Commodities in liquid form shall be sold only by liquid measure or by weight, and commodities not in liquid form shall be sold only by weight, by measure of length or area, or by count. Liquid commodities may be sold by weight and dry commodities may be sold by count only if such methods give accurate information as to the quantity of commodity sold. The provisions of this section shall not apply to:

A. Commodities when sold for immediate consumption on the premises where sold;

B. Vegetables when sold by the head or bunch;

C. Commodities when in package form or in containers standardized by Missouri State or by federal law;

D. Concrete aggregates, concrete mixtures, and loose solid materials such as earth, soil, gravel, crushed stone, and the like, when sold by cubic measure; or

E. Unprocessed vegetable and animal fertilizer when sold by cubic measure. (1948 C., Ch. 72, § 19; 1960 C., § 343.010; C. 1994, § 9.16.010; Ord. No. 50077, § 1(part), 1960.)

9.18.010 Declarations required.

Except as otherwise provided in this title, any commodity in package form shall bear on the outside of the package a definite, plain, and conspicuous declaration of:

A. The net quantity of the contents in terms of weight, measure, or count; and

B. In the case of any package not sold on the premises where packed, the name and place of business of the manufacturer, packer, or distributor. The qualifying term "when packed," or words of similar import, shall not be used in connection with the declaration required under Subsection A. (1948 C., Ch. 72, § 20(part); 1960 C., § 344.010; C. 1994, § 9.18.010; Ord. No. 50077, § 1(part), 1960.)

9.18.020 Name of manufacturer, packer, or distributor.

If a commodity is not manufactured by the person whose name appears on the label, the name shall be qualified by a phrase that reveals the connection the person has with the commodity, such as "manufactured for and packed by _____," "distributed by _____," or other similar phrase that expresses the facts. (1948 C., Ch. 72, § 20(A); 1960 C., § 344.020; C. 1994, § 9.18.020; Ord. No. 50077, § 1(part), 1960.)

For exemption, see § 9.18.200.

9.18.030 Business address.

The statement of the place of business shall include the street address, if any, of the place, unless the street address is shown in a current City directory or telephone directory. (1948 C., Ch. 72, § 20(B); 1960 C., § 344.030; C. 1994, § 9.18.030; Ord. No. 50077, § 1(part), 1960.)

For exemption, see § 9.18.200.

9.18.040 Principal place of business.

Where a person manufactures, packs, or distributes a commodity at a place other than his principal place of business, the label may state the principal place of business in lieu of the actual place where each package or commodity was manufactured or packed or is to be distributed, if the statement is not misleading in any particular. (1948 C., Ch. 72, § 20(C); 1960 C., § 344.040; C. 1994, § 9.18.040; Ord. No. 50077, § 1(part), 1960.)

9.18.050 Quantity statement—Commodity only.

The statement of the quantity of the contents shall reveal the quantity of commodity in the package, exclusive of wrappers and other material packed with the commodity, and the qualifying term "when packed," and words of similar import, shall not be used in connection with the statement of quantity. (1948 C., Ch. 72, § 20(D, a); 1960 C., § 344.050(a); C. 1994, § 9.18.050; Ord. No. 50077, § 1(part), 1960.)

9.18.060 Quantity statement—Expression.

The statement shall be expressed in the terms of weight, measure, numerical count, or a combination of numerical count and weight, or measure, that are generally used by consumers and users to express quantity of the commodity and that give accurate information as to the quantity thereof. But if no general consumer usage in expressing accurate information as to the quantity of the commodity exists, the statement shall be in terms of liquid measure if the commodity is liquid, or in terms of weight if the commodity is solid, semi-solid, viscous, or a mixture of solid and liquid. The statement may be in terms of dry measure if the commodity is a fresh fruit, fresh vegetable, or other dry commodity. The quantity of textile materials shall be stated in terms of linear measure, except that, in the case of a commodity in respect to which there exists a definite trade custom otherwise, the statement may be in terms of weight and in accordance with such custom. (1948 C., Ch. 72, § 20(D, b); 1960 C., § 344.050(b); C. 1994, § 9.18.060; Ord. No. 50077, § 1(part), 1960.)

9.18.070 Quantity statement—Terms—Qualification.

When any term common to two or more systems of weight or measure is employed in the quantity state-

ment, the statement shall include the proper qualification of the term, as, for examples, "avoirdupois ounces" and "fluid ounces"; "liquid pints" and "dry pints"; "liquid quarts" and "dry quarts." (1948 C., Ch. 72, § 20(D, c); 1960 C., § 344.050(c); C. 1994, § 9.18.070; Ord. No. 50077, § 1(part), 1960.)

9.18.080 Quantity statement—Terms—Defined.

A statement of weight shall be in terms of the avoirdupois pound and ounce. A statement of linear measure shall be in terms of the standard yard and foot and inch subdivisions thereof. A statement of liquid measure shall be in terms of the United States gallon of two hundred thirty-one cubic inches and quart, pint, and fluid ounce subdivisions thereof, and, except in case of a frozen commodity which is so consumed, shall express the volume at sixty-eight degrees Fahrenheit (twenty degrees Centigrade). A statement of dry measure shall be in terms of the United States bushel of 2,150.42 cubic inches and peck, dry quart, and dry pint subdivisions thereof; or in terms of the United States standard barrel for fruits and vegetables (except cranberries) and its subdivisions of third, half, and three-quarters barrel; or in terms of the United States standard barrel for cranberries, and subdivisions thereof. However, in the case of an export shipment, the statement may be in terms of a system of weight or measure in common use in the country to which such shipment is exported. In the case of drugs, the statement may, as an alternative, be in terms of the kilogram, gram, milligram, liter, and milliliter or cubic centimeter. (1948 C., Ch. 72, § 20(E part); 1960 C., § 344.060(part); C. 1994, § 9.18.080; Ord. No. 50077, § 1(part), 1960.)

9.18.090 Quantity statement—Supplement—Metric.

A statement of weight or measure in the terms specified in Section 9.18.080 may be supplemented by a statement in terms of the metric system of weight or measure. (1948 C., Ch. 72, § 20(E, b); 1960 C., § 344.060(b); C. 1994, § 9.18.090; Ord. No. 50077, § 1(part), 1960.)

9.18.100 Quantity statement—Supplement—Numerical count.

Unless an unqualified statement of numerical count gives accurate information as to the quantity of commodity in the package, it shall be supplemented by a statement of weight, measure, or size of the individual units of the commodity as will give such information. (1948 C., Ch. 72, § 20(E, c); 1960 C., § 344.060(c); C. 1994, § 9.18.100; Ord. No. 50077, § 1(part), 1960.)

9.18.110 Quantity statement—Supplement—Weight or measure.

Unless an unqualified statement of weight or measure gives accurate information as to the quantity of the contents in the package, it shall be supplemented by a statement of count or size of the individual units of the commodity as will give such information. (1948 C., Ch. 72, § 20(E, d); 1960 C., § 344.060(d); C. 1994, § 9.18.110; Ord. No. 50077, § 1(part), 1960.)

9.18.120 Quantity statement—Fractions—General use.

Statements shall contain only fractions as are generally used in expressing the quantity of the commodity. A common fraction shall be reduced to its lowest terms. A decimal fraction shall not be carried out to more than two places, except in the case of drugs. (1948 C., Ch. 72, § 20(F); 1960 C., § 344.070; C. 1994, § 9.18.120; Ord. No. 50077, § 1(part), 1960.)

9.18.130 Quantity statement—Fractions—Expression.

If the quantity of commodity in the package equals or exceeds the smallest unit of weight or measure that is specified in Sections 9.18.080—9.18.110, and that is applicable to such commodity under the provisions of Section 9.18.060, the statement shall express the number of the largest of such units contained in the package (for example, the statement on the label of a package that contains one quart liquid of commodity shall be "one quart liquid," and not "two pints liquid" or "thirty-two fluid ounces") unless the statement is made in accordance with the provisions of Section 9.18.140. Where such number is a whole number and a fraction, there may be substituted for the fraction its equivalent in smaller units, if any smaller unit is specified in Sections 9.18.080—9.18.110 (for examples, one and three-quarters quarts liquid may be expressed as "one quart one and one-half pints liquid" or "one quart one pint eight fluid ounces"; one and one-quarter pounds may be expressed as "one pound four ounces"). The stated number of any unit that is smaller than the largest unit (specified in Sections 9.18.080—9.18.110) contained in the package shall not equal or exceed the number of such smaller units in the next larger unit so specified (for examples, instead of "one quart sixteen fluid ounces"

the statement shall be "one and one-half quarts liquid" or "one quart one pint liquid"; instead of "twenty-four ounces avoirdupois" the statement shall be "one and one-half pounds" or "one pound eight ounces"). (1948 C., Ch. 72, § 20(G, a); 1960 C., § 344.080(a); C. 1994, § 9.18.130; Ord. No. 50077, § 1(part), 1960.)

9.18.140 Quantity statement—Fractions—Custom.

In the case of a commodity with respect to which there exists an established custom of stating the quantity of the contents as a fraction of a unit, which unit is larger than the quantity contained in the package, or as units smaller than the largest unit contained therein, the statement may be made in accordance with such custom if it is informative to consumers. (1948 C., Ch. 72, § 20(G, b); 1960 C., § 344.080(b); C. 1994, § 9.18.140; Ord. No. 50077, § 1(part), 1960.)

9.18.150 Quantity statement—Minimum or actual quantity.

The statement shall express the minimum quantity, or the actual quantity, of the contents of the package. If the statement is not so qualified as to show definitely that the quantity expressed is the minimum quantity, the statement shall be construed as expressing the actual quantity of the contents of the package. (1948 C., Ch. 72, § 20(H); 1960 C., § 344.090; C. 1994, § 9.18.150; Ord. No. 50077, § 1(part), 1960.)

9.18.160 Quantity statement—Variations—Declared minimum quantity.

Where the statement expresses the minimum quantity, no variation below the stated minimum shall be permitted except variations below the stated weight or measure caused by ordinary and customary exposure, after the commodity is sold and delivered by the manufacturer, packer, or distributor, to conditions that normally occur in good distribution practice and that unavoidably result in decreased weight or measure. Variations above the stated minimum shall not be unreasonably large. (1948 C., Ch. 72, § 20(I); 1960 C., § 344.100; C. 1994, § 9.18.160; Ord. No. 50077, § 1(part), 1960.)

9.18.170 Quantity statement—Variations—Declared actual quantity.

Where the statement does not express the minimum quantity:

A. Variations from the stated weight or measure shall be permitted when caused by ordinary and customary exposure, after the commodity is sold and delivered by the manufacturer, packer, or distributor, to conditions that normally occur in good distribution practice and that unavoidably result in change of weight or measure.

B. Variations from the stated weight, measure, or numerical count shall be permitted when caused by unavoidable deviations in weighing, measuring, or counting the contents of individual packages that occur in good packing practice; but such variations shall not be permitted to the extent that the average of the quantities in the packages of a particular commodity comprising either a shipment or other delivery of the commodity or a lot of the commodity that is kept, offered, or exposed for sale, or sold, is below the quantity stated, and no unreasonable shortage in any package shall be permitted, even though overages in other packages in the same shipment, delivery, or lot compensate for such shortages. (1948 C., Ch. 72, § 20(J); 1960 C., § 344.110; C. 1994, § 9.18.170; Ord. No. 50077, § 1(part), 1960.)

9.18.180 Quantity statement—Variations—Tolerances.

The extent of variations from the stated quantity of the contents permissible under Sections 9.18.160 and 9.18.170 in the case of each shipment, delivery, or lot shall be determined by the facts in such case. (1948 C., Ch. 72, § 20(K); 1960 C., § 344.120; C. 1994, § 9.18.180; Ord. No. 50077, § 1(part), 1960.)

9.18.190 Quantity statement—Exemptions.

A package shall be exempt from the requirement that it be marked with a statement of the quantity of its contents if:

A. The quantity of the contents, as expressed in terms applicable to such commodity, except in the case of a drug or cosmetic, under the provisions of Section 9.18.060 is less than one-half ounce avoirdupois, or less than one-half fluid ounce, or (in case the unit of the commodity can be easily counted without opening the package) less than six units. A drug shall be exempt from compliance with these requirements if the quantity of the contents of the package, as expressed in terms of numerical count in compliance with Section 9.18.060, is less than six units, and such units can be easily counted without opening the package. A cosmetic shall be exempt from compliance with these requirements if the quantity of the contents of the package, as expressed in terms applicable to such cosmetic under the provisions of Section 9.18.060, is less than

one-fourth ounce avoirdupois, or less than one-eighth fluid ounce, or (in case the units of the cosmetic can be easily counted without opening the package) less than six units; or

B. The statement of the quantity of the contents of the package, together with all other information required by law to appear on the label, cannot, because of insufficient label space, be so placed on the label as to comply with such requirements. (1948 C., Ch. 72, § 20(L); 1960 C., § 344.122; C. 1994, § 9.18.190; Ord. No. 50077, § 1(part), 1960.)

9.18.200 Name and address exemptions.

A package shall be exempt from the requirement that it be marked with a statement of the name and place of business of the manufacturer, packer, or distributor if the package is sold on the premises where packed, direct to the consumer or user, not to be resold. (1948 C., Ch. 72, § 20(M); 1960 C., § 344.125; C. 1994, § 9.18.200; Ord. No. 50077, § 1(part), 1960.)

9.18.210 Prominence of declarations and statements.

Information required to appear on the label of a package may be considered to lack the requisite definiteness, plainness, and conspicuousness by reason, among other reasons, of:

A. The failure of information to appear on the part or panel of the label that is presented or displayed under customary conditions of purchase;

B. The failure of information to appear on two or more parts or panels of the label, each of which has sufficient space therefor, and each of which is so designed as to render it likely to be, under customary conditions of purchase, the part or panel displayed;

C. The failure of the label to extend over the area of the container or package available for extension, so as to provide sufficient label space for the prominent placing of information;

D. Insufficiency of label space (for the prominent placing of information) resulting from the use of label space for any word, statement, design, or device that is not required by or under authority of ordinance to appear on the label;

E. Insufficiency of label space (for the prominent placing of information) resulting from the use of label space to give materially greater conspicuousness to any other word, statement, or information, or to any design or device;

F. Smallness or style of type in which information appears, insufficient background contrast, obscuring designs or vignettes, or crowding with other written, printed, or graphic matter; or

G. The use of label space for any representation in a foreign language. (1948 C., Ch. 72, § 20(N); 1960 C., § 344.130; C. 1994, § 9.18.210; Ord. No. 50077, § 1(part), 1960.)

9.18.220 Language.

All information required by or under authority of ordinance to appear on the label or labeling shall appear thereon in the English language. (1948 C., Ch. 72, § 20(N); 1960 C., § 344.140; C. 1994, § 9.18.220; Ord. No. 50077, § 1(part), 1960.)

Chapter 9.20

PACKAGES, UNIT PRICE

Sections:

9.20.010 Random packages.
9.20.020 Misleading packages.
9.20.030 Commodity in package form defined.

9.20.010 Random packages.

In addition to the declarations required by Chapter 9.18, any commodity in package form, the package being one of a lot containing random weights, measures, or counts of the same commodity and bearing the total selling price of the package, shall bear on the outside of the package a plain and conspicuous declaration of the price per single unit of weight, measure, or count. (1948 C., Ch. 72, § 21; 1960 C., § 345.010; C. 1994, § 9.20.010; Ord. No. 50077, § 1(part), 1960.)

9.20.020 Misleading packages.

No commodity in package form shall be wrapped, nor shall it be in a container made, formed, or filled, to mislead the purchaser as to the quantity of the contents of the package, and the contents of a container shall not fall below the reasonable standard of fill as may have been prescribed for the commodity in question by state law or regulation. (1948 C., Ch. 72, § 22; 1960 C. 345.020; C. 1994, § 9.20.020; Ord. No. 50066, § 1(part), 1960.)

9.20.030 Commodity in package form defined.

The term "in package form" as used in this title means commodity put up or packaged in any manner in advance of sale in units suitable for either wholesale or retail sale, exclusive, however, of an auxiliary ship-

ping container enclosing packages that individually conform to the requirements of this title. An individual item or lot of any commodity not in package form as defined in this section, but on which there is marked a selling price based on an established price per unit of weight or of measure, shall be construed to be commodity in package form. (1948 C., Ch. 72, § 23; 1960 C., § 345.030; C. 1994, § 9.20.030; Ord. No. 50077, § 1(part), 1960.)

PRODUCTS AND COMMODITIES

Sections:

9.22.010 **Sale by net weight or measure.**

9.22.020 **Misrepresentation of price.**

9.22.030 **Meat, meat products, fish, poultry and wild game.**

9.22.040 **Bread.**

9.22.050 **Butter, oleomargarine, and margarine.**

9.22.080 **Textile products.**

9.22.090 **Berries and small fruits.**

9.22.010 Sale by net weight or measure.

The words "weight or measure" as used in this title in connection with any commodity mean net weight or net measure. Whenever any commodity is sold, offered for sale, or advertised for sale on the basis of weight or measure, the net weight or net measure of the commodity shall be employed, and all contracts concerning commodities shall be so construed.

Weight or measure statements of the quantity of the commodity sold, offered for sale or advertised for sale shall express the number of the largest of such units as contained in such commodity (for example a liquid commodity of one quart shall be "one quart liquid," and not "two pints liquid" or "thirty-two fluid ounces." Where the number is a whole number and a fraction there may be substituted for the fraction its equivalent in smaller units (for examples, one and three-quarter quarts liquid may be expressed as "one quart one and one-half pints liquid" or "one quart one pint eight fluid ounces"; one and one-quarter pounds may be expressed as "one pound four ounces"). The stated number of any unit that is smaller than the largest unit contained in such commodity shall not equal or exceed the number of such smaller units in the next larger unit (for examples, instead of "one quart sixteen fluid ounces" the statement shall be "one and one-half quarts liquid" or "one quart one pint liquid"; instead of "twenty-four ounces avoirdupois" the statement shall be "one and one-half pounds" or "one pound eight ounces"). (1948 C., Ch. 72, § 24; 1960 C., § 346.010; C. 1994, § 9.22.010; Ord. No. 50077, § 1(part), 1960.)

9.22.020 Misrepresentation of price.

Whenever any commodity or service is sold, or is offered, exposed, or advertised for sale, by weight, measure, or count, the price shall not be misrepresented, nor shall the price be represented in any manner calculated or tending to mislead or deceive an actual or prospective purchaser. (1948 C., Ch. 72, § 25; 1960 C., § 346.020; C. 1994, § 9.22.020; Ord. No. 50077, § 1(part), 1960.)

9.22.030 Meat, meat products, fish, poultry and wild game.

All meat, meat products, fish, poultry and wild game, offered or exposed for sale or sold as food, shall be offered and exposed for sale by avoirdupois weight, and shall be weighed at time of sale. This section shall not apply:

A. When any of the items mentioned in this section are for immediate consumption on the premises where sold, or as one of several elements comprising a meal sold as a unit for consumption elsewhere than on the premises where sold;

B. When items are prepacked in packages of equal weight that comply with Chapter 9.18;

C. When items are prepacked in packages of random weights that comply with Section 9.20.010. (1948 C., Ch. 72, § 26; 1960 C., § 346.030; C. 1994, § 9.22.030; Ord. No. 50077, § 1(part), 1960.)

Ops. Atty. Gen.:

Sale of fried chicken, except for immediate consumption, by number of pieces rather than by weight for a specified price, violates RSMo 413.275. No. 276, August 12, 1964.

A hamburger or meat sandwich may be considered a ready-to-eat meal sold as a unit, and not required to be sold by weight. No. 380, December 4, 1964.

9.22.040 Bread.

Each loaf of bread and each unit of a twin or multiple loaf of bread, made or procured for sale, kept, offered, exposed for sale, or sold, whether or not the bread is wrapped or sliced, shall weigh one-half pound,

one pound, one and one-half pounds, or a multiple of one pound, avoirdupois weight, within reasonable variations or tolerances that, by statute or regulation, have been established by the State of Missouri. The provisions of this section shall not apply to biscuits, buns, or rolls weighing four ounces or less, or to "stale bread" sold and expressly represented at the time of sale as such, and that the marking provisions of Chapter 9.18 shall not apply to unwrapped loaves of bread. (1948 C., Ch. 72, § 27; 1960 C., § 346.040; C. 1994, § 9.22.040; Ord. No. 50077, § 1(part), 1960.)

10.04.270 Dangerous dogs.

A. Designation of Dog as Dangerous Dog. The Director of Health or his or her designee may declare

an animal a Dangerous Dog if he or she has probable cause to believe that the animal falls within the definition set forth in this chapter.

1. *Probable Cause to Declare.* For the purposes of this section, probable cause includes:

a. A prior court conviction that indicates that the dog has acted in a manner causing it to fall within the definition of a Dangerous Dog; or

b. A dog bite report filed with the Department of Health; or

c. Actions of the dog witnessed by any Animal Control Officer or Department of Health representative or law enforcement officer; or

d. A verified report that the animal previously has been found to be either a Potentially Dangerous Dog or a Dangerous Dog by any animal control authority; or

e. Other substantial evidence admissible in a court of law.

2. *Service of Declaration.* The declaration shall be in writing, and shall be served on the owner or keeper either by regular United States mail to the owner's keeper's or harborer's last known address, or by personal service.

3. *Contents of Declaration.* The declaration shall state at least:

a. A description of the animal; and

b. The name and address of the owner, keeper or harborer of the animal, if known; and

c. The whereabouts of the animal if not in the custody of the owner; and

d. The facts upon which the declaration is based; and

e. The availability of a hearing in case the person objects to the declaration, if a request is made in writing within five days of the date of receipt of the declaration; and

f. The restrictions placed on the animal as a result of the declaration; and

g. The penalties for violation of the restrictions, including the possibility of the destruction of the animal and imprisonment or fining of the owner, keeper or harborer.

4. *Appeal of Declaration.* The owner, keeper or harborer may, within five days of receipt of the declaration, file a written request for a hearing. The request must be sent to the Commissioner of Health. The appeal will be heard by the Commissioner or a hearing officer who is appointed by the Commissioner to consider these appeals. Following the Commissioner's or hearing officer's decision pursuant to this section the owner, keeper or harborer shall be considered to have exhausted such owner's, keeper's or harborer's administrative appeal. If the Commissioner or hearing officer finds that there is insufficient evidence to support the declaration, it shall be rescinded, and the restrictions imposed thereby annulled. If the Commissioner or hearing officer finds sufficient evidence to support the declaration, then it shall be affirmed.

5. *Impoundment Pending Appeal.* Following the service of a declaration of a Dangerous Dog, and pending appeal pursuant to this section, the Health Commissioner may, if circumstances require as determined by the Commissioner, impound the animal at the owner's, keeper's or harborer's expense, pursuant to the provisions of this chapter, until the Commissioner of Health orders either its redemption or destruction.

B. *Certificate of Registration.*

1. It is unlawful for any person to have a dangerous dog in the City without a certificate of registration issued under this chapter. This section shall not apply to dogs used by law enforcement officials for police work.

2. The Commissioner of Health of the City shall issue a certificate of registration to the owner/guardian of each dangerous dog if the owner/guardian presents to the animal control unit sufficient evidence of:

a. A proper enclosure to confine a dangerous dog and the posting of a notice conspicuously visible to the public at each entrance to the premises and on each side of the proper enclosure, reading in letters not less than one (1) high, "A DANGEROUS DOG IS PRESENT ON THIS PROPERTY AND IS NOT ALLOWED OUT OF HOUSE OR PEN WITHOUT LEASH AND MUZZLE. REPORT VIOLATIONS TO 314-657-1500." In addition, each such notice shall conspicuously display a warning symbol that informs children of the presence of a dangerous dog. If the dangerous dog is kept in a multi-resident dwelling, a notice shall be posted at the entrance to the building as well as the entrance to the dwelling unit;

b. i. A surety bond issued by a surety insurer qualified under the chapter in a form acceptable to the animal control authority in the sum of at least fifty thousand ($50,000.00) dollars, payable to any person injured by the dangerous dog; or

ii. A policy of liability insurance, such as homeowner's insurance, issued by an insurer qualified in the amount of at least fifty thousand ($50,000.00) dollars,

insuring the owner for any personal injuries inflicted by the dangerous dog. Such surety bond or insurance policy shall provide that no cancellation of the policy will be made unless ten (10) days' written notice is first given to the Commissioner of Health;

c. Sufficient evidence that such animal has been spayed or neutered and micro-chipped for identification;

d. In addition, the owner/guardian shall provide the Commissioner of Health with the following information prior to the issuance of a certificate of registration:

3. The fee for the registration of dangerous dogs shall be established by the Commissioner of Health and shall equal the estimated costs of administering the provisions of this chapter with respect to dangerous dogs.

4. It is unlawful to permit or allow a dangerous dog to be outside the proper enclosure unless the dog is muzzled and restrained by a substantial chain or leash not longer than six (6) feet and under physical restraint of a responsible person. The muzzle shall be made in a manner that will not cause injury to the dog or interfere with its vision or respiration but shall prevent it from biting any person or animal.

5. Dogs shall not be declared dangerous if the threat, injury, or damage was sustained by a person who, at the time, was committing a willful trespass or other tort upon the premises occupied by the owner/guardian of the dog or was tormenting, abusing or assaulting the dog or has, in the past, been observed or reported to have tormented, abused, or assaulted the dog or was committing or attempting to commit a crime.

6. Any dangerous dog shall be immediately confiscated by an animal control authority if the (1) dog is not validly registered under this chapter; (2) owner/guardian does not secure and maintain the liability insurance coverage required by this chapter; (3) dog is not maintained in the proper enclosure; or (4) dog is outside of the dwelling of the owner/guardian or outside of the proper enclosure and not under physical restraint of the responsible person.

No owner/guardian or other person controlling or possessing any dog or cat shall tether a dog or cat except by means of a properly fitting harness or collar of nylon or leather construction and a tether in proportion to the size of the animal. The tether must be at least fifteen (15) feet in length with a swivel at both ends.

C. No owner/guardian or other person controlling or possessing any dog or cat shall tether a dog or cat outdoors under conditions where the animal or tether can become entangled on the tether, another animal, or some other object or where the tether can restrict the animal's access to suitable, edible, and sufficient food, clean water (cool in summer and unfrozen in winter), and appropriate shelter.

D. No owner/guardian or other person controlling or possessing any dog or cat shall tether a dog or cat outdoors in unsafe or unsanitary conditions or when said tether does not allow the animal to defecate or urinate in an area separate from the areas where it must eat, drink, or lie down.

3. If the dog or domesticated cat is younger than six (6) months of age;

4. For longer than thirty (30) minutes without adequate food, water and shelter, as required by this chapter.

Each violation of each of the numbered paragraphs of this section of the Revised Code of the City of St. Louis § 10.04.285.E. constitutes a separate violation of this Chapter for the purpose of assessing a penalty.

F. No owner/guardian or other person controlling or possessing any dog or cat shall maliciously and knowingly restrain a dog or cat using a metal chain, tether, or metal wire grossly in excess of the size necessary to restrain a dog or cat safely.

G. All dogs and cats shall be treated humanely and shall not be beaten, tormented, overworked, neglected or cruelly treated, except that reasonable force may be used to drive off vicious animals. No animal shall be induced or encouraged to perform through the use of chemical, mechanical, electrical or manual devices which may cause physical injury or suffering.

H. The owner, keeper or person harboring any female dog shall, during the period that such animal is in heat, keep it securely confined and enclosed within a building except when out upon such person's premises briefly for toilet purposes while on leash or otherwise effectively physically restrained. Such decrees may order confinement, or other regulation, of animals other than dogs, low-cost mass immunization clinics, or any other measure reasonably related to the protection of the health and welfare of the public. 8. The Department of Health has the right to the address of a colony where feral cat colony caregivers have regularly failed to comply with this chapter, where the sponsor has been unable to resolve a nuisance behavior situation, and/or where the sponsor or caregiver has refused to work with the TNR Task Force and Department of Health. (1994 C., § 10.30.020; Ord. No. 69798, § 2, 7-15-2014.)

10.30.030 Disposition of feral cat colony cats.

A. The Department of Health, its designee, or a licensed veterinarian, in accordance with the enforcement of this chapter and the entire Health Code, shall be the only persons permitted to destroy a feral cat. No person may knowingly poison or cause to be poisoned,

Any drugs used for euthanasia shall be by or under the direction of a licensed veterinarian.

B. Any ear tipped cats found or turned in to any City animal shelter, animal welfare organization or veterinarian may notify the City Department of Health or sponsor(s), if known, via mail or telephone.

C. The Department of Health, or its designee, in order to encourage the stabilization of the feral cat population in the City of St. Louis, shall have the following rights:

1. The right to direct that a sponsor remove a feral cat that is creating a nuisance if the sponsor has failed to adequately resolve the nuisance within 90 days after being given written notice thereof. In the event that the department directs the sponsor to remove the cat, the sponsor shall have 30 days to do so. Failure of the sponsor to remove the cat within said time period (or such longer time as the department may specify) shall constitute grounds for the department to remove the cat.

2. Animal Control Officers (ACO), Police Officers or sponsors shall investigate any nuisance complaint allegedly caused by a feral cat.

3. In the event that an ACO or a Police Officer finds that a feral cat or feral cat colony has created a nuisance, the ACO or Police Officer shall advise the department and sponsor in writing of the nuisance. If the sponsor fails to correct the nuisance, the department shall have the right to remove the cat.

4. If a caregiver cannot be found for all or parts of a colony, the sponsor shall make reasonable efforts to relocate the cat(s) to another location.

5. If a sponsor fails to perform its duties as set forth in this chapter, the department may notify the sponsor that it must comply with the requirements of this chapter within 30 days. If the sponsor fails to do so, the department shall remove this sponsor from the list of department approved sponsors, and shall reassign the feral cat colonies from this sponsor to another sponsor.

6. If a feral cat colony caregiver regularly fails to comply with this chapter, the sponsor may notify the feral cat colony caregiver that he or she has 30 days to make all reasonable efforts to fulfill the responsibilities defined in this chapter. If the feral cat colony caregiver fails to comply within that time period, the sponsor may identify and obtain replacement feral cat colony caregivers for the feral cat colonies of the noncompliant caregiver. If no other feral cat colony caregiver can be found within 30 days, the sponsor may notify the department, and the department may reassign colony to another sponsor, undertake TNR or humanely remove all, or parts of, the feral cat colonies and dispose of them in accordance with this chapter and the Health Code of the City of St. Louis. As used in this section, the term "solid waste services" shall mean regular solid waste collection and disposal services and the provision of equipment necessary for the provision of such services, which services may include separate collection of recyclable waste and the sale or transfer of some or all

of such waste to businesses who will recycle such waste for other uses and/or convert such waste to energy rather than placing it in landfills. Solid waste services for which solid waste services fees are charged pursuant to this section shall be provided by and/or through the Refuse Division of the City of St. Louis in accordance with regulations or procedures established by the Refuse Commissioner.

C. *Service Fee.* Beginning immediately, a solid waste services fee of fourteen dollars ($14.00) per month for each dwelling unit shall be charged, as provided herein, in the City of St. Louis for solid waste services provided by or through the City to such dwelling units. The Refuse Division may increase such solid waste services fee on each July 1 (the beginning of each City fiscal year), provided that (a) no such increase shall be effective unless and until the Board of Aldermen approves such fee increase by resolution or ordinance; and (b) the amount of solid waste services fees charged shall not exceed the cost. E. *Exclusions from Payment of Solid Waste Services Fees; Penalties for Failure to Provide Private Solid Waste Collection/Disposal Services/Equipment as Represented.* Solid waste service fees shall not be charged with respect to a dwelling unit when evidence, satisfactory to the Refuse Commissioner, has been provided to demonstrate that such dwelling unit receives solid waste services from a private solid waste contractor and the Refuse Commissioner has verified that, in the opinion of the Refuse Commissioner, such dwelling unit is equipped with appropriate and adequate private solid waste collection equipment and that the solid waste services provided by such private solid waste contractor are adequate. The Refuse Commissioner shall determine the adequacy of such privately-provided solid waste services.

The Refuse Commissioner shall continue to verify the situation set forth in the foregoing paragraph from time to time, as determined by the Refuse Commissioner, and may take such actions as the Refuse Commissioner deems appropriate if the solid waste services cease to be provided to the applicable dwelling units by a private solid waste contractor. The City of St. Louis Building Division shall cooperate with the Refuse Commissioner in determining whether a dwelling unit has appropriate and adequate private solid waste collection equipment and solid waste services.

Failure to provide such private equipment and solid waste services if the Refuse Commissioner has been notified that a dwelling unit receives such service and the Refuse Commissioner has accepted such notification and excluded such dwelling unit from solid waste services fees pursuant to this section shall be a violation of this section. If the Refuse Commissioner or the Building Division finds that a dwelling unit claimed to have solid waste services provided by a private solid waste contractor does not have appropriate and adequate private solid waste collection equipment and solid waste services available, the Building Division shall issue a violation notice to the owner of the property on which the dwelling unit is located and to the applicable customer. Each day such violation continues until such owner or customer corrects such violation by providing solid waste disposal services through a private solid waste contractor or arranging, with the Refuse Commissioner's consent and in the Refuse Commissioner's discretion, for the provision of solid waste services by the City is a separate offense punishable by a fine of up to $500.00 per dwelling unit per day.

The Refuse Division is hereby authorized to enter into an agreement with the Collector for such billing and collection services. The Collector shall, pursuant to such agreement, charge solid waste services fees to customers for dwelling units for which such customer receives water service and solid waste services; the Collector shall not charge solid waste service fees to customers for dwelling units that have been excluded from such solid waste services and solid waste service fees pursu-

ant to Subsections E and I of this section. The Collector may include solid waste services fees and water service fees and other fees and/or charges on the same billing statement, but shall separately state the solid waste services fees from the water service fee and any other fee or charge.

G. *Collection of Unpaid Bills.* Failure to pay solid waste services fees when due shall be a violation of this section.

When any solid waste service fees for any dwelling unit billed pursuant to this section remain unpaid, in whole or in part, when ninety (90) or more days after the payment due date have elapsed, the Collector may proceed to file a lien upon the property on which such dwelling unit is located for the amount of delinquent solid waste services fee payments. The Collector shall notify the property owner via certified mail that a lien will be filed on the property no less than ten (10) days prior to the filing of the lien.

The Collector may also collect delinquent solid waste services fee payments using any other remedy provided for under Missouri law.

The Collector shall have power to sue any customer and any owner of property on which dwelling unit is located in a civil action to recover any sums due for solid waste services fees, plus a reasonable attorney's fee to be fixed by the court.

If the solid waste services fee for such dwelling unit has not been paid, no certificate of inspection shall be issued until all delinquent solid waste services fees with respect to the property on which such dwelling unit is located are paid, and it shall be a violation of this section and the Building Division may issue a notice of such violation to the owner of the property in which the dwelling unit is located if such dwelling unit is occupied before all delinquent solid waste service fees are paid. Each day such violation continues is a separate offense punishable by a fine of up to $500.00 per day.

Except as expressly permitted by the Refuse Commissioner, it shall be a violation of this section for any person or business to use City solid waste services and associated City equipment for any solid waste that does not originate in dwelling units for which a customer pays solid waste services fees. Each such violation shall be a separate offense, punishable by a fine of up to $500.00.

It shall be a violation of this section for any person, business, or owner to fail to provide adequate solid waste collection and disposal services for any property that produces solid waste. If solid waste services are not provided to such property and paid for pursuant to this section, such solid waste services must be furnished by a private solid waste contractor. The Refuse Commissioner shall determine the adequacy of such privately-provided solid waste services. Each day such violation continues shall be a separate offense, punishable by a fine of up to $500.00 per day.

I. *Regulations.* The Refuse Commissioner may issue regulations for the administration of this section, provided such regulations are not inconsistent with this section and are approved by the City Counselor. Such regulations may include provisions for determining which dwelling units receive solid waste services from the City and which dwelling units do not, and provisions for excluding from solid waste services and solid waste services fees, at the Refuse Commissioner's discretion, dwelling units located on a property where large numbers of other dwelling units are also located, dwelling units where specialized equipment is required for collection and disposal, and dwelling units not located on a City solid waste collection route. Such regulations may include provisions for excluding buildings and dwelling units vacant for a period of more than ninety (90) days from the payment of solid waste service fees or crediting solid waste services fees paid during such vacancy, if such situations conform to conditions established by the Refuse Commissioner, and may also establish such conditions and the manner in which conformance with such conditions may be demonstrated. Such regulations shall be kept on file in the Register's Office. Other City departments and agencies shall cooperate with the Refuse Commissioner and the Collector in the administration and enforcement of this section.

J. *Dwelling Units—Solid Waste Services Fees During Rehabilitation.* A customer shall not be billed for or required to pay solid waste services fees for the time period during which rehabilitation of a dwelling unit is in progress if (a) rehabilitation of such dwelling unit, pursuant to a permit for rehabilitation issued by the

D. The loaded weight of roll-out carts shall not exceed 100 pounds.

E. Editor's Note:

Ord. No. 71574, § 2, approved November 4, 2022, amended the Code by repealing former section 11.02.375 in its entirety. Former § 11.02.375 pertained to fine determination and payment; and derived from the Code of 1994, § 11.02.375; and Ord. No. 59121 of 1984.

11.02.380 Enforcement—Procedure.

A. The enforcement of the provisions of this chapter is the joint responsibility of the Refuse Commis-

sioner, Health Commissioner, Building Commissioner, Director of Streets, Deputy Fire Inspectors, and Police officers. Whenever any of them shall find or observe a condition which violates or is a violation of any provisions of this chapter, he shall:

1. At his discretion, issue a notice of violation by mail or by service, which notice will explain the violation and demand its abatement forthwith or within a reasonable period of time. The time for abatement may be extended, at the discretion of the Refuse Commissioner, Health Commissioner, or Building Commissioner, for a period not to exceed six months. No extensions of time for abatement may be granted if public health is endangered by existence of the violation. If abatement does not occur as demanded, or if the official does not issue an abatement notice, the officer may make application to the City Counselor who, if satisfied that there are reasonable grounds to believe that an offense has been committed and that a case against the accused can be made, shall file an information with the City Court, pursuant to Supreme Court Rule 37.08.

2. In any case in which it is lawful for a Police Officer to arrest a person without warrant, at his discretion or at the request of a Refuse Division employee, health officer, Building Inspector, or Deputy Fire Inspector, he may forthwith serve the person with a summons instead of arresting the accused.

3. Nothing in this section shall impair or interfere in any way with any or all of the rights, powers, and duties of the Health Commissioner to abate nuisances pursuant to the provisions of Chapter 11.56 of the City Code, other provisions of such Code or any ordinances, or Articles I (25) of XIII (14C(c)) of the City Charter. The Health Commissioner may pursue all enforcement remedies contained in this chapter and all other applicable chapters of the City Code, including Chapter 11.58, against violators of this chapter.

A summons instead of a warrant may issued on the filing of an information if the judge or prosecutor has good reason to believe the accused will appear in response thereto. The summons shall describe the offense charged and shall command the accused to appear at a stated time and place in answer thereto. The summons may be served in the same manner as a summons in a civil action. If the accused fails to appear as commanded by the summons, a warrant of arrest shall be issued.

B. Proceedings under this chapter shall be consistent with the Missouri Rules of Practice and Procedure in Municipal Courts of the Missouri Supreme Court. (1994 C., § 11.02.380; Ord. No. 59121, § 13(c, d), 1984.)

Every owner, occupant, or person in control of any lot or land within the City shall cause such lot or lands to be kept free from such noxious weeds and vegetation by destroying them, by cutting or spraying with a chemical compound approved by the United States Department of Agriculture and the United States Environmental Protection Agency for the destruction of weeds, or by digging under, or by any other method approved by the Commissioner of Forestry. If the condition has not been abated within the time provided in that subsection, the Forestry Commissioner shall abate it.

11.05.050 Applicability.

Any person who is a displaced person (as defined in Section 11.05.040.E) of this Policy) as a result of a project, the plans, projects or areas for redevelopment under the provisions of RSMo 99, 100 or 353 (1986) for which are approved or amended, or the issuance of tax exempt revenue bonds or the making of a grant or below market interest rate loan for which are approved by the City or the Public Agency on or after August 31, 1991, will be entitled to receive from the developer the relocation payments and assistance set forth in this Policy, to the extent authorized in this Policy, unless (1) the provisions of the Federal Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (42 U.S.C. § 4601 to 4655, inclusive, as amended) (the "URA") or Section 104(d) of the Federal Housing and Community Development Act of 1974 (42 U.S.C. § 5304(d), as amended) are applicable to such displacement; or (2) the person is displaced as the result of the acquisition for a public purpose of real property in the City of St. Louis by the State of Missouri or any political subdivision or any branch, bureau or department thereof, or by any quasi-public corporation, and such real property is purchased solely through the expenditure of state or local funds, in which case the provisions of the URA shall apply. (1994 C., § 11.05.050; Ord. No. 62481, § 1 Exh. A(part), 1991.)

11.05.060 Minimum standards.

The requirements set out in this Policy shall be considered minimum standards. In reviewing any relocation plan proposed by a developer under the operation of Chapter 99, RSMo Ch. 100 or 353, the Public Agency shall determine the adequacy of the proposed plan, and may, in its discretion, require additional assistance to be provided. (1994 C., § 11.05.060; Ord. No. 62481, § 1 Exh. A(part), 1991.)

PART III. ADMINISTRATIVE MATTERS

11.05.070 Assurances—Monitoring and corrective action.

A. *Assurances.* Each developer (except the City or any agency thereof or any public or quasi-public agency or corporation operating in the City, unless they are receiving for another such entity the assistance described in Section 11.05.040.K shall provide assurances in a contract with the entity providing the assistance described in Section 11.05.040.K (i.e., the City or a Public Agency) that the developer will comply with the provisions of this Policy. The City or Public Agency shall provide a copy of each contract containing such assurances to the St. Louis Development Corporation ("SLDC"), 330 North 15th Street, St. Louis, Missouri 63103, Attention: Relocation Section.

B. *Monitoring and Corrective Action.* SLDC shall monitor compliance with this Policy and may pursue any and all legal and equitable remedies to ensure compliance with this Policy and/or make recommendations to, and assist the City or Public Agency regarding corrective action, as it deems appropriate. The City or Public Agency may also independently apply sanctions and/or take corrective action in accordance with applicable program regulations and/or contracts with the developer; provided, however, that prior to so doing, the City or Public Agency shall notify SLDC thereof.

Nothing contained herein shall be construed as imposing upon SLDC, the City or the Public Agency the obligation to provide the relocation payments and assistance to displaced persons unless such entities undertake a project on their own behalf. Each developer shall indemnify and defend the City and SLDC and, if applicable, the Public Agency, for any and all claims of any kind whatsoever arising out of the developer's administration and/or implementation of the Policy and shall post a bond in an amount deemed satisfactory to such entities to secure the faithful performance of such obligation. A provision containing the foregoing requirements shall be contained in the contract described in Section 11.05.070.A.

C. *Urban Redevelopment Corporations.* A developer which is an urban redevelopment corporation created pursuant to RSMo Ch. 353 ("Urban Redevelopment Corporation") that fails to comply with the relocation requirements provided in this Policy, shall not be eligible for tax abatement as provided for in RSMo Ch. 353. (1994 C., § 11.05.070; Ord. No. 62481, § 1 Exh. A(part), 1991.)

11.05.080 Recordkeeping and records and reports.

A. *Recordkeeping.* The developer shall maintain records and reports of its acquisition and displacement activities in sufficient detail to demonstrate compliance with this Policy, as further described in this section. The developer shall retain such records for at least three (3) years from the date that each owner of the real property and each person displaced from the real property receives the final payment to which (s)he is entitled under this Policy.

B. *Records.* The developer shall maintain individual case files containing the following information:

1. Identification of the person's name, address and date of initial occupancy of the displacement dwelling. The developer shall also make a good faith effort to identify, with respect to residential tenant-occupants, the age, sex, and income of all members of the household, and the monthly rent and average monthly utility costs at the displacement dwelling.

2. Evidence that the person received the Notice of Intent to Acquire complying with the requirements of Section 11.05.070.A in a timely fashion.

3. Evidence that each displaced person received an Eligibility and Vacation Notice complying with requirements of Section 11.05.070.B in a timely fashion.

4. Identification of relocation needs and preferences and dates of personal and other contacts and services provided.

5. Identification of referrals to replacement properties as required in Section 11.05.120 of this Policy, date of referral, rent or sale price of each referral dwelling and the utility costs thereat to the extent available to the developer, date of availability of the referral property, and reason(s) given by the person for rejecting the referral property, if applicable.

6. Copy of the Vacate Notice(s), to the extent not provided pursuant to Subsection B.3 of this section.

7. Identification, by address, of the replacement property, rent or sale price of the replacement dwelling and the estimated utility costs thereat to the extent available to the developer and the date of relocation.

8. Copy of each approved claim form and related documentation, evidencing that the person received a relocation payment.

C. *Reports.*

1. *All Developers.* The developer shall provide to SLDC and to the Public Agency providing the assistance described in Section 11.05.040.K (if applicable), the following:

a. Notices of when relocation begins and when it has been completed.

b. A copy of any written complaint received by the developer from a displaced person regarding relocation payments or assistance.

c. If requested, a copy of any one or more of the case files to be maintained by the developer pursuant to the provisions of Subsection B of this section.

2. *Urban Redevelopment Corporations.* In addition to providing the information described in Subsection C.1 of this section, every Urban Redevelopment Corporation shall:

a. Submit, as part of a "redevelopment plan" (as defined in RSMo Ch. 353), a relocation plan complying with the provisions of this Policy; and

b. Submit to SLDC the address of all occupied residential buildings and structures within the "redevelopment area" (as defined in RSMo Chs. 99, 100 and 353, as appropriate), the names and addresses of the persons displaced by the Urban Redevelopment Corporation, the specific relocation payments and assistance provided to each such displaced person and copies of the notices provided by such developer to each displaced person. (1994 C., § 11.05.080; Ord. No. 62481, § 1 Exh. A(part), 1991.)

11.05.090 Administration of relocation payments.

A. *Expeditious Payments.* The developer shall review claims for relocation payments in an expeditious manner. The developer shall promptly notify all displaced persons of any additional documentation that is required to support the claim. The developer shall pay all claims for relocation payments as soon as possible following receipt of sufficient documentation to support the claim, but in no event later than thirty days following receipt of such documentation.

B. *Advance Payments.* If the developer or SLDC determines that a displaced person should be provided with an advance relocation payment in order to avoid or reduce a hardship, the developer shall issue the payment, subject to such safeguards as are appropriate to ensure that the objective of the payment is accomplished.

C. *Time for Filing.* Except to the extent extended by the Public Agency for good cause, all claims for relocation payments shall be filed with the developer within six months after:

1. In the case of tenants, the date of displacement;

2. In the case of owners, the date of displacement or the final payment for the acquisition of the real property (except that in the case of property acquired pursuant to an installment sales contract, the date of payment of the initial regular installment), whichever is later.

D. *Deductions From Relocation Payments.* A developer shall deduct the amount of any advance relocation payment from any subsequent relocation payment to which a displaced person is otherwise entitled. Similarly, a developer may deduct from relocation payments any rent that the displaced person owes the developer; provided, however, that no deduction shall be made if it would prevent the displaced person from obtaining a "decent, safe and sanitary" replacement dwelling. The developer shall not withhold any part of a relocation payment to a displaced person to satisfy an obligation to any other creditor, except as otherwise may be required by law. (1994 C., § 11.05.090; Ord. No. 62481, § 1 Exh. A(part), 1991.)

11.05.100 Appeals.

A. *Initiation of an Appeal.* A person may initiate an appeal by personally delivering or mailing a written notice of appeal to SLDC within sixty (60) calendar days after the person receives written notification of the developer's determination on the person's claim for relocation payments and assistance. The person requesting the appeal shall also mail a copy of said notice of appeal to the developer. SLDC shall accept written notices of appeals regardless of form. If a person does not file a notice of appeal within said sixty (60) day period, the person will be deemed to have waived his/her right to an appeal.

B. *Review of Developer's Files by Appealing Person.* The developer shall permit the appealing person to inspect and copy all materials pertinent to his or her

appeal, except records which may remain closed pursuant to the provisions of RSMo 610.021. The developer may, however, impose reasonable conditions on the person's right to inspect, and to obtain copies of materials, including imposing a reasonable charge for copies.

C. *Statement of Appeal.* Within thirty (30) calendar days after submitting a notice of appeal, the appealing party shall file with SLDC a written statement of appeal describing in detail the errors allegedly made by the developer in determining the person's eligibility for relocation assistance or the amount or type of assistance to which such person is entitled. On or before the day the appealing party files the statement of appeal with SLDC, the appealing party shall mail a copy thereof to the developer. The developer may submit for SLDC's consideration a written response to the statement of appeal by personally delivering or mailing same to SLDC within thirty (30) calendar days after the date the statement of appeal is filed. On or before the day the developer files the response with SLDC, the developer shall mail a copy thereof to the appealing party. All statements of appeal and responses thereto shall be confined to the factual and legal issues essential to the ultimate and just determination of the appeal. The statement of appeal and response shall not exceed ten (10) pages in length, excluding all documents attached thereto in support of the arguments contained in the statement of appeal of the response.

D. *Review Committee.* The Executive Director of SLDC shall appoint a committee of one or more persons to review appeals filed pursuant to this Policy (the "Review Committee").

E. *Scope of Review.* The decision of the Review Committee shall be made on the basis of the statement of appeal and response; provided, however, that the Review Committee shall have the option, in its sole discretion, to request that the parties appear at a hearing by notifying the parties thereof within ten (10) business days of the date of developer's response to the statement of appeal is due. Said notice shall state the place and the time and date of the hearing which shall be at least (2) calendar days from the date of said notice. Neither party shall be permitted to submit new or additional documentation or information subsequent to the date of filing of such party's statement of appeal or response was due.

F. *Right to Representation.* A person and the developer shall have the right to be represented by legal counsel in connection with an appeal, but solely at their own expense.

G. *Determination and Notification.* Within thirty (30) calendar days after the date the response to the statement of appeal is due or the date of the hearing on an appeal, whichever is later, the Review Committee shall make a written determination on the appeal, including an explanation of the basis upon which the decision was made and shall furnish a copy thereof to the developer, the Public Agency (if applicable) and the appealing party.

H. *Waiver of Requirements.* The Review Committee may, in its discretion, waive any of the requirements imposed by this section on the appealing party of the developer if it believes that doing so is in the interest of fairness and will not be prejudicial to either party. (1994 C., § 11.05.100; Ord. No. 62481, § 1 Exh. A(part), 1991.)

PART IV. RELOCATION NOTICES AND ASSISTANCE

11.05.110 Notices.

A. *Notice of Intent to Acquire.* At least ninety (90) days prior to the date that the person will be required to vacate the real property, the developer shall send a Notice of Intent to Acquire to each person that may be permanently displaced as a result of a project. At a minimum, the notice shall do the following:

1. Explain that a project has been proposed and that the developer intends to acquire the real property therefor;

2. Caution the person not to move before the person receives a notice of eligibility for assistance;

3. Generally describe the relocation payments for which the person may be eligible, the basic conditions of eligibility and the procedures for obtaining the payments;

4. Generally describe the relocation assistance to which such person may be entitled, including referrals to replacement properties, help in filing payment claims and other necessary assistance to help the person successfully relocate and the procedures for the provision of such assistance;

5. Inform the person that (s)he will not be required to move without at least ninety (90) days advance written notice;

6. Provide the name, address and telephone number of the person who will be handling relocation for the developer;

7. Inform the person of the requirements set forth in Section 11.05.150, to the extent applicable; and

8. Generally describe the appeals procedure as set forth in Section 11.05.100.

B. *Eligibility and Vacation Notice.*

1. *General.* No displaced person shall be required to move unless he or she has received at least ninety (90) days advance written notice of: (a) the earliest date by which he or she may be required to vacate the real property; and (b) the person's eligibility for relocation payments and/or assistance.

2. *Timing of Notice.* The Eligibility and Vacation Notice shall not be given before, but may be given concurrently with, the Notice of Intent to Acquire described in Subsection A of this section.

3. *Content of Notice.* The Eligibility and Vacation notice shall either:

a. State the specific date by which the real property must be vacated; or

b. Specify the earliest date by which the person may be required to move and indicate that the person will receive another notice indicating the specific date by which he or she must move, at least thirty (30) days prior to such date; such notice shall also state whether the person is eligible for relocation payments and/or assistance. The developer shall include with each such notice a copy of SLDC's appeals procedures.

4. *Additional Vacation Notice.* If the developer previously provided an Eligibility and Vacation Notice which did not state the specific date by which the real property must be vacated, the developer shall provide an additional vacation notice stating the specific date by which the person will be required to vacate the real property at least thirty (30) days prior to such date.

5. *Notice Not Required.* The Eligibility and Vacation Notice and, if applicable, the Vacate Note described in Subsection B.4 of this section need not be issued to a person if:

a. There is no occupied structure and no personal property on the real property;

b. The person makes an informed decision to relocate and vacates the real property prior to the time such notices are to be provided;

c. The person, with full knowledge of his or her right to receive such notices, enters into a negotiated agreement for delivering possession of the real property; or

d. The person does not qualify as a displaced person, as defined in Section 11.05.040.E of this Policy.

C. *Notice of Termination of Intent to Acquire.* A developer can terminate any further obligation to provide the relocation payments and assistance provided herein by providing to each person occupying the real property a notice that it is terminating its intent to acquire such property; provided, however, that if the developer shall reinitiate negotiations for such real property within one (1) year of such termination, the eligibility of all displaced persons who were eligible for payments and/or assistance at the time of such termination shall resume and the eligibility of any other displaced persons shall be determined with reference to this Policy; and, provided further, that the developer shall be obligated to pay any documented actual reasonable moving and related expenses incurred by each such person prior to the date of the notice of termination, to the extent such expenses would be eligible for payment under the provisions of this Policy.

D. *Manner of Notices.* Each notice which the developer is required to provide to a displaced person under this Policy shall be personally served or sent by certified or registered first class mail, return receipt requested, and a copy thereof shall be kept in the developer's files; if notice is sent by certified or registered first class mail, the notice shall also be sent by first class mail, postage prepaid. Proof that the notice was so sent shall be sufficient to satisfy the developer's obligation hereunder, notwithstanding the displaced person's failure to accept the notice sent by certified or registered first class mail. Each notice shall indicate the name and telephone number of a person who may be contacted for answers to questions or other needed help. (1994 C., § 11.05.110; Ord. No. 62481, § 1 Exh. A(part), 1991.)

11.05.120 Referrals to replacement properties before displacement.

A. *General.* The developer shall provide reasonable assistance in identifying replacement properties to all displaced persons, including a minimum of three decent, safe and sanitary dwelling referrals to all residential displaced persons, and three suitable replacement referrals to all displaced businesses. The devel-

oper shall use its best efforts to cause the referrals provided to residential displaced persons to consist of comparable replacement dwellings.

B. *Time for Referrals.* The developer shall provide the referrals called for herein concurrently with the Eligibility and Vacation Notice described in Section 11.05.110.B.

C. *Transportation to Referral Sites.* All residential displaced persons shall be offered transportation to inspect the dwellings to which they are referred. (1994 C., § 11.05.120; Ord. No. 62481, § 1 Exh. A(part), 1991.)

Any business or nonprofit organization which qualifies as a displaced person and has occupied the real property for not less than ninety (90) days prior to:

A. The date the Notice of Intent to Acquire as described in Section 11.05.110.A is sent; or

d. Relettering signs and replacing stationery on hand at the time of displacement that are made obsolete as result of the move;

e. Any license, permit or certification required of the displaced person at the replacement location. However, the payment may be based on the remaining use life of the existing license, permit, or certification;

2. In lieu of actual moving and related expenses, a fixed payment in the amount of $1,500.00.

11.06.370 Applicability.

11.06.010 Statement of public interest.

It is determined and declared by the Board of Aldermen that in certain portions of the City obsolete, deteriorating, substandard, insanitary or blighted areas, exist occasioned by inadequate planning, excessive land coverage, lack of proper light, air or open space, defective design or arrangement of buildings, lack of proper sanitary facilities, or the existence of buildings, which, by reason of age, obsolescence, inadequate or outmoded design, or physical deterioration, have impaired the economic value of areas, infecting them with blight, and such areas are characterized by depreciated values, impaired investments, reduced or negligible income and consequent tax delinquencies; that such conditions exist in areas where obsolete, deteriorating, substandard, insanitary, outworn or outmoded industrial, commercial or residential buildings prevail, and the same are conducive to economic and social liabilities, ill health, transmission of disease, infant mortality, juvenile delinquency and crime; that such conditions occur chiefly in areas which are subdivided into small parcels with multiple ownership and frequently with confusion as to titles; that their assembly for purposes of clearance, replanning, rehabilitation, reconstruction and redevelopment is difficult and costly; that the existence of such conditions and the failure to clear, replan, rehabilitate, reconstruct or redevelop these areas results in progressive deterioration, in a loss of population by the areas, causes a wasteful expenditure of public funds for policing, and occasions large outlays for the creation of public facilities and services elsewhere; that it is impossible and uneconomical for individual owners to independently undertake to remedy such conditions; such conditions require the employment of capital on an investment basis, allowing, however, the widest latitude in the amortization of any indebtedness created thereby; that such conditions further require the acquisition of adequate areas, at fair prices, the clearance of such areas through demolition of existing obsolete, deteriorating, inadequate, unsafe or insanitary buildings and the redevelopment of such areas under proper supervision with appropriate planning as to land use, traffic circulation and construction policies; that the clearance, replanning, rehabilitation, reconstruction and redevelopment of such areas on a large scale basis are necessary for the public welfare and are public uses and purposes for which private property may be acquired by purchase or eminent domain; and that such obsolete, deteriorating, substandard, insanitary and blighted areas constitute a menace to the health, safety, morals and welfare of the citizens of the City. Therefore, the necessity for the provisions herein enacted is hereby declared as a matter of legislative determination to be in the public interest. (1960 C., § 29.010; 1994 C., § 11.06.010; Ord. No. 49583, § 1, 1959.)

Cases:

The land clearance for redevelopment law does not violate constitutional prohibitions against taking private prop-

erty for private use without consent of owner. Land Clearance for Redevelopment Authority of *City of St. Louis v. City of St. Louis,* 270 S.W. 2d 58 (1954).

Redevelopment authority's sale of land to university controlled by religious denominations was lawful. *Kintzele v. St. Louis,* 347 S.W. 2d 695 (1961).

Convention center, the use of which would not be confined to conventions, was a permitted "commercial" use under urban redevelopment plan. *Carr Central Neighborhood v. U.S. Dept. of Housing,* 424 F. Supp. 1194 (1976).

Approval of redevelopment plan and grant of eminent domain by ordinance was void for failure of the plan to contain a detailed statement of financing. *Maryland Plaza Redevelopment v. Greenberg,* 594 S.W. 2d 284 (1979).

Although financing statement in development plan submitted by realtor was somewhat general, it was not so indefinite as to violate the requirement of the redevelopment enabling ordinance that a "detailed statement of the proposed method of financing" be submitted. State ex rel. *Devanssay v. McGuire,* 622 S.W. 2d 323 (Mo. App. 1981).

Ordinance conferring redevelopment rights upon a developer and granting him power of eminent domain was held valid against contention that use of eminent domain would serve no public purpose, that the ordinances authorized the taking of a fee when a lesser interest would accomplish the purpose, that the development plan on file did not contain a sufficiently detailed statement of financing, and that the redevelopment agreement contained in the ordinance lacked mutuality of obligation. *Schweig v. Maryland Plaza Redevelopment Corp.,* 676 S.W. 2d 249 (Mo. App. 1984).

A writ of prohibition will lie to review the claim that a redevelopment corporation, as condemnor, failed to comply with conditions precedent to the exercise the condemnation power and that if condemnation is improperly granted an appeal would be an inadequate remedy because the condemnor would exercise its rights of possession under state law. *State ex rel. Terrell v. Nicholls,* 719 S.W. 2d 862 (Mo. App. 1986).

In the event there is a blighted area or portion of a blighted area where no development plan or plans for such an area's redevelopment is under consideration by the Community Development Commission, the Mayor or the Board of Aldermen by reason of the Board of Aldermen's failure to act or its act or acts disapproving any such transmitted development plan or plans, then any urban redevelopment corporation desirous of participating in the redevelopment of such a blighted area or part of such a blighted area shall file a development plan with the Community Development Commission; provided, however, no development plan shall be considered by the Community Development Commission:

The Board of Aldermen may determine it is in the public interest and serves the public purpose as expressed in this chapter that the power of eminent domain be used by the City or the Urban Redevelopment Corporation or both in acquisition of all or part of the real property included in a development plan. (1960 C., § 29.190; 1994 C., § 11.06.180; Ord. No. 49583, § 12(part), 1959.)

Cases:

Where a developer failed to provide property owners with notice as required by the ordinance granting it the power of eminent domain, it was not authorized to condemn the property owner's holdings. *State ex rel. Terrell v. Nicholls,* 719 S.W.2d 862 (1986).

11.06.190 Eminent domain—Deposit—Required.

In the event that the Board of Aldermen shall determine it is in the public interest that the City acquired by eminent domain or otherwise all or part of the real property in the area included in the development plan and for the purpose expressed in the development plan then the Urban Redevelopment Corporation shall deposit in escrow with the Comptroller a sum of money in cash, a negotiable cashier's check or checks or negotiable federal or municipal securities equal to the estimated cost as determined in the ordinance approving the development plan within ten (10) days after said ordinance becomes law. The term "cost" as used in this section and as herein defined includes all expenditures made by the City under this section, including services of the City law department, what is paid for such real property, appraisals, abstract, title and recording fees, court costs, witness fees, expenses incurred by the Board of Public Service and all other expenses of acquiring such property. (1960 C., § 29.200; 1994 C., § 11.06.190; Ord. No. 49583, § 12(a part), 1959.)

All securities deposited in escrow with the Comptroller shall be promptly placed by him in a safe deposit box under the joint control of the Comptroller and the City Treasurer. (1960 C., § 29.210; 1994 C., § 11.06.200; Ord. No. 49583, § 12(a part), 1959.)

11.06.210 Eminent domain—Deposit—Excess.

In the event the deposit of the estimated costs exceeds the final actual cost of acquisition as defined herein then the balance of the deposit shall be used to satisfy in part or in full any legal obligation which the

Urban Redevelopment Corporation may owe the City. Any balance thereafter remaining shall be returned to the Urban Redevelopment Corporation within thirty (30) days after a final determination, judicial or otherwise, and payment thereof of the price to be paid for the real property. Provided further, upon payment of all costs to the City by the Urban Redevelopment Corporation, the City shall by quitclaim deed, convey all real property acquired by it through eminent domain or otherwise to the Urban Redevelopment Corporation. (1960 C., § 29.220; 1994 C., § 11.06.210; Ord. No. 49583, § 12(a part), 1959.)

11.06.220 Eminent domain—Certificate of public convenience and necessity.

In the event the Board of Aldermen shall determine it is in the public interest that the Urban Redevelopment Corporation be granted the authority and power to acquire real property and incidents thereto pertaining within the area included in the development plan by eminent domain, the Board of Aldermen shall grant a certificate of public convenience and necessity to said corporation authorizing and empowering the said corporation to acquire by eminent domain or otherwise all or any part of the real property for the purpose expressed in the development plan in the area included in the development plan. Such corporation shall have the authority and powers of eminent domain as set forth in RSMo 353.130, paragraph 3 (1949). (1960 C., § 29.230; 1994 C., § 11.06.220; Ord. No. 49583, § 12(b), 1959.)

Every ordinance approving a development plan shall contain:

It is hereby determined and declared by the Board of Aldermen that in certain portions of the City obsolete areas exist occasioned by defective design or arrangement of buildings, or the existence of buildings, which, by reason of age, obsolescence, or physical deterioration, have impaired the economic value of areas, and retarded private investment thereon, and such areas are characterized by depreciated values, impaired investments, reduced or negligible income and consequent tax delinquencies; that such conditions are conducive to economic and social liabilities; that the existence of such conditions result in progressive deterioration, loss of population, demolition of residential structures, causes a wasteful expenditure of public funds for policing and delivery of services; that it is possible for individual owners to independently undertake to remedy such conditions; such conditions require the employment of capital on an investment basis; that the rehabilitation and reconstruction of such areas needs to be encouraged on a large-scale basis by private property owners; and that such obsolete areas constitute a menace to the health, safety, morals, and welfare of the citizens of the City. Therefore, the necessity for the provisions herein enacted is hereby declared as a matter of legislative determination to be in the public interest. (1994 C., § 11.07.010; Ord. No extensions of time for abatement may be granted if public health is endangered by existence of the violation. If abatement does not occur as demanded, the health officer, deputy fire inspector, neighborhood stabilization officer or police officer may make application to the City Counselor who, if satisfied that there are reasonable grounds to believe that an offense has been committed and that a case against the accused can be made, shall file an information with the City Court, pursuant to Supreme Court Rule 37.08.

The summons shall describe the offense charged and shall command the accused to appear at a stated time and place in answer thereto. The summons may be served in the same manner as a summons in a civil action. If the accused fails to appear as commanded by the summons, a warrant of arrest shall be issued. This device consists of two (2) inward projecting long sleeves, an internal tool pouch and an attached, labeled receptacle for asbestos waste. The bags are especially designed to contain sections of pipe for the purpose of removing a short length of damaged asbestos containing material without releasing fibers into the air.

22. "Installation." Any building or structure or multiple (more than one (1)) buildings or structures at a single demolition or renovation site under the control of the same owner or operator (or owner or operator under common control) that is demolished or renovated within a twelve-month period.

5. Business entities that qualify for exemption status under 10 CSR 10-6.250 are not subject to the notification requirements for asbestos abatement projects of a size less than one hundred sixty (160) square feet, two hundred sixty (260) linear feet, or thirty-five (35) cubic feet. These business entities are exempt from post-notification requirements, but shall keep records of waste disposal for department inspection.

C. *Asbestos Abatement Procedures and Practices.*

1. All asbestos abatement contractors prior to engaging in asbestos abatement projects, asbestos projects, and asbestos removal projects shall:

a. Use only those individuals that are certified or trained in accordance with sections 10 CSR 643.250 of the Revised Statutes of Missouri, and

b. Comply with Asbestos, United States Environmental Protection Agency National Emission Standards for Hazardous Air Pollutants (NESHAP) 40 CFR Part 61; Asbestos Hazard Emergency Response Act (AHERA) 40 CFR Part 763; the standards for worker protection promulgated by the United States Occupational Safety and Health Administration (OSHA) at 29 CFR 1910.1001, 1910.1200, 1926.58; the provisions of RSMo 643.40 to 643.250; the ordinances of the City; and rules and regulations and orders of the Commissioner of Health and/or his or her designee by and for the implementation of this chapter.

c. Any asbestos abatement contractor performing work on a project with a total budget of one hundred

twenty-five thousand dollars ($125,000.00) or more must participate in a U.S. Department of Labor registered apprentice program compliant with 29 CFR Part 29 and 29 USC Section 50 that yearly graduates registered apprentices and teaches practices and safety techniques used in asbestos abatement. This requirement does not apply to an excepted "building" or "facility" excluded from those terms' definitions above.

2. At each asbestos abatement project, asbestos project, and asbestos removal project site, the person shall provide the following information for inspection by APC, which shall be current and on record with the Commissioner of Health in a manner prominently accessible and searchable on the Commissioner of Health's website:

a. Proof of current MODNR registration;

b. Proof of current MODNR occupational certification for those individuals on the project;

c. Most recent available air sampling results;

d. Current photo identification for all applicable individuals engaged in the project; and

e. Proof of passage of the training course for the air sampling technicians and photo identifications for air sampling technicians.

D. *Notification Requirements.*

1. Any person undertaking a demolition project, asbestos abatement project, asbestos project, or asbestos removal project shall submit a notification to APC for review by web portal, in person, by email, or by fax at least ten (10) working days prior to the start of the project.

a. Business entities with MODNR -approved exemption status are exempt from notification except for those projects for which notification is required by the EPA's NESHAP.

b. APC may waive the ten (10) working day review period upon request for good cause. To apply for this waiver, the person shall complete the appropriate sections of the notification form provided by APC. The person who applies for the ten (10) working day waiver must obtain approval from APC before the project can begin.

2. The person shall submit the notification form provided by APC.

3. If an amendment to the notification is necessary, the person shall notify APC immediately by web portal, telephone, email, or fax. APC must receive the written amendment within five (5) working days following the verbal or fax agreement.

4. All notifications shall state actual dates and times of the project, the on-site asbestos abatement supervisor and a description of work practices. If the person must revise the dates and times of the project, the person shall notify the APC office at least twenty-four (24) hours in advance of the change by web portal, telephone, email, or fax and then immediately follow-up with a written amendment stating the change. APC must receive the written amendment for changes in dates and times of the project within two (2) working days of the phone or fax message.

5. An inspector shall thoroughly inspect the structure, building, or facility or part of the facility where the demolition or renovation operation will occur for the presence of asbestos, including Category I and Category II non-friable ACM. This includes garages and add-on structures.

6. A representative number of samples must be taken of all suspect ACM before an inspector can report "no ACM present". All sampling should be done in accordance with AHERA requirements and be marked on a facility diagram for the purpose of duplicating the sample testing if necessary. All suspect materials shall be tested. The number of samples may be increased at the APC's direction in the APC's sole discretion. If the facility contains no RACM or the facility contains RACM, but in an amount less than ten (10) square feet and/or sixteen (16) linear feet and/or three (3) cubic feet, a demolition/renovation notification form must be submitted to APC along with the Building Division demolition permit application ten (10) working days prior to demolition. APC will approve the demolition after verification and approval of its findings in writing and certified under penalty of perjury.

7. A complete inspection report, including samples and results, must be submitted to APC.

a. If the inspection determines that there are amounts of RACM in excess of ten (10) square feet and/or sixteen (16) linear feet and/or three (3) cubic feet, but less than one hundred sixty (160) square feet, two hundred sixty (260) linear feet, and/or thirty-five (35) cubic feet, an asbestos abatement contractor must submit a notification to APC ten (10) working days prior to the date asbestos abatement activity is scheduled to begin, and if the asbestos abatement project is associated with a demolition activity the applicable notification fee must accompany the notification.

b. If the inspection determines that there are amounts of RACM equal to or in excess of one hundred sixty (160) square feet, two hundred sixty (260) linear feet, and/or thirty-five (35) cubic feet, an asbestos abatement contractor must submit a notification to APC, along with the applicable notification fee, ten (10) working days prior to the date asbestos project activity is scheduled to begin.

c. Work practices and procedures must be fully described, including but not limited to the methods of removal and containment.

d. Asbestos abatement contractors shall not begin any asbestos abatement project, asbestos project, or asbestos removal project activity without a notice of receipt letter from APC. When notification is approved, the asbestos abatement contractor must remove all RACM from the facility in accordance with the notification and asbestos rules and regulations.

e. If the structure will be demolished following an asbestos abatement project, asbestos project, or asbestos removal project, a completion letter or post-notification must be submitted to APC prior to receiving a demolition sign-off from APC. (A COMPLETION LETTER IS NOT A POST-NOTIFICATION). A post-notification must still be submitted within sixty (60) days of project completion.

8. If the facilities meet the definition of an installation and/or a commercial or public project, and the project is not followed by a planned demolition, notifications may be submitted in groups by city block when the structures combined contain RACM equal to or in excess of one hundred sixty (160) square feet, two hundred sixty (260) linear feet, and/or thirty-five (35) cubic feet. Any single structure that has RACM equal to or in excess of one hundred sixty (160) square feet, two hundred sixty (260) linear feet and/or thirty-five (35) cubic feet shall be notified separately.

9. Only a certified asbestos inspector can deem a structure unsafe to enter. If it is unsafe to inspect prior to demolition, and the facility's regulated asbestos content cannot be determined, the presence of asbestos must be assumed unless sampling proves to be negative. If the asbestos abatement contractor wants to segregate ACM from general debris, an asbestos inspector must be on site until the structure has been made safe enough to conduct a thorough inspection. An asbestos abatement supervisor must be on site during the demolition and proof of hire must be submitted with the demolition notification.

10. If the facility is being demolished under an order of a state or local government agency, issued because the facility is structurally unsound and in danger of imminent collapse, a notification shall be submitted to APC as early as possible before, but not later than the following work day after demolition has begun. The name, title, and authority of the state or local government representative who has ordered the demolition, the date that the order was issued, and the date on which the demolition was ordered to begin shall be attached to the notification. APC will sign-off on the demolition notification when all notification requirements have been satisfied. An inspector must be on site during the demolition to observe for suspect materials that were not accessible in collapsed or unsafe buildings. An asbestos abatement supervisor must be on site at all times and proof of hire must be submitted with notification. Destructive sampling should be conducted in areas such as pipe chases. All interior spaces should be inspected.

11. Demolition contractors shall notify using the web portal stlcitypermits.com when they begin work at a demolition site, and when they depart the demolition site each day of activity.

E. *Emergency Project.* Any person undertaking an emergency asbestos abatement project shall notify APC by web portal, telephone, email, or fax and must receive approval of emergency status. The person must notify APC within twelve (12) hours of the onset of the emergency. Business entities with state-approved exemption status are exempt from emergency notification for state-approved projects that are part of a NESHAP planned renovation annual notification. If the emergency occurs after normal working hours or weekend, the person shall contact APC on the following work day. The notice shall provide:

1. A description of the nature and scope of the emergency;

2. A description of the measures immediately used to mitigate the emergency; and

3. A schedule for removal. Following the emergency notice, the person shall provide APC a notification on the form provided by APC and the person shall submit it within three (3) days of the onset of the emergency. The amendment requirements for notification found in Subsection D.3 and 4 of this section are applicable to emergency projects.

F. *Procedures for Asbestos Emission Control.* Each owner or operator of a demolition or renovation that

contains regulated asbestos in excess of ten (10) square feet and/or sixteen (16) linear feet and/or three (3) cubic feet shall comply with the following procedures:

1. Remove all RACM from a facility, building, or structure being demolished or renovated before any activity begins that would break up, dislodge, or similarly disturb the material or preclude access to the material for subsequent removal. RACM does not have to be removed before demolition if:

a. It is Category l non-friable ACM that is not in poor condition and is not friable, and it will not be made friable by the removal activity.

b. It is a facility component that is encased in concrete or other similarly hard material and is adequately wet whenever exposed during demolition.

c. It is not accessible for testing and was, therefore, not discovered until after demolition began and, as a result of the demolition, the material cannot be safely removed. If not removed for safety reasons, the exposed RACM and any asbestos-contaminated debris must be treated as asbestos-containing waste material and remain adequately wet at all times until disposed of.

d. It is Category II non-friable asbestos containing material and the probability is low that the materials will become crumbled, pulverized, or reduced to powder during demolition.

2. When a facility component that contains, is covered with, or is coated with RACM is being taken out of the facility as a unit or in sections:

a. Adequately wet all RACM exposed during cutting or disjoining operations.

b. Carefully lower each unit or section to the floor and to ground level, not dropping, throwing, sliding, or otherwise damaging or disturbing the RACM.

3. When RACM is stripped from a facility component while it remains in place in the facility, adequately wet the RACM during the stripping operation.

4. After a facility component covered with, coated with, or containing RACM has been taken out of the facility as a unit or in sections, it shall be contained in leak-tight wrapping.

5. For large facility components such as reactor vessels, large tanks, and steam generators, the RACM is not required to be stripped if the following requirements are met:

a. The component is removed, transported, stored, disposed of, or reused without disturbing or damaging the RACM;

b. The component is encased in a leak-tight wrapping; and

c. The leak tight wrapping is labeled during all loading and unloading operations and during storage.

6. For all RACM, including material that has been removed or stripped:

a. Adequately wet the material and ensure that it remains wet until collected and contained or treated in preparation for disposal.

b. Carefully lower the material to the ground and floor, not dropping, throwing, sliding, or otherwise damaging or disturbing the material.

c. Transport the material to the ground via leak-tight chutes or containers if it has been removed or stripped more than fifty (50) feet above ground level and was not removed as units or in sections.

7. The person who conducts the demolition of unsafe buildings or parts of buildings containing asbestos may proceed with the demolition until it is safe for the asbestos abatement contractor to take representative samples of debris. It must be assumed that the debris contains regulated asbestos unless it can be proven through sampling that the debris or parts of the debris have asbestos content of less than one (1) percent in accordance with 40 CFR 61.141. If parts of the debris contain one (1) percent or less, and other parts contain greater than one (1) percent, and the various debris can be safely separated, then only those area of debris which contain greater than one (1) percent regulated asbestos must be specially handled. The following procedures on those portions of the buildings that pose imminent danger to public health or safety, or both, may be used:

a. The person shall ensure that the debris is wet at all times and stays wet until disposed. The person shall ensure that the project activities generate no visible emissions.

b. The person shall ensure that on site at all times during the demolition is an individual who is trained in asbestos removal techniques and who is certified as an asbestos abatement supervisor.

8. For emergency demolitions being conducted under an order of a state or local government agency:

a. Adequately wet the portion of the facility that contains RACM during the wrecking operation.

b. In all such cases where there is uncertainty as to the regulated asbestos in the facility, it should be assumed that it contains regulated asbestos until such time that representative samples can be taken of the

debris to ascertain if greater than one (1) percent in accordance with 40 CFR 61.141, regulated asbestos content is present.

c. An asbestos abatement supervisor must be on site at all times.

9. Demolition contractors shall employ fugitive dust control measures in accordance with the City of St. Louis Department of Public Safety Building Division Demolition Handbook.

G. *Third Party Air Monitoring.*

1. No one employed by an owner or operator of a demolition or renovation activity, or person, partnership, or corporation performing or managing the demolition, construction, reconstruction, alteration, or occupancy on or at the site, or by or with a person, partnership, or corporation that shares a same, in whole or in party, ownership or control group will be employed as air sampling personnel.

2. An air sampling professional must be responsible to conduct all air sampling or be the responsible supervisor for air sampling technicians performing the sampling. When conducting the sampling, the air sampling professional is responsible to ensure all samples are analyzed by Phase Contrast Microscopy (PCM) under NIOSH method 7400, or to request analysis under transmission electron microscopy when necessary to distinguish asbestos fibers from other fibrous materials. The air sampling professional is responsible to ensure the following:

a. Area sampling shall be conducted using collection media and procedures in accordance with NIOSH method 7400. The following schedule shall be used for air sampling during an asbestos project (as defined by this section) in addition to any OSHA compliance monitoring required to be conducted by the contractor:

(1) Background air samples shall be collected and analyzed prior to the start of the asbestos project activities in order to determine background airborne fiber concentrations. Samples shall be taken both inside and outside of the work area to establish existing levels.

(2) The following schedule of samples shall be required on a daily basis once asbestos abatement activities begin. The size of the abatement activity will have impact on the number of samples necessary to monitor the contractor's activities. The following are required minimums:

(a) Two (2) area samples inside the work area;

(b) One (1) personal sample inside the work area;

(c) Two (2) area samples outside the work area in uncontaminated areas of the building, including one at the entrance to the worker decontamination enclosure; and

(d) One area sample at each discharge from negative pressure ventilation equipment to the outside of the building.

(3) Air monitoring results shall be documented and retained on site.

3. Third party continuous air monitoring is required during removal of all ACM if the building is occupied. (Monitoring is not required for demolitions if less than one hundred sixty (160) square feet, two hundred sixty (260) linear feet, or thirty-five (35) cubic feet of material is removed prior to demolition.). Final air clearance is required after ACM removal if the building is occupied or will be occupied at a later date. (Final air clearance is not required for demolitions if less than one hundred sixty (160) square feet, two hundred sixty (260) linear feet, or thirty-five (35) cubic feet of material is removed prior to demolition).

H. *Post Notification.*

1. Any person undertaking an asbestos abatement project or asbestos removal project that requires notification according to Subsection D of this section shall, on the APC provided form, notify APC within thirty (30) days of the completion of the project. This notice shall include a signed and dated receipt for the asbestos waste generated by the project issued by the landfill named on the notification. This notice shall include any final clearance air monitoring results. The air sampling technician performing the analysis shall sign and date all reports of analysis.

2. Business entities that qualify for exemption status are exempt from post-notification requirement, but shall keep records of waste disposal for department inspection.

This notice may be personally served by a representative of the Commissioner of Health and/or his or her designee operating as delegated agents of the State of Missouri, sent by registered or certified mail to the last known address of the responsible person. This notice shall cite the section of the permit, section of City ordinance, or section of state or federal regulation violated, the date and time the violation occurred, and a brief description of the violation. It shall require that the responsible person abate the violation by a date specified in the notice. Within fourteen (14) calendar days of the date of abatement specified in the notice, the Commissioner of Health and/or his or her designee within the City of St. Louis Department of Health shall re-inspect the premise and/or file to determine compliance with the permit, regulation, or ordinance, of which this is a part. This re-inspection shall be known as a "NOV inspection." the administrative citation was not responsible for the violation or that there was no violation as charged in the administrative citation.

3. In the event the responsible person fails to abate the violation by the date specified, the Commissioner of Health and/or his or her designee operating as delegated agents of the State of Missouri, may take other enforcement actions as specified within this section, citing the same date and time of violation in these other actions that were set forth in the "notice of violation."

B. In the event that it becomes necessary and is legally proper, the City Counselor is hereby empowered to institute proceedings in the Circuit Court in the name of the City in order to enforce the terms and conditions of this chapter.

(Ord. No. 71332, § 17, 4-19-2021.)

D. INSPECTION AND CORRECTION OF VIOLATIONS

10-101.35 Routine Inspections

Following the initial inspection of a FOOD ESTABLISHMENT and the issuance of a permit by the COMMISSIONER, the REGULATORY AUTHORITY shall routinely inspect such establishment and shall make as many additional inspections and reinspections as are necessary to ensure that all provisions of this ordinance have been met.

(B) Past performance, for FOOD-borne illness complaints investigated and found to be valid;

(C) The HAZARDS associated with the particular FOODS that are prepared, stored, or served;

(B) Upon inspection of any operating FOOD ESTABLISHMENT, a grade decal denoting the grade of the establishment based on the above criteria shall be immediately posted, provided that prior to the posting of a grade lower than the existing grade by the REGULATORY AUTHORITY, the inspection report form will be reviewed with the PERSON IN CHARGE; this review will be for the purpose of affording the operator of the establishment a final opportunity to discuss the inspection findings. At a re-inspection, the REGULATORY AUTHORITY may if inspection findings warrant, lower the grade without further review.

(C) The time frame for re-inspection after a lowered grade will be a maximum of ten working days when no CRITICAL ITEM violations exist or a maximum of two working days if a CRITICAL ITEM violation exists.

An initial follow-up to an inspection will not result in an additional fee. If repeated follow-up inspections are necessary to gain compliance with the same violation(s) observed during the inspection and initial follow-up inspection, this will result in a fee of fifty dollars ($50) [seventy-five dollars ($75.00) on or after 7/1/2022] for each follow-up inspection beyond the initial follow-up inspection.

10-101.38 Location of Grade Decal

(C) The grade decal must not be defaced, hidden from public view or removed, except by the REGULATORY AUTHORITY. (8) As provided in §10-101.51.

(E) The order of the COMMISSIONER suspending a PERMIT under this section shall be final.

10-101.44 Documenting Information and Observations

The representative of the REGULATORY AUTHORITY who conducts an inspection shall document on an inspection report form:

(3) A refusal to sign an acknowledgment of receipt will be noted in the inspection report and conveyed to the REGULATORY AUTHORITY's historical record for the establishment.

(B) After the representative of the REGULATORY AUTHORITY has completed (A)(1)—(3), shall then make a final request that the PERSON IN CHARGE sign an acknowledgment receipt of inspection findings.

10-101.49 Ceasing Operations and Reporting

(A) Except as specified in B) of this section, a PERMIT HOLDER shall immediately discontinue operations and notify the REGULATORY AUTHORITY if an IMMINENT HEALTH HAZARD may exist because of an emergency such as a fire, flood, extended interruption of electrical or water service, SEWAGE backup, misuse of poisonous or toxic materials, onset of an apparent FOOD-borne illness outbreak, gross insanitary occurrence or condition, or other circumstance that may endanger public health.

(B) A PERMIT HOLDER need not discontinue operations in an area of an establishment that is unaffected by the IMMINENT HEALTH HAZARD.

10-101.50 Resumption of Operations.

(B) Whenever an establishment is required under the provisions of this section to cease operations, the establishment shall remain closed until all CRITICAL ITEM violations are abated. It shall not resume operations until such time as a re-inspection determines that conditions responsible for the requirement to cease operations no longer exist. Opportunity for reinspection shall be offered immediately after the expiration of the date of the ORDER OF CESSATION, upon request of the owner or operator.

(C) In the case of TEMPORARY FOOD ESTABLISHMENTS, all CRITICAL ITEM violations shall be corrected immediately, or the COMMISSIONER may immediately issue an ORDER OF CESSATION to the FOOD service operation.

(3) Failure to comply within a time limit for corrections may require that the establishment immediately cease FOOD service operations or receive a lowered grade. An opportunity for appeal from the inspection findings will be provided if a written request for a hearing is filed with the COMMISSIONER within ten days.

If a request for a hearing is received, it shall be held within five days of receipt of that request.

City cannot erect building to be used as a market place in the center of a dedicated street. *Peters v. City of St. Louis,* 226 Mo. 62, 125 S.W. 1134 (1910).

11.44.020 South Broadway Market—Established.

There is established a street market on the east side of south Broadway, between Convent Street and Rutger Street, during the time from May to November, inclusive, and the following part of such street is designated and set aside for the purpose of a street market: The area between the east curb and a parallel line fifteen feet west thereof, extending northwardly to forty feet south of the south line of Convent Street, and extending southwardly to forty feet north of the north line of Rutger Street.

The Director of Streets shall cause such street market to be divided into stands, each stand extending ten feet along the east curb line of South Broadway and numbered consecutively. Such stands may be occupied by any farmer for the purpose of selling, from the street

or from the sidewalk adjacent thereto, or from both, provisions raised by him; also for the purpose of parking his vehicle, which shall be used by him only as a place in which to store produce to be sold as heretofore prescribed, and not as a stand from which to sell the same. It shall be the duty of the Director of Streets, or his duly authorized representative, to see that such stands are occupied only by farmers and in conformity with all the requirements of this chapter. (1948 C., Ch. 38, § 2; 1960 C., § 566.020; 1994 C., § 11.44.020.)

Any farmer desiring to use stands under the provisions of Section 11.44.020 for the purpose aforesaid shall file with the Director of Streets an application therefor, together with the written consent of the owner or occupant of the adjacent premises. If the Director is satisfied that the applicant is a person of good moral character whose permit to occupy a street market stand has not heretofore been revoked, he shall issue a permit to occupy such stand during the period aforesaid (except Sundays), and for the purposes aforesaid, upon payment to the License Collector of a fee of fifteen dollars. Upon presentation of such permit, the License Collector shall issue to the applicant the license applied for. Any such permit shall be revoked by the Director of Streets after a hearing, if the holder thereof shall violate any of the provisions of this chapter, or shall have in his employ, at any such stand, a person not of good moral character, or shall conduct his business thereat in a disorderly and unsanitary manner, or shall cheat or defraud a patron of his stand. A farmer desiring to occupy more than one of such stands shall secure the permit and pay the license fee herein required for each stand he occupies. Any license issued under this section shall expire on the last day of November of the year that it is issued, and shall be revoked by the License Collector upon the revocation by the Director of Streets of the permit pursuant to which it was issued. (1948 C., Ch. 38, § 3; 1960 C., § 569.020; 1994 C., § 11.44.030)

Municipal ordinance prescribing standards below that fixed by statute is valid, but when ordinance fixes higher standard, the ordinance to that extent is invalid. *St. Louis v. Union Dairy Co.,* 112 S.W. 525, 213Mo. 148 (1908); *City of St. Louis v. Klausmeier,* 213 Mo. 119, 112 S.W. 516 (1908).

An ordinance fixing the standard of milk which shall be offered for sale and the method by which it shall be tested, not being manifestly unreasonable and oppressive, is a proper exercise of the police power. *City of St. Louis v. Liessing,* 89 S.W. 511, 190 Mo. 464, 1 L.R.A. (N.S.) 918, 109 Am. St. Rep. 774, 4 Ann. Cas. 112 (1905).

The health officer shall suspend such permit, whenever he has reason to believe that a public health hazard exists; or whenever the permit holder has violated any of the requirements of this chapter; or whenever the permit holder has interfered with the health officer in the performance of his duties; provided, that the health officer shall, in all cases except where the milk or milk product involved creates, or appears to create, an imminent hazard to the public health; or in any case of a willful refusal to permit authorized inspection; serve upon the holder a written notice of intent to suspend permit, which notice shall specify with particularity the violation(s) in question and afford the holder such reasonable opportunity to correct such violation(s) as may be agreed to by the parties, or in the absence of agreement, fixed by the health officer, before making any order of suspension effective. A suspension of permit shall remain in effect until the violation(s) have been corrected to the satisfaction of the health officer.

Upon repeated violation(s), termination of business, or reasonable cause, the Board of Public Service may revoke such permit following reasonable notice to the permit holder and an opportunity for a hearing at least five days after such notice. This section is not intended to preclude the institution of court action as provided in Section 11.46.380 and Section 11.46.390.

Any person whose permit has been suspended or revoked may make written application for reinstatement of his permit. The application shall contain a

statement that the violation(s) or the conditions believed to have been responsible for the violation(s), specified with particularity, have been corrected. After proper investigation reveals that the violation(s) and/or condition(s) have been satisfactorily corrected, the health officer shall reinstate the suspended permit or recommend to the Board of Public Service that the revoked permit be reinstated. Each dairy farm, milk plant, receiving station, and transfer station whose milk or milk products are intended for consumption within the City of St. Louis or its police jurisdiction shall be inspected by the health officer prior to the issuance of a permit. Following the issuance of a permit, each dairy farm and transfer station shall be inspected at least once every six months and each milk plant and receiving station shall be inspected at least once every three months. Should the violation of any requirement set forth in Section 11.46.400 be found to exist on an inspection, a second inspection shall be required after the time deemed necessary to remedy the violation, but not before three days; this second inspection shall be used to determine compliance with the requirements of Section 11.46.400. Any violations of the same requirement of Section 11.46.400 on such second inspection shall call for permit suspension in accordance with Section 11.46.360 and/or court action.

Every milk producer, hauler, distributor, or plant operator shall, upon request of the health officer, permit access of officially designated persons to all parts of his establishment or facilities to determine compliance with the provisions of this chapter. A distributor or plant operator shall furnish the health officer, upon request, for official use only, a true statement of the actual quantities of milk and milk products of each grade purchased and sold, and a list of all sources of such milk and milk products, records of inspections, tests, and pasteurization time and temperature records. 11.46.390 Examination.

During any consecutive six months, at least four samples of raw milk for pasteurization shall be taken from each producer and four samples of raw milk for pasteurization shall be taken from each milk plant after receipt of the milk by the milk plant and prior to pasteurization. In addition, during any consecutive six months, at least four samples of pasteurized milk and at least four samples of each milk product shall be taken from every milk plant. Samples of milk and milk products shall be taken while in possession of the producer or distributor at any time prior to final delivery. Samples of milk and milk products from dairy retail stores, food service establishments, grocery stores, and other places where milk and milk products are sold shall be examined periodically as determined by the health officer; and the results of such examination shall be used to determine compliance with Section 11.46.350, Section 11.46.370, and Section 11.46.450. Proprietors of such establishments shall furnish the health officer, upon his request, with the names of all distributors from whom milk or milk products are obtained.

Required bacterial counts and cooling temperature checks shall be performed on raw milk for pasteurization. In addition, antibiotic tests on each producer's milk or on commingled raw milk shall be conducted at least four times during any consecutive six months. When commingled milk is tested, all producers shall be represented in the sample. All individual sources of milk shall be tested when test results on the commingled milk are positive. Required bacterial counts, coliform determination, phosphatase and cooling temperature checks shall be performed on pasteurized milk and milk products.

Whenever two of the last four consecutive bacteria counts, coliform determinations, or cooling temperatures, taken on separate days, exceed the limit of the

standard for the milk and/or milk product, the health officer shall send a written notice thereof to the person concerned. This notice shall be in effect so long as two of the last four consecutive samples exceed the limit of the standard. An additional sample shall be taken within fourteen days of the sending of such notice, but not before the lapse of three days. Immediate suspension of permit in accordance with Section 11.46.360 and/or court action shall be instituted whenever the standard is violated by three of the last five bacteria counts, coliform determinations, or cooling temperatures.

Whenever a phosphatase test is positive, the cause shall be determined. Where the cause is improper pasteurization, it shall be corrected and any milk or milk product involved shall not be offered for sale.

Samples shall be analyzed at an official or appropriate officially designated laboratory. All sampling procedures and required laboratory examinations shall be in substantial compliance with the latest edition of Standard Methods for the Examination of Dairy Products of the American Public Health Association, and the latest edition of Official Methods of Analyses of the Association of Official Agricultural Chemists. Such procedures and examinations shall be evaluated in accordance with the methods of evaluating milk laboratories recommended by the U.S. Public Health Service. Examinations and tests shall be conducted to detect adulterants, including pesticides, as the health officer shall require. Assays of vitamin D milk or milk products and/or fortified milk and milk products shall be made at least annually in a laboratory acceptable to the health officer. Only Grade A pasteurized milk and milk products shall be sold to the final consumer, or to restaurants, soda fountains, grocery stores, or similar establishments; provided, that in an emergency, the sale of pasteurized milk and milk products which have not been graded, or the grade of which is unknown, may be authorized by the health officer; in which case such milk products shall be labeled "ungraded." (1960 C., § 465.010; 1994 C., § 11.46.440; Ord. No. 55834, § 2(9), 1971.)

11.46.450 Transferring—Storing—Vehicles.

Except as permitted in this section, no milk producer or distributor shall transfer milk or milk products from one container or tank truck to another on the street, in any vehicle, store, or in any place except a milk plant, receiving station, transfer station, or milkhouse especially used for that purpose. The dipping or ladling of milk or fluid milk products is prohibited.

It is unlawful to sell or serve any milk or fluid milk product except in the individual, original container received from the distributor, or from an approved bulk dispenser; provided, that this requirement shall not apply to milk for mixed drinks requiring less than one-half pint of milk or to cream, whipped cream, or half and half which is consumed on the premises and which may be served from the original container of not more than one-half gallon capacity, or from a bulk dispenser approved for such service by the health officer.

It is unlawful for any hotel, soda fountain, restaurant, grocery store, hospital, or similar establishment to sell or serve any pasteurized milk or milk product which has not been continually stored or displayed while in its possession at a temperature of forty-five degrees Fahrenheit or less. If containers of pasteurized milk or milk products are stored in ice, the storage container shall be properly drained.

No ungraded milk or ungraded milk products shall be processed, handled, or stored in a room with graded milk or milk products except upon written permission of the health officer.

All vehicles used for the transportation or distribution of milk or milk products shall be reasonably adapted to modem sanitary requirements, must display the assigned permit number and be subject to the approval of health officer. Every bulk tank truck operator shall obtain written approval from the health officer and shall use methods and procedures as the health officer may prescribe to collect samples, and to collect and transport the milk. (1960 C., § 465.020; 1994 C., § 11.46.450; Ord. No. 55834, § 2(10), 1971.)

11.46.460 Milk and milk products from points beyond the limits of routine inspection.

Milk and milk products from points beyond the limits of routine inspection of the City of St. Louis or its police jurisdiction may be sold in the City of St. Louis or its police jurisdiction, provided they are produced and pasteurized under regulations which are substantially equivalent to this chapter and have been awarded an acceptable milk sanitation compliance and enforcement rating made by a state milk sanitation rating officer certified by the U.S. Public Health Service

and are approved by the health officer. (1960 C., § 465.030; 1994 C., § 11.46.460; Ord. No. 55834, § 2(11), 1971.)

(1960 C., § 465.040; 1994 C., § 11.46.470; Ord. No. 55834, § 2(12), 1971.)

11.46.480 Personnel heath.

No person affected with any disease in a communicable form, or while a carrier of such disease, shall work at any dairy farm or milk plant in any capacity which brings him into contact with the production, handling, storage, or transportation of milk, milk products, containers, equipment, and utensils; and no dairy farm or milk plant operator shall employ in any such capacity any such person or any person suspected of having any disease in a communicable form, or of being a carrier of such disease. Any producer or distributor of milk or milk products, upon whose dairy farm, or in whose milk plant any communicable disease occurs, or who suspects that any employee has contracted any disease in a communicable form, or has become a carrier of such disease, shall notify the health officer immediately. (1960 C., § 465.050; 1994 C., § 11.46.480; Ord. No. 55834, § 2(13), 1971.)

11.46.490 Procedure when infection is suspected.

When reasonable cause exists to suspect the possibility of transmission of infection from any person concerned with the handling of milk and/or milk products, the health officer is authorized to require any or all of the following measures:

1. The immediate exclusion of that person from handling milk;

2. The immediate exclusion of the milk supply concerned from distribution and use; and

3. Adequate medical and bacteriological examination of the person, of his associates and of his and their body discharges. (1960 C., § 465.060; 1994 C., § 11.46.490; Ord. No. 55834, § 2(14), 1971.)

Where the mandatory compliance with provisions of the appendixes is specified, such provisions shall be deemed a requirement of this chapter.

The health officer shall have the right to enter and have full access to all places, buildings, and conveyances wherein milk or milk products are produced, handled, processed, stored, transported, or kept for sale for the purpose of making inspections and for taking samples of milk and milk products therefrom.

The health officer is hereby empowered to withhold from delivery or sale, at such place and under such conditions as he may direct, any milk or milk products that he has probable cause to believe are adulterated, misbranded, tainted, diseased, or unwholesome, and he may immediately cause samples of the milk products to be tested or analyzed by approved and standard methods. If the health officer determines that such milk or milk products are adulterated, misbranded, tainted, diseased or unwholesome, such milk or milk products shall be condemned by the health officer, and shall be destroyed or otherwise disposed of as he may direct. If the health officer determines that such milk or milk products are not adulterated, misbranded, tainted, diseased, or unwholesome, then he shall immediately withdraw his order withholding the same from delivery or sale. (1960 C., § 465.070; 1994 C., § 11.46.500; Ord. No. 55834, § 2(15), 1971.)

11.46.510 Collection and delivery from farms to milk plants or transfer stations.

All milk stored in cans on the dairy farm shall be collected and delivered to a milk plant at least once daily and all milk stored in farm milk cooling and holding tanks on the dairy farm shall be collected and delivered to a milk plant or transfer station at least once every other day. Permit holders violating the requirements of this section, except during an emergency recognized by the Health Commissioner, shall be subject to suspension of permit until evidence shows that compliance with this section will be secured. (1960 C., § 465.080; 1994 C., § 11.46.510; Ord. No. 55834, § 2(16), 1971.)

11.46.520 Interference with health officer.

Any person who interferes with the health officer or police officers in any manner in their performance of any duty enjoined by this chapter, or who conceals any

milk or milk product so as to prevent inspection or sampling, or who runs or drives away to prevent inspection or sampling of any milk or milk product shall be deemed guilty of a misdemeanor, and upon conviction shall be fined as provided in Section 11.46.540. (1960 C., § 465.090; 1994 C., § 11.46.520; Ord. No. 55834, § 2(17), 1971.)

11.46.530 Inspection fees.

A. An inspection fee not to exceed eight cents on each one hundred pounds of milk or milk products (except half and half and cream products), nor two cents on each pound of butterfat in half and half and cream products, shall be paid to the City of St. Louis on or before the twentieth day of each month for the preceding calendar month. This inspection fee shall be paid as follows:

1. By all milk distributors inspected by the health officer on all Grade A raw milk and lowfat milk, skim milk, or cream therefrom, received; and on all ungraded raw milk and lowfat milk, skim milk, or cream therefrom which is processed into pasteurized milk or milk products;

2. By all milk producers inspected by the health officer on all Grade A raw milk produced which is not received by a milk distributor inspected by the health officer, except that the milk distributor inspected by the health officer who normally receives the milk shall pay the inspection fee if he chooses to divert such milk without receiving it to a milk distributor not inspected by the health officer;

3. By all milk distributors beyond the limits of routine inspection whose milk and milk products are distributed in the City of St. Louis as provided in Section 11.46.460 on all pasteurized milk or milk products as defined in this chapter sold in the City of St. Louis to persons other than a milk distributor;

4. By all milk distributors holding a Board of Public Service milk permit on all pasteurized milk or milk products brought into the City of St. Louis from a milk distributor beyond the limits of routine inspection whose milk and milk products are distributed in the City of St. Louis as provided in Section 11.46.460:

a. Provided, that inspection by the health officer for determinations under Section 11.46.460 shall not be used as a basis for collection of this inspection fee; and

b. Provided, that no milk distributor shall have to pay an inspection fee on any milk or milk product on which a similar inspection fee or tax has been paid to another inspecting agency within whose jurisdiction milk and milk products under the inspection of the health officer of the City of St. Louis are being distributed without application of that agency's similar fee or tax, although the monthly statement prescribed in this section shall still be required; and

c. Provided, that in the case of a producer-distributor all milk produced by him as a producer shall be considered as received by him as a milk distributor; and

d. Provided, that no milk distributor or milk producer shall have to pay an inspection fee which has been paid to the City by another distributor or milk producer; and

e. Provided further, that each milk distributor, milk producer, or producer-distributor shall only be liable for payment of inspection fees on milk or milk products as provided for in this section and shall not be liable for the failure of other milk distributors, milk producers, or producer-distributors to make such payment.

B. Every milk distributor, milk producer-distributor subject to payment of an inspection fee shall on or before the twentieth day of each month, file with the health officer on a form provided by him a statement of the number of pounds of milk or milk product, and of butterfat in half and half and cream products for which he is subject to inspection fee during the preceding calendar month and the classified usage of all milk and milk products utilized. The health officer is hereby authorized to investigate the correctness, accuracy and completeness of the reports required and for that purpose shall have access at all reasonable times to all books and documents bearing on the amount of milk or milk products received, produced, or sold; provided, that such information shall not be disclosed, divulged or made public, except that:

1. Such information may be furnished to other administrative officials in a regular course of their official duties;

2. Such information may be combined and published in the form of general statistical studies or data in which the identity of the person furnishing such information or from whom it was obtained shall not be disclosed;

3. Such information may be offered in evidence by the health officer in any administrative hearing held pursuant to this chapter or in civil actions at law for the

collection of such inspection fees, but the information obtained under this section shall never be used to support a prosecution under Section 11.46.400.

C. All fees collected under the provisions of this chapter shall be deposited with the treasurer of the City of St. Louis and shall be drawn upon by the Comptroller pursuant to appropriations duly made for the salaries and necessary expenses of duly authorized personnel of the milk control section, and the cost of such supplies and equipment and such other expenses as may be required for the operation of the milk control section.

D. In order to determine the rates at which the inspection fees shall be paid the health officer is authorized to gather data pertaining to the anticipated receipts and sales of milk and milk products and butterfat, and make a determination in relation to the necessary cost of enforcing the provisions of this chapter and shall fix the rates of inspection fee for the quarterly periods within the limits hereinbefore set forth so as to assure a sum sufficient to defray the cost over such period, and shall report his findings to the Board of Estimate and Apportionment, and upon approval by such board, the fee so fixed shall be paid for the ensuing three months, as herein provided. If changes in inspection fees are not established on or before the second Monday of a quarterly period, then the fees last previously established shall be the fees for the current period.

E. All unspent inspection fees collected and deposited with the treasurer of the City of St. Louis under the authority granted by Chapters 460 through 467 inclusive, Revised Code of St. Louis, 1960, as amended by Ordinance 50428 shall be drawn upon by the Comptroller as provided in this section. 11.46.540 Penalty for violation.

Any person who shall violate, or fail to comply with, or who shall willfully connive at or assist in the violation or failure to comply with any provisions of this chapter shall be deemed guilty of a misdemeanor and upon conviction thereof shall be fined not less than one dollar nor more than five hundred dollars. Each day any violation of any provision of this chapter shall continue shall constitute a separate offense. (1960 C., § 467.010; 1994 C., § 11.46.540; Ord. No. 55834, § 2(19), 1971.)

B. "Approved," as used in regard to utensils, materials, techniques, and processes, means satisfactory to the health officer and meeting the requirements of this chapter and the standards and specifications set forth in the rules and regulations, made and adopted hereunder, established to prevent the use and consumption of unsound, unhealthful, unwholesome, diseased, contaminated, adulterated or otherwise unfit or inedible meat. Permits when granted shall remain in effect until revoked for cause by the Board of Public Service. (1948 C., Ch. 39, § 16; 1960 C., § 474.080; 1994 C., § 11.48.040; Ord. No. 48606, § 1(16), 1957.)

11.48.050 Permit—Establishments outside City—Required.

It shall be unlawful for any person to transport into or to sell, within the City, meat or product slaughtered or processed in a plant operating outside the boundaries of the City of St. Louis and not under inspection by the meat control section of the City or the meat inspection branch of the United States Department of Agriculture, unless such plant shall have made application for and obtained from the Board of Public Service a reciprocity permit. Such permits when granted, shall remain in effect for one year unless sooner revoked for cause by the Board of Public Service and may be renewed upon application. (1948 C., Ch. 39, § 17; 1960 C., § 474.090; 1994 C., § 11.48.050; Ord. No. 48606, § 1(17), 1957.)

11.48.060 Permit—Establishments outside City—Obtaining.

Establishments located outside the City of St. Louis may obtain permits for merchandising their product in the City in either of two ways:

A. Slaughtering plant, processing plants, storage facilities, and wholesale distributors located outside of the City may obtain a permit as a regularly inspected plant under the St. Louis meat control section inspection program if, in the opinion of the health officer, sufficient personnel for making inspections is available and the travel time involved would not be excessive. All inspections under this plan must be made by regularly appointed St. Louis meat control section employees and an inspection fee shall be paid by the establishment for this service at the rates as provided in this chapter. A mileage fee in addition to the inspection fees, may be charged to reimburse the City for travel expense outside

of the City for inspections as provided in Section 11.48.500. Plants operating under the provisions of this subsection shall submit to the chief meat inspector the same reports as required from plants operating within the City.

B. Permission may be granted to plants located outside the City of St. Louis and not under the inspection of the St. Louis meat control section or the meat inspection branch, United States Department of Agriculture to bring into the City and offer for sale meats, meat products, meat by-products, or meat food products prepared therein provided that the municipalities or other political subdivision in which such plants are located have passed a meat inspection ordinance or made and adopted meat inspection regulations that conform to this chapter in all essential details and that such municipalities or political subdivisions maintain an inspection service that is approved by the Health Commissioner of St. Louis as equivalent to the meat inspection program of the City of St. Louis; and provided further that the Health Commissioner or his authorized representative shall have free access at all times to inspect the sanitary conditions of such plants and the manner in which such inspection is being maintained; and provided further that the permit requirements of this chapter are satisfied.

The plant holding such permit shall submit or have submitted to the Health Commissioner each month, a copy of the inspection form showing the sanitation conditions in the plant, prepared and certified by the approved official health agency performing the inspections. (1948 C., Ch. 39, § 18; 1960 C., § 474.100; 1994 C., § 11.48.060; Ord. No. 48606, § 1(18), 1957.)

PART I. ABATEMENT

11.58.010 Nuisance defined.

Every continuing act or thing done, made, permitted, allowed or continued on any property, public or private, by any person or legal entity, their agents or servants or any person or legal entity who aids or abets therein, to the damage or injury of the inhabitants of the City or a substantial part thereof, shall be deemed a public nuisance unless otherwise provided for in this Code. (1948 C., Ch. 45, § 1; 1960 C., § 535.010; 1994 C., § 11.58.010; Ord. No. 56705, § 1, 1974.)

Cases:

A charter provision giving the city the power to declare, prevent and abate nuisances on private property gives the city the power to pass an ordinance forbidding the owner of the premises from permitting a growth of weeds. *City of St. Louis v. Galt,* 179 Mo. 8, 77 S.W. 876 (1903).

Erection and maintenance of a frame building on lots adjoining a building owned by plaintiff, in violation of a city ordinance, and which is a public nuisance under such ordinance, and which allegedly damaged plaintiff's property, states a good cause of action as against a demurrer. *Harman v. City of St. Louis,* 137 Mo. 494, 38 S.W. 1102 (1897).

A smoke ordinance which declared the emission of dense black or thick gray smoke into the air a nuisance held to be beyond the power of the city, unreasonable and void. *City of St. Louis v. Heitzeberg Packing and Provision Co.,* 141 Mo. 375, 42 S.W. 954 (1897).

Whether a business or occupation (storage of scrap iron, rags and junk) is a nuisance so as to justify zoning ordinance prohibiting the use of property for such business within certain districts is a question of fact. *City of St. Louis v. Evraiff,* 301 Mo. 231, 256 S. W. 489 (1923).

Ordinance will not be declared void for vagueness if ordinance is susceptible to any reasonable construction that will sustain it. *City of Clarkson Valley v. Jones,* 872 S.W.2d 531 (1994).

24.58 Generally, what constitutes a nuisance

11.58.020 Health Commissioner's powers.

Nothing in any ordinance now in force or that may hereafter be enacted relating to nuisances or denominating particular acts as misdemeanors or prescribing penalties therefor shall be construed as limiting or interfering with the duties and powers of the Health Commissioner relative to the condemnation and abatement of any matter which in law constitutes a nuisance. (1948 C., Ch. 45, § 2; 1960 C., § 535.020; 1994 C., § 11.58.020.)

The Health Commissioner may reject any bid when not satisfied with the character or responsibility of such bidder and may reject all bids submitted and readvertise the work. (1948 C., Ch. 45, § 4; 1960 C., § 535.040; 1994 C., § 11.58.040.)

He may be aided by employees of the Division of Health, day laborers especially employed for that purpose, any other help or assistants necessary therefor or, at his discretion, he may let a contract for such work. (1948 C., Ch. 45, § 7(part); 1960 C., § 535.070(part) ; 1994 C., § 11.58.070.)

11.58.090 With notice—Hearing.

In the case of a nuisance which the Health Commissioner is required, by the Charter, to give notice to the property owner or his agent and hold a hearing prior to declaring such condition to be a nuisance and ordering its abatement, the Health Commissioner shall give five days' notice of a hearing prior to declaring the nuisance and ordering its abatement, specifying in such notice the day and hour of the hearing. (1948 C., Ch. 45, § 8(part); 1960 C., § 535.090(part); 1994 C., § 11.58.090.)

11.58.100 With notice—Order.

If, after such hearing, the Health Commissioner shall order the owner of the property on which the nuisance is located or his agent or the occupant of the property to abate the nuisance and if it is not abated by the owner, his agent or the occupant within the time prescribed by the Health Commissioner in his order, the Health Commissioner shall abate this nuisance. (1948 C., Ch. 45, § 8(part); 1960 C., § 535.090(part); 1994 C., § 11.58.100.)

The last publication of this advertisement must be at least five days before the date appointed for opening the bids. These advertise-

ments shall state the general nature of the work and the time and place of receiving bids therefor. (1948 C., Ch. 45, § 9(part); 1960 C., § 535.100(part); 1994 C., § 11.58.110.)

11.58.120 With notice—Cost.

The special tax bills provided for in this chapter shall be levied and collected accordingly. In determining who is the owner of any particular lot, plot or parcel of land for the pro rata distribution of the assessment of the cost, each group of owners, as, for instance, in joint tenancy or in common, shall be deemed a single owner in order to preserve to the City its lien against the particular lot, plot or parcel of land under the special tax bill levied against such property. (1948 C., Ch. 45, § 12; 1960 C., § 535.140; 1994 C., § 11.58.150.)

The program shall operate so as to be consistent with federal law concerning regulation of narcotics and with privacy of lawful users of narcotics. The rules may provide for the Director to suspend the requirement of reporting a particular category of information pursuant to Subsection B of this section, if the Director determines that so reporting will conflict with collection of other reported information by the

D. The Director is authorized to issue a waiver of the electronic transmission requirement to a Dispenser demonstrably unable to comply with the requirement. A waiver shall expire one year from the date of its issuance. The City of St. Louis may expend resources to enforce laws that permit punishment for the use or possession of marijuana or marijuana paraphernalia against:

1. Any individual who provides marijuana to an individual under the age of twenty-one (21) unless such person is a qualified patient;

2. Any individual who possesses more than six (6) flowering marijuana plants for cultivation unless such individual holds a cultivation license or patient cultivation identification card;

3. Any individual who transfers, distributes, sells, or cultivates marijuana on land or in buildings where the owner of the land or buildings has prohibited marijuana on the premises and has provided reasonable notice by a lease provision or posted notice to tenants or occupants of the land or buildings that such conduct is prohibited;

4. Any individual who possesses flowering marijuana plants who does not keep all such plants indoors, locked and secure, unless such individual has been granted a cultivation license by the Missouri Department of Health and Senior Services.

5. Any individual or entity that openly and publicly displays or consumes marijuana except for displays and consumption on private residential property where the person consuming marijuana is either an owner of the property, a person who has a leasehold interest in the property, or any other person who has been granted express or implied permission to consume marijuana on the property by the owner or the lessee of the property.

6. Any individual who is not in compliance with this state or local law.
(Ord. No. 71429, § 3, 12-13-2021.)

11.61.030 Probable cause and reasonable suspicion.

A. In light of the Missouri Constitution's sanction of medical marijuana, the smell of marijuana, whether raw or burnt, the visual presence of smoke or

vapor of marijuana, the visual presence of marijuana or marijuana infused products, the visual presence of less than flowering plants, nor the visual presence of marijuana paraphernalia is no longer indicia that a crime has been or is being committed, and as such shall not be sufficient to establish probable cause to search, seize, or arrest any individual or entity or their property.

B. Notwithstanding Subsection A of this section, the smell of marijuana, whether raw or burnt, the visual presence of smoke or vapor of marijuana, the visual presence of marijuana or marijuana infused products, or the visual presence of flowering plants may be sufficient to establish a finding of reasonable suspicion which may be grounds, subject to officer discretion rooted in an analysis of the totality of the circumstances, for a brief stop for the sole purpose of determining whether an individual is a qualified patient.

1. If the individual is a qualified patient, the suspicion is relieved and the individual is free to go. If the individual is not a qualified patient, subject to officer discretion and a totality of the circumstances analysis, probable cause may be determined for the purpose of further search or seizure.

2. If the police officer is unable to verify, for any reason, that an individual is not a qualified patient, the officer may, given an analysis of the totality of the circumstances, collect all information necessary to issue a summons. If an individual appears at any court date with proof that they are a qualified patient, the matter shall be dismissed.

C. The odor or presence of marijuana and related products may, when combined with additional factors and context, represent an element of a finding of probable cause or reasonable suspicion, subject to officer discretion and further interpretation by Missouri courts.

D. This chapter shall not prohibit police officers from making an arrest where there is a valid warrant, where there is probable cause to believe that an individual is driving under the influence, or where there is probable cause to believe that an individual is violating other state or local laws.
(Ord. No. 71429, § 4, 12-13-2021.)

11.61.040 Recognition of Article XIV of the Missouri State Constitution.

A. Recognizing that the citizenry of the State of Missouri overwhelmingly voted to adopt Article XIV of the Missouri State Constitution, the City of St. Louis recognizes the legitimacy and medical authenticity of the state's medical marijuana program.

B. Subject to Civil Service Commission Rule and/or Department of Personnel Regulation, any city employee who is a qualified patient may present their medical marijuana card to avoid adverse employer actions based on a positive drug test for marijuana.

C. Nothing in this section shall prevent the City of St. Louis from taking adverse employer actions based on acute marijuana intoxication while on duty.
(Ord. No. 71429, § 5, 12-13-2021.)

B. "Cleanup costs" means all costs incurred by the City of St. Louis, its agents or any person participating with the approval of, or under contract with, either the Health Commissioner or a Fire Enforcement Officer in the prevention or mitigation of damages from a hazardous substance emergency or the cleanup of a release of a hazardous substance.

F. "Hazardous substance" means any substance or mixture of substances, whether in solid, gaseous, liquid or mixed form, that presents a danger to the public health or safety or to the environment, including, but not limited to:

I. "Level II Hazardous Substance Emergency" means all Hazardous Substance Emergencies which do not constitute a Level I Hazardous Substance Emergency.

L. "Release" means any threatened or actual emission, discharge, spillage, leakage, pumping, pouring, emptying or dumping of a substance into or onto land, water, or the sewer system, within the corporate limits of the City or into the air above the area contained within the City's corporate limits, including the abandonment or discarding of barrels, cylinders, or other containers or closed receptacles containing any hazardous substance, unless: (1) done in compliance with the conditions of a federal, state, City or Metropolitan Sewer District permit, (2) the substance is confined, and is expected to remain confined, to property owned, leased or otherwise controlled by the person having control over the substance, which property is properly fenced and secured to prevent ready access by the public to said property, or (3) in the case of pesticides, if application is made in accordance with the product label.

(1994 C., § 11.64.020; Ord. No. 62274, § 3, 1991.)

11.64.040 Legislative findings.

The Board of Aldermen of the City hereby makes the following findings:

A. A wide range of hazardous substances are stored, produced, and used within, and transported through, the boundaries of the City.

B. The storage, production, use and transportation of such hazardous substances within the City presents a potential for release of such substances into the environment. Specifically, the potential exists for release of hazardous substances into the air, ground, ground water and sewer systems within the boundaries of the City.

C. The release of a hazardous substance or substances into the environment presents not only a potential for contamination and pollution of the environment, but also may constitute a hazard to human life, health, safety and welfare. Due to the dangers presented by certain releases of hazardous substances into the environment, such releases may constitute an emergency situation requiring immediate remedial action.

D. The Board of Aldermen specifically finds and declares that the release of a hazardous substance into the environment constitutes a nuisance, subject to abatement by the Health Commissioner pursuant to the authority granted said Commissioner by Article XIII, Section 14-C(c) of the Charter of the City.

E. In many instances, private businesses and individuals who have control over one or more hazardous substances do not have the capacity and/or resources to take necessary remedial action, or to undertake such remedial action on a timely basis, to cleanup after the release of a hazardous substance into the environment. Thus, it may become necessary, from time to time, for

the City to undertake or contract for cleanup of hazardous substances following a release of such substances into the environment.

F. Remedial measures necessary for cleanup of a hazardous substance release are costly. Where cleanup actions are undertaken by the Fire Department or Health Division, such actions will most often involve use of costly equipment, such as personal protection clothing, which cannot be reused, adding greatly to the expense of cleanup operations.

G. In order to assure that the City has the necessary resources to protect its citizenry in the event of a Hazardous Substance Emergency, it is imperative that the City be able to recover the costs incurred by it in cleaning up the release of a hazardous substance from the person(s) having control of such substance at the time of the release. (1994 C., § 11.64.040; Ord. No. 62274, § 4, 1991.)

11.64.050 Reporting of hazardous substance release.

Any person having control of a hazardous substance at the time that a release of such substance occurs shall immediately report such release to the Fire Department, by calling the 911 emergency number. A written follow up report shall be made to the Chief of the Fire Department, or his duly authorized representative, within five days of the release. The Fire Department shall provide the Health Commissioner and the Hazardous Materials Program Manager with a copy of such report within two working days of receipt of the follow up report. Such report shall specify:

A. The person(s) having control over the hazardous substance(s) at the time of a release;

B. The name of the substance(s) released;

C. The location where the release occurred;

D. The medium(s) into which the substance(s) were released;

E. The amount of substances released;

F. The known health, safety and environmental risks associated with the substance(s) which were released;

G. The actions taken to cleanup the release;

H. Any further actions which the person(s) having control of the hazardous substance(s) at the time of the release intends to take to cleanup or remedy the effect of the release;

I. The name of any persons other than the person(s) having control of the hazardous substance(s) at the time of the release who assisted in cleanup of such substance(s); and

J. The name of a person or persons who can be contacted for further information regarding the release.

A copy of the material safety data sheet for each hazardous substance which has been released into the environment shall be attached to this report. The requirements of this section are intended as a supplement to, and not a replacement for, the requirements of any federal or state law or regulation requiring reporting of a release of a hazardous substance. Reporting of a release of a hazardous substance pursuant to the rules and regulations of the St. Louis Local Emergency Planning Committee, promulgated under the authority of Title III of the federal Superfund Amendments and Reauthorization Act of 1986, shall constitute compliance with this section. Failure to comply with the requirements of this section shall be a violation punishable by a fine of not less than one hundred dollars ($100.00) nor more than five hundred dollars ($500.00), or by imprisonment for not more than ninety (90) days, or by both such fine and imprisonment. Each day following a release of a hazardous substance during which such release goes unreported shall constitute a separate violation. Each day for which no follow up report of a release is filed, after the fifth day following such release, shall constitute a separate violation. (1994 C., § 11.64.050; Ord. No. 62274, § 5, 1991.)

11.64.060 Initial response to reported release of hazardous substance.

Whenever a release of a hazardous substance has been reported to the Department pursuant to the provisions of Section 11.64.050, or the Department otherwise becomes aware of a potential release, a Fire Enforcement Officer shall immediately investigate such report to determine: (A) whether a release has occurred, (B) the extent and quantity of the release, and (C) whether, if a release has occurred, the release constitutes a Hazardous Substance Emergency. Additionally, he shall take whatever action he deems to be immediately necessary to protect public health and safety. If the Fire Enforcement Officer making an investigation of a release determines that immediate cleanup is necessary to protect the public health and safety, he shall declare a Level I Hazardous Substance Emergency. Such declaration may be oral; however,

within forty-eight (48) hours of the declaration of an emergency by a Fire Enforcement Officer, a follow up written notice of such declaration shall either be personally served upon, or sent by registered first class mail to, the person having control of the hazardous substance. Such follow-up notice shall designate the boundaries of the site for which a Level I Hazardous Substance Emergency was declared. Whenever the Fire Department receives a report of a release of a hazardous substance, or upon otherwise becoming aware of a potential release, the Fire Department shall, within forty-eight (48) hours of the conclusion of its investigation, inform the Commissioner and the Hazardous Materials Program Manager of the results thereof. (1994 C., § 11.64.060; Ord. No. 62274, § 6, 1991.)

11.64.070 Cleanup of hazardous substance release requiring immediate action to protect public health or safety.

Where a Fire Enforcement Officer has declared a Level I Hazardous Substance Emergency, the Fire Enforcement Officer may proceed to immediately take or order all actions necessary to cleanup the hazardous substance(s) which have been released, including the hiring of a private response contractor(s), unless the person(s) having control of the hazardous substance(s) at the time of the release is immediately willing and capable of undertaking cleanup of the substance. If a Level I Hazardous Substance Emergency has been declared and the person(s) having control of such substance(s) at the time of the release volunteers to undertake cleanup of such substance(s), the Fire Enforcement Officer on the scene shall have final authority to determine whether such person(s) has the capability to immediately undertake appropriate action to cleanup the release. If he determines at any time that the person(s) having control of the hazardous substance(s) is incapable of properly cleaning up the release, or is not properly conducting cleanup activities, the Fire Enforcement Officer shall order such person(s) not to engage in or to cease cleanup activities and the Fire Enforcement Officer shall then immediately proceed to take or order all actions necessary for cleanup of the release. The authority of a Fire Enforcement Officer under this section to take or order cleanup actions shall be limited to actions necessary to alleviate immediate danger to public health or safety and activity reasonably associated or related therewith. Upon completion of cleanup activities necessary to alleviate immediate danger to public health and/or safety at the site of a release, the Fire Enforcement Officer shall rescind his order declaring a Level I Hazardous Substance Emergency at such site. He shall immediately notify the Health Commissioner of such action. (1994 C., § 11.64.070; Ord. No. 62274, § 7, 1991.)

11.64.080 Health Commissioner to investigate reports of hazardous substance release.

Upon being informed of a hazardous substance release, or upon otherwise becoming aware of a release or potential release, which has not been declared a Level I Hazardous Substance Emergency by the Fire Department, the Health Commissioner shall immediately cause an investigation of such release or potential release to be made by Fire Department and/or Health Division personnel for purposes of determining: (A) whether a release has occurred, (B) the extent and quantity of the release, and (C) whether, if a release has occurred, the release constitutes a Hazardous Substance Emergency. The Health Commissioner shall also cause investigation of all sites for which a Level I Hazardous Substance Emergency was rescinded, following cleanup actions, to determine whether a Level II Hazardous Substance Emergency exists at such site. (1994 C., § 11.64.080; Ord. No. 62274, § 8, 1991.)

11.64.090 Powers of Health Commissioner.

A. If, after investigation of a release by either the Fire Department or Health Division personnel, it is determined that such release constitutes a Level II Hazardous Substance Emergency, then the Health Commissioner shall issue an order declaring a Level II Hazardous Substance Emergency. Such order shall specifically designate the release requiring declaration of a Level II Hazardous Substance Emergency as a nuisance. The Commissioner's order shall designate the boundaries of the site for which such Hazardous Substance Emergency exists. The Commissioner shall cause notice of such Level II Hazardous Substance Emergency to be either personally served, or sent by registered mail, to the owner(s) and occupant(s) of the site and to the person(s) having control of the hazardous substance(s) at the time of the release. The Commissioner shall also officially notify the Fire Department, the St. Louis Metropolitan Police Department, the Building Commissioner of the City of St. Louis, the Missouri Department of Natural Resources, the Environmental Protection Agency, any other governmental agency which the Commissioner determines should be

notified, and utility companies providing service to the site. Further, notice of such written follow-up order is to be given to the parties, and in the manner, specified above.

B. If the Commissioner has declared a release to be a Level II Hazardous Substance Emergency, he shall, in consultation with other City agencies and appropriate state and federal agencies, issue an order to the person(s) having control of the hazardous substance(s) at the time of the release which resulted in declaration of the emergency requiring such person(s) to take any actions necessary to cleanup the release. As part of said order, the Commissioner may require the person(s) having control of the hazardous substance(s) at the time of the release to prepare a plan for cleanup of the release and to provide a written copy of said plan to the Commissioner for approval. The order shall establish a timetable for presentation of a cleanup plan and for completion of cleanup of the site where the release occurred.

C. The Commissioner, upon declaration of a Hazardous Substance Emergency, has the authority and power to conspicuously post a notice on the site designated in the order which declared the emergency, which notice shall substantially read as follows:

DANGER!

HAZARDOUS SUBSTANCES PRESENT.

AREA POSTED BY ST. LOUIS HEALTH COMMISSIONER, UNAUTHORIZED PERSONNEL KEEP OUT.

For Information Contact:

The St. Louis Health Commissioner

(314) 658-1054

D. Where the Commissioner has determined that it is in the best interest of public health and/or safety to post a notice pursuant to the provisions of Subsection C of this section, the Commissioner shall also cause to be recorded with the Recorder of Deeds, for the site for which such notice is posted, a notice stating that the site is subject to the restrictions set forth in Section 11.64.100 of this chapter.

E. Upon completion of all work necessary on a site to comply with a cleanup order issued by the Commissioner, the notice posted pursuant to Subsection C of this section shall be removed from the site, and notice of such action shall be given to all persons previously provided with notice concerning said site under either Subsection A or C of this section. Additionally, the Commissioner shall cause to be recorded with the Recorder of Deeds a notice stating that the site restrictions set forth in Section 11.64.100 have been rescinded with regard to said site.

F. If a person who had control over a hazardous substance at the time a release occurs fails to comply with an order issued by the Commissioner pursuant to Subsection B of this section, or if such person cannot be contacted within ten (10) days of a release which has resulted in declaration of a Level II Hazardous Substance Emergency, then the Commissioner may undertake cleanup of the hazardous substance(s) which have been released and/or contract with one or more private contractors for cleanup of such hazardous substances. All such contracts must be executed by the Commissioner and countersigned by the Comptroller and City Counselor. This subsection in no way shall restrict the authority of the Fire Chief or of a Fire Enforcement Officer to undertake, or contract for, cleanup of a release which presents an immediate threat to public health or safety, pursuant to the provisions of Section 11.64.070.

G. In the event that a Level II Hazardous Substance Emergency has been declared as the result of the discovery of any abandoned or discarded barrels, cylinders, or other containers or closed receptacles containing any hazardous substance, the Commissioner may immediately undertake or contract for cleanup actions with regard to said barrels, cylinders, containers or receptacles, regardless of the presence of an immediate danger to the public health and/or safety.

H. It shall be a violation of this chapter for any person to fail to comply with the provisions of an order issued by the Commissioner pursuant to Subsection B of this section. Such violation shall be punishable by a fine of not less than two hundred fifty dollars ($250.00) nor more than five hundred dollars ($500.00) or by imprisonment for not more than ninety (90) days, or by both such fine and imprisonment. Each day during which a person fails to comply with an order issued by the Commissioner pursuant to Subsection B of this section shall constitute a separate violation. It shall be a defense to such violation that the failure to comply with the Commissioner's order was due to an act of God or an act of war, or was due to the actions of a third party

not an agent or employee of the person to whom the Commissioner's order was directed. It shall also be a defense to said violation that the person to whom the order was issued was not a person having control of the hazardous substance at the time the release occurred which led to the declaration of a Hazardous Substance Emergency.

I. It shall be a violation for any person to remove, vandalize, or mutilate, or otherwise intentionally cause to be unreadable, a notice posted by the Commissioner pursuant to this section. Such violation shall be punishable by a fine of not less than one hundred dollars ($100.00) nor more than five hundred dollars ($500.00) or by imprisonment for not more than ninety (90) days, or by both such fine and imprisonment. (1994 C., § 11.64.090; Ord. No. 62274, § 9, 1991.)

11.64.100 Restrictions on sites posted by Health Commissioner.

It shall be unlawful for any person to enter any site which has been posted by the Health Commissioner pursuant to Section 11.64.090.C or for any persons to excavate, dig, construct, renovate or otherwise alter the physical condition of the surface, terrain, topography, subsurface, subterraneous material or any structures at said site, or to remove any material from said site, without first obtaining written permission therefor from either the Commissioner, the Missouri Department of Natural Resources or the United States Environmental Protection Agency. (1994 C., § 11.64.100; Ord. No. 62274, § 10, 1991.)

11.64.110 Liability for cleanup performed or contracted for Commissioner or Fire Enforcement Officer.

If a Fire Enforcement Officer has, pursuant to the provisions of Section 11.64.070, taken or ordered actions necessary to cleanup a hazardous substance(s) involved in a Hazardous Substance Emergency, or if the Commissioner has undertaken to cleanup a hazardous substance release pursuant to the provisions of either Section 11.64.090.F or G, the person(s) having control over the hazardous substance(s) at the time of the release which resulted in declaration of the emergency shall be strictly liable to the City for the reasonable costs of cleanup incurred by the City pursuant to the provisions of this chapter, including, but not limited to, amounts paid to private contractors to assist in the cleanup of the released hazardous substance(s), except that the City shall not be entitled to reimbursement for salary or wages paid to City employees involved in the cleanup other than overtime wages paid to said employees as a result of their participation in cleanup activities. (1994 C., § 11.64.110; Ord. No. 62274, § 11, 1991.)

11.64.120 Authority to prevent recurrence of hazardous substance emergency.

A Fire Enforcement Officer, in consultation with other Fire Department personnel, the Commissioner, the Building Commissioner, any appropriate federal or state agency, and/or private person(s) having expertise in the handling of hazardous substances, shall have authority to issue an order requiring a person having control over a hazardous substance involved in a Hazardous Substance Emergency to take such corrective actions as may be reasonably required to prevent a recurrence of such hazardous substance emergencies. Failure to comply with an order issued pursuant to the provisions of this section shall be a violation punishable by a fine of not less than two hundred fifty dollars ($250.00) nor more than five hundred dollars ($500.00) or imprisonment for not more than ninety (90) days, or by both such fine and imprisonment. Each day that a person fails to comply with an order issued pursuant to this section shall constitute a separate violation. (1994 C., § 11.64.120; Ord. No. 62274, § 12, 1991.)

11.64.130 Hazardous Materials Program Manager—Duties.

A. Whenever a Hazardous Substance Emergency is declared, the Fire Enforcement Officer making the declaration, or the Health Commissioner, if he has declared the emergency, shall make an oral report thereof to the Hazardous Materials Program Manager as soon as is practicable. In no event shall such oral report be made later than twenty (20) hours after the declaration of a Hazardous Substance Emergency.

B. Additionally, the Fire Department and the Commissioner shall provide the Hazardous Materials Program Manager with: a copy of all orders issued by them concerning any hazardous substance emergency, any documents received by them from persons having control of a hazardous substance(s) involved in a Hazardous Substance Emergency which concerns such emergency, and any documents received by them from other governmental agencies which relate to a Hazardous Substance Emergency.

C. The Hazardous Materials Program Manager shall keep records concerning all sites which have been

involved in a Hazardous Substance Emergency. These records shall be kept according to street address. Where there is not a street address for a site involved in a Hazardous Substance Emergency, records concerning such emergency shall be kept by City block number or by other method calculated to allow a person examining such records to determine the location of the site of such emergency.

D. If the Fire Department or Commissioner expends funds for cleanup activities, for which another is or may be liable to make reimbursement to the City pursuant to the provisions of Section 11.64.110, the Hazardous Materials Program Manager shall be provided all information necessary for him to pursue reimbursement of the funds so expended. The Hazardous Materials Program Manager shall then prepare and mail, by registered mail, an itemized invoice to the person(s) who had control of the hazardous substance(s) at the time the release in question occurred, requiring reimbursement to be made to the City within thirty (30) days of the date of the invoice. If no reimbursement is made, and no appeal contesting payment of such costs is filed with the Director of the Missouri Department of Natural Resources (pursuant to the provisions of RSMo 260.546.2), within thirty (30) days from the date of the invoice, the debt shall be turned over to the City Counselor for collection. If appeal of an invoice is made to the Director of the Department of Natural Resources, payment of any costs found reasonable and appropriate by the director shall be made within thirty (30) days of any such decision. If reimbursement is not made within such time, the debt shall be turned over to the City Counselor for collection. Any monies collected pursuant to this section shall be paid into the General Revenue Fund of the City.

E. The Hazardous Materials Program Manager shall determine whether the City is entitled to reimbursement from the state and/or federal government for all or part of the funds expended by it in response to a Hazardous Substance Emergency and, wherever appropriate, shall take all actions necessary to apply for reimbursement. All monies received by the City as reimbursement for funds expended by it in response to a Hazardous Substance Emergency shall be paid into the General Revenue Fund of the City. (1994 C., § 11.64.130; Ord. No. 62274, § 13, 1991.)

11.64.140 Enforcement.

Enforcement of the provisions of this chapter by the Commissioner and/or Fire Department is intended to supplement and be subordinate to enforcement by appropriate state and federal officials of the provisions of state and federal laws and regulations concerning the release of hazardous substances into the environment. To the extent possible, the Commissioner and the Fire Department shall coordinate actions taken pursuant to the provisions of this chapter, and shall consult with regard to such actions, with the United States Environmental Protection Agency, the Missouri Department of Natural Resources, and/or other appropriate state or federal agencies, pursuant to the provisions of applicable statutes or regulations. (1994 C., § 11.64.140; Ord. No. 62274, § 14, 1991.)

C. Pre-coating. Provision shall be made to introduce a precoat of filter aid to evenly cover the filter elements upon placing the equipment into initial operation and after each cleaning. The amount of filter aid shall be selected to provide at least the same protection to the filter septum as that given by 0.1 pounds of diatomaceous earth filter aid per square foot of filter area where body feed is employed or 0.15 pounds per square foot where no body feet is used. The total required pre-coat material must be introduced into the filter within five (5) minutes of recirculation.

Where provided, the body feeding equipment designed for feed of filter aid to the filter influent shall have a rate capacity to feed at a reasonable constant rate easily adjustable within a calibrated range of from (2) to ten (10) ppm of the gpm design rate of the filtering unit. (The equipment shall have capacity to operate at the maximum feed rate of ten (10) ppm of the design filter rate for a period of twenty-four (24) hours without refilling.)

E. Backwash and Precoat. The filter piping may be installed to permit recirculation of the water from the effluent back to the influent until a satisfactory clear effluent backwashing and precoating is produced prior to admitting the water into the pool. An alternate is to discharge the unsatisfactory effluent to waste.

F. Cleaning Elements. Sufficient head room and facilities must be provided in the filter room for periodic removal of the filter head and element assembly for manual cleaning purposes.

Other types of filtration, including cartridge and high permeability type units, will be considered on an individual basis. (1994 C., § 11.79.320; Ord. No. 65567, § 32, 2002.)

11.79.330 Disinfection.

Chlorine is considered to be the most desirable disinfectant for swimming pools. Other disinfectants may be accepted upon submission of acceptable proof of their effectiveness. All pools shall be equipped with a chlorinator or other residual disinfectant feeder which meets the following requirements.

A. *Design and Construction.* Disinfectant feeders shall be constructed of materials that will withstand wear, corrosion or attack by disinfectant solutions or vapors and which are not adversely affected by repeated regular adjustments or other conditions anticipated in the use of the device. The feeder shall be capable of being easily disassembled for cleaning and maintenance. The design and construction shall be such as to preclude stoppage from chemicals intended to be used or foreign materials that may be contained therein. The feeder shall incorporate failure-proof features so that the disinfectant cannot feed directly into the pool, pool piping, or pool enclosure under any type of failure of the equipment or its maintenance.

B. *Capacity.* The disinfectant feeder shall be capable of maintaining at least the equivalent of one (1) part per million of free available chlorine in all portions of the pool under conditions of operation to be anticipated at the proposed installation. This usually requires application of at least ten (10) ppm of available disinfectant based on the recirculation rate.

C. *Sensitivity.* The disinfectant feeder shall have a graduated and clearly marked dosage adjustment to provide flows from full capacity to twenty-five (25) percent of such capacity. The device shall be capable of continuous delivery within ten (10) percent of the dosage at any setting.

Gas Chlorination. When chlorine gas is used, the following additional features shall be provided.

11.79.480 Special requirements for indoor swimming pools.

A. All indoor pools and bathhouses, dressing rooms, showers rooms and toilet rooms serving indoor pools must be properly ventilated. Ventilation must be

so designed that a direct draft will not blow on the swimmers. Fresh air should be heated before discharge into the swimming pool room and heating facilities capable of maintaining a temperature between 75ºF and 82ºF must be located in a manner that will prevent contact with swimmers.

B. It is also desirable to heat all or part of the recirculated water. In designing a heater for this purpose, ample surface for heat exchange must be provided. The heater may be designed for use with steam or hot water. The blowing of steam directly into the pool or heating coils is prohibited. An automatic thermocontrol of the temperature is desirable. A fixed thermometer should be placed on the recirculation line beyond the heater and another near the outlet of the pool. Thermometers should be accessible and have a type of scale that is easily read.

C. Walkways surrounding indoor pools shall be at least four (4) feet wide.

D. Artificial lighting shall be designed to provide at least 0.6 watts per square foot on the pool and walk area. Lights shall be protected or recessed to prevent breakage. Underwater lighting must conform with the requirements for underwater lighting of outdoor pools. (1994 C., § 11.79.480; Ord. No. 65567, § 48, 2002.)

Gas chlorinators shall not be used. A pH level of 7.2 to 7.8 shall be maintained. All disinfection equipment shall be National Sanitation Foundation-approved. Manual addition of chemicals as authorized by the Commissioner may be allowed if the spa is closed.

L. *Recirculation Flow Rates.* The recirculation flow rate shall be thirty (30) gallons per minute per skimmer or provide a thirty (30) minute turnover, whichever is greater.

M. *Agitation Systems.* The agitation system shall be separate from the water treatment recirculation system. The agitation system shall be connected to a ten (10) minute timer located out of the reach of a person in the spa.

N. *Caution Signs.* A sign visible and legible from the spa shall be provided. It shall state: "Caution. Any person having an acute or chronic medical condition such that use of this spa might adversely affect their

health should consult a physician before using this spa. Do not use the spa immediately following exercise or while under the influence of alcohol. Do not use the spa longer than ten (10) minutes. Children shall be accompanied by an adult."

No license shall be granted to a license applicant if property owned by the applicant is the subject of any unresolved nuisance violations or to any applicant who is delinquent on real or personal prop-

For purposes of this section, "affiliated" shall mean that the applicant is part of any corporation, partnership, sole proprietorship, or entity that is directly or indirectly controlled by the applicant.

Any false statements or information provided in the application are grounds to deny the application for the license, for revocation and/or the imposition of penalties, and the denial of future applications for a period of one year and any future application must follow the procedures set forth in 14.08.020. The hearing conducted by the Excise Commissioner shall be conducted as a contested case as said term is defined in Missouri Law, particularly pursuant to the Missouri Administrative Procedure Act, RSMo § 536, et seq. RSMo § 536.070 shall control the rules of evidence, objections, witnesses, judicial notice, affidavits as evidence, and the transcript requirements of the administrative hearing. Upon conclusion of any hearing, the Excise Commissioner shall issue findings of fact, conclusions of law and order ("order") setting forth the facts and law which support its determination regarding any initial license application for any restaurant bar, microbrewery, taproom brewery, or including whether the Excise Commissioner finds that the restaurant bar, microbrewery, taproom brewery, or brewpub will or will not constitute a detriment to the neighborhood.

If the Excise Commissioner makes a determination to approve the license application, such application shall serve to grant the applicant a temporary license valid for ninety (90) days from the date the microbrewery, taproom brewery, or brewpub opens and subject to one renewal for an additional ninety (90) days. The final determination hearing for the liquor license for a restaurant bar, microbrewery, taproom, or brewpub shall occur on hundred eighty (180) days from the date the restaurant bar, microbrewery, taproom brewery, or brewpub opens or the closest scheduled hearing day thereafter. In the final determination hearing, the Excise Commissioner shall require evidence demonstrating that the sale of prepared meals or food consumed on the premises exceed fifty-one (51) percent of the restaurant bar's gross income and consider factors including but not limited to any nuisance notification regarding the restaurant bar, microbrewery, taproom brewery, or brewpub, any criminal activity as reported by the St. Louis Metropolitan Police Department or other law enforcement agency, and, if applicable, any violations of a conditional use permit. They shall also consider all factors enumerated in 14.08.040. The record of all hearings before the Excise Board shall include: (i) a record of the testimony presented at the hearing, which may be made by tape recording, digital recording or other appropriate means; (ii) all exhibits submitted as evidence at the hearing; and (iii) a copy of the order. Applicants for a liquor license for a restaurant bar, microbrewery, taproom, or brewpub who do not apply through the temporary license process outlined in this section may apply through the process outlined in 14.08.060. Nothing in this section shall be construed to invalidate any existing liquor moratorium or preclude future liquor moratoriums. Upon receiving an application for an initial license pursuant to section 14.06.025, the Excise Division will post online notification that an application has been received within five (5) days of receipt and the address of the proposed restaurant bar, taproom, brewpub or microbrewery.

1. With regard to applications for issuance of a license and protests against such applications, the character of the neighborhood in which the premises proposed to be licensed are located, with particular consideration being given to the proximity of the proposed licensed premises to parks, churches, schools, playgrounds, residences and hospitals and to other premises licensed pursuant to this chapter or title, and with regard to renewal applications and protests against the renewal or continuation of a license, any changes in the character of the neighborhood since the issuance of the license;

2. Loitering in the immediate vicinity of the licensed premises by persons frequenting the licensed premises;

3. Littering committed by persons frequenting the licensed premises or by the licensee, his agents, servants or employees;

4. Drinking in public by persons frequenting the licensed premises;

5. Lewd and indecent conduct, including but not limited to public urination, exhibited by persons frequenting the licensed premises or by the licensee, his employees, servants or agents, whether such behavior occurs on the licensed premises or in the immediate vicinity thereof;

6. Violation by the licensee, his employees, agents or servants of any state or federal statute or municipal ordinance regulating or relating to sale of intoxicating liquor or nonintoxicating beer;

7. Commission of crimes upon or in the immediate vicinity of a licensed premises by persons frequenting the licensed premises or by the licensee, his employees, servants or agents;

9. Harassing or intimidating behavior exhibited by persons frequenting or congregating about the licensed premises toward persons living in the neighborhood in which the licensed premises are located or toward persons passing by the licensed premises;

10. Noise associated with operation of the licensed premises or caused by persons frequenting the licensed premises;

11. With regard to applications for issuance of a license and protests against such applications, existing street and sidewalk congestion in the immediate vicinity of the licensed premises, and with regard to renewal applications and protests against renewal or continuation of a license, the street and sidewalk congestion associated with operation of the licensed premises;

12. Complaints on file with the City of St. Louis Citizens Services Bureau regarding the specific location of the retail liquor license where the issuance, renewal or continuation of a license is contemplated.

13. The existence of proper lighting and appropriate parking facilities, or the lack thereof;

14. 15. Any use of the premises which is not in compliance with the use of the premises up on which the issuance of the liquor license was based, either in the original license application or pursuant to any subsequent representations made to the Division of Excise at the time of renewal.

B. The Excise Commissioner may find that issuance, renewal or continuation of a license would be detrimental to the neighborhood in which a licensed premise is or would be located without finding that such detriment is or would be due to the fault or negligence, or is or would be the responsibility, of the licensee or applicant. For purposes of this section a person shall be considered to frequent a licensed premise(s) if he patronizes the licensed premises or if he loiters about in the immediate vicinity of the licensed premises but would not do so except for the existence of the licensed premises.

C. Whenever the Excise Commissioner makes a decision to approve or deny an application for a drink, package or C.O.L. license he shall notify the Alderman of the ward in which the proposed licensed premises would be located of his decision. Such notice shall contain an explanation of the protest procedures as established by this chapter and title, and by the rules and regulations of the Excise Commissioner. The Excise Commissioner shall, at least ten (10) days prior to the date on which the protest hearing is scheduled, cause notice of the time, place and date of the hearing to be served on the licensee or applicant whose license or application is the subject of the protest. If the protest is against renewal or continuation of a license, notice of the protest hearing shall be served at the licensed premises upon either the licensee or any employee, agent or servant of the licensee found upon the licensed premises. The Excise Commissioner shall also, at least ten (10) days prior to the date on which a protest hearing is scheduled, cause notice of the time, place and date of such hearing to be served upon the protest representative, the Alderman of the ward in which the licensed premises is or would be located, and the Police Department. Service of the notice upon the protest representative shall be made by sending the notice by registered United States mail, return receipt requested, to the address given by the protest representative on the written letter of protest. In addition, the Excise Commissioner shall cause a placard containing the words "HEARING ON PROTEST AGAINST LIQUOR LICENSE IN THIS BLOCK," printed in bold black letters at least one and one-half (1½) inches in height, to be placed at each end of the block on the side of the street where the licensed premises or the proposed licensed premises which are the subject of the protest hearing is or would be located, unless such placement is not possible. If it is not possible to place said placards in the manner specified in the previous sentence, the liquor control agent posting the placards shall place the placards in such manner as to give the greatest notice to passersby of the protest hearing. Said placards shall specify in clear and legible lettering the time, place and date of the hearing, the trade name and address of the licensed premises or premises proposed to be licensed, the name of the licensee or applicant whose license or application is the subject of the protest, and the type of license which is the subject of the protest. Neither the protest representative nor anyone else signing a protest letter or petition shall be liable for the costs of said placarding.

C. At the protest hearing, both the protest representative and the licensee or applicant whose license or application is the subject of the protest shall be entitled to produce testimony under oath and to be represented by counsel, and the Excise Commissioner shall have the power, on his own motion, to subpoena witnesses and to take testimony under oath pertaining to all matters connected with the protest. During the first phase of the hearing, the Excise Commissioner shall consider evidence concerning whether the protest petitions submitted to him contain the signatures of a valid majority of either: (1) persons residing or conducting business within the petition circle of the licensed premises or proposed licensed premises which is the subject of the protest; or (2) persons owning property within said petition circle. The Excise Commissioner shall also consider during the first phase of the hearing any testimony offered concerning the sufficiency of the written protest letter which initiated the protest, including, but not limited to, evidence concerning whether the letter contained sufficient signatures to initiate the protest. After conclusion of the first phase of the hearing the Excise Commissioner shall make a decision as to whether the protest petitions submitted to him contain a valid majority of either persons residing or conducting business, or persons owning property within the petition circle. He need not, prior to initiation of the second phase of the hearing, make any determination as to the sufficiency of the written protest letter. During the second phase of the hearing, the Excise Commissioner shall consider evidence concerning whether issuance, renewal or continuation of the license which is the subject of the protest would be detrimental to the neighborhood in which the licensed premises is or would be located.

(Ord. No. 71819, § 9, 4-16-2024.)

14.08.140 Protests—Necessity of majority of signatures on petition protesting continuation of license—Effect of majority of signatures on petition protesting a license application.

A. A protest against continuation of a license may only be sustained by the Excise Commissioner if

the protest petitions submitted to him to protest such continuation contain the signatures of either a majority of the persons residing or conducting business within the petition circle of the licensed premises which is the subject of the protest or a majority of the persons owning property within such petition circle. If, after the first phase of the hearing is completed, the Excise Commissioner determines that the protest petitions submitted to him in protest of the continuation of a license contain the signatures of neither a majority of the persons residing or conducting business within the petition circle of the licensed premises which is the subject of the protest nor a majority of the persons owning property within such petition circle then he shall deny the protest and shall not consider evidence of whether continuation of the license would be detrimental to the neighborhood in which the licensed premises is located.

B. If the Excise Commissioner determines, after the first phase of the hearing is completed, that protest petitions submitted to him to protest an application for a license contain the signatures of either a majority of the persons residing or conducting business within the petition circle of the proposed licensed premises which is the subject of the protest or a majority of the persons owning property within such petition circle, then the Excise Commissioner shall sustain the protest and refuse to grant the license applied for, regardless of any evidence concerning detriment to the neighborhood.
(Ord. No. 71819, § 9, 4-16-2024.)

14.08.150 Protests—Allocation of burden of proof—Grounds for sustaining protests—Effect of sustaining protest.

A. If the Excise Commissioner determines after the first phase of the protest hearing that the protest petitions submitted to him contain the signatures of either: (1) a majority of the persons residing or conducting business within the petition circle of the licensed premises which is the subject of the protest; or (2) a majority of the persons owning property within such petition circle, he shall sustain the protest unless the licensee shows by a preponderance of the evidence submitted at the hearing that renewal or continuation of the license would not be detrimental to the neighborhood in which the licensed premises is located. If the Excise Commissioner determines after the first phase of the protest hearing that the protest petitions submitted to him do not contain the signatures of either a majority of the persons residing or conducting business within the petition circle of the licensed premises which is the subject of the protest or a majority of the persons owning property within such petition circle, he shall deny the protest, unless the protestors show by a preponderance of the relevant evidence submitted at the hearing that issuance or renewal of the license would be detrimental to the neighborhood in which the licensed premises is or would be located.

B. If the Excise Commissioner sustains a protest against issuance of a license he shall refuse to grant such license to the person applying therefor. If he sustains a protest against renewal of a license such license shall not be revoked, but the Excise Commissioner shall refuse to renew such license after it expires. If the Excise Commissioner sustains a protest against continuation of a license he shall cancel such license effective one (1) month after any decision is filed upholding such protest. 14.08.200 Summer garden/sidewalk café.

A. Notwithstanding any other provisions of this chapter and title, upon application by a person to whom a drink or C.O.L. license has been issued, the Excise Commissioner may issue a permit to allow the licensee to maintain, in connection with and adjoining the licensed premises, an open air space, commonly called a summer garden or sidewalk café, for serving or consuming intoxicating liquors and/or nonintoxicating beer. No permit shall be issued for a summer garden unless at least one (1) side of the summer garden adjoins a public street, alley, or highway and is so fenced and equipped as to permit an unobstructed view of the summer garden from the street, alley or highway. The Excise Commissioner shall not issue a permit for a sidewalk café, any portion of which is located upon a public right of way, unless the licensee has first procured an encroachment permit from the Board of Public Service. Such permit shall have a one-time application fee of one hundred dollars ($100.00) to cover the various cost incurred by the City of St. Louis in investigating, placarding and processing the application. The application fee is non-refundable. The annual renewal cost will be twenty-five dollars ($25.00) per year. All currently licensed establishments are exempt from the application fee, but are responsible for the renewal fee. Such permits may be revoked or suspended for cause by the Excise Commissioner. A licensee or applicant for a drink license may apply for a summer garden/sidewalk café permit at any time. A summer garden/sidewalk café permit shall expire on the date that the underlying drink license expires and shall thereafter be renewable at the time of the renewal of the drink license.

B. Applications for issuance of a summer garden/sidewalk café permit shall be made in a form acceptable to the Excise Commissioner. An applicant for a summer garden/sidewalk café permit shall not be required to file a neighborhood consent petition. The Excise Commissioner shall, upon receipt of an application for a summer garden/sidewalk café permit, fix a date for a hearing on the application which shall not be less than ten (10) days from the date of filing of such application. Where an application for a summer garden/sidewalk café permit is made at the same time as the applicant applies for a drink license, the hearing on the summer garden/sidewalk café permit shall be combined with the hearing on the license application. At least ten (10) days before the date on which the hearing on the permit is scheduled, the Excise Commissioner shall cause to be

mailed or delivered to the applicant, the Alderman of the ward in which the licensed premises is or would be located, and the Police Department notice of the time, place and date of the hearing. In addition he shall cause a placard containing the words "HEARING ON SUMMER GARDEN PERMIT IN THIS BLOCK" or "HEARING ON SIDEWALK CAFÉ PERMIT IN THIS BLOCK," whichever is appropriate, printed in bold black letters at least one and one half (1½) inches in height, to be placed at each end of the block on the side of the street where the applicant proposes to locate the establishment, unless such placement is not possible. If it is not possible to place said placards in the manner specified in the preceding sentence, the liquor control agent posting the placards shall place the placards in such manner as to give the greatest notice to passersby of the hearing on the application. Said placards shall specify in clear and legible lettering the time, place and date of the hearing, the name of the applicant and the address of the premises for which the permit is proposed. An applicant for a summer garden/sidewalk café permit shall be required to pay the fee specified in Section 14.08.010(B), At the hearing required by this subsection, any interested party may present evidence as to why issuance of a summer garden/sidewalk café permit would or would not be detrimental to the neighborhood. In determining whether to issue a summer garden/sidewalk café permit to an applicant therefor, the Excise Commissioner shall consider whether issuance of such permit would be detrimental to the neighborhood in which the licensed premises is or would be located. Unless the Excise Commissioner determines that a summer garden/sidewalk café permit would be detrimental to the neighborhood, he shall issue such permit, provided that the requirements of subsection A of this section have been complied with by the applicant.

C. Not later than the date of expiration of a summer garden/sidewalk café permit, nor more than two (2) weeks prior to such date, a licensee may submit an application for renewal of such permit on a form acceptable to the Excise Commissioner. The Excise Commissioner may waive this time limitation for good cause shown. In determining whether to renew a summer garden/sidewalk café permit, the Excise Commissioner shall have the same discretion as provided by Section 14.08.100 with regard to renewal of liquor licenses.

D. Renewal or continuation of a summer garden/sidewalk café permit may be protested without a protest being filed against the underlying liquor license. Such protest shall be made in the same manner as is provided by this chapter and title for protest of renewal or continuation of a retail liquor license.

This chapter shall be known as the "City of St. Louis Whistleblower Law." (1994 C., § 15.14.010; Ord. No. 70847, § 2, 11-7-2018; Ord. No. 70475, § 1, 2-16-2017.)

15.14.020 Definitions.

A. For the purposes of this chapter, the following terms and words are hereby defined:

1. "Auditing Official" means the City of St. Louis Director of Personnel, the Comptroller or the City of St. Louis Civilian Oversight Board Executive Director, as well as any authorized representative of any of the above, in connection with a report of Improper Governmental Action within the Auditing Official's jurisdiction as set out in Section 15.14.030.A.

2. "Employee" means anyone employed by the City, whether in a permanent or temporary position, including full-time, part-time, and intermittent workers. It also includes members of appointed boards, commissions, or committees, whether or not paid.

3. "Improper governmental action" means any action by a City employee, an appointed member of a board, commission, or committee, or an elected official of the City, that is undertaken during the performance of such person's duties to the City or under color of City authority, and that violates a federal, state, or local government law or rule; is an abuse of authority; violates the public's trust or expectation of their conduct; is of substantial and specific danger to the public's health or safety; or is a gross waste of public funds. The action need not be within the scope of the employee's, elected official's, board member's, commission member's, or committee member's official duties to be subject to a claim of improper governmental action. Improper governmental action does not include City personnel actions, including, but not limited to, employee grievances, complaints, appointments, promotions, transfers, assignments, reassignments, reinstatements, restorations, reemployments, performance evaluations, reductions in pay, dismissals, suspensions, demotions, reprimands, or violations of collective bargaining agreements, except to the extent that such action amounts to retaliation as defined in this chapter.

4. "Retaliate," "retaliation" and "retaliatory action" mean any adverse change in an employee's employment status or the terms and conditions of employment that results from an employee's protected activity under this chapter. Adverse changes include, but are not limited to: verbal abuse; intimidation; creating a hostile work environment; denial of adequate staff to perform duties; frequent staff changes; frequent and undesirable office changes; refusal to assign meaningful work; unsubstantiated letters of reprimand or unsatisfactory performance evaluations; demotion; reduction in pay; denial of promotion; transfer or reassignment; suspension or dismissal; or other disciplinary action made because of an employee's protected activity under this chapter. (1994 C., § 15.14.020; Ord. No. 70847, § 3, 11-7-2018; Ord. No. 70475, § 2, 2-16-2017.)

15.14.030 Reporting Procedures.

A. To invoke the protections of this chapter, an employee shall make a written report of improper governmental action to the appropriate Auditing Official:

1. Employees shall report sexual harassment, discrimination, a violation of this chapter, a violation of Ordinance 68715, or any civil rights issues to the Department of Personnel.

2. Employees shall report a violation of election laws and improper governmental action by elected officials to the Missouri Ethics Commission.

3. Employees shall report improper governmental actions by members of the Division of St. Louis Metropolitan Police to the Department of Public Safety or to the Executive Director of the City of St. Louis Civilian Oversight Board.

4. Employees shall report fraud, other financial impropriety, and any actions for which no other appropriate recipient of the report is listed in this subsection to the St. Louis Office of the Comptroller.

B. Auditing Officials shall meet to establish processes and procedures for managing complaints filed pursuant to this chapter, and the Auditing Officials shall investigate and dispose of reports of improper governmental action in accordance with these processes and procedures. If an Auditing Official concludes that an improper governmental action has taken place or concludes that the relevant department, agency,

or supervisory officials have hindered the Auditing Official's investigation into the complaint, the Auditing Official shall notify in writing the City Counselor, the most senior official of the City department involved, and any other entity the Auditing Official deems necessary in the circumstances. The Auditing Official shall promptly provide a copy of that written notice to the employee who filed the report.

C. A Department of Personnel Official may transfer a report of improper governmental action to another Auditing Official for investigation if the Department of Personnel Official deems it appropriate.

D. Employees who carry out the following upon a good faith, reasonable belief are entitled to the protections and remedies articulated in Sections 15.14.040 and 15.14.050:

1. Cooperating in an investigation by an Auditing Official related to improper governmental action; and/or

2. Testifying in a proceeding or prosecution arising out of an improper governmental action.

E. It shall be unlawful for an employee to retaliate against another employee who proceeded or is proceeding in good faith in accordance with this chapter.

F. Upon commencement of service and at least once each year thereafter, the Department of Personnel shall ensure every Civil Service employee of the City shall receive a written summary of this chapter, the procedures for reporting improper governmental actions to Auditing Officials, the procedures for obtaining the protections extended, and the prohibition against retaliation. (1994 C., § 15.14.030; Ord. No. 70847, § 4, 11-7-2018; Ord. No. 70475, § 3, 2-16-2017.)

15.14.040 Protections.

To the extent allowed by law, the identity of any employee reporting information about an improper governmental action shall be kept confidential unless the employee waives confidentiality in writing. Auditing Officials may take reasonable measures to protect employees who reasonably believe they may be subject to bodily harm for reporting improper governmental action. (1994 C., § 15.14.040; Ord. No. 70847, § 5, 11-7-2018; Ord. No. 70475, § 4, 2-16-2017.)

15.14.050 Remedies.

The following remedies may be available to employees subjected to adverse actions for reporting improper governmental action: restitution, reinstatement, reimbursement for lost wages or expenses incurred, promotion, or other forms of restitution. In the case of employees who are covered by the Civil Service System, the Auditing Official shall recommend in writing to the Department of Personnel possible remedies. Nothing in this chapter shall prohibit an employee from pursuing his or her own private action to seek damages or other remedies beyond those awarded by the City. (1994 C., § 15.14.050; Ord. No. 70847, § 6, 11-7-2018; Ord. No. 70475, § 5, 2-16-2017.)

15.14.060 Reporting retaliation.

An employee who believes he or she has been retaliated against in violation of this chapter must submit a written complaint within ninety (90) days of gaining knowledge of the retaliatory action. The complaint must be filed with the Auditing Official investigating the underlying improper governmental action. (1994 C., § 15.14.060; Ord. No. 70847, § 7, 11-7-2018; Ord. No. 70475, § 6, 2-16-2017.)

15.14.070 Penalties.

Any employee of the City who engages in prohibited retaliatory action is subject to discipline by suspension without pay, demotion, discharge, or some combination thereof as appropriate. Any Civil Service employee who engages in prohibited retaliatory action is subject to discipline as defined in Administrative Regulation 117. Such an employee is further subject to fine up to $500.00 per violation. (1994 C., § 15.14.070; Ord. No. 70847, § 8, 11-7-2018; Ord. No. 70475, § 7, 2-16-2017.)

A. If the building is at any time occupied during the order of closure the building shall be deemed a "nuisance" in accordance with the City of St. Louis Property Maintenance Code and "condemned" in accordance with the laws of the City of St. Louis that apply to condemned buildings. All the remedies to the City of St. Louis allowed through those ordinances shall apply to the violation of a nuisance abatement order.

Cases:

The peace of an individual cannot be disturbed unless the individual is within the peace. *City of St. Louis v. Sage,* 254 S.W. 2d 252 (1953).

Disturbing the peace ordinance of the City of St. Louis was not void on the ground that it was inconsistent with state statute on same subject. *City of St. Louis v. Page,* 259 S.W. 2d 98 (1953).

Ordinance which makes it a misdemeanor to disturb the peace by violent conduct or by profane or offensive language, calculated to provoke a breach of the peace, is a valid exercise of the city's power. *City of St. Louis v. Slupski,* 254 Mo 309, 162 S.W. 155 (1913).

Evidence that defendant was a picket and handcuffed himself to a store revolving door, thus attracting a crowd, was sufficient for conviction of disturbing the peace. *City of St. Louis v. Goldman,* 467 S.W. 2d 99 (1971).

Fact that city ordinance on disturbing the peace did not require that act to be done "willfully" did not make ordinance inconsistent with statute. *City of St. Louis v. Goldman,* 467 S.W. 2d 99 (1971).

Mere fact that defendant disturbed the peace by noisy, riotous and disorderly verbal conduct in a public place was not sufficient for conviction under this ordinance where there was no finding that the verbal conduct was intended to and was reasonably likely to incite others to violence. *City of St. Louis v. Tinker,* 542 S.W. 2d 512 (1976). This ordinance is not unconstitutionally vague or overbroad. *City of St. Louis v. Tinker,* 542 S.W. 2d 512 (1976).

McQuillin:

24.98 Disturbing the peace and disorderly conduct

15.46.040 Disturbing prisoners.

S. Sound: An audible oscillation of pressure in air.

T. Sound level meter: Any instrument including a microphone, an amplifier, an output meter, and frequency weighting networks for the measurement of sound pressure levels in a specified manner which complies with Type 2 or better standards established in the A.N.S.I. S1.4-1971 "Specification for Sound Level Meters."

U. Sound pressure level: Twenty times the logarithm to the base 10 of the ratio of the root mean square pressure of a sound to the standard reference pressure which is twenty (20) micropascals. The unit of measurement is the decibel (dB).

V. Stationary noise source: Any equipment, motor vehicle, aircraft, or facility, fixed or movable, capable of emitting audible sound.

W. Vehicular way: A paved or unpaved area used by motor vehicles, including, but not limited to, roads, streets, highways, alleys and parking lots. (1994 C., § 15.51.010; Ord. No. 68130, § 2, 10-26-2008; Ord. No. 64566, § 1, 1998.)

15.51.020 Applicability of standards established by A.N.S.I.

Unless otherwise specified herein, or specified in regulations promulgated by the Director under this Code, the acoustical terminology, the reference pressure, instrument specifications, and calibrations and methods for measurements of sound pressure levels shall be in conformance with the definitions and provisions contained in the documents designated as A.N.S.I. S1.1-971, S.4-1971, Sl.11-1966 (R1971 and S1.13-1971, of which one copy of each document is filed in the office of the Register of the City of St. Louis. (1994 C., § 15.51.020; Ord. No. 68130, § 3, 10-26-2008; Ord. No. 64566, § 2, 1998.)

15.51.030 Permissible noise levels—Standards.

A. No person shall operate or permit to be operated any stationary noise source which emits noise in such a manner that the level of the noise emitted, when measured at any point outside the boundary of the property upon which the stationary noise source is located using the slow meter characteristic and the A-weighting network of the sound level meter, exceeds the levels set forth in Table I below or exceeds the limit set forth in this chapter. When the noise emitted is measured upon property which is located in a different land use category than the property upon which the stationary noise source is located, the levels applicable to the property where the noise emitted is measured shall be used to determine if a violation exists. If more than one use exists on the property where the noise emitted is measured such that more than one land use category would be applicable to the property, then the levels set forth in the least restrictive applicable land use category of Table I shall be used to determine if a violation exists.

B. If the stationary noise source emits noise containing a discrete tone, the permissible levels shall be 5dB lower than the applicable levels of Table I.

C. If the stationary noise source emits impulsive noise the levels of Table I shall be lowered by 5dB. A violation of this Code shall exist if the level of the impulsive noise emitted exceeds the applicable levels of Table I, as modified by this subsection, when the measurement is made using the fast meter characteristic and the A-weighting network of the sound level meter or if the level of the impulsive noise emitted exceeds the limit set forth in Section 625.0550.6.

D. In the event the stationary noise source emits impulsive noise containing a discrete tone, the modifications of Table I set forth in Subsections B and C herein shall be cumulative.

E. If the ambient noise level exceeds the level of the noise emitted from the stationary noise source for

one or more periods of time during the period of measurement, then for any such period of time the level of the noise emitted from the stationary noise source shall be deemed to be lower than the level which is permitted for sixty (60) minutes during the period of measurement in the applicable land use category and for the applicable time of day.

F. If, during the period of measurement, noise shall be emitted from a stationary noise source for periods of time at two (2) or more different levels, a violation of this Code shall exist if the sum of the following fractions C1/T1 + C2/T2 + ...Cn/Tn exceeds the unit number 1. For purposes of this calculation Cn shall equal the actual time period that noise is emitted at each measured noise level and Tn shall equal the period of time that noise is permitted under Table I to be emitted at each measured noise level. Provided, however, if: (1) the ambient noise level exceeds the level of noise emitted from the stationary noise source for one or more periods of time during the period of measurement; or, (2) the level of the noise emitted from the stationary noise source is lower than the level of noise which is permitted in Table I for sixty (60) minutes during the period of measurement in the applicable land use category and for the applicable time of day for one or more periods of time during the period of measurement, then for the purpose of the calculation set forth in this subsection, for each such period of time, the term Cn shall be deemed to be zero (0) and the fraction Cn/Tn shall be zero (0).

15.51.050 Notice of violation.

Whenever the Health Commissioner determines that a violation of any provision of this Code exists, he shall issue a written notification to the person responsible for the alleged violation. The notification shall set forth the nature of the violation and shall direct that the violation must be abated within the time period specified by the Health Commissioner, which time period shall not exceed sixty (60) days from the date the notice is sent; provided, however, if the violation cannot be abated within the time period specified, the Health Commissioner may extend the time period for compliance for a reasonable period of time upon submission of an acceptable abatement plan by the person responsible for the violation. In determining whether the abatement plan is acceptable, the Health Commissioner's consideration shall include, but shall not be limited to:

A. The sufficiency of all construction plans to reduce noise or vibration levels; and

B. The sufficiency of the design criteria for any equipment changes to reduce noise or vibration levels; and

C. The length of time necessary to perform all work to abate the violation. (1994 C., § 15.51.050; Ord. No. 68130, § 6, 10-26-2008; Ord. No. 64566, § 5, 1998.)

Any violation which is not abated within the time period specified by the Health Commissioner, including any extensions, shall be referred to the City Counselor for prosecution, unless such violation has been appealed to the Board of Noise Control Appeals and Variance Review as provided in Section 15.51.070. Each day that a non-abated violation continues after the date it has been referred to the City Counselor shall consti-

tute a separate violation of this chapter. (1994 C., § 15.51.060; Ord. No. 68130, § 7, 10-26-2008; Ord. No. 64566, § 6, 1998.)

15.51.070 Board of Noise Control Appeals and Variance Review.

A. The Mayor shall appoint a Board of Noise Control Appeals and Variance Review consisting of three members. One member shall be an attorney licensed in the State of Missouri and one shall be a professional engineer registered in the State of Missouri. The members shall be residents of the City. The members shall be appointed for terms of four years and shall be compensated as prescribed by the Civil Service Commission. To the maximum extent possible, the members should not have a substantial interest in any business either subject to regulation by this chapter or engage in the manufacture, sale or distribution of air pollution control devices.

B. The Mayor shall designate one of the members of the Board to serve as Chairman. The Health Commissioner shall serve as Secretary of the Board, but shall have no vote on the Board.

C. The Board shall advise the Health Commissioner on standards, rules and regulations and such other matters as are submitted to it by him.

D. The Board shall conduct hearings on appeals from actions and orders of the Health Commissioner. Notice of appeal from an order or decision of the Commissioner shall be filed within 10 days from the date of said order or decision. Fifty dollars ($50.00) shall accompany the notice of appeal which shall be paid to the Secretary of the Board for deposit with the Treasurer of the City.

E. 1. The Board member shall have authority to administer oaths and do all other necessary and proper duties in the conducting of a hearing.

2. At a Board hearing the parties involved and the Commissioner may appear with counsel, may file written arguments and may make oral arguments, offer testimony or cross examine witnesses, or take any combinations of such actions. The Board shall have authority to make such rules and regulations as are necessary to perform its functions and duties under this chapter. A copy of such rules and regulations shall be available to the general public.

3. All testimony taken before the Board shall be under oath and recorded steno graphically, except that the Board may require the submission of voluminous or detailed or technical testimony in writing under oath. The transcript of records shall be made available to any member of the public or to any party upon payment of the fair charges therefor.

4. Upon the request of any parties, or on the motion of any member of the Board, the Board shall issue subpoenas requiring the attendance and testimony of witnesses and the production of books and records relevant to any matter involved. Every subpoena shall be served by the City Marshal and shall be obeyed.

F. 1. The Board may affirm, modify, or rescind any action of the Commissioner, if it finds that there is an error in an order or decision of the Commissioner. The concurrence of any two members who were present at the hearing or who have read the transcript of the hearing shall be necessary for such decision regarding the order or decision of the Commissioner.

2. The Board shall notify all parties of record and their counsel in writing by United States mail of its decision. The Commissioner may issue appropriate orders requiring compliance with the decision of the Board. 15.51.080 Variances.

A. Any person who owns or is in control of any plant, building, structure, process or equipment may submit a petition to the Health Commissioner for a variance from the provisions of this chapter pertaining to sound levels. The petition shall be accompanied by a fee of $50.00 and shall include the following information:

1. The name, address and telephone number of the petitioner, or other person authorized to receive service of notices;

2. The type of business or activity involved in the application and the street address at which it is conducted;

3. A brief description of the article, machine, equipment or other contrivance or process involved in the sound level emissions occurring therefrom;

4. Each petition shall be signed by the petitioner or by some person on his behalf, and where the person signing is not the petitioner it shall set forth his authority to sign;

5. The section, rule or order complained of;

6. The facts showing why compliance with the section, rule or order is unreasonable;

7. For what period of time the variance is sought and why;

8. The damage or harm resulting or which would result to the petitioner from compliance with such section, rule or order;

9. The requirements which the petitioner can meet and the date when the petitioner can comply with such requirements including the sound levels which will result;

10. The advantages and disadvantages to the residents of the area resulting from requiring compliance or resulting from granting a variance;

11. Whether operations under such variance, if granted, would constitute a nuisance;

12. Such other information and data required by rule or regulation of the Board enacted in conformity with the terms, conditions, and limitations of this chapter. The Health Commissioner or his authorized representative shall promptly investigate such petition and submit it with a recommendation to the Board as to the disposition thereof.

B. The Board may grant such variance if it finds that:

1. The granting of such variance would not constitute an immediate hazard to public health or safety; and

2. Compliance with the terms, conditions, and limitations of this chapter from which variance is sought would result in an arbitrary and unreasonable taking of property or in the practical closing and eliminating of any lawful business, occupation or activity, in either case without sufficient corresponding benefit or advantage to the people.

C. No variance shall be granted pursuant to this section except after public hearing on due notice and until the Health Commissioner has considered the relative interests of the applicant, other owners of property likely to be affected by the proposed sound levels and the general public.

D. Variances may be granted for such period of time and under such terms and conditions as shall be specified by the Board. Variances may be renewed by the Board upon application made at least sixty (60) days prior to the expiration of the term. Renewal application shall be considered in the same manner as the initial petition for variance was considered by the Board.

E. A variance or renewal thereof shall not be a vested right of the applicant or holder thereof.

F. Such a variance may require gradual decrease of the sound levels during the variance period and the making of periodic reports of the improvement program and on compliance with the terms and conditions attached to the variance, and such a variance may be revoked or modified for failure to comply with the terms and conditions attached thereto or with any improvement program or for failure to make a periodic report, if such is required.

G. Nothing in this section and no variance or renewal granted pursuant hereto shall be construed to prevent or limit the application of the emergency provisions and procedures of this chapter. (1994 C., § 15.51.080; Ord. No. 68130, § 9, 10-26-2008; Ord. No. 64566, § 8, 1998.)

15.51.090 Penalty clause.

A. Any person found guilty or who enters a plea of guilty to a violation of any of the provisions of this chapter shall be subject to a fine of not less than one hundred dollars ($100.00) nor more than five hundred dollars ($500.00) or by imprisonment for not more than ninety (90) days or both such fine and imprisonment. Each day upon which any violation of this chapter occurs shall constitute a separate offense.

B. The City Counselor is authorized to seek equitable relief in the Circuit Court to require any person in violation of the provisions of this chapter to comply with the standards set forth herein. (1994 C., § 15.51.090; Ord. No. 68130, § 10, 10-26-2008; Ord. No. 64566, § 9, 1998.)

15.133.020 Reporting of stolen or lost firearms required.
15.133.030 Penalty for violation.
15.133.040 Rebuttable presumption.

15.133.010 Firearms left in unattended vehicles.

A. *Findings.* The number of motor vehicle burglaries in urban areas is increasing, and in the City of St. Louis has seen an increase in the number of thefts of firearms from unattended motor vehicles. The City of St. Louis finds that it has a compelling local interest in preventing the theft of firearms from unattended vehicles and that requiring reasonable measures to secure firearms left in unattended vehicles will reduce gun thefts, protect the property of the City's law abiding citizens, and prevent stolen guns from falling into the hands of criminals.

B. *Definitions.* As used in this chapter, the following terms shall have the meanings set forth as follows:

1. "Firearm" is any weapon that is designed or adapted to expel a projectile by the action of an explosive;

2. "Locked container" refers to a secure container that is fully enclosed and locked by a padlock, key lock,

combination lock, or similar locking device, including, but not limited to, a safe, gun safe, gun case, or other device that is designed to be or can be used to store a firearm and that is designed to be unlocked only by means of a key, a combination, or other similar means. "Locked container" does not include the glove compartment or utility compartment;

3. "Motor vehicle" is any self-propelled vehicle not operated exclusively upon tracks, except farm tractors;

4. "Trunk" is a fully enclosed compartment that is separate from the main cabin of the motor vehicle;

5. "Unattended" means circumstances in which a person aged 18 or over is not present in a motor vehicle;

6. "Peace officer" is any person who by virtue of his office or public employment is vested by law with a duty to maintain public order or to make arrests for offenses, whether that duty extends to all offenses or is limited to specific offenses.

C. *Requirements for Storage of Firearms in Motor Vehicles.* No person may place, store, or leave a firearm in an unattended motor vehicle, unless the firearm in stored in a locked container which is permanently affixed to the motor vehicle and is not visible from outside the motor vehicle.

1. This section is intended to apply to all motor vehicles located within the City of St. Louis. Notwithstanding the foregoing sentence, nothing in this section shall apply to on-duty peace officers employed by jurisdictions other than the City of St. Louis or to federal officers or military personnel who are acting within the scope of their authority and discharging their official duties.

2. Any peace officer employed by the City of St. Louis is exempt from the requirements of this section, provided that the officer's employing department has a policy regulating the storage of firearms for both on- and off-duty conduct by the officer.

3. Promotion of General Welfare. In enacting and implementing this section, the City is assuming an undertaking only to promote the general welfare. It is not assuming, nor is it imposing on its officers and employees, an obligation for breach of which it is liable in money damages to any person who claims that such breach proximately caused injury. (1994 C., § 15.133.010; Ord. No. 70502, § 1, 2-21-2017.)

15.133.020 Reporting of stolen or lost firearms required.

A. *Findings.* The City of St. Louis finds that it has a compelling local interest to prevent gun thefts, make it easier for law enforcement to locate lost or stolen firearms and to prevent illegal gun trafficking, and therefore enacts reasonable regulations requiring the reporting of lost and stolen firearms as set forth herein. This chapter is not intended to conflict with any state or federal law.

B. *Reporting Requirement.* It is unlawful for any person who owns or possesses a firearm to fail to report the theft or loss of such firearm to the St. Louis Metropolitan Police Department within 48 hours of the time he or she knew or should have known the firearm has been stolen or lost, when either the owner or possessor lives in the City of St. Louis, or the theft or loss of the firearm occurs in the City of St. Louis. A person commits the violation of failure to report a missing or stolen firearm if in violation of this section.

C. *Manner of Reporting.* Such report to the St. Louis Metropolitan Police Department shall include the serial number, make, model, and all identifying features of the firearm, as well as the circumstances surrounding the firearm's status as stolen or missing. (1994 C., § 15.133.020; Ord. No. 70502, § 2, 2-21-2017.)

15.133.030 Penalty for violation.

A violation of this chapter shall be punishable upon conviction by a fine of no more than $500.00 and incarceration of no longer than 90 days, or any combination of both fine and incarceration. 15.133.040 Rebuttable presumption.

Except as described herein, there shall be a rebuttable presumption that any firearm in a vehicle in the City of St. Louis is the property of the driver of said vehicle. The presumption does not apply if the weapon is found on the person of one of the occupants of the vehicle. If the firearm is in an unattended vehicle, there will be a rebuttable presumption that the firearm is the property of the owner of the vehicle. A vehicle owner may rebut the presumption with evidence that the owner did not have actual or constructive possession of the weapon at any time in the City of St. Louis. (1994 C., § 15.133.040; Ord. No. 70502, § 4, 2-21-2017.)

This chapter shall be known and may be cited and referred to as the "Requirements for Deeds Law." (1994 C., § 15.152.010; Ord. No. 56141, § 1, 1972.)

15.152.020 Legislative findings and purposes.

The Board of Aldermen finds that the use of straw parties in real estate transactions impairs the investigation and prosecution of arson and undermines the efforts of the City to obtain compliance with its ordinances prescribing minimum safety and health standards for buildings; that straw parties have been used to conceal the identity of persons receiving fire insurance proceeds and of persons responsible for arson perpetrated in order to collect fire insurance; that straw parties in some cases are dead, nonexistent or insolvent; that straw parties in some cases are persons of little or no business experience and are unaware of the legal responsibilities which accrue to real estate conveyances; that some conveyances are made to persons who do not know that real estate has been conveyed to them and who have not accepted such conveyances; that the grantors of conveyances made for the purpose of evading responsibility for arson and housing violations are often difficult to locate for the purposes of investigation and prosecution; and that the improper use of straw parties has occurred on a widespread, casual and indiscriminate basis. The Board of Aldermen declares that it is the purpose of this chapter to eliminate these occurrences by requiring upon a deed:

A. The address of the grantor, thus making him accessible to appropriate governmental officers; and

B. The notarized signature of the grantee, thus both preventing conveyances to unknowing, unwilling, dead or nonexistent persons, and calling the attention of the grantee to the fact that the conveyance of real estate has significant legal consequences. (1994 C., § 15.152.020; Ord. No. 56141, § 2, 1972.)

15.152.030 Requirements for deeds.

In addition to all other requirements prescribed by law, all deeds or other conveyances of lands situated in the City, or of any estate or interest therein, including all warranty deeds (general or special), quitclaim deeds, and deeds of trust, but excluding all easements and rights-of-way:

A. Shall contain the residence address of the grantor; and

B. Shall be subscribed by all of the grantees thereof (excluding, in the case of deeds of trust, all lenders and trustees), or by their lawful agents, which subscription shall be acknowledged or proved and certified, all in the same manner as is prescribed by law for the subscription by the grantor and the acknowledgment or proof and certification thereof. Where a deed conveys a life estate and a remainder, only the subscription of the life tenant shall be required. (1994 C., § 15.152.030; Ord. No. 65038, § 1, 2000; Ord. No. 56141, § 3, 1972.)

15.152.040 Recorder of Deeds.

The Recorder of Deeds shall not record any deed or conveyance which does not comply with the require-

ments of Section 15.152.030. (1994 C., § 15.152.040; Ord. No. 56141, § 5, 1972.)

15.152.050 Penalty for violation.

Any person who is a party to any deed or conveyance which does not comply with the requirements of Section 15.152.030 shall, upon conviction, be sentenced to a fine of not more than five hundred dollars or to imprisonment for not more than ninety days or to both fine and imprisonment. (1994 C., § 15.152.050; Ord. No. 56141, § 4, 1972.)
