119.4 Building Not to Be Rented or Leased. No owner or agent of the owner of any building, structure, or premises, after notice from the building official that such building, structure, or premises is unsafe or dangerous, shall rent or lease the same or any part thereof or collect any rent therefor until such building, structure, or premises has been placed in a safe and secure condition. The building official shall be permitted to require an occupancy permit to be issued prior to occupancy or re-occupancy. Any person found guilty of violating the provisions of this section shall be subject to the penalties as set forth in Section 25.01.030 regarding fine and imprisonment. Each day that a violation continues constitutes a separate and distinct offense.

Section 119.5 Cost; Method of Payment; Lien; Penalty. The building official shall have the authority to require any violator of this code to correct, remove, or abate any condition caused or permitted by them in violation of this code; and the building official shall be permitted to correct, remove, or abate the same upon their failure to comply with the requirements of this code when the public interest so requires. For all emergency condemned buildings or structures, the building official shall have the authority to receive and publicly open bids and award the contract to the lowest qualified bidder meeting the specifications without first sending said contract to the Comptroller. These contracts shall be signed by the Building Commissioner and countersigned by the Director of Public Safety and shall have the full effect of a City contract. All costs attending such action in such cases shall be paid from the appropriate fund as provided in Section 119.3 and then collected from the party offending as therein provided. A lien for such costs shall be placed against the property whereon such violation was permitted to exist. The cost shall be collected as described in 25.64.010 or, if amounts are unpaid for more than one year, may also be collected in the same manner as prescribed in Section 67.451, RSMO and 25.33.110.C.2 of the Revised Code of the City of St. Louis. Said special tax bill shall be deemed a personal debt against the property owner(s) and shall also be a lien on the property until paid. These bills or liens shall not be forgiven except by the City Counselor, who shall, in writing, instruct the building official to forgive such bills or liens. Further, board-up and demolition bills shall be permitted to be waived when ownership of said property for which the bill or lien was issued is accepted by Land Reutilization Authority, Saint Louis Development Corporation, or any other City agency. Any person, firm or corporation who shall refuse or neglect to comply with the provisions of this section or who shall violate any of the provisions thereof shall be subject to the penalties as set forth in Section 25.01.030. In addition, any payments deemed to be in arrears shall be subject to interest charges at a rate set by the Comptroller.

119.5.1 Prohibited Expenditures. The building official shall not expend any monies for demolition of buildings owned by Land Reutilization Authority, Operation Impact, Saint Louis Development Corporation, Port Authority, or any other governmental agency except in emergency situations where immediate action is required to preserve public health, safety, and welfare.

119.6 Vacation of Buildings; Duties of Police; Penalty. Upon effecting condemnation of any building, structure, or premises by the building official, it shall be unlawful for any person to enter or remain in or on such building, structure, or premises until such time as the Police Department shall have been notified in writing by the building official that the same is in a safe condition. It shall be the duty of the Police to remove any person from such building, structure, or premises so condemned and to prevent any person from entering same until such time as the Police Department shall have been notified in writing by the building official that such building, structure, or premises is in compliance with this code. The provisions of this section shall not apply to licensed security guards or persons directly employed in securing the building, structure, or premises or otherwise abating the conditions causing the condemnation. Any violation of this section of the code shall be subject to the penalties as set forth in Section 25.01.030.

119.7 Removal of Decayed or Unsafe Trees. Whenever it shall come to the knowledge of the Forestry Commissioner that any tree on private property is in such a decayed or dangerous condition as to endanger the lives of persons or is likely to cause immediate damage to the property of others, the Forestry Commissioner shall cause said tree to be removed or cause such dangerous conditions to be remedied by the owner of the property whereon it is situated. The powers and duties of the Forestry Commissioner in respect to any

such tree, the notice to the owner of the property whereon it is located, the cost of its removal or remedying the dangerous condition caused thereby, the lien of such cost, the method of its collection, the penalties to be incurred by the owner, and the procedure to be followed by the Forestry Commissioner shall, as nearly as practicable, be those prescribed by this section in respect to the building official's procedures for buildings and other structures which are in a dangerous condition.

If the Forestry Commissioner cannot secure removal of the dangerous tree by Forestry Division forces or by response of the owner to the Forestry Division notice, the Forestry Commissioner shall be permitted to request the assistance of the building official in condemning the tree and securing removal after emergency or public bid by private contractors resulting in a City of Saint Louis contract to remove the tree.

The condemnation, if appealed to the Board of Building Appeals, shall require the defense testimony of Forestry Division personnel knowledgeable about trees.

The Building Division shall be permitted to make available for tree removal contracts on private property a sum not to exceed five percent of the first two hundred thousand dollars of general fund demolition monies appropriated in a fiscal year, in addition to not more than three percent of any appropriated amount over $200,000.00. The Forestry Division will prepare bid specifications and receive, process, and award such contracts billable to the Building Division demolition account subject to the dollar limits above. This procedure is for dead or dangerous trees on private property only and is not for encroachments, trimming, pruning, or other concerns.

119.8 Appeal. Any person aggrieved by the decision of the building official pursuant to Sections 119.1 through 119.7 shall be permitted to appeal such decisions to the Board of Building Appeals within ten calendar days of the date on the Notice of Condemnation. The Condemnation Committee of the Board of Building Appeals, selected by the Chairman, shall hear said appeal and render its decision affirming, modifying, or reversing the decision of the building official and, to such end, shall possess all the powers on appeal granted the building official under Sections 119.1 through 119.7. Such decision shall be subject to the procedures and review provided by the Administrative Procedure and Review Act of the State of Missouri. Filing of an appeal of any portion of Sections 119.1 through 119.7 does not stay any action provided in these sections.

119.9 Penalties. If the owner(s) fail to repair, demolish, or otherwise comply a building, structure, or premises as ordered by the Notice of Condemnation of the building official pursuant to Section 119.2 either within the seven-day period specified in Section 119.1 or within ten days after any appeal from said notice as provided in Section 119.8 is finally adjudicated adversely to said owner(s), then said owner(s) shall be guilty of a violation of this section and shall, upon conviction thereof, be subject to penalties as set forth in Section 25.01.030. Each day that any violation continues shall constitute a separate and distinct offense.

119.10 Responsibility of Ownership.

1. *Disclosure:* It shall be unlawful for any seller or grantor to convey, give, or transfer property to any buyer or grantee without first disclosing in writing to the buyer or grantee the existence of all Notices of Condemnation or any other violations of this code. The grantor shall keep and make available for inspection by the building official such disclosure signed by the grantee for a period of one year from the conveyance, gift, or transfer.

2. *Liability to prosecution and conviction:* Any person shall be permitted to be prosecuted and convicted for violation of Section 119.1.1, notwithstanding that said person has not been given the notice specified in Section 119.1, provided that the building, structure, or premises in question had one or more of the defects described in Section 119.1 during the period that said person was responsible for said building, structure, or premises as owner, corporate officer, partner, or otherwise, and provided further that said prosecution is commenced during the one-year period after said person ceased to be so responsible.

3. *Liability to suit and judgment:* Any person shall be permitted to be sued by and held liable to the City of Saint Louis, as provided in Section 119.3, for funds expended by the City of Saint Louis pursuant to said section, notwithstanding that said person has not been given the notice specified in Section 119.1, provided that the building, structure, or premises in question had one or more of the defects described in said section during the period that said person was responsible for said building, structure, or premises as owner, corpo-

rate officer, partner, or otherwise, and provided further that said suit is commenced during the one-year period after said person ceased to be so responsible.

Owner(s) are presumed by law to know the conditions of their property whether or not such notice was given. Notices sent to the address of the owner(s) shown on the City of Saint Louis Assessors Office records on the date sent shall constitute legal notice in accord with Section 119.2.

119.11 Dangerous, Hazardous, Unsanitary, or Unapproved Plumbing, Mechanical, and Electrical Installations. The building official shall have the authority to seal out of service the items listed below when, in the building official's opinion, any of these items are in an unsafe, hazardous, or unsanitary condition; if a Certificate of Inspection has not been issued by the building official; or if the installation was made without obtaining the necessary permit(s):

1. Plumbing equipment, fixtures, piping, devices, and appurtenances covered by the Building and Plumbing Codes.

2. Mechanical equipment, devices, and appurtenances covered by the Building and Mechanical Codes.

3. Electrical equipment, fixtures, devices, wiring, and appurtenances covered by the Building and Electrical Codes;

119.11.1 Notice of Sealing Out of Service. Before sealing any device out of service, the building official, except in cases of emergency, shall serve seven days' written notice upon the building owner(s) or occupant(s) by United States mail stating intention to seal the equipment out of service and the reasons therefor. Notice shall be permitted to alternately be served by posting upon or immediately adjacent to the device proposed to be sealed.

119.11.2 Unlawful to Remove or Tamper with Seal. Any device sealed out of service by the building official shall be plainly marked with a sign or tag indicating such sealing and any defacing or removal of the sign or tag, any tampering with or removal of the seal without approval of the building official, or operation of the sealed unit shall constitute a violation of this code and shall subject the violator to the penalties as set forth in Section 25.01.030.

119.12 Cancellation of Condemnation. The building official shall have authority to cancel prior condemnations either for defects or for occupancy. A condemnation shall be permitted to be rescinded by the building official only after, in the official's opinion, all necessary repairs are made to such building, structure, or premises or otherwise compliance is obtained with the building official's orders to make such building, structure, or premises safe or occupiable and defects noted have been corrected.

119.12.1 Notice of Cancellation of Condemnations. Upon cancellation of a condemnation, a notice shall be directed to the owner(s) of the building, structure, or premises stating that the condemnation has been canceled. The service of such notice shall be done in the same manner as provided for in Section 119.2.

119.13 Vacant Building Inspection. The building official shall cause to be inspected any property that potentially is subject to the registration fee as established in Section 109.2.12. The inspecting officer shall report his findings and it shall be determined whether any such property shall be subject to the registration fee by the City. Within five business days of such determination, the building official shall notify by mail the owners of property on which the registration fee has been levied at the last known address according to the records of the office of the Assessor. The property owner shall have the right to appeal the decision of the building official to the municipal court within 30 days of such notification. Absent the existence of any valid appeal or request for reconsideration the registration fee shall begin to accrue on the beginning of the second calendar quarter after the decision of the building official.

119.13.1 Reconsideration. Should the property owner, within 30 days of the building official making such notification, complete any improvements to the property that would be necessary to revoke the levy of the registration fee, they shall request a reinspection of the property and a reconsideration of the levy of the registration fee by the City. If the building official revokes the registration fee, no such assessment shall be made and the matter shall be considered closed. If the building official affirms the assessment of the registration fee, the property owner shall have the right to appeal the reconsideration decision to the municipal court within thirty days of such decision. Absent the existence of any valid appeal to the municipal court or other court of competent jurisdiction, the registration fee shall begin to accrue on the beginning of the second calendar quarter after the reconsideration decision of the building official.

119.13.2 Payment and Penalties. The building official shall establish procedures for the payment of the

registration fee and penalties for delinquent payment of such fees. Any registration fees which are delinquent for a period of one year shall become a lien on the property and shall be subject to foreclosure proceedings in the same manner as delinquent real property taxes. The owner of the property against which the assessment was originally made shall be able to redeem only by presenting evidence that the violations cited by the building official have been cured and presenting payment of all registration fees and penalties. Upon bona fide sale of the property to an unrelated party said lien shall be considered released and the delinquent registration fee forgiven.

SECTION 120 EMERGENCY MEASURES

120.1 Procedure. When, in the opinion of the building official, a building, structure, or premises poses an immediate or imminent danger to the public health, safety, or welfare as defined in Section 119.1, the building official shall order the immediate evacuation and securing of said building, structure, or premises and shall be permitted to order all utilities to be disconnected without sending a notice. Each principle entrance shall be posted with a notice which reads as follows:

DANGER THIS PREMISES IS UNSAFE AND HAS BEEN CONDEMNED
ALL PERSONS ARE WARNED TO KEEP AWAY

Any person who refuses to leave, interferes with the evacuation of other occupants, occupies, or continues any operation after the property has been posted pursuant to this section, except such person(s) who is directed to perform work to remove a violation or unsafe condition, shall be deemed in violation of this section and it shall be the duty of the Police Department to immediately remove such person(s) from said building, structure, or premises and prevent anyone, unless approved by the building official, from re-entering the building, structure, or premises until such time that the Police Department shall have been notified that the same is in a safe condition. The building official assumes no responsibility for persons entering upon said property, and said persons proceed at their own risk and assume all liability.

120.2 Temporary Safeguards. When, in the opinion of the building official, there is actual and immediate danger of collapse or failure of a building or structure or any part thereof which would endanger life, the building official shall be permitted to cause the necessary work to be done to render such building or structure or part thereof temporarily safe whether or not the legal procedure herein described has been instituted.

120.3 Closure. When necessary for public safety, the building official shall temporarily close sidewalks, streets, buildings, structures, and places adjacent to such unsafe building, structure, or premises and prohibit the same from being used.

120.3.1 Catchment Enclosures. If, in the opinion of the building official, it is determined that there exists an imminent structural hazard, catchment enclosures shall be erected protecting adjoining property and the public right-of-way. The cost for such catchment enclosures shall be the responsibility of the owner of record immediately adjacent to the catchment enclosure and the recovery of said costs will be as described in Section 120.5.

120.4 Emergency Repairs; Remedies. For the purpose of this section, the building official shall be permitted to employ the necessary labor and materials to perform the required work as expeditiously as possible. Further, when it is found that potable water is running inside a vacant building or structure and the owner or the owner's representative cannot be contacted, and where severe structural or other damage can thus occur to adjacent properties, the Building Commissioner or the Health Commissioner shall be permitted to order the Water Division to cease the problem flow by whatever means the Water Division finds necessary. The Water Division shall comply with any order issued pursuant to this section.

120.5 Cost of Emergency Repairs or Demolition. Costs incurred in the performance of emergency work shall be paid from the Treasury of the City of Saint Louis on certification of the building official. The legal counsel of the City of Saint Louis shall institute appropriate action against the owner(s) of the premises where the unsafe building or structure is or was located for the recovery of such costs plus a ten percent administrative fee. If such cost is not collected, a lien shall be requested to be placed upon the property by the Comptroller. The costs shall also be certified by the Collector of Revenue or other official collecting real estate taxes, who shall cause a special tax bill against the property to be prepared and collected in the same manner and procedures as other real estate tax bills. Said special tax bill shall be deemed a personal debt against the property owner(s) and shall also be a lien on the property until paid.

120.6 Emergency Demolition or Removal. If, in the opinion of the building official, a building, structure, tree, or premises, in whole or in part, poses an immediate and imminent danger to the public health, safety, or welfare by virtue of its condition or conditions in violation of this code, the building official shall be permitted to cause the immediate removal of said building, structure, or tree without the notice set forth elsewhere in this code. Further, the building official shall have the authority to award a sole source contract for demolition of said dangerous building, structure, or tree.

120.7 Demolition of Party Walls; Responsibility. When a building or structure on one side of a party wall is demolished, the demolition contractor is required to grout solid all floor or roof joist pockets and is also responsible for installing missing portions of the party wall which were not originally built. The demolition contractor shall remove any attachments to the building or structure (plaster, mortar, steps, paneling, etc.). The adjacent wall shall have an approved roofing material applied to create a coping for the wall. The demolition contractor shall also be responsible for applying an exterior sprayed-on sand and tinted cement coating or tuckpointing; these are not the responsibility of the owner of the remaining building who relies on structural support from the party wall.

SECTION 121 REGISTRATION OF VACANT BUILDINGS

121.1 Vacant Building Registration Fee. The owner of any parcel of residential property improved by a residential structure or of commercial property improved by a structure containing multiple dwelling units which is vacant and has been vacant for at least six months and which is in violation of this code shall pay a semiannual registration fee of two hundred dollars.

121.2 Inspection. The Building Commissioner or his designee shall inspect any property that may be subject to the registration fee established in Section 121.1. The inspecting officer shall report his findings and recommendations and the Building Commissioner or his designee shall determine whether any such property shall be subject to the registration fee. Within five business days of such determination, the Building Commissioner or his designee shall notify by mail the owners of property on which the registration fee has been levied at their last known address according to the records of the office of the Assessor. The property owner shall have the right to appeal the decision of the Building Commissioner to the municipal court within thirty days of such notification. Absent the existence of any valid appeal or request for reconsideration pursuant to Section 121.3, the registration fee shall begin to accrue on the beginning of the second calendar quarter after the decision of the Building Commissioner.

121.3 Revocation of Fees. Within thirty days of the Building Commissioner making notification pursuant to Section 121.2, the property owner may complete any improvements to the property that may be necessary to revoke the levy of the registration fee and then may request a reinspection of the property and a reconsideration of the levy of the registration fee by the City. If the Building Commissioner or his designee revokes the registration fee, no such assessment shall be made and the matter shall be considered closed. If the Building Commissioner or his designee affirms the assessment of the registration fee, the property owner shall have the right to appeal the reconsideration decision of the Building Commissioner to the municipal court within thirty days of such decision. Absent the existence of any valid appeal to the municipal court or other court of competent jurisdiction, the registration fee shall begin to accrue on the beginning of the second calendar quarter after the reconsideration decision of the Building Commissioner.

121.4 Payment of Fees. The Building Commissioner is hereby authorized to establish procedures for the payment of the registration fee and penalties for delinquent payments of such fees. Any registration fees which are delinquent for a period of one year shall become a lien on the property and shall be subject to foreclosure proceedings in the same manner as delinquent real property taxes. The owner of the property against which the assessment was originally made shall be able to redeem only by presenting evidence that the violations of the applicable code cited by the Building Commissioner have been cured and presenting payment of all registration fees and penalties. Upon bona fide sale of the property to an unrelated party, said lien shall be considered released and the delinquent registration fee forgiven.

121.5 Registration. The property owner shall provide their name, street address, phone number, and email address to the Assessor's Office. If the property owner does not reside in Missouri or Illinois, the property owner is required to provide the name, street address, and telephone number of a natural person eighteen years of age or older designated by the property

owner as the authorized agent for receiving notices of code violations and for receiving process in any court proceeding or administrative enforcement proceeding on behalf of such owner or owners in connection with the enforcement of this code. This person must maintain an office in either the State of Missouri or Illinois or must actually reside in either the State of Missouri or Illinois. The Building Commissioner shall be responsible for providing the information to the City Information Technology Services Agency and the information shall be available through the Geo St. Louis website.

121.6 Vacant Building Maintenance. The owner of any building that has become vacant shall, within thirty days, do the following:

1. Enclose and secure the building as defined under Section 119 of this code. All doors must be properly secured and windows on all floors of the building shall be properly secured.

2. Maintain the building in a secure and closed condition until the building is again occupied or until repair or completion of the building has been undertaken.

121.7 Collected Funds. The Comptroller of the City of St. Louis is hereby authorized and directed to establish a Special Account to be known as the Vacant Building Initiative Fund in which all funds received pursuant to this section shall be deposited and such funds shall be kept separate and apart from all other funds. One half of such funds are hereby appropriated for the costs associated with this section and other costs associated with code enforcement pertaining to vacant property. One half of such funds shall be distributed to the City's Community Development Administration for purposes of offering grants to reduce and prevent vacant and blighted property. All interest generated on deposited funds shall be accrued to the Vacant Building Initiative Fund Account.

121.8 Penalties. If an owner fails to pay the registration fee under Section 121.1 thirty days after the registration fee is assessed, a penalty shall be assessed of $250.00 per occurrence. Any owner found to be in violation of provisions of Section 121.5 shall be subject to a fine of not more than $500.00, to a term of imprisonment of not more than ninety days, or to both a fine and imprisonment. Any owner found to be in violation of provisions of Section 121.6 shall be subject to a fine of not more than $500.00, to a term of imprisonment of not more than ninety days, or to both a fine and imprisonment. Every day that a violation continues shall constitute a separate and distinct offense.

SECTION 122 CERTIFICATION OF DEMOLITION CONTRACTORS

122.1 Certificate Required. No person, partnership, or corporation shall engage in the activity of demolishing or wrecking buildings or structures as defined in Section 203 of this code within the City of Saint Louis unless such person, partnership, or corporation has first applied for and been issued a demolition certificate as a demolition contractor as defined in this section.

Exception: No demolition certificate shall be required for the City of Saint Louis when performing demolition or wrecking by force account using employees of the City of Saint Louis.

122.2 Demolition Certificate. No person, partnership, corporation, or persons or corporations doing business under a fictitious name, whether such name be legally registered or not, or corporation doing business in or conducting demolition or wrecking activities as defined in Section 203 shall conduct or be employed in conjunction with demolition as defined in Section 203 within the City of Saint Louis unless said person, a member of such partnership, or an officer of such corporation, or one of the persons or any officers of any corporation doing business under a fictitious name has received a current demolition certificate of the proper class as herein described, or said person is legally employed by a properly certified demolition contractor of the class herein described. The Demolition Contractors' Certification Board shall approve the issuance of a demolition certificate to any person, partnership, or corporation which has undertaken to comply with the provisions of the Building Code and any and all regulations thereunder, and who has proven ability, personnel, and equipment to provide the public with safe, timely, and competent service as a demolition contractor within the class of certification for which application has been made. With the determination of the person's fitness, the Demolition Contractors' Certification Board shall require an examination, either oral or written, and shall call for satisfactory experience in the field in accordance with the standards herein contained.

The Demolition Contractors' Certification Board shall be permitted to deny, revoke, or suspend any demolition certificate upon a determination after notice and hearing that the demolition contractor:

1. Has violated any provision or any obligation imposed by this code or any and all regulations thereunder, or has violated any law in the course of their dealings as a demolition contractor; or

2. Has made a material misstatement in the application for the demolition certificate; or

3. Has been guilty of fraudulent or dishonest practices, including, but not limited to: arson, embezzlement, fraud, theft, failure to complete projects before permit expiration, caused damage to abutting property, failed to comply with provisions of this certification section; or

4. Has demonstrated their incompetence or lack of ability to act as a demolition contractor.

Such demolition revocation or suspension shall be permitted to be appealed to the Board of Building Appeals.

122.2.1 Class I Certificate. A demolition certificate to be issued for one year to demolition contractors which indicates that the demolition contractor possesses the personnel, equipment, and ability to perform any demolition activities within the City of Saint Louis in accordance with applicable provisions of this code and the laws of the City of Saint Louis for demolition of a building or structure or portions thereof.

122.2.2 Class II Certificate. A demolition certificate to be issued for one year to demolition contractors which indicates that the demolition contractor possesses the personnel, equipment, and ability to perform demolition activities within the City of Saint Louis in accordance with the applicable provisions of this code and the laws of the City of Saint Louis for demolition of a building or structure or portions thereof which do not exceed three stories or 50 feet in height, or five thousand square feet in area, or 200,000 cubic feet in volume.

122.2.3 Temporary Certificate. A temporary certificate is a demolition certificate to be issued for either a Class I or Class II certificate as described above, indicating compliance with the requirements for same and demolition activities as described in Section 203 of this code are to be performed. This certificate shall be issued for a period not to exceed six months.

122.2.4 Special Certificate. A person, firm, partnership, or corporation shall be permitted to be certified as a demolition contractor in the appropriate class with a special demolition certificate if that person, firm, partnership, or corporation provides proof of appropriate insurance on a per job basis.

122.3 Demolition Contractors' Certification Board. There is hereby established a City of Saint Louis Demolition Contractors' Certification Board which shall be composed of the Building Commissioner of the City of Saint Louis or the Building Commissioner's authorized representative and four additional members appointed by the Mayor as follows: either the President of the Board of Public Service or the Director of the Department of Streets or their authorized representative, a certified general contractor, a person engaged in the real estate business, and a member of the public at large. Appointments of City employees as members of this Board shall be during such time as the Building Commissioner and either the President of the Board of Public Service or the Director of the Department of Streets hold office. All members shall be appointed to a two-year term. The term of the member-at-large shall expire on the year opposite the other members. Three members shall constitute a quorum for meetings of the Demolition Contractors' Certification Board and a simple majority shall rule in decisions rendered by this Board. The Building Commissioner shall appoint a Building Division member to serve as Secretary to the Board. The Demolition Contractors' Certification Board shall be compensated as prescribed by Civil Service provisions for such boards and committees.

122.3.1 Term of Office. New members shall possess the same qualifications as the persons in whose place they are appointed. This is an existing board and all current appointments shall not be affected by this chapter. All subsequent appointments shall be for a term of two years and shall expire on an anniversary of the date of the original term, except appointments to fill vacancies which shall be for the unexpired term. Members whose appointment terms have expired shall be permitted to continue to serve until reappointed or replaced by a new appointee.

122.3.2 Powers and Duties of the Board. The Demolition Contractors' Certification Board is to conduct itself in such a manner so as to insure as much as possible that demolition within the City of Saint Louis is performed safely in accordance with the laws of the City of Saint Louis governing demolition and demolition contracting as hereinafter set forth:

1. Administration - The Demolition Contractors' Certification Board shall receive applications, adminis-

ter tests, conduct interviews and hearings, and approve, deny, suspend, or revoke demolition certificates as herein described. The Demolition Contractors' Certification Board shall be permitted to also issue temporary certificates as described in Section 122.2.3.

2. Tests - The Demolition Contractors' Certification Board shall prescribe the form and content of tests as described herein and the form or content of demolition certificates as herein described.

3. Hearings - The Demolition Contractors' Certification Board shall hold hearings and call witnesses pursuant to certificate issuance or rules and regulations pending and shall be permitted to call special hearings related to complaints by citizens concerning demolition procedures or rules and regulations.

A. The Demolition Contractors' Certification Board (hereinafter referred to as the Demolition Board) shall meet as often as is necessary to conduct its business. The Demolition Board will set and hold hearings for annual re-certification as required.

B. The Demolition Board shall meet up to twelve times each year for the purpose of testing or re-testing applicants for certification.

C. For any special session requested and called for by the elected Chairman of the Demolition Board for any purpose set forth in the rules adopted and published by the Demolition Board.

D. For the purposes of suspending or revoking any demolition certificates previously issued when the building official finds that any holder of a demolition certificate has violated any of the provisions of this

code or any rule or regulation adopted by the Demolition Board, the building official shall serve upon the holder of the demolition certificate a written notice signed by the building official of any findings stating the violation or violations which the building official has found the certificate holder to have committed, and stating that a hearing will be held before the Demolition Board in not less than five days nor more than fifteen days. Such written notice shall further state that the purpose of such hearing shall be the revocation or suspension of the named person's demolition certificate as a demolition contractor. Such notice shall state further that the holder of the demolition certificate has the right to appear personally at such hearing and to be represented by counsel of the holder's choice. The Secretary of the Demolition Board shall mail a written notice of the time, date, and place of any such hearing to the holder of the demolition certificate at the last address furnished to the Demolition Board in the registration statement required to be filed by Section 122.3.4 paragraph 1.

4. Adoption of Rules - The Demolition Board shall be permitted to adopt rules and regulations consistent with the provisions of this chapter and the laws of the City of Saint Louis related to demolition. Such rules and regulations shall be published in the City Journal for two consecutive issues prior to becoming effective.

122.3.3 Tests. In the performance of its powers and duties for the approval, denial, revocation, or suspension of a demolition certificate, the Demolition Board shall be permitted to prescribe oral or written tests or both to establish the applicant's ability and knowledge of the laws and regulations of the City of Saint Louis. If tests are administered, equivalent testing shall be required of all demolition contractors within the same class of certificate.

122.3.4 Required Conditions Prior to Issuance of Demolition Certificate.

1. *Filing of Registration Statement.* No Class I or Class II demolition certificate or any temporary certificate or special certificate as specified herein shall be issued to any person, partnership, officer of any corporation, or any person doing business under a fictitious name, whether such name be legally registered or not, or corporation doing business in or conducting wrecking activities as herein defined unless there is first filed with the Demolition Board a certified statement by any such person, if an individual; by all persons who constitute any partnership; by all persons, individuals, and officers of any corporation doing business under a fictitious name, whether such name be legally registered or not, or corporation doing business in or conducting demolition or wrecking activities as herein defined; by the president and secretary of any corporation, setting forth the following:

A. All the names and current addresses of all such persons who are individuals or partners of any partnership; all the names and current addresses of all persons doing business under a fictitious name, whether such name be legally registered or not; the legally registered name and address of any corporation doing business together with the date when registered and the number assigned by the Secretary of the State; in or conducting demolition or wrecking activities as described in Section 203, stating the date of registration with the registration number assigned by the Secretary of the State of Missouri, and the written verification by the Secretary of State that the corporation is currently in good standing and authorized to do business in the State of Missouri.

2. *Filing Proof of Public Liability Insurance Coverage and Required Endorsements.* Prior to the issuance of any demolition certificate as a demolition contractor, there must be filed with the Demolition Board the following:

A. A public liability insurance policy in the minimum amount of $100,000.00, limits payable for injury to, including death of, any one person; and in the minimum amount of $300,000.00, limits payable for any injuries including death to any two or more persons injured in any one accident; and in the minimum amount of $50,000.00, limits payable to one or more persons for property damage at any time by reason of the carelessness or negligence of any person or persons holding any demolition certificate, or any corporation, any officer of which holds a demolition certificate, and all their agents and employees.

B. As a further condition prior to the issuance of any permit to demolish or wreck any building or structure within the City of Saint Louis, the Demolition Board shall be permitted to require that the minimum liability insurance coverage for bodily injuries, including death, to one or more persons and for property damage as set forth in paragraph 2.A above be in a greater amount as to coverage where the building, structure, or portions thereof to be demolished or razed is in excess of three stories or 50 feet in height, 5,000 square

feet in area, or 200,000 cubic feet in volume to such minimum coverage as the Demolition Board determines is necessary to protect the public and persons and property adjoining said site and traveling nearby for the duration of such demolition or wrecking operations.

C. All such liability insurance policies required by this chapter shall also contain the following endorsement: "The Insurer shall not cancel the coverage afforded by this policy unless the said insurer first delivers to the building official written notice of cancellation of such policy at least 30 days prior to such date of cancellation by either personally delivering such notice of cancellation and taking written acknowledgment of such receipt from the building official or authorized deputy or by mailing certified or registered mail and receiving a signed acknowledgment of registered mail and receiving a signed acknowledgment of such receipt from the building official or authorized deputy."

3. *Approval.* All such liability insurance policies required by this chapter must be approved by the City Counselor as to form of such policies.

4. *Demolition contracts.* The City of Saint Louis Building Division demolition contracts are awarded to independent contractors who are not direct employees or agents of the City of Saint Louis. Any damage claims that should arise as a result of demolition must be made directly against the demolition contractor or the demolition contractor's insurance company. The City of Saint Louis shall be held harmless and shall be noted as such on all demolition permits issued by the City of Saint Louis.

122.4 Demolition Certificate Fees. Certification fees and demolition contractors' certificate application fees shall be collected by the City of Saint Louis prior to issuance of a demolition certificate as listed in Table 122.4. All fees required under Section 122.4 shall be collected by the Division of Building and Inspection.

Table 122.4

DEMOLITION CERTIFICATE FEES

Item	Fee	Duration	Remarks and Requirements
Demolition Contractors' Certification Board Certificate Applications	$30.00		
Certification Fees:			
Class I	$200.00	1 year	
Class II	$90.00	1 year	
Temporary Certificate Applications:	$60.00		
Certification fees:			
Class I	$120.00	6 months	Up to 6 months
Class II	$30.00	6 months	Up to 6 months
Special Certificate Applications:	$60.00		
Certification fees:			
Class I	$120.00		Per job basis
Class II	$30.00		Per job basis

122.5 Permits. The building official shall not issue permits to perform demolition or wrecking as herein defined to any person, partnership, or corporation or to persons doing business under a fictitious name unless said permit applicant holds a current and proper class of demolition certificate.

122.5.1 Suspension of Certificate. Any person, including any officer of any corporation, holding any demolition certificate found performing demolition or wrecking as herein defined without proper permits as prescribed by this code shall be additionally subject to certificate suspension or revocation by the Demolition Board.

122.6 Standards of Qualification and Testing. For the purpose of demolition contractor certification de-

scribed herein, the Demolition Board shall qualify and test in accordance with the following Standards of Acceptance:

1. *Qualifications.*

A. *Class I Certificates.* Class I demolition contractor applicants, in addition to the requirements herein, must show documented proof of any one of the following: That said applicant has been:

I. Safely and legally doing business as a Class II demolition contractor for at least five years and shows access to the proper equipment and personnel to perform Class I demolition activities; or

II. Safely and legally doing business in demolition contracting for at least three years involving buildings of substantial size being in excess of heights, areas, and volumes described for a Class II demolition certificate as described in Section B, and shows access to the proper equipment and personnel to perform Class I demolition activities; or

III. In receipt of a Class I temporary certificate and has safely and legally performed Class I demolition activities within the City of Saint Louis under said certificate.

B. *Class II Certificates.* Class II demolition contractor applicants, in addition to the requirements herein, must show documented proof of any one of the following: That said applicant has been:

I. Safely and legally doing business in demolition contracting for at least three years and shows access to the equipment and personnel to properly perform Class II demolition activities; or

II. Legally employed by a qualified Class I or Class II demolition contractor as herein described for at least three years and shows access to the equipment and personnel to properly perform Class II demolition activities; or

III. In receipt of a Class II temporary certificate and has safely and legally performed Class II demolition activities within the City of Saint Louis under said certificate.

C. *Temporary, Either Class.* The Demolition Board, under prior test, shall be permitted to reduce the years of experience or years doing business as a demolition contractor for temporary class certificates or accept demolition certificates or licensing from other cities or administrative review bodies for temporary class certificates when such other license or certificate is predicated upon qualifications equivalent to the temporary class certificate applied for either of the above, subject to evidence of equipment and personnel, as defined in the certificate qualifications for Class I or II, as applicable to the temporary class so applied. The Demolition Board shall be permitted to issue, at its discretion, such temporary class certificates to recently established demolition companies or corporations which have filed the proper applications and submitted documentation of adequate personnel and equipment to perform said demolition activities.

2. *Testing.* All tests as described in Section 122.3.3 shall be designed to establish the applicant's knowledge of safety and precaution as it relates to demolition activities and shall involve questions directly oriented to laws and regulations of the Building Code pertinent to demolition activities and published demolition safety rules and regulations as described herein.

3. *Violations.* Any person who shall fail to comply with any of the requirements of Section 122 shall be guilty of a violation of this code and shall upon conviction thereof be subject to the penalties as set forth in Section 25.01.030. Each day that any violation continues shall constitute a separate and distinct offense.

122.7 Appeals. Any person jointly or severally aggrieved by the decision of the Demolition Board shall be entitled to a judicial review of the decision rendered by the Demolition Contractors' Certification Board as provided in the Administrative Procedure and Review Act of the State of Missouri, being RSMo 536.100—536.140.

SECTION 123 DEMOLITION OF STRUCTURES

123.1 Wrecking, Demolition, or Razing of Buildings or Structures. No person, firm, or corporation shall wreck, demolish, or raze a building or other structure within the City of Saint Louis without first obtaining a permit for said demolition from the Division of Building and Inspection. Such permit shall be issued only to a person, firm, or corporation certified as a demolition contractor by the City of Saint Louis except that a permit shall be issued to the owner of record of land or to an agency or division of the City of Saint Louis if such building is not more than 1½ stories or 15 feet in height and not more than 10,000 cubic feet in volume or 1,000 square feet in area without a basement. Demolition permit applications, when applied for by anyone other than the owner of record, shall be accompanied by a notarized letter of authorization or other documentation from the owner of record granting permission to apply.

123.1.1 Bond. Every person, firm, or corporation performing the wrecking of any building or structure

shall provide a performance bond and a payment bond subject to the approval of the Comptroller in the sum of an amount equal to the amount of the wrecking contract or cost of the wrecking, conditioned upon the requirement that the sidewalks, streets, or alleys adjacent to the wrecking shall be kept free of all materials and debris caused by the wrecking operations; that adjacent safeguards and warnings be provided for the public who use the sidewalks, streets, or alleys adjacent the wrecking; that the sidewalks, streets, alleys, municipal utilities, signs, and property be repaired of any damage caused by the wrecking operations or vehicles; that the demolition contractor shall clean, backfill, and grade the wrecking site as required by the building official; and further conditioned upon the requirement that the demolition contractor comply with the written directions and regulations of the Director of Streets and the building official. No bond shall be for less than $5,000.00.

The bond herein required shall be written by a person, firm, or corporation authorized to do bonding business in the State of Missouri and shall be subject to the approval of the City Counselor and Comptroller. The bond shall be subject to cancellation only after ten days written notice to the Comptroller.

Any person, firm or corporation who shall fail to comply with this section shall be guilty of a violation of this code and shall, upon conviction thereof, be subject to the penalties as set forth in Section 25.01.030.

123.1.2 Signs. A sign made of wood, plywood, masonite, or similar material shall be displayed at a prominent location at the front of the lot on which the demolition work is being done or on the front of the building being demolished. This sign must be displayed prior to commencement and until completion of the demolition work. The demolition permit for the site shall be affixed to part of the sign. The sign shall also state the name, address, and telephone number of the demolition contractor. Such name, address, and telephone number shall be permanently painted or otherwise reproduced on the sign in professionally lettered block letters in a format approved by the Building Division not less than 2½ inches high, in colors contrasting with the sign background. Such signs shall not be larger than nine square feet and shall not require a sign permit.

Any demolition contractor or employee thereof performing demolition work who does not display such sign commits an offense and shall, upon conviction, be subject to the penalties as set forth in Section 25.01.030.

123.1.3 Service Connections. Before a building or structure is demolished or removed, the owner or owner's agent shall notify all utilities having service connections within the building or structure such as water, electric, gas, sewer, and other connections. A permit to demolish or remove a building or structure shall not be issued until a release is obtained from the utilities stating that their respective service connections and appurtenant equipment such as meters and regulators have been removed or sealed and plugged in a safe manner.

123.1.4 Vehicles. No demolition permit shall be issued unless the applicant provides the building official proof that the vehicle(s) to be used to haul the demolition debris have the necessary permits pursuant to Chapter 11.02 of the Revised Code of the City of Saint Louis. Enforcement of this section shall be by the Street Department.

123.1.5 Demolition Permit Fee. The fee for a demolition permit and inspection for the demolition of any building or structure shall be based on the cubic footage as listed in Table 109.3.1.

123.1.6 Demolition Work Started Surcharge Fees Schedule. In case any work for which a demolition permit is required by this code is substantially started or proceeded with prior to obtaining said permit, the total normal fees applicable shall be increased by the amount as listed in Table 109.5.

123.2 Lot Regulation. Whenever a building or structure has been removed, the premises shall be maintained free from all unsafe or hazardous conditions.

123.2.1 Foundation Walls. All foundation walls shall be broken down to at least twelve inches below grade and debris must not be larger than three feet in width and length. All concrete basement or crawl space slabs shall be broken into sections not exceeding eight feet in any dimension. Cracks shall be of sufficient size to permit drainage.

123.2.2 Grading and Backfilling. All grading and backfilling operations shall be conducted in such a manner as to provide clean, uncontaminated soil, rock, sand, gravel, concrete, asphaltic concrete, cinder blocks, and bricks. Demolition rubble or any other rubble brought in from another site to be used as fill shall be subject to laboratory testing for any contaminants at the discretion of the building official.

123.2.3 Lot Maintenance. Whenever a building or structure has been demolished and no building or con-

struction operation has been contemplated or projected as evidenced by the fact that no application for a building permit has been filed with the building official, the excavation remaining after such demolition shall be immediately filled, graded, and maintained in conformity with the existing grade immediately adjacent to such excavation or as directed by the building official. The top six inches of fill shall be clean top soil and shall be planted with grass seed and covered with straw.

123.2.4 Improper Fill. The building official shall be permitted to require the contractor to reopen a completed excavation to determine if proper fill procedures have been followed. The cost of reopening shall be borne by the demolition contractor.

123.2.5 Burial of Debris. On any demolition site where there is no basement or below grade crawl space, all demolition debris must be removed from the site. Excavation for the purpose of burying of debris will not be allowed.

123.2.6 Open Burning. Open burning shall be allowed for the purpose of providing heat for outside employees as a condition of a demolition permit. The location for any open burning shall not be less than 50 feet from any structure and provisions shall be made to prevent the fire from spreading to within 50 feet of any structure. Fire in approved containers shall be permitted provided that such fires are not less than 15 feet from any structure. A 55-gallon drum shall be considered an approved container. These provisions do not preclude provisions from the Air Pollution or Fire Prevention ordinances.

Open burning will be allowed on demolition sites when it is contained within 55-gallon drums, attended at all times, all wood and scrap confined to the drum, and a water hose or fire extinguisher available at all times. Fire drums shall be properly located on the site so as not to create a nuisance to adjoining property.

CHAPTER 2 IS AMENDED AS FOLLOWS:

Change Section 201.3 to read as follows:

201.3 Terms Defined in Other Codes. Where terms are not defined in this code and are defined in the Energy Conservation Code, Fire Code, Fuel Gas Code, Mechanical Code or Plumbing Code, such terms shall have the meanings ascribed to them as in those codes.

Modify Section 202 Definitions by the addition or changing of definitions to read as follows:

Accessible. A site, building, facility, or portion thereof that complies with Chapter 11 of this code and ICC Al 17.1-09 Accessible and Useable Buildings and Facilities and that can be approached, entered, and used by a person with a physical disability.

Building official or *code official.* The Building Commissioner of the City of Saint Louis or any duly authorized representative.

Construction cost. The cost of all construction portions of a project, generally based upon the sum of the labor and materials used in the performance of the construction contract and other direct construction cost; does not include the compensation paid to the architect and consultants, the cost of the land, right-of-way, or other costs which are defined in the construction documents as being the responsibility of the owner.

Custodian of records. The custodian of records shall be that person who directly supervises the particular section within the Division of Building and Inspection from which records are being requested.

Electric vehicle ready space. A designated parking space which is provided with one 50 ampere, 208/240 volt dedicated branch circuit for EVSE servicing Electric Vehicles. The circuit shall terminate in a suitable termination point such as a receptacle or junction box and be located in the close proximity to the proposed location of the Electric Vehicle parking space.

Electric vehicle supply equipment (EVSE). The conductors, including the ungrounded, grounded, and equipment grounding conductors, and the electric vehicle connectors, attachment plugs, and all other fittings, devices, power outlets, or apparatus installed specifically for the purpose of transferring energy between the premises wiring and the electric vehicle.

EVSE installed space. A designated parking space which is provided with EVSE installed.

Licensed design professional. An individual who is licensed to practice their respective design profession as defined by RSMo Ch. 327.

Licensed design professional in responsible charge. A licensed design professional engaged by the owner to review and coordinate certain aspects of the project as determined by the building official for compatibility with the design of the building or structure, including submittal documents prepared by others, deferred submittal documents, and phased submittal documents.

Occupancy permit. The permit issued by the building official which certifies that the building or structure has been inspected and has complied with the applicable provisions of all City of Saint Louis ordinances, as enforced by the Division of Building and Inspection.

Owner. Any person, firm, or corporation having a legal or equitable interest in the property; their agent, operator; collector of rent; or any other person, firm, or corporation exercising any care or control of the property; or any person, firm, or corporation recorded in the official records of the state, county, or municipality as holding title to the property or otherwise having control of the property, including the guardian of the estate of any such person and the executive administrator of the estate of such person, if ordered to take possession of real property by a court.

Parking lot. Any parcel of land used in whole or in part for the parking of vehicles for which a charge is or is not be made. Legal off-street parking for up to four-family dwellings shall not be considered a parking lot.

Project cost. The total cost of a project including professional compensation, land cost, furnishings and equipment, financing, and other charges as well as the construction cost.

Registered design professional. Same as *Licensed design professional.*

Registered design professional in responsible charge. Same as *Licensed design professional in responsible charge.*

Technically infeasible. An alteration of a building or a facility that has little likelihood of being accomplished because the existing structural conditions require the removal or alteration of a load-bearing member that is an essential part of the structural frame or because other existing physical or site constraints prohibit modification or addition of elements, spaces, or features which are in full and strict compliance with the minimum requirements for new construction and which are necessary to provide accessibility.

Add Section 203 to read as follows:

SECTION 203 DEFINITIONS FOR DEMOLITION PURPOSES ONLY

Backfill. Clean, uncontaminated soil, rock, sand, gravel, concrete, asphaltic concrete, cinder blocks, or bricks.

Building. A structure enclosed within exterior walls, fire walls, or party walls built, erected, and framed of component parts designed for the housing, shelter, or enclosure and support of individuals, animals, or property of any kind which is in excess of ½ stories or 15 feet in height, 10,000 cubic feet in volume, or 1,000 square feet in area without a basement.

Demolition, clearing, grading, or backfilling. A portion of demolition activity in which clearing, grading, or backfilling operations are conducted at the demolition site in conjunction with the demolition of the building or structure as herein defined.

Demolition salvaging. A portion of demolition activity which is conducted at the demolition site in such a manner as to reuse the existing construction materials or fixtures from the building or structure such as brick, lumber, fixtures, steel, ornamental iron, or fencing; their removal or cleaning, palletizing, stacking, storing, or loading onto vehicles for shipment.

Demolition wrecking. The removal of all or portions of buildings or structures to include: on-site salvaging, on-site loading, and on-site backfilling, grading or clearing as herein defined; but does not include: the actual hauling of scrap, debris and miscellaneous materials away from the demolition site, or the removal of miscellaneous partitions, machinery, equipment, plaster, mortar, paint, fixtures, trim or finish, when performed in conjunction with building repairs or alteration work; nor does this definition include the complete relocation of buildings or structures from one site for reassembly at another site.

Demolition or wrecking contractor. Any person, firm, partnership, or group of persons doing business under a fictitious name, whether such name be legally registered or not, or corporation doing business in or conducting demolition or wrecking activities as herein defined.

Demolition or wrecking contractor employee. Any person employed by a demolition contractor in conjunction with demolition activities as herein defined.

Structure. An assembly of materials forming the construction for occupancy or use, including among others: buildings, stadiums, platforms, towers, water tanks, trestles, above-grade piers, wharves, open sheds, shelters, signs, etc., which exceed 15 feet in height, 1,000 square feet in area, or 10,000 cubic feet in volume; but not to include tents, temporary reviewing stands, staging, or statues, displays, or signs less than 30 feet in height.

CHAPTER 3 IS AMENDED AS FOLLOWS:

Add Section 301.2 to read as follows:

301.2 Application of Other Laws. The provisions of this chapter shall not be deemed to nullify any provisions of the Zoning Ordinance or any other statute of the City of Saint Louis pertaining to the location or occupancy of buildings, except as specifically required by the provisions of this code.

Change Section 310.6 to read as follows:

310.6 Care Facilities Providing Home Day Care Licensed by the State of Missouri. Family Child Care Homes providing home day care for more than four but not more than ten unrelated children at any one time are exempt from this code if they meet the licensing capacities listed below, possess a valid State of Missouri license, are inspected by the Missouri Department of Health and the State of Missouri Fire Marshal's Office, and meet all provisions of the Zoning Ordinance of the City of Saint Louis.

1. If there is one adult provider, the family child care home shall be allowed to be licensed for up to six children including a maximum of three children under age two, or for up to ten children including a maximum of two children under age two. If only four children are present, all the children shall be permitted to be under the age of two.

2. If the provider has an adult assistant present, the family child care home shall be allowed to be licensed for up to ten children including a maximum of four children under age two, or for up to eight children who shall be permitted to be all under age two.

3. A family child care home shall be allowed to be licensed at maximum capacity for a period of eighteen consecutive hours of the 24-hour day. For the remaining six hours of the 24-hour day, care shall be allowed to be provided for ⅓ the licensed capacity of the home.

If the applicant furnishes a copy of their State of Missouri Family Child Care Home License for ten children or less, they shall receive a Home Occupation Permit Waiver subject to approval by the Board of Public Service as a Conditional Use or the Board of Adjustment as a Variance to the Zoning Code.

If an occupancy permit waiver is issued, the Building Division - Inspection Section will not inspect such State Licensed Family Child Care Home unless a Building Code or Zoning Ordinance complaint is received. Zoning Ordinance complaints will be investigated by the Building Division; however, Building Code complaints will be forwarded to the State of Missouri, Department of Health, Bureau of Child Care Safety and Licensure. Should seven calendar days elapse without response from the State of Missouri, Department of Health, Bureau of Child Care Safety and Licensure, the Building Division is empowered to investigate the complaint.

CHAPTER 4 IS AMENDED AS FOLLOWS:

Add Sections 403.4.8.1.1 and 403.4.8.1.2 to read as follows:

403.4.8.1.1 Fuel Supply. An on-premises fuel supply sufficient for two-hour full-demand operation of the system shall be provided.

Exception: Where the system is supplied with pipeline natural gas and is approved.

403.4.8.1.2 Capacity. The standby system shall have a capacity and rating that supplies all equipment required to be operational at the same time. The generating capacity is not required to be sized to operate all of the connected electrical equipment simultaneously.

406.2.7. Electric vehicle charging stations. Shall be required, per Tables 406.2.7, 406.2.8, 406.2.9, 406.2.10, 406.2.11. Electric vehicle charging stations shall be installed and labelled in accordance with NFPA 70. Electric vehicle charging system equipment shall be listed and labelled in accordance with UL 2202. Electric vehicle charging system equipment shall be listed and labelled in accordance with UL 2594. Accessibility to electric vehicle charging stations shall be provided in accordance with Chapter 11. Where an EV Ready or EVSE Installed parking space is required, at least one EV Ready or EV Installed parking space shall be installed adjacent to an ADA accessible parking space, when an ADA accessible parking space is also required.

Where the calculation of percent served results in a fractional parking space, it shall be rounded up to the next whole number if the fraction is .5 (½) of a parking space or greater. This requirement does not apply to buildings without a designated parking space, nor does this requirement apply to parking spaces located in the public right-of-way.

The following Use Groups shall require installation of EV Ready Spaces and Electric Vehicle Supply Equipment (EVSE) in accordance with Table 406.2.7 through Table 406.2.11:

TABLE 406.2.7 NON-RESIDENTIAL USE GROUPS WITH EV READY AND EVSE INSTALLED REQUIREMENT PER TABLE 406.2.8

Use Group	Applicability
A1	All
A2	Casinos uses only, excluding all other uses within A2 including restaurants
A3	All
A4	All

Use Group	Applicability
A5	All
B	All
E	Excluding daycare uses as defined by Section 305.2
I2	Hospital uses only as defined by Section 308.3.1.2, Condition 2
M	All
S2	Parking garages, open or enclosed only, excluding all other uses within S-2

TABLE 406.2.8 EV READY AND EVSE INSTALLED SPACE REQUIREMENTS FOR NON-RESIDENTIAL USE GROUPS

Total Number of Parking Spaces	Minimum Number of EV Ready Spaces	Minimum Number of EVSE Installed Spaces
10—30 spaces	1 space	0 spaces
31—49 spaces	2 spaces	1 space
50 spaces and greater	5% of total parking spaces	2% of total parking spaces

TABLE 406.2.9 APPLICABLE RESIDENTIAL USE GROUPS WITH EV READY AND EVSE INSTALLED REQUIREMENT PER TABLE 406.2.10

Use Group	Applicability
R1	All
R2	All

TABLE 406.2.10 EV READY AND EVSE INSTALLED SPACE REQUIREMENTS FOR RESIDENTIAL USE GROUPS, JANUARY 1, 2022 THROUGH DECEMBER 31, 2024

Total Number of Parking Spaces	Minimum Number of EV Ready Spaces	Minimum Number of EVSE Installed Spaces
5—20 spaces	1 space	0 spaces
21—49 spaces	2 spaces	1 space
50 spaces and greater	5% of total parking spaces	2% of total parking spaces

TABLE 406.2.11 EV READY AND EVSE INSTALLED SPACE REQUIREMENTS FOR RESIDENTIAL USE GROUPS, JANUARY 1, 2025 AND AFTER

Total Number of Parking Spaces	Minimum Number of EV Ready Spaces	Minimum Number of EVSE Installed Spaces
5—20 spaces	1 spaces	0 spaces
21—49 spaces	2 spaces	1 space
50 spaces and greater	10% of total parking spaces	2% of total parking spaces

Change Section 415.9.3 to read as follows:

415.9.3 Dry Cleaning Plants. The construction and installation of dry cleaning plants shall be in accordance with the requirements of this code, the Mechanical Code, the Plumbing Code and NFPA 32. Dry cleaning solvents and systems shall be classified in accordance with the Fire Code.

Change Section 415.10.1 to read as follows:

415.10.1 Flammable and Combustible Liquids. The storage, handling, processing, and transporting of flammable and combustible liquids shall be in accordance with the Mechanical and Fire Codes.

The installation or removal of above-ground and under-ground storage tanks shall require a permit issued from the City of Saint Louis Fire Department and shall be subject to their regulations. Above-ground storage tanks are also subject to the requirements of the Zoning Ordinance and shall require a building permit for the construction of their structural support.

Add Section 429 to read as follows:

SECTION 429 PARKING LOTS AND OTHER PAVED SURFACES

429.1 Building Permit Requirement. A building permit is required for the construction or resurfacing of any parking lot.

Exceptions:

1. Restriping an existing parking lot that otherwise complies with this chapter provided that the existing stripes are to be repainted. The addition or relocation of parking spaces or aisles requires a building permit.
2. Lots or paved areas serving Use Group R-3, detached single family.
3. Paved areas less than 3,000 square feet for Use Group R-3, multiple single family or Use Group R-2.
4. Pothole and rut repair.
5. All legally-occupied parking lots can perform resurfacing, sealing, and striping as an on-going continued maintenance for the purpose of maintaining the parking lot in good condition.

429.2 Parking Lot Construction. Parking lot construction shall conform to Sections 429.2.1 thru 429.2.9.

429.2.1 Surface. Parking lots shall be paved and surfaced with concrete, bituminous, or other approved materials on an appropriately constructed base course.

429.2.2 Access Lanes. Access lanes, aisles, and parking spaces shall be provided in accordance with the Zoning Ordinance of the City of Saint Louis.

429.2.3 Curb Cuts. Parking lots shall be arranged to afford ready means of entrance and exit, and separate permits shall be secured for curb cuts from the City of Saint Louis Street Department.

429.2.4 Protection of Adjoining Property. A curb at least six inches above the parking lot surface shall be provided around the perimeter of the parking lot, exclusive of driveway areas, to prevent the washing of debris and extraneous matter onto the adjoining property or public right-of-way.

Parking lots shall be provided with concrete wheel stops at least six inches above the parking lot surface and placed to prevent the parked vehicle from extending over the adjacent property or public right-of-way. Wheel stops shall be so positioned such that both wheels of any car parked in the space shall contact the wheel stop. All such wheel stops shall be located inside the property line, adjacent to the public sidewalk(s), public right-of-way, and adjacent properties.

429.2.5 Drainage. Up to 3,000 square feet of parking and other paved areas shall be permitted to discharge via a driveway to each public or private street frontage and an additional 3,000 square feet shall be permitted to discharge into a public alley. Areas larger than this must have any excess area discharge into interceptor basins as specified in the Plumbing Code.

429.2.6 Striping. The parking spaces shall be clearly striped and marked.

429.2.6.1 Accessible spaces. Spaces required to be accessible to persons with disabilities shall be properly designated both by the appropriate logo painted in the space and a sign in front of the space in accordance with ICC/A117.1 listed in Chapter 35 and in full compliance with Section 1106.

429.2.7 Parking Lot Offices. The construction of parking lot offices in excess of 35 square feet shall be in accordance with this code.

429.2.8 Lighting. Parking lots often or more parking spaces intended for night time use shall have a minimum illumination of not less than two footcandles on the parking surface at any location within the parking lot. Such lights shall be so arranged as to direct the light away from adjoining dwellings. Such illumination shall be provided during the evening hours of operation of the premises that the lot serves.

Exception: If the parking lot has adequate light available from existing sources, the requirements for lighting shall be waived at the option of the building official.

429.2.9 Signs. Each operator of a parking lot charging by the hour or by the day shall display in a prominent location a sign clearly visible to motorists bearing:

1. The name of the operator.
2. The usual hours of operation.
3. The highest daily or hourly rate schedule, if applicable.
4. The highest night or special event rate schedule, if applicable.
5. The hours an attendant is normally on duty.

Where a single rate is charged or where a daily or hourly rate is charged, the highest rate in each category shall be posted in figures that shall not be less than four inches in height. If any nightly or special event rate exceeds the hourly or daytime rate, then this rate shall be posted and the figures for each of these rates shall be of the same size as those used to post daily and hourly rates. All other parking rates shall be posted legibly in a prominent location.

Nothing in any ordinance regulating the location of signs shall prohibit the erection of a sign which is not internally illuminated nor exceeds fifteen square feet in area or five feet in its longest dimension to comply with the above requirement for identification of a parking lot. All such signs shall be erected and maintained in accordance with law.

Add Section 430 to read as follows:

SECTION 430 FENCES

430.1 Requirements. Fences shall be subject to the following requirements:

1. No fence exceeding 48 inches in height shall be erected in front of the building line as determined by the guidelines and requirements set forth in the Zoning Ordinance, when constructed for uses in residential zones. Front yard building lines for corner lots are also determined by the provisions set forth in the Zoning Ordinance. Fencing on a corner lot shall not be located within the site distance triangle as defined in the Zoning Ordinance.

2. All other fences in residential zones shall be permitted to be erected to a height not to exceed eight feet along side or rear property lines.

3. Fences in commercial zones shall not exceed ten feet in height.

4. No barbed wire fence or fence topped with barbed wire, razor ribbon, or like material shall be erected for any use group in residential zones. No strand of barbed wire, razor ribbon, or like material on any fence shall be closer than seven feet to the ground.

5. Fences around swimming pools are subject to the requirements described in Section 3109.

6. The property owner shall be responsible for locating property lines as they pertain to location and construction of fences.

7. Two fences of different heights and materials shall be permitted to abut each other on a property line provided that each is on its own property and all height regulations are followed. There are no provisions as to which side the fence must face.

8. No electrically charged fences shall be erected in the City of Saint Louis.

9. No fence shall be erected, built or installed in a side or front yard beyond the building line where there is no sidewalk and where the side or front yard abuts a public street.

CHAPTER 5 IS AMENDED AS FOLLOWS:

Change Section 502.1 to read as follows:

502.1 Premises Identification. Approved numbers or addresses shall be provided for all new buildings in such a position as to be plainly visible and legible from the street or road fronting the property. These numbers shall contrast with their background. Address numbers shall be Arabic numerals or alphabet letters. Numbers shall be a minimum of four inches high with a minimum stroke width of ½ inch.

If there is an alley, numbers shall also be placed on the alley elevation of the premises on which the house, building or structure is located. If there is a garage or carport fronting on an alley, house numbers shall also be placed on the alley elevation of the garage or carport.

CHAPTER 6 IS AMENDED AS FOLLOWS:

Change Table 602 to read as follows:

Table 602

FIRE-RESISTANCE RATING REQUIREMENTS FOR EXTERIOR WALLS BASED ON FIRE SEPERATION DISTANCE a,d,g

Fire Resistance Distance = X (feet)	Type Of Construction	Occupancy Group He	Occupancy Group F-1,M,S-1r	Occupancy Group A,B,E,F-2,I,Ri,S-2,Uh
X	All	3	2	1
3 ≤ X	1A	3	2	1
	Others	2	1	1
10 ≤ X	1A, 1B	2	1	1c
	IIB, VB	1	0	0
	Others	1	1	1c
X ≥ 30	All	0	0	0
For SI: 1 foot = 304.8 mm.				
a. Load bearing exterior walls shall also comply with the fire-resistance requirements of Table 601.				
b. See Section 706.1.1 for party walls.				
c. Open parking garages complying with Section 406 shall not be required to have a fire-resistance rating.				
d. The fire-resistance rating of an exterior wall is determined based upon the fire separation distance of the exterior wall and the story in which the wall is located.				
e. For special requirements for Group H, see Section 415.6. f. For special requirements for Group S aircraft hangers, see Section 412.3.1.				
g. Where Table 705.8 permits nonbearing exterior walls with unlimited area of unprotected openings, the required fire-resistance rating for the exterior walls is 0 hours.				
h. For buildings containing only a Group U occupancy private garage or carport, the exterior wall shall not be required to have a fire-resistance rating where the fire separation distance is 3 feet or greater.				
i. For a Group R-3 building of Type II-B or V-B construction, the exterior wall shall not be required to have a fire-resistance rating where the separation distance is 3 feet or greater.				

Change Section 603.1.2 to read as follows:

603.1.2 Piping. The use of combustible piping materials shall be permitted in accordance with the limitations of the Mechanical Code and the Plumbing Code.

CHAPTER 7 IS AMENDED AS FOLLOWS:

Change Table 705.8 to read as follows:

Table 705.8

MAXIMUM AREA OF EXTERIOR WALL OPENINGS

	Fire Separation Distance (feet)				
Classification Of Opening	**0 to 3 (e)(h)**	**Greater than 3 to 5 (b)**	**Greater than 5 to 10 (d)(f)**	**Greater than 10 to 15 (c)(d)(f)**	**Greater than 15 (c)(f)**
Unprotected	5%	25%	35%	60%	No Limit
Protected	15%	50%	75%	No Limit	No Limit

For SI: 1 foot = 304.8 mm.

a. Values given are percentages of the area of the exterior wall. This table assumes that the openings are reasonably uniformly distributed. Where openings are not reasonably uniformly distributed, the portion of the wall utilized to calculate compliance with Table 704.8 shall be approved.

b. For occupancies in Group R-3, as applicable in Section 101.2, the maximum percentage of unprotected and protected exterior wall openings shall be 25 percent.

c. The area of openings in an open parking structure with a fire separation distance of greater than ten feet shall not be limited.

d. For occupancies in Group H-2 or H-3, unprotected openings shall not be permitted for openings with a fire separation distance of fifteen feet or less.

e. For requirements for fire walls for buildings with differing roof heights, see Section 705.6.1

f. The area of unprotected and protected openings is not limited for occupancies in Group R-3, as applicable in Section 101.2, with a fire separation distance greater than five feet.

g. Buildings whose exterior bearing wall, exterior nonbearing wall and exterior structural frame are not required to be fire-resistance rated shall be permitted to have unlimited unprotected openings.

h. Includes accessory buildings to Group R-3 as applicable in Section 101.2.

i. Not applicable to Group H-1, H-2 and H-3 occupancies.

j. The area of openings in a building containing only a Group U occupancy private garage or carport with a fire separation distance of 3 feet or greater shall not be limited.

k. For openings between S-2 parking garage and Group R-2 building, see Section 705, Exception 2.

Change Section 718.5 to read as follows:

718.5 Combustible Materials in Concealed Spaces in Type I or II Construction. Combustible materials shall not be permitted in concealed spaces of buildings of Type I or II construction.

Exceptions:

1. Combustible materials in accordance with Section 603.

2. Combustible materials exposed within plenums complying with Section 602 of the Mechanical Code.

3. Class A interior finish materials classified in accordance with Section 803.

4. Combustible piping within partitions or shaft enclosures installed in accordance with the provisions of this code.

5. Combustible piping within concealed ceiling spaces installed in accordance with the Mechanical Code and the Plumbing Code.

6. Combustible insulation and covering on pipe and tubing, installed in concealed spaces other than plenums, complying with Section 720.7.

CHAPTER 9 IS AMENDED AS FOLLOWS:

Add Section 901.2.1 to read as follows:

901.2.1 Non-required Systems. Any fire protection system or portion thereof not required by this code shall be permitted to be furnished and installed for partial or complete protection provided that such installed system shall meet all applicable requirements of this code. A building permit shall be required for fire suppression systems not required by this code. A building permit shall not be required for fire detection systems not required by this code.

Exceptions:

1. All High Hazard Use Groups.

2. When stipulated in a decision of the Board of Building Appeals.

3. When ordered by the Building Commissioner or Fire Marshal.

4. When the building owner requests approval and an acceptance test by the Fire Marshal's Office.

Change Section 903.3.5 to read as follows:

903.3.5 Water Supplies. Water supplies for automatic sprinkler systems shall comply with this section and the standards referred in Section 903.3.1. The po-

table water supply shall be protected against backflow in accordance with the requirements of the Plumbing Code. For connections to public waterworks systems, the water supply test used for the design of fire protection systems shall be adjusted to account for seasonal and daily pressure fluctuations based on information from the water supply authority and as approved by the fire code official.

Add Sections 903.3.5.3 and 903.3.5.4 to read as follows:

903.3.5.3 Water Flow Tests. Water flow tests for fire sprinkler systems shall be conducted between the hours of 8:00 a.m. and 4:30 p.m. Monday through Friday.

903.3.5.4 Water Flow Safety Factor. A safety factor shall be applied to all flow tests for fire sprinkler systems. A parallel curve shall be drawn to the actual flow test curve that has been reduced by 10 percent of the static pressure. A sprinkler system design shall not exceed the 10 percent curve.

Change Section 903.3.8 to read as follows:

903.3.8 Limited Area Sprinkler Systems. Limited area sprinkler system attached to domestic service lines shall conform to the following minimum requirements. One sprinkler head per fire area when supplied from a one inch domestic service. Two sprinkler heads per fire area when supplied from a 1½ inch domestic service. Four sprinkler heads per fire area when supplied from a two-inch domestic service. A fire area shall be a confined area which may contain hazardous substances. Limited service sprinklers in any one building shall be limited to a maximum of twenty sprinklers. No sprinkler supply line shall be attached to a domestic service before the domestic water meter.

A backflow preventer is not required on limited area sprinkler systems using approved copper or plastic sprinkler piping.

Change Section 907.6.6 to read as follows:

907.6.6 Monitoring. All fire alarm and detection systems shall be monitored by listed central stations in accordance with NFPA 72. A certificate or placard shall be issued by a recognized listing organization that has listed the prime contractor for all newly installed fire alarm systems in commercial occupancies in accordance with the latest edition of NFPA 72. This regulation shall apply to all fire alarm systems that are newly installed in commercial occupancies for which permits are required. Any existing fire alarm system in a commercial occupancy wherein the fire alarm control panel and fire alarm system components are to be replaced shall be considered newly installed for the purposes of this section. Also, where there is reasonable cause due to noncompliance or faulty conditions, the building official may require an existing fire alarm system meet the same requirements as a newly installed system. Central station service in full compliance with the latest edition of NFPA 72, Chapter 26, shall be maintained at the protected property so long as the requirements for the fire alarm system exist.

Exceptions: Supervisory service is not required for:

1. Single- and multiple-station smoke alarms required by Section 907.2.11.
2. Smoke detectors in Group I-3 occupancies.
3. Automatic sprinkler systems in one- and two-family dwellings.

CHAPTER 11 IS AMENDED AS FOLLOWS:

Add Section 1103.1.1 to read as follows:

1103.1.1 Unknown Use Group. In cases where the previous Group is unknown or not documented, it shall be considered a Change of Use Group, and, as such, accessibility requirements shall be enforced.

Add Sections 1103.3 and 1103.4 to read as follows:

1103.3 Waiver Requirements. In order to request a waiver from the requirements of Chapter 11 Accessibility, a property owner or design professional shall submit a written request to the Commissioner on the Disabled outlining the specific reasons for their request. The Commissioner on the Disabled shall consult with the Building Inspector, Plan Review Section, or other Building Division staff about the property. A recommendation shall be made by the Commissioner on the Disabled to the Building Commissioner. The Commissioner on the Disabled and Building Commissioner shall agree to grant or deny the request for a waiver. The property owner or design professional is informed in writing of the decision by the Commissioner on the Disabled. This decision is not subject to appeal by the Board of Building Appeals. Permits for the renovated or altered building shall only be issued contingent upon compliance with the letter of agreement.

1103.4 Waiver Criteria. A waiver of accessibility requirements maybe granted if any or all of the following conditions exist:

1. It is technically infeasible to achieve accessibility as determined by the Commissioner on the Disabled.
2. The type of business or work being performed at a property, i.e., physically demanding or requiring a

high level of strength and physical mobility, cannot be reasonably performed by a person with a mobility impairment. This is determined by the Commissioner on the Disabled.

3. In an existing multi-floor building with two or more floors, where the functions on the second or other floors above grade are identical to all the functions on the first floor, vertical accessibility can be waived if the first floor is fully accessible. This is determined by the Commissioner on the Disabled on a case by case basis.

Add Section 1104.7 to read as follows:

1104.7 Accessible Routes Within a Site. ICC A117.1 shall have added to it Section 507 as follows:

507 Routes within a site.

507.1 Accessible Routes to Facilities Not Immediately Adjacent to the Public Right-of-Way. Each facility subject to Title II or III of the Americans with Disabilities Act (ADA) (public entities, public accommodations, and commercial facilities) that is not immediately adjacent to the public right-of-way shall provide an accessible route from the primary accessible entrance of the facility to off-street parking areas that serve the facility and to the public sidewalk that is as close as practical to any and all public transit stops in the vicinity. The accessible route shall be the primary pedestrian path.

Exception: Where site conditions, grades, or other obstructions preclude a direct approach, the accessible route shall not deviate unnecessarily from a direct route or involve a significant amount of out-of-direction travel.

507.2 Accessible routes adjacent to vehicular drives. An accessible route located immediately adjacent and parallel to a vehicular drive or parking lane shall be raised a minimum of 6 inches with a vertical curb. Curb ramps and crosswalk markings shall be provided where the accessible route crosses the vehicular drive.

An accessible route located at grade with and parallel to a vehicular drive shall be separated by means of a landscaped berm, a curb, or similar barrier suitable to protect pedestrians from moving vehicles and to act as edge protection.

507.3 Accessible Routes Through Parking Facilities. Where an accessible route passes through a parking facility, it shall be separated from vehicular traffic in accordance with Section 507.2. Perpendicular and angled parking spaces adjacent to an accessible route shall have wheel stops.

Exceptions:

1. Accessible routes crossing drive aisles.

2. Accessible routes with no intervening pathway from disabled designated parking spaces and access aisles and accessible passenger loading zones to accessible entrances.

Change Section 1107.6.2.2.1 to read as follows:

1107.6.2.2.1 Type A Units. In Group R-2 occupancies containing 12 or more dwelling units or sleeping units, at least 2 percent but not less than one of the units shall be a Type A unit. All Group R-2 units on a site shall be considered to determine the total number of units and the required number of Type A units. Type A units shall be dispersed among the various classes of units. Bedrooms in monasteries and convents shall be counted as sleeping units for the purpose of determining the number of units. Where the sleeping units are grouped into suites, only one sleeping unit in each suite shall count towards the number of required Type A units.

Exceptions:

1. The number of Type A units is permitted to be reduced in accordance with Section 1107.7.

2. Existing structures on a site shall not contribute to the total number of units on a site.

CHAPTER 12 IS AMENDED AS FOLLOWS:

Change Section 1205.3.3 to read as follows:

1205.3.3 Court Drainage. The bottom of every court shall be properly graded and drained to a public sewer or other approved disposal system complying with the Plumbing Code.

CHAPTER 14 IS AMENDED AS FOLLOWS:

Change Section 1405.1.1 to read as follows:

1405.1.1 Types I, II, III and IV Construction. On buildings of Types I, II, III and IV construction, exterior wall coverings shall be permitted to be constructed of combustible materials, complying with the following limitations:

1. Combustible wall coverings shall not exceed 10 percent of an exterior wall surface area when the fire separation distance is 3 feet or less.

2. Combustible exterior wall coverings shall be limited to 40 feet in height above grade plane.

3. Combustible exterior wall coverings constructed of fire-retardant-treated wood complying with Section 2302.2 for exterior installation shall not be limited in wall surface area where the fire separation distance is 3

feet or less and shall be permitted up to 60 feet in height above grade plane regardless of fire separation distance.,

4. Wood veneers shall comply with Section 1404.5.

Change Section 1405.1.1.1 to read as follows:

1405.1.1.1 Fire Separation 3 Feet or Less. Where installation on exterior walls having a fire separation distance of 3 feet or less, combustible exterior wall coverings shall not exhibit sustained flaming as defined in NFPA 268.

CHAPTER 15 IS AMENDED AS FOLLOWS:

Change Sections 1502.1 and 1502.2 to read as follows:

1502.1 General. Design and installation of roof drainage systems shall comply with Section 1502 of this code and the Plumbing Code.

1502.2 Secondary (Emergency Overflow) Drains or Scuppers. Where roof drains are required, secondary (emergency overflow) roof drains or scuppers shall be provided where the roof perimeter construction extends above the roof in such a manner that water will be entrapped if the primary drains allow buildup for any reason. The installation and sizing of secondary emergency overflow drains, leaders and conductors shall comply with the Plumbing Code.

CHAPTER 16 IS AMENDED AS FOLLOWS:

Add Section 1603.1.3.1 to read as follows:

1603.1.3.1 City of Saint Louis Criteria. For purposes of this code the ground snow load (Pg) shall be 20 psf.

Add Section 1603.1.4.1 to read as follows:

1603.1.4.1 City of Saint Louis Criteria. For purposes of this code the basic wind speed (3-second gust) shall be 115 mph, Exposure B.

Add Section 1607.16 to read as follows:

1607.16 Change of Occupancy. Any existing structure heretofore approved in which there is not a change of occupancy to an occupancy requiring greater floor live loads is permitted to be continued in use for the originally approved live loads provided that the structure is structurally safe and adequate for the proposed occupancy and the public safety is not endangered thereby. If the approved live load is less than required by this section, the areas designed for the reduced live load shall be posted with the approved load. Placards shall be of an approved design.

In every building, structure, or part thereof of Use Groups A, B, E, F, M, S where there is a change of use or function and in the building official's opinion the live load may exceed the existing allowable floor live load, there shall be a placard posted indicating the maximum allowed floor live load. Structural calculations establishing the maximum allowed floor live load shall be prepared by a Missouri licensed professional engineer. All structural calculations shall bear an original embossed or wet ink seal, original ink signature, and the date the structural calculations were sealed by the Missouri licensed professional engineer on the first sheet or on the cover sheet of the structural calculations.

The maximum allowed floor live load shall be marked on placards of an approved design which shall be supplied and securely affixed by the owner of the building or the owner's authorized agent in a conspicuous place in each space to which they relate. Any placards lost, removed, or defaced shall be replaced by the owner or the owner's agent.

CHAPTER 18 IS AMENDED AS FOLLOWS:

Add Section 1803.7 and 1803.7.1 to read as follows:

1803.7 Hazardous Excavations. Should there be an unfenced excavation or hole or open basement that endangers the sidewalk, alley, or street right-of-way, the Street Department is authorized to, without prior notice, fill or abate such hazard. Should such excavation, hole, or open basement not endanger the public right-of-way but in fact endanger an adjacent building footing, cause an embankment problem, constitute a public safety hazard anywhere on the site, or have accumulated over eighteen inches of standing water for more than seven days which, in the opinion of the Health Department, upon certification, constitutes a vector-control problem, the Building Commissioner shall be permitted to emergency-hire a contractor to fill or partially fill that excavation, hole, or open basement to mitigate the danger. All costs attending such action shall be paid by the owner of said property or premises whereon the violation was permitted to exist; said costs to be collected as described in Section 119.5.

1803.7.1 Adjacent to Excavations. Every excavation on a site located five feet or less from the street lot line shall be enclosed with a barrier not less than six feet high. Where located more than five feet from the street lot line, a barrier shall be erected when required by the building official. Barriers shall be of adequate strength to resist wind pressure as specified in Chapter 16.

Add Section 1804.8 to read as follows:

1804.8 Sanitary Landfills. No grading, excavation, or construction of buildings or structures shall be

permitted on or above land used or formerly used as a sanitary landfill or above decaying deposits of organic materials unless approved by the building official. The building official shall require a comprehensive report on the underlying soils prepared by a Missouri licensed professional engineer. This report shall take proper note of possible formation and release of combustible, explosive, or toxic vapors or gasses emanating from the underlying deposits and shall contain positive construction recommendations for elimination of such hazards.

Change Section 1805.4.3 to read as follows:

1805.4.3 Drainage Discharge. The floor base and foundation perimeter drain shall discharge by gravity or mechanical means into an approved drainage system that complies with the Plumbing Code.

Exception: Where a site is located in a well-drained gravel or sand/gravel mixture soils, a dedicated drainage system is not required.

Change Section 1809.5 to read as follows:

1809.5 Frost Protection. Except where otherwise protected from frost, foundation walls, piers, and other permanent supports of buildings and structures shall be protected from frost by one or more of the following methods:

1. Extend 30 inches minimum below finished grade;
2. Constructing in accordance with ASCE 32-01; or
3. Erecting on solid rock.

Exception: Freestanding accessory structures with an area of 200 square feet or less and an eave height of twelve feet or less shall not be required to be protected.

CHAPTERS 27 AND 29 ARE AMENDED AS FOLLOWS:

Delete Chapter 27 in its entirety. Refer to the Electrical Code.

Delete Chapter 29 in its entirety. Refer to the Plumbing Code.

CHAPTER 31 IS AMENDED AS FOLLOWS:

Change Section 3103.1.2 to read as follows:

3103.1.2 Permit Required. Temporary structures that cover an area in excess of 1,000 square feet, including connecting areas or spaces with a common means of egress or entrance which are used or intended to be used for the gathering together often or more persons, shall not be erected, operated, or maintained for any other purpose without obtaining a permit from the building official.

Change Section 3109 to read as follows:

SECTION 3109 SWIMMING POOLS, SPAS AND HOT TUBS

3109.1 General. Swimming pools, spas and hot tubs shall comply to the requirements of this section of this code provided that these regulations shall not be applicable to any such pool less than 24 inches deep or having a surface area less than 250 square feet, except where such pools are permanently equipped with a water-recirculating system or involve structural materials.

3109.1.1 Permits and Construction Documents. A swimming pool, spa or hot tub or appurtenances thereto shall not be constructed, installed, enlarged, or altered until construction documents have been submitted and a permit has been obtained from the building official. The approval of all authorities having jurisdiction over swimming pools shall be obtained before a permit can be issued.

3109.1.2 Construction Documents. Construction documents shall accurately show dimensions and construction of the pool and appurtenances and properly establish distances to lot lines, buildings, walks, and fences; provide details of the water supply system, drainage, and water disposal systems, and show all appurtenances pertaining to the swimming pool. Detailed construction drawings of structures, vertical elevations, and sections through the pool showing depth shall be included. All construction documents for in-ground swimming pools shall be sealed, signed, and dated by a Missouri licensed design professional.

3109.1.3 Locations. Swimming pools, spas or hot tubs shall not encroach on any front or side yard required by this code or by the governing zoning law, unless in accordance with specific rules of the City of Saint Louis. A wall of a swimming pool shall not be located less than six feet from any rear or side property line or ten feet from any street property line.

3109.1.4 Walkways. All public swimming pools shall have walkways not less than four feet in width extending entirely around the pool. Curbs or sidewalks around any swimming pool shall have a slip-resistant surface for a width of not less than one foot at the edge of the pool, and shall be so arranged as to prevent return pf surface water to the pool.

Change Section 3111.2 to read as follows:

3111.2 Solar Thermal Systems. Solar thermal systems shall be designed and installed in accordance with Section 2606.12, the Plumbing Code, the Mechanical Code and the Fire Code.

CHAPTER 32 IS AMENDED AS FOLLOWS:

Change Section 3202.1.1 to read as follows:

3202.1.1 Structural Support Below Grade. Any part of a building or structure hereafter erected below grade that is necessary for structural support of the building or structure shall not project beyond the lot lines except that the footings of street or alley walls or their supports located at least eight feet below grade shall not project more than twelve inches beyond the lot line. Footings of buildings or structures shall be permitted to project up to six inches into streets or alleys regardless of depth.

Add Section 3202.3.1.1 to read as follows:

3202.3.1.1 Small Awning Exception. A permit shall not be required for the erection, repair, or replacement of fixed awnings less than 40 square feet in projected area or retractable awnings less than 150 square feet in area unless they project over public property. No such awning, however, shall be installed so as to project over property not owned by the premises on which such awning is installed.

Change Section 3202.3.2 and add Section 3202.3.2.1 to read as follows:

3202.3.2 Windows, Architectural Features, and Mechanical Equipment. Where the vertical clearance above grade to projecting windows, architectural features, or mechanical equipment is more than ten feet, one inch of encroachment is permitted for each additional one inch of clearance above ten feet.

3202.3.2.1 Balconies. Balconies shall be located at least ten feet above the grade level.

Add Sections 3202.5 through 3202.6 to read as follows:

3202.5 Signs. Projecting signs, including irons and other fixtures, shall not extend more than five feet into the public right-of-way.

3202.5.1 Signs Projecting into Streets. Projections shall not be nearer than two feet to a curb and not less than ten feet above the curb or public sidewalk.

3202.5.2 Signs Projecting into Alleys. Projections shall not be less than sixteen feet above an alley.

3202.6 Special Encroachments. All other encroachments shall be considered special encroachments where the legal sanction is conveyed by the Board of Public Service. These encroachments shall be so constructed as to be readily removable without endangering the safety of the building. Inspections shall be as set forth in Table 110.7.

CHAPTER 33 IS AMENDED AS FOLLOWS:

Change Section 3305.1 to read as follows:

3305.1 Facilities Required. Sanitary facilities shall be provided during construction, remodeling or demolition activities in accordance with the Plumbing Code.

CHAPTER 35 IS AMENDED AS FOLLOWS:

Modify Chapter 35 by adding the following:

IAPMO International Association of Plumbing and Mechanical Officials
5001 E. Philadelphia Street
Ontario, CA 91761-2816
UPC-09-Uniform Plumbing Code
201.3, 415.9.3, 429.2.5, 603.1.2, 718.5, 903.3.5, 1205.3.3, 1502.1, 1502.2, 1805.4.3, 3111.2, 3305.1

APPENDIX G IS AMENDED AS FOLLOWS:

Change Appendix G to read as follows:

APPENDIX G

FLOOD RESISTANT CONSTRUCTION

SECTION G101 STATUTORY AUTHORIZATION, FINDINGS OF FACT, AND PURPOSES

G101.1 Statutory Authorization. The Legislature of the State of Missouri has delegated the responsibility to local governmental units to adopt floodplain management regulations designed to protect the health, safety, and general welfare. Therefore, the Board of Aldermen of the City of Saint Louis ordains as follows:

G101.2 Findings of Fact.

G101.2 1 Flood Losses Resulting from Periodic Inundation. The special flood hazard areas of the City of Saint Louis, Missouri are subject to inundation which results in loss of life and property, health and safety hazards, disruption of commerce and governmental services, extraordinary public expenditures for flood protection and relief, and impairment of the tax base, all of which adversely affect the public health, safety, and general welfare.

G101.2.2 General Causes of the Flood Losses. These flood losses are caused by:

1. The cumulative effect of development in any delineated floodplain causing increases in flood heights and velocities; and

2. The occupancy of flood hazard areas by uses vulnerable to floods, hazardous to others, inadequately elevated, or otherwise unprotected from flood damages.

G101.2.3. Methods Used to Analyze Flood Hazards. The Flood Insurance Study (FIS) that is the basis of this appendix uses a standard engineering method of analyzing flood hazards which consist of a series of interrelated steps.

1. Selection of a base flood that is based upon engineering calculations which permit a consideration of such flood factors as its expected frequency of occurrence, the area inundated, and the depth of inundation. The base flood selected for this appendix is representative of large floods which are characteristic of what can be expected to occur on the particular streams subject to this appendix. It is in the general order of a flood which could be expected to have a one percent chance of occurrence in any one year as delineated on the Federal Insurance Administrator's FIS, and illustrative materials dated July 17, 1979, as amended, and any future revisions thereto.

2. Calculation of water surface profiles is based on a standard hydraulic engineering analysis of the capacity of the stream channel and overbank areas to convey the regulatory flood.

3. Computation of a floodway required to convey this flood without increasing flood heights more than one foot at any point.

4. Delineation of floodway encroachment lines within which no development is permitted that would cause any increase in flood height.

5. Delineation of flood fringe, i.e., that area outside the floodway encroachment lines but still subject to inundation by the base flood.

G101.3 Statement of Purpose. It is the purpose of this appendix to promote the public health, safety, and general welfare; to minimize those losses described in Article 1, Section B(1); to establish or maintain the community's eligibility for participation in the National Flood Insurance Program (NFIP) as defined in 44 Code of Federal Regulations (CFR) 59.22(a)(3); and to meet the requirements of 44 CFR 60.3(d) by applying the provisions of this appendix to:

1. Restrict or prohibit uses that are dangerous to health, safety, or property in times of flooding or cause undue increases in flood heights or velocities;

2. Require uses vulnerable to floods, including public facilities that serve such uses, be provided with flood protection at the time of initial construction; and

3. Protect individuals from buying lands that are unsuited for the intended development purposes due to the flood hazard.

SECTION G102 DEFINITIONS

G102.1. Scope. Unless specifically defined below, words or phrases used in this appendix shall be interpreted so as to give them the same meaning they have in common usage and to give this appendix its most reasonable application.

100-year flood. See *Base flood*.

Accessary structure. Means the same as *Appurtenant structure*.

Actuarial rates. See *Risk premium rates*.

Administrator. The Federal Insurance Administrator.

Agency. The Federal Emergency Management Agency (FEMA).

Appeal. A request for review of the Floodplain Administrator's interpretation of any provision of this appendix or a request for a variance.

Appurtenant structure. A structure that is on the same parcel of property as the principle structure to be insured and the use of which is incidental to the use of the principal structure.

Area of special flood hazard. The land in the floodplain within the City of Saint Louis subject to a one percent or greater chance of flooding in any given year.

Base flood. The flood having a one percent chance of being equaled or exceeded in any given year.

Basement. Any area of the structure having its floor subgrade (below ground level) on all sides.

Building. See *Structure*.

Chief executive officer or *Chief elected official.* The Mayor of the City of Saint Louis.

Community. The City of Saint Louis, Missouri.

Development. Any manmade change to improved or unimproved real estate, including, but not limited to, buildings or other structures, levees, levee systems, mining, dredging, filling, grading, paving, excavation, or drilling operations, or storage of equipment or materials.

Elevated building. For insurance purposes, a nonbasement building which has its lowest elevated floor raised above ground level by foundation walls, shear walls, posts, piers, pilings, or columns.

Eligible community or *participating community.* A community for which the Administrator has authorized the sale of flood insurance under the National Flood Insurance Program (NFIP).

Existing construction. For the purposes of determining rates, structures for which the "start of construction" commenced before the effective date of the FIRM

or before January 1, 1975, for FIRMs effective before that date. existing construction may also be referred to as existing structures.

Existing manufactured home park or subdivision. A manufactured home park or subdivision for which the construction of facilities for servicing the lots on which the manufactured homes are to be affixed (including, at a minimum, the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads) is completed before the effective date of the floodplain management regulations adopted by the City of Saint Louis.

Expansion to an existing manufactured home park or subdivision. The preparation of additional sites by the construction of facilities for servicing the lots on which the manufactured homes are to be affixed (including the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads).

Flood or *flooding.* A general and temporary condition of partial or complete inundation of normally dry land areas from (a) the overflow of inland or (b) the unusual and rapid accumulation or runoff of surface waters from any source.

Flood Boundary and Floodway Map (FBFM). An official map of a City on which the Administrator has delineated both special flood hazard areas and the designated regulatory floodway.

Flood elevation determination. A determination by the Administrator of the water surface elevations of the base flood, that is, the flood level that has a one percent or greater chance of occurrence in any given year.

Flood elevation study. An examination, evaluation and determination of flood hazards.

Flood fringe. The area outside the floodway encroachment lines, but still subject to inundation by the regulatory flood.

Flood Hazard Boundary Map (FHBM). An official map of this City, issued by the Administrator, where the boundaries of the flood areas having special flood hazards have been designated as (unnumbered or numbered) A zones.

Flood Insurance Rate Map (FIRM). An official map of this City on which the Administrator has delineated both the special flood hazard areas and the risk premium zones applicable to the City.

Flood Insurance Study (FIS). An examination, evaluation, and determination of flood hazards and, if appropriate, corresponding water surface elevations.

Floodplain or *flood-prone area.* Any land area susceptible to being inundated by water from any source (see "flooding").

Floodplain administrator. A Missouri Licensed design professional as appointed by the Building Commissioner.

Floodplain management. The operation of an overall program of corrective and preventive measures for reducing flood damage, including, but not limited to, emergency preparedness plans, flood control works, and floodplain management regulations.

Floodplain management regulations. Ordinances, subdivision regulations, building codes, health regulations, special purpose ordinances (such as floodplain and grading ordinances), and other applications of police power. The term describes such state or local regulations, in any combination thereof, that provide standards for the purpose of flood damage prevention and reduction.

Floodproofing. Any combination of structural and nonstructural additions, changes, or adjustments to structures that reduce or eliminate flood damage to real estate or improved real property, water and sanitary facilities, or structures and their contents.

Floodway or *regulatory floodway.* The channel of a river or other watercourse and the adjacent land areas that must be reserved in order to discharge the base flood without cumulatively increasing the water surface elevation more than one foot.

Floodway encroachment lines. The lines marking the limits of floodways on federal, state and local floodplain maps.

Freeboard. Freeboard is a factor of safety usually expressed in feet above a flood level for purposes of floodplain management. Freeboard tends to compensate for the many unknown factors that could contribute to flood heights greater than the height calculated for a selected size flood and floodway conditions, such as wave action, clogged bridge openings, and the hydrological effect of urbanization on the watershed. For purposes of this code, freeboard shall be at least one foot above the base flood elevation.

Functionally dependent use. A use that cannot perform its intended purpose unless it is located or carried out in close proximity to water. This term includes only docking facilities and facilities that are necessary for the loading and unloading of cargo or passengers, but does not include long-term storage or related manufacturing facilities.

Highest adjacent grade. The highest natural elevation of the ground surface prior to construction next to the proposed walls of a structure.

Historic structure. Any structure that is (a) listed individually in the National Register of Historic Places (a listing maintained by the Department of Interior) or preliminarily determined by the Secretary of the Interior as meeting the requirements for individual listing on the National Register; (b) certified or preliminarily determined by the Secretary of the Interior as contributing to the historical significance of a registered historic district or a district preliminarily determined by the Secretary to qualify as a registered historic district; (c) individually listed on a state inventory of historic places in states with historic preservation programs which have been approved by the Secretary of the Interior; or (d) individually listed on a local inventory of historic places in communities with historic preservation programs that have been certified either (a) by an approved state program as determined by the Secretary of the Interior or (b) directly by the Secretary of the Interior in states without approved programs.

Lowest floor. The lowest floor of the lowest enclosed area, including basement. An unfinished or flood-resistant enclosure, usable solely for parking of vehicles, building access, or storage, in an area other than a basement area, is not considered a building's lowest floor provided that such enclosure is not built so as to render the structure in violation of the applicable floodproofing design requirements of this code.

Manufactured home. A structure, transportable in one or more sections, that is built on a permanent chassis and is designed for use with or without a permanent foundation when attached to the required utilities. The term "manufactured home" does not include a "recreational vehicle."

Manufactured home park or subdivision. A parcel (or contiguous parcels) of land divided into two or more manufactured home lots for rent or sale.

Map. The Flood Hazard Boundary Map (FHBM), Flood Insurance Rate Map (FIRM), or the Flood Boundary and Floodway Map (FBFM) for the City of Saint Louis, issued by the Federal Emergency Management Agency (FEMA).

Market value or *fair market value.* An estimate of what is fair, economic, just, and equitable value under normal local market conditions.

Mean sea level. For purposes of the National Flood Insurance Program (NFIP), the National Geodetic Vertical Datum (NGVD) of 1929 or other datum to which base flood elevations shown on this City's Flood Insurance Rate Map (FIRM) are referenced.

New construction. For the purposes of determining insurance rates, structures for which the "start of construction" commenced on or after the effective date of an initial FIRM or after December 31, 1974, whichever is later, and includes any subsequent improvements to such structures. For floodplain management purposes, "new construction" means structures for which the "start of construction" commenced on or after the effective date of the floodplain management regulations adopted by the City of Saint Louis and includes any subsequent improvements to such structures.

New manufactured home park or subdivision. A manufactured home park or subdivision for which the construction of facilities for servicing the lot on which the manufactured homes are to be affixed (including at a minimum, the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads) is completed on or after the effective date of floodplain management regulations adopted by the City.

(NFIP). The National Flood Insurance Program (NFIP).

Participating community also known as an *eligible community.* A community in which the Administrator has authorized the sale of flood insurance.

Person. Any individual or group of individuals, corporation, partnership, association, or any other entity, including federal, state, and local governments and agencies.

Principally above ground. At least 51 percent of the actual cash value of the structure, less land value, is above ground.

Recreational vehicle. A vehicle which is (a) built on a single chassis; (b) 400 square feet or less when measured at the largest horizontal projections; (c) designed to be self-propelled or permanently towable by a light-duty truck; and (d) designed primarily not for use as a permanent dwelling but as temporary living quarters for recreational, camping, travel, or seasonal use.

Remedy a violation. To bring the structure or other development into compliance with federal, state, or local floodplain management regulations; or, if this is not possible, to reduce the impacts of its noncompliance.

Risk premium rates. Those rates established by the Administrator pursuant to individual City studies and

investigations which are undertaken to provide flood insurance in accordance with Section 1307 of the National Flood Disaster Protection Act of 1973 and the accepted actuarial principles. RISK PREMIUM RATES include provisions for operating costs and allowances.

Special flood hazard area. See *Area of special flood hazard*.

Special hazard area. An area having special flood hazards and shown on an FHBM, FIRM, or FBFM as zones (unnumbered or numbered) A and AE.

Start of construction. Includes substantial-improvements, and means the date the building permit was issued, provided the actual start of construction, repair, reconstruction, rehabilitation, addition placement, or other improvements were within 180 days of the permit date. The actual start means either the first placement of permanent construction of a structure on a site, such as the pouring of slabs or footings, the installation of piles, the construction of columns, any work beyond the stage of excavation, or the placement of a manufactured home on a foundation. Permanent construction does not include land preparation, such as clearing, grading and filling, the installation of streets or walkways, excavation for a basement, footings, piers, foundations, the erection of temporary forms, nor installation on the property of accessory structures such as garages or sheds not occupied as dwelling units or not part of the main structure. For a substantial-improvement, the actual start of construction means the first alteration of any wall, ceiling, floor, or other structural part of a building whether or not that alteration affects the external dimensions of the building.

State coordinating agency. That agency of the state government or other office designated by the governor of the state or by state statute at the request of the Administrator to assist in the implementation of the National Flood Insurance Program (NFIP) in that state.

Structure. For floodplain management purposes, a walled and roofed building, including a gas or liquid storage tank, that is principally above ground, as well as a manufactured home. STRUCTURE, for insurance purposes, means a walled and roofed building, other than a gas or liquid storage tank, that is principally above ground and affixed to a permanent site, as well as a manufactured home on a permanent foundation. For the latter purpose, the term includes a building while in the course of construction, alteration, or repair, but does not include building materials or supplies intended for use in such construction, alteration, or repair unless such materials or supplies are within an enclosed building on the premises.

Substantial damage. Damage of any origin sustained by a structure whereby the cost of restoring the structure to pre-damaged condition would equal or exceed 50 percent of the market value of the structure before the damage occurred.

Substantial improvement. Any reconstruction, rehabilitation, addition, or other improvement of a structure, the cost of which equals or exceeds 50 percent of the market value of the structure before "start of construction" of the improvement. This term includes structures which have incurred "substantial-damage" regardless of the actual repair work performed. The term does not, however, include either (a) any project for improvement of a structure to correct existing violations of state or local health, sanitary, or safety code specifications that have been identified by the local code enforcement official and which are the minimum necessary to ensure safe living conditions, or (b) any alteration of an historic structure provided that the alteration will not preclude the structure's continued designation as an historic structure.

Variance. A grant of relief by the City from the terms of a floodplain management regulation. Flood insurance requirements remain in place for any varied use or structure and cannot be varied by the City.

Violation. The failure of a structure or other development to be fully compliant with the City's floodplain management regulations. A structure or other development without the elevation certificate, other certifications, or other evidence of compliance required by this appendix is presumed to be in violation until such time as that documentation is provided.

Water surface elevation. The height in relation to the National Geodetic Vertical Datum (NGVD) of 1929 (or other datum where specified) of floods of various magnitudes and frequencies in the floodplain.

SECTION G103 GENERAL PROVISIONS

G103.1. Lands to Which this Appendix Applies. This appendix shall apply to all lands within the jurisdiction of the City of Saint Louis identified as numbered and unnumbered A zones and AE zones on the Flood Insurance Rate Map (FIRM) and Flood Boundary and Floodway Map (FBFM) dated July 17, 1979 as amended, and any future revisions thereto. In all areas

covered by this appendix, no development shall be permitted except through the issuance of a floodplain development permit, granted by the Board of Aldermen or its duly designated representative under such safeguards and restrictions as the Board of Aldermen or the designated representative may reasonably impose for the promotion and maintenance of the health, safety, and general welfare of the inhabitants of the community and as specifically noted in Section G105.

G103.2. Floodplain Administrator. A Missouri Licensed design professional as appointed by the Building Commissioner is hereby designated as the Floodplain Administrator.

G103.3 Compliance. No development located within the special flood hazard areas of this community shall be located, extended, converted, or structurally altered without full compliance with the terms of this appendix and other applicable regulations.

G103.4 Abrogation and Greater Restrictions. It is not intended by this appendix to repeal, abrogate, or impair any existing easements, covenants, or deed restrictions. However, where this appendix imposes greater restrictions, the provisions of this appendix shall prevail. All other ordinances inconsistent with this appendix are hereby repealed to the extent of the inconsistency only.

G103.5 Interpretation. In their interpretation and application, the provisions of this appendix shall be held to be minimum requirements, shall be liberally construed in favor of the governing body, and shall not be deemed a limitation or repeal of any other powers granted by state statutes.

G103.6 Warning and Disclaimer of Liability. The degree of flood protection required by this appendix is considered reasonable for regulatory purposes and is based on engineering and scientific methods of study. Larger floods may occur on rare occasions or the flood heights may be increased by manmade or natural causes such as ice jams and bridge openings restricted by debris. This appendix does not imply that areas outside the floodway and flood fringe or land uses permitted within such areas will be free from flooding or flood damage. This appendix shall not create a liability on the part of the City of Saint Louis or any officer or employee thereof for any flood damages that may result from reliance on this appendix or any administrative decision lawfully made hereunder.

G103.7 Severability. If any section, clause, provision, or portion of this appendix is adjudged unconstitutional or invalid by a court of appropriate jurisdiction, the remainder of this appendix shall not be affected thereby.

G103.8 Certificate of Floodplain Status. A Special Inspection of records to indicate whether a property is located within the floodplain area as designated by the Official Floodplain Maps provided by FEMA (Federal Emergency Management Agency) to the City of St. Louis. This letter does not imply that the referenced property will or will not be free from flooding or damage. A property not in a Special Flood Hazard Area could be damaged by a flood greater than that predicted on the FIRM or from a local drainage problem not shown on the map. This letter does not create liability on the part of the City or any officer or employee thereof for any damage that results from reliance on this determination. The fee for this letter shall be as listed in Table 109.3.1.

SECTION G104 ADMINISTRATION

G104.1 Floodplain Permit. A floodplain development permit shall be required for all proposed construction or other development, including the placement of manufactured homes, in the areas described in Section M103.1. No person, firm, corporation, or unit of government shall initiate any development or substantial improvement or cause the same to be done without first obtaining a separate floodplain development permit for each structure or other development.

G104.2 Designation of Floodplain Administrator. The Missouri licensed design professional as designated by the Building Commissioner is hereby appointed to administer and implement the provisions of this appendix.

G104.3 Duties and Responsibilities of Floodplain Administrator. The duties of the Floodplain Administrator shall include, but not be limited to:

1. Review of all applications for floodplain development permits to ensure that sites are reasonably safe from flooding and that the floodplain development permit requirements of this appendix have been satisfied;

2. Review of all applications for floodplain development permits for proposed development to ensure that all necessary permits have been obtained from federal, state, or local governmental agencies from which prior approval is required by federal, state, or local law;

3. Review all subdivision proposals and other proposed new development, including manufactured home parks or subdivisions, to determine whether such proposals will be reasonably safe from flooding;

4. Issue floodplain development permits for all approved applications;

5. Notify adjacent communities and the Missouri State Emergency Management Agency (SEMA) prior to any alteration or relocation of a watercourse, and submit evidence of such notification to the Federal Emergency Management Agency (FEMA);

6. Ensure that the flood-carrying capacity is not diminished and shall be maintained within the altered or relocated portion of any watercourse;

7. Verify and maintain a record of the actual elevation (in relation to mean sea level) of the lowest floor, including basement, of all new or substantially improved structures;

8. Verify and maintain a record of the actual elevation (in relation to mean sea level) that the new or substantially improved nonresidential structures have been floodproofed; and

9. When floodproofing techniques are utilized for a particular nonresidential structure, the Floodplain Administrator shall require certification from a Missouri licensed design professional.

G104.4 Application for Floodplain Development Permit. To obtain a floodplain development permit, the applicant shall first file an application in writing on a form furnished for that purpose. Every floodplain development permit application shall:

1. Describe the land on which the proposed work is to be done by lot, block, and tract, house and street address, or similar description that will readily identify and specifically locate the proposed structure or work;

2. Identify and describe the work to be covered by the floodplain development permit;

3. Indicate the use or occupancy for which the proposed work is intended;

4. Indicate the assessed value of the structure and the fair market value of the improvement;

5. Specify whether development is located in designated flood fringe or floodway;

6. Identify the existing base flood elevation and the elevation of the proposed development;

7. Give such other information as reasonably may be required by the Floodplain Administrator;

8. Be accompanied by plans and specifications for proposed construction; and

9. Be signed by the permittee or his authorized agent who may be required to submit evidence to indicate such authority.

SECTION G105 PROVISIONS FOR FLOOD HAZARD REDUCTION

G105.1 General Standards.

1. No permit for floodplain development shall be granted for new construction, substantial-improvements, and other improvements, including the placement of manufactured homes, within any numbered or unnumbered A zones and AE zones unless the conditions of this section are satisfied.

2. All areas identified as unnumbered A zones on the FIRM are subject to inundation of the 100-year flood; however, the base flood elevation is not provided. Development within unnumbered A zones is subject to all provisions of this appendix. If Flood Insurance Study data is not available, the community shall obtain, review, and reasonably utilize any base flood elevation or floodway data currently available from federal, state, or other sources.

3. Until a floodway is designated, no new construction, substantial improvements, or other development, including fill, shall be permitted within any numbered A zone or AE zone on the FIRM, unless it is demonstrated that the cumulative effect of the proposed development, when combined with all other existing and anticipated development, will not increase the water surface elevation of the base flood more than one foot at any point within the community.

4. All new construction, subdivision proposals, substantial-improvements, prefabricated structures, placement of manufactured homes, and other developments shall require:

A. Design or adequate anchorage to prevent flotation, collapse, or lateral movement of the structure resulting from hydrodynamic and hydrostatic loads, including the effects of buoyancy;

B. Construction with materials resistant to flood damage;

C. Utilization of methods and practices that minimize flood damages;

D. All electrical, heating, ventilation, plumbing, air-conditioning equipment, and other service facilities be designed or located so as to prevent water from entering or accumulating within the components during conditions of flooding;

E. New or replacement water supply systems or sanitary sewage systems be designed to minimize or eliminate infiltration of flood waters into the systems and discharges from the systems into flood waters, and on-site waste disposal systems be located so as to avoid impairment or contamination; and

F. Subdivision proposals and other proposed new development, including manufactured home parks or subdivisions, located within special flood hazard areas are required to ensure that:

I. All such proposals are consistent with the need to minimize flood damage;

II. All public utilities and facilities, such as sewer, gas, electrical, and water systems are located and constructed to minimize or eliminate flood damage;

III. Adequate drainage is provided so as to reduce exposure to flood hazards; and

IV. All proposals for development, including proposals for manufactured home parks and subdivisions, of five acres or 50 lots, whichever is lesser, include within such proposals base flood elevation data.

5. Storage, material, and equipment.

A. The storage or processing of materials within the special flood hazard area that are in time of flooding buoyant, flammable, explosive, or could be injurious to human, animal, or plant life is prohibited.

B. Storage of other material or equipment may be allowed if not subject to major damage by floods, if firmly anchored to prevent flotation, or if readily removable from the area within the time available after a flood warning.

6. Accessory structures. Structures used solely for parking and limited storage purposes, not attached to any other structure on the site, of limited investment value, and not larger than 400 square feet, may be constructed at-grade and wet-floodproofed provided there is no human habitation or occupancy of the structure; the structure is of single-wall design; a variance has been granted from the standard floodplain management requirements of this appendix; and a floodplain development permit has been issued.

G105.2 Specific standards. In all areas identified as numbered and unnumbered A zones and AE zones where base flood elevation data have been provided as set forth in Section G105.1, the following provisions are required:

1. *Residential Construction.* New construction or substantial improvement of any residential structures, including manufactured homes, shall have the lowest floor, including basement, elevated to or above one foot above base flood elevation.

2. *Nonresidential Construction*. New construction or substantial improvement of any commercial, industrial, or other nonresidential structures, including manufactured homes, shall have the lowest floor, including basement, elevated to or above one foot above the base flood elevation or, together with attendant utility and sanitary facilities, be floodproofed so that below the base flood elevation the structure is watertight with walls substantially impermeable to the passage of water and with structural components having the capability of resisting hydrostatic and hydrodynamic loads and effects of buoyancy. A registered professional engineer or architect shall certify that the standards of this subsection are satisfied. Such certification shall be provided to the Floodplain Administrator as set forth in Section G104.3(9).

3. Require, for all new construction and substantial improvements, that fully enclosed areas below lowest floor used solely for parking of vehicles, building access, or storage in an area other than a basement and that are subject to flooding shall be designed to automatically equalize hydrostatic flood forces on exterior walls by allowing for the entry and exit of floodwaters. Designs for meeting this requirement must either be certified by a registered professional engineer or architect or meet or exceed the following minimum criteria:

A. A minimum of two openings having a total net area of not less than one square inch for every square foot of enclosed area subject to flooding shall be provided; and

B. The bottom of all openings shall be no higher than one foot above grade. Openings may be equipped with screens, louvers, valves, or other coverings or devices provided that they permit the automatic entry and exit of floodwaters.

G105.3 Manufactured Homes.

1. All manufactured homes to be placed within all unnumbered and numbered A zones and AE zones on the community's FIRM shall be required to be installed using methods and practices that minimize flood damage. For the purposes of this requirement, manufactured homes must be elevated and anchored to resist flotation, collapse, or lateral movement. Methods of anchoring may include, but are not limited to, use of over-the-top or frame ties to ground anchors.

2. Require manufactured homes that are placed or substantially improved within unnumbered or numbered A zones and AE zones on the community's FIRM on sites:

A. Outside of manufactured home park or subdivision;

B. In a new manufactured home park or subdivision;

C. In an expansion to and existing manufactured home park or subdivision; or

D. In an existing manufactured home park or subdivision on which a manufactured home has incurred substantial-damage as the result of a flood, be elevated on a permanent foundation such that the lowest floor of the manufactured home is elevated to or above one foot above the base flood elevation and be securely attached to an adequately anchored foundation system to resist flotation, collapse, and lateral movement.

3. Require that manufactured homes to be placed or substantially improved on sites in an existing manufactured home park or subdivision within all unnumbered and numbered A zones and AE zones on the community's FIRM that are not subject to the provisions of Section G105.3(2) of this appendix be elevated so that either:

A. The lowest floor of the manufactured home is at or above one foot above the base flood level; or

B. The manufactured home chassis is supported by reinforced piers or other foundation elements of at least equivalent strength that are no less than 36 inches in height above grade and be securely attached to an adequately anchored foundation system to resist flotation, collapse, and lateral movement.

G105.4 Floodway. Located within areas of special flood hazard established in Section G103.1 are areas designated as floodways. Since the floodway is an extremely hazardous area due to the velocity of flood waters that carry debris and potential projectiles, the following provisions shall apply:

1. The community shall select and adopt a regulatory floodway based on the principle that the area chosen for the regulatory floodway must be designed to carry the waters of the base flood without increasing the water surface elevation of that flood more than one foot at any point.

2. The community shall prohibit any encroachments, including fill, new construction, substantial-improvements, and other development within the adopted regulatory floodway unless it has been demonstrated through hydrologic and hydraulic analyses performed in accordance with standard engineering practice that the proposed encroachment would not result in any increase in flood levels within the community during the occurrence of the base flood discharge.

3. If Section G105.4(2) is satisfied, all new construction and substantial-improvements shall comply with all applicable flood hazard reduction provisions of Section G105.

4. In unnumbered A zones, the community shall obtain, review, and reasonably utilize any base flood elevation or floodway data currently available from federal, state, or other sources as set forth in Section G105.1(2).

G105.5 Recreational Vehicles. Require that recreational vehicles placed on sites within all unnumbered and numbered A zones and AE zones on the community's FIRM either:

1. Be on the site for fewer than 180 consecutive days; or

2. Be fully licensed and ready for highway use; or

3. Meet the permitting, elevation, and the anchoring requirements for manufactured homes of this appendix.

A recreational vehicle is ready for highway use if it is on its wheels or jacking system, is attached to the site only by quick-disconnect type utilities and security devices, and has no permanently attached additions.

SECTION G106 FLOODPLAIN MANAGEMENT VARIANCE PROCEDURES

G106.1 Establishment of Appeal Board. The Board of Building Appeals as established by City of Saint Louis shall hear and decide appeals and requests for variances from the floodplain management requirements of this appendix.

G106.2 Responsibility of Appeal Board. Where an application for a floodplain development permit or request for a variance from the floodplain management regulations is denied by the Floodplain Administrator, the applicant may apply for such floodplain development permit or variance directly to the Appeal Board, as defined in Section G106.1.

The Board of Building Appeals shall hear and decide appeals when it is alleged that there is an error in any requirement, decision, or determination made by the Floodplain Administrator in the enforcement or administration of this appendix.

G106.3 Further Appeals. Any person aggrieved by the decision of the Board of Building Appeals may appeal such decision to the Circuit Court as provided in state statute.

G106.4 Floodplain Management Variance Criteria. In passing upon such applications for variances, the Board of Building Appeals shall consider all technical data and evaluations, all relevant factors, standards specified in other sections of this appendix, and the following criteria:

1. The danger to life and property due to flood damage;

2. The danger that materials may be swept onto other lands to the injury of others;

3. The susceptibility of the proposed facility and its contents to flood damage and the effect of such damage on the individual owner;

4. The importance of the services provided by the proposed facility to the City;

5. The necessity to the facility of a waterfront location, where applicable;

6. The availability of alternative locations, not subject to flood damage, for the proposed use;

7. The compatibility of the proposed use with existing and anticipated development;

8. The relationship of the proposed use to the comprehensive plan and floodplain management program for that area;

9. The safety of access to the property in times of flood for ordinary and emergency vehicles;

10. The expected heights, velocity, duration, rate of rise and sediment transport of the flood waters, if applicable, expected at the site; and

11. The costs of providing governmental services during and after flood conditions, including maintenance and repair of public utilities and facilities such as sewer, gas, electrical, and water systems; streets; and bridges.

G106.5 Conditions for Approving Floodplain Management Variances.

1. Generally, variances may be issued for new construction and substantial-improvements to be erected on a lot of ½ acre or less in size contiguous to and surrounded by lots with existing structures constructed below the base flood level, providing items 2 through 6 below have been fully considered. As the lot size increases beyond the ½ acre, the technical justification required for issuing the variance increases.

2. Variances may be issued for the reconstruction, rehabilitation, or restoration of structures listed on the National Register of Historic Places, the State Inventory of Historic Places, or local inventory of historic places upon determination provided the proposed activity will not preclude the structure's continued historic designation.

3. Variances shall not be issued within any designated floodway if any increase in flood levels during the base flood discharge would result.

4. Variances shall only be issued upon a determination that the variance is the minimum necessary, considering the flood hazard, to afford relief.

5. Variances shall only be issued upon (a) a showing of good and sufficient cause, (b) a determination that failure to grant the variance would result in exceptional hardship to the applicant, and (c) a determination that the granting of a variance will not result in increased flood heights, additional threats to public safety, extraordinary public expense, create nuisances, cause fraud on or victimization of the public, or conflict with existing local laws or appendices.

6. The City of Saint Louis shall notify the applicant in writing over the signature of a City official that (a) the issuance of a variance to construct a structure below base flood level will result in increased premium rates for flood insurance up to amounts as high as $25.00 for $100.00 of insurance coverage and (b) such construction below the base flood level increases risks to life and property. Such notification shall be maintained with the record of all variance actions as required by this appendix.

G106.6. Conditions for Approving Variances for Accessory Structures. Any variance granted for an accessory structure shall be decided individually based on a case by case analysis of the building's unique circumstances. Variances granted shall meet the following conditions as well as those criteria and conditions set forth in Sections G106.4 and G106.5 of this appendix.

In order to minimize flood damages during the 100-year flood and the threat to public health and safety, the following conditions shall be included for any variance issued for accessory structures that are constructed at-grade and wet-floodproofed.

1. Use of the accessory structures must be solely for parking and limited storage purposes in zone A only as identified on the City's Flood Insurance Rate Map (FIRM).

2. For any new or substantially damaged accessory structures, the exterior and interior building components and elements (i.e., foundation, wall framing, exterior and interior finishes, flooring, etc.) below the base flood elevation must be built with flood-resistant materials in accordance with Section G105.1(4.2) of this appendix.

3. The accessory structures must be adequately anchored to prevent flotation, collapse, or lateral movement of the structure in accordance with Section G105.1 (4.1) of this appendix. All of the building's structural components must be capable of resisting specific flood-related forces including hydrostatic, buoyancy, and hydrodynamic and debris impact forces.

4. Any mechanical, electrical, or other utility equipment must be located above the base flood elevation or floodproofed so that they are contained within a watertight, floodproofed enclosure that is capable of resisting damage during flood conditions in accordance with Section G105.1 (4.4).

5. The accessory structures must meet all National Flood Insurance Program (NFIP) opening requirements. The NFIP requires that enclosure or foundation walls subject to the 100-year flood contain openings that will permit the automatic entry and exit of flood waters in accordance with Section G105.2 (1.3).

6. The accessory structures must comply with the floodplain management floodway encroachment provisions of Section G105.4. No variances may be issued for accessory structures within any designated floodway if any increase in flood levels would result during the 100-year flood.

7. Equipment, machinery, or other contents must be protected from any flood damage.

8. No disaster relief assistance under any program administered by any federal agency shall be paid for any repair or restoration costs of the accessory structures.

9. The City shall notify the applicant in writing over the signature of a City official that (a) the issuance of a variance to construct a structure below base flood level will result in increased premium rates for flood insurance up to amounts as high as $25.00 for $100.00 of insurance coverage and (b) such construction below the base flood level increases risks to life and property. Such notification shall be maintained with the record of all variance actions as required by this appendix.

10. Wet-floodproofing construction techniques must be reviewed and approved by the City and registered professional engineer or architect prior to the issuance of any floodplain development permit for construction.

SECTION G107 PENALTIES FOR VIOLATION

G107.1 Scope. Violation of the provisions of this appendix or failure to comply with any of its requirements (including violations of conditions and safeguards established in connection with granting of variances) shall constitute a misdemeanor. Any person who violates this appendix or fails to comply with any of its requirements shall, upon conviction thereof, be fined not more than $500.00, and in addition, shall pay all costs and expenses involved in the case. Each day such violation continues shall be considered a separate offense. Nothing herein contained shall prevent the City of Saint Louis or other appropriate authority from taking such other lawful action as is necessary to prevent or remedy any violation.

SECTION G108 AMENDMENTS

G108.1 Scope. The regulations, restrictions, and boundaries set forth in this appendix may from time to time be amended, supplemented, changed, or appealed to reflect any and all changes in the National Flood Disaster Protection Act of 1973; provided, however, that no such action may be taken until after a public hearing in relation thereto at which parties of interest and citizens shall have an opportunity to be heard. Notice of the time and place of such hearing shall be published in a newspaper of general circulation in the City of Saint Louis. At least twenty days shall elapse between the date of this publication and the public hearing. A copy of such amendments will be provided to the Region VII office of the Federal Emergency Management Agency (FEMA). The regulations of this appendix are in compliance with the National Flood Insurance Program (NFIP) regulations.

The degree of flood protection required by this appendix is considered reasonable for regulatory purposes and is based on engineering and scientific methods of study. Larger floods may occur on rare occasions or the flood heights may be increased by manmade or natural causes such as ice jams and bridge openings restricted by debris. This appendix does not imply that areas outside the floodway and flood fringe or land uses permitted within such areas will be free from flooding

or flood damage. This appendix shall not create a liability on the part of the City of Saint Louis or any officer or employee thereof for any flood damages that may result from reliance on this appendix or any administrative decision lawfully made thereunder.

APPENDIX H IS AMENDED AS FOLLOWS:

Change Section H101.2 to read as follows:

H101.2 New Signs. A new sign shall not hereafter be placed, erected, constructed, altered, or maintained except as provided herein and until a permit has been issued by the building official. All signs controlled and regulated by the Zoning Ordinance of the City of Saint Louis or this code shall require building permits.

Exceptions:

1. Ground-mounted political or campaign signs, 32 square feet or less in area, erected on any private property no earlier than 60 days prior to the primary and removed within 30 days after the general election. Violation of this exception will result in a seven day citation letter directed to the owner(s) of the property.
2. Temporary signs announcing the sale of property.
3. The changing of moveable parts of an approved sign that is designed for such changes or the repainting or repositioning of display matter shall not be deemed an alteration.

Add Sections H101.3 through H101.5 to read as follows:

H101.3 Permit Required. No person shall erect, construct, or maintain any sign described in this chapter until a permit for said sign has been issued by the building official. An application for said permit shall be filed with the building official accompanied by construction documents and specifications showing dimensions, materials, and details of the proposed sign. Until all the provisions of this chapter relating to such sign have been complied with and the prescribed fee for such permit has been paid to the building official, a permit shall not be issued.

H101.3.1 Permit Fees. Permit fees for all signs shall be charged at the rate listed in Table 109.3.3.

H101.4 Additional Application Information. All additional application information as required to evaluate the sign's conformance with the Zoning Ordinance of the City of Saint Louis shall be provided.

H101.5 Removal. The building official is authorized to order the removal of any sign that is not maintained in accordance with the provisions of this code. The removal of any sign, including billboards, shall not require a demolition permit but shall require a building permit to alter the sign by removal and shall not be subject to review by the Cultural Resource Office.

Change Section H114.1 to read as follows:

H114.1 In Street or Sidewalk Area. Portable signs shall not be located on public streets or sidewalk areas. Enforcement of this shall be by the Street Department. (Ord. No. 71991, § 2, 2-24-2025; Ord. No. 71990, § 3, 2-25-2025; Ord. No. 71742, § 1, 11-14-2023; Ord. No. 71284, §§ 1—3, 2-11-2021; Ord. No. 70794, § 3, 7-18-2018.)

25.01.030 Penalty.

Any person who shall violate a provision of this code or shall fail to comply with any of the requirements thereof, or who shall erect, construct, alter, extend, repair, remove, demolish, use, or occupy any building, structure, premises, or equipment regulated by this code in violation of an approved construction document or directive of the building official or the Board of Building Appeals, or of a permit or certificate issued under the provisions of this code, shall be subject to, a fine as set forth in Section 25.33.040. Each day that a violation continues shall constitute a separate and distinct offense.

(Ord. No. 71990, § 2, 2-25-2025; Ord. No. 70794, § 4, 7-18-2018.)

Chapter 25.02

ELECTRICAL CODE

Editor's Note:

Ord. No. 70802, adopted July, 6, 2018, repealed and replaced Ord. No. 68831. Ord. No. 68831, adopted Feb. 3, 2011, repealed Ch. 25.02 and enacted a new chapter. The former Ch. 25.02, §§ 25.02.010—25.02.050, pertained to similar subject matter and derived from Ord. No. 65020, §§ 2 and 3, 2000.

Prior ordinance history:

Ords. 68831, 60827, 61751, 63150 and 63620

Sections:

25.02.010 Adopted.
25.02.020 Amendments.
25.02.030 Penalty.

25.02.010 Adopted.

The 2017 National Electrical Code as published by the National Fire Protection Association, Inc., one copy of which is on file in the office of the Register of

the City of Saint Louis, is hereby adopted as the Electrical Code of the City of Saint Louis, in the State of Missouri, pursuant to this chapter and in conformity

with Section 71.943 RSMo for the governing of the design, installation, construction, and maintenance of electrical systems by providing reasonable safeguards to protect the public health and safety against the hazards of inadequate, defective, or unsafe electrical systems and installations as herein provided; and that each and all of the regulations, provisions, penalties, conditions, and terms of said National Electrical Code are hereby referred to, adopted, and made a part hereto as if fully set out in this chapter with the amendments prescribed in Section 25.02.020. If differences occur between a provision modified by this chapter and a provision adopted without modifications, then the modified provision shall control. (Ord. No. 70802, § 2, 7-6-2018.) RSMo: RSMo 67.280 (2016) Adoption of technical codes by reference

25.02.020 Amendments.

The 2017 National Electrical Code is amended and changed in the following respects:

ARTICLE 100 IS AMENDED AS FOLLOWS:

Add Definitions in Article 100 to read as follows:

Administrative authority: The individual, official, board, department, or agency established and authorized by the City of Saint Louis to administer and enforce the provisions of the Electrical Code as adopted or amended. Except as otherwise noted in this code, the Administrative Authority, also referred to as the code official, shall mean the Building Commissioner or the Chief Electrical Inspector or duly authorized employees.

Employee: A person directly employed by a person, firm, corporation, or a limited liability company or other business entity, institution, or organization (license holder as defined in Section 80.21) for wages or salary.

Add new Subsection 110.24 to read as follows:

110.24 Seismic. When seismic bracing is required by the Building Code on any project, electrical systems shall also be braced in accordance with nationally recognized standards.

ANNEX H/ARTICLE 80 IS AMENDED AS FOLLOWS:

Delete Annex H as printed,

Adopt and change Annex H to read as follows:

ANNEX H

ADMINISTRATION AND ENFORCEMENT

80.1 General.

80.1.1 Title. These regulations shall be known as the Electrical Code of the City of Saint Louis, hereinafter referred to as "this code."

80.1.2 Scope. The design, installation, maintenance, alteration, and inspection of electrical systems shall comply with the requirements of this code.

80.1.3 Intent. This code shall be construed liberally and justly to secure its expressed intent, which is to ensure public health, safety, and welfare insofar as they are affected by the installation and maintenance of electrical systems.

80.2 Applicability.

80.2.1 General. The provisions of this code shall apply to all matters affecting or relating to structures or premises as set forth in Section 80.1.1.

80.2.1.1 Matters Not Provided For. Any electrical requirement essential for the safety of an existing or proposed building or structure or for the safety of the occupants thereof and which is not specifically covered by this code shall be determined by the code official.

80.2.2 Existing Structures. The legal use and occupancy of any structure existing on the effective date of adoption of this code, or for which it has been heretofore approved, shall be continued without change except as shall be specifically covered in this code or the Property Maintenance Code.

80.2.3 Change in occupancy. It shall be unlawful to make any change in the use or occupancy of any structure which will subject the structure to any special provisions of this code without approval of the code official. The code official shall certify that such structure meets the intent of the provisions of law governing building construction for the proposed new use and occupancy and that such change does not result in any hazard to public health, safety, or welfare.

80.2.3.1 Continuation of Unlawful Use. The continuation of occupancy or use of a building or structure or part thereof contrary to the provisions of this code shall be deemed a violation and subject to the penalties prescribed in 80.15.4.

80.2.4 Alterations Or repairs. Alterations or repairs to any electrical system shall conform to that required for a new electrical system without requiring the existing electrical system to comply with all the requirements of this code, except as stated in 80.2.2.

Alterations or repairs shall not cause an existing electrical system to become unsafe nor adversely affect the performance of the electrical system.

80.2.4.1 Additional Loads. Where additions or alterations subject parts of existing systems to loads exceeding those permitted herein, such parts shall be made to comply with this code.

80.2.5 Referenced Standards. Where differences occur between provisions of this code and referenced standards, the provisions of this code shall apply.

80.3 Repairs and Maintenance.

80.3.1 Repairs. Minor repairs or replacement of any existing system are permitted to be made in the same manner and arrangement as in the existing system, provided such repairs or replacement are made in a safe manner and are approved. Minor repairs or replacement for purposes of this code shall be defined as:

1. Replacement of a convenience outlet, except where the existing outlet is of the ungrounded type when replaced with grounding type that requires new wiring to provide grounding connection. Replacement units shall have the same current carrying capacity as the existing outlet.

2. Light switch with the same current carrying capacity as the existing switch.

3. Light socket and holder.

4. Light fixture (1 maximum) installed on the same outlet box and having the same current rating.

5. Within a dwelling unit, a fan, blower, pump, or other fractional horsepower motors of the same horsepower rating and having the same electrical characteristics and current rating as the existing, limited to 240 volts.

80.3.2 Maintenance. All electrical systems, both existing and new, shall be maintained in a safe condition. All service equipment, devices, and safeguards which are required by this code or which were required in a building or structure by previous statute shall be maintained in working order. All abandoned electrical/communications systems shall be removed and disposed in a lawful manner.

80.3.2.1 Abandoned or Unsafe Wiring, Electrical Equipment, Fixtures, and Devices. Installed wiring, electrical equipment, fixtures, or devices of any premises found to be in an unsatisfactory or hazardous condition shall be repaired, renovated, replaced, or removed immediately subsequent to the issuance of a written notice of the unsafe or hazardous condition by the Electrical Inspection Section of the Division of Building and Inspection.

80.3.3 Responsibility. The owner, the owner's agent, or the person collecting rent shall be responsible for the safe maintenance of the electrical system in any building or structure at all times.

80.4 Validity.

80.4.1 Partial Invalidity. In the event any part or provision of this code is held to be illegal or void, this shall not have the effect of making void or illegal any of the other parts or provisions thereof which are determined to be legal; and it shall be presumed that this code would have been passed without such illegal or invalid parts or provisions.

80.4.2 Segregation of Invalid Provisions. Any invalid part of this code shall be segregated from the remainder of the code by the court holding such part invalid and the remainder shall remain effective.

80.4.3 Existing Structures. The invalidity of any provision in any section of this code as applied to existing buildings, premises, and structures shall not be held to affect the validity of such section in its application to buildings and structures hereafter erected unless otherwise ordered by the Court.

80.5 Code Official.

80.5.1 General. There is a Section of Electrical Regulations and Inspections within the Division of Building and Inspection which shall have control and enforce all codes, regulations, and ordinances pertaining to electrical installations and systems in accordance with this code.

The head of this Section shall be known as the Chief Electrical Inspector and shall be appointed by the Building Commissioner. Throughout this code, the Building Commissioner, the Chief Electrical Inspector, and their authorized employees shall be referred to as the code official. The Building Commissioner shall be the final decision maker as to the interpretation of this code.

80.5.2 Chief Electrical Inspector. There shall be appointed by the Building Commissioner a Chief Electrical Inspector. The Chief shall have ten years' experience and possess the qualifications established by the Department of Personnel.

80.5.2.1 Electrical Inspectors. There shall be appointed by the code official a sufficient number of electrical inspectors to adequately perform all inspection duties and enforce all ordinances pertaining to the

Section of Electrical Regulation and Inspection in accordance with subsequent sections of this code and City of Saint Louis budgetary constraints. All electrical inspectors shall have had at least five years' experience in the electrical industry and possess the qualifications set forth by the Department of Personnel. One such inspector shall assist the Chief Electrical Inspector. The assistant shall assume the responsibilities of the Chief Electrical Inspector in the Chief's absence.

80.5.3 Relief from Personal Responsibility. The code official and employees charged with the enforcement of this code, while acting for the City of Saint Louis, shall not thereby be rendered liable personally, and are hereby relieved from all personal liability for any damage accruing to persons or property as a result of any act required or permitted in the discharge of official duties. Any suit instituted against any code official or employee because of an act performed in the lawful discharge of duties and under the provisions of this code shall be defended by the legal representative of the City of Saint Louis until the final termination of the proceedings. The code official or any employees shall not be liable for any cost in or arising from any action, suit, or proceeding that is instituted in pursuance of the provisions of this code. Any code official or employee of the Division of Building and Inspection, Department of Public Safety, acting in good faith and without malice, shall be free from liability for acts performed under any of its provisions or by reason of any act or omission in the performance of official duties in connection therewith.

The above protection shall also extend to former employees for work performed during their period of employment with the City of Saint Louis.

80.5.4 Restriction of Employees. Any code official or employee connected with the Electrical Inspection Section, except one whose only connection is that of a member of the Board of Building Appeals established under the Building Code or the Committee of Electrical Examiners, shall not be engaged in or directly or indirectly connected with the furnishing of labor, materials, or appliances for the construction, alteration, or maintenance of a building within the City of Saint Louis or the preparation of construction documents thereof unless that person is the owner of the building; nor shall such code official or employee engage in any work that conflicts with official duties or with the interests of the department.

80.6 Duties and Powers of the Code Official.

80.6.1 General. The code official shall enforce all of the provisions of this code and shall act on any question relative to the mode or manner of construction and the materials to be used in the installation of electrical work except as otherwise specifically provided for by other requirements or in the following Sections 80.6.1.1 through 80.6.7.

80.6.1.1 Suspensions and Cancellations. The code official shall have the power to recommend to the Committee of Electrical Examiners a suspension or revocation of any license granted hereunder if, after notice and opportunity to be heard, the party named therein is found guilty by the Committee of Electrical Examiners of violating this chapter or the rules and regulations established by this chapter. The Committee of Electrical Examiners shall be obligated without further hearing to suspend or revoke such license.

80.6.1.2 Emergency Condemnation. Whenever the code official shall find any building, structure, premises, or portion thereof no matter for what purpose used to be in an unsafe or dangerous condition and that there is an actual and potential danger to the occupants or those in the proximity of any building, structure, or premises which poses an immediate danger to public safety or welfare, the code official shall order the immediate evacuation of said building, structure, or premises. All of the occupants so notified shall immediately vacate the building, structure, or premises and no person shall reenter until authorized to do so by the code official.

Any person who refuses to leave, interferes with the evacuation of other occupants, or continues any operation after having been given an evacuation order, except such person(s) directed to perform work to remove a violation or unsafe condition, shall be deemed in violation of this section whereupon it shall be the duty of the Police Department to immediately remove such person(s) from said building, structure, or premises and prevent anyone from reentering the building, structure, or premises until such time that the Police Department shall have been notified that the same is in a safe condition. Any person who shall violate any provisions of this section shall be, upon conviction, subject to the penalties as provided in 80.15.4.

80.6.1.3 Authority to Placard. The code official has the authority to post a placard in a conspicuous place on a building or premises where the electrical system has been found to be unsafe or inadequate.

80.6.1.4 Placarded Building. Placards shall remain on said building until the required repairs, replacements, or improvements have been made and accepted by the code official and it shall be unlawful to deface or willfully remove any such placard that has been posted on a building without first obtaining consent of the code official. It shall be unlawful for any person to reside in, use, rent, lease, or occupy such building for any purpose while so placarded.

80.6.2 Applications and Permits. No wiring system or electrical equipment shall be installed within or on any building, structure, or premises nor shall any alterations or additions be made in any such existing installations without first filing in the office of the code official an application for a permit to do the work contemplated. Such application shall describe in detail the nature of the work, the location thereof by street and number, the date of the beginning of such work, and the tentative completion date thereof. No person shall begin such work unless and until they shall have submitted a proper application and received a permit. In the case of an emergency, work shall be permitted to begin upon the verbal request of the license holder and verbal permission of the code official upon the condition that a written application shall be filed in the office of the code official per the code official's instructions. No permit provided for in this section shall be assignable or transferable or used to aid or abet any non-licensed person in the performance of electrical work. Should the code official find that permitted work is completed in accordance with the provisions of this code, the official shall, upon the payment of the prescribed inspection fee, approve such work. If the code official should find that the work is not completed in accordance with the provisions of this code or that the work was done by a non-employee as hereinafter provided, the code official is hereby empowered and directed, in addition to the other penalties in this code, to order the electric power company to disconnect the electric service or power from the building, structure, or premises where such work has been done or disconnect the electric service or power from that portion of the building, structure, or premises where such work was done. It shall be unlawful to use, permit the use of, or supply electric current for heating, lighting, or power in any building, structure, or premises unless the required permit has been issued by the code official.

Exceptions:

1. Minor repair work including the replacement of lamps, fuses, or breakers up to 60 amps.

2. The installation, alteration, or repair work performed by a Public Service Agency or Public Utility of communication equipment located outdoors or in building spaces used exclusively for such installations (commonly known as regulated work) up to the customer's point of demarcation and which is under the exclusive control of that utility or agency.

3. The installation, alteration, or repair of electrical equipment of a power or public service company for its use in the generation, transmission, distribution, or metering of electricity.

4. Buildings, structures, or premises owned and operated by the United States of America or the State of Missouri.

5. The installation, alteration, or repair of elevator systems, escalators, moving walks, dumbwaiters, and lifts when inspection and tests are performed in accordance with Missouri Statute 701.359 - 701.380 and the Code of State Regulations (Rules of the Department of Public Safety, Division 40-Division of Fire Safety, Chapter 5-Elevators).

6. Temporary movie sets where there is no public participation.

80.6.2.1 Homeowners. The owner of a single-family dwelling which is owner occupied and used exclusively for living purposes along with the usual accessory buildings may apply for an electrical permit. The homeowner who qualifies as above must pass a written test which will be given to each applicant one time only for each scope of work. This test will be administered without charge. The applicant shall pay the permit fees required by this code. The homeowner will personally purchase all materials and personally perform all labor in connection with the permit being issued. This permit shall be limited to a room addition, repairs, modifications of existing systems, or burglar alarm systems and shall not include electrical service changes, rehab, or new construction.

80.6.3 Notices and Orders. The code official shall issue all necessary notices or orders to ensure compliance with this code. The notice to the person having responsibility for the building or structure found by the code official to be dangerous or in violation of this code shall be directed to that person by name, if known; if not known, then under the name of the owner or

owners of the building or structure as indicated by the records of the Saint Louis Recorder of Deeds Office, and shall be served in any one of the following ways:

1. Deliver to owner - by causing said notice to be delivered to such owner, either in the City of Saint Louis or elsewhere.

2. Posting - by posting a copy of such notice upon the building or structure or premises.

3. Mailing - by mailing such notice or copy thereof enclosed in a sealed envelope, postage prepaid, directed to such owner either at the owner's place of business or residence address in the City or elsewhere, said notice to be deemed served twenty-four hours after the mailing of said notice, in case it is directed to the business or residence address of the owner in the City. Provided that if said owner or owners be nonresidents of the City and have no business addresses or offices in the City, then the said notice shall be deemed served at the end of such period after the mailing thereof as in the ordinary course of transmission of the mail by the United States Postal Service.

4. Publication - by publication in a newspaper of general circulation in the City of Saint Louis or in the "The City Journal," said notice to be deemed served twenty-four hours after publication.

80.6.4 Inspections. The code official shall make all of the required inspections or shall be permitted to accept reports of inspection by authoritative and recognized services or individuals. All reports of such inspections shall be in writing and certified by a responsible officer of such authoritative service or by the responsible individual. The code official is authorized to engage such expert opinion as deemed necessary to report upon unusual technical issues that arise. All inspections shall be deemed valid for 30 days.

80.6.5 Identification. The code official shall carry proper identification when inspecting structures or premises in the performance of duties under this code.

80.6.6 Rule Making Authority. The code official shall have authority as necessary in the interest of public health, safety, and general welfare to adopt and promulgate rules and regulations to interpret and implement the provisions of this code to secure the intent thereof and to designate requirements applicable because of local climatic or other conditions. Such rules shall have the effect of furthering safety.

80.6.7 Department Records. The code official shall keep official records of electrical applications received, permits, licenses issued, fees collected, reports of inspections, and notices and orders issued. Such records shall be retained in the official records for three years except notices and orders which have been complied with need not be kept.

80.7 Approval.

80.7.1 Approved Materials and Equipment. All materials, equipment, and devices shall be approved by a nationally recognized testing agency and shall be constructed and installed in accordance with such approval.

80.7.2 Modifications. For minor variations and where there are practical difficulties or undue hardship, the code official shall have the right to vary or modify the provisions of this code upon application by the owner or the owner's representative, provided that the spirit and intent of the law is observed and public health, safety, and welfare is ensured.

80.7.3 Materials and Equipment Reuse. Materials, equipment, and devices shall not be reused unless such elements have been reconditioned, tested, and placed in good and proper working condition and approved by the code official.

80.7.4 Alternative Materials and Equipment. The provisions of this code are not intended to prevent the use of any material or equipment not specifically prescribed by this code provided that any such alternative has been approved. An alternative material, equipment, or method of construction shall be approved where the code official finds that the proposed design is satisfactory and complies with the intent of the provisions of this code and that the material, method, or work offered is, for the purpose intended, at least the equivalent of that prescribed in this code in quality, strength, effectiveness, fire-resistance, durability, and safety.

80.7.4.1 Research and Investigations. Sufficient technical data shall be submitted by the applicant to substantiate the proposed use of any material or assembly. If it is determined that the evidence submitted is satisfactory proof of performance for the use intended, the code official shall approve its use subject to the requirements of this code. The costs of all tests, reports, and investigations required under these provisions shall be paid by the applicant.

80.8 Application for Permit.

80.8.1 Permit Required. No person shall commence any electrical work until a permit for such work has been issued by the code official. An electrical permit is not required for minor repairs as defined in

Section 80.3.1. The fees for said permits shall be paid to the City of Saint Louis for each permit herein required. All work shall be done by a certified employee, firm, corporation, limited liability company, or other business entity, institution, or organization who holds an electrical license in whose name the permit or permits required by this section and Section 80.21.3 are issued. Any person, firm, or corporation who shall fail to comply with or who shall violate any of the provisions of this section or the permit shall be subject to the penalty provisions of Section 80.15.4.

80.8.2 Form. The application for a permit for electrical work shall be recorded on forms prepared and provided by the code official and accompanied by an adequate written description of the proposed electrical work.

80.8.3 By Whom Application Is Made. The application for a permit shall be made by the license holder responsible for the installation of all or part of any electrical system.

80.8.4 Description of Work. The applicant shall describe the work to be installed, the location of the work, the cost of the work, the use and occupancy of the building in which the work is to be performed, and the date such work is to commence.

80.8.5 Construction Documents. The code official is authorized to require the submission and approval of construction documents in triplicate showing the nature and extent of the proposed work before a permit is issued. If, in the course of the work, it is found necessary to make any change from the approved construction documents on which a permit has been issued, amended construction documents shall be submitted and, if approved, a supplementary permit shall be issued to cover the change after the same conditions required to secure the original permit have been satisfied.

80.8.6 Amendments to Application. Subject to the time limitations of Section 80.9.2, amendments to the construction documents, application or other records accompanying the same shall be filed at any time before completion of the work for which the permit is sought or issued. Such amendments shall be deemed part of the original application and shall be filed in the same manner as the original.

80.9 Permits.

80.9.1 Action on Application. The code official shall examine or cause to be examined all applications for permits and amendments thereto. If the application or construction documents do not conform to the requirements of all pertinent laws relating to electrical systems, such application shall be rejected in writing, by fax, or by phone stating the reasons therefor. If the code official is satisfied that the proposed work conforms to the requirements of this code and all laws and ordinances applicable thereto, a permit shall be issued as soon as practicable. An electrical permit shall not be transferable.

80.9.2 Time Limitation of Permit. A permit for any proposed work shall be deemed to have been abandoned six months after the date of filing, except rehabs and new construction for one year, unless such permit has been diligently prosecuted. If abandonment has occurred, initial fees due, plus any penalties, shall still be paid and re-application submitted together with new fees. The code official shall be permitted to grant one or more extensions of time for additional periods not exceeding one hundred eighty days if there is reasonable cause.

80.9.3 Previous Approvals. Except for unsafe electrical systems or installations, this code shall not require changes in the electrical system of a building for which a lawful permit has been heretofore issued or otherwise lawfully authorized, and the installation of which shall have been actively prosecuted within 90 days after the effective date of this code and completed with dispatch.

80.9.4 Revocation of Permit. The code official shall revoke a permit or approval issued under the provisions of this code in case of any false statement or misrepresentation of fact in the application or on the construction documents upon which the permit or approval was based. A permit shall also be considered for revocation under the following provisions:

1. The owner of the property or the contractor shall request cancellation in writing stating the reasons for the request for cancellation. No refund of fees shall be made.

2. The code official shall be permitted to revoke the permit for fraud, misrepresentation on the application for permit, for noncompliance with the code, or for failure to pay the prescribed fees.

80.9.4.1 Work Not in Compliance. Should the electrical contractor install work that is not in compliance with the Electrical, Fire, or Building Code, the contractor shall be directed by the code official to make necessary corrections to assure code compliance and no other permits shall be issued to said contractor until

such work is corrected and approved by the code official. Violations shall be corrected within 30 calendar days from notice of noncompliance.

80.9.5 Approval in Part. The code official is authorized to issue a permit for the installation of part of an electrical system before the application for the whole system has been submitted, provided adequate information and detailed statements have been filed complying with all the pertinent requirements of this code. Holders of such permits shall proceed at their own risk with the work and without assurance that a permit for the entire system shall be granted. No premises shall be energized until an appropriate electrical inspection is completed and a permit is issue for any interior modification.

80.9.6 Start of Work. An application for a permit shall be made to the code official at least 24 hours prior to start of work except for emergency work as set forth in Section 80.6

80.10 Moved Structures.

80.10.1 General. Before any structure that has been moved within or into the City of Saint Louis is occupied, the electrical system shall be inspected and tested for safe operation and compliance with the requirements of this code. The testing shall be done by a licensed electrician.

Exception: Electrical systems within manufactured units bearing certification of the Missouri Public Service Commission.

80.11 Conditions of Permit.

80.11.1 Payment of Fees. A permit shall not be issued until the fees prescribed in Section80.12.2 have been paid. A permit shall be permitted to be revoked if payment is returned for insufficient funds.

80.11.2 Compliance with Code. The permit shall grant permission to proceed with the work and shall not be construed as authority to violate, cancel, or set aside any of the provisions of this code except as specifically stipulated by variation as granted by the Board of Building Appeals.

80.11.3 Compliance with Permit. All work shall conform to the approved application for which the permit has been issued and any approved amendments thereto.

80.12 Fees and Surcharges.

80.12.1 General. Fees for the inspection herein prescribed shall be paid to and collected by the City of Saint Louis. These fees shall be paid upon permit application or paid from an escrow account established by the contractor or license holder with the City of Saint Louis.

80.12.2 Fees. Table 80.12.2 represents the electrical inspection fees that are to be collected.

Table 80.12.2

ELECTRICAL INSPECTIONS FEES

Item	Inspection Fee 1st Unit	Inspection Fee Each Additional Unit	Fee	Remarks & Requirements
Application Fee			$25.00	
Acceptance Test Fee (a)			$200.00	Fire Alarm Testing
Acceptance Test Fee (Off Hours) (b)			$300.00	Fire Alarm Testing
Electrical Outlets (c)	$60.00	$2.00		Commercial/Industrial
Service Equipment under 600V (d)				Commercial/Industrial
a) Service up to and including 400A	$60.00	$60.00		
b) Service over 400A and up to and including 600A	$90.00	$90.00		
c) Service over 600A	$150.00	$150.00		
Service Equipment 600V & over (d)	$150.00	$150.00		Commercial/Industrial
Sub-Panels and Disconnects (e)	$50.00	$10.00		Commercial/Industrial
Transformers (f)	$50.00	$10.00		Commercial/Industrial
X-rays (g)	$60.00	$60.00		Commercial/Industrial
Carnivals - per location (h)	$75.00	$5.00		
Re-inspection (i)	$30.00	$30.00		Disconnected Service
Special inspection (j)	$30.00	$30.00		Property Maintenance
Re-inspection (k)			$50.00	Faulty or Incomplete Work
Re-inspection for Certification (l)			$125.00	

Item	Inspection Fee 1st Unit	Inspection Fee Each Additional Unit	Fee	Remarks & Requirements
Residential (m)				
Repair or modify	$60.00	$60.00		
Service only	$60.00	$60.00		
Repair or modify with service	$100.00	$100.00		
Residential new construction (n) including rehab of 50% or more	$120.00	$120.00		

Notes:

a) Fire Alarm Acceptance Test. The final inspection to insure that the newly installed fire alarm system and all components are functioning properly. This fee includes one follow-up inspection if the system does not comply on the first inspection. Any additional inspections after the initial follow-up will be assessed at the acceptance test fee.

b) Fire Alarm Acceptance Test (off hours). In addition to the initial fee for an acceptance test this fee is for inspections requested before 8am or after 5pm Monday-Friday or anytime during weekend hours.

c) Electrical Outlets. Each and every point on the electrical system where power or light is derived for any purpose whatsoever. Each point on communications, data, burglar or fire alarm equipment shall be considered an electrical outlet. In computing for signs, each 500W of load or fraction thereof shall be considered an electrical outlet. In computing outlets for fixtures, each fixture shall be counted as an electrical outlet. Each 10 feet or fraction thereof of raceways for future use shall be counted the same as outlets.

d) Service Equipment. Each and every point on the electrical system where power is derived from the public utility or a private generating plant.

e) Sub-Panels and Disconnects. Each and every point on the electrical system where disconnects or protective devices are mounted on individual panel or single framework.

f) Transformers. Each and every point on the electrical system where the primary voltage is either increased or decreased. This shall be limited to 25kW or larger.

g) X-Rays. Each and every point on the electrical system where an individual X-ray device or machine is served.

h) Carnivals. The fee shall be charged for the inspection of a carnival or circus wiring and electrical equipment. An inspection is required for every change of location.

i) Re-inspection - Disconnected Service. The fee shall be charged for re-inspection of structures or premises for which the electrical service has been not in use for a period of six months or more. It shall be unlawful to use, or permit the use of, or to supply electric current for heating, lighting or power in any structure or on any premises until the required re-inspection has been made. Should the required re-inspection not be applied for, the Electrical Inspection Supervisor shall order the electrical power company, who, upon receiving notice from the Electrical Inspection Supervisor shall immediately disconnect the electrical service or current to such building, structure or premises and no electric service shall be furnished until so ordered by the Electrical Inspection Supervisor.

j) Property Maintenance Inspection. The fee shall be charged for inspection of existing electrical systems made upon the request of the owner, tenant or buyer.

k) Re-inspection - Faulty or Incomplete Work. The fee shall be charged when a re-inspection is required due to faulty work, work not complete or unable to gain entry at the time of requested inspection. The re-inspection fee shall be doubled for each occurrence.

l) Re-inspection for Certification. Inspections of nursing homes, drug rehabilitation and similar facilities shall be made for an inspection fee of $125.00.

m) Residential - Rewiring. Inspections of rewiring, rehabilitation, additions and alterations to existing electrical wiring and equipment installation where no new electrical service is to be installed shall be made for a fee of $60.00 for the first residential (housing) unit and $60.00 for each additional unit in the same building. This shall include burglar and fire alarm systems and takeover of an existing system. Where new electrical service is to be installed in buildings designated and described above, and as part of additions and alterations to electrical systems and equipment installation, the fee shall be $100.00 for the first unit and $100.00 for each additional unit in the same building. Where a new electrical service(s) only is installed, the fee shall be $100.00 for the first unit and $100.00 for each additional unit in the same building.

n) Residential - New Construction/Rehab. Inspection of new construction, including new electrical service shall be made for a fee of $120.00 for the first residential (housing) unit and $120.00 for each additional unit in the same building.

80.12.2.1 City of Saint Louis Projects. Electrical permit fees shall be waived for contractors working in structures and property owned and operated by the City of Saint Louis. This shall apply only to those structures located within the geographic limits of the City of Saint Louis. However, permits and inspections shall be required.

80.12.3 Fees for Abandoned Work or Revoked Permit. Fees shall not be waived or forgiven for any elec-

trical permit that has been abandoned or revoked. The fees shall be computed from Table 80.12.2 as if all work had been completed.

80.12.4 Work Started Surcharge. In case any work for which a permit required by this code is started or proceeded with prior to the permit being issued, the total normal fees applicable shall be increased by the amount as set forth in Table 80.12.4. The payment of said surcharge shall not relieve any persons from fully complying with the requirements of this code for performance or execution of the work, nor from other penalties prescribed by law.

Table 80.12.4

SCHEDULE FOR SURCHARGE ELECTRICAL PERMIT FEES

Permit fee	Surcharge fee
$0.00 TO $50.00	$30.00
$51.00 TO $200.00	$90.00
$201.00 TO $500.00	$240.00
$501.00 TO $2,000.00	$360.00
$2,001.00 TO $10,000.00	$480.00
OVER $10,000.00	$600.00

80.13 Inspection.

80.13.1 Installation. During the installation of electric systems and equipment, the code official shall make inspections to insure compliance with the provisions of this code.

Exception: Where applications for unusual design or magnitude of construction are filed or where code reference standards require special or engineering inspections, the code official is authorized to require project representation by an engineer. This project representative shall keep records and submit reports as required by the code official. This special professional service requirement shall be determined prior to the issuance of the permit and shall be a prerequisite for the permit issuance. All fees and costs related to the performance of special professional services shall be borne by the owner.

80.13.2 Concealing Work. Work in connection with an electric system shall not be covered or concealed until it has been inspected and permission to conceal has been approved. The code official shall have the authority to require any concealment to be removed. Failure to comply with this order of the code official shall result in condemnation of the structure or any part thereof and prohibition of occupancy.

80.13.2.1 Notice Before Concealing. Every contractor, after the completion of any electrical work, shall notify the Electrical Inspection Section before it is concealed. This notice shall describe in detail the work accomplished, giving the address by street and number, and the permit number; and thereupon the code official shall inspect same. The surcharge for failure to notify the code official before concealing work shall be as set forth in Table 80.12.4.

80.13.3 Final Inspections. Upon completion of the electrical work and before final approval is given, a final inspection shall be made. All violations of the code and any approved construction documents and permit shall be noted, and the holder of the permit shall be notified of the violations.

80.13.3.1 Notice. Every contractor, within twenty-four hours after the completion of any electrical work, shall notify the Electrical Inspection Section. This notice shall describe in detail the work accomplished, giving the address by street and number, and the permit number; and thereupon the code official shall inspect same. The surcharge for failure to notify the code official shall be as set forth in Table 80.12.4.

80.13.4 Re-Inspection - Discontinued Service. An electrical inspection shall be required on structures from which the service has been disconnected and structures which have not been in use for six months or more prior to the restoration of service. An application shall be made and the fee set forth in Table 80.12.2 shall be paid to receive such inspection. If the system is found to be satisfactory, the code official shall notify the electrical utility that service be restored.

80.13.5 Right of Entry. In the discharge of duties, the code official or an authorized representative shall have the authority to enter at any reasonable time any building, structure, or premises in the City of Saint Louis for which a permit has been issued and for which a notice of approval has not been issued in accordance with Section 80.17. For all other buildings, structures, or premises, when the code official has reasonable cause to believe that a code violation exists, the code official is authorized to enter the building, structure, or premises at reasonable times to inspect. Prior to entering a space not otherwise open to the general public, the code official shall make a reasonable effort to locate the owner or other person having charge or control of the building, structure, or premises, present proper identification, and request entry. If requested entry is refused or not obtained, the code official shall pursue recourse as provided by law.

80.13.6 Legal Compliance. All legal assistance necessary to effect compliance of the electrical systems of such premises with this section shall be supplied to the code official by the City Counselor and other City of Saint Louis agencies. The Fire and Police Departments of the City of Saint Louis shall, upon request, assist the code official in the enforcement of this code.

80.14 Workmanship.

80.14.1 General. All work shall be conducted, installed and completed in a workmanship-like manner so as to secure the results intended by this code.

80.15 Violations.

80.15.1 Unlawful Acts. It shall be unlawful to install, extend, alter, repair, or maintain electrical systems in or adjacent to buildings except in conformity with this code. It shall also be unlawful for any person, firm, or corporation to state, advertise, write, print, or in any way infer that they perform electrical work or hold a license as an electrical contractor, communications contractor, industrial electrician, or limited elevator electrical contractor in the City of Saint Louis without actually holding such license. This shall include, but not be limited to, business cards, bills, or advertising in any manner. In addition, it shall be unlawful to use a license in such a way that enables unlicensed persons, firms, corporations, limited liability company, or other business entity, institution, or organization without a license to perform work in the City of Saint Louis.

80.15.1.1 Unlawful Use. It shall be unlawful to use, permit the use of, or to supply electric current for heating, lighting, or power in any structure or on any premises until the required re-inspection has been made and a certificate of approval issued by the code official. Should the required inspection not be applied for and the certificate of approval not issued, the code official shall be permitted to order the electric power company to immediately disconnect the electric service, power, or current from such building, structure, or premises. The electric power company, upon receiving notice from the code official, shall immediately disconnect the electric service or current to such building, structure, or premises and no electric service or current shall be furnished until so ordered by the code official.

80.15.2 Notice of Violation. The code official shall serve a written notice of violation or order as heretofore described in Section 80.6.3 to the person, firm, or corporation, limited liability company, or other business entity, institution, or organization responsible for the installation of electrical work in violation of the provisions of this code, or in violation of a detailed statement or a plan approved thereunder, or in violation of a permit or license issued under the provisions of this code. Such order shall direct the discontinuance of the illegal action or condition and the abatement of the violation. Failure to comply with the written order of the code official shall result in revocation of the bond or license of that person, firm, corporation, limited liability company, or other business entity, institution, or organization.

80.15.2.1 Method of Notice. If the inspection, reinspection, or test reveals failure of any new installation, addition, alteration, or replacement to comply with the provisions of this code, the installation shall be declared unlawful by the code official and a written notice of violation shall be given or mailed to either the responsible individual, person, firm, corporation, limited liability company, or other business entity, institution, or organization to whom the permit was issued, or to the owner of the structure, or both; or to the legally authorized representative of the permit holder, owner, or both.

80.15.3 Prosecution of Violation. If the notice of violation is not complied within 30 days, the code official shall be permitted to request the legal counsel of the City of Saint Louis to institute the appropriate proceedings at law or in equity to restrain, correct, or abate such violation, or to require the removal or termination of the unlawful use of any electrical system in violation of the provisions of this code or of the order or direction made pursuant thereto.

80.15.3.1 Noncompliance. On new construction, alterations, additions, or replacements, violations not complied within the time cited shall be permitted to be referred to court. On existing structures which involve occupancy, general rehabilitation, or other problems which involve the development of construction documents or issuance of a building permit, restoration to original occupancy, or other problems which require concurrent action by other departments of the City of Saint Louis, the code official shall be permitted to make the compliance date of any violation notice with regard to any given premises coincide with the compliance date of violations against the same premises by said other departments of the City of Saint Louis.

80.15.4 Violation Penalties. Any person, partnership, corporation, limited liability company, or other business entity, institution, or organization who shall violate any provision of this code or shall fail to comply

with any of the requirements thereof or who shall install electrical work in violation of approved construction documents or directive of the code official, or of a permit or license issued under the provisions of this code, shall be subject to immediate arrest and, upon conviction, be fined not more than $500.00 or by imprisonment not exceeding 30 days or both such fine and imprisonment. Each day that a violation continues shall be deemed as a separate and distinct offense.

80.15.5 Abatement of Violation. The imposition of the penalties herein prescribed shall not preclude the legal officer of the City of Saint Louis from instituting appropriate action to prevent unlawful construction or to restrain, correct, or abate a violation, or to prevent illegal occupancy of a building, structure, or premises, or to stop an illegal act, the conduct of business, or the use of a building, structure, or premises.

80.15.6 Failure to Comply. Failure to comply with 80.15.1 through 80.15.5 will result in an imposition up to $500.00 fine that may be added to the tax assessment of the property owner or installing party, or both.

80.15.7 Appeals. Any owner or owners, tenant or tenants, lessee or lessees, occupant or occupants of such building, structure, or premises aggrieved by any action of the code official under the provisions of this chapter shall be permitted to appeal such action to the Board of Building Appeals as provided in the Building Code.

80.16 Stop Work Order.

80.16.1 Notice. Upon notice from the code official that work on any building or structure is being prosecuted contrary to the provisions of this code or in an unsafe and dangerous manner or without permit, such work shall be immediately stopped upon issuance of a stop work order. The stop work order shall be in writing and shall be given to the owner of the property involved, or to the owner's agent, or to the person doing the work. It shall state the conditions under which work will be permitted to resume. The work shall not resume until approval is granted and the stop work order is lifted by the code official. Notwithstanding the provisions of any other ordinance, there shall be no automatic stay on an appeal of a stop work order.

80.16.2 Unlawful Continuance. Any person who shall continue any electrical work in or about the structure after having been served with a stop work order except such work as that person is directed to perform to remove a violation or unsafe conditions shall be subject to immediate arrest and, if convicted, be subject to the penalty provisions of Section 80.15.4.

80.17 Notice of Approval.

80.17.1 Approval. After final inspections indicate that the work complies in all respects with this code, a notice of approval shall be issued by the code official.

80.17.2 Partial Occupancy. Upon the request of the holder of a permit, the code official shall be permitted to issue a partial authorization before the entire work covered by the permit is completed, provided that such portion or portions will be put into service safely prior to full completion of the structure without endangering public health or welfare.

80.18 Unsafe Conditions.

80.18.1 General. All electrical installations, regardless of type, which constitute a hazard to human life, health, or welfare or to property are hereby declared illegal and shall be abated by repair and rehabilitation or removal, or by cessation of service.

80.19 Emergency Measures.

80.19.1 Imminent Danger. When there is an actual and immediate condition which would endanger life, the code official is hereby authorized and empowered to order and require the occupants to vacate a structure forthwith. The code official shall cause to be posted at each entrance to such structure a notice reading as follows: THIS STRUCTURE IS UNSAFE AND HAS BEEN CONDEMNED FOR OCCUPANCY. It shall be unlawful for any person to enter such structure except for the purpose of making the required repairs or removal. The procedure for this notice shall be as set out in the Building Code.

80.20 Committee of Electrical Examiners.

80.20.1 Qualifications; Appointment. The Mayor is hereby authorized and directed to appoint five persons to serve as members of the Committee of Electrical Examiners. One member shall be a journeyman electrician who shall have been engaged in the electrical business for a period of not less than five years; one member shall be a licensed electrical contractor who shall have continuously engaged in the electrical contracting business for at least five years; one member shall be a registered professional engineer specializing in electrical engineering; one member shall be a registered architect; one member shall be selected from the public at large. All members shall be residents of the City of Saint Louis and at least twenty-one years of age.

80.20.2 Term of Office. All appointments shall be made for a term of four years except appointments to fill vacancies which shall be for the unexpired term. The Committee shall select one of its members who shall serve as Chairman until the Chairman's successor is elected. The Committee shall from time to time adopt such rules and regulations as be reasonably necessary to govern its procedure and to carry out the provisions of this article. All appointments shall be continuous until a successor or a re-appointment has been made.

80.20.3 Compensation. The members of the Committee of Electrical Examiners shall be compensated for services rendered on a per meeting basis as established by Civil Service provisions for such committees.

80.20.4 Meetings. The Committee of Electrical Examiners shall meet as directed by the Chairman.

80.20.5 Quorum. A majority of the members of said Committee shall constitute a quorum for the transaction of business. A quorum may constitute the use of electronic means.

80.20.6 Duties of the Committee of Electrical Examiners. It shall be the duty of the Committee of Electrical Examiners to maintain minutes of their meetings and to ascertain by written and oral examination the knowledge and experience of all applicants for a license to engage in the business as described in Section 80.21 of this code to issue, refuse to issue, suspend, or revoke the license to those who successfully pass the examinations of the Committee of Electrical Examiners. The examination shall be designed to test and ascertain the applicant's knowledge, skill, ability, and competency in practical electrical installations, electrical theory and practice, and the knowledge of the provisions of this code. The scores of all written and oral examinations and minutes of meetings shall be public record available for public inspection.

80.20.6.1 Retest. Upon failure to receive a passing grade of 75% or greater, the applicant shall wait 90 days before they may retest. If the applicant fails again they shall wait 180 days before they can retest. Each time the applicant must resubmit their application to the Board of Electrical Examiners for approval to retest. Applicants that resubmit after one year shall also be required to submit application fees from Table 80.21.8

80.20.7 Appeals. Whenever any person, firm, corporation, limited liability company, or other business entity, institution, or organization shall be aggrieved by any finding or decision of the code official regarding any matter covered by Section 80.21 of this Code, they shall appeal this finding or decision within thirty days to the Committee of Electrical Examiners. The Committee of Electrical Examiners shall be permitted to promulgate rules pertaining to the conduct of their Committee and prescribe the form of such appeal. The fee for such filing shall be as set forth in Table 80.21.8. The decision of the Committee of Electrical Examiners shall be permitted to be further appealed to the Board of Building Appeals within thirty days of the decision of the Committee of Electrical Examiners.

80.21 License.

80.21.1 Types of License. The Committee of Electrical Examiners shall grant the following licenses required to engage in the electrical contracting business. Contractor's licenses may be held for one contracting firm and their immediate employees. All employees of such firms shall be licensed as journeyman or apprentice electricians in accordance with Section 80.21.1.5.

80.21.1.1 Electrical Contractor's License. The Committee of Electrical Examiners shall grant a license to any person found to be qualified to engage in the business of installing, erecting, or altering any electrical service or equipment and making service corrections on material, wiring, fixtures, machinery, and other apparatus to be used or in use for the generation and utilization of electricity, the transmission of light, lighting (direct or indirect), hybrid systems, heat, air conditioning, or power in or on any building or premises in the City of Saint Louis; or for installing, erecting, or altering electrical apparatus for remote controls or systems that are pertinent to public health or safety; or grounding or bonding of any type, including static or cathodic; and all raceways. This shall include, but not be limited to, all circuits or systems such as fire alarms, security devices, card readers, and burglar alarms that interface with or control building systems or circuits which are interrupted or completed by remote means such as AC/DC, radio frequencies of any kind, radio frequency shielding, optical fiber cables and raceways, closed-loop and programmed power distribution, photocells, lasers, or any work or part thereof as specified in this code.

All equipment wiring in a device greater than 24V shall be installed by a licensed electrical contractor.

80.21.1.2 Communications Contractor's License. The Committee of Electrical Examiners shall grant a limited license to allow any person found to be qualified to engage in the business of installing or repairing low voltage limited energy communication equipment,

which shall include the installing or repairing of burglar alarm systems or fire alarm systems. Public address systems, wired music systems, and associated amplifiers from the output shall be permitted to be installed or serviced by holders of a license as a communications contractor. Other work to be permitted to be performed by a communications contractor shall include telephones, telephone outlets, burglar alarm outlets consisting of door contacts, window contacts, local alarm bell or horn, touch pads, card readers, motion detectors, infrared detectors, radio and television equipment, community antenna television and radio distribution systems, provided the system does not exceed 24V nominal.

80.21.1.3 Limited Elevator Electrical Contractor's License. The Committee of Electrical Examiners shall grant a license to allow any person found to be qualified to engage in the business of installation, wiring, alteration, or repair of equipment associated with the following systems: elevators, escalators, moving walks, dumb waiters, and lifts. Such work shall be limited to elevator equipment located in the hoistways, machine rooms, or equipment pits and shall be permitted to be interconnected.

80.21.1.4 Industrial-Maintenance Electrician's License. The Committee of Electrical Examiners shall grant a license to allow any person found to be qualified to engage in the work of installing, erecting, or maintaining electrical wiring, fixtures, apparatus, equipment, devices, or components thereof that are used in or on industrial buildings and premises occupied by the license holder. The license shall be issued in the name of the company for which the industrial electrician does work. This license is limited to that company's premises only. The industrial-maintenance electrician must be a full-time employee of that company.

80.21.2 Application for License. The Committee of Electrical Examiners shall receive, record, and preserve all applications from persons made for a license to engage in any kind of business aforesaid so long as such license is in effect. An applicant for a license must be at least twenty-one years of age, be employed in the electrical industry full time (minimum 40 hours per week) by only one employer, and satisfy one of the following experience conditions:

1. An applicant for license shall furnish written evidence that he or she is a graduate electrical engineer of an accredited college or university and has two years practical electrical experience in the construction industry, or that he or she is a graduate of an electrical trade school and has at last four years of practical experience on electrical work or that he or she has had at least two years of practical experience planning, laying out, supervising, and installing wiring, apparatus, or equipment for electrical light, heat, and power beyond the practical experience requirements for a journeyman's certificate as recognized by the United States Bureau of Labor Standards; or

2. An applicant shall submit written evidence that he or she has had at least six years of previous experience in personally installing, altering, or repairing electric wiring for electric light, heat, or power. In lieu of previous practical experience, credit shall be permitted to be allowed for each year of successful completion of a recognized trade school if the majority of courses taken by the applicant were primarily directed at education in the electrical industry. No credit shall be granted any applicant for experience gained illegally as determined by the Committee of Electrical Examiners. Letters of reference from licensed electrical contractors shall be submitted attesting to the applicant's practical experience and character; or

3. An applicant shall be a graduate of any two year trade school or technical college of recognized standing and in addition shall have had four years of practical experience in an occupation or business governed by the Committee of Electrical Examiners. Letters of reference from licensed electrical contractors shall be submitted attesting to the applicant's practical experience and character.

If a corporation or a business is registered under the Fictitious Name Act, RSMo 7.200 (1969), the applicant must be a full-time employee of that corporation or business. Each application shall bear the name of the individual applicant and be signed by the applicant. The code official shall submit each such application to the Committee of Electrical Examiners and, upon approval, applicant shall pass the prescribed test (recognized for 1 year from the date of testing).

80.21.2.1 Business Requirements. As a license holder in establishing or operating a business, the license holder must:

1. Be a full-time (minimum 40 hours per week) employee of one company only and shall not serve in that capacity at the same time for more than one person, partnership, or corporation;

2. Have and maintain an established street addressed place of business with all necessary occupancy permits;

3. Have and maintain someone in attendance and on premises at same established place of business to receive calls during regular business hours. (Said business hours being defined as Monday through Friday 8.00 a.m.—5.00 p.m. excluding legal holidays);

4. Have and continuously maintain a licensed business answering service during all non-regular business hours.

5. Have all service-type vehicles engaged in the business visibly identified with the name, address, and telephone number of the business (minimum 3 inches tall).

80.21.3 Requirements for Permits. No person shall engage in any work set forth in this code unless and until:

1. They shall have been granted by the Committee of Electrical Examiners a license to engage in the business specified in their application;

2. They shall have made the deposit and furnished the bond hereinafter prescribed and obtained the license hereinbefore prescribed;

3. They shall have all current permit fees paid.

No person shall install or cause to have installed any of the work hereinbefore named unless such work shall be done by a person complying with the provisions of this code.

80.21.4 Bonds/Certificate of Limited Liability Insurance. Prior to acceptance of any application, the applicant for an electrical contractor, limited elevator electrical contractor license, or communications contractor license shall file with the Electrical Inspection Section the following:

80.21.4.1 Bonds Required. The applicant for an electrical contractor or limited elevator electrical contractor license shall file with the Electrical Inspection Section an indemnifying bond with good and sufficient sureties and in the sum of twenty-five thousand dollars. The applicant for a communications contractor license shall file with the Electrical Inspection Section an indemnifying bond with good and sufficient sureties in the sum of twenty- five thousand dollars. Such bonds shall name as insured the City of Saint Louis for the use and benefit of any person with whom such applicant shall thereafter contract to do electrical contracting, communications contracting, limited elevator electrical contracting, or industrial - maintenance electrical work to indemnify any such person for damages sustained on account of the failure of such applicant to perform the work as contracted in accordance with the provisions and requirements hereof relating to the performance of electrical contracting, communications contracting, limited elevator electrical contracting. Such indemnifying bond shall be written by a person, firm, or corporation authorized to do business in the State of Missouri and shall be approved by the Comptroller of the City of Saint Louis prior to the issuance of a license. Any lapse shall require re-application to the Board of Electrical Examiners along with proper fees and be re-tested.

80.21.4.2 Certificate for Limited Liability Insurance Required. The applicant for an electrical contractor, limited elevator electrical contractor license, or communications contractor license shall file with the Electrical Inspection Section a Certificate of Limited Liability in the amount of $1,000,000.00.

80.21.5 Renewal of License. Each holder of a license as set forth in Sections 80.21.1.1 thru 80.21.1.4 shall renew their license annually subject to the fees specified in Table 80.11.8. Electrical or Industrial-Maintenance License holders shall provide proof of continuing education or the equivalent on the changes in the current adopted Electrical Code shall be provided at the time of renewal. A minimum of 0.8 CEUs or 8 classroom hours shall be required.

80.21.5.1 Change of Name. Each holder of a license as set forth in Sections 80.21.1.1 through 80.21.1.4 shall, upon changing the name of their company or corporation, notify the Electrical Inspection Office and are subject to the license renewal fees in Table 80.21.8. Prior to name change the license holder shall have all open permits pass a final inspection and all permit fees shall be paid.

80.21.5.2 Inactive Status. License holders within the City of St. Louis who wish to make their license inactive shall notify the code official in writing as to the effective date. Fee for a license on inactive list will be as set forth in Table 80.21.8. To reactivate a license, the license holder will need to submit documentation to show work experience for the last three years (i.e., W-2s). The license holder will need to provide proof of continuing education in the current adopted Electrical Code. Prior to inactive status, the license holder shall have all open permits pass a final inspection and all permit fees shall be paid.

80.21.6 Revocation of License. The Committee of Electrical Examiners shall be authorized to revoke any

license hereby granted after public hearing pursuant to the notice requirements of this code where the Committee of Electrical Examiners finds any of the following:

1. That the license holder obtained the license by fraud or misrepresentation.

2. That the license holder intentionally violated any of the provisions of this code or any other provision of the codes adopted by the City of Saint Louis.

3. That the license holder is found to be negligent in their work or found to be unfit or incompetent in the work of electrical or communication contracting.

4. That the license holder has been convicted of a crime or of violating an ordinance involving moral turpitude.

5. That the license holder has obtained permits for personnel not licensed by the Committee of Electrical Examiners or in their employ.

6. That the license holder supervising performance of the business has served in that capacity at the same time for more than one person, partnership or corporation, or that the license holder is not a full-time employee (40 hours minimum) of the contracting firm.

7. That the information on licensee's application is simultaneously used as information and proof for any other license in the City of Saint Louis.

8. That the license holder is in arrears on payment of any City of Saint Louis tax levies, electrical permit fees, business license fees, or indemnifying bonds. Notice to the Committee shall be in writing from the appropriate agency.

The Committee of Electrical Examiners shall immediately notify the License Collector and the code official of such revocation in writing. The License Collector shall forthwith revoke the business license of the license holder upon receipt of said notice.

80.21.7 License Collector's Authority. The License Collector is hereby authorized to issue annual business licenses to electrical contractors, communications contractors, limited elevator electrical contractors, and industrial - maintenance electricians upon submission of the license issued by the Committee of Electrical Examiners to engage in their respective electrical field.

80.21.8 Application Fee. The application fee for electrical contractors, industrial - maintenance electricians, communications contractors, and limited elevator electrical contractors shall be charged as specified in Table 80.21.8 on a per exam basis. Such fee is not refundable.

Table 80.21.8

APPLICATION FOR LICENSE FEES

Item	Fee	Duration	Section	Remarks and Requirements
Committee of Electrical Examiners				
Appeal Filing Fee	$150.00		80.20.7	Per Appeal
License				
Electrical Contractor:				
Application Fee	$150.00		80.21.1.1	Charged per application for license
License Renewal	$150.00	1 Year		
Communications Contractor:				
Application Fee	$150.00		80.21.1.2	Charged per application for license
License Renewal	$150.00	1 Year		
Limited Elevator Electrical Contractor:				
Application Fee	$150.00		80.21.1.3	Charged per application for license
License Renewal	$150.00	1 Year		
Industrial-Maintenance Electrician:				
Application Fee	$150.00		80.21.1.4	Charged per application for license
License Renewal	$150.00	1 Year		
License Inactive	$25.00		80.21.5	At the time of license inactive
The license holder is responsible for the payment of all fees for permits and licenses owed by the company, corporation, or partnership for which he holds the license.				

80.21.9 Examination Fee. Examination fees shall be charged by the testing agency on a per exam basis. (Ord. No. 70802, § 3, 7-6-2018.)

25.02.030 Penalty.

Any person who shall violate a provision of this code or shall fail to comply with any of the requirements thereof, or who shall erect, construct, alter, extend, repair, remove, demolish, use, or occupy any building, structure, premises, or equipment regulated by this code in violation of an approved construction document or directive of the building official or the Board of Building Appeals, or of a permit or certificate issued under the provisions of this code, and shall, upon conviction thereof, be punished by a fine of not more than $500.00, or by imprisonment not exceeding 90 days, or both such fine and imprisonment. Each day that a violation continues shall constitute a separate and distinct offense. (Ord. No. 70802, § 4, 7-6-2018.)

Chapter 25.03

MECHANICAL CODE

Editor's Note:

Ord. No. 70800 repealed and replaced Ordinance No. 68639 and Ordinance No. 68847, adopting the 2018 International Mechanical Code with amendments, including Appendix A. Ord. No. 68639, §§ 1—3, adopted April 21, 2010, repealed ch. 25.03 and enacted a new chapter. The former ch. 25.03, §§ 25.03.010—25.03.730, pertained to similar subject matter and derived from Ord. No. 65021 §§ 2 and 3 (part), 2000; and Ord. No. 65926 § 1, 2003.

Sections:

25.03.010 Adopted.
25.03.020 Amendments.
25.03.030 Penalty.

25.03.010 Adopted.

The 2018 International Mechanical Code as published by the International Code Council, Inc., one copy of which is on file in the office of the Register of the City of Saint Louis, being marked and designated as the International Mechanical Code, including Appendix A, is hereby adopted as the Mechanical Code of the City of Saint Louis, in the State of Missouri, pursuant to this chapter and in conformity with RSMo 71.943, for the governing of the design, installation, construction, and maintenance of mechanical systems by providing reasonable safeguards to protect the public health and safety against the hazards of inadequate, defective, or unsafe mechanical systems and installations as herein provided; and that each and all of the regulations, provisions, penalties, conditions, and terms of said Mechanical Code are hereby referred to, adopted, and made a part hereto as if fully set out in this chapter with the amendments prescribed in Section 25.03.020. If differences occur between a provision modified by this chapter and a provision adopted without modification, then the modified provision shall control. (Ord. No. 70800, § 2, 7-6-2018.)

RSMo:

RSMo 67.280 (2016) Adoption of technical codes by reference

25.03.020 Amendments.

The 2018 International Mechanical Code is amended and changed in the following respects:

CHAPTER 1 IS AMENDED AS FOLLOWS:

Delete Chapter 1 as published in its entirety.

Add new Chapter 1 to read as follows:

CHAPTER 1

ADMINISTRATION

SECTION 101 GENERAL

101.1 Title. These regulations shall be known as the Mechanical Code of the City of Saint Louis, hereinafter referred to as "this code."

101.2 Scope. This code shall regulate the design, installation, maintenance, alteration, relocation, and inspection of mechanical systems that are installed and utilized to provide control of environmental conditions and related processes within buildings. This code shall also regulate those mechanical systems, system components, equipment, and appliances specifically addressed herein. The installation of fuel gas distribution piping and equipment, fuel gas-fired appliances, and fuel gas-fired appliance venting systems shall be regulated by the Fuel Gas Code.

101.2.1 Appendices. Provisions in the appendices shall not apply unless specifically adopted. Appendix A is hereby adopted for use by the City of Saint Louis.

101.3 Intent. The purpose of this code is to provide minimum standards to safeguard life and limb, health, property, and public welfare by regulating and controlling the design, construction, installation, quality of materials, location, operation, and maintenance or use of mechanical systems. This code shall be construed to secure its expressed intent, which is to insure

public health, safety, and welfare insofar as they are affected by the installation and maintenance of mechanical systems.

101.4 Severability. If a section, subsection, sentence, clause, or phrase of this code is for any reason held to be unconstitutional, such decision shall not affect the validity of the remaining portions of this code.

SECTION 102 APPLICABILITY

102.1 General. Where there is a conflict between a general requirement and a specific requirement, the specific requirement shall govern. Where, in a specific case, different sections of this code specify different materials, methods of construction, or other requirements, the most restrictive shall govern.

102.2 Existing Installations. Except as otherwise provided for in this chapter, a provision in this code shall not require the removal, alteration, or abandonment of nor prevent the continued utilization and maintenance of a mechanical system lawfully in existence at the time of the adoption of this code.

102.3 Maintenance. Mechanical systems, both existing and new, and parts thereof shall be maintained in proper operating condition in accordance with the original design and in a safe and sanitary condition. Devices or safeguards that are required by this code shall be maintained in compliance with the edition of the code under which they were installed. The owner or the owner's authorized agent shall be responsible for maintenance of mechanical systems. To determine compliance with this provision, the code official shall have the authority to require a mechanical system to be reinspected.

The inspection for maintenance of HVAC systems shall be performed in accordance with ASHRAE/ ACCA/ANSI Standard 180.

102.4 Additions, Alterations, or Repairs. Additions, alterations, renovations, or repairs to a mechanical system shall conform to that required for a new mechanical system without requiring the existing mechanical system to comply with all the requirements of this code. Additions, alterations, or repairs shall not cause an existing mechanical system to become unsafe, hazardous, or overloaded.

Minor additions, alterations, renovations, and repairs to existing mechanical systems shall meet the provisions for new construction unless such work is done in the same manner and arrangement as was in the existing system, is not hazardous, and is approved.

102.5 Change in Occupancy. It shall be unlawful to make a change in the occupancy of any structure which will subject the structure to any special provision of this code applicable to the new occupancy without approval. The code official shall certify that such structure meets the intent of the provisions of law governing building construction for the proposed new occupancy and that such change of occupancy does not result in any hazard to public health, safety, or welfare.

102.6 Historic Buildings. The provisions of this code relating to the construction, alteration, repair, enlargement, restoration, relocation, or moving of building or structures shall not be mandatory for existing buildings or structures identified and classified by United States, the State of Missouri, or the City of Saint Louis as historic buildings when such buildings or structures are judged by the code official to be safe and in the public interest of health, safety, and welfare regarding any proposed construction, alteration, repair, enlargement, restoration, relocation, or moving of buildings.

102.7 Moved Buildings. Except as determined by Section 102.2, mechanical systems that are a part of buildings or structures moved into or within the City of Saint Louis shall comply with the provisions of this code for new installations.

102.8 Referenced Codes and Standards. The codes and standards referenced in this code shall be those that are listed in Chapter 15 and such codes and standards shall be considered part of the requirements of this code to the prescribed extent of each such reference and as further regulated in Sections 102.8.1 and 108.2.2 *Exception:* Where enforcement of a code provision would violate the conditions of the listing of the equipment or appliance, the conditions of the listing and the manufacturer's installation instructions shall apply.

102.8.1 Conflicts. Where conflicts occur between provisions of this code and referenced standards, the provisions of this code shall apply. Referenced standards shall be permitted to be updated by rule making authority of the Building Commissioner.

102.8.2 Provisions in Referenced Codes and Standards. Where the extent of a reference to a referenced code or standard includes subject matter that is within the scope of this code, the provisions of this code, as applicable, shall take precedence over the provisions in the referenced code or standard.

102.9 Requirements Not Covered by This Code. Requirements necessary for the strength, stability, or proper operation of an existing or proposed mechanical system or for the public safety, health, and general welfare not specifically covered by this code shall be determined by the code official.

102.10 Other Laws. The provisions of this code shall not be deemed to nullify any provisions of local, state, or federal law.

102.11 Application of References. References to chapter section numbers or to provisions not specifically identified by number shall be construed to refer to such chapter, section, or provision of this code.

SECTION 103 SECTION OF MECHANICAL EQUIPMENT INSPECTION

103.1 General. There is hereby created the Section of Mechanical Equipment Inspection within the Division of Building and Inspection which shall have control and enforce all codes, regulations, and ordinances pertaining to mechanical installations and systems in accordance with this code. The head of this Section shall be known as the Mechanical Equipment Inspection Supervisor, who shall be appointed by the Building Commissioner. Throughout this code, the Mechanical Equipment Inspection Supervisor, the Chief Mechanical Engineer, the Building Commissioner, and their authorized employees shall be referred to as the code official.

103.2 Mechanical Equipment Inspection Supervisor. There shall be appointed by the Building Commissioner a Mechanical Equipment Inspection Supervisor. The Supervisor shall have a minimum of five years' experience as a Mechanical Inspector and possess the qualifications established by the Department of Personnel.

103.3 Deputies. There shall be appointed by the code official a sufficient number of Mechanical Equipment Inspectors to adequately perform all inspection duties and enforce all ordinances pertaining to the Mechanical Equipment Inspection Section in accordance with subsequent sections of this code and City of Saint Louis budgetary constraints. All Mechanical Inspectors shall have had at least three years' experience and possess the qualifications set forth by the Department of Personnel.

103.3.1 Assistant to the Supervisor. One such inspector shall assist the Mechanical Equipment Inspection Supervisor. The assistant shall assume the responsibilities of the Mechanical Equipment Inspection Supervisor in the Supervisor's absence or disability.

103.3.2 Restriction of Employees. An official or employee connected with the Mechanical Equipment Inspection Section, except one whose only connection is that of a member of the Board of Stationary Engineers, shall not be engaged in or directly or indirectly connected with the furnishing of labor, materials, or appliances for the construction, alteration, or maintenance of a building in the City of Saint Louis or the preparation of construction documents thereof unless that person is the owner of the building; nor shall such code official or employee engage in any work that conflicts with official duties or with the interests of the department.

103.4 Liability. The code official and employees charged with the enforcement of this code, while acting for the City of Saint Louis, shall not thereby be rendered liable personally and are hereby relieved from all personal liability for any damage accruing to persons or property as a result of any act required or permitted in the discharge of official duties.

Any suit or criminal complaint instituted against any code official or employee because of an act performed in the lawful discharge of duties and under the provisions of this code shall be defended by the legal representative of the City of Saint Louis until the final termination of the proceedings. The code official or any employees shall not be liable for any cost in or arising from any action, suit, or proceeding that is instituted in pursuance of the provisions of this code. Any code official or employee of the Division of Building and Inspection, Department of Public Safety, acting in good faith and without malice shall be free from liability for acts performed under any of its provisions or by reason of any act or omission in the performance of official duties in connection therewith.

The above protection shall also extend to former employees for work performed during their period of employment with the City of Saint Louis.

SECTION 104 DUTIES AND POWERS OF THE CODE OFFICIAL

104.1 General. The code official shall enforce all of the provisions of this code and shall act on any question relative to the installation, alteration, repair, maintenance, or operation of all mechanical systems,

devices, and equipment except as otherwise specifically provided for by statutory requirements or as provided for in Sections 104.1.1 through 104.8.

104.1.1 Emergency Condemnation. Whenever the code official shall find any building, structure, premises, or portion thereof no matter for what purpose used to be in an unsafe or dangerous condition and that there is an actual and potential danger to the occupants or those in the proximity of any building, structure, or premises which poses an immediate danger to public safety or welfare, the code official shall order the immediate evacuation of said building, structure, or premises. All of the occupants so notified shall immediately vacate the building, structure, or premises and no person shall re-enter until authorized to do so by the code official.

Any person who refuses to leave, interferes with the evacuation of other occupants, or continues any operation after having been given an evacuation order by the code official except such person(s) directed to perform work to remove a violation or unsafe condition shall be deemed in violation of this section whereupon it shall be the duty of the Police Department to immediately remove such person(s) from said building, structure, or premises and prevent anyone from re-entering the building, structure, or premises until such time that the Police Department shall have been notified by the Building Division that the same is in a safe condition.

Any person who shall violate any provisions of this section shall, upon conviction thereof, be penalized as set forth in Section 25.03.030.

104.1.2 Authority to Placard. The code official has the authority to post a placard in a conspicuous place on a building or premises where the mechanical system has been found to be unsafe or inadequate.

104.1.3 Placarded Building. Placards shall remain on said building until the required repairs, replacements, or improvements have been made and accepted by the code official and it shall be unlawful to deface or willfully remove any such placard that has been posted on a building without first obtaining consent of the code official. It shall be unlawful for any person to reside in, use, rent, lease, or occupy such building for any purpose while so placarded.

104.1.4 Rule Making Authority. The Building Commissioner shall have authority, as necessary in the interest of public health, safety, and general welfare, to adopt and promulgate rules and regulations; to interpret and implement the provisions of this code; to secure the intent thereof; and to designate requirements applicable because of local climatic or other conditions. Such rules shall not have the effect of waiving structural or fire performance requirements specifically provided for in this code, or of violating accepted engineering practice involving public safety.

104.1.5 Accepted Engineering Practice. In the absence of provisions not specifically contained in this code or approved rules, the regulations, specifications, and standards listed in Chapter 15 shall be deemed to represent accepted engineering practice in respect to the material, equipment, system, or method of construction therein specified.

104.2 Applications and Permits. The code official shall receive applications for and issue permits for the installation, replacement, relocation, and alteration of mechanical systems and equipment; inspect the premises for which such permits have been issued; and enforce compliance with the provisions of this code. Such application shall describe in detail the nature of the work and the location thereof by street and number. No person shall begin such work unless and until they shall have submitted a proper application and received a permit. In the case of an emergency, work may begin upon the condition that such application has been submitted on line at stlcitypermits.com prior to commencement of job.

Exception: Buildings, structures, or premises owned and occupied by the United States of America or the State of Missouri.

104.3 Inspections. The code official shall make all of the required inspections or the code official may accept reports of inspection by authoritative and recognized services or individuals. All reports of such inspections shall be in writing and certified by a responsible officer of such authoritative service or by the responsible individual. The code official is authorized to engage such expert opinion as deemed necessary to report upon unusual technical issues that arise subject to the approval of the appointing authority.

104.3.1 Dangerous, Hazardous, Unsanitary, or Unapproved Installations. The code official shall have the authority to seal out of service mechanical equipment, devices, and appurtenances covered by the Building and Mechanical Codes when, in the code official's opinion, any of these items are in an unsafe, hazardous, or unsanitary condition, or if the installation was made without obtaining the necessary permit or permits, or if the installation violates the provisions of these codes.

104.3.2 Notice of Sealing Out of Service. Before sealing any device out of service, the code official shall, except in cases of emergency, serve ten calendar days written notice upon the building owner, occupant, or collector of rent either directly or by United States mail stating intention to seal the equipment out of service and the reasons therefor.

104.3.3 Unlawful to Remove Seal. Any device sealed out of service by the code official shall be plainly marked with a sign or tag indicating such sealing and any defacing or removal of the sign or tag, any tampering with or removal of the seal without approval of the code official, or operation of the sealed unit shall constitute a violation of this code. The penalty for violation of this section shall be as set forth in Section 25.03.030.

104.3.4 Utility Disconnect. Whenever the code official determines that there is an imminent danger to public safety, the code official may request that the public utilities be disconnected to that structure or premises.

104.4 Right of Entry. Whenever it is necessary to make an inspection to enforce the provisions of this code or whenever the code official has reasonable cause to believe that there exists in a building or upon any premises any condition or violation of this code which makes the building or premises unsafe, unsanitary, dangerous, or hazardous, the code official shall have the authority to enter the building or premises at all reasonable times to inspect or to perform the duties imposed upon the code official by this code. If such building or premises is occupied, the code official shall present credentials to the occupant and request entry. If such building is unoccupied, the code official shall first make a reasonable effort to locate the owner or other person having charge or control of the building or premises and request entry. If entry is refused, the code official has recourse to every remedy provided by law to secure entry.

When the code official has first obtained a proper inspection warrant or other remedy provided by law to secure entry, an owner, the owner's authorized agent, occupant, or person having charge, care, or control of the building or premises shall not fail or neglect, after proper request is made as herein provided, to promptly permit entry therein by the code official for the purpose of inspection and examination pursuant to this code.

104.5 Identification. The code official shall carry proper identification when inspecting structures or premises in the performance of duties under this code.

104.6 Notices and Orders. The code official shall issue all necessary notices or orders to ensure compliance with this code.

104.7 Suspensions and Cancellations. The code official shall have the power and is directed to suspend for a definite time or to cancel any license granted hereunder if, after notice and opportunity to be heard, the party named therein is found guilty by the Board of Examiners of violating rules and regulations established by the Section of Mechanical Equipment Inspection, and do all other acts necessary to carry out these provisions.

104.8 Department Records. The code official shall keep official records of mechanical applications received, permits issued, fees collected, licenses and certificates issued, reports of inspections, and notices and orders issued. Such records shall be retained in the official records for three years except notices and orders which have been complied with need not be kept.

SECTION 105 APPROVAL

105.1 Modifications. Whenever there are practical difficulties involved in carrying out the provisions of this code, the code official shall have the authority to grant modifications for individual cases upon application of the owner or owner's authorized agent, provided the code official shall first find that the special individual reason makes the strict letter of this code impractical and the modification is in compliance with the intent and purpose of this code and does not lessen health, life, and fire safety requirements. The details of action granting modifications shall be recorded and entered in the files of the Mechanical Inspection Section.

105.2 Alternative Materials, Methods, Equipment, and Appliances. The provisions of this code are not intended to prevent the installation of any material or to prohibit any method of construction not specifically prescribed by this code, provided that any such alternative has been approved. An alternative material or method of construction shall be approved where the code official finds that the proposed design is satisfactory and complies with the intent of the provisions of this code and that the material, method, or work offered is, for the purpose intended, not less than the equivalent of that prescribed in this code in quality, strength, effectiveness, fire resistance, durability, and safety. Where the alternative material, design, or method

of construction is not approved, the code official shall respond in writing, stating the reasons the alternative was not approved.

105.2.1 Research Reports. Supporting data, where necessary to assist in the approval of materials or assemblies not specifically provided for in this code, shall consist of valid research reports from approved sources.

105.3 Required Testing. Whenever there is insufficient evidence of compliance with the provisions of this code or evidence that a material or method does not conform to the requirements of this code or in order to substantiate claims for alternative materials or methods, the code official shall have the authority to require tests as evidence of compliance to be made at no expense to the City of Saint Louis.

105.3.1 Test Methods. Test methods shall be as specified in this code or by other recognized and accepted test standards. In the absence of recognized and accepted test methods, the code official shall approve the testing procedures.

105.3.2 Testing Agency. Tests shall be performed by an approved independent agency.

105.3.3 Test Reports. Reports of tests shall be retained by the code official for the period required for retention of public records.

105.4 Approved Materials and Equipment. Materials, equipment, and devices approved by the code official shall be constructed and installed in accordance with such approval.

105.5 Material and Equipment Reuse. Materials, equipment, and devices shall not be reused unless such elements have been reconditioned, tested, and placed in good and proper working condition and approved by the code official.

SECTION 106 PERMITS

106.1 When Required. No person shall commence any mechanical work until a permit for such work has been issued by the code official. The fees for said permits shall be paid to the City of Saint Louis for each permit herein required. All work shall be done by the person or corporation in whose name the permit or permits required by this section are issued or any other qualified person or corporation designated by the permit holder. Any person who shall fail to comply with or who shall violate any of the provisions of this section shall be subject to the penalty provisions of Section 25.03.030.

Exception: When equipment replacements or repairs must be performed in an emergency situation, the permit application shall be submitted on line at stlcitypermits.com prior to commencing the job.

106.2 Permits Not Required. Permits shall not be required for any of the following:

1. Portable heating or cooling appliances.
2. Portable ventilation equipment.
3. Portable cooking unit.
4. The replacement of any minor part that does not alter the approval of equipment or make such equipment unsafe.
5. Portable evaporation cooler.
6. Self-contained refrigeration systems containing 3 pounds (1.36 kg) or less of refrigerant or that are actuated by motors of less than 1 horsepower (0.75 kW).
7. Self-contained refrigeration systems that 3 pounds (1.36 kg) or less of refrigeration or that are actuated by motors of less than 1 horsepower (0.75 kW).
8. Portable fuel cell appliances that are connected to a fixed piping system and are not interconnected to a power grid.

Exemption from the permit requirements of this code shall not be deemed to grant authorization for work to be done in violation of the provisions of this code or other laws or ordinance of the City of Saint Louis.

106.3 Application for Permit. Each application for a permit shall be submitted on line at stlcitypermits.com.

106.4 Permit issuance. The application, construction documents, and other data filed by an applicant for a permit shall be reviewed by the code official. If the code official finds that the proposed work conforms to the requirements of this code and all laws and ordinances applicable thereto and that the fees specified in Section 106.5 have been paid, a permit shall be issued to the applicant. A mechanical permit submitted on line is not approved until the Mechanical Section approves it. A mechanical permit shall not be transferable.

If the application or the construction documents do not conform to the requirements of all pertinent ordinances of the City of Saint Louis, the code official shall reject such application in writing stating the reasons therefor.

106.4.1 Approved Construction Documents. When the code official issues a permit where construction documents are required, such approved construction

documents shall not be changed, modified, or altered without authorization from the design professional and the code official. Work shall be done in accordance with the approved construction documents.

The code official shall have the authority to issue a permit for the installation of part of a mechanical system before the application for the whole system has been submitted or approved provided adequate information and detailed statements have been filed complying with all the pertinent requirements of this code. The holder of such permit shall proceed at their own risk without assurance that the permit for the entire mechanical system will be granted.

Except for unsafe mechanical systems or installations, this code shall not require changes in the construction documents or mechanical work for which a lawful permit has been heretofore issued or otherwise lawfully authorized and the installation of which shall have been actively prosecuted within ninety days after the effective date of this code and is completed with dispatch.

106.4.2 Validity. The issuance of a permit or approval of construction documents shall not be construed to be a permit for or an approval of any violation of any of the provisions of this code or of other ordinances of the City of Saint Louis. A permit presuming to give authority to violate or cancel the provisions of this code shall be invalid.

The issuance of a permit based upon construction documents and other data shall not prevent the code official from thereafter requiring the correction of errors in said construction documents and other data or from preventing building operations from being carried on thereunder when in violation of this code or of other ordinances of the City of Saint Louis.

106.4.3 Expiration. Every permit issued by the code official under the provisions of this code shall expire by limitation and become null and void if the work authorized by such permit is not commenced within 180 days from the date of such permit or if the work authorized by such permit is suspended or abandoned at any time after the work is commenced for a period of 180 days. The code official may grant one or more extensions of time for an additional period the total not to exceed six months if there is reasonable cause. Before such work recommences, a new permit shall be first obtained and a new fee paid.

106.4.4 Extensions. A permittee holding an unexpired permit shall have the right to apply for an extension of the time within which the permittee will commence work under that permit when work is unable to be commenced within the time required by this section for good and satisfactory reasons. The code official shall extend the time for action by the permittee if there is reasonable cause.

106.4.5 Suspension or Revocation of Permit. The code official shall have the authority to suspend or revoke a permit or approval issued under the provisions of this code in case of any false statement or misrepresentation of fact in the application or on the construction documents upon which the permit or approval was based. A permit shall also be considered for revocation under the following provisions:

1. The owner of the property or the contractor shall request cancellation in writing stating the reasons for the request for cancellation. No refund of fees shall be made.

2. The code official may revoke the permit for fraud, for noncompliance with the code, or for failure to pay the prescribed fees.

Should the mechanical contractor install work that is not in compliance with the Mechanical, Fire, or Building Code, the contractor shall be directed by the code official to make necessary corrections to assure code compliance and no other permits shall be issued to said contractor until such work is corrected and approved by the code official.

106.4.6 Retention of Construction Documents. One set of construction documents shall be retained by the code official until final approval of the work covered therein. One set of construction documents shall be returned to the applicant and said set shall be kept at the site of the building or job at all times during which the work authorized thereby is in progress.

106.4.7 Previous Approvals. This code shall not require changes in the construction documents, construction, or designated occupancy of a structure for which a lawful permit has been heretofore issued or otherwise lawfully authorized and the construction of which has been pursued in good faith within 180 days after the effective date of this code and has not been abandoned.

106.4.8 Posting of Permit. A true copy of the permit shall be kept on the site of operations, open to public inspection during the entire time of prosecution of the work and until the completion of the project.

106.4.9 Business License Requirement. A permit shall not be issued to any person that does not have a current and valid business license from the City of St. Louis.

Exception: An owner-occupant of a single-family dwelling that shows sufficient knowledge for the installation of a mechanical system to the Mechanical Equipment Inspection Section. The homeowner shall be permitted to be granted a "Homeowners Permit." If said system installation requires the handling of refrigerants, the homeowner must also have a certification as a Universal Technician as required by 40 CFR part 82, Subpart F, a federal law.

106.5 Fees. A permit shall not be issued until the fees prescribed in Table 106.5.2 have been paid nor shall an addendum to a permit necessitating an additional fee because of the additional work involved be released until the additional fee has been paid. Fees for the inspections herein prescribed shall be paid to and collected by the City of Saint Louis. A permit may be revoked if payment is returned for insufficient funds.

106.5.1 Work Commencing Before Permit Issuance Surcharge. In case any work for which a permit required by this code is started or preceded with prior to the permit being issued, the total normal fees applicable shall be doubled or $500.00 plus the original permit fee, whichever is greater. The payment of said surcharge shall not relieve any persons from fully complying with the requirements of this code for performance or execution of the work nor from other penalties prescribed by law.

106.5.2 Fee Schedule. The fees for mechanical work shall be as indicated in Table 106.5.2. Mechanical permit fees shall not be waived for contractors working in facilities owned and operated by the City of Saint Louis.

Table 106.5.2

FEES FOR MECHANICAL PERMITS

Item	Fee
Application Fee	$25.00
Amusement Rides, each	$10.00
Auto Lifts, each	$80.00
Boilers (except residentia0,each	$100.00
Unfired Pressure Vessels, each	$40.00
Refrigeration/Air Conditioning (chillers, condensing units, self-contained walk-in coolers/freezers), each	
Up to 15 tons	$60.00
15 tons and over	$85.00 + $1.00 per ton
Cooling Towers, each	$200.00
Ventilation Systems, each	$200.00
Air handling units, packaged units, make-up air units, unit heaters, unit ventilators, etc.	
200CFM to 2000CFM	$80.00
2001CFM to 5000CFM	$140.00
5001CFM and over	$180.00
Air Terminal Units	$40.00 1st plus $10.00 each additional
Exhaust Fans, each	
200CFM to 2000CFM	$80.00
2001CFM to 5000CFM	$140.00
5001CFM and over	$180.00
Exhaust Hoods, each	$40.00
Smoke Control Fans, each location	$250.00
Process Piping (waived for Use Group R3)	$20.00 plus $2.00 per horsepower serving the pipe
Residential Fees Use Groups R1, R2, and R3	
Furnaces, each	$40.00
Condensing units, each	$40.00
Combination furnace/condensing unit, each	$40.00
Re-inspection, each (for faulty or incomplete work at time of requested inspection)	$25.00
Failure to request an inspection, each permit.	$50.00
Special inspection, each	$40.00

106.5.3 Fees for abandoned work or revoked permit. Fees shall not be waived or refunded for any mechanical permit that has been abandoned, canceled, or revoked.

SECTION 107 INSPECTIONS AND TESTING

107.1 General. The code official is authorized to conduct such inspections as are deemed necessary to determine compliance with the provisions of this code and to approve reports of inspection by approved agencies or individuals. Construction or work for which a permit is required shall be subject to inspection by the code official, and such construction or work shall remain accessible and exposed for inspection purposes until approved. Approval as a result of an inspection shall not be construed to be an approval of a violation of the provisions of this code or of other ordinances of the City of Saint Louis. Inspections presuming to give authority to violate or cancel the provisions of this code or of other ordinances shall not be valid.

107.2 Required Inspections and Testing. The code official, upon notification from the permit holder or the permit holder's agent, shall make the following inspections and other such inspections as necessary and shall either release that portion of the construction or shall notify the permit holder or the permit holder's agent of violations that must be corrected. The holder of the permit shall be responsible for the scheduling of such inspections.

1. Underground inspection shall be made after trenches or ditches are excavated and bedded, piping installed, and before backfill is put into place. Where excavated soil contains rocks, broken concrete, frozen chunks and other rubble that would damage or break the piping or cause corrosive action, clean backfill shall be on the job site.

2. Rough-in inspection shall be made after the roof, framing, fireblocking, and bracing are in place and all ducting and other components to be concealed are complete and prior to the installation of wall or ceiling membranes.

3. Final inspection shall be made upon completion of the mechanical system.

Exception: Ground-source heat pump loop systems tested in accordance with Section 1210.10 shall be permitted to be backfilled prior to inspection.

The requirements of this section shall not be considered to prohibit the operation of any heating equipment or appliances installed to replace existing heating equipment or appliances serving an occupied portion of a structure provided that a request for inspection of such heating equipment or appliances has been filed with the department not more than 48 hours after such replacement work is completed and before and portion of such equipment or appliances is concealed by any permanent portion of the structure.

107.2.1 Other Inspections. In addition to the inspections specified in Section 107.2, the code official is authorized to make or require other inspections of any construction to ascertain compliance with the provisions of this code and other laws that are enforced.

107.2.2 Inspection Requests. It shall be the duty of the holder of the permit or their duly authorized agent to notify the code official when work is ready for inspection. It shall be the duty of the permit holder to provide access to and means for inspections of such work that are required by this code.

107.2.3 Approval Required. Work shall not be done beyond the point indicated in each successive inspection without first obtaining the approval of the code official. The code official, upon notification, shall make the requested inspections and shall either indicate the portion of the construction that is satisfactory as completed or notify the permit holder or his or her agent wherein the same fails to comply with this code. Any portions that do not comply shall be corrected and such portion shall not be covered or concealed until authorized by the code official.

107.2.4 Approved Inspection Agencies. The code official is authorized to accept reports from approved agencies provided that such agencies satisfy the requirements as to qualifications and reliability.

107.2.5 Evaluation and Follow-Up Services. Prior to the approval of a prefabricated construction assembly having concealed mechanical work and issuance of a mechanical permit, the code official shall require the submittal of an evaluation report on each prefabricated assembly indicating the complete details of the mechanical assembly, including a description of the system and its components, the basis upon which the assembly is being evaluated, test results and similar information, and other data as necessary for the code official to determine conformance with this code. Acceptable reports shall be permitted to come from the State of Missouri Public Service Commission or ICC Evaluation Services.

107.2.5.1 Evaluation Service. The code official shall designate the evaluation service of an approved agency as the evaluation agency and review such agency's evaluation report for adequacy and conformance to this code.

107.2.5.2 Follow-Up Inspection. Except where ready access is provided for mechanical systems, service equipment and accessories for complete inspection at the site without disassembly or dismantling, the code official shall conduct the in-plant inspections as frequently as necessary to ensure conformance to the approved evaluation report or shall designate an approved independent inspection agency to conduct such inspections. The inspection agency shall furnish the code official with the follow-up inspection manual and a report of inspections upon request, and the mechanical system shall have an identifying label permanently affixed to the system indicating that factory inspections have been performed.

107.2.5.3 Test and Inspection Records. Required tests and inspection records shall be accessible to the code official at all times during the fabrication of the

mechanical system and the erection of the building; or such records as the code official designates shall be filed.

107.2.6 Coordination of Inspections. Whenever in the enforcement of this code or another code or ordinance the responsibility of more than one code official is involved, it shall be the duty of the code officials involved to coordinate their inspections and administrative orders as fully as practicable. Whenever an inspector observes an apparent or actual violation of some provision of some law, ordinance, or code not within the inspector's authority to enforce, the inspector shall report the findings to the code official having jurisdiction.

107.3 Testing. Mechanical systems shall be tested as required in this code and in accordance with Sections 107.3.1 through 107.3.3. Tests shall be made by the permit holder and observed by the code official.

107.3.1 New, Altered, Extended, or Repaired Systems. New mechanical systems and parts of existing systems which have been altered, extended, renovated, or repaired shall be tested as prescribed herein to disclose leaks and defects.

107.3.2 Apparatus, Material, and Labor for Tests. Apparatus, material, and labor required for testing a mechanical system or part thereof shall be furnished by the permit holder.

107.3.3 Reinspection and Testing. Where any work or installation does not pass an initial test or inspection, the necessary corrections shall be made so as to achieve compliance with this code. The work or installation shall then be resubmitted to the code official for inspection and testing.

107.4 Approval. All equipment subject to an annual inspection shall be identified by a metal tag bearing the City identification number. Stickers shall be applied to said equipment upon annual inspections. Stickers shall also be applied to residential (R-3 occupancy) equipment.

107.4.1 Revocation. The code official is authorized to, in writing, suspend or revoke a notice of approval issued under the provisions of this code whenever the notice is issued in error on the basis of incorrect information supplied or where it is determined that the building, structure, premises, or portion thereof is in violation of any ordinance or regulation or any of the provisions of this code.

107.5 Temporary Connection. The code official shall have the authority to authorize the temporary connection of a mechanical system to the sources of energy for the purpose of testing mechanical systems or for use under a temporary certificate of occupancy.

107.6 Connection of Service Utilities. A person shall not make connection from a utility, source of energy, fuel, or power to any building or system that is regulated by this code for which a permit is required until authorized by the code official.

107.7 Moved Structures. Before any structure that has been moved within or into the City of Saint Louis is occupied, all mechanical equipment and devices shall be inspected and tested for safe operation and compliance with the requirements of this code.

Exception: Mechanical systems within manufactured units bearing certification of the Missouri Public Service Commission.

107.8 Failure to Comply. In the event that these orders are not followed the code official may prohibit occupancy.

107.9 Legal Compliance. All legal assistance necessary to effect compliance of the mechanical systems with this section shall be supplied to the code official by the City Counselor and other City of St. Louis agencies. The Fire and Police Departments of the City of St. Louis shall, upon request, assist the code official in the enforcement of this code.

SECTION 108 VIOLATIONS

108.1 Unlawful Acts. It shall be unlawful for a person, firm or corporation to erect, construct, alter, repair, remove, demolish, utilize a mechanical system, or cause same to be done in conflict with or in violation of any of the provisions of this code or any decision.

108.2 Notice of Violation. The code official is authorized to serve a notice of violation or order on the owner as shown in the records of the City of Saint Louis Assessor's Office or person responsible for the erection, installation, alteration, extension, repair, removal, or demolition of mechanical work in violation of the provisions of this code, in violation of a detail statement or the approved construction documents thereunder, or in violation of a permit or certificate issued under the provisions of this code. Such order shall direct the discontinuance of the illegal action or condition and the abatement of the violation. Such notice shall be permitted to be served by the United States mail. Posting of the premises shall also constitute notice. It shall be a violation of this code for any

person to remove any such notice lawfully posted pursuant to this code unless otherwise ordered by the building official.

108.3 Prosecution of Violation. If the notice of violation is not complied within the time stated in the Notice of Violation, but no longer than thirty days, the code official shall request the legal counsel of the City of Saint Louis to institute the appropriate proceedings at law or in equity to restrain, correct, or abate such violation or to require the removal or termination of the unlawful occupancy of the structure in violation of the provisions of this code or of the order or direction made pursuant thereto. The time for compliance maybe extended by the code official upon written request if there are extenuating circumstances.

108.4 Violation Penalties. Any person, partnership, or corporation who shall violate a provision of this code or shall fail to comply with any of the requirements herein or who shall erect, install, alter, or repair mechanical equipment or systems in violation of the approve construction documents or directive of the code official or of a permit or license issued under the provisions of this code shall, upon conviction thereof, be penalized as set forth in Section 25.03.030.

108.5 Stop Work Orders. Upon notice from the code official that mechanical work is being performed contrary to the provision of this code, in a dangerous or unsafe manner, or without permit, such work shall immediately cease. Such notice shall be in writing and shall be given to the owner of the property involved, to the owner's authorized agent, or to the person doing the work. The notice shall state the conditions under which the work is authorized to resume. Where an emergency exists, the code official shall not be required to give a written notice prior to stopping the work. Any person who shall continue any work on the system after having been served with a stop work order, except such work as that person is directed to perform to remove a violation or unsafe conditions, shall be subject to immediate arrest and, upon convicted thereof, shall be penalized as set forth in Section 25.03.030.

108.6 Abatement of Violation. The imposition of the penalties herein prescribed shall not preclude the legal officer of the City of Saint Louis from instituting appropriate action to prevent unlawful construction or to restrain, correct, or abate a violation, to prevent illegal occupancy of a building, structure, or premises, or to stop an illegal act, conduct, business, or utilization of the mechanical system on or about any premises.

108.7 Unsafe Mechanical Systems. A mechanical system that is unsafe, constitutes a fire hazard, or is otherwise dangerous to human life as regulated by this code is hereby declared as an unsafe mechanical system. Use of a mechanical system regulated by this code constituting a hazard to health, safety, or welfare by reason of inadequate maintenance, dilapidation, fire hazard, disaster, damage, or abandonment is hereby declared an unsafe use. Such unsafe equipment is hereby declared to be a public nuisance and shall be abated by repair, rehabilitation, demolition, or removal.

108.7.1 Authority to Condemn Mechanical Systems. Whenever the code official determines that any mechanical system or portion thereof regulated by this code has become hazardous to life, health, property, or has become unsanitary, the code official shall order in writing that such system either be removed or restored to a safe condition. A time limit for compliance with such order shall be specified in the written notice. A person shall not use or maintain a defective mechanical system after receiving such notice.

When such mechanical system is to be disconnected, written notice as prescribed in Section 108.2 shall be given. In cases of immediate danger to life or property, such disconnection shall be made immediately without such notice.

108.7.2 Authority to Order Disconnection of Energy Sources. The code official shall have the authority to order disconnection of energy sources supplied to a building, structure, or mechanical system regulated by this code when it is determined that the mechanical system or any portion thereof has become hazardous or unsafe. Written notice of such order to disconnect service and the causes therefor shall be given within twenty-four hours to the owner, the owner's authorized agent, and occupant of such building, structure, or premises provided, however, that in cases of immediate danger to life or property, such disconnection shall be made immediately without such notice. Where energy sources are provided by a public utility, the code official shall immediately notify the serving utility in writing of the issuance of such order to disconnect.

108.7.3 Connection After Order to Disconnect. A person shall not make energy source connections to mechanical systems regulated by this code which have been disconnected or ordered to be disconnected by the

code official or the use of which has been ordered to be discontinued by the code official until the code official authorizes the reconnection and use of such mechanical systems.

Where a mechanical system is maintained in violation of this code and in violation of a notice issued pursuant to the provisions of this section, the code official shall institute appropriate action to prevent, restrain, correct, or abate the violation.

SECTION 109 MEANS OF APPEAL

109.1 Appeals. Any person or entity aggrieved by the decision of the code official or any Board hereunder may appeal said decision to the Board of Building Appeals in the manner prescribed in Section 113.0 of the Building Code. The fee for said appeal is as prescribed in the Building Code.

SECTION 110 TEMPORARY EQUIPMENT, SYSTEMS, AND USES

110.1 General. The code official is authorized to issue a permit for temporary equipment, systems, and uses. Such permits shall be limited as to time of service, but shall not be permitted for more than 180 days. The code official is authorized to grant extension for demonstrated cause.

110.2 Conformance. Temporary equipment, systems, and uses shall conform to the structural strength, fire safety, means of egress, accessibility, light, ventilation, and sanitary requirements of this code as necessary to ensure the public health, safety, and general welfare.

110.3 Temporary Utilities. The code official is authorized to give permission to temporarily supply utilities before an installation has been fully completed and the final certification of compliance has been issued. The part covered by the temporary certificate shall comply with the requirements specified for temporary lighting, heat, or power in the code.

110.4 Termination of Approval. The code official is authorized to terminate such permit for temporary equipment, systems, or uses and to order the temporary equipment, systems, or uses to be discontinued.

SECTION 111 BOARD OF STATIONARY ENGINEERS

111.1 General. There is hereby established a Board of Stationary Engineers. The Board shall act in an advisory capacity to the code official in the preparation of rules and regulations regarding installation, use, and operation of boilers, steam generators, and pressure vessels consistent with the provisions of this code.

111.1.1 Composition of Board. The Board of Stationary Engineers shall be composed of three members, one member who shall be the code official or duly authorized representative and two other members who shall be appointed by the Mayor.

The two members appointed by the Mayor shall be engineers licensed by the City of Saint Louis under the provisions of this section as Class I Licensed Stationary Engineers with a minimum of five years' experience in the operation and maintenance of steam engines, steam boilers, or steam turbines. The members of the existing Board of Stationary Engineers shall be replaced only upon the appointment of new members by the Mayor at which time (and thereafter) there shall not be two members of the Board of Stationary Engineers who work for or are representatives of the same company, entity, or international union organization or an affiliate thereof. The Board of Stationary Engineers shall elect its own Chairman.

111.1.2 Duties of the Board. The Board of Stationary Engineers shall give oral examinations to all applicants for Stationary Engineer's licenses, issue Boiler Operator Certificates of Competency or Stationary Engineer's licenses to those who pass their respective tests, suspend or revoke such certificate or license for failure to maintain the standards imposed by this section of the code, and may order the reinspection of any boiler, steam generator, or pressure vessel whenever deemed necessary for public safety.

111.2 Board Sessions. The Board of Stationary Engineers shall provide for regular meetings and the code official shall act as the Secretary to the Board and shall keep the minutes of all proceedings. The Board shall convene for business at least once a month and at such additional times as the Chairman shall designate to conduct the business of the Board. A majority of the members of the Board of Stationary Engineers shall constitute a quorum. The Secretary shall keep a register of the names and addresses of all successful applicants designating those found to be qualified for the various classes provided herein.

111.3 Rules and Regulations. The Board of Stationary Engineers shall have the power to adopt such rules and regulations consistent with this section as it may deem necessary for the application of the provisions of this section. Such rules and regulations shall

become effective upon approval by the majority of the Board, shall be on file in the office of the code official, and shall be available to the public upon request.

111.4 Boiler Operator Certificate of Competency. The operation of boilers or steam generators which are generating saturated steam in a pressure range of fifteen psig minimum to one hundred and fifty psig maximum each of which boilers has not more than one hundred square feet of rated heating surface shall be at all times in the charge of a certified Boiler Operator. Application for a Boiler Operator's Certificate of Competency is to be made to the code official or duly authorized representative. The code official upon finding that the applicant is thoroughly familiar with the operational principles which concern the safety and care of the boiler or steam generator, shall issue to such applicant a Boiler Operator Certificate of Competency. The certificate is issued for work at a single specific location as designated on the application and is not transferable. The fee for the examination shall be as listed in Table 110.9.

111.5 Licensing of Stationary Engineers Required. All Stationary Engineers shall be licensed as to the class as set forth in Sections 111.5.1 through 111.5.4.

111.5.1 Licensing of Operators of Boilers or Steam Generators Less Than 1,500 Square Foot of Heating Surface. Any boiler or steam generator which has not more than 1,500 square feet of rated heating surface and which is rated to generate steam at pressures between 15 psig and 300 psig maximum, or which is rated to generate hot water above 160 psig and 250°F to 300 psig, and associated equipment shall be in the charge of an attending Class II or a Class I licensed Stationary Engineer whenever in operation. Square footage shall be determined by the total input to a single header.

111.5.2 Licensing of Operators of Boilers or Steam Generators in Excess of 1500 Square Feet of Heating Surface. Any boiler or steam generator producing saturated or superheated steam above 212°F in excess of 15 psig having a rated heating surface in excess of 1,500 square feet of hot water or any other liquid as defined in this code, or any boiler or steam generator producing saturated or superheated steam or any high temperature liquid above 212°F in excess of 300 psig regardless of rated heating surface, and any steam engine or steam turbine associated with either of the said boilers or steam generators shall be in the charge of an attending Class I licensed Stationary Engineer whenever in operation. Square footage shall be determined by the total input to a single header.

111.5.3 Licensing of Operators of Ammonia Systems from 50 to 100 Tons. Any ammonia system totaling between 50 tons and 100 tons rated capacity shall be in the charge of an attending Class I or Class II licensed Stationary Engineer where located in any and all buildings and whenever in operation.

111.5.4 Licensing of Operators of Ammonia Systems 100 Tons and Over. Any ammonia system totaling 100 tons or more rated capacity shall be in the charge of an attending Class I licensed Stationary Engineer where located in any and all buildings and whenever in operation.

111.6 Stationary Engineer's License Applications. The application for all classes of licenses shall be filed with the Secretary of the Board on the form prescribed by the Board of Stationary Engineers. Within a reasonable time, the Board shall examine all applicants who meet qualifications under Sections 111.6.1 thru 111.6.3 for the various classes of licenses in order to ascertain whether the applicants possess the knowledge, skill, ability, and competency required for the class of license applied for and for the safe operation of various equipment. The Board shall issue to such applicants a license upon the Board finding that the applicant possesses the necessary qualifications and has successfully passed the required examination for the type of license sought.

111.6.1 Qualifications for Stationary Engineer, Class I. All applicants for a Class I Stationary Engineer's license shall be a citizen of the United States, shall have made application for such citizenship, or shall be authorized to hold employment by the Immigration and Naturalization Service. The applicant shall be at least twenty-one years of age and shall have had at least two years of training under a Class I licensed Stationary Engineer or equivalent training, or shall be registered with the Missouri State Board of Registration for Architects and Professional Engineers as an Engineer or as an Engineer in Training, and shall have been actually employed in the engineering or research division of a power generating plant in an engineering capacity for a minimum of twelve months. The Board may accept twelve months of formal training by a nationally recognized agency in lieu of experience. The applicant shall demonstrate their knowledge, skill, ability, and competency to the Board to operate boilers or steam generators of any size or capacity rating which

are generating saturated or superheated steam at any pressure in excess of fifteen psig, or hot water or any other liquid as defined in this code, and ammonia systems in excess of one hundred tons capacity, and to operate associated power plant components and auxiliaries such as steam turbines, engines, air compressors, ammonia systems, pumps, and feed water heaters, electric generators, and other equipment.

111.6.2 Qualifications for Stationary Engineer, Class II. All applicants for a Class II Stationary Engineer's license shall be a citizen of the United States, shall have made application for such citizenship, or shall be authorized to hold employment by the Immigration and Naturalization Service, and shall be at least nineteen years of age. The applicant shall have had at least one year's experience in the operations of steam boilers or steam generators under the supervision of a Class I or Class II Stationary Engineer or equivalent training, or shall have had one year's experience in maintenance work on steam boilers, steam generators, or steam engines or steam turbines or ammonia systems in excess of fifty tons capacity, or shall be registered with the Missouri State Board of Registration for Architects and Professional Engineers as an Engineer or as an Engineer in Training. The Board may accept twelve months of formal training by a nationally recognized agency in lieu of experience. The applicant shall demonstrate their knowledge, skill, ability, and competency to the Board to operate boilers or steam generators which have not more than 1,500 square feet of rated heating surface and which are generating saturated or superheated steam in a pressure range of 15 psig minimum to 300 psig maximum, or hot water or any other liquid as defined in this code, and to operate associated compressors, ammonia compressors, pumps, and feed water heaters, electric generators, and other equipment.

111.6.3 Qualifications for Stationary Engineer, Class II Restricted. The Board of Stationary Engineers shall be permitted to license applicants for a Stationary Engineer's license as Class II Restricted Stationary Engineers upon finding that the applicant is thoroughly familiar with the operating principals which concern the safety and care of the boiler or steam generator. The Class II Restricted Stationary Engineer's license is issued for work at a specific location as designated on the application and is not transferable.

111.7 Examination (All Classes) for Stationary Engineers. The examination for a Class II Stationary Engineer's license shall be oral. The examination for Class I Stationary Engineer's license shall be both oral and written, provided that the applicant shall attain a predetermined percentage as set by the Board of Stationary Engineers in the written examination before the applicant becomes eligible for the oral examination. The written examination must be completed within six months from the date of application. If the applicant does not pass either the oral or written examination the applicant shall wait ninety days before filing a new application. The written examination required by this Section 111 shall be given and administered by independent, third-party testing agencies approved by the Board of Stationary Engineers.

111.8 Temporary Operation by Unlicensed Persons. In cases of emergency and with the approval of the code official, an owner or steam user may appoint a trustworthy experienced person familiar with the operation of the plant as a temporary operator in plants where licensed operators are required by this code.

111.8.1 Permit to Operate. Before a designated person can operate the plant, the code official or duly appointed representative shall be notified. An inspection of the plant shall be made to determine the fitness of the appointed operator. If such person is found to be fit, a permit shall be issued by the code official for such person to operate the plant on a temporary basis; such permit shall be issued for no longer than thirty days. After issuance of the permit, inspection of the plant thereafter shall be on a daily basis as long as the operator remains in the temporary classification. An inspection fee shall be charged per inspection to the owner or steam user payable upon receipt of bill; total cost to be determined at the conclusion of the daily inspections. See Table 111.9 for fee schedule.

111.8.2 Application for License. Within three working days after permission is granted, the designated operator shall make application to the Board of Stationary Engineers for examination for the class license required for the plant. Application and examination shall be in accordance with the provisions of Section 111.6. In the case of a Class I examination the applicant shall complete the written portion of the examination within fourteen days. Both written and oral parts of the examination shall be completed so that the applicant's qualifications for licensing shall be determined within the thirty-day period of emergency operation. If the Board of Stationary Engineers determines that the applicant has failed the examination, the applicant's

permit to operate on a temporary basis shall be revoked immediately and such person shall not be eligible for reappointment as a temporary operator until the examination has been passed.

111.9 Licenses and Fees. At the time of the filing of the application, each applicant for a Boiler Operator Certificate of Competency or Stationary Engineer's license shall pay to the Secretary of the Board of Stationary Engineers a filing fee as set forth in Table 111.9 to cover the cost of the examination given under the provisions of this section, provided further that under no conditions shall said sum or any part thereof be refunded if the applicant fails to pass the examination or if the applicant fails to complete the written examination within the prescribed time limit as set by the Board of Stationary Engineers. All monies received by the Secretary shall be paid to the City Treasurer. All applicants passing the examination for a Class I or Class II Stationary Engineer's license shall be presented upon the passage of such examination with a Stationary Engineer's license for the class for which they have been licensed. All licenses shall be issued for a period of one year from the date of issuance and shall be renewed each year. The fee for licenses renewal shall be as specified in Table 111.9.

Table 111.9

LICENSE FEES—BOARD OF STATIONARY ENGINEERS

Item	Fee	Duration	Remarks and Requirements
STATIONARY ENGINEER'S LICENSE			
Examination & Application Fee			
Class I	$25.00	1 year	
Class II	$25.00	1 year	
Renewal Fee			
Class I	$25.00	1 year	
Class II	$25.00	1 year	
BOILER OPERATOR'S CERTIFICATE OF COMPETENCY			
Examination Fee	$15.00		Includes initial certification
Renewal	$15.00	1 year	Issued for one year from date
TEMPORARY BOILER PLANT OPERATOR			
Permit - per day	$100.00		Issued for up to 30 days

111.9.1 License to Be Displayed. At all times when boilers, steam generators, or associated equipment are in use and are operating, there shall be in charge and attendance a licensed Stationary Engineer of the class designated in Sections 111.5.1 thru 111.5.4. The license shall be displayed in some prominent place where the boilers, steam generators, and associated equipment are in use and any licensed Stationary Engineer shall be negligent in the performance of their duties should they fail to display the license or have an invalid license on display while in attendance of boilers, steam generators, and associated equipment in their charge and in operation.

111.9.2 Renewal. Boiler Operator Certificates of Competency and Stationary Engineer's licenses shall be renewed annually by the Board of Stationary Engineers upon the timely payment of an annual renewal fee, which payment shall be made not later than 30 days after the expiration date of said license. In the event payment of the required renewal fee is not made within 30 days after the applicable expiration date of the license, then the license shall be deemed expired and the licensed holder shall not be permitted to perform work requiring a valid license under this code until the license is reinstated. Licenses that expire because of nonpayment of the required renewal fee shall be reinstated automatically upon payment of the fee provided the fee is paid within 120 days of the expiration of the license. Thereafter, expired licenses can be reinstated by the Board of Stationary Engineers for good cause, absent which the license holder must re-apply for and satisfy the standards for issuance of a new license. The Board of Stationary Engineers shall have the power to revoke such certificate or license for cause.

111.9.3 Notice of Change of Employment. Every Stationary Engineer or Boiler Operator regulated under the provisions of this section is required to notify

the Secretary of the Board of Stationary Engineers within forty-eight hours thereafter when they accept or leave employment as a Stationary Engineer or Boiler Operator and to submit the name of their new employer.

111.10 Penalty. Any owner or steam user of a boiler, steam generator, or associated equipment who shall neglect or refuse to employ a licensed Stationary Engineer of the class designated in Section 110.5, or who allows any unlicensed person to be in charge and attendance of boilers, steam generator, or associated equipment requiring a licensed Stationary Engineer, except as provided for in Section 111.8, shall, upon conviction thereof, be penalized as set forth in Section 25.03.030.

111.10.1 Penalty for Violation by Operators. Any licensed Class II Stationary Engineer or certified Boiler Operator who shall be in charge of and attending the operation of a boiler, steam generator, or associated equipment in excess of the legal size and capacity shall, upon conviction thereof, be penalized as set forth in Section 25.03.030. In addition to such fine, the license of such Stationary Engineer or the Certificate of Competency of the Boiler Operator shall be suspended for a period not to exceed ninety days or revoked as determined by the Board of Stationary Engineers.

111.10.2 Suspension of License. The Board of Stationary Engineers shall order the suspension for not exceeding ninety days or revocation of a Stationary Engineer license or Boiler Operator Certificate of Competency of any person regulated under the provisions of this section where the Board, after a public hearing, finds that the licensee is addicted to drugs or alcohol, or was under the undue influence of drugs or alcohol while in attendance and performing their duties as a licensed Stationary Engineer or certified Boiler Operator, or has been negligent in the performance of their duties while in attendance of the equipment for which they are licensed so as to endanger the lives and property of persons in the immediate area of such equipment; provided further that such person shall be given a ten day notice of the time and place of such hearing. Such person may be represented by counsel at such hearing before such Board. The Board of Stationary Engineers, at their discretion, may order a new examination for applicants for reinstatement of a license or certificate suspended or revoked under the provisions of this section.

The Board of Stationary Engineers shall also order the suspension, for a period not to exceed thirty days, of the Stationary Engineer's license or Boiler Operator Certificate of Competency of any person licensed under the provisions of this section where the Board, after a public hearing, shall find that the licensee has failed to comply with the provisions of this section. Such person shall be given a ten-day notice of such hearing and may be represented by counsel at such hearing.

111.11 Failure to Comply. Any owner or steam user who fails to comply with the above provisions of this code shall be in violation of this code and the code official shall and is hereby directed to consider the plant unsafe and officially seal the plant out of service.

SECTION 112 LICENSING OF MECHANICAL CONTRACTORS, SHEET METAL CONTRACTORS, AND HVAC SERVICER-INSTALLER CONTRACTORS

112.1 License Required. Except as otherwise provided in this section, no individual or business entity shall engage in or perform HVAC servicer-installer work, process piping system work, or HVAC duct system work unless licensed under this section to perform such work. In addition, no person shall hold herself/himself out as being available to perform any work that requires a license under this section unless she/he shall be licensed as aforesaid, and no partnership, corporation, or other legal entity or person conducting business under a fictitious name shall hold out such entity as being available to perform any work that requires a license under this section in any advertising medium or publication unless a principal or employee of such entity shall be licensed as aforesaid. No person having obtained any license under this section shall allow his/her name or license to be used by another person either for the purpose of obtaining permits, doing business, or performing work that requires a license under this section.

112.2 Board of Examiners for Mechanical Licensing. There is hereby established a Board of Examiners for Mechanical Licensing (hereinafter referred to as "the Board") which shall govern contractors, journeymen, and apprentices who perform work under this section.

112.3 Composition of Board. The Board shall be composed as follows: The Mayor shall appoint: (a) one employing contractor who performs HVAC system work, HVAC piping system work, process piping system work, or HVAC servicer-installer work within the City of St. Louis, (b) one registered professional engineer, (c) two

journeymen as that term is defined herein, and (d) one user of a mechanical system subject to this code which user shall be either an owner, lessee, or keeper of any commercial structure with a mechanical system or the agent of such a person. Each of the above shall be a United States Citizen.

The members of the Board shall replace the Board of Examiners of Mechanical Contractors currently in existence within the City of St. Louis pursuant to Section 25.10.030 of the Revised Code of the City of Saint Louis. This replacement shall take place gradually over time as follows and during the period of transition, the current Board of Examiners of Mechanical Contractors shall serve and act as the Board of Examiners for Mechanical Licensing in accordance with the provisions of this section. The "contractor" member of the Board (pursuant to Subsection (a) above) shall be appointed upon the determination of the Mayor to replace the "mechanical contractor" now serving on the Board of Examiners for Mechanical Contractors. The "registered professional engineer" member of the Board (pursuant to Subsection (b) above) shall be appointed upon the determination of the Mayor to replace the "registered professional engineer" now serving on the Board of Examiners for Mechanical Contractors. The two "journeymen" members of the Board (pursuant to Subsection (c) above) shall be appointed upon the determination of the Mayor to replace the respective two "journeyman pipefitters" now serving on the Board of Examiners for Mechanical Contractors. The "User" member of the Board (pursuant to Subsection (d) above) shall be appointed upon the determination of the Mayor to replace the "User" member now serving on the Board of Examiners for Mechanical Contractors.

Upon the re-constitution of the Board pursuant to this section as set forth above and continuing thereafter: (i) there shall not be two members of the Board who work for or are representatives of the same company, entity, or international union organization or an affiliate thereof and the two journeymen members of the Board shall be from different trades and (ii) no member appointed to the Board may serve more than two consecutive terms. The Board shall elect one of its members to serve as Chair and another to serve as Vice-Chair.

112.4 Secretary of the Board, Duties. The duties of the Secretary of the Board of Examiners shall be as stated with respect to similar Boards. The Secretary of the Board shall be nonvoting. The Secretary shall record all meeting notices, shall keep full and complete minutes of all acts and proceedings of said Board, and shall provide all applicants for a license under this section with proper application forms. The Secretary shall maintain and secure all examinations, examination documents, and materials as directed by the Board; review all applications for licenses to determine their completeness within fifteen days of their filing; keep a file of the name and address of every person or firm licensed by the Board and the name and address of every person or firm whose application for a license has been denied; and return all incomplete applications to applicants within fifteen days of determination of incompleteness, specifying the respects in which the application is incomplete. The Secretary shall file with the City Clerk a copy of all rules and regulations adopted by the Board and make such rules and regulations available to all license holders and current applicants.

112.5 Term of Office, Compensation. The members of the Board shall hold office for a term of four years or until their successors are duly appointed and qualified by the Mayor.

112.6 Powers and Duties of the Board of Examiners. It shall be the duty of the Board to meet once every month and more often if the Board deems necessary for the performance of its duties and to hear and determine any charges or complaints made against licensed contractors or journeymen; approve or disapprove all license applications; and transact any other lawful business of the Board.

1. At every Board meeting, the Board shall consider and take action to grant or reject all open and properly completed license applications that have been filed at least fifteen days prior to the Board meeting. For any application that is rejected, the Secretary shall notify the applicant in writing of the reasons for rejection within five days after the Board's action. Notice of the date, time, and place of each Board meeting together with an agenda of the meeting shall be made publicly available at least seven days prior to the Board meeting.

2. Subject to the provisions of Section 109.1 above, the Board shall have the power to suspend and revoke any license issued pursuant to this section for violation of the provisions of this code. All complaints by citizens concerning mechanical installation procedures or rules shall be made to the Board in writing. After a thorough investigation, the Board shall respond to the

complaint in writing. The Chair or acting Chair, with the approval of the Board, shall have power to administer oaths, subpoena witnesses, and compel the production of books, papers, and tangible things and the inspection of premises pertinent to any investigation or hearing authorized by this section.

3. The Board shall request from the code official to adopt policy memo changes in accordance with Section 104.1.4 of this chapter.

4. All applicant records which disclose the applicant's income or a portion thereof shall be returned by the Board to the applicant upon completion of the licensing process. Applicant records which disclose the names of past or present customers of the applicant or his employer shall be retained only for the purpose of use in possible litigation and license revocation hearings and shall not be deemed public records, and no such information shall be available for public inspection.

5. All records, except those to be returned by the Board pursuant to Subsection 4 above or those that the Board is authorized to close to the general public under the provisions of RSMo Ch. 610, shall be open to public inspection and copying during normal working hours, unless otherwise provided by law. Fees for search and duplication of public records shall not exceed the actual cost of document search and duplication. Any documents maybe furnished without charge or at a reduced charge when the code official determines that waiver or reduction of the fee is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the Board and is not primarily in the commercial interest of the requester. Each request for access to a public record shall be acted upon as soon as possible, but in no event later than the end of the third business day following the date the request is received by the code official. If access to the public record is not granted immediately, the code official shall give a determined explanation of the cause for further delay and the place and earliest time and date that the record will be available for inspection. This period for document production may exceed three days for reasonable cause.

6. The Board shall order the inspection of any mechanical system whenever deemed necessary for the public's safety.

7. The Board shall consider and approve any apprentice training program provided that any such apprentice training program requires a minimum of 7,500 hours of combined on-the-job and classroom training, if it provides an equivalent training program to those certified by the Bureau of Apprenticeship and Training of the U.S. Department of Labor "BAT" (now known as the Office of Apprenticeship Training, Employer and Labor Services ("ATELS")) or to those approved, accredited or certified, as applicable, by any of the other organizations listed in Subsection 112.7.1 below. In addition, the Board shall consider and approve any educational or training program or class covering any work that requires a license under this section, if such program or class is equivalent to one that is offered by a school or organization that is approved, accredited, or certified, as applicable, by one of the organizations listed in Subsection 112.7.1 below.

8. The Board shall approve and designate those independent, third-party agencies authorized to give and administer examinations for licensure pursuant to this code. The written examination required by this Section 112 shall be given and administered by independent, third-party testing agencies approved by the Board.

112.7 Contractor, Journeyman, and Apprentice License Issuance. The Board shall instruct the Mechanical Equipment Inspection Section to issue a license as a contractor, journeyman, or apprentice, as applicable (and within the categories of mechanical contractor, sheet metal contractor, HVAC servicer-installer contractor, pipefitter journeyman, sheet metal journeyman, HVAC service-installer journeyman, pipefitter apprentice, sheet metal apprentice, or HVAC servicer-installer apprentice, as applicable), upon payment of the required license fees to any person or entity who satisfies the following criteria for issuance of the applicable license.

112.7.1 Apprenticeship License. Applicants shall be issued an apprenticeship license promptly upon submission to the Board of a complete application together with:

1. Proof of enrollment in:

A. An applicable apprenticeship program certified by the Bureau of Apprenticeship and Training of the United States Department of Labor (BAT/ATELS); or

B. A Board approved equivalent apprenticeship program that includes classroom/laboratory training by Ranken Technical College, Vatterott Educational

Center, Jefferson College, Southwest Illinois College, or by any other school or organization approved, accredited, or certified, as applicable, by:

I. The Higher Learning Commission, a Commission of the North Central Association of Colleges and Schools;

II. The Accrediting Commission of Career Schools and Colleges of Technology; or

III. The National Center for Construction Education and Research; or

C. An applicable, integrated 7,500 hour combined classroom and field training apprenticeship program that is conducted by any school or organization approved, accredited, or certified, as applicable, by:

I. The Higher Learning Commission, a Commission of the North Central Association of Colleges and Schools; or

II. The Accrediting Commission of Career Schools and Colleges of Technology; or

III. The National Center for Construction Education and Research;

Note: As used in this section an HVAC Servicer-Installer Apprenticeship Program includes, but is not limited to:

1. Any program certified by BAT/ATELS as a Mechanical Servicer-Installer Apprenticeship Program; or

2. Presentation by the applicant or any entity or organization of a written, individual training program providing a total of 7,500 combined hours of educational training or classes and field work or on-the-job training obtained as follows:

A. At least 540 classroom hours of educational training or classes covering work that requires a license under this section (or certain exempt work as allowed by the Note to this subsection below) that is conducted by any combination of schools or other organizations approved, accredited, or certified as applicable by:

I. The Higher Education Commission, a commission of the North Central Association of Colleges and Schools; or

II. The Accrediting Commission of Career Schools and Colleges of Technology; or

III. The National Center for Construction Education and Research; or

IV. The Board pursuant to Subsection 112.6.7 above; and

B. The balance of the required hours needed to equal 7,500 through field work or on-the-job training under the supervision and inspection of a journeyman licensed under this section to perform the work involved.

Note: Within the total 540 classroom hours presented as part of any individualized training program pursuant to this subsection above, the individual program must contain a minimum of 480 hours technical instruction in the installation, alteration, reconstruction, repair, replacement, or servicing of HVAC systems, HVAC duct systems, HVAC piping systems, or process piping systems, as applicable, based on the apprentice license sought by the applicant and within these 480 hours:

1. No more than 75 hours may be introductory level courses; and

2. With respect to individuals seeking a pipefitter or sheet metal license, no more than 75 hours may relate to technical training on work that is exempt from licensure under this code. All technical training on work that is exempt from licensure under this code shall be counted, without limitation, to the full extent required by Subsection 112.7.2 below. Individuals seeking an HVAC servicer installer license shall have no limitation on the number of course hours that relates to work that is exempt from licensure under this code.

112.7.1.1. Upon determination by the Board that the applicant has satisfied the requirements of this subsection, the Mechanical Equipment Inspection Section shall issue an apprenticeship license to the applicant with "Pipefitting Apprentice, Sheet Metal Apprentice or HVAC Service-Installer Apprentice" plainly marked on it (which determination shall be based on the nature of the program or class in which the applicant has enrolled or has completed), and the apprentice's name and date of issue.

112.7.2 Journeyman License. Applicants shall be issued a journeyman license promptly upon submission of a complete application to the Board together with:

1. Proof of:

A. A total of 7,500 hours of training or experience obtained through:

I. The successful completion of a Pipefitter, sheet metal, or HVAC Servicer-Installer apprenticeship program conducted by any school or organization approved, accredited, or certified, as applicable, as required by Section 112; or

II. Completion of at least 540 hours of educational or training classes, plus 6,960 hours of field work or on-the-job training under the supervision and inspec-

tion of a journeyman licensed under this code to perform the work involved, pursuant to an individual training program as allowed by Section 112; or

B. 7,500 hours of:

I. HVAC servicer-installer work, which may include all work on HVAC systems that are exempt from license for an HVAC servicer-installer journeyman license,

II. Process piping system work for a pipefitter journeyman license; or

III. HVAC duct system work for a sheet metal journeyman license.

Notes:

a. In determining whether an applicant has acquired sufficient experience to qualify for a Pipefitter, Sheet Metal, or HVAC Servicer-installer journeyman's license, the Board shall include all of the applicant's experience, as applicable, based on the type of journeyman license sought by the applicant, obtained while installing, constructing, altering, repairing, replacing, or servicing process piping systems, HVAC duct systems, HVAC piping systems, or HVAC systems, as applicable, except for work that is exempt from licensure under this code. All work that is exempt from licensure under this code shall be counted without limitation, provided the work is of a similar nature and technical requirements as work that requires a license under this section. All experience shall be considered by the Board regardless whether the work was performed in the City of Saint Louis or elsewhere.

b. For the purposes of determining whether an applicant for a journeyman license has completed 540 or more hours of educational or training classes pursuant to an individual training program as described in this subsection, the following shall apply: for each class successfully completed by the applicant, pursuant to the grading system used by the school or organization conducting the class, the applicant shall receive the total number of hours indicated by the school or organization as applying to the work for which the applicant seeks a license (a syllabus, a transcript or grade sheet, or a letter from any dean or equivalent administrator at the school or organization will satisfy this requirement).

112.7.2.1. Upon determination by the Board that the applicant has satisfied the above requirements and falls within one of the exceptions set forth in this Section 112, the Secretary shall issue the journeyman license. Upon determination by the Board that the applicant has satisfied the above requirements and does not fall within one of the exceptions set forth in this Section 112, the Secretary shall give the applicant a written notice of the date and place of the examination. The cost of the examination(s) shall be paid by the applicant. If the applicant fails to pass the examination, the applicant shall not be permitted to re-take the examination for a period of three months. If the applicant fails to pass the examination a second time, the applicant shall not be permitted to re-take the examination for a period of one year and the applicant shall resubmit a new application and a new application fee. If the applicant passes the examination, a journeyman license shall be issued.

112.7.2.2. Effective 60 days after approval of this chapter by the Mayor, all licensed journeyman seeking renewal shall furnish proof of twelve professional education units (24 hours) received within the last three years on the then-current Mechanical Code or accepted practices in the performance of work covered by the then-current Mechanical Code or equivalent proof of maintaining and improving journeyman work skills as determined and approved by the Board. Said proof shall be provided at the time of renewal. There may be a carryover of four professional education units (8 hours) in excess of the required hours to the next license cycle. Satisfactory completion of the professional education units administered pursuant to the St. Louis County Mechanical Code shall constitute satisfactory completion under this section.

112.7.2.3. There shall be no limitation as to the type or number of journeyman licenses that can be obtained by an individual.

112.7.2.4. Notwithstanding any language of this section to the contrary, any person who possesses a current valid journeyman license issued by the City of Saint Louis shall not be required to acquire any additional experience or training prior to being allowed to take the examination for any other journeyman's license provided for under this section. Upon submission to the Board of a completed application by a person licensed under this section as journeyman (which application shall not require any proof of the applicant's experience or training) and a $45.00 registration fee, such person shall be permitted to take the examination for an additional journeyman's license and, upon passage of such examination, shall promptly be issued a journeyman's license in the trade covered by the examination so passed.

112.7.3 Mechanical Contractor, Sheet Metal Contractor, Contractor License. Any entity which has in its employ one or more individuals having any of the following qualifications may submit an application for a contractor's license:

1. A minimum of three years verifiable training or experience directing and supervising at least one journeyman; or

2. A degree in civil or mechanical engineering from an accredited college and a minimum of one year verifiable training or experience directing and supervising at least one journeyman; or

3. A license for at least three years under the Plumbing Code or Saint Louis County as a master plumber or master pipefitter and a minimum of one year verifiable training or experience directing and supervising at least one journeyman.

Exception: An HVAC servicer-installer journeyman who is the sole proprietor of a company which employs no other journeyman labor that is required to be licensed by the provisions of this section may obtain a HVAC servicer-installer contractor's license without employing an individual experienced in directing and supervising journeyman.

The application shall be accompanied by proof of the qualifications of the individual or individuals with the foregoing training or experience and proof of the journeyman's license.

The Secretary will present the complete contractor's application to the Board for action in accordance with the provisions of this section above. Upon determination that the applicant has satisfied the requirements of this section, a license shall be issued.

The contractor's license shall be valid for three years form the date of issue. The Secretary of the Board shall send a notice of renewal to the last known address of the contractor and a thirty day grace period after the expiration shall be given in which renewal shall be given without re-qualification. Failure of the Secretary to provide renewal notice shall not excuse the licensee from filing for the renewal license prior to the expiration of the grace period.

The contractor shall notify the Mechanical Equipment Inspection Section within ten days of it no longer employing a supervisor who possesses the qualifications set forth herein.

There shall be no limitation as to the type or number of contractor's licenses that an individual or entity can obtain so long as the applicant satisfies the requirements for each license.

112.7.4 Examination and Re-Examination. Except as set forth in this section below, all individuals desiring to be licensed as a journeyman under this section must successfully pass an examination in order to qualify as same.

Exception: In determining whether a person qualifies to obtain a license without an examination under the foregoing exceptions, the Board shall consider all of an applicant's sheet metal experience, pipefitting experience, or HVAC system work experience obtained while installing, constructing, altering, repairing, replacing, or servicing HVAC systems during the most recent 12 years, except for work that is exempt from licensure under this code. All work that is exempt from licensure under this code shall be counted without limitation provided the work is of similar nature and technical requirements as work that requires a license under this section.

Note: In determining the extent to which the work experience of an applicant for a journeyman license is exempt or non-exempt under the exceptions to testing, the Board shall only consider the extent to which the nature of the work itself is exempt or non-exempt work regardless of whether such work was performed while an employee of a contractor, owner, lessee, or other entity.

112.7.5 Temporary Project Licenses. A temporary license shall be issued to a journeyman for up to six months upon submittal to the Secretary of the Board of the name and location of the project and the name of the licensed mechanical contractor, sheet metal contractor, or HVAC servicer-installer contractor for such project provided the Board first finds that issuance of said temporary license will not compromise the public safety of residents of the City of Saint Louis. The temporary license may be renewed upon application and proof of employment by a licensed contractor.

112.7.6 Reciprocity. The Mechanical Equipment Inspection Section shall issue a license as a contractor, journeyman, or apprentice, as applicable (and within the categories of mechanical contractor, sheet metal contractor, HVAC servicer-installer contractor, pipefitter journeyman, sheet metal journeyman, HVAC servicer-installer journeyman, pipefitter apprentice, sheet metal apprentice, or HVAC servicer-installer apprentice, as applicable), upon payment of the required license fees (without any further action and without the requirement of a Board meeting) to any person or entity who can show proof of a current and valid

license issued by Saint Louis County pursuant to Saint Louis County, Missouri Ordinance 22,313, provided that the reciprocal issuance of such licenses shall cease if and when the criteria for issuance of a license under St. Louis County Ordinance 22.313 are changed such that such criteria are less stringent than those established in this section.

Exception: Any contractor that does not have a City licensed journeyman in their employment shall not be issued a contractor license under reciprocity.

112.8 License Applications and Fees. Each request for a license under this code shall be on an application form provided by the Mechanical Section. The license fees for each license category shall be as set out in Table 112.8. Licenses shall be valid for the duration set forth below, or in the case of an initial license issued to a person or entity holding a St. Louis County license, for the then unexpired term of the St. Louis County license. The fee for any such initial license shall not be prorated. Thereafter, licenses shall be renewed prior to the expiration period noted below. In the event payment of the required renewal fee is not made within 30 days after the application expiration date of the license, then the license shall be deemed expired and the license holder shall not be permitted to perform work requiring a valid license under this code until the license is reinstated. Licenses that expire because of non-payment of the required renewal fee shall be reinstated automatically upon payment of the fee provided the fee is paid within 120 days of the expiration of the license.

Thereafter, expired licenses can be reinstated by the Board for good cause, absent which the license holder must re-apply for and satisfy the standards for issuance of a new license. There shall be a notice of renewal sent to last known address of the contractor or journeyman.

Table 112.8

MECHANICAL LICENSE FEES

Item	Fee
Contractor license	$100.00 for a 3-year license
Journeyman license	$45.00 for a 3-year license
Apprentice license	$10.00

112.9 Manufacturer and Manufacturer's Representative Restricted License. A restricted license shall be issued under this section to any manufacturer or manufacturer's representative and their employees engaged in the supply of equipment and appliances covered by this section or in the supply of parts or the performance of service work, repairs, maintenance, start-up, testing, or tuning of such equipment and appliances. Such license shall be issued by the Board upon submission by the applicant of evidence that the applicant is a manufacturer of, or has a representative relationship with one or more manufacturers of, equipment or appliances covered by this section and payment of a $45.00 license fee.

Upon such submission, the Secretary shall issue a license in the name of the applicant, identifying the equipment or appliance manufacturers with respect to which the license is issued. Such license shall authorize the licensee and its employees to supply parts and perform service work, repairs, maintenance, start up, testing, or tuning of any equipment or appliances which are supplied by the manufacturers listed on the license. There shall be no restriction on the number of such licenses that are issued to anyone person or entity. Each such license shall be valid for as long as the licensee remains a manufacturer or a manufacturer's representative of the equipment or appliance manufacturers listed in the license. Notwithstanding the foregoing, however, no license shall be required for any manufacturer, manufacturer's representative, or their employees to perform work exempted from the requirement for a license pursuant to Section 112.13 below or to perform emergency repair work on any equipment or appliance supplied or represented by the manufacturer or manufacturer's representative.

112.10 Holder of Certificate of Authority from ASME or National Board of Boiler and Pressure Vessel Inspectors. Any entity which holds appropriate ASME Certificate of Authority with extension to field work or an "R" Certificate of Authority issued by the National Board of Boiler and Pressure Vessel Inspectors shall be authorized to engage in the repair and alteration of boilers, steam generators, and pressure vessels which are covered by this code. Any such entity holding such Certificate of Authority shall be authorized to perform the aforesaid work and shall be issued a license hereunder as a contractor, provided that such entity shall pay a registration fee of $45.00 and file with the Secretary of the Board a copy of its Certificate or Certificates of Authority and proof of insurance as specified in Section 112.11.

112.11 Certificate of Insurance. Contractors shall submit a copy of a Certificate of Insurance for combined $1,000,000.00 minimum limits liability insurance

for bodily injury and property damage to the Mechanical Section on or before January 15th of each year. The certificate shall state the insurance company's name, address, telephone number, kind of insurance, coverage, and policy number. Permits will not be issued to contractors who fail to file a Certificate of Insurance with the Mechanical Section annually or whose insurance has lapsed.

112.12 License Exemptions. The following work shall not require a license under this section:

1. Work performed on an owner's own facility by personnel directly in the employment of the owner of the facility or a business affiliate of such owner. For purposes of this exemption, a "business affiliate" shall mean any parent, subsidiary, or sister corporation of the owner and any other corporation, partnership, limited liability company, or joint venture in which the owner or its parent, subsidiary, or sister company has an ownership interest.

2. Installation, repair, and replacement of portable heating, cooling, and refrigeration equipment. (Portable equipment is not permanently installed into or onto a structure or premises; not directly wired or piped; not connected to duct work; and does not require the venting of combustible products).

3. Installation, repair, and replacement of domestic stoves, ranges, dryers, and other domestic appliances.

4. Work for a public utility regulated by the Missouri Public Service Commission.

5. System installation, start-up, warranty service, or warranty repair work that is performed on specialty equipment or appliances by a factory trained technician and certified by the manufacturer of that system to perform such work. Common HVAC systems and common piping system installations do not apply for this license exemption.

6. Work historically and traditionally performed by boiler makers except for repair and alteration of boilers, steam generators, and pressure vessels with respect to which the provisions of Section 112.10 shall apply.

7. Installation, repair, and replacement of elevators, escalators, dumbwaiters, moving walks, hoists, automotive lifts, conveyors, freight lifts, and manlifts.

8. Work which does not require a permit under the provisions of this code.

9. Receiving, unloading, moving, and storing of machinery and related equipment.

10. Fabrication and installation of process ducts and process sheet metal blow pipe systems.

11. Any refrigeration work involving less than 1-ton of refrigeration, including, but not limited to, such work on reach-in coolers, walk-in coolers, water coolers, beverage and beer dispensing machines and related equipment, beverage coolers, soda carbonated systems, reach-in freezers, and walk-in freezers. In those cases where any refrigeration system is composed of several individual but connected units or split systems, each such individual unit or split system shall be considered a separate unit or system for purposes of this exemption.

12. Minor repairs or replacements to any existing equipment or systems that are part of a commercial, industrial, manufacturing, or process facility, including, but not limited to, ordinary repairs for the purpose of maintenance and service of equipment and systems; the repair or replacement of any minor part of a piece of equipment provided such repair does not alter the approval of the equipment or system; the replacement of piping within the heating and cooling equipment; replacement of leaking or defective valves, fittings, or connections of system components; changing of belts, parts, filters, or similar items; lubrication of equipment; testing and balancing of equipment and systems; and similar service work.

Add Section 113 to read as follows:

SECTION 113 BOARD OF EXAMINERS FOR SPRINKLER SYSTEM CONTRACTORS

113.1 General. There is hereby established a Board of Examiners for sprinkler system contractors, hereinafter referred to as "the Board." The Board shall act in an advisory capacity to the code official in the preparation of rules and regulations regarding the installation, inspection, and maintenance of fire suppression systems consistent with the provisions of this code and the Building and Fire Codes.

113.1.1 Composition of the Board. The Board of Examiners for Sprinkler System Contractors shall consist of five members: the Building Commissioner or duly authorized representative, the fire official or duly authorized representative, and three members appointed by the Mayor.

The Mayor shall appoint one licensed employing sprinkler contractor, one registered professional engineer with experience in fire suppression sprinkler system design, and one licensed journeyman sprinkler

fitter each of whom shall be a resident of the City of Saint Louis and shall have been actively engaged at the trade or business of sprinkler systems for five years in the Saint Louis metropolitan area. If no City resident is available to sit on the Board, a St. Louis County resident may fill in with the approval of the Mayor's Office. Once a qualified City resident is available the county resident may be replaced.

113.1.2 Term of Office; Compensation. The appointed members of the Board shall serve a term of four years or until their successors are appointed. Appointed members shall be compensated for services rendered on a per meeting basis as established by ordinance and subject to budgeted funds availability.

113.1.3 Meetings. Three members of the Board in attendance shall constitute a quorum. An affirmative vote of three Board members is necessary for the approval of any motion. The Board shall elect one of its members to be the Chairman. Suitable quarters for the use of the Board shall be provided by the Building Division.

113.2 Powers and duties of the Board. It shall be the duty of the Board to meet as often as necessary to hear and determine any charges or complaints which may be lawfully made against any licensed sprinkler contractor or licensed journeyman sprinkler fitter, approve applications, and transact any other lawful business of the Board. Meetings may be held at the request of the Chairman of the Board.

1. *Administration.* The Board shall receive applications and after review they shall approve or deny them based on Sections 113.4, 113.5, or 113.6.

2. *Test.* The Board shall prescribe the administration, form, and content of tests for journeyman sprinkler fitters and sprinkler fitter contractors and the form and content of licenses as described herein. The passing grade for each test shall be 75% or better.

3. *Complaints.* All complaints by citizens concerning sprinkler fitting procedures or rules and regulations shall be made to the Board in writing. After a thorough investigation, the Board shall respond in writing to each complaint.

4. *Rule Making Authority.* The Board shall request from the code official to adopt policy memo changes in accordance with Section 104.1.4 of this code.

5. *Inspection.* The Board shall order the inspection of any sprinkler system whenever deemed necessary for the public safety.

6. *Revocation/Suspension of Licenses.* After investigation and hearings in accordance with Section 113.9, the Board may revoke or suspend any license that it has issued.

7. *Licensing and Registration.* The Board shall, pursuant to the regulations and standards herein set forth, determine the qualifications of and provide for the examining, licensing, registration, or certification of applicants who meet the qualifications and successfully pass the appropriate examinations, if required, under this code. Evidence of license shall be provided to those who meet the qualifications and successfully pass the appropriate examination or successfully meet all requirements of renewal of the license. This evidence of license shall remain the property of the City of Saint Louis and shall be surrendered immediately when demanded under conditions listed elsewhere in this section.

113.3 Secretary of the Board; Duties. The code official shall appoint a Secretary to the Board of Examiners for Sprinkler System Contractors. The Secretary shall be non-voting. It shall be the duty of the Secretary to:

1. Keep full and complete records of the proceedings of the Board;

2. Keep a file of the name, residence, and place of business of every licensed person engaged in or working at the business of sprinkler fitting in the City of Saint Louis (these records shall be updated within ninety days of the renewal period stated in Section 113.8);

3. Give all applicants for examination a written notice of the date and place of examination. The Secretary shall give the applicant an informational letter on examination procedures with an outline of suggested study for the examination applied for;

4. Return all incomplete applications to the applicants.

All records shall be open to supervised public inspection during normal working hours, subject to staff availability. Test questions and answers shall not be open to the public.

113.4 License as a sprinkler Contractor. An applicant shall successfully complete all of the following requirements in order to receive a license as a sprinkler contractor:

1. Applicant shall complete application provided by the Mechanical Section.

2. Applicant shall have served a five year apprenticeship and have five years of experience as a certified

sprinkler fitter or the applicant shall have ten years of experience as a certified sprinkler fitter. (Five years of experience consists of a minimum of 8,500 working hours with a maximum of 1,700 working hours considered for any one year.) Equivalent training and experience shall also be considered. Equivalent training and experience shall mean a degree in engineering from an accredited university in which the applicant shall have received training in the design of sprinkler systems, planning and installation of same, and has had three years of experience in the design, planning, and installation of sprinkler systems and must be a registered professional engineer licensed to practice in the State of Missouri.

3. Applicant's credentials shall be reviewed by the Board as to qualifications and experience. The applicant shall provide proof of knowledge, training, and experience through transcripts from educational institutions, apprenticeship agreements, reference letters from employers, and other documents as requested by the Board.

4. The Secretary of the Board shall arrange a testing date with the approved applicant. The Secretary shall also give the applicant an informational letter on the examination procedures with an outline of suggested study for the examination. The applicant shall schedule the test within ninety days of approval. The applicant is responsible for all testing fees.

5. Applicants shall successfully complete the written examination and receive a passing grade on all parts of the examination.

6. Applicant shall be notified in writing by the Secretary of the Board of the examination results. Applicants who pass shall be notified to come to the Mechanical Section and obtain their license. Applicants that have failed the examination for the first time shall be notified that they may schedule a re-take of the examination after ninety days. Applicants that have failed the examination for a second time shall be notified that they may schedule a re-take of the examination after an additional 180 days. Applicants that have failed the examination for a third time shall wait a minimum of twelve months before re-application and re-testing. The applicant is responsible for all application and testing fees.

7. Successful applicants shall bring a certificate of liability insurance for bodily injury and property damage in the amount of at least one million dollars naming the applicant as an additionally insured and the license fee required by Table 113.7 to the Mechanical Section in order to be issued a license as a sprinkler contractor.

113.5 License as a Journeyman Sprinkler Fitter. An applicant shall successfully complete all of the following requirements in order to receive a license as a journeyman sprinkler fitter:

1. Applicant shall complete application provided by the Mechanical Section.

2. Applicant shall have a minimum of five years of experience as an apprentice in the installation of sprinkler systems under the direct personal and immediate supervision of a licensed journeyman sprinkler fitter or licensed sprinkler contractor in the City of Saint Louis, or have a license issued by another licensing authority in another jurisdiction, or equivalent training and experience prior to the date of the examination. (Five years of experience consists of a minimum of 8,500 hours with a maximum of 2,000 working hours considered for any one year.) The applicant shall receive a one-year credit toward their five year apprenticeship training when presenting a certificate of completion from a trade or technical school recognized by the Board.

3. The applicant shall provide proof of knowledge, training, and experience through transcripts from educational institutions, apprenticeship agreements, letters of reference from employers, and any other documents requested by the Board.

4. Applicant's qualifications shall be reviewed by the Board for approval to take the written examination.

5. The Secretary of the Board shall arrange a testing date with the approved applicant. The Secretary shall also give the applicant an informational letter on the examination procedures with an outline of suggested study for the examination. The applicant shall schedule the test within ninety days of approval. The applicant is responsible for all testing fees.

6. Applicant shall successfully complete the written examination and receive a passing grade on all parts of the examination.

7. Applicant shall be notified in writing by the Secretary of the Board of the examination results. Applicants who pass shall be notified to come to the Mechanical Section and obtain their license. Applicants that have failed the examination for the first time shall be notified that they may schedule a re-take of the examination after ninety days. Applicants that have failed the examination for a second time shall be noti-

fied that they may schedule a re-take of the examination after an additional 180 days. Applicants that have failed the examination for a third time shall wait a minimum of twelve months before re-application and re-testing. The applicant is responsible for all application and testing fees.

8. Successful applicants shall bring the license fee required by Table 113.7 to the Mechanical Section in order to be issued a license as a journeyman sprinkler fitter.

113.6 Registration as an Apprentice Sprinkler Fitter. Every applicant learning the business or trade of sprinkler fitting within the City of Saint Louis shall be registered by the Board and shall receive a registration from the Board with "Apprentice" plainly marked on it, the name of the applicant, and the date issued. The registration fee for an apprentice shall be as prescribed in Table 113.7 and the registration will be issued for a five-year period.

The apprentice's employer shall furnish a notarized letter to the Board naming all journeyman sprinkler fitters and all apprentice sprinkler fitters in their employ.

An apprentice who is undergoing an apprenticeship or course of training for the purpose of learning the trade of sprinkler fitting shall perform no work regulated by this code or its amendments except as an assistant under the direct personal and immediate supervision of a journeyman sprinkler fitter or sprinkler contractor licensed under the terms and provisions of this code.

The apprentice registration shall not be renewed. Upon written application, the apprentice's registration shall be allowed to be extended for a maximum of six months if the apprentice has been approved to take the journeyman sprinkler fitter examination as prescribed in Section 113.5. It shall be mandatory for an apprentice sprinkler fitter on the completion of their five-year training period to make application for the journeyman sprinkler fitter's examination.

113.7 Fees. Fees for sprinkler contractor licenses, journeyman sprinkler fitter licenses, and apprentice sprinkler fitter registrations shall be as set forth in Table 113.7. Application fees for sprinkler contractor and journeyman sprinkler fitter licenses and registration fees for apprentice sprinkler fitters shall be due at time of application. License Fees shall be due upon issuance of licenses. Application fees shall not be refunded in the event that the applicant fails to complete the requirements for licensing as set forth in Sections 113.4 and 113.5.

Table 113.7

LICENSE FEES—BOARD OF EXAMINERS FOR SPRINKLER SYSTEM CONTRACTORS

Item	Fee	Duration	Remarks
Sprinkler contractor license	$100.00	3 years	Section 113.4
Journeyman sprinkler fitter license	$45.00	3 years	Section 113.8
Apprentice sprinkler fitter registration	$10.00	5 years	Section 113.6

113.7.1 Licenses Obtained Between Renewal Dates. Any new license issued more than thirty days prior to the renewal date shall expire on the renewal date. Fees for licensees shall be prorated as shown in Table 113.7.

113.8 Renewal Date of licenses. The renewal of all licenses for sprinkler contractors and journeyman sprinkler fitters shall be due three years after the date issued. Licenses shall be renewed up to sixty days prior to but not more than thirty days after the license, registration, or certification expires. Following the grace period, any sprinkler contractor or journeyman sprinkler fitter who has not renewed shall be required to re-apply and re-test in order to obtain a new license at the discretion of the Board.

113.8.1 Failure of Sprinkler Contractor to Renew. The failure of any sprinkler contractor to renew their license during the grace period shall terminate their license and no permit for doing work under this code or any other ordinance of the City of Saint Louis shall be issued to them until after they have obtained a new license following re-application and re-testing (if necessary) and they shall be disqualified from carrying on any work authorized to be done under any permit theretofore issued to them or any job unfinished at the date of termination of their license.

113.9 Suspension or Revocation of Licenses. Upon receipt of a written complaint to the Board filed by the Building Commissioner or any aggrieved person, or

upon the Board's own motion, the Board shall make an investigation when it may deem necessary and shall conduct a hearing upon such complaint.

113.9.1 Cause for Suspension or Revocation. The following offenses shall be cause for a hearing on a sprinkler contractor's or journeyman sprinkler fitter's license:

1. The license holder has obtained a license by fraud or misrepresentation;

2. The license holder has intentionally violated any of the provisions of this code or of the Building or Fire Codes;

3. The license holder is found to be negligent, unskilled, or unfaithful in their work or found to be unfit, incompetent, or untrustworthy in the work of sprinkler fitting;

4. The license holder has intentionally employed an unlicensed person to perform sprinkler fitting work covered by this code;

5. The license holder has directed apprentices to work without the supervision of a licensed journeyman sprinkler fitter;

6. The license holder has obtained permits for individuals who are not in their employ or under their supervision;

7. The license holder is the subject of disciplinary action by another jurisdiction upon grounds for which suspension or revocation is authorized in this code.

113.9.2 Notice of Hearing. Within thirty calendar days after the filing of a written complaint at the Board meeting, a notice of hearing shall be sent to the license holder. The notice shall be served to the last known address by certified mail, return receipt requested, at least ten days prior to any scheduled hearing and shall include:

1. A statement of the time, place, and nature of the hearing;

2. A reference to the particular section(s) of the code and rules involved;

3. A short, plain statement of the complaint and a statement of the issues before the Board;

4. A statement that the nature of the proceeding before the Board will be a formal inquiry into the complaint, at which time an opportunity will be afforded the individual or contractor to respond to the allegations in the complaint by their testimony, the testimony of witnesses, or by documentary evidence;

5. A statement that the journeyman sprinkler fitter or sprinkler contractor has a right to be represented by legal counsel; and

6. A statement that based upon the evidence presented at the hearing, the Board may suspend or revoke the apprentice's, journeyman sprinkler fitter's, or sprinkler contractor's license.

113.9.3 Determining Vote. A decision to suspend or revoke an apprentice's, journeyman sprinkler fitter's, or sprinkler contractor's license shall require the concurring vote of at least three members of the Board.

113.9.4 Decision of the Board. All rulings or decisions of the Board shall become final and binding upon all parties thereto unless appealed to the Board of Building Appeals as provided for in the Building Code. Upon suspension or revocation, a license holder shall surrender the license at the close of the hearing.

113.9.5 Enforcement Stayed. Upon an appeal of a decision of this Board to the Board of Building Appeals, enforcement of any ruling or decision by this Board shall be stayed until the Board of Building Appeals has rendered its decision.

113.9.6 Reinstatement of License. A revoked license or registration maybe reinstated by order of the Board only upon application and examination, if required by the Board, and in the same manner as provided for hereunder for new applicants.

113.10 Hardship Clause. In the event of a loss of a master licensee to a company employing tradesmen licensed in the City of Saint Louis through no fault of that company, a licensed journeyman of the trade of the absent master licensee who shall be a full time employee of that company shall be designated as an interim master after meeting all bonding and insurance requirements. That company may operate under an interim master who shall have the same rights, responsibilities, and standing of a master in that trade for a period of not more than one year from the date of the hardship. The code official shall determine judgment of fault.

Disagreement of judgment may be appealed to the Board, which shall hold an emergency hearing no later than fourteen calendar days following the date the appeal is received by the Secretary of the Board. The decision of the Board involving a hardship clause may be appealed in the same manner as other decisions of the Board. Additional appeals may be made pursuant to the procedures in Section 109 of this code.

CHAPTER 2 IS AMENDED AS FOLLOWS:

Change Section 201.3 to read as follows:

201.3 Terms Defined in Other Codes. Where terms are not defined in this code and are defined in the Building, Electrical, Fire, Fuel Gas, or Plumbing Code, such terms shall have meanings ascribed to them as in those codes.

Add the following definitions to Section 202:

Apprentice. Anyone who has been licensed pursuant to this code to perform work that requires a license under the supervision and inspection of a journeyman in the employ of a contractor in one of the following categories:

1. A pipefitter apprentice is anyone who has been licensed under this code to perform process piping system work under the supervision and inspection of a pipefitter journeyman.

2. A Sheet Metal Apprentice is anyone who has been licensed under this code to perform HVAC duct system work under the supervision and inspection of a sheet metal journeyman.

3. An HVAC Servicer-Installer Apprentice is anyone who has been licensed under this code to perform HVAC servicer-installer work under the supervision and inspection of an HVAC servicer-installer journeyman, pipefitter journeyman or sheet metal journeyman.

Base flood elevation. A reference point determined in accordance with the Building Code based on the depth or peak elevation of flooding including wave height which has a 1 percent (100-year flood) or greater chance of occurring in any given year.

Board. The Board of Examiners for Mechanical Licensing of the City of Saint Louis.

Contractor. An individual or entity who is licensed under this code to perform work on any or all of the following: process piping systems, HVAC duct systems, HVAC piping systems, or HVAC systems.

Entity. Any company, corporation, partnership, joint venture, or other business establishment which performs work that requires a license under this code.

Gangway. Area between two close structures generally used as, but not limited to, passage between two houses in an urban setting.

HVAC duct system. All or any part of the duct system for a heating, ventilation, or air conditioning system regardless of the materials used, including ducts, duct fittings, risers, stacks, dampers, casings, recess boxes, roof top unit curbs, radiator enclosures, exhausts, ventilators, frames, grilles, louvers, registers, cabinets, plenums, air filters, fans, motors and accessory air handling equipment, and appliances.

HVAC duct system work. All work related to the installation, alteration, reconstruction, repair, replacement, and other servicing of an HVAC duct system as well as HVAC servicer installer work as defined herein.

HVAC piping system. All or any part of the piping system a for heating, ventilation, or air conditioning system including pipes, valves, pipe fittings, pumps, and distribution lines and accessory equipment including boilers and compressor assemblies.

HVAC piping system work. All work related to the installation, alteration, reconstruction, repair, replacement, and other servicing of HVAC piping systems as well as HVAC servicer installer work as defined herein.

HVAC servicer-installer contractor. An individual or entity licensed to perform work under this code who employs at least one HVAC servicer-installer journeyman.

HVAC service-installer contractor. A person licensed under this code who may only pull permits for HVAC Servicer-Installer work as defined by Section 112.

HVAC servicer-installer work. All work related to the installation, alteration, reconstruction, repair, replacement, and servicing of equipment of HVAC systems:

1. That provides no more than 14 tons of air conditioning;

2. That provides no more than 300,000 BTUs of heating;

3. That operates at a pressure of less than 15 psi of steam;

4. That provides of no more than 5,000 CFM of ventilation; and

5. That provides of no more than 5,000 CFM of exhaust.

HVAC system. A heating, ventilation, or air conditioning system or any part thereof including an HVAC piping system or HVAC duct system specifically addressed and regulated in this code.

Note: If an HVAC system consists of multiple individual units or split systems, each such individual unit or split system shall be considered a separate system for purposes of this section.

Journeyman. Anyone who is licensed under this code to perform work under one of the following categories.

1. A pipefitter journeyman is anyone who has been licensed under this code to perform process piping system work.

2. A sheet metal journeyman is anyone who has been licensed under this code to perform HVAC duct system work.

3. An HVAC servicer-installer journeyman is anyone who has been licensed under this code to perform HVAC servicer-installer work.

Mechanical contractor. An individual or entity licensed to perform work under this code who employs at least one pipefitter journeyman.

Plumbing Code. The Plumbing Code adopted by the City of Saint Louis.

Portable cooking appliance. A single, non-permanent electrical cooking appliance (not attached with screws, clamps, or other fastening devices). A portable cooking appliance shall be counter- or tabletop-mounted; shall be less than 2 feet (610 mm) in any dimension; and shall weigh less than 100 pounds (454 kg). The owner or operator of a portable cooking appliance shall be able to provide the Mechanical Inspection Section with manufacturer's information documenting the above information. Fryers and cook tops that may be used for frying shall not be used. Each occupancy shall be limited to the use of 2 such portable appliances. Microwave ovens shall not be included in this count.

Portable HVAC equipment. HVAC equipment that is not permanently installed into or onto a structure or premises, not directly wired or piped, not connected to duct work, and does not require the venting of combustion products.

Process piping system. All or any part of a piping system (excluding fire suppression systems), which falls within one of the following categories:

1. A medical gas system.
2. An HVAC piping system.
3. A pneumatic system.
4. A pressurized or vacuum piping system.
5. A fuel gas system.
6. An oxygen system.
7. A gasoline system not for public sale.

Process piping system work. All work related to the installation, alteration, reconstruction, repair, replacement, and other servicing of process piping systems and shall be installed by pipefitters or HVAC Servicer-Installers as defined in Section 112.

Sheet metal contractor. An individual or entity licensed to perform work under this code who employs at least one sheet metal journeyman.

Workmanlike. Executed in a skilled manner, e.g., generally plumb, level, square, in line, undamaged, and without marring adjacent work.

CHAPTER 3 IS AMENDED AS FOLLOWS:

Change Section 301.10 to read as follows:

301.10 Electrical. Electrical wiring controls and connections to equipment and appliances regulated by this code shall be in accordance with the electrical code.

Add Section 301.10.1 to read as follows:

301.10.1 Service Disconnects. Service disconnects shall not be mounted on equipment or appliances, shall be located within 25' of such equipment or appliances, and shall be in the sight line of same.

Exception: Factory installed disconnects.

Add Sections 301.19 and 301.19.1 to read as follows:

301.19 Annual Inspections. Annual inspections shall be performed by the code official or approved third party testing agency on the following mechanical equipment: auto lifts, boilers, unfired pressure vessels, refrigeration systems for which monitoring equipment is required, and equipment used for smoke control.

Exceptions: Boilers serving 6 or fewer residential dwelling units.

301.19.1 Independent Inspector. Any boiler that is required to be operated by a Stationary Engineer per Section 111 of this code shall be inspected annually by an independent inspector that is certified with "The National Board of Boiler and Pressure Vessel Inspectors." Copies of these independent inspection reports shall be provided to the Section of Mechanical Equipment Inspection.

Add Section 301.20 to read as follows:

301.20 Motor Vehicles. Motor vehicles used for mechanical, sheet metal, and HVAC work shall be permanently and prominently labeled with company name and phone number. Letters and numbers shall not be less than four inches in height.

Add Section to read as follows:

302.6 Stud Guards. When the edge of bored holes is less than one inch (25mm) from the edge of a stud or

joist and when notched studs or joists are covered, stud guards shall be installed to protect service lines from fastener damage.

Add Section 303.10 to read as follows:

303.10 Exterior Walls. Equipment and appliances shall not be installed on exterior walls.

Exceptions:

1. One- and two-family dwellings where equipment and appliances are not located above seven feet from grade, not above walkways, and not installed in gangways.

2. When installed in conjunction with a working platform and access. Working platforms and access shall comply with Sections 306.5 and 306.5.1 of this code.

Add Section 303.11 to read as follows:

303.11 Property Line. Equipment or appliances shall not be located within 3 feet of property lines, "set back."

Add Section 304.1.1 to read as follows:

304.1.1 Heating Equipment. All heating equipment shall be permanently installed.

Add Section 304.13 to read as follows:

304.13 Equipment Guards. Pulleys, belts, gears, and similar equipment shall be protected by an approved guard.

Change Section 307.2.4 to read as follows:

307.2.4 Traps. Condensate drains shall be trapped as required by the equipment or appliance manufacturer. An air gap shall be provided between the drain line and sewer.

Change Section 307.2.4.1 to read as follows:

307.2.4.1 Ductless mini-split systems. Ductless mini-split systems that produce condensate shall be trapped in accordance with manufacturers' installation instructions.

CHAPTER 5 IS AMENDED AS FOLLOWS:

Add Section 504.5.1 to read as follows:

504.5.1 Interlock. An interlock system shall be used to prevent the dryer from operating in the event that the dryer exhaust duct power ventilator (booster fan) fails to operate.

Add Section 504.5.2 to read as follows:

504.5.2 Location. The dryer exhaust duct power ventilator (booster fan) shall be located in the same room as the dryer.

Change Section 506.3.8 # 2 to read as follows:

2. Sections of grease ducts that are inaccessible from the hood or discharge openings shall be provided with cleanout openings spaced not more than 20 feet apart and not more than 10 feet from changes in direction that are 45 degrees or greater.

Add Section 506.6 to read as follows:

506.6 Cleaning. Hoods, grease-removal devices, fans, ducts, and other appurtenances shall be cleaned at intervals to prevent the accumulation of grease. Cleaning schedule and dates of previous cleanings shall be recorded and records shall be maintained on the premises.

Change Sections 507.1 to read as follows:

507.1 General. Commercial kitchen exhaust hoods shall comply with the requirements of this section. Hoods shall be Type I or II and shall be designed to capture and confine cooking vapors and residues. A Type I or Type II hood shall be installed at or above all commercial cooking appliances in accordance with Section 507.2 and 507.3. Where any cooking appliance under a single hood requires a Type I hood, a Type I hood shall be installed. Where a Type II hood is required, a Type I or Type II hood shall be installed. Where a Type I hood is installed, the installation of the entire system, including the hood, ducts, exhaust equipment, and makeup air system shall comply with the requirements of Sections 506, 507, 508, and 509.

Exceptions:

1. Factory-built commercial exhaust hoods that are listed and labeled in accordance with UL 710 and installed in accordance with Section 304.1 shall not be required to comply with Sections 507.1.5, 507.2.3, 507.2.5, 507.2.8, 507.3.1, 507.3.3, 507.4 and 507.5.

2. Factory-built commercial cooking recirculating systems that are listed and labeled in accordance with UL 710B and installed in accordance with Section 304.1 shall not be required to comply with Sections 507.1.5, 507.2.3, 507.2.5, 507.2.8, 507.3.1, 507.3.3, 507.4 and 507.5. Spaces in which such systems are located shall be considered to be kitchens and shall be ventilated in accordance with Table 403.3.1.1. For the purpose of determining the floor area required to be ventilated, each individual appliance shall be considered as occupying not less than 100 square feet.

3. Where cooking appliances are equipped with integral down-draft exhaust systems and such appliances and exhaust systems are listed and labeled for the application in accordance with NFPA 96, a hood shall not be required at or above them.

4 Portable cooking appliances shall not exceed two per occupancy. Any portable cooking appliance for which the manufacturer recommends venting shall be vented.

Change Section 507.2 to read as follows:

507.2 Type I hoods. Type I hoods shall be installed when cooking appliances produce grease or smoke as a result of the cooking process. Type I hoods shall be installed over medium-duty, heavy-duty, and extra-heavy-duty cooking appliances.

Exception: A Type I hood shall not be required for an electric cooking appliance where an approved testing agency provides documentation that the appliance effluent contains 5mg/m3 or less of grease when tested at an exhaust flow rate of 500 cfm in accordance with UL 710B. A Type II hood shall be installed above the electrical cooking appliance and the hood shall be sized for the one electrical appliance only.

CHAPTER 6 IS AMENDED AS FOLLOWS:

Change Section 603.4 Exception to read as follows:

603.4 Metallic ducts.

Exception: Ducts installed within single dwelling units shall have a minimum thickness of 28 gage.

Change Section 603.6.1.1 to read as follows:

603.6.1.1 Duct Length. Flexible air ducts shall be limited in length to 14 feet.

CHAPTER 10 IS AMENDED AS FOLLOWS:

Change Section 1001 to read as follows:

1001.1 Scope. In addition to the other provisions of this code, this chapter shall govern the installation, alteration, and repair of water heaters, boilers, and pressure vessels. The provisions of the ASME Code for Boilers and Pressure Vessels as listed in Chapter 15 shall apply.

Exceptions:

1 Pressure vessels used for unheated water supply.

2. Portable pressure vessels and Interstate Commerce Commission containers.

3. Containers for liquefied petroleum gases, bulk oxygen, and medical gas installed per the Medical Gas and Vacuum Systems Installation Handbook.

4. Pressure vessels having a volume of 5 cubic feet (0.14 m3) or less operating at pressures not exceeding 250 psi (1,724 kPa) and located within occupancies of Use Groups B, F, H, R, S, and U.

5 Pressure vessels used in refrigeration systems that are regulated by Chapter 11 of this code.

6. Pressure tanks used in connection with coaxial cables, telephone cables, power cables, and other similar humidity control systems.

7. Any boiler or pressure vessel installed in a federal or state owned and operated property.

1001.2 Periodic inspections. All boilers, steam generators, and pressure vessels subject to the provisions of this code shall be inspected annually by an approved independent third-party testing agency. Inspection reports shall be filed with the Mechanical Section of the Building Division.

1001.2.1 Conduct of Inspections. The conduct of these inspections shall be in accordance with the current edition of the National Board Inspection Code, Part 2.

1001.2.2 Inspector Qualifications. Inspectors conducting these inspections must have current IS Commissions issued by the National Board of Boilers and Pressure Vessel Inspectors.

Exception: Heating boilers or pressure vessels which are located in buildings of Use Group R-3 or Use Group R-2 having six dwelling units or less.

1001.3 Certificate of Inspection. A boiler, steam generator, or pressure vessel subject to the provisions of this code shall not be placed in operation until a sticker denoting inspection and approval has been applied to the vessel.

1001.4 Major Repairs. Welded repairs to boilers, steam generators, and pressure vessels subject to the provisions of this code shall be performed only by those organizations which possess the appropriate ASME Certificate of Authority with extension to field work or an "R" Certificate of Authority issued by the National Board of Boiler and Pressure Vessel Inspectors. A permit shall be required for such work. The fee shall be the same as the fee for installation of the vessel as set forth in Table 106.5.2. A hydrostatic test shall be performed on the vessel before it is returned to service.

1001.5 Condemnation. Any boiler or pressure vessel which, in the opinion of the code official, constitutes a hazard shall be deemed unsafe and sealed out of service.

Change Sections 1002.1 thru 1002.3 to read as follows:

1002.1 General. Potable water heaters and hot water storage tanks shall be listed and labeled and installed in accordance with the manufacturer's installation instructions, the Plumbing Code, and this code. All water heaters shall be capable of being removed with-

out first removing a permanent portion of the building structure. The potable water connections and relief valves for all water heaters shall conform to the requirements of the Plumbing Code. Domestic electric water heaters shall comply with UL 174 or UL 1453. Commercial electric water heaters shall comply with UL 1453. Oil-fired water heaters shall comply with UL 732.

1002.2 Water Heaters Utilized for Space Heating. Water heaters utilized both to supply potable hot water and provide hot water for space-heating applications shall be listed and labeled for such applications by the manufacturer and shall be installed in accordance with the manufacturer's installation instructions and the Plumbing Code.

1002.3 Supplemental Water-Heating Devices. Potable water-heating devices that utilize refrigerant-to-water heat exchangers shall be approved and installed in accordance with the Plumbing Code and the manufacturer's installation instructions.

Change Section 1004.6 to read as follows:

1004.6 Boiler Rooms and Enclosures. Boiler rooms and enclosures and access thereto shall comply with the Building Code and Chapter 3 of this code. Boiler rooms shall be equipped with a floor drain or other approved means for disposing of liquid waste. In addition, except for one- and two-family dwellings or when the boiler is entirely within a dwelling unit, all other boilers or combination boilers shall be installed in a room protected by an enclosure designed to prevent unauthorized entry. Storage or living quarters shall not be permitted in any boiler or similar heating equipment room.

Change Sections 1005.1 and 1005.2 to read as follows:

1005.1 Valves. Every boiler or modular boiler shall have shutoff valve in the supply and return piping. For multiple boiler or multiple modular boiler installations, every boiler or modular boiler shall have individual shutoff valves in the supply and return piping.

1005.2 Potable Water Supply. The water supply to all boilers shall be connected in accordance with the Plumbing Code.

Change Section 1006.1 to read as follows:

1006.1 Safety Valves for Steam Boilers. All steam boilers shall be protected by safety valves as required by the ASME Code for Boiler and Pressure Vessels listed in Chapter 15.

Change Section 1006.6 to read as follows:

1006.6 Safety and Relief Valve Discharge. Safety and relief valve discharge pipes shall be of rigid pipe that is approved for the temperature of the system. The discharge pipe shall be the same diameter as the safety or relief valve outlet. Safety and relief valves shall not discharge so as to be a hazard, a potential cause of damage, or otherwise a nuisance. High-pressure-steam safety valves shall be vented to the outside of the structure. Where a low-pressure safety valve or a relief valve discharges to the drainage system, the installation shall conform to the Plumbing Code.

Change Sections 1008.1 and 1008.2 to read as follows:

1008.1 General. Every steam boiler shall be equipped with one gate valve and one quick-opening blow-off valve in series in each blow-down line. The valves shall be installed in the opening provided on the boiler. The minimum size of the valve shall be the size specified by the boiler manufacturer or the size of the boiler blow-off valve opening.

1008.2 Discharge. Blow-off valves shall discharge to a safe place of disposal. Where discharging to the drainage system, the installation shall conform to the Plumbing Code.

Change Section 1009.3 to read as follows:

1009.3 Open-Type Expansion Tanks. Open-type expansion tanks shall be located a minimum of 4 feet (1219 mm) above the highest heating element. The tank shall be adequately sized for the hot water system. An overflow with a minimum diameter of 1 inch (25.4 mm) shall be installed at the top of the tank. The overflow shall discharge to the drainage system in accordance with the Plumbing Code.

Add Section 1011.1.1 to read as follows:

1011.1.1 Test of Existing Vessels. The pressure for vessels previously in service shall be as specified in the National Board Inspection Code listed in Chapter 15.

Add Section 1012 to read as follows:

SECTION 1012 BLOW-OFF TANKS

1012.1 General. Blow-off tanks shall be designed and fabricated in accordance with Section VIII of the ASME Boiler Code as listed in Chapter 15 and shall be so stamped.

1012.1.1 Boilers Less Than 100 psi. For boilers carrying one hundred psi steam pressure or less, the heads and shell shall be constructed of not less than one-fourth inch steel or equivalent strength material.

1012.1.2 Boilers Greater Than 100 psi. For boilers carrying in excess of one hundred psi pressure, tanks shall be fabricated of materials designed for the pressures carried.

1012.2 Size. The size of the tank shall be indicated by the blow down requirements, and the tank installed shall be large enough to blow down one gauge glass of water from one boiler or from any one of a battery of boilers interconnected. The size of the tank shall be of sufficient capacity so the blow down water from the boiler will only fill one-half the capacity of tank, and the remaining volume of the tank will be available for the vapor displacement.

1012.3 Discharge. The discharge from the boiler or boilers shall enter the tank above the high water level or surface of the water in such tank. A baffle plate shall be installed in the tank in line with the inlet pipe from the boiler and shall be at least twelve inches from the discharge opening from the boiler into the tank. The outlet opening or discharge from the tank shall be at least two times the area of the inlet pipe, and such outlet pipe shall have an internal pipe built into the tank, extending downward to within four inches of the bottom of the tank. The discharge pipe shall be connected to a sewer through a running trap or to an approved leaching well.

1012.4 Venting.

1012.4.1 Vent Pipe Size. All blow-off tanks shall be properly vented to the outside atmosphere. Such vent pipes shall be at least four times the area of the inlet pipe from the boiler, and such pipe shall not be less than two-inch iron pipe size.

1012.4.2 Pipe Discharge. The vent pipe shall be run as directly as possible to the outside atmosphere and in a suitable location so that any steam or water discharged by the blow down of the boiler would not be dangerous or injurious to life.

1012.4.3 Vent Obstructions. The vent shall be free of any pockets or sags that might collect or hold water or cause an obstruction of the pipe and pressure buildup in the tank. The end of the vent pipe shall be protected from the possibility of any obstruction.

1012.5 Manhole. Each blow-down tank shall be provided with a suitable manhole for the inspection and cleaning of the tank.

Add Section 1013 to read as follows:

SECTION 1013 RETURN CONDENSATE

1013.1 Maximum Temperature. The return condensate from a building heated by a central steam supply shall be permitted to be discharged either into a condensate return system or wasted into a sewer drain connection or approved leaching well. This condensate when discharging into a sanitary sewer system shall not be in excess of 140°F and shall discharge into an open floor drain or a special drain connection or approved receptor. If the floor drain or drain connection to the sewer is above the level of the return piping so that it cannot flow by gravity, an automatic sump pump shall be installed to pump the condensate from the sump to the sewer drain.

Add Section 1014 to read as follows:

SECTION 1014 FIELD ASSEMBLY

1014.1 Welding. Any welding required during assembly shall be performed by welders employed and qualified by companies in possession of the appropriate ASME Certificate of Authorization.

CHAPTER 11 IS AMENDED AS FOLLOWS:

Change Section 1101.4 to read as follows:

1101.4 Water Connection. Water supply and discharge connections associated with refrigeration systems shall be made in accordance with this code and the Plumbing Code.

Add Section 1110 to read as follows:

SECTION 1110 RESIDENTIAL AIR CONDITIONERS

1110.1 Permits. Mechanical permits shall be required for residential air conditioning units.

1110.2 Residential Split Systems. Condensing units, heat pumps, or any other mechanical equipment or appliances shall not be located in front of buildings, in gangways or within three feet of lot lines.

1110.3 Condenser Foundations. All condensing units mounted on grade must be located on a level, two-inch-thick concrete pad or a level, two-inch-thick plastic pad or other foundation approved by the code official prior to installation.

1110.4 Protection of Refrigerant Lines. All piping installed above grade, or underground, shall be protected from damage and corrosion in keeping with recognized standard practice and the recommendations of the manufacturer.

1110.5 Units in Areaways. Where gangways less than four feet in width exist between buildings, all window units shall be installed not less than seven feet above grade.

CHAPTER 12 IS AMENDED AS FOLLOWS:

Change Section 1201.1 to read as follows:

1201.1 Scope. The provisions of this chapter shall govern the construction, installation, alteration, and repair of hydronic piping systems. This chapter shall apply to hydronic piping systems that are parts of heating, ventilation, and air-conditioning systems. Such piping systems shall include steam, hot water, chilled water, steam condensate, and ground source heat pump loop systems. Potable cold and hot water distribution systems shall be installed in accordance with the Plumbing Code.

Add Section 1201.3 to read as follows:

1201.4 Ground Source Heat Pump Loop Systems. Ground source heat pump loop systems shall be installed a minimum of 10 feet (3048 mm) from the property line

Delete Section 1204.2.

Change Section 1206.2 to read as follows:

1206.2 System Drain Down. Hydronic piping systems shall be designed and installed to permit the system to be drained. Where the system drains to the plumbing drainage system, the installation shall conform to the requirements of the Plumbing Code.

Change Sections 1206.3 and 1206.4 to read as follows:

1206.3 Protection of Potable Water. The potable water system shall be protected from backflow in accordance with the Plumbing Code.

1206.4 Pipe Penetrations. Openings for pipe penetrations in walls, floors, or ceilings shall be larger than the penetrating pipe. Openings through concrete or masonry building elements shall be sleeved. The annular space surrounding pipe penetrations shall be protected in accordance with the Building Code.

CHAPTER 14 IS AMENDED AS FOLLOWS:

Change Section 1401.2 to read as follows:

1401.2 Potable Water Supply. Potable water systems shall be protected against contamination in accordance with the Plumbing Code.

CHAPTER 15 IS AMENDED AS FOLLOWS:

Modify Chapter 15 by adding the following:

ANSI American National Standards Institute

Arlington Heights, IL 60004

NB-23-National Board Inspection Code, 2013 Edition

1011.1.1

IAPMO International Association of Plumbing and Mechanical Officials

5001 E. Philadelphia Street

Ontario, CA 91761-2816

UPC-09-Uniform Plumbing Code

(Ord. No. 72037, § 1, 9-19-2025; Ord. No. 70800, § 3, 7-6-2018.)

25.03.030 Penalty.

Any person who shall violate a provision of this code or shall fail to comply with any of the requirements thereof, or who shall erect, construct, alter, extend, repair, remove, demolish, use, or occupy any building, structure, premises, or equipment regulated by this code in violation of an approved construction document or directive of the building official or the Board of Building Appeals, or of a permit or certificate issued under the provisions of this code, and shall, upon conviction thereof, be punished by a fine of not more than $500.00, or by imprisonment not exceeding 90 days, or both such fine and imprisonment. Each day that a violation continues shall constitute a separate and distinct offense. (Ord. No. 70800, § 4, 7-6-2018.)

Chapter 25.04

PLUMBING CODE

Editor's Note:

Ord. No. 71644, § 1, approved February 20, 2023, repealed former Ch. 25.04, and §§ 2 and 3 enacted a new chapter as set out herein. Former Ch. 25.04, §§ 25.04.010—25.04.310, pertained to similar subject matter and derived from the 1994 Code, §§ 25.04.010—25.04.310; and Ord. No. 69255, approved October 19, 2012.

Prior ordinance history: Ords. 56797, 60514, 60826, 62682, 65031, 65932, 66615, and 69255

City Counselor Ops.: 10497, 10501

Cases:

Collateral estoppel prevented relitigation of the issue of wrongful demolition where the City had, in an earlier action, obtained a judgment on a lien against the proceeds of the condemnation award to recover the costs of demolition. *Dehner v. City of St. Louis,* 688 S.W. 2d 15 (Mo. App. 1985)

Sections:

25.04.010 Adoption.

25.04.020 Amendments.

25.04.030 Penalty clause.

25.04.010 Adoption.

Portions of Ordinance Number 69255 which conflict with the below are hereby replaced with a new Plumbing Code adopting the 2021 Uniform Plumbing Code.

The Uniform Plumbing Code 2021, Twenty-Ninth Edition, as published by the International Association of Plumbing and Mechanical Officials, three (3) copies of which are filed on record in the Office of the Register of the City of Saint Louis, being marked and designated as the Uniform Plumbing Code, including Appendixes A through G and I through N and add, as an additional appendix, O and the same are hereby adopted as "The Plumbing Code of the City of Saint Louis, in the State of Missouri;" for the control of buildings and structures as herein provided; and that each and all of the regulations, provisions, penalties, conditions and terms of said Building Code are hereby referred to, adopted and made a part hereto, as if fully set out in this chapter with the additions, insertions, deletions and changes prescribed in Section 25.04.020 of this chapter.

(Ord. No. 71644, § 2, 2-20-2023.)

25.04.020 Amendments.

The Uniform Plumbing Code 2021 is amended and changed in the following respects:

Delete Chapter 1 in its entirety with the following substitution:

Add a new Chapter 1 to read as follows:

CHAPTER 1
SCOPE AND ADMINISTRATION

SECTION 101
SCOPE AND GENERAL REQUIREMENTS

101.1 Title. These regulations shall be known as the Plumbing Code of the City of St. Louis, hereinafter referred to as "this Code."

101.2 Scope. This Code shall regulate the design, erection, installation, alteration, repairs, relocation, replacement, addition to, removal, use, maintenance and inspection of plumbing equipment and systems within the City of St. Louis.

101.2.1 Appendices. Certain documents, three copies of which are filed in the Office of the Register of the City of Saint Louis, said copies being marked and designated as the "Uniform Plumbing Code, 2021 (hereinafter "UPC") Edition" "IAPMO/ANSI UPC 2021," including Appendices A through G and I through N, as published by the International Association of Plumbing and Mechanical Officials, together with the Plumbing Review Committee's added section O are hereby referred to, adopted, and made a part hereof, as if fully set out in this Ordinance, with the additions, deletions, insertions and changes prescribed by the following sections herein; provided that should any conflict of interpretations or requirements occur between the provisions of the aforementioned documents and the St. Louis City Ordinances, then said St. Louis City Ordinances shall apply and prevail. Whenever the term "this Code" is used in this Ordinance or in the Uniform Plumbing Code, it shall mean the Uniform Plumbing Code with the additions, deletions, and changes prescribed in this Ordinance. Provisions in the appendices shall not apply unless specifically adopted.

101.2.1.1 Plumbing and Drainage System Related Requirements From Supplemental Codes Adopted. The "Uniform Swimming Pool, Spa, and Hot Tub Code", 2021 (hereinafter "USPSHTC") and the "Uniform Solar Energy Code, 2021 (hereinafter "USEC"), as published by the International Association of Plumbing and Mechanical Officials, are hereby referred to, adopted, and made a part hereof, as if fully set out in this Ordinance.

101.3 Code intent. Declaration of Public Necessity. In accordance with Chapter 341, RSMo 2000, it is hereby found and determined that adoption of a nationally recognized standard plumbing code is necessary for the promotion of the public health and safety of St. Louis City, Missouri. Unless otherwise expressly stated or clearly contrary to the context, terms, phrases, words and abbreviations not defined herein shall be given the meaning set forth in Sections 341.090 through 341.200 RSMo and, if not defined therein, their common and ordinary meaning. To the extent that the provisions of Sections 341.090 through 341.220 RSMo do not conflict with the provisions in this Ordinance, those sections are hereby adopted by reference as if fully set out herein.

This Code shall be construed, interpreted and enforced so as to secure its expressed intent which is to ensure public health, safety, welfare and by appropriate regulation of plumbing, sewer and cross-connection control systems installations, testing and maintenance. The purpose of this Code is to provide minimum standards to safeguard life and limb, health, property and

public welfare by regulating and controlling the design, erection, installation, alteration, repairs, relocation, replacement, addition to, use, maintenance and inspection of plumbing equipment and systems.

SECTION 102
APPLICABILITY

102.1 General. The provisions of this Code shall apply to all matters affecting or relating to structures and premises as set forth in Section 101. Where, in a specific case, different sections of this Code specify

different materials, methods of construction or other requirements, the most restrictive sections shall govern.

102.1.1 Conflicts Between Codes. When the requirements within the jurisdiction of this plumbing code, conflict with the requirements of any other ordinance, or with referenced standards, or with manufacturer's installation requirements, the more stringent requirement shall apply.

102.2 Existing installations. Except as otherwise provided for in this chapter, a provision in this Code shall not require the removal, alteration or abandonment of, nor prevent the continued utilization and maintenance of an existing plumbing system lawfully in existence at the time of adoption of this Code.

102.3 Maintenance. Plumbing systems, materials and appurtenances, both existing and new, and all parts thereof shall be maintained in proper operating condition in accordance with the Original design and in a safe and sanitary condition. All devices or safeguards which are required by this Code shall be maintained in compliance with the code edition under which installed. The owner or the owner's designated agent or the person collecting rent shall be responsible for maintenance of plumbing systems. To determine compliance with this provision, the code official shall have the authority to require any plumbing system to be reinspected.

102.4 Additions, alterations or repairs. Additions, alterations, renovations or repairs to any plumbing system shall conform to that required for a new plumbing system without requiring the existing plumbing system to comply with all the requirements of this Code. Additions, alterations or repairs shall not cause an existing plumbing system to become unsafe, unsanitary, hazardous or overloaded.

Installed fixtures, piping or plumbing equipment of any premises found to be in an unsatisfactory or hazardous condition shall be repaired, renovated, replaced or removed immediately subsequent to the issuance of a written notice of the unsanitary or hazardous condition by the Plumbing Inspection Section of the Division of Building and Inspection, or by the Health Commissioner.

Minor additions, alteration, renovations and repairs to existing plumbing systems shall meet the provisions for new construction, unless such work is done in the same manner and arrangement as was in the existing system, is not hazardous and is approved.

102.5 Change in occupancy. It shall be unlawful to make any change in the occupancy of any structure which will subject the structure to any special provision of this Code applicable to the new occupancy without approval of the code official. The code official shall certify that such structure meets the intent of the provisions of law governing building construction for the proposed new occupancy and that such change of occupancy does not result in any hazard to public health, safety or welfare.

102.6 Historic buildings. The provisions of this Code relating to the construction, alteration, repair, enlargement, restoration, relocation or moving of building or structures shall not be mandatory for existing buildings or structures identified and classified by the state or City of Saint Louis as historic buildings when such buildings or structures are judged by the code official to be safe and in the public interest of health, safety and welfare regarding any proposed construction, alteration, repair, enlargement, restoration, relocation or moving of buildings.

102.7 Moved buildings. Except as determined by Section 102.2, plumbing systems that are a part of buildings or structures moved into or within the City of Saint Louis shall comply with the provisions of this Code for new installations. Before any structure that have been moved into or within the City of Saint Louis is occupied, the plumbing system shall be inspected and tested for safe operation and compliance with the requirements of this Code. This testing shall be performed by a licensed plumber.

Exception: Unaltered plumbing systems within manufactured units bearing certification of the Missouri Public Service Commission.

102.8 Requirements not covered by code. Any requirements necessary for the strength, stability or proper operation of an existing or proposed plumbing system, or for the safety of the occupants thereof, or for the public safety, health and general welfare, not specifically covered by this Code, shall be determined by the code official.

SECTION 103
VALIDITY

103.1 Partial invalidity. In the event that any part or provision of this Code is held to be illegal or void, this shall not have the effect of making void or illegal any or the other parts or provisions thereof, which are deter-

mined to be legal; and it shall be presumed that this Code would have been passed without such illegal or invalid parts or provisions.

103.2 Segregation of invalid provisions. Any invalid part of this Code shall be segregated from the remainder of the code by the court holding such part invalid, and the remainder shall remain effective.

103.3 Decisions involving existing structures. The invalidity of any provision in any section of this Code as applied to existing buildings and structures shall not be held to affect the validity of such section in its application to buildings and structures hereafter erected.

SECTION 104
SECTION OF PLUMBING REGULATIONS AND INSPECTIONS

104.1 General. There is hereby created the Section of Plumbing Regulations and Inspections within the Division of Building and Inspection which shall have control and enforce all codes, regulations and ordinances pertaining to plumbing and drainlaying installations and systems in accordance with this Code. The head of this section shall be known as the Plumbing Inspection Supervisor, who shall be appointed by the Building Commissioner. Throughout this Code, the Plumbing Inspection Supervisor, the Chief Mechanical Engineer and the Building Commissioner shall be referred to as the code official.

104.2 Plumbing inspection supervisor (Chief Plumbing Inspector). There shall be appointed by the Building Commissioner a Plumbing Inspection Supervisor (Chief Plumbing Inspector). The Plumbing Inspection Supervisor shall have served an apprentice training program or shall have a certificate of completion in plumbing technology from an accredited trade or technical institute. The Plumbing Inspection Supervisor shall also have ten (10) years' experience as a licensed plumber and possess the qualifications established by the Department of Personnel.

104.3 Plumbing inspectors. There shall be appointed by the code official a sufficient number of Plumbing Inspectors to adequately perform all inspection duties and enforce all ordinances pertaining to the Section of Plumbing Regulations and Inspections in accordance with subsequent sections of this Code and City of Saint Louis budgetary constraints. All plumbing inspectors shall have had at least five (5) years' experience as a licensed plumber and possess the qualifications set forth by the Department of Personnel.

104.3.1 Assistant to the supervisor. One such inspector shall assist the Plumbing Inspection Supervisor. The assistant shall assume the responsibilities of the Plumbing Inspection Supervisor in the Supervisor's absence or disability.

104.3.2 Restriction of employees. An official or employee connected with the Section of Plumbing Regulations and Inspections, except one whose only connection is that of a member of the Board of Examiners for Master Plumber, Drainlayer and Journeyman Plumbers, or a member of the Board of Examiners for Sprinkler System Contractors, or a member of the Committee of Plumbing Review shall not be engaged in or directly or indirectly be connected with the furnishing of labor, materials, equipment or appliances for the construction, alteration or maintenance of a building, or the preparation of construction documents thereof, unless that person is the owner of the building, or a first degree relative of the owner of the building, nor shall such code official or employee engage in any work that conflicts with official duties or with the interests of the department. As such, no code official or employee connected with the Section of Plumbing Regulations and Inspections shall hold an active master or journeyman plumbing or drainlaying license in any jurisdiction. All licenses will be put into the inactive status.

104.4 Relief from personal liability. The code official and employees charged with the enforcement of this Code, while acting for the City of Saint Louis, shall not thereby be rendered liable personally, and are hereby relieved from all personal liability for any damage accruing to persons or property as a result of any act required or permitted in the discharge of official duties. Any suit instituted against any code official or employee because of an act performed by that person in the lawful discharge of duties and under the provisions of this Code shall be defended by the City of Saint Louis City Counselor's Office until the final termination of the proceedings. The code official or any employees shall not be liable for any costs or judgment in or arising from any action, suit or preceding that is instituted in pursuance of the provisions of this Code. Any code official or employee of the Division of Building and Inspection, Department of Public Safety, acting in good faith and without malice, shall be free from liability for acts performed under any of its provisions or by reason of any act or omission in the performance of official duties in connection therewith.

The above protection shall also extend to former employees for work performed during their period of employment with the City of Saint Louis.

SECTION 105
DUTIES AND POWERS OF THE CODE OFFICIAL

105.1 General. The code official shall enforce all of the provisions of this Code and shall act on any question relative to the mode or manner of construction and the materials to be used in the erection, installation, alteration, repair, removal, maintenance or operation of all plumbing systems, devices, equipment and appliances, except as otherwise specifically provided for by statutory requirements or as provided for in Sections 105.2 through 105.7.

105.2 Applications and permits. It shall be the duty of the code official to examine all applications and construction documents of proposed plumbing and drainlaying, and if the same are in all respects found to be in conformity with the provisions of this Code, the code official shall approve them. The code official shall investigate all reported cases of improper plumbing, pipefitting and sprinkler fitting work or material, old or new, and of improper sanitation as to established principles of public health. The code official shall cause an inspection to be made of all water and sewer connections and approve all permits for excavations made for the purpose of making or repairing same. The code official shall cause the inspection of the plumbing and drain laying of all buildings, public and private, in the course of erection, alteration, reconstruction or repair and cause the inspection of existing plumbing as often as may be necessary in a manner and to the extent necessary to carry out the provisions of this Code regulating plumbing and drain laying.

Exception: Buildings, structures or premises owned and occupied by the United States of America or the State of Missouri.

105.3 Notices and orders. The code official shall issue all necessary notices or orders in writing to assure compliance with this Code. The notice to the person having responsibility for the building, structure or premises found by the code official to be dangerous or in violation of this code shall be directed to that person by name or names, and the name or names of the owner or owners of the building, structure or premises as indicated by the records of the Assessor's Office of the City of Saint Louis, and shall be served in any one of the following ways:

1. Deliver to owner - by causing said notice to be delivered to such owner, either in the City of Saint Louis or elsewhere.

2. Posting - by posting a copy of such notice upon the building or structure or premise and said notice to be affixed in such a manner that it cannot be removed and/or replaced if removed.

3. Mailing - by mailing such notice or copy thereof enclosed in a sealed envelope, postage prepaid, directed to such owner, either at the owner's place of business or residence address in the city or elsewhere.

4. Publication - by publication in a newspaper of general circulation in the City of Saint Louis or in "The City Journal", said notice to be deemed served twenty-four (24) hours after publication.

5. Electronic Notification - by utilizing electronic means such notice or copy thereof to such resident or building owner.

105.3.1 Emergency condemnation. Whenever the code official shall find any building, structure, premises or portion thereof no matter for what purpose used, to be in an unsafe or dangerous condition and that there is an actual and potential danger to the occupants or those in the proximity of any building, structure or premises which poses an immediate danger to public safety or welfare, the code official shall order the immediate evacuation of said building, structure or premises. All of the occupants so notified shall immediately vacate the building, structure, or premises and no person shall re-enter until authorized to do so by the code official. Any person who refuses to leave, interferes with the evacuation of other occupants, or continues any operation after having been given an evacuation order by the code official, except such person(s) directed to perform work to remove a violation or unsafe condition shall be deemed in violation of this section whereupon it shall be the duty of the Police Department to immediately remove such person(s) from said building, structure, or premises and prevent anyone from reentering the building, structure or premises until such time that the Police Department shall have been notified by the Building Division that the same is in a safe condition. Any person who shall violate any provisions of this section shall, upon conviction thereof, be penalized as set forth in Section 25.04.030.

105.3.2 Authority to placard. The code official has the authority to post a placard in a conspicuous place on a building or premises where the plumbing system has been found to be unsafe or inadequate.

105.3.3 Placarded building. Placards shall remain on said building until the required repairs, replacements or improvements have been made and accepted by the code official, and it shall be unlawful to deface or willfully remove any such placard that has been posted on a building without first obtaining consent of the code official. It shall be unlawful for any person to reside in, use, rent lease or occupy such building for any purpose while so placarded and no person shall remove said placards without the consent of the code official.

105.4 Inspections. The code official shall make all of the required inspections, or the code official shall accept reports of inspection by approved agencies, design professionals or individuals, and all reports of said inspections shall be in writing and certified by a responsible officer of said approved agency or by the responsible individual. The code official is authorized to engage such expert opinion as deemed necessary to report upon unusual technical issues that arise subject to the approval of the appointing authority. The owner shall provide such special inspections as are required by the code official.

105.4.1 Dangerous, hazardous, unsanitary, or unapproved installations. The code official shall have the authority to seal out of service plumbing equipment, devices and appurtenances covered by the Building and Plumbing Codes when, in the code official's opinion, any of these items are in an unsafe, hazardous, or unsanitary condition, or if the installation was made without obtaining the necessary permit or permits, or if the installation violates the provisions of these codes.

105.4.2 Notice of sealing out of service. Before sealing any device out of service, the code official shall, except in cases of emergency, serve ten (10) calendar days written notice upon the building owner, occupant, or collector of rent as directed in Section 105.2.

105.4.3 Unlawful to remove seal. Any device sealed out of service by the code official shall be plainly marked with a sign or tag indicating such sealing, and any defacing or removal of the sign or tag, or any tempering with or removal of the seal without approval of the code official, or operation of the sealed unit shall constitute a violation of this Code. The penalty for violation of this section shall be as set forth in Section 25.04.030.

105.4.4 Utility disconnect. Whenever the code official determines that there is an eminent danger to public safety, the code official may request that the public utilities be disconnected to that structure or premises.

105.5 Identification. The code official shall carry proper identification when inspecting structures or premises in the performance of duties under this Code.

105.6 Rule making authority. The code official shall have authority as necessary in the interest of public health, safety, and general welfare, to adopt and promulgate rules and regulations to interpret and approve a variance to the code for that particular instance the provisions of this code to secure the intent thereof, and to designate requirements applicable because of local climatic or other conditions. Such rules shall not have the effect of waiving structural or fire performance requirements specifically provided for in this Code or of violating accepted engineering practice involving public safety.

105.6.1 Accepted engineering practice. In the absence of provisions not specifically contained in this Code or approved rules, the regulations, specifications and standards listed in Chapter 17 and Appendix I shall be deemed to represent accepted engineering practice in respect to the material, equipment, system or method of construction therein specified.

105.6.2 Suspensions and cancellations. The code official shall have the power and is directed to suspend for a definite time or to cancel any license granted hereunder, if, after notice and opportunity to be heard, the party named therein is found guilty by the Board of Examiners of violating rules and regulations established by the Section of Plumbing Regulation and Inspections and do all other acts necessary to carry out these provisions. The code official shall review all notices and licenses required to be issued by the Section of Plumbing Regulations and Inspections and keep a record of all transactions.

105.7 Department records. The code official shall keep official records of plumbing applications received, permits issued, licenses issued, fees collected, reports of inspections, and notices and orders issued. Such records shall be retained in the official records for three (3) years, except notices and orders which have been complied need not be kept.

Original or file copies, when subpoenaed, shall be electrostatic copies certified by the code official to be true and accurate copies of original documents. Original documents shall remain in the possession of the Sec-

tion of Plumbing Regulations and Inspections, unless filed with the Central File Section of the Division of Building and Inspection.

105.8 Right of entry. Whenever it is necessary to make an inspection to enforce the provisions of this Code, or whenever the code official has reasonable cause to believe that there exists in a building or upon any premises any condition or violation of this Code which makes the building or premises unsafe, unsanitary, dangerous or hazardous, the code official shall have the authority to enter the building or premises at all reasonable times to inspect or to perform the duties imposed upon the code official by this Code. If such building or premises is occupied, the code official shall present credentials to the occupant and request entry. If such building or premises is unoccupied, the code official shall first make a reasonable effort to locate the owner or other person having charge or control of the building or premises and request entry. If entry is refused, the code official has recourse to every remedy provided by law to secure entry. When the code official has first obtained a proper inspection warrant or other remedy provided by law to secure entry, an owner or occupant or person having charge, care or control of the building or premises shall not fail or neglect, after proper request is made as herein provided, to promptly permit entry therein by the code official for the purpose of inspection and examination pursuant to this Code.

105.9 By whom work is performed. The code official shall see that all plumbing, pipefitting, sprinkler fitting, drain laying and sewer work is done in accordance with the provisions of this code and that the work is performed by a Master Plumber, Master Drain Layer, Master Mechanical Pipefitter, Master Sprinkler Fitter and/or Journeymen and Apprentices licensed within the City of St. Louis and employed by another who also employs a Master Plumber, Master Drain Layer, Master Mechanical Pipe Fitter and/or Master Sprinkler Fitter Contractor licensed within the City of Saint Louis.

License, Registration or Certification - Required.

1. Plumbing. Except as otherwise provided in this Code, no person shall engage in or perform the work of installing, altering or repairing any plumbing associated with a plumbing system. This includes initial installation of backflow prevention devices and assemblies appurtenant to a plumbing system, including the installation testing and repair of drainage waste and vent piping and hot and cold-water piping to laboratory equipment in hospitals, clinics, first-aid stations, dispensaries, and all elementary school, high schools, and college level schools including graduate level schools, and included in the work of installing, altering or repairing any plumbing associated with a plumbing system is residential dishwasher replacement, multipurpose fire sprinkler system, except minor repairs, and except work performed in accordance with Home Owner Permits issued under this Code, unless licensed as a Master Plumber, a Journeyman Plumber, or an Interim Journeyman Plumber under this Code or unless he/she shall be registered as a Plumber Apprentice or Experienced Plumber Apprentice under this Code and working under the direction of a licensed Master Plumber. In addition to those licenses authorized by the Mechanical Code, a Master Plumber, Journeyman Plumber, Interim Journeyman Plumber, Plumber Apprentice, or Experienced Plumber Apprentice under this Code and working under the direction of a licensed Master Plumber, may work on wet or dry standpipes under this Code, that are not part of an automatic Fire Sprinkler system and that do not have as a part of the standpipe system one or more sprinkler heads. A licensed Master, Journeyman, Interim Journeyman, Experienced Apprentice and an Apprentice Plumber may install fuel gas systems in one (1) and two (2) family dwellings under this Code. No person shall hold herself/himself out as being available to perform any such work unless she/he shall be licensed as aforesaid. No partnership, corporation or other legal entity, or person conducting business under a fictitious name shall hold out such entity as being available to perform any such work in any advertising medium or publication unless a principal or employee of such entity shall be licensed as aforesaid.

No person shall hold himself/herself out as being available to perform such work unless he/she shall be a licensed Journeyman Plumber or licensed, insured, and bonded as a licensed Master Plumber.

2. Drainlaying. Except as otherwise provided in this Code, no person shall engage in or perform the work of installing the sanitary or storm building sewer, starting five (5') feet beyond the building foundation wall (end of building drain), or any work concerning the installation of sanitary or storm, trunk, main and lateral sewers, in public property recorded easements or private property unless said person is a Master Drainlayer or under the direct supervision of a Master

Drainlayer duly licensed pursuant to this Code. No person shall hold herself/himself out as being available to perform any such work unless she/he shall be licensed as aforesaid. No person shall engage in or perform the work of installing or repairing private sewage systems unless licensed to perform such work by the Missouri Department of Health and Senior Services (MoDHSS), and unless said person is a Master Drainlayer or under the direct supervision of a Master Drainlayer duly licensed pursuant to this Code. No partnership, corporation or other legal entity, or person conducting business under a fictitious name shall hold out such entity as being available to perform any such work in any advertising medium or publication unless a principal or employee of such entity shall be licensed as aforesaid.

a. Direct Supervision shall mean that the Master Drainlayer is directly responsible for the installation of the drainlaying work and shall supervise such installations or provide a competent person to be on site to supervise the work.

The actual installation of all piping, setting of grade, and competent person to supervise the work shall be employees of and on the direct payroll of the entity which has the assignment of the Master Drainlayers license, who holds the permit for the work. The person(s) who does the excavation, backfill, and/or hauling may be subcontractors, and not on the direct payroll as indicated above however, they shall be under the supervision of the Master Drainlayer or his representative.

Exception: In order to not void material warranties, persons who have Been trained by methods satisfactory to the manufacturer for this installation May do the installation of proprietary components. This does not relieve the manufacturer from providing training where practical to the employees of the Master Drainlayer. At all times the installation shall be supervised by the competent person employed by the Master Drainlayer and assisted by equivalent minimum number of personnel employed by the Master Drainlayer equal to the number of manufacturer personnel required.

No person shall hold themself out as being available to perform such work without being a licensed, insured, and bonded Master Drainlayer.

3. Cross-Connection Control Backflow Prevention Assembly or Device Testing And Repair. No person shall test, repair, undertake to test or repair or hold himself/herself as being available for the testing, or repair of any backflow prevention assembly or device unless he/she shall possess a Backflow Prevention Tester Certificate for the particular application involved pursuant to this Code. No person shall hold herself/himself out as being available to perform any such work unless she/he shall be certified as aforesaid. No partnership, corporation or other legal entity, or person conducting business under a fictitious name shall hold out such entity as being available to perform any such work in any advertising medium or publication unless a principal or employee of such entity shall be certified as aforesaid.

4. Process Piping Systems. Except as otherwise provided in this Code, no person shall install, test or repair backflow prevention assemblies or devices within or appurtenant to process drains, process drain facilities, process drainage systems or piping drains, drainage systems or facilities from mechanical manufacturing, industrial processing, refrigeration, heating, air conditioning or parts, materials, devices or appurtenances in connection therewith, drainage waste or vent piping specifically installed for laboratories in commercial, industrial, research, and manufacturing plants and like entities, the primary purpose of these installations being the development, improvement, research, or discovery of a product or products, unless he/she shall be a licensed Journeyman Pipefitter or a licensed Master Pipefitter pursuant to this Code.

No person shall test or repair backflow prevention assemblies or devices within or appurtenant to process drains, process drain facilities, process drainage systems or piping drains, drainage systems or facilities from mechanical manufacturing, industrial processing, refrigeration, heating, air conditioning or parts, materials, devices or appurtenances in connection therewith unless he/she shall be certified as a Backflow Prevention Tester pursuant to this Code. No person shall hold himself/herself out as being available to perform such work unless he/she shall be a licensed Journeyman Pipefitter or registered, insured, and bonded as a licensed Master Pipefitter and possess the appropriate Backflow Prevention Tester Certificate pursuant to this Code. No person shall hold herself/himself out as being available to perform any such work unless she/he shall be licensed, certified, or registered as aforesaid. No

partnership, corporation or other legal entity, or person conducting business under a fictitious name shall hold out such entity as being available to perform any such work in any advertising medium or publication unless a principal or employee of such entity shall be licensed, certified or registered as aforesaid.

5. Fire Suppression Systems. Except as otherwise provided in this Code, no person shall install, undertake to install or hold himself/herself out as being available for the installation of backflow prevention assemblies or devices appurtenant to fire suppression systems, unless he/she shall be a licensed Journeyman Sprinkler fitter or a Licensed, Insured, and Bonded Master Sprinkler Fitter pursuant to this Code. No person shall test or repair backflow prevention assemblies or devices appurtenant to fire suppression systems, unless he/she shall be Certified as a Backflow Prevention Tester pursuant to this Code. No person shall hold herself/himself out as being available to perform any such work unless she/he shall be licensed, certified, or registered as aforesaid. No partnership, corporation or other legal entity, or person conducting business under a fictitious name shall hold out such entity as being available to perform any such work in any advertising medium or publication unless a principal or employee of such entity shall be licensed, certified or registered as aforesaid.

6. Irrigation Systems. Except as otherwise provided in this Code, no person shall install, test or repair, undertake to install, test or repair or hold himself/herself out as being available for the testing or repair of backflow prevention assemblies or devices appurtenant to irrigation systems unless he/she shall be a Licensed, Insured, and Bonded Master Plumber or a Licensed Journeyman Plumber when in the employ of a Master Plumber and possess the appropriate Backflow Prevention Tester Certificate pursuant to this Code. No person shall hold herself/himself out as being available to perform any such work unless she/he shall be licensed, certified, or registered as aforesaid.

No partnership, corporation or other legal entity, or person conducting business under a fictitious name shall hold out such entity as being available to perform any such work in any advertising medium or publication unless a principal or employee of such entity shall be licensed, certified or registered as aforesaid.

7. Residential Hydronic Heat Systems. Except as otherwise provided in this Code, no person shall install, test or repair, undertake to install, test or repair or hold himself/herself out as being available for the installation, testing or repair of backflow prevention assemblies or devices appurtenant to residential heating systems of a size not exceeding four hundred thousand (400,000) BTUH heating, and steam generators intended for the production of steam for single person, single family residential steam saunas, unless he/she shall be a Licensed, Insured, and Bonded Master Pipefitter or Master Plumber or a Licensed Journeyman Pipefitter or Journeyman Plumber when in the employ of a Master Pipefitter or Master Plumber and possess the appropriate Backflow Prevention Tester Certificate pursuant to this Code. No person shall hold herself/himself out as being available to perform any such work unless she/he shall be licensed, certified or registered as aforesaid. No partnership, corporation or other legal entity, or person conducting business under a fictitious name shall hold out such entity as being available to perform any such work in any advertising medium or publication unless a principal or employee of such entity shall be licensed, certified or registered as aforesaid.

8. Hardship Clause. In the event of a loss of a Master Licensee to a company licensed in St. Louis City, through no fault of that company, a licensed Journeyman of the trade of the absent Master Licensee; or in the event of the loss of a Master Drainlayer to a company through no fault of that company, a person who would otherwise be eligible to qualify as a Master Drainlayer in the trade of the absent Master Drainlayer; and who shall be a full-time employee of that company, shall be designated as an Interim Master after meeting all bonding and insurance requirements. That company may operate under an Interim Master, who will have the same rights, responsibilities and standing of a Master in that trade, for a period of not more than one (1) year from the date of the hardship. That company must submit to the person responsible for maintaining license data, the standard submittals any other Master would submit to activate a Master License. The Acting Secretary of the Board of Examiners shall determine judgment of fault.

If anyone has information and wishes to appeal the existence of a hardship license that person may appeal to the Board of Plumbing Examiners who shall hold an emergency hearing at the next regularly scheduled meeting of the Board no sooner than (7) calendar days and no later than thirty-eight (38) calendar days following

the date appeal is received by the Board Secretary. The appeal must state the reasons for the appeal and must be accompanied by a fee of one hundred ($100.00) dollars. The decision of the Board involving a hardship clause is appealable in the same manner as other decisions of the Board. Additional appeals may be made pursuant to the procedures of the City of St. Louis.

Exception: Buildings, structures or premises owned and occupied by the United States of America or the State of Missouri.

9. Residential Fire Sprinkler Systems. Fire protection for one (1) and two (2) family dwellings that is part of a system as follows:

A) A multipurpose fire sprinkler system that provides potable domestic water to both fire sprinklers and all plumbing fixtures shall be permitted by this Code and installed by a licensed Master Plumber or Journeyman Plumber certified by the Board of Plumbing Examiners for this installation.

B) A stand-alone sprinkler system, separate and independent from the water distribution system, shall be permitted and installed as required by the Mechanical Code. On a combination main, the connection to the potable water service and/or distribution system shall be permitted by this Code by a licensed Master Plumber whom shall leave a tee and valve for connection by Master Sprinkler Fitter. The dedicated fire line connection to the potable water main shall be permitted by this Code by a licensed Master Sprinkler Fitter.

SECTION 106
APPROVAL

106.1 Modifications. Whenever there are practical difficulties involved in carrying out the provisions of this Code, the code official shall have the authority to grant modifications for individual cases, provided the code official shall first find that the special individual reason makes the strict letter of this Code impractical and the modification is in compliance with the intent and purpose of this Code and that such modification does not lessen health, life and fire safety requirements.

106.1.1 Records. The application for modification and the final decision of the code official shall be in writing and shall be officially recorded with the application for the permit in the records of the Division of Building and Inspection.

106.2 Used material, equipment, and devices. Materials, equipment, and devices shall not be reused unless such elements have been reconditioned, tested and placed in good and proper working condition and approved by the code official.

106.3 Alternative materials, methods, and equipment. The provisions of this Code are not intended to prevent the installation of any material or equipment or to prohibit any method of construction not specifically prescribed by this Code, provided that any such alternative has been approved. An alternative material, equipment or method of construction shall be approved where the Committee of Plumbing Review and the code official finds that the proposed design is satisfactory and complies with the intent of the provisions of this Code, and that the material, method or work offered is, for the purpose intended, at least the equivalent of that prescribed in this Code for quality, strength, effectiveness, fire resistance, durability and safety.

106.3.1 Research and investigations. The Committee of Plumbing Review and the code official shall require that a nationally accredited listing agency approve the proposed use of any material or assembly, and if it is determined that the evidence submitted is satisfactory proof of performance for the use intended, the Committee of Plumbing Review and the code official shall approve its use subject to the requirements of this Code. The costs of all tests, reports and investigations required under these provisions shall be paid by the applicant or owner.

106.3.2 Research reports. Supporting data, when required by the Committee of Plumbing Review and the code official to assist in the approval of all materials or assemblies not specifically provided for in this Code, shall consist of duly authenticated research reports from approved sources.

106.4 Required testing. Whenever there is insufficient evidence of compliance with the provisions of this Code, or evidence that a material or method does not conform to the requirements of this Code, the Committee of Plumbing Review and the code official shall require that sufficient technical data and/or test data be submitted to substantiate the proposed use of any material, equipment, assembly or method, and if it is determined that the evidence submitted by an approved agency is satisfactory proof of performance for the use intended, the Committee of Plumbing Review and the code official shall approve its use subject to the requirements of this Code. The costs of all tests, reports and investigations required under these provisions shall be paid by the applicant.

106.4.1 Test methods. Test methods shall be as specified in this Code or by other recognized test standards. In the absence of recognized and accepted test methods, the code official shall approve the testing procedure.

106.4.2 Testing agency. All tests shall be performed by an approved independent testing agency.

106.4.3 Test reports. Reports of test shall be retained by the code official for a period required for the retention of public records.

106.5 Alternative engineered design. The design, documentation, inspection, testing and approval of an alternative engineered design plumbing system shall comply with sections 106.6.1 through 106.6.6.

106.5.1 Design criteria. An alternative engineered design shall conform to the intent of the provisions of this Code, and shall provide an equivalent level of quality, strength, effectiveness, fire resistance, durability and safety. Material, equipment or components shall be designed and installed in accordance with the manufacturer's installation instructions.

106.5.2 Submittal. The registered design professional shall indicate on the permit application that the plumbing system is an alternative engineered design. The permit and permanent permit records shall indicate that an alternative engineered design was part of the approved installation.

106.5.3 Technical data. The registered design professional shall submit sufficient technical data to substantiate the proposed alternative engineered design and to prove that the performance meets the intent of the code.

106.5.4 Construction documents. The registered design professional shall submit to the Committee of Plumbing Review and the code official two complete sets of sealed, signed and dated construction documents for the alternative engineered design. The construction documents shall include floor plans and a riser diagram of the work. When appropriate, the construction documents shall indicate the direction of flow, all pipe sizes, grade of horizontal piping, loading and location of fixtures and appliances.

106.5.5 Design approval. Where the Committee of Plumbing Review and the code official determine that the alternative engineered design conforms to the intent of this Code, the plumbing system shall be approved. If the alternative engineered system is not approved, the code official shall notify the registered design professional in writing, stating the reasons.

106.5.6 Inspection and test. The alternative engineered design shall be tested and inspected in accordance with the requirements of Section 108 and 301.2. If the alternative engineered design does not pass the test and inspection to the satisfaction of the code official, the system must be modified, re-tested and re-inspected until testing and inspection of the alternative engineered system is shown to meet the intent of the provisions of this Code to the satisfaction of the code official.

SECTION 107
PERMITS

107.1 When required. Any owner, lessee, authorized agent or contractor who desires to construct, enlarge, alter, repair, move, demolish or change the occupancy of a building or structure or premises, or to erect, install, enlarge, alter, repair, remove, convert or replace any plumbing system and/or drainlaying work, the installation of which is regulated by this Code, or to cause any work to be done, shall engage a licensed plumbing contractor and/or licensed drainlaying contractor who shall first make application to the code official and obtain the required permit for the work. All work shall be done by the person or corporation in whose name the permit or permits required by this section are issued. Any person who shall fail to comply with or who shall violate any of the provisions of this section shall be subject to the penalty provisions of Section 25.04.030.

107.1.1 Permits Required.

1. Except as otherwise specifically provided in this Code, a permit must be obtained prior to any person performing the following work:

(A) Any plumbing, drainlaying, or process drainage systems, including industrial waste sewers to site pretreatment, (with the exception of minor repairs, as defined in this Code), in, upon, or about any building or premise, whether private or public and whether any such work has been ordered by the Code Official, or any other authorized official;

(B) Any connection to any sewer.

(C) The installation or replacement or permanent removal of any Backflow Prevention Device or assembly.

(D) The connection of any dedicated fire suppression water main to any potable water main.

Exception: No permits shall be required for storm or sanitary sewer accepted for maintenance by Metropolitan St. Louis Sewer District, municipal street department or City highway department.

107.2 Permits not required. Permits shall not be required for any of the following:

1. The stopping of leaks in drains, water, soil, waste or vent pipe; provided, however, that if any concealed trap, drainpipe, water, soil, waste or vent pipe becomes defective and it becomes necessary to remove and replace the same with new material, such work shall be considered as new work and a permit shall be obtained and inspection made as provided in this Code.

2. The cleaning of stoppages or the repairing of leaks in pipes, valves or fixtures, provided such repairs do not involve or require the replacement or rearrangement of valves, pipes or fixtures.

3. Minor Repairs as used in this section shall mean repairs to traps or cocks, opening waste or supply pipes, traps or drains or frozen pipes. Minor repairs shall not include the doing of any work where connection to soil pipes, supply pipes, waste pipes or vent pipes are disturbed or inside leader pipes are used; nor shall it include the setting or replacing of fixtures.

4. Temporary plumbing installations for demonstration purposes which are not connected to either the public water supply or the public sewer system. Exemption from the permit requirements of this Code shall not be deemed to grant authorization for work to be done in violation of the provisions of this Code or other laws or ordinances of the City of Saint Louis.

107.3 Application for permit. Each application for a permit, with the required fees, shall be filed with the code official in such written form as the code official prescribes and shall be accompanied by an adequate written description of the proposed plumbing and/or drainlaying work and its location.

107.4 By whom application is made. The application for permit shall be made by the license holder responsible for the proposed installation of all or part of any plumbing system and/or drainlaying system. The applicant shall meet all qualifications established by rules promulgated with this Code or by ordinance, resolution, or statute. The full names, addresses and telephone numbers of the owner, lessee, and the applicant shall be stated in the application.

107.5 Description of work. The applicant shall list the number of fixtures of each type to be installed, the location of the work, and the use and occupancy of the building in which the work is to be performed.

107.6 Construction documents. The code official is authorized to require the submission and approval of a set of construction documents showing the nature and extent of the proposed work before a permit is issued. If, in the course of the work, it is found necessary to make any change from the approved construction documents on which a permit has been issued, amended construction documents shall be submitted, and if approved, a supplementary permit shall be issued, after payment of any additional fees, to cover the change after the same conditions required to secure the original permit have been satisfied. The code official is permitted to waive the requirements for filing construction documents where the work involved is of a minor nature.

When the quality of the materials is essential for conformity to this Code, specific information shall be given to establish such quality, and this Code shall not be cited, or the term "legal" or its equivalent used as a substitute for specific information. A plumbing hold or denial shall be placed on construction documents that are incomplete or are not drawn in compliance with this Code.

When inspection by the Section of Plumbing Regulations and Inspection reveals that work is not being performed in compliance with this Code, the code official shall be authorized to require the submission and approval of construction documents if these documents have not been submitted and approved prior to the issue of the plumbing permit.

The code official is authorized to require the submission of specific information in order to determine compliance with this Code.

All construction documents prepared by a registered design professional shall bear the original seal, date, and signature in ink of that person. Where applicable, construction documents shall indicate how required structural and fire resistance rating integrity will be maintained, and where penetrations will be made for plumbing systems.

107.6.1 Types of construction documents. Construction documents, where required by the code official, shall include a floor plan and a riser diagram showing the work. Such documents shall show the direction of flow, pipe size, grade of horizontal piping, elevations, drainage fixture unit loads of both stacks and drains in the drain, waste and vent systems, and the supply fixture unit load for the water system and any branch supplies which serve more than one plumbing fixture, appliance or hose outlet.

107.6.2 Requirements for plumbing construction documents. Plumbing construction documents shall be avail-

able for review at the job site on every project requiring a plumbing permit except construction or renovation of:

1. Residential structures, four families or less;

2. Structures with less than twenty (20) plumbing fixtures and less than ten thousand (10,000) square feet of roof area.

107.6.3 Construction document content. Plumbing construction documents submitted for review shall contain the following:

1. A plot plan drawn to scale showing sewer and water services;

2. Floor plans and roof plan;

3. Schematic stack/vent diagram indicating fixture units connected to each stack at each level, fixture unit totals carried by each stack, and totals collected by the under-floor drains (groundwork);

4. Pipe sizes for all piping covered above;

5. Flow line elevations for all under floor piping and outside piping; also, the percent of slope on which pipe sizing is based. Depth of footings and sleeves shall be indicated. Profiles are preferred;

6. Schematic roof leader diagram, showing each roof drain, its collection area, and the leader it connects to;

7. Total roof area connected to each roof leader, total roof areas carried by connecting storm drains, and the combined load carried by the main house sewer;

NOTE: City of Saint Louis code uses six (6) inches per hour rainfall;

8. Details for pipe bracing and supports, bath trap access, size of interceptors, clean out locations, expansion joints, manholes, house traps, sump pump settings, garage traps, stack flashing, back water protection, and sub-soil drains;

9. Schematic supply riser diagrams showing total supply fixture units connected at each level, the total carried by each riser, and the total supply fixture units carried by supply headers and water service;

10. Pipe sizes for items covered above;

11. Location of pressure regulators to restrict pressure on fixtures to less than eighty (80) psi (where house pumps are used);

12. Details for backflow protection at special equipment and fire suppression systems, water heater relief valves, safe pans, hot water circulation, system and riser valves, pipe supports and bracing, and water metering arrangements.

13. Plans for new plumbing systems or alterations to existing plumbing systems shall be accompanied by a diagram showing the relative elevation of the lowest fixture, elevation of the next upstream manhole cover and flow line, and the next downstream manhole cover and flow line and the top of the public sewer referred to the established datum of Metropolitan St. Louis Sewer District or other appropriate sewer district when such public sewer is available. The plans shall show the size, number, location, and potential date of availability of all new sewer connections.

14. Requirements for plans may be waived by the Code Official, for commercial plumbing installation(s) and for strip stores with twenty (20) fixtures or less, and for any plumbing installation for a single-family dwelling with twenty-five (25) fixtures or less, and/or when the work is of a minor nature. However, plumbing and sewer plans and specifications shall be submitted where required by the Code Official.

15. Details of Plumbing work in 1 & 2 Family dwellings, and details of Plumbing work in a commercial plumbing installation and for strip stores with twenty (20) fixtures, or less may be submitted as shop drawings prepared by a Master Plumber. Such shop drawings shall be signed by the Master Plumber and bear his St. Louis City License number.

16. Commercial buildings housing beauty, medical facilities or restaurants shall be prepared by the appropriate registered design professional consistent with the professional registration laws of the State of Missouri and shall bear an original embossed or wet ink seal, the date and original signature of the registered design professional.

Exception: Addition of three (3) or less, fixtures or equipment; in an existing beauty/hair/nail/spa facility, medical facilities or restaurants, shop drawings may be signed by the Master Plumber and bear his St. Louis City License Number if permitted by the Code Official.

107.6.4 Drain-waste-vent pipe (DWV). Specifications for DWV pipe materials, supply pipe materials, valves, pumps, fixtures, and backflow prevention devices shall be included on the plumbing construction documents or attached thereto.

107.6.5 Site plan. There shall also be filed a site plan showing the location of water service and sewer connections with respect to any building in which a plumbing system is to be installed. Vent stack termina-

tions shall be shown with respect to building ventilation openings which could allow introduction of sewer gases into the building or any adjacent building.

107.6.6 Seismic installations. Construction documents for installations which must meet the seismic requirements of the building code shall show the details of all pertinent anchorage and bracing and shall bear the original seal, date and signature in ink of a registered design professional licensed to practice in the State of Missouri.

107.6.7 Engineering details. The code official shall require adequate details of plumbing work, including computations and other technical data, to be filed. The plumbing drawings submitted for a permit shall be sealed, dated and signed by a registered professional engineer with current Missouri registration, or submitted by a Licensed Plumbing Contractor with their license number and notarized signature.

107.7 Amendments to application. Subject to the time limitations of Section 107.8, amendments to the construction documents, application or other records accompanying the same shall be filed at any time before completion of the work for which the permit is sought or issued. Such amendments shall be deemed part of the original application and shall be filed in the same manner as the original.

107.8 Time limit of application. An application for a permit for any proposed work shall be deemed to have been abandoned six (6) months after the date of filing, unless such application has been diligently prosecuted, or a permit shall have been issued. The code official shall grant one or more extensions of time for additional periods not exceeding one hundred eighty (180) days if there is reasonable cause.

107.9 Previous approvals. Except for unsafe plumbing systems, this Code shall not require changes in the construction documents or plumbing work for which a lawful permit has been heretofore issued or otherwise lawfully authorized, and the installation of which shall have been actively prosecuted within ninety (90) days after the effective date of this Code and completed with dispatch.

107.10 Permit issuance. The application, construction documents and other data filed by an applicant for permit shall be reviewed by the code official. If the code official finds that the proposed work conforms to the requirements of this Code and all laws and ordinances applicable thereto, and that the fees specified in Section 107.11 have been paid, a permit shall be issued to the applicant. A plumbing permit shall not be transferable. If the application or the construction documents do not conform to the requirements of all pertinent ordinances of the City of Saint Louis, the code official shall reject such application in writing, stating the reasons therefore.

107.10.1 Approved construction documents. When the code official issues a permit where construction documents are required, such approved construction documents shall not be changed, modified or altered without authorization from the design professional and the code official. Work shall be done in accordance with the approved construction documents.

107.10.2 Approval in part. The code official is authorized to issue a permit for the installation of a part of a plumbing system before the whole system has been submitted or approved, provided adequate information and detailed statements have been filed complying with all the pertinent requirements of this Code. The holder of such permit shall proceed at their own risk without assurance that the permit for the entire plumbing system will be granted.

107.10.3 Validity. The issuance of a permit or approval of construction documents shall not be construed to be a permit for, or an approval of, any violation of any of the provisions of this Code or of other ordinances of the City of Saint Louis. A permit presuming to give authority to violate or cancel the provisions of this Code shall be invalid. The issuance of a permit based upon construction documents and other data shall not prevent the code official from thereafter requiring the correction of errors in said construction documents and other data or from preventing building operations from being carried on there under when in violation of this Code or of other ordinances of the City of Saint Louis.

107.10.4 Expiration. Every permit issued by the code official under the provisions of this Code shall expire by limitation and become null and void if the work authorized by such permit is not commenced within one hundred eighty (180) days from the date of such permit, or if the work authorized by such permit is suspended or abandoned at any time after the work is commenced for a period of one hundred eighty (180) days. Before such work recommences, a new permit shall be first obtained, and a new fee paid.

107.10.5 Extensions. Any permittee holding an unexpired permit shall have the right to apply for an

extension of the time within which the permittee will commence work under that permit when work is unable to be commenced within the time required by this section for good and satisfactory reasons. The code official may grant one or more extensions of time for additional periods if there is reasonable cause, the total of which shall not exceed one hundred eighty (180) days.

107.10.6 Suspension or revocation of permit. The code official shall suspend or revoke a permit or approval issued under the provisions of this Code in case of any false statement or misrepresentation of fact in the application or on the construction documents upon which the permit or approval was based. A permit shall also be considered for revocation under the following provisions:

1. The owner of the property or the contractor shall request cancellation in writing stating the reasons for the request for cancellation. No refund of fees shall be made.

2. The code official may revoke the permit for fraud.

3. The code official may revoke the permit for non-compliance with the code.

4. The code official may revoke the permit for failure to pay the prescribed fees.

5. A permit may be revoked if payment is returned for insufficient funds.

Before a permit is considered for revocation prior to the completion of all work, the permit holder shall request an inspection of the work that has been completed. Upon inspection if the work complies with the code and is done in a workmanlike manner, the code official shall so indicate in writing to the person requesting revocation.

107.10.7 Work not in compliance. Should the plumbing contractor install work that is not in compliance with the plumbing, fire or building code, the contractor shall be directed by the code official to make necessary corrections to assure code compliance and no other permits shall be issued to said contractor until such work is corrected and approved by the code official.

107.10.8 Retention of construction documents. One (1) set of construction documents shall be retained by the code official until final approval of the work covered therein. One (1) set of construction documents shall be returned to the applicant and said set shall be kept at the site of the building or work at all times during which the work authorized thereby is in progress.

107.10.9 Posting of permit. A true copy of the permit shall be kept on the site of operations, open to public inspection during the entire time of prosecution of the work and until the completion of the same.

107.11 Fees. A permit shall not be issued until the fees prescribed in Table 107.11.3 have been paid, nor shall an amendment to a permit necessitating an additional fee because of the additional work involved be released until the additional fee has been paid. Fees for the inspections herein prescribed shall be paid to and collected by the City of Saint Louis. A permit may be revoked if payment is returned for insufficient funds.

107.11.1 Work commencing before permit issuance. In case any work for which a permit required by this Code is started or proceeded with prior to the permit being issued, the total normal fees applicable shall be increased by the amount as set forth in Table 107.11.1. The payment of said surcharge shall not relieve any persons from fully complying with the requirements of this Code for performance or execution of the work, nor from other penalties prescribed by law.

TABLE 107.11.1
SCHEDULE FOR SURCHARGE

PERMIT FEE	SURCHARGE
$ 0 TO $ 50	$ 35.00
$ 51 TO $200	$ 95.00
$ 201 TO $500	$245.00
$ 501 TO $2,000	$365.00
$ 2,001 TO $ 10,000	$485.00
OVER $ 10,000	1005.00

107.11.2 Inspection fees. It shall be the duty of the code official to cause the following inspections to be made as required by this Code. An inspection is to be made of each tap, water connection or extension, each sewer extension, and for repairs of water service pipe, or of sewer pipe, whether on a public or private street, alley, thoroughfare, or premises. Inspection shall also be made after completion of all work and be known as a finish inspection. Mechanical pipefitting and sprinkler fitting installations shall also be inspected.

107.11.3 Fee schedule. Fees for new construction or alteration of plumbing systems and inspections thereof shall be paid to and collected by the City of Saint Louis as indicated in Table 107.11.3.

TABLE 107.11.3
PLUMBING FEES

TYPE FEE	SURCHARGE
Application	$30.00
Tap, water connection or extension, each	$25.00
Sewer extension, connection or repair, each	$25.00
Irrigation System Zones (does not include backflow device), each	$25.00
Fixtures, each (floor drain, sump, water heater, reduced pressure backflow device or double gate/ double check valve, roof drain or trapped outlet)	$10.00
Test of reduced pressure backflow device or double gate/double check valve	$40.00
Late fee for all backflow tests not performed within 30 days of anniversary date, each	$30.00
Rough inspection, each	$25.00
Finish inspection, each	$25.00
Re-inspection, each	$30.00
Special inspection, each	$45.00

One rough inspection and one finish inspection for every 20 fixtures or fraction thereof; one additional rough inspection and one additional finish inspection for every additional fixture or fraction thereof.

107.11.4 Re-inspections. Re-inspections of plumbing installations and systems on any premises shall be made when deemed necessary by the code official. Where a re-inspection is required to be made due to faulty workmanship or work not completed at the time of a requested inspection.

Fees for a re-inspection fee shall be as indicated in Table 107.11.3.

107.11.5 Fees for abandoned work or revoked permit. Fees shall not be waived or refunded for any plumbing permit that has been abandoned, canceled, or revoked.

107.11.6 Special inspections. A special inspection may be requested by the owner or occupant of a building or premises. Fees for special inspections shall be as indicated in Table 107.11.3.

SECTION 108
INSPECTIONS AND TESTING

108.1 Required inspections and testing. The code official upon notification from the permit holder or the permit holder's agent shall make the following inspections and other such inspections as necessary and shall either release that portion of the construction or shall notify the permit holder or agent of any violation which must be corrected. The holder of the permit shall be responsible for the scheduling of such inspections. All inspections are visual inspections.

The contractor shall be responsible for repairing defects hidden from the inspector.

1. Underground inspections shall be made after trenches or ditches are excavated and bedded, piping installed, and before any backfill is put in place. When excavated soil contains rocks, broken concrete, frozen chunks and other rubble which would damage, break the piping or cause corrosive action, clean backfill shall be on the job site next to trenches or ditches.

2. Rough-in inspection shall be made after the roof, framing, fire-blocking, fire stopping, draft-stopping and bracing is in place and all sanitary, storm and water distribution piping is roughed-in, and prior to the installation of wall and ceiling membranes. Any portion of the plumbing system covered by the permit which is intended to be concealed by any permanent portion of the structure shall not be concealed until inspected. The code official shall have the authority to require any concealment to be removed. Failure to comply with this order of the code official may result in condemnation of the structure or any part thereof and prohibition of occupancy. Furthermore, the plumbing contractor shall not be issued any other permits until such work is properly inspected and approved by the code official.

3. Final inspection shall be made after the building is complete, all plumbing fixtures are in place and properly connected, and the structure is ready for occupancy. All violations of any code, any approved construction document or the plumbing permit shall be noted, and the holder of the plumbing permit shall be notified in writing of the discrepancies. All violations shall be abated before final approval. If the plumbing contractor refuses to abate any violation, the contractor shall not be issued any other permits until such violation is remedied, properly inspected and approved by the code official.

4. Exposure of Work. All new, altered, extended or replaced plumbing and drainlaying shall be left uncovered and unconcealed until it has been tested and approved. Where such work has been covered or con-

cealed before it is tested and approved, the Code Official may require that it be exposed for testing and approval.

108.1.1 Approved inspection agencies. The code official shall accept reports of approved inspection agencies, provided such agencies satisfy the requirements as to qualification and reliability.

108.1.2 Evaluation and follow-up inspection services. Prior to the approval of a closed, prefabricated plumbing system and the issuance of a plumbing permit, the code official shall require the submittal of an evaluation report on each prefabricated plumbing system, indicating the complete details of the plumbing system, including a description of the system and its components, the basis upon which the plumbing system is being evaluated, test results and similar information, and other data as necessary to the code official to determine conformance to this Code.

108.1.2.1 Evaluation service. The code official shall designate the evaluation service of an approved agency as the evaluation agency and review such agency's evaluation report for adequacy and conformance to this Code.

108.1.2.2 Follow-up inspection. Except where ready access is provided to plumbing systems, service equipment and accessories for complete inspection at the site without disassembly or dismantling, the code official shall conduct the in-plant inspections as frequently as necessary to assure conformance to the approved evaluation report or shall designate an independent approved inspection agency to conduct such inspections. The inspection agency shall furnish the code official with the follow-up inspection manual and a report of inspections upon request, and the plumbing system shall have an identifying label permanently affixed to the system indicating that factory inspections have been performed.

108.1.2.3 Test and inspection records. All required test and inspection records shall be available to the code official at all times during the fabrication of the plumbing system and the erection of the building: or such records as the code official designates shall be filed.

108.2 Special inspections. Special inspections of alternative engineered design plumbing systems shall be conducted in accordance with Sections 108.2.1 and 108.2.2.

108.2.1 Periodic inspection. The registered design professional or designated inspector shall periodically inspect and observe the alternative engineered design to determine that the installation is in accordance with the approved plans. All discrepancies shall be brought to the immediate attention of the plumbing contractor for correction. Records shall be kept of all inspections.

108.2.2 Written report. The registered design professional shall submit a final report in writing to the code official upon completion of the installation, certifying the alternative engineered design conforms to the approved construction documents. A notice of approval for the plumbing system shall not be issued until a written certification has been submitted.

108.3 Testing. Plumbing systems shall be tested as required in this Code and in accordance with Sections 108.3.1 through 108.3.3. Tests shall be made by the permit holder and observed by the code official.

108.3.1 New, altered, extended or repaired systems. New plumbing systems and parts of existing systems, which have been altered, extended or repaired shall be tested as prescribed herein to disclose leaks and defects, except that testing is not required in the following cases:

1. In any case which does not include addition to, replacement, alteration or relocation of any water supply, drainage or vent piping.

2. In any case where plumbing equipment is set up temporarily for exhibition purposes and is not connected to the public water supply or the public sewer system.

108.3.2 Equipment, material and labor for tests. All equipment, material and labor required for testing a plumbing system or part thereof shall be furnished by the permit holder.

108.3.3 Re-inspection and testing. Where any work or installation does not pass an initial test or inspection, the necessary corrections shall be made so as to achieve compliance with this Code. The work or installation shall then be resubmitted to the code official for inspection and testing.

108.4 Contractor's responsibilities. It shall be the duty of every contractor who enters into contracts for the installation or repair of plumbing systems for which a permit is required to comply with adopted federal, state and local rules and regulations concerning certification and licensing.

108.5 Coordination of inspections. Whenever in the enforcement of this Code or another code or ordinance, the responsibility of more than one code official is involved, it shall be the duty of the code officials involved to coordinate their inspections and administrative orders as fully as practicable so that the owners

and occupants of the structure shall not be subjected to visits by numerous inspectors or multiple or conflicting orders. Whenever an inspector from any agency or department observes an apparent or actual violation of some provision of some law, ordinance, or code not within the inspector's authority to enforce, the inspector shall report the findings to the code official having jurisdiction.

108.5.1 Legal compliance. All legal assistance necessary to effect compliance of the plumbing systems of such premises with this section shall be supplied to the code official by the City Counselor and other City of Saint Louis agencies. The Fire and Police Departments of the City of Saint Louis shall, upon request, assist the code official in the enforcement of this Code.

108.6 Approval. After the prescribed tests and inspections indicate that the work complies in all respects with this Code, a notice of approval shall be issued by the code official.

108.7 Temporary connection. The code official shall have the authority to authorize the temporary connection of the building or system to the utility source for the purpose of testing plumbing systems or for a temporary certificate of occupancy.

108.8 Plumbing inspection certificate. The Section of Plumbing Regulations and Inspection, upon completion of repair and remodeling work, as per permit issued, shall, upon request of the property owner, the occupant or the licensed plumbing contractor, furnish a plumbing inspection certificate to the property owner or occupant who has authorized the work to be performed. The plumbing inspection certificate shall state the address of where the work was performed, name and license number of the licensed plumbing contractor performing the work, permit number, approved by inspector's signature, the inspector's identification number, date and time of inspection. Certificates are filled out by plumbing inspectors within ninety (90) days of the final inspection.

108.9 Inspection Placard. Work requiring a permit shall not commence until the permittee or his agent posts a ten inch by twelve-inch board affixed to a post which is firmly imbedded in the ground, containing the lot and block number, and affixes the job inspection placard for recording inspections. Failure to maintain this inspection placard and identification board will not relieve the permittee of responsibility as provided by the Building Code. When work has progressed to a point of having windows, or when the job is an alteration or addition, the placard shall be attached to the available glass in view for recording the balance of inspections required by the Building Code. Absence of inspection placard will result in imposition of the charge for an additional inspection specified in Table 107.11.3, Plumbing Fees as amended. Upon payment of the fee for an additional inspection, an extra inspection placard will be issued to the permittee.

108.9.1 Identification Requirements. The licensed Master, Journeyman, or registered Apprentice performing the work under this Code shall write his license number on the Identification Card or Identification Sticker before starting work on the job. The Identification Card or Identification Sticker shall have the written permit number for the work in the proper place, before starting the work The Identification Card shall be posted in the same manner as, and in the vicinity of the job inspection placard.

SECTION 109
VIOLATIONS

109.1 Unlawful acts. It shall be unlawful for any person, firm or corporation to erect, construct, alter, repair, remove demolish or utilize any plumbing system, or cause same to be done, in conflict with or in violation with any of the provisions of this Code. All work shall be conducted, installed and completed in a workmanlike and approved manner so as to secure the results intended by this Code.

109.2 Notice of violation. The code official shall serve a written notice of violation or order, as heretofore described in Section 105.3, to the person, firm, or corporation responsible for the erection, installation, alteration, extension, repair, removal, demolition or operation of plumbing equipment or systems in violation of the provisions of this Code, or in violation of a detailed statement, or the approved construction documents there under, or in violation of a permit issued under the provisions of this Code. Such order shall direct the discontinuance of the illegal action or condition and the abatement of the violation. Failure to comply with the written order of the code official may result in revocation of the bond and/or license of that person, firm, or corporation. Failure to comply with the order of the code official shall result in the denial to issue any additional permits in that person's, firm's, or corporation's name.

109.2.1 Written notice of violation. If the building inspection, re-inspection, or test reveals failure of any

new installation, addition, alteration, maintenance, or replacement to comply with the provisions of this Code, the installation shall be declared unlawful by the code official, and a written notice of violation shall be given or mailed to either the responsible individual, person, firm or corporation to whom the permit was issued, or to the legally authorized representative of the permit holder.

109.3 Prosecution of violation. If the notice of violation is not complied within the time stated in the Notice of Violation, but no longer than thirty (30) days, the code official shall request the legal counsel of the City of Saint Louis to institute the appropriate proceedings at law or in equity to restrain, correct or abate such violation, or to require the removal or termination of the unlawful occupancy of the structure in violation of the provisions of this Code or of the order or direction made pursuant thereto. The time for compliance may be extended by the code official, upon written request if there are extenuating circumstances.

109.4 Violation penalties. Any person, partnership or corporation who shall violate a provision of this Code or shall fail to comply with any of the requirements thereof or who shall erect, construct, alter or repair plumbing equipment or systems in violation of the approved construction documents or directive of the code official, or of a permit or license issued under the provisions of this Code, shall, upon conviction thereof, be penalized as set forth in Section 25.04.030.

109.5 Stop work order. Upon notice from the code official that plumbing work is being done contrary to the provisions of this Code or in a dangerous or unsafe manner, or without permit, or by unlicensed individuals, such work shall immediately cease. Such notice shall be in writing and shall be given to the owner of the property involved, or to the owner's agent, or to the person doing the work. The stop work order shall state the conditions under which work is authorized to resume. Where an emergency exists, the code official shall not be required to give a written notice prior to stopping the work. Any person who shall continue any work on the system after having been served with a stop work order, except such work as that person is directed to perform to remove a violation or unsafe conditions, shall be subject to immediate arrest and, upon conviction thereof, be penalized as set forth in Section 25.04.030.

109.6 Abatement of violation. The imposition of the penalties herein prescribed shall not preclude the legal officer of the City of Saint Louis from instituting appropriate action to prevent unlawful construction or to restrain, correct or abate a violation, or to prevent illegal occupancy of a building, structure, or premises, or to sop an illegal act, the conduct of business or the utilization of plumbing equipment or systems on or about any premises.

109.7 Unsafe plumbing. Any plumbing system that is unsafe, constitutes a fire or health hazard, unsanitary condition or is otherwise dangerous to human life, as regulated by this Code, is hereby declared as an unsafe plumbing system. Use of a plumbing system regulated by this Code constituting a hazard to health, safety, or public welfare by reason of inadequate maintenance, dilapidation, obsolescence, fire hazard, disaster, damage, or abandonment is hereby declared an unsafe use. Such unsafe equipment is hereby declared to be a public nuisance and shall be abated by repair, rehabilitation, demolition, or removal.

109.7.1 Authority to condemn plumbing systems. Whenever the code official determines that any plumbing system, or portion thereof, regulated by this Code has become hazardous to life, health, property, or has become unsanitary, the code official shall order in writing that such plumbing either be removed or restored to a safe condition. A time limit for compliance with such order shall be specified in the written notice. A person shall not use or maintain a defective plumbing system after receiving such notice.

When such plumbing system is to be disconnected, written notice as prescribed in Section 109.2 shall be given. In cases of immediate danger to life or property, such disconnection shall be made immediately without such notice.

109.7.2 Authority to order disconnection of utilities. The code official shall have the authority to order disconnection of any utility supplied to a building, structure or plumbing system regulated by this Code when it is determined that the plumbing system or any portion thereof has become hazardous, unsafe, or unsanitary. Written notice of such order to disconnect service and the causes therefore shall be given within twenty-four (24) hours to the owner and occupant of such building, structure, or premises, provided, however, that in cases of immediate danger to life of property; such disconnection shall be made immediately without such notice. The code official shall immediately notify the serving utility in writing of the issuance of such order to disconnect.

109.7.3 Connection after order to disconnect. A person shall not make utility connections to plumbing systems regulated by this Code which have been disconnected or ordered to be disconnected by the code official, or the use of which has been ordered to be discontinued by the code official until the code official authorizes the reconnection and use of such plumbing system.

When any plumbing system is maintained in violation of this Code, and in violation of a notice issued pursuant to the provisions of this section; the code official shall institute any appropriate action to prevent, restrain, correct or abate the violation.

109.7.4 Authority to order vacation of structure. When there is an actual and immediate condition which would endanger life, the code official is hereby authorized and empowered to order and require the occupants to vacate a structure forthwith. The code official shall cause to be posted at each entrance to such structure a notice reading as follows:

DANGER! THIS BUILDING IS UNSAFE. ALL PERSONS ARE WARNED TO KEEP AWAY.

It shall be unlawful for any person to enter such structure except for the purpose of making the required repairs or removal. The procedure for this notice shall be as set forth in Section 105.3.

109.8 Time for compliance and notification to department. All notices of violation shall indicate the requirement of immediate compliance. Upon compliance of violation, the recipient of the notices, the recipient's agent, contractor, or subcontractor shall notify the code official according to the procedure set forth in this Code. Upon notification, the code official shall reinspect the premises in which the violation was found, and if compliance is shown to exist, the violation notice shall be terminated, and type of inspection recorded.

109.8.1 Noncompliance. On new construction, alterations, additions, or replacements, violations not abated within 10 days shall be referred to court. On existing structures which involve occupancy, general rehabilitation, or other problems which involve the development of construction documents or issuance of a building permit, restoration to original occupancy, or other problems which require concurrent action by other departments of the City of Saint Louis, the code official may make its compliance date of any violation notice with regard to any given premises coincide with the compliance date of violations against the same premises by said other departments of the City of Saint Louis.

109.8.2 Immediate compliance. The following types of violations may be followed immediately by referral to court:

1. Failure to secure any required plumbing permit or permits;

2. Operating as a Plumbing Contractor, Drainlayer, Sprinkler Fitter or Mechanical Pipefitter Contractor or as an installer of plumbing without compliance with licensing and registration requirements of this Code;

3. Failure to maintain a plumbing system in a safe and/or sanitary condition;

4. Creation of a nuisance or a hazard to either health or safety.

109.8.3 Compliance. Any violation pertaining to any otherwise illegal installation of plumbing may be referred to a court of competent jurisdiction if not abated within a reasonable time after issuance of the notice of violation by the code official.

109.8.4 City counselor. The City Counselor shall assign such employees as from time to time are necessary to prepare and present to the City Court, or if necessary, to higher courts, the facts pertaining to any violation which has exceeded the time specified in sections of this Code, or if no time is specified, any reasonable time in the judgment of the code official.

109.8.5 Court dates and re-inspections. Before requesting the court to hear any incomplete violation case, the premise involved shall be re-inspected and then the code official assigned to act as a witness for the case shall set forth the facts in a record and the court shall specify the date of the hearing.

109.9 Authority of Board of Plumbing Examiners to levy fines. Any person or entity that violates any provision of the Code shall be guilty of a Class A Misdemeanor. The Board of Examiners for Master Plumbers, Master Drainlayers, and Journeyman Plumbers (Board) shall have the authority to take disciplinary action as set out in the Code, and/or to impose civil penalties, of not less than $5.00 and not to exceed one thousand dollars ($1,000.00), per offense, if the Board finds, after such notice to the individual and a hearing on the matter, that the individual or entity has violated any provisions of the Code.

In determining the amount of penalty to be imposed, the Board may consider both any mitigating circumstances and severity of the violation in relation to the deterrent value of the fine.

Any final order imposing a civil penalty is subject to appeal or review as specified in Section 110.0.

Payment of a civil penalty shall be made within (30) thirty days after the decision of the Board, pending an appeal. Failure to pay a civil penalty by any person licensed under this Code shall be grounds for nonrenewal or denial of reinstatement of a license. In addition, action will be taken against any bonds which may exist to obtain payment of civil penalty.

SECTION 110
MEANS OF APPEAL 21

110.1 Appeals. Any person aggrieved by the decision of the code official, or any Board hereunder, may appeal said decision to the Board of Building Appeals in the manner prescribed in the building code. The fee for said appeal shall be as prescribed in said building code.

SECTION 111
BOARD OF EXAMINERS FOR MASTER PLUMBERS, MASTER DRAINLAYERS AND JOURNEYMAN PLUMBERS

111.1 How constituted. The Mayor, with the approval of the Board of Aldermen, shall appoint one (1) City of Saint Louis licensed Master Plumber, who will act as Chairman of the Board, one (1) City of Saint Louis licensed Master Drainlayer; one (1) City of Saint Louis licensed Journeyman Plumber, one (1) Registered Engineer or a practicing plumbing designer holding a Certified in Plumbing Design Certificate, CPD, issued by the American Society of Plumbing Engineers who has actually engaged in the design of plumbing or sanitary or sewer systems, and one (1) representative from the Plumbing Division, the Plumbing Supervisor or his duly appointed representative. Each of whom shall be a United States Citizen, and each of whom shall have been actively engaged at the trade or business of plumbing for five (5) years in the Saint Louis metropolitan area. These five (5) members shall constitute the Board of Examiners. A majority of the members of said committee shall constitute a quorum for the transaction of business.

111.2 Term of office, compensation. The members of the Board of Examiners, except the Plumbing Supervisor or the Plumbing Supervisor's duly appointed representative, shall hold office for a term of four (4) years or until their successors are duly qualified, unless removed by the Mayor. They shall, except the Plumbing Supervisor or the Plumbing Supervisor's duly appointed representative, receive compensation for their services, as provided by separate ordinance on a per-meeting basis.

111.3 Powers and duties of the Board of Examiners. It shall be the duty of the Board of Examiners to meet on the fourth Monday of each month (the Board may make variances when a holiday falls on this date) to hear and determine any charges or complaints which may be lawfully made against any Master Plumber, Drainlayer or licensed Journeyman Plumber, approve apprentice applications; transact any other lawful business of the Board. Additional meetings may be held at the request of the chairman of the board. Suitable quarters for the use of the Board of Plumbing Examiners shall be provided. Three (3) members of the Board of Examiners in attendance shall constitute a quorum. A majority vote of the board members present is necessary for the approval of any motion.

1. Administration - The Board of Examiners shall receive applications and they shall approve or deny licenses as described herein based on Sections 111.7, 111.8, 111.9, 111.10, 111.11, 111.12, 111.13, 111.14, and 111.18

2. Test - The Board of Examiners shall prescribe the administration, form and content of tests for master plumbers, master drainlayers, journeyman plumbers and the form and content of licenses as described herein. The Board shall also determine the passing grade for each test.

3. Notice - All complaints by citizens concerning plumbing or drainlaying procedures or rules and regulations shall be made to the Board of Examiners in writing. After a thorough investigation, the Board shall respond in writing to each complaint.

4. Adoption of Rules - The Board of Examiners shall adopt rules and regulations, when and as required at the discretion of the Board, consistent with the provisions of this ordinance and the laws of the City of Saint Louis, related to the Board's powers and duties as herein stated. Such rules and regulations adopted by the Board shall be posted in the Section of Plumbing Regulations and Inspections for two weeks prior to becoming effective.

5. Inspection - Order the inspection of any plumbing or drain system whenever deemed necessary for the public safety.

6. Revocation/Suspension of Licenses - After investigation and hearings in accordance with Section 111.12, the Board may revoke or suspend any license that it has issued.

7. The Board shall, pursuant to the regulations and standards herein set forth, determine the qualifications of and provide for the examining, licensing, registration and/or certification of applicants who meet the qualifications and successfully pass the appropriate examination, if required, under this Code. Evidence of license "The License" shall be provided to those who meet the qualifications and successfully pass the appropriate examination, or successfully meet all requirements of renewal of the license. This evidence of license "The License" shall remain the property of St. Louis City and shall be surrendered immediately when demanded under conditions listed elsewhere in this document.

111.4 Secretary of the Board, duties. The code official or his duly appointed representative shall act as Secretary to the Board of Examiners. The Secretary of the Board shall be nonvoting. It shall be the duty of the Secretary to:

1. Keep full and complete records of the proceedings of said Board;

2. Keep a file of the name, residence and place of business of every licensed person engaged in or working at the business of plumbing and drainlaying in the City of Saint Louis (these records shall be updated within ninety days of the renewal period stated in Section 111.5);

3. Give all applicants for examination a written notice of the date and place of examination. The Secretary shall give the applicant an informational letter on examination procedures with an outline of suggested study for the examination applied for;

4. Return all incomplete applications to the applicants;

5. All records shall be open to supervised public inspection during normal working hours, subject to staff availability. Test questions and answers shall not be open to the public.

6. The Secretary shall maintain and secure all examinations, examination documents and materials for the examinations given by the Board as directed by the Board.

111.5 Renewal date for licenses. The renewal of all licenses for Master Plumbers, Master Drainlayers and Journeyman Plumbers shall be due on one date, December 31, 2023, and every three (3) years thereafter.

1. A person applying for renewal of a license, registration or certification may file his/her application starting September 1 first prior to the expiration but not after the last day of the month of January after the license, registration or certificate expires. A person applying for such renewal, prior to its expiration, shall file only a new application form, surety bond, and insurance and pay the fee(s) required under this Code.

2. Upon written application and for good cause shown, waivers or extension of time of the credit hour or reporting requirements of this Code may be granted by the Board in individual cases or classes of cases involving hardship or extenuating circumstances. Extensions granted by the Board may be conditioned on the payment of a late filing fee of thirty ($30) dollars. If the Board grants an extension, the license expiration date shall be extended to the date set by the Board for completion of the credit hour and reporting requirements.

3. A person who fails to comply with all of the above requirements for renewal of his/her license, registration or certificate prior to its expiration, shall, in addition to complying with the requirements of this sub-section, pay a processing fee of one hundred ($100) dollars. A person who submits a renewal application more than one (1) month after the license expiration shall be required to submit to reexamination under the same terms and conditions imposed upon new applicants. Following the grace period, any master plumber, master drainlayer, journeyman plumber, Master Pipefitter, Journeyman Pipefitter, Master Sprinkler fitter or Journeyman Sprinkler fitter that has not renewed shall be required to re-apply and re-test in order to obtain a new license at the discretion of the Board of Examiners under the same terms and conditions imposed upon new applicants.

4. Failure to receive an application for renewal of a license or certificate of authority shall not relieve the licensee or certificate holder from their duty to timely renew, nor shall it relieve them from the obligation to any additional fee(s) necessitated by any late renewal.

111.5.1 Licenses obtained between renewal dates. Any new license issued more than thirty days prior to the renewal date shall expire on the renewal date. There shall be prorating of license fees.

111.5.2 Failure of Master Plumber, Master Drainlayer, Master Pipefitter, or Master Sprinkler fitter to renew. The failure of any Master Plumber or Master Drainlayer, Master Pipefitter, or Master Sprinkler fitter to renew their license during the grace period shall terminate their license, and no permit for doing work under this or any other ordinance of the City of Saint Louis shall be issued them until after they have obtained a new license following re-application and retesting, and they shall be disqualified from carrying on any work authorized to be done under any permit theretofore issued to them or any job unfinished at the date of termination of their license.

NOTE: Failure to renew Department of Natural Resources Backflow Prevention Assembly Certification or to notify the Office of Plumbing and Sewer Inspection of such renewal shall cancel any registration or certification issued by the Board of Plumbing Examiners for the testing of Backflow Prevention Assemblies on the expiration date indicated on the Department of Natural Resources certification.

111.5.2 Licensed Renewal Applicants shall:

1. Submit a completed application for license renewal, a full-face photograph, or the equivalent as determined by the Board, for identification purposes with each renewal.

2. As soon as practicable after the passage of this Code, the Board of Plumbing Examiners shall, after providing reasonable opportunity for public participation, adopt reasonable rules and regulations to interpret and implement the provisions of this Code with respect to continuing education. A licensee may obtain a copy of the rules and regulations upon application and upon payment of fee established for this purpose.

3. Holders of active licenses shall also submit verification that they have attended continuing education courses, seminars, films or other training approved by the Board of Plumbing Examiners in the following minimums starting January 1, 2013:

4. Holders of active licenses shall also submit verification that they have attended continuing education courses, seminars, films, or other training approved by the Board of Sprinkler Fitter Examiners in the following minimums starting January 1, 2013:

A. Masters/Contractors twelve (12) PEU (Professional Education Units) per three-year (3) license cycle pro-rated on a yearly base.

B. Journeyman Licensee twelve (12) PEU per three-year license cycle pro-rated on a yearly base.

C. There may be a carryover of a maximum of four (4) PEU's in excess of the required amount of PEU's to the next license cycle.

111.5.3 License Limitations. Any Master licensed or registered under this Code shall be limited to obtaining permits required under the provisions of this Code, for a single company, firm, proprietorship, partnership or corporation at any given date or time and shall be registered with the Saint Louis City Office of Plumbing and Sewer Inspection as an officer or a full time employee of said company at least thirty (30) days prior to exercising the privileges of the license registration on behalf of said company. Such companies shall be registered with the state of Missouri, Office of Secretary of State, Jefferson City, Missouri.

Any Master, licensed or registered under this Code shall be limited to being employed or working for the contractor that he/she is said Master for as stated above, regardless of holding any other licenses issued under this Code unless said company is subcontracted out to another contractor. It is then, this Master would take out permits for work performed under his Master License as a subcontractor.

111.5.4 Advertising. No person, corporation, partnership, joint venture, or other entity shall place or authorize the placement of an advertisement or message offering services subject to any provision of this Code in any advertising medium unless the advertisement or message clearly states the name, business address and license number of at least one (1) appropriately licensed, certified and/or registered person qualified to perform such services and who is in responsible charge and control of work performed by said entity.

111.6 Inactive license. Any licensed person who is not working at his/her licensed trade and who desires to retain his/her license may do so by notifying the Board of Plumbing Examiners that he/she wishes to be placed in inactive status. Such notice shall be in writing and shall state that the license holder is not working at his/her licensed trade, wishes to be placed in inactive status, understands that he/she is prohibited from working while inactive and agrees to notify the Board to activate his/her license prior to resuming work. It shall be a Violation of this Code for a license holder to perform work in his/her license category while in inactive status. In order to keep an inactive license as a Master Plumber, the license holder must maintain an active license as a Journeyman Plumber if actively working at the trade.

The Board shall respond in writing to the license holder in each inactivation or reactivation action and each such action shall be noted in the Board minutes. An inactive license shall be issued stating the license number and type, which is inactive. This inactive license shall be valid for a period of ten (10) years. Three (3) months prior to the expiration date, the department shall notify the holder at his last known address, the date that his inactive license will expire so that it can be renewed at the holder's request and payment of fees and other requirements of the Board.

It is the responsibility of the Inactive License holder to notify the Board of any license change or change in address. Maintenance of any other license will be equivalent to notifying the Board of address change.

License holders in inactive status, who renew their licenses, are not required to accrue continuing education course hours, as a condition of renewal. However, they are required to accrue the minimum continuing education hours for any prior year or any part thereof in which their license was active.

111.7 Bond and Insurance Required.

1. Certificate of Insurance - Streets Department: A copy of a Certificate of Insurance for combined One Million Dollars ($1,000,000.00) per occurrence, minimum limits liability insurance for bodily injury and property damage shall be submitted to the Plumbing Section on January 1st of each year by a Certified Master Plumber and Master Drainlayer. The Certificate shall state the insurance company's name, address, phone number, kind of insurance, coverage, and policy number. The insurance company shall notify the Plumbing Section twenty (20) days prior to cancellation of a certificate, in writing. Permits shall not be issued to contractors who fail to file a Certificate of Insurance with the Plumbing Section annually. This policy shall include coverage for the correction of plumbing work performed contrary to this Code, and for Street Department requirements in connection with excavations and street blockage permits.

2. Bonds by Master Plumbers and Drainlayers - Streets Department: It shall be the duty of every Plumbing or Drainlaying Contractor who works in the public rights-of-way to give surety bond to the City of Saint Louis in the sum of Twenty-Five Thousand Dollars ($25,000.00) annually. Said bond or bonds shall meet the following requirements:

a. Amount of $25,000.00;

b. Saves harmless the City or Saint Louis;

c. Must be continuous Cancellation only after thirty (30) days' notice to the Director of Streets:

d. Properly signed. scaled and notarized.

After the bond or bonds are forwarded to Director of Streets. they shall be approved by the Comptroller and filed with the Register of the City of Saint Louis. Said bonds shall be renewed annually; provided, however, that if the security shall become impaired. the Comptroller shall demand that additional security be given.

3. Certificate of Insurance - Other: No permits required under the provisions of this Code shall be issued until such applicant shall have on file in the Office and with the Code Official an approved surety bond in the amount of Twenty-Five Thousand Dollars ($25,000.00), and a certificate of Contractor Commercial General Liability Insurance in the minimum amount of One Million Dollars ($1,000,000.00) per occurrence. Each person allowed to make application for permit under this shall agree to maintain a standard ISO version Commercial General Liability policy form, or its equivalent, providing coverage for, but not limited to, Bodily Injury and Property Damage, Premise/Operations, Products/Completed Operations, Contractual Liability, Broad Form Property Damage, Explosion (X), Collapse (C), and (U) Underground coverage, Severability of Interest commercial General Liability with limits of not less than $1,000,000 per occurrence, Combined Single Limits (CSL) for bodily injury and property damage that may occur as result from operations. Coverage shall also extend to products and completed operations, contractual liability, and Explosion (X), Collapse (C) and Underground (U). The City of St. Louis, Missouri, shall be named as an additional insured for its own interests and the interests of its residents.

4. City Counselor Approval: The bonds and insurance required in this Code shall be approved by the City Counselor and shall be given for the faithful observance of this Code and Sections 341.090 to 341.220 RSMo and all orders, rules and regulations adopted hereunder or under the provisions of sections 341.090 to 341.220 R.S. Mo. for the protection of the public health and safety and shall indemnify the City of St. Louis, Missouri, or any other governmental agency, or any person, firm, or corporation for any damage or injury sustained through the negligence or malfeasance of such applicant, their servants, agents or employees in performing work or for any damages or injury sustained due to such applicant's failure to perform work

in a careful and workmanlike manner, in conformity with this Code and the orders, rules and regulations adopted hereunder or under the provisions of Sections 341.090 to 341.220 R.S. Mo. or for the use of the City of St. Louis, Missouri due to non-payment of fees thirty (30) days from due date, or for the use of any person, firm or corporation with whom said applicant contracts to do work to indemnify any such person, firm or corporation for damages sustained due to failure of applicant to do work so contracted and shall be conditioned that the principal in said bond will employ licensed Journeyman in the performance of work which requires a Journeyman license under this Code.

Replace lost license	$25.00			Replacement cost
NOTE: FEES SHALL BE PRORATED				

111.8 License as a Master Plumber.

1. An applicant for a Master Plumber's license shall have the following qualifications:

2. At least five (5) years' experience as a Journeyman Plumber licensed under this Code, in addition to meet the requirements of the Journeyman Plumber License, or under laws and regulations requiring similar qualifications the intent of this requirement is that the applicant for Master Plumber shall have at least ten (10) years practical experience in the design, planning, installation and supervision of plumbing systems including but not limited to, drainage and vent piping facilities; potable water supply and distribution piping systems; Plumbing Appliances, Appurtenance, and fix-

tures, and potable water cross connection control facilities. Or, in lieu thereof, possess such experience or training, as is the equivalent thereto. Equivalent training and experience shall mean that:

A. The applicant shall be a civil or mechanical engineer, registered with the Missouri Board for Architects, Professional Engineers and Land Surveyors, and have four (4) years of experience in the design, planning and installation of plumbing, drainage, vent piping facilities, potable water supply and distribution piping and potable water cross connection control which must be obtained under the direction of a Master Plumber licensed under this Code or under laws and regulations requiring similar qualifications;

Or;

B. The applicant shall have satisfactorily completed a five (5) year course in practical plumbing, drainage, vent piping facilities, potable water supply and distribution piping and potable water cross connection control at a recognized trade or technical school, and five (5) years' experience in the design, planning and installation of plumbing, drainage, and vent piping facilities, potable water supply and distribution piping and potable water cross connection control, which must be obtained under the direction of a Master Plumber licensed under this Code or under laws and regulations requiring similar qualifications;

Or;

C. The applicant shall be a Master Plumber who has qualified for a license under examination, rules, and regulations, similar to the St. Louis City, Missouri, Board of Plumbing Examiners Examination rules and regulations; has been working under rules and regulations equal to or exceeding the rules and regulations of this Code; has been examined and qualified for a St. Louis City Journeyman Plumber license; and has worked under the direction of a licensed St. Louis City, Missouri, Master plumber for at least two (2) years;

Or;

D. Such other experience and/or training as the Board of Plumbing Examiners determines is equivalent.

3. He/she shall possess the ability to direct other persons in the performance of plumbing work and shall be skilled in designing and installing plumbing fixtures and facilities and shall have a thorough knowledge of the art of plumbing necessary for the protection of the public health.

A. Applicant's qualifications shall be presented to the Board of Examiners for approval to take the written examination.

B. Approved applicant shall be notified by the Secretary of the Board as to the date and place of the written examination. The Secretary shall also give the applicant an informational letter on the examination procedures with an outline of suggested study for the examination. The applicant is responsible for all testing fees.

C. An applicant shall be required to successfully pass an examination designed or selected by the Board of Examiners in addition to the foregoing requirements.

D. Applicant shall be notified in writing by the Secretary of the Board of the examination results. Applicants that pass shall be notified to come to the Section of Plumbing Regulations and Inspection and obtain their license within ninety - (90) days. Applicants that have not passed the examination for the first time shall be notified that they may re-take the examination after three (3) months (90 days) and shall be eligible every three (3) months (90 days) there after until he/she has passed the examination.

E. Successful applicant shall have a digital picture taken by the Plumbing Department, and have a certificate of liability insurance for bodily injury and property damage in the amount of at least one million dollars ($1,000,000) naming the applicant as an additionally insured, and approved surety bond in the amount of Twenty-Five Thousand Dollars ($25,000.00) and the license fee required by Table 111 to the Section of Plumbing Regulations and Inspections in order to be issued a license as a master plumber.

F. No journeyman plumber shall be allowed to hold a master plumber's license. When a journeyman plumber qualifies as a master plumber, the journeyman must relinquish the journeyman plumber's license to the Board of Plumbing Examiners before a master plumber license can be issued.

111.9 License as a Master Drainlayer.

1. An applicant for a Master Drainlayers license shall possess a current Master Plumber license issued by St. Louis City or have the following qualifications:

A. Five (5) years' experience in drainlaying under the personal direction of a Master Drainlayer licensed

under the rules and regulations of this Code, or under laws and regulations requiring similar qualifications or such other experience and/or training as the Board of Plumbing Examiners determines is equivalent. In lieu thereof the applicant shall have a degree in civil or mechanical engineering from an accredited college or university, and three (3) years' experience in design, installation, and planning of private and public sanitary storm sewers and sewerage systems.

B. The applicant shall possess the ability to direct other persons in the installation of sanitary and storm sewers, and sewerage systems, private and public and shall have a thorough knowledge of the art of drainlaying necessary for the protection of the public health.

C. An applicant shall be required to successfully pass an examination designed or selected by the Board of Examiners in addition to the foregoing requirements.

2. Applicant's qualifications shall be presented to the Board of Examiners for approval to take the written examination.

3. Approved applicant shall be notified by the Secretary of the Board as to the place of the written examination. The Secretary shall also give the applicant an informational letter on the examination procedures with an outline of suggested study for the examination. The applicant is responsible for all testing fees.

4. Applicant shall be notified in writing by the Secretary of the Board of the examination results. Applicants that pass shall be notified to come to the Section of Plumbing Regulations and Inspection and obtain their license within ninety (90) days. Applicants that have not passed the examination for the first time shall be notified that they may re-take the examination after ninety (90) days (3 months) and shall be eligible every ninety (90) days (3 months) there after until he/she has passed the examination.

5. Successful applicant shall have a digital picture taken by the Plumbing Department, and have a certificate of liability insurance for bodily injury and property damage in the amount of at least one million dollars ($1,000,000) naming the applicant as an additionally insured, an approved surety bond in the amount of Twenty-Five Thousand Dollars ($25,000.00), and the license fee required by Table 111 to the Section of Plumbing Regulations and Inspections in order to be issued a license as a Master Drainlayer.

111.10 License as a Journeyman Plumber.

1. An applicant for a Journeyman Plumber license shall possess training and experience in all phases of the plumbing industry, they shall be skilled in installing plumbing fixtures and facilities and shall have a thorough knowledge of the art of the plumbing system for the protection of the public health and shall have at least five (5) years of experience as an Apprentice Plumber under the direction and supervision of a Master or Journeyman Plumber licensed under the rules and regulations of this Code, or under laws and regulations requiring similar qualifications, or under an established code having comparable requirements, or, in lieu thereof, the applicant shall possess such experience or training as is the equivalent thereto. Equivalent training and experience may be considered to mean either:

A. A degree in civil or mechanical engineering from an accredited college or university, and three (3) years of experience in the design, planning and/or installation of plumbing, drainage, vent piping facilities, potable water supply and distribution piping and potable water cross connection control under the direction of a Master or Journeyman Plumber licensed under the rules and regulations of this Code, or under laws and regulations requiring similar qualifications.
Or;

B. The satisfactory completion of a three (3) year course in practical plumbing, drainage, vent piping facilities, potable water supply and distribution piping, and potable water cross connection control at a recognized trade or technical school and five (5) years' experience as an Apprentice Plumber under the personal direction of a Master or Journeyman Plumber licensed under the rules and regulations of this Code, or under rules and regulations requiring similar qualifications;
Or;

C. Such other experience and/or training as the Board of Plumbing Examiners determines is equivalent.

Note 1. A maximum of one (1) years' experience may be used as a part of required experience while employed in plumbing maintenance. It may be deemed equivalent experience for one (1) year of experience required for Master or Journeyman Plumber license.

Note 2: Experience for this license may not be acquired during the same time period as experience is acquired for another license.

2. Applicant's qualifications shall be presented to the Board of Examiners for approval to take the written examination.

3. Approved applicant shall be notified by the Secretary of the Board as to the place of the written examination. The Secretary shall also give the applicant an informational letter on the examination procedures with an outline of suggested study for the examination. The applicant is responsible for all testing fees.

4. An applicant shall be required to successfully pass an examination designed or selected by the Board of Examiners in addition to the foregoing requirements.

5. Applicant shall be notified in writing by the Secretary of the Board of the examination results. Applicants that pass shall be notified to come to the Section of Plumbing Regulations and Inspection and obtain their license within ninety (90) days. Applicants that have not passed the examination for the first time shall be notified that they may retake the examination after ninety (90) days (3 months) and shall be eligible every ninety (90) days (3 months) there after until he/she has passed the examination.

6. Successful applicant shall have a digital picture taken by the Plumbing Department, and have the license fee required in Table 111 to the Section of Plumbing Regulations and Inspections in order to be issued a license as a journeyman plumber.

111.11 Registration as an Apprentice Plumber.

1. A Master licensed by St. Louis City, who employs an apprentice in St. Louis City, and/or the Missouri Counties of St. Louis, Jefferson, Franklin, and St. Charles County, and/or the Illinois Counties of Monroe, Madison, and St. Clair County shall register that apprentice in St. Louis City under the rules contained in this ordinance. All persons serving an apprenticeship in any trade registered under this Code shall register with the Board of Plumbing Examiners prior to the start of their work training in that trade. The Master is held solely responsible to register all apprentices. Penalties for failure to register an apprentice shall be as defined in this Code for violations and shall also be subject to suspension or revocation of license by the Board of Plumbing Examiners. A Joint Apprenticeship Training Committee (JATC), registered with the Labor Department, may act on behalf of an employer who is not licensed as a Master under this Plumbing Code to facilitate the registration of apprentices.

A. The word "apprentice" as used in this Code shall mean a person learning, or already having experience in, the principles and art of the trade category in which the person is registered, under the personal direction and supervision of a licensed Master or Journeyman.

B. The word "Experienced Apprentice" as used in this Code shall mean a person, who in the judgment of the Board of Plumbing Examiners, previous to his application, has received a minimum of two and one-half (2-½") years equivalent training and experience learning the principles and art of the trade category in which the person is registered during which the applicant has received a minimum of five hundred (500) hours of approved classroom training, and who has received a minimum of ten (10) hours of OSHA approved Safety Training for Construction, and who has been certified by the Master for whom he/she is currently employed that said apprentice is capable of performing installations that are in compliance with the Code and with the principals and art of the trade category, and who shall continue his training and experience under the direction and supervision of a licensed Master until qualified to apply for Journeyman in that trade.

C. An Apprentice applicant whose training was not received under a St. Louis City licensed Master may also apply for "Experience Apprentice" upon meeting the requirements listed in the above paragraph or the equivalent as determined by the Board.

2. Personal Supervision of Apprentices. An Apprentice is to be under the supervision of a Master or Journeyman at all times. Experienced apprentices are not authorized to supervise an apprentice. The Master or Journeyman is not required to constantly watch the Apprentice but is to lay out the work required and permit the Apprentice to perform the work on his/her own.

Masters or Journeymen are permitted to leave the immediate work area and remain on job site without being accompanied by the Apprentice. But the Apprentice should know where the Master or Journeyman is located on the jobsite, so she/he can request assistance and/or direction.

Job site is defined as follows:

A. A single building or structure, or a group of related and supporting buildings, on one site covered by one or more permits, or

B. A designated subdivision consisting of more than one single family residence on one contiguous section of land, or

C. A residential complex containing one or more multi-family structures on one contiguous section of land and contained within one designated development. No licensed apprentice plumber shall serve more than a 7-year licensed apprenticeship period. If, upon completion of a 7-year licensed apprenticeship period, such licensed apprentice plumber does not apply for the examination for a journeyman plumber's license and successfully pass the examination for a journeyman plumber's license, his or her apprentice plumber's license shall not be renewed and will be determined expired.

Exception: If an individual cannot make the qualified number of hours needed to take the Journeyman's test within the 7 years listed above due to no fault of their own, the Board may extend the expiration of that license.

An apprentice or experienced apprentice must make an initial application to the Board within twelve (12) months of completion of the experience requirement for license (minimum term as set forth in this section). The Board may revoke an apprentice license for failure to make such application for Journeyman License. The Board may review all apprentice and experienced apprentice's registrations that have extended more than two (2) years beyond the listed minimum term. Registration may be canceled if the Board determines, after providing the registrant with notice and an opportunity to be heard, that the registrant is not learning the principles and art of the trade category in which he or she is registered and is not making an attempt to become licensed. The Board may remove "Experienced Apprentice" status, if the Board determines that the registrant has inadequate knowledge of the principals and art of the trade category to hold such registration in which he or she is registered. The Board may return such registrant to a lesser classification. The decision of the Board involving a registration may be appealed in the same manner as other decisions of the Board.

If an applicant neglects, fails or refuses to take an examination for license under this Code, the application is denied. However, such applicant may submit a new application for examination accompanied by the required application fee. Application fees for examination for a plumber's license are not refundable.

A. Plumber Apprentice - minimum term of apprenticeship shall be five (5) years.

B. Experienced Plumber Apprentice - minimum term of apprenticeship shall be as determined by the Board of Plumbing Examiners but no less than a total of five (5) years equivalent training and experience.

3. Apprentices and/or Experienced Apprentices are prohibited from registering in more than one (1) trade category in the same time period.

4. An applicant for Apprentice or Experienced Apprentice Registration shall:

A. Register with the Board of Plumbing Examiners using the form approved and provided by the Board. Said registration shall include the applicant's name, Social Security Number, address, zip Code, age and telephone number. The applicant shall also include on the application the name of the licensed Master under which the applicant will be receiving training and instructions.

B. Furnish a letter from a St. Louis City Master, licensed in the trade in which he/she is registering confirming the apprentice's or experienced apprentice's employment and previous experience and accepting responsibility for training said apprentice.

C. Furnish a listing of all journeymen, apprentice and experienced apprentices currently in the St. Louis City Master's employ by name and license or registration number, or indicate no apprentices employed.

D. Proof of enrollment within six months of application in (This requirement to become effective Jan 1, 2011):

(A) An applicable apprenticeship program certified by the Bureau of Apprenticeship and Training of the United States Department of Labor (BAT/ATELS); OR;

(B) A Board approved equivalent apprenticeship program such as classroom/laboratory training by a Trade School such as Ranken Technical College or Jefferson College or by any school or organization approved, accredited or certified, as applicable, by:

(i) The Higher Learning Commission, a Commission of the North Central Association of Colleges and Schools; or

(ii) The Accrediting Commission of Career Schools and Colleges of Technology; or

(iii) The National Center for Construction Education and Research; or

(C) An applicable, integrated five (5) year combined classroom and field training apprenticeship program that is conducted by any school or organization approved, accredited or certified, as applicable, by:

(i) The Higher Learning Commission, a Commission of the North Central Association of Colleges and Schools; or

(ii) The Accrediting Commission of Career Schools and Colleges of Technology; or

(iii) The National Center for Construction Education and Research; or

2. Presentation by the applicant or any Entity or organization of a written, individual training program providing five (5) years combined of educational training or classes and field work or on-the-job training obtained as follows:

(A) At least 500 classroom hours of educational training or classes covering work that requires a license under this Section as allowed by the (Note to this subsection below) that is conducted by any combination of schools or other organizations approved, accredited, or certified as applicable by:

(i) The Higher Learning Commission, a Commission of the North Central Association of Colleges and Schools; or

(ii) The Accrediting Commission of Career Schools and Colleges of Technology; or

(iii) The National Center for Construction Education and Research and;

(B) The balance of the required hours needed to equal five (5) years through field work and/or on-the-job training under the supervision and inspection of a Journeyman licensed under this Section to perform the work involved.

Note: Within the total 500 classroom hours presented as part of any individualized training program the individual program must contain a minimum of 440 hours technical instruction in the installation, alteration, reconstruction, repair, replacement and/or servicing of Plumbing Systems.

(C) Applicants shall also have taken by St. Louis City, a full-face photograph or the equivalent as determined by the Board, for identification purposes, and pay a registration fee of Twenty-Five Dollars ($25.00).

5. Apprentices and Experience Apprentices shall, during the month of July of each year after registration, report their training and employment status to the Board. Such report shall be on a form provided by the Board, shall list for the past year, (July 1 to June 30,) all employers, and period of time worked.

NOTE: Failure to report this required information to the Board of Examiners may cause the registration to be canceled.

6. Any Master employing an apprentice, and/or an experienced apprentice shall advise the Board in writing immediately upon the commencement or termination of the apprentice's employment. In addition, by the last workday of July of each year the Master shall provide to the Board a list of each apprentice and/or experienced apprentice in their employ as of June 30th of the prior month.

7. The total number of apprentices and experienced apprentices employed by a Master at any given time shall not exceed the total number of licensed Journeyman employed at that time plus, one (1) additional apprentice or experienced apprentice for each active Master. In times of work shortages, upon application, consideration may be given by the Board of Plumbing Examiners to a St. Louis City licensed Master or JATC which supervises the training of apprentices, to waive this rule with the intention of maintaining training of previously registered apprentices.

111.12 Master Pipefitter. An applicant for a license as a Master Pipefitter shall have the following qualifications:

1. A minimum of ten (10) years verifiable training and/or experience as a pipefitter under a Department of Labor approved apprenticeship program or with a reputable, bona fide process piping contractor, at least five (5) years of which has been in a supervisory capacity or such other training and experience as the Board of Examiners determines to be equivalent.

2. A thorough knowledge of the design and installation of process piping systems in general and backflow prevention devices, assemblies and methods relating to process piping systems in particular.

3. Meet all appropriate local, state and federal requirements for conducting a business in St. Louis City, Missouri, including but not limited to, obtaining applicable licenses, registrations and tax numbers.

4. An applicant shall be required to receive a passing grade on an examination approved or selected by the Board of Examiners in addition to the foregoing requirements.

5. Approved applicant shall be notified by the Secretary of the Board as to the place of the written examination. The Secretary shall also give the applicant an informational letter on the examination procedures with an outline of suggested study for the examination. The applicant is responsible for all testing fees.

6. An applicant shall be required to successfully pass an examination designed or selected by the Board of Examiners in addition to the foregoing requirements.

7. Applicant shall be notified in writing by the Secretary of the Board of the examination results. Applicants that pass shall be notified to come to the Section of Plumbing Regulations and Inspection and obtain their license within ninety (90) days. Applicants that have not passed the examination for the first time shall be notified that they may retake the examination after ninety (90) days (3 months) and shall be eligible every ninety (90) days (3 months) there after until he/she has passed the examination.

8. Successful applicant shall have a digital picture taken by the Plumbing Department and have the license fee required in Table 111 to the Section of Plumbing Regulations and Inspections in order to be issued a license as a Master Pipefitter.

111.13 Journeyman Pipefitter. An applicant for a Journeyman Pipefitter License shall have the following qualifications:

1. A minimum of five (5) years verifiable training and/or experience as a pipefitter under a Department of Labor approved apprenticeship program or with a reputable, bona fide process piping contractor or such other training and experience as the Board of Examiners determines to be equivalent.

2. A thorough knowledge of the installation of process piping systems in general and backflow prevention devices, assemblies and methods relating to process piping systems in particular.

3. An applicant shall be required to receive a passing grade on an examination approved or selected by the Board of Examiners in addition to the foregoing requirements.

4. Approved applicant shall be notified by the Secretary of the Board as to the date and place of the written examination. The Secretary shall also give the applicant an informational letter on the examination procedures with an outline of suggested study for the examination. The applicant is responsible for all testing fees.

5. An applicant shall be required to successfully pass an examination designed or selected by the Board of Examiners in addition to the foregoing requirements.

6. Applicant shall be notified in writing by the Secretary of the Board of the examination results. Applicants that pass shall be notified to come to the Section of Plumbing Regulations and Inspection and obtain their license within ninety (90) days. Applicants that have not passed the examination for the first time shall be notified that they may retake the examination after ninety (90) days (3 months) and shall be eligible every ninety (90) days (3 months) there after until he/she has passed the examination.

7. Successful applicant shall have a digital picture taken by the Plumbing Department and have the license fee required in Table 111 to the Section of Plumbing Regulations and Inspections in order to be issued a license as a Journeyman Pipefitter.

111.14 Master Sprinkler Fitter. An applicant for a Master Sprinkler Fitter license shall have the following qualifications:

(A) A minimum of ten (10) years training and/or experience as a Sprinkler fitter, at least five years of which shall have been under a Department of Labor approved apprenticeship program or with a reputable, bona fide Fire Suppression Sprinkler System Contractor, and at least five (5) years of which shall have been as a licensed Journeyman or in a similar supervisory capacity, or such other experience and/or training as the Board of Examiners determines to be equivalent.

Or

(B) A bachelors of science degree in Civil or Mechanical engineering from an accredited university and the applicant shall have had at least five (5) years experience in automatic sprinkler system design, planning and/or installation of same under the supervision of a Master Sprinkler Fitter licensed under this Code or equivalent license, and must be a licensed professional engineer licensed to practice in the State of Missouri.

Or

(C) A NICET Level IV certification in the Automatic Sprinkler System Layout field, in which the applicant shall have received training in the sprinkler system design, and the applicant shall have had at least five (5) years experience in automatic sprinkler system design, planning and/or installation of same under the

supervision of a Master Sprinkler Fitter licensed under this Code or equivalent license, at least five (5) years of which shall have been in a supervisory capacity.

Or

(D) A NICET Level III certification in the Automatic Sprinkler System Layout field, in which the applicant shall have received training in the sprinkler system design, and the applicant shall have had at least ten (10) years experience in automatic sprinkler system design, planning and/or installation of same under the supervision of a Master Sprinkler Fitter licensed under this Code or equivalent license, at least five (5) years of which shall have been in a supervisory capacity.

(E) A thorough knowledge of the design and installation of fire suppression sprinkler systems in general and backflow prevention devices, assemblies and methods relating to fire suppression systems in particular.

(F) Meet all appropriate local, state and federal requirements for conducting a business in St. Louis City, Missouri, including but not limited to, obtaining applicable licenses, registrations and tax numbers.

(G) An applicant shall be required to receive a passing grade on an examination approved or selected by the Board of Examiners in addition to the foregoing requirements.

(H) Applicant shall be notified in writing by the Secretary of the Board of the examination results. Applicants that pass shall be notified to come to the Section of Plumbing Regulations and Inspection and obtain their license within ninety (90) days. Applicants that have not passed the examination for the first time shall be notified that they may retake the examination after ninety (90) days (3 months) and shall be eligible every ninety (90) days (3 months) there after until he/she has passed the examination.

(I) Successful applicant shall have a digital picture taken by the Plumbing Department and have the license fee required in Table 111 to the Section of Plumbing Regulations and Inspections in order to be issued a license as a Master Sprinkler Fitter.

111.15 Journeyman Sprinkler Fitter. An applicant for a Journeyman Sprinkler fitter license shall have the following qualifications:

1. A minimum of five (5) years verifiable training and/or experience as a sprinkler fitter under a Department of Labor approved apprenticeship program or with a reputable, bona fide Fire Suppression Sprinkler System Contractor or such other training and experience as the Board of Examiners determines to be equivalent.

2. Be thoroughly familiar with the installation of fire suppression sprinkler systems in general and backflow prevention devices, assemblies and methods relating to fire suppression systems in particular.

3. An applicant shall be required to successfully pass an examination designed or selected by the Board of Examiners in addition to the foregoing requirements.

4. An applicant shall be required to receive a passing grade on an examination approved or selected by the Board of Examiners in addition to the foregoing requirements.

5. Applicant shall be notified in writing by the Secretary of the Board of the examination results. Applicants that pass shall be notified to come to the Section of Plumbing Regulations and Inspection and obtain their license within ninety (90) days. Applicants that have not passed the examination for the first time shall be notified that they may retake the examination after ninety (90) days (3 months) and shall be eligible every ninety (90) days (3 months) there after until he/she has passed the examination.

6. Successful applicant shall have a digital picture taken by the Plumbing Department and have the license fee required in Table 111 to the Section of Plumbing Regulations and Inspections in order to be issued a license as a Journeyman Sprinkler Fitter.

111.16 Interim Journeyman License. In the event the Board of Plumbing Examiners determines that a shortage of licensed Journeymen in a particular trade exists in St. Louis City, an Interim Journeyman License or an Experienced Apprentice License in place of the Interim Journeyman License for that trade may be granted.

1. An applicant for an Interim Journeyman License for that trade may be granted to a person whose most recent residence and employment as a journeyman was more than 125 miles from the St. Louis City courthouse and who has previously registered and is currently registered as an apprentice or experienced apprentice working under a bonded and insured St. Louis City Licensed Master in that trade and who meets all the practical experience and training qualifications required by this Code for license as a Journeyman in that trade, and by the applicant's choice has not passed the required written examination. Applicants

for an Interim Journeyman License shall submit a written application to the Board and pay the same fee(s) as an applicant for a regular Journeyman License.

2. Interim Journeyman or the Experienced Apprentice licenses shall expire one year after the date of issuance and are non-renewable. A person whose Interim Journeyman License or the Experienced Apprentice License has expired is not eligible to apply for another Interim Journeyman license in that trade.

3. Interim Journeyman or the Experienced Apprentice license may be upgraded to a regular Journeyman license by passing the appropriate examination. Applicant for the appropriate examination must apply for issuance of the exam credentials during the term of the Interim License. If the Interim license has expired, a new application must be made to the Board. The Board will accept the previous review of qualification for experience and training unless there is information that the previous review considered information that was falsified or otherwise invalid.

4. An interim Journeyman License or the Experienced Apprentice may not be used to qualify the number of Apprentices that may be approved for an entity employing Journeymen.

111.17 Certification for homeowner's permit. A homeowner that is found qualified by the Board of Examiners shall be allowed to do plumbing work on an owner-occupied single-family dwelling under the following conditions:

1. The homeowner shall reside in the one-family dwelling and present proof of ownership to the Board of Examiners;

2. Such plumbing work shall be done by the homeowner and used exclusively by the homeowner and the homeowner's family;

3. Homeowners making plumbing repairs on a one-family dwelling for rental or sale purposes are in violation of this section.

4. The applicant shall complete application provided by the Section of Plumbing Regulations and Inspections and pay the application fee shown in Table 111.

5. The Board of Examiners shall allow the homeowner to take the homeowner Examination only once. If the homeowner fails to qualify by obtaining a passing score, the homeowner shall not be permitted to take the examination again for one year and the plumbing work must be done by certified individuals.

6. If the homeowner qualifies, the Board of Examiners shall certify the homeowner to work on the specified owner-occupied one family dwelling. This certification shall be valid for two (2) years only at the address listed on the application.

7. The homeowner with this certification shall be allowed to obtain one permit at a time for up to four (4) plumbing fixtures. Only one permit for a homeowner shall be open at any time. Plumbing permits for homeowners may not be extended beyond six (6) months. Any open permit shall be revoked when the homeowner's certification expires. The homeowner shall not be permitted to do work outside of the building.

8. After the homeowner's certification has expired, the homeowner may re-apply and re-test for a new certification.

111.18 The intent of this section is that candidates meet the approval of the Board of Plumbing Examiners as having the experience requirements for each license for which an application has been reviewed by this Board of Plumbing Examiners, and in addition successfully pass an examination designed or selected by the Board of Examiners. The order of obtaining approval from the Board or in acquiring a passing grade does not remove the requirement that both are obtained.

111.19 Interceptors (Separators) - Registration, Maintenance and Inspection Required.

1. Upon adoption of Rules and Regulations by The Metropolitan St. Louis Sewer District, MSD, for inspections of existing interceptors to be scheduled annually, the Building Commissioner and/or the Code Official is authorized to enter into a contract with MSD for record keeping of such inspections per the requirements of this section.

2. Interceptors, including but not limited to grease interceptors, oil interceptors/separators, installed in accordance with this Code shall be inspected and certified as to proper maintenance and operation annually, by persons who are properly licensed Plumbers pursuant to this Code. The owner/user shall maintain all interceptors in proper working condition.

3. The owner of these devices shall maintain a written record of interceptor maintenance for two years. All such records shall be available at all times and shall be submitted to the inspector at the inspector's request. These records shall contain the date of inspection or

maintenance, name of the person performing the inspection or maintenance, and the manager's signature or initials for verification.

A. Hydromechanical grease interceptors shall be cleaned as required by use and as required by the manufacturer, but at intervals not longer than ninety (90) days at the owners/user's expense. Gravity Grease interceptors and Oil and sand interceptors shall be cleaned as required by use, but at intervals not longer than one hundred eighty (180) days.

Interceptors shall be kept free of inorganic solid materials such as grit, rocks, gravel, sand, eating utensils, cigarettes, shells, towels, rags, etc., which could settle into the interceptor and thereby reduce the effective volume. The use of biological chemicals as a grease degradation agent is conditionally permissible upon written approval of the Chief Plumbing Inspector. Any establishment using this method shall maintain the interceptor in such a manner that abatement from the interceptor's outlet is consistently attained.

B. The results of such inspections shall be submitted to the Office of Plumbing and Sewer Inspection, within thirty (30) days after making such test, on a form which is acceptable to the Code Official and shall be completed and signed by the tester. A copy shall also be provided at time of inspection, or an appropriate sticker shall be applied to maintenance records posted in the location of the device.

C. The Office of Plumbing and Sewer Inspection shall maintain all records of inspections performed in accordance with the Code requirements and notify all owners when retesting is required. Violation notices shall be issued, and notification shall be sent to the Health Department and MSD, for failure to perform or register the required test.

D. The fee for such notification, record maintenance and registration shall be ten dollars ($10) per each inspection report submitted. Fees shall be paid by the employing Master in a manner approved by the Code Official, at the time the test report is submitted by the device tester to the Office of Plumbing and Sewer Inspection.

4. Installations of grease and oil interceptors/clarifiers by persons who are properly licensed pursuant to this Code as a Plumber and certified by the Board of Plumbing Examiners for this inspection.

5. Inspections of grease and oil interceptors/clarifiers by persons who are properly licensed pursuant to this Code as a Plumber and certified by the Board of Plumbing Examiners for this inspection.

6. This provision shall take effect no later than one year and no sooner than ninety (90) days after the final adoption of this ordinance and the adoption of regulations requiring such inspections by MSD.

111.20 Powers of the Board to suspend or revoke licenses. Upon receipt of a written complaint to the Board filed by the Code Official, or the Building Commissioner or any aggrieved person, or upon the Board's own motion, the Board shall make an investigation into the complaint which it may deem necessary and thereafter shall conduct a hearing upon such complaint.

111.20.1 Reasons for suspension or revocation of licenses. The Board of Examiners shall have the power to suspend or revoke any license, registration, or certificate issued pursuant to this Code for cause. Although such actions may be based upon causes other than those enumerated, the following are declared to be adequate causes for suspension or revocation. The following offenses shall be cause for a hearing on a master plumber's, master drainlayer's or journeyman plumber's license:

1. If the license holder has obtained same by fraud or misrepresentation, that license shall be immediately revoked;

2. The license holder has intentionally violated any of the provisions of this section or any other portion of this Code;

3. The license holder is found to be negligent, unskilled, and unfaithful in their work or found to be unfit, incompetent, or untrustworthy in the work of plumbing or drainlaying.

4. The license holder has been convicted of a crime or of violating an Ordinance involving moral turpitude;

5. The licensed master plumber has intentionally employed an unlicensed person to perform plumbing work covered by this Code;

6. The licensed master plumber has directed apprentices to work without the supervision of a licensed journeyman or licensed master plumber;

7. The licensed master plumber or licensed master drainlayer has obtained permits for individuals who are not in their employ or under their supervision;

8. The licensed master plumber or licensed master drainlayer has allowed anyone to enter an excavation that has not been properly shored.

9. Disciplinary action against the holder of a license or certificate of authority, or other right to practice any profession regulated by this chapter granted by another state, territory, federal agency, or country upon grounds for which revocation or suspension is authorized in this Code;

10. The suspension or revocation of a Master or Journeyman license by any jurisdiction;

11. A revoked license, registration, or certification may be reinstated by order of the Board only upon application and examination, if required, and in the same manner as provided for new applicants.

12. Upon suspension and or revocation the license holder is to surrender his/her license(s) at the close of the 1 Board of Plumbing Examiners hearing.

111.20.2 Notice of hearing. Within seventy-five (75) days after the filing of a written complaint at a Board meeting, a notice of hearing shall be sent to the license holder. The notice shall be served to the last known address by certified mail, return receipt requested, at least ten (10) calendar days prior to any scheduled hearing and shall include:

1. A statement of the time, place, and nature of the hearing;

2. A reference to the particular section(s) of the code and rules involved;

3. A short, plain statement of the complaint and a statement of the issues before the Board;

4. A statement that the nature of the proceeding before the Board will be a formal inquiry into the complaint, at which time an opportunity will be afforded the individual or contractor to respond to the allegations in the complaint by his/her testimony, the testimony of witnesses, or by documentary evidence;

5. A statement that the individual or contractor has a right to be represented by legal counsel; and

6. A statement that based upon the evidence presented at the hearing, the Board may suspend or revoke the homeowner's, apprentices, journeymen, or master's license.

111.20.3 Determining vote. A decision to suspend or revoke a journeyman's or master's license shall require the concurring vote of at least three (3) of the five (5) members of the Board.

111.20.4 Decisions of the Board are final unless appealed. All rulings or decisions of the Board of Examiners shall become final and binding upon all parties thereto unless appealed to the Board of Building Appeals as provided for in the Building Code.

111.20.5 Enforcement stayed. If the decision of the Board of Examiners is appealed to the Board of Building Appeals, enforcement of any ruling or decision by the Board shall be stayed until the Board of Building Appeals has rendered its decision.

111.20.6 Authority of Board of Plumbing Examiners to levy fines.

1. Any person or entity that violates any provision of the Code shall be guilty of a Class A Misdemeanor. The Board of Examiners for Master Plumbers, Master Drainlayers, and Journeyman Plumbers (Board) shall have the authority to take disciplinary action as set out in the Code, and/or to impose civil penalties, of not less than $5.00 and not to exceed one thousand dollars ($1,000.00), per offense, if the Board finds, after such notice to the individual and a hearing on the matter, that the individual or entity has violated any provisions of the Code. In determining the amount of penalty to be imposed, the Board may consider both any mitigating circumstances and severity of the violation in relation to the deterrent value of the fine.

Any final order imposing a civil penalty is subject to appeal or review as specified in Section 110.0. Payment of a civil penalty shall be made within (30) thirty days after the decision of the Board, pending an appeal. Failure to pay a civil penalty by any person licensed under this Code shall be grounds for non-renewal or denial of reinstatement of a license. In addition, action will be taken against any bonds which may exist to obtain payment of civil penalty.

111.21 Hardship Clause. In the event of a loss of a Master Licensee to a company employing tradesmen licensed in the City of Saint Louis, through no fault of that company, a licensed Journeyman of the trade of the absent Master Licensee; or in the event of the lass of a Master Drainlayer to a company through no fault of that company, a person who would otherwise be eligible to qualify as a Master Drainlayer in the trade of the absent Master Drainlayer; and who shall be a full-time employee of that company, shall be designated as an Interim Master after meeting all bonding and insurance requirements. That company may operate under an Interim Master, who will have the same rights, responsibilities and standing of a Master in that trade, for a period of not more than one (1) year from the date of the hardship.

The Code Official shall determine judgment of fault. Disagreement of judgment may be appealed to the Board of Examiners who shall hold an emergency hearing no later than fourteen (14) calendar days following the date the appeal is received by the Board Secretary. The decision of the Board involving a hardship clause is appealable in the same manner as other decisions of the Board. Additional appeals may be made pursuant to the procedures in Section 110 of this Code.

SECTION 112
BOARD OF EXAMINERS FOR SPRINKLER SYSTEM CONTRACTORS

112.1 How constituted. The Mayor, with the approval of the Board of Aldermen, shall appoint one (1) licensed employing sprinkler contractor, one (1) registered professional engineer with experience in fire suppression sprinkler system design and one (1) licensed journeyman sprinkler fitter. Each of whom shall be a United States Citizen, and each of whom shall have been actively engaged at the trade or business of sprinkler fitting for five (5) years in the Saint Louis metropolitan area. These three members, together with the Fire Marshal or the Fire Marshal's appointed representative, and the Building Commissioner or the Building Commissioner's appointed representative, shall constitute the Board of Examiners.

112.2 Term of office, compensation. The members of the Board of Examiners, except the Fire Marshal or the Fire Marshal's appointed representative, and the Building Commissioner or the Building Commissioner's duly appointed representative, shall hold office for a term of four (4) years or until their successors are duly qualified, unless removed by the Mayor. They shall, except for the Fire Marshal or the Fire Marshal's appointed representative, and the Building Commissioner or the Building Commissioner's duly appointed representative, receive compensation for their services, as provided by separate ordinance on a per-meeting basis.

112.3 Meetings. Three (3) members of the Board in attendance shall constitute a quorum. An affirmative vote of three (3) board members is necessary for the approval of any motion. The Board shall elect one of its members to be the chairman. Suitable quarters for the use of the Board of Examiners shall be provided by the Building Division.

112.4 Powers and duties of the Board of Examiners. It shall be the duty of the Board of Examiners to meet as often as necessary to: hear and determine any charges or complaints which may be lawfully made against any licensed sprinkler contractor or licensed journeyman sprinkler fitter; approve apprentice applications; and transact any other lawful business of the Board. Meetings may be held at the request of the chairman of the board. Suitable quarters for the use of the Board of Examiners shall be provided.

1. Administration - The Board of Examiners shall receive applications and after review they shall approve or deny them based on Sections 112.8, 112.9 and 112.10. Test - The Board of Examiners shall prescribe the administration, form, and content of tests for journeyman sprinkler fitters and sprinkler fitter contractors and the form and content of licenses as described herein. The Board of Examiners shall also determine the passing grade for each test.

2. Complaints - All complaints by citizens concerning sprinkler fitting procedures or rules and regulations shall be made to the Board of Examiners in writing. After a thorough investigation, the Board shall respond in writing to each complaint.

3. Adoption of Rules - The Board of Examiners shall adopt rules and regulations, when and as required at the discretion of the Board, consistent with the provisions of this ordinance and the laws of the City of Saint Louis, related to the Board's powers and duties as herein stated. Such rules and regulations adopted by the Board shall be posted in the Section of Plumbing Regulations and Inspections for two weeks prior to becoming effective.

4. Inspection - Order the inspection of any sprinkler system whenever deemed necessary for the public safety.

5. Revocation/Suspension of Licenses - After investigation and hearings in accordance with Section 112.11, the Board may revoke or suspend any license that it has issued.

6. The Board shall, pursuant to the regulations and standards herein set forth, determine the qualifications of and provide for the examining, licensing, registration and/or certification of applicants who meet the qualifications and successfully pass the appropriate examinations, if required, under this Code. Evidence of license "The License" shall be provided to those who meet the qualifications and successfully pass the appropriate examination, or successfully meet all requirements of renewal of the license. This evidence of license "The License" shall remain the property of St. Louis

City and shall be surrendered immediately when demanded under conditions listed elsewhere in this document.

112.4.1 Inactive license. Any licensed person who is not working at his/her licensed trade and who desires to retain his/her license may do so by notifying the Board of Sprinkler Fitter Examiners that he/she wishes to be placed in inactive status. Such notice shall be in writing and shall state that the license holder is not working at his/her licensed trade, wishes to be placed in inactive status, understands that he/she is prohibited from working while inactive and agrees to notify the Board to activate his/her license prior to resuming work. It shall be a Violation of this Code for a license holder to perform work in his/her license category while in inactive status remain the property of St. Louis City and shall be surrendered immediately when demanded under conditions listed elsewhere in this document.

The Board shall respond in writing to the license holder in each inactivation or reactivation action and each such action shall be noted in the Board minutes. An inactive license shall be issued stating the license number and type, which is inactive. This inactive license shall be valid for a period of ten (10) years. Three (3) months prior to the expiration date, the department shall notify the holder at his last known address, the date that his inactive license will expire so that it can be renewed at the holder's request and payment of fees and other requirements of the Board. It is the responsibility of the Inactive License holder to notify the Board of any license change or change in address. Maintenance of any other license will be equivalent to notifying the Board of address change. License holders in inactive status, who renew their licenses, are not required to accrue continuing education course hours, as a condition of renewal. However, they are required to accrue the minimum continuing education hours for any prior year or any part thereof in which their license was active.

112.5 Secretary of the board, duties. The Code Official or his duly appointed representative shall act as Secretary to the Board of Examiners. The Secretary of the Board shall be nonvoting. It shall be the duty of the Secretary to:

1. Keep full and complete records of the proceedings of said Board;

2. Keep a file of the name, residence and place of business of every licensed person engaged in or working at the business of sprinkler fitting in the City of Saint Louis (these records shall be updated within ninety days of the renewal period stated in Section 112.6).

3. Give all applicants for examination a written notice of the date and place of examination. The Secretary shall give the applicant an informational letter on examination procedures with an outline of suggested study for the examination applied for;

4. Return all incomplete applications to the applicants;

5. All records shall be open to supervised public inspection during normal working hours, subject to staff availability. Test questions and answers shall not be open to the public.

112.5 Renewal date for licenses. The renewal of all licenses for sprinkler contractors and journeyman sprinkler fitters shall be due on one date, December 31, 2023, and every three (3) years thereafter.

1. A person applying for renewal of a license, registration or certification may file his/her application starting September first prior to the expiration but after the last day of the month of 14 January after the license, registration or certificate expires. A person applying for such renewal, prior to its expiration, shall file only a new application form, surety bond, and pay the fee(s) required under this Code.

2. Upon written application and for good cause shown, waivers or extension of time of the credit hour or reporting requirements of this Code may be granted by the Board in individual cases or classes of cases involving hardship or extenuating circumstances. Extensions granted by the Board may be conditioned on the payment of a late filing fee of thirty ($30) dollars. If the Board grants an extension; the license expiration date shall be extended to the date set by the Board for completion of the credit hour and reporting requirements.

Licenses obtained between renewal dates. Any new license issued more than thirty days prior to the renewal date shall expire on the renewal date. There shall be prorating of license fees.

112.6.1 Failure of sprinkler contractor to renew. The failure of any sprinkler contractor to renew their license during the grace period shall terminate their license, and no permit for doing work under this or any other ordinance of the City of Saint Louis shall be issued them until after they have obtained a new license following re-application and re-testing, and they shall be disqualified from carrying on any work authorized

to be done under any permit theretofore issued to them or any job unfinished at the date of termination of their license.

112.7 Inactive license. Any licensed person who is not working at his/her licensed trade and who desires to retain his/her license may do so by notifying the Board of Plumbing Examiners that he/she wishes to be placed in inactive status. Such notice shall be in writing and shall state that the license holder is not working at his/her licensed trade, wishes to be placed in inactive status, understands that he/she is prohibited from working while inactive and agrees to notify the Board to activate his/her license prior to resuming work. It shall be a Violation of this Code for a license holder to perform work in his/her license category while in inactive status. The license holder must maintain an active journeyman sprinkler fitter license.

112.8 License as a sprinkler contractor. An applicant shall successfully complete all of the following requirements in order to receive a license as a sprinkler contractor:

1. Applicant shall be twenty-one (21) years of age.

2. Applicant shall complete application provided by the Section of Plumbing Regulations and Inspections and pay the application fee shown in Table 111.

3. Applicant shall have served a five (5) year apprenticeship and have five (5) years' experience as a certified sprinkler fitter or the applicant shall have ten (10) years' experience as a certified sprinkler fitter. (Five years of experience consists of a minimum of 8,500 working hours with a maximum of 1,700 working hours considered for any one year.) Equivalent training and experience shall also be considered. Equivalent training and experience shall mean a degree in engineering from an accredited university in which the applicant shall have received training in the design of sprinkler system design, planning and installation of same, and has had three (3) years of experience in the design, planning and installation of sprinkler systems, and must be a registered professional engineer licensed to practice in the State of Missouri.

4. Applicant's credentials shall be reviewed by the Board of Examiners as to qualifications and experience. The applicant shall provide proof of knowledge, training and experience through transcripts from educational institutions, apprenticeship agreements, reference letters from employers and other documents as requested by the Board of Examiners.

5. The Secretary of the Board shall arrange a testing date with the approved applicant. The Secretary shall also give the applicant an informational letter on the examination procedures with an outline of suggested study for the examination. The applicant shall schedule the test within ninety (90) days of approval. The applicant is responsible for all testing fees.

6. Applicant shall successfully complete the written examination and receive a passing grade on all parts of the examination.

7. Applicant shall be notified in writing by the Secretary of the Board of the examination results. Applicants that pass shall be notified to come to the Section of Plumbing Regulations and Inspection and obtain their license. Applicants that have failed the examination for the first time shall be notified that they may schedule a retake of the examination after ninety (90) days. Applicants that have failed the examination for a second time shall be notified that they may schedule a re-take of the examination after an additional one hundred eighty (180) days. Applicants that have failed the examination for a third time shall wait a minimum of twelve (12) months before re-application and re-testing. The applicant is responsible for all application and testing fees.

8. Successful applicant shall have a certificate of liability insurance for bodily injury and property damage in the amount of at least one million dollars ($1,000,000) naming the applicant as an additionally insured, an approved surety bond in the amount of Twenty-Five Thousand Dollars ($25,000.00), and the license fee required by Table 111 to the Section of Plumbing Regulations and Inspections in order to be issued a license as a sprinkler contractor. No journeyman sprinkler fitter shall be allowed to hold a sprinkler contractor license. When a journeyman sprinkler fitter qualifies as a sprinkler contractor, the journeyman must relinquish the journeyman sprinkler fitter's license to the Board of Sprinkler Fitters Examiners before a sprinkler contractor's license can be issued.

112.9 License as a journeyman sprinkler fitter. An applicant shall successfully complete all of the following requirements in order to receive a license as a journeyman sprinkler fitter:

1. Applicant shall be twenty-one (21) years of age.

2. Applicant shall complete application provided by the Section of Plumbing Regulations and Inspections and pay the application fee shown in Table 111.

3. Applicant shall have a minimum of five (5) years' experience as an apprentice in the installation of sprinkler systems under the direct personal and immediate supervision of a licensed journeyman sprinkler fitter or licensed sprinkler contractor in the City of St. Louis, or have a license issued by another licensing authority in another jurisdiction, or equivalent training and experience prior to the date of the examination. (Five years of experience consists of a minimum of 8,500 hours with a maximum of 2,000 working hours considered for any one year.) The applicant shall receive a one (1) year credit toward their five (5) year apprenticeship training when presenting a certificate of completion from a trade or technical school recognized by the Board of Examiners. Any applicant living within one hundred (100) miles of the limits of the City of Saint Louis must have held a valid apprentice sprinkler fitter registration for five (5) years.

4. The applicant shall provide proof of knowledge, training and experience through transcripts from educational institutions, apprenticeship agreements, letters of reference from employers and any other documents requested by the Board of Examiners.

5. Applicant's qualifications shall be reviewed by the Board of Examiners for approval to take the written examination.

6. The Secretary of the Board shall arrange a testing date with the applicant. The Secretary shall also give the applicant an informational letter on the examination procedures with an outline of suggested study for the examination. The applicant shall schedule the test within ninety (90) days of approval. The applicant is responsible for all testing fees.

7. Applicant shall successfully complete the written examination and receive a passing grade on all parts of the examination.

8. Applicant shall be notified in writing by the Secretary of the Board of the examination results. Applicants that pass shall be notified to come to the Section of Plumbing Regulations and Inspection and obtain their license. Applicants that have failed the examination for the first time shall be notified that they may schedule a retake of the examination after ninety (90) days. Applicants that have failed the examination for a second time shall be notified that they may schedule a re-take of the examination after an additional one hundred eighty (180) days. Applicants that have failed the examination for a third time shall wait a minimum of twelve (12) months before re-application and re-testing. The applicant is responsible for all application and testing fees.

9. Successful applicant shall have the license fee required in Table 111 to the Section of Plumbing Regulations and Inspections in order to be issued a license as a journeyman sprinkler fitter.

112.10 Registration as an apprentice sprinkler fitter. Every applicant learning the business or trade of sprinkler fitting within the City of Saint Louis, shall be registered by the Board of Examiners and shall receive a registration from the Board of Examiners with "Apprentice" plainly marked on it, their name and the date issued and a color or digital picture. The registration fee for an Apprentice shall be as prescribed in Table 111 and the registration will be issued for a five (5) year period.

The apprentice's employer shall furnish a notarized letter to the Board of Examiners naming all journeyman sprinkler fitters and all apprentice sprinkler fitters in his/her employment. The sprinkler system contractor shall employ at least one licensed journeyman sprinkler fitter for each apprentice sprinkler fitter.

An apprentice who is undergoing an apprenticeship or course of training for the purpose of learning the trade of sprinkler fitting shall perform no work regulated by this Code or its amendments thereto, except as an assistant, under the direct personal and immediate supervision of a journeyman sprinkler fitter or sprinkler contractor licensed under the terms and provisions of this Code.

The apprentice registration shall not be renewed. Upon written application, the apprentice shall be allowed to be extended his registration for a maximum of six (6) months if the apprentice has been approved to take the journeyman sprinkler fitter examination as prescribed in Section 112.8. It shall be mandatory for an Apprentice sprinkler fitter, on the completion of their five (5) year training period, to make application for the journeyman sprinkler fitter's examination.

112.11 Powers of the Board to suspend or revoke licenses. Upon receipt of a written complaint to the Board filed by the Building Commissioner or any aggrieved person, or upon the Board's own motion, the Board shall make an investigation into the complaint which it may deem necessary and thereafter shall conduct a hearing upon such complaint.

112.11.1 Reasons for suspension or revocation of licenses. The following offenses shall be cause for a hearing on a sprinkler contractor's or journeyman sprinkler fitter's license:

1. If the license holder has obtained same by fraud or misrepresentation, that license shall be immediately revoked;

2. The license holder has intentionally violated any of the provisions of this section or any other portion of this Code or the fire code;

3. The license holder is found to be negligent, unskilled and unfaithful in their work or found to be unfit, incompetent or untrustworthy in the work of sprinkler fitting;

4. The license holder has been convicted of a crime or of violating an Ordinance involving moral turpitude;

5. The licensed sprinkler contractor has intentionally employed an unlicensed person to perform sprinkler fitting work covered by this Code;

6. The licensed sprinkler contractor has directed apprentices to work without the supervision of a licensed journeyman sprinkler fitter.

7. The licensed sprinkler contractor has obtained permits for individuals who are not in their employ and under their supervision.

8. Disciplinary action against the holder of a license or certificate of authority, or other right to practice any profession regulated by this chapter granted by another state, territory, federal agency, or country upon grounds for which revocation or suspension is authorized in this Code;

9. The suspension or revocation of a Contractor, Master or Journeyman license by any jurisdiction;

10. A revoked license, registration, or certification may be reinstated by order of the Board only upon application and examination, if required, and in the same manner as provided for new applicants.

11. Upon suspension and or revocation the license holder is to surrender his/her license(s) at the close of the Board of Sprinkler Fitter Examiners hearing.

112.11.2 Notice of hearing. Within seventy-five (75) calendar days after the filing of a written complaint at the Board meeting, a notice of hearing shall be sent to the license holder. The notice shall be served to the last known address by certified mail, return receipt requested, at least ten (10) days prior to any scheduled hearing and shall include:

1. A statement of the time, place and nature of the hearing;

2. A reference to the particular section(s) of the code and rules involved;

3. A short, plain statement of the complaint and a statement of the issues before the Board;

4. A statement that the nature of the proceeding before the Board will be a formal inquiry into the complaint, at which time an opportunity will be afforded the individual or contractor to respond to the allegations in the complaint by his/her testimony, the testimony of witnesses, or by documentary evidence;

5. A statement that the journeyman sprinkler fitter or sprinkler contractor has a right to be represented by legal counsel; and

6. A statement that, based upon the evidence presented at the hearing, the Board may suspend or revoke the apprentice's, journeyman sprinkler fitter's or sprinkler contractor's license.

112.11.3 Determining vote. A decision to suspend or revoke an apprentice's, a journeyman sprinkler fitter's or a sprinkler contractor's license shall require the concurring vote of at least three (3) members of the Board.

112.11.4 Decisions of the Board are final unless appealed. All rulings or decisions of the Board of Examiners shall become final and binding upon all parties thereto unless appealed to the Board of Building Appeals as provided for in the Building Code.

112.11.5 Enforcement stayed. If the decision of the Board of Examiners is appealed to the Board of Building Appeals, enforcement of any ruling or decision by the Board shall be stayed until the Board of Building Appeals has rendered its decision.

112.11.6 Authority of Board of Sprinkler Fitter Examiners to levy fines.

1. Any person or entity that violates any provision of the Code shall be guilty of a Class A Misdemeanor. The Board of Sprinkler Fitters Examiners (Board) shall have the authority to take disciplinary action as set out in the Code, and/or to impose civil penalties, of not less than $5.00 and not to exceed one thousand dollars ($1,000.00), per offense, if the Board finds, after such notice to the individual and a hearing on the matter, that the individual or entity has violated any provisions of the Code. In determining the amount of penalty to

be imposed, the Board may consider both any mitigating circumstances and severity of the violation in relation to the deterrent value of the fine.

Any final order imposing a civil penalty is subject to appeal or review as specified in Section 110.0.

Payment of a civil penalty shall be made within (30) thirty days after the decision of the Board, pending an appeal. Failure to pay a civil penalty by any person licensed under this Code shall be grounds for non-renewal or denial of reinstatement of a license. In addition, action will be taken against any bonds which may exist to obtain payment of civil penalty.

112.12 Hardship Clause. In the event of a loss of a Master Licensee to a company employing tradesmen licensed in the City of Saint Louis, through no fault of that company, a licensed Journeyman of the trade of the absent Master Licensee and who shall be a full-time employee of that company, shall be designated as an Interim Master after meeting all bonding and insurance requirements. That company may operate under an Interim Master, who will have the same rights, responsibilities and standing of a Master in that trade, for a period of not more than one (1) year from the date of the hardship. The Code Official shall determine judgment of fault. Disagreement of judgment may be appealed to the Board of Examiners who shall hold an emergency hearing no later than fourteen (14) calendar days following the date the appeal is received by the Board Secretary. The decision of the Board involving a hardship clause is appealable in the same manner as other decisions of the Board. Additional appeals may be made pursuant to the procedures in Section 110 of this Code.

SECTION 113
COMMITTEE OF PLUMBING REVIEW

113.1 How constituted. The Mayor, with the approval of the Board of Aldermen, shall appoint one (1) Registered Professional Engineer or a practicing Plumbing Designer holding a Certified in Plumbing Design certificate, CPD, issued by the American Society of Plumbing Engineers who has actually engaged in the design of plumbing or sanitary or sewer systems may be appointed as a substitute for the position held by the Registered Engineer engaged in the design of plumbing and sanitary systems, one (1) licensed City of St. Louis Master Plumber, one (1) licensed City of St. Louis Master Drainlayer, one (1) licensed City of St. Louis Journeyman Plumber, and one (1) member at large. Each of whom shall a United States Citizen, and each of whom shall have been actively engaged at the trade or business of plumbing systems for five (5) years in the Saint Louis metropolitan area, except for the member at large. These five members, together with the Plumbing Supervisor or the Plumbing Supervisor's duly appointed representative, shall constitute the Committee of Plumbing Review.

113.2 Term of office, compensation. The members of the Committee of Plumbing Review, except the Plumbing Supervisor or the Plumbing Supervisor's duly appointed representative, shall hold office for a term of four (4) years or until their successors are duly qualified, unless removed by the Mayor. They shall, except for the Plumbing Supervisor or the Plumbing Supervisor's duly appointed representative, receive compensation for their services, as provided by separate ordinance on a per-meeting basis.

113.3 Meetings. Three (3) members of the Committee in attendance shall constitute a quorum. A majority vote of the board members present is necessary for the approval of any motion. The Committee shall elect one of its members to be the chairman on an annual basis. The Plumbing Supervisor or the Plumbing Supervisor's duly appointed representative shall be the Committee's secretary. Suitable quarters for the use of the Committee of Plumbing Review shall be provided by the Building Division. The Committee shall meet a minimum of three (3) times per year. Additional meetings maybe called at the request of any Committee member.

113.4 Powers and duties of the Committee of Plumbing Review. It shall be the duty of the Committee of Plumbing Review to consider all proposed changes in this Code relative to the use, adoption, or incorporation of any plumbing materials, or the method of construction or installation of plumbing or when referred to the Committee by the code official. The Committee shall consider any petition for the adoption or incorporation of any plumbing codes, materials, or methods of construction or installation of plumbing referred to the Committee by the Board of Building Code Review. The Committee shall accept research, approval, investigations, and report reviews when referred by the code official for assistance. The Committee of Plumbing Review shall review new and/or unique plumbing systems, methods of piping, appurtenances, and appliances and make recommendations to the Authority Having Jurisdiction for the purpose of finding accept-

able such new and/or unique plumbing systems, piping, appurtenances and/or appliances acceptable for use under this Code.

113.5 Secretary of the board, duties. It shall be the duty of the Secretary to:

1. Prepare and distribute the agenda to all Committee members for all upcoming meetings.

2. Keep full and complete records of the proceedings of said Committee.

3. All records shall be open to supervised public inspection during normal working hours, subject to staff availability.

SECTION 114
BACKFLOW CERTIFICATION

114.1 General. The installation and annual testing of backflow prevention assemblies and devices shall be performed only by individuals that have been licensed for this specific work by the Section of Plumbing Regulations and Inspections.

114.2 Master plumbers and journeyman plumbers. A licensed plumbing contractor shall have a licensed master plumber or licensed journeyman plumber in possession of a valid Missouri Department of Natural Resources Public Drinking Water Certification for Backflow Prevention Assembly Tester Rule 10 CSR 60-11.010 to install and/or test backflow prevention assemblies and devices on any installation other than dedicated fire sprinkler and suppression systems that requires a licensed Sprinkler Contractor to install and test.

An applicant for a Backflow Prevention Tester Certification shall have the following qualifications:

1. Be certified by the Missouri Department of Natural Resources as a Backflow Prevention Tester.

2. Must be licensed, certified and/or registered as a Master Plumber, Journeyman Plumber, Master Pipefitter, Journeyman Pipefitter, Master Sprinkler Fitter, or Journeyman Sprinkler Fitter under the foregoing provisions of this Code.

NOTE: EVERY BACKFLOW PREVENTION CERTIFICATE LICENSE NUMBER SHALL INDICATE THE TYPE (S) OF WATER SYSTEMS FOR WHICH THE HOLDER IS QUALIFIED.

114.2.1 Validation of master plumber or journeyman plumber licenses. Upon application for or renewal of a master plumber or journeyman plumber license, the master plumber or journeyman plumber shall present proof of a valid Missouri Department of Natural Resources Public Drinking Water Certification for Backflow Prevention Assembly Tester Rule 10 CSR 60-11.010 certification to the plumbing section and the master plumber or journeyman plumber license will be notated as complying with Section 114.2.

114.2.2 The installation and initial test of backflow prevention assemblies and devices shall be performed in accordance with this Code and the standards and procedures established by the Missouri Department of Natural Resources, Public Drinking Water Program by persons who are properly licensed pursuant to this Code who also possess a current Backflow Prevention Tester Certificate issued by the Missouri Department of Natural Resources.

Clarification:

The Plumbing Code Ordinance requires the installer to hold the appropriate license (Plumber, Pipefitter, or Sprinkler Fitter) to install a Backflow Assembly and Device. The testing, repair, replacement or retrofit installation of existing Backflow Prevention Assemblies and Devices for Plumbing Systems, and Process Piping systems may be performed by Journeymen Plumbers, Journeymen Pipefitters, Master Plumbers, Master Pipefitters licensed under this Code who also possesses a current Backflow Prevention Tester Certificate issued by the Missouri Department of Natural Resources.

Clarification:

The Plumbing Code Ordnance requires one license and one certification to test and repair Backflow Assemblies and Devices.

To test Backflow assemblies and devices the Plumbing Code Ordinance requires the tester to hold the appropriate license (Plumber, Pipefitter, Sprinkler Fitter) as well as be certified by the MODNR as a Backflow Tester and the certification be registered under the plumbing Code Ordinance. All testing must be performed under the supervision of an appropriately licensed master.

114.3 Sprinkler fitter contractors and journeyman sprinkler fitters. A licensed Master Sprinkler fitter employing a licensed journeyman sprinkler fitter in possession of a valid Missouri Department of Natural Resources Public Drinking Water Certification for Backflow Prevention Assembly Tester Rule 10 CSR 60-11.010 may install and/or test backflow prevention assemblies and devices on any sprinkler system installation. The licensed sprinkler contractor is authorized to perform work on any sprinkler system up to and including the backflow assemblies and devices and the

branch pipe in which the backflow assemblies and devices is installed. If the sprinkler system originates from a separate water main tap, the licensed sprinkler contractor may work on the line up to but not including the tap.

114.3.1 Validation of journeyman sprinkler fitter licenses. Upon application for or renewal of a journeyman sprinkler fitter license, the journeyman sprinkler fitter shall present proof of a valid Missouri Department of Natural Resources Public Drinking Water Certification for Backflow Prevention Assembly Tester Rule 10 CSR 60-11.010 certification to the plumbing section and the journeyman sprinkler fitter license will be notated as complying with Section 114.3.

114.4 Master Pipefitter and journeyman pipefitters. A Master Pipefitter employing a licensed journeyman pipefitter in possession of a valid Missouri Department of Natural Resources Public Drinking Water Certification for Backflow Prevention Assembly Tester Rule 10 CSR 60-11.010 may use that employee to install and/or test backflow prevention assemblies and devices on any mechanical system installation. The licensed journeyman pipefitter employed by the Master Pipefitter is authorized to perform work on the backflow prevention device serving any mechanical system. A Master Pipefitter licensed by the Plumbing Section of the Division of Buildings and Inspections is authorized to work on process piping up to the backflow prevention assemblies and devices and the branch pipe in which the backflow assemblies and devices are installed.

114.4.1 Journeyman pipefitter license. An individual in possession of a valid journeyman mechanical pipefitter license issued by the Mechanical Section of the Division of Buildings and Inspections may obtain a journeyman pipefitter license from the Plumbing Section upon completion of a written application, proof of possessing the journeyman mechanical pipefitter license, a 3/4 inch by 3/4- inch color photograph and/or a digital picture and payment of the application and license fee stated in Table 111.

114.4.2 Validation of journeyman pipefitter licenses. Upon application for or renewal of a Master Pipefitter or a journeyman pipefitter license, the master pipefitter or journeyman pipefitter shall present proof of a valid Missouri Department of Natural Resources Public Drinking Water Certification for Backflow Prevention Assembly Tester Rule 10 CSR 60-11.010 certification to the plumbing section and the journeyman pipefitter license will be notated as complying with Section 114.4.

114.4.3 Backflow Prevention Assembly and Devices - Registration, Maintenance And Testing Required.

1. Backflow prevention assembly and devices installed in accordance with this Code shall be tested and certified as to proper operation at the time of installation and each year thereafter by persons who are properly licensed and certified pursuant to this Code. At the time of installation, a permanent tag shall be attached to the backflow prevention assembly and device on which shall be recorded the permit number, the tester's name, registration number, and the date tested. Each subsequent test shall be recorded on the tag in like manner. This tag shall remain attached to the device until such time as the device is replaced or retired. Tags shall be made of materials sufficiently durable to withstand the environment in which the device is installed. The water user, whether water originates from a commercial water supply system or shared or individual well, shall maintain all backflow prevention assembles and devices in proper working condition.

2. The installation testing and maintenance of backflow prevention devices shall be performed in accordance with this Code. In addition, regulations, requirements, standards and procedures established by the Missouri Department of Natural Resources, Public Drinking Water Program become a requirement of this Code.

3. The results of such tests shall be submitted to the Office of Plumbing and Sewer Inspection, within thirty (30) days after making such test, on a form which is acceptable to the Code Official and shall be completed and signed by the tester. A copy shall also be provided, within thirty (30) days, to the owner, and water customer if different than the owner and if records for the device are not maintained by St. Louis City, the supplier of water.

4. Where the supplier of water has contracted with St. Louis City to maintain records of backflow testing required by state law, the Office of Plumbing and Sewer Inspection shall maintain all records of tests performed in accordance with the Code requirements and notify all water customers and device owners when retesting is required, send a list of licensed and bonded Masters with such notification, issue violation notices for failure to perform or register the required test, notify the supplier of water and request termination of the potable water connection of any water customer and owner of a device who shall fail to have any required test performed. If the device owner receives

water from a shared or individual well, the Office of Plumbing and Sewer Inspection shall maintain all records of tests performed in accordance with the Code requirements, notify all device owners when re-testing is required, send a list of licensed and bonded Master's with such notification, and issue violation notices for failure to perform or register the required test.

5. The fee for such notification, record maintenance and registration shall be the rate specified in 107.11.3 as amended. Fees shall be paid by the employing Master in a manner approved by the Code Official, at the time the test report is submitted by the device tester to the Office of Plumbing and Sewer Inspection.

SECTION 115
REPLACEMENT OF RESIDENTIAL DISHWASHER - REGISTRATION AND CERTIFICATION REQUIRED.

115.1 Residential Dishwashers Replaced. Residential Dishwashers shall be replaced by a licensed Master Plumber or Licensed Journeyman Plumber in accordance with this Code and shall be certified as to proper installation at the time of replacement. At the time of replacement, a permanent tag shall be attached to the dishwasher on which shall be recorded the Certificate of Replacement number, the installer's name, license number, and the date installed. This tag shall remain attached to the dishwasher until such time as the dishwasher is replaced or retired and shall be made of materials sufficiently durable to withstand the environment in which the device is installed.

1. The results of such replacement shall be submitted to the Office of Plumbing and Sewer Inspection within fifteen (15) days after making such replacement and test, on a form acceptable to the Code Official and shall be completed and signed by the Master Plumber. A Certificate of Completion shall be provided by the Master Plumber, within fifteen (15) days of completion of the replacement, to the owner.

2. The Office of Plumbing and Sewer Inspection shall maintain all records of all Certificates of Replacement in accordance with the Code requirements and issue violation notices for failure to perform or register the required Certificate of Replacement.

3. The fee for such notification, record maintenance and registration shall be specified in 107.11.3 as amended. Fees shall be paid by the employing Master in a manner approved by the Code Official.

4. Residential Dishwasher Replacement under a Homeowner Permit requires an inspection and appropriate fees as specified in 107.11.3 as amended. The homeowner must make all dishwasher connections visible at the time of inspection.

SECTION 116
INSTALLATIONS AND INITIAL TEST OF BACKFLOW PREVENTION ASSEMBLY AND DEVICES.

116.1 General. The installation and initial test of backflow prevention assembly and devices shall be performed in accordance with this Code and the standards and procedures established by the Missouri Department of Natural Resources, Public Drinking Water Program by persons who are properly licensed pursuant to this Code and who also possess a current Backflow Prevention Device Tester Certificate issued under the Standards and Procedures established by the Missouri Department of Natural Resources and registered with the Code Official.

The testing, repair, replacement or retrofit installation of existing Backflow Prevention assembly and Devices for Plumbing systems, and Process Piping systems may be performed by Journeyman Plumbers, Journeyman Pipefitters, Master Plumbers, or Master Pipefitters licensed under this Code who also possess a current Backflow Prevention Device Tester Certificate issued under the Standards and Procedures established by the Missouri Department of Natural Resources, and registered with the Code Official. All testing must be performed under the supervision of an appropriately licensed and certified Master.

Clarification:

To test and repair Backflow assemblies the Plumbing Code Ordinance requires the tester to hold the appropriate license (Plumber, Pipefitter, Sprinkler Fitter) as well as be certified by the MoDNR as a Backflow tester and that certification be registered and a Backflow Tester license issued under the Plumbing Code Ordinance. All testing must be performed under the supervision of an appropriately licensed Master.

SECTION 117
RESIDENTIAL MULTI-PURPOSE FIRE PROTECTION SYSTEMS INSTALLERS

117.1 RESIDENTIAL MULTI-PURPOSE FIRE PROTECTION SYSTEMS INSTALLERS FOR ONE- AND TWO-FAMILY DWELLINGS. The installation

of Residential Multi-Purpose Fire Protection Systems shall be performed in accordance with this Code and the standards and procedures established by the St. Louis City Board of Plumbing Examiners, by persons who are properly licensed pursuant to this Code and possess a current certification for ASSE Series 7000 (current edition), Professional Qualifications Standard for Residential Potable Water Fire Protection System Installers & Residential Fire Protection System Inspectors for One- and Two-Family Dwellings issued by American Society of Sanitary Engineering (ASSE) or other approved third-party certification agencies with similar or more stringent qualifications.

The installation documents shall contain the following statement signed by the ASSE Series 7000 Certified or equivalent Master Plumber:

A) " I certify that I personally prepared and/or directly supervised an ASSE Series 7000 Certified Journeyman in preparation of the installation documents. I assume full responsibility for document accuracy."

B) Master Plumber Signature:

Master Plumber STL. City LIC #:

ASSE Series 7000 Certification #:

The testing, repair, replacement or retrofit installation of existing Residential Multi-Purpose Fire Protection Systems may be performed by Journeyman Plumbers or Master Plumbers licensed under this Code who also possess a current certification for ASSE Series 7000 (current edition), Professional Qualifications Standard for Residential Potable Water Fire Protection System Installers & Residential Fire Protection System Inspectors for One and Two Family Dwellings issued by American Society of Sanitary Engineering (ASSE) or other approved third party certification agencies with similar or more stringent qualifications.

To install Residential Multi-Purpose Fire Protection Systems the Plumbing Code Ordinance requires the installer to hold the appropriate license (Plumber or Master Plumber) as well as be certified by American Society of Sanitary Engineering (ASSE) or other approved third party certification agencies with similar or more stringent qualifications as an ASSE Series 7000 (current edition), Professional Qualifications Standard for Residential Fire Protection System Installers & Residential Fire Protection System Inspectors for One- and Two-Family dwellings and that certification be registered with the code official. All installations must be performed under the supervision of an appropriately licensed Master Plumber.

SECTION 118
USE AND RE-USE OF NON-POTABLE WATER WITHIN OR UPON A PREMISE

Clarification of requirements of other sections of this Code.

1. Grey water collected from plumbing drainage piping and used within a building for appropriate purposes i.e., water closets, urinals, trap primers, shall be installed as licensed and permitted by this Code by a licensed Master Plumber or a licensed Journeyman Plumber.

2. Reclaimed water delivered to a building site/ premises by a public reclaimed water distribution system's series of mains and appurtenances. The connection to that system, any treatment as needed, and the distribution of the reclaimed water, within the site shall be installed as licensed and permitted by this Code by a Licensed Master plumber, a licensed Journeyman Plumber or Master Drainlayer.

3. Rainwater collected from exterior downspouts to a collection container and the overflow from such container piped to a discharge point shall be installed as licensed and permitted by this Code by a Licensed Master Drainlayer.

Exception:

A) A Licensed Master Plumber or a licensed Journeyman Plumber may install any collection container within the property boundaries of the building.

B) For one and two family attached residential dwellings the homeowner is authorized to install a single tank of not more than sixty-five (65) gallons or a series of interconnected tanks, none of which is larger than sixty-five (65) gallons accumulating not more than two hundred (200) gallons.

4. Overflow authorized to discharge to public sewers and public waterways from all collection containers shall be piped as licensed and permitted by this Code by a licensed Master Drainlayer.

5. Any Rainwater drawn from a collection container or tank for use:

A) For plumbing devices and appurtenances shall be piped and installed as licensed and permitted by this Code by a licensed Master Plumber, Master Drainlayer, or a licensed Journeyman Plumber.

B) For stand-alone fire suppression, shall be used and installed as licensed and permitted by the Mechanical Code. The connection to the container and/or tank

shall be permitted by this Code by a licensed Master Sprinkler Fitter or licensed Journeyman Sprinkler Fitter.

C) For process piping shall be used and installed as licensed and permitted by the Mechanical Code. The connection to the container and/or tank shall be permitted by this Code by a licensed Master Pipe Fitter or licensed Pipe Fitter.

D) For irrigation, including the irrigation water piping, pumps and appurtenances, the connection to container or tank shall be used and installed as licensed and permitted by this Code. The connection to the container and/or tank shall be permitted by this Code by a licensed Master Plumber or a licensed Journeyman Plumber.

6. Any potable make-up water to any tank or container collecting storm water runoff, shall be protected by a backflow device or assembly per St. Louis City Plumbing Code and the potable water shall be piped and installed to that tank or container, as licensed and permitted by this Code by a licensed Master Plumber or a licensed Journeyman Plumber.

CHAPTER 2
DEFINITIONS

Chapter 2 of the 2021 Uniform Plumbing Code™ is amended by the following provisions. Each section in the UPC that corresponds to one of the following provisions is hereby deleted where so noted or amended to read as set forth below. Each section set forth below without a corresponding provision in the UPC is added thereto.

203.0 - A -

Addition. Is defined as an increase in building area, aggregate floor area, height or number of stories of a structure.

Additional Inspection. An inspection which is not a required inspection as defined in this Code but which in the judgment of the Code Official is reasonably necessary to enforce this Code or as an inspection which is required as a result of unusual or complicated construction and/or is defined as an inspection which is made as a result of non-compliance, not ready, lockout etc. See Extra Inspection. Fees for additional inspections shall be as specified in Table 107.11.3.

Alteration. Any construction or renovation to an existing structure other than repair or addition.

204.0 - B -

Backflow Device Installed. When potable water is connected to the inlet side and a potential backflow hazard is present at the outlet side of a backflow device.

Bedroom. A room furnished with a bed and intended primarily for sleeping.

Board. Board of Examiners for Master Plumbers, Master Drainlayers and Journeyman Plumbers.

Board of Appeals. The Board of Building Appeals as defined in the Building Code.

Board of Registration. The Missouri Board for Architects, Professional Engineers, Professional Land Surveyors, and Landscape Architects.

Boiler. See Water Heater Boiler Building Classification. The arrangement adopted by the Authority Having Jurisdiction for the designation of buildings in classes according to occupancy.

Building Code. The Building Code adopted by the City of St. Louis.

Building Drain. That part of the lowest piping of a drainage system which receives the discharge from soil, waste, and other drainage pipes inside the walls of the building and conveys it to the building sewer beginning five (5) feet (1525 mm) outside the building wall, or five (5) feet (1525 mm) beyond plumbing appliances, appurtenances or equipment installed outside the walls of the building such as but not limited to grease, oil, and sand interceptors.

Building Trap. A device, fitting, or assembly of fittings installed in the building drain to prevent circulation of air between the drainage system of the building and the building sewer.

205.0 - C -

Central Use Facility(s). A restroom facility or facilities designed and sized to accommodate the total occupant load of the building, located within the distance required by the Code for maximum access and meeting the requirements of the Code within its use category.

Certified Backflow Assembly Tester. A person who is certified by the Missouri Department of Natural Resources as a Backflow Prevention Device Tester and possesses a Backflow Prevention Device Tester Certificate issued pursuant to this Code for the particular application involved.

Certified in Plumbing Design (CPD). A person who has successfully completed the CPD examination as a part of the international certification program for

engineers and designers of plumbing systems and so designated by the American Society of Plumbing Engineers.

Code Authority/Code Official. The Director of Public Works of St. Louis City, Missouri or his duly authorized representative.

Committee. The Committee of Plumbing Code Review as created herein.

Containment. (Cross-connection) Protection of the public water system is obtained by installation of an approved backflow prevention assembly or air-gap separation at the user connection from the main service line(s).

Cross-Connection. Any actual or potential connection or structural arrangement, between a public or private potable water supply system and any other source or system through which it is possible to introduce into any part of the private or public water system any used water, industrial fluid, gas or substance other than the intended potable water with which the system is supplied. By-pass arrangements, jumper connections, removable sections, swivel or change-over devices through which or because of which, backflow can or may occur are considered to be cross-connections.

Cross-Connection, Direct. A continuous, enclosed interconnection or cross-connection to allow the flow of fluid from one system to the other.

Cross-Connection, Indirect. A potential cross-connection such that the interconnection is not continuously enclosed and the completion of the cross-connection depends on the occurrence of one or more abnormal conditions.

Cross-Connection, Isolation. Protection of the user water system by installation of an approved backflow prevention device or assembly at the point of connection between the user's water system and any device, equipment, appliance, appurtenance assembly or area which might constitute a real or potential cross-connection.

Customer. Any person who receives water from a public water system, except those persons receiving water for resale.

Customer Service Line. The pipeline from the public water system to the first tap, fixture, receptacle or other point of customer water use or to the first auxiliary water system or pipeline branch in a building.

Customer Water System. All piping, fixtures and appurtenances, including auxiliary water systems used by a customer to convey water on his/her premises.

206.0 - D -

Dead End. That part or branch of a drainage piping system, which is without a free circulation of air.

Direct Cross-Connection. A continuous, enclosed interconnection or cross-connection to allow the flow of fluid from one system to the other.

Disaster. A disaster shall include but not necessarily be limited to flood, tornado, severe storm, earthquake or similar type event. The Code Official shall make the determination whether an event shall be declared a disaster.

Downspout. The rain leader from the roof to the building storm drain, combined building sewer, or other means of disposal located outside of the building, or, the storm leader from the bridge drain to the storm drain, combined building sewer below ground, or the storm leader from the bridge drain to the storm drain, combined building sewer below ground.

207.0 - E -

Emergency. An event or occasion that requires immediate action in order to preserve or restore the public peace, health, safety or welfare.

Employee. A person, who produces a product or service, employed by another usually for wages or salary in a position below the executive level.

Engineer. An engineer registered or licensed to practice professional engineering in Missouri in accordance with the professional registration laws of the state of Missouri.

Extra Inspection. Is defined as an inspection, which is required as a result of unusual or complicated construction and/or is defined as an inspection, which is made as a result of non-compliance, not ready, lockout etc. An inspection, which is not a required inspection as defined in this Code but which in the judgment of the Code Official, is reasonably necessary due to non-compliance with Code requirements, or work not ready or accessible for inspection when requested. Fees for extra inspections shall be as specified in 107.11.3/ 107.11.4.

208.0 - F -

Facility. A single tract or contiguous tracts of land and any improvements on them, upon which one (1) or more service connections are located, and which, except for easements and public right-of-way, are wholly owned, leased or otherwise subject to the control of the customer.

Fixture Group. A set of fixtures within a room or rooms serving an individual or group of individuals at a unique single time.

Floor Area, Net. The actual occupied area not including unoccupied accessory areas such as corridors, stairways, toilet rooms, mechanical rooms and closets.

210.0 - H -

Health Department. The St. Louis City Department of Health.

211.0 - I -

Irrigation Backflow Assembly. An assembly consisting of a Reduced Pressure Zone Backflow Device and a properly sized Shock Arrestor located downstream and within 12 inches of the backflow device.

Isolation - (Cross-Connection). Protection of the user water system by installation of an approved backflow prevention device or assembly at the point of connection between the user's water system and any device, equipment, appliance, appurtenance assembly or area which might constitute a real or potential cross-connection.

215.0 - M -

Main & Branch System. The conventional method of water distribution system. This system utilizes a main to service several branches, which in turn service individual fixtures.

Manifold System.

1) The "home run" system utilizes a centrally located manifold to individually distribute supply lines to each fixture.

2) The "remote manifold" system utilizes a trunk or main, which services several small manifolds that in turn service individual fixtures.

Master License Disabled. Master licensee who is unable to obtain permits and receive inspections because an approved bond or the required insurance certificate, current phone and address on file is not correct, or the Master licensee is in arrears on any fees or charges owed St. Louis City.

Master License Enabled. Master licensee who is able to obtain permits, receive inspections and who has on file with approved bond and insurance certificate, current phone and address is on file with St. Louis City. The Master licensee shall not be in arrears on any fees and charges owed St. Louis City.

Master License Inactive. A Master licensee who has chosen to put his Master license inactive.

Mechanical Code. The Mechanical Code adopted by the City of St. Louis.

Minor Repairs. The term "minor repairs" shall be construed to mean repairs within the interior of any building to leaks in drains, pipes, traps and valves, opening waste or supply pipes, and traps or drains. It shall not be construed to include any work involving connections to or replacement or rearrangement of soil pipes, supply pipes, waste pipes, vent pipes or inside rain leader pipes, or the replacing or setting of any fixture, or replacement or repairs to Backflow Prevention Devices, pressure reducing or regulating valves, or any other installation, repair or alteration which in the judgment of the Chief Plumbing Inspector is of such a nature which if improperly installed, repaired or altered would endanger the public health. Exemption from the permit requirements of this Code shall not be deemed to grant authorization for any work to be done in violation of the provisions of this Code or any other laws or ordinances of this jurisdiction.

MSD. The Metropolitan St. Louis Sewer District.

Multiple Single-Family Dwelling. Wherever the term multiple single-family dwelling is used in this Code, it shall be construed to include two-family dwellings.

Multipurpose Residential Fire Protection Piping Systems. A piping system intended to serve all plumbing fixtures and fire protection needs.

216.0 - N -

Net Floor Area. The actual occupied area not including unoccupied accessory areas such as corridors, stairways, toilet rooms, mechanical rooms, and closets.

217.0 - O -

Office. The Office of the Section of Plumbing Regulations and Inspections.

Other Establishment. Any public or private structure other than a dwelling, which generates sewage.

218.0 - P -

Parallel Water Distribution System. A Parallel Water Distribution System usually refers to plastic pipe systems, usually PEX or PEX-AL-PEX systems that use a manifold in the system.

Plumbing System. Includes all potable water, building supply and distribution pipes, all plumbing fixtures and traps, all drainage and vent pipe(s), and all building drains and building sewers, including their respective joints and connection, devices, receptors, and appurtenances within the property lines of the premises, and shall include storm water drainage from all private and St. Louis City constructed bridges and structures in-

cluding bridge drains, and drainage piping to a connection with the storm or combined sewer, and shall include potable water piping, potable water treating or using equipment, water heaters, water heating boilers for potable water and vents for same, residential dishwasher replacement, multipurpose fire sprinkler systems.

Exclusion #1: The receiving, unloading, moving, storing, hoisting, setting, aligning and leveling of casework housing plumbing components, such as laboratory fume hoods and hospital headwall units, shall not be considered to be components of plumbing systems and shall not be subject to the licensing provisions of this Code.

Exclusion: Residential Fire Protection Systems, separate and independent from the water distribution system and protected by a backflow prevention assembly shall be considered to be a Stand-Alone Fire Sprinkler System. The Residential Fire Protection System is considered to be all piping, components, sprinklers, valves, etc. beyond the discharge side of the Potable Water Service and Potable Water Distribution System Valve as installed and permitted under the Mechanical Code.

Public Water System. A system for the provision to the public of piped water for human consumption, if such system has at least fifteen (15) service connections or regularly serves an average of at least twenty-five (25) individuals daily at least sixty (60) days per calendar year. Such system includes any collection, treatment, and storage or distribution facilities used in connection with such system.

219.0 - Q -

Quick Closing Valve. A fast-action solenoid valve, spring loaded self-closing faucet, push-pull type valves and faucets, or any other device capable of instantaneously closing.

220.0 - R -

Rainwater Harvesting. A technology used to collect, convey, and store rain from relatively clean surfaces such as a roof, land surface or rock catchment for later use.

Re-inspection. See Extra Inspection.

Required Inspection. An inspection which falls within the minimum number of inspections required by this Code.

Roof Drain. A drain installed to receive water collecting on the surface of a roof and to discharge it into a leader, down spout, or conductor. Roof drain includes sump receivers, clamps, grates, sumps, extensions, hangers, supports and all other appurtenances necessary for its function, security and stability.

Roughing-In. The installation of all parts of the plumbing system, which can be completed prior to the installation of fixtures. This includes drainage, water supply, gas piping, and vent piping and the necessary fixture supports.

1. Ground Rough In. All underground piping, which shall include waste, vent, and distribution piping.

2. Stack Rough In. All waste, vent and distribution water supply lines above ground.

221.0 - S -

Sanitary Sewer. A sewer, which carries sewage and excludes storm, surface, and ground water.

Service Connection. Any water line or pipe connected to a water distribution main or pipe for the purpose of conveying water to a point of use.

Sewer District. The Metropolitan St. Louis Sewer District (MSD) or private sewer company having jurisdiction in the location where work is to be performed.

Standpipe. A vertical pipe generally used for the storage and distribution of water for fire extinguishing.

Strapped Plumbing. A plumbing scheme where drain piping from upper floors is supported just below floor joists of lowest floor providing gravity flow to public or private sewer and exits the building through a wall penetration.

Street Department. The City of St. Louis Street Department.

225.0 - W -

Water Customer. Any person who receives water from a public water system.

Water Distribution System. All piping, conduits, valves, hydrant, storage facilities, pumps and other appurtenances, excluding service connections, which serve to deliver water from a water treatment plant or water supply source to the public.

Water Service Pipe/Building Supply. The pipe from the water main or other source of potable water supply, including the corporation, and meter (if installed), to the water distributing system of the building served.

Water System. All sources from which water is derived for drinking or domestic use by the public, also all structures, conduits and appurtenances by means of which water for use is treated, stored or delivered to

consumers, except service connections from water distribution systems to buildings and plumbing within or in connection with buildings served.

Water Supply Source. All sources of water supply including wells, infiltration galleries springs, reservoirs, lakes, streams or rivers from which water is derived for public water systems, including the structures, conduits, pumps and appurtenances used to withdraw water from the source or to store or transport water to the water treatment facility or water distribution system.

Welded Joint or Seam. Any joint or seam obtained by the joining of metal or plastic parts in the plastic molten state.

Welder, Pipe. A person who specializes in the welding of pipes and holds a valid certificate of competency from a recognized testing laboratory, based on the requirements of the ASME Boiler and Pressure vessels code, Section IX for metal pipe and/or based on the requirements of the AWS B2.4 Specification and /or Plastics-Pipe-Institute (PPI), Generic Butt Fusion Joining Procedure for Field Joining of Polyethylene Pipe for Welding Procedure and Performance Qualification for Thermoplastics.

CHAPTER 3
GENERAL REGULATIONS

Amendments to The Uniform Plumbing Code™ - Chapter 3 - General Regulations. — Chapter 3 of the 2021 Uniform Plumbing Code™ is amended by the following provisions. Each section in the UPC that corresponds to one of the following provisions is hereby deleted where so noted or amended to read as set forth below. Each section set forth below without a corresponding provision in the UPC is added thereto.

301.2.5 Existing Buildings. In existing buildings or premises in which plumbing installations are to be altered, repaired, or renovated, the Authority Having Jurisdiction has discretionary powers to permit deviation from the provisions of this Code, provided that such proposal to deviate is first submitted for proper determination in order that health and safety requirements, as they pertain to plumbing, shall be observed.

1. Reuse of Water Service.

(A) Existing water service may be used in connection with new buildings or new plumbing and drainage work only when they are found on examination and test to conform in all respects to the requirements governing new work and the proper Authority Having Jurisdiction shall notify the owner to make any changes necessary to conform to this Code. No building or part thereof shall be erected or placed over any part of a water service, which is constructed of materials other than those approved elsewhere in this Code for use under or within a building.

(B) For alterations and additions to a building with an existing 3/4" size water service:

(1) For the installation of an additional 9 WSFU's which then results in an existing residential or commercial building to total no more than 2½ baths and a maximum total of 31 WSFU's the 3/4" size water service shall be allowed to remain with no change.

(2) For the installation adding more than 9 WSFU's or totaling more than 31 WSFU's, the 3/4" size water service shall be replaced and sized in accordance with the provisions of Chapter 6 of this Code.

301.5.3 Design Documents. The registered professional engineer shall provide four (4) complete sets of signed and sealed documents for the alternative engineered design for submittal to the Authority Having Jurisdiction. The design documents shall include at a minimum, a floor plan and a riser diagram of the work. Where appropriate, the design documents shall indicate the direction of flow, all pipe sizes, grade of horizontal piping, loading and location of fixtures and appliances.

310.5 Obstruction of Flow. No fitting, fixture and piping connection, appliance, device, or method of installation that obstructs or retards the flow of water, wastes, sewage, or air in the drainage or venting systems, in an amount greater than the normal frictional resistance to flow, shall be used unless it is indicated as acceptable in this Code or is approved per Section 301.2 of this Code. The use of an automatic air vent type fitting is prohibited. The enlargement of a three (3) inch (80 mm) closet bend or a stub to four (4) inches (100 mm) shall not be considered an obstruction.

311.0 Independent Systems.

311.1 General. The drainage system of each new building and of new work installed in an existing building shall be separate and independent from that of any other building, and, where available, every building shall have an independent connection with a public or private sewer.

Exception: Where one building stands in the rear of another building on an interior lot, and no private sewer is available or can be constructed to the rear building through an adjoining court, yard, or driveway, the building drain from the front building shall be permitted to be extended to the rear building. The

General requirements for building drains and building sewers serving single service Fats, Oil, or Grease (FOG) generating facilities. (See drawing # 20 in appendix O)

1. Commercial Units.

(A) Separation of sanitary, and FOG building drains exiting the building.

(1) All sanitary, and FOG building drains shall exit the building separately and shall be combined in a sampling manhole prior to leaving the property. Storm Drains shall exit the property separately where conditions allow.

Exception: Where the footprint of the building on the property does not provide adequate clearance for this installation it shall be installed inside the building. Access from the outside shall be provided for this installation.

2. One, Two & Four Family Residential (A) Separate FOG building drain not required.

311.2 General. General requirements for building drains and building sewers serving multi-tenant one- and two-story buildings (also called strip stores). (See drawing # 20 in appendix M).

1. There shall not be installed within the building structure a common drain to all tenant units. Each tenant will have installed an independent connection with a private sewer through a sampling tee. The private sewer will be located a minimum of five feet (5') from the building and a minimum of five feet (5') from the property line.

2. If the tenant is a FOG generating facilities there shall be a separate FOG building drain.

(A) All grease generating appliances and all fixtures collecting FOG laden waste shall pass through a hydromechanical grease interceptor (HGI) before connection to the separate FOG building drain.

Exception: Strip stores and/or commercial plumbing installations as shown in Drawing 21 46, containing a maximum of 75 gpm (maximum 4-inch diameter outlet) discharge from the hydromechanical interceptor may be routed to the common sanitary drain within three (3) feet of the exterior foundation wall and prior to exiting the building.

3. Waste drain lines from garbage disposals, dishwashers and pre-rinse sinks, before entering a grease interceptor, shall first flow through a solids interceptor.

312.3 Building Sewer and Drainage Piping. No building drain or other drainage piping or part thereof, constructed of materials other than those approved for use under or within a building, shall be installed, or less than one (1) foot (305 mm) below the surface of the ground. No building sewer or drainage piping or part thereof, shall be installed under or within five (5) feet (1524 mm) of any building or structure nor less than thirty (30) inches (760 mm) below the surface of the ground.

Exception: Transition from all drainage thirty (30) inches (760 mm) below the surface of the ground to the building sewer at a maximum of forty-five (45°) degrees.

312.13 Exposed ABS Piping. ABS piping shall not be exposed to direct sunlight.

Exception:

(1) ABS piping exposed to sunlight that is protected by water based synthetic latex paints.

(2) ABS piping exposed as vent termination pipe through roof.

312.14 Exposed PVC Piping. PVC piping shall not be exposed to direct sunlight.

Exceptions:

(1) PVC piping exposed to sunlight that is protected by water based synthetic latex paints.

(2) PVC piping wrapped with not less than 0.04 inch (1.02 mm) thick tape or otherwise protected from UV degradation.

(3) PVC piping exposed as vent termination pipe through roof.

314.2 Tunneling and Driving. Driving may be done in yards, courts, or driveways of any building site. When pipes are driven, the drive pipe shall be at least one (1) size larger than the pipe to be laid. Tunneling is not allowed.

314.4.2 Welding Thermoplastic Pipe and Fittings. Plastic pipe and fittings designed to be joined by thermoplastic welding processes used for owner and/or operator installed gas transmission mains and for other applications such as Gas Service Lines and Gas Mains, Domestic Water Mains and Potable Water Service Lines shall comply with AWS B2.4 Specification and/or Plastic-Pipe-Institute (PPI), Generic Butt Fusion Joining Procedure for Field Joining of Polyethylene Pipe, for Welding Procedure and Performance Qualification for Thermoplastics.

Welding shall be performed by certified or qualified installers meeting the requirements of AWS B2.4, Individual Manufacturer Qualifications under the regulations of PPI, qualifications given by material distributor or manufacturer, or certification or qualification issued by owner. Qualification by Manufacturers will

last for the duration of one (1) year from time qualified unless installer has used the proceeded within the time allotted (determined by individual manufacturer.) The one (1) year qualification for a refresher course will commence from the date of the refresher course.

321.0 Parking Garages.

321.1 Parking Structures Drainage. Drainage systems for parking structures shall be designed and installed in the following manner:

1. Drainage systems for roofs and all uncovered areas shall discharge into the storm sewer in a manner prescribed by this Code (See "6").

2. Drainage systems for intermediate floor areas and all other covered areas shall discharge into the sanitary sewer in a manner prescribed by this Code (See "5" & "6").

3. Floor drains for parking structures, in parking areas, need not be trapped.

4. Sanitary drains shall discharge through sand and oil interceptors. The oil interceptor shall be located on the outside of the building.

5. All storm and sanitary piping that connect to sanitary or combination sewers shall be trapped prior to connection to the sewer.

6. Drainage and vent systems installed in parking structures shall not be interconnected with internal sanitary systems.

7. All drainage lines, sanitary and storm, shall be routed through inspection manhole prior to connection to sewer main or other approved discharge.

322.0 Hospitals and Ambulatory Care Facilities and Nursing Homes. All plumbing facilities shall comply with the Missouri Licensing Law Regulations and Codes for Hospitals and Ambulatory Care Facilities and Nursing homes.

322.1 Water Heating Equipment.

1. The water heating equipment shall have sufficient capacity to supply six and one half (6-1/2) gallons of water at one hundred ten (110) degrees Fahrenheit per hour per bed for fixtures; four (4) gallons of water at one hundred and twenty (120) degrees Fahrenheit per hour per bed for kitchens, and four and one half (4-1/2) gallons of water at one hundred and sixty (160) degrees Fahrenheit per hour per bed for laundry. The rinse water temperature of automatic ware washing equipment shall be one hundred and eighty (180) degrees Fahrenheit.

2. Such water heating equipment may be of the instantaneous, semi-instantaneous, flash or storage type. Where direct fired water heaters are used, they shall be of an approved high-pressure type. Submerged steam heating coil shall be of copper. All water heating equipment shall be fabricated of non-corrosive metal or lined with non-corrosive material.

CHAPTER 4
PLUMBING FIXTURES

Amendments to the Uniform Plumbing Code™ - Chapter 4 - Plumbing Fixtures. Chapter 4 of the 2021 Uniform Plumbing Code™ is amended by the following provisions. Each section in the UPC that corresponds to one of the following provisions is hereby deleted where so noted or amended to read as set forth below. Each section set forth below without a corresponding provision in the UPC is added thereto.

406.1 Water and Waste Connections. Baptisteries, ornamental and lily ponds, aquaria, ornamental fountain basins, and similar fixtures and specialties requiring water and/or waste connections shall have adequate backflow and back-siphonage protection and shall be submitted for approval to the Authority Having Jurisdiction prior to installation.

406.2 Special Use Sinks. Restaurant kitchen and other special use sinks may be made of approved type bonderized and galvanized sheet metal of not less than No. 16 U.S. Grade (0.0625) (1.6 mm) and stainless steel of approved quality and grade. All sheet metal plumbing fixtures shall be adequately designed, constructed, and braced in an approved manner to satisfactorily accomplish their intended purpose.

412.1.1 Nonwater Urinals. When Approved with Authority Having Jurisdiction. Nonwater urinals shall have a liquid barrier sealant to maintain a trap seal. Nonwater urinals shall permit the uninhibited flow of waste through the urinal to the sanitary drainage system. Nonwater urinals shall be cleaned and maintained in accordance with the manufacturer's instructions after installation. Where nonwater urinals are installed, not less than one water supplied fixture rated at not less than 1 water supply fixture unit (WSFU) shall be installed upstream on the same drain line to facilitate drain line flow and rinsing. Where nonwatery urinals are installed, they shall have a water distribution line rough-in to each individual urinal location to allow for the installation of an approved backflow prevention device in the event of a retrofit.

412.1.2 Nonwater Urinals with Drain Cleansing Action. When Approved with Authority Having Jurisdic-

tion Nonwater urinals with drain cleansing action shall comply with ASME A112.19.19 and shall be cleaned, maintained, and installed in accordance with the manufacturer's installation instructions.

418.3 Location of Floor Drains. Floor drains shall be installed in the following areas:

(1) All toilet rooms designated as handicapped, and toilet rooms containing two or more water closets or a combination of one water closet and one urinal, except in a dwelling unit.

(2) Commercial kitchens and in accordance with 8 Section 704.3.

(3) Laundry rooms in commercial and institutional buildings and common laundry facilities in multifamily dwelling buildings.

(4) Boiler rooms.

(5) Commercial and Institutional Kitchens.

(6) Toilet rooms designated for Public Use.

(7) Within fifteen (15') feet and in the same room as a hot water heater or water heater boiler.

(8) Within fifteen (15') feet and in the same room as backflow devices which have received approval from the Mo DNR, which have in their design the capability of a discharge.

(9) All wheel chair accessible roll-in showers shall be supplied, in addition to the shower drain, with a threshold drain outside the shower within 5 feet of the shower drain, whenever a threshold or obstacle to natural drainage to the shower drain exists. Where the drain is required, the waste line of the threshold drain shall be connected to the shower drain waste pipe above the trap.

(10) When required by owner or designer, a floor drain shall be installed within five feet of the mop basin drain, and the waste line of that drain shall be connected to the mop basin drain waste pipe above the trap.

(11) All basements with or without fixtures shall require a floor drain.

418.3.15 Floor Drains and Floor Sinks Installed. Floor drains and floor sinks shall be installed in accordance with the provisions set forth in this Code and in the manner set forth hereunder:

A. A connection for a floor drain at the automatic clothes washer above ground may be discharged directly into the riser-pipe (standpipe) above the trap of the automatic clothes washer drain and the floor drain need not be trapped.

B. Underground traps three inches (3") in diameter and larger for floor drains, hub drains or standpipe receptors need not be vented if sufficient stack vents or vent stack are connected to the underground system to ensure adequate ventilation and protection of the trap seals.

C. Traps two inches (2") in diameter installed for floor drains, hub drains and standpipe receptors shall be individually vented.

D. The connection of a floor drain, three (3") or four (4") inches in size when installed underground shall be connected into the horizontal building drain not less than five (5') feet downstream from the soil or waste stack.

E. Floor sinks being used as indirect waste receptors for plumbing fixtures or appliances shall be individually wasted and vented in accordance with the provisions established in this Code.

F. Floor sinks, three (3") inch trap size and larger, being used as indirect waste receptors for drip drainage and other similar discharges may be either individually vented or line vented in accordance with the provisions established in this Code.

423.0 Food Service Establishments. Food service establishments with an occupant load of one hundred (100) or more shall be provided with separate facilities for employees and customers. Customer and employee facilities may be combined for occupant loads less than one hundred (100). Customer occupant load shall be determined as one occupant per each 15 square foot or part thereof, of dining and waiting area. Where outdoor seating is provided for a restaurant, the actual outdoor seating area shall be included in the total occupant load area for the restaurant. When separate facilities are required for employees and customers and the total number of employees exceeds 40 at any time, a second toilet room shall be provided for employees and such toilet rooms shall be uni-sex. Employee toilet rooms do not require physically disabled accessibility if other facilities in this establishment are available which meet physically disabled accessibility requirements.

MINIMUM PLUMBING FACILITIES

Each building shall be provided with sanitary facilities, including provisions for persons with disabilities as prescribed by the Department having jurisdiction. Table 422.1 applies to new buildings, additions to a building, and changes of occupancy or type in an existing building resulting in increased occupant load.

Exception: New cafeterias used only by employees. For requirements for the physically disabled, ICC/ANSI A117.1, Accessible and Usable Buildings and Facilities, may be used. Access to public toilet facilities shall not be areas used by employees preparing food or areas used for the repair or assembly of products obtained or consumed by customers, or storage rooms, or mechanical equipment rooms.

Exceptions:

1. Where outdoor seating is provided for a restaurant, the actual outdoor seating area shall be included in the total occupant load for the restaurant.

2. Re-occupancy with no change of use may require a change in the number of fixtures due to increase in occupant load or re-configuration of the space.

Notes:

1. The figures shown are based upon one (1) fixture being the minimum required for the number of persons indicated or any fraction thereof.

2. Building categories not shown on this table shall be considered separately by the Authority Having Jurisdiction.

3. Drinking fountains shall not be installed in toilet rooms.

4. Laundry trays. One (1) laundry tray or one (1) automatic washer standpipe for each dwelling unit or one (1) laundry tray or one (1) automatic washer standpipe, or combination thereof, for each twelve (12) apartments. Kitchen sinks, one (1) for each dwelling or apartment unit.

5. For each urinal added in excess of the minimum required, one (1) water closet may be deducted. The number of water closets shall not be reduced to less than two-thirds (2/3) of the minimum requirement.

6. As required by PSAI Z4.1, Sanitation in Places of Employment.

7. Where there is exposure to skin contamination with poisonous, infectious, or irritating materials, provide one (1) lavatory for each five (5) persons.

8. Twenty-four (24) lineal inches (610 mm) of wash sink or eighteen (18") inches (457 mm) of a circular basin, when provided with water outlets for such space, shall be considered equivalent to one (1) lavatory.

9. Laundry trays, one (1) for each fifty (50) persons. Service sinks, one (1) for each hundred (100) persons.

10. General. In applying this schedule of facilities, consideration shall be given to the accessibility of fixtures. Conformity purely on a numerical basis may not result in an installation suited to the need of the individual establishment. For example, schools shall be provided with toilet facilities on each floor having classrooms, for students and for teachers.

(A) Surrounding materials, wall and floor space to a point two (2) feet (610 mm) in front of urinal lip and four (4') feet (1,219 mm) above the floor, and at least two (2) feet (610 mm) to each side of the urinal shall be lined with non-absorbent materials.

(B) Trough urinals are prohibited.

(C) Waterless urinals are prohibited.

11. A restaurant is defined as a business which sells food to be consumed on the premises.

(A) The number of occupants for a drive-in restaurant shall be considered as equal to the number of parking stalls.

(B) Employee toilet facilities are not to be included in the above restaurant requirements. Hand washing facilities shall be available in the kitchen for employees.

(C) For a drive-thru or take-out restaurant with seating, not to exceed twenty (20) customers, toilet facilities shall be provided available to customers and employees. A minimum of one (1) toilet room consisting of one (1) water closet, one (1) lavatory, and one (1) floor drain shall be available to customers.

(D) For a drive-thru restaurant or take-out with no seating, toilet facilities are required for employees only.

(E) For a facility dispensing fuel to the public which offers food and drink in a structure larger than seven hundred fifty (750) square feet, toilet facilities for male and female shall be provided available to customers and to employees.

(1) Where there are more than twelve (12) but less than twenty-three (23) fuel dispensing stations available, there shall be provided for the male toilet room two (2) water closets, one (1) urinal, one (1) lavatory, and one (1) floor drain and there shall be provided for the female toilet room three (3) water closets, one (1) lavatory, and one (1) floor drain.

(2) For each additional ten (10) fuel dispensing stations there shall be provided for the male toilet room an additional one (1) water closet or urinal, and one (1) lavatory, and there shall be provided for the female toilet room an additional one (1) water closet, and one (1) lavatory.

12. Where food is consumed indoors, water stations may be substituted for drinking fountains. Offices

or public buildings for use by more than six (6) persons shall have one (1) drinking fountain for the first one hundred fifty (150) persons and one (1) additional fountain for each three hundred (300) persons thereafter. At least one (1) drinking fountain of those required shall be located within twenty-five (25) feet of the entrance to the primary toilet room on any floor.

13. There shall be a minimum of one (1) drinking fountain per occupied floor in schools, theaters, auditoriums, dormitories, offices or public building.

14. The total number of water closets for females shall be at least equal to the total number of water closets and urinals provided for men. This requirement does not apply to retail or wholesale stores. For any facility which undergoes major renovation as a place of assembly for public amusement including, but not limited to, sports stadiums, arenas, auditoriums and assembly halls, there should be provided, at a minimum, the number of water closets for women as there are provided the total number of water closers and urinals for men. The term "major renovation" means any reconstruction, rehabilitation, addition or other improvement which increases the occupant load of the building by more than 20%.

15. For smaller-type Public and Professional Offices such as banks, dental offices, law offices, real estate offices, architectural offices engineering offices and similar uses. A public area in these offices shall use the requirements for Retail or Wholesale Stores.

16. Recreation or community room in multiple dwellings or apartment buildings, regardless of their occupant load, shall be permitted to have single-accommodation facilities in common use areas within tracts or multi-family residential occupancies where the use of these areas is limited exclusively to owners, residents and their guests. Examples are community recreation or multi-purpose areas in apartments, condos, townhouses or tracts.

17. A drinking fountain shall not be required in occupancies of 30 or less. When a drinking fountain is not required, then footnotes 3, 12 and 13 are not required.

18. Provide one service sink per floor. Provide one (1) service sink per structure or per wing.

19. Provide one (1) service sink per floor in facilities over Five Thousand Five Hundred (5500) square feet.

20. Provide a minimum of one (1) exterior hose bibb on all buildings.

CHAPTER 5
WATER HEATERS

Amendments to The Uniform Plumbing Code™ - Chapter 5 - Water Heaters. Chapter 5 of the 2021 Uniform Plumbing Code™ is amended by the following provisions. Each section in the UPC that corresponds to one of the following provisions is hereby deleted where so noted or amended to read as set forth below. Each section set forth below without a corresponding provision in the UPC is added thereto.

501.2 Any system with a new or a replacement water heating apparatus requiring a pressure reducing valve or a closed system shall be provided with an approved, listed and adequately sized thermal expansion device (expansion tank), installed within ten (10) feet of, and on the cold water supply to the water heater, between the water heater shut-off valve and the water heater, at least 18 inches away from the cold-water inlet fitting on the water heater. The tank may be installed in a vertical up, vertical down, or horizontal position in accordance with the 20 manufacturer's recommendation. If the expansion tank is installed horizontally, it must be adequately supported. No support shall be provided from the water heater.

This expansion tank meets the requirements in 608.2 regarding protection from thermal expansion and maintenance of pressure setting of the regulator.

The measured static building pressure, and the pressure at which the expansion tank has been set shall be written in ink on a permanent durable type label (equal to an Avery #AVE6578 2" × 2- 3⅝" Label) attached to the expansion tank in a visible location. Shut-off valves for water heaters shall be installed in view of, within 10 feet of, within easy reach from the ground, and shall be readily accessible No shutoff shall be installed on the branch to the expansion tank.

The expansion tank shall be installed in such a manner that the removal or replacement of the water heater is not impaired.

Exceptions:

1. Engineered systems that provide equivalent protection may be approved by the Authority Having Jurisdiction or his/her representative.

2. Listed non-storage instantaneous heaters having an inside diameter of not more than three (3") inches (76 mm).

3. Water heaters, 30 gallon or less, installed under counter or in confined spaces in multi-family units, where space does not permit the installation of an

expansion tank, adequately sized mechanical water hammer arrestors may be used to provide for thermal expansion with the approval of the Authority Having Jurisdiction or his/her representative.

507.5 Drainage Pan. When a water heater is located in an attic, attic-ceiling assemble, floor ceiling assemble, or floor-subfloor assembly, or furred space, or above the ground or basement level and does not have a floor drain available, where damage may result from a leaking water heater, a watertight safe pan of corrosion-resistant materials shall be installed beneath the water heater and shall be laid on or be supported by a structurally sound base to ensure proper drainage.

The drain from the pan shall discharge to a non-concealed point of disposal to alert occupants in the event of a leak.

The pan shall have a minimum depth of 2 inches (51 mm) and shall be of such shape and capacity as to prevent splashing or flooding and shall be made watertight. The pan shall not be less than 3 inches (76 mm) larger than the unit in width and length. Metallic pans shall have a minimum thickness of not less than 0.0276-inch (0.7 mm) galvanized sheet metal. Non-metallic pans shall have a minimum thickness of not less than 0.0625 inch (1.6 mm). Non-metallic safe pans shall be permitted to be used only with electric water heaters. Pan shall have a 1 inch (25.4 mm) minimum tapping and increase to a 1-1/4-inch (31.8 mm) diameter drain made of galvanized steel, copper, brass, solid core PVC or CPVC which terminates and discharges through an air gap or air break into a properly trapped and vented, receptor, hub drain, floor drain or floor drain with a funnel grate, or to an approved location. Such piping shall maintain a minimum horizontal slope in the direction of discharge of not less than one-eighth unit vertical in 12 units horizontal (1-percent slope). Every passageway to an attic water heater shall have an unobstructed solid continuous flooring not less than twenty-four (24") inches (610 mm) wide from the trap door or opening to the water heater. If the trap door or opening is more than eleven (11') feet (3352 mm) above the floor, a stairway or ladder permanently fastened to the building shall be provided. Such stairway or ladder shall lead directly to the edge of the trap door or opening and shall comply with the provisions of this section.

Exception: A portable ladder may be used for access for water heaters in attics on the single story portion of a Group U, Division 1 or R occupancy.

508.5 Relief Valve Discharge. Discharge from a relief valve into a water heater pan is permitted.

CHAPTER 6
WATER SUPPLY AND DISTRIBUTION

Amendments to The Uniform Plumbing Code™ - Chapter 6 - Water Supply And Distribution — Chapter 6 of the 2021 Uniform Plumbing Code™ is amended by the following provisions. Each section in the UPC that corresponds to one of the following provisions is hereby deleted where so noted or amended to read as set forth below. Each section set forth below without a corresponding provision in the UPC is added thereto.

601.1.2 Temperature Maintenance. Where Required - Heated water distribution systems in buildings, where developed length of heated water piping from the source of the heated water to the farthest fixture exceeds hundred (100') feet, shall maintain heated water temperature in all supply piping to within twenty-five (25') feet of any heated water outlet.

603.2 Approval of Devices or Assemblies. Before a device or an assembly is installed for the prevention of backflow, it shall have first been approved by Missouri Department of Natural Resources. Devices or assemblies shall be tested in accordance with recognized standards or other standards acceptable to the Authority Having Jurisdiction. Backflow prevention devices and assemblies shall comply with Table 603.2, except for specific applications and provisions as stated in Section 603.5.1 through Section 603.5.20.

Devices or assemblies installed in a potable water supply system for protection against backflow shall be maintained in good working condition by the person or persons having control of such devices or assemblies. Such devices or assemblies shall be tested at the time of installation, repair, or relocation and not less than on an annual schedule thereafter, or more often where required by the Authority Having Jurisdiction. Where found to be defective or inoperative, the device or assembly shall be repaired or replaced.

No device or assembly shall be removed from use or relocated, or other device or assembly substituted, without obtaining an approved permit.

Testing or maintenance shall be performed by a certified backflow assembly tester or repairer in accordance with ASSE Series 5000 or otherwise approved by the Authority Having Jurisdiction.

603.4 General Requirements. All assemblies shall conform to listed standards and be acceptable to the

Authority Having Jurisdiction over the selection and installation of backflow prevention assemblies. In addition to the standards for approval established elsewhere in this Code all Reduced Pressure Principal Backflow Prevention Assemblies and Double Check Valve Backflow Prevention Assemblies of any nature shall have the approval of the American Society of Sanitary Engineering, University of Southern California Foundation for Cross Connection Control and Hydraulic Research, and the Missouri Department of Natural Resources.

603.4.6 Integral Backflow Preventers. Fixtures, appliances or appurtenances with integral backflow preventers or integral airgaps manufactured as a unit shall be installed in accordance with their listing requirements, the manufacturers' instructions and as acceptable by the Authority Having Jurisdiction.

603.4.8 Drain Lines. Drain lines serving backflow devices or assemblies shall be sized in accordance with the discharge rates of the manufacturer's flow charts of such devices or assemblies. and a floor drain be installed within fifteen (15') feet and in the same rooms backflow devices or assemblies which have received approval from the Mo DNR, which have in their design the capability of a discharge.

603.5.6 Protection from Lawn Sprinklers and Irrigation Systems. Potable water supplies to systems having no pumps or connections for pumping equipment, and no chemical injection or provisions for chemical injection, shall be protected from backflow by the following device:

(1) Reduced-pressure principle backflow prevention assembly (RP)

603.5.6.2 Systems with Backflow Devices. Where systems have a backflow device installed downstream from a potable water supply pump or a potable water supply pump connection, the device shall be:

(1) Reduced-pressure principle backflow prevention assembly (RP)

603.5.8 Water-Cooled Equipment. Water-cooled compressors, degreasers, or other water-cooled equipment shall be protected by a listed Reduced Pressure Zone backflow preventer installed in accordance with the requirements of this chapter.

603.5.9 Aspirators. Water inlets to water-supplied aspirators shall be equipped with a vacuum breaker or equipped with a listed Reduced Pressure Zone Backflow Preventer installed in accordance with its listing requirements and this chapter. The discharge shall drain through an air gap. Where the tailpiece of a fixture to receive the discharge of an aspirator is used, the air gap shall be located above the flood-level rim of the fixture.

603.5.10 Steam or Hot Water Boilers. Potable water connections to steam or hot water boilers shall be protected from backflow by a reduced pressure principle backflow prevention assembly in accordance with Table 603.2. Where chemicals are introduced into the system a reduced pressure principle backflow prevention assembly shall be provided in accordance with Table 603.2.

603.5.16 Special Equipment. Portable cleaning equipment, dental vacuum pumps and chemical dispensers shall be protected from backflow by an air gap, or a reduced pressure principle backflow preventer.

603.5.18 Pure Water Process Systems. The water supply to a pure water process system, such as dialysis water systems, semiconductor washing systems, and similar process piping systems, shall be protected from backpressure and back siphonage by a reduced-pressure principle backflow preventer.

Exception: Portable dialysis equipment meant for use in a private residence. The equipment shall be protected by using a 316 stainless steel, corrosion resistant, double check with an atmospheric port, ASSE 1022, NSF Standard 18, (vented backflow preventer), or air gap as a means of backflow prevention in lieu of a Reduced Pressure Zone Backflow Preventer.

603.5.22 Installation of Backflow Preventers.

1. No person except those qualified, licensed and/or registered and bonded under this Code shall install a Backflow Prevention Device.

2. A permit is required for the installation of all Reduced Pressure Principle Backflow Prevention Devices and Double Check Valve Assembly Backflow Prevention Devices. Permits shall be issued and inspections performed by the plumbing section of the Department of Public Works. Permits shall be issued only to those contractors who are licensed and/or registered and bonded under this Code.

3. All backflow prevention devices shall be accessible. Backflow prevention devices shall not be installed in pits or similar potentially submerged locations or in fume, chemical or fuel hoods, or in any area containing fumes that are toxic, poisonous or corrosive.

4. Pressure type vacuum breakers shall be installed at a height of at least twelve (12) inches above the flood level rim of the fixture, tank, or similar device or assembly.

5. Double check valves and reduced pressure principle valves such devices or assemblies shall be installed at not less than twelve (12) inches above the grade, floor or platform with the maximum of sixty (60) inches above floor. They shall not be installed within access panels, over any machinery or equipment, or in any location, which might create a safety, hazard to those employed in testing and maintenance of these devices or assemblies.

6. Installation shall meet current Missouri Department of Natural Resources Regulations and St. Louis City Current Plumbing Code Ordinance. Where a conflict occurs between this Chapter and Missouri Department of Natural Resources the more stringent requirement shall apply.

603.5.23 Backflow devices shall be installed on the water supply from a community water system to a building, when the use of the building changes to a use that requires containment under this regulation, and/or when any potable or non-potable water is provided within the new or existing building.

604.2.2 Lead Water Services. All damaged lead water services, residential and/or commercial, shall be entirely replaced with copper or other acceptable material.

604.3 Copper or Copper Alloy Tube. Copper or copper alloy tube for water piping shall have a weight of not less than Type L.

Exception: Type M copper or copper alloy tubing shall be permitted to be used for water piping where piping is above ground in, or on a building.

Material	Underground		Water Distribution Pipe and Fittings (Inside Building)		Building Supply Pipe and Fittings Water Service - (Outside Building)

Note: [1] Downstream from Pressure Reducing Valve2

604.10 Plastic Materials. Approved plastic materials shall be permitted to be used in water service piping, provided that where metal water service piping is used for electrical grounding purposes, replacement piping therefore shall be of like materials.

Exception 1: Where a grounding system acceptable to the Authority Having Jurisdiction is installed, inspected, and approved, metallic pipe shall be permitted to be replaced with nonmetallic pipe.

Exception 2: When plastic pipe is being installed in construction of water service pipe, the plastic pipe shall

terminate ten (10') feet outside the building foundation wall. The metallic pipe allowed by this section shall be installed from ten (10') feet outside the foundation to and within the building to the outlet of the house valve or the outlet of the PRV whichever is further from the entrance to the building. Protection from electrolysis (corrosion) shall be provided. Where metal water service piping is used for electrical grounding purposes, replacement piping therefor shall be of like materials.

604.10.2 Lead Water Service(s). All damaged lead water services, residential and/or commercial, shall be entirely replaced with copper or other acceptable approved materials.

604.13 Water Heater Connectors. Flexible metallic (copper and stainless steel) reinforced flexible braided stainless steel, or polymer braided with EPDM cores connectors that connect a water heater heating to the piping system shall comply with ASME A112.18.6/ CSA B125.6. Copper, copper alloy, or stainless steel flexible connectors shall not exceed 24 inches (610 mm). PEX, PEX-AL-PEX, PE-AL-PE, PE-RT tubing or CPVC tubing shall not be installed within the first 18 inches (457 mm) of piping connected to a water heater.

605.12.2 Solvent Cement Joints. Solvent cement joints for PVC pipe and fittings shall be clean from dirt and moisture. Pipe shall be cut square and pipe shall be deburred. Where surfaces to be joined are cleaned and free of dirt, moisture, oil, and other foreign material, primer shall be applied in accordance with ASTM F656. Primer shall be applied until the surface of the pipe and fitting is softened. Primer shall not be purple. Solvent cements in accordance with ASTM D2564 shall be applied to all joint surfaces. Joints shall be made while both the inside socket surface and outside surface of pipe are wet with solvent cement. Hold joint in place and undisturbed for 1 minute after assembly.

606.2 Fullway Valve. A fullway stop and waste valve controlling outlets shall be installed on the service entrance. Water piping supplying more than one building on one premises shall be equipped with a separate fullway stop and waste valve to each building, so arranged that the water supply can be turned on or off to an individual or separate building provided; however, that supply piping to a single-family residence and building accessory thereto shall be permitted to be controlled on one valve. Such shutoff valves shall be accessible. A fullway valve shall be installed on the discharge piping from water supply tanks at or near the tank. A fullway valve shall be installed on the cold-water supply pipe to each water heater at or near the water heater.

606.5 Control Valve. A control valve shall be installed immediately ahead of each water supplied fixture, appurtenance, or appliance and immediately ahead of each slip joint or appliance supply. A control valve shall be installed for sill cocks, wall hydrants, yard hydrants, street washers, and lawn irrigation systems in addition to required backflow assemblies. Parallel water distribution systems shall provide a control valve either immediately ahead of each fixture being supplied or installed at the manifold and shall be identified with the fixture being supplied. Where parallel water distribution system manifolds are located in attics, crawl spaces, or other locations not readily accessible, a separate shutoff valve shall be required immediately ahead of each individual fixture or appliance served.

a. In each dwelling unit, one or two bathrooms back to back or one over the other may be considered a group. However, in each dwelling unit with two or more bathroom groups not adjacent to each other, one or more control valves or individual fixture valves shall be provided so that each group may be isolated from the others.

b. In multi-dwelling units, one or more control valves shall be provided so that the water to any plumbing fixture or group of fixtures in any one dwelling unit may be shut-off without stopping flow of water to fixtures in other dwelling units.

608.2 Excessive Water Pressure. An approved type pressure regulator preceded by an adequate strainer shall be installed in all water service pipes near its entrance to the building and the static pressure reduced to eighty (80) pounds per square inch (552 kPa) or less. Such regulator (s) shall control the pressure to all water outlets in the building unless otherwise approved by the Authority Having Jurisdiction. Pressure at any fixture shall be limited to no more than eighty (80) psi under no-flow conditions. Sill cocks and outside hydrants may be left on full main pressure at the option of the owner. For potable water services up to and including one and one half (1-1/2) inch (40 mm) regulators, provision shall be made to prevent pressure on the building side of the regulator from exceeding main supply pressure. Approved regulators with integral bypasses are acceptable.

Exception: Where the water service pipe supplies water directly to a water pressure booster system, an elevated

water gravity tank, or to pumps provided in connection with a hydro pneumatic or elevated water supply tank system a pressure-reducing valve is not required. Each such regulator and strainer shall be accessibly located above ground or in a vault equipped with a properly sized and sloped bore-sighted drain to daylight, shall be protected from freezing, and shall have the strainer readily accessible for cleaning without removing the regulator or strainer body or disconnecting the supply piping. All pipe size determinations shall be based on eighty (80%) percent of the reduced pressure when using Table 610.4.

608.5 Discharge Piping. The discharge piping serving a temperature relief valve, pressure relief valve, or combination of both shall have no valves, obstructions, or means of isolation and be provided with the following:

(1) Equal to the size of the valve outlet and shall discharge full size to the flood level of the area receiving the discharge and pointing down.

(2) Materials shall be rated at not less than the operating temperature of the system and approved for such use or shall comply with ASME A112.4.1.

(3) Discharge pipe shall discharge independently by gravity through an air gap into the drainage system or outside of the building with the end of the pipe not exceeding 2 feet (610 mm) and not less than 6 inches (152 mm) above the ground and pointing downwards.

(4) Discharge in such a manner that does not cause personal injury or structural damage.

(5) No part of such discharge pipe shall be trapped or subject to freezing.

(6) The terminal end of the pipe shall not be threaded.

609.0 Installation, Testing, Unions, and Location

609.1 Installation. Water piping shall be adequately supported in accordance with Table 313.3. Burred ends shall be reamed to the full bore of the pipe or tube. Changes in direction shall be made by the appropriate use of fittings, except that changes in direction in copper or copper alloy tubing shall be permitted to be made with bends, provided that such bends are made with bending equipment that does not deform or create a loss in the cross-sectional area of the tubing. Changes in direction are allowed with flexible pipe and tubing without fittings in accordance with the manufacturer's instructions. Provisions shall be made for expansion in hot-water piping. Piping, equipment, appurtenances, and devices shall be installed in a workmanlike manner in accordance with the provisions and intent of the code. Building supply yard piping shall be not less than 42 inches below finish grade.

609.4 Testing. Upon completion of a section or of the entire hot and cold water supply system, the system shall be tested with water or air. The potable water test pressure shall be greater than or equal to the working pressure under which the system is to be used. The air pressure shall be a minimum of 50 psi (345 kPa). Plastic pipe shall not be tested with air. The piping system shall withstand the test pressure without showing evidence of leakage for a period of not less than 15 minutes.

609.11.1 Mechanical Devices. Where listed mechanical devices are used, the manufacturer's specifications as to location and method of installation shall be followed.

Exception: For one (1) family, and two (2) families attached residential units, in order to absorb water hammer a mechanical water hammer arrester shall be installed as follows:

1. Bathroom groups:

A) Single bathrooms, minimum size "A" or single bathrooms back to back on a branch, minimum size "B", an approved mechanical device on both the hot and cold-water branches serving the bathroom group.

B) For more than one (1) bathroom group served by a vertical riser an approved, minimum size "B", mechanical device on both the hot and cold water at the top of the riser.

C) For each appliance with quick-closing valves a properly sized approved mechanical device on both the hot and cold water shall be installed as close as possible to the quick-closing valves. Appliances that include quick-closing valves are washing machines, dishwashers and ice makers. Other appliances that are not listed here may be determined to have quick-closing valves and shall be properly protected.

2. Lawn Irrigation Systems

A) Where a lawn irrigation system is installed, an Irrigation Backflow Assembly consisting of a Reduced Pressure Zone Backflow Device and within twelve (12") inches a properly sized mechanical water hammer arrestor shall be installed on the supply line to the backflow device or assembly for the irrigation system.

(1) The size of the water hammer arrestor shall be a minimum of size "C". It shall be sized based on the following Table 609.10 - 1.

Table 609.10 - 1

Pipe Size	Arrestor Size
3/4"	"C"
1"	"D"
1 1/4" - 1 ½"	"F"
2"	"C" + "F"

Based on PDI Reference Standards

610.0 Size of Potable Water Piping.

610.1 The size of each water meter shall be as determined by the water purveyor. Each potable water supply pipe from the meter or other source of supply to the fixture supply branches, risers, fixtures, connections, outlets, or other uses shall be based on the total demand and shall be determined according to the methods and procedures outlined in this section. Other than systems sized by the use of Table 610.4, the system shall be designed to ensure that the maximum velocities allowed by the Code and the applicable standard are not exceeded.

610.7 Conditions for Using Table 610.4. On any proposed water piping installation sized using Table 610.4 the following conditions shall be determined:

1. Developed length of supply pipe from the Property line to most remote outlet.

2. Difference in elevation between the property line or other source of supply and the highest fixture or outlet.

610.8 Size of Meter and Building Pipe Using Table 610.4. The size of the building supply pipe and the building branch piping, in areas served by Missouri American Water Co. or its successor shall be determined as follows:

(Note: The water purveyor will determine the size of the meter installed.)

Table 610.4 - In the title line delete "and Meter Sizes".

The column in Table 610.4 titled "Meter and Street Service, Inches" is deleted.

1. Determine the available pressure at the source of supply.

2. Subtract one-half (1/2) pound per square inch pressure (3.4 kPa) for each foot (305 mm) of difference in elevation between such source of supply and highest water supply outlet in the building or on the premises;

3. Use the "pressure range" group within which this pressure will fall using Table 10.4;

4. Select the "length" column which is equal to or longer than the required length;

5. Follow down the column to a fixture unit value equal to or greater than the total number of fixtures units required by the installation;

6. Having located the proper fixture unit value for the required length, size of building supply pipe and the building branch piping as found in the left-hand columns titled "Building Supply and Branches, Inches" shall be applied.

No building supply pipe shall be less than one (1) inch (25.4 mm) in diameter. For light commercial strip centers, when the water service serves more than one tenant space, a one and one-half (1-½) inch minimum size water service shall be provided to the most remote tenant space.

610.8.1 Size of Meter and Building Pipe Using Table 610.4. The size of the meter and the building supply pipe and the building branch piping, in areas not served by City Water or its successor shall be determined as follows:

Column in Table 610.4 titled "Meter and Street Service, Inches" is not deleted and may be used to determine the size of the building supply pipe as determined by the water purveyor. Use the procedure in 610.8 with the following exceptions:

1. Having located the proper fixture unit value for the required length, size of meter and building supply pipe and the building branch piping as found in the two left hand columns shall be applied. No building supply pipe shall be less than one (1) inch (25.4 mm) in diameter. For light commercial strip centers, when the water service serves more than one tenant space, a one and one-half (1-½) inch minimum size water service shall be provided to the most remote tenant space.

610.9 Size of Branches. When Table 610.4 is used, the minimum size of each branch shall be determined by the number of fixture units to be served by that branch, the total developed length of the system, and the street service size, minimum one (1) inch (26.7 mm) in diameter as per Section 610.8. No branch piping is required to be larger in size than that required by Table 610.4 for the building supply pipe.

612.3.2.1 Installer Qualifications.

1. A multipurpose fire sprinkler system

(A) Licensed as a Plumber and certified by the Board of Plumbing Examiners. Technical and experience qualifications and examination criteria shall be determined by the Board of Plumbing Examiners

2. A stand-alone sprinkler system

(A) Licensed as a sprinkler fitter under the St. Louis City Mechanical Code.

CHAPTER 7
SANITARY DRAINAGE

Amendments to the Uniform Plumbing Code™ - Chapter 7 - Sanitary Drainage. — Chapter 7 of the 2021 Uniform Plumbing Code™ is amended by the following provisions.

Each section in the UPC that corresponds to one of the following provisions is hereby deleted where so noted or amended to read as set forth below. Each section set forth below without a corresponding provision in the UPC is added thereto.

If any conflict of interpretations or requirements of parts or sections of this Chapter disagree with other similar Code provisions or other St. Louis City Ordinance requirements, the more stringent shall apply.

703.0 Size of Drainage Piping.

703.1.1 Exceptions.

1. Any portion of the building drain which is underground and which receives the discharge from a water closet shall be a minimum size of four inches (4") and the four-inch (4") pipe size shall terminate at the clean-out thirty-six inches (36") above the finish floor. The minimum size of any other portion of the drainage system, which receives the discharge from a water closet, shall be a minimum size of three inches (3").

(A) Approval may be given by the Authority Having Jurisdiction or his representative to approve the use of a minimum size of three (3") inches for the discharge of a single water closet when there is no four (4")inches or larger underground drain readily available. This approval 10 may be given, if such approval does not exceed the capacity of the drain, and, that it would be an undue hardship, or interrupt ongoing business activity, or require extensive demolition of a finished living area, or damage or destroy existing architectural or decorative furnishings.

2. Minimum size of the building sewer shall be six inches (6") in diameter and shall have the minimum of a two (2%) percent slope.

3. No soil or waste stack shall be smaller than the largest horizontal branch connected thereto. A 3 × 4 inch water closet bend shall not be considered a reduction in pipe size.

4. Any structure in which a building drain is installed shall have at least one stack vent or vent stack sized in accordance with section 904.1, not less than three inches (3") in diameter, or the size of the building drain. If the building drain is less than three inches (3") in diameter the vent shall be carried full size through the roof.

5. Any vent pipe extending through the roof shall be not less than two (2") inches in diameter and shall extend from its terminus at least eighteen (18") inches below the interior side of the roof deck.

6. No portion of the drainage system installed underground or below a basement or cellar shall be less than two (2") inches in diameter with the exception of vent piping which shall be a minimum of one and one-half (1-1/2") inches and condensate waste discharge lines which shall not be less than one and one-quarter (1 1/4") inches in diameter.

7. The maximum length of two (2") inch underground kitchen sink waste piping shall not exceed fifteen (15') feet from the point of connection to a horizontal branch drain or building drain to the point where the kitchen sink waste piping extends above the floor. The clean out above the floor shall be the same size as the underground kitchen sink waste piping and shall be thirty-six (36") inches above the finished floor level.

707.4 Location. Each horizontal drainage pipe shall be provided with a cleanout at its upper terminal and each run of piping, that is more than one hundred (100') feet (30480 mm) in total developed length, shall be provided with a cleanout for each one hundred (100') feet (30480 mm), or fraction thereof, in length of such piping. An additional cleanout shall be provided in a drainage line for each aggregate horizontal change of direction exceeding 135 degrees (2.36 rad). A cleanout shall be installed above the fixture connection fitting, serving each urinal, regardless of the location of the urinal in the building.

Exceptions:

1. Cleanouts may be omitted on a horizontal drain line less than five (5') feet (1524 mm) in length unless such line is serving sinks or urinals.

2. Cleanouts may be omitted on any horizontal drainage pipe installed on a slope of seventy-two (72°) degrees (1.26 rad) or less from the vertical angle (angle of one-fifth (1/5) bend).

3. Excepting the building drain and its horizontal branches, a cleanout shall be required on any pipe or

piping, which is above the floor level a minimum of three feet (3') above the lowest floor of the building and above each individual urinal.

(A) In residential buildings of slab floor construction or where a stack cleanout is not accessible, the cleanout shall be installed in the building drain and shall terminate not more than five feet (5') outside the building wall.

4. An approved type of two-way cleanout fitting, installed inside the building wall near the connection between the building drain and building sewer or installed outside of a building at the lower end of a building drain and extended to grade, shall be substituted for an upper terminal cleanout.

710.1 Backflow Protection. Where a fixture is installed on a basement level or floor level that is lower than the next upstream manhole cover of the public or private sewer serving such drainage piping, shall be protected from backflow of sewage by at a minimum installing an approved type of backwater valve or installing, when required by The Authority Having Jurisdiction, a plumbing line supported from floor joists by approved hangers serving that basement level or floor level (strapped plumbing) receiving the discharge from an approved watertight sump or receiving tank. (see strapped plumbing drawings, Figure 17 and figure 18 in Appendix "M"). Fixtures on floor levels above the upstream manhole cover such elevation shall not discharge through the backwater valve or into the lower level, approved watertight sump or receiving tank, but instead, shall drain by gravity to the public sewer.

Cleanouts for drains that pass through a backwater valve shall be clearly identified with a permanent label stating, "Backwater Valve Downstream".

710.2 Sewage Discharge. Drainage piping serving fixtures that are located below the crown level of the main sewer shall discharge into an approved watertight sump or receiving tank, so located as to receive the sewage or wastes by gravity. From such sump or receiving tank, the sewage or other liquid waste shall be lifted and discharged into the building drain or building sewer by approved ejectors, pumps, or other equally efficient approved mechanical devices.

Note: For clarification

1. Fixtures above the upstream manhole cover drain by gravity.

2. Fixtures below the upstream manhole cover and above the crown of the sewer, drain by gravity through a backwater valve, or as directed by the Authority Having Jurisdiction shall drain as indicated in item 3 below.

3. Fixtures below the upstream manhole and below the crown of the sewer shall be lifted and discharged into the building drain or building sewer by means of an approved pumping system (strapped plumbing).

710.6 Backwater valves. Backwater valves, gate valves, unions, full-way ball valves, motors, compressors, air tanks, and other mechanical devices required by this section shall be located where they will be accessible for inspection and repair at all times and, unless continuously exposed, shall be watertight, enclosed in a masonry pit, or a pit of Concrete, metal, or other approved material, construction, and manufacture, fitted with an adequately sized removable cover.

Backwater valves shall comply with ASME A112.14.1 have bodies of cast iron, plastic, copper alloy, or other approved materials, shall have non-corrosive bearings, seats and self-aligning discs, and shall be so constructed as to ensure a positive mechanical seal. Such valves shall remain sufficiently open during periods of low flows to avoid screening of solids and shall not restrict capacities or cause excessive turbulence during peak loads. Unless otherwise listed, valve access covers shall be bolted type with gasket and each valve shall bear the manufacturer's name cast into body and cover.

Alternate design of Backwater Valves that may be adequately serviced without installation in a pit may be used with the approval of the Authority Having Jurisdiction.

710.14 Streams and Channels. At stream and channel crossings, a minimum depth of two (2') feet shall be allowed only where greater depths cannot be achieved. Where this minimum cover cannot be achieved, Schedule 50 ductile iron pipe with restrained joints must be used unless otherwise directed by the Authority Having Jurisdiction. Stream and channel crossings must be protected with rock blanket.

712.3 Air Test. The air test shall be made by attaching an air compressor testing apparatus to any suitable opening, and, after closing all other inlets and outlets to the system, forcing air into the system until there is a uniform gauge pressure of five (5) pounds per square inch (34.5 kPa) or sufficient to balance a column of mercury ten (10") inches (254 mm) in height. The pressure shall be held without introduction of additional air for a period of at least fifteen (15) minutes. Plastic

pipe and fittings may be tested under this paragraph with the approval of the Authority Having Jurisdiction and must conform to requirements of the manufacturer.

713.1.1 House/building traps (vent traps). A house/building (vent) trap shall be installed on individual and combined, sanitary and storm house sewer laterals connected to the public sewer system. (See Section 1008.0).
Exception: Building/House traps shall be installed on individual and combined, sanitary and storm house/building laterals connected to combined sewers, and where required by the Authority Having Jurisdiction. Each building trap when installed shall be provided with a cleanout and with a relieving vent or fresh air intake on the inlet side of the trap which need not be larger than one-half (1/2) the diameter of the drain to which it connects. Such relieving vent or fresh air intake shall be carried to finish grade and terminate in a screened outlet located outside the building.

Delete *Section 713.2* of the UPC 2021 - Reference to Private Disposal System.

715.1 Materials. The building sewer, beginning five (5') feet (1525 mm) from any building or structure, shall be of such materials as may be approved by the Authority Having Jurisdiction under the approval procedures set forth in Chapter 3 of this Code. Sewer laterals exceeding one hundred (100') feet shall include a full-size cleanout, maximum size shall be eight (8") inches, to surface within ten (10') feet of anticipated location of the building foundation wall or the first (1st) story exterior wall of a slab on grade building.

717.0 Size of Building Sewers. The minimum size of any building sewer shall be determined on the basis of the total number of fixture units drained by such sewer, in accordance with 717.1. No building sewer shall be smaller than the building drain, but in no case less than six (6") inches (152 mm) and at a uniform minimum slope of 2 percent (2%).
For alternate methods of sizing building sewers, see Appendix C.

718.3 Protection from Damage. No building sewer or other drainage piping or part thereof, which is constructed of materials other than those approved for use under or within a building, shall be installed under or within five (5') feet (1525 mm) of any building or structure, or part thereof, nor less than thirty (30") inches below the surface of the ground.

1. Exception: Transition from building drain to building sewer at a maximum of 45°.

2. Exception: Where necessary to connect to a drainage line above ground.
The provisions of this subsection include structures such as porches and steps, whether covered or uncovered, breezeways, roofed porte-cocheres, roofed patios, carports, covered walks, covered driveways, and similar structures or appurtenances.

719.0 Cleanouts.

719.6 Manholes. Approved manholes shall be permitted to be installed in lieu of cleanouts when first approved by the Authority Having Jurisdiction. The maximum distance between manholes shall not exceed four hundred (400') feet (121.9 m). Connections to manholes shall be by approved method.

720.0 Sewers and Water Pipes. Building sewers or drainage piping of clay or materials, which are not approved for use within a building, shall not be run or laid in the same trench as the water pipes.
Exception: The underground water service pipe and the building sewer shall not be less than ten feet (10') apart horizontally and shall be separated by undisturbed or compacted earth. The water service pipe may be placed in the same trench with the outside building sewer and water piping may be placed in the same trench with the inside building drain provided approval is given by the Authority Having Jurisdiction and both the following requirements are met:

1. The bottom of the water pipe, at all points, shall be at least twelve (12") inches (305 mm) above the top of the sewer or drain line.

2. The water pipe shall be placed on a solid shelf excavated at one side of the common trench with a minimum clear horizontal distance of at least twelve (12") inches (305 mm) from the sewer or drain line. Water pipes crossing sewer or drainage piping constructed of clay or materials, which are not approved for use within a building, shall be laid a minimum of twelve (12") inches (305 mm) above the sewer or drainpipe.
Note: For the purpose of this section, "within the building" shall mean within the fixed limits of the building foundation.

722.0 Abandoned Sewers and Sewage Disposal Facilities.

722.1 Building (House) Sewer. Every abandoned building (house) sewer, or part thereof, shall be plugged or capped in an approved manner at the connection to the sewer main or at a location acceptable to the Authority Having Jurisdiction.

722.2 Cesspools, Septic Tanks, and Seepage Pits. Every cesspool, septic tank, and seepage pit which has been abandoned or has been discontinued otherwise from further use or to which no waste or soil pipe from a plumbing fixture is connected, shall have the sewage removed there from and disposed of in a manner required by law, the bottom broken out and be completely filled with compacted earth, sand, gravel, concrete, or other approved material.

TABLE 721.1
Minimum Horizontal Distance Required From Building Sewer (feet)

Buildings or Structures[1]	2 feet (610 mm)
Property line adjoining private property	Clear[2]
Water Supply Wells	100 feet[3] (30,480 mm)
Streams	50 feet (15,240 mm)
On-site domestic water line	10 feet[4] (3048 mm)
Public Water Main	10 feet[5,6] (3048 mm)

1. Including porches and steps, whether covered or uncovered, breezeways, roofed porte cocheres, roofed patios, carports, covered walks, covered driveways, and similar structures and appurtenances.

(B) See also Section 312.3

3. All drainage piping shall clear domestic water supply wells by at least one hundred (100') feet (30480 mm) (15240).

4. See Section 720.0

5. For parallel construction.

6. For crossings, approval by the Health Department or Authority Having Jurisdiction shall be required.

CHAPTER 8
INDIRECT WASTE

Amendments to the Uniform Plumbing Code™ - Chapter 8 - Indirect Wastes. - Chapter 8 of the 2021 Uniform Plumbing Code™ is amended by the following provisions. Each section in the UPC that corresponds to one of the following provisions is hereby deleted where so noted or amended to read as set forth below. Each section set forth below without a corresponding provision in the UPC is added thereto.

801.3.3 Food-Handling Fixtures. Food-preparation sinks; steam kettles, potato peelers, ice cream dipper wells, dishwashing machines, silverware washing machines, and similar equipment shall be indirectly connected to the drainage system by means of an air gap or air break. Bins, sinks, and other equipment having drainage connections and used for the storage of unpackaged ice used for human ingestion or used in direct contact with ready-to-eat food, shall be indirectly connected to the drainage by means of an airgap. Each indirect waste pipe from food handling fixtures or equipment shall be separately piped to the indirect waste receptor and shall not combine with other indirect waste. The piping from the equipment to the receptor shall not be less than the drain on the unit, but it shall not be smaller than one (1") inch (25.4 mm).

803.3 Pipe Size and Length. Except as hereinafter provided, the size and construction of indirect waste piping shall be in accordance with other sections of this Code applicable to drainage and vent piping. No vent from indirect waste piping shall combine with any sewer-connected vent but shall extend separately to the outside air. Indirect waste pipes exceeding five (5') feet (1524 mm), but less than fifteen (15') feet (4572 mm) in length shall be directly trapped, but such traps need not be vented. Indirect waste pipes less than fifteen (15') feet (4572 mm) in length shall not be less than the diameter of the drain outlet or tailpiece of the fixture, appliance, or equipment served, and in no case less than one (1") inch (25.4 mm) in size. Angles and changes of direction in indirect waste pipes of more than fifteen (15') feet shall be provided with cleanouts so as to permit flushing and cleaning.

1. A direct connection for a floor drain at the automatic clothes washer above ground may be discharged into the riser-pipe (standpipe) above the trap of the automatic clothes washer drain and the floor drain shall not be trapped.

2. A laundry sink on ground floor may discharge, un-trapped, directly into the washer standpipe above the trap with no vent required.

804.1 Standpipe Receptors. Plumbing fixtures or other receptors receiving the discharge of indirect waste pipes shall be approved for the use proposed, shall be of such shape and capacity as to prevent splashing or flooding and shall be located where they are readily accessible for inspection and cleaning. No standpipe receptor for a clothes washer shall extend more than 30 inches (762 mm), or not less than 18 inches (457 mm) above its trap weir. No trap for a clothes washer standpipe receptor shall be installed below the floor but shall be roughed in not less than 6 inches (152 mm) and not more than 18 inches (457 mm) above the floor. No indirect waste receptor shall be installed in a toilet

room, closet, cupboard, or storeroom, nor in a portion of a building not in general use by the occupants thereof; except standpipes for clothes washers shall be permitted to be installed in toilet and bathroom areas where the clothes washer is installed in the same room.

807.0 Appliances.

807.3 Domestic Dishwashing Machine. The discharge from a sink, dishwasher, and garbage disposal (food-waste-grinder) may discharge through a single one and one-half (1½") trap. The discharge from the dishwasher shall be a full-sized opening, which shall be a minimum of five eighths inch (5/8") inside diameter in size, looped up and firmly secured to the highest point under the counter and be connected with a wye fitting between the discharge of the garbage disposal (food-waste-grinder) and the trap inlet, or to the head of the garbage disposal (food waste-grinder). An approved dishwasher air gap fitting on the discharge side of the dishwashing machine may be used. Listed air gaps shall be installed with the flood level (FL) marking at or above the flood level of the sink or drain board, whichever is higher. In the installation of a double bowl kitchen sink (residential) with a garbage disposal (food-waste-grinder), the fixture trap shall be installed on the same side of the sink in which the garbage disposal is installed.

CHAPTER 9
VENTS

Amendments to the Uniform Plumbing Code™ - Chapter 9 - Vents. - Chapter 9 of the 2021 Uniform Plumbing Code™ is amended by the following provisions. Each section in the UPC that corresponds to one of the following provisions is hereby deleted where so noted or amended to read as set forth below. Each section set forth below without a corresponding provision in the UPC is added thereto.

904.3 Minimum Size of Stack Vent or Vent Stack. Any structure in which a building drain is installed shall have at least one stack vent or vent stack sized in accordance with Table 7 -5 not less than four inches (4") in diameter, not less than three inches (3") in diameter for one (1) and two (2) family residential, if the building drain is less than three inches (3") in diameter the vent shall be the size of the building drain carried full size through the roof. In no case shall the aggregate cross-sectional area of all vents, in the system, be less than the cross-sectional area of the largest required common building drain serving that system.

905.7 Vent Pipe Fittings Allowed. All vent piping subject to back drainage shall use fittings appropriate to the sanitary waste system.

906.1 Roof Termination. Each vent pipe or stack shall extend through its flashing and shall terminate vertically not less than twelve (12") inches (305 mm) above the roof nor less than one (1') foot (305 mm) from any vertical surface.

906.3 Use of Roof. Vent pipes shall be extended separately or combined, of full required size, not less than twelve (12") inches (305 mm) above the roof or fire wall. Flag-poling of vents shall be prohibited. All vents within ten (10') feet (3048 mm) of any part of the roof that is used for purposes other than weather protection shall extend not less than seven (7') feet (2134 mm) above such roof and shall be securely stayed.

906.7 Frost or Snow Closure. Vent terminals shall be a minimum of two (2) inches (51 mm) in diameter but in no event smaller than the required vent pipe. The change in diameter shall be made inside the building at least eighteen (18") inches below the roof in an insulated space and terminate not less than twelve (12") inches (305 mm) above the roof, or as required by the Authority Having Jurisdiction.

907.3 Residential Relief Vent. In a residential structure a relief vent shall be connected to a waste stack a minimum of six (6") inches (152 mm) below the bottom of the joist at the lowest level except when there is a plumbing vent through the roof installed from plumbing fixtures or future rough-ins below the lowest level.

908.1 Vertical Wet Venting. Except as provided for in other sections of this Code, wet venting is limited to vertical drainage piping receiving the discharge from the trap arm of one (1) and two (2) fixture unit fixtures that also serves as a vent not to exceed four (4) fixtures. All wet vented fixtures shall be within the same story; provided, further, that fixtures with a continuous vent discharging into a wet vent shall be within the same story as the wet vented fixtures. No wet vent shall exceed six (6') feet (1829 mm) in developed length.

908.1.3 See Appendix O (drawings).

909.0 Special Venting for Island Fixtures.

909.1 General. Alternate approved installation is described below and depicted in Drawing 7, Appendix O. Traps for island sinks and similar equipment shall be roughed in above the floor and may be vented by extending the vent as high as possible, and no lower than bottom of sink/fixture it serves and then returning it downward and connecting it to the horizontal sink

drain more than five (5') feet (1524 mm) downstream from the vertical fixture drain. The return vent shall be connected to the horizontal drain through a wye-branch fitting. Drainage fittings shall be used on all parts of the vent and a minimum slope of one-quarter (1/4") inch per foot (20.9 mm/m) back to the drain shall be maintained. Pipe sizing shall be as elsewhere required in this Code with minimum size to be two (2") inch (51 mm). The island sink drain, upstream of the return vent, shall serve no other fixtures. An accessible cleanout shall be installed in the vertical portion of the vent.

909.2 Acceptable Alternate Vent Piping. Traps for island sinks and similar equipment shall be roughed in above the floor and shall be permitted to be vented by extending the vent as high as possible, but not less than the drainboard height and not lower than the bottom of the sink, fixture or both that it serves. using a 90 degree 11.57 rad) elbow piping at not less than 1 inch per foot (20.8 mm/m) horizontal not less than 12 inches (305 mm) then using a 90 degree (1.57 rad) elbow returning it downward and connecting it to the horizontal sink drain by means of a wye branch and not less than 5 feet 11524 mm) downstream of the branch to the sink waste to the horizontal drain through a wye-branch fitting and any necessary 45 degree <0.79 rad) fittings. All piping shall be 2 inches (51 mm) or more in size unless the trap for the island sinks, or similar equipment, or both requires a larger size and shall be sized as elsewhere required in this Code maintaining the minimum size. No other fixtures shall be permitted to be connected to the horizontal drain prior to being connected to the venting system. An accessible cleanout shall be installed in the vertical portion of the foot vent.

CHAPTER 10
TRAPS AND INTERCEPTORS

Amendments to the Uniform Plumbing Code™ - Chapter 10 - Traps and Interceptors. - Chapter 10 of the 2021 Uniform Plumbing Code™ are amended by the following provisions. Each section in the UPC that corresponds to one of the following provisions is hereby deleted where so noted or amended to read as set forth below. Each section set forth below without a corresponding provision in the UPC is added thereto.

TABLE 1002.2
Horizontal Length of Trap Arms
(Except for water closets and similar fixtures) *

TRAP ARM	DISTANCE TRAP TO VENT	TRAP ARM	DISTANCE TRAP TO VENT
Inches	**Feet - Inches**	**mm**	**mm**
1-1/4	3'-6"	32	1067
1-1/2	5'-0"	38	1524
2	8'-0"	51	2438
3	10'-0"	76	3048
4 & Larger	12'-0"	102 & Larger	3658

Slope one-fourth (1/4") inch per foot (20.9 mm/m)
*The developed length between the trap of a water closet or similar fixture (measured from the top of the closet ring {closet flange} to the inner edge of the vent) and its vent shall not exceed six (6') feet (1829 mm)

1003.3 Size. The size (nominal diameter) of a trap for a given fixture shall be sufficient to drain the fixture rapidly, but in no case less than nor more than one pipe size larger than given in Table 702.1. The trap shall be the same size as the trap arm to which it is connected.
Exception: One (1) and two (2) fixture unit fixtures may have trap arms one size larger than the trap size serving the fixture.

1008.0 Building/House Traps. Building/House traps may be installed.
Exception: Building/House traps shall be installed on individual and combined, sanitary and storm house/building laterals connected to combined sewers, and where required by the Authority Having Jurisdiction.
Each building trap when installed shall be provided with a cleanout and with a relieving vent or fresh air intake on the inlet side of the trap which need not be larger than one-half the diameter of the drain to which it connects. Such relieving vent or fresh air intake shall be carried to finish grade and terminate in a screened outlet located outside the building.

1009.5 Location. Each interceptor (clarifier) cover shall be readily accessible for servicing and maintaining the interceptor (clarifier) in working and operating condition. Interceptors (clarifiers) shall include means for visual inspection and access from above for both the influent and effluent sides. Manholes (24 inches (24") in diameter, 24 inches (24") maximum in length including a roadway access cover) shall be provided for access to each compartment of an interceptor. Where depth is more than 24 inches (24"), a 36 inch (36") minimum diameter access with steps shall be provided as approved by the authority having jurisdiction. The use of

ladders or the removal of bulky equipment in order to service interceptors (clarifiers) shall constitute a violation of accessibility. Location of all interceptors (clarifiers) shall be shown on the approved building plan.

1014.1.3 Food Waste Disposal Units and Dishwashers. Food Waste Disposal Units, rinse sinks and or Dishwashers are required to connect into a grease interceptor and they must first flow through a solids trap.

1014.2 Hydromechanical Grease Interceptors.

1014.2.3 Each grease trap required by this section shall have an approved rate of flow which is not less than that as determined by 1014.2.1 for sinks and Table 1014.2.1 for the total number of connected fixtures. The total capacity in gallons (L) of fixtures discharging into any such grease trap shall not exceed two and one-half (2-1/2) times the certified gpm (L/s) flow rate of the grease trap as determined by 1014.2. Any grease trap installed with the inlet more than four (4') feet (1219 mm) lower in elevation than the outlet of any fixture discharging into such grease trap shall have an approved rate of flow which is not less than fifty (50%) percent greater than that given in Table 1014.2.1. For hydromechanical grease interceptors installed inside the building or tenant space, the number of fixtures connected to or discharged into anyone (1) hydromechanical grease interceptor shall not exceed the maximum DFU or operating flow rate of the hydromechanical grease interceptor. Floor drains receiving incidental water are not included as a fixture for the purposes of this paragraph.

Table 1014.2.1
HYDROMECHANICAL GREASE INTERCEPTOR SIZING USING GRAVITY FLOW RATES

		Size of grease interceptor	
Dia. of grease waste pipe	**Maximum full pipe flow**	**One-minute drainage period**	**Two-minute drainage period**
2	20	20	10
3	60	75	35
4	125	150	75
5	230	250	125
6	375	400	200

1014.3.5 Construction Requirements.

1014.3.5.1 Purpose. Gravity grease interceptors shall be designed to remove grease from effluent and shall be sized in accordance with this section. Gravity grease interceptors shall also be designed to retain grease until accumulations can be removed by pumping the interceptor. Each gravity grease interceptor shall pass through an inspection manhole, prior to any connection to the public sewer.

1014.3.5.1.1 Components and Materials. Gravity grease interceptors shall be constructed of cast iron or steel when protected, inside and out, by an approved corrosion resistant coating. Precast Concrete interceptors shall be constructed with a minimum wall thickness of 4", concrete strength equal to minimum 4000 PSI at 28 days of age, shall have a maximum water to cementitious ratio (w/c) of 0.45, and the entire interior, including all fittings, bolts, and appropriate connections shell be protected by a corrosion resistant coating with a minimum thickness of 18 Mil. Polyethylene prefabricated interceptors shall comply with the requirements set forth in paragraph 4.3 of IAPMO/ANSI Z1001. Fiberglass interceptors shall meet IAPMO/ANSI Z1001 for Grease Interceptors and be constructed with resins that comply with ASTM C-581. Poured concrete interceptors are prohibited. Each interceptor shall be of watertight construction and be provided with a non-perforated cover non-bolted or bolted into place, made gas and watertight.

1014.3.6 Sizing Criteria. Accredited third party systems (IAPMO, PDI) shall be sized using Table 1014.3.6. Where drainage fixture units (DFUs) are not known, the interceptor shall be sized based on the maximum DFUs allowed for the pipe size connected to the inlet of the interceptor and/or the Manufacturer's published sizing criteria and recommendations.
Refer to Table 703.2, Drainage Piping, Horizontal.
Non-Certified systems shall be sized based on calculations in gallons of effective capacity, provided that the total wet volume is not less than 500 gallons and provides a minimum retention time of 30 minutes based on drainage fixture units as determined by Table 1014.3.6.

1016.0 Sand Interceptors.

1016.1 Discharge. Where the discharge of a fixture or drain contains solids or semi-solids heavier than water that would be harmful to a drainage system or cause a stoppage within the system, the discharge shall be through a sand interceptor, or combination Sand/Gas/Oil interceptor. Multiple floor drains shall be permitted to discharge into one sand/solids interceptor. Sand interceptors shall be required where a floor drain or multiple floor drains discharge(s) through an oil interceptor, or where the discharge of a floor drain may contain solids or semi-solids that would be harmful to or tend to obstruct the system. A sand interceptor shall

be installed in front of a gas/oil interceptor unless the gas/oil interceptor is designed as a combination sand/gas/oil interceptor to handle sediment and solids. Human waste is prohibited from entering an interceptor.

1016.2 Authority Having Jurisdiction. Sand or solids interceptors are required where the Authority Having Jurisdiction deems it advisable to have a sand or solids interceptor to protect the drainage system.

1016.3 Construction and Size. Sand or Solids interceptors shall be built of prefabricated coated steel, precast concrete where the entire interior including all fittings, bolts and appropriate connections are treated with a corrosion resistant coating, fiberglass, or other watertight material. The interceptor shall have an interior baffle for full separation of the interceptor into two sections. The outlet pipe shall be the same size as the inlet pipe of the sand or solids interceptor, the minimum being 3 inches (80 mm), and baffle shall have at least one opening equal to the diameter of the inlet pipe and at the same invert as the outlet pipe. The opening(s) shall be staggered so that there cannot be a straight-line flow between the inlet pipe and the outlet pipe. The invert of the inlet pipe shall be no lower than the invert of the outlet pipe. The sand interceptor shall have a minimum dimension of 2 square feet (0.2 m^2) for the net free opening of the inlet section and a minimum depth under the invert of the outlet pipe of 2 feet (610 mm). For each 5 gpm (0.3 L/s) flow or fraction thereof over 20 gpm (1.26 L/s), the area of the sand interceptor inlet section is to be increased by 1 square foot (0.09 m^2). The outlet section, in two or more compartment systems shall at all times have a minimum area of 50 percent of the inlet section. The outlet section shall be covered by a solid removable cover, set flush with the finished floor, and the inlet section shall have an open grating, set flush with the finished floor and suitable for the traffic in the area in which it is located.

1017.0 Oil and Flammable Liquids Interceptors.

1017.1 Interceptors Required. All parking structures, repair garages and gasoline stations with grease racks or grease pits, and all factories which have oily, flammable, or both types of wastes as a result of manufacturing, storage, maintenance, repair or testing processes, shall be provided with an oil or flammable liquid interceptor which shall be connected to all necessary floor drains. The separation or vapor compartment shall be independently vented to the outer air. If two (2) or more separation or vapor compartments are used, each shall be vented to the outer air or may connect to a header which is installed at a minimum of six (6") inches (152 mm) above the spill line of the lowest floor drain and vented independently to the outer air. The minimum size of a flammable vapor vent shall not be less than two (2") inches (51 mm), and when vented through a sidewall, the vent shall not be less than ten (10') feet (3048 mm) above the adjacent level at an approved location. The interceptor shall be vented on the sewer side and shall not connect to a flammable vapor vent. All oil and flammable interceptors shall be provided with gastight cleanout covers, which shall be readily accessible. The waste line shall not be less than three (3") inches (76 mm) in diameter with a full-size cleanout to grade an interceptor which is provided with an overflow, shall be provided with an overflow line (not less than two (2") inches (51 mm) in diameter) to an approved exterior waste oil tank having a minimum capacity of five hundred fifty (550) gallons (2080 L) and meeting the requirements of the Authority Having Jurisdiction. The waste oil from the separator shall flow by gravity or shall be pumped to a higher elevation by an automatic pump. Pumps shall be adequately sized and accessible. Waste oil tanks shall have a two (2") inch (51 mm) minimum pump-out connection at grade and a one and one-half (1-1/2") inch (38 mm) minimum vent to atmosphere at an approved location at least ten (10') feet 3048 mm) above grade.

Non-Certified systems shall be sized based on maximum fixture flow, provided that the total wet volume is not less than 500 gallons and provides a minimum retention time of 30 minutes based on peak flow, where peak flow is greater of the flow rate based on drainage fixture units as determined by Table 1014.3.6.

1017.2.1 Components and Materials. Gas, Oil, and Flammable Liquid interceptors shall be constructed of cast iron or steel when protected, inside and out, by an approved corrosion resistant coating. Precast Concrete interceptors shall be constructed with a minimum wall thickness of 4", concrete strength equal to minimum 4000 PSI at 28 days of age, shall have a maximum water to cementitious ratio (w/c) of 0.45, and the entire interior, including all fittings, bolts, and appropriate connections shell be protected by a corrosion resistant coating with a minimum thickness of 18 Mil. Polyethylene prefabricated interceptors shall comply with the requirements set forth in paragraph 4.3 of IAPMO/ANSI Z1001. Fiberglass interceptors must meet IAPMO/ANSI Z1001 for Grease Interceptors and shall be constructed with resins that comply with ASTM

C-581. Poured concrete interceptors are prohibited. Each interceptor shall be of watertight construction and be provided with a non-perforated cover non-bolted or bolted into place, made gas and watertight.

1017.3 Combination Oil and Sand Interceptor. A combination oil and sand interceptor 20 may be installed when the Authority Having Jurisdiction approves the design.

CHAPTER 11
STORM DRAINAGE

Amendments to the Uniform Plumbing Code™ - Chapter 11 - Storm Drainage. - Chapter 11 of the 2021 Uniform Plumbing Code™ is amended by the following provisions. Each section in the UPC that corresponds to one of the following provisions is hereby deleted where so noted or amended to read as set forth below. Each section set forth below without a corresponding provision in the UPC is added thereto. If any conflict of interpretations, requirements, or Ordinance sections of this Chapter occur between other similar Code provisions and other St. Louis City Ordinances the more stringent requirement shall apply.

1101.8 Areaway Drains. All open subsurface space adjacent to a building, serving as an entrance to the basement or cellar of a building, shall be provided with a drain or drains. Such areaway drains shall be three (3") inches (76 mm) minimum diameter for areaways not exceeding one hundred (100') square feet (9.3 m^2) in area and shall be discharged in the manner provided for subsoil drains not serving continuously flowing springs or ground water (see Section 1101.5.2). Areaways in excess of one hundred (100') square feet (9.3 m^2) shall not drain into subsoil. Areaway drains for areaways exceeding one hundred (100') square feet (9.3 m^2) shall be sized according to Table 1101.8.

1101.12.1 Primary Roof Drainage. Roof areas of a building shall be drained by roof drains or gutters. The location and sizing of drains and gutters shall be coordinated with the structural design and pitch of the roof. Unless otherwise required by the Authority Having Jurisdiction, roof drains, gutters, vertical conductors or leaders, and horizontal storm drains for primary drainage shall be sized based on a storm rate of six (6") inches per hour of sixty (60) minutes duration and 100-year return period. Refer to Table D-1 (in Appendix D) for 100-year, 60-minute storms at various locations.

1101.12.2.1 Roof Scuppers or Open Side. Where parapet walls or other construction extend above the roof and create areas where storm water would become trapped if the primary roof drainage system failed to provide sufficient drainage, an independent secondary roof drainage system consisting of scuppers, standpipes, or roof drains shall be provided. Discharge from secondary roof drains onto any area which may be occupied by persons or vehicles shall not be allowed to fall more than three (3) feet above the ground. Secondary roof drainage systems shall be sized in accordance with Section 1101.12.1 as amended by this Code. Overflow drains shall be the same size as the roof drains with the inlet flow line two (2") inches (51 mm) above the low point of the roof and shall be installed independent from the roof drains.

1101.12.2.2.1 Separate Piping System. The secondary roof drainage system shall be a separate system of piping, independent of the primary roof drainage system. The discharge shall be above grade, in a location observable by the building occupants or maintenance personnel. Discharge from secondary roof drains onto any area which may be occupied by persons or vehicles shall not be allowed to fall more than three (3) feet above the ground. Secondary roof drain systems shall be sized in accordance with Section 1101.11.1 based on the rainfall rate for which the primary system is sized.

No part of the primary roof drainage system such as drains, scuppers, piping, gutters, or appurtenances, which is a part of the primary roof drainage system, may be used in the design or installation of the secondary roof drainage system.

1101.12.3 When approved by the Authority Having Jurisdiction, the requirements of Sections 1101.12.1 as amended and 1101.12.2 shall not preclude the installation of an engineered roof drainage system that has sufficient capacity to prevent water from ponding on the roof in excess of that allowed in the roof structural design with a rainfall rate of at least twice a rate of six (6") inches per hour, and with a blockage in any single point in the storm drainage system.

1101.13.1 Rain Leaders and Conductors. Rain leaders and conductors connected to a building storm sewer shall have a cleanout installed at the base of the outside leader or outside conductor and a minimum of three (3') feet and a maximum of five (5') feet above the finished floor on all inside conductors and interior downspouts, before it connects to the horizontal drain.

1101.13.2 Conductors installed above ground in buildings shall be in accordance with the applicable standards reference in Table 701.2 for above ground drain, waste and vent pipe.

1101.16.2 Combining Storm with Sanitary Drainage. The sanitary and storm drainage system of a building shall be entirely separate, except where a combined sewer is used, in which case the building storm drain shall be connected in the same horizontal plane through a single wye fitting to the combined building sewer not less than 10 feet (3048 mm) downstream from a soil stack and outside the building and with a connection beyond the property line.

1107.2.2 Air Test. The air test shall be made by attaching an air compressor testing apparatus to a suitable opening and, after closing all other inlets and outlets to the system, forcing air into the system until there is a uniform gauge pressure of 5 pounds-force per square inch (psi) (34 kPa) or sufficient to balance a column of mercury 10 inches (34 kPa) in height. The pressure shall be held without introduction of additional air for a period of not less than 15 minutes. Plastic pipe and fittings may be tested under this paragraph with the approval of the Authority Having Jurisdiction and must conform to requirements of the manufacturer.

1107.2.3 Exceptions: When circumstances exist that make water tests, described in Section 1106.2.1 and Section 1106.2.2 impractical, and for minor maintenance, repairs and installations, the Authority Having Jurisdiction may perform the inspection tested under conditions approved by the Authority Having Jurisdiction to assure that the work has been in accordance with provisions of this Code.

CHAPTER 12
FUEL PIPING

Amendments to the Uniform Plumbing Code™ - Chapter 12 - Fuel Piping - Chapter 12 of the 2021 Uniform Plumbing Code™ is adopted and is included in this Plumbing Code for permitted installations under this ordinance. Where differences between the Plumbing Code and The St. Louis City Mechanical Code occur, The St. Louis City Mechanical Code shall govern the installation of FUEL PIPING.

CHAPTER 13
HEALTH CARE FACILITIES AND MEDICAL GAS AND MEDICAL VACUUM SYSTEMS

Amendments to the Uniform Plumbing Code™ - Chapter 13 - Health Care Facilities and Medical Gas and Medical Vacuum Systems - Chapter 13 of the 2021 Uniform Plumbing Code™ is [not] adopted and is included in the Plumbing Code for permitted installations under this ordinance. Where differences between the Plumbing Code and The St. Louis City Mechanical Code occur, The St. Louis City Mechanical Code shall govern installation of Medical Gas Systems.

CHAPTER 14
FIRESTOP PROTECTION

Amendments to The Uniform Plumbing Code™ - Chapter 14 - Firestop Protection - Chapter 14 of the 2021 of the Uniform Plumbing Code™ is adopted. All fire-stop protection shall be done in accordance with the Building Code. Where differences between the Plumbing Code and The St. Louis City Building Code occur, The St. Louis City Building Code shall govern the installation. Reference to these requirements in the Plumbing Code does not establish a code requirement regarding licensing of the person(s) who install firestop materials.

CHAPTER 16
NONPOTABLE CATCHMENT SYSTEMS

Adopt Chapter 16 with changes from 2018

1601.2 System Design. Rainwater catchment systems shall be designed in accordance with this chapter by a licensed plumbing contractor or registered design professional. Components, piping, and fittings used in a rainwater catchment system shall be listed.

1603.5 Minimum Water Quality. The minimum water quality for harvested rainwater shall meet the applicable water quality requirements for the intended applications as determined by the Authority Having Jurisdiction. In the absence of water quality requirements determined by the Authority Having Jurisdiction, the minimum treatment and water quality shall be in accordance with Table 1603.5.

Exception: No treatment is required for rainwater used for subsurface or nonsprinkled surface irrigation where the maximum storage volume is less than 360 gallons (1363 L).

1603.5.1 Treatment. If the quality of the tested water cannot consistently be maintained at the minimum levels specified in Table 1603.5, then the system shall be equipped with an appropriate treatment device meeting applicable NSF standards referenced in Chapter 17.

CHAPTER 17
REFERENCED STANDARDS

Chapter 17 Amended

The standards referenced in Chapter 17 of the 2021 Uniform Plumbing Code™ are accepted as recognized standards only and shall be used only to define a product for discussion and reference. The appearance of items in Chapter 17 does not imply acceptance or allow for their use.

CHAPTER 18
POTABLE WATER SUPPLY SYSTEMS

18.0 The installation of potable water systems shall be performed in accordance with the standards and procedures established by the Missouri Department of Natural Resources, with the AHJ, and with the following requirements:

18.1 Permits Required.

1. A permit is required for the installation of a well. Permits shall be issued by the Missouri Department of Natural Resources. Failure to secure proper permits by the well driller shall be a violation of this Code.

2. It is unlawful for any person or entity to engage in or perform the work of installing potable water piping from a point two feet (2') beyond the upper well terminal seal to the last potable connection or point of discharge without first registering with St. Louis City, a proper and valid DNR permit for the well drilling on the premises and the required fee, which will cover the cost of processing and one (1) inspection. The installation shall be installed in accordance with this Code.

18.2 Testing of Water for Potability Required. No water system, which is supplied by a well, hall be filled nor building occupied until the source of water supply is tested and determined to be safe for human consumption. Testing shall be performed at or near the upper well terminal. Portability of the water shall be certified by a laboratory having suitable professional qualifications for the performance of such tests prior to filling of the interior water supply system, final inspection and/or occupancy of any building so supplied. The Builder, Architect, Engineer, Well Driller, Plumber and property owner shall be held jointly and/or severally responsible for compliance with this section. Failure to comply shall be a violation of this Code.

Amendments to the Appendices of the Uniform Plumbing Code 2021 Saint Louis City Ordinance Appendices

APPENDIX A
Amendments to the Uniform Plumbing Code - Appendix A - Recommended Rules for Sizing the Water Supply System

Appendix A of the 2021 Uniform Plumbing Code™ is amended by the following provisions. Each section in the UPC that corresponds to one of the following provisions is hereby deleted where noted or amended to read as set forth below. Each section set forth below without a corresponding provision in the UPC is added thereto.

Appendix A is included in the Plumbing Code with no changes.

If any conflict of interpretations, requirements, or Ordinance sections of this Chapter occur between other similar Code provisions and other St. Louis City Ordinances the more stringent requirement shall apply.

APPENDIX B
Amendments to the Uniform Plumbing Code - Appendix B - Explanatory Notes on Combination Waste and Vent

Appendix B of the 2021 Uniform Plumbing Code™ is amended by the following provisions.

Each section in the UPC that corresponds to one of the following provisions is hereby deleted where so noted or amended to read as set forth below. Each section set forth below without a corresponding provision in the UPC is added thereto.

Appendix B is included in the Plumbing Code with no changes.

If any conflict of interpretations, requirements, or Ordinance sections of this Chapter occur between other similar Code provisions and other St. Louis City Ordinances the more stringent requirement shall apply.

APPENDIX C
Amendments to the Uniform Plumbing Code - Appendix C - Alternate Plumbing Systems

Appendix C of the 2021 Uniform Plumbing Code™ is amended by the following provisions.

Each section in the UPC that corresponds to one of the following provisions is hereby deleted where so noted or amended to read as set forth below. Each section set forth below without a corresponding provision in the UPC is added thereto.

Appendix C is accepted by the Plumbing Code as a reference only and may be used as an engineered system if approved by the Authority Having Jurisdiction.

If any conflict of interpretations, requirements, or Ordinance sections of this Chapter occur between other similar Code provisions and other St. Louis City Ordinances the more stringent shall apply.

C 303.0 Fixture Unit Values for Bathroom Groups - Deleted

C 303.1 Table 303.2 Deleted

C 303.1 Table 303.3 Deleted

C 303.1 Table 304.2 Deleted

C 303.1 Table 304.2 Deleted

C 6.0 Vent System Sizing.

C 6.1 Size of Vents. The size of vent piping shall be determined from the developed length and the total number of drainage fixture units connected thereto as set forth in Table C 401.1. Vents shall not be less than one-half (1/2) the required size of the drainage pipe size served as determined by Table C 401.1 for Horizontal Fixtures and Stacks nor less than one and one-quarter (1-1/4) inches (32 mm)in diameter. The drainage system shall be vented by not less than one (1) vent pipe which shall be not less than one-half (1/2) the size of the required building drain and which shall extend from the building drain or extension of building drain to the outdoors. Vents shall be installed in accordance with Chapter 9.

C 601.0 Single Stack Vent System.

C 601.2 Stack Size. Drainage stacks shall be sized according to Table C 601.2. Not more than two water closets shall be permitted to discharge to a 3 inch (80 mm) stack. Stacks shall be uniformly sized based on the total connected drainage fixture unit load, with no reductions in size.

C 601.2.1 Stack Vent. The drainage stack vent shall have a stack vent of the same size terminating to the outdoors.

Table C 601.2 Deleted

If any conflict of interpretations, requirements, or Ordinance sections of this Chapter occur between other similar Code provisions and other St. Louis City Ordinances the more stringent requirement shall apply.

APPENDIX D

Amendments to the Uniform Plumbing Code - Sizing Storm Water Drainage Systems

Appendix D of the 2021 Uniform Plumbing Code™ is amended by the following provisions.

Each section in the UPC that corresponds to one of the following provisions is hereby deleted where so noted or amended to read as set forth below. Each section set forth below without a corresponding provision in the UPC is added thereto.

Appendix D - Sizing Storm Water Drainage Systems

Appendix D of the 2021 Uniform Plumbing Code™ is amended and included in the Plumbing Code with the following change:

a. In Table D-1 the Maximum Rates of Rainfall for St. Louis Missouri shall be 6.0 inches per hour and 0.063 GPM/Square Foot in lieu of the values listed.

If any conflict of interpretations, requirements, or Ordinance sections of this Chapter occur between other similar Code provisions and other St. Louis City Ordinances the more stringent requirement shall apply.

APPENDIX E

Amendments to the Uniform Plumbing Code - Appendix E - Manufactured/Mobile Home Parks and Recreational Vehicle Parks

Appendix E of the 2021 Uniform Plumbing Code™ is amended by the following provisions.

Each section in the UPC that corresponds to one of the following provisions is hereby deleted where so noted or amended to read as set forth below. Each section set forth below without a corresponding provision in the UPC is added thereto.

Appendix E is included in the Plumbing Code with no changes.

If any conflict of interpretations, requirements, or Ordinance sections of this Chapter occur between other similar Code provisions and other St. Louis City Ordinances the more stringent requirement shall apply.

APPENDIX F

Amendments to the Uniform Plumbing Code - Appendix F - Firefighter Breathing Air Replenishment Systems

Appendix F of the 2021 Uniform Plumbing Code™ is amended by the following provisions.

Each section in the UPC that corresponds to one of the following provisions is hereby deleted where so noted or amended to read as set forth below. Each section set forth below without a corresponding provision in the UPC is added thereto. Appendix F is included in the Plumbing Code with no changes.

If any conflict of interpretations, requirements, or Ordinance sections of this Chapter occur between other similar Code provisions and other St. Louis City Ordinances the more stringent requirement shall apply.

APPENDIX G
Amendments to the Uniform Plumbing Code - Appendix G - Sizing of Venting Systems

Appendix G of the 2021 Uniform Plumbing Code™ is amended by the following provisions.

Each section in the UPC that corresponds to one of the following provisions is hereby deleted where so noted or amended to read as set forth below. Each section set forth below without a corresponding provision in the UPC is added thereto.

Appendix G is included in the Plumbing Code with no changes.

If any conflict of interpretations, requirements, or Ordinance sections of this Chapter occur between other similar Code provisions and other St. Louis City Ordinances the more stringent requirement shall apply.

APPENDIX H
2021 Private Sewage Disposal System

Change Appendix H to read as follows:

Appendix H is NOT adopted and is not included in the Plumbing Code.

APPENDIX I
Installation Standards

Appendix I of the 2021 Uniform Plumbing Code™ is amended by the following provisions. Each section in the UPC that corresponds to one of the following provisions is hereby deleted where so noted or amended to read as set forth below. Each section set forth below without a corresponding provision in the UPC is added thereto. The standards referenced in this Code shall be considered part of the requirements of this Code to the prescribed extent of each such reference.

The appearance of Installation Standards in this Appendix does not, by itself, authorize the use of those items unless specified elsewhere in this Code for use.

APPENDIX J
Combination of Indoor and Outdoor Combustion and Ventilation Opening Design

Appendix J of the 2021 Uniform Plumbing Code™ is amended by the following provisions.

Each section in the UPC that corresponds to one of the following provisions is hereby deleted where so noted or amended to read as set forth below. Each section set forth below without a corresponding provision in the UPC is added thereto.

Appendix J is included in the Plumbing Code with no changes.

If any conflict of interpretations, requirements, or Ordinance sections of this Chapter occur between other similar Code provisions and other St. Louis City Ordinances the more stringent requirement shall apply.

APPENDIX K
Potable Rainwater Catchment Systems

Appendix K of the 2021 Uniform Plumbing Code™ is amended by the following provisions.

Each section in the UPC that corresponds to one of the following provisions is hereby deleted where so noted or amended to read as set forth below. Each section set forth below without a corresponding provision in the UPC is added thereto.

Appendix K is included in the Plumbing Code with no changes.

If any conflict of interpretations, requirements, or Ordinance sections of this Chapter occur between other similar Code provisions and other St. Louis City Ordinances the more stringent requirement shall apply.

APPENDIX L
Sustainable Practices

Appendix L of the 2021 Uniform Plumbing Code™ is amended by the following provisions.

Each section in the UPC that corresponds to one of the following provisions is hereby deleted where so noted or amended to read as set forth below. Each section set forth below without a corresponding provision in the UPC is added thereto.

Appendix L is included in the Plumbing Code with no changes.

If any conflict of interpretations, requirements, or Ordinance sections of this Chapter occur between other similar Code provisions and other St. Louis City Ordinances the more stringent requirement shall apply.

APPENDIX M
Peak Water Demand Calculator 20

Appendix M of the 2021 Uniform Plumbing Code™ is amended by the following provisions.

Each section in the UPC that corresponds to one of the following provisions is hereby deleted where so

noted or amended to read as set forth below. Each section set forth below without a corresponding provision in the UPC is added thereto.

Appendix M is included in the Plumbing Code with no changes.

If any conflict of interpretations, requirements, or Ordinance sections of this Chapter occur between other similar Code provisions and other St. Louis City Ordinances the more stringent requirement shall apply.

APPENDIX N

Impact of Water Temperature on the Potential for Scalding and Legionella Growth

Appendix N of the 2021 Uniform Plumbing Code™ is amended by the following provisions.

Each section in the UPC that corresponds to one of the following provisions is hereby deleted where so noted or amended to read as set forth below. Each section set forth below without a corresponding provision in the UPC is added thereto.

Appendix N is included in the Plumbing Code with no changes.

If any conflict of interpretations, requirements, or Ordinance sections of this Chapter occur between other similar Code provisions and other St. Louis City Ordinances the more stringent requirement shall apply.

APPENDIX O

CODE ILLUSTRATIONS

Appendix O is hereby enacted and added as an additional Appendix to the 2021 Uniform Plumbing Code™

The drawings contained in Appendix O are intended to aid in the clarification of various methods, installation practices and piping configurations, which conform to the requirements of this Code.

If any conflict of interpretations, requirements, or Ordinance sections of this Chapter occur between other similar Code provisions and other St. Louis City Ordinances the more stringent shall apply.

(Ord. No. 71644, § 3, 2-20-2023.)

25.04.030 Penalty clause.

Any person who shall violate a provision of this Code or shall fail to comply with any of the requirements thereof, or who shall erect, construct, alter, extend, repair, remove, demolish any plumbing system of any building, structure, premises, or equipment regulated by this Code in violation of an approved construction document or directive of the building official or the Board of Building Appeals, or of a permit or certificate issued under the provisions of this Code, and shall, upon conviction thereof, be punished by a fine of not more than five hundred dollars ($500.00), or by imprisonment not exceeding ninety (90) days, or both such fine and imprisonment. Each day that a violation continues shall constitute a separate and distinct offense.

(Ord. No. 71644, § 4, 2-20-2023.)

Chapter 25.05

BOARD OF BUILDING APPEALS

Editor's Note:

Sections 59 to 67 of Ordinance 52132 were originally codified as Sections 25.32.610 to 25.32.690. They have been recodified in this chapter at the City's suggestion.

Sections:

25.05.010 Jurisdiction.
25.05.020 Appeal procedure.
25.05.030 Stay pending appeal.
25.05.040 Inspection reports to be furnished.
25.05.050 Hearing of appeals.
25.05.060 Powers of Board of Building Appeals.
25.05.070 Action of Board of Building Appeals.
25.05.080 Powers additional to those in Building Code.
25.05.090 Judicial review for aggrieved persons.

25.05.010 Jurisdiction.

The Board of Building Appeals shall have jurisdiction to hear and decide appeals where it is alleged that there is error in any order, requirement, decision or any determination made by the Building Commissioner or the Health Commissioner in the enforcement of the "Minimum Nonresidential Standards Law." (1960 C., § 399.580; 1994 C., § 25.05.010; Ord. No. 52132, § 59, 1963.)

25.05.020 Appeal procedure.

Appeals may be taken to the Board of Building Appeals by any person aggrieved by any decision of the Building Commissioner or Health Commissioner. Such appeal shall be taken within 30 days after the decision is rendered by filing with the Building Commissioner a notice of appeal specifying the grounds therefor, and by depositing with such Commissioner the sum of $15.00

as a docket fee. The Building Commissioner or Health Commissioner shall forthwith submit to the Board a copy of this notice of appeal together with all the papers constituting the record upon which the action appealed from is taken. (1960 C., § 399.590; 1994 C., § 25.05.020; Ord. No. 52132, § 60, 1963.)

25.05.030 Stay pending appeal.

An appeal shall stay all proceedings in furtherance of the action appealed from, unless the Building Commissioner or Health Commissioner shall certify to the Board subsequent to the filing of any notice of appeal, that, by reason of the facts stated in the certificate, a stay would cause imminent peril to life or property. In such case, proceedings shall not be stayed otherwise than by the order of any court of competent jurisdiction. (1960 C., § 399.600; 1994 C., § 25.05.030; Ord. No. 52132, § 61, 1963.)

Editor's Note:

Section 126.6 of Ordinance 58032 approved March 25, 1980 provides that a restraining order may be granted by the Board of Building Appeals on application and on notice to the Building Commissioner or other City Officer whose decision is being appealed; or by a court of competent jurisdiction.

25.05.040 Inspection reports to be furnished.

The Building Commissioner and the Health Commissioner shall furnish the Board of Building Appeals, upon request, copies of reports of any or all inspections made by such officers in the matter on appeal and furnish such other information as may be available to them and requested by the Board. (1960 C., § 399.610; 1994 C., § 25.05.040; Ord. No. 52132, § 62, 1963.)

25.05.050 Hearing of appeals.

The Board of Building Appeals shall fix a time and place for the hearing of appeals. Such hearing shall be had within a reasonable time after the filing of the notice of appeal. Notice of the time and place of hearing shall be mailed to the appellant or to his attorney of record and such hearing shall not be less than 10 days after the mailing of the notice. (1960 C., § 399.620; 1994 C., § 25.05.050; Ord. No. 52132, § 63, 1963.)

25.05.060 Powers of Board of Building Appeals.

In exercising its powers, the Board of Building Appeals may reverse or affirm, wholly or partly, or may modify the order, requirement, decision or determination as ought to be made. (1960 C., § 399.630; 1994 C., § 25.05.060; Ord. No. 52132, § 64, 1963.)

25.05.070 Action of Board of Building Appeals.

The Board of Building Appeals shall act by majority vote, and a quorum shall consist of at least 5 members. The action of the Board shall not become effective until after the resolution of the Board setting forth the full reason for its decision and the vote of each member participating therein has been spread upon the minutes. Such resolutions, immediately following the Board's final decision, shall be filed in the office of the Board and shall be open to public inspection. (1960 C., § 399.640; 1994 C., § 25.05.070; Ord. No. 52132, § 65, 1963.)

25.05.080 Powers additional to those in Building Code.

The powers granted by this law to the Board of Building Appeals shall be in addition to those conferred upon it by the Building Code. (1960 C., § 399.650; 1994 C., § 25.05.080; Ord. No. 52132, § 66, 1963.)

25.05.090 Judicial review for aggrieved persons.

Any person or persons jointly or severally aggrieved by the decision of the Board of Building Appeals or any official, department, board or bureau of the City, shall be entitled to a judicial review of the decision rendered by the Board of Building Appeals as provided in the Administrative Procedure and Review Act of the State of Missouri, being RSMo 536.100 to 536.140. (1960 C., § 399.660; 1994 C., § 25.05.090; Ord. No. 52132, § 67, 1963.)

Chapter 25.06

INTERNATIONAL FIRE CODE

Editor's Note:

Ord. No. 70796, adopted July 6, 2018, adopting the 2018 International Fire Code with amendments, including Appendices B and C; repealed and replaced Ordinance No. 69600. Ord. No. 69600, §§ 1—3, adopted Nov. 1, 2013, repealed Ch. 25.06 and enacted a new chapter. The former Ch. 25.06, §§ 25.06.010—25.06.180, pertained to the fire prevention code and derived from Ord. No. 64772, §§ 1—4, 1999.

Sections:

25.06.010 Reserved.
25.06.020 Adoption.
25.06.030 Amendments.
25.06.040. Penalty.

25.06.010 Reserved.

25.06.020 Adoption.

The 2018 International Fire Code as published by the International Code Council, Inc., one copy of which

is on file in the office of the Register of the City of Saint Louis, being marked and designated as the International Fire Code, including Appendices B, C and N, is hereby adopted as the Fire Code of the City of Saint Louis, in the State of Missouri, pursuant to this chapter and in conformity with RSMo 71.493, for the control of buildings and structures as herein provided; and that each and all of the regulations, provisions, penalties, conditions, and terms of said Fire Code are hereby referred to, adopted, and made a part hereto as if fully set out in this chapter with the amendments prescribed in 25.06.030. If differences occur between a provision modified by this chapter and a provision adopted without modifications, then the modified provision shall control. (Ord. No. 70796, § 2, 7-6-2018.)

25.06.030 Amendments.

The 2018 International Fire Code is amended in the following respects:

CHAPTER 1 IS AMENDED AS FOLLOWS:

Delete Chapter 1 as published in its entirety.

Add a new Chapter 1 to read as follows:

CHAPTER 1

SCOPE AND ADMINISTRATION

SECTION 101 SCOPE AND GENERAL REQUIREMENTS

101.1 Title. These regulations shall be known as the Fire Code of the City of Saint Louis, hereinafter referred to as "this code."

101.2 Scope. This code establishes regulations affecting or relating to structures, processes, and premises and safeguards regarding:

1. The hazard of fire and explosion arising from the storage, handling, or use of structures, materials, or devices;

2. Conditions hazardous to life, property, or public welfare in the occupancy of structures or premises;

3. Fire hazards in a structure or on a premises from occupancy or operation;

4. Matters related to the construction, extension, repair, alteration, or removal of fire suppression or alarm systems; and

5. Conditions affecting the safety of fire fighters and emergency responders during emergency operations.

101.2.1 Appendices. Appendices B, C and N are specifically adopted.

101.3 Intent. The purpose of this code is to establish the minimum requirements consistent with nationally recognized good practice for promoting a reasonable level of life safety and property protection from the hazards of fire, explosion, or dangerous conditions in

[The next page is 25-211]

new and existing buildings, structures, and premises and to provide safety to fire fighters and emergency responders during emergency operations.

101.4 Severability. If a section, subsection, clause, or phrase of this code is for any reason held to be unconstitutional, such decision shall not affect the validity of the remaining portions of this code.

101.5 Validity. In the event any part or provision of this code is held to be illegal or void, this shall not have the effect of making void or illegal any of the other parts or provisions hereof which are determined to be legal and it shall be presumed that this code would have been adopted without such illegal or invalid parts or provisions.

SECTION 102 APPLICABILITY

102.1 Construction and Design Provisions. The construction and design provisions of this code shall apply to:

1. Structures, facilities, and conditions arising after the adoption of this code.

2. Existing structures, facilities, and conditions not legally in existence at the time of adoption of this code.

3. Existing structures, facilities, and conditions which, in the opinion of the fire official, constitute a distinct hazard to life or property.

102.1.1 Existing Buildings. The legal occupancy of any structure existing on the date of the adoption of this code shall be permitted to continue without change, except as is specifically covered in this code, the Building Code, the Existing Building Code, or the Property Maintenance Code, or as deemed necessary by the building official for the general safety and welfare of the occupants and the public.

102.2 Administrative, Operational, and Maintenance Provisions. The administrative, operational, and maintenance provisions of this code shall apply to:

1. Conditions and operations arising after the adoption of this code.

2. Existing conditions and operations.

102.3 Change of Use or Occupancy. No change shall be made in the use or occupancy of any structure that would place the structure in a different division of the same group or occupancy or in a different group of occupancies unless such structure is made to comply with the requirements of this code, the Building Code, and the Existing Building Code. Subject to the approval of the building official, the use or occupancy of an existing structure shall be permitted to be changed and the structure allowed to be occupied for purposes in other groups without conforming to all the requirements of this code, the Building Code, and the Existing Building Code for those groups provided the new or proposed use falls under a lower hazard category than the existing use per Chapter 10 of the Existing Building Code.

102.4 Application of Building Code. The design and construction of new structures shall comply with the Building Code and enforced by the building official and any alterations, additions, changes in use, or changes in structures required by this code which are within the scope of the Existing Building Code shall be made in accordance therewith and enforced by the building official.

102.5 Application of Residential Code. Where structures are designed and constructed in accordance with the Residential Code for One- and Two-family Dwellings, the provisions of this code shall apply as follows:

1. Construction and design provisions: Provisions of this code pertaining to the exterior of the structure shall apply, including, but not limited to, premises identification, fire apparatus access and water supplies. Where interior or exterior systems or devices are installed, building or construction permits required by Section 105.7 of this code shall also apply.

2. Administrative, operational, and maintenance provisions: All such provisions of this code shall apply.

102.6 Historic buildings. The provisions of this code relating to the construction, alteration, repair, enlargement, restoration, relocation, or moving of buildings or structures shall not be mandatory for existing buildings or structures designated as historic buildings, landmarks, or contributing resources to an historic district by state or national jurisdictions or City of Saint Louis ordinances when such buildings or structures do not constitute a distinct hazard to life or property. Fire protection in designated historic buildings and structures shall be provided in accordance with an approved fire protection plan.

102.7 Referenced Codes and Standards. The codes and standards referenced in this code shall be considered part of the requirements of this code to the prescribed extent of each such reference. Where differences occur between provisions of this code and referenced standards, the provisions of this code shall

apply. Reference standards shall be permitted to be updated by the rule making authority of the building official.

102.8 Subjects Not Regulated by This Code. Where no applicable standards or requirements are set forth in this code, or are contained within other laws, codes, regulations, ordinances, or bylaws adopted by the City of Saint Louis, compliance with applicable standards of the National Fire Protection Association or other nationally recognized fire safety standards, as approved, shall be deemed as prima facie evidence of compliance with the intent of this code. Nothing herein shall derogate from the authority of the fire official to determine compliance with codes or standards for those activities or installations within the fire official's jurisdiction or responsibility.

102.9 Matters Not Provided For. Requirements that are essential for the public safety of an existing or proposed activity, building, or structure, or for the safety of the occupants thereof which are not specifically provided for by this code shall be determined by the fire official.

102.10 Conflicting Provisions. Where there is a conflict between a general requirement and a specific requirement, the specific requirement shall be applicable. Where, in a specific case, different sections of this code specify different materials, methods of construction, or other requirements, the most restrictive shall govern.

102.11 Other Laws. The provisions of this code shall not be deemed to nullify any provisions of local, state, or federal law.

102.12 Application of References. References to chapter or section numbers or to provisions not specifically identified by number shall be construed to refer to such chapter, section, or provision of this code.

SECTION 103 FIRE SAFETY UNIT

103.1 General. The Fire Safety Unit is established within the City of Saint Louis under the direction of the Director of Public Safety and the Building Commissioner. The function of the Fire Safety Unit shall be the implementation, administration, and enforcement of the provisions of this code.

103.2 Appointment. The fire official shall be appointed under the rules of the Civil Service Commission.

103.3 Organization. The fire official shall appoint such number of officers, technical assistants, inspectors and other employees as is necessary for the administration of this code and as authorized by the appointing authority.

103.3.1 Deputy. The fire official is authorized to designate an employee as deputy who shall exercise all of the powers of the fire official during the temporary absence or disability of the fire official.

103.3.2 Restriction of Employees. An official or employee connected with the enforcement of this code, except one whose only connection is that of a member of the Board of Building Appeals established under the Building Code, shall not be engaged in or directly or indirectly connected with the furnishing of labor, materials, or appliances for the construction, alteration, or maintenance of a building or the preparation of construction documents thereof unless that person is the owner of the building or a first degree relative of the owner of the building; nor shall such officer or employee engage in any work which conflicts with official duties or with the interests of the Division of Building and Inspection.

Further, no Building Division employee shall be employed by or serve as an employee of any other division within the City service unless a formal request is made by the Building Commissioner to and approved by the appointing authority of that Division.

103.4 Relief from Personal Responsibility. The building/fire official or employee charged with the enforcement of this code, while acting for the jurisdiction, shall not thereby be rendered liable personally, and is hereby relieved from all personal liability for any damage accruing to persons or property as a result of any act required or permitted in the discharge of official duties. Any suit instituted against any employee because of an act performed by that person in the lawful discharge of duties and under the provisions of this code shall be defended by the City of Saint Louis City Counselor's Office until the final termination of the proceedings. The building official or any subordinates shall not be liable for costs or judgment in any action, suit, or proceeding that is instituted in pursuance of the provisions of this code; and any employee of the Division of Building and Inspection acting in good faith and without malice shall be free from liability for acts performed under any of its provisions or by reason of any act or omission in the performance of official duties in connection therewith.

The above protection shall also extend to former employees for work performed during their period of employment with the City of Saint Louis.

SECTION 104 GENERAL AUTHORITY AND RESPONSIBILITIES

104.1 General. The fire official is hereby authorized to enforce the provisions of this code and shall have the authority to render interpretations of this code and to adopt policies, procedures, rules, and regulations in order to clarify the application of its provisions. Such interpretations, policies, procedures, rules, and regulations shall be in compliance with the intent and purpose of this code and shall not have the effect of waiving requirements specifically provided for in this code.

104.1.1 Enforcement. For purposes of the referenced sections, the designated enforcement agency shall be considered to be the "fire official" when used in that section.

Chapter 3 (except sections 303, 305, 307, and 309): The Division of Building & Inspection Fire Safety Unit.

Sections 303, 305, 307, and 309: The Saint Louis Fire Department.

Chapter 4 (except sections 403.2.3,403.2.4,403.12.1 and 403.12.3): The Saint Louis Fire Department.

Section 403.2.3, 403.2.4, 403.12.1 and 403.12.3: The Division of Building & Inspection Fire Safety Unit and the Saint Louis Fire Department.

Chapter 5: The Saint Louis Fire Department.

Chapter 6 (except Sections 604, 607 and 608): The Division of Building & Inspection Mechanical Section.

Sections 604, 607 and 608: The Division of Building & Inspection Fire Safety Unit.

Chapter 7: The Division of Building & Inspection Plan Exam Section and Fire Safety Unit.

Chapter 8: The Division of Building & Inspection Plan Exam Section and Fire Safety Unit.

Chapter 9 (except sections 901.7, 912 and 916): The Division of Building & Inspection.

Sections 901.7, 912 and 916: The Saint Louis Fire Department.

Chapter 10: The Division of Building & Inspection Plan Exam Section and Fire Safety Unit.

Chapter 11: DELETED - See the Existing Building Code.

Chapters 12: The Division of Building & Inspection Electrical Inspection Section.

Chapters 13 through 19 are reserved.

Chapter 64: The Saint Louis Fire Department.

Chapter 65: The Saint Louis Fire Department.

Chapter 66: The Saint Louis Fire Department.

Chapter 67: The Saint Louis Fire Department.

104.1.2 Rule Making Authority. The Building Commissioner shall have authority as necessary in the interest of public health, safety, and general welfare to adopt and promulgate rules and regulations to interpret and implement the provisions of this code, to secure the intent thereof, and to designate requirements applicable because of local climatic or other conditions. Such rules shall not have the effect of waiving structural or fire performance requirements specifically provided for in this code or violating accepted engineering practice involving public safety.

104.2 Applications and Permits. The fire official is authorized to receive applications, review construction documents, and issue permits for construction regulated by this code; issue permits for operations regulated by this code; inspect the premises for which such permits have been issued; and enforce compliance with the provisions of this code.

104.3 Right of Entry. Whenever it is necessary to make an inspection to enforce the provisions of this code or whenever the fire official has reasonable cause to believe that there exists in a building or upon any premises any condition or violation of this code which makes the building or premises unsafe, dangerous, or hazardous, the fire official shall have the authority to enter the building or premises at all reasonable times to inspect or to perform the duties imposed upon the fire official by this code. If such building or premises is occupied, the fire official shall present credentials to the occupant and request entry. If such structure or premises is unoccupied, the code official shall first make a reasonable effort to locate the owner or other person having charge or control of the building or premises and request entry. If entry is refused, the building official has recourse to every remedy provided by law to secure entry.

104.3.1 Warrant. When the fire official has first obtained a proper inspection warrant or other remedy provided by law to secure entry, an owner or occupant or person having charge, care, or control of the building or premises shall not fail or neglect, after proper request is made as herein provided, to permit entry therein by the fire official for the purpose of inspection and examination pursuant to this code.

104.4 Identification. The fire official shall carry proper identification when inspecting buildings, structures, or premises in the performance of duties under this code.

104.5 Notices and Orders. The fire official shall issue such notices or orders as are required to affect compliance with this code.

104.6 Official Records. The fire official shall keep official records as required by Sections 104.6.1 through 104.6.4. Such official records shall be retained for not less than three years, unless otherwise provided by other regulations.

104.6.1 Approvals. A record of approvals granted shall be maintained by the fire official and shall be available for public inspection during business hours in accordance with applicable laws.

104.6.2 Inspections. The fire official shall keep a record of each inspection made, including notices and orders issued, showing the findings and dispositions of each.

104.6.3 Fire Records. The Saint Louis Fire Department shall keep a record of fires occurring within the City of Saint Louis and of facts concerning the same, including statistics as to the extent of such fires and the damage caused thereby together with other information as required by the fire official.

104.6.4 Administrative. Application for modification, alternative methods of materials, and the final decision of the fire official shall be in writing and shall be officially recorded in the permanent records of the fire official.

104.7 Approved Materials and Equipment. Materials, equipment, and devices approved by the fire official shall be constructed and installed in accordance with such approval.

104.7.1 Used Materials and Equipment. The use of used materials which meet the requirements of this code for new materials is permitted. Used equipment and devices shall not be reused unless they have been reconditioned, tested, and placed in good and proper working condition and approved by the building official.

104.7.2 Technical Assistance. To determine the acceptability of technologies, processes, products, facilities, materials, and uses attending the design, operation, or use of a building or premises subject to inspection by the fire official, the fire official is authorized to require the owner or agent to provide, without charge to the City of Saint Louis, a technical opinion and report. The opinion and report shall be prepared by a qualified engineer, specialist, laboratory, or fire safety specialty organization acceptable to the code official and shall analyze the fire safety properties of the de-

sign, operation, or use of the building or premises and the facilities and appurtenances situated thereon to recommend necessary changes. The fire official is authorized to require design submittal to be prepared by and bear the seal, signature, and date of a licensed design professional.

104.8 Modifications. Wherever there are practical difficulties involved in carrying out provisions of this code, the fire official shall have the authority to grant modifications for individual cases upon application of the owner or owner's representative, provided the fire official shall first find that special individual reason makes the strict letter of this code impractical, that the modification is in compliance with the intent and purpose of this code, and that such modification does not lessen health, accessibility, life and fire safety, or structural requirements. The details of action granting modifications shall be recorded and entered in the files of the Division of Building and Inspection.

104.9 Alternative Methods and Materials. The provisions of this code are not intended to prevent the installation of any material or prohibit any method of construction not specifically prescribed for in this code, provided that any such alternative has been approved. The fire official is authorized to approve an alternative material or method of construction where the fire official finds that the proposed design is satisfactory and complies with the intent of the provisions of this code, and that the material, method, or work offered is, for the purpose intended, at least the equivalent of that prescribed in this code in quality, strength, effectiveness, fire resistance, durability, and safety.

104.9.1 Research Reports. Supporting data, when necessary to assist in the approval of materials or assemblies not specifically provided for in this code, shall consist of valid research reports from approved sources.

104.9.2 Tests. Whenever there is insufficient evidence of compliance with the provisions of this code, or evidence that a material or method does not conform to the requirements of this code, or in order to substantiate claims for alternative materials or methods, the fire official shall have the authority to require tests as evidence of compliance to be made at no expense to the City of Saint Louis. Test methods shall be as specified in this code or by other recognized test standards. In the absence of recognized and accepted test methods, the fire official shall approve the testing procedures. Tests shall be performed by an approved agency. Reports of such tests shall be retained by the fire official for the period required for retention of public records.

104.10 Fire Investigation. The fire official, the Fire Department, or other responsible authority shall have the authority to investigate the cause, origin, and circumstances of any fire, explosion, or other hazardous condition. Information that could be related to trade secrets or processes shall not be made part of the public record except as directed by a court of law.

104.10.1 Assistance from Other Agencies. The Saint Louis Metropolitan Police Department and other enforcement agencies shall have the authority to render necessary assistance in the investigation of explosions and fires when requested to do so by the Saint Louis Fire Department.

104.11 Authority at Fires and Other Emergencies. The Fire Chief or officer of the Fire Department in charge at the scene of a fire or other emergency involving the protection of life or property or any part thereof, shall have the authority to direct such operation as necessary to extinguish or control any fire; perform any rescue operation; investigate the existence of suspected or reported fires, gas leaks, or other hazardous conditions or situations; or take any action necessary in the reasonable performance of duty. In the existence of such power, the Fire Chief is authorized to prohibit any person, vehicle, vessel, or thing from approaching the scene and is authorized to remove or cause to be removed or kept away from the scene any vehicle, vessel, or thing that could impede or interfere with the operations of the Fire Department and, in the judgment of the Fire Chief, any person not actually and usefully employed in the extinguishing of such fire or in the preservation of property in the vicinity thereof.

104.11.1 Barricades. The Fire Chief or officer of the Fire Department in charge at the scene of an emergency is authorized to place ropes, guards, barricades, or other obstructions across any street, alley, place, or private property in the vicinity of such operation so as to prevent accidents or interference with the lawful efforts of the Fire Department to manage and control the situation and to handle fire apparatus.

104.11.2 Obstructing Operations. No person shall obstruct the operations of the Fire Department in connection with extinguishment or control of any fire or actions relative to other emergencies, or disobey any lawful command of the Fire Chief or officer of the Fire

Department in charge of the emergency or any part thereof or of a police officer assisting the Fire Department.

104.11.3 Systems and Devices. No person shall render a system or device inoperative during an emergency unless by direction of the Fire Chief or Fire Department official in charge of the incident.

SECTION 105 PERMITS

105.1 General. Permits shall be in accordance with Section 105.1 through 105.7.4

105.1.1 Permits Required. Permits required by this code shall be obtained from the fire official. Permit fees shall be paid prior to issuance of the permit. Issued permits shall be kept on the premises designated therein at all times and shall be readily available for inspection by the fire official.

105.1.2 Types of Permits. There shall be two types of permits as follows:

1. *Operational Permit.* An operational permit allows the applicant to conduct an operation or a business for which a permit is required by Section 105.6 for either:

1.1 A prescribed period.

1.2 Until renewed or revoked.

2. *Building Permit.* A building permit allows the applicant to install or modify systems and equipment for which a permit is required by Section 105.7.

105.1.3 Permits for the Same Location. When more than one permit is required for the same location, the fire official is authorized to consolidate such permits into a single permit provided that such provision is listed in the permit.

105.2 By Whom Application Is Made. Application for a permit shall be made by the owner or lessee of the building or structure, or agent of either, or by the Missouri licensed design professional employed in connection with the proposed work. The full names, addresses, and telephone number of the owner, lessee, and applicant shall be stated in the application. Every application shall have a local contact person listed.

105.2.1 Application for Permit. To obtain a permit, the applicant shall first file an application on a form furnished by the Division of Building and Inspection for that purpose. Such application shall:

1. Identify and describe the work to be covered by the permit for which the application is made.

2. Indicate the use and occupancy for which the proposed work is intended.

3. Be accompanied by construction documents and other information.

4. State the valuation of the proposed work.

5. Be signed by the applicant or the applicant's authorized agent.

6. Give such other data and information as required by the fire official.

105.2.2 Action on Application. The fire official shall examine or cause to be examined applications for permits and amendments thereto. If the application or the construction documents do not conform to the requirements of all pertinent laws, the fire official shall reject such application in writing, stating the reasons therefor. If the fire official is satisfied that the proposed work conforms to the requirements of this code and all City of Saint Louis laws and ordinances applicable thereto, the fire official shall issue a permit. The fire official shall rely upon other City agencies to review for compliance with their ordinance requirements.

105.2.3 Time Limitation of Application. An application for a permit for any proposed work shall be deemed to have been abandoned six months after date of filing unless such application has been pursued in good faith or a permit has been issued, except that the building official is authorized to grant one or more extensions of time for additional periods not exceeding 90 days each if the building official deems that there is reasonable cause and if a written request is received from the applicant for the extension prior to the expiration date.

105.2.4 Time Limitation on Approval. An application for a permit for any proposed work shall have been deemed to have been abandoned three months after the approval date of the building official. A notice of abandonment shall be sent to the applicant of record two weeks prior to the abandonment date. Should the permit still not have been issued after these two weeks, the permit application shall be abandoned.

Applicants who have a record of abandoned permit applications shall be required on all future permits to pay the application fee and a the full permit fee upon application until such time as the abandoned permits have been reapplied for, approved, and permit fees and possible surcharges paid.

105.2.5 Inspection Authorized. Before a new operational permit is approved, the fire official is authorized to inspect the receptacles, vehicles, buildings, devices,

premises, storage spaces, or areas to be used to determine compliance with this code or any operational constraints required.

105.3 Conditions of Permit. A permit shall constitute permission to maintain, store, or handle materials; or to conduct processes which produce conditions hazardous to life or property; or to install equipment utilized in connection with such activities; or to install or modify any fire protection system or equipment or any other construction, equipment installation, or modification in accordance with the provisions of this code where a permit is required by Section 105.6 or 105.7. Such permission shall not be construed as authority to violate, cancel, or set aside any of the provisions of this code or other applicable regulations or laws of the City of Saint Louis.

105.3.1 Expiration. All permits shall be issued in the name of the property owner of record for a period of six months unless noted otherwise. Permits shall be permitted to be extended for additional six-month periods if work is progressing and a written request from the owner for the extension is received by the building official prior to the expiration of each permit. Any permit issued shall become invalid if the authorized work is not commenced within six months after issuance of the permit or if the authorized work is suspended or abandoned for a period of six months after the time of commencing the work, except that the building official shall be permitted to grant one or more extensions of time for additional periods not exceeding six months each if the building official deems that there is reasonable cause and if a written request is received from the owner for the extension prior to the expiration date. No permit shall be extended if after six months from issuance of said permit, no work has begun and the Board of Aldermen has passed an ordinance that would make all or part of the work thereon illegal or unlawful.

Permits shall also be abandoned upon written request from the property owner of record or, if circumstances require, the Missouri licensed design professional.

105.3.2 Partial Occupancy Permits. Upon the request of an owner or an owner's representative, a partial occupancy permit shall be permitted to be issued for a building, structure, or premises, provided that no conditions exist which endanger life, public safety, or welfare. Temporary or partial occupancy permits shall be permitted to be subject to conditions.

105.3.3 Placement of Permit. A true copy of the building permit shall be kept on the site of operations, open to inspection during the entire time of prosecution of the work and until the completion of the same.

105.3.4 Responsibility. It shall be the duty of every person who performs work for the installation or repair of building, structural, electrical, gas, mechanical, or plumbing systems for which this code is applicable to comply with this code.

105.3.5 Notice of Start. At least 24 hours' notice of start of work under a building permit shall be given to the building official.

105.3.6 Compliance with Permit. All work shall conform to the approved application and the approved construction documents for which the permit has been issued and any approved amendments to the approved application or the approved construction documents. Any addition to or alteration of approved construction documents shall be approved in advance by the code official as evidenced by the issuance of a new or amended permit.

105.4 Construction Documents. Construction documents shall be in accordance with this section.

105.4.1 Construction Documents. The application for the permit shall be accompanied by at least five complete sets of construction drawings with sufficient clarity and detailed dimensions to show the nature and character of the work to be performed, and one set of project specifications. The minimum size of any sheet shall be 8½" x 11" and the maximum size of any sheet shall be 36" x 48". When quality of materials is essential for conformity to this code, specific information shall be given to establish such quality and this code shall not be cited or the term "legal" or its equivalent be used as a substitute for specific information. Construction documents containing the words "not for construction," "preliminary," "review set," or their equivalent shall not be accepted for application. Construction documents marked with contractors "take-off" notations shall not be accepted for application.

All construction documents submitted with an application for a building permit shall be prepared by a Missouri licensed design professional as required by RSMo Ch. 327. All construction documents shall bear an original embossed or wet ink seal, original ink signature, and the date the documents were sealed by the Missouri licensed design professional for each disci-

pline on the cover sheet of each set of construction documents and on the first sheet of each discipline's drawings within each set of construction documents.

In addition, all other sheets of the construction documents, other than project specifications or calculations, shall bear the original embossed, wet ink, electronic or mechanically reproduced seal, signature, and date of the Missouri licensed design professional. Any addenda or modifications submitted for changes to the construction documents shall also bear the original embossed or wet ink seal, original ink signature, and date the documents were sealed.

All project specifications or other documents not considered to be construction drawings shall bear an original wet ink or embossed seal, original ink signature, and the date the documents were signed by the Missouri licensed design professional for each discipline on the title or index sheet.

Exception: The building or fire official is authorized to waive the submission of construction documents and other data not required to be prepared by a licensed design professional if it is found that the nature of the work applied for is such that review of construction documents is not necessary to obtain compliance with this code.

105.4.1.1 Examination of Documents. The building or fire official shall examine or cause to be examined the construction documents for code compliance.

105.4.2 Information on Construction Documents. Construction documents shall be drawn and dimensioned upon suitable material. Construction documents shall be of sufficient clarity to indicate the location, nature, and extent of the work proposed and show in detail that it will conform to the provisions of this code and relevant laws, ordinances, rules, and regulations as determined by the building or fire official.

105.4.2.1 Fire Protection System Shop Drawings. Shop drawings for fire protection systems shall be submitted to indicate compliance with this code and the construction documents and shall be approved prior to the start of installation. Shop drawings shall contain all information as required by the referenced installation standards in Chapter 9.

105.4.3 Applicant Responsibility. It shall be the responsibility of the applicant to ensure that the construction documents include all of the fire protection requirements and the shop drawings are complete and in compliance with the applicable codes and standards.

105.4.4 Approved Documents. Construction documents approved by the fire official are approved with the intent that such construction documents comply in all respects with this code. Review and approval by the fire official shall not relieve the applicant of the responsibility of compliance with this code.

105.4.4.1 Phased Approval. The fire official is authorized to issue a permit for the construction of part of a structure, system, or operation before the construction documents for the whole structure, system, or operation have been submitted, provided that adequate information and detailed statements have been filed complying with pertinent requirements of this code. The holder of such permit for parts of a structure, system, or operation shall proceed at the holder's own risk with the building operation and without assurance that a permit for the entire structure, system, or operation will be granted.

105.4.5 Corrected Documents. Where field conditions necessitate any substantial change from the approved construction documents, the fire official shall have the authority to require the corrected construction documents to be submitted for approval.

105.4.6 Retention of Construction Documents. One set of the construction documents shall be retained by the fire official until final approval of the work covered therein. One set of approved construction documents shall be returned to the applicant and said set shall be kept on the site of the building or work at all times during which the work authorized thereby is in progress.

105.5 Revocation. The fire official is authorized to revoke a permit or approval issued under the provisions of this code when it is found by inspection or otherwise that there has been a false statements or misrepresentations as to material fact in the application, data, or construction documents on which the permit or approval was based, including, but not limited to, any one of the following:

1. The permit is issued for a location or establishment other than for which it was issued.

2. The permit is used for a condition or activity other than that listed in the permit.

3. Conditions and limitations set forth in the permit have been violated.

4. There have been any false statements or misrepresentations as to the material fact in the application for permit or plans submitted or a condition of the permit.

5. The permit is used by a different person or firm than the name for which it was issued.

6. The permittee failed, refused, or neglected to comply with orders or notices duly served in accordance with the provisions of this code within the time provided therein.

7. The permit was issued in error or in violation of an ordinance, regulation, or this code.

8. An owner is convicted by a court of competent jurisdiction twice within a twelve-month period of being in violation of the same code provision on the same building, structure, or premises.

105.5.1 Suspension or Revocation. The fire official is authorized to suspend or revoke a permit issued under the provisions of this code whenever the permit is issued in error or on the basis of incorrect, inaccurate, or incomplete information or in violation of any ordinance, regulation, or provision of this code.

105.5.2 Revocation of Permits. The fire official shall be permitted to revoke a permit or approval issued under the provisions of this code in case of any false statement or misrepresentation of fact in the application or on the construction documents on which the permit or approval was based. The fire official shall be permitted to revoke or suspend a permit upon discovery of substantial noncompliance with this code or any applicable City ordinance. Permits shall be revoked for non-payment of fees.

105.6 Required Operational Permits. The fire official is authorized to issue operational permits for the operations set forth in Sections 105.6.1 through 105.6.48. An operational permit fee is permitted to be charged as set forth in Table 113.1.

105.6.1 Aerosol Products. An operational permit is required to manufacture, store, or handle an aggregate quantity of Level 2 or Level 3 aerosol products in excess of 500 pounds net weight. These permits shall be enforced by the Saint Louis Fire Department. See Chapter 51.

105.6.2 Amusement Buildings. An operational permit is required to operate a special amusement building. As set forth in the Building Code, these permits shall be enforced by the Division of Building and Inspection Fire Safety Unit.

105.6.3 Aviation Facilities. An operational permit is required to use a Group H or Group S occupancy for aircraft servicing or repair and aircraft fuel-servicing vehicles. Additional permits required by other sections of this code include, but are not limited to, hot work, hazardous materials, and flammable or combustible finishes. These permits shall be enforced by the Saint Louis Fire Department. See Chapter 20.

105.6.4 Carnivals and Fairs. An operational permit is required to conduct a carnival or fair. As set forth in the Building Code, these permits shall be enforced by the Division of Building and Inspection Fire Safety Unit.

105.6.5 Cellulose Nitrate Film. An operational permit is required to store, handle, or use cellulose nitrate film in a Group A occupancy. These permits shall be enforced by the Division of Building and Inspection Fire Safety Unit. See Section 306.

105.6.6 Combustible dust-producing operations. An operational permit is required to operate a grain elevator, flour starch mill, feed mill, or a plant pulverizing aluminum, coal, cocoa, magnesium, spices or sugar, or other operations producing combustible dusts as defined in Chapter 2. These permits shall be enforced by the Saint Louis Fire Department. See Chapter 22.

105.6.7 Combustible Fibers. An operational plant is required for the storage and handling of combustible fibers in quantities greater than 100 cubic feet. These permits shall be enforced by the Saint Louis Fire Department. See Chapter 37.

105.6.8 Compressed Gases. An operational permit is required for the storage, use, or handling at normal temperatures and pressure (NTP) of compressed gases in excess of the amounts listed in Table 105.6.8. These permits shall be enforced by the Saint Louis Fire Department. See Chapter 53.

Exception:

1. When used in accordance with Section 319.8 for cooking on Mobile Food Preparation Vehicles or trailers.

2. Vehicles equipped for and using compressed gas as a fuel for propelling the vehicle.

Table 105.6.8

PERMIT AMOUNTS FOR COMPRESSED GASSES

Type of Gas	Amount (cubic feet at NTP)
Corrosive	200
Flammable (except cryogenic fluids and liquified petroleum gases)	200
Highly toxic	Any Amount
Inert and simple asphyxiant (a)	6,000

Type of Gas	Amount (cubic feet at NTP)
Oxidizing (including oxygen)	504
Pyrophoric	Any Amount
Toxic	Any Amount
For SI: 1 cubic foot = 0.02832 m3.	
A. For carbon dioxide used in beverage dispensing applications, see Section 105.6.4.	

105.6.9 Covered and Open Mall Buildings. An operational permit is required for:

1. The placement of retail fixtures and displays, concession equipment, displays of highly combustible goods, and similar items in the mall.

2. The display of liquid- or gas-fired equipment in the mall.

3. The use of open-flame or flame-producing equipment in the mall.

As set forth in the Building Code, these permits shall be enforced by the Division of Building and Inspection Fire Safety Unit.

105.6.10 Cryogenic Fluids. An operational permit is required to produce, store, transport on site, use, handle, or dispense cryogenic fluids in excess of the amounts listed in Table 105.6.11. These permits shall be enforced by the Saint Louis Fire Department. See Chapter 63.

Exception: Permits are not required for vehicles equipped with and using cryogenic fluids as a fuel for propelling the vehicle or for refrigerating the lading.

Table 105.6.10

PERMIT AMOUNTS FOR CRYOGENIC FLUIDS

Type of cryogenic fluid	Inside building (gallons)	Outside building (gallons)
Flammable	More than 1	60
Inert	60	500
Oxidizing (including oxygen)	10	50
Physical or health hazard not indicated above	Any Amount	Any Amount
For SI: 1 gallon = 3.785 L.		

105.6.11 Cutting and Welding. An operational permit is required to conduct cutting or welding operations. These permits shall be enforced by the Saint Louis Fire Department. See Chapter 35. Permit fees shall be as established in Table 113.1.

105.6.12 Dry Cleaning. An operational permit is required to engage in the business of dry cleaning or to change to a more hazardous cleaning solvent used in existing dry cleaning equipment. These permits shall be enforced by the Division of Building and Inspection Fire Safety Unit. See Chapter 21.

105.6.13 Exhibits and Trade Shows. An operational permit is required to operate exhibits and trade shows. These permits shall be enforced by the Division of Building and Inspection Fire Safety Unit.

105.6.14 Explosives. An operational permit is required for the manufacture, storage, handling, sale, or use of any quantity of explosives, explosive material, fireworks, or pyrotechnic special effects within the scope of Chapter 56. These permits shall be enforced by the Saint Louis Fire Department. Permit fees shall be as established in Table 113.1.

105.6.15 Fire Hydrants and Valves. An operational permit is required to use or operate fire hydrants or valves intended for fire suppression purposes which are installed on water systems and provided with ready access from a fire apparatus access road that is open or generally used by the public. These permits shall be enforced by the Saint Louis Fire Department. See Section 507.

Exception: A permit is not required for authorized employees of the Saint Louis Water Department or the Fire Department to use or operate fire hydrants or valves.

105.6.16 Flammable and Combustible Liquids. An operational permit is required:

1. To use or operate a pipeline for the transportation within facilities of flammable or combustible liquids. This requirement shall not apply to off-site transportation in pipelines regulated by the Department of Transportation nor does it apply to piping systems.

2. To store, handle or use Class I liquids in excess of five gallons in a building or in excess of ten gallons outside of a building except that a permit is not required for the following:

2.1 The storage or use of Class I liquids in the fuel tank of a motor vehicle, aircraft, motorboat, mobile power plant, or mobile heating plant unless such storage, in the opinion of the code official, would cause an unsafe condition.

2.2 The storage or use of paints, oils, varnishes, or similar flammable mixtures when such liquids are stored for maintenance, painting, or similar purposes for a period of not more than thirty days.

3. To store, handle, or use Class II or Class IIIA liquids in excess of 25 gallons in a building or in excess of 60 gallons outside a building except for fuel oil used in connection with oil-burning equipment.

4. To store, handle or use Class IIIB liquids in tanks or portable tanks for fueling motor vehicles at motor fuel-dispensing facilities or where connected to fuel-burning equipment.

Exception: Fuel oil and used motor oil used for space heating or water heating.

5. To remove Class I or Class II liquids from an underground storage tank used for fueling motor vehicles by any means other than the approved, stationary on-site pimps normally used for dispensing purposes.

6. To operate tank vehicles, equipment, tanks, plants, terminals, wells, fuel-dispensing stations, refineries, distilleries, and similar facilities where flammable and combustible liquids are produced, processed, transported, stored, dispensed, or used.

7. To place temporarily out of service (for more than 90 days) an underground, protected above-ground, or above-ground flammable or combustible liquid tank.

8. To change the type of contents stored in a flammable or combustible liquid tank to a material which poses a greater hazard than that for which the tank was designed and constructed.

9. To manufacture, possess, blend, or refine flammable or combustible liquids.

10. To engage in the dispensing of liquid fuels into the fuel tanks of motor vehicles at commercial, industrial, governmental, or manufacturing establishments.

11. To utilize a site for the dispensing of liquid fuels from tank vehicles into the fuel tanks of motor vehicles, marine craft, and other special equipment at commercial, industrial, governmental, or manufacturing establishments.

These permits shall be enforced by the Saint Louis Fire Department. See Chapter 57. Permit fees shall be as established in Table 113.1.

105.6.17 Floor Finishing. An operational permit is required for floor finishing or surfacing operations exceeding 350 square feet using Class I or Class II liquids. These permits shall be enforced by the Division of Building and Inspection Fire Safety Unit.

105.6.18 Fruit and Crop Ripening. An operational permit is required to operate a fruit-or crop-ripening facility or conduct a fruit-ripening process using ethylene gas. These permits shall be enforced by the Saint Louis Fire Department. See Chapter 25.

105.6.19 Fumigation and Thermal Insecticide Fogging. An operational permit is required to operate a business of fumigation or thermal insecticide fogging and to maintain a room, vault, or chamber in which a toxic or flammable fumigant is used. These permits shall be enforced by the Saint Louis Fire Department. See Chapter 26.

105.6.20 Hazardous Materials. An operational permit is required to store, transport on site, dispense, use, or handle hazardous materials in excess of the amounts listed in Table 105.6.20. These permits shall be enforced by the Saint Louis Fire Department. See Chapter 50.

Table 105.6.20

PERMIT AMOUNTS FOR HAZARDOUS MATERIALS

Type of Material	Amount
Combustible liquids	See Section 105.6.16
Corrosive materials	
Gases	See Section 105.6.8
Liquids	55 gallons
Solids	1000 pounds
Explosive materials	See Section 105.6.14
Flammable materials	
Gases	See Section 105.6.8
Liquids	See Section 105.6.16
Solids	100 pounds
Highly toxic materials	
Gases	See Section 105.6.8
Liquids	Any Amount
Solids	Ant Amount
Oxidizing materials	
Gases	See Section 105.6.8
Liquids	
Class 4	Any Amount
Class 3	1 gallon (a)
Class 2	10 gallons
Class 1	55 gallons
Solids	
Class 4	Any amount
Class 3	10 pounds (b)
Class 2	100 pounds
Class 1	500 pounds
Organic peroxides	
Liquids	
Class I	Any Amount
Class II	Any Amount
Class III	1 gallon
Class IV	2 gallons
Class V	No permit required
Solids	
Class I	Any Amount

Type of Material	Amount
Class II	Any Amount
Class III	10 pounds
Class IV	20 pounds
Class V	No permit required
Pyrophoric materials	
Gases	Any Amount
Liquids	Any Amount
Solids	Any Amount
Toxic materials	
Gases	See Section 105.6.8
Liquids	10 gallons
Solids	100 pounds
Unstable (reactive) materials	
Liquids	
Class 4	Any Amount
Class 3	Any Amount
Class 2	5 gallons
Class 1	10 gallons
Solids	
Class 4	Any Amount
Class 3	Any Amount
Class 2	50 pounds
Class 1	100 pounds
Water-reactive Materials	
Liquids	
Class 3	Any Amount
Class 2	5 gallons
Class 1	55 gallons
Solids	
Class 3	Any Amount
Class 2	50 pounds
Class 1	500 pounds

For SI: 1 gallon = 3.785 L, 1 pound = 0.454 kg.

a. 20 gallons when Table 5003.1.1(1) Note k applies and hazard identification signs in accordance with Section 5003.5 are provided for quantities of 20 gallons or less.

b. 200 pounds when Table 5003.1.1(1) Note k applies and hazard identification signs in accordance with Section 5003.5 are provided for quantities of 200 pounds or less.

105.6.21 HPM Facilities. An operational permit is required to store, handle or use hazardous production materials. These permits shall be enforced by the Saint Louis Fire Department. See Chapter 50.

105.6.22 High-Piled Storage. An operational permit is required to use a building or portion thereof with more than 500 square feet, including aisles, of high-piled storage. These permits shall be enforced by the Saint Louis Fire Department. See Chapter 32.

105.6.23 Hot Work Operations. An operational permit is required for hot work, including, but not limited to:

1. Public exhibitions and demonstrations where hot work is conducted.

2. Use of portable hot work equipment within a structure.

Exception: Work that is conducted under a construction permit.

3. Fixed-site hot work equipment such as welding booths.

4. Hot work conducted within a wildfire risk area.

5. Application of roof coverings with the use of an open-flame device.

6. When approved, the code official shall issue a permit to carry out a hot work program. This program allows approved personnel to regulate their facility's hot work operation. The approved personnel shall be trained in the fire safety aspects denoted in this chapter and shall be responsible for issuing permits requiring compliance with the requirements found in Chapter 35. These permits shall be issued only to their employees or hot work operations under their supervision.

These permits shall be enforced by the Saint Louis Fire Department.

105.6.24 Industrial Ovens. An operational permit is required for operation of industrial ovens regulated by Chapter 30. These permits shall be enforced by the Division of Building & Inspection Fire Safety Unit.

105.6.25 Lumber Yards and Woodworking Plants. An operational permit is required for the storage or processing of lumber exceeding 100,000 board feet. These permits shall be enforced by the Saint Louis Fire Department. See Chapter 28.

105.6.26 Liquid- or Gas-Fueled Vehicles or Equipment in Assembly Buildings. An operational permit is required to display, operate, or demonstrate liquid- or gas-fueled vehicles or equipment in assembly buildings. These permits shall be enforced by the Saint Louis Fire Department. See Chapter 57.

105.6.27 LP-gas. An operational permit is required for:

1. Storage and use of LP-gas.

Exception:

1. When used in accordance with Section 319.8 for cooking on mobile food preparation vehicles or trailers.

2. A permit is not required for individual containers with a 500-gallon (1893 L) water capacity or less serving occupancies in Group R-3.

2. Operation of cargo tankers that transport LP-gas.

These permits shall be enforced by the Saint Louis Fire Department. See Chapter 61. Permit fees shall be as established in Table 113.1.

105.6.28 Magnesium. An operational permit is required to melt, cast, heat treat, or grind more than ten pounds of magnesium. These permits shall be enforced by the Saint Louis Fire Department. See Chapter 59.

105.6.29 Miscellaneous Combustible Storage. An operational permit is required to store in any building or upon any premises in excess of 2,500 cubic feet gross volume of combustible empty packing cases, boxes, barrels or similar containers, rubber tires, rubber, cork, or similar combustible materials. These permits shall be enforced by the Division of Building and Inspection Fire Safety Unit. See Section 315.

105.6.30 Mobile Food Vehicles. A permit is required for mobile food vehicles and trailers. These permits shall be enforced by the Division of Building and Inspection Fire Safety Unit.

105.6.31 Motor Fuel Dispensing Facilities. An operational permit is required for the operation of automotive, marine, and fleet motor fuel dispensing facilities. These permits shall be enforced by the Saint Louis Fire Department.

105.6.32 Open Burning. An operational permit is required for the kindling or maintaining of an open fire or a fire on any public street, alley, road, or other public or private ground. Instructions and stipulations of the permit shall be adhered to. These permits shall be enforced by the Saint Louis Fire Department. See Section 307.

Exception: Recreational fires.

105.6.33 Open Flames and Torches. An operational permit is required to remove paint with a torch or to use a torch or open-flame device in a wildfire risk area. These permits shall be enforced by the Division of Building and Inspection Fire Safety Unit. See Section 308.

105.6.34 Open Flames and Candles. An operational permit is required to use open flames or candles in connection with assembly areas, dining areas of restaurants, or drinking establishments. These permits shall be enforced by the Division of Building and Inspection Fire Safety Unit. See Section 308.

105.6.35 Organic Coatings. An operational permit is required for any organic-coating manufacturing operation producing more than 1 gallon (4 L) of an organic coating in one day. These permits shall be enforced by the Saint Louis Fire Department. See Chapter 29. Permit fees shall be as established in Table 113.1.

105.6.36 Outdoor Assembly Event. An operational permit is required to conduct an outdoor assembly event where planned attendance exceeds 1,000 persons. These permits shall be enforced by the Division of Building and Inspection Fire Safety Unit.

105.6.37 Places of Assembly. An operational permit is required to operate a place of assembly. These permits shall be enforced as set forth in the Building Code by the Division of Building and Inspection Fire Safety Unit.

105.6.38 Plant Extraction Systems. An operational permit is required to use plant extraction systems. These permits shall be enforced by the Saint Louis Fire Department.

105.6.39 Private Fire Hydrants. An operational permit is required for the removal from service, use, or operation of private fire hydrants. These permits shall be enforced by the Division of Building and Inspection Plumbing Section.

Exception: A permit is not required for private industry with trained maintenance personnel, private fire brigade or Fire Department to maintain, test, and use private hydrants.

105.6.40 Pyrotechnical Special Effects Material. An operational permit is required for use and handling of pyrotechnic special effects material. These permits shall be enforced by the Saint Louis Fire Department. See Chapter 56.

105.6.41 Pyroxylin Plastics. An operational permit is required for storage or handling of more than 25 pounds of cellulose nitrate (pyroxylin) plastics and for the assembly or manufacture of articles involving pyroylin plastics. These permits shall be enforced by the Saint Louis Fire Department. See Chapter 65.

105.6.42 Refrigeration Equipment. An operational permit is required to operate a mechanical refrigeration unit or system regulated by Chapter 6. These permits shall be enforced by the Division of Building and Inspection Mechanical Inspection Section.

105.6.43 Repair Garages and Motor Fuel Dispensing Facilities. An operational permit is required for operation of repair garages and automotive, marine, and fleet motor fuel dispensing facilities. As set forth in the Building Code, these permits shall be enforced by the Saint Louis Fire Department. See Chapter 23.

105.6.44 Rooftop Heliports. An operational permit is required for the operation of a rooftop heliport.

As set forth in the Building Code, these permits shall be enforced by the Saint Louis Fire Department. See Chapter 20.

105.6.45 Spraying or Dipping. An operational permit is required to conduct a spraying or dipping operation utilizing flammable or combustible liquids or the application of combustible powders regulated by Chapter 24. These permits shall be enforced by the Division of Building and Inspection Mechanical Inspection Section.

105.6.46 Storage of Scrap Tires and Tire Byproducts. An operational permit is required to establish, conduct, or maintain storage of scrap tires and tire byproducts that exceeds 2,500 cubic feet of total volume of scrap tires and for indoor storage of tires and tire byproducts. These permits shall be enforced by the Saint Louis Fire Department. See Chapter 25.

105.6.47 Temporary Membrane Structures, Tents, and Canopies. An operational permit is required to operate an air-supported temporary membrane structure or a tent per Chapter 31. These permits shall be enforced by the Division of Building and Inspection Fire Safety Unit.

105.6.48 Tire-Rebuilding Plants. An operational permit is required for the operation and maintenance of a tire-rebuilding plant. These permits shall be enforced by the Saint Louis Fire Department. See Chapter 34.

105.6.49 Waste Handling. An operational permit is required for the operation of wrecking yards, junk yards, and waste material handling facilities. These permits shall be enforced by the Division of Building and Inspection Fire Safety Unit.

105.6.50 Wood Products. An operational permit is required to store chips, hogged material, lumber, or plywood in excess of 200 cubic feet. These permits shall be enforced by the Saint Louis Fire Department. See Chapter 28.

105.7 Required Building Permits. The fire official is authorized to issue building permits for work as set forth in Sections 105.7.1 through 105.7.14.

105.7.1 Automatic Fire-Extinguishing Systems. A building permit is required for installation of or modification to an automatic fire-extinguishing system. Maintenance performed in accordance with this code is not considered a modification and does not require a permit. These permits shall be enforced by the Division of Building and Inspection Mechanical Inspection Section.

105.7.2 Battery Systems. A permit is required to install stationary storage battery systems having a liquid capacity more than 50 gallons. These permits shall be enforced by the Division of Building and Inspection Electrical Inspection Section.

105.7.3 Capacitor Energy Storage Systems. A permit is required to install capacitor energy storage systems regulated by Section 1206.3. These permits shall be enforced by the Division of Building and Inspection Electrical Inspection Section.

1*05.7.4 Compressed Gases.* When the compressed gases in use or storage exceed the amounts listed in Table 105.6.9, a permit is required to install, repair damage to, abandon, remove, place temporarily out of service, close, or substantially modify a compressed gas system. These permits shall be enforced by the Saint Louis Fire Department.

Exceptions:

1. Routine maintenance.
2. For emergency repair work performed on an emergency basis, application for permit shall be made within two working days of commencement of work.

105.7.5 Cryogenic Fluids. A permit is required for installation of or alteration to outdoor stationary cryogenic fluid storage systems where the system capacity exceeds the amounts listed in Table 105.6.10. Maintenance performed in accordance with this code is not considered an alteration and does not require a construction permit. These permits shall be enforced by the Saint Louis Fire Department.

105.7.6 Emergency Responder Radio Coverage System. A permit is required for installation of or modification to emergency responder radio coverage systems and related equipment. Maintenance performed in accordance with this code is not considered to be a modification and does not require a permit. These permits shall be enforced by the Division of Building and Inspection Electrical Inspection Section.

105.7.7 Fire Alarm and Detection Systems and Related Equipment. A building permit is required for installation or modification to fire alarm and detection systems and related equipment. Maintenance performed in accordance with this code is not considered a modification and does not require a permit. These permits shall be enforced by the Division of Building and Inspection Electrical Inspection Section.

105.7.8 Fire Pumps and Related Equipment. A permit is required for installation of or modification to fire pumps and related fuel tanks, jockey pumps, control-

lers, and generators. Maintenance performed in accordance with this code is not considered a modification and does not require a permit. These permits shall be enforced by the Division of Building and Inspection Mechanical Inspection Section.

105.7.9 Flammable and Combustible Liquids. A permit it required:

1. To install, repair, or modify a pipeline for the transportation of flammable or combustible liquids.

2. To install, construct, or alter tank vehicles, equipment, tanks, plants, terminals, wells, fuel dispensing stations, refineries, distilleries, and similar facilities where flammable and combustible liquids are produced, processed, transported, stored, dispensed, or used.

3. To install, alter, remove, abandon, or otherwise dispose of a flammable or combustible liquid tank.

These permits shall be enforced by the Saint Louis Fire Department.

105.7.10 Fuel Cell Power Systems. A permit is required to install stationary fuel cell power systems. These permits shall be enforced by the Division of Building and Inspection Electrical Inspection Section.

105.7.11 Gas Detection Systems. A permit is required for the installation or modification to gas detection systems. Maintenance performed in accordance with this code is not considered a modification and does not require a permit.

105.7.12 Gates and Barricades Across Fire Apparatus Access Roads. A permit is required for the installation of or modification to a gate or barricade across a fire apparatus access road. These permits shall be enforced by the Saint Louis Fire Department.

105.7.13 Hazardous Materials. A permit is required to install, repair damage to, abandon, remove, place temporarily out of service, close, or substantially modify a storage facility or other area regulated by Chapter 50 when the hazardous materials in use or storage exceed the amounts listed in Table 105.6.20. These permits shall be enforced by the Saint Louis Fire Department.

Exceptions:

1. Routine maintenance.

2. For emergency repair work performed on an emergency basis, application for permit shall be made within two working days of commencement of work.

105.7.14 High-Piled Combustible Storage. A permit is required for the installation of or modification to a structure exceeding 500 square feet including aisles, for high-piled combustible storage. Maintenance performed in accordance with this code is not considered a modification and does not require a permit. These permits shall be enforced by the Saint Louis Fire Department.

105.7.15 Industrial Ovens. A permit is required for installation of industrial ovens covered by Chapter 30.

Exceptions:

1. Routine maintenance.

2. For repair work performed on an emergency basis, application for permit shall be made within two working days of commencement of work.

These permits shall be enforced by the Division of Building & Inspection Fire Safety Unit.

105.7.16 LP-gas. A permit is required for installation of or modification to an LP-gas system. These permits shall be enforced by the Saint Louis Fire Department.

105.7.17 Motor Vehicle Repair Rooms and Booths. A permit is required to install or modify a motor vehicle repair room or booth. Maintenance performed in accordance with this code is not considered a modification and does not require a permit. These permits shall be enforced by the Saint Louis Fire Department.

105.7.18 Plant Extraction Systems. A permit is required for installation of or modification to plant extraction systems. Maintenance performed in accordance with this code is not considered a modification and does not require a permit. These permits shall be enforced by the Saint Louis Fire Department.

105.7.19 Private Fire Hydrants. A permit is required for the installation or modification of private fire hydrants. These permits shall be enforced by the Division of Building and Inspection Plumbing Inspection Section.

105.7.20 Smoke Control or Smoke Exhaust Systems. Permits are required for installation of or alteration to smoke control or smoke exhaust systems. Maintenance performed in accordance with this code is not considered a modification and does not require a permit. These permits shall be enforced by the Division of Building and Inspection Mechanical Inspection Section.

105.7.21 Solar Photovoltaic Power Systems. A permit is required to install or modify solar photovoltaic power systems. Maintenance performed in accordance with this code is not considered a modification and

does not require a permit. These permits shall be enforced by the Division of Building and Inspection Electrical Inspection Section.

105.7.22 Special Event Structure. A construction permit is required to erect and take down a temporary special event structure. These permits shall be enforced by the Division of Building & Inspection Fire Safety Unit.

105.7.23 Spraying or Dipping. A permit is required to install or modify a spray room, dip tank, or booth. These permits shall be enforced by the Division of Building and Inspection Mechanical Inspection Section.

105.7.24 Standpipe System. A building permit is required for the installation, modification, or removal from service of a standpipe system. Maintenance performed in accordance with this code is not considered a modification and does not require a permit. These permits shall be enforced by the Division of Building and Inspection Mechanical Inspection Section.

105.7.25 Temporary Membrane Structures, Tents, and Canopies. A building permit is required to erect an air-supported temporary membrane structure or a tent per Chapter 31. These permits shall be enforced by the Division of Building and Inspection Fire Safety Unit.

SECTION 106 INSPECTIONS

106.1 Inspection Authority. Construction or work for which a permit is required shall be subject to inspection by the building or fire official and such construction or work shall remain accessible and exposed for inspection purposes until approved. Approval as a result of an inspection shall not be construed to be an approval of a violation of the provisions of this code or of other ordinances of the City of Saint Louis. Inspections presuming to give authority to violate or cancel the provisions of this code or of other ordinances shall not be valid.

106.2 Inspections. The fire official is authorized to conduct such inspections as are deemed necessary to determine the extent of compliance with the provisions of this code and to approve reports of inspection by approved agencies or individuals. All reports of inspections shall be prepared and submitted in writing for review and approval. Inspection reports must be certified by a responsible officer of such approved agency or by the responsible individual. The fire official is authorized to engage such expert opinion as deemed necessary to report upon unusual, detailed, or complex technical issues subject to the approval of the governing body.

106.2.1 Inspection Requests. It shall be the duty of the holder of the permit or their duly authorized agent to notify the fire official when work is ready for inspection. It shall be the duty of the permit holder to provide access to and means for inspections of such work that are required by this code.

106.3 Authority to Enter. The fire official shall have the authority to enter at any reasonable hour any building, structure, or premises in the City of Saint Louis for which a permit has been issued but has not received a certificate of occupancy in accordance with Section 104.3 to enforce the provisions of this code or any other code or ordinance of the City of Saint Louis. No person shall accompany a building official onto a premises in the performance of their duty unless otherwise invited onto said premises by the owner or the owner's representative.

For all other structures or premises, when the building official has reasonable cause to believe that a code violation exists, the building official is authorized to enter the building, structure, or premises at reasonable times to inspect subject to constitutional restrictions on unreasonable searches and seizures. If entry is refused or not obtained, the building official is authorized to pursue recourse as provided by law.

106.4 Concealed Work. It shall be the duty of the permit applicant to cause the work to remain accessible and exposed for inspection purposes. Whenever any installation subject to inspection prior to use is covered or concealed without having first been inspected, the fire official shall have the authority to require that such work be exposed for inspection. Neither the fire official nor the City of Saint Louis shall be liable for expense entailed in the removal or replacement of any material required to allow inspection.

SECTION 107 MAINTENANCE

107.1 Maintenance of Safeguards. Whenever or wherever any device, equipment, system, condition, arrangement, level of protection, or any other feature is required for compliance with the provisions of this code or otherwise installed, such device, equipment, system, condition, arrangement, level of protection, or any other feature shall thereafter be continuously maintained in accordance with this code and applicable referenced standards.

107.2 Testing and Operation. Equipment requiring periodic testing or operation to ensure maintenance shall be tested or operated as specified in this code.

107.2.1 Testing and Inspection Records. Required test and inspection records shall be available to the fire official at all times or such records as the fire official designates shall be filed with the fire official.

107.2.2 Reinspection and Testing. When any work or installation does not pass an initial test or inspection, the necessary corrections shall be made so as achieve compliance with this code. The work or installation shall then be resubmitted to the fire official for inspection and testing.

107.3 Supervision. Maintenance and testing shall be under the supervision of a responsible person who shall ensure that such maintenance and testing are conducted at specified intervals in accordance with this code.

107.4 Rendering Equipment Inoperable. Portable or fixed fire-extinguishing systems or devices and fire-warning systems shall not be rendered inoperative or inaccessible except as necessary during emergencies, maintenance, repairs, alterations, drills, or prescribed testing.

107.5 Owner/Occupant Responsibility. Correction and abatement of violations of this code shall be the responsibility of the owner. If an occupant creates or allows to be created hazardous conditions in violation of this code, the occupant shall be held responsible for the abatement of such hazardous conditions.

107.6 Overcrowding. Overcrowding or admittance of any person beyond the approved capacity of a building or portion thereof shall not be allowed. The fire official, upon finding any overcrowding conditions or obstructions in aisles, passageways, or other means of egress or upon finding any condition which constitutes a life safety hazard, shall be authorized to cause the event to be stopped until such condition or obstruction is corrected.

SECTION 108 MEANS OF APPEAL

108.1 General. Any person aggrieved by a decision of the fire official may appeal said decision to the Board of Building Appeals.

108.2 Appeals to Stay Proceedings; Exceptions. Appeals shall stay all proceedings in furtherance of the action appealed from, unless the building official or fire official, whichever shall be the case, certifies to the Board of Building Appeals after the notice of appeal has been filed that by reason of the facts stated in the certificate, a stay would, in their opinion, cause imminent peril to life or property. Proceedings shall not be stayed other than by restraining order.

SECTION 109 VIOLATIONS

109.1 Unlawful Acts. It shall be unlawful for a person, firm, or corporation to erect, construct, alter, repair, remove, demolish, or utilize a building, occupancy, premises, or system regulated by this code or cause same to be done in conflict with or in violation of any of the provisions of this code or any decision or order of the Board of Building Appeals.

109.2 Notice of Violation. Whenever the fire official finds a building, premises, vehicle, storage facility, or outdoor area that is in violation of this code, the fire official is authorized to prepare a written notice of violation describing the condition deemed unsafe and, when compliance is not immediate, specifying a time for reinspection.

109.2.1 Service. The fire official is authorized to serve a notice of violation or order on the owner as shown in the records of the City of Saint Louis Assessor's Office or person responsible for the erection, construction, alteration, extension, repair, moving, removal, demolition, use, or occupancy of a building, structure, or premises in violation of the provisions of this code, in violation of a detail statement or construction documents approved hereunder, or in violation of a permit or certificate issued under the provisions of this code. Such order shall direct the discontinuance of the illegal action or condition and the abatement of the violation. Such notice shall be permitted to be served by the United States mail. Posting of the premises shall also constitute notice. It shall be a violation of this code for any person to remove any such notice lawfully posted pursuant to this code unless otherwise ordered by the fire official.

109.2.2 Compliance with Orders and Notices. A notice of violation issued or served as provided by this code shall be complied with by the owner, operator, occupant, or other person responsible for the condition or violation to which the notice of violation pertains.

109.2.3 Prosecution of Violation. If the notice of violation is not complied with promptly, the fire official is authorized to request the legal counsel of the City of Saint Louis to institute the appropriate proceeding at law or in equity to restrain, correct, or abate such violation or to require the removal or termination of

the unlawful occupancy of the building, structure, or premises in violation of the provisions of this code or of the order or direction made pursuant thereto.

109.3 Violation Penalties. Any person who violates a provision of this code or fails to comply with any of the requirements thereof or who erects, constructs, alters, or repairs a building or structure in violation of the approved construction documents, directive of the fire official, or a permit or certificate issued under the provisions of this code shall be subject to penalties as prescribed in Section 25.06.040.

109.4 Abatement of Violation. The imposition of penalties as set forth in Section 25.06.040 shall not preclude the legal officer of the City of Saint Louis from instituting appropriate action to prevent unlawful construction; to restrain, correct, or abate a violation; to prevent illegal occupancy of a building, structure, or premises; or to stop an illegal act, conduct business, or use of a building or structure on or about any premises.

SECTION 110 UNSAFE BUILDINGS

110.1 General. If during the inspection of a premises, a building or structure or any building system, in whole or in part, constitutes a clear and inimical threat to human life, safety, or health, the fire official shall issue such notice or orders to remove or remedy the conditions as shall be deemed necessary in accordance with this section and shall refer the building to the Division of Building and Inspection for any repairs, alterations, remodeling, removing, or demolition required.

110.1.1 Unsafe Conditions. Structures or existing equipment that are or hereafter become unsafe or deficient because of inadequate means of egress; which constitute a fire hazard; are otherwise dangerous to human life or the public welfare; which involve illegal or improper occupancy or inadequate maintenance shall be deemed an unsafe condition. A vacant structure which is not secured against unauthorized entry as required by Section 311 shall be deemed unsafe.

110.1.2 Structural Hazards. When an apparent structural hazard is caused by the faulty installation, operation, or malfunction of any of the items or devices governed by this code, the fire official shall immediately notify the building official in accordance with Section 110.1.

110.2 Evacuation. The fire official or the Fire Department official in charge of an incident shall be authorized to order the immediate evacuation of any occupied building deemed unsafe when such building has hazardous conditions that present imminent danger to building occupants. Persons so notified shall immediately leave the structure or premises and shall not enter or re-enter until authorized to do so by the fire official or the Fire Department official in charge of the incident.

110.3 Summary Abatement. Where conditions exist that are deemed hazardous to life and property, the code official or Fire Department official in charge of the incident is authorized to abate summarily such hazardous conditions that are in violation of this code.

110.4 Abatement. The owner, operator, or occupant of a building or premises deemed unsafe by the fire official shall abate or cause to be abated or corrected such unsafe conditions either by repair, rehabilitation, demolition, or other approved corrective action.

SECTION 111 STOP WORK ORDER

111.1 Order. Whenever the fire official finds any work regulated by this code being performed in a manner contrary to the provisions of this code or in a dangerous or unsafe manner, the fire official is authorized to issue a stop work order.

111.2 Issuance. The stop work order shall be in writing and shall be given to the owner of the property involved, or to the owner's agent, or to the person doing the work. Upon issuance of a stop work order, the cited work shall immediately cease. The stop work order shall state the reason for the order and the conditions under which the cited work will be permitted to resume.

111.3 Emergencies. When an emergency exists, the fire official shall not be required to give a written notice prior to stopping the work.

111.4 Unlawful Continuance. Any person who shall continue any work in or about the building, structure, or premises after having been served with a stop work order, except such work as they are directed to perform to remove a violation or unsafe condition, shall, upon conviction thereof, be subject to the penalties as set forth in Section 25.06.040. Each day that a violation continues shall constitute a separate and distinct offense.

SECTION 112 SERVICE UTILITIES

112.1 Authority to Disconnect Service Utilities. The fire official shall have the authority to authorize disconnection of utility service to the building, structure, or

system in order to safely execute emergency operations or to eliminate an immediate hazard. The fire official shall notify the serving utility and, whenever possible, the owner and occupant of the building, structure, or service system of the decision to disconnect prior to taking such action if not notified prior to disconnection. The owner or occupant of the building, structure, or service system shall be notified in writing as soon as practical thereafter.

SECTION 113 FEES

113.1 General. No permit, certificate, or inspection report required by the provisions of this code shall be released or issued until the fees listed in this section have been paid to the City of Saint Louis as collected by the fire official or designated representative; nor shall an addendum to a permit be released until the additional fees have been paid. In collecting said fees, the fire official is authorized to accept personal checks as payment; however, non-payment by said checking account shall be considered as a violation of this code and is cause for suspension or revocation of permits, certificates, or reports issued or released for such personal check payment. If a permit is suspended or revoked for non-payment of a fee or for insufficient funds, an additional $25.00 shall be collected to cover administrative costs.

113.1.1 Payment of Fees. A permit shall not be issued until the designated fees listed in Table 113.1 have been paid. The payment of these fees shall not relieve the applicant or holder of any permit from the payment of other fees or from obtaining other required permits which may be prescribed by ordinance such as building permits, Board of Public Service permits, plumbing permits, fees for water and sewer connections, electrical permits, or fees for other inspections and privileges.

113.1.2 Application Fee. An application fee is an administrative charge made for processing permit applications and shall be the fee as listed in Table 113.1.

Table 113.1

PERMIT FEES AND REQUIREMENTS (a)

Section	Description	Permit Fee	Duration (b)
113.1.2	Application fee	$25.00	
105.6	Operational permit fee	$50.00	
2901.2	Organic coatings Use of more than one gallon per day	$50.00 (c)	
3501.2	Welding or cutting Individual site City wide	$40.00 $60.00	each operation yearly
5601.2	Fireworks (individual demonstration only.)		
	To store (not to exceed 48 hours.)	$50.00	
	To discharge	$50.00	
	To transport		
	One vehicle	$30.00	per event
	Other vehicles	$15.00	per event
5601.2	Explosives/blasting Storage, handling, and use of blasting agents.	$120.00	
5701.4	Flammable and combustible liquids - storage, handling, use, processing Storage Vaults	$50.00 (c)	
5701.4 & 5708.13 & 5709.4	Flammable and combustible liquids - tanks and equipment (per tank) To abandon, install or remove To repair any tank piping or pumps To clean	 $50.00 $40.00 $40.00	 as required as required as required
6101.2	Liquefied petroleum gases		
	Any quantity for exhibits, demonstrations, picnics, and carnivals (for duration of event or performance applied for.)	$50.00	per event
	Bulk installation	$50.00 (c)	per vessel
	Use on construction site	$100.00	per heating season

Section	Description	Permit Fee	Duration (b)
NOTES: a. Notice to fire official and approval required prior to any event or occupancy. b. All inspections are annual unless noted otherwise. c. Initial Inspection only.			

113.2 Final Inspection and Testing Fees. Fees for the testing of underground storage tanks and piping and fire detection and extinguishing equipment as required by this code are listed in Table 113.2.

Table 113.2

FEES FOR WITNESSING TESTS

Item	Fee for permit	Detail requirements See Section	Remarks
To witness tests to determine leaking tanks and piping in underground storage tanks.	$100.00/tank	5709.3	Fee is based on time and equipment utilized in isolating leak and hazard.
To witness test for fire fighting foam equipment	$50.00	907.12	Acceptance testing
Final inspection of sprinkler or standpipe installation	$200.00	907.12	Acceptance testing

113.3 Certificate of Fitness or Competency. All fees for certificates of fitness, registration or competency as required by Section 915.4, 916.4, 3301.3, 3310.6 or 3409.6.3 of this code shall be as specified by Table 113.3.

Table 113.3

FEES FOR CERTIFICATE OF FITNESS, REGISTRATION OR COMPETENCY

Item	Fee for certificate	Duration of certificate	Detail requirements See Section	Remarks
Certificate of Registration to sell, lease, or service portable fire extinguishers	$60.00	1 Year	918.4	See also Section 915.6
Certificate of Registration to install or service flammable liquid tanks	$60.00	1 Year	5710.6.3	Underground storage systems, underground tanks & underground piping & valves for gasoline or other flammable liquids
Certificate of competency to discharge fireworks	$50.00	1 Year	5608.1.1	
Certificate of registration (Fireworks)	$60.00	1 Year	5601.3	Firms engaged in the business of offering for sale supervised fireworks displays.

113.4 Fees for Inspections Required by Other City Agencies. Fees for inspections made by the code official which are required by other City Agencies or Departments shall be paid by the applicant in the amount shown in Table 113.4.

Table 113.4

MISCELLANEOUS INSPECTION FEES

Item	Fee for inspections
Hospitals, home for the aged, nursing homes (a)	$200.00
Nursery school and children's homes, day care centers and similar uses (a)	$200.00
Dance hall permits	
Initial Inspection (b)	$200.00
Annual Inspection (b)	$200.00

Item	Fee for inspections
Notes: a. Inspections shall be performed by the Division of Building and Inspection, Inspection Section. b. Inspections shall be performed by the Division of Building and Inspection, Fire Safety Unit.	

113.5 Work started Surcharge Fees Schedule. In case any work for which a fire permit is required by this code is substantially started or proceeded with prior to obtaining said permit, the total normal fees applicable shall be increased by the amount as listed in Table 113.5. The payment of said surcharge fee shall not relieve any persons from fully complying with the requirements of this code for performance or execution of the work, nor from other penalties prescribed by law.

Table 113.5

SCHEDULE FOR SURCHARGE BUILDING PERMIT FEES

Permit fee	Surcharge fee
$0.00 TO $50.00	$30.00
$51.00 TO $200.00	$90.00
$201.00 TO $500.00	$240.00
$501.00 TO $2,000.00	$360.00
$2,001.00 TO $10,000.00	$480.00
OVER $10,000.00	$600.00

113.6 Related Fees. The payment of fees for the construction, alteration, removal, or demolition for work done in connection with or concurrently with the work authorized by a building permit shall not relieve the applicant or holder of the permit from the payment of other fees that are prescribed by law.

113.7 Fees Non-Refundable. The fee for a permit based upon an estimated cost that is higher than later claimed by the applicant shall not be a basis for refund. When construction does not occur or only partially occurs, fees collected are not refundable.

CHAPTER 2 IS AMENDED AS FOLLOWS:

Change Section 201.3 to read as follows:

201.3 Terms Defined in Other Codes. Where terms are not defined in this code and are defined in the Building Code, Fuel Gas Code, Mechanical Code, or Plumbing Code, such terms shall have the meanings ascribed to them as in those codes.

Modify Section 202 Definitions by the addition or changing of definitions to read as follows:

Fire official or *fire code official.* The Division of Building and Inspection Fire Safety Unit of the City of Saint Louis, or any duly authorized representative.

Licensed design professional. An individual who is licensed to practice their respective design profession as defined by RSMo Ch. 327.

Licensed design professional in responsible charge. A licensed design professional engaged by the owner to review and coordinate certain aspects of the project, as determined by the building official, for compatibility with the design of the building or structure, including submittal documents prepared by others, deferred submittal documents, and phased submittal documents.

Registered design professional - same as *Licensed design professional*.

Registered design professional in responsible charge - same as *Licensed design professional in responsible charge.*

CHAPTER 4 IS AMENDED AS FOLLOWS:

Add Section 401.9 to read as follows:

401.9 Emergency Fire Watch. While responding to an emergency call, the Saint Louis Fire Department shall have the authority to require a fire watch when necessary to ensure public safety.

CHAPTER 6 IS AMENDED AS FOLLOWS:

Add Sections 607.5, 607.5.1, and 607.6 to read as follows:

607.5 Permit Required. A mechanical permit shall be obtained from the Division of Building and Inspection Mechanical Inspection Section for the installation or alteration of a commercial kitchen hood system.

607.5.1 Permit Required. A permit shall be obtained from the building official prior to the installation or alteration of any commercial kitchen exhaust system or hood suppression system. Permit fees shall be as established in the Mechanical Code.

607.6 System Discharge. When a commercial kitchen exhaust suppression system discharges, the commercial cooking appliances shall not be operated until the suppression system has been recharged and placed back in service. When the system is recharged, it shall be tested and inspected in accordance with the appropriate section of Chapter 6.

CHAPTER 7 IS AMENDED AS FOLLOWS:

Section 706.1 is repealed, and in lieu thereof a new Section 706.1 is enacted to read as follows:

706.1 General.

A. Fire Dampers or Smoke Dampers, as defined in Section 202, protecting ducts and air transfer openings shall be inspected and maintained in accordance with NFPA 80 and NFPA 105.

B. Fire Dampers or Smoke Dampers are subject to acceptance testing, inspection after the first year of installation, and periodic inspection every four years thereafter unless located in a hospital, which shall be subject to periodic testing every six years thereafter. Testing and inspections under this section shall only be performed by individuals with a current certification that is accredited by the American National Standards Institute (ANSI) under the ISO/IEC 17024 standard or its equivalent as the Fire Official reasonably determines, and current Chapter 25.03, Sec. 112.7.2 of the St. Louis City Code licensure.

C. An Inspector's test and inspection results under this section shall be delivered to the building owner within thirty (30) days of such test or inspection.

D. Any deficiency noted by the Inspector shall be cured by the owner within sixty (60) days.

E. An Inspector's test and inspection results under this section shall document at a minimum:

i. The location of each fire and smoke damper; and

ii. The name of the Inspector; and

iii. The date of the inspection; and

iv. Any deficiencies discovered; and

v. The repairs or replacements completed and with a place for the Inspector to indicate when and how the deficiencies were corrected.

F. Building Owners shall retain testing and inspection records and maintain all documentation for at least three (3) test cycles and, upon request, make the records available for review by the Building Division and Inspection Fire Safety Unit.

G. Any products or materials used to protect the openings for ducts and air transfer openings shall be securely attached to or bonded to the construction containing the duct or air transfer opening, without visible openings through or into the cavity of the construction. Any damaged products or materials protecting duct and air transfer openings shall be repaired, restored, or replaced.

CHAPTER 9 IS AMENDED AS FOLLOWS:

Section 901.6.3 is repealed, and in lieu thereof a new Section 901.6.3 is enacted to read as follows:

901.6.3 Permits.

A. Records of all system inspections, tests, and maintenance required by the referenced NFPA standard shall be maintained on the premises for a minimum of three (3) test cycles and shall be sent to the fire code official. Reports shall be allowed to be uploaded to www.stlcitypermits.com by the contractor.

B. In addition to other requirements, permits for construction issued by the City shall be withheld until sufficient proof of tests and inspections required by this Code are given to the Code Official.

Change Section 903.3.5 to read as follows:

903.3.5 Water Supplies. Water supplies for automatic sprinkler systems shall comply with this section and the standards referenced in Section 903.3.1. The potable water supply shall be protected against backflow in accordance with the requirements of this section and the Plumbing Code.

Change Section 904.11.1.3 to read as follows:

904.11.1.3 Water Supply Protection. Connections to a potable water supply shall be protected against backflow in accordance with the Plumbing Code.

Change Section 907.6.6 to read as follows:

907.6.6 Monitoring. All fire alarms and detection systems shall be monitored by a listed central station as defined in NFPA-72. A certificate or placard shall be issued by a recognized listing organization that has been listed the prime contractor for all newly installed fire alarm systems in commercial occupancies in accordance with the 2016 Edition of NFPA-72. This regulation shall apply to all fire alarm systems that are newly installed in commercial occupancies for which permits are required by the City of Saint Louis Building Code on or after April 1, 2014. Any existing fire alarm system in a commercial occupancy wherein the fire alarm control panel and alarm system components are to be replaced shall be considered newly installed for the purpose of this section. Also, where there is reasonable cause due to noncompliance or faulty conditions, the building official shall be permitted to require that an existing fire alarm system meet the same requirements as a newly installed system. Central station service in full compliance with the 2016 Edition of NFPA-72, Chapter 26, shall be maintained at the protected property, so long as the requirement for the fire alarm system exists.

Exceptions: Supervisory service is not required for:

1. Single and multiple-station smoke alarms required by Section 907.2.10.

2. Smoke detectors in Group I-3 occupancies.

3. Automatic sprinkler systems in one- and two-family dwellings.

Change Section 907.8.5 to read as follows:

907.8.5 Inspection, Testing, and Maintenance. The building owner shall be responsible to maintain the fire and life safety systems in an operable condition at all times. Service personnel shall meet the qualification requirements of NFPA 72 for inspection, testing, and maintenance of such systems. A written record shall be maintained and shall be forwarded to the fire official immediately upon completion of the tests and inspections.

Add Sections 907.11 and 907.12 to read as follows:

907.11 Central Station Supervision. All companies engaged in the business of offering sprinkler and fire detection system supervisory service shall, upon completion of inspection and test of sprinkler systems and fire detection systems under their contracts, forward to the fire official a written report of the results of such test and serviceability of such sprinkler systems and fire detection systems. Their reports shall contain, but not be limited to, the following information:

1. Name of company under contract.

2. Address of company.

3. Date of last inspection.

4. Type of system.

5. General service condition of system.

6. In case of sprinkler systems, the number of supervised systems.

907.12 Fees. A fee shall be assessed by the fire official to witness the acceptance test for sprinkler, standpipe, fire fighting foam, and other special systems. Fees shall be paid in accordance with the fee schedule established in Table 113.2.

Section 909.18.8.2 is repealed, and in lieu thereof a new Section 909.18.8.2 is enacted to read as follows:

909.18.8.2 Approved agencies for smoke control testing shall have expertise in fire protection engineering, mechanical engineering, and certifications as air balancers, and inspections shall only be performed by individuals with a current certification that is accredited by the American National Standards Institute (ANSI) under the ISO/IEC 17024 standard, or its equivalent as the Fire Official determines, and current Chapter 25.03, Sec. 112.7.2 of the St. Louis City Code licensure.

Change Section 912.6 to read as follows:

912.6 Backflow Protection. The potable water supply to automatic sprinkler and standpipe systems shall be protected against backflow as required by the Plumbing Code.

Add Sections 918 thru 920 to read as follows:

SECTION 918 SALE, LEASING, AND SERVICING OF PORTABLE FIRE EXTINGUISHERS AND FIXED EXTINGUISHING SYSTEMS

918.1 General. The purpose of this section is to regulate the sale, leasing, and servicing of portable fire extinguishers and fixed extinguishing systems in the interest of safeguarding lives and property.

Exception: The activity of filling or charging a portable fire extinguisher prior to its initial sale by its manufacturer shall not be subject to this section. In addition, the licensing and registration provisions of this section shall not apply to any firm which services only its own fire extinguishers for its own use by maintaining its own fire extinguisher service facilities adequate for the purpose and utilizing its own personnel specially trained for such servicing.

918.2 Certificate of Registration for Firms Installing or Servicing Portable Fire Extinguishers or Fixed Extinguishing Systems. Each firm engaged in the business of servicing portable fire extinguishers or fixed extinguishing systems shall be required to have a Certificate of Registration issued by the fire official.

918.3 Approval of Portable Fire Extinguishers. No portable fire extinguisher shall be sold or leased in the City of Saint Louis unless it is approved, labeled, or listed by a testing laboratory which is approved by the fire official as qualified to test portable fire extinguishers.

918.4 Fees. All fees prescribed herein shall be charged at the rate prescribed in Table 113.3.

918.5 Penalties. Whoever shall do any of the acts as set forth in Sections 918.5.1 and 918.5.2 shall be held in violation of this code and shall, upon conviction thereof, be penalized as set forth in Section 25.06.040.

918.5.1 Misrepresentation. Having obtained or attempted to obtain a Certificate of Registration by fraudulent misrepresentation.

918.5.2 Violation of Regulations. Installed or repaired portable fire extinguishers or fixed extinguishing

systems contrary to the provisions of this section or the rules and regulations formulated and administered under the authority of this section.

918.6 Application for Certificate of Registration. Any firm that desires to engage in the business of installing or servicing portable fire extinguishers or fixed extinguishing systems shall make a written verified application to the fire official on forms provided for a Certificate of Registration. The application must be signed by the sole proprietor, or each partner, or by an officer of the corporation. All firms are required to be an authorized distributor, manufacturer certified, or employ International Code Council certified fire extinguisher technicians (FE-certified portable fire extinguisher technician, FK-pre-engineered fire extinguisher system technician, or FN-pre-engineered industrial fire extinguishing system technician) appropriate to work being performed. All supporting documentation and fees in accordance with Section 916.4 shall accompany the application.

918.6.1 Liability. At the time of application for a Certificate of Registration to service portable fire extinguishers or fixed extinguishing systems, the applicant must furnish a certificate of insurance in an amount as determined by the fire official.

918.6.2 Issue. If the fire official finds after reviewing the applicant's record that the granting or renewing of a Certificate of Registration would not be contrary to public safety and welfare, the fire official shall issue or renew such Certificate of Registration authorizing the firm to engage in the business of installing and servicing portable fire extinguishers and fixed extinguishing systems, provided the requisite fee has been paid. The fire official shall give each Certificate of Registration an identifying number.

918.6.3 Renewal of Certificate. Application for renewal of a Certificate of Registration shall be made annually in accordance with detailed procedures to be followed.

918.6.4 Revocation. After a hearing is conducted as hereinafter provided, the fire official may either refuse to issue or renew, or may suspend or revoke any Certificate of Registration for any of the following causes:

1. Violation - Any violation as listed in Section 918.5.

2. Misrepresentation - Having obtained or having attempted to obtain a Certificate of Registration by fraudulent misrepresentation.

3. Incompetence - Malpractice or incompetence in fire extinguisher sales or servicing.

4. False Advertising - Advertising fire extinguisher sale or servicing by means of knowingly false or deceptive statements.

5. Fee Not Paid - Failure to pay the original or annual renewal Certificate of Registration fee provided in these regulations.

6. Violation of Rules - Violation of any provision of this section as formulated and administered by the fire official or violation of any provision of these regulations.

918.6.5 Record. The fire official shall keep a list of the names, addresses, and Certificate of Registration numbers issued to each firm under these regulations.

918.6.6 Public Review. The record of all numbers of Certificates of Registration shall be available for review by any person desiring to review same.

918.7 Tagging of Serviced Portable Fire Extinguishers or Fixed Extinguishing Systems Required. When an employee under the supervision of a licensee services a portable fire extinguisher or fixed extinguishing system, a tag shall be affixed that at least states:

1. The month and year the service was performed.

2. The type of extinguisher or system serviced.

3. The name and license number of the licensee and the name and permit number of the apprentice, if any.

4. The name and Certificate of Registration number of the servicing firm.

918.7.1 Information. When a person exempt from the licensing provision of this section services a portable fire extinguisher, a tag shall be affixed that at least states:

1. The month and year when the service was performed.

2. The type of extinguisher serviced.

3. The name and address of the person performing the service and the name and address of their employer.

4. The address of the premises within which the portable fire extinguisher is customarily located.

918.8 Semi-Annual Test. The duct and kitchen exhaust hood extinguishing system shall be inspected semi-annually by a service technician that is certified through the corresponding manufacturer, the International Code Council, other nationally recognized certification organization, or other proof of competence, acceptable to the Authority Having Jurisdiction, for the

type of system being serviced. The technician shall possess a certification document on their person at all times while working within the City of Saint Louis boundaries. A corresponding written report shall be filed with the Division of Building and Inspection, Fire Safety Unit, upon completion.

SECTION 919 SPRINKLER, STANDPIPE AND FIRE PUMP MAINTENANCE

919.1 Scope. The purpose of this section is to establish a sprinkler and standpipe system maintenance control in the interest of safeguarding lives and property.

919.2 Application. The provisions of this section shall apply to existing sprinkler and standpipe systems installed in buildings prior to the enactment of this code and to all new sprinkler systems hereafter installed.

919.3 Sprinkler, Standpipe, and Fire Pump Maintenance and Inspection. All sprinkler, standpipe, and fire pump systems shall be inspected annually by a sprinkler fitter contractor licensed by the City of Saint Louis or by a Missouri licensed Professional Engineer with experience in sprinkler and standpipe systems and a report shall be filed with the Division of Building and Inspection Fire Safety Unit.

SECTION 920 FIRE PROTECTION EQUIPMENT

920.1 Scope. Fire extinguishing, fire detection, first-aid fire fighting systems, and devices required by the Building Code shall be maintained in accordance with the provisions of this section.

920.2 Existing Occupancies. Upon adoption of this code, the fire official shall make or cause to be made a survey of each existing business and industrial establishment; mercantile, educational, and institutional occupancy; place of assembly; hotel; multifamily dwelling; and trailer camp to determine such fire detecting devices or extinguishing appliances which are necessary in or near boiler rooms; kitchens or restaurants; clubs or like establishments; storage rooms involving considerable combustible material; rooms in which hazardous manufacturing processes are involved; repair garages; and other places of a generally hazardous nature to provide for the safety of the public according to existing conditions and in accordance with the requirements of the Building Code. Such devices or appliances may consist of automatic fire alarm systems; automatic sprinkler or water spray systems; standpipe and hose; fixed or portable fire extinguishers of a type suitable for the probable class of fire; manual or automatic covers, or carbon dioxide or other special fire extinguishing systems. In special hazardous processes or storage, appliances of more than one type or special systems may be required.

920.3 Maintenance of Equipment. Sprinkler systems, standpipe systems, fire pumps, fire alarm systems, and other fire protective or extinguishing systems or appliances which have been installed in compliance with any permit or order or because of any law or ordinance shall be maintained in operative condition at all times, and it shall be unlawful for any owner or occupant to reduce the effectiveness of the protection so required except that this shall not prohibit the owner or occupant from temporarily reducing or discontinuing the protection where necessary to make tests, repairs, alterations, or additions. The fire official shall be notified before such tests, repairs, alterations, or additions are started and upon its completion, and shall be advised of the extent of such work for additional requirements.

920.4 Suppression, Detection and Alarm Nuisance. It shall be the owner or occupant's responsibility to maintain suppression, detection, and alarm systems in such operating condition so as not to cause unnecessary alarms being transmitted to the Fire Department. Remedies to correct this situation shall be accomplished as expediently as possible. Those alarms deemed unnecessary shall be assessed a service charge of $100.00 for each response.

920.4.1 Notification of Sprinkler or Fire Alarm Shut-Off. Whenever a sprinkler or fire alarm system is to be shut off for repairs, it shall be the owner or occupant's responsibility to determine that the service person performing such repairs has notified the Fire Department of the pending shut-off prior to shutting the system off. When a sprinkler system has central station supervision, the company providing this service shall also be notified of the shut-off. Failure to notify the Fire Department or the Central Station supervising company of sprinkler or fire alarm shut-off resulting in an unnecessary alarm being transmitted to the Fire Department will subject the owner or occupant to a service charge of $100.00 for each alarm received.

920.4.2 Maintaining Sprinkler Systems in Abandoned or Unoccupied Buildings. It shall be the owner's responsibility to ensure that all automatic sprinkler systems in any building being temporarily vacated or

permanently abandoned be maintained in an operable condition at all times. And it shall be unlawful to shut down or in any manner reduce or impair the effectiveness of any sprinkler system unless prior approval is granted by the fire official or until at such time as the building is in the process of being demolished. Any conditions as set forth by the fire official governing the shut down of sprinkler systems shall be strictly adhered to. It shall be the owner's responsibility to notify the fire official 48 hours prior to vacating any building protected by an automatic sprinkler system. Any person, firm, agency, or corporation violating any provision of this section or failing to comply with any written order issued by the fire official pertinent to maintaining sprinkler protection in abandoned or temporarily vacated buildings shall, upon conviction thereof, be penalized as set forth in Section 25.06.040.

920.5 Periodic Flow Test. Fire pumps shall be subjected to a water flow test every two years on or about the anniversary date of their last previous test. The test shall be conducted by a sprinkler fitter contractor licensed by the City of Saint Louis or by a Missouri licensed Professional Engineer. A report shall be filed with the Division of Building and Inspection Fire Safety Unit.

CHAPTER 11 IS AMENDED AS FOLLOWS:

Delete Chapter 11 in its entirety.

CHAPTER 23 IS AMENDED AS FOLLOWS:

Change Section 2311.2.3 to read as follows:

2311.2.3 Drainage and Disposal of Liquids and Oil-Soaked Waste. Garage floor drains, where provided, shall drain to approved oil separators or traps discharging to a sewer in accordance with the Plumbing Code. Contents of oil separators, traps, and floor drainage systems shall be collected at sufficiently frequent intervals and removed from the premises to prevent oil from being carried into the sewers.

CHAPTER 29 IS AMENDED AS FOLLOWS:

Change Section 2901.2 to read as follows:

2901.2 Permit. Permits shall be required as set forth in Sections 105.6. The fee for organic coatings shall be as set forth in Table 113.1.

CHAPTER 31 IS AMENDED AS FOLLOWS:

Change Section 3103.2 to read as follows:

3103.2 Approval Required. Tents and membrane structures having an area in excess of 800 square feet or that cover or obstruct the means of egress of any building shall not be erected, operated, or maintained for any purpose without first obtaining a permit and approval from the fire code official.

Exceptions:

1. Tents used exclusively for recreational camping purposes in accordance with the Zoning Code when confined to a rear yard in residential zoning districts on a temporary basis.

2. Tents for private family events on the same lot as the residence are exempt from obtaining a permit but shall meet all other requirements.

3. Tents open on all sides that comply with all of the following:

3.1. Individual tents having a maximum size of 800 square feet.

3.2. The aggregate area of multiple tents placed side by side without a fire break clearance of 10 feet, not exceeding 800 square feet total.

3.3. A minimum clearance of 10 feet to all structures and other tents.

The use of propane tanks or equipment in the tent requires a separate permit and inspection by the fire code official. Means of egress for all tents shall comply with the Building Code. Tents shall be supported to withstand a live load of 20 pounds per square foot and wind speed of 115 mph, Exposure B. Setbacks required by the Zoning code and fire separation distances required by the Building Code shall be maintained but shall not be less than 10 feet.

CHAPTER 35 IS AMENDED AS FOLLOWS:

Change Section 3501.2 to read as follows:

3501.2 Permit. Permits shall be required as set forth in Section 105.6. The fee for welding and other hot work shall be as set forth in Table 113.1.

CHAPTER 50 IS AMENDED AS FOLLOWS:

Change Section 5004.2.2.6 to read as follows:

5004.2.2.6 Drainage System Design. Drainage systems shall be in accordance with the Plumbing Code and all of the following:

1. The slope of floors to drains in indoor locations or similar areas in outdoor locations shall not be less than 1 percent.

2. Drains from indoor storage areas shall be sized to carry the volume of the fire protection water as determined by the design density discharged from the automatic fire-extinguishing system over the minimum required system design area or area of the room or area of the room in which the storage is locate, whichever is smaller.

3. Drains from outdoor storage areas shall be sized to carry the volume of the fire flow and the volume of a 24-hour rainfall as determined by a 25-year storm.

4. Materials of construction for drainage systems shall be compatible with the materials stored.

5. Incompatible materials used in open systems shall be separated from each other in the drainage system.

6. Drains shall terminate in an approved location away from buildings, valves, means of egress, fire access roadways, adjoining property, and storm drains.

CHAPTER 56 IS AMENDED AS FOLLOWS:

Change Section 5601.2 to read as follows:

5601.2 Permit. Permits shall be required as set forth in Section 105.6 and regulated in accordance with this section. The fee for explosive and fireworks shall be as set forth in Table 113.1.

Change Section 5601.2.1 to read as follows:

5601.2.1 Limits. The limits in which the storage of explosives, ammunition, and blasting agents is prohibited are hereby established as the entire City of Saint Louis.

Exception: Storage of smokeless propellant, black powder, and small arms primers for personal use and not for resale in accordance with Section 5606.2.

Add Section 5608.1.1 to read as follows:

5608.1.1 Certification of Registration. Each firm engaged in the business of offering for sale supervised fireworks displays for private or public amusement shall be required to have a Certificate of Registration issued by the fire official. The fee shall be as set forth in Table 113.3.

Add Section 5610 to read as follows:

SECTION 5610 CERTIFICATE OF COMPETENCY

5610.1 General. Each individual who engages in the activity of discharging fireworks for public or private amusement shall be required to have a Certificate of Competency issued by the fire official.

5610.2 Qualifications. An individual applying for a Certificate of Competency must be 21 years of age; capable of reading, writing, speaking, and understanding the English language; and possessing at least two years' experience in the supervision of discharging fireworks displays. Proof of the experience will be required at the time of application.

5610.3 Examination. The applicant for a Certificate of Competency must satisfactorily pass a written or oral examination administered by the fire official or designated representative.

5610.4 Non-transferable. The Certificate of Competency shall be issued to the name of the applicant and is non-transferable.

5610.5 Insurance. The permittee shall furnish evidence of public liability and property damage insurance in amounts deemed adequate by the fire official.

5610.6 Fees. The fees for the Certificate of Competency shall be paid at the time of application in accordance with the fee schedule as set forth in Table 113.3.

CHAPTER 57 IS AMENDED AS FOLLOWS:

Change Section 5701.4 to read as follows:

5701.4 Permit. Permits shall be required as set forth in Section 105.6. The fee for flammable and combustible liquids shall be as set forth in Table 113.1.

Add Sections 5708 thru 5710 to read as follows:

SECTION 5708 FLAMMABLE LIQUID STORAGE TANK INSTALLATION

5708.1 Scope. The installation, abandonment, repair, or removal of any underground or aboveground tank used for the storage of flammable liquids shall comply with the provisions of this code.

5708.2 Permit Required. A permit shall be obtained from the fire official to install, abandon, or remove any above or below ground tank used for the storage of flammable liquids without regard to class of liquids.

*5708.3 Compliance with Building Code. T*he layout and field erection of flammable liquid tanks shall comply with the applicable requirements of the Building Code.

5708.4 Installation. The installation of stationary or temporary tanks for the storage of flammable liquids on any site or location shall be installed within the requirements of the applicable standards of NFPA 30.

5708.5 Fire Protection and Control. The required fire protection shall be as specified in the Building Code.

5708.6 Gasoline Storage. All gasoline storage tanks shall be installed below ground and be vented as required by the Building Code. Gasoline may be stored above ground in approved safety containers of not more than 500 gallons each subject to the approval of the fire official.

5708.7 Final Inspection. All flammable liquid storage tanks shall be subject to a final inspection by the fire official or representative before filling tanks; in case of underground tanks, the final inspection shall take place before tanks are covered over.

5708.7.1 Responsibility. It shall be the responsibility of the installer to notify the fire official 48 hours before final inspection is requested.

5708.8 Abandonment or Removal of Tanks. The fire official shall be notified 48 hours prior to the abandonment, cleaning, or removal of a flammable liquid tank.

5708.8.1 Requirements. The abandonment or removal of a flammable liquid tank shall comply with the applicable standards of NFPA 30.

5708.9 Leaking Tanks. The fire official shall be notified immediately upon discovery of any leakage of product from a flammable liquid tank, connected piping, or pumps.

5708.10 Test of Tanks or Piping. The owner or occupant shall, when required by the fire official, cause the testing of tanks, piping, pumps, and related equipment as so designated. Tests shall be performed according to procedures established by the fire official.

5708.10.1 Witnessing Test. Whenever the fire official requires any tank, piping, pump, or related equipment to be tested, the test shall be witnessed by the fire official or designated representative. The fire official shall be notified 48 hours before each test is to begin.

5708.11 Inventory Control Records to Be Kept. Accurate inventory control records for the purpose of detecting leakage shall be maintained by the person in control of the premises of each underground storage facility. The person in control of such premises shall make all inventory control records available for inspection and checking by the fire official at all reasonable times and shall promptly report to the fire official any abnormal loss of content.

5708.12 Testing for Leaks. Notwithstanding any of the requirements of this chapter for testing piping systems and underground storage tanks, the fire official may require testing of any such system when there are grounds to believe that a system may be leaking, including, without limitation, failure to maintain inventory control records, when inventory control records indicate a shortage of product, or visual detection of leakage. The fire official may, at any time when such leakage shall be apparent, close the entire facility and the facility shall remain closed until such time as the fire official has been furnished sufficient proof that the leakage which has caused the closing of the facility has been repaired. The fire official may at any time require the construction of intercepting holes or trenches to prevent the continuing migration of the contaminating liquid.

5708.13 Permits. A permit shall be obtained from the fire official to repair any tank, container, or piping and pumps used for the storage and dispensing of flammable liquids. The fee shall be as set forth in Table 113.1.

5708.14 Removal of Covering Devices for Inspection. At the time of periodic tests of piping systems and at any other reasonable time when requested to do so by the fire official, dispenser panels, access covers, and any other covering devices shall be removed to permit access for inspection. Any deficiencies which are causing the loss of product shall be immediately corrected.

5708.14.1 Observation Well. An observation well shall be installed for each new tank location as determined by the fire official.

5708.14.2 Secondary Containment. Secondary containment shall be required in new tank installations as determined by the fire official.

SECTION 5709 REPAIR OF LEAKING TANKS OR CONTAINERS

5709.1 Repairs. Before any tank, equipment, or containers used for the storage or conveying of flammable liquids is repaired, the fire official shall be notified prior to commencement of work.

5709.1.1 Requirements. The repair of all equipment outlined in Section 5709.1 shall be done in strict compliance of requirements set forth by the fire official and NFPA 329 and NFPA 30.

5709.2 Requirements for Installers of Tanks and Equipment. Only those companies and individuals duly certified by the fire official having met the requirements set forth in Section 3409 for such certification shall be engaged for the purpose of installation or repairing flammable liquid tanks and related equipment.

5709.3 Fees. A fee shall be assessed by the fire official for witnessing the testing of tanks and equipment. Fees shall be paid according to the fee schedule established in Table 113.2.

5709.4 Repair Permit. A fee shall be assessed by the fire official for the repair, installation, or abandonment of tanks and the repair of any tank, piping, or pump as listed in Table 113.1

5709.5 Cleaning Tanks. Before any flammable liquid tank is cleaned, a permit shall be obtained from the fire official and a fee paid as listed in Table 113.1.

SECTION 5710 CERTIFICATION OF FLAMMABLE LIQUID TANK INSTALLATIONS

5710.1 Scope. The purpose of this section is to regulate the installation, repair, and testing of tanks and equipment used for the storage of flammable liquids in the interest of safeguarding lives and property.

5710.2 Registration of Persons Installing, Repairing, or Testing Flammable Liquid Storage Tanks. Each firm engaged in the business of installing, repairing or testing flammable liquid storage tanks shall be required to have a Certificate of Registration issued by the fire official.

5710.3 Prohibition Against Installing, Repairing, or Testing Flammable Liquid Storage Tanks by Personnel From Uncertified Company. The only person under this section allowed to install, repair, or test flammable liquid tanks is a person that holds a Certificate of Registration or an employee, agent, or servant of a firm that holds a Certificate of Registration.

5710.4 Applications and Hearing on Licenses, Permits, and Certificates. Applications for Certificates hereunder shall be made pursuant to regulations adopted by the fire official as those regulations may from time to time be amended.

5710.5 Penalties. Whoever shall intentionally commit any acts as set forth in Sections 5709.5.1 and 5709.5.2 shall be held in violation of this code and shall, upon conviction thereof, be penalized as set forth in Section 25.06.040.

5710.5.1 Operating Without Certificate. No person shall engage in the business of installing, repairing, or testing flammable liquid storage tanks without a current Certificate of Registration.

5710.5.2 Misrepresentation. No person shall obtain or attempt to obtain a Certificate of Registration by fraudulent misrepresentation.

5710.6 Application for Certificate of Registration. Any firm that desires to engage in the business of installing, repairing, or testing flammable liquid storage tanks shall make a written verified application to the code official on forms provided for a Certificate of Registration for each separate location of such firm where service is performed. The application must be signed by the sole proprietor, each partner, or an officer of the corporation.

5710.6.1 Review. If the fire official finds after reviewing the applicant's record that the granting or renewing of a Certificate of Registration would not be contrary to the public safety and welfare, the fire official shall issue or renew such Certificate of Registration authorizing the applicant to engage in the business of installing, repairing, or testing flammable liquid storage tanks provided the requisite fees have been paid. The fire official shall give each Certificate of Registration an identifying number.

5710.6.2 Renewal of Certificate. An application for renewal of a Certificate of Registration shall be made annually in accordance with detailed procedures to be followed.

5710.6.3 Fees. The original and annual renewal fee for Certificates of Registration issued pursuant to these regulations shall be paid according to the fee schedule established in Table 113.3.

5710.7 Revocation. The fire official shall conduct a hearing pursuant to the revocation of any Certificate of Registration. The fire official may then either refuse to renew, suspend, or revoke the Certificate of Registration for any of the following causes:

1. Violation - Any violation as listed in Section 3409.5.
2. Misrepresentation - Having obtained or having attempted to obtain a Certificate of Registration by fraudulent misrepresentation.
3. Malpractice - Malpractice or incompetence.
4. Failure to Pay Fee - Failure to pay the original or annual renewal Certificate of Registration fee provided in these regulations.
5. Violation of any provision of the rules and regulations as formulated and administered by the fire official or violation of any provision of this section.

CHAPTER 61 IS AMENDED AS FOLLOWS:

Change Section 6101.2 to read as follows:

6101.2 Permit. Permits shall be required as set forth in Sections 105.6 and 105.7. The fee for liquid petroleum gas shall be as set forth in Table 113.1. Distributors shall not fill an LP-gas container for which a permit is required until a permit for installation has been issued for that location by the fire code official.

Change Section 6103.2.1.7 to read as follows:

6103.2.1.7 Use for Food Preparation. Where approved, listed LP-gas commercial food service appli-

ances are allowed to be used for food-preparation within restaurants and in attended commercial food-catering operations in accordance with the Fuel Gas Code, Mechanical Code, and NFPA58. LP-gas tanks shall be allowed to be used on mobile food trucks not exceeding 100 lbs per tank and limited to two tanks per vehicle.

CHAPTER 80 IS AMENDED AS FOLLOWS:

Modify Chapter 80 by adding the following:

IAPMO International Association of Plumbing and Mechanical Officials

5001 E. Philadelphia Street

Ontario, CA 91761-2816

UPC-09-Uniform Plumbing Code

201.3, 903.3.5, 904.11.1.3, 912.6, 2311.2.3, 5004.2.2.6

APPENDIX N IS AMENDED AS FOLLOWS:

Delete Sections N105.4, N105.6 and N106.

(Ord. No. 71844, § 1, 4-15-2024; Ord. No. 70796, § 3, 7-6-2018.)

25.06.040. Penalty.

Any person who shall violate a provision of this code or shall fail to comply with any of the requirements thereof, or who shall erect, construct, alter, extend, repair, remove, demolish, use, or occupy any building, structure, premises, or equipment regulated by this code in violation of an approved construction document or directive of the building official or the Board of Building Appeals, or of a permit or certificate issued under the provisions of this code, and shall, upon conviction thereof, be punished by a fine of not more than $500.00, or by imprisonment not exceeding 90 days, or both such fine and imprisonment. Each day that a violation continues shall constitute a separate and distinct offense. (Ord. No. 70796, § 4, 7-6-2018.)

Chapter 25.07

FUEL GAS CODE

Editor's Note:

Ord. No. 70801, adopted August 6, 2018, adopting the 2018 International Fuel Gas Code with amendments; repealed and replaced Ordinance No. 68638. Ord. No. 68638, §§ 1—3 and 6, adopted April 21, 2010, repealed ch. 25.07 and enacted a new chapter. The former ch. 25.07, §§ 25.07.010—25.07.560, pertained to similar subject matter and derived from Ord. No. 65022 §§ 1, 2(part) and 5, 2000.

Sections:

25.07.010 Adopted.

25.07.020 Amendments.

25.07.030 Penalty for violation.

25.07.010 Adopted.

The 2018 International Fuel Gas Code as published by the International Code Council, Inc., one copy of which is on file in the office of the Register of the City of Saint Louis, being marked and designated as the International Fuel Gas Code, is hereby adopted as the Fuel Gas Code of the City of Saint Louis, in the State of Missouri, pursuant to this chapter and in conformity with RSMo 71.943, for the control of buildings and structures as herein provided; and that each and all of the regulations, provisions, penalties, conditions, and terms of said Fuel Gas Code are hereby referred to, adopted, and made a part hereto as if fully set out in this chapter with the amendments prescribed in Section 25.07.020. If differences occur between a provision modified by this chapter and a provision adopted without modification, then the modified provision shall control. (Ord. No. 70801, § 2, 8-6-2018.)

RSMo:

RSMo 67.280 (2016) Adoption of technical codes by reference

25.07.020 Amendments.

The 2018 International Fuel Gas Code is amended and changed in the following respects:

CHAPTER 1 IS AMENDED AS FOLLOWS:

Change Section 101.1 to read as follows:

101.1 Title. These regulations shall be known as the Fuel Gas Code of the City of Saint Louis, hereafter referred to as "this code."

Delete Sections 103 thru 110 in their entirety.

Add new Section 103 to read as follows:

SECTION 103 ADMINISTERING OF THIS CODE

103.1 General. Authority, permitting, fees, penalties, inspections, duties, and means of appeal shall be as set forth in the Mechanical Code.

CHAPTER 2 IS AMENDED AS FOLLOWS:

Change Section 201.3 to read as follows:

201.3 Terms Defined in Other Codes. Where terms are not defined in this code and are defined in the Building Code, Fire Code, Mechanical Code, Plumbing Code and NFPA, such terms shall have meanings ascribed to them as in those codes.

Add Section 201.5 to read as follows:

201.5 Referenced Other Codes and Standards. Any codes or standards referenced in this code shall be taken to mean the applicable City of Saint Louis code.

Change Section 202 by the addition or modification of the following definitions:

Diversity factor. Ratio of the maximum probable demand to the maximum possible demand.

Heating value, total. The number of Btu's produced by the combustion, at constant pressure, of 1 cubic foot (0.0283 m3) of gas when the products of combustion are cooled to the initial temperature of the gas and air, when the water vapor formed during combustion is condensed, and when all necessary corrections have been applied.

Purge. To clear of air, water, or other foreign substances.

Workmanlike. Executed in a skilled manner; e.g., generally plumb, level, square, in line, undamaged, and without marring adjacent work.

CHAPTER 3 IS AMENDED AS FOLLOWS:

Change Section 301.6 to read as follows:

301.6 Plumbing Connections. Potable water supply and building drainage system connections to appliances regulated by this code shall be in accordance with the Plumbing Code.

Add Section 302.8 to read as follows:

302.8 Stud Guards. When the edge of bored holes is less than one inch (25mm) from the edge of a stud or joist and when notched studs or joists are covered, stud guards shall be installed to protect service lines from fastener damage.

Change Section 307.3 to read as follows:

307.3 Drain Pipe Materials and Sizes. Components of the condensate disposal system shall be cast iron, galvanized steel, copper, cross-linked polyethylene, polyethylene, ABS, CPVC PVC or polypropylene pipe or tubing. Components shall be selected for the pressure and temperature rating of the installation. Joints and connections shall be made in accordance with the applicable provisions of the Plumbing Code relative to the material type. Condensate waste and drain line size shall not be less than ¾-inch internal diameter and shall not decrease in size from the drain pan connection to the place of condensate disposal. Where the drain pipes from more than one unit are manifolded together for condensate drainage, the pipe or tubing shall be sized in accordance with an approved method.

CHAPTER 4 IS AMENDED AS FOLLOWS:

Add Section 403.4.2.1 to read as follows:

403.4.2.1 Galvanized Steel Pipe and Fittings. Galvanized steel pipe and galvanized steel fittings (steel pipe and fittings coated in zinc) shall not be used in any fuel-gas piping systems, including, but not limited to, natural gas, propane, fuel oil, gasoline, or other types of gaseous or liquid fuel.

Add Section 404.1.1 to read as follows:

404.1.1 Valves and Regulators. Manual valves, automatic valves, and regulators shall not be installed above drop ceilings or in concealed locations.

CHAPTER 6 IS AMENDED AS FOLLOWS:

Change Sections 624.1.1 and 624.2 to read as follows:

624.1.1 Installation Requirements. The requirements for water heaters relative to sizing, relief valves, drain pans and scald protection shall be in accordance with the Plumbing Code.

624.2 Water Heaters Utilized for Space Heating. Water heaters utilized both to supply potable hot water and provide hot water for space-heating applications shall be listed and labeled for such applications by the manufacturer and shall be installed in accordance with the manufacturer's instructions and the Plumbing Code.

CHAPTER 8 IS AMENDED AS FOLLOWS:

Change Chapter 8 by the addition of the following:

IAPMO International Association of Plumbing and Mechanical Officials

5001 E. Philadelphia Street

Ontario, CA 91761-2816

UPC-09-Uniform Plumbing Code

201.3, 301.6, 307.3, 624.1.1, 624.2 (Ord. No. 70801, § 3, 8-6-2018.)

25.07.030 Penalty for violation.

Any person who shall violate a provision of this code or shall fail to comply with any of the requirements thereof, or who shall erect, construct, alter, extend, repair, remove, demolish, use, or occupy any building, structure, premises, or equipment regulated by this code in violation of an approved construction document or directive of the building official or the Board of Building Appeals, or of a permit or certificate issued under the provisions of this code, and shall, upon conviction thereof, be punished by a fine of not more than $500.00, or by imprisonment not exceeding 90 days, or both such fine and imprisonment. Each day that a violation continues shall constitute a separate

and distinct offense. (Ord. No. 70801, § 4, 8-6-2018.)

Chapter 25.08

INFORMATION TO BE GIVEN TO BUILDING COMMISSIONER

Sections:

25.08.010 **Names of contractors and subcontractors to be furnished.**

25.08.020 **Noncompliance—Suspension of construction.**

25.08.030 **Stop work order to be in writing—Information contained—Enforcement.**

25.08.040 **Inspection and copy of records authorized.**

25.08.010 Names of contractors and subcontractors to be furnished.

Prior to the start of construction as authorized by a building permit, the permittee or person to whom the building permit has been issued shall furnish to the Building Commissioner, the License Collector and the Collector of Revenue of the City a complete and accurate list of the names and addresses of all contractors and subcontractors who have been engaged or hired to perform any construction work at the site designated in the building permit, together with the estimated contract value for each contractor or subcontractor. If any additional contractors or subcontractors are engaged or hired after the start of construction, the names and addresses of all such additional contractors and subcontractors and the estimated value of their contracts shall be furnished to the above-mentioned City officials within seven (7) days after such contractors or subcontractors are hired or engaged. All such contractors and subcontractors shall have a valid license issued by the License Collector of the City authorizing them to do business within the City. (1994 C., § 25.08.010; Ord. No. 55386, § 1, 1969.)

25.08.020 Noncompliance—Suspension of construction.

Whenever the person to whom a building permit is issued has not complied with the provisions of Section 25.08.010, or has engaged any contractor or subcontractor who does not have a valid license to do business within the City, the Building Commissioner, the License Collector or the Collector of Revenue shall have authority to suspend any or all construction work at the designated site; provided, however, that the Building Commissioner shall first determine that the suspension authorized herein will not endanger structural or fire safety at the designated site or the adjoining premises. (1994 C., § 25.08.020; Ord. No. 55386, § 2, 1969.)

25.08.030 Stop work order to be in writing—Information contained—Enforcement.

The suspension or stop work order authorized herein shall be in writing, shall state the effective date and time of such suspension, but in no event shall the effective date be less than three (3) days, excluding Sundays and holidays, after the issuance of the order. The suspension order shall further state the general reasons for the suspension and the conditions under which the work may be resumed. The suspension order shall be delivered or mailed to the permittee indicated on the building permit at his address thereon, within 24 hours of the date such order is issued, and also may be posted in a conspicuous place at the building site. The License Collector shall determine the amount of a bond, not less than the amount of the contractor's license fees due, which shall be prescribed in the suspension or stop work order. The bond as prescribed herein shall be payable to the City with good and sufficient surety as determined by the Comptroller, and if such a bond is filed with the Comptroller, the effective date of the suspension order shall be stayed. Such bond shall remain in effect pending the final decision in any subsequent appeal. The suspension or stop work order may be appealed to the Board of Tax Appeals under the procedures prescribed by law, and the Board shall determine the validity of the suspension or stop work order, the amount of the bond and all facts necessary in determining the amount of contractor's license fees due the City. All City officials and the Metropolitan St. Louis Police Department shall cooperate in the enforcement of these provisions and any suspension or stop work order. (1994 C., § 25.08.030; Ord. No. 55623, § 2, 1970; Ord. No. 55386, § 3, 1969.)

25.08.040 Inspection and copy of records authorized.

The Building Commissioner, the License Collector and the Collector of Revenue of the City and their designated representatives shall have authority to inspect and copy the construction records and contracts of all contractors and subcontractors performing work under a building permit and shall have authority to enter upon the construction site mentioned in the build-

ing permit for purposes of ascertaining the names and addresses of the contractors and subcontractors who are engaged to perform construction work at such site, and for the purpose of determining whether such contractors or subcontractors have a valid license authorizing them to do business within the City. (1994 C., § 25.08.040; Ord. No. 55386, § 4, 1969.)

Chapter 25.09

PROTECTIVE SYSTEMS

Sections:

25.09.010	**Approval of Board of Public Service required.**
25.09.020	**Structural and safety assessment report required.**
25.09.030	**Structural and safety assessment report—Waived when.**
25.09.040	**Permit issuance.**

25.09.010 Approval of Board of Public Service required.

It shall be unlawful for any person to provide a security or protection system, including fencing, around any structure, or part of a structure, on public property without the approval of the Board of Public Service. (1994 C., § 25.09.010; Ord. No. 64047, § 1, 1997.)

25.09.020 Structural and safety assessment report required.

Prior to the issuance by the Board of the approval of a protective system, the owner of the property must submit to the Board of Public Service a sealed structural and safety assessment report prepared by a registered engineer licensed by the State of Missouri showing what alternative protection systems can be utilized. The plans shall include the cost and feasibility of a "catch-containment" system, scaffolding system and fencing. (1994 C., § 25.09.020; Ord. No. 64047, § 2, 1997.)

25.09.030 Structural and safety assessment report—Waived when.

This report shall not apply in the cases of emergencies as determined by the Building Commissioner or if the structure is less than three stories. The Board may also waive the report if the request is for a security system to prevent illegal entry into the structure. (1994 C., § 25.09.030; Ord. No. 64047, § 4, 1997.)

25.09.040 Permit issuance.

The Board, upon the review of the assessment report, may issue a permit with conditions that will adequately protect the general public. (1994 C., § 25.09.040; Ord. No. 64047, § 3, 1997.)

25.10.010 Mechanical Code—Defined.

These regulations together with City of St. Louis Ordinance 60513 codified in Section 25.04.010 of this code, shall be known as the Mechanical Code of the City of St. Louis, herein referred to as "the Code." The Building Commissioner of the City of St. Louis or his representative shall be responsible for enforcing the provisions of this Code. (1994 C., § 25.10.010; Ord. No. 62579, § 1, 1992.)

25.10.020 Scope of Code.

A. There is hereby established a Board of Examiners for Mechanical Contractors which shall govern mechanical and pipefitting contractors who perform work under this Code of the following prescribed nature: Contractors involved in any or all of the functions described herein, including the laying out, fabrication, assembly, installation and maintenance of pressurized piping and piping systems, fixtures and equipment for steam and hot water heating, cooling, lubricating, and industrial processing systems.

B. The specific functions performed by said contractors would include any of the following: The selection of the type and size of pipe and related materials according to job specifications with respect to such

work; the inspection of work sites to determine the presence of obstructions and to ascertain that holes will not cause structural weakness; the planning of the sequence of installation to avoid obstructions and activities of other construction workers, the cutting of pipe using a hacksaw, pipe cutters, hammer and chisel, cutting torch, pipe cutting machine or any other equipment used to perform the same general functions as this equipment; the threading of pipe using a threading machine; the bending of pipe by hand or with a pipe bending machine; the assembly and installation of a variety of metal and nonmetal pipe and pipe fittings including those made of brass, copper, glass and plastic with respect the work described above; the joining of by means of a threaded, caulked, soldered, brazed, fused or cemented joint; the securing of pipe to structures with clamps, brackets and hangers using hand tools; the installation and maintenance of refrigeration and air-conditioning systems including compressors, pumps, meters, and hydraulic controls and piping on commercial building; the testing of piping systems for leaks by increasing pressure in pipes and observing gauges attached to pipes for indication of leaks.

C. All of the functions described in Subsection B of this section must be with respect to the specific work described at the outset of this section and such work shall not be interpreted in any event to include the installation, repair or maintenance of elevators. This Code shall apply to the above-described functions only as they relate to the new construction, replacement, maintenance, overhauling, general repair, renovation, rebuilding, rehabilitation or remodeling of mechanical systems which are: Steam piping on piping systems; pressurized piping systems in waste water and sewage treatment facilities; pressurized and vacuum piping in processing and industrial pipe installations through which hazardous, toxic or poisonous substances flow; pressurized piping in air conditioning systems in commercial structures of 14 tons and above; pressurized piping in heating systems in commercial structures of 300,000 British Thermal Units (BTUs) and above.

D. This Code shall apply only to commercial structures and shall not apply to any residential building with six (6) or fewer dwellings. This Code shall not apply to any work of an aggregate mechanical contract price of twenty-five thousand dollars ($25,000.00) or less. This Code shall be interpreted in conjunction with other building and safety codes by the Building Commissioner or his designated representative.

E. Alterations or repairs to any mechanical system shall conform to that required for a new mechanical system without requiring the existing mechanical system to comply with all of the requirements of this Code. Alterations or repairs shall not cause an existing mechanical system to become unsafe nor adversely affect the performance of the mechanical system. Where additions or alterations subject parts of existing systems to loads exceeding those permitted herein, such parts shall be made to comply with this Code. This Code does not apply to any mechanical work performed by employees of an owner, lessee, or keeper of the structure in which the work is performed or to any public utility and/or its employees. (1994 C., § 25.10.020; Ord. No. 62579, § 2, 1992.)

25.10.030 Board of Examiners for Mechanical Contractors.

The Board of Examiners for Mechanical Contractors who install mechanical equipment shall be composed as follows: The Mayor shall appoint one (1) employing mechanical contractor who performs work within the City of St. Louis and one (1) registered professional engineer who shall be an employee of the City of St. Louis, two (2) journeyman pipefitters as that term is defined herein (one of which shall be involved primarily in maintenance work and one of which shall be involved primarily in industrial work), and one (1) user of a mechanical system subject to this Code which user shall be either an owner, lessee or keeper of any commercial structure with a mechanical system or the agent of such a person. Each of the above shall be a United States Citizen. They shall review each applicant's qualifications for licensing. (1994 C., § 25.10.030; Ord. No. 62579, § 3, 1992.)

25.10.040 Review Committee.

The Board of Examiners shall appoint two (2) of each employees of the Plumbing and Mechanical Section and two (2) each for the Mechanical Industry to interview individuals applying for licensing as to their qualifications and experience. (1994 C., § 25.10.040; Ord. No. 62579, § 4, 1992.)

25.10.050 Secretary of the Board—Duties.

The duties of the Secretary of the Board of Examiners shall be as stated with respect to similar Boards. The Secretary of the Board shall be nonvoting. The Secretary shall record all meeting notices. (1994 C., § 25.10.050; Ord. No. 62579, § 5, 1992.)

25.10.060 Term of office—Compensation.

The members of the Board of Examiners shall hold office for a term of four (4) years or until their successors are duly appointed and qualified by the Mayor. Initial appointments to the Board of Examiners shall be for the following terms: mechanical system user—4 years; mechanical contractor—3 years; journeyman pipefitter—2 years. The non-City employees shall receive compensation for their services if provided by separate ordinance on a per-meeting basis. (1994 C., § 25.10.060; Ord. No. 62579, § 6, 1992.)

25.10.070 Powers and duties of the Board of Examiners.

The powers and duties of the Board of Examiners shall be the same for mechanical contractors as provided in Section P.23.3.2 of the Code for master plumbers and master drainlayers. (1994 C., § 25.10.070; Ord. No. 62579, § 7, 1992.)

25.10.080 Qualifications for mechanical contractors.

A. Mechanical contractors shall be in responsible charge of the work of person(s) who have served an apprenticeship program covering the work described in Section 25.10.020 certified by the U.S. Department of Labor or who shall have worked as a journeyman performing said work for 5,000 hours in the previous five (5) years, or have equivalent training and experience. Only journeyman pipefitters as defined herein and apprentices working under their supervision shall perform the work described in Section 25.10.020. In addition, mechanical contractors shall comply with the guidelines and requirements of the City of St. Louis relating to equal opportunity in employment.

B. Manufacturer representative business entities and their employees engaged in the supply of equipment involving pressure pipe, pressure vessels, fired and unfired, cooling, heating or compressed air which by contract with manufacturers to supply parts, (proprietary) repairs, maintenance, start-up, testing, tuning and replacements shall be certified to perform to the extent that their duties and responsibilities are defined and required by contract with equipment manufacturers. A journeyman status to existing manufacturer trained service personnel shall be granted and apprentice requirements and training shall be approved under the control of manufacturer trained specialists and shall be approved in said manufacturer representative business entities. Any employee of a manufacturer representative business entity upon leaving said business entity shall be required to relicense themselves by a test administered by the section of Mechanical Regulations and Inspection and shall be required to show proof of 5,000 hours experience in the previous five (5) years.

C. Manufacturer representative business entities holding the National Board of Boiler and Pressure Vessel Inspectors "R" stamp shall be deemed authorized to perform work on pressure vessels and associated attachments as previously required by City and State Code. Service personnel with certification provided by said business entity shall be licensed as journeymen pipefitters and apprentices as applicable in accordance with this Code. (1994 C., § 25.10.080; Ord. No. 62579, § 8, 1992.)

25.10.090 Mechanical certification fees.

Mechanical contractors employing registered apprentices and licensed journeyman pipefitters shall be reviewed by the Board of Examiners. The review shall determine the contractors qualifications and experience as regards installation or testing on mechanical equipment using qualified pipefitter personnel. Upon qualifying, the mechanical contractor will be issued a certificate by the Division of Building and Inspection for a three (3) year period. The certificate fee shall be one hundred dollars ($100.00) for three (3) years. The certificate will state the contractor's name, address, name of firm if not their own, and certificate number. When the mechanical contractor has qualified; the contractor will be issued a certificate for the performance of work covered by this Mechanical Code. There shall be a notice of renewal sent to last known address of certificate holder and a thirty (30) day grace period after expiration shall be given in which renewal shall be given without requalification or re-examination. (1994 C., § 25.10.090; Ord. No. 62579, § 9, 1992.)

25.10.100 Certificate of Insurance.

A copy of a Certificate of Insurance for combined $300,000.00 minimum limits liability insurance for bodily injury and property damage shall be submitted to the Mechanical Section on or before January 15th of each year by a certified mechanical contractor. The certificate shall state the insurance company's name, address, phone number, kind of insurance, coverage and policy number. Permits will not be issued to contractors who fail to file a Certificate of Insurance with the Mechanical Section annually or whose insurance has lapsed. (1994 C., § 25.10.100; Ord. No. 62579, § 10, 1992.)

25.10.110 Continuation.

Mechanical contractors presently doing work as described in Section 25.10.020 who meet the requirements of this Code, or who have permits in effect issued from appropriate Divisions of the Mechanical Department may continue in their operations for 180 days after implementation of the chapter without a permit certification. Initial certificates shall be issued to those mechanical contractors presently doing work as described in Section 25.10.020 who apply for said certificates with the Division of Building and Inspection within 180 days of the effective date of the chapter. In order to receive a certificate without additional examination a contractor must show to the Building Commissioner or his representative proof of performance of the work described in Section 25.10.020 within this initial 180-day period. Thereafter, mechanical contractors must acquire and maintain certificates as determined by the Division of Building and Inspection. No additional testing will be required of those mechanical contractors receiving certificates during the initial 180-day period from the effective date of this chapter unless the mechanical contractor allows said certificate to not be renewed under the provisions of Section 25.10.090 of this Code or unless the mechanical contractor has had said certificate suspended or revoked under the provisions of Section 25.10.180 of this code. (1994 C., § 25.10.110; Ord. No. 62579, § 11, 1992.)

25.10.120 Journeymen pipefitters.

Journeyman pipefitters are employees of mechanical contractors performing the work described in Section 25.10.020 hereof shall be licensed within the City of St. Louis prior to performing any of said work. Journeyman pipefitters shall be licensed within the City of St. Louis. Journeyman pipefitters will be issued a journeyman pipefitters license for a three (3) year period for a fee of twenty-five dollars ($25.00). Such license shall be issued during the initial 180 days following the effective date of this chapter to anyone who has completed a bona fide apprenticeship program as defined in Section 25.10.130 or to anyone deemed to have equivalent training and qualifications, and to anyone who can show proof of 3,000 hours work of the type described in Section 25.10.020 during the preceding three (3) years. No additional testing will be required of those journeymen heretofore described as receiving certificates or licenses during the initial 180-day period from the effective date of this chapter unless the journeyman allows said certificate to not be renewed under the provisions of this section of this code. There shall be a notice of renewal sent to the last known address of the journeyman licenses and a (30) day grace period after expiration shall be given in which renewal shall be given without requalification or re-examination. After said initial 180 days all journeymen applicants must successfully pass a test administered by the Section of Mechanical Regulations and Inspections. (1994 C., § 25.10.120; Ord. No. 62579, § 12, 1992.)

25.10.130 Qualifications for an apprentice pipefitter.

Apprentice pipefitters as used herein shall be anyone in the process of serving in an apprenticeship program covering the work described in Section 25.10.020 certified by the Bureau of Apprenticeship and Training of the U.S. Department of Labor and to anyone attending an equivalent training program such as one approved by the North Central Association of Colleges and Schools. The Board of Examiners shall, upon application, review equivalent training programs for approval. Such person must work under the direct personal and immediate supervision of a licensed journeyman pipefitter in the employment of a mechanical contractor. The apprentice shall register with the Plumbing Section and pay a five dollar ($5.00) registration fee. The apprentice will be issued an apprenticeship certificate with "apprentice" plainly marked on it, the apprentice's name and date of issue. The term pipefitter as used in this Code shall include pipefitters as that term is generally used and all mechanical maintenance journeymen and apprentices. (1994 C., § 25.10.130; Ord. No. 62579, § 13, 1992.)

25.10.140 Mechanical Regulations and Inspections Section.

There is hereby created within the Division of Building and Inspection a Section of Mechanical Regulations and Inspections which shall, under the supervision and control of the Building Commissioner, control and enforce all regulations and ordinances pertaining to mechanical design and installation and systems in accordance with this Code. The head of this Section shall be known as the Mechanical Inspection Supervisor, and shall be appointed by the Buildings Commissioner. (1994 C., § 25.10.140; Ord. No. 62579, § 14, 1992.)

25.10.150 Mechanical Inspection Supervisor.

There shall be appointed by the Building Commissioner a Mechanical Inspection Supervisor. The Supervisor shall have five (5) years' experience and possess the qualifications established by the Civil Service Commission under authority of Article Eighteen of the City Charter, and shall receive a salary prescribed in and under the conditions of ordinances adopted thereunder. (1994 C., § 25.10.150; Ord. No. 62579, § 15, 1992.)

25.10.160 Appointment of mechanical inspectors.

There shall be appointed by the Building Commissioner a sufficient number of mechanical inspectors to adequately perform all inspection duties and enforce all ordinances pertaining to the Section of Mechanical Regulation and Inspection in accordance with subsequent sections of this Code and City of St. Louis budget constraints. All mechanical inspectors shall have had at least three (3) years' experience and possess the qualifications set forth by the Civil Service Commission under authority of Article Eighteen of the City Charter, and shall receive salaries as prescribed in and under the conditions of ordinances adopted thereunder. One such inspector shall assist the Mechanical Inspection Supervisor. The assistant shall assume the responsibilities of the Mechanical Inspection Supervisor in the Supervisor's absence. (1994 C., § 25.10.160; Ord. No. 62579, § 16, 1992.)

25.10.170 Rule making authority.

The Building Commissioner shall have power as necessary in the interest of public health, safety and general welfare to adopt and promulgate rules and regulations to interpret and implement the provisions of this Code to secure the intent thereof and to designate requirements applicable because of local climatic or other conditions. Such rules shall have the effect of furthering or interpreting mechanical safety and adequacy. (1994 C., § 25.10.170; Ord. No. 62579, § 17, 1992.)

25.10.180 Suspensions and cancellations.

The Building Commission or any citizen shall have the right to recommend to the Board of Examiners for Mechanical Contractors a suspension or revocation of any Certificate or License granted hereunder if, after notice and opportunity to be heard, the party named therein is found by the Board of violating rules and regulations established by the Building Commissioner or Section of Mechanical Regulations and Inspections or of violating provisions of the Code. The Board of Examiners for Mechanical contractors may suspend or revoke such certificates or licenses. (1994 C., § 25.10.180; Ord. No. 62579, § 18, 1992.)

25.10.190 Applications.

No mechanical system shall be installed within or on any building or premises, nor shall any alterations or additions be made in any such existing installations, without first filing in the office of the Building Commissioner a written application or forms prepared and provided by the Building Commissioner for a permit to do the work contemplated, except as provided in this Code. Such application shall include, but not be limited to, description in detail of the nature of the work, the location thereof by street and number, the date of the beginning of such work and the tentative completion date thereof, the use and occupancy and proposed occupancy of the building. No person shall begin such work unless and until said person has received such permit. No permit provided for in this section shall be assignable or transferable or used to aid or abet any unlicensed person in the performance of mechanical work. Should the Building Commissioner find that such work is completed in accordance with the provisions of this chapter, the Official shall, assuming payment of the prescribed inspection fee has been made, approve such work. Such fee shall be paid prior to commencement of work. If the Building Commissioner should find that the work be not completed in accordance with the provisions of this chapter or that the work was done by a person not licensed as hereinafter provided, the Building Commissioner is hereby empowered, in addition to the other penalties, to order the closing of said building, structure or premises where such work has been done until such work is remedied and properly performed or to direct such other action as he deems appropriate. It shall be unlawful to use or permit the use of the building, structure or premises unless the required permit has been issued by the Building Commissioner. Nothing in this Code is applicable to buildings, structures or premises owned and operated by the United States of America or the State of Missouri. (1994 C., § 25.10.190; Ord. No. 62579, § 19, 1992.)

25.10.200 Permits.

The Permit for Mechanical installation or a facsimile thereof shall be available at the job site. Permits shall be required of all mechanical contractors involved in

mechanical installation as the term new construction is ordinarily used in the context of the Missouri Prevailing Wage Law, RSMo 290.210 et seq.

1. *Permit Required.* No owner, lessee or keeper of any commercial structure, or the agent thereof, where such agent orders mechanical work to be done, shall cause or permit mechanical work, except minor repairs to be done, in, upon, or about any building, structure, or premises until the person proposing to do such work shall have first procured a permit from the Building Commissioner authorizing it to be done, nor shall any person commence any mechanical work until they shall have obtained a permit of said Building Commissioner authorizing said work to be done. The fees for said permits shall be paid to the Building Division or the City of St. Louis for each permit herein required. All work shall be done, supervised or controlled by a person in whose name the permit or permits required by this section are issued.

2. *By Whom Application is Made.* Application for a permit shall be made by the owner, lessee or keeper of commercial premises, or an agent, responsible for the installation of all or part of any mechanical system. The applicant shall meet all qualifications established by this Code.

3. *Plans and Specifications.* The Building Commissioner is authorized to require the submission and approval of plans and specifications in triplicate showing the nature and extent of the proposed work before a permit is issued. If, in the course of the work, it is found necessary to make any change from the approved plans and specifications on which a permit has been issued, amended plans and specifications shall be submitted, and if approved, a supplementary permit shall be issued to cover the change after the same conditions required to secure the original permit have been satisfied. (1994 C., § 25.10.200; Ord. No. 62579, § 20, 1992.)

25.10.210 Notices and orders.

The Building Commissioner shall issue all necessary notices or orders to abate illegal or unsafe conditions and to ensure compliance with all Code requirements for the safety and general welfare of the public. (1994 C., § 25.10.210; Ord. No. 62579, § 21, 1992.)

25.10.220 Inspections.

The Building Commissioner or his representative shall make all required inspections, or may accept reports of inspection by authoritative and recognized services or individuals. All reports of such inspections shall be in writing and certified by a responsible officer of such authoritative service or by the responsible individual. The Building Commissioner is authorized to engage such expert opinion as deemed necessary to report upon unusual technical issues that arise. (1994 C., § 25.10.220; Ord. No. 62579, § 22, 1992.)

25.10.230 Credentials.

The Building Commissioner or an authorized representative shall carry proper credentials of office for the purpose of inspecting any and all buildings and premises in the performance of their duties. (1994 C., § 25.10.230; Ord. No. 62579, § 23, 1992.)

25.10.240 Department records.

The Building Commissioner shall keep official records of mechanical applications received, permits, licenses and certificates issued, fees collected, reports of inspections, and notices and orders issued. Such records shall be retained in the official records for three (3) years except notices and orders which have been complied with need not be kept. (1994 C., § 25.10.240; Ord. No. 62579, § 24, 1992.)

25.10.250 Amendments.

Amendments to a plan, application or other records accompanying the same shall be filed at any time before the work for which the amended permit is sought or issued. Such amendments shall be deemed part of the original application and shall be filed therewith and shall be filed and processed as the original application. (1994 C., § 25.10.250; Ord. No. 62579, § 25, 1992.)

25.10.260 Time limit.

An application or a permit for any proposed work shall be deemed to have been abandoned six (6) months after the date of filing and acceptance, unless such application has been diligently prosecuted or a permit shall have been issued. The Building Commissioner shall grant one or more extensions of time for additional periods not exceeding one hundred and eighty (180) days if there is reasonable cause. (1994 C., § 25.10.260; Ord. No. 62579, § 26, 1992.)

25.10.270 Permit cancellation.

A permit will be considered for cancellation under the following provisions: The owner of the property or the contractor requests cancellation in writing stating the reasons for the request for cancellation or Building Commissioner may revoke the permit for fraud, mis-

representation of fact in application, for noncompliance with the Code plans submitted, or for failure to pay the prescribed fees. No refund of fees shall be made when a permit is canceled. (1994 C., § 25.10.270; Ord. No. 62579, § 27, 1992.)

25.10.280 Work not in compliance.

Should the mechanical contractor install work that is not in compliance with the Mechanical Code, the contractor shall be directed by the Building Commissioner to make necessary corrections pursuant to provisions of Section 117.0 of Ordinance 60664 and Section M-117.0 of Ordinance 60513 to ensure compliance and no other permits shall be issued to said contractor until such work is corrected and approved by the Building Commissioner. (1994 C., § 25.10.280; Ord. No. 62579, § 28, 1992.)

25.10.290 Action on permit application.

The Building Commissioner or his representative shall examine or cause to be examined all applications for permits and amendments thereto. If the application or plans do not conform to the requirements of all pertinent laws relating to mechanical systems, such application shall be rejected in writing, stating the reasons therefor. If the Building Commissioner is satisfied that the proposed work conforms to the requirements of this Code and all laws and ordinances applicable thereto, a permit shall be issued. A mechanical permit shall not be transferable. (1994 C., § 25.10.290; Ord. No. 62579, § 29, 1992.)

25.10.300 Previous permit approvals.

No provisions of this code shall require changes in the mechanical system of a building for which a lawful permit has been heretofore issued or otherwise lawfully authorized, and the installation of which shall have been actively prosecuted within ninety (90) days after the effective date of this Code and completed with dispatch unless there is a proposed change in the building, mechanical system or use. (1994 C., § 25.10.300; Ord. No. 62579, § 30, 1992.)

25.10.310 Automatic revocation of permit.

Any permit issued shall become invalid and revoked if the authorized work is not commenced within six (6) months after issuance of the permit, or if the authorized work is suspended or not prosecuted for a period of six (6) months after the commencing the work. (1994 C., § 25.10.310; Ord. No. 62579, § 31, 1992.)

25.10.320 Payment of fees.

A permit shall not be issued until a fee of $20.00 to the Building Commission has been paid. A permit may be revoked if payment is returned for insufficient funds. (1994 C., § 25.10.320; Ord. No. 62579, § 32, 1992.)

25.10.330 Compliance with Code.

The permit shall be a license to proceed with the work and shall not be construed as authority to violate, cancel or set aside any of the provisions of this Code, except as specifically stipulated by modification or legally granted variation as described in the application. (1994 C., § 25.10.330; Ord. No. 62579, § 33, 1992.)

25.10.340 City of Saint Louis projects.

Mechanical permit fees shall be waived for contractors working in facilities owned and operated by the City of Saint Louis. This shall apply only to those structures located within the geographical limits of the City of Saint Louis. However, permits, inspections and Code compliance in all other respects shall be required. (1994 C., § 25.10.340; Ord. No. 62579, § 34, 1992.)

25.10.350 Unlawful continuance.

No person who shall continue any work in or about the structure after having been served with a stop work order, except such work as that person is directed by the Building Commissioner to perform to remove a violation or unsafe condition. (1994 C., § 25.10.350; Ord. No. 62579, § 35, 1992.)

25.10.360 Inspection during installation.

During the installation of mechanical systems and equipment, the Building Commissioner shall make inspections to insure compliance with the provisions of this Code. Where applications for unusual design or magnitude of construction are filed or where code reference standards require special or engineering inspections, the Building Commissioner is authorized to require project representation by an engineer. This project representative shall keep records and submit reports as required by the Building Commissioner. This special professional service requirement shall be determined prior to the issuance of the permit and shall be a prerequisite for the permit issuance. (1994 C., § 25.10.360; Ord. No. 62579, § 36, 1992.)

25.10.370 Concealing work.

Work in connection with a mechanical system shall not be covered or concealed until it has been inspected

and permission to conceal has been approved. (1994 C., § 25.10.370; Ord. No. 62579, § 37, 1992.)

25.10.380 Final inspections.

Upon completion of the mechanical work, a final inspection shall be made. All violations of the Code and any approved plans and permit shall be noted, and the holder of the permit shall be notified of the violations. (1994 C., § 25.10.380; Ord. No. 62579, § 38, 1992.)

25.10.390 Notice.

Every person, within one (1) week after the completion of any mechanical work, shall notify the Building Commissioner in the Mechanical Inspection Section, which notice shall describe the work done, giving the address by street and number, and thereupon the Building Commissioner shall inspect the same. (1994 C., § 25.10.390; Ord. No. 62579, § 39, 1992.)

25.10.400 Reinspection.

A mechanical inspection for which a building, structure or premises has been closed for a period of thirty (30) days or more, shall not be reopened until the system has been reinspected and a new certificate of inspection issued. (1994 C., § 25.10.400; Ord. No. 62579, § 40, 1992.)

25.10.410 Right of entry.

In the discharge of duties, the Building Commissioner or an authorized representative shall have the authority to enter at any reasonable hour any building, structure or premises in the City of Saint Louis to enforce the Code provisions. (1994 C., § 25.10.410; Ord. No. 62579, § 41, 1992.)

25.10.420 Violation.

In addition to any other prohibited acts hereunder, it shall be unlawful to install, extend, alter, repair or maintain mechanical systems in or adjacent to buildings except in conformity with this Code. It shall also be unlawful for any person, firm or corporation to state, advertise, write, print or in any way infer the holding of a license or a Certificate as a Mechanical Contractor in the City of Saint Louis without actually holding such license or certificate. This shall include, but not be limited to, business cards, bills or advertising in any manner. In addition, it shall be unlawful to use a license or certificate in such a way that enables unlicensed persons, firms or corporations without said licenses or certificates to perform work in the City of Saint Louis. (1994 C., § 25.10.420; Ord. No. 62579, § 42, 1992.)

25.10.430 Notice of violations.

If the building inspection, reinspection, test or review of plans or permits reveals failure of any new installation, addition, alteration or replacement to comply with the provisions of this Code, the installation shall be declared unlawful by the Building Commissioner, and a written notice of violation shall be given or mailed to either the responsible individual, person, firm or corporation to whom the permit was issued, or to the owner, or both; or to the legally authorized representative of the permit holder, owner or both. If the notice of violation is not complied within seven days, such person shall have violated the chapter and in addition to any other penalty, the Building Commissioner may request the City Counselor to institute the appropriate proceeding at law or in equity to restrain, correct or abate such violation, or to require the removal or termination of the unlawful use of an mechanical system in violation of the provisions of this Code or of the order or direction made pursuant thereto, or to prevent illegal occupancy of a building, structure or premises, or to stop an illegal act, conduct, business or use of a building or structure in or about any premises. (1994 C., § 25.10.430; Ord. No. 62579, § 43, 1992.)

25.10.440 Time for compliance and notification to department.

All notices of violation shall indicate the time allowed for compliance. Upon compliance with the notice, the recipient of the notices, the recipient's agent, contractor or subcontractor shall notify the Building Commissioner according to the procedure set forth in this Code. Upon notification, the Building Commissioner shall reinspect the premises in which the violation was found, and if compliance is shown to exist, the violation notice shall be terminated and type of inspection recorded. (1994 C., § 25.10.440; Ord. No. 62579, § 44, 1992.)

25.10.450 Stop work order notice.

Upon notice from the Building Commissioner that work on any building or structure is being prosecuted contrary to the provisions of this Code or in an unsafe and dangerous manner, or without permit, such work may be immediately stopped. The stop work order shall be in writing and shall be given to the owner of the property involved, or to the owner's agent, or to the person doing the work. It shall state the conditions under which work will be permitted to resume upon

approval of the Building Commissioner. (1994 C., § 25.10.450; Ord. No. 62579, § 45, 1992.)

25.10.460 Unlawful continuance.

Any person who shall continue any mechanical work in or about the structure after having been served with a stop work order, except such work as that person is directed to perform to remove a violation or unsafe conditions shall, if convicted, be subjected to the penalty provisions of this Code. (1994 C., § 25.10.460; Ord. No. 62579, § 46, 1992.)

25.10.470 Vacating structures.

Where there is an actual and immediate condition which would endanger life, the Building Commissioner is authorized and empowered to order and require the occupants to vacate a building, structure or premises forthwith. The code official shall cause to be posted at each entrance to such building, structure or premises a notice reading as follows: "This Structure is Unsafe and Has Been Condemned for Occupancy." It shall be unlawful for any person to enter such structure except for the purpose of making the required repairs or removal. The procedure for this shall be as set out in the Existing Structures Code of the City of Saint Louis, as amended. (1994 C., § 25.10.470; Ord. No. 62579, § 47, 1992.)

25.10.480 Defective mechanical systems.

A. Should the Building Commissioner or his representative find that any mechanical systems, or portion thereof, of any building, structure, premises, or any portion thereof be in such a defective condition and in violation of the Mechanical Code as likely to cause immediate danger or likely to cause immediate injury to the lives of persons located within such building, or structure or upon such premises, or likely to cause immediate injury or damage to such building or structure, or any property or structure within or without the immediate area of such building, structure or premises, or upon the premises wherein such system is located, the Building Commissioner or his representative shall forthwith notify the owner or owners, or tenant or tenants, or lessee or lessees, or the occupant or occupants of such fact, and order the owner or owners, tenant or tenants, lessee or lessees, or the occupant or occupants to remove all persons therefrom forthwith and forthwith render the mechanical system safe and to correct such defective condition within twenty-four (24) hours or to shut down the system until it is made safe with the defective condition corrected. Should such system be not made safe and placed in a safe condition within such twenty-four (24) hour period or should such system not be shut down as ordered by the code official, the Building Commissioner is hereby authorized to consider the building, structure or premises unsafe and officially seal the building, structure or premises as out of service or use until ordered otherwise by the Building Commissioner.

B. Any owner or owners, tenant or tenants, lessee or lessees, occupant or occupants of such building, structure or premises aggrieved by any action of the Building Commissioner under the provisions of this Article, may appeal such action to the Board of Building Appeals as provided by the City of Saint Louis Building Code. The code official or his representative has the authority to post a placard in a conspicuous place on a building or premises where the mechanical system has been found to be unsafe or inadequate, announcing the unsafe or inadequate building condition. Placards shall remain on said building until the required repairs, replacements or improvements have been made and accepted by the Building Commissioner and it shall be unlawful to deface or willfully remove any such placard that has been posted on a building without first obtaining consent of the Building Commissioner. It shall be unlawful for any person to reside in, use, rent, lease or occupy such building for any purpose while so placarded. (1994 C., § 25.10.480; Ord. No. 62579, § 48, 1992.)

25.10.490 Change in use.

It shall be unlawful to make any change in the use of occupancy of any structure which subjects it to any special provisions of this Code without approval, and certification that such structure meets the intent of the provisions of law governing building construction for the proposed new use and occupancy and that such change does not result in any hazard to public health, safety or welfare. (1994 C., § 25.10.490; Ord. No. 62579, § 49, 1992.)

25.10.500 Minor repairs.

Minor repairs or replacements in an existing system do not require permit application, provided such repairs or replacements are made in a safe manner and further provided that such repairs or replacements are for an aggregate mechanical contract price of not more than twenty-five thousand dollars ($25,000.00). (1994 C., § 25.10.500; Ord. No. 62579, § 50, 1992.)

25.10.510 Maintenance.

All mechanical systems, both existing and new, shall be maintained in a safe condition. All service equipment, devices and safeguards which are required by this Code or which were required in a building or structure by previous statute or ordinance, shall be maintained in working order. (1994 C., § 25.10.510; Ord. No. 62579, § 51, 1992.)

25.10.520 Responsibility.

The owner and designated agent and the persons collecting rent shall be responsible for repairs and renovations of unsafe equipment, fixtures, and devices and for the safe maintenance of the mechanical system in any building or structure at all times. Installed fixtures and mechanical equipment of any building or premises found to be in an unsatisfactory or hazardous condition shall be repaired, renovated, replaced or removed within 7 days subsequent to the issuance of a written notice of the unsafe or hazardous condition by the Mechanical Division of Building and Inspection or the Building Commissioner. (1994 C., § 25.10.520; Ord. No. 62579, § 52, 1992.)

25.10.530 Provisions to be liberally construed.

These sections which shall be known as the Mechanical Code of the City of Saint Louis shall be construed liberally and justly to secure proper licensing and certification for contractors performing the work in whole or in part as described in this Code. (1994 C., § 25.10.530; Ord. No. 62579, § 53, 1992.)

25.10.540 Penalty for violation.

Any person found violating any provision of this chapter shall be subject to penalties set forth in Section 117.4 of Ordinance 60664 and M-117.4 of Ordinance 60513. (1994 C., § 25.10.540; Ord. No. 62579, § 54, 1992.)

Chapter 25.11

RESIDENTIAL CODE

Editor's Note:

Ord. No. 70795, adopted July 6, 2018, adopting the 2018 International Residential Code for One- and Two-family Dwelling; with amendments, including Appendices E, F, G, H, J, K, M, R, S, and T, repealing and replacing Ordinance No. 68789. Ord. No. 68789, adopted Nov. 8, 2010, repealed Ch. 25.11 and enacted a new chapter. The former Ch. 25.11, §§ 25.11.010—25.11.290, pertained to similar subject matter and derived from Ord. No. 66789, §§ 2—4, 2005.

Sections:

25.11.010 Adoption.
25.11.020 Amendments.
25.11.030 Penalty.

25.11.010 Adoption.

The 2018 International Residential Code for One- and Two-family Dwellings as published by the International Code Council, Inc., one copy of which is on file in the office of the Register of the City of Saint Louis, being marked and designated as the International Residential Code for One- and Two-family Dwellings, including Appendices E, F, G, H, J, K, M, R, S, and U, is hereby adopted as the Residential Code for One- and Two-family Dwellings of the City of Saint Louis, in the State of Missouri, pursuant to this chapter and in conformity with RSMo 71.943 for the regulation of the design, construction, quality of materials, erection, installation, alteration, repair, location, relocation, replacement, addition to, use, or maintenance of one- and two-family dwellings and townhouses not more than three stories in height, and providing for the issuance of permits and collection of fees therefor; and each of the regulations, provisions, conditions, and terms of such control of buildings and structures as herein provided; and that each and all of the regulations, provisions, penalties, conditions, and terms of said Residential Code are hereby referred to, adopted, and made a part hereto, as if fully set out in this chapter with the amendments prescribed in Section 25.11.020. If differences occur between a provision modified by this chapter and a provision adopted without modification, then the modified provision shall control. (Ord. No. 70795, § 2, 7-6-2018.)

RSMo:

RSMo 67.280 (2016) Adoption of technical codes by reference

25.11.020 Amendments.

The 2018 International Residential Code for One- and Two-family Dwellings is amended and changed in the following respects:

CHAPTER 1 IS AMENDED AS FOLLOWS:

Delete Chapter 1 as published in its entirety.

Add new Chapter 1 to read as follows:

CHAPTER 1

SCOPE AND ADMINISTRATION

SECTION R101 GENERAL

R101.1 Title. These regulations shall be known as the Residential Code for One- and Two-Family Dwellings of the City of Saint Louis, hereinafter referred to herein as "this code."

R101.2 Scope. The provisions of this code shall apply to the grading, excavation, new construction, alteration, movement, enlargement, replacement, repair, equipment, use and occupancy, location, removal, and demolition of detached one- and two-family dwellings, multiple single-family dwellings (townhouses) with a separate means of egress, and their accessory structures not more than three stories in height.

Exceptions:

1. Live/work units complying with the requirements of Section 419 of the Building Code shall be permitted to be built in accordance with this code. Fire suppression required by Section 419.5 of the Building Code when constructed under this code shall conform to Section 903.3.1.3 of the Building Code.

2. Owner-occupied lodging houses with five or fewer guest rooms shall be permitted to be constructed in accordance with this code where equipped with a fire sprinkler system in accordance with Section 903.3.1.3 of the Building Code.

3. Existing buildings undergoing repair, alteration or additions, and change of occupancy shall be permitted to comply with the Existing Building Code.

R101.3 Intent. The purpose of this code is to establish the minimum requirements to safeguard the public health, safety, and general welfare through structural strength, means of egress facilities, stability, sanitation, adequate light and ventilation, energy conservation, and safety to life and property from fire and other hazards attributed to the built environment and to provide a reasonable level of safety to fire fighters and emergency responders during emergency operations.

SECTION R102 APPLICABILITY

R102.1 General. Where there is a conflict between a general requirement and a specific requirement, the specific requirement shall be applicable. Where, in any specific case, different sections of this code specify different materials, methods of construction, or other requirements, the most restrictive shall govern.

R102.2 Other Laws. The provisions of this code shall not be deemed to nullify any provisions of local, state, or federal law. Where the provisions of this code conflict with other ordinances or regulations, the most stringent requirements shall apply. The building official shall not be the enforcement officer for such other ordinances or regulations unless specified therein.

R102.3 Application of References. References to chapter or section numbers, or to provisions not specifically identified by number, shall be construed to refer to such chapter, section, or provision of this code.

R102.4 Referenced Codes and Standards. The codes and standards referenced in this code shall be considered part of the requirements of this code to the prescribed extent of each such reference and as further regulated in Sections R102.4.1 and R102.4.2. Referenced standards shall be permitted to be updated by rule making authority of the building official.

Exception: Where enforcement of a code provision would violate the conditions of the listing of the equipment or appliance, the conditions of the listing and manufacturer's instructions shall apply.

R102.4.1 Conflicts. Where conflicts occur between provisions of this code and referenced codes and standards, the provisions of this code shall apply.

R102.4.2 Provisions in Referenced Codes and Standards. Where the extent of the reference to a referenced code or standard includes subject matter that is within the scope of this code, the provisions of this code, as applicable, shall take precedence over the provisions in the referenced code or standard.

R102.5 Appendices. Provisions of the appendices shall not apply unless specifically referenced in the adopting ordinance.

R102.6 Partial Invalidity. In the event any part or provision of this code is held to be illegal or void, this shall not have the effect of making void or illegal any of the other parts or provisions.

R102.7 Existing Structures. The legal occupancy of any structure existing on the date of the adoption of this code shall be permitted to continue without change, except as is specifically covered in this code, the Existing Building Code, the Property Maintenance Code, or

the Fire Code, or as deemed necessary by the building official for the general safety and welfare of the occupants and the public.

R102.7.1 Additions, Alterations, or Repairs. Additions, alterations, or repairs to any structure shall conform to that required for a new structure without requiring the existing structure to comply with all of the requirements of this code, unless otherwise stated. Additions, alterations, repairs, and relocations shall not cause an existing structure to become unsafe or adversely affect the performance of the building.

R102.7.2 Buildings Not Previously Occupied. A building or portion of a building that has not been previously occupied or used for its intended purpose in accordance with the laws in existence at the time of its completion shall comply with the provisions of the this code for new construction or with any current permit for such occupancy.

R102.8 Matters Not Provided For. Any requirements that are essential for structural, fire, or sanitary safety of an existing or proposed building or structure, or for the safety of the occupants thereof, and which are not specifically provided for by this code, shall be determined by the building official.

The building official shall be permitted to delegate to the Department of the President, Board of Public Service, responsibility for code compliance inspections on projects within the City limits let by the Board of Public Service or let as an Emergency Agreement. If such delegation is made, that office shall certify in writing to the building official at the completion of the project that they did inspect and believe the project to comply with this code.

R102.9 Buildings, Structures, or Premises Partly Within City Limits. When a building, structure, or premises is constructed partly within the City and partly within county limits, the Building Commissioner shall be authorized to enter into agreements with the adjoining code jurisdictions to avoid duplications of inspections, fees, and permits.

R102.10 Restrictions. No building or structure shall be constructed, extended, repaired, removed, altered or occupied in violation of these provisions, except for repairs as defined in Section R105.2.2, and except further that the raising, lowering or moving of a building or structure as a unit necessitated by a change in legal grade or widening of a street shall be permitted, provided the building or structure is not otherwise altered or its occupancy changed. Political subdivisions of the State of Missouri, including, but not limited to, the Board of Education, Metropolitan Sewer District, Saint Louis Housing Authority, Saint Louis Police Department, Metro Transit, Planned Industrial Expansion Authority, Land Clearance for Redevelopment Authority, Land Reutilization Authority, Saint Louis Development Corporation, and the Regional Convention and Sports Complex Authority are covered under the provisions of this code for all property within the City limits.

Exceptions:

1. Structures owned and occupied by the United States of America or the State of Missouri.
2. City of Saint Louis-owned property located outside of the City Limits.
3. Existing building occupancies that are licensed by the State of Missouri as family child care homes providing home day care, as specified in Section 310.3.
4. Structures located within cemetery boundaries which are less than 1,000 square feet in area and less than 20 feet in height, measured from grade to the highest point.
5. Laying or relaying of railroad trackage sidings and their appurtenant signals, culverts and structures.
6. A construction project located in the public right-of-way (R.O.W.).

SECTION R103 DIVISION OF BUILDING AND INSPECTION

R103.1 Creation of Enforcement Agency. There is hereby created the Division of Building and Inspection. The Division shall consist of Sections, including, but not limited to: Administration Section, Building Inspection Section, Central File Section, Court Section, Electrical Inspection Section, Mechanical Inspection Section, Permit Section, Plan Exam Section, Plumbing Inspection Section, and Zoning Section.

R103.2 Building Commissioner. The head of the Division of Building and Inspection shall be known as the Building Commissioner, in accordance with Section 15, Article 13 of the Charter of the City of Saint Louis.

R103.2.1 Appointment; qualifications. The Building Commissioner, also herein referred to as the building official, shall be a Missouri licensed professional architect, or, a Missouri licensed professional engineer, or shall have a bachelors degree in an appropriately related field with Certified Building Code Official status, or shall have a masters degree in an appropriately

related field and five years' experience in building code enforcement at a senior management level. The Building Commissioner shall be appointed by the Director of Public Safety.

R103.3 Organization. The building official shall appoint such numbers of architects, engineers, technical assistants, inspectors and other employees such as clerks, typists, and cashiers as shall be necessary for the administration of the codes governed by this chapter, and as authorized by the building official in conformance with Civil Service qualifications and regulations. The building official shall be permitted to delegate appropriate subordinates to act in the exercise of the duties of this code, and they also shall be designated as building officials. The building official is authorized to designate employees as needed who shall exercise all the powers of the building official during the temporary absence or disability of the building official.

R103.4 Restriction of Employees. An official or employee connected with the Division of Building and Inspection, except one whose only connection is that of a member of the Board of Building Appeals, shall not be engaged in or directly or indirectly connected with the furnishing of labor, materials, or appliances for the construction, alteration, or maintenance of a building, or the preparation of construction documents therefor, unless that person is the owner of the building, or a first degree relative of the owner of the building; nor shall such officer or employee engage in any work which conflicts with official duties or with the interests of the Division of Building and Inspection.

Further, no Building Division employee shall be employed by or serve as an employee of any other division within the City service unless a formal request is made by the Building Commissioner to and approved by the appointing authority of that Division.

SECTION R104 DUTIES AND POWERS OF THE BUILDING OFFICIAL

R104.1 General. The building official is hereby authorized and directed to enforce the provisions of this code. The building official shall have the authority to render interpretations of this code and adopt policies and procedures in order to clarify the application of its provisions. Such interpretations, policies, and procedures shall be in conformance with the intent and purpose of this code. Such policies and procedures shall not have the effect of waiving requirements specifically provided for in this code.

R104.1.1 Rule Making Authority. The Building Commissioner shall have authority as necessary in the interest of public health, safety, and general welfare to adopt and promulgate rules and regulations to interpret and implement the provisions of this code, to secure the intent thereof, and to designate requirements applicable because of local climatic or other conditions. Such rules shall not have the effect of waiving structural or fire performance requirements specifically provided for in this code or violating accepted engineering practice involving public safety.

R104.1.2 Accepted Engineering Practice. In the absence of provisions not specifically contained in this code, the regulations, specifications, and standards listed under referenced standards shall be deemed to represent accepted engineering practice in respect to materials, equipment, systems, or methods of construction.

R104.2 Applications and Permits. The building official shall receive applications; review construction documents; issue or deny permits for the erection, alteration, demolition, moving, or occupancy of buildings, structures, or premises; inspect the premises for which such permits have been issued; and enforce compliance with the provisions of this code.

R104.2.1 Preliminary Meeting. When requested by the permit applicant, the building official shall meet with the permit applicant to discuss plans for the proposed work or change of occupancy prior to the application for a permit in order to establish the specific applicability of the provisions of this code.

R104.2.1.1 Building Evaluation. The building official is authorized to require an existing building to be investigated and evaluated by a licensed design professional based on the circumstances agreed upon at the preliminary meeting. The design professional shall notify the building official if any potential nonconformance with the provisions of this code is identified.

R104.3 Notices and Orders. The building official shall issue all necessary notices or orders to ensure compliance with this code.

R104.4 Inspections. The building official is authorized to make all of the required inspections, or the building official shall have the authority to accept reports of inspection by approved agencies or individuals. Reports of such inspections shall be in writing and certified by a responsible officer of such approved agency or by the responsible individual. The building official is authorized to engage such expert opinion as deemed necessary to report upon unusual technical issues that

arise, subject to the approval of the appointing authority. The owner shall provide such special inspections as are required by the building official.

R104.5 Identification. The building official shall carry proper identification when inspecting structures, or premises in the performance of duties under this code.

R104.6 Right of Entry. Where it is necessary to make an inspection to enforce the provisions of this code or where the building official has reasonable cause to believe that there exists in a structure or upon a premises a condition which is contrary to or in violation of this code which makes the structure or premises unsafe, dangerous, or hazardous, the building official or designee is authorized to enter the structure or premises at reasonable times to inspect or perform the duties imposed by this code, provided that if such structure be occupied, that credentials be presented to the occupant and entry requested. If such structure or premises be unoccupied, the building official shall first make a reasonable effort to locate the owner, owner's authorized agent, or other person having charge or control of the structure or premises and request entry. If entry is refused, the building official shall have recourse to the remedies provided by law to secure entry.

R104.6.1 Disasters. In the event of a disaster such as windstorm, tornado, flood, fire, earthquake, bomb blast, or explosion, the building official is hereby authorized to enter and inspect structures within the affected area, subject to constitutional restrictions on unreasonable searches and seizures. When, in the opinion of the building official, there is imminent danger of an unsafe condition, the building official shall take emergency measures in accordance with this code. If the building official determines, after inspection, that a structure is unfit, the building official shall declare it a public nuisance, cause a report to be prepared, and notify the affected parties in accordance with this code.

R104.6.1.1 Post-Disaster Inspections. The building official is authorized to deputize Missouri Structural Assessment and Visual Evaluation (SAVE) Volunteer Inspectors certified by the Missouri State Emergency Management Agency (SEMA) to conduct emergency post-disaster safety evaluations of buildings.

R104.7 Department Records. An official record shall be kept of all business and activities of the department specified in the provisions of this code, and all such records shall be open to public inspection at all appropriate times.

A reasonable charge shall be established for making copies of documents. If staff time is required to assemble requested data, an estimate shall be made of personnel charges, including fringe benefits, and a signed agreement made prior to undertaking such projects. The Division of Building and Inspection is not obligated to assemble data into formats that it does not use or need in the ordinary prosecution of its work.

Further, whenever any person, firm, or corporation requests a comprehensive historical investigation of the Division of Building and Inspection records relating to building or occupancy permits, an application fee of $25.00 shall be charged as specified in Section 108.2.1 in addition to all other fees as provided in other sections of this code.

R104.8 Liability. The building official, member of the Board of Building Appeals, or employee charged with the enforcement of this code, while acting for the City of Saint Louis in good faith and without malice in the discharge of the duties required by this code or other pertinent law or ordinance, shall not thereby be rendered civilly or criminally liable personally and is hereby relieved from personal liability for any damage accruing to persons or property as a result of any act or by reason of an act or omission in the discharge of official duties.

R104.8.1 Legal defense. Any suit or criminal complaint instituted against an officer or employee because of an act Performed by that officer or employee in the lawful discharge of duties and under the provisions of this code shall be defended by the City of Saint Louis City Counselor's Office until the final termination of the proceedings. The building official or any subordinates shall not be liable for cost or judgment in any action, suit or proceeding that is instituted in pursuance of the provisions of this code; and any employee of the Division of Building and Inspection, acting in good faith and without malice, shall be free from liability for acts performed under any of its provisions or by reason of any act or omission in the performance of official duties in connection therewith.

The above protection shall also extend to former employees for work performed during their period of employment with the City of Saint Louis.

R104.9 Approved Materials and Equipment. Materials, equipment, and devices approved by the building official shall be constructed and installed in accordance with such approval.

R104.9.1 Used Materials and Equipment. The use of used materials which meet the requirements of this code for new materials is permitted. Used equipment and devices shall not be reused unless they have been reconditioned, tested, and placed in good and proper working condition and approved by the building official.

R104.10 Modifications. Wherever there are practical difficulties involved in carrying out provisions of this code, the building official shall have the authority to grant modifications for individual cases, upon application of the owner or owner's representative, provided the building official shall first find that special individual reason makes the strict letter of this code impractical and the modification is in compliance with the intent and purpose of this code and that such modification does not lessen health, life, and fire safety or structural requirements. The details of action granting modifications shall be recorded and entered in the files of the Division of Building and Inspection.

R104.10.1 Flood Hazard Areas. The building official shall not grant modifications to any provisions required in flood hazard areas unless a determination has been made that:

1. There is good and sufficient cause showing that the unique characteristics of the size, configurations, or topography of the site render the elevation standards of this code inappropriate.

2. Failure to grant the modification would result in exceptional hardship by rendering the lot undevelopable.

3. The granting of modification will not result in increased flood heights, additional threats to public safety, or extraordinary public expense; cause fraud on or victimization of the public; or conflict with existing laws or ordinances.

4. The modification is the minimum necessary to afford relief considering the flood hazard.

5. Written notice has been submitted to the applicant specifying the difference between the design flood elevation and the elevation to which the building is to be built, stating that the cost of flood insurance will be commensurate with the increased risk resulting from the reduced floor elevation, and stating that construction below the design flood elevation increases risks to life and property.

R104.11 Alternative Materials, Design, and Methods of Construction, and Equipment. The provisions of this code are not intended to prevent the installation of any material or to prohibit any design or method of construction not specifically prescribed by this code, provided any such alternative has been approved. An alternative material, design or method of construction shall be approved where the building official finds that the proposed design is satisfactory and complies with the intent of the provisions of this code, and that the material, method, or work offered is, for the purpose intended, at least the equivalent of that prescribed in this code in quality, strength, effectiveness, fire resistance, durability, and safety.

R104.11.1 Research Reports. Supporting data, where necessary to assist in the approval of materials or assemblies not specifically provided for in this code, shall consist of valid research reports from approved sources.

R104.11.2 Tests. Whenever there is insufficient evidence of compliance with the provisions of this code, or evidence that a material or method does not conform to the requirements of this code, or in order to substantiate claims for alternative materials or methods, the building official shall have the authority to require tests as evidence of compliance to be made at no expense to the jurisdiction. Test methods shall be as specified in this code or by other recognized test standards. In the absence of recognized and accepted test methods, the building official shall approve the testing procedures. Tests shall be performed by an approved agency. Reports of such tests shall be retained by the building official for the period required for the retention of public records.

R104.11.3 Research and Investigations. The building official shall require that sufficient technical data be submitted to substantiate the proposed use of any material or assembly, and if it is determined that the evidence submitted is satisfactory proof of performance for the use intended, the building official shall approve its use subject to the requirements of this code. The costs of all tests, reports and investigations required under these provisions shall be paid by the applicant or owner.

R104.12 Annual Report. The Building Commissioner shall submit to the Director of Public Safety a written annual report.

SECTION R105 PERMITS

R105.1 Required. Any owner or owner's authorized agent who intends to perform site grading or excavation; to construct, enlarge, alter, make non-ordinary repairs to, move, or demolish a building or structure; to change the occupancy of a building, structure, or premises from one use group to another or to change to a prohibited use; or to cause any such work to be done; or to use explosives for blasting in connection with demolition, excavation, construction, or other building operation shall first make application to the building official and obtain the required permits.

Exception: No permit shall be issued to repair any building or structure condemned in accordance with Section R119 or R120 if such building or structure is included in an executed contract for demolition between the City of Saint Louis and a demolition contractor.

R105.1.1 Preservation Board Permit Requirements. When the ordinances of the Cultural Resources Office (CRO) of the Planning and Urban Design Agency (PUDA) require a permit for items for which this code does not require a permit, applications shall be permitted to be taken by the Division of Building and Inspection and processed solely to the Cultural Resources Office. Both the Building Commissioner and the Cultural Resources Office Director are authorized to place stop work orders. Any appeals or court actions resulting from such citations, applications, or permits shall have technical and aesthetic testimony from the Preservation Board and the staff of the Cultural Resources Office.

R105.1.2 Cultural Resources Office Denial. Unless overruled by the Building Commissioner as a result of an emergency situation or the Planning and Urban Design Commission, a denial from the Preservation Board shall be the final denial; no further notice from the building official shall be required to any person.

105.2 Work Exempt From Permit. Exemptions from permit requirements of this code shall not be deemed to grant authorization for any work to be done in any manner in violation of the provisions of this code or any other laws or ordinances of the City of Saint Louis. Permits shall not be required for the following:

1. Tuckpointing, ordinary or minor repair to exterior masonry, exterior painting, or similar repair or finish work;

2. Repair or replacement of existing gutters or above-grade portions of downspouts;

3. Recovering or replacing roof covering with the same type of roof covering to a maximum of two layers of roofing. Roofs having a pitch of ¼: 12 or greater but less than 4:12 (low slope roof) shall provide positive drainage. Replacement of 25% or less of roof sheathing;

4. Resealing or restriping of an existing paved parking parking lot, provided the restriping done matches the existing configuration and the number of spaces remain the same. A permit is required to restripe a parking lot for a new parking space and drive arrangement or configuration;

5. Miscellaneous site work, landscaping, gardens, shrubbery, or planting boxes; excavation or fill that does not create a permanent change in property elevation of more than six inches along property lines, block drainage, or create erosion or damage to adjacent properties;

6. Replacement of existing fencing of the same height, material, and location except when enclosing swimming pools, hot tubs, or spas;

7. Retaining walls eighteen inches or less in height above lowest adjacent grade;

8. Tents smaller than 1,000 square feet, or those used for private family events on the same lot as the owner's residence;

9. Statues on private property, erected on grade, not attached to or part of a building or structure;

10. Relining, repairing, patching or shotcreting existing swimming pool walls or floors provided required minimum water depths under diving boards, if present, are maintained;

11. Ordinary or minor repairs to exterior cantilevered balconies, decks, stairs, and fire escapes such as patching or replacing small areas of treads, risers, and platform surfaces; repairing or replacing components such as handrails, tread and riser, guardrail balusters, etc., on existing balconies, stairs and decks with like-for-like materials as long as it does not affect the structural components of the exterior cantilevered balconies, decks, stairs, or fire escapes;

12. Interior painting, floor sanding and refinishing, floor tile or carpeting, replacement of flooring with like material, application of wallpaper and other wall covering material, moveable cases, counters and partitions, and cabinet installation, counter tops, and similar finish work;

13. Plaster patching or gypsum board replacement not exceeding 25% of the total wall or ceiling area of a room or space provided the fire rating and moisture resistance is maintained and no modifications are made;

14. Wall paneling of any type when applied directly to existing room wall surfaces;

15. Installing or replacing ceiling tile of any type, other than foam plastic, when applied directly to existing ceiling surfaces, except when within assembly rooms with more than 300 occupants, institutional rooms or spaces, and corridors or exit stairways of any use. Replacing damaged lay-in ceiling panels with like materials up to 25% of a room or space and a maximum of 500 square feet;

16. Nonfixed or moveable fixtures, cases, racks, counters and partitions not over 5 feet, nine inches in height;

17. Foundation and floor slab repair such as patching/filling of cracks of up to ¼ inch in walls and ⅜ inch in slabs, waterproofing, etc., provided the building is otherwise structurally sound and plumb.

Additionally, for 1- and 2-family dwellings and multiple-family properties with no more than four units, permits shall not be required for the following:

18. Swings and other backyard playground equipment including basketball goals and standards;

19. New aluminum, steel, fiber cement, hardboard, or vinyl exterior siding with no change to existing openings. Replacement of 25% or less of the wall sheathing;

20. Application of pre-finished aluminum, steel, vinyl, or like materials on soffits, fascia boards, rake boards, or overhangs;

21. Replacement or repair of exterior or interior doors or frames, provided the fire rating, when applicable, is maintained, and no modification is made to the opening;

22. Replacement or repair of existing windows and frames, whenever no modification is made to the opening; installation of storm windows and doors, whenever no modification is made to the opening; glazing and glass replacement;

23. Awnings which do not project over property lines, and not over 40 square feet in projected area;

24. Exterior ramps, stairs, or steps which are on grade and not more than twelve inches above adjacent grade, not attached to the structure, and within property lines;

25. Sidewalks and driveways within property lines; paved areas on the same lot as the primary structure, without roofs, covers, or enclosures; concrete patio slabs or wooden patios/decks which rest directly on the ground or a rock base, provided that they are not covered by a roof or canopy, not supported by any type of permanent foundation, and a maximum of twelve inches above adjacent grade;

26. Small detached accessory buildings, such as utility/storage/tool sheds, cabanas, play houses, etc., 120 square feet in area or less and less than twelve feet in height, provided the utility shed is placed on and anchored to a minimum four-inch-thick concrete slab and maintains the setbacks required by the Zoning Ordinance. This does not include accessory buildings having unique uses such as barbeque or smoke houses, storage of fuel or other hazardous material, structures containing fuel fired equipment, and other uses that present an increased fire hazard or nuisance to adjoining property. A permit is required for all buildings housing these types of uses exceeding 50 square feet in area;

27. Residential accessory structures such as arbors, garden trellises, or other minor structures, provided such structures maintain the setbacks required by the Zoning Ordinance;

28. Non-dish radio or television antennae twelve feet or less in height, mounted on the ground, not in the front yard area, attached to, or on the roof of a building. Dish antennas two feet in diameter or less installed on grade or on the roof, provided such antennae maintain the setbacks required by the Zoning Ordinance;

29. Above-ground swimming pools, or hot tubs or spas placed on a slab. Also, in-ground swimming pools with less than 24 inches water depth with a surface area of less than 250 square feet. All pools, hot tubs, and spas shall maintain the setbacks required by the Zoning Ordinance;

30. Installation of battery-operated smoke detectors.

Exceptions:

1. Work involving repair of flood, earthquake, or other natural disaster damage.

2. A floodplain development permit is still required to be obtained if the site is located in the floodplain areas defined by FEMA.

3. Ordinary repairs or minor work to buildings and structures which fall under the purview of the Cultural Resource Office requiring "Cultural Resource Office Only" permits.

R105.2.1 Emergency Repairs. Where equipment replacements and repairs must be performed in an emergency situation, the permit application shall be submitted within the next working business day to the building official.

R105.2.2 Repairs. Application or notice to the building official is not required for ordinary repairs to structures, replacement of lamps, or the connection of approved portable electrical equipment to approved permanently installed receptacles. Such repairs shall not include the cutting away of any wall, partition, or portion thereof; the removal or cutting of any structural beam or load bearing support; or the removal or change of any required means of egress or rearrangement of parts of a structure affecting the egress requirements. Ordinary repairs also shall not include addition to or alteration, replacement, or relocation of any water supply, sewer, drainage, drain leader, gas, soil, waste, vent, or similar piping; electric wiring; or mechanical or other work affecting public health or general safety.

R105.2.3 Public Service Agencies. A permit shall not be required for the installation, alteration, or repair of generation, transmission, distribution, metering, or other related equipment that is under the ownership and control of public service agencies by established right.

R105.2.4 Damaged Building Repair. Buildings that are determined by the building official to have sustained light building damage due to fire, earthquake, wind, flood, or other natural disasters shall require a building permit for repairs. The building permit application will include construction drawings showing the scope of work and a report prepared, sealed, signed, and dated by a Missouri licensed design professional stating that the building damage is light with no structural damage. Construction drawings may be prepared by a person who is not a Missouri licensed design professional.

Buildings that are determined by the building official to have sustained moderate or serious building damage or structural damage due to fire, earthquake, wind, flood, or other natural disasters shall require a building permit for repairs. The building permit application will include construction documents prepared, sealed, signed, and dated by a Missouri licensed design professional.

R105.2.4.1 Condemned for Occupancy or Condemned for Demolition Building Repair. Repairs to buildings that are determined by the building official to be condemned for occupancy or condemned for demolition shall require a building permit with construction documents prepared, sealed, and signed by a Missouri licensed design professional.

R105.2.5 Maintenance. All buildings, structures, and premises and all parts thereof, both existing and new, shall be maintained in a safe and sanitary condition. All service equipment, means of egress, devices, and safeguards required by this code or a previous code or ordinance at the time a building or structure was erected, altered, or repaired shall be maintained in good working order.

R105.2.6 Owner Responsibility. The owner(s) or the owner's agent shall be responsible for the safe and sanitary maintenance of the building, structure or premises and its means of egress facilities at all times.

R105.3 By Whom Application Is Made. Application for a permit shall be made by the owner or lessee of the building or structure, or agent of either, or by the Missouri licensed design professional employed in connection with the proposed work. The full names, addresses, and telephone numbers of the owner, lessee, and applicant shall be stated in the application. Every application shall have a local contact person listed. Demolition and occupancy permit applications, when applied for by anyone other than the owner of record, shall be accompanied by a notarized letter of authorization or other documentation from the owner of record granting permission to apply.

R105.3.1 Application for Permit. To obtain a permit, the applicant shall first file an application on a form furnished by the Division of Building and Inspection for that purpose. Such application shall:

1. Identify and describe the work to be covered by the permit for which application is made.

2. Describe the land on which the proposed work is to be done by legal description, street address, or similar description that will readily identify and definitely locate the proposed building or work.

3. Indicate the use and occupancy for which the proposed work is intended.

4. Be accompanied by construction documents and other information as required in Section R107.

5. State the estimated cost of construction of the proposed work.

6. Be signed by the applicant, or the applicant's authorized agent.

7. Give such other data and information as required by the building official.

R105.3.2 Action on Application. The building official shall examine or cause to be examined applications for permits and amendments thereto. If the application or the construction documents do not conform to the requirements of all pertinent laws, the building official shall reject such application in writing, stating the reasons therefor. If the building official is satisfied that the proposed work conforms to the requirements of this code and laws and ordinances applicable thereto, the building official shall issue a permit. The building official shall rely upon other City agencies to review for compliance with their ordinance requirements.

R105.3.2.1 Determination of Substantially Improved or Substantially Damaged Existing Buildings in Flood Hazard Areas. For applications for reconstruction, rehabilitation, addition, alteration, repair, or other improvement of existing buildings or structures located in a flood hazard area, the building official shall examine the construction documents and shall make a determination of the value of the proposed work. For buildings that have sustained damage of any origin, the value of the proposed work shall include the cost to repair the building or structure to its pre-damaged condition. If the building official finds that the value of the proposed work is 50% or more of the market value of the building or structure before the damage has occurred or the improvement is started, the proposed work shall be considered a substantial improvement or restoration of substantial damage and the building official shall require existing portions of the entire building or structure to meet the requirements of this code.

Where the building or structure has sustained substantial damage, repairs necessary to restore the building or structure to its pre-damaged condition shall be considered substantial improvements regardless of the actual repair work performed. The term shall not include either of the following:

1. Improvements to a building or structure that are required to correct existing health, sanitary, or safety code violations identified by the building official and that are the minimum necessary to ensure safe living conditions.

2. Any alteration of an historic building or structure provided that the alteration will not preclude the continued designation as an historic building or structure.

2.1 Listed or preliminarily determined to be eligible for listing in the National Register of Historic Places; or

2.2 Determined by the Secretary of the U.S. Department of Interiors as contributing to the historical significance of a registered historic district or a district preliminarily determined to qualify as an historic district; or

2.3 Designated as historic under a state or local historic preservation program that is approved by the Department of the Interior.

R105.3.3 Time Limitation of Application. An application for a permit for any proposed work shall be deemed to have been abandoned six months after the date of filing, unless such application has been pursued in good faith or a permit has been issued; except that the building official is authorized to grant one or more extensions of time for additional periods not exceeding 90 days each if the building official deems that there is reasonable cause and if a written request is received from the applicant for the extension prior to the expiration date.

R105.3.4 Time Limitation on Approval. When an application for a permit has been approved by the building official and a permit has not been issued, the application shall be deemed to have been abandoned three months after the approval date. A notice of abandonment shall be sent to the applicant of record at least two weeks prior to the abandonment of the application.

Applicants who have a record of abandoned permit applications shall be required on all future permits to pay the application fee and the full permit fee upon application until such time as the abandoned permits have been reapplied for and approved and all applicable fees have been paid.

R105.3.5 Action on Application for Permit to use explosives. When it is deemed proper, safe and advisable, the building official shall, upon receipt of application, issue permits for the use of explosives for blasting in connection with demolition, excavation, construction or other building operations. Without such

permit, the use of explosives for the above-mentioned purposes is hereby prohibited. Additional permits shall be required under the Fire Code.

R105.3.6 Information on the Permit. The building official shall issue all permits required by this code on an approved form furnished for that purpose. The permit shall contain a general description of the operation or occupancy and its location and any other information required by the building official. Issued permits shall bear the signature of the building official or other approved legal authorization.

R105.4 Validity of Permit. The issuance or granting of a permit shall not be construed to be a permit for, or an approval of, any violation of any of the provisions of this code or of any other ordinance of the City of Saint Louis. Permits presuming to give authority to violate or cancel the provisions of this code or other ordinances shall not be valid. The issuance of a permit based on construction documents and other data shall not prevent the building official from requiring the correction of errors in the construction documents and other data. The building official is also authorized to prevent occupancy or use of a structure where in violation of this code or any other ordinance of the City of Saint Louis.

R105.5 Expiration. All permits shall be issued in the name of the property owner of record for a period of six months unless noted otherwise. Permits shall be permitted to be extended for additional six-month periods if work is progressing and a written request from the owner for the extension is received by the building official prior to the expiration of each permit. Any permit issued shall become invalid if the authorized work is not commenced within six months after issuance of the permit, or if the authorized work is suspended or abandoned for a period of six months after the time of commencing the work; except that the building official shall be permitted to grant one or more extensions of time for additional periods not exceeding six months each if the building official deems that there is reasonable cause, and if a written request is received from the owner for the extension prior to the expiration date. No permit shall be extended if, after six months from issuance of said permit, no work has begun and the Board of Aldermen has passed an ordinance that would make all or part of the work thereon illegal or unlawful.

Permits shall also be abandoned upon written request from the property owner of record, or if circumstances require, the Missouri licensed design professional.

Exception: Permits for demolition of buildings or structures or repair of buildings or structures condemned in accordance with either Section R119 or Section R120 and other work specifically identified by the building official, when in the best interests of the public, shall become invalid after 30 days unless otherwise approved. The building official shall be permitted to grant one or more extensions of time for additional periods not exceeding 30 days each after receiving a written request from the owner explaining the reasons for failing to commence or for suspending work.

R105.6 Suspension or Revocation. The building official is authorized to suspend or revoke a permit issued under the provisions of this code whenever the permit is issued in error or on the basis of incorrect, inaccurate, or incomplete information, or in violation of any ordinance or regulation or any of the provisions of this code.

R105.6.1 Revocation of Permits. The building official shall be permitted to revoke a permit or approval issued under the provisions of this code in case of any false statement or misrepresentation of fact in the application or construction documents on which the permit or approval was based. The building official shall be permitted to revoke or suspend a permit upon discovery of substantial noncompliance with this code or any applicable City ordinance. Permits shall be revoked for non-payment of fees.

R105.6.2 Revocation of Permits for Repeat Offenders. The building official shall revoke any permit or certificate associated with a building, structure or premises when an owner(s) is convicted by a court of competent jurisdiction twice within a twelve-month period of being in violation of the same code provision on the same building, structure or premises.

R105.7 Placement of Permit. A true copy of the building permit shall be kept on the site of operations, open to inspection during the entire time of prosecution of the work and until the completion of the same.

R105.8 Responsibility. It shall be the duty of every person who performs work for the installation or repair of building, structure, electrical, gas, mechanical, or plumbing systems, for which this code is applicable, to comply with this code.

R105.9 Notice of Start. At least 24 hours' notice of start of work under a building permit shall be given to the building official.

R105.10 Compliance with Permit. All work shall conform to the approved application and the approved construction documents for which the permit has been issued and any approved amendments to the approved application or the approved construction documents. Any addition to or alteration of approved construction documents shall be approved in advance by the building official, as evidenced by the issuance of a new or amended permit.

SECTION R106 FLOOR AND ROOF DESIGN LOADS

R106.1 Live Loads Posted. Where the live loads for which each floor or portion thereof of a commercial or industrial building is or has been designed to exceed 50 pounds per square foot, such design live loads shall be conspicuously posted by the owner in that part of each story in which they apply, using durable signs. It shall be unlawful to remove or deface such notices.

R106.2 Issuance of Certificate of Occupancy. A certificate of occupancy required by Section 111 shall not be issued until the floor load signs required by Section 106.1 have been installed.

R106.3 Restrictions on Loading. It shall be unlawful to place or cause or permit to be placed on any floor or roof of a building, structure, or portion thereof a load greater than is permitted by this code.

SECTION R107 CONSTRUCTION DOCUMENTS

R107.1 Submittal Documents. The application for the permit shall be accompanied by at least five complete sets of construction drawings, one set of project specifications, one set of structural calculations, one set of the geotechnical (soils) report, and one set of site or building photographs with sufficient clarity and detailed dimensions to show the nature and character of the work to be performed. The minimum size of any sheet shall be 8½" x 11" and the maximum size of any sheet shall be 36" x 48". When quality of materials is essential for conformity to this code, specific information shall be given to establish such quality. This code shall not be cited nor the term "legal" or its equivalent be used as a substitute for specific information. Construction documents containing the words "not for construction," "preliminary," "review set," or their equivalent shall not be accepted for application. Construction documents marked with contractors' "take-off" notations shall not be accepted for application.

If the construction documents for single-family or multiple-family dwelling units are prepared by a Missouri licensed architect, that architect must seal, sign and date the construction documents as required by RSMo Ch. 327.

Exception: The building official is authorized to waive the submission of construction documents and other data not required to be prepared by a licensed design professional if it is found that the nature of the work applied for is such that review of construction documents is not necessary to obtain compliance with this code.

R107.1.1 Seals. All construction documents submitted with an application for a building permit shall be prepared by a Missouri licensed design professional as required by RSMo Ch. 327. All construction documents shall bear an original embossed or wet ink seal, original ink signature, and the date the documents were sealed by the Missouri licensed design professional for each discipline on the cover sheet of each set of construction documents or on the first sheet of each discipline's drawings within each set of construction documents.

In addition, all other sheets of the construction documents other than project specifications or calculations shall bear the original embossed, wet ink, electronic, or mechanically reproduced seal, signature, and date of the Missouri licensed design professional. Any addenda or modifications submitted for changes to the construction documents shall also bear the original embossed or wet ink seal, original ink signature, and date the documents were sealed.

All project specifications, calculations, reports, or other documents not considered to be construction drawings shall bear an original wet ink or embossed seal, original ink signature, and the date the documents were signed by the Missouri licensed design professional for each discipline on the title or index sheet.

A Missouri licensed professional engineer cannot render architectural services or seal, sign and date construction documents for any residential project. This could be interpreted as the unlawful practice of architecture by a Missouri licensed professional engineer. A Missouri licensed professional engineer may prepare seal, sign and date architectural work which is incidental (insignificant, minor, etc.) to the engineering work

(and vice versa). This determination shall be made on a case by case basis depending upon the full scope of the project.

Exceptions:

1. Construction documents for one- or two-family dwellings not prepared by a Missouri licensed design professional, including name, address, and telephone number of the author, and indicating that they were not prepared by a licensed architect.

2. Construction documents for non-structural alterations to multiple-family dwellings with not more than four dwelling units not prepared by a Missouri licensed design professional, including name, address, and telephone number of the author, and indicating that they were not prepared by a licensed architect.

3. Construction documents for owner-occupied one- or two-family dwellings prepared by the owner.

R107.2 Construction Documents. Construction documents shall be in accordance with Sections R107.2.1 through R107.2.10.

R107.2.1 Information on Construction Documents. Construction documents shall be drawn and dimensioned upon suitable material. Construction documents shall be of sufficient clarity to indicate the location, nature, and extent of the work proposed and show in detail that it will conform to the provisions of this code and relevant laws, ordinances, rules, and regulations as determined by the building official.

R107.2.2 Fire protection Construction Drawings. Construction drawings for the fire protection system(s) shall be submitted to show conformance with this code and the construction documents and shall be approved prior to the start of system installation. Shop drawings shall contain all information as required by the referenced installation standards in Chapter 9 of the Building Code.

R107.2.3 Means of Egress. The construction documents shall show in sufficient detail the location, construction, size, and character of all portions of the means of egress in compliance with the provisions of this code.

R107.2.4 Exterior Wall Envelope. Construction documents for all buildings shall describe the exterior wall envelope in sufficient detail to determine compliance with this code. The construction documents shall provide details of the exterior wall envelope as required, including flashing, intersections with dissimilar materials, corners, end details, control joints, intersections at roof, eaves, or parapets, means of drainage, water-resistive membrane, and details around openings.

The construction drawings shall include manufacturing installation instructions that provide supporting documentation that the proposed penetration and opening details described in the construction documents maintain the weather resistance of the exterior wall envelope. The supporting documentation shall fully describe the exterior wall system which was tested, where applicable, as well as the test procedure used.

R107.2.5 Site Plan. The construction documents submitted with the application for permit shall be accompanied by a site plan showing to scale the size and location of new construction and existing structures on the site, distances from lot lines, the established street grades and the proposed finished grades, and, as applicable, flood hazard areas, floodways, and design flood elevations; and it shall be drawn in accordance with an accurate boundary line survey. In the case of demolition, the site plan shall show construction to be demolished and the location and size of existing structures and construction that are to remain on the site or plot. The building official is authorized to waive or modify the requirements for a site plan when the application for permit is for alteration or repair or when otherwise warranted.

R107.2.5.1 Change in Site Plan. A lot shall not be changed, increased, or diminished in area from that shown on the official site plan until a revised site plan is resubmitted showing such changes accompanied by proof that the documents have been filed in the Recorder of Deeds Office and approved under the Zoning Ordinance; except that such revised site plan will not be required if the change is caused by reason of an official street or alley opening, street widening, or other public improvement.

R107.2.6 Structural Information. For other than one- and two-family dwellings or existing multiple-family dwellings with no more than four units, the construction documents shall provide the information specified in Section 1603 of the Building Code.

R107.2.7 Manufacturer's Installation Instructions. Manufacturer's installation instructions, as required by this code, shall be available on the job site at the time of inspection.

R107.2.8 Information of Braced Wall Design. For buildings and structures utilizing braced wall design, and where required by the building official, braced wall

lines shall be identified on the construction documents. Pertinent information, including, but not limited to, bracing methods, location and length of braced wall panels, and foundation requirements of braced wall panels at top and bottom shall be provided.

R107.2.9 Information for Construction in Flood Hazard Areas. For buildings and structures located in whole or in part in flood hazard areas, construction documents shall include:

1. Delineation of flood hazard areas, floodway boundaries, and flood zones, and the design flood elevation, as appropriate;

2. The elevation of the proposed lowest floor, including basement; in areas of shallow flooding (AO zones), the height of the proposed lowest floor, including basement, above the highest adjacent grade;

3. The elevation of the bottom of the lowest horizontal structural member in coastal high hazard areas (V zone); and

4. If design flood elevations are not included on the community's Flood Insurance Rate Map (FIRM), the building official and the applicant shall obtain and reasonably utilize any design flood elevation and floodway data available from other sources.

R.107.2.10 Information for electric vehicle charging stations. Construction documents shall include electric vehicle charging stations with system installation requirements set forth in Section 309.6 and the Electrical Code.

R107.3 Examination of Documents. The building official shall examine or cause to be examined the construction documents for code compliance.

R107.3.1 Approval of Construction Documents. The building official shall stamp three sets of construction documents "APPROVED," and at least one set of such approved construction documents shall be retained by the building official and one set shall be kept at the building site, open to the inspection of the building official or an authorized representative at all reasonable times. If additional "APPROVED" sets are required by the applicant, a charge shall be made as listed in Table 109.3.1.

R107.3.2 Previous Approvals. This code shall not require changes in the construction documents, construction or designated occupancy of a building or structure for which a lawful permit has been heretofore issued or otherwise lawfully authorized, and the construction of which has been actively prosecuted in good faith within 180 days after the effective date of this chapter and has not been abandoned. When the codes adopted by the City of Saint Louis change from one edition to another, the work shall be permitted to be completed under the codes in effect when the permit for said work was originally issued.

R107.3.2.1 Code Transition. Unless requirements imposed by federal law or state statute have changed, permits applied for within six months of the effective date of this chapter shall be permitted to be reviewed and approved under the former code if there is written evidence of a preliminary plan exam review of the project under the former code. The cover sheet of the construction documents shall show under which code the project was designed.

R107.3.3 Phased Approval. The building official is authorized to issue a permit for the construction of foundations or any other part of a building or structure before the construction documents for the whole building or structure have been submitted, provided that adequate information and detailed statements have been filed complying with pertinent requirements of this code. The holder of such permit for the foundation or other parts of a building or structure shall proceed at the holder's own risk with the building operation and without assurance that a permit for the entire structure will be granted.

R107.3.4 Design Professional in Responsible Charge. When it is determined that documents be prepared by a Missouri licensed design professional, the building official shall be authorized to require the owner or the owner's authorized agent to engage and designate on the building permit application a Missouri licensed design professional who shall act as the Missouri licensed design professional in responsible charge. If the circumstances require, the owner or the owner's authorized agent shall designate a substitute Missouri licensed design professional in responsible charge who shall perform the duties required of the original Missouri licensed design professional in responsible charge. The building official shall be notified in writing by the owner or the owner's authorized agent if the Missouri licensed design professional in responsible charge is changed or is unable to continue to perform the duties.

The Missouri licensed design professional in responsible charge shall be responsible for reviewing and coordinating submittal documents prepared by others, including phased and deferred submittal items, for compatibility with the design of the building.

Where structural observation is required by Section 1710 of the Building Code, the inspection program shall name the individual or firms who are to perform structural observation and describe the stages of construction at which structural observation is to occur. See also duties specified in Section 1704 of the Building Code.

R107.3.4.1 Deferred Submittals. For the purposes of this section, deferred submittals are defined as those portions of the design that are not submitted at the time of the application and that are to be submitted to the building official within a specified period.

Deferral of any submittal items shall have the prior approval of the building official. The Missouri licensed design professional in responsible charge shall list the deferred submittals on the construction documents for review by the building official.

The Missouri licensed design professional in responsible charge shall review the deferred submittal items and forward them to the building official with a notation indicating that they have been reviewed and found to be in general conformance with the design of the building. The deferred submittal items shall not be installed until their design and submittal documents have been approved by the building official.

R107.3.4.2 Engineering Details. The building official shall require to be filed adequate details of structural, plumbing, mechanical, and electrical work including computations, loadings, and structural analysis and other essential technical data. All construction documents shall bear an original embossed or wet ink seal, original ink signature and the date the documents were sealed by the Missouri licensed design professional responsible for the design as required by state statute. Such calculations shall be permitted to be accepted by the building official as complying with the conditions of this code without the need to verify the calculations or their engineering analysis.

R107.4 Amended Construction Documents. Work shall be installed in accordance with the approved construction documents. Any changes to the approved scope of work shall be submitted for approval as an addendum to the approved construction documents.

SECTION R108 TEMPORARY STRUCTURES AND USES

R108.1 General. The building official is authorized to issue a permit for temporary structures and temporary uses. Such permits shall be limited as to time of service, but shall not be permitted for more than 180 days. The building official is authorized to grant extensions for demonstrated cause.

R108.2 Conformance. Temporary construction and uses shall conform to the structural strength, fire safety, means of egress, light, ventilation, and sanitary requirements of this code as necessary to ensure the public health, safety, and general welfare.

R108.3 Temporary Power. The building official is authorized to give permission to temporarily supply and use power in part of an electric installation before such installation has been fully completed and the final certificate of completion has been issued. The part covered by the temporary certificate shall comply with the requirements specified for temporary lighting, heat or power in the Electrical Code.

R108.4 Termination of Approval. The building official is hereby authorized to terminate such permit for a temporary structure or use and to order the temporary structure or use to be discontinued.

SECTION R109 FEES

R109.1 General. No permit, certificate, or inspection report required by the provisions of this code shall be released or issued until the fees listed in this section have been paid to the City of Saint Louis; nor shall an amendment to a permit be released until the additional fees have been paid. In collecting said fees, the building official is authorized to accept personal checks as payment; however, non-payment by said checking account shall be considered as a violation of this code and is cause for suspension or revocation of permits, certificates, or reports issued or released for such personal check payment. If a permit is suspended or revoked for non-payment of a fee or for insufficient funds, an additional $25.00 shall be collected to cover administrative costs.

R109.1.1 Fees Other Than Herein Prescribed. The payment of fees listed in this section shall not relieve the applicant or holder of any permit or any certificate of occupancy from the payment of other fees which shall be prescribed by law or ordinance for water taps, sewer connections, plumbing permits, mechanical permits, electrical permits, sprinkler permits, fire alarm permits, or fees for inspections or other privileges or requirements, both within and without the jurisdiction of the Division of Building and Inspection.

R109.2 Schedule of Permit Fees. Fees for permits for construction shall be as established as follows:

R109.2.1 Application Fee. An application fee is an administrative charge made for processing permit ap-

plications, preparing a Certificate of Floodplain Status, or conducting a Building Line Survey and shall be as listed in Table R109.3.1.

R109.2.2 New Construction and Additions. The building permit fee for new construction and additions will be based on the total estimated cost of construction, and shall be charged at the rate listed in Table R109.3.1 for new construction and additions. For the purpose of determining a fee, total construction costs shall include all costs for normal site preparation including grading, excavation, and backfill; structural work; interior and exterior finishes; and plumbing, mechanical, and electrical work. The following shall be permitted to be excluded from total construction costs: the cost to install sprinkler, standpipe, and fire alarm systems; and signs.

R109.2.3 Miscellaneous Structures and Site Work. The fee for a permit for, including, but not limited to, retaining walls, fences and site-work (including parking lots) shall be based on the estimated total cost of the construction at the rate listed in Table R109.3.1.

R109.2.4 Alterations and Repairs. The fee for a permit for alterations or repairs to a building or structure shall be based on the estimated total cost of said alterations or repairs and shall be charged at the rate listed in Table R109.3.1.

R109.2.5 Tanks, Devices, Etc. The fee for a permit for the installation of a tank, device, equipment, or other structure or facility shall be as listed in Table R109.3.1.

R109.2.6 Tents, Amusement Booths. The fee for a permit for the construction, installation, or erection of a tent or amusement booth shall be as listed in Table R109.3.1. This shall include all those for private parties, picnics, carnivals, circuses, or traveling exhibitions.

R109.2.7 Moving of Buildings. The fee for a permit to move a building or structure from one lot to another, or to a new location on the same lot, shall be as listed in Table R109.3.1. In the event that a building or structure is to be moved from a point within the City of Saint Louis to a point outside the City, the fee for the moving permit shall be based on the estimated total cost of restoration of the original site to a safe and satisfactory condition plus that portion of the moving cost which covers the journey to the City limits. In the event that a building or structure is to be moved from the outside of the City of Saint Louis to a point inside the City limits, the fee for the moving permit shall be based on the estimated total cost of the portion of the journey from the City limits to the site of re-erection.

R109.2.7.1 New Foundations. Before any building or structure is moved to a new foundation, a separate building permit shall be obtained for the construction of said new foundation; the fee for the permit for said foundation shall be as listed in Table R109.3.1. In addition, all additional electrical, mechanical, and plumbing permits shall be obtained.

R109.2.8 Explosives. The fee for a permit for the use of explosives for blasting in connection with demolition, excavation, construction, or other building operations shall be as listed in Table R109.3.1. When a blasting operation consists of a series of blasts at intervals of distance, such as blasting a trench for the installation of utilities, and the extent of the blasting operations exceeds 250 feet in length, the fee for a permit shall be charged for the first 250 feet of the operation with an additional fee for each additional 250 feet or any portion thereof. The fee for a permit for the use of explosives shall cover the issuance of the permit and shall also cover pre-blasting survey inspection and post-blasting survey inspection of all property within 250 feet of the blasting operation. In addition, a separate permit shall be required under the Fire Code for the transportation, storage, or use of explosives.

R109.2.9 Addendum to Permit. Fees for addendums to issued permits shall be as follows:

1. Where an addendum includes work that will increase the construction cost of the complete project, the fee listed in Table R109.3.1 shall be calculated on the additional cost incurred by the change in scope, and shall include application, special demolition fund, and lead remediation fees.

2. Where an addendum does not include work that will increase the construction cost of the complete project, or includes work or removal of work that decreases the cost of the complete project, a minimum fee as listed in Table R109.3.1 and an application fee shall apply.

R109.2.10 Special Demolition Fund. There shall be an additional fee charged on all building permits based on the total estimated cost of construction, and shall be charged at the rate listed in Table R109.3.1 for the special demolition fund.

R109.2.11 Lead Remediation Fund. There shall be an additional fee charged on all building permits based

on the total estimated cost of construction, and shall be charged at the rate listed in Table R109.3.1 for the special lead remediation fund.

R109.2.12 Vacant Building Registration Fee. A semiannual registration fee of $200.00 shall be charged to the owner of any parcel of residential property improved by a residential structure, or commercial property improved by a structure containing multiple dwelling units, which is vacant and has been vacant for at least six months, and which is violation of this code.

R109.2.13 Fee for Duplicate Copy. Any person requesting a copy of a building permit, occupancy permit, or certificate of inspection issued under this code, or the holder of any permit for similar purpose issued by the building official under any previous code or ordinance, can obtain a duplicate or re-issued copy of said permit for a fee of one dollar per copy. This fee is listed in Table R109.3.1.

R109.2.14 Fee for Occupancy Permit. Fees for the issuance of an occupancy permit shall be as listed in Table R109.3.1. There shall be no charge for the issuance of the original occupancy permit upon completion of construction in accordance with the building permit for new buildings or buildings hereafter altered with construction costs exceeding $30,000.00.

R109.2.14.1 Fee for Temporary or Partial Occupancy Permit. The fee for a partial occupancy permit shall be as listed in Table R109.3.1.

R109.2.14.2 Fee for Changing the Name on an Occupancy Permit. Any person requesting a re-issuance of an occupancy permit issued under this code or under any previous code or ordinance due to a change of name can obtain a re-issued copy of said permit for a fee of five dollars per copy. This fee is listed in Table R109.3.1.

R109.2.15 Fee for Approving Additional Sets of Construction Documents. Any person requesting additional sets of approved construction documents issued under this code or under any previous code or ordinance shall be charged a fee of one dollar per page. This fee is listed in Table R109.3.1.

R109.3 Fee Tables. The building official shall cause to be collected all fees as listed in Table R109.3.1 and elsewhere in this code.

R109.3.1 Fee Schedule. Table R109.3.1 contains fees for permits for new construction and additions; miscellaneous structures; alterations and repairs to existing buildings; tanks; moving of buildings; demolition of structures; blasting for demolition or construction purposes; picnics, carnivals, and circuses or traveling exhibitions; tents; amusement park devices; addendums to permit; the special demolition and lead remediation funds; special inspections; and occupancy.

R109.3.2 Building Permit Valuations. The applicant for a building permit shall provide a total estimated cost of construction for the project at the time of application. For the purpose of determining fees, total construction costs shall include all costs for normal site preparation including grading, excavation, and backfill; structural work; interior and exterior finishes; and plumbing, mechanical, and electrical work. The following shall be permitted to be excluded from total construction costs: the cost to install sprinkler, standpipe and fire alarm systems; and signs.

If, in the opinion of the building official, the valuation is underestimated on the application, the permit shall be denied, unless the applicant can show detailed construction estimates for the project to meet the approval of the building official. The building official shall be permitted to require the submittal of signed and notarized construction contracts when the total estimated cost of construction is questioned. Final building permit valuation shall be set by the building official.

Final costs shall be determined by the building official, if necessary, by multiplying the total floor area of the project in square feet by an appropriate square foot cost rate, or by using the current ICC Building Valuation Data Report for New Construction, Additions, Alterations, Repairs, or Rehabilitation.

Table R109.3.1

BUILDING PERMIT FEES FOR STRUCTURES; BLASTING AND INSPECTIONS FEES

Item	Fee	Minimum Fee	Section	Remarks and Requirements
APPLICATION FEE; or Building Line Survey	$25.00		R109.2.1	An administrative charge made for processing applications.

Item	Fee	Minimum Fee	Section	Remarks and Requirements
Certificate of Floodplain Status	$10.00		R109.2.1	
PERMIT FOR NEW CONSTRUCTION AND ADDITIONS	$6.00/$1000 of estimated cost or fraction thereof	$15.00	R109.2.2	
MISCELLANEOUS STRUCTURES PERMIT - Structures such as towers, retaining walls, floating structures, parking lots, fences, awnings, signs, etc.	$6.00/$1000 of estimated cost or fraction thereof	$15.00	R109.2.3	For all structures, devices, appurtenances, and equipment requiring permits & not otherwise provided for by this code.
PERMIT FOR ALTERATIONS & REPAIRS TO AN EXISTING BUILDING	$6.00/$1000 of estimated cost or fraction thereof	$15.00	R109.2.4	Permits for flammable and combustible liquids are required under the Fire Code.
TANK PERMIT For any purpose except flammable and combustible liquids	$6.00/$1000 of estimated cost or fraction thereof	$15.00	R109.2.5	
TENT PERMIT	$35.00		R109.2.6	Section 3103 of the Fire Code.
MOVING OF BUILDING PERMIT Within City Limits	$1.00/$100 of estimated cost or fraction thereof	$15.00	R109.2.7	Estimated cost of moving building to new location plus cost of restoring previous site to a safe condition.
To outside City Limits	$1.00/$100 of estimated cost or fraction thereof	$15.00		Estimated cost of moving building to City limits plus cost of restoring previous site to a safe condition.
From outside City Limits to within City Limits	$1.00/$100 of estimated cost or fraction thereof	$15.00		Estimated cost of moving building from City Limits to a new site.
Foundation for building	$6.00/$1000 of estimated cost or fraction thereof	$15.00	R109.2.7.1	
EXPLOSIVES PERMIT Blasting permit for trenching	$6.00/250 lineal feet or fraction thereof	$100.00	R109.2.8	For construction, excavation, or other building operation.
Blasting for demolition	$100.00	$100.00	R109.2.8	Includes pre- and post-blast survey per building/per blast.
ADDENDUM PERMIT Amendment which involves additional dollars in project cost.	$6.00/$1000 of estimated increased cost or fraction thereof	$25.00	R109.2.9	
Amendment which involves decrease or no increase in project cost.	$25.00	$25.00		
SPECIAL DEMOLITION FUND	$2.00/$1,000 of estimated cost or fraction thereof		R109.2.10	Special fund approved by the voters.
LEAD REMEDIATION FUND	$2.00/$1,000 of estimated cost or fraction thereof		R109.2.11	Special fund approved by Ordinance 64699.
VACANT BUILDING REGISTRATION FEE	$200.00 Semi-annually		R109.2.12	Special fee established by Ordinance 64678.
DUPLICATE COPY OF BUILDING PERMIT, OCCUPANCY PERMIT OR CERTIFICATE OF INSPECTION	$1.00 per copy		R109.2.13	
APPLICANT REQUEST FOR OCCUPANCY PERMIT Residential	$80.00		R109.2.14 R109.2.14.1	Special inspection fees for occupancy permits. This fee is also applicable to partial occupancy permits.
	$20.00/each additional unit in same structure			When units are inspected on the same site inspection.
Commercial 3,500 sq. ft. or less	$80.00			
Commercial over 3,500 sq. ft.	$160.00			
RE-ISSUANCE OF OCCUPANCY PERMIT DUE TO NAME CHANGE	$5.00 per copy		R109.2.14.2	

Item	Fee	Minimum Fee	Section	Remarks and Requirements
APPROVAL OF ADDITIONAL SETS OF CONSTRUCTION DOCUMENTS	$1.00 per page		R109.2.15	
DEMOLITION PERMITS - Structure volume less than 10,000 cu. ft.	$10.00	$10.00	R123.1.5	Based on volume of structure exclusive of basement or cellars.
10,000 cu. ft. and over	$15.00/10,00 0 cu. ft. or fraction thereof	$25.00		Demolition permits shall be issued for a period not to exceed thirty days.
DEMOLITION INSPECTION FEE				
Less than 10,000 cu. ft.	$15.00	$15.00	R123.1.5	Per site
10,000 cu. ft. or over	$25.00	$25.00		Per site
Blasting for demolition	$50.00	$50.00	R109.2.8	Per site
Applicant request	$25.00			Related to other occupancy and use permits requested by the applicant.
Emergency and specialty inspection	$25.00			Charge for inspection requested to be made beyond normal working hours - not to exceed $25.00 per requested inspection.

R109.3.3 Sign Fee Schedule. Table R109.3.3 contains the basic building fees for signs governed by this code.

Table R109.3.3(a)

SIGN PERMIT FEES

Item	Fee	Minimum Fee	Section
GROUND SIGNS			
Up to 100 square feet	$100.00	$100.00	IBC H101.3.1
Over 100 square feet	$160.00		
ROOF SIGNS			
Up to 100 square feet	$100.00	$100.00	IBC H101.3.1
Over 100 square feet	$160.00		
WALL SIGNS			
Up to 100 square feet	$100.00	$100.00	IBC H101.3.1
Over 100 square feet	$160.00		
PROJECTING SIGNS			
Up to 100 square feet	$100.00	$100.00	IBC H101.3.1
Over 100 square feet	$160.00		
SPECIAL OR TEMPORARY DISPLAY SIGNS REQUIRING PERMITS Fees for a special sign shall be the same as the one above which it most closely resembles.		$100.00	IBC H101.3.1
LETTERING OR GRAPHICS ON AWNINGS AND CANOPIES	$50.00	$50.00	
Note a. When a question arises as to what type of sign is being constructed or placed, it shall be designated as that type of sign it most closely resembles as determined by the building official. (See also Chapter 29 of the Building Code and the Zoning Ordinance.)			

R109.4 Work Started Surcharge Fees Schedule. In case any work for which a permit is required by this code is substantially started or proceeded with prior to obtaining said permit, the total normal fees applicable shall be increased by the amount as listed in Table 109.4. The payment of said surcharge fee shall not relieve any persons from fully complying with the requirements of this code for performance or execution of the work, nor from other penalties prescribed by law.

Table R109.4

SCHEDULE FOR SURCHARGE BUILDING PERMIT FEES

Permit fee	Surcharge fee
$0.00 TO $50.00	$30.00
$51.00 TO $200.00	$90.00
$201.00 TO $500.00	$240.00
$501.00 TO $2,000.00	$360.00
$2,001.00 TO $10,000.00	$480.00
OVER $10,000.00	$600.00

R109.5 Demolition Work Started Surcharge Fees Schedule. In case any work for which a demolition permit is required by the code is substantially started or proceeded with prior to obtaining said permit, the total normal fees applicable shall be increased by the amount as listed in Table R109.5. The payment of said surcharge fee shall not relieve any persons from fully complying with the requirements of this code for performance or execution of the work, nor from other penalties prescribed by law.

Table R109.5

SCHEDULE FOR SURCHARGE DEMOLITION PERMIT FEES

Permit fee	Surcharge fee
$0.00 TO $50.00	$30.00
$51.00 TO $200.00	$90.00
$201.00 TO $500.00	$240.00
$501.00 TO $2,000.00	$360.00
$2,001.00 TO $10,000.00	$480.00
OVER $10,000.00	$600.00

R109.6 Related Fees. The payment of fees for the construction, alteration, removal or demolition for work done in connection with or concurrently with the work authorized by a building permit shall not relieve the applicant or holder of the permit from the payment of other fees that are prescribed by law.

R109.7 Fees Non-Refundable. The fee for a permit based upon an estimated cost that is higher than later claimed by the applicant shall not be a basis for refund. When construction does not occur, or only partially occurs, fees collected are not refundable.

R109.8 Fees Waived for Disaster Related Permits. In the event of a tornado, earthquake, flood, or any other disaster of such magnitude to activate the City Emergency Management Agency, the Building Commissioner is authorized to waive all permit fees normally collected by the Division of Building and Inspection for repairs, reconstruction, demolition, plumbing, mechanical, or electrical work or any other similar permits required by this Division to correct the damage caused by such disaster. These permit fees shall be permitted to be waived for a period not to exceed six months or as otherwise determined by the Building Commissioner.

SECTION R110 INSPECTIONS

R110.1 General. Construction or work for which a permit is required shall be subject to inspection by the building official and such construction or work shall remain accessible and exposed for inspection purposes until approved. Approval as a result of an inspection shall not be construed to be an approval of a violation of the provisions of this code or of other ordinances of the City of Saint Louis. Inspections presuming to give authority to violate or cancel the provisions of this code or of other ordinances shall not be valid. It shall be the duty of the permit applicant to cause the work to remain accessible and exposed for inspection purposes. Neither the building official nor the City of Saint Louis shall be liable for expenses entailed in the removal or replacement of any material required to allow inspection.

R110.2 Preliminary Inspection. Before issuing a permit, the building official is authorized to examine or cause to be examined buildings, structures and sites for which an application has been filed.

R110.2.1 Notice to Begin Work. It shall be the responsibility of the holder of a permit to notify the building official when work is ready for the various inspections required by the terms of the permit or the approved rules. Such notice shall be given within a reasonable time before the inspection is desired, but in no event shall the notice be less than the working day before. Notice given on a Friday or on a day prior to a legal holiday shall not constitute notice for inspection on a Saturday, Sunday, or holiday unless arrangements have been made under approved rules for overtime inspection on such days. Before giving such notice the holder of the permit shall first test the work and satisfy themselves that it conforms to the approved construction documents and the requirements of this code.

R110.3 Required Inspections. The building official, upon notification, shall make the inspections set forth in Sections R110.3.1 through R110.3.10. No work shall be done on any part of the building or structure

beyond the point indicated in each successive inspection without first obtaining the approval of the building official or authorized representative. Approval shall be given only after an inspection has been requested and made of each successive step in the construction phase and all code requirements or corrections are completed as indicated by each of the inspections required. A final inspection and approval of all buildings shall be completed before occupancy as described in Section R111. Failure to obtain a final inspection before occupancy will constitute a violation of the Building Code subject to the penalties as set forth in Section 25.11.030. Reinforcing steel or structural framework of any part of a building or structure shall not be covered or concealed in any manner without first obtaining the approval of the building official. The building official, upon notification from a permit holder or agent, in accordance with the rules of procedure listed on the permit and posted in the office of the building official, shall make the following inspections and shall either approve that section or portion of the construction as completed or shall notify the permit holder or agent that they have failed to comply with the law.

R110.3.1 Footing or Foundation Inspection. Footing and foundation inspections shall be made after excavation for footings are complete and any required reinforcing steel is in place. For concrete foundations, any required forms shall be in place prior to inspection. Materials for the foundation shall be on the job, except where concrete is ready mixed in accordance with ASTM C 94, the concrete need not be on the job. The owner is solely responsible for the correct location of the foundation on the site.

R110.3.1.1 Soil Inspection. A soil inspection shall be made after excavation for the building or structure is complete and trenches for footings, column pads, spread footings, or other types of footings are ready for concrete. No concrete shall be poured prior to this inspection.

R110.3.1.2 Pier Inspection. Where special foundations such as drilled and poured-in-place concrete piers, driven piles of all types, caissons, and other extraordinary types are required, the building official shall make at least one inspection or more if the size of the job warrants it.

R110.3.2 Concrete Slab or Under-Floor Inspection. Concrete slab and under-floor inspections shall be made after in-slab or under-floor reinforcing steel and building service equipment, conduit, piping accessories, and other ancillary equipment items are in place, but before any concrete is placed or floor sheathing installed, including the subfloor.

R110.3.3 Lowest Floor Elevation. In flood hazard areas, upon placement of the lowest floor, including basement, and prior to further vertical construction, the elevation certificate required in Section 1612.5 of the Building Code shall be submitted to the building official.

R110.3.4 Frame Inspection. Framing inspections shall be made after the roof deck or sheathing, all framing, fire blocking, and bracing are in place and pipes, chimneys, and vents to be concealed are complete and the rough electrical, plumbing, heating wires, pipes, and ducts are approved.

R110.3.5 Lath, Gypsum Board, and Gypsum Panel Product Inspection. Lath, gypsum board, and gypsum panel product inspections shall be made after lathing, gypsum board, and gypsum panel products, interior and exterior, are in place, but before any plastering is applied or gypsum board or gypsum panel product joints and fasteners are taped and finished.

Exception: Gypsum board and gypsum panel products that are not part of a fire-resistance-rated assembly or a shear assembly.

R110.3.5.1 Covering Work. It shall be a violation of this code to cover prior to inspection any work required to be inspected under the provisions of a permit, the approved rules, or this code, regardless of any penalties for such violation. The building official shall be permitted to require the holder of the permit to uncover any such work for inspection, and the cost of uncovering such work and of replacing the cover after the work has been satisfactorily inspected, shall be borne by the holder of the permit.

R110.3.6 Fire- and Smoke-Resistant Penetrations. Protection of joints and penetrations in fire-resistance-rated assemblies, smoke barriers, and smoke partitions shall not be concealed from view until inspected and approved.

R110.3.7 Energy Efficiency Inspections. Inspections shall be made to determine compliance with Chapter 13 of the Building Code or Chapter R11 of the Residential Code for One- and Two-family Dwellings, as applicable, and shall include, but not be limited to, inspections for: envelope insulation R and U value, fenestration U value, duct system R value, and HVAC and water heating equipment efficiency.

R110.3.8 Other Inspections. In addition to the inspections specified above, the building official is authorized to make or require other inspections of any construction work to ascertain compliance with the provisions of this code and other laws that are enforced by the Division of Building and Inspection.

R110.3.8.1 Plant Inspection. Where required by the provisions of this code or by the approved rules, materials or assemblies shall be inspected at the point of manufacture or fabrication.

R110.3.8.2 Evaluation and Follow-Up Services. Prior to the approval of a closed prefabricated assembly and issuance of a building permit, the building official shall require the submittal of an evaluation report of each prefabricated assembly indicating the complete details of the assembly including a description of the assembly and its components, the basis upon which the assembly is being evaluated, test results and similar information, and other data as necessary for the building official to determine conformance with this code. Acceptable reports shall be permitted to come from the State of Missouri Public Service Commission or ICC Evaluation Services.

R110.3.8.2.1 Evaluation Service. The building official shall designate the evaluation service of an approved agency as the evaluation agency, and review such agency's evaluation report for adequacy and conformance to this code.

R110.3.8.2.2 Follow-Up Inspection. Except where all assemblies and subassemblies, service equipment, and accessories are readily accessible for complete inspection at the site without disassembly or dismantling, the building official shall conduct the frequency of in-plant inspections as necessary to reasonably ensure conformance to the approved evaluation report or shall designate an approved independent inspection agency to conduct such inspections. The inspection agency shall furnish the building official with the follow-up inspection manual and a written report of inspections upon request, and the product shall have an identifying label permanently affixed to the product indicating that factory inspections have been performed.

R110.3.8.2.3 Test and Inspection Records. All required tests and inspection records shall be accessible to the building official or quality assurance agency at all times during the fabrication of the unit or subassembly and the erection of the building; or such records as the building official designates shall be filed with the building official.

R110.3.8.2.4 Inspection Reports. All inspection reports shall be in writing and shall be certified by the licensed authority or responsible officer of the service, or by the individual when expert inspection services are accepted. An identifying label or stamp permanently fixed to the product indicating that factory inspection has been made shall be accepted in lieu of the aforesaid inspection report in writing if the intent or meaning of such identifying label or stamp is properly substantiated.

R110.3.9 Special Inspections. For special inspections, see Section 1704 of the Building Code.

R110.3.10 Final Inspection. The final inspection shall be made after all work required by the building permit is completed.

Upon completion of the building or structure, and before issuance of the occupancy permit as required in Section R111, a final inspection shall be made. All violations of the approved construction documents and permit shall be noted and the holder of the permit shall be notified of the discrepancies. The building official shall be permitted to issue a partial occupancy permit for a specific period of time. Failure to comply with the conditions shall cause revocation of the permit.

R110.3.11 Blast Survey Inspections. When a permit is issued for the use of explosives, the building official shall cause to be conducted two survey inspections of all buildings within 250 feet of the blasting, and a third inspection to be made after the blasting. These inspections shall indicate any settlement, cracks or other deterioration; additional or supplemental detailed survey work shall be permitted to be required by the building official. Such inspections or survey work, as required by the building official, must be conducted by a private individual or individuals technically competent to do such work and acceptable to the building official. Such private surveys shall be conducted at the expense of the permit applicant. The additional or supplemental survey work shall be permitted to be accepted by the building official in lieu of the pre-blast or post-blast survey if the survey(s) has included all areas within 250 feet of the blasting site and contains the details required herein.

R110.4 Approved Inspection Agencies. The building official is authorized to accept reports of approved inspection agencies, provided such agencies satisfy the requirements as to qualifications and reliability.

R110.5 Inspection Requests. It shall be the duty of the holder of the building permit or their duly autho-

rized agent to notify the building official when work is ready for inspection. It shall be the duty of the permit holder to provide access to and means for inspection of such work for any inspections that are required by this code.

R110.5.1 Action on Notice. Upon receipt of notice that work is ready for inspection, the building official shall inspect, or cause to be inspected, the work as soon as reasonably practicable. However, failure of the building official to make a prompt inspection shall not be deemed justification for covering work without inspection when such work is required under the terms of the permit to be inspected before being covered.

R110.6 Approval Required. Work shall not be done beyond the point indicated in each successive inspection without first obtaining the approval of the building official. The building official, upon notification, shall make the requested inspections and shall either indicate the portion of the construction that is satisfactory as completed, or shall notify the permit holder or an agent of the permit holder wherein the same fails to comply with this code. Any portions that do not comply shall be corrected and such portion shall not be covered or concealed until authorized by the building official.

R110.7 Periodic Inspections. The building official shall, if deemed necessary, make or cause to be made such periodic inspections of buildings, structures, devices, appurtenances, and uses as are required by and in the intervals prescribed by Table R110.7. In order to provide a uniform workload throughout the year, the building official shall be permitted to alter the intervals between periodic inspections as required to meet staffing levels.

Table R110.7

PERIODIC INSPECTION OF STRUCTURES, DEVICES, AND USES

Item	Period between inspections
Cornices, entablatures, belt courses, trim, and similar decorative features; maintenance repair and safe condition thereof (for such items projecting from the face of buildings). See note a.	3 years
Exterior Cantilevered Balconies, Stairways, and Fire Escapes. See note b.	3 years
Other annual permits, certificates, and clearances through Board of Public Service action such as day care centers, nursing homes, homes for the aged, hospitals. See note c.	1 year
Permanent amusement devices	1 year
Auto lifts	1 year
Note a. Applies to all buildings over five stories or 60 feet in height. Owners to submit report bearing the seal, signature, and date of a Missouri licensed Professional Engineer or Architect to the building official every three years describing the condition and safety of cornices, entablatures, belt courses, etc. The building official shall waive inspection if feature does not encroach over a City of Saint Louis sidewalk, street, or alley.	
Note b. Owners shall submit a report bearing the seal, signature, and date of a Missouri licensed Professional Engineer or Architect to the building official every three years describing the condition and safety of exterior cantilevered balconies, stairways, and fire escapes.	
Note c. Applies to all other inspections of buildings or uses not otherwise provided for in this code or any City ordinance which are made annually per the Board of Public Service Permit, and which are assigned by BPS to the Building Division for permit verification, certification, re-certification, or clearances.	

R110.7.1 Professional Inspection. The building official shall require owners to supply inspection reports by Missouri licensed design professionals for any building, structure, appurtenance, or device when, in the building official's opinion, it is necessary to insure proper public safety, health, and welfare.

R110.8 Authority to Enter. The building official shall have the authority to enter at any reasonable hour any building, structure or premises in the City of Saint Louis for which a permit has been issued but has not received a certificate of occupancy in accordance with Section R110 to enforce the provisions of this code or any other code or ordinance of the City of Saint Louis. No person shall accompany a building official onto a premises in the performance of their duty unless otherwise invited onto said premises by the owner or the owner's representative.

For all other structures or premises, when the building official has reasonable cause to believe that a code violation exists, the building official is authorized to enter the building, structure, or premises at reasonable times to inspect subject to constitutional restrictions on

unreasonable searches and seizures. If entry is refused or not obtained, the building official is authorized to pursue recourse as provided by law.

R110.9 Jurisdictional Cooperation. The assistance and cooperation of the Police, Fire, Streets, Parks, and Health Departments and all other City officials shall be available as required in the performance of the duties of the building official.

R110.10 Parking. Division of Building and Inspection employees, when on official duty, shall be allowed to park without payment of fees at any parking meter or contrary to posted no parking zones. In no event will parking be allowed in front of fire plugs, mail boxes, bus stops, or wheelchair ramps or within disabled parking spaces unless vehicle displays a permanent Missouri placard or license plate for the disabled.

R110.10.1 Placards. Each authorized individual shall display one placard approved by the building official in either the front or rear window of private or City vehicles to indicate that the individual is on official City business and is exempt from parking fees, citations, and parking tickets in accordance with Section R110.10 during normal working hours. The Building Commissioner shall not issue such placards to any person not on the Division of Building and Inspection payroll. The Building Commissioner shall have the authority to request cancellation of parking tickets issued contrary to this chapter.

SECTION R111 CERTIFICATE OF OCCUPANCY

R111.1 Use and Occupancy. No building, structure, or premises shall be used or occupied and no change in the existing occupancy classification of a building, structure, premises, or portion thereof shall be made until the building official has issued an occupancy permit as provided herein. Issuance of an occupancy permit shall not be construed as an approval of a violation of the provisions of this code or of other ordinances of the jurisdiction. Failure to have an occupancy permit approved and issued by the building official is a violation and both the occupant and owner shall be subject to a penalty as set forth in Section 25.11.030. Each day that a violation continues shall constitute a separate offense.

R111.1.1 Posting notice. It shall be the duty of the building official to post a notice on any building, structure or portion thereof when it is found that an occupancy permit is required before any occupancy shall be permitted to occur. This notice shall remain in plain sight and removal of same shall constitute a separate offense and shall be subject to a penalty as set forth in Section 25.11.030.

R111.2 Partial Occupancy Permits. Upon the request of an owner or an owner's representative, a partial occupancy permit shall be permitted to be issued for a building, structure, or premises, provided that no conditions exist which endanger public life, safety, or welfare. Partial occupancy permits shall be permitted to be subject to conditions.

R111.2.1 Accessible Type A Dwelling Units When Granting Partial Occupancy Permit. Before a partial occupancy can be approved, an accessible Type A unit must be completed in for sale multifamily residential buildings where 50% of the units are built out. This must be an accessible Type A dwelling that was designated on the approved building permit construction drawings or on an addendum. The unit must comply with ICC A117.1-2009 Chapter 10: Dwelling Units, Section 1003, Type A units.

If the accessible Type A dwelling unit on the original building permit construction drawings is not built out in the location shown, the architect of record shall submit revised construction drawings indicating the location of the new accessible Type A dwelling units within the building as an addendum to the original building permit application.

R111.3 Certificate of Substantial Completion. Upon the request of the design professional of record, the building official shall be permitted to issue a Certificate of Substantial Completion for a building, structure, or premises before the entire work covered by the building permit has been completed provided there are no conditions existing which would endanger public safety, health, or welfare. Certificates of Substantial Completion shall be permitted to be subject to conditions. The owner can occupy or utilize the work or designated portion thereof for the use for which it is intended provided a partial occupancy permit has been applied for and issued by the building official.

R111.4 Contents of the Occupancy Permit. When a building, structure, or premises is entitled thereto, the building official shall issue an occupancy permit within a reasonable period of time. The occupancy permit shall certify compliance with the provisions of this code and the purpose for which the building, structure, or premises will be used. The occupancy permit shall specify the use group in accordance with the provisions of Chapter 3 of the Building Code, the type of construc-

tion as defined in Chapter 6 of the Building Code, and any special stipulations and conditions of the building permit. Any building, structure, or premises for which an occupancy permit has been issued shall be permitted to be reinspected to confirm compliance with this code and the Zoning Ordinance.

R111.5 By Whom Application Is Made. An application for an occupancy permit shall be made by the owner of record of the building, structure, or premises. If an occupancy permit application is made by any person other than the owner of record, a notarized letter or some other proof must be presented granting permission from the owner of record to the applicant to apply for the occupancy permit for the stated use. The full names, addresses, and telephone numbers of the owner, lessor, and applicant shall be stated. If the building is owned by a corporation, said notarized permission letter or other proof shall be signed by an officer or registered agent of that corporation. If the applicant for the occupancy permit is a corporation, an officer, registered agent, or other responsible person of that corporation shall sign the application stating their position with said corporation.

R111.6 Posting of Occupancy Permit; Responsibilities. It shall be the duty or responsibility of the operator of every business to display a copy of a legally issued occupancy permit pertaining to the actual business in effect on the premises. It shall be the duty of the Saint Louis Police Department to enforce the provisions of this section. When the building official is informed of or suspects any violation of this code, it shall be the duty of the holder of an occupancy permit to allow the building official to inspect the building, structure, premises, or any portion thereof. Violation of this section shall result in revocation of said occupancy permit and shall be subject to penalties as set forth in Section 25.11.030.

R111.7 Occupancy Permit Application Abandonment. Occupancy permit applications shall be abandoned 60 days after initial application if, in the opinion of the building official, the occupancy permit has not been diligently pursued.

Exception: Those buildings acquired from Land Reutilization Authority, in which case said occupancy permit applications shall be abandoned 180 days after initial application was filed.

R111.8 Revocation. The building official is authorized to, in writing, suspend or revoke an occupancy permit or certificate of substantial completion issued under the provisions of this code whenever the permit is issued in error, on the basis of incorrect information supplied, or where it is determined that the building or structure or portion thereof is in violation of any ordinance or regulation or any of the provisions of this code.

SECTION R112 SERVICE UTILITIES

R112.1 Connection of Service Utilities. No person shall make connections from a utility, source of energy, fuel, or power to any building or system that is regulated by this code for which a permit is required until released by the building official.

R112.2 Temporary Connection. The building official shall have the authority to authorize and approve the temporary connection of the building or system to the utility, source of energy, fuel, or power.

R112.3 Authority to Disconnect Service Utilities. The building official shall have the authority to authorize disconnection of utility service to the building, structure, or system regulated by this code and the referenced codes and standards set forth in Section R102.4 in case of emergency where necessary to eliminate an immediate hazard to life or property or when such utility connection has been made without the approval required by Section R112.1 or 112.2. The building official shall notify the serving utility and, wherever possible, the owner and occupant of the building, structure, or service system of the decision to disconnect prior to taking such action. If not notified prior to disconnection, the owner or occupant of the building, structure, or service system shall be notified in writing as soon as practical thereafter.

SECTION R113 BOARD OF BUILDING APPEALS

R113.1 Creation, Members, and Qualifications. There is hereby established a Board of Building Appeals consisting of seven members appointed by the Mayor, all of whom shall be residents of the City of Saint Louis; at least one of whom shall be a person engaged in the real estate business, one a Missouri licensed professional engineer, one a Missouri licensed architect, one a building contractor or subcontractor, one a person affiliated with the building and construction trades council, and two shall be citizens-at-large. There shall be four alternates who shall be permitted to be called when it is expected there will not be a quorum present. The alternates shall have all powers, protection, and stipends as the regular Board members in

accordance with Civil Service provisions. The alternates shall be appointed by the Mayor for four year terms. One alternate shall be a Missouri licensed professional engineer or Missouri licensed architect; the other alternates shall be citizens-at-large. Alternates shall not make up the majority of the Board at any hearing.

R113.1.1 Term of Office. New members shall possess the same qualifications as the persons in whose place they are appointed. This is an existing board and no current appointments shall be affected by this chapter. All subsequent appointments shall be for a term of four years and shall expire on an anniversary of the date of the original term, except appointments to fill vacancies which shall be for the unexpired term. Members whose appointed terms have expired shall be permitted to continue to serve until reappointed or replaced by a new appointee.

R113.1.2 Procedures. The Board shall elect one of its members as Chairman who shall serve as such during the remainder of the calendar year and until a successor is elected. The Board shall from time to time adopt rules and regulations as shall be reasonably necessary to govern its procedure and to carry into effect the provisions of this code. These rules and regulations shall be available for review at the office of the Secretary to the Board during normal working hours. It shall be unlawful for any appellant or appellant's representative to contact any member of the Board on any matter that is pending or scheduled to be heard by the Board. If a Board member is contacted by an appellant on a matter pending before the Board other than during a Board hearing, that Board member must abstain from hearing or voting on the matter, as all testimony must be heard "sworn on the record."

R113.1.3 Compensation. The Board of Building Appeals members shall be compensated for services rendered on a per meeting basis as established by ordinance and subject to budgeted funds availability.

R113.2 Meetings; Witnesses; Minutes to Be Kept. Meetings of the Board shall be held at the call of the Chairman and at such other times as the Board by its rules shall be permitted to provide. The Chairman, or in the Chairman's absence, the Acting Chairman shall administer oaths. The Board shall act by a majority vote and a quorum shall consist of at least four members. The Board shall keep minutes of its proceedings showing the vote of each member on each question, or if absent or failing to vote, indicating such fact, and shall keep records of its examinations of witnesses and other official acts. Transcripts of hearings shall be permitted to be kept in the custody of the court reporter and need not be transcribed unless requested. The party requesting the transcripts shall pay all costs of such transcripts required including a file copy for the Board, one for the Building Division, and one for the Board's legal staff.

R113.3 Types of Appeals. Any person, firm, or corporation aggrieved by a decision of the building official, fire official, or any other board, commission, or other officer exercising their powers under this code or any other code or ordinance assigned to the Division of Building and Inspection shall be permitted to file an appeal when the appellant alleges:

1. That there is an error in an order, requirement, decision, or interpretation of the building official, fire official, or of any other board, commission, or other officer in the enforcement of this code;

2. That the mode, method, or manner to be followed in the erection or alteration of any building or structure in any specific case before the Board is equal to or superior to the mode, method, or manner required by the provisions of this code;

3. That the material to be used in this specific case is equal to or superior to the materials required by the provisions of this code;

4. That any other board or commission exercising powers under this code or any other code or ordinance assigned to the Division of Building and Inspection wrongfully interpreted the provisions of the code or refused to grant a license, certificate, or permit under the provisions of such code.

Exception: The Board of Building Appeals has no jurisdiction or authority to hear and decide appeals on matters covered under the Americans With Disabilities Act, the Zoning Ordinance, and Cultural Resources Ordinance.

However, an application for occupancy, alteration, or repair of an existing building or structure which involves a change of occupancy or change of use group whereupon accessibility requirements apply, the build-

ing official's determination of change of occupancy or use group shall be allowed to be appealed to the Board of Building Appeals.

R113.3.1 Criteria for Issuance of a Variance for Flood Hazard Areas. A variance shall only be issued upon:

1. A showing of good and sufficient cause that the unique characteristics of the size, configuration, or topography of the site render the elevation standards inappropriate.

2. A determination that failure to grant the variance would result in exceptional hardship by rendering the lot undevelopable.

3. A determination that the granting of a variance will not result in increased flood heights, additional threats to public safety, or extraordinary public expense or create nuisances, cause fraud on or victimization of the public, or conflict with existing local laws or ordinances.

4. A determination that the variance is the minimum necessary to afford relief considering the flood hazard.

5. Submission to the applicant of written notice specifying the difference between the design flood elevation and the elevation to which the building is to be built, stating that the cost of flood insurance will be commensurate with the increased risk resulting from the reduced floor elevation, and stating that construction below the design flood elevation increases risks to life and property.

R113.4 Filing Date. Unless otherwise specified in other sections of this code, appeals shall be filed within 30 calendar days after the decision of the building official, fire official, or any other board, commission, or other officer exercising their powers under this code or any other code or ordinance assigned to the Division of Building and Inspection is rendered; however, no such appeal shall be taken from any order or ruling wherein responsibility lies with the Board of Adjustment as established by the Zoning Ordinance or with any other board as established by the Revised Code of the City of Saint Louis.

Exception: Condemnation appeals shall be filed within ten calendar days of the date on the Notice of Condemnation as described in Section 119.8.

R113.5 Manner and Fee for Filing Appeals. Appeals shall be taken by filing with the Secretary to the Board a notice of appeal on such forms as prescribed by the Board of Building Appeals specifying the grounds thereof, and the Secretary shall immediately transmit to the Board such notice and all papers constituting the record upon which the action appealed from is taken. The notice of appeal shall be accompanied by a fee of $150.00.

R113.5.1 Waiver of Appeal Fees. In the event the Secretary to the Board receives a written claim of indigence and a request for a fee waiver, the request shall be referred to the City Counselor's Office for approval or denial and that decision shall be final. A copy of that decision shall be kept on file.

R113.5.2 Multiple Appeals. In the event that more than one building, structure, or premises owned by the same person, firm, or corporation has been cited for exactly the same violation and the owner has filed an appeal with the Board disputing the same citation, the appellant shall be permitted to file one appeal covering all said buildings, structures, or premises and be charged one appeal fee. The decision rendered by the Board shall apply to all buildings, structures, or premises involved in the appeal.

R113.5.3 Board Hearings; Notification. After an appeal has been filed, the Secretary to the Board shall place the appeal on a Board hearing agenda and the appellant shall be notified in writing by certified mail prescribing the time, date, and location of the hearing not less than seven days prior to said hearing. Such hearing shall be held within a reasonable time after the filing of the notice of appeal, depending on the scheduling of other appeals.

R113.6 Appeals to Stay Proceedings; Exceptions. Appeals shall stay all proceedings in furtherance of the action appealed from unless the building official or fire official certifies to the Board of Building Appeals after the notice of appeal has been filed that, by reason of the facts stated in the certificate, a stay would cause imminent peril to life or property. Proceedings shall not otherwise be stayed except by restraining order.

R113.7 Jurisdiction of the Board. The Board of Building Appeals is hereby empowered to hear and decide appeals in all matters described in Section 113.3

R113.7.1 Board Decisions; Notification. The Board shall enter its order and decision after hearing, affirming, modifying, or reversing the order, requirement, interpretation, ruling, or decision of the building official in whole or in part. The Board shall be permitted to require conditions or restrictions as necessary to assure that the activity complies with the intent of this code or as the Board deems appropriate. If the appellant fails to

appear at the prescribed time and location of the hearing and it has been determined that notice of the hearing was received, the appeal shall be dismissed and the original order, requirement, interpretation, ruling, or decision of the building official shall be affirmed. A final decision, when used in this section, shall mean a decision rendered by the Board of Building Appeals. The Board shall, upon rendering its final decision, notify the appellant of its order and final decision by mail. The appellant shall be deemed to have received the final decision three days after the final decision has been deposited in the United States mail with proper postage. The Board shall forward its order and decision to the building official, fire official, or any other board, commission, or officer exercising their powers under this code in writing and place a copy of the decision in its files. There shall be no rehearing or reopening of that file by the Board except where the Board has required conditions or restrictions and it is to be determined whether the conditions or restrictions have been met. No information concerning any decision reached by the Board shall be made public except to the appellant until that decision has been signed and the appellant has first been formally notified.

R113.7.2 Generic Decisions. In the event that the Building Commissioner finds that a specific decision of the Board of Building Appeals would be helpful in the continued administration of this code if it were made to be generically applicable, the Building Commissioner shall be permitted to petition the Board in writing requesting that the decision of a specific case be made generically applicable, in part or in whole, without the need for individual appeals and shall become a part of the policy of the Division of Building and Inspection. This request must be made within 180 calendar days of the rendering of the decision. The Board shall only affirm or deny such petition.

R113.7.3 Conditional Decisions; Method of Rehearing. When the Board of Building Appeals enters a conditional decision modifying or reversing an order of the building official and grants additional time to correct the violation(s), the Board shall grant no more than 90 days. Additional time shall be permitted to be granted if, in the opinion of the building official, sufficient progress is being made to correct the violation(s). In the event insufficient progress is being made to correct the violation(s) in the allotted time, the case shall be referred back to the Board of Building Appeals to show cause why the conditions set by the Board have not been met and why the building official's original order or decision should not be affirmed. In the event of such referral back to the Board, notification to the appellant prescribing the date, time, and location of said hearing shall be the same as that described in Section R113.5.3.

R113.8 Appeals from Decisions of the Board. Any person(s) jointly or severally aggrieved by the decision of the Board of Building Appeals shall be entitled to a judicial review of the decision rendered by the Board of Building Appeals as provided in the Administrative Procedure and Review Act of the State of Missouri, being Sections 536.100—536.140 of the Revised Statutes of Missouri.

R113.9 Hearing Officer. The Board of Building Appeals shall have the right to appoint a hearing officer to hear and render a decision on any appeal filed with the Board of Building Appeals.

R113.9.1 Qualification. The hearing officer shall be an attorney and on an approved list of attorneys who have administrative law experience. The Director of Public Safety shall compile and maintain said list.

R113.9.2 Rights and Duties. The hearing officer shall have such rights, responsibilities, and duties as the Board of Building Appeals and the appellants shall have the same rights as an appellant appearing before the Board of Building Appeals, including the right to appeal pursuant to Missouri's Administrative Procedure and Review Act.

SECTION R114 VIOLATIONS

R114.1 Unlawful Acts. It shall be unlawful for any person, firm, or corporation to grade for, excavate for, erect, construct, alter, extend, repair, move, remove, demolish, or occupy any building, structure, premises, or equipment regulated by this code or cause same to be done in conflict with or in violation of the provisions of this code or any decision or order of the Board of Building Appeals.

R114.2 Notice of Violation. The building official is authorized to serve a notice of violation or order on the owner as shown in the records of the City of Saint Louis Assessor's Office or on the person responsible for the grading, excavating, erection, construction, alteration, extension, repair, moving, removal, demolition, or occupancy of a building, structure, or premises in violation of the provisions of this code, or in violation of a detail statement or construction documents approved hereunder, or in violation of a permit or certificate

issued under the provisions of this code. Such order shall direct the discontinuance of the illegal action or condition and the abatement of the violation. Such notice shall be permitted to be served by the United States mail. Posting of the premises shall also constitute notice. It shall be a violation of this code for any person to remove any such notice lawfully posted pursuant to this code unless otherwise ordered by the building official.

R114.2.1 Investigation of Records. Upon the receipt of a written request from the owner of the property, or the real estate agent for the property, or the attorney, architect, or engineer representing the owner of the property, the Permit Section Supervisor shall ask the various Building Division sections for copies of any existing violation letters concerning the property. If the request is not on the owner's letterhead, a notarized authorization from the owner must be submitted.

The response letter written by the permit section supervisor shall list any known violations and must contain the following statement: "This letter does not certify that there are no actual existing violations of the ordinances for which the Division of Building and Inspection is responsible. To determine if there are any violations of any ordinances, an application for an occupancy permit must be filed in accordance with Section R111.5 and the subsequent inspections completed. This letter does certify there are no existing letters of violation on record other than those attached herein. There will be a $25.00 fee charged for this service. Five working days will be allowed to respond to this request."

R114.3 Prosecution of Violation. If the notice of violation is not complied within the time prescribed by such notice, the building official is authorized to request the legal counsel of the City of Saint Louis to institute the appropriate proceeding at law or in equity to restrain, correct, or abate such violation or to require the removal or termination of the unlawful occupancy of the building, structure, or premises in violation of the provisions of this code or of the order or direction made pursuant thereto.

R114.4 Violation Penalties. Any person who violates a provision of this code or fails to comply with any of the requirements thereof or who erects, constructs, alters, or repairs a building or structure in violation of the approved construction documents or directive of the building official or of a permit or certificate issued under the provisions of this code shall be subject to penalties as prescribed by law.

R114.5 Abatement of Violation. The imposition of penalties as set forth in Section 25.11.030 shall not preclude the legal officer of the City of Saint Louis from instituting appropriate action to prevent unlawful construction; to restrain, correct, or abate a violation; to prevent illegal occupancy of a building, structure, or premises; or to stop an illegal act, business, or use.

SECTION R115 STOP WORK ORDER

R115.1 Authority. Whenever the building official finds any work regulated by this code being performed in a manner contrary to the provisions of this code or in a dangerous or unsafe manner, the building official is authorized to issue a stop work order.

R115.2 Issuance. The work order shall be in writing and shall be given to the owner of the property involved, or to the owner's agent, or to the person doing the work. Upon issuance of a stop work order, the cited work shall immediately cease. The stop work order shall state the reason for the order and the conditions under which the cited work will be permitted to resume.

R115.3 Emergencies. When an emergency exists, the fire official shall not be required to give a written notice prior to stopping the work.

R115.4 Unlawful Continuance. Any person who shall continue any work in or about the building, structure, or premises after having been served with a stop work order, except such work as they are directed to perform to remove a violation or unsafe condition, shall, upon conviction thereof, be subject to the penalties as set forth in Section 25.11.030. Each day that a violation continues shall constitute a separate and distinct offense.

SECTION R116 UNSAFE BUILDINGS, STRUCTURES AND EQUIPMENT

R116.1 Conditions. Buildings, structures, or equipment that are or hereafter become unsafe, unsanitary, or deficient because of inadequate means of egress, facilities, or light and ventilation; which constitute a fire hazard; are otherwise dangerous to human life or the public welfare; or which involve illegal or improper occupancy or inadequate maintenance shall be deemed unsafe. Unsafe buildings or structures shall be taken down and removed or made safe as the building official

deems necessary and as provided for in this section. A vacant structure that is not secured against entry shall be deemed unsafe.

R116.2 Record. The building official shall cause a report to be filed on an unsafe condition. The report shall state the occupancy of the structure and the nature of the unsafe condition.

R116.3 Notice. If an unsafe condition is found, the building official shall serve on the owner, agent, or person in control of the building or structure a written notice that describes the condition deemed unsafe and specifies the required repairs or improvements to be made to abate the unsafe condition, or that requires the unsafe structure to be demolished within a stipulated time. Such notice shall require the person thus notified to declare immediately to the building official acceptance or rejection of the terms of the order.

R116.4 Method of Service. Such notice shall be deemed properly served if a copy thereof is (a) delivered to the owner personally; (b) sent by certified or registered mail addressed to the owner at the last known address with the return receipt requested; or (c) delivered in any other manner as prescribed by local law. If the certified or registered letter is returned showing that the letter was not delivered, a copy thereof shall be posted in a conspicuous place in or about the structure affected by such notice. Service of such notice in the foregoing manner upon the owner's agent or upon the person responsible for the structure shall constitute service of notice upon the owner.

R116.5 Restoration. Where the building, structure, or equipment determined to be unsafe by the building official is restored to a safe condition to the extent that repairs, alterations, or additions are made or a change of occupancy occurs during the restoration of the structure, such repairs, alterations, additions, or change of occupancy shall comply with the requirements of Section R105.2.2 and the Existing Building Code.

SECTION R117 PROFESSIONAL ARCHITECTURAL AND ENGINEERING SERVICES

R117.1 Responsibilities. The provisions of this section shall define the construction controls required for buildings involving professional architectural or engineering services and delineate the responsibilities of such professional services during construction.

R117.1.1 Design. All design for new construction, alteration, repair, expansion, addition, or modification work involving the practice of professional architecture or engineering as defined by the statutory requirements of the professional licensing laws of the State of Missouri shall be prepared by licensed design professionals certified by the Missouri Board for Architects, Professional Engineers, Professional Land Surveyors and Professional Landscape Architects. All construction documents required for a building permit application for such work shall be prepared by or under the direct supervision of a Missouri licensed design professional and bear their seal, signature, and date in accordance with the state's statutes and regulations governing the professional licensing and certification of architects, professional engineers, professional land surveyors, and professional landscape architects.

R117.1.2 Review. The Missouri licensed design professional whose seal is on the approved construction documents shall be responsible for review of shop drawings and samples as required by the approved construction documents and for approval for conformance to the design concept and this code. This review process shall be permitted to be contracted by the owner to another Missouri licensed design professional should the original design professional not desire to provide such services.

R117.1.3 Application of Seal, Signature, and Date. All construction documents submitted with an application for a building permit shall comply with Section 107.1.1.

R117.1.4 Reproduction of Sealed Documents. Construction documents sealed by a Missouri licensed design professional shall not be reproduced for anyone, other than the owner, without the expressed written permission of Missouri licensed design professional who sealed said documents, or as ordered by a court of law.

R117.2 Special Professional Services. When applications are filed for unusual designs or magnitude of construction which require construction document review or inspection services beyond the capacity of the building official's staff or where referenced standards require special architect or engineer inspections, the building official shall be permitted to require the owner to retain a properly qualified Missouri licensed design professional to perform the services necessary for code compliance in addition to that provided in Section 117.1.2. This project representative shall keep daily records and submit reports as required by the building official. Upon completion of the work, the Missouri

licensed design professional shall file a final report indicating whether or not all required inspections were performed and listing pertinent deviations from the Building Code requirements or from the approved construction documents and the source of authority for such deviations.

R117.2.1 Building Permit Requirement. The necessity for special professional services shall be determined prior to issuance of the building permit unless waived to a later date by the building official. Refusal by the applicant to provide such services as required by the building official shall result in the denial of the permit.

R117.2.2 Fees and Costs. All fees and costs related to the performance of special inspection services shall be borne by the owner.

R117.2.3 Visits to Site. When so directed by the building official or when required by the special inspection provisions of this code, the Missouri licensed design professional shall make visits to the site at intervals appropriate to the stage of the construction to observe the progress and quality of the work; to observe construction components requiring controlled materials or construction as specified in Chapter 44, Referenced Standards; and to determine if the work is proceeding in accordance with the construction documents approved for the building permit. The Missouri licensed design professional shall periodically submit reports to the building official showing the results of such periodic visits.

SECTION R118 WORKMANSHIP

R118.1 General. All work shall be conducted, installed and completed in a neat, workmanlike and acceptable manner so as to secure the results intended by this code.

SECTION R119 CONDEMNATIONS

R119.1 Notification. If upon making an inspection and examination of any occupied or unoccupied building, structure, or premises, the building official finds one or more of the defects described below, the building official shall notify in writing, as provided in Section R119.2, the owner(s) of said building, structure, or premises as recorded most recently in the City of Saint Louis Assessor's Office of the defects found in said building, structure, or premises and shall order them to proceed to properly demolish, repair and secure, or correct all conditions causing condemnation of said building, structure, or premises within seven days. This document is to be known as a Notice of Condemnation. If the conditions have not been corrected by the date listed in the notice, the building, structure, premises, or portion thereof or appurtenance thereto will be condemned and shall be required to be vacated, if occupied, and secured. Possible defects shall be permitted to be one or more of the following:

1. The building or structure is in a condition which endangers either the lives or safety of persons, whether occupants or otherwise, or other property;

2. The condition of the building or structure by reason of the making of an excavation on the lot on which it is located, or any adjoining lot, endangers either the lives or safety of persons, whether occupants or otherwise, or other property;

3. The building, structure or premises is a fire hazard for any reason, including, without limitation: obsolescence; dilapidation; deterioration; damage; lack of sufficient fire-resisting qualities; poor sanitation; or faulty electrical wiring, gas connections, or heating apparatus;

4. The building or structure lacks safe or adequate facilities for means of egress in case of fire or panic;

5. The building or structure has any one or more of the following conditions:

A. Improperly distributed loads upon the floors or roof;

B. Overloaded floors or roofs;

C. Insufficient strength to be reasonably safe for its actual or intended use;

6. Any portion of the building or structure has been so damaged by fire, earthquake, wind, flood, vandalism, malicious mischief, or any other cause, that the building or structure is no longer safe or suitable for its actual or intended use;

7. Any interior or exterior portion, member, appurtenance, ornamentation, or any other component of the building or structure is likely to fall or collapse, or become detached or dislodged and thereby injure persons or damage property;

8. Any portion of the building or structure has racked, warped, buckled, or settled to such an extent that its walls or other structural portions have insufficient resistance to fire, earthquake, wind, flood, or similar perils;

9. Part or all of the building or structure is in danger of collapsing for any reason;

10. The building or structure has exterior walls or other vertical structural members which list, lean, or buckle;

11. The building, structure, or premises or any portion thereof is, for any reason, unsafe for its actual or intended use;

12. The building or structure has been so damaged by fire, earthquake, wind, flood, vandalism, malicious mischief, or any other cause or has become so dilapidated, deteriorated, or decayed as to come within any one or more of the following categories:

A. The building or structure will attract and result in harm to children;

B. The building or structure is, or is likely to become, a harbor for vagrants or criminals;

C. The building or structure enables persons to resort thereto for the purpose of committing unlawful acts;

13. The building, structure, or premises has been constructed, exists, or is being maintained in violation of any provisions of this code or of any law of the City of Saint Louis;

14. The building or structure does not have the strength, fire-resisting qualities or weather-resisting qualities required by this code for newly constructed buildings of like area, height, and occupancy;

15. The building, structure, or premises is used or intended to be used for purposes that are likely to injure the health, safety, or welfare of persons who occupy or could occupy said building or structure by reason of any one or more of the following conditions:

A. Inadequate maintenance, dilapidation, deterioration, decay, or damage;

B. Faulty construction;

C. Inadequate light, ventilation, or sanitation facilities;

D. The building, structure or premises is being used for any illegal purposes;

16. Any portion of the building or structure has been left remaining on a site after its demolition or destruction;

17. The building or structure is vacant for a period in excess of six months and because of its condition is unsafe, unsanitary, or endangers property or public health, safety, or welfare;

18. The building or structure is vacant and has been ordered secure or has been secured by order of the building official for a period in excess of twelve months and has been condemned for occupancy or has been used in the commission of a crime subsequent to being ordered secured or being secured.

19. The building or structure is only partly constructed and construction has stopped for a period in excess of six months, and because of its condition, affects the health, safety and welfare of the adjacent properties.

R119.1.1 Evacuation Order; Failure to Comply. Any person who refuses to leave, interferes with the evacuation of other occupants, or continues any operation after having been given an evacuation order by the building official, except such person(s) directed to perform work to remove a violation or unsafe condition, shall be deemed in violation of this section whereupon it shall be the duty of the Police Department to immediately remove such person from said building, structure, or premises and prevent anyone from re-entering the building, structure, or premises until such time that the Police Department shall have been notified by the Division of Building and Inspection that the same is in a safe condition. Any person who shall violate this section shall be guilty of a misdemeanor and subject to the penalties as set forth in Section 25.11.030.

R119.1.2 Dangerous Conditions. Whenever the building official shall find any building, structure or premises in such a condition that it presents a safety hazard, but not dangerous enough to warrant condemnation and demolition, and repair is relatively small in relation to the building as a whole, the building official shall post a sign on the premises which reads as follows:

WARNING ALL PERSONS ARE WARNED TO USE EXTREME CAUTION IN OR AROUND THESE PREMISES

Additionally, a letter shall be posted indicating those conditions in violation of this code and a copy of said letter shall be mailed to the owner(s) of said building, structure, or premises.

R119.2 Service of Notice. The notice to the owner(s) of the building, structure, or premises found by the building official to be in violation of this code shall be directed to the owner(s) of such building, structure, or premises as recorded most recently in the City of Saint Louis Assessor's Office. The notice shall be served in one of the following ways:

1. Delivering directly to owner(s).

2. Posting a copy of said notice upon the building, structure, or premises.

3. Mailing a copy of said notice by regular mail, postage prepaid, direct to owner(s)' place of business or the address currently recorded in the Assessor's Office of the City of St. Louis.

4. Publication in a newspaper of general circulation in the City of Saint Louis.

R119.2.1 Posting Copy of Notice. In case such building, structure, or premises is in the occupancy of a tenant(s), in addition to the above notice it shall be the duty of the building official to post a copy of such notice upon said building, structure, or premises. It shall be a violation of this code for any person to remove any notice or copy thereof lawfully posted pursuant to this code unless otherwise ordered by the building official.

R119.3 Failure to Comply; Authority to Enter into Contracts. If the owner(s) fail to comply with the order of the building official by the date indicated in the Notice of Condemnation and in such a manner that can be approved by the building official, then such owner(s) shall have violated this code and the building official shall be permitted to forthwith proceed to undertake and complete whatever work is necessary to eliminate the dangerous condition. The Building Commissioner shall have the authority to enter into contracts with no other review, signature, or approval (except for insurance) from any other City agency. Such contracts shall be permitted to include, but not be limited to, demolition, environmental investigation, remedial work, professional, or contractual services. Competitive bids shall not be required for emergency situations where there is a danger to life or property. The cost of such work performed by the building official under the provisions of Sections R119 or R120 shall be paid for by the City of Saint Louis. The building official shall certify to the Comptroller the cost of such work including the administrative costs incurred by the Division of Building and Inspection in performing said work, but in no event shall such administrative costs exceed ten percent of the contract price incurred by the Division of Building and Inspection in performing such work. The Comptroller, upon certification by the building official of the cost expended for said work, shall prepare bills for such work against the owner(s) of said building, structure, or premises. In case said bills are not paid upon presentation, they shall be referred to the City Counselor, who shall proceed to collect same by suit or lien if necessary, and the amounts when collected shall be credited to a special revolving fund for the purposes herein designated.

R119.3.1 Secured Buildings. For a building or structure to be "secured" in those cases in which securing is specifically required by this code, a covering shall be placed over all doors, windows, or other openings at the first floor level; all doors and windows that are accessible from any porch, service stair, or fire escape; and all basement or cellar windows. This cover shall consist of not less than ⅜ inch plywood or other such material approved by the building official attached to the framing of all such doors and windows by wood screws, or any other material approved by the building official, of a minimum length of 1½ inches, placed not more than twelve inches on center. Such plywood or other such material approved by the building official shall be painted with a minimum of two coats of exterior grade paint of a brick red or other color which is approved by the building official. It shall be the duty and responsibility of the building official to re-enter any premises or building or portion thereof that has previously been secured and boarded either by the City of Saint Louis or any other party when, in the opinion of the building official, there is reason to believe that there happens to be new or additional violations of this code. The building official shall not be held responsible for any damage to the building, structure, or premises caused by the act of securing.

R119.3.2 Reentry of Secured Buildings. The occupancy of any building or structure which has been ordered secured or has been secured by order of the building official shall be prohibited until the owner of said building or structure obtains a certificate of inspection or an occupancy permit from the building official. Work performed on any building or structure as a prerequisite to a certificate of inspection shall not be considered occupancy of said building or structure.

R119.4 Building Not to Be Rented or Leased. No owner or agent of the owner of any building, structure, or premises, after notice from the building official that such building, structure, or premises is unsafe or dangerous, shall rent or lease the same or any part thereof or collect any rent therefor until such building, structure, or premises has been placed in a safe and secure condition. The building official shall be permitted to require an occupancy permit to be issued prior to occupancy or re-occupancy. Any person found guilty of violating the provisions of this section shall be sub-

ject to the penalties as set forth in Section 25.11.030 regarding fine and imprisonment. Each day that a violation continues constitutes a separate and distinct offense.

R119.5 Cost; Method of Payment; Lien; Penalty. The building official shall have the authority to require any violator of this code to correct, remove, or abate any condition caused or permitted by them in violation of this code; and the building official shall be permitted to correct, remove, or abate the same upon their failure to comply with the requirements of this code when the public interest so requires. For all emergency condemned buildings or structures, the building official shall have the authority to receive and publicly open bids and award the contract to the lowest qualified bidder meeting the specifications without first sending said contract to the Comptroller. These contracts shall be signed by the Building Commissioner and countersigned by the Director of Public Safety and shall have the full effect of a City contract. All costs attending such action in such cases shall be paid from the appropriate fund as provided in Section 119.3 and then collected from the party offending as therein provided. A lien for such costs shall be placed against the property whereon such violation was permitted to exist. The cost shall also be certified to the Collector of Revenue or other official collecting real estate taxes, who shall cause a special tax bill against the property to be prepared and collected in the same manner and procedures as other real estate tax bills. Said special tax bill shall be deemed a personal debt against the property owner(s) and shall also be a lien on the property until paid. These bills or liens shall not be forgiven except by the City Counselor, who shall, in writing, instruct the building official to forgive such bills or liens. Further, board-up and demolition bills shall be permitted to be waived when ownership of said property for which the bill or lien was issued is accepted by Land Reutilization Authority, Saint Louis Development Corporation, or any other City agency. Any person, firm or corporation who shall refuse or neglect to comply with the provisions of this section or who shall violate any of the provisions thereof shall be subject to the penalties as set forth in Section 25.11.030. In addition, any payments deemed to be in arrears shall be subject to interest charges at a rate set by the Comptroller.

R119.5.1 Prohibited Expenditures. The building official shall not expend any monies for demolition of buildings owned by Land Reutilization Authority, Operation Impact, Saint Louis Development Corporation, Port Authority, or any other governmental agency except in emergency situations where immediate action is required to preserve public health, safety, and welfare.

R119.6 Vacation of Buildings; Duties of Police; Penalty. Upon effecting condemnation of any building, structure, or premises by the building official, it shall be unlawful for any person to enter or remain in or on such building, structure, or premises until such time as the Police Department shall have been notified in writing by the building official that the same is in a safe condition. It shall be the duty of the Police to remove any person from such building, structure, or premises so condemned and to prevent any person from entering same until such time as the Police Department shall have been notified in writing by the building official that such building, structure, or premises is in compliance with this code. The provisions of this section shall not apply to licensed security guards or persons directly employed in securing the building, structure, or premises or otherwise abating the conditions causing the condemnation. Any violation of this section of the code shall be subject to the penalties as set forth in Section 25.11.030.

R119.7 Removal of Decayed or Unsafe Trees. Whenever it shall come to the knowledge of the Forestry Commissioner that any tree on private property is in such a decayed or dangerous condition as to endanger the lives of persons or is likely to cause immediate damage to the property of others, the Forestry Commissioner shall cause said tree to be removed or cause such dangerous conditions to be remedied by the owner of the property whereon it is situated. The powers and duties of the Forestry Commissioner in respect to any such tree, the notice to the owner of the property whereon it is located, the cost of its removal or remedying the dangerous condition caused thereby, the lien of such cost, the method of its collection, the penalties to be incurred by the owner, and the procedure to be followed by the Forestry Commissioner shall, as nearly as practicable, be those prescribed by this section in respect to the building official's procedures for buildings and other structures which are in a dangerous condition.

If the Forestry Commissioner cannot secure removal of the dangerous tree by Forestry Division forces or by response of the owner to the Forestry Division notice, the Forestry Commissioner shall be permitted

to request the assistance of the building official in condemning the tree and securing removal after emergency or public bid by private contractors resulting in a City of Saint Louis contract to remove the tree.

The condemnation, if appealed to the Board of Building Appeals, shall require the defense testimony of Forestry Division personnel knowledgeable about trees.

The Building Division shall be permitted to make available for tree removal contracts on private property a sum not to exceed five percent of the first two hundred thousand dollars of general fund demolition monies appropriated in a fiscal year, in addition to not more than three percent of any appropriated amount over $200,000.00. The Forestry Division will prepare bid specifications and receive, process, and award such contracts billable to the Building Division demolition account subject to the dollar limits above. This procedure is for dead or dangerous trees on private property only and is not for encroachments, trimming, pruning, or other concerns.

R119.8 Appeal. Any person aggrieved by the decision of the building official pursuant to Sections R119.1 through R119.7 shall be permitted to appeal such decisions to the Board of Building Appeals within ten calendar days of the date on the Notice of Condemnation. The Condemnation Committee of the Board of Building Appeals, selected by the Chairman, shall hear said appeal and render its decision affirming, modifying, or reversing the decision of the building official and, to such end, shall possess all the powers on appeal granted the building official under Sections R119.1 through R119.7. Such decision shall be subject to the procedures and review provided by the Administrative Procedure and Review Act of the State of Missouri. Filing of an appeal of any portion of Sections R119.1 through R119.7 does not stay any action provided in these sections.

R119.9 Penalties. If the owner(s) fail to repair, demolish, or otherwise comply a building, structure, or premises as ordered by the Notice of Condemnation of the building official pursuant to Section R119.2 either within the seven-day period specified in Section R119.1 or within ten days after any appeal from said notice as provided in Section R119.8 is finally adjudicated adversely to said owner(s), then said owner(s) shall be guilty of a violation of this section and shall, upon conviction thereof, be subject to penalties as set forth in Section 25.11.030. Each day that any violation continues shall constitute a separate and distinct offense.

R119.10 Responsibility of Ownership.

1. *Disclosure.* It shall be unlawful for any seller or grantor to convey, give, or transfer property to any buyer or grantee without first disclosing in writing to the buyer or grantee the existence of all Notices of Condemnation or any other violations of this code. The grantor shall keep and make available for inspection by the building official such disclosure signed by the grantee for a period of one year from the conveyance, gift, or transfer.

2. *Liability to Prosecution and Conviction.* Any person shall be permitted to be prosecuted and convicted for violation of Section 119.1.1, notwithstanding that said person has not been given the notice specified in Section R119.1, provided that the building, structure, or premises in question had one or more of the defects described in Section R119.1 during the period that said person was responsible for said building, structure, or premises as owner, corporate officer, partner, or otherwise, and provided further that said prosecution is commenced during the one-year period after said person ceased to be so responsible.

3. *Liability to Suit and Judgment.* Any person shall be permitted to be sued by and held liable to the City of Saint Louis, as provided in Section R119.3, for funds expended by the City of Saint Louis pursuant to said section, notwithstanding that said person has not been given the notice specified in Section R119.1, provided that the building, structure, or premises in question had one or more of the defects described in said section during the period that said person was responsible for said building, structure, or premises as owner, corporate officer, partner, or otherwise, and provided further that said suit is commenced during the one-year period after said person ceased to be so responsible.

Owner(s) are presumed by law to know the conditions of their property whether or not such notice was given. Notices sent to the address of the owner(s) shown on the City of Saint Louis Assessors Office records on the date sent shall constitute legal notice in accord with Section R119.2.

R119.11 Dangerous, Hazardous, Unsanitary, or Unapproved Plumbing, Mechanical, and Electrical Installations. The building official shall have the authority to seal out of service the items listed below when, in the building official's opinion, any of these items are in an

unsafe, hazardous, or unsanitary condition; if a Certificate of Inspection has not been issued by the building official; or if the installation was made without obtaining the necessary permit(s):

1. Plumbing equipment, fixtures, piping, devices, and appurtenances covered by the Building and Plumbing Codes;

2. Mechanical equipment, devices, and appurtenances covered by the Building and Mechanical Codes.

3. Electrical equipment, fixtures, devices, wiring, and appurtenances covered by the Building and Electrical Codes;

R119.11.1 Notice of sealing out of service. Before sealing any device out of service, the building official, except in cases of emergency, shall serve seven days written notice upon the building owner(s) or occupant(s) by United States mail stating intention to seal the equipment out of service and the reasons therefor. Notice shall be permitted to alternately be served by posting upon or immediately adjacent to the device proposed to be sealed.

R119.11.2 Unlawful to remove or tamper with seal. Any device sealed out of service by the building official shall be plainly marked with a sign or tag indicating such sealing and any defacing or removal of the sign or tag, any tampering with or removal of the seal without approval of the building official, or operation of the sealed unit shall constitute a violation of this code and shall subject the violator to the penalties as set forth in Section 25.11.030.

119.12 Cancellation of Condemnation. The building official shall have authority to cancel prior condemnations either for defects or for occupancy. A condemnation shall be permitted to be rescinded by the building official only after, in the official's opinion, all necessary repairs are made to such building, structure, or premises or otherwise compliance is obtained with the building official's orders to make such building, structure, or premises safe or occupiable and defects noted have been corrected.

R119.12.1 Notice of cancellation of condemnations. Upon cancellation of a condemnation, a notice shall be directed to the owner(s) of the building, structure, or premises stating that the condemnation has been canceled. The service of such notice shall be done in the same manner as provided for in Section R119.2.

R119.13 Vacant Building Inspection. The building official shall cause to be inspected any property that potentially is subject to the registration fee as established in Section R109.2.12. The inspecting officer shall report his findings and it shall be determined whether any such property shall be subject to the registration fee by the City. Within five business days of such determination, the building official shall notify by mail the owners of property on which the registration fee has been levied at the last known address according to the records of the office of the Assessor. The property owner shall have the right to appeal the decision of the building official to the municipal court within 30 days of such notification. Absent the existence of any valid appeal or request for reconsideration the registration fee shall begin to accrue on the beginning of the second calendar quarter after the decision of the building official.

R119.13.1 Reconsideration. Should the property owner, within 30 days of the building official making such notification, complete any improvements to the property that would be necessary to revoke the levy of the registration fee, they shall request a reinspection of the property and a reconsideration of the levy of the registration fee by the City. If the building official revokes the registration fee, no such assessment shall be made and the matter shall be considered closed. If the building official affirms the assessment of the registration fee, the property owner shall have the right to appeal the reconsideration decision to the municipal court within thirty days of such decision. Absent the existence of any valid appeal to the municipal court or other court of competent jurisdiction, the registration fee shall begin to accrue on the beginning of the second calendar quarter after the reconsideration decision of the building official.

R119.13.2 Payment and Penalties. The building official shall establish procedures for the payment of the registration fee and penalties for delinquent payment of such fees. Any registration fees which are delinquent for a period of one year shall become a lien on the property and shall be subject to foreclosure proceedings in the same manner as delinquent real property taxes. The owner of the property against which the assessment was originally made shall be able to redeem only by presenting evidence that the violations cited by the building official have been cured and presenting payment of all registration fees and penalties. Upon bona fide sale of the property to an unrelated party said lien shall be considered released and the delinquent registration fee forgiven.

SECTION R120 EMERGENCY MEASURES

R120.1 Procedure. When, in the opinion of the building official, a building, structure, or premises poses an immediate or imminent danger to the public health, safety, or welfare as defined in Section R119.1, the building official shall order the immediate evacuation and securing of said building, structure, or premises and shall be permitted to order all utilities to be disconnected without sending a notice. Each principle entrance shall be posted with a notice which reads as follows:

DANGER THIS PREMISES IS UNSAFE AND HAS BEEN CONDEMNED

ALL PERSONS ARE WARNED TO KEEP AWAY

Any person who refuses to leave, interferes with the evacuation of other occupants, occupies, or continues any operation after the property has been posted pursuant to this section, except such person(s) who is directed to perform work to remove a violation or unsafe condition, shall be deemed in violation of this section and it shall be the duty of the Police Department to immediately remove such person(s) from said building, structure, or premises and prevent anyone, unless approved by the building official, from reentering the building, structure, or premises until such time that the Police Department shall have been notified that the same is in a safe condition. The building official assumes no responsibility for persons entering upon said property, and said persons proceed at their own risk and assume all liability.

R120.2 Temporary Safeguards. When, in the opinion of the building official, there is actual and immediate danger of collapse or failure of a building or structure or any part thereof which would endanger life, the building official shall be permitted to cause the necessary work to be done to render such building or structure or part thereof temporarily safe whether or not the legal procedure herein described has been instituted.

R120.3 Closure. When necessary for public safety, the building official shall temporarily close sidewalks, streets, buildings, structures, and places adjacent to such unsafe building, structure, or premises and prohibit the same from being used.

R120.3.1 Catchment Enclosures. If, in the opinion of the building official, it is determined that there exists an imminent structural hazard, catchment enclosures shall be erected protecting adjoining property and the public right-of-way. The cost for such catchment enclosures shall be the responsibility of the owner of record immediately adjacent to the catchment enclosure and the recovery of said costs will be as described in Section 120.5.

R120.4 Emergency Repairs; Remedies. For the purpose of this section, the building official shall be permitted to employ the necessary labor and materials to perform the required work as expeditiously as possible. Further, when it is found that potable water is running inside a vacant building or structure and the owner or the owner's representative cannot be contacted, and where severe structural or other damage can thus occur to adjacent properties, the Building Commissioner or the Health Commissioner shall be permitted to order the Water Division to cease the problem flow by whatever means the Water Division finds necessary. The Water Division shall comply with any order issued pursuant to this section.

R120.5 Cost of Emergency Repairs or Demolition. Costs incurred in the performance of emergency work shall be paid from the Treasury of the City of Saint Louis on certification of the building official. The legal counsel of the City of Saint Louis shall institute appropriate action against the owner(s) of the premises where the unsafe building or structure is or was located for the recovery of such costs plus a ten percent administrative fee. If such cost is not collected, a lien shall be requested to be placed upon the property by the Comptroller. The costs shall also be certified by the Collector of Revenue or other official collecting real estate taxes, who shall cause a special tax bill against the property to be prepared and collected in the same manner and procedures as other real estate tax bills. Said special tax bill shall be deemed a personal debt against the property owner(s) and shall also be a lien on the property until paid.

R120.6 Emergency Demolition or Removal. If, in the opinion of the building official, a building, structure, tree, or premises, in whole or in part, poses an immediate and imminent danger to the public health, safety, or welfare by virtue of its condition or conditions in violation of this code, the building official shall be permitted to cause the immediate removal of said building, structure, or tree without the notice set forth elsewhere in this code. Further, the building official shall have the authority to award a sole source contract for demolition of said dangerous building, structure, or tree.

SECTION R121 REGISTRATION OF VACANT BUILDINGS

R121.1 Vacant Building Registration Fee. The owner of any parcel of residential property improved by a residential structure or of commercial property improved by a structure containing multiple dwelling units which is vacant and has been vacant for at least six months and which is in violation of this code shall pay a semiannual registration fee of two hundred dollars.

R121.2 Inspection. The Building Commissioner or his designee shall inspect any property that may be subject to the registration fee established in Section R121.1. The inspecting officer shall report his findings and recommendations and the Building Commissioner or his designee shall determine whether any such property shall be subject to the registration fee. Within five business days of such determination, the Building Commissioner or his designee shall notify by mail the owners of property on which the registration fee has been levied at their last known address according to the records of the office of the Assessor. The property owner shall have the right to appeal the decision of the Building Commissioner to the municipal court within thirty days of such notification. Absent the existence of any valid appeal or request for reconsideration pursuant to Section R121.3, the registration fee shall begin to accrue on the beginning of the second calendar quarter after the decision of the Building Commissioner.

R121.3 Revocation of Fees. Within thirty days of the Building Commissioner making notification pursuant to Section R121.2, the property owner may complete any improvements to the property that may be necessary to revoke the levy of the registration fee and then may request a reinspection of the property and a reconsideration of the levy of the registration fee by the City. If the Building Commissioner or his designee revokes the registration fee, no such assessment shall be made and the matter shall be considered closed. If the Building Commissioner or his designee affirms the assessment of the registration fee, the property owner shall have the right to appeal the reconsideration decision of the Building Commissioner to the municipal court within thirty days of such decision. Absent the existence of any valid appeal to the municipal court or other court of competent jurisdiction, the registration fee shall begin to accrue on the beginning of the second calendar quarter after the reconsideration decision of the Building Commissioner.

R121.4 Payment of Fees. The Building Commissioner is hereby authorized to establish procedures for the payment of the registration fee and penalties for delinquent payments of such fees. Any registration fees which are delinquent for a period of one year shall become a lien on the property and shall be subject to foreclosure proceedings in the same manner as delinquent real property taxes. The owner of the property against which the assessment was originally made shall be able to redeem only by presenting evidence that the violations of the applicable code cited by the Building Commissioner have been cured and presenting payment of all registration fees and penalties. Upon bona fide sale of the property to an unrelated party, said lien shall be considered released and the delinquent registration fee forgiven.

R121.5 Registration. The property owner shall provide their name, street address, phone number, and email address to the Assessor's Office. If the property owner does not reside in Missouri or Illinois, the property owner is required to provide the name, street address, and telephone number of a natural person eighteen years of age or older designated by the property owner as the authorized agent for receiving notices of code violations and for receiving process in any court proceeding or administrative enforcement proceeding on behalf of such owner or owners in connection with the enforcement of this code. This person must maintain an office in either the State of Missouri or Illinois or must actually reside in either the State of Missouri or Illinois. The Building Commissioner shall be responsible for providing the information to the City Information Technology Services Agency and the information shall be available through the Geo St. Louis website.

R121.6 Vacant Building Maintenance. The owner of any building that has become vacant shall, within thirty days, do the following:

1. Enclose and secure the building as defined under Section 119 of this code. All doors must be properly secured and windows on all floors of the building shall be properly secured.

2. Maintain the building in a secure and closed condition until the building is again occupied or until repair or completion of the building has been undertaken.

R121.7 Collected Funds. The Comptroller of the City of St. Louis is hereby authorized and directed to establish a Special Account to be known as the Vacant Building Initiative Fund in which all funds received

pursuant to this section shall be deposited and such funds shall be kept separate and apart from all other funds. One half of such funds are hereby appropriated for the costs associated with this section and other costs associated with code enforcement pertaining to vacant property. One half of such funds shall be distributed to the City's Community Development Administration for purposes of offering grants to reduce and prevent vacant and blighted property. All interest generated on deposited funds shall be accrued to the Vacant Building Initiative Fund Account.

R121.8 Penalties. If an owner fails to pay the registration fee under Section R121.1 thirty days after the registration fee is assessed, a penalty shall be assessed of $250.00 per occurrence. Any owner found to be in violation of provisions of Section 121.5 shall be subject to a fine of not more than $500.00, to a term of imprisonment of not more than ninety days, or to both a fine and imprisonment. Any owner found to be in violation of provisions of Section 121.6 shall be subject to a fine of not more than $500.00, to a term of imprisonment of not more than ninety days, or to both a fine and imprisonment. Every day that a violation continues shall constitute a separate and distinct offense.

CHAPTER 2 IS AMENDED AS FOLLOWS:

Modify Section R202 Definitions by the addition or changing of definitions to read as follows:

Balcony. A projecting platform on a building, sometimes supported from below, sometimes cantilevered enclosed with a railing or balustrade.

Building official or *code official.* The Building Commissioner of the City of Saint Louis or any duly authorized representative.

Construction cost. The cost of all construction portions of a project, generally based upon the sum of the labor and materials used in the performance of the construction contract and other direct construction cost; does not include the compensation paid to the architect and consultants, the cost of the land, right-of-way, or other costs which are defined in the construction documents as being the responsibility of the owner.

Electric vehicle ready space. A designated parking space which is provided with one 50 ampere, 208/240 volt dedicated branch circuit for EVSE servicing Electric Vehicles. The circuit shall terminate in a suitable termination point such as a receptacle or junction box and be located in the close proximity to the proposed location of the Electric Vehicle parking space.

Electric vehicle supply equipment (EVSE). The conductors, including the ungrounded, grounded, and equipment grounding conductors, and the electric vehicle connectors, attachment plugs, and all other fittings, devices, power outlets, or apparatus installed specifically for the purpose of transferring energy between the premises wiring and the electric vehicle.

EVSE installed space. A designated parking space which is provided with EVSE installed.

Licensed design professional. An individual who is licensed to practice their respective design profession as defined by RSMo Ch. 327.

Project cost. The total cost of a project including professional compensation, land cost, furnishings and equipment, financing, and other charges as well as the construction cost.

Registered design professional. Same as *Licensed design professional.*

Sun deck. A roof area, balcony, open porch, etc., which is exposed to the sun.

CHAPTER 3 IS AMENDED AS FOLLOWS:

Change Table R301.2(1) to read as follows:

Table R301.2(1)

CLIMATIC AND GEOGRAPHIC DESIGN CRITERIA

GROUND SNOW LOAD	WIND DESIGN		SEISMIC DESIGN CATEGORY (g)	SUBJECT TO DAMAGE FROM		
	Speed (d) (mph)	Topographic Effects (k)		Weathering (a)	Frost Line Depth (b)	Termite (c)
20 psf	115	NO	C	Severe	30 inches	Moderate to Heavy
WINTER DESIGN TEMP (f)	**ICE SHIELD UNDERLAYMENT REQUIRED (j)**		**FLOOD HAZARDS (h)**		**AIR FREEZING INDEX (j)**	**MEAN ANNUAL TEMP (k)**
5° F	Not Required		May 24, 2011		963° F - days	55° F
No Change to Notes.						

Change Table R302.1(1) to read as follows:

Table R302.1(1)

EXTERIOR WALLS

EXTERIOR WALL ELEMENT		MINIMUM FIRE-RESISTANCE RATING	MINIMUM FIRE SEPARATION DISTANCE
Walls	(Fire-resistance rated)	1 hour-tested in accordance with ASTM E 119 or UL 263 with exposure from both sides	≤ 3 feet
	(Not fire-resistance rated)	0 hours	> 3 feet
Projections	(Fire-resistance rated)	1 hour on the underside, or heavy timber, or fire-retardant-treated wood a,b	≥ 2 feet to 3 feet
	(Not fire-resistance rated)	0 hours	> 3 feet
Openings in walls	Not allowed	N/A	< 3 feet
	25% maximum of wall area	0 hours	3 feet
	Unlimited	0 hours	> 3 feet
Penetrations	All	Comply with Section R302.4	< 3 feet
		None required	≥ 3 feet

For SI: 1 foot = 304.8 mm.

NA = Not Applicable.

a. The fire resistance rating shall be permitted to be reduced to 0 hours on the underside of the eave opening if fireblocking is provided from the wall top plate to the underside of the roof sheathing.

b. The fire-resistance rating shall be permitted to be reduced to 0 hours on the underside of the rake overhang where gable vent openings are not installed.

Change Section R302.2 to read as follows:

R302.2 Townhouses. Common walls separating townhouses shall be assigned a fire-resistance rating in accordance with Section R302.2, Item 1 or 2. The common wall shared by two townhouses shall be constructed without plumbing or mechanical equipment, ducts, or vents in the cavity of the common wall. The wall shall be rated for fire exposure from both sides and shall extend to and be tight against exterior walls and the underside of the roof sheathing. Electrical installation shall be in accordance with the Electrical Code. Penetrations of the membrane of common walls for electrical outlet boxes shall be in accordance with Section R302.4.

1. Where a fire sprinkler system in accordance with NFPA 13D is provided, the common wall shall be not less than a 1-hour fire-resistance-rated wall assembly tested in accordance with ASTM E 119 or UL 263.

2. Where a fire sprinkler system in accordance with NFPA 13D is not provided, the common wall shall be not less than a 2-hour fire -resistance-rated wall assembly tested in accordance with ASTM E 119 or UL 263 or the common wall shall be two independent 1-hour fire-resistance-rated wall assemblies.

Change Section R303.5.2 to read as follows:

R303.5.2 Exhaust Openings. Exhaust air shall not be directed below six feet, eight inches onto public walkways.

Change Section R303.8 to read as follows:

R303.8 Exterior Stairway Illumination. Exterior stairways shall be provided with an artificial light source located at the top landing of the stairway or at an adjacent wall if the stair serves an uncovered deck or stoop. Exterior stairways providing access to a basement from the outdoor grade level shall be provided with an artificial light source located at the bottom landing of the stairway.

Section 309 Garages, carports and off-street parking.

Section R309.6 shall be added:

R309.6 Electric vehicle charging stations. Single dwelling units with a garage, carport or off-street parking space shall have a minimum of one EV Ready parking space. When Electric Vehicle Supply Equipment is installed it shall be in accordance with the UL 2594. Electrical vehicle charging system equipment shall be listed and labeled in accordance with UL 2202.

Exception: Detached garages, carports and off-street parking spaces fifty feet and greater distance from the main structure measured from the exterior of the structure to the edge of the garage/carport or parking surface are exempt from the requirements set forth herein, as are existing dwellings with insufficient electrical service capacity.

Section R309.6 shall apply to Level 3 alterations on January 1st, 2024, and thereafter.

Change Section R311.3.2 to read as follows:

R311.3.2 Floor Elevations for Other Exterior Doors. Doors other than the required egress door shall be provided with landings or floors not more than 8¼ inches below the top of the threshold.

Exception: A top landing is not required where a stairway of not more than four risers is located on the exterior side of the door, provided that the door does not swing over the stairway.

Change Sections R311.7.5.1 and R311.7.5.2 to read as follows:

311.7.5.1 Riser. The riser height shall be not more than 8¼ inches. The riser shall be measured vertically between leading edges of the adjacent treads. The greatest riser height within any flight of stairs shall not exceed the smallest by more than ⅜ inch. Risers shall be vertical or sloped from the underside of the nosing of the tread above at an angle not more than 30 degrees from the vertical. Open risers are permitted provided that the openings located more than 30 inches, as measured vertically, to the floor or grade below do not permit the passage of a 4-inch-diameter sphere.

Exceptions:

1. The opening between adjacent treads is not limited on spiral stairways.

2. The riser height of spiral stairways shall be in accordance with Section R311.7.10.1.

R311.7.5.2 Treads. The tread depth shall be not less than 9 inches. The tread depth shall be measured horizontally between the vertical planes of the foremost projection of adjacent treads and at a right angle to the tread's leading edge. The greatest tread depth within any flight of stairs shall not exceed the smallest by more than ⅜ inch.

R311.7.5.2.1 Winder Treads. Winder treads shall have a tread depth of not less than 9 inches measured between the vertical planes of the foremost projection of adjacent treads at the intersections with the walkline. Winder treads shall have a tread depth of not less than 6 inches at any point within the clear width of the stair. Within any flight of stairs, the largest winder tread depth at the walkline shall not exceed the smallest winder tread by more than ⅜ inch. Consistently shaped winders at the walkline shall be allowed within the same flight of stairs as rectangular treads and do not have to be within ⅜ inch of the rectangular tread depth.

Exception: The tread depth at spiral stairways shall be in accordance with Section R311.7.10.1.

Change Sections R313.1 through R313.2.1 to read as follows:

R313.1 Townhouse Automatic Fire Sprinkler Systems. A builder of townhouse units shall offer to any purchaser on or before the time of entering into the purchase contract the option, at the purchaser's expense, to install or equip fire sprinklers in the townhouse unit. No purchaser of such a townhouse unit shall be denied the right to choose or decline to install a fire sprinkler system in such townhouse being purchased.

Exception: An automatic residential fire sprinkler system shall not be required where additions or alterations are made to existing townhouses that do not have an automatic residential fire sprinkler system installed.

R313.1.1 Design and Installation. Automatic residential fire sprinkler systems for townhouses shall be designed and installed in accordance with the Plumbing Code or NFPA 13D.

R313.2 One- and Two-Family Dwellings Automatic Fire Systems. A builder of single-family dwellings or residences or multi-unit dwellings of four or fewer units shall offer to any purchaser on or before the time of entering into the purchase contract the option, at the purchaser's expense, to install or equip fire sprinklers in the dwelling, residence or unit. No purchaser of such a single-family dwelling, residence, or multi-unit dwelling shall be denied the right to choose or decline to install a fire sprinkler system in such dwelling or residence being purchased.

Exception: An automatic residential fire sprinkler system shall not be required for additions or alterations to existing buildings that are not already provided with an automatic residential sprinkler system.

R313.2.1 Design and Installation. Automatic residential fire sprinkler systems shall be designed and installed in accordance with the Plumbing Code or NFPA 13D.

Change Section R319.1 to read as follows:

R319.1 Premises Identification. Approved numbers or addresses shall be provided for all new buildings in such a position as to be plainly visible and legible from the street or road fronting the property. These numbers shall contrast with their background. Address numbers shall be Arabic numerals or alphabet letters. Numbers shall be a minimum of four inches high with a minimum stroke width of ½ inch.

If there is an alley, numbers shall also be placed on the alley elevation of the premises on which the house,

building or structure is located. If there is a garage or carport fronting on an alley, house numbers shall also be placed on the alley elevation of the garage or carport.

Change Section R322.1.7 to read as follows:

R322.1.7 Protection of Water Supply and Sanitary Sewer Systems. New and replacement water supply systems shall be designed to minimize or eliminate infiltration of flood waters into the systems in accordance with the provisions of the Plumbing Code. New and replacement sanitary sewer systems shall be designed to minimize or eliminate infiltration of floodwaters into systems and discharge from systems into floodwaters in accordance with the Plumbing Code.

Add Sections R328 and R329 to read as follows:

SECTION R328 MODULAR UNITS

R328.1 Regulatory Authority. Modular units intended for use as permanent structures shall conform to Chapter 700 of the Revised Statutes of Missouri. All on-site construction or alterations such as site work, foundations, porches, stairs, accessory buildings, and other alterations required to complete the construction of the modular unit shall conform to this Code, the Electrical, Mechanical, and Plumbing Codes, and the City of St. Louis Zoning Code.

R328.2 Permits. In order to obtain a building permit to construct a permanent building as real property utilizing a modular unit, the following information shall be required:

1. A completed building permit application;

2. Five complete sets of construction drawings prepared, sealed, and signed by a Missouri licensed design professional as required by RSMo Ch. 327 showing all on-site construction:

A. Site plan indicating the City block, lot number and subdivision, location of the modular unit on the lot, location of any accessory structure, dimensions around the unit perimeter and to the property lines and building lines, and proposed drainage pattern;

B. Foundation plans indicating the length and width of the foundation, reinforcing, size and location of structural system (beams, columns, and footings), and method of attachment used to connect the modular unit to the foundation. The foundation system shall extend down to the frost line. In almost all cases it is necessary to include or incorporate the manufacturer's unit drawings to verify compatibility with the proposed foundation relative to the transferred loads, anchors, etc.;

C. Basement stair plan, section, and details, if applicable;

D. Floor plans indicating any changes to the manufacturer's unit drawings. Indicate smoke detector locations. Smoke detectors shall be AC powered with battery back-up and interconnected throughout. Vent interior bathrooms, dryers, and range hoods to the exterior;

E. Exterior porch, sun-deck, ramp, step, or stair plans, sections, and details, if applicable;

F. Elevations indicating any changes to the manufacturer's unit drawings such as location of door and window openings, exterior siding or veneer, soffit, rake and fascia boards, gutters, and downspouts. Downspouts shall conform to the Plumbing Code;

G. Wall section or building section indicating size of footing and foundation wall, reinforcing, depth of footing below finished grade, method of attachment used to connect the modular unit to the foundation and to other units, exterior siding or veneer material, soffit, rake and fascia board, gutters, and downspouts. Indicate floor-to-floor dimensions.

3. Verification of the Missouri Public Service Commission seal identification number or U.S. Department of Housing and Urban Development (HUD) label, or its agent, is required to be submitted prior to issuance of the building permit to verify compliance with the current state codes.

Separate permits are required for mechanical, electrical, plumbing, sprinklers, and fire alarms, if applicable.

R328.3 Inspections. The Division of Building and Inspection will make no inspection of individual modular units themselves nor assume any responsibility for their code compliance. The Division of Building and Inspection will review, approve, and inspect all on-site construction and alterations required to setup a modular unit as a permanent building and real property.

SECTION R329 TINY HOUSES

R329.1 General. Detached single-family dwellings and multiple attached single-family dwellings with a gross floor area of less than 400 square feet shall conform to this section.

R329.2 Construction. Tiny houses intended to be used as a dwelling unit shall be anchored to an ap-

proved foundation. Manufactured tiny houses constructed on a permanent chassis with wheels by either the manufacturer or owner and which have an affixed HUD or FHA certification tag may be located in a designated house-trailer park for mobile homes. All other tiny houses constructed on wheels will be considered as similar to RVs intended for occasional recreational use and not allowed to be used as a dwelling unit or mobile home for living purposes.

R329.3 Light, Ventilation, and Occupancy Limitations. Tiny houses shall conform to Chapter 4 of the Property Maintenance Code for light, ventilation, room size, ceiling height, and occupant load. Tiny houses may be designed as efficiency units in compliance with Section 404.6 of the Property Maintenance Code.

R329.4 Means of Egress. Vertical egress from habitable levels shall be by a 36-inch-wide stairway having a maximum riser height of 8¼ inches and a minimum tread depth of 9 inches and minimum 5 feet 8 inches headroom measured vertically. Winder treads and spiral stairs complying with Section R311 are permitted. Ladders are not permitted. Hallways, if provided, shall be not less than 36 inches wide.

R329.5 Utility Connections. Tiny houses intended for use as dwelling units shall have permanent connections to public utilities.

1. *Mechanical.* Heat and hot water shall be provided. Space shall be provided for mechanical equipment and hot water appliances to maintain required clearances to combustible materials and to provide access for maintenance. A minimum of 30 inches of clearance is required at the front of the appliance for service.

2. *Electrical.* An electrical system connected to the public utility shall be provided. Circuit breaker panels shall not be concealed and are not permitted in a bedroom, bathroom, or clothes closet. A minimum 36 inch deep by 30-inch-wide unobstructed clearance area having a minimum 6 feet 6 inches headroom is required in front of electric panels. Doors cannot open towards an electrical panel. Counters and cabinets cannot be installed under the electrical panel.

3. *Plumbing.* All plumbing fixtures shall be connected to the public sanitary sewer system. Water supply to all plumbing fixtures shall be connected to the public water system.

R329.6 Modular Units as Tiny Houses. Modular units intended to be occupied as tiny houses shall conform to Section R328.

R329.6.1 Off-site construction. For tiny houses constructed off site that are not manufactured units, five complete sets of construction drawings prepared, sealed, and signed by a Missouri licensed design professional as required by RSMo Ch. 327 shall be submitted and a building permit obtained prior to the start of construction. The architect shall submit a sealed, signed, and dated statement affirming that the structure was built in conformance with all City of St. Louis construction codes or a third-party inspection shall be provided from a reputable inspection agency to the building inspector prior to placement of the structure on its foundation.

CHAPTER 4 IS AMENDED AS FOLLOWS:

Change Section R403.1.4.1 to read as follows:

R403.1.4.1 Frost Protection. Except where otherwise protected from frost, foundation walls, piers, and other permanent supports of buildings and structures shall be protected from frost by one or more of the following methods:

1. Extend 30 inches minimum below finished grade.
2. Constructing in accordance with Section R403.3.
3. Constructing in accordance with ASCE 32-01.
4. Erecting on solid rock.

Exception: Freestanding accessory structures with an area of 200 square feet or less and an eave height of twelve feet or less shall not be required to be protected.

Change Section R 404.1.3.2 to read as follows:

R404.1.3.2 Reinforcement for Foundation Walls. Concrete foundation walls shall be laterally supported at the top and bottom. Horizontal reinforcement shall be provided in accordance with Table R404.1.2(1). Vertical reinforcement shall be provided in accordance with Table R404.1.2(2), R404.1.2(3), R404.1.2(4), R404.1.2(5), R404.1.2(6), R404.1.2(7), or R404.1.2(8). Vertical reinforcement for flat basement walls retaining four (4) feet or more of unbalanced backfill is permitted to be determined in accordance with Table R404.1.2(9). For basement walls supporting above-grade concrete walls, vertical reinforcement shall be the greater of that required by Tables R404.1.2(2) through R404.1.2(8) or by Section R608.6 for the above-grade wall. In buildings assigned to Seismic Design Category D0, D1, or D2, concrete foundation walls shall also comply with Section R404.1.4.2.

Exceptions:

1. Where unstable soil or ground water conditions do not exist, plain concrete foundation walls may be constructed a minimum of eight inches thick where the wall height from the top of the footing to the top of the

wall does not exceed eight feet and when the unbalanced backfill height from the top of the basement slab to the finished grade immediately adjacent to the wall does not exceed seven feet. A minimum of two No. 4 horizontal reinforcing bars shall be provided in the top and bottom of plain concrete foundation walls. A minimum of two No. 5 reinforcing bars shall be provided around all window and door openings in plain concrete foundation and basement walls. Bars shall extend a minimum 24 inches beyond the corners of the openings.

2. Where unstable soil or ground water conditions do not exist, plain concrete foundation walls may be constructed a minimum of ten inches thick where the wall height from the top of the footing to the top of the wall does not exceed nine feet and when the unbalanced backfill height from the top of the basement slab to the finished grade immediately adjacent to the wall does not exceed eight feet. A minimum of two No. 5 reinforcing bars shall be placed horizontally in the top, middle, and bottom of the foundation wall.

3. Where unstable soil or ground water conditions do not exist, plain concrete foundation walls may be constructed a minimum of ten inches thick where the wall height from the top of the footing to the top of the wall does not exceed eight feet and when the unbalanced backfill height from the top of the basement slab to the finished grade immediately adjacent to the wall does not exceed eight feet. A minimum of two No. 5 reinforcing bars shall be placed horizontally in the top, middle, and bottom of the foundation wall.

Change Section R405.1 to read as follows:

R405.1 Concrete or Masonry Foundations. Drains shall be provided around all concrete or masonry foundations that retain earth and enclose habitable or usable spaces located below grade. Drainage tile, gravel, or crushed stone drains, perforated pipe, or other approved systems or materials shall be installed at or below the area to be protected and shall discharge to an approved sump, fifteen inches in diameter and eighteen inches deep with fitted cover. A sump located in a space containing a finished area shall have a sump pump and piping installed to discharge the water to a separate storm (not sanitary) lateral, or if approved, to the ground surface a minimum of 6 feet away from the building. Gravel or crushed stone drains shall extend at least one foot beyond the outside edge of the footing and six inches above the top of the footing and be covered with an approved filter membrane material. The top of the open joints of drain tiles shall be protected with strips of building paper, and the drainage tiles or perforated pipe shall be placed on a minimum of two inches of washed gravel or crushed rock at least one sieve size larger than the tile joint opening or perforation and covered with not less than six inches of the same material.

Drainage tiles, gravel, or crushed stone drains, perforated pipe, or other approved system shall be placed on both the inside and the outside of foundations in areas where a high water table or other severe soil-water conditions exist or where water is present in the excavation. The drainage system shall discharge to an approved sump having a sump pump and piping to discharge the water to a separate storm (not sanitary) lateral, or if approved, to the ground surface a minimum of six feet away from the building.

Exception: A drainage system is not required where the foundation is installed on well-drained ground or sand-gravel mixture soils according to the Unified Soil Classification System, Group I Soils, as detailed in Table R405.1

CHAPTER 6 IS AMENDED AS FOLLOWS:

Delete Section 602.7.5 and Table 602.7.5.

CHAPTER 8 IS AMENDED AS FOLLOWS:

Change Section R802.10.2 to read as follows:

R802.10.2 Design. Wood trusses shall be designed in accordance with accepted engineering practice. The design and manufacture of metal-plate-connected wood trusses shall comply with ANSI/TPI 1. The truss design drawings shall be prepared and sealed by a Missouri licensed professional engineer.

CHAPTER 9 IS AMENDED AS FOLLOWS:

Change Section R903.4.1 to read as follows:

R903.4.1 Secondary (Emergency Overflow) Drains or Scuppers. Where roof drains are required, secondary emergency overflow roof drains or scuppers shall be provided where the roof perimeter construction extends above the roof in such a manner that water will be entrapped if the primary drains allow buildup for any reason. Overflow drains having the same size as the roof drains shall be installed with the inlet flow line located 2 inches above the low point of the roof, or overflow scuppers having three times the size of the roof drains and having a minimum opening height of 4 inches shall be installed in the adjacent parapet walls with the inlet flow located 2 inches above the low point

of the roof served. The installation and sizing of overflow drains, leaders and conductors shall comply with the Plumbing Code, as applicable

Overflow drains shall discharge to the approved location and shall not be connected to roof drain lines.

Change Section R905.2.8.2 to read as follows:

R905.2.8.2 Valleys. Valley linings shall be installed in accordance with the manufacturer's instructions before applying shingles. Valley linings of the following types shall be permitted:

1. For open valleys (valley lining exposed) lined with metal, the valley lining shall be at least 24 inches wide and of any of the corrosion-resistant metals in table R905.2.8.2.

2. For open valleys, valley lining of two plies of mineral surfaced roll roofing complying with ASTM D 3909 or ASTM D 6380 Class M shall be permitted. The bottom layer shall be eighteen inches and the top layer a minimum of 36 inches wide.

3. For closed valleys (valley covered with shingles), valley lining of one ply of smooth roll roofing complying with ASTM D 6380, or two plies of No. 15 building paper complying with ASTM D 226 Type I, ASTM D 4869 Type I, or ASTM D 6757 and at least 36 inches wide, or valley lining as described in Item 1 or 2 above shall be permitted. Self-adhering polymer modified bitumen underlayment complying with ASTM D 1970 shall be permitted in lieu of the lining material.

Change Section R905.2.8.5 to read as follows:

R905.2.8.5 Drip Edge. A drip edge shall be provided at eaves and rake edges of shingle roofs where required as a condition of the shingle manufacturer's warranty. Adjacent segments of drip edge shall be overlapped not less than 2 inches. Drip edges shall extend not less than ¼ inch below the roof sheathing and extend up back onto the roof deck not less than 2 inches. Drip edges shall be mechanically fastened to the roof deck at not more than 12 inches o.c. with fasteners as specified in Section R905.2.5. Underlayment shall be installed over the drip edge along eaves and under the drip edge along rake edges.

CHAPTER 11 IS AMENDED AS FOLLOWS:

Change data for Climate Zone 4 in Table N1102.1.1 to read as follows:

Table N1102.1.1 (R402.1.2)

INSULATION AND FENSETRATION REQUIREMENTS BY COMPONENT[a]

CLIMATE ZONE	FENESTRATION U-FACTOR [b]	SKYLIGHT[b] U-FACTOR	GLAZED FENESTRATION SHGC[b,c]	CEILING R-VALUE	WOOD FRAME WALL R-VALUE
1	NR	0.75	0.25	30	13
2	0.40	0.65	0.25	38	13
3	0.32	0.25	0.25	38	20 or 13 +5 h
4 except Marine	0.32	0.55	0.40	38	20 or 13 +5 h
5 and Marine 4	0.30	0.55	NR	49	20 or 13 +5 h
6	0.30	0.55	NR	49	20 + 5h or 13 + 10 h
7 and 8	0.30	0.55	NR	49	20 + 5h or 13 + 10 h

MASS WALL R-VALUE[i]	FLOOR R-VALUE	BASEMENT[c] WALL R-VALUE	SLAB[d] R-VALUE & DEPTH	CRAWL SPACE[c] WALL R-VALUE
3/4	13	0	0	0
4/6	13	0	0	0
8/13	19	5/13	0	5/13
8/13	19	0	10, 2 ft	10/13
13/17	30g	15/19	10, 2 ft	15/19
15/20	30g	15/19	10, 4 ft	15/19
19/21	38g	15/19	10, 4 ft	15/19

For SI: 1 foot = 304.8 mm.

NR = Not required.

a. R-values are minimum. U-factors and SHGC are maximums. Where insulation is installed in a cavity that is less than the label or design thickness of the installation, the installed R-value of the insulation shall be not less than the R-value specified in the table.

MASS WALL R-VALUE[i]	FLOOR R-VALUE	BASEMENT[c] WALL R-VALUE	SLAB[d] R-VALUE & DEPTH	CRAWL SPACE[c] WALL R-VALUE

b. The fenestration U-factor column excludes skylights. The SHGC column applies to all glazed fenestration. Exception: In Climate Zones 1 through 3, skylights shall be permitted to be excluded from glazed fenestration SHGC requirements provided that the SHGC for such skylights does not exceed 0.30.

c. "10/12" means R-10 continuous insulation on the interior or exterior of the home or R-13 cavity insulation on the basement wall. "15/19" mean R-15 continuous insulation on the interior or exterior of the home or R19 cavity insulation on the interior of the basement wall. Alternatively, compliance with "15/19" shall be R-13 cavity insulation on the interior of the basement wall with plus R-5 continuous insulation on the interior or exterior of the home.

d. R-5 insulation shall be provided under the full slab area of a heated slab in addition to the required slab edge insulation R-value for slabs, as indicated in the table. The slab edge insulation for heated slabs shall not be required to extend below the slab.

e. There are no SHGC requirements in then Marine Zone.

f. Basement wall insulation shall not be required in warm-humid locations defined by Figure N1101.10 and Table 1101.10.

g. Alternatively, insulation sufficient to fill the framing cavity providing not less than an R-value of R-19.

h. The first value is cavity insulation, the second value is continuous insulation. Therefore, as an example, "13+5" means R-13 cavity insulation plus R-5 continuous insulation.

i. Mass walls shall be in accordance with Section N1102.2.5. The second R-value applies where more than half of the insulation is on the interior of the mass wall.

Delete Section 1102.4.5.

CHAPTERS 12 thru 43 ARE AMENDED AS FOLLOWS:

Delete Chapters 12 thru 23. Refer to the Mechanical Code

Delete Chapter 24. Refer to the Fuel Gas Code.

Delete Chapters 25 thru 33. Refer to the Plumbing Code.

Delete Chapters 34 thru 43. Refer to the Electrical Code.

CHAPTER 44 IS AMENDED AS FOLLOWS:

Modify Chapter 44 by adding the following:

IAPMO International Association of Plumbing and Mechanical Officials

5001 E. Philadelphia Street

Ontario, CA 91761-2816

UPC-09-Uniform Plumbing Code

Table R301.2(1), R313.1.1, R313.2.1, R322.1.7, R903.4.1

Appendices E, F, G, H, J, K, M, R, S, and T are hereby adopted.

(Ord. No. 71990, § 3, 2-25-2025; Ord. No. 71285, §§ 1—3, 2-11-2021; Ord. No. 70795, § 3, 7-6-2018.)

25.11.030 Penalty.

Any person who shall violate a provision of this code or shall fail to comply with any of the requirements thereof, or who shall erect, construct, alter, extend, repair, remove, demolish, use, or occupy any building, structure, premises, or equipment regulated by this code in violation of an approved construction document or directive of the building official or the Board of Building Appeals, or of a permit or certificate issued under the provisions of this code, shall be subject to, a fine as set forth in Section 25.33.040. Each day that a violation continues shall constitute a separate and distinct offense.

(Ord. No. 71990, § 2, 2-25-2025; Ord. No. 70795, § 4, 7-6-2018.)

CONTRACTORS TO POST SIGNS

City Counselor Ops.: 8769

Sections:

25.12.010 Specifications of signs.

25.12.020 Definitions.

25.12.010 Specifications of signs.

Every contractor and subcontractor erecting, altering, repairing, with the exception of minor repairs, repairs, removing or demolishing of any building or other structure for which a building permit is required under the provisions of the Building Code of the City to place and maintain a sign on the front of the premises where such work is being performed at least two (2) feet in height and two (2) feet in width, setting forth in letters of at least two (2) inches in height and two (2) inches in width the name, address and telephone number of the contractor or subcontractor thereon during the period of time from the beginning of such work until the completion of such work by such contractor or subcontractor. (1960 C., § 410.010; 1994 C., § 25.12.010; Ord. No. 50062, § 1, 1960.)

25.12.020 Definitions.

The term of "contractor" for the purpose of this chapter shall mean the person, firm or corporation engaged by the owner of the property, his agent, lessee or tenant to perform work requiring a building permit. The term "subcontractor" shall mean the person, firm or corporation engaged by the contractor to perform a part or portion of the work to carry out the terms of the contract or agreement with the owner, his agent, tenant or lessee of the owner. (1960 C., § 410.020; 1994 C., § 25.12.020; Ord. No. 50062, § 2, 1960.)

Chapter 25.13

ENERGY CONSERVATION CODE

Editor's Note:

Ord. No. 70799, adopted July 6, 2018, adopting the 2018 International Energy Conservation Code with amendments, repealed and replaced Ordinance No. 68792. Ord. No. 68792, adopted Nov. 8, 2010, repealed Ch. 25.13 and enacted a new chapter. The former Ch. 25.13, §§ 25.13.010—25.13.040, pertained to similar subject matter and derived from Ord. No. 66786, §§ 2—4, 2005.

Sections:

25.13.010 Adoption.
25.13.020 Amendments.
25.13.030 Penalty.

25.13.010 Adoption.

The 2018 International Energy Conservation Code as published by the International Code Council, Inc., one copy of which is on file in the office of the Register of the City of Saint Louis, being marked and designated as the International Energy Conservation Code, is hereby adopted as the Energy Conservation Code of the City of Saint Louis, in the State of Missouri, pursuant to this chapter and in conformity with Section 71.943 RSMo; and that each and all of the regulations, provisions, penalties, conditions, and terms of said Energy Conservation Code are hereby referred to, adopted, and made a part hereto as if fully set out in this chapter with the amendments prescribed in Section 25.13.020. If differences occur between a provision modified by this chapter and a provision adopted without modification, then the modified provision shall control. (Ord. No. 70799, § 2, 7-6-2018.)

RSMo:

RSMo 67.280 (2016) Adoption of technical codes by reference

25.13.020 Amendments.

The 2018 International Energy Conservation Code is amended and changed in the following respects:

CHAPTER 1 IS AMENDED AS FOLLOWS:

Change Section C101.1 to read as follows:

C101.1 Title. These regulations shall be known as the Energy Conservation Code of the City of Saint Louis, hereafter referred to as "this code."

CHAPTER 2 IS AMENDED AS FOLLOWS:

Change Section C201.3 to read as follows:

C201.3 Terms defined in other codes. Terms that are not defined in this code but are defined in the Building Code, the Fire Code, the Fuel Gas Code, the Mechanical Code, the Residential Code, or the Plumbing Code shall have the meanings ascribed to them in those codes.

CHAPTER 5 IS AMENDED AS FOLLOWS:

Change Section C501.4 to read as follows:

C501.4 Compliance. Alterations, repairs, additions and changes of occupancy to, or relocation of, existing buildings and structures shall comply with the provisions for alterations, repairs, additions and changes of occupancy or relocation, respectively, in this code and in the Building Code, the Existing Building Code, the Fire Code, the Fuel Gas Code, the Mechanical Code, the Property Maintenance Code, the Residential Code, the Plumbing Code and NFPA 70.

CHAPTER 6 IS AMENDED AS FOLLOWS:

Modify Chapter 6 by adding the following:

IAPMO International Association of Plumbing and Mechanical Officials

5001 E. Philadelphia Street

Ontario, CA 91761-2816

UPC-14-Uniform Plumbing Code

C201.3, C501.4

CHAPTERS R1-R6 ARE AMENDED AS FOLLOWS:

Delete Residential Provisions, Chapters R1-R6. Refer to the Residential Code for One-and Two-Family Dwellings.

The 2018 International Energy Conservation Code is hereby amended by the addition of Appendix CA (Solar Ready Zone - Commercial) and Appendix RA (Solar Ready Zone -Residential). These Appendices are attached to Ord. No. 71063 as Exhibit A, and are incorporated by reference into the International En-

ergy Conservation Code of the City of St. Louis. (Ord. No. 71063, § 1, 12-23-2019; Ord. No. 70799, § 3, 7-6-2018.)

25.13.030 Penalty.

Any person who shall violate a provision of this code or shall fail to comply with any of the requirements thereof, or who shall erect, construct, alter, extend, repair, remove, demolish, use, or occupy any building, structure, premises, or equipment regulated by this code in violation of an approved construction document or directive of the building official or the Board of Building Appeals, or of a permit or certificate issued under the provisions of this code, and shall, upon conviction thereof, be punished by a fine of not more than $500.00, or by imprisonment not exceeding 90 days, or both such fine and imprisonment. Each day that a violation continues shall constitute a separate and distinct offense. (Ord. No. 70799, § 4, 7-6-2018.)

Chapter 25.16

FLOOD DAMAGE BUILDING PRECAUTIONS

Sections:

25.16.010 Review of building permit applications.

25.16.020 Recommendations by Building Commissioner.

25.16.030 Requirements for proposed construction.

25.16.040 Board of Public Service—Determinations.

25.16.050 Land use and control measures—Enactment.

25.16.060 Duties of Director of Public Safety.

25.16.070 Implementation of chapter commitments.

25.16.010 Review of building permit applications.

The Building Commissioner for the City when reviewing applications for building permits, including the plans and specifications for the proposed construction, will review all building permit applications to determine if the proposed construction is consistent with the need to minimize flood damage. (1994 C., § 25.16.010; Ord. No. 56632, § 1, 1973.)

25.16.020 Recommendations by Building Commissioner.

The Building Commissioner shall review all building permit applications to determine if the site of the proposed construction is reasonably safe from flooding and to make recommendations for construction in all locations which have flood hazards. (1994 C., § 25.16.020; Ord. No. 56632, § 2, 1973.)

25.16.030 Requirements for proposed construction.

The Building Commissioner, in reviewing all applications for construction in flood hazard locations within the City, shall require that any such proposed construction must:

A. Be designed and anchored to prevent the flotation, collapse or lateral movement of the structure or portions of the structure due to flooding.

B. Use construction materials and utility equipment that are resistant to flood damage.

C. Use construction methods and practices that will minimize flood damage.

D. Provide adequate drainage in order to reduce exposure to flood hazards.

E. Locate public utilities and facilities on the site in such a manner as to be elevated or constructed to minimize or eliminate flood damage, such utilities and facilities including sewer, gas, electrical and water systems. (1994 C., § 25.16.030; Ord. No. 56632, § 3, 1973.)

25.16.040 Board of Public Service—Determinations.

The Board of Public Service, in addition to the duties imposed by Article XIII, Section 4(d) of the City Charter*, in reviewing all applications for additions or subdivisions, shall make finding of fact and determine if:

A. All such proposed developments are consistent with the need to minimize flood damage.

B. Adequate drainage is provided so as to reduce exposure to flood hazards.

C. Adequate drainage is provided so as not to increase the exposure to flood hazards of adjacent lands.

D. All public utilities and facilities are located, elevated and constructed so as to minimize or eliminate flood damage, these utilities and facilities to include sewer, gas, electrical and water systems. (1994 C., § 25.16.040; Ord. No. 56632, § 4, 1973.)

***Editor's note**—It appears the reference intended was Article XIII, Section 5(d) of the City Charter. There is no Article XIII, Section 4(d).

25.16.050 Land use and control measures—Enactment.

There is given assurance to the Federal Insurance Administration that the Board of Aldermen will enact and maintain in force for those areas subject to periodic flooding adequate land use and control measures with effective enforcement provisions consistent with the National Flood Insurance Regulations. (1994 C., § 25.16.050; Ord. No. 56633, § 1, 1973.)

25.16.060 Duties of Director of Public Safety.

In addition to his other duties, the Director of Public Safety shall be and is delegated, insofar as lawfully possible, the responsibility, authority and means, in cooperation with all other City officials and employees:

A. To delineate or assist the Administrator of the National Flood Insurance Program, at his request, in delineating the limits of the areas having special flood hazards on available local maps of sufficient scale to identify the location of building sites.

B. To provide such information as the Administrator may request concerning present uses and occupancy of the floodplain areas.

C. To maintain for public inspection and furnishing upon request, with respect to each area having special flood hazards, information on elevations, in relation to mean sea level, of the lowest floors of all new or substantially improved structures.

D. To cooperate with federal, state and local agencies and private firms which undertake to study, survey, map or identify floodplain areas, and cooperate with neighboring communities with respect to planning for management of adjoining floodplain areas in order to prevent aggravation of existing hazards.

E. To submit on the anniversary date of initial eligibility under the National Flood Insurance Program an annual report to the Administrator on the progress made during the past year within the City in the development and implementation of floodplain area management measures.

F. To take such other official action as may be reasonably necessary to carry out the objectives of the program. (1994 C., § 25.16.060; Ord. No. 56633, § 2, 1973.)

RSMo:

RSMo 70.330 (2016) Cooperation with United States for flood control

25.16.070 Implementation of chapter commitments.

The Director of Public Safety shall be responsible for, and is hereby vested with, the authority and means to implement all commitments made herein. (1994 C., § 25.16.070; Ord. No. 56633, § 3, 1973.)

Chapter 25.20

EXISTING BUILDING CODE

Editor's Note:

Ord. No. 70797, adopted July 6, 2018, adopting the 2018 International Existing Building Code with amendments, including Appendices A, B, and C; repealed and replaced Ordinance No. 68790. Ord. No. 68790, adopted Nov. 8, 2010, repealed Ch. 25.20 and enacted a new chapter. The former Ch. 25.20, §§ 25.20.010—25.20.370, pertained to similar subject matter and derived from Ord. No. 66788, §§ 2—4, 2005.

Prior ordinance history: Ord. 65927

Sections:

25.20.010 Adoption.
25.20.020 Amendments.
25.20.030 Penalty.

25.20.010 Adoption.

The 2018 International Existing Building Code as published by the International Code Council, Inc., one copy of which is on file in the office of the Register of the City of Saint Louis, being marked and designated as the International Existing Building Code, including Appendices A, B, and C, is hereby adopted as the Existing Building Code of the City of Saint Louis, in the State of Missouri, pursuant to this chapter and in conformity with RSMo 71.493 for the control of buildings and structures as herein provided; and that each and all of the regulations, provisions, penalties, conditions, and terms of said Existing Building Code are hereby referred to, adopted, and made a part hereto as if fully set out in this chapter with the amendments prescribed in Section 25.20.020. If differences occur between a provision modified by this chapter and a provision adopted without modifications, then the modified provision shall control. (Ord. No. 70797, § 2, 7-6-2018.)

RSMo:

RSMo 67.280 (2016) Adoption of technical codes by reference

25.20.020 Amendments.

The 2018 International Existing Building Code is amended and changed in the following respects:

CHAPTER 1 IS AMENDED AS FOLLOWS:

Delete Chapter 1 as published in its entirety.

Add new Chapter 1 to read as follows:

CHAPTER 1

SCOPE AND ADMINISTRATION

SECTION 101 GENERAL

101.1 Title. These regulations shall be known as the Existing Building Code of the City of Saint Louis, hereinafter referred to herein as "this code."

101.2 Scope. The provisions of this code shall apply to the repair, alteration, change of occupancy, addition to, and relocation of existing buildings.

Exceptions:

1. Live/work units complying with the requirements of Section 419 of the Building Code shall be permitted to be built as one- and two-family dwellings or townhouses. Fire suppression required by Section 419.5 of the Building Code when constructed under the Residential Code for One- and Two-family Dwellings shall conform to Section 903.3.1.3 of the Building Code.

2. Owner-occupied lodging houses with five or fewer guest rooms shall be permitted to be constructed in accordance with the Residential Code for One- and Two-Family Dwellings when equipped with a fire sprinkler system in accordance with Section 903.3.1.3 of the Building Code.

101.3 Intent. The purpose of this code is to establish the minimum requirements to safeguard the public health, safety, and general welfare through structural strength, means of egress facilities, stability, sanitation, adequate light and ventilation, energy conservation, and safety to life and property from fire and other hazards attributed to the built environment and to provide a reasonable level of safety to fire fighters and emergency responders during emergency operations.

101.4 Applicability. This code shall apply to the repair, alteration, change of occupancy, addition and relocation of existing buildings, regardless of occupancy, subject to the criteria of Sections 101.4.1 and 101.4.2.

101.4.1 Buildings not previously occupied. A building or portion of a building that has not been previously occupied or used for its intended purpose, in

accordance with the laws in existence at the time of its completion, shall be permitted to comply with the provisions of the laws in existence at the time of its original permit unless such permit has expired. Subsequent permits shall comply with the International Building Code or International Residential Code, as applicable, for new construction.

101.4.2 Buildings previously occupied. The legal occupancy of any building existing on the date of adoption of this code shall be permitted to continue without change, except as specifically covered in this code, the International Fire Code, or the International Property Maintenance Code, or as deemed necessary by the code official for the general safety and welfare of the occupants and the public.

101.5 Safeguards During Construction. Construction work covered in this code, including any related demolition, shall comply with the requirements of Chapter 15.

101.6 Appendices. The code official is authorized to require retrofit of buildings, structures or individual structural members in accordance with the appendices of this code if such appendices have been individually adopted. For purposes of this code, Appendices A, B and C are adopted.

101.7 Correction of Violations of Other Codes. Repairs or alterations mandated by any property, housing, or fire safety maintenance code or mandated by any licensing rule or ordinance adopted pursuant to law shall conform only to the requirements of that code, rule or ordinance and shall not be required to conform to this code unless the code requiring such repair or alteration so provides.

SECTION 102 APPLICABILITY

102.1 General. Where there is a conflict between a general requirement and a specific requirement, the specific requirement shall be applicable. Where, in any specific case, different sections of this code specify different materials, methods of construction, or other requirements, the most restrictive shall govern.

102.2 Other Laws. The provisions of this code shall not be deemed to nullify any provisions of local, state, or federal law. Where the provisions of this code conflict with other ordinances or regulations, the most stringent requirements shall apply. The building official shall not be the enforcement officer for such other ordinances or regulations unless specified therein.

102.3 Application of References. References to chapter or section numbers, or to provisions not specifically identified by number, shall be construed to refer to such chapter, section, or provision of this code.

102.4 Referenced Codes and Standards. The codes and standards referenced in this code shall be considered part of the requirements of this code to the prescribed extent of each such reference and as further regulated in Sections 102.4.1 and 102.4.2. Referenced standards shall be permitted to be updated by rule making authority of the building official.

Exception: Where enforcement of a code provision would violate the conditions of the listing of the equipment or appliance, the conditions of the listing and manufacturer's instructions shall apply.

102.4.1 Conflicts. Where conflicts occur between provisions of this code and referenced codes and standards, the provisions of this code shall apply.

102.4.2 Provisions in Referenced Codes and Standards. Where the extent of the reference to a referenced code or standard includes subject matter that is within the scope of this code, the provisions of this code, as applicable, shall take precedence over the provisions in the referenced code or standard.

102.5 Appendices. Provisions of the appendices shall not apply unless specifically referenced in the adopting ordinance.

102.6 Partial Invalidity. In the event any part or provision of this code is held to be illegal or void, this shall not have the effect of making void or illegal any of the other parts or provisions.

102.7 Existing Structures. The legal occupancy of any structure existing on the date of the adoption of this code shall be permitted to continue without change, except as is specifically covered in this code, the Existing Building Code, the Property Maintenance Code, or the Fire Code, or as deemed necessary by the building official for the general safety and welfare of the occupants and the public.

102.7.1 Additions, Alterations, or Repairs. Additions, alterations, or repairs to any structure shall conform to that required for a new structure without requiring the existing structure to comply with all of the requirements of this code, unless otherwise stated. Additions, alterations, repairs, and relocations shall not cause an existing structure to become unsafe or adversely affect the performance of the building.

102.7.2 Buildings Not Previously Occupied. A building or portion of a building that has not been

previously occupied or used for its intended purpose in accordance with the laws in existence at the time of its completion shall comply with the provisions of the this code for new construction or with any current permit for such occupancy.

102.8 Matters Not Provided For. Any requirements that are essential for structural, fire, or sanitary safety of an existing or proposed building or structure, or for the safety of the occupants thereof, and which are not specifically provided for by this code, shall be determined by the building official.

The building official shall be permitted to delegate to the Department of the President, Board of Public Service, responsibility for code compliance inspections on projects within the City limits let by the Board of Public Service or let as an Emergency Agreement. If such delegation is made, that office shall certify in writing to the building official at the completion of the project that they did inspect and believe the project to comply with this code.

102.9 Buildings, Structures, or Premises Partly Within City Limits. When a building, structure, or premises is constructed partly within the City and partly within county limits, the Building Commissioner shall be authorized to enter into agreements with the adjoining code jurisdictions to avoid duplications of inspections, fees, and permits.

102.10 Restrictions. No building or structure shall be constructed, extended, repaired, removed, altered or occupied in violation of these provisions, except for repairs as defined in Section 105.2.2, and except further that the raising, lowering or moving of a building or structure as a unit necessitated by a change in legal grade or widening of a street shall be permitted, provided the building or structure is not otherwise altered or its occupancy changed. Political subdivisions of the State of Missouri, including, but not limited to, the Board of Education, Metropolitan Sewer District, Saint Louis Housing Authority, Saint Louis Police Department, Metro Transit, Planned Industrial Expansion Authority, Land Clearance for Redevelopment Authority, Land Reutilization Authority, Saint Louis Development Corporation, and the Regional Convention and Sports Complex Authority are covered under the provisions of this code for all property within the City limits.

Exceptions:

1. Structures owned and occupied by the United States of America or the State of Missouri.

2. City of Saint Louis-owned property located outside of the City Limits.

3. Existing building occupancies that are licensed by the State of Missouri as family child care homes providing home day care, as specified in Section 310.3.

4. Structures located within cemetery boundaries which are less than 1,000 square feet in area and less than 20 feet in height, measured from grade to the highest point.

5. Laying or relaying of railroad trackage sidings and their appurtenant signals, culverts and structures.

6. A construction project located in the public right-of-way (R.O.W.).

SECTION 103 DIVISION OF BUILDING AND INSPECTION

103.1 Creation of Enforcement Agency. There is hereby created the Division of Building and Inspection. The Division shall consist of Sections, including, but not limited to: Administration Section, Building Inspection Section, Central File Section, Court Section, Electrical Inspection Section, Mechanical Inspection Section, Permit Section, Plan Exam Section, Plumbing Inspection Section, and Zoning Section.

103.2 Building Commissioner. The head of the Division of Building and Inspection shall be known as the Building Commissioner, in accordance with Section 15, Article 13 of the Charter of the City of Saint Louis.

103.2.1 Appointment; Qualifications. The Building Commissioner, also herein referred to as the building official, shall be a Missouri licensed professional architect, or, a Missouri licensed professional engineer, or, shall have a bachelors degree in an appropriately related field with Certified Building Code Official status, or, shall have a masters degree in an appropriately related field and five years' experience in building code enforcement at a senior management level. The Building Commissioner shall be appointed by the Director of Public Safety.

103.3 Organization. The building official shall appoint such numbers of architects, engineers, technical assistants, inspectors and other employees such as clerks, typists, and cashiers as shall be necessary for the administration of the codes governed by this chapter, and as authorized by the building official in conformance with Civil Service qualifications and regulations. The building official shall be permitted to delegate appropriate subordinates to act in the exercise of the duties of this code, and they also shall be designated as building

officials. The building official is authorized to designate employees as needed who shall exercise all the powers of the building official during the temporary absence or disability of the building official.

103.4 Restriction of Employees. An official or employee connected with the Division of Building and Inspection, except one whose only connection is that of a member of the Board of Building Appeals, shall not be engaged in or directly or indirectly connected with the furnishing of labor, materials, or appliances for the construction, alteration, or maintenance of a building, or the preparation of construction documents therefor, unless that person is the owner of the building, or a first degree relative of the owner of the building; nor shall such officer or employee engage in any work which conflicts with official duties or with the interests of the Division of Building and Inspection.

Further, no Building Division employee shall be employed by or serve as an employee of any other division within the City service unless a formal request is made by the Building Commissioner to and approved by the appointing authority of that Division.

SECTION 104 DUTIES AND POWERS OF THE BUILDING OFFICIAL

104.1 General. The building official is hereby authorized and directed to enforce the provisions of this code. The building official shall have the authority to render interpretations of this code and adopt policies and procedures in order to clarify the application of its provisions. Such interpretations, policies, and procedures shall be in conformance with the intent and purpose of this code. Such policies and procedures shall not have the effect of waiving requirements specifically provided for in this code.

104.1.1 Rule Making Authority. The Building Commissioner shall have authority as necessary in the interest of public health, safety, and general welfare to adopt and promulgate rules and regulations to interpret and implement the provisions of this code, to secure the intent thereof, and to designate requirements applicable because of local climatic or other conditions. Such rules shall not have the effect of waiving structural or fire performance requirements specifically provided for in this code or violating accepted engineering practice involving public safety.

104.1.2 Accepted Engineering Practice. In the absence of provisions not specifically contained in this code, the regulations, specifications, and standards listed under referenced standards shall be deemed to represent accepted engineering practice in respect to materials, equipment, systems, or methods of construction.

104.2 Applications and Permits. The building official shall receive applications; review construction documents; issue or deny permits for the erection, alteration, demolition, moving, or occupancy of buildings, structures, or premises; inspect the premises for which such permits have been issued; and enforce compliance with the provisions of this code.

104.2.1 Preliminary Meeting. When requested by the permit applicant, the building official shall meet with the permit applicant to discuss plans for the proposed work or change of occupancy prior to the application for a permit in order to establish the specific applicability of the provisions of this code.

104.2.1.1 Building Evaluation. The building official is authorized to require an existing building to be investigated and evaluated by a licensed design professional based on the circumstances agreed upon at the preliminary meeting. The design professional shall notify the building official if any potential nonconformance with the provisions of this code is identified.

104.3 Notices and Orders. The building official shall issue all necessary notices or orders to ensure compliance with this code.

104.4 Inspections. The building official is authorized to make all of the required inspections, or the building official shall have the authority to accept reports of inspection by approved agencies or individuals. Reports of such inspections shall be in writing and certified by a responsible officer of such approved agency or by the responsible individual. The building official is authorized to engage such expert opinion as deemed necessary to report upon unusual technical issues that arise, subject to the approval of the appointing authority. The owner shall provide such special inspections as are required by the building official.

104.5 Identification. The building official shall carry proper identification when inspecting structures, or premises in the performance of duties under this code.

104.6 Right of Entry. Where it is necessary to make an inspection to enforce the provisions of this code or where the building official has reasonable cause to believe that there exists in a structure or upon a premises a condition which is contrary to or in violation of this code which makes the structure or premises unsafe, dangerous, or hazardous, the building official

or designee is authorized to enter the structure or premises at reasonable times to inspect or perform the duties imposed by this code, provided that if such structure be occupied, that credentials be presented to the occupant and entry requested. If such structure or premises be unoccupied, the building official shall first make a reasonable effort to locate the owner, owner's authorized agent, or other person having charge or control of the structure or premises and request entry. If entry is refused, the building official shall have recourse to the remedies provided by law to secure entry.

104.6.1 Disasters. In the event of a disaster such as windstorm, tornado, flood, fire, earthquake, bomb blast, or explosion, the building official is hereby authorized to enter and inspect structures within the affected area, subject to constitutional restrictions on unreasonable searches and seizures. When, in the opinion of the building official, there is imminent danger of an unsafe condition, the building official shall take emergency measures in accordance with this code. If the building official determines, after inspection, that a structure is unfit, the building official shall declare it a public nuisance, cause a report to be prepared, and notify the affected parties in accordance with this code.

104.6.1.1 Post-Disaster Inspections. The building official is authorized to deputize Missouri Structural Assessment and Visual Evaluation (SAVE) Volunteer Inspectors certified by the Missouri State Emergency Management Agency (SEMA) to conduct emergency post-disaster safety evaluations of buildings.

104.7 Department Records. An official record shall be kept of all business and activities of the department specified in the provisions of this code, and all such records shall be open to public inspection at all appropriate times.

A reasonable charge shall be established for making copies of documents. If staff time is required to assemble requested data, an estimate shall be made of personnel charges, including fringe benefits, and a signed agreement made prior to undertaking such projects. The Division of Building and Inspection is not obligated to assemble data into formats that it does not use or need in the ordinary prosecution of its work.

Further, whenever any person, firm, or corporation requests a comprehensive historical investigation of the Division of Building and Inspection records relating to building or occupancy permits, an application fee of $25.00 shall be charged as specified in Section 108.2.1 in addition to all other fees as provided in other sections of this code.

104.8 Liability. The building official, member of the Board of Building Appeals, or employee charged with the enforcement of this code, while acting for the City of Saint Louis in good faith and without malice in the discharge of the duties required by this code or other pertinent law or ordinance, shall not thereby be rendered civilly or criminally liable personally and is hereby relieved from personal liability for any damage accruing to persons or property as a result of any act or by reason of an act or omission in the discharge of official duties.

104.8.1 Legal Defense. Any suit or criminal complaint instituted against an officer or employee because of an act performed by that officer or employee in the lawful discharge of duties and under the provisions of this code shall be defended by the City of Saint Louis City Counselor's Office until the final termination of the proceedings. The building official or any subordinates shall not be liable for cost or judgment in any action, suit or proceeding that is instituted in pursuance of the provisions of this code; and any employee of the Division of Building and Inspection, acting in good faith and without malice, shall be free from liability for acts performed under any of its provisions or by reason of any act or omission in the performance of official duties in connection therewith.

The above protection shall also extend to former employees for work performed during their period of employment with the City of Saint Louis.

104.9 Approved Materials and Equipment. Materials, equipment, and devices approved by the building official shall be constructed and installed in accordance with such approval.

104.9.1 Used Materials and Equipment. The use of used materials which meet the requirements of this code for new materials is permitted. Used equipment and devices shall not be reused unless they have been reconditioned, tested, and placed in good and proper working condition and approved by the building official.

104.10 Modifications. Wherever there are practical difficulties involved in carrying out provisions of this code, the building official shall have the authority to grant modifications for individual cases, upon application of the owner or owner's representative, provided the building official shall first find that special individ-

ual reason makes the strict letter of this code impractical and the modification is in compliance with the intent and purpose of this code and that such modification does not lessen health, life, and fire safety or structural requirements. The details of action granting modifications shall be recorded and entered in the files of the Division of Building and Inspection.

104.10.1 Flood Hazard Areas. The building official shall not grant modifications to any provisions required in flood hazard areas unless a determination has been made that:

1. There is good and sufficient cause showing that the unique characteristics of the size, configurations, or topography of the site render the elevation standards of this code inappropriate.

2. Failure to grant the modification would result in exceptional hardship by rendering the lot undevelopable.

3. The granting of modification will not result in increased flood heights, additional threats to public safety, or extraordinary public expense; cause fraud on or victimization of the public; or conflict with existing laws or ordinances.

4. The modification is the minimum necessary to afford relief considering the flood hazard.

5. Written notice has been submitted to the applicant specifying the difference between the design flood elevation and the elevation to which the building is to be built, stating that the cost of flood insurance will be commensurate with the increased risk resulting from the reduced floor elevation, and stating that construction below the design flood elevation increases risks to life and property.

104.11 Alternative Materials, Design, and Methods of Construction, and Equipment. The provisions of this code are not intended to prevent the installation of any material or to prohibit any design or method of construction not specifically prescribed by this code, provided any such alternative has been approved. An alternative material, design or method of construction shall be approved where the building official finds that the proposed design is satisfactory and complies with the intent of the provisions of this code, and that the material, method, or work offered is, for the purpose intended, at least the equivalent of that prescribed in this code in quality, strength, effectiveness, fire resistance, durability, and safety.

104.11.1 Research Reports. Supporting data, where necessary to assist in the approval of materials or assemblies not specifically provided for in this code, shall consist of valid research reports from approved sources.

104.11.2 Tests. Whenever there is insufficient evidence of compliance with the provisions of this code, or evidence that a material or method does not conform to the requirements of this code, or in order to substantiate claims for alternative materials or methods, the building official shall have the authority to require tests as evidence of compliance to be made at no expense to the jurisdiction. Test methods shall be as specified in this code or by other recognized test standards. In the absence of recognized and accepted test methods, the building official shall approve the testing procedures. Tests shall be performed by an approved agency. Reports of such tests shall be retained by the building official for the period required for the retention of public records.

104.11.3 Research and Investigations. The building official shall require that sufficient technical data be submitted to substantiate the proposed use of any material or assembly, and if it is determined that the evidence submitted is satisfactory proof of performance for the use intended, the building official shall approve its use subject to the requirements of this code. The costs of all tests, reports and investigations required under these provisions shall be paid by the applicant or owner.

104.12 Annual Report. The Building Commissioner shall submit to the Director of Public Safety a written annual report.

SECTION 105 PERMITS

105.1 Required. Any owner or owner's authorized agent who intends to perform site grading or excavation; to construct, enlarge, alter, make non-ordinary repairs to, move, or demolish a building or structure; to change the occupancy of a building, structure, or premises from one use group to another or to change to a prohibited use; or to cause any such work to be done; or to use explosives for blasting in connection with demolition, excavation, construction, or other building operation shall first make application to the building official and obtain the required permits.

Exception: No permit shall be issued to repair any building or structure condemned in accordance with Section 119 or 120 if such building or structure is included in an executed contract for demolition between the City of Saint Louis and a demolition contractor.

105.1.1 Preservation Board Permit Requirements. When the ordinances of the Cultural Resources Office

(CRO) of the Planning and Urban Design Agency (PUDA) require a permit for items for which this code does not require a permit, applications shall be permitted to be taken by the Division of Building and Inspection and processed solely to the Cultural Resources Office. Both the Building Commissioner and the Cultural Resources Office Director are authorized to place stop work orders. Any appeals or court actions resulting from such citations, applications, or permits shall have technical and aesthetic testimony from the Preservation Board and the staff of the Cultural Resources Office.

105.1.2 Cultural Resources Office Denial. Unless overruled by the Building Commissioner as a result of an emergency situation or the Planning and Urban Design Commission, a denial from the Preservation Board shall be the final denial; no further notice from the building official shall be required to any person.

105.1.3 Aggregation of Permits. All permits issued within any twelve-month period for work to be performed on an existing building shall be included in the calculation of a work area.

105.2 Work Exempt from Permit. Exemptions from permit requirements of this code shall not be deemed to grant authorization for any work to be done in any manner in violation of the provisions of this code or any other laws or ordinances of the City of Saint Louis. Permits shall not be required for the following:

1. Tuckpointing, ordinary or minor repair to exterior masonry, exterior painting, or similar repair or finish work;

2. Repair or replacement of existing gutters or above-grade portions of downspouts;

3. Recovering or replacing roof covering with the same type of roof covering to a maximum of two layers of roofing. Roofs having a pitch of ¼: 12 or greater but less than 4:12 (low slope roof) shall provide positive drainage. Replacement of 25% or less of roof sheathing;

4. Resealing or restriping of an existing paved parking parking lot, provided the restriping done matches the existing configuration and the number of spaces remain the same. A permit is required to restripe a parking lot for a new parking space and drive arrangement or configuration;

5. Miscellaneous site work, landscaping, gardens, shrubbery, or planting boxes; excavation or fill that does not create a permanent change in property elevation of more than six inches along property lines, block drainage, or create erosion or damage to adjacent properties;

6. Replacement of existing fencing of the same height, material, and location except when enclosing swimming pools, hot tubs, or spas;

7. Retaining walls eighteen inches or less in height above lowest adjacent grade;

8. Tents smaller than 1,000 square feet, or those used for private family events on the same lot as the owner's residence;

9. Statues on private property, erected on grade, not attached to or part of a building or structure;

10. Relining, repairing, patching or shotcreting existing swimming pool walls or floors provided required minimum water depths under diving boards, if present, are maintained;

11. Ordinary or minor repairs to exterior cantilevered balconies, decks, stairs, and fire escapes such as patching or replacing small areas of treads, risers, and platform surfaces; repairing or replacing components such as handrails, tread and riser, guardrail balusters, etc., on existing balconies, stairs and decks with like-for-like materials as long as it does not affect the structural components of the exterior cantilevered balconies, decks, stairs, or fire escapes;

12. Interior painting, floor sanding and refinishing, floor tile or carpeting, replacement of flooring with like material, application of wallpaper and other wall covering material, moveable cases, counters and partitions, and cabinet installation, counter tops, and similar finish work;

13. Plaster patching or gypsum board replacement not exceeding 25% of the total wall or ceiling area of a room or space provided the fire rating and moisture resistance is maintained and no modifications are made;

14. Wall paneling of any type when applied directly to existing room wall surfaces;

15. Installing or replacing ceiling tile of any type, other than foam plastic, when applied directly to existing ceiling surfaces, except when within assembly rooms with more than 300 occupants, institutional rooms or spaces, and corridors or exit stairways of any use. Replacing damaged lay-in ceiling panels with like materials up to 25% of a room or space and a maximum of 500 square feet;

16. Nonfixed or moveable fixtures, cases, racks, counters and partitions not over 5 feet, nine inches in height;

17. Foundation and floor slab repair such as patching/filling of cracks of up to ¼ inch in walls and ⅜ inch in slabs, waterproofing, etc., provided the building is otherwise structurally sound and plumb.

Additionally, for 1- and 2-family dwellings and multiple-family properties with no more than four units, permits shall not be required for the following:

18. Swings and other backyard playground equipment including basketball goals and standards;

19. New aluminum, steel, fiber cement, hardboard, or vinyl exterior siding with no change to existing openings. Replacement of 25% or less of the wall sheathing;

20. Application of pre-finished aluminum, steel, vinyl, or like materials on soffits, fascia boards, rake boards, or overhangs;

21. Replacement or repair of exterior or interior doors or frames, provided the fire rating, when applicable, is maintained, and no modification is made to the opening;

22. Replacement or repair of existing windows and frames, whenever no modification is made to the opening; installation of storm windows and doors, whenever no modification is made to the opening; glazing and glass replacement;

23. Awnings which do not project over property lines, and not over 40 square feet in projected area;

24. Exterior ramps, stairs, or steps which are on grade and not more than twelve inches above adjacent grade, not attached to the structure, and within property lines;

25. Sidewalks and driveways within property lines; paved areas on the same lot as the primary structure, without roofs, covers, or enclosures; concrete patio slabs or wooden patios/decks which rest directly on the ground or a rock base, provided that they are not covered by a roof or canopy, not supported by any type of permanent foundation, and a maximum of twelve inches above adjacent grade;

26. Small detached accessory buildings, such as utility/storage/tool sheds, cabanas, play houses, etc., 120 square feet in area or less and less than twelve feet in height, provided the utility shed is placed on and anchored to a minimum four-inch-thick concrete slab and maintains the setbacks required by the Zoning Ordinance. This does not include accessory buildings having unique uses such as barbeque or smoke houses, storage of fuel or other hazardous material, structures containing fuel fired equipment, and other uses that present an increased fire hazard or nuisance to adjoining property. A permit is required for all buildings housing these types of uses exceeding 50 square feet in area;

27. Residential accessory structures such as arbors, garden trellises, or other minor structures, provided such structures maintain the setbacks required by the Zoning Ordinance;

28. Non-dish radio or television antennae twelve feet or less in height, mounted on the ground, not in the front yard area, attached to, or on the roof of a building. Dish antennas two feet in diameter or less installed on grade or on the roof, provided such antennae maintain the setbacks required by the Zoning Ordinance;

29. Above-ground swimming pools, or hot tubs or spas placed on a slab. Also, in-ground swimming pools with less than 24 inches water depth with a surface area of less than 250 square feet. All pools, hot tubs, and spas shall maintain the setbacks required by the Zoning Ordinance;

30. Installation of battery-operated smoke detectors.

Exceptions:

1. Work involving repair of flood, earthquake, or other natural disaster damage.

2. A floodplain development permit is still required to be obtained if the site is located in the floodplain areas defined by FEMA.

3. Ordinary repairs or minor work to buildings and structures which fall under the purview of the Cultural Resource Office requiring "Cultural Resource Office Only" permits.

105.2.1 Emergency Repairs. Where equipment replacements and repairs must be performed in an emergency situation, the permit application shall be submitted within the next working business day to the building official.

105.2.2 Repairs. Application or notice to the building official is not required for ordinary repairs to structures, replacement of lamps, or the connection of approved portable electrical equipment to approved permanently installed receptacles. Such repairs shall not include the cutting away of any wall, partition, or portion thereof; the removal or cutting of any structural beam or load bearing support; or the removal or change of any required means of egress or rearrange-

ment of parts of a structure affecting the egress requirements. Ordinary repairs also shall not include addition to or alteration, replacement, or relocation of any water supply, sewer, drainage, drain leader, gas, soil, waste, vent, or similar piping; electric wiring; or mechanical or other work affecting public health or general safety.

105.2.3 Public Service Agencies. A permit shall not be required for the installation, alteration, or repair of generation, transmission, distribution, metering, or other related equipment that is under the ownership and control of public service agencies by established right.

105.2.4 Damaged Building Repair. Buildings that are determined by the building official to have sustained light building damage due to fire, earthquake, wind, flood, or other natural disasters shall require a building permit for repairs. The building permit application will include construction drawings showing the scope of work and a report prepared, sealed, signed, and dated by a Missouri licensed design professional stating that the building damage is light with no structural damage. Construction drawings may be prepared by a person who is not a Missouri licensed design professional.

Buildings that are determined by the building official to have sustained moderate or serious building damage or structural damage due to fire, earthquake, wind, flood, or other natural disasters shall require a building permit for repairs. The building permit application will include construction documents prepared, sealed, signed, and dated by a Missouri licensed design professional.

105.2.4.1 Condemned for occupancy or condemned for demolition building repair. Repairs to buildings that are determined by the building official to be condemned for occupancy or condemned for demolition shall require a building permit with construction documents prepared, sealed, and signed by a Missouri licensed design professional.

105.2.5 Maintenance. All buildings, structures, and premises and all parts thereof, both existing and new, shall be maintained in a safe and sanitary condition. All service equipment, means of egress, devices, and safeguards required by this code or a previous code or ordinance at the time a building or structure was erected, altered, or repaired shall be maintained in good working order.

105.2.6 Owner Responsibility. The owner(s) or the owner's agent shall be responsible for the safe and sanitary maintenance of the building, structure or premises and its means of egress facilities at all times.

105.3 By whom application is made. Application for a permit shall be made by the owner or lessee of the building or structure, or agent of either, or by the Missouri licensed design professional employed in connection with the proposed work. The full names, addresses, and telephone numbers of the owner, lessee, and applicant shall be stated in the application. Every application shall have a local contact person listed. Demolition and occupancy permit applications, when applied for by anyone other than the owner of record, shall be accompanied by a notarized letter of authorization or other documentation from the owner of record granting permission to apply.

105.3.1 Application for Permit. To obtain a permit, the applicant shall first file an application on a form furnished by the Division of Building and Inspection for that purpose. Such application shall:

1. Identify and describe the work to be covered by the permit for which application is made.

2. Describe the land on which the proposed work is to be done by legal description, street address, or similar description that will readily identify and definitely locate the proposed building or work.

3. Indicate the use and occupancy for which the proposed work is intended.

4. Be accompanied by construction documents and other information as required in Section 107.

5. State the estimated cost of construction of the proposed work.

6. Be signed by the applicant, or the applicant's authorized agent.

7. Give such other data and information as required by the building official.

105.3.2 Action on Application. The building official shall examine or cause to be examined applications for permits and amendments thereto. If the application or the construction documents do not conform to the requirements of all pertinent laws, the building official shall reject such application in writing, stating the reasons therefor. If the building official is satisfied that the proposed work conforms to the requirements of this code and laws and ordinances applicable thereto, the

building official shall issue a permit. The building official shall rely upon other City agencies to review for compliance with their ordinance requirements.

105.3.2.1 Determination of Substantially Improved or Substantially Damaged Existing Buildings in Flood Hazard Areas. For applications for reconstruction, rehabilitation, addition, alteration, repair, or other improvement of existing buildings or structures located in a flood hazard area, the building official shall examine the construction documents and shall make a determination of the value of the proposed work. For buildings that have sustained damage of any origin, the value of the proposed work shall include the cost to repair the building or structure to its pre-damaged condition. If the building official finds that the value of the proposed work is 50% or more of the market value of the building or structure before the damage has occurred or the improvement is started, the proposed work shall be considered a substantial improvement or restoration of substantial damage and the building official shall require existing portions of the entire building or structure to meet the requirements of this code.

Where the building or structure has sustained substantial damage, repairs necessary to restore the building or structure to its pre-damaged condition shall be considered substantial improvements regardless of the actual repair work performed. The term shall not include either of the following:

1. Improvements to a building or structure that are required to correct existing health, sanitary, or safety code violations identified by the building official and that are the minimum necessary to ensure safe living conditions.

2. Any alteration of an historic building or structure provided that the alteration will not preclude the continued designation as an historic building or structure.

2.1 Listed or preliminarily determined to be eligible for listing in the National Register of Historic Places; or

2.2 Determined by the Secretary of the U.S. Department of Interiors as contributing to the historical significance of a registered historic district or a district preliminarily determined to qualify as an historic district; or

2.3 Designated as historic under a state or local historic preservation program that is approved by the Department of the Interior.

105.3.3 Time Limitation of Application. An application for a permit for any proposed work shall be deemed to have been abandoned six months after the date of filing, unless such application has been pursued in good faith or a permit has been issued; except that the building official is authorized to grant one or more extensions of time for additional periods not exceeding 90 days each if the building official deems that there is reasonable cause and if a written request is received from the applicant for the extension prior to the expiration date.

105.3.4 Time Limitation on Approval. When an application for a permit has been approved by the building official and a permit has not been issued, the application shall be deemed to have been abandoned three months after the approval date. A notice of abandonment shall be sent to the applicant of record at least two weeks prior to the abandonment of the application.

Applicants who have a record of abandoned permit applications shall be required on all future permits to pay the application fee and the full permit fee upon application until such time as the abandoned permits have been reapplied for and approved and all applicable fees have been paid.

105.3.5 Action on Application for Permit to Use Explosives. When it is deemed proper, safe and advisable, the building official shall, upon receipt of application, issue permits for the use of explosives for blasting in connection with demolition, excavation, construction or other building operations. Without such permit, the use of explosives for the above-mentioned purposes is hereby prohibited. Additional permits shall be required under the Fire Code.

105.3.6 Information on the Permit. The building official shall issue all permits required by this code on an approved form furnished for that purpose. The permit shall contain a general description of the operation or occupancy and its location and any other information required by the building official. Issued permits shall bear the signature of the building official or other approved legal authorization.

105.4 Validity of Permit. The issuance or granting of a permit shall not be construed to be a permit for, or an approval of, any violation of any of the provisions of this code or of any other ordinance of the City of Saint Louis. Permits presuming to give authority to violate or cancel the provisions of this code or other ordinances shall not be valid. The issuance of a permit based on

construction documents and other data shall not prevent the building official from requiring the correction of errors in the construction documents and other data. The building official is also authorized to prevent occupancy or use of a structure where in violation of this code or any other ordinance of the City of Saint Louis.

105.5 Expiration. All permits shall be issued in the name of the property owner of record for a period of six months unless noted otherwise. Permits shall be permitted to be extended for additional six-month periods if work is progressing and a written request from the owner for the extension is received by the building official prior to the expiration of each permit. Any permit issued shall become invalid if the authorized work is not commenced within six months after issuance of the permit, or if the authorized work is suspended or abandoned for a period of six months after the time of commencing the work; except that the building official shall be permitted to grant one or more extensions of time for additional periods not exceeding six months each if the building official deems that there is reasonable cause, and if a written request is received from the owner for the extension prior to the expiration date. No permit shall be extended if, after six months from issuance of said permit, no work has begun and the Board of Aldermen has passed an ordinance that would make all or part of the work thereon illegal or unlawful.

Permits shall also be abandoned upon written request from the property owner of record, or if circumstances require, the Missouri licensed design professional.

Exception: Permits for demolition of buildings or structures or repair of buildings or structures condemned in accordance with either Section 119 or Section 120 and other work specifically identified by the building official, when in the best interests of the public, shall become invalid after 30 days unless otherwise approved. The building official shall be permitted to grant one or more extensions of time for additional periods not exceeding 30 days each after receiving a written request from the owner explaining the reasons for failing to commence or for suspending work.

105.6 Suspension or Revocation. The building official is authorized to suspend or revoke a permit issued under the provisions of this code whenever the permit is issued in error or on the basis of incorrect, inaccurate, or incomplete information, or in violation of any ordinance or regulation or any of the provisions of this code.

105.6.1 Revocation of Permits. The building official shall be permitted to revoke a permit or approval issued under the provisions of this code in case of any false statement or misrepresentation of fact in the application or construction documents on which the permit or approval was based. The building official shall be permitted to revoke or suspend a permit upon discovery of substantial noncompliance with this code or any applicable City ordinance. Permits shall be revoked for non-payment of fees.

105.6.2 Revocation of Permits for Repeat Offenders. The building official shall revoke any permit or certificate associated with a building, structure or premises when an owner(s) is convicted by a court of competent jurisdiction twice within a twelve-month period of being in violation of the same code provision on the same building, structure or premises.

105.7 Placement of Permit. A true copy of the building permit shall be kept on the site of operations, open to inspection during the entire time of prosecution of the work and until the completion of the same.

105.8 Responsibility. It shall be the duty of every person who performs work for the installation or repair of building, structure, electrical, gas, mechanical, or plumbing systems, for which this code is applicable, to comply with this code.

105.9 Notice of Start. At least 24 hours' notice of start of work under a building permit shall be given to the building official.

105.10 Compliance with Permit. All work shall conform to the approved application and the approved construction documents for which the permit has been issued and any approved amendments to the approved application or the approved construction documents. Any addition to or alteration of approved construction documents shall be approved in advance by the building official, as evidenced by the issuance of a new or amended permit.

SECTION 106 FLOOR AND ROOF DESIGN LOADS

106.1 Live Loads Posted. Where the live loads for which each floor or portion thereof of a commercial or industrial building is or has been designed to exceed 50 pounds per square foot, such design live loads shall be

conspicuously posted by the owner in that part of each story in which they apply, using durable signs. It shall be unlawful to remove or deface such notices.

106.2 Issuance of Certificate of Occupancy. A certificate of occupancy required by Section 111 shall not be issued until the floor load signs required by Section 106.1 have been installed.

106.3 Restrictions on Loading. It shall be unlawful to place or cause or permit to be placed on any floor or roof of a building, structure, or portion thereof a load greater than is permitted by this code.

SECTION 107 CONSTRUCTION DOCUMENTS

107.1 Submittal Documents. The application for the permit shall be accompanied by at least five complete sets of construction drawings, one set of project specifications, one set of structural calculations, one set of the geotechnical (soils) report, and one set of site or building photographs with sufficient clarity and detailed dimensions to show the nature and character of the work to be performed. The minimum size of any sheet shall be 8½" x 11" and the maximum size of any sheet shall be 3 6" x 48". When quality of materials is essential for conformity to this code, specific information shall be given to establish such quality. This code shall not be cited nor the term "legal" or its equivalent be used as a substitute for specific information. Construction documents containing the words "not for construction," "preliminary," "review set," or their equivalent shall not be accepted for application. Construction documents marked with contractors' "take-off" notations shall not be accepted for application.

If the construction documents for single-family or multiple-family dwelling units are prepared by a Missouri licensed architect, that architect must seal, sign and date the construction documents as required by RSMo Ch. 327.

Exception: The building official is authorized to waive the submission of construction documents and other data not required to be prepared by a licensed design professional if it is found that the nature of the work applied for is such that review of construction documents is not necessary to obtain compliance with this code.

107.1.1 Seals. All construction documents submitted with an application for a building permit shall be prepared by a Missouri licensed design professional as required by RSMo Ch. 327. All construction documents shall bear an original embossed or wet ink seal, original ink signature, and the date the documents were sealed by the Missouri licensed design professional for each discipline on the cover sheet of each set of construction documents or on the first sheet of each discipline's drawings within each set of construction documents.

In addition, all other sheets of the construction documents other than project specifications or calculations shall bear the original embossed, wet ink, electronic, or mechanically reproduced seal, signature, and date of the Missouri licensed design professional. Any addenda or modifications submitted for changes to the construction documents shall also bear the original embossed or wet ink seal, original ink signature, and date the documents were sealed.

All project specifications, calculations, reports, or other documents not considered to be construction drawings shall bear an original wet ink or embossed seal, original ink signature, and the date the documents were signed by the Missouri licensed design professional for each discipline on the title or index sheet.

A Missouri licensed professional engineer cannot render architectural services or seal, sign and date construction documents for any residential project. This could be interpreted as the unlawful practice of architecture by a Missouri licensed professional engineer. A Missouri licensed professional engineer may prepare seal, sign and date architectural work which is incidental (insignificant, minor, etc.) to the engineering work (and vice versa). This determination shall be made on a case by case basis depending upon the full scope of the project.

Exceptions:

1. Construction documents for one- or two-family dwellings not prepared by a Missouri licensed design professional, including name, address, and telephone number of the author, and indicating that they were not prepared by a licensed architect.

2. Construction documents for non-structural alterations to multiple-family dwellings with not more than four dwelling units not prepared by a Missouri licensed design professional, including name, address, and telephone number of the author, and indicating that they were not prepared by a licensed architect.

3. Construction documents for owner-occupied one- or two-family dwellings prepared by the owner.

107.2 Construction Documents. Construction documents shall be in accordance with Sections 107.2.1 through 107.2.10.

107.2.1 Information on Construction Documents. Construction documents shall be drawn and dimensioned upon suitable material. Construction documents shall be of sufficient clarity to indicate the location, nature, and extent of the work proposed and show in detail that it will conform to the provisions of this code and relevant laws, ordinances, rules, and regulations as determined by the building official.

107.2.2 Fire protection Construction Drawings. Construction drawings for the fire protection system(s) shall be submitted to show conformance with this code and the construction documents and shall be approved prior to the start of system installation. Shop drawings shall contain all information as required by the referenced installation standards in Chapter 9 of the Building Code.

107.2.3 Means of Egress. The construction documents shall show in sufficient detail the location, construction, size, and character of all portions of the means of egress in compliance with the provisions of this code.

107.2.4 Exterior Wall Envelope. Construction documents for all buildings shall describe the exterior wall envelope in sufficient detail to determine compliance with this code. The construction documents shall provide details of the exterior wall envelope as required, including flashing, intersections with dissimilar materials, corners, end details, control joints, intersections at roof, eaves, or parapets, means of drainage, water-resistive membrane, and details around openings.

The construction drawings shall include manufacturing installation instructions that provide supporting documentation that the proposed penetration and opening details described in the construction documents maintain the weather resistance of the exterior wall envelope. The supporting documentation shall fully describe the exterior wall system which was tested, where applicable, as well as the test procedure used.

107.2.5 Site Plan. The construction documents submitted with the application for permit shall be accompanied by a site plan showing to scale the size and location of new construction and existing structures on the site, distances from lot lines, the established street grades and the proposed finished grades, and, as applicable, flood hazard areas, floodways, and design flood elevations; and it shall be drawn in accordance with an accurate boundary line survey. In the case of demolition, the site plan shall show construction to be demolished and the location and size of existing structures and construction that are to remain on the site or plot. The building official is authorized to waive or modify the requirements for a site plan when the application for permit is for alteration or repair or when otherwise warranted.

107.2.5.1 Change in Site Plan. A lot shall not be changed, increased, or diminished in area from that shown on the official site plan until a revised site plan is resubmitted showing such changes accompanied by proof that the documents have been filed in the Recorder of Deeds Office and approved under the Zoning Ordinance; except that such revised site plan will not be required if the change is caused by reason of an official street or alley opening, street widening, or other public improvement.

107.2.6 Structural Information. For other than one- and two-family dwellings or existing multiple-family dwellings with no more than four units, the construction documents shall provide the information specified in Section 1603 of the Building Code.

107.2.7 Manufacturer's Installation Instructions. Manufacturer's installation instructions, as required by this code, shall be available on the job site at the time of inspection.

107.2.8 Information of Braced Wall Design. For buildings and structures utilizing braced wall design, and where required by the building official, braced wall lines shall be identified on the construction documents. Pertinent information, including, but not limited to, bracing methods, location and length of braced wall panels, and foundation requirements of braced wall panels at top and bottom shall be provided.

107.2.9 Information for Construction in Flood Hazard Areas. For buildings and structures located in whole or in part in flood hazard areas, construction documents shall include:

1. Delineation of flood hazard areas, floodway boundaries, and flood zones, and the design flood elevation, as appropriate;

2. The elevation of the proposed lowest floor, including basement; in areas of shallow flooding (AO zones), the height of the proposed lowest floor, including basement, above the highest adjacent grade;

3. The elevation of the bottom of the lowest horizontal structural member in coastal high hazard areas (V zone); and

4. If design flood elevations are not included on the community's Flood Insurance Rate Map (FIRM), the building official and the applicant shall obtain and reasonably utilize any design flood elevation and floodway data available from other sources.

107.2.10 Information for electric vehicle charging stations. Construction documents shall include electric vehicle charging stations with system installation requirements set forth in Section 908.1 and the Electrical Code.

107.3 Examination of Documents. The building official shall examine or cause to be examined the construction documents for code compliance.

107.3.1 Approval of Construction Documents. The building official shall stamp three sets of construction documents "APPROVED," and at least one set of such approved construction documents shall be retained by the building official and one set shall be kept at the building site, open to the inspection of the building official or an authorized representative at all reasonable times. If additional "APPROVED" sets are required by the applicant, a charge shall be made as listed in Table 109.3.1.

107.3.2 Previous Approvals. This code shall not require changes in the construction documents, construction or designated occupancy of a building or structure for which a lawful permit has been heretofore issued or otherwise lawfully authorized, and the construction of which has been actively prosecuted in good faith within 180 days after the effective date of this chapter and has not been abandoned. When the codes adopted by the City of Saint Louis change from one edition to another, the work shall be permitted to be completed under the codes in effect when the permit for said work was originally issued.

107.3.2.1 Code Transition. Unless requirements imposed by federal law or state statute have changed, permits applied for within six months of the effective date of this chapter shall be permitted to be reviewed and approved under the former code if there is written evidence of a preliminary plan exam review of the project under the former code. The cover sheet of the construction documents shall show under which code the project was designed.

107.3.3 Phased Approval. The building official is authorized to issue a permit for the construction of foundations or any other part of a building or structure before the construction documents for the whole building or structure have been submitted, provided that adequate information and detailed statements have been filed complying with pertinent requirements of this code. The holder of such permit for the foundation or other parts of a building or structure shall proceed at the holder's own risk with the building operation and without assurance that a permit for the entire structure will be granted.

107.3.4 Design Professional in Responsible Charge. When it is determined that documents be prepared by a Missouri licensed design professional, the building official shall be authorized to require the owner or the owner's authorized agent to engage and designate on the building permit application a Missouri licensed design professional who shall act as the Missouri licensed design professional in responsible charge. If the circumstances require, the owner or the owner's authorized agent shall designate a substitute Missouri licensed design professional in responsible charge who shall perform the duties required of the original Missouri licensed design professional in responsible charge. The building official shall be notified in writing by the owner or the owner's authorized agent if the Missouri licensed design professional in responsible charge is changed or is unable to continue to perform the duties.

The Missouri licensed design professional in responsible charge shall be responsible for reviewing and coordinating submittal documents prepared by others, including phased and deferred submittal items, for compatibility with the design of the building.

Where structural observation is required by Section 1710 of the Building Code, the inspection program shall name the individual or firms who are to perform structural observation and describe the stages of construction at which structural observation is to occur. See also duties specified in Section 1704 of the Building Code.

107.3.4.1 Deferred Submittals. For the purposes of this section, deferred submittals are defined as those portions of the design that are not submitted at the time of the application and that are to be submitted to the building official within a specified period.

Deferral of any submittal items shall have the prior approval of the building official. The Missouri licensed design professional in responsible charge shall list the deferred submittals on the construction documents for review by the building official.

The Missouri licensed design professional in responsible charge shall review the deferred submittal items and forward them to the building official with a

notation indicating that they have been reviewed and found to be in general conformance with the design of the building. The deferred submittal items shall not be installed until their design and submittal documents have been approved by the building official.

107.3.4.2 Engineering Details. The building official shall require to be filed adequate details of structural, plumbing, mechanical, and electrical work including computations, loadings, and structural analysis and other essential technical data. All construction documents shall bear an original embossed or wet ink seal, original ink signature and the date the documents were sealed by the Missouri licensed design professional responsible for the design as required by state statute. Such calculations shall be permitted to be accepted by the building official as complying with the conditions of this code without the need to verify the calculations or their engineering analysis.

107.4 Amended Construction Documents. Work shall be installed in accordance with the approved construction documents. Any changes to the approved scope of work shall be submitted for approval as an addendum to the approved construction documents.

SECTION 108 TEMPORARY STRUCTURES AND USES

108.1 General. The building official is authorized to issue a permit for temporary structures and temporary uses. Such permits shall be limited as to time of service, but shall not be permitted for more than 180 days. The building official is authorized to grant extensions for demonstrated cause.

108.2 Conformance. Temporary construction and uses shall conform to the structural strength, fire safety, means of egress, light, ventilation, and sanitary requirements of this code as necessary to ensure the public health, safety, and general welfare.

108.3 Temporary Power. The building official is authorized to give permission to temporarily supply and use power in part of an electric installation before such installation has been fully completed and the final certificate of completion has been issued. The part covered by the temporary certificate shall comply with the requirements specified for temporary lighting, heat or power in the Electrical Code.

108.4 Termination of Approval. The building official is hereby authorized to terminate such permit for a temporary structure or use and to order the temporary structure or use to be discontinued.

SECTION 109 FEES

109.1 General. No permit, certificate, or inspection report required by the provisions of this code shall be released or issued until the fees listed in this section have been paid to the City of Saint Louis; nor shall an amendment to a permit be released until the additional fees have been paid. In collecting said fees, the building official is authorized to accept personal checks as payment; however, non-payment by said checking account shall be considered as a violation of this code and is cause for suspension or revocation of permits, certificates, or reports issued or released for such personal check payment. If a permit is suspended or revoked for non-payment of a fee or for insufficient funds, an additional $25.00 shall be collected to cover administrative costs.

109.1.1 Fees Other Than Herein Prescribed. The payment of fees listed in this section shall not relieve the applicant or holder of any permit or any certificate of occupancy from the payment of other fees which shall be prescribed by law or ordinance for water taps, sewer connections, plumbing permits, mechanical permits, electrical permits, sprinkler permits, fire alarm permits, or fees for inspections or other privileges or requirements, both within and without the jurisdiction of the Division of Building and Inspection.

109.2 Schedule of Permit Fees. Fees for permits for construction shall be as established as follows:

109.2.1 Application Fee. An application fee is an administrative charge made for processing permit applications, preparing a Certificate of Floodplain Status, or conducting a Building Line Survey and shall be as listed in Table 109.3.1.

109.2.2 New Construction and Additions. The building permit fee for new construction and additions will be based on the total estimated cost of construction, and shall be charged at the rate listed in Table 109.3.1 for new construction and additions. For the purpose of determining a fee, total construction costs shall include all costs for normal site preparation including grading, excavation, and backfill; structural work; interior and exterior finishes; and plumbing, mechanical, and electrical work. The following shall be permitted to be excluded from total construction costs: the cost to install sprinkler, standpipe, and fire alarm systems; and signs.

109.2.3 Miscellaneous Structures and Site Work. The fee for a permit for, including, but not limited to,

retaining walls, fences and site-work (including parking lots) shall be based on the estimated total cost of the construction at the rate listed in Table 109.3.1.

109.2.4 Alterations and Repairs. The fee for a permit for alterations or repairs to a building or structure shall be based on the estimated total cost of said alterations or repairs and shall be charged at the rate listed in Table 109.3.1.

109.2.5 Tanks, Devices, Etc. The fee for a permit for the installation of a tank, device, equipment, or other structure or facility shall be as listed in Table 109.3.1.

109.2.6 Tents, Amusement Booths. The fee for a permit for the construction, installation, or erection of a tent or amusement booth shall be as listed in Table 109.3.1. This shall include all those for private parties, picnics, carnivals, circuses, or traveling exhibitions.

109.2.7 Moving of Buildings. The fee for a permit to move abuilding or structure from one lot to another, or to a new location on the same lot, shall be as listed in Table 109.3.1. In the event that a building or structure is to be moved from a point within the City of Saint Louis to a point outside the City, the fee for the moving permit shall be based on the estimated total cost of restoration of the original site to a safe and satisfactory condition plus that portion of the moving cost which covers the journey to the City limits. In the event that a building or structure is to be moved from the outside of the City of Saint Louis to a point inside the City limits, the fee for the moving permit shall be based on the estimated total cost of the portion of the journey from the City limits to the site of re-erection.

109.2.7.1 New Foundations. Before any building or structure is moved to a new foundation, a separate building permit shall be obtained for the construction of said new foundation; the fee for the permit for said foundation shall be as listed in Table 109.3.1. In addition, all additional electrical, mechanical, and plumbing permits shall be obtained.

109.2.8 Explosives. The fee for a permit for the use of explosives for blasting in connection with demolition, excavation, construction, or other building operations shall be as listed in Table 109.3.1. When a blasting operation consists of a series of blasts at intervals of distance, such as blasting a trench for the installation of utilities, and the extent of the blasting operations exceeds 250 feet in length, the fee for a permit shall be charged for the first 250 feet of the operation with an additional fee for each additional 250 feet or any portion thereof. The fee for a permit for the use of explosives shall cover the issuance of the permit and shall also cover pre-blasting survey inspection and post-blasting survey inspection of all property within 250 feet of the blasting operation. In addition, a separate permit shall be required under the Fire Code for the transportation, storage, or use of explosives.

109.2.9 Addendum to Permit. Fees for addendums to issued permits shall be as follows:

1. Where an addendum includes work that will increase the construction cost of the complete project, the fee listed in Table 109.3.1 shall be calculated on the additional cost incurred by the change in scope, and shall include application, special demolition fund, and lead remediation fees.

2. Where an addendum does not include work that will increase the construction cost of the complete project, or includes work or removal of work that decreases the cost of the complete project, a minimum fee as listed in Table 109.3.1 and an application fee shall apply.

109.2.10 Special Demolition Fund. There shall be an additional fee charged on all building permits based on the total estimated cost of construction, and shall be charged at the rate listed in Table 109.3.1 for the special demolition fund.

109.2.11 Lead Remediation Fund. There shall be an additional fee charged on all building permits based on the total estimated cost of construction, and shall be charged at the rate listed in Table 109.3.1 for the special lead remediation fund.

109.2.12 Vacant Building Registration Fee. A semi-annual registration fee of $200.00 shall be charged to the owner of any parcel of residential property improved by a residential structure, or commercial property improved by a structure containing multiple dwelling units, which is vacant and has been vacant for at least six months, and which is violation of this code.

109.2.13 Fee for Duplicate Copy. Any person requesting a copy of a building permit, occupancy permit, or certificate of inspection issued under this code, or the holder of any permit for similar purpose issued by the building official under any previous code or ordinance, can obtain a duplicate or re-issued copy of said permit for a fee of one dollar per copy. This fee is listed in Table 109.3.1.

109.2.14 Fee for Occupancy Permit. Fees for the issuance of an occupancy permit shall be as listed in Table 109.3.1. There shall be no charge for the issuance

of the original occupancy permit upon completion of construction in accordance with the building permit for new buildings or buildings hereafter altered with construction costs exceeding $30,000.00.

109.2.14.1 Fee for temporary or partial occupancy permit. The fee for a partial occupancy permit shall be as listed in Table 109.3.1.

109.2.14.2 Fee for changing the name on an occupancy permit. Any person requesting a re-issuance of an occupancy permit issued under this code or under any previous code or ordinance due to a change of name can obtain a re-issued copy of said permit for a fee of five dollars per copy. This fee is listed in Table 109.3.1.

109.2.15 Fee for Approving Additional Sets of Construction Documents. Any person requesting additional sets of approved construction documents issued under this code or under any previous code or ordinance shall be charged a fee of one dollar per page. This fee is listed in Table 109.3.1.

109.3 Fee Tables. The building official shall cause to be collected all fees as listed in Table 109.3.1 and elsewhere in this code.

Table 109.3.1

BUILDING PERMIT FEES FOR STRUCTURES; BLASTING AND INSPECTIONS FEES

Item	Fee	Minimum Fee	Section	Remarks and Requirements
APPLICATION FEE; or Building Line Survey	$25.00		109.2.1	An administrative charge made for processing applications.
Certificate of Floodplain Status	$10.00		109.2.1	
PERMIT FOR NEW CONSTRUCTION AND ADDITIONS	$6.00/$1000 of estimated cost or fraction thereof	$15.00	109.2.2	
MISCELLANEOUS STRUCTURES PERMIT - Structures such as towers, retaining walls, floating structures, parking lots, fences, awnings, signs, etc.	$6.00/$1000 of estimated cost or fraction thereof	$15.00	109.2.3	For all structures, devices, appurtenances, and equipment requiring permits & not otherwise provided for by this code.
PERMIT FOR ALTERATIONS & REPAIRS TO AN EXISTING BUILDING	$6.00/$1000 of estimated cost or fraction thereof	$15.00	109.2.4	Permits for flammable and combustible liquids are required under the Fire Code.
TANK PERMIT For any purpose except flammable and combustible liquids	$6.00/$1000 of estimated cost or fraction thereof	$15.00	109.2.5	
TENT PERMIT	$35.00		109.2.6	Section 3103 of the Fire Code.
MOVING OF BUILDING PERMIT Within City Limits	$1.00/$100 of estimated cost or fraction thereof	$15.00	109.2.7	Estimated cost of moving building to new location plus cost of restoring previous site to a safe condition.
To outside City Limits	$1.00/$100 of estimated cost or fraction thereof	$15.00		Estimated cost of moving building to City limits plus cost of restoring previous site to a safe condition.
From outside City Limits to within City Limits	$1.00/$100 of estimated cost or fraction thereof	$15.00		Estimated cost of moving building from City Limits to a new site.
Foundation for building	$6.00/$1000 of estimated cost or fraction thereof	$15.00	109.2.7.1	
EXPLOSIVES PERMIT Blasting permit for trenching	$6.00/250 lineal feet or fraction thereof	$100.00	109.2.8	For construction, excavation, or other building operation.
Blasting for demolition	$100.00	$100.00	109.2.8	Includes pre- and post-blast survey per building/per blast.
ADDENDUM PERMIT Amendment which involves additional dollars in project cost.	$6.00/$1000 of estimated increased cost or fraction thereof	$25.00	109.2.9	
Amendment which involves decrease or no increase in project cost.	$25.00	$25.00		

Item	Fee	Minimum Fee	Section	Remarks and Requirements
SPECIAL DEMOLITION FUND	$2.00/$1,000 of estimated cost or fraction thereof		109.2.10	Special fund approved by the voters.
LEAD REMEDIATION FUND	$2.00/$1,000 of estimated cost or fraction thereof		109.2.11	Special fund approved by Ordinance 64699.
VACANT BUILDING REGISTRATION FEE	$200.00 Semi-annually		121.1	
DUPLICATE COPY OF BUILDING PERMIT, OCCUPANCY PERMIT OR CERTIFICATE OF INSPECTION	$1.00 per copy		109.2.13	
APPLICANT REQUEST FOR OCCUPANCY PERMIT Residential	$80.00		109.2.14 109.2.14.1	Special inspection fees for occupancy permits. This fee is also applicable to partial occupancy permits.
	$20.00/each additional unit in same structure			When units are inspected on the same site inspection.
Commercial 3,500 sq. ft. or less	$80.00			
Commercial over 3,500 sq. ft.	$160.00			
RE-ISSUANCE OF OCCUPANCY PERMIT DUE TO NAME CHANGE	$25.00 per copy		109.2.14.2	
APPROVAL OF ADDITIONAL SETS OF CONSTRUCTION DOCUMENTS	$1.00 per page		109.2.15	
DEMOLITION PERMITS - Structure volume less than 10,000 cu. ft.	$10.00	$10.00	123.1.5	Based on volume of structure exclusive of basement or cellars.
10,000 cu. ft. and over	$15.00/10,00 0 cu. ft. or fraction thereof	$25.00		Demolition permits shall be issued for a period not to exceed thirty days.
DEMOLITION INSPECTION FEE				
Less than 10,000 cu. ft.	$15.00	$15.00	123.1.5	Per site
10,000 cu. ft. or over	$25.00	$25.00		Per site
Blasting for demolition	$50.00	$50.00	109.2.8	Per site
Applicant request	$25.00			Related to other occupancy and use permits requested by the applicant.
Emergency and specialty inspection	$25.00			Charge for inspection requested to be made beyond normal working hours - not to exceed $25.00 per requested inspection.

109.3.1 Fee schedule. Table 109.3.1 contains fees for permits for new construction and additions; miscellaneous structures; alterations and repairs to existing buildings; tanks; moving of buildings; demolition of structures; blasting for demolition or construction purposes; picnics, carnivals, and circuses or traveling exhibitions; tents; amusement park devices; addendums to permit; the special demolition and lead remediation funds; special inspections; and occupancy.

109.3.2 Building permit valuations. The applicant for a building permit shall provide a total estimated cost of construction for the project at the time of application. For the purpose of determining fees, total construction costs shall include all costs for normal site preparation including grading, excavation, and backfill; structural work; interior and exterior finishes; and plumbing, mechanical, and electrical work. The following shall be permitted to be excluded from total construction costs: the cost to install sprinkler, standpipe and fire alarm systems; and signs.

If, in the opinion of the building official, the valuation is underestimated on the application, the permit shall be denied, unless the applicant can show detailed construction estimates for the project to meet the approval of the building official. The building official shall be permitted to require the submittal of signed and notarized construction contracts when the total

estimated cost of construction is questioned. Final building permit valuation shall be set by the building official.

Final costs shall be determined by the building official, if necessary, by multiplying the total floor area of the project in square feet by an appropriate square foot cost rate, or by using the current ICC Building Valuation Data Report for New Construction, Additions, Alterations, Repairs, or Rehabilitation.

109.3.3 Sign Fee Schedule. Table 109.3.3 contains the basic building fees for signs governed by this code.

Table 109.3.3(a)

SIGN PERMIT FEES

Item	Fee	Minimum Fee	Section
GROUND SIGNS			
Up to 100 square feet	$100.00	$100.00	IBC H101.3.1
Over 100 square feet	$160.00		
ROOF SIGNS			
Up to 100 square feet	$100.00	$100.00	IBC H101.3.1
Over 100 square feet	$160.00		
WALL SIGNS			
Up to 100 square feet	$100.00	$100.00	IBC H101.3.1
Over 100 square feet	$160.00		
PROJECTING SIGNS			
Up to 100 square feet	$100.00	$100.00	IBC H101.3.1
Over 100 square feet	$160.00		
SPECIAL OR TEMPORARY DISPLAY SIGNS REQUIRING PERMITS Fees for a special sign shall be the same as the one above which it most closely resembles.		$100.00	IBC H101.3.1
LETTERING OR GRAPHICS ON AWNINGS AND CANOPIES	$50.00	$50.00	
Note a. When a question arises as to what type of sign is being constructed or placed, it shall be designated as that type of sign it most closely resembles as determined by the building official. (See also Chapter 29 of the Building Code and the Zoning Ordinance.)			

109.4 Work Started Surcharge Fees Schedule. In case any work for which a permit is required by this code is substantially started or proceeded with prior to obtaining said permit, the total normal fees applicable shall be increased by the amount as listed in Table 109.4. The payment of said surcharge fee shall not relieve any persons from fully complying with the requirements of this code for performance or execution of the work, nor from other penalties prescribed by law.

Table 109.4

SCHEDULE FOR SURCHARGE BUILDING PERMIT FEES

Permit fee	Surcharge fee
$0.00 TO $50.00	$30.00
$51.00 TO $200.00	$90.00
$201.00 TO $500.00	$240.00
$501.00 TO $2,000.00	$360.00
$2,001.00 TO $10,000.00	$480.00
OVER $10,000.00	$600.00

109.5 Demolition Work Started Surcharge Fees Schedule. In case any work for which a demolition permit is required by the code is substantially started or proceeded with prior to obtaining said permit, the total normal fees applicable shall be increased by the amount as listed in Table 109.5. The payment of said surcharge fee shall not relieve any persons from fully complying with the requirements of this code for performance or execution of the work, nor from other penalties prescribed by law.

Table 109.5

SCHEDULE FOR SURCHARGE DEMOLITION PERMIT FEES

Permit fee	Surcharge fee
$0.00 TO $50.00	$30.00
$51.00 TO $200.00	$90.00
$201.00 TO $500.00	$240.00
$501.00 TO $2,000.00	$360.00
$2,001.00 TO $10,000.00	$480.00
OVER $10,000.00	$600.00

109.6 Related Fees. The payment of fees for the construction, alteration, removal or demolition for work done in connection with or concurrently with the work authorized by a building permit shall not relieve the applicant or holder of the permit from the payment of other fees that are prescribed by law.

109.7 Fees Non-Refundable. The fee for a permit based upon an estimated cost that is higher than later claimed by the applicant shall not be a basis for refund. When construction does not occur, or only partially occurs, fees collected are not refundable.

109.8 Fees Waived for Disaster Related Permits. In the event of a tornado, earthquake, flood, or any other disaster of such magnitude to activate the City Emergency Management Agency, the Building Commissioner is authorized to waive all permit fees normally collected by the Division of Building and Inspection for repairs, reconstruction, demolition, plumbing, mechanical, or electrical work or any other similar permits required by this Division to correct the damage caused by such disaster. These permit fees shall be permitted to be waived for a period not to exceed six months or as otherwise determined by the Building Commissioner.

SECTION 110 INSPECTIONS

110.1 General. Construction or work for which a permit is required shall be subject to inspection by the building official and such construction or work shall remain accessible and exposed for inspection purposes until approved. Approval as a result of an inspection shall not be construed to be an approval of a violation of the provisions of this code or of other ordinances of the City of Saint Louis. Inspections presuming to give authority to violate or cancel the provisions of this code or of other ordinances shall not be valid. It shall be the duty of the permit applicant to cause the work to remain accessible and exposed for inspection purposes. Neither the building official nor the City of Saint Louis shall be liable for expenses entailed in the removal or replacement of any material required to allow inspection.

110.2 Preliminary Inspection. Before issuing a permit, the building official is authorized to examine or cause to be examined buildings, structures and sites for which an application has been filed.

110.2.1 Notice to Begin Work. It shall be the responsibility of the holder of a permit to notify the building official when work is ready for the various inspections required by the terms of the permit or the approved rules. Such notice shall be given within a reasonable time before the inspection is desired, but in no event shall the notice be less than the working day before. Notice given on a Friday or on a day prior to a legal holiday shall not constitute notice for inspection on a Saturday, Sunday, or holiday unless arrangements have been made under approved rules for overtime inspection on such days. Before giving such notice the holder of the permit shall first test the work and satisfy themselves that it conforms to the approved construction documents and the requirements of this code.

110.3 Required Inspections. The building official, upon notification, shall make the inspections set forth in Sections 110.3.1 through 110.3.10. No work shall be done on any part of the building or structure beyond the point indicated in each successive inspection without first obtaining the approval of the building official or authorized representative. Approval shall be given only after an inspection has been requested and made of each successive step in the construction phase and all code requirements or corrections are completed as indicated by each of the inspections required. A final inspection and approval of all buildings shall be completed before occupancy as described in Section 111. Failure to obtain a final inspection before occupancy will constitute a violation of the Building Code subject to the penalties as set forth in Section 25.20.030. Reinforcing steel or structural framework of any part of a building or structure shall not be covered or concealed in any manner without first obtaining the approval of the building official. The building official, upon notification from a permit holder or agent, in accordance with the rules of procedure listed on the permit and posted in the office of the building official, shall make the following inspections and shall either approve that section or portion of the construction as completed or shall notify the permit holder or agent that they have failed to comply with the law.

110.3.1 Footing or Foundation Inspection. Footing and foundation inspections shall be made after excavation for footings are complete and any required reinforcing steel is in place. For concrete foundations, any required forms shall be in place prior to inspection. Materials for the foundation shall be on the job, except where concrete is ready mixed in accordance with ASTM C 94, the concrete need not be on the job. The owner is solely responsible for the correct location of the foundation on the site.

110.3.1.1 Soil Inspection. A soil inspection shall be made after excavation for the building or structure is complete and trenches for footings, column pads, spread footings, or other types of footings are ready for concrete. No concrete shall be poured prior to this inspection.

110.3.1.2 Pier Inspection. Where special foundations such as drilled and poured-in-place concrete piers, driven piles of all types, caissons, and other extraordinary types are required, the building official shall make at least one inspection or more if the size of the job warrants it.

110.3.2 Concrete Slab or Under-Floor Inspection. Concrete slab and under-floor inspections shall be made after in-slab or under-floor reinforcing steel and building service equipment, conduit, piping accessories, and other ancillary equipment items are in place, but before any concrete is placed or floor sheathing installed, including the subfloor.

110.3.3 Lowest Floor Elevation. In flood hazard areas, upon placement of the lowest floor, including basement, and prior to further vertical construction, the elevation certificate required in Section 1612.5 of the Building Code shall be submitted to the building official.

110.3.4 Frame Inspection. Framing inspections shall be made after the roof deck or sheathing, all framing, fire blocking, and bracing are in place and pipes, chimneys, and vents to be concealed are complete and the rough electrical, plumbing, heating wires, pipes, and ducts are approved.

110.3.5 Lath, Gypsum Board, and Gypsum Panel Product Inspection. Lath, gypsum board, and gypsum panel product inspections shall be made after lathing, gypsum board, and gypsum panel products, interior and exterior, are in place, but before any plastering is applied or gypsum board or gypsum panel product joints and fasteners are taped and finished.

Exception: Gypsum board and gypsum panel products that are not part of a fire-resistance-rated assembly or a shear assembly.

110.3.5.1 Covering Work. It shall be a violation of this code to cover prior to inspection any work required to be inspected under the provisions of a permit, the approved rules, or this code, regardless of any penalties for such violation. The building official shall be permitted to require the holder of the permit to uncover any such work for inspection, and the cost of uncovering such work and of replacing the cover after the work has been satisfactorily inspected, shall be borne by the holder of the permit.

110.3.6 Fire- and Smoke-Resistant Penetrations. Protection of joints and penetrations in fire-resistance-rated assemblies, smoke barriers, and smoke partitions shall not be concealed from view until inspected and approved.

110.3.7 Energy Efficiency Inspections. Inspections shall be made to determine compliance with Chapter 13 of the Building Code or Chapter 11 of the Residential Code for One- and Two-family Dwellings, as applicable, and shall include, but not be limited to, inspections for: envelope insulation R and U value, fenestration U value, duct system R value, and HVAC and water heating equipment efficiency.

110.3.8 Other inspections. In addition to the inspections specified above, the building official is authorized to make or require other inspections of any construction work to ascertain compliance with the provisions of this code and other laws that are enforced by the Division of Building and Inspection.

110.3.8.1 Plant Inspection. Where required by the provisions of this code or by the approved rules, materials or assemblies shall be inspected at the point of manufacture or fabrication.

110.3.8.2 Evaluation and Follow-Up Services. Prior to the approval of a closed prefabricated assembly and issuance of a building permit, the building official shall require the submittal of an evaluation report of each prefabricated assembly indicating the complete details of the assembly including a description of the assembly and its components, the basis upon which the assembly is being evaluated, test results and similar information, and other data as necessary for the building official to determine conformance with this code. Acceptable reports shall be permitted to come from the State of Missouri Public Service Commission or ICC Evaluation Services.

110.3.8.2.1 Evaluation Service. The building official shall designate the evaluation service of an approved agency as the evaluation agency, and review such agency's evaluation report for adequacy and conformance to this code.

110.3.8.2.2 Follow-Up Inspection. Except where all assemblies and subassemblies, service equipment, and accessories are readily accessible for complete inspection at the site without disassembly or dismantling, the building official shall conduct the frequency of in-plant inspections as necessary to reasonably ensure conformance to the approved evaluation report or shall designate an approved independent inspection agency to conduct such inspections. The inspection agency shall furnish the building official with the follow-up inspection manual and a written report of inspections upon request, and the product shall have an identifying label permanently affixed to the product indicating that factory inspections have been performed.

110.3.8.2.3 Test and Inspection Records. All required tests and inspection records shall be accessible to the building official or quality assurance agency at all times during the fabrication of the unit or subassem-

bly and the erection of the building; or such records as the building official designates shall be filed with the building official.

110.3.8.2.4 Inspection Reports. All inspection reports shall be in writing and shall be certified by the licensed authority or responsible officer of the service, or by the individual when expert inspection services are accepted. An identifying label or stamp permanently fixed to the product indicating that factory inspection has been made shall be accepted in lieu of the aforesaid inspection report in writing if the intent or meaning of such identifying label or stamp is properly substantiated.

110.3.9 Special Inspections. For special inspections, see Section 1704 of the Building Code.

110.3.10 Final Inspection. The final inspection shall be made after all work required by the building permit is completed.

Upon completion of the building or structure, and before issuance of the occupancy permit as required in Section 111, a final inspection shall be made. All violations of the approved construction documents and permit shall be noted and the holder of the permit shall be notified of the discrepancies. The building official shall be permitted to issue a partial occupancy permit for a specific period of time. Failure to comply with the conditions shall cause revocation of the permit.

110.3.11 Blast Survey Inspections. When a permit is issued for the use of explosives, the building official shall cause to be conducted two survey inspections of all buildings within 250 feet of the blasting, and a third inspection to be made after the blasting. These inspections shall indicate any settlement, cracks or other deterioration; additional or supplemental detailed survey work shall be permitted to be required by the building official. Such inspections or survey work, as required by the building official, must be conducted by a private individual or individuals technically competent to do such work and acceptable to the building official. Such private surveys shall be conducted at the expense of the permit applicant. The additional or supplemental survey work shall be permitted to be accepted by the building official in lieu of the pre-blast or post-blast survey if the survey(s) has included all areas within 250 feet of the blasting site and contains the details required herein.

110.4 Approved Inspection Agencies. The building official is authorized to accept reports of approved inspection agencies, provided such agencies satisfy the requirements as to qualifications and reliability.

110.5 Inspection Requests. It shall be the duty of the holder of the building permit or their duly authorized agent to notify the building official when work is ready for inspection. It shall be the duty of the permit holder to provide access to and means for inspection of such work for any inspections that are required by this code.

110.5.1 Action on Notice. Upon receipt of notice that work is ready for inspection, the building official shall inspect, or cause to be inspected, the work as soon as reasonably practicable. However, failure of the building official to make a prompt inspection shall not be deemed justification for covering work without inspection when such work is required under the terms of the permit to be inspected before being covered.

110.6 Approval Required. Work shall not be done beyond the point indicated in each successive inspection without first obtaining the approval of the building official. The building official, upon notification, shall make the requested inspections and shall either indicate the portion of the construction that is satisfactory as completed, or shall notify the permit holder or an agent of the permit holder wherein the same fails to comply with this code. Any portions that do not comply shall be corrected and such portion shall not be covered or concealed until authorized by the building official.

110.7 Periodic Inspections. The building official shall, if deemed necessary, make or cause to be made such periodic inspections of buildings, structures, devices, appurtenances, and uses as are required by and in the intervals prescribed by Table 110.7. In order to provide a uniform workload throughout the year, the building official shall be permitted to alter the intervals between periodic inspections as required to meet staffing levels.

Table 110.7

PERIODIC INSPECTION OF STRUCTURES, DEVICES, AND USES

Item	Period between inspections
Cornices, entablatures, belt courses, trim, and similar decorative features; maintenance repair and safe condition thereof (for such items projecting from the face of buildings). See note a.	3 years
Exterior Cantilevered Balconies, Stairways, and Fire Escapes. See note b.	3 years
Other annual permits, certificates, and clearances through Board of Public Service action such as day care centers, nursing homes, homes for the aged, hospitals. See note c.	1 year
Permanent amusement devices	1 year
Auto lifts	1 year
Note a. Applies to all buildings over five stories or 60 feet in height. Owners to submit report bearing the seal, signature, and date of a Missouri licensed Professional Engineer or Architect to the building official every three years describing the condition and safety of cornices, entablatures, belt courses, etc. The building official shall waive inspection if feature does not encroach over a City of Saint Louis sidewalk, street, or alley.	
Note b. Owners shall submit a report bearing the seal, signature, and date of a Missouri licensed Professional Engineer or Architect to the building official every three years describing the condition and safety of exterior cantilevered balconies, stairways, and fire escapes.	
Note c. Applies to all other inspections of buildings or uses not otherwise provided for in this code or any City ordinance which are made annually per the Board of Public Service Permit, and which are assigned by BPS to the Building Division for permit verification, certification, re-certification, or clearances.	

110.7.1 Professional Inspection. The building official shall require owners to supply inspection reports by Missouri licensed design professionals for any building, structure, appurtenance, or device when, in the building official's opinion, it is necessary to insure proper public safety, health, and welfare.

110.8 Authority to Enter. The building official shall have the authority to enter at any reasonable hour any building, structure or premises in the City of Saint Louis for which a permit has been issued but has not received a certificate of occupancy in accordance with Section R110 to enforce the provisions of this code or any other code or ordinance of the City of Saint Louis. No person shall accompany a building official onto a premises in the performance of their duty unless otherwise invited onto said premises by the owner or the owner's representative.

For all other structures or premises, when the building official has reasonable cause to believe that a code violation exists, the building official is authorized to enter the building, structure, or premises at reasonable times to inspect subject to constitutional restrictions on unreasonable searches and seizures. If entry is refused or not obtained, the building official is authorized to pursue recourse as provided by law.

110.9 Jurisdictional Cooperation. The assistance and cooperation of the Police, Fire, Streets, Parks, and Health Departments and all other City officials shall be available as required in the performance of the duties of the building official.

110.10 Parking. Division of Building and Inspection employees, when on official duty, shall be allowed to park without payment of fees at any parking meter or contrary to posted no parking zones. In no event will parking be allowed in front of fire plugs, mail boxes, bus stops, or wheelchair ramps or within disabled parking spaces unless vehicle displays a permanent Missouri placard or license plate for the disabled.

110.10.1 Placards. Each authorized individual shall display one placard approved by the building official in either the front or rear window of private or City vehicles to indicate that the individual is on official City business and is exempt from parking fees, citations, and parking tickets in accordance with Section 110.10 during normal working hours. The Building Commissioner shall not issue such placards to any person not on the Division of Building and Inspection payroll. The Building Commissioner shall have the authority to request cancellation of parking tickets issued contrary to this chapter.

SECTION 111 CERTIFICATE OF OCCUPANCY

111.1 Use and Occupancy. No building, structure, or premises shall be used or occupied and no change in the existing occupancy classification of a building, structure, premises, or portion thereof shall be made until the building official has issued an occupancy permit as provided herein. Issuance of an occupancy permit shall not be construed as an approval of a violation of the

provisions of this code or of other ordinances of the jurisdiction. Failure to have an occupancy permit approved and issued by the building official is a violation and both the occupant and owner shall be subject to a penalty as set forth in Section 25.20.030. Each day that a violation continues shall constitute a separate offense.

111.1.1 Posting Notice. It shall be the duty of the building official to post a notice on any building, structure or portion thereof when it is found that an occupancy permit is required before any occupancy shall be permitted to occur. This notice shall remain in plain sight and removal of same shall constitute a separate offense and shall be subject to a penalty as set forth in Section 25.20.030.

111.2 Partial Occupancy Permits. Upon the request of an owner or an owner's representative, a partial occupancy permit shall be permitted to be issued for a building, structure, or premises, provided that no conditions exist which endanger public life, safety, or welfare. Partial occupancy permits shall be permitted to be subject to conditions.

111.2.1 Accessible Type A Dwelling Units When Granting Partial Occupancy Permit. Before a partial occupancy can be approved, an accessible Type A unit must be completed in for sale multifamily residential buildings where 50% of the units are built out. This must be an accessible Type A dwelling that was designated on the approved building permit construction drawings or on an addendum. The unit must comply with ICC A117.1-2009 Chapter 10: Dwelling Units, Section 1003, Type A units.

If the accessible Type A dwelling unit on the original building permit construction drawings is not built out in the location shown, the architect of record shall submit revised construction drawings indicating the location of the new accessible Type A dwelling units within the building as an addendum to the original building permit application.

111.3 Certificate of Substantial Completion. Upon the request of the design professional of record, the building official shall be permitted to issue a Certificate of Substantial Completion for a building, structure, or premises before the entire work covered by the building permit has been completed provided there are no conditions existing which would endanger public safety, health, or welfare. Certificates of Substantial Completion shall be permitted to be subject to conditions. The owner can occupy or utilize the work or designated portion thereof for the use for which it is intended provided a partial occupancy permit has been applied for and issued by the building official.

111.4 Contents of the Occupancy Permit. When a building, structure, or premises is entitled thereto, the building official shall issue an occupancy permit within a reasonable period of time. The occupancy permit shall certify compliance with the provisions of this code and the purpose for which the building, structure, or premises will be used. The occupancy permit shall specify the use group in accordance with the provisions of Chapter 3 of the Building Code, the type of construction as defined in Chapter 6 of the Building Code, and any special stipulations and conditions of the building permit. Any building, structure, or premises for which an occupancy permit has been issued shall be permitted to be reinspected to confirm compliance with this code and the Zoning Ordinance.

111.5 By Whom Application Is Made. An application for an occupancy permit shall be made by the owner of record of the building, structure, or premises. If an occupancy permit application is made by any person other than the owner of record, a notarized letter or some other proof must be presented granting permission from the owner of record to the applicant to apply for the occupancy permit for the stated use. The full names, addresses, and telephone numbers of the owner, lessor, and applicant shall be stated. If the building is owned by a corporation, said notarized permission letter or other proof shall be signed by an officer or registered agent of that corporation. If the applicant for the occupancy permit is a corporation, an officer, registered agent, or other responsible person of that corporation shall sign the application stating their position with said corporation.

111.6 Posting of Occupancy Permit; Responsibilities. It shall be the duty or responsibility of the operator of every business to display a copy of a legally issued occupancy permit pertaining to the actual business in effect on the premises. It shall be the duty of the Saint Louis Police Department to enforce the provisions of this section. When the building official is informed of or suspects any violation of this code, it shall be the duty of the holder of an occupancy permit to allow the building official to inspect the building, structure, premises, or any portion thereof. Violation of this section shall result in revocation of said occupancy permit and shall be subject to penalties as set forth in Section 25.20.030.

111.7 Occupancy Permit Application Abandonment. Occupancy permit applications shall be abandoned 60 days after initial application if, in the opinion of the building official, the occupancy permit has not been diligently pursued.

Exception: Those buildings acquired from Land Reutilization Authority, in which case said occupancy permit applications shall be abandoned 180 days after initial application was filed.

111.8 Revocation. The building official is authorized to, in writing, suspend or revoke an occupancy permit or certificate of substantial completion issued under the provisions of this code whenever the permit is issued in error, on the basis of incorrect information supplied, or where it is determined that the building or structure or portion thereof is in violation of any ordinance or regulation or any of the provisions of this code.

SECTION 112 SERVICE UTILITIES

112.1 Connection of Service Utilities. No person shall make connections from a utility, source of energy, fuel, or power to any building or system that is regulated by this code for which a permit is required until released by the building official.

112.2 Temporary Connection. The building official shall have the authority to authorize and approve the temporary connection of the building or system to the utility, source of energy, fuel, or power.

112.3 Authority to Disconnect Service Utilities. The building official shall have the authority to authorize disconnection of utility service to the building, structure, or system regulated by this code and the referenced codes and standards set forth in Section 102.4 in case of emergency where necessary to eliminate an immediate hazard to life or property or when such utility connection has been made without the approval required by Section 112.1 or 112.2. The building official shall notify the serving utility and, wherever possible, the owner and occupant of the building, structure, or service system of the decision to disconnect prior to taking such action. If not notified prior to disconnection, the owner or occupant of the building, structure, or service system shall be notified in writing as soon as practical thereafter.

SECTION 113 BOARD OF BUILDING APPEALS

113.1 Creation, Members, and Qualifications. There is hereby established a Board of Building Appeals consisting of seven members appointed by the Mayor, all of whom shall be residents of the City of Saint Louis; at least one of whom shall be a person engaged in the real estate business, one a Missouri licensed professional engineer, one a Missouri licensed architect, one a building contractor or subcontractor, one a person affiliated with the building and construction trades council, and two shall be citizens-at-large. There shall be four alternates who shall be permitted to be called when it is expected there will not be a quorum present. The alternates shall have all powers, protection, and stipends as the regular Board members in accordance with Civil Service provisions. The alternates shall be appointed by the Mayor for four year terms. One alternate shall be a Missouri licensed professional engineer or Missouri licensed architect; the other alternates shall be citizens-at-large. Alternates shall not make up the majority of the Board at any hearing.

113.1.1 Term of Office. New members shall possess the same qualifications as the persons in whose place they are appointed. This is an existing board and no current appointments shall be affected by this chapter. All subsequent appointments shall be for a term of four years and shall expire on an anniversary of the date of the original term, except appointments to fill vacancies which shall be for the unexpired term. Members whose appointed terms have expired shall be permitted to continue to serve until reappointed or replaced by a new appointee.

113.1.2 Procedures. The Board shall elect one of its members as Chairman who shall serve as such during the remainder of the calendar year and until a successor is elected. The Board shall from time to time adopt rules and regulations as shall be reasonably necessary to govern its procedure and to carry into effect the provisions of this code. These rules and regulations shall be available for review at the office of the Secretary to the Board during normal working hours. It shall be unlawful for any appellant or appellant's representative to contact any member of the Board on any matter that is pending or scheduled to be heard by the Board. If a Board member is contacted by an appellant on a matter pending before the Board other than during a Board hearing, that Board member must abstain from hearing or voting on the matter, as all testimony must be heard "sworn on the record."

113.1.3 Compensation. The Board of Building Appeals members shall be compensated for services rendered on a per meeting basis as established by ordinance and subject to budgeted funds availability.

113.2 Meetings; Witnesses; Minutes to Be Kept. Meetings of the Board shall be held at the call of the Chairman and at such other times as the Board by its rules shall be permitted to provide. The Chairman, or in the Chairman's absence, the Acting Chairman shall administer oaths. The Board shall act by a majority vote and a quorum shall consist of at least four members. The Board shall keep minutes of its proceedings showing the vote of each member on each question, or if absent or failing to vote, indicating such fact, and shall keep records of its examinations of witnesses and other official acts. Transcripts of hearings shall be permitted to be kept in the custody of the court reporter and need not be transcribed unless requested. The party requesting the transcripts shall pay all costs of such transcripts required including a file copy for the Board, one for the Building Division, and one for the Board's legal staff.

113.3 Types of Appeals. Any person, firm, or corporation aggrieved by a decision of the building official, fire official, or any other board, commission, or other officer exercising their powers under this code or any other code or ordinance assigned to the Division of Building and Inspection shall be permitted to file an appeal when the appellant alleges:

1. That there is an error in an order, requirement, decision, or interpretation of the building official, fire official, or of any other board, commission, or other officer in the enforcement of this code;

2. That the mode, method, or manner to be followed in the erection or alteration of any building or structure in any specific case before the Board is equal to or superior to the mode, method, or manner required by the provisions of this code;

3. That the material to be used in this specific case is equal to or superior to the materials required by the provisions of this code;

4. That any other board or commission exercising powers under this code or any other code or ordinance assigned to the Division of Building and Inspection wrongfully interpreted the provisions of the code or refused to grant a license, certificate, or permit under the provisions of such code.

Exception: The Board of Building Appeals has no jurisdiction or authority to hear and decide appeals on matters covered under the Americans With Disabilities Act, the Zoning Ordinance, and Cultural Resources Ordinance.

However, an application for occupancy, alteration, or repair of an existing building or structure which involves a change of occupancy or change of use group whereupon accessibility requirements apply, the building official's determination of change of occupancy or use group shall be allowed to be appealed to the Board of Building Appeals.

113.3.1 Criteria for Issuance of a Variance for Flood Hazard Areas. A variance shall only be issued upon:

1. A showing of good and sufficient cause that the unique characteristics of the size, configuration, or topography of the site render the elevation standards inappropriate.

2. A determination that failure to grant the variance would result in exceptional hardship by rendering the lot undevelopable.

3. A determination that the granting of a variance will not result in increased flood heights, additional threats to public safety, or extraordinary public expense or create nuisances, cause fraud on or victimization of the public, or conflict with existing local laws or ordinances.

4. A determination that the variance is the minimum necessary to afford relief considering the flood hazard.

5. Submission to the applicant of written notice specifying the difference between the design flood elevation and the elevation to which the building is to be built, stating that the cost of flood insurance will be commensurate with the increased risk resulting from the reduced floor elevation, and stating that construction below the design flood elevation increases risks to life and property.

113.4 Filing Date. Unless otherwise specified in other sections of this code, appeals shall be filed within 30 calendar days after the decision of the building official, fire official, or any other board, commission, or other officer exercising their powers under this code or any other code or ordinance assigned to the Division of Building and Inspection is rendered; however, no such appeal shall be taken from any order or ruling wherein responsibility lies with the Board of Adjustment as established by the Zoning Ordinance or with any other board as established by the Revised Code of the City of Saint Louis.

Exception: Condemnation appeals shall be filed within ten calendar days of the date on the Notice of Condemnation as described in Section 119.8.

113.5 Manner and Fee for Filing Appeals. Appeals shall be taken by filing with the Secretary to the Board a notice of appeal on such forms as prescribed by the

Board of Building Appeals specifying the grounds thereof, and the Secretary shall immediately transmit to the Board such notice and all papers constituting the record upon which the action appealed from is taken. The notice of appeal shall be accompanied by a fee of $150.00.

113.5.1 Waiver of Appeal Fees. In the event the Secretary to the Board receives a written claim of indigence and a request for a fee waiver, the request shall be referred to the City Counselor's Office for approval or denial and that decision shall be final. A copy of that decision shall be kept on file.

113.5.2 Multiple Appeals. In the event that more than one building, structure, or premises owned by the same person, firm, or corporation has been cited for exactly the same violation and the owner has filed an appeal with the Board disputing the same citation, the appellant shall be permitted to file one appeal covering all said buildings, structures, or premises and be charged one appeal fee. The decision rendered by the Board shall apply to all buildings, structures, or premises involved in the appeal.

113.5.3 Board Hearings; Notification. After an appeal has been filed, the Secretary to the Board shall place the appeal on a Board hearing agenda and the appellant shall be notified in writing by certified mail prescribing the time, date, and location of the hearing not less than seven days prior to said hearing. Such hearing shall be held within a reasonable time after the filing of the notice of appeal, depending on the scheduling of other appeals.

113.6 Appeals to Stay Proceedings; Exceptions. Appeals shall stay all proceedings in furtherance of the action appealed from unless the building official or fire official certifies to the Board of Building Appeals after the notice of appeal has been filed that, by reason of the facts stated in the certificate, a stay would cause imminent peril to life or property. Proceedings shall not otherwise be stayed except by restraining order.

*113.7 Jurisdiction of the Board. T*he Board of Building Appeals is hereby empowered to hear and decide appeals in all matters described in Section 113.3

113.7.1 Board Decisions; Notification. The Board shall enter its order and decision after hearing, affirming, modifying, or reversing the order, requirement, interpretation, ruling, or decision of the building official in whole or in part. The Board shall be permitted to require conditions or restrictions as necessary to assure that the activity complies with the intent of this code or as the Board deems appropriate. If the appellant fails to appear at the prescribed time and location of the hearing and it has been determined that notice of the hearing was received, the appeal shall be dismissed and the original order, requirement, interpretation, ruling, or decision of the building official shall be affirmed. A final decision, when used in this section, shall mean a decision rendered by the Board of Building Appeals. The Board shall, upon rendering its final decision, notify the appellant of its order and final decision by mail. The appellant shall be deemed to have received the final decision three days after the final decision has been deposited in the United States mail with proper postage. The Board shall forward its order and decision to the building official, fire official, or any other board, commission, or officer exercising their powers under this code in writing and place a copy of the decision in its files. There shall be no rehearing or reopening of that file by the Board except where the Board has required conditions or restrictions and it is to be determined whether the conditions or restrictions have been met. No information concerning any decision reached by the Board shall be made public except to the appellant until that decision has been signed and the appellant has first been formally notified.

113.7.2 Generic Decisions. In the event that the Building Commissioner finds that a specific decision of the Board of Building Appeals would be helpful in the continued administration of this code if it were made to be generically applicable, the Building Commissioner shall be permitted to petition the Board in writing requesting that the decision of a specific case be made generically applicable, in part or in whole, without the need for individual appeals and shall become a part of the policy of the Division of Building and Inspection. This request must be made within 180 calendar days of the rendering of the decision. The Board shall only affirm or deny such petition.

113.7.3 Conditional Decisions; Method of Rehearing. When the Board of Building Appeals enters a conditional decision modifying or reversing an order of the building official and grants additional time to correct the violation(s), the Board shall grant no more than 90 days. Additional time shall be permitted to be granted if, in the opinion of the building official, sufficient progress is being made to correct the violation(s). In the event insufficient progress is being made to correct the violation(s) in the allotted time, the case shall be referred back to the Board of Building Appeals to

show cause why the conditions set by the Board have not been met and why the building official's original order or decision should not be affirmed. In the event of such referral back to the Board, notification to the appellant prescribing the date, time, and location of said hearing shall be the same as that described in Section 113.5.3.

113.8 Appeals from Decisions of the Board. Any person(s) jointly or severally aggrieved by the decision of the Board of Building Appeals shall be entitled to a judicial review of the decision rendered by the Board of Building Appeals as provided in the Administrative Procedure and Review Act of the State of Missouri, being Sections 536.100—536.140 of the Revised Statutes of Missouri.

113.9 Hearing Officer. The Board of Building Appeals shall have the right to appoint a hearing officer to hear and render a decision on any appeal filed with the Board of Building Appeals.

113.9.1 Qualification. The hearing officer shall be an attorney and on an approved list of attorneys who have administrative law experience. The Director of Public Safety shall compile and maintain said list.

113.9.2 Rights and Duties. The hearing officer shall have such rights, responsibilities, and duties as the Board of Building Appeals and the appellants shall have the same rights as an appellant appearing before the Board of Building Appeals, including the right to appeal pursuant to Missouri's Administrative Procedure and Review Act.

SECTION 114 VIOLATIONS

114.1 Unlawful Acts. It shall be unlawful for any person, firm, or corporation to grade for, excavate for, erect, construct, alter, extend, repair, move, remove, demolish, or occupy any building, structure, premises, or equipment regulated by this code or cause same to be done in conflict with or in violation of the provisions of this code or any decision or order of the Board of Building Appeals.

114.2 Notice of Violation. The building official is authorized to serve a notice of violation or order on the owner as shown in the records of the City of Saint Louis Assessor's Office or on the person responsible for the grading, excavating, erection, construction, alteration, extension, repair, moving, removal, demolition, or occupancy of a building, structure, or premises in violation of the provisions of this code, or in violation of a detail statement or construction documents approved hereunder, or in violation of a permit or certificate issued under the provisions of this code. Such order shall direct the discontinuance of the illegal action or condition and the abatement of the violation. Such notice shall be permitted to be served by the United States mail. Posting of the premises shall also constitute notice. It shall be a violation of this code for any person to remove any such notice lawfully posted pursuant to this code unless otherwise ordered by the building official.

114.2.1 Investigation of Records. Upon the receipt of a written request from the owner of the property, or the real estate agent for the property, or the attorney, architect, or engineer representing the owner of the property, the Permit Section Supervisor shall ask the various Building Division sections for copies of any existing violation letters concerning the property. If the request is not on the owner's letterhead, a notarized authorization from the owner must be submitted.

The response letter written by the permit section supervisor shall list any known violations and must contain the following statement: "This letter does not certify that there are no actual existing violations of the ordinances for which the Division of Building and Inspection is responsible. To determine if there are any violations of any ordinances, an application for an occupancy permit must be filed in accordance with Section 111.5 and the subsequent inspections completed. This letter does certify there are no existing letters of violation on record other than those attached herein. There will be a $25.00 fee charged for this service. Five working days will be allowed to respond to this request."

114.3 Prosecution of Violation. If the notice of violation is not complied within the time prescribed by such notice, the building official is authorized to request the legal counsel of the City of Saint Louis to institute the appropriate proceeding at law or in equity to restrain, correct, or abate such violation or to require the removal or termination of the unlawful occupancy of the building, structure, or premises in violation of the provisions of this code or of the order or direction made pursuant thereto.

114.4 Violation Penalties. Any person who violates a provision of this code or fails to comply with any of the requirements thereof or who erects, constructs, alters, or repairs a building or structure in violation of the approved construction documents or directive of

the building official or of a permit or certificate issued under the provisions of this code shall be subject to penalties as prescribed by law.

114.5 Abatement of Violation. The imposition of penalties as set forth in Section 25.20.030 shall not preclude the legal officer of the City of Saint Louis from instituting appropriate action to prevent unlawful construction; to restrain, correct, or abate a violation; to prevent illegal occupancy of a building, structure, or premises; or to stop an illegal act, business, or use.

SECTION 115 STOP WORK ORDER

115.1 Authority. Whenever the building official finds any work regulated by this code being performed in a manner contrary to the provisions of this code or in a dangerous or unsafe manner, the building official is authorized to issue a stop work order.

115.2 Issuance. The work order shall be in writing and shall be given to the owner of the property involved, or to the owner's agent, or to the person doing the work. Upon issuance of a stop work order, the cited work shall immediately cease. The stop work order shall state the reason for the order and the conditions under which the cited work will be permitted to resume.

115.3 Emergencies. When an emergency exists, the fire official shall not be required to give a written notice prior to stopping the work.

115.4 Unlawful Continuance. Any person who shall continue any work in or about the building, structure, or premises after having been served with a stop work order, except such work as they are directed to perform to remove a violation or unsafe condition, shall, upon conviction thereof, be subject to the penalties as set forth in Section Four of the adopting ordinance. Each day that a violation continues shall constitute a separate and distinct offense.

SECTION 116 UNSAFE BUILDINGS, STRUCTURES, AND EQUIPMENT

116.1 Conditions. Buildings, structures, or equipment that are or hereafter become unsafe, unsanitary, or deficient because of inadequate means of egress, facilities, or light and ventilation; which constitute a fire hazard; are otherwise dangerous to human life or the public welfare; or which involve illegal or improper occupancy or inadequate maintenance shall be deemed unsafe. Unsafe buildings or structures shall be taken down and removed or made safe as the building official deems necessary and as provided for in this section. A vacant structure that is not secured against entry shall be deemed unsafe.

116.2 Record. The building official shall cause a report to be filed on an unsafe condition. The report shall state the occupancy of the structure and the nature of the unsafe condition.

116.3 Notice. If an unsafe condition is found, the building official shall serve on the owner, agent, or person in control of the building or structure a written notice that describes the condition deemed unsafe and specifies the required repairs or improvements to be made to abate the unsafe condition, or that requires the unsafe structure to be demolished within a stipulated time. Such notice shall require the person thus notified to declare immediately to the building official acceptance or rejection of the terms of the order.

116.4 Method of Service. Such notice shall be deemed properly served if a copy thereof is (a) delivered to the owner personally; (b) sent by certified or registered mail addressed to the owner at the last known address with the return receipt requested; or (c) delivered in any other manner as prescribed by local law. If the certified or registered letter is returned showing that the letter was not delivered, a copy thereof shall be posted in a conspicuous place in or about the structure affected by such notice. Service of such notice in the foregoing manner upon the owner's agent or upon the person responsible for the structure shall constitute service of notice upon the owner.

116.5 Restoration. Where the building, structure, or equipment determined to be unsafe by the building official is restored to a safe condition to the extent that repairs, alterations, or additions are made or a change of occupancy occurs during the restoration of the structure, such repairs, alterations, additions, or change of occupancy shall comply with the requirements of Section 105.2.2 and the Existing Building Code.

SECTION 117 PROFESSIONAL ARCHITECTURAL AND ENGINEERING SERVICES

117.1 Responsibilities. The provisions of this section shall define the construction controls required for buildings involving professional architectural or engineering services and delineate the responsibilities of such professional services during construction.

117.1.1 Design. All design for new construction, alteration, repair, expansion, addition, or modification work involving the practice of professional architec-

ture or engineering as defined by the statutory requirements of the professional licensing laws of the State of Missouri shall be prepared by licensed design professionals certified by the Missouri Board for Architects, Professional Engineers, Professional Land Surveyors and Professional Landscape Architects. All construction documents required for a building permit application for such work shall be prepared by or under the direct supervision of a Missouri licensed design professional and bear their seal, signature, and date in accordance with the state's statutes and regulations governing the professional licensing and certification of architects, professional engineers, professional land surveyors, and professional landscape architects.

117.1.2 Review. The Missouri licensed design professional whose seal is on the approved construction documents shall be responsible for review of shop drawings and samples as required by the approved construction documents and for approval for conformance to the design concept and this code. This review process shall be permitted to be contracted by the owner to another Missouri licensed design professional should the original design professional not desire to provide such services.

117.1.3 Application of Seal, Signature, and Date. All construction documents submitted with an application for a building permit shall comply with Section 107.1.1.

117.1.4 Reproduction of Sealed Documents. Construction documents sealed by a Missouri licensed design professional shall not be reproduced for anyone, other than the owner, without the expressed written permission of Missouri licensed design professional who sealed said documents, or as ordered by a court of law.

117.2 Special Professional Services. When applications are filed for unusual designs or magnitude of construction which require construction document review or inspection services beyond the capacity of the building official's staff or where referenced standards require special architect or engineer inspections, the building official shall be permitted to require the owner to retain a properly qualified Missouri licensed design professional to perform the services necessary for code compliance in addition to that provided in Section 117.1.2. This project representative shall keep daily records and submit reports as required by the building official. Upon completion of the work, the Missouri licensed design professional shall file a final report indicating whether or not all required inspections were performed and listing pertinent deviations from the Building Code requirements or from the approved construction documents and the source of authority for such deviations.

117.2.1 Building Permit Requirement. The necessity for special professional services shall be determined prior to issuance of the building permit unless waived to a later date by the building official. Refusal by the applicant to provide such services as required by the building official shall result in the denial of the permit.

117.2.2 Fees and Costs. All fees and costs related to the performance of special inspection services shall be borne by the owner.

117.2.3 Visits to Site. When so directed by the building official or when required by the special inspection provisions of this code, the Missouri licensed design professional shall make visits to the site at intervals appropriate to the stage of the construction to observe the progress and quality of the work; to observe construction components requiring controlled materials or construction as specified in Chapter 44, Referenced Standards; and to determine if the work is proceeding in accordance with the construction documents approved for the building permit. The Missouri licensed design professional shall periodically submit reports to the building official showing the results of such periodic visits.

SECTION 118 WORKMANSHIP

118.1 General. All work shall be conducted, installed and completed in a neat, workmanlike and acceptable manner so as to secure the results intended by this code.

SECTION 119 CONDEMNATIONS

119.1 Notification. If upon making an inspection and examination of any occupied or unoccupied building, structure, or premises, the building official finds one or more of the defects described below, the building official shall notify in writing, as provided in Section 119.2, the owner(s) of said building, structure, or premises as recorded most recently in the City of Saint Louis Assessor's Office of the defects found in said building, structure, or premises and shall order them to proceed to properly demolish, repair and secure, or correct all conditions causing condemnation of said building, structure, or premises within seven days. This

document is to be known as a Notice of Condemnation. If the conditions have not been corrected by the date listed in the notice, the building, structure, premises, or portion thereof or appurtenance thereto will be condemned and shall be required to be vacated, if occupied, and secured. Possible defects shall be permitted to be one or more of the following:

1. The building or structure is in a condition which endangers either the lives or safety of persons, whether occupants or otherwise, or other property;

2. The condition of the building or structure by reason of the making of an excavation on the lot on which it is located, or any adjoining lot, endangers either the lives or safety of persons, whether occupants or otherwise, or other property;

3. The building, structure or premises is a fire hazard for any reason, including, without limitation: obsolescence; dilapidation; deterioration; damage; lack of sufficient fire-resisting qualities; poor sanitation; or faulty electrical wiring, gas connections, or heating apparatus;

4. The building or structure lacks safe or adequate facilities for means of egress in case of fire or panic;

5. The building or structure has any one or more of the following conditions:

A. Improperly distributed loads upon the floors or roof;

B. Overloaded floors or roofs;

C. Insufficient strength to be reasonably safe for its actual or intended use;

6. Any portion of the building or structure has been so damaged by fire, earthquake, wind, flood, vandalism, malicious mischief, or any other cause, that the building or structure is no longer safe or suitable for its actual or intended use;

7. Any interior or exterior portion, member, appurtenance, ornamentation, or any other component of the building or structure is likely to fall or collapse, or become detached or dislodged and thereby injure persons or damage property;

8. Any portion of the building or structure has racked, warped, buckled, or settled to such an extent that its walls or other structural portions have insufficient resistance to fire, earthquake, wind, flood, or similar perils;

9. Part or all of the building or structure is in danger of collapsing for any reason;

10. The building or structure has exterior walls or other vertical structural members which list, lean, or buckle;

11. The building, structure, or premises or any portion thereof is, for any reason, unsafe for its actual or intended use;

12. The building or structure has been so damaged by fire, earthquake, wind, flood, vandalism, malicious mischief, or any other cause or has become so dilapidated, deteriorated, or decayed as to come within any one or more of the following categories:

A. The building or structure will attract and result in harm to children;

B. The building or structure is, or is likely to become, a harbor for vagrants or criminals;

C. The building or structure enables persons to resort thereto for the purpose of committing unlawful acts;

13. The building, structure, or premises has been constructed, exists, or is being maintained in violation of any provisions of this code or of any law of the City of Saint Louis;

14. The building or structure does not have the strength, fire-resisting qualities or weather-resisting qualities required by this code for newly constructed buildings of like area, height, and occupancy;

15. The building, structure, or premises is used or intended to be used for purposes that are likely to injure the health, safety, or welfare of persons who occupy or could occupy said building or structure by reason of any one or more of the following conditions:

A. Inadequate maintenance, dilapidation, deterioration, decay, or damage;

B. Faulty construction;

C. Inadequate light, ventilation, or sanitation facilities;

D. The building, structure or premises is being used for any illegal purposes;

16. Any portion of the building or structure has been left remaining on a site after its demolition or destruction;

17. The building or structure is vacant for a period in excess of six months and because of its condition is unsafe, unsanitary, or endangers property or public health, safety, or welfare;

18. The building or structure is vacant and has been ordered secure or has been secured by order of the building official for a period in excess of twelve months

and has been condemned for occupancy or has been used in the commission of a crime subsequent to being ordered secured or being secured.

19. The building or structure is only partly constructed and construction has stopped for a period in excess of six months, and because of its condition, affects the health, safety and welfare of the adjacent properties.

119.1.1 Evacuation Order; Failure to Comply. Any person who refuses to leave, interferes with the evacuation of other occupants, or continues any operation after having been given an evacuation order by the building official, except such person(s) directed to perform work to remove a violation or unsafe condition, shall be deemed in violation of this section whereupon it shall be the duty of the Police Department to immediately remove such person from said building, structure, or premises and prevent anyone from re-entering the building, structure, or premises until such time that the Police Department shall have been notified by the Division of Building and Inspection that the same is in a safe condition. Any person who shall violate this section shall be guilty of a misdemeanor and subject to the penalties as set forth in Section 25.20.030.

119.1.2 Dangerous Conditions. Whenever the building official shall find any building, structure or premises in such a condition that it presents a safety hazard, but not dangerous enough to warrant condemnation and demolition, and repair is relatively small in relation to the building as a whole, the building official shall post a sign on the premises which reads as follows:

WARNING ALL PERSONS ARE WARNED TO USE EXTREME CAUTION IN OR AROUND THESE PREMISES

Additionally, a letter shall be posted indicating those conditions in violation of this code and a copy of said letter shall be mailed to the owner(s) of said building, structure, or premises.

119.2 Service of Notice. The notice to the owner(s) of the building, structure, or premises found by the building official to be in violation of this code shall be directed to the owner(s) of such building, structure, or premises as recorded most recently in the City of Saint Louis Assessor's Office. The notice shall be served in one of the following ways:

1. Delivering directly to owner(s).

2. Posting a copy of said notice upon the building, structure, or premises.

3. Mailing a copy of said notice by regular mail, postage prepaid, direct to owner(s)' place of business or the address currently recorded in the Assessor's Office of the City of St. Louis.

4. Publication in a newspaper of general circulation in the City of Saint Louis.

119.2.1 Posting Copy of Notice. In case such building, structure, or premises is in the occupancy of a tenant(s), in addition to the above notice it shall be the duty of the building official to post a copy of such notice upon said building, structure, or premises. It shall be a violation of this code for any person to remove any notice or copy thereof lawfully posted pursuant to this code unless otherwise ordered by the building official.

119.3 Failure to Comply; Authority to Enter into Contracts. If the owner(s) fail to comply with the order of the building official by the date indicated in the Notice of Condemnation and in such a manner that can be approved by the building official, then such owner(s) shall have violated this code and the building official shall be permitted to forthwith proceed to undertake and complete whatever work is necessary to eliminate the dangerous condition. The Building Commissioner shall have the authority to enter into contracts with no other review, signature, or approval (except for insurance) from any other City agency. Such contracts shall be permitted to include, but not be limited to, demolition, environmental investigation, remedial work, professional, or contractual services. Competitive bids shall not be required for emergency situations where there is a danger to life or property. The cost of such work performed by the building official under the provisions of Sections 119 or 120 shall be paid for by the City of Saint Louis. The building official shall certify to the Comptroller the cost of such work including the administrative costs incurred by the Division of Building and Inspection in performing said work, but in no event shall such administrative costs exceed ten percent of the contract price incurred by the Division of Building and Inspection in performing such work. The Comptroller, upon certification by the building official of the cost expended for said work, shall prepare bills for such work against the owner(s) of said building, structure, or premises. In case said bills are not paid upon presentation, they shall be referred to the City Counselor, who shall proceed to collect same

by suit or lien if necessary, and the amounts when collected shall be credited to a special revolving fund for the purposes herein designated.

119.3.1 Secured Buildings. For a building or structure to be "secured" in those cases in which securing is specifically required by this code, a covering shall be placed over all doors, windows, or other openings at the first floor level; all doors and windows that are accessible from any porch, service stair, or fire escape; and all basement or cellar windows. This cover shall consist of not less than ⅜ inch plywood or other such material approved by the building official attached to the framing of all such doors and windows by wood screws, or any other material approved by the building official, of a minimum length of 1½ inches, placed not more than twelve inches on center. Such plywood or other such material approved by the building official shall be painted with a minimum of two coats of exterior grade paint of a brick red or other color which is approved by the building official. It shall be the duty and responsibility of the building official to re-enter any premises or building or portion thereof that has previously been secured and boarded either by the City of Saint Louis or any other party when, in the opinion of the building official, there is reason to believe that there happens to be new or additional violations of this code. The building official shall not be held responsible for any damage to the building, structure, or premises caused by the act of securing.

119.3.2 Reentry of Secured Buildings. The occupancy of any building or structure which has been ordered secured or has been secured by order of the building official shall be prohibited until the owner of said building or structure obtains a certificate of inspection or an occupancy permit from the building official. Work performed on any building or structure as a prerequisite to a certificate of inspection shall not be considered occupancy of said building or structure.

119.4 Building Not to Be Rented or Leased. No owner or agent of the owner of any building, structure, or premises, after notice from the building official that such building, structure, or premises is unsafe or dangerous, shall rent or lease the same or any part thereof or collect any rent therefor until such building, structure, or premises has been placed in a safe and secure condition. The building official shall be permitted to require an occupancy permit to be issued prior to occupancy or re-occupancy. Any person found guilty of violating the provisions of this section shall be subject to the penalties as set forth in Section 25.20.030 regarding fine and imprisonment. Each day that a violation continues constitutes a separate and distinct offense.

119.5 Cost; Method of Payment; Lien; Penalty. The building official shall have the authority to require any violator of this code to correct, remove, or abate any condition caused or permitted by them in violation of this code; and the building official shall be permitted to correct, remove, or abate the same upon their failure to comply with the requirements of this code when the public interest so requires. For all emergency condemned buildings or structures, the building official shall have the authority to receive and publicly open bids and award the contract to the lowest qualified bidder meeting the specifications without first sending said contract to the Comptroller. These contracts shall be signed by the Building Commissioner and countersigned by the Director of Public Safety and shall have the full effect of a City contract. All costs attending such action in such cases shall be paid from the appropriate fund as provided in Section 119.3 and then collected from the party offending as therein provided. A lien for such costs shall be placed against the property whereon such violation was permitted to exist. The cost shall also be certified to the Collector of Revenue or other official collecting real estate taxes, who shall cause a special tax bill against the property to be prepared and collected in the same manner and procedures as other real estate tax bills. Said special tax bill shall be deemed a personal debt against the property owner(s) and shall also be a lien on the property until paid. These bills or liens shall not be forgiven except by the City Counselor, who shall, in writing, instruct the building official to forgive such bills or liens. Further, board-up and demolition bills shall be permitted to be waived when ownership of said property for which the bill or lien was issued is accepted by Land Reutilization Authority, Saint Louis Development Corporation, or any other City agency. Any person, firm or corporation who shall refuse or neglect to comply with the provisions of this section or who shall violate any of the provisions thereof shall be subject to the penalties as set forth in Section 25.20.030. In addition, any payments deemed to be in arrears shall be subject to interest charges at a rate set by the Comptroller.

119.5.1 Prohibited Expenditures. The building official shall not expend any monies for demolition of buildings owned by Land Reutilization Authority, Op-

eration Impact, Saint Louis Development Corporation, Port Authority, or any other governmental agency except in emergency situations where immediate action is required to preserve public health, safety, and welfare.

119.6 Vacation of Buildings; Duties of Police; Penalty. Upon effecting condemnation of any building, structure, or premises by the building official, it shall be unlawful for any person to enter or remain in or on such building, structure, or premises until such time as the Police Department shall have been notified in writing by the building official that the same is in a safe condition. It shall be the duty of the Police to remove any person from such building, structure, or premises so condemned and to prevent any person from entering same until such time as the Police Department shall have been notified in writing by the building official that such building, structure, or premises is in compliance with this code. The provisions of this section shall not apply to licensed security guards or persons directly employed in securing the building, structure, or premises or otherwise abating the conditions causing the condemnation. Any violation of this section of the code shall be subject to the penalties as set forth in Section 25.20.030.

119.7 Removal of Decayed or Unsafe Trees. Whenever it shall come to the knowledge of the Forestry Commissioner that any tree on private property is in such a decayed or dangerous condition as to endanger the lives of persons or is likely to cause immediate damage to the property of others, the Forestry Commissioner shall cause said tree to be removed or cause such dangerous conditions to be remedied by the owner of the property whereon it is situated. The powers and duties of the Forestry Commissioner in respect to any such tree, the notice to the owner of the property whereon it is located, the cost of its removal or remedying the dangerous condition caused thereby, the lien of such cost, the method of its collection, the penalties to be incurred by the owner, and the procedure to be followed by the Forestry Commissioner shall, as nearly as practicable, be those prescribed by this section in respect to the building official's procedures for buildings and other structures which are in a dangerous condition.

If the Forestry Commissioner cannot secure removal of the dangerous tree by Forestry Division forces or by response of the owner to the Forestry Division notice, the Forestry Commissioner shall be permitted to request the assistance of the building official in condemning the tree and securing removal after emergency or public bid by private contractors resulting in a City of Saint Louis contract to remove the tree.

The condemnation, if appealed to the Board of Building Appeals, shall require the defense testimony of Forestry Division personnel knowledgeable about trees.

The Building Division shall be permitted to make available for tree removal contracts on private property a sum not to exceed five percent of the first two hundred thousand dollars of general fund demolition monies appropriated in a fiscal year, in addition to not more than three percent of any appropriated amount over $200,000.00. The Forestry Division will prepare bid specifications and receive, process, and award such contracts billable to the Building Division demolition account subject to the dollar limits above. This procedure is for dead or dangerous trees on private property only and is not for encroachments, trimming, pruning, or other concerns.

119.8 Appeal. Any person aggrieved by the decision of the building official pursuant to Sections 119.1 through 119.7 shall be permitted to appeal such decisions to the Board of Building Appeals within ten calendar days of the date on the Notice of Condemnation. The Condemnation Committee of the Board of Building Appeals, selected by the Chairman, shall hear said appeal and render its decision affirming, modifying, or reversing the decision of the building official and, to such end, shall possess all the powers on appeal granted the building official under Sections 119.1 through 119.7. Such decision shall be subject to the procedures and review provided by the Administrative Procedure and Review Act of the State of Missouri. Filing of an appeal of any portion of Sections 119.1 through 119.7 does not stay any action provided in these sections.

119.9 Penalties. If the owner(s) fail to repair, demolish, or otherwise comply a building, structure, or premises as ordered by the Notice of Condemnation of the building official pursuant to Section 119.2 either within the seven-day period specified in Section 119.1 or within ten days after any appeal from said notice as provided in Section 119.8 is finally adjudicated adversely to said owner(s), then said owner(s) shall be guilty of a violation of this section and shall, upon

conviction thereof, be subject to penalties as set forth in Section 25.20.030. Each day that any violation continues shall constitute a separate and distinct offense.

119.10 Responsibility of Ownership.

1. *Disclosure.* It shall be unlawful for any seller or grantor to convey, give, or transfer property to any buyer or grantee without first disclosing in writing to the buyer or grantee the existence of all Notices of Condemnation or any other violations of this code. The grantor shall keep and make available for inspection by the building official such disclosure signed by the grantee for a period of one year from the conveyance, gift, or transfer.

2. *Liability to Prosecution and Conviction.* Any person shall be permitted to be prosecuted and convicted for violation of Section 119.1.1, notwithstanding that said person has not been given the notice specified in Section 119.1, provided that the building, structure, or premises in question had one or more of the defects described in Section 119.1 during the period that said person was responsible for said building, structure, or premises as owner, corporate officer, partner, or otherwise, and provided further that said prosecution is commenced during the one-year period after said person ceased to be so responsible.

3. *Liability to Suit and Judgment.* Any person shall be permitted to be sued by and held liable to the City of Saint Louis, as provided in Section 119.3, for funds expended by the City of Saint Louis pursuant to said section, notwithstanding that said person has not been given the notice specified in Section 119.1, provided that the building, structure, or premises in question had one or more of the defects described in said section during the period that said person was responsible for said building, structure, or premises as owner, corporate officer, partner, or otherwise, and provided further that said suit is commenced during the one-year period after said person ceased to be so responsible.

Owner(s) are presumed by law to know the conditions of their property whether or not such notice was given. Notices sent to the address of the owner(s) shown on the City of Saint Louis Assessors Office records on the date sent shall constitute legal notice in accord with Section 119.2.

119.11 Dangerous, Hazardous, Unsanitary, or Unapproved Plumbing, Mechanical, and Electrical Installations. The building official shall have the authority to seal out of service the items listed below when, in the building official's opinion, any of these items are in an unsafe, hazardous, or unsanitary condition; if a Certificate of Inspection has not been issued by the building official; or if the installation was made without obtaining the necessary permit(s):

1. Plumbing equipment, fixtures, piping, devices, and appurtenances covered by the Building and Plumbing Codes;

2. Mechanical equipment, devices, and appurtenances covered by the Building and Mechanical Codes.

3. Electrical equipment, fixtures, devices, wiring, and appurtenances covered by the Building and Electrical Codes;

119.11.1 Notice of Sealing Out of Service. Before sealing any device out of service, the building official, except in cases of emergency, shall serve seven days written notice upon the building owner(s) or occupant(s) by United States mail stating intention to seal the equipment out of service and the reasons therefor. Notice shall be permitted to alternately be served by posting upon or immediately adjacent to the device proposed to be sealed.

119.11.2 Unlawful to Remove or Tamper with Seal. Any device sealed out of service by the building official shall be plainly marked with a sign or tag indicating such sealing and any defacing or removal of the sign or tag, any tampering with or removal of the seal without approval of the building official, or operation of the sealed unit shall constitute a violation of this code and shall subject the violator to the penalties as set forth in Section 25.20.030.

119.12 Cancellation of Condemnation. The building official shall have authority to cancel prior condemnations either for defects or for occupancy. A condemnation shall be permitted to be rescinded by the building official only after, in the official's opinion, all necessary repairs are made to such building, structure, or premises or otherwise compliance is obtained with the building official's orders to make such building, structure, or premises safe or occupiable and defects noted have been corrected.

1*19.12.1 Notice of Cancellation of Condemnations.* Upon cancellation of a condemnation, a notice shall be directed to the owner(s) of the building, structure, or premises stating that the condemnation has been canceled. The service of such notice shall be done in the same manner as provided for in Section 119.2.

119.13 Vacant Building Inspection. The building official shall cause to be inspected any property that potentially is subject to the registration fee as estab-

lished in Section 109.2.12. The inspecting officer shall report his findings and it shall be determined whether any such property shall be subject to the registration fee by the City. Within five business days of such determination, the building official shall notify by mail the owners of property on which the registration fee has been levied at the last known address according to the records of the office of the Assessor. The property owner shall have the right to appeal the decision of the building official to the municipal court within 30 days of such notification. Absent the existence of any valid appeal or request for reconsideration the registration fee shall begin to accrue on the beginning of the second calendar quarter after the decision of the building official.

119.13.1 Reconsideration. Should the property owner, within 30 days of the building official making such notification, complete any improvements to the property that would be necessary to revoke the levy of the registration fee, they shall request a reinspection of the property and a reconsideration of the levy of the registration fee by the City. If the building official revokes the registration fee, no such assessment shall be made and the matter shall be considered closed. If the building official affirms the assessment of the registration fee, the property owner shall have the right to appeal the reconsideration decision to the municipal court within thirty days of such decision. Absent the existence of any valid appeal to the municipal court or other court of competent jurisdiction, the registration fee shall begin to accrue on the beginning of the second calendar quarter after the reconsideration decision of the building official.

119.13.2 Payment and Penalties. The building official shall establish procedures for the payment of the registration fee and penalties for delinquent payment of such fees. Any registration fees which are delinquent for a period of one year shall become a lien on the property and shall be subject to foreclosure proceedings in the same manner as delinquent real property taxes. The owner of the property against which the assessment was originally made shall be able to redeem only by presenting evidence that the violations cited by the building official have been cured and presenting payment of all registration fees and penalties. Upon bona fide sale of the property to an unrelated party said lien shall be considered released and the delinquent registration fee forgiven.

SECTION 120 EMERGENCY MEASURES

120.1 Procedure. When, in the opinion of the building official, a building, structure, or premises poses an immediate or imminent danger to the public health, safety, or welfare as defined in Section 119.1, the building official shall order the immediate evacuation and securing of said building, structure, or premises and shall be permitted to order all utilities to be disconnected without sending a notice. Each principle entrance shall be posted with a notice which reads as follows:

DANGER THIS PREMISES IS UNSAFE AND HAS BEEN CONDEMNED

ALL PERSONS ARE WARNED TO KEEP AWAY

Any person who refuses to leave, interferes with the evacuation of other occupants, occupies, or continues any operation after the property has been posted pursuant to this section, except such person(s) who is directed to perform work to remove a violation or unsafe condition, shall be deemed in violation of this section and it shall be the duty of the Police Department to immediately remove such person(s) from said building, structure, or premises and prevent anyone, unless approved by the building official, from reentering the building, structure, or premises until such time that the Police Department shall have been notified that the same is in a safe condition. The building official assumes no responsibility for persons entering upon said property, and said persons proceed at their own risk and assume all liability.

120.2 Temporary Safeguards. When, in the opinion of the building official, there is actual and immediate danger of collapse or failure of a building or structure or any part thereof which would endanger life, the building official shall be permitted to cause the necessary work to be done to render such building or structure or part thereof temporarily safe whether or not the legal procedure herein described has been instituted.

120.3 Closure. When necessary for public safety, the building official shall temporarily close sidewalks, streets, buildings, structures, and places adjacent to such unsafe building, structure, or premises and prohibit the same from being used.

120.3.1 Catchment Enclosures. If, in the opinion of the building official, it is determined that there exists an imminent structural hazard, catchment enclosures shall be erected protecting adjoining property and the public right-of-way. The cost for such catchment enclo-

sures shall be the responsibility of the owner of record immediately adjacent to the catchment enclosure and the recovery of said costs will be as described in Section 120.5.

120.4 Emergency Repairs; Remedies. For the purpose of this section, the building official shall be permitted to employ the necessary labor and materials to perform the required work as expeditiously as possible. Further, when it is found that potable water is running inside a vacant building or structure and the owner or the owner's representative cannot be contacted, and where severe structural or other damage can thus occur to adjacent properties, the Building Commissioner or the Health Commissioner shall be permitted to order the Water Division to cease the problem flow by whatever means the Water Division finds necessary. The Water Division shall comply with any order issued pursuant to this section.

120.5 Cost of Emergency Repairs or Demolition. Costs incurred in the performance of emergency work shall be paid from the Treasury of the City of Saint Louis on certification of the building official. The legal counsel of the City of Saint Louis shall institute appropriate action against the owner(s) of the premises where the unsafe building or structure is or was located for the recovery of such costs plus a ten percent administrative fee. If such cost is not collected, a lien shall be requested to be placed upon the property by the Comptroller. The costs shall also be certified by the Collector of Revenue or other official collecting real estate taxes, who shall cause a special tax bill against the property to be prepared and collected in the same manner and procedures as other real estate tax bills. Said special tax bill shall be deemed a personal debt against the property owner(s) and shall also be a lien on the property until paid.

120.6 Emergency Demolition or Removal. If, in the opinion of the building official, a building, structure, tree, or premises, in whole or in part, poses an immediate and imminent danger to the public health, safety, or welfare by virtue of its condition or conditions in violation of this code, the building official shall be permitted to cause the immediate removal of said building, structure, or tree without the notice set forth elsewhere in this code. Further, the building official shall have the authority to award a sole source contract for demolition of said dangerous building, structure, or tree.

SECTION 121 REGISTRATION OF VACANT BUILDINGS

121.1 Vacant Building Registration Fee. The owner of any parcel of residential property improved by a residential structure or of commercial property improved by a structure containing multiple dwelling units which is vacant and has been vacant for at least six months and which is in violation of this code shall pay a semiannual registration fee of two hundred dollars.

121.2 Inspection. The Building Commissioner or his designee shall inspect any property that may be subject to the registration fee established in Section 121.1. The inspecting officer shall report his findings and recommendations and the Building Commissioner or his designee shall determine whether any such property shall be subject to the registration fee. Within five business days of such determination, the Building Commissioner or his designee shall notify by mail the owners of property on which the registration fee has been levied at their last known address according to the records of the office of the Assessor. The property owner shall have the right to appeal the decision of the Building Commissioner to the municipal court within thirty days of such notification. Absent the existence of any valid appeal or request for reconsideration pursuant to Section 121.3, the registration fee shall begin to accrue on the beginning of the second calendar quarter after the decision of the Building Commissioner.

121.3 Revocation of Fees. Within thirty days of the Building Commissioner making notification pursuant to Section 121.2, the property owner may complete any improvements to the property that may be necessary to revoke the levy of the registration fee and then may request a reinspection of the property and a reconsideration of the levy of the registration fee by the City. If the Building Commissioner or his designee revokes the registration fee, no such assessment shall be made and the matter shall be considered closed. If the Building Commissioner or his designee affirms the assessment of the registration fee, the property owner shall have the right to appeal the reconsideration decision of the Building Commissioner to the municipal court within thirty days of such decision. Absent the existence of any valid appeal to the municipal court or other court of competent jurisdiction, the registration fee shall begin to accrue on the beginning of the second calendar quarter after the reconsideration decision of the Building Commissioner.

121.4 Payment of Fees. The Building Commissioner is hereby authorized to establish procedures for the payment of the registration fee and penalties for delinquent payments of such fees. Any registration fees which are delinquent for a period of one year shall

become a lien on the property and shall be subject to foreclosure proceedings in the same manner as delinquent real property taxes. The owner of the property against which the assessment was originally made shall be able to redeem only by presenting evidence that the violations of the applicable code cited by the Building Commissioner have been cured and presenting payment of all registration fees and penalties. Upon bona fide sale of the property to an unrelated party, said lien shall be considered released and the delinquent registration fee forgiven.

121.5 Registration. The property owner shall provide their name, street address, phone number, and email address to the Assessor's Office. If the property owner does not reside in Missouri or Illinois, the property owner is required to provide the name, street address, and telephone number of a natural person eighteen years of age or older designated by the property owner as the authorized agent for receiving notices of code violations and for receiving process in any court proceeding or administrative enforcement proceeding on behalf of such owner or owners in connection with the enforcement of this code. This person must maintain an office in either the State of Missouri or Illinois or must actually reside in either the State of Missouri or Illinois. The Building Commissioner shall be responsible for providing the information to the City Information Technology Services Agency and the information shall be available through the Geo St. Louis website.

121.6 Vacant Building Maintenance. The owner of any building that has become vacant shall, within thirty days, do the following:

1. Enclose and secure the building as defined under Section 119 of this code. All doors must be properly secured and windows on all floors of the building shall be properly secured.

2. Maintain the building in a secure and closed condition until the building is again occupied or until repair or completion of the building has been undertaken.

121.7 Collected Funds. The Comptroller of the City of St. Louis is hereby authorized and directed to establish a Special Account to be known as the Vacant Building Initiative Fund in which all funds received pursuant to this section shall be deposited and such funds shall be kept separate and apart from all other funds. One half of such funds are hereby appropriated for the costs associated with this section and other costs associated with code enforcement pertaining to vacant property. One half of such funds shall be distributed to the City's Community Development Administration for purposes of offering grants to reduce and prevent vacant and blighted property. All interest generated on deposited funds shall be accrued to the Vacant Building Initiative Fund Account.

121.8 Penalties. If an owner fails to pay the registration fee under Section 121.1 thirty days after the registration fee is assessed, a penalty shall be assessed of $250.00 per occurrence. Any owner found to be in violation of provisions of Section 121.5 shall be subject to a fine of not more than $500.00, to a term of imprisonment of not more than ninety days, or to both a fine and imprisonment. Any owner found to be in violation of provisions of Section 121.6 shall be subject to a fine of not more than $500.00, to a term of imprisonment of not more than ninety days, or to both a fine and imprisonment. Every day that a violation continues shall constitute a separate and distinct offense.

CHAPTER 2 IS AMENDED AS FOLLOWS:

Modify Section 202 Definitions by the addition or changing of definitions to read as follows:

Accessible. Describes a site, building, facility, or portion thereof that complies with this code and ICC A117.1-09 Accessible and Useable Buildings and Facilities and that can be approached, entered, and used by a person with a disability.

Accessible route. A continuous unobstructed path connecting all accessible elements and spaces in a building or facility which can be negotiated by a person with a severe disability using a wheelchair and which is also safe for and useable by people with other disabilities. Interior accessible routes include corridors, floors, ramps, elevators, lifts, and clear floor space at fixtures. Exterior accessible routes include parking, access aisles, curb ramps, walks, ramps, and lifts.

Alteration. Any construction or renovation to an existing building or structure other than repair or addition. Alterations are classified as Level 1, Level 2 and Level 3.

Balcony. A projecting platform on a building, sometimes supported from below, sometimes cantilevered enclosed with a railing or balustrade.

Building. Any structure occupied or intended for supporting or sheltering any occupancy. For application of this code, each portion of a building which is completely separated from other portions by fire walls complying with Section 706.0 of the Building Code shall be considered as a separate building.

Building official or *code official.* The Building Commissioner of the City of Saint Louis or any duly authorized representative.

Change of occupancy. A change in the purpose or level of activity within a building or structure that involves a change in the application of the requirements of this code. Change of occupancy requirements apply both to a change in which the use group classification under Chapter 3 of the Building Code remains the same and one in which it changes.

Construction cost. The cost of all construction portions of a project, generally based upon the sum of the labor and materials used in the performance of the construction contract and other direct construction cost; does not include the compensation paid to the architect and consultants, the cost of the land, right-of-way, or other costs which are defined in the construction documents as being the responsibility of the owner.

Dwelling unit or sleeping unit, type A. A dwelling unit or sleeping unit designed and constructed for accessibility in accordance with Section 1002 of ICC A117.1 Accessible and Useable Buildings and Facilities. A Type A (accessible) dwelling unit has all required knee and toe clearances, clear floor space requirements, door openings, turning radius, approaches, accessible routes, grab bars, and accessible hardware. All bathrooms in a Type A (accessible) dwelling unit shall be designed as fully accessible. All kitchens in a Type A (accessible) dwelling unit shall be designed as fully accessible.

Dwelling unit or sleeping unit, type B. A dwelling unit or sleeping unit designed and constructed for accessibility in accordance with Section 1002 of ICC A117.1 Accessible and Useable Buildings and Facilities and intended to be consistent with technical requirements for fair housing required by federal law. Dwelling units required to be Type B (adaptable) shall be permitted to be designed and constructed as Type A (accessible) units. A Type B (adaptable) dwelling unit has all required knee and toe clearances, clear floor space requirements, door openings, turning radius, approaches, and accessible routes. Blocking for grab bars in the bathroom is installed. Kitchen cabinets can be installed under the sink. Grab bars and kitchen cabinets are removable for a person with a disability buying or renting the unit. In Type B (adaptable) dwelling units with two or more bathrooms, only one common use bathroom is required to be designed as fully accessible.

Electric vehicle ready space. A designated parking space which is provided with one 50 ampere, 208/240 volt dedicated branch circuit for EVSE servicing Electric Vehicles. The circuit shall terminate in a suitable termination point such as a receptacle or junction box and be located in the close proximity to the proposed location of the Electric Vehicle parking space.

Electric vehicle supply equipment (EVSE). The conductors, including the ungrounded, grounded, and equipment grounding conductors, and the electric vehicle connectors, attachment plugs, and all other fittings, devices, power outlets, or apparatus installed specifically for the purpose of transferring energy between the premises wiring and the electric vehicle.

EVSE installed space. A designated parking space which is provided with EVSE installed.

High rise. All buildings having occupied floors located more than 75 feet above the lowest level of Fire Department vehicle access. This term shall not apply to structures that are not buildings.

Licensed design professional. An individual who is licensed to practice their respective design profession as defined by RSMo Ch. 327.

Licensed design professional in responsible charge. A licensed design professional engaged by the owner to review and coordinate certain aspects of the project as determined by the building official for compatibility with the design of the building or structure, including submittal documents prepared by others, deferred submittal documents, and phased submittal documents.

Project cost. The total cost of a project including professional compensation, land cost, furnishings and equipment, financing, and other charges as well as the construction cost.

Repair. The restoration to good or sound condition any part of an existing building for the purpose of its maintenance. Repair work shall not include the cutting away of any wall, partition, or portion thereof; the removal or cutting away of any structural beam or load-bearing support; or the removal or change of any required means of egress or rearrangement of parts of a structure affecting the egress requirements; nor shall ordinary repairs include addition to, alteration of, replacement or relocation of any standpipe, water supply, sewer, drainage, drain leader, gas, oil, waste, vent or similar piping, electric wiring or mechanical or other work affecting public health or general safety.

Structure, existing. A structure erected prior to the legal date of adoption of the appropriate code or one for which a legal building permit has been issued.

Sun deck. A roof area, balcony, open porch, etc., which is exposed to the sun.

Technically infeasible. An alteration of a building or a facility that has little likelihood of being accomplished because the existing structural conditions require the removal or alteration of a load-bearing member that is an essential part of the structural frame, or because other existing physical or site constraints prohibit modification or addition of elements, spaces, or features which are in full and strict compliance with the minimum requirements for new construction and which are necessary to provide accessibility.

Use group. The classification of occupancy within a building or structure in accordance with the Building Code.

CHAPTER 3 IS AMENDED AS FOLLOWS:

Add Sections 301.5.1 thru 301.5.3 to read as follows:

301.5.1 Resolving Issues of Accessible Design Solutions. Unresolved design issues related to accessibility shall be resolved by the Commissioner on the Disabled. A letter of agreement shall be drafted by the Commissioner on the Disabled to the design professional outlining the accessibility requirements. The building permit shall be issued contingent upon compliance with the letter of agreement.

301.5.2 Waiver Requirements. In order to request a waiver from the requirements of Chapter 11 of the Building Code, a property owner or design professional shall submit a written request to the Commissioner on the Disabled outlining the specific reasons for their request. The Commissioner on the Disabled shall consult with the Building Inspector, Plan Exam Section, or other Building Division staff about the property. A recommendation shall be made by the Commissioner on the Disabled to the Building Commissioner. The Commissioner on the Disabled and Building Commissioner shall agree to grant or deny the request for a waiver. The property owner or design professional is informed in writing of the decision by the Commissioner on the Disabled. This decision is not subject to appeal by the Board of Building Appeals. Permits for the renovated or altered building shall only be issued contingent upon compliance with the letter of agreement.

301.5.3 Waiver Criteria. A waiver of accessibility requirements may be granted if any or all of the following conditions exist:

1. It is technically infeasible to achieve accessibility as determined by the Commissioner on the Disabled.

2. The type of business or work being performed at a property, i.e. physically demanding or requiring a high level of strength and physical mobility, cannot be reasonably performed by a person with a mobility impairment. This is determined by the Commissioner on the Disabled.

3. In an existing multi-floor building with two or more floors, where the functions on the second or other floors above grade are identical to all the functions on the first floor, vertical accessibility can be waived if the first floor is fully accessible. This is determined by the Commissioner on the Disabled on a case by case basis.

Change Section 302.3 to read as follows:

302.3 Additional Codes. Alterations, repairs, additions and changes of occupancy to, or relocation of, existing buildings and structures shall comply with the provisions for alterations, repairs, additions and changes of occupancy or relocation, respectively, in this code and the Energy Conservation Code, Fire Code, Fuel Gas Code, Mechanical Code, Plumbing Code, Property Maintenance Code, Residential Code and NFPA 70. Where provisions of the other codes conflict with provisions of this code, the provisions of this code shall take precedence.

Change Sections 305.4.1 and 305.4.2 to read as follows:

305.4.1 Partial Change in Occupancy. Where a portion of the building is changed to a new occupancy classification, any alterations shall comply with Sections 705 and 806 as applicable.

305.4.2 Complete Change of Occupancy. Where an entire building undergoes a change of occupancy, it shall comply with Section 1012.8.1 and shall have all of the following accessible features:

1. At least one accessible building entrance.

2. At least one accessible route from an accessible building entrance to primary function areas.

3. Signage complying with Section 1110 of the Building Code.

4. Accessible parking, where parking is being provided.

5. At least one accessible passenger loading zone, where loading zones are provided.

6. At least one accessible route connecting accessible parking and accessible passenger loading zones to an accessible entrance.

7. Accessible toilets shall be provided. Where full compliance is not possible, a single-fixture unisex accessible toilet shall be permitted.

Where it is technically infeasible to comply with the new construction standards for any of these requirements for a change of use group or occupancy, the above items shall conform to the requirements to the maximum extent technically feasible. Changes of use group or occupancy that incorporate any alterations or additions shall comply with this section and Sections 705.1 and 705.2 as applicable.

Exceptions:

1. Type B dwelling units required by Section 1107 of the Building Code are not required to be provided in existing buildings and facilities undergoing a change of occupancy in conjunction with less than a level 3 alteration.

2. Waivers as provided for in Sections 705.4 and 705.5.

Change Section 305.8.7 to read as follows:

305.8.7 Type A Dwelling or Sleeping Units. Where 12 or more Group R-2 dwelling or sleeping units are being altered or added, the requirements of Section 1107 of the Building Code for Type A units apply only to the quantity of the spaces being altered or added.

Change Section 305.9 to read as follows:

305.9 Accessibility Requirements. The provisions of Section 1012.8 shall apply to buildings and facilities designated as historic structures that undergo a change of occupancy unless technically infeasible. Where compliance with the requirements for accessible routes, ramps, entrances, or toilet facilities would threaten or destroy the historic significance of the building or facility as determined by the authority having jurisdiction, the alternative requirements of Sections 1204.1.1 through 1204.1.4 for that element shall be permitted.

Exceptions:

1. Type B dwelling or sleeping units required by Section 1107 of the Building Code are not required to be provided in historic buildings.

2. Waivers as provided for in Section 301.5.2 and 301.5.3.

CHAPTER 4 IS AMENDED AS FOLLOWS:

Change Section 408.1 to read as follows:

408.1 Materials. Plumbing materials and supplies shall not be used for repairs that are prohibited in the Plumbing Code.

CHAPTER 7 IS AMENDED AS FOLLOWS:

Change Section 702.6 to read as follows:

702.6 Materials and Methods. New work shall comply with the materials and methods requirements in the Building Code, Energy Conservation Code, Mechanical Code and Plumbing Code, as applicable, that specify material standards, detail of installment and connection, joints, penetrations, and continuity of any element, component, or system in the building.

Add Sections 704.2 and 704.3 to read as follows:

704.2 Alternate to Second Stair. An existing building shall be allowed to have a single stair provided it complies with all of the following conditions:

1. The entire building shall be fully sprinklered, all rooms and spaces with no exceptions.

2. Floor area shall be 10,000 square feet or less per floor.

3. The window sill height on the top floor shall be 100 feet or less from the lowest level of Fire Department vehicle access.

4. Standby power, light, and emergency systems are required in all buildings having occupied floors located more than 75 feet above the lowest level of Fire Department vehicle access.

5. Public corridors shall have a two hour fire rated construction in a straight line with no turns. All tenant separation wall, partitions, and floor/ceiling assemblies shall be a minimum of two-hour fire-rated construction.

6. The entire building shall have a complete fire alarm system.

7. Groups above the fifth floor shall be limited to B, M, R, S-1 and S-2. H Group occupancies shall not be allowed in the building.

8. Atriums and communicating stairs are not allowed in the building.

9. Stair enclosure shall be a minimum two hour fire rated construction with mechanical pressurization and automatic fire detection systems powered by an approved standby power system and a standpipe and hose connections at each floor. Stair shall be constructed of steel, steel pan, concrete or acceptable noncombustible construction.

10. All public corridors shall have emergency and exit lighting.

11. Stair shall discharge directly to the exterior or be connected to an exterior exit by a two-hour fire-rated exit access corridor enclosure.

12. The basement, if used for any purpose other than mechanical equipment or storage, must have two means of egress.

704.3 Dual Exits Over Two Stories. All habitable buildings over two stories in height containing one or more dwelling units above the second floor shall provide two separate exits from each floor above the second floor, accessible to each dwelling unit on said floor. All required exit facilities shall lead to a public thoroughfare either directly or through a court or yard, and passage to such exits shall not lead through any other dwelling unit. Dual means of exit shall consist of two interior stairs discharging directly or through a rated exit enclosure to the outside, or one interior and one exterior stair or existing fire escape accessible to all dwelling units on each floor above the second floor and discharging directly or through a court or yard to a public thoroughfare.

Exceptions:

1. Buildings permitted to have only one means of egress under the Building Code.

2. Single-Family Dwelling Units of Use Group R-3, two and one-half or three stories in height, of Type III (exterior masonry) construction, shall be exempt from the requirements for two exits.

3. A single exit shall be permitted from townhouse dwelling units located on the second and third floors, in buildings of Type III (exterior masonry) construction, provided that the exit is from the second floor, with a minimum of forty percent of the habitable space located on the second floor, and all of the following requirements are met:

A. Horizontal and vertical fire separation assemblies based on the Use Group classification between the first and second floor, as determined under the Building Code, are installed. A horizontal fire separation is not required between a first floor commercial space and dwelling units above provided that an AC-powered battery back-up interconnected smoke detection system is installed in the commercial space and basement with remote alarms in all dwelling units above or in the common stair and hall if audible within all dwelling units.

B. The building is limited to a maximum of six dwelling units and three stories in height.

C. An AC-powered battery back-up interconnected smoke detection system is installed for each dwelling unit throughout the building including the basement. The location of the smoke detectors shall be sufficient to detect smoke in any habitable room or basement.

CHAPTER 8 IS AMENDED AS FOLLOWS:

Change Section 803.2.2 to read as follows:

803.2.2 Groups A, B, E, F-1, H, I, M, R-1, R-2, R-4, S-1, and S-2. In buildings with occupancies in Groups A, B, E, F-1, H, I, M, R-1, R-2, R-4, S-1 and S-2, work areas that have exits or corridors shared by more than one tenant or that have exits or corridors serving an occupant load greater than 30 shall be provided with automatic sprinkler protection where all of the following conditions occur:

1. The work area is required to be provided with automatic sprinkler protection in accordance with the Building Code as applicable to new construction; and

2. The work area exceeds 50 percent of the floor area.

Exceptions:

1. If the building does not have sufficient municipal water supply for design of a fire sprinkler system available to the floor without installation of a new fire pump, work areas shall be protected by an automatic smoke detection system throughout all occupiable spaces other than sleeping units or individual dwelling units that activates the occupant notification system in accordance with Sections 907.4, 907.5, and 907.6 of the Building Code.

2. Work areas in existing Group R occupancies three stories or less in height when the building is equipped throughout with a hard-wired smoke detection system.

Add Section 805.1.1 to read as follows:

805.1.1 Entrance. A building, facility, or element that is altered shall comply with Section 704. An accessible entrance shall be provided when entrance steps are being replaced in buildings required to be accessible. Vertical platform lifts can be used to achieve vertical accessibility. In an existing multi-floor building with two or more floors above grade where the functions on the second or other floors above grade are identical to all the functions on the first floor and is the same tenant, vertical accessibility can be waived by the Commissioner on the Disabled on a case by case basis if the first floor is totally accessible.

In Level 2 alterations that involve a change of use or occupancy to Use Group R-2 and containing more

than twenty dwelling units, at least two percent but not less than one of the dwelling units shall be Type A dwelling units.

Change Sections 807, 808 and 809 to read as follows:

SECTION 809 ELECTRICAL

809.1 Electrical. In buildings undergoing Level 2 Alterations, the electrical system shall meet NFPA 70.

SECTION 810 MECHANICAL

810.1 Mechanical Systems. In buildings undergoing Level 2 Alterations, all mechanical systems shall meet the Mechanical Code.

SECTION 811 PLUMBING

811.1 Plumbing Systems. In buildings undergoing Level 2 Alterations, the plumbing system shall meet the Plumbing Code.

CHAPTER 10 IS AMENDED AS FOLLOWS:

Change Sections 1009.1, 1009.2, 1009.3 and 1009.5 as follows:

1009.1 Increased Demand. Where the occupancy of an existing building or part of an existing building is changed such that the new occupancy is subject to increased or different fixture requirements or to increased water supply requirements in accordance with the Plumbing Code, the new occupancy shall comply with the intent of the respective Plumbing Code provisions.

1009.2 Food-Handling Occupancies. If the new occupancy is a food-handling establishment, all existing sanitary waste lines above the food or drink preparation or storage areas shall be panned or otherwise protected to prevent leaking pipes or condensation on pipes from contaminating food or drink. New drainage lines shall not be installed above such areas and shall be protected in accordance with the Plumbing Code.

1009.3 Interceptor Required. If the new occupancy will produce grease or oil-laden wastes, interceptors shall be provided as required in the Plumbing Code.

1009.5 Group I-2. If the occupancy group is changed to Group 1-2, the plumbing system shall comply with the applicable requirements of the Plumbing Code.

CHAPTER 12 IS AMENDED AS FOLLOWS:

Add Sections 1201.6 and 1201.6.1 to read as follows:

1201.6 Cultural Resources Office Permit Requirements. When the ordinances of the Cultural Resources Office (CRO) require a permit for items for which this code does not require a permit, applications shall be permitted to be taken by the Building Division and processed solely to the Cultural Resources Office. Both the Building Commissioner and the Cultural Resources Director are authorized to place stop work orders. Any appeals or court actions resulting from such citations, applications, or permits shall have technical and aesthetic testimony from the staff of the Cultural Resources Office.

1201.6.1 Cultural Resources Office Denial. Unless overruled by the Building Commissioner as a result of an emergency situation or the Planning and Urban Design Commission, a denial from the Cultural Resources Office shall be the final denial; no further notice from the building official shall be required to any person.

CHAPTER 15 IS AMENDED AS FOLLOWS:

Change Section 1501.7 to read as follows:

1501.7 Facilities Required. Sanitary facilities shall be provided during construction or demolition activities in accordance with the Plumbing Code.

CHAPTER 16 IS AMENDED AS FOLLOWS:

Modify Chapter 16 by adding the following:

IAPMO International Association of Plumbing and Mechanical Officials

5001 E. Philadelphia Street

Ontario, CA 91761-2816

UPC-09-Uniform Plumbing Code

302.3, 408.1, 702.6, 809.1, 1009.1, 1009.2, 1009.3, 1009.5, 1501.7

SECTION 908 ELECTRIC VEHICLE CHARGING STATIONS

908.1 Electric vehicle charging stations. Electric vehicle charging stations shall be installed in accordance with NFPA 70. Electric vehicle charging system equipment shall be listed and labelled in accordance with UL 2202. Electric vehicle supply equipment shall be listed and labelled in accordance with UL 2594. Accessibility to electric vehicle charging stations shall be provided in accordance with Section 305. Where an EV Ready or EVSE Installed parking space is required, at least one

EV Ready or EV Installed parking space shall be installed adjacent to an ADA accessible parking space, when an ADA accessible parking space is also required.

Where the calculation of percent served results in a fractional parking space, it shall be rounded up to the next whole number if the fraction is .5 (½) of a parking space or greater. This requirement does not apply to buildings without a designated parking space, nor does this requirement apply to parking spaces located in the public right of way.

For the following Use Groups Level 3 alterations shall require installation of EV Ready Spaces and Electric Vehicle Supply Equipment (EVSE) in accordance with Tables 908.1.1 through Table 908.1.5:

TABLE 908.1.1 NON-RESIDENTIAL USE GROUPS WITH EV READY AND EVSE INSTALLED REQUIREMENT PER TABLE 908.1.2

Use Group	Applicability
A1	All
A2	Casinos uses only, excluding all other uses within A2
A3	Excluding places of religious worship
A4	All
A5	All
B	All
E	Excluding daycare uses as defined by Section 305.2
I2	Hospital uses only as defined by Section 308.3.1.2, Condition 2
M	All
S2	Parking garages, open or enclosed only, excluding all other uses within S-2

TABLE 908.1.2 EV READY AND EVSE INSTALLED SPACE REQUIREMENTS FOR NON-RESIDENTIAL USE GROUPS

Total Number of Parking Spaces	Minimum Number of EV Ready Spaces	Minimum Number of EVSE Installed Spaces
10—30 spaces	1 space	0 spaces
31—49 spaces	2 spaces	1 space
50 spaces and greater	5% of total parking spaces	2% of total parking spaces

TABLE 908.1.3 RESIDENTIAL USE GROUPS WITH EV READY AND EVSE INSTALLED REQUIREMENT PER TABLES 908.1.4 AND 908.1.5

Use Group	Applicability
R1	All
R2	All

TABLE 908.1.4 EV READY AND EVSE INSTALLED SPACE REQUIREMENTS FOR RESIDENTIAL USE GROUPS, JANUARY 1, 2022 THROUGH DECEMBER 30, 2024.

Total Number of Parking Spaces	Minimum Number of EV Ready Spaces	Minimum Number of EVSE Installed Spaces
5—20 spaces	1 space	0 spaces
21—49 spaces	2 spaces	1 space
50 spaces and greater	5% of total parking spaces	2% of total parking spaces

TABLE 908.1.5 EV READY AND EVSE INSTALLED SPACE REQUIREMENTS FOR RESIDENTIAL USE GROUPS, JANUARY 1, 2025 AND AFTER

Total Number of Parking Spaces	Minimum Number of EV Ready Spaces	Minimum Number of EVSE Installed Spaces
5—20 spaces	1 spaces	0 spaces
21—49 spaces	2 spaces	1 space
50 spaces and greater	10% of total parking spaces	2% of total parking spaces

(Ord. No. 71990, § 3, 2-25-2025; Ord. No. 71292, §§ 1—3, 2-11-2021; Ord. No. 70797, § 3, 7-6-2018.)

25.20.030 Penalty.

Any person who shall violate a provision of this code or shall fail to comply with any of the requirements thereof, or who shall erect, construct, alter, extend, repair, remove, demolish, use, or occupy any building, structure, premises, or equipment regulated by this code in violation of an approved construction document or directive of the building official or the Board of Building Appeals, or of a permit or certificate issued under the provisions of this code, shall be subject to, a fine as set forth in Section 25.33.040. Each day that a violation continues shall constitute a separate and distinct offense.

(Ord. No. 71990, § 2, 2-25-2025; Ord. No. 70797, § 4, 7-6-2018.)

Chapter 25.32

INTERNATIONAL PROPERTY MAINTENANCE

Editor's Note:

Ord. No. 70798, adopted July 6, 2018, adopting the 2018 International Property Maintenance Code with amendments, repealed and replaced Ordinance No. 68791. Ord. No. 68791, adopted Nov. 8, 2010, repealed Ch. 25.32 and enacted a new chapter. The former Ch. 25.32, §§ 25.32.010—25.32.500, pertained to similar subject matter and derived from Ord. No. 66787, §§ 2—4, 2005.

Prior ordinance history: Ords. 57023, 60828, 63695, 64417, 65023 and 65929

Sections:

25.32.010 Adoption.

25.32.020 Amendments.

25.32.030 Penalty.

25.32.010 Adoption.

The 2018 International Property Maintenance Code as published by the International Code Council, Inc., one copy of which is on file in the office of the Register of the City of Saint Louis, being marked and desig-

nated as the International Property Maintenance Code, is hereby adopted as the Property Maintenance Code of the City of Saint Louis, in the State of Missouri, pursuant to this chapter and in conformity with RSMo 71.943 for the control of buildings and structures as herein provided; and that each and all of the regulations, provisions, penalties, conditions, and terms of said Property Maintenance Code are hereby referred to, adopted, and made a part hereto as if fully set out in this chapter with the amendments prescribed in Section 25.32.020. If differences occur between a provision modified by this chapter and a provision adopted without modifications, then the modified provision shall control. (Ord. No. 70798, § 2, 7-6-2018.)

RSMo:

RSMo 67.280 (2016) Adoption of technical codes by reference

25.32.020 Amendments.

The 2018 International Property Maintenance Code is amended and changed in the following respects:

CHAPTER 1 IS AMENDED AS FOLLOWS:

Delete Chapter 1 as published in its entirety.

Add a new Chapter 1 to read as follows:

CHAPTER 1

SCOPE AND ADMINISTRATION

SECTION 101 GENERAL

101.1 Title. These regulations shall be known as the Property Maintenance Code of the City of Saint Louis, Missouri, hereinafter referred to as "this code."

101.2 Scope. The provisions of this code shall apply to all existing residential and nonresidential structures and all existing premises and shall constitute minimum requirements and standards for premises, structures, equipment, and facilities for light, ventilation, space, heating, sanitation, protection from the elements, life safety, safety from fire and other hazards, and for safe and sanitary maintenance; the responsibility of owners, operators, and occupants; the occupancy of existing structures and premises, and for administration, enforcement, and penalties.

101.3 Intent. This code shall be construed to secure its expressed intent, which is to ensure public health, safety, and general welfare insofar as they are affected by the continued occupancy and maintenance of structures and premises. Existing structures and premises that do not comply with these provisions shall be altered or repaired to provide a minimum level of health and safety as required herein.

101.4 Severability. If a section, subsection, sentence, clause or phrase of this code is, for any reason, held to be unconstitutional, such decision shall not affect the validity of the remaining portion of this code.

SECTION 102 APPLICABILITY

102.1 General. Where in any specific case, different sections of this code specify different materials, methods of construction, or other requirements, the most restrictive shall govern. Where there is a conflict between a general requirement and a specific requirement, the specific requirement shall be applicable.

102.2 Other Laws. The provisions of this code shall not be deemed to nullify any provisions of local, state, or federal law.

102.3 Application of References. References to chapter or section numbers or to provisions not specifically identified by number shall be construed to refer to such chapter, section, or provision of this code.

102.4 Referenced Codes and Standards. The codes and standards referenced in this code shall be considered part of the requirements of this code to the prescribed extent of each such reference. Where differences occur between provisions of this code and referenced standards, the provisions of this code shall apply. Referenced standards shall be permitted to be updated by rule making authority of the building official.

102.5 Partial Invalidity. In the event any part or provision of this code is held to be illegal or void, this shall not have the effect of making void or illegal any of the other parts or provisions.

102.6 Maintenance. Equipment, systems, devices, and safeguards required by this code or a previous regulation or code under which the structure or premises was constructed, altered, or repaired shall be maintained in good working order. The requirements of this code are not intended to provide the basis for removal or abrogation of fire protection and safety systems and devices in existing structures. Except as otherwise specified herein, the owner or the owner's designated agent shall be responsible for the maintenance of buildings, structures, and premises.

102.7 Application of Other Codes. Repairs, additions, or alterations to a structure or changes of occupancy shall be done in accordance with the procedures

and provisions of the Building Code, Existing Building Code, Residential Code for One- and Two-family Dwellings, Plumbing Code, Mechanical Code, Fuel Gas Code, and Electrical Code. Nothing in this code shall be construed to cancel, modify, or set aside any provision of the zoning code.

102.8 Existing Remedies. The provisions in this code shall not be construed to abolish or impair existing remedies of the City of Saint Louis or its officers or agencies relating to the removal or demolition of any structure which is dangerous, unsafe, and unsanitary.

102.9 Other Regulations. When the provisions specified herein for public safety, health, and welfare are in conflict with other regulations, the most rigid requirements of either the Building Code or other regulations shall apply whenever they conflict. However, the building official shall not be the enforcement officer for such other ordinances or regulations unless specified in said ordinances or regulations.

102.10 Requirements Not Covered by Code. Requirements necessary for the strength, stability or proper operation of an existing structure or equipment, or for the public safety, health, and general welfare not specifically covered by this code shall be determined by the building official.

102.11 Historic Buildings. The provisions of this code shall not be mandatory for existing buildings or structures designated by the state or local jurisdiction as historic buildings when such buildings or structures are judged by the building official to be safe and in the public interest of health, safety, and welfare.

SECTION 103 DIVISION OF BUILDING AND INSPECTION

103.1 Enforcement Agency. The enforcement agency shall be the Division of Building and Inspection. The Division shall consist of the following sections to include, but not be limited to: Administration Section, Building Inspection Section, Central File Section, Court Section, Electrical Inspection Section, Mechanical Inspection Section, Permit Section, Plan Exam Section, Plumbing Inspection Section, and Zoning Section.

103.2 Building Commissioner. The head of the Division of Building and Inspection shall be known as the Building Commissioner, in accordance with Section 15, Article 13 of the Charter of the City of Saint Louis.

103.2.1 Appointment; Qualifications. The Building Commissioner, also herein referred to as the building official, shall be a Missouri licensed professional architect or a Missouri licensed professional engineer, or shall have a bachelors degree in an appropriately related field with Certified Building Code Official status, or shall have a masters degree in an appropriately related field and five years' experience in building code enforcement at a senior management level. The Building Commissioner shall be appointed by the Director of Public Safety and shall possess any one of the above necessary qualifications.

103.3 Organization. The building official shall appoint such numbers of architects, engineers, technical assistants, inspectors, and other employees such as clerks, typists, and cashiers as shall be necessary for the administration of the codes governed by this chapter and as authorized by the building official in conformance with Civil Service qualifications and regulations. The building official shall be permitted to delegate appropriate subordinates to act in the exercise of the duties of this code and they also shall be designated as building officials. The building official is authorized to designate employees as needed who shall exercise all the powers of the building official during the temporary absence or disability of the building official.

103.4 Restriction of Employees. An official or employee connected with the Division of Building and Inspection, except one whose only connection is that of a member of the Board of Building Appeals established under the provisions of Section 112, shall not be engaged in directly or indirectly connected with the furnishing of labor, materials, or appliances for the construction, alteration, or maintenance of a building or the preparation of construction documents thereof unless that person is the owner of the building or a first degree relative of the owner of the building; nor shall such officer or employee engage in any work which conflicts with official duties or with the interests of the Division of Building and Inspection.

Further, no Building Division employee shall be employed by or serve as an employee of any other division within the City service unless a formal request is made by the Building Commissioner to and approved by the appointing authority of that Division.

103.5 Relief from Personal Responsibility. The building official or employee charged with the enforcement of this code while acting for the jurisdiction shall not thereby be rendered liable personally and is hereby relieved from all personal liability for any damage accruing to persons or property as a result of any act

required or permitted in the discharge of official duties. Any suit instituted against any employee because of an act performed by that person in the lawful discharge of duties and under the provisions of this code shall be defended by the City of Saint Louis City Counselor's Office until the final termination of the proceedings. The building official or any subordinates shall not be liable for costs or judgment in any action, suit, or proceeding that is instituted in pursuance of the provisions of this code; and any employee of the Division of Building and Inspection acting in good faith and without malice shall be free from liability for acts performed under any of its provisions or by reason of any act or omission in the performance of official duties in connection therewith.

The above protection shall also extend to former employees for work performed during their period of employment with the City of Saint Louis.

103.6 Official Records. An official record shall be kept of all business and activities of the department specified in the provisions of this code and all such records shall be open to public inspection at all appropriate times.

A reasonable charge shall be established for making copies of documents. If staff time is required to assemble requested data, an estimate shall be made of personnel charges including fringe benefits and a signed agreement made prior to undertaking such projects. The Division of Building and Inspection is not obligated to assemble data into formats that it does not use or need in the ordinary prosecution of its work.

Further, whenever any person, firm, or corporation requests a comprehensive historical investigation of the Division of Building and Inspection records relating to building or occupancy permits, an application fee of $25.00 shall be charged as specified in the Building Code.

SECTION 104 DUTIES AND POWERS OF THE BUILDING OFFICIAL

104.1 General. The building official is hereby authorized and directed to enforce the provisions of this code. The building official shall have the authority to render interpretations of this code and adopt policies and procedures in order to clarify the application of its provisions. Such interpretations, policies, and procedures shall be in conformance with the intent and purpose of this code. Such policies and procedures shall not have the effect of waiving requirements specifically provided for in this code.

104.1.1 Rule making authority. The Building Commissioner shall have authority as necessary in the interest of public health, safety, and general welfare to adopt and promulgate rules and regulations to interpret and implement the provisions of this code, to secure the intent thereof, and to designate requirements applicable because of local climatic or other conditions. Such rules shall not have the effect of waiving structural or fire performance requirements specifically provided for in this code or violating accepted engineering practice involving public safety.

104.2 Inspections. The building official shall make all of the required inspections, or the building official shall have the authority to accept reports of inspection by approved agencies or individuals. Reports of such inspections shall be in writing and certified by a responsible officer of such approved agency or by the responsible individual. The building official is authorized to engage such expert opinion as deemed necessary to report upon unusual technical issues that arise, subject to the approval of the appointing authority. The owner shall provide such special inspections as are required by the building official.

104.3 Right of Entry. Where it is necessary to make an inspection to enforce the provisions of this code or where the building official has reasonable cause to believe that there exists in a structure or upon a premises a condition which is contrary to or in violation of this code which makes the structure or premises unsafe, dangerous, or hazardous, the building official is authorized to enter the structure or premises at reasonable times to inspect or perform the duties imposed by this code, provided that if such structure be occupied, that credentials be presented to the occupant and entry requested. If such structure or premises be unoccupied, the building official shall first make a reasonable effort to locate the owner or other person having charge or control of the structure or premises and request entry. If entry is refused, the building official shall recourse to the remedies provided by law to secure entry.

104.4 Identification. The building official shall carry proper identification when inspecting buildings, structures, or premises in the performance of duties under this code.

104.5 Notices and Orders. The building official shall issue all necessary notices or orders to ensure compliance with the code.

104.6 Nuisance. The building official is authorized to enter and inspect every room, building, structure, or portion thereof which constitutes a nuisance as defined herein within forty-eight hours of being notified by the Police Department that such condition exists. The Police Department shall notify the building official of a nuisance property within twenty-four hours of identifying such property. If the owner or occupant of said building or structure refuses to permit an inspection, the building official shall be permitted to immediately condemn for occupancy the building, structure, or portion thereof, and issue an order to vacate if, under the totality of the circumstances, the building official has reasonable cause to believe a nuisance as defined herein exists. In the event that any person refuses to leave, interferes with the evacuation of other occupants, or continues any operation within said building, structure, or portion thereof after having been given an evacuation order by the building official, it shall be the duty of the Police Department to immediately remove such person from said building or structure and prevent anyone from reentering the building or structure until such time as the Police Department has been notified by the building official that the order to condemn for occupancy has been rescinded. For purposes of this section a nuisance shall be defined as any violation of this chapter which if not promptly corrected will constitute a fire hazard or a threat to the life, health, or safety of the occupants of the building, structure, or portion thereof in which the violations occur.

104.8 Liability. The building official, member of the Board of Building Appeals, or employee charged with the enforcement of this code, while acting for the City of Saint Louis in good faith and without malice in the discharge of the duties required by this code or other pertinent law or ordinance, shall not thereby be rendered civilly or criminally liable personally and is hereby relieved from personal liability for any damage accruing to persons or property as a result of any act or by reason of an act or omission in the discharge of official duties.

104.8.1 Legal Defense. Any suit or criminal complaint instituted against an officer or employee because of an act performed by that officer or employee in the lawful discharge of duties and under the provisions of this code shall be defended by the City of Saint Louis City Counselor's Office until the final termination of the proceedings. The building official or any subordinates shall not be liable for cost or judgment in any action, suit or proceeding that is instituted in pursuance of the provisions of this code; and any employee of the Division of Building and Inspection, acting in good faith and without malice, shall be free from liability for acts performed under any of its provisions or by reason of any act or omission in the performance of official duties in connection therewith.

The above protection shall also extend to former employees for work performed during their period of employment with the City of Saint Louis.

SECTION 105 APPROVAL

105.1 Modifications. Wherever there are practical difficulties involved in carrying out provisions of this code, the building official shall have the authority to grant modifications for individual cases upon application of the owner or owner's representative provided the building official shall first find that special individual reason makes the strict letter of this code impractical and the modification is in compliance with the intent and purpose of this code and that such modification does not lessen health, accessibility, life and fire safety, or structural requirements. The details of action granting modifications shall be recorded and entered in the files of the Department of Public Safety.

105.2 Alternative Materials, Design, and Methods of Construction and Equipment. The provisions of this code are not intended to prevent the installation of any material or to prohibit any design or method of construction not specifically prescribed by this code provided any such alternative has been approved. An alternative material, design, or method of construction shall be approved where the building official finds that the proposed design is satisfactory and complies with the intent of the provisions of this code and that the material, method, or work offered is, for the purpose intended, at least the equivalent of that prescribed in this code in quality, strength, effectiveness, fire resistance, durability, and safety.

105.3 Tests. Whenever there is insufficient evidence of compliance with the provisions of this code, or evidence that a material or method does not conform to the requirements of this code, or in order to substantiate claims for alternative materials or methods, the building official shall have the authority to

require tests as evidence of compliance to be made at no expense to the jurisdiction. Test methods shall be as specified in this code or by other recognized test standards. In the absence of recognized and accepted test methods, the building official shall approve the testing procedures. Tests shall be performed by an approved agency. Reports of such tests shall be retained by the building official for the period required for the retention of public records.

105.3.1 Research and Investigations. The building official shall require that sufficient technical data be submitted to substantiate the proposed use of any material or assembly, and if it is determined that the evidence submitted is satisfactory proof of performance for the use intended, the building official shall approve its use subject to the requirements of this code. The costs of all tests, reports and investigations required under these provisions shall be paid by the applicant or owner.

105.4 Used Materials and Equipment. The use of used materials which meet the requirements of this code for new materials is permitted. Used equipment and devices shall not be reused unless they have been reconditioned, tested, and placed in good and proper working condition and approved by the building official.

105.5 Approved Materials and Equipment. Materials, equipment, and devices approved by the building official shall be constructed and installed in accordance with such approval.

105.6 Research Reports. Supporting data, where necessary to assist in the approval of materials or assemblies not specifically provided for in this code, shall consist of valid research reports from approved sources.

SECTION 106 VIOLATIONS

106.1 Unlawful Acts. It shall be unlawful for any person, firm, or corporation to grade for, excavate for, erect, construct, alter, extend, repair, move, remove, demolish, use, or occupy any building, structure, premises, or equipment regulated by this code or cause same to be done in conflict with or in violation of the provisions of this code or any decision or order of the Board of Building Appeals or the building official.

106.2 Notice of Violation. The building official is authorized to serve a notice of violation or order on the owner as shown in the records of the City of Saint Louis Assessor's Office or person responsible for the grading, excavating, erection, construction, alteration, extension, repair, moving, removal, demolition, use, or occupancy of a building, structure, or premises in violation of the provisions of this code, or in violation of a detail statement or construction documents approved hereunder, or in violation of a permit or certificate issued under the provisions of this code. Such order shall direct the discontinuance of the illegal action or condition and the abatement of the violation. Such notice shall be permitted to be served by the United States mail. Posting of the premises shall also constitute notice. It shall be a violation of this code for any person to remove any such notice lawfully posted pursuant to this code unless otherwise ordered by the building official.

106.2.1 Investigation of Records. Upon the receipt of a written request from the owner of the property, the real estate agent for the property, or the attorney, architect, or engineer representing the owner of the property, the permit section supervisor shall ask the various building division sections for copies of any existing violation letters concerning the property. If the request is not on the owner's letterhead, a notarized authorization from the owner must be submitted.

The response letter written by the permit section supervisor shall list any known violations and must contain the following statement: "This letter does not certify that there are no actual existing violations of the ordinances for which the Division of Building and Inspection is responsible. To determine if there are any violations of any ordinances, an application for an occupancy permit must be filed in accordance with Section 111.5 of the Building Code and the subsequent inspections completed. This letter does certify there are no existing letters of violation on record other than those attached herein. There will be a $25.00 fee charged for this service. Five working days will be allowed to respond to this request."

106.3 Prosecution of Violation. If the notice of violation is not complied with promptly, the building official is authorized to request the legal counsel of the City of Saint Louis to institute the appropriate proceeding at law or in equity to restrain, correct, or abate such violation or to require the removal or termination of the unlawful occupancy of the building, structure, or premises in violation of the provisions of this code or of the order or direction made pursuant thereto.

106.4 Violation Penalties. Any person who violates a provision of this code or fails to comply with any of the requirements thereof or who erects, constructs,

alters, or repairs a building or structure in violation of the approved construction documents, of a directive of the building official, or of a permit or certificate issued under the provisions of this code shall be subject to penalties as prescribed in Section 25.32.030.

106.5 Abatement of Violation. The imposition of penalties as set forth in Section 25.32.030 shall not preclude the legal officer of the City of Saint Louis from instituting appropriate action to prevent unlawful construction; to restrain, correct, or abate a violation; to prevent illegal occupancy of a building, structure, or premises; or to stop an illegal act, conduct business, or use of a building or structure on or about any premises.

SECTION 107 NOTICES AND ORDERS

107.1 Notice to Owner or to Person or Persons Responsible. Whenever the building official determines that there has been a violation of this code or has grounds to believe that a violation has occurred, notice shall be given to the owner or the person or persons responsible therefore in the manner prescribed in Sections 107.2 and 107.3.

107.2 Form. Such notice prescribed in Section 107.1 shall:

1. Be in writing;
2. Include a description of the real estate sufficient for identification;
3. Include a statement of the violation or violations and why the notice is being issued;
4. Include a correction order allowing a reasonable time to make the repairs and improvements required to bring the dwelling unit or structure into compliance with the provisions of this code; and
5. Inform the property owner of the right to appeal.

107.3 Method of Service. The notice to the owner of the building, structure, or premises found to be in violation of this code by the building official shall be directed to the owner or owners of such building, structure, or premises as recorded most recently in the City of Saint Louis Assessor's Office. The notice shall be served in one of the following ways:

1. Delivered personally to owner or owners; or
2. By posting a copy of said notice upon the building, structure, or premise; or
3. By mailing a copy of said notice by regular mail, postage prepaid, direct to the owner or owner's place of business or the address currently recorded in the Assessor's Office of the City of Saint Louis; or
4. By publication in a newspaper of general circulation in the City of Saint Louis.

107.4 Unauthorized Tampering. Signs, tags, or seals posted or affixed by the building official shall not be mutilated, destroyed, tampered with, or removed without authorization from the building official.

107.5 Penalties. Penalties for noncompliance with orders and notices shall be as set forth in Section 25.32.030.

107.6 Transfer of Ownership. It shall be unlawful for the owner of any dwelling unit or structure who has received a compliance order or upon whom a notice of violation has been served to sell, transfer, mortgage, lease, or otherwise dispose of to another until the provisions of the compliance order or notice of violation have been complied with or until such owner shall first furnish the grantee, transferee, mortgagee, or lessee a true copy of any compliance order or notice of violation issued by the building official and shall furnish to the building official a signed and notarized statement from the grantee, transferee, mortgagee, or lessee acknowledging the receipt of such compliance order or notice of violation and fully accepting the responsibility without condition for making the corrections or repairs required by such compliance order or notice of violation.

107.7 Continuation of Violation. Any notice sent pursuant to this code or any other ordinance of the City of Saint Louis concerning the condition of a property or structure, including building, health, safety, or environmental, shall run with the land and no further notices are required to be sent to any new owner except any violation notice or condemnation of structure or property shall be in full force and effect upon transfer of property and the City is not required to reissue the notice or re-condemn the property unless twelve months have elapsed since the last notice.

SECTION 108 UNSAFE BUILDINGS, STRUCTURES AND EQUIPMENT

108.1 Conditions. Buildings, structures, or equipment that are or hereafter become unsafe, unsanitary, or deficient because of inadequate means of egress, facilities, inadequate light and ventilation, or a fire hazard; are otherwise dangerous to human life or the public welfare; or which involve illegal or improper occupancy or inadequate maintenance shall be deemed in unsafe condition. Unsafe buildings or structures shall be taken down and removed or made safe as the

building official deems necessary and as provided for in this section. A vacant structure that is not secured against entry shall be deemed unsafe.

108.2 Closing of Vacant Structures. If the structure is vacant and unfit for human habitation and occupancy and is not in danger of structural collapse, the building official is authorized to post a placard of condemnation on the premises and order the structure closed so as not to be an attractive nuisance. Upon failure of the owner to close up the premises within the time specified in the order, the building official shall cause the premises to be closed and secured through any available public agency or by contract or arrangement by private persons and the cost thereof shall be charged against the real estate upon which the structure is located and shall be a lien upon such real estate and may be collected by any other legal resource.

108.2.1 Authority to Disconnect Service Utilities. The building official shall have the authority to authorize disconnection of utility service to the building, structure, or system regulated by this code and the referenced codes and standards set forth in Section 102.7 in case of emergency where necessary to eliminate an immediate hazard to life or property or when such utility connection has been made without approval. The building official shall notify the serving utility and, whenever possible, the owner and occupant of the building, structure, or service system of the decision to disconnect prior to taking such action. If not notified prior to disconnection the owner or occupant of the building, structure, or service system shall be notified in writing as soon as practical thereafter.

108.3 Notice. If an unsafe condition is found, the building official shall serve on the owner, agent, or person in control of the structure a written notice that describes the condition deemed unsafe and specifies the required repairs or improvements to be made to abate the unsafe condition or that requires the unsafe structure to be demolished within a stipulated time. Such notice shall require the person thus notified to declare immediately to the building official acceptance or rejection of the terms of the order.

108.3.1 Prohibited Occupancy. Any occupied structure condemned and placarded by the building official shall be vacated as ordered by the building official. Any person who shall occupy a placarded premises or shall operate placarded equipment and any owner or any person responsible for the premises who shall let anyone occupy a placarded premises or operate placarded equipment shall be liable for the penalties provided by this code.

108.4 Method of Service. Such notice shall be deemed properly served if a copy thereof is (a) delivered to the owner personally; (b) sent by certified or registered mail addressed to the owner at the last known address with the return receipt requested; or (c) delivered in any other manner as prescribed by local law. If the certified or registered letter is returned showing that the letter was not delivered, a copy thereof shall be posted in a conspicuous place in or about the structure affected by such notice. Service of such notice in the foregoing manner upon the owner's agent or upon the person responsible for the structure shall constitute service of notice upon the owner.

108.5 Restoration. The structure or equipment determined to be unsafe by the building official is permitted to be restored to a safe condition. To the extent that repairs, alterations or additions are made or a change of occupancy occurs during the restoration of the structure, such repairs, alterations, additions, or change of occupancy shall comply with the requirements of Section 105.2.2 of the Building Code and Section 105.2.2 of the Existing Building Code.

108.6 Abatement Methods. The owner, operator, or occupant of a building, premises, or equipment deemed unsafe by the code official shall abate or cause to be abated or corrected such unsafe condition either by repair, rehabilitation, demolition, or other approved corrective action.

108.6.1 Securing Structures. The building official shall be permitted to order the owner of a vacant or partially vacant building or structure that is open and unsecured, in whole or in part, to secure all openings of said building or structure in accordance with Section 119 of the Building Code.

If the owner or owners fail to comply with the order of the building official within ten calendar days and in such a manner as provided by code, then such owner or owners shall have violated this code and the building official may forthwith, subject to funds availability, proceed to undertake and complete the work specified in that order. Billing, liens, and cost recovery shall be in accord with Section 119.5 of the Building Code.

108.7 Declaration of Emergency Securing. The building official may declare an emergency to exist which shall waive the required ten-calendar-day owner-

compliance period and allow the building official to immediately cause the removal or the securing of open hazardous structures by placing a notice on the structure and, after a 24 hour period, causing the securing. Lien and recovery of costs shall be in accord with Section 199.5 of the Building Code. In extreme imminent public safety conditions, the 24-hour period need not be observed.

108.8 Record. The building official shall cause a report to be filed on an unsafe condition. The report shall state the occupancy of the structure and the nature of the unsafe condition.

SECTION 109 EMERGENCY MEASURES

109.1 Procedure. When, in the opinion of the building official, a building, structure, or premises poses an immediate or imminent danger to the public health, safety, or welfare, the building official shall order the immediate evacuation and securing of said building, structure, or premises and shall be permitted to order all utilities to be disconnected without sending a notice. Each principal entrance shall be posted with a notice which reads as follows:

DANGER THIS PREMISES IS UNSAFE AND HAS BEEN CONDEMNED

ALL PERSONS ARE WARNED TO KEEP AWAY

Any person who refuses to leave, interferes with the evacuation of other occupants, occupies, or continues any operation after the property has been posted pursuant to this section, except such persons who are directed to perform work to remove a violation or unsafe condition, shall be deemed in violation of this section and it shall be the duty of the Police Department to immediately remove such persons from said building, structure, or premises and prevent anyone, unless approved by the building official, from reentering the building, structure, or premises until such time that the Police Department shall have been notified that the same is in a safe condition. The building official assumes no responsibility for persons entering upon said property and said persons proceed at their own risk and assume all liability.

109.2 Temporary Safeguards. When, in the opinion of the building official, there is actual and immediate danger of collapse or failure of a building or structure or any part thereof which would endanger life, the building official shall be permitted to cause the necessary work to be done to render such building or structure or part thereof temporarily safe whether or not the legal procedure herein described has been instituted.

109.3 Closure. When necessary for public safety, the building official shall temporarily close sidewalks, streets, buildings, structures, and places adjacent to a building, structure, or premises deemed unsafe under the provisions of Section 108 and prohibit the same from being used.

109.3.1 Catchment Enclosures. If, in the opinion of the building official, it is determined that there exists an imminent structural hazard, catchment enclosures shall be erected protecting adjoining property and the public right-of-way. The cost for such catchment enclosures shall be the responsibility of the owner of record of the hazard and the recovery of said costs will be as described in Section 119.5 of the Building Code.

109.4 Emergency Repairs; Remedies. For the purpose of this section, the building official shall be permitted to employ the necessary labor and materials to perform the required work as expeditiously as possible. Further, when it is found that potable water is running inside a vacant building or structure and the owner or the owner's representative cannot be contacted and where severe structural or other damage can thus occur to adjacent properties, the Building Commissioner or the Health Commissioner shall be permitted to order the Water Division to cease the problem flow by whatever means the Water Division finds necessary. The Water Division shall comply with any order issued pursuant to this section.

109.5 Cost of Emergency Repairs or Demolition. Costs incurred in the performance of emergency work shall be paid from the Treasury of the City of Saint Louis on certification of the building official. The legal counsel of the City of Saint Louis shall institute appropriate action against the owners of the premises where the unsafe building or structure is or was located for the recovery of such costs plus a ten percent administrative fee. If such cost is not collected, a lien shall be requested to be placed upon the property by the Comptroller. The costs shall also be certified by the Collector of Revenue or other official collecting real estate taxes who shall cause a special tax bill against the property to be prepared and collected in the same manner and procedures as other real estate tax bills. Said special tax bill shall be deemed a personal debt against the property owners and shall also be a lien on the property until paid.

109.6 Emergency Demolition or Removal. If, in the opinion of the building official, a building, structure, tree, or premises, in whole or in part, poses an immediate and imminent danger to the public health, safety, or welfare by virtue of its condition or conditions in violation of this code, the building official shall be permitted to cause the immediate removal of said building, structure, or tree without the notice set forth elsewhere in this code. Further, the building official shall have the authority to award a sole source contract for demolition of said dangerous building, structure, or tree.

109.7 Demolition of Party Walls; Responsibility. When a building or structure on one side of a party wall is demolished, the demolition contractor is required to mortar in the floor or roof joist pockets, and is also responsible for installing missing portions of the party wall which were not originally built. The demolition contractor shall remove any attachments to the building or structure (plaster, mortar, steps, paneling, etc.). The adjacent wall shall have an approved roofing material applied to create a coping for the wall. The demolition contractor shall also be responsible for applying an exterior sprayed-on sand and tinted cement coating or for tuckpointing; these are not the responsibility of the owner of the remaining building who relies on structural support from the party wall.

SECTION 110 RIGHT TO APPEAL

110.1 Appeals. Any person aggrieved by a decision of the building official may appeal said decision to the Board of Building Appeals as set out in Section 113 of the Building Code.

110.2 Appeals to Stay Proceedings; Exceptions. Appeals shall stay all proceedings in furtherance of the action appealed from unless the building official or fire official, whichever shall be the case, certifies to the Board of Building Appeals after the notice of appeal has been filed that by reason of the facts stated in the certificate, a stay would, in their opinion, cause imminent peril to life or property. Proceedings shall not be stayed other than by restraining order.

SECTION 111 STOP WORK ORDER

111.1 Authority. Whenever the building official finds any work regulated by this code being performed in a manner contrary to the provisions of this code or in a dangerous or unsafe manner, the building official is authorized to issue a stop work order.

111.2 Issuance. The stop work order shall be in writing and shall be given to the owner of the property involved, to the owner's agent, or to the person doing the work. Upon issuance of a stop work order, the cited work shall immediately cease. The stop work order shall state the reason for the order and the conditions under which the cited work will be permitted to resume.

111.3 Unlawful Continuance. Any person who shall continue any work in or about the building, structure, or premises after having been served with a stop work order, except such work as they are directed to perform to remove a violation or unsafe condition shall, upon conviction thereof, be subject to the penalties as set forth in Section 25.32.030. Each day that a violation continues shall constitute a separate and distinct offense.

SECTION 112 WORKMANSHIP

112.1 General. All work shall be conducted, installed, and completed in a neat, workmanlike, and acceptable manner so as to secure the results intended by this code.

CHAPTER 2 IS AMENDED AS FOLLOWS:

Modify Section 202 General Definitions by the addition or changing of definitions to read as follows:

Building official or *code official.* The Building Commissioner of the City of Saint Louis or any duly authorized representative.

Common exit. An exit that serves two or more dwelling units.

Owner. Any person, agent, operator, management firm, collector of rent, firm, or corporation having a legal or equitable interest in the property; or recorded in the official records of the Assessor's Office of the City of Saint Louis as holding title to the property; or otherwise having control of the property, including the guardian of the estate of any such person, and the executor or administrator of the estate of such person if ordered to take possession of real property by a court.

CHAPTER 3 IS AMENDED AS FOLLOWS:

Change Section 302.3 through 302.8 to read as follows:

302.3 Private Property Areas. All sidewalks, steps, driveways, parking spaces and similar paved areas on private property shall be kept in a proper state of repair, free of all snow, ice, mud, overhanging trees and shrubs which obstruct walkways, and other debris and shall be maintained free of hazardous conditions. If any side-

walk or driveway or portion thereof on private property by virtue of its state of repair shall constitute a danger to public health and safety, the sidewalk or driveway or portion thereof shall be replaced. Steps shall comply with the requirements for exterior stairs.

Whenever off-street parking is permitted in any dwelling district behind the building line, the new parking area, including the driveway, shall be paved with concrete, bituminous material, or an equivalent surface approved by the building official. Any new off-street parking and loading areas, including a driveway behind the building line, must be constructed to conform with the Building Code. Any such off-street parking areas and driveways for said parking areas existing at the date of the passage of this chapter shall be of a surface approved by the building official. If any existing off-street parking areas are enlarged or changed in any manner that results in the total parking area including the driveway to be 1,000 square feet or more, then the entire parking area and driveway shall be paved with concrete, bituminous material, or an equivalent surface approved by the building official.

302.4 Weeds. All premises and exterior property shall be maintained free from weeds or plant growth in excess of eight inches. All noxious weeds shall be prohibited. Weeds shall be defined as all grasses, annual plants, and vegetation other than trees or shrubs other than cultivated flowers and gardens.

Upon failure of the owner or agent having charge of a property to cut and destroy weeds after service of a notice of violation, they shall be subject to prosecution in accordance with Section 106.3 and as proscribed by the City of Saint Louis. Upon failure to comply with the notice of violation, any duly authorized employee of the Forestry Division or contractor hired by the City of Saint Louis shall be authorized to enter upon the property in violation and cut and destroy the weeds growing thereon, and the costs of such removal shall be paid by the owner or agent responsible for the property.

302.5 Rodent Harborage. All structures and exterior property shall be kept free from rodent harborage and infestation. Where rodents are found, they shall be promptly exterminated by approved processes which will not be injurious to human health. After extermination, proper precautions shall be taken to eliminate rodent harborage and prevent infestation. Control of rodents and their harborage shall be regulated by the City of Saint Louis Health Department.

302.6 Exhaust Vents. Location and usage of exhaust vents shall be as regulated in the Mechanical Code.

302.7 Accessory Structures. All accessory structures, including attached and detached garages, fences, and walls, shall be maintained structurally sound and in good repair. All garages opening onto an alley or street shall have doors in good repair and capable of being closed and locked.

302.8 Motor Vehicles, Residential Areas. Except as provided in other regulations, currently unlicensed, unregistered or uninspected, derelict, or abandoned motor vehicle shall not be parked on any property, in a state of major disassembly or disrepair, or in the process of being stripped or dismantled unless such work is provided in a structure or similarly enclosed area designed and approved for such purposes. No vehicle of any type shall at any time undergo major overhaul, including body work, in a residential district unless such work is provided in a structure or similarly enclosed area designed and approved for such purposes.

Except as provided in other regulations and approved by the building official, no currently unregistered or uninspected, derelict, or abandoned motor vehicle shall be permitted on any property in a nonresidential district and no such vehicle shall at any time be in a state of major disassembly or disrepair; nor shall it be in the process of being stripped or dismantled. (Also see Ordinance 60935).

Add Section 302.10 to read as follows:

302.10 Metal Structures and Fixtures. All metal structures, metal fixtures appurtenant to such structures, and metal fixtures attached to any property shall be free of rust and maintained weatherproof and in good condition.

Change Section 304.3 to read as follows:

304.3 Premises Identification. Approved numbers or addresses shall be provided for all buildings in such a position as to be plainly visible and legible from the street or road fronting the property. These numbers shall contrast with their background. Address numbers shall be Arabic numerals or alphabet letters. Numbers shall be a minimum of four inches high with a minimum stroke width of 0.5 inch.

If there is an alley, numbers shall also be placed on the alley elevation of the premises on which the house, building, or structure is located. If there is a garage or

carport fronting on an alley, house numbers shall also be placed on the alley elevation of the garage or carport.

Change Sections 304.6 and 304.7 to read as follows:

304.6 Exterior Walls. Every exterior wall shall be free of holes, breaks, loose or rotting boards or timbers, and any other conditions which might admit rain or dampness to the interior portion of the walls or to the occupied spaces of the building. All exterior surface materials including wood, composition, or metal siding shall be maintained weatherproof and shall be properly surface coated when required to prevent deterioration. Tuckpointing shall not be loose or missing.

304.7 Roofs and Drainage. The roof and flashing shall be sound, tight, and not have defects that admit rain. Roof drainage shall be adequate to prevent dampness or deterioration in the walls or interior portion of the structure. Roof drains, gutters, and downspouts shall be maintained in good repair and free from obstructions and shall not discharge in a manner that adversely affects adjacent property.

Add Section 304.10.1 to read as follows:

304.10.1 Stair Dimension Tolerances. Treads and risers shall be significantly the same in depth or height so as to not create a trip hazard.

Change Section 304.14 to read as follows:

304.14 Insect Screens. During the period from April 1 to November 1, every door, window, and other outside opening required for ventilation of habitable rooms, food preparation areas, food service areas, or any areas where products to be included or utilized in food for human consumption are processed, manufactured, packaged, or stored shall be supplied with approved tightly fitting screens of not less than sixteen mesh per inch and every swinging door shall have a self-closing device in good working condition.

Exception: Screen doors shall not be required where other approved means such as air curtains or insect repellent fans are employed.

Add Section 305.5.1 to read as follows:

305.5.1 Stair Dimension Tolerances. Treads and risers shall be significantly the same in depth or height so as to not create a trip hazard.

Add Section 305.7 to read as follows:

305.7 Storage. The interior of every structure shall be free from excessive storage, as determined by the building official, to maintain the health, safety, and welfare of the occupants. Storage shall not interfere with the clearances required for egress or the operation of plumbing, mechanical, or electrical equipment.

Change Section 307.1 to read as follows:

307.1 General. Every exterior and interior flight of stairs having more than four (4) risers shall have a handrail on one side of the stair and every portion of a stair, landing, balcony, porch, deck, ramp or other walking surface which is more than thirty (30) inches above the floor or grade below shall have guards. Handrails shall not be less than thirty-four (34) inches high or more than thirty-eight (38) high measured vertically above the nosing of the tread or above the finished floor of the landing or walking surface. Guards shall not be less than thirty-six (36) inches high above the floor of the landing, balcony, porch, deck, ramp or other walking surface.

Change Section 308.1 to read as follows:

308.1 General. All exterior property and premises and the interior of every structure shall be free from any accumulation of rubbish or garbage. The control of rubbish and garbage shall be the responsibility of the Health Department and Street Department, Refuge Division.

Delete Sections 308.2 through 308.3.2. in their entirety.

Change Section 309 to read as follows:

SECTION 309 PEST ELIMINATION

309.1 Owner. The owner of any structure shall be responsible for extermination of rats, insects, or other pests within the structure prior to renting, leasing, or selling the structure. Primary enforcement of Section 309 is by the Health Department.

309.2 Single Occupancy. The owner and occupant of a structure containing a single dwelling unit or of a single nonresidential structure shall be equally responsible for the extermination of any insects, rodents, or other pests in the structure or on the premises.

309.3 Multiple Occupancy. The owner of a structure containing two or more dwelling units, a multiple occupancy, a rooming house, or a nonresidential structure shall be responsible for extermination in the public or shared areas of the structure and exterior property. If infestation is caused by failure of an occupant to prevent such infestation in the area occupied, the occupant and owner shall be responsible for extermination.

309.4 Continued Rodent Infestation. Continuing or repeated incidents of rodent infestation determined

from the official records shall require the installation of rat and vermin proof walls. The rat and vermin proof walls shall be installed in accordance with the Building Code.

CHAPTER 4 IS AMENDED AS FOLLOWS:

Change Section 404.4.1 to read as follows:

404.4.1 Room Area. Every living room shall contain at least 120 square feet; every room occupied for sleeping purposes by one occupant shall contain at least 70 square feet of floor area; and every room occupied for sleeping purposes by more than one person shall contain at least 50 additional square feet of floor area for each additional occupant thereof. Change Section 404.5 and Table 404.5 to read as follows:

404.5 Overcrowding. Dwelling units shall not be occupied by more occupants than permitted by the minimum area requirements of Table 404.5

Table 404.5

MINIMUM AREA REQUIREMENTS

SPACE	MINIMUM AREA IN SQUARE FEET		
	1—2 occupants	3—5 occupants	6 or more occupants
Living room	120	120	150
Dining room	No requirements	80	100
Kitchen	50	50	60
Bedrooms	Shall comply with Section 404.4.1		

Add Section 404.5.2 to read as follows:

404.5.2 Combined Spaces. Combined living room and dining room spaces shall comply with the requirements of Table 404.5 if the total area is equal to that required for separate rooms and if the space is so located that it functions as a combination living room/dining room. This option is also applicable for a combination kitchen/dining room.

CHAPTER 5 IS AMENDED AS FOLLOWS:

Change Section 502.5 to read as follows:

502.5 Public Toilet Facilities. Public toilet facilities shall be maintained in a safe, sanitary, and working condition in accordance with the Plumbing Code. Except for periodic maintenance or cleaning, public access and use shall be provided to the public facilities at all times during occupancy of the premises.

Add Section 503.1.1 to read as follows:

503.1.1 Toilet Partitions. Every nonresidential structure that requires or supplies a water closet shall provide within the toilet room partitions, enclosures, or compartments for privacy between water closets and shall comply with fixture clearance requirements of the Plumbing Code for such installations.

Change Section 505.1 to read as follows:

505.1 General. Every sink, lavatory, bathtub or shower, drinking fountain, water closet, or other plumbing fixture shall be properly connected to a public water system. All kitchen sinks, lavatories, laundry facilities, bathtubs, and showers shall be supplied with hot or tempered and cold running water in accordance with the Plumbing Code.

Change Section 505.5.1 to read as follows:

505.5.1 Abandonment of Systems. Where a nonpotable water reuse system or a rainwater collection and distribution system is not maintained or the owner ceases use of the system, the system shall be abandoned in accordance with the Plumbing Code.

Change Section 507 to read as follows:

SECTION 507 STORM DRAINAGE

507.1 General. Drainage of roofs and paved areas, yards and courts, and other open areas on the premises shall not be modified or altered to discharge in a manner that adversely affects adjacent property or creates a public nuisance.

507.2 Gutters and Downspouts. Unless otherwise approved by the Plumbing Inspection Section, all gutters and downspouts must be maintained so as to function properly and must be sewer connected where existing drain connections are provided. Primary structures and room additions with a roof area of less than 550 square feet and all accessory structures, including residential garages, shall not be sewer connected provided the surface drainage water does not adversely affect the adjacent property or create a nuisance. Surface drainage shall be diverted to a public right-of-way, storm sewer conveyance, or other point of collection so as not to create a hazard. Lots shall be graded so as to drain water away from foundation walls.

CHAPTER 6 IS AMENDED AS FOLLOWS:

Add Section 602.1.1 to read as follows:

602.1.1 Enforcement. The Health Department is the principal enforcement agency of Section 602.

Change 602.2 to read as follows:

602.2 Residential Occupancies. Dwellings shall be provided with heating facilities capable of maintaining a room temperature of 68°F (20°C) in all habitable rooms, bathrooms, and toilet rooms. Cooking appli-

ances and portable unvented fuel-burning space heaters shall not be used as a means to provide required heating.

Change 602.3 to read as follows:

602.3 Heat Supply. Every owner and operator of any building who rents, leases, or lets one or more dwelling units, rooming units, dormitory, or guestrooms on terms, either expressed or implied, shall supply sufficient heat during the period from October 1 to April 30 to maintain a room temperatures of not less than 68°F in all habitable rooms, bathrooms, and toilet rooms. The heat supply shall be permanently installed.

Exception: When the outdoor temperature is below the winter outdoor design temperature for the City of Saint Louis, maintenance of the minimum room temperature shall not be required provided that the heating system is operating at its full design capacity. The winter outdoor design temperature for the City of Saint Louis shall be zero degrees Fahrenheit.

Change 602.4 to read as follows:

602.4 Occupiable Work Spaces. Indoor occupiable work spaces shall be supplied with heat during the period from October 1 to April 30 to maintain a temperature of not less than 65°F during the period the spaces are occupied.

Exceptions:

1. Processing, storage, and operations areas that require cooling or special temperature conditions.

2. Areas in which persons are primarily engaged in vigorous physical activities.

CHAPTER 7 IS AMENDED AS FOLLOWS:

Add Section 701.3 to read as follows:

701.3 Enforcement. The designated enforcement agency for this chapter shall be as set forth in Section 104.1.1 of the Building Code

Add Section 702.1.1 to read as follows:

702.1.1 Dual Exits over Two Stories. All habitable buildings over two stories in height containing one or more dwelling units above the second floor shall provide two separate exits from each floor above the second floor, accessible to each dwelling unit on said floor. All required exit facilities shall lead to a public thoroughfare either directly or through a court or yard, and passage to such exits shall not lead through any other dwelling unit. Dual means of exit shall consist of two interior stairs discharging directly or through a rated exit enclosure to the outside, or one interior and one exterior stair or existing fire escape accessible to all dwelling units on each floor above the second floor and discharging directly or through a court or yard to a public thoroughfare.

Exceptions:

1. Buildings permitted to have only one means of egress under the Building Code.

2. Single-Family Dwelling Units 2½ or 3 stories in height of Type III (exterior masonry) construction, shall be exempt from the requirements for two exits.

3. A single exit shall be permitted from townhouse dwelling units located on the second and third floors in buildings of Type III (exterior masonry) construction provided that the exit is from the second floor with a minimum of 40% of the habitable space located on the second floor and all of the following requirements are met:

A. Horizontal and vertical fire separation assemblies based on the Use Group classification between the first and second floor as determined under the Building Code. A horizontal fire separation is not required between a first floor commercial space and dwelling units above provided that an AC-powered battery back-up interconnected smoke detection system is installed in the commercial space and basement with remote alarms in all dwelling units above or in the common stair and hall if audible within all dwelling units.

B. The building is limited to a maximum of six dwelling units and three stories in height.

C. An AC-powered battery back-up interconnected smoke detection system is installed for each dwelling unit throughout the building including the basement. The location of the smoke detectors shall be sufficient to detect smoke in any habitable room or basement.

Change Section 702.2 to read as follows:

702.2 Aisles. The required width of aisles in accordance with the Building Code shall be unobstructed.

Add Section 704.1.4 to read as follows:

704.1.4 Standpipe Systems. Standpipe systems shall be in proper operating condition at all times and readily identified and fully accessible. Hose connections shall be unobstructed.

CHAPTER 8 IS AMENDED AS FOLLOWS:

Modify Chapter 8 by adding the following:

IAPMO International Association of Plumbing and Mechanical Officials

5001 E. Philadelphia Street

Ontario, CA 91761-2816

UPC-09-Uniform Plumbing Code

102.3, 201.3, 502.5, 503.1.1, 505.1, 505.5.1, 602.2, 602.3

CHAPTER 9 IS ADDED AS FOLLOWS:

CHAPTER 9

FACILITIES REQUIRING PLAT AND PETITION

SECTION 901 GENERAL

901.1 Scope. Every building used in whole or in part as a boarding house, rooming house, dormitory, or special residential use shall conform to the requirements of this chapter.

901.2 Hazards. Any boarding house, rooming house, dormitory, or special residential use which shall fail to conform to the requirements of this code or other adopted codes and is in violation of any laws of the City of Saint Louis and is detrimental to the health, safety, and welfare of the inhabitants of the City of Saint Louis shall be deemed a hazard.

SECTION 902 DEFINITIONS

902.1 Definitions. The following words and terms shall, for the purpose of this chapter, have the meanings shown herein.

Boarding house. Residential occupancy arranged or used for lodging for compensation, with or without meals, and not occupied as a single-family unit. The occupants are transient in nature.

BPS permitted facilities. Any facility regulated and permitted under this chapter prior to the adoption of this chapter.

Dormitory. A space in a building where group sleeping accommodations are provided in one room or in a series of closely associated rooms for persons not members of the same family group, under joint occupancy and single management as in college dormitories or fraternity houses.

Rooming house. Residential occupancy arranged or used for lodging for compensation with or without meals and not occupied as a single-family unit. The occupants are not transient in nature.

Special residential use. This means any occupancy being used, with or without compensation to the operator, as a shelter for the homeless, a facility for battered spouses or children, a group home, a 24-hour daycare (adult and/or child), halfway house, social rehabilitation facility, or an alcohol and/or drug abuse treatment center.

SECTION 903 PERMIT & PLAT & PETITION REQUIREMENTS

903.1 Plat and Petition Requirements. Prior to filing an application for a Certificate of Occupancy, an applicant seeking to operate a boarding house, rooming house, dormitory or special residential use shall obtain the plat and petition forms from the Zoning Office. Upon completion of the forms, an applicant to operate a dormitory, rooming house, boarding house, or special residential use, together with all other requirements of this chapter, shall file a plat or drawing showing its location or premises together with the position of the building to be used thereon and a written petition in favor of the issuance of such occupancy permit signed by a majority of the property owners or registered voters residing within the prescribed petition circle drawn by a radius of 500 feet plus one-half of the width of the front of the premises from the center of such premises projected to the streets. Notwithstanding the above, no occupancy permit shall be approved wherein a church, elementary school, or secondary school is located within the radius herein above described. It shall be unlawful to operate a dormitory, rooming house, boarding house, or special residential use without first complying with the plat and petition requirements as set forth herein.

Exceptions:

1. Sheltered workshops and residence facilities authorized by RSMo 205.968 to 205.972 (2000), as amended, shall be and are hereby exempted from the plat and petition and the church and school radius requirements set forth herein.

2. Dormitories as defined in Section 902.1 are exempt from the plat and petition and the church and school radius requirements if they are both owned and operated by a state or private university or college and located within the boundaries of said state or private University or College on a designated campus of not less than 30 acres.

3. The Building Commissioner may waive plat and petition requirements for certain special residential uses that require that the location of the special residential use remain confidential due to the type of clients it serves or shelters (e.g., battered spouse shelter), for temporary emergency shelters that are needed due

to weather or natural disaster conditions, or when a unique hardship exists and the use will not have a detrimental impact on the neighborhood. In the event such a waiver is granted, the Building Commissioner may make the waiver subject to certain conditions designed to prevent detrimental impacts on the neighborhood.

903.1.1 Notification of termination. The Director of the Saint Louis Office for Mental Retardation/ Developmental Disabilities Resources shall notify the Director of Public Safety in writing within ten days when the operation of any sheltered workshop or residence facility is terminated voluntarily or otherwise. The exemption herein granted for that location shall be automatically withdrawn.

903.2 Certificate of Occupancy. Upon approval of the plat and petition from the Zoning Office, the applicant shall file with the building official an application for a Certificate of Occupancy in accordance with the Building Code, and if the code official finds that the Zoning Code permits such usage in the district in which the proposed building is located, the building official shall take the application of the applicant. If the building official finds that the comprehensive zoning ordinance does not permit such usage in the district in which the proposed building is located, the building official shall not approve the application for a rooming house, boarding house, dormitory, or special residential use. Appeals on the zoning aspects of the Certificate of Occupancy lie within the Board of Adjustment.

903.3 Denial of Permit or Waiver - Hearing. If the occupancy permit is denied due to its failure to comply with the provisions of this chapter or because the Building Commissioner abused his discretion in not granting a waiver, the applicant shall, upon written request, be granted a hearing before the Board of Building Appeals on a day designated by it for reconsideration of the denial of such permit or waiver. After considering such request and the evidence and argument, if any, submitted in support thereof, the Board may issue said permit or waiver or confirm the action in refusing to do so. In considering whether an abuse of discretion has occurred, the Board may consider the number of occupants of the facility and other factors considered by the Building Commissioner.

903.4 Notice of Violation to Violator - Correction or Abatement. If the building official finds any rooming house, boarding house, dormitory, or special residential use in violation of any of the requirements of this chapter, the building official shall immediately notify the applicant thereof to correct or abate same. If the violation is not abated within a reasonable period, the building official shall file a report of such violation with the Board of Building Appeals with the building official's recommendation to revoke said permit. The Board shall notify the applicant or the applicant's resident agent of the building official's recommendation and shall within a reasonable time conduct a hearing as to whether or not the occupancy permit should be revoked. If the Board finds that the rooming house, boarding house, dormitory, or special residential use is being operated in violation of any of the requirements of this chapter, the Board shall immediately revoke the permit.

903.4.1 Revocation of Permit - license revocation. Should any permit issued under this chapter be revoked, the License Collector shall, immediately upon receipt of such notice of revocation, revoke the license of such applicant, if any.

903.5 Change of Owner - New Application to Be Filed. Any change of ownership of a boarding house, rooming house, dormitory, or special residential use shall require that a new application and new neighborhood consent petition be filed as set forth in this chapter and shall be subject to rules and regulations and ordinances in effect at the date of such application.

903.6 BPS Permitted Facilities. Any facility that has a valid BPS permit at the time this chapter becomes effective, and the facility was regulated by this chapter, will not be required to submit a new plat and petition or certificate of occupancy to operate under this chapter. However, all BPS permitted facilities, except hotels, shall be subject to all other provisions and regulations of this chapter.

SECTION 904 FEES & NOTICES

904.1 Plat & Petition Fee. Application for a certificate of occupancy for any facility regulated under this chapter shall be charged a separate fee, as set forth in the Zoning Code, for processing and reviewing the plat and petition.

904.2 Service of Notice. All notices provided herein to be served upon the owner, applicant, agent of owner, or occupant, as the case may require, shall be deemed served upon such owner, applicant, agent of owner, or occupant, as the case may require, if a copy thereof shall:

1. Be delivered to them personally; or

2. If not found, by leaving a copy at the usual place of abode with a member of the family of sixteen or more years of age; or

3. By posting a copy in a conspicuous place in or about the dwelling affected by the notice; or

4. By sending a copy of the notice by registered letter with a return receipt requested to the address specified in the to the last known address; or

5. If registered letter with copy is returned with receipt showing it has not been delivered to them, by posting a copy thereof in a conspicuous place in or about the dwelling affected by the notice.

904.3 Form of Notice. All notices provided herein shall:

1. Be in writing;

2. Include a description of the real estate sufficient for identification;

3. Include a statement of the reason or reasons why notice is being issued;

4. Include a description of the violations required to be abated to bring the premises into compliance with the provisions of the ordinance and any rules or regulations adopted pursuant thereto.

SECTION 905 BUILDING REQUIREMENTS

905.1 Existing BPS Permitted Facilities. All currently existing permitted rooming houses, boarding houses, dormitories, and special residential uses shall, at a minimum, be governed by the provisions of the Building and Fire Code under which they were initially licensed. Any alteration or change of occupancy shall be made to comply with the Existing Building Code.

905.2 New Certificates of Occupancy. All new boarding houses, rooming houses, dormitories, and special residential uses must meet the requirements as defined in this code and the current Building Code as amended.

905.3 Change of Operation. All existing rooming houses, boarding houses, dormitories, and special residential uses that have a change in their procedure/ operation such as an increase or decrease in number of sleeping rooms or occupants or a reconfiguration of space shall comply with the Existing Building Code.

When a change of operation occurs altering the original occupancy permit issued, such an increase or decrease in the number of rooms, the applicant shall comply with all adopted codes necessary to achieve the public safety of its occupants.

905.4 Appeals. Appeals of this chapter shall have their jurisdiction with the Board of Building Appeals of the City of Saint Louis. An appeal shall stay all proceedings in furtherance of the action appealed from unless the Building Commissioner or Health Commissioner shall certify to the Board subsequent to the filing of any notice of appeal that, by reason of the facts stated in the certificate, a stay would cause imminent peril to life or property. In such case, proceedings shall not be stayed otherwise than by the order of any court of competent jurisdiction.

905.5 Master Room Keys. It shall be the duty of the applicant to keep available on the premises at all times proper keys to all rooms so that proper inspection can be made by the Building Inspection Section and the Department of Health or Police Department.

905.6 Room Numbers. Every rooming unit in every rooming house or boarding house shall be numbered and said number to be placed on the outside of the door to such unit. No two units shall bear the same number.

905.7 Register Required. A boarding house, rooming house, dormitory, or special residential use shall at all times keep a standard register in which shall be inscribed the names of all occupants renting or occupying rooming units in such establishment. The register shall be kept at the establishment and signed by the person renting or occupying such unit. After the name or names of persons renting or occupying such unit, the applicant or the applicant's agent shall write the number of the room or rooms which each person is to occupy together with the date and hour when such room or rooms are rented. All of which shall be done before such person is permitted to occupy such room or rooms. The register shall be at all times open to inspection by the building official, Health Commissioner, or fire official of the City of Saint Louis or Police Department.

905.7.1 False Registration Prohibited. No person shall knowingly write or cause to be written in any rooming house, boarding house, dormitory, or special residential use any other or different name than the true name of such person or the name by which such person is generally known.

SECTION 906 POWERS AND DUTIES

906.1 Power of Health Commissioner to Make Rules. The Health Commissioner shall have power to make such rules and regulations as in the Health Com-

missioner's opinion may be reasonably necessary for carrying out the provisions of this part insofar as they relate to the public health. Such rules and regulations shall be in writing and a copy filed with the building official.

906.2 Duty of Building Official. It shall be the duty of the building official to make or cause to be made annual inspections of all boarding houses, rooming houses, dormitories, or special residential uses. It shall also be the duty of the building official to investigate changes in the use group and building classification and require a new occupancy permit where necessary.

906.3 Cooperation of Other Agencies. All state and local agencies shall forward all inquiries and inspection requests to the City of Saint Louis Building Division for further investigation.

SECTION 907 CONDEMNATION

907.1 Procedures for Condemning. The designation of boarding houses, rooming houses, dormitories, or special residential uses as unfit for human habitation and the procedure for the condemnation and the placarding of such unfit boarding houses, rooming houses, dormitories, and special residential uses shall be carried out in compliance with the following requirements.

907.2 Conditions Requiring Condemnation. The code official shall condemn as unfit or unsafe for occupancy any rooming house, dormitory or special residential use per the requirements listed in the current section of the Building Code.

907.3 Notice of Condemnation to Owner. Whenever the building official has condemned a boarding house, rooming house, dormitory, or special residential use or portion thereof as unfit for human habitation, the building official shall immediately give notice to the owner, applicant, or resident agent thereof of such condemnation and of the intent to placard such boarding house, rooming house, dormitory, or special residential use as unfit for human habitation. Such notice shall:

1. Be in writing;

2. Contain a description of the real estate sufficient for identification;

3. Contain a statement of the grounds of such condemnation as unfit for human occupancy;

4. Contain a description of the violations;

5. Contain a statement informing the owner of their right to appeal such action to the building official within ten days after same is served.

907.4 Hearing Before Board of Building Appeals. Any owner or applicant affected by notice relating to condemnation of a boarding house, rooming house, dormitory, or special residential use as unfit for human habitation may request and shall be granted a hearing before the Board of Building Appeals provided that such person shall file in the office of the building official a written petition requesting such hearing and setting forth a statement of the grounds therefor within ten calendar days after the date of the notice. Within ten calendar days after receipt of such petition, the building official shall set the time and place of such hearing and shall give the petitioner written notice thereof.

907.4.1 Time of Hearing. At such hearing the petitioner shall be given an opportunity to be heard and to show cause why such notice should be modified or withdrawn. The hearing shall be scheduled not later than 45 calendar days after the date on which the petition was filed provided that upon written application of the petitioner to the building official, the building official may postpone the date of the hearing for a reasonable time beyond such 45-day period if, in the official's judgment, the petitioner has submitted a good and sufficient cause for such postponement.

907.5 Posting Notice of Condemnation. If no appeal has been taken within the ten-calendar-day period, or if after such hearing, the Board of Building Appeals affirms the decision to condemn said premises, the building official shall post, in a conspicuous place or places upon the affected building, a placard or placards bearing the following words, "Condemned as unfit for human habitation" or the words "Condemned for Occupancy" which shall have the same meaning.

907.6 Vacation of Condemned Building. Any boarding house, rooming house, dormitory, or special residential use that has been condemned and placarded as unfit for human habitation by the building official shall be vacated within a reasonable time as required by said official. No owner or applicant shall let to any person for human habilitation and no person shall occupy said rooming house, boarding house, dormitory, or special residential use which has been condemned and placarded by the building official after the date on which the building official has required the affected structure to be vacated.

907.7 Correction of Premises. No boarding house, rooming house, dormitory, or special residential use which has been condemned and placarded as unfit for human habitation shall again be used for human habitation until written approval is secured from and such placard is removed by the building official. The building official shall remove such placard whenever the defect or defects upon which the condemnation and placard action was based shall have been eliminated. The building official may require permits for the corrective work.

906.7.1 Removal of Placard Unlawful. No person shall deface or remove any placard from any boarding house, rooming house, dormitory, or special residential use which has been condemned as unfit for human habitation and placarded as such except as provided in the currently adopted Building Code. (Ord. No. 70798, § 3, 7-6-2018.)

25.32.030 Penalty.

Any person who shall violate a provision of this code or shall fail to comply with any of the requirements thereof, or who shall erect, construct, alter, extend, repair, remove, demolish, use, or occupy any building, structure, premises, or equipment regulated by this code in violation of an approved construction document or directive of the building official or the Board of Building Appeals, or of a permit or certificate issued under the provisions of this code, shall be subject to, a fine as set forth in Section 25.33.040. Each day that a violation continues shall constitute a separate and distinct offense.
(Ord. No. 71990, § 2, 2-25-2025; Ord. No. 70798, § 4, 7-6-2018.)

Chapter 25.33

ENFORCEMENT OF CODE VIOLATIONS

Sections:

25.33.010 Violation of regulatory code provisions unlawful.
25.33.020 Notice of violation.
25.33.030 Administrative citation.
25.33.040 Administrative citation fine.
25.33.050 Payment of fine.
25.33.060 Request for hearing.
25.33.070 Hearing Officer designated.
25.33.080 Hearing.
25.33.090 Written decision.
25.33.100 Failure to pay fine.
25.33.110 Final decision by Hearing Officer and Authorized Collection Procedures.

25.33.010 Violation of regulatory code provisions unlawful.

It shall be unlawful for any person, firm or corporation to be in conflict with or in violation of any of the provisions of any regulatory code relating to buildings, structures and premises in the City of St. Louis as such codes exist at the time of the effective date of the ordinance codified in this chapter and as such codes may be amended in the future. (1994 C., § 25.33.010; Ord. No. 66857, § 1, 2005.)

25.33.020 Notice of violation.

Whenever the code official determines that there has been a violation of any regulatory code relating to buildings, structures or premises or has grounds to believe that a violation has occurred, notice shall be given to the owner or the person or persons responsible therefor in the following manner:

A. Such notice shall:

1. Be in writing;

2. Include a description of the real estate sufficient for identification;

3. Include a statement of the violation or violations and why the notice is being issued;

4. Include a correction order allowing a reasonable time to make the repairs and improvements required to bring the dwelling unit, structure or premises into compliance with the provisions of applicable code; and

5. Inform the property owner of the right to appeal.

B. The notice shall be directed to the owner or owners of such building, structure or premises as recorded most recently in the City of Saint Louis Assessor's Office. The notice shall be served in one of the following ways:

1. Delivered personally to owner or owners; or

2. By posting the notice in a conspicuous place in or about the building, structure or premises affected by such notice; or

3. By mailing a copy of said notice by regular mail, postage prepaid, direct to the owner or owner's place of business or the address currently recorded in the Assessor's Office of the City of Saint Louis; or

4. If the notice is returned showing that the letter was not delivered, a copy thereof shall be posted in a conspicuous place in or about the building, structure or premises affected by such notice. (1994 C., § 25.33.020; Ord. No. 67885, § 1, 2008; Ord. No. 66857, § 2, 2005.)

25.33.030 Administrative citation.

A. If the notice of violation is not complied with, the code official shall have the authority to issue an administrative citation to any person responsible for the violation.

B. Each administrative citation shall contain the following information:

1. The date of the violation or, if the date of the violation is unknown, then the date the violation is identified;

2. The address or a definite description of the location where the violation occurred;

3. The section of the applicable code violated and a description of the violation;

4. The amount of the fine for the code violation;

5. A description of the fine payment process, including a description of the time within which and the place to which the fine shall be paid;

6. An order prohibiting the continuation or repeated occurrence of the code violation described in the administrative citation;

7. A description of the administrative citation review process, including the time within which the administrative citation may be contested and the place from which a request for hearing form to contest the administrative citation may be obtained; and

8. The name and signature of the citing code official. (1994 C., § 25.33.030; Ord. No. 66857, § 3, 2005.)

25.33.040 Administrative citation fine.

A. The administrative citation fine amount for a first violation under the provisions of this chapter shall be one hundred dollars ($100.00).

B. The administrative citation fine for repeat violations of the same code provision by the same person at the same property within twelve months from the date of the first administrative citation shall be two hundred fifty dollars ($250.00).

C. The administrative citation fine for the second repeat and all subsequent repeat violations of the same code provision by the same owner at the same property shall be five hundred dollars ($500.00).

D. Notwithstanding the above, for any vacant property, the administrative citation fine for a first violation of Section 25.01.020, 119.3.1 ("Secured Buildings"), and 121.6 ("Vacant Building Maintenance") shall be five hundred dollars ($500.00), and shall be one thousand dollars ($1,000.00) for all subsequent repeat violations by the same owner at the same property.

E. Notwithstanding the above, the administrative citation fine for a first violation of Section 25.01.020, 123.1 ("Wrecking, Demolition, or Razing of Buildings or Structures") shall be thirty thousand dollars ($30,000.00) or one-half (½) of the appraised value of the property prior to demolition, as shown in the records of the City of Saint Louis Assessor's Office, whichever is greater. This provision shall not apply to any accessory building as defined in Section 26.08.020, Accessory building.

F. Any administrative citation fine which is not paid on or before its due date shall accrue a penalty in an amount equal to the original administrative citation fine. Said penalty shall be collected in the same manner as the underlying fine.
(1994 C., § 25.33.040; Ord. No. 71990, § 1, 2-25-2025; Ord. No. 71989, § 2, 2-24-2025; Ord. No. 66857, § 4, 2005.)

25.33.050 Payment of fine.

A. The fine shall be paid to the City within thirty days from the date of the administrative citation.

B. Any administrative citation fine paid pursuant to Subsection A shall be refunded if it is determined, after a hearing, that the person charged in the administrative citation was not responsible for the violation or that there was no violation as charged in the administrative citation.

C. Payment of a fine under this chapter shall not excuse or discharge any continuation or repeated occurrence of the code violation that is the subject of the administrative citation. (1994 C., § 25.33.050; Ord. No. 66857, § 5, 2005.)

25.33.060 Request for hearing.

A. Any recipient of an administrative citation may contest that there was a violation of the code or that he or she is the responsible party by completing a request for administrative hearing petition and returning it to the office of the Building Commissioner, along with a non-refundable filing fee of $20.00, within thirty days from the date of the administrative citation.

B. A request for administrative hearing petition may be obtained from the office of the Building Commissioner.

C. The person requesting the hearing shall be notified of the time and place set for the hearing at least ten days prior to the date of the hearing.

D. If the code official submits an additional written report concerning the administrative citation to the hearing officer for consideration at the hearing, then a copy of this report also shall be served on the person requesting the hearing at least five days prior to the date of the hearing. (1994 C., § 25.33.060; Ord. No. 66857, § 6, 2005.)

25.33.070 Hearing Officer designated.

The Public Safety Director shall designate the Hearing Officer for the administrative hearing. (1994 C., § 25.33.070; Ord. No. 66857, § 7, 2005.)

25.33.080 Hearing.

A. A hearing before the Hearing Officer shall be set for a date that is not less than fifteen (15) days and not more than ninety (90) days from the date that the request for hearing is filed in accordance with the provisions of this chapter.

B. At the hearing, the party contesting the administrative citation shall be given the opportunity to testify and to present evidence concerning the administrative citation.

C. The failure of any recipient of an administrative citation to appear at the administrative citation hearing shall constitute a failure to exhaust their administrative remedies.

D. The code violation notice, property record, and related documentation in the proper form, or a copy thereof, shall be prima facie evidence of the municipal code violation. The code official who issued the notice of violation need not be present.

E. The Hearing Officer may continue the hearing and request additional information from the code official or the recipient of the administrative citation prior to issuing a written decision. (1994 C., § 25.33.080; Ord. No. 66857, § 8, 2005.)

25.33.090 Written decision.

A. After considering all of the testimony and evidence submitted at the hearing, the Hearing Officer shall issue a written decision to uphold or cancel the administrative citation and shall list in the decision the reasons for that decision. The decision of the Hearing Officer shall be final.

B. If the Hearing Officer determines that the administrative citation should be upheld, the Hearing Officer shall set forth in the decision a payment schedule for the fine.

C. If the Hearing Officer determines that the administrative citation should be canceled and the fine was deposited with the City, then the City shall promptly refund the amount of the deposited fine, together with interest at the average rate earned on the City's portfolio for the period of time that the fine amount was held by the City.

D. The recipient of the administrative citation shall be served with a copy of the Hearing Officer's written decision. (1994 C., § 25.33.090; Ord. No. 66857, § 9, 2005.)

25.33.100 Failure to pay fine.

Any person who fails to pay to the City any fine imposed pursuant to the provisions of this chapter on or before the date that fine is due also shall be liable for the payment of any applicable late payment charges set forth in the schedule of fines. (1994 C., § 25.33.100; Ord. No. 66857, § 10, 2005.)

25.33.110 Final decision by Hearing Officer and Authorized Collection Procedures.

A. The Hearing Officer may not impose incarceration or any fine in excess of the amount allowed by the schedule of fines. Any sanction, fine or costs, or part of any fine, other sanction or costs, remaining unpaid after the exhaustion of, or the failure to exhaust, judicial review procedures under RSMo Ch. 536 shall be a debt due and owing the City.

B. Any final decision or disposition of a code violation by a Hearing Officer shall constitute a final determination for purposes of judicial review, subject to review under RSMo Ch. 536. After expiration of the judicial review period under RSMo 536 unless stayed by a court of competent jurisdiction, the administrative tribunal's decisions, findings, rules, and orders may be collected in accordance with Section C below.

C. Any administrative citation fine issued pursuant to this chapter that is not paid in accordance with Section 23.33.050 may be collected by any of the following methods:

1. The amount of the unpaid administrative citation fine may be certified by the Building Commis-

sioner, or his designated officer, and submitted to the Office of the Comptroller for issuance of a special tax bill, to be collected in the same manner as real estate taxes under the Municipal Land Reutilization Law, RSMo Ch. 92.700 et seq.

These special tax bills may not be forgiven except by the City Counselor, who shall, in writing, instruct the building official to forgive such special tax bills or liens. Further, special tax bills shall be permitted to be waived when ownership of said property for which the bill was issued is accepted by Land Reutilization Authority, Saint Louis Development Corporation, or any other City agency.

2. Any administrative citation fine that remains unpaid for more than one (1) year may be added to the annual real estate tax bill and collected in the same manner and procedure for collecting real estate taxes. If the fines are not paid by the December 31 of the year in which the costs and fines are included in the tax bill, the tax bill shall be considered delinquent, and the collection of the delinquent bill shall be governed by the laws governing delinquent and back taxes. The tax bill shall be deemed a personal debt against the owner from the date of issuance, and shall also be a lien on the property from the date the bill becomes delinquent until paid.

3. The amount of the unpaid administrative citation may be enforced in the same manner as a judgment entered by a court of competent jurisdiction. Upon being recorded in the manner required by state law or the Uniform Commercial Code, a lien may be imposed on the real or personal property of any defendant entering a plea of nolo contendere, pleading guilty to, or found guilty of a municipal code violation in the amount of any debt due the City under this section and enforced in the same manner as a judgment lien under a judgment of a court of competent jurisdiction.

4. Any other procedure authorized by state law to collect a debt due and owing against the City.

D. Collected Funds—Impacted Tenants' Fund. All funds received pursuant to this chapter shall be deposited into the Impacted Tenants' Fund. Monies in the Fund may be used for administrative costs, provided that such costs do not exceed five (5) percent of the Fund balance on an annual basis. The remaining funds shall be used exclusively for the purposes set forth in this chapter.

(1994 C., § 25.33.110; Ord. No. 72002, § 2, 6-3-2025; Ord. No. 71991, § 1, 2-24-2025; Ord. No. 71990, § 3, 2-25-2025; Ord. No. 71840, § 5, 5-1-2024; Ord. No. 70931, § 1, 4-27-2018; Ord. No. 70737, § 1, 3-12-2018; Ord. No. 66857, § 11, 2005.)

Chapter 25.36

SMOKE HOUSES

Sections:

25.36.010 Definitions.
25.36.020 Where permitted.
25.36.030 Construction regulations.
25.36.040 Compliance—Animals.
25.36.050 Sale of food prohibited.
25.36.060 Compliance—Air pollution.
25.36.070 Penalty for violations.

25.36.010 Definitions.

For purposes of this chapter the following terms shall apply:

"Smoke house" shall mean any building or structure where meat or fish is cured by means of smoke. (1994 C., § 25.36.010; Ord. No. 65944, § 1, 2003.)

25.36.020 Where permitted.

Smoke houses shall be permitted within residential zoning districts in the City of St. Louis to the extent that the use of such building or structure is in compliance with the provisions of this chapter and any other applicable ordinance or statute. Any building or structure intended to be used as a smoke house within a residential zoning district which exceeds fifty (50) square feet in size shall require a permit from the Building Commissioner prior to construction and shall conform to all applicable regulatory codes for such structure. (1994 C., § 25.36.020; Ord. No. 65944, § 2, 2003.)

25.36.030 Construction regulations.

A. All smoke houses, regardless of size, shall be constructed of non-combustible materials.

B. All buildings and structures used as smoke houses shall be located a safe distance from any other building, as determined by the Fire Marshal.

C. Buildings and structures used as smoke houses shall not be used for any other purpose. (1994 C., § 25.36.030; Ord. No. 65944, § 3, 2003.)

25.36.040 Compliance—Animals.

Every person who owns or operates a smoke house within a residential zoning district shall comply with the provisions of Ordinance 64116, Ordinance 48606

and all ordinances which may be enacted subsequent to such effective date regarding the slaughter of animals and the disposal of parts of animals within the City of St. Louis. (1994 C., § 25.36.040; Ord. No. 65944, § 4, 2003.)

25.36.050 Sale of food prohibited.

No person who owns or operates a smoke house within a residential zoning district shall sell or offer for sale any food product prepared in such smoke house. The provisions of this section shall not apply to any food service establishment or temporary food service establishment regulated by Section 11.42 of the Revised Code of the City of St. Louis. (1994 C., § 25.36.050; Ord. No. 65944, § 5, 2003.)

25.36.060 Compliance—Air pollution.

Every person who owns or operates a smoke house within a residential zoning district shall comply with the provisions of Ordinance 65645 and all ordinances which may be enacted subsequent to such effective date regarding the regulation and control of air pollution within the City of St. Louis. (1994 C., § 25.36.060; Ord. No. 65944, § 6, 2003.)

25.36.070 Penalty for violations.

Any person found to have violated the provisions of this chapter shall be subject to a fine of not less than one hundred dollars ($100.00) or to a term of imprisonment of not more than ninety (90) days or both a fine and a term of imprisonment. Each day that such violations continues shall constitute a separate violation of this chapter. (1994 C., § 25.36.070; Ord. No. 65944, § 7, 2003.)

Chapter 25.40

THEATRICAL BARGES

City Counselor Ops.: 8451

Sections:

25.40.010 Applicability of chapter requirements.

25.40.020 Hand railings required.

25.40.030 Exit door requirements—Approval of Building Commissioner.

25.40.040 Exits—Size and number—Designation.

25.40.050 Programs to show exits.

25.40.060 Seats—Distance between—Maximum number between aisles.

25.40.070 Proscenium—Fireproof curtain—Operation and construction.

25.40.080 Inspection of curtains by Building Commissioner.

25.40.090 Fireproof paint required—Curtains to be less inflammable.

25.40.100 Calcium limelights prohibited—Rearrangement of stage ordered by Building Commissioner.

25.40.110 Doors from stage to auditorium must be metal-clad.

25.40.120 Inspection—Right of entry—Interference prohibited.

25.40.130 Skylights required—Manner of construction—Substitutes.

25.40.140 Lighting requirements generally.

25.40.150 Electrical wiring and appliances—Inspection and approval.

25.40.160 Firefighting equipment generally.

25.40.170 License required—Building Commissioner's approval.

25.40.180 Inspection fees—Posting of certificate of inspection.

25.40.010 Applicability of chapter requirements.

Every boat, barge or vessel used for any theatrical or operatic purposes and having seating accommodations for one hundred or more persons, and which has seating accommodations for spectators above the first or main floor, shall comply with this chapter. (1948 C., Ch. 67, § 27; 1960 C., § 718.010; 1994 C., § 25.40.010.)

25.40.020 Hand railings required.

All stairways and gangways shall have strong hand railings on both sides. These railings shall be continuous across platforms and landings wherever possible. (1948 C., Ch. 67, § 28; 1960 C., § 718.020; 1994 C., § 25.40.020.)

25.40.030 Exit door requirements—Approval of Building Commissioner.

All doors shall open outwardly and be kept unfastened and unobstructed during every performance. The exit doors shall be provided with self-releasing latches so arranged as to readily release the doors by pressure against them from the inside. These doors must be approved by the Building Commissioner. (1948 C., Ch. 67, § 29; 1960 C., § 718.030; 1994 C., § 25.40.030.)

25.40.040 Exits—Size and number—Designation.

There shall be at least two exits not less than five feet in width, one located at each end of the auditorium, leading directly to gangplanks connected with the dock, pier or the shore. All exits shall be plainly indicated by letters not less than four inches in height, placed over every doorway or passageway leading to the outside. Each exit shall at all times be kept free from curtains, portieres and similar obstructions, and shall be marked plainly with a red light. Every such boat, barge or vessel shall have an exit from the stage to a passageway not less than four feet wide. This passageway shall lead to an exit from the boat, barge or vessel. There shall be a clear, unobstructed passageway leading from the stage and all dressing rooms to such exit. (1948 C., Ch. 67, § 30; 1960 C., § 718.040; 1994 C., § 25.40.040.)

25.40.050 Programs to show exits.

All printed programs shall show a plan or diagram of each floor and balcony of a boat, barge or vessel, indicating the location of all exits and passageways leading to the outside. (1948 C., Ch. 67, § 31; 1960 C., § 718.050; 1994 C., § 25.40.050.)

25.40.060 Seats—Distance between—Maximum number between aisles.

All seats, except those contained in boxes, shall be at least thirty inches apart, measured from back to back, and shall be firmly secured to the floor. No seat shall have more than nine seats between it and an aisle, and no stool or seat shall be placed in any aisle. (1948 C., Ch. 67, § 32; 1960 C., § 718.060; 1994 C., § 25.40.060.)

25.40.070 Proscenium—Fireproof curtain—Operation and construction.

The proscenium opening of every such boat, barge or vessel shall be provided with a curtain of asbestos or

similar fireproof material. This curtain shall cover the entire proscenium opening. It shall be operated with rings and snaps sliding on wire cables or metal supports, and constructed in such a way that it can be lowered from the fly floors and the stage. The fireproof curtain shall be lowered at the close of every performance and shall be operated from the stage by proper devices for that purpose. (1948 C., Ch. 67, § 33(part); 1960 C., § 718.070; 1994 C., § 25.40.070.)

25.40.080 Inspection of curtains by Building Commissioner.

It shall be the duty of the Building Commissioner to inspect and test the construction and operation of such fireproof curtains at such intervals as shall, in his opinion, insure their maintenance in a good and sufficient condition for the safety of the audience. (1948 C., Ch. 67, § 33(part); 1960 C., § 718.080; 1994 C., § 25.40.080.)

25.40.090 Fireproof paint required—Curtains to be less inflammable.

A. All woodwork on the stage, fly-galleries, and rigging-lofts shall be painted with fireproof paint or treated with an approved fire-resisting material so as to be effectively rendered safe against fire. The curtains about the proscenium boxes, and all draperies, portieres and curtains within the auditorium or any aisles or corridors thereof shall be chemically treated to make them less inflammable. The frame or woodwork surrounding the canvas scenery used by the boat, barge or vessel shall be painted with fireproof paint and the reverse or back side of such canvas scenery shall be treated with an approved fire-resisting material.

B. The use of scenery painted with oil is prohibited. (1948 C., Ch. 67, § 34; 1960 C., § 718.090; 1994 C., § 25.40.090.)

25.40.100 Calcium limelights prohibited—Rearrangement of stage ordered by Building Commissioner.

The use of calcium limelights is prohibited, except on the stage floor. Whenever the Building Commissioner shall be satisfied that in any theatrical or operatic performance an extra hazard of fire will exist by reason of the employment of large quantities of scenery, nets, ropes, lights and other inflammable material, he shall order such scenery and lights arranged in such a manner as will reduce the hazard to a minimum degree. (1948 C., Ch. 67, § 35; 1960 C., §§ 718.100 and 718.110; 1994 C., § 25.40.100.)

25.40.110 Doors from stage to auditorium must be metal-clad.

All doors leading from the stage to the auditorium shall be metal-clad doors. (1948 C., Ch. 67, § 36; 1960 C., § 718.120; 1994 C., § 25.40.110.)

25.40.120 Inspection—Right of entry—Interference prohibited.

The Building Commissioner and his assistants shall have the right to enter any such boat, barge or vessel or any parts thereof at any reasonable time, especially when occupied by the public, in order to determine the existing conditions and discharge their respective duties. It shall be unlawful for any person to refuse admission to such officers or to obstruct them in any manner in the performance of their duties. (1948 C., Ch. 67, § 37; 1960 C., § 718.130; 1994 C., § 25.40.120.)

25.40.130 Skylights required—Manner of construction—Substitutes.

A. Over the stage there shall be metal skylights of a combined area equal to one-tenth of the area of the stage, and glazed with glass not exceeding one-eighth of an inch in thickness. Each light thereof shall measure not less than three hundred square inches. The whole of each such skylight shall be so constructed as to open instantly upon the cutting or burning of a cord fastened to the floor at the rear side of the stage or the melting of a fusible link, which shall be arranged to hold such skylight closed, or some other equally simple approved device for their opening automatically in case of fire on the stage. As an extra precaution, they shall be so constructed that they may be instantly thrown open by means of a strong wire cable reaching them from the stage floor or by any equally effective means for their being opened manually which may be approved by the Building Commissioner. A strong wire netting constructed of wire not less than number ten gauge, and of a mesh not larger than one inch shall be securely suspended below the glass of all skylights.

B. In case it is impracticable to construct skylights as herein described, it shall be permissible to provide, in lieu thereof, ventilating openings in the walls above the stage, at such locations and of such size and construction as shall be approved by the Building Commissioner. Such ventilating openings shall be arranged to open in the same manner as skylights above the stage. (1948 C., Ch. 67, § 38; 1960 C., § 718.140; 1994 C., § 25.40.130.)

25.40.140 Lighting requirements generally.

Every part of such boat, barge or vessel used for theatrical or operatic purposes, and all outlets leading to the outside thereof, including all passageways, shall be lighted during each performance and until the entire audience has left the premises. All lights in the halls, corridors, lobby or any part of such boat, barge or vessel used by the audience, except the auditorium, shall be controlled by a separate shutoff, located in the front portion of the boat, barge or vessel and controlled from that particular place only. All suspended or bracket lights surrounded by glass globes or shades in any part of such boat, barge or vessel devoted to the public shall be provided with proper wire netting underneath. No light shall be inserted in the wall, woodwork, ceilings, or in any part of such boat, barge or vessel unless protected by fireproof materials. All lights in passages and corridors shall be protected with proper wire network. All border, ceiling, or other lights on or over the stage shall be incandescent electric. All lights on the stage side of the proscenium wall in dressing rooms, store rooms, and other places, other than incandescent electric lights, shall have strong wire metal guards or screens not less than ten inches in diameter, so constructed that any material in contact therewith shall be out of reach of such lights, and shall be rigidly attached to the fixtures in all cases. (1948 C., Ch. 67, § 39; 1960 C., § 718.150; 1994 C., § 25.40.140.)

25.40.150 Electrical wiring and appliances—Inspection and approval.

All electrical wiring and appliances used in connection with the lighting of such boat, barge or vessel shall be approved by an inspector of the section of electrical inspection in the Department of Public Utilities. (1948 C., Ch. 67, § 40; 1960 C., § 718.160; 1994 C., § 25.40.150.)

25.40.160 Firefighting equipment generally.

Two barrels filled with water shall be kept in position for immediate use on the stage and each gallery. Each barrel shall be provided with two buckets. These barrels and buckets shall be painted red. There shall also be provided such portable fire extinguishing apparatus as, in the judgment of the Building Commissioner, may be necessary for the protection of the audience. On each tier or floor of the stage there shall be kept at least two axes, two 20-foot hooks, two 15-foot hooks and two 10-foot hooks. (1948 C., Ch. 67, § 41; 1960 C., § 718.170; 1994 C., § 25.40.160.)

25.40.170 License required—Building Commissioner's approval.

Every such boat, barge or vessel shall pay to the License Collector the license fees required by the current license ordinance of the City. No boat, barge or vessel shall be used for theatrical or operatic purposes until such boat, barge or vessel shall have been approved by the Building Commissioner, in writing, as required by this chapter. The License Collector shall not issue a license for any theatrical or operatic performance to be conducted in such boat, barge or vessel until the certificate of approval has been given, in writing, by the Building Commissioner. (1948 C., Ch. 67, § 42; 1960 C., § 718.180; 1994 C., § 25.40.170.)

25.40.180 Inspection fees—Posting of certificate of inspection.

A. The fee to be paid for each inspection shall be five dollars if the seating capacity of the boat, barge or vessel does not exceed one thousand. For every additional one thousand seats or fractional part thereof, an additional sum of five dollars shall be paid.

B. It shall be the duty of any manager, owner, licensee or keeper of any such boat, barge or vessel to post the certificate of inspection of the Building Commissioner, or a true copy thereof, in the auditorium of such boat, barge or vessel. (1948 C., Ch. 67, § 43; 1960 C., §§ 718.190 and 718.200; 1994 C., § 25.40.180.)

Chapter 25.44

TRAILER PARKS

Sections:

25.44.010 Definitions.
25.44.020 License—Required—Fee.
25.44.030 Location of park.
25.44.040 Park plan requirements.
25.44.050 Sanitation facilities.
25.44.060 Laundry facilities.
25.44.070 Sewage disposal.
25.44.080 Refuse disposal.
25.44.090 Fire protection.
25.44.100 Register of occupants.
25.44.110 Other uses prohibited.
25.44.120 Revocation of license.
25.44.130 Violation—Penalty.

25.44.010 Definitions.

For the purpose of this chapter, certain words and phrases are defined as follows:

A. "Trailer coach" is any portable structure or vehicle mounted upon wheels and used for living or sleeping purposes.

B. "Trailer coach park" is a plot of ground where five or more trailer coaches may be located, regardless of whether or not a charge is made for such accommodation.

C. "Trailer coach space" is a plot of ground within a trailer coach park designed for the accommodation of one trailer coach. (1960 C., § 650.010; 1994 C., § 25.44.010; Ord. No. 45479, § 1, 1950.)

25.44.020 License—Required—Fee.

It shall be unlawful for any person to maintain or operate within the limits of the City any trailer coach park unless such person shall first obtain a license therefor. A written application for such license, signed by the applicant, shall be made to the License Collector, stating the name and address of the applicant, the location of the trailer coach park, and that the location thereof is zoned as the "K" Unrestricted District, a complete plan showing the maximum number of trailers the park will accommodate, and plans of all proposed or existing buildings and improvements. Before such license shall be issued or renewed, the premises shall be inspected by the Health Commissioner and the Building Commissioner to determine whether the provisions of this chapter are complied with, and the Chief of Police shall cause an investigation to be made to determine the character and fitness of the applicant. The annual license fee for each trailer coach park shall be twenty-five dollars for five or less spaces and an additional five dollars for each space in excess of five. The license certificate shall be conspicuously posted on the premises at all times. (1960 C., § 650.020; 1994 C., § 25.44.020; Ord. No. 45479, § 2, 1950.)

25.44.030 Location of park.

No trailer coach park shall be located in a district zoned other than the "K" Unrestricted District. Each boundary of such park shall be at least one thousand feet from any area other than the "K" Unrestricted District. (1960 C., § 650.030; 1994 C., § 25.44.030; Ord. No. 45479, § 3, 1950.)

25.44.040 Park plan requirements.

The trailer coach park shall conform to the following requirements:

A. The park shall be located on a well-drained site, properly graded to insure rapid drainage and freedom from stagnant pools of water.

B. Trailer coach spaces shall be provided consisting of a minimum of 1,000 square feet for each space which shall be at least 25 feet wide and clearly defined. Trailer coaches shall be so harbored on each space that there shall be at least a 15-foot clearance between trailer coaches. No trailer coach shall be located closer than 10 feet from any property line bounding the park nor within 5 feet of the boundary of the trailer coach space.

C. All trailer coach spaces shall abut upon a driveway of not less than 20 feet in width which shall have unobstructed access to a public street, alley or highway. All driveways shall be hard-surfaced, well-marked in the daytime and lighted at night with lamps of not less than 25 watts at intervals of 100 feet located approximately 15 feet from the ground.

D. Walkways not less than two feet wide shall be provided from the trailer coach spaces to the service buildings. The walkways shall be hard-surfaced, well-marked in the daytime and lighted at night with lamps of not less than 25 watts at intervals of 100 feet located approximately 15 feet from the ground.

E. Each park shall provide service buildings to house toilet facilities, bathing facilities, laundry facilities and other sanitary facilities as hereinafter more particularly prescribed.

F. An electrical outlet supplying at least 110 volts shall be provided for each trailer coach space.

G. An adequate supply of pure water for drinking and domestic purposes shall be supplied to meet the requirements of the park. The water supply shall be obtained from faucets only. No common drinking cups shall be permitted. Cold water supply faucets shall be located on each trailer coach space. An adequate supply of hot water shall be provided at all times in the service building for bathing, washing and laundry facilities. (1960 C., § 650.040; 1994 C., § 25.44.040; Ord. No. 45479, § 4, 1950.)

25.44.050 Sanitation facilities.

Each park shall be provided with toilets, baths or showers, slop sinks and other sanitation facilities which shall conform to the following requirements:

A. Toilet facilities for men and women shall be either in separate buildings at least 20 feet apart or shall be separated, if in the same building, by a soundproof wall.

B. Toilet facilities for women shall consist of not less than one flush toilet for every 10 trailer coach spaces, one shower or bath tub for every 10 trailer coach spaces and one lavatory for every 20 trailer coach spaces. Each toilet, shower and bath tub shall be in a private compartment.

C. Toilet facilities for men shall consist of not less than one flush toilet for every 15 trailer coach spaces, one shower or bath tub for every 10 trailer coach spaces, one lavatory for every 10 trailer coach spaces and one urinal for every 15 trailer coach spaces. Each toilet and bath tub shall be in a private compartment.

D. Service buildings housing the toilet facilities shall be permanent structures complying with all applicable ordinances and statutes regulating buildings, electrical installations and plumbing and sanitation systems, and shall be located not closer than 10 feet nor farther than 250 feet from any trailer coach space.

E. Each service building shall contain at least one slop sink for each sex located in a separate compartment.

F. The service buildings shall be well-lighted at all times of the day or night, shall be well-ventilated with screened openings, shall be constructed of such moisture-proof material, including painted woodwork, as shall permit repeated cleaning and washing, and shall be maintained at a temperature of at least 68 degrees Fahrenheit during the period from October 1st to May 1st. The floors of the service building shall be of water impervious material and shall slope to a floor drain connected with the sewage system.

G. Adequate measures shall be taken to control roaches, flies, and mosquitoes in service buildings and to prevent breeding of such insects in the park areas. No conditions conducive to rat infestation shall be permitted and all necessary measures, including adequate rat-stoppage of service building, shall be taken to eliminate rat infestation.

H. All service buildings and the grounds of the park shall be maintained in a clean and sanitary condition and kept free of any condition that will menace the health of any occupant or the public or constitute a nuisance. (1960 C., § 650.050; 1994 C., § 25.44.050; Ord. No. 45479, § 5, 1950.)

25.44.060 Laundry facilities.

The laundry facilities shall be provided in the ratio of one double laundrytub and ironing board for every 20 trailer coach spaces. An electrical outlet supplying current sufficient to operate an iron shall be located conveniently near the ironing board. Drying spaces shall be provided sufficient to accommodate the laundry of the trailer coach occupants. The service building housing the laundry facilities shall be a permanent structure complying with all applicable ordinances and statutes regulating buildings, electrical installations and plumbing and sanitation systems. (1960 C., § 650.060; 1994 C., § 25.44.060; Ord. No. 45479, § 6, 1950.)

25.44.070 Sewage disposal.

Waste from showers, bathtubs, toilets, slop sinks and laundries shall be discharged into a public sewer system in compliance with applicable ordinances in such manner as will present no health hazard. All kitchen sinks, wash-basins, bath or shower tubs in any trailer coach harbored in any park shall empty into a sanitary sewer located on the trailer coach space. (1960 C., § 650.070; 1994 C., § 25.44.070; Ord. No. 45479, § 7, 1950.)

25.44.080 Refuse disposal.

Tightly covered metal garbage cans and rubbish cans shall be provided in quantities adequate to permit disposal of all garbage and rubbish. Garbage and rubbish cans shall be located not farther than 200 feet from any trailer coach space. The cans shall be kept in sanitary condition at all times. Garbage and rubbish shall be collected and disposed of as frequently as may be necessary to ensure that the containers shall not overflow. (1960 C., § 650.080; 1994 C., § 25.44.080; Ord. No. 45479, § 8, 1950.)

25.44.090 Fire protection.

Every park shall be equipped at all times with at least one approved fire extinguisher in good working order for every 10 trailer coach spaces. In addition, the licensee shall require each trailer to be equipped with an approved fire extinguisher in good working order. No open fires shall be permitted at any place which would endanger life or property. No kerosene or oil lamps shall be used in trailers. All heating and cooking apparatus shall be connected to the open air by means

of flues, except where the heating or cooking element is electricity. No trailer shall be permitted in such park unless provided with at least two means of exit. (1960 C., § 650.090; 1994 C., § 25.44.090; Ord. No. 45479, § 9, 1950.)

25.44.100 Register of occupants.

A. It shall be the duty of the licensee to keep a register containing a record of all trailer coach owners and occupants located within the park. The register shall contain the following information:

1. Name and address of each occupant;

2. The make, model and year of all automobiles and trailer coaches;

3. License number and owner of each trailer coach and automobile by which it is towed;

4. The state issuing such licenses; and

5. The dates of arrival and departure of each trailer coach.

B. The park operator shall keep the register available for inspection, at all times, by law enforcement officers, public health officials and other officials whose duties necessitate acquisition of the information contained in the register. The register records shall not be destroyed for a period of three years following the date of registration. (1960 C., § 650.100; 1994 C., § 25.44.100; Ord. No. 45479, § 10, 1950.)

25.44.110 Other uses prohibited.

It shall be unlawful for any person to maintain any trailer coach for dwelling purposes upon any plot of ground within the City except in a duly licensed trailer coach park. It shall be unlawful to remove the wheels or otherwise to fix said trailer coach permanently to the ground so as to prevent ready removal, unless a permit therefor is obtained from the Building Commissioner. Any such alteration shall be construed as converting the trailer into a single dwelling residence and shall make it subject to the requirements of the Sanitary, Zoning and Building Code Ordinances. (1960 C., § 650.110; 1994 C., § 25.44.110; Ord. No. 45479, § 11, 1950.)

25.44.120 Revocation of license.

Whenever any department of the City required to investigate or inspect trailer coach parks shall find a violation of the provisions of this chapter, the department shall notify the licensee of the violation. If the violation is not corrected subject to the approval of the department complaining, within a reasonable time after notification, the license may be revoked by the Board of Public Service, after a hearing thereon. (1960 C., § 650.120; 1994 C., § 25.44.120; Ord. No. 45479, § 12, 1950.)

25.44.130 Violation—Penalty.

Any person who violates the provisions of this chapter shall be deemed guilty of a misdemeanor and, upon conviction thereof, shall be fined the sum of not less than five dollars nor more than two hundred dollars for each offense. Each day that a violation is permitted to exist shall constitute a separate offense. (1960 C., § 650.130; 1994 C., § 25.44.130; Ord. No. 45479, § 14, 1950.)

CERTIFICATES OF USE AND OCCUPANCY

Sections:

25.48.010	**Reserved.**
25.48.020	**Approval by Community Development Commission.**
25.48.030	**No permit without Community Development Commission approval.**
25.48.040	**Standards for approval.**
25.48.050	**Exceptions.**
25.48.060	**Procedure for changing standards.**
25.48.070	**Planning law.**

25.48.010 Reserved.

Editor's Note:

Ord. No. 69948, § 1, adopted Feb. 18, 2015, repealed § 25.48.010 which pertained to certificates of use and occupancy required and derived from Ord. No. 56167, § 1, adopted in 1972.

25.48.020 Approval by Community Development Commission.

No building permit or certificate of use and occupancy shall be issued for residential housing construction or use, which construction or use is in any way whatsoever to be subsidized with governmental funds, unless the application for the same is first approved by the Community Development Commission. For the purpose of this chapter, a residential housing construction or use will not be considered as being subsidized with governmental funds if such construction or use is constructed, changed, altered, enlarged or remodeled through a loan guaranteed or insured by any government and if such housing construction or use is not

subsidized with governmental funds in any other way. (1994 C., § 25.48.020; Ord. No. 56167, § 2, 1972.)

25.48.030 No permit without Community Development Commission approval.

When an application for a building permit to construct new subsidized housing units (as described hereinabove) and every application for a certificate of use and occupancy for units in subsidized existing buildings (as described hereinabove) is received by the Building Commissioner's Office, it shall be forwarded promptly to the City Plan Commission for approval or disapproval. No such permit may be issued without prior City Plan Commission approval. (1994 C., § 25.48.030; Ord. No. 56167, § 3, 1972.)

25.48.040 Standards for approval.

Upon receipt of any such application, the City Plan Commission shall review same to determine whether the proposed new building or occupancy or use conforms with the standards set forth in "A Housing Program for the City of St. Louis 1970-1980" (hereinafter referred to as "housing program") which housing program is recognized herein and was approved by the City Plan Commission on the 12th day of May, 1971. If conformity with said standards is found, the application shall be approved, and if not, it shall be disapproved. The City Plan Commission shall notify the Building Commissioner in writing of its approval or disapproval. If the City Plan Commission notifies the Building Commissioner or the applicant of its approval or if the City Plan Commission fails to notify the Building Commissioner of either its approval or disapproval within forty-five days after receipt of said application, the application shall be deemed automatically approved. The Building Commissioner shall then be authorized to issue the necessary permit provided that the application complies in all other respects with the requirements of all applicable laws and ordinances. For the purposes of this chapter, any reference in said housing program to or use of the words "low-income residential developments" or "low-income dwelling units" or "low-income public housing units" or "residential developments for low-income families" or "residential developments for low-income elderly" or "low-income housing" shall be interpreted to mean any dwelling unit or group of dwelling units which is constructed or rehabilitated by, or for sale or for lease to St. Louis housing authority; or is an existing building to be sold or leased to said authority; and any dwelling unit which is to be constructed or rehabilitated under a mortgage program which now involves rent supplement payments from any governmental agency or under a mortgage program which contains an option, exercisable in the future, for use of rent supplement payments from any governmental agency. (1994 C., § 25.48.040; Ord. No. 56167, § 4, 1972.)

25.48.050 Exceptions.

A. Within thirty days after disapproval of any such application as described in Section 25.48.040, an applicant can apply to the City Plan Commission for an exception from its disapproval of such application. The City Plan Commission may recommend to the Board of Aldermen that an exception be granted for such application if it finds the following:

1. That although the application deviates from the aforementioned standards of the housing program, the deviation is of an insubstantial and insignificant nature; and

2. That the application conforms with other standards, criteria and objectives of said housing program; and

3. That special community facilities, including schools, public transportation, medical, recreational and employment opportunities are available in sufficient quantity and availability in the nearby vicinity of the proposed construction or use to justify the exception.

B. The City Plan Commission shall communicate its favorable recommendation of any application for an exception to the Board of Aldermen with its written factual findings supporting such recommendation. If the Board of Aldermen approves such recommendation by ordinance, the exception shall be granted. If said exception is so enacted into ordinance by the Board of Aldermen, the Building Commissioner shall issue the necessary permits requested by the said application provided the application complies in all other respects with the requirements of all applicable laws and ordinances. (1994 C., § 25.48.050; Ord. No. 56167, § 5, 1972.)

25.48.060 Procedure for changing standards.

The City Plan Commission may at any time recommend changes in the standards of the said housing program to the Board of Aldermen for ordinance enactment. The City Plan Commission shall be required to review said housing program on an annual basis beginning not later than one year from the effective

date of this chapter (March 29, 1973) and recommend to the Board of Aldermen any changes in said standards that the Commission deems necessary. (1994 C., § 25.48.060; Ord. No. 56167, § 6, 1972.)

25.48.070 Planning law.

This chapter is a planning law within the meaning of RSMo 99.130 (1969). (1994 C., § 25.48.070; Ord. No. 56167, § 7, 1972.)

Chapter 25.52

SMOKE DETECTORS

Sections:

25.52.010 Definitions.
25.52.020 Installation requirements—After January 1, 1985.
25.52.030 Installation requirements—One-year compliance period.
25.52.040 Location requirements.
25.52.050 Type of detector.
25.52.060 Owner responsibility to install, test and maintain.
25.52.070 Enforcement and inspection.
25.52.080 Battery removal prohibited.
25.52.090 Penalty for violation.

25.52.010 Definitions.

For the purpose of this chapter, the following terms, phrases, words and their derivations shall have the meaning given herein. When not inconsistent with the context, words used in the present time include the future, words in singular number include the plural number. The word "shall" is mandatory and "may" is permissive. Words not defined shall be given their common and ordinary meaning.

A. The term "dwelling unit" means a structure, building, area, room or combination of rooms occupied by persons for sleeping or living.

B. The term "owner" means any person, firm, partnership, corporation who alone or jointly or severally with other persons, firms, partnerships has legal title to any premises. The term "owner" includes any person, partnership or corporation, who has charge, care or control over any premises as (1) an agent, officer, fiduciary, or employee of the owner; (2) the conservator, or legal guardian of an owner who is non compos mentis, a minor, or otherwise under a disability; (3) a trustee elected or appointed, or a person required by law to execute a trust, other than a trustee under a deed of trust to serve the payment of money; or (4) an executor, administrator, personal representative receiver, fiduciary, officer appointed by any court, or other similar representative of the owner or his estate. The term "owner" does not include a lessee, sublessee or other person who merely has the right to occupy or possess a premises.

C. The term "sleeping area" means a bedroom or room intended for sleeping, or a combination of bedrooms or rooms intended for sleeping within a dwelling unit, which are located on the same floor and are not separated by another habitable room, such as a living room, dining room, or kitchen but not a bathroom, hallway or closet. A dwelling unit may have more than one sleeping area.

D. The term "smoke detector" means a device which detects visible or invisible particles of combustion and shall be either the ionization chamber or the photoelectric type. (1994 C., § 25.52.010; Ord. No. 59376, § 1, 1985.)

25.52.020 Installation requirements—After January 1, 1985.

The owner of each dwelling unit which is constructed or rehabilitated after January 1, 1985 shall install smoke detectors and/or fire suppression systems prior to the occupancy of said dwelling unit in compliance with the existing Building Code and Fire Codes of the City in effect at the date of occupancy. If there is no ordinance in effect requiring smoke detectors or fire suppression systems to be installed at the time of occupancy, then the owner shall install smoke detectors as required by this chapter. (1994 C., § 25.52.020; Ord. No. 59376, § 2, 1985.)

25.52.030 Installation requirements—One-year compliance period.

The owner of each existing dwelling or newly constructed or rehabilitated unit that is not at the effective date of this chapter required to be protected by a smoke detector or fire suppression system shall install smoke detectors as required by this chapter within one year of the effective date of this chapter. (1994 C., § 25.52.030; Ord. No. 59376, § 3, 1985.)

Editor's Note:

Ordinance 59376 was approved February 19, 1985.

25.52.040 Location requirements.

The owner of each existing dwelling or newly constructed or rehabilitated unit shall install at least one (1)

smoke detector to protect each sleeping area. In an efficiency, the owner shall install the smoke detector in the room used for sleeping. In all other dwelling units, the owner shall install the smoke detectors outside the bedrooms, but in the immediate vicinity of the sleeping area. An owner subject to this chapter shall install each smoke detector on the ceiling at a minimum of four inches from the side wall to the near edge of the detector or on a wall located four to twelve inches from the ceiling to the top of the detector and within fifteen feet of all rooms used for sleeping purposes, with not less than one detector per level containing a habitable room and in the basement or cellar. The smoke detector shall not be installed in dead air space, such as where the ceiling meets the wall. Where one or more sleeping areas are located on a level above the cooking and living area, the smoke detector for such sleeping area(s) shall be placed at the top of the stairway. An owner shall also install not less than one smoke detector on the uppermost ceiling, not less than four inches from any wall, or on a wall, locate four to twelve inches from the uppermost ceiling of all interior stairwells. For good cause shown, the Director of Public Safety or his designated department representatives have the authority to modify the location requirement of this chapter. (1994 C., § 25.52.040; Ord. No. 59376, § 4, 1985.)

25.52.050 Type of detector.

The owner shall install a smoke detector which is capable of sensing visible or invisible particles of combustion and emitting an audible signal and may be wired directly to the building power supply, or may be powered by self-monitored battery. The smoke detector shall comply with all the specifications of the Underwriters Laboratories, Inc. Standard UL217 (Standard for Safety-Single and Multiple Station Smoke Detectors) 2nd Edition October 4, 1978 as revised May 19, 1983 or any recognized standard testing laboratory that certifies the detector meets the requirement of National Fire Protection Association (NFPA) Standards 72E and 74. Smoke detectors shall bear the label of a nationally recognized standards testing laboratory that indicates that the smoke detectors have been tested and listed under the requirement of UL217 2nd Edition or NFPA 72E and 74. (1994 C., § 25.52.050; Ord. No. 59376, § 5, 1985.)

25.52.060 Owner responsibility to install, test and maintain.

It shall be the responsibility of the owner to supply and install all required detectors. The owner shall be responsible for testing and maintaining detectors in common stairwells. It shall be the responsibility of the tenant to provide and maintain functional batteries for each detector, to test and maintain detectors within dwelling units, and to notify the owner or authorized agent in writing of any deficiencies. The owner shall be responsible for providing each tenant with written information regarding detector testing and maintenance. (1994 C., § 25.52.060; Ord. No. 59376, § 6, 1985.)

25.52.070 Enforcement and inspection.

The Director of Public Safety or his designated department representatives shall have jurisdiction to inspect dwelling units for the installation of any smoke detector required to be installed under this or any other ordinance. Said inspections may be held between the hours of 9:00 a.m. and 5:00 p.m., Monday through Friday. (1994 C., § 25.52.070; Ord. No. 59376, § 7, 1985.)

25.52.080 Battery removal prohibited.

It shall be unlawful for any person to remove batteries or in any way make smoke detectors inoperable. (1994 C., § 25.52.080; Ord. No. 59376, § 8, 1985.)

25.52.090 Penalty for violation.

Any owner or other person who is convicted of violating any provision of this chapter shall be punished by a fine of not less than twenty-five dollars ($25.00) or more than five hundred dollars ($500.00) or by imprisonment for not more than ninety (90) days or by both such fine and imprisonment. (1994 C., § 25.52.090; Ord. No. 59376, § 9, 1985.)

Chapter 25.56

HOUSING CONSERVATION DISTRICTS

Editor's Note:

Ord. No. 71835, § 1, adopted April 16, 2024, amended the Code by repealing former Ch. 25.56, §§ 25.56.010—25.56.150, and adding a new Ch. 25.56 to read as herein set out. Former Ch. 25.56 pertained to similar subject matter, and derived from Ord. No. 67194 of 2008; Ord. No. 67993, adopted June 24, 2008; Ord. No. 68714, adopted July 13, 2010; Ord. No. 68724, adopted July 22, 2010; Ord. No. 68794, adopted Nov. 18, 2010; Ord. No. 69117, adopted March 20, 2012; Ord. No. 69202, adopted July 24, 2012; and Ord. No. 70456, adopted February 8, 2017.

25.56.010 City Housing Conservation Program.

All areas within the legal boundaries of the City of St. Louis are hereby placed under the City Housing Conservation Program to be administered and regulated by the provisions and requirements herein.
(Ord. No. 72025, § 1, 7-11-2025; Ord. No. 71835, § 1, 4-16-2024.)

25.56.020 Definitions.

A. "Code official" as used in this chapter means the Building Commissioner or a duly authorized representative.

B. "Condemnation for occupancy" means an order issued by the Code Official, prohibiting any person from occupying the dwelling unit specified in such order until it has been revoked, and further preventing anyone from being present on such premises except to clean up and/or make repairs to the premises.

C. "Dwelling unit" means a single-family home or any single unit in a multi-family dwelling that provides complete independent living facilities for one or more persons, including permanent provisions for living, sleeping, eating, cooking, and sanitation.

D. "Owner" means any person, agent, operator, firm, corporation, or any other legal entity having a legal or equitable interest in a parcel of real property; recorded in the official records of the City of St. Louis as holding title to a parcel of real property; or otherwise having control of real property, including as a landlord, collector of rent, or a guardian of an estate for any such person, executor, personal representative, administrator of the estate of such person, or bankruptcy trustee.

E. "Rental dwelling unit" as used in this chapter refers to a dwelling unit that is being held out or offered for rent or is rented and/or occupied by any person who is not the owner of the premises. A dwelling unit occupied by a direct family member of the owner of the premises shall be considered as occupied by the owner. A "direct family member" of the owner shall be considered to be a child, grandchild, parent, sibling, parent-in-law, or grandparent. Additionally, two-family buildings or duplexes in which one of the units is owner-occupied and the other unit is held out for rent shall be considered owner-occupied. A single-family home or duplex shall not be considered a rental dwelling unit if they are owner-occupied.
(Ord. No. 72025, § 1, 7-11-2025; Ord. No. 71835, § 1, 4-16-2024.)

25.56.030 Code Official to enforce chapter.

The code official shall implement the requirements of this chapter.
(Ord. No. 72025, § 1, 7-11-2025; Ord. No. 71835, § 1, 4-16-2024.)

25.56.040 Certificate of inspection requirements—Exception.

A. It shall be unlawful for any person, firm, partnership, corporation, or any other legal entity to occupy or permit the occupancy for any purpose or collect the rent of any occupied dwelling unit when a complete change of occupancy has occurred without first securing a certificate of inspection for said dwelling unit.

B. It shall be unlawful for any person, partnership, firm, corporation, or other legal entity to take possession as a result of conveyance as it is reflected in the Office of the Recorder of Deeds, of an occupied residential unit(s) without first securing a certificate of inspection for said unit(s).

C. Upon determining that a dwelling unit has undergone a complete change of occupancy or a sale of

the property as reflected in the Recorder of Deeds' Office without first obtaining a certificate of inspection, the code official shall serve written notice on the owner of such dwelling unit, that a certificate of inspection must be obtained within thirty (30) calendar days of notification, or the unit will be condemned for occupancy and must be vacated. Written notice may be sent by (i) personal service; (ii) postage prepaid United States certified mail, return receipt requested, and regular first class mail; (iii) FedEx, UPS, or similar carrier; or (iv) posting the notice in a conspicuous location on the property where the violation exists, unless there has been personal service.

D. It is the responsibility of the owner to secure a certificate of inspection. It shall be the responsibility of the owner, owner's agent, and/or the occupant to provide access to all applicable areas subject to inspections as provided in this chapter.

E. It shall be unlawful for the owner or owner's agent to require a prospective occupant to apply or pay for any fee contained herein for a certificate of inspection.

F. If there is a change in occupancy or ownership of a dwelling unit(s) within twelve (12) months of the date of issuance of a certificate of inspection for that unit(s), a new certificate of inspection shall not be required.

(Ord. No. 72025, § 1, 7-11-2025; Ord. No. 71835, § 1, 4-16-2024.)

25.56.050 Certificate of inspection—Issuance.

A. If the unit is available for inspection by the City, the City shall inspect the unit within seven (7) working days from the date of application for Certificate of Inspection unless the Owner approves a longer time. Failure of the City to inspect within said seven (7) days does not waive the requirements of a Certificate of Inspection.

B. The Certificate of Inspection will be issued for the dwelling unit and premises that comply with the exterior provisions of the International Property Maintenance Code, the Zoning Ordinance of the City of St. Louis, and the requirements of all Building Code relating to the Interiors of Buildings.

C. The Certificate of Inspection may be issued for the dwelling unit(s) and premise(s) that comply with the Zoning Code of the City of St. Louis and the requirements of all Building Code relating to the Interiors of Buildings and are in substantial but not complete compliance with the exterior provisions of the International Property Maintenance Code as determined by the Code Official but said building must meet total compliance within thirty (30) calendar days after the date of issuance. When total compliance is not practical or feasible within the specified time, extensions to the aforementioned compliance period may be granted at the discretion of the Code Official.

D. No Certificate of Inspection can be issued when the dwelling unit(s), building, or the premise(s) is in such condition as to warrant condemnation or when conditions are found that may imminently and adversely affect the health, safety, or welfare of the actual or proposed occupants.

E. When long-term rehabilitation work is in progress with required building permits being issued, a portion of that building may be occupied if that portion meets the requirements of all Building Code relating to the Interiors of Buildings and the exterior portion of the building is in compliance with the International Property Maintenance Code. That portion of the building that meets the requirements will be inspected and a Certificate of Inspection with an occupancy load will be issued for that area only. Additional areas will be required to be inspected after rehabilitation work is completed and before those areas become occupied. A new application must be filed for these additional areas.

(Ord. No. 72025, § 1, 7-11-2025; Ord. No. 71835, § 1, 4-16-2024.)

25.56.060 Certificate of inspection—Issuance—Exceptions.

A. The provisions of this chapter pertaining to the issuance of a Certificate of Inspection shall not apply to lawful occupancies existing at the time of the effective date of this chapter.

B. The provisions of this chapter shall not apply to a change of ownership of any occupied residential and/or nonresidential building which the buyer either thirty (30) calendar days prior to purchase or within seven (7) calendar days after purchase delivers a notarized statement to the Code Official that the buyer will cause said building to be demolished within six (6) months after purchase. Failure to provide the notarized statement to the Code Official within this time period will require the Owner to comply with the provisions of this chapter. The provisions of this chapter shall not

apply to a change of ownership of one- or two-family dwellings as a result of inheritance or a transfer of title to a first-degree relative.
(Ord. No. 72025, § 1, 7-11-2025; Ord. No. 71835, § 1, 4-16-2024.)

25.56.070 Certificate of inspection—Fees.

A. Fees for a certificate of inspection prior to occupancy when the application for inspection is:

1. General inspection of the exterior of building and all common areas and premises plus one (1) dwelling unit is one hundred twenty dollars ($120.00.) Each additional dwelling unit included in the general inspection, if the inspection is performed within the same building and on a common date, is sixty-five dollars ($65.00) per additional dwelling unit.

B. The fee for a certificate of inspection per unit which is unlawfully occupied shall be two hundred dollars ($200.00) per unit.

C. Major rehabilitation of dwelling units pursuant to interior floor plans for each level, and site plans approved by the Building Division, as well as newly constructed units having been certified as completed in accordance with the codes and ordinances of the City of St. Louis will be issued original certificates of inspection as described herein at no charge after construction completion and Building Code compliance certification.

D. Six (6) percent of fee revenue collected will be allocated to the Building Division Information Technology Fund.
(Ord. No. 72025, § 1, 7-11-2025; Ord. No. 71835, § 1, 4-16-2024.)

25.56.080 Reinspection of premises for which valid certificate of inspection exists.

A. After the issuance of the certificate of inspection for a dwelling unit, or multiple dwelling units in the same building, the code official may require reinspection, pursuant to the provisions of this section. The code official may require reinspection where he has reasonable cause to believe that a rental dwelling unit to be reinspected, and/or the building in which the unit is located, no longer complies with the standards for issuance of a certificate of inspection. Reasonable cause to conduct a reinspection shall include, but not be limited to (1) damage to the building in which the dwelling unit to be reinspected was impacted by wind, fire, earthquake, an Act of God, or by man-made causes that jeopardize the health and safety of the occupants; (2) a complaint made by a resident of the dwelling unit to be reinspected; or (3) a documented complaint of the existence of conditions not in compliance with standards for issuance of a certificate of inspection from someone other than the resident, including, but not limited to, police officers and inspectors employed by the Division of Building and inspection or other city agency. Reasonable cause for reinspection is not required to conduct a reinspection where an occupant of a dwelling unit to be reinspected voluntarily permits the reinspection.

B. A reinspection shall be required for a rental dwelling unit either (1) every three (3) years following the issuance of a certificate of inspection or (2) every time there is a change in occupancy in the unit when receiving a notification of a change in utility users in accordance with Section 25.56.100. When reinspection is required, the code official shall send notice of the reinspection to the owner of such rental dwelling unit, by either first class mail or personal delivery that a certificate of inspection must be obtained within thirty (30) calendar days of the owner's reception of notification or the unit will be condemned for occupancy.

C. If a unit or common area is not accessible for reinspection, an initial written notice for reinspection shall be made to the owner or the owner's agent at least seven (7) days before the scheduled date of the reinspection. Said notice shall specify the date and time of the reinspection and shall be sent by (i) personal service; (ii) postage prepaid United States certified mail, return receipt requested, and regular first class mail; (iii) FedEx, UPS, or similar carrier; or (iv) posting the notice in a conspicuous location on the property where the violation exists, unless there has been personal service. The occupant of a rental dwelling unit shall receive a copy of the initial written notice for reinspection sent to the owner or the owner's agent.

D. If the reinspection of a dwelling unit is required, the owner or owner's agent shall be responsible for providing access to the unit(s) and common areas for which a certificate of inspection has previously been issued. If entry for reinspection of a dwelling unit(s) is denied by the owner, the owner's agent, or an occupant, the code official may revoke the certificate of inspection for said dwelling unit(s), condemn the unit(s) for occupancy, and require vacation of the unit(s).

E. If, following reinspection, of a dwelling unit, the code official determines that a dwelling unit no longer complies with the standards for issuance of a

certificate of inspection, the code official shall give the owner or owner's agent a written notice of the deficiencies found by the inspection; that the deficiencies must be corrected within thirty (30) calendar days of the date of the notice; and that if the deficiencies are not corrected this period, the code official may revoke the certificate of inspection, condemn the unit for occupancy, and order that it be vacated. Notice for reinspection shall be delivered to the owner or owner's agent by (i) personal service; (ii) postage prepaid United States certified mail, return receipt requested, and regular first class mail; (iii) FedEx, UPS, or similar carrier; or (iv) posting the notice in a conspicuous location on the property where the violation exists unless there has been personal service. The code official shall have the authority to grant extensions for the completion of work necessary to correct the deficiencies. If it is not feasible to complete such work to correct the deficiencies within thirty (30) calendar days from the date on which the notice was postmarked. Notwithstanding the foregoing, if the code official determines that a dwelling unit, or the building in which such unit is located, is condemnable pursuant to the provisions of this chapter or any other ordinances, the code official shall have the authority to condemn such unit or building pursuant to the provisions of this code, without regard to the time limits specified above.

(Ord. No. 72025, § 1, 7-11-2025; Ord. No. 71835, § 1, 4-16-2024.)

25.56.090 Condemnation for occupancy.

A. Condemnation for failure to obtain certificate of inspection prior to occupancy.

1. The code official may condemn for occupancy any building or portion thereof when a certificate of inspection has not been obtained within thirty (30) calendar days after notification for reinspection as provided in Sections 25.56.050 and 25.56.080.

2. The building or portion thereof that is condemned for occupation shall be vacated and shall not be occupied until such time that the code official has issued a certificate of inspection.

B. Condemnation for conditions.

1. When the code official finds that a building or portion thereof is in an extremely unsanitary or unsafe condition and is a danger to the health and safety of the occupants or the public, the code official shall condemn the building for occupancy. Notice of condemnation shall be delivered to the owner or owner's agent by (i) personal service; (ii) postage prepaid United States certified mail, return receipt requested, and regular first class mail; (iii) FedEx, UPS, or similar carrier; or (iv) posting the notice in a conspicuous location on the property where the violation exists unless there has been personal service.

2. A notice of condemnation shall clearly state the conditions causing the unsanitary or unsafe conditions thereof and shall command the immediate vacation of the building or portions thereof.

3. A placard shall be placed by the code official on the building or portion thereof notifying the public that it has been condemned for occupancy and may not be occupied until a certificate of inspection has been issued by the code official.

C. It shall be the duty of the police department to remove or cause the removal of any person from such building or portion thereof that has been condemned for occupation and to prevent any person from entering the building or portion thereof that is under condemnation.

D. A building or portion thereof that has been condemned for occupancy must be issued a valid certificate of inspection prior to being reoccupied.

E. A certificate of inspection shall not be reissued for a building or portion thereof that has been condemned for occupancy by the building commissioner unless such building or portion thereof is in substantial compliance with the provisions of the code governing exteriors of buildings and in full compliance with the provisions of the code governing interiors of buildings.

(Ord. No. 72025, § 1, 7-11-2025; Ord. No. 71835, § 1, 4-16-2024.)

25.56.100 Change of utility service—Notification.

A. Upon change or disconnection of a residential electric or gas utility service, the electric or gas utility provider shall send a written notice to the code official within seven (7) business days following such change or disconnection, including the person(s) identified at that residential address as accountholders or responsible for billing and payments. Notice of the change or disconnection in services shall be sent to the code official by the utility company by postage prepaid United States certified mail, return receipt requested, and regular first class mail; or by FedEx, UPS, or similar carrier.

B. It shall be unlawful for the owner of a dwelling unit not to inform any prospective real estate buyer of the requirement to obtain a certificate of inspection before it may be occupied.
(Ord. No. 72025, § 1, 7-11-2025; Ord. No. 71835, § 1, 4-16-2024.)

25.56.110 Registration of rental dwelling units required.

A. Upon the issuance of a certificate of inspection for a rental dwelling unit, the code official shall cause such dwelling to be registered in a publicly accessible database maintained by the City.

B. Upon applying for a certificate of inspection through the Building Division, the owner of any rental dwelling unit shall apply for issuance or renewal of such dwelling on a form provided by the Code Official which shall include provision for the following information:

1. The exact street address of each rental dwelling unit and any commonly-used names for the property, if any, to be registered.

2. The owner's full legal name, telephone number, mailing address, and e-mail address. If the property is owned by a corporation, limited liability company, partnership, limited partnership, trust, or real estate investment trust, the name and address of any of the following shall be provided:

i. For a corporation, a corporate officer, and the chief operating officer;

ii. For a partnership, the managing partner;

iii. For a limited liability company, the managing or administrative member;

iv. For a limited partnership, a general partner;

v. For a trust, a trustee; or

vi. For a real estate investment trust, a general partner or an officer.

3. If an owner of a rental dwelling unit does not reside within the City of St. Louis, the owner shall designate a local agent ("owner's agent") who shall be authorized to receive on behalf of the owner the service of any notice, order, or summons issued because of a violation of this chapter. Such agent must be an individual over the age of eighteen (18) years and must either (1) reside within one hundred (100) miles from the rental dwelling unit or (2) customarily and regularly attend a business office located within the City. A partner, associate, or corporate principal who meets these qualifications may be designated and registered as the owner's agent. All official notices may be served on the responsible owner's agent and any notice so served shall be deemed to have been served upon the owner.

4. The full name, telephone number, mailing address, and email address of the owner's agent, if one is so designated by the owner, to schedule inspections and receive service of any notice, order, or summons issued because of a violation of this chapter.

5. The names, addresses, and phone numbers of designated employees or authorized representatives who may be contacted in the event of an emergency.

6. The name, mailing address, telephone number, and email address of the person or entity, whether it be the owner, owner's agent, or occupant, responsible for maintenance of the yard and grounds, including but not limited to trash pickup and lawn maintenance.

7. A good-faith estimate of the asking monthly rental rate a tenant would be expected to pay to occupy the rental dwelling unit, exclusive of utilities.

C. In addition to the information provided by owner pursuant to Subsection B, the code official shall cause to be recorded in the rental registration database the following information:

1. The rental dwelling unit's number of bedrooms and bathrooms; and

2. Whether the rental dwelling unit meets certain Americans with Disabilities Act accessibility design standards, such as standards for parking, building and unit entry, intra-unit mobility, bathroom accessibility, and any other design standards as determined by the code official in consultation with the Commissioner of the Office on the Disabled.

D. No Certificate of inspection can be issued for a rental dwelling unit when the unit is not registered with the City as required by this chapter.

E. No person or entity shall rent, let, lease, or otherwise allow the occupancy of any rental dwelling unit unless said unit has been registered as required by this chapter.
(Ord. No. 72025, § 1, 7-11-2025; Ord. No. 71835, § 1, 4-16-2024.)

25.56.120 Change in registration information.

The owner of a rental dwelling unit already registered with the City of St. Louis shall provide updated registration information required pursuant to Section 25.56.110 upon each subsequent application for a certificate of inspection of said unit. No certificate of

inspection shall be issued when the registration information is not verified as up-to-date by the owner at the time of inspection.
(Ord. No. 72025, § 1, 7-11-2025; Ord. No. 71835, § 1, 4-16-2024.)

25.56.130 Reporting by Code Official.

Three (3) years after the effective date of this chapter, the Board of Aldermen may by majority vote request a report prepared by the Code Official detailing compliance with the rental registration program, the challenges with implementation, recommendations for updates to the program or amendments to this chapter to increase program compliance, and an analysis of the inspection periods for rental dwelling units. Such report shall be kept by the City Register and shall be available to the public upon request.
(Ord. No. 72025, § 1, 7-11-2025; Ord. No. 71835, § 1, 4-16-2024.)

25.56.140 Building Division Information Technology Fund—Established.

The Comptroller of the City of St. Louis is hereby authorized and directed to establish a special fund to be known as the Building Division Information Technology Fund. Funds deposited in the Building Division Information Technology Fund shall be used to maintain and upgrade the information technology infrastructure and software utilized by the Building Division, with the primary objective of supporting the technical aspects of managing the issuance of certificates of inspection and the rental registration program. All interest generated on deposited funds shall be accrued to the special fund so established. The Comptroller shall make an annual report on or before January 30 of each year to the Board of Aldermen and the Board of Estimate and Apportionment as to the receipts, encumbrances, and disbursements of the Building Division Information Technology Fund.
(Ord. No. 72025, § 1, 7-11-2025; Ord. No. 71835, § 1, 4-16-2024.)

25.56.150 Administration—Appeals.

A. The code official may adopt and promulgate such rules, policies, and procedures as are necessary for the administration of this chapter.

B. Any person aggrieved by the decision of the code official relative to this chapter may file an appeal with the Board of Building Appeals in the same manner and time period as provided in the Building Code of the City of St. Louis.
(Ord. No. 72025, § 1, 7-11-2025; Ord. No. 71835, § 1, 4-16-2024.)

25.56.160 False statements prohibited—Occupancy load.

It shall be unlawful for any applicant for a certificate of inspection to make a false statement in the application. It shall be the responsibility of the owner to inform the prospective occupants of the maximum occupancy load and post a copy of the certificate of inspection within the unit.

Notwithstanding the provisions of any other ordinance, it shall be unlawful to occupy or to allow occupancy of a dwelling unit beyond that number legally allowed under this chapter. It shall be the responsibility of the owner of any dwelling unit to inform any prospective occupant or prospective buyer of a building that said building is subject to the requirements of this chapter, of the posted occupancy load of all the units within that building, and of any outstanding violations of this chapter.
(Ord. No. 72025, § 1, 7-11-2025; Ord. No. 71835, § 1, 4-16-2024.)

25.56.170 Penalties for violation.

Any person, firm, or corporation, who shall violate any provision of this chapter shall upon conviction thereof, be subject to a fine of not more than five hundred dollars ($500.00) or imprisonment for a term not to exceed ninety (90) days, or both. Every day that a violation exists shall be deemed a separate violation. This chapter shall be deemed a regulatory code relating to buildings, structures, or premises and enforced in accordance with Chapter 25.33.
(Ord. No. 72025, § 1, 7-11-2025; Ord. No. 71835, § 1, 4-16-2024.)

25.56.180 Interiors of buildings.

1. *Sanitation.* General unsanitary conditions shall not be allowed within public areas, dwelling units or basements. Trash, debris, rodent and insect infestation shall be eliminated.

2. *Walls and ceilings.* Plaster or tile shall not be missing, loose or broken. Required fire resistance assemblies shall be maintained. Wall coverings shall not be loose, water damaged or in bad repair.

3. *Entry doors.* Lock on entry door(s) shall be in good working order. Door(s) shall latch properly for privacy. If entry door is a fire door, it shall have an operable self closer. Common area entrance/exit door(s) where a door frame exists shall not be equipped with double key or clasp type locking mechanism.

4. *Structural.* Floors/joists shall not be missing, rotten, fire damaged, spalled, rusted or broken. Floor covering shall not be torn or broken. There shall be no unsafe structural conditions.

5. *Safety.* Sufficient exits shall be provided. Stair(s) shall not be missing, rotten, fire damaged, spalled, rusted or broken. Handrail(s) or guardrail(s) shall not be missing, rotted or broken. Operable entrance/exit doors shall be provided and maintained. Excessive storage of any material shall not be permitted. Operable smoke detectors shall be provided as required by ordinance.

6. *Plumbing fixtures.* No fixtures shall be missing, inoperable or defective. No pipe or fixture shall be leaking or improperly connected. Hot water heater shall be required. Hot water heater shall be operable, and properly vented. Hot water heater shall have a temperature/pressure relief valve.

7. *Electrical equipment.* Cover plates shall not be missing or broken. Switches or outlets shall be operable, and of sufficient number. Fuses/circuit breakers shall be properly sized. Lighting fixtures shall not be defective. Excessive, defective or hazardous extension cords shall not be allowed. Loose, hanging, frayed, bare wires or open splices shall be permitted. Defective or hazardous electrical services shall be prohibited.

8. *Mechanical equipment.* Heating unit shall be operable. Furnace shall be properly vented. Space heaters shall be properly vented (when applicable).

9. *Space requirements.* Occupancy load shall be limited to:

a. Minimum habitable gross floor area of one hundred fifty (150) square feet for first occupant, plus 100 square feet for each additional occupant; or

b. Sleeping room area of a minimum of seventy (70) square feet for first occupant, fifty (50) square feet for each additional occupant.

c. Children under the age of six (6) years old shall not count towards the occupancy load.

d. Minimum occupancy area requirements for living room and dining room as reflected in the applicable sections of Chapter Four of adopting Ordinance Number 70798 of the 2018 International Property Maintenance Code of the City of St. Louis.

e. Basement occupancies shall not be permitted unless they meet the following requirements:

1. Floors and walls are weather tight so as to prevent entry of moisture.

2. Minimum ceiling heights are in accordance with applicable sections of this chapter.

3. Means of egress and emergency escape requirements as reflected in the applicable sections of the current building code of the City of St. Louis.

f. Minimum ceiling height: Habitable spaces shall have a clear ceiling height over the minimum area required by this code at not less than seven (7) feet except that in attics or top half stories the ceiling height shall not be less than seven (7) feet over not less than one-third (⅓) of the minimum area required by this code when used for sleeping, study, or similar activity. In calculating the floor area of such rooms, only those portions of the floor area of the room having a clear ceiling height of five (5) feet or more shall be included.

Exception: Hallways, corridors, bathrooms, toilet rooms, and habitable basements used as recreation rooms shall have a ceiling height of not less than seven (7) feet to the lowest projection from the ceiling.

g. Every bedroom shall be equipped with an operable window which complies with the current adopted International Property Maintenance Code.

h. Toilet rooms and bathrooms shall be arranged and designed to provide privacy.

i. The required dining room shall be located on the same level as the required kitchen.

j. Kitchens, nonhabitable spaces, and public spaces shall not be used for sleeping purposes.

(Ord. No. 72025, § 1, 7-11-2025)

Chapter 25.57

SHORT-TERM RENTAL ORDINANCE

Sections:

25.57.010	**Title.**
25.57.020	**Intent.**
25.57.030	**Definitions and general provisions.**
25.57.040	**Short-term rental permit.**
25.57.050	**Application for short-term rental, occupied permit.**

25.57.060 Application for short-term rental, non-occupied.
25.57.070 Regulations.
25.57.080 Short-term rental agent.
25.57.090 Publication of short-term rentals.
25.57.100 Grant or denial of application.
25.57.110 Provisions for revocation.
25.57.120 Taxes.
25.57.130 Short-term rental platforms.
25.57.140 Authority to prescribe additional rules and regulations.

25.57.010 Title.

This chapter shall be known as the "City of St. Louis Short-Term Rental Ordinance."
(Ord. No. 71729, § 1, 11-6-2023.)

25.57.020 Intent.

It is the purpose of this chapter to protect the public health, safety, and general welfare of individuals and the community at large to facilitate and provide reasonable means for residents to mitigate impacts created by occupancy of short-term rental units and to

implement rationally based, reasonably tailored regulations to protect the integrity of the City's neighborhoods.
(Ord. No. 71729, § 2, 11-6-2023.)

25.57.030 Definitions and general provisions.

A. *Dwelling unit,* for purposes of this chapter, means a room or group of rooms with cooking and sanitary facilities, occupied or arranged for occupancy by a single family, as defined in the existing zoning code.

B. *Short-term rental* is a lodging use, that is not a hotel or motel, RV park or campground, any type of institutional dwelling, time share property, or bed and breakfast. "Short-term rental" means a rental of any dwelling unit, in whole or in part, within the City of St. Louis, to any person(s) for transient use, other than (1) in a permitted bed and breakfast; (2) ongoing month to month tenancy for the same dwelling; or (3) home exchange for which there is no payment. "Short-term rental" allows residential occupancy of the rented dwelling for a term of thirty (30) days or less, and requires that the short-term rental use is permitted to operate pursuant to a current and valid permit on file with the City.

C. *Short-term rental agent* means a person or organization authorized by the short-term rental owner, as the operator of a short-term rental unit on the short-term rental permit application. Such an operator shall be available for and responsive to contact at all times. The short-term rental agent of short-term rental, occupied shall be the principal resident, either the owner or the tenant/lessee of the owner and authorized by the owner for short-term rental.

D. *Short-term rental, non-occupied* means a short-term rental unit not used as a principal residence by either the owner or the tenant/lessee authorized by the owner for short-term rental.

E. *Short-term rental, occupied* means a short-term rental unit used as the principal residence by either the owner or the tenant/lessee of the owner and authorized by the owner for short-term rental. A resident can have only one (1) principal residence.

F. *Short-term rental owner* means the owner of record of the property as reflected in the City of St. Louis Assessor records.

G. *Short-term rental permit* is the permit issued by the Building Division of the City of St. Louis to the short-term rental owner or the designated short-term rental agent who has submitted the required documentation and met the requirements set forth in this chapter and in Chapter 25 of the Revised Code for operation of a short-term rental unit. Short-term rentals, non-occupied shall require a graduated business license to obtain a short-term rental permit. Short-term rental permits shall only be issued to natural persons, and not to business entities.

H. *Short-term rental unit* shall mean a dwelling unit, in whole or in part, used as a short-term rental. A short-term rental unit may be either a short-term rental, occupied or a short-term rental, non-occupied.

I. *Short-term rental platform* means a person or company who for compensation or a fee uses an internet platform to primarily list property rentals including short-term rentals as defined in this chapter.
(Ord. No. 71729, § 3, 11-6-2023.)

25.57.040 Short-term rental permit.

A. No person shall rent, lease or otherwise exchange for compensation all or any portion of a dwelling unit as a short-term rental unit as defined in this chapter, without first obtaining a short-term rental permit pursuant to the regulations contained in this chapter. Nothing in this chapter shall be construed to require an owner of an owner-occupied property in which said owner resides and makes his primary residence to obtain a permit for long-term rental of a room in said home in which he or she lives, provided such owner is present and living in the home while the room is rented, or to require a general business license for a short-term rental, occupied.

B. No permittee shall transfer the right to operate under any permit issued under this chapter to any other person or entity by lease, agreement, contract or any other agreement.

C. A permit issued under this chapter shall grant the legal right to operate a short-term rental unit only at the dwelling unit for which it is issued.

D. No permit shall be issued for any short-term rental unit which offers a minimum stay of less than two (2) nights. After issuance of a permit, any short-term rental unit found to offer a minimum stay of less than two (2) nights shall be revoked.

E. No short-term rental, non-occupied unit located within a structure or upon a parcel benefited by tax increment financing or tax abatement shall be eligible for registration as a short-term rental, non-occupied unit during the term of the agreement.

F. Applicants for units within structures that only contain two (2) dwelling units shall be permitted to apply for up to two (2) short-term rental, non-occupied permits. Both of these permits shall count toward the permit holder's cap of four (4) short-term rental, non-occupied units.

G. No more than one (1) short-term rental, non-occupied permit shall be issued to applicants in a structure in which there are three (3) or four (4) units. The total percentage of units with short-term rental permits in a three (3) or four (4) unit structure cannot exceed fifty (50) percent.

H. No permits shall be issued for a short-term rental, non-occupied in a structure where there between five (5) and twenty three (23) dwelling units and over twenty five (25) percent of dwelling units in the structure have an active permit for a short-term rental, non-occupied unit.

I. No permits shall be issued for a short-term rental, non-occupied in a structure where there are twenty-four (24) or more dwelling units and over twelve and a half (12.5) percent of dwelling units in the structure have an active permit for a short-term rental, non-occupied.

J. Nothing in this chapter shall be deemed to alter, affect, supersede or conflict with the requirements of any State or federal law or of the City of St. Louis Revised Code of Ordinances, including but not limited to those within the City of St. Louis Zoning Ordinance, the building codes adopted by the City of St. Louis, and any taxes collected under the authorization of City, State or federal law including the hotel-motel room taxes which the City License Collector is authorized to collect under RSMo 67.657, RSMo 67.619, or any other law which requires registration with the License Collector, including but not limited to, the requirement of the provision of information as deemed necessary to confirm the type of business to be operated.
(Ord. No. 71729, § 4, 11-6-2023.)

25.57.050 Application for short-term rental, occupied permit.

Applicants for a short-term rental permit for a short-term rental, occupied shall submit, on an annual basis, an application for a short-term rental permit to the Building Division.

A. The application for a short-term, occupied short-term rental permit shall be accompanied by a non-refundable application fee in the amount of one hundred fifty dollars ($150.00.) Such application shall require the following information, to be collected on a form provided by the Building Division, and shall be completed prior to the inspection required in the application process, which shall be conducted by the Building Division:

a. The address of the dwelling unit to be used as a short-term rental;

b. The name, address, telephone number, and email address of the owner, or tenant/lessee applying for the permit;

c. Signed acknowledgment that from the owner, or tenant/lessee applying for the permit that they have reviewed this chapter and understand its requirements;

d. The number and location of off street or on site parking spaces allotted to the premises;

e. The owner's or the tenant/lessee's agreement to use his or her best efforts to ensure that use of the premises by short-term rental occupants will not disrupt the neighborhood, and will not interfere with the rights of neighboring property owners to the quiet enjoyment of their properties; and

f. Any other information that this chapter requires and any other information required by the Building Commissioner in the execution of the application process as part of any application for a short-term rental permit, as determined by the Building Commissioner. The Building Commissioner or the Commissioner's designee shall have the authority to obtain additional information from the applicant as necessary to achieve the objectives of this chapter. The Building Commissioner shall promulgate rules and regulations deemed necessary in the interest of public safety, public health and general welfare to interpret and implement the provisions of this chapter.

B. An application for a short-term rental, occupied shall be accompanied by a form requiring the applicant to affirm that the property to be used as a short-term rental, occupied is occupied by an owner who occupies the property as their primary residence. An individual may have only one (1) primary residence in the City of St. Louis. The applicant shall also affirm that the resident of the property has paid their personal property tax at the address of the proposed short-term rental, occupied unit for the previous tax period. The applicant shall also affirm that the property is not subject to any contractual restrictions, precluding the property from being used for short-term rentals, including but not limited to: homeowner association agree-

ment, condominium bylaws, restrictive covenants, leases or building restrictions. The applicant shall affirm that the property owner or renter has no outstanding real estate taxes, bills for services of City liens associated with the property that is the subject of the application, nor does the owner or renter owe any other obligations to the City including: (a) personal property tax; (b) real estate tax on properties located in the City of St. Louis; (c) City of St. Louis earnings tax; (d) City of St. Louis water and refuse bills; (e) City of St. Louis business license fees; and (f) fees owed in connection with short-term rentals. Submission of an form containing false information will be cause for revocation of permit for short-term rental.

C. Attached to the submission of the application described in this section, the short-term rental permit applicant shall provide:

a. Written rules to be posted in the short-term rental unit, which must include: Acknowledgement that it shall be unlawful to allow or make any noise or sound that exceeds the limits set forth in the City's existing ordinances, including but not limited to Ordinance 67002 as may be amended, that regulate noise.

b. Acknowledgement and agreement that the maximum occupancy of a short-term rental unit is limited to the occupancy limit as determined by the Building Commissioner and, if available, the location and the amount of on site parking.

c. Acknowledgement and agreement that violations of this chapter by short-term rental agent, short-term rental owner, or short-term rental guest may result in immediate termination of the permit as well as the potential liability for payments of fines levied by the City; and

d. Written approval by the owner of the property for use of the property as a short-term rental.

(Ord. No. 71729, § 5, 11-6-2023.)

25.57.060 Application for short-term rental, non-occupied.

A. Applicants for a short-term rental permit for a short-term rental, non-occupied shall submit, on an annual basis, an application for a short-term rental permit to the Building Division.

B. Certain dwelling districts. No short-term rental permit may be issued within a dwelling district zoned "A Single-Family" without a conditional use permit.

C. The application for a short-term rental, non-occupied permit shall be accompanied by a non-refundable application fee in the amount of one hundred fifty dollars ($150.00). Such application shall require the following information, to be collected on a form provided by the Building Division, and shall be completed prior to the inspection required in the application process, which shall be conducted by the Building Division:

a. The address of the dwelling unit to be used as a short-term rental;

b. The name, address, telephone number, and email address of the owner, or tenant/lessee and short-term rental agent.

c. Signed acknowledgment that he or she has reviewed this chapter and understands its requirements;

d. The number and location of off street or on site parking spaces allotted to the premises;

e. The owner's or the tenant/lessee's and short-term rental agent's agreement to use his or her best efforts to ensure that use of the premises by short-term rental occupants will not disrupt the neighborhood, and will not interfere with the rights of neighboring property owners to the quiet enjoyment of their properties; and

f. Written approval by the owner of the property for use of the property as a short-term rental.

g. Any other information that this chapter requires and any other information required by the Building Commissioner in the execution of the application process as part of any application for a short-term rental permit, as determined by the Building Commissioner. The Building Commissioner or the Commissioner's designee shall have the authority to obtain additional information from the applicant as necessary to achieve the objectives of this chapter. The Building Commissioner shall promulgate rules and regulations deemed necessary in the interest of public safety, public health and general welfare to interpret and implement the provisions of this chapter.

D. Attached to the submission of the application described in this section, the short-term rental permit applicant shall provide:

a. Written rules to be in the short-term rental unit, which must include: Acknowledgement that it shall be unlawful to allow or make any noise or sound that exceeds the limits set forth in the City's existing ordinances that regulate noise, including but not limited to Ordinance 67002.

b. Acknowledgement that the maximum occupancy of a short-term rental unit is limited to the

occupancy limit as determined by the Building Commissioner and, if available, the location and the amount of on-site parking.

c. Acknowledgement and agreement that violations of this chapter by short-term rental agent, short-term rental owner, or short-term rental guest may result in immediate termination of the permit as well as the potential liability for payments of fines levied by the City; and

d. A form affirming that the property is not subject to any contractual restrictions, precluding the property from being used for short-term rentals, including but not limited to: homeowner association agreement, condominium bylaws, restrictive covenants, leases or building restrictions. The applicant shall affirm that the property owner or renter has no outstanding real estate taxes, bills for services of City liens associated with the property that is the subject of the application, nor does the owner or renter owe any other obligations to the City including: (a) personal property tax; (b) real estate tax on properties located in the City of St. Louis; (c) City of St. Louis earnings tax; (d) City of St. Louis water and refuse bills; (e) City of St. Louis business license fees; and (f) fees owed in connection with short-term rentals. Submission of false information will be cause for revocation of permit for short-term rental.
(Ord. No. 71729, § 6, 11-6-2023.)

25.57.070 Regulations.

A. Any short-term rental, non-occupied applicant may be issued permits for no more than four (4) short-term rental units owned by the same property owner in the City of St. Louis. Applicants must be natural persons and applicants are limited to four (4) active short-term rental, non-occupied permits. No permits for a short-term rentals, non-occupied shall be issued to applicants in a structure for which the percentage limit of short-term rentals, non-occupied has already been reached as provided in Section 25.57.040.

B. Short-term rentals shall be made available only for the occupancy load to be determined by the Building Commissioner in accordance with the City's residential code, and that shall be the limit of persons that may occupy the dwelling unit being rented.

C. The permit holder of a short-term rental unit may not enter into a contract with more than one (1) party during any given rental period.

D. The short-term rental unit may not be rented or offered for use as reception space, party space, meeting space, or for other similar events.

E. No food service may be provided by the permit holder of the short-term rental; pre-packaged foods and beverages may be provided in the short-term rental unit and will not violate this provision.

F. No exterior evidence that the property is being used as a short-term rental shall be allowed, including signs, with the exception of a marker limited to one (1) foot by one (1) foot in size issued by the City of St. Louis.

G. If the short-term rental agent changes, the new short-term rental agent shall notify the City of St. Louis within ten (10) business days of the change or prior to any rental of the short-term rental, whichever is sooner.

H. The short-term rental unit shall have working smoke detectors inside and outside every bedroom, carbon monoxide alarms outside every bedroom, and a properly maintained and charged fire extinguisher on all habitable floors.

I. A legible copy of the short-term rental unit permit shall be posted within the unit, and include prominently all of the following information, in addition to any other information required by the Building Commissioner:

a. The name, address, telephone number and email address of the short-term rental agent;

b. The short-term rental unit permit number;

c. The maximum occupancy of the unit

d. The maximum number of vehicles that may be parked at the unit.
(Ord. No. 71729, § 7, 11-6-2023.)

25.57.080 Short-term rental agent.

Every short-term rental shall have a short-term rental agent designated on the application for a short-term rental permit. Failure of the short-term rental agent to fulfill the duties listed below may result in the revocation of the short-term rental permit. A short-term rental owner may also serve as the short-term rental agent. The duties of the short-term rental agent are to:

A. Be available to address any problems at all times arising from the use of the short-term rental unit during the entire period of the rental;

B. The short-term rental agent must be able to be physically present at the address within one (1) hour if

required. It is an obligation of the applicant to provide a short-term rental agent that can be on-site within one (1) hour if required.

C. Keep his or her name and emergency contact phone number posted in a readily visible place in the short-term rental unit;

D. Receive and retain a copy of any notice of violation related to the use or occupancy of the premises from the property owner;

E. Monitor the short-term rental unit for compliance with this chapter; and

F. Ensure that the short-term rental permit number is listed on each online listing.
(Ord. No. 71729, § 8, 11-6-2023.)

25.57.090 Publication of short-term rentals.

All addresses for short-term rentals with a permit will be posted publicly on the City's website. All addresses for short-term rentals with a revoked permit shall be posted publicly on the City's website.
(Ord. No. 71729, § 9, 11-6-2023.)

25.57.100 Grant or denial of application.

Review of a short-term rental permit application shall be conducted in accordance with due process principles and shall be granted unless the applicant fails to meet the conditions and requirements of this Chapter or federal or State law or local ordinance related to the operation of a short-term rental, or otherwise fails to demonstrate the ability to comply with local, State or federal law through the operation of the proposed short-term rental. No permit shall be granted to operate a short-term rental unit if the property is the subject of a unresolved nuisance violation and no permit shall be issued for any property with any unresolved City violations. Any false statements or information provided in the application are grounds for revocation and/or imposition of penalties, including denial of future applications.
(Ord. No. 71729, § 10, 11-6-2023.)

25.57.110 Provisions for revocation.

A. To ensure the continued application of the intent and purpose of this chapter, the Building Division shall notify the short-term rental owner and the short-term rental agent of a short-term rental unit of all instances in which nuisance behavior of the rental guest or the conduct of his or her short-term rental unit agent results in a notification letter for a code violation or other legal infraction.

B. The Saint Louis Metropolitan Police Department shall maintain a record of all municipal violations of City ordinances and State law occurring at or relating to a short-term rental unit and communicate those violations regularly to the Building Division. Building inspectors, and other City departments, may also contribute violations to this record of violations. Violations may be incurred by the short-term rental owner, short-term rental agent, as well as short-term rental guests. When there are three (3) violation notices sent regarding law violations and nuisance instances at the same property within a period of twenty-four (24) consecutive months, the City shall revoke any existing permits and reject all applications for short-term rental permits for that particular property for a period of up to twelve (12) consecutive months. Any additional properties with the same owner that do not have three (3) consecutive violation notices within a twenty-four-month period shall remain valid, and the short-term rental agent of such additional properties may continue to serve as the short-term rental agent unless and until the underlying permit has been revoked. Permit holders shall be afforded an opportunity to rectify all violations within thirty (30) days to the satisfaction of the Building Commissioner. Further, the permit holder shall have the right to appeal the revocation decision within thirty (30) days of the date of revocation, as set forth in this chapter.

C. Fully adjudicated violations prosecuted in municipal court involving a property that is a short-term rental unit will be assessed a five hundred dollars ($500.00) fine per violation. Short-term rental permits that are revoked shall be posted on the official City website by the Building Commissioner.

D. Except as provided herein, any person violating the provisions of the Code shall be prosecuted as provided in this chapter. With respect to violations that are continuous with respect to time, each day the violation continues is a separate offense. Renter guests staying in short-term rentals who violate any City, State or federal law are subject to being charged with law violations. Nothing in this chapter shall be intended to limit the ability of the City to pursue any other remedies available to it under any law, federal, State or local.

E. The Building Commissioner has the power to initiate revocation of the permit when the subject property of the permit is not being operated in compliance with the short-term rental operating requirements set forth under this chapter and also to initiate revocation

in the interest of the public welfare. The Building Commissioner may initiate permit review and potential revocation of the permit upon the first instance of a violation or a complaint. Nothing in this chapter limits existing powers of the Building Commissioner, including his ability to condemn properties for occupancy and to take emergency actions.

F. A short-term rental owner or short-term rental agent aggrieved by the City's decision to revoke or deny a short-term rental permit may appeal the decision in writing to the Building Commissioner. The appeal must be filed within thirty (30) business days of the adverse action and it shall contain a concise statement of the reasons for the appeal. The Building Commissioner or appointed designee shall consider and respond to the appeal in writing within thirty (30) days after receipt. The Building Commissioner shall adopt administrative rules which shall govern any such appeals. Such procedures and processes must conform to the constitutional principles of due process and shall provide notice and an opportunity to be heard. The Building Commissioner shall render a determination, which will constitute a final ruling. The decision of the Building Commissioner may be appealed to the Circuit Court of the City of St. Louis.

G. Nothing in this section shall limit the City from enforcement of its Code, State or federal law by any other legal remedy available to the City. Nothing in this section shall be construed to limit or to supplant the power of any City inspector, Marshal, or other duly empowered officer under the City's ordinances, rules, and regulations and the authority granted under State law, as amended, to take necessary action, consistent with the law, to protect the public from property which constitutes a public nuisance or to abate a nuisance by any other lawful means or proceedings.

H. The assistance and cooperation of police, fire and health departments and all other officials shall be available to the Building Commissioner as required in the performance of his duties under this chapter.

I. The Building Division shall monitor a public intake portal through which residents can submit questions or complaints to the Building Division regarding short-term rentals.
(Ord. No. 71729, § 11, 11-6-2023.)

25.57.120 Taxes.

Short-term rentals are subject to applicable State and local taxes and are responsible for payment thereof as established by State law and city ordinances, including all taxes set forth in Section 25.57.040 herein.
(Ord. No. 71729, § 12, 11-6-2023.)

25.57.130 Short-term rental platforms.

A. *Permit required.* A permit will be required for a short-term rental platform to operate utilizing properties in the jurisdiction of the City of St. Louis. The application for short-term rental platform shall be accompanied by a non-refundable application fee in the amount of five hundred dollars ($500.00.) The permit application to be generated by the City shall include requirements as determined by the Building Commissioner, and such requirements shall include, but are not limited to: the short-term rental platform shall limit listings within the City of St. Louis to those with a valid short-term rental permit. Short-term rental platforms shall have the duty to remove properties with no such permit, and properties which have experienced a loss or revocation of such permit, from the platform. The City will notify the platform permit holder when the permit for such property's short-term rental has been revoked. Platforms shall remove properties that are no longer permitted within seven (7) days of the notice provided to the platform by the City. Failure to so remove such property from the platform shall result in a violation of this section, and may result in revocation of the permit issued to the short-term rental platform, as well as constituting a violation of this chapter.

B. The City shall post a list of all short-term rental platforms with a revoked permit and those with a valid permit publicly on the City's website.

C. Short-term rental platforms shall ensure that each listing for a short-term rental is accompanied by a short-term rental permit number.

D. Short-term rental platforms must provide a phone line and a link to the City's website portal for community members to submit concerns and complaints regarding short-term rentals in their neighborhood.

E. Short-term rental platforms must provide information regarding compliance with this chapter, and penalties for violation of this chapter to short-term rental agents prior to listing a short-term rental.

F. Within the first year of the ordinance's effective date, short-term rental platforms must meet with the Building Division to provide and receive feedback on implementation.

G. Short-term rental platforms that are properly permitted will be listed on the City's website as permitted platforms in the City of St. Louis.

H. Short-term rental platforms shall be required to prompt hosts to include the City-issued permit number in their listing(s). Hosting platforms shall not complete any booking transactions for any dwelling unit or other property purporting to be a short-term rental in the City unless it is listed on the City's registry to be created by the Building Commissioner, at the time the platform receives a fee for the booking transaction. However, no short-term rental platform shall be in violation of this subsection for any short-term rental transaction occurring fewer than two (2) days after the short-term rental permit expired or was revoked.

I. In addition to any other remedy provided by this chapter or allowed by law, the Building Commissioner may deny a permit or revoke a short-term rental platform permit for violations of this chapter. Such permit holder shall be notified in writing of the grounds for denial or revocation of such permit and of their right to appeal the decision.

J. The remedies provided for in this chapter are in addition to, and not in lieu of, all other legal remedies, civil or criminal, which may be pursued by the City to address any violation of this chapter.
(Ord. No. 71729, § 13, 11-6-2023.)

25.57.140 Authority to prescribe additional rules and regulations.

The Building Commissioner shall promulgate regulations as may be necessary and feasible for the carrying out of the intent of this chapter and the duties of the Commissioner that are not inconsistent with the provisions of this chapter and rules and regulations deemed necessary in the interest of public safety, public health and general welfare to interpret and implement the provisions of this chapter within one hundred eighty (180) days following the effective date of this chapter subject to approval by the Board of Public Service. The rules and procedures as adopted by the Board of Public Service shall be in writing and kept on file in the Building Commissioner's Office and posted to the City's website. The rules and procedures may be amended by the Building Commissioner as needed with the approval of the Board of Public Service.
(Ord. No. 71729, § 14, 11-6-2023.)

Chapter 25.60

CARBON MONOXIDE DETECTORS

Prior ordinance history: Ord. 63673

Sections:

25.60.010	**Definitions.**
25.60.020	**Required—Single-family residential buildings.**
25.60.030	**Required—Multiple-family residential buildings.**
25.60.040	**Compliance—Rules and regulations.**
25.60.050	**Unlawful to make detector inoperable.**
25.60.060	**Maintenance.**
25.60.070	**Penalty for violation.**

25.60.010 Definitions.

For purposes of this chapter the following definitions shall apply:

(1) "Fossil fuel" shall include coal, natural gas, kerosene, oil, propane and wood.

(2) "Rehabbed" shall mean any repair or reconstruction of the interior of the building or structure which requires a permit under the applicable Building Code. (1994 C., § 25.60.010; Ord. No. 63842, § 1, 1996.)

25.60.020 Required—Single-family residential buildings.

The owner of every new building or structure within the City of St. Louis which is intended to be occupied for residential purposes by a single family and every single-family residential building or structure which is rehabbed after the effective date of the ordinance codified in this chapter, and which is heated by a fossil fuel powered heating unit which is fully contained within the interior of the building or structure, shall install not less than one (1) approved carbon monoxide detector outside the area of sleeping rooms and additional units as required by the Fire Marshal. (1994 C., § 25.60.020; Ord. No. 63842, § 2, 1996.)

25.60.030 Required—Multiple-family residential buildings.

The owner of every new building or structure within the City of St. Louis which is intended to be occupied for residential purposes by more than one family and every multiple-family residential building or structure which is rehabbed after the effective date of the ordinance codified in this chapter, and which is heated by a

fossil fuel powered heating unit which is fully contained within the interior of the building or structure, shall install not less than one (1) approved carbon monoxide detector in each unit of said building or structure. (1994 C., § 25.60.030; Ord. No. 63842, § 3, 1996.)

25.60.040 Compliance—Rules and regulations.

A carbon monoxide detector is deemed approved for purposes of this chapter if it complies with all applicable state and federal regulations, and bears the label of a nationally recognized standard testing laboratory, and meets the revised standard of at least UL 2034 dated October 1, 1995 and subsequent revision or its equivalent. The Fire Marshal shall issue rules and regulations, not inconsistent with the provisions of this chapter, for the implementation and administration of the provisions of this chapter relating to carbon monoxide detectors. (1994 C., § 25.60.040; Ord. No. 63842, § 4, 1996.)

25.60.050 Unlawful to make detector inoperable.

It shall be unlawful for any person to, in any way to make inoperable a carbon monoxide detector required under this chapter, except that this provision shall not apply to any building owner, manager, and/or agent of said building owner or manager in the normal procedure of maintenance including replacement of batteries. (1994 C., § 25.60.050; Ord. No. 63842, § 5, 1996.)

25.60.060 Maintenance.

The owner of a building or structure which is subject to the provisions of this chapter, shall supply, install, test, as per the manufacturers specifications, and maintain required carbon monoxide detectors. The owner shall also supply all necessary equipment required for the operation of said detectors. (1994 C., § 25.60.060; Ord. No. 63842, § 6, 1996.)

25.60.070 Penalty for violation.

Any violation of this chapter shall be punishable by a fine of not less than $50.00 nor more than $500.00 and/or confinement for a period not to exceed ninety (90) days. Each day that said violation continues shall constitute a separate violation of Section 25.60.010. (1994 C., § 25.60.070; Ord. No. 63842, § 7, 1996.)

Chapter 25.62

REPAIR PERMIT ISSUANCE

Sections:

25.62.010 Permit issuance prohibited when.

25.62.010 Permit issuance prohibited when.

The code official shall not issue any permits to repair any building or structure condemned in accordance with either Section 119.0 or 120.0 of the City Building Code if such building or structure is included in an executed contract for demolition between the City and a demolition contractor. (1994 C., § 25.62.010; Ord. No. 66226, § 1, 2004.)

Chapter 25.64

DEMOLITION, REPAIR, BOARD UP OR CLEAN UP—COSTS

Sections:

25.64.010 Certified—Sent to Comptroller.

25.64.020 Special tax bill.

25.64.030 Constitutes personal debt and property lien.

25.64.010 Certified—Sent to Comptroller.

Whenever the Building Commissioner, or the Building Commissioner's designated officer, issues an order whereby a building or structure is demolished, repaired, boarded up or the property is cleaned up as a result of a violation of the Building Code which renders the condition of the building or structure detrimental to the to the health, safety, or welfare of the residents thereof, and therefore constitutes a public nuisance, the cost of the demolition, repair, board-up, security measures, or clean-up, as well as the cost of police security escort if provided during the demolition, repair, board-up, security measures, or clean-up, shall be certified by the Building Commissioner and added to the annual real estate tax bill or sent to the office of the Comptroller to be included in a special tax bill.

The City of St. Louis Division of Police may provide a security escort during a demolition, repair, board-up or clean-up effort when such precaution is deemed prudent under the circumstances by the Building Commissioner or the Building Commissioner's designated officer. The cost for a security escort shall be one hundred fifty dollars ($150.00).

(1994 C., § 25.64.010; Ord. No. 71991, § 2, 2-24-2025; Ord. No. 71154, § 1, 5-7-2020; Ord. No. 70910, § 1, 2-14-2019; Ord. No. 70736, § 1, 3-12-2018; Ord. No. 63800, § 1, 1996.)

25.64.020 Special tax bill.

Upon receipt of the certified costs or fines of the activity outlined in Section 25.64.010, the office of the

Comptroller shall prepare a special tax bill for the amount of the cost certified and may send the special tax bill to the Collector of Revenue for collection by Section 5.08.010 et seq. of the Revised Code of the City of St. Louis and RSMo 92.700 et seq., or may initiate the collection of a special tax bill in any other lawful manner.

A lien for such costs shall be placed against the property whereon such violation was permitted to exist. Said special tax bill shall be deemed a personal debt against the property owner(s) and shall also be a lien on the property until paid.

These special tax bills or liens may not be forgiven except by the City Counselor, who shall, in writing, instruct the building official to forgive such special tax bills or liens. Further, special tax bills shall be permitted to be waived when ownership of said property for which the bill or lien was issued is accepted by Land Reutilization Authority, Saint Louis Development Corporation, or any other City agency. Any person, firm or corporation who shall refuse or neglect to comply with the provisions of this section or who shall violate any of the provisions thereof shall be subject to the penalties as set forth in Section 25.01.030.
(1994 C., § 25.64.020; Ord. No. 71991, § 2, 2-24-2025; Ord. No. 70910, § 1, 2-14-2019; Ord. No. 70736, § 1, 3-12-2018; Ord. No. 63800, § 2, 1996.)

25.64.030 Constitutes personal debt and property lien.

From the date of issuance of the special tax bill by the office of the Comptroller, it shall be deemed a personal debt of the owner of the property and shall also constitute a lien on the property until paid. (1994 C., § 25.64.030; Ord. No. 63800, § 3, 1996.)

Chapter 25.66

FIRE, EXPLOSION OR OTHER CASUALTY—COSTS

Sections:

25.66.010 Condemned buildings declared public nuisance.

25.66.020 Order—Failure to comply—Special tax bill.

25.66.030 Insurance proceeds.

25.66.040 City not a party to insurance contract.

25.66.050 Penalty for violation.

25.66.010 Condemned buildings declared public nuisance.

Any building or structure located within the City of St. Louis which is damaged by any fire, explosion, or other casualty loss to the extent that it is condemned by the Building Commissioner shall be declared a public nuisance for purposes of this chapter. (1994 C., § 25.66.010; Ord. No. 63838, § 1, 1996.)

25.66.020 Order—Failure to comply—Special tax bill.

If upon making an inspection and examination, the Building Commissioner finds that a building or structure has become a public nuisance under Section 25.66.010 of this chapter, he shall order the owner(s) to proceed to properly demolish, repair, and secure or correct all conditions causing condemnation of said building, structure within seven (7) days. The Building Commissioner may, upon the failure of the owner(s) to comply with this order, when the public interest may so require, correct, remove or abate the conditions set forth in his order. All costs attending such action in such cases shall be paid from the appropriate fund. The cost shall be certified to the office of the Comptroller, who shall cause a special tax bill against the property to be prepared and collected in the same manner and procedures as other real estate tax bills. Said special tax bill shall be deemed a personal debt against the property owner and shall also be a lien on the property until paid. These bills or liens shall not be forgiven except by the City Counselor, who shall, in writing, instruct the building official to forgive such bills or liens. Further, demolition and/or board-up bills may be waived when ownership of said property, for which the bill or lien was issued, is accepted by Land Reutilization Authority, Saint Louis Development Corporation or any other City agency, department, or division. (1994 C., § 25.66.020; Ord. No. 63838, § 2, 1996.)

25.66.030 Insurance proceeds.

A. If there are proceeds of any insurance policy based upon a covered claim payment made for damage or loss to a building or structure caused by or arising out of any fire, explosion, or other casualty loss, and if the covered claim payment for such damage or loss exceeds fifty (50) percent of the face value of the policy on such building or structure, then the insurance carrier for such building or structure shall pay twenty-five (25) percent of such insurance claim proceeds to the office of the Comptroller, who shall hold such money in an

interest bearing account. If a bill or special tax bill is issued under Section 25.66.020 of this chapter such shall be paid from the money held by the Comptroller, and if there is any excess, such shall be paid by the Comptroller to the insured.

B. If within 30 days of the receipt of such insurance proceeds the Building Commissioner has not conducted an inspection as required in Section 25.66.030 of this chapter, then the Comptroller shall release such proceeds and any interest which has accrued on such proceeds to the insured.

C. If such building or structure is repaired or demolished pursuant to this chapter without cost to the City of St. Louis, then any insurance proceeds paid to the Comptroller and any interest thereon shall be paid to the insured.

D. Upon presentation of satisfactory proof that the insured has removed or will remove debris and repair, rebuild, otherwise make the insured building or structure safe and secure, the Building Commissioner shall issue a certificate, within 30 days after receipt of such satisfactory proof, to permit the payment of any insurance proceeds directly to the insured without deduction of the amount payable to the City of St. Louis under Subsection A of this section. (1994 C., § 25.66.030; Ord. No. 63838, § 3, 1996.)

25.66.040 City not a party to insurance contract.

This chapter does not make the City a party to any insurance contract and does not make the insurer liable to any party for any amount in excess of the proceeds otherwise payable under its insurance policy. (1994 C., § 25.66.040; Ord. No. 63838, § 4, 1996.)

25.66.050 Penalty for violation.

Any person, firm, or corporation who shall violate a provision of this chapter or who shall fail to comply with any of the requirements thereof, shall, upon conviction, be guilty of a misdemeanor, punishable by a fine of five hundred dollars ($500.00) or by imprisonment not exceeding ninety (90) day; or by both such fine and imprisonment. Each day that a violation continues shall constitute a separate and distinct offense. (1994 C., § 25.66.050; Ord. No. 63838, § 5, 1996.)

Chapter 25.70

BUILDING ENERGY AWARENESS

Sections:

25.70.010 Purpose and policy.
25.70.020 Definitions.
25.70.030 Benchmarking and benchmarking submission required.
25.70.040 Reporting and Analysis of Benchmarking Information.
25.70.050 Maintenance of Records.
25.70.060 Violations and Enforcement.
25.70.070 Rules.

25.70.010 Purpose and policy.

The energy and water use of covered property shall be benchmarked and submitted to the City in accordance with this article. (1994 C., § 25.70.010; Ord. No. 70474, § 1, 2-16-2017)

25.70.020 Definitions.

Unless the context specifically indicates otherwise, the meaning of terms used in this article shall be as follows:

A. "Benchmark" means to input and submit the total energy and water consumed for a property for the previous calendar year and other descriptive information for such property as required by the benchmarking tool. Total energy and water consumption shall not include separately metered uses that are not integral to covered property operations as determined by the Commissioner.

B. "Benchmarking submission" means a submission to the Commissioner, on an annual basis as set forth herein, evidencing the covered property's compliance with the benchmark mandate and includes the required reported benchmarking information for the applicable year.

C. "Benchmarking tool" means the U.S. Environmental Protection Agency's ENERGY STAR Portfolio Manager to track and assess the energy and water use of certain covered properties relative to similar covered properties.

D. "Commissioner" means the City of St. Louis Building Division Building Commissioner, or the Commissioner's designee.

E. "Communications infrastructure" means the facilities used for the sale of communications services, including, voice, broadband, data and video services.

F. "Condominium" means a site that combines separate ownership of individual units with common ownership of other elements such as common areas.

G. "Covered property" means any Group 1 covered property or Group 2 covered property as defined herein. The term "covered property" shall not include any building owned by the State of Missouri or the federal government.

H. "Energy" means electricity, natural gas, steam, or fuel oil sold by a utility to a customer of a covered property, or on-site generation, for purposes of providing heating, cooling, lighting, water heating, or for powering or fueling other end-uses captured by the ENERGY STAR Portfolio Manager.

I. "ENERGY STAR Portfolio Manager" means the tool developed and maintained by the U.S. Environmental Protection Agency to track and assess the relative energy performance of buildings nationwide.

J. "ENERGY STAR score" means the numeric rating generated by the ENERGY STAR Portfolio Manager tool to track and assess the energy and water use of certain covered properties relative to similar covered properties.

K. "Financial hardship" (of a property) means a property that:

1. Had arrears of property taxes or water or refuse charges that resulted in the property's inclusion, within the prior two years, on the City's annual tax lien sale list; or

2. Has a court appointed receiver in control of the asset due to financial distress; or

3. Is owned by a financial institution through default by the borrower; or

4. Has been acquired by a deed in lieu of foreclosure; or

5. Has a senior mortgage subject to a notice of default.

L. "Group 1 covered property" means a covered property:

1. That is a building that is greater than or equal to 50,000 gross square feet in total combined floor area; and

2. That is owned by the City; or

3. For which the City regularly pays all or a majority of the annual energy bills.

M. "Group 2 covered property" means a covered property, other than Group 1 covered property,

1. That is a building that is greater than or equal to 50,000 gross square feet in total combined floor area; or

2. That has a building that is held in the condominium form of ownership that is governed by the same board, and that is greater than or equal to 50,000 gross square feet in total combined floor area.

N. "Owner" means any of the following:

1. An individual or entity possessing title to a covered property;

2. The net lessee in the case of a property subject to a triple net lease;

3. The board in the case of a condominium;

4. The board in the case of a cooperative apartment corporation; or

5. An agent authorized, in writing on file with the Commissioner, to act on behalf of any of the above.

O. "Person" means any individual, partnership, co-partnership, firm, company, corporation, association, joint stock company, trust, estate, governmental entity or any other legal entity, or their legal representatives, agents or assigns. This definition includes all federal, state or local governmental entities.

P. "Reported benchmarking information" means information both defined and generated by the ENERGY STAR Portfolio Manager and descriptive information about the covered property and its operational characteristics that are submitted to the Commissioner as follows:

1. Descriptive information:

a. Building ID, as assigned by the Commissioner;

b. Property Address & Contact Information;

c. Primary Property Type(s); and

d. Gross Floor Area(s);

2. Output information (generated by ENERGY STAR Portfolio Manager), limited to the following:

a. Weather Normalized Site & Source Energy Use Intensity (Site EUI& Source EUI);

b. Direct & Indirect Greenhouse Gas Emissions;

c. Indoor & Outdoor Water Use;

d. The ENERGY STAR score, if available; and

e. Data Accuracy.

Q. "Tenant" means a person occupying or holding possession of a covered property, or part of a covered property, pursuant to a rental or lease agreement.

R. "Triple Net Lease" A lease agreement on a property that designates the lessee or tenant as being solely responsible for all real estate taxes, building insurance, and maintenance on the property in addition to any customary fees that are expected under the lease agreement, including, but not limited to, rent and utility fees or payments.

S. "Utility" means an entity that distributes and sells water, steam, natural gas, electricity, thermal energy services or other energy for covered property. (1994 C., § 25.70.020; Ord. No. 70474, § 2, 2-16-2017)

25.70.030 Benchmarking and benchmarking submission required.

A. Every owner shall annually provide a benchmarking submission for each covered property to the Commissioner, in an electronic form as established by the Commissioner's rule, by the date specified below:

1. No later than December 31, 2017, and no later than every April 1 commencing in 2018 thereafter, each Group 1 covered property shall be benchmarked for the previous calendar year by the entity primarily responsible for the management of such property.

2. No later than April 1, 2018, and no later than every April 1 thereafter, the owner of a Group 2 covered property shall benchmark such property for the previous calendar year.

Prior to making any benchmarking submission, the owner of a covered property shall run all data through all data quality assurance tools within the ENERGY STAR Portfolio Manager, and correct all missing or incorrect information identified by the tool. The owner, at owner's sole discretion, can also choose to have a third party assessment to ensure reporting accuracy, keeping the accuracy report private unless the owner chooses to release it.

B. Where the current owner learns that any information reported as part of a benchmarking submission is inaccurate or incomplete, the information so reported shall be amended in the benchmarking tool by the owner and the owner shall provide an updated benchmarking submission to the Commissioner within 30 days of learning of the inaccuracy.

C. The Commissioner may grant an extension of the benchmarking submission date or an exemption from the benchmarking requirements to the owner of a covered property that submits a request, together with documentation, in a form prescribed by the Commissioner's rule, at least thirty (30) days prior to any benchmarking submission deadline, establishing any of the following criteria:

1. The property does not have a certificate of occupancy or temporary certificate of occupancy for all 12 months of the calendar year being benchmarked.

2. A demolition permit was issued during the prior calendar year, provided that demolition work has commenced and energy-related systems have been significantly compromised.

3. The covered property had average physical occupancy of less than 50 percent throughout the calendar year for which benchmarking is required.

4. The Commissioner determines that, due to special circumstances unique to the applicant's facility and not based on a condition caused by actions of the applicant, strict compliance with provisions of this chapter would cause financial hardship or would not be in the public interest.

5. The property is primarily used for manufacturing or other industrial purposes for which benchmarking results would not meaningfully reflect covered property energy use characteristics due to the intensive use of process energy.

6. The owner is unable to benchmark due to the failure of either a utility or a tenant (or both) to report the information necessary for the owner to complete any benchmarking submittal requirement.

7. The property is primarily multifamily residential, it is not master metered, and the serving electric utility does not provide data aggregation services or access to whole-building utility data. Once such services are available from the utility, as determined by the director, such buildings will no longer be exempt from benchmarking requirements, and shall file initial benchmarking reports in the first required reporting year following such data availability.

Any owner requesting such an extension or exemption shall provide the Commissioner any and all documentation requested to substantiate the request or otherwise assist the Commissioner in the extension or exemption determination. Any extension or exemption granted shall be limited to the benchmarking submission for which the request was made and shall not extend to past or future submittals.

D. Nothing in this article shall be construed as to prevent a person in control of a building, not otherwise a covered property, from submitting any benchmarking information to the Commissioner, otherwise in accordance with this article. The Commissioner may enter into agreements with any such persons governing any such participation.

E. A benchmarking submission is not required for any Group 2 covered property if all or substantially all of the property is used for communications infrastructure. (1994 C., § 25.70.030; Ord. No. 70474, § 3, 2-16-2017)

25.70.040 Reporting and Analysis of Benchmarking Information.

A. The Commissioner shall make available to the public annually the reported benchmarking information for the previous calendar year according to the following schedule:

1. For each Group 1 covered property, no later than March 31, 2018 and no later than every August 1 thereafter; and

2. For each Group 2 covered property, no later than August 1, 2018 and every August 1 thereafter.

B. The Commissioner shall publish a summary report in accordance with the following schedule:

1. No later than December 1, 2018, and annually thereafter, a summary report on the benchmarking of Group 1 covered property, including an assessment of accuracy and issues affecting accuracy, summary energy and water consumption statistics and trends observed, including an assessment of changes across the portfolio over time.

2. No later than December 1, 2019, and annually thereafter, a summary report on the benchmarking of Group 1 covered property and Group 2 covered property, including an assessment of compliance rates, an assessment of accuracy and issues affecting accuracy, summary water and energy consumption statistics, and trends observed.

In no event shall any Commissioner's summary report, mandated by this subsection, include a covered property's ENERGY STAR score without the owner's consent.

C. All reported benchmarking information and data on a covered property obtained from any benchmarking submittal, including any ENERGY STAR score, shall be available to the public, without restriction, unless the owner specifically requests confidentiality and is able to demonstrate to the satisfaction of the Commissioner that the release of such information would divulge confidential information that is otherwise protected from disclosure by law. Any such request shall state, with specificity, the source of law giving rise to the purported disclosure protection.

D. The City may provide non-anonymized data from benchmarking submissions to any utility serving a covered building or to any federal, state, or City-managed energy efficiency program, provided that the data will be used only for purposes of targeting incentives provided through energy efficiency programs, and provided that the City has first obtained the covered building owner's written or electronic permission to share the data with the utility or energy efficiency program. Where the building owner's permission can be granted electronically through acceptance of a default option, the City shall provide a clearly delineated option for owners of covered buildings to choose to opt out of granting this permission.

E. The City may disclose data from benchmarking submissions to a third party for academic or other noncommercial research purposes provided that such data is anonymized.

F. The City may provide non-anonymized benchmarking data to any utility serving a covered building or to any federal, state, or City-managed energy efficiency program, provided that the data will be used only for purposes of targeting incentives provided through energy efficiency programs, and provided that the City has first obtained the covered building owner's written or electronic permission to share the data with the utility or energy efficiency program. Where the building owner's permission can be granted electronically through acceptance of a default option, the City shall provide a clearly delineated option for owners of covered buildings to choose to opt out of granting this permission.

G. All third parties receiving anonymized or non-anonymized data from benchmarking submissions shall sign a non-disclosure agreement with the City stipulating terms for acceptable use of the data, including assurances that such data shall not be disclosed to other entities, before receiving such data. (1994 C., § 25.70.040; Ord. No. 70474, § 4, 2-16-2017)

25.70.050 Maintenance of Records.

A. Owners of covered property shall maintain records that are necessary for demonstrating compliance with this article, including, but not limited to, the energy and water bills and any reports or forms received from tenants and utilities. All such records shall be preserved for a period of three years from the applicable benchmarking submission date. At the request of the Commissioner, such records shall be made available for inspection and audit by the Commissioner.

B. When a covered property changes ownership, the previous owner shall provide the new owner all information for the months of the calendar year being benchmarked during the time the previous owner was still in possession of the property. (1994 C., § 25.70.050; Ord. No. 70474, § 5, 2-16-2017)

25.70.060 Violations and Enforcement.

A. *Ordinance Violation.* Any person who fails to comply with any benchmarking information submittal requirement mandated by this chapter or misrepresents any material fact in a document or report prepared as required by this chapter shall result in the following:

1. A written warning shall be issued by the Commissioner to any owner who fails to submit any required benchmarking information. Such warning letter shall be effective on the date of issuance and shall be mailed to the owner's last known address as determined by county record.

2. In the event required benchmarking information is not reported within sixty (60) days of the date the written warning is issued, said failure shall constitute an offense and shall be punishable, upon conviction, by a fine of not less than $50.00 and not more than $200.00. For any continuing violation of this article, each day of the violation shall be considered a separate offense. In no event shall the cumulative fine imposed hereunder exceed $1,000.00 annually.

B. *Suit Additional to Other Remedies.* If any person violates the provisions of this article, the City attorney may commence an action for legal or equitable relief in any court with appropriate jurisdiction. A petition for legal or equitable relief shall not be a bar against, or a prerequisite for, taking any other action against any person.

C. *Nonexclusively.* The remedies provided for in this article are not exclusive. The Commissioner may take any, all, or combination of these actions, or any other action available at law, against any person. (1994 C., § 25.70.060; Ord. No. 70474, § 6, 2-16-2017)

25.70.070 Rules.

The Commissioner may promulgate such rules as are necessary to carry out the provisions of this chapter. (1994 C., § 25.70.070; Ord. No. 70474, § 7, 2-16-2017)

Chapter 25.71

BUILDING ENERGY PERFORMANCE STANDARDS

Sections:

25.71.010 Purpose and policy.
25.71.020 Definitions.
25.71.030 Applicability.
25.71.040 Standards and compliance.
25.71.050 Office of building performance—Creation and purpose.
25.71.060 Building energy improvement board.
25.71.070 Appeals.
25.71.080 Rules.
25.71.090 Maintenance of records.
25.71.100 Violations and enforcement.

25.71.010 Purpose and policy.

The purpose of this chapter is the establishment of building energy performance standards for municipal, commercial, institutional, and multi-family properties that have a total gross floor area of 50,000 square feet or above within the City. (Ord. No. 71132, § 1, 5-4-2020.)

25.71.020 Definitions.

Unless the context specifically indicates otherwise, the meaning of terms used in this chapter shall be as follows:

A. "Commissioner" means the City of St. Louis Building Commissioner, or the Commissioner's designee;

B. "Owner" means any of the following:

1. An individual or entity possessing title to a covered property;

2. The net lessee in the case of an entire property subject to a triple net lease with a term of 10 years or more;

3. The board in the case of a condominium;

4. The board in the case of a cooperative apartment corporation; or

5. An agent authorized, in writing on file with the Commissioner, to act on behalf of any of the above.

C. "Person" means any individual, partnership, co-partnership, firm, company, corporation, association, joint stock company, trust, estate, governmental entity or any other legal entity, or their legal representatives, agents or assigns. This definition includes all federal, state or local governmental entities.

D. "Condominium" means a site that combines separate ownership of individual units with common ownership of other elements such as common areas.

E. "Covered property" means a building that is greater than or equal to 50,000 gross square feet in total gross floor area. The term "covered property" shall not include any building owned by the State of Missouri or the federal government.

F. "Energy" means electricity, natural gas, steam, hot water, chilled water, biomass or fuel oil to the

covered property or generated on-site for purposes of providing heating, cooling, lighting, water heating, or for powering or fueling other end-uses captured by the ENERGY STAR Portfolio Manager.

G. "Site energy use" means the annual amount of all the energy a property consumes on-site as calculated by ENERGY STAR Portfolio Manager or an alternative system or tool approved by the Building Commissioner.

H. "Site energy use intensity (EUI)" means the site energy use divided by the gross floor area of the property as calculated by ENERGY STAR Portfolio Manager or an alternative system or tool approved by the Building Commissioner.

I. "Weather normalized site energy" means the energy use a property would have consumed during 30-year average weather conditions as calculated by ENERGY STAR Portfolio Manager or an alternative system or tool approved by the Building Commissioner.

J. "ENERGY STAR Portfolio Manager" means the web-based tool developed and maintained by the U.S. Environmental Protection Agency to track and assess the relative energy performance of buildings nationwide. An alternative system or tool may be approved by the Commissioner.

K. "Financial hardship" (of a property) means a property that:

1. Had arrears of property taxes or water or refuse charges that resulted in the property's inclusion, within the prior 2 years, on the city's annual tax lien sale list; or

2. Has a court appointed receiver in control of the asset due to financial distress; or

3. Is owned by a financial institution through default by the borrower; or

4. Has been acquired by a deed in lieu of foreclosure; or

5. Has a senior mortgage subject to a notice of default.

L. "Communications infrastructure" means facilities used to house equipment to deliver electronic communications services, including voice, broadband, data and video services.

M. "Gross floor area" means the total property square footage, as measured between the exterior walls of the building(s). This includes all finished areas inside the building(s) including supporting areas.

N. "Qualified affordable building(s)" means a building in which a majority of the households in the building make less than eighty percent of the Area Median Income for the City of St. Louis. (Ord. No. 71132, § 2, 5-4-2020.)

25.71.030 Applicability.

This chapter shall apply to municipal, commercial, institutional, and multi-family buildings 50,000 square feet or above within the City of St. Louis.

A. "Covered property" means a building that is greater than or equal to 50,000 gross square feet in total gross floor area; including:

1. A building that is owned by the City; or for which the City regularly pays all or a majority of the annual energy bills.

2. A building that is held in the condominium form or ownership that is governed by the same board, and that is greater than or equal to 50,000 gross square feet in total gross floor area. (Ord. No. 71132, § 3, 5-4-2020.)

25.71.040 Standards and compliance.

The City shall establish energy performance standards for covered buildings in the City. The following standards regarding building energy performance shall be for property types outlined in Applicability Section:

A. Standards for each property type will be set by May 4, 2021 through a stakeholder engagement process overseen by the Building Energy Improvement Board. Standards will be revised no later than every four years. The chief performance metric will be site energy use intensity (EUI). Standards will be set no lower than the 65th percentile by property type such that at least 65% of the buildings of that property type have a higher EUI.

1. The Building Division shall establish data verification requirements for each four-year compliance cycle.

2. The building energy performance standard shall be no lower than the 65th percentile site energy use intensity (EUI) for buildings of each property type collected through benchmarking reporting from ENERGY STAR Portfolio Manager.

3. To the extent practical, target site EUIs by property type will be based on local buildings' benchmarking data.

4. If building owners believe that due to unusual circumstances they will be unable to meet the building energy performance standards established by the City

by the deadline or exceptionally burdened by doing so, then they may propose and present an alternative compliance plan for consideration by the Building Energy Improvement Board for approval.

B. Building owners will comply through the existing benchmarking reporting process, which uses ENERGY STAR Portfolio Manager as the reporting tool.

C. Compliance cycles.

1. Performance standards will be set by May 4, 2021 by the Building Energy Improvement Board and revised every four years thereafter. Following every compliance cycle, there shall be a period of time of up to one year between each compliance cycle to allow the Building Energy Improvement Board time to reevaluate and to update the building energy performance standards. The first Building Energy Performance standards shall be approved no later than May 4, 2021.

2. First Building Energy Performance Standard compliance cycle shall begin on the day they are approved and end four years after that day. The compliance cycle will end no later than May 1, 2025.

(a) Except that qualified affordable building(s) and houses of worship shall comply with a compliance cycle of six years in order to provide owners with adequate time to work through considerable financing and capacity constraints. The compliance cycle shall begin the day they are approved and end six years after that day. The compliance cycle will end no later than May 4, 2027.

D. *Compliance pathways.*

1. Buildings that meet their respective building energy performance standard at the end of the four-year compliance cycle are compliant.

2. Buildings performing below the building energy performance standard or if building owners believe that due to unusual circumstances they will be unable to meet the building energy performance standards established by the City by the deadline or exceptionally burdened by doing so, then they may conduct the following:

(a) Presenting an alternative compliance plan for consideration and approval by the Building Energy Improvement Board. Implementation of any alternative compliance plans must begin no later than May 4, 2024.

(i) Alternative compliance plans shall be made private between the Board and the building owner and/or building owner's authorized representatives.

(b) Make an alternative compliance payment to the Building Division or daily ordinance violation as determined by the Building Commissioner.

E. Building Energy Improvement Board will create a pathway for buildings that benefit from deep energy improvements and achieve energy performance well beyond the required performance standard to be in compliance for 15 years. (Ord. No. 71132, § 4, 5-4-2020.)

25.71.050 Office of Building Performance—Creation and purpose.

The office of Building Performance is hereby established within the Building Division. The mission of this office will be to oversee the implementation, compliance and enforcement of the existing Building Energy Awareness ordinance (#70474), the Building Energy Performance Standards ordinance, and any future ordinances related to building energy improvement and performance. (Ord. No. 71132, § 5, 5-4-2020.)

25.71.060 Building Energy Improvement Board.

There is hereby established a Building Energy Improvement Board (hereinafter, "Building Energy Improvement Board" or "Board").

A. *Board Composition and Roles.*

1. The Board shall consist of nine members appointed by the Mayor. At least six members of the Board shall be residents of the City of Saint Louis and three members shall be residents of the St. Louis region.

2. Within 60 days of the applicability date of this title, the Building Energy Improvement Board shall be established, which shall:

(a) Establish and approve building energy performance standards by property type for each compliance cycle, as recommended by the Building Division;

(b) Review and, as necessary, recommend amendments to proposed regulations issued by the Building Division;

(c) Recommend complementary programs or policies;

(d) Review appeals regarding any action(s) taken due to this chapter and the Building Energy Awareness Ordinance (#70474)

(e) Provide sample alternative compliance plans to meet building energy performance standards

(f) Review alternative compliance plans submitted and make recommendations for approval or denial by the Building Division.

3. The Building Energy Improvement Board shall be comprised of representatives, or their designees, from the following, but not limited to, possible entities:

(a) Building Division;

(b) Local utilities;

(c) A provider of energy efficiency or renewable energy services;

(d) Affordable and/or multi-family housing representative;

(e) Affordable housing tenant;

(f) Labor;

(g) Technical building design professional(s);

(h) Environmental non-profit;

(i) Commercial building;

(j) Engineering.

4. A technical sub-committee shall also be established and charged with reviewing and acting on alternative compliance plans and would consist of at least 80 percent of technical experts. Members of the technical sub-committee may also be members of the full Building Energy Improvement Board. The decision(s) of the sub-committee can be appealed to the full Building Energy Improvement Board.

5. *Alternates to Board.* The alternates shall have all power, protection, and stipends as the regular board members in accordance with Civil Service protection. The alternates shall be appointed by the Mayor for four-year terms.

6. *Term of Office.* All appointments and subsequent appointments shall be for a term of 4 years and shall expire on the anniversary of the date of the original term, except appointments to fill vacancies which shall be for the unexpired term. Terms for first appointments will be staggered. Members whose appointed terms have expired shall be permitted to continue to serve until reappointed or replaced by a new appointee.

7. *Procedures.* The Board shall elect one of its members as chair who shall serve as such during the remainder of the calendar year or until a successor is elected. The Board shall from time to time adopt rules and regulations as shall be reasonably necessary to govern its procedure and to carry into effect the provisions of this chapter.

(a) These rules and regulations shall be available for review at the office of the Secretary to the Board during normal working hours. It shall be unlawful for any appellant or appellant's representative to contact any member of the board on any matter that is pending or scheduled to be heard by the Board.

8. *Compensation.* The Building Energy Improvement Board members and technical sub-committee members shall be compensated for services rendered on a per meeting basis as established by rulemaking and subject to budgeted funds availability. Fifty dollars ($50) shall be paid to each member present on a per meeting basis. Budgeted funds will be paid from the Building Division.

B. *Meetings; Witnesses; Minutes.*

1. Meetings of the Board shall be held at the call of the chairman and at such other times as the Board shall permit by its rules. The chair, or in the chair's absence, the acting chair shall administer oaths. The Board shall act by a majority vote and a quorum shall consist of at least 5 members.

2. All hearings shall be conducted in accordance with the provisions of the Missouri Administrative Procedure Act. All testimony shall be given under oath or affirmation. The Board Chair or Secretary to the Board may issue subpoenas to secure the attendance and testimony of relevant witnesses and the production of relevant documents.

3. The Board shall keep minutes of its proceedings showing the vote of each member on each question, or if absent or failing to vote, indicating such fact, and shall keep records of its examinations of witnesses and other official acts. Transcripts of hearings shall be permitted to be kept in the custody of the court reporter and need not be transcribed unless requested. The party requesting the transcripts shall pay all costs of such transcripts required including a file copy for the board, one for the Building Division, and one for the Board's legal staff.

C. *Exemptions.*

1. The Board may grant an extension of the performance standard submission date or an exemption from the building energy performance standard requirement to the owner of a covered property that submits a request, together with documentation, in a form prescribed by the Board's rule, at least 90 days prior to any building energy performance standard submission deadline, if the appellant meets any of the following criteria:

(a) A demolition permit was issued or is demolition is planned during a compliance cycle, provided that demolition work has commenced and energy-related systems have been significantly compromised.

(b) The Building Energy Improvement Board determines that due to special circumstances unique to the applicant's facility and not based on a condition

caused by actions of the applicant, strict compliance with provisions of this chapter would cause financial hardship or would not be in the public interest.

(c) The property is primarily used for manufacturing or other industrial purposes for which benchmarking results would not meaningfully reflect covered property energy use characteristics due to the intensive use of process energy.

(d) The property is primarily used for communications infrastructure.

(e) The property is owned by the State of Missouri or the federal government.

2. Any owner requesting such an extension or exemption shall provide the Board any and all documentation requested to substantiate the request or otherwise assist the Board in the extension or exemption determination. Any extension or exemption granted shall be limited to the building energy performance standard submission for which the request was made and shall not extend to past or future submittals. (Ord. No. 71132, § 6, 5-4-2020.)

25.71.070 Appeals.

Appeals of any decision of the Commissioner regarding any person's failure to meet any required building energy performance standard can be appealed to the Building Energy Improvement Board.

A. *Filing Date of Appeal.* Any allowable appeal pursuant to this chapter shall be filed within thirty (30) calendar days after the decision of the building official that is being appealed.

B. *Manner and Fee for Filing Appeals.* Appeals shall be taken by filing with the Secretary to the Board a notice of appeal on such forms as prescribed by the Board specifying the grounds thereof. The Board Secretary shall immediately transmit to the Board such notice and all papers constituting the record upon which the action 12 appealed from is taken. The notice of appeal shall be accompanied by a fee of $100.

C. *Multiple Appeals.* In the event that more than one building, structure, or premises owned by the same person, firm, or corporation has been cited for exactly the same violation and the owner has filed an appeal with the board disputing the same citation, the appellant shall be permitted to file one appeal covering all said buildings, structures, or premises and be charged one appeal fee. The decision rendered by the Board shall apply to all buildings, structures, or premises involved in the appeal.

D. *Board Hearings; Notifications.* After an appeal has been filed, the Secretary to the Board shall place the appeal on a Board hearing agenda and the appellant shall be notified in writing by certified mail prescribing the time, date, and location of the hearing not less than seven days prior to said hearing. Such hearing shall be held within a reasonable time after the filing of the notice of appeal, depending on the scheduling of other appeals.

E. *Appeals From Decisions of the Board.* Any person(s) jointly or severally aggrieved by the decision of the Energy Performance Standards Board shall be entitled to judicial review of the decision rendered by the Board as provided in the Administrative Procedure and Review Act of the State of Missouri, being Sections 536.100 - 536.140 of the Revised Statutes of Missouri.

F. *Hearing Officer.* The Building Energy Improvement Board shall have the right to appoint a hearing officer to hear and render a decision on any appeal filed with the Board.

The hearing officer shall be an attorney and on an approved list of attorneys who have administrative law experience. The Director of Public Safety shall compile and maintain said list. The hearing officer shall have such rights, responsibilities, and duties as the Building Energy Improvement Board and the appellants shall have the same rights as an appellant appearing before the Building Energy Improvement Board, including the right to appeal pursuant to Missouri's Administrative Procedure and Review Act. (Ord. No. 71132, § 7, 5-4-2020.)

25.71.080 Rules.

The Commissioner may promulgate such rules as are necessary to carry out the provisions of this chapter. (Ord. No. 71132, § 8, 5-8-2020.)

25.71.090 Maintenance of records.

Owners of covered property shall maintain records that are necessary for demonstrating compliance with this chapter, including but not limited to, the energy and water bills and any reports or forms received from tenants and utilities. All such records shall be preserved for a period of 7 years from the applicable submission date. At the request of the Commissioner, such records shall be made available for inspection and audit by the Commissioner.

When a covered property changes ownership, the previous owner shall provide the new owner all information for the years complying with the energy perfor-

mance standard during the time the previous owner was still in possession of the property. (Ord. No. 71132, § 11, 5-4-2020.)

25.71.100 Violations and enforcement.

Ordinance violation. Any person who fails to comply with any building energy performance information submittal requirement mandated by this chapter or misrepresents any material fact in a document or report prepared as required by this chapter shall result in the following:

A. Written warning shall be issued by the Commissioner to any owner who fails to submit any required building energy performance information. Such warning letter shall be effective on the date of issuance and shall be mailed to the owner's last known address as determined by county record.

B. In the event required benchmarking and data verification information is not reported within 60 days of the date the written warning is issued, said failure shall constitute an offense and shall be punishable, upon conviction, a fine not less than one dollar nor more than five hundred dollars or by imprisonment for not more than ninety days or by both such fine and imprisonment. Each day of the violation continues shall constitute a separate offense.

C. *Additional available remedies.* If any person violates the provisions of this chapter, the City Counselor's Office may initiate an action for legal or equitable relief in any court with appropriate jurisdiction. A petition for legal or equitable relief shall not be a bar against, or a prerequisite for, taking any other action against any person.

D. *Nonexclusivity.* The remedies provided for in this chapter are not exclusive. The Commissioner may take any, all, or combination of these actions, or any other action available at law, against any person. (Ord. No. 71132, § 12, 5-4-2020.)

Chapter 25.74

UTILITY COORDINATION

Editor's Note:

Ord. No. 71943, § 1, approved December 24, 2024, amended the Code by repealing former Ch. 25.74, §§ 25.74.010—25.74.030, and adding a new Ch. 25.74. Former Ch. 25.74 pertained to construction and excavation, and derived from Ord. No. 70924, §§ 1—3, approved February 19, 2019.

Sections:

25.74.010 Definitions.
25.74.020 Coordination.
25.74.030 Moratorium on utility work.
25.74.040 Responsibility of repair.
25.74.050 Adoption of standards.
25.74.060 Fees associated with permitting.
25.74.070 Penalties for non-compliance.

25.74.010 Definitions.

All terms outlined in this section shall have the meaning herein described unless otherwise directly stated in the following ordinance.

Asphalt ramping is the process of placing cold patch asphalt along the edges of a steel street plate to establish a more continuous surface for right-of-way users to traverse.

Board of Public Service as referenced in this chapter shall refer to the full Board of Public Service.

City shall mean the City of St. Louis, Missouri.

Critical infrastructure shall mean electrical, water, sewer, gas, or other utility networks critical to public safety, communication, and transportation networks.

Emergency repair shall have the same meaning as described in RSMo 67.1830(3).

GIS map shall mean geographic information system map, a computer-based tool used to store, visualize, and interpret geographic data.

Keyhole excavation is defined as using a coring device to cut circular hole with a maximum diameter of twelve (12) inches through the roadway pavement, sidewalk, or surface to allow the intact core of pavement to be extracted.

Permanent repair shall mean any repair that is reasonably believed to not require additional revision work and meets all applicable standards adopted by the City of St. Louis.

Streets Department shall refer to the currently existing department tasked with Street Maintenance until such time as its successor the "Department of Transportation" becomes effective.

Temporary repair shall mean any temporary measures placed while waiting for materials or weather to facilitate proper permanent repairs.

Utility provider shall have the same meaning as prescribed to "public utility" in RSMo 67.1830(9). (Ord. No. 71943, § 2, 12-24-2024.)

25.74.020 Coordination.

1. The Streets Department shall, in consultation with the Board of Public Service, identify the scope and parameters of information required to be included in a long-term utility work plan and provide those instructions to all relevant utility providers within sixty (60) days after passage of this bill.

2. Utility providers operating in the City of St. Louis shall:

a. Perform all necessary, planned utility work in accordance with the adopted standards outlined in Section 25.74.050 of this chapter; and

b. Provide a long-term utility work plan, pursuant to Subsection 1 of this Section, to the Streets Department by January 1 of each calendar year.

i. Failure of utility providers to provide their long-term utility work plan by January 1 of each calendar year shall be cause for the denial of any work permit within city limits of the City of St. Louis, until such plans have been acquired by the City.

ii. No City department shall issue a permit or enter into a contract related to right-of-way work to a utility provider who is in violation of this section. This provision shall not limit issuance of permits in cases of work necessary for preservation of Public Health, Safety, or other emergencies as approved by the Board of Public Service.

3. The Streets Department shall, in partnership with Information Technology Services Agency ("ITSA"), the Board of Public Service ("BPS"), and the Planning and Urban Design Agency ("PDA"), develop and maintain a GIS map of planned City right-of-way maintenance, including but not limited to construction, reconstruction, and repair overlaid with long-term utility work plans received from utility providers by January 1 of each calendar year.

a. The Streets Department shall solicit updates of the utility providers' long-term utility work plan(s) quarterly for the determination of project(s) completion, delay, or rescheduling and shall update the GIS map accordingly.

4. The Streets Department shall, in consultation with the Board of Public Service, develop and make public a Citywide paving and sidewalk plan by July 1 of each calendar year. Such paving and sidewalk plan shall include but shall not be limited to plans for any City repaving, reconstruction, and basic roadway improvements for the following fiscal year, including anticipated project timelines. The Streets Department and Board of Public Service shall further develop and make public a list of completed roadway restoration work from the previous five (5) years.

(Ord. No. 71943, § 3, 12-24-2024.)

25.74.030 Moratorium on utility work.

1. There shall be a moratorium on utility construction for a term of five (5) years immediately following any City repaving, reconstruction, or other complete right-of-way project.

a. This section shall not include emergency repairs as defined in this chapter. All excavations made and materials placed under emergency conditions shall be considered temporary repairs. Utility Providers shall make permanent repairs that meet adopted standards within eight (8) weeks from the issuance of the excavation permit in connection with an emergency repair (see Exhibit A to Ord. No. 71943, proposed updated excavation permit language). Utility providers may submit a written request to the Streets Department for an extension due to weather conditions or extenuating circumstances beyond their control. This section shall, regardless of the age of the pavement, not be construed as to hinder work for the following reasons: new construction, establishing new service, to mitigate any interruption of essential service, or any work that is mandated by City, state, or federal law.

b. Upon denial of an application for a right-of-work permit due to a violation of the five (5) year moratorium outlined in this Section, the applicant shall, if applicable, submit evidence of emergency conditions as defined in Section 25.74.030, subsection a.

If the Board of Public Service issues a permit under emergency conditions, The Board of Public Service, in coordination with the Streets Department, may include further expectations (see Exhibit B, as provided by Nashville's Department of Transportation) of right-of-way restoration based on their project.

(Ord. No. 71943, § 4, 12-24-2024.)

25.74.040 Responsibility of repair.

Utility providers shall have sole responsibility of the repair of the right-of-way after excavation, and must make repairs in alignment with the adopted standards of the City of St. Louis as outlined in Section 25.74.050 of this chapter, unless Utility Providers are able to perform work within one (1) year prior to scheduled City repaving, reconstruction, or other complete right-of-way project in the same location, in which

case the utility provider shall restore the right-of-way with appropriate backfill materials for roadway or right-of-way type (asphalt patch vs. concrete joint to joint or full lane width repairs) and patch that location with appropriate materials (asphalt patch vs. concrete joint to joint or full lane width repairs), including street markings like crosswalks or bike lanes; but shall not be required to repave the entire block or combine patches. (Ord. No. 71943, § 5, 12-24-2024.)

25.74.050 Adoption of standards.

The Board of Public Service shall adopt the same standards for repair and reconstruction related to excavation as St. Louis County. Upon issuance of an excavation permit, the Streets Department shall provide these standards to the applicant in a format similar to Exhibit C to Ord. No. 71943. These standards shall include, but shall not be limited to, the following provisions:

1. For restoration of pavement that is five (5) years and older, joint to joint or full lane width, as appropriate, of a right-of-way cut must be restored to adopted standards. Exceptions for keyhole excavations may be made on a case-by-case basis by the Streets Department.

2. Backfilling material under a patch must meet adopted standards.

3. The full block shall be repaved if more than twenty (20) percent of the block is to be patched in non-continuous sites along the block, but only that work location shall be repaved if twenty (20) percent is in a continuous location.

4. If the work occurs solely on one (1) side of the street or in one (1) lane, but travels down block for longer than twenty (20) percent of the block, the full lane shall be repaved joint-to-joint or full lane width, as appropriate, for the type of roadway.

5. Steel plates shall be pinned in place. Asphalt ramps shall be required any time a steel plate is on the roadway and not within a closed lane of traffic. This shall apply to all lanes of traffic (bike lanes, parking lanes, and driving lanes) and sidewalks. Asphalt ramps shall be maintained as needed during the duration of utility work.

6. Patches that are created by the same utility provider that are ten (10) feet or less apart shall be combined into one (1) larger patch, exceptions for keyhole excavations may be made on a case-by-case basis by the Streets Department.

7. Any impacted road fixtures and right-of-way shall be restored in-kind and to their original condition, to the extent possible. If a road fixture is made of a certain material, the same material shall be used for the restoration.

a. This requirement applies to all affected road fixtures and rights-of-way, including, but not limited to, curbs, sidewalks, and medians.

8. All concrete cuts used for restoration shall be restored joint-to-joint.

(Ord. No. 71943, § 6, 12-24-2024.)

25.74.060 Fees associated with permitting.

Except as otherwise provided by state law applicants for an excavation permit shall be subject to the following fees and conditions:

Applicants for an excavation permit must provide:

1. A valid business license with the City of St. Louis;

2. Plumbing related excavations will require a plumbing permit from the Building Division;

3. Non-plumbing related excavations will require a permit from the Board of Public Service;

4. A one thousand five-hundred-dollar ($1,500.00) deposit, refundable one (1) year after issuance of the permit and after a final inspection;

5. A ten-thousand-dollar ($10,000.00) surety bond;

6. Five-hundred thousand ($500,000.00) in liability insurance, naming the City of St. Louis as additionally insured.

Fees associated with cuts under twenty (20) feet in length:

1. One-hundred twenty-five dollars ($125.00) per repair, permit good or thirty (30) days from start of work.

Fees associated with cutes over twenty (20) feet in length:

1. One hundred twenty-five dollars ($125.00) per block;

2. Twenty dollars ($20.00) per day per crew inspection fee for day the excavation is open.

Excavation permit allows for blocking one (1) lane of roadway. If additional lanes need to be blocked, there will be additional fees of thirty dollars ($30.00) per days for a traffic lane and twenty dollars ($20.00) per day for a parking lane.

If meters will be blocked, the following meter rental fees apply excluding Sundays and City holidays:

1. One time twenty-five dollar ($25.00) application fee.

2. Ten dollars ($10.00) per meter per day.

(Ord. No. 71943, § 7, 12-24-2024.)

25.74.070 Penalties for non-compliance.

At the sole discretion of the Director of Streets or their designee, upon the determination that any contractor is found to be in violation of any provision of these sections, that contractor shall forfeit their deposit if the violation is not rectified within thirty (30) calendar days. The Director of Streets shall provide this notice to the contractor in writing. Three (3) such violations shall be cause for debarment and will prohibit that contractor from receiving excavation permits within the City of St. Louis.

(Ord. No. 71943, § 8, 12-24-2024.)

Chapter 25.76

SMALL WIRELESS FACILITIES AND MICRO WIRELESS FACILITIES

Sections:

25.76.010 Title and intent.

25.76.020 Definitions.

25.76.030 Permits for wireless facilities outside the right-of-way.

25.76.010 Title and intent.

Adding a new chapter to Title 25—Buildings and Construction—to be known as "Small Facilities and Micro Wireless Facilities." The purpose of this chapter is to encourage and streamline the deployment of small wireless and micro wireless facilities in the City and to help ensure that robust and dependable wireless radio-based communication services and networks are available throughout the City, consistent with state and federal law.

(Ord. No. 70917, § 1, 2-14-2019.)

25.76.020 Definitions.

A. *Definitions and Usage—General.* For the purposes of this Chapter, the following terms, phrases, words, and abbreviations shall have the meanings given herein, unless otherwise expressly stated. When not inconsistent with the context, words used in the present tense include the future tense and vice versa, words in the plural number include the singular number and vice versa, and masculine gender includes the feminine gender and vice versa. The words "shall" and "will" are mandatory, and "may" is permissive. Unless otherwise expressly stated or contrary to the context, those terms, phrases, words, and abbreviations not defined herein shall be given the meaning set forth in RSMo 67.5110—67.5121, and if not defined therein, the City Code, and, if not defined therein, their common and ordinary meaning.

B. "Antenna." Communications equipment that transmits or receives electromagnetic radio frequency signals used in the provision of wireless services.

C. "Applicable codes." Include any City codes incorporating uniform building, fire, electrical, plumbing, or mechanical codes adopted by a recognized national code organization or local amendments to such codes enacted to prevent physical property damage or reasonably foreseeable injury to persons.

D. "Applicant." Any person who submits an application and is a wireless provider.

E. "Application." A request submitted by an applicant to the City for a permit to collocate small wireless facilities on a utility pole or wireless support Structure, or to approve the installation, modification or replacement of a utility pole.

F. "Collocate" or "collocation." To install, mount, maintain, modify, operate, or replace small wireless facilities on or immediately adjacent to a wireless support structure or utility pole, provided that the small wireless facility antenna is located on the wireless support structure or utility pole.

G. "Communications facility." The set of equipment and network components, including wires, cables, and associated facilities used by a cable operator, as defined in 47 U.S.C. Section 522(5); a telecommunications carrier, as defined in 47 U.S.C. Section 153(51); a provider of information service, as defined in 47 U.S.C. Section 153(24); or a wireless services provider; to provide communications services, including cable service, as defined in 47 U.S.C. Section 522(6); telecommunications service, as defined in 47 U.S.C. Section 153(53); and information service, as defined in 47 U.S.C. Section 153(24); wireless communications service; or other one-way or two-way communications service.

H. "Communications service provider." A cable operator, as defined in 47 U.S.C. Section 522(5); a provider of information service, as defined in 47 U.S.C.

Section 153(24); a telecommunications carrier, as defined in 47 U.S.C. Section 152(51); or a wireless provider;

I. "Decorative pole." A city utility pole that is specially designed and placed for aesthetic purposes;

J. "Fee." A one-time, nonrecurring charge;

K. "Permit." A written authorization required by the city to perform an action or initiate, continue or complete a project;

L. "Person." An individual, corporation, limited liability company, partnership, association, trust, or other entity or organization, including an authority.

M. "Rate." A recurring charge.

N. "Right-of-way." The area on, below, or above a public roadway, highway, street, sidewalk, alley, or similar property used for public travel, but not including a federal interstate highway, railroad right-of-way or private easement.

O. "Small wireless facility." A wireless facility that meets both of the following qualifications:

1. Each wireless provider's antenna could fit within an enclosure of no more than six cubic feet in volume; and

2. All other equipment associated with the wireless facility, whether ground or pole mounted, is cumulatively no more than twenty-eight (28) cubic feet in volume, provided that no single piece of equipment on the utility pole shall exceed nine (9) cubic feet in volume; and no single piece of ground mounted equipment shall exceed fifteen (15) cubic feet in volume, exclusive of equipment by an electric utility or municipal electric utility to power the small wireless facility.

The following types of associated ancillary equipment shall not be included in the calculation of equipment volume: electric meter, concealment elements, telecommunications demarcation box, grounding equipment, power transfer switch, cut-off switch, and vertical cable runs and related conduit for the connection of power and other services.

P. "Stealth." Integrated as an architectural feature of a structure or that is designed to camouflage or conceal the presence of the wireless facility or antenna so that the purpose of the wireless facility or antenna is not readily apparent to a casual observer however, such term shall not include wireless support structures, electric transmission structures, or break-away poles owned by the state Highways and Transportation Commission.

Q. "Utility Pole." A pole or similar structure that is or may be used in whole or in part by or for wireline communications, electric distribution, lighting, traffic control, signage, or a similar function, or for the collocation of small wireless facilities.

R. "Wireless facility." Equipment at a fixed location that enables wireless communications between user equipment and a communications network, including equipment associated with wireless communications and radio transceivers, antennas, coaxial or fiber-optic cable, regular and backup power supplies and comparable equipment, regardless of technological configuration. The term includes small wireless facilities. The term does not include:

1. The structure or improvements on, under, or within which the equipment is collocated;

2. Coaxial or fiber-optic cable between wireless support structures or utility poles;

3. Coaxial or fiber-optic cable not directly associated with a particular small wireless facility; or

4. A wireline backhaul facility.

S. "Wireless infrastructure provider." Any person, including a person authorized to provide telecommunications service in the state, that builds or installs wireless communication transmission equipment or wireless facilities but that is not a wireless services provider.

T. "Wireless provider." A wireless infrastructure provider or a wireless services provider.

U. "Wireless services." Any services using licensed or unlicensed spectrum, including the use of WiFi, whether at a fixed location or mobile, provided to the public using wireless facilities.

V. "Wireless services provider." A person who provides wireless services.

W. "Wireless support structure." An existing structure, such as a monopole or tower, whether guyed or self-supporting, designed to support or capable of supporting wireless facilities; an existing or proposed billboard; an existing or proposed building; or other existing or proposed structure capable of supporting wireless facilities, other than a structure designed solely for the collocation of small wireless facilities. Such term shall not include a utility pole.

X. "Wireline backhaul facility." A physical transmission path, all or part of which is within the right-of-way, used for the transport of communication data by wire from a wireless facility to a network.

(Ord. No. 70917, § 2, 2-14-2019.)

25.76.030 Permits for wireless facilities outside the right-of-way.

The provisions of this section shall apply to the permitting of small wireless facilities and micro wireless facilities to be installed by or for a wireless provider outside the right-of-way. Unless otherwise indicated, nothing in this chapter abrogates existing requirements for the location or collocation of a wireless facility that is not a small or micro wireless facility.

A. Wireless providers or their agents shall apply for and obtain a permit pursuant to all applicable codes to locate or collocate a small wireless facility or micro wireless facility. The permit application fee is set forth in the applicable codes. The city shall receive applications for, process and issue such permits subject to the following requirements.

(1) An applicant shall not be required to perform services or provide goods unrelated to the permit, such as in-kind contributions to the city, including reserving fiber, conduit, or pole space for the city;

(2) An applicant shall not be required to provide more information to obtain a permit than communications service providers that are not wireless providers, provided that an applicant shall include construction and engineering drawings and information demonstrating compliance with the criteria in subdivision (9) of this subsection and an attestation that the small wireless facility complies with the volumetric limitations set forth in the definition section for small wireless facilities;

(3) An applicant shall not be required to place small wireless facilities on any specific utility pole or category of poles or require multiple antenna systems on a single utility pole;

(4) There is no limit as to the placement of small wireless facilities by minimum horizontal separation distances;

(5) An applicant shall comply with reasonable, objective, and cost-effective concealment and stealth requirements as set forth by the regulations adopted by either the Board of Public Service or the Building Commissioner and safety requirements as provided herein provided that stealth concealment requirements are published in advance by the Board of Public Service or the Building Commissioner and are no more burdensome than those required as part of other telecommunications infrastructure deployments. If both the Board of Public Service and the Building Commissioner promulgate concealment regulations, then the Building Commissioner's regulations shall control for purposes of this chapter;

(6) An applicant that is not a wireless services provider shall provide evidence of agreements or plans demonstrating that the small wireless facilities will be operational for use by a wireless services provider within one (1) year after the permit issuance date, unless the City and the applicant agree to extend this period or if delay is caused by lack of commercial power or communications transport facilities to the site and the applicant notifies the City thereof. An applicant that is a wireless services provider shall provide the information required by this subdivision by attestation;

(7) Within fifteen (15) days of receiving an application, the City shall determine and notify the applicant in writing whether the application is complete. If an application is incomplete, the City shall specifically identify the missing information in writing. The processing deadline in subdivision (8) of this subsection shall be tolled from the time the City sends the notice of incompleteness to the time the applicant provides the missing information. That processing deadline may also be tolled by agreement of the applicant and the City;

(8) An application for collocation shall be processed on a nondiscriminatory basis and deemed approved if the City fails to approve or deny the application within forty-five (45) days of receipt of the application. An application for installation of a new, modified, or replacement utility pole outside the right-of-way and associated with a small wireless facility shall be processed on a nondiscriminatory basis and deemed approved if the City fails to approve or deny the application within sixty (60) days of receipt of the application;

(9) The City may deny a proposed collocation of a small wireless facility or installation, modification, or replacement of a utility pole outside the right-of- way only if the action proposed in the application could reasonably be expected to:

(a) Materially interfere with the safe operation of traffic control equipment or City-owned communications equipment;

(b) Materially interfere with sight lines or clear zones for transportation, pedestrians, or nonmotorized vehicles;

(c) Materially interfere with compliance with the Americans with Disabilities Act, 42 U.S.C. Sections 12101 to 12213, or similar federal or state standards regarding pedestrian access or movement;

(d) Materially obstruct or hinder the usual travel or public safety on the right-of-way;

(e) Materially obstruct the legal use of the right-of-way by the City, a utility, or other third party;

(f) Fail to comply with reasonable and nondiscriminatory spacing requirements of general application adopted by ordinance or regulations promulgated by the state highways and transportation commission that concern the location of ground mounted equipment and new utility poles, subject to wireless provider requests for exception or variance;

(g) Fail to comply with applicable codes, including nationally recognized engineering standards for utility poles or wireless support structures;

(h) Fail to comply with the reasonably objective and documented aesthetics of a decorative pole and the applicant does not agree to pay to match the applicable decorative elements; or

(i) Fail to comply with reasonable and nondiscriminatory undergrounding requirements contained in City ordinances as of January 1, 2018, or subsequently enacted for new developments, that require all new utility facilities in the area to be placed underground and prohibit the installation of new or the modification of existing utility poles in a right-of-way without prior approval, including by wireless provider requests for exception or variance;

(10) The City shall document the complete basis for a denial in writing, and send the documentation to the applicant with the communication denying an application. The applicant may cure the deficiencies identified by the City and resubmit the application within thirty (30) days of the denial without paying an additional application fee. The City shall approve or deny the revised application within thirty (30) days. Any subsequent review shall be limited to the deficiencies cited in the denial;

(11) Applications.

(a) An applicant may file a consolidated application and receive a single permit for the collocation of multiple small wireless facilities; provided, however, the denial of one (1) or more small wireless facilities in a consolidated application shall not delay processing of any other small wireless facilities in the same batch; and

(b) An application may include up to twenty (20) separate small wireless facilities, provided that they are for the same or materially same design of small wireless facility being collocated on the same or materially the same type of utility pole or wireless support structure, and geographically proximate. If the City receives individual applications for approval of more than fifty (50) small wireless facilities or consolidated applications for approval of more than seventy-five (75) small wireless facilities within a fourteen-day period, whether from a single applicant or multiple applicants, the City may, upon its own request, obtain an automatic thirty-day extension for any additional collocation or replacement or installation application submitted during that fourteen-day period or in the fourteen-day period immediately following the prior fourteen-day period. The City shall promptly communicate its request to each affected applicant. In rendering a decision on an application for multiple small wireless facilities, the City may approve the application as to certain individual small wireless facilities while denying it as to others based on applicable requirements and standards, including those identified in this subsection. The City's denial of any individual small wireless facility or subset of small wireless facilities within an application shall not be a basis to deny the application as a whole; notwithstanding the foregoing, the FCC "shot clock" review periods set forth in 47 CFR 1.6003 shall not be exceeded regardless of the number of "batched" applications.

(12) Installation or collocation for which a permit is granted under this Chapter shall be completed within one year after the permit issuance date unless the City and the applicant agree to extend this period, or the applicant notifies the City that the delay is caused by a lack of commercial power or communications transport facilities to the site.

(13) Approval of an application authorizes the applicant to:

(a) Undertake the installation or collocation; and

(b) Operate and maintain the small wireless facilities and any associated utility pole covered by the permit for a period of ten (10) years, which shall be renewed for equivalent durations so long as the facilities and poles remain in compliance with the criteria set forth in subdivision (9) of this section, unless the applicant and the City agree to an extension term of less than ten (10) years. The provisions of this paragraph shall be subject to the right of the City to require, upon adequate notice and at the facility owner's own expense, relocation of facilities as may be needed in the interest of public safety and convenience, and the applicant's right to terminate at any time;

(14) In determining whether sufficient capacity exists to accommodate the attachment of a new small

wireless facility, the City shall take into account that any grant of access hereunder shall be subject to a reservation to reclaim such space, when and if needed, to meet the pole owner's core utility purpose or documented plan projected at the time of the application pursuant to a bona fide development plan; and

(15) In emergency circumstances that result from a natural disaster or accident, the City may require the owner or operator of a wireless facility to immediately remove such facility if the wireless facility is obstructing traffic or causing a hazard on the City's roadway. In the event that the owner or operator of the wireless facility is unable to immediately remove the wireless facility, the City may remove the wireless facility from the roadway or other position that renders the wireless facility hazardous. Under these emergency circumstances, the City shall not be liable for any damage caused by removing the wireless facility and may charge the owner or operator of the wireless facility the City's reasonable expenses incurred in removing the wireless facility.

B. A permit is not required for:

(1) Routine maintenance on previously permitted small wireless facilities;

(2) The replacement of small wireless facilities with small wireless facilities that are the same or smaller in size, weight, and height; or

(3) The installation, placement, maintenance, operation, or replacement of micro wireless facilities that are strung on cables between utility poles, in compliance with applicable codes.

C. For work described in subdivisions B(1) and B(2) of this section that involves different equipment than that being replaced, the wireless services provider shall submit a description of such new equipment so that the City may maintain an accurate inventory of the small wireless facilities at that location.

D. No approval for the installation, placement, maintenance, or operation of a small wireless facility under this chapter shall be construed to confer authorization for the provision of cable television service, or installation, placement, maintenance, or operation of a wireline backhaul facility or communications facility, other than a small wireless facility, in the right-of-way or outside the right-of-way.
(Ord. No. 70917, § 3, 2-14-2019.)

Chapter 25.78

IMPACTED TENANTS' FUND

Sections:

25.78.010	**Definitions.**
25.78.020	**Establishment of the impacted tenants' fund.**
25.78.030	**Rules for approval of applications for assistance.**

25.78.010 Definitions.

"Act of God" means an event or occurrence that is the result of natural causes and could not have been prevented or controlled by the exercise of reasonable care, foresight, or due diligence. Such events include, but are not limited to, floods, hurricanes, tornadoes, earthquakes, wildfires, and other extreme natural phenomena.

"Code Official" shall have the same meaning as defined in Section 25.56.020.

"Condemnation for occupancy" or "condemned" is an order issued by the Code Official prohibiting persons from occupying and being present on the premises of a specified dwelling due to building code violations until such violations have been addressed and the order is rescinded.

"Eligible tenant" is a tenant of a rental dwelling unit who is forced to relocate due to condemnation for occupancy of such dwelling unit either due to the landlord's failure to maintain the rental unit in conformance with code requirements or due to a residential property destroyed or damaged by an Act of God of such magnitude as to activate the City Emergency Management Agency and results in the structure being unoccupied and uninhabitable.

"Impacted Tenants' Fund" is a fund established and managed by the City to provide a program of financial assistance to eligible tenants.

"Tenant" shall mean a resident of the City who legally occupies a rental dwelling unit with the property owner's consent and is obligated to pay rent.
(Ord. No. 72002, § 1, 6-3-2025; Ord. No. 71840, § 1, 5-1-2024.)

25.78.020 Establishment of the impacted tenants' fund.

The Comptroller of the City of St. Louis is hereby authorized and directed to establish a special account to be known as the Impacted Tenants' Fund in which

certain funds as described in this chapter shall be deposited. The Impacted Tenants' Fund shall be kept separate and apart from all other funds, and all interest generated on deposited funds shall accrue to the Impacted Tenants' Fund. All funds in the Impacted Tenants' Fund are appropriated to the Department of Human Services. The Director of the Department of Human Services is hereby authorized to make, negotiate, and execute all contracts or other documents on behalf of the City to expend such funds for reasonable administrative costs and to distribute such funds to eligible tenants. All contract agreements shall be subject to applicable City ordinances, policies, and procedures governing City contracts. The Comptroller is authorized and directed to issue warrants upon the City Treasury for payment of all expenditures authorized in this chapter provided that such warrants do not exceed the total amount of funds appropriated by this chapter.
(Ord. No. 71840, § 2, 5-1-2024.)

25.78.030 Rules for approval of applications for assistance.

Eligible tenants may receive financial assistance through the Impacted Tenants' Fund on a first-come-first-serve basis, subject to funding availability. The Director of the Department of Human Services is authorized to implement rules for approval of applications for assistance upon approval of such rules by the Housing, Urban Development and Zoning Committee. Each eligible tenant whose application is approved will receive financial assistance equal to one (1) month's rent based on the fair market rent for apartments of the same size or type as the one the eligible tenant is being forced to relocate from, as determined by the U.S. Department of Housing and Urban Development's Fair Market Rent statistics for the St. Louis Metro Area, as determined by HUD on an annual basis. The 2022 and 2023 Fair Market Rent statistics are shown on Exhibit A to Ord. No. 71840 for information.
(Ord. No. 71840, § 2, 5-1-2024.)

Chapter 25.80

SAFE TEMPERATURE IN RENTALS

Sections:

25.80.010 Definitions.
25.80.020 Rental dwelling cooling requirements.
25.80.030 Enforcement.
25.80.040 Reporting and prohibition of retaliatory acts.
25.80.050 Penalties.

25.80.010 Definitions.

Cooling system means a mechanism or set of devices designed to reduce or maintain the temperature of an environment. Examples of cooling systems include, but are not limited to, air conditioning units installed in windows, portable electronic air conditioners, and HVAC systems.

CREA means the St. Louis Civil Rights Enforcement Agency.

Owner, as defined in Section 25.56.020, means any person, agent, operator, firm, corporation, or any other legal entity having a legal or equitable interest in a parcel of real property; recorded in the official records of the City of St. Louis as holding title to a parcel of real property; or otherwise having control of real property, including as a landlord, collector of rent, or a guardian of an estate for any such person, executor, personal representative, administrator of the estate of such person, or bankruptcy trustee.

Rental dwelling unit, as defined in Section 25.56.020, means a dwelling unit that is being held out or being offered for rent or is being let for rent and/or occupied by any person who is not the owner of the premises.

Temperature sensor means a device that detects and measures hotness and coolness and converts it into an electrical signal.
(Ord. No. 71839, § 1, 4-26-2024.)

25.80.020 Rental dwelling cooling requirements.

A. Rental dwelling units shall be designed and maintained in such a manner that from May 1 through September 30, annually, the unit is capable of sustaining an indoor temperature between sixty-eight (68) and eighty-five (85) degrees Fahrenheit in at least one (1) habitable room, not to include the bathroom.

B. If a cooling system is provided by the owner, such system shall be maintained in such a manner that it is capable of maintaining an indoor temperature of eighty-five (85) degrees Fahrenheit or below in each room of the rental dwelling unit and is in compliance with all applicable City building, construction, and maintenance code requirements. Owners shall ensure that the cooling system is maintained in good working order through regular inspection as described under

Title 25 and maintenance in a reasonable time after a tenant reports a problem. Owners are required to inform tenants of the availability and proper use of the cooling system upon occupancy, if provided. Clear instructions on reporting any cooling system-related issues must be provided to tenants.

C. Temperature measurements shall be taken at a distance of three (3) feet above the floor in the center of the room.
(Ord. No. 71839, § 2, 4-26-2024.)

25.80.030 Enforcement.

The Building Division is hereby empowered to enforce the provisions of this section. When the Building Division has determined that a violation has occurred, the Division will impose penalties pursuant to Chapter 25.33. Additionally, the Building Division is directed to share that information with CREA, including details about the violation, the owner of the unit, the address of the unit, the corrective action taken to rectify the violation, and the fines paid as a penalty for the violation. Nothing in this chapter or the administration or application thereof shall be construed to create a private right of action.
(Ord. No. 71839, § 3, 4-26-2024.)

25.80.040 Reporting and prohibition of retaliatory acts.

A tenant of a rental dwelling unit can report noncompliance with the rental dwelling cooling requirements to the Citizens Service Bureau. Owners shall not retaliate when tenants report or complain of code violations as defined herein applicable to the premises to a competent governmental agency, elected representative, or public official charged with responsibility for enforcement or exercise any right or remedy provided by law. Retaliatory acts may include but are not limited to deferring or ceasing maintenance services and contacting or threatening to contact a law enforcement department or agency.
(Ord. No. 71839, § 4, 4-26-2024.)

25.80.050 Penalties.

Any person, firm, partnership, or corporation who violates any provision or provisions of this chapter shall be issued a fine up to five hundred dollars ($500.00), unless a higher maximum fine is subsequently dictated by Charter amendment, in which case the maximum fine shall be increased to such higher maximum authorized by the amendment. Each day's violation shall constitute a separate offense. Penalties of this chapter shall not become effective until July 1, 2025.
(Ord. No. 71839, § 5, 4-26-2024.)

Chapter 25.82

MOLD IN RENTAL DWELLING UNITS

Sections:

25.82.010 Definitions.
25.82.020 Owner's responsibility to prevent and remediate mold.
25.82.030 Tenant's responsibility to prevent and report mold.
25.82.040 Department of Health to create mold information.
25.82.050 Certificate of inspection—Mold.
25.82.060 Notice to owner of mold presence and remediation.
25.82.070 Owner's duty to notify occupants of mold presence and remediation.
25.82.080 Mold remediation.
25.82.090 Reporting and prohibition of retaliatory acts.
25.82.100 Enforcement.
25.82.110 Implementation.
25.82.120 Penalties.

25.82.010 Definitions.

Code Official as used in this chapter means the Building Commissioner or a duly authorized representative.

Common area means a portion of a multiple-family dwelling that is not within a rental dwelling unit and that is regularly used by occupants for access to and egress from any rental dwelling unit within such multiple-family dwelling, as well as commonly used areas such as a laundry room.

Mold means a fungal growth on an indoor surface, indoor building structure, or ventilation system, often caused by flooding, leaky roofs, poor building maintenance, or indoor plumbing problems. The term "mold" shall include any visible mold or any mold that a Code Official reasonably suspects to exist based on indicators such as odor, mold testing, underlying conditions conducive to mold growth, or other relevant factors.

Owner as used in this chapter means any individual or entity that owns, master leases, manages, or other-

wise directly or indirectly controls one (1) or more rental dwelling units located in the City of St. Louis, and any agent of such an individual or entity that makes tenancy decisions.

Remediation or *remediate* means measures to eradicate mold through cleaning and eliminating root causes of mold, including but not limited to the guidelines created by the Health Department pursuant to Section 25.82.040.

Rental dwelling unit as used in this chapter means a dwelling unit as defined in Section 25.56.020 that is being held out or being offered for rent or is being let for rent and/or occupied by any person who is not the owner of the premises.
(Ord. No. 71946, § 1, 12-30-2024.)

25.82.020 Owner's responsibility to prevent and remediate mold.

The existence of mold in any rental dwelling unit is hereby declared to constitute a condition dangerous to health. Except for the responsibilities of tenants set forth in Section 25.82.030, an owner of a rental dwelling unit shall keep the premises free from mold, shall prevent the reasonably foreseeable occurrence mold, and shall expeditiously remediate mold.
(Ord. No. 71946, § 2, 12-30-2024.)

25.82.030 Tenant's responsibility to prevent and report mold.

Tenants should routinely clean those areas of the rental dwelling unit that are always susceptible to mold growth, including bathrooms, especially shower stalls, bathroom tiles, and shower curtains, except owners are responsible for plumbing areas; window moldings; the seal on the refrigerator door and inside the refrigerator; surfaces in and around sinks, except owners are responsible for sink plumbing areas; and surfaces on and around window air conditioning units on the inside facing side of the unit. In order to prevent mold, tenants should use existing exhaust fans or windows in the bathroom to vent moisture; and tenants should keep dehumidifiers plugged in, running, and water emptied, if provided by the owner, and should alert the owner if there are problems with the operations of any dehumidifier. Tenants should notify the owner of any mold they see or smell as soon as possible. Failure to comply with this section shall not constitute a violation of this chapter and no citation or fine shall be issued to the tenant.
(Ord. No. 71946, § 3, 12-30-2024.)

25.82.040 Department of Health to create mold information.

Within sixty (60) days after the passage of the ordinance from which this chapter derives, the St. Louis City Department of Health shall create and make publicly available materials describing what mold is, how to identify and discover mold, the health hazards of mold, and how to remediate mold.
(Ord. No. 71946, § 4, 12-30-2024.)

25.82.050 Certificate of inspection—Mold.

The Building Division shall not issue a certificate of inspection to an owner if mold is found in a rental dwelling unit and/or common area during inspection until after the mold is remediated. If the Code Official determines through inspection that mold is present, the owner shall be responsible for remediation.
(Ord. No. 71946, § 5, 12-30-2024.)

25.82.060 Notice to owner of mold presence and remediation.

When evidence is found indicating the presence of mold, a Code Official shall give the owner written notice of the presence of mold.

a. This notice shall specify that the mold must be remediated within thirty (30) calendar days of the date of notice. It shall inform the owner of the notification obligations required by Section 25.82.070. It shall further state that if the mold is not remediated within thirty (30) calendar days of the date of the notice that the Code Official may revoke the certificate of inspection for such unit, condemn it for occupancy, and order the rental dwelling unit vacated.

i. This notice shall further include the materials created by the Department of Health as outlined in Section 25.82.040. A Code Official may also include any additional guidance around mold remediation that they deem relevant.

b. For good cause shown by the owner, the Code Official shall have authority to grant extensions for completion of work necessary to remediate the mold observed during the inspection where it is not feasible or possible to complete such work within thirty (30) calendar days of the date on which the notice was issued.

c. Notwithstanding the foregoing, if the Code Official determines that a rental dwelling unit or the building in which such unit is located warrants condemnation pursuant to the provisions of this chapter or any

other ordinances, the Code Official shall have authority to condemn such unit or building, without regard to the time limits specified above.
(Ord. No. 71946, § 6, 12-30-2024.)

25.82.070 Owner's duty to notify occupants of mold presence and remediation.

Within five (5) business days of receipt of written notification from a Code Official that mold was found in an occupied rental dwelling unit or common area, the owner shall give written notice of the presence of mold to all affected tenants living in that rental dwelling unit and/or with access to that common area. This notice shall further include the materials created by the Department of Health as outlined in Section 25.82.040. The owner shall provide such notice via in-person delivery, U.S. Mail, or electronic mail. The owner's failure to provide such notice shall be a violation of this chapter.
(Ord. No. 71946, § 7, 12-30-2024.)

25.82.080 Mold remediation.

The owner shall be responsible for appropriate mold remediation. Upon the receipt of written notice from a Code Official, the owner of any building or rental dwelling unit specified therein shall take timely measures for the mold remediation of such building. Unless said work has been completed in the time specified in the written notice, inclusive of any written extension thereof that may be granted by the Building Division, the owner shall be in violation of this chapter.
(Ord. No. 71946, § 8, 12-30-2024.)

25.82.090 Reporting and prohibition of retaliatory acts.

a. If a tenant of a rental dwelling unit reasonably believes that mold is present in their unit, they shall, as soon as possible, report the presence of mold and suspected underlying cause to the Citizens Service Bureau for an inspection.

i. A tenant's failure to report the presence of mold to the Citizens Service Bureau does not constitute a violation of this chapter and does not relieve an owner of the responsibility to comply with this chapter.

b. Owners shall not retaliate against tenants who report or complain of code violations as defined herein applicable to the premises to a governmental agency, elected representative, or public official charged with responsibility for enforcement, or exercise any right or remedy provided by law. Retaliatory acts may include but are not limited to deferring or ceasing maintenance services and contacting or threatening to contact a law enforcement department or agency.
(Ord. No. 71946, § 9, 12-30-2024.)

25.82.100 Enforcement.

The Building Division is hereby empowered to enforce the provisions of this chapter. The imposition of penalties shall be as prescribed by Section 25.82.120. Nothing in this chapter or the administration or application thereof shall be construed to create a private right of action.
(Ord. No. 71946, § 10, 12-30-2024.)

25.82.110 Implementation.

a. The Code Official shall provide appropriate training to division personnel for mold inspection. Such training shall include, but shall not be limited to:

i. Procedures for investigating and identifying the root cause of the mold, such as flooding, leaky roofs, poor building maintenance, or indoor plumbing problems; and

ii. Familiarity with the materials created by the Department of Health as outlined in Section 25.82.040.
(Ord. No. 71946, § 11, 12-30-2024.)

25.82.120 Penalties.

Any person, firm, partnership, or corporation who violates any provision or provisions of this ordinance shall be issued a fine up to five hundred dollars ($500.00). Each day's violation shall constitute a separate offense.
(Ord. No. 71946, § 12, 12-30-2024.)

Chapter 25.84

OCCUPANCY LAW

Sections:

25.84.010 Adoption of Section 137.082, RSMo.

25.84.010 Adoption of Section 137.082, RSMo.

A. Pursuant to Section 137.082.8, RSMo., the City of St. Louis adopts the "Occupancy Law" as found in its entirety in section 137.082, RSMo.

B. The Assessor for the City of St. Louis shall develop and administer processes to implement and effect the provisions of Section 137.082, RSMo.
(Ord. No. 72001, § 1, 5-30-2025.)

Title 26

ZONING

Prior history: Ords. 45309, 47494, 47495, 47795, 48004, 48573, 49536, 50063, 50091, 50547, 50981, 52025, 52026, 52027, 53596, 54635, 54733, 54759, 54846, 55562, 55620, 56443, 56914, 57455, 57590, 57454, 58062, 58070, 58132; 1948 C. Part III; 1960 C. Chs. 900—932

RSMo:

RSMo Ch. 89 (2016) Zoning and planning

City Counselor Ops.: 8020, 8153, 8189, 8206, 8242-A, 8406, 8413, 8483, 8527, 8610, 8659, 8727, 9298, 9326, 9905, 10200, 10317

Cases:

Zoning ordinance or city imposing restrictions on the use of private property having no relation to the health, comfort, safety or welfare of the inhabitants, held void as the taking of private property without compensation or due process of law. *City of St. Louis v. Evraiff,* 301 Mo. 231, 256 S.W. 489 (1932).

Zoning ordinance No. 35003 dividing St. Louis into use and height and area districts held valid. *State v. Christopher,* 298 S.W. 720 (1927).

Zoning ordinance of the City of St. Louis dividing the City into five districts according to uses of property was held invalid; such ordinance did not constitute a valid exercise of the police power. *State vs. McKelvey,* 256 S.W. 495 (1923).

(1994 C., § 26.04.010; Ord. No. 71940, § 1, 12-10-2024; Ord. No. 71928, § 1, 11-19-2024; Ord. No. 71897, § 1, 10-11-2024; Ord. No. 59979, § 2(part), 1986.)

Editor's Note:

Ord. No. 70982 amended the Zoning Code by adding Chapter 26.70 pertaining to medical marijuana, but the ordinance did not amend the foregoing table.

26.04.020 Acceptance of Act.

The provisions of Section 6 of an Act of the General Assembly of Missouri, approved April 30, 1925, relating to zoning, as amended, are accepted. (1994 C., § 26.04.020; Ord. No. 59979, § 2(part), 1986.)

Editor's Note:

The session law reference in the above section is to RSMo 89.090.

26.04.030 Zoning Commission.

The Community Development Commission shall be the Zoning Commission as provided for in Section 6 of said Act. (1994 C., § 26.04.030; Ord. No. 59979, § 2(part), 1986.)

Editor's Note:

The session law reference in the above section is to RSMo 89.090.

26.04.040 Interpretation and purpose.

In interpreting and applying the provisions of the Zoning Code, they shall be held to the minimum requirements for the promotion of the public safety, health, convenience, comfort, prosperity and general welfare. It is not the intention of the Zoning Code to interfere with or abrogate or annul any easements, covenants or other agreement between parties; provided, however, that where the Zoning Code imposes a greater restriction upon the use of a building or premises or upon the height of a building, or requires larger open spaces that are imposed or required by other ordinances, rules, regulations, or permits or by easements, covenants or agreements, the provisions of the Zoning Code shall govern. (1994 C., § 26.04.040; Ord. No. 59979, § 2(part), 1986.)

26.08.480 Zoning Administrator.

26.08.010 Application of definitions.

For the purpose of this Zoning Code certain terms and words are hereby defined. Words used in the present tense shall include the future; the singular shall include the plural and the singular; the word "building" shall include the word "structure"; the word "lot" shall include the word "plot"; and the word "shall" is mandatory and not directory. Any term not herein defined shall be construed as defined in the "Building Code of the City of St. Louis." (1994 C., § 26.08.010; Ord. No. 62588, § 2(part), 1992.)

26.08.020 Accessory building.

A subordinate building, the use of which is incidental to that of the main building. (1994 C., § 26.08.020; Ord. No. 62588, § 2(part), 1992.)

26.08.022 Accessory dwelling unit, attached.

A subordinate, independent dwelling unit on the same parcel as: a single-family dwelling, two-family dwelling, or semi-detached two-family dwelling, acting as an accessory use, connected to but not within the principal structure.
(Ord. No. 72036, § 1, 7-11-2025.)

26.08.023 Accessory dwelling unit, detached.

A subordinate, independent dwelling unit on the same parcel as: a single-family dwelling, two-family dwelling, or semi-detached two-family dwelling, acting as an accessory use, separate from the principal structure.
(Ord. No. 72036, § 1, 7-11-2025.)

26.08.025 Accessory use.

The term applied to a use that is subordinate in physical character to the principal use, that is clearly incidental to the principal use and that is located on the same lot with the principal use. (1994 C., § 26.08.025; Ord. No. 62588, § 2(part), 1992.)

26.08.030 Alley.

A public thoroughfare which affords only a secondary means of access to abutting property. (1994 C., § 26.08.030; Ord. No. 62588, § 2(part), 1992.)

26.08.035 Animal clinic.

An establishment that is used for the practice of veterinary medicine. (1994 C., § 26.08.035; Ord. No. 62588, § 2(part), 1992.)

26.08.040 Apartment house.

A dwelling, multiple-family. (1994 C., § 26.08.040; Ord. No. 62588, § 2(part), 1992.)

26.08.050 Basement.

A story having part but not more than one half its height below grade. A basement shall not be included in computing the number of stories of buildings referred to in any part of the Zoning Code unless it is subdivided, rented, sold or leased for dwelling purposes. (1994 C., § 26.08.050; Ord. No. 62588, § 2(part), 1992.)

26.08.053 Bed and breakfast guesthouse.

A dwelling having not more than seven guestrooms where travelers for compensation are lodged for sleeping purposes with at least a morning meal provided. It is owner-occupied, and no more than three (3) guestrooms shall be served by one bathroom and a separate bathroom must be maintained for the owner occupants. (1994 C., § 26.08.053; Ord. No. 62588, § 2(part), 1992.)

26.08.056 Bed and breakfast homestay.

A dwelling having not more than two guestrooms where travelers for compensation are lodged for sleeping purposes with at least a morning meal provided. It is owner-occupied, having no employees, and lodging travelers. (1994 C., § 26.08.056; Ord. No. 62588, § 2(part), 1992.)

26.08.058 Bed and breakfast inn.

A building having not more than nineteen guestrooms where travelers for compensation are lodged for sleeping purposes with at least a morning meal provided. No more than three guestrooms shall be served by one bathroom and if owner or manager occupied, a separate bathroom must be maintained for said owner or manager. (1994 C., § 26.08.058; Ord. No. 62588, § 2(part), 1992.)

26.08.059 Bicycle parking space.

A four (4) feet by six (6) feet space provided for locking two (2) bicycles to a City approved bicycle rack. (1994 C., § 26.08.059; Ord. No. 69148, § 1, 4-4-2012)

26.08.060 Bicycle rack.

A stationary device anchored to the ground providing a stable frame to which two (2) bicycles may be conveniently secured. Common examples of preferred

bicycle racks include "inverted-U," "post and loop," or "A" racks, and a creative design rack as defined and regulated herein.
(1994 C., § 26.08.060; Ord. No. 69148, § 1, 4-4-2012)

26.08.065 Reserved.

Editor's Note:

Ord. No. 71928, § 2, approved November 19, 2024, amended the Code by repealing former § 26.08.065, which pertained to the definition of "boarding house" and derived from the 1994 Code, § 26.08.065; and Ord. No. 62588, § 2, of 1992.

26.08.070 Building.

Any structure for the shelter, support or enclosure of persons, animals, chattels or property of any kind. When separated by division walls without openings, each portion of such building so separated shall be deemed a separate building. (1994 C., § 26.08.070; Ord. No. 62588, § 2(part), 1992.)

26.08.080 Building, height of.

The vertical distance measured from the curb grade or its equivalent established grade at a point midway between the two side lot lines to the highest point of the roof in the case of a flat roof, to the deck line of a mansard roof, or to the mean height level between the eaves and ridge of a gable, hip or gambrel roof excluding church spires, except that, where buildings are set back from the street line, the height on the building may be measured from the average elevation of the finished lot grade at the base of the front of the building. (1994 C., § 26.08.080; Ord. No. 62588, § 2(part), 1992.)

26.08.090 Buildable width.

The width of that part of the lot not included within the open spaces herein required in the Zoning Code. (1994 C., § 26.08.090; Ord. No. 62588, § 2(part), 1992.)

26.08.100 Cellar.

A story having more than one-half its height below grade. A cellar shall not be included in computing the number of stories of buildings referred to in any part of the Zoning Code unless it is subdivided, rented, sold or leased for dwelling purposes. (1994 C., § 26.08.100; Ord. No. 62588, § 2(part), 1992.)

26.08.101 Check-cashing establishment.

A business engaged in cashing checks for the general public as an element of its operation, which exceeds 50% of its gross revenues, and which is not licensed by the appropriate state or federal agency as a bank, savings and loan association, or credit union.

Check-cashing establishments are not permitted in zoning districts "A," "B," "C," "D," "E," "F," and "L" and may be permitted as conditional uses in zoning districts "G," "H," "I," "J," and "K." No permit shall be issued for any check-cashing establishment that is located within 5,280 feet of any other check-cashing establishment and/or short-term loan establishment, or within five hundred (500) feet of any premises used as a dwelling including, but not limited to, a single-family dwelling, a two-family dwelling, a multifamily dwelling, a town home, or a semi-attached two-family, or within five hundred (500) feet of any structure used as elementary or secondary schools. (1994 C., § 26.08.101; Ord. No. 68185, § 2, 12-1-2008; Ord. No. 64836, §§ 1, 2, 1999.)

26.08.103 Clinic.

An establishment that is used for the provision of medical treatment for sick or injured people, treatment of alcohol and drug abuse, and treatment of the mentally or physically handicapped on an outpatient basis. (1994 C., § 26.08.103; Ord. No. 62588, § 2(part), 1992.)

26.08.104 Conditional use.

A use not authorized as a matter of right by the regulations of the district in which the use is proposed to be located but subject to being authorized for such district by action of the Zoning Administrator. The appropriateness of a particular use is to be determined based on the requirements and standards specified in Chapter 26.80. (1994 C., § 26.08.104; Ord. No. 62588, § 2(part), 1992.)

26.08.104.1 Convenience store.

Any grocery or retail establishment, not exceeding three thousand five hundred (3,500) square feet, offering for sale a limited line of groceries and household items and prepared foods usually for off-site consumption. (1994 C., § 26.08.104.1; Ord. No. 69395, § 1, 2-14-2013.)

26.08.105 Conversion town house.

A town house as defined in Section 26.08.435; except that such town house is the product of a reconstruction or rehabilitation of a previously constructed dwelling, that the total number of town houses resulting from the reconstruction or rehabilitation is equal to or less than the total number of dwelling units previously existing in the dwelling, that the total floor area of the previously constructed dwelling shall not be increased resulting from the reconstruction or rehabilitation of a previously constructed dwelling, and that the aggregate area of all the town house lots resulting from the reconstruction or rehabilitation is no less than the area of the lot of the previously existing dwelling. Reference to a town house in this Zoning Code includes reference to a conversion town house unless a conversion town house is specifically distinguished. (1994 C., § 26.08.105; Ord. No. 64868, § 2, 2000; Ord. No. 62588, § 2(part), 1992.)

26.08.107 Creative design rack.

Any rack other than the standard "inverted-U," "post and loop," or "A" rack. (1994 C., § 26.08.107; Ord. No. 69148, § 1, 4-4-2012.)

26.08.110 Dwelling.

Any building, or portion thereof, which is designed for or used for residential purposes. (1994 C., § 26.08.110; Ord. No. 62588, § 2(part), 1992.)

26.08.115 Dwelling unit.

A room or group of rooms with cooking and sanitary facilities, occupied or arranged for occupancy by a single family. (1994 C., § 26.08.115; Ord. No. 62588, § 2(part), 1992.)

26.08.120 Dwelling, single-family.

A building containing one dwelling unit. (1994 C., § 26.08.120; Ord. No. 62588, § 2(part), 1992.)

26.08.130 Dwelling, two-family

A building containing two dwelling units. (1994 C., § 26.08.130; Ord. No. 62588, § 2(part), 1992.)

26.08.140 Dwelling, semi-detached two-family.

Two 2-family dwellings separated by a division wall. (1994 C., § 26.08.140; Ord. No. 62588, § 2(part), 1992.)

26.08.150 Dwelling, multiple-family.

A building containing three or more dwelling units, other than a townhouse a semi-detached two-family dwelling.
(1994 C., § 26.08.150; Ord. No. 71928, § 2, 11-19-2024; Ord. No. 62588, § 2(part), 1992.)

26.08.160 Family.

A person, or group of persons immediately related by blood, marriage or adoption, living as a single housekeeping unit; also a group of not more than three (3) persons not necessarily related by blood, marriage or adoption, living as a single housekeeping unit. (1994 C., § 26.08.160; Ord. No. 62588, § 2(part), 1992.)

26.08.162 Financial institution.

An establishment that is engaged in the business of a bank, savings and loan association, or credit union that is regulated by state or federal authority. Such establishment includes, without limitation, an office building or portion thereof devoted to such use, a drive-up facility, and a facility containing one or more automated teller machines. (1994 C., § 26.08.162; Ord. No. 64837, § 3, 1999; Ord. No. 62588, § 2(part), 1992.)

26.08.165 Floor area.

The total interior area of all floors of a building or structure measured to the inside face of the exterior walls but excluding stairwells, lobbies, common corridors and other nonleasable circulation areas, elevator shafts and space occupied by mechanical equipment or space related to the operation and maintenance of the building as well as that floor surface covered by walls or partitions enclosing these common areas or elements of a building. (1994 C., § 26.08.165; Ord. No. 62588, § 2(part), 1992.)

26.08.166 Floor area ratio.

The total floor area of a building or structure on any lot divided by the total area of that lot. (1994 C., § 26.08.166; Ord. No. 62588, § 2(part), 1992.)

26.08.170 Frontage.

All the land abutting on one side of a street or place between two intersecting streets or places (crossing or terminating) measured along the line dividing the street or place from the individual lots, or if the street or place be a dead end, then all the property abutting on one side between an intersecting street or place and the dead-end of the street or place, or if neither of the above apply, then all the land abutting on one side of particular block as designated by house numbers. (1994 C., § 26.08.170; Ord. No. 62588, § 2(part), 1992.)

26.08.180 Garage, private.

A building or portion of a building designed or used for the housing of motor driven vehicles. (1994 C., § 26.08.180; Ord. No. 62588, § 2(part), 1992.)

26.08.190 Garage, public.

A building or portion of a building other than a private garage, a storage garage, or a warehouse garage, used for storage, equipping, repairing, hiring or selling of motor driven vehicles. (1994 C., § 26.08.190; Ord. No. 62588, § 2(part), 1992.)

26.08.200 Garage, storage.

A building or portion of a building, other than a private garage, used exclusively for storage of motor driven vehicles. (1994 C., § 26.08.200; Ord. No. 62588, § 2(part), 1992.)

26.08.210 Garage, warehouse.

A building or portion of a building used exclusively for the storage of motor driven vehicles awaiting sale. (1994 C., § 26.08.210; Ord. No. 62588, § 2(part), 1992.)

26.08.230 Guestroom.

A room for lodging by no more than four (4) persons in a bed and breakfast establishment. (1994 C., § 26.08.230; Ord. No. 62588, § 2(part), 1992.)

26.08.240 Home occupation.

An accessory use of a dwelling unit that constitutes either entirely or partly the livelihood of a person living in the dwelling unit. See Section 26.80.060—Home Occupations. (1994 C., § 26.08.240; Ord. No. 62588, § 2(part), 1992.)

26.08.245 Home for senior citizens.

A residential building containing eight or more bedrooms limited to the use and occupancy of any persons, married or single, 62 years of age or over; such building shall not be used for such purposes as a convalescent or nursing home. (1994 C., § 26.08.245; Ord. No. 62588, § 2(part), 1992.)

26.08.250 Hospital.

An institution providing medical treatment and overnight bed care for the sick or injured. (1994 C., § 26.08.250; Ord. No. 62588, § 2(part), 1992.)

26.08.260 Hotel.

A building, other than a bed and breakfast inn, used as the abiding place of more than 20 persons who are for compensation lodged with or without meals. (1994 C., § 26.08.260; Ord. No. 62588, § 2(part), 1992.)

26.08.270 Lot.

A parcel of land occupied or proposed for improvement with one main building together with the accessory structures and uses customarily incidental to it and including such open space as is required under the Zoning Code, which parcel of land is either referred to in Section 26.80.050 or has its principal frontage either on a public street or place on a private residence street of record. Land that was formerly part of another lot and that was required for compliance with area regulations for an existing building on such other lot shall not be considered in determining whether a building to be erected, enlarged, structurally altered or moved complies with applicable area regulations. (1994 C., § 26.08.270; Ord. No. 62588, § 2(part), 1992.)

26.08.280 Lot, corner.

A lot abutting on two streets at their intersection. (1994 C., § 26.08.280; Ord. No. 62588, § 2(part), 1992.)

26.08.290 Lot, depth of.

The minimum horizontal distance between the front and rear lot lines. (1994 C., § 26.08.290; Ord. No. 62588, § 2(part), 1992.)

26.08.300 Lot, interior.

A lot other than a corner lot. (1994 C., § 26.08.300; Ord. No. 62588, § 2(part), 1992.)

26.08.310 Lot, lines.

Lines bounding a lot, as defined herein. (1994 C., § 26.08.310; Ord. No. 62588, § 2(part), 1992.)

26.08.320 Lot, through.

An interior lot having a frontage on each of two streets parallel or approximately parallel to each other. (1994 C., § 26.08.320; Ord. No. 62588, § 2(part), 1992.)

26.08.321 Marijuana, Marijuana-Infused Products, Medical Marijuana Cultivation Facility, Medical Marijuana Dispensary Facility, Medical Marijuana Facility, Medical Marijuana-Infused Products Manufacturing Facility, Medical Marijuana Testing Facility, Medical Marijuana Use, Comprehensive Facility, Comprehensive Marijuana Cultivation Facility, Comprehensive Marijuana Dispensary Facility, Comprehensive Marijuana-Infused Products Manufacturing Facility, Consumer, Marijuana Accessories, Marijuana Facility, Marijuana Microbusiness Facility, Microbusiness Wholesale Facility, Marijuana Testing Facility, and Preroll.

See Chapter 26.70 for definitions.
(Ord. No. 71633, § 1, 2-16-2023.)

26.08.322 Micro wireless facility.

A small wireless facility that is not larger in dimension than twenty-four inches in length, fifteen inches in width, and twelve inches in height; and any exterior antenna no longer than eleven inches. (Ord. No. 70942, § 1, 5-2-2019.)

26.08.325 Motor fuel pumping station.

An establishment having one or more pumps wherein a principal activity is the sale of motor fuel that is directly dispensed to the consumer's vehicle. (1994 C., § 26.08.325; Ord. No. 62588, § 2(part), 1992.)

26.08.330 Nonconforming use.

Any building or land lawfully occupied by a use on May 25, 1950, or on the effective date of any amendment to Ordinance 45309, and which is in conflict with one or more of the regulations of the district in which it

is situated. (1994 C., § 26.08.330; Ord. No. 62588, § 2(part), 1992.)

26.08.331 Nonconforming structure.

A structure which existed lawfully prior to May 25, 1950, or on the effective date of any amendment to Ordinance 45309, and which is in conflict with one or more of the regulations of the district in which it is situated. (1994 C., § 26.08.331; Ord. No. 62588, § 2(part), 1992.)

26.08.337 Package liquor store.

An establishment at which primarily liquor products are sold at retail and not for consumption on the premises. (1994 C., § 26.08.337; Ord. No. 62588, § 2(part), 1992.)

26.08.340 Parking lot, commercial.

A lot on which space for parking is offered to the general public in return for a consideration or compensation. (1994 C., § 26.08.340; Ord. No. 62588, § 2(part), 1992.)

26.08.350 Parking space.

A surfaced area, exclusive of driveways, permanently reserved for the temporary storage of one automobile and connected directly with a street or alley or connected thereto by a driveway. The layout, arrangement and dimensions of drives and parking spaces shall be in accordance with Section 26.16.080. (1994 C., § 26.08.350; Ord. No. 62588, § 2(part), 1992.)

26.08.360 Place.

An open unoccupied space other than a street or alley permanently reserved and approved by the Board of Public Service as the principal means of access to abutting property. (1994 C., § 26.08.360; Ord. No. 62588, § 2(part), 1992.)

26.08.370 Premises.

A continuous area of land and any structures thereon all under a single ownership or operation under a single direction, which premises may include one or more adjacent lots, or fractions of lots. (1994 C., § 26.08.370; Ord. No. 62588, § 2(part), 1992.)

26.08.375 Restaurant.

An establishment where meals or refreshments are sold to the public. (1994 C., § 26.08.375; Ord. No. 62588, § 2(part), 1992.)

26.08.377 Restaurant, carry-out.

A restaurant where food, frozen dessert, or beverages are primarily sold in a packaged, ready-to-consume state, intended for ready consumption by the customer on or off the premises. (1994 C., § 26.08.377; Ord. No. 62588, § 2(part), 1992.)

26.08.380 Reserved.

Editor's Note:

Ord. No. 71928, § 2, approved November 19, 2024, amended the Code by repealing former § 26.08.380, which pertained to the definition of "rooming house" and derived from the 1994 Code, § 26.08.380; and Ord. No. 62588, § 2, of 1992.

26.08.384 Short-term loan establishment.

A business engaged in providing short-term loans to members of the general public as an element of its operation and which is not licensed by the appropriate state or federal agency as a bank, savings and loan association, or credit union. Short-term loan establishments shall include businesses offering title loans, payday loans, signature loans, small loans, pawnshops, and other similar businesses.

Short-term loan establishments are not permitted in zoning districts "A," "B," "C," "D," "E," "F," and "L" and may be permitted as conditional uses in zoning districts "G," "H," "I," "J," and "K."

No permit shall be issued for any short-term loan establishment that is located within 5,280 feet of any other short-term loan establishment and/or check-cashing establishment, or within five hundred (500) feet of any premises used as a dwelling including, but not limited to, a single-family dwelling, a two-family dwelling, a multifamily dwelling, a town home, or a semi-attached two-family, or within five hundred (500) feet of any structure used as elementary or secondary schools. (1994 C., § 26.08.384; Ord. No. 68185, § 3, 12-1-2008; Ord. No. 64837, §§ 1, 2, 1999.)

26.08.384.1 Short-term rental; short-term rental agent; short-term rental, non-occupied; short-term rental, occupied; short-term rental owner; short-term rental permit; short-term rental unit; and dwelling unit.

See Chapter 26.76 for definitions.

(Ord. No. 71940, § 2, 12-10-2024; Ord. No. 71730, § 1, 11-6-2023.)

Editor's Note:

Ord. No. 71730, § 1, approved November 6, 2023, amended the Code by renumbering former § 26.08.385 as a new

§ 26.08.386, and adding a new § 26.08.385. Subsequently, Ord. No. 71940, § 2, approved December 10, 2024, renumbered the new § 26.08.385 as § 26.08.384.1.

26.08.385 Sign.

Any structure or part thereof, or any device attached to, painted on, or represented on a building or other structure, upon which is displayed or included any letter, word, model, banner, flag, insignia, decoration, device, or representation used as, or in the nature of, an announcement, direction, advertisement, or attention directing device.
(1994 C., § 26.08.385; Ord. No. 71940, § 2, 12-10-2024; Ord. No. 71730, § 1, 11-6-2023; Ord. No. 62588, § 2, 1992.)

Note:

Former § 26.08.385. See editor's note, § 26.08.385. Renumbered as § 26.08.385 by Ord. No. 71940, § 2, approved December 10, 2024.

26.08.387 Sleeping room.

A room or group of rooms, without cooking facilities, that provides sleeping accommodations for one or more individuals.
(1994 C., § 26.08.387; Ord. No. 71928, § 2, 11-19-2024; Ord. No. 62588, § 2(part), 1992.)

26.08.389 Small wireless facility.

A wireless facility that meets both of the following qualifications: (a) each wireless provider's antenna could fit within an enclosure of no more than six cubic feet in volume; and (b) All other equipment associated with the wireless facility, whether ground or pole mounted, is cumulatively no more than twenty-eight cubic feet in volume, provided that no single piece of equipment on the utility pole shall exceed nine cubic feet in volume; and no single piece of ground mounted equipment shall exceed fifteen cubic feet in volume, exclusive of equipment required by an electric utility or municipal electric utility to power the small wireless facility. The following types of associated ancillary equipment shall not be included in the calculation of equipment volume: electric meter, concealment elements, telecommunications demarcation box, grounding equipment, power transfer switch, cut-off switch, and vertical cable runs and related conduit for the connection of power and other services. (Ord. No. 70942, § 1, 5-2-2019.)

26.08.389.1 Special residential uses.

Boarding house; dormitory; group home; halfway house; rooming house; shelter, congregate; shelter, single-room occupancy; substance use treatment center; support services; and transitional housing.
(Ord. No. 71928, § 2, 11-19-2024.)

26.08.390 Story.

That part of a structure contained between the level of one finished floor, or, if the top story, that part of a structure contained between the level of the highest finished floor and the ceiling above it. (1994 C., § 26.08.390; Ord. No. 62588, § 2(part), 1992.)

26.08.400 Story, half.

A space under a sloping roof which has the line of intersection of roof decking and wall face not more than 3 feet above the top floor level and in which space not more than two-thirds of the floor area is furnished for use. (1994 C., § 26.08.400; Ord. No. 62588, § 2(part), 1992.)

26.08.410 Street.

A public thoroughfare which affords principal means of access to abutting property. (1994 C., § 26.08.410; Ord. No. 62588, § 2(part), 1992.)

26.08.420 Structural alteration.

Any change in the supporting members of a building such as bearing walls, columns, lintels, beams or girders. (1994 C., § 26.08.420; Ord. No. 62588, § 2(part), 1992.)

26.08.430 Structure.

A combination of material assembled, constructed or erected at a fixed location, including a building, the use of which requires location on the ground or attachment to something located on the ground. (1994 C., § 26.08.430; Ord. No. 62588, § 2(part), 1992.)

26.08.432 Telephone, outdoor pay.

"Outdoor pay telephone" means a telephone for hire located on private property which is not located within a building used for additional purposes with controlled access by means of a door or doors that may be locked. (1994 C., § 26.08.432; Ord. No. 64167, § 2, 1997.)

26.08.433 Tourist home.

A bed and breakfast establishment. (1994 C., § 26.08.433; Ord. No. 62588, § 2(part), 1992.)

26.08.435 Town house.

A series of attached single-family dwellings separated by exterior quality walls or a common wall between units as required by the St. Louis Building Code, except that the maximum number of abutting dwelling units in any town house series shall not exceed eight, that each dwelling unit shall front wholly and directly upon a public street, or private place or upon a courtyard or way through which the owner of the town house dwelling unit has legally guaranteed ingress and egress to a public street or private place, and that each such dwelling unit shall have a dimension of not less than 14 feet along the width of the dwelling unit. Any contiguous grouping of five or more town house dwelling units to be developed as herein defined shall be subject to the provisions and requirements of Section 26.16.100. (1994 C., § 26.08.435; Ord. No. 62588, § 2(part), 1992.)

26.08.436 Utility stations and utility towers.

Infrastructure and/or facilities that need to be located in the area where the service is to be provided, such as water and sewer pump stations; electrical transforming substations; wind energy and sewer pump stations; electrical transforming substations; wind energy conversion systems; water conveyance systems; gas regulating stations; stormwater facilities and conveyance systems; telephone switching equipment; emergency communication warning/broadcast facilities; and other similar uses, but not including those uses defined as wireless facilities per Section 26.08.437 and wireless support structures per Section 26.08.438. (Ord. No. 70942, § 1, 5-2-2019.)

26.08.437 Wireless facility.

Equipment at a fixed location that enables wireless communications between user equipment and a communications network, including equipment associated with wireless communications and radio transceivers, antennas coaxial or fiber-optic cable, regular and backup power supplies, and comparable equipment, regardless of technological configuration. The term includes small wireless facilities. The term does not include: (a) the structure or improvements on, under, or within which the equipment is collocated; (b) coaxial or fiber-optic cable between wireless support structures or utility poles; (c) coaxial or fiber-optic cable not directly associated with a particular small wireless facility; or (d) a wireline backhaul facility, as defined by Missouri statutes. (Ord. No. 70942, § 1, 5-2-2019.)

26.08.438 Wireless support structure.

A structure, such as a monopole, tower, or building capable of supporting wireless facilities. This definition does not include utility poles. (Ord. No. 70942, § 1, 5-2-2019.)

26.08.440 Yard.

Open space between buildings and the adjoining lot line which is open to the sky unobstructed by a structure other than (1) sills, belt courses and ornamental features not to exceed 4 inches; (2) that portion of cornices or roof overhang and fixed awnings that is 3 feet or less (except that, when a yard is required, cornices, roof overhang and fixed awnings shall not be any closer to any lot line than 2 feet); (3) that portion of open fire escapes, unenclosed porches or balconies that 3 feet or less (except that, when a yard is required, open fire escapes, unenclosed porches or balconies shall not be any closer to any lot line than 3 feet); and (4) ordinary projection of chimneys and pilasters when placed so as not to obstruct light and ventilation. (1994 C., § 26.08.440; Ord. No. 62588, § 2(part), 1992.)

26.08.450 Yard, front.

A yard measured across the width of the entire lot and situated between the front lot line and the nearest portion of the main building other than steps, unenclosed balconies or unenclosed porches. (1994 C., § 26.08.450; Ord. No. 62588, § 2(part), 1992.)

26.08.460 Yard, rear.

A yard measured between the side lot lines, the rear lot line and the nearest portion of the main building other than steps, unenclosed balconies or unenclosed porches. (1994 C., § 26.08.460; Ord. No. 62588, § 2(part), 1992.)

26.08.470 Yard, side.

A yard measured between the side line of the lot and the main building or any projection thereof and extending from the front yard to rear yard. (1994 C., § 26.08.470; Ord. No. 62588, § 2(part), 1992.)

26.08.480 Zoning Administrator.

A position created within the Department of Public Safety and appointed by the Building Commissioner. The position is responsible for administering and enforcing the Zoning Code, in accordance with Chapter 26.88. (1994 C., § 26.08.480; Ord. No. 62588, § 2(part), 1992.)

Chapter 26.12

ZONING DISTRICTS AND BOUNDARIES

Chapters:

26.12.010 Districts established.

26.12.020 District map.

26.12.030 Boundary lines.

26.12.010 Districts established.

In order to regulate and restrict the location and use of buildings and use of land intended for trades, industries, residences or other purposes, to regulate and limit the intensity of the use of lots and the density of population, and to regulate and determine the size of yards, courts and other open spaces within and surrounding buildings, the City is hereby divided into districts of which there shall be twelve (12) in number, known as:

A. Single-family dwelling district. (See Chapter 26.20.)

B. Two-family dwelling district. (See Chapter 26.24.)

C. Multiple-family dwelling district. (See Chapter 26.28.)

D. Multiple-family dwelling district. (See Chapter 26.32.)

E. Multiple-family dwelling district. (See Chapter 26.36.)

F. Neighborhood commercial district. (See Chapter 26.40.)

G. Local commercial and office district. (See Chapter 26.44.)

H. Area commercial district. (See Chapter 26.48.)

I. Central business district. (See Chapter 26.52.)

J. Industrial district. (See Chapter 26.56.)

K. Unrestricted district. (See Chapter 26.60.)

L. Jefferson Memorial district. (See Chapter 26.64.)

(1994 C., § 26.12.010; Ord. No. 59979, § 4(part), 1986.)

26.12.020 District map.

The boundaries of the districts are those shown upon the map designated as the "district map," approved by the Board of Aldermen as part of the Zoning Code, as certified by the signatures of the President and the Clerk of the Board of Aldermen thereon, and filed in the office of the Building Commissioner or such other office or department of the City as may be hereafter provided by ordinance. Said district map and all notations, references and other information shown thereon are a part of the Zoning Code and have the same force and effect as if the district map and all notation, references and other information shown thereon were fully set forth or described in this Code. (1994 C., § 26.12.020; Ord. No. 59979, § 4(part), 1986.)

26.12.030 Boundary lines.

When uncertainty exists with respect to the boundaries of the various districts as shown on the aforesaid district map, the following rules will apply:

A. The district boundaries are either streets or alleys unless otherwise shown. Where the designation on the said district map indicating the various districts are approximately bounded by street or alley lines, the street or alley shall be construed to be boundary of such district.

B. Where the district boundaries are not street or alley lines, and the property has been subdivided into blocks and lots the district boundary lines shall be considered as the rear lot line on all interior lots; provided, however, that at corners of intersecting streets where lots front on the intersecting street the district boundary line shall be considered to extend for a distance of one hundred (100) feet from the corner along the intersecting street.

C. In all other cases the district boundary lines on the said district map shall be determined by use of the scale contained on such district map. (1994 C., § 26.12.030; Ord. No. 59979, § 4(part), 1986.)

City Counselor Ops.: 8600, 9784, 10197

Cases:

This case pertains to the establishment of a nonconforming use and the plaintiff' s attempt to enjoin the enforcing of a zoning classed as residential *Glencoe Lime and Cement Company vs. the City of St. Louis,* 108 S.W. 2d 143 (1937).

Zoning ordinance held not invalid because the district near the complainant's property was one in which the use prohibited to complainant's property was permitted. *Geneva Investment Company v. City of St. Louis,* 87 F. 2d 83, certiorari denied, 301 U.S. 692, 57 S. Ct. 795, 81 L. Ed. 1348 (1937).

Spot zoning ordinance amending general zoning laws by classifying a mortuary as being in a commercial instead of residential district held arbitrary and void. *Mueller vs. C Hoffmeister Undertaking and Livery Company,* 343 Mo. 430, 121 S.W. 2d 775.

Classification of property in zoning ordinance must not be arbitrary or unreasonable and must have some reference to objection state in the law. *City of St. Louis vs. Friedman,* 216 S.W. 2d 475 (1949).

Statute permitting zoning and zoning ordinance enacting under statute by City of St. Louis were valid exercises of police power. *Wippler vs. Hone,* 110 S.W. 2d 409 (1938).

Chapter 26.16

GENERAL ZONING REGULATIONS

Sections:

26.16.010 Uses prohibited.
26.16.020 Structures prohibited.
26.16.030 Open storage prohibited.
26.16.040 Comprehensive Sign Control Regulations.
26.16.050 Changes in nonconforming use.
26.16.060 Discontinuing nonconforming use.
26.16.065 Changes in nonconforming residential buildings.
26.16.070 Damage to nonconforming building.
26.16.080 Off-street parking and loading requirements.
26.16.085 Bicycle parking requirements.
26.16.090 Outdoor drive-in theater in A, B, C, D and E zones.

26.16.010 Uses prohibited.

No structure or land shall be used for a use other than those permitted in the district in which such premises are located unless such use is permitted by other provisions of the Zoning Code. (1994 C., § 26.12.010; Ord. No. 60163, § 1(part), 1986; Ord. No. 59979, § 5(part), 1986.)

26.16.020 Structures prohibited.

No structure shall be erected, placed, enlarged or structurally altered unless such action shall make the premises upon which it shall stand conform to the regulations for the district in which the premises are located, unless authorized by other provisions of the Zoning Code. (1994 C., § 26.12.020; Ord. No. 60163, § 1(part), 1986; Ord. No. 59979, § 5(part), 1986.)

26.16.030 Open storage prohibited.

The use of land within any dwelling district for the purpose of open storage is hereby prohibited. (1994 C., § 26.12.030; Ord. No. 60163, § 1(part), 1986; Ord. No. 59979, § 5(part), 1986.)

26.16.040 Comprehensive Sign Control Regulations.

See Chapter 26.68. (1994 C., § 26.12.040; Ord. No. 60163, § 1(part), 1986; Ord. No. 59979, § 5(part), 1986.)

26.16.050 Changes in nonconforming use.

If no structural alterations are made, nonconforming use of a building may be changed to another nonconforming use of the same or a more restricted classification. (1994 C., § 26.12.050; Ord. No. 60163, § 1(part), 1986; Ord. No. 59979, § 5(part), 1986.)

26.16.060 Discontinuing nonconforming use.

In the event a nonconforming use of any structure or premises is discontinued or its normal operation stopped for a period of one (1) year, the use of the same thereafter shall conform to the regulations of the district in which it is located. (1994 C., § 26.12.060; Ord. No. 60163, § 1(part), 1986; Ord. No. 59979, § 5(part), 1986.)

26.16.065 Changes in nonconforming residential buildings.

A nonconforming residential building may be repaired, renovated, rehabilitated, restored, reconstructed or otherwise altered, except that such repair or other alteration shall not create additional nonconformity or increase the degree of existing nonconformity of all or any part of such building and further except that no nonconforming element may be added to a building or grounds that such was an original element of the building if it was not an element of the building at the time of the permit application. (1994 C., § 26.12.065; Ord. No. 60163, § 1(part), 1986; Ord. No. 59979, § 5(part), 1986.)

26.16.070 Damage to nonconforming building.

In the event any nonconforming building has been damaged by fire, explosion or other disaster to the extent of sixty percent (60%) or less of its physical value, it may be restored within twelve (12) months, except that when such restoration becomes involved in litigation the time required for such litigation shall not be counted as a part of the twelve (12) months allowed for restoration. When damaged to the extent of more than sixty percent (60%), it may be restored as a conditional use, subject to the provisions of Section 26.80.010. (1994 C., § 26.12.070; Ord. No. 60163, § 1(part), 1986; Ord. No. 59979, § 5(part), 1986.)

26.16.080 Off-street parking and loading requirements.

A. All hereafter erected buildings shall provide off-street parking and off-street loading facilities in accordance with district regulations. When provided as a combined facility serving two (2) or more buildings or occupancies, such parking facilities shall have an area not less than the total of the separate requirements of each building or occupancy served thereby. Where buildings contain mixed occupancies, the parking and loading facilities shall be provided for each occupancy in accordance with the percentage of area in the building so occupied. Whenever the application of the district regulations results in the requirement of a fraction of a parking space, a whole parking space shall be provided for such fraction. Existing off-street parking or loading facilities shall not hereafter be reduced in size below the requirements of the applicable district regulations.

B. Off-street parking and loading facilities shall not be required of any existing structure or occupancy. No existing structure shall be hereafter used in a manner which will increase the number of off-street parking or loading spaces required under the applicable district regulations, unless space be provided equal to the net increase in such required facilities resulting from alteration, conversion, change in use or increase in total dwelling units.

C. 1. Off-street parking or off-street loading areas in any dwelling district shall not extend beyond the building line or into the front yard area. When provided in non-dwelling districts, it may occupy any open land, including front yards, but no parking structure shall extend beyond the building line in any district. The parking space provided shall be paved with bituminous concrete or equivalent surfacing, clearly marked, and contain adequate entrances and exits, and shall be kept free from dust and be used only for parking. When lighted for nighttime use, no light shall be permitted to cast its light upon any dwelling nearby.

2. Notwithstanding the provisions of Subsection C.1 of this section, vehicles may be parked at anytime on a driveway which is paved with bituminous concrete or equivalent surfacing which is directly connected to a parking or storage structure.

3. Parking on a driveway under the provisions of Subsection C.2 of this section for a period of more than five (5) continuous days is prohibited.

D. The following schedule of parking spaces and layout standards shall apply to all parking facilities provided in the City:

	Angle of parking (in degrees)			
	30	**45**	**60**	**90**
Depth of parking row (in feet)	16	17	17	18
Width—Parking space (in feet)	8.5	8.5	8.5	8.5
Width—Aisle (in feet)	11	13	18	22

Parallel parking spaces shall be at least twenty-two (22) feet in length, and eight (8) feet in width.

E. All parking required in any dwelling district unless otherwise stated in the district regulations shall be located in the main building, in any accessory build-

ing, on the lot occupied by the main building or, except in the A single-family dwelling district and B two-family dwelling district, on an alternative site provided the following conditions are met:

1. Required off-street parking in any dwelling district may be provided as a conditional use on property other than that occupied by the main building; provided that the property on which the parking is located is in the same possession, either by deed, by easement or by long-term lease which has a life or term equal to or exceeding the life of the building occupied by the principal use and in no case less than ninety-nine (99) years, and, further, provided that the parking will be located in an equally or less restricted zoning district. Proof of such deed, easement or long-term lease including covenants which bind the owner and his heirs or assigns to maintain the required number of off-street parking spaces during the existence of the principal use shall be required to be filed with the Zoning Administrator and the City Assessor's Office. At any time that the main building is rendered useless, or if an alternative site, which is just as suitable for off-site parking, becomes available, the Zoning Administrator may allow the recession of the covenant or long-term lease.

2. The off-street parking space(s) shall be provided at a location within a walking distance of one hundred fifty (150) feet of the lot of the main use and shall be accessible by pedestrians. The distance shall be measured from the nearest point of access of the lot occupied by the principal use and the nearest point of the parking space. (1994 C., § 26.12.080; Ord. No. 64054, § 2, 1997; Ord. No. 60163, § 1(part), 1986; Ord. No. 59979, § 5(part), 1986.)

26.16.085 Bicycle parking requirements.

A. *Bicycle Rack Construction Requirements.*

1. Bicycle racks shall be made of steel tubing one (1) inch to four (4) inches thick, containing two (2) locking points between one (1) feet and three (3) feet off the ground and a gap near the bottom for pedal clearance, enabling one to lock a bicycle frame and one of the wheels with a standard U-Lock.

2. A bicycle rack must be able to accommodate two (2) bicycles in an upright position. Bicycle racks that support the wheel but not the frame of the bike shall not be used to fulfill a bicycle parking requirement.

3. All creative design racks shall be capable of securing two (2) standard bicycles. The creative design rack shall provide a minimum of two points of contact with the bicycle. The design of a creative rack, including the installation details, shall be reviewed and approved by the Building Commissioner.

4. All bicycle racks shall be securely anchored to the ground or building structure.

B. *Bicycle Rack Site Requirements.*

1. Bicycle racks installed pursuant to and required under this section shall be installed on private property. Bicycle racks installed in public streets or alleys require separate approval from the Streets Department and an encroachment permit from the Board of Public Service and shall not be used to fulfill a bicycle rack site requirement.

2. Bicycle rack shall be at least three (3) feet from any curb, so as not to impede ingress and egress to and from parked vehicles.

3. Bicycle racks shall be at least two (2) feet from the nearest building. Bicycle racks shall allow at least five (5) feet of American Disabilities Act compliant clearance on one or both sides of the rack.

4. Bicycle rack shall be at least two (2) feet from other objects, including, but not limited to, utility vaults, fire hydrants, and street lights.

5. Bicycle rack shall be at least five (5) feet from curb cuts and accessibility ramps.

6. Bicycle rack, including attached bicycle, shall maintain a minimum four (4) feet of unobstructed walkway for pedestrian traffic at all times.

7. Bicycle racks shall not be located directly in front of an exit or entrance of a building.

8. Bicycle racks shall be located in well-lighted, highly visible areas to minimize theft and vandalism.

9. Bicycle racks shall be located no further from the building than the nearest automobile spaces, other than those spaces for persons with disabilities.

10. Safe and convenient means of ingress and egress to bicycle parking facilities shall be provided.

11. Bicycle rack area shall not interfere with accessible paths of travel or accessible parking as required by the Americans with Disabilities Act of 1990, as amended.

12. When a bicycle rack is installed adjacent to another bicycle rack, an aisle separating the racks, with a minimum four (4) feet of clearance measured from tip to tip of bike tires, shall be provided.

13. Bicycle parking spaces adjacent to automobile parking shall be located so as to protect bicycles from damage.

14. In cases where bicycle parking spaces are not visible from the primary street, signage shall be used to direct cyclists safely to the bicycle parking spaces.

15. Indoor bicycle racks provided pursuant to Section 26.16.085(D)(3) shall only be required to meet the construction and site requirements of Subsections A.1 and 4 and B.8, 10, 11 and 13 of this section. In addition, if such racks are installed on a wall of a structure, the bottom of the rack shall not be more than three (3) feet off the ground.

16. In parking lots and parking garages, physical barriers, such as posts or bollards, shall be provided so as to prevent a motor vehicle from striking a parked bicycle.

C. *Bicycle Parking Requirement.* Bicycle racks shall be required in the City of St. Louis for the following actions requiring issuance of a building permit: all new construction and renovations equal to or in excess of $1,000,000. Bicycle racks shall be provided in accordance with the following tables. When calculating the minimum number of bicycle racks required results in a fractional number, a fraction more than one half 1/2) shall be rounded to the next highest whole number:

1. *Multi-Unit Residential.*

Number of Dwelling Units	Required Number of Minimum Bicycle Parking Racks
Less than 12	0
12 or more	1 per every 6 dwelling units

2. *Nonresidential.*

Gross Floor Area	Required Number of Minimum Bicycle Parking Racks
0—6,000 sq. ft.	1
6,001—10,000 sq. ft.	2
Over 10,000 sq. ft.	1 per every additional 10,000 sq. ft.

3. *Industrial and Hotel/Motel.*

Number of Employees	Required Number of Minimum Bicycle Parking Racks
0—20	0
21—50	1
Over 51	1 per every 50 employees

D. *Exemptions.*

1. This section shall not require in excess of twenty (20) bicycle parking racks for any property.

2. The following uses are exempted from the above requirements: funeral homes and mortuaries; car washes and automobile repair shops.

3. In the "I" Central Business District bicycle parking shall not be required, pursuant to Subsections C.1 through 3 of this section. However, if off-street automobile parking is provided, a minimum of one bicycle rack per every twenty off-street automobile parking spaces, or fraction thereof, shall be provided. The required bicycle parking may be provided within an enclosed structure, and shall not be required to be accessible to the general public.

E. *Off-Street Parking Reduction for Bicycle Parking.* The total number of vehicle off-street parking spaces required under the Zoning Code shall be reduced at the ratio of one (1) automobile off-street parking space for each one (1) bicycle space provided. The total number of required automobile off-street parking spaces, however, shall not be reduced by more than ten (10) percent for any newly developed or rehabilitated structure. (1994 C., § 26.12.085; Ord. No. 69148, § 2, 4-4-2012)

26.16.090 Outdoor drive-in theater in A, B, C, D and E zones.

A. No person, firm or corporation shall hereafter establish locate, maintain, and operate an outdoor drive-in theater within eight hundred (800) feet of a district zoned A, B, C, D and E under the Zoning Code of the City.

B. No official or employee of the City shall issue or cause to be issued a certificate of occupancy, license or building permit for the establishment, location, maintenance or operation of an outdoor drive-in theater within eight hundred (800) feet of a district zoned A, B, C, D and E under the Zoning Code of the City.

C. This section shall not be construed to prohibit the operation and maintenance of an outdoor drive-in theater which is established and operating at the time of the passing of this Zoning Code. (1994 C., § 26.12.090; Ord. No. 60163, § 1(part), 1986; Ord. No. 59979, § 5(part), 1986.)

Editor's Note:

Sections 26.16.140 through 26.16.190, added by Ord. 56052, were repealed by Ord. 60163.

Chapter 26.20

"A" SINGLE-FAMILY DWELLING DISTRICT

Prior ordinance history: Ord. 59979

26.20.010 District regulations.

The regulations set forth in this Chapter are the district regulations in the "A" Single-Family Dwelling District. (1994 C., § 26.20.010; Ord. No. 70942, § 2, 5-2-2019; Ord. No. 70555, § 1(26.20.010), 6-17-2017; Ord. No. 62588, § 3(part), 1992.)

26.20.020 Use regulations.

A building or premises shall be used only for the following purposes:

A. Single-family dwellings. Any dwelling is so defined as a single-family residence because it is a house in which eight (8) or fewer unrelated mentally or physically handicapped persons reside, and may also include two (2) additional persons acting as house parents or guardians who need not be related to each other or to any of the mentally or physically handicapped person residing in the home may not be within 1,250 feet of another such home or dwelling.

B. Two-family dwellings which comply with the area and parking regulations of the "B" Two-Family Dwelling District where forty (40) percent or more of the frontage of a street is occupied by either two-family, semi-detached two-family or multiple-family dwellings;

C. Home occupations, subject to the provisions of Section 26.80.060;

D. Publicly owned parks, playgrounds and libraries and privately-owned parks and playgrounds wherein no service is rendered, or activities conducted, as a business;

E. Accessory dwelling unit, attached that meets the site requirements of 26.02.021.

F. Accessory dwelling unit, detached that meets the site requirements of 26.20.021.

G. Accessory structures and uses customarily incidental to any of the above uses except that, if the accessory structure is a garage, it shall only be a private garage that is located not less than sixty (60) feet from the front line nor less than four (4) feet from any side lot line nor exceeding twelve (12) feet in height nor more than five (5) feet from the rear lot line nor less than ten (10) feet from the rear of the dwelling and the wall of the accessory structure closest to the dwelling.

H. Temporary buildings for use incident to construction work, which buildings shall be removed upon the completion or abandonment of the construction;

I. Signs—See Chapter 26.68.

J. Babysitting center, but no more than one (1) on either side of the street in the same block.

K. Churches.

L. Any use that is exempted from this Zoning Code by State or federal law.

(1994 C., § 26.20.020; Ord. No. 72036, § 2, 7-11-2025; Ord. No. 70942, § 5, 5-2-2019; Ord. No. 70555, § 1(26.20.020), 6-17-2017; Ord. No. 64868, § 3, 2000; Ord. No. 62588, § 3(part), 1992.)

Cases:

> Group homes are required to apply to City Board of Adjustment before claiming that City failed to accommodate homes as required by Fair Housing Act. *Oxford House-C v. City of St. Louis,* 77 F.3d 249 (8th Cir. 1996).

26.20.021 Site requirements for accessory dwelling units.

A. All accessory dwelling units shall comply with the following site requirements:

1. *Parking.*

a. Off-street parking shall not be required of an accessory dwelling unit.

b. Adding an accessory dwelling unit to any parcel, shall not remove the primary dwelling unit(s)' required off-street parking.

2. *Height.*

a. The height shall not exceed twenty-five (25) feet.

3. *Area.*

a. An accessory dwelling unit may be up to fifty (50) percent of the area of the largest primary dwelling unit on the parcel or seven hundred fifty (750) square feet, whichever is greater.

b. An accessory dwelling unit shall be no more than one thousand two hundred (1,200) square feet.

4. *Density of population.*

a. Only one (1) accessory dwelling unit shall be permitted, per parcel.

b. Adding an accessory dwelling unit shall not change the density regulations for the primary use.

5. *Setbacks.*

a. An accessory dwelling unit shall not be constructed beyond the average front yard line, so established by the frontage.

b. An accessory dwelling unit must be at least three (3) feet from any side lot line.

B. Detached accessory dwelling units shall comply with the following additional site requirements:

1. *Setbacks.*

a. A detached accessory dwelling unit may not be less than ten (10) feet from the rear of the dwelling and the wall of the accessory structure closest to the dwelling.

2. *Nonconforming structure.*

a. The addition of an accessory dwelling unit, to an existing foundation of or above a nonconforming accessory structure or garage, shall be permitted.
(Ord. No. 72036, § 3, 7-11-2025.)

26.20.025 Conditional uses.

The following conditional uses may be allowed in the "A" Single-Family Dwelling District, subject to the provisions of Chapter 26.80:

A. Bed and breakfast guesthouse, subject to the additional provisions of Chapter 8.25;

B. Bed and breakfast homestay, subject to the additional provisions of Chapter 8.25;

C. Cemeteries;

D. Reserved;

E. Farming and truck gardening;

F. Governmental buildings;

G. Greenhouses, providing no product is sold on the premises;

H. Hospitals;

I. Off-street automobile parking facilities;

J. Parking facilities and open lots located between the front yard and the structure;

K. Publicly owned museums and art galleries;

L. Schools;

M. Utility stations and utility towers. (1994 C., § 26.20.025; Ord. No. 70942, § 5, 5-2-2019; Ord. No. 70555, § 1(26.20.025), 6-17-2017; Ord. No. 62588, § 3(part), 1992.)

26.20.030 Parking for multiple dwellings.

Dwellings shall provide space in the main building, in an accessory building, or on the lot occupied by the main building, sufficient to accommodate one (1) motor car for each dwelling unit. (1994 C., § 26.20.030; Ord. No. 70942, § 2, 5-2-2019; Ord. No. 70555, § 1(26.20.030), 6-17-2017; Ord. No. 62588, § 3(part), 1992.)

26.20.035 Parking for hospitals.

Any hospital shall provide parking space within 500 feet of the main building sufficient to accommodate 1 parking space for every 2 beds, plus 1 space for every doctor on the maximum shift. (1994 C., § 26.20.035; Ord. No. 70942, § 2, 5-2-2019; Ord. No. 70555, § 1(26.20.035), 6-17-2017; Ord. No. 62588, § 3(part), 1992.)

26.20.040 Parking for places of assembly.

Any arena, auditorium, meeting room, or other structure used principally as a place of public assembly, shall provide parking space within 1,000 feet of the main building or structure sufficient to accommodate 1 parking space for every 3 seats based on maximum seating capacity, except as noted herein.

A. Any athletic field or diamond used principally as a place of public recreation shall provide parking space sufficient to accommodate 10 parking spaces for every diamond or athletic field, or 1 space for every 4 seats, whichever is greater (1 seat is equal to 2 feet of bleacher length).

B. Any gymnasium without bleachers or fixed seating shall provide parking space sufficient to accommodate 1 parking space for every 150 square feet of floor area.

C. Any church shall provide parking space sufficient to accommodate 1 parking space for every 4 seats (1 seat equals 2 feet of bench or pew length).

D. Any school, public or private, including vocational/technical schools shall provide parking space sufficient to accommodate 1 parking space for every classroom and office, plus 1 space for every 5 students over 16 years of age. (1994 C., § 26.20.040; Ord. No. 70942, § 2, 5-2-2019; Ord. No. 70555, § 1(26.20.040), 6-17-2017; Ord. No. 62588, § 3(part), 1992.)

26.20.050 Height regulations.

No building hereafter erected shall exceed 2½ stories or 35 feet in height unless two side yards of not less than 10 feet in width are provided, in which case a building may not exceed 3 stories or 45 feet in height. Any church, school or governmental building may be erected to a height not exceeding 85 feet, provided that front and rear yards are increased in depth and the side yards are increased in width beyond the area regulations 1 foot for each foot of height that the building exceeds 35 feet. (1994 C., § 26.20.050; Ord. No. 70942, § 2, 5-2-2019; Ord. No. 70555, § 1(26.20.050), 6-17-2017; Ord. No. 62588, § 3(part), 1992.)

26.20.060 Front yard.

When 25 percent of any frontage within the district is improved with dwellings and a majority of such improved frontage has observed a front yard line with a variation in depth of not more than 6 feet, no building hereafter constructed shall project beyond the average front yard line so established except that in no event shall the front yard line be greater than 50 feet. In all other cases, there shall be a front yard line of not less than 25 feet. Through lots shall have a front yard on each street in accordance with this section. On corner lots the frontage shall be on that side of a street on which interior lots have been platted. No accessory building shall project beyond such front yard line. (1994 C., § 26.20.060; Ord. No. 70942, § 2, 5-2-2019; Ord. No. 70555, § 1(26.20.060), 6-17-2017; Ord. No. 62588, § 3(part), 1992.)

26.20.070 Side yard.

There shall be provided a side yard of not less than four (4) feet in width on each side of a building, and the total width of both side yards shall be not less than ten (10) feet; provided, however, that lots of record prior to the effective date of this Zoning Code having a width of less than (40) feet, may reduce the total side yard width by an amount equal to one-half (½) the difference between the width of such lot and forty (40) feet, but in no case shall either side yard be less than three (3) feet in width. (1994 C., § 26.20.070; Ord. No. 70942, § 2, 5-2-2019; Ord. No. 70555, § 1(26.20.070), 6-17-2017; Ord. No. 62588, § 3(part), 1992.)

26.20.080 Rear yard.

There shall be a rear yard of not less than 25 feet in depth. (1994 C., § 26.20.080; Ord. No. 70942, § 2, 5-2-2019; Ord. No. 70555, § 1(26.20.080), 6-17-2017; Ord. No. 62588, § 3(part), 1992.)

26.20.090 Density of population.

Except as provided in Section 26.20.020(B), there shall be a lot area of not less than two thousand (2,000) square feet for each dwelling unit. Lots of record prior to the effective date of Ordinance 45309 may be used for one (1) single-family dwelling provided the yard regulations of this section are complied with.
(1994 C., § 26.20.090; Ord. No. 72027, § 1, 7-11-2025; Ord. No. 70942, § 2, 5-2-2019; Ord. No. 70555, § 1(26.20.090), 6-17-2017; Ord. No. 64868, § 4, 2000; Ord. No. 62588, § 3(part), 1992.)

Chapter 26.24

"B" TWO-FAMILY DWELLING DISTRICT

City Counselor Ops.: 7764, 8518, 9406, 10169, 10197

Sections:

26.24.010 District regulations.
26.24.020 Use regulations.
26.24.025 Conditional uses.
26.24.030 Parking regulations.
26.24.040 Height regulations.
26.24.050 Front yard.
26.24.060 Side yard.
26.24.070 Rear yard.
26.24.080 Density of population.

26.24.010 District regulations.

The regulations set forth in this Chapter or set forth elsewhere in the Zoning Code when referred to in this Chapter are the district regulations in the "B" Two-Family Dwelling District. (1994 C., § 26.24.010; Ord. No. 59979, § 7(part), 1986.)

26.24.020 Use regulations.

A building or premises shall be used only for the following purposes:

A. Any use permitted in the "A" Single-Family Dwelling District;

B. Two-family dwellings;

C. Semi-detached two-family dwellings or multiple-family dwellings for not more than four families, which comply with the area and parking regulations of the "C" Multiple-Family Dwelling District, where 40 percent or more of the frontage of a street is occupied by semi-detached two-family or multiple-family dwellings;

D. Conversion town houses;

E. Accessory structures and uses customarily incidental to any of the above uses;

F. Temporary buildings for use incident to construction work, which buildings shall be removed upon the completion or abandonment of the construction.

G. Small wireless facility unless prohibited by federal law, federal regulation or a federal agency.

H. Micro wireless facility unless prohibited by federal law, federal regulation or a federal agency. (1994 C., § 26.24.020; Ord. No. 70942, § 3, 5-2-2019; Ord. No. 64868, § 5, 2000; Ord. No. 59979, § 7(part), 1986.)

City Counselor Ops.: 8317, 8318

Cases:

Board did not abuse its discretion in allowing hotel usage in two family dwelling zone. *Beckmeyer v. Beu,* 367 S.W. 2d 9 (1963.)

26.24.025 Conditional uses.

The conditional uses are the same as those in the "A" Single-Family Dwelling District. (1994 C., § 26.24.025; Ord. No. 59979, § 7(part), 1986.)

26.24.030 Parking regulations.

The parking regulations are the same as those in the "A" Single-Family Dwelling District. (1994 C., § 26.24.030; Ord. No. 59979, § 7(part), 1986.)

26.24.040 Height regulations.

The height regulations are the same as those in the "A" Single-Family Dwelling District, except that any church, school, or governmental building may be erected to a height not exceeding eighty-five (85) feet, provided that the side yards are increased in width beyond the area regulations one (1) foot for each three (3) feet of height that the building exceeds thirty-five (35) feet. (1994 C., § 26.24.040; Ord. No. 59979, § 7(part), 1986.)

26.24.050 Front yard.

The front yard regulations are the same as those in the "A" Single-Family Dwelling District. (1994 C., § 26.24.050; Ord. No. 59979, § 7(part), 1986.)

City Counselor Ops.: 8317

26.24.060 Side yard.

The side yard regulations are the same as those in the "A" Single-Family Dwelling District; provided, however, that any structure having two (2) or more dwelling units the principal entrance of which opens upon a side yard and does not face an abutting street shall provide on each side of the building a side yard having a width of not less than eight (8) feet. (1994 C., § 26.24.060; Ord. No. 59979, § 7(part), 1986.)

26.24.070 Rear yard.

The rear yard regulations are the same as those in the A single-family dwelling district. (1994 C., § 26.24.070; Ord. No. 59979, § 7(part), 1986.)

26.24.080 Density of population.

A. Single-family dwellings shall have a lot area of not less than two thousand (2,000) square feet, except that lots of record prior to the effective date of Ordinance 45309 may be used for one (1) single-family dwelling provided the yard regulations of this section are complied with. Other dwellings, except as provided in Section 26.24.020(C), shall have a lot area of not less than one thousand, two hundred fifty (1,250) square feet for each dwelling unit.

B. Conversion town houses dwellings shall not be required to have minimum lot area.
(1994 C., § 26.24.080; Ord. No. 72027, § 1, 7-11-2025; Ord. No. 64868, § 6, 2000; Ord. No. 59979, § 7(part), 1986.)

Chapter 26.28

"C" MULTIPLE-FAMILY DWELLING DISTRICT

Prior ordinance history: Ords. 60483 and 59979

Sections:

26.28.010 District regulations.
26.28.020 Use regulations.
26.28.025 Conditional uses.
26.28.030 Parking regulations.
26.28.040 Parking space.
26.28.050 Height regulations.
26.28.060 Front yard area.
26.28.070 Side yard.
26.28.080 Rear yard.
26.28.090 Density of population.

26.28.010 District regulations.

The regulations set forth in this Chapter or set forth elsewhere in the Zoning Code when referred to in this Chapter are the district regulations in the "C" Multiple-Family Dwelling District. (1994 C., § 26.28.010; Ord. No. 62588, § 4(part), 1992.)

26.28.020 Use regulations.

A building or premises shall be used only for the following purposes:

A. Any use permitted in the "B" Two-Family Dwelling District;

B. Town houses that front wholly and directly upon a public street;

C. Multiple-family dwellings;

D. Parks or playgrounds;

E. Accessory structures and uses customarily incidental to any of the above uses;

F. Temporary buildings for use incident to construction work, which buildings shall be removed upon the completion or abandonment of the construction. (1994 C., § 26.28.020; Ord. No. 62588, § 4(part), 1992.)

26.28.025 Conditional uses.

The following conditional uses may be allowed in the "C" Multiple-Family Dwelling District, subject to the provisions of Section 26.28.010:

A. Any uses eligible to be a conditional use in the "B" Two-Family Dwelling district;

B. Bed and breakfast inn, subject to the additional provisions of Chapter 8.25;

C. Day care centers;

D. Town houses where one or more dwelling units front wholly or partially on a private place or upon a court-yard or way through which the owner of the town house dwelling unit has legally guaranteed ingress and egress to a public street or private place. (1994 C., § 26.28.025; Ord. No. 62588, § 4(part), 1992.)

26.28.030 Parking regulations.

The parking standards in "A" Single-Family Dwelling District shall apply, except as modified by Section 26.28.010. (1994 C., § 26.28.030; Ord. No. 62588, § 4(part), 1992.)

26.28.040 Parking space.

Each new multiple-family dwelling shall provide parking space sufficient to accommodate one motor car for each one dwelling unit. Each rehabilitated or reconstructed dwelling shall provide parking space sufficient to accommodate three motor cars for each four dwelling units. Notwithstanding the foregoing two sentences, in the case of multiple-family dwelling constructed exclusively for occupancy by elderly or blind or other physically handicapped person and structurally designed in accordance with specific Federal Housing Administration requirements for such dwellings, the required amount of parking is reduced from the specified ratio by 40 percent if adequate space is provided in the dwelling, in an accessory building, or on the lot to ensure that parking space as otherwise required by zoning district regulations will be available in the event of a change in occupancy. No such parking space, including any interior aisle of any parking lot shall extend into any minimum required rear or side yard area. (1994 C., § 26.28.040; Ord. No. 62588, § 4(part), 1992.)

26.28.050 Height regulations.

Dwelling and accessory structures may not exceed a height of three stories and 45 feet, unless 40 percent or more of the dwellings or accessory structures having the same frontage are higher, in which case a height equal to or less than that greatest height may be used. Any church, school, governmental building or hospital may be erected to a height not exceeding 85 feet, providing the side yards are increased in width beyond the area regulations 1 foot for each 3 feet of height that the buildings exceeds 35 feet. (1994 C., § 26.28.050; Ord. No. 62588, § 4(part), 1992.)

26.28.060 Front yard area.

A. When 25 percent of a frontage within the district is improved with dwellings and a majority of such improved frontage has observed a front yard line with a variation in depth of not more than 6 feet, no building hereafter constructed shall project beyond the average front yard line so established, except that in no event shall the front yard line be greater than 50 feet. If less than 25 percent of such frontage is developed, then a front yard line for such frontage shall be the same as that for any other frontage located within two City blocks, as designated by house numbers in any direction from the site. If no such precedent is available, then the front yard line shall be a minimum of 10 feet, but may not be required to exceed 25 feet from the lot line at the front of the lot.

B. Notwithstanding the preceding paragraph, no front yard shall be required to exceed the average depth of the front yard line in either of the lots abutting, and no front yard line shall be required to be greater than 50 feet from the front lot line. (1994 C., § 26.28.060; Ord. No. 62588, § 4(part), 1992.)

26.28.070 Side yard.

A. All detached dwelling units shall provide a side yard of 4 feet on one side and may provide no side yard

on the other. All attached units shall provide a side yard of 4 feet for one end unit. The other end may provide no side yard. If a yard is provided on both sides of a detached dwelling unit or both ends of attached units, then neither such yard shall be less than 4 feet.

B. All residential accessory structures need not have a side yard except as provided in Section 26.28.080 below.

C. If a side yard of 4 feet is not provided, as permitted above, a maintenance agreement must be granted by the owner of the property abutting that side of the lot prior to zoning approval. (1994 C., § 26.28.070; Ord. No. 62588, § 4(part), 1992.)

26.28.080 Rear yard.

A. There shall be a minimum rear yard of 15 feet unless a side yard of 12 feet is provided, in which case no rear yard shall be required.

B. All residential accessory structures need not have a rear yard.

C. If, as permitted above, no rear yard is provided, a maintenance easement must be granted by the owner of the rear abutting property prior to zoning approval. (1994 C., § 26.28.080; Ord. No. 62588, § 4(part), 1992.)

26.28.090 Density of population.

A. Detached single-family dwelling shall have a lot area of not less than two thousand (2,000) square feet, except that lots of record prior to the effective date of Ordinance 45309 and new lots that equal the average density of the original platted parcels may be used for one single-family dwelling, provided the yard regulations of this section are complied with.

B. Town houses and two-family dwellings shall have a lot area of not less than one thousand (1,000) square feet for each dwelling unit therein.

C. Conversion town houses dwellings shall not be required to have a minimum lot area.

D. Multiple-family dwelling units shall have a lot area of not less than one thousand five hundred (1,500) square feet for each dwelling unit therein, or as was lawfully provided in an existing building prior to rehabilitation.

(1994 C., § 26.28.090; Ord. No. 72027, § 1, 7-11-2025; Ord. No. 62588, § 4(part), 1992.)

Chapter 26.32

"D" MULTIPLE-FAMILY DWELLING DISTRICT

McQuillin:

25.107 et seq. Multiple family dwelling districts

Sections:

26.32.010 District regulations.
26.32.015 Purpose.
26.32.020 Use regulations.
26.32.025 Conditional uses.
26.32.030 Parking regulations.
26.32.040 Reserved.
26.32.045 Parking at hotels.
26.32.050 Height regulations.
26.32.060 Front yard area.
26.32.070 Side yard.
26.32.080 Rear yard.
26.32.090 Density of population.
26.32.100 Reserved.

26.32.010 District regulations.

The regulations set forth in this chapter or set forth elsewhere in the Zoning Code when referred to in this chapter are the district regulations in the "D" Multiple-Family Dwelling District. (1994 C., § 26.32.010; Ord. No. 62183, § 2(part), 1990; Ord. No. 60483, § 1(part), 1987; Ord. No. 59979, § 9(part), 1986.)

26.32.015 Purpose.

The purpose of the "D" Multiple-Family Dwelling District is to maintain older medium density residential districts, to preserve older architectural styles while encouraging a harmonious intermingling of other structures, and to provide for an increased variety and intermixture of uses free from other uses except those both compatible and convenient to the residents of such district. (1994 C., § 26.32.015; Ord. No. 62183, § 2(part), 1990; Ord. No. 60483, § 1(part), 1987; Ord. No. 59979, § 9(part), 1986.)

26.32.020 Use regulations.

A building or premises shall be used only for the following purposes:

A. Any use permitted in the "C" Multiple-Family Dwelling District;

B. A canopy, open at the sides, may be provided in the required yard space of any building, for the shelter of persons entering such building from the street or other designated point of disembarkation from vehicles;

C. Accessory structures and uses customarily incidental to any of the above uses;

D. Temporary buildings for use incidental to construction work, which buildings shall be removed upon the completion or abandonment of the construction. (1994 C., § 26.32.020; Ord. No. 62183, § 2(part), 1990; Ord. No. 60483, § 1(part), 1987; Ord. No. 59979, § 9(part), 1986.)

26.32.025 Conditional uses.

The following conditional uses may be allowed in the "D" Multiple-Family Dwelling District subject to the provisions of Section 26.80.010:

A. Any use eligible to be a conditional use in the "C" Multiple-Family Dwelling District;

B. The following neighborhood commercial retail uses, provided that the use is confined to the first floor or basement of the main building:

1. Art galleries and studios;
2. Bakery shops;
3. Barber and beauty shops;
4. Book, magazine, and stationery stores;
5. Drug stores;
6. Dry cleaning pick-up stations (not having on-site processing);
7. Financial institutions;
8. Florists;
9. Gift shops;
10. Hardware stores;

C. Greenhouses;

D. Hotels;

E. Professional and general offices not exceeding three thousand five hundred (3,500) square feet;

F. Penal institutions;

G. Telephone, outdoor pay.

(1994 C., § 26.32.025; Ord. No. 71928, § 3, 11-19-2024; Ord. No. 64167, § 3, 1997; Ord. No. 62183, § 2(part), 1990; Ord. No. 60483, § 1(part), 1987; Ord. No. 59979, § 9(part), 1986.)

26.32.030 Parking regulations.

The parking standards in "C" Multiple-Family Dwelling District and in Sections 26.32.040 and 26.32.045 shall apply. (1994 C., § 26.32.030; Ord. No. 62183, § 2(part), 1990; Ord. No. 60483, § 1(part), 1987; Ord. No. 59979, § 9(part), 1986.)

26.32.040 Reserved.

Editor's Note:

Ord. No. 71928, § 3, approved November 19, 2024, amended the Code by repealing former 26.32.040, which pertained to parking spaces, and derived from the 1994 Code, § 26.32.040; Ord. No. 59979, § 9, of 1986; Ord. No. 60483, § 1, of 1987; and Ord. No. 62183, § 2, of 1990.

26.32.045 Parking at hotels.

Hotels shall provide parking spaces sufficient to accommodate one (1) parking space for each dwelling unit or sleeping room. (1994 C., § 26.32.045; Ord. No. 62183, § 2(part), 1990; Ord. No. 60483, § 1(part), 1987; Ord. No. 59979, § 9(part), 1986.)

26.32.050 Height regulations.

Dwellings, hotels and their accessory structures may not exceed a height of three (3) stories and forty-five (45) feet unless forty percent (40%) or more the structures having the same frontage are higher, in which case a height equal to or less than the greatest height may be used. Any church, school, governmental building or hospital may be erected to a height not exceeding eighty-five (85) feet, providing the side yards are increased in width beyond the area regulations one (1) foot for each five (5) feet of height that the building exceeds thirty-five (35) feet. (1994 C., § 26.32.050; Ord. No. 62183, § 2(part), 1990; Ord. No. 60483, § 1(part), 1987; Ord. No. 59979, § 9(part), 1986.)

26.32.060 Front yard area.

The front yard regulations are the same as those in the "C" Multiple-Family Dwelling District. (1994 C., § 26.32.060; Ord. No. 62183, § 2(part), 1990; Ord. No. 60483, § 1(part), 1987; Ord. No. 59979, § 9(part), 1986.)

26.32.070 Side yard.

A. All detached dwelling units shall provide a side yard of four (4) feet on one (1) side and may provide no side yard on the other. All attached units shall provide a side yard of four (4) feet for one (1) end unit. The other end unit may provide no side yard. If a yard is provided on both sides of a detached dwelling unit or both sides of attached units, then neither such yard shall be less than four (4) feet.

B. All residential accessory structures need not have a side yard except as provided in Section 26.32.080.

C. If a side yard of four (4) feet is not provided, as permitted above, a maintenance easement must be granted by the owner of the property abutting that side of the lot prior to zoning approval.

D. All nonresidential structures and related accessory structures not exceeding three (3) stories or thirty-five (35) feet in height shall have side yards of four (4)

feet. (1994 C., § 26.32.070; Ord. No. 62183, § 2(part), 1990; Ord. No. 60483, § 1(part), 1987; Ord. No. 59979, § 9(part), 1986.)

26.32.080 Rear yard.

The rear yard regulations are the same as those in the "C" Multiple-Family Dwelling District. (1994 C., § 26.32.080; Ord. No. 62183, § 2(part), 1990; Ord. No. 60483, § 1(part), 1987; Ord. No. 59979, § 9(part), 1986.)

26.32.090 Density of population.

A. Detached single-family dwellings shall have a lot area of not less than two thousand (2,000) square feet, except that lots of record prior to the effective date of Ordinance 45309 and new lots that equal the average density of the original platted parcels may be used for one (1) single-family dwelling, provided the yard regulations of this section are complied with.

B. Town houses and two-family dwellings shall have a lot area of not less than eight hundred fifty (850) square feet for each dwelling unit therein.

C. Conversion town house dwellings shall not be required to have a minimum lot area.

D. Multiple-family dwelling units shall have a lot area of not less than seven hundred fifty (750) square feet for each dwelling unit thereon, or as was lawfully provided in an existing building prior to rehabilitation.

E. All new commercial uses shall have a floor area ratio of not more than 1.5.

(1994 C., § 26.32.090; Ord. No. 72027, § 1, 7-11-2025; Ord. No. 71928, § 3, 11-19-2024; Ord. No. 62183, § 2(part), 1990; Ord. No. 60483, § 1(part), 1987; Ord. No. 59979, § 9(part), 1986.)

26.32.100 Reserved.

Editor's Note:

Ord. No. 71928, § 3, approved November 19, 2024, amended the Code by repealing former 26.32.100, which pertained to neighborhood density, and derived from the 1994 Code, § 26.32.100; and Ord. No. 62183, § 2, of 1990.

Chapter 26.36

"E" MULTIPLE-FAMILY DWELLING DISTRICT

McQuillin:

25.107 et seq. Multiple-family dwelling districts.

Sections:

26.36.010 District regulations.
26.36.015 Purpose.
26.36.020 Use regulations.
26.36.025 Conditional uses.
26.36.030 Parking regulations.
26.36.040 Parking at hotels.
26.36.050 Loading at hotels.
26.36.060 Height regulations.
26.36.070 Front yard areas.
26.36.080 Side yard.
26.36.090 Rear yard.
26.36.100 Density of population.

26.36.010 District regulations.

The regulations set forth in this chapter or set forth elsewhere in the Zoning Code when referred to in this chapter are the district regulations in the "E" multiple-family dwelling district. (1994 C., § 26.36.010; Ord. No. 60483, § 1(part), 1987; Ord. No. 59979, § 10(part), 1986.)

26.36.015 Purpose.

The purpose of the "E" Multiple-Family Dwelling District is to establish and preserve medium density residential districts, including some high density commercial and residential uses, free from other uses except those of such district. (1994 C., § 26.36.015; Ord. No. 60483, § 1(part), 1987; Ord. No. 59979, § 10(part), 1986.)

26.36.020 Use regulations.

A building or premises shall be used only for the following purposes:

A. Any use permitted in the "D" Multiple-Family Dwelling District;

B. Accessory structures and uses customarily incidental to any of the above uses;

C. Temporary buildings for use incident to construction work, which buildings shall be removed upon the completion or abandonment of the construction. (1994 C., § 26.36.020; Ord. No. 70812, § 1, 7-16-2018; Ord. No. 60483, § 1(part), 1987; Ord. No. 59979, § 10(part), 1986.)

26.36.025 Conditional uses.

The following conditional uses may be allowed in the "E" Multiple-Family Dwelling District, subject to the provisions of Section 26.80.010:

A. Any use eligible to be a conditional use in the "D" Multiple-Family Dwelling District;

B. Bakery shops;

C. Barber and beauty shops;

D. Book, magazine, and stationery stores;

E. Butcher shops;

F. Convenience stores;

G. Dry cleaning pick-up stations (no on-site processing);

H. Dry goods shops;

I. Drug stores;

J. Financial institutions;

K. Florists;

L. Funeral parlors;

M. General offices;

N. Gift shops;

O. Grocery and other retail stores not exceeding three thousand five hundred (3,500) square feet;

P. Hardware stores;

Q. Hobby and toy shops;

R. Pet shops;

S. Professional offices;

T. Similar neighborhood commercial uses. (1994 C., § 26.36.025; Ord. No. 69395, § 2, 2-14-2013; Ord. No. 60483, § 1(part), 1987; Ord. No. 59979, § 10(part), 1986.)

26.36.030 Parking regulations.

The parking standards in "D" Multiple-Family Dwelling District, except as modified by Sections 26.36.040 and 26.36.050, shall apply. (1994 C., § 26.36.030; Ord. No. 60483, § 1(part), 1987; Ord. No. 59979, § 10(part), 1986.)

26.36.040 Parking at hotels.

Hotels shall provide parking space within five hundred (500) feet of the main building sufficient to accommodate one (1) motor car for each dwelling unit, and one (1) motor car for each four (4) sleeping rooms. (1994 C., § 26.36.040; Ord. No. 60483, § 1(part), 1987; Ord. No. 59979, § 10(part), 1986.)

26.36.050 Loading at hotels.

Hotels shall provide one (1) loading space of adequate width, length and height to accommodate commercial vehicles servicing such building, which loading space shall be off the streets and alleys. One (1) additional such loading space shall be provided for each additional one hundred thousand (100,000) square feet of floor space in excess of the first one hundred thousand (100,000) square feet of floor space. (1994 C., § 26.36.050; Ord. No. 60483, § 1(part), 1987; Ord. No. 59979, § 10(part), 1986.)

26.36.060 Height regulations.

Buildings may exceed eight (8) stories or one hundred (100) feet in height provided they are set back from the side yard regulations one (1) foot for each five (5) feet of additional height above eight (8) stories or one hundred (100) feet. The required setback may be provided at the base to permit a vertical structure without physical setback in the upper stories, or the setback may be provided at any one (1) or more floor levels to govern the permitted height above such setback. (1994 C., § 26.36.060; Ord. No. 60483, § 1(part), 1987; Ord. No. 59979, § 10(part), 1986.)

26.36.070 Front yard areas.

The front yard regulations are the same as those in the "D" Multiple-Family Dwelling District. (1994 C., § 26.36.070; Ord. No. 60483, § 1(part), 1987; Ord. No. 59979, § 10(part), 1986.)

26.36.080 Side yard.

A. All detached dwellings less than forty-five (45) feet in height shall provide a side yard of four (4) feet on one side and may provide no side yard on the other. All attached dwelling units less than forty-five (45) feet in height shall provide a side yard of four (4) feet for one (1) end unit. The other end may provide no side yard. If a yard is provided on both sides of a detached dwelling unit or both ends of attached units, then neither such yard shall be less than four (4) feet.

B. All nonresidential structures and related accessory structures not exceeding three (3) stories or thirty-five (35) feet in height shall have a minimum side yard of four (4) feet.

C. All other main buildings shall have side yards of not less than five (5) feet and shall have an additional six (6) inches of side yard for every ten (10) feet in height above forty-five (45) feet in the case of residential and thirty-five (35) feet in the case of nonresidential structures.

D. All accessory structures need not have a side yard except as provided in Section 26.36.090.

E. If a side yard of four (4) feet is not provided, as permitted above, a maintenance easement must be granted by the owner of the property abutting that side of the lot prior to zoning approval. (1994 C., § 26.36.080; Ord. No. 60483, § 1(part), 1987; Ord. No. 59979, § 10(part), 1986.)

26.36.090 Rear yard.

A. For all structures less than forty-five (45) feet in height, there shall be a minimum rear yard of fifteen (15) feet unless a side yard of twelve (12) feet is provided, in which case no rear yard shall be required.

B. All structures over forty-five (45) feet in height shall have a minimum rear yard of twenty (20) feet and there shall be an additional six (6) inches of yard for every ten (10) feet in height over forty-five (45) feet.

C. If no rear yard is provided, as permitted above, a maintenance easement must be granted by the owner of the rear abutting property prior to zoning approval. (1994 C., § 26.36.090; Ord. No. 60483, § 1(part), 1987; Ord. No. 59979, § 10(part), 1986.)

26.36.100 Density of population.

A. Detached single-family dwellings shall have a lot area of not less than two thousand (2,000) square feet, except that lots of record prior to the effective date of Ordinance 45309 and new lots that equal the average density of the original platted parcels may be used for one (1) single-family dwelling, provided the yard regulations of this section are complied with.

B. Town houses and two-family dwellings shall have a lot area of not less than seven hundred fifty (750) square feet for each dwelling unit therein.

C. Conversion town house dwellings shall not be required to have a minimum lot area.

D. Multiple-family dwelling units shall have a lot area of not less than two hundred fifty (250) square feet for each dwelling unit therein.

E. All commercial uses shall have a floor area ratio of not more than 2.0.
(1994 C., § 26.36.100; Ord. No. 72027, § 1, 7-11-2025; Ord. No. 71928, § 3, 11-19-2024; Ord. No. 60483, § I(part), 1987; Ord. No. 59979, § 10(part), 1986.)

Chapter 26.40

"F" NEIGHBORHOOD COMMERCIAL DISTRICT

Chapters:

26.40.010 District regulations.
26.40.015 Purpose.
26.40.020 Use regulations.
26.40.025 Conditional uses.
26.40.026 Site requirements for carry-out restaurants.
26.40.027 Site requirement for motor fuel pumping stations.
26.40.030 Parking regulations.
26.40.040 Specific parking and loading regulations.
26.40.050 Height regulations.
26.40.070 Front yard area.
26.40.080 Side yard.
26.40.090 Rear yard.
26.40.100 Density of population.

26.40.010 District regulations.

The regulations set forth in this Chapter or set forth elsewhere in the Zoning Code when referred to in this Chapter are the district regulations in the "F" Neighborhood Commercial District. (1994 C., § 26.40.010; Ord. No. 62588, § 5(part), 1992.)

26.40.015 Purpose.

The purpose of the "F" Neighborhood Commercial District is to establish and preserve those commercial and professional facilities that are especially useful in close proximity to residential areas. The district is designed to provide convenient shopping and servicing establishments for persons residing in the immediate neighborhood to satisfy those basic home and personal shopping and service needs which occur frequently and so require retail and service facilities in relative proximity to places of residence, so long as such uses are compatible with and do not detract from adjacent residential uses. (1994 C., § 26.40.015; Ord. No. 62588, § 5(part), 1992.)

26.40.020 Use regulations.

A building or premises shall be used only for the following purposes:

A. Any use permitted in the "E" Multiple-Family Dwelling District;

B. Art galleries and studios;

C. Bakery shops;

D. Barber and beauty shops;

E. Bed and breakfast guesthouse, subject to the provisions of Chapter 8.25;

F. Bed and breakfast homestay, subject to the provisions of Chapter 8.25;

G. Bed and breakfast inn, subject to the provisions of Chapter 8.25;

H. Bookstores;

I. Butchershops;

J. Computer stores;

K. Drug stores;

L. Dry cleaning stations (not having on-site processing);

M. Financial institutions;

N. Florists;

O. General offices;

P. Grocery and other retail stores;

Q. Hardware stores;

R. Professional offices;

S. Shoe repair shops;

T. Video and record stores;

U. Mixed uses which include any of the permitted residential and commercial uses;

V. Accessory structure and uses customarily incidental to any of the above uses;

W. Temporary buildings for use incident to construction work, which buildings shall be removed upon the completion or abandonment of the construction;

X. Any permitted use exceeding 3,500 square feet provided it is not within a commercial structure to be erected, enlarged, structurally altered or moved. (1994 C., § 26.40.020; Ord. No. 62588, § 5(part), 1992.)

26.40.025 Conditional uses.

The following conditional uses may be allowed in the "F" Neighborhood Commercial District, subject to the provisions of Chapter 26.80:

A. Any use eligible to be a conditional use in the "E" Multiple-Family Dwelling District;

B. Arcades, including coin-operated amusement devices, as defined and subject to the additional provisions of Chapter 8.16;

C. Bar and taverns;

D. Bathhouses, including massage establishment(s), as defined and subject to the additional provisions of Chapter 8.24;

E. Billiards and pool rooms, as defined and subject to the additional provisions of Chapter 8.26;

F. Package liquor stores;

G. Parking lots;

H. Pawnbrokers, as defined and subject to the additional provisions of Chapter 8.72;

I. Private clubs or lodges;

J. Restaurants and carry-out restaurants that meet the site requirements specified in Section 26.40.026;

K. Tattoo parlors, as defined and subject to the additional provisions of Chapter 8.97;

L. Theaters;

M. Commercial uses similar to those permitted in Section 26.40.020;

N. Any permitted use which exceeds 3,500 square feet within a commercial structure to be erected, enlarged, structurally altered or moved;

O. Motor fuel pumping stations that meet the site requirements specified in Section 26.40.027;

P. Any permitted or conditional use that utilizes a sales or service window or facility for customers who are in cars;

Q. Any wireless facility not otherwise permitted under Section 26.24.020 unless prohibited by federal law, federal regulation, or a federal agency;

R. Wireless support structures unless prohibited by federal law, federal regulation, or a federal agency. (1994 C., § 26.40.025; Ord. No. 70812, § 2, 7-16-2018; Ord. No. 62588, § 5(part), 1992; Ord. No. 70942, § 4, 5-2-2019.)

26.40.026 Site requirements for carry-out restaurants.

Carry-out restaurants shall comply with the requirements of either of the following numbered paragraphs:

A. The carry-out restaurant is not a carry-out restaurant that sells to customers who are in cars or who consume the sold products in cars parked on the carry-out restaurants premises, nor is it a carry-out restaurant that sells products through a sales window, to customers who are in cars, for immediate consumption by the customer either on or off the premises provided that:

1. The carry-out restaurant does not have any free standing sign;

2. The total square footage of all signs attached to the building does not exceed 150 square feet, nor do signs extend above the roof of the building or extend more than 15 feet in height above grade; and

3. No sign shall have any moving part or be illuminated from any flashing or intermittent source; or

B. The carry-out restaurant is a carry-out restaurant that sells to customers who are in cars or who consume the sold products in cars parked on the carry-out restaurant premises, or is a carry-out restaurant that sells products through a sales window to customers who are in cars for immediate consumption by the customers either on or off the premise provided that:

1. For lots that are contiguous with or directly across a street, alley, public or private easement from a dwelling district:

a. The lot contains a minimum of 20,000 square feet.

b. The carry-out restaurant does not have more than one freestanding sign. Said sign shall not exceed 25 feet in height nor exceed on all faces a total of 150 square feet of sign copy and shall be a minimum of 50 feet from any existing residential use or dwelling district.

c. The total square footage of signs attached to the buildings shall not exceed 100 square feet per side facing a street, nor shall signs attached to any one facade occupy more than one-tenth of the facade, nor shall signs extend above the roof of the buildings or

extend more than 25 feet in height above grade. Buildings on corners facing two streets may have a sign facing each street.

d. A drive through menu board not exceeding 40 square feet per face nor more than 6 feet in height and a separate speaker post in the drive through area and behind the required front yard with a sound system not audible at the lot lines may be erected. Traffic direction signs shall not exceed 4 square feet per facing and 4 feet in height.

e. No sign shall have any moving part or be illuminated from any flashing or intermittent source.

f. A minimum of 15 parking spaces shall be provided on a lot. Parking areas shall be screened at all property line with a 10-foot landscaped strip contiguous with or directly across an alley or public or private easement, other than a public street, from any existing residential use or dwelling district. Parking area screens shall consist of a minimum 2-foot-high berm and a masonry or wood barrier that is at least 70 percent opaque and not less than 6 feet in height and shall be maintained in good order.

g. A landscape strip not less than 3 feet in width shall be provided along all public streets and shall contain 2-foot-high solid landscaping or a masonry wall not less than 2 feet in height except that these elements shall not be required in approved driveways. Street trees shall be installed in the tree lawn, between the public sidewalk and public street, when the tree lawn has sufficient width, or street trees with gates shall be installed in public sidewalks where the sidewalk has sufficient width and is on an earth base with a minimum of 25 feet between trees not including driveways. A minimum of 15% of the lot area shall be landscaped, including screening areas.

h. All parking stalls shall be provided with continuous secured curbing not less than 6 inches high and 18 inches wide to insure careful location of the parked cars.

i. Exterior refuse container enclosures shall have masonry walls not less than 5 feet high and latched doors. All trash disposal containers shall be located on the site in a manner which will establish their permanent location. At a minimum such trash containers shall be located at every entrance and exist to the premises.

j. There shall be no other carry-out restaurant along the same street (or streets in the case of a corner location) nearer than 600 feet unless the average weekday traffic volume along such street or streets is more than 7,500 vehicles per day per carry-out restaurant. However, in no case shall a carry-out restaurant as provided for herein be permitted nearer than 300 feet from another such use on the same side of the street and in no case shall an additional such use be permitted at an intersection if two such uses already exist at that intersection.

k. No vehicular access shall be allowed to any public alley abutting a residential zoning district.

l. Parking area light poles shall be metal or masonry with underground wiring and not exceed 22 feet in height and adjusted so that no more than 0.5 footcandle (measured at grade) falls on any abutting residential lot.

2. For lots that are not contiguous with or directly across a street, alley, public or private easement from any dwelling district:

a. The lot contains a minimum of 20,000 square feet.

b. The restaurant does not have more than one freestanding sign except that carry-out restaurants on a corner facing two public streets may have one freestanding sign per street frontage provided that at least one such frontage is 200 feet or greater. Said sign shall not exceed 25 feet in height plus one foot in height for each additional 1,000 square feet of lot area in excess of 20,000 square feet nor exceed on all faces a total of 200 square feet of sign copy provided that said signs shall not exceed the maximum permitted height for the district.

c. The total square footage of signs attached to the building shall not exceed 200 square feet per side facing a street nor shall signs attached to any one facade occupy more than one-tenth of the facade, nor shall signs extend above the roof of the buildings or extend more than 25 feet in height above grade. Building on corners facing two streets may have a sign facing each street.

d. A drive through menu board not exceeding 40 square feet per face nor more than 6 feet in height and a separate speaker post in the drive through area and behind the required front yard with a sound system not audible at the lot line may be erected. Traffic direction signs shall not exceed 6 square feet per facing and 6 feet in height.

e. No sign shall have any moving part or be illuminated from any flashing or intermitted source.

f. A minimum of 15% parking spaces shall be provided on a lot.

g. A minimum of 10% of the lot area shall be landscaped, including screening areas. A landscaped strip not less than 3 feet in width shall be provided along all public streets and shall contain a 2-foot-high solid landscaping or a masonry wall not less than 2 feet in height except that these elements shall not be required in approved driveways.

h. All parking stalls shall be provided with continuous secured curbing not less than 6 inches high and 18 inches wide to insure careful location of parked cars.

i. Exterior refuse container enclosures shall have masonry walls not less than 6 feet high with latched doors. All trash disposal containers shall be located on the site in a manner which will establish their permanent location. At a minimum such trash containers shall be located at every entrance and exit to the premises.

j. There shall be no other carry-out restaurant along the same street (or streets in the case of a corner location) nearer than 600 feet unless the average weekday traffic volume along such street or streets is more than 7,500 vehicles per day per carry-out restaurant. However, in no case shall a carry-out restaurant as provided for herein be permitted nearer than 300 feet from another such use on the same side of the street and in no case shall an additional such use be permitted at an intersection if two such uses already exist in that intersection.

k. Parking area light poles shall be metal or masonry with underground wiring and not exceed 22 feet in height. (1994 C., § 26.40.026; Ord. No. 69198, § 2, 7-18-2012; Ord. No. 62588, § 5(part), 1992.)

26.40.027 Site requirement for motor fuel pumping stations.

Motor fuel pumping stations shall comply with the requirements in either of the following numbered paragraphs:

A. The motor fuel pumping station is wholly contained within the accessory to a parking facility, provided there are no exterior signs on the premises advertising the motor fuel pumping station location; or

B. All other motor fuel pumping stations provided that:

1. There shall be no other motor fuel pumping station along the same street (or streets in the case of a corner location) nearer than 600 feet unless the average weekday traffic volume along such street or streets is more than 7,500 vehicles per day per station. However, in no case shall a station as provided for herein be permitted nearer than 300 feet from another such use on the same side of the street and in no case shall an additional station be permitted at an intersection if two such stations already exist in that intersection;

2. Not more than one free-standing sign shall be permitted; said sign shall not exceed 25 feet in height nor exceed on all faces a total of 150 square feet of sign copy and shall be a minimum of 50 feet from any existing residential use or dwelling district;

3. The total square frontage of all signs attached to the building shall not exceed 100 square feet, nor shall signs attached to any one facade occupy more than one-tenth of the facade, nor shall signs extend above the roof of the buildings or extend more than 25 feet in height above grade. Two streets may have a sign facing each street;

4. Not more than one sandwich board type sign shall be permitted which shall indicate the types of gasoline for sale and the price thereof. Said sign shall not be placed on or extend into any public right-of-way;

5. All banners, pennants and similar devices designed for temporary outdoor display shall be prohibited. All graphics shall be exhibited as a permanent source or displayed from permanently mounted sign backgrounds;

6. No sign shall have any moving part or be illuminated from any flashing or intermittent source;

7. Stations shall be screened at all property lines contiguous with or directly across an alley or public or private easement, other than a public street, from existing residential uses and dwelling districts. Screens shall consist of a masonry or wood barrier that is at least 70 percent opaque and not less than 6 feet in height and shall be maintained in good order;

8. A trash enclosure, 6 feet in height, constructed of masonry or wood and opaque, shall be provided. Said enclosure shall be enclosed on all sides, and have a solid gate 6 feet in height providing access to the trash area. Trash shall not exceed the height of the enclosure. No trash, including, without limitation, discarded oil cans, batteries, signs, and tires, shall be stored on any section of the site, except within an enclosed structure;

9. All hoist, service racks, accessory sales rack and vending machines shall be maintained within an enclosed building;

10. No driveway shall be closer than 20 feet to any residential use or dwelling district; and

11. No pump island shall be nearer than 20 feet to a property line. (1994 C., § 26.40.027; Ord. No. 69198, § 2, 7-18-2012; Ord. No. 62588, § 5(part), 1992.)

26.40.030 Parking regulations.

The parking in the "E" Multiple Family Dwellings District, except as modified by Section 26.40.040 shall apply. (1994 C., § 26.40.030; Ord. No. 62588, § 5(part), 1992.)

26.40.040 Specific parking and loading regulations.

In addition, the following uses shall provide parking space within 1,000 feet of the main building:

A. Retail stores within floor area of more than 3,000 square feet shall provide parking space sufficient to accommodate one motor car for each 700 square feet of floor area in excess of 3,000 square feet which is actually used for the selling of merchandise.

B. Banks and office buildings with floor area of more than 7,500 square feet shall provide parking space sufficient to accommodate one motor car for each 1,250 square feet of floor area in excess of 7,500 square feet which is actually used for banking purposes or for offices.

C. Restaurants, bars, taverns, and exhibition halls with more than 1,000 square feet of floor area shall provide parking space sufficient to accommodate one motor car for each 200 square feet of floor area in excess of 1,000 square feet which is actually used by patrons or customers for such purposes.

D. Theaters shall provide parking space sufficient to accommodate one motor car for each 12 seats.

E. Mortuaries and funeral homes shall provide parking space sufficient to accommodate three motor cars for each chapel or parlor.

F. Dance halls shall provide parking space sufficient to accommodate one motor car for each 100 square feet of floor area used for dancing.

G. Bowling alleys shall provide parking space sufficient to accommodate 2 motor cars for each alley.

H. All hereinafter erected or enlarged retail stores, food markets, restaurants, bars, taverns, mortuaries, laundries and dry cleaning establishments having or to have more than 5,000 square feet of gross floor area shall provide one loading space, at least 10 feet by 25 feet and having a 14-foot clearance, which shall be located off the public street, alley and sidewalk and on the same lot of the building served. One additional loading space shall be provided for each additional 25,000 square feet or fraction thereof of gross floor area, but not more than 4 such spaces shall be required.

I. Private clubs and lodges shall provide parking space sufficient to accommodate one motor car for each one hundred (100) square feet of floor area used for purposes of dancing, assembly or dining. (1994 C., § 26.40.040; Ord. No. 62588, § 5(part), 1992.)

26.40.050 Height regulations.

No building shall exceed 3 stories or 50 feet in height. Churches, schools, public buildings, hospitals and institutions may be erected to a height exceeding 85 feet. (1994 C., § 26.40.050; Ord. No. 62588, § 5(part), 1992.)

26.40.070 Front yard area.

A. When 25 percent of any frontage within the district is improved with buildings and a majority of such improved frontage has a front yard line variation in depth of not more than 6 feet, no building hereafter constructed shall project beyond the average front yard line so established, except that in no event shall this front yard be greater than 50 feet.

B. Where any frontage is partially in a dwelling district and partially in a commercial district, the front yard regulations of the dwelling district shall apply for that frontage.

C. No front yard shall be required for existing commercial structures located at the intersection of two streets or existing commercial structures which are contiguous with existing commercial structures located at the intersection of two streets for any commercial structures to be erected, enlarged, structurally altered or moved on land formerly occupied by a commercial structure with no front yard located at the intersection of two streets.

D. Residential structures and mixed residential and commercial structures that are not at or contiguous with commercial structure at the intersection of two streets shall have a front yard as set forth in the front yard requirements of the least restrictive adjacent dwelling district.

E. In all other cases no front yard shall be required. (1994 C., § 26.40.070; Ord. No. 62588, § 5(part), 1992.)

26.40.080 Side yard.

A. All residential structures shall meet the side yard requirements (including, without limitation, requirements as to maintenance easements) of the least restrictive adjacent dwelling except when the structure includes commercial uses.

B. All nonresidential structures, mixed commercial and residential structures, and related accessory structures that do not adjoin a dwelling district, require no side yard, but a maintenance easement must be granted the owner of the property abutting each side of a lot having a side yard of less than 4 feet prior to zoning approval; if such structures do adjoin a dwelling district, there shall be a side yard adjoining having a width of no less than 4 feet, unless a maintenance easement is granted by the owner of the property abutting the lot prior to zoning approval. (1994 C., § 26.40.080; Ord. No. 62588, § 5(part), 1992.)

26.40.090 Rear yard.

A. All residential structures shall meet the rear yard requirements of the least restrictive adjacent dwelling district except those which include commercial uses.

B. All nonresidential structures, mixed commercial and residential structures, and related accessory structures require no rear yard setback except that an appropriate space shall be provided to accommodate trash receptacles and loading areas. (1994 C., § 26.40.090; Ord. No. 62588, § 5(part), 1992.)

26.40.100 Density of population.

A. All residential structures hereafter constructed shall meet the density requirements of the least restrictive adjacent dwelling district except where 40 percent or more of the structures having the same frontage is occupied by multiple-family dwellings. In the latter such cases, dwelling shall conform to area regulations of the "D" Multiple-Family Dwelling District.

B. All nonresidential structures, mixed commercial and residential structures shall have a floor area ratio of not more than 1.5. (1994 C., § 26.40.100; Ord. No. 62588, § 5(part), 1992.)

Chapter 26.44

"G" LOCAL COMMERCIAL AND OFFICE DISTRICT

Sections:

26.44.010 District regulations.
26.44.015 Purposes.
26.44.020 Use regulations.
26.44.025 Conditional uses.
26.44.030 Parking and loading regulations.
26.44.040 Specific parking and loading regulations.
26.44.050 Height regulations.
26.44.060 Area dwellings.
26.44.070 Front yard—Nondwellings.
26.44.080 Side yard—Nondwellings.

26.44.010 District regulations.

The regulations set forth in this chapter or set forth elsewhere in the Zoning Code and referred to in this chapter are the district regulations in the "G" Local Commercial and Office District. (1994 C., § 26.44.010; Ord. No. 59979, § 12(part), 1986.)

26.44.015 Purposes.

The purpose of the "G" Local Commercial and Office District is to establish and preserve areas that accommodate a wide range of businesses catering to the personal and home needs of the general public and to provide for employment activity and service to the public which does not detract from nearby residential uses. (1994 C., § 26.44.015; Ord. No. 59979, § 12(part), 1986.)

26.44.020 Use regulations.

A building or premises shall be used only for the following purposes:

A. Any use permitted in the "F" Neighborhood Commercial District;

B. Bars and taverns;

C. Dyeing and cleaning works;

D. Laundries;

E. Livery stables and riding academies;

F. Milk distributing and bottling plants;

G. Package liquor stores;

H. Printing shops;

I. Restaurants other than carry-out restaurants that operate as described in Section 26.40.026B provided that carry-out restaurants that meet the site requirements specified in Section 20.40.026B2 shall be permitted;

J. Telephone, outdoor pay, if the proposed telephone is not located on a lot that is located contiguous with or directly across a street, alley, public or private easement from a dwelling district;

K. Tinsmith or sheet metal shops;

L. Wholesale business;

M. Accessory structures and uses customarily incidental to any of the above uses;

N. Temporary buildings for use incident to construction work, which buildings shall be removed upon the completion or abandonment of the construction;

O. Any permitted use exceeding seven thousand (7,000) square feet provided it is not within a commercial structure to be erected, enlarged, structurally altered or moved. (1994 C., § 26.44.020; Ord. No. 64167, § 4, 1997; Ord. No. 59979, § 12(part), 1986.)

26.44.025 Conditional uses.

The following conditional uses may be allowed in the "G" Local Commercial and Office District, subject to the provisions of Section 26.80.010:

A. Any use eligible to be a conditional use in the "F" Neighborhood Commercial District;

B. Commercial use similar to those permitted in Section 26.44.020;

C. Any permitted use which exceeds seven thousand (7,000) square feet within a commercial structure to be erected, enlarged, structurally altered or moved;

D. Any permitted or conditional use which utilizes a sales or service window or facility for customers who are in cars except those carry-out restaurants permitted in Section 26.44.020;

E. Carry-out restaurants other than those carry-out restaurants permitted in Section 26.44.020 and that meet the applicable site requirements specified in Section 26.40.026B1;

F. Telephone, outdoor pay, if the proposed telephone is located on a lot that is located contiguous with or directly across a street, alley, public or private easement from a dwelling district. (1994 C., § 26.44.025; Ord. No. 64167, § 5, 1997; Ord. No. 59979, § 12(part), 1986.)

26.44.030 Parking and loading regulations.

The parking regulations for uses enumerated in Chapter 26.20 through 26.40 inclusive, except as modified by Section 26.44.040, shall apply. (1994 C., § 26.44.030; Ord. No. 59979, § 12(part), 1986.)

26.44.040 Specific parking and loading regulations.

In addition, parking space shall also be provided for the following uses:

A. Wholesale, manufacturing and industrial buildings shall provide parking space within one thousand (1,000) feet of the main building sufficient to accommodate one (1) motor car for each ten (10) employees regularly employed at the site, based on the greatest number employed at any one period of the day or night.

B. All hereinafter erected or enlarged buildings having or to have more than five thousand (5,000) square feet of gross floor area and used for manufacturing, storage, warehouse, goods display, department store, wholesale store, and other uses involving the receipt or distribution by vehicles of materials or merchandise shall provide one (1) loading space, at least ten (10) feet by twenty-five (25) feet and having a fourteen (14) foot clearance, for each twenty-five thousand (25,000) square feet of gross floor area or fraction thereof in excess of five thousand (5,000) square feet. (1994 C., § 26.44.040; Ord. No. 59979, § 12(part), 1986.)

26.44.050 Height regulations.

The height regulations are the same as those in the "F" Neighborhood Commercial District. (1994 C., § 26.44.050; Ord. No. 59979, § 12(part), 1986.)

26.44.060 Area dwellings.

For dwellings the area regulations are the same as those in the "D" Multiple-Family Dwelling District. For other buildings the following area regulations only shall be required. (1994 C., § 26.44.060; Ord. No. 59979, § 12(part), 1986.)

26.44.070 Front yard—Nondwellings.

The front yard regulations are the same as those in the "F" Neighborhood Commercial District. (1994 C., § 26.44.070; Ord. No. 59979, § 12(part), 1986.)

26.44.080 Side yard—Nondwellings.

A. There shall be a side yard having a width of not less than five (5) feet on that side of a lot which adjoins any dwelling district.

B. Where dwelling accommodations are hereafter created above any nondwelling use there shall be two (2) side yards each of eight (8) feet in width unless every room within that portion of the structure used for dwelling purposes shall open directly upon a front yard or a rear yard of dimensions as required in the "D" Multiple-Family Dwelling District. (1994 C., § 26.44.080; Ord. No. 59979, § 12(part), 1986.)

Chapter 26.48

"H" AREA COMMERCIAL DISTRICT

Sections:

26.48.010 District regulations.

26.48.015 Purpose.
26.48.020 Use regulations.
26.48.025 Conditional uses.
26.48.030 Parking and loading regulations.
26.48.040 Height regulations.
26.48.050 Area regulations.

26.48.010 District regulations.

The regulations set forth in this chapter or set forth elsewhere in the Zoning Code and referred to in this chapter are the district regulations in the "H" Area Commercial District. (1994 C., § 26.48.010; Ord. No. 70555, § 3(26.48.010), 6-17-2017; Ord. No. 67607, § 2(part), 2007; Ord. No. 59979, § 13(part), 1986.)

26.48.015 Purpose.

The purpose of the "H" Area Commercial District is to establish and preserve general commercial areas consisting of shopping centers and commercial strips where customers reach individual business establishments primarily by automobile. This district is intended to provide diversified types of goods and services to a large consumer population coming from an extensive area. Regulations of this district are to facilitate the use of heavily trafficked areas suitable for the operation of businesses catering to the general public, which does not materially detract from nearby residential uses. (1994 C., § 26.48.015; Ord. No. 70555, § 3(26.48.015), 6-17-2017; Ord. No. 67607, § 2(part), 2007; Ord. No. 59979, § 13(part), 1986.)

26.48.020 Use regulations.

The use regulations are the same as those in the "G" Local Commercial and Office District, except that for any property located within 1,500 feet of an interstate highway or ramp or right-of-way for the same, the area of any permitted use may exceed seven thousand (7,000) square feet in any commercial structure to be erected, enlarged, structurally altered or moved. (1994 C., § 26.48.020; Ord. No. 70555, § 3(26.48.020), 6-17-2017; Ord. No. 67607, § 2(part), 2007; Ord. No. 59979, § 13(part), 1986.)

26.48.025 Conditional uses.

The following conditional uses may be allowed in the "H" Area Commercial District, subject to the provisions of Section 26.80.010:

A. Any use eligible to be a conditional use in the "G" Local Commercial and Office District;

B. Commercial use similar to those permitted in Section 26.48.020;

C. Any permitted or conditional use which utilizes a sales or service window or facility for customers who are in cars except those carry-out restaurants permitted in Section 26.48.020. (1994 C., § 26.48.025; Ord. No. 70555, § 3(26.48.025), 6-17-2017; Ord. No. 67607, § 2(part), 2007; Ord. No. 59979, § 13(part), 1986.)

26.48.030 Parking and loading regulations.

The parking regulations are the same for uses enumerated in Chapters 26.20 through 26.44 inclusive. (1994 C., § 26.48.030; Ord. No. 70555, § 3(26.48.030), 6-17-2017; Ord. No. 67607, § 2(part), 2007; Ord. No. 59979, § 13(part), 1986.)

26.48.040 Height regulations.

The height regulations are the same as those in the "E" Multiple-Family Dwelling District. (1994 C., § 26.48.040; Ord. No. 70555, § 3(26.48.040), 6-17-2017; Ord. No. 67607, § 2(part), 2007; Ord. No. 59979, § 13(part), 1986.)

26.48.050 Area regulations.

For dwellings the area regulations are the same as those in the "E" Multiple-Family Dwelling District. For other buildings the following area regulations only shall be required.

A. *Front Yard.* The front yard regulations are the same as those in the "F" Neighborhood Commercial District.

B. *Side Yard.*

1. There shall be a side yard having a width of not less than five (5) feet on that side of a lot which adjoins any dwelling district.

2. Where dwelling accommodations are hereafter created above any non-dwelling use there shall be two (2) side yards each of eight (8) feet in width which shall be increased in width six (6) inches for each additional story above the third (3rd) story unless every room within that portion of the structure used for dwelling purposes shall open directly upon a front yard or a rear yard of dimensions as required in the "E" Multiple-Family Dwelling District. (1994 C., § 26.48.050; Ord. No. 70555, § 3(26.48.050), 6-17-2017; Ord. No. 67607, § 2(part), 2007; Ord. No. 59979, § 13(part), 1986.)

Chapter 26.52

"I" CENTRAL BUSINESS DISTRICT

City Counselor Ops.: 9547

McQuillin:

25.110 et seq. Business district

Sections:

26.52.010 District regulations.

26.52.020 Use regulations.

26.52.025 Conditional uses.

26.52.030 Parking and loading regulations.

26.52.040 Height regulations.

26.52.050 Area regulations.

26.52.010 District regulations.

The regulations set forth in this chapter or set forth elsewhere in the Zoning Code and referred to in this chapter are the district regulations in the "I" Central Business District. (1994 C., § 26.52.010; Ord. No. 59979, § 14(part), 1986.)

26.52.020 Use regulations.

A building or premises may be used for any purpose except the following: abattoir; acetylene gas manufacture; acid manufacture; ammonia, bleaching powder or chlorine manufacture; arsenal; asphalt manufacture or refining; automobile body or fender repair shops; automobile salvage yard; bag cleaning (except when the dustless vacuum process is exclusively employed); blast furnace; boiler works; brick, terra cotta or tile manufacture; candle manufacture; carry-out restaurants that sell to customers in cars or who consume the sold products in cars parked on the carry-out restaurant premises, or sell products through a sales window to customers who are in cars, for immediate consumption by the customer either on or off the premises; celluloid manufacture; cement, gypsum, lime or plaster-of-Paris manufacture; dextrine, glucose and starch manufacture; distillation of bones, coal or wood; dye stuff manufacture (not including chemical dyes); emery, emery cloth and sand paper manufacture; fat rendering; fertilizer manufacture; fireworks or explosive manufacture or storage; flour and grain milling; forge plant; fuel manufacture; gas manufacture or storage; glass manufacture; glue, gelatin or size manufacture; incineration, reduction or dumping of garbage, dead animals, offal or refuse; iron, brass, copper or steel foundry or works (unless gas or electrically operated); lamp black manufacture, match manufacture; meat packing; motor fuel pumping stations (except where wholly contained within and accessory to a parking garage and providing there are no exterior signs on the premises advertising the motor fuel pumping station location); oilcloth or linoleum manufacture; oiled goods manufactured from raw materials; ore reduction; paint materials manufacture; paper and paper pulp manufacture; petroleum products refining (or wholesale storage thereof); potash or washing soda manufacture; proxylin manufacture; rock crushing; rolling mill; rubber or gutta percha manufacture; salt works; saw mill; smelting or refining of metals; soap manufacture from refuse; stockyard, corral or pen; stone mill or quarry; storage of barrels, bottles, iron, junk, rags or scrap paper; stove or shoe polish manufacture; sugar refining; tanning, curing or storage of green salted hides or skins, or leather dressing or coloring; tar distillation or manufacture; tar roofing or water proofing manufacture; telephone, outdoor pay, if the proposed telephone is located on a lot that is located contiguous with or directly across a street, alley, public or private easement from a dwelling district; tobacco (chewing) manufacture or treatment; used car lots, car leasing or car rental lots; vinegar, sauerkraut or pickle manufacture; wool pulling or scouring; yeast manufacture; any use which is a nuisance per se; any wireless facility prohibited by federal law, federal regulation or a federal agency.

(1994 C., § 26.52.020; Ord. No. 71928, § 3, 11-19-2024; Ord. No. 71004, § 1, 7-25-2019; Ord. No. 70942, § 5, 5-2-2019; Ord. No. 70812, § 3, 7-16-2018; Ord. No. 64167, § 6, 1997; Ord. No. 59979, § 14(part), 1986.)

26.52.025 Conditional uses.

The following conditional uses may be allowed in the "I" Central Business District subject to the provisions of Section 26.80.010:

A. Bathhouses, including massage establishment(s), as defined and subject to the additional provisions of Chapter 8.24;

B. Billiards and pool rooms, as defined and subject to the additional provisions of Chapter 8.26;

C. Day care centers;

D. Hotels;

E. Pawnbrokers, as defined and subject to the additional provisions of Chapter 8.72;

F. Penal institutions;

G. Telephone, outdoor pay, if the proposed telephone is located on a lot that is located contiguous with or directly across a street, alley, public or private easement from a dwelling district.

(1994 C., § 26.52.025; Ord. No. 71928, § 3, 11-19-2024; Ord. No. 71004, § 1, 7-25-2019; Ord. No. 70942, § 5, 5-2-2019; Ord. No. 70812, § 3, 7-16-2018; Ord. No. 64167, § 7, 1997.)

26.52.030 Parking and loading regulations.

No parking regulations shall be required for this district. Loading regulations are the same for uses enumerated in Chapters 26.20 through 26.48, inclusive. (1994 C., § 26.52.030; Ord. No. 59979, § 14(part), 1986.)

26.52.040 Height regulations.

Buildings may be erected to such height that the cubic contents of said building above the established grade shall not exceed the volume of a prism having a base equal to the projected horizontal area of the building and a height of two hundred (200) feet. In the case of buildings occupying a lot having frontage on intersecting streets and which buildings are so designed as to provide a setback or open space at one (1) corner or corners where such street intersections occur, or when such setback begins below the two hundred (200) foot height above the established grade, the volume determined by the above rule may be exceeded by an amount equal to the volume so taken out of the reference prism of two hundred (200) foot height; provided, however, that the total volume of the actual building shall not exceed by more than twenty-five percent (25%) the volume of said reference prism of two hundred (200) foot height. (1994 C., § 26.52.040; Ord. No. 59979, § 14(part), 1986.)

26.52.050 Area regulations.

There shall be a lot area of not less than two hundred and fifty (250) square feet for each dwelling unit up to and including eight (8) stories or one hundred (100) feet in height; thereafter there shall be provided a lot area of not less than one hundred (100) square feet for each additional dwelling unit above eight (8) stories or one hundred (100) feet in height. Sleeping rooms without cooking facilities shall have a lot area of not less than one hundred (100) square feet each. (1994 C., § 26.52.050; Ord. No. 59979, § 14(part), 1986.)

Chapter 26.56

"J" INDUSTRIAL DISTRICT

McQuillin:

25.116 Industrial zones

Sections:

26.56.010 District regulations.
26.56.020 Use regulations.
26.56.025 Conditional uses.
26.56.030 Parking and loading regulations.
26.56.040 Height regulations.
26.56.050 Area regulations.

26.56.010 District regulations.

The regulations set forth in this chapter or set forth elsewhere in the Zoning Code and referred to in this chapter are the district regulations in the "J" Industrial District. (1994 C., § 26.56.010; Ord. No. 59979, § 15(part), 1986.)

26.56.020 Use regulations.

The use regulations are the same as those in the "I" Central Business District, except that motor fuel pumping stations that meet the site requirements specified in Section 26.40.027 shall be permitted; carry-out restaurants that sell to customers who are in cars or who consume the sold products in cars parked on the carry-out restaurant premises, or sell products through a sales window, to customers who are in cars, for immediate consumption by the customer either on or off the premises that meet the site requirements specified in Section 26.40.026.B.1 or 2 as appropriate shall be permitted; and a building or premises may be used for an automobile body, fender repair shop, used car lot, or car leasing or rental lot; and provided further that no building shall be in any case hereinafter erected nor shall any existing building be converted, reconstructed or structurally altered for dwelling purposes except where forty percent (40%) or more of the frontage is occupied by dwellings. (1994 C., § 26.56.020; Ord. No. 59979, § 15(part), 1986.)

City Counselor Ops.: 10420

26.56.025 Conditional uses.

The following conditional uses may be allowed in the "J" Industrial District subject to the provisions of Section 26.80.010:

A. Bathhouses, including massage establishment(s), as defined and subject to the additional provisions of Chapter 8.24;

B. Billiards and pool rooms, as defined and subject to the additional provisions of Chapter 8.26;

C. Day care centers;

D. Hotels;

E. Pawnbrokers, as defined and subject to the additional provisions of Chapter 8.72;

F. Penal institutions;

G. Telephone, outdoor pay, if the proposed telephone is located on a lot that is located contiguous with or directly across a street, alley, public or private easement from a dwelling district.

(1994 C., § 26.56.025; Ord. No. 71928, § 3, 11-19-2024; Ord. No. 70812, § 4, 7-16-2018; Ord. No. 64167, § 8, 1997.)

26.56.030 Parking and loading regulations.

The parking and loading regulations are the same for uses enumerated in Chapters 26.20 through 26.50, inclusive. (1994 C., § 26.56.030; Ord. No. 59979, § 15(part), 1986.)

26.56.040 Height regulations.

The height regulations are the same as those in the "E" Multiple-Family Dwelling District. (1994 C., § 26.56.040; Ord. No. 59979, § 15(part), 1986.)

City Counselor Ops.: 8311

26.56.050 Area regulations.

The area regulations are the same as those in the "E" Multiple-Family Dwelling District. (1994 C., § 26.56.050; Ord. No. 59979, § 15(part), 1986.)

Chapter 26.60

"K" UNRESTRICTED DISTRICT

Chapters:

26.60.010 District regulations.
26.60.020 Use regulations.
26.60.025 Conditional uses.
26.60.030 Parking and loading regulations.
26.60.040 Height regulations.
26.60.050 Area regulations.

26.60.010 District regulations.

The regulations set forth in this chapter or set forth elsewhere in the Zoning Code and referred to in this chapter are the district regulations in the "K" Unrestricted District. (1994 C., § 26.60.010; Ord. No. 59979, § 16(part), 1986.)

26.60.020 Use regulations.

In the unrestricted district buildings and premises may be used for any purpose whatsoever not in conflict with any ordinance of the City regulating nuisances or Section 26.60.025, or is not a wireless facility provided that motor fuel pumping stations shall meet the site requirements specified in Section 26.40.027 and carry-out restaurants that sell to customers in cars or who consume the sold products in cars parked on the carry-out restaurant premises, or sell products through a sales window, to customers who are in cars, for immediate consumption by the customer either on or off the premises shall meet the site requirements specified in Section 26.40.026.B.1 or 2 as appropriate. Provided, however, that no building shall be hereafter erected, nor shall any existing building be converted, reconstructed, or structurally altered for dwelling purposes.

(1994 C., § 26.60.020; Ord. No. 71928, § 3, 11-19-2024; Ord. No. 71004, § 2, 7-25-2019; Ord. No. 70942, § 5, 5-2-2019; Ord. No. 70812, § 5, 7-16-2018; Ord. No. 59979, § 16(part), 1986.)

26.60.025 Conditional uses.

The following conditional uses may be allowed in the "K" Unrestricted District, subject to the provisions of Section 26.80.010:

A. Acid manufacture;

B. Day care centers;

C. Bathhouses, including massage establishment(s), as defined and subject to the additional provisions of Chapter 8.24;

D. Billiards and pool rooms, as defined and subject to the additional provisions of Chapter 8.26;

E. Cement, lime, gypsum, or plaster-of-Paris manufacture;

F. Fireworks, exposures, manufacture or storage;

G. Fertilizer manufacture and potash refining;

H. Fuel manufacture;

I. Garbage, offal, or dead animals, reduction or dumping;

J. Glue manufacture, fat rendering, or distillation of bones;

K. Hotels;

L. Pawnbrokers, as defined and subject to the additional provisions of Chapter 8.72;

M. Penal institutions;

N. Petroleum refining;

O. Salvage storage, wholesaling or retailing;

P. Smelting or refining of metals;

Q. Stockyards or abattoir;

R. Telephone, outdoor pay, if the proposed telephone is located on a lot that is located contiguous with or directly across a street, alley, public or private easement from a dwelling district.

(1994 C., § 26.60.025; Ord. No. 71928, § 3, 11-19-2024; Ord. No. 70812, § 6, 7-16-2018; Ord. No. 64167, § 9, 1997; Ord. No. 59979, § 16(part), 1986.)

26.60.030 Parking and loading regulations.

The parking and loading regulations are the same for uses enumerated in Chapters 26.20 through 26.56, inclusive. (1994 C., § 26.60.030; Ord. No. 59979, § 16(part), 1986.)

26.60.040 Height regulations.

The height regulations are the same as those in the "H" Area Commercial District. (1994 C., § 26.60.040; Ord. No. 59979, § 16(part), 1986.)

26.60.050 Area regulations.

The area regulations are the same as those in the "G" Local Commercial and Office District. (1994 C., § 26.60.050; Ord. No. 59979, § 16(part), 1986.)

Chapter 26.64

"L" JEFFERSON MEMORIAL DISTRICT

Chapters:

26.64.010 District regulations.
26.64.020 Use regulations.
26.64.025 Conditional uses.
26.64.030 Parking and loading regulations.
26.64.040 Height regulations.
26.64.050 Area regulations.

26.64.010 District regulations.

The regulations set forth in this chapter or set forth elsewhere in the Zoning Code and referred to in this chapter are the district regulations in the "L" Jefferson Memorial District. (1994 C., § 26.64.010; Ord. No. 59979, § 17(part), 1986.)

26.64.020 Use regulations.

A building or premises may be used for any purpose permitted in the "I" Central Business District. (1994 C., § 26.64.020; Ord. No. 59979, § 17(part), 1986.)

26.64.025 Conditional uses.

The following conditional uses may be allowed in the "L" Jefferson Memorial District, subject to the provisions of Section 26.80.010:

A. Bathhouses, including massage establishment(s), as defined and subject to the additional provisions of Chapter 8.24;

B. Billiards and pool rooms, as defined and subject to the additional provisions of Chapter 8.26;

C. Day care centers;

D. Hotels;

E. Pawnbrokers, as defined and subject to the additional provisions of Chapter 8.72;

F. Penal institutions.

(Ord. No. 71928, § 3, 11-19-2024; Ord. No. 70812, § 7(26.64.025), 7-16-2018.)

26.64.030 Parking and loading regulations.

The loading regulations are the same for uses enumerated in Chapters 26.20 through 26.48, inclusive. No parking regulations shall be required for this district. (1994 C., § 26.64.030; Ord. No. 59979, § 17(part), 1986.)

26.64.040 Height regulations.

The height regulations are the same as those in the "I" Central Business District except that in no instance shall any portion of a building or structure including all appurtenances and super structures thereon, exceed a mean sea level elevation of seven hundred fifty-one (751) feet. It shall be unlawful to increase the height of an existing building or other structures located within this district unless it complies with the regulation of the district. (1994 C., § 26.64.040; Ord. No. 59979, § 17(part), 1986.)

26.64.050 Area regulations.

The area regulations are the same as those in the "I" Central Business District. (1994 C., § 26.64.050; Ord. No. 59979, § 17(part), 1986.)

Chapter 26.66

BED AND BREAKFAST DISTRICTS

Chapters:

26.66.010 Establishment procedure.
26.66.020 Declaration—Filing of copies.
26.66.030 Effect of district designation.
26.66.040 License approval—Generally.
26.66.050 Protests against licenses or applications—When and how initiated.
26.66.060 Protest petitions—Contents—Time for collection of signatures.
26.66.070 Hearing on protest—Notice—Procedure.
26.66.080 Protests—Necessity of majority of signatures on petition protecting continuation of license—Effect.
26.66.090 Protests—Allocation of burden of proof—Grounds for sustaining protests—Effect of sustaining protest.

26.66.100 Extension of protested license.

26.66.110 Withdrawal of signatures from protest petitions.

26.66.010 Establishment procedure.

A bed and breakfast district may be established and designated by ordinance in any area which contains one (1) or more contiguous City blocks, or portions of City blocks in the following manner:

A. No bed and breakfast district bill shall be introduced in or validly enacted by the Board of Aldermen unless such bill is introduced by the Alderman of the ward within which the area of the proposed district is located or, if such area is within more than one (1) ward, by the Alderman of each such ward.

B. Any such bill shall include a description of the boundaries of the proposed district; the City block numbers of those City blocks or portions of City blocks within the proposed district; and an exhibit depicting a general location map of the proposed district; provided, however, that any such proposed district must contain at least one complete City block.

C. For the purposes of this section, the words "contiguous City blocks, or portions of City blocks" means those City blocks numbered by the City which are immediately across a right-of-way from another City block or immediately adjacent diagonally across an intersection of rights-of-way from another City block.

D. After any such bill is introduced in the Board of Aldermen and assigned to the Board's appropriate standing committee, said bill shall not be voted upon by the Board of Aldermen until a public hearing on said bill has been held by said committee. The area to be included in such a proposed bed and breakfast district shall be posted with notice of the public hearing in at least two places on each block within the proposed district no less than seven (7) days prior to the public hearing. (1994 C., § 26.66.010; Ord. No. 62589, § 1, 1992.)

26.66.020 Declaration—Filing of copies.

Upon passage of a bed and breakfast district bill by the Board of Aldermen and approval by the Mayor, the area described within the boundaries contained within the bill shall be declared and established a bed and breakfast district, and the Clerk of the Board of Aldermen shall forthwith file a copy of same with the Board of Public Service and with the Zoning Administrator, who shall maintain a plat of the bed and breakfast district. (1994 C., § 26.66.020; Ord. No. 62589, § 2, 1992.)

26.66.030 Effect of district designation.

A. No person shall own, operate or maintain a bed and breakfast homestay, a bed and breakfast guesthouse, or a bed and breakfast inn within any bed and breakfast district, as set forth in this chapter, without first obtaining a permit from the Board of Public Service and a graduated business license from the License Collector; provided, however, that notwithstanding the provision of any other ordinance, no such person shall be required to file a plat and neighborhood consent petition as a condition for a bed and breakfast establishment permit or license.

B. Notwithstanding the provision of any use regulations for any zoning district, any building or premises within a bed and breakfast district may be used for the purposes of a bed and breakfast establishment as a use by right; provided said building or premises meets and maintains the requirements established in Section Three of Ordinance 62566 (B.B. 355); and provided further that no person shall own, operate, manage or

maintain a bed and breakfast establishment that violates the rules, regulations and requirements of said Section Three of Ordinance 62566 (B.B. 355).

C. The Board of Public Service shall in writing immediately notify the Aldermen of the ward in which any proposed bed and breakfast establishment would be located of the filing of any occupancy permit or license application, and a separate written notice of the time, place and date of the meeting at which the Board of Public Service will consider such application. (1994 C., § 26.66.030; Ord. No. 62589, § 3, 1992.)

26.66.040 License approval—Generally.

If the Board of Public Service finds that the applicant in a bed and breakfast district meets all the requirements of the Ordinances of the City, the Board shall approve the issuance of a license to the applicant, permitting him to conduct such business for a period of one year from the date of issuance of the license, unless the license is revoked or canceled for cause before the expiration of such time. (1994 C., § 26.66.040; Ord. No. 62589, § 4, 1992.)

26.66.050 Protests against licenses or applications—When and how initiated.

A. A protest against issuance, renewal or continuation of a bed and breakfast establishment license issued pursuant to this chapter all be initiated by submission to the Board of Public Service of a written letter of protest signed by either ten (10) or more persons residing or conducting business, or ten (10) or more persons owning property, within a petition circle of the establishment which is the subject of the protest. Said petition circle shall be determined by drawing a circle with a radius of three hundred fifty feet (350′) plus one-half the width of the front of the premises from the center of the premises projected to the streets. A person shall be considered to reside within the petition circle of a premises for which an application for bed and breakfast establishment has been submitted to the Board of Public Service if: (1) his domicile is within the petition circle; and (2) he is registered to vote from an address within the petition circle on the date on which an application is filed. A person shall be considered to conduct a business within the petition circle if he is engaged in any business or professional activity on the main or surface floor of a building and if he leases or rents space for such purpose, or owns property used for such purpose, within the petition circle. Where a corporation is conducting business within the petition circle, the signature of the local managing officer shall, for purposes of this chapter, be considered the signature of a person conducting business within the petition circle. If there are less than twenty (20) property owners within the petition circle of a licensed premises or proposed licensed premises, a protest may be initiated against the license for such premises by a protest letter signed by a majority of property owners within the petition circle. If there are less than twenty (20) persons residing or conducting business within the petition circle of a licensed premises or proposed licensed premises, a protest may be initiated against the license for such premises by a protest letter signed by a majority of the persons residing or conducting business within the petition circle. Such letter shall contain the name and address of the licensed premises or proposed licensed premises which is the subject of the protest, the type of license being protested, and the name of the person who shall serve as the protest representative. Upon verifying that there are sufficient signatures on the protest letter to initiate a protest, the Secretary of the Board of Public Service shall issue protest petitions to the protest representative. He shall also notify the licensee or applicant whose license or application is the subject of the protest, the Alderman for the ward in which the licensed premises is or would be located and the Police Department that a protest has been initiated against the license or application. Such notice shall contain an explanation of the protest procedures as established by this chapter and title, and by the rules and regulations of the Board of Public Service. If the protest is against renewal or continuation of a license notice shall be served at the licensed premises upon either the licensee or any employee, agent or servant of the licensee found upon the licensed premises. If the protest is against an application for a license, service of the notice shall be made by sending the notice by registered United States mail, return receipt requested, to the address given by the applicant on the license application submitted to the Board of Public Service.

B. A protest shall not be initiated against renewal more than 45 days, nor less than 14 days, prior to the date on which the existing license for the premises which is the subject of the protest is scheduled to expire. A protest may be initiated against continuation of a license at any time during the term of the license, however, any protest letter submitted to the Board of Public Service less than 45 days prior to the date on which the existing license for the premises which is the

subject of the protest is scheduled to expire shall be treated as a protest against renewal of the license. A protest may be initiated against an application for issuance of a license at any time up to the time set for the hearing on such application. The application hearing shall not be postponed because of the filing of a protest against such application; however, the Board of Public Service shall make no decision concerning whether to issue the license applied for until after the conclusion of the protest hearing provided for by the provisions of this chapter. No protest may be initiated against the continuation of a license for a period of six months after the Board has denied, after a hearing, a previous protest against such license. (1994 C., § 26.66.050; Ord. No. 62589, § 5, 1992.)

26.66.060 Protest petitions—Contents—Time for collection of signatures.

A. The Board of Public Service shall promulgate a protest petition form. There shall be a heading on each page of the petition which shall: (1) identify by trade name and address the licensed premises or proposed licensed premises which is the subject of the protest; (2) give the name of the licensee or applicant; (3) state that persons signing the petition are supporting the protest filed against the license or application of the licensee or applicant for the premises named on the petition; and (4) contain such additional information as may be required under the rules and regulations of the Board. No signature appearing on a protest petition shall be considered valid unless the name and address of the person who signed the petition is printed on the face of the petition next to his signature.

B. The Board of Public Service shall not, except for good cause shown, accept any protest petition submitted more than thirty days from the date on which the protest petitions were issued to the protest representatives; except that where the thirtieth day after the date on which the protest petitions were issued falls on a Saturday, Sunday or holiday, the Board shall accept protest petitions filed on the next working day thereafter. (1994 C., § 26.66.060; Ord. No. 62589, § 6, 1992.)

26.66.070 Hearing on protest—Notice—Procedure.

A. After the last date on which protest petitions may be submitted, the Board shall fix a date for a hearing on the protest. Such hearing shall be held not less than twenty, nor more than thirty, days following the last date on which protest petitions may be submitted. The Board shall have power to continue the hearing for good cause. The Board shall not schedule a hearing for a protest against continuation of a license, and shall summarily dismiss such protest where no protest petitions are submitted to him prior to the closure date for submission of protest petitions.

B. The Board shall, at least ten days prior to the date on which the protest hearing is scheduled, cause notice of the time, place and date of the hearing to be served on the licensee or applicant whose license or application is the subject of the protest. If the protest is against renewal or continuation of a license, notice of the protest hearing shall be served at the licensed premises upon either the licensee or any employee, agent or servant of the licensee found upon the licensed premises. If the protest is against an application for a license, service of the notice shall be made by sending the notice by registered United States mail, return receipt requested, to the address given by the applicant on the license application submitted to the Board of Public Service. The Board shall also, at least ten days prior to the date on which a protest hearing is scheduled, cause notice of the time, place and date of such hearing to be served upon the protest representative, the Alderman of the ward in which the licensed premises is or would be located, and the Police Department. Service of the notice upon the protest representative shall be made by sending the notice by registered United States mail, return receipt requested, to the address given by the protest representative on the written letter of protest. In addition, the Board shall cause a placard containing the words "HEARING ON PROTEST AGAINST BED AND BREAKFAST ESTABLISHMENT LICENSE IN THIS BLOCK," printed in bold black letters at least 1½ inches in height, to be placed at each end of the block on the side of the street where the licensed premises or the proposed licensed premises which are the subject of the protest hearing is or would be located, unless such placement is not possible. If it is not possible to place said placards in the manner specified in the previous sentence, the person posting the placards shall place the placards in such manner as to give the greatest notice to passersby of the protest hearing. Said placards shall specify in clear and legible lettering the time, place and date of the hearing, the trade name and address of the licensed premises or premises proposed to be licensed, the name of the licensee or applicant whose license or application is the subject of the protest, and the type of license which is the subject of the

protest. Neither the protest representative nor anyone else signing a protest letter or petition shall be liable for the costs of said placarding.

C. At the protest hearing, both the protest representative and the licensee or applicant whose license or application is the subject of the protest shall be entitled to produce testimony under oath and to be represented by counsel, and the Board shall have the power, on his own motion, to subpoena witnesses and to take testimony under oath pertaining to all matters connected with the protest. The Alderman for the ward in which the premises which is the subject of the protest is located, together with the Police Department, shall have the right to be heard at the hearing.

D. The protest hearing shall be a bifurcated proceeding. During the first phase of the hearing, the Board shall consider evidence concerning whether the protest petitions submitted to him contain the signatures of a valid majority of either: (1) persons residing or conducting business within the petition circle of the licensed premises or proposed licensed premises which is the subject of the protest; or (2) persons owning property within said petition circle. The Board shall also consider during the first phase of the hearing any testimony offered concerning the sufficiency of the written protest letter which initiated the protest, including, but not limited to, evidence concerning whether the letter contained sufficient signatures to initiate the protest. After conclusion of the first phase of the hearing the Board shall make a decision as to whether the protest petitions submitted to him contain a valid majority of either persons residing or conducting business, or persons owning property, within the petition circle. He need not, prior to initiation of the second phase of the hearing, make any determination as to the sufficiency of the written protest letter. During the second phase of the hearing, the Board shall consider evidence concerning whether issuance, renewal or continuation of the license which is the subject of the protest would be detrimental to the neighborhood in which the licensed premises is or would be located. (1994 C., § 26.66.070; Ord. No. 62589, § 7, 1992.)

26.66.080 Protests—Necessity of majority of signatures on petition protecting continuation of license—Effect.

A. A protest against continuation of a license may only be sustained by the Board if the protest petitions submitted to it to protest such continuation contain the signatures of either a majority of the persons residing or conducting business within the petition circle of the licensed premises which is the subject of the protest or a majority of the persons owning property within such petition circle. If, after the first phase of the hearing is completed, the Board determines that the protest petitions submitted to it in protest of continuation of a license contain the signatures of neither a majority of the persons residing or conducting business within the petition circle of the licensed premises which is the subject of the protest nor a majority of the persons owning property within such petition circle then it shall deny the protest and shall not consider evidence of whether continuation of the license would be detrimental to the neighborhood in which the licensed premises is located.

B. If the Board determines, after the first phase of the hearing is completed, that protest petitions submitted to it to protest an application for a license contain the signatures of either a majority of the persons residing or conducting business within the petition circle of the proposed licensed premises which is the subject of the protest or a majority of the persons owning property within such petition circle, then the Board shall sustain the protest and refuse to grant the license applied for, regardless of any evidence concerning detriment to the neighborhood. (1994 C., § 26.66.080; Ord. No. 62589, § 8, 1992.)

26.66.090 Protests—Allocation of burden of proof—Grounds for sustaining protests—Effect of sustaining protest.

A. If the Board determines after the first phase of the protest hearing that the protest petitions submitted to it contain the signatures of either: (1) a majority of the persons residing or conducting business within the petition circle of the licensed premises which is the subject of the protest; or (2) a majority of the persons owning properly within such petition circle, it shall sustain the protest unless the licensee shows by a preponderance of the evidence submitted at the hearing that renewal or continuation of the license would not be detrimental to the neighborhood in which the licensed premises is located. If the Board determines after the first phase of the protest hearing that the protest petitions submitted to it do not contain the signatures of either a majority of the persons residing or conducting business within the petition circle of the licensed premises which is the subject of the protest or

a majority of the persons owning property within such petition circle, the Board shall deny the protest, unless the protestors show by a preponderance of the relevant evidence submitted at the hearing that issuance or renewal of the license would be detrimental to the neighborhood in which the licensed premises is or would be located.

B. If the Board sustains a protest against issuance of a license it shall refuse to grant such license to the person applying therefor. If it sustains a protest against renewal of a license such license shall not be revoked, but the Board shall refuse to renew such license after it expires. If the Board sustains a protest against continuation of a license it shall cancel such license effective one month after any decision is filed upholding such protest. If the license expires by operation of law before it can be cancelled it shall not be renewed. (1994 C., § 26.66.090; Ord. No. 62589, § 9, 1992.)

26.66.100 Extension of protested license.

Where a protest has been filed against continuation or renewal of a license and the license expires prior to a decision by the Board on the protest, the Board shall grant an extension of the license. If the Board sustains a protest, the extension shall expire on the date on which the decision on the protest is issued. (1994 C., § 26.66.100; Ord. No. 62589, § 10, 1992.)

26.66.110 Withdrawal of signatures from protest petitions.

Any person who has signed a protest petition against the issuance, continuation, or renewal of a license may withdraw his signature from such petition by submitting a letter to the Board requesting withdrawal in person at the hearing. The Board may also allow a person to withdraw his signature from a protest petition if it finds, based upon a preponderance of evidence, that the circulator of a petition threatened or coerced such person or that the circulator made a material misrepresentation of fact concerning the licensed premises or proposed licensed premises to such person. (1994 C., § 26.66.110; Ord. No. 62589, § 11, 1992.)

Chapter 26.68

COMPREHENSIVE SIGN CONTROL REGULATIONS

Editor's Note:

Ord. No. 69198, adopted July 18, 2012, repealed Ch. 26.68 and enacted a new chapter as set out herein. The former Ch. 26.68, §§ 26.68.010—26.68.190, pertained to similar subject matter and derived from Ord. No. 68849, adopted Feb. 14, 2011.

Prior ordinance history: Ords. 59979, 60949, 63858, 64459, 65790 and 68849

26.68.010 Scope of chapter.

These regulations shall govern and control the erection, remodeling, enlarging, moving, operation and maintenance of all signs by conforming uses within all zoning districts. Nothing herein contained shall be deemed a waiver of the provisions of any other ordinance or regulation applicable to signs. Signs located in areas governed by several ordinances and/or applicable regulations shall comply with all such ordinances and

regulations. (1994 C., § 26.68.010; Ord. No. 69198, § 4, 7-18-2012.)

26.68.015 Purpose.

In interpreting and applying the provisions of the sign regulations of the Zoning Code, they shall be held to the minimum requirements for the promotion of the public health, traffic safety and convenience, comfort, prosperity, aesthetics and general welfare. (1994 C., § 26.68.015; Ord. No. 69198, § 4, 7-18-2012.)

26.68.020 Definitions.

For the purpose of this chapter the following terms, phrasing, words and their deviations shall have the meaning given herein:

1. *Animation or animated sign.* "Animation or animated sign" means any sign or part of a sign which changes physical position by any movement or rotation, including electronic and video display changed by remote or automatic means.

2. *Area of sign.* The area of a sign shall be measured in conformance with the regulations as herein set forth provided that the structure or bracing of a sign shall be omitted from measurement unless such structure or bracing is made part of the message or face of the sign. Where a sign has two faces at a right angle to the building or street, the area of one face shall determine the area of the sign. Where a sign has two faces not at a right angle to the building or street or has three or more faces, the area of all faces shall determine the area of the sign.

a. *Signs with backing.* The area of all signs with backing or a background, material or otherwise, that is part of the overall sign display shall be measured by determining the sum of the areas of each square, rectangle, triangle, portion of a circle or any combination thereof which creates the smallest single continuous perimeter enclosing the extreme limits of the display surface or face of the sign including all frames, backing, face plates, nonstructural trim or other component parts not otherwise used for support.

b. *Signs without backing.* The area of all signs without backing or a background, material or otherwise, that is part of the overall sign display shall be measured by determining the sum of the area of each square, rectangle, triangle, portion of a circle or any combination thereof which creates the smallest single continuous perimeter enclosing the extreme limits of each work, written representation (including any series of letters), emblems or figures of similar character including all frames, face plates, nonstructural trim or other component parts not otherwise used for support.

c. *All other signs or combinations thereof.* The area of any sign having parts both with and without backing shall be measured by determining the total area of all squares, rectangles, triangles, portions of a circle of any combination thereof constituting the smallest single continuous perimeter enclosing the extreme limits of any of the following combinations: the display surface or face of the sign including all frames, backing, face plates, nonstructural trim or other component parts not otherwise used for support for parts of the sign that have backing and each words, written representation (including any series of letters), emblems or figures or a similar character including all frames, face plates, nonstructural trim or other component parts not otherwise used for support for parts of the sign having no backing.

3. *Building front.* "Building front" means that exterior wall of a building facing the front line of a premises.

4. *Display surface or face.* "Display surface or face" means the area made available by the sign structure for the purpose of displaying the message.

5. *Distance of sign projection.* "Distance of sign projection" means the distance from the exterior wall surface of the building to the display face of a wall sign.

6. *Electronic message center.* "Electronic message center" means a sign or device capable of displaying letters, numbers, words, symbols, figures or images, including graphics, that can be electronically, digitally or mechanically changed by remote or automatic means. This definition includes what is commonly referred to as a "digital" sign or device.

7. *Exterior wall surface.* "Exterior wall structure" means the most exterior part of a wall, sun screen or any screening or material covering a building.

8. *Flashing signs.* "Flashing sign" means any directly or indirectly illuminated sign either stationary or animated, which exhibits changing natural or artificial light or color effects by any means whatsoever, including blinking, fluctuating scrolling or fading.

9. *Ground sign.* "Ground sign" means a sign supported by poles, uprights or braces extending from the ground or an object on the ground but not attached to any part of any building. Height measurement for ground signs shall be from the grade level or the level of the abutting roadway whichever is higher.

10. *Illuminated sign.* "Illuminated sign" means a sign lighted by or exposed to artificial lighting either by lights on the sign or within the sign or directed towards the sign.

a. *Concealed light source.* Internal and external lighting, such as neon tubing, flood lights, thin line and gooseneck reflectors are permitted provided the light source is directed upon the face of the sign and is effectively shielded so as to prevent beams or rays of light from being directed toward any person facing such sign or device upon any public way or street and shall not be of such intensity so as to cause glare or impair the vision of any person upon any public way or street or adjoining premises. Neon tubing shall be enclosed in channels or covered by plastic faces.

b. *Exposed light source.* Internal and external lighting, such as neon tubing and lamps are permitted, provided the intensity of such lighting shall not cause glare or impair the visions of any person, facing such sign or device, upon any public way, street or adjoining premises.

11. *Joint identification sign.* "Joint identification sign" means a sign which serves as a common or collective identification for two (2) or more businesses or industrial uses on the same premises.

12. *Marquee sign.* "Marquee sign" means a sign on or attached to a permanent overhanging shelter that projects from the face of a building and is supported entirely by the building and which sign is painted on or erected against the marquee. Said such signs shall not exceed seven (7) feet in height nor shall they project below the face of the marquee nor lower than ten (10) feet above the sidewalk. A marquee sign may extend the full length but in no case shall it project beyond the ends of the marquee.

13. *On-premises signs.* "On-premises sign" means a sign relating to products, goods, services or uses which are conducted, sold, manufactured, produced, offered or occurs on the same premises as the sign.

14. *Outdoor general advertising device.* "Outdoor general advertising device" means a device maintained by advertising agencies which advertises products of their customers or clients, and all business signs individually or privately owned which are not on the premises of the owner or place of business to which they apply, including wall signs and those otherwise attached to buildings and structures or devices, as well as those not attached to buildings and supported by uprights or braces on the ground.

15. *Projecting sign.* "Projecting sign" means a sign attached to a building at an angle, provided:

a. There is no more than one such sign for each entrance door to a business establishment;

b. It projects no more than five (5) feet from the building;

c. The sign advertises a use which occupies at least eighteen (18) feet of sign frontage;

d. The bottom of the sign is at least ten (10) feet from grade and its top is no higher than whichever of the following is highest: forty (40) feet above grade, or the height of the building at the building line; and

e. No support for a sign shall extend above the cornice line of a building to which it is attached.

The area of a projecting sign is included in the gross area of all allowable signs of the applicable zoning district except ground signs. Only one side of a projecting sign shall be counted in computing the total square feet of a sign.

16. *Roof line.* "Roof line" means the highest point on any building where an exterior wall encloses usable floor area including floor area provided for housing mechanical equipment.

17. *Roof sign.* "Roof sign" means an on-premises sign which projects above the roof line or is located on the roof of a building or structure.

18. *Sign.* "Sign" means any object or device or part thereof situated outdoors which is used to advertise, identify, display, direct or attract attention to an object, person, institution, organization, business product, service, event, or location by any means including words, letters, figures, designs, symbols, fixtures, colors, motion, illumination or projected images.

19. *Sign with backing.* "Sign with backing" means any sign that is displayed upon, against or through any material or color surface or backing that forms an integral part of such display and differentiates the total display from the background against which it is placed.

20. *Sign without backing.* "Sign without backing" means any word, letter, emblem, insignia, figure or similar character or group thereof, that is neither backed by, incorporated in or otherwise made part of any larger display area.

21. *Sign frontage.* "Sign frontage" means the length along a ground floor building front, facing a street or a private way accessible from a street, which is occupied by a separate and distinct use or by the same use which occupies the front of said building.

22. *Street front.* "Street front" means any boundary line of a premises or parcel of land that runs parallel to and within twenty (20) feet of the right-of-way of a street or highway designated and assigned an individual name or number by the legislative action of the municipality.

23. *Street property line.* "Street property line" means a common boundary between private property and a dedicated street or alley.

24. *Temporary sign.* "Temporary sign" means any exterior sign or advertising display constructed of cloth, canvas, fabric, plywood, metal or other material intended to be displayed for a short period of time not in excess of six (6) months.

25. *Wall sign.* "Wall sign" means a sign attached to, painted on, or erected against a wall or parapet wall of a building or structure which extends no more than twenty-four (24) inches from the wall surface upon which it is attached and whose display surface is parallel to the face of the building to which the sign is attached.

26. *Wind sign.* "Wind sign" means any sign in the nature of a series of two (2) or more banners, flags, pennants or other objects or material which call attention to a product or service fastened in such a manner as to move upon being subjected to pressure by wind or breeze.

27. *Window sign.* "Window sign" means a sign which is applied or attached to, or located within three (3) feet of the interior of a window, which sign can be seen through the window from the exterior of the structure. (1994 C., § 26.68.020; Ord. No. 69198, § 4, 7-18-2012.)

26.68.030 Reserved.

26.68.050 Reserved.

26.68.055 Signs on vacant City or Land Reutilization Authority of the City of St. Louis-owned properties.

A. Notwithstanding to the contrary any ordinance, statute, or legal authorization from the City or Land Reutilization Authority, respectively, the placement of any sign on any building or structure owned by the City or the Land Reutilization Authority which is vacant or unoccupied, on any traffic control device or signal or on any utility pole is prohibited.

B. Notification of Violation—Removal Required. Upon receiving a complaint from any person that a sign or advertisement has been placed in violation of this chapter, the Building Commissioner shall issue a notice to the person, partnership or corporation whose name appears on such sign or advertisement requiring such person, partnership or corporation to remove the signage within fifteen (15) days of the date of the notice. Failure to remove the signage with this period of times shall constitute a violation of this section.

C. Penalty for Violation. Any person who is found guilty or who enters a plea of guilty to a violation of this section shall be punished by a fine of not more than $500.00 or by imprisonment of not more than ninety (90) days or by both a fine and imprisonment. (1994 C., § 26.68.055; Ord. No. 69198, § 4, 7-18-2012.)

26.68.060 Permits required in all districts.

No person shall erect a sign not described herein above until a building permit for said sign has been issued by the Building Commissioner stating that said proposed sign complies with the rules and regulations described herein below relating to signs. In addition to other information with regard to said sign as may be required by the Building Commissioner, the applicant must provide a glossy 8" × 10" photograph(s) of the premises where the sign is proposed which adequately shows all existing signs on the premises, and all pertinent information needed to properly review the application as requested by the Building Commissioner. If said sign complies with the herein below rules and regulations, the permit may be issued by the Building Commissioner if said sign also complies with all applicable provisions of the Building Code of the City; if said sign fails to comply with the rules and regulations set out herein below said permit shall not be issued, regardless of whether said sign complies with all provisions of the Building Code of the City. (1994 C., § 26.68.060; Ord. No. 69198, § 4, 7-18-2012.)

26.68.070 Signs in historic districts.

No sign shall be erected within a district which has been zoned an historic district, unless said sign meets and satisfies an requirements of the applicable historic district ordinance and accompanying development plan, which ordinance has been approved by the Board of Aldermen and the Mayor of the City. (1994 C., § 26.68.070; Ord. No. 69198, § 4, 7-18-2012.)

26.68.080 Signs in zone districts A, B, C, D, and E.

A. *General.* On premises signs may be erected, altered and maintained only for and by a conforming

use in the district in which the signs are located; shall be located on the same premises as the conforming use and shall be clearly incidental, customary and commonly associated with the operation of the conforming use; provided, however, that no sign of any type shall be erected or maintained for or by a single unit dwelling.

B. *Permitted Contents.* Identification by letter, numeral, symbol or design of the conforming use by name, use, hours of operation, services offered and events.

C. *Permitted Sign Types.* Wall, window and ground.

D. *Permitted Maximum Number.* One (1) sign for each front line of the premises on which the conforming use is located.

E. *Permitted Maximum Sign Area.*

1. *Hotel and Motel.* No one sign shall exceed thirty (30) square feet.

2. *All other uses.* Total signage shall not exceed thirty (30) square feet.

F. *Permitted Maximum Height.*

1. *Wall and Window Signs.* The roof line of the building to which the sign is attached.

2. *Ground Signs.* Six (6) feet above grade.

G. *Permitted Location.*

1. *Wall and Window Signs.* Shall be set back from the boundary lines of the premises on which they are located, the same distance as a building containing a conforming use; provided, however, wall signs may project into the required setback space the permitted depth of the sign;

2. *Ground Signs.* Shall be set in at least ten (10) feet from every boundary line of the premises or shall be set in on a line parallel with the exterior line of any building on the said premises.

H. *Permitted Illumination.* May be illuminated but only from a concealed light source, shall not remain illuminated between the hours of 12:00 a.m. and 6:00 a.m., and shall not flash, blink, fade, scroll or fluctuate.

I. *Animation.* Shall not be animated. (1994 C., § 26.68.080; Ord. No. 69198, § 4, 7-18-2012.)

26.68.090 Signs in zone district F.

A. *General.* On premises signs may be erected, altered or reconstructed only for and by a conforming use in the district in which the signs are located; shall be located on the same property as the conforming use and shall be clearly incidental, customary and commonly associated with the operation of the conforming use; provided, however, that no sign of any type shall be erected or maintained for or by a single unit dwelling except signs identifying home occupations.

B. *Permitted Contents.* Identification by letters, numeral, symbol or design of the conforming use, by name, use, hours of operation, services offered and events.

C. *Permitted Sign Types.* Wall, window, ground, marquee and roof signs are permitted. Projecting signs that comply with the provisions in the definition section, designated as Section 26.68.020(15)(a—e), are permitted.

D. *Permitted Maximum Sign Area.*

1. Hotel and Motel. No one sign shall exceed two hundred (200) square feet.

2. All Other Uses. The total area in square feet of all on-premises signs on a sign frontage, except for free-standing signs shall not exceed:

Average Distance of Sign from Center Line of Abutting Street	Sign Frontage Multiplied by
Less than 100	2*
100—399	4
400 and over	5

*Excepting that a use with less than twenty-five (25) feet of sign frontage may have a maximum of fifty (50) square feet of on-premises signs.

3. The distance of a sign on or under a canopy, marquee or awning from the center line of an abutting street shall be constructed to be the same as if such sign were attached to the building to which the said canopy, marquee or awning is attached.

4. If the first floor of a building is substantially above street grade and the basement is only partially below street grade, separate occupants of each level may each have one-half (½) the square feet of signage to which use would be entitled if it were a single ground floor use.

5. If a building fronts on two (2) or more streets, the sign area for each street frontage shall be computed separately.

6. If the ground sign has two (2) faces the area of each face shall not exceed seventy-five (75) square feet; if a ground sign has more than two (2) faces the total of all faces shall not exceed one hundred fifty (150) square feet. A premise with a front line of two hundred (200) feet or more may have two (2) ground signs.

E. *Permitted Maximum Height.*

1. *Wall and Window Signs.* The roof line of the building to which the sign is attached.

2. *Ground Signs.* Shall not exceed thirty (30) feet above grade.

3. *Roof Signs.* Including the supporting structures fifty percent (50%) of the building height on which they are erected but a maximum height of five (5) feet above roof line, or parapet wall if it is higher than the roof line. Further, there must be a clear space of not less than four (4) feet between the lowest part of the sign and roof level, except for necessary structural supports, if sign is over one hundred (100) square feet in size. If such clearance is necessary said sign cannot exceed nine (9) feet above roof line or parapet wall. If sign is less than one hundred (100) square feet no such clearance is necessary.

F. *Permitted Location.*

1. *Wall and Window Signs.* Shall be set in from the boundary lines of the premises on which it is located, the same distance as a building containing a conforming use; provided, however, wall signs may project into the required setback space the permitted depth of the sign.

2. *Ground Signs.* Shall be set in at least three (3) feet from every boundary line of the premises.

G. *Permitted Illumination. Concealed or exposed light source.* No sign shall be illuminated that it interferes with the effectiveness of an official traffic sign, signal or device; illumination shall not flash, blink, fade, scroll or fluctuate.

H. *Animation.* Shall not be animated. (1994 C., § 26.68.090; Ord. No. 69198, § 4, 7-18-2012.)

26.68.100 Signs in zone districts G and H.

A. *General.* On premises signs may be erected, altered or reconstructed only for and by a conforming use in the district in which the signs are located; shall be located on the same premises as the conforming use; and shall be clearly incidental, customary and commonly associated with the operation of the conforming use.

B. *Permitted Contents.* Identification by letter, numeral, symbol and design of the conforming use by name, use, hours of operation, services and products offered, events and prices of products and services.

C. *Permitted Sign Types.* Wall, window, ground, marquee and roof signs are permitted. Projecting signs that comply with the provisions in the definition section, designated as Section 26.68.020(15)(a—e), are permitted.

D. *Permitted Maximum Sign Area.*

1. Hotels and Motels. On premises having a linear street frontage of one hundred (100) feet or less: one hundred (100) square feet; on premises having a linear street frontage of more than one hundred feet: one (1) square foot of street front; provided, however, computations shall be made and sign area shall be made and sign area shall be determined on each street front separately, and provided, further, that in no event shall more than three hundred (300) square feet of sign area be applied to any one (1) street front and no sign shall exceed three hundred (300) square feet in size.

2. All Other Uses. The total area in square feet of all on-premises signs on a sign frontage, except for free-standing signs, shall not exceed:

Average Distance of Sign from Center Line of Abutting Street	Sign Frontage Multiplied by
Less than 100	3*
100—399	4
400 and over	5

*Excepting that a use with less than twenty-five (25) feet of sign frontage may have a maximum of fifty (50) square feet of on-premises signs.

3. The distance of a sign on or under a canopy, marquee and awning from the center line of an abutting street shall be construed to be the same as if such sign were attached to the building to which the said canopy, marquee or awning is attached.

4. If the first floor of a building is substantially above street grade and the basement is only partially below street grade, separate occupants of each level may each have one-half (½) the square feet of signage to which use would be entitled if it were a single ground floor use.

5. If a building fronts on two (2) or more streets, the sign area for each street frontage shall be computed separately.

6. If the ground sign has two (2) faces the area of each face shall not exceed one hundred (100) square feet; if a ground sign has more than two (2) faces the total of all faces shall not exceed two hundred (200) square feet. A premises with a front line of two hundred (200) feet or more may have two (2) ground signs.

E. *Permitted Maximum Height.*

1. *Wall and Window Signs.* The roof line of the building to which the sign is attached.

2. *Ground Signs.* Shall not exceed thirty (30) feet above grade.

3. *Roof Signs.* Including the supporting structures fifty percent (50%) of the building height on which they are erected but a maximum height of ten (10) feet above roof line, or parapet wall if it is higher than the roof line. Further, there must be a clear space of not less than four (4) feet between the lowest part of the sign and the roof level, except for necessary structural supports, if sign is over one hundred (100) square feet in size. If such clearance is necessary said sign cannot exceed fourteen (14) feet above roof line or parapet wall. If sign is less than one hundred (100) square feet no such clearance is necessary.

F. *Permitted Location.* Ground signs shall be set in at least three (3) feet from every boundary line of the premises. Provided, however, wall signs may project into the required setback space the permitted depth of the sign.

G. *Permitted Illumination.* Concealed or exposed light source. No sign shall be illuminated that it interferes with the effectiveness of an official traffic sign, signal or device. Illumination shall not flash, blink, fade, scroll or fluctuate.

H. *Animation.* May be animated unless the Building Commissioner shall determine that animation will constitute a distraction to traffic or a source of undue annoyance to adjoining uses.

I. *Joint Identification Signs.* Subject to the conditions hereinafter set forth and upon application to and issuance by the Building Commissioner of a sign permit therefor, joint identification signs are permitted for three (3) or more conforming uses on the same premises as the sign, excluding parking. The following joint identification signs are in addition to all other signs:

1. *Permitted Sign Types of Joint Identification Signs.* Wall and ground.

2. *Permitted Maximum Number of Joint Identification Signs.* One (1) sign for each front line of the premises.

3. *Permitted Area of Joint Identification Signs.* The greater number of the following: (1) one hundred (100) square feet or (2) two (2) square feet of sign area for each linear foot of street frontage on the premises; provided, however, that the total area of all signs on each front line of the premises shall not exceed two hundred (200) square feet.

4. *Permitted Maximum Height Above Grade of Joint Identification Signs.* Thirty-five (35) feet.

5. *Permitted Location of Joint Identification Signs.* Shall be set in at least three (3) feet from every boundary line of the premises.

6. *Permitted Illumination of Joint Identification Signs.* May be illuminated but shall not flash, blink, fade, scroll or fluctuate and shall only be illuminated by a concealed or exposed light source.

7. *Animation of Joint Identification Signs.* Shall not be animated. (1994 C., § 26.68.100; Ord. No. 69198, § 4, 7-18-2012.)

26.68.110 Signs in zone districts J and K.

A. *General.* On premises signs may be erected or altered and reconstructed only for and by a conforming use in the district in which the signs are located; shall be located on the same premises as the conforming use and shall be clearly incidental, customary and commonly associated with the operation of the conforming use.

B. *Permitted Contents.* Identification by letter, numeral, symbol or design of the conforming use by name, use, hours of operation, services and products offered, events and prices of products and services.

C. *Permitted Sign Types.* Wall, window, roof, projecting, marquee ground and electronic message center signs, provided such electronic message center signs meet the following criteria;

1. The sign shall not flash, blink, fade, scroll, fluctuate or have animation and shall only be illuminated by a concealed or exposed light source.

2. Each message on the sign shall be displayed for a minimum of five (5) minutes.

3. The sign shall not be located within five hundred (500) feet of any premises used as a dwelling unit or zoned residential.

4. Only one (1) such sign shall be allowed and the electronic message center portion of such sign size shall not exceed ten (10) square feet per side and no letter or numeral on any sign shall exceed ten (10) inches by 14 (fourteen) inches in size. No sign shall have more than two sides.

D. *Permitted Maximum Sign Area.* The total area in square feet of all on premises signs on a sign frontage, except for free-standing signs shall not exceed:

Average Distance of Sign from Center Line of Abutting Street	Sign Frontage Multiplied by
Less than 100	4*
100—399	5
400 and over	6

*Excepting that a use with less than twenty-five (25) feet of sign frontage may have a maximum of fifty (50) square feet of permanent signs.)

1. The distance of a sign on or under a canopy, marquee or awning from the center line of an abutting street shall be construed to be the same as if such sign were attached to the building to which the said canopy, marquee or awning is attached.

2. If the first floor of a building is substantially above street grade and the basement is only partially below street grade, separate occupants of each level may each have one-half (½) the square feet of signage to which use would be entitled if it were a single ground floor use.

3. If a building fronts on two (2) or more streets, the sign area for each street frontage shall be computed separately.

4. If the ground sign has two (2) faces the area of each face shall not exceed one hundred twenty-five (125) square feet; if a ground sign has more than two (2) faces the total of all faces shall not exceed one hundred fifty (150) square feet. A premise with a front line of two hundred fifty (250) feet or more may have two (2) ground signs.

5. Roof signs shall be limited to one (1) per building except in the case of a group of buildings under the same ownership, one (1) per building group.

E. *Permitted Maximum Height.*

1. *Wall and Window Signs.* The roof line of the building to which the sign is attached.

2. *Ground Signs.* Fifty (50) feet above grade.

3. *Roof Signs.* Including the supporting structures fifty percent (50%) of the building height on which they are erected but a maximum height of thirty-five (35) feet above roof line, or parapet wall if it is higher than the roof line. Further, there must be a clear space of no less than four (4) feet between the lowest part of the sign and the roof level, except for necessary structural support, if sign is over one hundred (100) square feet in size. If such clearance is necessary said sign cannot exceed thirty-nine (39) feet above roof line or parapet wall. If sign is less than one hundred (100) square feet no such clearance is necessary.

F. *Permitted Location.*

1. *Wall and Window Signs.* Set back from the boundary lines of the premises on which it is located, the same distance as a structure containing a conforming use; provided, however, wall signs may project into the required setback space and permitted depth of the sign.

2. *Ground Signs.* Any location provided that the sign is at least three (3) feet from any boundary line of the premises on which the conforming use is located.

G. *Permitted Illumination.* May be illuminated but shall not flash, blink, fade, scroll or fluctuate and shall be illuminated by a concealed or exposed light source. (1994 C., § 26.68.110; Ord. No. 69198, § 4, 7-18-2012.)

26.68.120 Signs in zone districts I and L.

A. *General.* Signs may be erected, altered and maintained only for and by a conforming use in the district in which the signs are located; shall be located on the same premises as the conforming use and shall be clearly incidental, customary and commonly associated with the operation of the conforming use.

B. *Permitted Contents.* Identification by letter, numeral, symbol or design of the conforming use by name, use, hours of operation, services and products offered, events and prices of products and services.

C. *Permitted Sign Types.* Window signs; wall signs other than wall signs which are painted on the side of a building. Ground signs which denote names, entrances, exits, rates and hours of operation for parking lots. Projecting signs that comply with the provisions outlined in the definition section—Section 26.68.020(15)(a—e).

D. *Permitted Maximum Sign Area.* The total area in square feet of all on premises signs on a sign frontage, except for freestanding signs, shall not exceed:

Average Distance of Sign from Center Line of Abutting Street	Sign Frontage Multiplied by
Less than 100	3*
100—399	4
400 and over	5

*Excepting that a use with less than twenty-five (25) feet of sign frontage may have a maximum of fifty (50) square feet of on-premises signs.

1. The distance of a sign on or under a canopy, marquee or awning from the center line of an abutting

street shall be construed to be the same as if such sign were attached to the building to which the said canopy, marquee or awning is attached.

2. If the first floor of a building is substantially above street grade and the basement is only partially below street grade, separate occupants of each level may each have one-half (½) the square feet of signage to which use would be entitled if it were a single ground floor use.

3. If the building fronts on two (2) or more streets, the sign area for each street frontage shall be computed separately.

4. A parking lot ground sign in zone district I or L shall have no more than two (2) faces and the area of each face shall not exceed thirty (30) square feet.

E. *Permitted Maximum Height.*

1. *Wall and Window Signs.* The roof line of the building to which the sign is attached.

2. *Ground Signs.* Twenty (20) feet above grade.

F. *Permitted Location.*

1. *Wall and Window Signs.* Shall be set back from the boundary lines of the premises on which it is located, the same distance as a structure containing a conforming use; provided, however, wall signs may project into the required setback space the permitted depth of the sign.

2. *Ground Signs.* Any location.

G. *Permitted Illumination.* May be illuminated by a concealed or exposed source but shall not flash, blink, fade, scroll or fluctuate.

H. *Animation.* Shall not be animated. (1994 C., § 26.68.120; Ord. No. 69198, § 4, 7-18-2012.)

26.68.130 Outdoor general advertising devices.

A. *Prohibited.* The erection and maintenance of outdoor general advertising devices are non-conforming and prohibited in all districts except as may be allowed pursuant to the provisions of this chapter.

B. *Nonconforming.* Any device lawfully existing prior to March 11, 1988, or prior to the effective date of the ordinance codified in this chapter, but could not be erected in accordance with the provisions herein shall be deemed nonconforming, but may continue in accordance with the following conditions.

1. *Destruction, Damage or Obsolescence.* The right to maintain any non-conforming device shall terminate and shall cease to exist whenever the device is damaged over 60% of its value or destroyed, from any cause whatsoever, or became obsolete or substandard under any ordinance regulating such devices to the extent that the device becomes a hazard or a danger.

2. *Changes.*

a. *Message.* The message of the device may be changed or modified without a permit, subject to all other provisions herein, provided the area of the device is not enlarged, the height or depth of the sign increased or any portion of the device structurally altered.

b. *Maintenance.* Permits shall be obtained pursuant to applicable City ordinance(s) for any alterations (other than changing or modifying the message), electrical work or repairs.

c. *Damage.* Any device that is damaged in excess of 60% of the device shall be deemed unlawful and shall be immediately removed. If the device is not damaged more than 60%, then it may be maintained and repaired pursuant to the maintenance provisions above.

3. *Ownership.* There may be a change in tenancy, ownership or management of a nonconforming device provided there is no change in the area or height of such device.

4. *By Discontinuation.* Discontinuation of a device shall mean the absence of any commercial advertisement or public information message and the discontinuation of any device for a period of sixty days or more regardless of any intent to resume or not to abandon such use or device shall be considered abandonment of use and that device for rent is not considered a continued use under this subsection.

5. *By Relocation.* Unless it is a device under a settlement agreement with the City of St. Louis, any device that is moved or relocated for any reason for any distance whatever, shall become an unlawful device and shall be removed immediately. Devices that are subject to the terms of a settlement agreement with the City of St. Louis may be relocated pursuant to the terms of the agreement and if the relocation site is a conforming site with the State of Missouri as of March 15, 2011.

6. *By Violation of Law.* Any violation of ordinance, state or federal statute shall terminate immediately the right to maintain such device.

7. *Replacement.* A nonconforming device may be replaced with a permit if the replacement device is at the exact same location, of the same kind/type of device, operates in the same manner, has no greater area, no greater height, and has the same or less number of faces than the existing nonconforming device. This

provision shall not apply to devices that have been discontinued, per Section 26.68.130.B.4 of the City of St. Louis Revised Code, and those discontinued devices shall be removed and shall not be replaced.

8. *Removal.* Any device that loses its nonconforming status shall be removed within seven (7) days of such loss of nonconforming status by the owner of the device or the owner of the property on which the device is located. If the device is not removed within said seven (7) days, the Building Commission may remove said device and charge the owner of the device for said removal and the City of St. Louis may also place a lien on the property on which the device is located.

C. *Exemptions.* The following devices are hereby exempted from the provisions of this chapter:

1. All on-premises signs;
2. Repealed;
3. Repealed;
4. Notice of any judicial or public proceeding posted by public officers or employees in the performance of their duties pursuant to laws, ordinances, orders of the court, regulations, policies and procedures;
5. Repealed;
6. Signs required or specifically authorized for a public purpose by a law, statute, regulation or ordinance;
7. Signs of government, public utility, public service, railroad companies, or their contractors which aid safety, indicate installations or repairs, or which show the location of underground facilities;
8. Devices that encroach the public right-of-way that have been lawfully erected;
9. Repealed;
10. Pursuant to RSMo 226.500 to 226.600 (Supp. 1993), any lawfully erected or proposed device located within six hundred sixty feet of the nearest edge of the right-of-way of any interstate or primary highway in areas zoned commercial or industrial subject to the following regulations which are consistent with said Missouri statutes and customary use in the City of St. Louis:

a. The City of St. Louis shall not issue a permit to allow a device to be newly erected without having the requisite permit issued by the Missouri Highways and Transportation Commission;

b. Lighting.

i. No revolving or rotating beam or beacon of light that simulates an emergency light or device shall be permitted as part of any sign. No flashing, intermittent, or moving light or lights will be permitted except scoreboards and other illuminated signs designating public service information, such as time, date, or temperature, or similar information, will be allowed; trivision, electronic, digital, projection or other changeable message signs or devices shall not be allowed, except as provided herein;

ii. The lighting on an outdoor general advertising device shall not exceed the level of 0.3 footcandles over ambient lighting levels using a footcandle meter at a preset distance based on sign size as follows:

Billboard Dimension	Measurement Distance
11 × 22	150'
10.5' × 36'	200'
14' × 48	250'
20' × 60	350'

If the state or federal government adopts more restrictive lighting standards then the more restrictive regulations shall apply;

iii. Signs or devices may not have message surfaces made entirely or partly of light emitting diodes (LEDs) or similar lighting technology. Any sign or general outdoor advertising device with one or more LED message surfaces, trivision display or projection display that was permitted prior to April 16, 2010, shall be considered a nonconforming general outdoor advertising device and shall be allowed to continue in operation and be maintained in accordance with the provisions herein.

iv. External lighting, such as floodlights, thin line and gooseneck reflectors are permitted, provided the light source is directed upon the face of the sign or device and is effectively shielded so as to prevent beams or rays of light from being directed into any portion of the main traveled way of the interstate or federal-aid primary highway and the lights are not of such intensity so as to cause glare, impair the vision of the driver of a motor vehicle, or otherwise interfere with a driver's operation of a motor vehicle; provided the light source is effectively shielded so as to prevent beams or rays of light from shining onto any lot which is used or zoned residential.

v. No sign or device shall be so illuminated that it interferes with the effectiveness of, or obscures, an official traffic sign, device, or signal.

vi. No sign or device shall emit scent, odor, amplified sound, noise, radio frequencies or visible matter with the exception of light.

vii. No sign or device shall use interactive technology that allows electronic communications with the viewers of the sign except for communication necessary for repairs.

viii. The duration of each message on changeable message devices shall be no less than eight (8) seconds. If the state or federal government adopts more restrictive duration standards then the more restrictive regulations shall apply.

c. Size of Signs/Devices.

i. The maximum area per face for any one sign shall be one thousand two hundred square feet, inclusive of border and trim but excluding the base of apron, supports, and other structural members;

ii. The maximum size limitations shall apply to each side of a sign structure, and signs may be placed back to back, or in V-type construction with not more than one display to each facing;

iii. The maximum height of any sign shall be no more than thirty-five feet from the highest point on the device to the grade of the highway from which the sign is intended to be read.

d. Spacing and Location of Signs.

i. No sign structure shall be erected within five hundred feet of an existing sign on the same side of the highway;

ii. No sign structure shall be erected within three hundred feet of any lot which is used or zoned residential, nor shall any sign structure be located:

a. Within fifty feet of any property line of the lot on which the sign structure is located;

b. Within thirty feet from the nearest building;

c. Within one hundred feet of any on-premise sign;

d. In or within 300 feet of any park, playground, school, library, hospital, church, historic district, landmark, an area on the National Register of Historic Places or the Jefferson Memorial District;

e. The spacing between structure provisions of Subsection 10.d.i of this section do not apply to signs which are separated by buildings, natural surroundings, or other obstructions in such manner that only one sign facing located within such distance is visible at any one time. Directional or other official signs or those advertising the sale or lease of the property on which they are located, or those which advertise activities on the property on which they are located, including products sold, shall not be counted, nor shall measurements be made from them for the purpose of compliance with spacing provisions;

f. No sign shall be located in such manner as to obstruct or otherwise physically interfere with effectiveness of an official traffic sign, signal, or device or obstruct or physically interfere with a motor vehicle operator's view of approaching, merging or intersecting traffic;

g. The measurements in this section shall be the minimum distances between outdoor advertising sign structures measured along the nearest edge of the pavement between points directly opposite the signs along each side of the highway and shall apply only to outdoor advertising sign structures located on the same side of the highway involved;

h. No sign shall be located adjacent to or within five hundred feet of an interchange, intersection at grade, or safety rest area. Such distances shall be measured from beginning or ending of the pavement widening at the exit from or entrance to the main traveled way;

i. No sign shall be located on the roof of a building or non-sign structure.

11. Signs located within the redevelopment project area established pursuant to Ordinance No. 65668, approved October 18, 2002. (1994 C., § 26.68.130; Ord. No. 69198, § 4, 7-18-2012.)

26.68.135 Prohibited use of signs.

It shall be unlawful to allow any sign to fall into non-use by failing to display a message or public information message for a period of sixty (60) days or more. If any such sign shall fall into such non-use its removal and dismantling shall be ordered by the Building Commissioner of the City whether or not said sign is a nonconforming sign. Failure to obey the Building Commissioner's said order by removal of said sign or by renewing the use of said sign by placement of a new advertising message or public information message within seven (7) days of receipt of said order shall be unlawful and shall subject the owner of said sign to a fine of not less than twenty-five dollars ($25.00) and not more than five hundred dollars ($500.00) for each week subsequent to such order which passes without compliance with said order. (1994 C., § 26.68.135; Ord. No. 69198, § 4, 7-18-2012.)

26.68.140 Signs for and by nonconforming use in all zone districts.

A. *General.* Signs may be erected, altered and maintained for and by a nonconforming use in any zone district under the following restrictions:

1. *Nonconforming Uses in Zone Districts A and B.* Signs may be erected, altered and maintained for and by a nonconforming use in zone districts A and B subject to all of the restrictions concerning signs for and by conforming uses in zone districts A, B, C, D and E as set out herein above in Section 26.68.080.

2. *Nonconforming Uses in Zone Districts C, D and E.* Signs may be erected, altered and maintained for and by a nonconforming use in zone districts C, D and E subject to all of the restrictions concerning signs for and by conforming uses in zone districts C, D and E as set out herein above in Section 26.68.080.

3. *Nonconforming Uses in Zone District F.* Signs may be erected, altered and maintained for and by a nonconforming use in zone district F subject to all of the restrictions concerning signs for and by conforming uses in zone district F as set out herein above in Section 26.68.090.

4. *Nonconforming Uses in Zone Districts G and H.* Signs may be erected, altered and maintained for and by a nonconforming use in zone districts G and H subject to all of the restrictions concerning signs for and by conforming uses in zone districts G and H as set out herein above in Section 26.68.100.

5. *Nonconforming Uses in Zone Districts I, J, K and L.* Signs may be erected, altered and maintained for and by a nonconforming use in zone districts I, J, K and L subject to all of the restrictions concerning signs for and by conforming uses in zone districts I, J, K and L as set out herein above in Sections 26.68.110 and 26.68.120. (1994 C., § 26.68.140; Ord. No. 69198, § 4, 7-18-2012.)

26.68.150 Nonconforming signs.

A. *Declaration of Public Policy.* A nonconforming sign may be maintained and repaired. If reconstructed (not meaning to restyle or reword), the sign must conform to the regulations in the district in which it is located.

B. *Definition of Nonconforming Signs.* A nonconforming sign shall be any sign which:

1. On the effective date of the ordinance codified in this chapter was lawfully maintained and had been lawfully erected in accordance with the provisions of any prior zoning ordinance but which sign does not conform to the limitations established by this chapter in the district in which the sign is located; or

2. On or after the effective date of the ordinance codified in this chapter was lawfully maintained and erected in accordance with the provisions of this chapter but which sign, by reason of amendment to this chapter after the effective date thereof does not conform to the limitations established by the amendment to this chapter in which the sign is located.

3. Continuance of Nonconforming Signs. Subject to the termination hereinafter provided, any nonconforming sign may be continued in operation and maintained after the effective date of the ordinance codified in this chapter; provided, however, that no such sign shall be changed in any manner that increases the noncompliance of such sign with the provisions of this chapter established for signs in the district in which the sign is located; and, provided, further that the burden of establishing a sign to be nonconforming under this section rests entirely upon the person or persons, firm or corporation claiming a nonconforming status for a sign.

4. Termination of Nonconforming Signs.

a. *By Abandonment.* Abandonment of a nonconforming sign shall terminate immediately the right to maintain such sign.

b. *By Violation of the Title.* Any violation of this title shall terminate immediately the right to maintain a nonconforming sign.

c. *By Destruction, Damage or Obsolescence.* The right to maintain any nonconforming sign shall terminate and shall cease to exist whenever the sign is damaged over sixty percent (60%) of its value or destroyed, from any cause whatsoever, or becomes obsolete or substandard under any applicable ordinance of the municipality to the extent that the sign becomes a hazard or a danger. (1994 C., § 26.68.150; Ord. No. 69198, § 4, 7-18-2012.)

26.68.160 Signs in Chapter 353 Development Plans, in signage overlay plan districts and signs with special provisions.

A. *Chapter 353 Development Plans.* Any urban redevelopment corporation ("developer") formed, existing and in good standing under RSMo Ch. 353 that has obtained approval by ordinance adopted by the Board of Aldermen for the City for a development plan ("Development Plan") in accordance with Chapter 11.06

of the Revised Code of the City of St. Louis may, with respect to the area described in the Development Plan ("Development Area") promulgate uniform sign standards for the development area with respect to the placement, location, size, type and appearance of signs erected or caused to be erected and placed by or on behalf of the developer in connection with its redevelopment activities in the development area including access within the public right-of-way. Such uniform sign standards and any amendments thereto shall be immediately effective upon the approval of such standards by resolution of the Board of Aldermen and shall terminate upon expiration of the agreement approved and authorized by the ordinance approving the Development Plan, as amended or modified; provided, however, that prior to the adoption of any such resolution by the Board of Aldermen, any such standards shall have been reviewed and favorably recommended by the Planning Commission which may delegate said review to the Director of the Planning and Urban Design Agency; and provided further that no authority is given to any developer to regulate or restrict the placement, location, size, type or appearance of signs indicating that any real estate is "for sale" or "for lease"; and provided further that no authority is given to any developer to regulate, restrict placement, location, size, type or appearance of signs as set forth and provided in Section 26.68.130.

B. *Signage Plan Overlay Districts.*

1. A Signage Plan Overlay District may be created by ordinance to promulgate uniform sign standards for a designated district allowing for flexibility in the size, height, type, placement and number of allowed signs. A Signage Plan District provides a means for defining common sign regulations for unique areas of the City, to encourage a creative incentive and latitude in the design and display of signs for the Signage Plan Overlay District.

2. An applicant may apply for the establishment of a Signage Plan Overlay District for any property or project area zoned "F" Neighborhood Commercial District or higher with a minimum of two (2) acres of area and in accordance with other regulations to be established by the Planning Commission.

3. A Signage Plan Overlay District may be approved by ordinance by the Board of Aldermen of the City of St. Louis after a recommendation from the Planning Commission.

4. Notwithstanding the foregoing, any redevelopment project area established pursuant to Ordinance No. 65668, approved October 18, 2002, shall hereby be deemed to be a Signage Plan Overlay District, provided that the developer(s) designated for such redevelopment project area promulgate(s) uniform sign standards with respect to the placement, location, size, height, type and number of signs within such redevelopment area. Such uniform sign standards and any amendments thereto shall be immediately effective upon approval by resolution of the Board of Aldermen.

C. *Kiel Center Arena - Special Provisions.* Notwithstanding the provision of Ordinance 60704, approved March 11, 1988, Ordinance 60364, approved June 18, 1987, Ordinance 62121, approved December 17, 1990, the Zoning Code of the City of St. Louis, a building sign including off-premise outdoor advertising may be erected, maintained and operated on the new Kiel Center Arena located in City Blocks 209 and 210 south subject to the following conditions:

1. Said device shall display no more than five logo signs; and

2. Said device may contain any information or advertising and an electronic message board; and

3. Said device may be either a wall or window type; and

4. Said device may be installed no less than two hundred feet from any other off-premise outdoor general advertising device on the same side of the highway existing at the time of the erection; and

5. Said device may not exceed (a) two hundred feet in length, (b) ten feet in height, and (c) sixty-five feet above grade on Clark Avenue as measured to the bottom of the device.

Except as herein provided, the device shall be subject to all other provisions of the ordinances of the City of St. Louis. (1994 C., § 26.68.160; Ord. No. 69198, § 4, 7-18-2012.)

26.68.170 Prohibited signs.

Any sign not specifically permitted by this title shall be deemed prohibited. These prohibited signs include, but are not limited to the following:

A. Signs which emit any odor, noise, amplified sound, radio frequencies or visible matter, other than light. (1994 C., § 26.68.170; Ord. No. 69198, § 4, 7-18-2012.)

26.68.175 Board-up signage prohibited.

A. The application, by stencil or other similar means, of any words, letters, numbers, or graphic advertising designs on the plywood or other material used to secure openings in vacant or occupied buildings is prohibited.

B. The City of St. Louis and the Land Reutilization Authority shall be exempt from the provisions of this section.

C. Penalty for Violation. Any person violating the provisions of this chapter shall, upon conviction, be punished by a fine of not more than five hundred dollars, or by imprisonment of not more than ninety days, or by both fine and imprisonment. (1994 C., § 26.68.175; Ord. No. 69198, § 4, 7-18-2012.)

26.68.180 Removal of signs within or on public right-of-way or easement.

A. No person, partnership, corporation or organization shall place, erect, attach or set up a prohibited sign, as defined in Chapter 26.68 of the Revised Code, within or on a public right-of-way or a public easement.

B. The Refuse Commissioner is hereby authorized to remove and dispose of any signs which are placed within or on a public right-of-way or a public easement and which are specifically prohibited by Chapter 26.68 of the Revised Code.

C. Penalty for Violation. Any person violating the provisions of this chapter shall be subject to a fine of not more than five hundred dollars or by imprisonment of not more than ninety days, or by both fine and imprisonment. (1994 C., § 26.68.180; Ord. No. 69198, § 4, 7-18-2012.)

26.68.190 Substitution clause.

Any device, display, or sign allowed under this chapter may contain in lieu of any other copy, any otherwise lawful noncommercial message including any political message, that does not direct attention to a business operated for profit or to a commodity or service for sale, and that complies with all other requirements of this chapter. (1994 C., § 26.68.190; Ord. No. 69198, § 4, 7-18-2012.)

Chapter 26.70

MARIJUANA USES

Editor's Note:

Ord. No. 71608, approved January 23, 2023, and passed by the voters at an election of April 4, 2023, imposed an additional sales tax for three (3) percent on the retail sales of adult use non-medical marijuana med in the City of St. Louis, as authorized by Amendment Three of the Missouri Constitution.

Sections:

26.70.010	**Purpose.**
26.70.020	**Definitions.**
26.70.030	**Use Regulations for Marijuana Facilities**
26.70.040	**Site Requirements for Marijuana Facilities**

26.70.010 Purpose.

The purpose and intent of this Chapter is to regulate the location, establishment and operation of all medical marijuana facilities, marijuana facilities, and marijuana related uses in order to ensure the health, safety and general welfare of the residents of the City of St. Louis. These are unique and related land uses with ramifications not addressed by more traditional zoning district regulations. Additional regulations in this section are intended to provide reasonable restrictions within districts so that these uses do not compromise the health, safety and general welfare of persons in the district, or other uses allowed in each district. The regulations in this chapter do not address a patient's, or a consumer's, right to use marijuana as authorized under State Law; nor do they criminalize the possession or cultivation of marijuana by specifically defined classifications of persons, as authorized under State Law; nor do they regulate or govern residential cultivation, as authorized by State Law, for a consumer or for a qualifying patient who uses medical marijuana for medicinal purposes. Nothing in this Chapter purports to permit activities that are otherwise illegal under state or local law. Under state law, only qualifying patients, primary caregivers, and persons at least twenty-one (21) years of age, with state-issued identification cards may possess or cultivate marijuana unless the marijuana is cultivated or possessed by a state-licensed marijuana facility as defined below. all facilities defined herein shall comply with all local and state laws.
(Ord. No. 71633, § 1, 2-16-2023; Ord. No. 70982, § 2, 6-25-2019.)

26.70.020 Definitions.

A. *Comprehensive Facility.* "Comprehensive Facility" means a Comprehensive Marijuana Cultivation Facility, Comprehensive Marijuana Dispensary Facility, or a Comprehensive Marijuana-Infused Products Manufacturing Facility.

B. *Comprehensive Marijuana Cultivation Facility.* "Comprehensive Marijuana Cultivation Facility" means a facility licensed by the department to acquire, cultivate, process, package, store on site or off site, transport to or from, and sell marijuana, marijuana seeds, marijuana vegetative cuttings (also known as clones) to a medical facility, comprehensive facility or marijuana testing facility. A Comprehensive Marijuana Cultivation Facility need not segregate or account for its marijuana products as either non-medical marijuana or medical marijuana. A Comprehensive Marijuana Cultivation Facility's authority to process marijuana shall include the creation of Prerolls, but shall not include the manufacture of Marijuana-infused Products.

C. *Comprehensive Marijuana Dispensary Facility.* "Comprehensive Marijuana Dispensary Facility" means a facility licensed by the Missouri Department of Health and Senior Services to acquire, process, package, store on site or off site, sell, transport to or form, and deliver marijuana, marijuana seeds, marijuana vegetative cuttings (known as clones), marijuana-infused products and drug paraphernalia used to administer marijuana as provided for in this section to a qualifying patient or primary caregiver, as those terms are defined in Section 1 of Article XIV of the Missouri Constitution, or to a Consumer, anywhere on the licensed property or to any address as directed by the patient, primary caregiver, or Consumer, and consistent with the limitations of the Missouri Constitution and otherwise allowed by law, to a Comprehensive facility, a Marijuana Testing Facility, or a medical facility. Comprehensive Dispensary Facilities may receive transaction orders at the dispensary directly from the Consumer in person, by phone or via the internet, including from a third party. A Comprehensive Marijuana Dispensary Facility need not segregate or account for its marijuana products as either non-medical marijuana or medical marijuana, but shall collect all appropriate tangible personal property sales tax for each sale, as set forth in Article XIV of the Missouri Constitution and provided for by general or local law. A Comprehensive Marijuana Dispensary Facility's authority to process marijuana shall include the creation of Prerolls.

D. *Comprehensive Marijuana-Infused Products Manufacturing Facility.* "Comprehensive Marijuana-Infused Products Manufacturing Facility" means a facility licensed by the Department of Health and Senior Services to acquire, process, package, store, manufacture, transport to or from a Medical facility, Comprehensive facility, or Marijuana Testing Facility, and sell Marijuana-Infused Products, Prerolls, and infused products to a Marijuana Dispensary Facility, a Marijuana Testing Facility, or another Marijuana-Infused Products Manufacturing Facility. A Comprehensive Marijuana-Infused Products Manufacturing Facility need not segregate to account for its marijuana products as either non-medical or medical marijuana.

E. *Consumer.* "Consumer" means a person who is at least twenty-one (21) years of age.

F. *Marijuana* or *Marihuana.* "Marijuana" or "Marihuana" means *Cannabis indica, Cannabis sativa,* and *Cannabis ruderalis*, hybrids of such species, and any other strains commonly understood within the scientific community to constitute marijuana, as well as resin extracted from the plant and plant-infused products. "Marijuana" or "Marihuana" do not include industrial hemp containing a crop-wide average tetrahydrocannabinol concentration that does not exceed three-tenths of one (0.3) percent on a dry weight basis, or commodities or products manufactured from industrial hemp.

G. *Marijuana Accessories.* "Marijuana Accessories" means any equipment, product, material, or combination of equipment, products, or materials, which is specifically designed for use in planting, propagating, cultivating, growing, harvesting, manufacturing, compounding, converting, producing, processing, preparing, testing, analyzing, packaging, repackaging, storing, containing, ingesting, inhaling, or otherwise introducing marijuana into the human body.

H. *Marijuana Facility.* "Marijuana Facility" means a Comprehensive Marijuana Cultivation Facility, Comprehensive Marijuana Dispensary Facility, Marijuana Testing Facility, Comprehensive Marijuana-Infused Products Manufacturing Facility, Microbusiness Wholesale Facility, Microbusiness Dispensary Facility, or any other type of marijuana-related facility or business licensed or certified by the Missouri Department of Health and Senior Services pursuant to the Missouri Constitution, but shall not include a medical facility licensed under Section 1 of Article XIV of the Missouri Constitution.

I. *Marijuana-Infused Products.* "Marijuana-Infused Products" means products that are infused, dipped, coated sprayed or mixed with marijuana or an extract thereof, including but not limited to, products that are

able to be vaporized or smoked, edible products, ingestible products, topical products, suppositories and infused Prerolls.

J. *Marijuana Microbusiness Facility.* "Marijuana Microbusiness Facility" means a facility licensed by the Department of Health and Senior Services as a Microbusiness Dispensary Facility or Microbusiness Wholesale Facility, as defined herein.

K. *Medical Marijuana Cultivation Facility.* "Medical Marijuana Cultivation Facility" means a facility licensed by the Missouri Department of Health and Senior Services, to acquire, cultivate, process, store, transport, and sell marijuana to a Medical Marijuana Dispensary Facility, a Medical Marijuana Testing Facility, or a Medical Marijuana-Infused Products Manufacturing Facility.

L. *Medical Marijuana Dispensary Facility.* "Medical Marijuana Dispensary Facility" means a facility licensed by the Missouri Department of Health and Senior Services, to acquire, store, sell, transport, and deliver marijuana, marijuana-infused products and drug paraphernalia used to administer marijuana as provided for in this section to a Qualifying Patient, a Primary caregiver, another medical Marijuana Dispensary Facility, a Medical Marijuana Testing Facility, or a Medical Marijuana-Infused Products Manufacturing Facility.

M. *Medical Marijuana Facility.* "Medical Marijuana Facility" means any facility that is regulated by the State of Missouri to acquire, certify, cultivate, deliver, dispense, manufacture, process, sell, store, test, transport or warehouse medical marijuana including a Medical Marijuana Cultivation Facility, a Medical Marijuana Dispensary Facility, a Medical Marijuana-Infused Product Manufacturing Facility, and a Medical Marijuana Testing Facility.

N. *Medical Marijuana-Infused Products Manufacturing Facility.* "Medical Marijuana-Infused Products Manufacturing Facility" means any facility that is regulated by the State of Missouri to acquire, certify, deliver, dispense, manufacture, process, sell, store, test, transport, or warehouse medical marijuana including a Medical Marijuana-Infused Product Manufacturing Facility and a Medical Marijuana Testing Facility.

O. *Marijuana Testing Facility.* "Marijuana Testing Facility" means a facility that is certified by the Missouri Department of Health and Senior Services to acquire, test, certify and transport marijuana, including those originally certified as a Medical Marijuana Testing Facility.

P. *Medical Marijuana Use.* "Medical Marijuana Use" means the production, possession, delivery, distribution, transportation, or administration of marijuana or a marijuana-infused product, or drug paraphernalia used to administer marijuana or a marijuana-infused product, for the benefit of a Qualifying Patient, as defined under the regulations of the Missouri Department of Health and Senior Services, to mitigate the symptoms or effects of the patient's qualifying medical condition.

Q. *Microbusiness Dispensary Facility.* "Microbusiness Dispensary Facility" means a facility licensed by the Missouri Department of Health and Senior Services to acquire, process, package, store on site or off site, sell, transport to or from and deliver marijuana, marijuana seeds, marijuana vegetative cuttings (also known as clones), marijuana infused products, and drug paraphernalia used to administer marijuana as provided for in this Section to a Consumer, Qualifying Patient, or Primary Caregiver, as defined in Article XIV of the Missouri Constitution and as defined herein, anywhere on the licensed property or to any address as directed by the Consumer, Qualifying Patient, or Primary Caregiver, and consistent with the limitations of Article XIV of the Missouri Constitution and as otherwise allowed by law, a Microbusiness Wholesale Facility, or a Marijuana Testing Facility. Microbusiness Dispensary Facilities may receive transaction orders at the dispensary directly from the Consumer in person, by phone, or via the Internet, including from a third party. A Microbusiness Dispensary Facility's authority to process marijuana shall include the creation of Prerolls.

R. *Microbusiness Wholesale Facility.* "Microbusiness Wholesale Facility" means a facility licensed by the Department of Health and Senior Services to acquire, cultivate, process, package, store on site or off site, manufacture, transport to or from, deliver, and sell marijuana, marijuana seeds, marijuana vegetative cuttings (also known as clones), and marijuana infused products to a Microbusiness Dispensary Facility, other Microbusiness Wholesale Facility, or Marijuana Testing Facility. A Microbusiness Wholesale Facility may cultivate up to 250 flowering marihuana plants at any

given time. A Microbusiness Wholesale Facility's authority to process marijuana shall include the creation of Prerolls and infused Prerolls.

S. *Preroll.* "Preroll" means a consumable or smokable marijuana product, generally consisting of: (1) a wrap or paper and (2) dried flower, buds, and/or plant material. Prerolls may or may not include a filter or crutch at the base of the product.

(Ord. No. 71633, § 1, 2-16-2023; Ord. No. 70982, § 2, 6-25-2019.)

26.70.030 Use Regulations for Marijuana Facilities

The following Use Table lists how Marijuana Facilities are regulated in the various zoning districts. Within the table, the user can identify the type of Marijuana Facility and how the facility is regulated under each zone-thus identifying whether the use is Permitted (P), whether it requires a Conditional Use Permit (C), or whether it is prohibited (NA).

Use	A	B	C	D	E	F	G	H	I	J	K	L
Comprehensive Marijuana Cultivation Facility, Medical Marijuana Cultivation Facility and Microbusiness Wholesale Facility	NA	NA	NA	NA	NA	NA	NA	C	P	P	P	P
Comprehensive Marijuana-Infused Products Manufacturing Facility and Medical Marijuana-Infused Products Manufacturing Facility	NA	NA	NA	NA	NA	NA	NA	C	P	P	P	P
Marijuana Testing Facility	NA	NA	NA	NA	NA	NA	NA	NA	P	P	P	P
Comprehensive Marijuana Dispensary Facility, Medical Marijuana Dispensary Facility, and Microbusiness Dispensary Facility	NA	NA	NA	NA	NA	C	P	P	P	P	P	P
Comprehensive Marijuana Dispensary Facility, Medical Marijuana Dispensary Facility and Microbusiness Dispensary Facility with Curbside Delivery and or a Sales or Service Window and/or Extended Hours	NA	NA	NA	NA	NA	C	C	C	C	C	C	C
Other Marijuana Related Facility (a facility not specifically listed above, but engaging in one or more of the activities of a Medical Marijuana or Marijuana Facility)	NA	NA	NA	NA	NA	C	C	C	C	C	C	C

(Ord. No. 71897, § 2, 10-11-2024; Ord. No. 71633, § 1, 2-16-2023; Ord. No. 70982, § 2, 6-25-2019.)

26.70.040 Site Requirements for Marijuana Facilities

A. All Medical Marijuana and Marijuana Facilities shall comply with the following site requirements:

1. The facility shall comply with all regulations issued by the Missouri Department of Health and Senior Services for Marijuana Facilities. If the State's requirement is more restrictive than the City's requirement, then the more restrictive requirement applies.

2. The facility shall be monitored at all times by an Internet-based closed-circuit television for security purposes. The camera and recording system shall be of adequate quality, color rendition and resolution to allow the ready identification of any individual committing a crime anywhere on or adjacent to the facility. The recordings shall be maintained for a period of not less than ninety (90) days and shall be made available to law enforcement authorities upon request.

3. The facility shall have a fireproof vault or safe that is incorporated into and securely attached to the building structure for the purpose of securely storing cash and any processed marijuana.

4. The facility shall have a centrally monitored fire and burglar alarm system.

5. The exterior building lighting and parking area of the facility, if any, shall be equipped with lighting fixtures of sufficient intensity to illuminate all interior areas of the lot with an illumination of not less than one and one-half (1.5) foot-candles evenly distributed as measured at floor level. These light fixtures shall be turned on from dusk to dawn.

6. The facility shall not use any equipment or process that creates noise, dust, vibrations, glare, fumes, odors or electrical interference detectable to the normal senses beyond the property boundary.

7. No person or facility shall dispose of Marijuana or Marijuana-Infused Products in an unsecured waste receptacle not in possession and control of the licensee and designed to prohibit unauthorized access.

8. The facility, except for a Comprehensive Marijuana Dispensary or a Medical Marijuana Dispensary or a Marijuana Testing Facility, shall have an odor mitigation system that uses activated carbon filters, and ozone generator, UV light exposure, UV-C air disinfection or other similar odor mitigation technology.

9. All facilities, except a Medical Marijuana Dispensary or Comprehensive Marijuana Dispensary, shall have an armed security guard on the premises at all times.

10. The facility shall display its state issued license on the interior of the facility, visible to the public, at all times.

11. The facility shall not allow on-site consumption of marijuana or marijuana-infused products on the premises at any given time.

12. The facility shall not have a sign unless it is a Medical Marijuana Dispensary or a Comprehensive Marijuana Dispensary.

13. At the facility, any and all cultivation, processing, storage, display, sales or other distribution of marijuana shall occur within an enclosed building and shall not be visible from the exterior of the building.

B. Medical marijuana dispensary facilities and comprehensive marijuana dispensary facilities shall comply with the following additional site requirements:

1. The facility shall be located and operated from a permanent and fixed structure and may not be located in a trailer, cargo container or motor vehicle and the structure shall not be mobile or operate from a transitory location.

2. The facility shall be allowed to sell to a qualifying patient, or primary caregiver, or consumer, as defined by Missouri law, devices contrivances, instruments and paraphernalia for inhaling or otherwise consuming marijuana including, but not limited to, rolling papers, and related tools, water pipes, and vaporizers.

3. The facility shall display a sign on the interior of the facility indicating that (1) a patient identification card or primary caregiver identification card, issued from the Missouri Department of Health and Senior Services, is required and must be presented to purchase medical marijuana and medical marijuana infused products and (2) photo identification showing a consumer is at least twenty-one (21) years of age is required and must be presented to purchase marijuana and marijuana-infused products.

4. The facility shall not allow customers who are in cars to consume the sold products in cars parked on the facility.

5. The facility's hours of operation shall be limited to 8:00 a.m. to 10:00 p.m. Sunday through Saturday.

6. The facility shall not erect or use any freestanding signage and shall not have any temporary signage. All signs shall have appropriate permits prior to installation.

7. The facility shall only be allowed wall signs and no signs shall extend above the roof of the building or extend more than fifteen (15) feet in height above grade. The provisions of Chapter 26.68 shall determine the total square footage of all signs attached to the building.

8. The windows and doors of the facility shall not be covered by boards, mesh, grates, materials or coverings of any kind, except proper blinds and curtains.

9. The facility shall not have cord or rope type LED lighting surrounding or framing its windows or doors.

C. No Spacing Requirements. No Medical Marijuana Facility or Marijuana Facility shall be required to be a prescribed distance between an existing elementary or secondary school, a daycare or church.
(Ord. No. 71897, § 3, 10-11-2024; Ord. No. 71633, § 1, 2-16-2023; Ord. No. 70982, § 2, 6-25-2019.)

Chapter 26.72

REGULATED USES

Chapters:

26.72.010 Purpose.
26.72.020 Definitions.
26.72.030 Location regulations.
26.72.040 Waiver provisions.

26.72.010 Purpose.

In the enactment, execution and enforcement of this title, it is recognized that there are some uses which, due to the nature of their operation, are recognized as having serious objectionable operational characteristics, particularly when several of said uses are concentrated in close proximity to each other thereby having a detrimental effect upon the surrounding area. The regulation of these uses is necessary to ensure that the detrimental effects will not contribute to the blighting, downgrading or otherwise diminution of property val-

ues of the surrounding neighborhood. The primary purpose of these regulations is to prevent a concentration of these uses in any one (1) area. Uses subject to these controls are:

A. Adult book store;

B. Adult motion picture theater;

C. Adult peep show;

D. Massage establishment. (1994 C., § 26.72.010; Ord. No. 59979, § 19(part), 1986.)

26.72.020 Definitions.

A. *Adult Book Store.* "Adult book store" means an establishment having as a substantial or significant portion of its stock in trade, books, magazines and other periodicals or motion picture films, video tapes, or sound recordings which are distinguished or characterized by their emphasis on matter depicting, describing or relating to "specified sexual activities or specified anatomical areas," (as defined below) or an establishment with a segment or section devoted to the sale or display of such material.

B. *Adult Motion Picture Theater.* "Adult motion picture theater" means an establishment wherein motion pictures are shown which present material distinguished or characterized by an emphasis on matter depicting, describing or relating to "specified sexual activities" or "specified anatomical areas," (as defined below) for observation by patrons therein.

C. *Adult Peep Show.* "Adult peep show" means an enclosed building used for presenting material distinguished or characterized by an emphasis on matter depicting, describing or relating to "specified sexual activities" or "specified anatomical areas," (as defined below), for observation by patrons therein by means of coin operated or manual operated viewing devices.

D. *Massage Establishment.* "Massage establishment" means an establishment or operation within the meaning of Chapter 8.24 of the Revised Code of the City of St. Louis.

E. *Specified Sexual Activities and Specified Anatomical Areas.*

1. For the purpose of this section, "specified sexual activities" is defined as:

a. Human genitals in a state of sexual stimulation or arousal;

b. Acts of human masturbation, sexual intercourse or sodomy; bondage, sadomasochism, or bestiality;

c. Fondling or other erotic touching of human genitals, pubic region, buttock or female breast.

2. And "specified anatomical areas" is defined as:

a. Less than completely and opaquely covered:

i. Human genitals, pubic region;

ii. Buttock; and

iii. Female breast below a point immediately above the top of the areola; and

b. Human male genitals in a discernibly turgid state, even if completely and opaquely covered. (1994 C., § 26.72.020; Ord. No. 59979, § 19(part), 1986.)

26.72.030 Location regulations.

Except as otherwise provided under the waiver provisions of this chapter, no building or land shall hereafter be used for any of the uses set out in Section 26.72.020 if:

A. The boundaries of the site of the proposed location is within five hundred (500) feet of a residentially zoned district; or

B. The boundaries of the site of the proposed location is within five hundred (500) feet of a church or elementary, intermediate or high school, or college, junior college or university; or

C. There is already in existence, two (2) or more regulated uses within one thousand (1,000) feet of the boundaries of the site of the proposed regulated use. (1994 C., § 26.72.030; Ord. No. 59979, § 19(part), 1986.)

Cases:

> Ordinance regulating the location of certain adult businesses was held valid against the contention that the Board of Aldermen failed to consider any relevant evidence or review any empirical data regarding the alleged concerns the ordinance was intended to redress before passing the ordinance. *Thames Enterprises, Inc. v. City of St. Louis,* 851 F. 2d 199 (8th Cir. 1988).

26.72.040 Waiver provisions.

Applications to establish any of the above regulated uses shall be forwarded immediately by the Building Commissioner to the Community Development Commission.

A. The prohibition against locating any of the above regulated uses within five hundred (500) feet of a residentially zoned district shall be waived upon the presentment, to the Community Development Commission, of a validated petition requesting such waiver, signed by fifty-one percent (51%) of those persons owning, residing, or operating a business establishment within five hundred (500) feet of the nearest property line of the proposed location. Said petition shall be on

forms provided by the Community Development Commission and secured in accordance with rules and regulations governing the procedure for securing the petition of consent, adopted by the Commission. The circulator of the petition requesting a waiver shall subscribe to an affidavit attesting to the fact that the petition was circulated in accordance with the Commission's rules and that the circulator personally witnessed the signatures on the petition and that the same were affixed to the petition by the person whose name appears thereon. The Commission shall not consider the waiver of locational requirements set forth in Subsection B of this section until the above-described petition, if required, shall have been filed and verified.

B. The Community Development Commission may waive the one thousand (1,000) feet separation regulation if the following findings are made:

1. That the proposed use will not be contrary to the public interest or injurious to nearby properties, and that the spirit and intent of this title will be observed.

2. That the proposed use will not enlarge or encourage the development of a "skid row" area.

3. That the establishment of an additional regulated use in the area will not be contrary to any program of neighborhood conservation nor will it interfere with any program of urban renewal.

4. That all applicable regulations of the title will be observed.

C. Prior to granting such regulated use, the Community Development Commission shall give due Notice of Receipt of any application under consideration (Notice of Application) to all persons to whom any real property within five hundred (500) feet of the premises in question shall be assessed, and to the occupants of all single; two (2); three (3); and four (4) family buildings and to the managers of all multi-unit buildings over four (4) families (who shall be requested to post such notice in an appropriate location within the multi-unit building) and to all places within five hundred (500) feet, and to any neighborhood improvement organizations known to exist in the area (who have informed the Community Development Commission in writing of their existence). Such notice shall be delivered personally or by mail addressed to the respective owners and if the tenant's name is not known, the term "Occupant" may be used.

D. The notice of application shall inform the recipient of the applicant's name, the applicant's proposal, the local address and the lot number and subdivision name of the premises in question, and the section of the zoning ordinance under which the proposal is being processed. Such notice shall also invite the expression of comments, statements or opinions either in writing, in person or via telephone with a time period expiring not less than fourteen (14) calendar days from the mailing date of such notice.

E. Subsequent to the deadline for response to the notice of application, a decision shall be made by the Community Development Commission (taking into consideration the comments, statements and opinions expressed) to either approve, approve with conditions or deny the proposal in accordance with the standards set forth in this section. If no protests to the proposal were received by the Community Development Commission in response to the notice of application having been mailed and if the applicant accepts the decision of the Community Development Commission this decision shall be deemed final and shall take immediate effect. If, however, a protest was received by the Community Development Commission in response to the notice of application having been mailed, this decision shall not take effect until the expiration of the appeal period set forth below, or in the event said decision is appealed, until it is ruled on by the Board of Adjustment.

F. A copy of the decision of the Community Development Commission shall be mailed to the applicant and to all persons responding to the notice of application. Any person aggrieved by the decision by the Community Development Commission may, within fourteen (14) calendar days after the mailing of said decision, appeal same to the Board of Adjustment in accordance with the procedural regulations set forth in Chapter 26.84. If an appeal is filed by other than the applicant the Community Development Commission shall inform the applicant that an appeal has been filed and that the Commission's decision will not take effect pending a public hearing and decision by the Board of Adjustment.

G. The Board may waive the locational requirements, upon appeal, of any of the regulated uses if the findings required in Section 26.72.040.B can be made and after receiving a report and recommendation from the Community Development Commission.

H. In approving a permit for any regulated use, the Community Development Commission or the Board may impose any such conditions or limitations upon the establishment, location, construction, maintenance,

or operation of the regulated use as may in its judgment be necessary for the protection of the public interest. Any evidence and guarantee may be required as proof that the conditions stipulated in connection therewith will be fulfilled.

I. When the decision of the Community Development Commission becomes effective, either because no protests to the proposal were received by the Commission in response to the notice of application or because no appeal was taken to the Board of Adjustment within the allotted fourteen (14) calendar days, the Commission shall immediately notify the Building Commissioner in writing indicating the Commission's approval, approval with conditions (in which case the conditions shall be set out in detail) or denial. If the decision of the Commission approves or approves with conditions, the requested waiver, the Building Commissioner shall, if all other applicable Building Code and Zoning Code regulations have been complied with, issue an occupancy permit subject to any conditions unposed by the Community Development Commission. (1994 C., § 26.72.040; Ord. No. 59979, § 19(part), 1986.)

Chapter 26.73

SPECIAL USE DISTRICTS

Chapters:

26.73.010 **Prohibit new or expanded use within SUD boundaries.**

26.73.020 **Allowance of new or expanded use within SUD boundaries as conditional use.**

26.73.030 **Types of items that may be included in specific SUD ordinance.**

26.73.010 Prohibit new or expanded use within SUD boundaries.

A. The purpose for creation of an SUD as an overlay zoning district for a specific zoning districts area should be to assist in the implementation of the plan, commercial district redevelopment plan(s) and/or an adopted neighborhood plan for a specific geographic area of at least two (2) contiguous acres per a metes and bound legal description.

B. The purpose for creation of an SUD as an overlay zoning district for a specific zoning districts area should also respond to well-defined health, safety, moral and/or general welfare problems. A specific SUD ordinance shall state the problems addressed by any use being prohibited or limited within the SUD area.

C. A specific SUD ordinance may reduce the time period for discontinuing nonconforming uses within the specific SUD area from the existing one (1) year to a shorter time period not less than thirty (30) days.

D. A specific SUD ordinance may prohibit the creation of uses or the expansion of existing uses that are permitted or conditional uses under existing commercial zoning districts ("F" Neighborhood Commercial District, "G" Local Commercial and Office District and "H" Area Commercial District) and related business oriented zoning districts ("J" Industrial District and "K" Unrestricted District).

E. The residential dwelling districts ("A" Single-Family, "B" Two-Family, "C" Multiple-Family, "D" Multiple-Family, and "E" Multiple-Family) may be included in a specific SUD ordinance only if the residential dwelling district has an existing problem land use addressed in the specific SUD ordinance. (1994 C., § 26.73.010; Ord. No. 66941, § 1, 2005.)

26.73.020 Allowance of new or expanded use within SUD boundaries as conditional use.

A. A specific SUD may promote flexibility and fairness under a new SUD ordinance by making it possible to allow new or expanded uses within the SUD subject to the conditional use provisions of Section 26.80.010 of the Zoning Ordinance of the City of St. Louis. In an SUD area a specific SUD ordinance may require that a use that is presently zoned as a permitted use, a conditional use or a prohibited use be subject to the conditional use process in Section 26.80.010.

B. A specific SUD ordinance may further regulate a permitted use with additional restrictions because it has been or may in the future be expected to be the cause of the emergence of well defined problems, and thus require that use become a conditional use subject to the provisions of Section 26.80.010.

C. A specific SUD ordinance may allow an existing conditional use to remain as a conditional use, but may subject that use to a specific list of limitations and subject that use to the provisions of Section 26.80.010, to address the well-defined problems with that type of use which the City has documented.

D. Given the goal of promoting flexibility and fairness in commercial districts, a specific SUD ordinance may make it possible to treat a prohibited use less restrictively than previously because through the conditional use process contained in Section 26.80.010 a

specific SUD ordinance may substantially reduce, avoid or mitigate potential damage to adjacent property. (1994 C., § 26.73.020; Ord. No. 66941, § 2, 2005.)

26.73.030 Types of items that may be included in specific SUD ordinance.

A. A specific SUD may deal with a range of criteria including: 1) maximum size or height of building; 2) number of parking spaces for employees, customers and/or visitors; 3) signage; 4) carryout windows; 5) landscaping buffers and fences; 6) percentage of lot landscaping; 7) refuse enclosures and dumpsters; 8) vehicular and pedestrian access; 9) outdoor lighting; 10) hours of operation; 11) prior record of business owner, operator and employees involving identified problem land uses; 12) time limits for accomplishment of the conditions; and/or 13) specific criteria that address unique aspects of the identified problem land uses and the identified geographic area in a specific SUD ordinance.

B. Conditional use review procedures used in a specific SUD ordinance will include a forty-five (45) day review period by the staff of the Zoning Administrator and a fifteen (15) day public notice period before the required conditional use hearing. If a conditional use permit is issued, it shall be valid for one (1) year after issuance, but can be declared null and void by the Zoning Administrator if the work to be done to establish the conditional use is not completed and an occupancy permit from the City is not issued within one (1) year after the written approval of the conditional use.

C. Under the conditional use standards of Section 26.80.010 of the Zoning Ordinance of the City of St. Louis the approval of the proposed use: 1) cannot be detrimental to the public; 2) cannot cause injury to neighbor's property or reduce value; 3) should enhance the general welfare; 4) should be a compliment or compatible use; and 5) the Zoning Administrator, Board of Public Service and the Board of Adjustment may add and require additional conditions and restrictions from time to time.

D. In developing conditions for the uses under a specific SUD ordinance or the conditions to be imposed on a specific use, the following criteria shall also be considered regarding the approval and/or conditions for the operation of the proposed use: 1) existing and proposed site topography; 2) existing and proposed land use on the SUD site and/or up to one thousand (1,000) feet from the SUD site; 3) density of commercial activity on and near the proposed site; 4) location of the site relative to major thoroughfares or public transit routes; 5) availability of public parks, playgrounds, open space and schools near the proposed site; 6) the impact of the proposed use on existing buildings, structures or other facilities with architectural, historical or cultural significance on the SUD site and/or up to one thousand (1,000) feet from the SUD site; as well as 7) existing landscaping including trees over six (6) inch caliper, formal garden(s), fountains, statues and/or sculptures on the SUD site. (1994 C., § 26.73.030; Ord. No. 66941, § 3, 2005.)

Chapter 26.74

OFF-STREET PARKING AND LOADING IN DWELLING DISTRICTS

Chapters:

26.74.030 Entrances and exits.
26.74.040 Maintenance requirements.
26.74.050 Penalty for violation.

26.74.030 Entrances and exits.

All parking areas, loading areas, and driveways must have adequate entrances and exits approved by the Building Commissioner with the consent of the Director of Streets. (1994 C., § 26.74.030; Ord. No. 61857, § 3, 1990.)

26.74.040 Maintenance requirements.

All parking areas, loading areas, and driveways must be maintained in good repair. (1994 C., § 26.74.040; Ord. No. 61857, § 4, 1990.)

26.74.050 Penalty for violation.

Any person, firm or corporation that violates any provision of this chapter shall upon conviction be fined not less than one dollar ($1.00) or more than five hundred dollars ($500.00) or by imprisonment up to ninety (90) days or by both such fine and imprisonment. (1994 C., § 26.74.050; Ord. No. 61857, § 5, 1990.)

Editor's Note:

Ordinance 61857 was passed March 23, 1990.

Chapter 26.75

SPECIAL RESIDENTIAL USES

Sections:

26.75.010 Purpose.
26.75.020 Definitions.

26.75.030 Use regulations for special residential uses.
26.75.040 Site requirements for special residential uses.
26.75.050. Requirement of operations plan.
26.75.055 Operation without compliance prohibited.

26.75.010 Purpose.

The purpose and intent of this chapter are to regulate the location, establishment, and operation of all special residential uses to ensure the health, safety, and general welfare of the residents of the City of St. Louis. These are unique land uses that provide housing opportunities to individuals and families not adequately served by other housing types and with potential ramifications not otherwise addressed by more traditional zoning district regulations. Additional regulations in this section are intended to provide reasonable restrictions within districts so that these uses do not compromise the health, safety, and general welfare of persons in the district, or other uses allowed in each district.
(Ord. No. 71928, § 4, 11-19-2024.)

26.75.020 Definitions.

A. *Boarding house.* "Boarding house" means a rooming house where, for compensation, meals are provided.

B. *Building Official.* "Building Official" means the Building Commissioner or any designee from the Building Division.

C. *Dormitory.* "Dormitory" means a building or part of a building that is operated by, or on behalf of, institution(s) that provides educational instructions and houses students enrolled at such institution(s), with either shared or private bathroom space.

D. *Group home.* "Group home" means a residential facility serving nine (9) or fewer residents, similar in appearance to a single-family dwelling and providing basic health supervision, habilitation training in skills of daily and independent living and community integration, and social support. Group homes do not include a family living arrangement or individualized supported living. A group home will provide a separate bedroom for each tenant, and either shared or private bathroom space.

E. *Halfway house.* "Halfway house" means a facility that provides housing for individuals, to assist with the transition from incarceration to the community, with ongoing staff monitoring. A halfway house may include individual bedrooms and either shared or private bathroom space.

F. *Rooming house.* "Rooming house" means a dwelling, other than a hotel or bed and breakfast establishment, where, for compensation, lodging only is provided, with either shared or private bathroom space.

G. *Shelter, congregate.* "Shelter, congregate" means a facility that provides congregate housing for individuals temporarily displaced or experiencing homelessness, where no compensation is collected. This facility has one (1) or more open sleeping areas, furnished with beds, cots, floor mats, or bunks, and either shared or private bathroom space. Individual bedrooms are not required. This facility may or may not offer support services such as counseling, vocational training, and pathways to permanent housing, for its clients.

H. *Shelter, single-room occupancy.* "Shelter, single-room occupancy" means a facility that provides single-unit lodging for individuals temporarily displaced or experiencing homelessness, where no compensation is collected. Individuals reside in a single room with sleeping accommodations and either shared or private bathroom space. This facility may or may not offer support services such as counseling, vocational training, or pathways to permanent housing, for its clients.

I. *Special residential use.* "Special residential use" means a unique residential use that provides housing opportunities to individuals and families not adequately served by other housing types and with potential ramifications not otherwise addressed by other city zoning regulations, including congregate shelters, single-room occupancy shelters, dormitories, rooming houses, boarding houses, transitional housing, halfway houses, substance use treatment facility, and group homes.

J. *Substance use treatment facility.* "Substance use treatment facility" shall mean a residential or in-patient facility (other than a hospital or clinic regulated under Title 12 of the Revised Code of the City of St. Louis) whose primary function is the treatment of substance use and which is regulated by the appropriate state and local authority to provide such service. It does not include halfway houses, boarding houses, or other facilities that provide primarily a supportive environment, even if substance use counseling is provided in such facilities.

K. *Support services.* "Support services" means any services provided by the shelter provider that assist in

the pathway toward permanent and stable housing, such as counseling, vocational training, housing assistance, or other similar services.

L. *Transitional housing.* "Transitional housing" means a facility that provides housing with support services to individuals and families experiencing homelessness, with the goal for them to eventually move into and maintain permanent housing. A transitional housing facility may include individual bedrooms and either shared or private bathroom space.

M. *Zoning Office.* "Zoning Office" means the City of St. Louis Zoning Section, or any other successive city department that is responsible for administering and enforcing the City of St. Louis Zoning Code Ordinance.

(Ord. No. 71928, § 4, 11-19-2024.)

26.75.030 Use regulations for special residential uses.

The following use table lists how all special residential uses are regulated in the various zoning districts. Within the table, the user can identify the type of special residential use and how that use is regulated under each zone − thus identifying whether the use is permitted (P), whether it requires a conditional use permit (C), or whether it is prohibited (NA):

Special Residential Uses	A	B	C	D	E	F	G	H	I	J	K	L
Boarding house	C	C	C	C	C	C	C	C	C	C	C	C
Dormitory	C	C	C	C	C	C	C	C	C	C	C	C
Group home	C	C	C	C	C	C	C	C	C	C	C	C
Halfway house	C	C	C	C	C	C	C	C	C	C	C	C
Rooming house	C	C	C	C	C	C	C	C	C	C	C	C
Shelter, congregate	NA	NA	C	C	C	C	C	C	C	C	C	C
Shelter, single-room occupancy	C	C	C	C	C	C	C	C	C	C	C	C
Substance use treatment facility	C	C	C	C	C	C	C	C	C	C	C	C
Transitional housing	C	C	C	C	C	C	C	C	C	C	C	C
Other related special residential uses (a facility not specifically listed above, but engaging in the activities of a special residential use)	C	C	C	C	C	C	C	C	C	C	C	C

(Ord. No. 71928, § 4, 11-19-2024.)

26.75.040 Site requirements for special residential uses.

A. All special residential uses shall comply with the following site requirements:

1. The facility shall have access to a dumpster and maintain the entire premises in a clean and orderly appearance at all times.

2. The facility shall provide a refuse container on the exterior of the premises for use by the clients and it shall be emptied daily or more if needed.

3. There shall be no selling of liquor, alcohol, or non-intoxicating beer on the premises at any given time.

4. There shall be no vending, ATM machines, or payphones on the exterior of the premises at any given time.

5. All windows and doors must have no boards, mesh, grates, materials, or coverings of any kind. Windows and doors may have proper blinds or curtains on the inside of the windows.

6. The facility shall not have cord or rope-type LED lighting surrounding or framing its windows or doors.

7. The premises shall not be issued a public nuisance notice, pursuant to Ordinance 68535 or its successor ordinances.

8. The facility shall abide by the City of St. Louis Noise Ordinance 68130 or its successor ordinances.

9. The facility shall provide one (1) off-street parking space for every three (3) or a fraction thereof, of the total number of employees on the maximum shift, and one (1) off-street parking space for each facility vehicle.

10. Existing facilities qualifying as special residential uses under this chapter and legally operating prior to the effective date of this chapter, also known as "BPS-permitted facilities," shall be exempt from the provisions of this chapter.

11. There shall be no more than one (1) special residential use unit within a radius of five hundred

(500) feet of another special residential use, and no city block may have more than two (2) special residential uses. However, one (1) occupant with a business license may expand their operation to another parcel within a five hundred-foot radius through a conditional use permit. This provision shall not apply in the event that a BPS-permitted facility, operating prior to the effective date of this chapter, submits an application to expand any existing facility.

B. Exceptions:

1. Sheltered workshops and residence facilities authorized by RSMo 205.968 to 205.972 (2000), as amended, shall be and are hereby exempted from any plat and petition process and density requirements set forth under this chapter.

2. Group homes, as authorized by RSMo 89.020 (2019), as amended, shall be and are hereby exempted from any plat and petition process and density requirements set forth under this chapter.

3. Dormitories as defined in this Chapter are exempt from the plat and petition process and density requirements set forth under this Chapter if the facility is (1) both owned and operated by a state or private university or college, and (2) located within the boundaries of said state or private university or college on a designated campus of not less than thirty (30) acres. (Ord. No. 71928, § 4, 11-19-2024.)

26.75.050. Requirement of operations plan.

A. When applying for a permit as provided under this chapter, applicants seeking to open a congregate shelter, single-room occupancy shelter, or transitional housing shall also be required as part of said application process to submit an Operations plan before any hearing. Applicant shall obtain a written confirmation of receipt from the Zoning Office when an operations plan is submitted as part of an application for a congregate shelter, single-room occupancy shelter, or transitional housing special residential use.

B. The operations plan shall be made available to the Zoning Office, Building Official, and any other City department where appropriate. The operations plan further shall be available for public inspection in the office of the Building Official as a physical written copy and as an electronic copy.

C. For purposes of this section, an "operations plan" shall include the following:

(1) an organizational tree including an estimated total number of professional staff and volunteers that will work at the proposed facility;

(2) The name, address, telephone number, and email address for a representative of the proposed facility who is available during all hours of operation;

(3) The estimated number of beds to be provided;

(4) The estimated average population per month;

(5) A description of the services to be provided, such as job placement, drug and alcohol treatment, and other rehabilitative or training services;

(6) A description of the population expected to be served, for example women, women and children, single men, families, etc.;

(7) The expected length of stay per person;

(8) An identification of any schools within a radius of five hundred (500) feet of the proposed premises and any plans to address any potential issues or concerns;

(9) A plan for addressing potential threats to public health and/or public safety, including but not limited to protocols around drug possession and use, possession of weapons, and physical altercations that take place on the premises, including protocol(s) for an incident that requires the immediate removal of a facility resident;

(10) A statement from the applicant that, in providing housing and any other services, the facility will not discriminate within the population to be served as specified in the operations plan against any person on the basis of race, marital status, color, age, religion, sex, sexual orientation, gender identity or expression, familial status, disability, national origin or ancestry. If unable to provide a statement, please explain;

(11) An affirmative statement that the information the applicant is submitting in the operations plan is an accurate representation of planned operations; and

(12) Any other information the applicant and/or any City department believes could be helpful to explain the operation and compatibility of the proposed facility with the proposed location.

D. The Building Commissioner or Zoning Office shall be permitted to seek the insight, feedback, or input from other City departments regarding the contents of an operations plan, where appropriate.

1. No hearing date for an application for a conditional use permit shall be set until the Zoning Office has provided written confirmation that the Zoning Office has received an operational plan from the applicant. The Building Division and any other department may

proceed forward with any inspections, plan reviews, or other evaluations while said confirmation of receipt may be pending.
(Ord. No. 71928, § 4, 11-19-2024.)

26.75.055 Operation without compliance prohibited.

It shall be unlawful to operate a special residential use without first complying with the requirements as set forth under this chapter.
(Ord. No. 71928, § 4, 11-19-2024.)

Chapter 26.76

SHORT-TERM RENTAL

Sections:

26.76.010 Purpose.

26.76.020 Definitions.

26.76.030. Use regulations for short-term rentals.

26.76.010 Purpose.

The purpose and intent of this Chapter 26.76, Short-Term Rental, is to define and address the location, establishment and operation of all short-term rental facilities in order to ensure the health, safety and general welfare of the residents of the City of St. Louis.
(Ord. No. 71730, § 2, 11-6-2023.)

26.76.020 Definitions.

A. *Dwelling unit,* for purposes of this chapter, means a room or group of rooms with cooking and sanitary facilities, occupied or arranged for occupancy by a single family, as defined in the existing zoning code.

B. *Short-term rental* is a lodging use, that is not a hotel or motel, RV park or campground, any type of institutional dwelling, timeshare property, or bed and breakfast. "Short-term rental" means a rental of any dwelling unit, in whole or in part, within the City of St. Louis, to any person(s) for transient use other than (1) in a permitted bed and breakfast; (2) ongoing month to month tenancy for the same dwelling; or (3) a home exchange for which there is no payment. "Short-term rental" allows residential occupancy of the rented dwelling for a term of thirty (30) days or less, and requires that the short-term rental use is permitted to operate pursuant to a current and valid permit on file with the City.

C. *Short-term rental agent* means a person or organization, authorized by the short-term rental owner, as the operator of a short-term rental unit on the short-term rental permit application. Such an operator shall be available for and responsive to contact at all times. The short-term rental agent of occupied short-term rentals shall be the principal resident, either the owner or the tenant/lessee of the owner and authorized by the owner for short-term rental.

D. *Short-term rental, non-occupied* means a short-term rental unit not used as a principal residence by either the owner or the tenant/lessee authorized by the owner for short-term rental.

E. *Short-term rental, occupied* means a short-term rental unit used as the principal residence by either the owner or the tenant/lessee of the owner and authorized by the owner for short-term rental. A resident can have only one (1) principal residence.

F. *Short-term rental owner* means the owner of record of the property as reflected in the City of St. Louis Assessor records.

G. *Short-term rental permit* is the permit issued by the Building Division of the City of St. Louis to the short-term rental owner or the designated short-term rental agent who has submitted the required documentation and met the requirements set forth in this chapter and in Chapter 25 of the Revised Code for operation of a short-term rental unit. Short-term rentals, non-occupied shall require a graduated business license to obtain a short-term rental permit. Short-term rental permits shall only be issued to natural persons, and not to business entities.

H. *Short-term rental unit* shall mean a dwelling unit, in whole or in part, used as a short-term rental. A short-term rental unit may be either a short-term rental, occupied or a short-term rental, non-occupied.
(Ord. No. 71940, § 3, 12-10-2024; Ord. No. 71730, § 3, 11-6-2023.)

26.76.030. Use regulations for short-term rentals.

Short-term rentals as regulated under City ordinances are permitted in every zoning district, except in districts zoned "Single Family A" in which they are a conditional use.
(Ord. No. 71940, § 4, 12-10-2024.)

Chapter 26.80

USE, HEIGHT AND AREA EXCEPTIONS

Chapters:

26.80.010	**Conditional uses.**
26.80.030	**Height exceptions.**
26.80.040	**Area exceptions.**
26.80.045	**Planned transit station area exceptions.**
26.80.050	**Planned unit development district.**
26.80.060	**Home occupations.**
26.80.070	**Community Unit Plan (CUP).**

26.80.010 Conditional uses.

A. *Purposes.* There are a number of uses that present unique problems with respect to their location and relationship with potential surrounding land uses. These uses are not allowed in a particular zoning district by right. However, they may be made compatible or appropriate by attaching certain conditions to their development.

B. *Authority.* The authority to issue conditional use permits is hereby delegated to the Board of Public Service.

C. *Application and Submission Contents and Procedure.*

1. An application for a conditional use permit may be filed by the owner, tenant or their representative, or any prospective owner, tenant, or their representative, of the property in question.

2. Applications for conditional use permits shall be filed with the Zoning Administrator and shall be accompanied by data, plans, and information as prescribed by the Board of Public Service to assure the fullest understanding of the application. One copy of the application shall be filed at the same time with the Board of Public Service. The Zoning Administrator shall provide written notification of an application for a conditional use permit to the Aldermen in whose ward the conditional use is proposed. A fee, set forth in Chapter 26.98, shall be due at the time the Applicant requests a conditional use hearing.

D. *Review Procedures.*

1. The Community Development Commission shall then have forty-five (45) days to submit findings of fact and recommendations to the Board of Public Service. The Commission may delegate the review to the Director of the Community Development Agency. If no report is received within the forty-five (45) days, it will be assumed that the Community Development Commission approves the issuance of a conditional use permit.

2. Upon the receiving of the application for filing, the Board of Public Service shall set a date for, and shall conduct, a public hearing on the application within forty-five (45) days. The Zoning Administrator shall publish and post a notice of the public hearing at least fifteen (15) days prior to the hearing date. The notice shall be published in a newspaper of general circulation in the City. The notice shall also be posted prominently on the site and on the block of the property in question.

3. The Board of Public Service shall have made a ruling within seven (7) days after the forty-fifth (45th) day referred to in Subsection A of this section. A written report shall be filed, which shall include the conditions and restrictions applicable to the use in question.

4. The conditional use permit shall apply to the use in question as long as no changes are made to the site or the structure.

5. A conditional use permit may be valid for a period of one (1) year. Within that time, a building permit shall be obtained and construction started or, in the case where no building permit is required, an occupancy permit shall be obtained or the conditional use permit shall become null and void provided that the one (1) year time limitation shall be tolled by a force majeure.

E. *Standards.* The Board of Public Service shall not approve a conditional use unless the Board finds that the use conforms to the following standards:

1. The use will not be detrimental to the public health, safety, morals or general welfare;

2. The use will not cause serious injury to the neighboring property by hindering use or reducing or impairing property values;

3. The use will contribute to, enhance, and promote the general welfare and convenience of the specific location;

4. The use will complement or be compatible with the surrounding uses and will not have a negative impact on adjacent uses or community facilities; and

5. The use shall, in all other respects, conform to the applicable zoning regulations and standards, including, without limitation, the particular regulations and standards stated for particular conditional uses in the various zoning districts.

F. *Conditions and Restrictions.* The regulations applicable to conditional uses stated in this Zoning Code are minimum standards. When approving a conditional use permit, the Board of Public Service may stipulate additional conditions and restrictions as necessary to ensure that the use complies with the standards of Subsection D of this section. (1994 C., § 26.80.010; Ord. No. 69084, § 2, 2-13-2012; Ord. No. 59979, § 21(part), 1986.)

26.80.030 Height exceptions.

Subject to the same review procedures as those in Section 26.80.010, the following height exceptions may be authorized:

A. On through lots one hundred twenty (120) feet or less in depth, the height of a building may be measured from the street level on either street. On through lots more than one hundred twenty (120) feet in depth, the height regulations and basis of height measurements for the street permitting the greater height shall apply to a depth of not more than one hundred twenty (120) feet from the street.

B. Grain elevators or gas tanks to be erected to a height in excess of that permitted by the height regulations.

C. Buildings and structures erected by public utility (service) corporations for public convenience or welfare, except that within any dwelling district the height regulations governing public utility corporation buildings and structures shall be the same as the height regulations for churches and schools. (1994 C., § 26.80.030; Ord. No. 59979, § 21(part), 1986.)

26.80.040 Area exceptions.

Subject to Section 26.80.010, an exception may be authorized for an accessory building to exceed twelve (12) feet in height. (1994 C., § 26.80.040; Ord. No. 70555, § 2, 6-17-2017; Ord. No. 59979, § 21(part), 1986.)

26.80.045 Planned transit station area exceptions.

All parcels or fractions thereof within a one half-mile radius of the planned Northside-Southside Metro transit stations (NS-SS Metro Stations) on the Green Line light rail alignment, being approved by the East West Gateway Council of Governments Board of Directors on February 28, 2024 and as indicated on the map attached to Ord. No. 71886 as exhibit A, are subject to the regulations of this Zoning Code, except the following shall be allowed:

A. Parking requirements for residential, restaurant, grocery and other retail and professional and general office uses in the "B" Two-Family Dwelling District through the "H" Area Commercial District and the "J" Industrial District and the "K" Unrestricted District may be reduced up to twenty-five (25) percent provided they meet the parking lot layout standards in Section 26.16.080(D).

B. Density of population (i.e., land area per dwelling unit) requirements in the "B" Two-Family Dwelling District through the "H" Area Commercial District may be reduced up to forty (40) percent.

C. All residential structures and mixed residential and commercial structures in the "F" Neighborhood Commercial District and the "G" Local Commercial and Office District may be erected to a height of four (4) stories or sixty (60) feet.
(Ord. No. 71886, § 1, 8-14-2024.)

26.80.050 Planned unit development district.

A. *Purpose.* The planned unit development district (PUD) is intended, by site plan review and other procedures hereinafter set forth, to encourage the appropriate development of residential, or commercial uses, or the combination thereof, in the best interests of the City. Specifically, the purpose of the district is to:

1. Provide for a scale and flexibility of development which could not otherwise be achieved through the existing single use zoning districts, without detriment to neighboring properties;

2. Encourage site consolidation and planned mixed use development;

3. Allow for changes that may occur in building technology and changes in market demand for various building types; and

4. Provide for the development of property while protecting the ecological, topographical, geological, and historic features that might be damaged by meeting fixed single use district regulations.

B. *Use Regulations.* All uses permitted in the A, B, C, D and E dwelling districts and the F and G commercial districts are permitted, provided the procedures outlined in this section are followed.

C. *Conditional Uses.* All possible conditional uses specified in the A, B, C, D and E dwelling districts and the F and G commercial districts may be permitted in determining the privileges and conditions that shall be approved for a PUD.

D. *Sketch Plan Submittal.* The applicant shall submit at least two copies of a sketch plan to the Planning Commission, accompanied with a filing fee, set forth in

Chapter 26.98, on forms furnished by the Planning Commission. The sketch plan shall include both maps and a written statement and shall show enough of the area surrounding the proposed PUD to demonstrate the relationship of the PUD to adjoining uses. The maps may be in general, schematic form, and must contain the following information:

1. The existing topographic character of the land;

2. The existing and proposed land uses and approximate location of buildings and other structures proposed to be demolished or to remain;

3. The character and approximate density of dwellings;

4. The approximate location of major thoroughfares; and

5. Public uses, including schools, parks, playgrounds and other open spaces.

6. The written statement must contain the following information:

a. An explanation of the character of the PUD including the number of any proposed residential units and the proposed square footage for any commercial or industrial space;

b. A statement of proposed financing;

c. A statement of the present ownership of all the land included within PUD; and

d. A general indication of the expected schedule of development including the projected phases of development, if any.

E. *Community Development Commission Review.* Upon receipt of a sketch plan by the Community Development Commission, it shall refer a copy to the Zoning Administrator and review said sketch and make a report of its findings and recommendations, in writing to the Board of Aldermen no later than the Aldermanic Committee public hearing on the proposed PUD, otherwise a favorable recommendation shall be assumed. The Community Development Commission in making its report to the Board of Aldermen shall set forth as reasons for recommendation for or against the plan and specific evidence and facts as to whether or not the proposed PUD meets the following conditions:

1. That the values of buildings and the character of the property adjacent to the area included in said plan will not be adversely affected;

2. That the proposed development is consistent with the intent purposes of the Zoning Code to promote public health, safety, morals and general welfare; and

3. That the proposed development plan is consistent with any previously approved development plan that may affect the site and with the City's comprehensive plan.

F. *Introduction of Ordinance.* Upon action by the Community Development Commission or forty-five (45) days after the submission of the plan to the Community Development Commission, whichever comes first, a proposed ordinance may be introduced in the Board of Aldermen. When such proposed ordinance is introduced in the Board of Aldermen, the committee to which it is properly referred for consideration shall hold a public hearing and publish notice thereof in accordance with the procedure for rezoning as set out in Section 26.92.040.

G. *Development Plan.* If the Board of Aldermen approves the ordinance for the PUD, a development plan for the PUD shall be submitted to the Community Development Commission for approval. In making its determination whether to approve or disapprove a development plan, the Community Development Commission shall review the development plan for its conformity to the approved sketch plan. The development plan shall show and be accompanied by the following information, expressed in precise dimensions and project data, to assure the fullest understanding of the application:

1. Applicant's name and address;

2. Site plan drawn at 1″ = 50′ or larger (i.e., 1″ = 20′);

3. Site location map showing the site in the context of the City's major street network;

4. A title block shall be included and shall show the following information:

a. Project name;

b. Name of developer;

c. Scale;

d. Date of drawing;

5. The boundaries and all dimensions of the site, including easements;

6. Existing topography and proposed changes at contour intervals or more than five (5) feet;

7. Existing trees of greater than six (6) inch caliber, indicating any that are to be removed;

8. The location and dimensions of all proposed and existing buildings to remain, showing the height (stories and feet) of each building;

9. The location and dimensions of all drives and aisles, and the dimensions and number of parking stalls;

10. Landscape plan showing the size and species of all plant material and related site improvements, including retaining walls, sidewalks, plazas, fountains, etc.;

11. The system of storm water control both during and after construction;

12. The locations and access to all utilities including storm and sanitary sewer, water, gas and electricity;

13. Exterior lighting, showing location, height and type;

14. Project information including the following:

a. Site area in square feet and acres;

b. Commercial building floor area;

c. Building coverage;

d. Site coverage (buildings plus parking and driveways);

e. Parking spaces required and provided;

15. Schematic architectural plans showing floor plans, building elevations, and building sections where necessary for clarification.

H. *Standards.* Except as provided in conditions and restrictions required for a specific PUD by the Board of Aldermen, the following standards shall apply:

1. No setback requirements will be required except those dictated by other City codes;

2. Height requirements shall be the same as those for the least restrictive adjacent residential zoning district. If no residential zoning district is adjacent then the standards shall be the same as those for the "E" Multiple-Family Dwelling District;

3. All lots shall have access to a public or private street either directly or by way of a court or drive maintained under the jurisdiction of a trustee organization;

4. The overall residential density of the PUD should be no greater than that permitted in the "E" Multiple-Family Dwelling District;

5. The PUD shall include at minimum twenty (20) percent of the site in open space, half of which may be privately controlled;

6. The project shall not be required to be on one contiguous site; however, the PUD shall extend in area only so far as it can still reasonably be considered one development. Any intervening property shall be included on the development plan and shall be described;

7. Buffering or screening with vegetation may be required between separate uses or between existing and proposed development.

I. *Permits and Certificates.* If the Community Development Commission approves the development plan for the PUD, building permits and certificates of occupancy may be issued therefor, even though the use of land, height and location of structures, including yards and open spaces, does not conform in all respects to the zoning district regulations.

J. *Phased Development.* In those developments which are to be constructed in phases, the ordinance shall approve the entire project, however, a development plan for only the initial phase of construction may be submitted to the Community Development Commission. Construction of subsequent phases will require approval of development plans. These plans must conform to the originally approved sketch plan.

K. *Changes in the PUD.* Any changes in a planned unit development approved by the Board of Aldermen consisting of a change in boundary, change in use, or change in projected schedule of development must be reintroduced into the Board of Aldermen as an amendment to said planned unit development.

L. *Period of Validity.* The planned unit development approval shall be valid for a period of eighteen (18) months unless within that time a building permit is obtained and substantial construction is commenced. The Community Development Agency may grant extensions upon written request of the applicant. There is no limit on the time of construction, however, a time limit may be required as a condition of approval.

M. *Transferability of Permit.* A permit for a PUD is transferable. (1994 C., § 26.80.050; Ord. No. 69084, § 2, 2-13-2012; Ord. No. 59979, § 21(part), 1986.)

26.80.060 Home occupations.

A. Home occupations shall be permitted if the following requirements are met:

1. The home occupation does not change the outside appearance of the residential dwelling;

2. The home occupation does not change the primary use of the home from residential;

3. The home occupation does not generate traffic, parking, sewerage, refuse, water use, noise, dust, odors, or vibrations in excess of what is normal in a residential neighborhood;

4. The home occupation does not create a hazard to person or property, result in electrical interference, involve the storage of flammable or hazardous materials, become a public or private nuisance, or is not classified by the City as a nuisance property pursuant to Ordinance Number 69730 or its successor ordinances;

5. The home occupation does not have storage or display any occupation-related equipment, including vehicles that openly display occupation-related equipment, outside the home;

6. The home occupation does not regularly and routinely employ anyone who is not also a resident of the home to perform work inside the home;

7. The applicant of the home occupation resides at the home;

8. The home occupation does not display a sign;

9. The home occupation does not regularly and routinely accept customers, clients, or the general public into the home;

10. The home occupation does not advertise, solicit or invite customers, clients, or the general public to the home;

11. The home occupation is within a property with a valid Certificate of Inspection pursuant to Chapter 25.56 of the Revised Code of the City of St. Louis;

12. The home occupation and the property remain in compliance with all City laws, rules, and regulations.

B. The following are prohibited as home occupations:

1. Animal clinics and boarding facilities, including kenneling and day care;

2. Dancing schools;

3. Doctor and dentist offices;

4. Mortuaries;

5. Stables or kennels;

6. Private clubs;

7. Repair shops;

8. Restaurants;

9. Tourist homes;

10. Automobile repair or paint shops, sales and leasing of new or used autos and auto detailing and washing.

C. The following home occupations shall be considered a conditional use that may be allowed subject to the provisions of Section 26.80.010 of the Revised Code of the City of St. Louis:

1. Home cooking, preserving or processing of food for resale;

2. Home daycares;

3. Recording and film studios;

4. Home office use for general construction, electrical, painting, plumbing, or landscaping contractors;

5. Any proposed home occupancy that is not specifically prohibited by Subsection B of this Section, but cannot comply entirely with the standards contained in Subsection A of this Section.

D. A fee, set forth in Chapter 26.98, shall be due at the time an application is made for a home occupancy waiver. (1994 C., § 26.80.060; Ord. No. 70150, § 1, 11-24-2015; Ord. No. 69084, § 2, 2-13-2012; Ord. No. 59979, § 21(part), 1986.)

26.80.070 Community Unit Plan (CUP).

A. The owner or owners of any tract or tracts of contiguous land comprising an area of not less than fifteen (15) acres, including streets and alleys except boundary streets, may submit a plan for the use and development of all of such tract or tracts of land to the Community Development Commission.

B. A filing fee, set forth in Chapter 26.98, shall be required at the time such a plan is submitted to the Planning Commission.

C. Upon receipt of a plan by the Community Development Commission, it shall review said plan and make a report of its findings and recommendations, in writing to the Board of Aldermen. The Community Development Commission in making its report to the Board of Aldermen shall set forth its reasons for approval or disapproval of the plan and specific evidence and facts as to whether or not the proposed Community Unit Plan meets the following conditions:

1. That the values of buildings and the character of the property adjacent to the area included in said plan will not be adversely affected;

2. That said plan is consistent with the intent and purposes of the Zoning Code to promote public health, safety, morals and general welfare;

3. That the average lot area per family contained in the site, exclusive of the area occupied by street, shall not be less than the lot area per family required for the district in which the development is located.

D. Upon the receipt of the Community Unit Plan in the Board of Aldermen or the expiration of forty-five (45) days from the date of the submission of the plan to the Community Development Commission, a proposed ordinance may be introduced in the Board of Aldermen. When such proposed ordinance is introduced in the Board of Aldermen, the Committee to which it is properly referred for consideration shall hold a public hearing and publish notice thereof in accordance with the procedure for rezoning as set out in Section 26.92.040 of the Code. If the Board of Aldermen approves the ordinance for the Community Unit Plan, building permits and certificates of occupancy may be issued therefor, even though the use of land, height and location of structures, including yards and open spaces, does not conform in all respects to the zoning district regulations.

E. Any proposed change in any Community Unit Plan consisting of a change in boundary or change in use shall be submitted for approval as an amendment to the Community Unit Plan in the same manner as provided in Subsections C and D of this section.

F. Any other proposed change shall be submitted for approval as an amendment to the Community Unit Plan in the same manner as provided for the granting of conditional use permits in accordance with the procedure set out in Section 26.80.010 of the Code.

G. At the time any amendment to a Community Unit Plan is submitted a filing fee, set forth in Chapter 26.98, shall be required. (1994 C., § 26.80.070; Ord. No. 69084, § 2, 2-13-2012; Ord. No. 63299, § 2, 1994; Ord. No. 59979, § 21(part), 1986.)

Chapter 26.82

FORM-BASED DISTRICTS

Sections:

26.82.010	**Purpose.**
26.82.020	**Definitions.**
26.82.030	**Criteria.**
26.82.040	**Minimum requirements.**
26.82.050	**Optional regulatory subjects.**
26.82.060	**Procedures for approval of a form-based district.**
26.82.070	**Amendments.**
26.82.080	**Administration of form-based districts.**

26.82.010 Purpose.

The purpose for the creation of a form-based district as a zoning overlay district shall be to encourage sustainable growth and to establish areas of a particular desired scale and siting relationships. The form-based districts will promote the health, safety, morals or general welfare of the community by effectively regulating improvements and enhancing the vibrancy and atmosphere of a neighborhood or a commercial corridor by providing a cohesive urban form and character. A form-based district is designed to assist in the implementation of the Strategic Land Use Plan, as well as planning and development initiatives, such as detailed neighborhood-level plans and commercial district plans and development projects. A form-based district is also intended to reinforce the character of existing City historic districts and not purposely alter the character of any existing National Register historic district. (1994 C., § 26.82.010; Ord. No. 69199, § 1, 7-18-2012.)

26.82.020 Definitions.

For purposes of this chapter, the following terms, phrasing, words and their deviations shall have the meaning given herein. Any term not herein defined shall be construed as defined in Chapter 26.08 of the Zoning Code.

A. *Architectural Standards.* Regulations controlling external architectural materials and quality.

B. *Building Development Standards.* Regulations regarding building types, frontage types and architectural standards.

C. *Building Envelope Standards.* Regulations controlling the configuration, features, and functions of buildings.

D. *Building Type.* A structure defined by the combination of configuration and placement (e.g., detached single-family dwelling, rowhouse).

E. *Build-to Line.* A line parallel to the property line where the facade of a building is required to be located.

F. *Frontage Type.* The architectural element of a building between the public right-of-way and the building located on the abutting private property (e.g., porch, balcony).

G. *Regulating Plan.* A plan or map of the regulated area designating the locations (also referred to as zones) where different building envelope standards apply.

H. *Sustainability Standards.* Regulations controlling issues such as storm water drainage and infiltration, tree protection and solar access.

I. *Thoroughfare Standards.* Regulations regarding the design of different types of thoroughfares (e.g., pavement width, number and width of traffic lanes, bicycle lanes and parking lanes, landscape type and sidewalks).

J. *Zoning Overlay District.* A designation for a physical area with mapped boundaries that are superimposed over the City's official zoning district map's underlying zoning districts and text detailing requirements that are either added to, or in place of, those underlying zoning districts' regulations. (1994 C., § 26.82.020; Ord. No. 69199, § 2, 7-18-2012.)

26.82.030 Criteria.

Only those areas that meet the following criteria shall be eligible to become a form-based district:

A. A minimum geographic area consisting of at least 15 contiguous acres. Land may be under common or multiple ownership.

B. Identification and documentation of a specific attribute or rationale of form-based zoning that would help the area to develop into its full potential and that is currently unavailable in the City's existing Zoning Code.

In addition, a form-based district shall document that the proposed area exhibits at least one of the following characteristics:

A. An area that is experiencing inappropriate development (e.g., development of automobile-oriented commercial uses along a traditional neighborhood commercial street).

B. An area that is expecting or experiencing significant change in terms of development activity (e.g., an area primarily consisting of vacant land and vacant buildings for which a substantial development is proposed).

C. A desire to encourage a transformation of an area or to make general improvements to an area (e.g., a focus on transit-oriented development or a more pedestrian- and bicyclist-friendly environment). (1994 C., § 26.82.030; Ord. No. 69199, § 3, 7-18-2012.)

26.82.040 Minimum requirements.

No form-based district shall be approved unless at minimum it contains the following items:

A. A regulating plan in graphic form, as specified by the Planning Commission, which designates a specific classification (building envelope standards) for every parcel in the form-based district. The regulating plan shall include one or more zones where different building envelope standards apply.

B. Building envelope standards that include graphics that clearly indicate for each classification of property allowable encroachments, build-to lines, setbacks, building forms, building heights, building types and parking.

C. An indication as to how the proposed regulating plan, building envelope standards and building development standards would be reconciled with any applicable existing historic district standards for City historic districts adopted by ordinance.

D. A written statement of purpose outlining the goals and objectives for the form-based district.

E. Identification of the area for which the form-based district will apply, including a generalized metes and bounds legal description of the area.

F. Documentation of a planning process that was used to establish the plan or vision for the form-based district.

G. Documentation of adequate public participation during the planning process.

H. Support of the Alderman or Aldermen representing the proposed area.

I. Documentation of meeting the required criteria listed in Section 26.82.030.

J. Additional information as needed to ensure the proposed form-based district contains sufficient material for adequate review by the Planning Commission. (1994 C., § 26.82.040; Ord. No. 69199, § 4, 7-18-2012.)

26.82.050 Optional regulatory subjects.

In addition to the minimum requirements, a form-based district may also include building development standards, use regulations, provisions that address non-conforming uses (which may include reducing the time period for discontinuing a non-conforming use to a period of time not less than thirty days), thoroughfare standards, sustainability standards, signage regulations, and any other regulations that would promote the goals of the form-based district. A form-based district will only serve as an overlay code on the subject matters specified in each form-based district and regulatory subjects not included in a form-based district will continue to be regulated by the existing Zoning Code. (1994 C., § 26.82.050; Ord. No. 69199, § 5, 7-18-2012.)

26.82.060 Procedures for approval of a form-based district.

A form-based district is established by ordinance initiated by one of the following two procedures: initiation by the Planning Commission or a formal application process by an applicant.

A. The Planning Commission may on its own initiative propose the enactment of a form-based district for any portion of the City of St. Louis.

B. Prior to the filing of an application for approval of a form-based district with the Planning Commission, the applicant shall schedule a pre-application meeting with the City's Director of Planning and the Zoning Administrator. The purpose of the meeting is to allow the Director of Planning and the Zoning Administrator to inform the applicant of all applicable ordinances, rules, regulations, plans, existing historic districts, policies, standards and procedures that may affect the applicant's planning and development initiative. This consultation would also allow the applicant to present a general concept of the proposed planning and development initiative prior to the preparation of any detailed plans and associated development standards. The applicant shall submit at the pre-application meeting a preliminary application, which shall include the following information:

1. Identification of the applicant and contact person, as well as contact information;

2. Preliminary identification of the form-based district's boundaries;

3. A preliminary written statement of purpose outlining the applicant's intentions for the form-based district;

4. Conceptual-level sketch plans and ideas regarding proposed uses, building forms and densities;

5. Identification of professional planners, architects or others working on the plan;

6. A plan for public participation in the planning process;

7. Support from the Alderman or Aldermen representing the proposed area;

8. Preliminary documentation that the area meets the required criteria listed in Section 26.82.030; and

9. Any additional information as determined by the Director of Planning and the Zoning Administrator;

C. After meeting with the Director of Planning and the Zoning Administrator, an applicant may prepare its application on a form to be provided by the Zoning Administrator. The applicant may submit to the Planning Commission its application for the proposed form-based district, as defined in Sections 26.82.040 and 26.82.050, along with a non-refundable application fee, payable in cash, check or money order to "City of St. Louis," as provided for under the fee schedule in Chapter 26.98 of the Zoning Code, for those proposed form-based districts following a formal application process. The Planning Commission shall have ninety (90) days from the time of submittal to approve or disapprove the form-based district. Upon receipt of the recommendation of the Planning Commission or the expiration of ninety (90) days from the date of first filing such application, an ordinance may be enacted into law pursuant to the provisions of Chapter 26.92 of the Revised Code of the City of St. Louis prescribing procedures for amendments or changes to the boundaries or regulations in the zoning laws of the City of St. Louis. (1994 C., § 26.82.060; Ord. No. 69199, § 6, 7-18-2012.)

26.82.070 Amendments.

Any amendment or change in the boundaries or regulations of an established form-based district shall follow the procedures under Chapter 26.92 of the Zoning Code. (1994 C., § 26.82.070; Ord. No. 69199, § 7, 7-18-2012.)

26.82.080 Administration of form-based districts.

An approved form-based district is intended to exist as a zoning overlay district with the City's existing Zoning Code. The overlay district shall represent and be depicted as a mapped geographic area on the City's official zoning district map. The overlay district may be applied over any zoning district and may encompass one or more zoning districts. Upon approval of an ordinance establishing a specific form-based district:

A. Administration of the form-based district shall be conducted by the office of the Zoning Administrator. The Building Commissioner may, with the approval of the Director of Public Safety, appoint one (1) or more additional members of his department, as well as members of other City departments who have a particular skill or competence to act for the Zoning Administrator. The term "Zoning Administrator" as elsewhere used in this zoning ordinance shall be deemed to include such appointees.

B. Minor waivers regarding an established form-based district may be granted or denied by the Zoning Administrator, as referenced in Section 26.88.020(I)(1)—(7) of the Zoning Code.

C. Appeals regarding a form-based district shall be heard by the Board of Adjustment. (1994 C., § 26.82.080; Ord. No. 69199, § 8, 7-18-2012.)

Chapter 26.84

BOARD OF ADJUSTMENT

Sections:

26.84.010 Board established.
26.84.020 Rules and regulations.
26.84.030 Meetings.
26.84.040 Appeals.
26.84.045 Notice required of Board.
26.84.050 Jurisdiction.

26.84.010 Board established.

A Board of Adjustment is hereby established. The word "Board" when used in this section shall be construed to mean the Board of Adjustment. The Board shall consist of five (5) members who shall be residents of the City of St. Louis, and who shall be appointed by the Mayor subject to approval by resolution adopted by the Board of Aldermen.

A. One (1) member shall be a graduate of an accredited school of architecture or a licensed architect, and one (1) shall be a licensed real estate broker or agent. Each of these two (2) members shall have not less than three (3) years of experience in their profession.

B. The term of office of the members of the Board of Adjustment shall be for four (4) years. Members of the Board of Adjustment existing at the time of the effective date of this section shall be continued in office until the expiration of their term of office.

C. Three (3) alternate members may be appointed as provided above to serve in the absence or disqualification of the regular members. The alternate members shall also be residents of the City of St. Louis who shall serve for a term of one (1) year.

D. Members shall receive an expense allowance as set by ordinance. Expenses incurred in the discharge of official business of the Board may be allowed, but in no event shall these expenses of the Board exceed the amount appropriated by the City.

E. Vacancies shall be filled for the unexpired term only.

F. Members shall be removable for cause by the Mayor upon written charges and after a public hearing.

G. The Board shall elect its own Chairman, who shall serve for one (1) year. (1994 C., § 26.84.010; Ord. No. 65763, § 2, 2002; Ord. No. 59981, § 1(part), 1986; Ord. No. 59979, § 23(part), 1986.)

Editor's Note:

Ordinance 59981 was passed July 31, 1986.

City Counselor Ops.: 8493A, 9032, 9121

McQuillin:

22.228 et seq. Board of adjustment, review and zoning appeals

26.84.020 Rules and regulations.

The Board of Adjustment shall submit to the Clerk of the Board of Aldermen on or before June 1 of each year proposed rules and regulations as it may deem necessary to carry into effect the provisions of the Zoning Code. Said proposed rules and regulations shall be subject to the approval and adoption by resolution of the Board of Aldermen on or before June 30 of said year. (1994 C., § 26.84.020; Ord. No. 64195, § 1, 1997; Ord. No. 59981, § 1(part), 1986; Ord. No. 59979, § 23(part), 1986.)

City Counselor Ops.: 8493A, 9032, 9121, 10039, 10324

26.84.030 Meetings.

The meetings of the Board shall be held at the call of the Chairman, and at such other time as the Board may determine. Such Chairman, or in his absence the Acting Chairman, may administer oaths and compel the attendance of witnesses. All meetings of the Board shall be open to the public. The Board shall keep minutes of its proceedings, showing the vote of each member on each question, or, if absent or failing to vote, indicating such actions, all of which shall be immediately filed in the office of the Board and shall be a public record. (1994 C., § 26.84.030; Ord. No. 59981, § 1(part), 1986; Ord. No. 59979, § 23(part), 1986.)

26.84.040 Appeals.

A. Appeals to the Board may be taken by any person aggrieved or by any officer, department, board or bureau of the City affected by any decision of the Building Commissioner or the Board of Public Service. Such appeal shall be taken within a reasonable time, as shall be prescribed by the Board by general rule, by filing with the Building Commissioner or the Board of Public Service and with the Board a notice of appeal specifying the grounds thereof. The Building Commissioner or the Board of Public Service shall forthwith transmit to the Board all the papers constituting the record upon which the action appealed from is taken.

Any appeal stays all proceedings in furtherance of the action appealed from, unless the Building Commissioner or the Board of Public Service certifies to the Board, after notice of appeal shall have been filed with him or it, that, by reason of facts stated in the certificate, a stay would, in his opinion, or its opinion, cause imminent peril to life or property.

B. In such case proceedings shall not be stayed otherwise than by a restraining order which may be granted by the Board or by a court of record on application or notice to the Building Commissioner or the Board of Public Service, and on due cause shown. The Board shall fix a reasonable time for the hearing of the appeal, give public notice thereof, as well as due notice to the parties in interest and decide the same within a reasonable time. At the hearing any party may appear in person or by agent or by attorney. A fee, set forth in Chapter 26.98, shall be a paid to the Board at the time an appeal is filed. (1994 C., § 26.84.040; Ord. No. 69084, § 2, 2-13-2012; Ord. No. 64654, § 2, 1999; Ord. No. 59981, § 1(part), 1986; Ord. No. 59979, § 23(part), 1986.)

City Counselor Ops.: 10029, 10119

Cases:

Order of board of adjustment reversing, on appeal, building commissioner's denial of permit was void. *Himmel v. Leimkuehler*, 329 S.W. 2d 264 (1959).

Petitioners were "aggrieved parties" entitled under statute and ordinance to maintain certiorari proceedings to review decision of board of adjustment. *Hernreich v. Quinn,* 168 S.W. 2d 1054 (1943).

Corporation which owned no realty and had no assets of any kind, was not an aggrieved person with meaning of statute authorizing review by certiorari of decisions of the board. *Lindenwood Improvement Assoc. v. Lawrence,* 278 S.W. 2d 30 (1955).

Authority to grant variance from zoning requirements should be exercised sparingly and in keeping with spirit of zoning plan and public welfare. *Arens v. City of St. Louis,* 872 S.W. 2d 631 (1994).

26.84.045 Notice required of Board.

Whenever any notice of appeal shall be filed with the Board of Adjustment, the Board shall promptly notify the Alderman of the ward in which the property affected by the appeal may be located, after Community Development Commission and the Director of Public Safety. (1994 C., § 26.84.045; Ord. No. 59981, § 1(part), 1986; Ord. No. 59979, § 23(part), 1986.)

26.84.050 Jurisdiction.

The Board shall have the following powers:

A. To hear and decide appeals where it is alleged there is error in any order, requirement, decision or determination made by an Administrative Official or Agency in the enforcement of the Zoning Code;

B. To permit the extension of a use district where the boundary line of a district divides a lot in a single ownership on April 25, 1950;

C. To interpret the provisions of the Zoning Code in such a way as to carry out the intent and purpose of the plan, as shown upon the maps fixing the several districts accompanying and made a part of the Zoning Code where the street layout actually on the ground varies from the street layout as shown on the maps aforesaid;

D. In passing upon appeals, where there are practical difficulties or unnecessary hardships in the way of carrying out the strict letter of the Zoning Code, to vary or modify the application of any of the regulations or provisions of such code relating to the use, construction or alteration of buildings or structures or the use of land so that the spirit of the code shall be observed, public safety and welfare secured a substantial justice done, and that the granting of the variance is in keeping with the City's comprehensive plan;

E. In exercising the above-mentioned powers, the Board may, in conformity with the provisions of law, reverse or affirm, wholly or partly, or may modify the order, requirement, decision or determination appealed from, and may make such order, requirement, decision or determination as ought to be made, and to that end shall have all the powers of the Building Commissioner or the Board of Public Service. The concurring vote of four (4) of the members of the Board shall be necessary to reverse any order, requirement or determination of the Building Commissioner or the Board of Public Service, or to decide in favor of the applicant on any matter upon which it is required to pass under the Zoning Code; provided, however, that the action of the Board shall not become effective until after the resolution of the Board setting forth the full reason for its decision and the vote of each member participating therein has been spread upon the minutes. Such resolution immediately following the Board's final decision shall be filed in the office of the Board and shall be open to public inspection;

F. The Board of Adjustment shall cause to be published in the City Journal a statement showing

disposition of each appeal and shall mail a copy of said statement to the Aldermen of the ward in which the property affected by the appeal may be located, the Community Development and the Director of Public Safety;

G. Any person or persons jointly or severally aggrieved by any decision of the Board of Adjustment or any officer, department, board, or bureau of the municipality may present to the Circuit Court of the City a petition, duly verified, setting forth that such decision is illegal, in whole or in part, and specifying the grounds of the illegality. Such petition shall be presented to the court within thirty (30) days after the filing of the decision in the office of the Board as provided by RSMo 89.110. Upon the presentation of such petition the court may allow a writ of certiorari directed to the Board to review such decision of the Board, and shall prescribe therein the time within which a return thereto may be made and served upon the realtor's attorney which shall be not less than ten (10) days and may be extended by the court. The allowance of the writ shall not stay proceedings upon the decision appealed from but the court may, on application, on notice to the Board and on due cause shown, grant a restraining order. The Board shall not be required to return the original papers acted upon by it, but it shall be sufficient to return certified or sworn copies thereof or of such portions thereof as may be called for by such writ;

H. The return shall concisely set forth such other facts as may be pertinent and material to show the grounds of the decision appealed from, and shall be verified. If, upon the hearing, it shall appear to the court that testimony is necessary for the proper disposition of the matter, it may take additional evidence or appoint a referee to take such evidence as it may direct and report the same to the court with his findings of fact and conclusions of law, which shall constitute a part of the proceedings upon which the determination of the court shall be made. The court may reverse or affirm, wholly or partly, or may modify the decision brought up for review. (1994 C., § 26.84.050; Ord. No. 71412, § 1, 11-12-2021; Ord. No. 59981, § 1(part), 1986; Ord. No. 59979, § 23(part), 1986.)

Cases:

Variance may be granted on evidence of practical difficulty resulting from factors other than physical characteristics of property. *Arens v. City of St. Louis,* 872 S.W. 2d 631 (Mo. App. E.D. 1994).

Challengers' status as alderwomen did not by itself confer standing to challenge zoning variances granted by the Board of Adjustment. *State ex rel. Smith v. Grant,* 943 S.W. 2d 319 (Mo. App. E.D. 1997).

Chapter 26.88

ZONING ADMINISTRATOR

Sections:

26.88.010 Creation and purpose.
26.88.020 Duties and authority.

26.88.010 Creation and purpose.

The office of the Zoning Administrator is hereby created within the Department of Public Safety. The Building Commissioner may, with the approval of the Director of Public Safety, appoint one (1) or more additional members of his department, as well as members of other City departments who have a particular skill or competence to act for the Zoning Administrator. The term "Zoning Administrator" as elsewhere used in this zoning ordinance shall be deemed to include such appointees. (1994 C., § 26.88.010; Ord. No. 59979, § 23(part), 1986.)

26.88.020 Duties and authority.

The Zoning Administrator shall enforce and perform those tasks necessary for administration of this Zoning Code. In addition to, and incidental to this authority, the Zoning Administrator:

A. May conduct inspections of all buildings, structures and land uses to determine compliance with this Zoning Code;

B. Shall approve all zoning certificates and make and maintain records thereof;

C. Shall approve all certificates of occupancy, and make and maintain records thereof;

D. Shall receive, check for compliance with the various submission requirements contained herein, file and forward to the appropriate officials or bodies all applications, special permits, variances and amendments to this Zoning Code and seek the recommendations from such officials and bodies as are required to properly enforce this title;

E. Shall forward to the Board of Adjustment all papers constituting the record upon which actions appealed from are taken;

F. May report in writing to the Planning Commission and the Board of Aldermen on the administration of the Zoning Code with special attention to enforcement problems and deficiencies in its contents, procedures and standards;

G. Shall sit as ex officio Secretary on the Board of Adjustment, without a vote;

H. Shall notify in writing, if any violations of the provisions of this Zoning Code are found, the persons responsible for such violation. In giving this notification, the Zoning Administrator shall indicate the nature of the violation and order the action necessary to correct it. The Zoning Administrator shall order discontinuation of any illegal use of land, buildings or structures, removal of illegal buildings or structures or of illegal additions or alterations, discontinuance of any illegal work being done, or take any other action authorized by this Zoning Code to ensure compliance with or to prevent violation of its provisions;

I. May grant or deny minor waivers from the enforcement of requirements of this Zoning Code in accordance with standards stated below, provided, that any person aggrieved by any such decision of the Zoning Administrator may appeal to the Board of Adjustment pursuant to Chapter 26.84 and no fee shall be paid for filing such an appeal:

1. To permit the reduction in the number of required parking spaces for joint use of parking facilities when evidence shows that the peak parking demand of the different uses occurs at different times;

2. To increase, by not more than twenty-five percent (25%), the maximum distance that required parking spaces may be located from the uses served;

3. To vary the size of the required parking space to allow for dedicated small car parking areas in parking lots which have a low turnover, such as parking for office uses. The small car spaces may be permitted to be seven and a half (7.5) feet by sixteen (16) feet in size;

4. To vary the front, side or rear yards, required of a main or accessory building to allow it to conform to the existing setbacks of abutting or adjacent property;

5. To vary the front, side or rear yards, required of a main or accessory building if evidence is provided showing a need for reduction of yard depths to provide for a permitted use that cannot be provided for by any other permissible means;

6. To increase the height of any accessory structure; and

7. To permit minor repairs or alterations of a nonconforming structure.

8. To vary the number of bicycle racks required under Section 26.16.085.C if site requirements required in Section 26.16.085(B) cannot be met by means of direct access from a street frontage. (1994 C., § 26.88.020; Ord. No. 69148, § 3, 4-4-2012; Ord. No. 67401, § 2, 2007; Ord. No. 59979, § 23(part), 1986.)

Chapter 26.92

CHANGES AND AMENDMENTS

City Counselor Ops.: 7826, 7899, 8012, 8043, 93

Sections:

26.92.010 Initiation of change.

26.92.020 Petition procedure.

26.92.030 Action by Board of Aldermen.

26.92.040 Notice of proposed change.

26.92.010 Initiation of change.

Any amendment or change in the boundaries or regulations herein shall be initiated in the following manner:

A. By motion of the Planning Commission; or

B. By the filing of a petition with the City Zoning Administrator, by the owner or owners of the property within the district. (1994 C., § 26.92.010; Ord. No. 69037, § 2, 11-18-2011; Ord. No. 59979, § 24(part), 1986.)

26.92.020 Petition procedure.

The said petition shall be in writing on a form supplied by the Zoning Administrator and shall contain a complete description of the property involved and shall set forth fully the grounds of such petition and contain a recital of all the facts relied on by the Petitioner. A fee, set forth in Chapter 26.98, shall be paid to the City upon the filing of a petition, and under no conditions shall said filing fee or any part thereof be returned in the event of unfavorable findings or recommendations on said petition by the Commission. After a study and investigation and within sixty (60) days of filing the petition, the Planning Commission shall hold a public hearing after public notice and hearing as provided in Section 26.92.040 and shall report to the Petitioner its findings and recommendations. Where the Planning Commission recommends modification in the requested change, amendment or supplement, said Petitioner may incorporate the recommended modification in the petition and forward it to the Planning Commission for further study and said Commission shall report to the Petitioner its findings and recommendations. (1994 C., § 26.92.020; Ord. No. 71411, § 1, 11-12-2021; Ord. No. 69084, § 2, 2-13-2012; Ord. No. 69037, § 3, 11-18-2011; Ord. No. 59979, § 24(part), 1986.)

26.92.030 Action by Board of Aldermen.

Upon receipt of the recommendation of the Planning Commission or the expiration of sixty (60) days from the date of first filing said petition, the amendment, change or supplement in the form of a proposed ordinance may be introduced in the Board of Aldermen. Upon introduction in the Board of Aldermen in the form of an ordinance, the Planning Commission shall forward to said Board its findings and recommendations. Any amendment, supplement or change in the form of an ordinance pursuant to the provisions of this chapter shall be introduced into the Board of Aldermen within one (1) year from the date of the Planning Commission findings and recommendations. The Board of Aldermen may amend, supplement or change the boundaries or regulations herein or subsequently established. (1994 C., § 26.92.030; Ord. No. 71411, § 1, 11-12-2021; Ord. No. 69037, § 4, 11-18-2011; Ord. No. 59979, § 24(part), 1986.)

26.92.040 Notice of proposed change.

A. When any petition that has as its purpose the making of a change in the boundary of a zoning district map is filed with the Planning Commission, the Planning Commission shall require the Zoning Administrator to:

1. Have a placard containing the words "Proposed change in zoning ordinance in this block" printed in large type, placed in a conspicuous place on or in the immediate vicinity of the property and block in which a change in zoning district boundaries is proposed at least fifteen (15) days prior to any public hearing held by the Planning Commission. Such placard shall also have prominently displayed such relevant facts and information pertaining to the proposed change, a designation by street address of the property(s) to be changed and the date when those interested may appear before the committee and be heard.

2. Have notice of the public hearing on the bill and the proposed changes published in the official paper of the City of St. Louis or a paper of general circulation, at least fifteen (15) days prior to said hearing.

B. Prior to initiating and recommending a change to the provision of the Zoning Code, the Planning Commission must hold a public hearing following the procedure of Subsection 26.92.040.A.2.

c. When a bill proposing an amendment to the provisions of the Zoning Code is introduced in the Board of Aldermen, the committee to which it is referred for consideration shall consider the board bill in keeping with the rules of the Board of Alderman for committees. (1994 C., § 26.92.040; Ord. No. 71411, § 1, 11-12-2021; Ord. No. 69037, § 5, 11-18-2011; Ord. No. 59979, § 24(part), 1986.)

City Counselor Ops.: 8360

Chapter 26.96

PLATS, CERTIFICATES OF OCCUPANCY AND SURVEY FEES

Sections:

26.96.010	**Plats required.**
26.96.020	**Certificates of occupancy—When.**
26.96.030	**Issuance of certificates of occupancy.**
26.96.040	**Front yard survey.**

26.96.010 Plats required.

All applications for building permits shall be accompanied by a plat in triplicate drawn to scale, showing the actual dimensions of the lot to be built upon, the size of the buildings to be erected, and such other information as may be required by the Building Commissioner, which is necessary to provide for the enforcement of the Zoning Code. (1994 C., § 26.96.010; Ord. No. 59979, § 25(part), 1986.)

26.96.020 Certificates of occupancy—When.

A certificate of occupancy shall be required where there is a change in the use of land or where a new building is erected or an existing building is structurally altered or changed or converted in whole or in part. (1994 C., § 26.96.020; Ord. No. 59979, § 25(part), 1986.)

26.96.030 Issuance of certificates of occupancy.

Certificates of occupancy shall be issued by the Building Commissioner when, after inspection, it is found that the premises complies with the regulations of the Zoning Code. Certificates of occupancy and compliance shall be issued within ten (10) days after written application therefor; or if erection or alteration of buildings is contemplated, within ten (10) days after such erection or alteration is completed to the point of availability for occupancy and use. A record of all certificates shall be kept on file in the office of the Building Commissioner and copies shall be furnished on request to any person having a proprietary or tenancy interest in the building affected. There shall be no

fee charged for the original certificate. A fee of fifty cents ($0.50) for each copy of the original shall be charged by the Building Commissioner. No permit for the erection of any building shall be issued before application has been made for a certificate of occupancy. No building or premises may be occupied until such certificate shall have been issued. (1994 C., § 26.96.030; Ord. No. 59979, § 25(part), 1986.)

26.96.040 Front yard survey.

The fee for a survey necessary to establish the front yard line requirements of any use districts, as set forth in Chapter 26.98, shall be paid prior to the issuance of any certificate of occupancy or building permit. (1994 C., § 26.96.040; Ord. No. 69084, § 2, 2-13-2012; Ord. No. 59979, § 25(part), 1986.)

Chapter 26.98

FEE SCHEDULE

Sections:

26.98.010 Schedule enumerated.

26.98.010 Schedule enumerated.

The following non-refundable fees shall be paid by the requesting party prior to any action being taken by the City in connection with zoning services:

Service	Fee
Front yard survey	$25.00

Form-based district application fee	$500.00
*$500.00 for the first acre, $250.00 for each additional acre or fraction thereof.	

(1994 C., § 26.98.010; Ord. No. 70150, § 2, 11-24-2015; Ord. No. 69199, § 9, 7-18-2012; Ord. No. 69084, § 3, 2-13-2012)

Chapter 26.100

VIOLATIONS

City Counselor Ops.: 8777

Sections:

26.100.010 Penalty for violations.
26.100.020 Civil remedies.
26.100.030 Revocation of conditional use permit.
26.100.040 Revocation of variance.

26.100.010 Penalty for violations.

The owner or general agent of a building or premises where a violation of any provision of the Zoning Code has been committed or shall exist, or the lessee or tenant of an entire building or entire premises where such violation has been committed or shall exist, or the owner, general agent, lessee or tenant of any part of the building or premises in which such violation has been committed or shall exist, or the general agent, architect, builder, contractor or any other person who commits, takes part in or assists in any such violation or who maintains any building or premises, in which any such violation shall exist shall be guilty of an infraction and punished pursuant to the general penalty provisions of Chapter 1.12 of the Revised Code of the City of St. Louis. (1994 C., § 26.100.010; Ord. No. 70555, § 4, 6-17-2017; Ord. No. 59979, § 26(part), 1986.)

Cases:

Circuit court has power in certiorari proceeding to order individual to vacate illegal residence and punish for contempt disobedience of such order, *Hernreich v. Quinn,* 168 S.W. 2d 1054 (1943).

Where an ordinance is unconstitutional, no one can be punished for having refused obedience to it before decision was made. *City of St. Louis v. Polar Wave Ice and Fuel Co.,* 296 S.W. 993 (1927).

McQuillin:

25.335 et seq. Prosecution on proceeding for zoning violations.

26.100.020 Civil remedies.

In addition to the above remedies, the City Counselor may file an action to restrain any violation of the Zoning Code. Any person owning property in any district where his rights may be affected or invaded by a violation of the terms of the Zoning Code may bring suit in any court of competent jurisdiction and obtain such remedies as may be available at law or in equity to protect his rights. (1994 C., § 26.100.020; Ord. No. 59979, § 26(part), 1986.)

26.100.030 Revocation of conditional use permit.

A. Any use which constitutes an enlargement, alteration or extension in the permitted use of a building,

structure or premises for which a conditional use permit has been granted, or any permitted use of a building, structure or premises for which a conditional use permit with conditions has been granted and said conditions are not complied with shall be a violation of the Zoning Code.

B. Upon notice from the code official that a use which may constitute an enlargement, alteration or extension in the permitted use of a building, structure or premises for which a conditional use permit has been granted has occurred, or that a permitted use of a building, structure or premises for which a conditional use permit with conditions has been granted and said conditions are not complied with, the Board of Public Service shall notify the owner of said building, structure or premises, and the party to whom said permit was granted, of a hearing to be held within 30 days of the date of said notice, to determine whether the use is an enlargement, alteration or extension in the permitted use for which a conditional use permit has been granted, or to determine whether the use for which a conditional use permit with conditions has been granted is in compliance with said conditions.

C. If it is found by the Board of Public Service that an enlargement, alteration or extension in the permitted use of the building, structure or premises for which a conditional use permit has been granted has occurred, or that the permitted use of the building, structure or premises for which a conditional use permit with conditions has been granted and said conditions have not been complied with, the conditional use permit or conditional use permit with conditions shall be revoked.

D. No new conditional use permit or conditional use permit with conditions shall be issued for the subject property for a period of one year from the date of revocation. (1994 C., § 26.100.030; Ord. No. 64051, § 1, 1997.)

26.100.040 Revocation of variance.

A. Any use which constitutes an enlargement, alteration or extension in the permitted use of a building, structure or premises for which a variance has been granted, or any permitted use of a building, structure or premises for which a variance with conditions has been granted and said conditions are not complied with shall be a violation of the Zoning Code.

B. Upon notice from the code official that a use which may constitute an enlargement, alteration or extension in the permitted use of a building, structure or premises for which a variance has been granted has occurred, or that a permitted use of a building, structure or premises for which a variance with conditions has been granted and said conditions are not complied with, the Board of Adjustment shall notify the owner of said building, structure or premises, and the party to whom said variance was granted, of a hearing to be held within 30 days of the date of said notice, to determine whether the use is an enlargement, alteration or extension in the permitted use for which a variance has been granted, or to determine whether the use for which a variance with conditions has been granted is in compliance with said conditions.

C. If it is found by the Board of Adjustment that an enlargement, alteration or extension in the permitted use of the building, structure or premises for which a variance has been granted has occurred, or that the permitted use of the building, structure or premises for which a variance with conditions has been granted and said conditions have not been complied with, the variance or variance with conditions shall be revoked.

D. No new variance or variance with conditions shall be issued for the subject property for a period of one year from the date of revocation. (1994 C., § 26.100.040; Ord. No. 64051, § 2, 1997.)
