(a) Before the owner of any property within or beyond the corporate limits of the city connects such property to the city sewer, he or his agent shall make application to the building official for, and have issued to him, a permit so to do. Such work shall only be performed by a licensed master plumber who must sign the permit. The permit application shall be a form prescribed by the chief plumbing inspector. All connections shall be inspected and approved by a city inspector before being used.

(b) Connections made without an approved application may be cut off by order of the director or chief plumbing inspector. Such unapproved connection may be allowed to remain active if inspected and accepted, however, the owner shall be required to pay a fee in lieu of a permit application fee that is double the regular permit fee then in effect.

(c) No permit for a connection which may be used for discharge of industrial process wastes or other non-domestic wastes regulated by article III of this chapter shall be issued except upon separate application to the director and approval of the discharge under the provisions of Article III of this chapter.
(Ord. No. 9409, § 1, 6-5-90; Ord. No. 12962, § 4, 6-16-15)

Sec. 31-7. Reserved.

Sec. 31-8. Sewer construction; acceptance of work.

All sewer construction involving interceptor sewer lines, pump stations, metering stations and appurtenances which shall become a part of the city's sewer system shall not be constructed without the plans therefore having first been approved and the construction inspected and approved by the director. Any construction work where city sewers are opened, uncovered, or undercut shall have been previously approved by the director or the city engineer.
(Ord. No. 9409, § 1, 6-5-90; Ord. No. 12962, § 4, 6-16-15)

Sec. 31-9. Right to enter, inspect connection.

The director, the building inspector or other designated employees of the city shall have free and unobstructed access to any part of the premises where house drains or other drains connected with or draining into the city sewers are laid, for the purpose of examining the construction, condition and method of use of the same, upon cause or reasonable suspicion that there may be inadequate facilities, the facilities present may not be properly functioning, there is an improper discharge, or upon a periodic systematic inspection of a particular drainage basin or other large segment of the system through those facilities at any time of the day between the hours of 7:00 a.m. and 6:00 p.m. or any other time in the event of an emergency. If such entry is refused, the sewer service may be disconnected upon reasonable notice and an opportunity for a hearing. The service may be suspended immediately in the event of an emergency if there is reasonable cause to suspect that the discharge will endanger the public health or the environment, shall have the potential to interrupt the treatment process, or shall damage the city's lines or facilities, and a hearing shall thereafter be afforded the user as soon as possible.
(Ord. No. 9409, § 1, 6-5-90; Ord. No. 12962, § 4, 6-16-15)

Sec. 31-10. Demolished buildings.

When a building is demolished, it shall be the responsibility of the owner to have the sewer service line plugged securely so that extraneous water will not enter the sewer. The owner of the premises or his agent shall notify the building inspector of such a plug, and allow same to be inspected prior to covering of any work. If such line is to be reused, it must first undergo inspection by the building inspector and be in conformity with then-existing standards.
(Ord. No. 9409, § 1, 6-5-90)

Sec. 31-11. Limitations on point of discharge; temporary facilities.

No person shall discharge any substance directly into a manhole or other opening in a city sanitary sewer other than through an approved building sewer, unless he shall have been issued a temporary permit by the director. A temporary permit may be issued in the discretion of the director to provide for discharges from portable sanitary facilities for festivals or public shows or for other reasonable purposes. The director shall incorporate in such a temporary permit such conditions as he deems reasonably necessary to insure compliance with the provisions of this chapter. The user shall be required to pay reasonable charges and

fees for the permit and service in an amount not less than the charges and fees for normal discharges. Any discharge other than through an approved building sewer or upon a permit issued by the director shall be unlawful.
(Ord. No. 9409, § 1, 6-5-90; Ord. No. 12962, § 4, 6-16-15)

Sec. 31-12. Vehicle wash racks.

All filling stations, garages, self-service automobile washers and other public wash racks where automobiles or other vehicles are washed shall install catch basins in conformity with the plumbing code upon a permit obtained from the building official. In the event any existing premises shall not have a catch basin and the sewer line servicing the facility shall stop up due to grit or slime in the sewer lines, then the owner or operator of such premises shall be required to modify their facilities to construct a catch basin as a condition of continuing to use the system. If such users are industrial users as defined in Article III of this chapter, they are required to obtain a permit as specified therein.
(Ord. No. 9409, § 1, 6-5-90)

Sec. 31-13. Grease traps, grit traps, oil traps and lint traps.

Restaurants, laundries, wash racks, vehicle service stations, private multi-user systems, engine or machinery repair shops and other facilities that produce grease, grit, oil, lint or other materials which accumulate and cause or threaten to cause stoppages or impair the efficiency of the city's sewers or threaten the safety of its employees, shall install and maintain a grease trap, grit trap, lint trap, oil interceptor, or other appropriate device of standard design and construction to prevent excess discharges of such materials. The design and construction of any such device shall be subject to prior approval of the director, and constructed in accord with applicable building codes.
(Ord. No. 9409, § 1, 6-5-90; Ord. No. 12962, § 4, 6-16-15)

Sec. 31-14. Private communal sanitary sewer systems.

(a) Excluding industrial waste facilities issued a permit pursuant to Article III, any owner, operator, or user of a private communal sanitary sewer system such as, but not limited to, multi-tenant buildings, building complexes, or shopping malls shall be responsible for the quality of wastewater discharged at the point of connection to the city's sanitary sewer system, and shall be responsible for any violations of the provisions of this chapter, including liability for the damage or injury caused to the city's system as a result of any discharge through the private system.

(b) In the event that any portion of a private communal sanitary sewer line which is serving single-family residences is shown to be defective, it shall be the responsibility of the owners whose properties are being served by the defective communal line to separate from said line and create their own discrete connection to the city's sewer system; the City shall provide a lateral connection at the ROW line. If any property owner of a defective communal line fails or refuses to connect to the city's system, a notice shall be given to the public officer of the Department of Community Development for such action as may be proper under Chapter 21 of this Code. The Director or his designee may take such other action to abate the nuisance as may be warranted under the circumstances.

(c) A property owner required to connect directly to the city's sewer system pursuant to subsection (b) who cannot financially afford to make said connection may apply for assistance through the city's Sewer Lateral Assistance Program ("SLAP").

(d) In the event a property owner who is required to connect directly to the city's sewer system pursuant to subsection (b) but is not eligible for SLAP funding and the cost of connection to the city's sewer system is proved to be a hardship for the property owner, the property owner may make application to have the city connect the owner to the city's sewer system. The determination of what is considered a hardship and other

eligibility requirements shall be set by the administrator of public works. Upon meeting said requirements, the property owner must submit an authorization to commence work and agreement to repay the city for such work. The city shall bill the property owner monthly at an amount not to exceed $100 per month. Additionally, the property owner authorizes the City to place a municipal lien on the property for the repair work completed.

(e) Subsections (c) and (d) shall only be applicable to owner-occupied properties.
(Ord. No. 9409, § 1, 6-5-90; Ord. No. 12999, § 1, 10-20-15; Ord. No. 13091, § 2, 10-11-22)

Sec. 31-15. Prohibitions on storm drainage, ground water, unpolluted water, and contaminated stormwater.

(a) No stormwater, ground water, rain water, street drainage, rooftop drainage, basement drainage, subsurface drainage, foundation drainage, yard drainage, cooling water, process water drainage, or other unpolluted water shall be discharged to the city's sanitary sewer system unless no other reasonable alternative is available, and then no such water shall be discharged to the city's sanitary sewer system except upon permission by the director upon such reasonable conditions as he may prescribe and upon payment of a sewer service charge based upon the quantity of water discharged as measured by a flow meter or a reasonable estimate accepted by the director. All users shall be required to maintain their private sewer lines so as to prevent infiltration of ground or stormwater as a condition of use of the system and shall immediately repair or replace any leaking or damaged lines.

(b) The city will accept the discharge of contaminated stormwater if the following criteria are met: 1) all known and available technology will not prevent contamination or treat contaminated water to meet state standards for discharge to receiving waters or will cause unreasonable financial burden; 2) the contaminated stormwater meets the city's discharge limits and all state and federal pretreatment requirements; and 3) volume of the discharge will not exceed the hydraulic loading in the collection system or the treatment plant.
(Ord. No. 9409, § 1, 6-5-90; Ord. No. 12023, § 4, 10-2-07; Ord. No. 12962, § 4, 6-16-15)

Sec. 31-16. Limitations on the use of garbage grinders.

(a) No waste from garbage grinders shall be discharged into the city's sewers except for private garbage grinders used in a single-family dwelling. Provided, further, that such grinders shall shred the waste sufficiently that it can be carried freely under normal flow conditions prevailing in the city's sewer lines. It shall be unlawful for any person to use a garbage grinder connected to the sewer system for the purpose of grinding and discharging plastic, paper products, inert materials or anything other than the waste products from normal food preparation and consumption.

(b) The director may issue a permit for a garbage grinder where no other alternative exists for solid waste collection and then only where applicable fees therefore are paid.
(Ord. No. 9409, § 1, 6-5-90; Ord. No. 12962, § 4, 6-16-15; Ord. No. 13172, § 1, 4-18-17)

Sec. 31-17. Hospital or pathological waste.

It shall be unlawful for any person to dispose of pathological waste, surgical operating room waste or delivery room waste by discharging same to the city's sewer system.
(Ord. No. 9409, § 1, 6-5-90)

Sec. 31-18. Obstruction of or damage to sewer lines.

It shall be unlawful for any person to deposit or cause to be deposited any waste of any character whatsoever which may obstruct or damage storm or sanitary sewer lines or which may inhibit, disrupt, or damage either system, including the sewer treatment process and operations. This prohibition shall include any and all substances, whether liquid, solid, gaseous or radioactive and whether associated with human habitation, of human or animal origin, or from any producing, manufacturing or processing. It shall be unlawful to block or obstruct any catch basin, sewer line, or other appurtenance, or to break, injure or remove any portion from any part of a sewer, drain or catch basin including plates covering manholes.
(Ord. No. 9409, § 1, 6-5-90)

Sec. 31-19. Assessment of damages to users.

When the discharge of waste or any other act or omission causes an obstruction, damage, or any other impairment to the city's facilities, causing an expense or damages of whatever character or nature to the city, the director shall assess the expenses and damages incurred by the city to clear the obstruction, repair damage to the facility, and otherwise rectify any impairment, and bill the person responsible for the damage for reimbursement of all expenses and damages suffered by the city. If the person responsible refuses to pay, then the director shall forward a copy of the statement and documentation of all expenses to the city attorney who shall be authorized to take such legal action as shall be appropriate.
(Ord. No. 9409, § 1, 6-5-90)

Sec. 31-20. Violations, discontinuance of water service.

(a) *Penalties for violations of article.* Anyone violating a provision of this article shall be guilty of a misdemeanor, and upon conviction, is punishable as provided in section 1-8 of this code.

(b) *Violations deemed separate offenses.* Separate violations shall constitute separate offenses and, upon conviction, each day of violation shall constitute a separate offense.

(c) *Other remedies.* In addition to other remedies provided herein, the director may issue a show cause notice to any user who appears to be violating any provisions of this article or chapter to show cause why sewer service should not be discontinued. The notice shall include the nature of the violation with sufficient specificity as to the character of the violation, and the date(s) on which such violation(s) occurred to enable the user to prepare a defense. Such notice shall be mailed to the user by certified mail, return receipt requested, or shall be personally delivered to the user at least twenty (20) days prior to the proposed action except in the event of an emergency. At the show cause hearing, the user may present any defense he may have to such charges, either in person or through submission of written or documentary proof. Following such hearing or opportunity for a hearing, the director may in his discretion order the termination of sewer service if satisfied from all the proof available that the violation was willful and the termination is necessary to abate the offending condition, or to prevent future violations. The director may terminate service for a period not to exceed one (1) year for a willful violation and may terminate service indefinitely to abate offending conditions or prevent future violations, subject to the correction of such conditions or violations by the user.

(d) *Emergency termination of service.* If in the opinion of the director it appears that such violation presents or may present an emergency situation endangering the public health, the environment, sewer system personnel, or the operation of the system, he may take immediate action to abate the condition and terminate service. In the event such emergency action adversely affects the user, the director shall provide the user an opportunity for a hearing as soon as practicable thereafter to consider restoration of service upon abatement of the condition or other reasonable conditions. Following the hearing, the director may take any such action authorized by paragraph (c) above should the proof warrant such action.

(e) *Water service.* Any violation of provisions of Article I which is not concerned or abated following a notice and opportunity for a hearing shall be grounds for the termination of water service and/or plugging the sewer line.
(Ord. No. 9409, § 1, 6-5-90; Ord. No. 12962, § 4, 6-16-15; Ord. No. 13186, § 1, 6-6-17)

Secs. 31-21—31-30. Reserved.

ARTICLE II. SEWER SERVICE CHARGES*

Sec. 31-31. Levied.

For the purpose of paying the interest on and principal of revenue bonds issued by the city for the payment of the cost and expenses appurtenant, incident or necessary thereto for the construction and acquisition of additions, extensions and improvements to the sewer system, consisting of sanitary sewers, intercepting and outfall sewers, pumping facilities, treatment and disposal plants and other facilities for the collection, treatment and disposal of sewage and industrial waste and the operation and maintenance of the sewers and sewerage system and sewage disposal facilities of the city, there hereby is imposed sewer service charges upon the owner or occupant of all property now served or which may hereafter be served by the city's sewer system at the rates set forth in this article.
(Code 1986, § 31-31)

Sec. 31-32. Abutting property owners, to pay charges.

The owner or occupant of each lot or parcel of land which abuts upon a street or other public way containing a sanitary sewer upon which lot or parcel a building has been or may hereafter be constructed for residential, commercial or industrial use shall pay the sewer service charges as provided in this article. The director or his designee shall make the determination whether or not a lot or parcel abuts upon a segment of street, alley, easement or other public way in which there is a sewer for the purposes of levying services charges; provided that he or she may waive the collection of such charges where the connection is infeasible based upon engineering or hydraulic principles, the connection would not comport with applicable plumbing or building codes, or the connection would not comport with other applicable codes, laws or regulations.
(Code 1986, § 31-32; Ord. No. 9384, § 1, 5-29-90; Ord. No. 12962, § 4, 6-16-15)

Sec. 31-33. Disposal of sewage authorized; charges.

The mayor or his/her designee may enter into contracts with any municipality, county, incorporated district or person for the treatment and disposal of sewage collected and pumped or delivered to some part of the sewer system; provided, however, that the charges to be paid for the treatment and disposal of such sewage shall not be less than an amount which is fair and equitable, taking into account the cost to the city

***Cross reference—**Businesses, trades and occupations generally, Ch. 11.

of such treatment and disposal and the cost of the sewage disposal system. All revenues received pursuant to such contract shall be deemed to be revenues of the sewer system, and shall be applied and accounted for in the same manner as other revenues derived from the operation of such system.
(Code 1986, § 31-33; Ord. No. 9384, § 2, 5-29-90; Ord. No. 12962, § 4, 6-16-15; Ord. No. 13186, § 2, 6-6-17)

Sec. 31-34. Charge to be based on water consumption.

The sewer service charges imposed by this article shall be based upon the water consumption of the owner or occupant of the properties served, as measured by the meters of the water company or meters installed by the owner or occupant of property, as provided in this article.
(Code 1986, § 31-34; Ord. No. 9384, § 12, 5-29-90)

Sec. 31-35. Billing procedure.

The sewer service charges shall become effective on water company services rendered at the rates hereinafter imposed and shall be billed as follows:

(1) Tennessee American Water customers will be billed by an entity designated by the City of Chattanooga and bill shall be due and payable by the due date specified on the statement or the next business day following the due date, if the due date falls on a Saturday or Sunday.

(2) All other customers will be billed by the water company at the same time it bills the owner or occupant for water services charges, and bills shall be due and payable at the same time as are the water service charges. Sewer service charges shall be billed by the water company as a separate designated item on its water bill.

(Code 1986, § 31-35; Ord. No. 9384, § 12, 5-29-90; Ord. No. 13186, § 3, 6-6-17)

Sec. 31-36. Schedule.

(a) Enumeration of charges; quantity of water used. Sewer service charges shall be based upon the quantity of water used as shown by water meter readings and shall be the dollar amount derived by applying the total charge in dollars per one thousand (1,000) gallons for the quantities of water shown in the following table:

User Class (gallons)	*FY26 Total Charges ($/1,000 gallons)*
First 100,000	$16.05
Next 650,000	11.95
Next 1,250,000	9.71
Next 30,000,000	8.19
Over 32,000,000	7.97

In addition, the total charges derived from the above chart for residential users will be multiplied by ninety (90) percent to compensate for water use not going to the sewer such as lawn and garden watering. Any residential location where a separate water meter has been installed for the purpose of lawn and garden watering shall not be entitled to have the multiplier applied to any water consumed through the primary water meter. Each residence or apartment unit shall have a maximum monthly sewer service charge for a volume of no more than 12,000 gallons water used; unless the minimum charge due to water meter size exceeds the 12,000 gallon limit, and then the monthly sewer service charge shall be at least the minimum for that particular size water meter.

(b) Regional service charge rates (wheelage and treatment). The regional sewer service use charge (wheelage and treatment) shall be collected from regional users of the system including Collegedale, Tennessee; Hamilton County, Tennessee; Walker County, Georgia; Catoosa County, Georgia; Lookout Mountain, Georgia; Dade County, Georgia; Rossville, Georgia; Ringgold, Georgia and Fort Oglethorpe, Georgia, and shall be determined either under the "billable flow" methods based upon the quantity of water used as shown by applicable water company meter readings or the "total flow" method based upon flow meter measured flow according to the applicable contract with the regional user pursuant to subparagraphs (c) and (d).

(c) *Billable flow.* The amount due from the regional user shall be the dollar amount derived by applying the total charge shown in the table below per one thousand (1,000) gallons of water sold.

	Regional Operation & Maintenance Charge ($/1,000 gallons)	*Regional Debt Charge ($/1,000 gallons)*	*Total Regional Charge (Wheelage and Treatment) ($/1,000 gallons)*
Wheelage and Treatment	$5.1371	$0.4710	$5.6081

If regional customers are billed directly through the water company, the rate to be charged shall be five dollars and thirty cents ($5.30) per one thousand (1,000) gallons.

(d) *Total flow.* The amount due from the regional user shall be the dollar amount derived by applying the total charge shown in the table below applied to the quantity of water measured by a flow meter installed and maintained at or near the point of connection between the system of the regional user and the Chattanooga system. In the event of any malfunction of said meters, flow shall be estimated, interpolated and/or projected in the most equitable manner possible. Such estimates, along with available readings for periods where there was no malfunction, shall be the basis for billing.

	Regional Operation & Maintenance Charge ($/1,000 gallons)	*Regional Debt Charge ($/1,000 gallons)*	*Total Regional Charge (Wheelage and Treatment) ($/1,000 gallons)*
Wheelage and Treatment	$2.4740	$0.7420	$3.2160

(e) Sewer service charges that remain unpaid after the due date on the statement shall be subject to a ten (10) percent late fee.

(f) Sewer charges which have not been paid within fifteen (15) days of the date on the sewer bill shall be subject to a ten (10) percent late fee. This late fee only applies to the most recent month's sewer charges and shall not be applied to any other outstanding balances. This late fee shall not apply to sewer charges which are billed directly by a water supplier on the City's behalf.

(g) In the event of a disconnection and/or reconnection of a user's water due to unpaid sewer charges, the user will reimburse the City for any fee paid by the City to the water company for the disconnection and/or reconnection of water service.

(Code 1986, § 31-36; Ord. No. 9187, §§ 1—3, 7-5-89; Ord. No. 9384, §§ 3-5, 5-29-90; Ord. No. 9631, §§ 1—3, 10-22-91; Ord. No. 9761, §§ 1—3, 7-28-92; Ord. No. 9963, §§ 1—3, 10-19-93; Ord. No. 10094, §§ 1—3, 8-30-94; Ord. No. 10285, §§ 1—3, 9-12-95; Ord. No. 10495, §§ 1—3, 11-12-96; Ord. No. 10632, §§ 1—3, 10-28-97; Ord. No. 10769, §§ 1—3, 10-6-98; Ord. No. 10935, §§ 1—3, 11-16-99; Ord. No. 11070, §§ 1—3, 9-19-00; Ord. No. 11221, §§ 1—3, 12-18-01; Ord. No. 11344, §§ 1, 3, 5, 11-05-02; Ord. No. 11473, § 2, 10-21-03; Ord. No. 11581, §§ 17-18, 07-06-04; Ord. No. 12023, §§ 5-8, 10-2-07; Ord. No. 12166, §§ 4, 5, 6, 9-23-08; Ord. No. 12327, §§ 4, 5, 6, 11-24-09; Ord. No. 12410, §§ 19—21, 7-6-10; Ord. No. 12523, §§ 21—23, 6-28-11; Ord. No. 12664, § 1, 11-20-12; Ord. No. 12835, §§ 20—22, 6-24-14; Ord. No. 12953, §§ 20—22, 6-16-15; Ord. No. 13072, §§ 20—22, 6-28-16; Ord. No. 13186, § 4, 6-6-17; Ord.

No. 13213, §§ 23—25, 9-12-17; Ord. No. 13334, §§ 22—24, 7-3-18; Ord. No. 13473, §§ 22—24, 6-25-19; Ord. No. 13558, §§ 22—24, 6-23-20; Ord. No. 13710, §§ 22—24, 9-28-21; Ord. No. 13840, §§ 22—24, 6-14-22; Ord. No. 14118, §§ 21—23, 6-18-24; Ord. No. 14239, §§ 21—23, 6-10-25)

Sec. 31-37. Minimum service charges.

(a) Minimum sewer service charges based upon water meter connection size shall be as follows:

Monthly Minimum Sewer Service Charges

FY25 10/1/2024

Meter Size (inches)	Charge per Month
5/8	31.10
3/4	110.95
1	193.84
1-1/2	433.84
2	768.16
3	1,800.62
4	3,327.58
6	7,925.77
8	14,019.24

The minimum sewer service charge for residential users with various meter sizes shall be multiplied by ninety (90) percent to compensate for water use not going to the sewer such as lawn and garden watering. Any residential location where a separate water meter has been installed for the purpose of lawn and garden watering shall not be entitled to have the multiplier applied to any water consumed through the primary water meter.

(b) The minimum sewer service charge for residential users with combined residential and fire service installed prior to [effective date of ordinance], shall be charged at the 5/8-inch meter minimum rate, and their meter size shall be considered 5/8-inch for purposes of calculating maximum monthly service charges per Section 31-36.

(Code 1986, § 31-37; Ord. No. 9187, § 4, 7-5-89; Ord. No. 9384, § 6, 5-29-90; Ord. No. 9631, § 4, 10-22-91; Ord. No. 9761, § 4, 7-28-92; Ord. No. 9963, § 4, 10-19-93; Ord. No. 10094, § 4, 8-30-94; Ord. No. 10935, § 4, 11-16-99; Ord. No. 11344, § 2, 11-05-02; Ord. No. 12023, § 9, 10-2-07; Ord. No. 12166, § 7, 9-23-08; Ord. No. 12327, § 7, 11-24-09; Ord. No. 12410, § 22, 7-6-10; Ord. No. 12523, § 24, 6-28-11; Ord. No. 12716, § 1, 4-2-13; Ord. No. 12835, § 23, 6-24-14; Ord. No. 12962, §§ 4, 23, 6-16-15; Ord. No. 13072, § 23, 6-28-16; Ord. No. 13186, § 4, 6-6-17; Ord. No. 13213, § 26, 9-12-17; Ord. No. 13334, § 25, 7-3-18; Ord. No. 13473, § 25, 6-25-19; Ord. No. 13558, § 25, 6-23-20; Ord. No. 13710, § 25, 9-28-21; Ord. No. 13840, § 25, 6-14-22; Ord. No. 14118, § 24, 6-18-24; Ord. No. 14239, § 24, 6-10-25; Ord. No. 14233, § 1, 5-13-25)

Sec. 31-38. Designation of water accounts to be charged.

The director shall designate and report to the water company the water service accounts which shall be billed for sewer service charges, and shall furnish the water company serving the user with the rates as they may be changed from time to time to be charged for sewer services. This designation and report shall

include all properties for which sewer service has been provided by the city. In event of the extension of the city's sewer system to any property now served by sewers, the director shall immediately notify the water company serving the user of the additional accounts to be billed for sewer service.
(Code 1986, § 31-38; Ord. No. 9384, § 7, 5-29-90; Ord. No. 12962, § 4, 6-16-15)

Sec. 31-39. Charges where water usage not metered.

(a) *Generally.* The owners or occupants of property obtaining water from a source or sources other than through a meter of the city water company which is discharged into the city's sewers shall install, without cost to the city, a meter to measure the quantity of water received from such source, and shall pay the same rates as provided in sections 31-36 and 31-37 of this Code. No meter shall be installed or used for such purpose without the approval of the Director of Waste Resources or his designee. If the owner of such property fails to install an approved meter or meters, the Director of Waste Resources or his designee shall make an estimate of the quantity of such water used by such property owner and discharged into the city's sewers from the property and the owner or occupant of the property shall be liable to the city for the sewer service charges due, which may be collected by suit in any court of competent jurisdiction.

(b) *Multi-unit complexes.* To provide more equality between single-family and multi-unit dwellings (with just one (1) or less number of water meters than the total number dwelling units in complex), sewer service charges to multi-unit apartment complexes served by master meters or any combination of meters totaling less than the number of units served shall be charged as follows:

(1) By multiplying the total water consumption by the residential rate for either an account with a separate lawn and garden meter or an account without a separate meter for lawn and garden meter.

(2) The total sewer service charge shall not exceed the per unit usage of twelve thousand (12,000) gallons per unit per month multiplied by the appropriate residential rate unless the meter size volumetric allowance is larger than this allowance shall be multiplied by the appropriate residential rate.

(3) The minimum sewer service charge for different meter sizes shall be calculated by multiplying the particular meter size volumetric allowance by the applicable residential rate.

(Code 1986, § 31-39; Ord. No. 12410, § 25, 7-6-10)

Sec. 31-40. Consumers not to be charged sewer user charges for water used for industrial, commercial purposes not discharged into city sewers.

(a) *Secondary metering.* Whenever a property upon which a sewer user charge is imposed under this article uses water for an industrial or commercial purpose, which water so used is not discharged into the sewerage system of the city, the quantity of water so used and not discharged into the city's sewers shall be excluded in determining the sewer user charge of the owner or occupant; provided that, the quantity of water so used and not discharged into the city sewers is measured by a device or meter (called a secondary meter) approved by the director and installed by the owner or occupant without cost to the city. The sewer user charge based upon the consumption of water to be paid by the owner or occupant of such property shall be computed at the rates provided in this article less the quantity not discharged into the city's sewers. The city reserves the right to require calibration of secondary meters when appropriate. A secondary meter shall meet the following requirements:

(1) Meters should read in hundred (100) cubic feet.

(2) Meters must be located either in an outdoor meter box or vault, or inside the customer's building or structure in a clean, dry, safe place not subject to wide temperature variations so that the meter can be easily examined, read or removed.

(3) The customer shall, at its expense, provide suitable pipe connections and shut-off valves, one (1) each at the inlet and outlet sides of the meter.

(4) The meter box or vault may be constructed to protect the meter from freezing and damage by vehicular traffic, and its location and design shall prevent, as far as possible, the inflow of surface water.

(5) Any changes in location of secondary meters, malfunctions, replacements or any other changes in the approved secondary meter installation must be reported to the director in writing. Also a copy must be forwarded to the water company containing all pertinent information regarding that particular meter.

(6) No retroactive credits will be issued, if the holder of the secondary meter permit fails to comply with the rules and regulations in force at any particular time.

(7) If any water exempted from the sewer service charge is returned to the sewer system at any time or point, a metering device shall be installed. Any flow registered through such a meter shall be charged for sewer service.

(8) Any secondary meter must be easily accessible by the water company. If this is not possible, remote read meters shall be installed and be protected from any magnetic interference. It is the responsibility of the permit holder to assure the accuracy of the remote read to the installed meter.

(9) All meters must be calibrated and certified for accuracy once every eighteen (18) months. The certification of the inspection or a copy thereof has to be forwarded to the Moccasin Bend Treatment Plant.

(b) *Other sewer user charge credits.* User charge credits may also be given by the director for the following purposes:

(1) Hidden or underground leaks except for accounts identified as residential.

(2) Catastrophic leaks where water does not enter the sewer line except for accounts identified as residential.

(3) Where secondary meters are installed for lawn or garden watering, sprinkling systems, and other processes where water is used but not returned to the sewer.

No sewer user may receive a credit for an amount which would reduce the resultant sewer bill below the minimum charge required by section 32-31 of this article. To be considered for credit, leaks must be reported to the water company, and corrected by the owner or occupant without cost to the city. The sewer user charge based upon the consumption of water to be paid by the owner or occupant of such property shall be computed at the rates provided in this article less the quantity not discharged into the city's sewers. (Code 1986, § 31-40; Ord. No. 9384, § 8, 5-29-90; Ord. No. 12023, § 10, 10-2-07; Ord. No. 12410, § 26, 7-6-10; Ord. No. 12962, § 4, 6-16-15)

Sec. 31-41. Industrial user sewer surcharge.

(a) *Levy.* There shall be and is hereby levied upon industrial users which discharge wastewater in concentrations in excess of "normal wastewater" a surcharge as set forth in this section.

(b) *Charge formula.* The industrial user surcharge is based upon the increased operation and maintenance cost and other increased expenses incurred in the handling of such wastewater as determined by the following formula:

$$Cs = [(Bc \times B) + (Sc \times S) + (Pc \times P)] Vu \times 8.34$$

Cs = Surcharge for wastewaters exceeding the strength of "normal wastewater" expressed in dollars per billing period.

Bc = Operation and maintenance (O & M) cost for treatment of a unit of BOD_5 expressed in dollars per pound.

B = Concentration of BOD_5 from a user above the base level of 300 mg/l expressed in mg/l.

Sc = Operation and maintenance (O & M) cost for treatment of a unit of total suspended solids expressed in dollars per pound.

S = Concentration of total suspended solids from a user above the base level of 400 mg/l, expressed in mg/l.

Pc = Operation and maintenance (O & M) cost for treatment of a unit of any pollutant which the city is committed to treat by virtue of its NPDES permit or other regulatory requirement expressed in dollars per pound.

P = Concentration of any pollutant from a user above the base level. Base levels for pollutants subject to surcharge as may be hereafter established by the city expressed in mg/l.

Vu = Volume contribution of a user per billing period. Expressed in million gallons.

8.34 = Conversion factor to make units cancel. Expressed as (pounds/million gallons)/mg/l.

(c) *Rates.* Based upon the current cost of treating wastewater containing constituents with concentrations in excess of "normal wastewater," numerical rates are hereby established for Bc and Sc as follows:

Bc = $0.1381 per pound of BOD for concentrations in excess of three hundred (300) milligrams per liter.

Sc = $0.0957 per pound of total suspended solids for concentrations in excess of four hundred (400) milligrams per liter.

(d) *Billing.* The director shall notify and in conjunction with a normal bill charge each industrial user within sixty (60) days following the semi-annual periods ending on December 31st and June 30th, and such surcharges shall be payable no later than April first and October first respectively. The director, at his discretion, may enter into an agreement with the industrial user to bill and collect such fees on a monthly basis. Each user shall be notified at least annually in conjunction with a regular bill of the rate and that portion of the user charges which are attributable to wastewater treatment services.

(e) *Data concerning concentration.* The concentrations of any pollutant of an industrial user and the volume contribution of that user shall be calculated from discharge monitoring reports which shall be submitted by the industrial user following the semi-annual periods ending on December 31st and June 30 by January 31st and July 30th respectively and being subject to verification by inspection and monitoring undertaken by the director pursuant to Division 9 of this article, from records maintained by the industrial user pursuant to Division 8 of this article, and from reliable information obtained from any other source.

(f) *User charge and surcharge studies.* The director shall, based upon a documented study, recommend to the mayor and city council no less frequently than biennially an equitable rate structure for purposes of establishing a basic user charge computed on the basis of "normal wastewater" and a surcharge for industrial users which discharge effluent in concentrations in excess of "normal wastewater". The director shall consider in his report the amount of revenue needed for the purposes specified in section 31-31, consistent with 40 CFR part 35 and all other applicable federal and state laws and regulations. Such recommendation shall be based upon the premises that each user or user class pays his proportionate share of the operation and maintenance including replacement costs of the treatment works, based upon the user's proportionate contribution to the total wastewater loading from all users or user classes. The director shall also recommend as warranted that surcharges be placed upon specific wastewater constituents,

including a surcharge for all users which discharge any toxic pollutant which causes an increase in the cost of managing the effluent or the sludge of the city's treatment works, so as to recover such increased costs. In making his recommendation relative to changes in user charges or surcharges, the director may recommend that any excess revenues or any deficiency in revenues collected from a class of users in the preceding period be applied to the operation and maintenance cost attributed to that class for the next period and that the rate for that class of users be adjusted accordingly.

(g) *Appeal.* An industrial user may contest the accuracy of a user sewer surcharge bill by paying such bill under protest and within thirty (30) days following the date of the bill lodging with the director a notice of appeal to the wastewater regulation board. No particular form of notice of appeal is required, but it shall set forth with particularity the nature of any errors allegedly committed in the computation of such bill. Unless the director shall agree to correct any error or enter into a reasonable compromise concerning same, he shall notify the board at its next regularly scheduled meeting of the pendency of an appeal. The board shall, upon notice to the industrial users, schedule a hearing to receive evidence relating to the matter, and shall render such determinations and issue such orders as the law and facts of the case may require.
(Code 1986, § 31-136; Ord. No. 9187, § 5, 7-5-89; Ord. No. 9384, § 9, 5-29-90; Ord. No. 9631, § 5, 10-22-91; Ord. No. 9654, § 108, 1-6-92; Ord. No. 9761, § 5, 7-28-92; Ord. No. 9963, § 5, 10-19-93; Ord. No. 10094, § 5, 8-30-94; Ord. No. 10285, § 4, 9-12-95; Ord. No. 10495, § 4, 11-12-96; Ord. No. 10632, § 4, 10-28-97; Ord. No. 10769, § 4, 10-6-98; Ord. No. 10935, § 5, 11-16-99; Ord. No. 11070, § 4, 9-19-00; Ord. No. 11221, § 4, 12-18-01; Ord. No. 11344, § 5, 11-05-02; Ord. No. 11473, § 3, 10-21-03; Ord. No. 11581, § 19, 07-06-04; Ord. No. 12023, § 11, 10-2-07; Ord. No. 12166, § 8, 9-23-08; Ord. No. 12327, § 8, 11-24-09; Ord. No. 12410, § 23, 7-6-10; Ord. No. 12523, § 25, 6-28-11; Ord. No. 12835, § 24, 6-24-14; Ord. No. 12962, § 4, 24, 6-16-15; Ord. No. 13072, § 24, 6-28-16; Ord. No. 13213, § 27, 9-12-17; Ord. No. 13334, § 26, 7-3-18; Ord. No. 13473, § 26, 6-25-19; Ord. No. 13558, § 26, 6-23-20; Ord. No. 13710, § 26, 9-28-21; Ord. No. 13840, § 26, 6-14-22; Ord. No. 14118, § 25, 6-18-24; Ord. No. 14239, § 25, 6-10-25)

Sec. 31-42. Appeals.

A user may contest a credit or billing determination by the director by paying said bill under protest and within thirty (30) days following the due date of said bill lodging with the director a notice of appeal with the Wastewater Regulations and Appeals Board. The appeal shall follow the procedures in section 31-295. (Ord. No. 9384, § 10, 5-29-90; Ord. No. 12962, § 4, 6-16-15)

Sec. 31-43. Miscellaneous fees.

(a) *Applicability.* There shall be and is hereby levied miscellaneous fees to be collected by the director for various purposes relating to this chapter as set forth in this section.

(b) *Fees for garbage grinders*. Any user of a garbage grinder, except users in a premise used exclusively for an individual residence, shall be charged at a rate of four hundred ninety five dollars ($495.00) per month. The superintendent shall bill users on a quarterly basis and the bills shall be due and payable within fifteen (15) days following the last day of the billing period.

(c) *Monitoring requested by user.* The director shall charge and collect from any user requesting the collection of effluent samples and the analysis of same a sum of money sufficient to pay for the personnel, equipment, and materials needed to collect and analyze same. He shall publish no less frequently than yearly a schedule of such fees, and shall charge all persons uniformly according to said schedule of charges. No such monitoring requested by user shall be performed unless the user shall agree in advance to payment of charges according to said schedule. The director shall bill for such monitoring reports within one (1) week following the completion thereof, said bills to be payable within thirty (30) days following the date of the bill. The director shall not perform for a user routine self-monitoring required under the provisions of an industrial discharge permit.

(d) *Permit fee.* All significant industrial users as defined in article III of this chapter shall be charged an annual permit fee of five hundred dollars ($500.00) per year. The director shall bill significant industrial users annually and the bills shall be due and payable within thirty (30) days.

(e) *Truck discharge operation fee.* The director shall charge and collect the sum of one hundred dollars ($100.00) per truck per year for a truck discharge operation permit as authorized pursuant to division 6 of this article. The holders of such permits shall also be charged a fee set forth in paragraphs (d) and (e) of this section. Such additional fees shall be collected by the director at the time of the discharge or, in his discretion, he may enter into an agreement with the holder of such a permit to bill and collect the fees on a monthly basis.

(f) *Fees for septic tank discharge*. All persons discharging concentrated, domestic septic tank sewage waste from a truck under the provisions of Article III of this Chapter shall be charged at the rate of one hundred ninety one dollars ($191.00) per one thousand (1,000) gallons of such waste. The minimum charge for septic tank discharges shall be one half (1/2) of the rate for one thousand (1,000) gallons of the rate in effect at the time of such discharge.

(g) *Fees for holding tank wastes*. All persons discharging any holding tank waste authorized pursuant to division 6 of this article shall be charged at the rate of sixteen dollars and five cents ($16.05) per one thousand (1,000) gallons of such discharge, plus any surcharge rate authorized by Article III of this chapter for concentrations of pollutants in excess of normal waste water without regard to the definition of the industrial user or other limitations set forth in such section. The Plant Manager may also require a chemical analysis of such waste and charge therefore.

(h) Late fees of 10% (ten percent) shall be applied to all amounts billed but not received by the due date indicated on the invoice.

(i) An applicable disconnect fee may be assessed for delinquent accounts.

(j) The City may disconnect water service due to any unpaid charges or fees.
(Ord. No. 9384, § 11, 5-29-90; Ord. No. 9631, §§ 6, 8, 10-22-91; Ord. No. 9761, §§ 6, 7, 7-28-92; Ord. No. 9963, §§ 6, 7, 10-19-93; Ord. No. 10094, §§ 6, 8, 8-30-94; Ord. No. 10632, §§ 5, 6, 10-28-97; Ord. No. 10769, §§ 5, 6, 10-6-98; Ord. No. 10935, §§ 6, 7, 11-16-99; Ord. No. 11070, §§ 5, 6, 9-19-00; Ord. No. 11221, §§ 5, 6, 12-18-01; Ord. No. 11344, §§ 6, 8, 11-05-02; Ord. 12023, § 12, 10-2-07; Ord. No. 12166, § 9, 9-23-08; Ord. No. 12327, § 9, 11-24-09; Ord. No. 12410, § 24, 7-6-10; Ord. No. 12523, § 26, 6-28-11; Ord. No. 12835, § 25, 6-24-14; Ord. No. 12962, § 4, 25, 6-16-15; Ord. No. 13072, § 25, 6-28-16; Ord. No. 13186, § 5, 6-6-17; Ord. No. 13213, § 28, 9-12-17; Ord. No. 13334, § 27, 7-3-18; Ord. No. 13473, § 27, 6-25-19; Ord. No. 13558, § 27, 6-23-20; Ord. No. 13710, § 27, 9-28-21; Ord. No. 13840, § 27, 6-14-22; Ord. No. 14118, § 26, 6-18-24; Ord. No. 14239, § 26, 6-10-25)

Secs. 31-44—31-49. Reserved.

ARTICLE III. INDUSTRIAL WASTE

DIVISION 1. GENERALLY

Sec. 31-50. General provisions.

(a) *Purpose and policy.* The purpose of this article is to set uniform requirements for users of the city's wastewater collection system and treatment works to enable the city to comply with the provisions of the Clean Water Act and other applicable federal and state law and regulations, and to provide for the public health and welfare by regulating the quality of wastewater discharged into the city's wastewater collection

system and treatment works. This article provides a means for determining wastewater volumes, constituents and characteristics, the setting of charges and fees, and the issuance of permits to certain users. This article establishes effluent limitations and other discharge criteria and provides that certain users shall pretreat waste to prevent the introduction of pollutants into the publicly owned treatment works (hereinafter referred to as POTW) which will interfere with the operation of the POTW, may cause environmental damage, interfere with the use or disposal of sewage sludge; and to prevent the introduction of pollutants into the POTW which will pass through the treatment works into the receiving waters or the atmosphere, or otherwise be incompatible with the treatment works; and to improve the opportunities to recycle and reclaim wastewaters and the sludges resulting from wastewater treatment. This article provides measures for the enforcement of its provisions and abatement of violations thereof. This ordinance establishes a "Wastewater Regulations and Appeals Board" and establishes its duties and establishes the duties of the director to insure that the provisions of this ordinance are administered fairly and equitably to all users.

(b) *Definitions.* For purposes of this article the following phrases and words shall have the meaning assigned below, except in those instances where the content clearly indicates a different meaning:

(1) **Act or "the Act" or the "CWA".** The Federal Water Pollution Control Act, also known as the Clean Water Act, as amended, 33 U.S.C. 1251, et seq.

(2) **"Approved POTW Pretreatment Program" or "Program" or "POTW Pretreatment Program".** This means a program administered by a POTW that meets the criteria established in 40 CFR (§ 403.8 and 403.9) and which has been approved by a regional administrator or state director in accordance with § 403.11 of Chapter 40 of the Code of Federal Regulations.

(3) **Average limit.** The maximum allowable arithmetic average of daily discharges of a pollutant measured over a reporting period, calculated as the sum of all daily discharges divided by the number of daily discharges measured during the period.

(4) **Best Management Practices (BMPs).** Schedules of activities, prohibitions of practices, maintenance procedures, and other management practices to implement the prohibitions listed in Section 31-53(b) of this ordinance. BMPs include treatment requirements, operating procedures, and practices to control plant site runoff, spillage or leaks, sludge waste disposal, or drainage from raw materials storage. BMPs also include alternative means (i.e., management plans) of complying with, or in place of, certain established categorical pretreatment standards and effluent limits.

(5) **Building Sewer.** A sewer conveying wastewater from the premises of a user to a community sanitary sewer.

(6) **Board.** Wastewater Regulations and Appeals Board.

(7) **Categorical Standards.** National Pretreatment Standards, established by EPA for specific industrial user SIC (Standard Industrial classification) code categories.

(8) **Best Management Practices (BMPs).** The widely accepted means and methods of preventing or reducing FOG from entering the WCTS are referred to as Best Management Practices, including, but not limited to, schedules of activities, prohibitions of practices, maintenance procedures, and other management practices used to implement the prohibitions listed in Section 31-53(b) of this ordinance.

(9) **City.** The City of Chattanooga, Tennessee and its Department of Public Works, the Waste Resources Division, and the Interceptor Sewer System.

(10) **Combined sewer.** A sewer which has been designed to carry both sanitary sewage and stormwater runoff.

(11) **Community sewer.** Any sewer containing wastewater from more than one (1) premise.

(12) **Conventional pollutant.** Biochemical oxygen demand, total suspended solids, pH, fecal coliform bacteria, and oil and grease.

(13) **Daily maximum limit.** The maximum allowable discharge of a pollutant during a calendar day. Where expressed in terms of mass, the daily discharge is the total mass discharged over the course of the day. Where expressed in terms of concentration, the daily discharge is the arithmetic average concentration of the pollutant derived from all measurements taken that day.

(14) **Direct Discharge.** The discharge of treated or untreated wastewater directly to the waters of the State of Tennessee.

(15) **Discharge Monitoring Report.** A report submitted by an industrial user to the director pursuant to this article containing information relating to the nature and concentration of pollutants and flow characteristics of a discharge from the industrial user to the POTW, using standard methods approved by the director.

(16) **Environmental Protection Agency or "EPA".** The Environmental Protection Agency, an agency of the United States, or where appropriate the term may also be used as a designation for the administrator or other duly authorized official of said agency.

(17) **Grab Sample.** An individual sample collected over a period of time not exceeding fifteen (15) minutes.

(18) **Holding tank waste.** Any waste from holding tanks such as vessels, chemical toilets, campers, trailers, septic tanks, and vacuum-pump tank trucks. This specifically includes wastewaters from industrial users, which wastewaters are conveyed to the POTW by any means other than by a standard connection to a sanitary or combined sewer.

(19) **Indirect Discharge.** The discharge or the introduction of pollutants from any source regulated under Section 307(b), (c), or (d) of the Act, (33 U.S.C. 1317), into the POTW (including holding tank waste discharged into the system) for treatment before direct discharge to the waters of the state.

(20) **Industrial User.** A source of indirect discharge which does not constitute a "discharge of pollutants" under regulations issued pursuant to Section 402 of the Act. For the purposes of this article, an industrial user is a source of non-domestic wastes from industrial processes.

(21) **Instantaneous limit.** The maximum concentration of a pollutant allowed to be discharged at any time, determined by analysis of any discrete or composited sample, independent of the flow rate or duration of the sampling event.

(22) **Interceptor Sewer System or "ISS".** Any portion of or all of the City of Chattanooga's wastewater collection system, treatment works, pump stations, and other appurtenances.

(23) **Interference.** The term "interference" means a discharge which, alone or in conjunction with a discharge or discharges from other sources, both:

(A) inhibits or disrupts the POTW, its treatment processes or operations, or its sludge processes, use or disposal; or exceeds the design capacity of the treatment works or collection system.; and

(B) therefore is a cause of a violation of any requirement of the POTW's NPDES permit (including an increase in the magnitude or duration of a violation) or of the prevention of sewage sludge use or disposal in compliance with the following statutory provisions and regulations or permits issued thereunder (or more stringent State or local regulations), Section 405 of the Clean Water Act, the Solid Waste Disposal Act (SWDA) (including Title

II, more commonly referred to as the Resource Conservation and Recovery Act (RCRA), and including State regulations contained in any State sludge management plan prepared pursuant to Subtitle D of the SWDA), the Clean Air Act, the Toxic Substances Control Act, and the Marine Protection, Research and Sanctuaries Act.

(24) **Mass emission rate.** The weight of material discharged to the community sewer system during a given time interval. Unless otherwise specified, the mass emission rate shall mean pounds per day of the particular constituent or combination of constituents.

(25) **Maximum concentration.** The maximum amount of a specified pollutant in a volume of water or wastewater.

(26) **National Pretreatment Standard.** Any regulations containing pollutant discharge limits promulgated by the EPA in accordance with Section 307(b) and (c) of the Act (33 U.S.C. 1347) which applies to industrial users. These terms also include prohibited discharges promulgated in 40 CFR 403.5, and local limits adopted as part of the City's Approved Pretreatment Program.

(27) **New Source.**

(A) The term "new source" means any building, structure, facility or installation from which there is or may be a discharge of pollutants, the construction of which commenced after the publication of proposed pretreatment standards under Section 307(c) of the Act which will be applicable to such source if such standards are thereafter promulgated in accordance with that Section, provided that:

(i) The building, structure, facility or installation is constructed at a site at which no other source is located; or

(ii) The building, structure, facility or installation totally replaces the process or production equipment that causes the discharge of pollutants at an existing source; or

(iii) The production or wastewater generated processes of the building, structure, facility or installation are substantially independent of an existing source at the same site. In determining whether these are substantially independent, factors such as the extent to which the new facility is integrated with the existing plant, and the extent to which the new facility is engaged in the same general type of activity as the existing source should be considered.

(B) Construction on a site at which an existing source is located results in a modification rather than a new source if the construction does not create a new building, structure, facility or installation meeting the criteria of paragraphs (A)(ii) or (iii) of this subsection but otherwise alters, replaces, or adds to existing process or production equipment.

(C) Construction of a new source as defined under this paragraph has commenced if the owner or operator has:

(i) Begun, or caused to begin as part of a continuous onsite construction program:

a. Any placement, assembly, or installation of facilities or equipment; or

b. Significant site preparation work including clearing, excavation, or removal of existing buildings, structures, or facilities which is necessary for the placement, assembly or installation of new source facilities or equipment; or

(ii) Entered into a binding contractual obligation for the purchase of facilities or equipment which are intended to be used in its operation within a reasonable time. Options to purchase or contracts which can be terminated or modified without substantial loss, and contracts for feasibility, engineering, and design studies do not constitute a contractual obligation under this paragraph.

(28) **National Pollutant Discharge Elimination System or NPDES permit.** A permit issued pursuant to Section 402 of the Act (33 U.S.C. 1342).

(29) **Normal Wastewater.** Effluent which contains constituents and characteristics similar to effluent from a domestic premise and specifically for the purposes of this article does not contain biochemical oxygen demand (BOD), or total suspended solids (TSS) in concentrations in excess of the following:

BOD — 300 milligrams per liter

TSS — 400 milligrams per liter

(30) **Pass Through.** The term "pass through" means a discharge which exits the POTW into waters of the United States in quantities or concentrations which, alone or in conjunction with a discharge or discharges from other sources, is a cause of a violation of any requirement of the POTW's NPDES permit (including an increase in the magnitude or duration of a violation). In the case of POTW receiving discharges from CWTs as defined above, pass through also means the failure of the CWT and the POTW to reduce pollutant discharges from the POTW to the degree which would be required under Section 301(b)(2) of the CWA if the CWT discharged directly to surface waters.

(31) **Person.** Any individual, partnership, co-partnership, firm, company, corporation, association, joint stock company, trust, estate, governmental entity or any other legal entity, or their legal representatives, agents or assigns. The masculine gender shall include the feminine, the singular shall include the plural where indicated by the context.

(32) **Pollution.** The man-made or man-induced alteration of the chemical, physical, biological, and radiological integrity of water.

(33) **Premises.** A parcel of real estate or portion thereof including any improvements thereon which is determined by the director to be a single user for purposes of receiving, using, and paying for services.

(34) **Pretreatment.** The term "pretreatment" means the reduction of the amount of pollutants, the elimination of pollutants, or the alteration of the nature of pollutant properties in wastewater prior to or in lieu of discharging or otherwise introducing such pollutants into a POTW. The reduction or alteration may be obtained by physical, chemical or biological processes, process changes or by other means, except as prohibited by 40 CFR § 403.6(d). Appropriate pretreatment technology includes control equipment, such as equalization tanks or facilities, for protection against surges or slug loadings that might interfere with or otherwise be incompatible with the POTW. However, where wastewater from a regulated process is mixed in an equalization facility with unregulated wastewater or with wastewater from another regulated process, the effluent from the equalization facility must meet an adjusted pretreatment limit calculated in accordance with 40 CFR § 403.6(e).

(35) **Pretreatment Requirements.** Any substantive or procedural requirement related to pretreatment, other than a national pretreatment standard imposed on an industrial user.

(36) **Pretreatment standard or standards.** Prohibited discharge standards, categorical pretreatment standards, or local limits.

(37) **Publicly owned treatment works or POTW.** A treatment works as defined by Section 212 of the Act, (33 U.S.C. 1292). This definition includes any sewers that convey wastewater to such a treatment works, and any devices and systems used in the storage, treatment, recycling and

reclamation of municipal sewage or liquid industrial waste owned by a state or municipality but does not include pipes, sewers or other conveyances not connected to a facility providing treatment.

The term in some contexts also means the City of Chattanooga, a municipality, as defined in Section 502(4) of the Act, (33 U.S.C. 1362) which has jurisdiction over the indirect discharges and the discharges from such a treatment works.

(38) **Reclaimed water.** Water which, as a result of treatment of waste, is suitable for direct beneficial uses or a controlled use that would not occur otherwise.

(39) **Significant Industrial User.** This term shall mean:

(A) All dischargers subject to categorical pretreatment standards under 40 CFR 403.6 and 40 CFR Chapter 1, subchapter N; or

(B) All noncategorical dischargers that contribute more than ten thousand three hundred seventy-one (10,371) pounds per day of BOD, or more than ten thousand six hundred fifty-six (10,656) pounds per day of total suspended solids, or more than seven hundred (700) pounds per day of ammonia nitrogen, or more than twenty-five thousand (25,000) gallons per day of process wastewater to the POTW; or

(C) All noncategorical dischargers that, in the opinion of the director, have a reasonable potential to adversely affect the POTW's operation or violate any pretreatment standard requirements. This shall include but shall not be limited to all centralized waste treatment discharges, all tank and drum cleaning facilities, and all paint manufacturing facilities; or

(D) All noncategorical discharges that contain more than one hundred (100) pounds per day of combined BOD and total suspended solids load above that level found in "normal wastewater", or that contain more than one thousand (1,000) pounds in a month of combined BOD and total suspended solids load above that level found in normal wastewater.

(40) **Slug loading or slug discharge.** Any discharge at a flow rate or concentration which could cause a violation of the prohibited discharge standards in Section 31-51(b) of this article. A slug discharge is any discharge of a nonroutine, episodic nature, including but not limited to, an accidental spill or a noncustomary batch discharge, which has a reasonable potential to cause or pass-through, or in any other way violate the POTW's local limits or permit conditions.

(41) **Standard industrial classification.** A classification pursuant to the Standard Industrial Classification Manual issued by the Executive Office of the President, Office of Management and Budget, 1972.

(42) **Director.** The person designated by the city to supervise the operation of the publicly owned treatment works and the interceptor sewer system and who is charged with certain duties and responsibilities by this article, or his duly authorized representative, or in his absence or inability to act the person then in actual charge of said system.

(43) **Toxic pollutant.** Any pollutant or combination of pollutants listed as toxic in 40 CFR Part 401 promulgated by the Administrator of the Environmental Protection Agency under the provisions of 33 U.S.C. 1317.

(44) **Wastewater Collection and Transmission System (WCTS):** The WCTS is the wastewater collection, retention, and transmission systems, including all gravity sewer lines, force mains, pump stations, manholes, and other related appurtenances designed to collect and convey domestic, commercial, industrial wastewaters and combined sewer to the Waste Water Treatment Plant or Combined Sewer Overflow Treatment Facilities.

(45) **Twenty-four (24) hour, flow proportional composite sample.** A sample consisting of several effluent portions collected during a twenty-four (24) hour period in which the portions of sample are proportionate to the flow and combined to form a representative sample.

(46) **Unpolluted water.** Water to which no constituent has been added, either intentionally or accidentally, which would render such water unacceptable to the State of Tennessee or the Environmental Protection Agency having jurisdiction thereof for disposal to storm or natural drainage, or directly to surface waters.

(47) **User.** Any person, firm, corporation or governmental entity that discharges, causes or permits the discharge of wastewater into a community sewer, whether intentional or unintentional, and whether direct or indirect.

(48) **Waste.** Includes sewage and any and all other waste substances, liquid, solid, gaseous or radioactive, associated with human habitation, or of human or animal origin, or from any producing, manufacturing or processing operation of whatever nature, including such waste placed within containers of whatever nature prior to, and for purposes of, disposal.

(49) **Wastewater.** Waste and water, whether treated or untreated, discharged into or permitted to enter a community sewer.

(50) **Wastewater constituents and characteristics.** The individual chemical,, physical, bacteriological and radiological parameters, including toxicity, volume and flow rate and such other parameters that serve to define, classify or measure the contents, quality, quantity and strength of wastewater.

(51) **Waters of the State of Tennessee.** Any water, surface or underground, within the boundaries of the state.

(c) *Abbreviations.* The following abbreviations shall have the following meanings:

(1) BAT — Best Available Technology.

(2) BPT — Best Practical Technology.

(3) BPJ — Best Professional Judgment.

A) BOD — Biochemical oxygen demand.

B) BOD5 — Biochemical oxygen demand (5 day).

(4) CFR — Code of Federal Regulations.

(5) CWA — Clean Water Act.

(6) CWT — Centralized Waste Treatment Facility.

(7) EPA — Environmental Protection Agency.

(8) GMP — Good Management Practices.

(9) ISS — Interceptor Sewer System.

(10) L — Liter.

(11) MBAS — Methylene-blue-active substances.

(12) mg — Milligrams.

(13) mg/l — Milligrams per liter.

(14) NPDES — National Pollutant Discharge Elimination System.

(15) POTW - Publicly Owned Treatment Works.

(16) RCRA — Resource Conservation and Recovery Act.

(17) SIC — Standard Industrial Classification.

(18) SWDA — Solid Waste Disposal Act, 42 U.S.C. 6901, et seq.

(19) TSS — Total Suspended Non-filterable Solids.

(20) USC — United States Code.

(21) BMP — Best Management Practices.

(Ord. No. 9409, § 2, 6-5-90; Ord. No. 12428, § 1, 8-31-10; Ord. No. 12962, §§ 1, 4, 6-16-15; Ord. No. 13172, §§ 2, 3, 4-18-17)

DIVISION 2. PRETREATMENT STANDARDS

Sec. 31-51. Prohibitions and limitations on discharge into the Publicly Owned treatment works.

(a) *Purpose and policy.* This section establishes limitations and prohibitions on the quantity and quality of wastewater which may be lawfully discharged into the publicly owned treatment works. Pretreatment of some wastewater discharges will be required to achieve the goals established by this article and the Clean Water Act. The specific limitations set forth in Paragraph (i) hereof, and other prohibitions and limitations of this article, are subject to change as necessary to enable the city to provide efficient wastewater treatment, to protect the public health and the environment, and to enable the city to meet requirements contained in its NPDES permit. The director shall review said limitations from time to time to insure that they are sufficient to protect the operation of the treatment works, the health and safety of ISS personnel, to enable the treatment works to comply with its NPDES permit, to provide for a cost effective means of operating the treatment works, and to protect the public health and the environment. The director shall recommend changes or modifications as necessary.

(b) *Prohibited pollutants.* No person shall introduce into the publicly owned treatment works any pollutant(s) which cause pass through or interference. Additionally, the following specific prohibitions apply:

(1) Pollutants which create a fire or explosion hazard in the POTW,, including, but not limited to, pollutants with a closed cup flashpoint of less than 140 degrees Fahrenheit (sixty degrees (60°) Centigrade), as determined by a Pensky-Martens Closed Cup Tester, using the test method specified in the American Society for Testing and Materials (ASTM) standard D-93-79 or D-93-80k or a Setaflash Closed Cup Tester, using the test method specified in ASTM Standard D-3278-78 and pollutants which cause an exceedance of ten percent (10%) of the lower explosive limit (LEL) at any point within the POTW;

(2) Pollutants which cause corrosive structural damage to the POTW, but in no case discharges with a pH lower than five (5.0) or higher than ten and one-half (10.5);

(3) Solid or viscous pollutants in amounts which cause obstruction to the flow of the sewers, or other interference with the operation of or which cause injury to the POTW; including waxy or other materials which tend to coat and clog a sewer line or other appurtenances thereto;

(4) Any pollutant, including oxygen demanding pollutants (BOD, etc.), released in a discharge (slug) of such volume or strength as to cause interference in the POTW or individual unit operations or cause adverse effects on its workers or the environment;

(5) Heat in amounts which will inhibit biological activity in the POTW resulting in interference, but in no case heat in such quantities that the temperature at the treatment works influent exceed forty degrees (40°) Centigrade (one hundred four degrees (104°) Fahrenheit). Unless a higher

temperature is allowed in the user's wastewater discharge permit, no user shall discharge into any sewer line or other appurtenance of the POTW wastewater with a temperature exceeding sixty-three and one-half degrees (63.50°) Centigrade (one hundred fifty degrees (150°) Fahrenheit).

(6) Petroleum oil, non-biodegradable cutting oil, or products of mineral oil origin in amounts that will cause interference or pass through.

(7) Pollutants which result in the presence of toxic gases, vapors, or fumes within the POTW in a quantity that may cause acute worker's health and safety problems.

(8) Any trucked or hauled pollutants, except at discharge points designated by the POTW.

(9) Noxious or malodorous liquids, gases, solids, or other wastewater which, either singly or by interaction with other wastes, is sufficient to create a public nuisance or a hazard to life, or to prevent entry into the sewers for maintenance or repair.

(10) Wastewater which imparts color that cannot be removed by the treatment process, such as dye wastes and tanning solutions, and consequently imparts color to the treatment plant's effluent, thereby violating the City's NPDES permit.

(11) Stormwater, surface water, ground water, roof runoff, subsurface drainage, condensate, noncontact cooling water, and unpolluted wastewater, unless specifically authorized by the director.

(12) Sludges, screenings, or other residues from the pretreatment of industrial wastes.

(13) Medical wastes, unless specifically authorized by the director.

(14) Wastewater which, alone or in conjunction with other wastes, causes the treatment plant's effluent to fail toxicity testing.

(15) Detergents, surface active agents, or other substances that cause excessive foaming at the POTW.

(c) *Affirmative Defenses.* A user shall have an affirmative defense in any action brought against it alleging a violation of the general prohibitions established in paragraph (b) of this section and the specific prohibitions in paragraphs (b)(3), (4), and (5) of this section where the user can demonstrate that:

(1) It did not know or have reason to know that its discharge, alone or in conjunction with a discharge or discharges from other sources, would cause pass through or interference; and

(2) (A) A local limit designed to prevent pass through and/or interference, as the case may be, was developed pursuant to Section 31-51(i) and (j) for each pollutant in the user's discharge that caused pass through or interference, and the user was in compliance with each such local limit directly prior to and during the pass through or interference; or

(B) If a local limit designed to prevent pass through and/or interference, as the case may be, has not been developed for the pollutant(s) that caused the pass through or interference, and the user's discharge directly prior to and during the pass through or interference did not change substantially in nature of constituents from the user's prior discharge activity when the POTW was regularly in compliance with the POTW's NPDES permit requirements and, in the case of interference, applicable requirements for sewage sludge use or disposal.

(d) *Wastewater Constituent Evaluation.* The wastewater of every industrial user shall be evaluated using the following criteria:

(1) Wastewater containing any element or compound which is not adequately removed by the treatment works which is known to be an environmental hazard;

(2) Wastewater causing a pass through, discoloration, foam, floating oil or grease, or any other condition in the quality of the city's treatment works' effluent such that receiving water quality requirements established by law cannot be met;

(3) Wastewater causing conditions at or near the city's treatment works which violate any statute, any rule, or regulation, of any public agency of this state or the United States;

(4) Wastewater containing any element or compound known to act as a lacrimator, known to cause nausea, or known to cause odors constituting a public nuisance;

(5) Wastewater causing interference with the effluent or any other product of the treatment process, residues, sludges, or scums causing them to be unsuitable for reclamation, reuse, causing interference with the reclamation process, or causing them to be unsuitable for disposal;

(6) Wastewater discharged at a point in the collection system that is upstream of any overflow, bypass, or combined sewer overflow and which may thereby cause special environmental problems or specific discharge limitations;

(7) Wastewater having constituents and concentrations in excess of those listed in section 31-51(i), or cause a violation of the limits in section 31-51(j).

(8) The capacity of existing sewer lines to carry the anticipated wastewater flow, particularly with respect to any problems, overflows, or overloads caused by heavy rain infiltration.

(9) The toxicity of each wastewater shall be evaluated by an appropriate biomonitoring technique to determine if a specific discharge may significantly affect the overall toxic level of the POTW influent.

The director or the Board, as applicable, shall establish reasonable limitations or prohibitions or monitoring requirements in addition to the limits established pursuant to Section 31-51(e) and (i) in the wastewater discharge permit of any industrial user that discharges wastewater violating any of the above criteria or that has processes that generate wastewater that could violate any of the above criteria prior to pretreatment as shall be reasonably necessary to achieve the purpose and policy of this article.

(e) *National Pretreatment Standards.* Certain industrial users are now or hereafter shall become subject to National Pretreatment Standards promulgated by the Environmental Protection Agency specifying quantities or concentrations of pollutants or pollutant properties which may be discharged into the POTW. All industrial users subject to a National Pretreatment Standard shall comply with all requirements of such standard, and shall also comply with any additional or more stringent limitations contained in this article. Compliance with National Pretreatment Standards for existing sources subject to such standards or for existing sources which hereafter become subject to such standards shall be within three (3) years following promulgation of the standards unless a shorter compliance time is specified in the standard. Compliance with National Pretreatment Standards for new sources shall be required upon promulgation of the standard. New sources shall install and have in operating condition, and shall "start-up" all pollution control equipment required to meet applicable pretreatment standards before beginning to discharge. Within the shortest feasible time (not to exceed ninety (90) days), new sources must meet all applicable pretreatment standards. Except where expressly authorized by an applicable National Pretreatment Standard, no industrial user shall increase the use of process water or in any way attempt to dilute a discharge as a partial or complete substitution for adequate treatment to achieve compliance with such standard.

(f) *Limitation on Radioactive Waste.* No person shall discharge or permit to be discharged any radioactive waste into a community sewer except:

(1) When the person is authorized to use radioactive materials by the Tennessee Department of Health and Environment or the Nuclear Regulatory Commission;

(2) When the waste is discharged in strict conformity with applicable laws and regulations of the aforementioned agencies, or any other agency having jurisdiction; and

(3) When a copy of permits received from said regulatory agencies have been filed with the director.

(g) *Septic Tank Pumping, Hauling, and Discharge.* No person owning vacuum or "cess pool" pump trucks or other liquid waste transport trucks shall discharge directly or indirectly such sewage into the POTW, unless such person shall first have applied for and received a truck discharge operation permit from the director for each vehicle used in this manner. All applicants for a truck discharge operation permit shall complete such forms as required by the director, pay appropriate fees, and agree in writing to abide by the provisions of this chapter and any special conditions or regulations established by the director.

(1) The owners of such vehicles shall affix and display the permit number in four (4) inch block figures on the side of each vehicle used for such purposes.

(2) Such permit shall be valid for a period of one (1) year from date of issuance; provided that such permit shall be subject to suspension or revocation by the director for violation of any provisions of this code, regulations as established by the director, or any other applicable law or regulations. A revocation or suspension of such a permit shall be for a period of time not to exceed five (5) years. Such revocation or suspension shall bind the permittee, any member of the immediate family of the permittee, or any person who has purchased the business or a substantial amount of the assets of the permittee who paid less than fair market value for such business or assets. Users found operating in violation of a permit issued under this subsection and whose permit is therefore revoked by the director, shall be notified by certified mailing or notice shall personally be delivered to the user.

(3) Truck discharge operation permits are not automatically renewed. Application for renewal must be made to the director.

(4) Such permits shall be limited to the discharge of domestic sewage waste containing no industrial waste. All other hauled wastes shall be governed by paragraph (h) of this section. Any user transporting, collecting, or discharging non-domestic industrial process wastewaters, or a mixture of such wastewaters with domestic wastewater shall obtain a holding tank discharge permit in accordance with paragraph (h).

(5) The director shall designate the locations and times where such trucks may be discharged, and may refuse to accept any truckload of waste in his absolute discretion where it appears that the waste could interfere with the effective operation of the treatment works or any sewer line or appurtenance thereto, or where it appears that a truckload of waste contains industrial process waste or a mixture of domestic sewage and industrial process waste.

(6) The director shall have authority to investigate the source of any hauled waste and to require testing of the waste at the expense of the discharger prior to discharge.

(h) *Other Holding Tank Waste.* No user shall discharge any other holding tank wastes including hauled industrial waste into the POTW unless he shall have applied for and have been issued a 'holding tank discharge permit' by the director. Unless otherwise allowed under the terms and conditions of the permit, a separate permit must be secured for each separate discharge. All applicants for a holding tank discharge permit shall complete such forms as required by the director, pay appropriate fees, and agree in writing to abide by the provisions of this chapter and any special conditions or regulations established by the director. All such dischargers and transporters must show that they have complied with federal manifests and other regulations under RCRA. The permit shall state the specific location of the discharge, the time of day the discharge is to occur, the volume of the discharge, the source and character of such waste, and shall limit the wastewater constituents and characteristics of the discharge. Such user shall pay any applicable charges or fees therefore, and shall comply with the conditions of the permit issued by the director; provided, however, the director may waive in his discretion the completion of an application and for the payment of fees for the requirement for discharge of domestic waste from a recreational vehicle holding tank.

(i) *Limitations on Wastewater Strength (Local Limits).* A table containing numeric pollutant concentrations (referred to as local limits) shall be developed by the director for approval and adoption by the Wastewater Regulations and Appeals Board to regulate the discharge of pollutants to the sewer system. This table may be revised from time to time as necessary to implement the plant protection criteria set forth in Section 31-51(j). No user shall discharge wastewater with pollutant concentrations in excess of the concentration set forth in said table unless:

(1) An exception has been granted the user under the provisions of Section 31-52; or

(2) The wastewater discharge permit of the user provides as a special permit condition a higher interim concentration level in conjunction with a requirement that the user construct a pretreatment facility or institute changes in operation and maintenance procedures to reduce the concentration of pollutants to levels not exceeding the standards set forth in the table within a fixed period of time.

Maximum Concentration mg/l (24 Hour Flow Proportional Pollutant	*Maximum Instantaneous Concentration mg/l Composite Sample)*	*(Grab Sample)*
Cadmium (Cd)	1.0	2.0
Chromium (Cr)	5.0	10.0
Copper (Cu)	5.0	10.0
Cyanide (CN)	2.0	4.0
Lead (Pb)	1.5	3.0
Mercury (Hg)	0.1	0.2
Nickel (Ni)	5.0	10.0
Silver (Ag - free ionic)	1.0	2.0
Zinc (Zn)	5.0	10.0
pH		5—10.5 Standard units

NOTE: All measurements for the above-listed pollutants are in the total form except for silver.

(j) *Criteria to Protect the Treatment Plant Influent.* A table containing numeric pollutant concentrations (referred to as plant protection criteria) shall be developed by the director for approval and adoption by the Wastewater Regulations and Appeals Board to protect the treatment plant from pass-through of pollutants, to protect the quality of the sludge produced by the treatment plant, and to prevent inhibition of treatment plant processes. This table may be revised from time to time as necessary to accomplish these objectives. The director shall monitor the treatment works influent for each pollutant in said table. Industrial users shall be subject to the reporting and monitoring requirements set forth in Section 31-53 and Section 31-54 as to these pollutants. In the event that the influent at the treatment works reaches or exceeds the levels established by said table, the director shall initiate technical studies to determine the cause of the influent violation, and shall recommend such remedial measures as are necessary, including but not limited to recommending the establishment of new or revised pretreatment levels for these pollutants. The director shall also recommend changes to any of these criteria in the event the POTW effluent standards are changed, there are changes in any applicable law or regulation affecting same, or when changes are needed for more effective operation of the POTW.

Monthly Average Pollutant	Maximum Concentration (mg/l)
Copper (Cu)	0.40
Chromium (Cr)	0.47

Nickel (Ni)	0.35
Cadmium (Cd)	0.01
Lead (Pb)	0.10
Mercury (Hg)	0.015
Silver (Ag-free ionic)	0.036
Zinc (Zn)	0.80
Cyanide (CN)	0.05
Toluene	0.115
Benzene	0.015
1,1,1-Trichloroethane	0.167
Ethylbenzene	0.031
Carbon tetrachloride	0.015
Chloroform	0.193
Tetrachloroethylene	0.278
Trichloroethylene	0.077
1,2 Transdichloroethylene	0.150
Methylene chloride	0.111
Phenols	0.555
Naphthalene	0.011
Bis (2-ethyl hexyl) phthalate	0.064
Butyl benzyl phthalate	
Di-n-butyl phthalate	
Diethyl phthalate	
Chromium - Hexavalent (Cr+6)	0.02
Iron (Fe)	6.7
Manganese (Mn)	0.33
Total Kjeldahl Nitrogen (TKN)	30.0
Oil & Grease	*
MBAS	*
Total Dissolved Solids	2,500
BOD	207,420 lb/day
Suspended Solids	213,137 lb/day
Ammonia Nitrogen	14,000 lb/day
Ph	6—9 standard units
Lower Explosion Limit	10%

NOTE: All measurements for these pollutants are for the total form except as noted.

*No limit established for plant protection, however monitoring will be required to provide numerical correlation with NPDES conditions.

(k) *Pretreatment Requirements.* Industrial users of the POTW shall design, construct, operate, and maintain wastewater pretreatment facilities whenever necessary to reduce or modify the user's wastewater composition to achieve compliance with the limitations in wastewater strength set forth in paragraph (i) of this section, to meet applicable National Pretreatment Standards, to prevent slug discharge or to meet any other wastewater condition or limitation contained in the industrial user's wastewater discharge permit.

(l) *Plans and Specifications.* Plans and specifications for such wastewater pretreatment facilities shall be prepared, signed, dated, and sealed by a professional engineer licensed in the State where the work is to be permitted, and shall be submitted to the director for review in accordance with accepted engineering practices. The director shall review said plans within forty-five (45) days and shall recommend to the industrial user any appropriate changes. Prior to beginning construction of said pretreatment facility, the user shall submit a set of construction plans and specifications to be maintained by the director. Prior to beginning construction the industrial user shall also secure such building, plumbing, or other permits that may be required by other parts of this code. The industrial user shall construct said pretreatment facility within the time provided in the industrial user's wastewater discharge permit. Following completion of construction the industrial user shall provide the director with "as built" drawings to be maintained by the director.

(m) *Prevention of Accidental Discharges.* All users shall provide such facilities and institute such procedures as are reasonably necessary to prevent or minimize the potential for accidental discharge into the POTW of waste regulated by this article from liquid or raw material storage areas, from truck and rail car loading and unloading areas, from inplant transfer or processing and materials handling areas, and from diked areas or holding ponds of any waste regulated by this article. The wastewater discharge permit of any industrial user who has a history of significant leaks, spills or other accidental discharge of waste regulated by this article shall be subject on a case-by-case basis to a special permit condition or requirement for the construction of facilities or establishment of procedures which will prevent or minimize the potential for such accidental discharge. Plans,, specifications, and operating procedures for such special permit conditions shall be developed by the user and submitted to the director for review under the provisions of paragraph (k) and (l) of this section.

(n) Reserved.

(o) *Slug Discharge Control Program.*

(1) Each industrial user shall provide protection from slug loadings and slug discharges, as defined in Section 31-50(b)(46) of this Ordinance. The director will evaluate each Significant Industrial User (SIU) for the need to prepare a plan to control slug discharges within twelve (12) months of commencing discharge, or for existing Significant Industrial Users, at least once by October 14, 2006. No user who commences discharge to the sewerage system after July 1, 1990 shall be permitted to introduce pollutants into the system until the need for slug discharge control plans or procedures has been evaluated by the director.

(2) Certain users will be required to prepare Slug Discharge Prevention and Contingency Plans (SDPC) showing facilities and operating procedures to provide this protection. These plans shall be submitted to the director for review and approval. All existing users required to have SDPC Plans shall submit such a plan within three (3) months after notification from the director and complete implementation within six (6) months. Review and approval of such plans and operating procedures shall not relieve the user from the responsibility to modify the user's facility as necessary to meet the requirements of this article.

An SDPC Plan shall address, as a minimum, the following:

(A) Description of discharge practices, including non-routine batch discharges;

(B) Description of stored chemicals;

(C) Procedures for immediately notifying the director of any accidental or slug discharge, as required by subparagraph (o)(3) of this section.; and

(D) If necessary, procedures to prevent adverse impact from any accidental or slug discharge. Such procedures include, but are not limited to, inspection and maintenance of storage areas, handling and transfer of materials, loading and unloading operations,

control of plant site runoff, worker training, building of containment structures or equipment, measures for containing toxic organic pollutants, including solvents, and/or measures and equipment for emergency response.

(3) In the case of a slug discharge, it is the responsibility of the user to immediately by telephone or in person notify the POTW of the incident. The notification shall include location of discharge, type of waste, concentration and volume, and corrective action.

Within five (5) days following a slug discharge, the user shall submit a detailed written report describing the cause of the discharge and the measures being taken by the user to prevent similar future occurrences. Such notification shall not relieve the user of any expense, loss, damage, or other liability which may be incurred as a result of damage to the sewerage system, fish kills, or any other damage to person or property, nor shall notification relieve the user of any fines, civil penalties, or other liability which may be imposed by the article or other applicable law.

(4) A notice shall be permanently posted on the user's premises advising employees who to call in the event of a slug discharge. The user shall ensure that all employees who may cause, or allow such slug discharge to occur, are advised of the emergency notification procedure.

(5) Each Significant Industrial User shall immediately notify the director of any changes at its facility affecting the potential for a slug discharge.

(p) *Centralized Waste Treatment Facilities.* The director shall establish effluent limits for centralized waste treatment facilities to ensure that the level of pollution discharged from the CWT through the POTW to the environment will not exceed the level that would be allowed if the CWT discharged directly to surface waters under Section 301(b)(2) of the Act (33 U.S.C. § 1311). Additionally, centralized waste treatment facilities shall maintain records and submit reports as directed by the director regarding the SIC codes of their customers, and the frequency, characteristics, and volume of wastes from the various categories.

(q) *Dilution.* No user shall ever increase the use of process water, or in any way attempt to dilute a discharge, as a partial or complete substitute for adequate treatment to achieve compliance with a discharge limitation unless expressly authorized by an applicable pretreatment standard or requirement. The director may impose mass limitations on users which are using dilution to meet applicable pretreatment standards or requirements or in other cases when the imposition of mass limits is appropriate.

(r) *Net/Gross Calculation.* Categorical pretreatment standards may be adjusted to reflect the presence of pollutants in the industrial user's intake water in accordance with this section. Any industrial user wishing to obtain credit for intake pollutants must make application to the City. Upon request of the industrial user, the applicable standard will be calculated on a "net" basis (i.e., adjusted to reflect credit for pollutants in the intake water) if the following criteria are met:

(1) Either:

(A) The applicable categorical pretreatment standards contained in 40 CFR Subchapter N specifically provide that they will be applied on a new basis; or

(B) The industrial user demonstrates that the control system it proposes or uses to meet applicable categorical pretreatment standards would, if properly installed and operated, meet the standards in the absence of pollutants in the intake waters.

(2) Credit for generic pollutants such as biochemical oxygen demand (BOD), total suspended solids (TSS), and oil and grease will not be granted unless the industrial user demonstrates that the constituents measured in the user's effluent are substantially similar to the constituents in the intake water or unless appropriate additional limits are placed on the process water pollutants either at the outfall or elsewhere.

(3) Credit will be granted only to the extent necessary to meet the applicable categorical pretreatment standards, up to a maximum value equal to the influent value. Additional monitoring may be necessary to determine eligibility for credits and compliance with standards adjusted under this section.

(4) Credit will be granted only if the user demonstrates that the intake water is drawn from the same body of water as that into which the POTW discharges. The City may waive this requirement if he/she finds that no environmental degradation will result.

(s) *Combined waste stream formula.* Where process wastewater subject to a categorical pretreatment standard is mixed with wastewaters other than those generated by the regulated process, alternative discharge limits shall be derived by the City, or by the industrial user with the consent of the City. The alternative limits shall be applied to the mixed effluent. When deriving alternative categorical limits, the City or industrial user shall calculate both an alternative daily maximum value using the maximum value(s) specified in the appropriate categorical pretreatment standard(s) and an alternative consecutive sampling day average value using the monthly average value(s) specified in the appropriate categorical pretreatment standard(s). The industrial user shall comply with the alternative daily maximum and monthly average limits fixed by the City until the City modifies the limits or approves an industrial user's modification request. Modification is authorized whenever there is a material or significant change in the values used in the calculation to fix alternative limits for the regulated pollutant. An industrial user must immediately report any such material or significant change to the director.

(1) Alternative limit calculation. Alternative limits shall be calculated using the formula and instructions in 40 CFR 403.6(e).

(2) Alternative limits below detection limit. An alternative pretreatment limit may not be used if the alternative limit is below the analytical detection limit of any regulated pollutants.

(3) Choice of monitoring location. Where a regulated process waste stream is combined prior to treatment with wastewaters other than those generated by the regulated process, the industrial user may monitor either the segregated process waste stream or the combined waste stream for the purpose of determining compliance with the applicable pretreatment standards. If the industrial user chooses to monitor the segregated process waste stream, it shall apply the applicable categorical pretreatment standard. If the user chooses to monitor the combined waste stream, it shall apply the alternative discharge limit calculated using the combined waste stream formula as described in this section. The industrial user may change monitoring locations only after receiving prior approval from the City. The industrial user may not use dilution as a substitute for adequate treatment to achieve compliance with applicable standards.

(Ord. No. 9409, § 2, 6-5-90; Ord. No. 12428, § 2, 8-31-10; Ord. No. 12962, §§ 2, 4, 6-16-15; Ord. No. 13172, §§ 4, 5, 4-18-17)

Sec. 31-51.01. Fats, Oils and Grease (FOG) Management Program.

Fats, Oils and Grease (FOG) Management Program. Disposal of "oil" by discharge to the sewer system is not permitted. Oils include automotive lubricating oils, transmission and brake fluid, other industrial oils and vegetable oils used in a restaurant or food processing facility.

(1) The Fats, Oils and Grease (FOG) Management Program is hereby adopted as the official management program for FOGs pursuant to the April 24, 2013 Consent Decree signed by Judge Curtis Collier, United States Federal Court for the Eastern District of Tennessee, Southern Division. The provisions of such FOG Management Program shall be in full force and effect to the same extent as if such provisions were copied verbatim herein.

(2) The following appendices to the FOG Management Program are hereby adopted as part of the official FOG Management Program:

A. Waste Resources Division Organization Charts.

B. FOG Management Standard Operating Procedures.

C. Food Service Establishment Grease Control Inspection Form.

D. Grease Control Noncompliance Notification Form.

E. City of Chattanooga's Fats, Oils & Grease (FOG) Management Enforcement Response Guide.

F. City of Chattanooga Specifications for Grease Interceptors.

G. City of Chattanooga Specifications for Grease Traps.

H. FSE Good Cleaning Practices Posters.

I. FOG Brochure.

(Ord. No. 12962, § 2, 6-16-15)

Sec. 31-51.02. FOG Program violations and penalties.

a. Definitions.

(1) **Administrative Penalties.** An administrative penalty is a monetary penalty assessed by the Director or his designee for violations of pretreatment standards and requirements. Administrative penalties are to be used as an escalated enforcement action and are punitive in nature and are not related to a specific cost born by the Director or his designee. Instead, the amount of the penalty should recapture any economic benefit gained by noncompliance and/or deter future violations. An Administrative Order is to be used to assess an administrative penalty.

(2) **Administrative Orders (AO).** Administrative Orders are to be issued by the Director or the Director's designee. Administrative Orders are enforcement documents that direct users to undertake and/or to cease specified activities. Administrative Orders are to be used as the first formal response to significant noncompliance, and may incorporate compliance schedules, administrative penalties, assessments for costs incurred during investigation and/or enforcement, attorney's fees, assessments for damages and termination of service. The Department has adopted four (4) general types of AOs: Compliance Orders, Show Cause Orders, Cease and Desist Orders, and Agreed Orders:

(a) **Compliance Order.** A Compliance Order directs the User to achieve or restore compliance by a specified date and is the primary means of assessing penalties and costs. The Compliance Order will document the noncompliance and state required actions to be accomplished by specific dates and is issued by the Director or his designee.

(b) **Show Cause Order.** An Order to Show Cause directs the User to appear before the Director or his designee, explain its noncompliance, and show cause why more severe enforcement action should not be pursued. The Order to Show Cause shall include the nature of the violation with sufficient specificity as to the character of the violation, and the date(s) on which such violation(s) occurred to enable the user to prepare a defense. Such Order to Show Cause shall be mailed to the user by certified mail, return receipt requested, or shall be personally delivered to the user at least twenty (20) days prior to the proposed action except in the event of an emergency. At the show cause hearing, the user may present any defense he may have to such charges, either in person or through submission of written or documentary proof. The hearing is open to the public and may be formal (i.e. conducted according to the rules of evidence, with verbatim transcripts and cross examination of

witnesses) or informal. The results of all hearings, along with any data and testimony (recorded by tape machine or stenographer) submitted as evidence, are available to the public and may serve as evidentiary support for future enforcement actions.

(c) **Cease and Desist Order.** A Cease and Desist Order directs the noncompliant User to cease illegal or unauthorized discharge immediately or to terminate discharge altogether. To preserve the usefulness of this order in emergency situations, penalties should not be assessed in this document. A Cease and Desist Order will be used in situations where the discharge is causing interference, pass through, environmental harm, or otherwise creating an emergency situation. The order may be issued immediately upon discovery of an emergency situation or following a hearing. In an emergency, the order to cease and desist may be given by telephone with a subsequent written order to be served by the Director or his designee before the close of business on the next working day. If the User fails to comply with the order, the Director or his designee may take independent action to halt the discharge.

(d) **Agreed Order.** The Agreed Order is an agreement between the Department and the User. The Agreed Order normally contains three elements: (1) compliance schedules with specific milestone dates; (2) stipulated penalties, damages, and/or remedial actions; and (3) signature by the Director and the User representative. An Agreed Order is appropriate when the User assumes the responsibility for its noncompliance and is willing (in good faith) to correct the causes.

(3) **Noncompliance Notification (NCN).** The Noncompliance Notification (NCN) is a notification to the user that a practice, an action, or wastewater discharge is noncompliant with Department regulations or policies. A NCN informs the user that an action is required of the user within a specified time period designated by the Director, or their designee, or the noncompliance will require the Director to escalate enforcement action against the user.

(4) **Notice of Violation (NOV).** The Notice of Violation (NOV) is an official communication from the Director to the noncompliant user that informs the user that the pretreatment violation has occurred. The NOV is issued for relatively minor or infrequent violations of pretreatment standards and requirements and should be issued within five (5) working days of the identification of a violation. A NOV does not contain assessment of penalties or cost recovery. The NOV provides the user with an opportunity to correct the noncompliance on its own initiative rather than according to a

schedule of actions determined by the Director. The NOV documents the initial attempts of the Department to resolve the noncompliance. Authenticated copies of NOV's may serve as evidence in judicial proceedings.

(5) **Schedule of Compliance.** A Schedule of Compliance is a detailed list of steps to be taken by a noncompliant user whereby compliance with all pretreatment regulations will be achieved. This schedule shall contain increments of progress in the form of dates for the commencement and completion of major events leading to the construction and operation of additional pretreatment required for the User to meet the applicable Pretreatment Standards (e.g. hiring an engineer, completing preliminary plans, executing contracts for components, commencing construction, etc.).

(6) **Significant Noncompliance.** Violations that meet one (1) or more of the following criteria:

(a) Chronic violations of wastewater discharge limits, defined here as those in which sixty-six (66) percent or more of all of measurements taken during a six (6) month period exceed (by any magnitude) the daily maximum limit or the average limit for the same pollutant parameter;

(b) Technical Review Criteria (TRC) violations, defined here as those in which thirty three (33) percent or more of all of the measurements for each pollutant parameter taken during a six (6) month period equal or exceed the product of the daily average maximum limit, or the average limit multiplied by the applicable TRC (TRC = 1.4 for Biochemical Oxygen Demand 5 (BOD5), Total Suspended Solids (TSS), and Fats, Oil, and Grease (FOG), and 1.2 for all other pollutants except pH). The following compatible pollutants are exempt from TRC consideration if they exceed the surcharge level but do not exceed upper ceiling: BOD, TSS, and/or FOG;

(c) Any other violations of a pretreatment effluent limit (daily maximum or long term average) that the Control Authority determines has caused, alone or in combination with other discharges, interference or pass through (including endangered the health of Publicly Owned Treatment Works (POTW) personnel or the general public);

(d) Any discharge of a pollutant that has caused imminent endangerment to human health, welfare or to the environment or has resulted in the POTW's exercise of its emergency authority to halt or prevent such a discharge;

(e) Failure to meet within ninety (90) days after the schedule date compliance schedule milestones contained in a local control mechanism or enforcement order for starting construction, completing construction, and attaining final compliance;

(f) Failure to provide, within thirty (30) days after the due date, required reports, such as baseline monitoring reports, ninety (90) day compliance reports, periodic self-monitoring reports, and reports on compliance with compliance schedules;

(g) Failure to accurately report noncompliance; and

(h) Any other violation or group of violations that the Control Authority determines will adversely affect the operation or implementation of the local pretreatment program.

b. Penalty Assessment. The City of Chattanooga has categorized the various types of violations, and assigned a penalty range to each category. Penalty categories are determined by using the Enforcement Response Guide. All penalty assessments will be approved and signed by the Director or the Director's designee. Penalty amounts determined are considered to be an economic deterrent to the noncompliance being addressed. Penalty ranges have been designed to recover any economic benefit gained by the violation through noncompliance.

CATEGORY 0	=	NO PENALTY
CATEGORY 1	=	$200.00 TO $500.00
CATEGORY 2	=	$500.00 TO $1,000.00
CATEGORY 3	=	$1,000.00 TO $10,000.00
CATEGORY 4	=	DIRECT LEGAL ACTION*

Any penalties and/or costs at the maximum penalty allowable by.

Assessments for damages or destruction of the facilities of the POTW, and any penalties, costs, and attorney's fees incurred by the pretreatment agency as the result of the illegal activity, as well as the expenses involved in enforcement, are not part of this penalty assessment procedure.

City of Chattanooga's Food Service Establishment Enforcement Response Guide

Incident	Category Level	Action Taken
1. Grease Interceptor structural failure (baffle wall collapsed, walls deteriorated, tank leaking, infiltration/ inflow in tank).		
A. Initial Notification.	0	NCN detailing violation and requiring correction within 30 days.
B. Second Notification — Failure to comply with NCN.	2	NOV requiring compliance within 30 additional days. Penalties may be assessed.
C. Third Notification — Failure to comply with NOV.	3	Significant Noncompliance. May be subject to daily penalties.
2. Failure to install Grease Control Equipment		
A. Initial Notification — Notification in writing by POTW of no treatment system.	0	NCN detailing violation and requiring correction within 30 days.
B. Second Notification — Failure to comply with NCN.	2	NOV requiring compliance within 30 additional days. Penalties may be assessed.
C. Third Notification — Failure to comply with NOV.	3	Significant Noncompliance. May be subject to daily penalties.
3. Failure of new facility, or an existing facility that upgrades their facility, to notify City, or submit *Grease Control Equipment Inquiry* Information.	0	Issue NCN and require GCE Inquiry Information.
4. Failure to install influent and/or effluent "T" on interceptor within 30 days after notification.	1	Significant Noncompliance. May be subject to penalties.

City of Chattanooga's Food Service Establishment Enforcement Response Guide

Incident	Category Level	Action Taken
5. Grease Control Equipment not maintained (pumped or cleaned) as required.		
A. 1 incident within 24 month period	0	NCN detailing noncompliance and requiring correction within 30 days
B. 2 incidents within 24 month period	1	NOV requiring compliance within 30 additional days. Penalties may be assessed.
C. 3 incidents within 24 month period	2	2nd NOV requiring compliance within 30 additional days. Penalties may be assessed.
D. 4 incidents within 24 month period	3	Significant Noncompliance. Penalties may be assessed.
6. Failure to respond to any notification letter within 30 days.		Escalation of Enforcement
7. No record of grease control equipment maintenance or cleaning at facility.		
A. 1 incident within 24 month period	0	NCN detailing noncompliance and requiring correction within 30 days.
B. 2 incidents within 24 month period	1	NOV requiring compliance within 30 additional days. Penalties may be assessed.
C. 3 incidents within 24 month period	2	2nd NOV requiring compliance within 30 additional days. Penalties may be assessed.
D. 4 incidents within 24 month period	3	Significant Noncompliance; Penalties may be assessed.
8. Failure to allow access for City personnel to adequately assess grease control equipment.		Significant Noncompliance; Penalties may be assessed.
9. Safety hazard at grease control equipment area (i.e. missing manhole cover, manhole cover damaged or not made of material of suitable strength).		Requires immediate correction.

City of Chattanooga's Food Service Establishment Enforcement Response Guide

Incident	Category Level	Action Taken
10. Facility using additives or chemicals that emulsify or otherwise cause FOG to be discharged to City of Chattanooga sewer system.		Significant Noncompliance.

Abbreviations:

AO:	Administrative Order
FOG:	Fats, Oils and Grease
FSE:	Food Service Establishment
GCE:	Grease Control Equipment
NCN:	Noncompliance Notification
NOV:	Notice of Violation
POTW:	Publicly Owned Treatment Works

c. Any person aggrieved by an order or determination of the Director or his designee may appeal to the Wastewater Regulations and Appeals Board pursuant to the requirements set forth in Sec. 31-295. A written notice of appeal must be filed with the Wastewater Regulations and Appeals Board within fifteen (15) days of the Director's order or determination.
(Ord. No. 12962, § 2, 6-16-15)

Sec. 31-52. Exception to wastewater strength standard.

(a) *Applicability.* This section provides a method for industrial users subject to the limitation on wastewater strength pollutants listed in section 31-51(i) to apply for and receive a temporary exception to the discharge level for one (1) or more pollutants or parameters.

(b) *Time of Application.* Applicants for a temporary exception shall apply for same at the time they are required to apply for a wastewater discharge permit or renewal thereof; provided, however, that the director shall allow applications at any time unless the applicant shall have submitted the same or substantially similar application within the preceding year and the same shall have been denied by the board.

(c) *Written Applications.* All applications for an exception shall be in writing, and shall contain sufficient information for evaluation of each of the factors to be considered by the director pursuant to paragraph (d) hereof.

(d) *Review by Director.* All applications for an exception shall be reviewed by the director. If the application does not contain sufficient information for complete evaluation, the director shall notify the applicant of the deficiencies and request additional information. The applicant shall have thirty (30) days following notification by the director to correct such deficiencies. This thirty (30) day period may be extended by the director upon application and for just cause shown. Upon receipt of a complete application the director shall evaluate same within thirty (30) days and shall approve or deny the application based upon the following factors:

(1) The director shall consider whether or not the applicant is subject to a national pretreatment standard containing discharge limitations more stringent than those in section 31-51 and grant an exception only if such exception may be granted within limitations of applicable federal regulations;

(2) The director shall consider whether or not the exception would apply to discharge of a substance classified as a toxic substance under regulations promulgated by the Environmental Protection Agency under the provisions of section 307(a) of the Act (33 U.S.C. 1317), or similar state regulation, and then grant an exception only if such exception may be granted with the limitations of applicable federal or state regulations;

(3) The director shall consider whether or not the granting of an exception would create conditions or be a hazard to city personnel that would reduce the effectiveness of the treatment works taking into consideration the concentration of said pollutant in the treatment works' influent and the design capability of the treatment works;

(4) The director shall consider whether or not the granting of an exception might cause the treatment works to violate the limitations in its NPDES permit;

(5) The director shall consider whether or not the granting of an exception would cause elements or compounds to be present in the sludge of the treatment works which would prevent sludge use or disposal by the city or which would cause the city to violate any regulation promulgated by EPA under the provisions of section 405 of the Act (33 U.S.C. 1345) or similar state regulatory measure;

(6) The director may consider the cost of pretreatment or other types of control techniques which would be necessary for the user to achieve effluent reduction, but prohibitive cost alone shall not be the basis for granting an exception;

(7) The director may consider the age of equipment and industrial facilities involved to the extent that such factors affect the quality or quantity of wastewater discharge;

(8) The director may consider the process employed by the user and process changes available which would affect the quality or quantity of wastewater discharge;

(9) The director may consider the engineering aspects of various types of pretreatment or other control techniques available to the user to improve the quality or quantity of wastewater discharge;

(10) The director may consider an application for exception based upon the fact that water conservation measures instituted by the user or proposed by the user result in a higher concentration of particular pollutants in the wastewater discharge of the user without increasing the amount of mass of pollutants discharged. To be eligible for an exception under this subparagraph, the applicant must show that except for water conservation measures, the applicant's discharge has been or would be in compliance with the limitations on wastewater strength set forth in section 31-51. Provided however, no such exception shall be granted if the increased concentration of pollutants in the applicant's wastewater would have significant adverse impact upon the operation of the POTW.

(e) *Review by Wastewater Regulations and Appeals Board.* The board shall review any appeal from a denial by the director of an application for an exception and shall take into account the same factors considered by the director. At such hearing, the applicant and the director shall have the right to present relevant proof by oral or documentary evidence. The procedure set forth in section 31-295 hereof shall be applicable to such a hearing. The applicant shall bear the burden of proof in such hearing.

(f) *Good Management Practices Required.* The director or the board shall not grant an exception unless the applicant shall demonstrate to the board that he is utilizing "good management practices" (GMP) to prevent or reduce his contribution of pollutants to the POTW. GMP's include but are not limited to preventative operating and maintenance procedures, schedule of activities, process changes, prohibiting activities, and other management practices to reduce the quality or quantity of effluent discharged and to control plant site runoff, spillage, leaks, and drainage from raw material storage.

(g) *Variance from Categorical Pretreatment Standards.* Industrial users subject to a categorical pretreatment standard may request a variance from the standard for fundamentally different factors from EPA or from the state director in accordance with 40 CFR 403.13.
(Ord. No. 9409, § 2, 6-5-90; Ord. No. 12428, § 3, 8-31-10; Ord. No. 12962, § 4, 6-16-15)

DIVISION 3. PERMITS AND ADMINISTRATION

Sec. 31-53. Wastewater discharge permit; discharge reports; and administration.

(a) *Applicability.* The provisions of this section are applicable to all industrial users of the POTW. The City of Chattanooga has an "Approved POTW Pretreatment Program" as that term is defined in 40 CFR Section 403.3(d), and any permits issued hereunder to industrial users who are subject to or who become subject to a "National Categorical Pretreatment Standard" as that term is defined in 40 CFR 403.3(j) shall be conditioned upon the industrial user also complying with all applicable substantive and procedural requirements promulgated by the Environmental Protection Agency or the State of Tennessee in regard to such "Categorical Standards" unless an exception for the city's program or for specific industrial categories has been authorized.

(b) *Application and Permit Requirements for Industrial Users.* All significant industrial users of the POTW prior to discharging non-domestic waste into the POTW shall apply for and obtain a wastewater discharge permit in the manner hereinafter set forth. Prior to discharge of non-domestic wastewater into the POTW, an industrial user shall request the director to determine if the proposed discharge is significant as defined in Section 31-50(b). If the discharge is determined not to be significant, then the director may still establish appropriate discharge conditions for the user. Any non-categorical industrial user designated as significant may petition the director to be deleted from the list of significant industrial users on the grounds that it has no potential for adversely affecting the POTW's operation or violating any pretreatment standard or requirement. All significant industrial users shall obtain an industrial wastewater discharge permit and shall complete such forms as required by the director, pay appropriate fees, and agree to abide by the provisions of this article and any specific conditions or regulations established by the director. All original applications shall be accompanied by a report containing the information specified in subparagraph (c) hereof. All original applications shall also include a site plan, floor plan, mechanical and plumbing plans with sufficient detail to show all sewers and appurtenances in the user's premises by size, location, and elevation; and the industrial user shall submit to the director revised plans whenever alterations or additions to the user's premises affect said plans.

(c) *Report Requirement.* The report required by paragraph (b) above or other provisions of this article for all significant industrial users shall contain, in units and terms appropriate for evaluation, the information listed in subparagraphs (1) through (5) below. Industrial users subject to national pretreatment standards shall submit to the director a report which contains the information listed in subparagraphs (1) through (6) below within one hundred and eighty (180) days after the promulgation by the Environmental Protection Agency of a National Pretreatment Standard under Section 307(b) or (c) (33 U.S.C. 1317 (b) or (c)) of the Act. This report is called the "Baseline Monitoring Report" or BMR. Industrial users who are unable to achieve a discharge limit set forth in section 31-51 hereof without improved operation and maintenance procedures or pretreatment shall submit a report which contains the information listed in subparagraph (1) through (7) of this paragraph.

As specified hereinabove, the report shall contain all or applicable portions of the following:

(1) *Identifying Information.* The name and address of the industrial user; and the name(s) of the owner and operator, including contract information;

(2) *Permits.* A list of any environmental control permits held by the user;

(3) *Description of operations.*

(A) A brief description of the nature, average rate of production and standard industrial classification of the operation(s) carried out by such industrial user. The description should include a schematic process diagram which indicates points of discharge to the POTW;

(B) The types of wastes generated and a list of chemicals used and materials stored at the facility which could be accidentally discharged to the POTW;

(C) Number of employees, hours of operation, and actual or proposed hours of discharge to the POTW;

(D) Type and amount of raw materials processed (average and maximum per day), and type and amount of products produced (rate of production);

(E) Site plans, floor plans, and plumbing plans to show all sewers, floor drains, and appurtenances by size, location, and elevation, and all points of discharge.

(4) Proposed location for monitoring for all wastes covered by the permit;

(5) *Flow measurement.* The measured average and maximum flow of the discharge from such industrial user to the POTW, in gallons per day;

(6) *Measurement of pollutants.*The nature and concentration of pollutants in the discharge from each regulated process from such industrial user and identification of any applicable pretreatment standards and requirements. The concentration shall be reported as a maximum or average level as provided for in the applicable pretreatment standard and as determined by standard methods approved by the director. If an alternate or equivalent concentration limit has been calculated in accordance with any pretreatment standard, this adjusted concentration limit shall also be submitted to the director for approval. Wastewater sample(s) shall be representative of daily operations. Sampling and analysis shall comply with the requirements of Section 31-53(h)(7).Whenever pH information is required in the initial report or in regular periodic self-monitoring reports, it shall be collected in the form of a chart from a continuous pH recorder;. In cases where the standard requires compliance with a BMP or pollution prevention alternative, the user shall submit documentation as required to determine compliance with the standard.

(7) Proposed pretreatment systems or equipment and/or operation and maintenance procedures necessary to meet applicable pretreatment standards and requirements.

(8) Any request for a monitoring waiver for a pollutant neither present nor expected to be present in the discharge.

(9) Any other information as may be deemed necessary by the director to evaluate the permit application.

(10) *Certification.* A statement, reviewed by an authorized representative of the industrial user (as defined in paragraph (h)(11) below) and certified by a professional engineer indicating whether pretreatment standards are being met on a consistent basis and, if not, whether additional operation and maintenance procedures or additional pretreatment is required for the industrial user to meet the pretreatment standards and requirements; and

(11) *Compliance schedule.* If additional pretreatment or operation and maintenance procedure will be required to meet the pretreatment standards, then the report shall contain the shortest schedule by which the industrial user will provide such additional pretreatment. The completion date in this schedule shall not be later than the compliance date established for the applicable pretreatment standard. If a pretreatment standard has been modified or adjusted, the information in paragraphs (h)(6) and (h)(7) shall apply to the modified or adjusted limits.

All permit applications must be signed and certified in accordance with Section 31-53(h)(11).

For purposes of this paragraph when the context so indicates the phrase "pretreatment standard" shall include either a national pretreatment standard or a pretreatment standard imposed as a result of the industrial user's discharging any incompatible pollutant regulated by Section 31-51 hereof. For purposes of this paragraph the term "pollutant" shall include any pollutant identified in a national pretreatment standard or any incompatible pollutant identified in Section 31-51 hereof.

(d) *Incomplete Applications.* The director will act only on applications that are accompanied by a report which contains all the information required in paragraph (c) above. Industrial users who have filed incomplete applications will be notified by the director that the application is deficient and the nature of such deficiency and will be given thirty (30) days to correct the deficiency. If the deficiency is not corrected within thirty (30) days or with such extended period as allowed by the director, the director shall deny the application and notify the applicant in writing of such action.

(e) *Evaluation of Application Permit Conditions.* Upon receipt of complete applications, the director shall review and evaluate the applications and shall propose such special permit conditions as he deems advisable. All wastewater discharge permits shall be expressly subject to all the provisions of this article and all other applicable ordinances, laws, and regulations. All wastewater discharge permits shall contain the following:

(1) Statement of duration (no more than five (5) years) and effective date;

(2) Statement of non-transferability without, at a minimum, prior notification of the director and provision of a copy of the ordinance to the new owner or operator;

(3) Effluent limits, including BMPs (if appropriate), based on applicable general pretreatment standards, categorical pretreatment standards, local limits, and state and local law;

(4) Self-monitoring, sampling, reporting, notification, and recordkeeping requirements, including identification of the pollutants (or BMPs) to be monitored, sampling frequency, and sample type, based on applicable general pretreatment standards, categorical pretreatment standards, local limits, and state and local law;

(5) A statement of applicable civil and criminal penalties for violation of pretreatment standards and requirements, and any applicable compliance schedule. Such schedule may not extend time for compliance beyond that required by applicable federal, state, or local law; and

(6) Requirements to control slug discharges, if determined by the director to be necessary.

The director may also propose that the wastewater discharge permit be subject to one (1) or more special conditions in regard to any of the following:

(7) Pretreatment requirements;

(8) Limits on rate and time of discharge of requirements for flow regulations and equalization;

(9) Requirements for installation of inspection and sampling facilities; including flow measurement devices;

(10) Development and implementation of waste minimization or pollution prevention plans to reduce the amount of pollutants discharged to the POTW;

(11) Other conditions as deemed appropriate by the director to insure compliance with this article or other applicable ordinance, law or regulation;

(12) Requirements for the installation of facilities to prevent and control accidental discharge or "spills" at the user's premises; and

(13) The unit charge or schedule of charges and fees for the wastewater to be discharged to a community sewer.

(f) *Applicant to be Notified of Proposed Permit Conditions; Right to Object.*

(1) Upon completion of his evaluation, the director shall notify the applicant of any special permit conditions which he proposed be included in the wastewater discharge permit;

(2) The applicant shall have forty-five (45) days from and after the date of the director's recommendations for special permit conditions to review same and file written objections with the director in regard to any special permit conditions recommended by the director.

The director may, but shall not be required, to schedule a meeting with applicant's authorized representative within fifteen (15) days following receipt of the applicant's objections, and attempt to resolve disputed issues concerning special permit conditions;

(3) If applicant files no objection to special permit conditions proposed by the director, or a subsequent agreement is reached concerning same, the director shall issue a wastewater discharge permit to applicant with such special conditions incorporated therein. Otherwise, the director shall submit the disputed matters to the board for resolution as hereinafter provided.

(g) *Board to Establish Permit Conditions; Hearing.*

(1) In the event the director cannot issue a wastewater discharge permit pursuant to paragraph (f) above, the director shall submit to the board his proposed permit conditions and the applicant's written objections thereto at the next regularly scheduled meeting of the board or a specially called meeting;

(2) The board shall schedule a hearing within ninety (90) days following the meeting referred to hereinabove unless such time be extended for just cause shown to resolve any disputed matters relevant to such permit;

(3) The director shall notify the applicant of the date, time, place, and purpose of the hearing scheduled by the board. The applicant and the director shall have the right to participate in such hearing and present any relevant evidence to the board concerning proposed special permit conditions or other matters being considered by the board;

(4) Following such hearing or such additional hearings as shall be deemed necessary and advisable by the board, the board shall establish such special permit conditions as it deems advisable to insure the applicant's compliance with this article or other applicable law or regulation and direct the director to issue a wastewater discharge permit to the applicant accordingly.

(h) *Compliance Schedule and Reporting Requirements.* The following conditions shall apply to the schedules and reports required by paragraphs (c), (e), or (g) of this section:

(1) Schedule components. The schedule shall contain increments of progress in the form of dates for the commencement and completion of major events leading to the construction and operation of additional pretreatment requirements for the industrial user to meet the applicable pretreatment standards (e.g. hiring an engineer, completing the engineering report, completing final plans, executing contracts for major components, commencing construction, completing construction, etc.)

(2) Schedule intervals. No increment referred to in subparagraph (h)(1) shall exceed nine (9) months.

(3) Compliance schedule progress reports. No later than fourteen (14) days following each date in the schedule and the final date for compliance, the industrial user shall submit a progress report to the director including, as a minimum, whether or not it complied with the increment of progress to be met on such date and, if not, the date on which it expects to comply with this increment of progress,

the reason for the delay, and steps being taken by the industrial user to return the construction to the schedule established. In no event shall more than nine (9) months elapse between such progress reports to the director.

(4) 90-Day compliance. Within ninety (90) days following the date for final compliance with applicable pretreatment standards or, in the case of a new source, following commencement of the introduction of wastewater into the POTW, any industrial user subject to pretreatment standards and requirements shall submit to the director a report containing the information described in Section 31-53(c)(4)-(6). For users subject to categorical pretreatment standards expressed in terms of allowable pollutant discharge per unit of production (or other measure of operation), this report shall include the user's actual production during the appropriate sampling period. All compliance reports must be signed and certified in accordance with Section 31-53(h)(11) of this ordinance. All sampling shall be performed in accordance with Section 31-53(h)(7).

(5) Compliance Monitoring Reports.

(A) All significant industrial users shall submit to the director during the months of June and December, unless required more frequently in the pretreatment standard or by the director, a report indicating the nature and concentration, of pollutants in the effluent which are limited by their permit. In addition, this report shall include a record of average and maximum daily flows. In cases where the pretreatment standard requires compliance with a BMP or pollution prevention alternative, the user must submit documentation necessary to determine the compliance status of the user. At the discretion of the director, and in consideration of such factors as local high or low flow rates, holidays, budget cycles, etc., the director may agree to alter the months during which the above reports are to be submitted.

(B) In cases where the director or a pretreatment standard has imposed mass limitations, the report required by subparagraph (i) of this paragraph shall indicate the mass of pollutants regulated by pretreatment standards in the effluent of the industrial user.

(C) Reporting requirements for industrial users not subject to categorical pretreatment standards. In cases where the permit requires compliance with a BMP or pollution prevention alternative, the user must submit documentation as required by the city to determine the compliance status of the user. These reports must be based on sampling and analysis in the period covered by the report, and in accordance with the techniques described in 40 CFR Part 136.

(D) All monitoring and compliance reports must be certified and signed in accordance with the requirements of Section 31-53(h)(11).

(6) *Accidental and Slug Discharge Reporting and Notification.*The industrial user shall notify the POTW immediately by telephone in the event of an accidental discharge, slug loading, or slug discharge, as defined in Section 31-50(46) of this ordinance. The notification shall include the location of the discharge, type of waste, concentration and volume (if known), and corrective action taken by user. Each significant industrial user shall also immediately notify the director of any changes at the facility affecting the potential for a slug discharge.

(7) The reports required in this section shall contain the results of sampling and analysis of the discharge, including the flow and the nature and concentration, or production rates and mass limits where requested by the director, as applicable, of pollutants contained therein which are limited by the applicable pretreatment standards or industrial permit. For industrial users subject to equivalent mass or concentration limits established by the director as alternative standards, the report required by paragraph (h)(5) shall contain a reasonable measure of the user's long term production rate. For all other industrial users subject to categorical pretreatment standards expressed only in terms of allowable pollutant discharge per unit of production (or other measure of operation), the report

required by paragraph (h)(5) shall include the user's actual average production rate for the reporting period. The frequency of monitoring shall be prescribed in the applicable treatment standard. All analyses shall be performed in accordance with procedures established by the Environmental Protection Agency under the provisions of Section 304(h) of the Act (33 U.S.C. 1314 (h)) and contained in 40 C.F.R. Part 136 and amendments thereto or with any other test procedures approved by the Environmental Protection Agency or the director. Sampling shall be performed in accordance with the techniques approved by the Environmental Protection Agency, or the director. All wastewater samples must be representative of the user's actual discharge.

(A) Except as indicated in Subparagraphs (B) and (C) below, the user must collect wastewater samples using twenty-four (24) hour flow-proportional composite sampling techniques, unless time-proportional composite sampling or grab sampling is authorized by the director. Where time-proportional composite sampling or grab sampling is authorized, the samples must be representative of the discharge. Using protocols (including appropriate preservation) specified in 40 CFR Part 136 and appropriate EPA guidance, multiple grab samples collected during a twenty-four (24) hour period may be composited prior to analysis as follows: for cyanide, total phenols, and sulfides, the samples may be composited in a laboratory or in a field; for volatile organics and oil and grease, the samples may be composited in the laboratory. Composite samples for other parameters unaffected by the compositing procedures as documented in approved EPA methodologies may be authorized by the director, as appropriate. In addition, grab samples may be required to show compliance with instantaneous limits.

(B) Samples for oil and grease, temperature, pH, cyanide, total phenols, sulfides, and volatile organic compounds must be obtained using grab collection techniques.

(C) For sampling required in support of baseline monitoring and ninety (90) day compliance reports required in Sections 31-53(c) and (h)(4) and 40 CFR 503.12(b) and (d), a minimum of four (4) grab samples must be used for pH, cyanide, total phenols, oil and grease, sulfides, and volatile organic compounds for facilities for which historical sampling data do not exist. For facilities with historical sampling data available, the director may authorize a lower minimum. For reports required by Section 31- 53(h)(5) and 40 CFR 403.12(e) and (h), the industrial user is required to collect the number of grab samples necessary to assess and assure compliance with applicable pretreatment standards.

(D) The director shall inspect and sample the effluent from each significant industrial user at least once every twelve (12) months.

(8) Notification of the discharge of hazardous wastes.

(A) The industrial user shall notify, as soon as practicable, the POTW, the EPA Regional Waste Management Division Director, and the State hazardous waste authorities of any discharge into the POTW of a substance which is a listed or characteristic waste under section 3001 of RCRA (42 USCA § 6921). Such notification must include a description of any such wastes discharged, specifying the volume and concentration of such wastes and the type of discharge (continuous, batch, or other), identifying the hazardous constituents contained in the listed wastes, and estimating the volume of hazardous wastes expected to be discharged during the following twelve (12) months. The notification must take place within one hundred eight (180) days after notification by the director. This requirement shall not apply to pollutants already reported under the self-monitoring requirements of Section 31-53.

(B) Dischargers are exempt from the requirements of this paragraph during a calendar month in which they discharge no more than fifteen (15) kilograms of hazardous wastes, unless the wastes are acute hazardous wastes as specified in 40 CFR 261.30(d) and 261.33(e). Discharge of more than fifteen (15) kilograms of non-acute hazardous wastes in any calendar month, or

any quantity of acute hazardous wastes as specified in 40 CFR 261.30(d) and 261.33(e). Discharge of more than fifteen (15) kilograms of non-acute hazardous wastes in any calendar month, or any quantity of acute hazardous wastes as specified in 40 CFR 261.30(d) and 261.33(e), requires a one (1) time notification. Subsequent months during which the industrial user discharges more than such quantities of hazardous waste do not require additional notification, except for the acute hazardous wastes.

(C) In the case of new regulations under Section 3001 of RCRA (42 USCA 56921) identifying additional characteristics of hazardous waste or listing any additional substance as a hazardous waste, the industrial user must notify the POTW of the discharge of such substance within ninety (90) days of the effective date of such regulations, except for the exemption in paragraph (B) of this subsection.

(D) In the case of any notification made under this paragraph, the industrial user shall certify that it has a program in place to reduce the volume and toxicity of wastes generated to the degree it has determined to be economically practicable and that it has selected the method of treatment, storage, or disposal currently available which minimizes the present and future threat to human health and the environment.

(E) This provision does not create a right to discharge any substance not otherwise permitted to be discharged by this ordinance, a permit issued thereunder, or any applicable federal or state law.

(9) Notification of Changed Discharge. All industrial users shall promptly notify the POTW in advance of any substantial change in the volume or character of pollutants in their discharge, including the listed or characteristic hazardous wastes for which the industrial user has submitted initial notification under paragraph (8) above.

(10) Provisions Governing Fraud and False Statements. The reports required to be submitted under this section shall be subject to the provisions of 18 U.S.C. § 1001 relating to fraud and false statements and the provisions of Sections 309(c)(4) and (6) of the Act (33 USCA § 1311), as amended, governing false statements, representation or certifications in reports required under the Act.

(11) Signatory requirements for permit applications, user reports, and initial monitoring waiver. The following certification statement must be signed and submitted by users submitting permit applications and monitoring and compliance reports.

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

The applications and reports shall be signed as follows:

(A) By a responsible corporate officer, if the industrial user submitting the reports required by this section is a corporation. For the purpose of this paragraph, a responsible corporate officer means:

(i) A president, secretary, treasurer, or vice-president of the corporation in charge of a principal business function, or any other person who performs similar policy or decision-making functions for the corporation, or

(ii) The manager of one (1) or more manufacturing production, or operating facilities; provided that the manager is authorized to make management decisions

which govern the operation of the regulated facility, including having the explicit duty of making major capital investment recommendations and to initiate and direct other comprehensive measures to assure long-term environmental compliance with environmental laws and regulations, can ensure that the necessary systems are established or actions taken to gather complete and accurate information for control mechanism requirements, and where authority to sign documents has been assigned or delegated to the manager in accordance with corporate procedures.

(B) By a general partner or proprietor if the industrial user submitting the reports required by this section is a partnership or sole proprietorship respectively.

(C) By a duly authorized representative of the individual designated in subparagraph (A) or (B) of this section if:

(i) The authorization is made in writing by the individual described in subparagraph (A) or (B);

(ii) The authorization specifies either an individual or a position having responsibility for the overall operation of the facility from which the industrial discharge originates, such as the position of plant manager, operator of a well, or well field director, or a position of equivalent responsibility, or having overall responsibility for environmental matters for the company; and

(iii) The written authorization is submitted to the director.

(D) If an authorization under subparagraph (C) of this section is no longer accurate because a different individual or position has responsibility for the overall operation of the facility, or overall responsibility for environmental matters for the company, a new authorization satisfying the requirements of subparagraph (C) of this section must be submitted to the director prior to or together with any reports to be signed by an authorized representative.

(12) Reporting of Violation. If sampling performed by an industrial user indicates a violation, the user shall notify the director within twenty-four (24) hours of becoming aware of the violation. The user shall also repeat the sampling and analysis and submit the results of the repeat analysis to the director within thirty (30) days after becoming aware of the violation, except the industrial user is not required to resample if:

(A) The city performs sampling at the industrial user at a frequency of at least once per month, or

(B) The city performs sampling at the user between the time when the user performs its initial sampling and the time when the user receives the results of this sampling, or

(C) The city has performed the sampling and analysis in lieu of the industrial user. If the city has performed the sampling and analysis in lieu of the industrial user, the city must repeat the sampling and analysis unless it notifies the user of the violation and requires the user to perform the repeat sampling and analysis.

(13) If an industrial user subject to the reporting requirement in paragraph (e) of this section monitors any pollutant more frequently than required by the director, using approved procedures prescribed in this section, the results of this monitoring shall be included in the report.

(i) *Bypass.*

(1) Definitions.

(A) "Bypass" means the intentional division of waste streams from any portion of an industrial user's treatment facility.

(B) "Severe property damage" means substantial physical damage to property, damage to the treatment facilities which causes them to become inoperable, or substantial and permanent loss of natural resources which can reasonably be expected to occur in the absence of a bypass. Severe property damage does not mean economic loss caused by delays in production.

(2) Bypass not violating applicable Pretreatment Standards or Requirements. An industrial user may allow any bypass to occur which does not cause pretreatment standards or requirements to be violated, but only if it also is for essential maintenance to assure efficient operation. These bypasses are not subject to the provision of paragraphs (3) and (4) of this section.

(3) Notice.

(A) If an industrial user knows in advance of the need for a bypass, if shall submit prior notice to the director, if possible at least ten (10) days before the date of the bypass.

(B) An industrial user shall submit oral notice of an unanticipated bypass that exceeds applicable pretreatment standards to the director within twenty-four (24) hours from the time the industrial user becomes aware of the bypass. A written submission shall also be provided within five (5) days of the time the industrial user becomes aware of the bypass. The written submission shall contain a description of the bypass and its cause; the duration of the bypass, including exact dates and times, and, if the bypass has not been corrected, the anticipated time it is expected to continue; and steps taken or planned to reduce, eliminate, and prevent reoccurrence of the bypass. The director may waive the written report on a case-by-case basis if the oral report has been received within twenty-four (24) hours.

(4) Prohibition of Bypass.

(A) Except as allowed in subparagraph (2) above, bypass is prohibited, and the director may take enforcement action against an industrial user for a bypass, unless:

(i) Bypass was unavoidable to prevent loss of life, personal injury, or severe property damage;

(ii) There were no feasible alternatives to the bypass, such as the use of auxiliary treatment facilities, retention of untreated wastes, or maintenance during normal periods of equipment downtime. This condition is not satisfied if adequate back-up equipment should have been installed in the exercise of reasonable engineering judgment to prevent a bypass which occurred during normal periods of equipment downtime or preventative maintenance; and

(iii) The industrial user submitted notices as required under subparagraph (3) of this section.

(B) The director may approve an anticipated bypass, after considering its adverse effect, if the director determines that it will meet the three (3) conditions listed in subparagraph (4)(A) of this section.

(j) *Maintenance of Records.* Any industrial user subject to the reporting requirements established in this section shall maintain records of all information resulting from any monitoring activities required by this section. Such records shall include for all samples:

(1) The date, exact place, method, and time of sampling and the names of the persons taking the samples;

(2) The dates analyses were performed;

(3) Who performed the analyses;

(4) The analytical techniques/methods; and

(5) The results of such analyses.

(k) *Retention Period.* Any industrial user subject to the reporting requirement established in this section shall be required to retain for a minimum of three (3) years any records of monitoring activities and results (whether or not such monitoring activities are required by this section) and shall make such records available for inspection and copying by the director, Director of the Division of Water Pollution Control Tennessee Department of Health and Environment, or the Environmental Protection Agency. This period of retention shall be extended during the course of any unresolved litigation regarding the industrial user or when requested by the director, the Director, Tennessee, Department of Environment and Conservation (TDEC) or the Environmental Protection Agency (EPA). This requirement shall also apply to documentation associated with any BMPs established in connection with a pretreatment standard.

(l) *Duration of Permit.* Wastewater discharge permits normally are issued for a period of three (3) years. Permits may be issued for a period of less than three (3) years for the administrative convenience of the director so as to stagger the renewal dates of the permits. Provided further that permits issued to industrial users granted an exception pursuant to Section 31-52 shall be issued for a period of one (1) year. Notwithstanding the foregoing, industrial users becoming subject to a national pretreatment standard shall apply for new permits on the effective date of such national pretreatment standards. The director shall notify in writing any industrial user whom he has cause to believe is subject to a national pretreatment standard of the promulgation of such federal regulations, but any failure of the director in this regard shall not relieve the industrial user of the duty of complying with such national pretreatment standards. An industrial user must apply in writing for a renewal permit within the period of time not more than ninety (90) days and not less than thirty (30) days prior to expiration of the current permit. Provided further that limitations or conditions of a permit are subject to modification in accordance with Section 31-53(o), industrial users shall be notified of any proposed changes in their permit by the director at least thirty (30) days prior to the effective date of the change. Any change or new condition in a permit shall include a provision for a reasonable time schedule for compliance. The industrial user may appeal the decision of the director in regard to any changed permit conditions as otherwise provided in this article. Wastewater discharge permits are voidable upon nonuse, cessation of operations, or transfer of business ownership. All wastewater discharge permits are void upon the issuance of a new wastewater discharge permit.

(m) *Transfer of a Permit.* Wastewater discharge permits are issued to a specific industrial user for a specific operation. A wastewater discharge permit shall not be reassigned or transferred or sold to a new owner, new user, or for different premises, or a new or changed operation, without the prior approval of the director. The new owner or operator must state to the director that it plans no change to the facility's operations and processes must provide the specific date on which the transfer is to occur, and agree that the new owner/user shall assume responsibility for all Wastewater Discharge Permit requirements. Upon approval of a permit transfer, the director will provide the new owner or operator with a copy of the wastewater discharge permit.

(n) *Revocation of Permit.* Any permit issued under the provisions of this article is subject to be modified, suspended, or revoked in whole or in part during its term for cause including but not limited to, the following:

(1) Violation of any terms or conditions of the wastewater discharge permit or other applicable law or regulation;

(2) Obtaining of a permit by misrepresentation or failure to disclose fully all relevant facts; or

(3) A change in any condition that requires either a temporary or permanent reduction or elimination of the permitted discharge.

(4) Refusal of reasonable access to the user's premise for the purpose of inspection or monitoring.

(5) Failure to notify the director of significant changes to the wastewater prior to changed discharge;

(6) Falsifying self-monitoring reports and certification statements;

(7) Tampering with monitoring equipment;

(8) Failure to comply with the requirements of an enforcement notice or order;

(9) Operating with an expired wastewater discharge permit (unless timely application for renewal has been submitted); or

(10) Failure to provide advance notice of the transfer of business ownership.

(o) *Modification of Permit.* The director may modify an individual wastewater discharge permit for good cause, including but not limited to, the following:

(1) To incorporate any new or revised federal, state, or local pretreatment standards or requirements;

(2) To address significant alterations or additions to the user's operation, processes, or wastewater volume or character since the time of the individual wastewater discharge permit issuance;

(3) A change in the POTW that requires either a temporary or a permanent reduction of the authorized discharge;

(4) Information indicating that the permitted discharge poses a threat to the POTW, City personnel, or the receiving waters;

(5) Violation of the terms or conditions of the wastewater discharge permit;

(6) Misrepresentations or failure to fully disclose all relevant facts in the wastewater discharge permit application or in required reporting;

(7) Revision or a grant of a variance from categorical pretreatment standards;

(8) To correct typographical or other errors in the wastewater discharge permit; or

(9) To reflect transfer of facility ownership or operation to a new owner or operator.

(p) *Electronic Reporting.* Electronic reporting, if allowed by the director shall comply with the requirements of 40 CFR Part 3.
(Ord. No. 9409, § 2, 6-5-90; Ord. No. 12428, § 4, 8-31-10; Ord. No. 12962, § 4, 6-16-15; Ord. No. 13172, §§ 6, 7, 4-18-17)

Sec. 31-54. Inspections, monitoring, entry, and confidentiality.

(a) Whenever required to carry out the objective of this article, including but not limited to: 1) developing or assisting in the development of any effluent limitation, or other limitation, prohibition, or effluent standard, pretreatment standard, standard of performance, or permit condition under this article; 2) determining whether any person is in violation of any such effluent limitation, or other limitation, prohibition or effluent standard, pretreatment standard, standard of performance, or permit condition; 3) any requirement established under this section:

(1) The director shall require any industrial user to:

A) Establish and maintain such record;

B) Make such reports;

C) Install, use, and maintain such monitoring equipment or methods, including where appropriate, biological monitoring methods;

D) Sample such effluents in accordance with such methods, at such locations, at such intervals, and in such manner as the director shall prescribe; and

E) Provide such other information as he may reasonably require.

(2) The director or his authorized representative, upon presentation of his credentials:

A) Shall have a right of entry to, upon, or through any user's premises in which an effluent source is located or in which any records required to be maintained under this subsection are located, and

B) May at reasonable times have access to and copy any records, inspect any monitoring equipment or method required under clause (a)(1), and sample any effluents which the owner or operator of such source is required to sample under such clause.

(b) Any records, reports, or information obtained under this section 1) shall, in the case of effluent data, be related to any applicable effluent limitations, toxic, pretreatment, or permit condition, and 2) shall be available to the public to the extent provided by 40 CFR Part 2.302 except that upon a showing satisfactory to the director by any person that records, reports, or information, or particular part thereof (other than effluent data), to which the director has access under this section, if made public would divulge methods or processes entitled to protection as trade secrets of such person, the director shall consider such record, report, or information, or particular portion thereof confidential in accordance with the purposes of this article, except that such record, report or information may be disclosed to officers, employee, or authorized representatives of the State of Tennessee or the United States concerning with carrying out the provisions of the Clean Water Act or when relevant in any proceeding under this article or other applicable laws.

(c) Specific requirements under the provisions of paragraph (a)(1) of this section shall be established by the director, or the board as applicable, for each industrial user and such requirements shall be included as a condition of the industrial user's wastewater discharge permit. The nature of degree of any requirement under this provision shall depend upon the nature of the user's discharge, the impact of the discharge on the POTW, the volume of water discharged, and the technical feasibility of an economic reasonableness of any such requirement imposed.

(d) The industrial user shall be required to design any necessary facility, and to submit according to the permit compliance schedule, an engineering report, including detailed design plans and operating procedures to the director for review in accordance with accepted engineering practices. The director shall review said plans and other documents within 45 days and shall recommend to the industrial user any change he deems appropriate.

(e) Upon approval of plans and other documents as specified in paragraph (d) of this section, the industrial user shall secure such building, electrical, plumbing or other permits as may be required by this code and proceed to construct any necessary facility and establish such operating procedures as are required within the time provided in the industrial user's wastewater discharge permit.

(f) All significant industrial users shall install a monitoring station of a standard design or be designed in a manner that is satisfactory to the director. Monitoring stations and flow measurement facilities must be properly operated, kept clean, safely accessible and maintained in good working order at all times. The monitoring stations shall not contain noxious or malodorous gases/odors in concentrations that could create a public nuisance or a health and safety concern, or to prevent entry into the monitoring stations. The failure of a user to keep its monitoring station in good working order shall not be grounds for the user to claim that sample results are unrepresentative of its discharge.

(g) In the event any industrial user denies the director or his authorized representative the right of entry, to or upon the user's premises, for purposes of inspection, sampling effluents, inspecting and copying records, or verifying that a user is not discharging industrial wastes and is not subject to section 31-51, or performing such other duties as shall be imposed upon him by this article, the director shall seek a warrant or use such other legal procedures as shall be advisable and reasonably necessary to discharge his duties under this section.

(h) Any industrial user failing or refusing to discharge any duty imposed upon him under the provisions of this section, or who denies the director or his authorized representative the right to enter upon the industrial user's premises for purposes of inspection, sampling effluents, inspecting and copying records, or such other duties as may be imposed upon him by this section, shall be deemed to have violated the conditions of his wastewater discharge permit and such permit shall be subject to modification, suspension, or revocation under the procedures established in this article. A user who does not have an industrial waste discharge permit and denies the director or his authorized representative the right to inspect as described in section 31-9 or 31-54(g) is subject to having the sewer service in question terminated by the director.
(Ord. No. 9409, § 2, 6-5-90; Ord. No. 12428, § 5, 8-31-10; Ord. No. 12962, § 4, 6-16-15; Ord. No. 13172, § 8, 4-18-17)

Sec. 31-55. Dangerous discharge notification requirements.

(a) *Telephone Notification.* Any person or user causing or suffering any discharge whether accidental or not, which presents or may present an imminent or substantial endangerment to the health and welfare of persons, to the environment, or which is likely to cause interference with the POTW, shall notify the director immediately by telephone. In the absence of the director, notification shall be given to the city employee then in charge of the treatment works.

(b) *Written Report.* Within five (5) days following such occurrence, the user shall provide the director with a detailed written report describing the cause of the dangerous discharge and measures to be taken by the user to prevent similar future occurrences. Such notification shall not relieve the user of any expense, loss, damage, or other liability which may be incurred as a result of damage to the POTW, fish kills, or any other damage to person or property; nor shall such notification relieve the user of any fines, civil penalties, or other liability which may be imposed by this article or other applicable law.

(c) *Notice to Employees.* A notice shall be permanently posted on the user's bulletin board or other prominent place advising employers whom to call in the event of a dangerous discharge. Employers shall insure that all employees who may cause or suffer such a dangerous discharge to occur are advised of the emergency notification procedure.
(Ord. No. 9409, § 2, 6-5-90; Ord. No. 12962, § 4, 6-16-15)

Sec. 31-56. Reserved.

DIVISION 4. WASTEWATER REGULATIONS BOARD

Sec. 31-57. Wastewater regulations and appeals board.

(a) *Established.* There is hereby established a Board of nine (9) members to be known as the "Wastewater Regulations and Appeal Board".

(b) *Composition: Terms: Filling Vacancies.* The nine (9) members of this board shall be appointed by the mayor, subject to the approval of the city council. The mayor shall appoint one (1) member each with the following qualifications: one (1) environmental engineer or environmental scientist; one (1) attorney, one (1) person employed or retired from an industrial or commercial establishment regulated by this article; and one (1) person who is experienced in the science or practice of finance. One (1) person shall be nominated by the Greater Chattanooga Hospitality Association with restaurant experience, but subject to approval by the mayor and confirmation by the city council. One (1) member shall be nominated by a regional user located in the State of Georgia and one (1) member nominated by a regional user located in the State of Tennessee, but subject to approval by the mayor and confirmation by the city council. The remaining two (2) members shall not have any qualification other than being an adult citizen of the area served by the regional system. The seven (7) members of the board appointed before this reconstitution of

the board shall continue to serve until their terms expire. The two (2) new members of the board and all future members of the board shall be appointed for four (4) years. All members shall serve until their successor is appointed, and all members shall serve at the pleasure of the mayor and the city council. In the event of a vacancy, the mayor shall appoint a member to fill the unexpired term subject to approval by the city council. The board shall organize and select its own chairman, vice chairman, and secretary without compensation, but shall receive their actual expenses incurred in attending meetings of the board and the performance of any duties as members of the board.

(c) *General duties of the board.* In addition to any other duty or responsibility otherwise conferred upon the board by this chapter, the board shall have the duty and power as follows:

(1) To recommend from time to time to the city council that it amend or modify the provisions of this chapter;

(2) To grant exceptions pursuant to the provisions of section 31-52 hereof, and to determine such issues of law and fact as are necessary to perform this duty;

(3) To hold hearings upon appeals from orders or actions of the director as may be provided under any provision of this chapter;

(4) To hold hearings relating to the suspension, revocation, or modification of a wastewater discharge permit and issue appropriate orders relating thereto;

(5) To hold such other hearings as may be required in the administration of this chapter and to make such determinations and issue such orders as may be necessary to effectuate the purposes of this article;

(6) To request assistance from any officer, agent, or employee of the city or the Chattanooga-Hamilton County Regional Planning Commission and to obtain such information or other assistance as the board might need;

(7) The board acting through its chairman shall have the power to issue subpoenas requiring attendance and testimony of witnesses and the production of documentary evidence relevant to any matter properly heard by the board;

(8) The chairman, vice chairman or chairman pro tem shall be authorized to administer oaths to those persons giving testimony before the board;

(9) The board shall hold regular annual meetings and such special meetings as the board may find necessary.

(10) To approve and adopt tables containing limitations on wastewater strength (local limits) and plant protection criteria as recommended by the director.

(d) *Quorum.* Five (5) members of the board shall constitute a quorum, but a lesser number may adjourn a meeting from day to day. Any action of the board, other than adjournment, shall require a majority of the quorum.

(Ord. No. 9409, § 2, 6-5-90; Ord. No. 12962, § 4, 6-16-15; Ord. No. 13105, § 1, 9-13-16; Ord. No. 13172, § 9, 4-18-17)

DIVISION 5. DIRECTOR*

Sec. 31-58. Director.

(a) *Director and staff.* The director and his staff shall be responsible for the administration of all sections of this chapter.

***Editor's note—**Ord. No. 12962, § 4, adopted June 16, 2015, amended the title of div. 5 to read as set out herein. Previously div. 5 was titled Superintendent.

(b) *Authority of director.* The director shall have the authority to enforce all sections of this chapter. He shall be responsible and have the authority to maintain and operate the various treatment works, sewer lines, pump stations, and other appurtenances. He shall be responsible for the preparation of operating budgets subject to the normal budgetary processes of the city.

(c) *Records.* The director shall keep in this office or at an appropriate storage facility all applications required under this chapter, a complete record thereof, including a record of all wastewater discharge permits. He shall also maintain the minutes and other records of the wastewater regulations and appeals board.

(d) *Director to assist board.* The director shall attend all meetings of the wastewater regulations and appeals board, or whenever it is necessary for him to be absent he shall send a designated representative, and shall make such reports to and assist said board in the administration of this article.

(e) *Notice of national pretreatment standard.* The director shall notify industrial users identified in 40 CFR 403.8(f)(2) of any applicable pretreatment standards or other applicable requirements promulgated by the Environmental Protection Agency under the provisions of Section 204(b) of the Act (33 U.S.C. 1284), Section 405 of the Act (33 U.S.C. 1345), or under the provisions of Sections 3001 (42 U.S.C. 6921), 3004 (42 U.S.C. 6924) or 4004 (42 U.S.C. 6944) of the Solid Waste Disposal Act. Failure of the director to so notify industrial users shall not relieve said users from the responsibility of complying with said requirements.

(f) *Public participation notice.* The director shall comply with the public participation requirements of 40 CFR Part 25 in the enforcement of national pretreatment standards. The director shall at least annually provide meaningful public notification, in a newspaper of general circulation within the jurisdictions served by the POTW of any industrial users which, during the previous 12 months, were in significant noncompliance with applicable pretreatment standards or other pretreatment requirements. For the purposes of this provision, a significant industrial user (or any other user that violates subparagraphs (3), (4), or (8)) is in significant noncompliance if its violations meet one (1) or more of the following criteria:

(1) Chronic violations of wastewater discharge limits, defined here as those in which 66% or more of all of the measurements taken for the same pollutant during a six-month period exceed (by any magnitude) the daily maximum limit (including an instantaneous limit) or the average limit for the same pollutant parameter;

(2) Technical review criteria (TRC) violations, defined here as those in which 33% or more of all of the measurements taken for the same pollutant during a six (6) month period equal or exceed the product of the daily average maximum limit (including an instantaneous limit) or the average limit times the applicable TRC (TRC = 1.4 for BOD, TSS, and oil and grease, and [TRC = 1.2 for all other pollutants except pH];

(3) Any other violation of a pretreatment effluent limit (daily maximum or longer-term average) that the director believes has caused, alone or in combination with other discharges, interference or pass through (including endangering the health of POTW personnel or the general public);

(4) Any discharge of a pollutant that has caused imminent endangerment to human health, welfare or to the environment and has resulted in the POTW's exercise of its emergency authority to halt or prevent such a discharge;

(5) Violation, by 90 days or more after the schedule date, of a compliance schedule milestone contained in a permit or enforcement order, for starting construction, completing construction, or attaining final compliance;

(6) Failure to provide required reports such as baseline monitoring reports, ninety (90) day compliance reports, periodic self-monitoring reports, and reports on compliance with compliance schedules within thirty (30) days of the due date;

(7) Failure to accurately report noncompliance; or

(8) Any other violation or group of violations, which may include a violation of a BMP, which the director determines may adversely affect the operation or implementation of the local pretreatment program.

(g) *Regulations and Standards Authorized.* The director may promulgate rules, regulations and design criteria not inconsistent with this chapter and have them printed for distribution. These rules may include requirements for performing wastewater characterizations, analysis and other measurements by standard methods approved by the director. Such rules and regulations shall be ratified and adopted by the city council.

(h) *Certification of Wastewater Laboratories.* On and after July 1, 1991, all wastewater monitoring and preparation of reports required in Sections 31-53 or 31-54 shall be done by laboratories approved and certified by the director. Laboratories aspiring to be approved for purposes of submitting such monitoring reports shall submit to an inspection by the director or his representative, and to annual re-inspections thereafter. Such laboratories shall for a period of one (1) year maintain records of all monitoring activities for users of the city's sewer system containing the information specified in Section 31-53. Such laboratories shall agree with and shall utilize the analytical test procedures described in Section 31-53 and shall implement and maintain a reasonable quality control-quality assurance program. As a further condition of certification, such laboratories shall agree to and shall participate in a program of blind cross-check analyses with the city's laboratory at no cost to the City of Chattanooga.

(i) *Sewer Credits.* Approves secondary meters and determines other kinds of sewer user charge credits.

(j) *Approves New Construction.* Gives approval in acceptance of newly constructed sanitary sewer lines, pump stations, and other appurtenances.

(k) *Regulation of Wastewater Received from Other Jurisdictions.* If another municipality or governmental entity with a satellite sewer collection system contributes wastewater to the POTW, the director or authorized representative of the board shall enter into an intergovernmental agreement with the contributing municipality or governmental entity.

(1) Prior to entering into such an agreement, the director shall request the following information from the contributing municipality or entity;

(A) A description of the quality and quantity of wastewater discharged to the POTW by the contributing municipality or entity;

(B) An inventory of all industrial users located within the contributing municipality or entity that are discharging to the POTW; and

(C) Such other information as the director may deem necessary.

(2) The intergovernmental agreement as required herein shall contain, at a minimum, the following conditions;

(A) A requirement for the contributing municipality or entity to adopt a sewer use ordinance which is at least as stringent as this ordinance and local limits which are at least as stringent as those set out in this ordinance. The requirement must specify that such ordinance and limits must be revised as necessary to reflect changes made to this ordinance or local limits;

(B) A requirement for the contributing municipality or entity to submit a revised user inventory, at least on an annual basis;

(C) A provision specifying which pretreatment program implementation activities, if any, including individual wastewater discharge permit issuance, inspection, sampling, and enforcement, will be conducted by the contributing municipality or entity;

(D) A requirement for the contributing municipality or entity to provide the director with access to all information that the contributing municipality or entity obtains as part of its pretreatment activities;

(E) Limits on the nature, quality, and volume of the wastewater from the contributing municipality or entity at the point at which it discharges into the POTW;

(F) Requirements for monitoring the contributing municipality's or entity's discharge;

(G) A provision ensuring the director access to the facilities of industrial users located within the contributing municipality's or entity's jurisdictional boundaries for the purpose of inspection, sampling, and any other duties deemed necessary by the director; and

(H) A provision specifying remedies available for breach of the terms of the intergovernmental agreement.

(Ord. No. 9409, § 2, 6-5-90; Ord. No. 12428, § 6, 8-31-10; Ord. No. 12962, §§ 3, 4, 6-16-15)

Editor's note—Ord. No. 12962, § 4, adopted June 16, 2015, amended the title of § 31-58 to read as set out herein. Previously § 31-58 was titled Superintendent.

DIVISION 6. PRETREATMENT ENFORCEMENT

Sec. 31-59. Pretreatment enforcement; procedure; complaints; orders.

(a) *Complaints and Orders.*

(1) Whenever the director has reason to believe that a violation of any provision of the pretreatment program of the city or orders of the Wastewater Regulations and Appeals Board issued pursuant thereto has occurred, is occurring, or is about to occur, the director may cause a written complaint to be served upon the alleged violator or violators.

(2) The complaint shall specify the provision or provisions of the pretreatment program or order alleged to be violated or about to be violated, the facts alleged to constitute a violation thereof, may order that necessary corrective action be taken within a reasonable time to be prescribed in such order, and shall inform the violators of the opportunity for a hearing before the Wastewater Regulations and Appeals Board.

(3) Any such order shall become final and not subject to review unless the person or persons named therein request by written petition a hearing before the local hearing authority as provided in section 31-60, no later than thirty (30) days after the date such order is served; provided, however, that the Wastewater Regulations and Appeals Board may review such final order on the same grounds upon which a court of the state may review default judgments.

(b) *Emergency Suspensions.*

(1) Whenever the director finds that an emergency exists imperatively requiring immediate action to protect the public health, safety or welfare, the health of animals, fish or aquatic life, a public water supply, or the facilities of the publicly owned treatment works of the pretreatment agency, the director may, without prior notice, issue an order reciting the existence of such an emergency and requiring that such action be taken as the director deems necessary to meet the emergency.

(2) If the violator fails to respond or is unable to respond to the director's order, the director may take such emergency action as he deems necessary, or contract with a qualified person or persons to carry out the emergency measures. The director may assess the person or persons responsible for the emergency condition for actual costs incurred by the director in meeting the emergency.

(c) *Service.* Except as otherwise expressly provided, any notice, complaint, order or other instrument issued by or under authority of this chapter may be served on any person affected thereby personally, by the director or any person designated by him, or such service may be made in accordance with Tennessee statutes authorizing service of process in civil actions. Proof of service shall be filed in the office of the director.
(Ord. No. 9409, § 2, 6-5-90; Ord. No. 12962, § 4, 6-16-15)

Sec. 31-60. Pretreatment enforcement; hearings.

(a) Any hearing or rehearing brought before the Wastewater Regulations and Appeals Board shall be conducted in accordance with the following:

(1) Upon receipt of a written petition from the alleged violator pursuant to this section, the director shall give the petitioner thirty (30) days' written notice of the time and place of the hearing, but in no case shall such hearing be held more than sixty (60) days from the receipt of the written petition, unless the director and the petitioner agree to a postponement;

(2) The hearing herein provided may be conducted by the Wastewater Regulations and Appeals Board at a regular or special meeting. A quorum of the Wastewater Regulations and Appeals Board must be present at the regular or special meeting in order to conduct the hearing herein provided;

(3) A verbatim record of the proceedings of such hearings shall be taken and filed with the Wastewater Regulations and Appeals Board, together with the findings of fact and conclusions of law made pursuant to subdivision (6) of this section. The transcript so recorded shall be made available to the petitioner or any party to a hearing upon payment of a charge set by the director to cover the costs of preparation;

(4) In connection with the hearing, the chairman shall issue subpoenas in response to any reasonable request by any party to the hearing requiring the attendance and testimony of witnesses and the production of evidence relevant to any matter involved in the hearing. In case of contumacy or refusal to obey a notice of hearing or subpoena issued under this section, the Chancery Court of Hamilton County shall have jurisdiction upon the application of the Wastewater Regulations and Appeals Board or the director to issue an order requiring such person to appear and testify or produce evidence as the case may require and any failure to obey such order of the court may be punished by such court as contempt thereof;

(5) Any member of the Wastewater Regulations and Appeals Board may administer oaths and examine witnesses;

(6) On the basis of the evidence produced at the hearing, the Wastewater Regulations and Appeals Board shall make findings of fact and conclusions of law and enter such decisions and orders as in its opinion will best further the purposes of the pretreatment program and shall give written notice of such decisions and orders to the alleged violator. The order issued under this subsection shall be issued no later than thirty (30) days following the close of the hearing by the person or persons designated by the chairman;

(7) The decision of the Wastewater Regulations and Appeals Board shall become final and binding on all parties unless appealed to the courts as provided in subsection (b); and

(8) Any person to whom an emergency order is directed pursuant to section 31-59 shall comply therewith immediately but on petition to the Wastewater Regulations and Appeals Board shall be afforded a hearing as soon as possible, but in no case shall such hearing be held later than three (3) days from the receipt of such petition by the Wastewater Regulations and Appeals Board.

(b) An appeal may be taken from any final order or other final determination of the director or the City of Chattanooga by any party, including the Wastewater Regulations and Appeals Board, who is or may be adversely affected thereby, to the chancery court pursuant to the common law writ of certiorari set out in T.C.A. § 27-8-101, within sixty (60) days from the date such order or determination is made.
(Ord. No. 9409, § 2, 6-5-90; Ord. No. 12962, § 4, 6-16-15)

Sec. 31-61. Pretreatment enforcement; violations; civil penalty.

(a) (1) Any person including, but not limited to industrial users, who does any of the following acts or omissions shall be subject to a civil penalty of up to ten thousand dollars ($10,000.00) per day for each day during which the act or omission continues or occurs:

(A) Violates an effluent standard or limitation imposed by a pretreatment program;

(B) Violates the terms or conditions of a permit issued pursuant to a pretreatment program;

(C) Fails to complete a filing requirement of a pretreatment program;

(D) Fails to allow or perform an entry, inspection, monitoring or reporting requirement of a pretreatment program;

(E) Fails to pay user or cost recovery charges imposed by a pretreatment program; or

(F) Violates a final determination or order of the Wastewater Regulations and Appeals Board.

(2) Any civil penalty shall be assessed in the following manner:

(A) The director may issue an assessment against any person or industrial user responsible for the violation;

(B) Any person or industrial user against whom an assessment has been issued may secure a review of such assessment by filing with the director a written petition setting forth the grounds and reasons for his objections and asking for a hearing in the matter involved before the Wastewater Regulations and Appeals Board and if a petition for review of the assessment is not filed within thirty (30) days after the date the assessment is served, the violator shall be deemed to have consented to the assessment and it shall become final;

(C) Whenever any assessment has become final because of a person's failure to appeal the director's assessment, the director may apply to the appropriate court for a judgment and seek execution of such judgment and the court, in such proceedings, shall treat a failure to appeal such assessment as a confession of judgment in the amount of the assessment;

(D) In assessing the civil penalty the director may consider the following factors:

(i) Whether the civil penalty imposed will be a substantial economic deterrent to the illegal activity;

(ii) Damages to the city, including compensation for the damage or destruction of the facilities of the publicly owned treatment works, and also including any penalties, costs and attorneys' fees incurred by the city as the result of the illegal activity, as well as the expenses involved in enforcing this section and the costs involved in rectifying any damages;

(iii) Cause of the discharge or violation;

(iv) The severity of the discharge and its effect upon the facilities of the publicly owned treatment works and upon the quality and quantity of the receiving waters;

(v) Effectiveness of action taken by the violator to cease the violation;

(vi) The technical and economic reasonableness of reducing or eliminating the discharge; and

(vii) The economic benefit gained by the violator.

(E) The director may institute proceedings for assessment in the chancery court of the county in which all or part of the pollution or violation occurred, in the name of the City of Chattanooga.

(3) The Wastewater Regulations and Appeals Board may establish by regulation a schedule of the amount of civil penalty which can be assessed by the director for certain specific violations or categories of violations.

(b) Any civil penalty assessed to a violator pursuant to this section may be in addition to any civil penalty assessed by the Commissioner of Health and Environment for violations of T.C.A. § 69-3-115(a)(1)(F). Provided, however, the sum of penalties imposed by this section and by § 69-3-115(a) shall not exceed ten thousand dollars ($10,000.00) per day for each day during which the act or omission continues or occurs.

(c) Criminal Penalties. In addition to Civil Penalties imposed by the director and the State of Tennessee, any person who willfully and negligently violates permit conditions is subject to criminal penalties imposed by the State of Tennessee and the United States.
(Ord. No. 9409, § 2, 6-5-90; Ord. No. 12428, § 7, 8-31-10; Ord. No. 12962, § 4, 6-16-15)

Sec. 31-62. Pretreatment enforcement; assessment for noncompliance with program permits or orders.

(a) The director may assess the liability of any polluter or violator for damages to the pretreatment agency resulting from any person's or industrial user's pollution or violation, failure, or neglect in complying with any permits or orders issued pursuant to the provisions of the pretreatment program, T.C.A. §§ 69-3-123, 69-3-124, or 69-3-125, or Sections 31-59, 31-60, or 31-61.

(b) If an appeal from such assessment is not made to the Wastewater Regulations and Appeals Board by the polluter or violator within thirty (30) days of notification of such assessment, he shall be deemed to have consented to such assessment and it shall become final.

(c) Damages may include any expenses incurred in investigating and enforcing the pretreatment program or T.C.A. §§ 69-3-123—69-3-129, or Sections 31-61 through 31-65, in removing, correcting, and terminating any pollution, and also compensation for any actual damages caused by the pollution or violation.

(d) Whenever any assessment has become final because of a person's failure to appeal within the time provided, the director may apply to the appropriate court for a judgment, and seek execution on such judgment. The court, in such proceedings, shall treat the failure to appeal such assessment as a confession of judgment in the amount of the assessment.
(Ord. No. 9409, § 2, 6-5-90; Ord. No. 12962, § 4, 6-16-15)

Sec. 31-63. Pretreatment enforcement; judicial proceedings and relief.

The director may initiate proceedings in the chancery court of the county in which the activities occurred against any person or industrial user who is alleged to have violated or is about to violate the pretreatment

program, T.C.A. §§ 69-3-123—69-3-129, Sections 31-61 through 31-65, or orders of the Wastewater Regulations and Appeals Board or the director. In such action, the director may seek, and the court may grant, injunctive relief and any other relief available in law or equity.
(Ord. No. 9409, § 2, 6-5-90; Ord. No. 12962, § 4, 6-16-15)

Sec. 31-64. Administrative enforcement remedies.

(a) *Notification of Violation.* Whenever the director finds that any industrial user has violated or is violating this article, or a wastewater permit or order issued hereunder, the director or his agent may serve upon said user written notice of the violation. Within ten (10) days of the receipt date of this notice, an explanation of the violation and a plan for the satisfactory correction and prevention thereof, to include specific required actions, shall be submitted to the director. Submission of this plan in no way relieves the user of liability for any violations occurring before or after receipt of the notice of violation.

(b) *Consent Orders.* The director is hereby empowered to enter into consent orders, assurances of voluntary compliance, or other similar documents establishing an agreement with the industrial user responsible for the noncompliance. Such orders will include specific action to be taken by the industrial user to correct the noncompliance within a time period also specified by the order. Consent orders shall have the same force and effect as administrative orders issued pursuant to paragraph (d) below.

(c) *Show Cause Hearing.* The director may order any industrial user which causes or contributes to violation of this article or wastewater permit or order issued hereunder, to show cause why a proposed enforcement action should not be taken. Notice shall be served on the user specifying the time and place for the meeting, the proposed enforcement action and the reasons for such action, and a request that the user show cause why this proposed enforcement action should not be taken. The notice of the meeting shall be served personally or by registered or certified mail (return receipt requested) at least ten (10) days prior to the hearing. Such notice may be served on any principal executive, general partner or corporate officer. Whether or not a duly notified industrial user appears as noticed, immediate enforcement action may be pursued.

(d) *Compliance Order.* When the director finds that an industrial user has violated or continues to violate this article or a permit or order issued thereunder, he may issue an order to the industrial user responsible for the discharge directing that, following a specified time period, sewer service shall be discontinued unless adequate treatment facilities, devices, or other related appurtenances have been installed and are properly operated. Orders may also contain such other requirements as might be reasonably necessary and appropriate to address the noncompliance, including the installation of pretreatment technology, additional self-monitoring, and management practices.

(e) *Cease and Desist Orders.* When the director finds that an industrial user has violated or continues to violate this ordinance or any permit or order issued hereunder, the director may issue an order to cease and desist all such violations and direct those persons in noncompliance to:

(1) Comply forthwith; or

(2) Take such appropriate remedial or preventive action as may be needed to properly address a continuing or threatened violation, including halting operations and terminating the discharge.

(Ord. No. 9409, § 2, 6-5-90; Ord. No. 12962, § 4, 6-16-15)

Sec. 31-65. Disposition of damage payments and penalties; special fund.

All damages and/or penalties assessed and collected under the provisions of sections 31-59 through 31-64 shall be placed in a special fund by the city and allocated and appropriated to the sewer system for the administration of its pretreatment program.
(Ord. No. 9409, § 2, 6-5-90)

Secs. 31-66—31-240. Reserved.

ARTICLE IV. DISPOSAL OF EXCRETA

Sec. 31-241. Definitions.

For the purposes of this article, the following words and phrases shall have the meanings respectively ascribed to them by this section:

Cesspool. An underground cavity without watertight walls, in which human excreta is placed.

Human excreta. The bowel and kidney discharges of human beings.

Sanitary water closet. Any flush-type toilet which is properly connected to a city sewer or to a septic tank of approved construction.

Septic tank. An underground cavity with watertight walls into which the effluent of a sanitary water closet flows, and from which the effluent does not come to the surface of the ground.
(Code 1986, § 31-241)

Sec. 31-242. Disposal prohibited except in water closets.

It shall be unlawful for any person to dispose of any human excreta in the city except in a sanitary water closet.
(Code 1986, § 31-242)

Sec. 31-243. Where water closet required.

Every residence and building in the city in which human beings reside, are employed or congregated shall have, for the disposal of human excreta, a sanitary water closet.
(Code 1986, § 31-243)

Sec. 31-244. Liability of property owner.

It shall be unlawful for any person owning, leasing or renting property in the city to permit the disposal of human excreta on any property owned, leased or rented by such person or his agent, except in a sanitary water closet.
(Code 1986, § 31-244)

Sec. 31-245. Connection with septic tank required.

Any building in the city in which toilet facilities are required, which is not located within an area required for connection with a sewer, as provided in section 31-1 of this Code, shall have such toilet facilities connected with a septic tank.
(Code 1986, § 31-245)

Sec. 31-246. Permit and inspection fees required for septic tank installations.

No septic tank shall be constructed in the city without a permit having first been obtained from the county health department. An inspection fee of fifteen dollars ($15.00) shall be charged for each septic tank permit issued and for which a receipt shall be given. No permit shall be issued before payment is received therefor. The funds received from the collection of such fees shall be used by the department for the enforcement of the provisions of this article.
(Code 1986, § 31-246)

Sec. 31-247. Privies declared a nuisance; abatement.

All privies in the city are declared to be a nuisance, dangerous to the public health, and shall be condemned and abated as provided in Article II of Chapter 20 of this Code.
(Code 1986, § 31-247)

Sec. 31-248. Cesspools prohibited.

No cesspools shall be built or maintained in the city.
(Code 1986, § 31-248)

Secs. 31-249—31-265. Reserved.

ARTICLE V. WATER AND GAS MAINS*

Sec. 31-266. Location; notice of required improvements; variances.

(a) All water companies shall lay their water mains on streets running east and west in the city on the south side of the center of the street, and on streets running north and south in the city on the west side of the center of the street.

(b) All gas companies shall lay their gas mains on streets running east and west in the city on the north side of the center of the street, and on all streets running north and south in the city on the east side of the center of the street.

(c) When any street is widened, reconstructed, repaved, or otherwise improved, the city engineer may designate the part of the street in which utility facilities shall be placed. The city engineer shall give the utility companies and abutting landowners notice of the improvements and require the utility companies and the abutting landowners to provide for service connections from the mains in the street to the abutting owners' property line.

(d) Nothing in this section shall be deemed to prohibit the Tennessee-American Water Company from installing a water main on the east side of Amnicola Highway from a point beginning at Citico Creek and extending northwardly and eastwardly to its intersection with Riverside Drive in the City of Chattanooga.

(e) Nothing in this section shall be deemed to prohibit the Chattanooga Gas Company from installing a four (4) inch gas main on the west side of Dorris Street, beginning at Hooker Road and extending a distance of three hundred fifty (350) feet northward along Dorris Street.
(Code 1986, § 31-266)

Sec. 31-267. Depth.

All water or gas companies shall lay their mains not less than three (3) feet in depth below the established curb grade.
(Code 1986, § 31-267)

Sec. 31-268. Location of pipes laid parallel to mains.

All water mains or gas companies laying pipes alongside of or parallel to water or gas mains previously laid shall lay such pipes on the outside of such mains, between the mains and the center of the street, and not less than three (3) feet from such mains.
(Code 1986, § 31-268)

***Cross reference—**Plumbing generally, Ch. 27.

Sec. 31-269. Service connections.

All water and gas companies or persons doing the work shall make service pipe connections on the sides of mains and conduct the same to the inside of the curbstone at a depth not less than three (3) feet below the curb grade.
(Code 1986, § 31-269)

Secs. 31-270—31-285. Reserved.

ARTICLE VI. SEWER AGREEMENTS WITH CHATTANOOGA AREA REGIONAL COUNCIL MEMBERS

Sec. 31-286. Agreements for wheelage and treatment of wastewater discharges authorized.

The mayor of the city is hereby authorized to execute a contract with individual members of the Chattanooga Area Regional Council of Governments for sewer charges for wheelage and treatment of wastewater discharged into the city's interceptor sewer system and to execute any and all documents in connection therewith.
(Code 1986, § 31-286)

Sec. 31-287. Sewer charges for wheelage and treatment of wastewater discharges established.

For the purpose of providing wheelage and treatment of wastewater discharged into the city's interceptor sewer system by a member of the Chattanooga Area Regional Council of Governments, sewer charges are hereby established which shall be designated "Sewer Charges for Wheelage and Treatment of Wastewater Discharged into the Chattanooga Interceptor Sewer System."
(Code 1986, § 31-287)

Sec. 31-288. Areas where rates applicable.

The rates established for sewer charges for wheelage and treatment shall apply only to a municipality or other eligible local governmental unit which has constructed and shall operate and maintain its own complete sewerage collection system including necessary lift stations, trunk and outfall sewers to the point of connection with one (1) or more available city interceptors, outfall or trunk sewers which have ample capacity to handle the expected flows to be discharged into the city's system, and sewage flow meter at each such connection, provided such municipal or other sewerage system has been constructed in accordance with policies and standards of design and construction required by the city.
(Code 1986, § 31-288)

Sec. 31-289. Methods of calculating sewer charges.

The sewer charge for wheelage and treatment may be based upon either a "billable flow" method which is based upon the gross quantity of water sold as determined by water company meter readings or a "total flow" method as based upon flow meter readings as either method may be required or allowed according to the applicable contract with the user or applicable law or regulations.
(Code 1986, § 31-289; Ord. No. 13172, § 10, 4-18-17)

Sec. 31-290. Estimated charges; increased charges.

In the event a water meter or flow meter is inoperative or is malfunctioning, the engineering management consultant shall estimate, interpolate and/or project in the most equitable manner possible quantities of flow for such connection. Such projection along with available readings shall be used by the

engineering consultant in calculating monthly charges and shall be for certifying such estimates for billing purposes. Sewer service charges for residents of the city be the same percentage of increase may be applied to the above rate.
(Code 1986, § 31-290)

Sec. 31-291. Connection to interceptor sewer system; agreements authorized.

The mayor or his/her designee is authorized to execute on behalf of the city an agreement with any member of the Chattanooga Area Regional Council of Governments for such member to connect to the City's interceptor sewer system provided the aforementioned provisions are contained in such agreement.
(Code 1986, § 31-291; Ord. No. 13186, § 5, 6-6-17)

Secs. 31-292—31-294. Reserved.

ARTICLE VII. OTHER ENFORCEMENT AND APPEAL PROCEDURES

Sec. 31-295. Applicability; procedure.

(a) The Wastewater Regulations and Appeals Board shall schedule adjudicatory hearings to resolve disputed questions of law and fact whenever provided by a provision of this chapter or whenever a due process hearing is constitutionally required, excluding pretreatment enforcement provided for by Sections 31-59 to 31-65.

(b) Any person aggrieved by any order or determination of the director where an appeal is not otherwise provided by this chapter may appeal said order or determination to be reviewed by the board under the provisions of this section. A written notice of appeal shall be filed with the director and with the chairman, and said notice shall set forth with particularity the action or inaction of the director complained of and the relief being sought by the person filing said appeal. A special meeting of the board may be called by the chairman upon the filing of such appeal, and the board may in its discretion suspend the operation of the order or determination of the director appealed from until such time as the board has acted upon the appeal.

(c) The chairman may issue subpoenas requiring the attendance of witnesses or the production of evidence, or both. Upon endorsement by the chairman, they may be served in accordance with Tennessee statutes authorizing service of subpoenas.

(d) The party at such hearing bearing the affirmative burden of proof shall first call witnesses, to be followed by witnesses called by other party. Rebuttal witnesses shall be called in the same order. The chairman shall rule on any evidentiary questions arising during such hearing, and shall make such other rulings as shall be necessary or advisable to facilitate an orderly hearing subject to approval of the board. The board, the director, or his representative, and all parties shall have the right to examine any witness. The board shall not be bound by or limited to rules of evidence applicable to legal proceedings.

(e) The vice-chairman or the chairman pro tem shall possess all the authority delegated to the chairman by this section when acting in his absence or in his stead.

(f) Any person aggrieved by any final order of determination of the board hereunder shall have judicial review by common law writ of certiorari.
(Ord. No. 9409, § 3, 6-5-90; Ord. No. 12962, § 4, 6-16-15)

Sec. 31-296. Injunctive relief.

Upon approval of the mayor, the director shall in the name of the city file in circuit or chancery court of the county, or such other courts as may have jurisdiction, a suit seeking the issuance of an injunction, damages or other appropriate relief to enforce the provisions of this chapter or other applicable law or regulation. Suit may be brought to recover any and all damages suffered by the city as a result of any action or inaction of any user or other person who causes or suffers damage to occur to the POTW or for any other expense, loss or damage of any kind or nature suffered by the city.
(Ord. No. 9409, § 3, 6-5-90; Ord. No. 12962, § 4, 6-16-15)

Secs. 31-297—31-300. Reserved.

ARTICLE VIII. STORMWATER MANAGEMENT

DIVISION 1. GENERALLY*

Sec. 31-301. Purpose.

1. It is the purpose of this article to protect, maintain, and enhance the environment of the City of Chattanooga and public health, safety, and general welfare of the citizens of Chattanooga by controlling discharges of pollutants to the Chattanooga Stormwater System and to maintain and improve the quality of the community waters into which the stormwater outfalls flow, including without limitation, the lakes, rivers, streams, ponds, wetlands, sinkholes, and groundwater of Chattanooga.

2. It is further the purpose of this article to enable Chattanooga to comply with the National Pollution Discharge Elimination System permit (NPDES) and applicable regulations (40 CFR §122.26) for stormwater discharges.

3. It is the further purpose of this article to promote public health, safety and welfare through integrated site and landscape development to achieve effective stormwater management and the environmental, economic and social benefits of landscape, trees and their preservation.
(Ord. No. 12900, § 1, 2-3-15; Ord. No. 13251, § 1, 11-28-17)

Sec. 31-302. Definitions.

For the purpose of this article the following terms, phrases and words and their derivatives, shall have the meaning given herein:

"Abatement" means any action taken to remedy, correct, or eliminate a condition within, associated with, or impacting a drainage system.

"Accidental Discharge" means a discharge prohibited by this article into the "Community Waters" or to the "Waters of the State" which occurs by chance and without planning or consideration prior to occurrence.

"Agricultural Structures" that are also used for other uses, subject to this article, are not exempt.

***Editor's note—**Ord. No. 12900, § 1, adopted February 3, 2015, amended div. 1, §§ 31-301—31-303, in its entirety. Former div. 1 pertained to similar subject matter and was derived from Ord. No. 9942, § 1, adopted August 31, 1993; Ord. No. 12294, § 2, adopted October 6, 2009; Ord. No. 12377, § 1, adopted April 20, 2010; Ord. No. 12721, § 1, adopted May 21, 2013 and Ord. No. 12881, § 1, adopted November 25, 2014.

"Adjustment" means a modification in a non-residential customer's water quality service fee for certain activities that impact water quality runoff or impacts the City's costs of providing water quality management.

"Approved Applicant" is that person who signs land disturbance permit applications or applications related to the administration of the Credits and Incentive Manual (CIM). The approved applicant may or may not be the property owner, user, or developer of a property.

"Authorized Agent (approved applicant) Affidavit" is a signed and notarized affidavit that an individual has received approval from a property owner or property owner's representative to act on his/her behalf. The City will require submittal of an executed and notarized affidavit prior to accepting or issuing Stay on Volume credit coupons.

"As Built Plans" means drawings depicting structures, facilities, systems, landscaping, and site conditions as they were actually installed and constructed.

"Best Management Practices" or "BMPs" means schedules of activities, prohibitions of practices, maintenance procedures, and other management practices to prevent or reduce the pollution of stormwater runoff. BMPs also include treatment requirements, operating procedures, and practices to control site runoff, spillage or leaks, sludge or waste disposal, or drainage from raw material storage.

"Bioretention" system is a stormwater management practice to manage and treat stormwater runoff using temporary ponding, conditioned soils, organic and mulch layers, stone and plants. Stormwater runoff is treated through the processes of filtration, evapotranspiration, adsorption, nutrient uptake, and other physical and biological processes.

"Brownfield" as defined by the Tennessee Department of Environment Conservation ("TDEC"), is real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substances, pollutants, or contaminants.

"Buffer" see "Water Quality Buffer"

"Clean Water Act" means the Federal Water Pollution Control Act, as amended, codified at 33 U.S.C. §1251, et seq.

"Code" means the Chattanooga Municipal Code.

"Commercial" land use means property devoted in whole or in part to the commerce, that is, the exchange and buying and selling of commodities or services.

"Community Waters" means any and all rivers, streams, creeks, branches, lakes, reservoirs, ponds, drainage systems, springs, wetlands, wells and other bodies of surface or subsurface water, natural or artificial, lying within or forming a part of the boundaries of the City of Chattanooga and the waters into which the Chattanooga Stormwater System outfalls flow.

"Condominium Property" is defined as a lot or a parcel of real estate in which individuals own their units and share joint ownership in common elements with other unit owners. Water Quality fees are assessed according to the following:

- Condominium dwelling units with separate/individual parcels are treated as "Residential" properties;
- Condominium dwelling units without separate/individual parcels, which are part of another parcel or share the same parcel with other units, are treated as "Non - Residential" properties.

"Credit Coupon" is a coupon issued by the City of Chattanooga to approved applicants for exceeding the Stay on Volume requirement on new and redevelopments, retrofit or offsite mitigation sites. With certain restrictions, it can be applied to meet the onsite Stay on Volume requirement of another site or be traded or sold in an open market. Credit coupons are given in cubic feet and have no monetary face value.

- In contrast, credit coupons can always be applied, citywide and without percentage restrictions, to meet Stay on Volume obligations in the presence of documented site infeasibilities.
- Total suspended solids treatment is still required on the primary site for any uninstalled Stay on Volume even when credit coupons are applied.

"Critical Areas" contain sensitive resources such as protected wetlands, aquifer recharge areas, fish and wildlife habitat conservation areas, frequently flooded areas, geologically hazardous areas, 303d listed streams, high quality streams, sinkholes, previously contaminated sites, and critical habitat areas for endangered species.

"CSO" — A Combined Sewer Overflow is the inadvertent discharge from a Combined Sewer System that occurs prior to its confluence with the Publicly Owned Treatment Works.

"CSS" — A Combined Sewer System conveys both sanitary wastewaters (domestic, commercial and industrial wastewaters) and stormwater through a single or connected pipe system to a Publicly Owned Treatment Works.

"Detention" is described as the temporary storage of stormwater runoff in a basin, pond, or other structure to control the peak discharge rate by holding the stormwater for a lengthened period of time.

"Detention Facility" means an area or facility designed to temporarily store excess stormwater.

"Design Storm Event" means a hypothetical constant intensity storm event, of a given frequency interval and duration, used in the analysis and design of a stormwater facility.

"Discount" see "Water Quality Fee Discount"

"Easement" means an acquired privilege or right of use that a person, party, firm, corporation, city or other legal entity has in the land of another.

"Equivalent Residential Unit (ERU)" is equal to the average amount of impervious area of residential properties within the City of Chattanooga based on statistical sampling. Each ERU shall have the value assigned by this Article.

"Erosion Prevention and Sediment Control Plan" or "EPSC Plan" means a written plan, including drawings or other graphic representations, for the control of soil erosion and sedimentation resulting from a land disturbing activity.

"Exceptional Tennessee Waters" are surface Waters of the State of Tennessee that satisfy the characteristics as listed in Rule 1200-4-3-.06 of the official compilation — rules and regulations of the State of Tennessee. Characteristics include waters designated by the Water Quality Control Board as Outstanding National Resource Waters (ONRW); waters that provide habitat for ecologically significant populations of certain aquatic or semi-aquatic plants or animals; waters that provide specialized recreational opportunities; waters that possess outstanding scenic or geologic values; or waters where existing conditions are better than water quality standards.

"Facilities" means any man-made or natural conveyance for stormwater, including but not limited to, streets, curbs, gutters, catch basins, inlets, pipes, culverts, ditches, gulleys, canals, flumes, siphons, and stormwater detention facilities that are owned by or maintained in whole or in part by the City of Chattanooga and used for purposes of collecting, transporting, detaining, pumping, treating or disposing of

stormwater. "Facilities" shall also mean dams, flood walls, levies, pumping stations and other structures owned by or maintained in whole or in part by the City for flood control. Facilities shall not include road or highway bridges designed for spanning a navigable river or creek.

"Forestry Roads" that are used to access other land uses, subject to this article, are not exempt.

"Grandfather Clause" is a provision in which previous rules, ordinances or regulations may continue to apply to some existing situations, while new rules will apply to all future cases. Those exempt from the new rule are said to have grandfather or acquired rights. As later defined in this Chapter, the exemption is limited and it may be lost under certain circumstances. The City may use this provision as a compromise out of practicality, to effect new rules without unduly upsetting or burdening the development of land that fully complies with previously established regulations.

"Hardship" is a City accepted site limitation to the full application of the Stay on Volume as described in TNS068063 and in the Rainwater Management Guide. See "Infeasibility Criteria" for additional information.

"Hot Area" means an area where land use or activities generate highly contaminated runoff, with concentrations of pollutants in excess of those typically found in stormwater. Examples might include operations producing concrete or asphalt, auto repair shops, auto supply shops, large commercial parking areas, gas fueling stations and restaurants.

"Impaired Waters" means any segment of surface waters that has been identified by the TDEC as failing to support classified uses. TDEC periodically compiles a list of such waters known as the 303(d) List.

"Industrial" means a business engaged in industrial production or service, that is a business characterized by manufacturing or productive enterprise or a related service business. This term shall include, by way of example but not of limitation, the following: apparel and fabric finishers, blast furnace, blueprint and related shops, boiler works, cold storage plants, contractors plants and storage facilities, foundries, furniture and household good manufacturing, forge plants, foundries, greenhouses, junk yards, manufacturing plants, metal fabricating shops, ore reduction facilities, planning mills, rock crushers, rolling mills, saw mills, smelting operations, stockyards, stone mills or quarries, textile production, utility transmission or storage facilities, warehousing, and wholesaling facilities.

"Infeasibility Criteria" means documenting that a new or redevelopment site is eligible to implement some combination of minimum 80% TSS controls, mitigation or credit coupon redemption. Documentation of an infeasibility must include multiple criteria that would rule out an adequate combination of infiltration, evapotranspiration and reuse. Limitation to the use of these practices is defined in Permit number TNS068063 or the Rainwater Management Guide ("RMG"). The determination of infeasibility cannot be based solely on the difficulty or cost of implementing measures.

"Infiltration" is defined as a complex process of allowing runoff to penetrate the ground surface and flow through the upper soil surface. Water infiltrating during a rainfall event is removed from the direct runoff and usually does not contribute to a stream or other tributary's peak flood flow rate.

"Impervious" means not allowing the passage of water through the surface of the ground or ground covering or a substantial reduction in the capacity for water to pass through the surface of the ground or ground covering.

"Institutional" means an established organization, especially of a public or eleemosynary character. This term shall include, by way of example but not of limitation, the following: churches, community buildings, colleges, day care facilities, dormitories, drug or alcohol rehabilitation facilities, fire halls, fraternal organizations, golf courses and driving ranges, government buildings, hospitals, libraries, kindergartens or preschools, nursing homes, mortuaries, schools, social agencies, synagogues, parks and playgrounds.

"Land Disturbing Activity" means any land change which may result in soil erosion from water and wind and the movement of sediments into Waters of the State, Community Waters or onto lands and roadways within the community, including, but not limited to, clearing, dredging, grading, excavating, transporting and filling of land.

"Leadership in Energy and Environmental Design" (LEED). A Green Building Rating System, developed by the U.S. Green Building Council for residential and commercial buildings. LEED provides benchmarks for the design, construction and operation of property and covers site makeup, building materials, water and energy efficiency, as well as indoor environmental quality.

"Long Term Maintenance Plan" is a specific site's stormwater facility maintenance plan. It shall include required maintenance activities, frequency and schedule of inspections, and records keeping practices to document compliance. It must identify the stormwater, vegetation, and/or water quality components located on, or associated with a property to be maintained.

"Low-Impact Development" or "LID" are stormwater management and design strategies, integrated into the planning and design of a development. LID developments strive to conserve natural features, minimize or eliminate pollutants in stormwater through natural processes, and maintain pre-development hydrologic characteristics such as natural flow patterns, surface retention, non-erosive discharge rates and recharge rates.

"Manager" means the person designated by the City to supervise the operation of the stormwater management system and who is charged with certain duties and responsibilities by this article, or his or her duly authorized representative.

"Mobile Home Property" is defined as a lot or a parcel of real estate in which individuals own their units and share joint ownership in common elements with other unit owners. Water Quality fees are assessed according to the following:

- Mobile Home dwelling units with separate/individual parcels are treated as "Residential" properties;
- Mobile Home dwelling units without separate/individual parcels, which are part of another parcel or share the same parcel with other units, are treated as "Non - Residential" properties.

"Multi-Family Residential" means an apartment building or other residential structure built for three (3) or more family units, mobile home parks with three (3) or more units or lots under common ownership, and condominiums of three (3) or more units.

"National Pollution Discharge Elimination System" or "NPDES" permit means a permit issued pursuant to Section 402 of the Act (33 U.S.C. §1342).

"Non-Residential Properties" means all properties not encompassed by the definition of "Residential Property." Non-residential properties include:

- Apartment properties;

- Condominium dwelling units without separate/individual parcels;
- Mobile home parks with rented spaces (parcel not owned);
- Commercial property;
- Industrial property;
- Institutional property;
- Governmental property;
- Churches;
- Schools;
- Federal, state, and local properties; and
- Any other property not mentioned in this or the list of residential properties below.

"Notice of Coverage" or "NOC" is a notice from the NPDES permitting authority to the primary permittee authorizing the discharge of stormwater associated with construction activity under the NPDES program.

"Notice of Intent" or "NOI" is the mechanism used to "register" for coverage under a NPDES Construction General Permit.

"Notice of Termination" or "NOT" is the request by the primary permittee to terminate coverage under the NPDES Construction General Permit. It constitutes notice that the party identified in the "NOT" is no longer authorized to discharge stormwater associated with construction activity under the NPDES program.

"Person" means any individual, partnership, co-partnership, firm, company, corporation, association, joint stock company, trust, estate, governmental entity or any other legal entity, or their legal representatives, agents or assigns. The masculine gender shall include the feminine, the singular shall include the plural where indicated by the context.

"Permeable" see "Pervious."

"Pervious" defines a natural or engineered surface, material or ground cover that allows for the passage of water into underlying soil layers or media for the purpose of stormwater volume reduction and/or water quality treatment.

"Private Maintenance Responsibility" means that the inspection, maintenance, repair and reconstruction of stormwater control measures and conveyances not located on City right-of-way shall be the responsibility of:

i) The owner of the property where structures are located;

ii) Any person or entity that has legally agreed to take responsibility; and

iii) The non-City properties served by the structures or conveyances, as determined by reference to site plans, plats, and construction drawings submitted and approved during the development review process.

"Public Stormwater Project Fund" is an account or fund set aside by the City to collect mitigation fee-in-lieu deposits made by owner/applicants. The account will be a subset of the Water Quality Program's existing capital expenditures account. The revenues generated by the mitigation fees will be deposited and periodically used, by the City of Chattanooga, to partially or wholly fund the design, related land acquisition, construction, installation, permitting and perpetual maintenance of publicly owned stormwater best management practices. Such facilities would be constructed offsite, in lieu of onsite privately owned

practices that could not be constructed or installed as a result of physical site limitations on the owner/applicant's primary site. Public stormwater project funds may also be used to fund reforestation, riparian restoration or other projects with a direct runoff reduction or water quality benefit at the discretion of the City Engineer. To allow for sufficient funds, the City may pool fees, collected from multiple sites, and install practices upon collection of sufficient funds to initiate desired projects. Public stormwater projects are deemed by the City of Chattanooga as those that have a public benefit for water resources protection or enhancement, stormwater treatment, and/or ecological restoration, and that may have other community benefits.

"Redevelopment" means the alteration of developed land that result in land disturbance. The term is not intended to include such activities as exterior remodeling, which would not be expected to cause adverse stormwater quality impacts.

"Residential Property" means all single-family, condominium dwelling units with separate/individual parcels, mobile home units with separate/individual parcels and separate City tax billing accounts, two-family duplex properties, and all agricultural parcels within the City of Chattanooga.

"Retention Facility" or "Retention Pond" means a facility, which provides storage of stormwater runoff and is, designed to eliminate subsequent surface discharges.

"Retrofit" is the voluntary expansion, modification, or other upgrading of existing stormwater management strategies to increase groundwater recharge, promote stormwater reuse, promote runoff reduction, and/or improve water quality. Approved applicants may earn credit coupons and/or water quality fee discounts, for the property owner, upon the installation of stay-on-volume retrofits. Since there is no recognized benefit, fee reduction nor SOV avoidance, from applying credit coupons to voluntary retrofit sites, it is not allowed.

"Significant Spills" includes, but is not limited to releases of oil or hazardous substances in excess of reportable quantities under section 311 of the Clean Water Act (see 40 CFR 110.10 and CFR 117.21) or section 102 of CERCLA (see 40 CFR 302.4).

"Significant Redevelopment" means the alteration of developed land that results in land disturbances and may result in other site requirements.

"Small Site Controls" - Applicable to new and redevelopments disturbing between five thousand (5,000) square feet and one (1) acre of land. Not applicable in CSS Areas nor to existing Single Family platted lots on existing streets provided the number of platted lots remains unchanged.

"Square Footage of Impervious Area" means, for the purpose of assigning an appropriate number of ERUs to a parcel of real property, the square footage of all impervious area using the outside boundary dimensions of the impervious area to include the total enclosed square footage, without regard for topographic features of the enclosed surface.

"Stay on Volume" or "SOV" is the volume of stormwater runoff, from impervious surfaces, measured in cubic feet, that must be captured and managed onsite as required by the City's stormwater regulations with no discharge to surface waters or City storm sewers, as calculated by an approved methodology set forth in this Article.

"Storm Sewer" means a sewer, piping or natural structure, which carries stormwater, surface runoff, street runoff, and drainage, but which excludes sanitary sewage and industrial wastes, other than unpolluted cooling water.

"Stormwater" means stormwater runoff, snow melt runoff, and surface runoff and drainage.

"Stormwater Control Measures" or "SCMs" are permanent practices and measures designed to reduce the discharge of pollutants from New Development Projects.

"Stormwater Management" means the collection, conveyance, storage, treatment and disposal of stormwater runoff in a manner to meet the objectives of this article and its terms, including, but not limited to measures that control the increased volume and rate of stormwater runoff and water quality impacts caused by manmade changes to the land.

"Stormwater Management Facilities" are the integrated site systems designed to collect, infiltrate, harvest, evapotranspire, convey, pump, treat or reuse stormwater runoff.

"Stormwater Pollution Prevention Plan" or "SWPPP" is a written plan that includes site map(s), an identification of construction/contractor activities that could cause pollutants in the stormwater, and a description of measures or practices to control these pollutants. It must be prepared and approved before construction begins. The SWPPP shall be prepared in accordance with the Tennessee Erosion & Sediment Control Handbook.

"Stormwater Pollutants" include nutrients (nitrogen and phosphorus), bacteria, total suspended solids, and any other substances that can be transported via stormwater and that are identified in this article or by TDEC as requiring regulation.

"Stormwater System" means all facilities owned or maintained by the City for collecting, detaining, conveying, reusing, infiltrating or treating stormwater from any parcel or place upstream or up gradient of any point of discharge to a river or creek not maintained by the City for conveyance of stormwater or flood control. Stormwater system shall also mean all facilities owned by or maintained by the City for purposes of flood control.

"Stream" means a surface water that is not a Wet Weather Conveyance. [Rule 1200-4-3-.04(20)]

"Stream Determinations" are made by qualified hydrologic professionals, in good standing, using TDEC's hydrologic determination methodology. The developer and his/her qualified professional will bear the burden of proof for a determination that a conveyance is not a stream. If the developer is unsure about the designation of waters of the state, TDEC staff can make the determination. The final approval of this determination of waters-of-the-state will be made by the City. Wetland and stream determination may also include determinations from the United States Army Corps of Engineers.

"Toxic Pollutant" means any pollutant or combination of pollutants listed as toxic in 40 CFR Part 401 promulgated by the Administrator of the Environmental Protection Agency under the provisions of 33 U.S.C. §1317.

"TSS Controls" — BMPs designed to remove at least eighty percent (80%) of the Total Suspended Solids from the WQv;

"Unavailable Parameters Waters" means any stream segment that has been identified by the division as failing to support classified uses. This term was previously referred to as Impaired Waters. The division periodically compiles a list of such waters known as the 303(d) List.

"Variance" means the modification of the minimum stormwater management requirements contained in this article and the EPSC plan or SWPPP for specific circumstances where strict adherence of the requirements would result in unnecessary hardship and not fulfill the intent of this article.

"Water Quality Buffer(s)" New development and significant redevelopment sites are required to preserve and maintain both sides of the streams or other waters located on their site. Water quality buffers shall be clearly marked on construction sites, grading permit applications, and on all phases of stormwater management plans before any clearing or grading can begin.

"Water Quality" means those characteristics of stormwater runoff that relate to the physical, chemical, biological, or radiological integrity of water.

"Water Quality Fee" is defined as a fee assessed to users and contributors of flow to the City's stormwater collection, impounding and transportation system.

"Water Quality Fee Discount" is a percent reduction to the annual water quality fee, available to non-residential property owners by application. Discounts are awarded for approved controls and practices resulting in an exceedance of the applicable baseline stay-on-volume. Discounts are subject to approval by the City.

"Water Quality Volume" or "WQv" is defined in the Rainwater Management Guide. It is the site specific runoff resulting from the specified rainfall event based on the selected SCM(s).

"Water Quantity" means those characteristics of stormwater runoff that relate to the discharge rate and volume of the stormwater runoff.

"Waters of the State" or simply "Waters" is defined in the Tennessee Water Quality Control Act and means any and all water, public or private, on or beneath the surface of the ground, which are contained within, flow through or border upon Tennessee or any portion thereof except those bodies of water confined to and retained within the limits of private property in single ownership which do not combine to effect a junction with natural surface or underground waters.

"Wet Weather Conveyance" means, notwithstanding any other law or rule to the contrary, man-made or natural watercourses, including natural watercourses that have been modified by channelization:

- That flow only in direct response to precipitation runoff in their immediate locality;
- Whose channels are at all times above the groundwater table;
- That are not suitable for drinking water supplies; and
- In which hydrological and biological analyses indicate that, under normal weather conditions, due to naturally occurring ephemeral or low flow there is not sufficient water to support fish, or multiple populations of obligate lotic aquatic organisms whose life cycle includes an aquatic phase of at least two (2) months. [Rule 1200- 4-3-.04(25)]

(Ord. No. 12900, § 1, 2-3-15; Ord. No. 12985, § 1, 9-1-15; Ord. No. 13251, § 1, 11-28-17; Ord. No. 13486, § 4, 7-23-19)

Sec. 31-303. Abbreviations.

"CFR" means Code of Federal Regulations.

"CGP" means Construction General Permit.

"NPDES" means National Pollutant Discharge Elimination System.

"TDEC" means Tennessee Department of Environment and Conservation.

"T.C.A." means Tennessee Code Annotated.

"U.S.C." means United States Code.

(Ord. No. 12900, § 1, 2-3-15; Ord. No. 13251, § 1, 11-28-17)

Secs. 31-304—31-312. Reserved.

DIVISION 2. NEW DEVELOPMENT AND REDEVELOPMENT REQUIREMENTS*

Sec. 31-313. New Development and Redevelopment Requirements.

Permanent Best Management Practices Manual

1. Adoption. The City adopts the following publications, which are incorporated by reference in this ordinance as if fully set out herein: The City of Chattanooga Rainwater Management Guide ("RMG") and Landscape requirements, most current editions; and Tennessee Permanent Stormwater Management and Design Guidance Manual-1st Edition.

2. The City's RMG includes a list of acceptable SCMs including the specific design performance criteria, operation and maintenance requirements for each stormwater practice and requirements to comply with the goals of the NPDES MS4 permit. In addition, the RMG includes acceptable methods of determining what constitutes "infeasibility" or "hardships" that would allow options to the SOV. Such acceptable methods will allow a developer to employ soil feasibility practices designed by the engineer to mimic nature as far as possible. This methodology will allow perc testing at the natural points of discharge as a general practice. If permeability is determined to be 0.5 inch/hour or less in the natural points of discharge where the RMG is to be achieved, then the developer may request that the site be determined to be impermeable, and, therefore, infiltration methods are infeasible in these areas of the property. The RMG includes City approved SCMs for permanent stormwater management including green infrastructure and water reuse SCMs.

3. The City's RMG may be updated and expanded from time to time, upon the recommendation of the City Engineer, based on improvements in engineering, science, monitoring results and local maintenance experience, or changes in federal or state law or regulations. Stormwater facilities that are designed, constructed and maintained in accordance with these RMG criteria will be presumed to meet the minimum water quality performance standards.

4 General design performance criteria for permanent stormwater management:

   The following performance criteria shall be addressed for permanent stormwater management at all development sites:

   A. The City's stormwater management program, as described in the RMG, imposes requirements for new and redevelopment projects to manage stormwater runoff for volume management, water quality treatment, and peak rate control. LID, practices and strategies such as conservation, preservation, restoration, and green infrastructure measures are recommended to be used to meet stormwater management requirements.

   B. The calculations for determining peak rate flows shall be used, at a minimum, for sizing all stormwater facilities.

   C. The Small Site Control Method is applicable to non-CSS area, new and redevelopment projects disturbing between five thousand (5,000) square feet and one (1.0) acre.

      i. Applicable projects proposing no increase to impervious surface are required to implement either volume or flow based TSS controls.

      ii. Projects proposing to increase net impervious surface may implement one (1.0) inch baseline SOV, recognizing ten percent (10%) additive SOV deductions defined in NPDES permit TNS068063, if applicable, OR implement TSS treatment plus two (2) year through twenty-five (25) year frequency peak rate attenuation.

***Editor's note—**Ord. No. 12900, § 1, adopted February 3, 2015, amended div. 2, § 31-313, in its entirety. Former div. 2 pertained to similar subject matter and was derived from Ord. No. 12881, § 1, adopted November 25, 2014.

iii. TSS and SOV controls shall be designed and installed for the proposed impervious area(s). Peak rate attenuation (Q 2 through Q 25) is to mitigate any proposed net increases to impervious surface or discharge rates.

D. For projects greater than one (1) acre of disturbance or part of a larger plan of common development that will exceed one (1) acre of disturbance, all new developments and all redevelopment projects, in combination or alone, are required to incorporate runoff reduction measures designed, constructed and maintained, to manage (infiltrate, evapotranspire, harvest and/or use), at a minimum, the first one (1.0) inch of every rainfall event preceded by seventy-two (72) hours of no measurable precipitation, with no discharge from the project site to surface waters. This first inch of rainfall must be one hundred percent (100%) managed with no discharge to surface waters. The required volume to be managed is referred to as the "SOV" as calculated by the method set forth in the RMG.

i. All Redevelopment Projects shall be eligible for ten percent (10%) deduction from the one (1.0) inch SOV for each of the following criteria. Deductions are additive up to fifty percent (50%) maximum deduction.

1. Redevelopment;
2. Brownfield redevelopment;
3. Density greater than seven (7) units per acre;
4. Vertical density resulting in Floor to Area Ratio (FAR) of two (2) or alternately resulting in greater than eighteen (18) units per acre;
5. Mixed Use and Transit Oriented Development within one- half (½) mile of an established transit route;

ii. The deductions in this paragraph shall not apply to New Development Projects.

E. Whenever the SOV from an applicable project area cannot be managed or achieved onsite, per City requirements, the applicant/owner shall provide appropriate documentation to the City, using approved methodology and in acceptable detail, why the SOV cannot be managed. See definitions for "infeasibility" and "hardships."

F. Where SOV is infeasible, one of the following options would be allowed, at the choice of the applicant:

- Option 1: Pay mitigation fee for unmet SOV (either credit coupons, fee in lieu or off-site mitigation), or
- Option 2: Filter 2.1" rainfall through Modified Green Infrastructure SCM devices to remove a minimum of eighty percent (80%) TSS. With documented SOV infeasibilities, this option satisfies requirements without mitigation, i.e. no offsite SOV installation and/or fees in lieu; or
- Option 3: Filter 3.1", one-year storm using approved SCMs to remove a minimum of 80% TSS such as various combinations of: extended detention pond (sized based on the runoff from the 3.1", one-year storm for 24-72 hour retention) and/or NJCAT verified proprietary TSS controls. With documented SOV infeasibilities, this option satisfies requirements without mitigation, i.e. no offsite SOV installation and/or fees in lieu.

G. Applicable primary development sites must demonstrate compliance with flood control (peak attenuation) at all site outfalls AND secondary water quality requirements (TSS treatment) for those areas where it has been proven to be infeasible to achieve full SOV compliance.

H. The application of previously earned or acquired credit coupons on a primary site DOES NOT satisfy, equate to, or in any way reduce the site's TSS or peak attenuation requirements.

I. Projects that effectively manage the SOV from one hundred percent (100%) of the impervious area, through on-site installation, are assumed to have met all water quality (pollutant removal) requirements.

J. Guidance regarding infiltration testing methods, procedures, and design guidelines is provided by the City and the RMG.

5. Limitations to the installation of runoff reduction measures include, but are not limited to physical site infeasibilities such as:

A. Where a potential for introducing pollutants into the groundwater exists, unless pretreatment is provided;

B. Where pre-existing soil contamination is present in areas subject to contact with infiltrated runoff;

C. Presence of sinkholes or other karst features;

D. Pre-development infiltrative capacity of soils must be taken into account in selection of runoff reduction measures.

E. High permanent groundwater table;

6. Peak Flow Rate and Flood Control Standards

Applicable projects proposing land disturbances must implement measures to mitigate the post-development peak runoff rates to no greater than the existing development peak runoff rates for the two (2), five (5), ten (10), and twenty-five (25) year twenty- four (24) hour storm events. In addition to peak rate attenuation, one hundred (100) year storm event peak flow rates and maximum water surface elevations must be calculated per the RMG.

A. CSS stormwater controls are based on whether the proposed development results in increases to either impervious surface or to stormwater discharge rates at all significant analysis points where site runoff leaves the property and negatively impacts other uses or properties. A site with an overall "net" impervious surface or discharge decrease may still be responsible for peak attenuation depending on the severity of discharges at individual analysis points.

The CSS control method requires attenuation of post-development peak stormwater runoff rates to no greater than existing conditions. This is required for the two (2), five (5), ten (10), and twenty-five (25) year twenty-four (24) hour storm events.

Stormwater runoff entering CSS systems already receives primary treatment. Therefore, there are no additional on-site post-development (permanent) water quality treatment requirements, neither TSS nor SOV, for drainage areas discharging into CSS systems. Therefore, installing SOV in CSS areas, as another site's offsite mitigation location or to earn credit coupons is NOT recognized.

B. Although SOV is not required in CSS areas, green infrastructure and SOV practices can directly reduce a site's peak runoff rates. CSS projects may utilize these practices, and quantify the benefits for flood control, per the RMG.

C. Detention or retention ponds, and other SCMs used for peak rate control only, shall be designed in accordance with the current edition of the Chattanooga Hamilton County BMP Manual and the RMG requirements on peak attenuation.

D. Projects on unmapped watercourses draining fifty (50) acres or more shall be investigated by a professional engineer. The elevation of the one hundred (100) year event flood level, as well as the elevations of proposed structures adjacent to setbacks (setbacks measured from the centerline of the unmapped watercourse) shall be determined and included in the final design. All flood investigations, on mapped and unmapped water courses, shall comply with the Federal Emergency Management Agency's (FEMA) design methodologies and must prohibit adverse flooding impacts to other properties.

7. To protect stream channels from degradation, specific channel protection criteria shall be provided as prescribed in the RMG.

8. Stormwater discharges to Critical Areas (see definition) with sensitive resources may be subject to additional performance criteria, or permitting requirements by state or federal agencies, such as TWRA, TVA, and USF&W, etc.

9. Stormwater discharges from Hot Areas may require the application of specific structural SCMs, pollution prevention practices and or pre-treatment devices. Stormwater from Hot Areas land uses should not be directly infiltrated without pre-treatment.

10. Easements.

A. Storm drainage easements shall be required where the conveyance, storage, or treatment of stormwater is identified on the stormwater management design plan, or where access is needed to structural or non- structural stormwater measures.

B. Easement widths shall be based on the type of drainage system component, size, and depth.

11. As-Built Plans.

All applicants are required to submit as-built plans for permanent stormwater management facilities located on-site after final construction is completed.

A. As Built Plans must show the final design specifications, meet the criteria per City requirements, and be sealed by a registered professional engineer, registered land surveyor, or registered landscape architect licensed in Tennessee.

B. A final inspection by the City is required before any performance bond or guarantee will be released. If the As Built Plans indicate deviation from design, then a professional engineer or landscape architect must prove performance of the SCM as installed.

C. The City shall have the discretion to adopt provisions for a partial pro-rata release of the performance security or bond on the completion of various stages of development. In addition, the certificate of occupancy shall not be granted until corrections to all SCMs have been made and accepted by the City.

12. Grandfathering.

Projects issued Land Disturbing Permits for New Construction, Addition, Alteration, or Repair/Replacement to the City's Land Development Office before the close of business day November 30, 2014 and/or projects having a preliminary plat with approved construction documents submitted to the City's Land Development Office before the close of business day November 30, 2014, shall, be eligible for grandfathering under the City of Chattanooga's prior stormwater management regulations.

A. Applicable out parcels served by previously permitted on-site, shared, or regional stormwater management facilities must comply with the requirements in effect at the time the master plan development was originally submitted and/or approved.

B. The applicant may not be able to rely solely on the information contained in any remaining City records. The burden of proof as to whether applicable outparcels are adequately served by existing controls is on the applicant.

C. After December 1, 2014, any proposed additional impervious surface, exceeding what was detailed in the original plans or study shall be considered significant redevelopment and managed using the runoff reduction standards in the RMG.

D. New runoff reduction standards are preferable. Therefore, no part of the grandfathering clause shall preclude the permittee from voluntarily constructing stormwater controls to the more beneficial, new standard.

(Ord. No. 12900, § 1, 2-3-15; Ord. No. 12985, § 2, 9-1-15; Ord. No. 13251, § 1, 11-28-17)

Sec. 31-314. Private property responsibility.

A. The owner/operator of any Stormwater Control Measures (SCMs) is responsible for ensuring the proper operation and full functionality per design of each SCM on their property. The owner/operator is solely responsible for the cost of inspecting and maintaining said SCMs.

B. The owner/operator shall perform quarterly inspections, at a minimum, of all SCMs on the site. At least one of the quarterly inspections performed within a year must be performed by an individual certified in post-construction SCM inspection.

i. Inspection reports shall be submitted annually to the Water Quality Manager.

ii. Inspection documentation shall be maintained by the owner/operator for a minimum of three (3) years.

C. The owner/operator shall have comprehensive inspections conducted of all SCMs at least once every five (5) years. Such inspections must be conducted by a licensed professional engineer or landscape architect practicing within their range of competency. A comprehensive inspection report shall at least include:

i. SCM type(s);

ii. Inspection date;

iii. Map showing location of each SCM;

iv. SCM owner information (e.g., name, address, phone number, email);

v. SCM condition and functionality descriptions along with specific maintenance items/violations to be corrected in order to return SCM to designed functionality; and

vi. Photographic documentation of SCMs.

D. The City Engineer, or his/her designee, shall have the authority to inspect private drainage systems, including SCMs, within the City, and to order such corrective action(s) to said systems, as are necessary to properly maintain the major and minor drainage systems within the City.

E. All new developments, redevelopments, and retrofit sites installing Stormwater Control Measures (SCMs) shall be required to execute an Inspection and Maintenance Agreement for Private Stormwater Management Facilities (the "Agreement"). The Agreement must designate the owner/operator as the responsible party and must grant the City the right to inspect the SCMs. If the owner/operator fails to

perform maintenance, after being given appropriate written notice, the Agreement shall grant authority to the City to perform the required maintenance and bill the owner/operator double the amount of the City's cost of maintenance and enforcement.

i. Before the Agreement is approved by the City, the owner/operator must demonstrate that a stormwater inspection and maintenance contract has been secured with a certified company. Contracts must be for at least two (2) years. The contract shall contain a detailed scope of the inspection and maintenance to be performed for each SCM, as stated in the Agreement.

F. Single Family Residential Pond Program.

i. The City may perform functional maintenance for privately owned single family residential stormwater ponds or other SCMs.

ii. Functional maintenance shall be defined as significant activities needed to repair/maintain the designed flood control and/or water quality treatment. The Water Quality Manager shall be ultimately responsible for making functional maintenance determinations on a case-by-case basis.

iii. The property owner must submit an application for their SCMs to be considered in the SFR Pond Program.

iv. In order for the SCM to be accepted into the program; a Temporary Construction Easement Agreement and an Inspection and Maintenance Agreement (IMA) must be legally recorded for the property.

v. The private property owner shall remain responsible for all routine and general maintenance as stated in the IMA to ensure the SCM provides the designed flood control and/or water quality treatment.

(Ord. No. 13251, § 1, 11-28-17; Ord. No. 13486, § 1, 7-23-19; Ord. No. 13591, § 1, 8-25-20; Ord. No. 14231, § 1, 5-13-25; Ord. No. 14336, § 1, 3-10-26)

Secs. 31-315—31-319. Reserved.

DIVISION 3. LAND DISTURBING ACTIVITY AND EROSION AND SEDIMENTATION CONTROL*

Sec. 31-320. Land disturbing activity.

All land disturbing activities shall be in compliance with and permitted under this Division 3. If non-exempt land disturbing activities are planned, the property owner shall apply to the City for a Land Disturbance Permit. If one (1) acre or more of total land area is disturbed, the property owner shall also apply for a Land Disturbance Permit under the "State of Tennessee's General NPDES Permit for

***Editor's note—**Ord. No. 12900, § 1, adopted February 3, 2015, amended div. 3, §§ 31-320—31-325.9, in its entirety. Former div. 3 pertained to similar subject matter and was derived from Ord. No. 9942, § 1, adopted August 31, 1993; Ord. No. 11470, § 1, adopted October 14, 2003; Ord. No. 11639, § 2, adopted November 9, 2004; Ord. No. 12721, §§ 3—5, adopted May 21, 2013 and Ord. No. 12881, § 1, adopted November 25, 2014.

Stormwater Discharges Associated with Construction Activity." If a Tennessee General NPDES Permit is applied for, a copy of the NOI shall be sent to the City. To seek coverage under the TDEC General Permit, the NOI shall be submitted to the following:

TDEC address:

Tennessee Dept. of Environment and Conservation Chattanooga Environmental Field Office
1301 Riverfront Parkway, Suite 206
Chattanooga, TN 37402

City of Chattanooga address:

City of Chattanooga
Land Development Office Plans Review Services
1250 Market Street, Suite 1000
Chattanooga, TN 37402

Applicability

Division 3 of this article shall be applicable to all land development, including, but not limited to, building permits, site plan applications, subdivision applications, and grading applications. These provisions apply to any new development or redevelopment site within the jurisdiction of the City.
(Ord. No. 12900, § 1, 2-3-15; Ord. No. 13251, § 1, 11-28-17)

Sec. 31-321. Land disturbing activity regulated.

1. It shall be unlawful for any person to conduct or allow any Land Disturbing Activity upon land owned or controlled by them (including, but not limited to, clearing, dredging, grading, excavating, transporting and filling of land), whether temporary or permanent, within the City of Chattanooga until a Land Disturbance Permit has been issued by the City. The issuance of said permit will allow such activity pursuant to the provisions of this article and in accordance with the General NPDES Permit for Stormwater Discharges from Construction Activities issued by TDEC. The property owner shall apply for the permit.

Below is a list of site practices that are exceptions to the term Land Disturbing Activity:

A. "Surface mining" as the same is defined in Tennessee Code Annotated Section 59-8-202;

B. Such minor land disturbing activities as home gardens and individual home landscaping, home repairs, home maintenance work, and other related activities which result in negligible soil erosion;

C. The construction of single-family residences when built separately on subdivision lots which have been issued a permit as part of a larger common plan of development under this Article and have been approved and recorded in the office of the Hamilton County Register; provided that excavation is limited to foundation trenches, basements, service and sewer connections, and minor grading for driveways, yard areas and sidewalks. The construction of single-family residences on individual lots, which are not part of a permitted subdivision under this article, is not exempt;

D. Additions or modifications to existing detached single-family dwellings; this exception may not be applied for contiguous properties that may have been subdivided.

E. Individual service and sewer connections for single or two-family residences;

F. Agricultural practices involving the establishment, cultivation or harvesting of products of the field or orchard, preparing and planting of pasture land, farm ponds, dairy operations, and livestock and poultry management practices, and the construction of farm buildings;

G. Installation, maintenance and repair of any underground public utility lines when such activity occurs on an existing hard-surface road, street or sidewalk, provided the activity is confined to the area of the road, street or sidewalk which is hard-surfaced and a street, curb, gutter or sidewalk permit has been obtained;

H. Construction, repair or rebuilding of tracks or other related facilities of a railroad company;

I. Maintenance and repair to any stormwater BMP deemed necessary by the City.

J. Any emergency project that is immediately necessary for the protection of life, property, or natural resources as determined by the City. These activities may be undertaken without a permit; however, the persons conducting these excluded activities shall remain responsible for otherwise conducting those activities in accordance with the provisions of this article and other applicable law including responsibility for controlling erosion and sedimentation.

2. Stormwater Design Manuals—Adoption.

The City adopts the most current edition of TDEC's Tennessee Erosion & Sediment Control Handbook (the "Handbook") as minimum standards for controlling erosion and sedimentation from land disturbing activities.
(Ord. No. 12900, § 1, 2-3-15; Ord. No. 13251, § 1, 11-28-17)

Sec. 31-322. Land disturbing permit required.

No Land Disturbing Activity or associated activity in this Article, whether temporary or permanent, shall be conducted within the City of Chattanooga until a land disturbing permit has been issued by the City. Such permit shall be available for inspection by the City on the job site at all times during which land disturbing activities are in progress. Such permit shall be required in addition to any building permit or other permit required upon the site.

Each application for the issuance of a land disturbing permit under this article shall be accompanied by a nonrefundable permit fee subject to the following fee schedule:

Permit	*Fee*
Simple residential	$250 min. (up to 1 acre disturbed area)
Complex	$250 per acre or part thereof
Revision after second review (each)	$1,000
Post-issued revision (each)	$1,000
Variance or Infeasibility Request	$1,375
Bonds/Letter of credit (each)	$675
Driveway Tile/Culvert Sized by City (each)	$500
As-Built Survey/Certification Review (each)	$675
Grading only	$250 per acre or part thereof
Timber Removal Permit	$250 per acre or part thereof
Tree Ordinance (each)	$500

(Ord. No. 12900, § 1, 2-3-15; Ord. No. 13251, § 1, 11-28-17; Ord. No. 13334, § 30, 7-3-18; Ord. No. 13473, § 30, 6-25-19; Ord. No. 13558, § 30, 6-23-20; Ord. No. 13710, § 30, 9-28-21; Ord. No. 13840, § 30, 6-14-22Ord. No. 14118, § 29, 6-18-24; Ord. No. 14239, § 29, 6-10-25)

Sec. 31-323. Data required in land disturbing permit application.

1. Any application for the issuance of a land disturbing permit under this article shall include, at a minimum, the following:

A. Site or project name;

B. Property street address or location; tax map, lot number, subdivision name, zip code;

C. Site activity description;

D. Site owner/property owner/applicant or Agent name, mailing address, phone, email, company name (see Section 31-320);

E. Engineer/Contractor: name, mailing address, phone, email, company name, state/county/city license numbers;

F. Type of work;

G. Property occupied/used as zoned;

H. Size of project;

I. Starting and completion estimated dates;

J. Other information as required by the City.

2. Each application for a Land Disturbance Permit shall be accompanied by an EPSC Plan or SWPPP, as appropriate. It shall accurately describe the potential for soil erosion and sedimentation problems resulting from the Land Disturbing Activity. It shall explain and illustrate the required measures to control these problems. The length and complexity of the plan is to be commensurate with the size of the project, severity of the site condition, and potential for offsite damage. The plan shall contain descriptions of the existing site conditions, adjacent topographical features, area soil types and characteristics, potential problems of soil erosion and sedimentation, stabilization specifications, stormwater management considerations, and time schedules for completion. It shall describe the continued maintenance of the land disturbing activity, clearing and grading limits, and all other information needed to accurately depict solutions to potential soil erosion and sedimentation problems.

3. It is the applicant's responsibility to track the status of the review and make required corrections.
(Ord. No. 12900, § 1, 2-3-15; Ord. No. 13251, § 1, 11-28-17)

Sec. 31-323.1. EPSC Plan and SWPPP preparation.

Any project that consists of a total land disturbance, at and above one (1) acre, also requires a SWPPP and NPDES permit.

Permittees and Approved Applicants are required implement a set of requirements to establish, protect and maintain a construction and permanent Water Quality Buffer during and after construction as defined in this Article.
(Ord. No. 12900, § 1, 2-3-15; Ord. No. 13251, § 1, 11-28-17)

Sec. 31-323.2. Construction stream buffer zone requirements.

1. Construction stream buffer zones shall be designated on the plans and marked off with high visibility safety fencing before land disturbance or construction commences.

2. The construction stream buffer is required to protect Waters of the State located within or immediately adjacent to boundaries of the project as identified using methodology from Standard Operating Procedures for Hydrologic Determinations (see rules to implement a certification program for Qualified Hydrologic Professionals, TN Rules Chapter 0400 -40-17).

3. A thirty (30) foot natural riparian construction stream buffer zone shall be left undisturbed adjacent to all streams, to the maximum extent practicable, during construction activities at the site.

4. Construction stream buffer zones are not primary sediment control measures and should not be relied on as such. Rehabilitation and enhancement of a natural buffer zone is allowed, if necessary, for improvement of its effectiveness of protection of the Waters of the State. The buffer zone requirement only applies to new construction sites. The riparian buffer zone should be preserved between the top of stream bank and the disturbed construction area. Nothing contained in this paragraph shall be construed to reduce the requirements of the permanent Water Quality Buffer required elsewhere in this Article.

5. For sites that contain and/or are adjacent to a receiving stream designated as having unavailable parameters or Exceptional Tennessee waters, a sixty (60) foot natural riparian construction stream buffer zone adjacent to the receiving stream shall be preserved. The buffer zone should be established between the top of stream bank and the disturbed construction area. The buffer width can be averaged, as long as the minimum width is at least thirty (30) feet at any measured location. If the construction site encompasses both sides of a stream, buffer averaging can be applied to both sides, but must be applied independently.

6. Rehabilitation and enhancement of a natural buffer zone is allowed, if necessary, for improvement of its effectiveness of protection of the Waters of the State.

7. The buffer zone requirement applies to all construction sites. No construction activities or Land Disturbing Activities (including but not limited to: parking, movement of vehicles, storage of materials, clearing, applying gravel, concrete washouts, etc.) shall take place within the buffer zones.

8. Equivalent Buffer Zone BMPs:

A. A justification for use and design of equivalent construction stream buffer zone BMPs shall be included in the EPSC Plan or SWPPP. Such equivalent BMPs are expected to be routinely used for installations that typically must be located adjacent to surface waters. These may include, but are not limited to: water distribution and sewer line installations, roadway construction, utility line or equipment installation, greenway construction, construction of a permanent outfall or a velocity dissipating structure, etc. This will be approved by the City on case by case basis.

B. This requirement does not apply to any valid ARAP, or equivalent permits issued by federal authorities. Additional buffer zone requirements may be required on a case by case basis depending on slope, land use or other variable.

C. Delineate the buffer zones, of thirty (30) or sixty (60) foot, with a single row of high visibility safety construction fencing in addition to any silt fencing that may be required to be installed.

D. Buffer zone exemption based on existing uses.

E. Buffer zones shall not be required where certain land uses exist and are to remain in place according to the following:

i. A use shall be considered existing if it was present within the buffer zone and properly permitted, as applicable, as of the date of the NOI for coverage under the CGP. Existing uses shall include, but not be limited to, buildings, parking lots, roadways, utility lines and on-site sanitary sewage systems. Only the portion of the buffer zone that contains the footprint of the existing land use is exempt from buffer zone development restrictions. Activities necessary to maintain uses are allowed provided that no additional vegetation is removed from the buffer zone.

ii. If an area with an existing land use is proposed to be converted to another use or the impervious surfaces located within the buffer area are being removed, then the buffer zone requirements shall apply.

(Ord. No. 12900, § 1, 2-3-15; Ord. No. 13251, § 1, 11-28-17)

Sec. 31-324. General requirements.

No Land Disturbing Activity shall be conducted within the City except in such a manner that:

1. Stripping of vegetation, re-grading, and other development activities shall be conducted so as to minimize erosion. Clearing and grubbing must be held to the minimum necessary for grading and equipment operation. Pre-construction vegetative ground cover shall not be destroyed, removed or disturbed more than fifteen (15) calendar days prior to grading or earth moving. Construction must be sequenced to minimize the exposure time of cleared surface area.

2. Property owners shall be responsible upon completion of Land Disturbing Activities to stabilize slopes so that they will not erode. BMPs should be employed as described in the Handbook. The objective will be to leave the site as erosion-free and maintenance-free as practicable.

3. Natural vegetation shall be retained, protected, and supplemented, where practicable.

4. After final grading is reached on any portion of a site, permanent soil stabilization shall be installed as soon as practicable. This is accomplished with perennial vegetation (using native herbaceous and woody plants where practicable) or other permanently stable, non-eroding surface. Unpacked gravel containing fines (silt and clay sized particles) or crusher runs are not considered a non-eroding surface. Soil stabilization refers to measures which protect soil from the erosive forces of wind, raindrop impact and flowing water. It includes the growing of grass or sod, application of straw, mulch, fabric mats, and the early application of gravel base on areas to be paved.

5. A permanent vegetative cover shall be established on disturbed areas not otherwise permanently stabilized. Use of native vegetation is encouraged.

6. Neighboring persons and property shall be protected from damage or loss resulting from excessive stormwater runoff, soil erosion or deposition upon private property or public streets of water transported silt and debris. Adjacent property owners shall be protected from land devaluation due to exposed bare banks.

7. Erosion and sediment control measures must be in place and functional before earth moving operations begin. They must be constructed and maintained until permanent stabilization occurs. Temporary measures may be removed at the beginning of the work day, but must be replaced at the end of the work day or before any precipitation event that could cause erosion and/or deposition of sediments off-site.

8. Structural controls shall be designed and maintained as required to prevent pollution. All surface water flowing toward the construction area shall to the extent practicable be diverted by using berms, channels, or sediment traps as necessary. Erosion and sediment control measures shall be designed according to the size and slope of disturbed or drainage areas, to detain runoff and trap sediment. Muddy water to be pumped from excavation and work areas must be held in settling basins or treated by filtration or coagulation prior to its discharge. Discharges from sediment/settling basins and traps must be discharged through a pipe or lined channel so that the discharge does not cause erosion and sedimentation.

9. There shall be no distinctly visible floating scum, oil or other matter contained in the stormwater discharge. The stormwater discharge must not cause an objectionable color contrast in the

receiving water. The stormwater discharge must result in no materials in concentrations sufficient to be hazardous or otherwise detrimental to humans, livestock, wildlife, plant life, or fish and aquatic life in the receiving stream.

10. When the land disturbing activity is finished and stable perennial vegetation has been established on all remaining exposed soil, the developer shall notify the City of these facts and request termination of the permit issued under this section. The City shall then inspect the site after receipt of such notice. The City may require ongoing or additional measures to stabilize the soil and prevent erosion. If such requirements are given by the City, the owner or developer shall continue to be covered by the provisions of this section, until a NOT of the permit has been accepted by the City.

11. Stabilization measures shall be initiated as soon as possible in portions of the site where construction activities have temporarily or permanently ceased. Temporary or permanent soil stabilization must be completed no later than fourteen (14) days after the construction activity in that portion of the site has temporarily or permanently ceased. In the following situations, temporary stabilization measures are not required:

    A. where the initiation of stabilization measures is precluded by snow cover or frozen ground conditions or adverse soggy ground conditions, stabilization measures shall be initiated as soon as practicable; or

    B. where construction activity on a portion of the site is temporarily ceased, and earth disturbing activities will be resumed within fourteen (14) days. Steep slopes shall be temporarily stabilized not later than seven (7) days after construction activity on the slope has temporarily or permanently ceased.

12. Stabilization of disturbed areas must, at a minimum, be initiated immediately whenever any clearing, grading, excavating or other earth disturbing activities have temporarily or permanently ceased on any portion of the site, and will not resume for a period exceeding fourteen (14) calendar days. Soil stabilization (temporary or permanent) of those disturbed areas must be completed as soon as possible, but not later than fourteen (14) days after the construction activity in that portion of the site has temporarily or permanently ceased. In arid, semiarid, and drought-stricken areas where initiating vegetative stabilization measures immediately are infeasible, alternative stabilization measures (such as, but not limited to: properly anchored mulch, soil binders, matting) must be employed.

13. Dewatering: Discharges from dewatering activities, including dewatering of trenches and excavations, are prohibited unless managed by appropriate controls. Appropriate controls include, but are not limited to: weir tank, dewatering tank, gravity bag filter, sand media particulate filter, pressurized bag filter, cartridge filter, coagulation or other control units providing the level of treatment necessary to comply with permit requirements.

14. Prevent off-site vehicle tracking of sediments and the generation of dust. A stabilized construction access (a point of entrance/exit to a construction site) shall be described and implemented, as needed, to prevent the tracking of mud and dirt onto public roads by construction vehicles.

15. If permanent or temporary vegetation is to be used as a control measure, then the timing of the planting of the vegetation cover must be included in the SWPPP.

16. Litter, construction debris, and construction chemicals exposed to stormwater shall be picked up prior to anticipated storm events or before being carried off site by wind (e.g., forecasted by local weather reports), or otherwise prevented from becoming a pollutant source for stormwater

discharges (e.g., screening outfalls, daily pick-up, etc.). After use, materials used for erosion prevention and sediment control (such as silt fence) should be removed or otherwise prevented from becoming a pollutant source for stormwater discharges.

17. Construction Phasing: See CGP for requirements.

18. Construction Staging: See Handbook and CGP for requirements.

19. Sediment Basins: See Handbook for requirements.

20. The City may require stricter land use and/or erosion and sediment control requirements for projects discharging into waters having unavailable parameters or Exceptional Tennessee Waters.

(Ord. No. 12900, § 1, 2-3-15; Ord. No. 13251, § 1, 11-28-17)

Sec. 31-324.1. Erosion prevention and sediment controls inspections.

Erosion prevention and sediment controls inspections shall be done according to the Handbook.

1. All active construction sites shall be inspected by permittee or his designee twice weekly (performed at least seventy-two (72) hours apart), in accordance with the requirements of the CGP by a person that has an active certification completing the "Fundamentals of Erosion and Sediment Control Level I" course.

2. Inspections are performed to ensure erosion prevention and that sediment controls are not damaged and remain effective. It is not the City's intent to penalize proper maintenance and mitigation of failed management practices, but rather to ensure that potential and actual failures are promptly recognized and addressed expeditiously and effectively. During prolonged rainfall, daily checking and repairing is necessary. The permittee shall maintain records of such checks and repairs.

3. A specific person, that has an active certification completing the "Fundamentals of Erosion and Sediment Control Level I" course, shall be designated by owner to be responsible for erosion and sediment controls on each site.

4. Routine inspections are required. Inspection records and rainfall data shall be maintained on or near the construction site and be accessible. Copies of the written reports must be kept with the EPSC Plan or SWPPP. They must provide enough information that a regulator is given a full picture of the management techniques employed onsite, including problems, maintenance needs, and corrective actions taken. These reports need to clearly note the dates when:

   A. problems or maintenance needs were identified

   B. these activities were addressed

   C. major grading activities occurred

   D. construction activities temporarily or permanently ceased on a portion of the site

   E. stabilization measures were initiated

5. Based on inspection results, any control measures that are inadequate or in disrepair shall be replaced or modified, or repaired as necessary, before the next rain event, but in no case more than seven (7) days after the need is identified. Such modifications shall provide for timely implementation (site description identified and Erosion prevention and sediment control measures) of any changes to the SWPPP but in no case later than fourteen (14) days following the inspection.

6. Falsifying inspection records or other documentation or failure to complete inspection documentation shall result in an enforcement action.

7. A construction site rainfall gauge is required. It should be read at least daily at approximately the same time to obtain a twenty-four (24) hour rainfall depth total. In addition, when a rain event occurs, the approximate beginning and ending time should be documented to provide its duration. The rainfall depth and duration together can be used to determine the storm frequency and related back to the permit and design requirements. Rainfall data should be kept with the field EPSC Plan or SWPPP.

8. Erosion prevention and sediment controls shall be designed to minimize erosion and sediment transport resulting from a two (2) year, twenty-four (24) hour storm at a minimum (or five (5) year twenty-four (24) hour storm associated with waters having unavailable parameters or Exceptional Tennessee Waters), either from total rainfall in the designated period or the equivalent intensity. The performance of construction site assessments will provide quality assurances of erosion prevention and sediment controls. Within one (1) month of the commencement of construction, at each portion of the site that drains developed acreage, the site assessment shall be conducted, at each outfall, when drainages total ten (10) or more acres or five (5) or more acres if draining to waters having unavailable parameters or Exceptional Tennessee Waters. The site assessment shall be performed per requirements in the current State CGP. It shall be performed by individuals with the following qualifications:

   - A licensed professional engineer or landscape architect;
   - A CPESC; or
   - A person that successfully completed the "Level II Design Principles for Erosion Prevention and Sediment Control for Construction Sites" course.

(Ord. No. 12900, § 1, 2-3-15; Ord. No. 13251, § 1, 11-28-17)

Sec. 31-324.2. Water Quality Buffer.

1. A Water Quality Buffer zone is a strip of undisturbed native (indigenous) vegetation and soil that includes trees, shrubs and herbaceous vegetation either original or re-established that borders waters of the state.

2. A Water Quality Buffer shall be applied to 'waters of the state' including but not limited to streams, rivers, jurisdictional wetlands, springs, reservoirs or lakes and ponds with hydrologic connectivity (streams leading into and out of the pond or spring input) and sinkholes, adjacent to new development or significant redevelopments. The buffer regulations shall require protection and maintenance of existing buffers, including soils and vegetation, on all existing properties, as determined by the city.

3. Water Quality Buffers zones are most effective when stormwater runoff flows into and through them as shallow sheet flow, rather than in concentrated form such as in pipes, channels, gullies, splays, or wet weather conveyances. Therefore, whenever possible, designs should include management practices, to the maximum extent practical, that result in shallow, non-erosive sheet flow through buffers. When this is not possible, every effort shall be made to minimize detrimental effects to the water quality buffer.

4. Water Quality Buffer zones protect the physical and ecological integrity of water bodies from surrounding upland activities in the following ways:

A. Filter excess sediment, organic material, nutrients, and other chemicals;

B. Reduce storm runoff velocities;

C. Provide flood protection;

D. Protect channel bank areas from scour and erosion;

E. Shade and cool adjacent water allowing it to hold adequate levels of dissolved oxygen;

F. Provide leaf litter and large woody debris important to aquatic organisms; and

G. Improve stream bank habitat for aquatic organisms.

5. A Water Quality Buffer shall consist of native vegetation along both sides of a stream or around other applicable water resources or waters of the state. The buffer is measured perpendicular from top of bank determined by the break in the slope. The top of bank is the uppermost limit of the active channel, typically indicated by a change in bank slope from steep to gentle. If the top of bank cannot be determined from the above indicator or if there is a dispute in the determination, it can be determined by submitting approved engineering calculations that determine the width of the stream resulting from the two (2) year frequency storm. The city shall make final determinations of buffer delineations, top of bank, areas where the Water Quality Buffer shall apply and buffer widths, based on the applicant's submitted data.

6. The city may approve alternate Water Quality Buffer widths for special circumstances (e.g., existing land cover or existing physical conditions) that preclude the above requirements.

7. Specifically prohibited uses include, but are not limited to: pavements, structures, parking lots, dumpster storage, material storage, grease-bin storage, vehicle storage/maintenance, animal lots or kennels, or other uses known to contribute runoff or pollutants to waterways.

8. Buffer Widths:

Buffer widths shall be measured from the edge of the water resource to be protected as defined below.

A. Streams:

i. For drainage basins less than one (1) square mile:

a. The permanent Water Quality Buffer shall be thirty (30) feet measured perpendicular from the top of bank on both sides with no averaging.

b. For sites that contain and/or are adjacent to a receiving stream designated as waters having unavailable parameters or Exceptional Tennessee waters, a sixty (60) foot natural riparian construction stream buffer zone adjacent to the receiving stream shall be preserved during construction. The buffer zone shall be established between the top of stream bank and the disturbed construction area. The sixty (60) foot criterion can be established on an average width basis as long as the minimum buffer width is at least thirty (30) feet at any measured location.

ii. For drainage basins greater than one (1) square mile, the permanent Water Quality Buffer shall be sixty (60) feet from top of bank on both sides. It can be averaged as long as the minimum is no less than thirty (30) linear feet measured perpendicular from the top of bank on both sides. When the average width method is used, applicant must provide CAD files allowing the measurements to be verified.

iii. In accordance with the NPDES permit TNS068063, the Site Development Manager shall develop and apply criteria for determining the circumstances under which averaging may occur. A determination that standards cannot be met may not be based solely on the difficulty or cost associated with implementation.

B. Lakes and ponds with hydrologic connectivity:

The Water Quality Buffer shall be thirty (30) feet from normal pool. If a flood zone study exists or is prepared, elevations of proposed structures adjacent to the lake or pond setback shall be determined and included in the final design.

C. Wetlands:

The Water Quality Buffer shall be thirty (30) feet with no disturbance. If the wetland is associated with or within the water quality buffer or other protected waters, then the buffer shall be measured according to the Water Quality Special Buffer Widths defined in this Article.

9. Permanent buffers shall be preserved during development and perpetually afterwards.

A. During development, buffers shall be clearly marked, on plans and on site, and protected from construction activities.

B. The Water Quality Buffer shall be retained in its natural vegetative state or enhanced. No unapproved clearing of existing native vegetation in the streamside buffer or BMPs/SCMs shall be allowed. The target vegetation is undisturbed mature forest.

10. Water Quality Buffer Allowable Uses:

A. Buffer crossings for utilities and infrastructure: To the extent practical, the number and width of water body crossings shall be limited. Whenever feasible, crossings shall occur at right angles. Developments should coordinate infrastructure, utility and road crossings to attempt to have them occur at the same location.

B. Passive recreation and footpaths to approach the river without constructed improvements. A plan must be approved by the City.

C. A sidewalk, greenway or other paved trail may be considered, if constructed of pervious concrete or other pervious materials, excluding asphalt, approved by the city, and established on a stable stream area no closer than twenty (20) feet from the top of the bank. No equipment larger than a mini-Bobcat or other similarly sized equipment (specifically tasked with pervious material installation) may enter the buffer. Trees over six (6) inches dbh cannot be disturbed in the buffer area, during construction. The width of the pervious sidewalk, and any clearing as a result of construction, shall be added to the width of the water quality buffer. Protection of the existing vegetation is of prime importance.

D. Stormwater channels, as approved by city: vegetated channels and use of dissipating and sheet flow arrangements where appropriate to prevent channelization and erosion in the buffer from stormwater runoff adjacent to the buffer from SCMs or any other aspect of the site.

E. Landscaping or other related re-vegetation using native vegetation to address erosion, damaged vegetation, restoration, remove exotic species, or other problems; Landscaping, bank stabilization, or other developer proposed restorations to restore a natural stream corridor habitat shall be submitted as a Landscape Management Plan to the city as a supplement to the Land Disturbance Permit. Developers must obtain any related local, state, TVA or federal permits. The City must approve the specific requirements of such plan prior to the issuance of a Land Disturbance Permit and before any work or proposed restoration on the buffer takes place.

F. Removal of individual trees that are in danger of falling, causing damage to dwellings or other structures, or blocking the stream;

11. Water Quality Buffers shall be placed in open space easements and recorded with the deed for the property before Certificate of Occupancy is issued.

12. Water Quality Special Buffer Widths. Water Quality Buffer widths shall vary depending on the presence of certain water pollution hazards. The following special buffer widths shall apply:

A. Solid waste landfills, outdoor recycling or processing facilities require one hundred fifty (150) feet.

B. Salvage yards or automobile recyclers require one hundred fifty (150) feet.

C. When wetlands, sinkholes or other water resources are wholly or partially located within a stream or the streamside buffer edge, the streamside buffer width shall be extended by the width of the water resource.

D. If more than one (1) of the aforementioned is applicable, the greater width adjustment shall apply.

E. Onsite, private septic system drain fields should not automatically be located at the outer edge of property lines adjacent to undisturbed buffers. To the maximum extent possible, drain fields should be located to increase their separation from protected stream side areas.

13. Water Quality Buffer Width Reductions, Clearing Activities, and Crossings.

A. Special Buffer Widths may be reduced in conjunction with targeted restoration plans that make comparable improvements to water quality. Restoration plans may include stream bank restoration, re-vegetation, habitat improvements, or other bioengineering methods. The City shall consider such requests upon receipt of a Landscape Management Plan detailing comparable improvements. Special buffer reductions will only be considered for specific areas of an overall development.

B. View Corridor: Limited clearing and pruning to establish a view corridor may be permitted with an approved Landscape Management Plan stamped by a registered Landscape Architect. The Plan must leave adequate vegetation in the view corridor to maintain the buffer's function.

i. Preferential practices for view enhancement are crown raising, crown lowering, or crown thinning in lieu of tree removal. Any removal of trees shall be in accordance with the City of Chattanooga Municipal Code. The SWPPP or EPSC plan shall demonstrate both effective erosion prevention and sediment control and forestry practices.

ii. Removed trees must be replaced. Replacement by shrubs or small trees may be allowed if native plants, approved on the Landscape Management Plan, are used.

iii. A Notice of Violation and/or Civil Penalty, as set forth in Section 31-346 shall be issued if clearing exceeds approved Plans. The landowner shall re-plant that segment of the cleared buffer at his/her own expense.

C. The City may allow new driveways, road crossings or other access through or across water quality buffer zones on a case-by-case basis. The necessity of buffer access must be demonstrated. Additionally, it must be shown that the buffer zone will not be excessively impacted. Driveway or road crossing shall be constructed perpendicular to the stream or buffer with careful detail to protecting trees and vegetation and minimizing site grades.

D. Roadways and lots shall be designed and aligned so streams are either to the rear or to the side of individual lots, and not along the front. Such stream crossings may require federal, state, and/or local permits.

14. Development Plan and Construction Activity Requirements.

A. The parameters and boundaries of the Water Quality Buffer shall be delineated by the applicant and clearly indicated on all three (3) phases of project development plans, on landscape management plans, preliminary plats, final plats, permits and official maps as follows:

i. Show the extent of any Water Quality Buffer on the subject property and clearly label as "water quality buffer" including required width.

ii. Provide a note to reference the water quality buffer, labeled as:

" There shall be no clearing, grading, construction, storage, or disturbance of vegetation except as permitted in writing by the City of Chattanooga's Site Development Manager. "

iii. Provide a note to reference protective covenants governing all water quality buffer areas, labeled as: "Any Water Quality Buffer is subject to protective covenants recorded in the Register of Deeds (Hamilton County). Disturbance and use of these areas are restricted. Severe penalties apply."

15. Water Quality Buffer areas shall be protected during all development activities. Construction layout surveys shall include approved fencing and labeling. To insure adequate visibility, a combination of fencing and flagging is required. Signs shall persist before and throughout construction to prevent entry of equipment, materials storage and stockpiling.

16. All Water Quality Buffers shall be placed in recorded easements and be maintained at the property owner's expense.

17. Variance Procedures.

A. The applicant shall submit a written request to the Site Development Manager conveying specific reasons and hardships necessitating the variance. It must offer mitigation for the variance relief if granted, and include any other information necessary to evaluate the request. The City may require an alternative analysis.

B. The City shall have the authority to grant appeals provided they are consistent with the objectives and policies identified in this Article.

C. Variance requests shall be reviewed and may be granted using the following criteria:

i. Projects or activities where it can be demonstrated that strict compliance with the ordinance would result in practical difficulty; Each of the following criteria must be satisfied to show practical difficulty:

(a) The problem is not self-created.

(b) The plight of the landowner is due to the property's unique physical conditions.

(c) Compliance will unreasonably prevent use of the property for a permitted purpose or would render conformity with such restrictions unnecessarily burdensome.

(d) Project is to repair and maintain public improvements. Avoidance and minimization of adverse impacts to wetlands and associated aquatic ecosystems has been addressed.

(e) Those projects or activities serving a public need and/or deemed to be of economic importance to the City, specifically associated with the Tennessee River or associated with or contiguous to the City's Greenway Master Plan, to where no feasible alternative is available. Development along the Tennessee riverfront and the City's greenway system generate economic, social, and cultural benefits that improve the economy and quality of life for an entire region. The intent of this variance is to recognize that Chattanooga's riverfront is one (1) of the greatest assets within the City. Thoughtful alternate measures will ensure that enhancements to the riverfront will protect its unique ecosystem, enhance urban redevelopment, and expand recreational opportunities.

(f) Riverfront buffer variances that accommodate economic development along the areas identified in this Section will be considered. Alternate measures might include urban design principles that are respectful of the river by sustaining public access, maintaining view corridors, regulating height and bulk of structures, and permitting a diversity of uses.

(g) Development submittals that propose such improvements to areas identified in this Section and increase their value to Chattanooga's citizens and visitors will be encouraged. Successful riverfront development variances will be complementary to

and compatible with other successful development projects in Chattanooga. Variances will ensure that our riverfront continues to be a vital and valued component of downtown Chattanooga's urban landscape.

ii. The Site Development Manager may also consider the following:

(a) The relationship between the proposed use and the comprehensive Land Use Plan;

(b) The safety of access to the property in times of flood for ordinary and emergency vehicles; and

(c) The costs of providing governmental services during and after flood conditions including maintenance and repair of public utilities and facilities such as sewer, gas, electrical, water systems, and streets and bridges.

iii. Whether issuance of a variance is the minimum necessary so as not to destroy the character and design of an historic building or feature.

iv. The decisions of the Site Development Manager are final and conclusive, but may be reviewed by the City Engineer.

18. Other Requirements:

A. For new and redevelopments, the project shall be evaluated for stream and stream bank conditions. The project shall address the following to ensure the preservation and propagation of the buffer area:

i. Stream bank stabilization and/or restoration;

ii. Additional water quality protection;

iii. Channel erosion;

iv. Stream pollution;

v. Habitat degradation; and

vi. The enhancement of the successional process such as active reforestation and removal of invasive exotic plants, trash and debris.

19. Conflict with Other Regulations:

Where the standards and management requirements of the Water Quality Buffer are in conflict with other laws, regulations, and policies regarding streams, steep slopes, erodible soils, wetlands, floodplains, timber harvesting, land disturbance activities, or other environmental protective measures, the more restrictive requirements, as determined by the City, shall apply.
(Ord. No. 12900, § 1, 2-3-15; Ord. No. 13251, § 1, 11-28-17)

Sec. 31-324.3. Vegetative planting requirements when steep slopes are disturbed.

A) Steep slopes shall be defined as being slopes of thirty (30) percent or more. Slopes that have been cleared and graded with thirty (30) percent or higher slope may have to be compacted, and may require a certified engineer design to ensure slope stability which may require analysis of vegetative planting.

B) All residentially zoned properties containing steep slopes shall adhere to following vegetative replanting requirements for areas with disturbed steep slopes as indicated below. A diverse, multiple canopy planted area provides the maximum stormwater mitigation and it is recommended that all steep slopes provide a simple ratio as outlined in the following charts that includes required numbers of trees, shrubs, evergreen trees, all underplanted with a herbaceous ground surface layer. These regulations apply to lots where the proposed land disturbing activity is disturbed based upon the following lot sizes:

Detached Building Development Requirements
(Single-Family Homes)

Lot Size	*Max. Area of Steep Slope w/o Mitigation*	*Req'd Plant Coverage Based Upon Area*
3,000—5,000 ft^2	1,000 SF	Min. 1,200 SF/Coverage Values
5001—7,500 ft^2	2,000 SF	Min. 1,200 SF/Coverage Values
7,501—10,000 ft^2	2,500 SF	Min. 1,200 SF/Coverage Values
10,001—25,000 ft^2	4,000 SF	Min. 1,200 SF/Coverage Values
25,001—35,000 ft^2	7,000 SF	Min. 1,200 SF/Coverage Values
35,001 ft^2—1.00 acres	12,000 SF	Min. 1,200 SF/Coverage Values
1.00 acres—Greater	20% or greater	Min. 1,200 SF/Coverage Values

Attached Building Development Requirements
(Duplexes, Townhomes, Apartments)

Lot Size	*Max. Area of Steep Slope w/o Mitigation*	*Req'd Plant Coverage Based upon Area*
3,000—7,500 ft^2	2,000 SF	Min. 1,000 SF/Coverage Values
7,501—10,000 ft^2	3,000 SF	Min. 1,000 SF/Coverage Values
10,001—25,000 ft^2	5,000 SF	Min. 1,000 SF/Coverage Values
25,001—35,000 ft^2	10,000 SF	Min. 1,000 SF/Coverage Values
35,001 ft^2—1.00 acres	15,000 SF	Min. 1,000 SF/Coverage Values
1.01 acres—Greater	20% or greater of lot	Min. 1,000 SF/Coverage Values

These regulations shall adhere to all R-1, R-2, R-3, R3MD, R-4, R5, RTZ, RZ1, and RT1 zoned properties.
(Ord. No. 13660, § 1, 4-6-21)

Sec. 31-324.4. Steep slope vegetation policy and planting requirements.

The following tree planting requirements shall apply in all areas where steep slopes as defined in Section 38-603 are disturbed.

Class I Shade Trees: These trees are used to meet the tree planting requirements for large canopy trees. Evergreen trees can be treated as Class I shade trees provided, they meet the minimum maturity height and canopy spread criteria.

Class II Shade Trees: These trees are intended to be used for planting as under story canopy and ornamental type trees. Only Class II trees shall be planted under overhead power lines.

Evergreen Screening Trees: Screening trees are used for Screening, Evergreen accents, Anchors, and Framing in the landscape.

Shrubs: Shrubs shall be installed at a minimum size of one (1) gallon. Shrubs are used for foundation plantings, accents, mass plantings, hedging, screening, groundcover, ornamental, and habitat. Shrubs will vary in height and spread and shall be spaced accordingly. No shrub plantings shall be planted in overcrowded masses in a single location to meet this ordinance.

Groundcovers/Perennials (excludes all turf areas):

Groundcovers/Perennials shall be installed at a minimum size of four (4) inch pots and up. Groundcover/Perennials shall achieve a mature height of four (4) to eighteen (18) inches with a mature

spread one (1) to four (4) foot diameter. Groundcovers/Perennials are used for groundcover, mass plantings, erosion control, flowering accents, and habitat. Groundcovers/Perennials will vary in height and spread and shall be spaced accordingly.

Replacement Trees/Plantings and coverage values:

Trees replacement plantings installed in any areas where steep slopes are disturbed shall consist of Class I, Class II Shade Trees and Evergreen Screening Trees, Shrubs and Groundcover/ Perennials with sufficient minimum canopy to meet this requirement. No single tree species shall constitute more than fifty (50) percent of total trees required. The following coverage values shall be maintained in all replacement plantings where steep slopes have been disturbed.

Class I Tree with 20—30' diameter minimum canopy	=	500 SF coverage values
Class II Tree with 10—20' diameter minimum canopy	=	200 SF coverage values
Evergreen Screening Tree with 8' mature spread	=	50 SF coverage values
Shrub with 3—6' mature height and spread	=	20 SF coverage values
Groundcover/Perennials with 1—4' mature spread	=	1 SF coverage values

*Evergreen Screening Trees, Shrubs, and Groundcover/Perennials may be used for meeting the required tree replacement plantings up to 25%.

(Ord. No. 13660, § 2, 4-6-21)

Sec. 31-324.5. Incentives for preservation of existing trees.

The following tree planting requirements and credits for preservation of existing trees shall apply in all areas where steep slopes as defined in Section 38-603 are disturbed.

For lots twenty-five thousand (25,000) sq. ft. to 1.00 acres developers may receive up to seventy (70) percent credit for the required tree plantings for all existing tree(s) preserved on slopes equal to or greater than thirty (30) percent. During land disturbance and construction any trees eligible for credit shall be protected, shall be in good health, and shall be at least four (4) inch (DBH) or greater.

For lots 1.01 acres developers may receive up to seventy (70) percent credit for the required tree plantings for all existing tree(s) preserved on slopes equal to or greater than thirty (30) percent. During land disturbance and construction any trees eligible for credit shall be protected, shall be in good health, and shall be at least four (4) inch (DBH) or greater.

- Any tree plantings as required with Article IX of the Landscape Provisions for a development shall count towards meeting these requirements, but such plantings shall not exceed ten (10) percent of the required coverage required.
- A ten (10) percent credit of the required replacement tree plantings will be allowed for using native plant species.
- All credits utilized for plantings using native species or credits utilized for those trees as would normally be required for meeting the current landscape ordinance shall not cumulatively exceed a twenty (20%) percent reduction towards meeting the coverage requirements.

Key Objectives of the Steep Slope Vegetation Policy:

1. Encourages a "stay away from steep slopes" mentality by placing additional vegetation replacement program.
2. Encourages preservation of existing established trees.
3. Offers property owner a menu of items allowing an array of vegetation types while encouraging the use of native species.

4. Defines anything above a thirty (30) percent grade officially as a Steep Slope with a distance of at least one hundred (100) linear feet.

5. Allows for the possibility of a credit program for maintaining placement of mature trees and the protection of native trees.

6. Vegetation program allows for covering more ground per sq. ft. vs. number of trees methodology.

7. Policy creates a formula to provide flexibility and choice while maintaining a sq. ft. focus and tree conservation.

8. Allows the Land Development Office to review Landscape Plan submittals prior to the issuance of a Land Disturbing permit to review Steep Slope development plans before vegetation is removed to retain placement of mature trees, the protection of native trees, and the planting of new trees, which are considered for any credit on a Steep Slope as part of the Land Disturbance permit application process.

(Ord. No. 13660, § 3, 4-6-21)

Sec. 31-325. Landfilling requirements in certain residential areas.

1. It shall be unlawful for any person to fill any land in any property which is within one hundred (100) feet of any R-1 Residential Zone, RT-1 Residential Townhouse Zone, RZ-1 Zero Lot Line Residential Zone, R-T/Z Residential Townhouse/Zero Lot Line Zone or R-2 Residential Zone or which is itself zoned in one (1) of these categories without first obtaining a land disturbing activity permit.

For the purposes of this subsection, the act of filling shall be any site where raising the elevation shall require seventy-five percent (75%) or more of the materials used for filling the land to be hauled over surface roads from non-contiguous parcels of land.

2. A land disturbing activity permit for properties zoned in these categories shall be subject to the following additional restrictions:

A. Fill material must be comprised only of suitable materials such as dirt, bricks, concrete without exposed rebar and/or wire, stones or similar inert materials; provided that no organic or contaminated materials are allowed;

B. Maximum height of fill shall be two (2) feet above roads or one hundred (100) year flood elevation;

C. Fill must not interfere with the free drainage of adjoining properties; any fill placed within five (5) feet of a property line requires submission of a drainage plan;

D. All fill placed within any area that may be used for construction of a building under the applicable zone must be properly placed and compacted in accordance with the current building codes adopted by the City of Chattanooga;

3. Fill slopes shall be required to adhere to the following:

A. Fill slopes three horizontal to one vertical [3:1 (H:V)] or flatter may be placed no closer than two (2) feet to the adjoining property line and/or easement;

B. Slopes steeper than three horizontal to one vertical [3:1 (H:V)] must be designed by a professional soils engineer registered to practice in the State of Tennessee and shall be placed no closer than five (5) feet to the adjoining property line and/or easement;

C. Where slopes utilize retaining walls, the face of the retaining wall may be placed no closer than one (1) foot to the adjoining property line and/or easement;

D. Any combination of retaining wall height plus the slope height which exceeds the building code requirements for a non-engineered wall shall be designed by a professional engineer registered to practice in the State of Tennessee; and

E. All retaining walls shall be engineered in accordance with the current building code as adopted by the City of Chattanooga.

4. Except where existing stormwater conveyances are adequate for any increase in drainage, appropriately sized on-site retention facilities shall be provided; and

5. Filling of the property must be completed, including capping the fill with a minimum of four (4) inches of topsoil and stable perennial vegetation, within one (1) year of the permit issue date, at which time the permit shall become null and void unless a valid extension is granted in writing by the Site Development Manager, or his designee.

A. Applications for extension must be made in writing to the Site Development Manager.

B. The Site Development Manager may consider any history of complaints and the frequency of such complaints relative to the existing permit when determining if an extension is warranted.

C. The Site Development Manager will be final authority in determining whether to issue an extension.

6. For lots with a width or depth greater than five hundred (500) feet the above restriction shall only apply to the area within one hundred fifty (150) feet of the property line.

7. Each application for permit, with the required fee therefor, shall be filed with the Site Development Manager and in addition to the requirements of Section 31-321, shall contain the following information:

A. Written approval of the request for a permit from the owners of the property;

B. The character and description of the fill materials to be deposited;

C. The rate at which the fill materials are expected to be deposited on a weekly or monthly basis;

D. Equipment to be used; and

E. The date upon which the applicant desires the permit to be issued.

8. The Site Development Manager may impose conditions upon the issuance of a permit which are reasonably calculated to eliminate excessive noise, scattering of dust or dirt, scattering of materials, to prevent nuisances and to prevent obstruction of public streets or interference with traffic.

9. A second land disturbing activity permit application will only be considered in conjunction with a building permit on the property.

10. An additional twenty-five dollar ($25.00) fee shall be charged for any application for a permit to fill property.

11. If any filling work, for which a permit is required, starts prior to obtaining said permit, the fee herein specified shall be doubled. The payment of such double fee shall not relieve any person from fully complying with the requirements of this Code in the execution of the work nor from any other penalties prescribed herein.

12. Any person filling property at the time of the enactment of this provision shall to the extent practical comply with all provisions in this section.
(Ord. No. 12900, § 1, 2-3-15; Ord. No. 13251, § 1, 11-28-17)

Sec. 31-325.1. Timber Removal Requirements—Applicability.

The intent is to prevent detrimental impacts of stormwater runoff on nearby property. Site clearing for any use other than forestry without approved plans and/or land disturbing permits is not allowed. It is the further intent to appropriately document timber removal for the purpose of forest harvest operations.

These Timber Removal Requirements apply to the removal of timber from a site such that:

1. Sites will not be developed within the subsequent three (3) years after such timber removal; and

2. Requirements are applicable to sites one (1) acre in size or larger and where five thousand (5,000) square feet or more of the tree canopy is going to be harvested, cut, or removed within a one (1) year period; or

3. Site is having timber harvested, cut, or removed for the purpose of conducting Forestry Land Management Practices.

These Timber Removal Requirements are not to be construed as eliminating other permit requirements in this Chapter for land development
(Ord. No. 12900, § 1, 2-3-15; Ord. No. 13251, § 1, 11-28-17)

Sec. 31-325.2. Timber Removal Requirements—Exemptions.

1. Special exceptions may be granted if undue hardship can be proven.

2. Such application for exception shall be made to the Municipal Forester and shall show:

A. The special conditions peculiar to the property that would cause the undue hardship;

B. How enforcement of these rules will deprive the landowner of rights commonly enjoyed by others in similar areas;

C. That the granting of the modification will not confer on the landowner a special privilege that would be denied to other applicants;

D. That the modification request is not based on conditions or circumstances that are the result of actions by the applicant;

E. That the request does not arise from a condition relating to land or building use, either permitted or legally nonconforming, on a neighboring property; and

F. That the granting of a modification will not adversely affect water quality.

(Ord. No. 12900, § 1, 2-3-15; Ord. No. 13251, § 1, 11-28-17)

Sec. 31-325.3. Removal—Definitions.

DBH (Diameter at Breast Height) shall mean the total cross sectional diameter in inches of a tree measured at a height of four and one-half (4½) feet above ground level.

Forestry Land Management Practices shall mean the practice of controlling forest establishment, composition and growth, as set forth by the Tennessee Department of Agriculture's Division of Forestry's, "Forestry Best Management Practices."

Municipal Forester means an employee of the City of Chattanooga who manages the City's Urban Forestry Program.

Re-Vegetation Management Plan shall mean a site plan drawn to scale that shows in graphic and text form all the necessary re-planting and/or re-growth requirements.

Slash shall mean unutilized wood debris.

Steep Slope shall mean any parcel or group of contiguous parcels with one (1) acre or more of a minimum thirty percent (30%) slope.

Timber means a tree of a size greater than a four (4) inch diameter at a height of five (5) feet from ground level.

Tree Canopy shall mean the effective radial circumference area of a mature tree's vegetative cover, including all branches and leaves. The canopy can be conveyed in values of percentage area of total land space being assessed or by numerical measurement.

Timber Removal means the cutting of timber and/or removal of forest products including logs, pulpwood, or chips.

Tree Protection Area (TPA) shall mean the area set aside for the express purpose of removing no trees.

Tree Removal Area shall mean the location indicated on a site plan and physically marked on the ground designating an area set aside for the express purpose of removing trees.

Watercourse shall mean any natural or artificial stream, river, creek, ditch, channel, canal, conduit, culvert, drain, waterway, gully, ravine, or wash in which water flows in a definite direction or course, either continuously or intermittently, and has a definite channel, bed, and banks and includes any area adjacent thereto subject to inundation by reason of overflow or floodwater.
(Ord. No. 12900, § 1, 2-3-15; Ord. No. 13251, § 1, 11-28-17)

Sec. 31-325.4. Permit.

1. For sites pursuant to Section 31-325.1, a Timber Removal Permit is required prior to any timber removal.

2. The Timber Removal Permit is effective for one hundred eighty (180) days for the cutting, removal or harvesting of timber and the permit is effective for an additional twelve (12) months for the exclusive purpose of re-vegetation. If the timber removal activity is not completed during the one hundred eighty (180) days, a new Timber Removal Permit must be applied for. One (1) permit extension of up to ninety (90) days may be granted at the discretion of the Municipal Forester.

3. Each application for the issuance of a timber removal permit under this article shall be accompanied by a non-refundable permit fee of thirty dollars ($30.00) per acre affected or a minimum fee of fifty dollars ($50.00).

4. The Timber Removal Permit Application will include information which includes, but is not limited to:

A. Applicant's name, address and contact information.

B. Names and addresses of the owner of the subject parcel and the contractor/subcontractors who shall perform the timber removal activity.

C. Address and location of subject parcel.

D. A statement setting forth the nature, extent and purpose of the timber removal activity, including the size of the area for which the permit shall be applicable and a schedule for the starting and completion of the timber removal activity.

E. Type of removal method to be used (i.e. clear-cut, shelterwood, selective cut).

F. The proposed method of disposal of all slash/unutilized wood debris, which will provide for either chipping or burning (provided such burning is approved by the Air Pollution Control Board).

G. Ingress and egress locations.

H. Additional information as may be required by the City.

5. The Re-vegetation Management Plan, as defined in Sec. 31-325.4, must be submitted and approved before a Timber Removal Permit and a Timber Removal Notice Sign is issued.

6. A Timber Removal Notice Sign must be posted twenty-one (21) days prior to approval of tree removal activity.

7. No development that would require approval, such as the issuance of a land disturbance permit, a building permit of the subject parcel shall be permitted per Section 31-325.1.1. The non-development period shall begin after the permitted timber removal is completed.

8. All required permits must be in place before harvesting or tree removal begins.

9. An Inspection and Management Plan shall be developed, executed and recorded with the Hamilton County Deeds Office, designating the time period that the site cannot be developed (issued a land disturbance permit or building permit) per Section 31-325.1.1.

10. The executed Inspection and Management Plan shall be recorded before the Timber Removal Permit will be issued.
(Ord. No. 12900, § 1, 2-3-15; Ord. No. 13251, § 1, 11-28-17)

Sec. 31-325.5. Re-Vegetation Management Plan.

The Re-Vegetation Management Plan shall identify and demonstrate the following:

1. The location of the mandated undisturbed buffer around the perimeter and any other tree protection areas, including types of existing vegetation and trees.

2. Location of tree removal areas.

3. Location of re-vegetation areas and types of trees/ vegetation to be planted. Re- vegetation with trees is to have a density of ten (10) feet by ten (10) feet for pine, white pine, other softwoods and all hardwoods.

4. Additional information as may be required by the City.
(Ord. No. 12900, § 1, 2-3-15; Ord. No. 13251, § 1, 11-28-17)

Sec. 31-325.6. Provisions.

1. The Forestry Best Management Practices as established by the Tennessee Division of Forestry must be utilized.

2. The use of a Master Logger is strongly encouraged.

3. At completion of the required re-vegetation, a final inspection must be requested.
(Ord. No. 12900, § 1, 2-3-15; Ord. No. 13251, § 1, 11-28-17)

Sec. 31-325.7. Bond.

No person shall be issued a permit for or engage in timber removal as set out in this chapter without first posting a surety bond not to exceed one hundred dollars ($100.00) per acre of land to be cut/cleared.

Upon the satisfactory final inspection at the completion of the required re-vegetation, the amount of surety posted shall be returned/released.
(Ord. No. 12900, § 1, 2-3-15; Ord. No. 13251, § 1, 11-28-17)

Sec. 31-325.8. Violations.

If the City determines that violations of these requirements have occurred, the Timber Removal Permit may be revoked and/or citations issued as otherwise authorized by City Code. Each day a violation continues is a separate violation.
(Ord. No. 12900, § 1, 2-3-15; Ord. No. 13251, § 1, 11-28-17)

Sec. 31-325.9. Conflict.

Where the standards and management requirements of this ordinance are in conflict with other city, state or federal laws, regulations, and policies regarding streams, steep slopes, erodible soils, wetlands, floodplains, timber removal, or other environmental protective measures, the more restrictive shall apply.
(Ord. No. 12900, § 1, 2-3-15; Ord. No. 13251, § 1, 11-28-17)

DIVISION 4. GENERAL REQUIREMENTS APPLICABLE TO ALL PERMITS ISSUED UNDER THIS ARTICLE*

Sec. 31-326. Maintenance and submittal of records.

Appropriate proof and records of compliance with the provisions of the Chattanooga Land Disturbing Permit will be maintained in the office of the designated contact person and be made available for review at any time by the Manager. A copy of the records of compliance will be sent yearly on the anniversary date of the permit to the Manager.
(Ord. No. 12900, § 1, 2-3-15; Ord. No. 13251, § 1, 11-28-17)

Sec. 31-327. Transfer of permit.

A Chattanooga Land Disturbing Permit may be transferred only upon the filing of an amendment to the permit application or an amended or restated application containing all changes from the original application providing there are no changes in the operation of the facility which may affect the quantity or quality of the stormwater runoff. If there are to be any changes in the operation of the facility which may affect the quantity or quality of stormwater runoff, then the new owner or operator shall re-apply for a Chattanooga Land Disturbing Permit prior to the beginning of operation of the facility. The filing of an amended or restated application shall be treated as an interim permit allowing the continued operation of the facility pending review of the application by the Manager, which shall remain in force until the application shall be approved or denied by the Manager.
(Ord. No. 12900, § 1, 2-3-15; Ord. No. 13251, § 1, 11-28-17)

Sec. 31-328. Signatory requirements.

1. All applications and reports required by this article to be submitted to the Manager shall be signed as follows:

A. Corporation: a president, secretary, treasurer, or vice-president of the corporation in charge of a principal business function, or any other person who performs similar policy or decision-making functions for the corporation.

B. Partnership or sole proprietorship: by a general partner or the proprietor.

C. Municipality, State, Federal, or other public facility: by either a principal executive officer or the chief executive officer of the agency, or a senior executive officer having responsibility for the overall operations of a principal geographic unit of the agency.

2. Any person signing any document above shall make the following certification:

"I certify under the penalty of law that I have personally examined and am familiar with the information submitted in the attached document; and based on my inquiry of those individuals immediately responsible for obtaining the information. I believe the submitted information is true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and civil penalty."
(Ord. No. 12900, § 1, 2-3-15; Ord. No. 13251, § 1, 11-28-17)

Sec. 31-329. Reserved.

***Editor's note—**Ord. No. 12900, § 1, adopted February 3, 2015, amended div. 4, §§ 31-326—31-328, in its entirety. Former div. 4 pertained to similar subject matter and was derived from Ord. No. 9942, § 1, adopted August 31, 1993 and Ord. No. 12881, § 1, adopted November 25, 2014.

DIVISION 5. MONITORING AND INSPECTION*

Sec. 31-330. Monitoring.

The Manager shall periodically monitor the quantity of, and the concentration of pollutants in stormwater discharges from the areas and locations designated in the Chattanooga Stormwater Management Plan.
(Ord. No. 12900, § 1, 2-3-15; Ord. No. 13251, § 1, 11-28-17)

Sec. 31-331. Detection of illicit connections and improper disposal.

1. The Manager shall take appropriate steps to detect and eliminate illicit connections to the Chattanooga Stormwater System, including the adoption of a program to screen illicit discharges and identify their source or sources.

2. The Manager shall take appropriate steps to detect and eliminate improper discharges, including programs to screen for improper disposal and programs to provide for public education, public information, and other appropriate activities to facilitate the proper management and disposal of used oil, toxic materials and household hazardous waste.
(Ord. No. 12900, § 1, 2-3-15; Ord. No. 13251, § 1, 11-28-17)

Sec. 31-332. Inspections.

1. The Manager or his designee, bearing proper credentials and identification, may enter and inspect all properties for regular periodic inspections, investigations, monitoring, observation, measurement, enforcement, sampling and testing, to effectuate the provisions of this article and the stormwater management program. The Manager or his designee shall duly notify the owner of said property or the representative on site and the inspection shall be conducted at reasonable times.

2. Upon refusal by any property owner to permit an inspector to enter or continue an inspection, the inspector shall terminate the inspection or confine the inspection to areas concerning which no objection is raised. The inspector shall immediately report the refusal and the grounds to the Manager. The Manager may seek appropriate compulsory process.

3. In the event the Manager or his designee reasonably believes that discharges from the property into the Chattanooga Stormwater System may cause an imminent and substantial threat to human health or the environment, the inspection may take place at any time and without notice to the owner of the property or a representative on site. The inspector shall present proper credentials upon reasonable request by the owner or representative.

4. At any time during the conduct of an inspection or at such other times as the Manager or his designee may request information from an owner or representative, the owner or representative may identify areas of its facility or establishment, material or processes which contains or which might reveal a trade secret. If the Manager or his designee has no clear and convincing reason to question such identification, the inspection report shall note that trade secret information has been omitted. To the extent practicable, the Manager shall protect all information which is designated as a trade secret by the owner or their representative.
(Ord. No. 12900, § 1, 2-3-15; Ord. No. 13251, § 1, 11-28-17)

Secs. 31-333—31-339. Reserved.

***Editor's note—**Ord. No. 12900, § 1, adopted February 3, 2015, amended div. 5, §§ 31-330—31-332, in its entirety. Former div. 5 pertained to similar subject matter and was derived from Ord. No. 9942, § 1, adopted August 31, 1993 and Ord. No. 12881, § 1, adopted November 25, 2014.

DIVISION 6. ENFORCEMENT AND ABATEMENT*

Sec. 31-340. Unauthorized discharge a public nuisance.

Discharge of stormwater in any manner in violation of this article or of any condition of a permit issued pursuant to this article or a stormwater discharge permit issued by the State of Tennessee is hereby declared a public nuisance and shall be corrected or abated.
(Ord. No. 12900, § 1, 2-3-15; Ord. No. 13251, § 1, 11-28-17)

Sec. 31-341. Illicit discharge and illegal dumping.

The following direct or indirect discharges into "Community Waters" or "Waters of the State" are prohibited and shall be unlawful:

1. Sewage dumping or dumping of sewage sludge;
2. Chlorinated swimming pool discharge;
3. Discharge of any polluted household wastewater, such as but not limited to laundry washwater and dishwater, except to a sanitary sewer or septic system;
4. Leaking sanitary sewers and connections, which shall have remained uncorrected for seven (7) days or more;
5. Leaking water lines shall have remained uncorrected for seven (7) days or more;
6. Commercial, industrial or public vehicle wash discharge;
7. Garbage or sanitary waste disposal;
8. No dead animals or animal fecal waste shall be directly discharged or discarded into the "Community Waters";
9. No non-stormwater discharges shall be discharged into the "Community Waters," except pursuant to a permit issued by the State of Tennessee or the City of Chattanooga;
10. No dredged or spoil material shall be directly or indirectly discharged or discarded into "Community Waters";
11. No solid waste shall be directly or indirectly discharged or discarded into "Community Waters";
12. No chemical waste shall be directly or indirectly discharged or discarded into "Community Waters";
13. No wrecked or discarded vehicles or equipment shall be discharged or discarded into "Community Waters."

(Ord. No. 12900, § 1, 2-3-15; Ord. No. 13251, § 1, 11-28-17)

Sec. 31-342. Prohibition of pollutant discharge not covered by the NPDES Program.

1. A permit is a license to conduct an activity which is regulated by the Clean Water Act, the Water Pollution Control Act (T.C.A. § 69-3-101, et seq.) or this article.

2. Every person who is or who is planning to carry out any of the activities requiring a permit shall obtain such a permit prior to carrying out such activities.

***Editor's note—**Ord. No. 12900, § 1, adopted February 3, 2015, amended div. 6, §§ 31-340—31-348, in its entirety. Former div. 6 pertained to similar subject matter and was derived from Ord. No. 9942, § 1, adopted August 31, 1993 and Ord. No. 12881, § 1, adopted November 25, 2014.

3. It shall be unlawful for any person to carry out any of the following activities, except in accordance with the conditions of a valid permit:

A. The alteration of the physical, chemical, radiological, biological, or bacteriological properties of any waters of the state or community waters;

B. The construction, installation, modification, or operation of any treatment works or part thereof, or any extension or addition thereto;

C. The increase in volume or strength of any wastes in excess of permissive discharges specified under any existing permit;

D. The development of a natural resource or the construction, installation, or operation of any establishment or any extension or modification thereof or addition thereto; the operation of which will or is likely to cause an increase in the discharge of wastes into the waters of the waters of the state or would otherwise alter the physical, chemical, radiological, biological or bacteriological properties of any waters of the state in any manner not already lawfully authorized;

E. The construction or use of any new outlet for the discharge of any wastes into the waters of the state;

F. The discharge of sewage, industrial wastes or other wastes into waters, or a location from which it is likely that the discharged substance will move into waters;

G. The discharge of sewage, industrial wastes, or other wastes into a well or a location that is likely that the discharged substance will move into a well, or the underground placement of fluids and other substances which do or may affect the waters of the state.

(Ord. No. 12900, § 1, 2-3-15; Ord. No. 13251, § 1, 11-28-17)

Sec. 31-343. Accidental discharges.

1. In the event of any discharge or a hazardous substance in amounts which could cause a threat to public drinking supplies, a "significant spill," or any other discharge which could constitute a threat to human health or the environment, the owner or operator of the facility shall give notice to the City's Water Quality Manager by calling 3-1-land the field office of Tennessee Department of Environment and Conservation as soon as practicable, but in no event later than the close of business on the day following the accidental discharge or the discharger becomes aware of the circumstances. If an emergency response by governmental agencies is needed, the owner or operator should also call 911 immediately to report the discharge. A written report must be provided within five (5) days of the time the discharger becomes aware of the circumstances, unless this requirement is waived by the Manager for good cause shown on a case-by-case basis, containing the following particulars:

A. A description of the discharge;

B. The exact dates and times of discharge, and

C. Steps being taken to eliminate and prevent recurrence of the discharge.

2. The discharger shall take all reasonable steps to minimize any adverse impact to the "Community Waters" or the "Waters of Tennessee," including such accelerated or additional monitoring as necessary to determine the nature and impact of the discharge. It shall not be a defense for the discharger in an enforcement action that it would have been necessary to halt or reduce the business or activity of the facility in order to maintain water quality and minimize any adverse impact that the discharge may cause.

3. It shall be unlawful for any person to fail to comply with the provisions of this section.

(Ord. No. 12900, § 1, 2-3-15; Ord. No. 13251, § 1, 11-28-17)

Sec. 31-344. Administrative enforcement remedies.

1. Notification of Violation. Whenever the Manager finds that any permittee or any person discharging stormwater has violated or is violating this article, or a Stormwater permit or order issued hereunder, the Manager or his agent may serve upon said user written notice of the violation. Within ten (10) days of the receipt date of this notice, an explanation of the violation and a plan for the satisfactory correction and prevention thereof, to include specific required actions, shall be submitted to the Manager. Submission of this plan in no way relieves the discharger of liability for any violations occurring before or after receipt of the notice of violation.

2. Consent Orders. The Manager is hereby empowered to enter into consent orders, assurances of voluntary compliance, or other similar documents establishing an agreement with the person responsible for the noncompliance. Such orders will include specific action to be taken by the industrial user to correct the noncompliance within a time period also specified by the order. Consent orders shall have the same force and effect as administrative orders issued pursuant to paragraph (4) below.

3. Show Cause Hearing. The Manager may order any person who causes or contributes to violation of this article or Stormwater permit or order issued hereunder, to show cause why a proposed enforcement action should not be taken. Notice shall be served on the person specifying the time and place for the meeting, the proposed enforcement action and the reasons for such action, and a request that the violator show cause why this proposed enforcement action should not be taken. The notice of the meeting shall be served personally or by registered or certified mail (return receipt requested) at least ten (10) days prior to the hearing. Such notice may be served on any principal executive, general partner or corporate officer.

4. Compliance Order. When the Manager finds that any person has violated or continues to violate this article or a permit or order issued thereunder, he may issue an order to the violator directing that, following a specified time period, adequate structures, devices, be installed or procedures implemented and properly operated. Orders may also contain such other requirements as might be reasonably necessary and appropriate to address the noncompliance, including the construction of appropriate structures, installation of devices, self-monitoring, and management practices.

5. Cease and Desist Orders. When the Manager finds that any person has violated or continues to violate this article or any permit or order issued hereunder, the Manager may issue an order to cease and desist all such violations and direct those persons in noncompliance to:

A. Comply forthwith; or

B. Take such appropriate remedial or preventive action as may be needed to properly address a continuing or threatened violation, including halting operations and terminating the discharge.

(Ord. No. 12900, § 1, 2-3-15; Ord. No. 13251, § 1, 11-28-17)

Sec. 31-345. Unlawful acts, misdemeanor.

It shall be unlawful for any person to:

1. Violate any provision of this article;

2. Violate the provisions of any permit issued pursuant to this article;

3. Fail or refuse to comply with any lawful notice to abate issued by the Manager, which has not been timely appealed to Stormwater Regulations Board, within the time specified by such notice; or

4. Violate any lawful order of the Stormwater Regulations Board within the time allowed by such order shall be guilty of a misdemeanor; and each day of such violation or failure or refusal to

comply shall be deemed a separate offense and punishable accordingly. Any person found to be in violation of the provisions of this article shall be punished by a fine of not less than twenty-five dollars ($25.00) nor more than five hundred dollars ($500.00) for each offense.

(Ord. No. 12900, § 1, 2-3-15; Ord. No. 13251, § 1, 11-28-17)

Sec. 31-346. Civil penalty.

1. Any person who does any of the following acts or omissions shall be subject to a civil penalty of up to five thousand dollars ($5,000.00) per day for each day during which the act or omission continues or occurs:

A. Who fails to obtain any permit required;

B. Violates the terms or conditions of a permit issued pursuant to a pretreatment program;

C. Violates a final determination or order of the Stormwater Regulations Board; or

D. Violates any provisions of this article.

2. Any civil penalty shall be assessed in the following manner:

A. The Manager may issue an assessment against any person or permittee responsible for the violation;

B. Any person against whom an assessment has been issued may secure a review of such assessment by filing with the Manager a written petition setting forth the grounds and reasons for his objections and asking for a hearing in the matter involved before the Stormwater Regulations Board and if a petition for review of the assessment is not filed within thirty (30) days after the date the assessment is served, the violator shall be deemed to have consented to the assessment and it shall become final;

C. Whenever any assessment has become final because of a person's failure to appeal the Manager's assessment, the Manager may apply to the appropriate court for a judgment and seek execution of such judgment and the court, in such proceedings, shall treat a failure to appeal such assessment as a confession of judgment in the amount of the assessment;

D. In assessing the civil penalty the Manager may consider the following factors:

i. Whether the civil penalty imposed will be a substantial economic deterrent to the illegal activity;

ii. Damages to the city, including compensation for the damage or destruction of public stormwater facilities, and also including any penalties, costs and attorneys' fees incurred by the city as the result of the illegal activity, as well as the expenses involved in enforcing this article and the costs involved in rectifying any damages;

iii. Cause of the discharge or violation;

iv. The severity of the discharge and its effect upon public stormwater facilities and upon the quality and quantity of the receiving waters;

v. Effectiveness of action taken by the violator to cease the violation;

vi. The technical and economic reasonableness of reducing or eliminating the discharge; and

vii. The economic benefit gained by the violator.

3. The Stormwater Regulations Board may establish by regulation a schedule of the amount of civil penalty which can be assessed by the Manager for certain specific violations or categories of violations.

4. Any civil penalty assessed to a violator pursuant to this section may be in addition to any civil penalty assessed by the Commissioner of Environment and Conservation for violations of T.C.A. § 69-3-115; however, the sum of penalties imposed by this section and by § 69-3-115 shall not exceed ten thousand dollars ($10,000.00) per day for each day during which the act or omission continues or occurs.
(Ord. No. 12900, § 1, 2-3-15; Ord. No. 13251, § 1, 11-28-17)

Sec. 31-347. Judicial proceedings and relief.

1. The Manager may initiate proceedings in any court of competent jurisdiction against any person who has or is about to:

A. Violate the provisions of this article;

B. Violate the provisions of any permit issued pursuant to this article;

C. Fail or refuse to comply with any lawful order issued by the Manager, which has not been timely appealed to the Stormwater Regulations Board, within the time allowed by this article;

D. Violates any lawful order of the Stormwater Regulations Board within the time allowed by such order.

2. Any person who shall commit any act or fail to perform any act declared unlawful under this article shall be guilty of a misdemeanor, and each day of such violation or failure shall be deemed a separate offense and punishable accordingly.

3. The Manager with consent of the Mayor may also initiate civil proceedings in any court of competent jurisdiction seeking monetary damages for any damages caused to publicly owned stormwater facilities by any person, and to seek injunctive or other equitable relief to enforce compliance with the provisions of this article or to enforce compliance with any lawful orders of the Manager or the Stormwater Regulations Board.
(Ord. No. 12900, § 1, 2-3-15; Ord. No. 13251, § 1, 11-28-17)

Sec. 31-348. Disposition of damage payments and penalties; special fund.

All damages collected under the provisions of sections 31-346 and civil penalties collected under section 31-347, following adjustment for the expenses incurred in making such collections, shall be allocated and appropriated to the stormwater system for the administration of its program.
(Ord. No. 12900, § 1, 2-3-15; Ord. No. 13251, § 1, 11-28-17)

Sec. 31-349. Reserved.

DIVISION 7. FEES

Sec. 31-350. Levied.

For the purpose of operating the stormwater program of the City and the payment of the costs and expenses appurtenant, incident or necessary thereto for the construction, extension, enlargement, or acquisition of necessary stormwater facilities or flood control improvement, including replacement thereof, and for the operation and maintenance thereof, there hereby is imposed a water quality fee upon the owner of property now served directl y or indirectly by the city's storm sewer system at the rates set forth in this division.
(Ord. No. 9942, § 1, 8-31-93; Ord. No. 12881, § 1, 11-25-14; Ord. No. 12900, § 1, 2-3-15; Ord. No. 13251, § 1, 11-28-17)

Sec. 31-351. Property owners to pay charges.

The owner of each lot or parcel which directly or indirectly uses the stormwater system maintained by the City shall pay the water quality fees and charges as provided in this division. The owner of record as determined by the records of the Assessor of Property for Hamilton County as of October 1 shall be liable for payment of the water quality fees for that calendar year; providing nothing herein shall preclude the proration of fees between property owners.
(Ord. No. 9942, § 1, 8-31-93; Ord. No. 10670, § 1, 2-24-98; Ord. No. 12881, § 1, 11-25-14; Ord. No. 12900, § 1, 2-3-15; Ord. No. 13251, § 1, 11-28-17)

Sec. 31-352. Rate Structure.

1. A water quality fee shall be assessed to the owner of each and every lot and parcel of land within the corporate City limits which directly or indirectly uses the stormwater system of the City and that contains impervious area. This fee is not related to the drinking water and/or sewer service and does not rely on occupancy of the premises to be in effect and is hereinbefore provided, and in the amount determinable as follows:

2. For any such property, lot, parcel of land, building or premises that directly or indirectly uses the stormwater system of the City, such fee shall be based upon the size of impervious area situated thereon.

3. All properties having impervious area within the City of Chattanooga will be assigned an Equivalent Residential Unit (ERU) or a multiple thereof, with all properties of having impervious area receiving at least one (1) ERU.

4. Residential properties. All residential properties will be assigned one (1) ERU. A flat rate fee will apply to all residential properties.

5. Non-residential properties. Non-residential properties will be assigned an ERU multiple based upon the properties' individually measured impervious area (in square feet) divided by three thousand two hundred (3,200) square feet (one (1) ERU). This division will be calculated to the first decimal place and rounded according to mathematical convention.
(Ord. No. 9942, § 1, 8-31-93; Ord. No. 12294, § 3, 10-6-09; Ord. No. 12881, § 1, 11-25-14; Ord. No. 12900, § 1, 2-3-15; Ord. No. 13251, § 1, 11-28-17)

Sec. 31-353. Billing procedure.

1. The water quality fees shall become effective at the rates hereinafter imposed, shall be billed annually by the City Treasurer at the same time that the city's real property taxes are mailed, and shall be due and payable at the same time as property taxes, October 1 of each year.

2. The water quality fee shall be designated as a separate item on the property tax bill.

3. The water quality fee shall be paid in person or by mail at the City Treasurer's Office and shall become delinquent as of the next February 1 following the billing. Any unpaid water quality fee shall bear interest at the legal rate if it remains unpaid after March 1.

4. Pursuant to section 13, Public Chapter Number 257, T.C.A. §68-221-1112, each bill that shall contain water quality fees shall contain the following statement in bold-faced type:

" THIS FEE HAS BEEN MANDATED BY CONGRESS "
(Ord. No. 9942, § 1, 8-31-93; Ord. No. 12366, 3-9-10; Ord. No. 12881, § 1, 11-25-14; Ord. No. 12900, § 1, 2-3-15; Ord. No. 13251, § 1, 11-28-17)

Sec. 31-354. Schedule of Fees.

The current annual City of Chattanooga Water Quality fee is as follows:

Residential Properties — $183.54 per ERU

Non-residential Properties: — $183.54 per ERU

(Ord. No. 9942, § 1, 8-31-93; Ord. No. 10111, § 4, 9-20-94; Ord. No. 12294, § 3, 10-6-09; Ord. No. 12377, § 2, 4-20-10; Ord. No. 12881, § 1, 11-25-14; Ord. No. 12900, § 1, 2-3-15; Ord. No. 12953, § 27, 6-16-15; Ord. No. 13213, § 30, 9-12-17; Ord. No. 13251, § 1, 11-28-17; Ord. No. 13334, § 29, 7-3-18; Ord. No. 13473, § 29, 6-25-19; Ord. No. 13558, § 29, 6-23-20; Ord. No. 13710, § 29, 9-28-21; Ord. No. 13840, § 29, 6-14-22; Ord. No. 14239, § 28, 6-10-25)

Sec. 31-355. Correction of erroneous billing.

1. Any owner or duly authorized agent may contest the accuracy of the water quality fees imposed by this article by lodging a protest with the Manager of the Water Quality Division of the Department of Public Works without payment of the water quality fee on or before December 31 in the year for which billing is received. The Manager shall develop and maintain appropriate forms for the lodging of such protest, but any written protest shall be sufficient provided that it sets forth with particularity the nature of any errors allegedly committed in the computation of such bill. A protest may be filed after December 31, but it must be preceded by or accompanied by payment of the water quality fees as billed which will be considered a payment under protest. Interest on any delinquent portion of the fees as adjudicated by that Board shall accrue from the date of the Manager's written decision.

2. The Manager shall duly consider all notices of protest as soon as practicable, and when he or she shall agree with all or any portion of the protest shall adjust the billing in accordance with such factors as are in this article. The Manager shall refund any erroneous billing for the year involved in the protest and when the conditions in the previous years also warrant an agreement, the Manager shall adjust the previous two (2) years' fees for a total of three (3) years of adjustment of erroneous fees.

3. If the Manager disapproves the protest in whole or in part, he or she shall notify the owner or duly authorized agent as soon as practicable. In no event shall there be more than a ninety (90) day delay in resolving any protest. In the event more than ninety (90) days elapses following the filing of the protest without a decision having been rendered by the Manager, the protest shall be deemed to have been denied.

4. If the owner disagrees with the administrative ruling of the Manager concerning a protest which was timely filed, the owner may within thirty (30) days following the date of the decision of the Manager appeal the bill and the Manager's administrative determination to the Stormwater Regulations Board by filing a notice of appeal to said board in care of the Administrator of the Department of Public Works, Development Resource Center, 1250 Market Street, Suite 2100, Chattanooga, Tennessee, 37402, with a copy of said notice provided to the Manager. The Manager shall develop and maintain forms appropriate for filing the notice of appeal, but no particular form for such an appeal shall be required providing that the appeal sets forth with particularity the nature of the owner's complaint.

5. If a notice of appeal to the Stormwater Regulations Board is timely filed, the board shall schedule a time and place within which to consider the appeal. The hearing on such appeals shall be informal, but the owner and Manager will each be given the opportunity to present documentary evidence in support of their position and will be given the opportunity to address the board. The board shall receive such evidence relating to the matter as may be necessary to resolve the dispute, and shall render such determinations and issue such orders as the law and facts of the case may require.

(Ord. No. 9942, § 1, 8-31-93; Ord. No. 10670, § 2, 2-24-98; Ord. No. 12336, § 3, 12-15-09; Ord. No. 12347, 2-9-10; Ord. No. 12881, § 1, 11-25-14; Ord. No. 12900, § 1, 2-3-15; Ord. No. 13251, § 1, 11-28-17)

Sec. 31-356. Water Quality Credits and Incentives.

The following sections describe the components of the city's credits and incentives program. the credits and incentives program is to be administered under the provisions of the credits and incentives manual in conjunction with the RMG. Discounts approved for properties under the prior system of provisions as enacted October 9, 2009 may continue to receive discounts until December 31, 2039 pursuant to the requirement of this Section.
(Ord. No. 9942, § 1, 8-31-93; Ord. No. 12294, § 3, 10-6-09; Ord. No. 12377, § 3, 4-20-10; Ord. No. 12881, § 1, 11-25-14; Ord. No. 12900, § 1, 2-3-15; Ord. No. 13251, § 1, 11-28-17)

Sec. 31-356.1. Adjustments to Water Quality Fee.

1. A property owner's addition of impervious areas or failure to maintain previously earned fee reductions will increase water quality fees on non-single-family residential service charges. Decreases to non-single-family fees occur via removal of impervious areas, or through installation of approved on-site runoff reduction SCMs that exceed the site's required stay-on-volume. The application of credit coupons will not reduce water quality fees.

A. Properties that comply with regulatory requirements, such as capping contaminated soil with impermeable liners, may receive a reduction in their annual water quality fee for those portions of the property that are subject to such regulatory requirements and remain as unused open space, as long as the following conditions are completed:

   i. The property owner must submit a fee appeal and attach the regulatory requirement of the application;

   ii. The property owner must continuously adhere to the regulatory requirements of the property;

   iii. The property owner must fence and maintain the requested unused* open space portion of the property (*The property owner shall not use the unused open space in any manner, including, but not limited to material storage, parking, drive lanes, property access, staging, etc.); and,

   iv. The property owner must provide annual reporting (narrative and photographic) on or before June 30th of each year to the City to substantiate non-usage of that portion of the property.

2. Upon application by any approved applicant adequately supported by documentation, the applicant shall be entitled to a discount as provided in this section and further described in the City's Credit and Incentive Manual.

A. Discounts are only offered to single-family residential properties through the My Tennessee program. All other water quality fee discounts described are for non-single family residential properties.

   i. My Tennessee participants are eligible for a twenty-five (25%) percent, fifty (50%) percent, or seventy-five (75%) percent annual water fee discount for bronze, silver, and gold level approved applicants, respectively.

B. Discounts for new and redevelopments correspond to each one percent (1%) exceedance of the applicable stay-on-volume up to a maximum recognized fee discount.

C. Discounts for retrofits correspond to each one-tenth (0.1) inch exceedance of the applicable stay-on-volume up to a maximum recognized fee discount.

D. The minimum recognized discount is ten percent (10%).

E. The maximum discount is determined by the applicable development category under which the SOV was installed.

i. Forty percent (40%) for new development.

ii Sixty percent (60%) for redevelopment.

iii. Seventy percent (70%) for retrofit.

3. Properties that submit a complete application for a discount prior to the close of business on November 30, 2015, may continue to be eligible for discounts under the prior system of provisions. These discounts may continue until December 31, 2039 provided no unapproved changes are made to the practices or SCMs that are the basis for the discount, all applicable forms are submitted on time, and the practices or SCMs maintain compliance with City standards.

A. Sites receiving a discount for the installation of a LID retrofit under the prior system of provisions are exempt from the December 31, 2039 sunset date and may continue to receive a discount under the prior system of provisions provided they continue to meet all maintenance and submittal requirements.

B. If properties participating in the prior system of provisions choose to apply under the provisions of this ordinance, then they will be treated like retrofit sites in regard to the SOV baseline, maximum discounts, and potential mitigation credits.

4. Proper SCM Maintenance is required to receive the discounts provided in this Section. Maintenance shall be performed according to the City's RMG and the site specific Long Term Maintenance Plan. Annually, the property owner must submit approved inspection and maintenance reports with related pictures of the SCMs to verify that the SCMs have been properly maintained and serviced. Failure to provide this documentation by June 30 will result in the suspension of the discount for that year. The fee discount may be reinstated the following year if the inspection and maintenance forms are submitted on time and the property passes a City stormwater compliance inspection. Failure to submit forms for a second year in a row and/or failure of the compliance inspection will result in the forfeiture of the discount. Once a fee discount is forfeited, the property owner may reapply the following year for a fee discount as allowed by the most current ordinance.

5. Any property owner applying or reapplying for discounts must have a recorded Inspection and Maintenance Agreement for Private Stormwater Management Facilities designating the party or parties responsible for maintenance and granting the City the right to inspect said facilities. An inspection and maintenance plan specific to the site must be recorded with the Register of Deeds along with this Agreement.

6. Reserved.

7. The approved applicant shall apply for discounts pursuant to this section.

A. Applications shall be accompanied by proper documentation demonstrating the accuracy of the claim. To the extent that the City is satisfied that discounts are warranted by the circumstances, the bill shall be reduced as provided herein. If the fees shall have been previously paid, the City can refund or credit future billings to the extent warranted by the discount.

B. Applications must be approved by the City by March 1 in order to be applied to the previous year's fee.

C. The City shall act upon discount applications within ninety (90) days of the receipt thereof. In the event the application is not acted upon within this time, the application shall be deemed to have been denied.

(Ord. No. 12881, § 1, 11-25-14; Ord. No. 12900, § 1, 2-3-15; Ord. No. 12933, § 1, 4-7-15; Ord. No. 13251, § 1, 11-28-17; Ord. No. 13384, § 1, 10-16-18; Ord. No. 13486, § 2, 7-23-19; Ord. No. 13675, § 1, 5-18-21)

Sec. 31-356.2. Credit Coupons.

1. An approved applicant shall be entitled to a credit coupon, upon application and documentation that adequately supports a case for credit to be issued as provided in this section and further described in the Credits and Incentives Manual.

A. Credit coupons are earned in units of cubic feet of SOV for exceeding the applicable SOV standard on new and redevelopments, retrofits, or offsite mitigation sites.

B. Earned credits are issued after certified As Built Plans are approved.

C. Credits are issued to the approved applicant as a paper credit coupon.

D. The maximum credit that can be earned is the difference between the applicable SOV standard and the volume resulting from a two and one- tenth (2.1) inch rainfall event. A two and one-tenth (2.1) inch rainfall event is the specified water quality volume identified in the RMG.

2. Subject to certain stipulations, credit coupons may be sold, transferred, or applied in the amount of the coupons individually or in any combination.

A. Credit coupons have no monetary face value.

B. Earned and unapplied coupons do not have an expiration date.

C. The City will not replace or re-issue lost credit coupons. The coupon holder assumes all risk of theft, fire and every form of loss.

D. The City will track credit coupons issued and redeemed for the purpose of NPDES compliance reporting.

E. The City will split credit coupons to facilitate the sale and transfer of credit coupons. Original credit coupons must be surrendered to the City.

F. The City will not track ownership changes as a result of the sale or transfer of credit coupons.

G. The City will not coordinate, assist, or negotiate the transaction for the transfer of coupons between a willing seller and a potential buyer.

3. The application of acquired or earned credit coupons is subject to the following rules and stipulations:

A. Without demonstrating hardship, the application of credit coupons is limited to fifty percent (50%) of the required SOV.

B. Credit Coupons are applied at a one-to-one (1:1) ratio anywhere in the City, outside of Combined Sewer System areas, to meet another site's SOV obligation.

C. Reserved.

D. Credit coupons cannot be applied or used to meet the SOV requirement for offsite mitigation projects.

E. Retrofitting existing sites for SOV is voluntary so that applicants may earn credit coupons and/or reduce the property owner's water quality fee. The application of coupons at retrofit sites would accomplish neither, and is therefore not allowed.

F. The request for use of credit coupons is incumbent on the applicant and must be submitted with the project's preliminary plan submittal.

G. Reserved.

H. The city-wide use and application of credit coupons is subject to periodic review and adjustment.

I. The owner or transferee surrenders the applied credit coupon(s) with final As Built Plan certification. The City retires the used coupon(s) and issues a new coupon for any residual SOV not applied.

4. When using or applying credit coupons, peak rate controls and water quality treatment (TSS) must still be met on site.

5. All credits shall be subject to any changes in federal or state law and regulation, or changes to the City's National Pollutant Discharge Elimination System (NPDES) Permit that increase restrictions on stormwater discharges.

(Ord. No. 12881, § 1, 11-25-14; Ord. No. 12900, § 1, 2-3-15; Ord. No. 13251, § 1, 11-28-17; Ord. No. 13486, § 3, 7-23-19)

Sec. 31-356.3. Offsite Mitigation and Mitigation Fees.

The City will consider the following alternatives for sites that have proven to be technically infeasible to achieve the stay-on-volume performance standard according to the RMG. Economic hardship, site program density (lack of space for SCMs), and other similar conditions imposed solely by the site design

are not presumed to be a basis for site infeasibility. Acceptable reasons for qualifying for offsite mitigation and/or mitigation fees are defined in this Article, in the City's RMG and in the Credits and Incentives Manual.

1. Offsite Mitigation.

   A. Approved applicants may elect to perform offsite mitigation.

      i. The intent of the applicant must be made at the concept plan review and confirmed at the preliminary plan submission.

      ii. The selection and acquisition of the property to be used for offsite mitigation are the responsibility of the applicant.

         (a) Offsite mitigation may be performed or installed on redevelopment and/or retrofit sites.

         (b) These sites may have their own SOV requirement plus have to accommodate any offsite mitigation volumes. Installed volumes exceeding the two and one-tenth (2.1) inch design standard will not earn offsite mitigation volumes, fee reductions or credit coupons.

         (c) Offsite mitigation SOV cannot be installed at new- development sites.

         (d) Offsite mitigation is permitted only within the same City-defined watershed as the primary site.

         (e) The City, at its discretion, may offer an available City-owned or managed site, within the same watershed, for offsite mitigation subject to mutually agreeable terms and conditions. The approved applicant is under no obligation to utilize any site offered or recommended by the City.

         (f) Offsite mitigation that is designed and constructed in accordance with approved plans and specifications to the satisfaction of the Site Development Manager may be considered to comply with this requirement.

      iii. Preliminary and final plans for both the primary and the mitigation site are required concurrently unless bonding at $45/cubic foot is provided at the time the primary site is permitted.

      iv. The offsite mitigation location must achieve one hundred fifty percent (150%) of the primary site's SOV not achieved through either on-site installation or credit coupon application.

      v. Offsite mitigation projects may receive credit coupons for volumes that exceed the prescribed SOV up to two and one-tenth (2.1) inch total. These property owners may apply for water quality fee discounts subject to the rules of these sections.

      vi. Offsite mitigation must be completed within three (3) years of project approval.

   B. The applicant is required to post a surety bond in an amount equal to the equivalent mitigation fee, based on the value per cubic foot defined in this Article multiplied by the primary development site's unachieved SOV.

      i. The bond will be required before final plans are approved.

      ii. Once the As Built Plan is approved, the bond will be released if all required SOV has been installed. The bond will be called for payment for that portion of SOV that was not met.

2. Mitigation Fees.

   A. Approved applicants may request to pay an in-lieu-fee into a City-managed fund. If accepted, the City can utilize funds to acquire related property, plan, design, construct and maintain public stormwater projects. Use of a mitigation fee is subject to the stipulations provided in this section and further described in the Credits & Incentives Manual.

   B. The mitigation fee may be paid on applicable new and redevelopments for the required or prescribed SOV not achieved onsite.

      i. Applicants/owners must obtain City approval for payment of a mitigation fee in lieu of managing the SOV onsite. The City may agree to receipt of mitigation fees if stormwater management cannot be more fully implemented on a site.

      ii. Mitigation fees are assessed at a rate of forty-five dollars ($45.00) per cubic foot. This rate is one and one-half (1.5) times the average construction cost of thirty dollars ($30.00) per cubic foot, based on research by the City. This methodology is stipulated in the City's MS4 permit issued by TDEC. This rate is subject to periodic review and adjustment.

      iii. Final mitigation fees are determined after approval of the final plans. Fifty percent (50%) is due and payable to the City prior to the issuance of a Land Disturbing Permit. The balance is due and payable with receipt of the certified As Built plan prior to issuance of a Certificate of Occupancy.

(Ord. No. 12881, § 1, 11-25-14; Ord. No. 12900, § 1, 2-3-15; Ord. No. 13251, § 1, 11-28-17)

Sec. 31-357. Water Quality Only Accounts.

Water Quality accounts are parcels that may not have other services (drinking water and/or sanitary sewer) but do contain impervious area or hard surface so a water quality charge would apply. New and additional water quality accounts will be determined by the Water Quality Manager or his designee of the Department of Public Works office.

(Ord. No. 10111, § 1, 9-20-94; Ord. No. 12294, § 3, 10-6-09; Ord. No. 13251, § 1, 11-28-17)

Sec. 31-358. Reserved.

Editor's note—Ord. No. 13859, § 1, adopted July 19, 2022, repealed § 31-358, which pertained to elderly low-income or disabled homeowner exemption from fees and derived from Ord. No. 12294, § 3, 10-6-09; Ord. No. 13251, § 1, 11-28-17.

Sec. 31-359. Reports to Chattanooga City Council.

The Administrator of the Department of Public Works, or such Administrator's designated representative, shall report semi-annually to the Chattanooga City Council on the City's Stormwater Management Program. Such report shall include, at a minimum, the following:

(1) The status of the Stormwater Management Program;

(2) The adequacy of the fee structure imposed to fund the Stormwater Management Program;

(3) Any plans for capital improvements necessary for the Stormwater Management Program;

(4) The status of any projects to control Stormwater run-off; and

(5) The status concerning compliance with the provisions of the NPDES permit.

(Ord. No. 12377, § 4, 4-20-10; Ord. No. 13251, § 1, 11-28-17)

DIVISION 8. STORMWATER REGULATIONS BOARD

Sec. 31-360. Established.

There is hereby established a Board of nine (9) members to be known as the "Stormwater Regulations Board."
(Ord. No. 9942, § 1, 8-31-93; Ord. No. 11496, § 1, 12-2-03; Ord. No. 13251, § 1, 11-28-17)

Sec. 31-361. Composition; terms; filling vacancies.

1. The nine (9) members of the Board shall initially be appointed by the Mayor for staggered terms of one (1) to three (3) years, subject to the approval of the City Council, with terms, after the initial appointments being for three (3) years. Members shall serve until replaced, reappointed, or resign. The Mayor shall appoint members with the following qualifications: environmental engineer or environmental scientist or educator; a representative of an industrial or commercial establishment that is regulated by this Article; two (2) representatives of neighborhood groups; a representative of the development community; a representative of an environmental interest or environmental organization; and a representative of the contractor community. The remaining two (2) members shall not have any particular qualifications, but to the extent practical, shall be selected to maintain diversity on the Board. All members shall serve at the pleasure of the Mayor and the City Council. In the event of a vacancy, the Mayor shall appoint a member to fill the unexpired term, subject to approval by the City Council.

2. The Board shall select its own Chairman, Vice-Chairman, and Secretary. All officers other than the Chairman shall serve for terms of one (1) year.

3. If any member of the Board misses two (2) regular meetings during a calendar year without an adequate justification, they shall be notified by the Chairman they are being placed on probation. They must attend the next two (2) regularly scheduled meetings to be released from probation. If they shall fail to satisfactorily complete a probation or if they are placed on probation for a second time during a term of office, the Chairman of the Stormwater Regulations Board shall request the Mayor to dismiss the Board member and to appoint a new member approved by the City Council. If the Chairman of the Stormwater Regulations Board shall be absent from two (2) regular meetings in one (1) year without an adequate justification, the Vice-Chairman shall request the Mayor to dismiss the Chairman of the Stormwater Regulations Board and select a new Chairman to perform the duties.
(Ord. No. 9942, § 1, 8-31-93; Ord. No. 10111, § 5, 9-20-94; Ord. No. 11496, § 2, 12-2-03; Ord. No. 13251, § 1, 11-28-17)

Sec. 31-362. General duties of the board.

In addition to any other duty or responsibility otherwise conferred upon the board by this chapter, the board shall have the duty and power as follows:

1. To recommend from time to time to the city council that it amend or modify the provisions of this article;

2. To hold hearings upon appeals from orders or actions of the Manager as may be provided under any provision of this chapter;

3. To hold hearings relating to the suspension, revocation, or modification of a stormwater discharge permit and issue appropriate orders relating thereto;

4. To hold hearings relating to an appeal from a user concerning the accuracy of any fees imposed upon the user by this article;

5. To hold such other hearings as may be required in the administration of this chapter and to make such determinations and issue such orders as may be necessary to effectuate the purposes of this article;

6. To request assistance from any officer, agent, or employee of the city or the Chattanooga-Hamilton County Regional Planning Commission and to obtain such information or other assistance as the board might need;

7. The board acting through its chairman shall have the power to issue subpoenas requiring attendance and testimony of witnesses and the production of documentary evidence relevant to any matter properly heard by the board; and

8. The chairman, vice chairman or chairman pro tem shall be authorized to administer oaths to those persons giving testimony before the board.

9. To prepare, with the assistance of the stormwater management staff, a stormwater program mission, goals, and objectives for a five (5) year time frame to plan for the existing NPDES permit and to plan for at least one (1) year subsequent to the anticipated renewal of a permit. The goals and objectives shall be reviewed on an annual basis and with the assistance of the staff an annual report shall be prepared in a timely manner for consideration in the annual capital budget submissions by the stormwater staff.

10. The Board shall consider the proposed capital budget submission and recommend to the Mayor and Council any suggestion to change those priorities.

11. To review at least on a bi-annual basis the stormwater rates and to recommend to the Mayor and City Council any changes to make them fairer and to insure that they adequately fund the stormwater program.

12. To review and provide constructive comments to the stormwater management staff relative to the development and implementation of a level of stormwater service acceptable to the rate payers.

13. To respond to citizen complaints and petitions and to recommend an appropriate remedial action when appropriate.

14. To provide a report to the Mayor and City Council on an annual basis addressing such matters as programmatic direction, project review, and effectiveness of the stormwater program.

(Ord. No. 9942, § 1, 8-31-93; Ord. No. 11496, § 3, 12-2-03; Ord. No. 13251, § 1, 11-28-17)

Sec. 31-363. Variances.

1. The board may grant a variance from the requirements of this article providing to do so would not result in the violation of any state or federal law or regulation and if exceptional circumstances applicable to the site exist such that strict adherence to the provisions of this article will result in unnecessary hardship and will not result in a condition contrary to the intent of the ordinance.

2. A written petition for a variance shall be required and shall state the specific variance sought and the reasons, with supporting data, why a variance should be granted. The request shall include all information necessary to evaluate the proposed variance. The petition shall be filed with the Site Development Manager.

3. The Manager shall conduct a review of the request for a variance within ten (10) working days after receipt and may either support the petition or may object to the petition. The manager may elect to receive advice of the City Attorney or designee prior to rendering a decision and may defer to the advice of the City Attorney on legal issues. If the Site Development Manager objects to the variance, he shall state the reasons therefore.

4. Once the Site Development Manager's review is complete or the ten (10) days for review have expired, the petition shall be subject to board action at the next regularly scheduled meeting or at a special meeting called in the discretion of the chair.
(Ord. No. 9942, § 1, 8-31-93; Ord. No. 11496, § 4, 12-2-03; Ord. No. 13251, § 1, 11-28-17)

Sec. 31-364. Meetings; quorum.

1. The board shall hold regular quarterly meetings and such special meetings as the board may find necessary.

2. Five (5) members of the board shall constitute a quorum, but a lesser number may adjourn a meeting from day to day. Any substantive action of the board shall require five (5) votes, but a majority of the quorum may decide any procedural matter.

3. In the event the Stormwater Regulations Board fails to convene a quorum for two consecutive meetings, the above duties and responsibilities may be administered by City Council and or the Mayor.
(Ord. No. 9942, § 1, 8-31-93; Ord. No. 11496, § 5, 12-2-03; Ord. No. 13251, § 1, 11-28-17)

Sec. 31-365. Hearing procedure; judicial review.

1. When to be held. The stormwater regulations board shall schedule an adjudicatory hearing to resolve disputed questions of fact and law whenever provided by any provision of this article.

2. Record of hearing. At any such hearing, all testimony presented shall be under oath or upon solemn affirmation in lieu of oath. The board shall make a record of such hearing, but the same need not be a verbatim record. Any party coming before the board shall have the right to have such hearing recorded steno graphically, but in such event the record need not be transcribed unless any party seeks judicial review of the order or action of the board by common law writ of certiorari, and in such event the parties seeking such judicial review shall pay for the transcription and provide the board with the original of the transcript so that it may be certified to the court.

3. Subpoenas. The chairman may issue subpoenas requiring attendance and testimony of witnesses or the production of evidence, or both. A request for issuance of a subpoena shall be made by lodging with the chairman at least ten (10) days prior to the scheduled hearing date a written request for a subpoena setting forth the name and address of the party to be subpoenaed and identifying any evidence to be produced. Upon endorsement of a subpoena by the chairman, the same shall be delivered to the chief of police for service by any police officer of the city, if the witness resides within the city. If the witness does not reside in the city, the chairman shall issue a written request that the witness attend the hearing.

4. Depositions. Upon agreement of all parties, the testimony of any person may be taken by deposition or written interrogatories. Unless otherwise agreed, the deposition shall be taken in a manner consistent with Rules 26 through 33 of the Tennessee Rules of Civil Procedure, with the chairman to rule on such matters as would require a ruling by the court under such rules.

5. Hearing procedure. The party at such hearing bearing the affirmative burden of proof shall first call his witnesses, to be followed by witnesses called by other parties, to be followed by any witnesses which the board may desire to call. Rebuttal witnesses shall be called in the same order. The chairman shall rule on any evidentiary questions arising during such hearing and shall make such other rulings as may be necessary or advisable to facilitate an orderly hearing subject to approval of the board. The board, the Manager, or his representative, and all parties shall have the right to examine any witness. The board shall not be bound by or limited to rules of evidence applicable to legal proceedings. Any civil penalties which are unpaid following any administrative ruling by the board shall be required to be paid by the permit holder before any additional stormwater permits may be issued by the City for other land disturbance projects by the permit holder.

6. Appeal to board of manager's order. Any person aggrieved by any order or determination of the Manager may appeal said order or determination to the board and have such order or determination reviewed by the board under the provisions of this section. A written notice of appeal shall be filed with the Manager and with the chairman, and such notice shall set forth with particularity the action or inaction the Manager complained of and the relief sought by the person filing said appeal. A special meeting of the board may be called by the chairman upon the filing of such appeal, and the board may in its discretion suspend the operation of the order or determination of the Manager appeals from until such time as the board has acted upon the appeal. If the board conducts a hearing to review the determination of the Manager it may approve, approve with limitations, or reject any civil penalties assessed in the Manager's order as to the party appealing the order. Any civil penalties which are unpaid following any ruling by the board shall be required to be paid by the permit holder before any additional stormwater permits may be issued by the City for other projects by the permit holder.

7. Absence of chairman. The vice-chairman or the chairman pro tem shall possess all the authority delegated to the chairman by this section when acting in his absence or in his stead.

8. Review of board's decision. Any person aggrieved by any final order of determination by the board hereunder shall have judicial review by common law writ of certiorari.
(Ord. No. 9942, § 1, 8-31-93; Ord. No. 13251, § 1, 11-28-17; Ord. No. 13661, § 1, 4-6-21)

ARTICLE IX. WATER AND WASTEWATER AUTHORITY

Sec. 31-366. Created; basic powers and authority granted.

There is hereby created pursuant to the terms of the Regional Water and Wastewater Treatment Authority Act, Tennessee Code Annotated, sections 68-221-1301 through 638-221-1319, as amended, (hereafter "Authority Act") a water and wastewater treatment authority for the city and any participating governmental entity that may elect to join. This authority shall be named the Chattanooga Area Water and Wastewater Authority (hereinafter called "the authority"). The authority shall have all the powers and authority set forth in the Authority Act.

Sec. 31-367. Composition; appointment, tenure of members; vacancies.

(a) The authority created by this chapter shall consist of members, the executive director, and such subordinate officers and employees as may be selected by the authority as authorized pursuant to the Authority Act.

(b) The initial board of commissioners of the authority shall consist of: one (1) member nominated by the Chattanooga Chamber of Commerce, one (1) member nominated by the Chattanooga Manufacturer's Association, one (1) member nominated by X, one (1) member nominated by Y, and one (1) member nominated by the Mayor of Chattanooga. All initial members shall be subject to approval by the Chattanooga City Council.

(c) The initial terms of the member nominated by the Chamber of Commerce shall be five (5) years, the initial term of the member nominated by the Manufacturer's Association shall be four (4) years, the initial term of the member nominated by X shall be three (3) years, and the initial term of the member nominated by Y shall be two (2) years, and the term of the member nominated by the Mayor shall be one (1) years. Thereafter the terms of members shall be five (5) years.

(d) Any vacancy by reason of nonresidence, incapacity, resignation or death shall be filled in like manner for the unexpired term.

(e) A commissioner's term shall continue until the appointment and qualification of that commissioner's tenure.

(f) A commissioner may be removed from office as provided in T.C.A. § 68-221-1304.

(g) When other governmental entities elect to participate in the authority, the manner of selection of members of the authority may change and the terms of office of directors may be changed to facilitate participation by other entities.

Sec. 31-368. Election and tenure of officers; bylaws; and meetings

(a) Immediately upon the qualification of the members of the authority, they shall elect one (1) of the members of such authority as chairman, and one (1) of its members as vice-chairman, one (1) of its members as secretary. The authority shall as soon as practical develop bylaws for the operation of the board of commissioners.

(b) The authority shall hold regular meetings at least once monthly, at a definite time to be fixed by resolution of the authority, and such special meetings as may be necessary for the transaction of the business of the authority.

Sec. 31-369. Right to use public ways.

The authority shall have the right, but not exclusive of the public right, to use any public road, street, or other public way and easement granted for such purposes for installation and maintenance of any treatment work. The use of such public way shall be subject to reasonable restriction by the governmental entity.

Sec. 31-370. Liability of participating governmental entities.

By participating in the authority no governmental entity, including the City of Chattanooga, assumes any responsibility for the debts, operating expenses, obligations or other liabilities of the authority unless and when an individual governmental entity may, from time to time, specifically agree to do so by action of its governing body.

Chapter 32

STREETS AND SIDEWALKS*

Article I. In General

Sec. 32-1. Streets to be designated by signs at corners.
Sec. 32-2. Datum plane adopted.
Sec. 32-3. Maintenance, removal of equipment installed in streets under franchise.
Sec. 32-4. Harmful materials, substances in streets.
Sec. 32-5. Vehicles using sidewalks adjacent to filling stations.
Sec. 32-6. Washing vehicles on streets, sidewalks.
Sec. 32-7. Signs, pillars, posts, columns on sidewalks.
Sec. 32-8. Projections over sidewalks.
Sec. 32-9. Nonconforming permits, encroachments and projections.
Sec. 32-10. Supervision of trees and shrubs; cutting, trimming, removal.
Sec. 32-11. Injuring trees, shrubs, plants.
Sec. 32-12. Parking, driving on area between sidewalk and curb.
Sec. 32-13. License to make excavations, build or repair sidewalks, occupy streets or sidewalks—Required.
Sec. 32-14. Reserved.
Sec. 32-15. Same—Bond required of licensee.
Sec. 32-16. Definitions.
Secs. 32-17—32-30. Reserved.

Article II. Obstructions

Sec. 32-31. Use of streets for carnivals, fairs, exhibitions.
Sec. 32-32. Boxes, barrels, merchandise, other articles.
Sec. 32-33. News vendors' stands.
Sec. 32-34. Obstructions to visibility at intersections.
Sec. 32-35. Leaving wood, lumber on sidewalks.
Sec. 32-36. Dumping earth, building debris on streets.
Sec. 32-37. Building materials on streets.
Sec. 32-38. Protection of streets, sidewalks on which deposits made.
Sec. 32-39. To be lighted at night.
Sec. 32-40. Liability for failure to light.
Sec. 32-41. Permit required to obstruct gutter; issuance.
Sec. 32-42. Gutter obstruction to be removed when permit expires.

***Charter references—**General authority over streets and sidewalks, § 2.1(7); public works, streets, sewers and airports, § 15.1.

State law reference—Streets and other public improvements, T.C.A., § 7-31-101, et seq.

Sec. 32-43. Removal of unauthorized gutter obstructions.
Sec. 32-44. Temporary use permit.
Secs. 32-45—32-60. Reserved.

Article III. Excavations and Restoration of Paving

Secs. 32-61. Reserved.
Sec. 32-62. Permit required.
Sec. 32-63. Applications.
Sec. 32-64. Application fee.
Sec. 32-65. Manner of excavating; barricades and lights.
Sec. 32-66. Bond required.
Sec. 32-67. Manner of excavating street.
Sec. 32-68. Liability and responsibility for repair.
Sec. 32-69. Inspection.
Sec. 32-70. Specification.
Sec. 32-71. Insurance.
Sec. 32-72. Supervision.
Secs. 32-73—32-85. Reserved.

Article IV. Encroachments and Excavations on State and Federal Highways

Sec. 32-86. Permit required for encroachments; approval.
Sec. 32-87. Removal of violating encroachments.
Sec. 32-88. Permit required for excavations; approval.
Secs. 32-89—32-100. Reserved.

Article V. Curb and Sidewalk Construction and Maintenance

Sec. 32-101. Abutting owners, occupants to keep sidewalks clean and unobstructed.
Sec. 32-102. Duty of abutting owners, occupants to construct.
Sec. 32-103. When owner, occupant to construct or repair sidewalk.
Sec. 32-104. Specifications for construction and repair; permit required.
Sec. 32-105. Failure to construct or repair; notice authorized.
Sec. 32-106. Notice where owner unavailable, no agent and property deserted.
Sec. 32-107. Failure to comply with notice.
Sec. 32-108. Failure to complete work.
Sec. 32-109. Liability of abutting owner for injuries to persons.
Sec. 32-110. Action over by city for judgments against it.
Secs. 32-111—32-125. Reserved.

Article VI. Sidewalk Openings and Gratings

Sec. 32-126. Open gratings prohibited.
Sec. 32-127. Gratings and openings for which permits may be issued.
Sec. 32-128. Construction requirements for use of space under sidewalk.
Sec. 32-129. Leaving sidewalk openings uncovered or out of repair.
Secs. 32-130—32-145. Reserved.

Article VII. Driveways and Curb Cuts

Sec. 32-146. Permits required.
Sec. 32-147. Location approval prerequisite to building permit.
Sec. 32-148. Plot plan required.
Sec. 32-149. When permits not to issue.
Sec. 32-150. Maximum width.
Sec. 32-151. Safety aisle between driveways.
Sec. 32-152. Curbs and gutters required.
Secs. 32-153—32-165. Reserved.

Article VIII. Address Numbering System

Sec. 32-166. System established.
Sec. 32-167. Division of blocks into numbering spaces.
Sec. 32-168. Base lines.
Sec. 32-169. Numbering streets not terminating on base lines.
Sec. 32-170. Odd and even numbers.
Sec. 32-171. Each block to begin with the first number of its sequence.
Sec. 32-172. Property owner to install correct address number.
Sec. 32-173. When address numbers to be affixed to new buildings.
Sec. 32-174. Obliterated, indistinct numbers to be replaced.
Sec. 32-175. When address renumbering required.
Sec. 32-176. Size of numbers generally; style, location to be approved.
Sec. 32-177. Information to be furnished by City Engineer.
Sec. 32-178. Standard Street Numbering and Addressing Policy.
Secs. 32-179—32-195. Reserved.

Article IX. Street Names

Sec. 32-196. Establishment.
Sec. 32-197. Method of procedure to change street and right-of-way names.
Sec. 32-198. Continuation of streets.
Sec. 32-199. Duplication of street names.
Sec. 32-200. Alteration and damage to street signs and street poles.
Secs. 32-201—32-215. Reserved.

Article X. Poles and Wires

Sec. 32-216. Permit to erect poles—Required; how issued; conditions.
Sec. 32-217. Same—Grounds for refusal.
Sec. 32-218. Use of poles for wires of other corporations.
Sec. 32-219. Notice to permit use of poles.
Sec. 32-220. Bond for use of poles by other than owner.
Sec. 32-221. City may use top of pole.
Sec. 32-222. Maintenance of equipment.
Sec. 32-223. Unused equipment to be removed.
Sec. 32-224. Sidewalk Clear Zone.
Secs. 32-225—32-230. Reserved.

Article XI. Telecommunications Services; Franchises for Telecommunications Services

Sec. 32-231. Definitions.
Sec. 32-232. Services prohibited without franchise or without authorization from State of Tennessee.
Sec. 32-233. Provider's Compliance with Law and Maintenance of Clear Zone.
Sec. 32-234. Application for Telecommunications Franchise; application fee.
Sec. 32-235. General provisions for Telecommunications Services.
Sec. 32-236. Engineering designs for Provider's System; "as built" drawings for System.
Sec. 32-237. No adverse effect upon adjacent properties.
Sec. 32-238. No adverse effect upon other utilities.
Sec. 32-239. Restoration of Rights-of-Way.
Sec. 32-240. Standards for maintenance of Telecommunications Services and right to inspect.
Sec. 32-241. Notification of execution of any security agreement or similar agreement concerning Provider's System.
Sec. 32-242. Indemnification of City by Providers.
Sec. 32-243. Insurance and bonds to be maintained by Providers.
Sec. 32-244. Removal or relocation of systems; and emergency removal or relocation.
Sec. 32-245. Assignment of franchise; lease or sale of capacity.
Sec. 32-246. Removal of Telecommunications Facilities.
Sec. 32-247. No cost to City arising out of franchise.
Sec. 32-248. Telecommunications Franchise Fee from Providers; Franchise Fee Statement; no accord and satisfaction.
Sec. 32-249. Default of Providers.
Sec. 32-250. Notices.
Sec. 32-251. Nondiscrimination by Providers.
Sec. 32-252. No grant of use of other property.
Sec. 32-253. Severance clause.
Sec. 32-254. Liabilities; penalties and other rights and remedies.
Sec. 32-255. Compliance with applicable laws and ordinances.
Sec. 32-256. Joint planning and construction; coordination of planned excavations.
Sec. 32-257. Wireless telecommunication advancement exception.
Sec. 32-258. Protection of trees.
Secs. 32-259—32-270. Reserved.

Article XII. Street Construction

Sec. 32-271. Purpose.
Sec. 32-272. Conformity to official plans.
Sec. 32-273. Street design and construction standards.
Sec. 32-274. Grading.
Sec. 32-275. Utility construction.
Sec. 32-276. Subgrade.
Sec. 32-277. Fill and embankments.
Sec. 32-278. Base.
Sec. 32-279. Prime.
Sec. 32-280. Binder.
Sec. 32-281. Backfill curbs.
Sec. 32-282. Tack coat.
Sec. 32-283. Surface.
Sec. 32-284. Seasonal limitations of asphalt.
Sec. 32-285. "As built" drawings.

Sec. 32-286. Geotextiles.
Sec. 32-287. Optional rigid pavements.
Sec. 32-288. Plan review and preconstruction conference.
Secs. 32-289—32-299. Reserved.

Article XIII. Chattanooga Tree Ordinance

Division 1. General

Sec. 32-300. Title.
Sec. 32-301. Purpose.
Sec. 32-302. Definitions.
Sec. 32-303. Establishment of a Tree Commission.
Sec. 32-304. Establishment of the position of City Forester.
Sec. 32-305. Interference with City Forester.
Sec. 32-306. Right to appeal decision of City Forester.
Sec. 32-307. Legality of article and parts thereof.
Sec. 32-308, 32-309. Reserved.

Division 2. Public Property Tree Maintenance, Protection, and Planting

Sec. 32-310. Public Property Tree care.
Sec. 32-311. Obstructions—Minimum clearances.
Sec. 32-312. Permits required.
Sec. 32-313. Enforcement of Public Property Tree Protection

Division 3. Private Property Tree Protection and Responsibilities

Sec. 32-314. Utility responsibility on private property.
Sec. 32-315. Dead or diseased tree removal on private property.
Sec. 32-316. Removal, protection, and provisioning of trees.
Sec. 32-317. Protection of trees of historical or botanical importance.
Sec. 32-318. Tree maintenance and registry.

Division 4. Enforcement

Sec. 32-319. Violations declared nuisances.
Sec. 32-320. Notice requiring abatement of violations; abatement by City; lien for costs.
Sec. 32-321. Violation; Civil penalty.
Sec. 32-322. Reviews
Secs. 32-323—32-340. Reserved.

Article XIV. Complete Streets

Sec. 32-340. Definition of Complete Streets.
Sec. 32-341. Complete Streets Policy.
Sec. 32-342. Scope of Complete Streets Applicability.
Sec. 32-343. Exceptions.
Sec. 32-344. Design Standards.
Sec. 32-345. Performance Measures.
Sec. 32-346. Implementation and Reporting.

ARTICLE I. IN GENERAL

Sec. 32-1. Streets to be designated by signs at corners.

All streets in the city shall be designated at the corners thereof by signs bearing the name of the intersecting streets in legible characters. Such signboards shall be erected in such a manner as the Transportation Department shall direct.
(Code 1986, § 32-1; Ord. No. 12823, § 1, 3-25-14)

Cross reference—Advertising, Ch. 3.

Sec. 32-2. Datum plane adopted.

The datum plane of the city level shall be the low-water mark of the Tennessee River, as indicated by the zero of the river gauge of the United States Government.
(Code 1986, § 32-2)

Sec. 32-3. Maintenance, removal of equipment installed in streets under franchise.

It shall be unlawful for any person occupying any part of any street in the city under franchise rights, either beneath the surface thereof, on the surface or above the same, to allow pipes, poles, wires, tracks or other apparatus or appliances which have been placed on, over or under such streets under such franchise to become and remain so out of repair as to obstruct the surface, damage the paving or endanger the use of such streets; or to neglect to remove or replace such pipes, poles, wires, tracks or other apparatus or appliances upon notice from the Transportation Department that the same is necessary. Any such person, upon receiving notice in writing from the head of the Transportation Department to repair the defective condition of any such pipes, wires, poles, tracks or other apparatus or appliances, or to remove or replace the same shall, within not more than forty-eight (48) hours thereafter, unless the time limit is extended by the head of the Transportation Department, begin work upon such repair or removal, and shall continue such work to completion.
(Code 1986, § 32-3; Ord. No. 9654, § 110, 1-6-92)

Sec. 32-4. Harmful materials, substances in streets.

No person shall place or cause to be placed or left upon any street in the city any tacks, ashes, bottles, pieces of glass, crockery, nails, barbed wire, wire or any other instrument, material or substance calculated to in any way pierce, puncture or otherwise injure or damage the tire of any vehicle which may be used or operated thereon.
(Code 1986, § 32-4)

Sec. 32-5. Vehicles using sidewalks adjacent to filling stations.

No vehicle shall stand on the sidewalk while being serviced in any gasoline filling station, and no vehicle shall be driven over any portion of the sidewalk not included in the regular driveway of such filling station.
(Code 1986, § 32-5)

Cross reference—Filling stations generally, § 11-156, *et seq.*

Sec. 32-6. Washing vehicles on streets, sidewalks.

It shall be unlawful for any person to wash or cause to be washed any vehicle on any street or sidewalk in the city.
(Code 1986, § 32-6)

Sec. 32-7. Signs, pillars, posts, columns on sidewalks.

It shall be unlawful for any person to erect any sign, pillar, post or column upon any sidewalk in the city without a permit from the Transportation Department. Except as provided in article X of this chapter, no such permit shall be issued for any sign, pillar, post or column to be erected on the curb or anywhere on the pavement of a sidewalk.
(Code 1986, § 32-7; Ord. No. 12823, § 1, 3-25-14)

Sec. 32-8. Projections over sidewalks.

(a) No person shall erect any awning, gallery or other projection from a building over any sidewalk in the city without a permit so to do from the Transportation Department. No permit shall be issued for any stationary awning or other projection that is immovable, except cornicing; provided that, any hospital or funeral home in the city may be issued a permit to erect stationary awnings over the sidewalk in front of such establishment if the posts or columns supporting such stationary awnings are more than nine (9) feet in height; and provided, further, that, movable drop awnings attached to buildings may extend over the sidewalk, but not nearer than eighteen (18) inches to the curb line, and when let down to their full extent they shall not be less than eight (8) feet above the sidewalk at all points.

(b) Applications for permits for projections over sidewalks, as authorized by this section, shall be submitted to the Transportation Department and receive its recommendation before issuing such permit.
(Code 1986, § 32-8; Ord. No. 12823, § 1, 3-25-14; Ord. No. 12824, § 1, 3-25-14)

Sec. 32-9. Nonconforming permits, encroachments and projections.

Any permit issued by the Transportation Department which is not in accordance with the provisions of sections 32-7 and 32-8 shall be void, and any sign, pillar, post or projection erected under a void permit, that does not meet the requirements of such section shall be removed on order of the city judge.
(Code 1986, § 32-9)

Sec. 32-10. Supervision of trees and shrubs; cutting, trimming, removal.

The municipal forester shall have charge of and general supervision over all shade and ornamental trees and all shrubs on the streets and sidewalks of the city. No such trees or shrubs shall be cut, pruned or trimmed except on order of the municipal forester and under his supervision. The municipal forester may remove or cut and trim the boughs and branches of all trees and shrubs growing on or overhanging the streets and sidewalks, when necessary, in his judgment, to permit the free and unimpeded passage of traffic thereon.
(Code 1986, § 32-10; Ord. No. 9654, § 125, 1-6-92)

Cross reference—Beautification generally, Ch. 9.

Sec. 32-11. Injuring trees, shrubs, plants.

It shall be unlawful for any unauthorized person to remove, destroy or mutilate any tree, shrub, fern, plant or flower on any street, grassplot or public square in the city.
(Code 1986, § 32-11)

Sec. 32-12. Parking, driving on area between sidewalk and curb.

It shall be unlawful for any person to drive or park on any sidewalk or curb or on any landscape area between the sidewalk and curb on any street in the city.
(Code 1986, § 32-12; Ord. No. 12824, § 1, 3-25-14)

Sec. 32-13. License to make excavations, build or repair sidewalks, occupy streets or sidewalks—Required.

No permit shall be issued authorizing any person to build or repair any sidewalk, or to make openings or excavations in any street or sidewalk, or to occupy any part of any street or sidewalk in connection with building operations, except upon condition that the work shall be done by a person holding a Contractors license from the State of Tennessee (in a classification in accordance with their project scope and monetary limits) of BC, BC-A, BC-B, BC-C, MU, MU-B, CMC, CMC-A, CMC-C, CMC-D, or a City of Chattanooga Plumbing License, or an appropriate TDOT Prequalification; provided that, such a permit may be issued to a contractor without one of the above Contractors licenses if the City Transportation Engineer is furnished satisfactory evidence that the proposed work will be properly and carefully done and the applicant for such permit gives bond in the penalty of not less than twenty-five thousand dollars ($25,000.00), of like tenor with the bond required in Section 32-15 of this Code of applicants for a license. (Code 1986, § 32-13; Ord. No. 12736, § 4, 7-2-13; Ord. No. 14094, § 1, 3-12-24)

Cross reference—Businesses, trades and occupations generally, Ch. 11.

Sec. 32-14. Reserved.

Editor's note—Ord. No. 14094, § 2, adopted March 12, 2024, repealed § 32-14, which pertained to Same—Issuance; conditions; revocation and derived from Ord. No. 9654, § 110, adopted Jan. 6, 1992; Ord. No. 12736, § 4, adopted July 2, 2013.

Sec. 32-15. Same—Bond required of licensee.

No permit shall be issued under Section 32-13 until the applicant has entered into an annual bond payable to the city in the penalty of twenty-five thousand dollars ($25,000.00), conditioned to restore any street or sidewalk in which any such work shall be done to the state in which it was before such work was done, and also conditioned to indemnify and save harmless the city for any liability to any person for damages occasioned by or resulting from any such work done by or under the direction of the licensee. (Code 1986, § 32-15; Ord. No. 14094, § 3, 3-12-24)

Sec. 32-16. Definitions.

Building Official — The person who is authorized to make or require inspections of any construction work to ascertain compliance with the provisions of the adopted building codes and other laws that are enforced by the Land Development Office.

City Traffic Engineer — The person overseeing the installation and proper maintenance of traffic control devices, signage and pavement markings for the Transportation Department.

City Transportation Engineer — The person serving to coordinate transportation design, review, standards, and project implementation for the Transportation Department.

City Engineer — The person serving to coordinate utility and stormwater design, review, standards, and project implementation for the Public Works Department.

City Inspector — A person employed by the City to physically inspect any excavation for conformity with the permit and other provisions of this Article.

Emergency — A sudden or unexpected occurrence or condition calling for immediate action. The repair of a broken or malfunctioning utility line or services shall be deemed an emergency if a repair is reasonably warranted under existing circumstances prior to the next working day.

Excavation — Any excavation or tunneling of any public street right-of-way including, but not limited to, excavation in, cutting of, or tunneling of any street, sidewalk or curb for purposes of constructing or maintaining pipes, lines, driveways, private streets, poles, guy wires, signs, or other utilities, private structures, or facilities.

Street segment — The roadway length defined by the City's micropaver software for a subset of an entire street. Roads may have one (1) or more street segments, averaging six hundred (600) feet long.

Work — Any excavation or tunneling of any Right-of Way, as defined under Chattanooga City Code Section 32-231, as amended, or City property, including but not limited to excavation in, cutting of, or tunneling of any street, sidewalk, or curb for purposes of constructing or maintaining pipes, lines, driveways, private streets, poles, guy wires, signs, or other utilities, or private structures for erecting public access, within Rights-of-Way, public property, or publicly owned buildings.

Work zone — Any area within which the general public does not have full access for a temporary period of time because of Work or other related construction activities.

Working Day — Any day when City offices are open for the transaction of normal business.
(Ord. No. 12337, 1-5-10; Ord. No. 12824, § 1, 3-15-14; Ord. No. 13267, § 2, 1-30-18)

Secs. 32-17—32-30. Reserved.

ARTICLE II. OBSTRUCTIONS

Sec. 32-31. Use of streets for carnivals, fairs, exhibitions.

It shall be unlawful for any person who operates or gives an exhibition, fair or carnival of any kind to occupy any portion of any street in the city, unless with the consent of the city council. It shall be unlawful for any person to exhibit any tricks of legerdemain or other devices of like kind or to give any similar performances upon any streets or public squares.
(Code 1986, § 32-31; Ord. No. 9654, § 2, 1-6-92)

Cross reference—Amusements generally, Ch. 6.

Sec. 32-32. Boxes, barrels, merchandise, other articles.

It shall be unlawful for any person to obstruct the streets or sidewalks with boxes, barrels, machinery, agricultural implements, etc., except when receiving and forwarding goods, wares and merchandise, and then only for a reasonable time.
(Code 1986, § 32-32)

Sec. 32-33. News vendors' stands.

Persons selling newspapers and periodicals exclusively from movable outfits may be permitted to maintain stands in the streets at such places, to be designated by the CDOT, as will not interfere with traffic and as will promote the convenience of the public.
(Code 1986, § 32-33; Ord. No. 12966, § 4, 6-30-15)

Cross reference—Sidewalk vendors generally, § 11-371, *et seq.*

Sec. 32-34. Obstructions to visibility at intersections.

It shall be unlawful for the owner or occupant of any lot at any street intersection in the city to maintain any hedge, fence, shrubbery or other obstruction more than three (3) feet in height for a distance of twenty-five (25) feet back from the curb line or edge of pavement if there is no curb at such street

intersection or at such distance required by the Transportation Department using adopted street design standards, and any owner or occupant of a lot at such an intersection having a fence, hedge, shrubbery or other obstruction more than three (3) feet in height shall remove the same or reduce the height thereof to not more than three (3) feet for a distance of twenty-five (25) feet back from the curb line or edge of pavement if there is no curb or at such distance required by the Transportation Department using adopted street design standards; provided that, the provisions of this section shall not apply to or affect buildings constructed on lots at street intersections.
(Code 1986, § 32-34; Ord. No. 12824, § 1, 3-25-14)

Sec. 32-35. Leaving wood, lumber on sidewalks.

It shall be unlawful for any person to throw and leave, or permit to be thrown and left, for more than an hour, wood or lumber of any kind on any sidewalk in the city.
(Code 1986, § 32-35)

Sec. 32-36. Dumping earth, building debris on streets.

It shall be unlawful for any person to dump or deposit upon any paved street in the city, or cause the same to be done, any earth, mortar or builders' rubbish of any kind intended to be conveyed from the street, until means of transportation have been procured for the removal of the same, and in no case shall it be allowed to remain upon the pavement for a longer period than five (5) hours.
(Code 1986, § 32-36)

Sec. 32-37. Building materials on streets.

(a) The portion of any street in the city which may be occupied by the material necessary for a building in course of construction, alteration or repair shall not exceed the dimensions of the front of the premises being built upon, and twelve and one-half (12½) feet in addition on each side and shall not exceed one-third (⅓) of the street in breadth. Such occupation of a street shall not be prolonged beyond the duration stipulated in the permit to occupy the street. All brick shall be properly stacked when deposited in the street and sufficient way shall be left unencumbered at all times between such building material and the curbstone on the side of the street opposite the building for the passage of vehicles.

(b) No material shall be placed within ten (10) feet of the track of any railroad or of any fire cistern, fireplug, pump or manhole for any sewer or conduit system or crossing, or within twelve (12) inches of any curbstone unless provision is made for the free passage of water in the gutters. A sufficient unobstructed passageway for traffic shall be maintained at all times along the street. Where it is possible so to do, as soon as any building is up to the sidewalk grade the sidewalk shall immediately be constructed and a sufficient passageway kept open at all times over the same.

(c) If existing pedestrian facilities are disrupted, closed, or relocated due to work in a construction zone, a temporary alternate route shall be provided that is detectable to and accessible by persons with disabilities.
(Code 1986, § 32-37; Ord. No. 12824, § 1, 3-25-14)

Sec. 32-38. Protection of streets, sidewalks on which deposits made.

Any person, before depositing upon the paving of any street or sidewalk any earth, mortar or other material calculated to injure the structure or appearance of the pavement in any way, shall first lay upon the pavement such covering as may be required by the Transportation Department, of such dimensions as may be necessary to protect the surface without unnecessarily blocking the roadway or otherwise interfering with traffic.
(Code 1986, § 32-38; Ord. No. 12823, § 1, 3-25-14)

Sec. 32-39. To be lighted at night.

(a) It shall be unlawful for any person to place or leave material or obstruction of any kind on the streets or sidewalks of the city at night without placing thereon a sufficient number of red lights or flares to warn all persons before reaching such obstruction that there is danger and that the street is obstructed.

(b) This section shall be construed to apply to all kinds and types of materials for constructing buildings and other structures, railroads and tracks and to rails, boxes, poles, wires, bricks, mortar, plank, sand and any other thing that prevents the street or sidewalk from being clear and free from obstructions.

(c) All persons so obstructing the street or sidewalk, including any contractor or his employee in charge of the obstruction shall see to it that this section is fully complied with, and that such red lights or flares are placed on such obstruction at twilight each night and kept burning until daylight.
(Code 1986, § 32-39)

Sec. 32-40. Liability for failure to light.

When any person neglects to comply with section 32-39 and an accident results by reason of such negligence causing damage, the person whose negligence caused the accident shall be held responsible therefor, and if the city is required to pay out any money as damages therefor, the city attorney shall prosecute the offender and bring an action against him to recover any damages that the city may have sustained by reason of his failure to comply.
(Code 1986, § 32-40; Ord. No. 12824, § 1, 3-25-14)

Sec. 32-41. Permit required to obstruct gutter; issuance.

It shall be unlawful for any person to obstruct the gutter of any street in the city by placing therein any timber or other material, or by constructing or placing over such gutter any bridge or covering which may constitute an obstruction thereof, except for temporary use and for a specific period to be set forth in a permit issued therefor by the head of the Transportation Department. The issuance of such permit shall be at the discretion of the head of the Transportation Department, who may impose such restrictions and requirements, as a condition precedent to the issuance of such permit, as the interest of the public may, in his opinion, require.
(Code 1986, § 32-41)

Cross reference—Businesses, trades and occupations generally, Ch. 11.

Sec. 32-42. Gutter obstruction to be removed when permit expires.

Any person to whom a permit has been issued as provided in section 32-41 shall remove such timber, material, bridge or other covering from within or over such gutter on or before the expiration of the period stated in such permit.
(Code 1986, § 32-42)

Sec. 32-43. Removal of unauthorized gutter obstructions.

The head of the Transportation Department streets and airports may remove, without notice to the person responsible therefor, any unauthorized obstructions referred to in section 32-41 of this Code, or obstructions which may have been left after the expiration of the time limit fixed in the permit therefor.
(Code 1986, § 32-43)

Sec. 32-44. Temporary use permit.

It shall be unlawful for any person to place an obstruction on or over any City right-of-way, property, or dedicated right-of-way on any recorded plat unless such person has obtained a temporary use permit from the City. Applications for such permits shall be made to the Transportation Department along with a non-refundable application fee of One Hundred Ten Dollars ($110.00).
(Ord. No. 11175, § 33, 9-11-01; Ord. No. 12824, § 1, 3-25-14; Ord. No. 13444, § 5, 3-12-19)

Secs. 32-45—32-60. Reserved.

ARTICLE III. EXCAVATIONS AND RESTORATION OF PAVING*

Secs. 32-61. Reserved.
(Ord. No. 12337, 1-5-10; Ord. No. 12824, § 2, 3-25-14; Ord. No. 14092, § 1, 3-12-24)

Sec. 32-62. Permit required.

It shall be unlawful for any person to make any excavation in or to tunnel under any street, curb, alley, other improvement, or right-of-way as defined under Chattanooga City Code Section 32-231, as amended, in the City without first having obtained a street cut permit, holding all required licenses to perform the necessary work, and complying with the provisions of this Article. It shall be unlawful to violate or to vary from the terms of any such permit; provided, however, any person maintaining pipes, lines, driveways, or other facilities including private structures for erecting public access in or under the surface of any right-of-way may proceed with an excavation without a permit when emergency circumstances demand the work to be done immediately, and provided further that the person shall apply for a permit on the next working day.
(Ord. No. 12337, 1-5-10; Ord. No. 13267, § 3, 1-30-18; Ord. No. 14092, § 1, 3-12-24)

Sec. 32-63. Applications.

Applications for such permits shall be made to the Land Development Office and shall state thereon the location of the intended excavation or tunnel, the size thereof, the purpose thereof, the name of the person doing the actual excavating, and the name of the person for whom the work is being done. The applicant shall disclose any foreseeable lane or sidewalk closures or detours during excavation. Cuts into roadways that are owned by the State of Tennessee shall be coordinated and permitted with the Tennessee Department of Transportation concurrently with the City street cut permit application. As a condition of issuing a permit, all applicants must agree in writing as part of the application to comply with all ordinances and laws relating to the Work to be done. The Building Official or his designee shall consider each application for a permit filed under this Article, under all facts and circumstances, once all documents are received by the City, shall grant or refuse the permit within ten (10) working days and shall endorse his action on the application. The Building Official shall refer such application to the Transportation Division for review and comment when a professional opinion on the propriety of issuing a permit or conditions to attach thereto is needed. The action of the Building Official in granting or refusing a permit shall be final, except as it may be subject to review at law. A permit may be refused for the following reasons:

(a) The proposed work should be redesigned to mitigate a potential safety hazard;

(b) The proposed work should be redesigned to mitigate damage within the right-of-way;

(c) The proposed work cannot be safely made in the Right-of-Way;

***Cross references—**Plumbing, Ch. 27; encroachments and excavations on state and federal highways, § 32-86, et seq.

(d) The proposed restoration plan does not meet the minimum City standards for restoration;

(e) The applicant has willfully failed to comply with conditions of prior permits issued to the applicant; provided that such disqualification shall be removed upon correction of any such defects; or

(f) For other good cause in the discretion of the Building Official.

(g) A street cut permit is not a substitute for a Land Disturbing Permit and any work within the right-of-way that meets the criteria for obtaining a Land Disturbing Permit shall be required to follow the review and approval processes for obtaining all necessary permits. Similarly, a Land Disturbing Permit and/or a Building Permit does not substitute the need for a Street Cut Permit and/or a Work Zone Permit.

Provided that as to an excavation done in emergency circumstances the application shall be completed on the next working day; and the Building Official shall review the actual work completed for conformity with the requirements hereof.
(Ord. No. 12337, 1-5-10; Ord. No. 12823, § 1, 3-25-14; Ord. No. 13267, § 3, 1-30-18; Ord. No. 14092, § 1, 3-12-24)

Sec. 32-64. Application fee.

Each application shall be accompanied by a fee as follows:

(a) A permit fee of Three Hundred Dollars ($300.00) for all permits shall apply to no more than one cut or Work of the following type:

(1) Transverse cut in the roadway pavement;

(2) Longitudinal cut in the roadway pavement of up to three hundred (300) feet in length;

(3) Within an intersection;

(4) Concrete curb or concrete gutter; or

(5) Concrete sidewalk;

(6) Microtrench within right-of-way;

(7) Installation of additional lane(s) and/or concrete curb and gutter against existing roadway;

(8) Jack and bore beneath City street.

(b) In addition to the fixed permit fee for all permits, applicants are responsible for additional fees as follows:

(1) One Hundred Dollars ($100.00) each for each additional transverse roadway cut in a roadway segment

(2) One Hundred Dollars ($100.00) each for each additional cut in the concrete sidewalk or concrete curb or gutter; and in a block segment; and

(3) One dollar ($1.00) for each additional foot of longitudinal cut in the roadway pavement beyond three hundred (300) feet.

(c) Planned cuts into the street shall be coordinated with the City's annual resurfacing work, a schedule of which is available online at the Public Works website or by calling the Transportation

Division. For non-emergency street cuts, a recovery fee of 30% of the topping material cost to restore the asphalt street segment impacted by street cut shall be assessed to cuts within streets resurfaced within the previous three (3) years based on the following calculation:

(1) Impact areas, sq.ft. = (Street segment length, ft) x (Total width of lanes impacted by street cut, ft)

(2) Impact area, sq.yd = (Impact area, sq.ft) x (1/9)

(3) Asphalt needed for impact area, tons = [(Impact area, sq.yd.) x 165] / 2000

(4) Total Cost Segment Resurfacing = (Current City contract price for topping, $/ton) x (Asphalt needed for impact area, tons)

(5) Recovery Fee amount = 0.30* Total Cost Segment Resurfacing

(d) Written notification of intent to work in a right-of-way must be received at least forty-eight (48) hours prior to beginning work, even if a permit is not required, except in emergencies. E-mail is considered a written notice. All applicants for any permits which require street or sidewalk closure should be submitted with enough written notice to comply with road closure policies administered by the Transportation Division.

(e) Additionally, work zone permits are required for Work that limits public access to the full right-of-way, such as those requiring closure of a street, open public alley, or sidewalk or the temporary use of a curb-side parking space. Additional work zone permit fees may apply based on impact to the general public. Time is of the essence in completion of the work to restore the right-of-way. Where such work within the right-of-way is required, such that it blocks a lane of traffic, open public alley or sidewalk, for more than one week, then a fee of $100 per day for each lane of traffic, or sidewalk, will be assessed for the work zone permit. The fee is not a penalty, but considered damages suffered by the City for each day of delay in the restoration of the right-of-way. Fees for lengthy projects may be reviewed at the discretion of the City Transportation Engineer.

Traffic control plans in compliance with the MUTCD may be submitted to the City with the application for the work zone permit. If a compliant traffic control plan is not included with the application, a fee of $150 will be assessed for the work zone permit for the City to draw and provide the necessary traffic control plan. The City reserves the right to deny the work zone permit without an included traffic control plan at its discretion.

(f) Permits for relocation or installation of fire hydrants will be required when requested by the City, but no fee (including administrative fees) will be required.

(g) No more than five (5) multiple cuts, each not exceeding twenty-five (25) square feet in area, when required in a single block or within a work zone distance of two hundred fifty (250) feet as part of a single project, are considered as one (1) cut. Permit and fee will be required for a single cut under these conditions. Pavement restoration extents shall be completed as shown on the published City Standard Drawings available on the Public Works website. If the cut exceeds two hundred fifty (250) feet, or multiple cuts within a block or a work zone greater than two hundred fifty (250) feet, or the number of cuts within two hundred fifty (250) exceeds five (5), then all lanes that are disturbed by construction shall be repaved from intersection to intersection.

(1) Cuts within any intersection of a City street requires repavement of the entire intersection including marked crosswalks. For stamped or concrete crosswalks, replacement of the crosswalk is not required unless the cut includes the pavement of the crosswalk itself.

(2) Any cut that includes a concrete ADA curb ramp requires full replacement of the ramp in compliance with current laws and codes.

(h) Neither permits nor fees will be required when work in the right-of-way is conducted as part of a City street improvement project, including resurfacing, where the utility is required to move their facilities as a result of the City project.

(i) Except as otherwise stated in this Chapter, fees shall not be waived under any other conditions.

(j) When it is determined that non-emergency work in the City right-of-way has proceeded without the purchase of a permit, the contractor or utility shall immediately purchase a street cut permit, and the fee for the permit shall be double the standard fee; and, no further permits shall be issued to the contractor or utility until such time as the improper work is removed and replaced in accordance with this Code.

(k) Where work in the City right-of-way is self-performed by one (1) of the following entities, or by one (1) of the entity's approved contractors, the fee for each permit shall be invoiced monthly:

(1) Electric Power Board of Chattanooga;

(2) Tennessee-American Water Company;

(3) Chattanooga Gas Company;

(4) AT&T;

(5) Comcast Cable Company;

(6) Hixson Utility District; and

(7) Eastside Utility District.

(l) Fees set forth within this Section may be revised by the City in connection with the annual budget adopted each fiscal year.

(Ord. No. 12337, 1-5-10; Ord. No. 12824, § 1, 3-25-14; Ord. No. 13267, § 3, 1-30-18; Ord. No. 14092, § 1, 3-12-24)

Sec. 32-65. Manner of excavating; barricades and lights.

Any person making any excavation shall do so according to the specifications and standards issued by the Transportation Division. In accordance with the Manual on Uniform Traffic Control Devices (MUTCD), sufficient and proper barricades, lights and other traffic control devices shall be maintained to prevent accidents and injury to persons or property. If any sidewalk is blocked, a temporary sidewalk shall be provided which shall be safe for travel and accessible for all users. No work installing or maintaining such safety measures and/or temporary sidewalks shall be done which deviates from the approved plans and until a change of plans has been secured in writing from the Building Official. All expenses of such safety measures and temporary sidewalk shall be borne by the applicant or owner.

Traffic control plans in compliance with the MUTCD may be submitted to the City with the application for the work zone permit. See the previous section (32-64) concerning fees for traffic control plans and work zone permits.

Where difficult or potentially hazardous conditions exist, the permittee shall provide competent flaggers to effect a safe and orderly movement of traffic. Where insufficient traffic lanes exist because of street openings, adequate bridging shall be supplied and maintained by the permittee. When traffic congestion occurs in spite of all precautions, the permittee shall be responsible for providing a flagger. In the event the Building Official or Transportation Division shall discover any hazardous or unwarranted

traffic congestion where flaggers have not been provided, it shall direct the permittee to immediately post flaggers. A failure to post flaggers following a directive shall be a violation of this Article, and shall subject the permittee to penalties and/or rescission of the permit
(Ord. No. 12337, 1-5-10; Ord. No. 12823, § 1, 3-25-14; Ord. No. 12824, § 1, 3-25-14; Ord. No. 13267, § 3, 1-30-18; Ord. No. 14092, § 1, 3-12-24)

Sec. 32-66. Bond required.

When permits are required to excavate or in any way obstruct any street in the City, the Building Official shall require from such applicant, before granting a permit, a bond with good and sufficient sureties, conditioned to secure the City against all loss, damage or injury of any kind which may result to the City by reason of such excavation or obstruction; provided, that persons engaged in the business of contracting shall be allowed to give an annual bond, instead of a bond for each obstruction such annual bond in every instance to be renewed at least once every twelve (12) months.
(Ord. No. 12337, 1-5-10; Ord. No. 13267, § 3, 1-30-18; Ord. No. 14092, § 1, 3-12-24)

Sec. 32-67. Manner of excavating street.

(a) The street cut permit number provided by the City with an approved street cut permit shall be marked and maintained at each street cut site in white marking paint or sign posting adjacent to the limits of the street cut so that inspectors can readily identify the permit number when arriving on site for inspections.

(b) In excavating any street, all material for paving or ballasting must be removed with the least possible injury or loss of the same, and together with the excavated materials from the trenches, must be placed where they will cause the least possible inconvenience to the public. All pavement where trench excavations are to be made shall be saw cut. All edges shall be made clean and square. No other method of demolition is acceptable.

(c) The permittee shall carry on the Work as authorized by the permit in such manner as to cause a minimum interference with traffic. The permittee shall provide adequate warning signs and devices to warn and guide traffic, and shall place the signs and warning devices in a position of maximum effectiveness. The latest editions of the Manual on Uniform Traffic Control Devices, copies of which are on file in the Transportation Division Office, and are generally available online, may be used as a guideline for proper positioning of signs and devices.

(d) Any steel plate(s) placed within lanes of traffic shall be clearly labeled with the name of the owner of the plate and a 24-emergency contact phone number and shall respond to the site within 2 hours of notification from a City official.

(e) On main thoroughfares and in congested districts, sufficient traffic lanes shall be kept open at all times to permit substantially normal traffic flow. However, if this requirement is not possible, then Work shall be done only during the period between 9:00 a.m. and 4:00 p.m. or between 7:00 p.m. and 6:00 a.m., as the Transportation Division may designate.

(f) For backfill in roadway areas;

(1) No material excavated from the streetcut shall be returned to the trench.

(2) The contractor shall provide six (6) inches of graded aggregate base above the utility's main line top of pipe.

(3) From top of graded aggregate base backfill to within four (4) feet of the street surface, the contractor shall provide fine aggregate (crushed limestone dust no larger than one-sixteenth (1/16)

inch.) Each eight (8) inch lift of the fine aggregate base shall be moistened and compacted by means of a mechanical tamp. Flowable fill that meets the specifications below may be used in lieu of fine aggregate.

(4) The contractor shall complete the backfill up to the bottom of the paving with flowable fill with a compressive strength of two hundred (200) to two hundred fifty (250) psi in forty-eight (48) hours.

(5) Flowable fill shall be placed a minimum of forty-eight (48) hours prior to the placing of the asphalt or concrete topping.

(6) Steel plate(s) shall be pinned in place in the roadway and shall not stay in the roadway longer than 5 days from the placement of the flowable fill.

(7) Flowable fill surface shall not be exposed to traffic following removal of steel plate(s). If final resurfacing work of the street cut cannot be immediately executed following removal of the steel plate, an interim asphalt material (hot mix asphalt or cold patch mix) shall be placed neatly and cleanly on top of the flowable fill until final milling and resurfacing can be performed. This interim measure is allowed to remain in place no longer than 90 days from placement of flowable fill.

(8) Where it is impractical to use flowable fill because of terrain, slope, width of trench, or other situations, the material for the backfill in the roadway areas may be approved for cement treated aggregate base, placed in eight (8) inch thick layers, at the sole discretion of the Division of Transportation. Each eight (8) inch layer of backfill shall be thoroughly compacted by means of a mechanical tamp.

(g) Backfill for trenches within the sidewalk areas shall be compacted graded aggregate base instead of loose washed stone. Each eight (8) inch layer of graded aggregate base shall be thoroughly compacted by means of mechanical tamp.

(h) Any perpendicular cut in a roadway must be repaved no less than the full width of the travel lane(s) to the existing longitudinal joint that it cuts, and a minimum of ten (10) feet on each side of the centerline of the excavation. Any longitudinal cut must be repaved no less than the full width of the travel lane(s) that it cuts extended no less than ten (10) feet beyond the beginning and end of the cuts being made.

(i) The proposed restoration plan shall require that permanent repairs or restoration of street cuts shall be made to match existing surfaces.

(j) Surface elevation of the permanent repair shall not vary more than one-quarter (¼) inch for asphalt roadways or one-eighth (⅛) inch for concrete roadways when checked with a straight edge ten (10) feet long to ensure smooth surface across street cut restoration and existing roadway surface.
(Ord. No. 12337, 1-5-10; Ord. No. 12391, 4-27-10; Ord. No. 12823, § 1, 3-25-14; Ord. No. 12824, § 1, 3-25-14; Ord. No. 13267, § 3, 1-30-18; Ord. No. 14092, § 1, 3-12-24)

Sec. 32-68. Liability and responsibility for repair.

(a) Subject to the provisions set forth within this Section, any person who shall properly make any excavation or other change to the right-of-way, and shall have same inspected by the Building Official or his designee, shall be relieved from any liability for any defects due to inadequate workmanship or defective materials provided the excavation shall remain free from defects for three (3) years following installation.

(b) Said repaving specified in this Section shall be completed to the standards approved by the Transportation Division and shall be performed under the supervision and control and at the direction of the City. The contractor, utility, or other entity shall bear the entire cost of such repaving. The contractor,

utility or other entity shall be prohibited from acquiring any permits for additional excavations in any City right-of-way until such time as the repaving required by this street segment section is completed and approved by the Transportation Division.

(c) If a contractor, utility, or other entity damages any traffic control device, then said contractor, utility, or other entity shall immediately replace the device(s) per the standard of the Transportation Division. Damaged signal detection loops or sensors shall be replaced including connection to the signal cabinet with oversight by the Intelligent Cities Division of the Department of technology Services. Damaged pavement markings (stop bar, crosswalk, lane line, turn arrow, bike symbol, colored pavement, or other) shall be replaced in ninety (90) mil thermoplastic.
(Ord. No. 12337, 1-5-10; Ord. No. 12823, § 1, 3-25-14; Ord. No. 12824, § 1, 3-25-14; Ord. No. 13267, § 3, 1-30-18; Ord. No. 14092, § 1, 3-12-24)

Sec. 32-69. Inspection.

It shall be the responsibility of any person granted a permit to schedule, with a minimum of forty-eight (48) hours notice, an inspection of the permitted work by the City's Inspector upon such conditions as may be specified in the permit. Said work may not commence until the City's inspector arrives at the site or otherwise gives permission to proceed. The utility or contractor making any changes to a City right-of-way, shall, at a minimum, have the following inspections performed by the City's Inspector:

(a) After the repairs or installation of the new conduit or piping and before the graded aggregate base fill over the pipe has been placed;

(b) During the placement of the flowable fill or other approved fill in the sole discretion of the Transportation Division; and

(c) Final completion.

(d) Three months prior to the end of the three (3) year warranty period.

(e) Should inspections be required after normal working hours or on weekends, the contractor or utility making the changes to the City right-of-way, shall reimburse the City for the inspector's time at a rate to be determined in accordance with the personnel policies in effect at the time the repairs are performed.

When it is determined that improper work has been performed in the City's right of way, the contractor or utility responsible for the work shall remove improper work and reinstall the work in accordance with the City Standards. If a permit was not obtained, the contractor or utility shall purchase a permit and the fee shall be double the normal fee. No future permits will be issued to the violating contractor or utility until the improper work has been corrected.
(Ord. No. 12337, 1-5-10; Ord. No. 12823, § 1, 3-25-14; Ord. No. 14092, § 1, 3-12-24)

Sec. 32-70. Specification.

Upon issuance of each permit, the Building Official shall specify minimum restoration standards applicable to the permit. The Transportation Division shall prepare and provide standard specifications for routine circumstances, which may be specifically referenced in the permit. Provided that where the work involved is greater in scope than provided for by standard specifications as determined by the Land Development Office or Transportation Division , the permittee shall be required to submit suitable plans of installation and street restoration for approval prior to issuance of a permit.
(Ord. No. 12337, 1-5-10; Ord. No. 12823, § 1, 3-25-14; Ord. No. 12824, § 1, 3-25-14; Ord. No. 14092, § 1, 3-12-24)

Sec. 32-71. Insurance.

Each person applying for a permit shall file a certificate of insurance (or provide other proof in form and substance to be approved by the City Attorney) indicating that he is insured, or the applicant shall provide an indemnity agreement with security satisfactory to the City Attorney, against claims of personal injury or property damage which may arise from or out of the performance of the work, whether such performance be by the applicant, a contractor or subcontractor, or anyone employed by him. Such insurance or indemnity agreement shall cover collapse, explosive hazards, and underground work by equipment on the street, and shall include protection against liability arising from completed operations. The minimum amount of the liability insurance for bodily injury shall not be in an amount less than three hundred thousand ($300,000.00) for each person and seven hundred thousand dollars ($700,000.00) for each accident and for property damages in an amount not less than one hundred thousand dollars ($100,000.00), unless other limits are established by the Tennessee Governmental Tort Liability Act.
(Ord. No. 12337, 1-5-10; Ord. No. 14092, § 1, 3-12-24)

Sec. 32-72. Supervision.

The Building Official, or his designee, shall from time to time inspect all excavations and see to the enforcement of the provisions of this ordinance. The permittee shall give notice to the Building Official, or his designee, before refilling any such excavation or tunnel and said work may not commence until the Inspector arrives at the site or otherwise gives permission to proceed.
(Ord. No. 12337, 1-5-10; Ord. No. 14092, § 1, 3-12-24)

Secs. 32-73—32-85. Reserved.

ARTICLE IV. ENCROACHMENTS AND EXCAVATIONS ON STATE AND FEDERAL HIGHWAYS

Sec. 32-86. Permit required for encroachments; approval.

It shall be unlawful for any person to erect or maintain any utility facility or other encroachment upon, over, or under any street or sidewalk in the city which has been, or may hereafter be constructed, extended or widened where the cost and expense of acquiring the rights-of-way therefor and improvement thereof is paid, in whole or in part, by the state department of transportation and the appropriate federal department or agency without first filing an application for and obtaining a permit from the Transportation Department, which application shall be accompanied by the written approval of the state department of transportation for the erection of such utility facility or encroachment.
(Code 1986, § 32-86; Ord. No. 12823, § 1, 3-25-14)

Cross reference—Businesses, trades and occupations generally, Ch. 11.

Sec. 32-87. Removal of violating encroachments.

When the building inspector learns of any utility facility or encroachment on, over, or under any street or sidewalk as defined in section 32-86 hereof, he shall give written notice to the owner or occupant of the premises maintaining such utility facility or encroachment to remove same within ten (10) days, and if such owner or occupant refuses or fails to comply with such notice within the time specified he shall be deemed guilty of the violation of the provisions of this Code.
(Code 1986, § 32-87)

Sec. 32-88. Permit required for excavations; approval.

It shall be unlawful for any person to make any excavation or cut in the pavements, curbs, gutters or sidewalks of any street or highway within the city which has been, or may hereafter be, constructed, extended, or widened, the cost of which is paid, in whole or in part, by the state department of transportation and the appropriate federal department or agency, without first filing an application for and obtaining a permit from the Transportation Department, which application shall be accompanied by the written permission of the state department of transportation for the making of the proposed excavation or cut.

(Code 1986, § 32-88; Ord. No. 12823, § 1, 3-25-14)

Cross reference—Businesses, trades and occupations generally, Ch. 11.

Secs. 32-89—32-100. Reserved.

ARTICLE V. CURB AND SIDEWALK CONSTRUCTION AND MAINTENANCE

Sec. 32-101. Abutting owners, occupants to keep sidewalks clean and unobstructed.

Every owner or occupant of property in the city, in front of or along which there is a sidewalk, shall keep such sidewalk clean and unobstructed, except for such obstructions as are permitted by this Code or other city ordinances. Each such owner or occupant shall cause the removal at once of all accumulations of mud, filth, snow and ice and every other substance or thing which may constitute an obstruction or impediment to pedestrians, and every thing in the nature of a nuisance.

(Code 1986, § 32-101)

Sec. 32-102. Duty of abutting owners, occupants to construct.

Every owner or occupant of or agent for any lot of property abutting or adjacent to a street shall cause a sidewalk and curb to be constructed along the whole of such lot when required by notice, as provided in this article.
(Code 1986, § 32-102)

Sec. 32-103. When owner, occupant to construct or repair sidewalk.

When any street has been brought to an established or adopted grade, or when any sidewalk becomes out of repair or in any manner defective, whether in the bed or pavement or curbing thereof, or if such sidewalk does not conform to the provisions of the specifications of the city therefor, the owner, occupant or agent shall cause such sidewalk to be constructed, reconstructed or put in good repair according to such specifications.
(Code 1986, § 32-103)

Sec. 32-104. Specifications for construction and repair; permit required.

The type of new sidewalk to be laid or repairs to existing sidewalks shall be such as may be prescribed and approved by the Transportation Department. The owner, occupant or agent in charge of the property where such work is to be done shall apply to the Transportation Department for specifications and instructions setting forth the manner in which the work shall be performed and a permit authorizing such work, and in doing such work shall conform to such specifications and instructions.
(Code 1986, § 32-104; Ord. No. 9654, § 126, 1-6-92; Ord. No. 12823, § 1, 3-25-14)

Case law annotation—The ordinance from which this section is derived was designed to furnish the city a means of discharging its duty to keep the sidewalk in repair through appropriate action under the ordinance against the offending abutting property owner. The property owner would not be liable to a person sustaining injury as a result of the city's omission safely to maintain the sidewalk. Harbin v. Smith, 168 Tenn. (4 Beeler) 112, 76 S.W. 2d 107 (1934).

Sec. 32-105. Failure to construct or repair; notice authorized.

If the owner, occupant or agent fails or refuses to construct, reconstruct or repair any required sidewalk or curbing, the Transportation Department may cause the same to be done at the expense of the property owner.
(Code 1986, § 32-105; Ord. No. 12823, § 1, 3-25-14; Ord. No. 12824, § 1, 3-25-14)

Sec. 32-106. Notice where owner unavailable, no agent and property deserted.

If the owner is a nonresident, unknown or cannot be located and there is no known agent therefor and the property is not occupied, the notice provided for in section 32-105 shall be posted for at least five (5) days on such lot or property.
(Code 1986, § 32-106)

Sec. 32-107. Failure to comply with notice.

Failure or refusal by the owner, or the occupant or agent, if the owner cannot be notified, to commence such necessary work within ten (10) days of receipt or posting of a notice as provided for in section 32-105 shall be unlawful, and each day thereafter shall constitute a separate violation.
(Code 1986, § 32-107)

Sec. 32-108. Failure to complete work.

Failure or refusal to complete work as required by the notice provided for in section 32-105 of this Code according to specifications and instructions, after it has once been commenced, shall be unlawful.
(Code 1986, § 32-108)

Sec. 32-109. Liability of abutting owner for injuries to persons.

In all instances of injury to persons resulting from the absence of any sidewalk or the negligently unsafe and defective condition thereof, the construction of which, or the repair of which, the abutting property owner, or his agent, has been notified to effectuate in the manner provided in this article, more than five (5) days before the happening of such injury, the abutting property owner shall be liable in damages.
(Code 1986, § 32-109)

Sec. 32-110. Action over by city for judgments against it.

If any judgment is obtained against the city as a result of the absence of any sidewalk or the negligently defective condition thereof, owing to personal injuries received by any person more than five (5) days after the service of a notice as provided in section 32-105 of this Code, the city attorney shall institute proper legal proceedings against such property owner for the recovery over of the amount of any such judgment.
(Code 1986, § 32-110)

Secs. 32-111—32-125. Reserved.

ARTICLE VI. SIDEWALK OPENINGS AND GRATINGS

Sec. 32-126. Open gratings prohibited.

All gratings or openings of any type in sidewalks through which filth, water or expectoration may fall or be thrown, are declared to be a nuisance, and are prohibited.
(Code 1986, § 32-126)

Sec. 32-127. Gratings and openings for which permits may be issued.

No permit shall issue for placing any grating or opening in any sidewalk except upon condition that such opening shall be covered with a solid surface which will prevent filth, water or expectoration from falling or being thrown through it. This section shall not be construed so as to prohibit the installation of underground vaults or chambers in connection with the operation of underground electric systems, which may require ventilation for the equipment to be placed therein, if the grating or other covering to be placed over such electric vault is of a type as is standard for such purposes.
(Code 1986, § 32-127)

Sec. 32-128. Construction requirements for use of space under sidewalk.

In the use of space under any sidewalk a sufficient retaining wall to sustain the roadway or street shall be constructed, and all end and division walls shall extend from the wall of the building to the curb line, and be of sufficient strength to sustain the sidewalk or roadway. The sidewalk in such cases shall be entirely of incombustible material. All openings in such sidewalk shall be covered with illuminating tile in iron frames, or with iron covers with rough surfaces. No plain surface of glass greater than six (6) inches square shall be allowed in any sidewalk.
(Code 1986, § 32-128)

Sec. 32-129. Leaving sidewalk openings uncovered or out of repair.

It shall be unlawful for any person to leave open any cellar or vault door or grating on any sidewalk in front of premises in the city or to allow any such structure to become or continue so defective as to endanger life or limb.
(Code 1986, § 32-129)

Secs. 32-130—32-145. Reserved.

ARTICLE VII. DRIVEWAYS AND CURB CUTS

Sec. 32-146. Permits required.

No person shall construct a driveway across any sidewalk or cut or drop any curb within the city without first obtaining a permit from the Land Development Office.
(Code 1986, § 32-146; Ord. No. 12824, § 1, 3-25-14)

Cross reference—Businesses, trades and occupations generally, Ch. 11.

Sec. 32-147. Location approval prerequisite to building permit.

The location of all curb cuts, points of ingress and egress from all streets, parking and loading areas for all uses shall be approved by the Transportation Department before a building permit shall be issued.
(Code 1986, § 32-147; Ord. No. 12823, § 1, 3-25-14)

Sec. 32-148. Plot plan required.

All applications for permits required by this article shall include a plot plan, drawn to scale and fully dimensioned, showing the location and design of all curb cuts, points of ingress and egress and parking and loading facilities.
(Code 1986, § 32-148)

Sec. 32-149. When permits not to issue.

Permits shall not be issued for any curb cut for the purpose of ingress or egress from any through street as designated by section 24-207 and section 24-501 of this Code unless the applicant shall provide adequate space and proper driveways or other such facilities for a vehicle to be turned around totally within the property to be served by the curb cut so that it will not be necessary to either back the vehicle onto the property for purposes of parking, loading or unloading, or to back a vehicle from the property into the public street; provided that, this restriction shall not apply to property used for single-family or two-family dwellings.
(Code 1986, § 32-149; Ord. No. 12824, § 1, 3-25-14)

Sec. 32-150. Maximum width.

The maximum width of any driveway or curb cut shall not exceed forty (40) feet from face to face of curb.
(Code 1986, § 32-150; Ord. No. 12824, § 1, 3-25-14)

Sec. 32-151. Safety aisle between driveways.

Where there are two (2) or more driveways, there shall be a safety aisle between each of not less than ten (10) feet in length and built up to the normal curb grade.
(Code 1986, § 32-151)

Sec. 32-152. Curbs and gutters required.

(a) All new construction or alteration of curb cuts, points of ingress and egress from all streets, parking and loading areas for all uses except single and two (2) family residences shall be required to construct curbs and gutters.

(b) Where the existing grade is not that of the permanent street grade, temporary delineation may be used in lieu of curb and gutter. This construction shall be composed of grass plots and chain fences or other temporary construction as approved by the Transportation Department. When permanent grades are established curbs and gutters will be installed by the property owners.
(Code 1986, § 32-152; Ord. No. 12823, § 1, 3-25-14)

Secs. 32-153—32-165. Reserved.

ARTICLE VIII. ADDRESS NUMBERING SYSTEM

Sec. 32-166. System established.

An address numbering system of the city shall be developed by the City Engineer and the Hamilton County GIS Office in conformity with the provisions of this article. It is the intent of this section to develop uniform address numbering for all locations within the City of Chattanooga in order to facilitate finding address locations in the event the need for emergency services occurs; and to assist police, fire and other City employees to provide necessary services to all citizens of the City of Chattanooga whenever such services are needed.
(Code 1986, § 32-166; Ord. No. 10847, § 1, 5-4-99; Ord. No. 12127, § 1, 5-20-08; Ord. No. 12966, § 4, 6-30-15; Ord. No. 13000, § 1, 11-10-15)

Sec. 32-167. Division of blocks into numbering spaces.

Every city block shall be measured for the purpose of address numbering into frontage and spaces. Such measurement shall be made under the direction of the City Engineer and the Hamilton County GIS Office.
(Code 1986, § 32-167; Ord. No. 10600, § 1, 8-5-97; Ord. No. 10847, § 1, 5-4-99; Ord. No. 12127, § 1, 5-20-08; Ord. No. 12966, § 4, 6-30-15; Ord. No. 13000, § 1, 11-10-15)

Sec. 32-168. Base lines.

For the purpose of ascertaining street numbers, the frontage of all streets in the city shall be measured by a uniform method from common base lines. The currently established baselines are as follows:

2.4.1. Eastern brow (top cliff line) of Lookout Mountain; generally coincides with the city limits of the City of Lookout Mountain, Tennessee.

2.4.2. Scenic Highway from the Georgia State Line to its intersection at Cummings Highway to the western Hamilton County Line.

2.4.3. McCallie Avenue and its continuation as Brainerd Road from Holtzclaw Avenue to its end at Lee Highway, then along East Brainerd Road to the Western & Atlantic Railroad crossing.

2.4.4. Dayton Boulevard, and its continuation as Dayton Pike, from Stringer's Ridge Tunnel to the northern county line.

2.4.5. North Market Street from the Tennessee River bridge to the northern end of North Market Street and its projection to Matlock Street.

2.4.6. Central Avenue and its projection from the Georgia-Tennessee state line north to the CSX Railway crossing, then west along the railroad to Alton Park Boulevard (near 33rd Street), then north along Alton Park Boulevard to Market Street, then north along Market Street to the Tennessee River bridge.

2.4.7. Tennessee River east and west of Market Street Bridge.
(Code 1986, § 32-168; Ord. No. 10847, § 1, 5-4-99; Ord. No. 12127, § 1, 5-20-08)

Sec. 32-169. Numbering streets not terminating on base lines.

All streets not terminating upon the base lines specified in the preceding section shall be numbered in the same manner as contiguous streets, beginning at the northern termination of the street, if running north and south, and at the eastern termination if running east and west and lying west of Market or Cowart Streets, and at the western termination if lying east of such streets.
(Code 1986, § 32-169; Ord. No. 10847, § 1, 5-4-99; Ord. No. 12127, § 1, 5-20-08)

Sec. 32-170. Odd and even numbers.

On streets running north and south the odd numbers shall be assigned to the western side and the even numbers to the eastern side. On streets running east and west the odd numbers shall be assigned to the northern side and the even numbers to the southern side on all streets running in regular sequence from the point in each block nearest the base line.
(Code 1986, § 32-170; Ord. No. 10847, § 1, 5-4-99; Ord. No. 12127, § 1, 5-20-08)

Sec. 32-171. Each block to begin with the first number of its sequence.

If the spaces of any one (1) block are not sufficient to exhaust the series of one hundred (100) numbers thereto belonging, the next block shall nevertheless begin with the first of the succeeding sequence of one hundred (100) numbers, continuing in regular sequence until all the spaces on such block are numbered.
(Code 1986, § 32-171; Ord. No. 10847, § 1, 5-4-99; Ord. No. 12127, § 1, 5-20-08)

Sec. 32-172. Property owner to install correct address number.

(a) Any street number placed on property within the City shall correspond with the number assigned to the street location upon which every structure stands as ascertained and designated by the City Engineer. Any property owner who fails to accurately number a structure in the manner provided by this chapter within thirty (30) days after receiving legal notice so to do from the City Engineer, the Chief Building Official or their respective designees shall be guilty of a violation of this chapter.

(b) The provisions of this subsection shall apply to owners of single-family and two-family residences. Every property owner shall place the address number in a conspicuous position near the front property line of each street address or, if a parcel is not adjacent to a public right-of-way, in a conspicuous place near the primary means of ingress and egress to such address. Whenever possible, address numbers shall be placed on the same side of the primary means of ingress and egress as the main structure on the property. Such address numbers shall be posted (i) on the structure within five (5) feet of the front door, provided that the front door is clearly visible from the street in front of the residence, (ii) on the mailbox of the residence, (iii) on a metal rod in close proximity to the mailbox or to the primary means of ingress and egress to the property, or (iv) directly on the street curb in a uniform manner and color approved by the City Engineer. In no case shall the address numbers be placed more than ten (10) feet from the edge of the street. If there is more than one (1) driveway entrance and the driveway entrances serve different units, the street address and unit designation shall be placed near each such driveway entrance or on the mailbox near each such driveway entrance. Whether posted on the mailbox or on a metal rod, all address numbers shall be not less than two and one-half (2½) inches in height and shall be made of reflective material.

(c) The provisions of this subsection shall apply to owners of multi-family residences other than two-family residences. Any multi-family residential development with a sign or signs designating the name of the development shall have the address numbers placed on all such signs. Any multi-family residential development without a sign designating the name of the development and any multi-family residential development with such a sign or signs with a setback of more than twenty-five (25) feet from the closest edge of the street shall have the address numbers placed in a conspicuous position near the front property line or, if the property is not adjacent to a public right-of-way, in a conspicuous place near each entrance to such property. Such address numbers shall be posted either (i) on each mailbox on the property if the mailbox is directly in front of the unit for which the mailbox is designated or (ii) on a metal rod in close proximity to the mailbox or to the primary means of ingress and egress to the property, but in no case shall the address numbers be placed more than ten (10) feet from the edge of the street. Whether posted on the mailbox or on a metal rod, each number shall be not less than two and one-half (2½) inches in height and shall be made of reflective material. Whenever possible, such address numbers shall be placed on the same side of the primary means of ingress and egress as the main structure or structures on the property. In addition to posting the address numbering as set forth in this subsection, the owner of any multi-family residence shall place address numbering upon each individual unit in the development on or near the front door of each such unit. The owner of any multi-family residence in which the primary means of ingress and egress to the units is into an interior hallway shall also place address numbering upon the building itself on or near the entrance from the outside into the building.

(d) All commercial and manufacturing property within the City shall be posted with address numbering located at the street near the principal entrances for such structures in a manner approved by the City Engineer as provided in § 32-176.

(Code 1986, § 32-172; Ord. No. 10847, § 1, 5-4-99; Ord. No. 12127, § 1, 5-20-08; Ord. No. 12966, § 4, 6-30-15; Ord. No. 13000, § 1, 11-10-15)

Sec. 32-173. When address numbers to be affixed to new buildings.

Each property owner or authorized representative of a property owner shall install the address number upon such building prior to the issuance of a certificate of occupancy by the Building Official.

(Code 1986, § 32-173; Ord. No. 10847, § 1, 5-4-99; Ord. No. 12127, § 1, 5-20-08)

Sec. 32-174. Obliterated, indistinct numbers to be replaced.

Whenever an address number becomes obliterated or indistinct, the property owner of every such building shall procure and place thereon the correct number, within thirty (30) days after receiving written notice to do so from the Building Official, an Inspector of the Department of Neighborhood Services, the Police Chief or the Fire Chief.

(Code 1986, § 32-174; Ord. No. 10847, § 1, 5-4-99; Ord. No. 11345, § 13, 11-12-02; Ord. No. 12127, § 1, 5-20-08)

Sec. 32-175. When address renumbering required.

All owners of buildings on streets or parts of streets, the names or numbers of which have been changed shall, within thirty (30) days of the passage of the resolution effecting such name change, or in cases where readdressing without name change is required, be notified by the City Engineer or his designee of the effective date of the new address, and within thirty (30) days of said effective date, ascertain the proper numbers of their buildings on such newly named or numbered streets and affix new address numbers in compliance with this Article.

(Code 1986, § 32-175; Ord. No. 10847, § 1, 5-4-99; Ord. No. 12127, § 1, 5-20-08; Ord. No. 12966, § 4, 6-30-15; Ord. No. 13000, § 1, 11-10-15)

Sec. 32-176. Size of numbers generally; style, location to be approved.

In all instances the figures used for address numbers on residences, multi-family residences, commercial, and manufacturing buildings in the City of Chattanooga shall be of sufficient size to be readily seen from the middle of the street, not less than two and one-half (2½) inches high in any case and made of reflective material. Except as otherwise provided in § 2-172, such numbering shall be installed in at least one (1) of the following approved locations:

(1) Address numbering on structure within five (5) feet of the front door;

(2) Curb numbers painted directly onto the street curb in front of the building in a uniform manner and color approved by the City Engineer;

(3) Marked with a reflective address numbering stake installed in open view no more than ten (10) feet from the right front property corner when viewed from the street;

(4) On the mailbox, as long as it is on the property standing alone, with numbers at least two and one-half (2½) inches in height;

(5) Any awning over the front doorway of a commercial or manufacturing building shall contain address numbering; or

(6) Any alternative methods authorized and approved in the sole discretion of the City Engineer.

Reflective street numbers shall be furnished and placed on the curb or in front of the building at the expense of the property owners of such buildings. The style of the numbers and the manner of placing them, including their location upon the building, shall be subject to the approval of the City Engineer. Whenever multiple buildings are located on property designated with a single street address, each building shall be uniquely identified by numbering and/or signage approved by the City Engineer.
(Code 1986, § 32-176; Ord. No. 10847, § 1, 5-4-99; Ord. No. 12127, § 1, 5-20-08; Ord. No. 12966, § 4, 6-30-15; Ord. No. 13000, § 1, 11-10-15)

Sec. 32-177. Information to be furnished by City Engineer.

The City Engineer shall inform all owners or occupants of any buildings who may apply to that office, with the aid of the data in that office or within the knowledge of that office, as to the proper number of their respective buildings, without any charge for the information. The City Engineer will provide assistance in locating address numbers at a street location in conformity with § 32-176.
(Code 1986, § 32-177; Ord. No. 10847, § 1, 5-4-99; Ord. No. 12127, § 1, 5-20-08; Ord. No. 12966, § 4, 6-30-15; Ord. No. 13000, § 1, 11-10-15)

Sec. 32-178. Standard Street Numbering and Addressing Policy.

The City Council may from time to time adopt by resolution and/or ordinance any necessary amendments for clarification and practicality to assist in the development of an accurate and consistent street addressing system for the benefit of the community law enforcement, fire, rescue, postal delivery and other service agencies. All address numbering will be developed after submission to the Chattanooga-Hamilton County Regional Planning Commission and consideration of its recommendations in accordance with T.C.A. § 13-4-104. Street addressing changes shall be recommended by the City Engineer and considered by the City Council only one (1) time annually unless there is sufficient evidence presented to the Council that if an address is not immediately changed it will constitute an imminent danger to the public health, safety and welfare of the citizens.
(Ord. No. 12330, § 1, 12-8-09; Ord. No. 12966, § 4, 6-30-15; Ord. No. 13000, § 1, 11-10-15)

Secs. 32-179—32-195. Reserved.
(Ord. No. 12330, § 1, 12-8-09)

ARTICLE IX. STREET NAMES

Sec. 32-196. Establishment.

The official name of any dedicated street or right-of-way within the city shall be that name assigned to it and recorded on the last records on file at the county register's office or in the City Council Clerk's office. The City Council shall have the sole authority to amend, supplement or change the name of any dedicated street or street right-of-way, subject to the provisions of this article and subject to Article VIII of this Chapter. Street names may be changed individually or by adoption of a complete list that includes multiple changes.
(Ord. No. 12330, § 2, 12-8-09)

Sec. 32-197. Method of procedure to change street and right-of-way names.

(a) A proposed change of any name of any dedicated street or right-of-way shall be by resolution and, other than those originated by the city's governing body, Mayor, or the City Engineer, shall originate by a petition signed by two-thirds (2/3) of the parties owning a fee or holding a leasehold interest in real property, buildings, or fixtures abutting or fronting the subject street or right-of-way. For purposes of this section, the signature of any one (1) owner of undivided interest in property owned as tenants by the entirety or tenants in common, and the signature of an authorized representative of any corporation or partnership, shall be sufficient to satisfy this requirement. Such petition shall be filed with the City Engineer along with a completed application form and payment of the application fee in the amount of three hundred fifty dollars ($350.00).

(b) The City Engineer, or his designee, shall check the proposed street name against the current street database listing for appropriateness according to the provisions of this article and make a recommendation to City Council. If the request for change is not due to a petition, governing body request or a request from the Mayor as outlined in the preceding paragraph, but rather is necessary for public safety, the City Engineer shall notify the affected residents of the need for a change and poll them for a street name that meets the provisions of City Code and the Regional Addressing Policy as amended and adopted by City Council.

(c) No change, amendment, or supplement to any name of any dedicated street or right-of-way shall be effective unless approved in a resolution which receives the favorable vote of a majority of the entire membership of the city council. No name changes to any existing street shall be recommended by the City Engineer unless there is a sufficient showing to the City Council that some imminent danger to the public health, safety and welfare of the citizens will occur unless an existing street name is changed. Upon approval of a resolution which provides for any change, amendment, or supplement to any name of a dedicated street or right-of-way, the City Engineer shall notify all utilities, the United States Post Office, and Hamilton County Emergency Services (9-1-1) of such action by certified mail, return receipt requested.
(Ord. No. 12330, § 2, 12-8-09)

Sec. 32-198. Continuation of streets.

Any street or right-of-way dedicated after the effective date of Ordinance No. 7881 that is, or essentially is, an extension of an existing street shall be given the name of the existing street. However, any new streets crossing the base line (zero grid line) must be assigned a different name as set forth in the Street Numbering and Addressing Policy adopted by Resolution No. 21472.
(Ord. No. 12330, § 2, 12-8-09)

Sec. 32-199. Duplication of street names.

No new names for any new streets or dedicated right-of-ways shall be issued any name by the City Engineer using any street name which would duplicate or approximate, by means of spelling, pronunciation, or by use of alternate suffixes or prefixes (such as East, West, North, South, New, Old, Lane, Way, Drive, Court, Avenue, or Street) any existing or platted street name in the county.

(a) When duplicate street names are known to cause any emergency response or service response problems on existing streets within the City by the City Engineer, the street segment with the earliest date of plat recording within the City of Chattanooga shall be given preference whenever possible. Any suggestions for street name changes will be presented to the City Council and shall be evaluated in conjunction with renumbering of addresses in order to affect the fewest number of residents or businesses and after consideration of any other site specific criteria which may be identified by the City Engineer. Street names for existing streets having prefixes (such as East, West, North, South, New, or Old) shall not be changed unless there is sufficient evidence presented to the City Council that if an address is not changed it will constitute an imminent danger to the public health, safety and welfare of the citizens affected. The viability of readdressing or renumbering duplicate street names or phonetically similar street names will be considered by the City Engineer before suggesting any existing street name changes. Vacant properties shall not be considered when counting the number of affected parcels. The City Engineer shall have sole discretion in selecting the segments of any existing roads to be renamed, notwithstanding any other provision of this section.

(b) When duplicate street names are found to be within a local, state, or national historic district or would necessitate readdressing of properties found on the National Register of Historic Places, preference shall be given to the historic street name whenever possible.

(c) If a duplicate street name occurs in more than one (1) local, state, or national historic districts or is used by more than one (1) property found on the National Register of Historic Places, preference shall be given to the oldest instance of said street name whenever possible.

(d) Nothing contained in this section shall be construed to allow duplicate street names within the same local, state, or national historic district. Duplicate street names within the same local, state, or national historic district should be changed to reflect the historic significance of the local, state, or national historic district without duplicating existing street names.

(Ord. No. 12330, § 2, 12-8-09)

Sec. 32-200. Alteration and damage to street signs and street poles.

It shall be unlawful for any person to alter, mutilate, deface, damage, or destroy any street sign or sign pole; and it shall further be unlawful to post or affix any notice, poster, bill, bumper sticker, or other paper or device, calculated to attract the attention of the public to any street sign or sign pole.
(Ord. No. 12330, § 2, 12-8-09)

Secs. 32-201—32-215. Reserved.
(Ord. No. 12330, § 2, 12-8-09)

ARTICLE X. POLES AND WIRES

Sec. 32-216. Permit to erect poles—Required; how issued; conditions.

No pole shall be erected by any public service corporation on any street in the city without a permit to do so. Such permits shall be issued by the department of public works and the city engineer jointly, and shall be countersigned by the commissioner of public works, streets and airports. They shall be issued upon such conditions as to the erection and use of such poles as may be determined by the commissioner.
(Code 1986, § 32-216)

Cross reference—Businesses, trades and occupations generally, Ch. 11.

Sec. 32-217. Same—Grounds for refusal.

When any public service corporation applies to the Transportation Department for a permit to erect poles in any street where another public service corporation has already erected poles, the commissioner of public works, streets and airports shall refuse to issue a permit for poles to be erected at any places in such street where, in his opinion, the erection of additional poles will unreasonably interfere with the public safety or convenience and where another public service corporation already has poles which are reasonably sufficient to carry the wires of both corporations without material damage to either.
(Code 1986, § 32-217)

Sec. 32-218. Use of poles for wires of other corporations.

When necessary to avoid unreasonable inconvenience or danger to the public, all public service corporations maintaining poles in the streets of the city for wires shall be required to permit the wires of other public service corporations to be placed on such poles.
(Code 1986, § 32-218)

Sec. 32-219. Notice to permit use of poles.

Whenever the commissioner of public works, streets and airports declines to permit the erection of any additional poles, as provided in the preceding section, he shall notify the corporation whose poles have already been erected to permit the corporation applying for additional poles to use its poles upon reasonable compensation. It shall be unlawful for a corporation whose poles have already been erected to refuse to comply with such notice.
(Code 1986, § 32-219)

Sec. 32-220. Bond for use of poles by other than owner.

When any public service corporation has been notified to permit the use of its poles by another corporation, if the two (2) corporations are unable to agree upon the terms of compensation upon which such use shall be permitted, the corporation requesting the use of the poles may proceed to place its wires upon the poles of the corporation which owns them, upon delivering to such corporation a solvent bond in an amount double the cost of purchasing and erecting the poles sought to be used, conditioned to pay reasonable compensation for the use of such poles.
(Code 1986, § 32-220)

Sec. 32-221. City may use top of pole.

The city may use the top of all poles erected in the streets by public service corporations for fire alarm wires, if the necessity arises, subject to such restrictions as to the manner of putting up such wires as the corporation may make, but without paying compensation for such use.
(Code 1986, § 32-221)

Sec. 32-222. Maintenance of equipment.

All poles, cross arms, etc., in use shall be kept in good order and condition.
(Code 1986, § 32-222)

Sec. 32-223. Unused equipment to be removed.

Poles and wires of public service corporations on the streets of the city which remain unused for a period of thirty (30) days shall be taken down by the corporation owning them upon order from the mayor. The Transportation Department may remove any unused poles and wires so ordered removed at the expense of the corporation owning them.
(Code 1986, § 32-223)

Sec. 32-224. Sidewalk Clear Zone.

It is required that a clear zone, as defined under Chattanooga City Code Section 38-568 (16) or as amended, be maintained for passage on the sidewalk surface of all City rights-of-ways, and that all sidewalk surface areas of all City rights-of-ways shall otherwise remain compliant with the Americans with Disabilities Act (ADA) and the zoning requirements applicable to any specific use or Historic Districts in the City.
(Ord. No. 12824, § 1, 3-25-14; Ord. No. 13267, § 4, 1-30-18)

Secs. 32-225—32-230. Reserved.

ARTICLE XI. TELECOMMUNICATIONS SERVICES; FRANCHISES FOR TELECOMMUNICATIONS SERVICES*

Sec. 32-231. Definitions.

For the purposes of this Article, all definitions set forth in Chattanooga City Code Section 38-568 (16) or as such terms may be amended within that section after the enactment of this Article shall apply regarding advanced wireless research program participant, alternative structure, antenna, base station, breakpoint technology, collocation, cellular on wheels, distributed antenna system, eligible facilities request, eligible support structure, personal wireless service facility (PWSF), qualified collocation request, smart pole, small cell facility, small cell network, stealth design, substantial change, support structure, tower, and transmission equipment, including the following new definitions which are referenced below:

"City of Chattanooga" and "City" shall mean the City of Chattanooga, Tennessee, but shall not include the Electric Power Board of the City of Chattanooga unless specifically so stated to the contrary.

"Clear zone" shall mean that portion of the right-of-way that is intended for pedestrian traffic along the sidewalk. The minimum width and location of the clear zone shall be determined by the paved area of any sidewalk within the right-of-way, however, in all instances it must be a minimum of forty-eight (48) inches of width and otherwise compliant with the Americans with Disabilities Act (ADA) for public sidewalk accessibility. In areas of congested pedestrian activity in the Form Based Code District, a wider minimum portion of the sidewalk may be required. The location of the clear zone shall be consistent for the entire

---

***Editor's note—**Ord. No. 13267, § 5, adopted Jan. 30, 2018, repealed the former Art. XI, §§ 32-231—32-253, and enacted a new Art. XI as set out herein. The former Art. XI pertained to similar subject matter and derived from Code 1986, § 32-150; Ord. No. 10377, § 1, 2-6-96; Ord. No. 12824, § 1, 3-25-14.

block, and in most instances it shall be required to be located immediately adjacent to the facade of adjoining properties. The clear zone must at all times be free from any items, obstacles, or barriers so as to allow clear movement for pedestrians along the public right-of-way.

"FCC" means the Federal Communications Commission of the United States of America or any successor thereto.

"Franchisee" means the party subject to a Telecommunications Franchise, or its successors, assigns, or transferees.

"Franchise fee" means the Telecommunications Franchise Fee unless the context clearly indicates otherwise.

"Provider" shall mean any person, other than an Advanced Wireless Research Program Participant, who owns, leases, operates, installs, purchases capacity in or maintains any network or equipment within the City of Chattanooga for Telecommunications Services containing communication cables, wires, lines, towers, waveguides, fiber, microwave, laser beams or conduit and any associated converters, equipment or facilities designed and constructed for the purpose of producing, receiving, amplifying or distributing, by audio, video or other forms of electronic signals to or from subscribers or locations within the City of Chattanooga, (hereinafter collectively referred to as "Provider's System" or "system") in, on, under or over the public rights-of-way of the City of Chattanooga, or its successors, assigns, or transferees. The term Provider does not include a cable service provider providing "Cable service" or "Video service" as those terms are defined under the Competitive Cable and Video Services Act, T.C.A. §§ 7-59-301, et seq., as amended, that has been granted a franchise by the City to provide Cable Service or Video Service or has been granted a state-issued certificate of franchise authority by the State of Tennessee for a service area that includes the City.

"Rights-of-way" means the surface and space on, above and below every street, alley, road, highway, lane or other public right-of-way dedicated or commonly used now or hereafter for utility purposes and facilities thereon, including, but not limited to, overhead lighting facilities. Rights-of-way shall not include public property owned or leased by City and not intended for rights-of-way use, including, but not limited to, parks or public works facilities. Rights-of-way does not include federally granted railroad rights-of-way or easements granted to third parties (which may be reflected in a real property deed, subdivision plat, or other real property record) with respect to which the City holds no property interest.

"Telecommunications" means the transmission via the facilities, in whole or in part, between or among points specified by the user, of information of the user's choosing (e.g., data, video, voice), without change in the form or content of the information as sent and received, regardless of the statutory or regulatory scheme to which such transmissions may be subject, but does not include "cable service" or "video service" as defined under the Competitive Cable and Video Services Act, T.C.A. §§ 7-59-201, et seq., as amended, as such services shall be subject to separate franchising requirements and applications.

"Telecommunications facility" means one or more antenna, utility structures currently hosting either fiber, cable or wire, tower, base station, mechanical and/or electronic equipment, conduit, cable, fiber, wire, and associated structures, enclosures, assemblages, devices and supporting elements that generate, transmit or produce a signal used for communication that is proposed by an entity other than the City Government, including but not limited to radio/tv/satellite and broadcast towers, telephone service, including new microwave or cellular Towers, Personal Wireless Service Facilities (PWSF), Distributed Antenna System (DAS), small cell facilities and Cellular on Wheels (COW), or as such defined terms may be amended in Chattanooga City Code Section 38-568 (16).

"Telecommunications franchise" means a franchise for use of the rights-of-way for communications services as authorized herein and executed by City and Franchisee.

"Telecommunications franchise fee" means the fee imposed by City on franchisee for use of the rights-of-way pursuant to a Telecommunications Franchise granted under this Article.

"Telecommunications Service" means the transmission via facilities, in whole or in part, of any writings, signs, signals, pictures, sounds or other forms of intelligence through wire, wireless or other means, including, but not limited to, any "telecommunications service," "enhanced service," "information service," or "internet service," as such terms are now, or may in the future be, defined under federal law, and including all instrumentality, facilities, conduit, apparatus ("Telecommunications Facilities"), and services (among other things, the receipt, forwarding, and delivery of telecommunications) incidental to or designed to directly or indirectly facilitate or accept such transmission. This term does not include Telecommunications Service provided by a cable service provider providing "cable service" or "video service" as defined under the Competitive Cable and Video Services Act, T.C.A. §§ 7-59-301, et seq., as amended, as the rights of Providers of cable service or video service to use the public rights-of-way of the City shall be subject to separate franchising requirements and applications. Along with the similar exclusion in the additional paragraph below defining, "Provider," this term does not include over-the-air radio or television broadcasts to the public at large licensed by the FCC.
(Ord. No. 13267, § 5, 1-30-18)

Sec. 32-232. Services prohibited without franchise or without authorization from State of Tennessee.

No Provider shall use the public rights-of-way in the City for Telecommunications Services, including wireless transmission via a Telecommunications Facility, without first having received a Communications Franchise from the governing body of the City. No person shall use the public rights-of-way of the City to provide services directly regulated by the Tennessee Public Utility Commission ("TPUC") (or any successor agency) under Tennessee law unless so authorized by the TPUC, if such authorization is required.
(Ord. No. 13267, § 5, 1-30-18)

Sec. 32-233. Provider's Compliance with Law and Maintenance of Clear Zone.

(a) Provider shall construct and maintain Provider's System in accordance with all applicable federal, state and local laws, including all City's permit requirements, Telecommunications Franchise Fee payment, cost, and fee obligations, and all other City codes and ordinances, including but not limited to applicable zoning laws and restrictions to adjoining or adjacent properties, and the terms and conditions set forth within Chattanooga City Code Section 38-568, in effect as of the date of the award of its franchise, or thereafter adopted or amended. Provider's compliance with any applicable provisions of the zoning laws and restrictions to adjoining or adjacent properties, and the terms and conditions set forth within Chattanooga City Code Section 38-568, as may be amended from time to time, shall be deemed a condition of any Telecommunications Franchise.

(b) *Maintenance of Clear Zone.* It is required that a clear zone, defined in Section 32-231(16), as amended, be maintained for passage on the sidewalk surface of the rights-of-way, and that all installations are otherwise compliant with the Americans with Disabilities Act (ADA) and any zoning requirements applicable to any specific use or Historic Districts in the City, unless a variance is approved by the Board of Appeals for Variances and Special Permits. No Provider shall block or restrict the clear zone or block ingress/egress to any property, including but not limited to any driveway, crosswalk, bus stop or in any manner that conflicts with the Americans with Disabilities Act.

(c) Any Telecommunications Franchise granted pursuant to this Article shall be subject to any present and future legislation or resolution, which may be enacted by the Chattanooga City Council or legislation or regulation by the State of Tennessee.
(Ord. No. 13267, § 5, 1-30-18)

Sec. 32-234. Application for Telecommunications Franchise; application fee.

(a) Any entity desiring to construct, own, operate, replace, lease, maintain, or purchase capacity (for resale) in a system within the rights-of-way of the City shall apply to the office of Land Development for a Telecommunications Franchise from the City on the form provided by the Building Official. The application shall be accompanied by a non-refundable application fee of two thousand five hundred dollars ($2,500.00). Said application fee defrays in whole or in part City's reasonable costs to process an application filed hereunder and negotiate, award and administer a franchise. Said application fee shall not be considered franchise fee payments.

(b) Applicants shall fully complete the franchise application process and submit all requested information. The application and information submitted must be certified as true and accurate by the applicant. Applicant shall be responsible to certify to City any material changes to the information provided in the completed application during the term of any franchise. City reserves the right to require such supplementary, additional or other information that it deems reasonably necessary for its determination, and reserves the right to waive all formalities and/or technicalities, where the best interest of City may be served.

(c) All Telecommunications Franchises located within the rights-of-way are subject to the following conditions and approval by the Land Development Office and the Chattanooga Department of Transportation:

(1) All requests for a Telecommunications Franchise which will be located within the right-of-way shall submit a completed and verified application, which shall contain:

a) The applicant's name, address, telephone number, and email address;

b) The applicant's affiliates, if any, operating or having operated within the State of Tennessee;

c) Information demonstrating the applicant's financial ability to comply with the requirements of this Article;

d) A statement of whether the applicant, or any affiliate, has had a franchise application suspended, revoked or terminated in any other jurisdiction and the details surrounding such suspension, revocation or termination;

e) A statement of whether the applicant or any director, principal officers have been charged or convicted of a crime involving fraud, misrepresentation, falsification of records, and/or improper business transactions or reporting.

f) A statement of whether the applicant, or any affiliate, has filed suit or administrative proceedings involving applicant's franchise or attempt to obtain a franchise, or applicant's access to the public rights-of-way in another jurisdiction;

g) A copy of the applicant's FCC license or registration, if any;

h) A copy of Tennessee Regulatory Authority authorization to conduct business as proposed, if any;

i) The names, addresses, telephone numbers, and email addresses of all consultants, if any, acting on behalf of the applicant with respect to the filing of the application;

j) A general description of the proposed Telecommunications Services that are or will be offered or provided by the applicant over and through its Telecommunication Facilities, and the purposes and intent of the Telecommunications Franchise;

k) Any other information which may be requested by the City; and

l) All applications for permits filed pursuant to this Chapter shall be on a form, paper or electronic, provided by the City.

(Ord. No. 13267, § 5, 1-30-18)

Sec. 32-235. General provisions for Telecommunications Services.

Provider shall comply with any conditions and/or requirements of the office of the City Engineer, Building Official in the office of Land Development and the Administrator of the Transportation Department with respect to the specific location and installation of Provider's System and with respect to any other matters which affect the construction, installation, repair, operation and maintenance of Provider's System. To the maximum extent technically feasible, Provider's System shall be installed underground within existing rights-of-way or property controlled by the Provider, provided that Provider's System may be installed above ground where either telephone, cable, or electric utility facilities are above ground at the time of installation, and as provided within Chattanooga City Code Section 38-568 (16). To the extent that any Provider installs its System in underground ducts, Provider shall, unless waived in writing by City, simultaneously install one (1) additional four (4) inch conduit for the use and benefit of the City. City shall reimburse Provider by way of future rent or fee abatement for any marginal or additional costs incurred by Provider in connection with installation of City conduit.

City conduit shall be installed in accordance with City's specifications and consistent with sound engineering practice. No franchise fee shall apply to any City conduit or fiber.

Provider, with the prior written approval of the City Building Official and the Transportation Department, may make minor deviations from the Provider's System as shown in the map attached to Provider's franchise agreement in the event unforeseen problems necessitate the rerouting of said Provider's System. Provider shall comply with all applicable City ordinances and state laws, including but not limited to obtaining building permits, street cut permits and any other permits required by applicable law.

(Ord. No. 13267, § 5, 1-30-18)

Sec. 32-236. Engineering designs for Provider's System; "as built" drawings for System.

Engineering designs for Provider's System will be prepared by a competent engineering group which shall be licensed by the state if required by state law and installation will be performed by a competent contractor which shall be licensed by the state if required by state law, and Provider will furnish said engineering designs to the Building Official not less than thirty (30) days prior to commencement of construction. Provider will provide to the Building Official and the Transportation Department "as built" drawings of its System within one hundred twenty (120) days of completion of said System; Provider shall update said drawings within one hundred twenty (120) days of the completion of any material change to Provider's System; said "as built" drawings shall include, at a minimum, the routing of Provider's System and the location of all amplifiers, power supplies and system monitor test points, provided that if Provider already has its System, or a portion thereof, in place as of the effective date of this Section, Provider shall provide such "as built" drawings to the Building Official within the time provided in such Provider's Franchise Agreement. City will protect and maintain all such documentation submitted by Provider to the extent required by State law.

(Ord. No. 13267, § 5, 1-30-18)

Sec. 32-237. No adverse effect upon adjacent properties.

Under no conditions shall the installation of Provider's System adversely affect any properties adjacent to the public rights-of-way without the prior express written permission of the owner of such properties. (Ord. No. 13267, § 5, 1-30-18)

Sec. 32-238. No adverse effect upon other utilities.

Under no conditions shall the installation of Provider's System adversely affect any existing utilities without the prior express written permission of such utilities. Provider's system shall not physically interrupt or interfere with the facilities in the public rights-of-way of the Chattanooga Gas Company, BellSouth now known as AT&T, the Electric Power Board of Chattanooga, the water utility in whose area Provider's System is located, Comcast Cable TV Company, or any other utilities or companies holding a franchise in any right-of-way in which Provider's System is to be located. Provider is solely responsible for ensuring compliance with this Section.
(Ord. No. 13267, § 5, 1-30-18)

Sec. 32-239. Restoration of Rights-of-Way.

Provider shall promptly restore to its original condition, in accordance with the City's standard specifications for, streets and sidewalks any street pavement, sidewalks or other portions of the right-of-way disrupted by construction of Provider's System. By acceptance of any franchise from the City to provide Telecommunications Services, Provider warrants the restoration of any disturbed right-of-way or part thereof. Provider shall, to the maximum extent possible, coordinate all System installation, repairs and maintenance with other utilities and Franchisees so as to minimize the number of street cuts and interruption of traffic within the City.
(Ord. No. 13267, § 5, 1-30-18)

Sec. 32-240. Standards for maintenance of Telecommunications Services and right to inspect.

Any work required or performed pursuant to this Article shall be done in accordance with federal, state and local law, including NFPA 70, the National Electrical Code, National Electrical Safety Code or such other applicable codes and standards covering regulated utility installation activities which are regulated under governmental laws or regulations including state regulatory commissions, the Federal Energy Regulatory Commission, and the Federal Communications Commission. In the event that any Provider leases space on the poles or in the conduits of an electric or other utility, Provider shall abide by the construction and other requirements of said utility, and the granting of a franchise by City hereunder shall not be construed or interpreted in any way to alleviate Provider's responsibilities and obligations to the pole or conduit owner.

Provider, its contractors, subcontractors and anyone directly or indirectly employed by Provider, shall conduct such operations so as to promote and preserve the public health, safety and general welfare of the citizens of Chattanooga. All construction, installation and maintenance by Provider shall be completed with diligence and with respect to all property, contracts, person's, rights and the interests and rights of the public. During any phase of construction, installation, maintenance, and repair of Provider's System, Provider shall use materials of good and durable quality and all such work shall be performed in a safe, thorough, and reliable manner.

Provider's System shall at all times be kept and maintained in good condition, order, and repair by qualified maintenance and construction personnel, so that the same shall not menace or endanger the life or property of any person.

Provider shall promptly remove any graffiti on its Telecommunications Facilities at Provider's sole expense.

The City is authorized to make requests and to issue orders regarding Telecommunications Facilities in the rights-of-way and further is authorized and shall have the right to inspect the construction, installation, maintenance, repair and operation of Telecommunications Systems to: 1) ensure continued compliance with this Article and with all permits received; and 2) protect the health, safety and welfare of the public. The City is also authorized to conduct visual and external inspections of Telecommunications Facilities in the rights-of-way at any time and shall make efforts to coordinate with the Provider responsible for a Telecommunications Facility for any internal inspection of the relevant structure or equipment. Should such periodic inspection reveal the need for a formal inspection program, the City retains the right to implement an annual inspections program, with costs to be borne by Providers.
(Ord. No. 13267, § 5, 1-30-18)

Sec. 32-241. Notification of execution of any security agreement or similar agreement concerning Provider's System.

Provider shall notify the City within ten (10) business days of the execution of any security agreement or similar agreement concerning Provider's System or any of the Telecommunications Facilities and property, real or personal, of the Provider located in the City of Chattanooga and will, upon three (3) business days' notice, allow the City to inspect any such agreements in Chattanooga, Tennessee.
(Ord. No. 13267, § 5, 1-30-18)

Sec. 32-242. Indemnification of City by Providers.

Provider shall, at its sole cost and expense, indemnify, hold harmless and defend the City, its elected and appointed officials, officers, boards, commissions, commissioners, agents and employees, against any and all claims, suits, causes of action, proceedings, and judgments for damages or equitable relief arising out of or related to Provider's operation, installation or maintenance of Provider's System. The indemnity provisions of this section shall include, but are not limited to, the City's reasonable and necessary attorneys' fees incurred in defending against any claims, suits, actions or proceedings arising out of or related to the operation, installation or maintenance of Provider's System and these indemnity provisions shall survive the term of any Franchise granted to Provider for any acts committed by Provider for any claims, suits, actions or proceedings arising out of or related to Provider's operation, installation or maintenance of Provider's System during the term of a franchise.
(Ord. No. 13267, § 5, 1-30-18)

Sec. 32-243. Insurance and bonds to be maintained by Providers.

(a) During the term of any franchise, Provider shall obtain and maintain at its sole expense, all insurance and bonds required by this Article. Nothing contained in this Article shall limit a Provider's liability to City to the limits of insurance certified or carried or the amount of any bond.

(1) Upon being awarded a franchise, Provider shall immediately obtain and maintain, for the benefit of and filed with the City Attorney's Office, two (2) corporate surety bonds, each written with a surety company authorized to do business in the State of Tennessee and found acceptable by the City Attorney, in an amount to be determined by the Land Development Office depending upon

the nature of the work to be performed and the permit fee. In no event shall the amount required by the Land Development Office exceed the reasonable costs of repairing the rights-of-way and any structures damaged by the installation in the event of nonperformance by the Provider.

a) *Construction Bond.* The first corporate surety bond, as described in subsection (1) above, shall guarantee the timely and safe construction of the Provider's network routes (the "Construction Bond").

i. The Construction Bond shall provide for the faithful performance of construction and installation of Provider's System. One year after demonstration of the completion of the construction of Provider's System to the Building Official, and approval by the City, City shall release the performance bond in writing. The City may reserve the right to reevaluate the bond amount after the first year of the initial term and to adjust the bond requirement or bond amount, if deemed necessary or prudent by the City Attorney.

ii. The Construction Bond shall provide, but shall not be limited to, the following condition: there shall be recoverable by the City, jointly and severally, from the principal and surety, any and all damages, losses or costs, including attorneys' fees, suffered by the City arising out of the failure of Provider to faithfully perform and satisfactorily complete construction of Provider's System in accordance with this Article, and to complete its applicable work within eighteen (18) months after the commencement of construction, unless the failure is due to conditions outside the reasonable control of Provider.

b) License Agreement Bond. The second corporate surety bond, as described in subsection (1) above, shall secure Provider's performance of its obligations and faithful adherence to all requirements of this Agreement (the "License Agreement Bond").

i. Said License Agreement Bond shall not exceed the amount of seventy-five thousand dollars ($75,000.00) and shall be maintained throughout the term of this Agreement.

ii. The initial License Agreement Bond shall be written to run concurrently with the Master Franchise Agreement's initial term.

iii. Additional extensions to the term of the Agreement shall be bonded with a continuation certificate to the original License Agreement Bond (or on a subsequent original License Agreement Bond written by a different surety company, acceptable to the City Attorney, if necessary), executed by the surety company and by Provider.

iv. The License Agreement Bond shall provide, but shall not be limited to, the following conditions: there shall be recoverable by the City, jointly and severally, from the principal and surety, any and all damages, losses or costs, including attorneys' fees, suffered by the City resulting from Provider's installation, operation or maintenance of its Telecommunications Facilities, or from its breach of the terms any agreements related to the work with the City.

(2) Provider shall provide both of these corporate surety bonds at or before execution of the Franchise Agreement.

(3) Any extension to the prescribed time limit in subsection 32-243(1)(a)(2) for completion of the applicable work within eighteen (18) months due to causes beyond the reasonable control of Provider shall be authorized by the City Attorney, and the City Attorney's authorization may not be unreasonably withheld, conditioned, or delayed.

(4) The rights reserved to City with respect to the performance and franchise bonds required hereunder are in addition to all other rights of City, whether reserved by this Article or authorized by law, and no action, proceeding or exercise of a right with respect to such performance or franchise bonds shall affect any other rights City may have.

(5) The Construction Bond and License Agreement Bond shall not expire or be materially altered without thirty (30) days' prior written notice to City and without securing and delivering to City a substitute, renewal and replacement bond in conformance with this Article. In the event City does draw monies against the cobonds required hereunder, within ten (10) days thereafter, Provider shall pay such funds to the bonding company as necessary to bring said bonds back to the applicable principal, where it shall continue to be maintained. The Construction Bond and the License Agreement Bond shall contain the following endorsement: "It is hereby understood and agreed that this bond will not be cancelled or non-renewed by the surety until sixty (60) days after receipt by the City Attorney, by registered mail, of written notice of intent to cancel or not to renew the bond."

(6) The failure of Provider to comply with its obligations under this Article or the franchise agreement, including but not limited to, the cost of removal of Provider's System from the public rights-of-way in the event Provider's franchise is terminated or abandoned and the cost of repairing any damage to the City rights-of-way in the event Provider fails to repair same, as determined by Chattanooga City Council, shall entitle City to draw against either or both of Provider's corporate surety bonds.

(b) Immediately upon the effective date of the resolution or ordinance granting a franchise under this Article, Provider shall file with the Office of the City Attorney the following proof of insurance issued by a company(ies) authorized to do business in Tennessee with an AM Best Rating of A- or better:

(1) Commercial General and Umbrella Liability Insurance; occurrence version commercial general liability insurance, and if necessary umbrella liability insurance, with a limit of not less than two million dollars ($2,000,000.00) each occurrence for bodily injury, personal injury, property damage, and including, products, completed operations, contractual liability, independent contractor's protective liability and personal injury liability protection. If such insurance contains a general aggregate limit, it shall apply separately to the work/location or be no less than three million dollars ($3,000,000.00).

a) Such insurance shall:

i. Contain or be endorsed to contain a provision that includes the City, its officials, officers, employees, and volunteers as additional insureds with respect to liability arising out of work or operations performed by or on behalf of Provider including materials, parts, or equipment furnished in connection with such work or operations. The coverage shall contain no special limitations on the scope of protection afforded to the additional insureds. Proof of additional insured status up to and including copies of endorsements and/or policy wording will be required.

ii. For any claims related to this project, Provider's insurance coverage shall be primary with respect to the City, its officers, officials, employees, and volunteers. Any insurance or self-insurance programs covering the City, its officials, officers, employees, and volunteers shall be excess of Provider's insurance and shall not contribute with it.

iii. This policy must cover City for damages resulting from the transmission of any Telecommunications Services over the Provider's System.

iv. The City reserves the right to make reasonable increases in the required amount of insurance coverage herein at any time. Nothing herein is intended as a limitation on the extent of any legal liability of the Provider.

(2) Automobile Liability Insurance; including vehicles owned, hired, and non-owned, with a combined single limit of not less than one million dollars ($1,000,000.00) each accident. Such insurance shall include coverage for loading and unloading hazards. Insurance shall contain or be endorsed to contain a provision that includes the City, its officials, officers, employees, and volunteers as additional insureds with respect to liability arising out of automobiles owned, leased, hired, or borrowed by or on behalf of Provider.

(3) *Workers' Compensation Insurance.* Provider shall maintain workers' compensation insurance with statutory limits as required by the State of Tennessee or other applicable laws and employers' liability insurance with limits of not less than five thousand dollars ($500,000.00). Provider shall require each of its subcontractors to provide Workers' Compensation for all of the latter's employees to be engaged in such work unless such employees are covered by Provider's workers' compensation insurance coverage.

(4) *Environmental Impairment Liability.* Provider shall maintain environmental impairment liability insurance with limits of not less than one million dollars ($1,000,000.00) per occurrence.

(5) *Pollution Liability Insurance.* Provider shall procure pollution liability coverage, ISO CG 0039, or equivalent. If the coverage is written on a claims-made form:

a) The "Retro Date" must be shown and must be before the date of the contract or the beginning of contract work.

b) Insurance must be maintained and evidence of insurance must be provided for at least five (5) years after completion of the contract work and acceptance by the City.

c) If coverage is cancelled or non-renewed and not replaced with another claims-made policy form with a "Retro Date" prior to the contract effective date, Provider must purchase "extended reporting" coverage for a minimum of five (5) years after completion of contract work.

d) A copy of the claims reporting requirements must be submitted to the City for review.

(6) *Excess Liability Insurance.* Provider shall maintain excess liability insurance in addition to the insurance specified above, excluding environmental and pollution liability, with a limit of not less than ten million dollars ($10,000,000.00) each occurrence. This coverage shall be on a follow form basis, or be at least as comprehensive as the underlying insurance.

(7) *Other Insurance Requirements.* Provider shall:

a) Prior to commencement of services, furnish the City with original certificates and amendatory endorsements effecting coverage required by this section. The Provider must provide written notice of cancellation by its insurer for any reason other than non-payment of premium to the City of Chattanooga, Office of the City Attorney, 100 East 11th Street, Suite 200, Chattanooga, Tennessee 37402 within thirty (30) days after the cancellation.

b) Upon the City's written request, provide copies of endorsements in lieu of, or in addition to, certificates of insurance. Franchisee will make copies of the policies available at its most proximate place of business upon the City's written request. Copies of policies will only be requested when contracts are deemed to be extremely or uniquely hazardous, include a dollar amount that is significant to the overall budget of the City or a City Department, or the coverage(s) may not follow standard insurance forms. A policy will only be requested

after the City's Risk Manager has reviewed the contract and proof of coverage has been provided. Should the certificate of insurance refer to specific coverage wording or endorsement(s), proof of such policy wording or endorsement(s) will be required.

c) Replace certificates and endorsements for any such insurance expiring prior to completion of services.

d) Maintain such insurance from the time services commence until services are completed. Failure to maintain or renew coverage or to provide evidence of renewal may be treated by the City as a material breach of contract.

e) If Provider cannot procure insurance through an insurer having an A.M. Best rating of A-VIII, Provider may, in the alternative, place such insurance with insurer licensed to do business in Tennessee and having A.M. Best Company ratings of no less than A. Modification of this standard may be considered only upon appeal to the City Attorney.

(8) Any deductibles and/or self-insured retentions greater than two hundred fifty thousand dollars ($250,000.00) must be disclosed to and approved by the City Attorney's Office prior to the commencement of services. Use of large deductibles and/or self-insured retentions will require proof of financial ability as set forth in subsection (c) below.

(9) The insurer shall agree to waive all rights of subrogation against the City, its officers, officials, and employees for losses arising from work performed by Provider for or with regard to the City. Proof of waiver of subrogation up to and including copies of endorsements and/or policy wording will be required.

(10) All general liability policies must be written on an occurrence basis unless the City Attorney determines that a claims-made basis is reasonable in the specific circumstance. Use of policies written on a claims-made basis must be approved by the City Attorney and retroactive dates and/or continuation dates must be provided to the City prior to commencement of any work performed. Professional Liability and Environmental Liability (Pollution Coverage) are most commonly written on a claims made basis and are generally acceptable in that form.

(11) Failure to maintain adequate insurance as required under this section shall be grounds to terminate the franchise.

(c) Notwithstanding the foregoing requirements for bonds required in (a) and general liability insurance policies in (b) above, a Provider may be allowed to provide a valid Certificate of Self-Insurance showing that it is self-insured in an amount equal to the bond and insurance coverage amounts required in (a) and (b) above, supplying proof of its most recent public financial report or statement, and confirming that any breach of the franchise shall require payment in full to the City upon demand to the fullest extent of any bond and insurance coverage amount required in (a) and (b) above, which shall be secured by real and/or personal property located within the City and sufficient to cover the required bonds and insurance amounts herein. Certificates of Self-Insurance, and accompanying documentation, shall be submitted initially, and annually thereafter, to the satisfaction of the City Attorney.
(Ord. No. 13267, § 5, 1-30-18)

Sec. 32-244. Removal or relocation of systems; and emergency removal or relocation.

In the event the City determines it to be necessary, appropriate or useful to protect the health, safety and welfare of the public; or if it shall need the right-of-way for the purpose of providing public improvements either to the street or the public right-of-way; or for the best interest of the public; or in the event the City abandons a public right-of-way and does not reserve an easement for Provider, and Provider's System or any part thereof should need to be relocated or removed, such relocation or removal shall be done at the sole expense of the Provider. In the event Provider fails or refuses to complete such relocation or removal

after one hundred eighty (180) days' prior written notice from the City, the City shall have the right to perform such relocation or removal, and Provider shall promptly reimburse the City for all costs incurred in such relocation or removal.

The City retains the right and privilege to cut or move any Telecommunications Facility located within the right-of-way of the City, as the City may determine to be necessary, appropriate or useful in response to any public health or safety emergency. If circumstances permit, the City shall notify the Provider affording Provider an opportunity to move its own facilities prior to cutting or removing a facility and shall notify the Provider after cutting or removing a Telecommunications Facility.
(Ord. No. 13267, § 5, 1-30-18)

Sec. 32-245. Assignment of franchise; lease or sale of capacity.

No Provider shall assign or transfer any Telecommunications Franchise (or any of the rights or privileges granted by such franchise) from the City without the prior approval of the Chattanooga City Council by ordinance or resolution, which approval shall not be unreasonably withheld if the entity would have qualified for an original franchise had it applied and if the entity demonstrates it has the same insurance policies and bonds in place as is required of the original Provider.

A mortgage, lien, deed to secure debt, deed of trust, security interest or other encumbrance of Provider's Telecommunications Franchise as a part of acquiring, constructing, equipping or maintaining Provider's System shall not be considered a violation of this section; any such creditor shall be entitled to all the rights and remedies granted to same in any documents relating to any such transaction, provided that any sale or transfer of Provider's System or any portion thereof following a foreclosure sale shall be subject to the prior approval of the Chattanooga City Council by ordinance or resolution, which approval shall not be unreasonably withheld.

Nothing in any approval by the Chattanooga City Council of any transfer pursuant to this section shall be construed to waive, release or delegate any rights or powers of City to hold the original Provider liable for any violation of its Telecommunications Franchise.
(Ord. No. 13267, § 5, 1-30-18)

Sec. 32-246. Removal of Telecommunications Facilities.

When Provider opens a trench, accesses a conduit or boring, or is working on aerial locations, or when Provider becomes aware either by notice from the City or otherwise that any other Telecommunications Franchisee or public utility is opening a trench, accessing a conduit or boring, or is working on aerial locations with access to Provider's System, whether pursuant to Chattanooga City Code Section 32-256, as amended, or otherwise, Provider shall remove all of its obsolete communication cables, wires, lines, towers, waveguides, fiber, microwave, laser beams, conduit and all of its obsolete associated converters, equipment or facilities while they are open without interfering with the efficient operation of other public utilities. In the event Provider's Telecommunications Franchise is terminated, forfeited or abandoned, the City may require Provider to remove Provider's System or any portion thereof from the public right-of-way within a reasonable period of time, not to exceed ninety (90) days. In the event Provider fails to do so the City may, at its option, remove Provider's System or any portion thereof from the public Right-of-Way and seek reimbursement therefor from Provider or from any bond posted by Provider in favor of the City. Notwithstanding the foregoing, the City may allow Provider's System or any portion thereof to be left in place when the City determines that it is not practical or desirable to require removal. It shall be the duty of the Provider immediately upon such removal to restore the rights-of-way from which Provider's System or any portion thereof is removed to as good condition as the same was before the removal was effected and as required by City.
(Ord. No. 13267, § 5, 1-30-18)

Sec. 32-247. No cost to City arising out of franchise.

The City shall incur no costs or expenses as a result of granting any Telecommunications Franchise to Provider or as a result of connecting to Provider's System (other than usual and customary fees for the use of Provider's System in the event the City utilizes same).
(Ord. No. 13267, § 5, 1-30-18)

Sec. 32-248. Telecommunications Franchise Fee from Providers; Franchise Fee Statement; no accord and satisfaction.

Provider shall pay on an annual basis to the City as compensation for the use of rights-of-way an annual Telecommunications Franchise Fee for use of rights-of-way in or on which its System is placed or over which it is suspended. The Telecommunications Franchise Fee shall be in an amount established by the annual budget ordinance adopted in each fiscal year by the City. The Telecommunications Franchise Fee shall be subject to the City Council's ability to revisit this amount, pending a further analysis of the costs to the City for use of its public rights-of-way. Telecommunications Franchise Fees shall be due and payable on or before the fifteenth day of January of each year during the term of the Franchise. City shall dedicate and use all franchise fees received under this section for maintenance of the rights-of-way.

In the event any franchise fee payment due under this section is paid late, Provider shall also pay interest thereon at the rate of eighteen percent (18%) per annum, or the maximum percentage rate allowed by State law, for any period such payment is late. No portion of the franchise fee shall be noted separately on bills to customers except as required by law.

The annual Telecommunications Franchise Fee payment shall be accompanied by a statement ("Franchise Fee Statement") showing the manner in which the franchise fee was calculated. At the same time the annual Telecommunications Franchise Fee is paid to the City, Provider shall submit a Franchise Fee Statement, certified as true and accurate, setting forth the amount of linear feet for the facilities provided, however, that in the event that a Provider ceases to provide service for any reason (including as a result of a transfer), such Provider shall provide such a statement within thirty (30) days after the date on which its operations in Chattanooga cease. In addition to the Franchise Fee Statement, Provider shall provide City with a description of any material changes to the types of Telecommunications Services offered in the City during the prior year, certified as true and accurate.

In addition to the Telecommunications Franchise Fee charged pursuant to this Chapter, Franchisee and all Providers shall pay all use or other attachment fees on any City-owned property as may be established pursuant to the annual budget ordinance adopted in each fiscal year by the City.

No acceptance by City of any Telecommunications Franchise Fee or any other payment shall be construed as an accord that the amount paid is in fact the correct amount, nor shall acceptance of any Telecommunications Franchise Fee or any other payment be construed as a release of any claim of City.
(Ord. No. 13267, § 5, 1-30-18)

Sec. 32-249. Default of Providers.

(a) The occurrence of any one (1) or more of the following events, at the City's discretion, shall constitute an Event of Default by the Provider under any franchise from the City for Telecommunications Services:

(1) The Provider shall fail to pay when due any franchise fee as and when such fee becomes due or any lessee, sublessee or assignee of Provider's System shall fail to pay any franchise fee as and when such fee becomes due as set forth in Section 32-248 above.

(2) The Provider shall fail to observe or perform any other obligation to be observed or performed by it under this Article, the franchise agreement, or any other permits and/or agreements required under this Article.

(3) The Provider shall dissolve or discontinue the Provider's business, or transfer all or substantially all of the property of the Provider without the prior consent of the Chattanooga City Council by ordinance or resolution.

(4) A judgment creditor of the Provider other than the holder of a valid security interest in Provider's System shall obtain possession of any portion of the Provider's System in the public Rights-of-Way of the City by any means.

(5) That Provider fails to begin actual construction on Provider's System within sixty (60) days of the date Provider obtains a Telecommunications Franchise from the City, or Provider has not substantially completed Provider's system as set forth in the franchise from the City to Provider within one (1) year of the date Provider obtains a Telecommunications Franchise from the City.

(b) The terms and conditions of this Article and the franchise agreement, and each of them, are hereby deemed to be substantial and material. Upon the occurrence of an Event of Default specified in this section, the City shall notify Provider in writing of such Event of Default and identify the Event of Default; such notice shall also notify Provider that the Telecommunications Franchise is considered forfeited by Provider and canceled not less than thirty (30) days from the date of receipt of such notice by Provider unless such default, violation, non-compliance or other event causing forfeiture of said franchise specified in the notice has been cured to the sole satisfaction of the City within said thirty (30) days.

(c) Before any Telecommunications Franchise may be terminated and canceled, Provider shall be provided with an opportunity to be heard before the governing body of the City. In the event Provider desires to have a hearing before the City Council, Provider shall, within twenty (20) days of its receipt of the aforementioned notice, notify in writing the Clerk of the City Council of its desire for such a hearing. Upon receipt of such a request for a hearing, the Clerk shall notify the Council at or before its next meeting of such request, and the Council shall schedule a hearing upon such request. The termination of Provider's franchise shall be stayed until the conclusion of such hearing before the City Council. In the event the City Council determines that no Event of Default has occurred or that such default has been timely cured, Provider's franchise shall continue in full force and effect.

(d) In the event the City Council determines that a specific default cannot be cured after a hearing as set forth in provision (c) above and the Provider has timely instituted action necessary to cure such default, Provider shall be permitted to diligently pursue such cure to completion. The City Council may specify a time period within which Provider must cure such default, and in the event Provider fails to cure within such time period, Provider's Telecommunications Franchise shall be considered forfeited and canceled without further hearing of the City Council. The action of the City Council shall be final provided that any appeal of the action of the City Council may be taken to a court of competent jurisdiction within sixty (60) days pursuant to Tennessee Code Annotated 27-9-102.
(Ord. No. 13267, § 5, 1-30-18)

Sec. 32-250. Notices.

Any notices or communication required in the administration of Provider's Telecommunications Franchise from the City shall be sent by hand delivery or by any method that assures overnight delivery and shall be addressed as follows:

If to the City:	Office of the Mayor Chattanooga City Hall 101 East 11th Street Chattanooga, TN 37402
With a copy to:	Office of the City Attorney 100 East 11th Street, Suite 200 Chattanooga, TN 37402
If to the Provider:	To the address of Provider listed on the franchise ordinance from the City.

(Ord. No. 13267, § 5, 1-30-18)

Sec. 32-251. Nondiscrimination by Providers.

Provider will provide fair and equal opportunity to all qualified individuals based on merit and fitness and will not discriminate against any employee or applicant for employment because of age, sex, race, color, religion, disability, national origin, protected veteran or military status, sexual orientation, gender identity, ethnic origin, political affiliations, genetic information, marital status, or any other protected basis in accordance with applicable City ordinances and resolutions, State and Federal laws except where such category or class constitutes a bona fide occupational qualification. Provider will comply with all applicable City ordinances and resolutions, State and Federal laws regarding treatment of applicants and employees, including, to ensure that applicants are lawfully hired, and that employees are treated during employment, without regard to their age, sex, race, color, religion, disability, national origin, protected veteran or military status, sexual orientation, gender identity, ethnic origin, political affiliations, genetic information, marital status, or any other protected basis in accordance with applicable City ordinances and resolutions, State and Federal laws except where such category or class constitutes a bona fide occupational qualification. Such action shall include employment, upgrading, demotion, transfer, recruitment or recruitment advertising, layoff, termination, rates of pay or other forms of compensation, and selection for training, including apprenticeship. Provider shall post in conspicuous places, available to employees and applicants for employment, required notices under State and Federal laws regarding nondiscrimination in employment.
(Ord. No. 10377, § 1, 2-6-96; Ord. No. 13267, § 5, 1-30-18)

Sec. 32-252. No grant of use of other property.

Nothing in this Article or in a Provider's franchise shall be deemed to grant to any Provider any rights to work in, use or attach to any Alternative Structure, Base Station, Distributed Antenna System, Eligible Support Structure, Personal Wireless Service Facility, Small Cell Facility or Network, Support Structure, Telecommunications Facility, Tower, Transmission Equipment, or other facilities of the City, including Smart Poles, the Electric Power Board of the City of Chattanooga, AT&T formerly known as BellSouth or any other utility or entity occupying space in the public rights-of-way without the prior express written permission of any such entity. Such express written permission may take the form of, and include but not be limited to, a pole attachment agreement and/or a license or use agreement.
(Ord. No. 13267, § 5, 1-30-18)

Sec. 32-253. Severance clause.

If any material provision of this Article or of any franchise agreement for Telecommunications Services granted pursuant to it is held by a governmental authority of competent jurisdiction to be invalid or unlawful as conflicting with applicable laws now or hereafter in effect, or is held by a court of competent

jurisdiction or competent governmental authority to be modified in any way in order to conform to the requirements of any such applicable laws, such provision shall be considered a separate, distinct, and independent part of this Article or the franchise agreement for Telecommunications Services, and, to the extent possible, such holding shall not affect the validity and enforceability of all other provisions herein or therein.

Notwithstanding the foregoing, should the Telecommunications Franchise Fee in Section 32-248 be declared invalid or unlawful as conflicting with applicable laws now or hereafter in effect, or is held by a court of competent jurisdiction or competent governmental authority to be modified in any way in order to conform to the requirements of any such applicable laws, such holding shall render any franchises for Telecommunications Services void in its entirety and of no further force or effect but shall not affect the validity or enforceability of any other provisions in this Ordinance. Provider and the City thereafter shall undertake to negotiate a new franchise agreement compatible with any order of either a court of competent jurisdiction or a competent governmental authority.
(Ord. No. 13267, § 5, 1-30-18)

Sec. 32-254. Liabilities; penalties and other rights and remedies.

Except as expressly stated in this Article, the express or implied repeal or amendment by this Article of any ordinance or part thereof shall not affect any liabilities accrued, penalties incurred or proceedings begun prior to the effective date of this Article. Those liabilities and penalties are continued, and penalties shall be imposed and enforced under the repealed or amended ordinance as if this Article had not been adopted. The rights and remedies of City and the Provider as set forth in the franchise agreement, or in this Article, shall be in addition to and not in limitation of, any other rights and remedies provided by law or in equity.
(Ord. No. 13267, § 5, 1-30-18)

Sec. 32-255. Compliance with applicable laws and ordinances.

Franchisee shall, at all times during the term of its franchise, be subject to the provisions of the present Charter of the City, the present ordinances, resolutions, rules, regulations and laws of the City and the State of Tennessee, and to the provisions of any further charter, ordinance, resolution, rule, regulation or law of the City or of the State of Tennessee, so far as they may be applicable.
(Ord. No. 13267, § 5, 1-30-18)

Sec. 32-256. Joint planning and construction; coordination of planned excavations.

(a) Excavations in the City's rights-of-way interrupt, impede, and interfere with the public use of those rights-of-way and can damage the pavement and landscaping. The purpose of this Section 32-256 is to reduce this disruption, interference and damage by promoting better coordination among applicants for Telecommunications Franchises and Franchisees under this Article making Excavations in the City rights-of-way and the City. Better coordination will assist in minimizing the number of Excavations being made wherever feasible, and will ensure the Excavations in City rights-of-way are, to the maximum extent possible, performed before, rather than after, the resurfacing of the rights-of-way by the City. Better coordination will also benefit all users of the City's rights-of-way through cost sharing in excavation and restoration activities.

(b) Any Franchisee owning, operating or installing Telecommunications Facilities in the City right-of-way, shall meet annually with the Administrator of Chattanooga Department of Transportation ("Administrator"), at the Administrator's request to discuss Franchisee's master plan. At such meeting, to the extent not already in possession of the City, Franchisee shall submit documentation, in a form required by the Administrator, showing a location of Franchisee's existing Facilities in the City rights-of-way.

Franchisee shall discuss with the City any major Work anticipated in the City and work to prepare a Master Excavation Plan. As used in this subsection, the requirement to identify planned major Work refers to any major work planned to occur in the ensuing three (3) years. Between the annual meetings, Franchisee shall use its best efforts to timely inform the Administrator of any substantial changes in the planned major work discussed at the annual meeting.

(c) The Administrator shall review the Master Excavation Plan and identify conflicts and opportunities for coordination of Excavations. The Administrator shall notify applicants for Telecommunications Franchises under this Article and Franchisees of such conflicts and opportunities to the extent necessary to maximize coordination of Excavation. Each applicant and Franchisee shall coordinate, to the extent practicable, with each potentially affected applicant and Franchisee to minimize disruption in the rights-of-way.

(d) To the extent permissible under State law, the City shall not disclose to the public any confidential information contained in a Master Excavation Plan submitted by an applicant or Franchisee as set forth herein.

(e) The Administrator shall prepare a Repaving Plan showing the rights-of-way resurfacing work planned by the City along with a Sidewalk Improvement Plan for sidewalk Work planned by the City. The Repaving Plan and Sidewalk Plan shall be revised and updated on an annual basis. The Administrator shall make the City's Repaving Plan and Sidewalk Plan available for public inspection. In addition, after determining the City's rights-of-way resurfacing work and sidewalk work that are proposed for each year, the Administrator shall send a notice of the proposed work to all Franchisees and all pending applicants.
(Ord. No. 13267, § 5, 1-30-18)

Sec. 32-257. Wireless telecommunication advancement exception.

In keeping with the City's desires to continue to be on the forefront of technological advancement, the City may pursue, jointly, research grants and funding opportunities connected with research and the advancement of wireless telecommunication. Solely for purposes of this Chapter 32, the construction, installation, deployment, operation and maintenance of Telecommunications Facilities in the rights-of-way for non-commercial applications in the pursuit of the public good, shall require a combined annual application and franchise fee of only One Dollar ($1.00), notwithstanding the provisions of Sections 32-234 and 32-248.
(Ord. No. 13267, § 5, 1-30-18)

Sec. 32-258. Protection of trees.

Trimming of trees and shrubbery within the public right-of-way to prevent contact with Provider's Telecommunication Facilities shall be done only in accordance with the standards approved by the urban forester in accordance with the ordinances of City. Removal or pruning of any tree or shrub shall only be done upon issuance of a permit by the urban forester. When trees or shrubs in the public right-of-way are damaged as a result of work undertaken by or on behalf of Provider, Provider shall pay the City within thirty (30) days of submission of a statement by the City, the cost of any treatment required to preserve the tree or shrub and/or cost for removal and replacement of the tree or shrub with landscaping of equal value and/or the value of the tree or shrub prior to the damage or removal, as determined by the urban forester or other authorized agent of the City.
(Ord. No. 13267, § 5, 1-30-18)

Secs. 32-259—32-270. Reserved.

ARTICLE XII. STREET CONSTRUCTION

Sec. 32-271. Purpose.

The purpose of this Article is to provide specifications and procedures for acceptance of public streets, sewers, stormwater facilities, and other infrastructure dedicated to the public through subdivision plans or otherwise.
(Ord. No. 11451, § 1, 9-2-03; Ord. No. 11882, § 1, 9-5-06; Ord. No. 14093, § 1, 3-12-24)

Sec. 32-272. Conformity to official plans.

When a tract of land to be subdivided includes any part of a proposed road or street shown on the General Plan, Land Use Plan, Major Street Plan, or any other plan adopted by the Planning Commission or City Council, such street right-of-way should be platted by the subdivider in the location so designated, and at the width specified in the subdivision regulations.
(Ord. No. 11451, § 1, 9-2-03; Ord. No. 11882, § 1, 9-5-06; Ord. No. 14093, § 1, 3-12-24)

Sec. 32-273. Street design and construction standards.

(a) Pavement, cul-de-sac and right-of-way widths and radii must be per City of Chattanooga design and construction standards.

(b) The developer shall submit a pavement design prepared by a Tennessee licensed professional engineer for approval of the Transportation Division. For subdivisions that will be constructed in stages, the pavement design shall be based on the number of lots from all stages and on a field evaluation of the subgrade soils conducted by a Geotechnical Engineer.

The Geotechnical Engineer shall complete a field evaluation of the roadway before any roadway construction begins. The Geotechnical Engineer shall conduct a field exploration of the soils along the roadway alignment at a spacing of no greater than five hundred (500) feet and obtain samples of the subgrade soils for laboratory evaluation. A composite soil sample of each soil type shall be obtained and tested for plasticity (Atterberg limits, ASTM D4318) and standard Proctor moisture-density relationship (ASTM D698). California Bearing Ratio (ASTM D1883) tests shall be conducted on a composite sample representative of the soil conditions, as determined by the Geotechnical Engineer. The California Bearing Ratio (CBR) test shall be conducted on soaked samples.

(c) Preliminary or final plat approval by the Planning Commission does not constitute permission to begin any street or utility construction. Street and utility construction plans may be approved as a whole or in part. Construction of approved portions of the work shall not precede issuance of applicable Land Disturbing Activity Permits.

(d) Quality assurance during construction will be required. The developer shall select a Geotechnical Engineering firm from the current Tennessee Department of Transportation ("TDOT") approved list and notify the city of that selection. Geotechnical firms who wish to provide quality assurance, but are not on TDOT approval list, may submit Tennessee DOT Form DT-0330 Parts I and II for approval at the discretion of the Transportation Department. The geotechnical firm shall contract directly with the developer to provide quality assurance on the project. The developer shall be responsible for scheduling the geotechnical firm. Minimum testing requirements are described in this article. Location and scheduling of testing shall be coordinated with the City's representative for assurance of reasonable conformance with the requirements described in this article prior to performing tests to avoid the expense of retesting. Testing milestones shall be established during the Preconstruction Conference required in Section 32-288 (d) of this article. A final report by the geotechnical engineer that the quality assurance tests and inspections have been performed and the construction has been completed in substantial compliance with City of

Chattanooga design and construction standards, specifications, and applicable portions of subdivision regulations will be required before the plat is recorded. The final report shall be compiled in accordance with all applicable ASTM standards for geotechnical reporting. One (1) copy of the final report shall be given to the City.
(Ord. No. 11451, § 1, 9-2-03; Ord. No. 11737, § 1, 9-6-05; Ord. No. 11882, § 1, 9-5-06; Ord. No. 14093, § 1, 3-12-24)

Sec. 32-274. Grading.

(a) Before grading is started, the roadway construction area shall be cleared of conflicting trees, and all stumps, roots, weeds, logs, heavy vegetation, and other objectionable matter, and shall be grubbed to a depth below the proposed grade in cuts and the natural ground in fills so as to expose suitable subgrade. The cleared material shall be removed from within the right-of-way limits and disposed of in such a manner that it will not become incorporated within the fills, nor in any manner hinder proper operation of the storm drainage system.

(b) Suitable material may be used in the construction of embankments or at any other place needed. If rock is encountered, it shall be removed as determined by the geotechnical engineer. Where boulders are encountered, they should be removed 6 inches below the proposed grade. Onsite materials may be used, provided they are used according to the recommendations of the Geotechnical Engineer. If imported fill is used to construct road embankments, the materials shall meet the following requirements:

(1) Standard Proctor Maximum Dry Density ≥ one hundred (100) pounds per cubic foot within the top two (2) feet of finished subgrade elevation; or ninety-five (95) pounds per cubic foot below the top two (2) feet.

(2) Liquid Limit ≤ 60.

(3) Plasticity Index ≤ 35.

(Ord. No. 11451, § 1, 9-2-03; Ord. No. 11882, § 1, 9-5-06; Ord. No. 12824, § 1, 3-25-14; Ord. No. 14093, § 1, 3-12-24)

Sec. 32-275. Utility construction.

(a) Prior to any base material being placed, all underground work that is to be within the right-of-way or the right-of-way subgrade shall be completed and backfilled with stone, if necessary. This includes all drainage, sewerage, water, telephone, electrical, gas, cable television, and other utilities to the end that the completed roadway will not be disturbed for the installation of any utility main or service connection for any utility.

(b) Sanitary sewer shall be constructed in accordance with City of Chattanooga Design and Construction standards and Tennessee Department of Environmental Health requirements.

(c) Storm sewers shall be constructed in accordance with Best Management Practices (BMP) and City of Chattanooga design and construction standards.

(d) All underground utility conduits and piping shall be installed prior to proof rolling and placement of base material. Installation and backfill shall be observed by the Geotechnical Engineer. In the event all utility construction is not complete due to circumstances beyond the control of the developer and/or contractor, proof rolling and placement of base material may begin subject to completion of all underground conduits and piping beneath the road and two (2) feet beyond the edge the proposed base material. A City representative will be present for up to two (2) sanitary sewer tests. One (1) test will be performed prior to proof rolling and placement of base material. A second test will be performed after all utility construction within the right-of-way is complete. In the event all utility construction is complete prior to the first test, only one (1) test will be performed.

(e) Utility trenches shall be backfilled with either crushed rock, soil, or flowable fill according to the following requirements:

(1) Bedding: All utility trenches shall be bedded with a six (6) inch layer of either open-graded crushed rock or sand. Bedding shall be placed and compacted using a vibratory compactor. Where necessary, bell holes shall be cut into the bedding at pipe joints locations.

(2) Initial Fill: After the utility line has been placed, the utility trench shall be backfilled with open graded crushed rock or sand to at least twelve (12) inches over the top of the utility. The backfill shall be compacted using a vibratory compactor.

(3) Secondary Fill: From twelve (12) inches over the top of the utility to eighteen (18) inches below the subgrade elevation, the utility trench may be backfilled with either open-graded crushed rock, sand, or soil fill. Sand or soil backfill shall be placed in maximum one (1) foot layers and compacted. Sand or soil backfill shall be compacted to achieve at least ninety-five percent (95%) of the standard Proctor maximum dry density. Density tests shall be conducted for every one (1) foot layer of backfill at a frequency of one (1) test per one hundred (100) feet for utilities running along the longitudinal axis of the road, or one (1) test for utilities crossing the road. Open-graded crushed rock backfill does not require compaction in lifts, but must be consolidated using vibratory compaction equipment. The placement and consolidation must be observed by the geotechnical engineer.

(4) Final Backfill: The final eighteen (18) inches of the utility trench backfill shall be backfilled with dense-graded crushed rock. The backfill shall be compacted to achieve at least ninety-five percent (95%) of the standard Proctor maximum dry density. Density tests shall be conducted at a frequency of one (1) test per fifty (50) feet for utilities running along the longitudinal axis of the road, or two (2) tests for utilities crossing the road.

(5) Flowable fill: Flowable fill may be used as backfill for utility trenches. The material shall be designed to achieve a compressive strength of one hundred fifty (150) to five hundred (500) psi. The material shall meet the requirements of ACI 229R-99, Standard Specifications for Controlled Low Strength Cementitious Materials. Flowable fill may be used instead of the secondary fill and the final backfill. The material supplier shall submit a mix design verified by an independent testing laboratory within the past six (6) months.

(Ord. No. 11451, § 1, 9-2-03; Ord. No. 11882, § 1, 9-5-06; Ord. No. 14093, § 1, 3-12-24)

Sec. 32-276. Subgrade.

(a) All contractors must contact the Geotechnical Engineer prior to beginning subgrade work. This is imperative or the work may not be accepted.

(b) The Subgrade shall be prepared to the lines and grades as designed and staked by the Subdivision Engineer and to correspond to the cross section as indicated on the typical cross section approved by the Transportation Department.

(c) After the subgrade has been graded and shaped, it shall be scarified to a depth of eight (8) inches, then re-compacted to achieve a density of at least ninety-eight percent (98%) of the standard Proctor (ASTM D698) maximum dry density. The moisture content shall be within three percent (3%) of the optimum moisture content. The Geotechnical Engineer will conduct field density tests at a spacing of not more than one hundred (100) feet, staggered right and left of the centerline, with a minimum of three (3) tests. Any areas that do not meet compaction requirements shall be re-compacted and retested.

(d) If an existing subgrade passes both the proof rolling and density tests, then scarifying and re-compacting will not be required. Proof rolling shall be performed using a fully-loaded, dual-tandem dump truck. The subgrade shall be trafficked by parallel passes of the truck starting at one (1) side of the roadway. Each pass shall overlap the preceding pass to ensure complete coverage. Two (2) complete proof rolling coverages are required.
(Ord. No. 11451, § 1, 9-2-03; Ord. No. 11882, § 1, 9-5-06; Ord. No. 12823, § 1, 3-25-14; Ord. No. 14093, § 1, 3-12-24)

Sec. 32-277. Fill and embankments.

(a) Any roadway embankment steeper than a three (3) to one (1) slope, shall be specially designed by a geotechnical engineer and then built to design specifications.

(b) The embankment shall be protected from erosion using stormwater Best Management Practices.

(c) Areas requiring two (2) feet or more of fill shall be observed and tested by the Geotechnical Engineer. Fill shall be placed in level lifts, thickness of loose lifts shall not exceed eight (8) inches, and compacted to at least ninety-five percent (95%) of the standard Proctor maximum dry density. The moisture content shall be within three percent (3%) of the optimum moisture content. The Geotechnical Engineer shall conduct field density tests for each one (1) foot layer of fill placed. Testing frequency shall be at least one (1) test per ten thousand (10,000) square feet, or one (1) test every two hundred (200) feet along the roadway centerline, staggered left and right of the centerline. A minimum of three (3) tests is required for each one (1) foot layer. Any areas that do not meet compaction requirements shall be re-compacted and retested.
(Ord. No. 11451, § 1, 9-2-03; Ord. No. 11882, § 1, 9-5-06; Ord. No. 14093, § 1, 3-12-24)

Sec. 32-278. Base.

(a) All contractors must contact the Geotechnical Engineer prior to beginning the base operation. This is imperative or the work may not be accepted.

(b) Before placing base material, the subgrade shall be proof-rolled in the presence of the Geotechnical Engineer. Proof-rolling shall be performed using a fully-loaded, dual-tandem dump truck. The subgrade shall be trafficked by parallel passes of the truck starting at one (1) side of the roadway. Each pass shall overlap the preceding pass to ensure complete coverage of the roadway cross-section. Two (2) complete proof-rolling coverages are required. Any areas that deflect or yield, in the opinion of the Geotechnical Engineer, shall be corrected before base material is placed.

(c) Base material shall be a dense-graded mineral aggregate base meeting the requirements of the Tennessee Department of Transportation "Standard Specifications for Road and Bridge Construction" section 303, Type A Grade D. The contractor shall provide a letter of certification from the base material supplier that the materials meet these requirements. Other types of base material may be used, if included in a design by a professional engineer and approved by the Geotechnical Engineer and the Transportation Department. The base material shall be compacted to at least ninety-five percent (95%) of the standard Proctor maximum dry density.

(d) The base will be tested for thickness and compaction by the Geotechnical Engineer. Tests will be conducted at a maximum spacing of two hundred (200) feet, staggered right and left of the centerline.

(e) Tolerances for base thickness. The minimum base design thickness shall be in accordance with the City of Chattanooga Standard Drawings. The average of all measurements shall be greater than or equal to the design thickness. Any test that is less than the design thickness, but no more than one-half (0.5) inches

less than the design thickness, may be evaluated by the Geotechnical Engineer for acceptance or for corrective actions. Any test that is more than one-half (0.5) inches below the design thickness will require corrective actions.
(Ord. No. 11451, § 1, 9-2-03; Ord. No. 11882, § 1, 9-5-06; Ord. No. 12823, § 1, 3-25-14; Ord. No. 14093, § 1, 3-12-24)

Sec. 32-279. Prime.

(a) After the base course has been thoroughly compacted and worked to the lines and grades as shown on the typical cross section, it shall be dampened if necessary.

(b) TDOT approved Asphalt Emulsion primers may be used. Application shall be in accordance with manufacturers recommendations.

(c) The type and grade of prime material shall depend on the condition of the base course and shall be approved by the Geotechnical Engineer and the City. The prime coat may be eliminated if approved by the Geotechnical Engineer and the City.
(Ord. No. 11451, § 1, 9-2-03; Ord. No. 11882, § 1, 9-5-06; Ord. No. 14093, § 1, 3-12-24)

Sec. 32-280. Binder.

(a) Contractors must contact the Geotechnical Engineer prior to beginning the binder course installation. This is imperative or the work may not be accepted.

(b) The binder asphalt shall be placed over the prime coat. The binder asphalt shall be compacted to an average density of at least ninety-two percent (92%) of the theoretical maximum density as determined by the Marshall method (fifty (50) blows), with no individual test less than ninety percent (90%). The theoretical maximum density shall be provided by the asphalt binder supplier. The Geotechnical Engineer will test the thickness and compaction by obtaining cores every five hundred (500) feet, or a minimum of three (3) cores. If any area does not meet the minimum thickness or compaction requirements, additional cores will be taken at one hundred (100) foot intervals until two consecutive cores meet the requirements. Areas that do not meet the requirements shall be removed and replaced. As an option, the Geotechnical Engineer can be present during construction to check the laydown thickness and temperature of the asphalt and to conduct nuclear density tests after compaction. In this case, coring will be reduced to three (3) cores or one (1) every two thousand (2,000) feet. In any case, a minimum of three (3) cores will be required.

(c) The binder asphalt shall meet the requirements of TDOT standard specifications section 307. Either 307B, 307BM or 307BM-2 mixes may be used. The minimum binder design thickness shall be in accordance with the City of Chattanooga Standard Drawings. .

(d) Binder thickness tolerances. The average thickness of the binder shall be greater than or equal to the design thickness, with no individual test more than one-quarter (¼) inch less than the design thickness. Areas deficient in thickness shall be evaluated by additional coring at one hundred (100) foot intervals to determine the area of deficient thickness. The deficiency may be corrected by increasing the thickness of the surface asphalt.
(Ord. No. 11451, § 1, 9-2-03; Ord. No. 11882, § 1, 9-5-06; Ord. No. 14093, § 1, 3-12-24)

Sec. 32-281. Backfill curbs.

Backfill behind curbs shall be completed promptly after the curbs are installed. Until the backfill behind curbs is completed, measures should be taken to minimize infiltration of water to the pavement sub grade.

Careful attention must be given to slope of backfill to prevent water penetration behind curbs. Curbs shall be installed in accordance with standard City specifications as established by the Transportation Department.
(Ord. No. 11451, § 1, 9-2-03; Ord. No. 11882, § 1, 9-5-06; Ord. No. 12823, § 1, 3-25-14; Ord. No. 14093, § 1, 3-12-24)

Sec. 32-282. Tack coat.

A tack coat shall be applied over the binder before placing the surface asphalt. The tack coat shall be CRS-2 emulsified asphalt, applied at a rate of five-hundredths (0.05) gallons per square yard of residual bituminous material. Other tack materials may be used or the tack coat may be eliminated, if approved by the Geotechnical Engineer and the City.
(Ord. No. 11451, § 1, 9-2-03; Ord. No. 11882, § 1, 9-5-06; Ord. No. 14093, § 1, 3-12-24)

Sec. 32-283. Surface.

(a) The surface asphalt shall be placed over the binder asphalt as soon as possible, but no more than ten (10) days after placing the binder, to avoid rainwater infiltration and to prevent damage from truck traffic. The time may be extended at the Transportation Department's discretion to deal with unusual circumstances, so long as the road continues to meet the structural requirements of this regulation. The surface asphalt shall be compacted to an average density of at least ninety-two percent (92%) of the theoretical maximum density as determined by the Marshall method (fifty (50) blows), with no individual test less than ninety percent (90%). The theoretical maximum density shall be provided by the asphalt surface supplier. The Geotechnical Engineer will test the thickness and compaction by obtaining cores every five hundred (500) feet, or a minimum of three (3) cores. Areas that do not meet the requirements shall be removed and replaced. As an option, the Geotechnical Engineer can be present during construction to check the laydown thickness and temperature of the asphalt and to conduct nuclear density tests after compaction. In this case, coring will be reduced to three (3) cores or one (1) every two thousand (2,000) feet. In any case, a minimum of three (3) cores will be required.

(b) The surface asphalt shall meet the requirements of TDOT standard specifications section 411. The minimum design thickness of the surface asphalt shall be in accordance with the City of Chattanooga Standard Drawings.

Asphalt thickness tolerances. The average thickness of the asphalt (binder plus surface) shall be greater than or equal to the design thickness, with no individual test more than one-eight (⅛) inch less than the design thickness. Areas deficient in thickness shall be evaluated by additional coring at one hundred (100) foot intervals to determine the area of deficient thickness. Deficient areas shall be corrected.
(Ord. No. 11451, § 1, 9-2-03; Ord. No. 11882, § 1, 9-5-06; Ord. No. 12823, § 1, 3-25-14; Ord. No. 14093, § 1, 3-12-24)

Sec. 32-284. Seasonal limitations of asphalt.

The outside temperature away from artificial heat and in the shade shall be forty degrees (40°) and rising for plant mix.
(Ord. No. 11451, § 1, 9-2-03; Ord. No. 11882, § 1, 9-5-06; Ord. No. 14093, § 1, 3-12-24)

Sec. 32-285. "As built" drawings.

(a) Upon completion of the construction of the required improvements, and prior to final acceptance by the Transportation Department, the developer will furnish "As Built" drawings of all sanitary sewer and stormwater structures. A registered professional engineer or surveyor will certify that the information furnished is a true and complete representation of the improvements that were constructed by the

developer. The "As Built" drawings shall be furnished in electronic format, and shall be the true and accurate location and elevation of the structures shown, with a positional tolerance of seven-hundredths (0.07) feet horizontal and fourteen-hundredths (0.14) feet vertical. English units and NAD 83 State Plane co-ordinates shall be used. Structures shall be identified by the number shown on the drawing or provided by the engineer. The electronic file, in ASCII format, shall provide the following minimum information for sanitary sewer manholes and drainage structures, including drainage manholes:

(1) Sanitary Sewer Manhole or Drainage Structure Number;

(2) Northing, Easting, and Rim Elevation;

(3) Invert Elevation; and

(4) Size, material, and direction for each pipe entering and leaving the sanitary sewer manhole or drainage structure.

(b) All drainage structures and sanitary sewer manholes shall be located by the center of the structure or the manhole cover when fully seated.

(c) The electronic file, in ASCII format, shall provide the following minimum information for stormwater detention basins when constructed as part of the development;

(1) Detention Basin Number;

(2) Northing, Easting, and Elevation of limits of detention basin;

(3) Northing, Easting, and Elevation of bottom of detention basin;

(4) Northing, Easting, and Elevation of corners of overflow structure; and

(5) Invert Elevation, size, material, and direction for each pipe entering and leaving the detention basin.

Prior to final acceptance by the Transportation Department and/or issuance of any Certificate of Occupancy, all new developments, redevelopments, and/or additions shall submit an inventory of the constructed stormwater drainage system, whether public or private, to the City of Chattanooga in electronic format. Electronic As-Built drawings shall be submitted in AutoCAD and .pdf format and shall show plainly the approved and constructed layout of the stormwater systems at the associated site. The as-built drawing shall include all stormwater features on the development, whether new or existing, including the outfall to the City drainage system (ex: catch basins, conduits, hydrologic features including ponds, streams, culvert inlets and outfalls, and all pervious surfaces, etc.).

Certain engineered water quality conveyances such as engineered swales and grass filter strips have a required slope and cross section to give maximum water quality benefits for the area and will therefore also require as-built cross sections to determine if they are built per designed specifications.

As-Built Drawings shall at a minimum comply with the following items:

• A registered professional engineer or surveyor will certify that the information furnished is a true and complete representation of the improvements that were constructed by the developer.

• The design engineer shall certify that the information reflects the original design or is an approved substitute for the original design by completing the As-Built Detention Facility Engineer's Certification Form (Attached).

• The As-Built drawings shall be furnished in electronic format (both an AutoCAD R13 or greater and a .pdf file shall be required) and shall be the true and accurate location and elevation of the structures shown, with a positional tolerance of seven-hundredths (0.07) feet horizontal and fourteen-hundredths (0.14) feet vertical.

• English units and NAD 83 State Plane co-ordinates shall be used. ASCII format may be used if the table is included in the drawing.

• All drainage structures and manholes shall be located by the center of the structure or the manhole cover when fully seated.

• Drainage features (including drainage manholes) shall at a minimum include the following:

(1) Drainage Structure Number;

(2) Drainage Structure Label (ex: oil skimmer, water quality unit type/model, etc.);

(3) Northing, Easting, and Rim Elevation;

(4) Invert Elevations;

(5) Size, Material, and Direction of flow for each pipe entering and leaving the drainage feature; and

(6) Detail drawings of water quality features including but not limited to profiles, contours, and elevations (ex: bio-retention areas, swales, grass filter strips, etc.).

• Detention systems shall at a minimum include the following:

(1) Detention System Number;

(2) Northing, Easting, and Elevation of the limits, corners, and bottom of detention systems;

(3) Invert Elevation, Size, Material, and Direction of flow for each pipe entering and leaving the detention system;

(4) Detail drawing for all outlet control and emergency overflow structures;

(5) Detail drawing for any other detention systems as necessary (ex: underground detention system); and

(6) Required and provided detention storage volume.

(Ord. No. 11451, § 1, 9-2-03; Ord. No. 11882, § 1, 9-5-06; Ord. No. 12606, § 1, 5-29-12; Ord. No. 12823, § 1, 3-25-14; Ord. No. 14093, § 1, 3-12-24)

Sec. 32-286. Geotextiles.

Geotextiles may be incorporated into pavement designs if necessary for subgrade soil conditions. Geotextiles shall meet the requirements of AASHTO M288-96 (or more recent editions). Geotextiles shall meet MARV strength values for Class 2 if the subgrade CBR three (3) and Class 1 for CBR ≤ three (3).
(Ord. No. 11451, § 1, 9-2-03; Ord. No. 11882, § 1, 9-5-06; Ord. No. 14093, § 1, 3-12-24)

Sec. 32-287. Optional rigid pavements.

The developer may choose to construct (concrete) rigid pavements instead of flexible (asphalt) pavements. Rigid pavement shall be designed and constructed to meet the following requirements:

(a) Grading: The grading requirements shall be the same as Section 32-274, except the requirements for liquid limit and plastic index are not applicable. The soils shall have a minimum CBR of three (3).

(b) Subgrade: The subgrade requirements shall be the same as Section 32-276

(c) Base: The base requirements shall be the same as Section 32-278. The base thickness shall be a minimum of four (4) inches.

(d) Concrete Mix: The concrete mix shall be designed to provide a twenty-eight (28) day compressive strength of four thousand (4,000) pounds per square inch with a four (4) inch (± 1) slump and

maximum water cement ration of forty-five-hundredths (0.45). An air entraining agent shall be added to achieve a five percent (5%) air content. The concrete mix shall have a nominal maximum aggregate size of one and one-half (1½) inches.

(e) Concrete Design: The concrete thickness shall be six (6) inches. Reinforcing is not required. Control joints shall be spaced regularly in a square pattern as per the PCA recommendations. A longitudinal joint shall be constructed along the centerline. Lateral joints shall be spaced the same as the lane width. Joints shall be sealed using an approved joint sealer. The joint sealer shall be submitted to the Geotechnical Engineer for approval before installation.

(f) Concrete Placement: Concrete placement shall be according to ACI 304 Recommended Practice for Measuring, Mixing, Transporting, and Placing Concrete. Concrete shall be placed directly on the base. The ambient temperature at the time of placement shall be at least forty degrees (40°) F, and the forecast temperature in the first twenty-four (24) hours after placement shall be at least thirty-two degrees (32°). No standing water or frozen base shall be present at the time of placement. The concrete mix is expected to arrive at the site at the correct slump. If trucks arrive with a slump more than one (1) inch below the specified slump, then a maximum of twenty (20) gallons of water may be added, with the approval of the concrete supplier, to adjust the concrete slump. No water may be added after placement begins. If trucks arrive with a slump more than one (1) inch above the specified slump, the truckload shall be rejected. Concrete shall be placed within ninety (90) minutes of the batch time.

(g) Concrete Protection and Curing:

(1) Protect freshly placed concrete from premature drying and excessive cold or hot temperatures. Comply with ACI 306.1 for cold-weather protection and with ACI 305R for hot-weather protection.

(2) Curing shall be accomplished in strict compliance with ACI 308.

(h) Finish: The concrete finish shall provide a durable, smooth surface, free of irregularities, but skid-resistant (such as burlap drag or broom finish).

(i) Quality Assurance: An ACI certified representative of the geotechnical engineer shall be present to monitor concrete placement and conduct quality assurance testing. The representative shall keep a record of each truck load of concrete delivered to the site, including the information provided on the batch ticket and the amount of water added at the site. The first load of concrete shall be checked for slump, air content, and unit weight to determine acceptance. Compressive strength samples shall be taken randomly from the first thirty (30) cubic yards, and every fifty (50) cubic yards after that. Compressive strength samples shall include a set of six (6) cylinders. Two (2) cylinders shall be tested at seven (7) days and two (2) at twenty-eight (28) days and two (2) for reserve. The remaining cylinder shall be kept in reserve. Slump and air content tests shall be conducted for each set of compressive strength samples taken, or if visual indications of changes in the slump or other concrete properties are observed.

(Ord. No. 11451, § 1, 9-2-03; Ord. No. 11882, § 1, 9-5-06; Ord. No. 14093, § 1, 3-12-24)

Sec. 32-288. Plan review and preconstruction conference.

(a) Prior to any street or utility construction, five (5) sets of engineering plans for road and utility construction shall be submitted to the Development Office to be stamped with a sign-off block for each department reviewing these five (5) sets of proposed plans.

(b) The design engineer shall make any revisions or changes required by the various reviewers to bring the proposed design into conformance with the City of Chattanooga design and construction standards and the City of Chattanooga Subdivision Regulations. The design engineer should then affix his seal and signature to the five (5) revised plans and return these revised plans to the Development Office for final review and approval.

(c) N.P.D.E.S., A.R.A.P., T.V.A, Corps of Engineers, and other required permits and approvals, if necessary, should accompany these revised plans.

(d) A preconstruction conference shall be held prior to beginning construction on a new subdivision involving street construction work, sanitary sewer, or stormwater facilities. The conference shall be attended by the developer, the contractors, a representative of the City, and the geotechnical engineer.
(Ord. No. 11451, § 1, 9-2-03; Ord. No. 11882, § 1, 9-5-06; Ord. No. 14093, § 1, 3-12-24)

Secs. 32-289—32-299. Reserved.

ARTICLE XIII. CHATTANOOGA TREE ORDINANCE*

DIVISION 1. GENERAL

Sec. 32-300. Title.

This article shall be known and may be cited as the Chattanooga Tree Ordinance.
(Ord. No. 14217, § 1, 4-8-25)

Sec. 32-301. Purpose.

The purpose of this ordinance is to encourage the planting, preservation, and proper care of trees and tree canopy within the City of Chattanooga because of the unique social, economic and environmental benefits they provide the community such as assisting the natural control of solar heat, improving water quality, soil conservation, stormwater control and flood resiliency, air pollution and noise abatement, providing a haven for community wildlife and in providing residents relief from the increasing complexities of the man-made urban environment. Urban trees are a fragile public resource and may be damaged or destroyed through malicious, careless, or even well-intentioned actions. This public resource may best be improved and protected by a program of comprehensive management and regulation of planting, maintenance, and removal, administered by an office within municipal government. This program shall be known as the "Urban Forestry Program," and shall be housed in the Department of Public Works.
(Ord. No. 14217, § 1, 4-8-25)

Sec. 32-302. Definitions.

For the purpose of this Article the following terms, phrases, words, and their derivations shall have the meanings given herein. When not inconsistent with the context, words used in the present tense include the future, words in the plural include the singular, and words in the singular include the plural. The word "shall" is mandatory and not merely directory.

***Editor's note—**Ord. No. 14217, § 1, adopted April 8, 2025, repealed the former Art. XIII., §§ 32-300—32-319, and enacted a new Art. XIII as set out herein. The former Art. XIII pertained to similar subject matter and derived from Ord. No. 9315, § 1, adopted Jan. 30, 1990; Ord. No. 12619, § 2, adopted June 26, 2012; Ord. No. 12823, § 1, adopted March 25, 2014.

Caliper — trunk diameter measurement for nursery stock, made at six (6) inches above grade.

City — the City of Chattanooga, Tennessee.

City Forester — the City Forester or other qualified designated official of the City of Chattanooga, assigned to carry out the enforcement of this Article.

City Property — all real property which is owned or leased by the City or which is maintained by it, or any part of any public right-of-way.

Critical Root Zone (CRZ) — area around a tree defined by a radius extending from the trunk of the tree a distance twelve times the tree's DBH. This equates to one foot of CRZ radius for every inch of DBH.

Dead, Diseased, or Hazardous (DDH) — describes a tree that is dead, or diseased or injured to the extent that death is imminent within two years, as determined by the City Forester, or is in imminent danger of falling, or is so close to existing or proposed buildings so as to endanger them, or physically interferes with utility services in a manner that cannot be corrected by anything less than destruction or removal of the tree, or creates unsafe vehicular visual clearance, or is otherwise deemed a hazard by the City Forester or designee.

Diameter at Breast Height (DBH) — diameter measurement for existing trees, made at four and one-half (4.5) feet above the ground.

Landscape tree — A tree within a regularly maintained area, including turf, mulched beds, landscaped beds, or other maintained plantings.

Limits of Disturbance (LOD) — Boundary on all construction and development plan submissions including Civil and Landscape plans delineating the full extent of soil disturbance and associated construction activities, including areas of grading, storage, temporary construction parking, and equipment travel. The boundary shall be shown graphically as a thick dashed line and labeled.

Notable tree — Any tree meeting criteria for size and community significance as outlined in section 32-317(b), and which has been nominated to and accepted by the Tree Commission as such.

Offset Payment — fee assessed for Private Property Trees when fewer total caliper inches are provisioned than required. Payment is calculated using the Tree Replacement Fee

On-Site Trees — Trees required by the Landscape Ordinance to be planted on private property adjoining the City of Chattanooga public right-of-way.

Park — shall include all public parks having individual names.

Planting Plan — a scaled drawing depicting all plant materials, specifications, and any other information required by the City Forester for the evaluation of permit applications.

Plant Material Standards - generally accepted standards for plant material size and condition as defined in the current edition of the American Standard for Nursery Stock (ANSI Z60.1).

Prohibited Tree — Any tree listed on the Tennessee Invasive Plant Council's Invasive Plants of Tennessee list.

Property Owner — shall mean the person owning property as shown by the Hamilton County Assessor of Property and/or the Hamilton County Register of Deeds.

Protected Tree — A tree which may not be removed or disturbed without a permit. This category includes most Public Property Trees as specified in this Article, and Notable Trees on private property.

Pruning Standards — generally accepted standards for pruning as defined in the current edition of American National Standards Institute ANSI A-300 and the current ISA Companion booklet: Best Management Practices — Tree Pruning.

Public Property Tree — shall include any tree now or hereafter growing on any City street, park, or other City-owned property. This definition includes Street Trees, Landscape Trees, and trees in Wooded Areas growing on City property.

Private Property Tree — shall include any proposed or existing trees now or hereafter growing on private property used to meet any City of Chattanooga Landscape or Zoning ordinance or condition.

Recompense Payment — fee assessed for permitted removal of or significant disturbance to Public Property Trees, as specified in this Article. Payment is calculated using the Tree Replacement Fee

Right-of-way — land lying between property lines on either side of streets, avenues, or ways within the City.

Right-of-way trees — trees, shrubs, and all other woody vegetation growing with a City right of-way.

Streetscape — City of Chattanooga public right-of-way infrastructure, which may include trees, pedestrian lighting, sidewalks, crosswalks, ADA ramps, and/or curb and gutter. The Department of Public Works may require streetscapes to be improved by adjoining property owners as a condition of redevelopment.

Street Trees — trees growing between the sidewalk and curb, either in a tree well, verge, or planter, or in a tree well surrounded by a sidewalk on three sides.

Structural Root Zone — area within the Critical Root Zone defined by a radius extending from the trunk of the tree a distance three times the tree's DBH.

Topping — the severe and/or indiscriminate cutting back of limbs or trunks within the canopy of a tree so as to remove the normal canopy and disfigure the tree.

Timber Harvesting Plan — A plan submitted to the City that provides information on landowner, timber owner, timber operator, specific management practices and objectives, reforestation techniques, and other supporting information needed to demonstrate that a timber harvest operation will follow best management practices as set forth by the Tennessee Department of Agriculture, Division of Forestry.

Tree — for purposes of this article only, trees shall be considered to be self-supporting plants of woody structure with an anticipated mature height of at least sixteen (16) feet.

Tree Bank — account maintained by the Public Works Land Development Office to collect all Tree Ordinance related fees and fines, to be used for tree planting, maintenance, and other urban forestry-related expenses.

Tree Canopy — the layer of leaves, branches, and stems of trees that cover the ground when viewed from above. Tree Canopy may be estimated from recent orthophotography and determined most accurately from the City of Chattanooga's most recent Tree Canopy Assessment.

Tree Canopy Assessment — GIS measurement of tree canopy within the City of Chattanooga developed from algorithmic classification of satellite imagery, orthophotography, lidar, or a combination of these data sources.

Tree Canopy Line — the outer edge of Tree Canopy as viewed from above using remotely sensed data, or on the ground looking up, and accurately represented on a Tree Survey.

Tree Replacement Fee — fee set by City Council as a specific cost per inch of trunk diameter, approximating the Urban Forestry Program's average costs for tree planting and establishment. See fee table in [31-322].

Tree Protection Fencing — Fencing constructed around the Critical Root Zone of a tree, or the edge of a tree well, during construction, intended to protect the tree from trunk wounds and soil compaction.

Tree Protection Best Management Practices (BMPs) for Contractors and Builders Technical Guide (City of Chattanooga) — a published reference for tree protection, care, and maintenance during construction.

Tree Survey — A scaled plan accurately locating trees and other requirements as specified in this Article, part of development plan submissions.

Tree Well — Sidewalk cutout for street tree planting, with hardscape on at least three sides. Synonymous with: Tree pit, cutout.

Tree Work — The act of planting, pruning, trimming, fertilizing, treating, removing, or any other action upon or affecting a tree.

Urban Forestry Program — a proactive program for managing trees within the City as a public resource, made up of City Forester, professional staff, supervisory staff, and skilled workers.

Verge — that part of a street or highway, not covered by sidewalk or other paving, lying between the property line and that portion of the street or highway usually used for vehicular traffic. Synonymous with: Treelawn, planting, strip, utility strip.

Wooded — describes land covered by a thick growth of trees at least sixteen (16) feet tall and an unmaintained natural ground layer.
(Ord. No. 14217, § 1, 4-8-25)

Sec. 32-303. Establishment of a Tree Commission.

(a) There shall be created a commission to be known and designated as the "Chattanooga Tree Commission" composed of nine (9) persons, who shall be residents of the City of Chattanooga or of Hamilton County. Said members shall be appointed by the mayor with approval a majority of the City Council and shall have at least five (5) members who are professionally trained in related fields as an Arborist, Landscape Architect, Biologist, Realtor/Developer/Home Builder or General Contractor, and an Engineer/Architect/Surveyor. The City Forester, and other professionals designated by the City Forester shall serve as advisors to the Commission. All members of the Commission shall serve without pay. The members shall be appointed for a term of four (4) years and serve until their successors are duly appointed and approved by the City Council. Successors to those members appointed by the Mayor shall thereafter be appointed for terms of four (4) years. Vacancies caused by death, resignation, or otherwise, shall be filled for the unexpired term in the same manner as original appointments are made.

(b) *Organization.* Within a reasonable time after the appointment of said Commission and approval of the members thereof, upon call of the Mayor, the Commission shall meet and organize by election of a chair, a vice chair and a secretary. The Commission shall then provide adoption of rules and procedures and for holding of regular and special meetings as the Commission shall deem advisable and necessary in order to perform the duties set forth.

(c) *Duties.*

(1) The Commission shall study the problems and determine the needs of the City of Chattanooga in connection with its urban forestry program and report from time to time to the Governing Body

of the City as to desirable legislation concerning the tree program and related activities for the City. The Commission shall also make annual recommendations to City Council regarding changes in tree-related fees and/or changes to this ordinance.

(2) The Commission shall evaluate and recommend to the Administrator of Public Works candidates for the office of City Forester.

(3) The Commission shall assist the properly constituted officials of the City, as well as the Governing Body and citizens of the City, in the dissemination of news and information regarding the selection, planting, and maintenance of trees within the incorporated city limits, whether they be on private or public property.

(4) The Commission shall provide prior notice and maintain minutes of all regular and special meetings pursuant to Tennessee law at which the subject of trees, insofar as it relates to the City, may be discussed by the members of the Commission, officers and personnel of the City and its several divisions, and all others interested in the urban forestry program.

(5) The Commission shall hear and decide appeals from permitting decisions of the City Forester as set forth in Sec. 32-306. Any appeal from the actions of the Commission shall be filed in writing within thirty (30) days of the action of the Tree Commission with the Land Development Office of the City to be considered by the Board of Zoning Appeals.

(6) The Commission shall hear cases regarding alleged violations of this Article and shall make written findings of facts and recommendations for abatement and/or civil penalty for each alleged violation. The alleged violator may voluntarily follow the recommendations of the Commission or may seek to have their case considered by the Administrative Hearing Officer by filing a notice with the City Forester.

(Ord. No. 14217, § 1, 4-8-25)

Sec. 32-304. Establishment of the position of City Forester.

(a) *Appointment.* The City Forester shall be employed by the City of Chattanooga upon recommendation by the Administrator of Public Works. They shall be a person skilled and trained in the arts and sciences of municipal arboriculture, and shall hold a college degree in urban forestry, arboriculture, ornamental or landscape horticulture, or other closely related field. He or she shall have had at least six (6) years' experience in municipal urban forestry work or its equivalent. The office of the City Forester shall be an administrative unit of the Department of Public Works. Should the office of City Forester be vacant, the authority of that office shall be transferred to a designee determined by the Administrator of the Department of Public Works until such time as the City Forester position is filled.

(b) *Duties and Authority.*

(1) *General.* The City Forester shall have the authority and jurisdiction of regulating the planting, maintenance, and removal of trees on streets and other publicly owned property to ensure safety or preserve the aesthetics of such public sites. The City Forester shall promulgate the rules and regulations of the Arboricultural Specifications and Standards of Practice governing the planting, maintenance, removal, fertilization, pruning, and bracing of trees on the streets, parks and other public places in the City, and shall direct, regulate, and control the planting, maintenance and removal of all trees growing now or hereafter in any public area of the City. He or she shall cause the provisions of this Article to be enforced. The City Forester shall coordinate with the Public Works Department officials in matters concerning trees which may be a hazard to traffic safety. The City Forester shall also coordinate with the Public Works Department officials in matters related to streetscape of public right-of-way.

(2) *Permit Authority.* The Land Development Office shall administer the Tree Permit. The City Forester, or their designee, shall have the authority to approve or deny permits for planting, maintenance, and/or removal of Public Property Trees. It shall also be his or her duty to supervise or inspect all work done under a permit issued in accordance with the terms of this Article.

(3) *Urban Forestry Planning.* The urban forester shall have the authority to formulate and amend urban forestry design and management planning documents as needed, conduct and maintain a tree inventory, and create other relevant documents for the urban forestry program with the advice and assistance of the Chattanooga Tree Commission.

(4) The City Forester and designated staff shall be appointed as special police officers of the City only after written request by the City Forester, successful completion of a background investigation, and approval by resolution of the City Council. After being sworn by a judge of the Chattanooga City Court ("City Court"), the holders of such special police commissions shall have, possess and exercise every power granted by such commissions, but such special police officers shall not be treated or classified as regular police officers of the City.

(Ord. No. 14217, § 1, 4-8-25)

Sec. 32-305. Interference with City Forester.

No person shall hinder, prevent, delay, or interfere with the City Forester or any of their assistants while engaged in carrying out the execution or enforcement of this Article; provided, however, that nothing herein shall be construed as an attempt to prohibit the pursuit of any remedy, legal or equitable, in any court of competent jurisdiction for the protection of property rights by the owner of any property within the City.
(Ord. No. 14217, § 1, 4-8-25)

Sec. 32-306. Right to appeal decision of City Forester.

Any aggrieved party shall have a right to appeal any permitting decision of the City Forester and/or their designee to the Tree Commission. If a party wishes to contest a permitting decision they shall, within ten (10) business days from the date of receipt of such decision, request in writing a hearing before the Tree Commission for a review and/or hearing on said decision. Any permitting decision of the Tree Commission shall be final, subject to an appeal filed in writing within thirty (30) days of the action of the Tree Commission with the secretary of the Board of Zoning Appeals of the City. The Board of Zoning Appeals shall make a final decision on all requests for review of any action taken by the City Forester, designated staff, and the Tree Commission except as otherwise provided by Tennessee law.
(Ord. No. 14217, § 1, 4-8-25)

Sec. 32-307. Legality of article and parts thereof.

Should any section, clause, or provisions of this Article be declared by a court of competent jurisdiction to be invalid, the same shall not affect the validity of the Article as a whole, or parts thereof, other than the part so declared to be invalid.
(Ord. No. 14217, § 1, 4-8-25)

Sec. 32-308, 32-309. Reserved.

DIVISION 2. PUBLIC PROPERTY TREE MAINTENANCE, PROTECTION, AND PLANTING

Sec. 32-310. Public Property Tree care.

(a) City authority on City-owned streets and properties: The City shall have the right to plant, prune, maintain and remove trees, plants, branches and shrubs within the property lines of all City streets, alleys, avenues, lanes, boulevards, or other City-owned properties, as may be necessary to insure public safety or to preserve or enhance the symmetry and beauty of such public grounds.

(b) Private planting on City owned streets: This section does not prohibit the planting of street trees by adjacent property owners providing that the selection and location of said trees is in accordance with Sections 32-311 and 32-312 of this Article.

(c) Damage: Unless specifically authorized by the City Forester, no person, firm, or city department shall intentionally damage, cut, carve, transplant, or remove any Public Property Tree; attach any rope, wire, nails, advertising posters, or other contrivance to any tree; allow any gaseous, liquid, or solid substance which is harmful to trees to come in contact with any Public Property Tree or the tree's Critical Root Zone.

(d) Topping: It shall be unlawful for any person, firm or city department to top any street tree, park tree, or other tree on public property. Trees severely damaged by storms or other causes, or certain trees under utility wires or other obstructions where other pruning practices are impractical may be exempted from this provision by agreement of the City Forester.

(e) Tree maintenance practices: Any pruning, and other tree maintenance practices performed on a Public Property Tree shall conform to the current edition of American National Standards Institute ANSI A-300 and the current ISA Companion booklet: Best Management Practices — Tree Pruning.

(f) Stumps: All stumps of removed City owned trees shall be removed below the surface of the ground so that the top of the stump shall not project above the surface of the ground.

(g) Construction protection:

(1) Tree protection shall be installed by the Tree Ordinance Permit holder for all Public Street and Landscape trees, and for any other groups of Public Property Trees designated by the City Forester or designee near any excavation or construction of any building, structure, street work, or land disturbance. Tree protection shall also be installed the Land Disturbing Permit holder for all Private Property Trees used to meet any ordinance or zoning condition near any excavation or construction of any building, structure, street work, or land disturbance.

(2) Standard tree protection shall consist of fencing installed at the Critical Root Zone radius, or for Street Trees, at the edge of tree wells if sidewalks are to be undisturbed. Fencing specifications are detailed in the Arboricultural Specifications manual, and may be modified by the City Forester, based on site conditions. No vehicular traffic, equipment or material storage, or other encroachment within tree protection fencing is permitted during construction without approval from the City Forester or designee.

(3) Where construction activities necessitate encroachment within a tree's Critical Root Zone, the details of such activities must be reviewed and approved as part of the Tree Ordinance Permit by the City Forester or designee. Excepting required streetscape improvements, disturbance of greater than 25% of the Critical Root Zone or any excavation within the Structural Root Zone will be treated as tree removal, for the purpose of replanting and recompense, even though the City Forester or designee may elect to retain the trees. Additionally, removal of more than 25% of a tree's live crown or trunk wounds totaling more than 25% of the trunk circumference will be treated as tree removal, for the purpose of replanting and recompense, even though the City Forester or designee may elect to retain the trees.

(h) Street tree planting requirements: during land development, where site conditions meet all applicable Zoning, Land Disturbing, and Transportation standards, the City Forester shall require street tree planting as part of streetscape improvements, specifying tree species, caliper, and planting standards. (Ord. No. 14217, § 1, 4-8-25)

Sec. 32-311. Obstructions—Minimum clearances.

(a) Any person or persons owning or occupying real property where there may be trees, bordering on any street, shall prune such trees in such a manner that they will not obstruct or shade the streetlights, obstruct the passage of pedestrians on sidewalks, obstruct vision of traffic signs, obstruct the view of any street or alley intersection, or otherwise endanger the public.

(b) The minimum clearance of any overhanging portion thereof shall be eight (8) feet over sidewalks, and twelve (12) feet over all streets and vehicular use areas except truck thoroughfares which shall have a minimum clearance of fourteen (14) feet.

(c) No street trees shall be planted closer than ten (10) feet to any fire equipment to include fire hydrants, post indicator valves, and gongs. No street trees shall be planted closer than ten (10) feet to any overhead electrical or telephone wires unless specifically approved by the City Forester or designee as a low growth variety suitable for such location.

(d) Property owners shall remove all dead, diseased or dangerous trees, or broken or decayed limbs which constitute a menace to the safety of the public.
(Ord. No. 14217, § 1, 4-8-25)

Sec. 32-312. Permits required.

(a) *General.*

(1) Except as provided herein, no person, firm, or city department shall plant, spray, fertilize, preserve, prune, remove, cut above ground, or conduct ground-disturbing activities within the Critical Root Zone of, or otherwise disturb any tree on any street or city owned property without first filing an application and procuring a Tree Ordinance Permit from the Land Development Office. The person receiving the permit shall abide by the Standards of Practice adopted by the City Forester and by other reasonable conditions imposed by the City Forester.

(2) Applications for permits will be available online through the Public Works Land Development Office. The permit must be approved by the City Forester or designee before any approved tree modification or disturbance takes place.

(3) Applications for permits shall be accompanied by a Tree Survey of existing Public Trees as specified in this Article, unless specifically waived by the City Forester or designee. The Tree Survey shall be submitted either as its own sheet within a civil plan set for an associated Land Disturbing Permit or as its own document, combined with a Planting Plan, if applicable, for a standalone Tree Ordinance Permit.

(4) The Land Development Office shall issue the permit provided for herein if, the City Forester or designee certifies that the proposed work and the proposed method and workmanship thereof are in compliance with the provisions of this Article. Any permit granted shall contain a definite date of expiration and the work shall be completed in the time allowed on the permit and in the manner as therein described. Any permit shall be void if its terms are violated.

(5) Notice shall be given by the permit holder to the City Forester or designee for their inspection, within five (5) days of anticipated work completion. Such notice shall include whatever form of identification as may be specified by the City Forester.

(6) A permit requirement may be waived by the City Forester or designee for routine tree maintenance by other City divisions and departments, if such divisions demonstrate, on an annual basis to the City Forester that tree maintenance, removal and replanting practices fall within the bounds of this Ordinance. This waiver does not extend to construction-related tree disturbance.

(7) A permit requirement for removal of Public Property trees may be waived by the City Forester or designee if the applicant demonstrates that proposed impact is to a Wooded area only, where no single stem proposed to be removed is over 24" DBH, and total canopy loss is under 5000 square feet.

(8) Annual permits may be approved for public and private utility companies which shall install overhead and underground utilities (including fiber optic installations and water and sewer installations by or at the direction of the city); provided that pruning, trenching, and tree protection standards have been annually approved by the City Forester and the Chattanooga Tree Commission; provided, however, that removal of any tree shall have been specifically approved in advance by the City Forester or designee, including adherence to the replanting requirements herein. Such annual permits may be revoked upon written notice to the permit holder from the City Forester in the event the permit holder fails to comply with the provisions of this Article or with the conditions of the permit.

(9) The Tree Ordinance Permit application shall record the total number and total trunk diameter of trees proposed to be removed, and the number and total caliper of trees proposed to be planted, as applicable. Based on these totals, the permit application shall calculate the Recompense fee due, if applicable.

(10) The Tree Ordinance Permit fee, given in Sec. 31-322, is tiered according to type and scale of work. These are:

Tier 1: For residents, business owners, or community groups seeking approval for non construction Public Property Tree disturbance or maintenance; for utilities seeking an annual permit; for planting-only permits of any size by any party.

Tier 2: For Public Property Tree removal or disturbance as part of construction permitted under Simple Land Disturbing, or under Building Permits only; for clearing of Wooded areas only within City rights-of-way for projects of any size.

Tier 3: For Public Property Tree removal or disturbance as part of construction permitted under a Complex Land Disturbing Permit; for clearing of Wooded areas on City-owned parcels; for any other Tree Work on City property not otherwise specified in this Article.

Such fee shall be imposed as follows:

Tree Ordinance Permit—Tier 1: $100

Tree Ordinance Permit—Tier 2: $250

Tree Ordinance Permit—Tier 3: $500

Tree Replacement Fee: $200/inch DBH

(b) *Planting.*

(1) *Application Data.* The application required herein shall state the number, size, and type of trees to be planted. Additionally, a Planting Plan, as specified in this Article, shall be required for any planting operation unless specifically waived by the City Forester. The Planting Plan may be combined with landscape sheets as part of a civil plan set for an associated Land Disturbing Permit or combined with the Tree Survey and attached to a standalone Tree Ordinance Permit.

(2) *Improper Planting.* Any tree planted in a manner in conflict with the provisions of this section shall be subject to removal as provided in Division 4 of this Article.

(c) *Maintenance.* The application required herein shall state the number and kinds of trees to be sprayed, fertilized, pruned, or otherwise maintained; the kind of treatment to be administered; the composition of the spray material to be applied; credentials of the applicant or contractor; and such other information as the City Forester shall find reasonably necessary to a fair determination of whether a permit should be issued.

(d) *Removal, replanting and recompense for permitted tree removal.*

(1) Public Street and Public Landscape Trees: Permitted removal of a City-owned tree in either of these categories that is not deemed to be Dead, Diseased, or Hazardous by the City Forester or designee will be required to be replaced on the same City street or City owned property, with trees equal in total caliper to the sum of tree DBH proposed to be removed.

Tree species, size, and layout of replacement trees shall be approved by the City Forester or designee. Should on-site planting not be possible, adjacent public properties, then the nearest suitable public properties will be considered as replanting sites. Should none of these options be possible, the value of deficient DBH shall be made up by a Recompense Payment to the Tree Bank, calculated using the Tree Replacement Fee.

For trees removed under an annual Tree Ordinance Permit for City-approved public utility work, replanting and recompense shall be required on a tree-for-tree basis rather than inch-for-inch, using the standard of three inches of DBH per tree for the purposes of Recompense.

(2) Wooded areas within City rights-of-way: Without any other associated Public Street or Landscape Tree disturbance, tree removal for property access on Wooded rights-of-way shall require a Tier 2 Tree Ordinance Permit, with accompanying Tree Survey. Replanting is not required in such areas but a Recompense Payment at 50% of the Tree Replacement Fee will be required for removal of all trees 24" DBH and larger.

(3) Wooded areas on City-owned parcels: Tree removal shall require a Tier 3 Tree Ordinance Permit, with accompanying Tree Survey. Replanting is not required for tree removal in such areas but a Recompense payment at 50% of the Tree Replacement Fee will be required for removal of all trees 24" DBH and larger. Recompense payments may be waived by the City Forester or designee if tree removal is approved as part of land management practices.

(e) *Tree planting warranty.* All trees planted to meet street frontage requirements under a Land Disturbing Permit or to replace Public Property Trees removed under a Tree Ordinance Permit shall be required to be warranted for a period of one year after the date of acceptance of such trees. Trees which upon inspection have died or are in such poor condition that recovery is impossible due to water stress, pests, disease, injury caused by turf maintenance, herbicide injury, or other cause will be required to be replaced. For trees judged to have died or are beyond recovery, the holder of the relevant Tree Ordinance Permit shall be responsible for replacement of such trees to specifications identical to the trees being replaced, or to specifications otherwise approved by the City Forester or designee, or to make a Recompense Payment to the Tree Bank for an amount calculated from net lost tree caliper. A one-year tree planting warranty shall be required for such trees planted in replacement.

(f) *Performance Bond.* When there exists supply, seasonal, or other barriers to planting trees required under a Land Disturbing Permit before issuance of a Certificate of Occupancy, a builder or developer may post a Performance Bond, to be recovered at a date after required trees are planted and approved. If such trees include Public Property Trees or Private Property Trees planted to meet conditions of this Article, the applicant posting the bond shall be the same as the Tree Ordinance Permit holder. The Performance Bond shall be administered as follows:

1. The applicant shall complete all required provisions related to tree installation prior to issuance of a Certificate of Occupancy. The reviewing City Department may provide a temporary Certificate

of Occupancy, in lieu of completed work, if the applicant posts a bond in the amount of 125% of the estimated cost of the tree installation based on a schedule of fees provided by the reviewing department stipulated as sufficient to secure the satisfactory plant materials, related equipment, installation, and maintenance of such material for three (3) years. Such performance bond shall comply with all statutory requirements and shall be satisfactory to the City Attorney as to form, sufficiency, and manner of execution as set forth in this article.

2. A performance bond shall mean two documents: a Performance Agreement and an accompanying security document.
    a. The Performance Agreement shall stipulate the work to be performed by general categories and the estimated value or cost of each category. The Performance Agreement shall also stipulate a completion date for all of the work to be performed. The Performance Agreement shall only be entered into by the owner(s) of the property.
    b. The security document may be in a form as follows and shall express the value in a total amount equaling the sum of all work categories:
        i. A Surety Bond issued by an insurance company licensed in the State of Tennessee and shall be non-expiring
        ii. An Irrevocable Letter of Credit issued by or confirmed by a financial institution located in Hamilton County, Tennessee, or an adjoining county. Any such letter of credit shall contain an auto-renewal clause.
        iii. Cashier or Certified Check issued by a financial institution located in Hamilton County, Tennessee and shall be non-expiring.
    c. The Surety Bond and Letter of Credit options shall not be available to an applicant whose past performance has resulted in breached or expired bonds.
    d. An entity whose past performance has resulted in non-payment of a bond may be excluded from providing a surety bond for an applicant for a period of one year from the date of breach.
3. All required plant materials, related equipment, installation, and maintenance shall be the responsibility of the applicant at the applicant's expense or cost sharing. Any provisions for reimbursement by the county, or any utility district, shall be by separate agreement with the applicable City Department or other governmental entity.
4. Governmental agencies to which these bonds and contract provisions apply may file, in lieu of said contract or bond, a letter from an agent authorized to act in their behalf agreeing to comply with the provisions of this article
5. In those cases in which a performance bond has been posted and required plant material and related equipment has not been installed within the terms of such performance bond agreement, the reviewing City Department may declare the bond to be in default and require that all the plant material and related equipment be installed regardless of the extent of the building development at the time the bond is declared to be in default. The funds of the bond shall be used to install all required plant materials and related equipment.
6. If the reviewing City Department finds that any of the required plant materials and related equipment have not been installed in accordance with this article, the applicant shall be responsible for completing the plantings to the required standards. Whenever the cost of improvements is covered by a performance bond, the applicant and the bonding company or financial institution shall be liable severally and jointly for completing said plantings according to specifications.

7. The reviewing City Department shall not release a performance bond until all required plant material and related equipment have been installed correctly. There shall be no release of a bond if there are any outstanding administrative penalties or violations related to the bonded site. The performance bond shall only be released by the reviewing department upon successful completion of the installation as indicated by a site inspection.

8. The reviewing City Department, upon proof of extenuating circumstances by the applicant and acknowledged and agreed to by the reviewing City Department, may extend the completion date set forth in such bond and may require an increase in the bonded amount to cover increases in costs.

9. Should the bond lapse or expire for any reason prior to installation of plant material and related equipment, the temporary Use and Occupancy Certificate shall be revoked, and the reviewing City Department shall, through the Office of the City Attorney, take any or all appropriate legal action necessary to assure installation of plant material and related equipment. The bond may be declared in default and the security shall be held by the City. Only after completion of all improvements or posting of a new bond, shall a temporary Use and Occupancy certificate be issued.

10. Funds derived from liquidation of securities, as a result of performance agreement default, shall be used by the applicable City Department to complete the required work. Project administration fees may be charged by the departments or against liquidated funds to offset actual personnel or equipment costs utilized in the accomplishment of required work. Any surplus funds shall be returned to the security provider after all charges and expenses are paid and required work is accepted.

(g) *Tree Survey.*

1) All Tree Permits shall be accompanied by a Tree Survey, to establish the baseline conditions of trees on public property. This document shall be submitted as its own sheet within a civil plan set for associated Land Disturbing Permit, or as its own document attached to a standalone Tree Ordinance Permit. The submitted plan must meet the purpose and intent of this article.

2) Tree Survey shall meet the following requirements:

   A. When submitted as part of an associated civil plan set for a Complex Land Disturbing Permit, prepared by a Tennessee Registered Land Surveyor, with all required items to be survey located.

   B. Show existing site conditions.

   C. Show the Limit of Disturbance (LOD) for the proposed construction.

   D. Show all Street Trees

   E. Show all Public Property Landscape trees

   F. Show the Tree Canopy Line across the entire site, including public and private property

   G. Show every Public Property tree within a Wooded area having a DBH of twenty four (24) inches or greater

   H. Show the Critical Root Zone of every tree meeting the location requirements.

   I. Show the required Tree Protection Fencing.

   J. Show an "X" on trees to be removed.

   K. Number every tree meeting the location requirements adjacent to its symbol on the plan.

L. Provide a table on the plan showing the following for each tree meeting location requirements:

i. Number

ii. Tree species

iii. Size (DBH)

iv. Percentage of impact to CRZ by LOD

v. "To Be Removed", if applicable

vi. Total trunk diameter of Street and Landscape Trees to be removed

vii. Total trunk diameter of Wooded Area Trees (24" and greater DBH) to be removed

(h) *Planting Plan.*

1) All Tree Permits involving tree planting shall be accompanied by a Planting Plan. The Planting Plan may be combined with landscape sheets as part of a civil plan set for an associated Land Disturbing Permit or as its own document attached to a standalone Tree Ordinance Permit.

2) Planting Plan shall meet the following requirements:

A. Show all Public trees located on the Tree Survey which are to be preserved through construction

B. Show all Public trees proposed to be planted, labelled or symbolized by species C. Provide a table specific to Public Trees only, showing the following for trees proposed to be planted:

i. Label or symbol

ii. Tree species

iii. Cultivar, if applicable

iv. Size (caliper)

v. Type of nursery stock

vi Total caliper of all Public Street or Landscape Trees to be planted

(i) *Tree Bank.*

A. *Purpose.* The Tree Bank is established to recover the loss of public goods produced by urban trees removed during development, and to direct that recovered value toward public property tree planting and maintenance.

B. *Application.* Participation in the Tree Bank by property owners or developers is initiated by a selection on the Tree Ordinance Permit application, and reviewed by the City Forester or designee.

C. *Recompense Fee.* Approved participants will pay a one-time Recompense Fee to the Tree Bank equal to the difference in total trunk caliper of Public Property Trees removed and the total caliper of Public Property Trees planted, multiplied by the Tree Replacement Fee. Adjusted fees for removal of Public Property Trees in Wooded areas, as described in this Article, may also be added.

D. *Additional Tree Bank funding.* Tree Ordinance Permit fees and any damage claims collected resulting from City Forester appraisals of unpermitted tree removal or vandalism will also be deposited in the Tree Bank.

E. *Tree Bank administration.* Funds paid into the tree mitigation bank will be used for the purposes of maintaining and expanding urban tree canopy at the direction of the City Forester.

F. *Tree Bank reporting.* The City Forester will provide an annual report to the Chattanooga Tree Commission regarding the operation of the Tree Bank.

(j) *Exemption for Sewer Utility Work.*

(1) Notwithstanding any other provision in this Article, the following activities shall be exempt from the permit requirements, tree protection requirements, replanting requirements, and recompense payments otherwise required by this Article:

(i) Emergency repair of existing underground sewer utilities and service connections;

(ii) Routine maintenance and scheduled repair of existing underground sewer utilities and service connections;

(iii) Clearing of utility easements necessary to access, maintain, or repair existing underground sewer infrastructure.

(2) This exemption applies to work performed by:

(i) The City of Chattanooga Wastewater Department;

(ii) Contractors working on behalf of the City of Chattanooga Wastewater Department;

(3) While exempt from permits and fees, reasonable efforts shall be made to minimize impacts to trees when conducting exempt activities. The Wastewater Department shall coordinate with the Urban Forestry Program on appropriate training for staff on tree protection best practices when conducting exempt activities.

(4) The Wastewater Department shall provide an annual report to the City Forester summarizing the number and general location of emergency repairs that impacted public trees during the previous year.

(Ord. No. 14217, § 1, 4-8-25)

Sec. 32-313. Enforcement of Public Property Tree Protection

a) Any person found to be in violation of this article through the action of removing or damaging a tree on city property (Sec. 32-310c) without a permit shall be responsible for the reimbursement to the city for the value of the appraised loss, as described in the latest published edition of the Guide for Plant Appraisal by The Council Of Tree & Landscape Appraisers, or other nationally accepted plant appraisal standard, and as interpreted by the City Forester. Nothing in this ordinance shall be construed to remove the State statutory liability and award of damages for negligent or intentional tree cutting as set forth in Tenn. Code Ann. § 43-28-312.

b) For unpermitted tree removal or unpermitted damage necessitating tree removal; any person found to be in violation of this article shall additionally be responsible for the actual costs incurred by the City for removing remaining debris and replacing any removed tree. The replacement tree and location for planting shall be approved by the City Forester. Nothing in this ordinance shall be construed to remove the State statutory liability and award of damages for negligent or intentional tree cutting as set forth in Tenn. Code Ann. § 43-28-312.

c) Reimbursement shall be assessed through the city's Risk Management division and deposited in the Tree Bank, as directed in Division 4 of this Article.

d) Reimbursement fees shall be capped at $50,000 per tree and $100,000 per site. Collection of any reimbursement fees shall be enforced by a court of competent jurisdiction. Any violation of this section through the action of removing or damaging a tree on city property without a permit shall be prosecuted through the Office of the City Attorney.

(Ord. No. 14217, § 1, 4-8-25)

DIVISION 3. PRIVATE PROPERTY TREE PROTECTION AND RESPONSIBILITIES

Sec. 32-314. Utility responsibility on private property.

Public and private utilities which install overhead and underground utilities (including fiber optic installations and water and sewer installations by or at the direction of the city Department of Public Works), shall be required to accomplish all work on property subject to this Article in accordance with the company's written pruning and trenching specifications, or as mutually agreeable to the property owner and the utility. Written specifications shall have been first approved by the City Forester and reviewed by the Tree Commission.
(Ord. No. 14217, § 1, 4-8-25)

Sec. 32-315. Dead or diseased tree removal on private property.

(a) The city shall have the right to order or cause the removal of any trees that are dead or diseased on private property within the city, when such trees constitute a hazard to life and property, or harbor insects or disease which constitute a potential threat to other trees within the city. The City Forester shall determine which tree or trees are to be removed.

(b) Unless such trees pose immediate hazard to public safety, the owner of such trees will be ordered, in writing, to remove said trees, stating the reason for removal and the location of said tree or trees to be removed. Removal shall be done by said owners at the owner's expense within fourteen (14) days after the date of the order to remove. In the event the owner fails to comply with such order to remove, or if public safety considerations require immediate removal, the city shall then proceed to remove said tree or trees, and to charge removal costs to the owner of the property as provided by law in the case of special assessments.
(Ord. No. 14217, § 1, 4-8-25)

Sec. 32-316. Removal, protection, and provisioning of trees.

(a) *Applicability of article.* This article shall apply to all real property within the city, including all commercial, industrial, business or multifamily and subdivision property, with the following exemptions:

1. It shall not apply to any parcel of land currently being used for a single-unit dwelling or two-unit dwelling. If the use of the parcel changes to any other classification, the other requirements of this article apply.
2. It shall not apply to the approaches (clear zones) to any airports located in the city limits, to the easements or rights-of-way of utility companies, or to federal, state or local governments.
3. It shall not apply to containerized trees or nursery stock trees for resale in commercial nurseries or garden centers.
4. It shall not apply to removal of trees from Certified Tree Farms or from Lots Zoned A-1, with an approved Timber Removal Permit, pursuant to T.C.A §6-54-126 and Sec. 31-325.1- 31-325.9., which carries a three (3) year moratorium on development.
5. It shall not apply to removal of Dead, Declining, or Hazardous trees and vegetation as defined in this Ordinance.
6. It shall not apply to emergencies. In case of emergencies, such as hurricane, tornado, windstorm, flood, ice storm or other disasters, the requirements of these regulations may be waived by the City Forester or other designated official, upon a finding that such waiver is necessary so that public or private work to restore order in the City of Chattanooga will not be impeded.

(b) *Clearing or grading work.* Where a Land Disturbing Permit or Timber Removal Permit has not been issued, the destruction of more than five thousand (5,000) square feet of Tree Canopy, as defined in this Article, on any one (1) parcel of nonexempt land, shall be prohibited.

(c) *Land development and new construction.* Where a Complex Land Disturbing Permit is required, a minimum total tree DBH per acre, as given in Table 32-316, shall be retained on the site unless, because of cut or fill work, such trees cannot be saved. Trees retained shall be protected during construction with Tree Protection Fencing such that less than 25% of CRZ is disturbed. If trees cannot be salvaged, trees shall be provisioned as per section 32-316(d) or offset with a payment to the Tree Bank as per section 32-312(i).

Table 32-316

Zoning Type	*Total DBH per acre to be retained, planted, or offset*
Residential Zones, including R-MH	36"
Mixed Use and Commercial Zones	36"
Industrial Zones	36"
Form-Based Code Zones	No additional requirements
Other Special Purpose Zones not listed	No additional requirements

(d) *Provisioning of trees.* Where trees cannot be retained pursuant to this article, or do not exist on the site, they shall be provided on the site, before construction completion, at the rate provided in Table 32-316, and they shall be watered by an automatic irrigation system or other approved watering protocol. Trees planted to meet Landscape Requirements under Article XIII of Chapter 38 may be counted towards the required total DBH, provided such trees meet the criteria of Large Trees as defined in that Article. Compliance with this requirement may be achieved by one of the following methods.

1. Planting trees prior to Certificate of Occupancy issuance.
2. Planting trees following issuance of a temporary Certificate of Occupancy, under a Performance Bond.
3. If a developer or property owner demonstrates that site conditions prevent planting of additional trees to meet Tree Ordinance requirements, they may pay an Offset Fee to the Tree Bank for an amount calculated from the deficient tree caliper.

(e) *Maintenance and replacement of trees.* All trees retained or provided to meet the requirements of this article shall be properly preserved, planted, and maintained to ensure their survival to meet the purpose and intent of this article. Any tree which fails to survive or dies through maturation shall be replaced by the owner within twelve (12) months of loss, subject to inspection by the City Forester or their designee

(f) *Enforcement*. If land clearing takes place without a permit or exemption as outlined in 32-312, the owner shall be assessed a Recompense Fee calculated from the amount of tree canopy removed, as estimated by the City Forester or designee, using the most recent Tree Canopy Assessment. From this estimated area, rounded to the nearest tenth of an acre, a prorated Recompense Fee will be calculated as the equivalent of planting 75 two (2) inch caliper trees per acre. This fee shall be assessed to the property owner, and upon collection, deposited in the Tree Bank.
(Ord. No. 14217, § 1, 4-8-25)

Sec. 32-317. Protection of trees of historical or botanical importance.

(a) *Protected designations.* No living tree within the city designated on the State of Tennessee Champion Tree list, designated as a Landmark or Historic Tree by the State of Tennessee or designated organization, or designated as a Notable Tree by the Chattanooga Tree Commission shall be removed or

otherwise substantially altered by pruning, trimming, or otherwise cutting more than twenty-five (25) percent of the woody area or disturbing more than twenty-five (25) percent of the Critical Root Zone of such tree without first obtaining a Tree Ordinance Permit.

(b) *Notable Tree nomination.* Residents may nominate trees meeting the following criteria to the Chattanooga Tree Commission using forms supplied online:

i) Owner consent: Property owner shall either submit the application themself or complete a form attesting to their support of the tree being listed as a Notable Tree. For Public Property Trees, the City Forester's consent is necessary, if the tree is nominated by a resident.

ii) Structural integrity: The tree shall be structurally sound and not topped.

iii) Lack of invasive status: The species shall not be listed as either as an Established or Emerging Threat by the Tennessee Invasive Plant Council.

iv) Community value: The tree provides significant neighborhood, landscape, ecological, or historical value to citizens of Chattanooga, as documented by the applicant.

(c) *Criteria for removal of protected trees.* Permits as noted in subsection (a) of this section shall be issued only upon a satisfactory showing that the tree in question is either Dead, Diseased, or Hazardous.

(d) *Permitting process.* If the urban forester fails to issue a permit as provided in this section within thirty (30) days of the application for the permit, such permit shall be considered to be denied. Any person denied such permit may appeal the denial directly to the Chattanooga Tree Commission through the process described in Sec. 32-308.

(e) *Enforcement.* If trees designated as Champion, Historic, and Landmark Trees by State agencies or as a Notable Tree by the Chattanooga Tree Commission are removed or substantially altered by pruning, trimming, or otherwise cutting more than twenty-five (25) percent of the woody area or disturbing more than twenty-five (25) percent of the Critical Root Zone of such tree without first obtaining a Tree Ordinance permit, the party that caused the action will be assessed a fee equal to the appraised value of the tree in the case of removal, or the appraised loss of value of the tree in the case of damage. Appraisal values shall be determined by the as described in the latest published edition of the Guide for Plant Appraisal by The Council Of Tree & Landscape Appraisers or other nationally accepted plant appraisal standard, and as interpreted by the City Forester. Appraisal fees shall be deposited in the Tree Bank.

(f) *Retraction of Notable Tree status by owner.* An owner of property containing a Notable Tree may remove said tree from the list by notifying the City Forester in writing that they want it to be removed. The tree will then come off the list within thirty (30) days of the City Forester being notified by the owner.

(g) *Double credits for Notable Trees.* Any Notable Tree retained on property that is developed shall receive 2:1 (double) credits toward the required caliper inches in Table 32-316.
(Ord. No. 14217, § 1, 4-8-25)

Sec. 32-318. Tree maintenance and registry.

(1) *Registry.* All individuals or companies intending to do tree work for hire on any tree over twelve (12) inches DBH within the city, shall register online with the Urban Forestry Program. All registered companies shall be listed publicly.

(2) *Professional License and Business Practice [32-316].* Any commercially licensed business conducting tree work (as described in Sec. 32-302) including but not be limited to Tree Care Companies, Lawn Service Companies, Landscape Companies, Painting, Building and Renovation Companies or any person or firm receiving payment of any type to conduct tree work, must obtain a City of Chattanooga

business license and provide proof of liability insurance in the maximum amount of the applicable limits of liability for governmental entities under the Tennessee Governmental Tort Liability Act at the time such work is performed.

(3) *Public and private property tree protections*. Each said individual or company must sign an acknowledgement that they understand this article in regard to the prohibition of disturbance to or removal of any tree on public property without a permit, and prohibition of removal of more than five thousand (5,000) square feet of Tree Canopy without a permit.

(4) *Wood waste disposal practices*. Each said individual or company must sign an acknowledgement that they understand all other codes that pertain to tree work and the proper disposal of wood waste. It is the responsibility of the tree company to remove the wood waste from the property and properly dispose of the material. Disposal of wood material by placing it at the street/city right-of-way for collection will be considered illegal dumping. See Sections 18-86 (c) and 18-106.

(5) *Enforcement*. Individuals or companies in violation of this registry, Public Property Tree protection requirements, or improperly disposing of wood waste are subject to a stop work order (SWO) and prohibited from doing any work in the city until registration is completed and/or result in fines to the company (not the property owner) as outlined in sections [Reference above Protection of Trees of Historical Importance, Destruction or Removal of Trees, 32-313, and something from Chapter 18 about illegal brush dumping]
(Ord. No. 14217, § 1, 4-8-25)

DIVISION 4. ENFORCEMENT

Sec. 32-319. Violations declared nuisances.

Any tree determined to be a public nuisance by the City Forester to be dangerous to the public safety and shall be abated as set forth in this Article. Said determination of a public nuisance may be considered by an Administrative Hearing Officer subject to an appeal.
(Ord. No. 14217, § 1, 4-8-25)

Sec. 32-320. Notice requiring abatement of violations; abatement by City; lien for costs.

Upon determination of a public nuisance, the City Forester shall cause to be served upon the property owner a written notice to abate which shall (i) describe the conditions constituting a nuisance under this Article and (ii) state that the nuisance may be abated by the City at the expense of the property owner at the expiration of thirty (30) days from the date of such notice if the condition is not corrected by the property owner. If, at the expiration of thirty (30) days from the date of said notice to abate, the condition constituting a nuisance has not been corrected, then such condition may be corrected for the nuisance abated by the City at the expense of the property owner under the directions of the City Forester. The City shall have a lien on the property upon which such nuisance is located to secure the amount expended for the abatement of such nuisance.
(Ord. No. 14217, § 1, 4-8-25)

Sec. 32-321. Violation; Civil penalty.

The City Forester and designated staff shall have authority to investigate suspected violations of the Article. Except for violations of Section 32-310(c), which are addressed in 32-313(a), any violation of this Article shall be presented to the Tree Commission, who may make findings of facts and recommendations for abatement and/or civil penalty for each alleged violation. The alleged violator may choose to accept and obey the recommendation of the Tree Commission or, within ten (10) days of receiving the written

findings of facts and recommendations for abatement and/or civil penalty, my file a notice with the City Forester for a de novo hearing before an Administrative Hearing Officer at a duly noticed hearing not less than ten (10) days following the filing of the appeal. Such hearings shall be governed by Article VI of Chapter 21 of this Code, including all appeal rights.

This section shall not be construed to prevent the City from abating a nuisance or other dangerous condition which the City Forester determines requires immediate abatement.
(Ord. No. 14217, § 1, 4-8-25)

Sec. 32-322. Reviews

The City Council shall review this ordinance six months after the initial effective date. Thereafter, the Tree Commission shall conduct annual reviews in perpetuity and make any necessary recommendations to City Council.
(Ord. No. 14217, § 1, 4-8-25)

Secs. 32-323—32-340. Reserved.

ARTICLE XIV. COMPLETE STREETS

Sec. 32-340. Definition of Complete Streets.

"Complete Streets" are streets that are designed, built and operated to enable safe access for all users, in that pedestrians, bicyclists, motorists and public transportation users of all ages and abilities are able to safely move along and across the street right-of-way.

Sec. 32-341. Complete Streets Policy.

The City shall develop a safe, reliable, efficient, integrated and connected multimodal transportation system that will promote access, mobility and health for all users, and will ensure that the safety and convenience of all users of the transportation system are accommodated, including pedestrians, bicyclists, users of mass transit, motorists, emergency responders, freight providers, adjacent land owners, and people of all ages and abilities, including children, youth, families, older adults, and individuals with disabilities.

Sec. 32-342. Scope of Complete Streets Applicability.

(a) All city-owned transportation facilities in the public right-of-way including, but not limited to, streets, bridges and all other connecting pathways shall be designed, constructed, operated, and maintained so that users of all ages and abilities can travel safely and independently.

(b) The City shall approach every transportation improvement project phase with the purpose to create safer, more accessible streets for all users. These phases include, but are not limited to: planning, programming, design, right-of-way acquisition, construction, reconstruction, operation and maintenance. Other changes to transportation facilities on streets and rights-of-way, including capital improvements, re-channelization projects and major maintenance, must also be included.

(c) Privately constructed streets and drives shall adhere to this policy.

(d) The City shall foster partnerships with the State of Tennessee, neighboring communities and counties, and business and school districts to develop facilities and accommodations that further the City's Complete Streets policy.

(e) Transportation projects shall incorporate sustainable water quality management principles where applicable to reduce pollutant, temperature and runoff impacts to local waterbodies.

Sec. 32-343. Exceptions.

Any exception to this policy, including for private projects, must be approved by the Administrator of the Transportation Department. Exceptions may be considered for approval when:

(a) An affected roadway prohibits use by specified users (such as a limited-access highway or a pedestrian mall), in which case a greater effort shall be made to accommodate those specified users elsewhere;

(b) The activities are ordinary maintenance activities designed to keep assets in serviceable condition (e.g. mowing, cleaning, sweeping, spot repair, or other interim measures);

(c) Severe existing topographic, natural resource, or right-of-way constraints exist that preclude construction of bicycle or pedestrian facilities without incurring excessive cost.

Exceptions granted under (a) and (c) must be documented with supporting data that indicates the basis for the decision and posted in quarterly reports on the Transportation Department webpage.

Sec. 32-344. Design Standards.

The most current editions of the following engineering manuals are hereby adopted as design guidelines:

(a) The Street and Bikeway Design Guides published by the National Association of City Transportation Officials (NACTO).

(b) Designing Walkable Urban Thoroughfares, Institute of Transportation Engineers (ITE).

(c) Using these manuals as guidance, the Transportation Department will create and publish Complete Streets Design Standards to govern the design and construction of all transportation elements within the city.

Sec. 32-345. Performance Measures.

The City shall measure the success of this Complete Streets policy using, but not limited to, the following performance measures:

- Total miles of bike lanes (standard, buffered and protected), bike routes, and shared-use pathways
- Total miles of pedestrian accommodation
- Percentage of intersections with ADA accessible curb ramps
- Percentage of transit stops accessible via sidewalks and bicycle facilities
- Rate of crashes, injuries, and fatalities by mode
- Rate of children walking or bicycling to school
- Commute mode share
- Mass transit ridership rates

Unless otherwise noted above, within six (6) months of policy adoption, the City shall create individual numeric benchmarks for each of the performance measures included, as a means of tracking and measuring the annual performance of the policy. Annual reports shall be posted online for each of the above measures.

Sec. 32-346. Implementation and Reporting.

The City of Chattanooga shall view Complete Streets as integral to everyday transportation decision making practices and processes. To this end:

(a) The Transportation Department, the Department of Public Works, the Department of Economic & Community Development, the Chattanooga - Hamilton County Regional Planning Agency, and other relevant departments, agencies, or committees will review and modify current city standards, including but not limited to subdivision regulations, zoning codes and ordinances, to ensure that they effectively implement Complete Streets principles; and such groups shall incorporate Complete Streets principles into all future planning documents, manuals, design standards, checklists, decision-trees, rules, regulations, programs, neighborhood redevelopment projects, and other appropriate endeavors.

(b) When available, the City shall encourage staff professional development and training on multimodal transportation issues through attending conferences, classes, seminars, and workshops.

(c) City staff shall identify all current and potential future sources of funding for street improvements and recommend improvements to the project selection criteria to support Complete Streets projects.

(d) A periodic report (annual or otherwise, as appropriate) will be made to the City Council showing progress made in implementing this policy. The Transportation Department with assistance from the Department of Public Works, the Department of Economic & Community Development, the Chattanooga - Hamilton County Regional Planning Agency, and other relevant departments, agencies, or committees shall report on the annual increase or decrease for each performance measure contained in this policy compared to the previous year(s).

(e) Complete Streets endeavors shall be accompanied by educational elements to ensure that all users of the transportation system understand and can safely utilize project components.

(Ord. 12822, § 1, 4-1-14)

Sec. 33-96. Utility connections.
Sec. 33-97. Indoor pool temperature.
Sec. 33-98. Diving towers.
Sec. 33-99. Operating instructions.

ARTICLE I. IN GENERAL*

Sec. 33-1. Building permit required.

No public or private swimming pool installation, alteration, or repair work shall be commenced until a building permit shall first have been obtained from the building official. Construction is to be done in accordance with the Standard Building Code, as adopted by Chapter 10 of this Code, where applicable.
(Code 1986, § 33-1)

Sec. 33-2. Plumbing and electrical requirements.

Plumbing work is to be done in accordance with the codes adopted by Chapter 27 and electrical work in accordance with the code adopted by Chapter 14 of this Code.
(Code 1986, § 33-2)

Sec. 33-3. Final inspection; enclosure.

All public and private swimming pool installations must be complete, completely filled with water and in operation before final inspection. For the safety of others, before final inspection, the pool shall be completely enclosed with a wall, fence or other substantial structure not less than four (4) feet in height and with maximum two (2) inch mesh or two (2) inch vertical openings, or otherwise constructed as to be difficult to climb.
(Code 1986, § 33-3)

Secs. 33-4—33-15. Reserved.

ARTICLE II. PUBLIC POOLS

DIVISION 1. GENERALLY

Sec. 33-16. Definitions.

The following definitions shall apply along with those hereinafter set out in division 2 of this article in the interpretation of this article:

Certified lifeguard means an individual who has successfully completed an American Red Cross Senior Life Saving Course and holds a current certificate of qualification or who has had equivalent training (e.g., graduate of Y.M.C.A. course with competence as senior lifesaver).

Health officer means the person duly appointed to such position having jurisdiction, or any person or persons authorized to act as his agent.
(Code 1986, § 33-16)

Cross reference—Definitions and rules of construction generally, § 1-2.

Sec. 33-17. Health officer to enforce.

It shall be the duty of the health officer to enforce provisions of this article.
(Code 1986, § 33-17)

***Cross references—**Amusements, Ch. 6; building regulations, Ch. 10; electrical regulations, Ch. 14; fire prevention and protection, Ch. 17; gas regulations, Ch. 19; housing, Ch. 21; plumbing, Ch. 27; water, Ch. 36.

Sec. 33-18. Health officer to inspect.

The health officer is hereby authorized and directed to make inspections to determine conditions at all public pools in order that he may perform his duty of safeguarding the health and safety of those individuals using such pools and facilities.
(Code 1986, § 33-18)

Sec. 33-19. Health officer's right of entry; duty to cooperate.

The health officer shall have the power to enter upon any private or public property at reasonable times for the purpose of inspecting and investigating conditions relating to the enforcement of this article, and he shall be given access to any record and shall be furnished such information as required to make his inspection complete.
(Code 1986, § 33-19)

Sec. 33-20. Frequency of inspections; water samples required.

Inspections of public pools shall be made at least once per week during any and all times that such public pools are in actual operation or are open for public use. Water samples shall be taken for bacteriological examination at the time inspections are made.
(Code 1986, § 33-20)

Sec. 33-21. Plans, specifications required.

Plans, specifications, and supporting data shall be prepared and submitted in duplicate to the health officer for approval as outlined in section 33-58 of this Code.
(Code 1986, § 33-21)

Sec. 33-22. Permit—Required.

It shall be unlawful for any public pools to be operated by any person at any time unless he holds a valid permit issued by the health officer in the name of such person for that specific public pool. The health officer is hereby authorized to issue, suspend, or revoke permits in accordance with the provisions of this article; provided that, exceptions may be made for those public pools regulated by the Regulations Governing Organized Camps as authorized by Chapter 65, Public Acts of 1965, being T.C.A. Title 53, Chapter 38.
(Code 1986, § 33-22)

Cross reference—Businesses, trades and occupations generally, Ch. 11.

Sec. 33-23. Same—Application required; inspection; action on application.

(a) *Application.* Application for a permit to operate a public pool shall be made in writing, in the name of the person making application, to the health officer.

(b) *Inspection.* At this time an inspection of the public pool under consideration shall be made by the health officer.

(c) *Issuance.* If he is satisfied that the requirements of this article are met the permit shall be issued.

(d) *Denial.* If deficiencies are found, issuance of the permit shall be denied until said deficiencies are corrected.
(Code 1986, § 33-23)

Sec. 33-24. Same—To be posted; duration.

Permits for operation of public pools shall be conspicuously posted on the public pool premises at all times. Such permits shall be good for one (1) calendar year only unless revoked or suspended by the health officer.
(Code 1986, § 33-24)

Sec. 33-25. Operator required; qualifications.

All public pools shall be operated and maintained by a qualified person, other than a lifeguard on duty, and such person shall be on duty at all times when the public pool is open for use by the public. The operator shall demonstrate to the satisfaction of the health officer that he is competent to conduct the operation of the public pool in accordance with the provisions of this chapter.
(Code 1986, § 33-25)

Sec. 33-26. Lifeguard required; qualifications; exception.

A certified lifeguard shall be provided at all public pools, and he shall be on duty at all times when such pool is being used by the public. The lifeguard shall show and have on file at the pool premises a current certificate or documentary evidence of qualification; provided that, exceptions may be made for Types D and E pools by the health officer if swimming is done under adult supervision.
(Code 1986, § 33-26)

Sec. 33-27. Records required.

Operators of all public pools shall keep a daily record containing at least tests for free chlorine residual or residual of any approved sanitizing agent that may be used, pH and backwash frequency. This information and such additional information as may be required by the health officer shall be recorded on a form and with such frequency as prescribed by the health officer.
(Code 1986, § 33-27)

Sec. 33-28. Test kits required.

Test kits of the type and range as described in section 33-88 shall be provided by the owners or sponsoring agencies of public pools and shall be kept at the public pools for the operator's use.
(Code 1986, § 33-28)

Sec. 33-29. Vacuuming equipment required.

Facilities shall be installed for the operation of a vacuum cleaner and vacuum cleaning equipment which meets the criteria of section 33-85 shall be provided at all public pools.
(Code 1986, § 33-29)

Sec. 33-30. Cleanliness, maintenance of walls, bottoms.

Walls and bottoms of all public pools shall be kept clean at all times. Frequency of vacuuming and scrubbing shall be such as to fulfill the above requirement. Pool walls and bottoms shall be maintained in a state of good repair at all times.
(Code 1986, § 33-30)

Sec. 33-31. Frequency of filter turnover.

Filters shall be operated continuously to provide three (3) to four (4) daily turnovers in filtered water in all public pools.
(Code 1986, § 33-31)

Sec. 33-32. Chemical equipment required.

Equipment for chlorination, hypochlorination, and other chemical treatment meeting the criteria of Division 2 of this article shall be provided at all public pools. Such equipment shall be operated in a manner to maintain a water quality as described in section 33-90 at all times in public pools when they are being used by the public.
(Code 1986, § 33-32)

Sec. 33-33. Cleanliness of gutters.

Overflow gutters shall be kept clean and overflow outlets open at all times.
(Code 1986, § 33-33)

Sec. 33-34. Water level.

The water level in all public pools shall be maintained at the proper operating level at all times.
(Code 1986, § 33-34)

Sec. 33-35. Bathers to shower; diseased bathers.

All persons shall be required to take showers before entering any public pool. Any person having any apparent skin disease, sore or inflamed eyes, cough, cold, nasal or ear discharge, wearing bandages, or having any communicable disease shall be excluded from public pools except on presentation of a current written permit signed by a physician.
(Code 1986, § 33-35)

Sec. 33-36. Maintenance of shower, toilet, dressing rooms.

Walls and floors in shower, toilet and dressing rooms shall be kept clean and in a state of good repair at all times.
(Code 1986, § 33-36)

Sec. 33-37. Type, maintenance of plumbing facilities.

All plumbing facilities shall be of approved construction and design and shall be kept clean and in good repair at all times.
(Code 1986, § 33-37)

Cross reference—Plumbing generally, Ch. 27.

Sec. 33-38. Type, maintenance of drinking fountains.

All drinking fountains shall be of approved construction and design and shall be kept clean and sanitary at all times.
(Code 1986, § 33-38)

Sec. 33-39. Requirements for drinking water.

Drinking water shall be safe, potable, adequate, and under pressure, or otherwise meeting the approval of the health officer.
(Code 1986, § 33-39)

Sec. 33-40. Waste containers.

Waste containers provided in bathhouse facilities shall be of fire resistant construction. Covered containers shall be provided at or near each commode in women's toilet facilities.
(Code 1986, § 33-40)

Cross reference—Garbage and refuse, Ch. 18.

Sec. 33-41. First aid supplies; medical aid.

First aid supplies meeting the approval of the health officer shall be provided at all public pools when said pools are in use. Arrangements should be made with a local physician for prompt medical aid in the event of an emergency.
(Code 1986, § 33-41)

Sec. 33-42. Violations, penalty.

Any person who shall violate any of the provisions of this article or who shall fail or refuse to comply with any notice issued by the health officer with reference to the enforcement of the provisions of this article shall be guilty of a misdemeanor and upon his conviction shall be subjected to a fine of not less than ten dollars ($10.00) nor more than fifty dollars ($50.00) for each offense, and each day that such violation continues shall constitute a separate offense.
(Code 1986, § 33-42)

Secs. 33-43—33-55. Reserved.

DIVISION 2. MINIMUM STANDARDS

Sec. 33-56. Applicability.

The minimum standards set out in this division shall apply to all public or semipublic swimming pools, under all categories of usage, except as specifically noted under subsequent headings.
(Code 1986, § 33-56)

Sec. 33-57. Pools deemed public; pools excepted; pools classified.

(a) *Generally.* All artificially constructed swimming pools other than residential pools, wading pools and spray pools, as herein defined, shall be deemed to be public pools. These latter types of pools shall not be subject to this division but shall be subject to criteria covered in other publications.

(1) *Residential pools* which are excepted herein shall be defined as any privately-owned pools which are built in connection with single family residences, the use of which shall be confined to the family or each householder and his private guests.

(2) *Public swimming pools,* for the purposes of this article, shall be defined as listed in the following categories, based upon specific characteristics of size, usage, and other factors:

a. *Type "A".* Any municipal, community, public school, athletic club or swimming club pool or pool for other similar usage and type.

b. *Type "B".* Institutional pool, such as for Girl Scouts, Boy Scouts, YWCA, YMCA, Campfire Girls, Boys' Camps, Girls' Camps, and for similar type usage.

c. *Type "C".* Country clubs, large hotels and motels of more than one hundred (100) units, with pools having a water surface area in excess of sixteen hundred (1,600) square feet.

d. *Type "D".* Motels and apartments, multiple housing units, small hotels of less than one hundred (100) units, not open to the general public and with pools having a water surface area of less than sixteen hundred (1,600) square feet.

e. *Type "E".* Treatment pools, therapeutic pools, and special pools for water therapy.

f. *Type "F".* Indoor pools.

(b) *Exceptions.* The above categories shall be the basis for certain specific variations from this division for public swimming pools as a whole.
(Code 1986, § 33-57)

Sec. 33-58. Preparation, submission, approval of plans; approval prerequisite to other permits.

Plans and specifications with supporting data shall be prepared by a professional engineer or architect holding registration in the state. Before work is commenced on any new construction or any alteration of any existing pool, plans and specifications, accompanied by such pertinent data as may be required, shall be submitted to the Chattanooga-Hamilton County Health Department for its approval, and no part of the work shall be undertaken until the health department has endorsed upon the plans and specifications its written approval thereof. No department of the city charged with the duty of issuing building permits, plumbing permits, lighting permits, sewer connection permits or any other or like permits, in connection with construction, shall issue such permit in connection with the construction, repair, or remodeling of swimming pools, until after the approval of such health department of the plans and specifications above provided for has been endorsed thereon.
(Code 1986, § 33-58)

Sec. 33-59. Structural stability.

(a) All public pools shall be constructed of an inert and enduring material, designed to withstand all anticipated loading for both pool empty and pool full conditions. Working stresses shall be based upon predetermined ultimate strengths of materials used, with a factor of safety of not less than two and one-half (2½).

(b) Provisions shall be made for the relief of pressures which might occur as a result of unbalanced exterior hydrostatic pressures, or means shall be provided for positive and continuous drainage from under the pool floor or around the pool walls, whether ground water is present or might occur at some future time.

(c) Special provisions shall be made to protect the pool structures from both internal and external stresses which may develop due to freezing in cold climates.
(Code 1986, § 33-59)

Sec. 33-60. Obstructions in diving area.

There shall be no obstruction from the wall or the floor, extending into the clear area of the diving portion of the pool. There shall be a completely unobstructed clear distance of thirteen (13) feet above the diving board.
(Code 1986, § 33-60)

Sec. 33-61. Lifeguard chairs.

Each public swimming pool shall have at least one elevated lifeguard chair. This shall be presumed to be adequate for two thousand (2,000) square feet of pool surface area and one additional lifeguard chair shall be provided for each additional area of two thousand (2,000) square feet or fraction thereof. Where a pool is provided with more than one (1) lifeguard chair and the width is forty (40) feet or more, they shall be located on each side of the pool. In Types D and E pools, lifeguard chairs need not be provided.
(Code 1986, § 33-61)

Sec. 33-62. Life line.

A life line shall be provided at or near the break in grade between the shallow and deep portions of a public swimming pool, with its position marked with colored floats at not greater than five (5) foot spacing. The life line shall be three-quarters (3/4) inch minimum diameter and its terminals shall be securely anchored and of corrosion-resistant material and of type which will be recessed or have no projection which will constitute a hazard.
(Code 1986, § 33-62)

Sec. 33-63. Wall and floor finish.

Wall and floor finish shall be of masonry, tile or other inert and impervious material and shall be reasonably enduring. Finish shall be moderately smooth and of a white or light color. Sand or dirt bottoms are prohibited.
(Code 1986, § 33-63)

Sec. 33-64. Depth markers.

Depth of water shall be plainly marked at or above the water surface on the vertical pool wall and on the edge of the deck or walk next to the pool, at maximum and minimum points and at the points of break between the deep and shallow portions and at intermediate increments of depth, spaced at not more than twenty-five (25) foot intervals. Depth markers shall be in numerals of four (4) inches minimum height and of a color contrasting with the background. Markers shall be on both sides and ends of the pool.
(Code 1986, § 33-64)

Sec. 33-65. Lifesaving equipment.

(a) One (1) unit of lifesaving equipment shall consist of the following: A ring buoy with minimum outside diameter of twenty (20) inches to which shall be attached a length of one-fourth (1/4) inch rope, not less than one and one-half (1 1/2) times the maximum width of the pool; a life pole or shepherd's crook type of pole with minimum length handle of twelve (12) feet; a separate throwing line of one-fourth (1/4) inch rope with length not less than one and one-half (1 1/2) times the maximum width of the pool. Not less than one (1) unit of equipment, as above, shall be provided at every public pool. One unit shall be presumed to be adequate for two thousand (2,000) square feet of pool area, and one (1) additional unit shall be provided for each additional two thousand (2,000) square feet, or major fraction thereof, of pool area.

(b) Lifesaving equipment shall be mounted in conspicuous places, distributed around pool edge, at lifeguard chairs, or elsewhere, ready of access, its function plainly marked, kept in repair and ready condition, and bathers or others shall not be permitted to tamper with it, use it for any purpose other than its intended use, or remove it from its established location.
(Code 1986, § 33-65)

Sec. 33-66. Ladders and stairs.

(a) A minimum of one (1) ladder shall be provided for each seventy-five (75) feet of perimeter and no less than two (2) ladders shall be provided at any pool. Where stairs are provided in a pool, one ladder may be depleted for each set of stairs provided. A side handrail extending up above and returning to the horizontal surface of the pool deck, curb, or coping shall be provided at each side of the ladder.

(b) All stairs entering a public pool shall be recessed. An exception to this may permit the construction of steps directly entering the pool and not recessed into the pool walls, in Types C, D and E.
(Code 1986, § 33-66)

Sec. 33-67. Shallow minimum depth.

Every public swimming pool shall have a minimum depth in the shallow area of the main swimming area of not less than three (3) feet from the overflow level to the floor. Exceptions may be made for Types D and E pools, or in pools built principally for instruction.
(Code 1986, § 33-67)

Sec. 33-68. Slope of floor into shallow area.

In a swimming pool with a diving area, the shallow portion of the pool shall be defined as the portion between the shallow end and the break point between the shallow area and the diving area. The slope of the floor shall be uniform from the break between the diving area and the shallow portion and shall not be greater than one (1) foot of slope in twelve (12) feet, except in small, Type D pools where the pool is less than forty-two (42) feet in overall length, in which case the rate of slope shall not exceed one (1) foot in eight (8) feet.
(Code 1986, § 33-68)

Sec. 33-69. Diving area.

(a) The area of a public swimming pool where diving is permitted shall be, in the case of a rectangular pool, at one (1) end, or may be in a recessed area forming one (1) of the legs of a T, L or Z shaped pool, divorced from the main swimming area by a life line, or may be a wholly separate structure. Exceptions to this may be made in special purpose type pools intended for training and instruction.

(b) Pools of the types wherein diving is permitted shall have adequate area and depth of water for safe diving and the minimum depth and area characteristics for this area shall be as indicated in the accompanying chart.
(Code 1986, § 33-69)

Editor's note—The chart to which references is made in this section is not set out in this Code but is on file in the office of the clerk of city council, along with Ord. No. 5725, from which this article was derived.

Sec. 33-70. Vertical wall depth.

(a) All public pool walls shall be vertical for a minimum depth of two (2) feet, six (6) inches. Exceptions to this requirement may be made in Types C, D and E pools, only when there is a clear understanding that the owner does not intend or desire that such pool may be used for competition in aquatic sports, at any time in the future. In these excepted cases where a departure from vertical walls is permitted, the maximum batter or slope shall not exceed one (1) foot horizontal to five (5) feet vertical or an angle of eleven degrees (11°)—twenty (20) feet from the vertical.

(b) In all types A and B pools or in any other type where it is considered that the conduct of swimming competition may be desirable at any time in the future, the walls at opposite ends of any possible racing course shall be parallel and be vertical for at least two (2) feet six (6) inches of the water surface.
(Code 1986, § 33-70)

Sec. 33-71. Walks.

(a) Walks shall be continuous around the pool with a minimum width of eight (8) feet of unobstructed clear distance including a curb at the pool edge, if such a curb is used. Exceptions may be made in Types B, C, D, E and F as below:

B—Four (4) feet.

C—Four (4) feet.

D—Four (4) feet.

E—No minimum.

F—Four (4) feet.

(b) A minimum of three (3) feet walk width shall be provided on the sides and rear of any piece of diving equipment.

(c) All walks, decks and terraces shall have a minimum slope of one-fourth (¼) inch per foot to drains or points at which the water will have a free unobstructed flow to points of disposal at all times.

(d) The finish texture of walks must be nonslip and such that there will be no discomfort to bare feet.

(e) Hose bibbs shall be provided around the perimeter of the deck area at intervals such that all parts of the swimming pool deck area may be reached with a fifty (50) foot hose.
(Code 1986, § 33-71)

Sec. 33-72. Enclosure.

(a) A wall or other enclosure of four (4) feet minimum height and with a maximum of two (2) inch mesh, two (2) inches wide vertical openings, or otherwise so constructed as to be difficult to climb, shall be provided completely enclosing the pool area, all of which shall be paved.

(b) Exceptions may be made for Types C and D. In Types C and D where the fence is dispensed with, a hedge or other clear demarcation shall be provided, with instructions and posting clearly defining the pool area as for bathers only and from which spectators and others in street clothes are rigidly excluded.

(c) Access to the pool by bathers shall be provided only through the bath house or dressing room facilities, and any other fence opening shall be for service operations only.
(Code 1986, § 33-72)

Sec. 33-73. Overflow gutters.

(a) An overflow gutter shall be installed continuous around all public swimming pools, with the exception that where surface skimmers of acceptable design, and in adequate number, as described in section 33-74, are employed, the overflow gutter may be eliminated in all pools having a surface area of less than five thousand (5,000) square feet.

(b) Overflow gutter shape, wherein the outer edge of the lip is flush with the pool wall above and below the gutter, entirely recessed, shall not be permitted.

(c) The overflow gutter depth below the overflow lip shall be a minimum of two (2) inches at the high points between drains. The drains shall be spaced at a maximum of fifteen (15) feet on centers and a slope provided in the bottom of not less than two and one-half (2½) inches in ten (10) feet. In no sense is this intended to preclude the use of roll-out or deck level type pools where other conditions are met and satisfactory design is provided.

(d) The branch piping to each overflow gutter drain shall not be less than two (2) inches.

(e) Where overflow gutter drains discharge into sanitary sewers, a trap shall be provided in each main before discharge into the sewer.

(f) Overflow gutter mains shall be of adequate size such that, under conditions of maximum flow, there shall be no surcharge or back pressure greater than one (1) foot and in no case greater than one (1) foot less than the difference in elevation between the drain fittings and the flow line of the waste main, in order that there shall at all times be a free flow from all overflow gutter drains.

(g) Where overflow gutters discharge into a sanitary sewer or storm sewer, an air-gap of not less than one (1) foot shall be provided between the point of discharge of the gutter and the drains into the sewer, or a relief manhole shall be provided where surcharge or back pressure will overflow at a point not less than twelve (12) inches below the elevation of the overflow gutter fittings in the gutter.

(h) Overflow gutters will not be connected to recirculation water.
(Code 1986, § 33-73)

Sec. 33-74. Surface skimmers.

Skimmers may be permitted in lieu of overflow gutters on swimming pools of Types B, C, D and E, providing acceptable handhold is installed. At least one (1) skimming device shall be provided for each eight hundred (800) square feet of surface area or fraction thereof. The handhold must be no more than nine (9) inches above the normal waterline. Skimming devices shall be built into the pool wall, shall adequately remove floating oils and waste and shall meet the following general specifications:

(1) Each skimmer shall be designed for a flow-through rate of at least thirty (30) gallons per minute and the total capacity of all skimmers in any pool shall be approximately fifty percent (50%) of the required filter flow of the recirculation system.

(2) They shall be automatically adjustable to variations in water level over a range of at least three (3) inches.

(3) An easily removable and cleanable basket or screen through which all overflow water must pass shall be provided to trap large solids.

(4) The skimmer shall be provided with a device to prevent airlock in the suction line. If an equalizer pipe is used, it shall provide an adequate amount of make up water for pump suction, should the water of the pool drop below the weir level. This pipe shall be at least two (2) inches in diameter and shall be located at least one (1) foot below the lowest overflow level of the skimmer.

(5) An equalizer line shall be provided with a valve that will remain tightly closed under normal operating conditions, but will automatically open at a differential of not more than four (4) inches between the pool level and the level of the overflow tank.

(6) The overflow weir shall be of sufficient length to maintain a rate of flow at least twenty (20) gallons per minute per lineal foot of weir lip.

(7) Skimmer shall be of substantial, enduring and reasonably corrosion-resistant.

(8) One (1) skimmer will be placed at a point in the pool opposite the direction of prevailing summer winds.

(Code 1986, § 33-74)

Sec. 33-75. Recirculation and filtration equipment.

All public swimming pools shall have recirculation and filtration equipment provided for water purification in accordance with criteria in this article. Fill and draw pools are prohibited.

(Code 1986, § 33-75)

Sec. 33-76. Sand filters.

These minimum standards shall apply, where applicable, to either gravity or pressure sand filters.

(1) Filter tanks shall be designed with a factor of safety of four (4) in relation of working pressure to ultimate strength.

(2) The filter bed shall consist of suitable grades of filter sand and a supporting bed of graded gravel or other porous material which shall serve to support the filter bed and distribute both filtered and backwash water uniformly. The supporting bed consisting of graded gravel or other material shall support not less than twenty (20) inches of filter media consisting of silica sand or other durable, inert material with an effective size between four-tenths (0.4) and fifty-five-hundredths (0.55) millimeters, and a uniformity coefficient and not exceeding one and three-quarters (1.75).

(3) The minimum freeboard to the drawoff point of backwash water shall not be less than twelve (12) inches above the normal level of the top of the filter bed. The minimum backwash rate shall be not less than twelve (12) gallons per square foot of filter bed per minute.

(4) Where anthracite coal or other filter media is employed, the freeboard shall be adequate to prevent the media being carried off to waste when the filter bed is backwashed at a rate adequate to carry off foreign material filtered from the water. The freeboard and the rate of backwash shall be the subject of individual design, based upon specific gravity of the media.

(5) The underdrain system shall be such that uniform collection of filtered water and distribution of backwash water shall be provided over the entire bed area.

(6) Ratio of total underdrain orifice area to total area of bed shall not be less than one-quarter (0.25) percent, nor more than four-tenths (0.40) percent.

(7) Orifices or interstices in the underdrain system shall be uniformly distributed over the entire filter bed area, or so designed that the flow of water through the beds shall be at uniform velocity and uniform rate over the whole area for both filtering and backwashing operations, within minimum practicable limits and those established by generally approved and accepted waterworks practice. The underdrain system design shall be one (1) which demonstrably will provide a uniform flow distributed over the entire bed area.

(8) The underdrain system shall be provided of material which is corrosion-resistant and enduring, wherein the orifices shall be so designed and of such material that they will maintain approximately constant area and velocity.

(9) Design rate for sand filters shall be three (3) gallons per minute, per square foot of bed area, at time of maximum head loss, as a minimum standard.

(10) The filter plant shall be provided with influent and effluent pressure gauges, illuminated backwash sight glass and air relief valves.

(11) The filter plant shall be provided with face piping and valving to permit the functions of filtering to pools or backwashing to waste with the battery as a whole or any unit operated singly.

(12) The filter plant shall be provided with means for draining all filter units and piping, so that all parts of the system may be completely drained to prevent damage from freezing.

(Code 1986, § 33-76)

Sec. 33-77. Diatomaceous earth filters.

All diatomite type filters, whether of the vacuum or pressure type, shall comply in all respects with the standards of the National Sanitation Foundation covering such filters. The following requirements are applicable:

(1) Sufficient filter area shall be provided to meet the design pump capacity.

(2) The design rate of filtration shall not be greater than the following:

DESIGN RATE OF FILTRATION
(GPM/Sq.Ft. of effective filtering surface)

Types of Filtration Systems	*Rates*	*Type of Body Feed*
Pressure	2.0	Without continuous body feed.
	2.5	With continuous body feed.
Vacuum	1.5	Without continuous body feed.
	2.0	With continuous body feed.

(3) Where body feed is provided, the device shall be accurate (ten percent (10%)) and dependable, and shall be capable of continually feeding within a calibrated range, adjustable from two (2) to six (6) ppm, at the design capacity of the recirculation pump.

(4) Filter area, where fabric is used, shall be determined on the basis of effective filtering surfaces as created by the septum supports with no allowances for areas of impaired filtration, such as broad supports, folds or portions which may bridge.

(5) The filter and all component parts shall be of such materials, design and construction as to withstand normal continuous use without significant deformation, deterioration, corrosion or wear which could adversely affect filter operation.

(6) The filter shall be so designed and constructed, or provision made, to preclude the introduction of appreciable quantities of filter aid into the pool during pre-coating operations.

(7) The tank containing the filter elements shall be constructed of steel or other suitable material approved by the department. Pressure filters shall be designed for a minimum working pressure of fifty (50) pounds per square inch with a four (4) to one (1) safety factor. Vacuum filters shall be designed to withstand the pressure developed by the weight of the water contained therein and closed vacuum filters shall, in addition, be designed to withstand the crushing pressure developed under a vacuum of twenty-five (25) inches of mercury with a safety factor of one and one-half (1.5) in both instances. The septa or elements which support the filter aid shall be of corrosion-resistant material and shall be provided with openings, as specified in the NSF standard for diatomite type filters. The septa shall be constructed to be resistant to rupture under conditions of the maximum differential pressure between influent and effluent which can be developed by the circulating pump and of adequate strength to resist any additional stresses developed by the cleaning operation.

(8) Where dissimilar metals, which may set up galvanic electric currents, are used in the filters, provision shall be made to resist electrolytic corrosion. The filters shall be designed in such a manner that they may be easily disassembled with allowances made for adequate working space above and around the filters to allow the removal and replacement of any part and for proper maintenance.

(9) The filter plant shall be provided with such pressure, vacuum or compound gauges as are required to indicate the condition of the filter. In vacuum filter installations where the circulating pump is two (2) horsepower or higher, an adjustable high vacuum automatic shutoff shall be provided to prevent damage to the pump by cavitation.

(10) All filters shall be equipped for cleaning by one (1) or more of the following methods: Backwashing, airbump-assist backwashing, spray wash (meticanical or manual), or agitation.

(11) Provision shall be made for completely and rapidly draining the filter.

(12) Each filter unit shall be provided with an access opening of not less than a standard eleven (11) inch by fifteen (15) inch manhole and cover.

(13) Pressure filter tanks shall be supported by jack legs or other supports to give a free movement of air under each tank and to permit access for painting.

(14) Filter turn-over cycle shall be of a capacity to completely filter the entire pool body in not more than eight (8) hours, and preferably six (6) hours.

(Code 1986, § 33-77)

Sec. 33-78. Compound gauge required.

The pump suction header shall be provided with a compound gauge between the pump strainer and the pump, which will indicate both positive and negative head.
(Code 1986, § 33-78)

Sec. 33-79. Strainers.

(a) At all pressure-type filter plants or where the circulating pump is used for vacuum cleaning the pool, a suitable strainer or screen shall be provided to remove solids, debris, hair, lint, etc. Where a wet well is provided, the strainer shall consist of a removable screen through which all water entering the pump shall pass. Where no wet well is provided or where the suction cleaner or any other suction line is piped directly from the pool to the pumps, a pot-type strainer with removable strainer basket shall be provided. The strainer basket shall be of a rigid construction sufficiently strong to prevent collapsing when clogged. One (1) extra strainer basket shall be provided.

(b) Any type of screen or strainer basket shall be fabricated of a corrosion-resistant material or shall have a protecting coating of such material.

(c) Screen or strainer basket shall have maximum openings no greater than seventy-five percent (75%) of the maximum dimensions of the solids which will pass through the pump impeller without clogging and the total clear area of all openings shall be not less than four (4) times the area of the largest sized pipe from the pool to the strainer influent.
(Code 1986, § 33-79)

Sec. 33-80. Rate-of-flow indicator.

(a) Every public swimming pool provided with a recirculation system shall be provided with a rate-of-flow indicator with the activating element installed with adequate clear distance upstream and downstream to obtain a reasonable degree of accuracy.

(b) In filter installations, the rate indicator shall be on the pump discharge line leading to the filters and shall be calibrated for, and provided with, a scale reading in gallons per minute and shall have a range of at least ten percent (10%) below the established filtration rate and ten percent (10%) above the backwash rate established.
(Code 1986, § 33-80)

Sec. 33-81. Mechanical pool fittings.

(a) Where overflow gutters are installed, outlet spacing shall not be greater than fifteen (15) feet on centers.

(b) Overflow gutter branch lines from each drain fitting shall not be less than two (2) inches I.P.S.

(c) Pool inlets and outlets shall be provided and arranged to produce uniform circulation of water and the maintenance of uniform chlorine residual throughout the pool; there shall be at least four (4) inlets for the smallest pool.

(d) Provisions shall be made to adjust the flow through all inlets.

(e) Maximum flow rates (in gpm) through various sized inlet branches shall not be more than as listed below:

Size:	1"	1¼"	1½"	2"
GPM:	10	20	30	50

(f) In pools with surface area greater than one thousand five hundred (1,500) square feet or length in excess of sixty (60) feet, inlets shall be placed around the entire perimeter. In any case, an adequate number of inlets shall be provided, properly spaced and located to accomplish complete recirculation and the assurance of uniform and adequate sterilizing medium at all times.
(Code 1986, § 33-81)

Sec. 33-82. Main drain spacing.

(a) When the outlets to pool pump suction are installed in the pool floor near one (1) end, the spacing shall not be greater than twenty (20) feet on centers and an outlet shall be provided not more than fifteen (15) feet from each side wall. At least one (1) outlet shall be provided at the lowest point of the floor to completely drain the entire floor area.

(b) The outlet grate clear area shall be such that when the maximum flow of water is being pumped through the floor outlet, the velocity through the clear area of the grate shall not be greater than one and one-half (1½) feet per second. Outlet grates shall be slotted and the minimum dimension of lots shall be not more than one-half (½) inch.

(c) Where outlets fittings consist of parallel plates, of so-called antivortex type where the water enters the fittings from the sides, rather than through a grating facing upward, entrance velocities may be increased to six (6) feet per second.

(d) All pool fittings shall be of corrosion-resistant materials.
(Code 1986, § 33-82)

Sec. 33-83. Piping.

(a) The determination of sizes of pipe, fittings and valves on the complete main pump suction line from the swimming pool shall be based upon a rate of friction losses for piping of not more than six (6) feet per one hundred (100) feet of pipe based upon Hazen-Williams formulae for fifteen (15) year old piping.

(b) All piping on the discharge side of the pump for filtration and to the point for discharge of backwash water from the filter plant shall have pipe sizes determined on a basis of friction losses which shall not be more than twelve (12) feet per one hundred (100) feet and the velocity in any pipe shall not exceed ten (10) feet per second and pipe selection shall be made based upon Hazen-Williams formulae for fifteen (15) year old pipe. In the determination of pipe sizes required, the criterion which would call for the largest pipe shall govern.

(c) All pool piping shall be supported by piers or otherwise to preclude against possible settlement which will either provide dirt traps or air pockets and a condition which would result in rupture of the lines.

(d) All pressure and suction lines shall have a uniform slope in one direction of not less than three (3) inches per one hundred (100) feet. Gravity waste lines around the pool six (6) inches or smaller shall have a minimum slope of one-eighth (1/8) inch per foot. Lines larger than six (6) inches and all outfall waste mains shall be designed with a size of pipe and slope to freely carry the maximum flows required and with no surcharge or back pressure in lines. All piping and equipment shall be provided with positive means of completely draining all water to prevent damage from freezing.
(Code 1986, § 33-83)

Sec. 33-84. Pump and motor.

(a) A pump and motor unit shall be provided for recirculation of the pool water which has been selected for performance and will meet the conditions of quantity required for filtering and cleaning the filters with the total dynamic head developed by the complete system. The requirements for filtration shall be based upon the maximum head loss developed immediately prior to washing the filters. The motor shall be nonoverloading in continuous operation for filtration under all conditions but may be overloaded within the service factor for conditions of backwash and for emptying the pool.

(b) Pump performance curve for the unit to be installed shall be provided and submitted to proper authorities for review and approval.
(Code 1986, § 33-84)

Sec. 33-85. Vacuum cleaner.

Where facilities are installed integrally in the pool piping system for the operation of a vacuum cleaner, the piping and hose shall be required to produce not more than fifteen (15) feet total head loss and the pump, while moving four (4) gallons per lineal inch of cleaner head.
(Code 1986, § 33-85)

Sec. 33-86. Sterilizing agent.

Some means of sterilizing the pool water shall be used which provides a residual of sterilizing agent in the pool water. Either chlorine or bromine may be used for this purpose. In either case, adequate feeding equipment and equipment for testing residuals must be employed. Inasmuch as chlorine is almost universally used, minimum standards for the use of chlorine are given below:

(1) Equipment for supplying chlorine or compounds of chlorine shall be of capacity to feed one (1) pound of available chlorine per three thousand (3,000) gallons of pool volume per twenty-four (24) hour period. This may be reduced by fifty percent (50%) for Type E pools.

(2) In all public pools, elementary chlorine shall be supplied by means of a gas chlorinator which controls and regulates the flow of the gas and mixes it in a water solution which in turn is injected into the pool water circulating system ahead of the filters.

(3) An exception to these criteria may be made in all types of pools where bromine may be substituted for chlorine and appropriate equipment of acceptable and approved type supplied for feeding this material.

(4) A further exception to subsection (2) of this section shall permit the use of hypochlorite supplied by a suitable hypochlorinator in all pools having a capacity of not more than seventy-five thousand (75,000) gallons of water.

(5) Any hypochlorinator, to be acceptable for public pool use, shall conform to the following requirements and shall be sold by the manufacturer explicitly to meet these conditions and so warranted:

a. Capacity shall be adequate to supply one (1) pound of free chlorine per three thousand (3,000) gallons of water in the pool per twenty-four (24) hour period.

b. Feed shall be positive under all conditions of pressure in the circulating system, and without construction of the pump suction line whether this line is flooded or under vacuum head.

c. Feed rate shall be adjustable with the pump in operation. Each suction stroke of the pump shall be visible through a sight feed indicator.

d. Regulation shall be provided to ensure constant feed with varying supply or back pressure.

e. Positive features to prevent backflow from circulation system to the solution container and provision for reducing the free line from calcium hypochlorite entering the pool to a minimum.

f. No illegal cross-connection with domestic water supply shall be permitted.

(6) The term "chlorine" shall not be used to refer to any hypochlorite compounds nor to any material except elementary, free chlorine, which occurs at atmospheric pressure and normal summer temperatures as a gas, commercially sold in a compressed form as a liquid. Only equipment used to supply or feed elementary chlorine may be referred to or used to describe a chlorinator. Hypochlorite compounds containing chlorine shall only be known and sold as a "hypochlorite" such as calcium hypochlorite, sodium hypochloride, et al.; and may not be called chlorine. Equipment used to supply or feed a hypochlorite compound shall be known as a chlorinator. Use of either "chlorine" or "chlorinator" improperly, in this manner, represents clear and improper misrepresentation.

(Code 1986, § 33-86)

Sec. 33-87. Chlorine compartment.

(a) Where gaseous equipment is provided below grade in a filter room or in any part of a building which provides housing, the mechanical proportioning device and cylinders of chlorine shall be housed in a reasonably gastight, corrosion-resistant and mechanically vented enclosure. Airtight ducts from the bottom of the enclosure to atmosphere in an unrestricted area and a motor-driven exhaust fan capable of producing at least one (1) air change per minute shall be provided. Automatic louvers of good design near the bottom of the enclosure for admitting fresh air are required. An opening at least eighteen (18) inches square, glazed with clear glass, and artificial illumination shall be provided in an amount such that the essential performance of the equipment may be observed, at all times, without opening the enclosure.

(b) Electrical switches for the control of artificial lighting and ventilation shall be on the outside of the enclosure adjacent to the door. The floor area of the enclosure shall be of adequate size to house the chlorinator, fan, scales and one (1) extra chlorine cylinder. Gas masks approved by the Bureau of Mines for protection against chlorine gas shall be provided, mounted outside the chlorine compartment.

(Code 1986, § 33-87)

Sec. 33-88. Testing equipment.

A test set shall be provided for the determination of free chlorine residual and the pH hydrogen ion content in the pool water, of colorimetric type. A supply of appropriate re-agents for making each type of test shall be provided. Color standards shall be furnished for each of the tests called for below, which shall effect an accurate comparison to sample to be tested, both from the standpoint of color as well as density, and shall be permanent and nonfading. Materials used shall be resistant to corrosion.

Chlorine color standards . . . . . .0.2, 0.4, 0.6, 0.8, 1.0, 1.5 ppm.

pH color standards. 6.8, 7.2, 7.4, 7.6, 8.0, 8.4
(Code 1986, § 33-88)

Sec. 33-89. Coagulant feeder and pH adjustment.

(a) The coagulant feeder shall be an electrically powered, positive-displacement type pump to ensure full delivery of the chemical solution being fed. Feed rate shall be adjustable with the pump in operation. Each suction stroke of the pump shall be visible through a sight feed indicator. The point of application shall be on the suction side of the circulating pump. The feeder shall be capable of delivering sufficient chemical solution to treat the pool water with a dosage of not less than three (3) grains per gallon.

(b) (1) For adjustment for pools of more than seventy-five thousand (75,000) gallons capacity, an electrically powered, positive displacement type pump shall be used. The point of application shall be in the return line between the filters and the pool. The capacity of the feeder shall be such that the pH of the pool will be maintained as set forth in section 33-90(4).

(2) For pools less than seventy-five thousand (75,000) gallons capacity other means of pH control such as pH blocks, etc., will be accepted.

(3) Cast-iron pot-type feeders or any feeder that depends on differential pressures are prohibited.
(Code 1986, § 33-89)

Sec. 33-90. Quality of water.

The equipment, when operated in accordance with the manufacturer's instructions, shall provide water meeting the following standards:

(1) Shall meet the state's department of public health's requirements for bacteriologically potable water.

(2) Shall have a degree of clarity such that a disc two (2) inches in diameter which is divided into quadrants in alternate colors of red and black shall be clearly discernible through fifteen (15) feet of water and the different colors readily distinguishable.

(3) Shall have a minimum free available chlorine residual at any point in the pool of not less than four-tenths (0.4) ppm and not more than one and one-half (1.5) ppm at any time.

(4) The pH or measure of hydrogen ion content at no time shall be below seven and four-tenths (7.4) and shall be maintained between this limit and eight and two-tenths (8.2) on the hydrogen ion scale.
(Code 1986, § 33-90)

Sec. 33-91. Electrical and lighting requirements.

(a) *Submarine lighting.* Where submarine lighting is used, not less than one-half (0.5) watts shall be employed per square foot of pool area.

(b) *Area lighting.* Where submarine lighting is employed, area lights shall be provided for the deck areas and directed toward the deck areas and away from the pool surface insofar as practical in a total capacity of not less than six tenths (0.6) watts per square feet of deck area. Where submarine lighting is not employed and night swimming is permitted, area and pool lighting combined shall be provided in an amount of not less than two-tenths (0.2) watts per square foot of pool area.

(c) *Compliance with code.* All wiring in connection with requirements for a swimming pool for lighting or power shall conform with the National Electrical Code.

(d) *Grounding.* In addition to any other grounding, each submarine light unit shall be individually grounded by means of a screwed or bolted connection to the metal junction box from which the branch circuit to the individual light proceeds.

(e) *Overhead wiring.* No electrical wiring for lights or power shall be permitted to pass overhead within twenty (20) feet of the pool enclosure.
(Code 1986, § 33-91)

Sec. 33-92. Number of bathers.

The maximum number of persons in bathing attire within the pool enclosure or the bathing area shall be limited to one (1) person per twenty (20) square feet of pool and deck area combined.
(Code 1986, § 33-92)

Sec. 33-93. Bathhouses.

(a) Adequate dressing and sanitary plumbing facilities shall be provided for every public swimming pool. An exception to this may be made in Types B, C, D, E and F pools where available facilities are provided in connection with the general development for other purposes, etc., of adequate capacity and number, in close proximity to the pool.

(b) Every bathhouse shall be provided with separate facilities for each sex with no interconnection between the provisions for male and female. The rooms shall be well-lighted, drained, ventilated and of good construction, with impervious materials employed in general, finished in light colors and so developed and planned that good sanitation can be maintained throughout the building at all times.

(1) *Minimum sanitary plumbing facilities.* Minimum sanitary plumbing facilities shall be provided as follows:

a. *Males.*

i. One (1) water closet combination, one (1) lavatory and one (1) urinal shall be presumed to be adequate for the first one hundred (100) bathers. One (1) water closet and one (1) urinal shall be provided for each additional one hundred fifty (150) bathers or major fraction thereof. One (1) lavatory shall be provided for each two hundred (200) additional bathers.

ii. A minimum of three (3) shower heads shall be provided which shall be presumed to be adequate for the first one hundred fifty (150) males and one (1) shower outlet shall be provided for each additional fifty (50) male bathers.

b. *Females.*

i. A minimum of two (2) water closet combinations shall be provided in each bathhouse building and this shall be presumed to be adequate for the first one hundred (100) females.

ii. One (1) additional water closet combination shall be provided for each additional seventy-five (75) females or fraction thereof.

iii. One (1) lavatory shall be provided as a minimum, which shall be considered adequate for the first seventy-five (75) females.

iv. One (1) additional lavatory shall be provided for each additional seventy-five (75) females in attendance, or major fraction thereof.

v. A minimum of two (2) shower heads shall be provided, which shall be presumed to be adequate for the first one hundred (100) females and one (1) shower shall be added for each fifty (50) additional females.

c. *Male/female ratio.* These minimum criteria for bathhouse plumbing facilities shall be based upon the anticipated maximum attendance in bathers. Facilities for either sex shall be based upon a ratio of sixty percent (60%) of the total number of bathers being male and forty percent (40%) being female, excepting where the pool is confined to use by one (1) sex only, wherein one hundred percent (100%) of plumbing facility requirements shall be provided for that sex.

d. *Showers and dressing booths.* Shower and dressing booths shall be provided in female dressing space and dressing booths shall be provided with curtains or other means of seclusion. This condition may be subject to variations for schools and other institutional use where a pool may be open only to one (1) sex at a time.

(2) *Drinking fountain.* Not less than one (1) drinking fountain shall be provided available to bathers both at the pool and in the bathhouse.

(3) *Hose bibbs.* Hose bibbs shall be provided for slushing down the dressing rooms and bathhouse interior.

(4) *Floors.* The floors of the bathhouse shall be of concrete, free of joints or openings and shall be continuous throughout the area with a very slight texture to minimize slipping, but which shall be relatively smooth to ensure complete cleaning. Floor drains shall be provided to ensure positive drainage of all parts of the building with a slope in the floor of not less than one-fourth (1/4) inch per foot, toward drains.

(5) *Hot water.* Tempered water only will be provided at all shower heads. Water heater and thermostatic mixing valve shall be inaccessible to bathers and will be capable of providing two (2) gpm of ninety degrees (90°) Fahrenheit water to each shower head, and no hot or cold water shall be supplied.

(c) No difference in elevation, requiring steps, shall be provided in the interior of male and female dressing areas. No steps shall be permitted between the bathhouse and the pool deck areas adjoining and should it be necessary that the bathhouse floor be at a different elevation from the pool decks, ramps shall be provided at the access doors. Where ramps are used between the bathhouse and pool decks, the slope shall not exceed three (3) inches per foot and shall be positively nonslip.

(d) All partitions between portions of the dressing room areas, screen partitions, shower, toilet and dressing room booths shall be of durable material not subject to damage by water and shall be so designed that a waterway is provided between the partitions and floor to permit thorough cleaning of the floor area with hose and brooms.

(e) Soap dispensers for providing either liquid or powdered soap shall be provided at each lavatory and between each pair of shower heads, and dispensers must be of all-metal or plastic type and no glass permitted in these units.

(f) Mirrors shall be provided over each lavatory and toilet paper holders shall be provided at each water closet.

(g) All water provided for drinking fountains, lavatories and showers shall be potable, meet the requirements and conform with the standards of the United States Public Health Service.
(Code 1986, § 33-93)

Sec. 33-94. Food service.

Where provision is made for serving food and/or beverages at the pool, no containers of glass or other material which might be a hazard to bathers' feet, when broken, shall be used. The area shall be so arranged and posted to prohibit the consumption of food and beverages on the pool decks proper.
(Code 1986, § 33-94)

Sec. 33-95. Wading pools.

(a) By definition, a "wading pool" shall normally be a small pool for non-swimming children only, used only for wading and shall have a maximum depth at the deepest point not greater than twenty-four (24) inches.

(b) Owing to the high degree of pollution likely to be present, a wading pool shall have a maximum turnover cycle of four (4) hours. The supply to the wading pool shall consist of filtered and chlorinated water from the large pool filtration and recirculation system. The circulating outlets from the wading pool may be wasted or may be returned to the circulation system of the large pool at the suction side of the pump for refiltration. There shall also be provided a waste outlet at the deepest point of the wading pool, by means of which it shall be completely emptied to waste.

(c) In general, standards of sanitation in circulation, surface skimming and all other details shall be equal or superior to those for swimming pools. Wading pools, by the nature of their usage, are likely to become polluted and a public hazard. Where installed, they shall be operated very carefully to minimize the danger to the public health. They shall be drained, scrubbed out and disinfected once daily. It is considered to be very desirable to install a spray pool in lieu of a wading pool, wherein no water stands at any time but is drained away freely to sewers as it sprays over the area.
(Code 1986, § 33-95)

Sec. 33-96. Utility connections.

(a) No direct mechanical connection between a source of domestic water supply shall be made to a swimming pool or the piping therefor, thereby eliminating a cross connection to what may become a source of contamination.

(b) The water supply for filling the pool, when derived from a potable supply, shall be by means of an overfall fillspout to the pool, or an overfall supply to a surge tank, wherein the water will freely overflow at deck level or the top of the surge tank, before coming into contact with the water supply outlet.

(c) The disposition of sanitary sewage from the bathhouse shall be into a sanitary sewer, a septic tank or other waste line which meets with the approval of local health authorities.

(d) Whenever any waste from the swimming pool is connected to a sanitary sewer or a storm sewer, an air-gap or a relief manhole shall be provided which will positively preclude against surge or backflow introducing contaminated water into the swimming pool or the water treatment plant as covered elsewhere.
(Code 1986, § 33-96)

Sec. 33-97. Indoor pool temperature.

Temperature of indoor pools shall be maintained between seventy-five degrees (75°) and eighty-five degrees (85°), Fahrenheit, with exceptions made in Type E pools.
(Code 1986, § 33-97)

Sec. 33-98. Diving towers.

Diving towers in excess of three (3) meters in height shall not be considered as acceptable in a public pool without special provisions, controls and definite limitations on their use.
(Code 1986, § 33-98)

Sec. 33-99. Operating instructions.

Upon the completion of any swimming pool, the owner and his operators shall be given complete written and oral instructions in the operation of the pool and all of the equipment, in the maintenance of the equipment. Also, these instructions shall consist of operation of the plant under his observation for a period of not less than three (3) days. All valves shall be permanently tagged and valve operating schedule shall be provided for every operation. Instructions shall be supplied in not less than two (2) copies.
(Code 1986, § 33-99)

ARTICLE I. IN GENERAL

Secs. 34-1—34-15. Reserved.

ARTICLE II. TRAILER CAMPS

DIVISION 1. GENERALLY

Sec. 34-16. Definitions.

For the purposes of this article, the following terms shall have the meanings respectively ascribed to them in this section:

Camp car, trailer shall mean any unit used for living or sleeping purposes which is equipped with wheels or similar devices used for the purpose of transporting such unit from place to place, whether by motive power or other means.

Campground shall mean any place, area or tract of land upon which is located any camp car or trailer.

Health officer shall mean the director of health of the city.
(Code 1986, § 34-16)

Cross reference—Definitions and rules of construction generally, § 1-2.

Sec. 34-17. Scope; compliance required.

The provisions of this article shall be applicable to every campground in the city, and every person owning, leasing, renting or operating a campground in the city or living or sleeping in any campground or in any camp car or trailer located therein shall comply with its provisions and the provisions of any rules and regulations formulated by the health officer hereunder.
(Code 1986, § 34-17)

Sec. 34-18. Enforcement; right of entry.

The health officer shall enforce the provisions of this article and for such purpose he or his duly authorized representatives may enter upon the premises of any campground in the city to inspect the same and all accommodations connected therewith.
(Code 1986, § 34-18)

Sec. 34-19. Management.

Each campground shall be under the direct supervision and management of the holder of the permit provided for in Division 2 of this article or his agent or representative, for whose acts he shall be fully responsible. The name of the person entrusted with the immediate management and control of such campground shall be filed for reference with the health department.
(Code 1986, § 34-19)

Sec. 34-20. Qualifications of manager.

The manager of any campground shall be of good reputation and character and shall satisfy the health officer as to his experience, training and capacity to supervise, manage, regulate, control and maintain good order in such campground.
(Code 1986, § 34-20)

Sec. 34-21. Business office, records required; availability for inspection.

Each campground shall be provided with a building to be known as the office, in which shall be kept copies of all records pertaining to the management or supervision of the campground. Such records shall be available for inspection by the health officer or by police officers.
(Code 1986, § 34-21)

Sec. 34-22. Register.

(a) The owner of any campground, or his agent or manager, shall keep a register containing a record of all owners and occupants of camp cars or trailers located in such campground. Such register shall contain the following information:

(1) Name and address of each occupant.

(2) Make, model and year of all automobiles, camp cars and trailers.

(3) License number and owner of each camp car or trailer and automobile by which it is towed.

(4) State issuing such licenses.

(5) Dates of arrival and departure of each camp car or trailer.

(b) The owner or his agent or manager shall keep the register available for inspection at all times by police officers, the health officer and his assistants, and other officials whose duties necessitate acquisition of the information contained in the register. The register records shall not be destroyed for a period of three (3) years following the date of registration.
(Code 1986, § 34-22)

Sec. 34-23. Rules of conduct to be established.

The owner of each campground in the city, his agent or manager, shall prescribe rules and regulations for the management of such campground in conformity with this article, and shall make adequate provision for the enforcement of such rules.
(Code 1986, § 34-23)

Sec. 34-24. Specific duties of manager.

The owner of each campground in the city, his agent or manager, shall provide specifically for the following:

(1) Regular inspection of water and sanitary conveniences.

(2) Collection and removal of garbage or other waste materials.

(3) Prohibition of the placing or storage of unsightly vehicles of any kind.

(4) Regular cleaning, painting, repairing and disinfecting of all buildings.

(5) Causing each dog or other pet animal to be kept penned and under control at all times.

(6) Reports to the health officer of all cases of communicable disease or suspected cases of communicable disease affecting any inmate of the campground.

(7) Reports to the police department of all acts of a disorderly character committed by any person inside the campground.

(Code 1986, § 34-24)

Sec. 34-25. Drainage, grading.

Every campground in the city shall be located on a well drained area and the premises of every such campground shall be properly graded so as to prevent the accumulation of storm or casual waters.
(Code 1986, § 34-25)

Sec. 34-26. Spaces required; size.

Every campground in the city shall be laid out with available unoccupied space of not less than fifteen (15) feet by twenty (20) feet for each camp car or trailer. Such available unoccupied space shall not be construed to mean the space directly under any portion of any camp car or trailer.
(Code 1986, § 34-26)

Sec. 34-27. Arrangement of camp cars or trailers; access to street.

Camp cars or trailers shall be arranged in rows abutting or facing on a driveway or clear unoccupied space of not less than ten (10) feet in width, which shall have unobstructed access to a street.
(Code 1986, § 34-27)

Sec. 34-28. Water supply; common cups prohibited.

An adequate supply of pure water for drinking and domestic purposes shall be supplied to meet the requirements of every campground. Such water supply shall be obtained from faucets only, conveniently located in the campground. No dipping or common cups shall be permitted.
(Code 1986, § 34-28)

Sec. 34-29. Water closets.

There shall be provided in every campground one (1) water closet for each sex. One (1) of such water closets shall be distinctly marked "For Women" and one (1) shall be distinctly marked "For Men." There shall be provided an additional water closet for each sex for every fifteen (15) persons or fractional part of such number, in excess of fifteen (15) such persons living in such campground. Water closets shall comply with the provisions of Article IV of Chapter 31 of this Code and shall be kept in a clean and sanitary condition at all times.
(Code 1986, § 34-29)

Sec. 34-30. Drainage from plumbing fixtures.

It shall be unlawful for any person in a campground to permit the drainage from plumbing fixtures in camp cars or trailers to be deposited upon the surface of the ground. All such fixtures, when in use, shall be connected to the city sewer or the drainage therefrom shall be disposed of in compliance with the provisions of Article IV of Chapter 31 of this Code.
(Code 1986, § 34-30)

Sec. 34-31. Showers and shower rooms.

Public shower nozzles shall be provided for each sex in every campground in the same ratio for men and women as provided herein for water closets, and they shall be distinctly marked "For Women" and "For Men," and shall be supplied at all times with an adequate supply and quantity of hot water. Shower room floors shall be washed and disinfected daily with a solution of two percent (2%) Lysol or one hundred (100)

parts per million chlorine. The drainage therefrom shall be connected with the city sewer system or otherwise disposed of in a manner satisfactory to the health officer. Such showers and shower rooms shall be kept in a clean and sanitary condition at all times.
(Code 1986, § 34-31)

Sec. 34-32. Laundry facilities.

Laundry facilities shall be provided in every campground in the ratio of one (1) double laundry tub and ironing board for every camp car or trailer space provided under section 34-26 of this Code. An electrical outlet supplying current sufficient to operate an iron shall be located conveniently near the ironing board. Drying spaces shall be provided sufficient to accommodate the laundry of the occupants of each camp car or trailer. The service building housing the laundry facilities shall be a permanent structure complying with the ordinances of the city and laws of the state relating to the erection and maintenance of buildings and other structures, plumbing and electrical installations.
(Code 1986, § 34-32)

Sec. 34-33. Lighting.

Every campground shall be provided with means of lighting the same at night. All public water closets and bath units therein shall be provided with adequate lighting facilities which shall be kept lighted during the time from one-half (½) hour after sunset until one-half (½) hour before sunrise.
(Code 1986, § 34-33)

Sec. 34-34. Receptacles for garbage, rubbish.

There shall be provided in every campground such number of tight receptacles with close-fitting metal covers for garbage, refuse, ashes and rubbish may be deemed necessary by the health officer. Such receptacles shall at all times be maintained in a clean and sanitary condition.
(Code 1986, § 35-34)

Cross reference—Garbage and refuse generally, Ch. 18.

Sec. 34-35. Fire protection.

Every campground shall be equipped at all times with one (1) fire extinguisher in good working order for every ten (10) camp car or trailer spaces provided under section 36-28 of this Code located not further than two hundred (200) feet from each such space. No open fires shall be permitted at any place which would endanger life or property. No fires shall be left unattended at any time.
(Code 1986, § 34-35)

Cross reference—Fire prevention generally, Ch. 17.

Sec. 34-36. Maintenance of grounds and equipment.

Every person owning or operating a campground shall maintain such campground and any toilets, baths or other permanent equipment in connection therewith, in a clean and sanitary condition, and shall maintain such equipment in a state of good repair.
(Code 1986, § 34-36)

Sec. 34-37. Conversion of camp car or trailer into permanent structure.

It shall be unlawful for any person owning or operating a camp car or trailer located in a campground to remove or cause to be removed the wheels or any similar transporting device from such camp car or trailer, or otherwise permanently to fix it to the ground in a manner that would prevent the ready removal of such camp car or, trailer, without first obtaining a permit to do so from the building department of the city.

Any such alteration to any camp car or trailer shall be construed as removing it from the requirements of this article and converting it into a dwelling and it shall thereupon be subject to the requirements of the ordinances of the city and laws of the state relating to buildings.
(Code 1986, § 34-37)

Sec. 34-38. Dogs at large prohibited.

Dogs shall not be permitted to run at large in any campground.
(Code 1986, § 34-38)

Cross reference—Dogs generally, § 7-31 et seq.

Sec. 34-39. Additional regulations authorized.

The health officer may, from time to time, formulate and enforce any rules and regulations relating to sanitation or housing that he may deem advisable for the operation of campgrounds or camp cars and trailers. The violation of any such rule or regulation shall be unlawful.
(Code 1986, § 34-39)

Secs. 34-40—34-50. Reserved.

DIVISION 2. PERMIT

Sec. 34-51. Required.

It shall be unlawful for any person to establish, maintain or operate, or to offer for public use in the city any campground without first applying for and receiving from the health officer a permit to do so, issued in the manner provided in this article.
(Code 1986, § 34-51)

Sec. 34-52. Application.

Every person desiring a permit to operate a campground in the city shall file an application in writing with the health department, on a form provided by it, not less than five (5) days nor more than fifteen (15) days before such campground is made ready for use.
(Code 1986, § 34-52)

Sec. 34-53. Inspection fee to accompany application.

The application required by section 34-52 of this Code shall be accompanied by an inspection fee of ten dollars ($10.00), for which the health department shall issue a receipt.
(Code 1986, § 34-53)

Sec. 34-54. Proposed site to be inspected, approved.

Upon the filing of an application for a permit required by this division and payment of the required inspection fee, the health officer or his duly authorized representative shall investigate the premises proposed to be used for a campground and shall determine whether the site selected therefor conforms with the requirements of this article and any rules and regulations of the health department or laws of the state applicable thereto. No permit shall be issued unless the campground or site selected therefor complies with such requirements and meets the approval of the health officer. The health officer may, in his discretion, approve or reject any proposed campground site.
(Code 1986, § 34-54)

Sec. 34-55. Issuance; expiration; transfer.

Upon his approval of the campground or site selected therefor, the health officer shall issue a permit for the operation of such campground, which shall, unless sooner revoked or suspended, continue in effect for one (1) year following the date of its issue. Such permit shall be transferable only upon written application by the holder thereof to the health officer, with his approval.
(Code 1986, § 34-55)

Sec. 34-56. Display.

No person shall establish, maintain or operate any campground in the city unless there is at all times posted in a conspicuous place on such campground the permit required under this division.
(Code 1986, § 34-56)

Sec. 34-57. Revocation, suspension.

Any permit granted under this article shall be subject to revocation or suspension by the health officer in the following manner: A notice shall be served on the person holding such permit specifying wherein he has failed to comply with this article and requiring him to appear before the health officer, at a day and hour specified in such notice, not less than five (5) days after the personal service thereof, and requiring him to show cause at such time and place why his permit should not be revoked or suspended. At the time and place mentioned, the person holding such permit shall have the right to appear in person, or by counsel, and to introduce such evidence as he may desire. The health officer shall confront such permit holder with any charge that may have been made against him. After hearing, the health officer may, if the evidence justifies such action, revoke or suspend the permit.
(Code 1986, § 34-57)

Secs. 35-283—35-294. Reserved.

ARTICLE I. IN GENERAL

Secs. 35-1—35-16. Reserved.

ARTICLE II. TAXICABS, LIMOUSINES, SHUTTLES, AND MOTOR VEHICLES TRANSPORTING PASSENGERS FOR HIRE

DIVISION 1. PASSENGER VEHICLE FOR HIRE BOARD*

Sec. 35-17. Created; membership; term of office and compensation of members; votes required for action of the board.

There is hereby created a Passenger Vehicle For Hire Board (hereafter either "Passenger Vehicle For Hire Board" or "PVH Board." The PVH Board shall consist of seven (7) members: Four (4) to be appointed by the Mayor; One (1) to be appointed by representatives from Districts 1, 2, and 3; One (1) to be appointed by representatives from Districts 4, 5, and 6; and One (1) to be appointed by representatives from Districts 7, 8, and 9. The terms of the members shall be three (3) years as designated at the time of appointment and until their successors are appointed. Whenever a vacancy occurs, the vacancy shall be filled for the unexpired term in the same manner as the original appointment. No person shall serve on the Board for more than two (2) consecutive complete terms. The four (4) current members of the PVH Board with unexpired terms shall continue to serve until their terms expire.
(Ord. No. 9784, § 1, 9-8-92; Ord. No. 9799, § 2, 10-6-92; Ord. No. 9940, § 1, 8-24-93; Ord. No. 10268, § 1, 7-25-95; Ord. No. 12092, § 3, 3-18-08; Ord. No. 12239, § 1, 5-12-09; Ord. No. 12712, § 1, 3-26-13; Ord. No. 12891, §§ 1, 2, 1-6-15)

Sec. 35-18. Secretary; treasurer.

(a) The Mayor or Department head shall designate a secretary for the Passenger Vehicle For Hire Board who shall serve as the custodian of its records.

(b) The City Treasurer shall issue permits for those persons, companies, and vehicles approved by the Passenger Vehicle For Hire Board, bearing individual numbers for each taxicab licensed under such permit. Prior to issuing such permits, the City Treasurer shall collect such fees therefor as are authorized by this Article.
(Ord. No. 9784, § 1, 9-8-92; Ord. No. 12092, § 4, 3-18-08; Ord. No. 12891, § 1, 1-6-15)

Sec. 35-19. Jurisdiction; appeals.

The Passenger Vehicle For Hire Board shall have exclusive jurisdiction of the licensing and regulation of all vehicles for hire that are subject to this Chapter and shall constitute the sole administrative agency for the administration of all laws and ordinances relating to the licensing and regulation of all vehicles for hire, to issue certificates of convenience and necessity for the operation of vehicles for hire and to determine the number of vehicles for hire needed for the furnishing of transportation to the inhabitants of the city and the public in general. There is hereby imposed upon such Board the authority, power and duty to enforce the provisions of this ordinance, provided that nothing in this Section shall be construed to prohibit any court from imposing penalties provided by this Code for any violation of this Article. The actions of the Passenger Vehicle For Hire Board shall be final, subject to such judicial appeal as may be allowed by law.

***Editor's note—**Ord. No. 12891, § 1, adopted January 6, 2015, amended the title of div. 1, to read as set out herein. Previously div. 1 was titled Transportation Board.

The Passenger Vehicle For Hire Board shall also have exclusive jurisdiction to hear and rule on appeals from the Director of the Open Spaces Division of the Economic and Community Development Department related to the suspension, revocation or denial of a Launch Access Permit as provided for in Chapter 26, Article I, Section 26-22 of the Chattanooga City Code.
(Ord. No. 9784, § 1, 9-8-92; Ord. No. 12092, § 5, 3-18-08; Ord. No. 12891, § 1, 1-6-15; Ord. No. 13463, § 1, 5-28-19)

Sec. 35-20. Passenger Vehicle For Hire Inspector(s).

The Mayor shall appoint one (1) or more persons as Passenger Vehicle For Hire Inspector(s). The Passenger Vehicle For Hire Inspector(s) may have other duties. If the Passenger Vehicle For Hire Inspector(s) is not a regular police officer, he or she shall be appointed as a special police officer authorized to issue citations for violations of this Article.
(Ord. No. 9784, § 1, 9-8-92; Ord. No. 12092, § 6, 3-18-08; Ord. No. 12891, § 1, 1-6-15)

Editor's note—Ord. No. 12891, § 1, adopted January 6, 2015, amended the § 35-20 to read as set out herein. Previously § 35-20 was titled transportation inspector.

Sec. 35-21. Duties of chief of police and traffic engineer.

The chief of police and the Transportation Department shall advise the PVH Board when requested concerning those matters of public safety and proper traffic control.
(Ord. No. 9784, § 1, 9-8-92; Ord. No. 12891, § 3, 1-6-15)

ARTICLE III. REGULATION OF TAXICABS, LIMOUSINES, SHUTTLES, AND MOTOR VEHICLES TRANSPORTING PASSENGERS FOR HIRE

DIVISION 1. GENERALLY

Sec. 35-22. Definitions.

The following words and phrases, when used in this article, shall have the meanings respectively ascribed to them by this section:

Airport limousine: Every vehicle designed and/or constructed to accommodate and transport passengers, not more than twelve (12) in number, exclusive of the driver, having an operating agreement with an airport providing for a fixed passenger fare and a fixed schedule, the principal operations of which airport limousine is confined to areas between the airport and fixed points in municipalities, counties and the suburbs of the same within a forty (40) mile radius of such airport.

Certificate or certificate holder: A certificate of public convenience and necessity issued by the Passenger Vehicle For Hire Board, authorizing the holder thereof to conduct a vehicle for hire business within Chattanooga.

Chauffer: Every person who is employed by another for the principal purpose of driving a motor vehicle and every person who drives a school bus transporting school children or any motor vehicle when in use for the transportation of persons or property for compensation.

Commercial passenger boat company: A company that operates one (1) or more passenger vessels for hire upon navigable waterways.

Commuter van: A motor vehicle, except taxicabs or airport limousines, used primarily for hauling not more than fifteen (15) passengers to and from their regular places of employment.

Contract hauler: Any person, firm or corporation engaged in the transportation for compensation or hire of persons and/or property for a particular person or corporation to or from a particular place or places

under special or individual agreement or agreements, and not operating as a common carrier and not operating exclusively within the corporate limits of an incorporated city or town, or exclusively within the corporate limits of such city or town and the suburban territory adjacent thereto, except "contract hauler" does not exclude those engaged in the transportation of mobile homes for hire or compensation within an incorporated city or town.

Company: A person or entity issued a certificate of public convenience and necessity to operate a vehicle for hire under this Chapter.

Cruising: The driving of a vehicle for hire, except horse drawn carriages or pedicabs, on the streets, alleys or public places of Chattanooga in search of or soliciting prospective passengers for hire.

Department: The City of Chattanooga Police Department unless otherwise indicated or unless the context otherwise requires.

"Dispatch" means to operate a scheduling service in which requests for vehicles for hire are received by phone, in person, by the internet, or by any other voice, data or electronic communication, and vehicles for hire are scheduled or routed by relating information from the service to the vehicle for hire by radio or data device including, but not limited to, a device capable for any voice, data or electronic communication including cell phone, smart phone app, telephone land line, social media, e-mail, text message, radio, and sending a passenger vehicle for hire to transport a passenger by an authorized PVH Driver.

Driver's permit: The permission granted by the Passenger Vehicle For Hire Board to drive or operate a vehicle for hire upon the streets and public highways of the City of Chattanooga.

For-hire motor carrier: A person engaged in the transportation of goods or passengers for compensation.

"Hailing a vehicle for hire" means to signal a request for immediate transportation service by a passenger using a raised hand gesture wanting to be picked up for transportation. No vehicle for hire, other than a taxicab, may service a hailing passenger request. Hailing request for a vehicle for hire does not apply to requests made for transportation by services operating only on pre-approved routes.

Holder: A person to whom a certificate of public convenience and necessity has been issued.

Household goods: Personal belongings transported from one (1) residence to another by a motor carrier.

License to operate a vehicle: Any operator's or chauffeur's license or any other license or permit to operate a motor vehicle to transport passengers for hire under this Chapter.

Limousine: Any motor vehicle except a taxicab or sedan designed or constructed to accommodate and transport passengers for hire, with an extended wheel base and expanded seating capacity designed for the transportation of persons. The vehicle shall have additional rear seating capacity, area, and comforts; and shall be designed to transport not more than fourteen (14) persons, exclusive of the chauffeur/driver, and the principal operation of such vehicle is confined to the area within the corporate limits of cities and suburban territory adjacent thereto.

Manifest: A daily record prepared by a driver or dispatcher of a vehicle for hire of all trips made by such driver, showing time and place of origin, destination, number of passengers and the amount of fare of each trip.

Motor carrier: Any person, firm, partnership, association, joint stock company, corporation, lessee, trustee, or receiver appointed by any court whatsoever, operating any motor vehicle with or without semitrailers attached, upon any public highway for the transportation of persons or property, or both, or for providing or furnishing such transportation service, for hire as a common carrier.

Motor transportation agent: Any person, firm, partnership, association or corporation engaged, as principal or agent, in the selling, offering for sale, negotiation for, soliciting by advertisement or otherwise, arranging as an intermediary or otherwise, or that holds such person or firm out as one (1) who sells, provides, furnishes or arranges for, transportation for any person or persons over the highways of this state upon a share-expense plan or for fixed compensation, either in the private motor vehicles of persons not motor carriers or contract haulers not holding certificates of convenience and necessity, interstate permit, or contract hauler's permit permitting the transportation of passengers over such highways between the points for which such transportation is sold or provided, vehicle for hire does not apply to the transportation of children to and from school or for the Chattanooga Regional Transit Authority.

Motor vehicle: Any automobile, automobile truck, motor bus, for hire motor carrier, private carrier, shuttle, sedan, van, truck bus or any other self-propelled vehicle not operated or driven upon fixed rails or tracks engaged in the business of transporting passengers for hire on the streets, roads and public highways of the City of Chattanooga.

Owner: A person, entity or company authorized to operate a vehicle for hire business under this Article.

Permit: The authority given by the Passenger Vehicle For Hire Board to drive or operate a vehicle for hire upon the streets and public highways of the City of Chattanooga.

"Person" means any individual, partnership, corporation, association or public or private organization of any character.

Privilege: The authority given by the Passenger Vehicle For Hire Board to own and operate a vehicle for hire under the umbrella of a valid Certificate Holder upon the streets and public highways of the City of Chattanooga. A Privilege Holder is not required to be a Certificate Holder, but must operate a vehicle for hire under the umbrella of a Certificate Holder.

Private carrier: A person who provides transportation of property or passengers by a commercial motor vehicle and who is not a for-hire motor carrier.

Public highway: Every public street, alley, road, highway, or thoroughfare of every kind in the City of Chattanooga used by the public, whether actually dedicated to the public and accepted by the proper authorities or otherwise.

Rate card: A card issued by the Passenger Vehicle For Hire Inspector(s) for display in each taxicab or vehicle for hire as applicable, which contains the rates of fare then in force.

Rideshare: The traveling of two (2) or more persons by any mode of private passenger vehicle, including, but not limited to, carpooling, vanpooling, or bus pooling to any location incidental to another purpose of the driver for which compensation is neither accepted, collected, encouraged, promoted, or requested, and for which the primary purpose of the driver cannot be profit or revenue based.

Sedan: Any motor vehicle except a limousine or taxicab designed or constructed to accommodate and transport passengers for hire that does not have an extended wheel base or an expanded seating capacity designed for the transportation of persons. The vehicle has no additional rear seating capacity, area or comforts; is designed to transport not more than five (5) passengers, exclusive of the chauffeur/driver, the principal operation of which is confined to the area within the corporate limits of cities and suburban territory adjacent thereto, and is not operated on a fixed route or schedule.

Shuttle: Any motor vehicle designed or constructed to accommodate and transport not more than fifteen (15) passengers for hire, exclusive of the driver, the principal operation of which is confined to the area within the corporate limits of cities and suburban territory adjacent thereto, and is operated on a fixed route or schedule.

Taxicab or taxi: Any motor vehicle, except a limousine, transportation network company vehicle, or motor carrier of passengers, regularly engaged in the business of carrying passengers for hire, having a seating capacity of seven (7) or fewer persons including the driver and not operated on a fixed route or schedule.

Taxicab stand: A place alongside a street, or elsewhere, where the traffic engineer has authorized a holder of certificate of public convenience to park for picking up or discharging passengers.

Taximeter: A meter instrument or device attached to a taxicab which measures mechanically the distance driven and the waiting time upon which the fare is based.

Vehicle for hire: Any person, firm, partnership, association or corporation engaged, as principal or agent, in the selling, offering for sale, negotiation for, soliciting by advertisement or otherwise, arranging as an intermediary or otherwise, or that holds such person or firm out as one (1) who sells, provides, furnishes or arranges for, transportation for any person or persons over the streets, roads and public highways of the City of Chattanooga for a fare, donation, for free, or any fees or any form of remuneration or upon a share-expense plan or for fixed compensation, either in private or for hire motor vehicles or in the private motor vehicles of persons not motor carriers or contract haulers, an operator under an interstate permit or contract hauler's permit permitting the transportation of passengers over such highways between the points for which such transportation is sold or provided. Vehicle for hire does not apply to the transportation of children to and from school, the Chattanooga Area Regional Transit Authority, or courtesy vehicles. Vehicle for hire for purposes of regulation under this Chapter does not include any motor vehicle to the extent that such motor vehicle is regulated in a particular area by the Tennessee Department of Safety. Vehicles for hire include pedal carriages and rickshaws as modes of transportation-for-hire within entertainment, dining, scenic and/or historic areas of the center city and the use of electric personal assistive mobility devices or Segways (EPAMDs) to transport passengers for hire.

Waiting time: The time when a taxicab is not in motion from the time of acceptance of a passenger to the time of discharge, but such term does not include any time that the taxicab is not in motion if due to any cause other than the request, acts or fault of a passenger.
(Ord. No. 9784, § 1, 9-8-92; Ord. No. 12092, § 7, 3-18-08; Ord. No. 12412, §§ 1—3, 7-13-10; Ord. No. 12891, §§ 1, 4, 1-6-15)

Sec. 35-23. Equipment and maintenance of vehicles; appeals.

(a) *Inspection.* Prior to the use and operation of any vehicle under the provisions of this article, such vehicle shall be thoroughly examined and inspected by the Passenger Vehicle For Hire Inspector(s), and found to comply with the following minimum standards:

(1) All tires, where applicable, shall have more than three thirty-seconds (3/32) of an inch of tread.

(2) All vehicles for hire shall have an operable horn; a rear-view mirror; two (2) operable headlights; operable turn signals; and two (2) operable tail lights.

(3) The windshield must be unbroken and must be equipped with operable wipers.

(4) The motor vehicle's exhaust system and muffler must be in proper operating condition.

(5) The brakes and emergency brakes must be in working condition.

(6) There can be no major body damage and body replacement parts must match the original part in color. Any damage in excess of a five hundred dollar ($500.00) repair cost shall be deemed to be major property damage; however, any property damage which affects passenger comfort, convenience, or safety is also considered major property damage. Any major property damage shall be repaired within sixty (60) days of the event giving rise to the damage.

(7) The interior of the vehicle for hire shall be clean, with no torn seats, unpleasant odors, or broken windows.

(8) All doors of the vehicle for hire shall be in working order.

(9) All vehicles for hire shall be equipped with a taximeter and the owner shall certify to such meter being in proper working order unless otherwise authorized by the Board for contract services.

(10) Each vehicle shall be equipped with the same number of seat belts as was installed on the vehicle at the time of its manufacture.

(11) All taxis shall be equipped with two-way radios or cellular phones.

(12) All taxis shall have clear and visible identification numbers of size four (4) inches or larger, not to exceed three (3) digits placed on each side and on the rear of the taxicab.

(13) Reserved.

(14) Subject to applicable ordinances related to advertising and the rules of the Passenger Vehicle For Hire Board, it shall be lawful for any vehicle for hire to permit advertising matter to be affixed to or installed in or on such vehicles for hire. Bumper stickers are prohibited.

(15) Subject to the rules of the Passenger Vehicle For Hire Board, it shall be lawful for any vehicle for hire to permit safety devices, including shields, alarms, cameras or cash boxes in or on such vehicle for hire.

(16) Each vehicle for hire shall be equipped with the same number of operable seat belts as was installed on the vehicle at the time of its manufacture.

(17) All taxis shall pass an annual Hamilton County emissions test and submit verification of the test results to the PVH Inspector or Board.

(b) *Periodic inspections.* Every vehicle operating under this article shall be inspected annually by the Passenger Vehicle For Hire Inspector(s) to insure the continued maintenance of safe operating conditions. A vehicle for hire may be inspected at any time.

(c) *Cleanliness.* Every vehicle operating under this article shall be kept in a clean and sanitary condition, and shall at all times meet the minimum conditions set forth in subsection (a).

(d) *Appeals.* All decisions of the Passenger Vehicle For Hire Inspector(s) shall be appealable to the Passenger Vehicle For Hire Board provided the owner or operator shall file written notice of appeal within thirty (30) days following the action of the Passenger Vehicle For Hire Inspector(s).
(Ord. No. 9784, § 1, 9-8-92; Ord. No. 9799, §§ 3—5, 10-6-92; Ord. No. 12092, §§ 2, 8, 3-18-08; Ord. No. 12891, §§ 1, 5, 1-6-15)

Sec. 35-24. Designation of company name; color scheme and insignia.

(a) Each taxi shall bear on the outside of each front door, in painted letters, decal or other appropriate signage not less than four (4) inches nor more than six (6) inches in height, the name of the company and, in addition, may bear an identifying monogram or insignia. No vehicle covered by the terms of this article shall be licensed whose color scheme, identifying design, monogram or insignia to be used thereon shall in the opinion of the PVH Board conflict with or imitate any color scheme, identifying design, monogram or insignia used by a vehicle already operating under this article in such manner as to be misleading or tend to deceive or defraud the public. If, after a certificate of public convenience and necessity has been issued for a vehicle for hire under this article, the color scheme, identifying design, monogram or insignia thereof is changed so as to be, in the opinion of the PVH Board, in conflict with or imitate any color scheme,

identifying design, monogram or insignia used by any other person, owner or operator, in such manner as to be misleading or tend to deceive the public, the certificate of or certificate covering such taxicabs shall be suspended or revoked.

(b) Taxicabs or other vehicles for hire subject to this chapter currently licensed may continue to operate with existing exterior marking and color schemes up to sixty (60) days from the date of the adoption of this ordinance; but thereafter all vehicles operating from the same taxi stand shall be required to adopt unique color and exterior marking schemes as provided in subsection (a).

(c) Once a vehicle for hire shall cease to be operated as a motor vehicle used to transport passengers for hire and permitted or licensed hereunder, it shall not be operated for any other purpose until such exterior markings identifying the vehicle as a motor vehicle used to transport passengers for hire are obliterated. (Ord. No. 9784, § 9-8-92; Ord. No. 9799, § 6, 10-6-92; Ord. No. 12092, § 9, 3-18-08; Ord. No. 12891, §§ 1, 6, 1-6-15)

Sec. 35-25. Taximeters.

(a) All vehicles for hire operated under the authority of this article as a taxi shall be equipped with taximeters fastened in front of the passengers, visible to them at all times day and night. After sundown, the face of the taximeter shall be illuminated. Taximeters required by this Section shall be operated by a device of standard design and construction, operated either from the transmission or from one (1) of the front wheels by a flexible and permanently attached driving mechanism. Each taximeter shall denote when the vehicle is employed and when it is not employed. It shall be the duty of the driver to activate the taximeter into a recording position at the beginning of each trip and to deactivate such taximeter into a non-recording position at the termination of such trip.

(b) Taximeters shall be subject to inspection from time to time by the PVH Inspector(s). The PVH Inspector or any police officer is hereby authorized, either on complaint of any person or without such complaint, to inspect any meter, and upon discovery of any inaccuracy therein, to notify the person operating such vehicle for hire to cease operation. Thereupon, such vehicle for hire shall be kept off the highways until the taximeter is repaired and in required working condition to the satisfaction of the PVH Inspector and certified by a taximeter company authorized to repair and certify taximeters. The provisions of this section shall not apply to a vehicle for hire that has been approved by the PVH Board to charge a fare or compensation on a contract basis without the use of a taximeter.

(c) Taximeters shall be inspected, tested, certified and sealed annually by a taximeter company authorized to repair and certify taximeters.

(d) It shall be unlawful for an unauthorized person to tamper with a taximeter.

(e) It shall be unlawful to operate a passenger vehicle for hire that requires a taximeter in which the taximeter seal affixed thereto by a licensed taximeter company that has the seal been tampered with, broken or altered in any manner. A driver of a passenger vehicle for hire shall notify the registered owner to the motor vehicle, the holder of the Certificate of Convenience and Necessity and PVH Inspector by telephone immediately by telephone or other media, and in writing within twenty-four (24) hours upon discovery of any of the following with respect to the following equipment:

(1) Any material change to a taximeter in a vehicle for hire operated by the driver since the last inspection by the PVH Inspector; and

(2) Any taximeter seal in the passenger vehicle for hire operated by the driver that has been removed or tampered with.

(Ord. No. 9784, § 1, 9-8-92; Ord. No. 12092, § 10, 3-18-08; Ord. No. 12891, §§ 1, 7, 1-6-15)

Sec. 35-26. Rates of fare—Schedule.

(a) No owner or driver of a taxicab shall charge a greater sum for the use of a taxicab than the rates set below:

(1) There is hereby established a minimum rate to be charged for taxicab service. The minimum rate for taxicab charges in the City shall be $10.00 based on a $5.00 base rate/flag pull; and $2.50 per mile and $0.50 per waiting minute which will equal a maximum rate of $30.00 per hour of use. The rate shall be subject to a performance review by the Office of the Mayor.

(2) Nothing contained in this subsection shall prohibit a certificate holder from making a contractual agreement with any passenger, company, agency or organization to furnish transportation for employees, associates, clients, patients, customers or members at a rate that is based on mileage, number of passengers, number of trips, number of passenger hours, weekly or monthly fees, or any other reasonable and calculable basis, irrespective of the mileage charges, minimum charges, and waiting time charges contained in this chapter or the certificate holder's filed rates for ordinary radio dispatch, taxicab stand, personal call or hailed service. Such a contractual agreement that provides for rates that differ from the rates ordinarily charged by the taxicab operator must be recorded upon a written document that is legally executed by all parties and kept on file at the certificate or permit holders place of business subject to inspection at any time by the Passenger Vehicle For Hire Board or Inspector.

(3) All taxicab drivers shall drive the shortest and most direct route in transporting a passenger from the point of pick-up to the point of destination unless requested otherwise by the passenger.

(4) There will be an additional charge for waiting time which shall be up to a maximum of fifty cents ($0.50) for each one (1) minute of waiting.

(5) The Passenger Vehicle For Hire Board may establish one (1) or more "meter zones" where all trips that have their origin and destination in the zone may be charged a flat rate providing the rate shall be less than or substantially equivalent to the rates authorized under paragraph (a) of this Section.

(6) The Passenger Vehicle For Hire Board may establish a single fare structure for all taxi trips beginning or ending at Lovell Field with origin or destination within Chattanooga's corporate limits which fare shall be reasonably related to the cost of providing such services.

(7) The Passenger Vehicle For Hire Inspector(s) shall furnish rate cards to the holders of certificates of public convenience and necessity. Said rate cards shall be displayed conspicuously in each taxicab. Failure to display said rate card in a conspicuous manner shall be grounds for revocation or suspension of the privilege for the taxicab failing to display the rate card.

(8) The Passenger Vehicle For Hire Board may approve temporary emergency rates for sixty (60) days.

(b) No owner, driver or operator of a vehicle for hire without a taximeter shall charge a greater sum for the use of a vehicle for hire than the rates set below:

(1) Fares for contractual services shall be not less than Fifty Dollars ($50.00) per hour. Fares for an airport limousine shall not be higher than a fare authorized by the Chattanooga Airport Authority. A limousine service, an, sedans and vans or other vehicles for hire may not charge fares based upon fractions of an hour except after the second hour of service.

(2) An agreed upon fare with a passenger or passengers that simulates or mirrors a fare charged by an operator of a taxicab.

(c) See below rate schedule:

Minimum Rate - Taxicab Service: $10 (based on $5 base rate/flag pull) $2.50 per mile and $0.50 per waiting minute (max. rate of $30 per hour of use) Additional charge waiting time: Max $0.50 for each one (1) minute of waiting	Fares for contractual services: Not less than $50 per hour Airport limousine not higher than Airport Authority

(Ord. No. 9784, § 1, 9-8-92; Ord. No. 9799, § 7, 10-6-92; Ord. No. 11934, 2-13-07; Ord. No. 12092, § 11, 3-18-08; Ord. No. 12412, §§ 4, 5, 7-13-10; Ord. No. 12891, §§ 1, 8, 1-6-15; Ord. No. 14372, § 1, 6-16-26)

Sec. 35-27. Same—Filing of changes.

Each vehicle for hire company shall be required to file a list of their rates thirty (30) days prior to change with the Passenger Vehicle For Hire Inspector(s), and there shall not be more than one (1) rate charged by any one (1) vehicle for hire. Rates charged by each vehicle for hire shall be the same as that on file with the Passenger Vehicle For Hire Inspector(s) and shall be posted conspicuously in the motor vehicle. Additional charges for services such as waiting time or baggage handling shall be submitted as a part of the fare structure. Rates may not be changed more often than semi-annually except for extraordinary cause such as but not limited to marked increases in fuel costs caused by shortages, government policy, or other events beyond the control of the owner of the taxicab or vehicle for hire.
(Ord. No. 9784, § 1, 9-8-92; Ord. No. 12092, § 12, 3-18-08; Ord. No. 12891, § 1, 1-6-15)

Sec. 35-28. Receipts.

The driver or chauffeur of any vehicle for hire shall upon request by the passenger, provide a receipt for the amount charged, either by a mechanically printed receipt or by a specially prepared receipt on which shall be the name of the owner, the amount of meter reading or charges and date of transaction.
(Ord. No. 9784, § 1, 9-8-92; Ord. No. 12092, § 13, 3-18-08)

Sec. 35-29. Refusal of passenger to pay legal fare.

It shall be unlawful for any person to refuse to pay the legal fare of any vehicle for hire after having hired the same, and it shall be unlawful for any person to hire any vehicle for hire with intent to defraud the person from whom it is hired of the value of such service.
(Ord. No. 9784, § 1, 9-8-92; Ord. No. 12092, § 14, 3-18-08)

Sec. 35-30. Solicitation of passengers by drivers; drivers to remain in or near vehicles.

No driver or chauffeur of a vehicle hire for a vehicle for hire shall solicit passengers for a vehicle for hire, except when sitting in the driver's or chauffeurs' compartment of such motor vehicle for hire or while standing immediately adjacent to the curb side thereof. The driver or chauffer of any vehicle for hire shall remain in the driver's compartment or immediately adjacent to his vehicle at all times when such motor vehicle is upon the public streets or public highways; except, that when necessary, a driver may be absent from his vehicle for not more than ten (10) consecutive minutes when the vehicle for hire is in service; provided further, that nothing herein contained shall be held to prohibit any driver or chauffeur from alighting to the street or sidewalk for the purpose of assisting passengers into or out of such vehicle.
(Ord. No. 9784, § 1, 9-8-92; Ord. No. 12092, § 15, 3-18-08)

Sec. 35-31. Prohibited manner of solicitation.

No driver or chauffeur of a vehicle for hire shall solicit patronage by obstructing the movement of any persons, or by following any person for the purpose of soliciting patronage.
(Ord. No. 9784, § 1, 9-8-92; Ord. No. 12092, § 16, 3-18-08)

Sec. 35-32. Receipt and discharge of passengers on sidewalk only.

Drivers or chauffeurs of a vehicle for hire shall not receive or discharge passengers in the roadway but shall pull to the extreme right-hand side of the road or to the sidewalk and there receive or discharge passengers, except upon one-way streets, where passengers may be discharged at either side of the roadway in the absence of a sidewalk.
(Ord. No. 9784, § 1, 9-8-92; Ord. No. 12092, § 17, 3-18-08)

Sec. 35-33. Cruising.

No driver or chauffeur of a vehicle for hire shall cruise in search of passengers, except in such areas and at such times as shall be designated by the PVH Board or Transportation Department. Such areas and times shall only be designated when the PVH Board finds that a vehicle for hire would not congest traffic or be dangerous to pedestrians and other vehicles.
(Ord. No. 9784, § 1, 9-8-92; Ord. No. 12092, § 18, 3-18-08; Ord. No. 12891, §§ 1, 9, 1-6-15)

Sec. 35-34. Solicitation of other common-carrier passengers prohibited.

No driver, owner or operator of a vehicle for hire shall solicit passengers at an interstate bus station, rail station, airport or at any bus stops along any established route of the Chattanooga Regional Transportation Authority.
(Ord. No. 9784, § 1, 9-8-92; Ord. No. 12092, § 19, 3-18-08)

Sec. 35-35. Reserved.
(Ord. No. 9784, § 1, 9-8-92)

Sec. 35-36. Additional passengers.

No driver or chauffeur of a vehicle for hire shall permit, except as otherwise provided in this article, any other person to occupy or ride in such vehicle for hire unless the person first employing the vehicle for hire shall consent to the acceptance of additional passengers. There is hereby authorized a charge for additional passengers not to exceed five dollars ($5.00) per passenger when such passenger is accompanying the original passenger and proceeding to the same destination. When the additional passenger rides beyond the original passenger's destination he shall be charged only for the additional distance so traveled. This section shall not apply if the vehicle for hire has an agreement to transport multiple passengers.
(Ord. No. 9784, § 1, 9-8-92; Ord. No. 12092, § 20, 3-18-08; Ord. No. 12412, § 6, 7-13-10)

Sec. 35-37. Restrictions on number of passengers.

No driver or chauffeur of a vehicle for hire shall permit more persons to be carried in a vehicle for hire as passengers than the rated seating capacity of his or her vehicle for hire, as stated in the certificate for such vehicle issued by the Passenger Vehicle For Hire Board.
(Ord. No. 9784, § 1, 9-8-92; Ord. No. 12092, § 21, 3-18-08; Ord. No. 12891, § 1, 1-6-15)

Sec. 35-38. Refusal to carry orderly passengers prohibited.

No driver or chauffeur of a vehicle for hire shall refuse or neglect to convey any orderly person or persons, upon request, unless previously engaged or unable or forbidden by the provisions of this article to do so.
(Ord. No. 9784, § 1, 9-8-92; Ord. No. 12092, § 22, 3-18-08)

Sec. 35-39. Taxicab stands—Establishment; use.

(a) *Establishment.* The Passenger Vehicle For Hire Board is hereby authorized and empowered to and shall establish taxicab passenger loading zones or stands upon the streets of the City in such places as, in its discretion, it deems proper. The Passenger Vehicle For Hire Board is further authorized to eliminate any taxicab passenger loading zones or stands now in use, or later established. The written approval of the abutting property owners of such places shall be required before the creation of such passenger loading zones or stands. The traffic engineer shall make an investigation of the traffic conditions at such places and shall thereafter file written recommendations with the Passenger Vehicle For Hire Board. The Passenger Vehicle For Hire Board shall abide by these recommendations.

(b) *Open stands.* Any taxicab passenger loading zone or stand established in accordance with subsection (a) of this section, exclusive of those stands previously assigned to the sole use of specific holders shall be public or open passenger loading zones or stands, available to all holders. Any new or additional passenger loading zones or stands established in the immediate vicinity of, adjacent to, in front of or in the rear of previously assigned stands shall be public or open passenger loading zones or stands available to all holders, but such passenger loading zones or stands shall not be available to holders of exclusive stand privileges at such locations. Nothing contained herein shall be construed as denying, or intending to deny any passenger the right to take a cab of his or her choice or preference at any such stand.

(c) *Starters.* Each holder operating a taxicab stand as provided for in this article may be allowed where it would facilitate the convenience of the public, in the discretion of the Passenger Vehicle For Hire Board, to have on duty at such stand a starter or other employee for the purpose of assisting in the loading and unloading of passengers from taxicabs, for receiving calls and dispatching cabs, and for soliciting passengers at such stands. The words "at such stands" shall mean that point of the sidewalk immediately adjacent to and of equal length with such stand. It shall be unlawful for any such starter or other employee to go beyond the area herein designated for the purpose of soliciting passengers or assisting them to board such cabs.

(d) *Obstruction, etc.* It shall be unlawful for any holder to obstruct or interfere with the free use and enjoyment of any public or open taxicab stand by any other holder, or to interfere with, obstruct or otherwise impede the use of any assigned stand by the holder of such stand. Each occurrence affecting such "other holder" shall be deemed a separate offense. Any holder found guilty of three (3) offenses within any twelve (12) months period shall have his certificate suspended for not less than thirty (30) days, or more than ninety (90) days for a first offense. A second offense or subsequent offense within one (1) year shall be subject to a suspension of not less than ninety (90) days or more than one (1) year.
(Ord. No. 9784, § 1, 9-8-92; Ord. No. 12092, § 2, 3-18-08; Ord. No. 12891, § 1, 1-6-15)

Sec. 35-40. Same—Use by other vehicles prohibited.

(a) Private or other vehicles for hire shall not at any time occupy the space upon the streets that have been established as taxicab stands.

(b) It shall be unlawful for any agent or employee or any entity required to have a City of Chattanooga business license pursuant to the laws and ordinance of the City of Chattanooga to direct passengers to any motor transportation agent that does not have a certificate of public convenience to operate a vehicle for hire issued under this Chapter or for any entity required to have a business license to knowingly permit or allow any of its agents or employees to direct passengers to any to any motor transportation agent that does not have a certificate of public convenience to operate a vehicle for hire under this Chapter.

(c) It shall be unlawful for any agent or employee or any entity required to have a City of Chattanooga business license pursuant to the laws and ordinance of the City of Chattanooga to allow a motor vehicle or motor transportation agent that has not been issued a certificate of public convenience to operate a vehicle for hire issued under this Chapter to stop, park, or otherwise place a vehicle for hire on such entities premises or in the loading or curbside area of such business.
(Ord. No. 9784, § 1, 9-8-92; Ord. No. 12092, § 23, 3-18-08)

Sec. 35-41. Duty to render service; central place of business required.

(a) All persons engaged in the business of operating a passenger vehicle for hire as a taxi under the provisions of this Chapter shall render an overall service to the public desiring to use vehicles for hire. Vehicles for hire shall answer all calls received for service within the corporate limits of the City as soon as they can do so and if such services cannot be rendered within a reasonable time, the vehicle for hire shall notify the prospective passenger(s) how long it will take to before such call can be answered. Any holders

of certificates of public convenience and necessity or privilege authorized by the PVH Board who shall refuse to accept a call for service shall be deemed a violator of the requirements of this Chapter and certificates of public convenience and necessity or privilege may be suspended or revoked.

(b) Holders of certificates of public convenience and necessity shall maintain a central place of business. The central place of business may be used for the purpose of receiving and dispatching calls.
(Ord. No. 9784, § 1, 9-8-92; Ord. No. 12092, § 24, 3-18-08; Ord. No. 12891, §§ 1, 10, 1-6-15)

Sec. 35-42. Drivers' manifests.

Every driver or chauffeur of a vehicle for hire or dispatcher for a vehicle for hire company shall maintain a daily manifest upon which is recorded all trips made each day, showing the time and place of origin and destination of each trip and the amount of fare and number of passengers. All such completed manifests shall be returned to the vehicle for hire owner by the driver or chauffeur at the conclusion of his tour of duty. The forms for each manifest shall be furnished to the driver or chauffeur by the vehicle for hire company or owner and shall be of a character approved by the Passenger Vehicle For Hire Board.

Every vehicle for hire owner or company shall retain and preserve all driver and chauffeur manifests in a safe place for at least the current year and the calendar year next preceding the current calendar year, and such manifests shall be available for inspection by the Passenger Vehicle For Hire Inspector(s) and the Passenger Vehicle For Hire Board.
(Ord. No. 9784, § 1, 9-8-92; Ord. No. 9799, § 8, 10-6-92; Ord. No. 12092, §§ 2, 25, 3-18-08; Ord. No. 12891, § 1, 1-6-15)

Sec. 35-43. Records and reports by certificate holders.

(a) Every holder of a certificate of public convenience and necessity shall keep accurate records of receipts from operations, operating and other expenses, capital expenditures and such other operating information as may be required by the Passenger Vehicle For Hire Board. Every such holder shall maintain the records containing such information and other data required by this article at a place readily accessible for examination by the Passenger Vehicle For Hire Inspector(s) and the Passenger Vehicle For Hire Board. Except to the extent deemed advisable by either the Passenger Vehicle For Hire Inspector(s) or Passenger Vehicle For Hire Board to administer or enforce the provisions of this article, these records shall not be copied or if copied for administrative purposes retained for periods longer than necessary for such administration.

(b) The owner, driver or chauffeur of a vehicle for hire shall report any accident involving such vehicle for hire to the police department. The company shall notify the Passenger Vehicle For Hire Inspector of such accident by 9:00 a.m. on the next business day.

(c) No vehicle for hire involved in an accident where structural damage has occurred to the vehicle for hire shall be operated again until the vehicle for hire has been inspected by the Passenger Vehicle For Hire Inspector or a police officer and the vehicle for hire has been certified for service in writing by a licensed motor vehicle mechanic. The company shall present such written certification to the Passenger Vehicle For Hire Inspector.
(Ord. No. 9784, § 1, 9-8-92; Ord. No. 12092, §§ 2, 26, 3-18-08; Ord. No. 12891, § 1, 1-6-15)

Sec. 35-44. Duty of Passenger Vehicle For Hire Inspector(s) to enforce ordinance.

The Passenger Vehicle For Hire Inspector(s) is/are hereby authorized and are instructed to watch and observe the conduct of holders of certificates of public convenience and necessity and drivers operating under this article. Upon discovering a violation of the provisions of this article, the Passenger Vehicle For

Hire Inspector(s) shall report the same to the Passenger Vehicle For Hire Board, which will order or take appropriate action. The Passenger Vehicle For Hire Inspector(s) may also cite the violator to City Court for violations of this article or other applicable law or ordinance.
(Ord. No. 9784, § 1, 9-8-92; Ord. No. 12092, § 2, 3-18-08; Ord. No. 12891, § 1, 1-6-15)

Editor's note—Ord. No. 12891, § 1, adopted January 6, 2015, amended the § 35-44 to read as set out herein. Previously § 35-44 was titled duty of transportation inspector(s) to enforce ordinance.

Sec. 35-45. Proof of financial responsibility of vehicles for hire required.

(a) All vehicle for hire companies shall be required to show proof of liability insurance or a certificate of self-insurance issued pursuant to T.C.A. § 55-12-111 to the PVH Board for each motor vehicle engaged in the business of transporting passengers for hire and operated under their franchise. The holder of a certificate of public convenience and necessity shall immediately notify the PVH Inspector by telephone or other media, and in writing within twenty-four (24) hours if a liability insurance policy is canceled or terminated on a passenger vehicle for hire. A passenger vehicle for hire shall not be operated while the insurance is terminated or cancelled.

(b) The insurance required by this section shall cover each vehicle for hire operated under their certificate of public convenience and necessity.

(c) Failure to maintain the insurance required by this section shall be grounds for revocation of a holder's certificate.

(d) All vehicles for hire must meet the insurance requirement of this section even if the privilege for a vehicle for hire is not in use or has been suspended by this board. If a vehicle for hire becomes inoperable for any reason other than suspension of the privilege and is not being used in the business of transporting passengers for hire, including during the period of a Temporary Medical Exception as set forth in Section 35-59(c), the certificate holder shall notify the PVH Inspector in writing that the vehicle is inoperable and/or not in use and insurance will no longer be required after such written notice is given. The certificate holder shall keep an accurate list of all privileges for vehicles operating under the certificate holder's franchise or umbrella.
(Ord. No. 9784, § 1, 9-8-92; Ord. No. 12092, §§ 2, 27, 3-18-08; Ord. No. 12412, § 7, 7-13-10; Ord. No. 12639, § 1, 8-21-12; Ord. No. 12891, §§ 1, 11, 1-6-15)

Sec. 35-45.1 Immobilization and Impoundment of unauthorized passenger vehicles for hire.

(a) A motor vehicle that is operated as a passenger vehicle for hire without a privilege or certificate of public convenience and necessity as required by this Chapter is subject to being ticketed, immobilized, or impounded all in accordance with the remedies established in this Chapter.

(b) The PVH Inspector or police officer that orders the impoundment of a motor vehicle based upon its use in violation of this Chapter shall, within three (3) business days of impoundment a motor vehicle, issue notice to the registered owner of the motor vehicle that the motor vehicle has been impounded by the PVH Inspector. The registered owner, or his agent, of the motor vehicle shall have a hearing before the PVH Board or in City Court within to request that the motor vehicle be released. If the registered owner of the motor vehicle waives their right to a hearing in writing within ten (10) days of the issuance of the notice by the PVH Inspector, the motor vehicle shall be deemed abandoned to have been and maybe disposed of as contemplated by law.

(c) At each hearing requested pursuant to this section, the PVH Inspector shall have the burden of proving by a preponderance of the evidence that the impounded motor vehicle was used as a passenger vehicle for hire in violation of this Chapter.

(d) If the determination of the PVH Board or City Court is favorable to the registered owner of the motor vehicle, the PVH Board or City Court shall order the release of the motor vehicle.

(e) If the determination of the PVH Board or City Court is adverse to the registered owner of the motor vehicle, the PVH Board or City Court shall require the PVH Inspector to proceed to dispose of the motor vehicle subject to judicial review.

(f) An appeal from the City Court or PVH Board's determination may be made to a court of competent jurisdiction as provided by law. If the court finds that the impoundment was not justified, the PVH Board and Inspector shall release the motor vehicle to the registered owner or registered owner's authorized representative.
(Ord. No. 12891, §§ 1, 4, 1-6-15)

DIVISION 2. CERTIFICATE OF PUBLIC CONVENIENCE AND NECESSITY

Sec. 35-46. Required.

(a) No person shall operate or permit a vehicle for hire owned or controlled by him and as defined in Section 35-22 of this Code as amended, upon the streets, roads and public highways of Chattanooga without having first obtained a certificate of public convenience and necessity and permits from the Passenger Vehicle For Hire Board.

(b) Any type of motor vehicle for hire authorized to operate under this Chapter through a privilege must be operated under the franchise or umbrella of a valid Certificate of Public Convenience and Necessity approved by the Passenger Vehicle For Hire Board and pursuant to rules and policies set by the Passenger Vehicle For Hire Board. The Passenger Vehicle For Hire Board must approve the number of privileges and any transfer of privileges associated with a Certificate Holder.
(Ord. No. 9784, § 1, 9-8-92; Ord. No. 12092, §§ 2, 28, 3-18-08; Ord. No. 12149, § 1, 8-5-08; Ord. No. 12412, § 8, 7-13-10; Ord. No. 12891, § 1, 1-6-15)

Sec. 35-47. Application.

(a) An application for a certificate of public convenience and necessity shall be filed with the Passenger Vehicle For Hire Board upon forms provided by the Passenger Vehicle For Hire Inspector(s) and upon the payment of a nonrefundable fee of one thousand dollars ($1,000.00), plus fifty dollars ($50.00) per vehicle for hire. A renewal application and a fee of fifty ($50.00), plus ten dollars ($10.00) per vehicle for hire shall be filed on or before the annual renewal date of the certificate of public convenience and necessity. Such application shall be verified under oath and shall furnish the following information:

(1) The name and address of the applicant.

(2) The financial status of the applicant, including the amounts of all unpaid judgments against the applicant and the nature of the transaction or acts giving rise to such judgments.

(3) The experience of the applicant in the transportation of passengers.

(4) Any facts which the applicant believes tend to prove that public convenience and necessity require the granting of the certificate.

(5) The number of vehicles and their make and year models to be operated or controlled by the applicant, the interest that the applicant will have in each of the vehicles, and the location of proposed depots and terminals.

(6) The color scheme and insignia to be used to designate the vehicles of the applicant.

(7) Whether or not the applicant has been convicted of a felony within ten (10) years, or any offense involving driving under the influence of drugs or alcohol. The applicant shall submit a complete Tennessee Bureau of Investigation Tennessee Criminal History of the applicant and any owner of the business having a ten percent (10%) or greater financial interest in the business at the cost of the applicant.

(8) Rules for training drivers.

(9) Rules and procedures for driver appearance and conduct.

(10) Such further information as the Passenger Vehicle For Hire Board may require.

(b) No application for public convenience and necessity to operate a taxicab company shall be accepted for less than five (5) taxicabs, excluding any person or company who has regularly operated a taxi business in Chattanooga prior to the effective date of this Article.

(c) If an application is incomplete, it shall be returned to the applicant for completion prior to being acted upon.

(d) Each application shall be signed by the owner(s) or duly authorized officer of a vehicle for hire company or entity, which shall be deemed to be a certification that the information on the application is accurate. Any material misrepresentation made on an application shall be grounds for revocation of the certificate.

(e) The lawful operation of a taxi or vehicle for hire business in Chattanooga under this Chapter on and prior to January 1, 2008, shall not be affected by this Ordinance.
(Ord. No. 9784, § 1, 9-8-92; Ord. No. 9799, § 9, 10-6-92; Ord. No. 12092, §§ 2, 29, 3-18-08; Ord. No. 12412, §§ 9, 10, 7-13-10; Ord. No. 12891, § 1, 1-6-15)

Sec. 35-48. Public hearing.

Upon the filing of an application for a certificate of public convenience and necessity and/or a request for additional privileges, the PVH Board shall fix a time and place for a public hearing thereon, to be not less than thirty (30) days after receipt of the application or request. Notice of such hearing shall be given to the applicant and to all persons to whom certificates of public convenience and necessity have been theretofore issued. Due notice shall be given the general public by posting a notice of such hearing in the morning and evening newspapers at least seven (7) days prior to the public hearing. Any person may file with the PVH Board a memorandum in support of or opposition to the issuance of a certificate of public convenience or a request for additional vehicle for hire permits. The PVH Board may call special meetings for the consideration of new certificates of public convenience and necessity and/or applications for new vehicle for hire permits. The PVH Board shall adopt procedures to govern the consideration of such applications.
(Ord. No. 9784, § 1, 9-8-92; Ord. No. 11075, § 1, 10-3-00; Ord. No. 12092, §§ 2, 30, 3-18-08; Ord. No. 12412, § 11, 7-13-10; Ord. No. 12891, §§ 1, 12, 1-6-15)

Sec. 35-49. Issuance.

(a) If the PVH Board finds that further vehicle for hire service in Chattanooga is required for the public's convenience and necessity and that the applicant is fit, willing and able to perform such public transportation and to conform to the provisions of this article, the PVH Board shall issue a certificate, stating the name and address of the applicant, the number of vehicles authorized upon such certificate and the date of issuance; otherwise, the application shall be denied. Provided that should the application be incomplete, the PVH Board shall not issue a certificate of public convenience and necessity until any omissions are cured. Any material misrepresentation in the application shall be a basis for denial of a certificate of public convenience and necessity. If the applicant or any owner of the business having a ten

percent (10%) or greater financial interest in the business has been convicted of two (2) or more felonies within ten (10) years of the date of the application, the certificate shall be denied. If the applicant or any owner of the business having a ten percent (10%) or greater financial interest in the business has been convicted of a felony within ten (10) years, the certificate may be denied.

(b) In making the above findings, the PVH Board shall take into consideration the numbers of vehicles for hire already in operation, whether existing transportation is adequate to meet the public need, the probable effect of increased service on local traffic conditions and the character, experience and responsibility of the applicant.

(c) The PVH Board may place a cap on the number of privileges that may be authorized to operate under a Certificate of Public Convenience and Necessity. Permits for a vehicle for hire under this Chapter which are not regularly used shall not be renewed.

(d) A certificate holder shall have thirty (30) days from the date a vehicle for hire is approved to make such vehicle for hire operational. Applicants shall have ninety (90) days following the approval of a certificate of public convenience and necessity to obtain and have inspected all vehicles for hire authorized by the PVH Board. If a vehicle for hire shall not be operated for sixty (60) or more days, the privilege for that vehicle for hire shall be revoked by the PVH Board unless the certificate holder notifies the PVH Board and obtains a replacement vehicle that is inspected and approved by the PVH Board Inspector or the PVH Board approves additional time with adequate justification.

(e) The action of the PVH Board in issuing or denying such a certificate shall be final, except as it may be subject to review at law.
(Ord. No. 9784, § 1, 9-8-92; Ord. No. 12092, §§ 2, 31, 3-18-08; Ord. No. 12412, §§ 12—15, 7-13-10; Ord. No. 12891, §§ 1, 13, 1-6-15)

Sec. 35-50. Proof of financial responsibility required.

No certificate of public convenience and necessity shall be issued or continued in operation for a vehicle for hire unless there is in full force and effect proof of financial responsibility for each vehicle authorized in an amount in accordance with the minimum limits set by the law of the State of Tennessee for financial responsibility of owners and operators of motor vehicles. Such security shall inure to the benefit of any person who shall be injured or who shall sustain damage to property proximately caused by the negligence of a holder, his servants or agents. Proof of financial responsibility shall be established in accordance with standards set by the law of the State of Tennessee. Proof of financial responsibility shall be filed with the Passenger Vehicle For Hire Inspector(s) and shall have as a surety thereon a surety company authorized to do business in the State of Tennessee or a certificate of self-insurance issued by the Commissioner of Safety as provided by T.C.A. § 55-12-111.
(Ord. No. 9784, § 1, 9-8-92; Ord. No. 12092, §§ 2, 32, 3-18-08; Ord. No. 12891, § 1, 1-6-15)

Sec. 35-51. Reserved.

Sec. 35-52. Transfer.

No certificate of public convenience and necessity may be sold, assigned, mortgaged or otherwise transferred, nor may there be any modification of ownership as to stock transfer, new or additional partners, etc., by a holder of a certificate of public convenience and necessity without the consent of the Passenger Vehicle For Hire Board and payment of a transfer and inspection fee of Fifty Dollars ($50.00).

Provided that in the event of a death of a holder, the certificate may be devised to or inherited by a spouse or child, and they shall be granted a certificate by the Passenger Vehicle For Hire Board providing they are otherwise qualified for the certificate.
(Ord. No. 9784, § 1, 9-8-92; Ord. No. 9799, § 11, 10-6-92; Ord. No. 12092, §§ 2, 33, 3-18-08; Ord. No. 12412, § 16, 7-13-10; Ord. No. 12891, § 1, 1-6-15)

Sec. 35-53. Suspension and revocation.

(a) A certificate of public convenience and necessity and/or any privileges associated thereto issued under the provisions of this division may be revoked or suspended by the Passenger Vehicle For Hire Board if the holder thereof:

(1) Violates any of the provisions of this article, including failing to maintain financial responsibility.

(2) Allows a vehicle for hire to be operated by a person who does not have a driver's permit issued by the Passenger Vehicle For Hire Board or a chauffeur's license issued by the State of Tennessee.

(3) Fails to maintain the general qualifications applicable to the issuance of a certificate of public convenience and necessity, including, but not limited to operating the number of vehicles for hire that were required for the issuance of a certificate of public convenience and necessity.

(4) Willfully fails to submit a vehicle for hire for inspection.

(5) Fails to report an accident as required by this Chapter.

(6) Changes its address, company name, officers, ownership or otherwise make any material change in the company or its identity from that set forth upon the initial application to operate a vehicle for hire.

(7) Violates any provisions of this Chapter.

(b) Prior to suspension or revocation, the holder shall be given notice of the proposed action to be taken and shall have an opportunity to be heard. The action of the Passenger Vehicle For Hire Board at such hearing shall be final subject to review at law.
(Ord. No. 9784, § 1, 9-8-92; Ord. No. 12092, §§ 2, 34, 3-18-08; Ord. No. 12412, § 17, 7-13-10; Ord. No. 12891, § 1, 1-6-15)

DIVISION 3. DRIVERS' PERMITS

Sec. 35-54. Required.

(a) All certificate holders and privilege holders are required to maintain a current driver's permit or a chauffeur's license issued by the State of Tennessee. The permit shall be obtained in the manner provided for in this chapter. Any person holding a chauffeurs' license issued by the State of Tennessee shall not be required to apply for a drivers' permit under this division but shall provide a copy of the license to the Passenger Vehicle For Hire Board and inspector(s) and shall be required to produce such chauffeurs' license upon request by a law enforcement officer.

(b) No person shall operate as a vehicle for hire or operate a motor vehicle to transport passengers for hire upon the streets, roads and public highways of Chattanooga, and no person who owns or controls a motor vehicle engaged in the business of transporting passengers for hire shall permit such motor vehicle to be so driven and no motor vehicle licensed by the PVH Board shall be so driven at any time for hire, unless the driver or chauffeur of such motor vehicle shall first obtain and shall have then in force a driver's permit issued under the provisions of this division or a chauffeurs' license.
(Ord. No. 9784, § 1, 9-8-92; Ord. No. 12092, §§ 2, 35, 3-18-08; Ord. No. 12412, § 18, 7-13-10; Ord. No. 12891, §§ 1, 15, 1-6-15)

Sec. 35-55. Application.

An application for a driver's permit or annual renewal shall be filed with the Passenger Vehicle For Hire Board on forms provided by the Passenger Vehicle For Hire Inspector(s). Such application shall be verified under oath and shall contain the following information:

(a) The name, residential address, telephone number and date of birth of the applicant. No applicant under twenty-one (21) years of age shall be accepted or approved by the Passenger Vehicle For Hire Board. Applicants for a driver's permit who have a chauffeurs' license issued by the State of Tennessee shall be subjected to a background investigation including providing a statement from a licensed physician and federal Department of Transportation drug and alcohol test (hereafter "DOT drug test") as required by City Code § 35-56.

(b) Proof of a license issued by the State of Tennessee with a for-hire "F" endorsement or any other license or endorsement approved by the Passenger Vehicle For Hire Board.

(c) A statement from a licensed physician that certifies that he or she is in good physical condition and is free from epilepsy, vertigo, or any other medical condition that is likely to substantially impair the applicant's ability to safely operate a motor vehicle or that is likely to make the applicant an unsafe or unsatisfactory driver and federal Department of Transportation drug and alcohol test (hereafter "DOT drug test") on a form approved by the Passenger Vehicle For Hire Board or such examination as approved or required by the Passenger Vehicle For Hire Board and has been examined for hearing. The Passenger Vehicle For Hire Board or Passenger Vehicle For Hire Inspector may require an applicant to submit a statement of compliance with this subsection at any time after approval of the initial application.

(d) A statement from a licensed physician or licensed optometrist that certifies that the applicant is free of defective vision, which cannot be corrected by eyeglasses or contact lenses, that is likely to substantially impair the applicant's ability to safely operate a motor vehicle.

(e) At the time the application or renewal is filed, the applicant shall pay to the Passenger Vehicle For Hire Board a fee of ten dollars ($10.00).

(f) The Passenger Vehicle For Hire Inspector may authorize driver to operate a vehicle for hire pending final approval of the Passenger Vehicle For Hire Board for sixty (60) days if the following requirements are met:

(1) The driver has filed an application with the Passenger Vehicle For Hire Inspector's office;

(2) The driver has paid the fees necessary to approve the application;

(3) The driver provides a statement disclosing any felony convictions or any convictions involving driving under the influence of drugs or alcohol or sexually related offenses within ten (10) years of the date of the driver's permit application and provides a complete Tennessee Bureau of Investigation Tennessee Criminal History of the applicant;

(4) The vehicle for hire that the temporary driver will operate has met the financial responsibility requirements of this Chapter;

(5) The Board shall reject any applicant who makes a false statement under this section.

(Ord. No. 9784, § 1, 9-8-92; Ord. No. 9799, § 12, 10-6-92; Ord. No. 12092, §§ 2, 36, 3-18-08; Ord. No. 12149, § 2, 8-5-08; Ord. No. 12239, § 2, 5-12-09; Ord. No. 12412, § 19, 7-13-10; Ord. No. 12891, § 1, 1-6-15)

Sec. 35-56. Public transportation employment; access to criminal conviction histories, police investigation of applicant.

(a) The police department shall conduct an investigation of each applicant for a driver's permit. A report of such investigation and a copy of the traffic and police record of the applicant, if any, shall be attached to the application for the consideration of the Passenger Vehicle For Hire Board.

(b) Upon receipt of an application, the Passenger Vehicle For Hire Inspector(s) shall conduct a criminal conviction record investigation through computer terminals or other means of access to criminal convictions. The applicant shall submit a complete Tennessee Bureau of Investigation Tennessee Criminal History to the Passenger Vehicle For Hire Inspector.

(c) The results of criminal conviction record investigations shall be used for the limited purpose of determining the suitability of the applicant for issuance of the license or permit or the suitability of the person for employment with the municipality.

(d) The costs incurred in conducting such criminal conviction records investigations shall be paid by the applicant for a drivers permit.
(Ord. No. 9784, § 1, 9-8-92; Ord. No. 12092, §§ 2, 37, 3-18-08; Ord. No. 12149, § 3, 8-5-08; Ord. No. 12891, § 1, 1-6-15)

Sec. 35-57. Consideration of application.

The Passenger Vehicle For Hire Board shall, upon the consideration of the application and the reports and certificate required to be attached thereto, approve or reject the application. The applicant must appear in person if directed to appear by the Passenger Vehicle For Hire Inspector or Board. The action of the Board approving or denying such application shall be final subject to a review at law.
(Ord. No. 9784, § 1, 9-8-92; Ord. No. 12092, § 2, 3-18-08; Ord. No. 12149, § 4, 8-5-08; Ord. No. 12891, § 1, 1-6-15)

Sec. 35-58. Issuance; contents.

Upon final approval of an application or renewal for a driver's permit, the Passenger Vehicle For Hire Board shall issue a permit to the applicant, which shall bear such information as required to personal identification of a driver by such information as the drivers name, address, age, signature, permit number, name of company employed by, state drivers license number and date of expiration or photograph of the applicant as required by the Passenger Vehicle For Hire Board. (Ord. No. 9784, § 1, 9-8-92; Ord. No. 12092, § 2, 3-18-08; Ord. No. 12149, § 5, 8-5-08; Ord. No. 12891, § 1, 1-6-15)

Sec. 35-59. Term; renewal fee; temporary medical exception.

(a) Each taxicab driver's permit shall be issued for a period of one (1) year or any part thereof, with all permits issued pursuant to this article expiring on the driver's birth date of each year. A permit for the one (1) year period or any portion thereof shall be issued upon the payment of ten dollars ($10.00) unless the permit for the preceding year has been revoked. A five dollar ($5.00) fee shall be charged for all replacement or temporary taxicab driver permits.

(b) The Passenger Vehicle For Hire Board or Passenger Vehicle For Hire Inspector may require a driver to submit an updated medical exam or DOT drug and alcohol test when a driver applies to renew his drivers permit or upon the expiration of a Temporary Medical Exception as set forth in Section 35-59(c). A driver may appeal a decision of the Passenger Vehicle For Hire Inspector requiring a DOT drug and alcohol test to the Passenger Vehicle For Hire Board or as allowed by law. The Passenger Vehicle For Hire Board shall determine the process and procedures for renewal of driver permits.

(c) Temporary Medical Exception.

(1) Upon receipt of a statement from a licensed physician and/or optometrist that certifies that a driver has a medical condition which temporarily prohibits or impairs the driver's ability to operate a motor vehicle, the Passenger Vehicle For Hire Inspector may grant the driver a Temporary Medical Exception from the financial responsibility requirements contained in Section 35-55. In no event shall the Temporary Medical Exception exceed six (6) months.

(2) During such period that the Temporary Medical Exception is in effect, the driver shall be prohibited from operating a vehicle for hire pursuant to this Chapter.

(3) Upon expiration of the Temporary Medical Exception, the prohibition on operating a vehicle for hire pursuant to this Chapter shall remain in effect until the Passenger Vehicle For Hire Inspector receives proof of financial responsibility and an updated statement from a licensed physician and/or licensed optometrist certifying that the driver satisfies the physical and vision requirements in Section 35-55 of this Chapter. If the driver is unable to provide proof of financial responsibility and the appropriate medical certifications at that time, action may be taken to suspend and/or revoke the driver's permit.

(4) During the period of the Temporary Medical Exception, the driver shall remain responsible for the payment of fees and for complying with all other requirements of this Chapter. Nothing in this Section shall preclude suspension, revocation, or show cause proceedings against a driver for violating any other provision of this Chapter.

(d) Pursuant to state and federal law, all medical records and certifications received by the City pursuant to this Section shall be kept confidential.
(Ord. No. 9784, § 1, 9-8-92; Ord. No. 9799, § 13, 10-6-92; Ord. No. 12092, §§ 2, 38, 3-18-08; Ord. No. 12149, § 6, 8-5-08; Ord. No. 12639, § 2, 8-21-12; Ord. No. 12891, § 1, 1-6-15)

Sec. 35-60. Display in vehicle.

Every driver to whom a permit is issued under this division shall post his or her driver's permit in such a place as to be in full view of all passengers while such driver is operating a motor vehicle transporting passengers for hire. A drivers' permit shall be invalid if the drivers state issued license to transport passengers for hire is suspended or revoked.
(Ord. No. 9784, § 1, 9-8-92; Ord. No. 12092, § 39, 3-18-08)

Sec. 35-61. Suspension and revocation.

The Passenger Vehicle For Hire Board is hereby authorized to suspend any driver's license issued under this division for a driver's failing or refusing to comply with the provisions of this article. The Passenger Vehicle For Hire Board is also authorized to revoke any driver's permit for failure to comply with the provisions of any other ordinance or law related to the driver's qualifications to operate a vehicle for hire. The Passenger Vehicle For Hire Board may revoke a driver's license for charging a passenger rates in excess of those authorized pursuant to Sections 35-26 and 35-27. However, a permit may not be revoked or suspended unless the driver has received notice and had an opportunity to present evidence in his or her behalf. The Passenger Vehicle For Hire Board shall adopt administrative procedures to govern the conduct of such hearing. The action of the Passenger Vehicle For Hire Board in suspending a license or permit shall be final, subject to a review at law.
(Ord. No. 9784, § 1, 9-8-92; Ord. No. 12092, §§ 2, 40, 3-18-08; Ord. No. 12891, § 1, 1-6-15)

DIVISION 4. VEHICLE FOR HIRE PRIVILEGE

Sec. 35-62. Required.

(a) No person shall operate or permit a vehicle for hire as defined in Section 35-22 of this Code as amended, upon the streets, roads and public highways of Chattanooga without having first obtained a privilege to operate the vehicle from the Passenger Vehicle For Hire Board.

(b) Any type of motor vehicle for hire authorized to operate under this Chapter must be operated under the franchise or umbrella of a Certificate of Public Convenience and Necessity issued by the Passenger Vehicle For Hire Board.
(Ord. No. 12412, § 20, 7-13-10; Ord. No. 12891, § 1, 1-6-15)

Sec. 35-63. Application.

(a) An application for a privilege shall be filed with the Passenger Vehicle For Hire Board upon forms provided by the Passenger Vehicle For Hire Inspector(s) and upon the payment of a nonrefundable fee of fifty dollars ($50.00). A renewal application shall be filed upon forms provided by the Passenger Vehicle For Hire Inspector(s) on or before the annual renewal date of the privilege. Such application shall be verified under oath and shall furnish the following information:

(1) The name and address of the applicant;

(2) The experience of the applicant in the transportation of passengers;

(3) The name of the certificate holder with which the privilege holder will be associated or affiliated with for operation of the privilege;

(4) The color scheme and insignia to be used to designate the vehicle to be operated under the privilege;

(5) The ownership interest that the applicant has in the vehicle to be operated under the privilege;

(6) The make, model and year of the vehicle to be operated under the privilege;

(7) Whether the applicant has been convicted of any felony or any convictions involving driving under the influence of drugs or alcohol or sexually related offenses within ten (10) years of the date of the privilege application and provides a complete Tennessee Bureau of Investigation Tennessee Criminal History of the applicant; and

(8) Such further information as the Passenger Vehicle For Hire Board may require.

(b) If an application is incomplete, it shall be returned to the applicant for completion prior to being acted upon.

(c) Each application shall be signed by the certificate holder and the privilege holder, which shall be deemed to be a certification that the information on the application is accurate. Any material misrepresentation made on an application shall be grounds for revocation of the certificate.

(d) The lawful operation of any privileges prior to January 1, 2010 shall not be affected by this Section and shall not be required to complete an initial application but shall be required to complete a renewal application prior to January 1, 2011.
(Ord. No. 12412, § 21, 7-13-10; Ord. No. 12891, § 1, 1-6-15)

Sec. 35-64. Public Hearing.

Upon the filing of an application for a privilege, the Passenger Vehicle For Hire Board shall fix a time and place for a public hearing thereon, to be not less than thirty (30) days after receipt of the application or request.
(Ord. No. 12412, § 22, 7-13-10; Ord. No. 12891, § 1, 1-6-15)

Sec. 35-65. Issuance.

(a) If the Passenger Vehicle For Hire Board finds that further vehicle for hire services in Chattanooga is required and the applicant is fit, willing and able to perform such public transportation and to conform to the provisions of this Chapter, the Passenger Vehicle For Hire Board shall issue a privilege to the applicant, stating the name and address of the applicant, the certificate with which the privilege is associated or affiliated, the make, model and year of the vehicle and the privilege number assigned to the privilege; otherwise, the application shall be denied.

(b) Applicants shall have ninety (90) days following the approval of a privilege to obtain and have inspected the vehicle for hire authorized by the Passenger Vehicle For Hire Board. If a vehicle for hire shall not be operated for ninety (90) or more consecutive days, the privilege for that vehicle for hire shall be revoked by the Passenger Vehicle For Hire Board unless the certificate holder or the privilege holder notifies the Passenger Vehicle For Hire Board and obtains a replacement vehicle that is inspected and approved by the Passenger Vehicle For Hire Board Inspector or the Passenger Vehicle For Hire Board approves additional time with adequate justification.

(c) The action of the Passenger Vehicle For Hire Board in issuing or denying a privilege shall be final, except as it may be subject to review at law.
(Ord. No. 12412, § 23, 7-13-10; Ord. No. 12891, § 1, 1-6-15)

Sec. 35-66. Transfer.

No privilege may be sold, assigned, mortgaged or otherwise transferred by a privilege holder without the consent of the Passenger Vehicle For Hire Board and payment of a transfer and inspection fee of fifty dollars ($50.00).
(Ord. No. 12412, § 24, 7-13-10; Ord. No. 12891, § 1, 1-6-15)

Sec. 35-67. Suspension and revocation.

(a) The PVH inspector may cause immediate suspension or revocation of a license, inspection sticker, or driver's permit issued pursuant to this Article under the following circumstances:

(1) For violation(s) of any federal, state, or local law which would constitute grounds for denial of a driver's permit;

(2) For a driver's failure or refusal to comply with the requirements of this Chapter or related regulations or refusal to cooperate with reasonable requests made by an inspector investigating complaints or conducting the semiannual or periodic random inspections pursuant to the operating procedures of the PVH Board in the performance of his or her duties; or

(3) For serious violations of applicable ordinances or regulations when such action is deemed warranted by the PVH inspector for reasons of public health or safety. At the time of such action, the driver and/or certificate holder and/or privilege against whom such action is being taken shall be notified in writing of the manner in which a hearing on the matter may be requested.

(4) The suspension or revocation notice shall state that the driver may appeal the suspension or revocation to the PVH Board. The PVH Board may affirm, modify or reverse the PVH Inspector's suspension or revocation.

(b) A privilege or certificate to provide ground transportation service may be suspended, revoked, or have an administrative penalty assessed against it for the following:

(1) Failure to provide the accurate and complete information required on the annual or renewal application;

(2) Failure to have in force the state-issued certificate of authorization to operate a ground transportation service in the City;

(3) Failure to have in force the required liability insurance, indemnity bond or plan of self-insurance;

(4) Failure to pay any City tax, license fee, or any other type fee and/or tax required by law;

(5) Failure to satisfy any administrative sanctions or penalties imposed by the PVH Board; or

(6) Substantive or repetitive disregard of any City ordinances and applicable statutes and rules and regulations that specify certificate holders responsibilities and/or obligations.

(c) All administrative orders of revocation, suspension, or administrative penalties shall be imposed and signed by the PVH Inspector.

(d) A driver's permit is the property of the City, and when said permit is suspended or revoked, the driver shall immediately surrender the permit to the PVH Board or Inspector. Upon the request of the PVH Board, the certificate holder shall assist the PVH Board in gaining possession of a suspended or revoked driver's permit.

(e) Point System.

(1) Each violation or penalty is assigned a certain number of points, according to the seriousness of the offense. The purpose of this point system is to establish a criterion whereby the discretion allowed in determining the penalty cannot be exercised arbitrarily, each permit, privilege and/or certificate holder will know or can determine his or her "point" status at any given time.

(2) After notice and a hearing before the PVH Board, points, convictions/violations for federal, state, and local laws suspensions or revocation shall be assessed or invoked based upon convictions and whether the conviction or violation are based on an administrative hearing, court of competent jurisdiction within the State of Tennessee or any other jurisdiction. Information regarding convictions may be secured from any official sources or records available to public or Departmental inspections. Upon the accumulation of twelve (12) points by any driver, privilege or certificate holder within a period of two (2) years, the PVH Board shall suspend the driver's permit or certificate for a period of six (6) months for the first such accumulation of twelve (12) points, one (1) year for the second such accumulation of twelve (12) points, and two (2) years for any subsequent accumulation of twelve (12) points within the two (2) year period.

(3) No person's rights under this Chapter will be suspended without first being given an opportunity to appeal the matter, unless the appeal rights have been voluntarily waived by the driver or certificate holder.

Administrative Warning = One (1) Point

One (1) Day Suspension = Three (3) Points

Two (2) Days Suspension = Six (6) Points

Three (3) Days Suspension = Nine (9) Points

Four (4) Days Suspension = Twelve (12) Points

(4) The PVH Board may suspend or revoke a drivers' permit, privilege to operate a passenger vehicle for hire if the Board finds that it is necessary to protect the health, morals, comfort, safety, convenience or welfare of the inhabitants of the city.

(f) Each day of continued violation shall be considered a separate offense.

(g) Each assessment of points shall expire two (2) years after such assessment. In no event shall points which have expired be used to calculate a driver or certificate holder's total points.
(Ord. No. 12412, § 25, 7-13-10; Ord. No. 12891, §§ 1, 16, 1-6-15)

Secs. 35-68—35-145. Reserved.

ARTICLE IV. TRAFFIC INCIDENT MANAGEMENT SERVICE

Sec. 35-146. Purpose.

The purpose of this article is to establish regulations and procedures to license district wrecker operators who apply to remove wrecked or disabled vehicles at the request or call of the City Police Department or other department of the City and to establish a rotation call list procedure for these operators and to establish a board to administer this article. It is the intent of this Article to provide for the quick clearance of controlled access highway collisions due to the concern for public safety when considering the qualifications of wrecker or towing operators who participate in the clearance of controlled access highway collisions.

Sec. 35-147. Definitions.

For purposes of this article, the following words and phrases shall have the meanings respectively ascribed to them by this section:

District wrecker. All wrecker or towing operators licensed by the City under this article qualify to be placed on the rotation call list to respond to requests for towing of vehicles made by the City.

Inside storage. The storing of a motor vehicle within an enclosed building being used by the wrecker or towing operator at the operator's place of business.

Normal business hours. The hours are from 8:00 a.m. to 5:00 p.m. except Saturdays, Sundays, and the following holidays: New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day, and Christmas Day.

Outside storage. The storing of a motor vehicle within a lot or premises being used by the wrecker or towing operator at the operator's place of business, but not inside storage as described above.

Wrecker board. The Passenger Vehicle for Hire Board created to administer this article.

Wrecker inspector. That officer or employee of the City Police Department designated by the Chief of Police as the person responsible for receiving applications, conducting investigations of proposed wrecker operators, and making recommendations to the Wrecker Board.

Wrecker or towing operator. Any person engaged in the business of, or offering the services of, a wrecker or towing service to remove wrecked or disabled vehicles at the request or call of the City Police Department or other department of the City, whereby motor vehicles are or may be towed or otherwise removed from one (1) place to another by the use of a motor vehicle adapted to and designed for that purpose.
(Ord. No. 12171, § 1, 10-21-08; Ord. No. 14091, § 2, 3-12-24)

Cross reference—Definitions and rules of construction generally, § 1-2.

Sec. 35-148. District Wrecker classifications.

(a) For purposes of this article, District wreckers are classified into four (4) classes, class A, class B, class C, and recovery class, with minimum requirements for each classification as follows:

(1) *Class A.* For towing passenger cars, pick-up trucks, small trailers, etc.

CHASSIS:

A. Minimum GVWR fourteen thousand five hundred (14,500) pounds
B. Dual Rear Wheels
   1. Minimum seven and one-half (7.50) by sixteen (16)
   2. Minimum two hundred twenty-five (225) by sixteen (16)
   3. Minimum Tread eight-thirty-seconds (8/32)
C. Minimum sixty (60) inch cab to axle
D. Present a professional outward appearance, and
E. Fully functional drivers and passenger side mirrors.

WRECKER:

A. Manufactured body, boom, and underlift
B. Minimum sixty (60) inch cab to axle
C. Hydraulic recovery boom
   1. Minimum capacity eight (8) ton retracted
   2. Minimum capacity four thousand (4,000) LD extended
   3. Hydraulic elevation
   4. Hydraulic extension
D. Dual Hydraulic eight thousand (8,000) pound Winches
   1. Direct mount winch motors
   2. Six (6) by nineteen and three-eights (19 3/8) inch cable
   3. One hundred (100) feet minimum of cable from winch
   4. Swidged thimbles (no clamps)
E. Hydraulic Wheel Lift
   1. Hydraulic Elevation
   2. Hydraulic Extension
   3. Three thousand five hundred (3,500) pound Capacity at full extension
   4. Seven thousand five hundred (7,500) pound Tow Rating
   5. Sound and operational tire restraint straps
   6. Safety chains OEM Spec's Or %70 Grade five-sixteenths (5/16) inch
F. Operational Dollies
G. Tow Sling w/J Hooks and chains
   1. Sling straps in sound working condition
   2. J Hooks and Chain in Sound WO
H. Tow Lights w/Cord (Operational)
I. Rotating Light Bar (Fully Operational)
J. Work Lights (Operational)
K. Trailer Ball Attachment

L. Attachment or carrying straps for motorcycle

M. Safety Package

1. Five (5) pound Fire Extinguisher (charged & operational)
2. Shovel
3. Broom
4. Bucket
5. Two and three-eights (2⅜) inch by ten (10) foot recovery chains (Not "J" Hooks sling chains) minimum
6. 5 Lbs oil dry
7. First Aid Kit

N. Class A tow trucks shall have all of the following required equipment:

1. Amber colored lights
2. Bolt Cutters
3. Company Name/Address (three (3) inch letters)
4. Cradle Tow Plate/Sling
5. Fire Extinguisher twenty (20) pounds A.B.C. (UL)
6. Flares/Reflectors
7. Flood lights
8. Fluid Absorption Compound (fifty (50) pounds)
9. Heavy duty push broom
10. Pinchbar, prybar, crowbar
11. Portable light bar
12. Safety chains
13. Tire chains
14. Safety restraint straps
15. Shovel

(2) *Class B.* For towing medium size trucks, trailers, etc.

CHASSIS:

A. Minimum GVWR twenty-five thousand five hundred (25,500) pounds

B. Dual Rear Wheel

1. Eight and one-quarter (8.25) by twenty-two and one-half (22.5)
2. 265R by twenty-two and one-half (22.5)
3. Minimum 8/32 tread all six (6) tires

C. Minimum cab to axle one hundred eight (108) inches

D. Air Brakes

E. Professional Outward Appearance

F. Functional Drivers/Passenger Side Mirrors

WRECKER:

A. Manufactured body, boom, and wheellift

B. Boom Capacity sixteen (16) Ton

C. Hydraulically Powered Boom

1. Hydraulic Elevation

2. Hydraulic Extension

D. Dual sixteen thousand (16,000) pounds Hydraulic Winches
   1. Direct Mount Hydraulic Motor
   2. Six (6) by nineteen and one-half (19½) inch cable
   3. One hundred fifty (150) feet of cable from the winch
   4. Swidged Thimbles (No clamps)

E. Hydraulic Wheellift
   1. Power elevation
   2. Power extension
   3. Eight thousand (8,000) pound capacity full extension
   4. Thirty-two thousand (32,000) pound Tow Rating
   5. One-half (½) inch OEM or T-70 Safety Chain Permanently Attached

F. Medium Duty Truck Hitch with one-half (½) inch chassis

G. Rear Jacks or spades (Wheellift not acceptable)

H. Tow Lights or Bar w/Cord (Operational)
   1. Rotating light bar (Fully Operational)

J. Work Lights
   1. Upper Work Lights
   2. Lower Hook Up Lights
   3. All lights must be operational

K. Tow Ball and/or Attachment

L. Safety Package
   1. 5 Lb. Fire Extinguisher
   2. Shovel
   3. Broom
   4. Pry Bar
   5. Bucket
   6. 5 Lbs. Oil Dry
   7. Pair three-eights (⅜) inch by ten (10) foot Chains minimum
   8. Pair one-half (½) inch by ten (10) foot Chains minimum
   9. First Aid Kit

M. Medium capacity tow trucks shall have all of the following required equipment:
   1. Amber colored lights
   2. Bolt Cutters
   3. Company Name/Address (three (3) inch letters)
   4. Cradle Tow Plate/Sling
   5. Fire Extinguisher twenty (20) pounds A.B.C. (UL)
   6. Flares/Reflectors
   7. Flood lights
   8. Fluid Absorption Compound (fifty (50) pounds)
   9. Heavy duty push broom
   10. Pinchbar, prybar, crowbar

11. Portable light bar
12. Safety chains
13. Tire chains
14. Safety restraint straps
15. Shovel

(3) *Class C. Heavy Duty Wreckers* for towing large trucks, road tractors and trailers where a recovery wrecker is not required.

CHASSIS:

A. Minimum GVWR fifty thousand (50,000) pounds
B. Tandem Axle
   1. Ten (10) by twenty-two and one-half (22.5) Minimum
   2. 285R by twenty-two and one-half (22.5) Minimum
   3. Eight-thirty-seconds (8/32) Tread minimum all ten (10) tires
C. Minimum one hundred fifty-six (156) Inch C.B.
D. Air Brake
E. Air Service Lines
F. Professional Outward Appearance
G. Functional Driver/Passenger Side Minors

WRECKER:

A. Manufactured Body, Boom, and Underlift
B. Boom Capacity of twenty-five (25) Ton
C. Hydraulically Powered Boom
   1. Power Elevation
   2. Power Extension
D. Dual Hydraulic twenty-five thousand (25,000) pound Winches
   1. Direct mount winch motors
   2. Six (6) by nineteen and five-eighths (19 5/8) inch cable minimum
   3. Two hundred (200) foot minimum from winch
   4. Swidged Thimbles (No clamps)
E. Hydraulically Powered Underlift
   1. Power Elevation
   2. Power Extension
   3. Twelve thousand (12,000) pound Capacity Full Extension
   4. Eighty thousand (80,000) pound Tow Rating
   5. Five-eights (5/8) OEM or A-80 Safety Chain
H. Truck Hitches w/chains and/or Underlift Attachment
I. Hydraulic Rear Jacks or Spades
J. Tow Bar w/Cord
K. Rotating Light Bar
L. Air and Service Lines

M. Work Lights
   1. Upper Work Lights
   2. Lower/Hookup Lights
   3. All Lights Operational

N. Tow Ball and Pintal Hook Attachment

O. Safety Package
   1. Five (5) pound Fire Extinguisher
   2. Broom
   3. Shovel
   4. Pry Bar
   5. Bucket
   6. Five (5) pound Oil Dry
   7. Two (2) Pair of T70 by ten (10) foot minimum chain
   8. One (1) Pair of A80 by ten (10) foot' minimum chain
   9. First Aid Kit

P. Heavy Duty Class C Tow Trucks. All Heavy Duty Class C Tow Trucks shall have the following required equipment:

1. Six (6) Sets of forks
2. Two (2) — Eight (8) ton snatch blocks
3. Two (2) — Four (4) feet of three-eights (3/8) inch safety chains
4. Two (2) — Fifteen (15) feet of one-half (1/2) inch recovery chains
5. Two (2) — Sixteen (16) feet of six (6) inch recovery straps with nineteen thousand (19,000) pound lifting basket
6. One (1) — Fifty (50) pound bag of oil dry
7. One (1) — Bolt cutters
8. One (1) — Axe
9. One (1) — Pry bar
10. One (1) — Broom
11. One (1) — Shovel
12. One (1) — Tow bar with cordless and/or sixty (60) foot electronic cord
13. One (1) — Twenty-five (25) foot air hose with fittings for truck air supply
14. The following additional equipment shall be timely brought to the accident site by the company if needed:
    a. One (1) — Air cushion compressor with hoses
    b. Four (4) — Large air bags
    c. Three (3) — Medium air bags
    d. Three (3) — Small air bags
    e. One (1) — Starter bag
    f. One (1) — Forklift five thousand (5,000) pound lifting capacity
    g. One (1) — Pallet jack

h. Four (4) — Rolls shrink wrap

i. One (1) — Sliding wheel trailer forty-five (45) foot length with twenty thousand (20,000) pound winch

(4) *Recovery Class* for towing large trucks, road tractors and trailers, on controlled access highways and ramps when needed for public safety as determined by Emergency Service Providers in charge at the scene for life safety purposes:

A. The Tow Truck chassis shall have:

1. A minimum manufacturer's capacity of not less than, GVWR seven (7) tons/ fifty-four thousand (54,000) pounds and tandem axles:
   a. Eleven (11) by twenty-two and one-half (22.5) Tires minimum
   b. Eleven (11) by 24.5 Tires minimum
   c. 295R by twenty-two and one-half (22.5) or twenty-four and one-half (24.5) Tires Minimum
2. Minimum overall wheelbase three hundred (300) inches measured from the center of the bogey to the front steering axle
3. Air brakes & air service lines

B. Wrecker shall have:

1. Manufactured body minimum one hundred fifty-six (156) inch cab to bogey Boom
2. Manufactured boom capacity fifty (50) ton rotator minimum
3. Fully hydraulic recovery boom
   a. Power elevation
   b. Power extension
4. Dual hydraulic mount fifty thousand (50,000) pound winch motor
   a. Direct mount winch motor
   b. Six (6) by 37 IWRC 3/4 cable with swivel hook and two hundred fifty (250) feet of continuous cable
   c. Swidged cable (no clamps)
5. Hydraulic power underlift
   a. Power elevation
   b. Power extension
   c. Fifteen thousand (15,000) pound lift capacity
   d. Eighty thousand (80,000) pound tow rating
   e. Minimum one hundred five (105) inches of clear reach
6. Heavy duty truck hitch w/chains or underlift attachment
7. Hydraulic power rear jacks and/or spades
8. Rotating light bar strobe
9. Tow light bar w/cord
10. Two (2) Air lines, forty-five (45) feet long, with a three-eights (3/8) inch minimum inside diameter
11. Work lights
    a. Upper set w/ swivel base
    b. Lower set hook up

c. All lights must be operational

12. Towball and pintle hook attachment
13. Safety package with First aid equipment approved by Wrecker Board.

C. Recovery Class permit holders shall have:

1. One (1) licensed recovery class wrecker
2. One (1) licensed Class C wrecker — meeting the current specification for Class C Wrecker
3. One (1) Sliding axle trailer
4. A "congear" system
5. The following air cushions:
   a. Two (2) Starter Cushions: Size thirty-six (36) inch Diameter by thirty-six (36) High seven thousand (7,000) pounds — Vertical Lift (Each) one thousand one hundred (1,100) pounds Float Capacity
   b. Four (4) Heavy Lift Cushions: Size sixty (60) inch Diameter by ninety-six (96) inch High nineteen thousand five hundred (19,500) pounds — Vertical Lift (Each) seven thousand three hundred (7,300) pounds Float Capacity
6. Generator w/additional accident scene lighting
7. Owner and/or first lease holder to fully insure storage lot (insurance issued to operator of tow service only) to hold minimum four (4) complete tractor trailer units
8. Minimum thirty-five thousand (35,000) pound Drag winch with two hundred (200) feet of cable
9. One (1) set of acetylene/oxygen cutting torch with a minimum of fifty (50) feet of hose lines
10. One (1) forty-eight (48) inch wrecking bar
11. One (1) one-half (1/2) inch nylon rope — minimum of fifty (50) feet
12. One (1) truck air brake release kit
13. Two (2) nylon lifting slings twenty-five (25) feet in length, six (6) inches wide
14. One (1) front end loader with minimum of 1-112 cubic yard bucket, or equivalent loading capability
15. One (1) reciprocating electric saw
16. One (1) air impact metal cutter
17. One (1) engine driven air compressor with receiving tank, regulator hose reel and hose, with minimum of 5 hp/11.8 cfm
18. One (1) twelve (12) inch circular saw (electric)
19. One (1) ten (10) foot by twelve (12) foot tarpaulin — canvas or equal
20. One (1) twelve (12) foot by forty (40) foot tarpaulin — canvas or equal
21. One (1) set of thirty-six (36) inch bolt cutters
22. Four (4) three-eights (3/8) inch alloy tow chain — minimum of twenty (20) feet, and brakes
23. Four (4) ~ inch alloy tow chain — minimum of eight (8) feet
24. Sufficient number of binders to secure loads up to fifty thousand and six (50,006) pounds
25. One (1) axe

26. Four (4) snatch block — twelve (12) ton capacity
27. One (1) set of four (4) cribbing beams, three (3) feet long
28. A Recovery Class wrecker shall be required to either own or contract all equipment required in Sections 8.2 through 8.5 of the Georgia Towing and Recovery Incentive Program (TRIP) which equipment is available for response twenty-four (24)/seven (7).
29. All eligible companies for Recovery Class designation shall provide ongoing training to all their employees which satisfy TIME Task Force certifications and endorsements. In addition, each Recovery Class wrecker company shall have towing and recovery professionals employed who have attended at least eight (8) hours of training or continuing education every twelve (12) months. This training may include traffic incident management work shops, MUTCD traffic control flagger training, or advanced towing and recovery practices which are approved by the Wrecker Board.
30. All Recovery Class operators shall be familiar with quick clearance, best practices for incident scene management which shall comply with the practices referenced in the coordinated incident management tool kit for quick clearance by the 1-95 Corridor Coalition found at FS-17 through FS-18.

(b) The Emergency Communications Service Provider within the City of Chattanooga shall maintain a call list for each tow truck class. Notwithstanding the particular specifications for class A, class B, class C or Recovery Class wrecker, the Wrecker Board may grant a permit to a vehicle which is functionally equivalent for a particular class although the vehicle may not meet each and every specification. The applicant shall bear the burden of demonstrating through technical literature or otherwise that the vehicle is functionally equivalent.

(c) A Recovery Class wrecker shall be restricted to controlled access highways and such wreckers shall only be dispatched by the Emergency Communications Service Provider if one (1) or more of the following factors are applicable:

(1) There is major structural damage to a large truck(s), road tractor(s) or trailer(s) so as to result in an unstable situation which might result in more damage or a rupture of tanks or trailers and the potential spillage of contents; or,

(2) There is wreckage in an uncontained state at the site of an accident; or,

(3) Recovery of large truck(s), road tractor(s) or trailer(s) requires multiple pieces of equipment such as wreckers, loaders, cranes or other such equipment to clear affected thoroughfares; or,

(4) As required by Emergency Service Providers in charge at the scene for life safety purposes;

(5) As determined by an appropriate official with Tennessee Department of Transportation (TDOT) or incident management official; or

(6) Specific performance times shall be met by all Recovery Class operators or Class C operators who perform clearance work on controlled access highways.

(7) The failure of any operator to clear vehicles from the traffic lanes on controlled access highways within ninety (90) minutes following an order to proceed from the Emergency Service Provider in charge at the scene shall result in citation to the Wrecker Board for consideration on future participation in the rotation list and/or the dispatch of another wrecker service to provide clearance of traffic lanes in the interest of public safety.

(8) Notwithstanding any other provision of this chapter to the contrary, any Emergency Service Provider in charge at the scene may call for a recovery class wrecker with a rotator boom at the scene of any accident which, in the discretion of the Emergency Service Provider in charge at the

scene will result in potential loss of life or serious injury in the event such equipment is not summoned as quickly as possible to the scene. A report shall be filed with the Police Department indicating the name of the emergency service provider and the reasons for sending a recovery class wrecker with a rotator boom whenever that decision is made.
(Ord. No. 12171, § 1, 10-21-08)

Sec. 35-149. Wrecker board.

(a) The city Passenger Vehicle for Hire Board established by section 35-17 of this Code is hereby granted the authority and jurisdiction to regulate wreckers, and the Passenger Vehicle for Hire Board may alternatively be referred to in this article as the Wrecker Board.

(b) The Wrecker Board shall meet every first Thursday at 3:30 p.m. in the City Council Assembly Room, and at such other times as it shall deem necessary.

(c) The Wrecker Board shall have the authority to approve, revoke, or suspend district wrecker permits, and otherwise administer the provisions of this article.

(d) The action of the Wrecker Board in granting or refusing a district wrecker permit or in revoking or suspending a district wrecker permit shall be final, except as it may be subject to review by law.
(Ord. No. 12171, § 1, 10-21-08; Ord. No. 14091, § 1, 3-12-24)

Sec. 35-150. Permit required; existing permittees.

No person shall engage in the business of, or offer the services of, a district wrecker; whereby motor vehicles are or may be towed or otherwise moved from one (1) place to another by the use of a motor vehicle adapted for that purpose without having been issued a permit as provided by this article. Permits shall be issued for class A through recovery class wreckers as the vehicles meet the requirements of section 35-148. Additionally, permits shall be granted for "district wreckers" as provided herein.
(Ord. No. 12171, § 1, 10-21-08)

Sec. 35-151. Same—Application.

(a) Any person desiring to obtain a district wrecker permit shall file with the wrecker inspector an application setting out, among other things, the following:

(1) Name and address of the person desiring the license.

(2) The location and full description of all property to be utilized in connection with the business, including tax parcel numbers and zoning of this property.

(3) The number of wreckers or towing cars owned or available for use by the applicant and a full description of the wreckers sufficient to determine a proper classification under section 35-148.

(4) A statement that all wreckers are properly equipped for the applicable classification set forth in section 35-148 and contain the required equipment set out in 35-156, and that all wreckers meet applicable State and Federal regulations.

(5) A statement that the wrecker or towing operator will accept responsibility for any and all personal property left in towed or stored vehicles.

(6) A statement setting forth and describing available space including inside storage, if available, for properly accommodating and protecting all disabled motor vehicles to be towed or otherwise removed from the place where they had been disabled.

(7) A statement that the applicant will provide twenty-four (24) hour service, including holidays, and that he will have a qualified operator on duty at all times for each district wrecker location licensed hereunder.

(8) A statement that the wrecker or towing operator will not release any vehicles impounded by the city without authorization by the police department, that a file will be maintained on all vehicle release forms and that this file will be made available for police inspection upon request.

(9) Information to show that the applicant has had at least one (1) year's experience as a wrecker operator.

(10) An assurance that the applicant will maintain a minimum of two (2) properly equipped and operable wrecker throughout the year for which application is being made.

(Ord. No. 12171, § 1, 10-21-08)

Sec. 35-152. Same—Fees; expiration date and renewal.

Any new applicant for a district wrecker permit under this article, except those who have been heretofore licensed under ordinances and procedures of the city in effect on the effective date of Ordinance Number 8415, shall be charged an application and investigation fee of two hundred dollars ($200.00) to cover the expense of investigating the applicant, the place of business, and the wreckers and equipment. The initial applications and permits hereunder for currently licensed wrecker operators shall be without an investigation fee other than the fifty dollar ($50.00) annual fee. If an applicant changes his business location or adds or substitutes a new or different wrecker, there shall be a supplemental investigation fee of one hundred dollars ($100.00). Additionally, there shall be annual license fee of one hundred dollars ($100.00) per wrecker licensed hereunder which shall be collected by the city treasurer upon granting an approved license or renewal license. All licenses shall expire on December 31st and applications for renewal shall be filed by November thirtieth of each year. Late applications for renewal will be considered in due course, but the applicant will not be privileged to operate such wreckers from December 31st until the renewal is approved by the Wrecker Board.

(Ord. No. 12171, § 1, 10-21-08)

Sec. 35-153. Same—Investigation of applicant.

The wrecker inspector shall investigate or cause to be investigated each applicant for a district wrecker permit under this article to determine whether or not the applicant has the necessary equipment and facilities to qualify as a district wrecker operator, and, if the applicant is qualified. The Wrecker Inspector shall report his findings to the Wrecker Board and make a recommendation regarding the issuance of a district wrecker permit. Applications will be processed weekly by appointment with the Wrecker Inspector. Any applicant who has been convicted of a felony within ten (10) years of the date of the application shall not be permitted to obtain a wrecker or towing license within the City of Chattanooga. The wrecker board shall direct or make such further investigation as it deems proper and grant or refuse a permit.

(Ord. No. 12171, § 1, 10-21-08)

Sec. 35-154. Same—Issuance.

Every person qualified under this article shall be issued a permit by the city treasurer for each district wrecker approved by the wrecker board, which permit shall at all times be kept with each wrecker. The permit shall bear a notation "district wrecker." Such permit shall have printed thereon the year for which it is valid.

(Ord. No. 12171, § 1, 10-21-08)

Sec. 35-155. Same—Revocation.

(a) The Wrecker Board shall suspend or revoke the permit of any permittee on the call rotation list maintained by the City on any of the following grounds:

(1) If the permit was procured by fraudulent conduct or false statement of a material fact or a material fact concerning the applicant which was not disclosed at the time of his making application that would have constituted just cause for refusing to issue the license.

(2) Failure of a district wrecker permittee to have an operable and properly equipped wrecker and qualified operator on duty at all times or to promptly respond to police calls.

(3) If the district wrecker permittee has knowingly overcharged or consistently overcharges.

(4) A violation of any provision of this article.

(5) If a district wrecker does not meet all applicable State and Federal regulations.

(6) The wrecker board may suspend or revoke a permit in its discretion for due cause not specified herein.

(7) Specific performance times shall be met by all Recovery Class operators or Class C operators who perform clearance work on controlled access highways. The failure of any operator to clear vehicles from the traffic lanes on controlled access highways within ninety (90) minutes following an order to proceed from the Emergency Service Provider in charge at the scene shall result in citation to the Wrecker Board for consideration on suspension or removal from the rotation list in the interest of public safety.

(b) Such suspension or revocation shall terminate all authority and permission granted by such district wrecker permit to the licensee and the licensee shall be immediately removed from any call rotation list maintained by the City. Any person whose permit has been revoked shall not be eligible to again apply for a district wrecker permit for a period of two (2) years from the date of such revocation.
(Ord. No. 12171, § 1, 10-21-08)

Sec. 35-156. Additional required equipment and standards.

In addition to the equipment required under the applicable district wrecker classifications set forth in section 35-148, all district wreckers shall also have and maintain additional equipment and standards as follows:

(1) The following additional equipment is required:

A. At least one (1) heavy-duty push broom;

B. Flood lights on hoist to illuminate scene at night;

C. One (1) shovel;

D. A twenty (20) pound Class ABC Underwriter Laboratory approved fire extinguisher, a two and seven-tenths (2.7) pound Halon 1301/1211 fire extinguisher, or equivalent fire extinguisher adequately charged.

(2) The appearance of all district wreckers shall be reasonably good with equipment painted.

(3) All district wreckers shall display the firm's name, address and phone number. Such information shall be painted on or permanently affixed on both sides. Such lettering shall be at least three (3) inches high. Magnetic signs will not be permitted as a substitute.

(4) It is the responsibility of the district wrecker service to have equipment for removing glass and other debris from the highway accident scene and to remove such debris from the highway.

(5) It is the responsibility of the District Wrecker to have a business license issued by the City of Chattanooga.

(6) Each District Wrecker company shall have a physical business office within the District in which it is located.

(7) The phone for each District Office shall be listed in the company name and answered within the District where service is to be provided.

(8) No District Wrecker company shall utilize employees of any other District Wrecker company. Joint use of employees is prohibited.

(Ord. No. 12171, § 1, 10-21-08)

State law reference—Persons removing wrecked or damaged vehicles to remove glass, etc. from highway, T.C.A., § 55-8-170(c).

Sec. 35-157. Required storage facilities and procedures for district wreckers.

District wreckers must provide proper storage facilities and procedures as follows:

(1) The wrecker operator shall provide a properly zoned (or lawful nonconforming use) fenced lot or building for proper and safe storage. Such lot for storage shall be located on the same property as the wrecker service or in close enough proximity to the wrecker service facility to permit the operator to visually observe the storage facility to prevent vandalism or other loss or damage to vehicles and their contents. The fence shall be a minimum of six (6) feet high, constructed of chain-link fencing, lumber, or other material which will serve as a significant deterrent to unauthorized entry. The fencing shall be equipped with lockable gates, which shall be locked at all times when the storage facility is unattended. There shall be room to store at least ten (10) cars within the fenced lot. Class C operators shall additionally have room to store a minimum of one (1) tractor and trailer within the fenced lot.

(2) Records of the vehicles towed and charges of tows from calls received from the city rotation list shall be maintained for at least one (1) year and shall be open for inspection by the city and the owner of any vehicle towed or his agent.

(3) All vehicles towed under the rotation call list provided for by this ordinance shall be stored inside a building or inside the fenced storage facility described above unless an authorization to do otherwise is obtained from the vehicle's owners.

(4) The wrecker service shall notify the registered owners and lienholders, within fifteen (15) days after any vehicle is towed pursuant to a request by any officer or official of the City of Chattanooga, of the location of the stored vehicles and the costs of securing possession of the towed and stored vehicle. Any wrecker service that fails to comply with the notice provisions of this section shall only be entitled to receive the costs of towing the vehicle and the costs for storing the vehicle during the fifteen (15) day notice period. The City of Chattanooga Police Department is hereby authorized to provide, upon written request, to the wrecker service company registration records on stored vehicles for the purposes of issuing the notice required by this section.

(5) The wrecker service shall negotiate a reduced rate annually for storage of vehicles which are established to be stolen vehicles by the Police Department for the City of Chattanooga. The rate for stolen vehicles shall be one-half (1/2) of the normal storage charge for vehicles stored at the wrecker service.

(Ord. No. 12171, § 1, 10-21-08)

Sec. 35-158. Notification required for vehicles held over thirty (30) days.

The state department of revenue will be notified of all vehicles held over thirty (30) days, except when arrangements for longer storage are made by the owner, as required by Tennessee Code Annotated section 55-16-101.
(Ord. No. 12171, § 1, 10-21-08)

Sec. 35-159. Insurance.

Before the Wrecker Board shall approve a district wrecker permit under this article including a renewal license, the applicant shall deposit with the wrecker inspector a certificate of an underwriter that the applicant has in force a policy or policies of insurance issued by an insurance company authorized to transact business in the state and has the minimum insurance coverage required by applicable State and Federal regulations and as follows:

(1) A general liability policy covering the operation of applicant's own business, equipment or vehicles for bodily injuries in the amount of three hundred thousand dollars ($300,000.00) for any one (1) person killed or injured, seven hundred thousand dollars ($700,000.00) for more than one (1) person injured or killed in anyone accident and one hundred thousand dollars ($100,000.00) for all damage arising from injury to or destruction of property. All such policies shall include cargo or "on-hook" riders or otherwise protect the operator against such liability. All such policies shall include garage keeper's liability riders or otherwise protect the operator against liability for damage to towed or wrecked cars kept on the premises arising from fire, theft, or other casualty.

(2) All applicants shall provide a copy of such insurance policies with their application and shall. provide copies of all renewals thereof to the Wrecker Inspector. The insurance policy shall be subject to approval by the City Attorney, or his designees, as to the minimum requirements contained herein. A certificate of insurance shall be provided which contains an endorsement providing a minimum of ten (10) working days' notice in the event of a cancellation of the policy or an expiration of a policy without a copy of a renewal being provided to the Wrecker Inspector, any license issued hereunder shall be suspended until a new policy and certificate of insurance are provided.

(Ord. No. 12171, § 1, 10-21-08)

Sec. 35-160. Billing and charges for district wreckers.

All applicants for a district wrecker permit shall be subject to regulation as to billing and charges for any call from the police department referred to the district wrecker under the call rotation system as follows:

(1) The owner of a wrecker or towing car shall have prepared billheads with his name and the address of his place of business printed thereon. If requested by the owner of the disabled vehicle, the operator of the wrecker before towing a disabled vehicle away shall prepare a bill on his billhead form in duplicate, the original of which shall be given to the owner of the disabled vehicle or his authorized representative. This bill shall contain the following information:

A. Name and address of person engaging towing car.

B. State license number of disabled vehicle.

C. Storage rates per day or part thereof.

D. An estimate of the amount to be charged for towing which may thereafter only be adjusted for good cause. The printing of a schedule of fees on a billhead marked as to services rendered shall be sufficient for this purpose.

(2) The duplicate copy of the bill shall be retained by the wrecker or towing car owner for a period of one (1) year, and shall be subject to inspection by the wrecker inspector or his duly authorized representative.

(3) In the event the bill is for an amount more than the schedule of charges for routine services described in paragraph (4) below, then the bill shall contain an itemization of the number of worker-hours involved in the recovery and towing of the disabled vehicle, an itemization of the vehicle-hours involved, and any other special charges which cause the bill to be higher than the schedule of charges for routine services.

(4) The maximum charges for district wrecker calls shall be up to as follows:

A Class	Daytime tow	$245.00*
	Night/Weekend/Holiday	$273.00*
	Daily Storage (After 8 Hours)	$35.00 per day
	Extra Winching	$100.00/hour flat rate
	Dollies are chargeable only if a wrecker is used for the tow, not in cases where a rollback is used. There should be no extra charge allowed for a rollback tow.	
	Spill Cleanup Labor	$75.00/per incident
	Oil absorbent (oil dry, oil dri) Bags range from 30 pounds to 50 pounds	$10.00/per bag
B Class	Day time	$550.00/hour
	Night/Weekend/Holiday	$550.00/hour
	*Extra Winching (Extra winching if for overturned vehicles and/or Vehicles off roadway and down an embankment).	$300.00/hour
	Daily Storage (After 8 Hrs)	
	A. Tractor	$70.00/day
	B. Trailer	$70.00/day
C Class	Daytime tow	$700.00/hour
	Night/weekend/holiday	$700.00/hour
	Daily Storage (After 8 Hours)	
	A. Tractor	$70.00 per day
	B. Trailer	$70.00 per day
	Air Bags	$1,500.00/hour
For All Classes	Gate Fee - During Business Hours	$50.00
	Gate Fee - After hours or during emergency release	$150.00
	Administration Fee	$75.00

*Provide an annual increase every January based on the annual inflation increase from the prior month's data, to be approved each year by the Wrecker Board.

Any additional charge by Class A, Class B, or Class C wreckers for winching, dollies, wheel lift or rollbacks, or other equipment or services not normally incident to towing wrecked or disabled vehicles shall be allowed only when the additional charge is (1) reasonably necessary to retrieve

a wrecked vehicle which is off of the road or overturned; (2) to protect the wrecked or disabled vehicle from reasonably foreseeable additional damage should the device not be used; or (3) at the request of or permission of the owner or operator. An additional charge can be made for the pneumatic devices used to raise overturned trucks or other equipment not normally used in a tow.

If more than one (1) wrecker is necessary for recovery of the wrecked disabled vehicle the charges shall apply to each vehicle. In all cases involving a combination vehicle of five (5) or more axles or a single vehicle with a gross vehicle weight rating of twenty-six thousand and one (26,001) pounds or more, total charges computed utilizing the previously itemized schedule of hourly rates and equipment charges shall not exceed the total maximum recovery cost that would be applicable using the following schedule of permissible charges by weight for Recovery Class operations. Any dispute over reasonableness of any rates charged under this chapter shall be resolved by the Wrecker Board.

Class C and Recovery Class operations may elect to charge for the following services in lieu of an hourly rate charge provided adequate billing records are maintained and any disputed billing is subject to review by the Wrecker Board:

A.	Contained recovery/winching for all recovery jobs in which there is no clean-up of debris from the vehicle to be recovered and cargo doors remain closed.	10.5¢ per pound
B.	Salvage/debris recovery for picking up debris/parts or loading from one vehicle to another, or a vehicle that breaks apart and needs to be towed from the scene.	12.5¢ per pound
C.	The following charges may be added to the contained recovery/winching or salvage/debris recovery when applicable, and if specified on the billing invoice:	
1.	Inclement Weather: rain, snow, or if the temperature is below 25° F	2.25¢ per pound
2.	Nights, Weekends and Holidays: Includes times after 7:00 p.m. and before 8:00 a.m. and any time on Saturdays, Sundays, and all public holidays	2.25¢ per pound
3.	Wheels higher than roof: If any wheel is higher than any part of the roof	1.5¢ per pound
4.	Embankments or Inclines: If it is necessary to work on an embankment or incline	1.5¢ per pound
5.	Back Door Frame Open: If the back doors cannot be closed or the door frame is tom away and the integrity of the trailer is jeopardized.	1.5¢ per pound
6.	Tractor from under Trailer: If the tractor separates from the trailer in the crash	1.5¢ per pound
7.	Major Suspension Damage: If major suspension damage has an impact on the recovery, e.g., axles have been torn from suspension, but does not include if only the front axle is involved.	7.5¢ per pound
8.	Air Bags:	$1,500.00 per hour

9. Sublet Charges: For tractor trailers, dump trucks, backhoes, containers, roll of containers, traffic control devices and personnel and other equipment necessary for the recovery which is not required equipment to qualify as a recovery class or any other wrecker class under this ordinance. Sublet charges shall be reasonable rates based upon the market rate for renting said equipment in the City of Chattanooga.
10. Exposure to Hazardous and/or Flammable Materials: Charges for personnel being exposed to the risks associated with hazardous materials and/or flammable materials, not including the charges for the clean of said materials. This charge shall be a reasonable charge based upon the market rate in this State. The burden shall be upon the wrecker company to establish the market rate.

All Licensed Class C and Recovery Class operators must keep on file at their location, for a period of one (1) year, video documentation of the scene, and the conditions for which all additional charges are being billed pursuant to this article. Video documentation shall consist of videotape, film, photographs, or other media which accurately depicts the scene and conditions as they actually appeared at the time of recovery.

No storage fee shall be charged by any district wrecker class if the vehicle is reclaimed by the owner within the first eight (8) hours.

For every wrecker class, if more than one (1) owner or employee per wrecker is of necessity assigned to assist in the recovery of the disabled vehicle, the normal hourly wage of the additional employee's adjusted fringe benefits can be made as an additional charge.

(Ord. No. 12171, § 1, 10-21-08; Ord. No. 13920, § 1, 1-10-23; Ord. No. 14091, § 3, 3-12-24; Ord. No. 14334, § 1, 3-10-26)

Sec. 35-161. Districts for district wreckers.

(a) The city shall be divided into six (6) districts for the purpose of administering the wrecker districts. An applicant for a district wrecker permit for a particular zone must have an office and storage facilities within that district. The place of business must be within the city limits unless the wrecker operator was licensed as a district wrecker prior to the effective date of Ordinance Number 8415 (January 22, 1985). A district wrecker company shall apply to be listed in no more than one (1) district for each separate place of business. Police calls will be placed only to operators within the district and will be placed from a separate rotating call list for Class A, Class B, Class C and Recovery Class wreckers. Class B wreckers may be listed on both the "A" and "B" class list upon request. Class C wreckers may be listed on both Class "C" and .Class "B" upon request.

(b) The wrecker board shall have the duty and responsibility to recommend to the mayor from time to time that the wrecker districts established hereunder be changed to more efficiently serve the public interest. Prior to making such recommendations, the wrecker board shall receive reports from the wrecker inspector and the staff of the Chattanooga-Hamilton County Regional Planning Commission as to changes they may recommend.

(c) The city shall be divided into six (6) wrecker districts described as follows:

District 1: This area shall cover North Chattanooga, Suck Creek, and a portion of Mountain Creek. It is bounded on the east, south and west by the northern bank of the Tennessee River. It is bounded on the north by Access Road, thence southwestwardly along Hixson Pike to Ashland Terrace, thence westwardly along Ashland Terrace to the Red Bank corporate boundaries, but not

including said streets. It shall also be bounded on the north by the Red Bank corporate boundaries and in the Mountain Creek area by the intersection of Mountain Creek Road and Morrison Springs Road.

District 2: The area bounded on the west by the corporate boundaries; bounded on the north by the Tennessee River to the west line of Market Street, but excluding said street; southwestwardly along the west line of Market Street to its intersection with 1-24; thence along 1-24 and including 1-24 to the Central Avenue exit; thence along the south line of 124, but excluding said interstate to the Chattanooga-East Ridge corporate boundaries; bounded on the east by the Chattanooga-East Ridge boundaries; and bounded on the south by the corporate boundaries.

District 3: The area bounded on the west by the west line of Market Street, and including said street from and including the Market Street Bridge southwardly along Market Street to the 1-24 overpass; and thence bounded on the south by the north right-of-way line of 124 but excluding said interstate to the Central Avenue exit; thence along the south right-of-way line of said interstate and including said interstate to the Crest Road overpass ("Ridgecut"); bounded on the east by the west line of Crest Road and excluding said road to the intersection of Wilcox Boulevard to where said boulevard, if extended, would cross the Tennessee River; thence along the north bank of the Tennessee River to the point of beginning including Veterans Bridge and the Market Street Bridge.

District 4: The area north of Wilcox Boulevard and Shallowford Road, but excluding said streets, and east of the western boundary of the Tennessee River including the C. B. Robinson Bridge and the Wilkes T. Thrasher Bridge and their approaches northeastwardly to the corporate boundaries. The area is bounded on the south by Districts 3 and 5 and on the west by District 1.

District 5: The area of the corporate boundaries south of the above-described District 4 and east of the above-described District 3. It is bounded on the west by Crest Road and includes said road. It is bounded on the north by Wilcox Boulevard and Shallowford Road and includes said streets.

District 6: This area shall .cover Hixson and the northern Mountain Creek area. It shall be bounded on the east by the Tennessee River, on the south by Access Road, thence southwestwardly along Hixson Pike to Ashland Terrace, thence along Ashland Terrace to the Red Bank corporate boundaries including said streets. It shall cover those areas north of the Red Bank corporate boundaries to the corporate boundaries of Chattanooga and it 20 shall include those areas of Mountain Creek north of the intersection of Morrison Springs Road and Mountain Creek Road.

(d) Class C wrecker permittees shall be on a city-wide rotation list for towing large trucks, road tractors and trailers where a Recovery Class wrecker is not required on controlled access highways and ramps in the determination of the Emergency Service Provider in charge at the scene. If requested, they will be placed in district for purposes of responding to smaller disabled vehicles.
(Ord. No. 12171, § 1, 10-21-08)

Sec. 35-162. Regulations for district wreckers.

A district wrecker permittee shall follow these procedures:

(1) No district wrecker permittee shall operate his business jointly with any other district wrecker permittee. Joint operation shall include common or joint use of any real or personal property as specified more fully in paragraph (19) below, or joint use of any employees as specified more fully in paragraph (20) below.

(2) No permittee shall directly or indirectly operate more than one (1) district wrecker within the same zone. Indirect operation shall include common or joint use of any real or personal property as specified more fully in paragraph (19) below, or joint use of any employees as specified more fully in paragraph (20) below.

(3) No permittees shall be permitted to operate in more than one (1) zone unless each separate location shall separately meet all of the qualifications for a permit.

(4) All permittees are expected to be familiar and comply with the traffic laws of the city and the state, and abide by all provisions of this article.

(5) Permittees will be familiar with and abide by all provisions of this article.

(6) No permittee shall charge unreasonable rates for services rendered.

(7) Permittees shall be available for twenty-four (24) hour service with vehicles in proper operating condition and a qualified operator on duty.

(8) Operators shall carry vehicles to any destination within the city at the owner's or operator's request when charges therefore have been prepaid.

(9) Permittees shall have a telephone number prominently posted for after-hours release of vehicles. The permittees may make an additional charge not to exceed fifty dollars ($50.00) for releasing a vehicle other than during normal business hours, provided that the location is not otherwise open for business. A permittee shall release a vehicle within two (2) hours after a request by the owner or owner's agent.

(10) The police department may direct that a police impoundment be towed to a city lot at no additional charge.

(11) Amber lights are to be used in the immediate vicinity of a wreck and while towing a vehicle.

(12) All operators shall respond to a wreck within a reasonable time after being called, and except for exigent or unusual circumstances a response must be made within thirty (30) minutes after the dispatch request is made to the wrecker operator. If the wrecker is engaged elsewhere or for any reason the wrecker operator cannot reasonably expect to respond within thirty (30) minutes, it shall be the duty of the wrecker operator to so advise the police department and decline to accept the call whereupon the next wrecker operator on rotation shall be called. Any operator failing to respond timely to a rotation call shall be placed at the bottom of the rotation call list.

(13) No licensee shall refer or delegate police calls to other wrecker companies.

(14) No answering service, paging service or similar service or procedure may be used to forward a call to an owner or employee of the wrecker service during normal business hours. The operator may provide for an after-hours number which shall be provided to the wrecker inspector.

(15) The first wrecker operator at the scene shall tow the vehicle causing the greatest hazard as directed by the investigating police officer.

(16) No repairs or other additional services shall be performed except on request of the owner.

(17) An operator may accept a dispatch of more than one (1) wrecker only if qualified wreckers and operators are available within the time limits specified above.

(18) All district wrecker permittees shall file with the Wrecker Inspector a photocopy of a current operator's license for each employee authorized to operate a wrecker or otherwise employed by the company. The photocopy of any new operator's license shall be filed within ten (10) days following employment or renewal of the operator's license. All employees of any permittee shall be subject to a background investigation by the Chattanooga Police Department to determine

whether they have any felony convictions within ten (10) years of the date of the investigation. Any State of Tennessee background check may be acceptable to the City of Chattanooga if it is performed within six (6) months of the issuance of any permit required by this Ordinance.

(19) No district wrecker permittee shall jointly use any real or personal property with any other district wrecker permittees except as provided herein. Real property shall be considered to be jointly used if it is used in any manner for the use or storage of any wrecker, wrecker equipment, or wrecked and disabled vehicles by two (2) or more permittees. Separate recorded parcels of real property shall be deemed to be one (1) parcel of real property for purposes of this Ordinance if (1) the parcels have any common boundaries; (2) the boundaries of the parcels are separated only by a public street, alley, or private driveway; or (3) a common parcel of property as described above was subdivided, sold, leased, rented, or in any manner divided or conveyed on or after the effective date of the Ordinance by the owner of such property to create separate parcels. No district wrecker permittee shall use any wrecker, equipment or other personal property owned by another district wrecker permittee, excluding bona-fide lease or rental contracts for a term of thirty (30) days or more except upon a written lease or rental agreement supported by fair market consideration. A copy of any such lease or rental contract shall be filed with the Wrecker Inspector within thirty (30) days of the vehicle first being used on district wrecker calls. District wrecker permits issued prior to September 1, 1989, may be renewed without regard to the requirement for separate recorded parcels of real property and operated notwithstanding the provisions of paragraphs 1 and 2 of this section.

(20) Each district wrecker operator shall regularly employ at least two (2) primary operators for each location permitted under this Article who shall be employed forty (40) hours per week during normal working hours or a normal work week if the permittee's normal work week for employees is less than forty (40) hours. A photocopy of the primary operator's chauffeur's license or commercial motor vehicle license shall be submitted to the Wrecker Inspector within ten (10) days following their employment and the operator shall keep the Wrecker Inspector advised of any changes in employment of such operators within ten (10) days. The same person cannot be qualified to act as the primary operator for more than district wrecker permittees. Nothing herein shall prevent a primary operator of one (1) permittee to act as a part time operator for another permittee. The owner(s) may qualify as a primary operator(s) providing that he or she regularly operates the wrecker and responds to wrecks or disabled vehicles personally during normal business hours. At the discretion of the editor, the word "charges" was amended to read "changes" due to an inadvertent clerical error contained in Ord. No. 9246, § 6, adopted 9-19-89.

(Ord. No. 12171, § 1, 10-21-08; Ord. No. 12467, § 1, 1-25-11)

Sec. 35-163. Vehicles to be towed to place designated by owner; coercion at scene of an accident prohibited.

The wrecker operator may tow the wrecked or disabled vehicles to the operator's place of business; provided, if the owner or agent of the wrecked or disabled vehicle pays or secures the towing charges, then the wrecker operator or crane operator shall pull the vehicle to any place within the city designated by such owner or agent. It shall be unlawful for the owner of a district wrecker, his agent, employee or representative at the scene of any accident to high-pressure or otherwise to coerce or insist upon any owner of a wrecked or disabled vehicle to sign a work order or agreement at the scene of the accident for any repairs to be made on such wrecked or disabled vehicle.

(Ord. No. 12171, § 1, 10-21-08)

Sec. 35-164. Wreckers to go to scene of accident on call of police only at owner's or operator's request.

(a) It shall be unlawful for any district wrecker operator, or his agent or representative, to go to any place where an accident has occurred unless called by the Emergency Services Dispatcher or unless requested by the owner or operator of a vehicle involved in the accident in the manner provided within Section 35-169 of this Article. In either situation, the wrecker shall clear with the police dispatcher before going to the accident scene.

(b) It shall be unlawful for the owner of any district wrecker, or his agent or representative to go to the place of a wreck by reason of information received by shortwave or police radio.
(Ord. No. 12171, § 1, 10-21-08)

Sec. 35-165. Solicitation of towing work by operator, etc., of district wrecker prohibited.

A district wrecker operator shall not proceed to the scene of a disabled motor vehicle without having been requested or notified to do so, as provided in section 35-164 of this Code. Responding to an accident without being called by the Emergency Services Dispatcher or without the prior written request of the owner or operator of a vehicle involved in the accident shall be considered a violation of this article; provided that, the provisions of this section shall not be operable during periods of snow emergencies proclaimed by the mayor or under the provisions of section 24-376 of this Code.
(Ord. No. 12171, § 1, 10-21-08)

Sec. 35-166. Call and notification procedures for emergency towing and storage.

(a) Whenever any police officer finds a vehicle standing upon any street or highway which constitutes a hazard to the safe movement of traffic along such street, or when the towing of such vehicle is otherwise permitted by this Code or other applicable law, the officer shall:

(1) Notify the Emergency Services dispatcher, who shall call the district wrecker having the class of wrecker necessary;

(2) The district wrecker shall tow the wrecker or disabled motor vehicle in the manner and procedures as provided in this article; and

(3) The district wrecker shall be entitled to recover any unpaid charges for towing and storage in accordance with title 55, chapter 16, Tennessee Code Annotated, "Unclaimed or Abandoned Vehicles."

(b) Call and Notification Procedures:

(1) When a member of the Chattanooga Police Department is dispatched to a crash, motorist assist, or any other request for assistance, the investigating officer, after determining the need shall contact the dispatcher. The emergency services dispatcher will notify the next scheduled tow truck to respond, provided that the affected parties have not already made contact with a towing company of their choice. No tow truck shall remove a crashed vehicle from the scene without it being investigated by a law enforcement agency.

(2) Tow trucks shall be available for immediate response twenty-four (24) hours a day.

A. Tow truck operators must respond in a reasonable length of time, as determined by the requesting officer, or the next scheduled tow truck will be called and the first one (1) will lose its turn. Continual slow responses shall be noted and addressed by the wrecker inspector and brought to the Wrecker Board for review.

B. If a busy signal is received, the next scheduled tow truck will be called and the first one (1) will lose its turn.

C. If the towing company uses an answering service and the call back is not received in a reasonable length of time, as determined by the requesting officer, the next scheduled tow truck will be called and the first one (1) will lose its turn.

D. Towing companies shall respond "Yes" or "No" when asked if they can respond to a call in a reasonable amount of time.

E. Towing companies cannot refer a call to another towing company or substitute another company's tow truck to avoid losing a turn on the district wrecker rotation call.

F. Operators refusing a call, or failing to respond promptly to a call, may be removed/ suspended from the district wrecker rotation call.

G. Towing companies are restricted to a maximum of two (2) telephone numbers on the district wrecker rotation call list. "Call Waiting" and "Call Forwarding" are recommended; pagers and beepers are not allowed.

H. Tow truck operators who fail to answer a call will lose the call. If two (2) calls are missed on the rotation of the list, an investigation will be made by the wrecker inspector and suspension or removal will be considered by the Wrecker Board.

(3) If tow truck operators desire to be off-duty for any length of time, they shall inform the Chattanooga Police dispatcher to avoid removal from the rotation of the list. Upon returning, the tow truck operator will be placed back on the rotating list.

(4) Only one (1) towing company shall be called to anyone (I)-vehicle crash. If additional equipment or recovery vehicles are needed to adequately complete a tow (i.e.: tractor-trailer, rollover or difficult auto recovery), the severity of the situation and the estimated response time of additional equipment will be weighed by the investigating officer at the scene, who will be the deciding authority. If such request is granted, the investigating officer shall note it on the Tow/No Tow Report.

(5) When multiple vehicles are involved and multiple tow trucks are called:

A. The first tow truck arriving at the scene will tow the car causing the greatest traffic hazard, which will be determined by the member of the Tennessee Department of Safety or the investigating officer in charge at the scene.

B. If a requested tow truck arrives first, the tow truck will help remove vehicles causing traffic hazard from roadway, then pick up the requested tow.

C. If a towing service has two (2) tow trucks, two (2) vehicles may be. towed without loss of turn on the rotation, provided both tow trucks can respond simultaneously and both have passed inspection and been certified.

D. In the event of an extreme emergency, the investigating officer may request 'the nearest available certified tow truck. Should this occur, members will make thorough notations for courses of action taken on the Tow/No Tow Report (SF-0156).

(6) When a tractor-trailer combination is involved in a breakdown and requires a tow, the combination can be towed to the first safe haven, towing facility, or repair facility. If the vehicle is towed beyond these points, if shall be separated and the tractor and trailer will be towed independently of each other. Tractor-trailers involved in crashes shall be separated at the crash scene before being towed.

(7) All certified towing companies shall be prohibited from "chasing" or "running" crashes or "break-downs", without a bona fide call from a Chattanooga police dispatcher or request from the owner. Violations of this provision will be subject to suspension or removal from the district wrecker rotation call list. This includes solicitation by those persons who have a right to be there.

(8) Towing companies are expressly prohibited from calling Chattanooga Police dispatch to determine their place on the call list. Wrecker Inspector will address concerns of position or placement on the call list and bring any violations to the attention of the Wrecker Board.

(9) Except as provided in Sections 35-164 and 35-169 of this Chapter, if a towing service is at the scene of a crash when the investigating officer arrives without being called by the Chattanooga Police Department of person(s) involved; the towing service will be sent back by the investigating officer and lose its turn on the district wrecker rotation call.

(10) The towing of abandoned vehicles is a necessary part of the responsibilities of Chattanooga Police officers and Neighborhood Services employees for the City of Chattanooga. After vehicles have remained abandoned for a period of time specified by law, towing companies will be required to remove these vehicles when requested. In order to provide equitable service, the City department requesting vehicles to be towed shall maintain a separate listing for these vehicles. When a towing company is requested to remove one (1) of these vehicles, IT SHALL NOT AFFECT THE TURN ON THE DISTRICT WRECKER ROTATION CALL LIST FOR OTHER CALLS FOR SERVICE. This shall apply provided that, when called, the towing company responds and does not forfeit or decline the call. If more than two (2) calls for removal on the .Abandoned Vehicle Call List are missed, actions will be taken to place the towing company at the bottom of the Call List for other calls for service.

(Ord. No. 12171, § 1, 10-21-08)

Sec. 35-167. Fleet Service Contracts.

(a) Owners or operators of a fleet of vehicles may apply to the wrecker inspector to have their vehicles listed with the police department for the dispatch of a particular wrecker service in lieu of having the district wrecker respond to a wreck for a disabled vehicle. To defray the cost of establishing and maintaining this system, each applicant shall pay a fee of twenty dollars ($20.00) with the original application and an additional twenty dollar ($20.00) fee for each amendment thereafter. Such applications shall be accepted only from owners or operators having a right to directly control the use of the vehicle, and they shall not be accepted from auto repair facilities or leasing companies other than for vehicles directly used in such businesses.

(b) If an owner or operator of a fleet of vehicles has a request on file to notify a particular wrecker service, and the police officer on the scene is so notified, he shall radio the dispatcher who shall notify the requested wrecker company, if the wrecker company meets the qualifications and response time set forth in this Ordinance to tow the type of vehicle to be towed, and to do so would not interfere with the public's health, safety or welfare. However, if the officer or dispatcher is notified of a particular wrecker service after a district wrecker has been dispatched, then the request for the particular wrecker service shall be denied, notwithstanding the fact that an application has been filed and the twenty-dollar ($20.00) fee paid.
(Ord. No. 12171, § 1, 10-21-08)

Sec. 35-168. Severability.

If any provision of this article is determined to be unenforceable or invalid, such determination will not affect the validity of the other provisions contained in this article. Failure to enforce any provision of this article does not affect the rights of the parties to enforce such provision in another circumstance, nor does it affect the rights of the parties to enforce any other provision of this article at any time.
(Ord. No. 12171, § 1, 10-21-08)

Sec. 35-169. Owner's request.

(a) Any business within the City of Chattanooga who desires to authorize one (1) wrecker company to do all towing for that business within the City of Chattanooga shall sign a notarized document which shall be filed with the Wrecker Board, Chattanooga Police Department and 911 Board, authorizing such business arrangement.

(b) Any individual or company requesting a specific wrecker or towing operator to tow their vehicle within A Class or B Class shall sign a document which shall be provided by the investigating officer at the scene.

(c) It shall be a violation of this Ordinance for any individual to recommend a wrecker service. A listing of all licensed wrecker or towing operators shall be made available by the investigating officer for the District of the location of the vehicle collision.

(d) Whenever an investigating officer of the Chattanooga Police Department or the Tennessee Highway Patrol arrives at the scene of any vehicle collision, the responding agency will utilize its respective rotation lists depending on the first unit to arrive at the scene.

(e) Owner's requests for C Class or Recovery Class wreckers shall be submitted in writing to the Chattanooga Police Department and 911 Board with the name of owner and wrecker requested. No tow truck shall be allowed to remove vehicles from any controlled access highway or ramp unless such tow truck is dispatched by the Emergency Communications Provider or unless a written request for owner's request service is on file with the Chattanooga Police Department and 911 Board. No changes in owner's request shall be made unless a written request is filed with the Chattanooga Police Department and 911 Board for at least two (2) business days before the request is made.
(Ord. No. 12171, § 1, 10-21-08)

Sec. 35-170. Penalties for violation of the wrecker board ordinance.

(a) Any violation of this Ordinance may be brought to the Wrecker Board by the Wrecker Inspector. For the first violation of this Ordinance by a wrecker or towing operator, the District Wrecker shall be subject to a thirty (30) day suspension from the call rotation list on all classes held by the District Wrecker.

(b) For the second violation of this Ordinance by a wrecker or towing operator, the District Wrecker shall be subject to a suspension of six (6) months from the call rotation list on all Classes held by the District Wrecker on all classes held by the District Wrecker. .

(c) For the third infraction of this Ordinance by a wrecker or towing operator, the District Wrecker shall be subject to a three (3) year suspension from the call rotation list on all classes held by the District Wrecker.

(d) Any District Wrecker determined to be in violation of this Ordinance shall not be penalized by earlier violations which are more than three (3) years old at the time of a violation. The Wrecker Board shall not consider any violations which are more than three (3) years old in the application of any call rotation list suspension.
(Ord. No. 12171, § 1, 10-21-08)

Sec. 35-171. Non-consent towing from private property.

(a) It is unlawful for any person, or the person's agent, to move or cause to be moved, any motor vehicle located on private property, from the property, if the owner of the motor vehicle has acquired any interest in the private property by virtue of a lease or any contract, without the express consent of the owner of the motor vehicle; or upon request by the owner or tenant of the property on which the vehicle is located; or unless the person so moving the motor vehicle has acquired an interest in the vehicle by operation of law, a security interest agreement, or is acting pursuant to an order of a court of competent jurisdiction, including a municipal court.

(b) A tow or wrecker operator shall notify the Chattanooga Police Department of any non-consent tow of a motor vehicle from a private property. The Notice required by this subsection shall be sent electronically or telephonically within one (1) hour of making the non-consent tow of a motor vehicle from a private property. A tow or wrecker operator shall send written confirmation of the non-consent tow of a motor vehicle from a private property within two (2) days if the motor vehicle is not claimed by the owner

of record or the owner of record's representative. The written notice required by this subsection shall be waived if the tow or wrecker operator provided timely electronic or telephone notice to the Chattanooga Police Department and the owner or owner's representative has reclaimed the motor vehicle.

(c) Prior to towing a vehicle from private property without the vehicle owner's consent, the wrecker or towing operator must have express written authorization for towing of that vehicle from the owner of the private property or the owner's designated agent. When an individual is designated by a private property owner to act as an agent to authorize towing from the property, such designation must be in writing and signed by the private property owner. There shall be some relationship between the private property owner and the designated agent, and there may be no personal or business relationship between the designated agent and the wrecker or towing operator. No employee of a wrecker or towing operator or designee of a wrecker or towing operator may patrol or otherwise participate in the decision making processes about which vehicles are to be towed, including but not limited to, the placing any sticker, signal or any other form of designation on any vehicle to be towed. Contracts or written agreements between a wrecker or towing operator and private property owners for non-consent towing must be retained by the wrecker or towing operator, and must include the property owner's signature and the signature(s) of any agent(s) designated by the private property owner. The wrecker or towing operator must make these documents available for inspection by the Chattanooga Police Department at any time. Maximum allowable rates for non-consent towing from private property will be as specified in subsections (d) and (e) of this Section.

(d) Any person {all licensees} who engage in the business of towing vehicles from public or private property shall post a notice on each vehicle, in letters not less than two (2) inches high and appearing in a legible manner on the boom or rear of the wrecker as follows:

FEE TO DROP VEHICLE BEFORE DEPARTING:

Two Axle	$75.00
Three or More Axles	$150.00

If the owner or operator of the vehicle is present and removes the vehicle to be towed from the premises before it is connected to the towing vehicle, the owner or operator shall not be charged any fee. If the owner or operator of the vehicle is present after the towing vehicle has been connected to the vehicle to be towed, the vehicle shall not be towed, but the owner or operator of the vehicle shall be liable for a reasonable fee not to exceed Seventy-five Dollars ($75.00) for two (2) axle vehicles and One Hundred Fifty Dollars ($150.00) for three (3) or more axle vehicles in lieu of towing, provided the owner or operator of the vehicle forthwith removes the vehicle from the premises. A vehicle shall be deemed connected if every procedure required to secure the vehicle to the wrecker or wrecker equipment so that the vehicle may be safely towed has been completed at the time the owner or operator arrives, including the attachment of any safety chains.

(e) Rate Schedule for Non-consent Towing from Private Property. Any wrecker or towing operator engaged in the business of non-consent towing shall not charge the owner of any towed vehicle or personal property in excess of the following rates:

Towing:

(1) Two (2) axle vehicles under seven thousand (7,000) pounds GVWR. . .One hundred twenty-five dollars ($125.00), excluding storage fees.

(2) Vehicles over seven thousand (7,000) pounds GVWR:

Length of 26 feet and under	$250.00 (daytime tow); $285.00 (Night/Weekend/Holiday)
Length of 26 feet and over	$425.00 (daytime tow); $500.00 (Night/Weekend/Holiday)

(3) The maximum fee for storage of a vehicle removed from private property (without the owner's consent) shall be twenty dollars ($20.00) per day. No storage fee shall be charged for a vehicle stored for twenty-four (24) hours or less.

(4) In addition to the rates authorized above, tow and wrecker companies are authorized to charge a one (1) time processing fee of Fifteen Dollars ($15.00) for any vehicle remaining in storage on the company lot for more than ten (10) days to offset direct costs for notification to the owner or lienholder as required by state law.

(5) Any vehicle towed under this section shall be released within two (2) hours after a request by the owner or owner's agent. No fee may be charged to comply with this subsection.

(f) The towing fees set forth in this Section shall be all inclusive; no additional fees may be charged, for using dollies, trailers, lifts, slim jims or any other equipment or service, or for mileage.

(g) The towing of any vehicle without the consent of the owner must be reported to the Chattanooga Police Department within one (1) hour of the completion of the towing of the vehicle. The towing operator or wrecker service shall advise the Chattanooga Police Department at that time of the non-consent tow of the location from which the vehicle was towed, vehicle identification number (VIN), license number, make, model and color of the vehicle.

(h) Tows from private property shall conform with the requirements of this Section along with federal and state laws, including T.C.A. § 55-16-112 and T.C.A. § 66-28-518.

(i) It shall be unlawful for a property owner or a property owners' agent, tenant, lessee, occupant or person in possession of premises to authorize a tow for the removal of a vehicle from private property unless the premises are clearly marked with identifiable signage that states unauthorized parking of vehicles on the premises shall result in a vehicle being removed or towed without the vehicle owners' consent for a fee. The signage shall be conspicuously posted and shall also include information as to the location where the vehicle can be recovered, the telephone number for recovery of the vehicle, the cost of said recovery, and information as to the form of payment; provided, however, that the owner of residential private property containing not more than four (4) residential units shall not be required to comply with the posting requirements of this subsection.

(j) Rate notification for Non-consent Towing from Private Property.

(1) Every tow or wrecker operator who makes non-consent tows shall be issued a rate card by the Wrecker Inspector setting forth the maximum authorized rates and charges for non-consent tows permitted by the City of Chattanooga. Such card shall be displayed in such a place as to be in full view of anyone wishing to inspect same.

(2) Every tow or wrecker operator shall use billheads with the name, address, and place of business of the wrecker company printed thereon. The operator of a wrecker towing away a vehicle shall prepare a bill on this billhead form in triplicate; the original copy of which shall be given to the owner of the vehicle or his authorized representative; one (1) copy shall be sent to the Wrecker Inspector on or before the 15th of the month; and the last copy must be retained by the owner of the wrecker company for no less than twenty-four (24) months. This bill shall contain the following information:

a. The name and address of person engaging the wrecker.

b. The state license plate number or the VIN (Vehicle Identification Number) of the towed vehicle.

c. The rate charged in accordance to Section 35-171(e)(1) and (2) and, if applicable, the storage rate per day in accordance to Section 35-171(e)(3) and the processing fee in accordance to Section 35-171(e)(4).

d. The place to where vehicle was towed.

e. The following language:

"The City of Chattanooga Wrecker Inspector may be contacted by calling the City of Chattanooga Police Department at (423) 643-5000."

(Ord. No. 12393, § 1, 5-11-10; Ord. No. 12467, §§ 2—4, 1-25-11; Ord. No. 12941, §§ 1—5, 5-5-15)

Secs. 35-172—35-180. Reserved.

(Ord. No. 12171, § 1, 10-21-08; Ord. No. 12393, § 1, 5-11-10)

ARTICLE V. AMBULANCES*

Sec. 35-181. Authority to provide service; scope.

The mayor is authorized to do all things necessary to provide emergency ambulance service to the citizens of this city, including but not limited to making of contracts, leases and agreements, purchasing and replacing of equipment, and the hiring and training of personnel, all subject to the approval of the mayor.

(Code 1986, § 35-181; Ord. No. 9654, § 127, 1-6-92)

Sec. 35-182. Fees; method of determination; availability.

(a) There is hereby imposed a charge of one hundred dollars ($100.00) for emergency ambulance service by the city to be collected per transport or trip, as hereinafter provided, without regard to the number of persons transported in each trip. Each person transported per trip shall be charged a pro rata share of the fee for such trip; provided that, the emergency ambulance service authorized under this article shall also be available to the indigent citizens of this city.

(b) In addition to the charge imposed under paragraph (a) of this section, there is hereby imposed the following charges for the respective services:

(1) Administration of oxygen, ten dollars ($10.00);

(2) Cardiac monitoring, twenty-five dollars ($25.00);

(3) Intravenous therapy, fifteen dollars ($15.00), plus ten dollars ($10.00) for each additional medication;

(4) Defibrillation, ten dollars ($10.00);

(5) Administration of medical anti-shock trousers, ten dollars ($10.00);

(6) Administering disposable bag mask, twenty-five dollars ($25.00);

(7) Administering endotracheal tubes, five dollars ($5.00);

***Charter reference—**Authority to impose a fee or charge reasonably necessary to the exercise of city powers, § 2.1(2).

Cross reference—Operation of authorized emergency vehicles, § 24-11 et seq.

State law reference—Authority to provide ambulance service as a public service, T.C.A. § 7-61-102.

(8) Administering contamination kit, ten dollars ($10.00);

(9) Administering disposable laryngoscope, five dollars ($5.00);

(10) Administering cervical collars, ten dollars ($10.00);

(11) Administering PtL Airway, twenty-five dollars ($25.00).

(c) If an ambulance is called, but for any reason the response does not result in the transportation of a patient, the basic ambulance response fee for that trip shall be seventy-five dollars ($75.00) instead of the one hundred dollars ($100.00) provided for under paragraph (a) of this section.
(Code 1986, § 35-182; Ord. No. 9205, § 1, 8-1-89)

Sec. 35-183. Authority of mayor to negotiate contracts.

The mayor may negotiate and enter contracts to effect the collection of charges for the emergency ambulance service hereby authorized, such contracts to include procedures, fees to be allowed to the contracting party, and such standards of indigency as may be deemed necessary to effectuate the provisions of section 35-182 of this article.
(Code 1986, § 35-183; Ord. No. 9654, §§ 127, 128, 1-6-92)

Sec. 35-184. Permission required for ambulances to respond to emergency calls.

It shall be unlawful for any person to drive, operate or have driven or operated any ambulance on the streets of the city on any emergency call where the patient was or is to be picked up within the city without having called police headquarters and secured permission to make such emergency call. The sergeant or other person on duty at headquarters shall authorize the first ambulance operator who calls reporting an emergency call to respond to such call, and shall inform all persons who report such call subsequently that it is already being answered.
(Code 1986, § 35-184)

Sec. 35-185. Reports by drivers.

All ambulance drivers shall immediately report to the chief of police all cases of shooting, cutting or other injuries which may constitute a murder or an attempt to murder, which they may be called upon to handle either at the place of the injury or the residence of the injured, giving in such report the number of the residence and the names of the injured persons. It shall also be the duty of all ambulance drivers to report to the chief of police all patients injured in automobile accidents to whom they may be called for professional services.
(Code 1986, § 35-185)

Cross reference—Physicians to report injuries constituting a murder or attempt to murder, § 16-50.

ARTICLE VI. HORSE-DRAWN CARRIAGES

DIVISION 1. IN GENERAL

Sec. 35-186. Definitions.

"Carriage" means any four-wheeled device in, upon or by which any person may be transported and is designed to be drawn by one (1) or more horses.

"Carriage permit" means a permit issued by the Passenger Vehicle For Hire Board for an animal-drawn carriage to transport persons.

"Certificate of public convenience and necessity" (also written as CPCN) as it relates to this article, means a license granted, upon application and approval, by the Passenger Vehicle For Hire Board for the sole purpose of authorizing the certificate holder to provide transportation through an animal-drawn carriage or vehicle and may hold one (1) or more permits as defined under this section.

"Custodian" means a person who has the immediate possession, bailment, custody, use, or control of a horse. For the purposes of this act, the term "custodian" includes a driver.

"Driver" means a person licensed to drive, steer, transport, or operate a carriage or horse used in the horse-drawn carriage trade.

"Driver permit" means a permit issued by the Passenger Vehicle For Hire Board to drive and operate a horse-drawn carriage.

"For hire horse-drawn carriage" means any vehicle pulled by a horse, mule or other equine regularly engaged in the business of carrying passengers for fee, donation, gratuity or gratis.

"Horse" means any animal of the genus equus which is of a type used for the purpose of driving, pulling, or hauling a carriage. Ponies and Thoroughbreds are not allowed.

"Licensed veterinarian" means a person licensed to practice veterinary medicine and who specializes in equine or large animal medicine.

"Passenger Vehicle For Hire Inspector" means the inspector(s) appointed in Section 35-20 of this chapter.

"Passenger Vehicle For Hire Board" means the board established in Section 35-17 of this chapter.
(Ord. No. 11378, § 1, 2-11-03; Ord. No. 12092, § 2, 3-18-08; Ord. No. 12891, § 1, 1-6-15)

Sec. 35-187. Jurisdiction.

The Passenger Vehicle For Hire Board shall have exclusive jurisdiction of the licensing and regulation of horse-drawn carriages. The Passenger Vehicle For Hire Board has the authority, power and duty to enforce the provisions of this Article, provided that nothing in this Section shall be construed to prohibit any court, including the Municipal Court of the City of Chattanooga, from imposing penalties provided by this Code for any violation of this Article.

The actions of the Passenger Vehicle For Hire Board shall be final, subject to such judicial appeal as may be allowed by law.
(Ord. No. 11378, § 1, 2-11-03; Ord. No. 12092, § 2, 3-18-08; Ord. No. 12891, § 1, 1-6-15)

DIVISION 2. CERTIFICATE OF PUBLIC CONVENIENCE AND NECESSITY

Sec. 35-188. Required and term.

No horse-drawn carriage shall be used or operated on a for hire basis by any person in the City of Chattanooga without an owner or operator having first obtained a certificate of public convenience and necessity. Each certificate shall be valid for one (1) year and shall be subject to renewal pursuant to the provisions set forth in this article.
(Ord. No. 11378, § 1, 2-11-03)

Sec. 35-189. Application and fees.

(a) Upon application and the payment of a fee of one hundred dollars ($100.00), a person may be issued an annual CPCN certificate to operate a horse-drawn carriage business subject to the approval of the Passenger Vehicle For Hire Board.

(b) All applications for a CPCN certificate shall set forth:

(1) Name, home address, telephone number, date of birth, and social security number of the applicant(s);

(2) Business name (D/B/A), business address and telephone number if different from above;

(3) A list of current drivers employed by the business, with each driver's permit number indicated;

(4) The form of business of the applicant, i.e. corporation, partnership, sole proprietor. If the business is a corporation or any other form of association, a copy of the documents establishing the business and the name, address, and citizenship of each person with a direct interest in the business;

(5) A description of any past business experience of the applicant, particularly in providing horse-drawn carriage services. Identification and description of any revocation or suspension of operating authority imposed by any government against any license or permit held by the applicant before the date of filing the application and any litigation related to the operation of the business and accidents involving injury to persons or animals;

(6) The number and description of carriages the applicant proposes to use in the operation of the service, including any identifying characteristics such as color, style and other markings;

(7) The number of horses the applicant proposes to use in the operation of the service along with a description and four (4) separate and unobstructed color photographs of each animal (front, each side and rear), and a statement (not more than thirty (30) days old) by a veterinarian certified by the state of Tennessee documenting that the horse has been examined and is approved as serviceable for its use in a carriage rental business and that there has been formulated and implemented a health maintenance plan for each horse. The Passenger Vehicle For Hire Board may by rule require any necessary forms to implement this part;

(8) A description of the proposed service, including routes, rates or fares to be charged, and schedules, where applicable;

(9) The financial ability and responsibility of the applicant as reflected by a financial statement, insurance coverage to be provided, and other pertinent facts which may be required by the Passenger Vehicle For Hire Board. The Passenger Vehicle For Hire Board may by rule designate a specific financial statement to be submitted;

(10) Whether the applicant has been convicted of a felony within five (5) years prior to the date of application or for any offense related to cruelty or neglect of animals.

(11) Any additional information, including business references, strategic plans and similar information, as the applicant desires to include to aid in the determination of whether the requested operating authority should be granted;

(12) Any additional information as the Passenger Vehicle For Hire Board considers necessary to assist or promote the implementation or enforcement of this chapter or the protection of the public safety.

(c) Upon the filing of an application for a certificate of public convenience and necessity and/or a request for additional permits, the Passenger Vehicle For Hire Board shall fix a time and place for a public hearing thereon, as detailed in Section 35-48 of this chapter. Any material misrepresentation in the application shall be a basis for denial of a certificate of public convenience and necessity. If the applicant or any owner of the business having a ten percent (10%) or greater financial interest in the business has been convicted of a felony within five (5) years, the certificate shall be denied.

(d) The Passenger Vehicle For Hire Board shall issue such certificate valid for one (1) year if it finds that the applicant meets all requirements of this article.

(e) If the Passenger Vehicle For Hire Board finds that a certificate should be issued to an applicant, the applicant will be issued a permit for each carriage to be operated.

(f) The action of the Passenger Vehicle For Hire Board in issuing or denying such a certificate shall be final, except as it may be subject to review at law.

(g) An applicant who has been denied a certificate or license by the Passenger Vehicle For Hire Board shall not be allowed to make another application for six (6) months from the date of the denial.

(h) The owner, operator, or custodian of a horse engaged in a horse-drawn carriage service shall have such valid certificate available for immediate inspection by the Passenger Vehicle For Hire Inspector, a police officer, or an Animal Services officer at all times when a horse is on any street or public byway.
(Ord. No. 11378, § 1, 2-11-03; Ord. No. 12092, § 2, 3-18-08; Ord. No. 12891, § 1, 1-6-15)

Sec. 35-190. Insurance required.

(a) Before any certificate shall be issued by the Passenger Vehicle For Hire Board, or before the renewal of such certificate shall be granted, the applicant shall be required to file an insurance policy and/or certificate of insurance with the Passenger Vehicle For Hire Board evidencing insurance coverage as required in this section.

(b) Insurance coverage as provided in subsection (a) of this section means a policy of public liability insurance issued by an insurance company qualified to do business in the state and naming the City of Chattanooga as an additional insured, with the minimum amount of insurance to be one million dollars ($1,000,000.00) per carriage, known as combined single limit insurance coverage. Such policy shall expressly provide that it may not be canceled, except after thirty (30) days written notice to the Passenger Vehicle For Hire Board.

Any changes in insurance coverage must be reported to the Passenger Vehicle For Hire Board immediately.
(Ord. No. 11378, § 1, 2-11-03; Ord. No. 12092, § 2, 3-18-08; Ord. No. 12891, § 1, 1-6-15)

Sec. 35-191. Certificates, generally.

(a) A certificate must state on its face that it is for the exclusive purpose of operating a for-hire horse-drawn carriage service within the City of Chattanooga. It may also contain other conditions and limitations deemed necessary by the commission, including, but not limited to:

(1) Number and description of vehicles authorized;

(2) Number and description of horses to be used;

(3) Number of passengers that may be safely transported in each vehicle, based on the size of the vehicle and the type of horse pulling the vehicle;

(4) Places for loading or unloading passengers;

(5) Hours of operation and/or schedules and routes to be followed;

(6) Operating procedures;

(7) The use of special safety equipment;

(8) The use of special sanitary devices and special care procedures;

(9) Special conditions or limitations.

(b) A certificate holder commits an offense if he or she fails to comply with the conditions or limitations placed on the operating authority under which he or she is operating the horse-drawn carriage.

(c) If a certificate holder changes address or telephone number of the service, the certificate holder shall immediately notify the commission director. Failure to do so may result in disciplinary action.

(d) If a carriage that has received a valid certificate under this Article is sold, destroyed, or otherwise taken out of use by the certificate holder, the certificate holder shall have the right to substitute within thirty (30) days after sale, destruction or elimination of the carriage, another carriage of the same or similar type and construction and receive a new carriage identification certificate if the permittee complies with all other requirements of this article, subject to inspection.

Change of ownership of a carriage that has been issued a certificate, will cause such certificate to automatically be revoked and the certificate shall be destroyed or returned to the Passenger Vehicle For Hire Board.
(Ord. No. 11378, § 1, 2-11-03; Ord. No. 12092, § 2, 3-18-08; Ord. No. 12891, § 1, 1-6-15)

Sec. 35-192. Disciplinary action.

(a) The Passenger Vehicle For Hire Board may place on probation, suspend or revoke a certificate holder if it is determined that the certificate holder, or any driver operating on behalf of the certificate holder, has:

(1) Made a false statement in the application;

(2) Failed to comply with provisions of this chapter;

(3) Operated a service not authorized by the certificate;

(4) Failed to comply with the conditions and limitations of the certificate;

(5) Been convicted of a violation of local, state, or federal law, that indicates a lack of fitness of the permittee to perform a passenger transportation service;

(6) Been convicted of any felony offense while holding the permit;

(7) Engaged in conduct detrimental to the public safety; or

(8) Been convicted of any offense involving driving while intoxicated.

(b) Any certificate holder or applicant convicted of a violation of this chapter or any other local, state or federal law concerning the treatment of animals shall be denied a certificate under this chapter, or such conviction shall form the basis for the suspension or revocation of any certificate granted under this chapter.

(c) A permit or certificate may not be revoked or suspended unless the owner or driver has received notice and had an opportunity to present evidence in his or her behalf. The action of the Passenger Vehicle For Hire Board in suspending a license or permit shall be final, subject to a review at law.

(d) After receipt of notice of suspension, revocation, or denial of certificate renewal, the certificate holder shall, on the date specified in the notice, discontinue driving or operating a horse-drawn carriage for hire inside the City of Chattanooga and shall surrender the written certificate to the Passenger Vehicle For Hire Board.
(Ord. No. 11378, § 1, 2-11-03; Ord. No. 12092, § 2, 3-18-08; Ord. No. 12891, § 1, 1-6-15)

Sec. 35-193. Records and reports.

(a) Each certificate holder shall maintain at a single location business records of its horse-drawn carriage business. The records must contain the following information:

(1) An identification of the carriage used for each trip;

(2) The number of trips made by each carriage on a daily basis;

(3) An identification of the horse used for each trip and notation of the periods of work and rest for each horse; and

(4) Any other information the Passenger Vehicle For Hire Board determines necessary for monitoring the activities, operations, service, and safety record of the permittee.

(b) A certificate holder shall make its records available for inspection by the Passenger Vehicle For Hire Board, Passenger Vehicle For Hire Inspector, Animal Services officer or designated officials.
(Ord. No. 11378, § 1, 2-11-03; Ord. No. 12092, § 2, 3-18-08; Ord. No. 12891, § 1, 1-6-15)

Sec. 35-194. Temporary permits.

(a) Special occasion permits must be obtained by carriage owners, who are not already certificate holders, for such events as weddings, parades, etc. Such a permit shall be applied for in advance of the event by submitting a written application to the Passenger Vehicle For Hire Inspector, accompanied by a twenty-five dollars ($25.00) fee. There shall be a limitation of three (3) temporary permits per year per owner.

(b) Carriages authorized by a temporary permit under this section:

(1) May not be used for more than three (3) days, and such permit expires sixty (60) days after it is issued;

(2) Must comply with the vehicle requirements of this chapter;

(3) Must comply with the insurance requirements of this chapter;

(4) Must comply with the requirements for horse care and treatment in this chapter; and

(5) Are subject to inspection by the Passenger Vehicle For Hire Inspector, who may (at any time) order unsafe vehicles or abused/tired/unfit horses to be removed from service.

(c) Any horse-drawn vehicle used in a parade, or like event, must have at least two (2) outwalkers or outriders accompanying it throughout such event.
(Ord. No. 11378, § 1, 2-11-03; Ord. No. 12092, § 2, 3-18-08; Ord. No. 12891, § 1, 1-6-15)

Sec. 35-195. Rates of fare.

(a) Each certificate holder shall be required to file with the Passenger Vehicle For Hire Board a list of their basic rates thirty (30) days prior to any change. The rate charged by each carriage shall be posted conspicuously within the carriage.

(b) Passengers shall be informed of the rate prior to embarking.
(Ord. No. 11378, § 1, 2-11-03; Ord. No. 12092, § 2, 3-18-08; Ord. No. 12891, § 1, 1-6-15)

DIVISION 3. HORSE-DRAWN CARRIAGE DRIVERS

Sec. 35-196. Permit required.

(a) No person shall drive or otherwise operate a carriage engaged in the for-hire horse-drawn carriage service unless he or she has a driver's permit. To qualify for a permit, an applicant must comply with all of the requirements and stipulations of this chapter and any rules and regulations adopted by the Passenger Vehicle For Hire Board.

(b) A person commits an offense if he or she operates a horse-drawn carriage for-hire in the City of Chattanooga without a driver's permit issued by the Passenger Vehicle For Hire Board.

(c) A business commits an offense if it employs or otherwise allows a person to operate a horse-drawn carriage owned, controlled, or operated by the permittee unless the person has a driver's permit issued by the Passenger Vehicle For Hire Board.

(d) Each permit shall be valid for one (1) year and shall be subject to renewal pursuant to the provisions set forth in this article.
(Ord. No. 11378, § 1, 2-11-03; Ord. No. 12092, § 2, 3-18-08; Ord. No. 12891, § 1, 1-6-15)

Sec. 35-197. Permit qualifications.

(a) An application for a horse-drawn carriage driver permit and payment of a fee of thirty dollars ($30.00) shall be filed with the Passenger Vehicle For Hire Board and shall contain the following information:

(1) The name, residential address, telephone number and date of birth of the applicant. No applicant under eighteen years of age will be approved for a permit;

(2) The names, addresses, telephone numbers, and signatures of four (4) persons, at least one (1) of whom is a resident of the state of Tennessee, who have known the applicant for a period of at least one (1) year and who will provide information regarding the applicant as specified by the Passenger Vehicle For Hire Board;

(3) The applicant's experience in the transportation of passengers;

(4) The applicant's educational background;

(5) The applicant's recent employment history;

(6) The applicant's residential address for the last five (5) years;

(7) Proof of a valid Tennessee driver's license;

(8) State whether he/she has been convicted of a felony in the last five (5) years or ever been convicted of any offense related to cruelty or neglect of animals;

(9) An official driver record issued by the Tennessee Department of Safety, no more than thirty (30) days previous to the date of application;

(10) A statement from company owner stating that individual is adequately trained to operate a carriage of such description, pulled by one (1)/two (2)/four (4) horses, in an urban setting. This training shall include a) a minimum of twenty-four (24) hours of observation riding with an experienced driver (three (3) years minimum experience) and b) an additional sixty-four (64) hours of driver training while accompanied by an experienced driver;

(11) A statement from a licensed physician that certifies that he or she is in good physical condition and is free of defective vision not corrected by eyeglasses or contact lenses, epilepsy, vertigo, or other medical disabilities which may substantially impair his or her ability to operate a horse-drawn carriage or to control a horse; and

(12) Any other information mandated by the Passenger Vehicle For Hire Board by a rule.

(b) The Passenger Vehicle For Hire Board may designate by rule the requirements of a horsemanship course to be completed by applicants.
(Ord. No. 11378, § 1, 2-11-03; Ord. No. 12092, § 2, 3-18-08; Ord. No. 12891, § 1, 1-6-15)

Sec. 35-198. Ineligibility for driver's permit.

(a) The applicant shall be ineligible to receive a permit if:

(1) The applicant has been convicted, pled guilty, or pled nolo contendre in the last ten (10) years for any of the following offenses involving bodily injury or death or in the last five (5) years for any of the following offenses not involving injury or death:

A. Hit and run,

B. Driving under the influence of an alcoholic beverage or drug,

C. Reckless or careless driving.

(2) No more than four (4) moving violations within the last three (3) years and no more than two (2) moving violations in the last year will be allowed;

(3) The applicant has been convicted, pled guilty, placed on diversion, probation or parole, or pled nolo contendere of any felonies within a period of ten (10) years prior to the date of application.

(4) The applicant has been found by the Passenger Vehicle For Hire Board or the Municipal Court of the City of Chattanooga to be in violation of two (2) or more sections of the Chattanooga City Code or other ordinances governing the operation of vehicles for hire during a period of two (2) years prior to the date of application.

(5) The applicant has been convicted of any local, state or federal law related to cruelty to or neglect of animals.
(Ord. No. 11378, § 1, 2-11-03; Ord. No. 12092, § 2, 3-18-08; Ord. No. 12891, § 1, 1-6-15)

Sec. 35-199. Investigation of applicant.

The police department shall conduct an investigation of each applicant for a horse-drawn carriage driver's permit. A report of such investigation and a copy of the traffic and police record of the applicant, if any, shall be attached to the application for the consideration of the Passenger Vehicle For Hire Board.
(Ord. No. 11378, § 1, 2-11-03; Ord. No. 12092, § 2, 3-18-08; Ord. No. 12891, § 1, 1-6-15)

Sec. 35-200. Permit to be posted.

(a) Upon approval of an application for a horse-drawn carriage driver's permit, the Passenger Vehicle For Hire Board shall issue a permit to the applicant, which shall bear the name, address, age, weight and other information deemed appropriate.

(b) Every driver shall at all times conspicuously display a permit either on the clothing of the driver's upper body (including a neck tag) or upon the carriage.
(Ord. No. 11378, § 1, 2-11-03; Ord. No. 12092, § 2, 3-18-08; Ord. No. 12891, § 1, 1-6-15)

Sec. 35-201. Denial, suspension, revocation and appeal.

(a) The Passenger Vehicle For Hire Board may deny any applicant's license if it determines that the applicant fails to comply with any requirement of this chapter.

(b) The Passenger Vehicle For Hire Board is hereby given authority to suspend or revoke any horse-drawn carriage driver's permit issued under this article for a driver's failure or refusal to comply with the provisions of this article.

(c) The Passenger Vehicle For Hire Board may not suspend or revoke any permit unless the driver has received notice of the charges against him or her and has had the opportunity to present evidence on his or her behalf. The action of the Passenger Vehicle For Hire Board in suspending a license or permit shall be final, subject to a review at law.
(Ord. No. 11378, § 1, 2-11-03; Ord. No. 12092, § 2, 3-18-08; Ord. No. 12891, § 1, 1-6-15)

Sec. 35-202. Conduct of drivers.

(a) A driver shall at all times:

(1) Act in a reasonable, prudent, and courteous manner;

(2) Maintain a sanitary and well-groomed appearance;

(3) Not permit a person other than another employee or the owner of the horse-drawn carriage service to operate the carriage under the driver's control;

(4) Not permit a person on the back of a carriage horse when the horse is under the driver's control;

(5) Not leave a horse untethered or unattended except when confined to a stable or other enclosure;

(6) Not permit a horse to drop excrement from its diaper;

(7) Keep all carriage stands clean and free of animal excrement;

(8) Not permit the seating capacity rated for his or her carriage to be exceeded;

(9) Travel only those routes designated for horse-drawn carriage travel, including special occasion travel routes as approved by the traffic and parking commission;

(10) Not operate a carriage while under the influence of intoxicating beverages or drugs;

(11) Not permit a passenger to stand or ride on any part of the carriage other than the designated seating area while the carriages is in motion and to advise the passengers that they must be seated except when loading or unloading;

(12) Not drink, eat, smoke or talk on a cellular phone (except in emergencies) while carrying passengers or while carriage is in motion;

(13) Maintain both hands on the reigns and be seated at all times the carriage is in motion and while loading and unloading passengers;

(14) Not permit the speed at which any horse-drawn carriage is driven to exceed a trot;

(15) No person shall unbridle a horse while horse is connected to a carriage; and

(16) Be responsible for the proper and humane care and treatment of each horse under their direct care and supervision.

(b) No person shall drive or operate a horse-drawn carriage on any day or at any time that the Chief of the Chattanooga Police Department makes a specific determination that the horse-drawn carriage trade would be inconsistent with other special events or public safety requirements.
(Ord. No. 11378, § 1, 2-11-03)

DIVISION 4. HORSES, CARRIAGES AND EQUIPMENT

Sec. 35-203. Requirements for horses in service.

(a) To protect the health and safety of the animal and the public, upon a finding that an animal is sick, injured, lame, malnourished, or in any other condition that renders it unfit for drawing a carriage, the Passenger Vehicle For Hire Inspector, an Animal Services officer or a police officer may issue an order that a horse is deemed unfit for work and order it removed from the vehicle and the city streets. To reinstate a horse removed from service, the horse must be examined by a licensed veterinarian and written approval from such veterinarian must be submitted to the Passenger Vehicle For Hire Inspector.

"Geriatric Horse" means a horse that has reached the age of twenty years (20 years)

(b) Before any horse may be used in a horse-drawn carriage business, the certificate holder must furnish the Passenger Vehicle For Hire Board with:

(1) A state certificate of veterinarian inspection identifying the horse by description and with front, rear, right and left photographs and showing that the horse has been examined at least once within the preceding six (6) months by a licensed veterinarian;

(2) Each horse must be examined at least once a year by a licensed veterinarian. The examination shall encompass that which is consistent with maintaining the health and well-being of the animal. Such examinations should include, but not be limited to, leg and hoof exams, dental exams, eyes, internal parasites, lab reports, and cardiovascular health;

(3) Proof that the horse has had tetanus, rabies, Influenza, Rhinopneumonitis, and Eastern-Western encephalitis vaccinations;

(4) A negative Coggins test result; and

(5) The maximum weight or sized carriage that can humanely be pulled by the horse.

(c) A permittee with a horse used in a horse-drawn carriage must adhere to the following regulations and conditions:

(1) Be appropriately shod and trimmed, and shall utilize rubber-coated pad or boots or open steel barium tip shoes, or other shoes approved by a veterinarian;

(2) Inspected and maintained by a farrier at least every thirty (30) days. Records must be kept by the owner of the dates and the name of the farrier who shod the animal and are subject to inspection.

If a horse loses a shoe while working, an "easy" type boot may be used to finish the scheduled workday. After completion of that scheduled workday using an "easy" type boot, the horse shall not be permitted to work until reshod and inspected by a farrier.

(3) Not have any open or bleeding wound, oozing sore, cut below skin level, or bleeding wound;

(4) Not have evidence of lameness;

(5) Have all harnesses properly fitted and in good repair with no deficiencies that create a safety hazard;

(6) Be properly cleaned with no offensive odors or caked dirt or mud;

(7) Wear a special sanitary device for containing animal excrement;

(8) Flies and other insects must be controlled through general sanitation and other necessary means;

(9) Cannot pull a weight greater than that certified by the licensed veterinarian;

(10) Must have a Henneke Body Condition Scale rating of 4-7 ranging from four (moderately thin) to seven (fleshy) and must not exhibit signs of exhaustion;

(11) All harnesses, bridles and bits and any other equipment shall be properly fitted and kept in good repair. Blankets, bridles and bits shall not be used on another horse unless it is first disinfected. Harnesses and bridles shall be kept well oiled and cleaned and in good repair;

(12) Animals requiring veterinary care shall not be moved, ridden or driven, except for the purpose of humane keeping, pasturing or obtaining medical care;

(13) "Free choice" salt shall be available to all horses in the stabling and/or assembly/transfer sites;

(14) (Carriages shall not be pulled by stallions, pregnant mares over one hundred eighty days (180 days) of gestation, or mares that are within one hundred eighty (180) days after foaling.

(15) Mules or other equine used to pull carriages must meet the same requirements as described for horses;

(16) Provisions shall be made to catch or immediately pick up any manure deposited by the carriage horses away from the stable or assembly/ transfer sites. The manure shall be returned to the stable or transfer sites for appropriate disposal;

(17) Horses shall wear properly attached and fitted blinders while pulling carriages;

(18) Owner and handlers shall take immediate measures to prevent shivering of horses;

(19) Owners shall not allow a horse to be worked on a public highway, path or street during adverse weather or other conditions that are a threat to the health or safety of the horse and public. Streets that require the crossing of metal construction plates on the roadway should be avoided; and

(20) No horses shall be permitted to pull a carriage with a loose shoe.

(21) Horses must be no less than four (4) years of age.

(22) A trailer shall be used to transport a horse to a job location that is more than three (3) miles from the location where the horse is stabled;

(23) After each tour that is conducted by the owner or handler, they shall be required to take the body temperature of the horse. If the body temperature of the horse meets or exceeds one hundred and three degrees (103°) Fahrenheit, the horse shall be removed from duty until the horse's body temperature is lowered to one hundred one and a half degrees (101.5°) Fahrenheit or less. If after two hours the horse's body temperature has not been lowered to one hundred one and a half degrees (101.5°) Fahrenheit or less, then the owner or handler shall take the horse to an emergency veterinarian or have an emergency veterinarian arrive on site to render emergency care.

(d) Before a horse may be used to pull a carriage in the City of Chattanooga, the carriage owner must submit a signed statement to the Passenger Vehicle For Hire Board that such horse has been driven with a carriage on urban streets 1) by an experienced carriage driver for a minimum of eighty (80) hours over a two (2) month period without passengers and 2) by an experienced carriage driver for a minimum of sixty (60) hours over a four (4) month period with passengers.

(e) Upon reaching the age of twenty (20) years, horses shall be deemed to be geriatric. No horse shall be permitted to operate as a carriage horse upon reaching the age of twenty-five (25) years, which shall be the forced retirement age of a carriage horse:

(1) Geriatric horses shall be required to undergo examinations by a licensed veterinarian pursuant to Section 35-203(b)(2) every six (6) months instead of annually;

(2) Geriatric horses shall be retired and shall not be permitted to work at pulling carriages upon receiving any diagnosis from a licensed veterinarian that indicates the geriatric horse has a chronic condition that affects and negatively impacts the cardiac system, respiratory system, or the musculoskeletal system;

(3) The ambient temperature maximum limit found in Sec. 35-204(f) shall be lowered from ninety-five degrees (95°) Fahrenheit to a maximum of ninety degrees (90°) Fahrenheit for geriatric horses. The ambient temperature or wind chill factor, whichever is lower, minimum limit found in Sec. 35-204(f) shall be raised from a minimum of twenty degrees (20°) Fahrenheit to a minimum of thirty degrees (30°) Fahrenheit for geriatric horses;

(4) Geriatric horses shall not be permitted to pull a carriage at a speed faster than a walk; and

(5) Geriatric horses shall be identified as such by placing a silver stripe with tape, paint, or other similar method of marking on both sides of the horse's bridle that is at least two (2") inches thick in diameter.

(f) Pregnant mares under one hundred eighty days (180) days of gestation that are permitted to work shall be subject to the same restrictions for geriatric horses found within Section 35-203(e). Pregnant mares shall also be required to undergo an ultrasound from a licensed veterinarian between forty to fifty days (40-50 days) of gestation to confirm the pregnancy.
(Ord. No. 11378, § 1, 2-11-03; Ord. No. 12092, § 2, 3-18-08; Ord. No. 12891, § 1, 1-6-15; Ord. No. 14309, §§ 1—7, 1-6-26)

Sec. 35-204. Animal working conditions.

(a) No animal shall be worked under any of the following conditions, and any owner allowed to let the conditions exist will be found in violation of this article:

(1) The animal is pulling more people or weight than the limit certified by the licensed veterinarian;

(2) The animal pulling a carriage is moved at a speed faster than a trot;

(3) The animal is worked with equipment causing an impairment of vision other than normal blinders;

(4) The animal is subject to any condition or treatment that will impair the good health and physical condition of the animal;

(5) Water must be available before and after each shift. In addition, water shall be offered while working, when appropriate and will not be injurious to the horse;

(6) Make sure horses are given proper amounts of water before and after working, and have additional water available if needed;

(7) Horses shall not be worked for commercial purposes in extreme temperatures or in adverse weather. When the weather is determined to be adverse, all horses must immediately cease working, be offered shade or shelter when available, be rested and cooled off, and then walked to their stable. All horses so ordered to return to their stable must be unbridled and remain at the stable for at least one (1) hour and until the temperature returns to the appropriate levels;

(8) Be provided with daily food and water, free from contamination. Such food shall be wholesome, palatable, and of sufficient quantity and nutritive value to meet the normal daily requirements for the condition and size of the animal;

(9) Shall not be overridden or driven to overheating or exhaustion and shall be provided with adequate exercise when not working.

(10) Horses shall be housed in an area that is adequate, healthy and humane in size, ventilation and sanitation.

(b) No animal shall work more than seven (7) hours a day. For purposes of this section, an animal is deemed working whenever it is attached to a horse-drawn vehicle.

(c) No animal shall work more than five (5) consecutive days without a rest period of at least one (1) day.

(d) Animal shall be rested for at least fifteen (15) minutes after every two (2) hours of work.

(e) No animal can be "nerved" or subjected to any procedure intended to permanently or temporarily block the animals ability to perceive pain.

(f) No animal shall be worked when the outdoor temperature at the horse's location exceeds ninety-five degrees (95°) Fahrenheit, or when the combined sum of temperature and humidity exceeds one hundred fifty-five (155), or when the temperature or wind chill factor is below twenty degrees (20°) Fahrenheit.

(g) No animal shall be worked during periods of ice, snow, heavy rain, or other slippery conditions. (Ord. No. 11378, § 1, 2-11-03)

Sec. 35-205. Carriage and equipment.

(a) An owner, operator, or custodian of a horse engaged in the horse-drawn carriage shall ensure and certify that the equipment used in the operation of the horse-drawn carriage meets the following standards of this section:

(1) Provide that the carriage used is in good operating condition, the axles are well-greased, and that all operating mechanisms are in good working order;

(2) Provide that the carriage is equipped with hydraulic brakes or band brakes in good working condition;

(3) Provide that the saddle, harness, shoes, bridle, and any other equipment for the horse fits properly, is in good working condition, and shall not cause injury or pain to the horse;

(4) Not use twisted wire, spurs, bucking straps, flank straps, or similar devices. All bits and other equipment must be humane which are not injurious to the horse;

(5) Daily inspect all horses and all equipment at the time of departure from and return to the stable; and

(6) Provide that all horses are equipped with a diaper that is constructed of a sturdy material and is properly fitted to the horse to ensure comfort.

(b) A carriage used in the horse-drawn carriage service shall:

(1) Have a valid permit conspicuously displayed on the carriage at all times;

(2) Be equipped with a slow-moving vehicle emblem attached to the rear of the carriage;

(3) Be maintained in a safe and sanitary condition;

(4) Not drive or transport more than the intended capacity of the carriage;

(5) Display the name and telephone number of the horse-drawn carriage with letters not to exceed three (3) inches or less than one (1) inch in height on the carriage exterior. These signs must be displayed at all times that the carriage is operating for business unless the carriage is being used for a special event, such as a wedding or funeral;

(6) Must be equipped with a chemical to be poured over horse urine by drivers each time a horse urinates, so as to break down and eliminate accumulated agents and odors. Such chemical is to be approved by the City's stormwater department;

(7) Sufficient reflective material must be placed along the shafts of the carriage, or other parts thereof, which normally parallel the body, head or legs of the horse pulling such carriage;

(8) Be equipped with lights which comply with applicable state law;

(9) A fully charged backup battery must be readily available and a carriage cannot operate without proper lights; and

(10) A first aid kit; and

(11) A thermometer and hygrometer for reading temperature and humidity.

(c) If, upon any inspection, a carriage is found to be unsafe, unclean or unsightly, Passenger Vehicle For Hire Inspector or a police officer may direct that the carriage be taken out of service until such condition is corrected.

(d) The Passenger Vehicle For Hire Board may, by rule, establish additional inspection requirements for a carriage and other equipment used in the horse-drawn carriage service.
(Ord. No. 11378, § 1, 2-11-03; Ord. No. 12092, § 2, 3-18-08; Ord. No. 12891, § 1, 1-6-15)

Sec. 35-206. Enforcement by police department.

Officers of the police department and Animal Services shall assist in the enforcement of this chapter. A police officer or Animal Services officer observing a violation of this chapter, or the regulations established by the Passenger Vehicle For Hire Board, shall take necessary action to insure effective regulation of horse-drawn carriage.
(Ord. No. 11378, § 1, 2-11-03; Ord. No. 12092, § 2, 3-18-08; Ord. No. 12891, § 1, 1-6-15)

Sec. 35-207. Accidents.

(a) The driver of a horse carriage shall report any accident involving such carriage to the police department. The company shall notify the Passenger Vehicle For Hire Inspector of such accident by 9:00 a.m. on the next business day.

(b) No horse or carriage involved in an accident where structural damage to the carriage or injury to the horse has occurred shall be operated again until the carriage has been inspected by the Passenger Vehicle For Hire Inspector or a police officer and the horse has been certified for service in writing by a veterinarian. The company shall present such certification to the Passenger Vehicle For Hire Inspector.
(Ord. No. 11378, § 1, 2-11-03; Ord. No. 12092, § 2, 3-18-08; Ord. No. 12891, § 1, 1-6-15)

Sec. 35-208. Miscellaneous.

(a) A person commits an offense by harassing or startling, or attempting to harass or startle, any horse while the horse is pulling a carriage or at rest or otherwise treats a horse inhumanely while it is working in a horse-drawn carriage.

(b) No animal shall be made to perform by means of any prod, stick, electrical shock, physical force, or by causing pain or discomfort. Any whip or riding crop must be used so as not to cause injury to the animal whether in or out of service. Light taps are the only acceptable usage.

(c) The certificate holder shall notify the Passenger Vehicle For Hire Board of any carriage horse that dies within twenty-four (24) hours, or if on the weekend or a legal holiday, during the next business day. The Passenger Vehicle For Hire Board, Passenger Vehicle For Hire Inspector, or the Animal Services

Director may request that a board certified veterinary pathologist shall perform a necropsy at the expense of the certificate holder. A record of the death and/or necropsy finding shall be filed with the Passenger Vehicle For Hire Board.

(d) The Passenger Vehicle For Hire Board is hereby authorized and empowered to and shall establish taxicab passenger loading zones or stands upon the streets of the City in such places as, in its discretion, it deems proper. The Passenger Vehicle For Hire Board is further authorized to eliminate any taxicab passenger loading zones or stands now in use, or later established. The written approval of the abutting property owners of such places shall be required before the creation of such passenger loading zones or stands. The traffic engineer shall make an investigation of the traffic conditions at such places and shall thereafter file written recommendations with the Passenger Vehicle For Hire Board. The Passenger Vehicle For Hire Board shall abide by these recommendations.
(Ord. No. 11378, § 1, 2-11-03; Ord. No. 12092, § 2, 3-18-08; Ord. No. 12891, § 1, 1-6-15)

Sec. 35-209. Non-transferability.

A certificate of public convenience and necessity, horse-drawn carriage permit, carriage driver's license, or an identification card is assigned to one (1) person, applicant, carriage or horse, and is not transferable.
(Ord. No. 11378, § 1, 2-11-03)

Sec. 35-210. Exception.

Any person who has submitted application for a driver's permit under this article and is driving a for-hire horse drawn carriage at the time of passage of this ordinance, shall have six (6) months from the passage of this ordinance to conform with the training requirements listed in Sec. 35-197 (a) (10) above.
(Ord. No. 11378, § 1, 2-11-03)

Secs. 35-211—35-239. Reserved.
(Ord. No. 11378, § 1, 2-11-03)

ARTICLE VII. PEDAL CARRIAGES AND RICKSHAWS

DIVISION 1. IN GENERAL

Sec. 35-240. Purpose.

It is the purpose of this Article to regulate and control pedal carriages and rickshaws businesses to protect consumers and to ensure the safety of the public, including passengers and drivers operating pedal carriages and rickshaws. It is also the purpose of this Article to minimize the effect of pedal carriages and rickshaws on traffic and congestion by establishing a maximum number of pedal carriages and rickshaws that can be authorized to operate in the City of Chattanooga (the "City"). It is the purpose of this Article to require the inspection of pedal carriages and rickshaws to ensure that pedal carriages and rickshaws are safely operated on the streets of the City, and to provide a process for their removal if they have not been inspected or operated as required.
(Ord. No. 12979, § 1, 11-18-08)

State law reference—T.C.A. § 55-26-102.

Sec. 35-241. Definitions.

Whenever used in this Article:

Family member shall mean a member of the immediate family, including, but not limited to, a spouse, domestic partner, sibling, child, grandchild, parent or grandparent.

Own, owns or *owned* shall mean possession with good legal title, or possession under a lease, reserve title contract, conditional sales agreement or vendor's agreement or similar agreement.

Pedal carriage (also known as "quadricycle"), means a non-motorized bicycle with four (4) or more wheels operated by one (1) or more persons for the purpose of, or capable of, transporting additional passengers in seats or on a platform made a part of or otherwise attached to the pedal carriage. "Pedal carriage" does not include a bicycle with trainer or beginner wheels affixed thereto, nor shall it include a wheelchair or other vehicle with the purpose of operation by or for the transportation of a disabled person, nor does it include a tricycle built for a child or an adult with a seat for only one (l) operator and no passenger. *Rickshaw* (also known as "pedal carriage or pedicab"), means a non-motorized bicycle with three (3) wheels operated by one (1) person for the purpose of, or capable of, transporting additional passengers in seats or on a platform made a part of or otherwise attached to the rickshaw. "Rickshaw" does not include a bicycle built for two (2) where the operators are seated one (1) behind the other, nor shall it include the operation of a bicycle with trainer or beginner wheels affixed thereto, nor does it include a wheelchair or other vehicle with the purpose of operation by or for the transportation of a disabled person. A pedal carriage may include an electric motor to assist the pedal carriage during emergencies or when necessary to propel uphill having a maximum speed of ten (10) miles per hour when occupied by the driver only, and any pedal carriage so equipped shall comply with the motor vehicle registration laws of the State of Tennessee.

Pedal carriage or pedicab business shall mean a pedal carriage or pedicab owner who operates or authorizes the operation of one (1) or more pedal carriages or pedal carriage or pedicabs in the city of Chattanooga.

Pedal carriage or pedicab permit shall mean a permit issued by the City to engage in or operate a pedal carriage or pedicab business as defined in this Article.

Pedal carriage or pedicab driver shall mean any natural person who propels and operates a pedal carriage or pedicab in the City.

Pedal carriage or pedicab permit shall mean a license issued by the Passenger Vehicle For Hire Board to a pedal carriage or pedicab driver to operate a pedal carriage or pedicab.

Pedal carriage or pedicab owner or *owner* shall mean any person who owns one (1) or more pedal carriage or pedicabs in the City.

Public park shall mean areas that are open to the public for recreational purposes.

Passenger Vehicle For Hire Board means the board established in Section 35-17 of this chapter.

Passenger Vehicle For Hire Inspector means the inspector(s) appointed in Section 35-20 of this chapter. (Ord. No. 12979, § 1, 11-18-08; Ord. No. 12891, § 1, 1-6-15; Ord. No. 13375, § 1, 10-9-18)

Sec. 35-242. Jurisdiction.

(a) The Passenger Vehicle For Hire Board shall have exclusive jurisdiction of the licensing and regulation of pedal carriage or pedicabs. The Passenger Vehicle For Hire Board has the authority, power and duty to enforce the provisions of this Article, provided that nothing in this section shall be construed to prohibit any court, including the Municipal Court of the City, from imposing penalties provided by this Code for any violation of this Article.

(b) The actions of the Passenger Vehicle For Hire Board shall be final, subject to such judicial appeal as may be allowed by law.
(Ord. No. 12979, § 1, 11-18-08; Ord. No. 12891, § 1, 1-6-15)

DIVISION 2. PEDAL CARRIAGE OR PEDICAB BUSINESS PERMIT

Sec. 35-243. Pedal carriage or pedicab business license permit—Fee.

(a) It shall be unlawful for a pedal carriage or pedicab owner to operate a pedal carriage pedicab business unless such pedal carriage or pedicab owner shall have first obtained a pedal carriage or pedicab permit from the City. A pedal carriage or pedicab permit shall be valid for a term of one (1) year and shall be subject to renewal pursuant to the provisions set forth in this article.

(b) Any new applicant for pedal carriage or pedicab permit under this article shall be charged an application and investigation fee of One Hundred Dollars ($100.00) to cover the expense of investigating the applicant, the place of business, and the pedal carriage or pedicabs. There shall be an annual fee for a pedal carriage or pedicab permit in the amount of Fifty Dollars ($50.00) for each pedal carriage or pedicab permit holder, plus Ten Dollars ($10.00) per pedal carriage or pedal carriage or pedicab.

(c) The application for a pedal carriage or pedicab permit application shall be verified under oath and shall furnish the following information:

(1) A list of all pedal carriage or pedicabs owned, leased or controlled by such pedal carriage or pedicab owner for which such owner seeks registration. Each such pedal carriage or pedicab shall be uniquely identified.

(2) Proof that there is in force for the full license term a policy of public liability and property damage insurance that meets the requirements of Section 35-245 of this Chapter for each pedal carriage or pedicab listed.

(3) The applicant must list all parties having a ten percent (10%) or greater financial interest in the business on the initial application.

(4) Such other information as the Passenger Vehicle For Hire Board may require to establish the pedal carriage or pedicab owner's eligibility for a pedal carriage or pedicab business license under this Article.

(d) The Passenger Vehicle For Hire Inspector shall investigate or cause to be investigated each applicant for a pedal carriage or pedicab permit under this article to determine whether or not the applicant has the necessary equipment and facilities to qualify as a pedal carriage or pedicab business, and, if the applicant is qualified. The Passenger Vehicle For Hire Inspector shall report his findings to the Passenger Vehicle For Hire Board and make a recommendation regarding the issuance of a pedal carriage or pedicab permit. The Passenger Vehicle For Hire Board shall direct or make such further investigation as it deems proper to grant or refuse a permit.
(Ord. No. 12092, § 41, 3-18-08; Ord. No. 12891, § 1, 1-6-15)

Sec. 35-244. Cap on pedal carriage or pedicabs.

(a) Six (6) pedal carriage or pedicabs shall be the cap placed upon the issuance of permits for the first year, which thereafter may be changed by the Passenger Vehicle For Hire Board pending a need assessment analysis developed by the planning office, and traffic study developed by the traffic engineer.

(b) The Passenger Vehicle For Hire Board may prescribe by rule the process by which the number of pedal carriage or pedicabs that each pedal carriage or pedicab business can register is determined, consistent with the caps specified in subsections (a) and (b) of this section, including but not limited to, the

procedures for the initial application and issuance of pedal carriage or pedicab business licenses. Such selection process may consider whether the applicant has, prior to the enactment of this article, owned or operated a pedal carriage or pedicab and give priority to applicants who can provide proof of such previous ownership or operation of a pedal carriage or pedicab.
(Ord. No. 12092, § 41, 3-18-08; Ord. No. 12891, § 1, 1-6-15)

Sec. 35-245. Issuance of pedal carriage or pedicab operating permit.

(a) A pedal carriage or pedicab permit shall be issued only to a person who meets all the requirements of this article and any rules promulgated by the Passenger Vehicle For Hire Board to effectuate the purposes of this article.

(b) A pedal carriage or pedicab permit shall be valid only for the person in whose name it is issued.

(c) The Passenger Vehicle For Hire Board may refuse to issue to a pedal carriage or pedicab owner a pedal carriage or pedicab permit or to renew a pedal carriage or pedicab permit to a pedal carriage or pedicab owner based upon a determination that such applicant has engaged in conduct that would constitute a basis for the suspension or revocation of the permit.

(d) A pedal carriage or pedicab permit shall not be transferred or sold. The Passenger Vehicle For Hire Board shall promulgate rules as to whether, and the extent to which, a pedal carriage or pedicab permit remains valid after any change in the beneficial ownership of a pedal carriage or pedicab business, including, without limitation, any such change resulting from a direct or indirect, voluntary or involuntary, sale or transfer of a beneficial ownership interest.
(Ord. No. 12092, § 41, 3-18-08; Ord. No. 12149, § 7, 8-5-08; Ord. No. 12891, § 1, 1-6-15)

Sec. 35-246. Insurance required; financial responsibility.

(a) Before any pedal carriage or pedicab permit shall be issued by the Passenger Vehicle For Hire Board or before the renewal of such certificate shall be granted, the applicant shall be required to file an insurance policy and/or certificate of insurance with the Passenger Vehicle For Hire Board evidencing insurance coverage as required in this section.

(b) Insurance coverage as provided in subsection (a) of this section mean a policy of public liability insurance issued by an insurance company qualified to do business in the state and naming the City of Chattanooga as an additional insured, with the minimum amount of insurance to be one million dollars ($1,000,000.00) per pedal carriage, known as combined single limit insurance coverage. Such policy shall expressly provide that it may not be canceled, except after thirty (30) days written notice to the Passenger Vehicle For Hire Board. The pedal carriage or pedicab business shall notify the Passenger Vehicle For Hire Board of any modification, amendment, cancellation or substitution of any insurance policy required under this section within fourteen (14) days of the date of the notice to the pedal carriage or pedicab business of such modification, amendment, cancellation or substitution. If the policy of insurance required by this section lapses for any reason the permit issued shall become void for such pedal carriage or pedicab business.
(Ord. No. 12092, § 41, 3-18-08; Ord. No. 12891, § 1, 1-6-15)

Sec. 35-247. Required equipment of pedal carriage or pedicabs.

(a) Each pedal carriage or pedicab operated in the City shall be equipped with the following features:

(1) Three (3) or more wheels;

(2) A unibody frame for the entire vehicle;

(3) seating for no more than fifteen (15) passengers;

(4) Hydraulic or mechanical disc or drum brakes, which are unaffected by rain or wet conditions;

(5) A secondary or emergency brake system;

(6) Battery-operated headlights capable of projecting a beam of light for a distance of three hundred (300) feet;

(7) Battery-operated taillights which are visible from five hundred (500) feet;

(8) Turn lights;

(9) An audible signaling device;

(10) Reflectors on the spokes of the wheels of the pedal carriage or pedicab;

(11) A timer, of a type approved by the Taxi Inspector, affixed within clear view of passengers, if the rate charged is based on period of use;

(12) A sign attached to the interior of the pedal carriage or pedicab within view of passengers indicating the name and telephone number of the pedal carriage or pedicab business, the pedal carriage or pedicab's registration number and a telephone number that can be used to direct consumer complaints about such pedal carriage or pedicab to the department;

(13) Each pedal carriage or pedicab must be equipped with a regulation size reflective slow moving triangle; and

(14) A sign conspicuously posted on the exterior of the pedal carriage or pedicab indicating the amount to be charged for the use of the pedal carriage or pedicab or the basis for calculating such amount.

(b) The maximum width of a pedal carriage or pedicab shall be fifty-five (55) inches and the maximum length of a pedal carriage or pedicab shall be ten (10) feet, except as authorized by the Passenger Vehicle For Hire Board;

(c) It shall be unlawful for a pedal carriage or pedicab business to operate or authorize the operation of, or for a pedal carriage or pedicab driver to operate, a pedal carriage or pedicab that does not comply with the requirements of this section.
(Ord. No. 12092, § 41, 3-18-08; Ord. No. 12149, § 8, 8-5-08; Ord. No. 12765, § 1, 9-17-13; Ord. No. 12891, § 1, 1-6-15)

Sec. 35-248. Pedal carriage or pedicab registration plate.

(a) It shall be unlawful for a pedal carriage or pedicab business to operate or authorize the operation of, or for a pedal carriage or pedicab driver to operate, a pedal carriage or pedicab unless:

(1) The pedal carriage or pedicab has been inspected by the Passenger Vehicle For Hire Inspector's Office;

(2) The pedal carriage or pedicab has been issued a registration plate that indicates on such plate, or by a replaceable registration tag or decal, the expiration date of the current registration; and

(3) Such registration is in effect.

(b) The registration shall be valid for a period no longer than one (1) year and the expiration date of such registration plate or replaceable registration tag or decal shall be a date specified by the Passenger Vehicle For Hire Board by rule.

(c) Such registration plate shall be securely affixed by the department to a conspicuous and indispensable part of each pedal carriage or pedicab.

(d) The registration plate and the replaceable registration tag or decal shall be of such material, form, design and dimension and set forth such distinguishing number or other identification marks as the Passenger Vehicle For Hire Board shall prescribe.

(e) A pedal carriage or pedicab business shall pay an additional ten dollars ($10.00) as the re-inspection fee for any pedal carriage or pedicab that is determined upon inspection not to meet the requirements of this section and such business re-applies for a registration plate or replaceable registration tag or decal. (Ord. No. 12092, § 41, 3-18-08; Ord. No. 12891, § 1, 1-6-15)

Sec. 35-249. Records.

Every pedal carriage or pedicab business shall maintain such records related to the ownership and operation of its pedal carriage or pedicabs as the Passenger Vehicle For Hire Board may prescribe by rule. Such records shall be made available for inspection by the Passenger Vehicle For Hire Board at his or her request at either the offices of the pedal carriage or pedicab business or at the offices of the department. (Ord. No. 12092, § 41, 3-18-08; Ord. No. 12891, § 1, 1-6-15)

Sec. 35-250. Pedal carriage or pedicab driver license.

(a) It shall be unlawful for a pedal carriage or pedicab driver to operate a pedal carriage or pedicab unless the pedal carriage or pedicab driver shall have first obtained a pedal carriage or pedicab driver license from the Chattanooga Police Department Regulatory Bureau Passenger Vehicle For Hire Inspector's office.

(b) It shall be unlawful for a pedal carriage or pedicab business to permit the operation of any pedal carriage or pedicabs owned by it by a person who does not have a pedal carriage or pedicab driver license and a motor vehicle driver's license in full force and effect.

(c) In order to obtain or renew a pedal carriage or pedicab driver license, a pedal carriage or pedicab driver shall file an application with the Chattanooga Police Department Regulatory Bureau Passenger Vehicle For Hire Inspector's office for such pedal carriage or pedicab driver license. Such application shall be made upon such form as prescribed by the Passenger Vehicle For Hire Board and Inspector and shall contain such information as the Passenger Vehicle For Hire Board or Inspector may require to establish the applicant's eligibility for a pedal carriage or pedicab driver license under this article. An application for a pedal carriage or pedicab driver permit and payment of a fee of Ten Dollars ($10.00) shall be filed with the Passenger Vehicle For Hire Board and shall state or contain the following information:

(1) The applicant is at least eighteen (18) years of age;

(2) The applicant possesses a currently valid motor vehicle driver's license;

(3) The applicant does not have his or her State of Tennessee motor vehicle driver's license suspended or revoked; and

(4) Provide a statement from a licensed medical physician that certifies that he or she is in good physical condition or other medical disabilities which may substantially impair his or her ability to operate a pedal carriage or pedicab.

(d) The Passenger Vehicle For Hire Board may refuse to allow a pedal carriage or pedicab driver license or to renew such a license based upon a determination that such pedal carriage or pedicab driver has engaged in conduct which would constitute a basis for the suspension or revocation of a pedal carriage or pedicab driver license.

(e) The Passenger Vehicle For Hire Inspector shall conduct an investigation of each applicant for a pedal carriage or pedicab driver's license. A report of such investigation and a copy of the traffic and police record of the applicant, if any, shall be attached to the application for consideration of the Passenger Vehicle For Hire Board.

(f) A pedal carriage or pedicab driver license shall be valid for a term of one (1) year. There shall be an annual renewal fee due in the amount of Ten Dollars ($10.00).

(g) Upon approval of an application or renewal for a driver's permit, the Passenger Vehicle For Hire Inspector may issue a driver's permit for a period not to exceed (60) days.
(Ord. No. 12092, § 41, 3-18-08; Ord. No. 12149, §§ 9, 10, 8-5-08; Ord. No. 12891, § 1, 1-6-15)

Sec. 35-251. Display of pedal carriage or pedicab driver's identification.

(a) The Passenger Vehicle For Hire Board shall provide a photo identification card to each pedal carriage or pedicab driver who has obtained a pedal carriage or pedicab driver's license. Such photo identification card shall include the license number of such pedal carriage or pedicab driver license and the motor vehicle driver's license number of such pedal carriage or pedicab driver, as well as the issuing state of such motor vehicle driver's license.

(b) The pedal carriage or pedicab driver shall wear such photo identification card or place such photo on the pedal carriage or pedicab so that it is visible to passengers and enforcement officers when such pedal carriage or pedicab is operating a pedal carriage or pedicab.
(Ord. No. 12092, § 41, 3-18-08; Ord. No. 12149, § 11, 8-5-08; Ord. No. 12891, § 1, 1-6-15)

Sec. 35-252. Restrictions on the operation of pedal carriage or pedicabs.

(a) A pedal carriage or pedicab driver shall be subject to all provisions of state and local law governing the operation of a bicycle, which include, but are not limited to, provisions of the vehicle and traffic law, the Chattanooga City Code, and rules of the City promulgated by the Chattanooga Police Department Regulatory Bureau Passenger Vehicle For Hire Inspector's office or the department of parks and recreation.

(b) A pedal carriage or pedicab driver shall not:

(1) Operate a pedal carriage or pedicab to transport more than fifteen (15) passengers.

(2) Operate a pedal carriage or pedicab in motion while a passenger is standing in such pedal carriage or pedicab.

(3) Operate a pedal carriage or pedicab on any bridge or in any tunnel or in any bicycle lane.

(4) Permit a pedal carriage or pedicab to be operated simultaneously by anyone in addition to him or herself.

(5) Operate a pedal carriage or pedicab that is designed or constructed to permit propulsion by more than one (1) individual at any one (1) time, except as authorized by the Passenger Vehicle For Hire Board.

(6) Operate a pedal carriage or pedicab while such pedal carriage or pedicab driver's ability to operate such pedal carriage or pedicab is impaired by the consumption of alcohol, the use of any drug or by any other means or while such pedal carriage or pedicab driver is in an intoxicated condition. A pedal carriage or pedicab driver operating a pedal carriage or pedicab which has been involved in an accident or has been operated in violation of this section shall be deemed to have given consent to a breath test and shall, at the request of a police officer, submit to a breath test to be

administered by the police officer. Failure to submit to such breath test shall serve as the basis for an immediate suspension of the pedal carriage or pedicab driver's license, subject to a prompt post-suspension hearing.

(7) Operate a pedal carriage or pedicab without a currently valid motor vehicle driver's license or while such pedal carriage or pedicab driver's State of Tennessee motor vehicle driver's license is suspended or revoked.

(c) Pedal carriage or pedicabs can be operated within any public park or any property under the charge or control of the Department of Parks and Recreation pursuant to the rules of the Department of Parks and Recreation and in accordance with the rules of the Chattanooga Police Department Regulatory Bureau Passenger Vehicle For Hire Inspector's office.

(d) A pedal carriage or pedicab business shall submit to the Passenger Vehicle For Hire Inspector, upon such form prescribed by the Passenger Vehicle For Hire Inspector, a written report of every accident relating to a pedal carriage or pedicab by such pedal carriage or pedicab business within twenty-four (24) hours after the occurrence of such accident. Such form shall be signed by a principal or officer of such pedal carriage or pedicab business as well as by the pedal carriage or pedicab driver involved in such accident with an affirmation of the truth of the contents of the form.

(e) If there are exigent circumstances and a police officer or other authorized officer or employee of any City agency directs a pedal carriage or pedicab driver to move his or her pedal carriage or pedicab from any street, avenue or other location, such pedal carriage or pedicab driver shall not operate his or her pedal carriage or pedicab at such street, avenue or location for the duration of such exigent circumstances. For the purposes of this subsection, exigent circumstances shall include, but not be limited to, unusually heavy pedestrian or vehicular traffic, existence of any obstructions in the public space, an accident, fire or other emergency, a parade, demonstration or other such event at or near such location.

(f) If there are exceptional circumstances, the Passenger Vehicle For Hire Inspector, in consultation with law enforcement official or firefighters', Traffic Engineer's Office or other appropriate officials, shall be authorized, upon notice, to restrict or prohibit any pedal carriage or pedicab driver from operating his or her pedal carriage or pedicab on any street, avenue or other location for a specified period of time. Such specified period of time shall not exceed fourteen (14) days. For the purposes of this section, exceptional circumstances shall include, but not be limited to, unusually heavy pedestrian or vehicular traffic, existence of any obstructions in the public space, a parade, or other such event or occurrence at or near such location.

(g) Every affected community board may, at any time subsequent to enactment of this local law, conduct public hearings hereon and submit written recommendations to the department of consumer affairs, the department of transportation, the police department and the council. Such recommendations may include, but not be limited to, methods to address any impact this law may have on such community with respect to pedestrian and vehicle traffic flow.

(h) No alcoholic beverages except beer as defined at T.C.A. § 57-5-101(b), and amendments thereto, shall be consumed by a pedal carriage passenger nor may alcoholic beverages except beer as defined at T.C.A. § 57-5-101(b), and amendments thereto, be transported on a pedal carriage. Beer as defined at T.C.A. § 57-5-101(b), and amendments thereto, lawfully purchased for consumption may be consumed by a pedal carriage passenger under the following conditions:

(1) No glassware of any kind shall be allowed on a pedal carriage or pedicab including but not limited to bottles, receptacles or drinking glasses.

(2) Alcoholic beverages as defined in this Section may only be consumed from plastic or foam cups.

(3) No music or amplified sound shall be played, nor yelling or conversation be conducted, in such a manner that the sound of which carries to points of habitation or adjacent properties and is audible above the level of conversational speech at a distance of fifty feet (50') or more from the point of origin of the sound.

(4) It is the responsibility of the pedal carriage or pedicab driver to properly dispose of all trash.

(5) Alcoholic beverages as defined in this Section may be consumed only when the pedal carriage passenger is in or on a pedicab.

(6) The pedal carriage operator and driver may not allow consumption of alcoholic beverages by persons under the age of twenty-one (21). If alcoholic beverages as defined in this subsection are present on a pedal carriage, the pedal carriage operator shall not transport persons under the age of twenty-one (21) on the pedal carriage.

(7) If alcoholic beverages as defined in this subsection are allowed to be consumed on a pedal carriage, the pedal carriage operator shall apply for a permit to allow such consumption from the Chattanooga Police Department Regulatory Bureau. The application fee for such permit is twenty-five dollars ($25.00) and the operator of a pedal carriage company shall pay an additional twenty-five dollars ($25.00) for each pedal carriage on which alcohol is being consumed. The driver or operator of pedal carriage shall be in possession of the permit referenced in this subsection at all times alcohol is being consumed on the pedal carriage. Additionally, the registration number issued by the Chattanooga Police Regulatory Bureau shall be conspicuously displayed on the rear of the pedal carriage. If a pedal carriage operator fails to operate a permitted pedal carriage for more than one hundred eighty (180) days, the permit shall expire.

(8) If a permit is granted to the pedal carriage operator, the following notice shall be in full display on the pedal carriage:

(a) When alcohol is present on this pedal carriage, no persons under the age of twenty-one (21) shall be allowed on the pedal carriage;

(b) Each passenger is asked to drink responsibly; and

(c) No passenger is able to take any opened alcoholic beverage container with them when they exit the pedal carriage;

(9) A pedal carriage or pedicab driver shall not operate a pedal carriage or pedicab while under the influence of alcoholic beverages nor shall the driver consume alcoholic beverages while operating the pedal carriage.

(10) Any violations of this Section may be enforced as contemplated by City Code §§ 35-254 and 35-256 which may result in revocation or suspension of the operator's certificate of public convenience and necessity.

(11) Pedal carriages that are subject to this Section shall only be able to operate in the Central Business District as defined by the Chattanooga-Hamilton Regional Planning Agency.

(Ord. No. 12092, § 41, 3-18-08; Ord. No. 12149, § 12, 8-5-08; Ord. No. 12765, § 2, 9-17-13; Ord. No. 12826, § 2, 4-15-14; Ord. No. 12891, § 1, 1-6-15; Ord. No. 13006, § 1, 12-8-15; Ord. No. 13127, § 5, 12-13-16)

Sec. 35-253. Rates of pedal carriage or pedicabs.

(a) The basis for calculating the amount of the charge for the use of a pedal carriage or pedicab shall be displayed on the pedal carriage or pedicab at all times.

(b) It shall be unlawful for a pedal carriage or pedicab driver to charge a passenger more than the amount or rate displayed on the pedal carriage or pedicab. The Passenger Vehicle For Hire Board shall have authority to set the maximum rates for pedal carriages or pedicabs if a pedal carriage or pedicab charges passengers more than the amount or rate displayed on the pedal carriage or pedicab.

(c) The pedal carriage or pedicab driver shall provide passengers with a receipt listing the amount of the charge for the use of the pedal carriage or pedicab, the license number of the pedal carriage or pedicab business and a telephone number of such business to which complaints by consumers shall be directed, the pedal carriage or pedicab driver's license number and the telephone number at the department where complaints by consumers can be reported.
(Ord. No. 12092, § 41, 3-18-08; Ord. No. 12891, § 1, 1-6-15)

Sec. 35-254. Denial of license of renewal, suspension and revocation.

(a) In addition to any of the powers that may be exercised by the Passenger Vehicle For Hire Board pursuant to this section or any section of this article, after due notice and an opportunity to be heard, may suspend or revoke a pedal carriage or pedicab business license upon the occurrence of any one (1) or more of the following conditions:

(1) The occurrence of fraud, misrepresentation, or false statements contained in the application for such license;

(2) The operation of a pedal carriage or pedicab, owned by the pedal carriage or pedicab business, by a pedal carriage or pedicab driver who does not have in full force and effect a pedal carriage or pedicab driver license and a motor vehicle driver's license;

(3) The operation of a pedal carriage or pedicab, owned by the pedal carriage or pedicab business, that has not been inspected or that does not have affixed to it a registration plate or replaceable registration tag or decal as required; or

(4) Violation by a pedal carriage or pedicab business of any of the provisions of this article, rules promulgated pursuant to this article, or any other law applicable to the operation of a pedal carriage or pedicab business.

(5) The operation of a pedal carriage or pedicab that has not been inspected or that does not have affixed to it a registration plate or replaceable registration tag or decal as required by this chapter; or

(6) The violation by a pedal carriage or pedicab driver of any of the provisions of chapter.

(7) Any pedal carriage or pedicab business that has been found, or pedal carriage or pedicab driver who has been found, to have committed at least three (3) violations of this article within any twelve (12) month period shall have its, his or her license or operational permit suspended by the Taxi Board for a period of not less than three (3) months.

(8) A pedal carriage or pedicab business that, or pedal carriage or pedicab driver who, has had its, his or her license revoked, in accordance with this section may not apply for a new license or operational permit for three (3) years from the date of revocation.

(b) Notwithstanding, upon the occurrence of any of the conditions set forth in subsection (a), if the Passenger Vehicle For Hire Board determines that continued possession by a pedal carriage or pedicab owner of a pedal carriage or pedicab business license would pose an exigent danger to the public, the Passenger Vehicle For Hire Board may suspend or revoke such pedal carriage or pedicab business license or operational permit, subject to a prompt post-suspension or revocation hearing.
(Ord. No. 12092, § 41, 3-18-08; Ord. No. 12149, § 13, 8-5-08; Ord. No. 12891, § 1, 1-6-15)

Sec. 35-255. Failure to display pedal carriage or pedicab registration or pedal carriage or pedicab driver's license.

(a) In any civil, criminal or administrative action or proceeding, the failure to display the registration tag or decal on the pedal carriage or pedicab on which it is required to be displayed as provided shall be presumptive evidence that such pedal carriage or pedicab has not been inspected and is not duly registered as required by this subchapter.

(b) In any civil, criminal or administrative action or proceeding, the failure by a pedal carriage or pedicab driver who is required to be licensed and permitted pursuant to the provisions of this article to display or to exhibit on demand such pedal carriage or pedicab driver's license and permit in accordance with the provisions of this article to any officer or employee authorized to enforce the provisions of this article, shall be presumptive evidence that such pedal carriage or pedicab driver is not duly licensed or properly permitted.
(Ord. No. 12092, § 41, 3-18-08)

Sec. 35-256. Enforcement.

The Passenger Vehicle For Hire Inspector and all police officers of the Chattanooga Police Department shall have the power to enforce any provision of this article or any rule or regulation promulgated pursuant to this article.
(Ord. No. 12092, § 41, 3-18-08; Ord. No. 12891, § 1, 1-6-15)

Sec. 35-257. Rules.

(a) The Passenger Vehicle For Hire Board may make and promulgate such rules and prescribe such forms as are necessary to carry out the provisions of this article.

(b) Any pedal carriage or pedicab must stay at least ten (10) feet from any horse drawn carriage.
(Ord. No. 12092, § 41, 3-18-08; Ord. No. 12891, § 1, 1-6-15)

Sec. 35-258. Reporting.

Eighteen (18) months after the local law that added this article, the Passenger Vehicle For Hire Board, in consultation with the Passenger Vehicle For Hire Inspector, the Police Department and the Traffic Engineers office, shall submit a report to the Mayor and the Chairman of the Council regarding the effectiveness of these regulations at ensuring the safety of pedal carriage or pedicab consumers and minimizing the effects of pedal carriage or pedicabs on traffic and congestion. Such report shall include, among other things, the number of pedal carriage or pedicab business licenses issued, the number of pedal carriage or pedicabs that have registered, and the number of traffic accidents involving pedal carriage or pedicabs.
(Ord. No. 12092, § 41, 3-18-08; Ord. No. 12891, § 1, 1-6-15)

Sec. 35-259. Operation of Pedal carriage or pedicabs; Pedal carriage or pedicabs Using Sidewalks or Public Parks.

(a) A pedal carriage or pedicab shall not block, stand or park on any sidewalk at any time.

(b) A pedal carriage or pedicab shall not be driven or operated on or over any portion of any sidewalk except as necessary to proceed through an intersection.

(c) A pedal carriage or pedicab shall not be driven or operated on or in any public park.

(d) It shall be unlawful for any person to wash or cause to be washed any pedal carriage or pedicab on any street or sidewalk in the city.

(e) Pedal carriages and pedicabs shall yield to pedestrians or bicycles when operating on or through any sidewalk or intersection.

(f) It shall not be unlawful for a pedal carriage or pedicab to operate on any designated bicycle route on a public street.

(g) A pedal carriage or pedicab driver may walk a pedal carriage or pedicab on sidewalks for purpose of parking the pedal carriage or pedicab.
(Ord. No. 12092, § 41, 3-18-08; Ord. No. 12149, §§ 14, 15, 8-5-08)

Sec. 35-260. Manufacturers' Certificate.

The owner of the pedal carriage or pedicab business shall provide the Passenger Vehicle For Hire Board, for each pedal carriage or pedicab that will be used in the business operation, a certificate provided by the manufacturer showing that the pedal carriage or pedicab is designed for commercial use.
(Ord. No. 12092, § 41, 3-18-08; Ord. No. 12891, § 1, 1-6-15)

Secs. 35-261—35-269. Reserved.

DIVISION 3. ELECTRIC PERSONAL ASSISTIVE MOBILITY DEVICES (SEGWAYS)

Sec. 35-270. Definitions.

Electric personal assistive mobility device or "EPAMD" or Segway means a self-balancing, two (2) non-tandem wheeled device, designed to transport only one (1) person, with an electric propulsion system with average power of seven hundred fifty (750) watts or one (1) horse power, whose maximum speed on a paved level surface, when powered solely by such a propulsion system while ridden by an operator who weighs one hundred seventy (170) pounds, is less than twenty (20) miles per hour. Notwithstanding any other provision of law to the contrary, an EPAMD shall not be considered to be a "vehicle," "motor vehicle," "passenger motor vehicle," "passenger car," "motorcycle," "motorized bicycle," "motor bicycle," "motor-driven cycle," "motor scooter" or "all-terrain vehicle" within the meaning of the laws of this state and no provisions of law relating to vehicles, motor vehicles, passenger motor vehicles, passenger cars, motorcycles, motorized bicycles, motor bicycles, motor-driven cycles, motor scooters or all-terrain vehicles shall apply to EPAMDs unless specified in this chapter, including, but not limited to, any provisions of chapter 12, part 1 of this title and any provisions of law relating to motor vehicle registration, licensing, operation or equipment.

Permit for the purposes of this Division shall mean a permit to operate EPAMDs to transport passengers for hire.
(Ord. No. 12092, § 41, 3-18-08)

Sec. 35-271. Regulation of EPAMDs.

(a) The regulation and operation of EPAMDs shall be governed exclusively by the provisions of this chapter.
(Ord. No. 12092, § 41, 3-18-08)

Sec. 35-272. Operation.

(a) Nothing in this chapter or in any other law of this state shall be construed to limit the operation of an EPAMD on the public highways, sidewalks, bike trails and bicycle routes of this state except as otherwise set forth in this chapter.

(b) A person operating an EPAMD shall obey all speed limits for motor vehicles and shall yield the right-of-way to pedestrians and human powered devices at all times.

(c) Notwithstanding any other provision of this chapter to the contrary, the department of transportation shall have the authority to regulate or prohibit the operation of EPAMDs on any highway within its jurisdiction if it determines that such regulation or prohibition is necessary in the interest of public safety. T.C.A. 55-53-104.
(Ord. No. 12092, § 41, 3-18-08)

Sec. 35-273. EPAMDs; Permit required to transport passengers for hire.

No person shall operate or permit an EPAMD(s) on the streets, roads, public highways, parks or public places of the City of Chattanooga as regulated by this Chapter without having first obtained a certificate of public convenience and necessity from the Passenger Vehicle For Hire Board.
(Ord. No. 12092, § 41, 3-18-08; Ord. No. 12891, § 1, 1-6-15)

Sec. 35-274. Application.

(a) An application for a certificate of public convenience and necessity to operate a an EPAMD(s) on the streets, roads, public highways, parks or public places of the City of Chattanooga as to transport passengers for hire or business to shall be filed with the Passenger Vehicle For Hire Board upon forms provided by the Passenger Vehicle For Hire Inspector(s) and upon the payment of a nonrefundable fee of one hundred dollars ($100.00) plus fifty dollars ($50.00) per EPAMD. A renewal application and a fee of fifty dollars ($50.00) plus ten dollars ($10.00) for each EPAMD(s) shall be filed on or before the annual renewal date of the certificate of public convenience and necessity. Such application shall be verified under oath and shall furnish the following information:

(1) The name and address of the applicant.

(2) The financial status of the applicant, including the amounts of all unpaid judgments against the applicant and the nature of the transaction or acts giving rise to such judgments.

(3) The experience of the applicant in the transportation of passengers.

(4) Any facts which the applicant believes tend to prove that public convenience and necessity require the granting of the certificate.

(5) The number of EPAMD(s) and their make and year models to be operated or controlled by the applicant and the location of proposed depots and terminals.

(6) Whether or not the applicant has been convicted of a felony within three (3) years.

(7) Such further information as the Passenger Vehicle For Hire Board may require.

(b) The application to operate EPAMD(s) shall state the number of EPAMDs that shall be made available to transport passengers for hire.

(c) If an application is incomplete, it shall be returned to the applicant for completion prior to being acted upon.

(d) Each application shall be signed by the owner(s) or duly authorized officer, which shall be deemed to be a certification that the information on the application is accurate. Any material misrepresentation made on an application shall be grounds for revocation of the certificate.
(Ord. No. 12092, § 41, 3-18-08; Ord. No. 12891, § 1, 1-6-15)

Sec. 35-275. Public hearing.

Upon the filing of an application for a certificate of public convenience and necessity and/or a request for additional permits to operate EPAMD(s) to transport passengers for hire, the Passenger Vehicle For Hire Board shall fix a time and place for a public hearing thereon, to be not less than thirty (30) days after receipt of the application or request. Notice of such hearing shall be given to the applicant and to all persons to whom certificates of public convenience and necessity have been theretofore issued. Due notice shall be given the general public by posting a notice of such hearing in the morning and evening newspapers at least three (3) days, but not more than five (5) days prior to the public hearing. Any person may file with the Passenger Vehicle For Hire Board a memorandum in support of or opposition to the issuance of a certificate of public convenience or a request for additional permits. The Passenger Vehicle For Hire Board may call special meetings for the consideration of new certificates of public convenience and necessity and/or applications. The Passenger Vehicle For Hire Board shall adopt procedures to govern the consideration of such applications.
(Ord. No. 12092, § 41, 3-18-08; Ord. No. 12891, § 1, 1-6-15)

Sec. 35-276. Issuance.

(a) If the Passenger Vehicle For Hire Board finds that an applicant is qualified to operate EPAMD(s) to transport passengers for hire, and that the applicant is fit, willing and able to perform such public transportation and to conform to the provisions of this article, the Passenger Vehicle For Hire Board shall issue a certificate, stating the name and address of the applicant, the number of vehicles authorized upon such certificate and the date of issuance; otherwise, the application shall be denied. Provided that should the application be incomplete, the Passenger Vehicle For Hire Board shall not issue a certificate of public convenience and necessity until any omissions are cured. Any material misrepresentation in the application shall be a basis for denial of a certificate of public convenience and necessity. If the applicant or any owner of the business having a ten percent (10%) or greater financial interest in the business has been convicted of a felony within three (3) years, the certificate shall be denied.

(b) The action of the Passenger Vehicle For Hire Board in issuing or denying such a certificate shall be final, except as it may be subject to review at law.
(Ord. No. 12092, § 41, 3-18-08; Ord. No. 12891, § 1, 1-6-15)

Sec. 35-277. Proof of financial responsibility required.

No certificate of public convenience and necessity shall be issued or continued in operation of EPAMD(s) under this Chapter unless there is in full force and effect proof of financial responsibility for each vehicle authorized in an amount in accordance with the minimum limits set by the law of the State of Tennessee for financial responsibility of owner and operator of EPAMD(s) or as required by the Passenger Vehicle For Hire Board. Such security shall inure to the benefit of any person who shall be injured or who shall sustain damage to property proximately caused by the negligence of a holder, his servants or agents. Proof of financial responsibility shall be established in accordance with standards set by the laws of the State of Tennessee or the Passenger Vehicle For Hire Board. Proof of financial responsibility shall be filed with the Passenger Vehicle For Hire Board and Inspector(s) and shall have as a surety thereon a surety company authorized to do business in the State of Tennessee or a certificate of self-insurance issued by the Commissioner of Safety.
(Ord. No. 12092, § 41, 3-18-08; Ord. No. 12891, § 1, 1-6-15)

Sec. 35-278. Insurance; financial responsibility.

(a) Before any certificate shall be issued by the Passenger Vehicle For Hire Board or before the renewal of such certificate shall be granted under this Division, the applicant shall be required to file an insurance policy and/or certificate of insurance with the Passenger Vehicle For Hire Board or evidencing insurance

coverage as required in this section. The operator of EPAMD(s) shall notify the Passenger Vehicle For Hire Board of any modification, amendment, cancellation or substitution of any insurance policy required under this section within fourteen (14) days of the date of the notice to the pedal carriage or pedicab business of such modification, amendment, cancellation or substitution. If the policy of insurance required by this section lapses for any reason the permit issued shall become void for such pedal carriage or pedicab business.
(Ord. No. 12092, § 41, 3-18-08; Ord. No. 12891, § 1, 1-6-15)

Sec. 35-279. Stoppage system; illumination and visibility

An EPAMD shall be equipped with a system that when employed will enable the operator to bring the device to a controlled stop and, if the EPAMD is operated between one-half (1/2) hour after sunset and one-half (1/2) hour before sunrise, front, rear and side reflectors and a lamp emitting a white light which, while the EPAMD is in motion, illuminates the area in front of the operator and is visible from a distance of three hundred (300) feet in front of and from the sides of the EPAMD; provided, however, that the provisions of this section requiring the use of reflectors and a lamp during the period between one-half (1/2) hour after sunset and one-half (1/2) hour before sunrise shall be deemed to be satisfied if the operator of the EPAMD wears a personal headlight and reflectors.
(Ord. No. 12092, § 41, 3-18-08)

State law reference—T.C.A. § 55-53-103.

Sec. 35-280. Transfer.

No certificate of public convenience and necessity to operate EPAMD(s) may be sold, assigned, mortgaged or otherwise transferred, nor there any modification of ownership as to stock transfer, new or additional partners, etc., by a holder of a certificate of public convenience and necessity without the consent of the Passenger Vehicle For Hire Board. Provided that in the event of a death of a permit holder, the certificate may be devised to or inherited by a spouse or child, and they shall be granted a certificate by the Passenger Vehicle For Hire Board providing they are otherwise qualified for the certificate.
(Ord. No. 12092, § 41, 3-18-08; Ord. No. 12891, § 1, 1-6-15)

Sec. 35-281. Suspension and revocation.

(a) A certificate of public convenience and necessity issued under the provisions of this division may be revoked or suspended by the Passenger Vehicle For Hire Board if the permit holder thereof has:

(1) Violated any of the provisions of this article.

(2) Discontinued operations for more than five (5) days.

(3) Has violated any provision of this Code or other Chattanooga ordinance or the laws of the United States or the State of Tennessee, the violations of which reflect unfavorably on the fitness of the holder to offer public transportation.

(4) Has charged a passenger rates found to be excessive by the Passenger Vehicle For Hire Board.

(b) Prior to suspension or revocation, the holder shall be given notice of the proposed action to be taken and shall have an opportunity to be heard. The actions of the Passenger Vehicle For Hire Board at such hearing shall be final subject to review at law.
(Ord. No. 12092, § 41, 3-18-08; Ord. No. 12891, § 1, 1-6-15)

Sec. 35-282. Restrictions on use.

Notwithstanding any other provisions of this Chapter to the contrary, the Police Chief or Traffic Engineer may restrict, limit or exclude the operation of EPAMDs if necessary in the interest of public safety or in the interest of the preservation of natural areas, public or private property or historic sites to the same extent as bicycles are restricted, limited or excluded.

ARTICLE I. IN GENERAL

Secs. 36-1—36-15. Reserved.

ARTICLE II. SERVICE BY COMPANIES*

Sec. 36-16. Company to lay service pipe, make connections at own expense.

Any water company doing business in the city shall, at its own expense, make the connections and furnish and lay the pipes necessary to make service connections from its mains in any street or public place to the adjacent property line of the person to whom water is to be supplied; provided that, such company shall not be liable for the cost and laying of service pipe to be laid in excess seventy-five (75) feet from such main.
(Code 1986, § 36-16)

Sec. 36-17. Pipe specifications to be determined by company.

The type, material, size and location of service pipe to be laid or relaid shall be determined by the water company, subject to the decision of the department of public works, streets and airports if there is any disagreement between the water company and the property owner.
(Code 1986, § 36-17)

Sec. 36-18. Property owner to bear expense of service pipe laid after street paved.

If the city, through its department of public works, streets and airports, undertakes the permanent paving or reconstruction of any street, and a property owner, after having had reasonable notice of such intention on the part of the city, fails to have the water company install a service pipe, as provided in section 38-1 of this Code, either to vacant or improved property, and it subsequently becomes necessary for such owner to have such service pipe installed, the water company shall install such pipe, but shall have the right to collect from such owner in advance the reasonable cost of running such service pipe to the property line, and the owner shall have no of right to any refund from the water company for such expenditure.
(Code 1986, § 36-18)

Sec. 36-19. Laying service pipe without contract for water consumption.

If a property owner requests a water company to lay a service pipe to the property line of a lot where no satisfactory contract has been entered into for the commencement of consumption of water within a period of ninety (90) days from such request, the water company may collect in advance from such owner the actual expense to be incurred in complying with his request. The amount so collected shall be refunded to the property owner by the water company when an amount of water has been consumed on the premises served, the cost of which, at legal rates, is equal to the expenditure made by the company.
(Code 1986, § 36-19)

Sec. 36-20. Property owner to provide and maintain stopcock and stop box.

The property owner shall install at his own expense just inside and as near to the property line as may be practicable a stopcock and, when pipe is underground, a stop box for his own use, and shall maintain the same in good working order, subject to inspection by the water company.
(Code 1986, § 36-20)

***Cross references—**Air pollution, Ch. 4; health and sanitation, Ch. 20; plumbing, Ch. 27; sewers, mains and drainage, Ch. 31.

State law reference—Authority regarding water systems, T.C.A. § 7-35-101 et seq.

Sec. 36-21. Installations to conform to grade.

The department of public works, streets and airports shall, on application of any water company, furnish such information from the records in the city engineer's office relative to the lines and grades of sidewalks as will assist such company in properly placing the service pipes, meters, stopcocks and stop boxes in the lines thereof. The property owner shall keep the surface around stop boxes on a level with the same, so that they shall not become obstructions due to the wearing and washing away of such surface.
(Code 1986, § 36-21)

Sec. 36-22. Care, maintenance of service pipes.

The water company shall be responsible for the care and maintenance of all service pipes in the city.
(Code 1986, § 36-22)

Sec. 36-23. When single service pipe to be employed.

Not more than one (1) service pipe for supplying water shall be laid by any water company or other person doing such work from a main to a building owned by one (1) person or by tenants in common.
(Code 1986, § 36-23)

Sec. 36-24. Rates and meter charges for service from single pipe.

It shall be unlawful for any water company in the city to charge or attempt to charge, or to collect or attempt to collect, any other or greater amount than the regular rate for water supplied through a single service pipe and a single meter to any one (1) house or any two (2) or more adjacent houses owned by the same person, where such houses were connected with such water mains or pipes by means of a single service pipe with the knowledge and consent of the company. A single regular minimum meter charge may be charged and collected for every month where the entire amount of water passing through any such service pipe and measured by such meter during such month shall be less than three thousand (3,000) gallons.
(Code 1986, § 36-24)

Sec. 36-25. Additional pipes not be required.

It shall be unlawful for any water company in the city to enforce or attempt to enforce any rule requiring any owner, tenant or agent of the owner of any house or houses connected with water mains or pipes by a single service pipe as provided in the preceding section to make any other or additional connection with such water mains or pipes for the purpose of receiving a supply of water for any one (1) or more of such houses or for any part of any one (1) or more of such houses theretofore supplied with water through a single service pipe and meter; provided that, nothing in this section shall be construed to prevent any additional water service connections to any house or houses in the city which may be made by or with the voluntary consent of the owner of such house or houses.
(Code 1986, § 36-25)

Sec. 36-26. Cash deposit in advance of service prohibited; advance payment on initial bill.

It shall be unlawful for any water company in the city to charge or require of persons desiring to become consumers of water through water mains or pipes cash deposits in advance of furnishing water; provided that, any water company may be permitted to charge for water proposed to be furnished to consumers one (1) quarter's rent in advance according to the minimum rate to consumers of water in the city. Where such payment is required, the money paid by the consumer shall be placed to his credit for water to be consumed during the quarter following payment of such deposit and credited on account of water actually consumed.
(Code 1986, § 36-26)

Sec. 36-27. Refusal to supply service.

It shall be unlawful for any water company in the city, or any officer or agent of such company, to refuse to turn on or supply water to any person occupying or intending to occupy, either as owner, lessee, tenant or subtenant, any premises in the city having water connections with the pipes or mains of such water company, when such occupant or intended occupant tenders to such company or its proper agent, for one (1) quarter in advance, the usual minimum price charged by such company for water for a like period; provided that, such service may be refused in any case where the person requesting it and tendering payment therefor justly owes and refuses to pay for water previously supplied to him by such company in the city; provided, further, that, no water meter shall be installed and no service shall be commenced to any premises where no service has previously been rendered until the plumbing inspector has inspected the plumbing system of the premises and has notified the water company of the approval of the system.
(Code 1986, § 36-27)

Sec. 36-28. No charged to be made for turning service on.

It shall be unlawful for any water company in the city to charge or require of consumers or prospective consumers desiring water service any fee for turning on the supply of water, whether such supply has been cut off for nonpayment of charges for water service or otherwise; provided that, consumers shall pay in full any charges in arrears due by them or tender the same in full in cash at the office of the water company before the water company may be required to turn on the supply of water.
(Code 1986, § 36-28)

Sec. 36-29. Discontinuance of service.

In addition to any or all other grounds for discontinuance of service, a water company shall, upon its own initiative or at the direction of the chief plumbing inspector, discontinue service on reasonable notice, not to exceed twenty-four (24) hours, upon the following circumstances:

(1) Violation by a consumer, property owner or occupant, of any code, law, rules or regulations, or ordinance of any government entity or of any rule or regulation of such water company relative to local codes, health violations, cross-connections or interconnections.

(2) Knowledge by such water company that the health authority or plumbing inspectors have ordered a cross-connection or interconnection or other health or plumbing code violation discontinued or abated and that such order has not been complied with.

(Code 1986, § 36-29)

Secs. 36-30—36-45. Reserved.

ARTICLE III. WELLS

Sec. 36-46. Report of location, samples to be furnished department of health.

The owner or person in control of any premises in the city on a well shall report to the department of health the location of any such well, and once during each calendar month thereafter shall furnish such department a sample of water from such well.
(Code 1986, § 36-46)

Sec. 36-47. Record required.

There shall be kept in the department of health a record showing the location of all wells reported.
(Code 1986, § 36-47)

Sec. 36-48. Analysis of samples.

The health officer shall have all samples of water furnished him analyzed by a bacteriologist.
(Code 1986, § 36-48)

Sec. 36-49. Notice when sample found to be unhealthful.

If, upon analysis, any water is found to be infected or deleterious to health, or in such condition as to produce disease, the director shall at once notify the owner or person in control of the premises on which the well is located from which such water has come.
(Code 1986, § 36-49)

Sec. 36-50. When use to be discontinued.

Any person receiving notice from the director of health, as provided in section 36-49, shall immediately cease to use water from the well in question for drinking purposes, and shall, within ten (10) days thereafter, cause such well to be filled or stopped up so that water from it can be used only for other purposes than drinking.
(Code 1986, § 36-50)

ARTICLE I. TITLE, PURPOSE, & APPLICABILITY

Sec. 38-1. Title

This Zoning Code, which incorporates the Official Zoning Map, is known, cited, and referred to as the "Chattanooga Zoning Code," "Zoning Code," or "Code."
(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24)

Sec. 38-2. Purpose

The intent of this Code is to establish land use regulations to serve the City of Chattanooga. The purpose of this Code is to:

(a) Promote the public health, safety, and welfare.

(b) Promote orderly development of the City and implement the plans and policies adopted by the City.

(c) Assign zones to land within the City, according to use of land and structures, bulk of structures, intensity of the use of the lot, or other classification, as deemed best suited to carry out the purposes of this Code and adopted policies.

(d) Preserve and enhance the character of structures and communities that constitute the distinct places within the City.

(e) Provide a diversity of housing choices for all income levels and groups with an emphasis on affordability.

(f) Promote economic development that balances the needs of the current and future economy with a high quality of life standard.

(g) Preserve open space and natural areas, provide opportunities for multi-modal transportation, utilize existing infrastructure and resources, and preserve quality of life.

(h) Provide for preservation, protection, and conservation of natural resources and historic resources.

(i) Promote principles of sustainability and resiliency.

(j) Create a comprehensive and stable pattern of land uses upon which to plan for transportation, water supply, sewerage, schools, parks, public utilities, and other facilities.

(k) Provide for procedures for the administration of the Code and efficient review of development proposals.
(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24)

Sec. 38-3. Applicability

(a) **Territorial Application**

This Code applies to all land, uses, and structures within the City. The regulations of this Zoning Code apply to private property. The regulations of this Code do not apply to the public right-of-way.

(b) **General Application**

In their interpretation and application, the provisions of this Code are held to be the minimum requirements for the promotion and protection of the public health, safety, and welfare.

(c) **Relation to Private Agreements**

This Code does not nullify any private agreement or covenant. However, where this Code is more restrictive than a private agreement or covenant, this Code controls. The City does not enforce any private agreement.

(d) **Relation to Other Laws and Regulations**

Unless otherwise specifically provided, this Code controls over less restrictive statutes, ordinances, or regulations, and more restrictive statutes, ordinances, or regulations control over the provisions of this Code.

(e) **References to Other Codes and Laws**

Whenever a provision of this Code refers to any other part of the City Code or to any other law, the reference applies to any subsequent amendment of that City Code provision or law.

(f) **Rules Regarding Illustrations and Graphics**

Any illustrations, graphics, and/or photos contained in this Code are intended to assist the user in understanding the Code. If there is any inconsistency between the text of the Code and any such illustration, graphic, and/or photo, the text controls.
(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24)

Sec. 38-4. Transition Rules

(a) *Existing Uses*

The following rules apply to uses operating as of the effective date of this Code:

Previous Use Categorization (Prior to Code Effective Date)	*Current Use Categorization (As of Code Effective Date)*	*Functional Change*
Permitted use	Permitted use	Remains a permitted use, but is subject to any new use standards required by the Code
Permitted use	Special exception use	Becomes a special exception use; any subsequent addition, enlargement, or expansion requires special exception use approval and is subject to any new use standards required by the Code
Special exception use	Special exception use	Remains a special exception use; any subsequent addition, enlargement, or expansion requires special exception use approval and is subject to any new use standards required by the Code; the use also remains subject to any conditions approved as part of the prior special exception use approval

Previous Use Categorization (Prior to Code Effective Date)	*Current Use Categorization (As of Code Effective Date)*	*Functional Change*
Special exception use	Permitted use	Becomes a permitted use and is no longer subject to any conditions approved as part of special exception use process, but is subject to any new use standards required by the Code
Permitted use	Not allowed	Prohibited in the zoning district; existing use becomes a nonconforming use
Special exception use	Not allowed	Prohibited in the zoning district; existing use becomes a nonconforming use

(b) **Structures Rendered Nonconforming**

Any structure that lawfully existed prior to the effective date of this Code, or any subsequent amendment to this Code, that does not meet all standards for the zoning district where it is located is classified as a nonconforming structure.

(c) **Lots Rendered Nonconforming**

Any lot that was lawfully established prior to the effective date of this Code, or any subsequent amendment to this Code, that does not meet all standards for the zoning district where it is located, is classified as a nonconforming lot. In addition, see Section 18.4 Nonconforming Lots.

(d) **Unlawful Uses, Structures, or Lots**

Any use of land, structure, or lot unlawfully existing prior to the effective date of this Code continues to remain unlawful.

(e) **Previously Granted Variances**

All variance approvals granted prior to the effective date of this Code, or any subsequent amendment to this Code, remain in full force and effect. The recipient of the variance may proceed to develop the property in accordance with the approved plans and all applicable conditions of the variance, including the period of validity for the variance.

(f) **Existing Planned Unit Developments**

Approved planned unit developments (PUD) remain in effect and continue to control the development of land that is subject to the PUD. Any amendments to an existing PUD are subject to the amendment procedures of this Code. Vesting provisions are contained in Section 15.3.

(g) **Existing Conditional Zoning Amendments**

Zoning conditions related to use, dimensions, landscaping, parking, height, or other restrictions may be in place on property. Since 1984, zoning conditions have been added to zoning by Chattanooga Council Ordinance through the rezoning process. Any and all conditions placed by ordinance (unless otherwise amended or lifted) are still effective/active with adoption of the new zoning map on December 18, 2024.

The zoning conditions placed by ordinance prior to the adoption of the new zoning map remain in effect on the new zone adopted as the official zoning map on December 18, 2024.

Vesting provisions are contained in section 38-73, Vesting.
(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24; Ord. No. 14222, § 1, 4-15-25)

Sec. 38-5. Current Versions and Citations

(a) All references to other regulations, documents, maps, or manuals in this Code refer to the most current version and citation for those regulations, documents, maps, or manuals, unless expressly indicated otherwise.

(b) If the referenced regulations or documents have been repealed and not replaced by other regulations or manuals, Code requirements for compliance are no longer in effect.

(c) Whenever a provision of this Code refers to any other part of the City Code or to any other law, the reference applies to any subsequent amendment of that law.
(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24)

Sec. 38-6. Severability

Should any section, subsection, phrase, clause, or provision of this Code be declared by a court of competent jurisdiction to be invalid, the same does not affect the validity of the Code as a whole or any part thereof, other than the part so declared to be invalid.
(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24)

ARTICLE II. DEFINITIONS & RULES OF MEASUREMENT

Sec. 38-7. Rules of Interpretation

The terms in the text of this Code are interpreted in accordance with the following rules of construction:

(a) The singular number includes the plural, and the plural the singular.

(b) The present tense includes the past and future tenses, and the future tense includes the present.

(c) The terms "must," "shall," and "will" are mandatory.

(d) The terms "may" and "can" are permissive.

(e) The terms "must not," "will not," "cannot," "may not," and "shall not" are prohibiting.

(f) Any gender includes all genders.

(g) Whenever a defined word or term appears in the text of this Code, its meaning must be construed as set forth in the definition. Words not defined must be interpreted in accordance with the definitions considered to be normal dictionary usage.
(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24)

Sec. 38-8. General Abbreviations

The following abbreviations may be used within this Code:

BTL is an abbreviation for "build-to line."

BTZ is an abbreviation for "build-to zone."

GFA is an abbreviation for "gross floor area."

ft is an abbreviation for "feet."

N/A is an abbreviation for "not applicable."

NR is an abbreviation for "nonresidential."

sf is an abbreviation for "square feet."

SU is an abbreviation for "single-unit."

SU-A is an abbreviation for "single-unit—attached."

2U is an abbreviation for "two- unit."

3U is an abbreviation for "three- unit."

4U is an abbreviation for "four- unit."

5U is an abbreviation for "five-unit."

6U is an abbreviation for "six-unit."

MU is an abbreviation for "multi-unit."

TH is an abbreviation for "townhouse."

MU is an abbreviation for "multi- unit."

DU is an abbreviation for "dwelling unit."
(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24; Ord. No. 14181, § 1, 12-17-24)

Sec. 38-9. General Definitions

The following are definitions of general terms used throughout this Code with the exception of Use Definitions, which are defined in Article IX.

Abut. To physically touch or border on, or to share a common lot line but not overlap.

Access. A way or means of approach to provide vehicular or pedestrian physical entrance to a property.

Accessibility Ramp. A ramp or similar structure that provides wheelchair or similar access to a structure.

Accessory Structure. A structure detached from a principal building located on the same lot and customarily incidental and subordinate to the principal building or use.

Accessory Use. A use of land or of a building or portion thereof customarily incidental and subordinate to the principal use of the land or building and located on the same lot with the principal use.

Addition. A structure added to the original structure at some time after the completion of the original or an extension or increase in floor area or height of a building or structure. For the purposes of this section, "at some time after" is usually defined as after the certificate of occupancy has been issued for the original structure.

Addition (to an existing building). Any walled and roofed expansion to the perimeter or height of a building.

Adjacent. A lot or parcel of land that shares all or part of a common lot line with another lot or parcel of land.

Aisle. The traveled way by which cars enter and depart parking spaces. Also called a travel aisle.

Alley. A service roadway providing a secondary means of access to abutting property and not intended for general traffic circulation.

Alteration. Any change or rearrangement in the supporting members of an existing building, such as bearing walls, columns, beams, girders, or interior partitions, as well as any change indoors, windows, or means of ingress or egress; or any enlargement to or diminution of a building or structure, whether horizontally or vertically; or the moving of a building or structure from one location to another.

Amateur (ham) Radio Equipment. An amateur (ham) radio station licensed by the Federal Communications Commission (FCC), including equipment such as, but not limited to, a tower or building-mounted structure supporting a radiating antenna platform and other equipment.

Ancillary. In regard to principal uses, a structure or use that provides support and is integral to a principal use operation.

Apiary. A structure for the keeping of honeybees.

Appeal. A request for a review of an interpretation of any provision of this Ordinance or a request for variance.

Appurtenance. The visible, functional, or ornamental objects accessory to, and part of, buildings or structures.

Area of Shallow Flooding. A designated AO or AH Zone on a community's Flood Insurance Rate Map (FIRM) with one percent or greater annual chance of flooding to an average depth of one to three feet where a clearly defined channel does not exist, where the path of flooding is unpredictable and indeterminate; and where velocity flow may be evident. Such flooding is characterized by ponding or sheet flow.

Area of Special Flood-related Erosion Hazard. The land within a community which is most likely to be subject to severe flood-related erosion losses. The area may be designated as Zone E on the Flood Hazard Boundary Map (FHBM). After the detailed evaluation of the special flood-related erosion hazard area in preparation for publication of the FIRM, Zone E may be further refined.

Architectural Feature. A part or projection that contributes to the aesthetics of a structure, exclusive of signs, that is not necessary for the structural integrity of the structure or to make the structure habitable.

Area of Special Flood Hazard. The land in the flood plain within a community subject to a 1% or greater chance of flooding in any given year (see also High Water Stage).

Articulation. For structures, a change in the depth of the building plane, roofline, or height.

Awning. A roof-like cover projecting from the wall of a building for the purpose of shielding a doorway or window from the elements.

Balcony. A roofed or unroofed platform that projects from the exterior wall of a structure above the ground floor, which is exposed to the open air, has direct access to the interior of the building, and is not supported by posts or columns extending to the ground.

Banner. A temporary sign printed upon flexible material mounted with or without rigid frames on a building.

Base Flood. For purposes of adopted flood regulations, means the flood having a 1% chance of being equaled or exceeded in any given year. This term is also referred to as the 100-year flood or the 1% annual chance flood.

Basement. Any portion of a building having its floor subgrade (below ground level) on all sides.

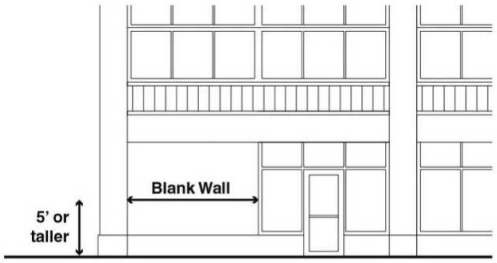
Bay Window. A window that projects outward from the structure, which does not rest on the building foundation or on the ground.

Berm. An earthen mound designed to provide visual interest on a site, fully or partially screen undesirable views, reduce noise, or fulfill similar purposes.

Bike Facility. Improvements to accommodate bicyclists, including bike parking facilities, bike lanes, and facilities for bicyclists such as repair stations and shower facilities.

Blank Wall. The horizontal linear dimension of contiguous building wall that does not contain fenestration, doors, or decorative elements such as banding, medallions, artwork such as murals and mosaics, change in wall plane of at least three inches, or other architectural or material embellishment. Any wall less than eight feet in height is not considered to be a blank wall.

BLANK WALL



Block. Defined in Section 38-10.

Blockface. Defined in Section 38-10.

Blue Roof. A roof designed to store water and discharge rainfall.

Buffer. An area of dimensional separation between land uses, buildings, or structures, which is undeveloped, with installed screening and/or undisturbed and left in a natural condition.

Buffer Yard. An area of land within a property or site, generally adjacent to and parallel with a property line, to allow adequate screening of view, noise, and/or activity taking place within the property or site from adversely affecting an adjoining property, site, or the public right-of-way.

Build-To Line (BTL). Defined in Section 38-10.

Build-To Zone (BTZ). Defined in Section 38-10.

Build-To Percentage. Defined in Section 38-10.

Buildable Area. The portion of a lot, excluding required setbacks, where a structure or building improvements may be erected.

Building. Any structure having a roof supported by columns or walls and intended for the shelter, housing, or enclosure of any individual, animal, process, equipment, goods, or materials of any kind and intended for use in one place.

Building Coverage. Defined in Section 38-10.

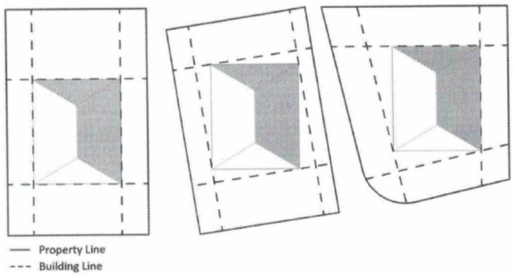
Building Envelope. The three-dimensional space within which a structure is permitted to be built on a lot and which is defined by regulations governing building setbacks, maximum height, and bulk, by other regulations, and/or by any combination thereof.

Building Footprint. The area encompassed by a building's outer wall at ground level.

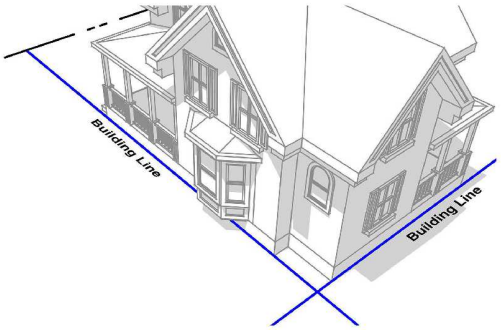
Building Height. Defined in Section 38-10.

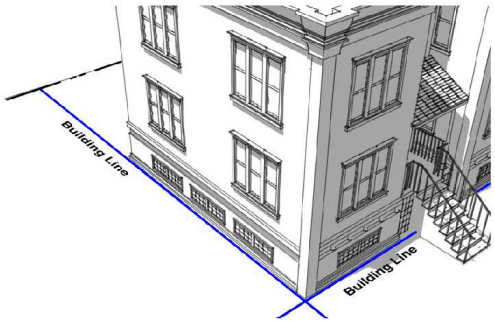
Building Line. A line measured at the building wall of a structure between parallel lot lines. For the purposes of establishing a building line, the building wall does not include permitted encroachments of architectural features, such as bay windows, eaves, and steps and stoops.

BUILDING LINE



BUILDING LINE (3-D VIEW)





Building Permit. A permit issued by the duly designated building official authorizing the erection, construction, reconstruction, alteration, repair, conversion, or maintenance of a building, structure, or portion thereof.

Canopy. A canopy is a roof-like cover designed for protection from the weather or as a decorative embellishment affixed to a building or freestanding, with supports that extend to the ground.

Carport. A roofed structure intended to provide a sheltered parking space for the parking of motor vehicles and enclosed on not more than three sides.

Chicken Coop. A structure where hens are kept.

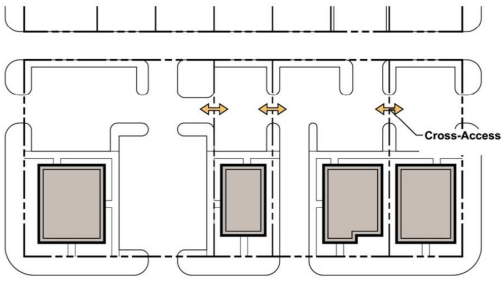
Chimney. A vertical shaft of reinforced concrete, masonry or other approved material enclosing one or more flues, for the purpose of removing products of combustion from solid, liquid, or gaseous fuel.

Coldframe Structure. A temporary unheated outdoor structure consisting of a frame and a top of glass or clear plastic, used for protecting seedlings and plants from the cold.

Co-Location. Placement of equipment from more than one service or service provider on a single tower or site.

Cross-Access. A vehicular and/or pedestrian connection between abutting properties that connects the two sites and allows vehicles and/or pedestrians to travel between sites without the having to exit to the street.

CROSS-ACCESS



Deck, First Floor. A roofless outdoor space built as an aboveground platform projecting from the first floor of a structure and connected by structural supports at grade and/or by the structure.

Deck, Upper Story. A roofless outdoor space built as an aboveground platform projecting from and connecting to an upper story wall of a structure with structural supports that extend to the ground.

Donation Box. An unmanned receptacle designed with a door, slot, or similar opening intended to accept and store donated clothes and household items.

Driveway. A private roadway providing access to a street or highway.

Dwelling. A structure, or portion thereof, designed exclusively for human habitation.

Dwelling Unit. One or more habitable rooms which are occupied, or which are intended or designed to be occupied as a residence by one "family", with facilities for living, sleeping, sanitation, and cooking. "Family" means for purposes of Chapter 38:

(1) An individual; or

(2) Two or more persons related by blood, marriage or law; or

(3) A group of two or more unrelated persons living together in a dwelling unit, not to exceed four persons in a dwelling unit with three or fewer bedrooms, and not to exceed five persons in a dwelling unit with four or more bedrooms. Such group may include a combination of related and unrelated persons.

Easement. A grant of one or more of the property rights by the property owner to and/or for use by the public, a corporation, or another person or entity.

Eave. The projecting lower edges of a roof overhanging the wall of a structure.

Egress. A place or means of exiting a property.

Elevated Building. A non-basement building built to have the lowest floor of the lowest enclosed area elevated above the ground level by means of solid foundation perimeter walls with openings sufficient to facilitate the unimpeded movement of floodwater, pilings, columns, piers, or shear walls adequately anchored so as not to impair the structural integrity of the building during a base flood event.

Emergency Flood Insurance Program. A program as implemented on an emergency basis in accordance with Section 1336 of the Act. It is intended as a program to provide a first layer amount of insurance on all insurable structures before the effective date of the initial FIRM. Also called Emergency Program.

Encroachment. The extension or placement of any structure, or a component of such, into a required setback or right-of-way.

Enlargement. An increase in the size of an existing structure or use, including the physical size of the property, building, parking, and other improvements.

Endwall. The wall of the end unit of a townhouse development that is not attached to another dwelling unit or party wall.

Entablature. An architectural feature that consists of a horizontal, continuous band of elements supported by and situated above the columns of a building or structure.

Erect. To build, construct, attach, hang, place, suspend, or affix.

Erosion. The process of the gradual wearing away of land masses. This peril is not "per se" covered under the Program.

Exception (in Special Flood Hazard Areas). A waiver from the provisions of the Special Flood Hazard Area section of this Ordinance which relieves the applicant from the requirements of a rule, regulation, order or other determination made or issued pursuant to this Ordinance.

Existing Construction (Floodplain). Any structure for which the "start of construction" commenced before the effective date of the initial floodplain management code or ordinance adopted by the community as a basis for that community's participation in the NFIP.

Existing Use. The use of a property at the time that an application for development or redevelopment is made.

Expansion to an Existing Manufactured Home Park or Subdivision. The preparation of additional sites by the construction of facilities for servicing the lots on which the manufactured homes are to be affixed (including the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads).

External Illumination. Illumination by an artificial source of light not internal to the sign face.

Exterior Lighting. The illumination of an outside area or object by any man-made device that produces light by any means.

Exterior Wall. Any wall that defines the exterior boundaries of a building or structure.

Exterior Stairwell. One or more flights of stairs, and the necessary landings and platforms connecting them, to form a continuous passage from the entryway of a floor or level to another in a structure located on the exterior of a principal building.

Facade. An exterior building wall, from grade to the top of the parapet or eaves. A facade incorporates the full width of a building elevation, including any projections or recesses occurring across an elevation. The front facade is the principal elevation of a building and contains the building's main entrance, the rear facade is the building's rear exterior wall, and the side facades are a building's side exterior walls.

FEMA. Federal Emergency Management Agency.

Fence. An artificially constructed barrier of any permitted material or combination of materials erected to enclose, screen, or separate areas.

(1) Fence—Open. A fence that has, over its entirety, more than 70% of the superficial surface consisting of regularly distributed openings.

(2) Fence—Solid. A fence that has, over its entirety, no distributed openings. A shadowbox design fence is considered a solid fence. A chain link fence with slats is not considered a solid fence.

Fenestration. Windows and other openings on a building facade.

Fill. Any material including but not limited to soil, gravel, sand, rock or similar materials that is placed, deposited, or graded by human activity to raise the ground surface to a desired elevation or grade.

Finished Elevation. The proposed elevation of the land surface of a site after completion of all site preparation work.

First Floor Demarcation Line. The boundary that marks the separation between the first floor (of a building and the floors above it.

Flood or Flooding. A general and temporary condition of partial or complete inundation of normally dry land areas from:

(1) The overflow of inland waters.

(2) The unusual and rapid accumulation or runoff of surface waters from any source.

Flood Elevation Determination. A determination by the Federal Emergency Management Agency (FEMA) of the water surface elevations of the base flood, that is, the flood level that has a one percent or greater chance of occurrence in any given year.

Flood Elevation Study. An examination, evaluation and determination of flood hazards and, if appropriate, corresponding water surface elevations, or an examination, evaluation and determination of mudslide (i.e., mudflow) or flood-related erosion hazards.

Flood Fringe. The portion of the one-percent annual chance floodplain located outside of the floodway.

Flood Hazard Boundary Map (FHBM). An official map of a community on which the Federal Insurance Administration has delineated both the areas of special flood hazard and the risk premium zones applicable to the community.

Flood Hazard Zone. The Flood Hazard Zone includes all areas covered by the Floodway Zone plus all areas of special flood hazard as set forth and identified as such by the Federal Emergency Management Agency in its most recent Floodway Maps and Flood Insurance Rate Maps (FIRM) for the community and all property which is considered to be below the elevation of the "High Water Stage" for the Tennessee River and its tributaries. Changes and additions to the Flood Hazard Zone by Tennessee Valley Authority study are hereby adopted and add to or change the Flood Hazard Zone.

Flood Insurance Rate Map (FIRM). An official map of a community, on which the Federal Emergency Management Agency had delineated both the areas of special flood hazard and the risk premium zones applicable to the community.

Flood Insurance Study. The official report provided by the Federal Emergency Management Agency. The report contains flood profiles, as well as the flood Boundary Floodway Map and the water surface elevation of the base flood.

Floodplain. Any land area susceptible to being inundated by water from any source (see definition of "flooding"). Also called Floodprone Area.

Floodplain Management. The operation of an overall program of corrective and preventive measures for reducing flood damage, including but not limited to emergency preparedness plans, flood control works and floodplain management regulations.

Floodplain Storage. The volume or quantity of stormwater surface runoff temporarily or permanently held within the boundaries of the regulatory floodplain. Net increase of floodplain storage as a result of fill refers to the additional volume or quantity of stormwater surface runoff temporarily or permanently held within the boundaries of the regulatory floodplain that exists as a direct result of the fill materials added to the floodplain that would have otherwise not existed.

Floodproofing. Any combination of structural and nonstructural additions, changes, or adjustments to structures which reduce or eliminate flood damage to real estate or improved real property, water and sanitary facilities, structures, and their contents.

Flood Protection System. Those physical structural works for which funds have been authorized, appropriated, and expended and which have been constructed specifically to modify flooding in order to reduce the extent of the area within a community subject to a "special flood hazard" and the extent of the depths of associated flooding. Such a system typically includes hurricane tidal barriers, dams, reservoirs, levees or dikes. These specialized flood modifying works are those constructed in conformance with sound engineering standards.

Flood-related Erosion. The collapse or subsidence of land along the shore of a lake or other body of water as a result of undermining caused by waves or currents of water exceeding anticipated cyclical levels or suddenly caused by an unusually high water level in a natural body of water, accompanied by a severe storm, or by an unanticipated force of nature, such as a flash flood, or by some similarly unusual and unforeseeable event which results in flooding.

Flood-related Erosion Area or Flood-related Erosion Prone Area. A land area adjoining the shore of a lake or other body of water, which due to the composition of the shoreline or bank and high water levels or wind-driven currents, is likely to suffer flood-related erosion damage.

Flood-related Erosion Area Management. The operation of an overall program of corrective and preventive measures for reducing flood-related erosion damage, including but not limited to emergency preparedness plans, flood-related erosion control works and floodplain management regulations.

Floodway. The channel of a river or other watercourse and the adjacent land areas that must be reserved in order to discharge the base flood without increasing the water surface elevation at the High Water State or the Base Flood. The Floodway Zone of Ninemile Branch, Black Creek, Ryall Springs Branch, Mackey Branch and Friar Branch is identified by the Federal Emergency Management Agency and shown on its Flood Boundary and Floodway Maps dated September 6, 1989. The Floodway Zone for other streams is identified by lines and the notation 'F/W' on the official Zoning Maps. Changes and additions to the Floodway Zone by Tennessee Valley Authority study are hereby adopted and add to or change the Floodway Zone.

Flood Protection System. Those physical structural works for which funds have been authorized, appropriated, and expended and which have been constructed specifically to modify flooding in order to reduce the extent of the area within a community subject to a "special flood hazard" and the extent of the depths of associated flooding. Such a system typically includes hurricane tidal barriers, dams, reservoirs, levees or dikes. These specialized flood modifying works are those constructed in conformance with sound engineering standards.

Foot-Candle. A unit of measure of illuminance equal to one lumen of light spread over an area of one square foot.

Freeboard. A factor of safety usually expressed in feet above a flood level for purposes of floodplain management. "Freeboard" tends to compensate for the many unknown factors that could contribute to flood heights greater than the height calculated for a selected size flood and floodway conditions, such as wave action, blockage of bridge or culvert openings, and the hydrological effect of urbanization of the watershed.

Frontage. The boundary line of a lot between a building and the right-of-way or the pavement of a sidewalk.

Functionally Dependent Use. A use which cannot perform its intended purpose unless it is located or carried out in close proximity to water. The term includes only docking facilities, port facilities that are necessary for the loading and unloading of cargo or passengers, and ship building and ship repair facilities, but does not include long-term storage or related manufacturing facilities.

Garage. An accessory building or portion of a principal building used for the storage of motor vehicles of the occupants of the premises.

Gazebo. A freestanding outdoor accessory structure designed for recreational use and not for habitation.

General Floodplain. Those floodplains designated on the Flood Insurance Rate Maps referenced in Section 3.2, that are not VE or V zones, and that do not have a delineated floodway.

Glare. The effect produced by light from a luminaire with an intensity sufficient to cause annoyance, discomfort, or loss in visual performance and visibility.

Grading. Any stripping, cutting, filling, or stockpiling of earth or land, including the land in its cut or filled condition, to create new grades for development of the lot.

Green Roof. A building roof partially or completely covered with vegetation and a growing medium, planted over a waterproofing membrane. It may also include additional layers such as a root barrier and drainage and irrigation systems.

Gross Floor Area (GFA). Defined in Section 38-10.

Habitable Floor. Any floor usable for living purposes, which includes working, sleeping, eating, cooking or recreation, or a combination thereof. A floor used only for storage purposes is not a Habitable Floor. This definition replaces the definition of Lowest Habitable Floor.

Hardscape. Nonliving components of a landscape design, such as walls, sculpture, paved walkways, patios, stone and gravel areas, benches, fountains, and similar hard-surface areas and objects.

Hedge. A row of bushes or small trees planted close together, especially when demarcating a boundary or forming a barrier.

High Water Stage. The High Water Stage for the Tennessee River (Nickajack Lake) and its tributaries are that elevation determined by the Federal Emergency Management Agency as the one hundred (100) year flood elevation as shown on the flood profiles in its Flood Insurance Study for the City of Chattanooga, Tennessee, dated September 6, 1989, and any other applicable profiles as completed by the Tennessee Valley Authority.

High Water Stage. The 100-year Floodplain Elevation.

Highest Adjacent Grade. The highest natural elevation of the ground surface, prior to construction, adjacent to the proposed walls of a structure.

Historic Structure. Any structure that is:

1. Listed individually in the National Register of Historic Places (a listing maintained by the U.S. Department of Interior) or preliminarily determined by the Secretary of the Interior as meeting the requirements for individual listing on the National Register;
2. Certified or preliminarily determined by the Secretary of the Interior as contributing to the historical significance of a registered historic district or a district preliminarily determined by the Secretary to qualify as a registered historic district;
3. Individually listed on the Tennessee inventory of historic places and determined as eligible by states with historic preservation programs which have been approved by the Secretary of the Interior; or
4. Individually listed on the City of Chattanooga, Tennessee inventory of historic places and determined as eligible by communities with historic preservation programs that have been certified either:
    a. By the approved Tennessee program as determined by the Secretary of the Interior or
    b. Directly by the Secretary of the Interior.

Impervious Surface Coverage. Defined in Section 38-10.

Incidental. Subordinate and minor in significance and bearing a reasonable relationship to the primary use.

Infrastructure. Facilities and services needed to sustain land use activities.

Ingress. A place or means of gaining access or entry into a property.

Intensity of Use. Square feet of gross floor area, number of dwelling units, number of employees, or other factor used as a basis for requiring off-street parking or loading facilities.

Letter of Map Change (LOMC). An official FEMA determination, by letter, that amends or revises an effective Flood Insurance Rate Map or Flood Insurance Study. Letters of Map Change include:

Letter of Map Amendment (LOMA). An amendment based on technical data showing that a property was incorrectly included in a designated special flood hazard area. A LOMA amends the current effective Flood Insurance Rate Map and establishes that a specific property or structure is not located in a special flood hazard area.

Conditional Letter of Map Revision Based on Fill (CLOMR-F). A determination that a parcel of land or proposed structure that will be elevated by fill would not be inundated by the base flood if fill is placed on the parcel as proposed or the structure is built as proposed.

Letter of Map Revision Based on Fill (LOMR-F). A determination that a structure or parcel of land has been elevated by fill above the base flood elevation and is, therefore, no longer exposed to flooding associated with the base flood. In order to qualify for this determination, the fill must have been permitted and placed in accordance with the community's floodplain management regulations.

Conditional Letter of Map Revision (CLOMR). A formal review and comment as to whether a proposed flood protection project or other project complies with the minimum NFIP requirements for such projects with respect to delineation of special flood hazard areas. A CLOMR does not revise the effective Flood Insurance Rate Map or Flood Insurance Study; upon submission and approval of certified as-built documentation, a Letter of Map Revision may be issued by FEMA, to revise the effective FIRM.

Letter of Map Revision (LOMR). Letter of Map Revisions are generally based on the implementation of physical measures that affect the hydrologic or hydraulic characteristics of a flooding source and thus result in the modification of the existing regulatory floodway, the effective Base Flood Elevations (BFEs), or the Special Flood Hazard Area (SFHA). The LOMR officially revises the Flood Insurance Rate Map (FIRM) or Flood Boundary and Floodway Map (FBFM), and sometimes the Flood Insurance Study (FIS) report, and when appropriate, includes a description of the modifications. The LOMR is generally accompanied by an annotated copy of the affected portions of the FIRM, FBFM, or FIS report.

Levee. A man-made structure, usually an earthen embankment, designed and constructed in accordance with sound engineering practices to contain, control or divert the flow of water so as to provide protection from temporary flooding.

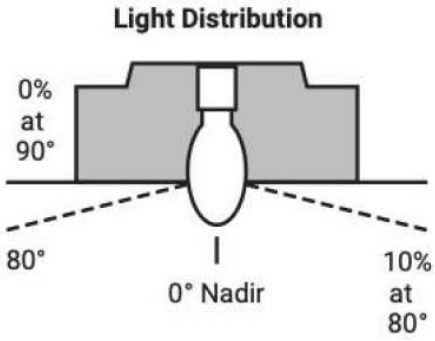
Levee System. A flood protection system which consists of a levee, or levees, and associated structures, such as closure and drainage devices, which are constructed and operated in accordance with sound engineering practices.

Light Pole. Pole on which a luminaire is mounted.

Light Trespass. The shining of light produced by a luminaire (light fixture) beyond the boundaries of the property on which it is located.

Lighting, Full Cutoff. A light distribution where the candela value is zero at or above horizontal (90º above nadir) and does not exceed 10% at or above a vertical angle of 80º above nadir.

FULL CUTOFF



Lot. Defined in Section 38-10.

Lot Area. Defined in Section 38-10..

Lot, Corner. Defined in Section 38-10.

Lot Depth. Defined in Section 38-10.

Lot, Interior. Defined in Section 38-10.

Lot of Record. A lot that exists as shown or described on a plat or deed in the records of the local registry of deeds.

Lot Line. Defined in Section 38-10.

Lot Line, Corner. Defined in Section 38-10.

Lot Line, Front. Defined in Section 38-10.

Lot Line, Interior. Defined in Section 38-10.

Lot Line, Rear. Defined in Section 38-10.

Lot Line, Street. Defined in Section 38-10.

Lot, Through. Defined in Section 38-10.

Lot Width. Defined in Section 38-10.

Lowest Floor. For purposes of adopted flood regulations, means the lowest floor of the lowest enclosed area, including a basement. An unfinished or flood resistant enclosure used solely for parking of vehicles, building access or storage in an area other than a basement area is not considered a building's lowest floor, provided, that such enclosure is not built so as to render the structure in violation of the applicable non-elevation design requirements of applicable flood regulations.

Lumen. A unit of measure of the quantity of light that falls on an area of one square foot, every point of which is one foot from the source of one candela.

Luminaire. A complete lighting unit consisting of a light source, pole, and all mounting brackets, if appropriate, and all necessary mechanical, electrical, and decorative parts.

Manufactured Home Stand. The area of a manufactured home site that has been reserved for the placement of a manufactured home.

Mean Sea Level. The average height of the sea for all stages of the tide.

Mitigation/Mitigate. Methods used to alleviate or lessen the impact of development.

Mixed-Use. A building that contains both non-residential and residential uses.

Mixed-Use Development. The development of a building or tract of land with a variety of complementary and integrated uses permitted in the zone, such as, but not limited to, residential, office, commercial, industrial, public, and recreation, in a compact urban form.

National Geodetic Vertical Datum (NGVD). As corrected in 1929, a vertical control used as a reference for establishing varying elevations within the floodplain.

New Construction. For purposes of adopted flood regulations, means any structure for which the "start of construction" commenced on or after the effective date of the initial floodplain management regulations, and includes any subsequent improvements to such a structure.

New Manufactured Home Park or Subdivision. A manufactured home park or subdivision for which the construction of facilities for servicing the lots on which the manufactured homes are to be affixed (including at a minimum, the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads) is completed on or after the effective date of this ordinance or the effective date of the initial floodplain management ordinance and includes any subsequent improvements to such structure.

Nonresidential Zones. Zones that allow a variety of nonresidential uses such as retail, restaurant, service, and office, where such types of uses are the primary uses allowed, or where a wide range of commercial uses are allowed with residential uses to create mixed-use development.

Nonresidential Use. A structure or land used or intended to be used for nonresidential uses, which includes, but is not limited to, retail, office, entertainment, recreation, public, institutional, and other nonresidential uses. Structures with multi-unit dwellings above ground floor nonresidential uses are considered mixed-use development and considered a nonresidential use for the purposes of this Code.

North American Vertical Datum (NAVD). As corrected in 1988, a vertical control used as a reference for establishing varying elevations within the floodplain.

Off-Street Parking. A space intended for the storage of a motor vehicle on premises other than streets or rights-of-way.

Outlot. An area of land set aside within a retail center for a separate principal building that shares a circulation system and may share common parking with the larger retail center development but is separated from the principal building or buildings, typically located along the property line.

Owner. An individual, firm, association, syndicate, partnership, or corporation having sufficient proprietary interest to seek development of land, such as the owner of the title or a mortgage whose interest is shown of record in the mortgage and conveyance records, a person shown as owner in the records of the tax assessor of the county in which the property is situated, or the agent of any such person and those in possession of a dwelling, dwelling unit, or premises.

Parapet. The extension of a false front or wall above a roofline.

Parking Facility. A parking lot and/or parking structure. Parking facility does not include parking spaces and parking pads for individual dwelling units for single-unit, two-unit, or townhouse dwellings.

Parking Lot. An open, hard-surfaced area, excluding a street or public way, used for the storage of operable vehicles, whether for compensation or at no charge.

Parking Structure. A structure used for the parking or storage of operable vehicles, whether for compensation or at no charge.

Party Wall. A common wall from the foundation and extending continuously through all stories to or above the roof that separates one building from another, but in joint use by each building.

Patio. A hard surface designed and intended for recreational use by people and not used as a parking space.

Pedestrian Access. An entrance providing both ingress and egress, operable to residents at all times and customers during regular business hours, is required to meet the street-facing entrance requirements. Additional entrances off another street, pedestrian area or internal parking area are allowed. The entrance spacing requirements must be met for each building but are not applicable to adjacent or abutting buildings. Entrance spacing is measured from the edge of door to the edge of the next door. An angled entrance may be provided at either corner of a building along the street to meet the street-facing entrance requirements.

Pedestrian Facilities. Sidewalks, shared use paths, and similar facilities intended for pedestrian mobility.

Pergola. An open structure, which may be either freestanding or attached to a structure, that forms a partially shaded pedestrian walkway, passageway, or sitting area, and is constructed of a semi-open roof and vertical posts that support cross-beams and a sturdy open lattice. It may also be used as an extension of a building entryway.

Person. Any individual or group of individuals, corporation, partnership, association, or any other entity, including State and local governments and agencies.

Pervious Paving. A range of sustainable materials and techniques for permeable paving that allow the movement of water through the surface. Gravel and loose rock are not considered pervious paving.

Porch. An architectural feature that projects from the exterior wall of a structure, has direct access to the street level of the building, and is covered by a roof or eaves.

(1) Porch—Unenclosed. A porch that is open on all sides, with the exception of the side attached to the principal building.

(2) Porch—Enclosed. A porch enclosed by walls, screens, lattice or other material. A screened-in porch is an enclosed porch.

Porte Cochere. A permanent structure built over a driveway or entry drive that provides temporary shelter to persons exiting a vehicle, but not serving as the only covered or enclosed vehicle shelter on-site.

Principal Building. A non-accessory structure in which a principal use of the lot on which it is located is conducted.

Principal Building Line. See "building line."

Principal Use. The main use of land or structures as distinguished from an accessory use.

Prominent Entrance. A building entrance that is visually distinctive from the remaining portions of the facade where it is located and is parallel and directly connected to adjacent pedestrian facilities. Entrances that contain at least three of the following are considered a prominent entrance: decorative pedestrian lighting/sconces; architectural details carried through to upper stories; covered porches, canopies, awnings, or sunshades; archways; transom or sidelight windows; terraced or raised planters; common outdoor seating enhanced with specialty details, paving, landscaping, or water features; double doors; stoops or stairs.

Protected Zone: As relates to the Downtown Form-based Code, includes the following zones: A-1, RN-1-3, RN-1-5, RN-1-6, RN-1-7.5, RN-2 and RD.

Reach. A hydraulic engineering term to describe a longitudinal segment of a stream or river influenced by a natural or man-made obstruction. In an urban area, the segment of a stream or river between two consecutive bridge crossings would most typically constitute a reach.

Reasonably Safe from Flooding. Base flood waters will not inundate the land or damage structures to be removed from the Special Flood Hazard Area and that any subsurface waters related to the base flood will not damage existing or proposed structures.

Regulatory Flood Protection Elevation (RFPE). An elevation that is one foot above the elevation of the base flood plus any increases in the water surface elevation caused by encroachments on the floodplain that result from designation of a floodway. These increases in water surface elevations are typically identified in the Floodway Data Tables, found in the Flood Insurance Study.

Repetitive Loss. For purposes of adopted flood regulations, means flood-related damage sustained by a structure on two separate occasions during a ten year period for which the cost of repairs at the time of each such flood event, on the average, equals or exceeds 25% of the market value of the structure before the damage occurred.

Recreational Vehicle. Any vehicle or boat designed for recreational purposes and temporary living quarters while camping and/or travelling and not used as a commercial vehicle including, but not limited to, boat/watercraft, camper trailer, motorized trailer, off-road vehicle, racing car or cycle, travel trailer, and truck camper.

Refuse Container. An exterior waste container designed to be mechanically lifted by and emptied into or carted away by a collection vehicle.

Recycling Containers. A container for the collection of recyclables.

Regulatory Floodway. The channel of a river or other watercourse and the adjacent land areas that must be reserved in order to discharge the base flood without cumulatively increasing the water surface elevation more than a designated height.

Residential Zones. Zones where the primary permitted use is residential. Residential zones, within the use structure, may allow very limited compatible nonresidential uses, such as places of worship.

Residential Use. A structure designed and used or intended to be used for residential occupancy by one or more households, such as single-unit, two-unit, townhouse, and multi-unit dwellings. Multi-unit dwellings with ground floor nonresidential uses are considered mixed-use development, and are considered a nonresidential use for the purposes of this Code.

Right-of-Way. A strip of land dedicated for use as a public way. In addition to the roadway, it typically incorporates the curbs, tree lawn, sidewalks, and shoulders.

Riverine. Relating to, formed by, or resembling a river (including tributaries), stream, brook, etc.

Roofline. The top edge of a roof or building parapet, whichever is higher, excluding any cupolas, pylons, chimneys or minor projections.

Satellite Dish Antenna. A dish antenna designed for transmitting signals to a receiver or receiving station or for receiving television, radio, data, communication or other signals from other antennas, satellites or other services.

Setback. Defined in Section 38-10.

Setback, Corner Side. Defined in Section 38-10.

Setback, Front. Defined in Section 38-10.

Setback, Interior Side. Defined in Section 38-10.

Setback, Parking. Defined in Section 38-10.

Setback, Rear. Defined in Section 38-10.

Setback, Street. Defined in Section 38-10.

Shed. An accessory structure, often purchased pre-built or as a kit in pre-fabricated sections, that is not designed to be served by heat or plumbing and does not need to be placed on a permanent foundation. A shed is typically intended to store lawn, garden, or recreational equipment.

Short-Term Vacation Rental. See Article XVII.

Solar Panel. A photovoltaic device capable of collecting and converting solar energy into electricity.

Special Flood Hazard Area. The land in the floodplain within a community which is subject to a one percent or greater chance of flooding in any given year. The area may be designated as Zone A on the FHBM. After detailed ratemaking has been completed in preparation for publication of the FIRM, Zone A usually is refined into Zones A, AO, AH, A1-30, AE or A99.

Special Hazard Area. An area having special flood, mudslide (i.e., mudflow) and/or flood-related erosion hazards, and shown on an FHBM or FIRM as Zone A, AO, A1-30, AE, A99, or AH.

Stacking Space. A space specifically designed and designated as a waiting area for vehicles patronizing a drive-through facility or service bay.

Standpipe. A rigid vertical or horizontal pipe to which fire hoses can be connected, which may be building, ground, or roof mounted.

Start of Construction. The date the building permit was issued, provided the actual start of construction, repair, reconstruction, rehabilitation, addition, placement, or other improvement was within 180 days of the permit date. The actual start means either the first placement of permanent construction of a structure (including a manufactured home) on a site, such as the pouring of slabs or footings, the installation of piles, the construction of columns, or any work beyond the stage of excavation; and includes the placement of a manufactured home on a foundation. Permanent construction does not include initial land preparation, such as clearing, grading and filling; nor does it include the installation of streets and/or walkways; nor does it include excavation for a basement, footings, piers, or foundations or the erection of temporary forms; nor does it include the installation on the property of accessory buildings, such as garages or sheds, not occupied as dwelling units or not part of the main structure. For a substantial improvement, the actual start of construction means the first alteration of any wall, ceiling, floor, or other structural part of a building, whether or not that alteration affects the external dimensions of the building. Includes substantial improvements.

State Coordinating Agency. The Tennessee Emergency Management Agency, State NFIP Office, as designated by the Governor of the State of Tennessee at the request of FEMA to assist in the implementation of the NFIP for the State.

Stepback. In building height, a stepback is the required additional distance that upper stories of a structure must be recessed from the facade of the stories below.

Stoop. An exterior floor typically constructed of stone, concrete, and/or masonry, with a finished floor elevation higher than the adjacent ground level, often with steps leading up to it, and utilized primarily as an access platform to a structure. A stoop may be roofed and designed with railings, but cannot be enclosed.

Structural Alteration. Any change, other than incidental repairs, which would prolong the life of supporting members of a structure, such as the addition, removal, or alteration of bearing walls, columns, beams, girders, or foundations.

Structure. A combination of materials that form a construction for use, occupancy, or ornamentation, whether installed on, above, or below the surface of land or water.

Substantial Damage. For purposes of adopted flood regulations, means damage of any origin sustained by a structure whereby the cost of restoring the structure to its before-damaged condition would equal or exceed 50% of the market value of the structure before the damage occurred. Substantial damage also means flood-related damage sustained by a structure on two separate occasions during a ten year period for which the cost of repairs at the time of each flood event, on the average, equals or exceeds 25% of the market value of the structure before the damage occurred.

Substantial Improvement. For purposes of adopted flood regulations, for a building built prior to the enactment of floodplain regulations, any repair, reconstruction, or improvement of a building, the cost of which equals or exceeds 50% of the market value of the building either:

(1) Before the improvement or repair is started; or

(2) If the building has been damaged and is being restored before the damage occurred.

For the purposes of this definition, substantial improvement is considered to occur when the first alteration of any wall, ceiling, floor, or other structural part of the building commences, whether or not that alteration affects the external dimensions of the buildings. The term does not, however, include either:

(1) Any project for improvement of a building to comply with existing state or local health, sanitary, or safety code specifications which are solely necessary to assure safe living conditions.

(2) Any alteration of a building listed on the National Register of Historical Places or a State Inventory of Historic Places.

Substantially Improved Existing Manufactured Home Parks or Subdivisions. Is where the repair, reconstruction, rehabilitation or improvement of the streets, utilities and pads equals or exceeds 50% of the value of the streets, utilities and pads before the repair, reconstruction or improvement began.

Temporary Use. A use established for a limited duration with the intent to discontinue such use upon the expiration of the time period.

Transit-Oriented Development (TOD). The concentration of development nodes, consisting of mixed-use development located along designated public transit corridors and with convenient and easy access to public transit stations.

Transparency. The required amount of window area as a percentage of the specified facade area. Doors are included in ground floor transparency when such doors are designed with glass or other transparent materials. Garage entrances are not included in ground floor transparency.

(1) To qualify as transparent for the calculation, glazing must have a minimum of 60% VLT and no more than 20% VLR. These glazing minimums do not apply to single-unit and two-unit dwellings.

   (i) The following do not meet the ground floor or upper floor transparency requirements and do not count in meeting the standard:

   (ii) Windows with shadowboxes on the interior

   (iii) Glass block

   (iv) Printed window film, regardless of whether it allows views into or out of the building.

   (v) Translucent glass at the ground story.

(2) Visible Light Transmittance (VLT) and Visible Light Reflectance (VLR) are defined as:

(i) Visible Light Reflectance (VLR): The amount of visible light that is reflected out by a glazing system. A high VLR percentage blocks more daylight from passing through the window.

(ii) Visible Light Transmittance (VLT): The amount of light (daylight) that travels through a glazing system. A high VLT percentage allows more daylight to pass through.

(3) Ground story fenestration is measured between two and 12 feet above the abutting sidewalk.

(4) Upper story fenestration is measured from top of the finished floor to the top of the finished floor above. When there is not a floor above, upper story fenestration is measured from the top of the finished floor to the top of the wall plate above.

(5) Transom windows, even if located less than 12 feet above the abutting sidewalk, are not required to meet the ground floor transparency requirement.

Unified Control. The combination of two or more tracts of land wherein each owner has agreed that his tract of land will be developed under the same development approvals.

Use. The purpose or activity for which the land or structure is designed, arranged, or intended, or for which it is occupied or maintained.

Vehicle, Inoperable. A vehicle is classified as inoperable when any of the following applies:

(1) Lacks major or essential mechanical or body parts.

(2) Is junked or partially disassembled.

(3) Has been burned or flooded throughout.

(4) Cannot be driven legally on public streets under State law or City ordinance.

(5) Is otherwise incapable of moving under its own power.

(6) Does not comply with State and City Codes with respect to license and registration.

(7) Has one or more tires missing or not fully inflated.

(8) Is economically impractical to restore to operating condition.

Vehicle, Junk. Any rusted, wrecked, damaged, dismantled, or partially dismantled, inoperative, or abandoned motor vehicle in such a condition that it is economically infeasible to restore the vehicle to an operating condition.

Violation. For purposes of adopted flood regulations, means the failure of a structure or other development to be fully compliant with the community's floodplain management regulations. A structure or other development without the elevation certificate, other certification, or other evidence of compliance required in the adopted flood regulations is presumed to be in violation until such time as that documentation is provided.

Watercourse. A channel in which a flow of water occurs either continuously or intermittently in a definitive direction. The term applies to either natural or artificially constructed channels.

Waterfront. Areas adjacent to bodies of water, such as rivers and lakes.

Water Surface Elevation. The height, in relation to the National Geodetic Vertical Datum (NGVD) of 1929, the North American Vertical Datum (NAVD) of 1988, or other datum, where specified, of floods of various magnitudes and frequencies in the floodplains of riverine areas.

White Roof. A roof designed to deliver high solar reflectance, reducing heat transfer to the building and the ability to radiate absorbed, or non-reflected solar energy.

Yard. Defined in Section 38-10.

Yard, Front. Defined in Section 38-10.

Yard, Interior Side. Defined in Section 38-10.

Yard, Corner Side. Defined in Section 38-10.

Yard, Rear. Defined in Section 2.4.

Zoning Lot. A lot or combination of lots within a single block, which is designated by its owner or developer to be used, developed, or built upon as a unit. A zoning lot may coincide with a lot of record or may be comprised of one or more lots of record.
(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24; Ord. No. 14181, § 1, 12-17-24; Ord. No. 14330, § 1, 2-17-26; Ord. No. 14298, § 1, 12-2-25)

Sec. 38-10. Rules of Measurement

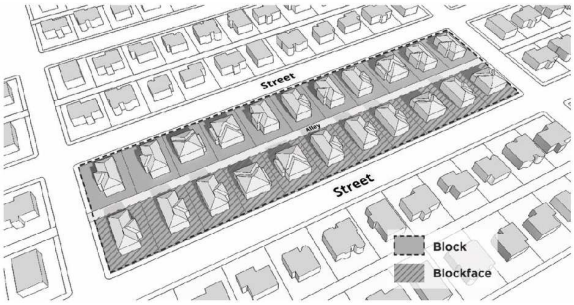
This section provides the rules of measurement for the dimensional standards and locational characteristics within the Code.

(a) **Block and Blockface**

(1) A block is a tract of land bounded by streets, or a combination of streets and railroad rights-of-way or municipal boundary lines.

(2) Blockface is measured as that portion of a block or tract of land facing the same side of a single street and lying between the closest intersecting streets.

BLOCK AND BLOCKFACE



(b) **Build-To Dimensions**

Certain dimensional requirements with the zones require structures to be constructed at a build-to dimension. A build-to requirement is a boundary or alignment, parallel to a lot line, where a structure must be placed. This Code includes the following build-to dimensions:

(1) **Build-To Zone (BTZ)**

A build-to zone (BTZ) is the area on a lot, measured perpendicular from the applicable lot line, where the building must locate within the minimum and maximum range of setback provided. The building facade must be located within the build-to zone.

(2) **Build-Out Percentage (BO%)**

A build-out percentage specifies the percentage of the total lot width that must be occupied by the building facade.

(3) **Build-To Percentage (BT%)**

A build-to percentage specifies the percentage of the building facade that must be located within the build-to zone. Build-to percentage is calculated by building facade, not lot width.

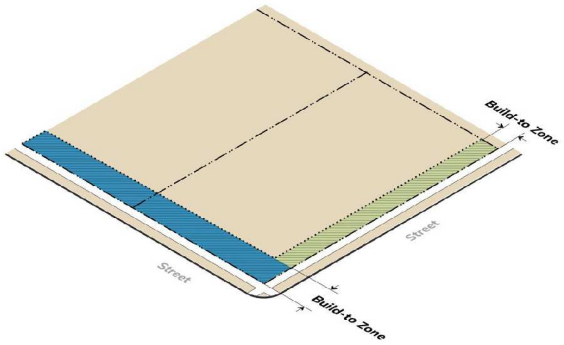
(i) Facade articulation elements, such as window or wall recesses and projections, are included in the calculation of a required build-to percentage.

(ii) Programmed outdoor spaces and outdoor dining areas that are bounded by a building facade parallel to the frontage are included in the calculation of a required build-to percentage.

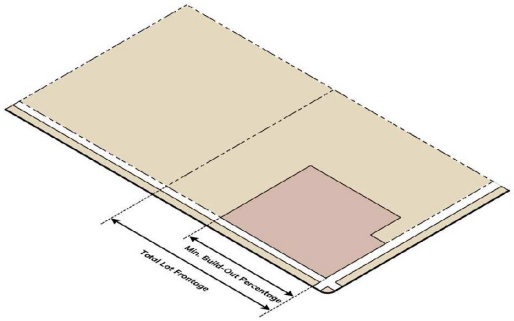
(iii) Open space bounded on three sides by a building, such as courtyards, are included in the calculation of a required build-to percentage.

(iv) On a corner lot, a building facade must be placed within the minimum and maximum setback range for the first 30 feet along the street extending from the block corner, measured from the intersection of the two right-of-way lines.

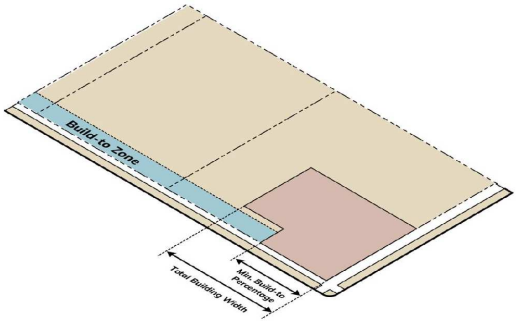
BUILD-TO ZONE (BTZ)



BUILD-OUT PERCENTAGE (BO%)



BUILD-TO PERCENTAGE (BT%)



(c) Building Coverage

Building coverage is the area of a lot covered by roofed buildings and structures measured from the outside of the exterior wall at the ground floor, including covered porches and patios, detached accessory structures, and any projecting structures above ground level.

(1) For covered porches and patios, the entire area under the roof is calculated as building coverage.

(2) Building coverage does not include: uncovered paved parking areas and driveways; uncovered walkways; roof overhangs; swimming pools; uncovered steps, terraces, and decks; and architectural projections.

(d) Building Height

(1) Maximum building height is measured from grade plane to:

(i) The mean height between eaves and ridge for gable and hip roofs.

(ii) The deckline for mansard roofs.

(iii) The midpoint of the highest pitched section of a gambrel roof.

(iv) The highest point of the roof for flat roofs with parapet walls of six feet in height or less. When parapet walls exceed six feet in height, the highest point of the parapet wall.

(2) The following structures or parts thereof are exempt from maximum height limitations, unless otherwise limited by any height restriction imposed by any airport authority, or other similar federal, state, or local authority.

(i) Public utility poles, towers, and wires. Public utilities do not include wireless telecommunications, solar panels, and wind turbines unless operated by a government agency.

(ii) Water and wastewater tanks and standpipes.

(iii) Building appurtenances such as chimneys, parapet walls, skylights, steeples, flag poles, smokestacks, cooling towers, elevator bulkheads, fire towers, monuments, water towers, stacks, stage towers, or scenery lofts, tanks, ornamental towers and spires, rooftop accessory structures, recreational facilities, necessary mechanical appurtenances, or penthouses to house mechanical appurtenances.

BUILDING HEIGHT

(e) Grade Plane

(1) A reference plane representing the average of finished ground level adjoining the building at exterior walls.

(2) Where the finished ground level slopes away from exterior walls, the reference plane is established by the lowest points within the area between the building and the lot line or, when the lot line is more than six feet from the building, between the building and a point six feet from the building.

(f) Gross Floor Area (GFA)

The gross floor area (GFA) of a structure is the sum of the gross horizontal areas of all floors of the structure as measured from the exterior faces of the exterior walls or from the centerline of walls separating two buildings.

(g) Ground Floor Elevation

Ground floor elevation is measured from top of the adjacent curb, or from the crown of the road where no curb exists, to the top of the finished ground floor.

(h) Lot

A lot is the basic development unit for determination of lot area, depth, and other dimensional regulations; or a parcel of land whose boundaries have been established by some legal instrument such as a recorded deed or recorded map and which is recognized as a separate legal entity for purposes of transfer of title. The following describes the types of lot configurations:

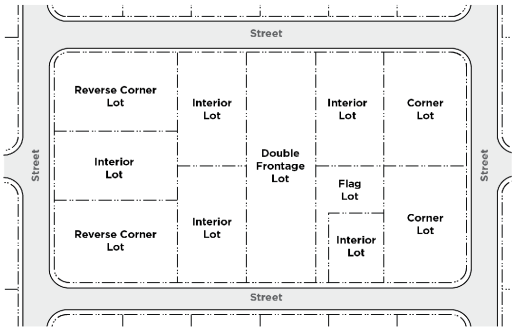
(1) An interior lot is a lot other than a corner or double frontage lot, bounded by two interior side lot lines.

(2) A corner lot is a lot situated at the junction of, and abutting on, two or more intersecting streets.

(3) A double frontage lot is a lot which fronts upon two parallel streets, or which fronts upon two streets which do not intersect at the boundaries of the lot. A double frontage lot is also called a through lot.

(4) A flag lot is platted so that the main building site area (the "flag") is set back from the street on which it fronts and includes an access strip (the "pole") connecting the main building site with the street. No new flag lots, with frontage less than the required minimum, are allowed in the City of Chattanooga.

LOT TYPES



(i) Lot Area

The total area within the boundaries of a lot, excluding any street right-of-way.

(j) Lot Line

A line of record bounding a lot, as indicated on an approved, filed, and recorded subdivision plat, which divides one lot from another lot or from a public or private street or any other public or private space and includes:

(1) A front lot line is the lot line separating a lot from a street right-of-way. The front lot line of a corner lot is the shortest street lot line of a corner lot abutting a street. A front lot line for a double frontage lot is both lot lines that abut a street.

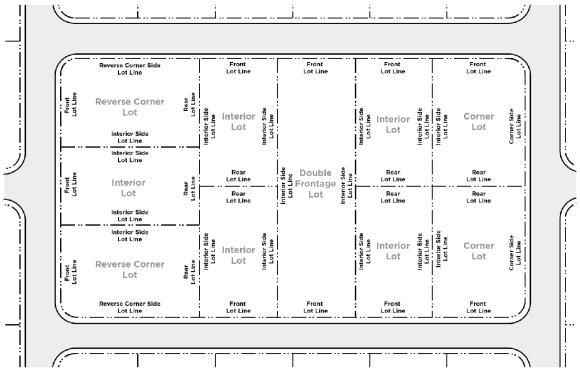
(2) A rear lot line is the lot line opposite and most distant from the front lot line. In the case of triangular or similarly irregularly shaped lots, the rear lot line is a calculated line of ten feet in length entirely within the lot, parallel to and at a maximum distance from the front lot line.

(3) On a corner lot, the corner side lot line and reverse corner side lot line is perpendicular or approximately perpendicular to the front lot line and is the longer street abutting lot line of a corner lot.

(4) On an interior lot, the interior side lot line is perpendicular or approximately perpendicular to the front lot line and abuts an adjacent lot.

(5) A street lot line is any lot line separating a lot from a street right-of-way.

LOT LINES



(k) Lot Width

Lot width is measured at the required front setback of the zone. Where the front setback of the zone is a build-to zone (BTZ), the furthest dimension of the build-to zone is used to measure lot width.

(l) Yards and Setbacks

(1) General Definitions

(i) A yard is the area between the building line of a principal building and the lot line.

(ii) A required setback is the required minimum distance a principal building must be located from a lot line, which is unoccupied and unobstructed by any projections of a principal building, with the exception of permitted encroachments allowed by this Code.

a. A build-to zone is considered a required setback. In the case of a build-to zone, the setback is the defined area (defined by minimum and maximum build-to lines) where the principal building must be located.

(iii) A setback may be equal to or less than a yard.

(iv) A setback is located along the applicable lot line for the minimum depth specified by the zone in which such lot is located.

(2) Front Yard and Front Setback

The front yard and front setback extend the full width of the lot between side lot lines measured perpendicular to the front lot line.

(i) Front Yard: A front yard is the area located between a principal building line and the front lot line.

(ii) Front Setback: A front setback is the required minimum distance per the zone that a principal building must be located from the front lot line.

(iii) For flag lots, the front yard and setback is measured from the rear lot line of the lot that separates the flag portion of the lot from the street.

(iv) Front setback averaging is calculated by averaging the front setback of two adjacent lots on either side of the subject lot. In the case of a lot near or at the end of the block, the total number of lots averaged must equal four lots total along that blockface, beginning with the lot or lots adjacent.

(3) Interior Side Yard and Interior Side Setback

The interior side yard and interior side setback extend along the interior side lot line between the front and rear yard or setback, measured perpendicular to the interior side lot line.

(i) Interior Side Yard: An interior side yard is the area located between a principal building line and the interior side lot line.

(ii) Interior Side Setback: An interior side setback is the required minimum distance per the zone that a principal building must be located from the interior side lot line.

(iii) For single-unit attached dwellings, the interior side yard and interior side setback are only applicable to the side of the unit with no shared wall attachment to another unit. For townhouse developments, the interior side yard and interior side setback are only applicable to end units of the overall townhouse building.

(4) Corner Side Yard and Corner Side Setback

The corner side yard and corner side setback extend along the corner side lot line between the front yard or front setback and the rear lot line, measured perpendicular to the corner side lot line.

(i) Corner Side Yard: A corner side yard is the area located between a principal building line and the corner side lot line.

(ii) Corner Side Setback: A corner side setback is the required minimum distance per the zone that a principal building must be located from the corner side lot line.

(5) Reverse Corner Side Yard and Reverse Corner Side Setback

The reverse corner side yard and reverse corner side setback extend along the corner side lot line between the front yard or front setback and the rear lot line, measured perpendicular to the reverse corner side lot line.

(i) Reverse Corner Side Yard: A reverse corner side yard is the area located between a principal building line and the corner side lot line.

(ii) Reverse Corner Side Setback: A reverse corner side setback is the required minimum distance per the zone that a principal building must be located from the reverse corner side lot line.

(6) Rear Yard and Rear Setback

The rear yard and rear setback extend between interior side lot lines, measured perpendicular to the rear lot line.

(i) Rear Yard: A rear yard is the area located between a principal building line and the rear lot line.

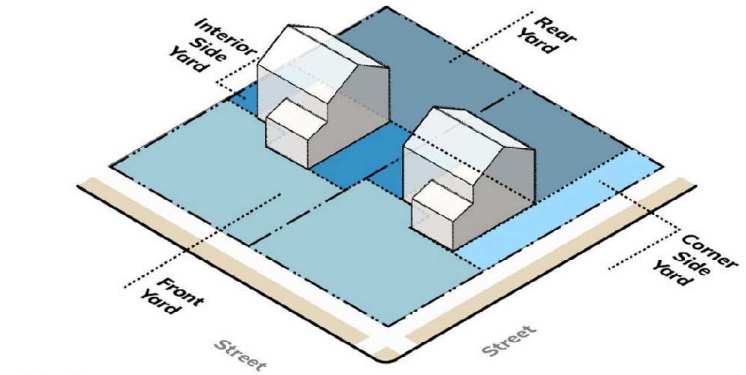
(ii) Rear Setback: A rear setback is the required minimum distance per the zone that a principal building must be located from the rear lot line.

(iii) In the case of a corner lot, the rear yard and rear setback extend between the interior side lot line to the required corner side setback, measured perpendicular to the rear lot line.

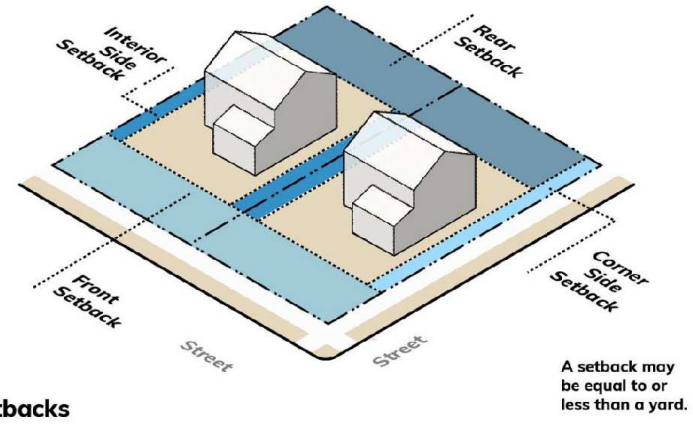
(7) Yard and Setback Requirements for Double-Frontage Lots

For double-frontage lots, both the front and the rear required setbacks must meet the required front setback of the zone. In the case of a double-frontage lot, one of the front setbacks are considered a rear yard for the purposes of applying the accessory structure regulations of this Code; the required dimension of the front setback still applies.

SETBACKS AND YARDS

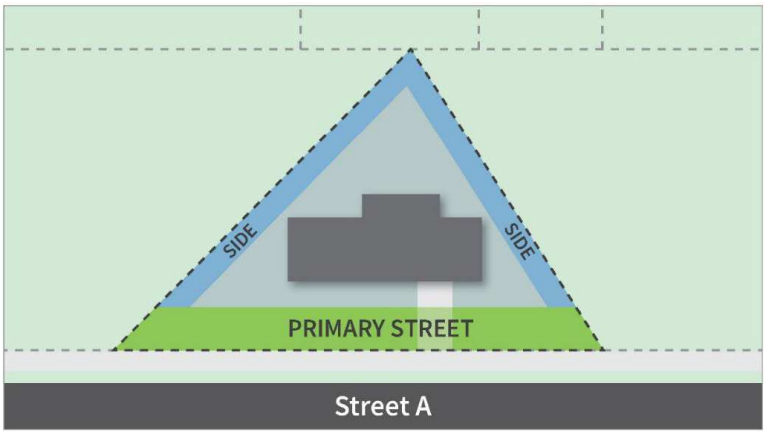


Yards

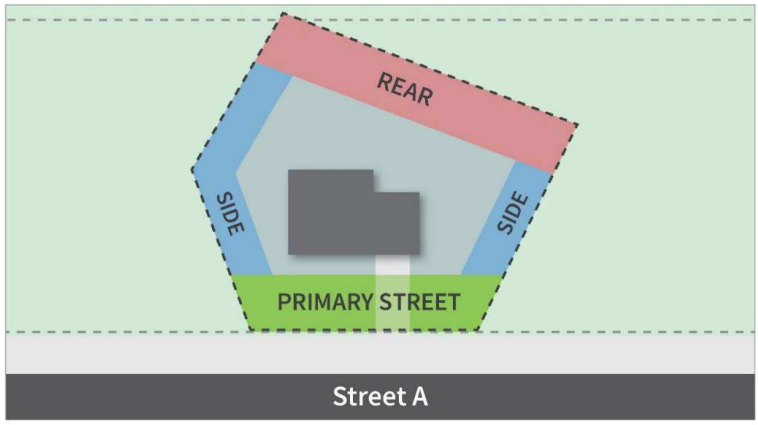


Setbacks

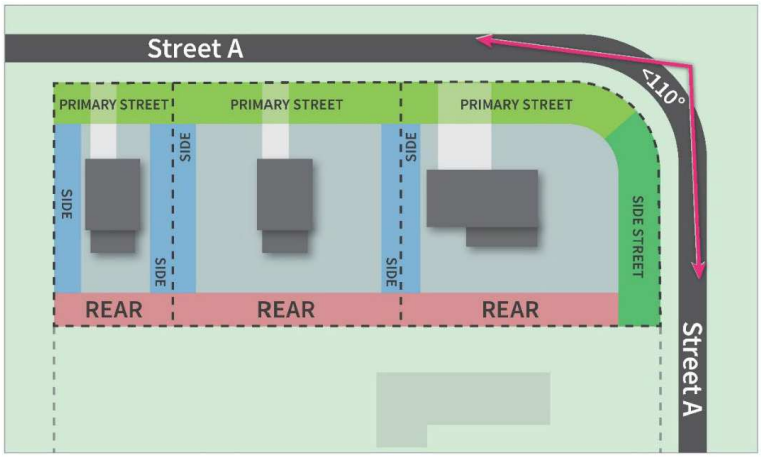
(8) Setbacks for Irregular Shaped Lots.



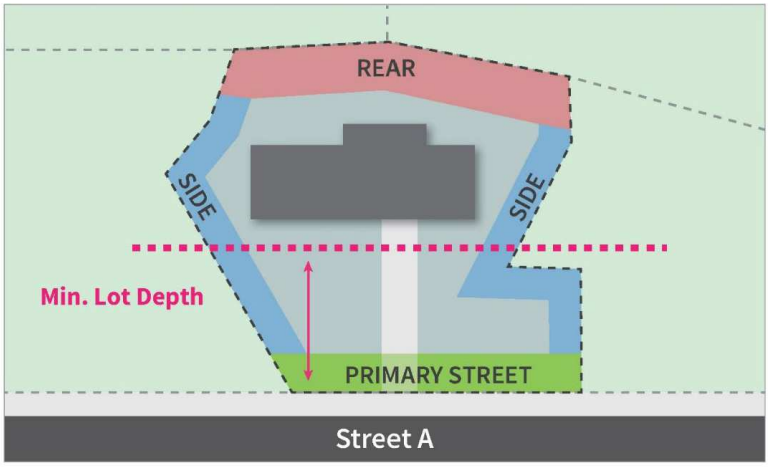
a. In instances where a lot has no definable rear property line (e.g. triangular shaped lot), there is no rear setbacks.



b. On irregularly shaped lots, the rear lot line is opposite or approximately opposite to the front lot line. The side lot lines are perpendicular or approximately perpendicular to the front lot line.



c. In instances where a lot has a curved frontage so that any two adjacent 100-foot chords thereof form an angle of 110 degrees or less, as measured along the centerline of the street, the lot shall be determined to be a corner lot.



d. On irregularly shaped lots, lot lines parallel or opposite the primary street will be considered to be side lot lines when the lot line is closer to the primary street than the minimum depth.

(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24; Ord. No. 14320, § 1, 1-20-26)

ARTICLE III. ZONES & ZONING MAP

Sec. 38-11. Zones

In order to carry out the purpose and intent of this Code, the City is divided into the following zones:

(a) Residential Zones

RN-1-7.5 Residential Neighborhood Zone

RN-1-6 Residential Neighborhood Zone

RN-1-5 Residential Neighborhood Zone

RN-1-3 Residential Neighborhood Zone

RN-2 Residential Neighborhood Zone

RN-3 Residential Neighborhood Zone

TRN-1 Traditional Residential Neighborhood Zone

TRN-2 Traditional Residential Neighborhood Zone

TRN-3 Traditional Residential Neighborhood Zone

TRN-4 Traditional Residential Neighborhood Zone

(b) Mixed-Use and Commercial Zones

C-NT Neighborhood Transition Commercial Zone

C-N Neighborhood Commercial Zone

C-TMU Transitional Mixed-Use Commercial Zone

C-C Commercial Corridor Zone

C-R Regional Commercial Zone

C-MU1 Commercial Mixed-Use 1 Zone

C-MU2 Commercial Mixed-Use 2 Zone

(c) Form-Based Code Zones

See Article VI

(d) Industrial Zones

I-L Light Industrial Zone

I-H Heavy Industrial Zones

I-X Industrial Extraction Zone

I-MU Industrial Mixed-Use Zone

(e) Special Purpose Zones

A-1 Urban Agricultural Zone

INST Institutional Zone

OS Open Space Zone

R-MH Manufactured Home Zone

TOD Transit-Oriented Development Overlay Zone

Lovell Field Gateway Overlay Zone

FAA Aviation Overlay Zone

Airport Use Zone

F/W Floodway

F/H Flood Hazard
(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24)

Sec. 38-12. Zoning Map

(a) Establishment of the Official Zoning Map

(1) The location and boundaries of the zones established by this Code are shown and maintained as part of the Geographic Information System (GIS) of the Chattanooga-Hamilton County Regional Planning Agency (RPA). The RPA also has the responsibility for maintenance of the Official Zoning Map.

(2) The zoning GIS layer constitutes the City of Chattanooga's Official Zoning Map and is incorporated into, and the same is made a part of this Code by reference, and upon its introduction and passage, is an effective and operative part thereof.

(3) The Executive Director of the Regional Planning Agency, or their designee, will revise the Official Zoning Map when amendments are passed by the governing body.

(4) No unauthorized person may alter or modify the Official Zoning Map. Errors in the Official Zoning Map will be corrected as they are discovered, and the corrected information shown on the GIS system.

(b) Interpretation of Boundary Lines

(1) Where a zone boundary line is shown as being within or along a public or private right-of-way, or an extension, or as being within or along a non-navigable stream, the boundary is the centerline of that right-of-way, or extension, or stream.

(2) When a public or private right-of-way is abandoned then the new zone boundary line is the prior centerline of that former right-of-way.

(3) When a public or private right-of-way is abandoned then the new zone boundary line is the prior centerline of that former right-of-way.

(4) Where a zone boundary line is shown as along a lot line, the boundary is that lot line.

(5) Where the location of a zone boundary line is designated by a number of feet, that distance controls.

(6) Where a zone boundary line is shown as being along a railroad right-of-way, the boundary line of that railroad right-of-way controls.

(7) Where a zone boundary line is shown as along a navigable waterway and is not otherwise fixed, the boundary is the centerline of the waterway.

(8) Unless specified otherwise by the amending ordinance, overlay zone boundaries on the Official Zoning Map that approximately follow zone lines are interpreted as being coincident with those zone lines.

(9) Where the application of the interpretation rules leaves a reasonable doubt as to the boundaries between two zones, the regulations of the more restrictive zone govern the entire parcel in question, unless otherwise determined by the Board of Appeals.

(c) Administrative Mapping Errors

Where it is determined that due to an administrative error, the Official Zoning Map zone boundary which encompasses property that was never intended to be included or fails to depict property which was

intended to be included in the zone boundary, and such determination is supported by official documentation, the Executive Director of the Regional Planning Agency, or their designee, may modify the Official Zoning Map to accurately reflect the proper zone boundary.
(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24; Ord. No. 14297, § 1, 12-2-25; Ord. No. 14297, § 1, 12-2-25)

Sec. 38-13. Zoning for Newly Annexed Areas

Property annexed to the City of Chattanooga shall be temporarily reclassified from its former zoning classification to its most equivalent zone. The temporary classifications shall be and remain in full force and effect during the interim period between the effective date of the annexation and the adoption of an official zoning plan for the area by the City Council, as hereinafter provided, and the building inspector may issue building permits during said interim based upon such temporary zoning.

The Planning Commission, within 90 days of the effective date of annexation, will recommend a zoning plan for newly annexed areas of the City to the City Council. Following the receipt of the Planning Commission recommendation, the City Council, after giving notice as required in Article XV regarding amendments, will adopt a zoning plan as an amendment to the Official Zoning Map for the newly annexed area.
(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24)

ARTICLE IV. RESIDENTIAL ZONES

Note: (a) Developments participating in the Voluntary Incentives Program are subject to the lot area standard reductions and maximum height increases as detailed in Article XIX. Voluntary Incentives Program, Sec. 38-106 Incentives.

Sec. 38-14. Purpose

(a) RN-1-7.5 Residential Neighborhood Zone

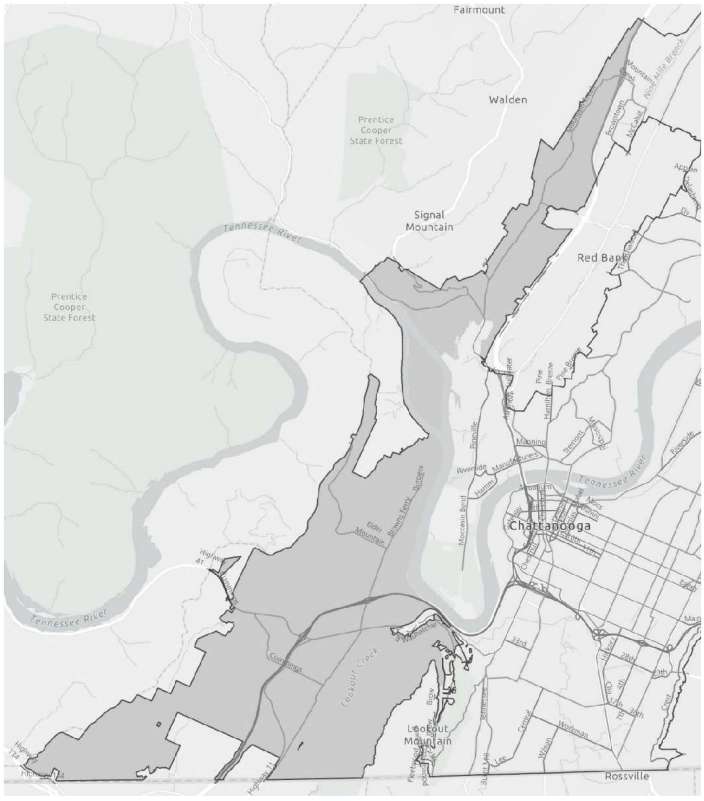
The RN-1-7.5 Residential Neighborhood Zone is intended to accommodate the special nature of the City's valleys, ridges, creeks and the Tennessee River that may limit the defined area's connectivity to the rest of the City's transportation and/or sewer infrastructure network. This zone accommodates those limitations by maintaining the neighborhood environment, which is predominantly characterized by single-unit homes, many of which are or will be developed with septic, on lots of 7,500 square feet or greater.

The area designated for this zone is geographically constrained as follows:

Beginning at the southwesternmost point of the City of Chattanooga boundary, thence continuing eastwardly along said boundary some 125,139 feet to its intersection with the northern side of the of the Incline Railroad Right-of-way; thence some 565 feet east along said right-of-way to a point in the City of Chattanooga boundary; thence following said boundary north some 2,412 feet to its intersection with the western side of the Hardy Trail; thence following said road northwest some 52 feet to its intersection with the western side of Cravens Road; thence continues north along said road some 653 feet to a point in the City of Chattanooga boundary; thence follows said boundary northwest for some 2,880 feet to its intersection with Cravens Road; thence follows said road on its southern side southeast some 810 feet to a point in the City of Chattanooga boundary; thence follows said boundary northwest some 2,670 feet to a point in said boundary; thence continues northeast some 81 feet from said point to its intersection with Cummings Highway; thence follows the southern edge of said road northwest some 435 feet to a point in the City of Chattanooga boundary; thence follows said boundary northwest some 13,041 feet to a point on the boundary; thence continues northeast some 230 feet to the western edge of the Tennessee

River; thence follows northwest along the western edge of said river for some 16,758 feet; thence continues north across the river some 858 feet to the eastern side of Williams Island; thence continues along said island for approximately 6,231 feet; thence continues across the Tennessee River northeast some 786 feet to its intersection with Baylor Lake stream; thence follows along the northern edge of Baylor Lake stream northwest some 612 feet to its intersection with Baylor Lake; thence follows along the northern edge of the Baylor Lake east some 1,628 feet to its intersection with Mountain Creek; thence follows along the northern edge of Mountain Creek some 4,455 feet north to its intersection with Signal Mountain Road; thence follows along the western side of said road some 230 feet south to its intersection with Mundy Street; thence follows the southern side of said street east some 678 feet to its intersection with Runyan Drive; thence follows said road south some 3,886 feet to its intersection with Highway 127; thence follows said road some 749 feet southeast to its intersection with a point in the City of Chattanooga boundary; thence follows along said boundary northwest some 27,957 feet until its intersection with US Highway 27; thence follows said road north along the western edge to its intersection with the City of Chattanooga boundary; thence follows said boundary south until it meets back at the point of origin for the RN-1-7.5 boundary.

The City of Chattanooga boundary is as of 05/30/2024.



(b) RN-1-6 Residential Neighborhood Zone

The RN-1-6 Residential Neighborhood Zone is intended to accommodate a neighborhood environment predominantly characterized by single-unit homes on lots of 6,000 square feet or greater.

(c) RN-1-5 Residential Neighborhood Zone

The RN-1-5 Residential Neighborhood Zone is intended to accommodate a neighborhood environment predominantly characterized by single-unit homes on lots of 5,000 square feet or greater.

(d) RN-1-3 Residential Neighborhood Zone

The RN-1-3 Residential Neighborhood Zone is intended to accommodate single-unit homes on lots of 3,000 square feet or greater.

(e) RN-2 Residential Neighborhood Zone

The RN-2 Residential Neighborhood Zone is intended to accommodate a neighborhood environment characterized by a mixture of single-unit homes—both attached and detached—and two-unit homes and townhouse dwellings.

(f) RN-3 Residential Neighborhood Zone

The RN-3 Residential Neighborhood Zone is intended to accommodate mixed residential neighborhoods consisting of a range of dwelling types that may include single-unit—both attached and detached, two-unit, townhouse, and multi-unit dwellings.

(g) TRN-1 Traditional Residential Neighborhood Zone

The TRN-1 Traditional Residential Neighborhood Zone is intended to accommodate a neighborhood environment with a mixture of dwelling types that may include single-unit—both attached and detached, two-unit, three-unit, and four-unit dwellings.

(h) TRN-2 Traditional Residential Neighborhood Zone

The TRN-2 Traditional Residential Neighborhood Zone is intended to accommodate a neighborhood environment consisting of a mix of dwelling types that may include single-unit—both attached and detached, two-unit, three-unit, four-unit, and townhouse dwellings. Small multi-unit dwellings of no more than six units are also allowed.

(i) TRN-3 Traditional Residential Neighborhood Zone

The TRN-3 Traditional Residential Neighborhood Zone is intended to accommodate a neighborhood environment characterized by a mixture of single-unit—both attached and detached, two-unit, three-unit, four-unit, townhouse, and multi-unit dwellings.

(j) TRN-4 Traditional Residential Neighborhood Zone

The TRN-4 Traditional Residential Neighborhood Zone is intended to accommodate a dense neighborhood environment characterized by a mixture of townhouse and multi-unit dwellings.
(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24)

Sec. 38-15. Uses

(a) Article IX lists principal, temporary, and accessory uses allowed within the residential zones.

(b) Residential homes for persons with a disability and/or aged persons and compliance with Federal Law.

The City of Chattanooga has entered into a Consent Decree with the United States of America in United States of America v. City of Chattanooga, Case No. 1:23-CV-258, E.D. Tenn. 2023. Pursuant to that Consent Decree, all city housing and zoning provisions shall comply with the following language contained in Section 15 as follows:

(1) Persons with disabilities shall not be denied housing opportunities on the basis of disability, nor shall they be excluded from participation in or denied the benefits of the City's services, programs, or activities, or otherwise be subjected to discrimination through the administration of the City's land development or zoning practices;

(2) Housing providers for persons with disabilities seeking approval for uses allowed by right under Tennessee state law and/or local land use or zoning laws shall not be subjected to needless or unduly burdensome administrative hurdles, including the requirement to obtain unnecessary special use permits or other approvals;

(3) All residences comprised of related or unrelated persons with disabilities shall operate as of right in all residential zoning districts in the City to the same extent and under the same terms and conditions as residences comprised of non-disabled persons;

(4) The provisions required by this section shall protect residences that house persons with disabilities, regardless of whether they operate on a commercial basis or non-profit basis as long as such residences meet the requirements of the number of persons set forth in this section;

(5) Related and/or unrelated persons with disabilities shall be included in the definition of family in the City's Zoning Ordinance to no lesser extent than individuals without disabilities;

(6) The protections afforded to housing for persons with disabilities under Tenn. Code Ann. § 13-24-101 et seq. shall apply to all residences, whether temporary or permanent, including transitional and other forms of supported housing; and

(7) The provisions required by this section shall protect persons with disabilities who have mental illness, subject to the exceptions set forth in Tenn. Code Ann. § 13-24-101, intellectual disabilities, or emotional disabilities to the same extent that it protects persons with disabilities or conditions other than mental illnesses, intellectual disabilities, or emotional disabilities to the extent that they are protected under State and Federal law.

(c) In addition to use standards that may be applicable to allowed principal, temporary, and accessory uses within the residential zones, Article IX contains specific controls on multi-unit and townhouse development as follows.

(1) Section 9.3.M contains limitations on the number of units within a multi-unit development in the TRN-2 Zone.

(2) Section 9.3.M contains limitations on the number of attached units within a townhouse development in the TRN-2 Zones.

(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24)

Sec. 38-16. Residential Zone Dimensional Standards

(a) Table 38-16.1: Residential Zone Dimensional Standards establishes the dimensional standards for the residential zones. These regulations apply to all uses within each zone unless a different standard is listed for a specific use.

1. Minimum Suburban Infill Lot Frontage for RN-1-7.5: The minimum frontage and for Suburban Infill Lots shall be determined as follows:

Applicability. The Minimum Suburban Infill Lot Frontage Regulations shall apply only to:

a. Lots zoned RN-1-7.5.

b. Proposed lot frontage is less than one hundred twenty (120) feet.

c. Lots fronting an existing public street.

d. Lots served by sewers.

2. Exceptions. This rule shall not apply to:

a. Planned Unit Developments (PUDs).

b. Lots created on a new street.

c. The consolidation of lots.

d. Lots at the terminus of permanent dead-end streets with thirty-five (35) feet of street frontage or more.

e. Lots that are a combination of existing lots where all of the lots are as large or larger than the previous lots and have equal or greater frontage than the previous lots.

3. Compatible Lots. The following properties shall be used to determine the block character for purposes of establishing lot compatibility:

a. Lots with on the same and opposing block face within three hundred (300) feet of the boundary of the boundary of the property proposed to be subdivided.

b. Lots abutting each quadrant of an intersection when the proposal involves a corner lot; and

c. Lots that abut or are directly across a public way, but not to the rear of the property, from the property proposed to be subdivided.

4. Excluded Lots. The following properties shall not be used to determine the block character for purposes of establishing lot compatibility:

a. Properties zoned non-residential or multi-family.

b. Properties zoned from single-family, but used for legal non-residential uses or other legal non-conforming uses.

c. Properties where development continuity cannot be provided due to a natural or man-made barrier, including but not limited to, arterial or collector streets, public land, railroad right-of-way, waterways, or

d. Properties that face a block face within a non-residential zoning district.

e. Interior lots located to the rear of another lot but with a narrow portion extending to the street when that narrow portion is less than the frontage required by the Chattanooga Zoning Ordinance.

5. Lot Frontage Compatibility Calculation. New residential infill lots shall have a minimum lot frontage that is no smaller than the smallest frontage on the same and opposing block face within three hundred (300) feet of the lot to be subdivided.

a. The new infill lot frontage is not required to exceed one hundred twenty (120) feet.

b. The new infill lot frontage shall not be less than 60'.

c. Each lot frontage shall be the actual access to the property as well as the legal access (e.g. — no sole access via common easement).

6. Applications for variances to the minimum lot frontage compatibility calculation and minimum Suburban Infill front yard setback, shall be made to the Board of Appeals.

(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24; Ord. No. 14169, § 1, 11-19-24; Ord. No. 14181, § 1, 12-17-24; Ord. No. 14202, § 1, 2-18-25; Ord. No. 14238, § 1, 5-20-25; Ord. No. 14253, § 1, 7-15-25)

Sec. 38-17. Additional Standards

(a) General Site Development Standards

See Article X for additional on-site development standards and requirements.

(b) Accessory Structures

See Article XI for accessory structure standards and requirements.

(c) Parking, Loading, and Access

See Article XII for parking, loading, and access standards and requirements.

(d) Landscape

See Article XIII for landscape, buffer, and screening standards and requirements.
(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24)

ARTICLE V. MIXED-USE & COMMERCIAL ZONES

Sec. 38-18. Purpose

(a) C-NT Neighborhood Transition Commercial Zone

The C-NT Transition Zone is intended to accommodate low intensity office and service uses as well as single-unit dwellings. The C-NT Zone also accommodates conversions of existing single-unit detached dwellings to commercial uses, creating a unique mixed-use character. The zone serves as a transition between residential neighborhoods and higher intensity commercial areas.

(b) C-N Neighborhood Commercial Zone

The C-N Neighborhood Commercial Zone is intended to accommodate convenience commercial and personal services that serve nearby residential neighborhoods. The C-N Zone is generally located within neighborhoods and maintains pedestrian connections to adjacent residential areas.

(c) C-TMU Transitional Mixed-Use Commercial Zone

The C-TMU Transitional Mixed-Use Commercial Zone accommodates a moderately intense mix of commercial and residential uses, supporting and serving as a transitional area between neighborhoods and more intensely developed commercial or mixed-use areas.

(d) C-C Commercial Corridor Zone

The C-C Commercial Corridor Zone is intended to accommodate commercial development along corridors with a mixture of residential, commercial, service, and institutional uses, that serve the adjacent neighborhoods and the community at large.

(e) C-R Regional Commercial Zone

The C-R Regional Commercial Zone is intended to accommodate more auto-oriented commercial activities, which attract a regional consumer base. The C-R Zone is generally located along major commercial arterials. Townhouse and multi-unit dwellings are allowed in the CR Zone.

(f) C-MU Commercial Mixed-Use Zone

The C-MU Commercial Mixed-Use Zone accommodates traditional urban mixed-use development, with a mix of commercial and residential uses in a predominantly vertically mixed-use form. In order to address the different characteristics of this zone within the City, two C-MU Subzones are established: the C-MU1 Zone and the C-MU2 Zone. The primary distinction between these two subzones is permitted height and the associated development intensity, with the C-MU2 Zone being the most intense.
(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24)

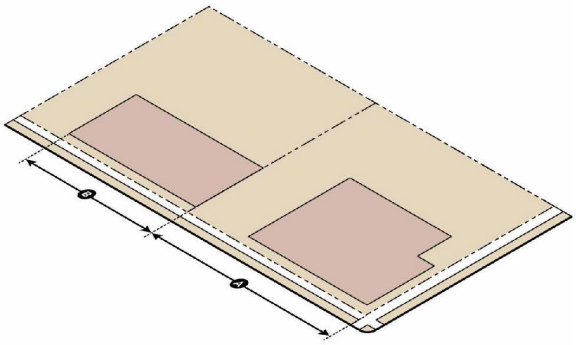
Sec. 38-19. Uses

Article IX lists principal, temporary, and accessory uses allowed within the mixed-use and commercial zones.
(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24)

Sec. 38-20. Mixed-Use and Commercial Zones Dimensional Standards

Table 38-20.1: Mixed-Use and Commercial Zones Dimensional Standards establishes the dimensional standards for the mixed-use and commercial zones. These regulations apply to all uses within each zone unless a different standard is listed for a specific use. Developments participating in the Voluntary Incentives Program are subject to the lot area standard reductions and maximum height increases as detailed in Article XIX. Voluntary Incentives Program, Sec. 38-106 Incentives.

LOT STANDARDS DIAGRAM



A = Lot Width

(Ord. No. 14256, § 1, 7-22-25)

Sec. 38-21. Mixed-Use and Commercial Development Standards

(a) Applicability

(1) The development standards of this Table 38-21.1: Mixed-Use and Commercial Zone Design Standards apply to nonresidential and mixed-use developments in mixed-use and commercial zones. Residential dwellings are not subject to these design standards but rather subject to the design standards included within the use standards of the dwelling type in Article IX.

(2) Development standards apply to new construction and additions with the following exceptions:

(i) Additions in the C-NT and C-N Zones.

(ii) Conversion of an existing single-unit dwelling to a nonresidential or live/work use in the C-NT Zone.

(3) When standards indicate that they are applicable when facing a street, this includes public and private streets and does not include existing alleys.

(4) Any diagrams of these standards that may be included are for illustrative purposes only.

(b) Development Standards

In Table 38-21.1: Mixed-Use and Commercial Zone Design Standards, a "✓" indicates that the standard is applicable in the zone indicated. The absence of a "✓" indicates that the standard does not apply to the zone.

Table 38-21.1: Mixed-Use and Commercial Zone Development Standards								
		C-NT	*C-N*	*C-TMU*	*C-C*	*C-R*	*C-MU1*	*C-MU2*
Orientation								
1	For single-tenant developments, a minimum of one prominent entrance on a façade facing a street is required. For multi-tenant developments, a prominent entrance is required for each individual nonresidential tenant facing a street.		✓	✓	✓		✓	✓

Table 38-21.1: Mixed-Use and Commercial Zone Development Standards								
		C-NT	*C-N*	*C-TMU*	*C-C*	*C-R*	*C-MU1*	*C-MU2*
2	All buildings must have one prominent entrance along a façade facing a street. On a corner lot, only one street-facing façade must have a prominent entrance.					✓		
3	Where vehicle parking is accessed from an alley, an entrance to the building must be located and clearly marked on that façade facing an alley unless a pedestrian path is designed and has appropriate signage to direct pedestrians to the front entrance.		✓	✓	✓		✓	✓
Roof Design								
4	Reflective roof surfaces that produce glare are prohibited, except for cool roofs intended to radiate absorbed or non-reflected solar energy and reduce heat transfer to the building.		✓	✓	✓	✓	✓	✓
5	Green roof, blue roof, and white roof designs are permitted.		✓	✓	✓	✓	✓	✓

(c) Building Materials

None of the following building materials, or any combination of the following building materials, shall exceed 25% of any facade. They may also be used as a component of construction when not a surface finish material without limitation.

(1) Plain concrete block

(2) Mirrored glass

(3) Exposed aggregate (rough finish) concrete wall panels

(4) Exterior insulating finish systems (EIFS)

(5) Wood structural panel sheathing (e.g., plywood, OSB, particleboard, etc.)

(6) Plastic, not including light transmitting plastic

(7) Vinyl

(8) Metal panels unless they meet the following requirement: Metal panels (flat, textured, corrugated, batten, box rib, etc.) whether standalone, composite, or part of a layered or insulated panel, are permitted provided they are part of a complete, manufacturer warrantied cladding system, including integral anchorage to structural supports. Steel panels must be minimum US Standard 26 gauge. Metal panels that meet this requirement are permitted as surface finish material without limitation.

(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24; Ord. No. 14169, § 1, 11-19-24; Ord. No. 14181, § 1, 12-17-24)

Sec. 38-22. Additional Standards

(a) General Site Development Standards

See Article X for additional on-site development standards and requirements.

(b) Accessory Structures

See Article XI for accessory structure standards and requirements.

(c) Parking, Loading, and Access

See Article XII for parking, loading, and access standards and requirements.

(d) Landscape

See Article XIII for landscape, buffer, and screening standards and requirements.
(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24)

ARTICLE VI. DOWNTOWN FORM-BASED CODE

[SECTION RESERVED FOR REFERENCE TO FORM-BASED CODE]

ARTICLE VII. INDUSTRIAL ZONES

Sec. 38-23. Purpose

(a) I-L Light Industrial Zone

The I-L Light Industrial Zone is intended to accommodate industrial activities that do not create appreciable nuisance or hazards, or that require a pleasant, hazard-and-nuisance-free environment. The I-L Zone may also accommodate select service or commercial uses.

(b) I-H Heavy Industrial Zone

The I-H Heavy Industrial Zone is intended to accommodate those industrial activities which may produce moderate nuisances or hazards in areas that are incompatible with non-industrial development.

(c) I-X Industrial Extraction Zone

The I-X Industrial Extraction Zone is intended to accommodate mining and associated outdoor extractive uses.

(d) D. I-MU Industrial Mixed-Use Zone

The I-MU Industrial Mixed-Use Zone is intended to accommodate a mix of light industrial uses and compatible commercial uses such as retail and entertainment. This mix is designed to promote the reuse of older, character giving structures that may no longer be suitable for their original industrial purposes, but that can accommodate a variety of alternative types of uses. Residential uses are also permitted in the I-MU Zone.
(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24)

Sec. 38-24. Uses

Article IX lists principal, temporary, and accessory uses allowed within the industrial zones.
(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24)

Sec. 38-25. Industrial Zones Dimensional Standards

(a) Table 38-25.1: Industrial Zones Dimensional Standards establishes the dimensional standards for the industrial zones. These regulations apply to all uses within each zone unless a different standard is listed for a specific use.

(b) In the industrial zones, the maximum building height standard applies to principal buildings. Equipment and accessory structures integral to the operation of the use are permitted to exceed this height when such additional height is required for function.

Upper Floor Transparency—Nonresidential/ Mixed-Use Facing Street or Waterfront	N/A	N/A	N/A	20%

(c) Developments participating in the Voluntary Incentives Program are subject to the lot area standard reductions and maximum height increases as detailed in Article XIX. Voluntary Incentives Program, Sec. 38-106 Incentives.

(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24; Ord. No. 14256, § 1, 7-22-25)

Sec. 38-26. I-MU Zone Development Standards

(a) Applicability

(1) The development standards of this section apply to nonresidential and mixed-use developments in the I-MU Zone only. Residential dwellings, including live/work dwellings, are not subject to these design standards but rather subject to the design standards included within the use standards of the dwelling type in Article IX.

(2) Development standards apply to new construction.

(3) When standards indicate that they are applicable when facing a street, this includes public and private streets and does not include existing alleys.

(4) Any diagrams of these standards that may be included are for illustrative purposes only.

(b) Orientation

(1) All buildings must have one prominent entrance along a facade facing a street. On a corner lot, only one street-facing facade must have a prominent entrance.

(2) Where vehicle parking is accessed from an alley, an entrance to the building must be located and clearly marked on that facade facing an alley unless a pedestrian path is designed and has appropriate signage to direct pedestrians to the front entrance.

(c) Facade Design

(d) Roof Design

(1) Reflective roof surfaces that produce glare are prohibited, except for cool roofs intended to radiate absorbed or non-reflected solar energy and reduce heat transfer to the building.

(2) Green roof, blue roof, and white roof designs are permitted.

(e) Building Materials

The following building materials are limited to 25% of each facade in totality. They may also be used as a component of construction when not a surface finish material without limitation.

(1) Mirrored glass

(2) Exposed aggregate (rough finish) concrete wall panels

(3) Exterior insulating finish systems (EIFS)

(4) Wood structural panel sheathing (e.g., plywood, OSB, particleboard, etc.)

(5) Plastic, not including light transmitting plastic

(6) Vinyl

(7) Metal panels unless they meet the following requirement: Metal panels (flat, textured, corrugated, batten, box rib, etc.) whether standalone, composite, or part of a layered or insulated panel, are permitted provided they are part of a complete, manufacturer warrantied cladding system, including integral anchorage to structural supports. Steel panels must be minimum US Standard 26 gauge. Metal panels that meet this requirement are permitted as surface finish material without limitation.

(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24; Ord. No. 14169, § 1, 11-19-24; Ord. No. 14181, § 1, 12-17-24)

Sec. 38-27. Additional Standards

(a) A. General Site Development Standards

See Article X for additional on-site development standards and requirements.

(b) Accessory Structures

See Article XI for accessory structure standards and requirements.

(c) Parking, Loading, and Access

See Article XII for parking, loading, and access standards and requirements.

(d) Landscape

See Article XIII for landscape, buffer, and screening standards and requirements.
(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24)

ARTICLE VIII. SPECIAL PURPOSE ZONES

Sec. 38-28. A-1 Urban Agricultural Zone

(a) Purpose

The A-1 Urban Agricultural Zone is intended to provide the opportunity for agricultural land and related uses within the City.

(b) Uses

Article IX lists principal, temporary, and accessory uses allowed in the A-1 Zone.

(c) Dimensional Standards

(1) Table 38-28.1: A-1 Zone Dimensional Standards establishes the dimensional standards for the A-1 Zone. These regulations apply to all uses within each zone unless a different standard is listed for a specific use.

Table 38-28.1: A-1 Zone Dimensional Standards	
Minimum Lot Area	5 acres
Maximum Building Height	35'
Minimum Front Setback	25'
Minimum Interior Side Setback	25'
Minimum Corner Side Setback	25'
Minimum Rear Setback	25'

(2) All agricultural structures including, but not limited to, barns, feeding areas, livestock enclosures, and roofed livestock structures, are prohibited within required setbacks and must be located a minimum of 100 feet from any lot line.

(3) Maximum building height does not apply to any structure ancillary to and integral to active agricultural operations, which are not limited in height.

(d) Additional Standards

(1) General Site Development Standards

See Article X for additional on-site development standards and requirements.

(2) Accessory Structures

See Article XI for accessory structure standards and requirements.

(3) Parking, Loading, and Access

See Article XII for parking, loading, and access standards and requirements.

(4) Landscape

See Article XIII for landscape, buffer, and screening standards and requirements.
(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24)

Sec. 38-29. INST Institutional Zone

(a) Purpose

The INST Institutional Zone is intended to accommodate governmental uses, larger public and private educational campuses, civic and cultural facilities, healthcare campuses, and similar uses located within the City.

(b) Uses

Article IX lists principal, temporary, and accessory uses allowed in the INST Zone.

(c) Dimensional Standards

Table 38-29.1: INST Zone Dimensional Standards establishes the dimensional standards for the INST Zone. These regulations apply to all uses within each zone unless a different standard is listed for a specific use.

Table 38-29.1 INST Institutional Zone Dimensional Standards Outside the Urban Overlay	
Minimum Lot Area	2 acres
Minimum Lot Width	50'
Maximum Building Height	80'
Minimum Front Setback	10'
Minimum Interior Side Setback	10', unless abutting a residential zone, then 20' plus 1' additional setback for each 2' of building height over 45'
Minimum Corner Side Setback	10'
Minimum Rear Setback	10', unless abutting a residential zone, then 20' plus 1' additional setback for each 2' of building height over 45'
Riverfront Buffer Zone	Structures within 100' of the Tennessee River floodway may not exceed 5 stories/60'

(d) Additional Standards

(1) General Site Development Standards

See Article X for additional on-site development standards and requirements.

(2) Accessory Structures

See Article XI for accessory structure standards and requirements.

(3) Parking, Loading, and Access

See Article XII for parking, loading, and access standards and requirements.

(4) Landscape

See Article XIII for landscape, buffer, and screening standards and requirements.

Table 38-29.2: INST Zone Dimensional Standards Inside the Urban Overlay	
Minimum Lot Area	None
Minimum Lot Width	None
Maximum Building Height	Limited to 60' within 60' of an RN-1-7.5, RN-1-6, RN-1-5, RN-1-3, RN-2, TRN-1, or TRN-2 zone. This limitation applies only to that portion of a structure within the 60' distance.
Minimum Front Setback	0'
Maximum Front Setback	15' may be permitted if an intentional public space or pedestrian activity space is provided between the building and right-of-way such as a park, plaza, outdoor dining, or sculpture garden.
Minimum Interior Side Setback	0', unless abutting a residential zone, then 20' plus 1' additional setback for each 2' of building height over 45'
Minimum Corner Side Setback	0', 10' when abutting a residential zone or single unit detached use
Minimum Rear Setback	0', 25' 10' when abutting a residential zone or single unit detached use
Minimum Distance Between Buildings	10'
Minimum Riverfront Setback	100' as measured from the Floodway

(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24; Ord. No. 14238, § 1, 5-20-25; Ord. No. 14253, § 1, 7-15-25; Ord. No. 14365, § 1, 5-19-26)

Sec. 38-30. OS Open Space Zone

(a) Purpose

The OS Open Space Zone is intended to accommodate and protect open space and public recreation facilities. Open space resources may include both passive and active recreation areas, as well as related ancillary uses within such open space, such as cultural facilities and performance venues, that are functionally part of the larger open space use.

(b) Uses

Article IX lists principal, temporary, and accessory uses allowed in the OS Zone.

(c) Dimensional Standards

Table 38-30.1: OS Zone Dimensional Standards establishes the dimensional standards for the OS Zone. These regulations apply to all uses within each zone unless a different standard is listed for a specific use.

Table 38-30.1: OS Zone Dimensional Standards	
Minimum Lot Area	None
Maximum Building Height	35'
Minimum Front Setback	20'
Minimum Interior Side Setback	20'
Minimum Corner Side Setback	20'
Minimum Rear Setback	20'
Minimum Setback from Riverfront	100' as measured from the Floodway

(d) Additional Standards

(1) General Site Development Standards

See Article X for additional on-site development standards and requirements.

(2) Accessory Structures

See Article XI for accessory structure standards and requirements.

(3) Parking, Loading, and Access

See Article XII for parking, loading, and access standards and requirements.

(4) Landscape

See Article XIII for landscape, buffer, and screening standards and requirements.
(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24)

Sec. 38-31. R-MH Manufactured Home Zone

(a) Purpose

The R-MH Manufactured Home Zone preserves appropriate land for the development for manufactured home parks and manufactured home subdivisions. Standards ensure that both manufactured home parks and subdivisions provide open space and recreational areas appropriate for the acreages and number of units provided.

(b) Uses

Article IX lists principal, temporary, and accessory uses allowed within the R-MH Zone.

(c) Manufactured Home Park Dimensional Standards

(1) Dimensional Standards

Table 38-31.1: MH Zone Dimensional Standards establishes the dimensional standards for manufactured home parks.

Table 38-31.1: MH Zone Dimensional Standards	
Park Dimension	*Manufactured Home Park*
Minimum Park Area	3 acres
Height	
Maximum Building Height	35'
Minimum Perimeter Setbacks	
Street Setback	20'
Interior Side Setback	30'

Table 38-31.1: MH Zone Dimensional Standards	
Park Dimension	*Manufactured Home Park*
Rear Setback	30'
Manufactured Home Stands	
Minimum Stand Area	2,000sf
Minimum Stand Width	30'
Maximum Manufactured Homes Per Stand	1 manufactured home
Manufactured Home Stand Setbacks	
Internal Access Drive Setback	20'
Minimum Structure Separation—Broad Side to Broad Side	20'
Minimum Structure Separation—Narrow Side to Narrow Side	10'

(2) Required Recreational Facilities

At least 10% of the total area of a manufactured home park must be devoted to recreational facilities for use by the residents of the park. Examples of such recreational facilities may include community buildings, gardens, outdoor play areas, swimming pools, and ball courts.

(3) Paving, Access, and Off-Street Parking

(i) A minimum width of 22 feet is required for all internal access drives. Internal access drives must be paved and maintained in a smooth hard and dense surface that is well drained.

(ii) Access to the manufactured home park must be from a public right-of-way.

(iii) The park must have a minimum of one access drive to the public right-of-way and emergency access as required per Fire Code.

(iv) Required parking spaces may clustered within the park. No single parking cluster may exceed 20 spaces. Clusters must be spaced 20 feet apart.

(4) Buffering and Screening

The manufactured home park must be screened and buffered along the street, excluding ingress/egress points, and adjacent properties in accordance with a Class C landscape yard per Article XIII.

(5) Manufactured Home Subdivision Standards

(i) A manufactured home subdivision requires a minimum of three acres.

(ii) Manufactured home subdivisions are subject to the standards of the RN-1-5 Zone. The standards are applied to individual lots within the development, whether a single-unit detached dwelling or manufactured home.

(iii) Only single-unit detached dwellings and manufactured homes are permitted within a manufactured home subdivision.

(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24)

Sec. 38-32. Urban Overlay Zone

(a) Intent

As Downtown Chattanooga and its surrounding neighborhoods have a different development pattern than the rest of the City, the Urban Overlay Zone has been created to maintain the physical layout of this older urban area. This layout generally includes sidewalks, public transit routes, available on-street

parking, and smaller lots. This Urban Overlay Zone, as defined by the attached map and legal description, is generally bounded by Missionary Ridge on the east, North Chattanooga to the north, the base of Lookout Mountain to the west and the state line to the south. An overlay zone is a tool to deal with special requirements and is placed over the existing zoning to alter some of the regulations. The overlay does not change the permitted uses, setbacks, landscaping, and height and access requirements present in the underlying zone.

(b) Applicability

(1) The Urban Overlay Zone contains that area described herein:

BEGINNING at the intersection of the southeast corner of Tax Map 154-015, being The Chickamauga National Military Park, and the Tennessee Georgia State Line, thence following the east line of said parcel northeastwardly and northwestwardly to its intersection with the west line of the 4000 block of Jo Conn Guild Trail, thence some forty (40) feet east to the east line of said Trail, thence northeastwardly and northwestwardly along said east line to the southwest corner of Tax Map 155O-B-007, thence following the west line of parcel 007 to the southwest corner of Tax Map 155J-C-051, thence along the west line of parcel 051 to its north corner thence northeast to the southeast corner of Tax Map 155J-C-038, thence along the south line of parcel 038 to its southwest corner, thence along the west line of parcel 038 to the southwest corner of Tax Map 155J-C-039, thence northeast along the west line of parcel 039 to the northeast corner of Tax Map 155J-C-037, thence northwest to the southeast corner of Tax Map 155J-C-036, thence northeast along the east line of parcel 036 to its northeast corner, thence northwest to the southwest corner of Tax Map 155J-C-009, thence northeast along its west line to the northwest corner of parcel 009 and the south line of the 1800 block of Old Wauhatchie Pike, thence northwest across said pike to the southeast corner of Tax Map 155J-B-004, thence northeast along the east line of parcel 004 to the southeast corner of Tax Map 155J-B-001, thence to the northeast corner of parcel 001 and the south line of the 1900 block of Cummings Highway, thence northeast across said highway to the southwest corner of Tax Map 155G-A-0-14, thence northwest to the north line of Interstate 24 and the south line of the Tennessee River, then following the meanderings of said river northeastwardly to the northeast corner of Tax Map 145O-A-001, thence northwest along the north line of parcel 001 to its northwest corner and the east line of the Tennessee River, thence following the meanderings of the Tennessee River northwestwardly and northeastwardly to the center line of the Unit Block of Highway 27, thence northwestwardly along the center line of said highway to the center line Highway 27 at Whitehall North Bound Off Ramp, thence northeastwardly along said center line to its intersection with the center line of the 900 block of East Frontage Road, thence northeastwardly along said center line to its intersection with the City of Chattanooga/City of Red Bank City Limits Line, thence following said line northeastwardly and southeastwardly to the southeast corner of Tax Map 126E-B-019, thence southwardly to the center line of the 500 block of West Oxford Road, thence continuing southeast along said road to its intersection with the center line of the 1600 block of White Oak Road, thence northeast along the center line of White Oak Road to its intersection with the center line of Auburndale Avenue, thence continuing southeast along White Oak Road to its intersection with the center line of the 700 block of Dallas Road, thence northeast along the center line of Dallas Road to its intersection with the center line of the 1000 block of East Dallas Road, thence southeast along the center line East Dallas Road to its intersection with the 1200 block of Duane Road, thence continuing northeast along the center line of the 1200 block of East Dallas Road to its intersection with the center line of the 1800 block of Hixson Pike, "thence southeast along the center line of Hixson Pike at 1614 Hixson Pike to the northwest corner of Tax Map 127I-F-020, thence following the northern boundary of parcel 020 to its rear property line, thence southerly along the rear property line to its intersection with the side boundary of Tax Map 127I-F-019, thence northeast along the side line of parcel 019 to its rear property line, thence southeast along the rear property lines of parcels 019, 018 and 017, thence in a southwest direction along the side boundary of parcel 017 to the center line of Hixson Pike, thence southeast to 1508 Hixson Pike at the northwest corner of Tax Map

127P-S-014, thence following the northern boundary of said parcel 014 to its rear property line, thence southerly along the rear property lines of parcels 014, 013, 012 and 011, thence in a southwest direction along the southern side boundary of parcel 011 to the center line of Hixson Pike continuing south along said center line to 1422 Hixson Pike to the northwest corner of Tax Map 127P-T-054 and following the northern side boundary of parcel 054 to its rear property line, thence southerly along the rear property line of parcel 054 descending in a southerly direction to parcel 023, thence in a westerly direction approximately 108 feet, thence southerly (Tax Map 127P-T-022 through 054), extending into the center line of Falmouth Road, thence in a westerly direction to" the center line of the 1200 block of Hixson Pike, thence southwest along the center line of said pike to its intersection with the southwest line of the 1300 block of Dorchester Road, thence southeastwardly to the northeast corner of Tax Map 136G-A-001, thence southwest along the north line of parcel 001 to its northwest corner, thence southeast along the west line of said parcel to the southeast corner of Tax Map 136H-M-022, thence southwest along the south line of parcel 022 to the northeast corner of Tax Map 136H-J-038.01, thence southeast along the east line of said parcel to the north line of Tax Map 136H-J-015.10, thence southwest along the north line of parcel 015.10 to the southwest corner of Tax Map 136H-J-015.04, thence northwest to the northeast corner of Tax Map 136H-J-015.14, thence southwest along the north line of said parcel to the northwest corner of said parcel, thence northeast to the northeast corner of Tax Map 135E-N-021, thence northwest along the north line of parcel 021, thence south to the south line of the 200 block of Dickerson Avenue, thence southwestwardly and northwestwardly to its intersection with the east line of the Unit Block of Georgian Avenue, thence southwest along the east line of Georgia Avenue to the south line of the Tennessee River, thence northeast along the south line of said river to the northeast corner of Tax Map 136P-A-001, thence southeast along the east line of parcel 001 to the north line of the 1000 block of Riverside Drive, thence southeast across said drive to the northeast corner of Tax Map 136P-D-001, thence southeast to the south line of the Southern Railway Right-of-way, thence following the south line of said railway right-of-way southeastwardly and northeastwardly to the south line of the 2100 block of Sims Street, thence southeast along the south line of Sims Street to the northeast corner of Tax Map 128P-G-001, thence southwest along the east line of parcel 001 to its southeast corner, thence southeast to the northeast corner of Tax Map 128P-G-002, thence southeast along the east line of parcel 002 to the north line of the 2300 block of Allin Street, thence southeast to the intersection of the center line of the 2300 block of Allin Street with the center line of the 2300 block of Searle Street, thence southeast along the center line of Searle Street to its intersection with the center line of an unnamed right-of-way, thence southeast along said right-of-way to its intersection with the center line of the 3200 block of Wheeler Avenue, thence southwestwardly along said avenue to its intersection with the center line of the 2400 block of Elmendorf Street, thence southeast to the center line of the 3100 block of North Chamberlain Avenue, thence southwest along the center line of said avenue to its intersection with the center line of an unnamed right-of-way, thence southeast along said right-of-way to its intersection with the center line of the 3100 block of Noa Street, thence southeast across said right-of-way to the northwest corner of Tax Map 128P-N-022 thence southeast following the north property lines of Tax Maps 128P-N-022, 128P-N-017 and 128P-N-013 to the west line of the 3100 block of Campbell Street, thence southeastwardly to the center line of Campbell Street, thence following the center line of said street southwestwardly and to its intersection with the 700 block of North Crest Road, thence following southeastwardly and southwestwardly along the center line of said road, thence across said road to the northeast corner of 137H-G-006, thence following the west property lines of Tax Maps 137H-G-006 and 137I-A-042 to the north line of Tax Map 137I-B-008, thence southeast to the west line of the 500 block of North Crest Road, thence southwest across North Crest Road to its intersection with the east line of the 2000 block of Marshall Street, thence southwest along the east line of said street to its intersection with the south line of the 1900 block of Marshall Street, thence southeast along the south line of said street to the northeast corner of Tax Map 137P-A-006, thence following the western property lines of Tax Maps 137P-A-004.01, 137P-A-006, 137P-A-007, 137P-A-007.01, 137P-A-009 thru 137P-A-023, 146D-M-001 thru 146D-M-008, 146E-K-001, 146E-

K-002.01, 146E-K-002.02, 146E-K-003 thru 146E-K-011, 146E-K-013, 146E-K-015 thru 146E-K-017, and 146L-J-001 thru 146L-J-005 to the northwest line of the unit block of Shallowford Road, thence southwest to the northwest corner of Tax Map 146L-H-003, thence southeast to the northwest corner of Tax Map 146L-H-005, thence following the western property lines of Tax Maps 146L-L-005 thru 146L-L-010 and 146L-L-012 thru 146L-L-017 southwestwardly and southeastwardly to intersection of the east line of the 2900 block of Birds Mill Road with the west line of the unit block of North Crest Road, thence continuing southwest along North Crest Road to the northeast corner of Tax Map 146M-D-002, thence northwest along the north line of said parcel to its northwest corner, thence following the western property lines of Tax Maps 146M-D-002 thru 146M-D-009, 146M-D-010.02, 146M-D-011 thru 146M-D-014, 156D-C-002, 156D-C-003, 156D-C-007 thru 156D-C-011, and 156D-C-013 thru 156D-C-019 southwestwardly to the west line of South Crest Road, thence southwest along the west line of said road to the northwest corner of Tax Map 156F-P-009, thence following the western property lines of Tax Maps 156F-P-001 thru 156F-P-009, 156K-H-001, 156K-H-002, 156K-H-003.01, 156K-H-004.01, 156K-H-005 thru 156K-H-007.01, 156K-H-010 thru 156K-H-012, 156K-H-013.01, 156K-H-014.01, 156K-H-015, and 156K-H-016 southwestwardly to the east line of the 2100 block of Old Ringgold Road, thence southwest across said road to the northeast corner of Tax Map 156K-G-011, thence following the eastern property lines of Tax Maps 156K-G-011 thru 13 southwestwardly to the southwest corner of Tax Map 156N-D-001.02, thence southeast along the south line of parcel 001.02 to the northwest corner of 156N-D-002, thence following the eastern property lines of Tax Maps 156N-D-008 thru 156N D 015.01 to the east line of the 2900 block of Westside Drive, thence southeast along said drive to the north corner of Tax Map 168C-C-001, thence southwest following the eastern property lines of Tax Maps 168C C 001, 168C C 001.01, and 168C C 014 thru 168C C 022, thence northeast along the south line of Tax Map 168C-C-014 to the east line of the 3100 block of Westside Drive, thence southwest across said drive to the northeast corner of Tax Map 168C-B-016, thence following the western property lines of Tax Maps 168C-B-016 thru 019 southwestwardly to the northwest corner of Tax Map 168C-B-020, thence southeast to the west line of the 500 block of West Shadowlawn Drive, thence southeast across said drive to the northwest corner of Tax Map 168J-T-014.01, thence southeast to the northwest corner of Tax Map 168J-T-014, thence southwest following the western property lines of Tax Maps 168J-T-014 thru 168J-T-018, 168J-T-020 thru 168J-T-027, and 168J-T-029 to the north line of Tax Map 168J-T-001, thence southeast along the north line of parcel 001 to the northwest corner of Tax Map 168J-T-032, thence southwest following the western property lines of Tax Maps 168J-T-032, 168J-T-034, 168O-N-001 thru 168O-N-005, 168O-N-016 and 168O-N-017, thence southeast to the Tennessee/Georgia State Line, thence following said line southeast to the southeast corner of Tax Map 154-015, being The Chickamauga National Military Park, the point of BEGINNING.

(2) For purposes of any location restrictions set forth herein, unless otherwise specified to the contrary, all measurements must be made from the property line of any property desiring a particular use to the nearest property lines of any properties within a distance restriction.

(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24)

Sec. 38-33. TOD Transit-Oriented Development Overlay Zone

[RESERVED]
(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24)

Sec. 38-34. Lovell Field Gateway Overlay Zone

(a) Purpose

The intent of the Lovell Field Gateway Overlay Zone is to realize the primary objectives of "BRAINERD ... A Vision for Today"—the community's master plan. Adopted by the Chattanooga City Council in 2011, the Plan's goal is to create a vibrant town center along Brainerd Road that is well connected to adjacent neighborhoods. Specific issues and opportunities identified in the community's master plan and in meetings by the Brainerd community include:

(1) Poor visual quality in the corridor attributed to sign clutter, overhead utility poles and electrical lines, lack of street trees, varying building setbacks, and poor quality building designs.

(2) Poor walkability and pedestrian connectivity due to large parking lots and multiple curb cuts, gaps in the sidewalk network, and lack of landscaping along the street and in parking lots.

(3) Unsafe cycling conditions due to multiple car/bicycle conflict points from numerous curb cuts, high traffic speeds, and lack of dedicated bike lanes.

(4) Enhance the corridor as it acts as a gateway into the City.

(b) Applicability

(1) The regulations of this Lovell Field Gateway Overlay Zone supplement the regulations of the underlying zone for all properties within the overlay zone area. However, single-unit dwellings are exempt from the Lovell Field Gateway Overlay Zone.

(2) Where the following overlay zone regulations conflict with a standard set out in Chapter 8 of the City Code, the regulations of Chapter 8 control.

(3) All other City codes, as currently adopted, apply to properties within the Lovell Field Gateway Overlay Zone, except where noted.

(4) The following regulations apply to all properties within the Lovell Field Gateway Overlay Zone. Primary roads within this zone are Airport Road and Shepherd Road/Airport Connector Road.

(5) Properties which choose to pursue dedication of streetscape land to the City must adhere to the following regulations:

(i) Improvements must be installed prior to the start of the property dedication process.

(ii) The City will provide fair market value for property acquisition, if a judge requires this process.

(iii) All discussions for streetscape property dedication to the City must begin with the City of Department of Public Works- Transportation Division.

(6) The overlay zone regulations are divided into two categories: new development and redevelopment. The regulations of this section applies to these two categories as follows:

(i) All new development, both public and private which constitutes one or more of the following situations:

a. Where a building expansion increases the building footprint by more than 50%.

b. Where a parking lot or other pavement expansion of at least ten spaces increases the total number of spaces or paved surface by more than 50%.

(ii) Redevelopment constitutes both public and private projects. For existing buildings and parking facilities, expansion in building footprint or parking spaces will trigger redevelopment regulations based on the Table 38-34.1: Redevelopment—Cumulative Scope of Work as established below.

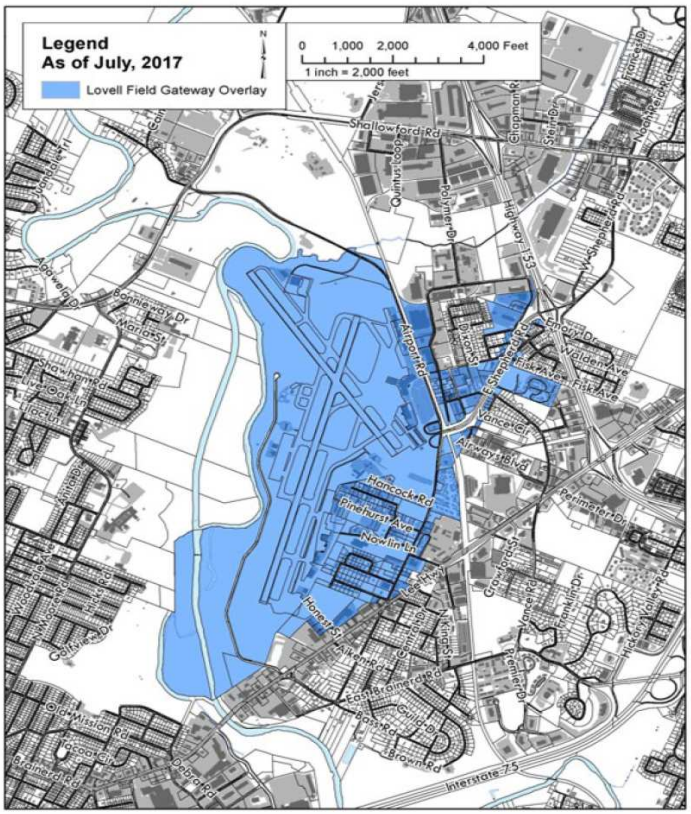
Table 38-34.1: Redevelopment—Cumulative Scope of Work

Building Expansion = Regulations (Cumulative Square Footage)		*Parking Lot Expansion = Regulations (10 Spaces or More)*	
< 10%	= Utility screening	< 10%	= Utility screening
10% to 25%	= Utility Screening + signage update	10% to 25%	= Utility Screening + signage update + all parking additions
>25% to 50%	= Utility screening + signage update + 1/2 of existing parking and all parking additions	>25% to 50%	= Utility screening + signage update + 1/2 of existing parking and all parking additions
> 50%	= All regulations	>50%	= All regulations

(c) Maintenance

Maintenance of the improvements required in the Lovell Field Gateway Overlay Zone are the responsibility of the property owner.

OVERLAY ZONE MAP



(d) Redevelopment

(1) Specific Standards

Redevelopment that fronts Airport Road and Shepherd Road/Airport Connector Road must comply with the following sections:

(i) Building Height

a. There is no maximum building height.

b. The minimum building height for properties fronting Airport Road and Shepherd Road/Airport Connector Road is 18 feet.

(ii) Building Materials

a. Brick, natural and architectural cast stone, architectural pre-cast concrete, glass, glass block, architectural metal panel systems, or concrete masonry units with an architectural coloration or finish on the ground floor of building facades are required to provide interest for the pedestrian. Other materials may be used on the upper floors.

1. Metal siding, aluminum siding, vinyl siding, synthetic rock, EIFS (synthetic stucco), or other similar exterior materials are prohibited for large expanses of facades. They may be used as accents.

2. Hard plastic awnings cannot be used. Awnings, when applied, must consist of flexible canvas, acrylic, or vinyl coated material.

(iii) Signs

a. On-Premise Building Signs

1. Within this Overlay Zone, the following regulations are applicable in addition to the general Advertising Provisions in Chapter 3 of the Chattanooga City Code.
2. A City of Chattanooga Sign Permit is still required.
3. Structural regulations in the Chattanooga Sign Ordinance still apply to the Lovell Field Gateway Overlay Zone.
4. The Lovell Field Gateway Overlay Zone is exempt from all dimensions, location, and type regulations in the Chattanooga Sign Ordinance.

b. On-Premise Monument Signs

1. A monument sign is defined as an advertising or identification device that is ground mounted and constructed so that there is no space between the ground and the bottom of the device.
2. One monument sign is permitted per parcel.
3. Pole-mounted signs are prohibited.
4. Monument signs cannot exceed six feet in height or ten feet in width. Signs cannot exceed 25 square feet per face and total sign area cannot exceed 50 square feet total of all faces. Height is measured from the top of the sign to the lowest point of the ground upon which the proposed sign is to be located.
5. Monument signs cannot be located in the sight distance triangle or otherwise obstruct lines of sight for vehicular or pedestrian traffic.
6. Monument signs cannot be closer than 18 feet to any right-of-way.
7. Materials that match the materials of the associated building must be used.
8. Signs must be illuminated by indirect lighting. Internally illuminated box-type plastic signs are prohibited, but signs composed of illuminated individual letters are permitted.

c. Off-Premise Billboard Signs

Off-premise billboard signs are prohibited.

(iv) Screening of Utilities

a. Completely screen dumpsters, loading areas, mechanical equipment, outdoor storage areas, and other visible utilities with an opaque wall or fence as follows:

b. The height of the screen must be a minimum of six feet or 12 inches taller than the object, whichever is higher, and adequate to completely conceal the dumpster or equipment.

c. Chain link fences or slats are prohibited.

d. Screens must consist of masonry, stucco, stone, wood, or decorative metal.

e. Landscaping, including shrubs, trees, perennials, or green screens, must be added to screening to soften the appearance of screening walls or fences.

(v) Front Setback

Buildings are subject to a build-to zone of 18 feet to 26 feet.

(vi) Curb Cuts

a. A net increase in the number of curb cuts is prohibited along Airport Road and Shepherd Road/Airport Connector Road.

b. Property owners must meet with the Department of Public Works-Transportation Division to discuss consolidating existing driveways and curb cuts.

(vii) Parking Lot Regulations

a. Parking Location

These regulations only apply to new or expanded parking facilities.

1. The Parking Zone is located to the rear of buildings.
2. New parking is not permitted between a building and the Airport Road and Shepherd Road/Airport Connector Road frontage.
3. If all new parking cannot be accommodated to the rear of the building, parking on the side of the building may be allowed if it is screened from the public right-of-way per this section.
4. Garages for new residential dwellings must be located behind the primary building.

b. Parking Space Regulations

1. The base zone parking space requirements apply.
2. The number of spaces provided cannot exceed the minimum required number of spaces by more than 50%.
3. Public Works-Transportation may allow the following discounts for required car parking spaces. Applicants should schedule a consultation with Public Works-Transportation to determine potential parking discounts.

c. Off-Site Parking

1. 40% of required car parking spaces, except required accessible spaces, may be located off-site if the remote parking area is located within 700 feet from the primary entrance of the facility served.
2. On-street parking spaces may be counted as required parking spaces provided the on-street spaces abut the subject property.

DEVELOPMENT PROFILE DIAGRAM

(e) New Development

(1) Front Setback

Buildings are subject to a build-to zone of 18 feet to 26 feet.

(2) Curb Cuts

(i) Only one Airport Road and Shepherd Road/Airport Connector Road curb cut per 150 linear feet of street frontage is permitted.

(ii) Property owners must meet with the Department of Public Works- Transportation Division to discuss consolidating existing driveways and curb cuts.

(3) Elements Not Permitted

The following are not permitted in the front setback:

(i) Parking

(ii) Chain link or slat fence

(iii) Drive lanes

(iv) HVAC equipment

(v) Dumpsters

(4) Front Setback Materials

(i) Front setbacks do not include paved surfaces.

(ii) Front setbacks may include lawn, shrubs, green infrastructure, street trees, bus shelters, road signage, street and pedestrian lighting.

(iii) Green infrastructure (landscaped planters, bioswales, etc.) may be included. All development must adhere to the City's water quality regulations. Refer to City of Chattanooga's Code, Chapter 31, and the City's Rainwater Management Guide for Green Infrastructure applications.

(5) Street Trees

(i) When warranted, dimensions and locations of street trees will be specified by Department of Public Works- Transportation Division.

(ii) The City's Urban Forester must approve all of the following:

a. Selection of all trees.

b. Removal or pruning of street trees.

c. Construction or demolition of any buildings fronting the zone to ensure the protection of existing trees.

(6) Bus Shelters

(i) Public Works-Transportation will determine if a bus shelter is needed, based on a consultation with the Chattanooga Area Regional Transportation Authority (CARTA).

(ii) Coordinate the placement, design, lighting, and construction of bus shelters with the CARTA and Public Works-Transportation.

(7) Lighting

(i) When warranted, pedestrian and street light design, type, spacing and mounting height are determined by the Department of Public Works- Transportation Division and the Electric Power Board.

(ii) New lighting in the front setback must be aligned with the street trees and parallel to the edge of right-of-way.

(iii) Exterior lighting must be equipped with full cut-offs to direct light downward and to minimize glare, shadows, night sky pollution, and excessive light levels.

(8) Storefront/Building Zone

(i) Dimensions/Location

a. Location

The Storefront/Building Zone is located in the build-to zone of 18 feet to 26 feet setbacks fronting Airport Road and Shepherd Road/Airport Connector Road.

b. Width

The Storefront/Building Zone is limited to a maximum of eight feet in width.

c. Elements Not Permitted

The following are not permitted in the Storefront/Building Zone: parking, chain link or slat fence, drive lanes, HVAC equipment, and dumpsters.

(9) b. Building Height

(i) There is no maximum building height.

(ii) The minimum building height for properties fronting Airport Road and Shepherd Road/ Airport Connector Road is 18 feet.

(iii) Building Placement

a. Buildings are subject to a build-to zone of 18 feet to 26 feet fronting Airport Road and Shepherd Road/Airport Connector Road.

b. Primary building entries must be clearly identifiable and visible from the street.

(iv) Building Materials

a. Use brick, natural and architectural cast stone, architectural pre-cast concrete, glass, glass block, architectural metal panel systems, or concrete masonry units with an architectural coloration or finish on the ground floor of building facades to provide interest for the pedestrian.

b. Other materials may be used on the upper floors.

c. Metal siding, aluminum siding, vinyl siding, synthetic rock, EIFS (synthetic stucco), or other similar exterior materials are prohibited for large expanses of facades but may be used as accents.

d. Hard plastic awnings cannot be used. Awnings, when applied, must consist of flexible canvas, acrylic, or vinyl coated material.

(10) Signs

(i) Sign Dimensions

a. Signs on any one side of a building, cannot exceed 1.5 square feet per linear foot of that building side. Awnings and permanent banners used for advertising are considered part of the building signage and square footage calculation.

b. Projecting signs cannot exceed 16 square feet in area.

c. Signs painted on windows cannot cover more than 20% of the total window area.

(ii) b. Sign Locations

a. Projecting signs must be located a minimum of 12 inches below the second story windowsill or top of the building, whichever is lower.

b. Signs must fit within the architectural elements such as in the lintel or sign frieze that separates the ground level from the upper facade, on the upper facade walls, or projecting from the face of the building.

c. Signs cannot obstruct the architectural elements and details of a building.

d. Wall signs must be placed such that they align with other signs on the block.

e. Roof signs are prohibited.

1. For buildings with multiple tenants, signs must be located only on the portions of the building directly outside the area occupied by that tenant or contained within consolidated directories, as defined in the Sign Ordinance.

(iii) Sign Types

a. Signs must be illuminated by indirect lighting. Internally illuminated box-type plastic signs are prohibited, but signs composed of illuminated individual letters are permitted.

b. Temporary signs or banners, regardless of size, are limited to 30 days and require a sign permit, per the Sign Ordinance.

c. Mass produced neon signs are prohibited.

(iv) On-Premise Building Signs

The following regulations are applicable in addition to the general Advertising Provisions in Chapter 3 of the Chattanooga City Code.

a. A sign permit is required.

b. Structural regulations in the Sign Ordinance apply to the Lovell Field Gateway Overlay Zone.

c. The Lovell Field Gateway Overlay Zone is exempt from all dimensions, location, and type regulations in the Sign Ordinance.

(v) On-Premise Monument Signs

a. Monument Sign Permissions

A monument sign is defined as an advertising or identification device that is ground mounted and constructed so that there is no space between the ground and the bottom of the device.

1. One monument sign is permitted per parcel.

2. Pole-mounted signs are prohibited.

b. Monument Sign Dimensions/Location

1. Monument signs cannot exceed six feet in height or ten feet in width. Signs cannot exceed 25 square feet per face and total sign area cannot exceed 50 square feet total of all faces. Height is measured from the top of the sign to the lowest point of the ground upon which the proposed sign is to be located.

2. Monument signs cannot be located in the sight distance triangle or otherwise obstruct lines of sight for vehicular or pedestrian traffic.

3. Monument signs cannot be closer than 18 feet to any right-of-way.

c. Monument Sign Materials

Materials that match the materials of the associated building must be used.

d. Monument Sign Illumination

Signs must be illuminated by indirect lighting. Internally illuminated box-type plastic signs are prohibited, but signs composed of illuminated individual letters are permitted.

(vi) Off-Premise Billboard Signs

Off-premise billboard signs are prohibited.

(11) Parking Zone

PARKING ZONE BEHIND BUILDINGS

(a) Location

(1) The Parking Zone is located to the rear of buildings.

(2) New parking is not permitted between a building and the Airport Road and Shepherd Road/Airport Connector Road frontage.

(3) If all new parking cannot be accommodated to the rear of the building, parking on the side of the building may be allowed if it is screened from the public right-of-way per this section.

(4) Garages for new residential dwellings must be located behind the primary building.

(b) Parking Space Regulations

(1) The base zone parking space requirements apply.

(2) The number of spaces provided cannot exceed the minimum required number of spaces by more than 50%.

(3) Public Works-Transportation may allow the following discounts for required car parking spaces. Applicants should schedule a consultation Public Works-Transportation with Public Works-Transportation to determine potential parking discounts.

(i) One car parking space may be discounted for every bicycle parking space required.

(ii) If the development connects via new or existing sidewalks to an established sidewalk grid that links multiple land uses (i.e., commercial, residential, office), a 10% discount may be applied.

(iii) If the development is located within one-quarter mile of an established transit stop, a 10% discount may be applied.

(iv) Parking space discounts may be applied to developments that share parking with facilities serving other uses according to the following chart:

	Residential	*Lodging*	*Office*	*Retail*	*Institution*
Residential	0%	10%	30%	20%	30%
Lodging	10%	0%	50%	30%	20%
Office	30%	50%	0%	20%	50%
Retail	20%	30%	20%	0%	30%
Institution	30%	20%	50%	30%	0%

a. Shared parking discounts are applied before multi-modal discounts

b. To apply shared parking discounts for facilities on separate parcels, a legal agreement between property owners guaranteeing access to and use of designated parking areas is required.

(c) Off-Site Parking

(i) 40% of required car parking spaces, except required accessible spaces, may be located off-site if the remote parking area is located within 700 feet from the primary entrance of the facility served.

(ii) On-street parking spaces may be counted as required parking spaces provided the on-street spaces abut the subject property.

(d) Parking Lot Lighting

(i) All parking lot lighting must be equipped with full cut-offs to direct light downward and to minimize glare, shadows, night sky pollution, and excessive light levels.

(ii) Light spill on neighboring property is prohibited.

(iii) Maximum mounting height of light fixtures in parking lots is 20 feet.

(e) Green Infrastructure

(i) All development must adhere to the City's water quality regulations. Refer to City of Chattanooga's Code, Chapter 31, and the City's Rainwater Management Guide for Green Infrastructure applications.

(f) Screening of Utilities

Completely screen dumpsters, loading areas, mechanical equipment, outdoor storage areas, and other visible utilities with an opaque wall or fence as follows:

(g) The height of the screen must be a minimum of six feet, or 12 inches taller than the object, whichever is higher, and adequate to completely conceal the dumpster or equipment.

(h) Chain link fences or slats are prohibited.

(i) Screens must consist of masonry, stucco, stone, wood, or decorative metal.

(j) Landscaping, including shrubs, trees, perennials, or green screens, must be added to screening to soften the appearance of screening walls or fences.

NEW DEVELOPMENT PROFILE DIAGRAM

(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24)

Sec. 38-35. Brainerd Overlay Zone Standards

(1) Intent. The intent of the Brainerd Road Overlay Zone is to realize the primary objectives of "BRAINERD ... a vision for Today"—the community's master plan. Adopted by the Chattanooga City Council in 2011, the Plan's goal is to create a vibrant town center along Brainerd Road that is well connected to adjacent neighborhoods. Specific issues identified in the community's master plan and in meetings by the Brainerd community include:

(a) Poor visual quality in the corridor attributed to: sign clutter, overhead utility poles and electrical lines, lack of street trees, varying building setbacks, and poor quality building designs.

(b) Poor walkability and pedestrian connectivity due to: large parking lots and multiple curb cuts, gaps in the sidewalk network, and lack of landscaping along the street and in parking lots.

(c) Unsafe cycling conditions due to: multiple car/bicycle conflict points from numerous curb cuts, high traffic speeds, and lack of dedicated bike lanes.

(2) Applicability.

(a) The regulations of this Brainerd Overlay Zone shall supplement the regulations of the underlying zoning for all properties within the Overlay Zone area.

(b) Where the following Overlay Zone regulations conflict with a standard set out in Chapter 8-Aviation, the regulations of Chapter 8 shall prevail.

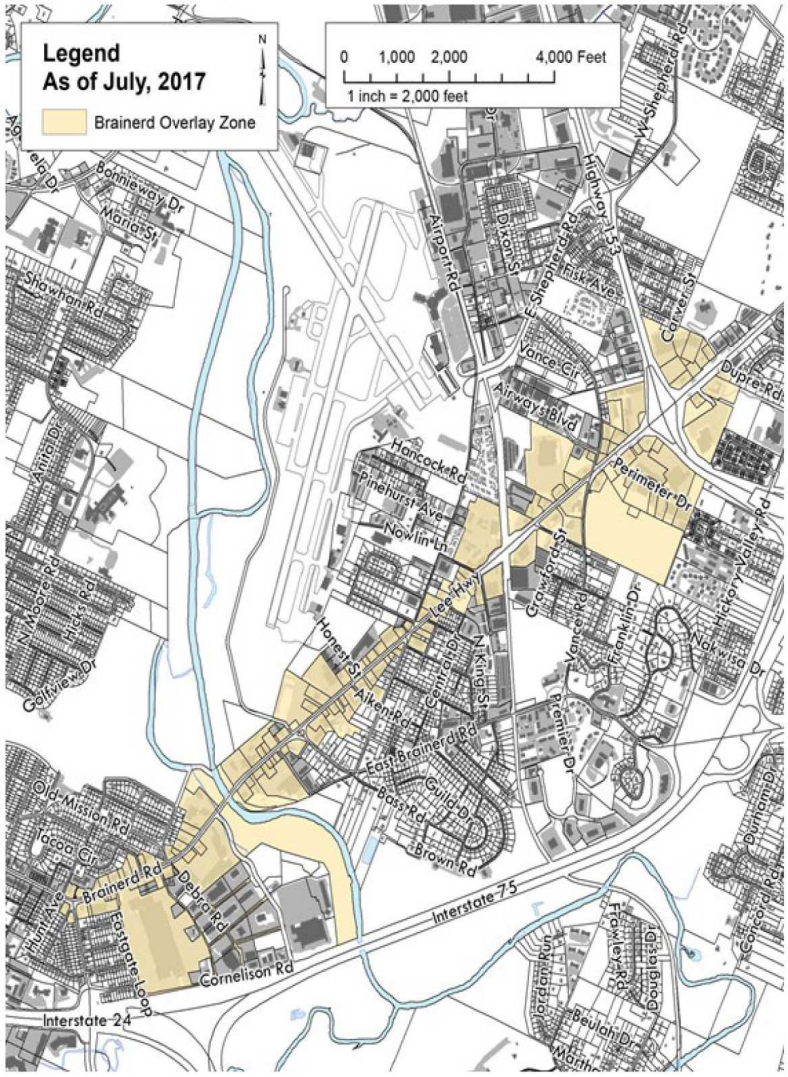
(c) All other City codes, as currently adopted, apply to properties within the Brainerd Overlay Zone, except where noted.

(d) The following development regulations apply to ALL properties within the boundaries of this Overlay Zone of Brainerd Road and Lee Highway from the Spring Creek Road intersection to the TN-153 intersection (see Figure 1. Overlay Zone Map).

Figure 1. Overlay Zone Map

June 27, 2024

Figure 1. Overlay Zone Map



(e) All such properties within the Brainerd Overlay Zone shall be exempt from the street yard regulations of the Chattanooga Landscape Ordinance as applied to development along the Brainerd

(e) All such properties within the Brainerd Overlay Zone shall be exempt from the street yard regulations of the Chattanooga Landscape Ordinance as applied to development along the Brainerd Road and Lee Highway's edge of rights-of-way. The Chattanooga Landscape Ordinance street yard regulations shall only apply to side street frontages within these boundaries.

(f) All such properties may provide voluntary dedication of Street Edge Zone and Bike/Ped Zone right-of-way improvements for those portions outside the current public right-of-way to the City of Chattanooga which will be beneficial to connectivity and public safety for all citizens within the Overlay Zone.

i. Any right-of-way Improvements shall be installed prior to the start of the property dedication process to the City; and

ii. Should there be a need for involuntary dedication for properties without Street Edge zone and/or Bike/Ped connectivity improvements, the City will provide fair market value for any necessary property acquisition beneficial to connectivity and public safety after voluntary dedication has been requested; and

iii. All discussions for dedication of Street Edge Zone and Bike/Ped Zone right-of-way improvements to the City of Chattanooga within this Overlay Zone shall begin with the City of Department of Public Works- Transportation Division before any building permit is issued by the Land Development Office.

(g) The Overlay Zone Regulations are divided into two categories: New Development and Redevelopment. The regulations of this Section shall apply to these two (2) categories as follows:

i. New Development, both public and private, constitutes one (1) or more of the following situations:

a. New Construction of a stand alone building for use as leasable space.

b. Where a building expansion increases the building footprint by more than fifty percent (50%).

c. Where a parking lot or other pavement expansion of at least ten (10) spaces increases the total number of spaces or paved surface by more than fifty percent (50%).

ii. Redevelopment shall constitute both public and private projects. For existing buildings and parking facilities, expansion in building footprint or parking spaces will trigger Redevelopment regulations based on the cumulative scope of work as established below.

(h) Regulations Table (Based on Scope of Work).

Building Expansion = Regulations (Cumulative Square Footage)		*Parking Lot Expansion = Regulations (10 Spaces or More)*	
< 10%	= Utility screening	< 10%	= Utility screening
10% to 25%	= Utility Screening, plus Signage update	10% to 25%	= Utility Screening, plus Signage update, plus All parking additions
>25% to 50%	= Utility screening, plus Signage update, plus 1/2 of Existing parking and all parking additions, plus Entire Street Edge Zone, plus Bike/Pedestrian Zone	>25% to 50%	= Utility screening, plus Signage update, plus 1/2 of Existing parking and all parking additions, plus Entire Street Edge Zone, plus Bike/Pedestrian Zone
> 50%	= Compliance with all of Sec. 38-13	> 50%	= Compliance with all of Sec. 38-13

(i) Building Expansion.

i. Where a building expansion increases building footprint less than ten percent (10%), the entire property shall comply with the Screening of Utilities regulations of this chapter in Section (5)(i).

ii. Where a building expansion increases building footprint at least ten percent (10%) but no more than twenty-five percent (25%):

a. The entire property shall comply with the Screening of Utilities regulations in Section (5)(i), and

b. The entire property shall comply with all Signage regulations per this chapter, Sections (5)(d),(5)(e),(5)(f).

iii. Where a building expansions increases building footprint more than twenty-five percent (25%) but no more than fifty percent (50%):

a. The entire property shall comply with the Screening of Utilities regulations in Section (5)(i);

b. The entire property shall comply with all Signage regulations of this chapter, Sections (5)(d),(5)(e),(5)(f);

c. Fifty percent (50%) of the existing parking lot and all of any expanded portions of the parking lot shall comply with the Parking Lot regulations, Section (4)(d) and (5)(h)(iv); and

d. The entire property shall comply with the New Development Street Edge Zone and Bike/Pedestrian Zone regulations, Sections (5)(a), (5)(b).

iv. Where a building expansion increases building footprint more than fifty percent (50%), the entire property shall comply with all regulations of this Division.

(j) Parking Lot Expansion

i. Where a parking lot expansion of at least ten (10) spaces increases the total number of parking spaces by less than ten percent (10%), the entire property shall comply with the Screening of Utilities regulations Section (5)(i).

ii. Where a parking lot expansion of at least ten (10) spaces increases the total number of parking spaces by at least ten percent (10%) and no more than twenty-five percent (25%):

a. The entire property shall comply with the Screening of Utilities regulations in Section (5)(i);

b. The entire property shall comply with all Signage regulations per this chapter, Sections (5)(d),(5)(e),(5)(f); and

c. The expanded portion of the parking lot shall comply with the Parking Lot regulations, Section (4)(d) and (5)(h)(iv).

iii. Where a parking lot expansion of at least ten (10) spaces increases the total number of parking spaces more than twenty-five percent (25%) but no more than fifty percent (50%):

a. The entire property shall comply with the Screening of Utilities regulations in Section (5)(i);

b. The entire property shall comply with all Sign regulations per this chapter, Sections (5)(d),(5)(e),(5)(f);

c. The expanded portion of the parking lot and fifty percent (50%) of the existing parking lot shall comply with the Parking Lot regulations, Section (4)(d) and (5)(h)(iv); and

d. The entire property shall comply with the New Development Street Edge Zone and Bike/Pedestrian Zone regulations, Sections (5)(a), (5)(b).

iv. Where a parking lot expansion of at least ten (10) spaces increases the total number of parking spaces more than fifty percent (50%), the entire property, including the expanded parking lot portion, shall comply with all regulations of this Division.

(k) All signs shall adhere to all Sign regulations of this chapter, Sections (5)(d),(5)(e),(5)(f), as signs are replaced, repaired, and/or added.

(3) Maintenance. Maintenance of the improvements required in the Brainerd Overlay Zone shall be the responsibility of the property owner.

(4) Redevelopment. See Figure 2. Redevelopment Profile Diagram.

Figure 2. Redevelopment Profile Diagram

(a) Redevelopment that fronts Brainerd Road and Lee Highway shall comply with the following sections:

i. Street Edge Zone as defined in Section (5)(a),

ii. Bike/Pedestrian Zone as defined in Section (5)(b),

iii. Building Height as defined in Section (5)(c)(ii),

iv. Building Materials as defined in Section (5)(c)(v),

v. On-premise Building Signs as defined by Section (5)(d),

vi. On-premise Monument Signs as defined by Section (5)(e), and

vii. Off-premise Billboard Signs. Off-premise billboard signs shall not be permitted.

viii. Screening of Utilities as defined in Section (5)(i).

(b) Front Setback. Buildings shall have a maximum front setback of twenty-six (26) feet.

(c) Curb Cuts.

i. A net increase in the number of curb cuts shall not be permitted along Brainerd Road and Lee Highway.

ii. Property owners shall meet with the Department of Public Works- Transportation Division to discuss consolidating existing driveways and curb cuts.

(d) Parking Lot Regulations.

i. Perimeter Screening of Existing Parking Lots.

a. Location. Screening materials shall be placed parallel to the edge of the Bike/ Pedestrian Zone, accommodating curb cuts and behind the traffic sight triangle at intersections and driveways. See the Chattanooga City Code (Section 32-34) for sight triangle distance regulations. www.chattanooga.gov

b. Dimensions.

1. Screening shall have a minimum height of three (3) feet and a maximum height of four (4) feet above grade, and shall be nearly opaque to screen the parking from view.

2. Height is measured from the grade level of that which is being screened.

3. When landscape is used, the planting area shall have a minimum horizontal depth of four (4) feet.

c. Materials.

1. Perimeter screening of existing parking lots shall consist of perimeter landscape plantings, decorative masonry wall, or a combination of a decorative fence and landscape shrubs, approved by the City Landscape Architect.

2. All shrubs shall be installed at a minimum height of twenty-four (24) inches and spaced to create a complete screen within three (3) years after planting.

3. Landscape shrubs shall be maintained to achieve the minimum height of three (3) feet above grade or one hundred percent (100%) coverage shall be achieved within three (3) years of planting. Seventy-five percent (75%) of the plant material should be evergreen. If coverage is not obtained within three (3) years, supplemental plantings shall be required.

ii. Shade Trees in Parking Lot.

a. In addition to minimum Chattanooga Landscape Ordinance regulations, parking Lot Shade Trees shall be provided at a minimum rate of one (1) two and one-half (2.5) inch caliper tree for every seven (7) parking spaces.

b. If there is insufficient space to provide the required quantity of two and one-half (2.5) inch caliper shade trees due to conflicts with utilities, easements, or existing underground structures, a lesser quantity of larger caliper trees shall be provided. The quantity of larger trees shall be determined by calculating the total caliper inches required. Any combination of larger caliper trees shall be provided to meet that total. (For example, ten (10) two and one-half (2.5) inch caliper trees shall be required for seventy (70) parking spaces, therefore a total of twenty-five (25) caliper inches shall be provided through any combination of larger sized trees.)

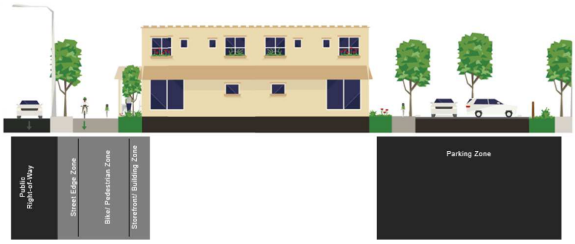
c. A shade tree shall be provided within forty (40) feet of every parking space, to ensure shade coverage throughout the parking lot.

iii. Parking Location. See Section (5)(h)(i). Note that the location regulations only apply to new or expanded parking facilities, not the existing parking lot.

iv. Parking Space Regulations. See Section (5)(h)(ii).

v. Off-Site Parking. See Section (5)(h)(iii).

Figure 3. New Development Profile Diagram



(5) New Development. See Figure 3. New Development Profile Diagram.

(a) Street Edge Zone. See Figure 4. Diagram of Street Edge, Bike/Pedestrian, & Storefront/Building Zones.

i. Dimensions / Location.

a. Location. The Street/Edge Zone is located:

1. Between the edge of the public right-of-way and the Bike/Pedestrian Zone; and

2. Parallel to the edge of the right-of-way.

3. Place trees, shrubs and other elements behind the traffic sight triangle at intersections and driveways. If these elements are necessary within the traffic sight triangle, limit their height to (3) three feet. See the Chattanooga City Code (Section 32-34) for sight distance triangle regulations. www.chattanooga.gov.

b. Length. Twelve (12) feet minimum. For the health of trees located in them, planting strips shall be twelve (12) feet minimum in length.

c. Width. Six (6) feet minimum, extends to the bike/pedestrian zone, excluding the curb dimensions.

d. Clear Path. Any vertical streetscape elements placed in the Street Edge Zone, such as street trees, bus shelters or lighting, shall be placed a minimum of 1.5 feet from the face of curb. The applicant shall refer to AASHTO's Roadside Design Guide for further information and guidance on roadside construction design specifications.

ii. Curb Cuts.

a. Only one (1) Brainerd Road and/or Lee Highway curb cut per one hundred fifty (150) linear feet of street frontage is permitted.

b. Property owners shall meet with the Department of Public Works- Transportation Division to discuss consolidating existing driveways and curb cuts.

iii. Elements Not Permitted. The following shall not be permitted in the Street Edge Zone: parking, chain link or slat fence, drive lanes, HVAC equipment and dumpsters.

iv. Street Edge Zone Materials.

a. Shall include street trees.

b. Shall not include paved surfaces.

c. May include lawn, shrubs, green infrastructure, bus shelters, road signage, street and pedestrian lighting.

d. Green Infrastructure (landscaped planters, bioswales, etc.). All development shall adhere to the City's water quality regulations. Refer to City of Chattanooga's Code, Chapter 31 and the City's Rainwater Management Guide for Green Infrastructure applications.

v. Street Trees.

a. Dimensions/ Location. Trees shall be provided at a rate of one (1) tree per thirty-five (35) linear feet of street frontage. Actual street tree spacing will reflect a twenty-five (25) or thirty (30) foot rhythm as determined by the Department of Public Works-Transportation Division.

b. The City's Urban Forester shall approve all of the following in the Street Edge Zone:

1. Selection of all trees; and

2. Removal or pruning of trees; and

3. Construction or demolition of any buildings fronting the Zone to ensure the protection of existing trees.

vi. Bus Shelters.

a. The Department of Public Works- Transportation Division (CDOT) will determine if a bus shelter is needed, based on a consultation with the Chattanooga Area Regional Transportation Authority (CARTA).

b. Coordinate the placement, design, lighting and construction of bus shelters with the CARTA and Public Works-Transportation.

vii. Lighting.

a. Pedestrian and street light design, type, spacing and mounting height shall be determined by the Department of Public Works- Transportation Division and the Electric Power Board.

1. New lighting in the Street Edge Zone shall be aligned with the street trees and parallel to the edge of right-of-way.

2. Exterior lighting shall be equipped with full cut-offs to direct light downward and to minimize glare, shadows, night sky pollution, and excessive light levels.

Figure 4. Diagram of Street Edge, Bike/Pedestrian, & Storefront/Building

(b) Bike/Pedestrian Zone.

i. Location. The Bike/Pedestrian Zone is located between the Street Edge Zone and the Storefront/Building Zone.

ii. Elements Not Permitted.

a. The following are not permitted in this Zone: parking, chain link or slat fence, drive lanes, HVAC equipment and dumpsters.

b. For safety reasons, building doors shall not open across or onto the Bike/Pedestrian Zone.

iii. Multi-use Path.

a. Width. Twelve (12) feet minimum.

b. Materials. Property owners shall meet with the Department of Public Works-Transportation Division to discuss materials.

c. Continental crosswalk pavement markings. Place a crosswalk at the intersection of the multi-use path and any drive aisles. Continental crosswalks feature a series of closely spaced two-foot wide solid white painted lines (longitudinal lines) paired with a limit (stop) line set back from the crosswalk to reduce vehicular encroachment into the crosswalk.

(c) Storefront/Building Zone.

i. Dimensions/Location.

a. Location. The Storefront/Building Zone is located between the Bike/Pedestrian Zone and all buildings fronting Brainerd Road and Lee Highway.

b. Width. Eight (8) feet maximum.

c. Elements Not Permitted. The following are not permitted in this Zone: parking, chain link or slat fence, drive lanes, HVAC equipment and dumpsters.

ii. Building Height.

a. No maximum building height.

b. The minimum building height for properties fronting Brainerd Road and Lee Highway shall be eighteen (18) feet.

iii. Building Placement.

a. Front Setback. Buildings shall have a maximum front setback of twenty-six (26) feet and a minimum setback of eighteen (18) feet fronting Brainerd Road and Lee Highway.

b. Buildings shall be built to the multi-use path, except in the following circumstance.

1. If an outdoor cafe or landscaped space is provided between the Bike/Pedestrian Zone and the building, then the building may be set back a maximum of eight (8) feet from the Bike/Pedestrian Zone.

2. If the building is set back from the Bike/Pedestrian Zone, a pedestrian walkway shall be provided from the multi-use path to the primary building entrance.

c. Primary building entries shall be clearly identifiable and visible from the street.

iv. Outdoor Cafe/Landscaped Space.

a. Incorporate planters, landscaping, decorative fencing, hedges, low walls, benches or other architectural elements, to frame and define the edge of the landscaped lawns, porches, patios, entry plazas, fountains, outdoor cafes and other man-made spaces.

b. Plant Materials: Plant trees, shrubs, vegetated groundcovers, ornamental grasses, and/or perennials in landscape beds, raised beds, lawns, planters, or tree wells.

v. Building Materials.

a. Use brick, natural and architectural cast stone, architectural pre-cast concrete, glass, glass block, architectural metal panel systems, or concrete masonry units with an architectural coloration or finish on the ground floor of building facades to provide interest for the pedestrian.

b. Other materials may be used on the upper floors.

c. Metal siding, aluminum siding, vinyl siding, synthetic rock, EIFS (synthetic stucco), or other similar exterior materials shall not be used for large expanses of facades. They may be used as accents.

d. Hard plastic awnings shall not be used. Awnings, when applied, shall consist of flexible canvas, acrylic, or vinyl coated material.

(d) On-premise Building Signs.

i. Within this Overlay Zone, the following regulations are applicable in addition to the general Advertising Provisions in Chapter 3 of the Chattanooga City Code.

ii. A City of Chattanooga Sign Permit is still required.

iii. Structural regulations in the Chattanooga Sign Ordinance still apply to the Brainerd Road Overlay Zone.

iv. The Brainerd Road Overlay Zone is exempt from all dimensions, location and type regulations in the Chattanooga Sign Ordinance.

v. Dimensions.

a. Signs on any one (1) side of a building, shall not exceed one and one half (1.5) square feet per linear foot of that building side. Awnings and permanent banners used for advertising are considered part of the building signage and square footage calculation.

b. Projecting signs shall not exceed sixteen (16) square feet in area.

c. Signs painted on windows shall not cover more than twenty percent (20%) of the total window area.

vi. Location.

a. Projecting signs shall be located a minimum of 12 inches below the second story window sill or top of the building, whichever is lower.

b. Signs shall be located to fit within the architectural elements such as in the lintel or sign frieze that separates the ground level from the upper facade, on the upper facade walls, or projecting from the face of the building.

c. Signs shall not obstruct the architectural elements and details of a building.

d. Wall signs shall be placed such that they align with other signs on the block.

e. Roof signs shall not be incorporated.

f. For buildings with multiple tenants, signs shall be located only on the portions of the building directly outside the area occupied by that tenant or contained within consolidated directories, as defined in the City Sign Ordinance.

vii. Type.

a. Signs shall be illuminated by indirect lighting. Internally illuminated box-type plastic signs shall not be permitted, but signs composed of illuminated individual letters shall be permitted.

b. Temporary signs or banners, regardless of size, shall only remain in place for 30 days and require a sign permit, per the Chattanooga Sign Ordinance.

c. Mass produced neon signs shall not be permitted.

(e) On-premise Monument Signs.

i. Monument Sign.

a. A monument sign is defined as an advertising or identification device that is ground mounted and constructed so that there is no space between the ground and the bottom of the device.

b. One monument sign is permitted per parcel.

c. Pole-mounted signs shall not be permitted.

ii. Dimensions/ Location.

a. Monument signs shall not exceed six feet (6') in height or ten feet (10') in width. Signs shall not exceed twenty-five (25) square feet per face and total sign area shall not exceed fifty (50) square feet total of all faces. Height is measured from the top of the sign to the lowest point of the ground upon which the proposed sign is to be located.

b. Monument signs shall not be located in the sight distance triangle or otherwise obstruct lines of sight for vehicular or pedestrian traffic.

c. Monument signs shall not be closer than eighteen (18) feet to any right-of-way, and shall not be located in the Street Edge Zone or Bike/Pedestrian Zone.

iii. Materials. Materials that match the materials of the associated building shall be used.

iv. Illumination.

a. Signs shall be illuminated by indirect lighting. Internally illuminated box-type plastic signs shall not be permitted, but signs composed of illuminated individual letters shall be permitted.

(f) Off-premise Billboard Signs. Off premise billboard signs shall not be permitted.

(g) Bike Racks.

i. Bike Racks are not required, but when provided they shall adhere to the following regulations.

a. Each bicycle parking space shall be at least six feet long by two feet wide; and

b. Shall be located within fifty (50) feet of the building entrance.

c. Bicycle parking racks shall be securely attached to the ground and provide support for a bicycle frame at two points.

(h) Parking Zone.

i. Location.

a. The Parking Zone is located to the rear of buildings.

b. New parking shall not be permitted between a building and the Brainerd Road and/or Lee Highway street frontage.

Figure 5. Parking Zone Behind Buildings

c. If all new parking cannot be accommodated to the rear of the building, parking on the side of the building may be allowed if it is screened from the public right-of-way as described in Section (4)(d).

d. Parking areas shall be connected to parking and access drives of adjacent properties to provide cross-connection. Fences and other barriers shall be removed that prevent interconnection for cars and pedestrians.

e. Garages for new residential dwellings shall be located behind the primary building.

ii. Parking Space Regulations

a. Reference Table 1700 (Article V, Section 38-471) and the underlying Zone for the required number of parking spaces.

b. The number of spaces provided shall not exceed the required number of spaces by more than fifty percent (50%).

c. A minimum of four (4) bicycle parking spaces are required, plus one bicycle parking space for every fifty (50) required car parking spaces.

d. Parking Discounts. Public Works-Transportation may allow the following discounts for required car parking spaces. Applicants should schedule a consultation with Public Works-Transportation to determine potential parking discounts.

1. Bicycle. One (1) car parking space may be discounted for every bicycle parking space required.
2. Pedestrian. If the development connects via new or existing sidewalks to an established sidewalk grid that links multiple land uses (i.e. commercial, residential, office), a ten percent (10%) discount may be applied.
3. Transit. If the development is located within one-quarter (1/4) mile of an established transit stop, a ten percent (10%) discount may be applied.

e. Shared Parking. Parking space discounts may be applied to developments that share parking with facilities serving other uses according to the following chart:

	Residential	*Lodging*	*Office*	*Retail*	*Institution*
Residential	0%	10%	30%	20%	30%
Lodging	10%	0%	50%	30%	20%
Office	30%	50%	0%	20%	50%
Retail	20%	30%	20%	0%	30%
Institution	30%	20%	50%	30%	0%

1. Shared parking discounts are applied before multi-modal discounts
2. To apply shared parking discounts for facilities on separate parcels, a legal agreement between property owners guaranteeing access to and use of designated parking areas is required.

iii. Off-Site Parking.

a. Forty percent (40%) of required car parking spaces, except required accessible spaces, may be located off-site if the remote parking area is located within 700 feet from the primary entrance of the facility served.

b. On-street parking spaces may be counted as required parking spaces provided the on-street spaces abut the subject property.

iv. Parking Lot Lighting.

a. All parking lot lighting shall be equipped with full cut-offs to direct light downward and to minimize glare, shadows, night sky pollution, and excessive light levels.

b. Light spill on neighboring property shall not be permitted.

c. Maximum mounting height of light fixtures in parking lots shall be twenty (20) feet.

v. Shade Trees / Landscape / Green Infrastructure.

a. All development shall adhere to the City's water quality regulations. Refer to City of Chattanooga's Code, Chapter 31 and the City's Rainwater Management Guide for Green Infrastructure applications.

b. See Section (4)(d) for required parking lot shade tree regulations.

(i) Screening of Utilities. Completely screen dumpsters, loading areas, mechanical equipment, outdoor storage areas, and other visible utilities with an opaque wall or fence as follows:

i. The height of the screen shall be a minimum of six (6) feet, or twelve (12) inches taller than the object, whichever is higher, and adequate to completely conceal the dumpster or equipment.

ii. Chain link fences or slats shall not be permitted.

iii. Screens shall consist of masonry, stucco, stone, wood, or decorative metal.

iv. Landscaping, including shrubs, trees, perennials, or green screens, shall be added to screening to soften the appearance of screening walls or fences.

(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24)

Sec. 38-36. FAA Aviation Overlay Zone

Property within the FAA Aviation Overlay Zone, as defined in Chapter 8 of the Chattanooga City Code and shown on the AOD Map, attached as Appendix A to Chapter 8, are subject to additional requirements described in Chapter 8 in addition to the requirements set forth of this Code.
(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24)

Sec. 38-37. Airport Use Zone

(a) Property Owned by Chattanooga Metropolitan Airport Authority

Property within the Airport Use Zone, as defined in Chattanooga City Code Chapter 8 and shown on the Airport Use Zone Map, attached as Appendix B to Chattanooga City Code Chapter 8, which is owned by the Chattanooga Metropolitan Airport Authority, is governed by the permitted uses and requirements described in Chattanooga City Code Chapter 8 and the zones of this Zoning Code do not apply.

(b) Property Not Owned by Chattanooga Metropolitan Airport Authority

For all property owners of land within the Airport Use Zone, except for the Chattanooga Metropolitan Airport Authority, the zones and requirements described in this Zoning Code apply and the Airport Use Zone, as described in Chattanooga City Code Chapter 8, has no effect.
(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24)

Sec. 38-38. Special Flood Hazard Area

(a) Applicability.

This section shall apply to all areas within the incorporated area of the City of Chattanooga, Tennessee.

(i) Statutory Authorization.

(1) The Legislature of the State of Tennessee has in Sections 13-7-201 through 13-7-210, Tennessee Code Annotated delegated the responsibility to local governmental units to adopt regulations designed to promote the public health, safety, and general welfare of its citizenry. Therefore, the City of Chattanooga, Tennessee, Mayor and the Chattanooga City Council, do ordain as follows:

(ii) Finding of Facts.

(1) The City of Chattanooga, Tennessee, Mayor and its City Council wishes to MAINTAIN eligibility in the National Flood Insurance Program (NFIP) and in order to do so must meet the NFIP regulations found in Title 44 of the Code of Federal Regulations (CFR), Ch. 1, Section 60.3.

(2) Areas of the City of Chattanooga, Tennessee are subject to periodic inundation which could result in loss of life and property, health and safety hazards, disruption of commerce and governmental services, extraordinary public expenditures for flood protection and relief, and impairment of the tax base, all of which adversely affect the public health, safety and general welfare.

(3) Flood losses are caused by the cumulative effect of obstructions in floodplains, causing increases in flood heights and velocities; by uses in flood hazard areas which are vulnerable to floods; or construction which is inadequately elevated, floodproofed, or otherwise unprotected from flood damages.

(iii) Purpose.

It is the purpose of this section to promote the public health, safety and general welfare and to minimize public and private losses due to flood conditions in specific areas. This section is designed to:

1. Regulate development in the flood hazard areas of the City of Chattanooga. These flood hazard areas are subject to periodic inundation, which may result in loss of life and property, health and safety hazards, disruption of commerce and governmental services, extraordinary public expenditures for flood protection and relief, and impairment of the tax base;
2. Restrict or prohibit uses which are vulnerable to flooding or erosion hazards, or which result in damaging increases in erosion, flood heights, or velocities;
3. Require that uses vulnerable to floods, including community facilities, be protected against flood damage at the time of initial construction;
4. Control the alteration of natural floodplains, stream channels, and natural protective barriers which are involved in the accommodation of floodwaters;
5. Control filling, grading, dredging and other development which may increase flood damage or erosion;
6. Prevent or regulate the construction of flood barriers which will unnaturally divert flood waters or which may increase flood hazards to other lands;
7. Promote sound land use practices - floodplains are a land resource to be developed in a manner which will result in minimum loss of life and threat to health, and reduction of private and public economic loss caused by flooding; and
8. Preserve the natural characteristics and functions of watercourses and floodplains in order to moderate flood and stormwater impacts, improve water quality, reduce soil erosion, protect aquatic and riparian habitat, provide recreational opportunities, provide aesthetic benefits and enhance community and economic development.

(iv) Floodplain Definitions.

For the purposes of this section of the ordinance, the following definitions apply:

Development. Any man-made change to improved or unimproved real estate, including, but not limited to, buildings or other structures, mining, dredging, filling, grading, paving, excavating, drilling operations, or storage of equipment or materials.

Exception. A waiver from the provisions of this Ordinance which relieves the applicant from the requirements of a rule, regulation, order or other determination made or issued pursuant to this Ordinance.

Variance. A grant of relief from the requirements of this Ordinance.

(v) Objectives.

The objectives of this Ordinance are:

(1) To protect human life, health, safety and property;

(2) To minimize expenditure of public funds for costly flood control projects;

(3) To minimize the need for rescue and relief efforts associated with flooding and generally undertaken at the expense of the general public;

(4) To minimize prolonged business interruptions;

(5) To minimize damage to public facilities and utilities such as water and gas mains, electric, telephone and sewer lines, streets and bridges located in floodprone areas;

(6) To help maintain a stable tax base by providing for the sound use and development of floodprone areas to minimize blight in flood areas;

(7) To ensure that potential homebuyers are notified that property is in a floodprone area; and

(8) To MAINTAIN eligibility for participation in the NFIP.

(vi) Abrogation and Greater Restrictions.

It is not intended by this ordinance to repeal, abrogate, or impair any existing easements, covenants, or other private agreements. The standards in this ordinance take precedence over any less restrictive, conflicting local laws, ordinances, or codes. However, where this section conflicts or overlaps with another regulatory instrument, whichever imposes the more stringent restrictions shall prevail.

(vii) Interpretation.

In the interpretation and application of these regulations, all provisions must be:

(1) Considered as minimum requirements.

(2) Liberally construed in favor of the governing body.

(3) Deemed neither to limit nor repeal any other powers granted under state statutes.

(viii) Warning and Disclaimer of Liability.

The degree of flood protection required by this section is considered reasonable for regulatory purposes and is based on scientific and engineering considerations. Larger floods can and will occur on rare occasions. Flood heights may be increased by man-made or natural causes.

This section does not imply that land outside the Areas of Special Flood Hazard or uses permitted within such areas will be free from flooding or flood damages. This section shall not create liability on the part of the City of Chattanooga, Tennessee or by any officer or employee thereof for any flood damages that result from reliance on this section or any administrative decision lawfully made hereunder.

(ix) Severability.

If any section, clause, provision, or portion of this section shall be held to be invalid or unconstitutional by any court of competent jurisdiction, such holding shall not affect any other section, clause, provision, or portion of this section which is not of itself invalid or unconstitutional.

(b) Permitted Uses.

Any lawful use permitted in the various zones is also permitted in the portions of such zones underlying the Special Flood Hazard Area subject to all applicable zone standards, off-street parking, and other regulations applicable in such zones. However, in the case of conflict, the provisions of this section for flood hazard reduction control.

(c) Jurisdiction and Districts.

(1) This ordinance applies to all lands within the jurisdiction of the City of Chattanooga within the Special Flood Hazard Areas identified on the Flood Insurance Rate maps. Areas within the SFHA are within one of three districts: the Floodway, Flood Fringe, General Floodplain.

(2) The Areas of Special Flood Hazard identified on the City of Chattanooga, Tennessee, as identified by FEMA, and in its Flood Insurance Study (FIS) and Flood Insurance Rate Map (FIRM), Community Panel Numbers 47065C0214H, 47065C0217H, 47065C0218H, 47065C0219H, 47065C0228H, 47065C0229H, 47065C0236H, 47065C0237H, 47065C0238H, 47065C0239H,

47065C0241H, 47065C0243H, 47065C0245H, 47065C0265H, 47065C0319H, 47065C0326H, 47065C0327H, 47065C0328H, 47065C0329H, 47065C0331H, 47065C0332H, 47065C0333H, 47065C0334H, 47065C0336H, 47065C0337H, 47065C0338H, 47065C0339H, 47065C0341H, 47065C0342H, 47065C0343H, 47065C0344H, 47065C0351H, 47065C0352H, 47065C0353H, 47065C0354H, 47065C0356H, 47065C0357H, 47065C0358H, 47065C0359H, 47065C0361H, 47065C0362H, 47065C0363H, 47065C0364H, 47065C0366H, 47065C0367H, 47065C0368H, 47065C0369H, 47065C0378H, 47065C0379H, 47065C0380H, 47065C0381H, 47065C0383H, 47065C0386H, 47065C0387H, 47065C0388H, 47065C0432H, 47065C0451H, 47065C0452H, 47065C0456H, 47065C0477H, 47065C0481H, 47065C0482H, and 47065CIND0C dated November 28, 2025, along with all supporting technical data, are adopted by reference and declared to be a part of this Ordinance.

(3) In this section, "Map" means the Flood Hazard Boundary Map (FHBM) or the Flood Insurance Rate Map (FIRM) for a community issued by FEMA.

(4) Districts.

(i) Floodway District. Those areas within Zone AE delineated within floodway areas as shown on the Flood Insurance Rate Maps referenced in section (c) (2) and those areas within Zone A determined to be located in the floodway based on the delineation methods in General Floodplain District.

(ii) Flood Fringe District. Those areas within Zone AE located outside of the delineated floodway as shown on the Flood Insurance Rate Maps referenced in section (c) (2), and those areas within Zone A determined to be located in the flood fringe based on the delineation methods in the Zone standards.

General Standards for all Floodplain Districts

(i) General Standards

(1) New construction and substantial improvements shall be anchored to prevent flotation, collapse and lateral movement of the structure;

(2) New construction and substantial improvements shall be constructed with materials and utility equipment resistant to flood damage;

(3) New construction and substantial improvements shall be constructed by methods and practices that minimize flood damage;

(4) Electrical, heating, ventilation, plumbing, and air conditioning equipment and other service facilities must be designed and/or located so as to prevent water from entering or accumulating within the components during conditions of flooding;

(5) All new and replacement water supply systems must be designed to minimize or eliminate infiltration of flood waters into the system in accordance with regulations of the Tennessee Department of Health;

(6) New and replacement sanitary sewage systems must be designed to minimize or eliminate infiltration of flood waters into the systems and discharges from the systems into flood waters in accordance with regulations of the Tennessee Department of Health. Sewers and manholes constructed below the 100-year elevation must be watertight. All manholes must be constructed so that the manhole covers are not below the High Water Stage;

(7) On-site waste disposal systems are not allowed;

(8) Any alteration, repair, reconstruction, or improvements to a building on which the start of construction was begun after the effective date of these regulations, must meet the requirements of "new construction" as contained in these regulations;

(9) All new construction and substantial improvement proposals shall provide copies of all necessary Federal and State permits, including Section 404 of the Federal Water Pollution Control Act amendments of 1972, 33 U.S.C. 1334;

(10) All subdivision proposals and other proposed new development proposals shall meet the standards of Article V, Section B;

(11) When proposed new construction and substantial improvements are partially located in an area of special flood hazard, the entire structure shall meet the standards for new construction; and

(12) When proposed new construction and substantial improvements are located in multiple flood hazard risk zones or in a flood hazard risk zone with multiple Base Flood Elevations, the entire structure shall meet the standards for the most hazardous flood hazard risk zone and the highest Base Flood Elevation.

(ii) Specific Standards.

In all areas of special flood hazard where base flood elevation data has been determined, the following specific provisions are required as determined by the intended land use in addition to those set forth in sec. 38-38 (d) (i), are required;

(1) Residential Structures.

In AE Zones where Base Flood Elevation data is available, new construction and substantial improvement of any residential building (or manufactured home) shall have the lowest floor, including basement, elevated to no lower than two (2) feet above the Base Flood Elevation if constructed of wood or one (1) foot above base flood elevation if constructed or concrete (slab on grade type of construction). Should solid foundation perimeter walls be used to elevate a structure, openings sufficient to facilitate equalization of flood hydrostatic forces on both sides of exterior walls shall be provided in accordance with the standards of this section: "Enclosures" item (3) below.

Within approximate A Zones where Base Flood Elevations have not been established and where alternative data is not available, the administrator shall require the lowest floor of a building to be elevated to a level of at least three (3) feet above the highest adjacent grade (as defined in Article II). Should solid foundation perimeter walls be used to elevate a structure, openings sufficient to facilitate equalization of flood hydrostatic forces on both sides of exterior walls shall be provided in accordance with the standards of this section: "Enclosures"

(2) Non-Residential Structures.

In AE Zones, where Base Flood Elevation data is available, new construction and substantial improvement of any commercial, industrial, or non-residential building, shall have the lowest floor, including basement, elevated or floodproofed to no lower than one (1) foot above the level of the Base Flood Elevation. Should solid foundation perimeter walls be used to elevate a structure, openings sufficient to facilitate equalization of flood hydrostatic forces on both sides of exterior walls shall be provided in accordance with the standards of this section: "Enclosures" item (3) below.

In approximate A Zones, where Base Flood Elevations have not been established and where alternative data is not available, new construction and substantial improvement of any commercial, industrial, or non-residential building, shall have the lowest floor, including basement, elevated or floodproofed to no lower than three (3) feet above the highest adjacent grade (as defined in Article II). Should solid foundation perimeter walls be used to elevate a structure, openings sufficient to facilitate equalization of flood hydrostatic forces on both sides of exterior walls shall be provided in accordance with the standards of this section: "Enclosures"

Non-Residential buildings located in all A Zones may be floodproofed, in lieu of being elevated, provided that all areas of the building below the required elevation are watertight, with walls substantially impermeable to the passage of water, and are built with structural components having the capability of resisting hydrostatic and hydrodynamic loads and the effects of buoyancy. A Tennessee registered professional engineer or architect shall certify that the design and methods of construction are in accordance with accepted standards of practice for meeting the provisions above, and shall provide such certification to the Administrator as set forth in Article IV, Section B.

A registered professional engineer, architect, or license surveyor must certify that the standards of this subsection are satisfied. Such certification and the specific elevation (in relation to mean sea level) to which such structures are flood proofed must be provided to the Land Development Office.

(3) Enclosures.

All new construction and substantial improvements that include fully enclosed areas formed by foundation and other exterior walls below the lowest floor that are subject to flooding, shall be designed to preclude finished living space and designed to allow for the entry and exit of flood waters to automatically equalize hydrostatic flood forces on exterior walls.

a) Designs for complying with this requirement must either be certified by a Tennessee professional engineer or architect or meet or exceed the following minimum criteria.

i) Provide a minimum of two openings having a total net area of not less than one (1) square inch for every square foot of enclosed area subject to flooding;

ii) The bottom of all openings shall be no higher than one (1) foot above the finished grade; and

iii) Openings may be equipped with screens, louvers, valves or other coverings or devices provided they permit the automatic flow of floodwaters in both directions.

b) The enclosed area shall be the minimum necessary to allow for parking of vehicles, storage or building access.

c) The interior portion of such enclosed area shall not be finished or partitioned into separate rooms in such a way as to impede the movement of floodwaters and all such partitions shall comply with the provisions of Article V, Section B.

(iii) Permit Required.

A floodplain development permit shall be required for all proposed construction or other development, including the placement of manufactured homes, in the areas described in section (c) (2). No person, firm, corporation, or unit of government shall initiate any development or substantial-improvement or cause the same to be done without first obtaining a separate floodplain development permit for each structure or other development.

A permit must be obtained from the Director to verify compliance with all applicable standards outlined in this ordinance prior to the following uses or activities:

(1) The erection, addition, modification, maintenance, rehabilitation, repair, or alteration of any building, structure, or portion thereof. Normal maintenance requires a permit to determine if such work, either separately or in conjunction with other planned work, constitutes a substantial improvement.

(2) The construction of a fence, pool, deck, or placement of anything that may cause a potential obstruction.

a) The change or expansion of a nonconforming use.

b) The repair of a structure that has been damaged by flood, fire, tornado, or any other source.

c) The placement of fill, excavation, utilities, on-site sewage treatment systems, or other service facilities.

d) Relocation or alteration of a watercourse (including stabilization projects or the construction of new or replacement dams, culverts and bridges). A local permit is not required if a public waters work permit has been obtained from the Department of Natural Resources, unless a significant area above the ordinary high water level is also to be disturbed.

e) Any other type of "development," as defined in the definitions section of this ordinance.

(iv) No permit for floodplain development shall be granted for new construction, substantial-improvements, and other improvements, including the placement of manufactured homes, within any numbered or unnumbered A zones and AE zones, unless the conditions of this Section are satisfied.

(v) All areas identified as unnumbered A zones on the FIRM are subject to inundation of the 100-year flood; however, the base flood elevation is not provided. Development within unnumbered A zones is subject to all provisions of this Chapter. If Flood Insurance Study data is not available, the community shall obtain, review, and reasonably utilize any base flood elevation or floodway data currently available from Federal, State, or other sources.

(vi) All new construction, subdivision proposals, substantial-improvements, prefabricated structures, placement of manufactured homes, and other developments shall require:

a. Design or adequate anchorage to prevent flotation, collapse, or lateral movement of the structure resulting from hydrodynamic and hydrostatic loads, including the effects of buoyancy;

b. Construction with materials resistant to flood damage;

c. Utilization of methods and practices that minimize flood damages;

d. All electrical, heating, ventilation, plumbing, air-conditioning equipment, and other service facilities be designed and/or located so as to prevent water from entering or accumulating within the components during conditions of flooding;

e. New or replacement water supply systems and/or sanitary sewage systems be designed to minimize or eliminate infiltration of flood waters into the systems and discharges from the systems into flood waters, and on-site waste disposal systems be located so as to avoid impairment or contamination; and

f. Subdivision proposals and other proposed new development, including manufactured home parks or subdivisions, located within special flood hazard areas are required to assure that:

i. All such proposals are consistent with the need to minimize flood damage;

ii. All public utilities and facilities, such as sewer, gas, electrical, and water systems are located and constructed to minimize or eliminate flood damage;

iii. Adequate drainage is provided so as to reduce exposure to flood hazards; and

iv. All proposals for development, including proposals for manufactured home parks and subdivisions, of five (5) acres or fifty (50) lots, whichever is lesser, include within such proposals Base Flood Elevation data.

(vii) Storage, Material, And Equipment.

The storage or processing of materials within the special flood hazard area that are in time of flooding buoyant, flammable, explosive, or could be injurious to human, animal, or plant life is prohibited.

Storage of other material or equipment may be allowed if not subject to major damage by floods, if firmly anchored to prevent flotation, or if readily removable from the area within the time available after a flood warning.

(viii) Accessory Structures.

For this section of the Section, Accessory Structures shall mean a subordinate structure to the principal structure on the same lot and, for the purpose of this Ordinance, shall conform to the following:

(1) Accessory structures shall only be used for parking of vehicles and storage, not attached to any other structure on the site.

(2) Accessory structures shall be designed to have low flood damage potential.

(3) Accessory structures shall be constructed and placed on the building site so as to offer the minimum resistance to the flow of floodwaters.

(4) Accessory structures shall be firmly anchored to prevent flotation, collapse, and lateral movement, which otherwise may result in damage to other structures.

(5) Utilities and service facilities such as electrical and heating equipment shall be elevated or otherwise protected from intrusion of floodwaters.

(6) Accessory Structures shall be of limited investment value, and not larger than four hundred (400) square feet, may be constructed at-grade and wet-floodproofed provided there is no human habitation or occupancy of the structure; the structure is of single-wall design; a variance has been granted from the standard floodplain management requirements of this Chapter; and a floodplain development permit has been issued.

(ix) Substantial Improvement and Substantial Damage Determinations. Prior to issuing any permits for additions, modifications, rehabilitations, repairs, alterations, or maintenance to nonconforming structures, the Director is required to determine if such work constitutes substantial improvement or repair of a substantially damaged structure. A determination must be made in accordance with the following procedures:

(1) Estimate the market value of the structure. In the case of repairs, the market value of the structure shall be the market value before the damage occurred and before any restoration or repairs are made.

(2) Estimate the cost of the project. The property owner shall accommodate for inspection, and furnish other documentation needed by the Director to evaluate costs.

a) Improvement costs shall be comprised of the market rate of all materials and labor, as well as the costs of all ordinary maintenance and upkeep carried out over the past one year.

b) Costs to repair damages shall be comprised of the market rate of all materials and labor required to restore a building to its pre-damaged condition regardless of the work proposed, as well as associated improvement costs if structure is being restored beyond its pre-damaged condition.

(3) Compare the cost of the improvement, repairs, or combination thereof to the estimated market value of the structure and determine whether the proposed work constitutes substantial improvement or repair of a substantially damaged structure.

a) For the purposes of determining whether the proposed work would constitute substantial improvement, the evaluation shall also include all rehabilitations, additions, or other improvements completed since the community has adopted floodplain standards impacting this structure.

b) If any nonconforming structure experiences a repetitive loss it shall be considered substantially damaged and must not be reconstructed except in conformity with the provisions of this ordinance.

(4) Based on this determination, the Director shall prepare a determination letter and notify the property owner accordingly. Structures determined to be substantially damaged or substantially improved may not be reconstructed except in conformity with the provisions of this ordinance.

(d) Floodway District.

(i) Established

(1) The Floodway District is all parcels on the FIS that are categorized as Floodway.

(ii) The F/W Floodway Zone is established to:

(1) Maintain the capability of the Tennessee River (Nickajack Lake), its tributaries, and their adjacent lands to drain flood waters .....

(2) Protect the river, creek channels, streams, and flood plains from encroachment, so that flood heights and flood damage will not be increased

(3) Provide necessary regulations for the protection of the public health and safety,

(4) Reduce the financial burdens imposed upon the community by floods and the inundation of land

(iii) Permitted Uses in Floodway.

Development allowed in the floodway district is limited to that which has low flood damage potential and will not obstruct flood flows, increase velocities, or increase the water surface elevations of the one-percent annual chance flood.

No structures are allowed in the Floodway District other than water control, public utility facilities, and water-oriented industries which are permitted in or adjacent to water courses for approved operation.

The following uses and activities may be allowed with a permit:

(1) Recreational uses, airport landing strips, water control structures, navigational facilities, as well as public open space uses.

(2) Roads, driveways, railroads, trails, bridges, and culverts.

(3) Public utility facilities and water-oriented industries which must be in or adjacent to watercourses.

(4) Grading, filling, and land alterations as it pertains to shoreline stabilization projects.

(iv) Standards for Permitted Uses in Floodway. In addition to the applicable standards detailed in Section 38-38 (d):

(1) Permit encroachments within the adopted regulatory floodway that would result in an increase in base flood elevations, floodway width or base flood discharge, shall only be allowed if the applicant first has applied for a Conditional Letter of Map Revision (CLOMR) in accordance with 44 CFR § 65.12, and FEMA has issued the CLOMR prior to the start of construction. Upon completion of the project, the applicant shall apply for a Letter of Map Revision (LOMR) from FEMA. Submittal requirements and fees shall be the responsibility of the applicant as established under the provisions of § 65.12.

(2) The applicant must demonstrate that the development will not result in any of the following during the one percent annual chance flood: cause a stage increase of 0.00 feet or greater, obstruct flood flows, or increase velocities. This shall be demonstrated through hydrologic

and hydraulic analysis performed by a professional engineer or using other standard engineering practices (e.g. projects that restore the site to the previous cross-sectional area). This is commonly documented through a "no-rise certification."

(3) Any development resulting in a change to the water surface elevation of the base flood identified in the Flood Insurance Study requires a Letter of Map Revision (LOMR) following the procedure.

(e) Flood Fringe District.

(i) Established. Located within the Special Flood Hazard Areas, where streams exist with base flood data provided but where no floodways have been designated (Zones AE, AH,) and/or there is no established Base Flood Elevations (Zone A, AO, A-99, Unmapped Streams).

(ii) Permitted Uses in Flood Fringe. Any uses or activities allowed in any applicable underlying zoning districts may be allowed with a permit, subject to the standards set forth in Section 38-38 (d) and the standards outlined below.

(iii) Standards for Permitted Uses in Flood Fringe District. Located within the Special Flood Hazard Areas are areas designated as floodways that may be an extremely hazardous area due to the velocity of floodwaters, debris or erosion potential. In addition, the area must remain free of encroachment in order to allow for the discharge of the base flood without increased flood heights and velocities.

Therefore, the following provisions shall apply:

(1) Standards for Special Flood Hazard Areas with Established Base Flood Elevations and With Floodways Designated

a) Require until a regulatory floodway is designated, that no new construction, substantial improvements, or other development, including fill shall be permitted within Zone AE on the community's FIRM, unless it is demonstrated through hydrologic and hydraulic analyses performed that the cumulative effect of the proposed development, when combined with all other existing and anticipated development, will not increase the water surface elevation of the base flood more than one (1) foot at any point within the community.

b) Permit encroachments within the adopted regulatory floodway that would result in an increase in base flood elevations, floodway width or base flood discharge, shall only be allowed if the applicant first has applied for a Conditional Letter of Map Revision (CLOMR) in accordance with 44 CFR § 65.12, and FEMA has issued the CLOMR prior to the start of construction. Upon completion of the project, the applicant shall apply for a Letter of Map Revision (LOMR) from FEMA. Submittal requirements and fees shall be the responsibility of the applicant as established under the provisions of § 65.12.

c) ONLY if Section 38-38 (f) (iii), provisions (1) through (2) are satisfied, then any new construction or substantial improvement shall comply with all other applicable flood hazard reduction provisions of Section 38-38 (d), subsections (i) and (ii).

(2) Standards for Areas of Special Flood Hazard Zones AE with Established Base Flood Elevations but Without Floodways Designated

Located within the Special Flood Hazard Areas where streams exist with base flood data provided but where no floodways have been designated (Zones AE).

Therefore the following provisions apply:

a) Require until a regulatory floodway is designated, that no new construction, substantial improvements, or other development, including fill shall be permitted within Zone AE on the community's FIRM, unless it is demonstrated through hydrologic and hydraulic analyses performed that the cumulative effect of the proposed development, when combined with all other existing and anticipated development, will not increase the water surface elevation of the base flood more than one (1) foot at any point within the community.

b) A community may permit encroachments within Zones AE on the community's FIRM, that would result in an increase in the water surface elevation of the base flood, provided that the applicant first applies for a Conditional Letter of Map Revision (CLOMR) from FEMA prior to the start of construction. Upon completion of the project, the applicant shall apply for a Letter of Map Revision (LOMR) from FEMA. Submittal requirements and fees shall be the responsibility of the applicant as established under the provisions of § 65.12.

c) ONLY if Article V, Section D, provisions (1) through (2) are satisfied, then any new construction or substantial improvement shall comply with all other applicable flood hazard reduction provisions of Article V, Sections A and B.

(3) Standards for Streams without Established Base Flood Elevations and Floodways (A Zones)

Located within the Special Flood Hazard Areas where streams exist, but no base flood data has been provided and where a Floodway has not been delineated,

Therefore the following provisions shall apply:

a) The Administrator shall obtain, review, and reasonably utilize any Base Flood Elevation and floodway data available from any Federal, State, or other sources, including data developed as a result of these regulations (see 2 below), as criteria for requiring that new construction, substantial improvements, or other development in approximate A Zones meet the requirements of Section 38-38(e), Section 38-38(f).

b) Require that all new subdivision proposals and other proposed developments (including proposals for manufactured home parks and subdivisions) greater than 50 lots or 5 acres, whichever is the lesser, include within such proposals Base Flood Elevation data.

c) Within approximate A Zones, where Base Flood Elevations have not been established and where such data is not available from other sources, require the lowest floor of a building to be elevated or floodproofed to a level of at least three (3) feet above the highest adjacent grade. All applicable data including elevations or floodproofing certifications shall be recorded. Openings sufficient to facilitate automatic equalization of hydrostatic flood forces on exterior walls shall be provided in accordance with the standards of Section 38-38(e).

d) Within approximate A Zones, where Base Flood Elevations have not been established and where such data is not available from other sources, no encroachments, including structures or fill material, shall be located within an area equal to the width of the stream or twenty feet (20), whichever is greater, measured from the top of the stream bank, unless certification by a Tennessee registered professional engineer is provided demonstrating that the cumulative effect of the proposed development, when combined with all other existing and anticipated development, will not increase the water surface elevation of the base flood more than one (1) foot at any point within the City of Chattanooga, Tennessee. The engineering certification should be supported by technical data that conforms to standard hydraulic engineering principles.

e) New construction and substantial improvements of buildings, where permitted, shall comply with all applicable flood hazard reduction provisions of Section 38-38 (d), (i) and

(ii). Within approximate A Zones, require that those subsections of Article V Section B dealing with the alteration or relocation of a watercourse, assuring watercourse carrying capacities are maintained and manufactured homes provisions are complied with as required.

(4) Standards For Areas of Shallow Flooding (Zone AO)

Located within the Special Flood Hazard Areas are areas designated as shallow flooding areas having special flood hazards associated with base flood depths of one (1) to three (3) feet where a clearly defined channel does not exist and where the path of flooding is unpredictable and indeterminate. In addition to Section 38-38 (d), (i)and (ii), all new construction and substantial improvements shall meet the following requirements:

a) The lowest floor (including basement) shall be elevated at least as high as the depth number specified on the Flood Insurance Rate Map (FIRM), in feet, plus a freeboard of one (1) foot above the highest adjacent grade; or at least three (3) feet above the highest adjacent grade, if no depth number is specified.

b) Non-residential structures may, in lieu of elevation, be floodproofed to the same level as required in Section 38-38 (f)(iii)(4)(a) so that the structure, together with attendant utility and sanitary facilities, below that level shall be watertight with walls substantially impermeable to the passage of water and with structural components having the capability of resisting hydrostatic and hydrodynamic loads and effects of buoyancy. Certification is required by a Tennessee registered professional engineer.

c) Adequate drainage paths shall be provided around structures on slopes, to guide floodwaters around and away from proposed structures.

(5) Standards For Areas of Shallow Flooding (Zone AH).

Located within the Special Flood Hazard Areas are areas designated as shallow flooding areas. These areas are subject to inundation by 1-percent-annual-chance shallow flooding (usually areas of ponding) where average depths are one (1) to three (3) feet. In addition to meeting the requirements of Section 38-38 (d),(1) and (2), all new construction and substantial improvements shall provide adequate drainage paths around structures on slopes, to guide floodwaters around and away from proposed structures.

(6) Standards For Areas Protected by Flood Protection System (A-99 Zones).

Located within the Areas of Special Flood Hazard are areas of the 100-year floodplain protected by a flood protection system but where Base Flood Elevations have not been determined. Within these areas (A-99 Zones) all provisions of Section 38-38 (d) and (i) shall apply.

(7) Standards for Unmapped Streams.

Located within the City of Chattanooga, Tennessee, are unmapped streams where areas of special flood hazard are neither indicated nor identified.

Adjacent to such streams, the following provisions shall apply:

a) No encroachments including fill material or other development including structures shall be located within an area of at least equal to twice the width of the stream, measured from the top of each stream bank, unless certification by a Tennessee registered professional engineer is provided demonstrating that the cumulative effect of the proposed development, when combined with all other existing and anticipated development, will not increase the water surface elevation of the base flood more than one (1) foot at any point within the locality.

b) When a new flood hazard risk zone, and Base Flood Elevation and floodway data is available, new construction and substantial improvements shall meet the standards established in accordance with Section 38-38 (d) and (i).

c) ONLY if Section 38-38 (f)(iii)(7), provisions (a) and (b) are satisfied, then any new construction or substantial improvement shall comply with all other applicable flood reduction provisions of Section 38-38 (d), (i) and (ii).

(f) Standards for Manufactured Homes and Recreational Vehicles.

(i) In this section, "Existing Manufactured Home Park or Subdivision" means a manufactured home park or subdivision for which the construction of facilities for servicing the lots on which the manufactured homes are to be affixed (including, at a minimum, the installation of utilities, the construction of streets, final site grading or the pouring of concrete pads) is completed before the effective date of the first floodplain management code or ordinance adopted by the community as a basis for that community's participation in the NFIP.

(ii) In this section, "Expansion to an Existing Manufactured Home Park or Subdivision" means the preparation of additional sites by the construction of facilities for servicing the lots on which the manufactured homes are to be affixed (including the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads).

(iii) In this section "Recreational Vehicle" means a vehicle which is:

(1) Built on a single chassis;

(2) 400 square feet or less when measured at the largest horizontal projection;

(3) Designed to be self-propelled or permanently towable by a light duty truck;

(4) Designed primarily not for use as a permanent dwelling but as temporary living quarters for recreational, camping, travel, or seasonal use.

(iv) All manufactured homes placed or substantially improved on individual lots or parcels, in expansions to existing manufactured home parks or subdivisions, or in substantially improved manufactured home parks or subdivisions, must meet all the requirements for new construction, including elevation and anchoring.

(v) All manufactured homes placed or substantially improved in an existing manufactured home park or subdivision must be elevated so that either:

(1) In AE Zones, with Base Flood Elevations, the lowest floor of the manufactured home is elevated on a permanent foundation to no lower than two (2) feet above the level of the Base Flood Elevation or

(2) In approximate A Zones, without Base Flood Elevations, the manufactured home chassis is elevated and supported by reinforced piers (or other foundation elements of at least equivalent strength) that are at least three (3) feet in height above the highest adjacent grade (as defined in Article II).

(vi) In an existing manufactured home park or subdivision on which a manufactured home has incurred "substantial damage" as the result of a flood, any manufactured home placed or substantially improved must meet the standards of items i and ii above.

(vii) All manufactured homes must be securely anchored to an adequately anchored foundation system to resist flotation, collapse and lateral movement.

(viii) Manufactured homes shall be installed using methods and practices that minimize flood damage. They must be elevated and anchored to prevent flotation, collapse and lateral movement. Methods of anchoring may include, but are not limited to, use of over-the-top or frame ties to ground anchors. This requirement is in addition to applicable State of Tennessee and local anchoring requirements for resisting wind forces.

(ix) All recreational vehicles placed in an identified Special Flood Hazard Area must either:

(1) Be on the site for fewer than 180 consecutive days;

(2) Be fully licensed and ready for highway use (a recreational vehicle is ready for highway use if it is licensed, on its wheels or jacking system, attached to the site only by quick disconnect type utilities and security devices, and has no permanently attached structures or additions); or

(3) The recreational vehicle must meet all the requirements for new construction.

(g) Administration.

(i) Duties. The Director of the Land Development Office must administer and enforce this ordinance.

(1) Duties of the Administrator shall include, but not be limited to, the following:

(2) Review all development permits to assure that the permit requirements of this Ordinance have been satisfied, and that proposed building sites will be reasonably safe from flooding.

(3) Review proposed development to assure that all necessary permits have been received from those governmental agencies from which approval is required by Federal or State law, including Section 404 of the Federal Water Pollution Control Act Amendments of 1972, 33 U.S.C. 1334.

(4) Notify adjacent communities and the Tennessee Emergency Management Agency, State NFIP Office, prior to any alteration or relocation of a watercourse and submit evidence of such notification to FEMA.

(5) For any altered or relocated watercourse, submit engineering data/analysis within six (6) months to FEMA to ensure accuracy of community FIRM's through the Letter of Map Revision process.

(6) Assure that the flood carrying capacity within an altered or relocated portion of any watercourse is maintained.

(7) Record the elevation, in relation to mean sea level or the highest adjacent grade, where applicable, of the lowest floor (including basement) of all new and substantially improved buildings, in accordance with Article IV, Section B.

(8) Record the actual elevation, in relation to mean sea level or the highest adjacent grade, where applicable to which the new and substantially improved buildings have been Enclosed, in accordance with Section 38-38 (i)(ii).

(9) When floodproofing is utilized for a nonresidential structure, obtain certification of design criteria from a Tennessee registered professional engineer or architect, in accordance with Section 38-38 (i)(ii).

(10) Where interpretation is needed as to the exact location of boundaries of the Areas of Special Flood Hazard (for example, where there appears to be a conflict between a mapped boundary and actual field conditions), make the necessary interpretation. Any person contesting the location of the boundary shall be given a reasonable opportunity to appeal the interpretation as provided in this Ordinance.

(11) When Base Flood Elevation data and floodway data have not been provided by FEMA, obtain, review, and reasonably utilize any Base Flood Elevation and floodway data available from a Federal, State, or other sources, including data developed as a result of these regulations, as criteria for requiring that new construction, substantial improvements, or other development in Zone A on the City of Chattanooga, Tennessee FIRM meet the requirements of this Ordinance.

(12) Maintain all records pertaining to the provisions of this Ordinance in the office of the Administrator and shall be open for public inspection. Permits issued under the provisions of this Ordinance shall be maintained in a separate file or marked for expedited retrieval within combined files.

(13) A final Finished Construction Elevation Certificate (the latest edition of FEMA Elevation Certificate Form) is required after construction is completed and prior to Certificate of Compliance/Occupancy issuance. It shall be the duty of the permit holder to submit to the Floodplain Administrator a certification of final as-built construction of the elevation of the reference level and all attendant utilities. The Floodplain Administrator shall review the certificate data submitted. Deficiencies detected by such review shall be corrected by the permit holder immediately and prior to Certificate of Compliance/Occupancy issuance. In some instances, another certification may be required to certify corrected as-built construction. Failure to submit the certification or failure to make required corrections shall be cause to withhold the issuance of a Certificate of Compliance/Occupancy. The Finished Construction Elevation Certificate certifier shall provide at least 2 photographs showing the front and rear of the building taken within 90 days from the date of certification. The photographs must be taken with views confirming the building description and diagram number provided in Section A. To the extent possible, these photographs should show the entire building including foundation. If the building has split-level or multi-level areas, provide at least 2 additional photographs showing side views of the building. In addition, when applicable, provide a photograph of the foundation showing a representative example of the flood openings or vents. All photographs must be in color and measure at least 3" × 3". Digital photographs are acceptable.

(ii) Permit Application Requirements.

To obtain a floodplain development permit, the applicant shall first complete an application, furnished for that purpose. Every floodplain development permit application shall:

(1) Describe the land on which the proposed work is to be done by lot, block and tract, house and street address, or similar description that will readily identify and specifically locate the proposed structure or work;

(2) Identify and describe the work to be covered by the floodplain development permit;

(3) Indicate the use or occupancy for which the proposed work is intended;

(4) Indicate the assessed value of the structure and the fair market value of the improvement;

(5) Specify whether development is located in designated flood fringe or floodway;

(6) Identify the existing base flood elevation and the elevation of the proposed development;

(7) Be accompanied by plans drawn to scale and specifications for proposed construction;

(8) Be signed by the permittee or his/her authorized agent who may be required to submit evidence to indicate such authority; and

(9) Submit any other relevant information requested by the Director as necessary to properly evaluate the permit application.

(iii) Recordkeeping. The Director must maintain applicable records in perpetuity documenting:

(1) All certifications for dry floodproofing, alternative elevation methods, and construction in Coastal Districts, where applicable.

(2) Analysis of no-rise in the Floodway District, as detailed in Section 38-39 (e)(ii)(1), and encroachment analysis ensuring no more than one-half foot of rise in the General Floodplain District, as detailed in Section (g)(i)(3)(a) and 7.31.

(3) Final elevations, as applicable, detailing the elevation to which structures and improvements to structures are constructed or floodproofed. Elevations shall be determined by a Tennessee engineer, architect, surveyor or other qualified individual, as approved by the Director. In V Zones, the final elevations must be determined by a professional engineer or architect.

(4) Substantial damage as defined in Section 2.148 and substantial improvement as defined in Section 2.149 determinations, as detailed in Section 13.13, including the cost of improvements, repairs, and market value.

(5) The Director must maintain a record of all variance actions, including justification for their issuance, and must report such variances in an annual or biennial report to the Administrator of the National Flood Insurance Program, or when requested by the Federal Emergency Management Agency.

(iv) Certificate of Zoning Compliance for a New, Altered, or Nonconforming Use. No building, land or structure may be occupied or used in any manner until land use, performance standard or conditional use permit has been issued by the Director stating that the finished fill and building floor elevations or other flood protection measures are in compliance with the requirements of this ordinance.

(v) Notifications for Watercourse Alterations. Before authorizing any alteration or relocation of a river or stream, the Administrator must notify adjacent communities. A copy of the notification must also be submitted to FEMA.

(vi) Notification to FEMA When Physical Changes Increase or Decrease Base Flood Elevations. Where physical changes affecting flooding conditions may increase or decrease the water surface elevation of the base flood, the applicant must notify FEMA of the changes in order to obtain a Letter of Map Revision (LOMR), by submitting a copy of the relevant technical or scientific data as soon as practicable, but no later than six months after the date such supporting information becomes available. Within the General Floodplain District, a map revision is only required if development results in stage increases greater than 0.5 feet.

(h) Procedure.

(i) Application stage.

a) Elevation in relation to mean sea level of the proposed lowest floor, including basement, of all buildings where Base Flood Elevations are available, or to certain height above the highest adjacent grade when applicable under this Ordinance.

b) Elevation in relation to mean sea level to which any non-residential building will be floodproofed where Base Flood Elevations are available, or to certain height above the highest adjacent grade when applicable under this Ordinance.

c) A FEMA Floodproofing Certificate from a Tennessee registered professional engineer or architect that the proposed non-residential floodproofed building will meet the floodproofing criteria in Section 38-38 (d) (i-ii).

d) Description of the extent to which any watercourse will be altered or relocated as a result of proposed development.

e) In order to determine if improvements or damage meet the Substantial Improvement or Substantial Damage criteria, the applicant shall provide to the Floodplain Administrator a detailed cost to repair all damages and/or cost of improvements which includes the complete costs associated with all types of work necessary to completely repair or improve a building. These include the costs of all materials, labor, and other items necessary to perform the proposed work. These must be in the form of:

i) An itemized costs of materials, and labor, or estimates of materials and labor that are prepared by licensed contractors or professional construction cost estimators

ii) Building valuation tables published by building code organizations and cost-estimating manuals and tools available from professional building cost-estimating services.

iii) A qualified estimate of costs that is prepared by the local official using professional judgement and knowledge of local and regional construction costs.

iv) A detailed cost estimate provided and prepared by the building owner. This must include as much supporting documentation as possible (such as pricing information from lumber companies, plumbing and electrical suppliers, etc.). In addition, the estimate must include the value of labor, including the value of the owner's labor.

(ii) Construction Stage.

Within AE Zones, where Base Flood Elevation data is available, any lowest floor certification made relative to mean sea level shall be prepared by or under the direct supervision of, a Tennessee registered land surveyor and certified by same. The Administrator shall record the elevation of the lowest floor on the development permit. When floodproofing is utilized for a non-residential building, said certification shall be prepared by, or under the direct supervision of, a Tennessee registered professional engineer or architect and certified by same.

Within approximate A Zones, where Base Flood Elevation data is not available, the elevation of the lowest floor shall be determined as the measurement of the lowest floor of the building relative to the highest adjacent grade. The Administrator shall record the elevation of the lowest floor on the development permit. When floodproofing is utilized for a non-residential building, said certification shall be prepared by, or under the direct supervision of, a Tennessee registered professional engineer or architect and certified by same.

For all new construction and substantial improvements, the permit holder shall provide to the Administrator an as-built certification of the lowest floor elevation or floodproofing level upon the completion of the lowest floor or floodproofing.

Any work undertaken prior to submission of the certification shall be at the permit holder's risk. The Administrator shall review the above-referenced certification data. Deficiencies detected by such review shall be corrected by the permit holder immediately and prior to further work being allowed to proceed. Failure to submit the certification or failure to make said corrections required hereby, shall be cause to issue a stop-work order for the project.

(iii) Finished Construction Stage.

A finished Constructions Elevation Certificate is required after construction is completed and prior to Certificate of Compliance/Occupancy issuance. It shall be the duty of the permit holder to submit to the Floodplain Administrator a certification of final as-built construction of the elevation of the reference level and all attendant utilities. The Administrator will keep the certificate on file in perpetuity.

(i) Variance.

(i) Authority.

(1) The City of Chattanooga, Tennessee City Council shall hear and decide appeals and requests for variances from the requirements of this section.

(ii) Procedure.

(1) Meetings of the City Council shall be held at such times, as the City Council shall determine. All meetings of the City Council shall be open to the public. The City Council shall adopt rules of procedure and shall keep records of applications and actions thereof, which shall be a public record.

(2) An appeal to the City Council may be taken by any person, firm or corporation aggrieved or by any governmental officer, department, or bureau affected by any decision of the Administrator based in whole or in part upon the provisions of this Section. Such appeal shall be taken by filing with the Land Development Office a notice of appeal, specifying the grounds thereof. The Administrator shall transmit to the City Council all papers constituting the record upon which the appeal action was taken. The City Council shall hear the appeal, give public notice thereof, as well as due notice to parties in interest and decide the same within a reasonable time which shall not be more than 14 days from the date of the hearing. At the hearing, any person or party may appear and be heard in person or by agent or by attorney.

(3) To hear and decide appeals where it is alleged by the applicant that there is error in any order, requirement, permit, decision, determination, or refusal made by the Director of the Land Development Office in carrying out or enforcement of any provisions of Section 38-38.

(4) Any person aggrieved by the decision of the City Council or any taxpayer may appeal such decision to a court of competent jurisdiction.

(5) Variances may be issued for the repair or rehabilitation of historic structures as defined, herein, upon a determination that the proposed repair or rehabilitation will not preclude the structure's continued designation as a historic structure and the variance is the minimum necessary deviation from the requirements of this Ordinance to preserve the historic character and design of the structure.

(6) In passing upon applications which relate to areas of special flood hazard, the City Council will consider all technical evaluations, all relevant factors, standards specified in other sections of these regulations, and:

a) The danger that materials may be swept onto other lands to the injury of others.

b) The danger of life and property due to flooding or erosion.

c) The susceptibility of the proposed facility and its content flood damage and the effect of such damage on the individual owner.

d) The importance of the services provided by the proposed facility to the community.

e) The necessity to the facility of a waterfront location, in the case of a functionally dependent use.

f) The availability of alternative locations, not subject to flooding or erosion damage, for the proposed use.

g) The compatibility of the proposed use with existing and anticipated development.

h) The relationship of the proposed use to the comprehensive plan and flood plain management program for that area.

i) The safety of access to the property in time of flood for ordinary and emergency vehicles.

j) The expected heights, velocity, duration, rate of rise and sediment transport of the flood waters and the effects of wave action, if applicable, expected at the site.

k) The cost of providing governmental services during and after flood conditions including maintenance and repair of public utilities and facilities such as sewer, gas, electrical, and water systems, and streets and bridges.

(7) Generally, variances may be issued for new construction and substantial improvements to be erected on a lot of one-half acre or less in size contiguous to and surrounded by lots with existing structures constructed below the base flood level. As the lot size increases beyond the one-half acre, the technical justification required for issuing the variance increases.

(8) Upon consideration of the factors listed above and the purposes of these regulations, the City Council may attach such conditions to the granting of variances as it deems necessary to further the purposes of these regulations.

(9) Variances will not be issued within the Floodway Zone if any increase in flood levels during the base flood discharge would result.

(iii) Conditions for Variances.

(1) Variances will only be issued upon a determination that the variance is the minimum relief necessary, considering the flood hazard, to afford relief. Variances will only be issued upon:

a) A showing of good and sufficient cause.

b) A determination that failure to grant the variance would result in exceptional hardship to the applicant.

c) A determination that the granting of a variance will not result in increased flood heights, additional threats to public safety, extraordinary public expense, create nuisances, cause fraud on or victimization of the public, or conflict with existing local laws or regulations.

(2) Any applicant to whom a variance is granted will be given written notice specifying the difference between the base flood elevation and the elevation to which the building is to be built and stating that the cost of flood insurance will be commensurate with the increased risk resulting from the reduced lowest flood elevation.

(3) The Director of the Land Development Office will maintain the records of all appeal actions and report any variances to the Federal Insurance Administration upon request.

(j) Penalties for Violation.

(i) Any person who violates these regulations or fails to comply with any of these requirements will, upon conviction thereof, be punished as provided in Article XVIII, and in addition pay all costs and expenses involved in the case. Each day such violation continues is considered a separate offense. Nothing prevents the City from taking such other lawful action as is necessary to prevent or remedy any violation.

Editor's note—Ord. No. 14298, § 1, adopted Dec. 2, 2025, repealed the former § 38-38, and enacted a new § 38-38 as set out herein. The former § 38-38 pertained to F/W floodway and derived from Ord. No. 14137, § 1, adopted July 23, 2024; Ord. No. 14138, § 1, adopted July 23, 2024.

Sec. 38-39. Reserved

Editor's note—Ord. No. 14298, § 1, adopted Dec. 2, 2025, repealed § 38-39, which pertained to F/H flood hazard and derived from Ord. No. 14137, § 1, adopted July 23, 2024; Ord. No. 14138, § 1, adopted July 23, 2024.

ARTICLE IX. USES

Sec. 38-40. General Use Regulations

(a) No structure or land may be used or occupied unless allowed as a permitted or special exception use within the zone.

(b) All uses must comply with any applicable federal and state requirements, and any additional federal, state, or city ordinances.

(c) Any use that is not included in the use matrix or is not interpreted as part of a listed use is prohibited in all zones.

(d) A lot may contain more than one principal use, so long as each principal use is allowed in the district. Each principal use is approved separately.

(1) In certain cases, uses are defined to include ancillary uses that provide necessary support or are functionally integrated into the principal use.

(2) More than one principal use on a lot is not permitted in the residential zones.

(e) All uses, whether permitted or special, must comply with the use standards of Section 9.3 for principal uses, Section 9.4 for accessory uses, or Section 9.5 for temporary uses, as applicable.

(f) Short-term vacation rental uses are regulated separately in Article XVII. Short-term vacation rental uses are defined in Article XVII.
(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24)

Sec. 38-41. Use Matrix

(a) Table 38-41.1: Use Matrix identifies the principal, accessory, and temporary uses allowed within each zone.

(b) The permissions in Table 38-41.1 are indicated as follows:

(1) P indicates that the use is permitted by-right in the zone.

(2) SE indicates that the use is a special exception.

(3) If a cell is blank, the use is not allowed in the zone.

(4) SE-C indicates that the use is a Special Exceptions by City Council.

(5) ** indicates that the use is a Permitted Use in the zone if zoned prior to December 18, 2024.

(c) All uses in Table 38-41.1 are defined in Section 38-45.

No. 14308, § 1, 12-16-25; Ord. No. 14374, § 1, 6-16-26)

Sec. 38-42. Principal Use Standards

(a) Adult-Oriented Establishment

(1) No adult use may be located within 500 feet of any boundary of a residential zone or within 500 feet of a residential use within any zone.

(2) No adult use may be located within 500 feet from the nearest property line of a site which is used for the purpose of a park, place of worship, educational facility—primary/secondary, day care center, or other adult use.

(3) Measurement is from the nearest lot line of the adult use to the nearest lot line of the uses listed in this section.

(b) Animal Care Facility and Animal Shelter

(1) Animal care facilities and shelters must locate all overnight boarding facilities indoors.

(2) Animal care facilities and shelters must locate any exterior exercise areas to the side or rear of the building. A fence a minimum of six feet and a maximum of eight feet in height is required for all exterior exercise areas.

(3) Exterior exercise areas must provide covered areas as shelter against sun/heat and weather.

(4) All animal quarters and exterior exercise areas must be kept in a clean, dry, and sanitary condition.

(c) Bed and Breakfast

(1) A bed and breakfast must be operated entirely within a single-unit detached dwelling. No part of a bed and breakfast may be operated within an accessory structure.

(2) A bed and breakfast is limited to a maximum of nine bedrooms that may be let out to guests.

(3) A bed and breakfast must be operated by the property owner who also resides on the property

(4) The exterior of a bed and breakfast must maintain its original appearance as a single-unit dwelling. No parking may be located in front of the front building facade.

(5) Cooking equipment is prohibited in individual guestrooms. However, this does not include a mini-refrigerator, coffee maker, and/or a microwave, which are allowed.

(6) Bed and breakfasts with reception facilities are allowed only as specified in Table 38-41.1.

(7) No retail sales are permitted with the exception of accessory retail of related items such as souvenirs, postcards, and snack items.

(8) No bed and breakfast may operate a restaurant. Meals may only be served to registered guests and at private events when allowed.

(9) One sign, either freestanding, window, or wall, is permitted. Such sign may not exceed six square feet in sign area. Freestanding signs are limited to five feet in height and must be a minimum of five feet from any lot line.

(d) Borrow Pit

(1) A lot area of five acres is required.

(2) No excavation or other activities related to the borrow pit may be conducted within 50 feet of the lot line.

(3) The lot must be completely enclosed along all lot lines by a solid fence or wall a minimum of six feet and a maximum of eight feet in height. Locking gates a minimum of six feet and a maximum of eight feet in height must be included at all ingress and egress points.

(e) Campground/Recreational Vehicle (RV) Park

(1) The minimum area for a campground or RV park is five acres.

(2) Campgrounds or RV parks must provide a common recreational area consisting of 100 square feet per campsite or recreational vehicle parking site.

(3) Management headquarters, recreational facilities, coin operated laundry facilities, cabins for staff, and other uses and structures customarily associated with the operation of a campground are permitted.

(4) Storage of equipment must be within enclosed structures.

(5) Within a campground a maximum of 30% of the total campsites may be cabins for use of the guests.

(6) Year-round residency is prohibited. Use of tents or recreational vehicles as a principal residence is prohibited. This excludes any permanent structures erected for an on-site caretaker or manager, which may be a year-round residency.

(7) Individual campsites or recreational vehicle parking sites and any structures must be set back a minimum of 50 feet from all lot lines that adjoin residential uses.

(f) Campground, Resort

(1) The minimum area for a resort campground is five acres.

(2) Resort campgrounds must provide a common recreational area consisting of 100 square feet per cabin.

(3) Management headquarters, recreational facilities, coin operated laundry facilities, cabins for staff, and other uses and structures customarily associated with the operation of a resort campground are permitted.

(4) Storage of equipment must be within enclosed structures.

(5) Year-round residency is prohibited. This excludes any permanent structures erected for an on-site caretaker or manager, which may be a year-round residency.

(6) All structures must be set back a minimum of 50 feet from all lot lines that adjoin residential uses.

(g) Cemetery

(1) For cemeteries of 25 acres or more there must be a 100 foot buffer area. For cemeteries of less than 25 acres, there must be a 25 foot buffer area. The buffer area should be set aside along all lot lines abutting residential zones. The buffer area must be used only for the location of trees, shrubs, fencing, or other site-obscuring ornamentation. The buffer area cannot be used for grave sites, interior drives, parking, or service buildings.

(2) All land intended for grave sites must be above the elevation of the 100 Year Flood.

(h) Community Garden

(1) Community gardens are limited to the cultivation of herbs, fruits, flowers, or vegetables, including the cultivation and tillage of soil and the production, cultivation, growing, and harvesting of any agricultural, floricultural, or horticultural commodity. It may also include community-gathering spaces for active or passive recreation.

(2) The keeping of livestock, chickens or other poultry, and any aquaculture is prohibited. Apiaries are permitted.

(3) Accessory structures such as high tunnels/hoop-houses, coldframes, and similar structures, are permitted to extend the growing season. This includes sheds, gazebos, and pergolas. All accessory structures must be located a minimum of five feet from any lot line.

(4) Farmstands are permitted and are limited to sales of items grown at the site. Farmstands must be removed from the premises during the time of the year when the use is not open to the public. Only one farmstand is permitted per lot.

(i) Cottage Court Development

(1) General Development Standards

(i) Cottage court development may take one of two forms:

a. A development may be designed with individual lots.

b. A development may also be designed as a multi-dwelling development.

(ii) A cottage court development requires the establishment of a homeowners association (HOA), property management company, or other designated managing entity approved by the City in place for the maintenance of all common elements.

(2) Use Limitations

(i) Table 38-42.1: Cottage Court Permitted Dwelling Types indicates the permitted dwelling types within a cottage court development:

Table 38-42.1: Cottage Court Permitted Dwelling Types

Dwelling Type	RN-1-6	RN-1-5	RN-2	RN-3	TRN-1	TRN-2	TRN-3
Dwelling—Single-Unit Detached	P	P	P	P	P	P	P
Dwelling—Single-Unit Attached	P	P	P	P	P	P	P
Dwelling—Two-Unit	P	P	P	P	P	P	P
Dwelling—Townhouse				P		P	P

(ii) Accessory dwelling units are prohibited within a cottage court development.

(3) Development Standards

(i) Cottage court development may be used for any development of four or more buildings and requires a minimum of four structures.

(ii) The maximum number of buildings within a cottage court development is 10.

(iii) The minimum total lot area required for a cottage court is determined by calculating the cumulative lot area required by the base zoning district for the number of buildings to be constructed, and reducing the result by 50%.

(iv) Individual lots or building sites within the cottage court development are exempt from the base zoning district standards for lot area, lot width, setbacks, and building coverage.

However, dwellings oriented toward the common area must provide a five foot minimum setback from the common area. Such setback does not count toward any required common area.

(v) The cottage court development as a whole must meet the following standards:

a. Along the lot lines of the development as a whole, a minimum setback of 15 feet is required. No streets or other vehicle access is permitted within this setback. However, pedestrian paths across this setback to connect to adjacent lots are allowed.

b. The development as a whole is limited to a maximum building coverage of 50%.

c. The development as a whole is limited to a maximum impervious surface coverage of 65%.

(vi) All buildings and lots within the cottage court development must front on a street or a common open space.

(vii) Structures within a cottage court development are subject to the design standards for dwelling type. Where design standards are distinguished with requirements for facades facing a street, those standards are also applicable to facades facing a courtyard.

(viii) Required off-street parking may be provided on individual development sites for each dwelling within the cottage court development, or in a shared parking area serving multiple dwellings on-site. Common parking areas may contain no more than 15 spaces each and must be screened from abutting lots that are not part of the development. Parking may not be located between principal structures and the street, between a common area and a street, or within any required common area.

(4) Common Open Space Design

(i) Central common open space is required and must meet the following standards:

a. The minimum size of the central common open space is 3,000 square feet, or 500 square feet per dwelling unit, whichever is greater.

b. The central common open space must maintain a minimum width of 50 feet, be contiguous and centrally located, and front on a public or private street.

c. A maximum of 25% of the central common open space may be hardscape.

(ii) Once central common open space requirements are met, additional common open space within the development is permitted.

(j) Crematory.

(1) Applicant must have an approved permit from the Hamilton County Air Pollution Control Bureau for said use at location prior to submitting an application for a Special Permit.

(2) All activity related to the dead shall be handled discreetly and screened from public view by a Commercial Buffer, unless a more intense buffer is required by zoning code, including delivery and storage of remains.

(k) Drive-Through Facility, Standalone.

1) All drive-through facilities must provide a minimum of four stacking spaces per lane or bay, unless additional stacking spaces are specifically required by this Code. Further, additional internal queueing and stacking spaces and other access points to prevent disruption of traffic flow on adjacent streets may be required.

2) Stacking spaces provided for drive-through uses must be:

a. A minimum of ten feet in width, as measured from the outermost point of any service window or bay entrance, to the edge of the driveway, and 20 feet in length. In the case of a recessed service window, the measurement is taken from the building wall.

b. Stacking spaces must begin behind the vehicle parked at a final point of service exiting the drive through aisle, such as a service window or car wash bay (this does not include a drive-through sign). Spaces must be placed in a single line behind each lane or bay.

3) All drive-through lanes must be located and designed to ensure that they do not adversely affect traffic circulation on adjoining streets. Drive-through lanes on corner lots must not route exiting traffic into adjacent residential neighborhoods unless required for emergency or traffic safety reasons as determined by the Department of Public Works- Transportation Division and Fire Department.

4) The minimum width for a drive through lane is ten feet.

5) Drive-through facilities require a solid fence or wall a minimum of six feet to a maximum of seven feet in height along the interior side and rear lot lines when such lot lines abut a residential zone, or the C-NT, C-N, or C-TMU Zones. One shrub, a minimum of three feet in height at maturity, is required every three linear feet, along such fence or wall, placed inside the fence toward the interior of the lot.

6) No drive-thru component, such as drive-up windows, lanes, or order box, is allowed within 50 feet of a residential use, excluding mixed-use developments, measured from the residential lot line to the closest point of the drive-thru lane.

(l) Day Care Center and Day Care Home

(1) Each day care center or day care home must comply with all applicable state regulations, including required indoor and outdoor space.

(2) The day care center or day care home operator license must be displayed publicly.

(m) Drug Treatment Clinic

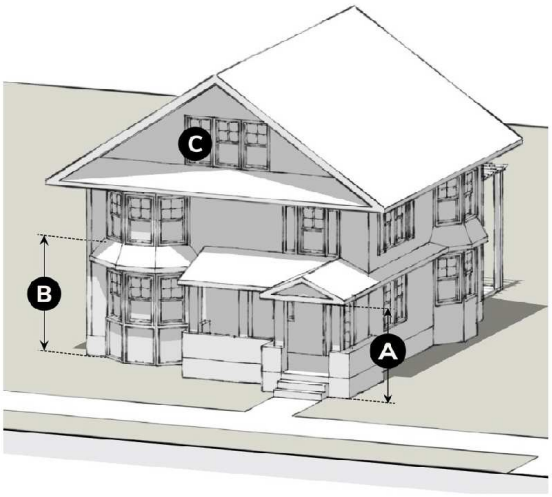
(1) All drug treatment clinics must be separated by a distance of at least 1,000 feet from any residential zone.

(2) All drug treatment clinics must be separated by a distance of at least 1,000 feet from any other drug treatment clinics.

(n) Dwelling: Single-Unit Detached; Single-Unit Attached; Two-Unit

(1) Windows, entrances, porches, or other architectural features are required on all street-facing facades to avoid the appearance of blank walls.

SINGLE-UNIT DETACHED DWELLING



A = Primary Entrance

B = Architectural Features

C = Required Transparency

(o) Dwelling: Three-Unit; Four-Unit; Multi-Unit, Townhouse

(1) Development Standards

i. Multi-unit dwellings in the TRN-2 Zone are limited to a maximum of six units within a multi-unit structure (i.e. each multi-unit structure shall have six or fewer connect multi-unit dwellings)

ii. Townhouses in the RN-2 and TRN-2 Zones are limited to a maximum of six attached units (i.e. a cluster or grouping of townhouse units may not have more than six individual townhouse dwelling units contiguous to one another)

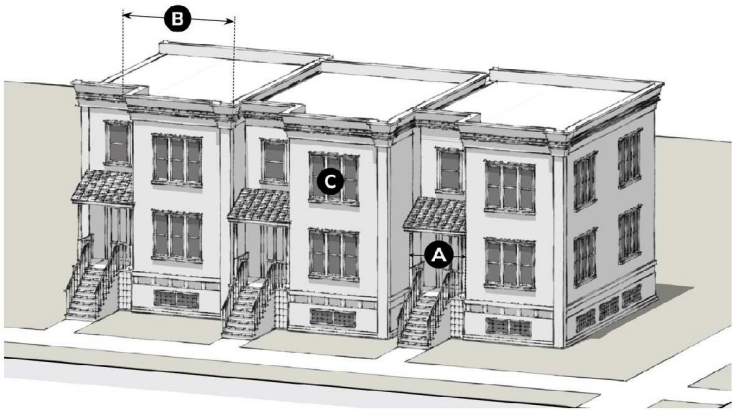
iii. Townhouses outside the Urban Overlay Zone are limited to a maximum of eight (8) attached units (i.e. a cluster or grouping of townhouse units may not have more than eight (8) individual townhouse dwelling units contiguous to one another) except for those properties that were zoned for townhouses prior to the adoption of the 2024 Zoning Ordinance shall be permitted to have a maximum of twelve attached units.

(2) Development Standards

(i) Three-unit, four-unit, and townhouse dwellings must have an entrance from a facade facing the street. The entry must be a dominant feature on the front elevation, using features such as porches, raised steps and stoops, or decorative railings to articulate the facade.

(ii) For multi-unit dwellings, there must be one prominent entrance along a facade facing a street.

TOWNHOUSE DWELLING

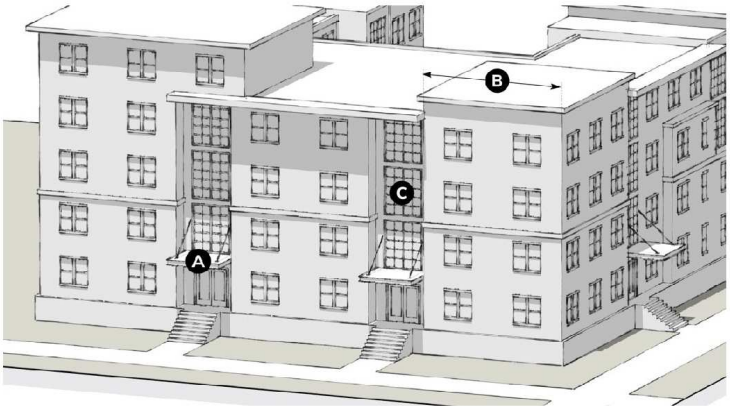


A = Primary Entrance

B = Architectural Features

C = Required Transparency

MULTI-UNIT DWELLING



A = Prominent Entrance

B = Architectural Features

C = Required Transparency

(p) Dwelling—Live/Work

(1) Live/work is permitted in units with street level access only.

(2) A minimum of one person must occupy the live/work unit as their primary residence.

(3) The live/work unit may employ no more than two persons not living on the premises at any one time.

(4) No storage or warehousing of material, supplies, or equipment is permitted outside of the live/work unit.

(5) The nonresidential use of the unit is limited to nonresidential uses allowed in the zone.

(6) No equipment or process may be used in connection with the live/work unit that creates noise, vibration, glare, fumes, odors, or electrical interference detectable to normal senses off the premises.

(q) Dwelling—Manufactured Home

(1) All manufactured home dwellings must meet the following standards.

(i) The area beneath a home must be fully enclosed with durable skirting within 60 days of placement. As a minimum, such skirting must be a product designed and sold for use as skirting or as approved by the Zoning Administrator.

(ii) All wheels, axles, transporting lights, and towing apparatus must be removed.

(2) Manufactured home dwellings located in residential zones, as applicable, or within manufactured home subdivisions must meet the following standards.

(i) Such dwellings have the same general appearance as required for site-built homes.

(ii) A perimeter wall of solid masonry, concrete, or other material approved by the Land Development Office must be installed around the base of the dwelling.

(iii) All roofing, siding, veneers, and other exterior materials are limited to materials permitted for site-built housing.

(iv) The manufactured home must be at least 12 feet in width along the majority of its length.

(r) Financial Services, Alternative (AFS)

(1) No alternative financial service may be located within 1,320 feet of an existing alternative financial service, measured from lot line to lot line.

(2) No alternative financial service may be located within 500 feet of a residential zone, measured from lot line to lot line.

(s) Food Truck Park

(1) A minimum of 20% of the food truck park lot area must be shared common area, not including any food truck sites and vehicle parking spaces. The common area must be designed for customer use, which includes elements such as seating areas, restroom facilities, and lawn and landscaped areas.

(2) Food truck parks may be standalone uses or may be co-located with another principal use. These properties must be designed to be able to accommodate all required development standards for all principal uses.

(3) A commissary for the use of food truck vendors is permitted.

(4) No temporary use permits for individual food truck vendors are required within food truck parks.

(5) The area must be always kept clear of litter and debris. Waste receptacles and/or recycling bins must be provided.

(t) Gas Station

(1) The principal building must meet the setback requirements of the zone in which it is located.

(2) Gasoline pump islands must:

(i) Be located no closer than 15 feet to any street lot line when constructed parallel to the pavement edge.

(ii) Be located no closer than 30 feet to any street lot line when constructed perpendicular to the pavement edge.

(iii) Be set back 15 feet from all lot lines other than a street lot line.

(3) Gas station canopies cannot be constructed closer than 15 feet from any street lot line.

(4) One automated car wash bay is permitted in connection with the principal gas station use.

(u) Halfway House

(1) Each halfway house must identify a manager to act as a 24 hour contact.

(2) Halfway houses are limited to six residents.

(3) The manager contact information must be printed legibly and posted in such a way as to be conspicuous and readable from the exterior of each building to a person at the front entrance of a building. The posting must contain the address of the property, the name of the manager of the property, and the phone number of the manager.

(4) New halfway houses must be separated from an existing halfway house by a distance of 1,000 feet.

(v) House Museum

(1) A house museum is limited to a maximum of six events per year. This includes both indoor and outdoor events and any combination of such.

(2) Any outdoor events or any combination of an indoor and outdoor event require a temporary use permit for a temporary outdoor entertainment and/or sales event

(w) Industrial—Artisan/Craft

(1) Artisan industrial uses are limited to a maximum gross square footage of 10,000 square feet in the following zones: C-C, C-MU1, C-MU2 Zones. There is no limit within other zones where the use is allowed.

(2) Outside storage or display is prohibited. All business, sales, servicing, processing, and storage uses must be located within the structure.

(x) Junk Yard/Salvage Yard

(1) Junk yards/salvage yards must be located at least 1,000 feet from any other abutting zone lot line that is not an I-H or I-X Zone, as measured from the lot lines of the junkyard.

(2) Junk yards/salvage yards storage areas must be located at least 500 feet from the lot line of any other abutting use other than a junk yard/salvage yard.

(3) The storage area must be completely enclosed along all lot lines by a solid fence or wall a minimum of six feet and a maximum of seven feet in height, including ingress and egress

(y) Lodge/Meeting Hall

(1) No more than 30% of the gross floor area may be used as office space for the lodge/meeting hall.

(2) Lodges/meeting halls are permitted to serve meals and alcohol on the premises for members and their guests only or for lessees when leased or used as reception facilities.

(3) Sleeping facilities are prohibited.

(4) Lodges/meeting halls leased or used as reception facilities cannot charge a general admission fee or any other monetary donations (payment at the door to the general public) for entrance, with the exception of fundraisers or events for bona fide non-profit organizations, places of worship, educational facilities, or similar uses.

(z) Micro-Production of Alcohol

(1) All alcohol production must be within completely enclosed structures.

(2) The establishment must include a restaurant, bar, and/or tasting room within the same building. The minimum size of the restaurant, bar, and/or tasting room must be 20% of the total square footage of the use or 1,200 square feet, whichever is less.

(3) Facilities may include retail areas for the purchase of beverages manufactured on-site and related items.

(aa) Neighborhood Commercial Establishment

(1) Neighborhood commercial establishments are only allowed within existing structures that are nonresidential or mixed-use with ground floor nonresidential in their construction and/or use as of (insert the effective date of this Code).

(2) The following nonresidential uses are permitted within a neighborhood commercial establishment. After the approval of the initial special exception use approval for the neighborhood commercial establishment and its initial intended use, as allowed by the list below, a new special exception use approval is required for a change of use. However, a special exception may be granted for multiple uses from the list below which would not require a special exception use for a use change.

(i) Art gallery

(ii) Arts and fitness studio

(iii) Day care center

(iv) Eating and drinking establishment

(v) Office

(vi) Personal service establishment

(vii) Retail goods establishment—no sales of alcohol

(viii) Specialty food service establishment

(3) No additional off-street parking is required. However, any off-street parking currently provided must be maintained.

(4) Drive-through facilities are prohibited.

(5) Outside storage or display is prohibited. All business, sales, servicing, processing, and storage uses must be located within the structure. Outdoor dining is allowed.

(6) Signs are limited to those allowed in the C-N Zone.

(bb) Outdoor Market

(1) A minimum of 10% of the outdoor market lot area must be shared common area designed for customer use, which includes elements such as seating areas, restroom facilities, and lawn and landscaped areas.

(2) The area must be kept clear of litter and debris at all times. Waste receptacles and/or recycling bins must be provided.

(3) Restroom facilities for the use of the public are required.

(4) The days and hours of operation must be clearly posted on-site.

(5) The on-site presence of a manager is required when the market is open to the public.

(cc) Outdoor Storage Yard

(1) The storage area must be completely enclosed along all lot lines by a solid fence or wall a minimum of six feet and a maximum of seven feet in height, including ingress and egress.

(2) Fences or walls along a front or corner side lot line must be set back a minimum of ten feet from the lot line. Within that setback, shrubs must be planted and spaced sufficiently to form a continuous linear hedgerow at plant maturity. Plantings must be placed outside the fence facing the right-of-way.

(3) Storage of any kind is prohibited outside the fence or wall.

(4) No items stored within 25 feet of the fence may exceed the height of the fence or wall.

(dd) Quarry/Mining and Extraction

In addition to all state or federal surface mining regulations, the following additional standards apply:

(1) A copy of a pre-blast survey for all properties located within a one mile radius of the area covered by the mining permit must be filed with the Land Development Office.

(2) A plan of operation must be prepared and submitted to the Land Development Office for approval showing all intended haul routes within the City and evidence that all load limits of bridges used in the operation will be met. No variation from the approved route is permitted except by written permission of the Land Development Office.

(3) The owner or operator of the facility must maintain, during the term of its use, liability insurance and performance bonds as follows. These requirements may be waived if appropriate alternative security is approved by the City Council upon recommendation by the City Attorney.

(i) Evidence of liability insurance in an appropriate amount (to be determined by the City Council upon recommendation of the City Attorney) must be maintained with current certificates of insurance filed with the City's Risk Manager.

(ii) The owner or operator of the facility must maintain a current performance bond in the amount of $2,000.00 per acre to be filed with the City's Risk Manager to assure compliance if state, federal, and local laws and regulations apply relative to reclamation of disturbed land within the City.

(ee) Reception Facility

(1) A general admission fee or any other monetary donations (i.e., payment at the door to the general public) for entrance is prohibited, with the exception of fundraisers or events for bona fide non-profit organizations, places of worship, or educational facilities.

(ff) Reception Facility, Estate

(1) A minimum lot size of one acre is required for an estate reception facility.

(2) A general admission fee or any other monetary donations (i.e., payment at the door to the general public) for entrance is prohibited, with the exception of fundraisers or events for bona fide non-profit organizations, places of worship, or educational facilities.

(3) An estate reception facility must be operated by the property owner who also resides on the property.

(4) Receptions may be held within accessory structures located on the property.

(5) An estate reception facility may also let rooms within the principal building to guests during the reception. Rooms may be let two days before and two days after the reception.

(gg) Recycling Processing Facility

(1) All processing such as compacting, shredding, or bailing must be within an enclosed building.

(2) All outdoor storage must be concealed from view, beyond the limits of the property, by fencing or natural screening.

(3) Any other storage must be within an enclosed building.

(4) No salvaging of parts or dismantling is allowed.

(5) An applicant for a special exception to establish a recycling processing facility must:

(i) Furnish complete plans and method of operation.

(ii) Have present at the hearing an engineering consultant in this particular phase of industry to fully evaluate all areas of control of vibration, dust, noxious odors fumes, nuisance factor, etc.

(hh) Residential Care Facilities and Group Homes Group Homes Operated on a For-profit Basis

(1) No special exceptions permit is necessary for any residential home in which eight (8) or fewer unrelated persons with disabilities reside, and which may include three (3) additional persons acting as support staff or guardians, who need not be related to each other or to any of the persons with disabilities in any residential zone within the City. This ordinance allows nonprofit organizations to operate residential homes meeting the requirements of Tenn. Code Ann. 13-24-101 to remove zoning obstacles which prevent persons with a disability from living in normal residential surroundings in compliance with state and federal law.

(i) Pursuant to this section, persons with disabilities shall not be denied housing opportunities on the basis of disability, nor shall they be excluded from participation in or denied the benefits of the City's services, programs, or activities, or otherwise be subjected to discrimination through the administration of the City's land development or zoning practices;

(ii) Housing providers for persons with disabilities seeking approval for uses allowed by right under Tennessee state law and/or local land use or zoning laws shall not be subjected to needless or unduly burdensome administrative hurdles, including the requirement to obtain unnecessary special use permits or other approvals;

(iii) All residences comprised of related or unrelated persons with disabilities shall operate as of right in all residential zoning districts in the City to the same extent and under the same terms and conditions as residences comprised of non-disabled persons;

(iv) The provisions required by this section shall protect residences that house persons with disabilities, regardless of whether they operate on a commercial basis or non-profit basis as long as such residences meet the requirements of the number of persons set forth in this section;

(v) Related and/or unrelated persons with disabilities shall be included in the definition of family in the City's Zoning Ordinance to no lesser extent than individuals without disabilities;

(vi) The protections afforded to housing for persons with disabilities under Tenn. Code Ann. 13-24-101 et. seq. shall apply to all residences, whether temporary or permanent, including transitional and other forms of supported housing; and

(vii) The provisions required by this section shall protect persons with disabilities who mental illness, subject to the exceptions set forth in Tenn. Code Ann. 13-24-101, intellectual disabilities, or emotional disabilities to the same extent that it protects persons with disabilities or conditions other than mental illnesses, intellectual disabilities, or emotional disabilities to the extent that they are protected under State and Federal law.

(2) This ordinance does not apply to family residences housing greater than eight (8) or more unrelated persons in any single family or other residential zone where such residences are operated on a commercial basis as required by Tenn. Code Ann. 13-24-104, unless Land Development staff is provided adequate information from the State Comptroller's Office with any building permit request establishing the nonprofit status of the entity which will operate the residential home in compliance with Federal and Tennessee state law as a nonprofit entity. All other applicants which do not meet the requirements of Tenn. Code Ann. 13-24-102 must comply with the requirements of subsection (3).

(3) Any application for homes operated on a commercial basis or for a residential facility which is not exempt under Tenn. Code Ann. 13-24-101 et. seq. or as otherwise provided by Tennessee law shall comply with the following requirements:

(i) An applicant must apply for a license for a "Residential Home for the Aged" from the Tennessee Department of Public Health; or shall apply for a license for a "Boarding Home Facility," or a "Large Group Home Facility," to be submitted to the Tennessee Department of Mental Health and Mental Retardation, as the case may be. Prior to operating either of the above, a Special Exceptions Permit from the Board of Zoning Appeals for operation within the proper zone and the State License must be obtained.

(ii) Residential Care Facility and Residential Addiction Treatment Facility

(1) Residential care facilities and residential addiction treatment facilities must comply with all standards for multi-unit dwellings in the zone in which they are located, including the standards for design of multi-unit dwellings in this Article.

(2) For mixed-use developments, where the ground floor and any additional upper floors are designed for nonresidential uses, with such residential facilities above, such facilities must comply with the mixed-use development standards.

(jj) Self-Storage Facility: Enclosed and Outdoor

(1) The minimum lot area for an outdoor facility is two acres. Enclosed self-storage facilities must meet the zone standards for lot size or 10,000 square feet, whichever is less.

(2) For outdoor facilities, a solid fence or wall a minimum of six feet to a maximum of seven feet in height must be provided when the self-service storage facility abuts a residential zone.

(3) Any proposed outdoor storage areas must be shown on a site plan for the facility. In no case may parking areas or driveways be used for storage.

(4) The following uses are prohibited as part of a self-service storage facility operation:

(i) Auctions, wholesale, and retail sales, miscellaneous or garage sales. However, this does not apply to auctions or sales conducted by the property manager of the contents of abandoned storage units.

(ii) The servicing, repair, or fabrication of motor vehicles, boats, trailers, lawn mowers, appliances, or other similar equipment.

(iii) The operation of power tools, spray painting equipment, table saws, lathes, compressors, welding equipment, kilns, or other similar equipment, except for purposes of construction and repair of the self-service storage facility.

(iv) Transfer and storage business.

(v) Any use that is noxious or offensive because of odors, dust, fumes, or vibrations.

(vi) The storage of hazardous materials.

(5) Storage units cannot be used for residential occupancy or to conduct business.

(6) No plumbing connections are permitted in self-storage units, this does not include administrative or staff offices

(7) For self-storage facilities that include both indoor and outdoor facilities, both types of uses must be allowed in the zone.

(8) The following additional standards apply to enclosed self-storage facilities:

(i) All self-storage activities must be contained within a single building and conducted exclusively indoors. Individual storage units may be accessed from inside the building only.

(ii) All facilities must meet the design standards of the district.

(iii) No storage units located on the first floor may be located within the first 20 feet of a facade facing a street. No storage units located on the first floor may be visible from the public right-of-way.

(iv) Access to loading areas must be located to the side or rear of the building.

(9) The following additional permissions apply to outdoor self-storage facilities:

(i) Outdoor self-storage facilities only are allowed to include an area for storage of recreational vehicles. Storage areas for recreational vehicles must be located in the rear yard.

(ii) No storage of recreational vehicles is allowed within ten feet of any rear lot line or interior side lot line that abuts a residential zone. No storage of recreational vehicles is allowed within 25 feet of any front or corner side lot line.

(kk) Utility

(1) Any minimum building height regulations required by the zone do not apply to utility buildings.

(2) Utility equipment located outside must be set back 20 feet from all required setback lines.

(ll) Vehicle Repair Facility: Major

(1) Repair of vehicles is prohibited outdoors. Storage of all merchandise, auto parts, and supplies must be within an enclosed structure.

(2) Major vehicle repair facilities require a solid fence or wall a minimum of six feet to a maximum of eight feet in height along the interior side and rear lot lines. One shrub, a minimum of three feet in height at maturity, is required every three linear feet, along such fence or wall, placed inside the fence toward the interior of the lot. This does not apply in the industrial zones unless such lot lines abut a residential zone.

(3) No partially dismantled, wrecked, junked, or discarded vehicles may be stored outdoors on the premises. This standard does not apply to vehicles under repair.

(4) The sale of new or used vehicles is prohibited unless separately approved.

(5) No motor vehicles may be stored and no repair work may be conducted in the right-of-way.

(mm) Vehicle Repair Facility: Minor

(1) Repair of vehicles is prohibited outdoors. Storage of all merchandise, auto parts, and supplies must be within an enclosed structure.

(2) Minor vehicle repair facilities require a solid fence or wall a minimum of six feet to a maximum of eight feet in height along the interior side and rear lot lines when such lot lines abut a residential zone. One shrub, a minimum of three feet in height at maturity, is required every three linear feet, along such fence or wall, placed inside the fence toward the interior of the lot.

(3) No partially dismantled, wrecked, junked, or discarded vehicles may be stored outdoors on the premises. This standard does not apply to vehicles under repair.

(4) The sale of new or used vehicles is prohibited unless separately approved.

(5) No motor vehicles may be stored and no repair work may be conducted in the right-of-way.

(nn) Wind Energy System

(1) The design of the wind energy system must conform to applicable industry standards as such standards exist as of the date construction is commenced. The facility owner or operator must submit certificates of design compliance obtained by the equipment manufacturers, such as Underwriters Laboratories, Det Norske Veritas, Germanishcer Lloyd Wind Energies, or similar certifying organizations.

(2) Wind turbines must comply with the following design standards:

(i) Wind turbines must be a non-obtrusive and non-reflective color.

(ii) Wind turbines must not display advertising, except for reasonable identification of the turbine manufacturer, or the facility owner and operator.

(iii) Wind turbines must not be artificially lit, except to the extent required by the Federal Aviation Administration or other applicable regulatory authorities.

(iv) On-site transmission and power lines between wind turbines must, to the maximum extent practicable, be placed underground, reach the property line, and be located and constructed in such a way as to minimize disruption to the property's primary purpose as well as to facilitate the interconnection of other commercial wind power generating facilities.

(v) Non-essential appurtenances are prohibited to be affixed to any wind turbine, including, but not limited to, cellular or radio antennae.

(3) The applicant must commission and submit at the time of permit application a wildlife assessment (impact study), conducted by a qualified wildlife expert, indicating possible risks to local wildlife, habitat, and migratory birds.

(4) Wind turbines must not be climbable up to a height of at least 15 feet above ground surface. All access doors to wind turbines and electrical equipment must be locked or fenced, as appropriate, to prevent entry by non-authorized persons.

(5) Wind turbines must be set back from any existing principal building on the lot and adjacent lots, measured at the nearest external wall or walls, and within the buildable area of any adjacent undeveloped lot, no less than the turbine height. The setback distance is measured from the nearest point on the outside edge of a tower to the nearest point on the foundation of the building.

(6) Operation and maintenance building(s) and substations must be located in accordance with zoning district yard requirements. All wind farm structures, except for wind turbines, must comply with the regulations of the zoning district.

(7) All wind turbines must be set back from the nearest public right-of-way a distance of 110% of the turbine height, as measured from the right-of-way line to the nearest point on the outside edge of a tower.

(8) The facility owner or operator must comply with all applicable codes regulating sound generation. A predictive sound study of turbine noise must accompany the application to verify that all code requirements can be met for dBA sound levels. In the event that any sound levels from a wind turbine are found to be in excess of permissible levels per the City Code, the facility owner or operator must take necessary measures to bring sound levels down to a level acceptable.

(9) A shadow flicker study is required and must be submitted with the application. Projects must mitigate shadow flicker on existing structures and shadow flicker must not fall within the buildable area of an adjacent lot, as defined by current setback requirements.

(10) The facility owner and operator must, at their sole expense, complete decommissioning of the wind energy system, or individual wind turbines, once the use of the wind energy system or any individual wind turbines are discontinued. The wind energy system or turbine must be deemed to be at the end of its useful life if it is abandoned for a period of time in excess of 180 days. Decommissioning includes removal of wind turbines and related aboveground equipment.

(oo) Wireless Telecommunications

All wireless telecommunication towers, facilities, and antennas are special exception uses with the exception of antenna stealth design (item 5 below).

(1) Application Requirements

All applications to erect, construct, or modify any part of a wireless telecommunications system require site plan review must include the following items:

(i) A site plan showing:

a. The location, size, screening, and design of all structures, including fences.

b. The location and size of all outdoor equipment.

c. Elevations showing antenna height.

d. If the site plan is for a new wireless telecommunications facility, a landscape plan showing all screening.

e. If the site plan is for a new wireless telecommunications tower, indication of the fall zone as a shaded circle.

(ii) A maintenance plan and any applicable maintenance agreement designed to ensure long-term, continuous maintenance, such as maintenance of landscape, keeping the area free from debris and litter, and immediate removal of any graffiti.

(iii) A disclosure of what is proposed, demonstrating the need for the wireless telecommunications system in the proposed location. This is not required for co-location or stealth design antennas.

(iv) The reason or purpose for the placement, construction, or modification in the proposed location with specific reference to the provider's coverage, capacity, and/or quality needs, goals, and objectives. This is not required if the proposal is does not involve the erection of a new tower.

(v) The service area of the proposed wireless telecommunications system.

(vi) If the proposal is for a new telecommunications tower, then a map showing collocation opportunities within the City and within areas surrounding the borders of the City must be provided and justification for why co-location is not feasible in order to demonstrate the need for a new tower.

(vii) If the proposal is for a new telecommunications tower, certification by a licensed and registered professional engineer regarding the manner in which the proposed structure will fail. The certification may be utilized, along with other criteria such as applicable regulations for the district in question, in determining if additional setback should be required for the structure and other facilities.

(2) Setbacks

(i) All wireless telecommunications towers must be set back from any existing principal building on the lot and adjacent lots, measured at the nearest external wall or walls, and within the buildable area of any adjacent undeveloped lot, as defined by current setback requirements, no less than the tower height. The setback distance is measured from the nearest point on the outside edge of a tower to the nearest point on the foundation of the building.

(ii) All wireless telecommunications facilities must be set back from all property lines in accordance with the minimum setback requirements in the zoning district.

(3) Height

The maximum height of a wireless telecommunications tower is the minimum needed to function satisfactorily. The application for approval of a wireless telecommunications tower must demonstrate the minimum height needed for the tower to function, which will be reviewed and approved as part of site plan review. The City has the ability to hire an independent consultant to assist in review of the proposed height, whose fee will be charged to the applicant. Where a wireless telecommunications tower exceeds the maximum height permitted in the district, the City may require additional setbacks from all lot lines.

(4) Lighting and Marking

Wireless telecommunications systems must not be lit or marked unless required by the Federal Communications Commission (FCC) or the Federal Aviation Administration (FAA).

(5) Specific Standards for Wireless Telecommunications Antennas

Wireless telecommunications antennas are a special exception use in all districts, unless they are stealth design in which case they are a permitted use. Stealth design for wireless antennas is encouraged and is considered a permitted use in all districts, subject to site plan review. All applications for wireless telecommunications antennas must include all information required by this section. In addition to the standards of this section for wireless telecommunications antennas, stealth design must comply with the following regulations:

(i) To qualify as a stealth design, wireless telecommunications antennas must be enclosed, camouflaged, screened, obscured, or otherwise not readily apparent to a casual observer.

(ii) Wireless telecommunication antennas must be mounted at least 30 feet above grade, as measured from grade to the base of the antenna, to qualify as stealth design. Wireless telecommunication antennas mounted lower than 30 feet are considered a special exception use.

(iii) Antennas must be located on or in structures already permitted within zoning districts, such as water towers, clock towers, streetlights, penthouses, parapet walls (must be behind the parapet wall), and steeples, and designed to blend in with the structure.

(iv) Antennas that co-locate on existing wireless telecommunications towers are also considered stealth design. However, such antennas cannot increase the overall height of the existing wireless telecommunications tower.

(v) No antenna may increase the overall height of any structure on which it is mounted by more than 15 feet.

(6) Specific Standards for Wireless Telecommunications Facilities

(i) Any buildings, cabinets, or shelters may house only equipment and supplies for operation of the wireless telecommunication tower. Any equipment not used in direct support of such operation must not be stored on the site.

(ii) Commercial advertising is prohibited. Only signs that are part of the equipment as manufactured or warning signage is permitted.

(7) Specific Standards for Wireless Telecommunications Towers

(i) The use of guyed towers is prohibited. Towers must be monopoles, meaning self-supporting with no wires, cables, or beams.

(ii) Wireless telecommunications towers must be designed to accommodate other telecommunications providers. The area surrounding a tower must be of a sufficient size to accommodate accompanying wireless telecommunications facilities for other telecommunications providers.

(iii) Unless otherwise required by the Federal Communications Commission, the Federal Aviation Administration or the City, towers must have a galvanized silver or gray finish.

(8) Abandonment

Any wireless telecommunications system that is not operated for a period of 180 consecutive days is considered abandoned. The owner must immediately remove the tower or facility, and all aboveground equipment and related debris. The City may ensure and enforce removal by means of its existing regulatory authority.

(9) Nonconformities

(i) Ordinary maintenance, including replacement/upgrading, of antenna equipment may be performed on nonconforming antennas or towers. However, if the proposed alteration intensifies a nonconforming characteristic of the antenna or tower, a variance is required.

(ii) Co-location of an antenna on an existing nonconforming tower is a permitted use, provided that the addition of the antenna and any additional wireless telecommunications facilities do not increase the overall height of the nonconforming tower.

(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24; Ord. No. 14169, § 1, 11-19-24; Ord. No. 14181, § 1, 12-17-24; Ord. No. 14278, § 1, 9-16-25; Ord. No. 14337, § 1, 3-17-26; Ord. No. 14308, § 1, 12-16-25)

Sec. 38-43. Accessory Use Standards

(a) Drive-Through Facility

(1) All drive-through facilities must provide a minimum of four stacking spaces per lane or bay, unless additional stacking spaces are specifically required by this Code. Further, additional internal queuing and stacking spaces and other access points to prevent disruption of traffic flow on adjacent streets may be required.

(2) Stacking spaces provided for drive-through uses must be:

(i) a. A minimum of ten feet in width, as measured from the outermost point of any service window or bay entrance, to the edge of the driveway, and 20 feet in length. In the case of a recessed service window, the measurement is taken from the building wall.

(ii) b. Stacking spaces must begin behind the vehicle parked at a final point of service exiting the drive through aisle, such as a service window or car wash bay (this does not include a drive-through sign). Spaces must be placed in a single line behind each lane or bay.

(3) All drive-through lanes must be located and designed to ensure that they do not adversely affect traffic circulation on adjoining streets. Drive-through lanes on corner lots must not route exiting traffic into adjacent residential neighborhoods unless required for emergency or traffic safety reasons as determined by the Department of Public Works- Transportation Division and Fire Department.

(4) The minimum width for a drive through lane is ten feet.

(5) Drive-through facilities require a solid fence or wall a minimum of six feet to a maximum of seven feet in height along the interior side and rear lot lines when such lot lines abut a residential zone, or the C-NT,C-N, or C-TMU Zones. One shrub, a minimum of three feet in height at maturity, is required every three linear feet, along such fence or wall, placed inside the fence toward the interior of the lot.

(6) No drive-thru component, such as drive-up windows, lanes, or order box, is allowed within 50 feet of a residential use, excluding mixed-use developments, measured from the residential lot line to the closest point of the drive-thru lane.

(b) Accessory Dwelling Unit (ADU)

(1) ADUs are intended as accessory uses to single-unit detached dwellings. ADUs must be located on the same lot as the principal dwelling unit.

(2) Only one ADU is permitted per lot per single-unit detached dwelling.

(3) The ADU must be owned by the same property owner(s) as the principal dwelling unit and cannot be subdivided or otherwise separated in ownership such that the ADU is located on a different lot than the principal dwelling unit. Under no circumstances may the ADU be converted to a horizontal ownership regime or a fee simple condo.

(4) Maximum height for detached ADUs:

(i) When the height of the principal dwelling unit is more than one-story: Maximum of 24 feet or two stories

(ii) When the height of the principal dwelling unit is one-story: Maximum of 24 feet when measured to the peak of the roof for all roof types

(5) Maximum height for attached ADUs: Limited to the maximum height of the zone and cannot exceed the height of the principal dwelling

(6) Detached ADUs must be located in the rear or interior side yard only. Detached ADUs are not permitted in the front yard.

(7) Attached ADUs must meet the minimum setback requirements as required for the principal structure in the zone.

(8) The maximum size of a detached ADU cannot exceed a gross square footage of 800 square feet. This is measured by the exterior dimensions of the building. Sleeping lofts and interior stairwells that are conditioned are also added into this square footage.

(9) The maximum size of an attached ADU cannot exceed a gross square footage of 800 square feet. This is measured by the exterior dimensions of the building. Sleeping lofts and interior stairwells that are air conditioned are also added into this square footage.

(10) ADU conversions must meet the minimum standards, including 800 square feet in size, if an existing portion of a single-unit dwelling or detached accessory structure is to be converted to an ADU.

(11) Detached ADU minimum setbacks are as follows:

(i) Not permitted in front yard.

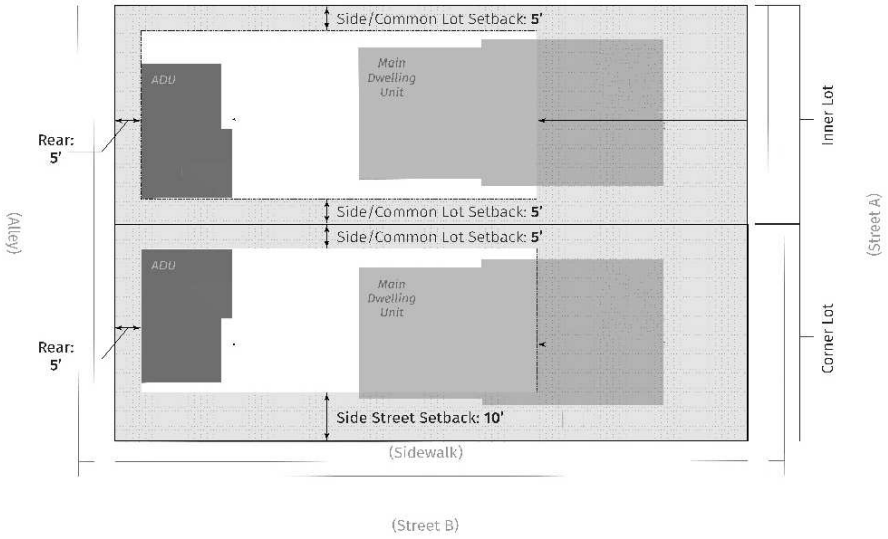
(ii) Corner Side Setback: 10 feet

(iii) Interior Side Setback: 5 feet

(iv) Alley Setback: 5 feet

(v) Functional Rear Yard of a Double-Frontage Lot: Required front setback of zone

(vi) Rear Setback: 5 feet



(12) Attached ADU must maintain the setback requirements of the underlying zone for principal structures.

(13) There is no minimum on-site parking requirement for ADU's. Existing required parking for the principal dwelling unit must be maintained or replaced on-site if parking is lost due to the creation of the ADU.

(14) Home occupations are allowed in the ADU.

(15) The following design standards apply:

(i) Shipping containers and recreational vehicles are prohibited as an ADU.

(ii) The ADU must have a permanent foundation either through digging and pouring a footer or being attached to an existing permanent structure.

(iii) ADUs must follow all design standards applicable to single-unit detached houses.

(iv) For attached ADUs, an exterior staircase used to access an ADU cannot be located on the front facade of the structure.

(v) The ADU must have a separate entrance located on the side yard or rear yard, if the ADU is attached to the primary dwelling. An entrance at the front of the principal dwelling is allowable if it is a single entrance door for both the principal dwelling and the accessory unit. A front entrance solely for the ADU is allowed if the entrance door existed existed prior to May 31, 2022. A separate entrance must lead directly to the outside and cannot be through a garage.

(16) Nonconforming or existing ADUs that that were constructed prior to May 31, 2022 may continue to exist and will be considered legal units if they are brought up to all applicable building, fire, and municipal codes as required by the Land Development Office. This includes any existing ADUs (as of May 31, 2022) within a front yard. Such ADUs may be repaired and rebuilt to the existing footprint. When the principal structure is demolished, this permission is deemed null and void.

(c) Farmstand

(1) Farmstands are limited to sales of items grown at the site or value-added products from items grown at the site. No resale of items is permitted at farmstands.

(2) Only one farmstand is permitted per lot.

(d) Helistop

(1) A helistop must be designed and constructed in accordance with all federal and state regulations.

(e) Home Occupation

(1) Home occupations are permitted in a dwelling unit as an accessory use provided that this use is clearly incidental and secondary to the primary use of the dwelling for residential purposes and does not change the character of the dwelling unit or adversely affect the surrounding residential district of which it is a part.

(2) The home occupation may be conducted within the principal structure or within a detached accessory structure.

(3) Only a full-time resident of the dwelling and no more than two persons employed who is not a resident may be in the home at any given time to work in connection with the home occupation.

(4) No alteration of any structure may be made that changes the residential character of that dwelling. Displays or activities that indicate from the exterior that a structure is being used, in part, for any purpose other than that of a residence or an accessory structure are prohibited.

(5) No commodities can be sold or services rendered that require receipt or delivery of merchandise, goods, or equipment other than by a passenger motor vehicle or by parcel or letter carrier mail services using vehicles typically employed in residential deliveries.

(6) The home occupation and all related activity, including storage, equipment, and display, must be conducted completely within the principal building or accessory structure.

(7) No toxic, explosive, flammable, combustible, corrosive, etiologic, radioactive, or other restricted materials may be used or stored on-site. There must be no perceptible noise, odor, smoke, electrical interference, vibration, or other nuisance emanating from the structure where the home occupation is located in excess of that normally associated with residential use.

(8) The use or storage of tractor trailers, semi-trucks, or heavy equipment, such as construction equipment used in a commercial business, is prohibited.

(9) The home occupation cannot create greater vehicular or pedestrian traffic than is average for a residential area. The home occupation and any related activity must not create any traffic hazards or nuisances in public rights-of-way.

(10) Only one non-illuminated, affixed wall sign no more than 1.5 square feet in area is permitted in association with the home occupation.

(11) Day care homes of any type are not considered a home occupation and are regulated separately by this Ordinance as a principal use.

(12) Repair and service of any vehicles, any type of heavy machinery, or any type of engine is prohibited. Small electronic repair, such as computers, is allowed.

(13) Rental services, where any materials for rent are stored on-site and customers visit the residence to pick-up and return the product, are prohibited

(14) Dispatching services, where workers report to the home for dispatching, are prohibited

(15) The business of firearm transfers is prohibited.

(f) Keeping of Livestock/Equines

(1) A minimum lot size of one acre is required.

(2) All enclosures for livestock and/or equines, including stables, barns, and animal pens, must be located 100 feet from the lot line.

(3) Livestock and equines as defined by Chattanooga City Code Sec. 7-2.—Definitions.

(g) Outdoor Sales and Display (Accessory)

(1) The regulations of this section apply to outdoor sales and display located entirely on the lot and accessory to the principal use of the site. Outdoor sales and display located on the right-of-way is regulated separately by the City Code.

(2) Accessory outdoor sales and display of merchandise must be merchandise that customarily sold on the premises.

(h) Outdoor Storage (Accessory)

(1) The regulations of this section apply only to outdoor storage located entirely on the lot and accessory to the principal use of the site. Outdoor storage as a principal use of the site is regulated as a principal use.

(2) Outdoor storage of material and equipment is associated directly with and accessory to the on-site principal business (input materials, equipment, or outgoing product) use.

(3) Outdoor storage areas occupy no more than 40% of the lot area, excluding the area where buildings are located or the principal building, whichever is less.

(4) Outdoor storage areas require a solid fence or wall a minimum of six feet to a maximum of eight feet in height along the interior side and rear lot lines. One shrub, a minimum of three feet in height at maturity, is required every three linear feet, along such fence or wall, placed inside the fence toward the interior of the lot. This does not apply in the industrial zones unless such lot lines abut a residential zone.

(5) No outdoor storage is permitted in any public right-of-way. No outdoor storage may be located so that it obstructs pedestrian or vehicular traffic.

(i) Outdoor Seating/Activity Area

This section regulates outdoor seating/activity areas that occurs on private property only. Outdoor seating/activity on the right-of-way is regulated within the City Code.

(1) Outdoor seating/activity areas must be established in conjunction the principal use on the site.

(2) No outdoor seating/activity areas may be located within required off-street parking areas including access aisles. The outdoor dining area must not interfere with the circulation of pedestrian or vehicular traffic.

(3) When a structure is required to be constructed at a build-to line, the structure may have up to 50% or 60 linear feet of the applicable facade, whichever is less, designed as a permanent outdoor seating/activity areas, which may be setback up to 30 feet from the required build-to line.

(4) The hours of operation for the outdoor dining area may be no greater than that of the principal use. (Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24; Ord. No. 14365, § 1, 5-19-26)

Sec. 38-44. Temporary Use Standards

These regulations are for temporary uses located on private property. Temporary use permissions are granted to property, not individual temporary use permit applicants or temporary use operators. Where temporary uses are limited in timeframes, such as number of times per year, such timeframes apply to the property, not the permit applicant. Temporary uses require a temporary use permit per Section 17.9 unless specifically cited as exempt.

(a) Mobile Food Vendor

These standards apply to individual mobile food trucks and food trailers that locate on private property as an individual temporary use. When food trucks and trailers are included as part of another temporary use, such as temporary outdoor entertainment event, they are approved as part of that use but are still subject to items 5 through 9 below.

(1) The timeframe of a mobile food vendor, including number of days per week and overall duration of the event, will be determined and approved as part of the temporary use permit.

(2) If the operator is not the owner of the site where the truck or trailer will be located, written permission from the property owner must be submitted as part of the temporary use permit application.

(3) The permit holder must keep the area clear of litter and debris at all times.

(4) All food trucks and food trailers must be properly licensed by the health department.

(5) Outdoor seating may be provided on the site, but no seating may be permanently installed.

(6) A permanent water or wastewater connection is prohibited.

(7) Electrical service may be provided only by temporary service or other connection provided by an electric utility, or an on-board generator.

(8) Drive-through service is prohibited.

(9) Shipping containers cannot be used a mobile food vendor.

(b) Mobile Retail Vendor

These standards apply to individual mobile retail vendors that locate on private property as an individual temporary use. When such vendors are included as part of another temporary use, such as temporary outdoor entertainment event, they are approved as part of that use but are still subject to items 3 through 6 below.

(1) The timeframe of a mobile retail vendor, including number of days per week and overall duration of the event, will be determined and approved as part of the temporary use permit.

(2) If the operator is not the owner of the site where the vendor will be located, written permission from the property owner must be submitted as part of the temporary use permit application.

(3) The permit holder must keep the area clear of litter and debris at all times.

(4) Electrical service may be provided only by temporary service or other connection provided by an electric utility, or an on-board generator.

(5) Drive-through service is prohibited.

(6) Shipping containers cannot be used a mobile retail vendor.

(c) Temporary Entertainment and/or Sales Event

The standards of this section and the use permission in Table 38-41.1 are for temporary entertainment and/or sales event that are located on private property. A special event permit and/or other authorization within the City Code is required for such events located in the right-of-way. However, when an event is authorized to occur in the public right-of-way, adjacent private properties may be included in the area of the event; in such case, an additional temporary use permit for the private property is not required.

(1) The timeframe of a temporary entertainment and/or sales event, including number of days per week and overall duration of the event, will be determined and approved as part of the temporary use permit. The temporary use permit may be issued on a yearly basis.

(2) Temporary entertainment and/or sales events in the residential zones is restricted to those events associated with and conducted by an institutional use within the district, such as a place of worship and educational facility, and must take place entirely on the lot containing the use.

(3) A management plan is required and must be approved as part of the temporary use permit application that demonstrates the following:

(i) An estimate of the daily number of attendees.

(ii) General layout of performance or sales areas, visitor facilities, such as any seating areas and restrooms, parking areas, and all ingress and egress points to the site.

(iii) An established set of operating rules addressing the governance structure of the event, hours of operation, maintenance, and security requirements.

(iv) The on-site presence of a manager during the event.

(v) Provision for waste removal and for recycling.

(vi) The days and hours of operation, including set-up and take-down times.

(vii) A description of crowd control and security measures.

(viii) For outdoor events, a lighting plan describing all temporary lighting to be installed.

(ix) A parking and loading management plan.

(4) Any temporary structures must be removed within three days of conclusion of the event.

(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24)

Sec. 38-45. Use Definitions

Accessory Dwelling Unit (ADU). An additional dwelling unit associated with and incidental to a principal dwelling on the same lot.

(a) Attached Accessory Dwelling Unit. An additional subordinate dwelling unit located on the same lot as a principal dwelling unit which is joined to another dwelling at one or more sides by a wall and contained entirely within the footprint of the principal dwelling unit. Examples include converted living space, attached garages, basements, or attics, additions, or a combination thereof.

(b) Detached Accessory Dwelling Unit. An additional subordinate dwelling unit located on the same lot as a principal dwelling unit and is a stand-alone, separate structure. This can include an existing garage or other accessory structure detached from the principal dwelling unit that is legally converted (fully or partially) to an accessory dwelling unit.

Adult Use. For the purpose of this use, adult uses include the following:

(a) Adult. Any person who is 18 years of age or older.

(b) Adult Entertainment. Any exhibition of any adult-oriented motion picture, live performance, display, or dance of any type that has as a principal portion of such performance, any actual or simulated performance of specified sexual activities, sexual conduct, or exhibition and viewing of any specified anatomical areas, removal of articles of clothing or appearing unclothed, or any other personal service offered customers involving exhibition and viewing of specified anatomical areas.

(c) Adult-Oriented Establishments. Establishments that include, but are not limited to, sexually explicit establishments which cater to an exclusively or predominantly adult clientele and offer adult entertainment for business purposes such as: adult bookstores, adult motion picture theaters, adult cabarets, escort agencies, sexual encounter centers, adult massage parlors, adult video stores, and other enterprises which regularly feature materials, acts, or displays involving complete nudity or exposure of the specified anatomical areas defined below and/or sexual excitement or enticement. Adult-oriented establishment further includes, without being limited to, any adult entertainment studio or any premises that is physically arranged and used as such, whether advertised or represented as an adult entertainment studio,, exotic dance studio, encounter studio, sensitivity studio, model studio, escort service, lingerie studio, or any other term of like import which regularly feature materials, acts or displays involving complete nudity or exposure of the specified anatomical areas defined below for sexual excitement or enticement as a business purpose.

(d) Adult Bookstore. A commercial establishment which, as one of its principal business purposes, offers for sale or rental for any form of consideration any one of the following: books, magazines, periodicals or other printed matter, or photographs, films, motion pictures, sexual devices, video cassettes, compact discs, digital video discs, slides, or other visual representations which are characterized by their emphasis on the display of sexual conduct, specified sexual activities, or specified anatomical areas. A business purpose for purposes of these definitions is defined below.

(e) Adult Motion Picture Theater. Any public place, whether open or enclosed, which is used as one of its principal business purposes for presenting material distinguished or characterized by an emphasis on matter depicting, describing, or relating to sexual conduct, specified sexual activities, or specified anatomical areas for observation by patrons therein. A business purpose for purposes of these definitions is defined below.

(f) Adult Cabaret. Any restaurant, bar, dance hall, nightclub or other such public place which as one of its principal business purposes regularly features entertainment of an erotic nature, including exotic dancers, strippers, or similar entertainers, and prohibits access by minors, because of age, to the premises,

and/or advertises itself as offering "adult" or "XXX" or "X-rated" or "erotic" or "sexual" or "sensual" or "pornographic" material on signage. A business purpose for purposes of these definitions is defined below.

(g) Adult Video Store. A commercial establishment which, as one of its principal business purposes, offers for sale or rental for any form of consideration any one of the following: photographs, films, motion pictures, sexual devices, video cassettes, compact discs, digital video discs, slides, or other visual representations which are characterized by their emphasis on the display of sexual conduct, specified sexual activities, or specified anatomical areas. A business purpose for purposes of these definitions is defined below.

(h) Adult Massage Parlors. Any premises, public place, place of business or membership club which as one of its principal business purposes includes the business or activity of furnishing, providing or giving for a fee or any other form of consideration a massage, a sauna, a bath, body painting, or similar massage services or procedure, and prohibits access by minors, because of age, to the premises, and/or advertises itself as offering "adult" or "XXX" or "X-rated" or "erotic" or "sexual" or "sensual" or "pornographic" material on signage. This definition is not construed to include a principal business purpose such as a hospital, nursing home, medical clinic, exercise facility, or the office of a duly licensed physician, surgeon, physical therapist, chiropractor, holistic medicine, or osteopath. Nor is this definition be construed to include a barber shop, beauty salon, or spa operated by a duly licensed barber or cosmetologist,. A business purpose for purposes of these definitions is defined below.

(i) Minor. Any person less than 18 years of age.

(j) Portion. At least 33.3% of the thing so described whenever such term is used in this Code.

(k) Business Purpose. A business purpose for purposes of these definitions is a principal business purpose if any one or more of the following criteria applies:

(1) A principal portion of the business' displayed merchandise consists of the foregoing enumerated items.

(2) A principal portion of the wholesale value of the business' displayed merchandise consists of the foregoing enumerated items.

(3) A principal portion of the retail value of the business' displayed merchandise consists of the foregoing enumerated items.

(l) Sexual Conduct. The engaging in or the commission of an act of sexual intercourse, oral-genital contact, or the touching of the sexual organs, pubic region, buttocks, or female breast of a person for the purpose of arousing or gratifying the sexual desire of another person.

(m) Sexual Device. Any three-dimensional object primarily designed and marketed for the stimulation of the male or female human genital organs or anus, and includes three-dimensional reproductions or representations of the human genital organs or anus. Nothing in this definition is construed to include devices primarily intended for medical education, protection against sexually transmitted diseases, or for prevention of pregnancy.

(n) Sexual Device Shop. A commercial establishment that regularly features sexual devices or offers for sale sexual devices as one of its principal business purposes. Nothing in this definition is construed to include any pharmacy, drug store, medical clinic, or any establishment primarily dedicated to providing medical or healthcare products or services, nor is this definition construed to include commercial establishments which do not restrict access to any portion of their premises to minors by reason of age. A business purpose for purposes of these definitions is defined below.

(o) Specified Sexual Activities.

(1) Human genitals in a state of actual or simulated sexual stimulation or arousal.

(2) Acts of actual or simulated human masturbation, sexual intercourse or sodomy.

(3) Actual or simulated fondling or other erotic touching of human genitals, pubic regions, buttocks or female breast.

(p) Specified Anatomical Areas.

(1) Less than completely and opaquely covered human genitals, pubic region, buttocks, and/or female breast below a point immediately above the top of the areola.

(2) Human male genitals in a discernibly turgid state, even if completely and opaquely covered.

Agriculture. Agriculture includes:

(a) The land, buildings and machinery used in the commercial production of farm products and nursery stock.

(b) The activity carried on in connection with the commercial production of farm products and nursery stock.

(c) Recreational and educational activities on land used for the commercial production of farm products and nursery stock.

As used in this definition, the term farm products mean forage and sod crops; grains and feed crops; dairy and dairy products; poultry and poultry products; livestock, including breeding and grazing; fruits; vegetables; flowers; seeds; grasses; forestry products; fish and other aquatic animals used for food; bees; equine; and all other plants and animals that produce food, feed, fiber, or fur. The term nursery stock means all trees, shrubs, or other plants, or parts of trees, shrubs, or other plants, grown or kept for, or capable of, propagation, distribution, or sale on a commercial basis. Agriculture includes a single-unit detached dwelling used as a dwelling for the operators/owners of the farm.

Alternative Correctional Facility. A monitored housing facility for adults or minors that is required by the courts or otherwise available as an alternative to incarceration.

Amusement Facility—Indoor. A facility for spectator and participatory uses conducted within an enclosed building, such as movie theaters, indoor sports arenas, bowling alleys, tumbling centers, skating centers, roller rinks, escape room/physical adventure game facilities, and pool halls. Indoor amusement facilities do not include live performance venues. An indoor amusement facility may include uses such as, but not limited to, concession stands, eating and drinking establishments, and retail sales as ancillary uses.

Amusement Facility—Outdoor. A facility for spectator and participatory uses conducted outdoors or within partially enclosed structures, such as outdoor sports stadiums, batting cages, and miniature golf courses. An outdoor amusement facility may include uses such as, but not limited to, concession stands, eating and drinking establishments, and retail sales as ancillary uses.

Animal Care Facility. An establishment which provides care for animals, excluding livestock, including veterinary offices for the treatment of animals, where animals may be boarded during their convalescence, pet grooming establishments, animal training centers and clubs, and pet boarding facilities, where animals are boarded during the day and/or for short-term stays. Animal care facilities include pet cremation services.

Animal Shelter. A facility used to house or contain stray, homeless, abandoned, and/or unwanted animals.

Art Gallery. An establishment that sells, loans and/or displays paintings, sculpture, photographs, video art, or other works of art. Art gallery does not include a cultural facility, such as a library or museum, which may also display paintings, sculpture, photographs, video art, or other works.

Arts and Fitness Studio. An establishment where an art or activity is taught, studied, or practiced such as dance, martial arts, photography, music, painting, gymnastics, pilates, or yoga. An arts studio also includes private exercise studios for private sessions with trainers and/or private classes; health clubs are not an arts and fitness studio, but a personal service establishment.

Bed and Breakfast. A single-unit dwelling where a resident/owner provides lodging for a daily fee and prepares meals for guests. A bed and breakfast may include dining facilities for the guests. A bed and breakfast may or may not have reception facilities.

Borrow Pit. Land used as an excavation area where materials like soil, sand, gravel, or stone are extracted for construction purposes. Such excavation is a principal use of the land.

Body Modification Establishment. An establishment that offers tattooing services, body piercing, and/or non-medical body modification. Body modification establishment does not include an establishment that offers only ear piercing as an ancillary service.

Broadcasting Facility. A facility engaged in broadcasting and information relay services for radio and television signals, including studio facilities. A broadcasting facility may or may not include antennas to broadcast the signal.

Campground/Recreational Vehicle (RV) Park. Land used for transient occupancy primarily by camping in tents and/or recreational vehicles, such as camp trailers, travel trailers, motor homes, or similar movable temporary sleeping quarters.

Campground, Resort. Land used for transient occupancy by camping primarily in cabins and other shelters such as domes, yurts, and treehouses.

Car Wash. An establishment for the washing and cleaning of vehicles or other light duty equipment, whether automatic, by hand, or self-service. The car wash facility may be within an enclosed structure, an open bay structure, or similar configurations.

Cemetery. Land and structures reserved for the interring of human remains or the interring of animal remains. Cemeteries may include structures for performing religious ceremonies related to the entombment of the deceased, mortuaries, including the sales of items related to the internment of remains, and related accessory structures, such as sheds for the storage of maintenance equipment. Cemeteries may also include crematoriums and embalming facilities.

Children's Home. An institutional residential facility that provides housing for and care to minors who are wards of the state, whose parents or guardians are deceased or otherwise unable or unwilling to care for them. This includes institutions that are located in one or more buildings on contiguous property with one administrative body.

Commercial Kitchen (Standalone). A certified shared commercial kitchen in which individuals or businesses prepare value-added food products and meals, usually paying an hourly or daily rate to lease a space shared by others.

Commercial Parking. Parking areas, lots, or structures, that are used primarily for the parking of vehicles for a fee or compensation, excluding parking required for residential or other non-commercial uses.

Community Center. A facility used as a place of meeting, recreation, or social activity, that is open to the public and is not operated for profit, and offers a variety of educational and community service activities. A community center may serve as a local "food hub" where regionally grown food, including value added food, can be grown and/or brought for distribution and sale.

Community Garden. Fruits, flowers, vegetables, or ornamental plants cultivated by one or more individuals.

Conservation Area. Designated open space that preserves and protects natural features, wildlife, and critical environmental features, as well as undeveloped sites of historical or cultural significance. A conservation area may include opportunities for passive recreation, such as hiking trails and lookout structures, and environmental education.

Cottage Court Development. A small lot residential development in a manner that organizes various dwelling types around a common open space, designed as a cohesive whole and maintained in shared stewardship by residents.

Crematorium. A standalone, enclosed facility where human or companion animal remains are cremated in a cremation retort. A crematorium may be an independent principal use and not associated with a funeral home. If a crematorium is used in association with a funeral home, then it is considered an accessory use to the funeral home.

Cultural Facility. A facility open to the public that provides access to cultural exhibits and activities including, but not limited to, museums, cultural or historical centers, non-commercial galleries, historical societies, and libraries. A cultural facility may include uses such as, but not limited to, retail sales of related items, performance spaces and auditoriums, and eating and drinking establishments as ancillary uses.

Day Care Center. A facility where, for a portion of a 24 hour day, care and supervision is provided for minors, the elderly, and/or functionally-impaired adults in a protective setting.

Day Care Home. A residential dwelling where a permanent occupant of the dwelling provides care for minors, the elderly, and/or functionally-impaired adults from outside households in a protective setting for less than 24 hours per day. A day care home does not include facilities that only receive children from a single household.

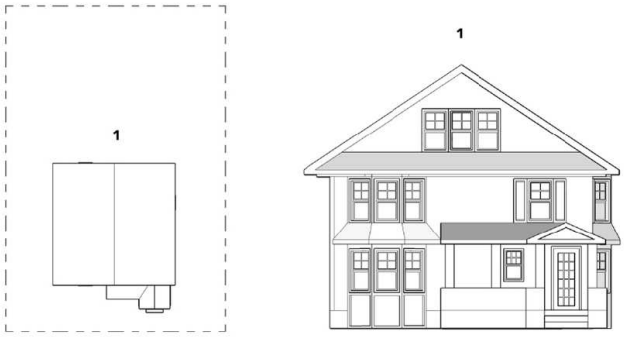
Drive-Through Facility. That portion of a business where transactions occur directly with customers via a service window, kiosk, or other configuration that allows customers to remain in their vehicle.

Drive-Through Facility, Standalone. A business where transactions occur directly with customers via a service window, kiosk, or other configuration that allows customers to remain in their vehicle and that does not provide on-premise consumption on-site. Drive-Through Facility, Standalone are considered the principal use on the property and do not have any other principal uses and buildings. Drive-Through Facility, Standalone uses are not considered Eating and Drinking Establishments.

Drug Treatment Clinic. A licensed facility authorized by the state to administer drugs, such as methadone or suboxone, in the treatment, maintenance, or detoxification of persons.

Dwelling—Single-Unit Detached. A structure containing one dwelling unit located on a single lot.

DWELLING—SINGLE-UNIT DETACHED



Dwelling – Single-Unit Detached.

Dwelling—Single-Unit Attached. A structure containing one single-unit dwelling attached at an interior side lot line by a vertical party wall to another single-unit dwelling. Each single-unit dwelling is located on a separate lot.

DWELLING—SINGLE-UNIT ATTACHED

Dwelling—Two-Unit. A structure containing two dwelling units on one lot.

DWELLING—TWO-UNIT

Dwelling – Two-Unit.

Dwelling—Three-Unit. A structure containing three dwelling units on one lot.

DWELLING—THREE-UNIT

Dwelling – Three-Unit.

Dwelling—Four-Unit. A structure containing four dwelling units on one lot.

DWELLING—FOUR-UNIT

Dwelling – Four-Unit.

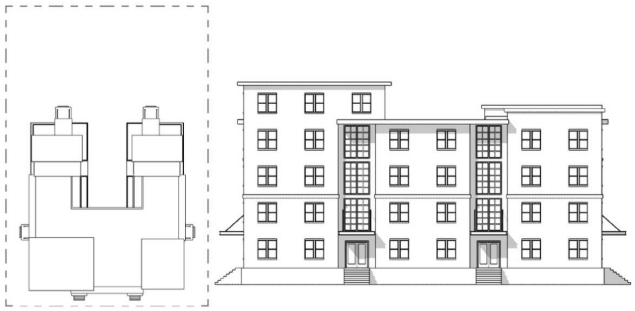
Dwelling—Townhouse. Three or more attached dwellings where each townhouse building in the larger structure is attached to another townhouse building by a vertical party wall and designed so that each townhouse building in the development has a separate exterior entrance to the dwelling unit.

DWELLING—TOWNHOUSE

Dwelling – Townhouse.

Dwelling—Multi-Unit: A Structure containing five or more dwelling units within a singlebuilding where the units are accessed by one or more common entryways. However, ground floor units may be accessed by individual entry ways. See also Multi-Unit Developments.

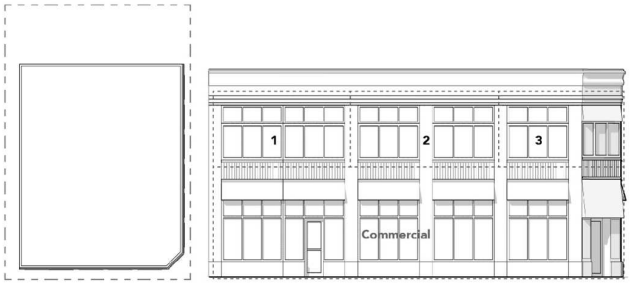
DWELLING—MULTI-UNIT



Dwelling – Multi-Unit.

Dwelling—Above the Ground Floor. Dwelling units located above ground-floor nonresidential uses.

DWELLING—ABOVE THE GROUND FLOOR



Dwelling, Above the Ground Floor

Dwelling—Live/Work. A principal structure that combines a dwelling unit with a commercial use permitted in the zoning district that is used by one or more of the residents. A live/work dwelling may also include the combination of a dwelling unit with arts-related activities, such as painting, photography, sculpture, music, and film, used by one or more of the residents. Live/work dwellings are subject to the standards for the individual uses contained within this Code.

Dwelling—Manufactured Home. A structure, transportable in one or more sections, which in the traveling mode is eight body feet or more in width, or 40 body feet or more in length, or, when erected on site, is 320 or more square feet; and which is built on a permanent chassis and designed to be used as a dwelling, with or without permanent foundation when connected to the required utilities, including the plumbing, heating, air conditioning, and electrical systems contained therein. Manufactured home includes any structure that meets all of the requirements of this subsection except the size requirements and with respect to which the manufacturer voluntarily files a certification required by the Secretary of HUD and complies with the standards established under the Act.

(a) For manufactured homes built before June 15, 1976, manufactured home means a portable manufactured housing unit designed for transportation on its own chassis and placement on a temporary or semi-permanent foundation having a measurement of over 32 feet in length and over eight feet in width.

Manufactured home also means a double-wide manufactured home, which is two or more portable manufactured housing units designed for transportation on their own chassis that connect on site for placement on a temporary or semi-permanent foundation having a measurement of over 32 feet in length and over eight feet in width.

(b) Modular buildings and modular homes are not considered manufactured homes and refer to a method of construction. Modular homes are built in multiple sections, called modules, at a facility and then delivered to the site where the modules are set onto the building's foundation and joined together to make a single building. Modular buildings and modular homes must conform to all zoning requirements for the dwelling type and meet all local building code requirements.

Eating and Drinking Establishment. An establishment where food and/or drinks are prepared and provided to the public for on-premises consumption by seated patrons, carry-out, and/or delivery service. Restaurants and bars are considered eating and drinking establishments.

Educational Facility—College/University. A facility for post-secondary higher learning that grants associate or bachelor degrees. The institution may also have research facilities and/or professional schools that grant master and doctoral degrees. Educational facilities—university or college include ancillary uses such as dormitories, housing for staff and students, fraternities/sororities, cafeterias, eating and drinking establishments, retail sales, indoor or outdoor recreational facilities, and similar uses.

Educational Facility—Primary or Secondary. A public, private, or parochial facility that offers instruction at the elementary, junior high, and/or high school levels. A pre-school may also be included as part of a primary school. Educational facilities—primary or secondary include ancillary uses such as dormitories, housing for staff and students, cafeterias, indoor or outdoor recreational facilities, and similar uses.

Educational Facility—Vocational. A facility that offers instruction in industrial, clerical, computer, managerial, automotive, repair (electrical, plumbing, carpentry, etc.), or commercial skills, or a business conducted as a commercial enterprise, such as a school for general educational development or commercial vehicle driving school. Educational facility—vocational also applies to privately operated schools that do not offer a complete educational curriculum. This does not include primary or secondary educational facilities.

Entertainment Venue. Any establishment (indoors or outdoors) where entertainment, either passive or active, is provided for the pleasure of patrons, either independent or in conjunction with any other use. Such entertainment includes, but is not limited to vocal and instrumental music, dancing, karaoke, comedy, acting, weddings, corporate and charitable events, or other activities using amplified sound. Entertainment venues do not include country clubs, golf courses, or residential neighborhood amenity centers.

Farmstand. A structure used to display and sell products grown on a lot in agricultural use.

Financial Institution. A bank, savings and loan, credit union, or mortgage office.

Financial Institution, Alternative. Alternative financial institution means establishments that are:

(a) Not licensed by an appropriate state or federal agency as a bank, savings and loan association, or credit union, industrial loan and thrift offices, insurance premium finance companies, or mortgage companies.

(b) Regulated by the Tennessee Department of Financial Institutions.

(c) Categorized for purposes of this Code as:

(1) Pawnbrokers as defined at T.C.A. § 45-6-203.

(2) Title pledge lenders as defined at T.C.A. § 45-15-103.

(3) Deferred presentment services as defined at T.C.A. § 45-17-102.

(4) Check cashers as defined at T.C.A, § 45-18-102 except that check cashers do not include check cashers exempt from state regulation pursuant to T.C.A. § 45-18-103.

(5) Flexible credit licensee that offers flex loans pursuant to Chapter 12, Title 45 of the Tennessee Code Annotated.

(6) Any combination of alternative financial services which include, but are not limited to, pawnbrokers, title pledge lenders, deferred presentment services, check cashers, and/or flexible credit licensee.

Entertainment Venue: Any establishment (indoors or outdoors) where entertainment, either passive or active, is provided for the pleasure of patrons, either independent or in conjunction with any other use. Such entertainment includes, but is not limited to vocal and instrumental music, dancing, karaoke, comedy, acting, weddings, corporate and charitable events, or other activities using amplified sound. Entertainment venues do not include country clubs, golf courses, or residential neighborhood amenity centers.

Food Bank. A non-profit or governmental organization that collects and distributes food to hunger relief organizations. Food is not distributed to the public or individuals from a food bank.

Food Pantry. A non-profit or governmental organization that provides food directly to those in need. Food pantries receive, buy, store, and distribute food. Food pantries may also prepare meals to be served at no cost to those who receive them. A food pantry may be an ancillary use of a place of worship, community center, social service center, and/or homeless shelter.

Food Truck Park. The use of land designed to accommodate one or more food truck vendors offering food and/or beverages for sale to the public as the primary use of the property, which may include seating areas for customers.

Fraternity/Sorority. A structure used by a chartered fraternal or sororal membership organization or association, used as a residence or a dining and recreational facility for members of organizations or associations who are students at a university, which permits the organization or association to use its facilities because of the relationship of such organization or association to the body of students enrolled in such institution.

Freight Terminal. A processing node for freight, such as a trucking terminal.

Funeral Home. An establishment where the dead are prepared for burial display and for rituals before burial or cremation, including chapels for the display of the deceased and the conducting of rituals before burial or cremation, and crematoriums.

Gas Station. An establishment where fuel for vehicles is stored and dispersed from fixed equipment into the fuel tanks of motor vehicles. Gas stations may include solar and/or electric charging stations. A gas station may also include ancillary retail.

Golf Course/Driving Range. A tract of land design with at least nine holes for playing a game of golf and improved with tees, greens, fairways, and hazards. A golf course may include a clubhouse, restrooms, snack-bar, and pro-shop as ancillary uses. A driving range may be designed as a standalone facility or included as part of a golf course, which is defined as a tract of land equipped with distance markers, clubs, balls, and tees for practicing the hitting of golf balls.

Government Office/Facility. Offices owned, operated, or occupied by a governmental agency to provide a governmental service to the public, such as City offices and post offices. Government offices do not include public safety or public works facilities.

Group Homes Operated on a Non-profit Basis. For the purposes of any zoning law in Tennessee per Tenn. Code Ann. § 13-24-101, the classification "single family residence" includes any home in which eight (8) or fewer unrelated persons with disabilities reside, and may include three (3) additional persons acting as support staff or guardians, who need not be related to each other or to any of the persons with disabilities residing in the home. "Person with a disability" does not include persons who have a mental illness and, because of such mental illness, pose a likelihood of serious harm as defined in § 33-6-501, or who have been convicted of serious criminal conduct related to such mental illness. This part does not apply to such family residences wherein persons with disabilities reside when such residences are operated on a commercial basis. A group home with eight or fewer residents is considered a single-unit dwelling.

Group Homes Operated on a For-profit Basis. A group care facility, operated on a for-profit basis, in a residential dwelling for: 1) care of persons in need of personal services or assistance essential for activities of daily living; or 2) care of persons in transition or in need of supervision, including drug and alcohol rehabilitation (excluding medical detoxification). Group home does not include persons who are mentally ill and, because of such mental illness, pose a likelihood of serious harm as defined in Tennessee Code Annotated § 33-6-501, or who have been convicted of serious criminal conduct related to such mental illness. A group home with eight or fewer residents operated on a commercial basis is required to have a Special Exceptions Permit.

Halfway House. A residential facility for persons who have been institutionalized for criminal conduct and who either require a group setting to facilitate the transition to society, or have been ordered to such facilities by the court as a condition of parole or probation.

Heavy Retail, Rental, and Service. Retail, rental, and/or service establishments of a heavier and larger-scale commercial character typically requiring permanent outdoor service or storage areas and/or partially enclosed structures. Examples of heavy retail, rental, and service establishments include large-scale home improvement centers with outdoor storage, display, and rental components, lumberyards, recreational vehicle dealerships, boat sales, rental, and service, truck rental establishments, and sales, rental, and repair of heavy equipment. Wholesale establishments that sell to the general public, including those establishments where membership is required, are considered heavy retail, rental, and service establishments.

Helistop. Land or part of a structure used for the landing of helicopters.

Home Occupation. An activity carried out for economic gain by a resident, conducted as an accessory use in the resident's dwelling.

Horizontal Property Act: See Tennessee Code Annotated Title 66, Chapter 27 Horizontal Property Act.

Horizontal Property Regime: See Horizontal Property Act.

Hospital. Facilities for primary health services and medical or surgical care to people, primarily in-patient, and including, as an integral part of the institution, related facilities such as laboratories, outpatient facilities, dormitories and staff housing, or educational facilities, and ancillary uses such as, but not limited to, cafeterias, eating and drinking establishments, retail sales, and similar uses.

Hotel. A commercial facility that provides transient lodging accommodations for a fee and customary lodging services. Related ancillary uses include, but are not be limited to, meeting facilities, eating and drinking establishments, and recreational facilities for the use of guests. Hotel includes motels, hostels, and extended stay hotels. Hotels may be constructed as a series of detached structures.

House Museum. A dwelling converted from its original principal use as a dwelling unit to a permanent, staffed institution dedicated to the collection, preservation, study, display, and educational use of objects,

and which is open to the public on a regular and limited schedule, is owned and operated as a nonprofit organization, and has a board of trustees or directors to oversee its operation and management and to ensure that the institution is true to its purpose.

Indoor Recreation. A commercial facility providing daily or regularly scheduled recreation-oriented activities in an indoor setting. Indoor recreation includes the following:

(a) Amusement center, game/video arcade.

(b) Assembly hall, auditorium, meeting hall.

(c) Billiard, pool hall.

(d) Bowling alley.

(e) Club, athletic or recreational.

(f) Convention center, arena.

(g) Extreme sports facility such as BMX, skateboarding or roller blading.

(h) Ice or roller skating rink.

(i) Inflatable playground/jump house.

(j) Miniature golf facility.

(k) Motor track.

(l) Movie theater or other indoor theater

Industrial—Artisan/Craft. Artisan-related crafts and industrial processes that are more intensive uses, such as small-scale metalworking, glassblowing, furniture making, and small-scale food production that includes preparation, processing, canning, or packaging of food products. Micro-production of alcohol and specialty food production are regulated separately from artisan/craft industrial. An artisan/craft industrial use may also include sales of products created on-site.

Industrial—General. The manufacture, fabrication, processing, reduction, and/or destruction of any article, substance, or commodity, or any other treatment thereof in such a manner as to change the form, character, and/or appearance, and incidental storage, sales, and distribution of such products. General industrial uses may produce noise, vibrations, illumination, or particulate that is perceptible to adjacent land users. These industrial uses typically have outdoor storage areas.

Industrial—Light. Research and development activities, and the manufacture, fabrication, processing, reduction, and/or destruction of any article, substance, or commodity, or any other treatment thereof in such a manner as to change the form, character, and/or appearance, where such activities are conducted wholly within an enclosed building. A light industrial use may also include a showroom, sales of products related to the items manufactured or stored on-site, and/or ancillary outdoor storage.

Industrial Design. An establishment for the research, design, and brand development of products for future production. Industrial design integrates the creative fields of art, science, and/or engineering to determine and define a product's form and features in advance of the physical act of making a product. An industrial design establishment may create prototypes, but may not mass manufacture products from the premises.

Junk Yard/Salvage Yard. A facility used for the abandonment, sale, storage, collection, or baling of scrap metal, other scrap or discarded materials, waste tire processing or collection area, and/or abandoned vehicles or machinery, or parts thereof.

Keeping of Livestock/Equines. The keeping of livestock and/or equines, including the associated structures, such as stables, as an accessory use to a non-agricultural uses, such as a dwelling.

Liquor Store. Retail store selling package liquor.

Live Entertainment—Secondary Use. A live performance, performed live by one or more persons including, but not limited to, musical acts, including disc jockeys (DJs), theatrical plays, performance art, stand-up comedy, and magic, included as part of the operation of an eating and drinking establishment, amusement facility, or similar use. As a secondary use, the other principal use operating on the site is open to public during hours when no performance is scheduled. Live entertainment—secondary use is approved separately as a principal use. Live entertainment—secondary use does not include:

(a) Any adult use.

(b) Live performance venue.

(c) Periodic performances or entertainment at educational facilities, places of worship, cultural facilities, reception facilities, and performances at weddings and similar events.

(d) Incidental entertainment, which is defined as background music provided at an eating and drinking establishment.

Live Performance Venue. A facility for the presentation of live entertainment, including musical acts, including disc jockeys (DJs), theatrical plays, stand-up comedy, and similar performances. Performances are scheduled in advance and tickets are required for admission and available for purchase in advance or may be purchased at the venue on the day of the performance. A live performance venue is only open to the public when a live performance is scheduled. A live performance venue may include classroom space utilized during hours it is not open to the public for a performance. A live performance venue may include concession stands, including sale of alcohol, but only when it is open to the public for a performance. A live performance venue does not include any adult use.

Lodge/Private Social Club. A facility operated by an organization or association for a common purpose, such as, but not limited to, a meeting hall for a fraternal or social organization or a union hall, but not including clubs organized primarily for-profit or to render a service which is customarily carried on as a business.

Lodge/private social club also includes an establishment owned or operated by a corporation, association, or group of private individuals, open to members, their families, and invited guests, organized and operated for pursuit of a common interest, occupation, or activity.

Manufactured Home Park. A parcel of land under single control or unified ownership that has been planned and improved for the placement of manufactured homes for residential use.

Manufactured Home Stand. That part of an individual manufactured home space which has been reserved for the placement of the manufactured home.

Manufactured Home Subdivision. A parcel of land under single control or unified ownership that has been planned and improved for the placement of manufactured homes for residential use and single-unit detached dwellings, where each lot is individually owned.

Marina. Any publicly or privately owned dock, basin or wet boat storage facility built to accommodate more than two boats and providing permanent or temporary docking space.

Medical/Dental Office/Clinic. A facility operated by one or more physicians, dentists, chiropractors, psychiatrists, physiotherapists, or other licensed practitioners of the healing arts for the examination and treatment of persons solely on an outpatient basis. Medical/dental offices also include alternative medicine clinics, such as acupuncture and holistic therapies, and physical therapy offices for physical rehabilitation.

Micro-Production of Alcohol. A facility for the production and packaging of alcoholic beverages, such as beer, wine, spirits, cider, and mead, for distribution and consumption on-premises. Facilities include a tasting room and may include retail areas for the purchase of beverages manufactured on-site and related items.

Mobile Food Vendor. A motor vehicle or food trailer towed by another vehicle, designed, and equipped to sell food and/or beverages directly to consumers. It does not include wholesale food distributors.

Mobile Retail Vendor. A motor vehicle, or trailer towed by another vehicle, designed and equipped to sell goods directly to consumers. It does not include wholesale distributors.

Movie Studio. Facilities for the production of motion pictures and film, including stages, exterior sets, film laboratories, sound recording facilities, construction, repair and storage facilities, caretaker and temporary housing, related commercial vehicles, and accessory fabrication activities.

Multi-Unit Developments: A multi-unit development is a property that has more than one dwelling unit, such as single-unit dwellings, two-unit, three-unit, four-unit, and multi-unit dwellings built on a single lot with no individual lot lines present. A multi-unit development can include various housing options/types on the one lot.

Multi-Use Stadium/Area: An open, partially enclosed facility used or intended to be used primarily for spectator sports, entertainment events and other public gatherings.

Neighborhood Commercial Establishment. A commercial use within a residential neighborhood that is nonresidential in its original construction and/or use. The structure containing a neighborhood commercial establishment may also contain dwelling units.

Nightclub. An establishment that provides entertainment of a participatory nature, including disc jockeys (DJs), by providing a place for dancing designed with an area designated as a dance floor, including any stage area; however portions of the floor area may be set up for alcohol service, including a bar counter, with or without stools, and other seating areas.

Office. An establishment that engages in the processing, manipulation, or application of business information or professional expertise. Such an office may or may not offer services to the public. An office is not materially involved in fabricating, assembling, or warehousing of physical products for the retail or wholesale market, nor engaged in the repair of products or retail services. An office does not include financial institution or industrial design.

Open Activation Related Uses: A commercial or non-commercial use situated in a public or private building or open space that provides temporary activation for an area.

Outdoor Market. An outdoor site, where individual stalls or spaces are provided to vendors to display, buy, sell, exchange, or deal in produce, food, and new or used goods.

Outdoor Recreation. A commercial facility, varying in size, providing daily or regularly scheduled recreation-oriented activities. Activities take place predominately outdoors or within outdoor structures. Outdoor recreation includes the following:

Camp or campground.

Drive-in theater.

Extreme sports facility, such as BMX, skateboarding or roller blading.

Open-air theater.

Outdoor amusements such as batting cage, golf driving range, amusement park, miniature golf facility or water park.

Racetrack.

Stadium, arena.

Outdoor Sales and Display (Accessory). Part of a lot used for outdoor sales and/or display of goods accessory to the principal use.

Outdoor Seating/Activity Area (Accessory). An outdoor seating/activity area as an accessory use is located outside the permanent enclosed area, and is used for seating, for food and/or beverage consumption, and/or participatory activities such as trivia. This includes, but is not limited to, areas such as patios, decks, rooftops, and open areas.

Outdoor Storage (Accessory). The storage of materials, supplies, equipment, vehicles, and similar items outdoors accessory to and used by the principal use of land.

Outdoor Storage Yard. The storage of material outdoors as a principal use of land for more than 24 hours. An outdoor storage yard often functions as a secondary principal use to businesses with outdoor storage of materials, such as storage of materials used in a contracting business where the contractor's office is also on-site.

Park. A facility that serves the recreational needs of residents and visitors. Park includes, but is not limited to, playgrounds, ballfields, athletic fields, basketball courts, tennis courts, dog parks, skateboard parks, passive recreation areas, and gymnasiums. Park may also include non-commercial indoor recreation facilities, and amphitheaters, as well as ancillary uses such as, but not limited to, eating and drinking establishments and retail establishments, and temporary outdoor uses such as festivals and performances.

Parking Lot (Principal Use). An open, hard-surfaced area, excluding a street or public way, used for the storage of operable vehicles, whether for compensation or at no charge.

Parking Structure (Principal Use). A structure used for the parking or storage of operable vehicles, whether for compensation or at no charge.

Passenger Terminal. A facility for the assembly and dispersal of travelling passengers.

Personal Service Establishment. An establishment that provides frequent or recurrent needed services of a personal nature. Typical uses include, but are not limited to, beauty shops, barbershops, tanning salons, electronics repair shops, nail salons, spas, massage parlors, laundromats, health clubs, dry cleaners, tailors and the like.

Place of Worship. A facility where persons regularly assemble for religious purposes and related social events and may include group housing for persons under religious vows or religious orders. Places of worship may also include ancillary uses such as day care and pre-school facilities, meeting rooms, emergency shelters, auditoriums, and/or classrooms for weekly religious instruction.

Private Recreation Club. An establishment owned or operated by a corporation, association, or group of private individuals, open to members, their families, and invited guests organized and operated for social and recreation purposes, and which may include recreation facilities, both indoor and outdoor, restaurants and bars, meeting rooms, and/or similar uses.

Public Safety Facility. A facility operated by and for the use of public safety agencies, such as the fire department, emergency medical services, and the police department, including the dispatch, storage, and maintenance of police and fire vehicles. Public safety facilities include shelter and training facilities for canine and equine units of public safety agencies.

Public Works Facility. A facility operated by the municipal public works departments to provide municipal services, including dispatch, storage, and maintenance of municipal vehicles.

Quarry/Mining and Extraction. An open excavation for obtaining building stone, slate, limestone or other mineral substances. The process of removal can include blasting, crushing, screening, sizing and conveying of the material. The material derived is usually sold on a commercial basis.

Reception Facility. A facility that provides hosting and rental services of a banquet hall or similar facilities for private events including, but not limited to, wedding receptions, holiday parties, and fundraisers, with food and beverages that are prepared and served on-site or by a caterer to invited guests during intermittent dates and hours of operation. Live entertainment may be provided as an ancillary use as part of an event. A reception facility is not operated as an eating and drinking establishment with regular hours of operation.

Reception Facility, Estate. A single-unit dwelling that hosts private events both within the dwelling and on the property including, but not limited to, wedding receptions, holiday parties, and fundraisers, with food and beverages that are prepared and served on-site or by a caterer to invited guests during intermittent dates and hours of operation. Live entertainment may be provided as an ancillary use as part of an event. Private events may also be hosted within accessory structures located on the site.

Reception Facility (Indoor Only). An indoor facility that provides hosting and rental services of a banquet hall or similar facilities for private events including, but not limited to, wedding receptions, holiday parties, and fundraisers, with food and beverages that are prepared and served on-site or by a caterer to invited guests during intermittent dates and hours of operation. Live entertainment may be provided as an ancillary use as part of an event. A reception facility is not operated as an eating and drinking establishment with regular hours of operation. Reception Facility (Indoor) shall have no outdoor gathering places such as decks, balconies, covered areas, and patios. Parking lots shall not be used for outdoor gathering places related to the indoor Reception Facility. There shall be no outdoor use of an amplified sound system.

Recycling Processing Facility. An establishment for construction, demolition, or other materials to be recycled and used in new products.

Research and Development. A facility where research and development is conducted in industries that include, but are not limited to, biotechnology, pharmaceuticals, medical instrumentation or supplies, communication, and information technology, electronics and instrumentation, and computer hardware and software. A research and development establishment may create prototypes of products but may not manufacture products for direct sale and distribution from the premises.

Residential Care Facility. A licensed care facility that provides 24-hour medical and/or non-medical care of persons in need of personal services, supervision, or assistance essential for sustaining the activities of daily living, or for the protection of the individual. A residential care facility includes nursing care, nursing homes, residential home for aged persons, assisted living facilities, adult care home, hospice care, and continuum of care facilities. Continuum of care facilities may also include independent living facilities as part of the continuum. Residential Care Facilities do not include Group Homes as defined Tenn. Code Ann. § 13-24-101.

Residential Addiction Treatment Facility. A licensed care facility that provides 24-hour medical, non-medical, and/or therapeutic care of persons seeking rehabilitation from a drug and/or alcohol addiction. Such facilities include medical detoxification.

Resource Extraction. A facility that extracts minerals and other solids and liquids from land. Resource extraction includes the following:

Borrow pit.

Extraction of phosphate or minerals.

Extraction of sand or gravel, borrow pit.

Metal, sand stone, gravel clay, mining and other related processing.

Stockpiling of sand, gravel.

Retail Goods Establishment. An establishment that provides physical goods, products, or merchandise directly to the consumer, where such goods are typically available for immediate purchase and removal from the premises by the purchaser. Retail goods establishments do not include heavy retail, rental, and service establishments, including whole goods establishments.

Self-Storage Facility. Enclosed. A facility for the storage of personal property where individual renters control and access individual storage spaces located within a fully enclosed building that is climate controlled. Ancillary retail sales of related items, such as moving supplies, and facility offices may also be included.

Self-Storage Facility. Outdoor. A facility for the storage of personal property where individual renters control and access individual storage spaces and where each storage unit has individual access from the outdoors. Ancillary retail sales of related items, such as moving supplies, and facility offices may also be included. Any self-storage facility constructed with multiple buildings for storage are considered outdoor self-storage. Outdoor self-storage also includes structures that are double loaded "strip" buildings where access is from an interior hallway.

Shelter, Domestic Violence. A licensed facility that provides temporary shelter, protection, and support for those escaping domestic violence and intimate partner violence, including victims of human trafficking. A domestic violence shelter also accommodates the minor children of such individuals. The facility may also offer a variety services to help individuals and their children including counseling and legal guidance.

Shelter. Shelter means a facility which provides temporary shelter with overnight sleeping accommodations for persons experiencing homelessness and which does not require occupants to sign leases or occupancy agreements.

Social Service Center. A service establishment that provides assistance for those recovering from chemical or alcohol dependency; survivors of abuse seeking support; those transitioning from homelessness or prior incarceration; and those with health and disability concerns. It does not include in-patient, overnight, or living quarters for recipients of the service or for the staff. Such service does not include medical examinations or procedures, or medical detoxification, dispensing of drugs or medications, or other treatments normally conducted in a medical office.

Solar Energy System. A ground-mounted solar array operated by a public, private, or cooperative company for the generation, transmission, distribution, storage, or processing of solar energy for the purposes of heating and cooling, electricity generation, and/or water heating.

Specialty Food Service. Specialty food service is an establishment where food products are prepared, processed, canned, and/or packaged and all processing is completely enclosed on-site and there are no outside impacts. Such business specializes in the sale of specific food products made on-site, such as a coffee roaster, nut roaster, and cheesemaker, and may offer areas for retail sales and/or eating and drinking areas that serve the products processed on-site. Catering businesses are considered a specialty food service. Specialty food service does not include bakeries, even if products are prepared on-site.

Temporary Entertainment and/or Sales Event. One or a combination of the following events:

(a) Temporary Entertainment Event. A temporary entertainment event, such as the performance of live music, revue, or play within an outdoor space. Temporary entertainment event includes festivals, carnivals/circuses, temporary worship services, and others.

(b) Temporary Sales Event. A temporary sales event where goods are sold, such as consignment auctions, arts and crafts fairs, flea markets, temporary vehicle sales, and holiday sales, such as firework stands, Christmas tree lots, and pumpkin sales lots. This temporary use category does not include garage sales, which are regulated by Section 62-13 of the City Code.

Urban Agriculture: Land or structures used for the cultivation of fruits, vegetables, plants, flowers, or herbs, with the primary purpose of growing food for sale. No farm animals. Use for any fertilizer or pesticides should not present public health hazards or nuisances to adjacent properties.

Utility. Any facility, infrastructure, and/or equipment used for the generation, transmission, storage, or distribution of electric energy, natural or manufactured gas, water, stormwater, cable television, internet, telephone services, or wastewater, between the point of generation and the end user. A utility does not include wireless telecommunications towers, antennas and/or facilities, satellite dish antennas, waste management facilities, recycling collection facilities, or radio, television, or microwave transmission or relay towers. Utility also includes utility operation facilities where all activity occurs indoors. Utility does not include electric vehicle charging stations, solar energy systems or panels, or wind energy systems or private turbines.

Vehicle Dealership. An establishment that sells or leases new or used automobiles, vans, motorcycles, and/or all-terrain vehicles (ATV) vehicles, or other similar motorized transportation vehicles. A motor vehicle dealership may maintain an inventory of the vehicles for sale or lease either on-site or at a nearby location and may provide on-site facilities for the repair and service of the vehicles sold or leased by the dealership. Vehicle dealerships do not include truck, trailer, boat, or heavy equipment sales, which are considered heavy retail, rental, and service.

Vehicle Operation Facility. A facility for the dispatch, storage, and maintenance of emergency medical care vehicles, taxicabs and similar vehicles for hire, school buses, utility vehicles, towing dispatch, and similar vehicles. Vehicle operation facility does not include a public works or public safety facility.

Vehicle Rental. An establishment that rents automobiles and vans, including incidental parking and servicing of rental vehicles. A motor vehicle rental establishment may maintain an inventory of the vehicles for sale or lease either on-site or at a nearby location and may provide on-site facilities for the repair and service of the vehicles sold or leased by the dealership. Vehicle rental does not include truck rental establishments or rental of heavy equipment, which is considered part of heavy retail, rental, and service.

Vehicle Repair Facility: Major. A business that provides services in major reconditioning of worn or damaged motor vehicles, motorcycles, all-terrain vehicles (ATV), recreational vehicles and trailers, towing and collision service, including body, frame, or fender straightening or repair, painting of motor vehicles, interior (e.g., upholstery, dashboard, etc.) reconstruction and/or repairs, and restoration services. A major vehicle repair business may also include services considered minor vehicle repair.

Vehicle Repair Facility: Minor. A business that provides services in minor repairs to motor vehicles and motorcycles, including repair or replacement of cooling, electrical, fuel and exhaust systems, brake adjustments, tire replacement, wheel servicing, alignment, and balancing, realignment, repair and replacement of shock absorbers, and replacement or adjustment of mufflers and tail pipes, hoses, belts, light bulbs, fuses, windshield wipers/wiper blades, grease retainers, and wheel bearings, and similar minor repairs.

Warehouse. An enclosed facility for the storage and distribution of manufactured products or raw materials, supplies, and/or equipment.

Waste-Related Service. A facility that processes and stores waste material. Waste-related service includes the following:

Automobile dismantlers/recyclers, junk yard, wrecking yard, salvage yard.

Hazardous household materials collection center.

Hazardous waste facility.

Landfill.

Recycling processing center.

Scrap metal processor.

Wholesale. A business where goods are sold to either retailers, or to industrial, commercial, institutional, or other professional business users, or to other wholesalers and related subordinated services.

Wind Energy System. An energy system operated by a public, private, or cooperative company for the generation, transmission, distribution, or processing of wind energy.

Wireless Telecommunications. Towers, antennas, and facilities used to transmit and receive signals that facilitate wireless telecommunications. The following definitions describe the wireless telecommunications infrastructure described within the general definition for wireless telecommunications:

(a) Antenna

A specific device, the surface of which is used to transmit and/or receive signals transmitted to or from other antennas. This does not include satellite dish antennae.

(b) Facility

A structure used to house and protect the equipment necessary for processing telecommunications signals, which may include air conditioning equipment and emergency generators. Facility also includes any necessary equipment that facilitates wireless transmission.

(c) Tower

A structure designed and constructed to support one or more wireless telecommunications antennae and including all appurtenant devices attached to it.
(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24; Ord. No. 14202, § 1, 2-18-25; Ord. No. 14208, § 2, 3-18-25; Ord. No. 14238, § 1, 5-20-25; Ord. No. 14278, § 1, 9-16-25; Ord. No. 14308, § 1, 12-16-25)

ARTICLE X. GENERAL DEVELOPMENT STANDARDS

Sec. 38-46. General Development Standards Applicable to Zones

(a) Applicability of Dimensional Requirements

(1) All structures must meet the dimensional requirements of the zone in which the structure is located. No existing structure may be enlarged, altered, reconstructed, or relocated in a manner that conflicts with the requirements of the zone in which the structure it is located unless a variance is approved.

(2) The location of required setbacks on irregularly shaped lots will be determined by the Director of the Land Development Office. The determination will be based on the spirit and intent of this Code to achieve an appropriate spacing and location of buildings on individual lots.

(b) Development on Individual Well and Septic Tanks

The minimum lot area requirement for development of lots on individual wells and septic tanks is 25,000 square feet. Only single-unit detached dwellings are permitted on lots served by individual wells and septic tanks.

(c) Number of Structures on a Lot

(1) Lots used for single-unit (detached or attached), two-unit, three-unit, or four-unit dwellings are limited to one principal building per lot. An accessory dwelling unit is not considered a principal building.

(2) For all other uses, there may be more than one principal building on a lot, but all buildings must comply with all standards of the zone.

(d) Structures Prohibited in Utility Easements

Permanent structures, including buildings, retaining walls, and decks, and accessory structures, are prohibited within utility easements unless otherwise approved by the authorizing agency.

If any structures are located within a utility easement and repair or replacement of the utility is needed, neither the City nor the utility is responsible for the replacement of any structures that may be damaged.

(e) Sight Visibility

All hedges, fences, shrubs, or other obstructions located at street intersections must comply with the sight visibility requirements of Section 32-34 of the City Code.

(f) Lots to Front on a Street

(1) Residential

(i) Every residential building hereafter erected, reconstructed or structurally altered must be located on a lot fronting a public street, except for any recorded lot that is currently five acres or larger in size and was five acres or larger in size at the time it was annexed into the City and has a recorded access easement that is at least 15 feet wide for each lot it serves but not required to exceed 50 feet. This does not apply to cottage court developments.

(ii) The Board of Appeals may grant a variance to this requirement if the following two conditions are met:

a. The recorded lot was smaller than five acres at the time it was annexed into the City.

b. The recorded lot has a recorded access easement that is at least 15 feet wide for each lot it serves but not required to exceed 50 feet.

(iii) Residential structure or structures meet the definition of a Horizontal Property Regime (HPR) as defined in T.C.A. § 66-27-103. However, the residential structures must comply with the allowed uses within the individual zones.

(2) Nonresidential

Every nonresidential structure erected, reconstructed, or structurally altered must be located on a lot fronting a public or private street or a permanent recorded easement.

(g) Special Exception for Movement of Single-Unit Dwellings

(1) Intent

In order to ensure that the movement of single-unit dwellings is compatible to the area where the residence is to be moved, the following guidelines and criteria listed (pursuant to T.C.A. §§ 13-3-501 through 504) must be followed by the specified body as referred to below.

(i) This applies to single-unit dwellings only and does not apply to manufactured homes.

(ii) "Developed area of single unit residences" (as used in this part) means an area generally referred to as a subdivision as indicated on a plat filed in the Register of Deeds Office.

(2) Requirements

Requirements for moving single-unit dwelling from one foundation to another are as set forth below.

(i) No single-unit dwelling may be moved from an existing foundation to another foundation located within a developed area of single unit residences unless:

a. The dwelling to be moved is consistent with the age, value, size, and appearance of existing dwellings within the developed area of single-unit dwellings to which the single-unit dwelling is to be moved and provided that the value of the dwelling may be greater than that of the existing residences and the size of the house may be larger than that of the existing residences; and

b. Approval for the movement of the single-unit dwelling to a foundation within a developed areas of single-unit dwellings has been given by the following specified body:

1. The homeowners' association of the development where the dwelling is to be moved, if a homeowner's association is in existence.

2. A neighborhood association where the dwelling is to be moved that has been in existence for more than one year prior to the date the dwelling is to be moved, if a neighborhood association is in existence in the area.

3. The Planning Commission by issuance of a special exceptions permit, if (1) or (2) above does not apply.

(3) Age, Value, Size, and Appearance Criteria

The residence to be moved must be consistent with:

(i) The age of existing dwellings within the developed area of single-unit dwellings if the dwelling to be moved is within ten years of the average age of the existing structures within the developed area.

(ii) The value of existing dwellings within the developed area of single-unit dwellings, if the valuation of the dwelling being moved appraised, prior to being moved, at a value that is at least equal to the average appraisal of the existing structures within the developed area; provided that nothing in this subdivision must be construed to prevent such dwelling from exceeding the value of such existing dwellings. In establishing the value of existing dwellings, the value of modular homes located in such developed area cannot be used in arriving at the average appraisal of the existing structures.

If the value of the dwelling, prior to being moved, appraised at a value that is at least equal to the average appraisal of the existing structures within the developed area, then it is presumed that such dwelling will appraise at least at the same or greater value once it is moved.

In obtaining approval from the specified body as proof that the value of the dwelling or appearance of the dwelling is consistent with the value or appearance of such existing dwellings, evidence may be presented that includes photographs of the inside and outside of the residence to be moved as well as the appraised value of such dwelling as determined by

the assessor of property, or the fair market value of such dwelling as determined by an independent appraiser. Such proof must be a rebuttable presumption that the value and appearance of the dwelling is at least equal to the value and appearance of the existing structures within the developed area. Additional documents showing intended improvements may also be presented.

(iii) The size of existing dwellings within the developed area of single-unit dwellings, if the size of the dwelling being moved is at least within 100 square feet of the average size of the existing dwellings within the developed area, provided that nothing in this subdivision must be construed to prevent such dwelling from exceeding such average square footage. In establishing the average size of existing structures, the square footage of a modular home cannot be used in making such calculations.

(iv) The appearance of existing dwellings within the developed area of single-unit dwellings as determined by the specified body giving its approval for the single-unit dwelling to be moved to the developed area.

(4) Enforcement

(i) An approval letter from the specified body, along with documentation of the required criteria, must be submitted to the Land Development Office before the issuance of a building permit for the movement of a single-unit dwelling.

(ii) All structural improvements which will affect the value and appearance of the dwelling moved to the developed area of single-unit dwellings must be made to such dwelling in accordance to applicable codes and ordinances in effect. If improvements have not been completed on the dwelling at least equal to the average standards in the developed area, such dwelling is deemed to be in violation of the local government building codes, and penalties associated with such violations may begin to accrue in accordance with all relevant local building codes and ordinances adopted and in effect in the local jurisdiction where the residence is located.

(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24; Ord. No. 14222, § 1, 4-15-25)

Sec. 38-47. Exterior Lighting Controls

(a) A. Lighting Plan Required

(1) A lighting plan is required for all nonresidential uses, mixed-use, and multi-unit developments. Other developments are exempt from a required lighting plan but are subject to applicable lighting standards of Item B below.

(2) A lighting plan must include the following:

(i) A plan showing all light pole locations, building-mounted lights, bollard lights, and all other lighting.

(ii) Specifications for luminaires, including certifications of energy efficient lighting, and lamp types, and poles, including photographs or drawings of proposed light fixtures.

(iii) Pole and luminaire details including pole height, height of building-mounted lights, mounting height, and height of the luminaire.

(iv) Elevations of the site including all structures and luminaires sufficient to determine the total cutoff angle of all luminaires and their relationship to abutting parcels.

(v) For developments subject to site plan review, photometric plans that show the footcandle measurement at all lot lines may be required if the lot is adjacent to a residential zone.

(vi) Other information and data reasonably necessary to evaluate the required lighting plan.

(b) Lighting Standards

(1) The maximum allowable footcandle at any lot line is one footcandle.

(2) All luminaires must be full cutoff luminaire design.

(3) The maximum total height of a freestanding luminaire is 20 feet in a nonresidential zone, and 15 feet in a residential zone.

(4) All outdoor luminaires must be located and adequately shielded so that there is no glare onto adjacent lots or onto the public right-of-way. Exterior spot lighting or other illumination of non-residential uses or structures shall be directed away from any residential zones or uses.

(5) Those uses required to submit a lighting plan, per item A above, are also subject to the following:

(i) All public lighting sources must have a correlated color temperature (CCT) at or below 3200ºK. This does not apply to outdoor recreation fields.

(c) Exceptions to Lighting Standards

(1) Luminaires used for public roadway illumination or installed by a utility to light public rights-of-way are exempt from the requirements of this Code.

(2) All temporary emergency lighting required by public safety agencies, other emergency services, or construction are exempt from the requirements of this Code.

(3) Shielded, directional accent lighting, or uplighting is permitted but must be aimed at a building facade, sign, or accent feature, such as landscape, and directed so that glare is not visible from adjacent properties. However, such lighting must not exceed one footcandle at any lot line.

(4) Security lighting installed with a motion vacancy sensor, which extinguishes the lights within 15 minutes after the area is vacated.

(5) Because of their unique requirements for nighttime visibility and limited hours of operation, outdoor recreational fields (public or private) such as, but not limited to, football fields, soccer fields, baseball fields, softball fields, tennis courts, driving ranges, and other similar uses are exempt from the lighting standards of Item B above and subject to the following:

(i) Recreational fields are permitted a total luminaire height of 65 feet in any zone. Luminaires greater than 65 feet in total height may only be approved by conditional use.

(ii) All lighting must be directed onto the field.

(iii) Lighting outside the recreational field, such as for parking areas, must comply with the lighting standards of Item B above

(iv) The recreational field lighting must be extinguished one hour following the end of the event. Lighting outside the recreational field, such as for parking areas, is not subject to this timeframe in order to facilitate patrons leaving the facility, cleanup, nighttime maintenance, and other closing activities.

(6) Temporary holiday and seasonal lighting designs are exempt from the requirements of this Code.

(7) Certain temporary uses may use lighting that does not meet the requirements of this section. When such temporary uses are allowed, approval of the lighting plan is required as part of the temporary use permit.

(d) Prohibited Lighting

(1) Flickering or flashing lights, except that this does not include decorative gas lamps.

(2) Searchlights, laser source lights, or any similar high intensity.

(3) The use of neon or LED lighting to outline doors, windows, architectural features, and building facades. This does not apply to uplighting of architectural features and building facades as permitted above.

(4) Any light fixture that can be confused with or construed as a traffic control device.

(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24)

Sec. 38-48. Permitted Encroachments

An encroachment is the extension or placement of an architectural feature into a required setback. Permitted encroachments are indicated in Table 38-48.1: Permitted Encroachments into Required Setbacks.

(a) Article XI contains regulations for accessory structures, which may include additional permissions or restrictions on their permitted encroachment into required setbacks. Additional regulations from uses within Article IX may also include additional permissions or restrictions on their permitted encroachment into required setbacks.

(b) When an architectural feature regulated by Table 38-48.1 is allowed within a yard, it is also allowed within the required setback, subject to any additional standards.

(c) When an architectural feature regulated by Table 38-48.1 is prohibited from encroachment into a required setback, it may be allowed within the corresponding yard unless specifically prohibited by the Table.

(d) Unless specifically allowed by the Table, no architectural feature may project into a right-of-way or over a lot line.

(e) All permitted encroachment must comply with the Fire Code, which may further restrict encroachments.

Table 38-48.1: Permitted Encroachments Into Required Setbacks
Y= Permitted // N= Prohibited
Max. = Maximum // Min. = Minimum

	Front Setback	Corner Side Setback	Interior Side Setback	Rear Setback
Accessibility Ramp	Y	Y	Y	Y
Awning (Non-Sign) Max. of 3.5' into setback, except interior side is limited to a max. of 2' Min. vertical clearance of 8'	Y	Y	Y	Y
Balcony Max. of 3.5' into setback, except interior side is limited to a max. of 2' Min. vertical clearance of 8'	N	N	Y	Y

Table 38-48.1: Permitted Encroachments Into Required Setbacks *Y= Permitted // N= Prohibited* *Max. = Maximum // Min. = Minimum*				
Bay Window Max. of 3.5' into setback, except interior side is limited to a max. of 2' Min. vertical clearance of 24"	Y	Y	Y	Y
Canopy (Non-Sign) Max. of 3.5' into setback, except interior side is limited to a max. of 2' Min. vertical clearance of 8'	Y	Y	Y	Y
Chimney Max. of 2' into setback	Y	Y	Y	Y
Decks (Ground Floor) Max. height of first finished floor Min.5' from any lot line, except must be 10' from the rear lot line	N	Y	N	Y
Decks (Upper Floor) Max. of 10' into rear setback Prohibited in front yard	N	N	N	Y
Eaves and Cornices Max. of 3' into setback	Y	Y	Y	Y

Table 38-48.1: Permitted Encroachments Into Required Setbacks *Y= Permitted // N= Prohibited* *Max. = Maximum // Min. = Minimum*				
Exterior Stairwell Max. of 3.5' into setback Prohibited in front yard	N	N	N	Y
Fire Escape Max. of 3.5' into setback, except interior side is limited to a max. of 2'	N	N	Y	Y
Porch—Unenclosed Max. of 5' into front setback Min. 5' from any lot line, except must be 10' from the rear lot line Enclosed porches are considered part of the principal structure	Y	Y	N	Y
Sills and belt courses Max. of 2' into setback	Y	Y	Y	Y
Stoop and Steps Max. of 3.5' into setback, except interior side is limited to a max. of 2'	Y	Y	Y	Y

(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24)

Sec. 38-49. Performance Standards

All uses must comply with the performance standards established in this section unless any federal, state, or local law, code, ordinance, or regulation establishes a more restrictive standard, in which case, the more restrictive standard applies.

(a) Noise

All activity must comply with the City's noise ordinance in Chapter 25, Article 3 of the City Code.

(b) Glare and Heat

Any activity or the operation of any use that produces glare or heat must be conducted so that no glare or heat from the activity or operation is detectable at any point off the lot on which the use is located. Flickering or intense sources of light must be controlled or shielded so as not to cause a nuisance across lot lines.

(c) Vibration

No earthborne vibration from the operation of any use may be detectable at any point off the lot on which the use is located.

(d) Dust, Air, and Water Pollution

(1) Dust and other types of air pollution, borne by the wind from sources, such as storage areas, yards, roads, conveying equipment and the like, within lot boundaries, must be kept to a minimum by appropriate landscape, screening, sheltering, paving, fencing, wetting, collecting, or other acceptable means.

(2) Storage of materials must include all proper precautions to protect any surface water or groundwater sources, whether natural or manmade, from contamination.

(e) Discharge and Disposal of Hazardous Waste

The discharge of fluid and the disposal of hazardous waste materials must comply with applicable federal, state, and local laws, and regulations governing such materials or waste. Hazardous material waste must be transported, stored, and used in conformance with all applicable federal, state, and local laws.

(f) Electromagnetic Interference

Electromagnetic interference from any operation of any use must not adversely affect the operation of any equipment located off the lot on which such interference originates.

(g) Odors

Any condition or operation which results in the creation of odors of such intensity and character as to be detrimental to the public health and welfare, or which interferes unreasonably with the comfort of the public, must be removed, stopped, or modified to remove the odor.

(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24

ARTICLE XI. ACCESSORY STRUCTURES

Sec. 38-50. General Accessory Structure Regulations

Accessory structures are subject to the requirements of this Article and this section. Certain specific accessory structures are regulated in Section 38-51. All accessory structures are subject to the following regulations, unless otherwise permitted or restricted by specific regulations of this section or Code.

(a) No accessory structure may be constructed prior to construction of the principal building to which it is accessory. Where there is no principal structure as part of the use, such as a community garden, no accessory structure may be constructed until the use is approved. The following exception applies:

(1) A detached accessory building for purposes of storage only may be located on a separate, vacant lot abutting a lot on which the main building is located provided that the storage building has no standalone electric service, is not larger than 12 feet by 12 feet, and has a maximum height to the low point of the eaves of six feet.

(b) Detached accessory structures must be setback as follows, unless otherwise permitted or restricted by this Code:

(1) A minimum of five feet from any interior side or rear lot line.

(2) No detached accessory structure may be located in a front or corner side yard unless specifically allowed by this Code.

(3) A minimum of three feet from any principal building unless specifically allowed by this Code.

(c) Certain accessory structures may be prohibited in specific yards. The use of the term "yard" refers to the area between the principal building line and applicable lot line (see definitions in Article II). The distinction is made because certain principal buildings may be built further back than the required zone setback lines, thereby creating a yard larger than the minimum setback dimension of the zone.

(d) The maximum height of any detached accessory structure is 24 feet, unless otherwise permitted or restricted by this Code; however, no accessory structure may exceed the height of the principal building.

(e) The footprint of any single detached accessory structure cannot exceed the footprint of the principal building.

(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24

Sec. 38-51. Specific Accessory Structure Standards

(a) Amateur (ham) Radio Equipment

(1) Towers that solely support amateur (ham) radio equipment are permitted in the rear yard only, and must be located ten feet from any lot line. Towers are limited to the maximum building height of the applicable zone plus an additional five feet.

(2) If a taller tower is technically necessary to engage successfully in amateur radio communications, the operator must provide evidence that a taller tower and/or antenna is technically necessary to engage successfully in amateur radio communications. In addition, the applicant must provide evidence that the tower and/or antenna will not prove a hazard. Site plan review is required.

(3) Antennas may also be building-mounted and are limited to a maximum height of five feet above the structure, unless a taller antenna is technically necessary to engage successfully in amateur radio communications and conditional use approval is obtained.

(4) Amateur (ham) radio equipment must conform to all applicable performance criteria set forth in Section 10.4.

(b) Apiary

(1) All apiaries must comply with and register as required with the Tennessee Apiary Act of 1995.

(2) Hives are allowed only in rear yards.

(3) Hives must be set back 25 feet from all lot lines.

(4) When the apiary is located within a yard not bounded by a solid wall or solid fence, a flyway of at least six feet in height comprising of a lattice fence, dense hedge, or similar barrier must be established in front of the opening of the hive such that the bees fly upward and away from neighboring properties. The flyway must be located within three feet of the hive opening and extend at least two feet in width on either side of the hive opening.

(5) For any rooftop apiary within 20 feet of doors and/or windows of a principal building on an abutting lot, one of the following conditions must exist:

(i) The hive opening must face away from doors and/or windows of the principal building on the abutting lot.

(ii) A flyway of at least six feet in height comprising of a lattice fence, dense hedge, or similar barrier must be established in front of the opening of the hive such that the bees fly upward and away from neighboring properties. The flyway must be located within three feet of the hive opening and extend at least two feet in width on either side of the hive opening.

(c) Carport (Detached)

(1) A carport may not be erected closer than five feet from any lot line

(2) No carport is permitted in a required front setback or corner side setback.

(3) A carport cannot exceed 24 feet in width, 22 feet in length, and 15 feet in height. If located within the rear yard it may be 24 feet in width.

(4) A carport must be located a minimum of 20 feet from the lot line that provides access to the street.

(d) Fences, Walls, and Retaining Walls

(1) Fences and walls are permitted to be constructed on a lot line.

(2) Fence and wall height are regulated by the Building Code.

(3) Retaining walls are regulated by the Building Code

(e) Garage, Detached

(1) Detached garages are permitted in the rear, corner side, and interior side yards, and must be five feet from any lot line.

(2) Detached garages are not permitted in the front yard and must be located a minimum of five feet behind the front building line.

(i) Existing garages, as of the effective date of this Code (insert date), that are located within the front yard are deemed conforming and may be repaired and rebuilt to the existing footprint. However, once the principal structure is demolished, this deemed conforming provision is null and void and new garages must be constructed per the regulations of this section and Code.

(3) Detached garages in the rear and interior side yards must be set back a minimum of 20 feet from the lot line where access to the garage is taken. This does not apply where garages take access from an alley access. Where detached garages are accessed by the alley, they may be located a minimum of one foot from the rear lot line.

(4) Detached garages in the corner side yard are subject to the following:

(i) Where the garage is located in the corner side yard and takes access from the abutting street, the garage must be set back 20 feet from the corner side lot line.

(ii) Where the garage is located in the corner side yard but does not take access from the abutting street, the garage must be set back five feet from the corner side lot line and must

be set back a minimum of 20 feet from the lot line where access to the garage is taken. This does not apply where garages take access from an alley. Where detached garages are accessed by the alley, they may be located a minimum of one foot from the rear lot line.

(5) The area above vehicle parking spaces in a detached garage may not contain cooking facilities. This does not apply if an accessory dwelling unit use has been approved, in which case those standards control.

(f) Mechanical Equipment

Mechanical equipment includes heating, ventilation, and air conditioning (HVAC) equipment, electrical generators, power storage, pool pumps, and similar equipment.

(1) Ground-Mounted Equipment

(i) Ground-mounted mechanical equipment is permitted in the interior side or rear yard only.

(ii) Ground-mounted mechanical equipment may encroach up to five feet into a required interior side setback.

(iii) Ground-mounted mechanical equipment that is visible from a public street, not including an alley, must be fully screened by landscape or an opaque wall or fence that is compatible with the principal building in terms of texture, quality, material, and color. Screening must be of a height equal to or greater than the height of the mechanical equipment being screened.

(2) Roof-Mounted Equipment

(i) Roof-mounted equipment must be set back at least ten feet from the edge of the roof.

(ii) New buildings must provide a parapet wall or other architectural element that matches the principal building in terms of texture, quality, material, and color that fully screens roof-mounted equipment from ground level view at the public street.

(iii) For buildings with no or low parapet walls, roof-mounted equipment must be screened on all sides by an opaque screen that matches the principal building in terms of texture, quality, material, and color.

(3) Wall-Mounted Equipment

(i) Wall-mounted mechanical equipment is not permitted along the front or corner side facade of the building.

(ii) For multi-unit and nonresidential developments, including mixed-use, wall-mounted mechanical equipment that protrudes more than 18 inches from the outer building wall must be screened from view by structural features that are compatible with the architecture of the subject building.

(iii) Wall-mounted mechanical equipment that protrudes less than 18 inches must be designed to blend with the primary color and architectural design of the subject building.

(iv) These requirements do not apply to:

a. Window air conditioning units

b. Satellite dishes

c. Required public utility meters

d. Any equipment related to public safety, such as fire

e. HVAC mini-split systems for single-unit, two-unit, three-unit, and four-unit dwellings.

(g) Recreational Equipment

Personal recreation game courts are permitted only in the rear yard. Courts must be located ten feet from any lot line.

(h) Refuse and Recycling Containers

These provisions do not apply to standard personal refuse and recycling bins, approximately 96 gallons or less in size.

(1) Refuse and recycling containers must be located to the side or rear of principal buildings.

(2) All refuse and recycling containers must be fully enclosed on three sides by a solid fence, wall, or wall extension of the principal building a minimum of six feet and a maximum of eight feet in height. A wall extension must be constructed as an integral part of the building's architectural design.

(3) The enclosure must be gated. The gate must be solid and a minimum of six feet and a maximum of eight feet in height. This requirement does not apply to refuse containers located adjacent to an alley.

(i) Solar Panels

(1) Solar panels may be building-mounted or freestanding, subject to the regulations of this section.

(2) Solar panels must be placed so that concentrated solar radiation or glare is not directed onto nearby properties or roadways.

(3) A building-mounted system may be mounted on the roof or wall of a principal building or accessory structure.

(i) On pitched roof buildings, the maximum height a roof-mounted solar panel may rise is 18 inches.

(ii) On flat roofed buildings up to 40 feet in height, the roof-mounted solar panel system is limited to a maximum height of six feet above the surface of the roof. On flat roofed buildings over 40 feet in height, the roof-mounted solar panel system is limited to 15 feet above the height of such structure. Roof-mounted solar energy systems are excluded from the calculation of building height.

(iii) Wall-mounted solar panels may project up to four feet from a building facade and must be integrated into the structure as an architectural feature. Wall-mounted panels cannot encroach more than three feet into a required setback.

(4) A freestanding solar energy system is permitted only in the rear yard and must meet the following standards. A freestanding solar energy system may not be the only use on a lot.

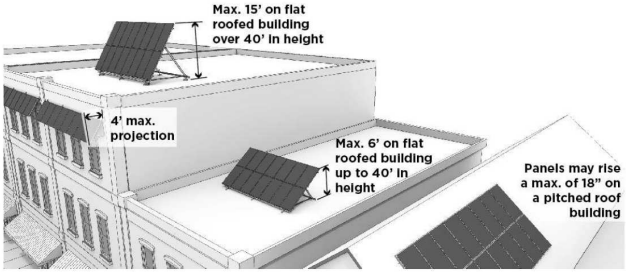
(i) A freestanding solar energy system must be located ten feet from any lot line.

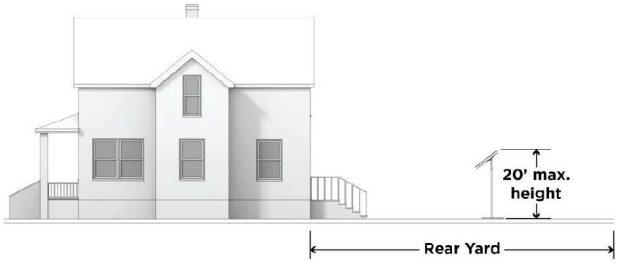
(ii) The system is limited to a maximum of 20 feet in height, measured to the highest point of the structure including the solar panel.

(iii) Freestanding solar panels are excluded from any building coverage and impervious surface coverage calculations.

(5) Solar panels within the historic districts may require a certificate of appropriateness.

SOLAR PANELS





(j) Swimming Pools, Private: Pools Associated with Single-Unit, Two-Unit, Three-Unit, and Four-Unit Dwellings

(1) Private swimming pools must meet the applicable standards of Chapter 33 of the City Code and any other applicable standards within the City Code.

(2) Private swimming pools for single-unit, two-unit, three-unit, and four-unit dwellings are allowed only in the rear or side yard.

(k) Wind Turbines

(1) Wind turbines may be designed as either vertical or horizontal axis turbines or as a design that combine elements of the different types of turbines.

(2) Wind turbines are subject to the following height restrictions:

(i) The maximum height of any ground-mounted wind turbine is the maximum height allowed in the zone or 35 feet, whichever is less.

(ii) The maximum height of any wind turbine mounted upon a structure is 15 feet above the height of such structure.

(iii) Maximum height is the total height of the turbine system as measured from the base of the tower to the top. For horizontal axis turbines, the maximum vertical height of the turbine blades is measured as the length of a prop at maximum vertical rotation.

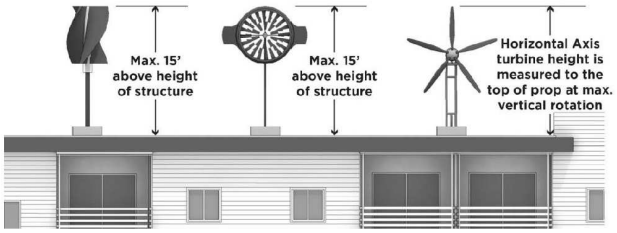
(iv) No portion of exposed turbine blades may be within 20 feet of the ground. Unexposed turbine blades may be within ten feet of the ground.

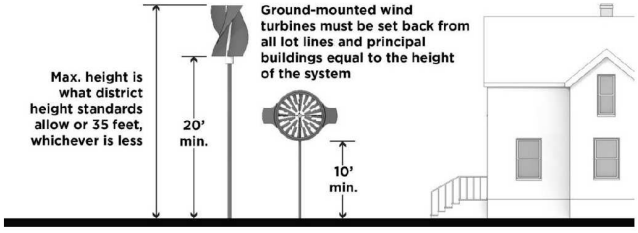
(3) Ground-mounted wind turbines are permitted only in the rear yard. The tower must be set back from all lot lines equal to the height of the system. No principal buildings may be located within this area.

(4) All wind turbines must be equipped with manual (electronic or mechanical) and automatic over speed controls to limit the blade rotation speed to within the design limits of the wind energy system.

(5) Wind turbines within the historic districts may require a certificate of appropriateness.

WIND TURBINES





(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24

ARTICLE XII. OFF-STREET PARKING & LOADING

Sec. 38-52. General Requirements

(a) Existing Parking Facilities

(1) The existing number of off-street parking and loading spaces may not be reduced below the requirements of this Code.

(2) Existing off-street parking and loading areas that do not conform to the requirements of this Code but were in conformance with the requirements of this Code at the time the parking or loading facilities were established, are permitted to continue.

(3) If a building permit for a structure was issued prior to the effective date of this Code, the number of off-street parking and loading spaces must be provided in the amount required at the issuance of the building permit unless the amount required by this Code is less. In such case, only the number required by this Code needs to be installed.

(4) Minimum parking requirements apply to expansions of an existing building, use, or site as follows:

(i) When an existing building, use, or site is increased in gross floor area or improved site area by up to 25% cumulatively, the parking requirements apply only to the additional floor or site area.

(ii) When an existing building, use, or site is increased in gross floor area or improved site area by more than 25% cumulatively, the existing building or site must conform to all parking requirements.

(b) Adaptive Reuse of Existing Structures

(1) As of the effective date of this Code, existing nonresidential and mixed-use structures in the commercial and mixed-use zones, and the I-MU Zone that currently do not provide the required amount of parking on the lot to accommodate parking are exempt from minimum parking requirements regardless of a change in use or intensity of use.

(2) Any existing parking located on the site must be retained or accounted for elsewhere.

(3) Once the principal building is demolished, this exemption is no longer valid. In addition, if the lot area is expanded (e.g., the adjoining lot is purchased or leased), this exemption is no longer valid.

(4) Any right-of-way improvements that may be triggered by a change in use may still apply.

(c) Completion of Off-Street Parking Facilities

All off-street vehicle and bicycle parking and loading facilities for the phase for which a certificate of occupancy is requested must be completed prior to the issuance of the certificate of occupancy.

(d) Use of Parking Facilities

(1) The sale, repair, or dismantling or servicing of any vehicles, equipment, materials, or supplies is prohibited.

(2) The property owner is responsible for ensuring that parking and loading facilities are only used by residents, tenants, employees, visitors, and/or other authorized persons.

(3) Space allocated to any off-street loading space may not be used to satisfy the requirement for any off-street parking space or access aisle or portion thereof. Conversely, the area allocated to any off-street parking space may not be used to satisfy the replacement for any off-street loading space or portion thereof.

(e) Form-Based Code Zones

Parking within the Form-Based Code Zones is addressed in the Downtown Form-based Code.

(f) Voluntary Incentives Program

Developments participating in the Voluntary Incentives Program are subject to the parking reductions as detailed in Article XIX. Voluntary Incentives Program, Sec. 38-107 Parking Minimum Standards.

(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24; Ord. No. 14256, § 1, 7-22-25)

Sec. 38-53. Required Off-Street Vehicle and Bicycle Parking Spaces

(a) General Applicability

(1) Table 38-53.1: Off-Street Vehicle and Bicycle Parking Requirements states the minimum number of off-street vehicle and bicycle parking spaces to be provided for the designated uses for all zones

except the Form-Based Code Zones (the Form-Based Code Zones parking requirements are found in Article VI). Certain uses listed within the zones do not have parking requirements; these types of uses are not listed within Table 38-53.1.

(2) The total number of required parking spaces is calculated by the principal use of the lot. When more than one use occupies the same lot, the number of required spaces is the sum of the separate requirements for each use, unless such use is a multi-tenant retail center, which has a separate requirement per item B below. The following standards for computation apply:

(i) When calculating the number of required off-street spaces results in a fractional requirement of 0.5 spaces or more, said fraction is rounded up.

(ii) In places of assembly in which patrons or spectators occupy benches, pews, or similar seating facilities, each 24 inches of such seating facility is counted as one seat for the purpose of determining the requirement for off-street parking facilities. Floor area of a prayer hall is counted as one seat per marked prayer mat space or one seat for every six square feet in the prayer hall if prayer mat spaces are not marked.

(3) Section 38-54 includes exemptions and flexibilities for the off-street spaces required by this section.

(4) For new construction as of the effective date of this Code, when the parking requirement in Table 38-53.1 results in a requirement of three or fewer parking spaces for a nonresidential use, such parking spaces do not have to be provided if adequate on-street public parking is available within 300'.

(b) Multi-Tenant Retail Center Parking Standard

(1) Parking for multi-tenant retail centers is calculated as one space required per 300 square feet of gross floor area, rather than by the individual uses. A multi-tenant retail center is defined as a group of three or more commercial establishments that is planned, owned, and/or managed as a single property. The two main configurations of multi-tenant retail centers are large shopping centers and strip retail centers.

(2) Multi-tenant retail centers over 20,000 square feet in gross floor area require one bicycle space per 2,500 square feet of gross floor area.

(c) Vehicle Parking Space Maximums

(1) Required off-street vehicle parking for nonresidential uses is subject to a parking maximum of 200%.except that the required off-street parking maximum for Medical/Dental Office/Clinic uses shall be calculated at a minimum number of parking spaces of 1 per 200 sf GFA.

(2) ADA required spaces are not counted toward the parking maximum. Electric vehicle charging stations are also not counted toward the vehicle maximum.

(3) The following are exempt from the vehicle parking maximums:

(i) Residential dwellings in any zone, including that component of mixed-use development.

(ii) The industrial zones.

(iii) The R-MH, A-1, INST, and OS Zones.

(iv) Multi-story parking structures.

(v) Parking made available for public use, including private parking available for public use after business hours, is exempt from the parking maximum. For parking made available for public use, the property owner must submit a signed affidavit with their permit application certifying the parking to be made publicly available.

(4) Where the number of existing vehicle parking spaces exceeds the maximum number of allowed parking spaces for the proposed use, the additional parking spaces may remain in place, at the applicant's discretion.

(d) Accessible Spaces Required

All parking lots must comply with the "ADA Accessibility Guidelines for Buildings and Facilities" regulations issued by federal agencies under the latest edition of the Americans with Disabilities Act (ADA) and State of Tennessee and local requirements for the amount and design of accessible vehicle parking spaces required in parking lots and structures. The number of required ADA spaces is based upon the minimum parking required before any discounts are applied.

(e) Bicycle Parking Spaces

Certain uses listed within Table 38-53.1 are required to provide bicycle parking spaces. Bicycle parking spaces are required only for new construction as of the effective date of this Code.

(1) In all cases where bicycle parking is required, a minimum of two bicycle spaces is required.

(2) Where bicycle parking space requirements indicate "Over 10,000sf GFA" or other threshold, this means that bicycle spaces are required only for structures over a certain gross floor area. Bicycle parking space requirements are then calculated on the basis of the entire gross floor area.

(3) In no case are more than 25 bicycle parking spaces required to be provided. Additional spaces over 25 may be provided at the property owner's option.

(4) When a use is exempt from a minimum vehicle parking requirement, it is also exempt from the requirement to provide bicycle spaces.

Table 38-53.1: Off-Street Vehicle and Bicycle Parking Requirements—Excludes Form-Based Code Zones

Principal Uses	Minimum Vehicle Spaces Required	Minimum Bicycle Spaces Required
Adult Use	1 per 500sf GFA	
Agriculture		
Alternative Correctional Facility	1 per 500sf GFA of office area	
Amusement Facility—Indoor	1 per 500sf GFA	Over 10,000sf GFA: 1 per 2,500sf GFA
Indoor Stadium	1 per 20 seats	1 per 100 seats
Amusement Facility—Outdoor	1 per 1,000sf GFA	Over 10,000sf GFA: 1 per 2,500sf GFA
Outdoor Stadium	1 per 20 seats	1 per 100 seats
Animal Care Facility	1 per 500sf GFA	Over 5,000sf GFA: 1 per 2,500sf GFA
Animal Shelter	1 per 500sf GFA	Over 5,000sf GFA: 1 per 2,500sf GFA
Art Gallery	1 per 500sf GFA	Over 5,000sf GFA: 1 per 2,500sf GFA
Arts and Fitness Studio	1 per 300sf GFA	Over 5,000sf GFA: 1 per 2,500sf GFA
Bed and Breakfast—With Reception Facilities	2 spaces + 1 per guestroom + 1 per 200sf of indoor or enclosed reception facilities	

Table 38-53.1: Off-Street Vehicle and Bicycle Parking Requirements—Excludes Form-Based Code Zones		
Bed and Breakfast—No Reception Facilities	2 spaces + 1 per guestroom	
Body Modification Establishment	1 per 500sf GFA	Over 5,000sf GFA: 1 per 2,500sf GFA
Broadcasting Facility	1 per 500sf GFA of office + studio area	
Campground/RV Park	1 per site	1 per 5 sites
Campground, Resort	1 per site	1 per 5 sites
Car Wash	1 per car wash bay + 3 stacking spaces per bay	
Cemetery	1 per 300sf of GFA of office and/or chapel/parlor	
Children's Home	1 per 500sf GFA of office area	
Commercial Kitchen	1 per 500sf GFA	Over 5,000sf GFA: 1 per 2,500sf GFA
Community Center	1 per 500sf GFA	1 per 2,500sf GFA
Cottage Court Development	Based on dwelling types included in development	
Crematorium	1 per 500sf GFA	
Cultural Facility	1 per 500sf GFA	1 per 2,500sf GFA
Day Care Center	1 per 750sf GFA	
Drug Treatment Clinic	1 per 300sf GFA	
Dwellings		
Dwelling—Single-Unit Detached	2 per dwelling unit When located in Urban Overlay Zone (Sec. 8.5): 1 per dwelling unit	
Dwelling—Single-Unit Attached	2 per dwelling unit When located in Urban Overlay Zone (Sec. 8.5): 1 per dwelling unit	
Dwelling—Two-Unit	2 per dwelling unit When located in Urban Overlay Zone (Sec. 8.5): 1 per dwelling unit	
Dwelling—Three-Unit	2 per dwelling unit When located in Urban Overlay Zone (Sec. 8.5): 1 per dwelling unit	
Dwelling—Four-Unit	2 per dwelling unit When located in Urban Overlay Zone (Sec. 8.5): 1 per dwelling unit	
Dwelling—Townhouse	2 per dwelling unit When located in Urban Overlay Zone (Sec. 8.5): 1 per dwelling unit	

Table 38-53.1: Off-Street Vehicle and Bicycle Parking Requirements—Excludes Form-Based Code Zones		
Dwelling—Multi-Unit	1.5 per dwelling unit When located in Urban Overlay Zone (Sec. 8.5): 1 per dwelling unit	1 per 4 dwelling units
Dwelling—Above the Ground Floor	1.5 per dwelling unit When located in Urban Overlay Zone (Sec. 8.5): 1 per dwelling unit	1 per 4 dwelling units
Dwelling—Live/Work	1 per dwelling unit	
Dwelling—Manufactured Home	2 per dwelling unit	
Eating and Drinking Establishment	1 per 300sf GFA	Over 5,000sf GFA: 1 per 2,500sf GFA
Educational Facility—College/University	4 per classroom + 2 per office	1 per 5 classrooms
Educational Facility—Primary or Secondary		
Educational Facility—Primary (Elementary and/or Junior High)	3 per each classroom + 3 per office	1 per 10 classrooms
Educational Facility—High School	6 per classroom + 4 per office	1 per 10 classrooms
Educational Facility—Vocational	4 per classroom + 2 per office	1 per 5 classrooms
Financial Institution	1 per 500sf GFA	Over 5,000sf GFA: 1 per 2,500sf GFA
Financial Service, Alternative (AFS)	1 per 500sf GFA	Over 5,000sf GFA: 1 per 2,500sf GFA
Food Bank	1 per 500sf GFA of office area	Over 10,000sf GFA: 1 per 2,500sf GFA
Food Pantry	1 per 500sf GFA of office area	Over 10,000sf GFA: 1 per 2,500sf GFA
Food Truck Park	1 per 1,000sf of lot area	1 per 2,500sf of lot area
Fraternity/Sorority	1 per rooming unit	.25 per rooming unit
Freight Terminal	1 per 500sf GFA of office area	
Funeral Home	1 per 200sf GFA	
Gas Station	2 per pump island + 4 stacking spaces if car wash bay included	
Golf Course/Driving Range	3 per hole and tee + 1 per 500sf GFA of indoor public areas	
Government Office/Facility	1 per 500sf GFA	Over 5,000sf GFA: 1 per 2,500sf GFA
Group Home: Over 8 Residents	1 per 2 rooms	
Halfway House	1 per 500sf GFA of office area	
Heavy Retail, Rental, and Service	1 per 500sf GFA	Over 5,000sf GFA: 1 per 2,500sf GFA
Hospital	1 per 3 beds	1 per 100 beds

Table 38-53.1: Off-Street Vehicle and Bicycle Parking Requirements—Excludes Form-Based Code Zones		
Hotel	1.0 per room	
House Museum	2 spaces	
Industrial—Artisan/Craft	1 per 1,000sf GFA	Over 5,000sf GFA: 1 per 2,500sf GFA
Industrial—General	1 per 1,000sf GFA up to 40,000sf, then 1 per 2,500sf for additional GFA above 40,000sf (excludes outdoor area)	Over 10,000sf GFA: 1 per 2,500sf GFA
Industrial—Light	1 per 1,000sf GFA up to 40,000sf, then 1 per 2,500sf for additional GFA above 40,000sf (excludes outdoor area)	Over 10,000sf GFA: 1 per 2,500sf GFA
Industrial Design	1 per 500sf GFA	Over 5,000sf GFA: 1 per 2,500sf GFA
Junk Yard/Salvage Yard	1 per 300sf GFA of office area	
Live Performance Venue	1 per 1,000sf GFA	Over 5,000sf GFA: 1 per 2,500sf GFA
Lodge/Private Social Club	1 per 500sf GFA	Over 5,000sf GFA: 1 per 2,500sf GFA
Manufactured Home Park	2 per site	1 per 4 sites
Manufactured Home Subdivision	2 per site or dwelling unit	
Medical/Dental Office/Clinic	1 per 500sf GFA	Over 5,000sf GFA: 1 per 2,500sf GFA
Micro-Production of Alcohol	1 per 1,000sf GFA of production facility + 1 per 500sf GFA of public space	Over 5,000sf GFA: 1 per 2,500sf GFA
Movie Studio	1 per 1,000sf GFA up to 40,000sf, then 1 per 2,500sf for additional GFA above 40,000sf (excludes outdoor area)	Over 10,000sf GFA: 1 per 2,500sf GFA
Nightclub	1 per 200sf GFA	Over 5,000sf GFA: 1 per 2,500sf GFA
Office	1 per 300sf GFA	Over 5,000sf GFA: 1 per 2,500sf GFA

Outdoor Storage Yard	1 per 500sf GFA of office area	
Passenger Terminal	1 per 2,000sf GFA	
Personal Service Establishment	1 per 500sf GFA	Over 5,000sf GFA: 1 per 2,500sf GFA
Place of Worship	1 per 4 seats	1 per 25 seats

Table 38-53.1: Off-Street Vehicle and Bicycle Parking Requirements—Excludes Form-Based Code Zones		
Public Works Facility	1 per 1,000sf GFA up to 40,000sf, then 1 per 2,500sf for additional GFA above 40,000sf (excludes outdoor area)	Over 10,000sf GFA: 1 per 2,500sf GFA
Reception Facility	1 per 200sf GFA	Over 5,000sf GFA: 1 per 2,500sf GFA
Reception Facility, Estate	1 per 200sf GFA	
Research and Development	1 per 300sf GFA	Over 5,000sf GFA: 1 per 2,500sf GFA
Residential Care Facility	To be calculated on the type of facility or combination of facilities provided below:	Over 10,000sf GFA: 1 per 2,500sf GFA
Independent Living Facility	1 per dwelling unit	
Assisted Living Facility	0.75 per dwelling unit or room	
Nursing Home or Hospice	0.5 per patient room	
Residential Addiction Treatment Facility	1 per patient room	Over 10,000sf GFA: 1 per 2,500sf GFA
Retail Goods Establishment	1 per 500sf GFA	Over 5,000sf GFA: 1 per 2,500sf GFA
Self-Storage Facility: Enclosed	1 per 25 storage units	
Self-Storage Facility: Outdoor	1 per 25 storage units	
Social Service Center	1 per 500sf GFA	Over 5,000sf GFA: 1 per 2,500sf GFA
Specialty Food Service	1 per 500sf GFA	Over 5,000sf GFA: 1 per 2,500sf GFA
Vehicle Dealership	1 per 500sf of indoor sales and display area (excluding indoor storage) + 4 per service bay	
Vehicle Operation Facility	1 per 2,500sf of lot area	
Vehicle Rental	1 per 500sf GFA of indoor area (excluding indoor storage)	
Vehicle Repair/Service: Major	4 per service bay	
Vehicle Repair/Service: Minor	4 per service bay	
Warehouse	1 per 500sf of office area + 1 per 30,000sf GFA of warehouse	
Wholesale	1 per 500sf of office area + 1 per 30,000sf GFA of warehouse	

(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24; Ord. No. 14253, § 1, 7-15-25; Ord. No. 14278, § 1, 9-16-25)

Sec. 38-54. Required Parking Flexibilities, Exemptions, and Reductions

(a) Zones Exempt from Minimum Parking Requirements

The following zone is exempt from minimum parking requirements:

(1) C-N Neighborhood Commercial Zone

(2) Properties zoned C-3 Central Business Zone prior to the effective date of the Official Zoning Map of the Chattanooga Zoning Ordinance adopted July 23, 2024, unless zoning conditions were placed on the property at the time of rezoning.

(b) Permitted Reductions of Minimum Parking Requirements

(1) Zones

Required minimum parking spaces for nonresidential uses may be reduced by 20% within the following zones:

(i) C-NT Neighborhood Transition Commercial Zone

(ii) C-MU1 Commercial Mixed-Use 1 Zone

(iii) C-MU2 Commercial Mixed-Use 2 Zone

(iv) I-MU Industrial Mixed-Use Zone

(2) Permeable Pavement

Where 50% or more of the total parking area is constructed of engineered permeable pavement, required parking spaces may be reduced by 10%. Permeable pavement includes any materials installed, operated, and maintained to permit the passage of water through the pavement, including, but not limited to, porous concrete, porous asphalt, permeable interlocking concrete pavers, and concrete grid pavers. Such paving must be approved by the City Stormwater Division and Public Works-Transportation.

(3) Transit Corridor Reduction

Minimum parking requirements for nonresidential uses within 500 feet of a transit stop may be reduced by 5%. Proximity is measured from any point along the lot line to the area designated for such transit to pick-up/drop-off.

(4) Public Parking Facility Reduction

Minimum parking requirements for nonresidential uses within 500 feet of a public parking facility may be reduced by 5%. Proximity is measured from any point along the lot line to the closest lot line of the public parking facility.

(c) Use of On-Street Spaces

In the commercial and mixed-use zones, on-street parking spaces located along the front or side lot lines may be counted toward required off-street parking spaces for nonresidential uses. New on-street parking spaces may also be created to count toward required off-street parking but must be accessible 24 hours a day to all the public. On-street parking used for this purpose cannot be reserved for such uses.

(1) Where on-street parking spaces are unmarked, the number of parking spaces is calculated by dividing the length of the on-street parking area located parallel to the lot line of the property under consideration divided by 25, where a fraction of less than one-half is disregarded and a fraction of one-half or more is counted as one space.

(2) Where on-street parking spaces are marked, each marked space counts as one required parking space, including any space where at least 60% of the width is located along the lot line of the property under consideration.

(d) Cross-Access Reduction

(1) Adjacent nonresidential uses that possess dedicated parking areas are encouraged to provide a cross-access drive to allow circulation between sites. If cross-access is provided, a parking reduction of 20% is permitted for each use accessed by the cross-access driveway.

(2) The property owners must provide a copy of the recorded access easement between all users of the cross-access driveway to the Director of the Land Development Office. The agreement must be included in the property deeds and include a joint maintenance agreement defining the maintenance responsibilities of each property owner. The maintenance of any shared space must be described in the easement.

(3) Cross-access driveways must meet the following standards:

(i) A minimum width of 22 feet is required with no adjacent parking to ensure two-way travel aisles to accommodate automobiles, service vehicles, and loading vehicles.

(ii) Bump-outs or other design features may be required to make it visually obvious that the abutting properties are tied together.

(iii) A unified access and circulation plan is required for coordinated or shared parking areas.

(e) Off-Site Parking

(1) Permission

(i) Off-site parking is permitted for nonresidential uses only. Residential uses cannot locate required parking off-site, including residential dwellings within a mixed-use development.

(ii) Off-site spaces must be approved by the Director of the Land Development Office. In addition, shared parking is permitted where one of the uses is off-site per item F below.

(2) Location

(i) Off-site parking spaces must be located within 1,000 feet along an accessible pathway from the use served, measured from the primary entrance of the use served.

(ii) Off-site parking areas must be located in nonresidential zones.

(3) Agreement for Off-Site Parking

A copy of the recorded access easement between properties is required and must be submitted to the Land Development Office and any changes after shall be maintained on file with the Land Development Office.

(f) Collective and Shared Parking

Collective and shared parking arrangements are allowed as described in this section. In the event that a collective or shared parking agreement is terminated, alternative parking arrangements for each use must be provided. In the event that suitable parking cannot be acquired, the applicant of the shared parking agrees to waive any right to contest enforcement by the City of the required parking standards, although the applicant for the shared parking may have recourse against the property owner supplying the off-street shared parking for breach of the shared parking agreement.

(1) Collective Parking

Two or more uses may share a parking facility collectively if the total number of parking spaces in such facilities meets or exceeds the combined total number of minimum spaces required for each use.

(2) Shared Parking

(i) A parking facility may be shared between two uses, provided that use of the parking facility by each user does not occur at the same time. However, an overlap in hours of operation of up to two hours is permitted. Hours of operation are those when the use is open for business.

(ii) The number of parking spaces within the shared facility must meet the requirement for the use with the greater number of required spaces.

(iii) Approval is obtained from the Director of the Land Development Office that confirms that the use of such facility by each user does not take place at the same hours or during the same days of the week.

(iv) The users of the shared parking facility must provide a recorded easement to share parking facilities.

(v) When one of the uses is off-site, the off-site use must meet the following:

a. Off-site parking is permitted for nonresidential uses only. Residential uses cannot locate required parking off-site, including residential dwellings within a mixed-use development.

b. Off-site parking spaces must be located within 1,000 feet along an accessible path from the use served, measured from the primary entrance of the use served.

(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24; Ord. No. 14181, § 1, 12-17-24; Ord. No. 14222, § 1, 4-15-25; Ord. No. 14278, § 1, 9-16-25)

Sec. 38-55. Electric Vehicle Charging Stations

(a) There are three types of electric vehicle (EV) charging stations:

(1) EV-Capable: Reservation of space in the electrical room for a panel to serve the future EV chargers and continuous raceway from the reserved panel space to the future EV parking space.

(2) EV-Ready: Installation of electrical panel capacity and raceway with conduit to terminate in a junction box or 240-volt outlet accessible to parking space.

(3) EVSE-Installed: EV charging stations capable of providing a minimum of 32amp 7.2 kW.

(b) EV- charging stations are encouraged. As stated below, the minimum parking space reductions are voluntary and do not reduce the vehicle parking space maximums.

(1) Where an EV-Capable space is installed, it is counted as 1.25 required parking spaces.

(2) Where an EV-Ready space is built, it is counted as 1.5 required parking spaces..

(3) Where an EVSE-Installed space is built, it is counted as 2 required parking spaces..

(c) EV charging spaces are counted toward any parking minimums with the reductions shown. Any fractions must be rounded up.
(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24)

Sec. 38-56. Off-Street Parking Facility Design

(a) *Dimensions.*

Minimum parking space dimensions must meet the current edition of City standard drawing, as amended from time to time.

(b) Access

(1) All required off-street parking facilities must have vehicular access from a street, driveway, alley, or cross-access connection.

(2) All development must provide safe, direct, and convenient pedestrian access connecting public streets and parking lots to primary building entrances, and to all other uses in the development that allow for public access.

(i) Pedestrian access must consist of an accessible, easily discernible, well-lit, and ADA compliant walkway.

(ii) The pedestrian access surface located on private property must be paved with fixed, nonslip semi- pervious or impervious materials.

(iii) Where a pedestrian walkway crosses a drive aisle, the walkway must have a continuous surface treatment (i.e. paint or contrasting materials) across the drive aisle.

(3) All parking facilities must be designed with vehicle egress and ingress points that least interfere with traffic movement. Parking facilities must be designed to allow the driver to proceed forward into traffic, rather than back out; this does not apply to single-unit (detached or attached) and two-unit dwellings.

(4) All curb cuts must comply with the regulations of the City Code.

(5) All driveways must conform to all applicable driveway specifications adopted by the City.

(c) Surfacing

(1) All parking lots must be paved with all-weather materials such as asphalt, concrete, or brick. However, a gravel parking lot is permitted if a paved apron that extends from the lot line into the parking area a minimum of 20 feet in length is provided and parking spaces and drive aisles are delineated in a permanent fashion, for example, wheel stops. In a gravel parking lot, any required ADA spaces and ADA accessible route must be paved.

(2) Permeable pavement is also permitted. Permeable paving includes any materials installed, operated, and maintained to permit the passage of water through the pavement, including, but not limited to, porous concrete, porous asphalt, permeable interlocking concrete pavers, and concrete grid pavers and must be approved by the City Stormwater Division. Signage and striping shall follow MUTCD guidelines as appropriate.

(d) Striping

Off-street parking facilities of five or more spaces must delineate parking spaces with paint or other permanent materials, which must be maintained in clearly visible condition. Gravel parking lots are not required to be striped with the exception of any ADA spaces.

(e) Curbing, Wheel Stops, and Raised Sidewalks

(1) Curbing, wheel stops, or raised sidewalks are required when a parking space abuts required landscape areas, pedestrian walkways, structures, fences, or the edge of the parking lot along a lot line.

Wheel stops must be constructed of permanent materials, a minimum height of four inches above ground level, and permanently affixed to the paved parking area.

(2) Wheel stops within the interior of the parking lot are prohibited.

(f) Lighting

Parking facility lighting must be in accordance with Section 38-47.

(g) Landscape

All parking facilities must be landscaped in accordance with Article XIII.

(h) Location of Surface Parking

(1) Nonresidential Uses

(i) In the following zones, parking spaces must be located to the side or rear of the building and behind the front building line. Parking spaces in the front of the front building line are prohibited: C-N, C-NT, C-MU1, C-MU2, I-MU except that C-N and C-NT property transitioning from a residential use to a nonresidential use may use an existing driveway and paved or gravel parking area located in the front yard.

(ii) In the I-MU Zone, parking may be located in front of the front building line for those structures with existing parking in that location as of the effective date of this Code.

(i) Parking Structure Design

(1) Parking structures must meet all the requirements for a principal structure as specified in each zone.

(2) On facades that front on public streets, facade design and screening must mask the interior ramps.

(3) Parking structures must be designed to minimize blank facades through architectural detail and landscape.

(4) On portions of the ground floor facade where parking spaces are visible, a decorative fence and landscape or a kneewall is required to screen parking spaces. Such fence or kneewall must be a minimum of four feet in height.

(5) Upper stories of structured parking must be screened so that cars are not visible from ground level view from adjacent property or from adjacent public rights-of way (not including alleys) and other public property.

(6) A vehicular clear sight zone must be included at vehicular exit areas as follows:

(i) The facade of vehicular exit areas must be set back from any pedestrian walkway along that facade a minimum of eight feet for the portion of the facade that includes the vehicle exit area and eight feet on each side of the exit opening.

(ii) A sight triangle is defined by drawing a line from the edge of the vehicular exit area to a point on the property line abutting the pedestrian walkway eight feet to the side of the exit lane.

(iii) In the sight triangle (bound by the parking structure wall, pedestrian walkway and vehicular exit lane), groundcover, landscape, or decorative wall must be used to act as a buffer between the exit aisle and the pedestrian walkway. Landscape or a decorative wall must not exceed three feet in height in order to maintain driver sightlines to the pedestrian walkway.

(iv) The upper story facade(s) of the parking structure may overhang the vehicular clear sight zone.

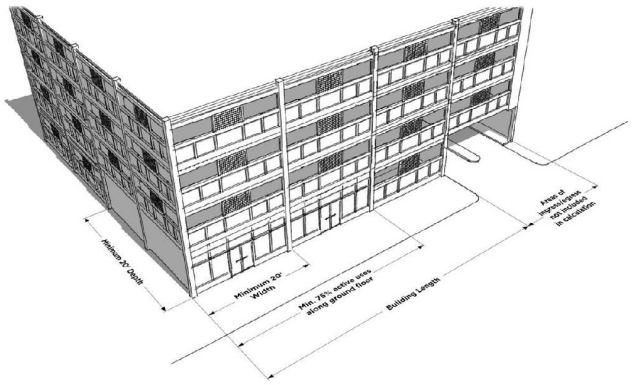
(7) Parking structures in the C-MU1 and C-MU2 Zones must include residential or nonresidential active uses along ground floor designed as follows:

(i) Parking structures must include residential or nonresidential active uses, including civic uses, along 75% of the ground floor building length along any facade abutting a street. This percentage is calculated as a percentage of the facade length after areas of required vehicular and pedestrian egress and mechanical or electrical equipment rooms are discounted from the facade length.

(ii) Nonresidential active use spaces must be a minimum of 20 feet in width and 20 feet in depth.

(iii) Nonresidential active use spaces must meet the design standards of the zone.

INTEGRATED ANCILLARY PARKING STRUCTURES



(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24; Ord. No. 14222, § 1, 4-15-25)

Sec. 38-57. Bicycle Parking Design

(a) Required Bicycle Spaces

Bicycle parking spaces must be provided as indicated in Table 38-53.1.

(b) Location

(1) Bicycle racks must be located on the same zoning lot as the use and located no more than 100 feet from the primary entrance of the building the bicycle parking space is intended to serve.

(2) Bicycle racks must be located such that they are highly visible from the street and/or building entrance with adequate lighting. Bicycle parking must be located in designated areas that minimize pedestrian and vehicular conflicts. Bicycle parking located within an automobile parking area must be clearly designated and located as close to a building entrance as possible.

(3) Required bicycle parking for residential uses may be provided in garages, storage rooms, and other resident-accessible, secure areas. Spaces within dwelling units or on balconies do not count toward satisfying bicycle parking requirements.

(c) Design

(1) Each required bicycle parking space must be at least 1.5 feet by six feet. Where a bicycle can be locked on both sides of a bicycle parking space without conflict, each side can be counted as a required space.

(2) Bicycle parking spaces must be located on paved or pervious, dust-free surface with a slope no greater than 3%. Surfaces cannot be gravel, landscape stone or wood chips. Installation of bicycle racks must also conform to the requirements set forth by the bicycle rack manufacturer.

(3) Bicycle rack must be installed with adequate space beside the parked bicycle so that a bicyclist will be able to reach and operate their locking mechanism.

(4) All bicycle parking spaces must be able to accommodate cable locks and "U" locks, including removing the front wheel and locking it to the rear fork and frame and must be able to support a bicycle in a stable position, giving two points of contact with the bicycle frame.

(d) Shared Bicycle Parking Facilities

Bicycle parking spaces for nonresidential uses may be shared between uses. Bicycle parking spaces must be accessible and clearly visible to from all uses. A 20% reduction in the sum total number of required bicycle spaces is allowed.

(e) City Bicycle Parking Facilities

Where bicycle parking has been provided by the City in the right-of-way, one required bicycle space may be substituted for every bicycle space provided by the City, provided the spaces immediately abut the subject property.
(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24)

Sec. 38-58. Required Off-Street Loading Spaces

(a) Loading spaces are required as indicated in Table 38-58.1: Off-Street Loading Requirements. The location, design, and layout of all loading spaces must be indicated on required site plans.

(b) A loading space must be a minimum of 12 feet by 35 feet and must have a minimum vertical clearance of 14 feet.

(c) All off-street loading spaces must be improved with a hard surfaced, all-weather dustless material.

(d) No part of a loading area utilized for the access, maneuvering and temporary parking of delivery vehicles may be used for vehicle parking. No part of a loading area may be utilized for the outdoor storage of materials, merchandise, and equipment.

(e) Loading areas must be located to the rear of buildings and no loading areas may be placed between a public street and the associated building. This does not apply in the I-H and I-X Zones.

(f) Outside the Urban Overlay Zone, No loading area is permitted within 50 feet of a residential use, excluding the residential component of mixed-use development, as measured from the residential lot line to the closest point of the loading area.

(g) Off-street loading spaces must be provided in accordance with Table 38-58.1. In the case of multi-tenant buildings or mixed-use developments, required loading spaces are calculated on the basis of each individual tenant (for example, if only one nonresidential use tenant of a multi-tenant building is over 10,000 square feet, only one loading space is required; if all tenants are under 10,000 square feet, no loading is required).

Table 38-58.1: Off-Street Loading Requirements	
Use Type	*Minimum Number of Spaces Required*
Multi-Unit Dwelling	
Total of 50 dwelling units or more	1 loading space
Commercial & Institutional Use	
10,000—100,000sf GFA	1 loading space
100,001—200,000sf GFA	2 loading spaces
200,001sf and above GFA	3 loading spaces
Industrial Use	
10,000—40,000sf GFA	1 loading spaces

Table 38-58.1: Off-Street Loading Requirements	
Use Type	*Minimum Number of Spaces Required*
40,001—100,000sf GFA	2 loading spaces
100,001 and above GFA	3 loading spaces

(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24; Ord. No. 14222, § 1, 4-15-25)

Sec. 38-59. Commercial Vehicle Storage

(a) Residential Lots

(1) No commercial vehicle, except as noted in item (i) below, may be parked in a driveway or other parking area located in a front yard on a residential lot with the exception of vehicles engaged in loading or unloading or current work being done to the adjacent premises.

(i) This does not include standard size passenger motor vehicles (including, but not limited to, vans, sports utility vehicles (SUVs), standard passenger size vehicles for hire, and pick-up trucks), which may be stored or parked outdoors overnight on lots in residential zones.

(ii) Permitted standard size passenger commercial vehicles, as described in item (i) above, also include those owned and used for commercial purposes by the occupant of a dwelling or guest, provided that the vehicle is stored or parked in a permitted parking area. Permitted personal commercial vehicles may include the logo of the commercial business painted on or applied to the vehicle.

(2) All other commercial vehicles that exceed standard size passenger vehicles, including, but not limited to, semi-truck tractor units, with or without attached trailers, commercial trailers, flatbed trucks, box trucks, buses, tow trucks, construction heavy equipment and livery vehicles that exceed standard passenger vehicle size, such as limousines, or other large commercial vehicles, are not permitted to be parked outdoors overnight on a residential lot except in the rear yard.

(b) Nonresidential Lots

On nonresidential lots, commercial vehicles with the logo of the commercial business painted on or applied to the vehicle that are being operated and stored in the normal course of business, such as signs located on delivery trucks, promotional vehicles, moving vans, and rental trucks, are permitted to be stored on the lot in areas related to their use as vehicles. All such vehicles must be in operable condition.
(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24; Ord. No. 14222, § 1, 4-15-25)

ARTICLE XIII. LANDSCAPE

Sec. 38-60. Purpose and Intent

The landscape and screening requirements established by this Article are intended to preserve and enhance the appearance and character of the City, increase the compatibility of adjacent uses and minimize the potential negative impacts to neighboring uses, and create transitional areas between uses or zones of different intensities. The requirements of this Article control landscaping and screening on private property only.
(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24)

Sec. 38-61. Landscape Plan

(a) Landscape Plan Required

A landscape plan prepared by a State of Tennessee Registered Landscape Architect is required for the following:

(1) any multi-unit dwelling over 6 units; and,

(2) townhouse development over 10 units; and

(3) nonresidential development, including mixed-use development; and,

(4) parking structures and, or parking lot,

(b) Plan must be approved by the Director of the Land Development Office prior to the issuance of a building permit or a land disturbing permit.

(c) Landscape Plan Submittal

The following is required within the landscape plan:

(1) The location and dimensions of all existing and proposed structures, property lines, easements, pavements, curbs, parking spaces and drives, rights-of-way, refuse disposal and recycling areas, pedestrian and bicycle paths, fences, mechanical equipment, overhead utility wires, outdoor use areas, underground and overhead utilities and piping, and drainage facilities.

(2) The location, quantity, size, name both botanical and common, and condition of all trees over 12" DBH indicating plant material to be retained or removed.

(3) The location of all required landscape and the quantity, size, spacing, condition, and name both botanical and common, of all proposed plant material.

(4) The existing and proposed grading of the site indicating contours at one foot intervals. Proposed berming must also be indicated using two foot contour intervals.

(5) Elevations of all proposed fences, stairs, and retaining walls.

(6) Irrigation systems if installed.

(7) The zone of the subject property and the zone of abutting lots.

(8) Any other details as determined necessary by the Director of the Land Development Office.

(d) Changes to Approved Landscape Plans

Changes to the landscape plan that do not result in a reduction in the net amount of required plant material may be approved by the Director of the Land Development Office. Any changes to the approved landscape plans require the submission of revised plans for review.

(e) Voluntary Incentives Program

Developments participating in the Voluntary Incentives Program are subject to the lot area standard reductions and maximum height increases as detailed in Article XIX. Voluntary Incentives Program, Sec. 38-106 Incentives.
(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24; Ord. No. 14256, § 1, 7-22-25)

Sec. 38-62. Landscape and Certificate of Occupancy

All landscape must be installed before the certificate of occupancy is issued.
(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24)

Sec. 38-63. Selection, Installation, and Maintenance

(a) Selection and Design

(1) The use of regionally native plants, as currently listed by the USDA Plant Profile for each species, is preferred and encouraged.

(2) Invasive exotic plant species, as currently listed by the Tennessee Invasive Plant Council, are prohibited.

(3) All landscaping must be installed according to sound horticultural practices, including soil volume and consistency, in a manner designed to encourage quick establishment and healthy growth, and per the ANSI A300 Tree Care Standards, most current edition and parts, and American Standard for Nursery Stock, current edition.

(4) Placement of plant material to support site sustainability is encouraged to leverage passive heating and cooling strategies and to reduce the energy consumption needs of the development.

(b) Landscape Plantings

Landscape plantings shall comply with requirements set forth Table 38-63.1 Landscape Plant Materials Standard.

SYM	*Plant Type*	*Class*	*Minimum Installed Size*	*Minimum Mature Size*		*Minimum Linear Spacing Ratio*	*Maximum Horizontal On Center Spacing*
				Height (feet)	*Spread (feet)*		
LT	Large Tree	I	2" caliper	40	20	1 tree per 30 linear feet	30 feet On Center
ST	Small Tree	II	1.5" caliper	20	15	1 tree per 20 linear feet	20 feet On Center
ET	Evergreen Tree	III	5' height	15	10	1 tree per 10 linear feet	10 feet On Center
LS	Large Shrub	IV	24" height or spread	7	7	1 shrub per 7 linear feet	7 feet On Center
SS	Small Shrub	V	18" height or spread	3	3	1 shrub per 3 linear feet	3 feet On Center

*Evergreen trees may only be treated as shade trees if they meet both the minimum maturity height and if their crown meets minimum canopy spread criteria.

(c) Existing Trees and Shrubs

(1) All existing trees and shrubs that are maintained on a site and in good health and are not on the Tennessee Invasive Plant Council Invasive species list may be counted toward any required on-site landscape of this Article.

(2) Existing trees and shrubs to be preserved on the site must be identified on the required landscape plan and protected during construction.

(i) Existing trees and shrubs must be identified on the site by a minimum of a four foot high visibility fence (polyethylene, painted wooden slat, snow fence, etc.). This fence must be located outside of the Critical Root Zone (CRZ) as identified in the Chattanooga Tree Protection document. (Diameter =1.5 feet x tree diameter in inches).

(ii) Construction debris storage/staging areas must be located away from the trees and shrubs to be preserved.

(d) Species Diversity

Diversity among required plant material is required for visual interest and to reduce the risk of losing a large population of plants due to disease. Table 38-63.2: Plant Diversity Requirements indicates the percentage of diversity required based on the total quantity of species being used. (For example, if a development requires 45 trees, no more than 18 trees (40%) can be of one species, and there must be a minimum of seven different species within the 45 trees.) When the calculation of plant diversity requirements results in a fraction, the fraction is rounded up.

Table 38-63.2: Plant Diversity Requirements

Tree Diversity Requirements		
Total # of Trees per Tree Type	Maximum # of One Species	Minimum # of Species
1-5	100%	1
6-10	60%	2
11-25	50%	4
26-50	40%	7
51-100	25%	10
101+	15%	12
Shrub Diversity Requirements		
Total # of Shrubs per Shrub Type	Maximum # of One Species	Minimum # of Species
1-10	100%	1
11-25	60%	2
26-50	50%	4
51-100	40%	6
101+	20%	8

(e) Maintenance

(1) Trees and vegetation, irrigation systems, fences, walls, and other landscape elements are considered elements of a development in the same manner as parking, building materials, and other site details. The applicant, developer, landowner, or successors in interest are jointly and severally responsible for the regular maintenance of all landscaping elements in good condition.

(2) All landscaping must be maintained free from disease, pests, weeds, and litter. All landscape structures such as fences and walls must be repaired and replaced periodically to maintain them in a structurally sound and aesthetically pleasing condition.

(3) Any landscape element that dies, or is otherwise removed or seriously damaged, must be removed and replaced within 30 days of the beginning of the growing season.

(4) Proper organic mulching is required to maintain required trees.

(5) The ANSI A300 Tree Care Standards, most current edition and parts, is the standard for maintenance.

(6) All installed plant material must be fully maintained, including watering, fertilization, and replacement as necessary.

(f) General Landscape Requirement

All portions of a lot not covered by structures or paved or appropriate parking surfaces must be landscaped with lawn grass or trees, shrubs, live groundcover, and other plantings with their proper organic mulching where applicable. Vegetated stormwater control measures (SCMs) or green infrastructure may be used to meet this requirement.
(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24; Ord. No. 14222, § 1, 4-15-25)

Sec. 38-64. Parking Lot Landscape

(a) Required Parking Lot Landscape

Parking lot landscape is required as follows. Existing paved or gravel lots are not considered a parking lot unless designed as a parking lot in accordance with Article XII.

(1) New construction of a parking lot.

(2) When an existing parking lot is fully reconstructed and/or reconfigured.

(3) When an existing parking lot is expanded by an additional 10% or more spaces (for example, the total number of spaces after expansion is 110% or more of the spaces prior to expansion).

(4) When a gravel lot is designated as a parking lot, then minimum 6 inch high and wide curbs are required between all required landscape areas and the gravel surface.

(b) Parking Lot Perimeter Landscape

(1) A landscape treatment is required along all edges of a parking lot of five or more spaces abutting the street. This does not include alleys. The landscape treatment must run the full length of the street edge, except for points of ingress or egress.

(2) The landscape area for parking lot landscape along a street must be a minimum of eight feet in width. In addition, there must be a minimum linear clear distance of 18 inches between the perimeter landscape area and any wheel stops or curbs to accommodate vehicle bumper overhang.

(3) The perimeter landscape area must be planted as follows:

(i) Shade tree and shrubs must be planted per Table 38-63.1.

(ii) Fences or walls are permitted within this area. Such fences or walls must be constructed of high quality, durable materials such as masonry, stone, brick, iron, or any combination thereof. Chain link is prohibited. If installed, fences must be a minimum of three feet in height to a maximum of four feet in height.

(iii) A minimum of 80% of the landscape area outside of required tree and shrub masses must be planted in live groundcover, perennials, and/or grass. Rain gardens, bioswales, and similar vegetated stormwater management landscape elements meet this requirement.

(4) The following is an accepted alternative to the planting requirements of item 3 above:

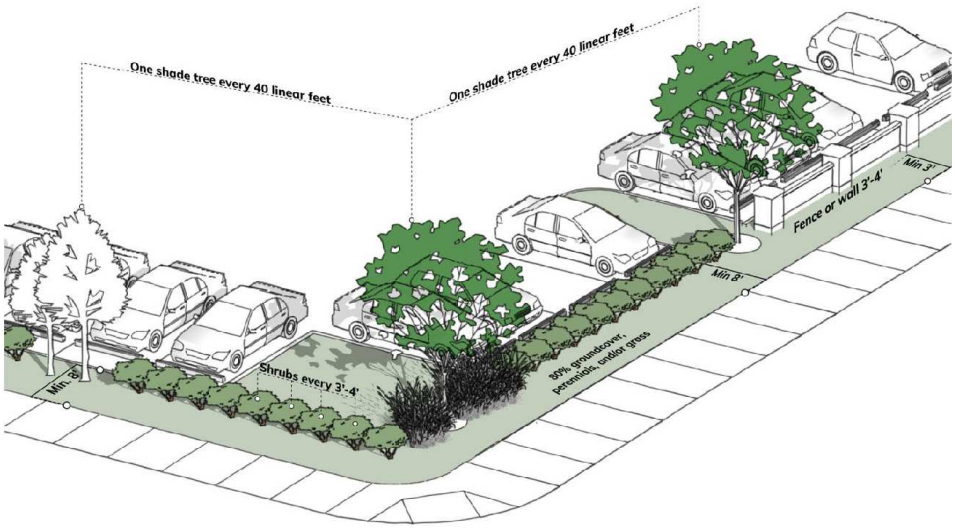
(i) A low pedestrian wall of a minimum of four feet in height to a maximum of 4.5 feet in height constructed of masonry, concrete, or similar permanent material may be installed.

(ii) In this alternative, the parking lot screening area of item 2 above may be reduced to three feet in width.

(iii) Shrubs, groundcover, perennials, ornamental grasses, and other native planting types must be planted in front of such wall along the street, facing toward the street, covering a minimum of 50% of the total screening area.

(iv) Up to 30% of the total length of such wall (item a above) may be designed as a seating wall. Where seating areas are included, the minimum wall height does not apply and plantings are not required in front of that portion of the seating wall.

PARKING LOT PERIMETER LANDSCAPE



(c) Interior Parking Lot Landscape

(1) Any parking lot of ten or more spaces is required to install interior parking lot landscape.

(2) One parking lot island must be provided at a minimum between every ten parking spaces. As part of the landscape plan approval, parking lot island locations may be varied based on specific site requirements or design scheme, but the total number of islands must be no less than the amount required of one island for every ten spaces. In addition, all rows of parking spaces of 20 or more spaces must terminate in a landscape island. Also need one where a stall abuts a drive aisle.

(3) Parking lot islands must be, at minimum, the same dimension as a parking stall. Double rows of parking must provide parking lot islands that are, at minimum, the same dimension as the double row.

(4) A minimum of one shade tree must be provided for every parking lot island. Islands for double rows of parking must provide a minimum of two shade trees.

(5) A minimum of 80% of the landscape area outside of required trees must be planted in live groundcover, perennials, and/or grass. Fully vegetated, non-turf, green infrastructure stormwater control measures also meet this requirement. This percentage may be reduced to 40% if the parking lot island is designed to accommodate pedestrian access.

(6) The use of stormwater management elements, such as sunken islands, perforated curbs, rain gardens and bioswales, is encouraged in landscape areas.

(7) All landscaping in or adjacent to a vehicular use area must be protected from vehicular damage by a raised concrete curb six inches in height or equivalent barrier, however, the barrier need not be continuous.

(8) A maximum of 18 inches of vehicle bumper overhang is permitted within the required landscape area.

INTERIOR PARKING LOT LANDSCAPE

(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24)

Sec. 38-65. Buffer Yards

(a) Table 38-65.1: Required Buffer Yard Class indicates when and which class of buffer yard is required. Table 13-3: Buffer Yard Class describes the width and design of each class of buffer yard.

(b) Buffer yards are located within rear and interior side setbacks along the lot lines when indicated in Table 38-65.1. Buffer Yard width maximum is equal to the setback for each zone.

(c) Where a rear setback is located along an alley, the required buffer yard may be reduced to a R Class buffer yard.

(d) Buffer yards must be reserved for planting material and screening as required by this section. No parking spaces, loading spaces, refuse containers, or storage areas are permitted within the required buffer yard.

(e) When a buffer yard is required by this section, and a site does not have a buffer yard or the existing buffer yard on the site does not meet the standards of this section, a buffer yard must be installed when any of the following actions occur:

(1) New construction of a principal building. This includes construction of additional principal buildings within an existing development.

(2) Expansion of a principal building by 25% or more of gross floor area.

(3) When a parking lot is expanded by an additional 10% or more spaces (for example, the total number of spaces after expansion is 110% or more of the spaces prior to expansion).

(4) Expansion of lot area.

(f) Where Table 38-65.1 indicates nonresidential development or development in the zone is required to install a buffer yard, this does not apply to parks or conservation area uses. Parks or conservation areas are not required to install a buffer yard.

(g) Where a lot is zoned with multiple zones, a buffer yard is not required within that same lot. Buffer yards apply only at the lot lines.

Table 38-65.1: Required Buffer Yard Class

Zone of Lot Under Development	*Development Type Required to Install Buffer Yard*	*Buffer Yard Required for Development When*	*Buffer Yard Class Required*
RN-1-7.5, RN-1-6, RN-1-5, RN-2	Nonresidential development—excludes neighborhood commercial establishments	Abutting residential use	R
RN-3	Nonresidential development—excludes neighborhood commercial establishments	Abutting residential use	R

1. Buffer yard width maximum is equal to the setback for each zone.

2. Buffer yard depth shall be measured from the Property Line.

3. Buffer yard plantings shall cover the entire depth of the buffer at the requisite spacing.

4. See Table 13-1 Landscape Plant Material Standards for the required spacing.

5. Any portion of a Fence or Wall, including the gate, shall be solid and opaque.

(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24; Ord. No. 14169, § 1, 11-19-24; Ord. No. 14181, § 1, 12-17-24; Ord. No. 14202, § 1, 2-18-25; Ord. No. 14278, § 1, 9-16-25; Ord. No. 14291, § 1, 10-21-25)

Sec. 38-66. Required On-Site Trees

(a) Intent

The intent of the on-site tree requirement is to add quality and definition to the street by planting trees within a landscaped area abutting the public right-of-way.

(b) Applicability

On-site trees are required for all portions of any property line where no building is present within 15' or more of the front or corner setback. This does not apply to lots used for single-unit or two-unit dwellings.

(c) Required Trees

(1) On-site trees must be planted at the rate outlined in Table 38-63.2.

(2) Trees do not have to be evenly spaced. Up to a 50% deviation, either an increase or decrease, from Horizontal On Center Spacing as identified in Table 38-63.1 is permitted.

(3) Fractions of trees are rounded up to the nearest whole number.

(d) Existing Trees

(1) Existing trees on-site may be counted toward required trees.

(2) Existing trees planted within the right-of-way (excluding the center median and opposite side of the street) may be counted toward required trees, subject to approval by the City Urban Forester

(e) Trees Within Adjoining Right-of-Way

On-site required trees may be planted within the street lawn of the public right-of-way with permission from the City Urban Forester and other City departments.

(f) Tree Replacement or Mitigation

If a required on-site tree is removed or damaged, it must be replaced. Replacement trees must be a comparable native tree that will reach the same size at maturity.
(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24; Ord. No. 14238, § 1, 5-20-25)

ARTICLE XIV. ADMINISTRATORS

Sec. 38-67. City Council

The City Council has the following powers pursuant to this Code:

(a) To make final decisions on zoning text and map amendment applications.

(b) To make final decisions on planned unit developments.
(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24)

Sec. 38-68. Planning Commission

The Planning Commission has the following powers pursuant to this Code:

(a) To make recommendations on zoning text and map amendment applications.

(b) To make recommendations on planned unit developments.
(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24)

Sec. 38-69. Board of Appeals

Membership.

The Board of Appeals, also known as the Board of Zoning Appeals and referred to in this Article as the "Board", shall consist of nine (9) members and shall be appointed by the City Council for three (3) year terms. One member shall be appointed from each City Council District. In the case of a vacancy, a member shall be appointed to serve the unexpired term of the former member creating the vacancy. A member who has served for three (3) years shall continue to serve as an official member of the Board until the member has been reappointed or a new member has been appointed to represent that District. Members of the Board shall serve without compensation.

Officers and Meetings.

A Chairperson and Vice-Chairperson of the Board shall be elected from its own membership. A Secretary of the Board shall be provided by staff. The board shall fix its place of meeting and shall conduct at least one (1) regular meeting a month, provided there are applications to be reviewed by the Board. Other meetings of the Board shall be held upon the call of the Chairperson and at such times as the Board may determine. The presence of five (5) members shall constitute a quorum. In all other matters, the Board shall proceed according to its own rules of order for the conduct of business, such rules being of public record. The City Attorney or their designated representative shall be present at each Board meeting.

Powers.

The Board of Appeals has the following powers pursuant to this Code:

(1) To make final decisions on any special exception request;

(2) To make final decisions on any variance request;

(3) To hear zoning appeals of the Director of the Land Development Office decisions; and

(4) To hear zoning appeals of Sign Code decisions by the Director of the Land Development Office.
(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24; Ord. No. 14329, § 1, 2-17-26)

Sec. 38-70. Director of the Land Development Office

The Director of the Land Development Office may designate one or more persons to act as their designee; however, a decision may only be rendered once. The Director of the Land Development Office has the following powers pursuant to this Code:

(a) To make final decisions on administrative modifications.

(b) To make final decisions on zoning interpretations, with input from Regional Planning Agency, Office of the City Attorney, and other City departments as needed.

(c) To make final decisions on temporary use permits.

(d) To conduct plan review for zoning compliance.
(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24)

ARTICLE XV. APPLICATION PROCESS

Sec. 38-71. Application

(a) Submittal

All zoning applications must be filed as indicated in Table 38-71.1: Submittals. The application must be on forms provided by the City and filed in such quantity and with such submittals as required by the instructions.

Table 38-71.1: Submittals		
Application	Administrator	
	Regional Planning Agency	Land Development Office
Amendment (Text and Map)	•	
Special Exception		•
Variance		•
Administrative Modification		•
Planned Unit Development	•	
Zoning Interpretation		•
Zoning Appeal		•

(b) Pre-Application Conference

Prior to formal submittal of an application, the applicant may, at their option, schedule a pre-application conference with the Regional Planning Agency (RPA). The purpose of a pre-application conference, which does not require a formal application or fees, is to provide informal advice and assistance to the applicant. Any opinions or advice provided are not binding with respect to any official action that may be taken on the formal application. No decision is made on the application.

(c) Completeness

(1) An application must include all information, plans, and data as specified in the application requirements. The Regional Planning Agency or Land Development Office, as applicable, will examine all applications to determine completeness. If the application does not include all the submittal requirements for the application, staff will reject the application and provide the applicant with the reasons for the rejection. No further steps to process the application will be taken until all deficiencies are remedied.

(2) After an application is determined to be complete and before action is taken on the application, any substantive change made by the applicant to the application requires resubmittal of the entire application and a new completeness review. However, such revisions do not require an additional payment of fees. Once the application is under consideration by the appropriate bodies, additional information or revisions are not subject to this provision.

(d) Fees

Each application must be accompanied by the required filing fee, as established and modified, from time to time. The failure to pay such fee when due is grounds for refusing to process the application and renders the application incomplete. If an application is submitted by the City Council or Planning Commission, all fee requirements are considered waived.

(e) Deferral or Withdrawal of Application

(1) To request to defer or to withdraw an application prior to scheduled Planning Commission meeting the applicant must submit a written request to defer or withdraw their application to the Regional Planning Agency using the appropriate form available from the Regional Planning Agency. An applicant may request to defer their request in writing within five business days following the zoning application deadline.

(2) The zoning application deadline is the third Monday of the month. Any request to defer a case after the five business day period following the zoning application deadline must be made at the scheduled Planning Commission meeting. Action to allow deferral of the zoning application will be determined by the Planning Commission.

(3) If the Planning Commission takes official action to defer the request the application cannot be automatically withdrawn without the approval of the Planning Commission.

(4) An applicant may request to withdraw their request in writing no later than 12:00PM Noon the Wednesday before the scheduled Planning Commission meeting. Such requests will be honored. RPA staff will place a "Withdrawn" sticker on the notification sign.

(5) The applicant shall be responsible for removing the notification sign with the withdrawn sticker by no later than the Friday immediately after the public hearing of the Planning Commission date of which the case was scheduled for review.

(6) Withdrawal or deferral requests that do not meet these guidelines must be made verbally at the regularly scheduled meeting of the Planning Commission.

(f) Consideration of Successive Applications

(1) A petition for a map amendment, closure and abandonment, or special permits will not be accepted for a period of one year following denial of a previous petition involving the same property or any part thereof.

(2) The Board of Appeals will not rehear any case upon the same grounds within a minimum period of one year of its previous hearing date.

(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24; Ord. No. 14202, § 1, 2-18-25)

Sec. 38-72. Notice

(a) Required Notice.

Table 38-72.1: Zoning Approvals Required Notice indicates the types of notice required for zoning applications. If the specific requirements of a zoning approval process contain contradictory information to Table 38-72.1, the specific requirements of the zoning approval control.

Table 38-72.1: Zoning Approvals Required Notice

Zoning Application	Notice Type		
	Published	Mailed	Posted On Property
Zoning Text Amendment Notice for Public Hearing	•		
Zoning Map Amendment Notice for Public Hearing	•	•	•
Special Exception Notice for Public Hearing	•	•	•
Variance Notice for Public Hearing	•	•	•
Zoning Appeals Notice for Public Hearing	•		

(b) Published Notice.

When published notice is required by Table 38-72.1, the City will publish notice in a newspaper of general circulation within the City. The notice must include the date, time, place, and purpose of such hearing/meeting, the name of the applicant, and the address of the subject property.

(1) For the Board of Appeals, notice must be published no less than seven (7) days in advance of the scheduled action.

(2) For the City Council, notice must be published no less than twenty-one (21) days in advance of the scheduled action.

(c) Mailed Notice.

(1) For applications to the Board of Appeals, the Board of Appeals will mail written notice at least seven days in advance of the first scheduled action to all property owners within three hundred (300') feet of the property line of the subject property. The notice must include the date, time, place, and purpose of such action, the name of the applicant, and the address of the subject property.

(2) When a zoning map amendment is proposed by the City, notification must also be mailed to the owner of the subject property.

(3) Mailed notice is not required for comprehensive updates to the Zoning Map, as determined by the Regional Planning Agency in consultation with the Land Development Office and the Office of the City Attorney.

(4) Nothing in this section is intended to prevent the applicant or the City from giving additional notice.

(d) Posted Notice.

(1) A sign furnished by the Regional Planning Agency (RPA), or the Land Development Office must be prominently posted by the applicant on the site of the subject property a minimum of fifteen (15) consecutive days prior to a Planning Commission, Form Based Code or Board of Zoning Appeals meeting. Signs must be posted no earlier than five days after the application has been accepted by the Regional Planning Agency, or the Land Development Office. The applicant must post the sign provided by the Regional Planning Agency or the Land Development Office as follows:

(i) Signs must be posted at the right-of-way of primary street or road on which the property fronts, and any additional areas if required by the RPA or the Land Development Office staff.

(ii) Signs must be mounted on flat hard surface to prevent curling or bending of sign.

(iii) Signs must be nailed or tied to a tree or mounted on stakes and visually free from obstruction to the primary road.

(2) Signs improperly displayed may be ruled as a violation to the process and may result in deferral of the meeting. The applicant is responsible for replacing signs which are damaged or lost.

(3) Signs must be maintained throughout the process until the City Council, Form Based Code Committee, or the Board of Appeals has taken final action on the request.

(4) The applicant is responsible for removing the sign after the final governmental action.

(5) Posted notice is not required for comprehensive updates to the Zoning Map, as determined by the Regional Planning Agency in consultation with the Land Development Office and the Office of the City Attorney.

(e) Additional Notice.

(1) A copy of a Regional Planning Agency (RPA) application must be forwarded to the City Council member that represents the zone where the property is located fifteen (15) days prior to the Planning Commission hearing of the application.

(2) For all applications to the Regional Planning Agency (RPA) that are to be reviewed by the Planning Commission, the RPA staff will notify the Neighborhood Association(s) contact person on file with the RPA and all property owners of properties that abut the area of the request no less than fifteen (15) days prior to the Planning Commission meeting by first class mail. No further notification is required.

(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24; Ord. No. 14169, § 1, 11-19-24; Ord. No. 14181, § 1, 12-17-24; Ord. No. 14202, § 1, 2-18-25; Ord. No. 14339, § 1, 3-17-26)

Sec. 38-73. Vesting

Unless specifically addressed in this section, all provisions of Tenn. Code Ann. § 13-4-310 are adopted and incorporated by reference.

(a) Subject to item (f), a vested property right is established, with respect to any property upon the submission of a preliminary development plan, a final development plan where no preliminary development plan is required by ordinance or regulation, or a building permit allowing construction of a building where there was no need for prior approval of a preliminary development plan for the property on which that building will be constructed. During the vesting period in item f, the City's development standards in effect on the date of said approval remain the development standards applicable to that property or building during the vesting period in item (f).

A vested property right is not established unless the plan or building permit substantially complies with the requirements of the local development ordinances and regulations.

During the vesting periods, the locally adopted development standards that are in effect on the date of submission or a preliminary development plan or the date of approval of a building permit, as described by this section (a) shall remain the development standards applicable to that property or building during the vesting period.

(b) Development Standards

Development Standards means all locally adopted or enforced standards, regulations or guidelines applicable to the development of property, including, but not limited to, planning; local storm water requirements, layout, design; local construction standards for buildings, streets, alleys, curbs, sidewalks; zoning as provided for in subsection (g); lot size; lot configuration; yard dimensions; and off-site improvements, including public or private infrastructure, in which an applicant may acquire vested rights or vested property rights according to this section; and, does not include standards required by federal or state law; or building construction safety standards which are adopted pursuant to authority granted under Tenn. Code Ann. § 68-120-101.

(c) Submission

For purposes of Sec. 38-73 "submission" means the date on which an applicant submits to the Land Development Office or the Regional Planning Agency, as appropriate, a complete application of a building permit or development plan listed in (e) below.

(d) Substantial Compliance

For purposes of Sec. 38-73 "substantial compliance" means that an application includes all required documents, plans, and forms, and that each submission is complete, accurate, and conforms to the city's

zoning ordinance, subdivision provisions, and all applicable general regulations. The application must demonstrate that the proposed plan meets the intent and substantive requirements of all applicable codes, even if minor, technical, or non-material errors or omissions are present.

To be deemed substantially compliant, an application must:

(1) Include all documents, plans, and forms as required by the city's application checklist and development procedures manual.

(2) Ensure that all submissions are internally consistent, to scale, and legible.

(3) Demonstrate general conformity with:

a. The Zoning Ordinance (e.g., lot size, density, use, setbacks),

b. The Subdivision Regulations (e.g., block length, access, easements),

c. All relevant building codes, engineering standards, utility requirements, and design criteria.

(4) Address any public health, safety, and welfare concerns associated with the proposed development.

(5) Include any supporting studies or documentation (e.g., traffic impact analysis, drainage reports, utility availability letters) as applicable or required.

Substantial compliance does not preclude future minor amendments, but the application must clearly demonstrate intent to fully comply with all mandatory provisions and not contain any material defects that would:

(1) Preclude meaningful review by city staff or approving authorities,

(2) Result in nonconformance with adopted plans or ordinances, or

(3) Compromise the public interest or administrative integrity of the approval process.

(e) A vested property right is established with respect to any property upon the following submission:

(1) Submission of preliminary subdivision plat.

(2) Submission of final subdivision plat.

(3) Submission of a final plat that meets the definition of a staff approved subdivision plat upon the date of the last signature of approval required on the plat for recording.

(4) Submission of a special exception permit required to complete a site or development plan.

(5) Submission of a planned unit development.

(6) Any other submission or issuance specified in Tenn. Code Ann. § 13-4-310.

For Purposes of Sec. 38-73 and Tenn. Code Ann. § 13-4-310 (e) the following submittals are not considered to be a preliminary and final development plan for establishing vesting rights:

1. Site Plans/Conceptual Plan submitted for rezoning applications are not considered to be a preliminary or final development plan and the submission of such as part of a rezoning application does not trigger vested rights.

(f) Per Tenn. Code Ann. § 13-4-310, the applicable vesting periods are as follows.

(1) Building Permit

Unless an extension is granted by the local government, the vesting period applicable to an approved construction project for which a building permit has been issued begins on the date of issuance of the building permit by the local government and remains in effect for the time period

authorized by the approved building permit, including any approved renewal obtained by the applicant prior to the expiration or termination of the permit to be renewed; provided, that the applicant pursues with reasonable diligence site preparation, if applicable, and construction.

(2) Development Plan

(i) The vesting period applicable to a development plan is a period of three years, beginning on the date of the submission of the preliminary development plan, provided that the applicant obtains local government approval of a final development plan, secures any necessary permits, and commences site preparation within the vesting period. If the applicant obtains local government approval of a final development plan, secures any necessary permits, and commences site preparation within the vesting period, then the vesting period may be extended an additional two years to commence construction from the date of the expiration of the three-year period. During this two-year period, the applicant must commence construction and maintain any necessary permits to remain vested.

(ii) If construction commences during the vesting period, the development standards applicable during the vesting period remains in effect until the local government has certified final completion of the development or project, provided the total vesting period for the project cannot exceed ten years from the date of the submission of the preliminary development plan unless the local government grants an extension pursuant to an ordinance or resolution, provided further that the applicant maintains any necessary permits during the ten year period.

(iii) In the case of developments which proceed in two or more sections or phases as described in the development plan, there is a separate vesting period applicable to each section or phase. The development standards which are in effect on the date of approval of the preliminary development plan for the first section or phase of the development remain the development standards applicable to all subsequent sections or phases of the development; provided, that the total vesting period for all phases cannot exceed 15 years from the date of the submission of the preliminary development plan for the first section or phase unless the local government grants an extension pursuant to an ordinance or resolution, provided further that the applicant maintains any necessary permits during the 15 year period.

(g) In accordance with Tenn. Code Ann. § 13-4-310(f), the City may terminate the applicant's vested rights under the following circumstances.

(1) If the City finds in writing that the applicant violated terms and conditions specified in the approved development plan or building permit, the applicant will receive notice and has 90 days from the date of notification to cure all violations.

(2) If the City finds in writing that the applicant violated terms and conditions specified in a City ordinance or resolution, the applicant will receive notice and has 90 days from the date of notification to cure all violations.

(3) If the City finds in writing that the applicant: 1) intentionally supplied inaccurate information or knowingly made misrepresentations material to the issuance of a building permit or the approval of a development plan; or 2) knowingly did not construct the development in accordance with the issued building permit, approved development plan, or approved amendment for the building permit or development plan. In such case, the applicant has no right to cure the violations.

(4) If the City is required to enforce a state or federal law, regulation, rule, policy, corrective action, or other governance that precludes the development as contemplated in the approved

development plan or building permit, the vested rights terminate unless within 90 days the applicant modifies the development plan or building permit in a way that brings the applicant into compliance with the new governance.

(h) A vested right does not preclude the City's enforcement of any development standard in accordance with any circumstances described in Tenn. Code Ann. § 13-4-310(g).

(i) In accordance with Tenn. Code Ann. § 13-4-310(h), any amendment to an approved development plan must first be approved by the City in order for the property rights to remain vested. The City may deny an amendment in accordance with Tenn. Code Ann. § 13-4-310(h) and, if such amendment is denied, the applicant may either proceed with no changes to the prior approved plan with the associated vested property right or, alternatively, may allow the vested property right to terminate and submit a new application in compliance with the development standards in effect at that time.

(j) A local government cannot require an applicant to waive the applicant's vested rights as a condition of approval or as a consideration of approval of a development plan or the issuance of a building permit.

(k) A vested property right attaches to and run with the applicable property and confers upon the applicant the right to undertake and complete the development and use such property under the terms and conditions of a development plan, including any amendments thereto or under the terms and conditions of any building permit that has been issued with respect to the property.

(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24; Ord. No. 14319, § 1, 1-20-26)

ARTICLE XVI. ZONING APPROVALS

Sec. 38-74. Zoning Text and Map Amendment

(a) Purpose

The regulations imposed by the zoning regulations of this Zoning Code and of the Zoning Map may be amended from time to time in accordance with this section. Amendments are not intended to relieve particular hardships or confer special privileges or rights upon any person or party.

(b) Initiation

(1) Text Amendments

(i) The City Council, Planning Commission, or Regional Planning Association may propose a zoning text amendment.

(ii) Requests to amend the Zoning Code text may also be made as follows:

a. Petitioner discusses the proposed amendments at a regularly scheduled meeting of the Planning Commission under non-agenda items.

b. The Planning Commission may direct Regional Planning Agency staff to explore options/suggestions on the proposed amendment, place it on the Planning Commission's agenda for future action, or take no action.

(2) Map Amendments

The City Council, or a property owner in the City may propose a zoning map amendment.

(c) Authority

The City Council, after receiving a recommendation from the Planning Commission, will take action on requests for zoning text or map amendments.

(d) Procedure

(1) Filing and Notice.

All Applications must be filed per Section 38-71. Once it is determined that the application is complete, staff will schedule the application for consideration by the Planning Commission. Amendments initiated by the City Council or Planning Commission also require an application but are exempt from fees. Notice is required per Section 38-72.

(2) Action by Planning Commission

(i) Upon receipt of a complete application, the Planning Commission will consider the proposed zoning amendment at a public meeting.

(ii) The Planning Commission must evaluate the application based upon the evidence presented, pursuant to the approval standards of this section.

(iii) A petition for rezoning, closure and abandonment, or special permits shall not be accepted for a period of nine (9) months following a denial of a previous petition involving the same property or any part thereof.

(iv) The Planning Commission must make a recommendation within 60 days of the date of the initial public meeting, unless there is mutual agreement between the applicant and the Planning Commission to extend this period of time.

(v) After the close of the meeting, the Planning Commission will forward its recommendation to the City Council.

(3) Action by City Council

(i) The City Council will hold a public hearing on the application following receipt of the Planning Commission recommendation.

(ii) Following the close of the public hearing, the City Council will take action in the form of approval, approval with conditions, or denial. The City Council may also approve another zone classification than that requested by the applicant.

(iii) A petition for rezoning, closure and abandonment, or special permits shall not be accepted for a period of nine (9) months following a denial of a previous petition involving the same property or any part thereof.

(e) Evaluation Criteria

The Planning Commission recommendation and the City Council decision on any zoning text or map amendment is a matter of legislative discretion that is not controlled by any particular criteria. However, in making their recommendation and decision, the Planning Commission and the City Council will consider the following criteria at a minimum. Approval of amendments is based on a balancing of these criteria.

(1) Criteria for Map Amendments

(i) The compatibility with the existing use of the property and zoning of nearby property.

(ii) The extent to which the proposed amendment creates nonconformities.

(iii) The trend of development, if any, in the general area of the property in question.

(iv) The consistency of the proposed amendment with the Comprehensive Plan and any adopted land use policies.

(2) Criteria for Text Amendments

(i) Whether the proposed amendment corrects an error or omission, adds clarification to existing requirements, or reflects a change in policy.

(ii) The extent to which the proposed amendment creates nonconformities.

(iii) The consistency of the proposed amendment with the intent and general regulations of this Code.

(iv) The consistency of the proposed amendment with the Comprehensive Plan and any adopted land use policies.

(f) Conditional Zoning

The City Council may approve a zoning map amendment with conditions (conditional zoning/rezoning) as allowed per Tenn. Code Ann. § 13-7-201(b).
(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24; Ord. No. 14169, § 1, 11-19-24; Ord. No. 14181, § 1, 12-17-24; Ord. No. 14202, § 1, 2-18-25)

Sec. 38-75. Special Exceptions

(a) Purpose

This Code is based upon the division of the City into zones. Within each zone, the use of land and structures are considered substantially uniform. It is recognized, however, that there are certain uses which, because of their unique characteristics, cannot be properly classified in a particular zone or zones without consideration of the impact of those uses upon neighboring land and of the public need for the particular use at the particular location.

(b) Initiation

A property owner in the City may file an application to use their land for one or more of the special exceptions authorized within the zone. A property owner may only propose a special exception for property under their control.

(c) Authority

The Board of Appeals will take action on requests for special exceptions.

(d) Procedure

(1) Filing and Notice.

All Applications must be filed per Section 38-71. Once it is determined that the application is complete, staff will schedule the application for consideration by the appropriate body. Notice is required per Section 38-72.

(2) Approval by Board of Appeals

(i) Upon receipt of a complete application, the Board of Appeals will consider the special exception at a public hearing.

(ii) The Board of Appeals will evaluate the application based upon the evidence presented at the public hearing, pursuant to the approval standards of this section.

(iii) The Board of Appeals must either approve, approve with conditions, or deny the special exception.

(iv) The Board of Appeals may impose additional conditions and restrictions upon the establishment, location, construction, maintenance, and operation of the special exception as deemed necessary for the protection of the public health, safety, and welfare.

(v) Provided, however, that where the application for a variance or special exception involves only the addition to or extension of an existing building or structure, the Board may allow such addition or extension when said addition or extension would be no less conforming as to setback distances than the existing structure or structures on the same or adjacent property, provided further, that such addition or extension is not in conflict with the character of the area in which the property is located or the comprehensive zoning plan.

(e) Evaluation Criteria

The listing of a use as a special exception within a zone does not constitute an assurance or presumption that such special exception will be approved. Rather, each special exception must be evaluated on an individual basis, in relation to all applicable standards of this Code. Such evaluation will determine whether approval of the special exception is appropriate at the particular location and in the particular manner proposed. The decision must make findings to support each of the following:

(1) The proposed special exception will not endanger the public health, safety, or welfare.

(2) The proposed special exception is compatible with the general land use of adjacent properties and other property within the immediate vicinity.

(3) The special exception in the specific location proposed is consistent with the spirit and intent of this Code and adopted City land use policies.

(f) Special exceptions permit for a residential home for persons with a disability and/or aged persons for nonprofit family residences and those operated on a commercial basis, Assisted Living Facilities and Medically Assisted Living Facilities, Nursing Homes and Hospitals.

(1) No special exceptions permit is necessary for any residential home in which eight (8) or fewer unrelated persons with disabilities reside, and which may include three (3) additional persons acting as support staff or guardians, who need not be related to each other or to any of the persons with disabilities in any residential zone within the City. This ordinance allows nonprofit organizations to operate residential homes meeting the requirements of Tenn. Code Ann. § 13-24-101 to remove zoning obstacles which prevent persons with a disability from living in normal residential surroundings in compliance with state and federal law.

(2) This ordinance does not apply to family residences housing greater than eight (8) or more unrelated persons in any single family or other residential zone where such residences are operated on a commercial basis as required by Tenn. Code Ann. § 13-24-104 unless Land Development staff is provided adequate information from the State Comptroller's Office with any building permit request establishing the nonprofit status of the entity which will operate the residential home in compliance with Federal and Tennessee state law as a nonprofit entity. All other applicants which do not meet the requirements of Tenn. Code Ann. § 13-24-102 must comply with the requirements of subsection (3).

(3) Any application for homes operated on a commercial basis or for a residential facility which is not exempt under Tenn. Code Ann. § 13-24-101 et seq. or as otherwise provided by Tennessee law shall comply with the following requirements:

(i) An applicant must apply for a license for a "Residential Home for the Aged" from the Tennessee Department of Public Health; or shall apply for a license for a "Boarding Home Facility," or a "Large Group Home Facility," to be submitted to the Tennessee Department of Mental Health and Mental Retardation, as the case may be. Prior to operating either of the above, a Special Exceptions Permit from the City Council or the Board of Zoning Appeals for operation within the proper zone and the State License must be obtained.

(4) Any application to the Board for a special permit to operate any family residence on a commercial basis or for a residential facility which is not exempt under Tenn. Code Ann. 13-24-101 et seq. shall be accompanied by a site plan, drawn to scale, showing the following information:

(i) Size and location, and use of all buildings and structures.

(ii) Parking and loading facilities.

(iii) Points of ingress and egress.

(iv) Surrounding land uses; and

(v) A list showing:

a. Number of residents.

b. Number of employees, visitors and/or volunteers who may reasonably be expected at any one (1) time.

c. State licensure department (if applicable).

d. Type of license and nature of operation; and

e. A statement of whether the facility will be operated on a commercial basis and a copy of any documentation of the nonprofit status of the entity which will operate the residential home in compliance with Federal and Tennessee state law as a nonprofit entity.

(5) The Board shall review documentation unless Tennessee law takes precedence over any provision in the zoning ordinances to the contrary that such uses are appropriate to the zone in which they are proposed to be located. The Board will determine that the proposed use will not conflict with the developed character of the area; that the City Traffic Engineer has approved all plans for the points of ingress and egress, parking and loading facilities; and that the proposed use will not be in conflict with the adopted plans of the community after it determines that the facility is properly allowed with the residential zone pursuant to Tennessee and Federal law.

(6) Prior to operating any of the above uses, both the Special Permit and the State License (where applicable) must be obtained.

(g) Modifications to Approved Special Exception

Any modifications to the conditions of approval for a previously approved special exception must be resubmitted as a new special exception application. Any modifications that meet Code standards are permitted, subject to the regulations of this Code.

(h) Expiration

A special exception approval expires if any one of the following conditions occurs and no request for an extension of the special exception validity is granted or pending. The original approving body may grant an extension for a period of validity, so long as the applicant applies in writing for an extension of time at any time prior to the date of expiration. No public hearing is required for approval of such extension of time.

(1) When an approved special exception is changed to another use.

(2) For special exceptions approved in conjunction with new construction or additions or enlargements to an existing structure, the special exception approval expires within two years of the date of approval if a building permit has not been issued.

(3) For special exceptions approved in conjunction with an existing structure or on lot where no structure is planned, the special exception approval expires within two years of the date of approval if the licenses or permits required for the operation or maintenance of the use have not been obtained.

(i) Rehear of Special Exceptions Applications

The Board shall not rehear any case for a Special Exceptions on the same site or parcel of property within a minimum period of one (1) year of its previous hearing date.
(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24; Ord. No. 14169, § 1, 11-19-24; Ord. No. 14181, § 1, 12-17-24; Ord. No. 14202, § 1, 2-18-25)

Sec. 38-76. Variance

(a) Purpose.

The purpose of the variance process is to provide a narrowly circumscribed means by which relief may be granted from unforeseen applications of the zoning regulations of this Code that create practical difficulties or particular hardships. Certain types of modifications are eligible for approval under the administrative modification process in Section 38-77. In the Form-Based Code Zones, certain variances are approved by the Form-Based Code Committee in Article VI.

(b) Initiation

A property owner in the City may file an application for a variance. A property owner may only propose a variance for property under their control.

(c) Authority

(1) The Board of Appeals will take formal action on variances on zoning regulations including variances to overlay zoning standards.

(2) Certain types of modifications are eligible for approval under the administrative modification process in Section 38-77.

(3) In the Form-Based Code Zones, certain variances are approved by the Form-Based Code Committee (Article VI).

(d) Procedure

(1) All Applications must be filed per Section 38-71. Once it is determined that the application is complete, staff will schedule the application for consideration by the Board of Appeals. Notice is required per Section 38-72.

(2) Upon receipt of a complete application, the Board of Appeals will consider the variance at a public hearing.

(3) The Board of Appeals must evaluate the application based upon the evidence presented at the public hearing, pursuant to the approval standards of this section. The Board of Appeals will approve, approve with conditions, or deny the variance.

(4) The Board of Appeals may impose such conditions and restrictions upon the variance as may be deemed necessary for the protection of the public health, safety, and welfare.

(5) The Board of Appeals may grant a variance that is less than that requested when it has been decided that the applicant is entitled to some relief of the hardship, but not to the entire relief requested in the variance application.

(6) The Board of Appeals shall not rehear any case upon the same grounds within a minimum period of one (1) year of its previous hearing date.

(e) Criteria

The Board of Zoning Appeals may authorize a variance from the strict application of this Code to relieve such difficulties or hardship only in accordance with the following criteria:

(1) That by reason of exceptional narrowness, shallowness, or shape of a specific piece of property at the time of enactment of the zoning regulations, or by reason of exceptional topographic conditions or other extraordinary and exceptional situation or condition of such piece of property, the strict application of this Code would result in peculiar and practical difficulties or undue hardships upon the owner to develop their property.

(2) That the relief of the peculiar hardships, practical difficulties, or undue hardships granted by the Board would not establish substantial detriment to the public good or substantially impair the intent and purpose of this Code.

(3) That the peculiar hardship, practical difficulties, or undue hardships apply to the particular land or building regardless of the owner.

(4) That the peculiar hardship, practical difficulties, or undue hardship have not been created by the property owner.

(5) That the peculiar hardship, practical difficulties, or undue hardships relate only to the premises for the benefit of which the variance is sought and would not be generally applicable to other premises in the City or the personal conditions of the applicant.

(f) Limitations

(1) No variance may allow a use that is prohibited in the applicable base or overlay zone.

(2) The variance granted is the minimum adjustment necessary for the reasonable use of the land.

(3) The Board cannot vary conditions imposed by the City Council on a zoning change that has been adopted by the City Council by ordinance. Any condition imposed by the City Council can only be lifted or amended by the City Council as a legislative act by that body.

(g) Expiration of Variance

An approved variance will expire two years from the date of approval unless a building permit or land disturbance permit is obtained or applied for within such period. The Board of Appeals may grant an extension for a period of validity so long as the applicant applies in writing for an extension of time at any time prior to the date of expiration. No public hearing is required for approval of such extension of time.

(h) Appeal of Boards Decision.

The action of the Board of Appeals shall be final, provided an appeal from the action of the Board may be taken to Hamilton County Chancery Court by any aggrieved, affected party.

(i) Appeal of Boards Decision.

The action of the Board of Appeals shall be final on Special Exceptions, provided an appeal from the action of the Board may be taken to Hamilton County Chancery Court by any aggrieved, affected party. (Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24; Ord. No. 14169, § 1, 11-19-24; Ord. No. 14181, § 1, 12-17-24; Ord. No. 14202, § 1, 2-18-25)

Sec. 38-77. Administrative Modifications

(a) Purpose

The purpose of the administrative modification is to provide relief from carrying out a requirement of this Code that may cause a minor practical difficulty.

(b) Initiation

A property owner in the City may file an application for an administrative modification. A property owner may only propose an administrative modification for property under their control.

(c) Authority

The Director of the Land Development Office is authorized to grant certain administrative modifications, as defined below. Only those items listed below are eligible for an administrative modification; all other requests for relief are considered variances (Section 16.4).

(d) Eligible Administrative Modifications

Eligible administrative modifications are defined below:

(1) A 10% or less modification to any dimensional standard in this Code.

(2) A 10% or less modification to any design standard in this Code that is established by a set dimension (number).

(3) A reduction of required off-street parking spaces by no more than 10% of that required or two spaces, whichever is greater.

(4) A reduction in required bicycle parking of up to 10%.

(e) Procedure

(1) All applications must be filled per Section 38-71. Application.

(2) The Director of the Land Development Office may decide that an application for an administrative modification, even if it meets the thresholds established in this section, is by its nature a variance to be decided by the Board of Appeals and will resubmit the application to the Board of Appeals as a variance. No additional fees are required.

(3) The Director of the Land Development Office must review and evaluate the complete administrative modification application, pursuant to the standards of this section.

(4) The Director of the Land Development Office must render a decision within 30 days of the date listed on the required notice and either approve, approve with conditions, or deny the application. If the Director of the Land Development Office fails to act within 30 days, the administrative modification will be resubmitted to the Board of Appeals as a variance. No additional fees are required.

(5) The Director of the Land Development Office may impose such conditions and restrictions upon the administrative modification as deemed necessary for the protection of the public health, safety, and welfare.

(6) The Director of the Land Development Office may grant an administrative modification that is less than that requested when it has been decided that the applicant is entitled to some relief of the hardship, but not to the entire relief requested in the application.

(7) If the Administrative Modification is denied, it may be resubmitted as a variance (Section 38-76). If resubmitted as a variance, payment of associated fees is required.

(f) Evaluation Criteria

The decision of the Director of the Land Development Office must make findings to support each of the following criteria:

(1) That by reason of exceptional narrowness, shallowness, or shape of a specific piece of property at the time of enactment of the zoning regulations, or by reason of exceptional topographic conditions or other extraordinary and exceptional situation or condition of such piece of property, the strict application of this Code would result in peculiar and practical difficulties or undue hardships upon the owner to develop their property.

(2) That the relief of the peculiar hardships, practical difficulties, or undue hardships granted by the Board would not establish substantial detriment to the public good or substantially impair the intent and purpose of this Code.

(3) That the peculiar hardship, practical difficulties, or undue hardships apply to the particular land or building regardless of the owner.

(4) That the peculiar hardship, practical difficulties, or undue hardship have not been created by the property owner.

(5) That the peculiar hardship, practical difficulties, or undue hardships relate only to the premises for the benefit of which the variance is sought and would not be generally applicable to other premises in the City or the personal conditions of the applicant.

(g) Expiration

An approved administrative modification will expire two years from the date of approval unless a building permit is obtained. The Director of the Land Development Office may grant an extension for a period of validity, so long as the applicant applies in writing for an extension of time at any time prior to the date of expiration.

(h) Limitations

(1) If an applicant has been denied a variance by the Board of Appeals (Section 16.3), such cannot be resubmitted as an administrative modification for the same dimensional standard or reduction in parking spaces or bicycle spaces for a period of one year.

(2) Such request for an administrative modification for the same dimensional standard or reduction in parking spaces or bicycle spaces may be resubmitted as an administrative modification one year later if it qualifies as such per item D above.

(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24; Ord. No. 14169, § 1, 11-19-24; Ord. No. 14181, § 1, 12-17-24)

Sec. 38-78. Plan Review for Permits

The Director of the Land Development Office will review plans for compliance with zoning and any conditions imposed. The Director of the Land Development Office may consult with other departments and agencies as part of this review.

(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24)

Sec. 38-79. Planned Unit Development

(a) Purpose

Planned unit developments (PUD) are intended to encourage and allow more creative and flexible development of land than is possible under zone regulations and should only be applied to further those

applications that provide compensating amenities to the City. The underlying zone dimensional, design, and use regulations apply to a PUD unless specifically modified through the approval process. Through the flexibility of the planned unit development technique, a PUD is intended to:

(1) Encourage flexibility in the development of land and in the design of structures.

(2) Encourage a creative approach to the use of land that results in better development and design than might otherwise be accomplished under the strict application of other sections of this Code.

(3) Allow for the design of developments that are architecturally and environmentally innovative, and that achieve better utilization of land than is possible through strict application of standard zoning controls.

(4) Combine and coordinate architectural styles, building forms, and structural/visual relationships within an environment that allows mixing of different uses in an innovative and functionally efficient manner.

(5) Provide for the efficient use of land to facilitate a more effective arrangement of land uses, structures, circulation patterns, and utilities.

(6) Encourage land development that, to the greatest extent possible, preserves natural vegetation, respects natural topographic and geologic conditions, and refrains from adversely affective flooding, soil, drainage, and other natural ecologic conditions.

(7) Facilitate the implementation of adopted City land use policies, particularly with respect to areas planned for potential redevelopment.

(b) Initiation

The entire property proposed for the planned unit development must be in single ownership or under unified control. All owners of the property must be included as joint applicants on all applications and all approvals will bind all owners.

(c) Authorization

(1) A planned unit development is authorized in all zones with the exception of the Form-Based Code Zones. Planned unit development is not permitted in the Form-Based Code Zones.

(2) A planned unit development must be granted in accordance with the procedures and standards of this section. Unless specifically approved as part of the planned unit development approval, the requirements of the underlying zone apply.

(3) Planned unit development approval is separate from subdivision approval. PUD approval may be granted first, whereby subdivision approval would be granted subsequently in compliance with the approved lot layout design.

(d) Exceptions From Zone Regulations

(1) A planned unit development is subject to the underlying zone dimensional, design, and use regulations unless an exception is specifically granted. The Planning Commission may recommend, and the City Council may grant, exceptions to the zone dimensional, design, and use regulations where a planned unit development is located. A planned unit development may allow uses that are currently not allowed in the zone if such uses enhance the overall concept of the PUD and meet the standards of item 2 below.

(2) Exceptions from zone regulations may be granted for planned unit developments if the exceptions:

(i) Enhance the overall merit of the planned unit development.

(ii) Promote the objectives of both the City and the development.

(iii) Enhance the quality of the design of the structures and the site plan.

(iv) Will not cause excessive adverse impact on neighboring properties.

(v) Are compatible with adopted City land use policies and area plans.

(3) The underlying zone dimensional, design, and use regulations apply, unless an exception is granted as part of the planned unit development approval and meets the standards of item 2 above. To be granted such exceptions, the applicant must demonstrate enhanced design and/or amenities. In no case may an exception to zone regulations be granted unless the applicant demonstrates such enhanced design. The enhanced design and/or amenities must be indicated on the development plan. Design characteristics and amenities to be considered in this determination may include, but are not limited to, the following:

(i) Community gathering spaces and amenities including plazas, public art, formal gardens, places to congregate, and pedestrian and transit facilities.

(ii) Improvement of existing on-site and adjacent, abutting off-site infrastructure.

(iii) Use of sustainable design and energy efficient design concepts, and new building technologies.

(iv) Preservation of existing environmental features.

(v) Preservation of historic features and adaptive reuse of existing buildings.

(vi) New open space and recreational amenities such as recreational open space, including parks and playgrounds, natural water features and conservation areas, jogging trails and fitness courses, dog parks, skate parks, and similar recreational features.

(vii) Provision of bike share facilities.

(viii) Workforce/affordable housing set-asides.

(ix) Senior housing set-asides.

(e) Procedure

The approval of a planned unit development includes a pre-application consultation, optional concept plan review, and development plan approval.

(1) 1. Pre-Application Consultation.

(i) a. Prior to formal submittal of an application, a pre-application conference with the Regional Planning Agency is required.

(ii) b. At a pre-application consultation, the applicant must provide information as to the location of the proposed planned unit development, the proposed uses, proposed improvements, including the enhanced design and amenities, anticipated exceptions to this Code, and any other information necessary to explain the planned unit development.

(iii) c. The purpose of such pre-application consultation is to make advice and assistance available to the applicant before preparation of the concept plan or development plan, so that the applicant may determine whether the proposed planned unit development is in compliance with the provisions of this Code and other applicable regulations, and whether the proposed planned unit development aligns with the adopted land use policies of the City.

(iv) d. The pre-application conference does not require formal application, fee, or filing of a planned unit development application. Any opinions or advice provided by the Regional Planning Agency are in no way binding with respect to any official action that may be taken on the subsequent formal application. No decision will be made on the application.

(2) 2. Optional Concept Plan

Before submitting a formal application for a planned unit development, the applicant may present a concept plan before the Planning Commission, at their option, for the purpose of obtaining information and guidance prior to formal application.

(i) a. The concept plan will be presented at a public meeting and no notice is required. At minimum, the concept plan must consist of the following:

a. i. A map (or maps) in general form containing the proposed land uses, the natural features of the development site, the character and approximate location of all roadways and access drives proposed, the location of all adjacent public streets, public utilities, and schematic drawings showing the size, character, and disposition of buildings on the site.

b. ii. A written statement containing a general explanation of the planned unit development, including a statement of the present ownership of all the land within said development and the expected schedule of construction.

(ii) b. The Planning Commission will review the concept plan and provide such information and guidance it deems appropriate. Any opinions or advice provided by the Planning Commission is in no way binding with respect to any official action the Planning Commission or City Council may take on the subsequent formal application. The review of the concept plan is not a public hearing. No decision will be made on the application.

(3) Development Plan

(i) Filing and Notice

All Applications must be filed per Section 38-71. Once it is determined that the application is complete, staff will schedule the application for consideration by the Planning Commission. Notice is required per Section 38-72.

(ii) Action by Planning Commission

a. Upon receipt of a complete application, the Planning Commission will consider the development plan at a public meeting.

b. The Planning Commission must evaluate the application based upon the evidence presented, pursuant to the approval standards of this section.

c. The Planning Commission will recommend approval, approval with conditions, or denial of the application.

d. After the close of the meeting, the Planning Commission will forward its recommendation to the City Council.

(iii) Action by City Council

a. The City Council will hold a public hearing on the development plan following receipt of the Planning Commission recommendation.

b. Following the close of the public hearing, the City Council will take action in the form of approval, approval with conditions, or denial the planned unit development.

(iv) Conditions

The Planning Commission may recommend, and the City Council may impose such conditions and restrictions upon the establishment, location, construction, maintenance, and operation of the planned unit development as deemed necessary for the protection of the public health, safety, and welfare. Such conditions and restrictions must be reflected in the revised development plan.

(v) Evaluation Criteria

The recommendation of the Planning Commission and decision of the City Council may consider the following criteria:

a. The proposed planned unit development uses and development form is compatible with other property in the vicinity.

b. The proposed planned unit development will not impede the normal and orderly development and improvement of surrounding property.

c. There is provision for adequate utilities and infrastructure, drainage, off-street parking and loading, pedestrian access, and all other necessary facilities.

d. There is provision for adequate vehicular ingress and egress designed to minimize traffic congestion upon public streets. The Planning Commission and/or City Council may require a traffic study to provide evidence that the circulation system is adequate.

e. The location and arrangement of structures, parking areas, walks, landscape, lighting, and other site design elements, are compatible with the surrounding neighborhood and adjacent land uses.

f. The consistency of the proposed amendment with the Comprehensive Plan and any adopted land use policies.

(f) Effect of Approval

After development plan approval, the development plan will constitute the regulations applicable to the subject property. The planned unit development must be developed in accordance with the development plan, rather than the zone regulations otherwise applicable to the property. Violation of any condition is a violation of this Code and constitutes grounds for revocation of all approvals granted for the planned unit development.

(g) Vesting

Planned unit developments are vested in accordance with Article XVI.

(h) Modifications to Approved Development Plans

No adjustments may be made to the approved development plan, except upon application to the City in accordance with the following. An application for a change to an approved development plan must be submitted to the Regional Planning Agency. Applications must include a written description of the proposed change, including the reason for such change, and a notation of the location on the appropriate part of the approved development plan.

(1) Administrative Modifications

The Director of the Land Development Office may approve the following administrative modifications to an approved final plan when it is determined by the Director of the Land Development Office that such changes are in substantial conformance with the approved development plan. Any changes considered a minor or major modification, as defined in this section, cannot be approved as an administrative modification. The Director of the Land Development Office may choose to classify a modification that meets the criteria of this section as a minor modification to be approved by the Planning Commission. No notice is required for an administrative modification.

(i) Changes required during construction when related to final engineering issues such as topography, drainage, underground utilities, structural safety, or vehicular circulation, to be confirmed by the City Engineer.

(ii) Changes in building location of no more than ten feet that continue to meet the requirements of this Code and any conditions of the final plan approval.

(iii) Changes in the location of vehicle access points, rking areas of up to ten feet that continue to meet the requirements of this Code and any conditions of the final plan approval.

(iv) Changes in building design, including building materials, that continue to meet the requirements of this Code and any conditions of the final plan approval.

(v) Modification of existing accessory structures or the addition of new accessory structures when in conformance with the requirements of this Code.

(vi) Modifications to the approved landscape plan that do not result in a reduction of the total amount of plant material required and conform with all landscape requirements of this Code.

(vii) Modification of existing signs or the addition of new signs when in conformance with sign regulations.

(2) Minor Modifications

The Planning Commission may approve the following minor modifications to an approved development plan when it is determined by the Planning Commission that such changes are in general conformance with the approved final plan. Any changes considered a major modification, as defined in this section, cannot be approved as a minor modification. The Planning Commission, at its sole discretion, may choose to classify a modification that meets the criteria of this section as a major modification to be approved by the City Council. No notice is required for a minor modification. When calculating percentages, all fractions are rounded up to the nearest whole number.

(i) An increase in building height of up to 10%.

(ii) An increase in building coverage up to 10%.

(iii) A change of in the location of vehicle access points, parking areas over ten up to 20 feet.

(iv) An increase or decrease in the number of parking spaces of up to 10 parking spaces.

(v) A change to the landscape plan that results in a reduction of plant material but does not violate the landscape requirements of this Code.

(vi) Reductions and/or alterations in the approved enhanced design and/or amenities to be provided.

(3) Major Modifications

(i) The City Council may approve any other changes to an approved development plan that do not qualify as an administrative or minor modification. In addition, all of the following are considered major modifications:

a. Changes to any conditions imposed as part of the approved development plan.

b. Any change to the boundary of the planned unit development. Significant changes to the boundary may constitute a new planned unit development per item c below.

c. Any change to the uses within the planned unit development. Significant changes to the uses within the planned unit development may constitute a new planned unit development per item c below.

(ii) All major modifications to the development plan must be approved by the City Council. The City Council may only approve changes to the development plan if they find such changes are in general conformance with the approved development plan, necessary for the continued successful functioning of the planned unit development, respond to changes in conditions that have occurred since the development plan was approved, and/or respond to changes in adopted City land use policies.

(iii) Major Modifications constitute a new planned unit development and a new application for a PUD must be submitted following the procedure in this Section.

(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24; Ord. No. 14169, § 1, 11-19-24; Ord. No. 14181, § 1, 12-17-24)

Sec. 38-80. Zoning Interpretation

(a) Purpose

The interpretation authority is intended to recognize that the provisions of this Code, though detailed and extensive, cannot, as a practical matter, address every specific zoning issue. However, this zoning interpretation authority is not intended to add or change the essential content of the Code.

(b) Initiation

The City Council, Planning Commission, or a property owner in the City may initiate a zoning interpretation application. All interpretation requests must be for the purpose of furthering actual development.

(c) Authority

The Director of the Land Development Office will review and make final decisions on written requests for zoning interpretations.

(d) Procedure

(1) All applications for interpretations must be filed per Section 15.1.

(2) The Director of the Land Development Office must review a written request for an interpretation and render the interpretation in writing within 30 days of receipt of a complete application.

(3) The Director of the Land Development Office may request additional information prior to rendering an interpretation. Until such additional material is received, the 30 day period is temporarily suspended until such material is received.

(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24)

Sec. 38-81. Temporary Use Permit

(a) Purpose

A temporary use permit allows for the short-term use and/or placement of structures on a lot. The temporary use permit regulates temporary uses that occur entirely on and within a lot. Temporary uses located within the public right-of-way are regulated separately by the City Code.

(b) Initiation

A property owner in the City or a person expressly authorized in writing by the property owner may initiate a temporary use permit application.

(c) Authority

The Director of the Land Development Office will review and make final decisions on temporary use permit applications.

(d) Procedure

(1) All applications for temporary use permit must be filed with the Land Development Office.

(2) The Director of the Land Development Office must render a decision on the temporary use permit within 30 days of the date of receipt of a complete application. The Director of the Land Development Office must review and evaluate the application, pursuant to the standards of this section, and approve, approve with conditions, or deny the application.

(e) Approval Standards

All temporary uses must comply with the requirements of this Code, including the temporary use standards of Article X, and the following standards:

(1) Unless otherwise allowed by this Code, the temporary use or structure complies with the dimensional requirements of the zone in which it is located.

(2) The temporary use does not adversely impact the public health, safety, and welfare.

(3) The temporary use is operated in accordance with any restrictions and conditions as the Police Department, Fire Department, and/or other City officials may require.

(4) The temporary use does not conflict with another previously authorized temporary use.

(5) The temporary use provides adequate parking if needed. If located on a lot with an operational principal use, does not impact the parking and site circulation of the principal use.

(f) Expiration

The temporary use permit is valid for the time period granted as part of the approval.
(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24)

Sec. 38-82. Zoning Appeals

(a) Purpose

This appeals process is intended to provide appropriate checks and balances on the administrative authority of the Director of the Land Development Office.

(b) Initiation

(1) A property owner in the City that is directly affected by a determination of the Director of the Land Development Office may file an appeal of the Director of the Land Development Office decision on an administrative modification, zoning interpretation, temporary use permit, or other administrative zoning decision related to this Code.

(2) A decision of the Director of the Land Development Office may only be appealed if an application is filed within 30 days of the date the decision is made.

(c) Authority

The Board of Appeals will take formal action on zoning appeal applications.

(d) Procedure

All applications must be filed with the Land Development Office. Once it is determined that the application is complete, staff will schedule the application for consideration by the Board of Appeals.

(1) Upon receipt of a complete application, the Board of Appeals will consider the appeal at a public hearing.

(2) The Board of Appeals must evaluate the application based upon the evidence presented at the public hearing.

(3) Following the close of the public hearing, the Board of Appeals must either confirm or overturn the Director of the Land Development Office decision.

(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24)

ARTICLE XVII. SHORT-TERM VACATION RENTALS

Sec. 38-83. Intent

(a) New non-owner occupied/absentee properties are only allowed throughout the City in the mixed-use and commercial zones that allow a hotel.

(b) They are also allowed within any parcel of at least 20 acres or more with common ownership that allows for residential uses.

(c) These standards are intended to provide appropriate opportunities for the development of short-term vacation rentals in the City.

(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24)

Sec. 38-84. Permissions

Unless otherwise identified, owner-occupied, or homestay, are allowed in all zones that residential uses are allowed within the Short-Term Vacation Rental Overlay District Map and in the specified commercial zones listed above in Section 17.1.A.

(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24)

Sec. 38-85. Definitions

The following terms used in this Article are defined as follows:

Code Compliance Verification Form. A document executed by a short-term vacation owner certifying that the short-term vacation rental unit complies with applicable zoning, building, health, and life safety code provisions. No person may allow occupancy or possession of any short-term vacation rental unit if the premises are in violation of any applicable laws including, but not limited to, zoning, building, health, or life safety code provisions.

Short-Term Vacation Rental Certificate. A certificate issued annually by the City of Chattanooga allowing a person or entity to operate a short-term vacation rental.

Short-Term Vacation Rental. Any or other structure containing no more than five bedrooms within permissible zones which is used, advertised, or held out to the public in part or its entirety to be a place where sleeping accommodations are supplied for pay and such accommodations are provided on a daily or weekly basis for not more than 30 days for overnight stay. For the purposes of this definition, any short-term vacation rental on a site located in the RN-1-7.5, RN-1-6, RN-1-5, RN-2 Zones, must contain no more than five bedrooms and excludes hotels, rooming houses, bed and breakfast, and boarding houses, or other licensed multi-unit dwellings for rent or lease, as defined in Section 21-67 and/or Section 11-186 and/or Section 38-45. STVRs may not exceed twenty-five (25%) percent of the total units in Multi-Unit Dwellings or Multi-Unit Developments.

Short-term vacation rental district: That certain area of the City of Chattanooga as determined by the Chattanooga City Council as the Short-Term Vacation Rental district and incorporated herein as Exhibit A to this Section as amended from time to time.

Editor's note—A copy of the Short-Term Vacation Rental Overlay District Map, referenced above as Exhibit A as amended from time to time, is available for inspection in the offices of the City Council Clerk. The map was amended to add an additional area within City Council District 1 effective June 11, 2024, and was amended to add an additional area with City Council District 5 effective October 21, 2025.

Short-Term Vacation Rental Occupants. Guests, tourists, lessees, vacationers, or any other person who, in exchange for compensation, occupy a short-term vacation rental dwelling unit for lodging for a period of time not to exceed 30 consecutive days.

Short-Term Vacation Rental Occupancy. There are two designations regarding the occupancy status of a short-term vacation rental:

(a) Homestay. A short-term vacation rental property which is the primary residence of the applicant. Primary is defined as the residence of the applicant at least 183 days a year.

(b) Absentee. A short-term vacation rental property which is not the primary residence of the applicant.
(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24; Ord. No. 14117, § 1, 6-11-24; Ord. No. 14238, § 1, 5-20-25; Ord. No. 14292, § 1, 10-21-25)

Sec. 38-86. Location and Number

(a) A homestay short-term vacation rental may be located in any residential zone within the overlay district set forth in this section and any mixed-use and commercial zone or Form-Based Code Zones that allows any single-unit detached or accessory dwelling units that permits two-unit or multi-unit living.

(b) A short-term vacation rental is not permitted to operate in any capacity on property or within structures that are part of an Affordable Housing PILOT Program.

(c) A short-term vacation rental may include a primary dwelling unit or an accessory dwelling unit but not both structures on one lot.

(d) An absentee short-term vacation rental is only allowed throughout the City in the mixed-use and commercial zones that allow a hotel. If a zoning condition limits the allowable permitted uses of a mixed-use and commercial zone, then an absentee short-term vacation rental is only allowed if a hotel or motel is an allowable use under the zoning conditions. Building Code must be met as required through the permitting process.
(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24)

Sec. 38-87. Certificate Required

(a) No person or entity may operate a short-term vacation rental unless a short-term vacation rental certificate has been first obtained from the City of Chattanooga Development Review and Permitting Division. To obtain a short-term vacation rental certificate, an eligible applicant must submit an application and a Code compliance verification form in compliance with Section 17.6. If approved, a legible copy of the short-term vacation rental certificate must be posted within the unit. The City of Chattanooga Development Review and Permitting Division will establish the information to be included upon the short-term vacation rental certificate.

(b) Short-term vacation rentals must be properly maintained and regularly inspected by the owner to ensure continued compliance with applicable zoning, building, health, and life safety local and state laws.
(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24)

Sec. 38-88. Minimum Standards

(a) A short-term vacation rental cannot include uninhabitable structures such as garages, barns, or sheds.

(b) Any dwelling unit for short-term vacation rentals must have functioning smoke detectors as determined by the Fire Marshal and other life safety equipment as required by local, state, and federal law.

(c) The dwelling unit must meet all applicable laws related to zoning, building, health, or life safety.

(d) No on-site signage is permitted except for those vacation rentals that are at least five acres and have a dwelling unit that is not visible from the public right-of-way, can have directional signs placed on the parcel that are at least 50 feet from the public right-of-way. No off-site signage except for any designated city required signage and signage for designated parking spaces to be used by occupants of the short-term vacation rental. Such signs cannot be larger than three square feet.

(e) There must be no more than five bedrooms made available for rental in one dwelling unit. There must be no more than five sleeping rooms made available for a site located in the RN-1-6, RN-1-5, or RN-2 Zones.

(f) The maximum occupancy is determined by the total of:

(1) Two persons per bedroom up to 210 square feet plus an additional two persons.

(2) For bedrooms over 210 square feet the occupant load will be determined by the area of the room divided by 70 square feet plus an additional two persons.

(3) The occupancy maximum must be conspicuously posted within the short-term vacation rental unit.

(g) The short-term vacation rental owner cannot receive any compensation or remuneration to permit occupancy of a short-term vacation rental property for a period of less than 24 hours.

(h) The short-term vacation rental certificate holder is responsible for collecting and remitting all applicable room, occupancy, and sales taxes required by state law and the City Code of the City of Chattanooga.

(i) Adequate on-site parking must be provided, as determined by the City after considering proposed number of guests, frequency of operations, and availability of on-street parking. As a general rule, parking is not allowed on any vegetated area of the premises on which the short-term vacation rental is located.

(j) All occupants must abide by all applicable noise restrictions and all applicable waste management provisions of the City Code of the City of Chattanooga. All occupants must comply with City Code Section 25-69.

(k) The name and telephone number of the owner of the short-term vacation rental or the short-term vacation rental agent must be conspicuously posted within the short-term vacation rental.

(l) The premises on which the short-term vacation rental has not been found to be in violation of any City Code provision by City Court within the six months prior to submitting an application for a short-term vacation rental certificate.

(m) Ownership information and contact information for the short-term vacation rental agent must be posted on a public website or as determined appropriate by the City of Chattanooga.
(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24)

Sec. 38-89. Certificate Application; Action; Approval or Denial; Appeals

(a) Certificate Application

Any person or entity wishing to operate a short-term vacation rental within the limits of the City is required to submit, under oath, a short-term vacation rental certificate application to the Development Review and Permitting Division for review. The City of Chattanooga Development Review and Permitting Division will establish the information present on the short-term vacation rental certificate application and the Code compliance verification form as well as what information is required for the completion of said application.

(b) Application Fee

(1) The non-refundable application fee for all short-term vacation rentals are as follows in addition to any applicable transaction related fees:

(i) Absentee STVRs

a. Initial application fee: $500.00

b. Renewal fee: $500.00

(ii) b. Homestay STVRs

a. Initial application fee: $250.00

b. Renewal fee: $250.00

(2) This application fee must be paid in full before any application is reviewed by the Development Review and Permitting Division.

(c) Application Review

(1) The City of Chattanooga Development Review and Permitting Division will review all applications for Homestay and Absentee short-term vacation rentals and provide comment where necessary. If additional materials are found to be required, a designated representative of the City may ask for them at any time. Upon completion of application requirements as set forth in this section, and upon tendering of the requisite application fee, the certificate will be issued.

(2) Homestay dwellings applying for a short-term vacation rental certificate:

(i) For homestay dwellings, the applicant/owner must be a natural person or a business entity (i.e., a Tennessee LLC, corporation, partnership etc.) whose business entity applicant lives on premises and can establish proof of ownership annually.

(ii) Residency of all applicants must be proved annually during renewal with driver's license number, business records, or other documentation acceptable to the Development Review and Permitting Division.

(3) Absentee dwellings applying for a short-term vacation rental certificate:

(i) For absentee dwellings, the Development Review and Permitting Division must notify the Fire Marshal and a City Building Inspector and request that inspections be conducted to ensure that the property and any associated structures on the property are in compliance with state and local laws.

(ii) When the application for an absentee short-term vacation rental meets all of the requirements set forth in this article, and passes all inspections required pursuant to this section, the Development Review and Permitting Division will issue to the applicant, a short-term vacation rental certificate.

(iii) The Development Review and Permitting Division does not send notification letters of applications for short-term vacation rentals nor is the applicant required to post a notification sign.

(4) Homestay and absentee for a short-term vacation rental certificate:

(i) If the Development Review and Permitting Division denies an application for a homestay or an absentee short-term vacation rental certificate, the applicant has the right to appeal the denial from the Development Review and Permitting Division to the Board of Zoning Appeals. The applicant also has the right to appeal a denial from the Board of Zoning Appeals to Chancery Court. Any appeal must be made within 60 days of the date of denial or revocation of any permit.

(ii) The applicant must be present at the appeal hearing before the Board of Zoning Appeals, regardless of whether the appeal is initiated by the Development Review and Permitting Division or the applicant. Any applicant not present at the appeal hearing results in an automatic denial of the short-term vacation rental certificate by the Board of Zoning Appeals.

(iii) If the certificate is still denied after the appeal hearing, the applicant must wait 12 months before reapplying for a short-term vacation rental certificate.

(iv) If a property owner or applicant requests to be rezoned to any mixed-use and commercial zone that allows absentee short-term vacation rentals, and if such request is granted, the owner or applicant may not apply for an absentee short-term vacation rental certificate within 18 months of the effective date of the lifting or amending of condition(s).

(d) Application Lifetime

An application is valid for a period of 60 days from the date of application submission. After 60 days, an application that has not received a certificate may be discarded.
(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24)

Sec. 38-90. Certificate Approval, Transferability, Conditions, and Revocation

(a) Certificate Approval

The Certificate must be issued for the specific site location and/or address of the proposed short-term vacation rental applicant provided in the application. The Development Review and Permitting Division reserves the right to condition the approval to a certain number of rooms, operating days/hours, signage, or other restrictions as may be deemed necessary to address impacts to bordering properties or to ensure safe operation of the property. Said conditions will be based on the recommendation of the Development Review and Permitting Division.

(b) Certificate Number

Upon issuance of a short-term vacation rental certificate, the Development Review and Permitting Division will also issue a certificate number. The certificate number must be displayed on any materials or platforms used to advertise the short-term vacation rental.

(c) Grant or Denial of Application

Review of an application will be conducted in accordance with due process principles and will be granted unless the applicant fails to meet the conditions and requirements of this section, or otherwise fails to demonstrate the ability to comply with local, state, or federal law. Any false statements or information provided in the application are grounds for denial of an application for a short-term vacation rental, revocation or suspension of an existing short-term vacation rental certificate, and/or imposition of penalties, including denial of future applications. After 60 days, an application that has not received a certificate may be discarded, unless delay has been the result of delay of action by the Development Review and Permitting Division or other City department as determined by the Director of the Development Review and Permitting Division.

(d) Transferability

The certificate is non-transferable to another site, property, or location. Any change of ownership for the short-term vacation rental unit is allowed as long as the transferring owner or operator and the prior owners of the unit have not subject to revocation for at least one year prior to the transfer.

(e) Revocation

(1) The City reserves the right to revoke a granted short-term vacation rental certificate at any time upon notice to the owner and the short-term vacation rental certificate Agent and after a public hearing once the property has three documented violations of City Code or State Law as a direct result of the operation of the short-term vacation rental unit and no appeal rights of those violations remain. Such violations are evidenced by a finding of guilt or fault by court or an administrative officer or body designated by the City Council.

(2) A short-term vacation rental certificate which is revoked prevents its certificate holder from applying for a new certificate or short-term vacation rental on the same property or part thereof for a period of one year from the date of revocation. Prior to any revocation, the owner or the short-term vacation rental agent will be cited to the Administrative Hearing Officer, or a body designated by the City Council, for a hearing to establish proof of violations.

(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24)

Sec. 38-91. Annual Renewal and Fee

(a) A short-term vacation rental certificate must be renewed annually by any applicant to legally operate as a short-term vacation rental within the City of Chattanooga.

(b) A certificate may only be renewed if:

(1) A renewal application is submitted to the Development Review and Permitting Division not less than 30 days prior to the certificate's expiration date;

(2) All information provided in and relating to the original short-term vacation rental application has not changed within the previous certification period; and

(3) The property requesting to be renewed as a short-term vacation rental has not had more than two documented violations of City Code or Tennessee law as a direct result of the operation of the short-term vacation rental within the previous certification period.

(c) If a property requesting to be renewed as a short-term vacation rental has had three or more documented violations of City Code or Tennessee law as a direct result of the operation of the short-term vacation rental during the previous certificate period, the Development Review and Permitting Division will deny the renewal certificate. Certificates denied on this basis may be appealed to the Administrative Hearing Officer.

(d) The Development Review and Permitting Division reserves the right to deny a renewal certificate, within its discretion, even if the property requesting to be renewed as a short-term vacation rental has had only one or two documented violations of City Code or Tennessee law. Certificates denied on this basis may be appealed to the Administrative Hearing Officer.

(e) There is a short-term vacation rental certificate renewal fee to be paid annually to the Development Review and Permitting Division upon renewal, in addition to any applicable transaction related fees and any taxes required by the State of Tennessee related to the operation of a short-term vacation rental. This fee must be remitted to the City Treasurer within 30 days after occupancy occurs within the rental units.

(f) A certification more than 30 days beyond its expiration date cannot be renewed.

(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24)

Sec. 38-92. Short-Term Vacation Rental Agent

(a) The owner of a short-term vacation rental must designate a short-term vacation rental agent on its application for a certificate for a short-term vacation rental. A property owner or resident of a unit owned by a corporation may serve as the short-term vacation rental agent. Alternatively, the owner may designate a person as his or her agent who is over age 18 and meets all local and state regulatory requirements to fulfill the duties of a short-term vacation rental agent.

(b) The duties of the short-term vacation rental agent are to:

(1) Be available 24 hours a day, seven days a week to respond to telephone calls from law enforcement, first responders, and/or City designees.

(2) Appear on the premises of any short-term vacation rental unit within two hours following notification from the City of issues related to the use or occupancy of the premises. This includes, but is not limited to, notification that occupants of the short-term vacation rental unit have created unreasonable noise or disturbances, engaged in disorderly conduct, or committed violations of the City Code or other applicable law pertaining to noise, disorderly conduct, overcrowding, consumption of alcohol, or use of illegal drugs. Failure of the agent to timely appear to two or more complaints regarding violations may be grounds for penalties as set forth in this section. This is not intended to impose a duty to act as a peace officer or otherwise require the agent to place themselves in a perilous situation.

(3) Receive and accept service of any notice of violation or notice of hearing related to the short-term vacation rental.

(4) Monitor the short-term vacation rental for compliance with laws.

(c) C. An owner may change their designation of a short-term vacation rental agent temporarily or permanently; however there must only be one such agent for a property at any given time. To change the designated agent, the owner must notify the Development Review and Permitting Division in writing of the new agent's identity, together with all information regarding such person as required by the applicable provisions of this section.
(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24)

Sec. 38-93. Invalidity of Part; Private Agreements and Covenants

Should any court of competent jurisdiction declare any section, clause, or provision of this Article to be unconstitutional, such decision affects only such section, clause, or provision so declared unconstitutional, and does not affect any other section, clause, or provision of this Article. Additionally, this in no way be used to supersede any privately created agreements or covenants by any homeowner associations or developers restricting certain uses.
(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24)

Sec. 38-94. Annual Review

The Land Development Office will conduct at a minimum an initial annual review of the provisions of this Article. The Board of Zoning Appeals, or its departmental designee, must conduct an annual review of the appeals before that body and suggest any text amendments that may be appropriate to the City Council.
(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24)

Sec. 38-95. Short-Term Vacation Rental Overlay District Map

A copy of the Short-Term Vacation Rental Overlay District Map is available for inspection in the offices of the City Council Clerk.
(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24)

ARTICLE XVIII. NONCONFORMITIES

Sec. 38-96. General Applicability

(a) Authority to Continue

Any use, structure, or lot that existed as a legal nonconformity as of the effective date of this Code, and any use, structure, or lot that has been made nonconforming as of the effective date of this Code, and any subsequent amendments, may continue subject to the provisions of this Article so long as it remains otherwise legal.

(b) Burden on Property Owner

The burden of establishing the legality of a nonconformity under the provisions of this Code is the responsibility of the property owner or operator of the nonconforming use, structure, or lot.

(c) Safety Regulations

All police power regulations enacted to promote public health, safety, and welfare, including, but not limited to, all building, fire, and health codes apply to nonconformities.

(d) Signs.

Article XVIII. Nonconformities does not apply to Signs. See City Code Sec. 3-13. Violations declared nuisances; preexisting violations for nonconforming applicability to signs.
(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24; Ord. No. 14169, § 1, 11-19-24; Ord. No. 14181, § 1, 12-17-24)

Sec. 38-97. Nonconforming Use

A nonconforming use is the use of a structure or land that at one time was an allowed use within a zone, but because of this Code, or a subsequent amendment to this Code, is no longer allowed. This includes nonconformities created by prior zoning codes or amendments to those codes.

(a) Expansion

A legally established nonconforming use of a structure or land may be expanded, extended, enlarged, or increased, provided there is reasonable space for such expansion or extension that avoids nuisances to adjoining landowners.

(b) Change of Use

A nonconforming use can only be changed to a use allowed within the zone where it is located. When a nonconforming use has been changed, in whole or in part, to an allowed use, the whole or part that conforms cannot be changed back to a use that is not allowed in the zone. A change of use occurs when an existing nonconforming use has been terminated and another use has commenced. Any change in use is deemed an abandonment of the previously existing nonconforming use.

(c) Discontinuation or Abandonment

(1) If a nonconforming nonresidential use is discontinued for a continuous period of one hundred (I 00) consecutive days, the nonconforming use terminates automatically. Any subsequent use of such land or structure must comply with all regulations of the zone in which the structure or land is located.

(2) If a nonconforming use of an on or off premise sign is discontinued for a continuous period of one hundred (100) days, the nonconforming use terminates automatically, regardless of the intent of the landowner to continue or discontinue such nonconforming use. The nonconforming use of an on or off premise sign continues with the owner of the sign structure rather than the landowner or any other tenant of the landowner.

(3) A nonconforming residential use is not subject to any discontinuance or abandonment.

(d) Damage or Destruction

(1) Nonresidential Uses

Nonresidential uses in operation and permitted to operate as nonconforming uses are allowed to destroy present facilities and reconstruct new facilities necessary to the conduct of such nonresidential use provided that no destruction and rebuilding occurs which changes the use classification of the land as classified under any zoning regulations or exceptions in effect.

(2) Residential Uses

For nonconforming residential uses, if any of the following occur, the subsequent residential use must comply with all regulations of the zone in which it is located.

(i) The structure containing the use is purposefully demolished by the owner.

(ii) The structure containing the use is converted to a dwelling type allowed in the zone.

(iii) The structure is damaged or destroyed through no fault of the property owner or tenant to the extent of 50% or more of its replacement value at the time. When such destruction is less than 50% of the replacement value at the time, a building permit must be obtained for such rebuilding, restoration, repair, or reconstruction within one year of the date of damage or destruction.

(e) Specific Standards for Nonconforming Manufactured Homes

Existing nonconforming manufactured homes in any zone may be replaced with a new manufactured home within one year of the date of the removal of the existing manufactured home. The replacement manufactured home may be a larger square footage so long as the manufactured home meets required setbacks. The manufactured home must meet all of the current regulations concerning plumbing, electrical, and other codes applicable to such units.
(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24; Ord. No. 14169, § 1, 11-19-24; Ord. No. 14181, § 1, 12-17-24; Ord. No. 14278, § 1, 9-16-25)

Sec. 38-98. Nonconforming Structure

A nonconforming structure is a principal or accessory structure that at one time conformed to applicable zoning regulations, but because of this Code, or a subsequent amendment to this Code, does not conform. This includes nonconformities created by prior zoning codes or amendments to those codes.

(a) Maintenance

Normal maintenance and repair may be performed on any nonconforming structure. No repairs or reconstruction are permitted that would create any new nonconformity or increase the degree of the previously existing nonconformity.

(b) Structural Alterations

No structural alterations are permitted on any nonconforming structure, except in the following situations:

(1) When the alteration is required by law or is necessary to restore the structure to a safe condition upon the order of any official charged with protecting public safety.

(2) When the alteration will eliminate the nonconformity.

(3) When the alteration will not create a new nonconformity or will not increase the degree of any existing nonconformity.

(c) Relocation

A nonconforming structure cannot be relocated, in whole or in part, to any other location on the same lot unless such relocation would make the structure conforming. A nonconforming structure may be relocated to another lot only if the structure conforms to all regulations of the zone where it is relocated. However, the movement of single-unit dwellings may be permitted by Section 10.1.G.

(d) Damage or Destruction

(1) If a nonconforming structure is destroyed or damaged, regardless of the percent of damage, it may be rebuilt to its original condition before such casualty or loss if a building permit is obtained within one year of the date of damage or destruction. No reconstruction is permitted that would create any new nonconformity or increase the degree of the previously existing nonconformity.

(2) In the event that the building permit is not obtained within one year, then the structure cannot be restored unless it conforms to all regulations of the zone in which it is located.

(3) As of the effective date of this Code, structures that do not comply with the following standards are deemed conforming in regard to these elements, and are subject to the following:

(i) Required Build-To Zone or Build-To Line

When a structure does not conform to the required build-to zone or build-to line of the applicable zone, the structure is deemed conforming in regard to that standard and may be expanded or altered without having to conform to build-to zone or build-to line of the zone until the structure's building footprint is expanded by 50% or more. If expansions to the structure are incremental, this is calculated as the sum total of all expansions that occur after the effective date of this Code. Once the principal structure is demolished, deemed conforming status is null and void.

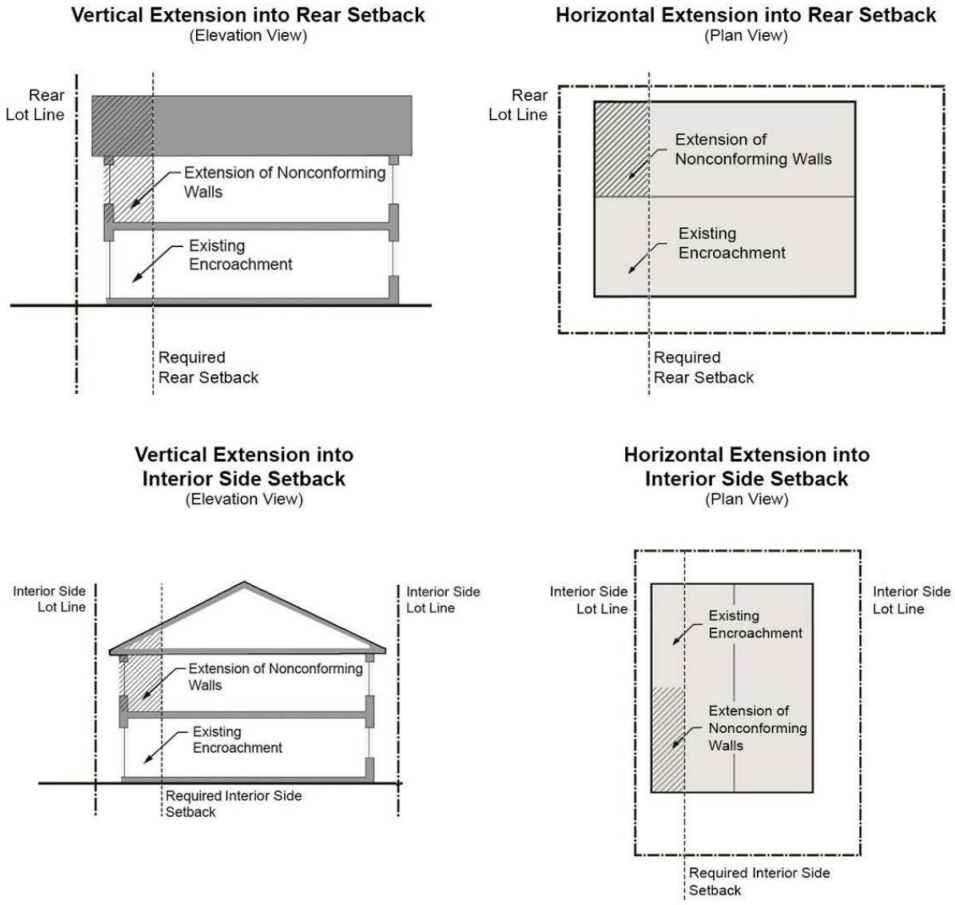
(ii) Surface Parking Lot Location

When a structure does not conform to the required surface parking lot location of the applicable zone, the structure is deemed conforming in regard to that standard and may be expanded or altered without having to conform to parking lot location requirements of the zone until the structure's building footprint is expanded by 50% or more. If expansions to the structure are incremental, this is calculated as the sum total of all expansions that occur after the effective date of this Code. Once the principal structure is demolished, deemed conforming status is null and void.

(e) Extension of Walls for Nonconforming Single-Unit Detached and Two-Unit Dwellings

Where a single-unit detached or two-unit dwelling is deemed nonconforming because a building wall of the principal structure is located within the required rear or interior side setback, the structure may be enlarged or extended horizontally or vertically along the same plane as the existing perimeter building walls, so long as the resulting structure does not violate any other zone regulation.

EXTENSION OF NONCONFORMING WALLS



(f) Fenestration as part of Exterior Modification in a Form-based Code District

A nonconforming structure that does not conform to Sec. 38-698 Measurements and Exceptions, (5) Public Realm, A. Openings shall be allowed to have nonconforming fenestration if the following conditions are met:

•Would not create any new nonconformity or increase the degree of the previously existing nonconformity.

•Meets the intent of the Form-based Code per Sec. 38-692 (5) Intent.

(f) Within the Special Flood Hazard Area Districts.

1. Within the floodway and general floodplain districts, any expansion or enlargement of uses or structures is prohibited.

2. Within all districts, any addition, modification, rehabilitation, repair, or alteration shall be in conformance with the provisions of this ordinance, shall not increase the flood damage potential or increase the degree of obstruction to flood flows, and where applicable, must be protected to the Regulatory Flood Protection Elevation (RFPE).

3. If any nonconforming structure is determined to be substantially damaged or substantially improved on the procedures outlined in the Substantial Damage and Substantial Improvement definitions, it may not be reconstructed except in conformity with the provisions of this ordinance. Any structures located outside the one-percent annual chance floodplain are exempt from this provision.

4. Any alteration, repair, reconstruction or improvements to a building that is not in compliance with the provision of this Ordinance, shall be undertaken only if said non-conformity is not further extended or replaced.

(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24; Ord. No. 14253, § 1, 7-15-25; Ord. No. 14298, § 1, 12-2-25)

Sec. 38-99. Nonconforming Lot

(a) Eligibility

(1) A nonconforming lot of record is a legal lot of record that at one time conformed to the lot dimension requirements of the zone in which it is located, but because of this Code, or a subsequent amendment to this Code, does not conform. This includes nonconformities created by prior zoning codes or amendments to those codes.

(2) A nonconforming lot of record is a legal lot of record as established as follows:

(i) Created by subdivision or plat prior to the effective date of this code (October 20, 2024 Ordinance # 14137).

(ii) Created by deed legally recorded in the Hamilton County Register of Deeds, or any lot legally recorded with the Hamilton County Register of Deeds on or before June 20, 1961.

(b) Use

A nonconforming lot of record may be used for a permitted or special exception use allowed within the zone.

(c) Development

Development of a nonconforming lot of record must meet all applicable dimensional and design regulations of the zone in which it is located with the exception of the lot area and/or width requirement that renders it nonconforming.

(d) Lot Division

No division of a nonconforming lot is permitted that creates a nonconforming lot and/or renders a lot or lots remaining nonconforming.

(e) Lot Consolidation

A nonconforming lot is permitted to consolidate with an adjacent lot, even if such consolidation still does not conform to the lot dimension requirements of the zone in which it is located. Such consolidation is seen as a reduction of the nonconformity.

(f) Common Ownership Limitation

If two or more lots with contiguous street frontage are held in common ownership that have historically been used as a single development site, and one or more of the lots does not meet the requirements for lot width or lot area as established by this Code, the land is considered to be a single zoning lot for the purposes of this Code. No portion of the lots may be used, transferred, or conveyed unless each lot meets the lot width and lot area requirements of this Code.

(g) Building Permits

No building permit will be issued for the use of any lot or portion of a lot, transferred or conveyed in violation of this Article.
(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24; Ord. No. 14238, § 1, 5-20-25)

ARTICLE XIX. VOLUNTARY INCENTIVES PROGRAM*

Sec. 38-100. Intent

Ordinance No. 14185 created a Voluntary Attainable Housing Incentive Program (VIP) for the purpose of authorizing certain incentives to be provided to property owners who seek to build multi-unit attainable housing pursuant to Tenn. Code Ann. § 13-3-603.

The VIP waives certain zoning and land use requirements for multi-unit developments in exchange for providing rental housing attainable to low- and moderate-income households. This voluntary program is designed to increase the overall number of attainable rental units created in Chattanooga by allowing more efficient permitting and flexible, by-right land use and zoning entitlements for qualifying developments.

The City shall not compel any property owner to participate in the program.

All projects constructed under the Voluntary Incentives Program shall be deed restricted to ensure that the attainable housing continues for a period of 30 years.
(Ord. No. 14256, § 1, 7-22-25)

Sec. 38-101. Applicability

The incentives will apply to any development of five (5) or more attached or semi-attached residential units in any zone permitting development of five (5) or more residential units.

The incentives provided through this program are available to any developer that volunteers to comply with program requirements and provide a certain amount of attainable housing for a period of 30 years.
(Ord. No. 14256, § 1, 7-22-25)

Sec. 38-102. VIP definitions

For the purposes of Article X. Voluntary Incentives Program, the following definitions shall be used:

(a) *Attainable Multi-Unit Housing.* Housing accommodations that are designed principally for residential use and consist of not less than 5 rental units on one site, provided that such units may not be detached, as required by Tennessee State Code, Section 13-3-601.

Attainable housing is defined as income restricted housing providing rents not to exceed one third gross monthly income for a household earning 80% Area Median Income or less. Attainable rents

---

***Editor's note—**Ord. No. 14256, § 1, adopted July 22, 2025, renumbered the former Art. XIX §§ 38-100—38-102 as Art. XX §§ 38-112—38-114 and enacted a new Art. XIX §§ 38-100—38-111 as set out herein. The historical notation has been retained with the amended provisions for reference purposes.

will be determined according to the annually updated Department of Housing and Urban Development income and rent limits for the Chattanooga-Hamilton County Metro Statistical Area.

(b) *Area Median Income (AMI).* The Department of Housing and Urban Development (HUD) develops income limits based on Median Family Income estimates at the Metro Statistical Area (MSA) level. The Chattanooga, TN-GA MSA contains the following areas: Catoosa County, GA; Dade County, GA; Walker County, GA; Hamilton County, TN; Marion County, TN; and Sequatchie County, TN.

(c) *Income restricted housing.* Housing units with rents or sales prices set according to a certain AMI level to achieve a certain "level of affordability." Tenants of income-restricted rental units will periodically be required to provide proof of income to demonstrate they qualify for income-restricted housing.

(d) *Program requirement period.* Qualifying developments must remain in compliance with the program requirements for a period of 30 years, following the issuance of a certificate of occupancy.

(e) *Qualifying Development.* Any development of 5 or more attached or semi-attached residential units in Chattanooga City limits within a zone permitting development of 5 or more residential units that have been certified through the process outlined in Sec. 38-108 Certification Process.

(Ord. No. 14256, § 1, 7-22-25)

Sec. 38-103. Qualifying Development Types

(a) Type 1—Attainable Multi-Unit Housing - Medium. Any development with 5-9 attached or semi-attached residential units. This may include townhouse developments with 5 or more units.

(b) Type 2—Attainable Multi-Unit Housing - Large. Any development with 10 or more attached or semi-attached residential units.

(c) Type 3—Attainable High Opportunity Development. Any development with 10 or more attached or semi-attached residential units that is located within 500 feet of a CARTA transit stop, AND located within an "A, B, C, or D" market in the most recent Chattanooga Market Value Analysis as designated by the City of Chattanooga Office of Housing and Community Development.

(Ord. No. 14256, § 1, 7-22-25)

Sec. 38-104. Program Requirements

To participate in the Voluntary Incentives Program for Attainable Housing, applicants will ensure that they comply with one of the following types of attainable housing criteria and maintain required attainable housing units for a period of 30 years.

(a) Type 1—Attainable Multi-Unit—Medium (5-9 Units)

One (1) or more units must be affordable to households with incomes at or below eighty percent (80%) AMI, according to the most recently available HUD Income Limits. These terms shall be recorded on the deed for the development.

(b) Type 2—Attainable Multi-Unit Housing—Large (10+ Units)

At least ten percent (10%) of all units included on the site must be attainable to households with incomes at or below eighty percent (80%) AMI, according to the most recently available HUD Income Limits. These terms shall be recorded on the deed for the development.

(c) Type 3—Attainable High Opportunity Development (10+ Units)

At least ten percent (10%) of all units included on the site must be attainable to households with incomes at or below eighty percent (80%) AMI, according to the most recently available HUD Income Limits. These terms shall be recorded on the deed for the development.
(Ord. No. 14256, § 1, 7-22-25)

Sec. 38-105. General Requirements

(a) If the number of units required in this section includes less than a whole unit, the unit number is rounded up to the nearest whole unit.

(b) Qualifying developments must remain in compliance with the program requirements for a period of 30 years, following the issuance of a certificate of occupancy.

(c) Tenants residing in attainable units shall be provided equal access to parking and other onsite amenities consistent with what is provided to other tenants.

(d) Income-restricted units shall be comparable to market rate units in quality, size, configuration, and location.

(e) Property owners shall comply with all applicable fair housing laws.

(1) Prior to receiving a certificate of occupancy, applicants must provide documentation of having completed a Fair Housing Training with a nationally certified training organization.

(f) Program participants must verify rents and incomes through a third-party, such as a project management company, affordable housing consultant, or HUD contractor on an annual basis for the first 15 years of the program. See Sec. 38-111 Annual Review and Fees for further information.
(Ord. No. 14256, § 1, 7-22-25)

Sec. 38-106. Incentives

Applicants that have been determined to meet program requirements outlined above through the process outlined in Section 38-104 shall be eligible for the following incentives.

(a) Type 1 Attainable Housing Incentives: Developments that comply with the Type 1 VIP requirements above will be eligible for all of the following incentives:

a. Waiver of off-street Vehicle Parking requirements in Table 12-1: Off-Street Vehicle and Bicycle Parking Requirements and waiver of Off-street Vehicle Parking in the Form Based Code, Sec. 38-741. Vehicle Parking.

i. These waivers shall only apply to non-ADA, residential parking requirements.

ii. Qualifying developments must provide at least .5 parking spaces for every non-ADA housing unit unless less parking is required by the base use or zone.

b. Thirty percent (30%) decrease of minimum lot area standards required for base zoning district.

(b) District Type 2 Attainable Housing Incentives: Developments that comply with the Type 2 VIP requirements above will be eligible for the following incentives:

a. Waiver of off-street Vehicle Parking requirements in Table 12-1: Off-Street Vehicle and Bicycle Parking Requirements and waiver of Off-street Vehicle Parking in the Form Based Code, Sec. 38-741. Vehicle Parking.

i. These waivers shall only apply to non-ADA, residential parking requirements.

ii. Qualifying developments must provide at least .5 parking spaces for every non-ADA housing unit unless parking is required by the base use or zone.

b. Waiver of Interior Parking Lot Landscape Requirements (Section 38-63.C - Parking Lot Landscape).

c. Thirty percent (30%) decrease of minimum lot area standards required for base zoning district.

(c) Type 3 Attainable Housing Incentives: Developments that comply with the Type 3 VIP requirements above will be eligible for the following incentives, including the addition of a height bonus.

a. Waiver of off-street Vehicle Parking requirements in Table 12-1: Off-Street Vehicle and Bicycle Parking Requirements and waiver of Off-street Vehicle Parking in the Form Based Code, Sec. 38-741. Vehicle Parking.

i. These waivers shall only apply to non-ADA, residential parking requirements.

ii. Qualifying developments must provide at least .5 parking spaces for every non-ADA housing unit unless less parking is required by the base use or zone.

b. Waiver of Interior Parking Lot Landscape Requirements (Section 38-63.C - Parking Lot Landscape).

c. Thirty percent (30%) decrease of minimum lot area standards required for base zoning district.

d. Thirty percent (30%) increase of maximum height permitted for base zoning district.

(Ord. No. 14256, § 1, 7-22-25)

Sec. 38-107. Parking Minimum Standards.

(a) Applicants shall provide a parking plan as part of their application.

(b) Applicants shall provide the required number of ADA compliant parking spaces, per Section 38-52.d Accessible Spaces Required.

(c) Applicants must provide at least .5 parking spaces for every non-ADA housing unit.

a. This standard shall not apply to permanent supportive housing developments.

b. This standard shall not apply if less parking is required by the base use or zone.

(d) Applicants may utilize one of the following flexible parking options in the zoning code to meet the minimum requirement of .5 non-ADA parking spaces

a. On Street Spaces, per Article 12, Section 3.C, AND/OR

b. Off-site Parking, per Article 12, Section 3.E, AND/OR

c. Collective and Shared Parking per Article 12, Section 3.F

(e) In the Urban Overlay Zone and Form Based Code areas, applicants may also receive one vehicle parking space credit for every two long-term bike parking spaces provided on-site for up to 25% of total required minimum parking. Long-term bicycle parking must be located in an enclosed area providing protection from weather and must be accessible to intended users.

(Ord. No. 14256, § 1, 7-22-25)

Sec. 38-108. Certification Process

Per Tennessee State Code, Tenn. Code Ann. § 13-3-603 Applicants are required to provide written notice of interest for consideration under the program to the Office of Housing and Community Investment (HCI) within the Office of Economic Development and to the Regional Planning Agency (RPA). The City shall not compel any property owner to participate in the program.

(a) Upon receipt of a potential applicant's written notice of interest by the planning commission staff, a pre-application conference shall be held between the HCI and the Regional Planning Agency and the potential applicant before a complete application for housing incentives is filed. The purpose of the pre-application conference is to determine whether a potential project satisfies all of the requirements set out in the ordinance created under § 13-4-402 and program requirements within this section of the Zoning Code.

(b) Upon the conclusion of the pre-application conference, the Regional Planning Agency either:

a. Determine the proposed project satisfies the requirements to receive housing incentives as set out in the ordinance established under § 13-4-402, and thereafter prepare a conference summary document that shall include at a minimum

i. the parameters of the project, including the timeframe for completing the project,

ii. the incentives being offered,

iii. a finding that the potential project conforms to the ordinance and state law, and

iv. a recommendation to the planning commission; or

b. Determine that the proposed project does not conform to the ordinance and state law or that the property owner is no longer interested in participation in the Voluntary Incentives Program. When the proposed project is determined to not meet the requirements of the ordinance, the property owner may either request another meeting within 60 days of the pre-application conference or move forward with the proposed project without the requested incentives.

c. Any finding referenced in Sec. 38-108(b)(a) by the Regional Planning Agency is not binding and does not create any vested property rights for the property owner.

(c) Upon receipt of the pre-application conference summary document, the potential applicant may submit a complete application and applicable fee to the Chattanooga-Hamilton County Regional Planning Commission for participation in the Voluntary Incentives Program.

a. Such an application shall include a copy of the pre-application conference summary document and an attestation that the applicant is willingly participating in a voluntary program and will construct and complete the project in a manner outlined and reviewed in the pre-application conference.

b. The applicant must submit a completed application to the planning commission within one hundred twenty (120) days of receiving the pre-application conference summary document for the completed application to be considered.

c. VIP applications before the Regional Planning Commission are not subject to the requirements of Sec. 38-72 Notice. VIP applications shall be individually listed as part of the Regional Planning Commission legal notice.

(d) The Planning Commission shall make the final decision on whether to approve the completed application at the next available public meeting after the completed application is submitted.

a. For the purposes of this Article, "next available public meeting", is the one following the submittal of a completed application, payment of fee(s), and availability to add to a Planning Commission agenda and advertise as such.

b. Planning Commission shall review the completed application to determine if it is compliant with the parameters of the pre-application conference summary document. If the completed application is determined to be within the parameters of the pre-application conference summary document, the completed application shall not be denied based on any provisions set out in the document.

c. Planning Commission may deny the application based upon any legal issue subsequently identified during the review of the completed application.

i. An applicant may correct the legal issue and be placed on a future agenda.

(Ord. No. 14256, § 1, 7-22-25)

Sec. 38-109. Deed Restrictions

(a) All multi-family facilities, buildings and structures constructed under the Voluntary Incentives Program shall be deed restricted to ensure that the attainable housing continues for a period of 30 years

(1) Deed restrictions shall be reviewed by Office of Housing and Community Development and approved for recording by that office prior to recording of the deed by the applicant.

(Ord. No. 14256, § 1, 7-22-25)

Sec. 38-110. Appeals

(a) Any reduction in landscaping, parking, height or lot size received through the VIP and approved by the Chattanooga-Hamilton County Regional Planning Commission is not subject to additional reduction in the applicable standard from the Board of Zoning Appeals.

(b) The action of the Regional Planning Commission shall be final, provided an appeal from the action of the Commission may be taken to Hamilton County Chancery Court by any aggrieved, affected party.

(Ord. No. 14256, § 1, 7-22-25)

Sec. 38-111. Annual Review and Fees

(a) All qualifying developments shall be deed restricted to ensure that the attainable housing requirements are maintained for a period of 30 years, in accordance with Tenn. Code Ann. § 13-3-603(f).

(b) Housing and Community Investment (HCI) staff will monitor rents and incomes on an annual basis for the first 15 years of the program. After 15 years of operation, HCI will request rent and income verification periodically at a frequency of not less than every 5 years.

(c) Program participants must submit rent and income verification for all units contributing to eligibility for this program. The Housing and Community Investment (HCI) division shall handle ongoing monitoring and compliance for affordability requirements for this program, and communications regarding compliance documentation will be provided by HCI.

(1) In accordance with the City of Chattanooga's Program Compliance Policies and Guidelines, documents verifying incomes and rents for attainable units must be provided through a third party, such as a project management company, affordable housing consultant, or HUD contractor.

(d) Properties found to be out of compliance with committed attainable rents and unit counts will be subject to a penalty fee of $5,000 per non-compliant unit per year of noncompliance, which shall be collected and placed in the Chattanooga Affordable Housing Fund.

Developments participating in the Voluntary Incentives Program are subject to the landscaping reductions as detailed in Article XIX. Voluntary Incentives Program, Sec. 38-106 Incentives.

(Ord. No. 14256, § 1, 7-22-25)

ARTICLE XX. ENFORCEMENT*

Sec. 38-112. Enforcement Official

(a) The Director of the Land Development Office is designated as the enforcement official of this Code and is authorized to enforce this Code.

(b) The Director of the Land Development Office may secure the assistance of the City Attorney to seek an injunction, abatement, or other appropriate actions to enjoin, abate, or stop any violation of this Code. At times, the aid of the Police Department may be sought to enforce this Code. The property owner charged with the violation may be held responsible for any legal expenses incurred by the City.
(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24)

Sec. 38-113. Application of Penalties

Any person, firm, or corporation who violates, disobeys, omits, neglects, or refuses to comply with, or who resists the enforcement of any of the provisions of this Code, upon conviction, will be fined for each offense. Each day that a violation continues constitutes a separate offense for the purposes of the penalties and remedies available to the City. The accumulation of penalties for violations, but not the obligation for payment for violations already committed, ceases upon correction of the violation.
(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24)

Sec. 38-114. Fines

Each violation is subject to a fine. Each individual successive day the violation continues is subject to an additional daily fine.
(Ord. No. 14137, § 1, 7-23-24; Ord. No. 14138, § 1, 7-23-24)

***Editor's note—**See editor's note at Art. XIX.

Appendix A

CITY BOUNDARIES

CITY OF CHATTANOOGA BOUNDARIES COMPOSITE DESCRIPTION OF THE CORPORATE LIMITS OF THE CITY OF CHATTANOOGA, TENN., SEPTEMBER 28th, 1967.

To locate the point of beginning for the latest composite description of the corporate limits of the City of Chattanooga, Hamilton County, Tennessee, as of September 28th, 1967, proceed from a point on the line between Townships 2 and 3, Range 4, west of the Basis Line, Ocoee District, where said line crosses the low water mark on the east side of the Tennessee River at this point, thence proceed down the said river on said low water mark to a point one hundred feet (100') westwardly from the low water mark of Chattanooga Creek. This last designated point in the low water mark of the existing south side of the Tennessee River, is now designated as the point of beginning of this above-named corporate limits description.

Thence, proceed southwardly parallel with the quarter section line to the south side of Lookout Mountain Pike, known as Cummings Highway, or known as Federal Routes #11; #41 and #64. Thence, eastwardly along the south line of said Lookout Mountain Pike, etc., to the point at which said line intersects the northwest boundary line of St. Elmo as set out in Chapter 250 of the Private Acts of 1911; thence with the said St. Elmo line in a southerly direction to the section corner between Sections 8 and 9, 17 and 16; thence southwardly along the section line between the said Sections 16 and 17, 20 and 21, to the state line between Tennessee and Georgia; thence eastwardly with said State Line to the centerline of South Crest Road or Government Boulevard, said point being the western line of the Town of East Ridge; thence northwardly along the centerline of South Crest Road or Government Boulevard, said point being the western line of the Town of East Ridge; thence northwardly along the centerline of South Crest Road to its intersection with a centerline of John Ross Road; thence northeastwardly along the centerline of John Ross Road to the western boundary line of the Town of East Ridge as described in Chapter 569, Private Acts 1921 of General Assembly of the State of Tennessee. Thence northwardly along said western boundary line of the Town of East Ridge to the north line of Sunrise Terrace; thence westwardly along the north line of Sunrise Terrace, said line being the corporate line of the Town of East Ridge, to the west line of Lot 3, to the northwest corner of said lot; thence westwardly along the south corporate line of the Town of East Ridge as described in Chapter 569, Private Acts of 1921, of the General Assembly of the State of Tennessee, to a point in the eastern corporate line of the City of Chattanooga, as described in Chapter 480, Private Acts of 1929, of the General Assembly of the State of Tennessee, and in Ordinance 4333, said line being the eastern boundary line of the 14th Ward.

Thence northwardly along the east corporate line of the City of Chattanooga, said line being east boundary line of the 14th Ward, and said line being five hundred (500) feet east of and parallel to the east line of South Crest Road to a point, said point being the centerline of Navajo Drive extended westwardly; thence eastwardly along said Navajo Drive centerline extended, and eastward along the actual centerline of Navajo Drive, to the centerline of South Germantown Road, said line being the northern boundary line of the Town of East Ridge. Thence southwardly along the centerline of South Germantown Road to its intersection with the centerline of Anderson Avenue; thence eastwardly along centerline of Anderson Avenue, and the centerline of Anderson Avenue extended to the centerline of Spring Creek, said line being the north boundary line of the Town of East Ridge, as described in Chapter 569, Private Acts of 1921 of the General Assembly of the State of Tennessee, thence along said north boundary line of the Town of East Ridge to a point being in the low water mark on the north bank of South Chickamauga Creek, thence northwardly and eastwardly along the north bank of said creek to a point, said point being the western line of Hickory Valley Road extended southwardly; thence northwardly along said western line of Hickory Valley Road extended, and the western line of Hickory Valley Road to a point in the northeast corner of Marimont Subdivision, said point is the north line of the Van Ness Road extended; then westwardly along the north line of Marimont Subdivision and the north line of Van Ness Road extended, and the north line of Van Ness Road extended westwardly to an intersection of the east right-of-way line of the Western and Atlantic Railroad, thence northwardly along the east line of the Western and Atlantic Railroad to a point, said

point being the north property line extended eastwardly of the Chattanooga municipal airport property; thence westwardly along the northern line of the Chattanooga municipal airport property to the northwest corner of said Chattanooga municipal airport, said point being in the south bank of South Chickamauga Creek. Thence northwardly across South Chickamauga Creek to the north bank, thence in a southwestwardly direction along meandering west bank of South Chickamauga Creek to a point, said point being the south line of Shawhan Road, and said line extended, thence westwardly along the south line of Shawhan Road and said line extended to a point 1,205 feet east of the east line of North Moore Road, thence north 23 degrees and 35 minutes east a distance of 367 feet, more or less, to a point; thence to the left and north 66 degrees and 23 minutes west a distance of 108.5 feet, more or less, to a point of intersection with the former and existing corporate limits of Chattanooga, Tennessee. Thence to the right and north 23 degrees and no minutes east along the said former and existing corporate limits of Chattanooga, Tennessee, a distance of four thousand three hundred thirty-six and 58/100ths feet (4,336.58'), more or less, to a point; thence north 67 degrees west (N. 67° W.), six hundred feet (600'), more or less, to a point at the low water mark of the South Chickamauga Creek; thence westwardly along the low water mark of said creek to a point, said point being three hundred feet (300'), west of and perpendicular to the centerline of the new Shallowford Road or (Wilcox Boulevard extended); thence southwardly and westwardly along a line three hundred feet (300') from and parallel to said Shallowford Road to a point, said point being in the east line of Agwela Drive or (Agwela Drive extended, as shown by plat of record, known as Indian Hills, as recorded in the Register's office, Hamilton County, Tennessee, in Plat Book 19, Page 2); thence north-westwardly along the northeast line of said Agwela Drive to the southeast boundary line of said Indian Hills (Wilcox Place Development). Thence north 23° 10' east along the said southeast boundary to the low water mark of South Chickamauga Creek; thence westwardly and northwardly along the low water mark of South Chickamauga Creek to the east boundary line of Mark Twain Hills Subdivision as shown by Plat of Record in Plat Book 17, Page 92, of the Register's office of Hamilton County, Tennessee; thence northwardly along the east boundary of said Mark Twain Hills Subdivision and said line extended to the east right-of-way line of the Tennessee Valley Authority Electric Power Board transmission line, said line being the eastern boundary line of Rollingwood Addition to Hillsboro Heights, a subdivision as recorded in Plat Book 18, Page 86, in the Register's office of Hamilton County, Tennessee, to the northeast corner of said Rollingwood Subdivision to Hillsboro Heights; thence northwardly along the east line of Juandale Trail, said line being the eastern boundary line of Rollingwood Addition and as described in Ordinance 4346 and 5011 (See Plats E-2-145 and E-1-307), north 23° and 15' west, 575' to a point in the northern boundary line of said Rollingwood Addition; thence northwardly 52° west, 983 feet to a point in the said Rollingwood Addition; thence south 22° 46' west, 825 feet along the western boundary line of said Rollingwood Addition to a point, said point being the northwest corner of Rollingwood Addition to Hillsboro Heights, said point being also the northeast corner of Rollingwood Addition to Hillsboro Heights, said point being also the northeast corner of Hemingway Gardens; thence westwardly along the northern boundary line of Hemingway Gardens; thence westwardly along the northern boundary line of Hemingway Gardens, a subdivision recorded in Plat Book 18, Page 91, Register's office, Hamilton County, Tennessee, to a point in the western line of Dogwood Drive; thence southwardly along the west line of Dogwood Drive to northwest corner of Dogwood Drive and Jeanaga Trail, as shown by plat recorded in Plat Book 17, Page 60, Register's office, Hamilton County, Tennessee, said plat being a subdivision of Lot 12, Hillsboro Heights No. 6, Block A; thence westwardly along the north line of Jeanaga Trail and the north line of Lot 1, of said Hillsboro Heights No. 6, to a point; thence south 23° 00' west one hundred ninety-seven feet (197') to a point, said point being the northeast corner of Hillsboro Heights No. 2, and Second Addition to Hillsboro Heights No. 2, as shown by plat of record in Plat Book 14, Page 70, Register's office, Hamilton County, Tennessee; thence westwardly along the north line of said Hillsboro Heights No. 2, and second addition to Hillsboro Heights No. 2 to a point, said point being the southeast corner of Wilcox Woods, thence northwardly and westwardly along the north and east boundary line of Wilcox Woods, to the northeast corner of Lot 15, of the subdivision of a part of R. W. Ward, an unrecorded subdivision; thence westwardly along said Lot 15 of the R. W. Ward property to the eastern right-of-way line of Tunnel Boulevard; thence southwardly along the east line of Tunnel Boulevard to a

point, said point being the northern boundary line of an unrecorded subdivision line extended east to said point; thence westwardly along said northern boundary line of an unrecorded subdivision which is the northern line of Lots 4, 5, 6 and 7, said line being 209', more or less, north of and parallel to the northern right-of-way line of Breit Street, to a point which is the center point of Section 13, T-2, Range 4 West; and is also the northeast corner of the southwest quarter of said Section 13. Thence proceeding westwardly along the north line of the Southwest Quarter Section to a point in the western line of Greenwood Road, said point being in the eastern boundary line of Ridgewood Acres; thence northwardly along the western line of Greenwood Road to the northeast corner of Ridgewood Acres; thence westwardly along the northern boundary line of Ridgewood Acres Subdivision and said line extended to a point in the east boundary line of the 12th Ward, said line being the east corporate limits of the City of Chattanooga. Thence northwardly along the said boundary line of the 12th Ward, and the corporate line of the City of Chattanooga as described in Chapter 480, Private Acts of 1929 (House Bill #965, Page 1284), General Assembly of the State of Tennessee. Thence northwardly along the corporate line, said line being 500' east of the intersection of Campbell Street and Crest Road; thence northwardly along the line parallel with and 500' east of Campbell Street to a point on a line parallel with and 500' south of Cleveland Pike; thence eastwardly along said line parallel with and 500' south of Cleveland Pike to a point 500' south of the intersection of Cleveland Pike and Durand Avenue. Thence northwardly along a section line, being the centerline of Durand Avenue and Durand Avenue extended to the intersection of said line with the south line of 12th Avenue extended; thence westwardly along the said south line of 12th Avenue extended to the intersection of said line with the west boundary line of the right-of-way of the Cincinnati Southern Railway; thence southwardly along the said west boundary line of said right-of-way to the north line of 7th Avenue; thence westwardly along the north line of 7th Avenue to the west line of 2nd Street; thence southwardly along the west line of 2nd Street to the north side of 3rd Avenue; thence west along the south side of 3rd Avenue to the point at which the said line intersects the east line of Riverside Drive; thence southwardly along the east line of Riverside Drive to Citico Creek; thence down Citico Creek to low water mark of the Tennessee River; thence down said Tennessee River at the low water mark to the centerline of Lauderdale Drive extended; thence northwardly along the centerline of Lauderdale Drive extended to the low water mark in the north bank of the Tennessee River. Thence eastwardly, northeastwardly and northwardly along the meandering of the low water mark of the Tennessee River to the northern boundary line of the John A. Patten line; thence westwardly along the north boundary line of the John A. Patten property to the east line of Hixson Road; thence northwestwardly, northwardly and northeastwardly with the east line of Hixson Road to the intersection of said line with the north line of Altamont Road on the Dallas Heights Plat; thence westwardly along the north line of the Altamont Road to its present terminus at or near White Oak Road; thence westwardly in a straight line to the nearest point on a line parallel with and three hundred feet (300') west of White Oak Road; thence southwardly along said line parallel with and three hundred feet (300') from the west line of White Oak Road to the north line of Berkley Hills Subdivision, being the north line of a tract which was annexed to the Town of North Chattanooga in Chapter 418 of the Private Acts of 1927. Thence westwardly with said north line of the Berkley Hills Subdivision to the northwest corner of Lot 12, in Block C of said subdivision; thence southwardly along the west line of said Berkley Hills subdivision to the north line of the Z. W. Wheland Tract, being the north line of the Town of North Chattanooga as fixed by Chapter 383 of the Private Acts of 1925; thence westwardly with said north line of Z. W. Wheland Tract to the west line of Hamilton Avenue; thence southwardly along the west line of Hamilton Avenue about one thousand feet (1,000') to the northeast corner of Lot 31, Spears Addition. Thence westwardly along the south line of George Street about eight hundred fifty feet (850') to the north line of the Smartt Addition; thence westwardly along the north line of Smartt Addition about five hundred fifty feet (550') to the northwest corner of said Smartt Addition; thence southwardly along the west line of said Smartt Addition about two thousand one hundred fifty feet (2,150') to the northeast corner of the S. R. Read 2.8 acre tract; thence westwardly along the north line of said tract to the west side of the Tunnel Road (called Cherokee Boulevard or Bell Avenue); thence southwardly with the west side of the said Cherokee Boulevard to a point opposite the southeast corner of Lot 6 of North Boulevard Circle; thence westwardly along the south line of said Lot 6 to the east side of a road in said North

Boulevard Circle (said road being the west boundary line Lot 6); thence southwardly along the east side of said road to the north line of the Old Stringer Road; thence westwardly with said line to the east side of Euclid Avenue; thence southwardly along the East Side of Euclid Avenue about two thousand five hundred feet (2,500') to the north side of White Hall Subdivision; thence eastwardly along the south line of Manning Street and said street extended to a point one hundred sixty feet (160') west of Riverside Road; thence at right angles southwardly about six hundred feet (600') to the south line of Riverside Road; thence southwestwardly along the south right-of-way line of Riverside Road or Avenue, to an intersection of the present south right-of-way line of Riverside Road or Avenue, with the existing eastward right-of-way line of the present Manufacturers Road; thence to the right and in a northwestwardly direction across and perpendicular to the centerline of the existing Riverside Road or Avenue, to an intersection with the existing northwestward right-of-way line of said Riverside Road or Avenue; thence to the left in a southwestward and westward direction along the existing northward right-of-way line of said Riverside Road or Avenue, and said right-of-way line extended to an intersection with the westward existing right-of-way line of the present Moccasin Bend Road. Thence to the left and in a southwestwardly direction along the existing westward right-of-way line of said Moccasin Bend Road to a point which is the northeast corner of the existing Moccasin Bend treatment plant property, which point is described as being an old iron pipe stake in the western line of the Moccasin Bend Road at the southeastern corner of the property conveyed to Bessie Juanita Kirk on February 24th, 1945. Thence to the right on a bearing of north seventy-seven degrees and thirty-five minutes west (77° 35'), along the southern line of the said Kirk tract, which line is also the existing north property line of the before-mentioned Moccasin Bend treatment plant property conveyed by warranty deed from the Chattanooga Estates Company to the City of Chattanooga, a Municipal Corporation of the State of Tennessee, and as recorded on July 10th, 1953, in Book #1110, Page 641, Register's office of Hamilton County, Chattanooga, Tennessee. Thence proceeding along the above-mentioned northern property line of said Moccasin Bend treatment plant property a distance of twenty-two hundred seventy-four and 6/10ths feet (2,274.6'), to the eastern bank of the Tennessee River at this point, marked by a railroad spike in the then existing root of a twenty inch (20") willow stump, said spike marking the northwest corner of the aforesaid Moccasin Bend treatment plant property; thence extending the aforesaid northern property line to the point of intersection with the low water mark of the east bank of said Tennessee River at this point; thence at this point turn left and in a southwardly direction upstream and along the meanderings of the low water mark of the eastern bank and north bank of said Tennessee River to a point of intersection with the northern extension of the present existing most western corporate limits of the City of Chattanooga, said imaginary line being one hundred feet (100') westwardly from the low water mark of Chattanooga Creek which empties into the south side of said Tennessee River at his point, parallel with the quarter section line running north and southward. Thence to the right and southwardly across the said Tennessee River from the low water mark of its north bank to a point of intersection in the low water mark on the south bank of the Tennessee River, on a line parallel with the aforesaid quarter section line. This point of intersection is the designated point of beginning for this composite description of the corporate limits of the City of Chattanooga, Tennessee, as of this September 28th, 1967.

ANNEXATION ORD. NO. 5839,
ENACTED OCT. 3, 1967

Under the authority conferred by Chapter No. 113, Public Acts of 1955, as amended (Sections 6-308 through 6-319, Tennessee Code Annotated), there is hereby annexed to the City of Chattanooga, Tennessee, and included within the corporate boundaries of said city, the area hereinafter described as follows:

Beginning at a point that is the intersection of the southerly control-of-access line of Interstate 24 and the westerly city limits line of Chattanooga, Tennessee, thence northwesterly and westerly along the control-of-access line of Interstate 24 to a point that is the intersection of the east right-of-way of Brown's Ferry Road and the control-of-access line of Interstate 24; thence across Brown's Ferry Road to a point that is the intersection of the western right-of-way line of Brown's Ferry Road and the southerly control-of-

access line of Interstate 24; thence west along the control-of-access line of Interstate 24 to a point that is the intersection of the control-of-access line and the south-western right-of-way of Parkers Lane; thence north-westerly to a point that is the intersection of the southwestern right-of-way of Parkers Lane and the north control-of-access line of Interstate 24; thence north-easterly along the north control-of-access line of Interstate 24 to a point that is the intersection of the control-of-access line of Interstate 24 and the west right-of-way of Brown's Ferry Road; thence northeasterly along the west right-of-way of Brown's Ferry Road and the control-of-access line of Interstate 24 to a point that is the intersection of the southwestern right-of-way of Browndell Road and the control-of-access line of Interstate 24; thence east to a point that is the intersection of the east right-of-way of Brown's Ferry Road and the north control-of-access line of Interstate 24; thence easterly along the north control-of-access line of Interstate 24 to a point that is the intersection of the west high water line of Lookout Creek and the north control-of-access line of Interstate 24; thence north, crossing the Tennessee River, to the existing city limits of Chattanooga, Tennessee; thence southeasterly and southerly along the existing city limits of Chattanooga, Tennessee, to the point of beginning, containing approximately 61 acres of land area. Said area is shown as "l-A" on Map B-B, Numbers 1294.2 through 1294.7 on file in the office of the city auditor.

ANNEXATION ORD. NO. 5853,
ENACTED DEC. 5, 1967

Under the authority conferred by Chapter 113, Public Acts of 1955, and the amendments thereto (Sec. 6-308 thru 6-319 T.C.A.), there be and hereby is annexed to the City of Chattanooga, Tennessee, and included within the corporate boundaries of said city the area known as the H. E. DeLay Property in the Second Civil District of Hamilton County, Tennessee, contiguous to the corporate boundaries of said city, which territory is fully described as follows:

BEGINNING at a point of intersection of the south property line of the former Samuel M. Morris and wife Tract #1 and the existing Chattanooga Corporate Limits' line, said point being five hundred thirty feet (530'), more or less, eastward from the existing southwest corner of said former Morris Tract #l. This beginning point is also three hundred sixty-seven feet (367'), more or less, north from the south line of the present Shawhan Drive, and said point is also the original or former point of intersection of the southern corporate limits' line with the eastern corporate limits' line at this point.

Thence proceeding northward along the present eastern corporate limits' line from this described beginning point on a bearing of North 23° 00' east, a distance of three hundred thirty feet (330'), more or less, to a point of intersection with the northern line of the said former Samuel M. Morris and wife Tract #l. This point will be known as the northwest corner of this described "Out of the City Portion" of the said former Morris Tract.

Thence to the right on an angle of about ninety degrees (90°) and on a bearing of South 67° East, a distance of one hundred eight and five-tenths feet (108.5') to a point which will be known as the northeast corner of this described "Out of the City Portion" of former Morris Tract. Thence on an angle of about ninety degrees (90°) to the right, and on a bearing of South 23° 00' West, which is one hundred eight and five-tenths feet (108.5'), more or less, perpendicular from and parallel with the present eastward Chattanooga Corporate Limits at this point, a distance of three hundred thirty feet (330'), more or less, to the point of intersection with the south property line of said former Morris Tract #1, being also the north property line of the former portion of the A. E. Barnett property. This point of intersection will be known as the southeast corner of this described "Out of the City Portion" of said Morris Tract, and is the northeast corner of the present intersection of the existing east and north Chattanooga Corporate Limit lines.

Thence to the right at an angle of about ninety degrees (90°) and on a bearing of North 67° 00') West, +/- along the present North Corporate Limits, being the south property line of this described "Out of the

City Portion" of said former Morris Tract #l, a distance of one hundred eight and five-tenths feet (108.5'), more or less, to a point of intersection with the present Eastern Line of the Chattanooga Corporate Limits, said point being the southwest corner of this described "Out of the City Portion" of said former Samuel M. Morris and wife Tract #1, and is the point of beginning, all as shown on Drawing A-2-80-A, on file in the Office of the City Engineer of Chattanooga, Tennessee.

ANNEXATION ORD. NO. 5878,
ENACTED MARCH 19, 1968

Under the authority conferred by Chapter No. 113, Public Acts of 1955, as amended (Section 6-308 thru 6-319, Tennessee Code Annotated), there is hereby annexed to the City of Chattanooga, Tennessee, and included within the corporate boundaries of said City, the areas hereinafter described as follows:

Description of area 2A boundaries.

BEGINNING at a point that is the intersection of the south control-of-access line of Interstate 75 and the eastern city limits line of the City of Chattanooga, Tennessee; thence northeasterly along the eastern city limits of Chattanooga, Tennessee, crossing interstate 75 to a point that is the northeast corner of the existing city limits line in the vicinity of Hickory Valley Road; thence northwesterly along the existing city limits line a distance of 1160 feet, more or less, to a point that is the southeast corner of property now or formerly owned by Rachel Shafner; thence northeasterly along the southeastern side of the property now or formerly owned by Rachel Shafner and continuing along the southeastern boundary of the property now or formerly owned by Lewis Conner to the southwest control-of-access line of Tenn. Highway 153 continuing northeast to a point that is the intersection of extension of the previously described line and the northeast control-of-access line of Term. Highway 153; thence southeasterly along the north control-of-access line of Tenn. Highway 153 and north easterly along the north-western control-of-access line of Interstate 75 to a point that is the intersection of the northwest control-of-access line of Interstate 75 and the south right-of-way of McCutcheon Road; thence southeasterly along the south right-of-way of McCutcheon Road extended to a point that is the intersection of the southeast control-of-access line of Interstate 75 and the south right-of-way of McCutcheon Road; thence southwesterly along the southeast control-of-access line of Interstate 75 to a point that is the intersection of the north right-of-way line of East Brainerd Road and the southeast control-of-access line of Interstate 75; thence crossing East Brainerd Road to a point that is the inter-section of the south right-of-way line of Interstate 75; thence southwesterly along the south control-of-access line of Interstate 75 to the point of beginning.

Description of area 2B boundaries.

BEGINNING at a point that is the intersection of the south right-of-way of Chickamauga Loop and the northeastern City Limits of the City of Chattanooga, Tennessee; thence southerly and southwesterly along the northeastern City Limits line of the City of Chattanooga, Tennessee, crossing Lee Highway to a point that is the intersection of the City Limits line and the southwesterly extension of the southeastern property line of property now or formerly owned by Rachel Shafner; thence northeasterly along the southeast property line of property now or formerly owned by Rachel Shafner and the southeast property line of property now or formerly owned by Lewis Conner to the southwest control-of-access line of Tennessee Highway 153, continuing northeast to a point that is the intersection of an extension of the previously described property line and the north control-of-access line of Tenn. Highway 153; thence northwesterly along the northeast control-of-access line of Tenn. Highway 153 to a point that is the intersection of the northeast control-of-access line of Tennessee Highway 153 and the southeast right-of-way line of Lee Highway; thence northwest across Lee Highway to a point that is the intersection of the northwest right-of-way line of Lee Highway and the northeast control-of-access line of Tennessee Highway 153; thence northwesterly along the northeast control-of-access line of Tenn. Highway 153 to a point that is the intersection of the northeastern control-of-access line of Tenn. Highway 153 and the southwest

right-of-way of Fisk Avenue; thence northwesterly along the southwest right-of-way of Fisk Avenue extended to a point that is the intersection of the southwest right-of-way of Fisk Avenue and the southwest control-of-access line of Tenn. Highway 153; thence southerly along the west control-of-access line of Tenn. Highway 153 to a point that is the southeast corner of the property now or formerly owned by John C. Conner; thence northwest along the northeast property line of property now or formerly owned by John C. Conner to the intersection of the southeast right-of-way of Vance Road; thence northwest to the northwest right-of-way of Vance Road, to a point that is the southeast property corner of property now or formerly owned by the City of Chattanooga, Tennessee; thence northwesterly along the southwest property line of property now or formerly owned by the City of Chattanooga, Tennessee, and continuing northwest along the southwest boundary line of the DuPree Subdivision to a point that is the northwest corner of property now or formerly owned by Pryor E. Bacon; thence southwest along the northwest property line of property now or formerly owned by Pryor E. Bacon to a point that is located on the northwest property line of property now or formerly owned by Pryor E. Bacon and is the southeast corner of property now or formerly owned by William Henderson; thence north and northwest along the east and north boundary lines of the property now or formerly owned by William Henderson to a point that is the north corner of the property now or formerly owned by William Henderson and is located on the south right-of-way of Chickamauga Loop; thence southwesterly along the south right-of-way of Chickamauga Loop to the point of beginning.

Description of area 2C boundaries.

BEGINNING at a point that is the intersection of the south right-of-way of Chickamauga Loop and the northeastern City Limits of the City of Chattanooga, Tennessee; thence in a northwesterly direction along the existing City Limits line of the City of Chattanooga, Tennessee, to a point that is the intersection of the existing City Limits line and the west right-of-way of Wilcox Boulevard; thence northeasterly along the west right-of-way of Wilcox Boulevard to a point that is the intersection of the west right-of-way of Wilcox Boulevard and the west right-of-way of Shallowford Road; thence northeast along the west right-of-way of Shallowford Road to a point that is the intersection of the west right-of-way of Shallowford Road and the west right-of-way of Cromwell Road; thence northeast along the west right-of-way of Cromwell Road a distance of 2400 feet; thence easterly along a line that is located 2400 feet north of and parallel to the north right-of-way of Shallowford Road, crossing Jersey Pike and Tenn. Highway 153 to a point that is the inter-section of the aforesaid line and the west property line of property known as Lake Brook Heights Subdivision; thence south along the west property line known as Lake Brook Heights Subdivision to a point that is the northwest corner of property now or formerly owned by C. M. Yarnell; thence south to a point that is the southwest corner of property now or formerly owned by C. M. Yarnell and the northwest corner of property now or formerly owned by J. B. Horn; thence south to a point that is the southwest corner of the property now or formerly owned by J. B. Horn; thence in a southerly direction to a point that is located 900 feet, more or less, west of the west right-of-way of Noah Reid Road as measured along the north right-of-way of Shallowford Road, said point being the northernmost corner of the north right-of-way of Shallowford Road; thence south crossing Shallowford Road to a point that is the northwest corner of the property now or formerly owned by The Title Guaranty and Trust Co.; thence south along the west property line of property now or formerly owned by The Title Guaranty and Trust Co. to a point that is the southwest corner of property now or formerly owned by The Title Guaranty and Trust Co. and continuing in a southerly direction along a line that is located 850 feet west of and parallel to the west right-of-way of Shepherd Road and Shepherd Road west to a point that is the intersection of the aforementioned line and the easterly control-of-access line of Tenn. Highway 153; thence southeasterly along the east control-of-access line of Tenn. Highway 153 to a point that is the intersection of the east control-of-access line of Tenn. Highway 153 and the north right-of-way of Shepherd Road; thence southeast crossing Shepherd Road to a point that is the inter-section of the south right-of-way of Shepherd Road and the east control-of-access line of Tenn. Highway 153; thence southerly along the east control-of-access line of Tenn. Highway 153 to a point that is the intersection of

the northeast control-of-access line of Tennessee Highway 153 and the southwest right-of-way of Fisk Avenue; thence northwesterly along the southwest right-of-way of Fisk Avenue extended to a point that is the intersection of the southwest right-of-way of Fisk Avenue and the southwest control-of-access line of Tenn. Highway 153; thence southerly along the west control-of-access line of Tenn. Highway 153 to a point that is the southeast corner of property now or formerly owned by John C. Conner; thence northwest along the northeast property line of property now or formerly owned by John C. Conner to the intersection of the southeast right-of-way of Vance Road; thence northwest to the northwest right-of-way of Vance Road to a point that is the southeast property corner of property now or formerly owned by the City of Chattanooga, Tennessee; thence northwesterly along the southwest property line of property now or formerly owned by the City of Chattanooga, Tennessee, and continuing northwest along the southwest boundary lines of the DuPree Subdivision to a point that is the northwest corner of property now or formerly owned by Pryor E. Bacon; thence southwest along the northwest property line of property now or formerly owned by Pryor E. Bacon to a point that is located on the northwest property line of property now or formerly owned by Pryor E. Bacon and is the southeast corner of property now or formerly owned by William Henderson; thence north and northwest along the east and north boundary lines of the property now or formerly owned by William Henderson to a point that is the north corner of the property now or formerly owned by William Henderson and is located on the south right-of-way line of Chickamauga Loop; thence southwesterly along the south right-of-way line of Chickamauga Loop to the point of beginning.

Each of the foregoing described areas are shown on Map BB on file in the Office of the City Auditor and is attached to and made a part of this Ordinance by reference.

ANNEXATION ORD. NO. 5879,
ENACTED MARCH 9, 1968

Under the authority conferred by Chapter No 113, Public Acts of 1955, as amended (Section 6-308 thru 6-319, Tennessee Code Annotated), there is hereby annexed to the City of Chattanooga, Tennessee, and included within the corporate boundaries of said City, the areas hereinafter described as follows:

Description of area 3A boundaries.

BEGINNING at a point which is the intersection of the eastern City Limits line of the City of Chattanooga, Tennessee, and the right hand bank, facing upstream, of the Tennessee River; thence north-easterly along the existing City Limits line of the City of Chattanooga, Tennessee, to a point that is the inter-section of the existing City Limits line of the City of Chattanooga, Tennessee, and the eastern right-of-way line of the Southern Railroad; thence northeast along the eastern right-of-way line of the Southern Railroad to a point that is the intersection of the eastern right-of-way line of the Southern Railroad and the north right-of-way line of North Wilder Street; thence northeast to a point that is the intersection of the eastern right-of-way of the Southern Railroad and the southern right-of-way of Amnicola Highway; thence northerly along the eastern right-of-way line of the Southern Railroad to a point that is the intersection of the eastern right-of-way of the Southern Railroad and the right hand bank facing upstream, of the Tennessee River; thence north along the eastern right-of-way line of the Southern Railroad line extended to a point that is the intersection of the eastern right-of-way line of the Southern Railroad line extended and the centerline of the Tennessee River; thence southerly along the centerline of the Tennessee River to a point that is the intersection of the centerline of the Tennessee River and the eastern City Limits line of the City of Chattanooga, Tennessee; thence south along the existing City Limits line of the City of Chattanooga, Tennessee, to the point of beginning.

Description of area 3B boundaries.

BEGINNING at a point that is the intersection of the northeast City Limits line of the City of Chattanooga, Tennessee and the east City Limits line of the City of Red Bank-White Oak, Tennessee;

thence northeasterly along the City Limits line of the City of Red Bank-White Oak, Tennessee, to a point that is the intersection of the City Limits line of the City of Red Bank-White Oak, Tennessee, and the north right-of-way line of the Cincinnati, New Orleans and Texas Pacific Railroad; thence eastwardly along the north right-of-way line of the Cincinnati, New Orleans and Texas Pacific Railroad and the northern extension of the east property line of property now or formerly owned by Cowron & Company, said point is located 328 feet east from the east right-of-way of Hixson Pike as measured along the north right-of-way of the Cincinnati, New Orleans and Texas Pacific Railroad; thence southwest to a point that is the northeast property corner of property now or formerly owned by Cowron & Company; thence southwest to a point that is the southeast corner of property now or formerly owned by Cowron & Company; thence southwest along a line that is located 310 feet east of and parallel to the east right-of-way of Hixson Pike to a point that is the intersection of the previously described line and the north property line of property now or formerly owned by Hamilton County, Tennessee; thence southeast along the north property line of property now or formerly owned by Hamilton County, Tennessee, to a point that is the northeast corner of said property and is on the southwest property line of property now or formerly owned by the Dixie Mercerizing Company; thence southeast along the southwest property line of property now or formerly owned by the Dixie Mercerizing Company to a point that is the southwest corner of property now or formerly owned by the Dixie Mercerizing Company and is located on the right bank, facing downstream, of the Tennessee River; thence southwesterly along the right bank, facing downstream, of the Tennessee River to a point that is the intersection of the right bank, facing downstream, of the Tennessee River and the eastern City Limits line of the City of Chattanooga, Tennessee; thence northerly and westerly along the City Limits line of the City of Chattanooga, Tennessee, to the point of beginning.

Description of area 3C boundaries.

BEGINNING at a point that is the intersection of the eastern City Limits line of the City of Chattanooga, Tennessee, and the centerline of the Tennessee River; thence northerly along the City Limits line of the City of Chattanooga, Tennessee, and the left bank, facing upstream, of the Tennessee River to a point that is the southwest corner of property now or formerly owned by the Dixie Mercerizing Company; thence northeast along the southwest property line of property now or formerly owned by the Dixie Mercerizing Company to a point that is on the southwest property line of property now or formerly owned by the Dixie Mercerizing Company and is the northeast corner of property now or formerly owned by Hamilton County, Tennessee; thence northwesterly along the north property line of property now or formerly owned by Hamilton County, Tennessee, to a point that is the intersection of the north property line of said property and a line that is located 310 feet east of and parallel to the east right-of-way of Hixson Pike; thence northeast along a line that is located 310 feet east of and parallel to the east right-of-way of Hixson Pike to a point that is the southeast corner of property now or formerly owned by Cowron & Company; thence northeast to a point that is the northeast property corner of property now or formerly owned by Cowron & Company; thence northeast to a point that is the intersection of the north right-of-way line of the Southern Railroad and the northern extension of the east property line of property now or formerly owned by Cowron & Company, said point is located 328 feet east from the east right-of-way of Hixson Pike as measured along the north right-of-way of the Southern Railroad; thence westerly along the north right-of-way of the Southern Railroad to a point that is the intersection of the north right-of-way of the Southern Railroad and the City Limits line of the City of Red Bank-White Oak, Tennessee; thence northeast along the City Limits line of the City of Red Bank-White Oak, Tennessee, crossing Ashland Terrace to a point that is on the City Limits line of the City of Red Bank-White Oak, Tennessee, and is the northwest property corner of property now or formerly owned by Charles S. Pruett; thence easterly along the north property lines of parcels of property now or formerly owned by Charles S. Pruett, J. E. Cunningham and William C. Thomas to a point that is the northeast property corner of property now or formerly owned by William C. Thomas; thence easterly to a point that is the northwest corner of property now or formerly owned by W. C. Mabry; thence easterly to a point that is the northeast corner of property

now or formerly owned by W. C. Mabry; thence easterly to a point that is the northwest corner of property now or formerly owned by Roy Foster, thence easterly to a point that is the northeast corner of property now or formerly owned by Roy Foster; thence southerly to a point that is the northwest corner of property now or formerly owned by Katherine Pangalos, said point is located on the southern property line of property known as Forrest Highland Subdivision; thence easterly along the southern property line of Forrest Highland Subdivision to a point that is the southeast property corner of property now or formerly owned by John R. Perruso; thence northeast to a point that is the southwest property corner of property now or formerly owned by Henry T. Haston; thence easterly to the southeast property corner of property now or formerly owned by Henry T. Haston; thence northerly to a point that is the northwest property corner of property now or formerly owned by David H. Lernire; thence easterly to the northeast property corner of property now or formerly owned by David H. Lernire; thence northeasterly to a point that is the northwest corner of property now or formerly owned by Earl Dixon; thence easterly to a point that is the northeast property corner of property now or formerly owned by Earl Dixon; thence northerly to a point that is the northwest property corner of property now or formerly owned by Barbara Higgins et al; thence easterly to a point that is the northeast corner of property now or formerly owned by Fred Hammond; thence northerly to a point that is the southeast property corner of property now or formerly owned by David L. Boyd; thence easterly to a point that is the southeast property corner of property now or formerly owned by Parmo C. Davis; thence easterly to a point that is the southeast property corner of property now or formerly owner by Parmo C. Davis and is the northwest property corner of property now or formerly owned by Fred E. Fassnacht, Sr.; thence along the north property line of property now or formerly owned by Fred E. Fassnacht, Sr., to a point that is the northeast property corner of property now or formerly owned by Fred E. Fassnacht, Sr.; thence northeast to a point that is the northwest property corner of property now or formerly owned by Fred E. Fassnacht; thence along the north property line of property now or formerly owned by Fred E. Fassnacht to a point that is the northeast property corner of previously described property, said point is on the west right-of-way of Watson Road; thence southerly along the right-of-way of Watson Road to a point that is the northeast property corner of property now or formerly owned by Robert Clark III and James Spaulding; thence easterly to a point that is the northwest property corner of property now or formerly owned by Robert Clark III and James Spaulding; thence southerly to a point that is the southwest property corner of the previously described property; thence easterly to a point that is the southeast property corner of the previously described property; thence easterly to a point that is the northwest corner of property now or formerly owned by Gary L. Anderson said point is the southwest corner of property known as Forrest Plaza Subdivision; thence easterly along the southern boundary of property known as Forrest Plaza Subdivision to a point that is the northeast property corner of property now or formerly owned by R. P. Buquo; thence south to a point that is the northwest corner of property now or formerly owned by T. Keith Wilson; thence easterly to a point that is the northeast corner of property now or formerly owned by Collin D. Martin; thence northerly to a point that is the northwest corner of property now or formerly owned by John I. Foster, Jr.; thence easterly to a point that is the northeast corner of property now or formerly owned by John I. Foster, Jr.; thence southerly to a point that is the southeast corner of property now or formerly owned by John I. Foster, Jr., said point is located on the north right-of-way of Hixson Pike; thence easterly along the north right-of-way of Hixson Pike to a point that is the intersection of the north right-of-way of Hixson Pike and the northern extension of the east property line of property now or formerly owned by Hamilton County Board of Education; thence southeasterly to a point that is the intersection of the east property line and the south right-of-way of Hixson Pike; thence westerly along the south right-of-way of Hixson Pike and the north property line of property now or formerly owned by Hamilton County Board of Education to a point that is the northwest property corner of said property; thence southerly to a point that is the southwest corner of said property and is located on the north right-of-way of North Access Road; thence easterly along the north right-of-way of North Access Road to a point that is the intersection of the north right-of-way of North Access Road and the east right-of-way of the Southern Railroad; thence

southerly along the east right-of-way of the Southern Railroad to a point that is the intersection of the east right-of-way of the Southern Railroad and the centerline of the Tennessee River; thence southwesterly along the center line of the Tennessee River to the point of beginning.

Each of the foregoing described areas are shown on Map BB on file in the Office of the City Auditor and is attached to and made a part of this Ordinance by reference.

ANNEXATION ORD. NO. 5970,
ENACTED NOVEMBER 12, 1968

Under the authority conferred by Chapter No. 113, Public Acts of 1955, as amended (Section 6-308 thru 6-319, Tennessee Code Annotated), there is hereby annexed to the City of Chattanooga, Tennessee, and included within the corporate boundaries of said City, the area hereinafter described as follows:

Beginning at a point that is the intersection of the northwest control-of-access line of Interstate 75 and the south right-of-way of McCutcheon Road, thence northeasterly along the northwest control-of-access line of Interstate 75 to a point that is the intersection of the northwest control-of-access line of Interstate 75 and the westerly right-of-way of Walker Road extended, thence southerly along the westerly right-of-way of Walker Road extended to a point that is the intersection of the southeast control-of-access line of Interstate 75 and the westerly right-of-way of Walker Road, thence southwesterly along the southeast control-of-access line of Interstate 75 to a point that is the intersection of the southeast control-of-access line of Interstate 75 and the south right-of-way of McCutcheon Road, thence northwesterly along the south right-of-way of McCutcheon Road to the point of beginning, the area consisting of approximately 53.4 acres, all being within the right-of-way of Interstate 75.

Said area is shown as "10-C" on Figure BB, and on Drawings Numbered 1415-A-1 and 1415-A-2, on file in the office of the City Auditor.

ANNEXATION ORD. NO. 5977,
ENACTED NOVEMBER 26, 1968

Under the authority conferred by Chapter No. 113, Public Acts of 1955, as amended (Section 6-308 thru 6-319, Tennessee Code Annotated), there be and is hereby annexed to the City of Chattanooga, Tennessee, and included within the corporate boundaries of said City, the area hereinafter described as follows:

Description of area 9-A for annexation boundary:

Beginning at a point that is the intersection of the south control-of-access line of Interstate 75 and the eastern city limits line of the City of Chattanooga, Tennessee; thence northeasterly along the south control-of-access line of Interstate 75 to a point that is the intersection of the south right-of-way line of East Brainerd Road and the south control-of-access line of Interstate 75; thence northerly crossing East Brainerd Road to a point that is the intersection of the north right-of-way line of East Brainerd Road and the southerly control-of-access line of Interstate 75; thence northeasterly along the southeast control-of-access line of Interstate 75 to a point that is the intersection of the southeast control-of-access line of Interstate 75 and the westerly extension of the north property line of property now or formerly owned by Thomas F. Gilliland; thence east to the northwest corner of said property; thence east to the northeast corner of said property; thence north to the northwest corner of property now or formerly owned by Joseph K. Crawford; thence east to the northeast corner of said property; thence east crossing Croy Lane to a point that is the intersection of the extension of the north property line of property now or formerly owned by Joseph K. Crawford and the west property line of property now or formerly owned by R. N. Bradley; thence north crossing that relocated Igou Gap Road to the northwest corner of property now or formerly owned by Arlie Edwin Clabo; thence westwardly to the northwest corner of property now or formerly owned by Ethel Sanders; thence south to the southwest corner of said property; thence east to the southeast corner of said property; thence east to the northeast corner of property now or formerly

owned by Osborne Building Corporation; thence east crossing Bella Vista Drive to the northeast corner of Gleason G. and Jane Avery; thence east crossing property now or formerly owned by Harry T. Morgan to the northwest corner of property now or formerly owned by Eugene M. Pike, Jr.; thence east along a line located 300 feet more or less north of Igou Gap Road and along the north property lines, crossing property now or formerly owned by James L. Deadmond to a point that is the northeast corner of property now or formerly owned by Joseph A. White said point is located on the west right-of-way of Gunbarrel Road; thence east crossing Gunbarrel Road to the southwest corner of property now or formerly owned by Guy L. Chastain; thence east to the southeast corner of said property; thence south along the west right-of-way of a dedicated street to the southeast corner of property now or formerly owned by William K. Corbin; thence southerly crossing Igou Gap Road to the northeast corner of property now or formerly owned by Martin V. Hamby; thence southerly to the southeast corner of said property; thence south along a line that is located 500 feet more or less east of Gunbarrel Road to a point that is the intersection of the afore-mentioned line and the south property line of property now or formerly owned by L. S. Stapp; thence west to the northwest corner of property now or formerly owned by Boyd E. Walker; thence south to the northeast corner of property now or formerly owned by Mildred Hall; thence east to the northeast corner of property now or formerly owned by Herbert L. Allen; thence east crossing Walnut Grove Road to the northwest corner of property now or formerly owned by Carl W. and Sandra Spain; thence east to the northeast corner of property now or formerly owned by Conrad D. Jordan; thence south to the southeast corner of said property; thence south to the south right-of-way Zeigler Road; thence east to the northeast corner of property now or formerly owned by W. M. Williford; thence south to the southeast corner of said property; thence west to the northeast corner of property now or formerly owned by Clarence Walker; thence south to the southeast corner of said property; thence south to the northeast corner of property now or formerly owned by David L. Miller; thence south along the east property lines to the southeast corner of property now or formerly owned by Harry P. Troutman; thence south crossing Clyde Road to the northeast corner of property now or formerly owned by Austin D. Moon; thence south along the east line of a subdivision known as Meadowlark Acres to the southeast corner of property now or formerly owned by Evelyn S. Thompson; thence south to the south right-of-way of East Brainerd Road; thence west to the northeast corner of property now or formerly owned by J. W. Rains, said point is the northwest corner of a subdivision known as East Brainerd Terrace; thence south along the west property lines of said subdivision to the southwest corner of property now or formerly owned by Grandy Jacoway, Jr.; thence south to the southeast corner of property now or formerly owned by Charles S. Brown; thence west to the southwest corner of property now or formerly owned by D. L. Conger, said is the northeast corner of a subdivision known as Audubon Hills; thence south along the east property lines of said subdivision to the northeast corner of property now or formerly owned by Paul K. Brown; thence south to the southeast corner of said property; thence southerly crossing the L & N Railroad and property now or formerly owned by Smith Wooden to the northeast corner of property now or formerly owned by W. T. Walker; thence south along the east property line of said property to the left bank facing downstream of South Chickamauga Creek; thence westerly along the left bank facing downstream of South Chickamauga Creek to the southerly right-of-way of the L & N Railroad to the eastern city limits of the City of Chattanooga, Tennessee; thence northerly along the eastern city limits of the City of Chattanooga, Tennessee to the point of beginning.

Said area is shown as "9-A" on figure B-B, and on Drawings #1415-14.0 through #1415-17.0 on file in the office of the City Auditor.

ANNEXATION ORD. NO. 5978, ENACTED NOVEMBER 26, 1968

Under the authority conferred by Chapter No. 113, Public Acts of 1955, as amended (Sections 6-308—6-319, Tennessee Code Annotated), there be and is hereby annexed to the City of Chattanooga, Tennessee, and included within the corporate boundaries of said City, the area hereinafter described as follows:

Description of area 10-A for annexation boundary:

Beginning at a point that is the intersection of the southeast control-of-access line of Interstate 75 and the south right-of-way of McCutcheon Road extended; thence southwesterly along the southeast control-of-access line of Interstate 75 to a point that is the intersection of the southeast control-of-access line of Interstate 75 and the westerly extension of the north property line of property now or formerly owned by Thomas F. Gilliland; thence east to the northwest corner of said property; thence east to the northeast corner of said property; thence north to the northwest corner of property now or formerly owned by Joseph K. Crawford; thence east to the northeast corner of said property; thence east crossing Croy Lane to a point that is the intersection of the extension of the north property line of property now or formerly owned by Joseph K. Crawford and the west property line of property now or formerly owned by R. N. Bradley; thence north crossing the relocated Igou Gap Road to the northwest corner of property now or formerly owned by Arlie Edwin Clabo; thence eastwardly to the northwest corner of property now or formerly owned by Ethel Sanders; thence south to the southwest corner of said property; thence east to the southeast corner of said property; thence east to the northeast corner of property now or formerly owned by Osborne Building Corporation; thence east crossing Bella Vista Drive to the northeast corner of property now or formerly owned by Gleason G. and Jane Avery; thence east crossing property now or formerly owned by Harry T. Morgan to the northwest corner of property now or formerly owned by Eugene M. Pike, Jr.; thence east along a line located 300 feet, more or less, north of Igou Gap Road and along the north property lines crossing property now or formerly owned by James L. Dedmond to a point that is the northeast corner of property now or formerly owned by Joseph A. White, said point is located on the west right-of-way of Gunbarrel Road; thence east crossing Gunbarrel Road to the southwest corner of property now or formerly owned by Guy L. Chastain; thence north along the west right-of-way of a dedicated street to the northwest corner of said street located on the south property line of property now or formerly owned by Flora Talley; thence north along a line that is located 500 feet east of Gunbarrel Road to the intersection with the north property line of said property which is the southeast corner of property now or formerly owned by Nellie White; thence north to the northeast corner of said property; thence north crossing Shallowford Road to the north right-of-way line; thence west to the southeast corner of property now or formerly owned by John C. McKee; thence north to the northeast corner of said property; thence north crossing Preston Circle to the southeast corner of property now or formerly owned by Pryor T. Bacon, Jr.; thence north to the northeast corner of said property; thence east and north along the property line of property now or formerly owned by Pryor T. Bacon, Jr., to the northwest corner of said property; thence north along the west property lines of a subdivision known as Twin Brook to the northwest corner of said subdivision; thence north to the north right-of-way of McCutcheon Road; thence east to the southeast corner of property now or formerly owned by Ernest Scoggins; thence north along the east property lines 680 feet, more or less, east of and parallel to Gunbarrel Road, crossing Min-Tom Road and Pinewood Drive to the southeast corner of property now or formerly owned by James C. Sloan; thence north to the southwest corner of property now or formerly owned by George Walter Wooten; thence north to the northeast corner of said property which is located on the south property line of property now or formerly owned by Pryor Bacon, Jr.; thence north along the extension of the previously described line to a point that is the intersection of the line extended and the southeasterly control-of-access line of Interstate 57; thence southwesterly along the southeasterly control-of-access line to the point of beginning.

Said area is shown as "10-A" on figure B-B and on drawings # 1415-39.1 through 1415-41; on file in the office of the City Auditor.

Description of area 10-B for annexation boundary:

Beginning at a point that is the intersection of the northwest control-of-access line of Interstate 75 and the south right-of-way of McCutcheon Road extended; thence northerly along the northwest control-of-access line of Interstate 75 to a point that is the intersection of the northwest control-of-access line of Interstate 75 and the westerly right-of-way of Walker Road extended; thence northerly along the westerly right-of-way line of Walker Road extended to a point that is the northeast corner of property now or formerly owned by Earl L. Varnell; thence west to the northwest corner of said property; thence south to the northeast corner of property now or formerly owned by Earl L. Varnell; thence west to the northwest corner of said property; thence north to the northeast corner of property now or formerly owned by Grady O. Bell; thence west crossing Lee Highway to a point that is the northeast corner of property now or formerly owned by E. E. Faber; thence west along the north property line to the northwest corner of said property; thence west crossing Gunbarrel Road to the west right-of-way of Gunbarrel Road; thence south to the northeast corner of property now or formerly owned by Grace Houser Flourney; thence west to the northwest corner of said property; thence west to the northeast corner of property now or formerly owned by Harold L. Bailey; thence west to the northwest corner of said property; thence west to the southwest corner of property now or formerly owned by William Bruce Tallent and Andy and Mary Walker; thence north along the east property line of property now or formerly owned by William Theodore Tallent to the southeast corner of property now or formerly owned by Howard Harrison; thence west to the southwest corner of said property; thence south to the northeast corner of property now or formerly owned by Sam Johnson; thence west to the northeast corner of property now or formerly owned by Lila K. Johnson; thence west to the northwest corner of said property; thence west crossing Kirkman Road to the northeast corner of property now or formerly owned by O. C. Kirkman, said point is located on the west right-of-way of Kirkman Road; thence south to the southeast corner of said property; thence west along the south property line of said property to the northwest corner of property now or formerly owned by Leonard R. Schmitt; thence south along the west property line a distance of 80 feet; thence west to the northeast corner of property now or formerly owned by Woodrow W. Gardenhire; thence west to northwest corner of said property; thence west to the northeast corner of property now or formerly owned by Charles D. Brown; thence west to the northwest corner of said property; thence west to the northeast corner of property now or formerly owned by Tyner Methodist Church; thence west to the northwest corner of said property; thence north to the northeast corner of property now or formerly owned by Sam Johnson; thence west to the northeast corner of property now or formerly owned by Hamilton County Board of Education; thence west to the northwest corner of said property; thence south to the northeast corner of property now or formerly owned by Lester D. Crowe; thence west to the northwest corner of said property; thence north to the northeast corner of property now or formerly owned by Lula J. Brown; thence west to the northwest corner of said property; thence west to the northwest corner of property now or formerly owned by Clayton S. Walters; thence west crossing Hickory Valley Road to the west right-of-way of said road; thence north to the northeast corner of property now or formerly owned by Clyde M. Ingle; thence west to the southeast corner of property now or formerly owned by J. T. Knitter; thence north to the northeast corner of said property; thence north to the southeast corner of property now or formerly owned by Robert H. Hundley; thence northerly to the northeast corner of said property; thence northerly crossing Ocoee Street to the southeast corner of property now or formerly owned by Hamilton County; thence northerly to the northeast corner of said property; thence north crossing the Southern Railroad property to the southerly property line of the Volunteer Ordnance Works Military Reservation; thence westerly along the property line of the Volunteer Ordnance Works Military Reservation to the southeast corner of property now or formerly owned by Musa M. Gross, said point is located on the northerly right-of-way of the Southern Railroad; thence westerly along the northerly right-of-way of the Southern Railroad to the easterly right-of-way of Noah Reid Road; thence south along

the easterly right-of-way of Noah Reid Road to the centerline of Friar Branch; thence southerly along the centerline of Friar Branch to a point that is the intersection of the centerline of Friar Branch and a line that is located 2,400 feet north of and parallel to the north right-of-way of Shallowford Road; thence east along said line to a point that is the intersection of the aforementioned line and the west property line of property known as Lake Brook Heights Subdivision; thence south along the west property line of property known as Lake Brook Heights Subdivision to a point that is the northwest corner of property now or formerly owned by C. M. Yarnell; thence south to a point that is the southwest corner of property now or formerly owned by C. M. Yarnel and the northwest corner of property now or formerly owned by J. B. Horn; thence south to a point that is the southwest corner of the property now or formerly owned by J. B. Horn; thence in a southerly direction to a point that is located 900 feet, more or less, west of the west right-of-way of Noah Reid Road as measured along the north right-of-way of Shallowford Road, said point being the northernmost corner of the north right-of-way of Shallowford Road; thence south crossing Shallowford Road to a point that is the northwest corner of property now or formerly owned by The Title Guaranty and Trust Company; thence south along the west property line of property now or formerly owned by The Title Guaranty and Trust Company to a point that is the southwest corner of property now or formerly owned by The Title Guaranty and Trust Co. and continuing in a southerly direction along a line that is located 850 feet west of and parallel to the west right-of-way of Shepherd Road and Shepherd Road west to a point that is the intersection of the aforementioned line and the easterly control-of-access line of Tennessee Highway 153; thence southeasterly along the easterly control-of-access line of Tennessee Highway 153 and continuing northeasterly along the northeast control-of-access line of Interstate 75 to the point of beginning.

Said area is shown as "10-B" on figure B-B and on drawings #1415-38.0—1415-41.1 on file in the office of the City Auditor.

ANNEXATION ORD. NO. 5979,
ENACTED NOVEMBER 26, 1968

Under the authority conferred by Chapter No. 113, Public Acts of 1955, as amended (Section 6-308—Section 6-319, Tennessee Code Annotated), there be and is hereby annexed to the City of Chattanooga, Tennessee, and included within the corporate boundaries of said City, the area hereinafter described as follows:

Description of area 11 for annexation boundary:

Beginning at a point that is the northwest corner of the Tennessee Valley Authority Chickamauga reservoir in the vicinity of the Coast Guard Station; thence southerly and westerly along the easterly and southerly boundary of said property crossing Kings Road, Harrison Road, and Kings Point Road to the intersection with the northerly right-of-way of Tennessee Highway 153; said point is also the southwest corner of property now or formerly owned by W. A. Roy; thence south of the southwest corner of said property which is located on the northerly right-of-way of Tennessee Highway 153; thense [thence] south and easterly along the northerly and easterly right-of-way of Tennessee Highway 153 crossing Highway 58, Silverdale Highway and Jersey Pike to a point that is the intersection of the easterly right-of-way of Tennessee Highway 153 and a line that is located 2,400 feet north of and parallel to the north right-of-way of Shallowford Road; thence eastwardly along the aforesaid line to a point that is the intersection of the aforesaid line and the centerline of Friar Branch; thence northwardly along the centerline of Friar Branch to a point that is the intersection of the centerline of Friar Branch and the easterly right-of-way of Noah Reid Road; thence north along the easterly right-of-way of Noah Reid Road to the northerly right-of-way of the Southern Railroad; thence easterly along the northerly right-of-way of the Southern Railroad to the southeast corner of property now or formerly owned by Musa M. Gross, said point is located on the western property line of the Volunteer Ordnance Works; thence northerly along the western property line of said property to the northwest corner which point is located on the south right-of-way of Highway 58;

thence north to the southeast corner of property now or formerly owned by William McKenzie; thence northerly to the northeast corner of said property; thence northerly to the northwest corner of said property; thence northerly to the northwest corner of property now or formerly owned by George Lane; thence west to the northeast corner of property now or formerly owned by James Elaster; thence west to the northwest corner of said property; thence west to the northeast corner of property now or formerly owned by Benjamin Gideon; thence west to the northwest corner of said property located on the northerly right-of-way of Champion Road; thence northerly along the northerly right-of-way of Champion Road to the southwest corner of property now or formerly owned by Ben McCaleb, said point is located on the Booker T. Washington State Park boundary; thence along the Booker T. Washington State Park boundary to which follows the southern side of a peninsula to the southwest corner of said property; thence westerly along a line that extends between the southwest property corner of the Booker T. Washington State Park property located on a peninsula and the center of the Chickamauga Dam, to a point that is the intersection of the aforesaid line and a line that extends north from the northeast corner of the Tennessee Valley Authority's southern Chickamauga Reservation property in the vicinity of the Coast Guard Station; thence south to the northeast corner of said property which is the point of beginning.

Said area is shown as "ll" on figure B-B and on Drawings 1414-56.1 through 1414-61.0 on file in the office of the City Auditor.

ANNEXATION ORD. NO. 6209,
ENACTED AUGUST 18, 1970

Under the authority conferred by Chapter 113, Public Acts of 1955, and the amendments thereto (Sec. 6-308 through 6-319 T. C. A.) that there be and hereby is annexed to the City of Chattanooga, Tennessee, and included within the corporate boundaries of said city the area in the Second Civil District of Hamilton County, Tennessee, contiguous to the corporate boundaries of said city, which territory is fully described as follows:

Beginning at a point on the Eastern side of Greenwood Road and its intersection with the present city limit line, this point being in the north line of the Southwest Quarter Section of Section No. 13, Township 2, Range 4, West; and thence running in a northerly, northwesterly and westerly direction along the east and north right-of-way line of Greenwood Road for a distance of 3,015 feet, more or less, to a point on said right-of-way adjoining the property of Greenwood Cemetery, Hamilton County Tax Parcel No. 3267-2-1, said point being 220 feet, more or less, southeast of the section line between Sections 13 and 14 of Township 2, Range 4, West of Basis Line of Ocoee District; thence south 60 degrees 25 minutes west, 460.3 feet, more or less, to a point; thence south 29 degrees 35 minutes east, 50 feet to a point; thence south 60 degrees 25 minutes west, 412 feet, more or less, to an old iron pipe; thence north 61 degrees 39 minutes west, 146.5 feet, more or less, to an old iron pipe; thence south 32 degrees 16 minutes west, 198.7 feet, more or less, to an old iron pipe; thence south 66 degrees 53 minutes east, 542.78 feet, to a point located on the section line between Sections 13 and 14 of Township 2, Range 4, West of Basis Line of Ocoee District; thence southwardly along the section line between Sections 13 and 14 of Township 2, Range 4, West of Basis Line of Ocoee District, south 20 degrees 19 minutes west, 552.82 feet, more or less, to an old iron pipe, a point in the existing city limits; thence eastwardly along a fence line south 68 degrees 13 minutes east, 1,249.7 feet, more or less, and following the now existing city limit line to an iron pipe on the west right-of-way of Greenwood Road and thence following said right-of-way and the now existing city limit line to a point in the city limit line; thence running in an easterly direction along the now existing city limits line 50 feet, more or less, to the point of beginning, consisting of a total of approximately 35 acres to include the total right-of-way of Greenwood Road.

ANNEXATION ORD. NO. 6235,
ENACTED OCTOBER 27, 1970

Under the authority conferred by Chapter 113, Public Acts of 1955, and the amendments thereto (Sec. 6-308 through 6-319 T. C. A.) that there be and hereby is annexed to the City of Chattanooga, Tennessee,

and included within the corporate boundaries of said city the area in the Second Civil District of Hamilton County, Tennessee, contiguous to the corporate boundaries of said city, which territory is fully described as follows:

Beginning at a point in the existing city limits said point being in the east right-of-way of Tunnel Boulevard and the northwest corner of R. W. Ward Subdivision as amended and recorded in Book 16, Page 42, Hamilton County Register's Office; thence north 65 degrees 32 minutes west, a distance of 50 feet, more or less, to the west right-of-way line of Tunnel Boulevard; thence continuing on a bearing north 65 degrees 32 minutes west, a distance of 645.84 feet to a point; thence north 24 degrees 22 minutes east, a distance of 802.5 feet to a point; thence south 65 degrees 11 minutes east, a distance of 814.81 feet to a point in the east right-of-way line of Tunnel Boulevard; thence south 65 degrees 25 minutes east, a distance of 795.25 feet to a point; thence south 24 degrees 31 minutes west, a distance of 798.45 feet to a point in the section line between Sections 6 and 7; thence north 65 degrees 24 minutes west, a distance of 436.45 feet, more or less, to the northeast corner of Lot 12 of the Wilcox Woods Subdivision, said point being in the existing city limits; thence continuing north 65 degrees 24 minutes west, a distance of 480 feet along the existing city limits following the northern limits of Wilcox Woods Subdivision in the Amended R. W. Ward Subdivision for a total distance of 916.45 feet to a point in the eastern right-of-way line of Tunnel Boulevard, said point being the point of beginning.

ANNEXATION ORD. NO. 6359,
ENACTED NOVEMBER 30, 1971*

Under the authority conferred by Chapter 113, Public Acts of 1955, as amended, (Sec. 6-308 through 6-319, T.C.A.) that there be and is hereby annexed to the City of Chattanooga, Tennessee, and included within the corporate boundaries of said City, the following described area in the Third Civil District, to-wit:

Tract No. One (1):

Beginning at a point in the present city limit of the City of Chattanooga 1,000 feet, more or less, from Mountain Creek Road and in the southern line of the property conveyed to R. J. Fisher, III, and Edward M. Fisher by deed of record in Book 1934, Page 598, Register's Office, Hamilton County, Tennessee; thence along the southern line of said Fisher tract, north 84 degrees 26 minutes west, 540 feet more or less, to a stone; thence north 17 degrees 42 minutes east, 3,669.4 feet to an iron; thence south 50 degrees 20 minutes east, 2,848.2 feet to an iron in the northwest line of Mountain Creek Road; thence southwestwardly along the northwest line of Mountain Creek Road, 1,300 feet, more or less, to the present city limit; thence northwestwardly along the present city limit and Read's Cree, 1,000 feet, more or less; thence southwestwardly along the present city limit, 1,940 feet, more or less, to the point of beginning.

Tract No. Two (2):

Beginning at a point on the north line of Read's Lake Road in the east line of the present city limit of the City of Chattanooga and in Mountain Creek; thence northwardly along the east line of said city limit and with Mountain Creek, 680 feet, more or less, to a point; thence north 63 degrees 00 minutes east, 645 feet; thence south 47 degrees 16 minutes east, 738.4 feet; thence south 27 degrees 24 minutes west, 965 feet, more or less, to the present city limit in the north line of Read's Lake Road; thence westwardly along said Read's Lake Road and present city limit, 910 feet, more or less, to the point of beginning.

***Editor's note—**Pursuant to T.C.A. § 6-51-302, Adjustment of Boundaries of Contiguous Municipalities, and an Agreement dated March, 1992, between the City of Chattanooga and the City of Red Bank, the common boundary line along Morrison Springs Road has been adjusted.

**ANNEXATION ORD. NO. 6379,
ENACTED FEBRUARY 2, 1972,
OPERATIVE NOVEMBER 1, 1976**

Under the authority conferred by law, there is hereby annexed to the City of Chattanooga, Tennessee, and included within the corporate boundaries of said city, the area described in Exhibit "A" attached hereto and made a part hereof by reference as fully and completely as though copied herein verbatim. That the territory to be annexed is identified as Area 5 and the boundaries thereof are shown on a plat hereto attached, marked Exhibit "B", and made a part hereof by reference.

EXHIBIT "A"

Description for proposed annexed area no. 5:

Beginning at a point in the northeast bank of the Tennessee River at the low water mark and the north bank of Mountain Creek, said point also being in the existing boundary of the City of Chattanooga, Tennessee, being the property now or formerly owned by Baylor School, thence in a generally eastward direction with the boundary line of the City of Chattanooga to the point of intersection of the said city boundary line with the southwest right-of-way line of Signal Mountain Boulevard, said point being in the City of Chattanooga boundary, thence in a northwestward direction with the southwest right-of-way line of Signal Mountain boulevard and the City of Chattanooga boundary to a point in the said southwest right-of-way of Signal Mountain Boulevard at the intersection of the northwest right-of-way of Russell Street if said right-of-way line of Russell Street were extended southwestwardly across Signal Mountain boulevard, thence following the boundary line of the city in a northward and north-eastward direction to the point of intersection of the northeast right-of-way line of School Street and the west right-of-way line of Mountain Creek Road, thence in a northeastward direction along the west right-of-way line of Mountain Creek Road to its intersection with the northeast right-of-way line of the "W" Road, thence in a north-westward direction along the northeast right-of-way line of the "W" Road to the point of intersection of the said right-of-way line of the "W" Road and the north line of the property now or formerly owned by Sam C. Jones if the said property line were extended across the "W" Road, thence in a westward direction along the said north property line and the extension thereof of the Sam C. Jones' tract to a point in the line of Lot No. 3 D.C. Combs Estate, thence in a northeast and northwestward direction along said line of Lot No. 3 D. C. Combs Estate to the most northern corner of Lot 3, thence in a southeastward direction along the northwest lines of Lots 3, 2 and 1 D. C. Combs Estate to the northeast corner of Lot 27, Block F, W. S. Beck Sub-division, thence continuing along the northwest line of Lots 27, 26 and 25, Block F and Block G to the southwest corner of Block G, W. S. Beck Subdivision, said point being in the northeast property line of the property now or formerly owned by Pat St. Charles, thence in a northwest direction along the said northeast property line of the Pat St. Charles' tract to a point in the Town of Signal Mountain corporation boundary line, thence in a generally west and northwest direction to a point in the northwest bank of Shoal Creek in the boundary line between the Town of Signal Mountain and the property now or formerly owned by Buck Redmon, thence along the northwest bank of the said Shoal Creek and running through the said Buck Redmon property in a southwestward direction to a point in the northeast bank of the Tennessee River, said point being the low water mark of the Tennessee River, thence along the said northeast bank of the Tennessee River to the point of beginning.

**ANNEXATION ORD. NO. 6381,
ENACTED FEBRUARY 2, 1972,
OPERATIVE JULY 29, 1974**

Under the authority conferred by law, there is hereby annexed to the City of Chattanooga, Tennessee, and included within the corporate boundaries of said city, the area described in Exhibit "A" attached hereto and

made a part hereof by reference as fully and completely as though copied herein verbatim. That the territory to be annexed is identified as Area 6-8A and the boundaries thereof are shown on a plat hereto attached, marked Exhibit "B", and made a part hereof by reference.

EXHIBIT "A"

Description of proposed annexed area no. 6-8A for annexation boundary.

Beginning at a point, said point being in the northwest right-of-way of Ely Road at the southeast corner of the property now or formerly owned by Carl Cecil Clark and being in the existing boundary of the City of Chattanooga, Tennessee, thence with the boundary of the City of Chattanooga being the southwest property line of the said Clark tract in a northwest direction to the common corner of the Clark tract and Lot No. 32 of Crestview Addition No. I being in the City of Red Bank's corporation line, thence following the corporation line in a northeastwardly and southeastwardly direction to a point in the southeast right-of-way line of Ely Road, thence continuing along the said corporation line to the point of intersection of the northwest line of Ely Road and the northwest property line of the property now or formerly owned by C. W. Hassler, Jr., said line being the corporation line, thence along the said corporation line in a northeast direction to a point in the Red Bank corporation line, said point being the northwest corner of the property now or formerly owned by K. R. Millican, thence following the said corporation line in a southeastward, northeastward and southeast-ward direction to a point in the center of Delashmitt Road said point being the corporation line, thence with the corporation line along the center of Delashmitt Road in a northward direction to the intersection of the center line of Delashmitt Road and the center line of Gadd Road also being the northeast corner of the boundary of the Town of Red Bank, thence with the center line of Gadd Road being the Town of Red Bank corporation boundary line in a westward direction to the point of intersection with the extended west right-of-way line of Crestview Drive, thence in a generally northward direction with the west right-of-way line of Crestview Drive to the point of intersection with the north right-of-way line of Troxler Trail if said line were extended across Crestview Drive, thence eastwardly along the north line of Troxler Trail to the point of intersection with the west right-of-way line of Tower Road, thence in a northward direction with the west right-of-way line of said Tower Road and said line extended to the intersection with the north right-of-way line of Dowlen Road, thence with the north right-of-way line of Dowlen Road in an eastwardly direction to the intersection of the said north right-of-way line of Dowlen Road with the northwest right-of-way line of Grubb Road, thence with the northwest right-of-way line of Grubb Road in a northeast direction to the intersection of the northwest right-of-way line of Grubb Road with the west right-of-way line of Tennessee State Route No. 153, thence in a northward direction along the west right-of-way line of Tennessee State Route No. 153 to a point of intersection with the northwest right-of-way line of Gothard Road if said Gothard Road right-of-way line were extended across Tennessee State Route No. 153, thence crossing Tennessee State Route No. 153 and continuing along the northwestern right-of-way line of Gothard Road to a point in the northwest right-of-way of Gothard Road, said point being an extension of the southwest property line of the property now or formerly owned by William D. Scott, trustee, thence along the said southwest property line of the William D. Scott, trustee, tract and the extension thereof to the southeast corner of the property now or formerly owned by Josie Benton, thence in a northeast direction along the southeast property line of the Josie Benton tract and said line extended to a point in the northeast right-of-way line of Boy Scout Road, said point being in the southeast property line of the property now or formerly owned by Jewell Hicks, thence in a southeast direction along the said northeast right-of-way line of Boy Scout Road to the point of intersection of the northeast right-of-way line of Boy Scout Road with the east right-of-way line of Southern Railroad, thence in a southward direction following the said east right-of-way line of Southern Railroad to the point of intersection of the said east right-of-way line of Southern Railroad with the north right-of-way line of Lower Mill Road, thence in a generally eastward direction along the northern right-of-way line of Lower Mill Road to the intersection of the north right-of-way line of Lower Mill Road with the southeast right-of-way line of Middle Valley Road, thence in a southwest direction with the southeast right-of-way line of Middle Valley Road to a

point, said point being the intersection of the southeast right-of-way line of Middle Valley Road, the south right-of-way line of Old Hixson Pike and the east right-of-way line of New Hixson Pike, thence in a south and southwest direction along the east right-of-way line of New Hixson Pike to a point, said point being the intersection of the southeast right-of-way line of Hixson Pike and the existing boundary line of the City of Chattanooga, thence in a generally westward direction with the boundary line of the City of Chattanooga to the point of beginning.

ANNEXATION ORD. NO. 6383,
ENACTED FEBRUARY 2, 1972,
OPERATIVE JULY 29, 1974

Under the authority conferred by law, there is hereby annexed to the City of Chattanooga, Tennessee, and included within the corporate boundaries of said city, the area described in Exhibit "A" attached hereto and made a part hereof by reference as fully and completely as though copied herein verbatim. That the territory to be annexed is identified as Area 6-8B and the boundaries thereof are shown on a plat hereto attached, marked Exhibit "B", and made a part hereof by reference.

EXHIBIT "A"

Description for proposed annexed area no. 6-8B:

Beginning at the point of intersection of the southeast line of Hixson Pike and the northeast property line of Hamilton County being the DuPont School property also being in the existing boundary of the City of Chattanooga, thence in a generally northeast direction with the southeast or eastward right-of-way line of Hixson Pike to a point, said point being the intersection of the said right-of-way of Hixson Pike and the east right-of-way line of Middle Valley Road, thence in a north and northeast direction to a point, said point being the intersection of the east right-of-way line of Middle Valley Road and the northeast right-of-way line of Shelby Circle, thence along the northeast right-of-way line of Shelby Circle and said line extended along the northeast property lines of the property now or formerly owned by Opal Card, et al, and the property now or formerly owned by the Fairview Methodist Church to a point in the southeast right-of-way line of Hixson Pike, thence in a southwestward direction along the southeast right-of-way line of Hixson Pike to the point of intersection of the southeast right-of-way line of Hixson Pike with the northeast right-of-way line of Big Ridge Road, thence with the said northeast right-of-way line of Big Ridge Road in a south-eastwardly direction to the point of intersection of the northeast right-of-way line of Big Ridge Road with the east right-of-way line of Fairview Road, thence in a south and southwest direction along the east right-of-way line of Fairview Road to the point of intersection of the east right-of-way line of Fairview Road with the north right-of-way of Gann Store Road, thence along the northeast right-of-way line of Gann Store Road in a southeast direction to the point of intersection of the said north right-of-way line of Gann Store Road with the extended east right-of-way line of Lake Resort Drive, thence in a southward direction along the east right-of-way line of said Lake Resort Drive to a point, said point being the point of intersection of the said east right-of-way line of Lake Resort Drive and the boundary line of the T.V.A. property if said boundary line were extended eastwardly across Lake Resort Drive, thence in a westward direction with the said T.V.A. boundary line to the point of intersection of the said boundary line with the west right-of-way line of the Southern Railroad, thence in a southward direction with the said west right-of-way of the Southern Railroad to the point of intersection of the said west right-of-way of the Southern Railroad and the south right-of-way line of Access Road, said point also being in the existing boundary of the City of Chattanooga, thence in a generally westward direction with the boundary line of the City of Chattanooga to the point of beginning.

ANNEXATION ORD. NO. 6385,
ENACTED FEBRUARY 2, 1972,
OPERATIVE JULY 29, 1974

Under the authority conferred by law, there is hereby annexed to the City of Chattanooga, Tennessee, and included within the corporate boundaries of said city, the area described in Exhibit "A" attached hereto and

made a part hereof by reference as fully and completely as though copied herein verbatim. That the territory to be annexed is identified as Area 6-8C and the boundaries thereof are shown on a plat hereto attached, marked Exhibit "B", and made a part hereof by reference.

EXHIBIT "A"

Description for proposed annexed area no. 6-8C.

Beginning at the point of intersection of the southeast right-of-way line of Fairview Road and the northeast right-of-way line of Gann Store Road, thence in a northeast direction along the said right-of-way line of Fairview Road to the point of intersection of the southeast right-of-way line of Fairview Road and the northeast right-of-way line of Big Ridge Road, thence in a south-eastward direction along the northeast right-of-way line of Big Ridge Road to the point of intersection of the northeast line of Big Ridge Road with the east line of a private driveway being in the west property line of the property now or formerly owned by T. Erby Daughtrey, thence with the T. Erby Daughtrey's west property line in a northeast direction to the northwest corner of the said Daughtrey tract, thence in a southeast direction along the northeast property of the said Daughtrey tract to a point in the TVA boundary line; thence in a northeast direction to a corner in the TVA boundary line being the southwest corner of Tract XCR-583 now or formerly owned by Robert S. Lynes, thence in a straight line along the southwest line of the said Lynes tract being the TVA boundary line in a southeast direction said line extended to a point in the east bank of Chickamauga Lake; thence in a southward direction along the east bank of Chickamauga Lake to the point in the existing boundary line of the City of Chattanooga, thence with the boundary line of the City of Chattanooga and said line extended to a point, said point being the intersection of the west right-of-way line of the Southern Railroad and the south right-of-way line of Access Road, thence in a northward direction along the said west right-of-way line of the Southern Railroad crossing Tennessee State Route No. 153 to a point, said point being the intersection of the said west right-of-way line of the Southern Railroad and the extended line of the TVA boundary line if said line were extended across the Southern Railroad right-of-way, thence along the TVA boundary line and said line extended in an east and southeastward direction to the point of intersection of the TVA boundary line with the southeast right-of-way line of Lake Resort Drive, thence in a generally northeast direction along the said southeast right-of-way line of Lake Resort Drive and said line extended to the point of intersection of the said east right-of-way line of Lake Resort Drive and line extended with the northeast right-of-way line of Gann Store Road; thence in a northwest direction along the northeast right-of-way of Gann Store Road to the point of intersection of the northeast right-of-way line of Gann Store Road and the southeast right-of-way line of Fairview Road; said point being the point of beginning.

ANNEXATION ORD. NO. 6387,
ENACTED FEBRUARY 2, 1972

Under the authority conferred by law, there is hereby annexed to the City of Chattanooga, Tennessee, and included within the corporate boundaries of said city, the area described in Exhibit "A" attached hereto and made a part hereof by reference as fully and completely as though copied herein verbatim. That the territory to be annexed is identified as Area 7 and the boundaries thereof are shown on a plat hereto attached, marked Exhibit "B", and made a part hereof by reference.

EXHIBIT "A"

Description of proposed area 7 for annexation boundary.

Beginning at a point that is the intersection of the northern city limits line of the City of Chattanooga, Tennessee that is south of the Tennessee River and the western right-of-way line of the Southern Railroad and the northern right-of-way line of Amnicola Highway; thence north along the northern city limits line of the City of Chattanooga to a point that is the intersection of the western right-of-way line of the Southern Railroad extended and the city limit line of the City of Chattanooga and the centerline of the

Tennessee River; thence easterly to the center of Chickamauga Dam; thence easterly, along a line that extends between the center of Chickamauga Dam and a point that is the southwest property corner of the Booker T. Washington State Park property located on a peninsula, to a point that is the intersection of the aforesaid line and the northern corner of the city limits of the City of Chattanooga in the vicinity of the Coast Guard Station; thence south along the northern city limits of the City of Chattanooga in the vicinity of Tennessee Valley Authority southern Chickamauga Reservation property; thence southerly and southeasterly along the city limits of the City of Chattanooga and the eastern right-of-way line of State Highway No. 153 crossing 58 Highway, Silverdale Highway and Jersey Pike to a point that is the intersection of the easterly right-of-way of Tennessee Highway 153 and the city limits of the City of Chattanooga and a line that is located 2,400 feet north, more or less, of and parallel to the north right-of-way of Shallowford Road; thence west along the aforesaid line crossing Tennessee Highway 153 and Jersey Pike to a point that is the intersection with the west right-of-way of Cromwell Road; thence southwest along the west right-of-way of Cromwell Road and the city limits of the City of Chattanooga to a point that is the intersection of the west right-of-way of Cromwell Road and the west right-of-way of Shallowford Road and along the city limits of the City of Chattanooga; thence southwest along the west right-of-way of Shallow-ford Road to a point that is the intersection of the west right-of-way of Shallowford Road and the existing city limits line; thence westerly and northerly along the existing city limits line to the point of beginning.

ANNEXATION ORD. NO. 6389,
ENACTED FEBRUARY 2, 1972,
OPERATIVE JULY 29, 1974

Under the authority conferred by law, there is hereby annexed to the City of Chattanooga, Tennessee, and included within the corporate boundaries of said city, the area described in Exhibit "A" attached hereto and made a part hereof by reference as fully and completely as though copied herein verbatim. That the territory to be annexed is identified as Area 9B and the boundaries thereof are shown on a plat hereto attached, marked Exhibit "B", and made a part hereof by reference.

EXHIBIT "A"

Description of proposed annexed area no. 9B for annexation boundary:

Beginning at a point in the northeast right-of-way line of Morris Hill Road said point being 200 feet southeastwardly along said line from the intersection of the northeast right-of-way line of Morris Hill Road and the southeast right-of-way line of Jenkins Road, thence in a southeast direction along the northeast right-of-way line of Morris Hill Road to a point, said point being the common corner of Frances Catherine Duckett and R. A. Cogswell tracts and being in the northeast right-of-way of Morris Hill Road, thence along the property line between the Cogswell and Duckett tracts a distance of 470 feet more or less to the most eastern corner of the above mentioned tracts, thence along the rear property lines of the following tracts, R. A. Cogswell and John J. Headrick to a point in the eastern right-of-way line of Morris Hill Road, thence in a southwardly direction along the east and northeastern right-of-way line of Morris Hill Road crossing Igou Gap Road, to a point in the south right-of-way line of East Brainerd Road, thence in a southeastward direction to the common corner of the property of Town and Country Development, Inc. and Jackson R. Cowan tracts, thence along the east and southeast property lines of the Town and Country Development, Inc. tract the following calls southwestwardly 879 feet, southeastwardly 523 feet, southwardly 1,446 feet, northeastwardly 1,608 feet to a point in the quarter section line of Section 19, Township 15, Range 2, thence southwestwardly along the said quarter section line to a point in the boundary line of the State of Tennessee said point being the most eastern corner of the Lillard Owenby tract, thence in a westward direction along the boundary line of the State of Tennessee to a point in the west bank of the Chickamauga Creek thence following the Chickamauga Creek northwardly, northeastwardly and north-westwardly to a point in the existing boundary of the City of Chattanooga, Tennessee and being

in the northeast property line of L. C. Million and James Million tract, thence in a northeast direction to a point in the southwest right-of-way line of Igou Gap Road, said point being 438 feet southeastwardly from the southeast right-of-way line of Gunbarrel Road, thence running southeastwardly with the southwest right-of-way line of Igou Gap Road to a point, said point being the intersection of the southwest line of Igou Gap Road and the southeast line of Jenkins Road, thence in a northeast direction with the southeast line of Jenkins Road to a point, said point being the intersection of the southeast line of Jenkins Road and the northeast line of Morris Hill Road, thence southeastwardly along the northeast line of Morris Hill Road to a point, said point being 200 feet southeastwardly along the said northeast line of Morris Hill Road from the southeast line of Jenkins Road and being the point of beginning.

ANNEXATION ORD. NO. 6391,
ENACTED FEBRUARY 2, 1972

Under the authority conferred by law, there is hereby annexed to the City of Chattanooga, Tennessee, and included within the corporate boundaries of said City, the area described in Exhibit "A" attached hereto and made a part hereof by reference as fully and completely as though copied herein verbatim. That the territory to be annexed is identified as Area 10D and the boundaries thereof are shown on a plat hereto attached, marked Exhibit "B", and made a part hereof by reference.

EXHIBIT "A"

Description of proposed annexed area #10D for annexation boundary:

Beginning at a point in the existing boundary of the City of Chattanooga, said point being in the right-of-way line of the Southern Railroad and the property of the U. S. Government known as Volunteer Ordinance Works being in the Second Civil District of Hamilton County, Tennessee, Section 34, Township 5 and Range 3 west of the basis line of Ocoee District; thence in a northeast direction along the said right-of-way of the Southern Railroad to the west right-of-way line of Ocoee Street, thence southwardly along Ocoee Street 30 feet more or less to a point, thence in a northeast direction along the northwest right-of-way line of the Southern Railroad to the west right-of-way line of Silverdale Highway, thence crossing Silverdale Highway 80 feet more or less to a point in the east right-of-way of said highway, thence continuing along the north right-of-way line of the Southern Railroad crossing Gunbarrel Road to a point in the west line of Interstate Highway No. 75, thence crossing the Interstate Highway No. 75 to the south right-of-way line of said highway and in the north right-of-way of the Southern Railroad, thence in a southwest direction crossing the Southern Railroad to a point, said point being in the right-of-way of Interstate Highway No. 75, thence along the south right-of-way of Interstate Highway [No. 751 in a westward direction to a point in the line between the southeast right-of-way of Inter-state Highway No. 75 and the property of Hamilton County, Tennessee, thence in a southward direction leaving the right-of-way line of said highway, crossing the property of Hamilton County, Tennessee, a distance of 2,000 feet more or less to the most northern corner of the Jefferson Carl Carden property, thence along the northwest property line of the said Carden tract to the most western corner of the said tract, thence southwestwardly along the northeastern property lines of Amos Eugene Sneed, Herbert C. Crockett and Richard 0. Gibbs M.D. to the most eastern corner of the Gibbs tract, thence in a southwest direction along the southeast property line of the said Gibbs tract to a point in the northeast right-of-way line of Standifer Road, thence southeasterly along said right-of-way to a point 135 feet more or less southeastwardly along said line from the intersection of the said northeast right-of-way line of Standifer Road and the southeast right-of-way line of Jenkins Road if said line were extended across Standifer Road, thence southwestwardly cross Standifer Road and running along the rear lot lines of Lots 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11 and 34 Holly Hills Subdivision to a point in the northeast property line of the Mary K. and Winifred House tract, thence along the said northeast property line of the House tract in a southeastward direction a distance of 41.5 feet to a point said point being 200 feet southeastwardly along said property line from the southeast right-of-way of Jenkins Road, thence south-westwardly parallel to

and 200 feet from Jenkins Road to a point in the northeast right-of-way line of Morris Hill Road, said point being 200 feet southeastwardly along said line from the southeast right-of-way line of Jenkins Road, thence northwestwardly 200 feet to the intersection of Morris Hill Road and Jenkins Road, thence south-westwardly along the southeast right-of-way of Jenkins Road to intersection of the southeast line of Jenkins Road with the southwest line of Igou Gap Road, thence along the southwest line of Igou Gap Road to a point in the existing boundary of the City of Chattanooga, Tennessee, said point being 438 feet southeastwardly along the said southwest line of Igou Gap Road from its intersection with the southeast right-of-way line of Gunbarrel Road, thence following the existing city boundary in a northeast direction to the intersection of the existing city boundary, the southwest right-of-way of Walker Road and the southeast right-of-way of Interstate Highway No. 75, thence in a generally north and northwest direction crossing Interstate Highway No. 75, Lee Highway at a point 246 feet northeast of Old Cleveland Pike and continuing in the same direction crossing Hickory Valley Road to the point of beginning.

ANNEXATION ORD. NO. 6393,
ENACTED FEBRUARY 2, 1972,
OPERATIVE JULY 29, 1974

Under the authority conferred by law, there is hereby annexed to the City of Chattanooga, Tennessee, and included within the corporate boundaries of said city, the area described in Exhibit "A" attached hereto and made a part hereof by reference as fully and completely as though copied herein verbatim. That the territory to be annexed is identified as Area 12 and the boundaries thereof are shown on a plat hereto attached, marked Exhibit "B", and made a part hereof by reference.

EXHIBIT "A"

Description for proposed annexed area no. 12.

Beginning at a point in the northwest bank of Shoal Creek and in the north bank of the Tennessee River, thence in a westward direction crossing the Tennessee River to the point of intersection of the south bank of the Tennessee River and the northwest property of the now or formerly owned property, of Benjamin L. Cash, Trustee, 57.1 acre tract, thence along said property line of the Cash tract in a westward direction and said line extended to the point of intersection of the said Cash northwest property line and said extension thereof with the boundary line of Hamilton County, Tennessee, thence along the boundary in a generally westward direction to a point in the said boundary line of Hamilton County, Tennessee, said point being the point of intersection of the Hamilton County, Tennessee boundary line with the west property line of the now or formerly owned property of Jamie Elaine Coleman if said west property line were extended across the property now or formerly owned by Paul B. Carter, thence in a southwestward direction along the west property line of the now or formerly owned following tracts and said extension thereof, the said Jamie Elaine Coleman tract, the Jimmy Shields tract, the Jessie J. Hartman tract, the James T. Hartman tract, the R. B. Cooke tract and the J. R. Hicks tract to a point in the southwest right-of-way of Cummings Highway, said point being the northeast corner of the property now or formerly owned by Carl A. Johnson, thence with the southwest right-of-way in a southward direction to a point, said point being the northeast corner of the property now or formerly owned by Stranton B. Ingram, thence along the said Ingram northwest property line in a southwest direction to a corner of the said Ingram tract, thence along the southwest property line of the Ingram tract to a point in the northeast line of the property now or formerly owned by Will Cummings, said point being in the section line dividing Sections 14 and 15, thence southwestwardly along the said section to the southwest corner of Section 14, thence in a southeastward direction along the southwest line of Section 14 to the point of intersection of said Section Line 14 and the northwest right-of-way line of Interstate Highway No. 24, thence continuing along the Section Line 14 to the intersection of said line and the northwest right-of-way line of the Birmingham Highway, thence in a generally southward direction along the said right-of-way of Birmingham Highway to the point of intersection of the said line of Birmingham Highway and the

extended northeast property line of the now or formerly owned property of J. R. Turner, thence along the said northeast property line and extension thereof of the Turner tract to a point in the southeast right-of-way line of Old Birmingham Highway, thence along the said southeast right-of-way line of Old Birmingham Highway to a point in the said right-of-way line, said point being the northeast corner of Lot No. 5, Block A, Levine Subdivision, thence along the northeast line of Lot 5 and the extension thereof to a point in the boundary line of the Chattanooga Lookout Mountain Park, thence in a generally northeast direction with the said Park boundary line to a point, said point being the northeast corner of the property now or formerly owned by Jeff Parker, said point also being the existing boundary of the City of Chattanooga, thence with the boundary of the City of Chattanooga in a south, southwest, north and northeast direction as described in description of Annexation No. 4 to a point in the east bank of the Tennessee River, thence in a north and northeast direction with the east bank of the Tennessee River to the point of beginning.

ANNEXATION ORD. NO. 6395,
ENACTED FEBRUARY 2, 1972,
OPERATIVE JULY 29, 1974

Under the authority conferred by law, there is hereby annexed to the City of Chattanooga, Tennessee, and included within the corporate boundaries of said city, the area described in Exhibit "A" attached hereto and made a part hereof by reference as fully and completely as though copied herein verbatim. That the territory to be annexed is identified as Area 13A and the boundaries thereof are shown on a plat hereto attached, marked Exhibit "B", and made a part hereof by reference.

EXHIBIT "A"

Description for proposed annexed area no. 13A *for annexation boundary:*

Beginning at a point, said point being the intersection of the northeast right-of-way line of Reeds Lake Road and the southeast property line now or formerly owned by Hurbert E. Lowe, said point also being the intersection of the City of Red Bank Corporation Line and the boundary line of the City of Chattanooga, thence with the boundary line of the City of Chattanooga in a westward direction to a point, said point being the most northern corner of the boundary of the City of Chattanooga and being 1500 feet more or less westwardly of the west right-of-way line of Mountain Creek Road, thence in a northeast direction on a straight line to a point, said point being the southwest corner of the property now or formerly owned by James L. Pennington, thence northeastwardly along the Pennington northwest property line crossing Courtney Lane to the Pennington's northwest corner, thence along the Pennington's northeast property line to a point, said point being the southwest corner of the property now or formerly owned by Fred W. Combs, thence along the northwest property line to a point, said point being the southwest corner of the property now or formerly owned by Clyde W. Combs, thence along the northwest property line of the said Clyde W. Combs tract and line extended to a point, said point being in the northeast right-of-way line of Godsey Lane, thence along the northeast right-of-way of Godsey Lane in a southeast direction to the point of intersection with the northwest right-of-way line of Browntown Road, thence with the said right-of-way line of Browntown Road in a generally eastern direction to the point of intersection of the said right-of-way line at Browntown Road and line extended to a point in the northeast right-of-way of the old Dayton Pike, said point being a corner of the property now or formerly owned by Ruth Oakes, thence along the said right-of-way in a northwest direction to the point of intersection of the said right-of-way of the old Dayton Pike and the most northern corner of the said Ruth Oakes property, thence in a southeast direction along the northeast property line of the said Ruth Oakes to the southwest corner of the property now or formerly owned by Tennessee Title Company of Chattanooga, Tennessee, Trustee, thence along the northwest property line of the said Tennessee Title Company of Chattanooga, Trustee, tract to the northwest corner of said tract, thence crossing the property now or formerly owned by Ross Yother and the property now or formerly owned by Jack Miller to, the

southwest corner of the property now or formerly owned by Paul F. Gray, Jr., Trustee, thence along the northwest property line of the said Gray tract and the extension thereof to a point in the northeast right-of-way of Boy Scout Road, thence in an eastward and southeastward direction along the said northeast right-of-way of Boy Scout Road crossing the intersection of U.S. Highway No. 27, and Tennessee State Route No. 153 to a point in the said northeast right-of-way of Boy Scout Road, said point being the intersection of the said northeast right-of-way of Boy Scout Road and the southeast property line of the property now or formerly owned by Jewell Hicks, thence in a southwest direction along the said southeast property line of the Jewell Hicks tract and line extended to the southeast corner of the property now or formerly owned by Josie Benton, thence along the southwest property line of the said Benton tract and line extended to the northwest right-of-way line of Gothard Road, thence in a southwest direction along the said northwest right-of-way of Gothard Road and line extended to a point in the west right-of-way line of Tennessee State Route No. 153, thence southward along said right-of-way line of Tennessee State Route No. 153 to the inter-section of said right-of-way line with the northwest right-of-way line of Grubb Road, thence in a southwest direction along the northwest right-of-way of Grubb Road with its intersection with the northwest right-of-way of Dowlen Road, thence in a westward direction along the said northwest right-of-way line of Dowlen Road to its intersection with the west line of Tower Road, thence in a southward direction along the west right-of-way line of Tower Road to the intersection of the said west right-of-way line of Tower Road with the north right-of-way line of Troxler Trail, thence in a westward direction along the said north right-of-way line of Troxler Trail and said line extended to the northwest right-of-way line of Crestview Drive, thence in a generally southward direction along the west line of Crestview Drive to the intersection of the west right-of-way line of Crestview Drive with the center line of Gadd Road being the Red Bank Corporation Line, thence following the corporation line in a generally westwardly direction along the center of Gadd Road to a point in the east right-of-way line of U. S. Highway No. 27, thence crossing said highway in a southwestward direction to the northeast corner of the property now or formerly owned by Chassie Shelton, said property corner being in the west right-of-way line of U. S. Highway No. 27, thence along the northeast property line of the said Shelton tract to the northwest corner of said tract, thence southwardly along the said Shelton's northwest property line to the Shelton's southwest corner, also being the northeast corner of the property now or formerly owned by W. M. Guess, thence following the said Guess southeast property line to the southeast corner of said Guess property, thence along the said Guess southwest property line to a point in said southwest property line, being the center line of McCahill Road, thence in a southwest direction with the center line of McCahill Road to the point of intersection with the center line of Browntown Road, thence in a northwest direction along the center line of Browntown Road to a point in said center line, said point being the intersection of the center line of Browntown Road with the southeast property line of the now or formerly owned property of Ida Brown, thence in a southwestward direction along the said Ida Brown southeast property line to the northeast corner of the now or formerly owned property of Bessie J. Brown, thence along the southeast property line of the said Bessie J. Brown tract to the northeast corner of the now or formerly owned property of The Title Guaranty and Trust Company, Trustees, tract thence along the southeast property line of the said Title Guaranty and Trust Company, Trustee, tract to the point of beginning.

ANNEXATION ORD. NO. 6397,
ENACTED FEBRUARY 2,1972,
OPERATIVE JULY 29, 1974

Under the authority conferred by law, there is hereby annexed to the City of Chattanooga, Tennessee, and include within the corporate boundaries of said city, the area described in Exhibit "A" attached hereto and made a part hereof by reference as fully and completely as though copied herein verbatim. That the territory to be annexed is identified as Area 4 and the boundaries thereof are shown on a plat hereto attached, marked Exhibit "B", and made a part hereof by reference.

EXHIBIT "A"

Description of proposed annexed area no. 4 for annexation boundary:

Beginning at a point that is located on the existing city limits of Chattanooga and the northern right-of-way of the Interstate Highway 24 said point is the northeasterly corner of property now or formerly owned by Will Cummings, thence westerly along the city limits of Chattanooga crossing Browns Ferry Road continuing thence southerly and thence easterly along the city limits line to the point of intersection with the east bank of Lookout Creek, said point is the northwest corner of property of Gulf Oil Corporation, thence southerly 1,000 feet more or less along the west line of property now or formerly owned by Gulf Oil Corporation to the southwest corner of said property, thence southerly a distance of 4,130 feet more or less along the westerly line of property now or formerly owned by J. C. Grant to the southwest corner of said property, thence southerly along the east bank of Lookout Creek crossing Cummings Highway to a point that is the southwest corner of property now or formerly owned by John A. Chambliss, said point is also the northwest corner of the Chattanooga National Military Park boundary, thence southerly along the east bank of Lookout Creek a distance of 11,000 feet more or less to a point that is the intersection of the east bank of said creek and the extension of the northern property line of property now or formerly owned by William Martin, thence west crossing the creek to the northeast property corner of property now or formerly owned by William Martin, thence west to the northwest property corner of said property, thence west to a point on the west right-of-way line of the Wauhatchie Pike, said point is located a distance of 1,500 feet more or less south of the intersection of the west right-of-way line of Wauhatchie Pike and the south right-of-way line of Cummings Road, thence north along the west right-of-way line of Wauhatchie Pike to the south right-of-way line of Cummings Road, thence west along the south right-of-way line of Cummings Road to the intersection of the west right-of-way line of Inter-state Highway 24, thence north along the west right-of-way line of Interstate Highway 24 to the intersection with the south right-of-way line of Cummings Highway to a point that is the northwest corner of property now or formerly owned by the State of Tennessee, thence north to the southwest corner of property now or formerly owned by Bill Igou, Jr., thence north to the southwest corner of property now or formerly owned by Fuller Bonding Company, thence north to the northwest corner of said property, said corner is on the southerly property line of property now or formerly owned by W. A. Kelley, thence east to the southeast corner of property now or formerly owned by A. W. Kelley, said corner is on the west line of property now or formerly owned by Paul B. Carter, thence southerly, easterly and northerly along said property to a point that is the southeast corner of property now or formerly owned by the United States of America—Park, thence northerly to the southerly right-of-way line of Elder Mountain Road, thence northerly along the southerly right-of-way line of said road and the extension of the west property line of the property now or formerly owned by the Fire and Police Club, thence north along the west line of said property line and property line extended to a point of intersection with the north line of TVA transmission line right-of-way, thence along the north right-of-way line of TVA Transmission line crossing properties now or formerly owned by Robert Lansford, John C. Tinker, Lawrence Boydston, Allie B. Myers and Ethyl B. Merriam, and Jessie Burgress, thence crossing the Tennessee River to the existing city line, thence southerly along existing city limits line to the point of beginning.

ANNEXATION ORD. NO. 6406,
ENACTED FEBRUARY 15, 1972

Under the authority conferred by Chapter 113, Public Acts of 1955, and the amendments thereto, (Sec. 6-308 thru 6-319 T.C.A.) that there be and is hereby annexed to the City of Chattanooga, Tennessee, and included within the corporate boundaries of said City the area known as the Billy Hull property in the Second Civil District of Hamilton County, Tennessee, contiguous to the corporate boundaries of said City, which territory is fully described as follows:

Beginning at the point of intersection of the northern line of the Billy Hull, Sr., property and the existing corporate limits of Chattanooga, Tennessee, being 300 feet north of and perpendicular to the center line

of Shallowford Road; thence westwardly along the existing corporate limits of Chattanooga, Tennessee, being 300 feet north of and perpendicular to the center line of Shallowford Road, to a point on the southwest property line of the Billy Hull, Sr., property, bounded on the southwest by the Grady Jacoway property; thence north 49 degrees 37 minutes west along the said southwest property line of Billy Hull, Sr., a distance of 103 feet, more or less, to a point; thence north 39 degrees 14 minutes east along the said Billy Hull, Sr., property line, distance of 434 feet to a point, bounded on the northwest by the Martha E. Moore property; thence south 65 degrees 38 minutes east along said property line of Billy Hull, Sr., a distance of 429 feet, more or less, to the point of beginning.

ANNEXATION ORD. NO. 6419,
ENACTED MARCH 9, 1972

Under the authority conferred by Chapter 113, Public Acts of 1955, and the amendments thereto, (Sections 6-308 thru 6-319, T.C.A.) that there be and hereby is annexed to the City of Chattanooga, Tennessee, and included within the corporate boundaries of said City the area known as the North Valley Land Company property in the Third Civil District of Hamilton County, Tennessee contiguous to the corporate boundaries of said City, which territory is fully described as follows:

Beginning at the Chattanooga City Limits that is 1000 feet West of Mountain Creek Road on the South line of the North Valley Development Corporation Property; thence North 53 degrees 11 minutes West 480 feet, plus or minus, to an Iron Pin; thence North 32 degrees 15 minutes East 278 feet to an Iron Pin; thence North 58 degrees 46 minutes West 375 feet to a Point; thence North 32 degrees 15 minutes East 1782 feet to a Point; thence South 50 degrees 46 minutes East 375 feet to an Iron Pin; thence North 32 degrees 45 minutes East 661 feet to a cross on a Rock; thence South 71 degrees 09 minutes East 620 feet, plus or minus, to the City Limits of Chattanooga being on the Northern Boundary of the North Valley Development Corporation; thence Southwardly and parallel to Mountain Creek Road and 1000 feet West to the point of beginning-containing 51 acres, more or less.

ANNEXATION ORD. NO. 6437,
ENACTED MAY 2, 1972

Under the authority conferred by Chapter 113, Public Acts of 1955, and the amendments thereto, (Sec. 6-308 thru 6-319 T.C.A.) that there be and hereby is annexed to the City of Chattanooga, Tennessee, and included within the corporate boundaries of said City the area known as the property of Lookout Properties, Incorporated, and others, in the Third Civil District of Hamilton County, Tennessee, contiguous to the corporate boundaries of said City, which territory is fully described as follows:

Beginning at a point in the southwest right-of-way line of Cummings Highway, said point being the northeast corner of the property now or formerly owned by the Chattanooga Lookout Mountain Park, of record in Book G, Vol. 28, Page 65 of the Register's Office of Hamilton County, Tennessee, and being in the boundary line of the City of Chattanooga, Tennessee, thence in a northwestward direction with the said right-of-way line of Cummings Highway, Chattanooga Lookout Mountain Park line and the said City boundary line and said line extended to the point of intersection of said line with the north line of the said Park property, thence with the said north line of the Park property in a westward direction to a point in the east right-of-way line of Old Wauhatchie Pike, thence crossing the said Old Wauhatchie Pike to a point in the west right-of-way line of said pike, said point being the intersection of the north property line of the property now or formerly owned by the Title Guaranty and Trust Company, Trustee, and the said east right-of-way of the said Old Wauhatchie Pike, thence following the property line of the said Title Guaranty and Trust Company, Trustee, tract in a westward direction and said line extended across Guild Trail to a point in the westwardly right-of-way line of the said Guild Trail, said point being the intersection of the said right-of-way line of Guild Trail and the north property line of the property now or formerly owned by Irene H. Wolensky, thence following the westwardly right-of-way line of Guild

Trail in a southeastward direction to the intersection of the said right-of-way line and the southern property line of the said Wolensky tract, thence in a westwardly direction with Wolensky south property line to a point in the eastern line of Lookout Mountain Boulevard said point begin [sic., being] the southwest corner of the Wolensky tract, thence with the east right-of-way line of Lookout Mountain Boulevard in a southeastward direction along the said right-of-way to a point, said point being the most southern corner of the Lookout Properties, Incorporated tract, thence leaving the said east right-of-way line of Lookout Mountain Boulevard and following the property line of the said Lookout Properties, Incorporated in eastward, north-eastward directions to the most southern corner of the property now or formerly owned by L. D. Farrar, Jr., thence following the western property line of the said Farrar tract in a northward and eastward direction to a point in the eastern line of Jackson Road (not opened), thence in a northeastward direction crossing Guild Trail and following the southern property lines of the property now or formerly owned by Title Guaranty and Trust Company, Trustee, the property now or formerly owned by Carl L. Gibson, crossing Old Wauhatchie Pike and continuing along the southern property line of the aforesaid now or formerly owned property of Chattanooga Lookout Mountain Park to a corner in said property, thence in southward, northeastward, eastward, south-eastward and northeastwardly directions with the said Chattanooga Lookout Mountain Park property lines to a point in the west right-of-way line of Cummings Highway and the boundary line of the City of Chattanooga, said point being the point of beginning.

ANNEXATION ORD. NO. 6781,
ENACTED AUGUST 13, 1974

Under the authority conferred by Chapter 113, Public Acts of 1955, and the amendments thereto, (Sections 6-308 thru 6-319 T.C.A.) that there be and hereby is annexed to the City of Chattanooga, Tennessee, and included within the corporate boundaries of said City the area known as the property of K. D. Covey and others, a map of which is attached hereto and made a part hereof by reference, contiguous to the corporate boundaries of said city, which territory is fully described as follows:

Beginning at the extreme eastern corner of the lands of Winnie Light, located on the southwest line of Cummings Highway, and being also in the northwestern line of what has been known as the Robert Scholze property; thence along the northwestern line of what has been known as the Robert Scholze property, and being in part along a fence line, south forty-five (45) degrees fifteen (15) minutes west, two hundred eighty-one and seven-tenths (281.7) feet to an old iron pin; thence continuing with a fence line, north sixty-five (65) degrees forty-five (45) minutes west, seventy and five-tenths (70.5) feet; thence continuing with a fence line, south thirty-five (35) degrees west, seventy-six and eighth-tenths (76.8) feet; thence north sixty (60) degrees west, one hundred ninety-six (196) feet; thence north thirty-five (35) degrees east four hundred and thirty-six and eight-tenths (436.8) feet, more or less, to the intersection of said line with the present boundary of the city on Cummings Highway; thence along the current boundary of the city and the 19th Ward in a south and easterly direction to the point of beginning.

ANNEXATION ORD. NO. 8830,
ENACTED SEPTEMBER 1, 1987

Under the authority conferred by Chapter 113, Public Acts of 1955, and the amendments thereto (T.C.A. § 6-51-101, et seq.), that there be and hereby is annexed to the City of Chattanooga, Tennessee, and included within the corporate boundaries of said City the area known as the property of The Boaz Company, a map of which is attached hereto and made a part hereof by reference, contiguous to the corporate boundaries of said City along Morris Hill Road, which territory is fully described as follows:

TRACT ONE (1): Being a part of the Northwest 1/4 of Section 18, Township 1, South, Range 2 West of the Basis Line, Ocoee District and described as: Beginning at a point in the East line of Morris Hill Road at the South line of Ray Jo Estates, Unit 1, as shown by plat recorded in Plat Book 25, page 11, of the

Register's Office of Hamilton County, Tennessee, if extended Westwardly to the East line of Morris Hill Road; thence along said line extended Westwardly and the South line of Ray Jo Estates, Unit 1, South 67 degrees 30 minutes East 1,270.5 feet to an iron pipe; thence South 24 degrees 18 minutes West 365 feet to an iron pipe; thence North 66 degrees 48 minutes West 1,265.8 feet to the East line of Morris Hill Road; thence along the East line of Morris Hill Road, North 23 degrees 04 minutes East 355.6 feet to the beginning.

TRACT TWO (2): Being a part of the Northwest 1/4 of Section 18, Township 1 South, Range 2 West of the Basis Line, Ocoee District and described as: Beginning at an iron pipe in the East line of Morris Hill Road at the Southwest corner of the property conveyed to Joseph F. Wheless and wife, recorded in Book 877, page 243, of the Register's Office of Hamilton County, Tennessee; thence along the East line of Morris Hill Road, North 23 degrees 04 minutes East 355.6 feet to an iron pipe; thence South 66 degrees 48 minutes East 1,265.8 feet to an iron pipe; thence South 24 degrees 18 minutes West 365 feet to the Southeast corner of the Wheless property; thence along the South line of the Wheless property, North 66 degrees 07 minutes West 1,261.2 feet to the beginning.

ANNEXATION ORD. NO. 9058
ENACTED NOVEMBER 8, 1988

Under the authority conferred by Chapter 113, Public Acts of 1955, and the amendments thereto (T.C.A. § 6-51-101, et seq.), that there be and hereby is annexed to the City of Chattanooga, Tennessee, and included within the corporate boundaries of said City the area known as the property of Don Williams, a map of which is attached hereto and made a part hereof by reference, contiguous to the corporate boundaries of said City along Hixson Marina Road, which territory is fully described as follows:

Being a tract of land on Fairview Road and more particularly described as follows: To find the point of beginning, begin at the western most corner of Lot One (1), Harbor Ridge Estates, as shown by plat of record in Plat Book 42, page 185, said point also being in the east line of Fairview Road; thence along and with said east line the following bearings and distances: South 24° 15' 57" West 201.97 feet, South 31° 53' 37" West 176.76 feet; South 35° 58' 27" West 164.20 feet to a point in said east line, which is the point of beginning; thence South 44° 27' 29" East 78.41 feet to a point; thence South 89° 37' 10" East 302.13 feet to a point; thence North 86° 55' 22" East 102.43 feet to a point; thence curving to the west on a radius of 410.56 feet for an arc of 131.89 feet to a point; thence North 39° 13' 14" East 221.40 feet to a point in the original northwest line of the property conveyed to Elbert Harvey and wife, in Book 820, page 523, in the Register's Office of Hamilton County, Tennessee, said point also being in the southwest line of Lot 1, Harbor Ridge Estates; thence South 51° 36' 47" East 266.85 feet to an iron pin at the southern most corner of Lot One (1); thence South 51° 43' 37" East 1,613.34 feet to a point; thence south 52° 21' 25" East 1,276.92 feet to an iron pin and a stone, being the original east corner of the property conveyed in Book 820, page 523; thence South 36° 49' 43" West 536.0 feet to a point at the east corner of the Ashley property conveyed by deed in Book 2742, page 815, said Register's Office; thence North 45° 10' 17" West, 75 feet to the north corner of said property; thence South 36° 49' 43" West, 100 feet to the west corner of said property; thence South 45° 10' 17" East, 75 feet to the north corner of said property; thence South 36° 49' 43" West 320.61 feet to a point in the northwest line of Hixson Marina Road; thence Southwardly along and with said northwest line, 613.17 feet to a concrete monument; thence North 42° 59' 30" West 294.29 feet to a concrete monument; thence North 44° 10' 10" West 564.54 feet to a concrete monument; thence North 45° 51' 04" West 89.91 feet to a concrete monument; thence South 43° 02' 42" West 435.90 feet to a point; thence North 69° 09' 44" West 314.39 feet to an iron pin; thence North 31° 08' 56" West 242.28 feet to a fence corner; thence South 59° 24' 49" West 42.68 feet to a fence corner; thence North 27° 14' 09" West 563.63 feet to a point; thence North 19° 03' 34" West 297.0 feet to a point; thence North 27° 58' 14" West 200 feet to an iron pin; thence North 68° 34' 43" West 50.14 feet to a fence corner; thence North 52° 21' 06" East 100.24 feet to an iron pin; thence North 1° 55' 50" West 408.73 feet to a point; thence North 80° 06' 08" West 294.06 feet to an iron pipe; thence

North 06° 50' 40" East 423.39 feet to an iron pipe; thence North 57° 18' 40" West 372.11 feet to a concrete monument; thence North 72° 33' 15" West 106.19 feet to an iron pipe in the east line of Fairview Road; thence north along and with said east line, 356.22 feet to the point of beginning, all as shown by survey of David Matthews Surveying Co. dated April 30, 1988.

Last recorded Deed and prior title in Book 551, Page 663, Book 581, Page 76, Book 584, Page 165, Book 820, Page 523, and in Book 1005, Page 478, said Register's Office.

ANNEXATION ORD. NO. 9063,
ENACTED NOVEMBER 22, 1988

Under the authority conferred by Chapter 113, Public Acts of 1955, and the amendments thereto (T.C.A. § 6-51-101, et seq.), that there be and hereby is annexed to the City of Chattanooga, Tennessee, and included within the corporate boundaries of said City the area known as Hixson Marina Road, contiguous to the corporate boundaries of said City at Big Ridge Road, which territory is fully described as follows:

Hixson Marina Road beginning at the intersection of the northwest line of Hixson Marina Road with the northeast line of Big Ridge Road, thence northeast some 1035 feet with the northwest line of Hixson Marina Road to the northernmost point of which the Don Williams and Ben Spangler tract is contiguous to said Hixson Marina Road, thence at a right angle southeast 40 feet to the southeast line of Hixson Marina Road, thence southwest some 145 feet with the southeast line of Hixson Marina Road to the Chattanooga city limit line, thence continuing southwest some 880 feet with the southeast line of Hixson Marina Road and that Chattanooga city limit line to the northeast line of Big Ridge Road (if extended), thence northwest some 40 feet to the intersection of the northwest line of Hixson Marina Road with the northeast line of Big Ridge Road, the point of beginning.

ANNEXATION ORD. NO. 9084,
ENACTED DECEMBER 13, 1988

Under the authority conferred by Chapter 113, Public Acts of 1955, and the amendments thereto (T.C.A. § 6-51-101, et seq.), that there be and hereby is annexed to the City of Chattanooga, Tennessee, and included within the corporate boundaries of said City the area known as Fairview Road Properties, contiguous to the corporate boundaries of said City at Big Ridge Road, which territory is fully described as follows:

Lots 1-5, Resubdivision of Lot Number 1, Division of Big Ridge Development Company, as shown by plat of record in plat book 39, page 112, Register's Office of Hamilton County, Tennessee, lots 1-5, Edwin Harvey Subdivision, as shown by plat of record in plat book 44, page 221, Register's Office of Hamilton County, Tennessee, an unplatted tract, and part of Fairview Road. Said lots, unplatted tract, and part of street form one tract beginning on the northeast line of Big Ridge Road some 490 feet northwest of the intersection of the northeast line of Big Ridge Road with the northwest line of Fairview Road, said point being the southwest corner of property currently owned by Dallas A. Jones, thence northwest, northeast, and northwest some 1860 feet with the northeast and southeast line of Big Ridge Road to the southeast corner of property currently owned by Estelle Breedlove and George Joaquin, thence northeast 140 feet with the southeast line of said Breedlove and Joaquin tract to the northeast corner thereof, thence southeast some 720 feet, thence northeast some 290 feet, thence southeast some 520 feet to the southeast line of Fairview Road, thence southwest some 300 feet with the southeast line of Fairview Road to the northwest corner of lot 1, said Edwin Harvey Subdivision, thence with the northeast line of said subdivision southeast 106.19 feet, and southeast 372.11 feet to the northeast corner thereof, thence southwest 423.39 feet with the southeast line of said subdivision, thence northwest 752.57 feet with the southwest line of said subdivision to the southeast line of Fairview Road, thence southwest some 720 feet to the southwest line of the said Dallas Jones tract if said line were extended across Fairview Road, thence northwest, crossing Fairview Road and continuing with the southwest line of the said Jones tract, some 300 feet to the northeast line of Big Ridge Road, the point of beginning.

ANNEXATION ORD. NO. 9335*
ENACTED MARCH 1, 1990

Pursuant to authority conferred by Tennessee Code Annotated, Sections 6-51-101 to 6-51-113, there is hereby annexed to the City of Chattanooga, Tennessee, and incorporated within the corporate boundaries thereof, the following described territory adjoining the present corporate boundaries:

Embracing that certain part of Civil District No. 2 of Hamilton County, Tennessee, and more fully described, to-wit:

Beginning on the southeast line of Old Lee Highway some 575 feet southwest of the intersection of the southeast line of Old Lee Highway with the northwest line of Green Shanty Road, said point also being the intersection of the southeast line of Old Lee Highway with the Chattanooga City Limit line, thence northwest 100 feet with said city limit line to the northwest line of Old Lee Highway, thence with Old Lee Highway northeast some 1090 feet, southeast some 15 feet, and northeast, southeast, and northeast some 4400 feet to the northeast line of Apison Pike (if extended), thence southeast some 1650 feet with Apison Pike, thence southwest 60 feet to the southwest line of Apison Pike, said point being 500 feet southeast of the intersection of the southwest line of Apison Pike with the southeast line of Pattentown Road, thence southwest at a right angle 300 feet, thence southeast and northeast some 1110 feet parallel to, and at all points 300 feet from, Apison Pike to the southwest line of a 100 foot T.V.A. transmission line easement, thence southeast some 1940 feet, with the southwest line of said easement to a point 500 feet (if measured at a right angle) southwest of the southwest line of Apison Pike, thence southeast some 1912 feet parallel to, and at all points 500 feet southwest of, the southwest line of Apison Pike to a point in the northwest line of the Barnie Joe and Darlene Hagan property, thence with Hagan's property lines southwest some 100 feet, southeast some 15 feet, southwest some 200 feet, southeast some 405 feet, southwest some 104 feet, southeast some 275 feet, and northeast some 320 feet to the Collegedale City Limit line, thence with said city limit line southeast some 1290 feet and southwest some 1390 feet, thence leaving said city limit line and continuing southwest some 3610 feet to the southwest line of the W. A. Varnell property, thence northwest some 1460 feet with Varnell's southwest line to the southeast line of property owned by the City of Chattanooga, thence with the City's property lines southwest some 1780 feet, northwest some 1330 feet, northeast some 710 feet, northwest some 420 feet, northeast some 900 feet, southeast some 430 feet, northeast some 425 feet, southeast some 750 feet, northeast some 260 feet, northwest some 270 feet, northeast some 410 feet, and northwest some 2420 feet to the northeast line of Woodland Drive, thence northwest some 670 feet with Woodland Drive, thence with the City's property lines northeast some 990 feet, northwest some 215 feet, northeast some 215 feet, northwest some 180 feet, southwest some 40 feet, northwest 103.4 feet, southwest some 22 feet, northwest some 425 feet, northeast some 265 feet, northwest some 210 feet, southwest some 310 feet, northwest some 220 feet, northeast some 420 feet, southeast some 40 feet, southwest some 170 feet, southeast some 560 feet, northeast some 315 feet, northwest some 575 feet, and northeast some 330 feet to the northeast corner of the property owned by Celestine Maston said point being in the southwest line of property owned by Elbert L. and Lorine F. Fox, thence with Fox's property lines northwest some 780 feet, northeast some 640 feet, and northwest some 855 feet to the southeast line of Pattentown Road, thence northeast some 515 feet with Pattentown Road to the southwest line of Apison Pike, thence crossing Pattentown Road and continuing northwest with Apison Pike some 1100 feet to the southeast line of Old Lee Highway, thence with Old Lee Highway southwest, northwest, and southwest some 4400 feet, northwest some 15 feet, and southwest some 1090 feet to the Chattanooga City Limit line, the point of beginning.

***Note—**Subsequently amended by Ord. Nos. 10359, adopted January 16, 1996, and 10371, adopted February 6, 1996.

ANNEXATION ORD. NO. 9359
ENACTED MAY 8, 1990

Pursuant to authority conferred by Tennessee Code Annotated, Sections 6-51-101 to 6-51-113, there is hereby annexed to the City of Chattanooga, Tennessee, and incorporated within the corporate boundaries thereof, the following described territory adjoining the present corporate boundaries:

Property located in the 6400 block of Fairview Road, being on the southeast line of Fairview Road northeast of Big Ridge Road, and the northeast line of Big Ridge Road southeast of Fairview Road.

Harbor Ridge Estates and an unplatted tract together forming one tract beginning on the southeast line of Fairview Road some 2110.22 feet northeast of the intersection of the southeast line of Fairview Road with the northeast line of Big Ridge Road, said point being the northwest corner of lot 1, Bay Pointe Estates Subdivision, as shown by plat of record in plat book 43, page 106, R.O.H.C., thence northeast some 1139.3 feet with Fairview Road to the southeast line of Folkner Road, thence northeast and southeast 1103.56 feet with Folkner Road to the northeast corner of lot 16, Harbor Ridge Estates, as shown by plat of record in plat book 42, page 185, R.O.H.C., thence southwest 557.71 feet to the southeast corner of said lot, thence northwest 150.11 feet with the southwest line of lots 16 and 15 to the northeast corner of lot 1, said Harbor Ridge Estates, thence southwest 531.06 feet with the southeast line of lot 1 to the southeast corner thereof, said point being in the northeast line of said Bay Pointe Estates subdivision, thence northwest 266.85 feet with the line between said Bay Pointe Estates and said Harbor Ridge Estates to the northwest corner of lot 2, Bay Pointe Estates, thence southwest 221.4 feet with the northwest line of said lot 2 to the northeast line of Bay Pointe Drive, thence northwest and southwest 234.32 feet with Bay Pointe Drive to the southeast corner of lot 1, Bay Pointe Estates, thence with the northeast lines of said lot 1 northwest 302.13 feet and northwest 78.41 feet to the southeast line of Fairview Road, the point of beginning.

ANNEXATION ORD. NO. 9860
ENACTED APRIL 6, 1993

Under the authority conferred by Chapter 113, Public Acts of 1955, and the amendments thereto (T.C.A. § 6-51-101, et seq.), that there be and hereby is annexed to the City of Chattanooga, Tennessee, and included within the corporate boundaries of said City the area known as the property of Blaine Reese, contiguous to the corporate boundaries of said City along Mountain Creek Road, which territory is fully described as follows:

LOCATED IN THE CITY OF CHATTANOOGA, HAMILTON COUNTY, TENNESSEE:

Beginning at an iron pin in the Northwest corner of said property said point being a common corner with the property of Richard Compton described in deed recorded in Book 3961, Page 247, in said Register's Office and the property of Corena Combs Cross, described in Deed recorded in Book 2782, Page 522, in said Register's Office; thence South 01 degrees 00 minutes West 518.14 feet to an iron pin, a common corner of the Richard Compton property; thence South 60 degrees 59 minutes 04 seconds East 271.41 feet, more or less, to a point being the boundary of the corporate limits of the City of Chattanooga, thence southwestwardly along said corporate limits to the point of beginning.

Being a part of the property conveyed to Blaine R. Reese by Zona B. Mabry.

ANNEXATION ORD. NO. 9890
ENACTED JUNE 1, 1993

Under the authority conferred by Chapter 113, Public Acts of 1955, and the amendments thereto (T.C.A. § 6-51-101, et seq.), that there be and hereby is annexed to the City of Chattanooga, Tennessee, and included within the corporate boundaries of said City the area known as the property of William C. Haisten, Sr.,

contiguous to the corporate boundaries of said City in the Georgetown Trace Subdivision, which territory is more fully described in the legal description and map attached hereto and incorporated herein by reference.

Being a tract of land located on the eastern end of the proposed Georgetown Trace Development, being the William Haisten's property and being more particularly described as follows:

Beginning at the southeastern most corner of Lot 24, Ray-Jo Estates, Unit 3, recorded in plat book 31, page 162, thence north 24 degrees 26 minutes east a distance of 38.0 feet, thence along the southern line of the John Wright property south 58 degrees 02 minutes east a distance of 278.35 feet, thence south 64 degrees 25 minutes east a distance of 79.48 feet, thence south 67 degrees 15 minutes east a distance of 67.64 feet, thence along the western right-of-way of an unopened 20 foot road the following calls, south 27 degrees 45 minutes west a distance of 211.89 feet, thence south 43 degrees 27 minutes west a distance of 428.40 feet, thence south 70 degrees 18 minutes west a distance of 210.0 feet, thence north 75 degrees 09 minutes west a distance of 35.0 feet, thence north 63 degrees 54 minutes west a distance of 70.0 feet, thence leaving said right-of-way north 21 degrees 11 minutes east a distance of 37.44 feet, thence north 40 degrees 47 minutes east a distance of 712.19 feet to the point of beginning. All containing 5.8 acres as shown on a survey by David Mathews Surveying Dwg. No. 92-S1619.

ANNEXATION ORD. NO. 10044
ENACTED MAY 17, 1994

Under the authority conferred by Chapter 113, Public Acts of 1955, and the amendments thereto (T.C.A. § 6-51-101, et seq.), that there be and hereby is annexed to the City of Chattanooga, Tennessee, and included within the corporate boundaries of said City an area of Elder Mountain, in Marion County, contiguous to the corporate boundaries of said City, which territory is more fully described as follows:

Being that portion of Lots 16 and 17, Unit One, Elder Mountain Subdivision, located in Hamilton and Marion Counties, Tennessee, and recorded in the Marion County Register's Office in Plat Book 2, page 80, more particularly described as follows:

Beginning at a point in the north lot line of Lot 17 and the south lot line of Lot 19 of Unit One, Elder Mountain Subdivision, at the intersection of Hamilton and Marion County Lines and the City of Chattanooga Limits said point being 187 feet, more or less, S 51° 56' west of the northwest corner of said Lot 17 in the east right-of-way of Cumberland Road; thence southwardly along said City Limit and County Line, 382 feet more or less to a point in Lot 16 and Lot 17 and 220 feet more or less S 57° 14' E from an iron pin in the east right of line of Cumberland Road; thence N 57° 14' W 220 feet more or less to an iron pin in the east right-of-way of Cumberland Road that is 487.73 feet northwardly along said east right-of-way line from its intersection with the north right-of-way line of Elder Mountain Road; then northwardly 404.97 feet along said east right-of-way line of Cumberland Road to the northwest corner of Lot 17, being the southwest corner of Lot 19; thence S 51° 56' E along the line of Lot 17 and Lot 19, 187 feet more or less to the point of beginning.

ANNEXATION ORD. NO. 10115*
ENACTED OCTOBER 4, 1994

Pursuant to authority conferred by Tennessee Code Annotated, Sections 6-51-101 to 6-51-113, there is hereby annexed to the City of Chattanooga, Tennessee, and incorporated within the corporate boundaries thereof, the following described territory adjoining the present corporate boundaries:

Beginning at a point in the southern boundary of the corporate limits of the City of Soddy-Daisy starting at the southwestern corner of the Soddy-Daisy corporation limits presently north of Selcer Road; thence

---

***Note—**Subsequently amended by Ord. No. 10836, adopted March 2, 1999.

following the northern right-of-way boundary of Selcer Road westward until Selcer Road intersects with the western right-of-way boundary of Loop Road; thence following the western right-of-way boundary of Loop Road southward until it intersects with the southern right-of-way boundary of Higgins Road; thence following the eastern property line of Parcel 53, Tax Map 73, and continuing southward along the eastern boundary of Parcel 46, Tax Map 73, to the northeastern corner of Parcel 4, Tax Map 82; thence following the northern boundary of Parcel 4, Tax Map 82, and the northern boundary of Parcel 2, Tax Map 82, continuing across Roberts Mill Road and onto the center line of Falling Water Creek; thence continuing southeastwardly with the center line of Falling Water Creek until Falling Water Creek intersects with the western right-of-way boundary of Dayton Pike; thence continuing in a generally southern direction following the western right-of-way boundary of Dayton Pike until it intersects the northern right-of-way boundary of Old Dayton Pike; thence continuing in a generally southwestward direction along Old Dayton Pike crossing Pitts Road and continuing until Old Dayton Pike intersects with the northern right-of-way boundary of U.S. Highway 29; thence continuing across U.S. Highway 29 to the southern right-of-way boundary of Boy Scout Road at its intersection with the eastern right-of-way boundary of U.S. Highway 29; thence continuing with the southern right-of-way boundary of Boy Scout Road crossing Old Dayton Pike and continuing with the southern right-of-way boundary of Boy Scout Road in an eastward direction until Boy Scout Road intersects the eastern right-of-way boundary of the Southern Railway; the eastern boundary of the annexed property will then proceed northward along the eastern right-of-way boundary of Southern Railway to the point that the eastern right-of-way boundary of the Southern Railway intersects the eastern property line of Parcel 251, Tax Map 82; the eastern limit of the annexation property shall then follow the eastern boundary of Parcel 251, Tax Map 82, northward until it touches the southwestern corner of Parcel 222, Tax Map 82; thence following the southern boundaries of Parcels 222 and 223 eastward to the southeastern corner of Parcel 223, Tax Map 82; thence following the eastern boundaries of Parcels 223, 220.1, and 220 northward to the northeastern property line of Parcel 220, Tax Map 82; thence following the northern boundary of Parcel 220, Tax Map 82, westward to the point that it intersects with the southeastern boundary of Parcel 16, Tax Map 82; thence following the eastern boundary of Parcel 16, Tax Map 82, northward until the eastern boundary of Parcel 16, Tax Map 82, reaches a point in the southern boundary of Tax Map 82F-A-26; thence eastward along the southern boundary of Tax Map 82F-A-26; thence in a northern direction following the eastern boundary of Tax Map 82F-A-26 some 140' to a point; thence southeast some 430' to a point in the western right-of-way boundary of Harper Road; thence following the western right-of-way boundary of Harper Road northward until it meets the southeastern corner of Tax Map 73M-C-27, and the southwestern corner of Tax Map 73M-C-26; thence following the southwestern property line of Tax Map 73M-C-26, northward to its northwestern corner; thence following the northern boundary lines of Tax Map 73M-C-26 and 73M-C-23, eastward until it meets the southeastern corner of Tax Map 73M-C-27, and the western boundary line of Tax Map 73M-C-7; thence continuing northwestwardly along the western boundary of Tax Map 73M-C-7 and 73M-C-6, to the northwestern corner of Tax Map 73M-C-6, and the southwestern corner of Tax Map 73M-C-5; thence continuing eastward along the northern boundary of Tax Map 73M-C-6, and the southern boundary of Tax Map 73M-C-5, until those boundaries reach the western right-of-way boundary of Thrasher Pike; thence crossing Thrasher Pike and continuing to the northern right-of-way boundary of Thrasher Pike to the present boundary line of the City of Soddy-Daisy, Tennessee; thence continuing westward with the southern boundary of the corporate limits of the City of Soddy-Daisy until the point of beginning.

ANNEXATION ORD. NO. 10156
ENACTED JANUARY 10, 1995

Pursuant to authority conferred by Tennessee Code Annotated, Sections 6-51-101 to 6-51-113, there is hereby annexed to the City of Chattanooga, Tennessee, and incorporated within the corporate boundaries thereof, the following described territory adjoining the present corporate boundaries:

The area to be annexed consists of parcel 15, Hunnicutt map 154, and all road rights-of-way which are contiguous to parcel 15, plus any rights-of-way which are within parcel 15.

ANNEXATION ORD. NO. 10186
ENACTED MARCH 28, 1995

Pursuant to authority conferred by Tennessee Code Annotated, Sections 6-51-101 to 6-51-113, there is hereby annexed to the City of Chattanooga, Tennessee, and incorporated within the corporate boundaries thereof, the following described territory adjoining the present corporate boundaries:

BEGINNING on the east bank of Lookout Creek and the Dade County, Georgia/Hamilton County, Tennessee line; thence, in a westerly direction along the county/state lines, and the south lines of parcels 3 and 6, Hunnicutt map 166, to a point in the east right-of-line of the Southern Railway and the county/state lines; thence, along Southern Railway's east right-of-way line and the west property line of parcels 6 and 3, map 166, to the southwest property corner of parcel 3.5, map 166; thence, in a southeastern direction along the common property line between parcels 3 and 3.5, map 166, to the southeast corner of parcel 3.5, map 166; thence, in a northeastern direction along the common property line between parcels 3 and 3.5, map 166, to the existing Chattanooga, Tennessee city limit line; thence, in a southeasterly direction along the existing city limit line to the east bank of Lookout Creek; thence, meandering along the east bank of Lookout Creek, in a southwesterly direction, to the POINT OF BEGINNING.

ANNEXATION ORD. NO. 10187
ENACTED MARCH 28, 1995

Pursuant to authority conferred by Tennessee Code Annotated, Sections 6-51-101 to 6-51-113, there is hereby annexed to the City of Chattanooga, Tennessee, and incorporated within the corporate boundaries thereof, the following described territory adjoining the present corporate boundaries:

BEGINNING at the southwest corner of parcel 8, Hunnicutt tax map 165, said point being on the Dade County, Georgia/ Hamilton County, Tennessee line; thence, in a northeasterly direction, along the west property line of parcels 8, 9, and 10.2, map 165, and continuing along the west property line of parcel 28.1, map 153, to its northwestern corner, which is in the existing Chattanooga, Tennessee city limits; thence, in a southeasterly direction along the north property line of said parcel 28.1 and the existing city limit line, extending across Interstate 24 to the western right-of-way line of U.S. Highway 11; thence, still following the existing city limit line and the western right-of-way line of U.S. Highway 11 on the eastern property line of parcel 10.1, map 165, in a southeastern direction, crossing the L & N RR right-of-way, then following the eastern property line of parcel 5, map 166 to its most southeastern corner, said corner is in the western right-of-way line of U.S. Highway 11; thence, leaving U.S. Highway 11 in a northwesterly direction, along the south property line if parcel 5, map 166, and the north property line of parcel 18, map 165 to the east right-of-way line of the L & N RR, said point being the northwest corner of parcel 18, map 166; thence, in a southwesterly direction, along the aforesaid east right-of-way line and the west property lines of parcels 18 and 16, map 165, continuing across the L & N spur track to the Wauhatchie Railroad Yards, then continuing along the east right-of-way line of the L & N RR and the west property line of parcel 14, map 165, and parcel 2, map 177, to the Dade County, Georgia/Hamilton County, Tennessee line; thence, westwardly along the said county/state line, being also the south line of parcel 8, map 165, to the POINT OF BEGINNING.

ANNEXATION ORD. NO. 10190
ENACTED APRIL 4, 1995

Pursuant to authority conferred by Tennessee Code Annotated, Sections 6-51-101 to 6-51-113, there is hereby annexed to the City of Chattanooga, Tennessee, and incorporated within the corporate boundaries thereof, the following described territory adjoining the present corporate boundaries:

The area to be annexed adjoins the western line of the Chattanooga City Limits on the north right-of-way line of Cummings Highway (US Route 41, 64, 72, and Tennessee State Route 2), at the most southern

property corner of Parcel 22, Hunnicutt Tax Map No. 143; thence, in a northwesterly direction along the northern right-of-way line of Cummings Highway and the southern property line of Parcels 22, and 23, Map 143, to the southeastern property corner of Parcel 24, Map No. 143; thence, along the eastern property line of Parcel 24, Map No. 143 and the western property lines of Parcels 23, 30, and 42, Map No. 143 in a northeasterly direction to a point in the property line of Parcel 43, Map No. 143 and the southeastern line of Wilcox Road; thence, in a south-westerly direction along the southeastern line of Wilcox Road and Parcel 43, Map No. 143 to a point; thence, in a southwesterly direction, leaving Wilcox Road, along the property line between Parcel 24, Map No. 143 and Parcels 43, 28, and 29 (Crossing Wilcox Road), Map No. 143, to the southeastern property corner of Parcel 29, Map No. 143; thence, in a north-westerly direction along the property line between Parcels 24 and 29, Map No. 143, to a point in the eastern line of Parcel 25, Map No. 143, being also the southwestern property corner of Parcel 29, Map No. 143; thence, in a south-westerly direction, along the property line between Parcels 24 and 25, Map No. 143, to a point in the northern right-of-way line of Cummings Highway; thence, along the northern right-of-way line of Cummings Highway along the southern property line of Parcel 25, Map No. 143, to the Marion/Hamilton County Line; thence, crossing the Cummings Highway right-of-way in a southwesterly direction along the county line, to the southern right-of-way line of Cummings Highway to the northwestern property corner of Parcel 1, Map No. 143; thence, following the south-western right-of-way line of Cummings Highway in a southeasterly direction, fronting on Parcels 1, 1.1, 1, 6, 12, 7, 8, 10, 12, 13, 14, 15, 16, 17, 18, 12, 19, 20, Map No. 143, Parcels 1 and 2, Map No. 153, to a point in the existing Chattanooga City Limit Line; thence, along the existing city limit line in a northeasterly direction, crossing to the Cummings Road northeastern right-of-way line to the POINT OF BEGINNING as shown by the attached map.

ANNEXATION ORD. NO. 10192
ENACTED APRIL 4, 1995

Under the authority conferred by Chapter 113, Public Acts of 1955, and the amendments thereto (T.C.A. § 6-51-101, et seq.), that there be and hereby is annexed to the City of Chattanooga, Tennessee, and included within the corporate boundaries of said City an area on the side of Lookout Mountain, in Hamilton County, contiguous to the corporate boundaries of said City, owned by Charles W. Walldorf and Flora Harkey Walldorf, which territory is more fully described as follows:

Lot 31, and part of lots 27 and 29, Cravens and McMillins Addition to Lookout Mountain, as shown by plat of record in plat book 2, page 39, ROHC; being the properties described as Tracts 2, 3 and 4 in deed book 3607, page 439, ROHC; together with that part of Shingle Road and Elinor Street which adjoins said tracts. Said lot, parts of lots, and parts of streets form one tract beginning at the intersection of the southeast line of Elinor Street with the northeast line of Shingle Road, thence southwest some 33 feet with the extension of the southeast line of Elinor Street to the southwest line of Shingle Road, thence northwest some 322 feet with the southwest line of Shingle Road to the northwest line of said Tract 3 (if extended southwestwardly), thence northeast some 245.1 feet, crossing Shingle Road, and continuing with the northwest line of said Tracts 3 and 2 to the southwest line of Carolina Street, thence southeast some 191.7 feet with the southwest line of Carolina Street, and said line extended, to the southeast line of Elinor Street, thence southwest some 255 feet with the southeast line of Elinor Street to the northeast line of Shingle Road, the point of beginning. Tax Map No. 155I-B-5.

ANNEXATION ORD. NO. 10193
ENACTED APRIL 4, 1995

Under the authority conferred by Chapter 113, Public Acts of 1955, and the amendments thereto (T.C.A. § 6-51-101, et seq.), that there be and hereby is annexed to the City of Chattanooga, Tennessee, and included

within the corporate boundaries of said City an area on the side of Lookout Mountain, in Hamilton County, contiguous to the corporate boundaries of said City, owned by James T. Williams, III, which territory is more fully described as follows:

Parcel 155I-B-004: The area to be annexed adjoins the Chattanooga City Limits on the northeastern right-of-way of Hardy Trail and consists of all of Parcel B-004, Hunnicutt tax map number 155I, plus that portion of Carolina Street which fronts on the north-eastern property line of said Parcel B-004.

Parcel 155I-B-011: The area to be annexed adjoins the Chattanooga City Limits Line on the northeastern line of Parcel 15, Hunnicutt Tax Map Number 154, and consists of all of Parcel B-011, said map number 155I, plus that portion of Cravens Road which is contiguous to said parcel on its northeastern property line.

ANNEXATION ORD. NO. 10194
ENACTED APRIL 4, 1995

Under the authority conferred by Chapter 113, Public Acts of 1955, and the amendments thereto (T.C.A. § 6-51-101, et seq.), that there be and hereby is annexed to the City of Chattanooga, Tennessee, and included within the corporate boundaries of said City an area on the side of Lookout Mountain, in Hamilton County, contiguous to the corporate boundaries of said City, owned by William L. Frierson, Amy H. Frierson and Susan Dabney Frierson James, which territory is more fully described as follows:

PARCELS 155H-B-016,
155I-A-001, & 155I-A-002

The area to be annexed adjoins the Chattanooga City Limits on the northeastern property corner of Parcel A-002, Hunnicutt Tax Map Number 155I, being also in the southern right-of-way line of Cravens Terrace; thence, in a southwesterly direction, following the existing Chattanooga City Limits and the property line between Parcel 015, Map 154, and Parcels A-002 and A-001, Map 155I, to the most southeastern corner of Parcel A-001, Map 155I; thence, in a northwesterly direction still following the existing city limits line and the property line between Parcel 015, Map 154, and Parcel A-001, Map 155I, to the most southwestern corner of Parcel A-001, Map 155I; thence, in a north-easterly direction, continuing along the existing city limits line and the property line between Parcel 015, Map 154 and Parcel A-001, Map 155I to the most northwestern property corner of Parcel A-001, Map 155I, which is a point in the southern property line of Parcel A-008, Map 155H; thence, in a southeasterly direction, leaving the existing city limits line, along the northern property lines of Parcels A-001, Map 155I and Parcel B-016, Map 155H, being also the southern property lines of Parcels A-008, an unnamed road right-of-way, B-001, B-013, an unnamed road right-of-way, B-004, and Parcel C-014.1, Map 155H, to the most northeastern property corner of Parcel B-016, Map 155H; thence, in a southwesterly direction, along the property line between Parcels B-016 and B-015, Map 155H, to Cravens Terrace north right-of-way line; thence, extending the aforementioned property line to the southern right-of-way line of said Cravens Terrace; thence, in a southwesterly direction, along the eastern right-of-way line of Cravens Terrace to the most southwestern corner of Parcel B-007, Map 155I; thence, in a northeasterly direction, along the north right-of-way line of Cravens Terrace, fronting on Parcels B-007 and B-008, Map 155I, continuing to the most southeastern property corner of Parcel B-008, Map 155I; thence, crossing the Cravens Terrace right-of-way to the most northeastern corner of Parcel A-002, Map 155I, and the POINT OF BEGINNING.

ANNEXATION ORD. NO. 10227
ENACTED MAY 23, 1995

Under the authority conferred by Chapter 113, Public Acts of 1955, and the amendments thereto (T.C.A. § 6-51-101, et seq.), that there be and hereby is annexed to the City of Chattanooga, Tennessee, and included

within the corporate boundaries of said City an area on the side of Lookout Mountain, in Hamilton County, contiguous to the corporate boundaries of said City, owned by Scott King d/b/a Sky Harbor Bavarian Inn, which territory is more fully described as follows:

The area to be annexed consists of Parcel A-005, Hunnicutt Tax Map No. 155A.

ANNEXATION ORD. NO. 10228
ENACTED MAY 23, 1995

Under the authority conferred by Chapter 113, Public Acts of 1955, and the amendments thereto (T.C.A. § 6-51-101, et seq.), that there be and hereby is annexed to the City of Chattanooga, Tennessee, and included within the corporate boundaries of said City an area on the side of Lookout Mountain, in Hamilton County, contiguous to the corporate boundaries of said City, owned by James C.R. Laney and E. George Gardenhire, which territory is more fully described as follows:

The area to be annexed adjoins the existing Chattanooga City Limits at the northwestern property corner of Parcel No. G-001, Hunnicutt Tax Map 167A; thence, in a southeasterly direction along the property lines of Parcels H-001 and H-012, Map 155P, and Parcel G-001, Map 167A, to the southwestern property corner of Parcel H-012.01, Map 155H; thence, in a northeasterly direction along the property line between Parcels H-012 and H-012.01, Map 155P, to a point in the western right-of-way line of Shingle Road; thence, perpendicular to Shingle Road, across said road to its eastern right-of-way line, to a point in the western property line of Parcel H-010, Map No. 155P; thence, in a southeasterly direction along the eastern right-of-way line of said road and the western property line of Parcel H-010, Map No. 155P to the western right-of-way line of Scenic Highway; thence, extending the property line of Parcel H-010, Map No. 155P across Scenic Highway to its eastern right-of-way line to a point in the western property line of Parcel H-005, Map No. 167A; thence, in a southwesterly direction, along Scenic Highway's eastern right-of-way line, fronting on the western property lines of Parcels 5, 4, and 3, Map No. 167A, crossing Sanders Road, to a point which is opposite the southeastern property corner of Parcel G-001, Map No. 167A; thence, crossing Scenic Highway to its western right-of-way line and the southeastern property corner of said parcel; thence, in a westerly direction along the property line between Parcels G-001 and G-002, Map no. 167A to the southwestern property corner of said Parcel G-001 in the existing Chattanooga City Limits Line; thence, in a northerly direction, along the existing city limits line and the western property line of Parcel G-001, Map 167A, to the POINT OF BEGINNING.

ANNEXATION ORD. NO. 10229
ENACTED MAY 23, 1995

Under the authority conferred by Chapter 113, Public Acts of 1955, and the amendments thereto (T.C.A. § 6-51-101, et seq.), that there be and hereby is annexed to the City of Chattanooga, Tennessee, and included within the corporate boundaries of said City an area on the side of Lookout Mountain, in Hamilton County, contiguous to the corporate boundaries of said City, owned by John Robert, which territory is more fully described as follows:

The area to be annexed consists of Parcel B-017, Hunnicutt Tax Map No. 155I.

ANNEXATION ORD. NO. 10230
ENACTED MAY 23, 1995

Under the authority conferred by Chapter 113, Public Acts of 1955, and the amendments thereto (T.C.A. § 6-51-101, et seq.), that there be and hereby is annexed to the City of Chattanooga, Tennessee, and included

within the corporate boundaries of said City an area adjacent to Cummings Highway, in Hamilton County, contiguous to the corporate boundaries of said City, owned by Richard Rossell and Martha Rossell, which territory is more fully described as follows:

The area to be annexed consists of Parcel 20, Hunnicutt Tax Map No. 143.

ANNEXATION ORD. NO. 10231
ENACTED MAY 23, 1995

Under the authority conferred by Chapter 113, Public Acts of 1955, and the amendments thereto (T.C.A. § 6-51-101, et seq.), that there be and hereby is annexed to the City of Chattanooga, Tennessee, and included within the corporate boundaries of said City an area on the side of Lookout Mountain, in Hamilton County, contiguous to the corporate boundaries of said City, owned by Mary Ellen Lynde Thompson, which territory is more fully described as follows:

The area to be annexed adjoins the existing Chattanooga City Limits on the southwestern corner of Parcel B-002, Hunnicutt Tax Map No. 155I on the northern right-of-way line of Carolina Street, on the eastern property line of Parcel 15, Map No. 155; thence, continuing along the existing city limits line in a northeastern direction between Parcel 15, Map No. 155 and Parcel B-002, Map No. 155I, to the northwestern corner of Parcel B-002, Map No. 155I and the southern right-of-way line of Rutherford Street, continuing along the eastern property line of Parcel 15, Map No. 155 across said street right-of-way to a point in its northern right-of-way line; thence, along the northern right-of-way line of Rutherford Street in a south-easterly direction to a point opposite the northeastern property corner of Parcel B-002, Map No. 155I; thence, crossing said street right-of-way line to the northeastern property corner of Parcel B-002, Map No. 115I, and continuing along the property line between Parcels B-002 and B-003, Map No. 155I, to the northern right-of-way line of Carolina Street and the existing city limits line; thence, continuing along the existing city limits line in a northwesterly direction, being also the northern right-of-way line of Carolina Street and the southern property line of Parcel B-002, Map 155I TO THE POINT OF BEGINNING.

The area to be annexed adjoins the existing Chattanooga City Limits on the northern right-of-way line of Cravens Terrace at the southeastern property corner of Parcel No. B-008, Hunnicutt Tax Map No. 155I; thence, in a northerly direction along the most westerly line of an unnamed road right-way line, as shown on the plat of the Cravens & McMillans Addition to Lookout Mountain recorded in Plat Book 2, page 39, of the Register's Office of Hamilton County, Tennessee, and the eastern property line of Parcel B-008, Map No. 155I, to a point in the southern right-of way line of Cravens Road, and continuing across said right-of-way to its northern right-of-way line; thence, along the northern right-of-way line of Cravens Road and the southern property line of Parcel B-14.1, Map No. 155H, to a point opposite the north-eastern property corner of Parcel B-009, Map No. 155I; thence, in a southeasterly direction, crossing the right-of-way of Cravens Road to the southern right-of-way line of said road and the northeastern property corner of Parcel B-009, Map No. 155I; thence, in a southwesterly direction along the property line between Parcels B-009 and B-010, Map No. 155I, to the southeastern property corner of Parcel B-009, Map No. 155I; thence, in a northwesterly direction along the property line between Parcels B-009 and B-010, Map No. 155I, to a point in the eastern line of an unnamed road right-of-way line; thence, along the unnamed road right-of-way line and the western property line of Parcel B-010, Map 155I, in a southwesterly direction to a point in the northern right-of-way line of Cravens Terrace; thence, in a north-westerly direction, along the northern right-of-way line of Cravens Terrace to the POINT OF BEGINNING.

ANNEXATION ORD. NO. 10245
ENACTED JUNE 20, 1995

Under the authority conferred by Chapter 113, Public Acts of 1955, and the amendments thereto (T.C.A. § 6-51-101, et seq.), that there be and hereby is annexed to the City of Chattanooga, Tennessee, and included

within the corporate boundaries of said City an area on the side of Lookout Mountain, in Hamilton County, contiguous to the corporate boundaries of said City, owned by Marcia McMillin and Garvin McMillin Colburn, which territory is more fully described as follows:

BEGINNING at the existing Chattanooga City Limit Line at the northwest property corner of Parcel G-004, Hunnicutt Tax Map 167A; thence, in an easterly direction along the northern property line of Parcel G-004, Map 167A, and the southern property line of Parcel G-003, Map 167A, to a point which is the north-eastern property corner and in the western right-of-way line of South Scenic Highway; thence, extending said property line across said highway to its eastern right-of-way line, said point being the northwestern property corner of Parcel J-004, Map 167A; thence, along the common property line between Parcels J-004 and J-005 to the north-eastern property corner of Parcel J-004, Map 167A and the western right-of-way line of Sanders Road; thence, extending said property line across said road right-of-way to its eastern right-of-way line; thence, in a south-easterly direction, along the eastern right-of-way line of said road to the southeast property corner of Parcel J-004, Map 167A; thence, in a westerly direction, along the common property line between Parcel J-004 and Parcels J-003 and J-003.1, Map 167A, to a point in the eastern right-of-way line of South Scenic Highway; thence, across said highway to the southeastern property corner of Parcel G-004, Map 167A; thence in a westerly direction, along the common property line between Parcels G-004 and G-005, Map 167A, to the southwestern property corner of Parcel G-004, Map 167A, to the aforementioned city limit line; thence, in a northerly direction, along said city limit line and the western property line of Parcel G-004, Map 167A, to the POINT OF BEGINNING.

ANNEXATION ORD. NO. 10263
ENACTED JULY 18, 1995

Under the authority conferred by Chapter 113, Public Acts of 1955, and the amendments thereto (T.C.A. § 6-51-101, et seq.), that there be and hereby is annexed to the City of Chattanooga, Tennessee, and included within the corporate boundaries of said City an area on the side of Lookout Mountain, in Hamilton County, contiguous to the corporate boundaries of said City, owned by Paul N. Holt and Wynette S. Holt, which territory is more fully described as follows:

BEGINNING at a point on the eastern right-of-way line of South Scenic Highway, being also a point in the existing Chattanooga City Limits Line and the northwestern property corner of Parcel H-004, Hunnicutt Tax Map Number 167A; thence, in an easterly direction along the common property line of Parcels H-004 and Parcel H-005, Map 167A, to the northeastern property corner of Parcel H-004, Map 167A and the northwestern property corner of Parcel H-001, Map 167A; thence, in a southerly direction along the common property line between Parcel Numbers H-001 and H-004, Map 167A, to the southeastern property corner of Parcel H-004, Map 167A; thence, in a westerly direction along the common property line between Parcels H-003 and H-004, Map 167A, to the southwestern property corner of Parcel H-004, Map 167A, which is a point in the eastern right-of-way line of South Scenic Highway and being also in the existing city limits line; thence, continuing along the existing city limits line in a northerly direction along the western property line of Parcel H-004, Map 167A, and the eastern right-of-way line of South Scenic Highway, to the POINT OF BEGINNING.

ANNEXATION ORD. NO. 10264
ENACTED JULY 18, 1995

Under the authority conferred by Chapter 113, Public Acts of 1955, and the amendments thereto (T.C.A. § 6-51-101, et seq.), that there be and hereby is annexed to the City of Chattanooga, Tennessee, and included within the corporate boundaries of said City an area on the side of Lookout Mountain, in Hamilton County, contiguous to the corporate boundaries of said City, owned by Jack E. Meadows and Ann W. Meadows, which territory is more fully described as follows:

Area to be annexed is contiguous to the existing Chattanooga City Limits Line, and BEGINNING at a point in said existing city limits line, at the southwestern property corner of Parcel H-001, and the

southeastern property of Parcel H-002 of Hunnicutt Tax Map 167A; thence, continuing along the existing city limits line in a westerly direction along the southern property line of Parcel H-002, Map 167A to its southwestern property corner, said point is in the eastern right-of- way line of Sanders Road; thence, perpendicular to Sanders Road, crossing said road, and leaving existing city limits line, to its western right-of-way line; thence, along said road right-of-way line, in a northerly direction, to the eastern right-of-way line of South Scenic Highway, to a point in the existing city limits line; thence, along the eastern right-of- way line of said highway, and the existing city limits line, to a point in the eastern right-of-way line of Sanders Road; thence, in a southerly direction, along said eastern road right-of-way and the western property line of Parcel H-003, Map 167A, to its southwestern property corner and the northwestern property corner of Parcel H-002, Map 167A; thence, in an easterly direction, along the south property line of Parcel H-003, and the north property line of Parcel H-002, Map 167A, to a point in the western property line of Parcel H-001, Map 167A; thence, in a southerly direction, along the property line between Parcels H-001 and H-002, Map 167A, to the POINT OF BEGINNING.

ANNEXATION ORD. NO. 10271
ENACTED AUGUST 8, 1995

Under the authority conferred by Chapter 113, Public Acts of 1955, and the amendments thereto (T.C.A. § 6-51-101, et seq.), that there be and hereby is annexed to the City of Chattanooga, Tennessee, and included within the corporate boundaries of said City an area on the side of Lookout Mountain, in Hamilton County, contiguous to the corporate boundaries of said City, owned by Robert S. Williams, which territory is more fully described as follows:

Property to be annexed is all of Parcel A-003, Hunnicutt Tax Map Number 155I, and more particularly described as follows:

BEGINNING at a point in the existing Chattanooga City Limit Line, said point being the northeastern property corner of Parcel A-003, Hunnicutt Tax Map Number 155I, being also in the western right-of-way line of Hardy Trail; thence, continuing along the existing city limit line and the western right-of-way line of Hardy Trail, being also along the eastern property line of Parcel A-003, Map Number 155I, to its south-eastern property corner; thence, continuing along the existing city limit line in a westerly direction, along the southern property line of Parcel A-003, Map Number 155I, to its southwestern property corner; thence, continuing along the existing city limit line in a northerly direction, along the western property line of Parcel A-003, Map Number 155I, to its north-western property corner; thence, continuing along the existing city limit line in an easterly direction, along the northern property line of Parcel A-003, Map Number 155I to the POINT OF BEGINNING.

ANNEXATION ORD. NO. 10272
ENACTED AUGUST 8, 1995

Under the authority conferred by Chapter 113, Public Acts of 1955, and the amendments thereto (T.C.A. § 6-51-101, et seq.), that there be and hereby is annexed to the City of Chattanooga, Tennessee, and included within the corporate boundaries of said City an area on the side of Lookout Mountain, in Hamilton County, contiguous to the corporate boundaries of said City, owned by Mrs. E.R. Theobold, which territory is more fully described as follows:

BEGINNING at a point in the existing Chattanooga City Limit Line, being also the northwestern property corner of Parcel B-017, on Hunnicutt's Tax Map Number 155I and southwestern property corner of Parcel B-014, Map Number 155I; thence, in a northeasterly direction on the common property line of Parcels B-013 and B-014, Map Number 155I, to the north-western property corner of Parcel B-014, Map Number 155I, being also a point in the southwestern right-of-way line of Cravens Terrace; thence, continuing on an extension of aforesaid common property line to the northeastern right-of-way line of Cravens Terrace; thence, in a southeasterly direction, along said north-eastern right-of-way line to a point opposite the

north-eastern property corner of Parcel B-014, Map Number 155I; thence, perpendicular to said right-of-way line in a south-westerly direction to the northeast property corner of Parcel B-014, Map Number 155I, and being also the north-western property corner of Parcel B-015, Map Number 155I; thence, in a southwesterly direction along the common property line between Parcels B-014 and B-015, Map Number 155I, to a point in the existing city limit line and the northeastern property line of Parcel B-017, Map Number 155I; thence, continuing along the existing city limit line in a northwesterly direction and being also along the common property line between Parcels B-014 and B-017, Map Number 155I, to the POINT OF BEGINNING.

ANNEXATION ORD. NO. 10339
ENACTED NOVEMBER 28, 1995

Under the authority conferred by Chapter 113, Public Acts of 1955, and the amendments thereto (T.C.A. § 6-51-101, et seq.), that there be and hereby is annexed to the City of Chattanooga, Tennessee, and included within the corporate boundaries of said City an area on the side of Lookout Mountain, in Hamilton County, contiguous to the corporate boundaries of said City, owned by Lookout Mountain Caverns, Inc., which territory is more fully described as follows:

BEGINNING at a point in the existing Chattanooga City Limits Line at the terminus point of the eastern right-of-way line of Guild Trail at the southwestern property corner of Parcel D-002, Hunnicutt Tax Map Number 155H; thence, continuing along the said existing city limits line, crossing said trail, perpendicular to said right-of-way in a southwesterly direction, to the southeastern property corner of Parcel C-001, Map Number 155H, said property corner is a point in the northwestern property line of Parcel C-002, Map Number 155H; thence, continuing along the existing city limits line in a southeasterly direction, along the eastern property line of Parcel C-002, Map Number 155H, to its south-eastern property corner; thence, along the existing city limits line in a southwesterly direction, along the common property line between Parcels C-002 and C-003, Map Number 155H, to the southwestern property corner of Parcel C-002, Map Number 155H, being also the eastern right-of-way line of South Scenic Highway and the western property lines of Parcel C-003, Map 155H, and Parcel C-009, Map Number 155I; thence, continuing with the eastern right-of-way line of South Scenic Highway and the western property lines of Parcels C-010, C-011, C-012, and C-013, Map Number 155I, to its intersection with the northern right-of-way line of Lower Cravens Terrace; thence, crossing the right-of-way of South Scenic Highway, in a southwesterly direction to the northeastern property corner of Parcel B-015, Map Number 155I at the intersection of the rights-of-way of South Scenic Highway and Cravens Terrace; thence, along the southwestern right-of-way line of Cravens Terrace and the north eastern property lines of Parcels B-015, B-014, B-013, B-012, B-001.1, B-011.1, B-011, B-010, and B-009, Map Number 155I; thence, in a northeasterly direction, crossing Cravens Terrace to the southeastern property corner of Parcel B-015, Map Number 155H; thence, in a northeasterly direction along the common property line between Parcels B-014.1 and B-015, Map Number 155H, to the northeastern property corner of said Parcel B-015; thence, in a north-westerly direction, along the common property line between Parcels B-014.1 and B-015, Map Number 155H, to the common Section Corner of Sections 5, 6, 7, & 8, Township 3, Range 4; thence, in a northeasterly direction, along the common property line between Parcel B-014.1 and Parcels B-004, B-005, and B-006, Map Number 155H, to the northeastern property corner of said Parcel 014.1; thence, continuing in a northeastern direction along the common property line between Parcels B-014 and B-013, Map Number 155H, to a point in the south right-of-way line of Guild Trail and the existing city limits line; thence, continuing along the existing city limits line and the south right-of-way line of Guild Trail to its intersection with the western right-of-way line of South Scenic Highway, in a south-easterly direction: thence, continuing along the existing city limits line in a south-easterly direction, crossing South Scenic Highway to its eastern right-of-way line at its intersection with the south right-of-way line of Guild Trail; thence, continuing along the existing city limits line, along the south right-of-way line of Guild Trail and the north-eastern property line of Parcel C-001, Map Number 155H, to a point opposite

the north-western property corner of Parcel D-002, Map Number 155H; thence, continuing with the existing city limits line, in a northeasterly direction, crossing Guild Trail to the northwestern corner of Parcel D-002, Map Number 155H; thence, continuing along the existing city limits line in a northeasterly direction, along the northern property line of Parcel D-002, Map Number 155H, to its common property corner with Parcel D-001, Map Number 155H; thence, along the common property line between Parcels D-001 and D-002, Map Number 155H, to the southeastern property corner of said Parcel D-002; thence, in a south-westerly direction along the southern property line of said Parcel D-002, to the POINT OF BEGINNING.

ANNEXATION ORD. NO. 10343
ENACTED DECEMBER 12, 1995

Under the authority conferred by Chapter 113, Public Acts of 1955, and the amendments thereto (T.C.A. § 6-51-101, et seq.), that there be and hereby is annexed to the City of Chattanooga, Tennessee, and included within the corporate boundaries of said City an area known as Winterview Condominiums on the side of Lookout Mountain, in Hamilton County, contiguous to the corporate boundaries of said City, owned by all individuals notified on the list attached as Exhibit B, which territory is more fully described as follows:

BEGINNING at a point in the existing Chattanooga City Limits Line in the western right-of-way line of the South Scenic Highway, and the southeastern property corner of Parcel G-007, Hunnicutt Tax Map Number 167A; thence, in a northeasterly direction, along the western right-of-way line of South Scenic Highway, passing Parcels G-007, G-006, Map 167A, to a point in the eastern property line of Parcel G-005, Map 167A, opposite the northern right-of-way line of Winterview Lane; thence, in an easterly direction, crossing the South Scenic Highway right-of-way to its eastern right-of-way line, to a corner in the western property line of Parcel J-003.01, Map 167A, and the northeastern right-of-way line of Winterview Lane; thence, along the northeastern right-of-way line of Winterview Lane, passing Parcel J-003.01, J-001, and J-001.01, Map No. 167A, to the northwestern property corner of Parcel J-008, Map No. 167A; thence, in a southeasterly direction along the common property line of Parcels J-001.01 and J-008, Map No. 167A, to a point in the existing city limits line, which is the northeast property corner of Parcel J-008, Map No. 167A; thence, following the existing city limits line, in a south-westerly direction, along the eastern property line of Parcels J-008, J-002.06 and J-002, Map 167A, to the south-eastern property corner of Parcel J-002; thence, following the existing city limits line, in a north-westerly direction, along the southern property line of Parcel J-002, Map No. 167A, to its southwestern property corner, in the eastern right-of-way line of South Scenic Highway; thence, continuing in the direction of said southern property line across South Scenic Highway to the POINT OF BEGINNING.

ANNEXATION ORD. NO. 10359
ENACTED JANUARY 16, 1996*

Pursuant to authority conferred by Tennessee Code Annotated, Sections 6-51-101 to 6-51-113, there is hereby annexed to the City of Chattanooga, Tennessee, and incorporated within the corporate boundaries thereof, the following described territory adjoining the present corporate boundaries:

BEGINNING at a point in the existing Chattanooga City Limit line, said point being approximately 500 feet east of the Pattentown Road east right-of-way line extended and the north right-of-way line of Apison Pike, said right-of-way line being 25 feet north of the Apison Pike center line; thence, along the north right-of-way line of Apison Pike in a northeasterly direction, 25 feet north of and parallel to its center line, a distance of approximately 2,625 feet, to a point which is opposite the northwestern property corner of Parcel 160.04, Hunnicutt Tax Map 140; thence, at right angles in a southerly direction, a distance of 50

***Note—**See also Ord. Nos. 10359, adopted January 16, 1996, and 10371, adopted February 6, 1996.

feet, to said northwestern property corner; thence, along the western property line of said Parcel 160.04 and the east right-of-way line of an unnamed road, to the southwestern property corner of said parcel, a distance of approximately 200 feet, to a point of curvature to the left; thence, in an easterly direction, along the radius line of said curve, a distance of approximately 10 feet, to a point which is 30 feet east of the center line of said unnamed road; thence, curving to the left, 30 feet east of and parallel to its center line which has a radius of 680 feet, a delta of 21°23'06", and a length of 253.8 feet, to its point of tangency; thence, along said tangent in a southeasterly direction a distance of approximately 129 feet, to a point of curvature to the right; thence, 30 feet east of and parallel to the center line which has a radius of 1,100 feet, a delta of 19°24'09", and a length of 372.5 feet, to a point of tangency; thence, along said tangent in a southeasterly direction a distance of approximately 106 feet, to a point of curvature to the left; thence, 30 feet east of and parallel to the center line which has a radius of 200 feet, a delta of 12°04'03", and a length of 42.1 feet, to a point of curvature to the right; thence, 30 feet east of and parallel to the center line which has a radius of 200 feet, a delta of 9°53'23", and a length of 34.5 feet, to a point of tangency; thence, along said tangent in a southeasterly direction a distance of approximately 168 feet, to a point of curvature to the left; thence, 30 feet east of and parallel to the center line which has a radius of 340 feet, a delta of 42°36'24", and a length of 252.8 feet, to a point of tangency, thence, along said tangent in a southeasterly direction, a distance of approximately 100 feet, to a point of curvature to the right; thence, 30 feet east of and parallel to the center line which has a radius of 160 feet, a delta of 26°01'48", and a length of 72.7 feet, to a point of tangency; thence, along said tangent in a southeasterly direction, a distance of approximately 100 feet, to a point in the north line of Parcel 160.05, Map 140, and the existing Chattanooga City Limit line; thence, following the existing city limit line in a northwesterly direction, a distance of approximately 75 feet, to point in the western right-of-way line of the 60 foot unnamed road; thence, following said right-of-way line in a northwesterly direction, a distance of approximately 50 feet, to a point of curvature to the left; thence, 30 feet west of and parallel to the center line which has a radius of 160 feet, a delta of 26°01'48", and a length of 72.7 feet, to a point of tangency; thence, along said tangent in a northwesterly direction, a distance of approximately 100 feet, to a point of curvature to the right; thence, 30 feet west of and parallel to the center line which has a radius of 340 feet, a delta of 42°38'24", and a length of 252.8 feet, to a point of tangency; thence, along said tangent in a northwesterly direction, a distance of approximately 168 feet, to a point of curvature to the left; thence, 30 feet west of and parallel to the center line which has a radius of 200 feet, a delta of 9°53'23", and a length of 34.5 feet, to a point of curvature to the right; thence, 30 feet west of and parallel to the center line which has a radius of 200 feet, a delta of 12°04'03, and a length of 42.1 feet, to a point of tangency; thence, along said tangent in a northwesterly direction, a distance of approximately 106 feet, to a point of curvature to the left; thence, 30 feet east of and parallel to the center line which has a radius of 1,100 feet, a delta of 19°24'09", and a length of 372.5 feet, to a point of tangency; thence, along said tangent in a northwesterly direction, a distance of approximately 129 feet, to a point of curvature to the right; thence, 30 feet west of and parallel to the center line which has a radius of 680 feet, a delta of 21°23'06", and a length of 253.8 feet, to the southeastern property corner of Parcel 160.03, Map 140; thence, along the eastern property line of said parcel in a northeasterly direction, to a point which is 25 feet south of the center line of Apison Pike; thence, 25 feet from and parallel to the center line of Apison Pike, a distance of approximately 2,575 feet, to a point which is approximately 500 feet east of the eastern right-of-way line of Pattentown Road, being also in the existing Chattanooga City Limit line; thence, following the existing city limit line in a northerly direction, crossing the Apison Pike right-of-way, to the POINT OF BEGINNING.

DEANNEXATION ORD. NO. 10371
ENACTED FEBRUARY 6, 1996*

Pursuant to authority conferred by Tennessee Code Annotated, Sections 6-51-201 to 6-51-204, the following described boundaries be and are hereby contracted from the City limits of the City of Chattanooga, Tennessee:

***Note—**See also Ord. Nos. 9335, adopted March 1, 1990, and 10359, adopted January 16, 1996.

REDUCTION OF MUNICIPAL AREA
ALL OR PORTIONS OF PARCELS 160,
160.01, 162, 162.01, 166, 173
AND 174, HUNNICUTT TAX MAP 140

BEGINNING at a point within the existing Chattanooga City limits, said point being also approximately 25 feet south of the intersection of the eastern right-of-way line of Pattentown Road and the southern right-of-way line of Apison Pike; thence, along a line which is 25 feet from and parallel to the southern right-of-way line of Apison Pike, a distance of approximately 500 feet, to a point in the existing city limit line; thence, at a right angle with Apison Pike, following the existing city limit line, in a southerly direction approximately 275 feet, to a point; thence, following the existing city limit line in an easterly direction, 325 feet from and parallel to the center line of Apison Pike for approximately 1,110 feet, to the south-western line of a 100 foot TVA transmission line easement; thence, following the existing city limit line in an easterly direction, along the said southwestern easement line a distance of approximately 1,940 feet, to a point which is 500 feet from and perpendicular to the south right-of-way line of Apison Pike; thence, 500 feet from and parallel to Apison Pike approximately 1,912 feet in a southeasterly direction, passing through Parcels 160, 162, 162.01, 160.01, 166, and 160, Map 140, to a point in the western property line of Parcel 172, Map 140; thence, following the existing city limit line, in a southwesterly direction along the western property line of Parcel 172, Map 140, a distance of approximately 100 feet, to property corner; thence, following the existing city limit line and said property line in a southeasterly direction a distance of approximately 15 feet, to a property corner; thence, following the existing city limit line and said property line in a southwesterly direction, a distance of approximately 200 feet, to a point in the City of Chattanooga's northern property line (Parcel 160.05, Map 140); thence, along the proposed Chattanooga City Limit Line, in a northwesterly direction, along the northern property line of said property a distance of approximately 15 feet to a property corner; thence, perpendicular to previous property line, along the proposed city limit line in a southwesterly direction, a distance of approximately 55 feet to a property corner; thence, continuing along the proposed city limit line in a northwesterly direction along said City northern property line, a distance of approximately 2,017 feet, to a property corner; thence, continuing along the proposed city limit line and the northern property line of said Parcel 160.05, a distance of approximately 1,065 feet, to the northwestern property corner of said parcel; thence, continuing along the proposed city limit line in a south-westerly direction, perpendicular to the previous property line, a distance of 1,011 feet, to a point in the common line between Sections 19 and 30, Township 4, Range 2, and being the southwestern property corner of Parcel 160.05, Map 140, in the common property line between Parcels 141 and 160, Map 140; thence, in a northwesterly direction, along said property and section lines, a distance of approximately 200 feet, to point which is in the existing city limit line, and is the northeastern property corner of Parcel 154, Map 140, being also in the southern property line of Parcel 160, Map 140; thence, continuing along the existing city limit line, said section line, and said southern property line of Parcel 160, and northern property line of Parcels 154, 155, and 155.01, Map 140, to the common property corner of Parcels 155.01, 156, and 158, Map 140; thence, continuing along the existing city limit line, in a northeasterly direction, being also the common property line between Parcels 158 and 160, Map 140, to the northeastern property corner of Parcel 158, Map 140; thence, continuing along the existing city limit line along the common property line of Parcels 158, 159, and 160, Map 140, to the northwestern property corner of Parcel 159, Map 140 which is in the eastern right-of-way line of Pattentown Road; thence, continuing in a northeasterly direction along the existing city limit line, eastern right-of-way line of said road, and the western line of Parcel 160, Map 140, to the POINT OF BEGINNING.

REDUCTION OF MUNICIPAL AREA
A PORTION OF PARCEL 172,
AND ALL OF
PARCELS 173 AND 174, MAP 140

BEGINNING at the common property corner of Parcels 133, 174, 175, and 194.01, Hunnicutt Tax Map 140; thence, along the proposed Chattanooga City Limit Line in a north-westerly direction along the

common section line between Sections 20 and 29, Township 4, Range 2, being also the common property line between Parcels 133, and 174, Map 140, to the southwestern property corner of Parcel 174, Map 140; thence, along the proposed city limit line, in a northeasterly direction, perpendicular to the previous line, along the property line between Parcels 160.05 and 174, Map 140, to a property corner, a distance of approximately 438 feet; thence, along the proposed city limit line, in a southeasterly direction, perpendicular to the previous line, along the common property line between Parcels 160.05 and 174, Map 140, to a common property corner, a distance of approximately 215 feet; thence, along the proposed city limit line, in a northeasterly direction, along the common property line between Parcel 160.05 and Parcels 174, 173 and 172, Map 140, to a property corner in the existing Chattanooga City limit line; thence, following the existing city limit line, in a southeasterly direction, for an approximate distance of 205 feet to a point; thence, continuing along the existing city limit line, in a southwesterly direction, perpendicular to the previous line, a distance of approximately 104 feet, to the northeastern property corner of Parcel 173, Map 140; thence, continuing along the existing city limit line in a southeasterly direction, along the common property line of Parcels 172 and 174, Map 140, a distance of approximately 275 feet, to the southeastern corner of Parcel 172, Map 140; thence, continuing along the existing city limit line in a northeasterly direction, and the common property line between Parcels 172 and 174, Map 140, a distance of approximately 320 feet, to the southwest property corner of Parcel 180, Map 140, said corner being also in the existing Collegedale Corporate Limit Line; thence, continuing with the existing city limit line and the existing corporate limit line in a southeasterly direction along the common property line between Parcels 174 and 180, Map 140, to the northwestern property corner of Parcel 175, Map 140, a distance of approximately 30 feet; thence, in a southwesterly direction, along the proposed city limit line, being also the common property line between Parcels 174 and 175, Map 140, to a property corner; thence, continuing along the proposed city limit line and the common property line between Parcels 174 and 175, Map 140, perpendicular to previous line in a northwesterly direction, a distance of approximately 30 feet to a property corner; thence, continuing with the proposed city limit line and the common property line between Parcels 174 and 175, Map 140, perpendicular to previous line in a southwesterly direction, a distance of approximately 600 feet to the POINT OF BEGINNING.

REDUCTION OF MUNICIPAL AREA
PARCELS 124, 194, 195,
HUNNICUTT TAX MAP 140
AND PARCEL 244,
HUNNICUTT TAX MAP 150

The area of the City of Chattanooga shall be reduced by any portion of Parcels 124, 194, and 195, Hunnicutt Tax Map 140, and Parcel 244, Map 150, which was annexed by Ordinance 9335, dated March 1, 1990.

ANNEXATION ORD. NO. 10590*
ENACTED JULY 1, 1997

Pursuant to the authority conferred by Tennessee Code Annotated, Sections 6-51-101 to 6-51-113, there is hereby annexed to the City of Chattanooga, Tennessee, and incorporated within the corporate boundaries thereof, the following described territory adjoining the present corporate boundaries:

BEGINNING at a point in the existing City Limit Line of Chattanooga, Tennessee, at the intersection of the centerline of the Southern Railway and the northwest right-of-way line of U.S. Highway I-75; thence, in a northeastern direction along the northwesterly right-of-way line of U.S. Highway I-75 and the southeastern property line of Parcels 099.2, 043, across the right-of-way of Country Valley Drive, Parcels 042.02, 042.01, 0041, 039, across the right-of-way of Hilltop Drive, Parcels 036, 037, 034, 034.01, across

***Note—**Subsequently amended by Ord. No. 10966, adopted July 1, 1997.

the right-of-way of Hunter Road, Parcels 074.01, 074, 075.01, 075.02, 075, 076, 075, across the right-of-way of Snowhill Road, of Hunnicutt Tax Map 131 and continuing in a northeasterly direction along said U.S. highway right-of-way and the southeastern property line of Parcel 3, Map Number 132 to its southeastern property corner; thence, in a southeasterly direction to the common corner between Parcels 002 and 002.04, Map 132; thence along the common lot line between Parcels 002 and 002.04, Map 132, to the most eastern corner of said parcel 002; thence, across Parcel 002.04, Map 132, to the common western corner between Parcels 013 and 014, Map 132; thence, along the common property line between said Parcels 013 and 014 to their common eastern corner in the reserved access right-of-way for said Parcels 013 and 014; thence, across said reserved access to the northwestern property line of Parcel B-010, Map 132H; thence, continuing on an easterly extension of the property line between Parcels 013 and 014, Map 132, through Parcel B-010, Map 132H, to the western right-of-way line of the Georgetown-Ooltewah Road and continuing eastwardly to the eastern right-of-way line of said road, to a point in the western property line of Parcel A-021, Map 132H; thence, in a southwesterly direction, along the eastern right-of-way line of Georgetown-Ooltewah Road and the western property lines of Parcels A-021, A-020, A-019, and A-018, Map 132H for a distance of 600 feet; thence, in a southeasterly direction, 500 feet from and parallel to Lee Highway, for a distance of 1,300 feet to a property line; thence, perpendicular to Lee Highway, a distance of 500 feet to the northern right-of-way line of Lee Highway at the southwestern property corner of Parcel 027.02, Map 132; thence, along the northern right-of-way line of Lee Highway, passing along the southern property lines of Parcels 027.02, 027.01, and 027, Map 132, to the western property line of Parcel 029, Map 132, a distance of 1,250 feet; thence, crossing Lee Highway in a southwesterly direction, along the western property line of Parcel 31, Map 132, crossing the right-of-way of the Southern Railroad Company, a distance of 1,150 feet, to a point in the southern right-of-way of said railroad, said point is in the property line of Parcel 032.01, Map 132; thence, in a westerly direction, along said railroad right-of-way and along the northern property lines of Parcel 032.01, Map 132, Parcels C-022, C-023, C-024, C-025, C-026, C-027, C-028, and C-029, Map 132I, to the intersection of the north right-of-way line of Brewer Drive and the western right-of-way line of Cherry Street; thence, continuing along the southern right-of-way line of the Southern Railroad Company, along the northern property line of Parcels B-001, B-012, B-022, Map 132I, crossing Mulberry Street, and continuing along the northern property line of A-001, A-020, A-10.01, Map 132I, crossing College Street, then continuing along A-015.01, Map 132I, crossing Main Street, continuing along Parcels A-017 and A-17.01, Map 132I, crossing Watkins Street, then continuing along Parcel A-019.01, Map 132I, Parcels 023, and 022, Map 132, and Parcel 093, Map 131, crossing a southbound railroad track in a northwesterly direction, to a point in the property line of Parcel 096.011, Map 131; thence, along the northern property line of said Parcels 096.01, and 092, Map 131, to the eastern right-of-way line of the Little Debbie Parkway; thence, crossing Little Debbie Parkway, continuing with the southern right-of-way line of the Southern Railroad Company, along the northern property lines of Parcels A-023, A-024.09, A-024.05, A-024, A-025, A-027, and A-028, Map 131K, to the eastern right-of-way line of Lee Highway; thence, crossing Lee Highway at its intersection with Old Cleveland Pike, continuing along the southeastern right-of-way of the Southern Railroad Company in a southwesterly direction, passing along the northwestern property lines of Parcels 012, 014, 015.05, 015.04, 015.03, 015.02, 015.01, 015, 016, 017, 018, Map 131, to the northwestern right-of-way line of Old Cleveland Pike; thence, in a southwesterly direction, along the aforementioned Southern Railroad and Old Cleveland Pike rights-of-way, a distance of 2,850 feet, more or less, to the northernmost property corner of Parcel B-020, Map 131P; thence, continuing with the Southern Railroad right-of-way line in a southwesterly direction, along the northwestern property lines of B-020, B-019, B-018, B-017, B-016, B-015, B-014, B-013, B-012, B-011, B-009, B-003, Map 131P, to the existing right-of-way of Old Cleveland Pike; thence, crossing Old Cleveland Pike, and continuing along the northwestern property lines of Parcels B-001, A-001, A-002, A-003, A-008, A-009, A-010, A-011, A-011.01, A-012.01, A-012, Map 131P, to the northwestern property corner of said Parcel A-012; thence, in a southerly direction along the western property line of Parcel A-012 and the Southern Railroad right-of-way, to the northern right-of-line of Apison Pike, being also a

point in the existing Chattanooga City Limit Line; thence, in a westerly direction, along the common right-of-way line of Southern Railroad and Apison Pike, being also the existing city limit line, a distance of 1,500 feet, more or less, to the center line of U.S. Highway I-76; thence, in a northerly direction, a distance of 140 feet, more or less, to the POINT OF BEGINNING. (See the attached reference map which more fully provides an illustration of the proposed annexation boundaries.)*

ANNEXATION ORD. NO. 10691
ENACTED APRIL 14, 1998

Pursuant to authority conferred by Tennessee Code Annotated, Sections 6-51-101 to 6-51-113, there is hereby annexed to the City of Chattanooga, Tennessee, and incorporated within the corporate boundaries thereof, the following described territory adjoining the present corporate boundaries:

BEING the property of the United States of America used as the Volunteer Army Ammunition Plant (VAAP) shown on Hamilton County Tax Map No. 130 as Parcel 001 and Tax Parcel 121A-E-32 and the adjacent portions of the rights-of-way of Highway 58 (S. R. 58) and Bonny Oaks Drive (S. R. 17); PLUS the property of Hamilton County bounded by Bonny Oaks Drive, the Southern Railroad, and Hickory Valley Road shown on Hamilton County Tax Map 139 as Parcel 001.01 and the adjacent right-of-way of Hickory Valley Road between the present city limits and Bonny Oaks Drive and the adjacent railroad right-of-way between the Hamilton County property and the present city limits; more particularly described as follows:

Volunteer Army Ammunition Plant and Adjacent Highway 58 and Bonny Oaks Drive Right-of-Ways

BEGINNING at a point in the existing Chattanooga City Limit Line and the northern right-of-way line of the Southern Railroad Company, which is the common property corner of Parcel 001, Hunnicutt Tax Map 130, and Parcel 099.2, Map 131; thence, in a southwesterly direction, then in a westerly direction for a distance of 7,000 feet, more or less, with the said city limit line (leaving the northern right-of-way line at 4,200 feet, more or less, and converging with the centerline of said railroad at 7,000 feet, more or less), to a point in the centerline of Bonny Oaks Drive; thence, continuing with the city limit line in a westerly direction, crossing the Bonny Oaks Drive right-of-way, to a point in its southwestern right-of-way line at the southeastern property corner of Parcel 001.01, Map 139; thence, along the southwestern right-of-way line of Bonny Oaks Drive and the northern property line of Parcel 001.01, Map 139, to its northwestern property corner at the intersection of the rights-of-way of Bonny Oaks Drive and Hickory Valley Road; thence, crossing Hickory Valley Road to its western right-of-way line, being the northeastern property corner of Parcel 002, Map 130; thence, along the southern right-of-way line of Bonny Oaks Drive and the northern property line of Parcel 002, Map 130, to its northwestern property corner at Parcel 001, Map 130; thence, in a southwesterly direction, along the western property lines of Parcel 002, Map 130, and Parcel 001, Map 139, to a point, said point is the western most property corner of Parcel 001, Map 139; thence, in a southeasterly direction along the southern boundary of Parcels 001 and 002, Map 139, to a point in the west right-of-way line of Hickory Valley Road; thence, along the west right-of-way of Hickory Valley Road adjacent to Parcel 001, Map 130, to the existing city limits line in the railroad right-or-way; then in a southwesterly direction along the existing city limit and railroad to its intersection with the east property line of Parcel 001, Map 129, thence, along said east property line of Parcel 001, Map 129, and west property line of Parcel 1, Map 130, in a northwardly direction to a point in the southern boundary of Parcel 001, Map 130, said point being the northeastern corner of Parcel 001, Map 129; thence, in a northwesterly direction, along the common property line of Parcel 001, Map 129, and Parcel 001, Map 130, to its southwestern property corner; thence, in a northeasterly direction, along the common property lines of Parcel 001, Map 129, and Parcel 001, Map 130, to a point in the southern right-of-way line of Bonny Oaks Drive; thence, along the said southern right-of-way line and the northern

*__Note—__Map is located in the office of the Clerk to the City Council.

property lines of Parcel 001, Map 129, and Parcel D-010, Map 129M, continuing to its most northwestern property corner in the southern right-of-way line of Bonny Oaks Drive, being a point in the existing Chattanooga City Limit Line; thence, crossing the Bonny Oaks Drive right-of-way in a northeasterly direction, a distance of 100 feet, more or less, to a point in its northern right-of-way line and the southern property line of Parcel 001, Map 130; thence, in a northwesterly direction, continuing with the existing city limit line along the northern right-of-way line of Bonny Oaks Drive and the southern property line of Parcel 001, Map 130, a distance of 680 feet, more or less, to the southeastern property corner of Parcel D-024.01, Map 129L; thence, continuing with the existing city limit line in a northwesterly direction along the western property line of Parcel 001, Map 130, and the eastern property line of Parcels D-024.01, D-023, D-017, and to a point in the rear property line of D-015, Map 129L, a distance of 1,180 feet, more or less; thence, continuing with the existing city limit line in a northeasterly direction along the eastern property lines of Parcels D-014, D-013, D-012, D-011, D-010, D-009, D-008, D-007, D-006.01, D-006, D-005, D-004, D-003, D-002, and D-001, Map 129L, a distance of 1,610 feet, more or less, to the northeastern property corner of said Parcel 001; thence continuing with the existing city limit line along the north property line of Parcel D-001, Map 129L, in a westerly direction to the eastern right-of-way line of Basswood Drive, a distance of 270 feet, more or less, to the northwestern corner of said Parcel D-001; thence, along the northern right-of-way line of Basswood Drive, a distance of 60 feet, more or less, to the southeastern property corner of Parcel D-001, Map 129E; thence, continuing with the existing city limit line in a northerly direction along the western property line of Parcel 001, Map 130, and the eastern property lines of Parcels D-001, D-002, D-003, D-004, C-006, C-007, C-008, C-009, C-010, C-011, C-012, C-013, C-014, C-015, C-016, C-017, C-018, C-019, C-020, C-021, C-022, C-023, C-024, C-025, C-026, Map 129E, a distance of 2,370 feet, more or less, to the northeastern property corner of said Parcel C-026; thence, in a northwesterly direction along the northeastern property line of said Parcel C-026, a distance of 100 feet, more or less, to a point in the eastern property line of Parcel C-034, Map 129E; thence, in a northeasterly direction, along the eastern property line of said parcel C-034, to an angle point in its rear property line, a distance of 120 feet, more or less; thence, in a northwesterly direction along the eastern property lines of Parcels C-034, C-035, C-036, Map 129E, E-019, E-020, E-021, Map 129C, F-032, F-034, F-035, F-036, F-037, F-038, D-001, D-018, Map 120D, a distance of 4,000 feet, more or less, to a point in the south right-of-way line of U. S. Highway 58, said point is the most northern property corner of Parcel D-018, Map 120D, and the northwestern property corner of Parcel 001, Map 130; thence, continuing with the existing city limit line in the southern right-of-way line of U. S. Highway 58, thence crossing U. S. Highway 58 on a diagonal line to a point in the southeast corner of Champion Road and Parcel B-001, Map 120K; thence eastwardly along the north right-of-way of U. S. Highway 58, a distance of 3,050 feet, more or less, to the intersection of the west right-of-way of North Hickory Valley Road, thence north along North Hickory Valley Road being a State of Tennessee acquired right-of-way, a distance of 460 feet, more or less, to a point, thence crossing North Hickory Valley Road at right angle to the eastern line thereof; thence southeastwardly with the present right-of-way, a distance of 290 feet, more or less, to the north right-of-way of U. S. Highway 58, also being the southwest corner of Parcel B-001, Map 120E, thence northeast along the north right-of-way of U. S. Highway 58, a distance of 2,320 feet, more or less, to a point in the east line of Parcel B-019, Map 120E, thence north along the east line thereof, a distance of 860 feet, more or less, to a point in the northeast corner of Parcel B-019, Map 120E, thence west along the north line thereof, a distance 90 feet, more or less, to a point, thence north along the east line of Parcel E-033, Map 121A, a distance of 360 feet, more or less, to a point, thence east along the dividing line between Parcel E-032 and E-033, Map 121A, a distance of 410 feet, more or less, to a point in the northeast corner of Parcel E-032, Map 121A, thence south along the east line thereof, a distance of 900 feet, more or less, to the north right-of-way line of U. S. Highway 58 and southwest corner of Parcel E-032.01, Map 121A, thence east along the north right-of-way of U. S. Highway 58, a distance of 1,960 feet, more or less, crossing Clark Road to a point in southeast corner of Parcel A-008,01, Map 121B, thence north 80.8 feet, more or less, to the southwest corner of Parcel A-010, Map 121B, thence eastwardly 156 feet, more or less, to a point in the west line of Parcel A-007, Map 121B,

thence southwestward along said line 129 feet, more or less, thence east along U. S. Highway 58, a distance of 480 feet, more or less, thence crossing U. S. Highway 58 at right angels to the south to a point in the south line thereof; thence continuing southwardly 130 feet, more or less, to a point which is the western property corner of Parcel 004, Map 121 (EPB); thence, along the southern property line of Parcel 004, Map 121, and the northern property line of Parcel 001, Map 130, in a southeasterly direction, a distance of 270 feet, more or less, to a point in the southern property line of Parcel 003, Map 121, (Central High School), thence, with the common property line between Parcel 003, Map 121, and Parcel 001, Map 130, a distance of 2,600 feet, more or less, to the most southwestern property corner of Parcel E-012.06, Map 121C; thence, in a northeasterly direction along the northern property line of Parcel 001, Map 130, and Parcels E-012.06, E-012.05, E-012.04, E-012.03, E-012, and A-024, Map 121C, a distance of 930 feet, more or less, to a point in the right-of-way line of Congress Lane; thence, continuing on the same line across the right-of-way of Congress Lane, a distance of 50 feet, more or less, to its eastern line; thence, along the southern property line of Parcels A-025, C-001, C-002, C-003, C-004, C-005, C-006, C-007, C-008, C-009, C-010, and D-021, Map 121C, continuing with Parcels C-019, and C-020, Map 112N, B-003, B-004, Map 121D, to a property corner, for a total distance of 2,850 feet, more or less; thence, in an easterly direction along the common property lines between Parcel 001, Map 130, and Parcels B-005, B-006, B-007, B-008, B-009, Map 121D, Parcel 005, Map 121, crossing the Harrison/ Ooltewah Road right-of-way, continuing along Parcel 005, Map 121, to a point that is the western property corner of B-054, Map 122H, a total distance of 1,920 feet, more or less; thence, in a southeasterly direction, along the common property line between Parcel 001, Map 130, and Parcels B-054, B-053, B-052, B-049, B-048, B-047, B-046, and a part of B-045, Map 122H, a distance of 1,260 feet, more or less, to an angle point; thence, in a southeasterly direction along the remainder of the western property line of B-045, and all of B-044, B-043, B-042, B-041, B-040, B-039, B-038, B-037, B-036, B-035, B-034, Map 122H, at its most southwestern property corner, a distance of 1,140 feet, more or less; thence, in a northeasterly direction, along the property lines of Parcels B-034, B-033, B-032,B-030 (property corner only), B-029, B-028, B-027, B-026, B-025, B-024, B-023 (property corner only), Map 122H, for a total distance of 1,240 feet, more or less, to an angle point at the common property corners of Parcels B-024, B-023, and B-012, Map 122H; thence, in a northeasterly direction along the southern property lines of Parcels B-012, B-011, B-007, B-006, B-005, B-004, B-003, B-002, B-001, Map 122H, continuing with Parcels A-021 and part of A-022, Map 122G, a total distance of 1,200 feet, more or less, to an angle point in the rear property line of said Parcel A-022; thence, in a southeasterly direction, continuing with the rear property line of said Parcel A-022, and Parcels A-023, A-024, A-025, A-026, A-027, A-028 (south property corner only), A-029, A-030, and part of A-031, Map 122G, a total distance of 1,230, more or less, to an angle point in the rear property line of said Parcel A-031; thence, in a southeasterly direction, continuing with the rear property line of said Parcel A-031, and Parcels A-032, A-033, A-034, A-035, A-036, A-037, A-038, A-039, and part of A-040, Map 122G, a total distance of 1,270 feet, more or less, to an angle point in said Parcel A-040; thence, in a southeasterly direction, continuing with the rear property line of said Parcel A-040, a distance of 100 feet, more or less, to its southwestern property corner; thence, in a northeasterly direction along the southeasterly property line of said Parcel A-040, a distance of 130 feet, more or less, to a point in the southwestern right-of-way line of Flagstone Drive; thence, along the southwestern right-of-way line of said drive, a distance of 270 feet, more or less, to the northwestern property corner of Parcel A-033, Map 122J; thence, in a southerly direction, along the western property line of said Parcel A-033, Map 122J; thence, in a southerly direction, along the western property line of said Parcel A-033 to its common property corner with Parcel C-011.01, Map 122J, a distance of 200 feet, more or less; thence, in a southeasterly direction, along the southwestern property line of said Parcel C-011.01, a distance of 170 feet, more or less, to its common property corner with Parcels C-011 and C-012, Map 122J; thence, in a southerly direction along the western property line of said Parcel C-012, a distance of 170 feet, more or less, to an angle in its rear property line; thence, in a southeasterly direction for the remaining portion of the rear property line of said Parcel C-012 and Parcels C-013, C-014, C-015, C-016, C-017, and part of C-018, Map 122J, a

distance of 730 feet, more or less, to an angle in the property line; thence, in a southeasterly direction along the remaining rear property line of said Parcel C-018 and Parcels C-019 and C-020, Map 122J, and continuing with Parcels A-004, A-005, A-013 (western property corner only), A-014, A-015, A-023 (western property corner only), and a portion of A-024, Map 1220, a distance of 1,640 feet, more or less, to an angle in the property line; thence, in a southeasterly direction, a distance of 1,260 feet, more or less, for the remainder of the rear property line of said Parcel A-024, Parcel A-025 (western property corner only), A-029, and A-030 (to approximately 50 feet north of its southernmost property corner) Map 1220; thence, in a southerly direction, for the remainder of said Parcel A-030 (to its southernmost corner), and along the western property line of parcel 099.01, Map 131, a distance of 470 feet, more or less, to its southernmost corner; thence, in a southerly direction, along the western property lines of Parcels D-005, D-006, D-007, and part of D-008, Map 131B, to an angle in the property line, a distance of 460 feet, more or less, to an angle point; thence, in a southwesterly direction, along the remainder of said Parcel D-008, continuing along the rear property lines of Parcels D-019, D-020, and D-021, Map 131B, a distance of 390 feet, more or less, to an angle in the line at the northernmost property corner of Parcel E-001, Map 131G; thence, along the northwestern property lines of Parcels E-001, E-004, E-005, E-006, E-007, and E-008, Map 131G, a distance of 1,040 feet, more or less, to the northernmost property corner of Parcel E-009, Map 131G; thence, along the northwestern property line of said Parcel E-009, crossing an unnamed street right-of-way, and continuing along the northwestern property lines of Parcels E-010, E-011, E-012, E-013, E-014, E-015, E-016, E-017, E-018, E-019, E-020, and a portion of E-021, Map 131G, a distance of 1,300 feet, more or less, to an angle in the property line of said Parcel E-021; thence, in a southwesterly direction along the remaining property line of said Parcel E-021, continuing along the northwestern property lines of Parcels E-022, Map 131G, Parcel 099.01, Map 131, and Parcel C-040, Map 131G, a distance of 1,100 feet, more or less, to the common property corner of Parcels C-040 and C-041, Map 131G; thence, in a southwesterly direction, along the northwestern property lines of Parcels C-041, C-042, C-043, C-044, C-045, and C-046, Map 131G, and Parcel 099.01, Map 131, a total distance of 1,570 feet, more or less, to the common property corner of Parcels 099.01, and 099.02, Map 131, and Parcel 001, Map 130; thence, meandering along the common property line between Parcel 099.02, Map 131, and Parcel 001, Map 130, a distance of 9,250 feet, more or less, to the POINT OF BEGINNING, containing in all 6,560 acres, more or less.

Hamilton County Property and Adjacent Hickory Valley Road and Railroad Rights-of-Way

BEGINNING at a point in the southwest right-of-way line of Bonny Oaks Drive in the center of the Southern Railroad right-of-way at the present city limit of the City of Chattanooga; thence in a northwest and westwardly direction along the southwest right-of-way line of Bonny Oaks Drive along the property of Hamilton County shown on Tax Map No. 139 as Parcel No. 001.01, a distance of 3,570 feet, more or less, to a point in the east right-of-way line of Hickory Valley Road being the northwest corner of the Hamilton County property; thence continuing across the right-of-way to a point in the east right-of-way line of Hickory Valley Road and the south right-of-way line of Bonny Oaks Drive, thence in a southerly direction along the west right-of-way line of Hickory Valley Road, adjacent to the properties shown on Tax Map 130 as Parcel Nos. 130-002, 139-001, 139-002, and 130-001, 1,660 feet, more or less, to a point in the centerline of the Southern Railroad and existing city limits of the City of Chattanooga; thence along the centerline of the railroad and the existing city limits line across the right-of-way of Hickory Valley Road and adjacent and parallel to the Hamilton County property, a distance of 3,340 feet, more or less, to the point of beginning, containing 73 acres, more or less.

ANNEXATION ORD. NO. 10836*
ENACTED MARCH 2, 1999

Pursuant to the authority conferred by T.C.A. §§ 6-51-201 through 6-51-204, the territory originally annexed by the City of Chattanooga within Ordinance No. 10115 shall be contracted to include the following territory set forth as "Chattanooga Annexation Area" in the Agreed Order of Compromise and Dismissal attached hereto as Exhibit "A":

***Note—**Amends Ord. No. 10115, adopted October 4, 1994.

CHATTANOOGA ANNEXATION AREA
(North of the Present City Limits Along US 27)

Beginning at the south right of way line of Thrasher Pike said point intersected by the east right of way of the Southern Railroad also being most northern corner of Jo Ann C. Jerrigan property described in Deed Book 3219, Page 791, in the R.O.H.C., thence in a southwesterly direction along the east right-of-way line of the Southern Railroad to a point in the north in the line of the Robert C. Sharpe tract recorded in Deed Book 2874, Page 267, in the R.O.H.C. also being Parcel No. 036, Tax Map No. 82F, Block A, thence southwardly along the above described tract and the line extended in all about thirty-eight hundred twenty (3820) feet to a point in the southeast corner of the J. W. Thomas tract recorded in Deed Book 1675, Page 95, in the R.O.H.C. also being Parcel 26, Block A, Tax Map No. 82F, thence in a westerly direction with the J. W. Thomas, et al tract southern line about thirteen hundred twenty (1320) feet to the northwest corner of the Richard D. Baynes property recorded in Deed Book 3384, Page 308, in the R.O.H.C., also being parcel No. 021, Block A, Tax Map No. 82F, thence southwardly and southeastwardly along the above described tract to a point in the northeast corner of Randle L. Carpenter property recorded in Deed Book 4634, Page 944, in the R.O.H.C., also being the northwest corner of Parcel 019, Block A, Tax Map No. 82F, thence in a southwesterly direction to a point being the southwest corner of Don L. Smith property described in Deed Book 4281, Page 612, R.O.H.C., and parcel 017, Block A, Tax Map No. 82F, thence in a northwesterly direction to northwest corner of the N. E. Vanderslice tract recorded in Deed Book 1423, Page 86, R.O.H.C., also being parcel 016, Block A, Tax Map No. 82F, thence southwestwardly along the west line thereof. To the southwest corner, thence in a southeasterly direction along the above described tract to the northwest corner of the Forrest M. Plemons property described in Deed Book 2238, Page 843, in the R.O.H.C. also being Parcel 015, Block A, Tax Map No. 82F, thence in a southwesterly direction along the west line thereof and extending along the west line of Lot 8, Cave Ridge Subdivision recorded in Plat Book 29, Page 117, in the R.O.H.C., and said line extended to the north line of the Billy Reagan property described in Deed Book 2054, Page 424, in the R.O.H.C. also being Parcel 019, Tax Map No. 82, thence in a northwesterly direction to the northwest corner thereof, thence in a southwesterly direction along the west line of the above described tract about fourteen hundred forty-five (1445) feet to a point where said makes a turn further to the southwest cornering in the north line of the Edward J. Ford tract described in Deed Book 2854, Page 317, in the R.O.H.C. also being Parcel 220, Tax Map No. 82, thence in northwesterly direction about six hundred sixty (660) feet to a point where said line turns west and corners at a distance of about four hundred forty (440) feet, thence in a southwesterly direction along the west line thereof and extending with west line the Joe B. Vandergriff property described in Deed Book 4747, Page 45 in the R.O.H.C. also being parcel 223, Tax Map No. 82 to the southwest corner thereof in the end of the east right-of-way of Hillcrest Road, thence crossing Hillcrest Road and with the north line of Lot 3, Hillcrest Bluff Subdivision, recorded in Plat Book 41, Page 312, in the R.O.H.C. To the northwest corner thereof, thence south extending along the west line of above described subdivision to a point in the north line of John R. Davis property, thence in a southwesterly direction to the northwest corner of Davis tract, thence in a southeasterly direction to the southwest corner thereof, thence to the northeast to the west right-of-way line Hillcrest Road, thence to the southeast along Hillcrest Road to the corner of Deon Hammontree property described in Deed Book 4604, Page 339, in the R.O.H.C. also being Parcel 251.06, Tax Map No. 82, thence in southwesterly direction to the northwest corner thereof, thence to the southeast with the Hammontree line and its extension to the southeast corner of the James W. Smith property described in Deed Book 4256, Page 974 in the R.O.H.C. also being Parcel 251, Tax Map No. 82, thence to the southwest with the Smith line about seven hundred ten (710) feet to a point intersecting the east right-of-way line of Southern Railroad, thence with the Southern Railroad right-of-way to a point intersecting the north bank of North Chickamauga Creek, thence crossing North Chickamauga Creek to the South Bank to a point, thence to the northwest with the meanders of the south bank to the most northern corner of the Robert Lee Roberts property described in Deed Book 5064, Page 196, in the

R.O.H.C. also being Parcel 001, Tax Map No. 91B, thence with the Roberts west line to the north right-of-way line of Boy Scout Road, thence to the northwest with the north right-of-way line of Boy Scout Road being the existing corporate limits of Chattanooga to a point in the east intersecting right-of-way U.S. Highway No, 27, thence crossing the highway to the west side intersecting the south right-of-way of Pitts Road, thence along the south right-of-way of Pitts Road as it meanders and extension thereof to the west right-of-way of Old Dayton Pike, also being the northeast corner of Parcel 077, Tax Map No. 81, thence in a northerly direction crossing State Route No. 29 intersecting the west right-of-way of Old Dayton Pike also being the southeast corner of Lot 1, Rainey R. Pitts Subdivision recorded in Plat Book 39, Page 49, in the R.O.H.C., thence in a northeasterly direction with north right-of-way of State Route No. 29 to a point intersecting the south right-of-way Old Dayton Pike and continuing northeast with State Route No. 29 right-of-way to the end of Old Dayton Pike, thence crossing State Route No. 27, or Dayton Pike intersecting the north right-of-way of State Route No. 29, thence in an easterly and northeasterly direction with State Route No. 29, bounded on the west by Thomas Brothers Construction Company, Inc., described in Deed Book 3178, Page 254, in the R.O.H.C. and continuing northeast bounded on the west by the Barbara M. Douglas property recorded in Deed Book 1572, Page 684, in the R.O.H.C., continuing northeast bounded on the west by the Paul B. Thomas property described in Deed Book 2507, Page 413, in the R.O.H.C., thence continuing to the northeast bounded on the west by J.W. Thomas et al property described in Deed Book 2391, Page 583, in the R.O.H.C., thence continuing northeast with State Route No. 29 bounded on the west by Foster Jackson property described in Deed Book 1030, Page 390 in the R.O.H.C. and extended north to the southeast corner of Lot 2, Ruby Gothard Subdivision recorded in Plat Book 37, Page 57 in the R.O.H.C., thence north with east line of said lot and extending across the end of Holland Johnson Road to point in the J.W. Thomas Sr. et al property also being Parcel 001, Block E, Tax Map No. 73F said point in the Thrasher Pike Access right-of-way, thence crossing State Route No. 29 Bridge intersecting the west right of Southern Railroad, thence in a northeast direction with Southern Railroad right-of-way about one hundred thirty (130) feet to the south right-of-way of Thrasher Pike, thence crossing Southern Railroad to the point of beginning.

ANNEXATION ORD. NO. 10966*
ENACTED FEBRUARY 8, 2000

Pursuant to the authority conferred by Tennessee Code Annotated, §§ 6-51-101 to 6-51-113, Ordinance No. 10590 of the City of Chattanooga be and the same hereby is amended to delete all territory within the corporate boundaries of the City of Chattanooga other than the following described territory adjoining the present corporate boundaries as follows:

CHATTANOOGA ANNEXATION AREA
(North of the Present City Limits
Along US 11 and Including
Access Along Interstate 75)

BEGINNING at a point in the existing City Limit Line of Chattanooga, Tennessee, at the intersection of the southern right-of-way line of the Southern Railway and the northwest right-of-way line of U. S. Highway I-75; thence, in a northeastern direction along the northwesterly right-of-way line of U. S. Highway I-75 and the southeastern property line of parcels 099.02, 044, across the right-of-way of Country Village Drive, parcels 044.02, 042.01, 42.02, 42.03, 041, 039, across the right-of-way of Hilltop Drive, parcels 036, 037, 034, 034.01, across the right-of-way of Hunter Road, parcels 074.01, 074, 075.01, 075.02, 076, 075, to the southeast corner of parcel 075, across the right-of-way of Snow Hill Road, of Hunnicutt Tax Map 131 and continuing in a northeasterly direction along said U. S. Highway I-75 right-of-way and the southeastern property line of parcel 3, Map 132, to its southeastern property

***Note—**Amends Ord. No. 10590, adopted July 1, 1997.

corner; thence, in a southeasterly direction across the right-of-way of U.S. highway I-75 to the common corner between parcels 002 and 002.04, Map 132; thence along the common lot line between parcels 002 and 002.04, Map 132, to the most eastern corner of said parcel 002; thence, across parcel 002.04, Map 132, to the common western corner between parcels 013 and 014, Map 132; thence, along the common property line between said parcels 013 and 014 to their common eastern corner in the reserved access right-of-way for said parcels 013 and 014; thence, across said reserved access to the northwestern property corner of parcel B-010, Map 132H; thence, continuing in an easterly direction along the property line between parcels B-009 and B-010, Map 132H, to the western right-of-way line of the Georgetown-Ooltewah Road and continuing eastwardly to the eastern right-of-way line of said road, to a point in the western property line of parcel A-021, Map 132H; thence, in a southwesterly direction, along the eastern right-of-way line of Georgetown-Ooltewah Road and the western property lines of parcels A-021, A-020, A-019, and A-018, Map 132H to the southeast corner of parcel A-018; thence, in a southeasterly direction, approximately 500 feet from and parallel to Lee Highway, along the line between parcel A-018 and A-017, along the line of parcel A-011, across Hall Road, along parcel A-010 to the line of parcel A-003; thence in a northeasterly direction to the northwest corner of parcel A-003; thence in a southeasterly direction along parcel A-003 and A-001.01 to the line of parcel 028 on map 132; thence with the west property line of parcel 028 and 027.02 in a southeasterly direction to the northern right-of-way line of Lee Highway at the southwestern property corner of parcel 027.02, Map 132; thence, continuing across Lee Highway to the northeast corner of parcel B-023 on map 132H; thence running along the southern right-of-way line Lee Highway and the northern property lines of B-023, B-018, B-017, B-016, B-015, across Park Street, along B-013, B-012 of Map 132H; thence crossing Main Street and along parcel B-003, B-002, B-001, and B-001.01 of Map 132H; thence continuing along parcel 020.01, 020.05, 020.02, of Map 132; along parcel 082 of map 131; along parcel 020.04, 020.03 of map 132; across Little Debbie Parkway, along parcel 082.02, 082.03 of map 131, across the relocated Lee Highway; thence continuing with the southern right-of-way line of Lee Highway along the line of parcel 082 to the northeast corner of parcel 083; thence leaving the right-of-way of Lee Highway and running along the common lines of parcel 083 and 082 to the corner of parcel 088; thence along the line of parcel 088 to the northwest corner of parcel 091; thence running with the common line between parcel 091 and 088 to the northwest corner of parcel 089; thence with the common line of parcel 089 and parcel 088 to the right-of-way line of Ooltewah Cemetery Road; thence crossing Ooltewah Cemetery Road and the Southern Railroad Company right-of-way to a point in the right-of-way of Little Debbie Parkway, said point being the northeast corner of parcel A-023 of map 131L; thence running in a northwesterly direction along the southern right-of-way of the Southern Railroad Company along parcel A-023, A-024.05, A-024, A024.1, of map 131L; continuing with the Southern Railroad right-of-way along parcel A-026, A-027, A-028 of map 131K, crossing Old Lee Highway and Old Cleveland Pike, continuing along the southeastern right-of-way of the Southern Railroad Company in a southwesterly direction, passing along the northwestern property lines of parcel 012, 014, 015.05, 015.04, 015.03, 015.02, 015.01, 015, 016, 017, 018, Map 131, to the northwestern right-of-way line of Old Cleveland Pike; thence, in a southwesterly direction, along the aforementioned Southern Railroad and Old Cleveland Pike rights-of-way, a distance of 2,850 feet, more or less, to the northernmost property corner of parcel B-020, Map 131P; thence, continuing with the Southern Railroad right-of-way line in a southwesterly direction, along the northwestern property lines of B-020, B-020.01, B-019, B-018, B-017, B-016, B-015, B-014, B-013, B-012, B-010, B-009, B-003, Map 131P, to the existing right-of-way of Old Cleveland Pike; thence, crossing Old Cleveland Pike, and continuing along the northwestern property lines of parcels B-001, A-001, A-002, A-003, A-008, A-009, A-010, A-011, A-011.01, A-012.01, A-012, Map 131P, to the northwestern property corner of said parcel A-012; thence, in a southerly direction along the western property line of parcel A-012 and the Southern Railroad right-of-way, to the northern right-of-line of Apison Pike, being also a point in the existing Chattanooga City Limit Line; thence, in a westerly direction, along the common right-of-way line of Southern Railroad and Apison Pike, being also the existing city limit line, a distance of 1,550 feet, more or less, across U.S. Highway I-75 to the POINT OF BEGINNING.

(See the attached reference map which more fully provides an illustration of the proposed annexation boundaries.)*

CONTRACT TO ADJUST CERTAIN OF THE CONTIGUOUS BOUNDARIES OF THE CITY LIMITS OF THE CITIES OF CHATTANOOGA AND RED BANK†

I. Statement of Intent

This contract, signed as duplicate originals, is entered by and between the City of Chattanooga, Tennessee and the City of Red Bank, Tennessee under the provisions of Section 6-51-302 of the Tennessee Code, which permits contiguous municipalities to adjust their coincident boundaries when said boundaries are not in line with the street and lot layout of the cities, or does not conform to the rights of ways and easement. The intent of this contract is to eliminate those parcels and public street rights of way which are split by the existing city limits boundary line such that only entire parcels and the full width of street rights of way are contained within a single municipality. Such changes offer the tangible benefit of eliminating uncertainties of jurisdiction for law enforcement, emergency response, and maintenance. These changes do not alter the voting precincts, government representation, assessed value, tax payment, or other elements of the relationship between local governments and their citizens. The revised city limits were developed by the involved cities' public works staffs working with the Hamilton County GIS Department, and have been reviewed by the Chattanooga-Hamilton County Regional Planning Commission, which recommends their adoption. The requirements of the applicable State statute have been met. No citizen or resident or owner of any of the effected parcels will, as a consequence of this agreement: (a) change the jurisdiction in which he or she votes or (b) pay taxes to any other city than the one to which such person or owner had previously paid real property taxes.

II. Effective Date

The provisions of this Agreement, and the boundary adjustments contemplated hereby, are intended to be effective as of the 1st day of October, 2000.

III. City of Chattanooga

A. The following parcels in existence at the time of this contract are placed entirely within the corporate boundary of the City of Chattanooga. (See attached Exhibit "A")

B. The following street rights of way are placed in the City of Chattanooga:

1. Altamount Road for its entire length.
2. Cary Lane for its entire length.
3. Delashmitt Road east of the northern extension of the western right of way line of Cary Lane.
4. Ely Road for its entire length.
5. Gadd Road for its entire length.
6. Hamilton Avenue south of the southern right of way line of Ramona Street (a.k.a., Dunellen Street).
7. McCahill Road north of the southern right of way line of Browntown Road.
8. Mountain View Avenue for its entire length.
9. New Pineville Road for its entire length.
10. Stringers Ridge Road for its entire length.

***Note—**Map is located in the office of the Clerk of the City Council.

†**Note—**Authorized by Reso. No. 22683, adopted October 10, 2000.

11. Tiktin Drive along the length of Parcel 118H-J-038.

12. US Highway 27 south of the southern right of way line of Signal Mountain Road.

IV. City of Red Bank

A. The following parcels in existence at the time of this contract are placed entirely within the corporate boundary of the City of Red Bank. (See attached Exhibit "B")

B. The following street rights of way are placed in the City of Red Bank:

1. East Frontage Road north of the northern right of way line of Stringers Ridge Road.

2. US Highway 27 from the southeast corner of Parcel 126G-C-009 north to the existing city limits located approximately 2,400 feet north of the centerline of Read's Lake Road, as measured along the centerline of US Highway 27.

3. Browntown Road from its intersection with the eastern right of way line of McCahill Road to the existing city limits located approximately 1,475 feet west of said intersection.

4. Delashmitt Road south from the southern right of way line of Gadd Rd. to the northern extension of the western right of way line of Cary Lane.

5. Highpoint Drive north to the northern right of way line of Altamount Road.

6. Ramona Street (a.k.a. Dunellen Street), for its entire length, and its intersection with Hamilton Avenue.

V. Documentation of Modifications:

The Hamilton County GIS Department has prepared an official map of the city limit boundary of the City of Red Bank, Tennessee, and the coincident portion of the city limit boundary of the City of Chattanooga, Tennessee, modified consistent with this Agreement and showing the involved parcels and rights of way which map is attached hereto as Exhibit A and is made a part hereof by reference. This map, RBCL0800, has been reviewed by all parties and used as the source of the information contained above, is hereby adopted by the City of Red Bank as its official map showing the extent of its jurisdiction, and is agreed to and endorsed by the City of Chattanooga as describing its official city limits in the affected area. The Hamilton County GIS Department shall make the revised city limits boundary available to both cities, the Chattanooga-Hamilton County Regional Planning Agency, the Hamilton County Election Commission, the Hamilton County Assessor of Property, and other interested parties in printed and electronic forms.

VI. Limitations

Unless specifically addressed by this agreement, the official city limit boundaries of the City of Chattanooga and the City of Red Bank in existence at the time of executing this contract shall not be modified. No provisions of this contract shall alter the voting rights or other elements of the relationship of these municipalities and their citizens.

City Recorder

CONTRACT TO AMEND THE COINCIDENT CITY LIMITS OF THE CITIES OF CHATTANOOGA AND EAST RIDGE IN THE STATE OF TENNESSEE*

I. Statement of Intent

This contract was developed under the provisions of Section 6-51-302 of the Tennessee Code, which permits contiguous municipalities to adjust their coincident boundaries when said boundaries are not in line with the street and lot layout of the cities, or does not conform to other rights of way and easements. The intent of this contract is to eliminate those parcels and public street rights of way which are split by the existing city limits boundary line such that only entire parcels and the full width of street rights of way are contained within a single municipality. Such changes offer the tangible benefit of eliminating uncertainties of jurisdiction for law enforcement, emergency response, and maintenance. These changes do not alter the voting precincts, government representation, assessed value, tax payment, or other elements of the relationship between local governments and their citizens. The revised city limits were developed by the involved cities' public works staffs working with the Hamilton County GIS Department, and have been reviewed by the Chattanooga-Hamilton County Regional Planning Commission, which recommends their adoption. The requirements of the applicable State statute have been met.

II. City of Chattanooga

A. The following parcels in existence at the time of this contract are placed entirely within the corporate boundary of the City of Chattanooga. (See attached Exhibit "C")

B. The following street rights of way are placed in the City of Chattanooga:

1. Anderson Avenue, for its entire length.
2. Brockhaven Road west from the southern extension of the western right of way line of Laurel Drive to its terminus at Ridge Avenue.
3. East View Drive for its entire length.
4. Germantown Road south to the southern right of way line of Anderson Avenue.
5. Interstate 24 west of the eastern edge of the bridge carrying Seminole Drive to the existing western city limit of Chattanooga.
6. Interstate 24 east of the western edge of the two bridges carrying Interstate 24 over Germantown Road to the eastern terminus of the highway at its interchange with Interstate 75.

***Note—**Authorized by Reso. No. 22730, adopted November 21, 2000.

7. John Ross Road south of the southern right of way line of Sunrise Terrace to its terminus at South Crest Road.

8. Sheridan Avenue north from a line defined by a line connecting the northern property lines of parcels 156E-A-001 and 156E-B-001 to its terminus at South Crest Road.

9. South Crest Road south from John Ross Road to the southwestern right of way line of East Crest Road at its intersection with West Crest Road and Missionaire Avenue.

III. City of East Ridge

A. The following parcels in existence at the time of this contract are placed entirely within the corporate boundary of the City of East Ridge. (See attached Exhibit "D")

B. The following street rights of way are placed in the City of East Ridge:

1. East Crest Road south from the western extension of the southern right of way line of Missionaire Avenue to the Georgia-Tennessee state line.

2. Interstate 24 east from the eastern edge of the bridge carrying Seminole Drive over Interstate 24 to the western edge of the parallel bridges carrying Interstate 24 over Germantown Road.

3. Laurel Drive east and south from its start at Sheridan Avenue to its terminus at Brockhaven Road.

4. Ringgold Road east from the eastern property line of Parcel 156N-F-013.02 to the existing eastern city limit of East Ridge.

5. Sunrise Terrace west from and including its intersection with John Ross Road to a curve located at the western property line of Parcel 168K-E-026.

6. Shadowlawn Drive east from the western property line of Parcel 168C-F-038 to its terminus at Reeves Avenue.

IV. Documentation of Modifications:

The Hamilton County GIS Department has prepared an official map of the city limit boundary of the City of East Ridge, Tennessee, and the coincident portion of the city limit boundary of the City of Chattanooga, Tennessee, showing the involved parcels and rights of way. This map, which has been reviewed by all parties and used as the source of the information contained above, is hereby adopted by the City of East Ridge as its official map showing the extent of its jurisdiction, and is endorsed by the City of Chattanooga as describing its official city limits in the affected area. The Hamilton County GIS Department shall make the revised city limits boundary available to both cities, the Chattanooga-Hamilton County Regional Planning Agency, the Hamilton County Election Commission, the Hamilton County Assessor of Property, and other interested parties in printed and electronic forms.

V. Limitations

Unless specifically addressed by this agreement, the official city limit boundaries of the City of Chattanooga and the City of East Ridge in existence at the time of executing this contract shall not be modified. No provisions of this contract shall alter the voting rights or other elements of the relationship of these municipalities and their citizens.

IN WITNESS WHEREOF, the parties have hereunto set their hands on this the 26th day of October, 2000.

Commit themselves and their respective jurisdictions on this 26th day of October, 2000:

ANNEXATION ORD. NO. 11174
ENACTED SEPTEMBER 4, 2001

Under the authority conferred by T.C.A. § 6-51-101, *et seq.*, that there be and hereby is annexed to the City of Chattanooga, Tennessee, and included within the corporate boundaries of said City an area on the side of Lookout Mountain, in Hamilton County, contiguous to the corporate boundaries of said City, owned by John C. Wilson and Patsy H. Wilson, which territory is more fully described as follows:

155I-B-001

IN THE THIRD CIVIL DISTRICT OF HAMILTON COUNTY, TENNESSEE:

BEGINNING at an iron pipe in the Southern line of Cravens Road at the Northwest corner of property conveyed by Mary Belle Waldo to Elaine Pierce by Deed recorded in Book 2205, Page 68, in the Register's Office of Hamilton County, Tennessee; thence along the West line of said Pierce property, South 34 degrees 15 minutes, West 254.4 feet to an iron pipe; thence along the Southwest line of Pierce as follows: South 22 degrees 23 minutes East 53.52 feet to an iron pipe, and South 20 degrees, 56 minutes East 150.71 feet to an iron pipe; thence along the Southern line of Pierce, and along the Southern line of John F. Roberts and wife, as described in Book 1343, Page 621, South 57 degrees 48 minutes East 52.59 feet to Chickamauga-Chattanooga National Park Monument APE-39; thence South 46 degrees 26 minutes West along the Northwest line of Elinor Street, 208.23 feet to an iron pipe at the Northwest corner of Elinor and Rutherford Streets; thence North 34 degrees 14 minutes West along the Northeast line of Rutherford Street, 411.11 feet to an iron pipe in the Southeast line of the property of Chickamauga-Chattanooga National Park; thence North 47 degrees 03 minutes East along the Southeast line of said Park Property, 165.29 feet to Park Monument AP3-14 at the Northeast Corner of said Park Property; thence along the Southeast line of property conveyed to Damon L. Stegel by Deed recorded in

Book 2665, Page 157, in the Register's Office of Hamilton County, Tennessee, on a bearing of North 46 degrees 56 minutes East 253.62 feet to the Southern line of Cravens Road; thence along the Southern line of Cravens Road South 61 degrees 52 minutes East 113.73 feet to the point of beginning. Being shown on plat of survey by Betts-Lutin, Drawing No. 8791-1-21C, the line along the Pierce boundary certified on said Drawing to be the same line as shown on their Drawing No. 3812-C-37E, and on Deed recorded in Book 2205, Page 68, said Register's Office.

REFERENCE is made for prior title to Will Book 3, page 574, and Intestate Proceeding No. 810, in the Probate Records of Hamilton County, Tennessee.

SUBJECT TO Governmental zoning and subdivision ordinances or regulations in effect thereon.

ANNEXATION ORD. NO. 11201
ENACTED NOVEMBER 13, 2001

Under the authority conferred by Chapter 113, Public Acts of 1955, and the amendments thereto (T.C.A. § 6-51-101, *et seq.*), that there be and hereby is annexed to the City of Chattanooga, Tennessee, and included within the corporate boundaries of said City an area on the side of Lookout Mountain, in Hamilton County, contiguous to the corporate boundaries of said City, owned by Richard Rossell and Martha Rossell, which territory is more fully described as follows:

153 001.01

IN THE THIRD CIVIL DISTRICT OF HAMILTON COUNTY, TENNESSEE:

BEGINNING on the south right of way line of Will Cummings Highway at the northeast corner of a one-acre tract conveyed by A. W. Kelley to Silas McNabb and running with the east line of the McNabb tract southwardly one hundred fifty (150) feet to a stake; thence south eight (8) degrees east two hundred (200) feet to a stake; thence north sixty-seven (67) degrees east thirty-eight (38) feet to the west right of way of a road leading to a coal mine tipple; thence with the west line of said road to its intersection with the south right of way of Will Cummings Highway; thence along the south right of way line of said Will Cummings Highway in a westwardly direction fifty (50) feet, more or less, to beginning point, and containing one-half (1/2) acre, more or less.

EXCEPT that part sold in Book 1497, page 669, in said Register's Office.

REFERENCE is made for prior see deed recorded in Book 1311, page 312, in said Register's Office.

SUBJECT TO Governmental zoning and subdivision ordinances or regulations in effect thereon.

ANNEXATION ORD. NO. 11202
ENACTED NOVEMBER 13, 2001

Under the authority conferred by Chapter 113, Public Acts of 1955, and the amendments thereto (T.C.A. § 6-51-101, *et seq.*), that there be and hereby is annexed to the City of Chattanooga, Tennessee, and included within the corporate boundaries of said City an area on the side of Lookout Mountain, in Hamilton County, contiguous to the corporate boundaries of said City, owned by Peter A. Krenkel, which territory is more fully described as follows:

155P-G-001

IN THE THIRD CIVIL DISTRICT OF HAMILTON COUNTY, TENNESSEE:

Lots Fifty-nine (59), Sixty (60), Sixty-one (61), Sixty-two (62) and Sixty-three (63), Cravens and McMillian's Subdivision, as shown by plat of record in Plat Book 2, page 39, of the Register's Office of Hamilton County, Tennessee. Said lots together form one (1) tract of ground described as follows:

BEGINNING at a monument located four and one-tenth (4.1) feet Westwardly of the Western line of Shingle Road as shown on survey by Hopkins-Morton Engineering Co., Inc., dated December 31, 1968;

thence South eighty (80) degrees West three hundred nineteen and three-tenths (319.3) feet along the Southern line of Lot Fifty-nine (59), being a Northern line of the Chickamauga and Chattanooga National Park, to a monument in the Eastern line of the Chattanooga-Lookout Mountain Railroad right of way; thence Northwardly along said right-of-way line, with a chord distance of North sixteen (16) degrees twenty-five (25) minutes West two hundred sixty-three and seventy-six hundredths (263.76) feet to a monument; thence North seventy-nine (79) degrees ten (10) minutes East along the Northern line of Lot Sixty-three (63), being a Southern line of the Chickamauga and Chattanooga National Park, two hundred seventy-nine and six-tenths (279.6) feet to a monument, located three and two-tenths (3.2) feet to the Western line of Shingle Road, as shown on said survey; thence continuing three and two-tenths (3.2) feet to the Western line of Shingle Road; thence Southward along Shingle Road, with a chord distance of South twenty-five (25) degrees twenty-six (26) minutes East two hundred sixty and three-tenths (260.3) feet to a point; thence Westwardly four and one-tenth (4.1) feet to the point of beginning.

EXCEPT THEREFROM that part of said tract lying within the boundaries of Shingle Road as shown on Plat Book 2, page 39, in said Register's Office.

REFERENCE is made for prior title to Book 2206, page 692, in the Register's Office of Hamilton County, Tennessee.

SUBJECT TO Governmental zoning and subdivision ordinances or regulations in effect thereon.

ANNEXATION ORD. NO. 11385
ENACTED FEBRUARY 25, 2003

Under the authority conferred by Chapter 113, Public Acts of 1955, and the amendments thereto (T.C.A. § 6-51-101, et seq.), that there be and hereby is annexed to the City of Chattanooga, Tennessee, and included within the corporate boundaries of said City an area of Tiftonia, in Hamilton County, contiguous to the corporate boundaries of said City which is more fully described as follows:

IN THE THIRD CIVIL DISTRICT OF HAMILTON COUNTY, TENNESSEE:

BEGINNING at a point in the western right-of-way line of Birmingham Highway at the existing City Limit Line of Chattanooga, Tennessee, being the southeast corner of parcel 166-05 and the common corner of parcel 166P-A-001; thence northerly along the western right-of-way line of Birmingham Highway to a point in the southern right-of-way of the CSX railroad; thence running with the right-of-way of the CSX railroad across Birmingham Highway to a point on the eastern right-of-way line of Birmingham Highway; thence running southerly with the eastern right-of-way line of Birmingham Highway to the corner of parcel 166I-A-014; thence southeasterly running with the common line of parcel 166I-A-014, parcel 166I-A-012, parcel 166-004, and parcel 166-004.01 to the eastern most corner of parcel 166I-A-012; thence southeasterly across the rights-of-way of Wauhatchie Pike and AGS railroad right-of-way to a point in the eastern right-of-way line of Wauhatchie Pike; thence southwesterly along the eastern right-of-way line of Wauhatchie Pike to the northwest corner of parcel 166I-B-015; thence southeasterly along the common line of parcel 166I-B-016 and parcel 166I-B-015, parcel 166I-B-013, parcel 166I-B-012, parcel 166I-B-011, parcel 166I-B-010, parcel 166I-B-009, and parcel 166I-B-008 to the northeast corner of parcel 166I-B-008, being a point in the right-of-way of the CSX railroad; thence southwesterly with the right-of-way of the CSX railroad along the eastern line of parcel 166I-B-008 and parcel 166-003.05 to the southeastern corner of parcel 166-003.05; thence northeasterly with the line of parcel 166-003.05 and parcel 166-003 to the southwest corner of parcel 166-003 and a point in the right-of-way of Wauhatchie Pike; thence southwesterly along the right-of-way of Wauhatchie Pike to the intersection of the eastern right-of-way of Birmingham Highway; thence crossing the rights-of-way of Birmingham Highway and AGS railroad to a point in the western right-of-way of Birmingham Highway, being the southeast corner of parcel 166P-A-006; thence northeasterly with the right-of-way of Birmingham Highway to the BEGINNING.

SUBJECT TO Governmental zoning and subdivision ordinances or regulations in effect thereon.

ANNEXATION ORD. NO. 11386
ENACTED FEBRUARY 25, 2003

Under the authority conferred by Chapter 113, Public Acts of 1955, and the amendments thereto (T.C.A. § 6-51-101, et seq.), that there be and hereby is annexed to the City of Chattanooga, Tennessee, and included within the corporate boundaries of said City an area of Tiftonia, in Hamilton County, contiguous to the corporate boundaries of said City which is more fully described as follows:

IN THE THIRD CIVIL DISTRICT OF HAMILTON COUNTY, TENNESSEE:

BEGINNING at point on the western right-of-way of Cummins Highway on the Chattanooga city limit line at the northeastern corner of parcel 153-002; thence southwestly to the southeastern corner of said parcel; thence northwesterly along the common line between parcel 153-002 and parcel 153-007.05 to the common corner of parcel 153-002 and parcel 153-002.01; thence northeast along the common line between parcel 153-002 and 153-002.01 to the common corner between said parcels in the southern right-of-way of Cummings Highway; thence southeast along the right-of-way of Cummings Highway and the line of parcel 153-002 to the BEGINNING.

SUBJECT TO Governmental zoning and subdivision ordinances or regulations in effect thereon.

ANNEXATION ORD. NO. 11387
ENACTED FEBRUARY 25, 2003

Under the authority conferred by Chapter 113, Public Acts of 1955, and the amendments thereto (T.C.A. § 6-51-101, et seq.), that there be and hereby is annexed to the City of Chattanooga, Tennessee, and included within the corporate boundaries of said City an area of Hixson, in Hamilton County, contiguous to the corporate boundaries of said City which is more fully described as follows:

IN THE THIRD CIVIL DISTRICT OF HAMILTON COUNTY, TENNESSEE:

BEGINNING at a point in the existing City Limit Line of Chattanooga, Tennessee, at the intersection of the northern right-of- way line of Lower Mill Road and the western right-of-way line of Middle Valley Road; thence, in a northwesterly direction along the northern right-of-way line of Lower Mill Road and the southwestern property line of parcel 091-062.02 to the common corner of parcel 091-062.02 and parcel 091-062; thence northeasterly with the common line of parcel 091-062.02 and parcel 091-062 to a point, a common corner of parcel 091-062.02 and parcel 091-062, thence, southeasterly with the common line of parcel 091-062.02 and parcel 091-062 to a point, the corner of parcel 091-062.01; thence, southeasterly with the common line of parcel 091-062.01 and parcel 091-062.02 to the northeast corner of parcel 091-062.02; thence crossing Middle Valley Road to a point in the east right-of-way of Middle Valley Road; thence, southwesterly along the east right-of-way of Middle Valley Road, crossing the right-of-way of Pheasant Run Place to the northeast right-of-way line of Shelby Circle; Thence across Middle Valley Road to the point of BEGINNING.

SUBJECT TO Governmental zoning and subdivision ordinances or regulations in effect thereon.

ANNEXATION ORD. NO. 11388
ENACTED FEBRUARY 25, 2003

Under the authority conferred by Chapter 113, Public Acts of 1955, and the amendments thereto (T.C.A. § 6-51-101, et seq.), that there be and hereby is annexed to the City of Chattanooga, Tennessee, and included within the corporate boundaries of said City an area of Hixson, in Hamilton County, contiguous to the corporate boundaries of said City which is more fully described as follows:

IN THE THIRD CIVIL DISTRICT OF HAMILTON COUNTY, TENNESSEE:

BEGINNING at a point in the existing City Limit Line of Chattanooga, Tennessee, at the intersection of the northern right-of-way line of Big Ridge Road and the eastern right-of-way line of Hixson Pike,

thence, in a northeasterly direction along the eastern right-of-way line of Hixson Pike and the property line of parcel 101-012.02, parcel 101-012.08, parcel 101-012.10, parcel 101-012.01, and parcel 101-011.02 to the northwest corner of parcel 101-011.02; thence southeasterly to the northeast corner of parcel 101-011.02; thence southwesterly to the southeast corner of parcel 101-011.02, being a point in the line of parcel 101-012.01; thence southeasterly with the line of parcel 101-012.01 to the corner of parcel 101-011; thence with the right-of way of Hixson Pike northeasterly along the line of parcel 101-011, parcel 101-010, parcel 101-009, parcel 101-008, parcel 101-007, and parcel 101-006 to the corner of parcel 101-005.03; thence southeasterly with the common line between parcels 101-006, parcel 101-007, and parcel 101-005.03 to the southeast corner of parcel 101-005.03; thence northwesterly to a common corner with parcel 092P-B-011 and parcel 101-005.03; thence northwesterly with the common line of parcel 101-005.03 and parcel 101-005.02 to the southeast corner of parcel 101-005.01; thence northeasterly with the common line of parcel 101-005.02 and parcel 101-005.01 to the northwest corner of parcel 101-005.02; thence northeasterly with the common line of parcel 101-003 and parcel 092-042 to the southeast corner of parcel 101-002.01; thence northwesterly with the common line of parcel 101-002.01, and parcel 092-042 to the northeast corner of parcel 101-002.01; thence northwesterly with the common line of parcel 101-002.01 and parcel 101-096 to the northwest corner of parcel 101-002.01; thence continuing northwest to the centerline of Hixson Pike; thence southwesterly along the centerline of Hixson Pike to a point on the north right-of-way of Big Ridge Road extended; thence from the centerline of Hixson Pike to the BEGINNING

SUBJECT TO Governmental zoning and subdivision ordinances or regulations in effect thereon.

ANNEXATION ORD. NO. 11389
ENACTED FEBRUARY 25, 2003

Under the authority conferred by Chapter 113, Public Acts of 1955, and the amendments thereto (T.C.A. § 6-51-101, et seq.), that there be and hereby is annexed to the City of Chattanooga, Tennessee, and included within the corporate boundaries of said City an area of Lee Highway and Interstate 75, in Hamilton County, contiguous to the corporate boundaries of said City which is more fully described as follows:

IN THE THIRD CIVIL DISTRICT OF HAMILTON COUNTY, TENNESSEE:

BEGINNING at a point in the north right-of-way line of Hunter Road at the intersection of the existing city limit line of the City of Chattanooga, said point being the common corner of parcel 131-074 and parcel 131-074.03; thence leaving the north right-of-way line of Hunter Road and running in a northwesterly direction along the common line of parcel 131-074 and parcel 131-074.03 to the corner of parcel 131-074.03, being a point in the line of parcel 131-075.01; thence running southwesterly with the common line of parcel 131-074 and 131-075.01 to the southwest corner of parcel 131-075.01; thence running northeasterly with the common line of parcel 131-075 and 131-075.01 to the northwest corner of parcel 131-075.01; thence running southeasterly with the line of parcel 131-075.01 to the northeast corner of parcel 131-076; thence running northeast with the line of parcel 131-076 to the northeast corner of parcel 131-076; thence southeast with the line of parcel 131-076 to the northern right-of-way of Mountain View Road; thence southwesterly with the northern right-of-way of Mountain View Road and Hunter Road to the BEGINNING.

SUBJECT TO Governmental zoning and subdivision ordinances or regulations in effect thereon.

ANNEXATION ORD. NO. 11390
ENACTED FEBRUARY 25, 2003

Under the authority conferred by Chapter 113, Public Acts of 1955, and the amendments thereto (T.C.A. § 6-51-101, et seq.), that there be and hereby is annexed to the City of Chattanooga, Tennessee, and included within the corporate boundaries of said City an area of Lee Highway and Interstate 75, in Hamilton County, contiguous to the corporate boundaries of said City which is more fully described as follows:

IN THE THIRD CIVIL DISTRICT OF HAMILTON COUNTY, TENNESSEE:

BEGINNING at a point in the city limits line of Chattanooga, at the southeast corner of parcel 132-003 on the north right-of-way of Mountain View Road; thence southwesterly with the north right-of-way of Mountain View Road to the intersection of Mountain View Road with Snow Hill Road; thence with the right-of-way of Snow Hill Road northwesterly along the line of parcel 132-003 to the common corner of parcel 132-003 and 132-003.03; thence crossing the fifty foot (50') right-of-way of Snow Hill Road in a northwesterly direction to the corner of parcel 132-003.04; thence running with the common line between parcel 132-003.04 and 122M-A-105 to the northwest corner of parcel 132-003.04; thence in a southeasterly direction across Snow Hill Road to a point in the south right-of-way line of Snow Hill Road, being the corner of parcel 123-007.01; thence running with the south right of way line of Snow Hill Road to the line of parcel 123-007.01 in an easterly direction to the intersection with the south right-of-way of Amos Road; thence running with the south right-of-way of Amos Road to the northeast corner of parcel 123-007.01; thence crossing the right-of-way of Amos Road to a point in the east right-of-way line of Amos Road, being the northwest corner of parcel 123-007.05; thence northeasterly with the line of parcel 123-007.05 to the common corner of parcel 123-007.05 and parcel 123-007.03; thence northeasterly with the common line of parcel 123-007.03 and parcel 123-003 to a point; thence northwesterly with the common line of parcel 123-007.03 and parcel 123-003 to the common corner of parcel 123-007.03 and parcel 123.007; thence northwesterly with the common line of parcel 123-003 and parcel 123-007 to a point in the line of parcel 122-050; thence southeasterly with the common line of parcel 122-050 and parcel 123-007 to a point in the line of parcel 123-008.06; thence northeasterly with the common line of parcel 122-050, parcel 122-048, parcel 123-008.06, and parcel 123-008.01 to a common corner of parcel 123-008.01 and parcel 122-048; thence southeasterly along the common line of parcel 123-008.01 and parcel 122-048 to a point in the right-of-way of Transport Lane; thence with the right-of-way of Transport Lane to a point in the line of parcel 123-009.04; thence northwesterly with the common line of parcel 122-048 and parcel 123-009.04 to the southwest corner of parcel 123-009.04; thence northeasterly with the common line of parcel 122-048 and parcel 123-009.04 to the northwest corner of parcel 123-009.04; thence southeasterly with the common line of parcel 123-009.05, parcel 123-009.04, parcel 123-009.03, parcel 123-009.02, and parcel 123-009.01 to the northeast corner of parcel 123-009.01, being a point in the west right-of-way of Mountain View Road; thence running perpendicular to the east right-of-way of Interstate 75, and crossing Mountain View Road, to a point in the east right-of-way line of Interstate 75, being a point in the line of parcel 123-063; thence southwesterly with the east right-of-way line of Interstate 75 to the city limit line, being the corner of parcel 132.002; thence with the city limit line of Chattanooga northwesterly across Interstate 75 to the BEGINNING.

SUBJECT TO Governmental zoning and subdivision ordinances or regulations in effect thereon.

ANNEXATION ORD. NO. 11391
ENACTED FEBRUARY 25, 2003

Under the authority conferred by Chapter 113, Public Acts of 1955, and the amendments thereto (T.C.A. § 6-51-101, et seq.), that there be and hereby is annexed to the City of Chattanooga, Tennessee, and included within the corporate boundaries of said City an area of Lee Highway and Interstate 75, in Hamilton County, contiguous to the corporate boundaries of said City which is more fully described as follows:

IN THE THIRD CIVIL DISTRICT OF HAMILTON COUNTY, TENNESSEE:

BEGINNING at a point in the existing City Limit Line of Chattanooga, Tennessee, at the common corner of parcel 131-042.01, 131-042.03 and the right-of-way of Hilltop Drive; thence, southwesterly along the north right-of-way of Hilltop Drive and parcels 131-042.01 and 131-044.02 crossing the 50 foot right-of-way of Country Village Drive (Private Road) to a corner of parcel 131-044, being the northwest corner of the right-of-way of Hilltop Drive; thence southeasterly to the right-of-way of Interstate 75; thence running southwesterly with the right-of-way of Interstate 75 and the line of parcel 131-044 to a point, the common corner of parcel 131-099.02 and parcel 131-044; thence, northeast to common corner of parcel 131-044, parcel 131-099.02 and parcel 131-099.01; thence, northeast with the common boundary of parcel 131-044 and parcel 131-099.01 to a point, the common corner of parcel 131-044 and parcel 131B-A-026; thence, southeast with the common line of parcel 131-044, parcel 131-044.02 and the boundary of the Country Village subdivision, crossing the right-of-way of Country Village Drive (Private Road) to common corner of parcel 131-044.02 and 131G-B-001; thence, northeasterly along the common line of parcel 131-044.02, parcel 131-042.01, and the boundary of the Country Village subdivision to the northwest corner of parcel 131-042.01; thence southeasterly along the common line of parcel 131-042.01 and parcel 131-048, parcel 131-049, parcel 131-053.03, parcel 131-053.02, parcel 131-055, parcel 131-040, and parcel 131-041 to the northeast corner of parcel 131-042.01; thence southeasterly to the BEGINNING.

SUBJECT TO Governmental zoning and subdivision ordinances or regulations in effect thereon.

ANNEXATION ORD. NO. 11392
ENACTED FEBRUARY 25, 2003

Under the authority conferred by Chapter 113, Public Acts of 1955, and the amendments thereto (T.C.A. § 6-51-101, et seq.), that there be and hereby is annexed to the City of Chattanooga, Tennessee, and included within the corporate boundaries of said City an area of Bonny Oaks Drive, in Hamilton County, contiguous to the corporate boundaries of said City which is more fully described as follows:

IN THE THIRD CIVIL DISTRICT OF HAMILTON COUNTY, TENNESSEE:

BEGINNING at the existing City Limit Line of Chattanooga, Tennessee, at the intersection of the southern right-of-way line of Bonny Oaks Drive and the northeastern right-of-way line of North Bishop Drive; thence, in a southeastern direction along the right-of-way of Bonny Oaks Drive and the northeastern boundary line of parcel 129M-D-010, across the 50 foot right-of-way of Bonnyshire Drive along the northeastern boundary line of parcel 129M-E-002 to the common corner of parcel 129M-E-002 and parcel 130-001; thence, southwesterly along the common property line of parcel 129M-E-002 and 129M-E-001 and parcel 130-001 to the common corner of parcel 129M-E-001 and parcel 138-001; thence, southeasterly along the common boundary of parcel 138-001 and 130-001; thence, southeasterly with the common boundary to the common corner of parcel 138-001 and 138-001.01; thence, southwesterly to the common line of parcel 138-001.01 and the railroad right-of-way owned by the United States of America; thence southwesterly along the northern right-of-way of the railroad to the common corner of parcel 138-001.01 and parcel 138-001.02; thence, southwesterly along the northern right-of-way of the railroad to the common corner to the common corner of parcel 138-001.02, 138D-B-002.02 and the railroad right-of-way; thence, running northeasterly along the common line of

parcel 138-001.02, parcel 129M-D-013, parcel 129M-D-012, parcel 129M-D-011, parcel 129M-D-010, and the boundary line of the Austin Farms subdivision to the west right-of-way of North Bishop Drive; thence with the west right-of-way of North Bishop Drive to the BEGINNING.

SUBJECT TO Governmental zoning and subdivision ordinances or regulations in effect thereon.

ANNEXATION ORD. NO. 11393
ENACTED FEBRUARY 25, 2003

Under the authority conferred by Chapter 113, Public Acts of 1955, and the amendments thereto (T.C.A. § 6-51-101, et seq.), that there be and hereby is annexed to the City of Chattanooga, Tennessee, and included within the corporate boundaries of said City an area of Bonny Oaks Drive, in Hamilton County, contiguous to the corporate boundaries of said City which is more fully described as follows:

IN THE THIRD CIVIL DISTRICT OF HAMILTON COUNTY, TENNESSEE:

BEGINNING at a point in the existing City Limit line of Chattanooga, Tennessee, at the intersection of the southern right-of-way of Bonny Oaks Drive and the west right-of-way of Hickory Valley Road; thence southeasterly along the west right-of-way of Hickory Valley Road and the property lines of parcel 130-002, parcel 139-001, and parcel 139-002 to the southeast corner of parcel 139-002; thence northwesterly along the common line between parcel 139-002, parcel 139-001 and parcel 130-001 to the southwest corner of parcel 139-001; thence northeasterly along the common line between parcel 139-001 and parcel 130-001 to the northwest corner of parcel 139-001; thence southeasterly along the common line between parcel 139-001 and parcel 130-001 to a point, being a corner of parcel 130-002; thence along the common line between parcel 130-002 and parcel 130-001 to a point in the south right-of-way line of Bonny Oaks Drive, the common corner of parcel 130-001 and parcel 130-002; thence along the southern right-of-way of Bonny Oaks Drive to the BEGINNING.

SUBJECT TO Governmental zoning and subdivision ordinances or regulations in effect thereon.

ANNEXATION ORD. NO. 11394
ENACTED FEBRUARY 25, 2003

Under the authority conferred by Chapter 113, Public Acts of 1955, and the amendments thereto (T.C.A. § 6-51-101, et seq.), that there be and hereby is annexed to the City of Chattanooga, Tennessee, and included within the corporate boundaries of said City an area of Bonny Oaks Drive, in Hamilton County, contiguous to the corporate boundaries of said City which is more fully described as follows:

IN THE THIRD CIVIL DISTRICT OF HAMILTON COUNTY, TENNESSEE:

BEGINNING at a point in the city limit line of Chattanooga in the north right-of-way of Old Lee Highway at the corner or parcel 131P-A-012; thence northwesterly with the line of parcel 131P-A-012 and the right-of-way of the Norfolk Southern Railroad to the northwest corner of parcel 131P-A-012; thence northeasterly with the right-of-way of the Norfolk Southern Railroad and the line of parcel 131P-A-012, parcel 131P-A-012.01, parcel 131P-A-011.01, parcel 131P-A-009, parcel 131P-A-008, parcel 131P-A-003, and parcel 131P-A-002 to the northeast corner of parcel 131P-A-002, being a common corner with parcel 131P-A-001; thence southwesterly with the line of parcel 131P-A-001 and parcel 131P-A-002 to the north right-of-way of Old Lee Highway; thence westerly with the north right-of-way of Old Lee Highway to the BEGINNING.

SUBJECT TO Governmental zoning and subdivision ordinances or regulations in effect thereon.

ANNEXATION ORD. NO. 11395
ENACTED FEBRUARY 25, 2003

Under the authority conferred by Chapter 113, Public Acts of 1955, and the amendments thereto (T.C.A. § 6-51-101, et seq.), that there be and hereby is annexed to the City of Chattanooga, Tennessee, and included within the corporate boundaries of said City an area of Bonny Oaks Drive, in Hamilton County, contiguous to the corporate boundaries of said City which is more fully described as follows:

IN THE THIRD CIVIL DISTRICT OF HAMILTON COUNTY, TENNESSEE:

BEGINNING at a point in the city limit line of Chattanooga in the south right-of-way of Old Lee Highway at the corner or parcel 131P-A-014; thence southwesterly with the line of parcel 131P-A-014, parcel 131P-A-015, and parcel 131P-A-018 to the southeast corner of parcel 131P-A-014, being a point on the line of parcel 131P-A-019.02; thence northwesterly with the line of parcel 131P-A-014, parcel 131P-A-014.01, parcel 131P-A-014.02 and parcel 131P-A-019.02 to the southwest corner of parcel 131P-A-014.02; thence northeasterly with the line of parcel 131P-A-014.02 and parcel 139D-A-001 to the northwest corner of parcel 131P-A-014.02, being a point on the south right-of-way of Old Lee Highway; thence easterly with the south right-of-way of Old Lee Highway to the BEGINNING.

SUBJECT TO Governmental zoning and subdivision ordinances or regulations in effect thereon.

ANNEXATION ORD. NO. 11396
ENACTED FEBRUARY 25, 2003

Under the authority conferred by Chapter 113, Public Acts of 1955, and the amendments thereto (T.C.A. § 6-51-101, et seq.), that there be and hereby is annexed to the City of Chattanooga, Tennessee, and included within the corporate boundaries of said City the Valley Hospital property, in Hamilton County, contiguous to the corporate boundaries of said City which is more fully described as follows:

IN THE THIRD CIVIL DISTRICT OF HAMILTON COUNTY, TENNESSEE:

BEGINNING at a point in the existing City Limit Line of Chattanooga, Tennessee, on the northeast right-of-way line of Morris Hill Road and the western property line of parcel 149M-A-006, thence, northwesterly along said right-of-way line to the southwest corner of parcel 149M-A-001.01, thence, southeasterly along a common line between parcel 149M-A-006 and parcel 149M-A-001.01, parcel 149M-A-001.03 to the southeast corner of parcel 149M-A-001.03; thence northerly along the common line of parcel 149M-A-001.02 and parcel 149M-A-001.03 to the northeast corner of parcel 149M-A-001.03; thence northerly to the northeast corner of parcel 149M-A-002.01; thence northwesterly to a corner of parcel 149M-A-002.01, being a point in the line of parcel 149M-A-003; thence northeasterly with the city limit line of Chattanooga to the southeast corner of parcel 149M-A-007.01; thence northeasterly along the common line of parcel 149M-A-006 and parcel 149M-A-007.01, and parcel 149M-A-007 to a point in the line of parcel 149L-D-006; thence, southeasterly along the common line between parcel 149M-A-006 and parcel 149L-D-006, parcel 149L-D-007, parcel 149L-D-008, parcel 149L-D-009, and 149E-L-011 to the northeast corner of parcel 149M-A-006; thence southwesterly along common line of parcel 149M-A-006 and Valley View subdivision to the corner of parcel 149M-A-006.01; thence northwesterly with the line of parcel 149M-A-006 to the northwest corner of parcel 149M-A-006.01; thence southwesterly with the line of parcel 149M-A-006 to the southwest corner of parcel 149M-A-006.01; thence southeasterly with the line of parcel 149M-A-006 to the southeast corner of parcel 149M-A-006.01, being the common corner with 159D-C-021; thence southwesterly along common line of parcel 149M-A-006 and Valley View subdivision to the southeast corner of parcel 149M-A-006, being a common corner with parcel 159D-B-019.01, thence northwesterly with the common line of 149M-A-006 and parcel 159D-B-019.01 and parcel 159D-B-023 to the BEGINNING.

SUBJECT TO Governmental zoning and subdivision ordinances or regulations in effect thereon.

ANNEXATION ORD. NO. 11397
ENACTED FEBRUARY 25, 2003

Under the authority conferred by Chapter 113, Public Acts of 1955, and the amendments thereto (T.C.A. § 6-51-101, et seq.), that there be and hereby is annexed to the City of Chattanooga, Tennessee, and included within the corporate boundaries of said City an area of East Brainerd, in Hamilton County, contiguous to the corporate boundaries of said City which is more fully described as follows:

IN THE THIRD CIVIL DISTRICT OF HAMILTON COUNTY, TENNESSEE:

BEGINNING at a point in the city limits of Chattanooga at the northeast intersection of Morris Hill Road and East Brainerd Road, said point being the southwest corner of parcel 171C-B-009.03, and running northeasterly along the east right-of-way of Morris Hill Road to the northeast corner of parcel 171C-B-009.03; thence running along the common line of parcel 171C-B-010 and parcel 171C-B-009.03, parcel 171C-B-009.02, parcel 171C-B-009, and parcel 171C-B-009.01 to a point in the line of parcel 171C-D-008; thence northeasterly with the common line of parcel 171C-B-010, parcel 171C-B-016, parcel 171C-B-017, parcel 171C-B-019, parcel 171C-B-009.03, and parcel 171C-D-008 and parcel 171C-D-007 to the northwest corner of parcel 171C-D-007; thence southeasterly with the common line of parcel 171C-D-007 and parcel 171C-B-003.02 to the northwest corner of parcel 171C-B-004; thence southwesterly with the common line of parcel 171C-B-004, parcel 171C-B-005, and parcel 171C-B-006 to the northwest corner of parcel 171C-B-006; thence southeasterly with the common line of parcel 171C-B-006 and parcel 171C-B-005 to the northern right-of-way of East Brainerd Road; thence crossing East Brainerd Road to a point on the southern right-of-way of East Brainerd Road; thence southwesterly with the southern right-of-way of East Brainerd Road to the corner of parcel 171C-D-001; thence southeasterly with the common line of parcel 171C-D-001 and parcel 171C-D-003 to the southeast corner of parcel 171C-D-001; thence northwesterly with the common line of parcel 171C-D-001 and parcel 171C-D-003 to the east right-of-way of Fuller Road; thence crossing Fuller Road to the common corner of parcel 171C-E-005.01 and parcel 171C-E-006; thence southwesterly with the common line of parcel 171C-E-005.01 and parcel 171C-E-006 to the southeast corner of parcel 171C-E-005.01; thence northwesterly with the common line of parcel 171C-E-005.01 and parcel 171C-E-005, crossing a private easement to the city limits on parcel 171C-E-003.01; thence running with the city limit line northwesterly to a point; thence with the city limit line northeasterly to a point in the southern right-of-way of East Brainerd Road; thence running westerly with the southern right-of-way of East Brainerd Road to the northwest corner of parcel 171C-E-002; thence crossing East Brainerd Road to the BEGINNING.

SUBJECT TO Governmental zoning and subdivision ordinances or regulations in effect thereon.

ANNEXATION ORD. NO. 11406
ENACTED MARCH 25, 2003

Under the authority conferred by Chapter 113, Public Acts of 1955, and the amendments thereto (T.C.A. § 6-51-101, et seq.), that there be and hereby is annexed to the City of Chattanooga, Tennessee, and included within the corporate boundaries of said City an area of the Jenkins Road Extension, in Hamilton County, contiguous to the corporate boundaries of said City which is more fully described as follows:

IN THE THIRD CIVIL DISTRICT OF HAMILTON COUNTY, TENNESSEE:

BEGINNING at a point in the city limit line of Chattanooga on the west right-of-way line of Old Lee Highway at the intersection of the south right-of-way of Stonehenge Drive, being the northwest corner of parcel 139F-E-002; thence southeasterly with the line of parcel 139F-E-002 and parcel 139F-E-003 to the northeast corner of parcel 139F-E-002; thence southwesterly with the line of parcel 139F-E-002 and parcel 139F-E-003 to the southeast corner of parcel 139F-E-002, being a point in the line of parcel 139F-E-001; thence southeasterly with the line of parcel 139F-E-003 and parcel 139F-E-001 to the northeast corner of parcel 139F-E-001; thence southwesterly with the line of parcel 139F-E-003 and

parcel 139F-E-001 to the southeast corner of 139F-E-001, being a point in the line of parcel 139F-006.03; thence southeasterly with the line of parcel 139F-006.03, parcel 139F-E-003, and parcel 139F-E-012 to the corner of parcel 139F-E-020, being the corner of the Stonehenge subdivision; thence continuing southeasterly with the line of the Stonehenge subdivision and parcel 139-012 to the northeast corner of parcel 139-012, being a point in the north right-of-way of an unnamed street; thence continuing southeasterly with the line of the Stonehenge subdivision and the north right-of-way of an unnamed street to the southeast corner of parcel 139E-B-001.06, being the boundary of the Stonehenge subdivision; thence continuing southeasterly with the north right-of-way of an unnamed street and the line of parcel 139-014 and parcel 139-022 to a point on the extended eastern line of parcel 139-013; thence southwesterly across the unnamed street to the northeast corner of parcel 139-013; thence continuing southwesterly with the line of parcel 139-013, parcel 139-019, and parcel 139-020 to the southeast corner of parcel 139-013, being a point in the line of parcel 139-007; thence southeasterly with the line of parcel 139-007, parcel 139-020, parcel 139-021.01, and parcel 139-021 to the southeast corner of parcel 139-021, being a corner of the Fair Oaks subdivision; thence continuing southeasterly with the line of the Fair Oaks subdivision and parcel 139-007 to the northeast corner of parcel 139-007; thence southwesterly with the line of the Fair Oaks subdivision, parcel 139-007, and parcel 139-006.02 to the southeast corner of parcel 139-006.02, being a corner of the Brock Pointe subdivision; thence northwesterly with the line of parcel 139-006.02 and the Brock Pointe subdivision to the east right-of-way line of Brock Road and the northwest corner of parcel 139M-C-033; thence crossing brock Road to the northeast corner of parcel 139M-D-001; thence westerly with the line of parcel 139-006.02 and the Brock Point subdivision to a point in the line of parcel 139-006; thence southeasterly with parcel 139-006 and the Brock Point subdivision to the southeast corner of parcel 139-006, being a point in the line of parcel 139-005; thence northwesterly with the line of parcel 139-006 and parcel 139-005 to the northeast corner of parcel 139N-B-010, being a corner of the Cambridge Estates subdivision; thence northwesterly with the line of the Cambridge Estates subdivision and parcel 139-006 to the northeast corner of parcel 139-004; thence northwesterly with the line of parcel 139-006 and parcel 139-004 to the northeast corner of parcel 139-004.02; thence southwesterly with the line of parcel 139-004 and parcel 139-004.02 to the east right-of-way of the Jenkins Road Connector; thence running southeasterly with the east right-of-way of the Jenkins Road Connector to the existing city limits of Chattanooga; thence northwesterly with the city limits of Chattanooga across the right-of-way of the Jenkins Road Connector to the corner of parcel 139-004.01; thence northwesterly continuing with the city limits of Chattanooga and the line of parcel 139-004.01 to the corner of parcel 139-004.01 in the right-of-way of Standifer Gap Road; thence northeasterly with the city limits of Chattanooga and the line of parcel 139-004.01 to the southwest corner of parcel 139-006; thence with the city limits of Chattanooga and the line of parcel 139-004.01 to the southwest corner of parcel 139-006; thence with the city limits of Chattanooga and the line of parcel 139-003.04 and parcel 139-006.04 to the northwest corner of parcel 139-006.04, being in the right-of-way of Intestate 75 thence northeasterly with the right-of-way of Intestate 75 and Old Lee Highway to the BEGINNING.

SUBJECT TO Governmental zoning and subdivision ordinances or regulations in effect thereon. EXCLUDING Tax Map No. 139F-E-001.01, more particularly described as follows:

BEGINNING at a point in the existing City Limit of Chattanooga, Tennessee, on the east right-of-way line of Old Lee Highway and the northern property line of parcel 139-006.03, being the southwestern corner of parcel 139F-E-001.01, thence, northeasterly along said right-of-way line 320'+/- to the northwest corner of parcel 139F-E-001.01; thence, southeasterly 557'+/- along a common line between parcel 139F-E-001.01 and parcel 139F-E-001.02 to the northeast corner of parcel 139F-E-001.01; thence southernly 320'+/- along the common line of parcel 139F-E-001.01 and parcel 139F-E-001.02 to the southeast corner of parcel 139F-E-001.01, being a point in the line of parcel 139-006.03; thence northwesterly 557'+/- along a common line between parcel 139F-E-001.01 and parcel 139-006.03 to the point BEGINNING.

ANNEXATION ORD. NO. 11501
ENACTED DECEMBER 16, 2003

Under the authority conferred by Chapter 113, Public Acts of 1955, and the amendments thereto (T.C.A. § 6-51-101, et seq.), that there be and hereby is annexed to the City of Chattanooga, Tennessee, and included within the corporate boundaries of said City an area of the Jenkins Road Extension, specifically Tax Map No. 139F-E-001.01, in Hamilton County, contiguous to the corporate boundaries of said City which is more fully described as follows:

IN THE THIRD CIVIL DISTRICT OF HAMILTON COUNTY, TENNESSEE:

BEGINNING at a point in the existing City Limit of Chattanooga, Tennessee, on the east right-of-way line of Old Lee Highway and the northern property line of parcel 139-006.03, being the southwestern corner of parcel 139F-E-001.01, thence, northeasterly along said right-of-way line 320'+/- to the northwest corner of parcel 139F-E-001.01; thence, southeasterly 557'+/- along a common line between parcel 139F-E-001.01 and parcel 139F-E-001.02 to the northeast corner of parcel 139F-E-001.01; thence southerly 320'+/- along the common line of parcel 139F-E-001.01 and parcel 139F-E-001.02 to the southeast corner of parcel 139F-E-001.01, being a point in the line of parcel 139-006.03; thence northwesterly 557'+/- along a common line between parcel 139F-E-001.01 and parcel 139-006.03 to the point BEGINNING.

SUBJECT TO Governmental zoning and subdivision ordinances or regulations in effect thereon.

DEANNEXATION ORD. NO. 11502
ENACTED DECEMBER 16, 2003

Elder Garrison Etal, Cash Canyon, 00000, 116 009.01; Coleman Charles Boyd Jr &, Cash Canyon, 00000, 116 009.02; Tenn River Gorge Natural, Cash Canyon, 02550, 116 013; Thompson John William Berry Iii &, Cash Canyon, 02480, 116 014; Thompson John William Berry Iii &, Cash Canyon, 00000, 116 015; Kellis John David & Tena-Marie, Cash Canyon, 02456, 116 015.01; Townson Jeff A & Susan S, Cash Canyon, 02464, 116 015.02; Jenkins Stephen R & Michelle R, Cash Canyon, 02488, 116 015.03; Thompson John William Berry Iv &, Cash Canyon, 02481, 116 015.04; Shaffner Gaylen & Doris, Cash Canyon, 02476, 116 015.05; Adams James W & Betty, Cash Canyon, 02470, 116 015.06; Kellis John David & Tena Marie, Cash Canyon, 02458, 116 015.07; Hudson Kendrick B Jr, Cash Canyon, 02375, 116 016; Mccroskey Joseph J Jr, Cash Canyon, 00000, 116 016.01; Stolpmann Family Partners Lp, Cash Canyon, 00000, 116 017; Stolpmann Fred J, Cash Canyon, 02357, 116 017.01; Thompson Cemetery, Cash Canyon, 00000, 116 018; Stolpmann Leo J, Cash Canyon, 00000, 125 001; Scott R P Tr Etal, Cash Canyon, 00000, 125 002; Brown Gerald, Cash Canyon, 01850, 125 003.01; Tennessee River Gorge Trust, Cash Canyon, 00000, 125 003.02; Spears Wickliffe R, Cash Canyon, 00000, 125 003.03; Hixson David & Alison, Cash Canyon, 01880, 125 003.04; Foy James A, Cash Canyon, 00000, 125 004; Foy Carolyn M, Cash Canyon, 01820, 125 004.01; Investment Properties Co, Cash Canyon, 00000, 125 005; Goins James W Etux, Cash Canyon, 01771, 125 006; Brown Billy D & Marion Ann, Cash Canyon, 01751, 125 007; Tennessee River Gorge Trust Inc, Elderview, 00000, 134 024.09; Moore Richard L & Tammy B, Cash Canyon, 01515, 134 037; Penney Carl E & Ola J, Cash Canyon, 01505, 134 037.04; Brady Vicky S., Cash Canyon, 01509, 134 037.05; Haley Jerry L & Peggy F, O Grady, 01520, 134 040; Johnson Randall W & Melissa S, Cash Canyon, 01580, 134 040.01; Pwi Realty Company Llc, Cash Canyon, 00000, 134 040.02; Tanner Leonard R, Cash Canyon, 00000, 134 040.03; Coker David T & Kathy L, Cash Canyon, 01560, 134 040.04; Tanner Leonard R Jr & Sarah G, Cash Canyon, 00000, 134 040.05;

Coker David T & Kathy L, Cash Canyon, 01580, 134 040.06; Fry Vernon Jackson &, O Grady, 01480, 134 041; Prince Shirley Calhoun &, Cash Canyon, 01510, 134 042; Foster G F & Eva, Cash Canyon, 01610, 134 044; Foster William C & Ruby Faye, Cash Canyon, 01616, 134 044.02; Title Cemetery, Cash Canyon, 00000, 134 045; Mc Nabb Alvin Nathan & Robin Denise, Cash Canyon, 01650, 134 046

ANNEXATION ORD. NO. 11511
ENACTED JANUARY 20, 2004

Under the authority conferred by Chapter 113, Public Acts of 1955, and the amendments thereto (T.C.A. § 6-51-101, et seq.), that there be and hereby is annexed to the City of Chattanooga, Tennessee, and included within the corporate boundaries of said City an area on the side of Lookout Mountain, in Hamilton County, contiguous to the corporate boundaries of said City, owned by Alfred N. Vail, Jr. and Teresa D. Vail, which territory is more fully described as follows:

IN THE THIRD CIVIL DISTRICT OF HAMILTON COUNTY, TENNESSEE:

Lot No. Two (2), John Wilson Subdivision, as shown by plat of record in Plat Book 42, Page 151, in the Register's Office of Hamilton County, Tennessee.

REFERENCE is made for prior title to Book 2876, Page 913, in the Register's Office of Hamilton County, Tennessee.

SUBJECT to governmental zoning and subdivision ordinances or regulations in effect thereon.

The preceding, last registered Instrument relating to the property or subject matter embraced in this Instrument is a UCC-1 Form and is recorded in Book 3010, Page 410, in the Register's Office of Hamilton County, Tennessee.

ANNEXATION ORD. NO. 12291
ENACTED SEPTEMBER 29, 2009

Under the authority conferred by Chapter 113, Public Acts of 1955, and the amendments thereto (T.C.A. § 6-51-101, *et seq.*), that there be and hereby is annexed to the City of Chattanooga, Tennessee, and included within the corporate boundaries of said City, certain parcels adjacent to Cummings Highway known as Area 1B within the Urban Growth Boundary of the City of Chattanooga, in Hamilton County, contiguous to the corporate boundaries of said City, which is more fully described as follows:

IN THE FIRST CIVIL DISTRICT OF HAMILTON COUNTY, TENNESSEE:

Beginning in the present city limit boundary at the intersection of Cummings Cove Drive and northeast corner of property now or formerly owned by Black Creek Club LLC (153E-007.07); thence proceeding southward a distance of 500 feet, more or less, along Cummings Cove Drive right-of-way to the intersection of the northeast corner of Lot 106, now or formerly owned by Phyllis and Irwin Perlman (153E-A-001) Cummings Cove Golf Club Subdivision Phase One (Plat Book 60, Page 174) and the Cummings Cove Drive right of way; thence proceeding southwesterly a distance of 100 feet, more or less, across Cummings Cove Drive right of way to the northeast corner of property now or formerly owned by Black Creek Club LLC (153-007.07); thence proceeding southward a distance of 4,950 feet, more or less, along the current boundary of the City of Chattanooga to the southern corner of property now or formerly owned by Obar Investments LLC (153-007); thence proceeding westward a distance of 5,315 feet, more or less, to the southwest corner of property now or formerly owned by Alpine Development LLC (153-007.02); thence proceeding northeasterly a distance of 1,964 feet, more or less, following the northern property line of property now or formerly owned by Alpine Development LLC (153-007.02) to the northern corner of property now or formerly owned by Alpine Development LLC (153-007.02); thence proceeding southeasterly a distance of 1475 feet, more or less, following the property line of the property now or formerly owned by Alpine Development LLC (153-007.02) to the

intersection of a corner of property now or formerly owned by Alpine Development LLC (153-007.02) and the West Hills Road right of way; thence proceeding southeasterly a distance of 115 feet, more or less, along the western line of West Hills Road to the southwest corner of property now or formerly owned by Obar Investments LLC (153-007); thence proceeding northeasterly a distance of 50 feet, more or less, across West Hills Road to the southwest corner of Lot 256 now or formerly owned by Lois Holdridge (153F-B-001) Cummings Cove Golf Club Subdivision Phase Four (Plat book 67, Page 8); thence proceeding westward following the boundary of Cummings Cove Golf Club Subdivision Phase Four 2,500 feet, more or less, to the west corner of Lot 302 now or formerly owned by Steven and Carolyn Sherman (153F-A-033) Cummings Cove Golf Club Subdivision Phase Four and West Hills Road right of way; thence proceeding northeasterly along the eastern line of West Hills Road to the west corner of property now or formerly owned by Black Creek Club LLC (153E-007.07); then following the property line of property now or formerly owned by Black Creek Club LLC (153E-007.07) to the point of beginning. References to parcel numbers in parenthesis above are based upon official Geographic Information System maps maintained by the Hamilton County GIS Department. All of this property lies within the Urban Growth Boundary of the City of Chattanooga as provided in the Master Interlocal Agreement between municipalities within Hamilton County effective May 23, 2001. Included in this annexation are all tax parcels listed below and as shown on the attached map for Annexation Area 1B.
