a surface parking lot permit from the City; or

(b) To operate such business after such permit has expired or has been revoked or suspended by the City.

2. A surface parking lot permit shall be required for each surface parking lot location, even a location within another business operation. This permit shall be in addition to any other permit or license required by other local, state, or federal government agencies. No permit shall be issued for any business seeking to operate at a location prohibited by any applicable local, state, or federal law, statute, ordinance, rule, or regulation. Every individual, firm, corporation, partnership, organization, or association holding a surface parking lot permit as required under this chapter shall post the permit in a conspicuous place and manner on the premises.

3. Notwithstanding any provision to the contrary, any property owner or lessee, may apply for a temporary construction surface parking lot permit for a property that is temporarily being used for parking in connection with an adjacent construction project, as determined by the Building Commissioner, for which a valid building permit with an estimated cost greater than three hundred thousand dollars ($300,000.00) has

been issued. Such temporary construction surface parking lot permits shall be valid for six (6) months at a time and can be renewed up to two (2) times during active construction of an adjacent project. In no event can a temporary construction surface parking lot be permitted for longer than a total of eighteen (18) months unless the Building Commissioner approves an extension. The application for a temporary construction surface parking lot permit must address and meet the requirements for a temporary construction surface parking lot shown in subsection A titled "Surface parking lot requirements" except for subsections 1, 2, 3, 4, 5, 6, 7, and 8. The temporary construction surface parking lot permit shall expire thirty (30) days after substantial completion of the construction project.

C. *Inspections.* Pursuant to Section 8.70.090 of the Revised Code, the Building Commissioner shall make or cause to be made an inspection at least once a year of every surface parking lot. The Building Commissioner is hereby empowered to make such inspections, to appoint designated inspectors to make said inspections, and all surface parking lots shall be open to the inspections of the Building Commissioner or the Building Commissioner's designees, as well as any member of the Police Department, or Neighborhood Improvement Specialist, at any time during the hours allowed by business and other reasonable times. The Building Commissioner shall maintain a record of security incidents taking place on the lot and include it with the inspection report.

D. *Revocation or Denial of Renewal.* The Building Commissioner may revoke an existing permit if any of the following deficiencies or conditions exist:

1. The property is included on the City's list of nuisance properties.

2. The surface parking lot is not being operated in compliance with the surface parking lot requirements described in subsection A of this section.

3. The physical improvements to the surface parking lot have deteriorated or are damaged and no longer function properly. If any of the above deficiencies or conditions have been determined to exist by the Building Commissioner, a letter of warning shall be sent to the permit holder for the surface parking lot no later than sixty (60) days prior to a proposed revocation or denial of renewal of the permit. In the event that the permit holder fails to adequately address the deficiencies or conditions described in the letter of warning, the Building Commissioner shall hold an administrative hearing to determine if the permit shall be revoked or renewal should be denied.

E. *Permit Revocation, Suspension, or Denial.* Following a decision of the Building Commissioner to revoke or suspend a permit, or to disapprove a new or renewal application, such permittee or applicant may seek review in a manner provided by law in Section 8.70.060 and 8.70.070 of the Revised Code of the City of St. Louis. If a permit is revoked by the Building Commissioner, the permit holder may not apply for a new permit for the same surface parking lot for a period of three months.

F. *Other Code Provisions.* All other sections of Chapter 8.70 of the Revised Code of the City of St. Louis that do not contradict this chapter's provisions shall apply to Surface parking lots.

G. *Authority to Prescribe Additional Rules and Regulations.* The Building Commissioner shall have the power to promulgate regulations as may be necessary and feasible for the carrying out of the intent of this chapter and the duties of the Commissioner that are not inconsistent with the provisions of this chapter. The rules and procedures shall be in writing and kept on file in the Building Commissioner's Office and posted to the City's website. In addition, all current surface parking lot permit holders will be promptly notified by certified mail and email of any changes.

H. *Enforcement.* This chapter shall be enforced by the Police Division in conjunction with the Building Commissioner. Consistent with Chapter 8.70 of the Revised Code of the City of St. Louis, the Building Commissioner may order barricades for any or all surface parking lots not in material compliance with the terms of this chapter.

I. *Contracts Authorized.* The Building Commissioner is hereby authorized to enter into contracts or add change orders to existing contracts to carry out the process authorized herein, and is hereby authorized to expend funds thereunder, with no other review, signature, or approval from any other City agency, board or department, except as provided by Charter, for website programming, and other such necessary related work, for the process created under this chapter.

J. *Severability.* If any provisions of this chapter shall be held to be invalid or unconstitutional, the remainder of this chapter shall not be affected thereby but shall remain in full force and effect.

The plat is subject to the approval of the Building Commissioner.

Drainage facilities will require approval of the metropolitan sewer district on the three copies of plats submitted when an existing paved lot of more than three thousand square feet is to be repaved, expanded or otherwise improved.

All existing paved lots and new lots to be paved, that are less than three thousand square feet, do not require approval of the metropolitan sewer district on the three copies of plats submitted, but shall be required to comply with the drainage requirements of the building code. (1960 C., § 388.030(2); 1994 C., § 8.70.040; Ord. No. 55061, § 1(part), 1968.)

The applicant with his application shall deposit with the Building Commissioner the sum of ten dollars to cover the cost of issuance of the parking station permit; provided, further, that under no condition shall the sum or any part thereof be refunded for the failure of the Building Commissioner to grant the permit for a parking station, except that the fee shall not be deemed to apply or to be applicable to parking lots or parking stations operated by a church solely and exclusively for church parking. (1960 C., § 388.030(3); 1994 C., § 8.70.050; Ord. No. 55061, § 1(part), 1968.)

The board shall designate a day for the hearing, and after considering the evidence and arguments submitted, the Board may direct either that the permit be issued or the action of denial be affirmed. (1960 C., § 388.150(part); 1994 C., § 8.70.060; Ord. No. 55061, § 1(part), 1968.)

8.70.070 Permit—Suspension or revocation—Hearing.

The Board shall designate a day for the hearing, and after considering the evidence and arguments submitted, may suspend or revoke the permit and license heretofore issued, upon proof of any of the following:

A. The operator has knowingly made any false or materially incorrect statement in his application;

B. The operator has made any charge for parking in excess of the rate posted on the required sign;

C. The operator fails to keep an attendant on duty during the times specified in his application; and

An annual inspection fee shall be payable on the first day of January each year in accordance with the capacity of the parking station as follows:

This liability shall not apply while the vehicle is under the control of the owner. This provision shall have no application to loss of or damage to personal property left or contained in motor vehicles, the liability for which may be disclaimed, in the parking ticket, provided a sign giving notice to that effect is posted on the parking lot.

Failure to satisfy any final judgment for damages to or loss of any parked vehicle arising from the aforementioned liability within sixty days after its final rendition, shall operate to automatically revoke the permit. Thereafter, the permit of such operator shall not be renewed until a bond or certificate of insurance in the sum of two thousand dollars is obtained. Bonds are to be approved by the City Counselor and shall run to the City for the benefit of any person who may receive injuries, and for the benefit of any person, partnership, association or corporation who may claim redress for the property damage or theft, resulting from the negligent operation or maintenance of the parking lot. The bond shall remain in full force and effect for the full period of time for which the permit is effective. In lieu of the bond, the application may be accompanied by a certificate of insurance in a like amount, which to the satisfaction of the City Counselor, will be adequate to satisfy any judgments for the aforementioned hazards. (1960 C., § 388.130; 1994 C., § 8.70.200; Ord. No. 55061, § 1(part), 1968.)

A copy of the regulations prescribed by this part shall be posted in a conspicuous place in every junk shop in the City, and it shall be the duty of the Register, upon request, to furnish copies of the regulations to every junk peddler and junk merchant in the City. 8.82.260 Misdemeanor declared.

Any person who shall engage in business as a junk peddler or junk merchant without a license as herein required, or any junk merchant who shall conduct business at any place other than that stated in his application for a license, shall be deemed guilty of a misdemeanor. SERVICE STATIONS

8.83.010 Findings.
8.83.020 Applicability of provisions.
8.83.030 Required services.
8.83.040 Sign to indicate no restroom available.
8.83.050 Damaging or vandalizing property prohibited.
8.83.060 Penalty for violation.

8.83.010 Findings.

The Board of Aldermen makes the following findings:

A. A number of new service stations have been built in the City which do not have facilities for providing compressed air and water for use in motor vehicles and which do not have restroom facilities which are open for use by the traveling public.

B. A number of older service stations which did have facilities for providing compressed air and water for use in motor vehicles and restroom facilities for use by the public have been demolished and replaced with new service stations which do not have such facilities available to the public.

C. Numerous service stations which do have facilities for providing compressed air and water for use in motor vehicles and restroom facilities have stopped making air and water available to the traveling public and have refused to allow the public to make use of their restrooms.

D. Some service stations which do make restroom facilities available for use by the public lock their

restroom facilities during nighttime hours, thereby preventing use of such facilities by the public during those hours.

E. Provision by service stations of compressed air for the purpose of inflating tires will reduce accidents caused by handling problems resulting from underinflated tires and will therefore promote the public safety, health, and welfare. Provision by service stations of water for purposes of filling radiators and windshield washing reservoirs will reduce breakdowns and help drivers see the road more clearly, thus reducing the potential for accidents, thereby promoting the public safety, health and welfare.

F. Public health, safety and welfare will be promoted by making the public aware of whether or not restroom facilities are available for use by the traveling public at a particular service station. (1994 C., § 8.83.010; Ord. No. 61968, § 1, 1990.)

8.83.020 Applicability of provisions.

The provisions of this chapter shall apply to all service stations within the City. For purposes of this chapter, a service station shall be defined as an establishment, having one or more fuel pumps, wherein a principle activity is offering for sale, to the traveling public, gasoline, diesel fuel or similar products used to provide locomotive power to motor vehicles. (1994 C., § 8.83.020; Ord. No. 61968, § 2, 1990.)

8.83.030 Required services.

All service stations shall offer the following amenities and services, which must be provided or offered on the premises of the station, to the traveling public during regular business hours:

A. A properly functioning water spigot and hose suitable for use by the traveling public for the servicing of motor vehicles and which is located so as to be readily accessible to the traveling public or, in the alternative, containers of fresh water which are made available to the traveling public for purposes of servicing motor vehicles.

B. Air compressors and attached hoses permitting motorists to replenish air loss from vehicle tires, together with appropriate gauges for measuring air loss. A reasonable charge may be levied by a service station owner or operator for the delivery of compressed air, and this charge may be collected by use of a coin-operated device for delivery of compressed air. (1994 C., § 8.83.030; Ord. No. 61968, § 3, 1990.)

8.83.040 Sign to indicate no restroom available.

All service stations which do not have restroom facilities available for use by the public shall display one sign with the following wording: "NO RESTROOMS AVAILABLE." Such sign shall be placed either in the window or attached to the wall of the premises as provided by law; provided, that no such sign shall be painted directly on a wall. The sign shall be lettered in a professional manner with letters three (3) inches in height. No other information or graphic shall appear on said sign, except that if a service station makes restroom facilities available for only a portion of the time period during which it is open for business, then such information may be specified on the sign in letters smaller than three (3) inches in height. (1994 C., § 8.83.040; Ord. No. 61968, § 4, 1990.)

8.83.050 Damaging or vandalizing property prohibited.

It shall be a violation for any person to vandalize, steal, intentionally destroy or damage, or remove from the premises any of the following items made available to, or provided for use by, the general public by the owner or operator of a service station: (A) toilet fixtures, urinals, sinks, other plumbing facilities, waste receptacles, towels, toilet tissue, soap, or soap receptacles; (B) water spigots, water hoses or containers of fresh water; or (C) air compressors and/or attached hoses. (1994 C., § 8.83.050; Ord. No. 61968, § 5, 1990.)

8.83.060 Penalty for violation.

Any person, firm, corporation or other entity which is found guilty of a violation of either Section 8.83.030 or 8.83.040 shall be punished by a fine of not less than twenty-five dollars ($25.00) nor more than five hundred dollars ($500.00). Each day during which a service station fails to comply with the provisions of Section 8.83.030 shall be deemed a separate violation. Any person found guilty of a violation of Section 8.83.050 shall be punished by a fine of not less than one hundred dollars ($100.00) nor more than five hundred dollars ($500.00). (1994 C., § 8.83.060; Ord. No. 61968, § 6, 1990.)

8.83A.010 Legislative findings.

The Board of Aldermen finds and concludes the following:

A. That the lending and marketing practices of Short-Term Loan Establishments, as defined herein, can result in serious financial hardships to some of its citizens, particularly its elderly and low-income citizens, from which they cannot extract themselves; can perpetuate poverty; and can perpetuate the dependency upon public financial assistance, housing, health care and social services;

B. That the proliferation over the past several years of Short-Term Loan Establishments both in the City as a whole and, more particularly, in certain areas of the City, cause or contribute to the deterioration of certain of the City's commercial and residential areas;

C. That the patterns of this proliferation suggest the industry targets low-income citizens most likely to suffer financial hardship as a result of the lending practices and small-loan products offered by Short-Term Loan Establishments; and

D. That the further regulation of Short-Term Loan Establishments is necessary for the promotion and protection of: the public health, safety, and welfare of the City's citizens; the City's interests, and those of its citizens, in maintaining the quality of its commercial and residential neighborhoods; and the City's interests in maintaining its tax base. (1994 C., § 8.83A.010; Ord. No. 70391, § 2, 11-23-2016.)

8.83A.020 Definitions.

The following words, when used in the Short-Term Lending Code, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Commissioner means the Commissioner of the Building Division of the City of St. Louis or a person designated by the Commissioner.

Permittee means any individual, firm, association, corporation, partnership, association or organization holding a permit issued by the Commissioner pursuant to the Short-Term Lending Code to operate a Short-Term Loan Establishment.

Premises means the bounds of the enclosure where a Short-Term Loan Establishment conducts business and includes parking lots and other adjacent private property occupied by or used in connection with the business.

Short-Term Loan Establishment means an establishment which (a) engages in the business of providing money to customers on a temporary basis, wherein such loans are secured by post-dated check, paycheck, or car title, or (b) is registered as a lender under state or federal law. This classification does not include a state or federally chartered bank, savings and loan association, credit union, or mortgage broker or originator. This classification does not include nonprofit organizations exempt from taxes under Section 501(c)(3) of the Internal Revenue Code of 1986 as amended, nor does it include organizations certified as Community Development Financial Institutions by the U.S. Treasury. Further, this classification does not include the businesses of licensed pawnbrokers or establishments selling consumer goods, including consumables, where the loans or the cashing of checks or money orders are incidental to the main purpose of the business. This classification does include, but is not limited to, check cashing stores,

payday loan stores, and car title loan stores. (1994 C., § 8.83A.020; Ord. No. 70391, § 2, 11-23-2016.)

8.83A.030 Applicability of other regulations; conflicting provisions.

A. In the event of a conflict between the provisions of the Short-Term Lending Code and other ordinances or other parts of the Revised Code of the City of St. Louis, the provisions of the Short-Term Lending Code shall control.

B. The permit and fees required by the Short-Term Lending Code shall be in addition to any other licenses and fees required by the Revised Code of the City of St. Louis.

C. The permit fees required by the Short-Term Lending Code are to defray the costs of investigating and processing the applications for the permits, of any enforcement efforts required by the Short-Term Lending Code, and to the public for the economic damage of a proliferation of short-term loans. (1994 C., § 8.83A.030; Ord. No. 70391, § 2, 11-23-2016.)

8.83A.040 Permit required.

Within sixty (60) days of the effective date of this chapter, it shall be unlawful for any individual, firm, association, corporation, partnership, or organization:

A. To operate or maintain a Short-Term Loan Establishment in the City unless the owner, operator, or lessee thereof has applied for and obtained a Short-Term Loan Establishment permit from the City; or

B. To operate such business after such permit has expired or has been revoked or suspended by the City.

A permit shall be required for each location at which a Short-Term Loan Establishment operates in the City; even a location within another business operation. A permit shall be valid for a period of time of one calendar year (or the remaining portion of a calendar year) and must be renewed annually. This permit shall be in addition to any other permit or license required by other local, state, or federal government agencies. No permit shall be issued for any business seeking to operate at a location prohibited by any applicable local, state, or federal law, statute, ordinance, rule, or regulation; provided, however, that a business lawfully in existence on the date of adoption of such prohibition may be issued a permit if allowed by such provisions. (1994 C., § 8.83A.040; Ord. No. 70391, § 2, 11-23-2016.)

8.83A.050 Permit duration; renewal; fees.

A. Permits for the operation of a Short-Term Loan Establishment shall be annual permits which expire on December 31 of each year. Each permit shall include the name of the permit holder and address of the premises. Permits in good standing on the date of their expiration shall be eligible for renewal. The application for a permit shall be accompanied by payment in full of the fee stated in this section, by cash, certified or cashiers check, or money order. No application shall be considered complete until the fee is paid. The fee shall not be refunded under any circumstances.

B. The fee for each permit shall be as follows:

1. New Short-Term Loan Establishment permit: $5,000.00 per year or $2,500.00 if less than six (6) months remain in the calendar year.

2. Renewal of Short-Term Loan Establishment permit: $5,000.00 per year.

C. No fees will be effective until approved by a simple majority of the City's electors. (1994 C., § 8.83A.050; Ord. No. 70391, § 2, 11-23-2016.)

8.83A.060 Inspections.

The Commissioner is hereby empowered to appoint inspectors of Short-Term Loan Establishments, and all those premises shall be open to the inspections of the Commissioner, inspectors appointed by the Commissioner, any member of the Police Department, or that establishment's appointed Neighborhood Improvement Specialist at any time during the hours allowed for business and at other reasonable times. (1994 C., § 8.83A.060; Ord. No. 70391, § 2, 11-23-2016.)

8.83A.070 Authority to prescribe additional regulations.

The Commissioner shall have the power to promulgate regulations as may be necessary and feasible for the carrying out of the intent of the Short-Term Lending Code and the duties of the Commissioner under the Short-Term Lending Code which are not inconsistent with the provisions of the Short-Term Lending Code. (1994 C., § 8.83A.070; Ord. No. 70391, § 2, 11-23-2016.)

8.83A.080 Penalty for violation of Short-Term Lending Code.

It shall be unlawful for any person to violate any of the provisions of the Short-Term Lending Code. Upon conviction thereof, such person shall be fined not less than $100.00 and not more than $500.00, or be punished by imprisonment at the municipal correctional

institution or in such other place as provided by law for a period of time up to, and including, 180 days, or be punished by both such fine and imprisonment. Each day's violation of, or failure, refusal, or neglect to comply with, any provision of the Short-Term Lending Code shall constitute a separate and distinct offense. The penalties provided in this section are in addition to, and are separate from, any administrative actions by the Commissioner to suspend, revoke, or disapprove renewal of a permit issued under the Short-Term Lending Code. (1994 C., § 8.83A.080; Ord. No. 70391, § 2, 11-23-2016.)

8.83A.090 Alternative administrative citation fine for violation of Short-Term Lending Code.

The Commissioner may impose administrative fines for violations of the Short-Term Lending Code pursuant to the procedures set out in Chapter 25.33 of the Revised Code of the City of St. Louis. (1994 C., § 8.83A.090; Ord. No. 70391, § 2, 11-23-2016.)

8.83A.100 Judicial review of orders of Commissioner; stay of enforcement of orders.

Following the entry of an order by the Commissioner suspending or revoking a permit, or disapproving a new or renewal application for a permit, such permittee or applicant may seek judicial review in a manner provided by law. The Commissioner shall stay enforcement of such order for a period of time not to exceed 30 days pending the filing or final disposition of proceedings for judicial review. (1994 C., § 8.83A.100; Ord. No. 70391, § 2, 11-23-2016.)

8.83A.110 Severability.

The various provisions of the Short-Term Lending Code are not interdependent; and, if any provisions of the Short-Term Lending Code shall be held to be invalid or unconstitutional, the remainder of the Short-Term Lending Code shall not be affected thereby but shall remain in full force and effect. (1994 C., § 8.83A.110; Ord. No. 70391, § 2, 11-23-2016.)

8.83A.120 Contents of application.

Any person desiring to operate a Short-Term Loan Establishment shall make written application for a Short-Term Loan Establishment permit or the renewal thereof to the Commissioner or the Commissioner's designee. The application shall be signed by the applicant and notarized. All applications shall be submitted on a form supplied by the Commissioner and shall set forth at least the following:

D. Whether or not the applicant has been convicted of violating any provision of the Short-Term Lending Code; has been convicted of a felony, misdemeanor, infraction or ordinance violation involving moral turpitude, a breach of a fiduciary obligation, or crimes of physical violence or against property; or has ever had a permit issued under the Short-Term Lending Code revoked or suspended and, if so, the reason therefor;

E. Evidence and information of any kind tending to demonstrate that the permit being sought will be utilized in the applicant's business conducted in accordance with the provisions of the Short-Term Lending Code;

F. If the applicant is a Missouri corporation, a certificate of good standing issued by the Missouri Secretary of State not more than 30 days prior to the submittal of the application or, if a foreign corporation, a certificate of authority to do business issued by the Missouri Secretary of State not more than 30 days prior to the submittal of the application; and

G. Such further information as the Commissioner may reasonably require. (1994 C., § 8.83A.120; Ord. No. 70391, § 2, 11-23-2016.)

8.83A.130 Criteria for issuance of permit.

The Commissioner shall investigate the application for a Short-Term Loan Establishment permit and

shall issue the permit authorized by the Short-Term Lending Code if the Commissioner finds that each of the following conditions is met without exception:

A. Applicant is current in all taxes, fees, and other amounts due to the City on any account, for any purpose;

B. The application is complete and appears to be truthful and accurate;

C. The application is accompanied by the required fee;

D. The location of the premises meets all applicable spacing, distance, and location requirements of the zoning ordinances, including those outlined in Section 26.08.384 of the Revised Code of the City of St. Louis;

E. The premises meets all other applicable health, safety, zoning, property maintenance, building and fire codes, and ordinances of the City;

F. The premises has a clean and adequate waiting area and adequate heating, ventilating, and air conditioning which is made available to customers or patrons;

H. Applicant has demonstrated to the Commissioner a "Good Neighbor Plan" which includes all requirements outlined in Section 23 of the Short-Term Lending Code as well as any other conditions that the Commissioner finds necessary or appropriate to ensure that the short-term loan establishment is not operated in a manner that will be detrimental to the public health, safety, or welfare, or that will result in the creation of a nuisance.

The Commissioner is authorized to make inspections of the Short-Term Loan Establishment's premises at reasonable times and hours of any day in which it is operating or is to be located for purposes of determining whether such Short-Term Loan Establishment fully complies with the provisions of the Short-Term Lending Code. (1994 C., § 8.83A.130; Ord. No. 70391, § 2, 11-23-2016.)

8.83A.140 Approval or disapproval of application and hearing.

A. The application for a Short-Term Loan Establishment permit, or the renewal thereof, authorized under the Short-Term Lending Code shall be approved or disapproved within 30 days from the date of the Commissioner's determination that the application is complete, unless the applicant agrees in writing to an extension of that time period. If a permit application is disapproved, the Commissioner shall notify the applicant in person, or by registered or certified mail to the applicant's last known address, and shall state the basis for such disapproval.

B. If within ten (10) days after the Commissioner delivers notice to an applicant in person or mails notice to the applicant that the application has been disapproved, the applicant files with the Commissioner a written request for a hearing before the Commissioner on whether the applicant has satisfied the criteria set forth in this Section 16 of the Short-Term Lending Code; then, the Commissioner shall, within five days of receipt of a timely request, mail a notice of a hearing to the applicant, which shall include the date, time, and place for the hearing before the Commissioner. The date for the hearing shall be not less than 10 days, nor more than 40 days, following the filing of the request for a hearing under this section, unless the aggrieved party requesting the hearing agrees to extend the time for the hearing. (1994 C., § 8.83A.140; Ord. No. 70391, § 2, 11-23-2016.)

8.83A.150 Display of license or permit.

Every individual, firm, corporation, partnership, organization, or association holding a permit under the Short-Term Lending Code as a Short-Term Loan Establishment shall post the permit in a conspicuous place and manner on the premises. (1994 C., § 8.83A.150; Ord. No. 70391, § 2, 11-23-2016.)

8.83A.160 Compliance with the Short-Term Lending Code and other regulations.

It shall be the duty of a permittee to comply with all of the provisions of the Short-Term Lending Code, as well as the building codes, zoning, fire, health, safety, nuisances, and property maintenance ordinances of the City, and with all regulations issued by the Commissioner pertaining to Short-Term Loan Establishments. Failure to comply with the ordinances or regulations after written notification of noncompliance has been delivered to the permittee by the City may be a basis for suspension, revocation, or nonrenewal of the permit. (1994 C., § 8.83A.160; Ord. No. 70391, § 2, 11-23-2016.)

8.83A.170 Permittee's duties to adhere to a "Good Neighbor Plan."

1. Post and enforce a no loitering policy on the premises, including parking areas and other exterior parts of the premises;

2. Post a notice printed in not less than 24-point bold type within 3 feet of each location within the premises at which a customer, borrower, or other member of the general public is invited or directed to stand or sit to either apply for a loan, to answer or ask questions, to review or sign transaction documents, to receive loan proceeds, to make payments or to inquire about, or apply for, the renewal or the rolling over of a loan, which sets out the following information: (i) the word "WARNING" in bold capital letters, (ii) that this establishment is a short-term loan establishment and is not a federally chartered bank, savings and loan association, or credit union, (iii) the interest rates and fees charged, (iv) the annual percentage rate equivalent of the aggregate of those interest rates and fees charged per $100.00 borrowed, (v) a computation of the amounts that would be paid on an original loan renewed or rolled-over after the expiration of its original term without any payment of either principal or interest each time, up to six times, (vi) a warning that default may result in loss of property used as security for the loan and garnishment of wages and checking and savings accounts, and (vii) notice of any state or federal rights to rescind the loan agreement;

3. Prevent public displays of indecency, prostitution, or solicitation for prostitution from taking place on the premises, whether in or out of public view at all times during the hours of operation;

4. Prevent disorderly conduct, disturbances of the public peace, and gambling from taking place on the premises at all times during the hours of operation;

5. Prevent any unlawful sale, distribution, delivery, or use of controlled substances, illegal drugs or narcotics on the premises at all times during the hours of operation;

6. Prevent any sale, distribution, delivery, or use of any alcoholic beverages of any kind on the premises at all times during the hours of operation;

7. Allow law officers, code enforcement officers, health officers, or other representatives of the City or other public agencies full access to the premises at any time during hours of operation for purposes of inspection to ensure compliance with the Short-Term Lending Code and other applicable laws;

9. Ensure that the licensee or a manager of the business is present at the premises at all times during its hours of operation; and

10. During the hours of operation, promptly report to the Police Department acts of indecency, prostitution or solicitation for prostitution, disorderly conduct, disturbances of the public peace, gambling, unlawful sale, distribution, delivery or use of controlled substances, illegal drugs or narcotics, and the sale, distribution, delivery, or use of any alcoholic beverages of any kind on the alleys, sidewalks, and streets adjacent to the premises.

B. The permit and the standards of operation, affirmative duties and other requirements of the Short-Term Lending Code shall apply to an entire business operation and its premises, regardless of the fact that some parts of the business operation, if conducted separately at a different location, would not be subject to a permit under the Short-Term Lending Code.

C. Failure to comply with the requirements of this section and all other requirements of the Short-Term Lending Code is unlawful. (1994 C., § 8.83A.170; Ord. No. 70391, § 2, 11-23-2016.)

8.83A.180 Referral to Alternative Financial Assistance

It shall be the affirmative duty of each permittee to provide to all interested customers or patrons the current "Alternatives to Short Term Loans" guide, as provided by the office of Financial Empowerment and approved by the Treasurer of the City of St. Louis or other such guides that provide the same information. (1994 C., § 8.83A.180; Ord. No. 70391, § 2, 11-23-2016.)

8.83A.190 Suspension, revocation, or denial.

A. Any permit issued under the provisions of the Short-Term Lending Code may be suspended or revoked or any permit may be denied by the Commissioner, after due notice and affording an opportunity for a hearing, for any violation of the provisions of the Short-Term Lending Code. Once said permit is suspended or revoked, notification shall be given immediately to the License Collector's Office. Within ten (10)

days after the denial, suspension or revocation of any permit issued under the Short-Term Lending Code, or for any other cause expressly allowed in the Short-Term Lending Code, any person aggrieved thereby may apply in writing to the Commissioner for a hearing thereon, and the Commissioner shall then promptly set a time and date for a hearing thereon.

B. Hearing procedures. The following procedures shall apply to all hearings conducted under this section:

1. The applicant, permittee, or an owner, as the case may be, shall have full right to be represented by counsel, to produce witnesses and other evidence, and to cross examine all witnesses who appear against him. Oral evidence shall be taken only upon oath or affirmation. All proceedings in such hearing shall be recorded and transcribed as required by law. The Commissioner may receive evidence relevant to the issues from the applicant, permittee, or from other sources.

2. If a hearing is held under the provisions of the Short-Term Lending Code, then the Commissioner shall issue findings of fact and conclusions of law, and an order wherein he may approve or disapprove an application, suspend or revoke a permit previously issued, or renew or refuse to renew a permit previously issued. The Commissioner's order shall be served upon the applicant or permittee, as the case may be, in person or by registered or certified mail to the applicant's or permittee's last known address. If the Commissioner is not able to serve the order upon the applicant, permittee, or applicant for renewal permit in the manner stated in this subsection, and any notice sent by mail is returned by the postal service, the Commissioner shall cause the order to be posted at the principal entrance of the business, and that posting shall be a valid means of service. The Commissioner's order shall also be posted for 30 days in the City's Building Division.

C. Unless otherwise provided in the Short-Term Lending Code, any applicant or any other person aggrieved by the decision of the Commissioner under the provisions of the Short-Term Lending Code may seek judicial review in a manner provided by law. The cost of a transcript of a hearing before the Commissioner shall be paid by the party requesting the transcript. (1994 C., § 8.83A.190; Ord. No. 70391, § 2, 11-23-2016.)

8.83A.200 Renewal of permit.

A. All Short-Term Loan Establishment permits shall expire on December 31 of each calendar year. Renewal applications for such permits shall be submitted between October 1 and November 30 of each calendar year, accompanied by payment in full of the fee stated in the Short-Term Lending Code, by cash, certified or cashiers check, or money order, and no application shall be considered complete until the fee is paid. The fee shall not be refunded under any circumstances. A Short-Term Loan Establishment permit issued under the Short-Term Lending Code may be renewed if an application in the form provided by the Commissioner has been filed with the application fee with the Commissioner and if the applicant is in compliance with the requirements in the Short-Term Lending Code for an original permit, including, but not limited to, Section 16 of the Short-Term Lending Code.

B. Upon timely application therefore, and subject to meeting the requirements in the Short-Term Lending Code for a new permit, a Short-Term Loan Establishment permit may be renewed by issuance of a new permit in the manner provided in the Short-Term Lending Code unless the Commissioner disapproves the renewal application in the manner provided by Section 17 of the Short-Term Lending Code.

C. 24.691 Regulation of street railways

8.92.110 Regulations when tracks intersect with railroad and other streetcar tracks.

At all points where the streetcar track may intersect or cross any steam railroad track, every streetcar shall be brought to a full stop not less than ten nor more than twenty-five feet from nearest point of intersection, and shall not proceed to cross the railroad track until, upon sufficient investigation, the conductor, or other proper agent appointed by the company for that purpose, is assured there is no danger of collision, whereupon the person in control of the car shall be signaled to proceed. At all points where the street railway track intersects or crosses other street railway tracks, the car shall be stopped immediately before crossing the same, so as to avoid danger of collision. The car going in an eastwardly or westwardly direction over, on or crossing any intersecting street upon which other streetcars are run shall be entitled to the right-of-way to pass before any car going in a northwardly or southwardly direction at the point of intersection of the streets. It shall be the duty of the conductor, motorman, gripman, driver or any other person in charge of the car going in a northwardly or southwardly direction to run the car when approaching the intersection of other street rail-

ways so as to stop in due time and give the right-of-way to the car going in an eastwardly or westwardly direction on the intersecting line. In no event shall this clause be so construed as to sanction or allow a willful or wanton collision by the conductor, motorman, gripman or driver of a car running in an eastwardly or westwardly direction. 8.92.250 Use of tracks of another company—Commission—Appointment.

When any street railroad company shall desire to operate a line of streetcars over the track of any other street railroad company, or part thereof, as provided in Section 8.92.240, and an agreement cannot be had between the companies as to the compensation to be paid therefor by the company so desiring, the compensation shall be ascertained by a commission of three disinterested freeholders of the City, to be chosen and appointed in the following manner.

The company desiring to use the track may make written application to that effect to the Mayor, accompanied by plans and specifications showing the extent of track it desires to use, first giving ten days' notice in writing to the railroad company whose track it is designed to use, of the time and purport of the application. On receipt of the same, with evidence of notice, the Mayor shall give notice to each of the companies to report to him in writing within ten days thereafter, the name and address of one disinterested freeholder of the City, to act as its chosen commissioner. Upon the expiration of the ten days aforesaid, the Mayor shall forthwith appoint a third disinterested freeholder of the City to act as commissioner, and shall also appoint one freeholder to represent either of the companies which shall have refused or neglected to appoint a commissioner within the time aforesaid. And either party may apply for a readjustment of the terms of compensation once in each period of two years, to be determined as prescribed in this section. The license tax required shall be a tax on the business of conveying passengers over and upon the streets in the City by means of service cars and nothing in this part shall be so construed as to exempt the owner, or owners, from paying to the City the tax imposed by the City in licensing motor vehicles or automobiles to be operated on its streets, or the tax which the City levies on motor vehicles or automobiles as personal property. Nor shall anything herein be so construed as to exempt the owner or driver of a motor vehicle from the qualifications or from any driver's license which the City, or the state may require of persons who operate motor vehicles. The notice shall be given to the applicant by delivering a copy to him or mailing a copy to his address as stated in the application, and a notice to all other persons interested shall be by publication in the paper doing the City's publishing. (1960 C., § 312.020; 1994 C., § 8.98.585; Ord. No. 46399, § 4, 1953.)

8.98.600 Certificate of convenience and necessity—Determination of issuance.

The Board of Public Service shall have power to issue or refuse to issue any such certificate, as in its opinion, the public welfare, convenience and necessity, may require. In determining whether public convenience and necessity require the licensing of service cars for which application may be made, the Board of Public Service shall take into consideration whether the demands of the public require the proposed or additional service car service within the City; the financial responsibility of the applicant, the number, kind, and type of equipment, the color scheme proposed to be used, the increased traffic congestion and demand for increased parking space upon the streets of the City, which may result, and whether the safe use of the streets by the public, both vehicular and pedestrian, will be preserved by the granting of the license, and the past record of the applicant or others with whom he may now be or heretofore may have been associated in the operation of service cars, and other relevant facts as the Board may deem necessary or advisable. A suspension of the certificate shall be for a definite time not exceeding thirty days and may be set aside at any time; provided, that if the Board of Public Service shall have pending before it an order to show cause why the certificate should not be revoked, the suspension may be further extended. The fact that a certificate was suspended for a given cause shall not be a bar to its revocation on the same ground. Whenever the Board of Public Service shall suspend or revoke the certificate of convenience and necessity of the owner or operator of

service cars, it shall thereafter be unlawful to operate the service cars until the period of the suspension shall have expired or the Board of Public Service shall have otherwise restored the certificate to the owner or operator. A copy of the order of the Board of Public Service suspending or revoking the certificate shall be forwarded to the Chief of Police. If the certificate is revoked, a copy of the order or revocation shall be certified to the License Collector and he shall thereupon revoke all licenses theretofore issued to the holder of the certificate of convenience and necessity, and make an entry thereof in the records of his office. Should the Board of Public Service subsequently set aside its order of revocation or otherwise restore the certificate to the owner or operator, either in whole or in part, a copy of the subsequent order shall be certified to the License Collector, who shall make an entry thereof in the records of his office, and to the Chief of Police. 8.98.615 Certificate of convenience and necessity—Revocation or suspension—Board powers.

The fact that the Board of Public Service is authorized to suspend or revoke a certificate of convenience and necessity, or to order the revocation of a license on a specific ground, shall not be a limitation on the power of the Board to order the suspension or revocation on any other ground. (1960 C., § 312.100; 1994 C., § 8.98.615; Ord. No. 46399, § 19, 1953.)

Nothing contained in the policy or any endorsement thereon, nor the violation of any of the provisions thereof by the assured, shall relieve the company from liability hereunder or from the payment of such judgment. The policy to which this endorsement is attached shall not expire, nor shall cancellation take effect until after ten days' notice in writing by the Company shall have been given to the board of public service of the City of St. Louis at its office in the City Hall, said ten days' notice to commence to run from the date notice is actually received at the office of the Board. Attached to and forming a part of Policy No. _____ issued by _____ Company to _____." (1960 C., §§ 311.020, 311.030, 311.040; 1994 C., § 8.98.635; Ord. No. 46399, § 7(part), 1953.)

8.98.640 Insurance—Filing.

It shall be unlawful for any person to operate or drive, or cause to be operated or driven, any service car along or upon any street in the City unless the policy of insurance required by this part for the service car shall have been filed with the Board of Public Service and maintained in full force and effect. (1960 C., § 311.050; 1994 C., § 8.98.640; Ord. No. 46399, § 7(part), 1953.)

8.98.650 Additional cars.

If the Board of Public Service after a public hearing shall find that public convenience and necessity requires the operation of service cars in addition to those previously authorized under the provisions of this part and shall issue its certificate to that effect, either upon the application of a person already authorized to operate service cars or a new applicant, and assign a sub-permit number to each service car authorized by the certificate, it shall then be the duty of the License Collector to issue to the applicant a license for each additional service car authorized by the certificate of convenience and necessity. Whenever the holder of a certificate of convenience and necessity shall be granted a certificate to operate additional service cars, the Board of Public Service shall make an order amending the original certificate and reciting the number of service cars previously authorized, the date or dates of the authorization, the number authorized by the amendment, and the aggregate number of service cars which the person may operate pursuant to the amended certificate. The policy of insurance shall then state the total number and description of service cars covered by the policy. If any policy of insurance is permitted to lapse, expire or be cancelled for any reason whatsoever, and the holder of the certificate fails to replace the same immediately with another policy of insurance fully complying with the provisions of this part, the certificate of convenience and necessity shall be suspended by the Board of Public Service without notice or hearing, and the Board may, after a hearing upon notice, revoke the certificate. The Board of Public Service may reinstate any suspended certificate of convenience and necessity after suspension upon compliance in full with all the provisions of this part within a reasonable time. (1960 C., §§ 311.070, 311.080; 1994 C., § 8.98.650; Ord. No. 46399, § 9, 1953.)

B. Vendors must apply for and obtain a permit to operate a vending business in the Downtown Vending District as provided in this section prior to obtaining a vendor's license. Vendor's permits shall be issued by the Director of Streets (the "Streets Director") for locations in the Downtown Vending District which are not within the City Parks Vending District, and by the Director of Parks, Recreation and Forestry (the "Parks Director") for locations in the Downtown Vending District which are within the City Parks Vending District.

No vendor's permit may be issued for any location which is within one block of any part of the City Parks Vending District and outside such district.

D. Vendors' permits in the Downtown Vending District shall be approved prior to issuance by the Board of Public Service. No such permit shall be approved unless it has been recommended by the Director of Streets, or in the case of locations within both the Downtown Vending District and the City Parks Vending District, by the Parks Director, who shall certify in their recommendation that prior to such recommendation such Director consulted with the Partnership for Downtown St. Louis concerning the matter and complied with the requirements of Subsection F of this section. This subsection does not apply to permits regulated by Subsections H and I of this section.

E. The minimum annual fee for a vendor's permit shall be $500.00; provided, this fee may be increased by the Board of Public Service, in its discretion, to an amount up to $1,000.00, after request of the Streets Director and the Parks Director, identifying increases in regulatory costs to the City justifying the proposed fee increases. All revenue derived from vendor's permit fees shall be held in the Downtown Vending District Parks Fund established by Ordinance No. 68603.

F. When the Streets Director or the Parks Director determine that a vending permit should be issued for a location within the Downtown Vending District or for a location within part of the City Parks Vending District which is within the Downtown Vending District:

v Require additional information as deemed appropriate; and

3. After receipt of permit applications, the Streets Director or the Parks Director, as applicable, shall rank the applications based on completeness, desirability of product, proposed payments to the City, suitability of vending structure for the location, and contribution to diversity of products available from vendors and diversity of appearance of vendors' facilities, within the Downtown Vending District or within part of the City Parks Vending District within the Downtown Vending District;

4. Such Director shall then consult with the Partnership for Downtown St. Louis concerning the matter;

5. Such Director may reject all applications and shall retain records of his or her proceedings.

G. A sidewalk vendor shall be required to operate a vending business a minimum of ninety (90) days per year for a minimum of four (4) hours per day. No pushcart or other item related to the operation of a vending business shall be located on any City sidewalk or other public areas during non-vending hours, nor shall any such pushcart or any other item be parked, stored or left overnight in the Downtown Vending District or in any part of the City Parks Vending District within the Downtown Vending District.

H. Vendor's permits issued pursuant to this section shall be valid for three (3) years beginning on January 1 following approval of an application and ending on the third subsequent December 31, subject to payment in advance of the annual vendor's permit fee by December 31; provided, the Streets Director or the Parks Director as applicable may recommend to the Board of Public Service by December 1 of each year during the term of a permit that the permit be revoked as of the subsequent December 31 for noncompliance with this section or applicable regulations or failure to maintain a vendor's license. Following the expiration or revocation of a license, the applicable director may initiate a new solicitation process, if he or she believes continued vending at the location is in the City's interests.

8.118.020 Definitions.

When used in this chapter:

M/WBE shall mean Minority and Women-Owned Business Enterprise.

Award shall mean the selection of a vendor for a contract or subcontract for a specific dollar amount. Contract awards are made by the City of St. Louis, acting through its Board of Public Service (BPS) and as made through the Supply Division, to a prime contractor and by a prime contractor to a subcontractor.

Bid shall mean a bidder's response to a solicitation for bids, proposals, or statements of qualifications for a project that is at least partially funded by the City of St. Louis, but does not include state or federally-funded projects which have requirements that preempt the local M/WBE Program.

Bidder shall mean any individual, company, or association responding to a City of St. Louis and its associated entities solicitation.

Board letting shall mean the process by which all public work, except emergency work or repairs requiring prompt attention, shall be let by the Board of Public Service in compliance with Article XXII of the City Charter of the City of St. Louis.

Commercially-useful function shall mean a subcontract fulfilled by a bidder responsible for the materials, supplies, and services used in the performance of the contract. To determine whether a subcontractor is performing a commercially-useful function, the amount of work subcontracted shall be evaluated with respect to normal industry practices, including whether the amount the subcontractor is to be paid under the contract is commensurate with the work it is to perform. The subcontractor does not perform a commercially-useful function if its role is limited to an extra participant in a contract through which funds are passed in order to convey only the appearance of meaningful and useful subcontractor participation.

Contract shall mean a mutually-binding legal relationship or any modification thereof obligating the vendor to furnish construction, professional services, and/or goods and other services and the City of St. Louis to pay for them.

Formal procurement shall mean a competitive solicitation method by which bidders are invited by the City of St. Louis to bid through a published advertisement stating the scope, specifications, and terms of the proposed contract.

Good Faith Effort shall mean all actions taken by a bidder or prime contractor consistent with the requirements, rules and procedures established by SLDC to engage M/WBEs toward meeting the goals for minority and women business enterprise utilization.

Informal procurement shall mean a solicitation method by which competition is not required or an emergency work award is required, and the City of St. Louis is permitted to solicit bids directly from bidders. The City shall make all efforts to include M/WBEs in such informal procurements and ensure that M/WBEs are given fair and ample opportunity to participate.

M/WBE Utilization Plan shall mean the form detailing the goods and services to be provided to the prime contractor by each M/WBE listed to meet the M/WBE goals. The M/WBE Utilization Plan must be provided at bid opening by each bidder and include the name(s) of all M/WBE subcontractors to be utilized in the contract, certification information, the items of work to be performed, and their percentage of the bid amount.

Minority and women-owned business enterprise availability shall mean the number of businesses located in the St. Louis Metropolitan Area that are willing and able to provide the goods and services being procured by the City of St. Louis.

Notice of intent to perform a subcontract shall mean the form the bidder is required to submit to the City at the time of bid opening signed by each subcontractor listed in the M/WBE Utilization Plan. Failure to include a completed Notice of Intent form signed by each subcontractor will be sufficient cause to reject a bid as non-responsive.

Prime contractor shall mean the individual or business that has an agreement with the City of St. Louis and that has the full responsibility for completing the terms of the agreement.

Subcontractor shall mean an individual or business that has a contract to perform a service or provide materials, equipment, or supplies as a part of the scope of work set forth in a prime contract with the City of St. Louis.

User Department shall mean the department that develops the requisitions for the City of St. Louis. (Ord. No. 70767, § 2, 5-4-2018)

8.118.030 Statement of policy.

A. *Commitment.* The City of St. Louis is committed to promoting fair and open competition for M/WBEs seeking to do business with the City of St. Louis. The City of St. Louis shall ensure that prime contractors do not discriminate in their solicitation, selection, or treatment of subcontractors. Therefore, the M/WBE Program shall have the resources necessary for the effective

implementation of the M/WBE Policy and the components contained within the M/WBE Program. The M/WBE Program and related responsibilities shall be communicated to the City of St. Louis' internal and external stakeholders.

B. *Policy Implementation.* The M/WBE Program shall be adopted to implement the City of St. Louis' M/WBE Policy. The City of St. Louis shall take all necessary, reasonable, and legal action to alleviate documented disparity and ensure that all businesses are afforded the maximum opportunity for participation in the City's contracting. The M/WBE Program shall ensure that the City of St. Louis contracts are awarded in a manner that promotes economic inclusion of all segments of the business population, regardless of race, sex, or gender, to maximize the economic vitality and development of the City of St. Louis.

C. *Goals.* The City of St. Louis has established project goals to ensure that M/WBE utilization on its construction, professional services, and goods and other services contracts reflects the level of M/WBE availability. The project goals are based on the findings of statistically significant disparity from the 2015 Disparity Study.

The 2015 Disparity Study documented a statistically significant disparity in the City of St. Louis' award of construction prime contracts to African American, Hispanic American, and Women-owned businesses. In addition, African American, Asian American, Hispanic American, and Women-owned businesses were found to have a statistical disparity in the City of St. Louis' award of professional services prime contracts. The study also documented a statistical disparity in the City of St. Louis' award of goods and other services prime contracts to African American, Asian American, and Women-owned businesses. In addition, the study documented a certain availability and disparity for Asian Americans and Native Americans.

Furthermore, the 2015 Disparity Study documented a statistical disparity in the award of construction subcontracts to African American, Hispanic American, and Women-owned businesses by the City of St. Louis' prime contractors. There were insufficient contract records available to calculate disparity for professional services subcontracts. Based upon the 2015 Disparity Study the following shall be implemented:

1. Complete prime and all subcontract records will be collected for a 12-month period and a disparity study update for professional services subcontracts will be performed within six (6) months of effective date of this chapter.

2. The project goal shall be applied to solicitations for construction bids. The construction project goal is the goal that shall be met by utilization of African American, Hispanic American, Asian American, Native American and Women-owned construction subcontractors.

3. Based on availability, the construction project goal shall be 21% for African American-owned business enterprises, 2% for Hispanic American-owned business enterprises, 0.50% for Asian American-owned business enterprises, 0.50% for Native American-owned business enterprises and 11% for Women-owned business enterprises.

4. Proof of project goal attainment shall be submitted at the time of bid opening and documented on the M/WBE Utilization Plan. If a bidder fails to meet the solicitation's construction project goals, the bidder can provide evidence of a good faith effort to meet the goal. A bid that does not meet the subcontract goals or evidence a good faith effort shall be deemed nonresponsive and therefore ineligible for award. The M/WBE Utilization Plan shall be submitted at the time of bid opening or board letting, as applicable, for project goal compliance, verification of subcontractor certification, and evidence that the subcontractor shall perform a commercially useful function.

5. Good faith effort elements are evaluated to determine whether a bidder has provided evidence of a good faith effort to meet the M/WBE subcontract goals. In order to be considered a responsive bid, the bidder must demonstrate a sufficient good faith effort.

6. M/WBE prime contract bid discount shall be applied to construction and goods and other services prime contracts on contracts of $300,000.00 or less. A five percent (5%) bid discount on construction prime contracts shall be applied to African American, Hispanic American, Asian American, Native American, and Women-Owned Business Enterprise bidders. A five percent (5%) bid discount on goods and services prime contracts shall be applied to African American, Asian American, Native American and Women-owned Business Enterprise bidders. The bid discount shall be applied during the evaluation process. It shall lower the eligible M/WBE's bid but shall not reduce the contract award amount. The solicitation shall describe the bid discount as applied to eligible M/WBE prime contrac-

tors in the two industries. In order to qualify for the bid discount, the eligible M/WBE bidder shall include in its bid a copy of the current M/WBE certification approval letter issued by the M/WBE Program.

7. M/WBE incentive credits shall be applied to the evaluation of professional service prime contracts, but may not include state- or federally-funded projects which have requirements that preempt the local M/WBE Program. A fifteen percent (15%) incentive credit as part of the total points evaluated on professional service prime contracts shall be applied to African American, Asian American, Native American, Hispanic American, and Women-owned Business Enterprises. The incentive credit shall be applied during the evaluation process. In order to qualify for the incentive credit, the M/WBE prime contractor must include a copy of the current M/WBE certification approval letter issued by the M/WBE Program. The solicitation shall describe the incentive credit as applied to eligible M/WBE prime contractors. In order to qualify for the incentive credit, the M/WBE prime contractor must include in its proposal or statement of qualifications a copy of the M/WBE certification approval letter issued by the M/WBE Program.

8. Notwithstanding any other provision of this chapter, the 2015 Disparity Study will be updated two years from the effective date of this chapter.

D. *Training.* To increase the availability of African American, Hispanic American, Asian American, Native American and Women-owned businesses in the City's M/WBE certification pool, the City shall consider:

The prime contractor shall submit a request to BPS for mobilization payments using the normal monthly payment process as detailed in the contract documents.

Each subcontractor listed as paid for the previous billing cycle shall be electronically contacted to verify that payment was received. The Minority Business Development and Compliance Office shall manage the program.

F. *Resolving Disputes.* Dispute resolution standards shall be established to allow businesses to resolve issues relating to contract work performance. Invoice disputes between the prime contractor and the subcontractor shall be presented to the BPS project manager and the Minority Business Development and Compliance Office. BPS shall ensure that the dispute resolution process is handled in a timely manner and in accordance with dispute resolution standards. The decision can be appealed to a mediator comprised of a designee of the Mayor, the Director of the Minority Business Development and Compliance Office and the President of the Board of Public Service. The mediation process shall exhaust any administrative remedy available to the contractor and/or subcontractor. (Ord. No. 70767, § 4, 5-4-2018)
